13          regulations.

14          “(B) CERTAIN INDIVIDUALS.—Notwith-  
15          standing subparagraph (A), an individual is not  
16          a first-time homebuyer on the date of purchase

18           property as his principal residence, then the tax im-  
19           posed under this chapter for the taxable year in

3 not apply and the tax imposed by this chapter for  
4 the taxable year in which the new principal residence  
5 is purchased is increased to the extent the amount  
6 of the credit that could be claimed under this section  
7 on the purchase of the new residence (determined  
8 without regard to subsection (e)) is less than the  
9 amount of credit claimed by the taxpayer under this  
10 section.

## 10           **Subtitle B—Electromagnetic** 11           **Spectrum Function**

### 12   **SEC 211. SHORT TITLE.**

13           This subtitle may be cited as the “Emerging Tele-  
14 communications Technologies Act of 1993”.

### 15   **SEC. 212. FINDINGS.**

16           The Congress finds that—

17           (1) spectrum is a valuable natural resource;

18           (2) it is in the national interest that this re-  
19 source be used more efficiently;

20           (3) the spectrum below 6 gigahertz (GHz) is  
21 becoming increasingly congested, and, as a result en-  
22 tities that develop innovative new spectrum-based  
23 services are finding it difficult to bring these services  
24 to the marketplace;

1           (4) scarcity of assignable frequencies can and  
2 will—

3           (A) impede the development and commer-  
4 cialization of new spectrum-based products and  
5 services;

6           (B) reduce the capacity and efficiency of  
7 the United States telecommunications system;  
8 and

9           (C) adversely affect the productive capacity  
10 and international competitiveness of the United  
11 States economy;

12          (5) the United States Government presently  
13 lacks explicit authority to use excess  
14 radiocommunications capacity to satisfy non-United  
15 States Government requirements;

16          (6) more efficient use of the spectrum can pro-  
17 vide the resources for increased economic returns;

18          (7) many commercial users derive significant  
19 economic benefits from their spectrum licenses, both  
20 through the income they earn from their use of the  
21 spectrum and the returns they realize upon transfer  
22 of their licenses to third parties; but under current  
23 procedures, the United States public does not suffi-  
24 ciently share in their benefits;

1           (8) many United States Government functions  
2           and responsibilities depend heavily on the use of the  
3           radio spectrum, involve unique applications, and are  
4           performed in the broad national and public interest;

5           (9) competitive bidding for spectrum can yield  
6           significant benefits for the United States economy  
7           by increasing the efficiency of spectrum allocations,  
8           assignment, and use; and for United States tax-  
9           payers by producing substantial revenues for the  
10          United States Treasury; and

11          (10) the Secretary, the President, and the Com-  
12          mission should be directed to take appropriate steps  
13          to foster the more efficient use of this valuable na-  
14          tional resource, including the reallocation of a target  
15          amount of 200 megahertz (MHz) of spectrum from  
16          United States Government use under section 305 of  
17          the Communications Act to non-United States Gov-  
18          ernment use pursuant to other provisions of the  
19          Communications Act and the implementation of  
20          competitive bidding procedures by the Commission  
21          for some new assignments of the spectrum.

22 **SEC. 213. NATIONAL SPECTRUM PLANNING.**

23          (a) **PLANNING ACTIVITIES.**—The Secretary and the  
24          Chairman of the Commission shall, at least twice each

1 year, conduct joint spectrum planning meetings with re-  
2 spect to the following issues—

3 (1) future spectrum needs;

4 (2) the spectrum allocation actions necessary to  
5 accommodate those needs, including consideration of  
6 innovation and marketplace developments that may  
7 affect the relative efficiencies of different portions of  
8 the spectrum; and

9 (3) actions necessary to promote the efficient  
10 use of the spectrum, including proven spectrum  
11 management techniques to promote increased shared  
12 use of the spectrum as a means of increasing non-  
13 United States Government access; and innovation in  
14 spectrum utilization including means of providing in-  
15 centives for spectrum users to develop innovative  
16 services and technologies.

