If any contractor’s errors are serious enough in the opinion of the GPO to require revised proofs, the revised proofs are to be provided at no expense to the Government. No extra time can be allowed for this reproofing; such operations must be accomplished within the original production schedule allotted in the specifications.

**SECTION 4 – PACKING/CARTONS/LABELING/ADDRESSING/PALLETIZING FOR IRS COPIES:**

**4.1 PACKING:** Pack approximately 3,592,440 (incl blue labels) copies into approximately 44,906 shipping containers. Each carton must contain 80 copies and packed in two (2) even stacks of 40 copies each with full size corrugated boards on top and bottom of stacks. Containers must be packed solid to avoid copies being damaged during transit. Container weight must not exceed 32lbs when fully packed.

**4.2 CARTONS:** Cartons must be corrugated or solid fiber shipping containers, 1380 kPa (200 psi) minimum bursting strength and minimum edge crush strength of 35 psi. Bottom flaps must be glued or sealed with polyester tape 2 to 3” width, minimum 12 kNm (65 lbs./inch) transverse tensile strength. Top flaps of cartons must be securely sealed at top with 2 to 3” paper or polyester tape (not reinforced). Cartons must be packed solid. Cartons must not have excessive air space (dunnage) when fully packed to prevent crushing or deformation. Cartons must not open nor split during transit through the motor freight/airfreight carrier delivery systems.

Stapling of top or bottom flaps on cartons, furnishing cartons with separate lids, overstuffing or crowning cartons, and sealing cartons with plastic strapping is strictly prohibited.

If **carton weight exceeds 32lbs when fully packed**, contractor must email Terri Skyrm at Theresa.L.Skyrm@irs.gov for resolution prior to packing. Carton filler (if necessary) must be composed of material that can be easily removed without damaging contents. Packing peanuts or beads are strictly prohibited. Contractor must determine exact dimensions of carton in accordance with the trim size and weight of product produced. The **exterior dimensions of all cartons must not exceed 17-1/2” (L) x 11-1/2” (W) x 9” (D)**.

**4.3 LABELING/MARKING:** EACH carton must contain an IRS carton label Form 6153 (see Exhibit 6) generated from the provided pdf. Handwritten labels and contractor stream-lined or recreated labels are strictly prohibited. Contractor is required to produce the appropriate number of IRS carton labels needed for this contract on white paper or white adhesive label stock, in black ink, and reproduced the same size as the pdf provided. The completed IRS carton label must be affixed securely to one end of the carton only (never on top, long-side, or bottom). The IRS carton label MUST NEVER be affixed such that it extends over the edge and onto an adjacent side.

For all IRS carton labels (Form 6153), the contractor is required to update/enter the Carton # of # for each address; the “To (Consignee---complete address)” and the “From---contractor’s address,” fields electronically in black ink, and minimum 12pt type. If the remaining fields on the furnished IRS carton label are blank, or the quantity stated on the carton label is not the same quantity being packed within the carton, the contractor must notify Terri Skyrm @ Theresa.L.Skyrm@irs.gov to resolve the discrepancy prior to packing.

If pallets are required, and in addition to a completed IRS Form 6153 being applied to each carton, **contractor must securely affix a completed IRS carton label to all four sides of the stretch wrap and to the top of each pallet**. In addition, the labels affixed to cartons on pallets must be facing out to be easily read, once palletized.

**Small Package Carrier (SPC) Labeling:** In addition to the IRS container label (Form 6153), a contractor created SPC label must be securely affixed to EACH carton shipping via SPC. The SPC label must be affixed securely to the TOP of the container. The SPC carton label MUST NEVER be affixed such that it extends over the edge and onto an adjacent side. Currently, IRS uses UPS as the Small Package Carrier. Contractor MUST generate UPS shipping labels electronically. It is the responsibility of the contractor to be familiar with electronic shipping methods via UPS. There are many ways to generate electronic shipping labels, either through a UPS shipping system (UPS WorldShip System or UPS Internet Shipping), or a 3rd Party Shipping Software (Pitney Bowes Shipping Software, etc.).
From the furnished distribution (.csv) files, the contractor must image/print approximately 10 lines, in black ink, on each SPC label. Imaging/Printing on each SPC label consist of: recipient’s account number on first line (i.e. TF 123456A or p123456789); recipient’s name, and 10-digit telephone number (if supplied) on second line; recipient’s street address on third line; recipient’s city and state on fourth line; Bloomington, IL return address in top left-hand corner of all SPC and USPS labels; and two (2) reference lines at bottom of SPC label.

