Prior-to-production samples will be inspected and tested for conformance of materials and must comply with the specifications as to construction, kind, and quality of materials.

Contractor is responsible for all costs incurred in the delivery of the proofs. The Government will approve, conditionally approve, or disapprove the samples. A conditional approval shall state any further action required by the contractor. A notice of disapproval shall state the reasons therefore.

If the samples are disapproved by the Government, the Government, at its option, may require the contractor to submit additional samples for inspection and test, in the time and under the terms and conditions specified in the notice of rejection. Such additional samples shall be furnished, and necessary changes made, at no additional cost to
the Government and with no extension in the shipping schedule. The Government will require the time specified above to inspect and test any additional samples required.

In the event the additional samples are disapproved by the Government, the contractor shall be deemed to have failed to make delivery within the meaning of the default clause in which event this contract shall be subject to termination for default, provided however, that the failure of the Government to terminate the contract for default in such event shall not relieve the contractor of the responsibility to deliver the contract quantities in accordance with the shipping schedule.

In the event the Government fails to approve, conditionally approve, or disapprove the samples within the time specified, the Contracting Officer shall automatically extend the shipping schedule in accordance with Contract Clause 12, "Notice of Compliance With Schedules," of GPO Contract Terms (GPO Publication 310.2, effective December 1, 1987 (Rev. 01-18)).

Manufacture of the final product prior to approval of the samples submitted is at the contractor's risk. SAMPLE(S) WILL NOT BE RETURNED TO THE CONTRACTOR. All costs, including the costs of all samples, shall be included in the contract price for the production quantity.

All samples shall be manufactured at the facilities and on the equipment in which the contract production quantities are to be manufactured.

Loaded pallets must be wrapped with a shrinkable or stretchable plastic strong enough to retain the integrity of the pallet during transportation and handling. Pallets must be prepared in accordance with the requirements in the current Domestic Mail Manual for "Packages and Bundles Presented on Pallets" and "Palletizing Sacks". See the current DMM for preparation requirements for palletizing First-Class Mail. Packages must be palletized separately from sacks. The sack tags must be bar coded and readable by USPS equipment. Further details on pallet loading and flagging may be obtained by consulting local Postal Customer Representatives.

Pallet Staging and Storage: Loaded pallets must be assembled and stored "staged" for eventual turn over to U.S. Postal Service beginning no sooner than the date specified in the Schedule. The pallets are to be staged in an order so that the furthest destinations will be turned over first and the closest destinations last.

IR1052.239-9009 INFORMATION SYSTEMS AND INFORMATION SECURITY CONTROLS FOR CONTRACTING ACTIONS SUBJECT TO IRS PUBLICATION 4812 (JUN 2021)

Publication 4812 Contractor Security & Privacy is an IRS specific guide to NIST SP 800-53 Release 5 when staff-like access to IRS information or information systems under contracts for services on behalf of the IRS is outside of IRS controlled facilities or the direct control of the Service (as opposed to Internal Revenue Manual 10.8.1 – Information Technology (IT) Security, Policy and Guidance, which applies when contractors are accessing IRS information and information systems at Government controlled facilities).

The IRS Publication 4812 is a living document and updated annually to reflect changes from Executive Orders, OMB requirements, NIST updates, etc. The current version of Publication 4812 is located on the irs.gov website.

In performance of this contract, the contractor agrees to comply with the following requirements and assumes responsibility for compliance by its personnel and subcontractors (and their personnel):

1. The contractor shall ensure IRS information and information systems (those of the IRS and/or the contractor, as appropriate) are protected at all times. In order to do so, the contractor shall develop, implement, and maintain effective controls and methodologies in its business processes, physical environments, and human capital or personnel practices that meet or otherwise adhere to the security and privacy controls, requirements, and objectives described in applicable security and privacy control guidelines, and their respective contracts.

   (a) Publication 4812 applicability. This contracting action is subject to Publication 4812 – Contractor Security & Privacy Controls. Publication 4812 is available at:

   (b) The contractor shall adhere to the general guidance and specific security control standards or requirements contained in Publication 4812. By inclusion of this clause in the contract, the most recent version of Publication 4812 is incorporated into the contract and has the same force and effect as if included in the main body of the immediate contract.