17 (b) REPORTS.—The Secretary and the Chairman of  
18 the Commission shall submit a joint annual report to the  
19 President on the joint spectrum planning meetings con-  
20 ducted under subsection (a) and any recommendations for  
21 action developed in such meetings.

22 (c) OPEN PROCESS.—The Secretary and the Com-  
23 mission will conduct an open process under this section  
24 to ensure the full consideration and exchange of views

1 among any interested entities, including all private, public,  
2 commercial, and governmental interests.

3 **SEC. 214. IDENTIFICATION OF REALLOCABLE FRE-**  
4 **QUENCIES.**

5 (a) IDENTIFICATION REQUIRED.—The Secretary  
6 shall prepare and submit to the President the reports re-  
7 quired by subsection (d) to identify bands of frequencies  
8 that—

9 (1) are allocated on a primary basis for United  
10 States Government use and eligible for licensing  
11 pursuant to section 305(a) of the Communications  
12 Act;

13 (2) are not required for the present or identifi-  
14 able future needs of the United States Government;

15 (3) can feasibly be made available during the  
16 next 15 years after enactment of this title for use  
17 under the provisions of the Communications Act for  
18 non-United States Government users;

19 (4) will not result in costs to the Federal Gov-  
20 ernment that are excessive in relation to the benefits  
21 that may be obtained from the potential non-United  
22 States Government uses; and

23 (5) are likely to have significant value for non-  
24 United States Government uses under the Commu-  
25 nications Act.

1 (b) AMOUNT OF SPECTRUM RECOMMENDED.—

2 (1) IN GENERAL.—The Secretary shall rec-  
3 ommend as a goal for reallocation, for use by non-  
4 United States Government stations, bands of fre-  
5 quencies constituting a target amount of 200 MHz,  
6 that are located below 6 GHz, and that meet the cri-  
7 teria specified in paragraphs (1) through (5) of sub-  
8 section (a). If the Secretary identifies (as meeting  
9 such criteria) bands of frequencies totalling more  
10 than 200 MHz, the Secretary shall identify and rec-  
11 ommend for reallocation those bands (totalling not  
12 less than 200 MHz) that are likely to have the  
13 greatest potential for non-United States Government  
14 uses under the Communications Act.

15 (2) MIXED USES PERMITTED TO BE COUNT-  
16 ED.—Bands of frequencies which the Secretary rec-  
17 ommends be partially retained for use by United  
18 States Government stations, but which are also rec-  
19 ommended to be reallocated and made available  
20 under the Communications Act for use by non-Unit-  
21 ed States Government stations, may be counted to-  
22 ward the target 200 MHz of spectrum required by  
23 paragraph (1) of this subsection, except that—

24 (A) the bands of frequencies counted under  
25 this paragraph may not count toward more

1 than one-half of the amount targeted by para-  
2 graph (1) of this subsection;

3 (B) a band of frequencies may not be  
4 counted under this paragraph unless the assign-  
5 ments of the band to United States Government  
6 stations under section 305 of the Communica-  
7 tions Act are limited by geographic area, by  
8 time, or by other means so as to guarantee that  
9 the potential use to be made by which United  
10 States Government stations is substantially less  
11 (as measured by geographic area, time, or oth-  
12 erwise) than the potential United States Gov-  
13 ernment use to be made; and

14 (C) the operational sharing permitted  
15 under this paragraph shall be subject to proce-  
16 dures which the Commission and the Depart-  
17 ment of Commerce shall establish and imple-  
18 ment to ensure against harmful interference.

