Update on Treasury’s G-Invoicing Mandate

Joann Sharp, Robin Bilger, Don Bartolomei
What is G-Invoicing (GINV)

- GINV is the U.S. Department of Treasury’s long-term solution for the Federal Government to manage Federal intragovernmental (IGT) Buy/Sell transactions.

- The goal of GINV is to reduce accounting differences and improve communications between Federal agencies.

- GINV will replace Treasury’s legacy paper 7600A and 7600B forms.

- GINV will not replace GPO order forms (e.g. SF-1, 2511, 4044, 4045, 3001.)
GPO’s Readiness for FY24

- **Current status:** No change in how GPO does business during FY 2023. GPO will process transactions through IPAC.

- **October 1, 2023:** GPO will accept General Terms and Conditions and Advance Orders-GINV Deposit Accounts. We ask those customers who are considering Non-Advance Orders to contact GPO to discuss.
  - GPO continues to support transactions through IPAC for agencies who will not be using Advance Orders or are waiting for 7600 EZ.

- **April 1, 2024:** GPO target date to accept 7600 EZ General Terms and Conditions to enable the streamlined 7600 EZ billing method.

- **September 30, 2025:** Full transition to GINV, as Fiscal Service will be retiring IPAC Processes.
  - All legacy IPAC billings must be complete by this date.
GINV Deposit Accounts

- GPO is developing a new Deposit Account platform for GINV Advance Orders.
  - Customer Legacy Deposit Account's will still be available for access and use.

- Customers will be able to access the GPO Financial Document Repository to view their GINV Deposit Accounts, track their 7600B Advance Orders, and obtain GINV Performance information for each Order.

- GPO plans to release additional information and host webinars about the new platform this summer.
GPO also continues to develop the 7600 EZ process.

As stated in Treasury Financial Manual (TFM) Bulletin No. 2022-03, Fiscal Service has established and recommends a separate process flow between agencies and GPO called 7600EZ for GPO Print/Publishing Services. It is based on the high volume of orders and settlements processed through GPO.

- The is no monetary limitation for the 7600 EZ for GPO Print/Publishing Services.

It is projected to go live in FY 2024 and will expedite transaction settlements by combining Order and Performance phases while requiring fewer data elements and fewer approvals.

TFM Bulletin No. 2022-03: [https://tfm.fiscal.treasury.gov/content/tfm/v1/bull/22-03.html](https://tfm.fiscal.treasury.gov/content/tfm/v1/bull/22-03.html).
Next Steps

- Discuss G-Invoicing with those within your agency that is involved in obligating, ordering, and authorizing payments for products and services from GPO.

- All agencies have an identified G-Invoicing Implementation Team, if you require assistance identifying your agency’s G-Invoicing POC, you can send an email to:
  - Treasury Fiscal Service Team: IGT@fiscal.treasury.gov or
  - GPO G-Invoicing Team: ginv@gpo.gov

- Additional resource information is available here:
  - GPO's GINV page: https://www.gpo.gov/how-to-work-with-us/agency/g-invoicing
  - Treasury's main GINV page: https://fiscal.treasury.gov/g-invoice/
  - Treasury's GINV training videos: https://fiscal.treasury.gov/g-invoice/training.html