2. Flowing down from the Federal Information Security Modernization Act of 2014 (FISMA) and standards and guidelines developed by the National Institute of Standards and Technology (NIST), Publication 4812 identifies basic Technical, Operational, and Management (TOM) security and privacy controls and standards required of under contracts for services in which contractor (or subcontractor) personnel will either—

   (a) Have staff-like access to, develop, operate, or maintain IRS information or information systems on behalf of the IRS (or provide related services) outside of IRS facilities or the direct control of the Service, and/or
(b) Have staff-like access to, compile, process, or store IRS SBU information on their own information systems/Information Technology (IT) assets or that of a subcontractor or third-party Service Provider, or when using their own information systems (or that of others) and on IT, or Electronic Information and Technology (EIT) (as defined in FAR Part 2) other than that owned or controlled by the IRS.

3. Unless the manual specifies otherwise, the IRS-specific requirements in Publication 4812 meet the standard from the latest version of the NIST Special Publication (SP) 800-53 Release 5—Federal Information Systems and Organizations. The security and privacy controls, requirements, and standards described within the Publication 4812 are to be used in lieu of the common, at-large security and privacy control standards enumerated in the latest version of NIST SP 800-53 Release 5.

Publication 4812 also describes the framework and general processes for conducting contractor security reviews—performed by IT Cybersecurity—to monitor compliance and assess the effectiveness of security and privacy controls applicable to any given contracting action subject to Publication 4812.

4. Contractor Security Representative. The contractor shall assign and identify, upon award, a Contractor Security Representative (CSR) and alternate CSR to all contracts requiring staff-like access to Treasury/bureau information, information technology and systems, facilities, and/or assets. 5. Flow down of clauses. The contractor shall include and flow down, in its subcontracts (or arrangements or outsourced service agreements) that entails staff-like access to SBU information by a subcontractor, at any tier, the same Federal Acquisition Regulation (FAR) and local security, privacy or safeguard clauses or provisions for protecting SBU information or information systems that apply to and are incorporated in its prime contract with IRS. IRS Publication 4812 also applies to subcontractors.

(End of clause)

IR1052.239-9010 – INFORMATION SYSTEM AND INFORMATION SECURITY CONTROL STANDARDS AND GUIDELINES APPLICABILITY (JUN 2021)

As part of its information security program, IRS identifies security controls for the organization’s information and information systems in the following three key standards and guiding documents:

- Internal Revenue Manual (IRM) 10.8.1 – Information Technology (IT) Security, Policy and Guidance
- IRM 10.5.1 – Privacy Policy, and
- Publication 4812 – Contractor Security & Privacy Controls.

While IRM 10.8.1 and Publication 4812 are both based on the latest version of NIST SP 800-53, they apply to different operating environments—internal and external to the organization, respectively.

The contractor, by signing its offer, hereby asserts to the best of its knowledge and belief that the security and privacy control guideline(s) most suitable and applicable to the immediate contracting action, with due consideration to its proposed approach (and work environment) for fulfilling the Government’s requirements and standards for applicability described herein, is as follows (check only one block):

☐ IRM 10.8.1 only    ☐ Publication 4812    ☐ Both IRM 10.8.1 and PUB 4812
Unless IRS Cybersecurity, (Contract Security Assessment – CSA) determines, through a notification to the Contractor by the CO, that a different (or a second) security control standard or guideline is warranted, the security level selected/applied for by the contractor under IR1052.239-9010 shall stand. In the event IRS Cybersecurity (Contractor Security Assessment – CSA) determines a different (or second) security control standard or guideline is warranted, the CO shall advise the contractor, in writing, of the Government determination, and reflect the correct/appropriate security control standard or guideline in the ensuing contract.

a. If Publication 4812 is selected (alone or in combination with IRM 10.8.1) as the most suitable security control guideline, the Contractor must identify, as part of its proposal submissions (or its submissions under any modification to an existing contract incorporating this clause), the most suitable security control level within the following hierarchy of security control levels (from lowest or highest):

- Software Application Development or Maintenance (SOFT)
- Networked Information Technology Infrastructure (NET)

(See Publication 4812, Appendix C for guidance in selecting the security control level most suitable and appropriate to the immediate contracting action. If additional guidance is needed in selecting the security control level, contact IRS Cybersecurity (Contractor Security Assessment - CSA).