19 (c) CRITERIA FOR IDENTIFICATION.—

20 (1) NEEDS OF THE UNITED STATES GOVERN-  
21 MENT.—In determining whether a band of fre-  
22 quencies meets the criteria specified in subsection  
23 (a)(2), the Secretary shall—

24 (A) consider whether the band of fre-  
25 quencies is used to provide a communications

1 service that is or could be available from a com-  
2 mercial provider;

3 (B) seek to promote—

4 (i) the maximum practicable reliance  
5 on commercially available substitutes;

6 (ii) the sharing of frequencies (as per-  
7 mitted under subsection (b)(2));

8 (iii) the development and use of new  
9 communications technologies; and

10 (iv) the use of nonradiating commu-  
11 nications systems where practicable;

12 (C) seek to avoid—

13 (i) serious degradation of United  
14 States Government services and oper-  
15 ations;

16 (ii) excessive costs to the United  
17 States Government and civilian users of  
18 such Government services; and

19 (iii) identification of any bands for  
20 reallocation that are likely to be subject to  
21 substitution for the reasons specified in  
22 section 405(b)(2)(A) through (C); and

23 (D) exempt power marketing administra-  
24 tions and the Tennessee Valley Authority from  
25 any reallocation procedures.

1           (2) FEASIBILITY OF USE.—In determining  
2 whether a frequency band meets the criteria speci-  
3 fied in subsection (a)(3), the Secretary shall—

4           (A) assume such frequencies will be as-  
5 signed by the Commission under section 303 of  
6 the Communications Act over the course of fif-  
7 teen years after the enactment of this title;

8           (B) assume reasonable rates of scientific  
9 progress and growth of demand for tele-  
10 communications services;

11           (C) determine the extent to which the  
12 reallocation or reassignment will relieve actual  
13 or potential scarcity of frequencies available for  
14 non-United States Government use;

15           (D) seek to include frequencies which can  
16 be used to stimulate the development of new  
17 technologies; and

18           (E) consider the cost to reestablish United  
19 States Government services displaced by the  
20 reallocation of spectrum during the fifteen year  
21 period.

22           (3) COSTS TO THE UNITED STATES GOVERN-  
23 MENT.—In determining whether a frequency band  
24 meets the criteria specified in subsection (a)(4), the  
25 Secretary shall consider—

1 (A) the costs to the United States Govern-  
2 ment of reaccommodating its services in order  
3 to make spectrum available for non-United  
4 States Government use, including the incremen-  
5 tal costs directly attributable to the loss of the  
6 use of the frequency band; and

7 (B) the benefits that could be obtained  
8 from reallocating such spectrum to non-United  
9 States Government users, including the value of  
10 such spectrum in promoting—

11 (i) the delivery of improved service to  
12 the public;

13 (ii) the introduction of new services;  
14 and

15 (iii) the development of new commu-  
16 nications technologies.

17 (4) NON-UNITED STATES GOVERNMENT USE.—  
18 In determining whether a band of frequencies meets  
19 the criteria specified in subsection (a)(5), the Sec-  
20 retary shall consider—

21 (A) the extent to which equipment is com-  
22 mercially available that is capable of utilizing  
23 the band; and

1           (B) the proximity of frequencies that are  
2           already assigned for non-United States Govern-  
3           ment use.

4           (d)   PROCEDURE   FOR   IDENTIFICATION   OF  
5   REALLOCABLE BANDS OF FREQUENCIES.—

6           (1) SUBMISSION OF REPORTS TO THE PRESI-  
7           DENT TO IDENTIFY AN INITIAL 50 MHZ TO BE MADE  
8           AVAILABLE IMMEDIATELY FOR REALLOCATION, AND  
9           TO PROVIDE PRELIMINARY AND FINAL REPORTS ON  
10          ADDITIONAL FREQUENCIES TO BE REALLOCATED.—

11           (A) Within 3 months after the date of the  
12          enactment of this title, the Secretary shall pre-  
13          pare and submit to the President a report  
14          which specifically identifies an initial 50 MHz  
15          of spectrum that are located below 3 GHz, to  
16          be made available for reallocation to the Fed-  
17          eral Communications Commission upon issu-  
18          ance of this report, and to be distributed by the  
19          Commission pursuant to competitive bidding  
20          procedures.

