CONTRACTOR TO FURNISH: All materials and operations, other than those listed under “Government to Furnish,” necessary to produce the product(s) in accordance with these specifications.

PRODUCT PRODUCTION REPORT: Contractor must email a product production report to Eugenia Collins (Eugenia.F.Collins@irs.gov) and Traci Cobb (tcobb@gpo.gov) DAILY by 10:00 AM Eastern once printing begins and continue the report through shipping. The report must detail daily quantities for printing (separated by covers
and text), binding/finishing, shrink-wrapping, and shipping. The information must be provided in an Excel spreadsheet.

**BINDING/FINISHING**: Perforate ALL text pages. Perforations are to be 1/4” from and parallel to the bind. Clean edge perforations are required. Contractor is to ensure no loss of copy due to perforation.

Perfect bind on the 11” left dimension. Trim 3 sides. Paper covers: wrap-around, trim flush, glued on, grain must run parallel to spine; score at bind with an additional score 1/4” from bind on front and back covers.

Drill covers and text with three holes (5/16” to 3/8” diameter); centered on the 11” dimension; 4-1/4” center to center; center of holes 5/8” from bind edge of product (drill holes fall between the perforation and text). Contractor to ensure no loss of copy due to drill hole placement. Size of holes must be consistent.

**PACKING/LABELING**: Shrink-wrap each copy individually. The shrink-wrap must be suitable weight to support the book in the shipping container. NDC bulk shipments must be packed in UNIFORM quantities per carton*. *Contractor must NOT deviate from the specified quantity. Product must be packed so copies are not damaged in transit. Contractor to place full size corrugated boards on top, bottom, and vertically between any stacks (if necessary to protect product).

All cartons must be packed solid with a maximum weight of 32 lbs per carton. Pack solid in corrugated or solid fiber shipping containers, bursting strength: 200p.s.i, minimum. Carton bottoms may be glued, stapled, or sealed with polyester tape (2 to 3 inches width), minimum 12kNm (65 lbs./inch) traverse tensile strength. If stapled, the cartons may only be stapled on the bottom and/or side; no staples are to be used on top. Cartons are to be sealed at the top with paper or polyester tape (2 to 3 inches width, not reinforced). Contractor will determine exact dimensions of carton in accordance with folded and/or trim size and weight of the product produced. NOTE: Packing peanuts/ beads are not acceptable carton fillers.

*In some cases, there may be one carton with an odd quantity due to the quantity packed per carton not dividing equally in the quantity ordered. The label for that single carton MUST be labeled accurately with the carton quantity (see CARTON LABELING for electronically correcting label quantity). Place that odd carton at the top of the load.

**CARTON LABELING**: Contractor must reproduce shipping carton label at 100% on white paper from furnished PDF file, fill in appropriate fields and securely attach one label to each carton. NOTE: Carton labels contain barcodes; therefore, dot matrix printing is NOT acceptable.

NOTE: "BLUE LABEL" COPIES ARE REQUIRED. DO NOT AFFIX THE IRS CARTON LABEL TO THE "BLUE LABEL" COPIES.

All cartons must have IRS Shipping label affixed to one carton end only (never top, long side, or bottom). On cartons shipped via small package carrier (SPC), affix the SPC label on top of carton on the end nearest to IRS label. On small package carrier (SPC) boxes/envelopes, the IRS label is to be affixed to the top of each package and the SPC shipping label to the reverse side of the package (this includes advance distributions and IRS samples). All shipments to IRS National Distribution Center via SPC are to leave "To (Consignee) Address" field blank. Correct labeling of shipping cartons, in strict accordance with the requirements of these specifications, is essential to the identification, distribution and warehousing activities of the IRS. Use of any other label is prohibited and may be cause for rejection of reimbursement for any expenses incurred to correct use of improper labels.

The following must be updated ELECTRONICALLY by the contractor, when not entered by IRS on the PDF label using Adobe Acrobat 7.0. DO NOT MAKE HAND-WRITTEN UPDATES TO THE LABEL UNDER ANY CIRCUMSTANCES.

