

H. R. 4386

AN ACT

To amend title 38, United States Code, authorizing the Secretary of Veterans Affairs to provide compensation to veterans suffering from disabilities resulting from illnesses attributed to service in the Persian Gulf theater of operations during the Persian Gulf War, to provide for increased research into illnesses reported by Persian Gulf War veterans, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Veterans’ Persian Gulf
5 War Benefits Act”.

6 **SEC. 2. CONGRESSIONAL FINDINGS.**

7 The Congress makes the following findings:

8 (1) During the Persian Gulf War, members of
9 the Armed Forces were exposed to numerous poten-
10 tially toxic substances, including fumes and smoke
11 from military operations, oil well fires, diesel ex-
12 haust, paints, pesticides, depleted uranium, infec-
13 tious agents, chemoprophylactic agents, and indige-

1 nous diseases, and were also given multiple immuni-
2 zations. It is not known whether these
3 servicemembers were exposed to chemical or biologi-
4 cal warfare agents. However, threats of enemy use
5 of chemical and biological warfare heightened the
6 psychological stress associated with the military op-
7 eration.

8 (2) Significant numbers of veterans of the Per-
9 sian Gulf War are suffering from illnesses, or are ex-
10 hibiting symptoms of illness, that cannot now be di-
11 agnosed or clearly defined. As a result, many of
12 these conditions or illnesses are not considered to be
13 service connected under current law for purposes of
14 benefits administered by the Department of Veter-
15 ans Affairs.

16 (3) The Technology Assessment Workshop on
17 the Persian Gulf Experience and Health conducted
18 by the National Institutes of Health concluded that
19 the complex biological, chemical, physical, and psy-
20 chological environment of the Southwest Asia thea-
21 ter of operations produced complex adverse health
22 effects in Persian Gulf War veterans and that it ap-
23 pears that no single disease entity or syndrome ex-
24 ists. Rather, it appears that the illnesses suffered by
25 those veterans result from multiple illnesses with

1 overlapping symptoms and causes that have yet to
2 be defined.

3 (4) That workshop concluded that the data con-
4 cerning the range and intensity of exposure to toxic
5 substances by military personnel in the Southwest
6 Asia theater of operations are very limited and that
7 such data were collected only after a considerable
8 delay.

9 (5) In response to concerns regarding the
10 health-care needs of Persian Gulf War veterans, par-
11 ticularly those who suffer from illnesses or condi-
12 tions for which no diagnosis has been made, the
13 Congress, in Public Law 102-585, directed the es-
14 tablishment of a Persian Gulf War Veterans Health
15 Registry, authorized health examinations for veter-
16 ans of the Persian Gulf War, and provided for the
17 National Academy of Sciences to conduct a com-
18 prehensive review and assessment of information re-
19 garding the health consequences of military service
20 in the Persian Gulf theater of operations and to de-
21 velop recommendations on avenues for research re-
22 garding such health consequences. In Public Law
23 103-210, the Congress authorized the Department
24 of Veterans Affairs to provide health care services on
25 a priority basis to Persian Gulf War veterans. The

1 Congress also provided in Public Law 103–160 (the
2 National Defense Authorization Act for Fiscal Year
3 1994) for the establishment of a specialized environ-
4 mental medical facility for the conduct of research
5 into the possible health effects of exposure to low
6 levels of hazardous chemicals, especially among Per-
7 sian Gulf veterans, and for research into the possible
8 health effects of battlefield exposure in such veterans
9 to depleted uranium.

10 (6) Further research and studies must be un-
11 dertaken to determine the underlying causes of the
12 illnesses suffered by Persian Gulf War veterans and,
13 pending the outcome of such research, veterans who
14 are seriously ill as the result of such illnesses should
15 be given the benefit of the doubt and be provided
16 compensation benefits to offset the impairment in
17 earnings capacities they may be experiencing.

18 **SEC. 3. PURPOSES.**

19 The purposes of this Act are—

20 (1) to provide compensation to Persian Gulf
21 War veterans who suffer disabilities resulting from
22 illnesses that cannot now be diagnosed or defined,
23 and for which other causes cannot be identified,

24 (2) to require the Secretary of Veterans Affairs
25 to develop at the earliest possible date case assess-

1 ment strategies and definitions or diagnoses of such
2 illnesses,

3 (3) to promote greater outreach to Persian Gulf
4 War veterans and their families to inform them of
5 ongoing research activities, as well as the services
6 and benefits to which they are currently entitled,
7 and

8 (4) to ensure that research activities and ac-
9 companying surveys of Persian Gulf War veterans
10 are appropriately funded and undertaken by the De-
11 partment of Veterans Affairs.
