EDUCATION FOR THE DISADVANTAGED

For carrying out title I and subpart 2 of part B of title II of the Elementary and Secondary Education Act of 1965 (referred to in this Act as "ESEA") and section 418A of the Higher Education Act of 1965 (referred to in this Act as "HEA"), [\$16,016,790,000]\$16,043,790,000, of which [\$5,127,006,000]\$4,940,990,000 shall become available on July 1, [2016] 2017, and shall remain available through September 30, [2017] 2018, and of which \$10,841,177,000 shall become available on October 1, [2016] 2017, and shall remain available through September 30, [2017] 2018, for academic year [2016-2017] 2017-2018: Provided, That \$6,459,401,000 shall be for basic grants under section 1124 of the ESEA: Provided further, That up to [\$3,984,000]\$5,000,000 of these funds shall be available to the Secretary of Education (referred to in this title as "Secretary") on October 1, [2015] 2016, to obtain annually updated local educational agency-level census poverty data from the Bureau of the Census: Provided further, That \$1,362,301,000 shall be for concentration grants under section 1124A of the ESEA: Provided further, That [\$3,544,050,000]\$3,769,050,000 shall be for targeted grants under section 1125 of the ESEA: *Provided further*, That [\$3,544,050,000]\$3,769,050,000 shall be for education finance incentive grants under section 1125A of the ESEA: [Provided further, That funds available under sections 1124, 1124A, 1125 and 1125A of the ESEA may be used to provide homeless children and youths with services not ordinarily provided to other students under those sections, including supporting the liaison designated pursuant to section 722(g)(1)(J)(ii) of the McKinney-Vento Homeless Assistance Act, and providing transportation pursuant to section 722(g)(1)(J)(iii) of such Act: Provided further. That \$450,000,000 shall be available for school improvement grants under section 1003(g) of the ESEA, which shall be allocated by the Secretary through the formula described in section 1003(g)(2) and shall be used consistent with the requirements of section 1003(g), except that State and local educational agencies may use such funds to serve any school eligible to receive assistance under part A of title I that has not made adequate yearly progress for at least 2 years or is in the State's lowest quintile of performance based on proficiency rates and, in the case of secondary schools, priority shall be given to those schools with graduation rates below 60 percent: Provided further, That notwithstanding section 1003(g)(5)(C) of the ESEA, the Secretary may permit a State educational agency to establish an award period of up to 5 years for each participating local educational agency: Provided further. That funds available for school improvement grants for fiscal year 2014 and thereafter may be used by a local educational agency to implement a whole-school reform strategy for a school using an evidence-based strategy that ensures whole-school reform is undertaken in partnership with a strategy developer offering a whole-school reform program that is based on at least a moderate level of evidence that the program will have a statistically significant effect on student outcomes, including at least one well-designed and well-implemented experimental or quasi-experimental study: Provided further, That funds available for school improvement grants may be used by a local educational agency to implement an alternative State-determined school improvement strategy that has been established by a State educational agency with the approval of the Secretary: Provided further, That a local educational agency that is determined to be eligible for services under subpart 1 or 2 of part B of title VI of the ESEA may modify not more than one element of a school improvement grant model: Provided further, That notwithstanding section 1003(g)(5)(A), each State educational agency may establish a maximum subgrant size of not more than \$2,000,000 for each participating school applicable to such funds: Provided further, That the Secretary may reserve up to 5 percent of the funds available for section 1003(g) of the ESEA to carry out activities to build State and local educational agency capacity to implement effectively the school improvement grants program: Provided further, That \$190,000,000 shall be available under section 1502 of the ESEA for a comprehensive literacy development and education program to advance literacy skills, including pre-literacy skills, reading, and writing, for students from birth through grade 12, including limited-English-proficient students and students with disabilities, of which one-half of 1 percent shall be reserved for the Secretary of the Interior for such a program at schools funded by the Bureau of Indian Education, one-half of 1 percent shall be reserved for grants to the outlying areas for such a program, up to 5 percent may be reserved for national activities, and the remainder shall be used to award competitive grants to State educational agencies for such a program, of which a State educational agency may reserve up to 5 percent for State leadership activities, including technical assistance and training, data collection, reporting, and administration, and shall subgrant not less than 95