b. The contractor, by signing its offer, hereby asserts to the best of its knowledge and belief that the security control level under Publication 4812 most suitable and applicable to the immediate contracting action, with due consideration to its proposed approach (and work environment) and standards for applicability described herein, is as follows (check only one):

☐ SOFT        ☐ NET

c. Unless IRS Cybersecurity (Contractor Security Assessment - CSA) determines that a different (higher or lower) security control level is warranted for contracts subject to the most recent version of Publication 4812, the security level selected/applied for by the contractor will govern throughout the life of the contract. In the event the IRS Cybersecurity (Contractor Security Assessment - CSA) determines a different (higher or lower) security level is warranted, the CO will advise the contractor, in writing, of the Government determination. At the end of the contract, for all security levels, the contractor must provide a plan and document the implementation of this plan to ensure that all hard copy and electronic data is returned to the IRS, sanitized, or destroyed.

d. Failure by the contractor to check any block will result in the use of both guidelines (for the Publication 4812 portion, use of the most stringent security control level (Software)) until and unless the IRS Cybersecurity (Contractor Security Assessment - CSA), determines otherwise via notification to the Contractor by the CO.

e. Flow down of clauses. The contractor shall include and flow down, in its subcontracts (or arrangements) that entails staff-like access to SBU information by a subcontractor, at any tier, the same Federal Acquisition Regulation (FAR) and local security or safeguard clauses or provisions for protecting SBU information or information systems that apply to and are incorporated in its prime contract with IRS.

(End of provision)

**IR1052.204-9000 Submission of Security Forms and Related Materials (JUN 2021)**

The Treasury Security Manual (TD P 15-71) sets forth investigative requirements for contractors and subcontractors who require staff-like access, wherever the location, to (1) IRS-owned or controlled facilities (unescorted); (2) IRS information systems (internal or external systems that store, collect, and/or process IRS information); and/or (3) IRS sensitive but unclassified (SBU) information.

“Staff-Like Access” is defined as authority granted to perform one or more of the following:

- Enter IRS facilities or space (owned or leased) unescorted (when properly badged);
- Possess login credentials to information systems (internal or external systems that store, collect, and/or process IRS information);
- Possess physical and/or logical access to (including the opportunity to see, read, transcribe, and/or interpret) SBU data; (See IRM 10.5.1 for examples of SBU data);
- Possess physical access to (including the opportunity to see, read, transcribe, and/or interpret) security items and products (e.g., items that must be stored in a locked container, security container, or a secure room. These items include, but are not limited to security devices/records, computer equipment–and identification media. For details see IRM 1.4.6.5.1, Minimum Protection Standards); or,
- Enter physical areas storing/processing SBU information (unescorted)

Staff-like access is granted to an individual who is not an IRS employee (and includes, but is not limited to: contractor/subcontractor personnel, whether procured by IRS or another entity, vendors, delivery persons, experts, consultants, paid/unpaid interns, other federal employee/contractor personnel, cleaning/maintenance personnel, etc.), and is approved upon required completion of a favorable suitability/fitness determination conducted by IRS Personnel Security.

For security requirements at contractor facilities using contractor-managed resources, please reference Publication 4812, Contractor Security & Privacy Controls. The contractor shall permit access to IRS SBU information or information system/assets only to individuals who have received staff-like access approval (interim or final) from IRS Personnel Security.

Contractor/subcontractor personnel requiring staff-like access to IRS equities are subject to (and must receive a favorable adjudication or affirmative results with respect to) the following eligibility/suitability pre-screening criteria, as applicable:

- IRS account history for federal tax compliance (for initial eligibility, as well as periodic checks for continued compliance while actively working on IRS contracts);
- Selective Service registration compliance (for males born after 12/31/59);
- Contractors must provide proof of registration which can be obtained from the Selective Service website at [www.sss.gov](http://www.sss.gov);
- U.S. citizenship/lawful permanent residency compliance; If foreign-born, contractors must provide proof of U.S. citizenship or Lawful Permanent Residency status by providing their Alien Registration Number (“A” Number);
- Background investigation forms;
- Credit history;
- Federal Bureau of Investigation fingerprint results; and,
• Review of prior federal government background investigations.

