## IN THE HOUSE OF REPRESENTATIVES

SEPTEMBER 29, 2010

Mr. LOEBSACK (for himself and Mr. PAYNE) introduced the following bill;  
which was referred to the Committee on Education and Labor

---

## A BILL

To amend the Elementary and Secondary Education Act of 1965 to foster community involvement, and for other purposes.

1        *Be it enacted by the Senate and House of Representa-*  
2        *tives of the United States of America in Congress assembled,*

3        **SECTION 1. SHORT TITLE.**

4        This Act may be cited as the “Working to Encourage  
5        Community Action and Responsibility in Education Act”  
6        or the “WE CARE Act”.

7        **SEC. 2. FINDINGS.**

8        The Congress finds the following:

1           (1) The long-term health of the Nation’s de-  
2           mocracy, as well as our economy, is dependent upon  
3           the strength of our young people.

4           (2) The challenge of educating the Nation’s stu-  
5           dents cannot be met by schools alone. Cross-sector  
6           community engagement, including schools, commu-  
7           nity-based organizations, businesses, parents, faith-  
8           based organizations, local government, students and  
9           others must all work together to ensure that stu-  
10          dents receive the support they need to be successful.

11          (3) Schools that have strong relationships with  
12          their communities have improved academic achieve-  
13          ment and develop stronger families, schools and  
14          communities.

15          (4) National Academy of Science studies show  
16          that ensuring that a child has adequate nurturing  
17          influences, including those provided by community  
18          programs, results in improved academic, social and  
19          civic outcomes.

20          (5) In order for students to be successful in  
21          school, their academic and non-academic needs must  
22          be met. In a study that analyzed the impact of hav-  
23          ing five key resources in children’s lives: Caring  
24          adults, safe places, a healthy start, an effective edu-  
25          cation, and opportunities to help others, students

1 with four or five of these resources were twice as  
2 likely as their peers with zero or one resource to get  
3 A's in school, 40 percent more likely to volunteer,  
4 and twice as likely to avoid violence.

5 (6) The services provided by community-based  
6 organizations are invaluable in strengthening the  
7 Nation's young people. Research shows that such  
8 services keep students in school, promote their aca-  
9 demic achievement, reduce pregnancy, reduce delin-  
10 quent behavior, and promote civic engagement.

11 (7) Research shows that effective dropout pre-  
12 vention programs meet students' needs inside and  
13 outside the classroom. One such program dem-  
14 onstrated that 82 percent of students improved their  
15 attendance, 86 percent had fewer behavior incidents,  
16 89 percent improved their academic performance,  
17 and 85 percent of eligible seniors graduated from  
18 high school.