percent to local educational agencies or, in the case of early literacy, to local educational agencies or other nonprofit providers of early childhood education that partner with a public or private nonprofit organization or agency with a demonstrated record of effectiveness in improving the early literacy development of children from birth through kindergarten entry and in providing professional development in early literacy, giving priority to such agencies or other entities serving greater numbers or percentages of disadvantaged children: Provided further, That the State educational agency shall ensure that at least 15 percent of the subgranted funds are used to serve children from birth through age 5, 40 percent are used to serve students in kindergarten through grade 5, and 40 percent are used to serve students in middle and high school including an equitable distribution of funds between middle and high schools: Provided further, That eligible entities receiving subgrants from State educational agencies shall use such funds for services and activities that have the characteristics of effective literacy instruction through professional development, screening and assessment, targeted interventions for students reading below grade level and other research-based methods of improving classroom instruction and practice: \[\begin{align*} Provided \] further, That one-half of the total amount of funds made available for part A of title I of the ESEA in excess of the amount authorized by section 1002(a) shall be allocated to States, the Bureau of Indian Education, and the outlying areas on the basis of their respective shares of the remaining funds received under part A of title I and shall be used by each State in accordance with the requirements of section 1003(b) of the ESEA: Provided further, That \$217,000,000 shall be for carrying out subpart 2 of part B of title II: Provided further, That \$44,623,000 shall be for carrying out section 418A of the HEA. (Department of Education Appropriations Act, 2016.)

EDUCATION FOR THE DISADVANTAGED—Continued SUMMARY OF PROGRAM LEVEL

(in millions of dollars)

	2015-2016	2016-2017	2017-2018
	Academic	Academic	Academic
	Year	Year	Year
New Budget Authority	\$4,695	\$5,176	\$5,176
Advance appropriation	10,841	10,841	10,841
Total program level	15,536	16,017	16,017

Grants to local educational agencies.—Funds are allocated via formula for programs that provide academic support to help students in high-poverty schools meet college- and career-ready standards. States would assess annually all students in certain grades in at least English language arts, mathematics, and science; develop systems to differentiate among schools on the basis of performance on those assessments and other indicators; provide parents with information on the performance of their child's school; and ensure the development and implementation of support and improvement plans for the lowest-performing schools. A portion of the request would support activities aimed at turning around the lowest-performing schools.

Comprehensive literacy development grants.—Funds support continuation grants to States to provide targeted, evidence-based literacy interventions in high-need schools. States must award subgrants to LEAs to support literacy interventions for children from birth through kindergarten entry and for students from kindergarten through grade 12.

Innovative approaches to literacy.—Funds support competitive grants to LEAs, consortia of LEAs, the Bureau of Indian Education, or national nonprofit organizations, to promote literacy programs that support the development of literacy skills in low-income communities. Grantees would develop and implement school library programs and provide high-quality, developmentally appropriate, and up-to-date reading material to children and adolescents in low-income communities.

State agency migrant program.—Funds support formula grants to States for educational services to children of migratory farmworkers and fishers, with resources and services focused on children who have moved within the past 36 months.

State agency neglected and delinquent children and youth education program.—Funds would support formula grants to States for educational services to neglected or delinquent children and youth in State-run institutions, attending community day programs, and in correctional facilities.

Special programs for migrant students.—Funds support grants to institutions of higher education and nonprofit organizations that assist migrant students in earning a high school equivalency certificate or in completing their first year of college.