In this regard, Contractor shall furnish the following electronic documents to Personnel Security (PS) at hco.ps.contractor.security.onboarding@irs.gov within 10 business days (or shorter period) of assigning (or reassigning) personnel to this contract/order/agreement and prior to the contractor (including subcontractor) personnel performing any work or being granted staff-like access to IRS SBU or IRS/contractor (including subcontractor) facilities, information systems/assets that process/store SBU information thereunder:

• IRS-provided Risk Assessment Checklist (RAC);
• Non-Disclosure Agreement (if contract terms grant SBU access); and,
• Any additional required security forms, which will be made available through PS and the COR.

Contract Duration:

a. Contractor (including subcontractor) personnel whose duration of employment is 180 calendar days or more per year must meet the eligibility/suitability requirements for staff-like access and shall undergo a background investigation based on the assigned position risk designation as a condition of work under the Government contract/order/agreement.

b. If the duration of employment is less than 180 calendar days per year and the contractor requires staff-like access, the contractor (including subcontractor) personnel must meet the eligibility requirements for staff-like access (federal tax compliance, Selective Service Registration, and US Citizenship or Lawful Permanent Residency), as well as an FBI Fingerprint result screening.

c. For contractor (including subcontractor) personnel not requiring staff-like access to IRS facilities, IT systems, or SBU data, and only require infrequent access to IRS-owned or controlled facilities and/or equipment (e.g., a time and material maintenance contract that warrants access one or two days monthly), an IRS background investigation is not needed and will not be requested if a qualified escort, defined as an IRS employee or as a contractor who has been granted staff-like access, escorts a contractor at all times while the escorted contractor accesses IRS facilities, or vendor facilities where IRS IT systems hardware or SBU data is stored. As prescribed in IRM 10.23.2, escorting in lieu of staff-like access for IT systems and access to SBU data (escorted or unescorted) will not be allowed.

The contractor (including subcontractor) personnel will be permitted to perform under the contract/order/agreement and have staff-like access to IRS facilities, IT systems, and/or SBU data only upon notice of an interim or final staff-like approval from IRS Personnel Security, as defined in IRM 10.23.2 – Contractor Investigations, and is otherwise consistent with IRS security practices and related IRMs, to include, but not limited to:

• IRM 1.4.6 – Managers Security Handbook; IRM10.2.14 – Methods of Providing Protection; and, IRM 10.8.1 - Policy and Guidance.

Current Investigation Reciprocity: Individuals who possess a prior favorably adjudicated Government background investigation that meets the scope and criteria required for their position may be granted interim staff-like access approval upon verification of the prior investigation, receipt of all required contractor security forms, and favorable adjudication of IRS pre-screening eligibility/suitability checks. If their current investigation meets IRS established criteria for investigative reciprocity, individuals will be granted final staff-like access, and will not be required to undergo a new investigation beyond an approved pre-screening determination.

Flow down of clauses: The contractor shall include and flow down, in its subcontracts (or arrangements or outsourced service agreements) that entails access to SBU information by a subcontractor, at any tier, the same Federal Acquisition Regulation (FAR) and local security or safeguard clauses or provisions for protecting SBU information or information systems that apply to and are incorporated in its prime contract with IRS.

(End of clause)
IR1052.204-9001 Notification of Change in Contractor Personnel Employment Status, Assignment, or Standing (JUN 2021)

The contractor, via e-mail (hco.ps.contractor.security.onboarding@irs.gov), shall notify the Contracting Officer (CO), Contracting Officer's Representative (COR), and Personnel Security within one (1) business day of the contractor (including subcontractor) becoming aware of any change in the employment status, information access requirement, assignment, or standing of a contractor (or subcontractor) personnel under this contract or order – to include, but not limited to, the following conditions:

- Receipt of the personnel’s notice of intent to separate from employment or discontinue work under this contract/order;
- Knowledge of the personnel’s voluntary separation from employment or performance on this contract/order (if no prior notice was given);
- Transfer or reassignment of the personnel and performance of duties under this contract/order, in whole or in part, to another contract/order (and if possible, identify the gaining contract/order and representative duties/responsibilities to allow for an assessment of suitability based on position sensitivity/risk level designation);
- Denial of or revocation of staff-like access as determined by IRS Personnel Security;
- Separation, furlough, or release from employment;
- Anticipated extended absence of more than 45 days;
- Change of legal name;
- Change to employment eligibility;
- Change in gender or other distinction when physical attributes figure prominently in the biography of an individual;
- Actual or perceived conflict of interest in continued performance under this contract/order (provide explanation); or
- Death.