21           (B) The Department of Commerce shall  
22          make available to the Federal Communications  
23          Commission 50 MHz as identified in subpara-  
24          graph (A) of electromagnetic spectrum for allo-  
25          cation of land-mobile or land-mobile-satellite

1 services. Notwithstanding section 553 of the  
2 Administrative Procedure Act and title III of  
3 the Communications Act, the Federal Commu-  
4 nications Commission shall allocate such spec-  
5 trum and conduct competitive bidding proce-  
6 dures to complete the assignment of such spec-  
7 trum in a manner which ensures that the pro-  
8 ceeds from such bidding are received by the  
9 Federal Government no later than September  
10 30, 1993. From such proceeds, Federal agen-  
11 cies displaced by this transfer of the electro-  
12 magnetic spectrum to the Federal Communica-  
13 tions Commission shall be reimbursed for rea-  
14 sonable costs directly attributable to such dis-  
15 placement. The Department of Commerce shall  
16 determine the amount of, and arrange for, such  
17 reimbursement. Amounts to agencies shall be  
18 available subject to appropriation Acts.

19 (C) Within 12 months after the date of the  
20 enactment of this title, the Secretary shall pre-  
21 pare and submit to the President a preliminary  
22 report to identify reallocable bands of fre-  
23 quencies meeting the criteria established by this  
24 section.

1 (D) Within 24 months after the date of en-  
2 actment of this title, the Secretary shall prepare  
3 and submit to the President a final report  
4 which identifies the target 200 MHz for  
5 reallocation (which shall encompass the initial  
6 50 MHz previously designated under subpara-  
7 graph (A)).

8 (E) The President shall publish the reports  
9 required by this section in the Federal Register.

10 (2) CONVENING OF PRIVATE SECTOR ADVISORY  
11 COMMITTEE.—Not later than 12 months after the  
12 enactment of this title, the Secretary shall convene  
13 a private sector advisory committee to—

14 (A) review the bands of frequencies identi-  
15 fied in the preliminary report required by para-  
16 graph (1)(C);

17 (B) advise the Secretary with respect to—

18 (i) the bands of frequencies which  
19 should be included in the final report re-  
20 quired by paragraph (1)(D); and

21 (ii) the effective dates which should be  
22 established under subsection (e) with re-  
23 spect to such frequencies;

1 (C) receives public comment on the Sec-  
2 retary's preliminary and final reports under this  
3 subsection; and

4 (D) prepare and submit the report re-  
5 quired by paragraph (4).

6 The private sector advisory committee shall meet at  
7 least quarterly until each of the actions required by  
8 section 405(a) have taken place.

9 (3) COMPOSITION OF COMMITTEE; CHAIR-  
10 MAN.—The private sector adviser committee shall in-  
11 clude—

12 (A) the Chairman of the Commission, and  
13 the Secretary, or their designated representa-  
14 tives, and two other representatives from two  
15 different United States Government agencies  
16 that are spectrum users, other than the Depart-  
17 ment of Commerce, as such agencies may be  
18 designated by the Secretary; and

19 (B) Persons who are representative of—

20 (i) manufacturers of spectrum-de-  
21 pendent telecommunications equipment;

22 (ii) commercial users;

23 (iii) other users of the electromagnetic  
24 spectrum; and

1 (iv) other interested members of the  
2 public who are knowledgeable about the  
3 uses of the electromagnetic spectrum to be  
4 chosen by the Secretary.

5 A majority of the members of the committee shall be  
6 members described in subparagraph (B), and one of  
7 such members shall be designated as chairman by  
8 the Secretary.

