SECTION B: SUPPLIES OR SERVICES

- (1) The Government Publishing Office (GPO) intends to issue a Multiple Award Task Order Contract (MATOC) from this solicitation. The awardees will compete for task orders, issued as needed, for various On-site Services to be performed at Government facilities.
- (2) The GPO reserves the right to order any of or none of the services required in this contract.
- (3) If the Contracting Officer (CO) determines that a fair and reasonable price has not been obtained through the task order competition for a particular project, the Government reserves the right to contract for the work outside of this MATOC by whatever means is deemed appropriate.
- (4) Individual task orders will be awarded on the basis of best value, lowest price technically acceptable, or as otherwise stated in the individual task order.
- (5) The only work authorized under a MATOC is work ordered by the Government through the issuance of task orders. The Government makes no representation concerning the number of task orders or the actual amount of work to be ordered under this contract.
- (6) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; *provided*, that the Contractor shall not be required to make any deliveries under this contract after the performance time stated on the final task order (including option years or option periods).
- (7) One or more of the following factors (criteria) may be identified in the Task Order Request for Proposal (RFP) when Contractors compete for the award of a task order: (1) Price, (2) Technical Capability/Approach (3) Past Performance, (4) Quality of Deliverables, (5) Ability to Meet Performance Schedule Requirements, (6) Relevant Experience, and (7) any other criteria which may be identified by the Government based on project requirements.
- (8) The Offeror shall include a 5% trade discount for all services provided under each task order awarded under this contract. The trade discount is applicable to each task ordered awarded under this contract, regardless of the scope of the individual task order. The GPO will pay the Contractor the amount billed, less the 5% trade discount. Payment shall be made within thirty (30) days of receipt of the signed off invoice by the agency at GPO's finance department. The trade discount will be automatically applied by GPO and need not be listed on the invoice.
- (9) The Offeror may include a prompt payment discount to the GPO in addition to the trade discount under each task order awarded.
- (10) Contract term for this MATOC shall be for two (2) years from the Term of Program date listed on the issued Purchase Order with up to three (3) optional 12-month extension periods.
- (11) The GPO intends to solicit for additional proposals twice per year (proposals due approximately May 1 and November 1, subject to change at the Government's discretion), with the effective date for any additional awards commencing from the date of award through the established coterminous end date of the current term of the Umbrella Contract. The initial solicitation for additional proposals is planned for approximately November 1, 2025. There will be no solicitations for additional proposals after Option Year 3 of the Umbrella Contract. Solicitations for additional proposals will be posted electronically on GPO.gov and SAM.gov. Any contractors having already received an award under the D951-M do not need to resubmit a proposal during the term of the Umbrella Contract.

NOTE: This Umbrella Contract coincides with the C980-M Umbrella Contract for consulting services. Any Contractor awarded a task order under the C980-M contract will NOT be considered for award on corresponding task orders for the same facility on the D951-M contract unless specifically stated that it is

acceptable in the task order or approved by the Contracting Officer.

SECTION C: STATEMENT OF WORK

C.1 BACKGROUND

The 951-M Umbrella Contract was established in 2005 to provide on-site services to the Government sector. Now in its 19th year the 951-M continues to grow year-over-year with an average of twenty (20) Task Order contracts awarded per year with an average award amount exceeding \$2,000,000.00 per task order. Each task order contract is individually written to meet the needs of each agency.

C.2 SCOPE

This Request for Proposal (RFP) is to solicit and qualify Contractors who can perform on-site services at various Federal Government agencies to include the contiguous United States (CONUS) and outside of the contiguous United States (OCONUS) locations. All work will primarily be performed on-site at Federal Government facilities throughout the United States. Services may include copying/printing/scanning/faxing and related equipment; production and finishing equipment; personnel; scanning and digitization services; mailing equipment and solutions (both physical and digital); software solutions and services that integrate with copying and printing equipment; and other print related services as described herein. The awardees will compete for individual task orders issued as needed.