IMPACT AID

For carrying out programs of financial assistance to federally affected schools authorized by title [VIII] VII of the ESEA, \$1,305,603,000, of which \$1,168,233,000 shall be for basic support payments under section [8003] 7003(b), \$48,316,000 shall be for payments for children with disabilities under section [8003] 7003(d), \$17,406,000, to remain available for obligation through September 30, 2018, shall

be for construction under section [8007(a), \$66,813,000 shall be for Federal property payments under section 8002, and \$4,835,000] 7007(b), and \$71,648,000, to remain available until expended, shall be for facilities maintenance under section [8008] 7008: Provided, That for purposes of computing the amount of a payment for an eligible local educational agency under section [8003] 7003(a) for school year [2015–2016] 2016–2017, children enrolled in a school of such agency that would otherwise be eligible for payment under section [8003] 7003(a)(1)(B) of such Act, but due to the deployment of both parents or legal guardians, or a parent or legal guardian having sole custody of such children, or due to the death of a military parent or legal guardian while on active duty (so long as such children reside on Federal property as described in section [8003] 7003(a)(1)(B)), are no longer eligible under such section, shall be considered as eligible students under such section, provided such students remain in average daily attendance at a school in the same local educational agency they attended prior to their change in eligibility status. (Department of Education Appropriations Act, 2016.)

Impact Aid helps to replace the lost local revenue that would otherwise be available to educate federally connected children. The presence of certain students living on Federal property, such as students who are military dependents or who reside on Indian lands, can place a financial burden on local educational agencies (LEAs) that educate them. The property on which the children live and their parents work is exempt from local property taxes, denying LEAs access to the primary source of revenue used by most communities to finance education.

Basic support payments.—Payments will be made on behalf of more than 750,000 federally connected students enrolled in about 1,100 LEAs to assist them in meeting their operation and maintenance costs. Average per-student payments will be approximately \$1,500.

Payments for children with disabilities.—Payments in addition to those provided under the Individuals with Disabilities Education Act (IDEA)

Office of Elementary and Secondary Education—Continued
Federal Funds—Continued

will be provided on behalf of approximately 53,000 federally connected students with disabilities in about 900 LEAs. Average per-student payments will be approximately \$900.

Facilities Maintenance.—Funds will be used to provide emergency repairs for school facilities that serve military dependents and are owned by the Department of Education. Funds will also be used to transfer the facilities to LEAs.

Construction.—Approximately 6–10 construction grants will be awarded competitively to the highest-need Impact Aid LEAs for emergency repairs and modernization of school facilities.