9 (4) RECOMMENDATIONS ON SPECTRUM ALLOCA-  
10 TION PROCEDURES.—The private sector advisory  
11 committee shall, not later than 12 months after its  
12 formation, submit to the Secretary, the Commission,  
13 the Committee on Energy and Commerce of the  
14 House of Representatives, and the Committee on  
15 Commerce, Science and Transportation of the Sen-  
16 ate, such recommendations as the committee consid-  
17 ers appropriate for the reform of the process of allo-  
18 cating the electromagnetic spectrum between United  
19 States Government users and non-United States  
20 Government users, and any dissenting views thereon.

21 (e) TIMETABLE FOR REALLOCATION AND LIMITA-  
22 TION.—The Secretary shall, as part of the final report re-  
23 quired by subsection (d)(1)(D), include a timetable for the  
24 effective dates by which the President shall, within 15  
25 years after enactment of this title, withdraw or limit as-

1 signments on frequencies specified in the report. The rec-  
2 ommended effective dates shall—

3 (1) permit the earliest possible reallocation of  
4 the frequency bands, taking into account the re-  
5 quirements of section 406(a);

6 (2) be based on the useful remaining life of  
7 equipment that has been purchased or contracted for  
8 to operate on identified frequencies;

9 (3) be based on the need to coordinate fre-  
10 quency use with other nations; and

11 (4) avoid the imposition of incremental costs on  
12 the United States Government directly attributable  
13 to the loss of the use of frequencies or the changing  
14 to different frequencies that are excessive in relation  
15 to the benefits that may be obtained from non-Unit-  
16 ed States Government uses of the reassigned fre-  
17 quencies.

18 **SEC. 215. WITHDRAWAL OF ASSIGNMENT TO UNITED**  
19 **STATES GOVERNMENT STATIONS.**

20 (a) IN GENERAL.—The President shall—

21 (1) within 3 months after receipt of the Sec-  
22 retary's report under section 404(d)(1)(A), withdraw  
23 or limit the assignment to a United States Govern-  
24 ment station of any frequency on the initial 50 MHz

1 which that report recommends for immediate  
2 reallocation;

3 (2) with respect to other frequencies rec-  
4 ommended for reallocation by the Secretary's report  
5 in section 404(d)(1)(D), by the effective dates rec-  
6 ommended pursuant to section 404(e) (except as  
7 provided in subsection (b)(4) of this section), with-  
8 draw or limit the assignment to a United States  
9 Government station of any frequency which that re-  
10 port recommends be reallocated or available for  
11 mixed use on such effective dates;

12 (3) assign or reassign other frequencies to  
13 United States Government stations as necessary to  
14 adjust to such withdrawal or limitation of assign-  
15 ments; and

16 (4) publish in the Federal Register a notice and  
17 description of the actions taken under this sub-  
18 section.

19 (b) EXCEPTIONS.—

20 (1) AUTHORITY TO SUBSTITUTE.—If the Presi-  
21 dent determines that a circumstance described in  
22 section 405(b)(2) exists, the President—

23 (A) may, within 1 month after receipt of  
24 the Secretary's report under section  
25 404(d)(1)(A), and within 6 months after receipt

1 of the Secretary's report under section  
2 404(d)(1)(D), substitute an alternative fre-  
3 quency or band of frequencies for the frequency  
4 or band that is subject to such determination  
5 and withdraw (or limit) the assignment of that  
6 alternative frequency or band in the manner re-  
7 quired by subsection (a); and

8 (B) shall publish in the Federal Register a  
9 statement of the reasons for taking the action  
10 described in subparagraph (A).

11 (2) GROUNDS FOR SUBSTITUTION.—For pur-  
12 poses of paragraph (1), the following circumstances  
13 are described in this paragraph:

14 (A) the reassignment would seriously jeop-  
15 ardize the national security interests of the  
16 United States;

17 (B) the frequency proposed for reassign-  
18 ment is uniquely suited to meeting important  
19 United States Governmental needs;

20 (C) the reassignment would seriously jeop-  
21 ardize public health or safety; or

22 (D) the reassignment will result in incre-  
23 mental costs to the United States Government  
24 that are excessive in relation to the benefits

1           that may be obtained from non-United States  
2           Government uses of the reassigned frequency.