Each request for a task order will be sent electronically to all Umbrella Contractors. Each Contractor must designate a single point of contact to receive all task order RFPs. A back-up point of contact shall also be provided in the event the primary point of contact is unavailable. The Government reserves the right to limit competition on task orders when it is in the Government's best interest.

Contractors will be provided with a Statement of Work and other additional instructions as needed for each individual task order opportunity to be issued under this contract. These documents will be issued electronically via email to the Contractor's primary and back-up points of contact.

- (6) The Offeror agrees to execute all that it has undertaken to do, in compliance with the proposal, if that proposal is accepted in writing within (a) the acceptance period stated in paragraph H.1(3) above, or (b) any longer acceptance period stated in paragraph H.1(4) above.

H.2 PRE-AWARD SURVEY

- (1) So that the Government may be assured each Offeror can satisfy the requirements of both this Umbrella Contract as well as each task order opportunity, it reserves the right to conduct a pre-award survey on any or all Offerors, and to consider the results of such survey in any determination to award.
- (2) A pre-award survey shall establish the Contractor’s competence in technical, managerial, financial, and similar areas related to the Offeror’s ability to perform.
- (3) In order to determine the fiscal viability of the prime Contractor or any subcontractor, the Government reserves the right to conduct a financial determination. The Contractor under consideration for award may be required to provide one or more of the following financial documents:
 - (a) Most recent profit and loss statement,
 - (b) Most recent balance sheet,
 - (c) Statement of cash flows,
 - (d) Current official bank statement,
 - (e) Current lines of credit (with amounts available),
 - (f) Letter of commitment from credit supplier(s), and
 - (g) Letter of commitment from any subcontractor (if applicable).
- (4) The documents will be reviewed to validate that adequate financial resources are available to perform the contract requirements. Documents submitted will be kept confidential and used only for the determination of fiscal viability by the Government. Failure to provide the requested information in the time specified by the Government may result in the Contracting Officer not having adequate information to reach an affirmative determination of fiscal viability.

- (5) The Offeror is expected to cooperate in the pre-award survey and to provide all such reasonable information as may be necessary to its purposes.
- (6) Only those proposals from capable suppliers are solicited.

H.3 KEY PERSONNEL

- (1) The Contractor shall provide a single primary point of contact name, address, phone, and email that all communication for the Umbrella Contract will use and that each task order RFP is to be sent to (via email) for the duration of this contract. A single back-up will be allowed on the contract. The back-ups contact information must be provided. If the back-up is a group email box, please provide that information only. The primary point of contact can be changed upon request in writing, however only one primary point of contact shall be granted at a time.
- (2) The personnel designated in the individual task order are considered essential to the work being performed under this contract. Before removing, replacing, or diverting any of the proposed or specified personnel, the Contractor will notify the Contracting Officer at minimum thirty (30) calendar days in advance and submit justification (including proposed substitution) in sufficient detail to permit evaluation of the impact on the contract.
- (3) Due to the nature of this contract, a task order may require that the Project Manager be certified as a Project Management Professional (PMP).
- (4) The Contractor shall make no diversion without the Contracting Officer's written consent, provided that the Contracting Officer may ratify in writing the change, and that ratification shall constitute the Contracting Officer's consent required by this clause.
- (5) The list of personnel specified in the contract schedule may, with the consent of the Contracting parties, be amended from time-to-time during the course of the contract to add and delete personnel.

H.4 SUBCONTRACTING

The predominant production function is facilities management. The predominant production function cannot be subcontracted. Subcontracting, if allowed, will be defined in each task order. Any Offeror who cannot perform the predominant production function will be declared nonresponsible. Facilities Management in this case is defined as services rendered on-site at a Government facility.

H.5 SECURITY

Task orders may require Contractor personnel to obtain up to a Top Secret security clearance before award of the individual task order. Prior to submitting a proposal for the individual task order, the Contractor may be required to obtain and show proof of obtaining a security clearance before being allowed access to facilities and information. Security clearance levels will be defined in each task order if applicable.

