1 **SEC. 2. FINDINGS.**

2 Congress finds that—

3 (1) the Northern Appalachian region in the
 4 States of Maine, New Hampshire, Vermont, and
 5 New York is abundant in natural resources and rich
 6 in potential, but—

7 (A) the economic growth of the Northern
 8 Appalachian region lags behind much of the
 9 United States; and

10 (B) the people of the Northern Appa-
 11 lachian region have not shared in the economic
 12 prosperity of the United States;

13 (2) manufacturing sector losses and outmigra-
 14 tion in the region have contributed greatly to the
 15 difficulties of the region with respect to entrepre-
 16 neurial development and sustainability;

17 (3) the historic reliance of the region on a few
 18 basic industries and agriculture has failed to provide
 19 an adequate base for the protection of the natural

1 resources of, and vigorous self-sustaining growth in,
2 the region;

3 (4) small communities and rural communities
4 across the region continue to face economic shifts,
5 outmigration, and uncertainty;

6 (5) small businesses are fueling the economic
7 growth of the United States by—

8 (A) producing over 50 percent of the Gross
9 Domestic Product; and

10 (B) creating $\frac{3}{4}$ of all new jobs in the
11 United States;

12 (6) economic development of the region is fea-
13 sible, desirable, and urgently needed;

14 (7) entrepreneurship is a critical element in the
15 establishment of self-sustaining communities that
16 create jobs and contribute broadly to economic and
17 community development;

18 (8) the Northern Appalachian region has his-
19 toric significance, recreational values, ecological val-
20 ues, and productive capacity that should be pre-
21 served to help drive development and maintain com-
22 munity well-being in the region;

23 (9) the amount of funding available through ex-
24 isting Federal programs should be increased to ade-

1 quately address economic, community, and conserva-
2 tion needs in the region;

3 (10) the qualifying criteria of many Federal
4 programs exclude or underrepresent the unique land
5 ownership patterns and socioeconomic characteristics
6 of the Northern Appalachian region;

7 (11) State and local governments and the peo-
8 ple of the region have made progress in addressing
9 the economic problems of the region while striving
10 to—

11 (A) conserve the natural resource base;

12 (B) maintain the working forests;

13 (C) preserve open space; and

14 (D) provide opportunities for recreation
15 and tourism;

16 (12) providing Federal assistance to the region
17 is necessary to—

18 (A) address the special economic and con-
19 servation challenges of the region; and

20 (B) promote development on a coordinated
21 and concerted regional basis;

22 (13) economic development of the region is fea-
23 sible, desirable, and urgently needed;

24 (14) Federal assistance for the region should
25 preserve the traditional industries of the region, in-

1 including manufacturing, tourism, forestry, natural re-
2 sources, agriculture, and outdoor recreation; and

3 (15) in order to provide support and develop
4 economic opportunities in the region, consideration
5 should be given to State and local government and
6 economic development organizations that promote
7 small business and entrepreneurship for purposes of
8 determining how to allocate Federal assistance
9 under this Act in the region.