3           (3) CRITERIA FOR SUBSTITUTED FRE-  
4           QUENCIES.—For purposes of paragraph (1), a fre-  
5           quency may not be substituted for a frequency iden-  
6           tified by the final report of the Secretary under sec-  
7           tion 404(d)(1)(D) unless the substituted frequency  
8           also meets each of the criteria specified by section  
9           404(a).

10          (4) DELAYS IN IMPLEMENTATION.—If the  
11          President determines that any action cannot be com-  
12          pleted by the effective dates recommended by the  
13          Secretary pursuant to section 404(e), or that such  
14          an action by such date would result in a frequency  
15          being unused as a consequence of the Commission's  
16          plan under section 406, the President may—

17                 (A) withdraw or limit the assignment to  
18                 United States Government stations on a later  
19                 date that is consistent with such plan, by pro-  
20                 viding notice to that effect in the Federal Reg-  
21                 ister, including the reason that withdrawal at a  
22                 later date is required; or

23                 (B) substitute alternative frequencies pur-  
24                 suant to the provisions of this subsection.

1 (c) COSTS OF WITHDRAWING FREQUENCIES AS-  
2 SIGNED TO THE UNITED STATES GOVERNMENT; APPRO-  
3 PRIATIONS AUTHORIZED.—Any United States Govern-  
4 ment licensee, or non-United States Government entity op-  
5 erating on behalf of a United States Government licensee,  
6 that is displaced from a frequency pursuant to this section  
7 may be reimbursed not more than the incremental costs  
8 it incurs, in such amounts as provided in advance in ap-  
9 propriation Acts, that are directly attributable to the loss  
10 of the use of the frequency pursuant to this section. The  
11 estimates of these costs shall be prepared by the affected  
12 agency, in consultation with the Department of Com-  
13 merce.

14 (d) There are authorized to be appropriated to the  
15 affected licensee agencies such sums as may be necessary  
16 to carry out the purposes of this section.

17 **SEC. 216. DISTRIBUTION OF FREQUENCIES BY THE COM-**  
18 **MISSION.**

19 (a) PLANS SUBMITTED.—

20 (1) With respect to the initial 50 MHz to be re-  
21 allocated from United States Government to non-  
22 United States Government use under section  
23 404(d)(1)(A), not later than 6 months after enact-  
24 ment of this title, the Commission shall complete a  
25 public notice and comment proceeding regarding the

1 allocation of this spectrum and shall form a plan to  
2 assign such spectrum pursuant to competitive bid-  
3 ding procedures, pursuant to section 408, during fis-  
4 cal years 1994 through 1996.

5 (2) With respect to the remaining spectrum to  
6 be reallocated from United States Government to  
7 non-United States Government use under section  
8 404(e), not later than 2 years after issuance of the  
9 report required by section 404(d)(1)(D), the Com-  
10 mission shall complete a public notice and comment  
11 proceeding; and the Commission shall, after con-  
12 sultation with the Secretary, prepare and submit to  
13 the President a plan for the distribution under the  
14 Communications Act of the frequency bands reallo-  
15 cated pursuant to the requirements of this title.  
16 Such plan shall—

17 (A) not propose the immediate distribution  
18 of all such frequencies, but, taking into account  
19 the timetable recommended by the Secretary  
20 pursuant to section 404(e), shall propose—

21 (i) gradually to distribute the fre-  
22 quencies remaining, after making the res-  
23 ervation required by subparagraph (ii),  
24 over the course of a 10-year period begin-

1           ning on the date of submission of such  
2           plan; and

3                   (ii) to reserve a significant portion of  
4           such frequencies for distribution beginning  
5           after the end of such 10-year period;

6           (B) contain appropriate provisions to en-  
7           sure—

8                   (i) the availability of frequencies for  
9           new technologies and services in accord-  
10          ance with the policies of section 7 of the  
11          Communications Act (47 U.S.C. 157); and

12                   (ii) the availability of frequencies to  
13          stimulate the development of such tech-  
14          nologies; and

15          (C) not prevent the Commission from allo-  
16          cating bands of frequencies for specific uses in  
17          future rulemaking proceedings.