Contractor must image/print in black ink the following return address on all contractor created UPS and USPS labels:

Internal Revenue Service
National Distribution Center
1201 N. Mitsubishi Motorway
Bloomington, IL 61705-6613.

Imaging/Printing of UPS labels must meet all UPS requirements and regulations at time of shipping.

UPS shipping systems provides two (2) reference fields that are required to be imaged or printed in black ink on each label created by the contractor. Reference fields 1 and 2 below must be imaged or printed in black ink, minimum 12pt type.

1. Reference Field 1:  IRS requisition number and GPO jacket number (i.e. 18-07893/402-908)
2. Reference Field 2:  TAC or TFOP (as applicable)

**USPS Parcel Select Labeling:** In addition to the IRS container label (Form 6153), a contractor created Parcel Select mailing label must be securely affixed to the TOP of the carton. The USPS mail label MUST NEVER be affixed such that it extends over the edge and onto an adjacent side

In addition to the “Postage and Fees” mailing indicia, the contractor must image/print approximately twelve (12) lines from the furnished distribution (.csv) files in black ink, minimum 12pt type, on each USPS label. Imaging/Printing on each USPS label consist of: recipient’s account number on first line (i.e. p123456789 or TF123456A); recipient’s name, and 10-digit telephone number (if supplied) on second line; recipient’s street address on third line; recipient’s city and state on fourth line; Intelligent Mail parcel barcode (IMpb) created by the contractor per the Domestic Mail Manual (DMM) requirements at time of mailing; Bloomington, IL return address in top left-hand corner of all USPS labels; Penalty for Private Use $300 under return address; and two (2) reference fields at bottom of USPS label.

The two (2) reference fields required at the bottom of each USPS label are:

1. Reference Field 1:  IRS requisition number and GPO jacket number (i.e. 18-07893/402-908)
2. Reference Field 2:  TAC or TFOP (as applicable)

**Caution:** In the event that cartons are mislabeled, incorrect carton labels and/or incorrect pallets are utilized, cartons are crushing, collapsing, or bursting due to the cartons not being packed per contract, labels are not securely affixed to the cartons/pallets or labels are affixed to the incorrect area of the cartons/pallets, cartons are not layered correctly on the pallets, pallets are not wrapped properly and securely, the shipment will either be returned to the contractor to be corrected/replaced or the contractor will be required to make the corrections/replacements on site, with all costs borne by the contractor. Contractor must make all corrections and/or replace all damaged materials within 24 hours of notification via email. If the corrections and/or replacements are not completed by the contractor within 24 hours of notification, the Government will hire an outside vendor to make all corrections and/or replacements (except printed product contained within cartons) and the contractor will borne all costs incurred by the Government.

**4.4 COPIES DAMAGED IN TRANSIT:** CONTRACTOR MUST REPLACE AND SHIP ALL COPIES DAMAGED IN TRANSIT WITHIN 24 HOURS OF DEFICIENCY NOTIFICATION, VIA OVERNIGHT DELIVERY. CONTRACTOR WILL BE NOTIFIED OF THE DEFICIENCY VIA EMAIL. CONTRACTOR WILL INCUR ALL CHARGES TO REPLACE AND SHIP DAMAGED COPIES.

**4.5 PALLETS:** All shipments to a single destination weighing more than 750lbs., require pallets. Pallets must be type III and must conform to Federal Specifications NN-P-71C, and any amendments applicable except for dimensions and single center stringer. Pallets must be 48” in length, 40” in width, and must not exceed 5” in height. Full entry MUST be on the 40” width. See Exhibit 7. Strict adherence to these dimensions is necessary to accommodate storage requirements as well as ease of packing into freight carrier trailers. Cartons shall be stacked on pallets using a reverse layer pattern, 9 cartons per layer, with a maximum height of 55”, including pallet. Each carton contained on a pallet must show the completed IRS label (Form 6153) on the exposed side, once palletized. Cartons must be fastened securely to the pallet in a manner that will prevent
movement during transit but permit ready removal, without damage to the cartons, at destinations. The use of metal strapping or pallet caps for securing material on pallets is **strictly prohibited.** **NOTE:** More than one partial pallet per destination is **strictly prohibited.**

The contractor must provide adequate space at the mailing facility for postal employees to perform the necessary verifications. IRS will not apply for plant load authorization or plant verified drop shipment, this will be the contractor's responsibility. It is also the responsibility of the contractor, or their mailer, to ensure that their mailing documentation is completed in a timely manner and submitted to all applicable USPS offices. NOTE: Contractor/Mailer should give at least 72-hour notice for pickup of full truckload shipments.