H.6 ORDERING

- (1) Any supplies and services to be furnished under this contract shall be competed and awarded by issuance of delivery orders or task orders by the individuals or activities designated in the schedule. Such orders may be issued from the date of the contract award through the effective period of the contract including all option years or option periods. Task orders may include up to four (4) option years which may extend beyond expiration of the Umbrella Contract.
- (2) All delivery orders or task orders are subject to the terms and conditions of this contract. In the event of conflict between a delivery order or task order and this contract, the contract shall control.

- (3) If mailed, a delivery order or task order is considered “issued” when the Government deposits the order in the mail. Orders may be issued orally, by facsimile, or by electronic commerce methods.
- (4) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor’s and Government’s rights and obligations with respect to that order to the same extent as if the order were completed during the contract’s effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after the performance time stated on the final task order (including option years or option periods).

H.7 INDIVIDUAL TASK ORDERS

Since this is a multiple award solicitation, multiple task orders are anticipated to be issued. Each Contractor placed on this contract will be given a fair opportunity to submit a proposal for individual task orders. All task orders will be sent out via email to the Contractors’ point of contact for the contract. The Government reserves the right to limit competition when in its best interest. This competitive process will be simplified in order to facilitate the order process and prevent undue administrative burden upon the Contractor and the Government. The following sections include the procedures that will be used in issuing orders and the procedures and selection criteria that will be used to provide all awardees a fair opportunity to be considered for each order.

(1) Orders

- (a) The Contracting Officer shall ensure that individual orders clearly describe all services to be performed or supplies to be delivered. The Contracting Officer shall ensure that orders are within the scope of the contract as stated in the contract.
- (b) No protest under the MMAR Subpart 33.1 is authorized in connection with the issuance or proposed issuance of an order under a task order contract or delivery order contract except for a protest on the grounds that the order increases the scope, period, or maximum value of the contract.

(2) Order Competition

- (a) The Government will not use any method (such as allocation) that would not result in fair consideration being given to Contractor awardees prior to placing each order.
- (b) The Government plans to provide for task order competition by notifying all qualified Contractors via email of the solicitation posting and due date for receipt of task order proposals. All task order cost/price proposals must be submitted and the individual task order posting may require Contractors to submit in an alternate fashion, e.g., oral presentations. Task order postings will include the following information: the Statement of Work, the level of effort (if applicable), the period of performance; the place of performance and/or delivery, the types/number of Government furnished property (if any), if security clearances and/or secured facilities are required, and any other pertinent information. The Government reserves the right to modify these procedures in any particular task order when determined to be necessary and in the Government’s best interest.
- (c) The Contracting Officer will use their best judgment to decide which Contractor represents the lowest price or best value to the Government or as otherwise stated in the competition of individual orders. Evaluation factors for these task order competitions and their relative weights are discussed further below.

(3) Evaluation of Individual Task Orders

- (a) The award of a task order may be based on lowest price, best value, or as otherwise stated in

- the individual task order. One or more of the following factors (criteria) may be identified in the Task Order Request for Proposal when Contractors compete for the award of a task order: (1) Price, (2) Technical Capability/Approach, (3) Past Performance, (4) Quality of Deliverables, (5) Ability to Meet Performance Schedule Requirements, (6) Relevant Experience, and (7) any other criteria which may be identified by the Government based on project requirements.
- (b) The Contracting Officer or appointed ordering officer reserves the right to modify the above order evaluation criteria and weights to better suit the specific needs of each individual order. Any changes in the evaluation criteria shall be specified in the request for task order proposals.

