## A BILL

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

7 **SEC. 2. FINDINGS.**

8 The Congress finds the following:

1           (1) The United States produces more serial kill-  
2           ers than any other country. Up to 85 percent of the  
3           world’s serial killers are in the United States.

4           (2) According to a study of the Behavioral Unit  
5           of the Federal Bureau of Investigation, serial killing  
6           has climbed to an almost “epidemic proportion”.

7           (3) At any given time there are an estimated  
8           20–50 active serial killers. Serial killers who change  
9           their targets or methods are often never identified.

10          (4) Approximately 500,000 DNA evidence kits  
11          across the country wait to be processed because of  
12          a lack of funding. Over 3,000 DNA kits have not  
13          been processed in the Baton Rouge, Louisiana, serial  
14          killer case.