18          (b) AMENDMENT TO THE COMMUNICATIONS ACT.—  
19          Section 303 of the Communications Act is amended by  
20          adding at the end thereof the following new subsection:

21               “(u) Have authority to assign the frequencies reallo-  
22          cated from United States Government use to non-United  
23          States Government use pursuant to the Emerging Tele-  
24          communications Technologies Act of 1991, except that  
25          any such assignment shall expressly be made subject to

1 the right of the President to reclaim such frequencies  
2 under the provisions of section 407 of the Emerging Tele-  
3 communications Technologies Act of 1991.”.

4 **SEC. 217. AUTHORITY TO RECLAIM REASSIGNED FRE-**  
5 **QUENCIES.**

6 (a) **AUTHORITY OF PRESIDENT.**—The President may  
7 reclaim reallocated frequencies for reassignment to United  
8 States Government stations in accordance with this sec-  
9 tion.

10 (b) **PROCEDURE FOR RECLAIMING FREQUENCIES.**—

11 (1) **UNASSIGNED FREQUENCIES.**—If the fre-  
12 quencies to be reclaimed have not been assigned by  
13 the Commission, the President may reclaim them  
14 based on the grounds described in section 405(b)(2).

15 (2) **ASSIGNED FREQUENCIES.**—If the fre-  
16 quencies to be reclaimed have been assigned by the  
17 Commission, the President may reclaim them based  
18 on the grounds described in section 405(b)(2), ex-  
19 cept that the notification required by section  
20 405(b)(1) shall include—

21 (A) a timetable to accommodate an orderly  
22 transition for licensees to obtain new fre-  
23 quencies and equipment necessary for their uti-  
24 lization; and

1           (B) an estimate of the cost of displacing  
2           the licensees.

3           (c) COSTS OF RECLAIMING FREQUENCIES.—Any  
4 non-United States Government licensee that is displaced  
5 from a frequency pursuant to this section shall be reim-  
6 bursed the incremental costs it incurs that are directly at-  
7 tributable to the loss of the use of the frequency pursuant  
8 to this section.

9           (d) EFFECT ON OTHER LAW.—Nothing in this sec-  
10 tion shall be construed to limit or otherwise affect the au-  
11 thority of the President under section 706 of the Commu-  
12 nications Act (47 U.S.C. 606).

13 **SEC. 218. COMPETITIVE BIDDING.**

14           (a) COMPETITIVE BIDDING AUTHORIZED.—Section  
15 309 of the Communications Act is amended by adding the  
16 following new subsection:

17           “(j)(1)(A) The Commission shall use competitive bid-  
18 ding for awarding all initial licenses or new construction  
19 permits, including licenses and permits for spectrum re-  
20 allocated for non-United States Government use pursuant  
21 to the Emerging Telecommunications Technologies Act of  
22 1991, subject to the exclusions listed in paragraph (2).

23           “(B) The Commission shall require potential bidders  
24 to file a first-stage application indicating an intent to par-  
25 ticipate in the competitive bidding process and containing

1 such other information as the Commission finds necessary.  
2 After conducting the bidding, the Commission shall re-  
3 quire the winning bidder to submit a second-stage applica-  
4 tion. Upon determining that such application is acceptable  
5 for filing and that the applicant is qualified pursuant to  
6 subparagraph (C), the Commission shall grant a permit  
7 or license.