H.8 TERMINATION OF TASK ORDERS

- (1) The Government may terminate performance of work under any task order in whole or, in part if –
- (a) If the Contractor presents a significant risk to the Government in completing the current contract, the Contracting Officer shall determine whether termination for convenience or cancellation under appropriate contract provisions is in the Government's best interest.
- (b) The Contractor defaults in performing any order and fails to cure the default within ten (10) days (unless extended by the Contracting Officer) after receiving a notice specifying the default. "Default" includes failure to make progress in the work so as to endanger performance.
- (2) The Contracting Officer shall terminate the order by delivering to the Contractor a "Notice of Termination" specifying whether the termination is for default of the Contractor or for convenience of the Government, the extent of termination, and the effective date. If, after termination for default, it is determined that the Contractor was not in default or that the Contractor's failure to perform or to make progress in performance is due to causes beyond the control and without fault or negligence of the Contractor as set forth in the "Excusable Delays" clause, the rights and obligations of the parties will be the same as if termination was for the convenience of the Government.
- (3) After receipt of a "Notice of Termination," and except as directed by the Contracting Officer, the Contractor shall immediately proceed with the obligations specified in the "Termination (Cost Reimbursement)" clause, the "Termination for Convenience of the Government (Fixed Price)" clause or the "Default (Fixed Price Supply and Service)" clause, whichever is applicable.

H.9 TRAVEL

- (1) Official travel of Contractor personnel away from their duty station that was not identified in the Contractor's proposal and negotiated into the task order shall not be undertaken unless advance written approval has been obtained from the Contracting Officer. If travel causes additional costs to the task order, written approval by the Contracting Officer is also required.
- (2) The Contractor's request for travel shall be in writing and contain the dates, location, and estimated costs of the travel.
- (3) Cost associated with the Contractor's travel should not exceed the applicable rates found in the Federal Travel Regulations (FTR) in effect at the time of travel.
- (4) Offeror(s)/Contractor(s) will not be reimbursed for any costs incurred for travel related to the submission of a proposal.

H.10 GOVERNMENT-FURNISHED PROPERTY

Supplies and facilities will be furnished by the Government unless otherwise specified for in the individual

task order.

H.11 CONFIDENTIALITY OF DATA

Duplication or disclosure of the data and other information to which the contractor shall have access as a result of this contract is prohibited. It is understood that throughout performance of this contract, the contractor shall have access to confidential data which is either the sole property of the GPO or is the sole property of other than the contracting parties. The contractor and his subcontractor(s) (if any) agree to maintain the confidentiality of all data to which access may be gained throughout contract performance, whether title thereto vests in the GPO or otherwise. The contractor and his subcontractor(s) (if any) agree to not disclose said data, any interpretations and/or translations thereof, or data derivative there from, to unauthorized parties in contravention of these provisions, without the prior written approval of the Contracting Officer or the party in which title thereto is wholly vested. Subcontractors are subject to the same stipulations and may be held responsible for any violations of confidentiality.

The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary.
- (3) Proposals will be reviewed to determine that they have been prepared in accordance with Section L and that all requirements of Section C have been met. Failure to follow all Section L instructions and address Section C requirements may be grounds for exclusion of the proposal from further consideration.

M.3 BASIS FOR AWARD

The Government will make award to the Offeror(s) determined to be technically acceptable and best qualified to fulfill the requirements of this solicitation using the checklist found in Table 1 below.

- (2) Individual task orders will only be sent to Contractors under this Umbrella Contract for the opportunity to respond to solicitations. Task orders will be awarded following evaluation of proposals based on best value, or at the Government’s option, lowest price technically acceptable, or as otherwise stated in the individual task order opportunity.
- (3) The GPO intends to solicit for additional proposals twice per year (proposals due approximately May 1 and November 1, subject to change at the Government’s discretion), with the effective date for any additional awards commencing from the date of award through the established coterminous end date of the current term of the Umbrella Contract. The initial solicitation for additional proposals is planned for approximately November 1, 2025. There will be no solicitations for additional proposals after Option Year 3 of the Umbrella Contract. Solicitations for additional proposals will be posted electronically on GPO.gov and SAM.gov. Any contractors having already received an award under the D951-M do not need to resubmit a proposal during the term of the Umbrella Contract.
