12   that are based on learning rather than time;

13       “(2) to potentially lower cost and reduce the  
14   time to attainment of high-quality postsecondary de-  
15   grees and credentials through competency-based  
16   education programs; and

20   greater access to competency-based education  
21   programs, which may be independent of, or

11              “(B) includes direct measures of learning,  
12              which may include projects, papers, examina-