--Carton # of #
--From Address
--To Address
--Carton Quantity
NOTE: Contractor must email a PDF proof of a completed label for copies shipping to the NDC. The email must be sent to Eugenia.F.Collins@irs.gov and tcobb@gpo.gov at least two days prior to reproducing labels/carton labeling for inspection and approval of the title, product number, requisition number, and quantity match to barcode.

FAILURE OF THE CONTRACTOR TO COMPLETE THE PDF LABEL ELECTRONICALLY WILL RESULT IN THE SHIPMENT BEING REJECTED AND RE-LABELED AT THE CONTRACTOR’S EXPENSE.

If a "0" is pre-filled in on the furnished PDF label, then contractor MUST change the "0" to reflect actual quantity inside cartons. Contractor must ensure that all cartons have the same quantity. The carton count field in the PDF file is directly linked to the barcode field; therefore, the contractor must press "enter" or "tab" after entering the quantity in order for the quantity to be reflected in the barcode. All changes to the carton count field MUST be made in the electronic label (not hand filled in) to whatever the true carton quantity is so that it is reflected on the label in both the quantity and barcode fields. NOTE: In the case of one carton with an odd quantity due to the quantity packed per carton not dividing equally into the quantity ordered, the label for that single carton must also be updated electronically to reflect the true quantity per carton.

Automated "Carton # of #" fields: To print the correct number of labels for each address with sequential carton numbers, input in the total number of cartons and press "Print Labels" button. Warning: Once the print button is pressed, printing cannot be canceled. Be sure all information is correct prior to printing labels.

PALLETIZING: Cartons shall be stacked on pallets using a reverse layer pattern, 9 cartons per layer, with a maximum height of 55", including pallet or a maximum of 7 layers (see "EXHIBIT #1" for the 9 tier stacking method). Cartons must be fastened securely to the pallet in a manner that will prevent movement during transit but permit ready removal, without damage to the cartons, at destination. Do not use metal strapping or pallet caps for securing material on pallets. There must be no more than one partial pallet per destination.

PACKAGING AND PACKING PROBLEMS: In addition to other inspection procedures detailed elsewhere in these specifications, the contractor is responsible for correcting all packaging and packing problems (i.e. mislabeled cartons, IRS carton labels not being used or securely attached, cartons not being packed solid, incorrect pallets, or pallets not being layered right). The delivery will either be returned to the contractor to be corrected or the contractor may be billed by GPO for the amount that accrued in fixing the problem by an outside vendor.

"Mislabeling" means any error on the carton label, which incorrectly states or identifies the title of the form; the form identification number; or the quantity of forms actually contained in the carton, or has any missing information, or is not securely attached.

SCHEDULE: Contractor must be prepared for delays at various stages and still meet the distribution deadlines as indicated in the below schedule.

Production Plan: The apparent low bidder is required to submit a Production Plan, as part of the Pre-Award Survey, within 24 hours of notification by the Government Publishing Office. See “PRODUCTION PLAN”.

DOING BUSINESS WITH GPO CUSTOMER SERVICES DURING THE CORONAVIRUS PANDEMIC:
Contractors should continue performance on contracts. Contractors must continue to fully comply with the terms and conditions of these contracts. Deliveries, proof approvals, and press sheet inspections for agencies may be impacted. It is requested that contractors contact a Government employee at the delivery location to confirm their availability to receive prior to shipping.

Schedules and other adjustments will be made in accordance with GPO Contract Terms. Caution should be used to safeguard all products should any delivery delays be imposed by the Government.

As a reminder, contractors must furnish contract compliance information required in accordance with GPO Contract Terms, Contract Clause 12: Notice of Compliance With Schedules.

Contractors should immediately contact your GPO contract administrator(s) and/or contracting officer(s) to identify impacted orders if any delay is anticipated, including temporarily closure of a production facility or the planned suspension of any services.

If you have any questions on a particular contract, please contact the Customer Services contract administrator and/or contracting officer for your contract (best method of communicating with them is via email).