The postal employee verifying the mail will provide a signed copy of Form 8125 (Plant-Verified Drop Shipment Verification and Clearance (PVDS) document. ELITE Distribution List

Beginning Oct 1, 2011, contractor lists provided by Distribution Requirements personnel will be provided in comma delimited format versus Microsoft Excel. This will provide for a smaller file size, resulting in a more efficient transmission. Additionally, the new distribution files will have additional fields added. The new fields will reduce the amount of file manipulation needed by the contractor and allow for easier direct import into a shipping system.

Below is an overview of fields that will be included in the new file, along with the corresponding field in the UPS WorldShip system software.

Instructions for Form 13456, IRS Publishing Postage Report

Publishing Specialist Instructions: Publishing Specialists must complete the fields in the "IRS Use Only" section of the form. Once these fields are complete, use the "Lock IRS Fields" button at the top of the page to lock the fields and allow the "Email" and "Continuation Page" buttons to be visible. Then attach the Form 13456 in a separate email and send it to the contractor.

Contractor Instructions: Contractors must complete and submit via email a portable document format (PDF) file to the IRS within three (3) workdays after each turnover of the product to the USPS. Details to fill in the data fields, rename the PDF, and email the PDF are below. Scanned pages of the Form 13456 will not be accepted.

1) Fill in contractor and postage data fields
Form 13456 is provided as a fillable PDF file. Each field for the contractor to complete is listed below with specific instructions as needed.

- Name of contractor
- Contact person at contractor's office
- Telephone number of contact person
- Email address of contact person
- Mailing start date: The date the first piece is mailed
- Mailing end date: If not all pieces were sent on the start date, this is the date the last piece is mailed
- Mailings: (Optional). Check this box to note there will be multiple mailings
- Wave: (Optional). Check this box to note that the multiple mailings will be sent in "waves". Use the blank fields next to this check box to distinguish the number of current wave from the number of total waves.
- Zip Code: The ZIP code of the post office from which pieces are mailed
- Date on Mailing Statement: The mailing date on the postage statement
- Pieces Mailed: The number of envelopes, containers, or cartons, etc., that is mailed
- Copies Mailed: The total number of items inside each envelope, container, or carton, etc., that is mailed
- Postage Amount: The total dollar amount listed on each postage statement
- Postage Statement Type: Use the pull down menu to designate which type of postage statement (i.e. USPS Form 3602, 3602-R, 3605, 3600, 3607R) was used.

Form 13456 must contain only postage information for the IRS requisition number at the top of the form. Contractor must not combine postage associated with multiple print order/requisition numbers on a single form.

If all the lines on the front of Form 13456 are filled in, use the "Add New Mailing Rows" button to add another row of data fields.

2) Electronically attach postage statements to Form 13456
Use the "Add Attachment" button at the bottom of Form 13456 to attach postage statement copies. This PDF file must contain the front page of Form 13456 and all continuation sheets (if applicable); and, copies of all postage statements that are associated with the requisition number listed on Form 13456. This results in a new PDF.

3) Rename the new PDF as per the contract specifications
Prior to emailing the new PDF file, the contractor must rename the file. The PDF file must be named using nine (9) digits of the IRS Requisition Number, the first five (5) digits of the Post Office Zip Code, Mailing start date (MM/DD/YYYY), Mailing end date (MM/DD/YYYY) and .pdf (see below).

Example: For requisition number 20YY-12345, the file name will be: 20YY-12345_16625_01-02-YY_01-15-YY.pdf.

In the event the "mailing start date" and the "mailing end date" are the same, the contractor must enter the same date twice in the renamed file (see below).

Example: For requisition number 20YY-18345, the file name will be: 20YY-18345_16625_01-02-YY_01-02-YY.pdf.

4) Email the new PDF (Form 13456 with all attached postage statements)
Use the "Email to IRS . . . " button on the front of Form 13456 to email the PDF to:

- postage@publish.no.irs.gov and, to the
- Publishing Specialist's email address

The PDF file should be sent in a single email when possible. The total file size of the email must be 10 MB or less. If the file size is larger than 10 MB, the contractor must create multiple PDF files, and add a suffix to the end of each file name starting with the letter "a" then "b", etc. (i.e. 20YY-18345_16625_01-02-YY_01-15-YYa.pdf). The contractor is responsible for the accuracy of the information returned to the IRS. Any delay or missing data could result in a delay of payment.