When required by the COR, the contractor may be required to provide the information required by this clause to the IRS using the Risk Assessment Checklist (RAC) or security documents as identified by Personnel Security.

The notice shall include the following minimum information:

- Name of contractor personnel;
- Nature of the change in status, assignment or standing (i.e., provide a brief non-personal, broad-based explanation);
- Affected contract/agreement/order number(s);
- Actual or anticipated date of departure or separation;
- When applicable, the name of the IRS facility or facilities this individual routinely works from or has staff-like access to when performing work under this contract/order;
- When applicable, contractor (including subcontractor) using contractor (or subcontractor) owned systems for work must ensure that their systems are updated to ensure personnel no longer have continued staff-like access to IRS work, either for systems administration or processing functions; and
- Identification of any Government Furnished Property (GFP), Government Furnished Equipment (GFE), or Government Furnished Information (GFI) (to include Personal Identity Verification (PIV) credentials or badges – also referred to as SmartID Cards) provided to the contractor personnel and its whereabouts or status.
In the event the subject contractor (including subcontractor) is working on multiple contracts, orders, or agreements, notification shall be combined, and the cognizant COR for each affected contract or order (using the Contractor Separation Checklist (Form 14604 (Rev. 8-2016)) shall be included in the joint notification along with Personnel Security. These documents (the RAC and security forms) are also available by email request to Personnel Security.

The vendor POC and the COR must ensure all badges, Smart Cards, equipment, documents, and other government furnished property items are returned to the IRS, systems accesses are removed, and Real Estate & Facilities Management is notified of federal workspace that is vacant.

As a rule, the change in the employment status, assignment, or standing of a contractor (or subcontractor) personnel to this contract or order would not form the basis for an excusable delay for failure to perform under the terms of this contract, order or agreement.

Flow down of clauses. The contractor shall include and flow down, in its subcontracts (or arrangements or outsourced service agreements) that entails staff-like access to SBU information by a subcontractor, at any tier, the same Federal Acquisition Regulation (FAR) and local security or safeguard clauses or provisions for protecting SBU information or information systems that apply to and are incorporated in its prime contract with IRS.

Si incumplo los términos y condiciones de este Acuerdo, los Estados Unidos pueden entablar una acción civil por daños o cualquier otro alivio apropiado. La divulgación intencional de la información a la que he accedido aquí no divulgar puede constituir un delito criminal.

Las personas asignadas para realizar trabajos para el Servicio de Impuestos Internos (IRS, por sus siglas en inglés) que requieren acceso a Información Confidencial pero no Clasificada (SBU, por sus siglas en inglés) deben firmar un Acuerdo de no Divulgación (NDA, por sus siglas en inglés). - Internos (pagados/no pagados)
- Servicios de recuperación de documentos

El Representante del Oficial de Contratación (COR, por sus siglas en inglés) o el oficial de la Unidad de Negocios (BU, por sus siglas en inglés), en consulta con la oficina de Seguridad del Personal (PS, por sus siglas en inglés) del IRS, determinará si la persona requiere acceso a la información SBU y garantiza la ejecución de un NDA como condición de dicho acuerdo. El NDA debe hacer referencia a la naturaleza del acceso a la información SBU en relación con el trabajo realizado para el IRS. Si se requiere un NDA, ocurrirá lo siguiente:

1. El NDA se envía a la persona para su revisión y firma.

3. El COR o el oficial de la BU firma y fecha el acuerdo para la aceptación en nombre del IRS.
4. El COR o el oficial de la BU guarda una copia del NDA firmado en el expediente oficial administrativo del contrato. La copia del NDA se conservará mientras la información se considere confidencial.
5. El COR o el oficial de la BU envía por correo electrónico el NDA original al equipo de incorporación de seguridad de los contratistas de la oficina de PS del IRS, al: "hco PS Contractor Security Onboarding hco.ps.contractor.security. onboarding@irs.gov". La oficina de PS guardará el NDA original en el archivo de seguridad del personal por un mínimo de 5 años o mientras la información se considere confidencial.
