Copies and Printing

Make a strong first impression with a paper stock that matches your message. Whether you're creating a handout or newsletter, these paper choices can set you apart instantly.

Consider options for color, weight, texture and sustainability as well as cost. FedEx Office offers a variety of paper choices to meet your needs. Please specify your choice when placing your order and indicate any special preferences, such as recycled content or environmental certification. If no preference is designated at the time of order, you will receive the standard white paper stock that may be updated from time to time.