SCHOOL IMPROVEMENT PROGRAMS

For carrying out school improvement activities authorized by part B of title I, [parts A and B] part A of title II, subpart 1 of part A of title IV, part B of title IV, [parts A and B of title VI,] part B of title V, and parts B and C of title [VII] VI of the ESEA; the McKinney-Vento Homeless Assistance Act; section 203 of the Educational Technical Assistance Act of 2002; the Compact of Free Association Amendments Act of 2003; and the Civil Rights Act of 1964, [\$4,433,629,000]\$4,558,409,000, of which [\$2,611,619,000]\$2,732,399,000 shall become available on July 1, [2016] 2017, and remain available through September 30, [2017] 2018, and of which \$1,681,441,000 shall become available on October 1, [2016] 2017, and shall remain available through September 30, [2017] 2018, for academic year [2016-2017] 2017-2018: Provided, That [funds made available to carry out part B of title VII of the ESEA] \$403,000,000 shall be for part B of title I: Provided further, That \$33,397,000 shall be for part B of title VI and may be used for construction, renovation, and modernization of any elementary school, secondary school, or structure related to an elementary school or secondary school, run by the Department of Education of the State of Hawaii, that serves a predominantly Native Hawaiian student body: Provided further, That [funds made available to carry out part C of title VII of the ESEA \[\\$32,453,000 shall be for part C of title VI and shall be awarded on a competitive basis, and also may be used for construction: Provided further, That [\$51,445,000] \$55,445,000 shall be available to carry out section 203 of the Educational Technical Assistance Act of 2002 and the Secretary shall make such arrangements as determined to be necessary to ensure that the Bureau of Indian Education has access to services provided under this section: Provided further, That \$16,699,000 shall be available to carry out the Supplemental Education Grants program for the Federated States of Micronesia and the Republic of the Marshall Islands: Provided further, That the Secretary may reserve up to 5 percent of the amount referred to in the previous proviso to provide technical assistance in the implementation of these grants: *Provided further*, That **[**up to 4.0 percent of the funds for subpart 1 of part A of title II of the ESEA shall be reserved by the Secretary for competitive awards for teacher or principal recruitment and training or professional enhancement activities, including for civic education instruction, to national not-for-profit organizations, of which up to 8 percent may only be used for research, dissemination, evaluation, and technical assistance for competitive awards carried out under this proviso: Provided further, That \$152,717,000 shall be to carry out part B of title II of the ESEA: Provided further, That none of the funds made available by this Act shall be used to allow 21st Century Community Learning Centers initiative funding for expanded learning time unless these activities provide enrichment and engaging academic activities for students at least 300 additional program hours before, during, or after the traditional school day and supplements but does not supplant school day requirements grants under section 1202 may be made on a competitive basis: Provided further, That, notwithstanding section 4105, funds available for subpart 1 of part A of title IV may be used by state educational agencies to make subgrants on a competitive basis to local educational agencies to carry out the activities authorized in sections 4107 through 4109, for a period not to exceed 3 years and in an amount not less than \$50,000 for each year: Provided further, That State educational agencies may give priority for such subgrants to local educational agencies that propose to carry out one or more of the activities authorized in such sections, as determined by the state: Provided further, That \$175,840,000 shall be for part B of title V. (Department of Education Appropriations Act, 2016.)

SUMMARY OF PROGRAM LEVEL

(in millions of dollars)

New Budget Authority	2015-2016 Academic Year \$2,721 1,681	2016-2017 Academic Year \$2,752 1,681	2017-2018 Academic Year \$2,877 1,681
Total program level	4,403	4,434	4,558
Change in advance appropriation over previous year	0	0	0

Supporting effective instruction State grants.—Funds would support formula grants to States and LEAs to increase student achievement consistent with challenging State academic standards; improve the quality and effectiveness of teachers, principals, and other school leaders; increase the number of teachers, principals, or other school leaders who are effective in improving student academic achievement; and provide low-income and minority students greater access to effective teachers, principals, and other school leaders. SEAs and LEAs have flexibility to carry out a wide variety of activities, consistent with their specific needs.

21st century community learning centers.—Funds would support formula grants to States for projects that provide the additional time, support, and enrichment activities needed to improve student achievement.

State assessments.—Funds would support formula and competitive grants to States to develop and implement assessments that are aligned with college- and career-ready academic standards. Funds would also support audits of State and local assessment systems.

SCHOOL IMPROVEMENT PROGRAMS—Continued

Education for homeless children and youths.—Funds would support activities to ensure that all homeless children and youth have equal access to the same free, appropriate public education available to other children.

Native Hawaiians education.—Funds would support competitive grants to public and private entities to develop or operate innovative projects that enhance the educational services provided to Native Hawaiian children and adults.

Alaska Native education.—Funds would support competitive grants to LEAs and other public and private organizations to develop or operate innovative projects that enhance the educational services provided to Alaska Native children and adults.

Training and advisory services.—Funds support grants to regional equity assistance centers that provide technical assistance to local educational agencies (LEAs) in addressing educational equity related to issues of race, gender, and national origin.

Rural education.—Funds would support formula grants under two programs: the Small, Rural School Achievement program and the Rural and Low-Income School program. The Small, Rural School Achievement program provides rural LEAs with small enrollments with additional formula funds to carry out activities authorized elsewhere in ESEA. Funds under the Rural and Low-Income School program, which targets rural LEAs that serve concentrations of poor students, are allocated by formula to States, which in turn allocate funds to eligible LEAs.

Supplemental education grants.—Funds support grants to the Federated States of Micronesia and to the Republic of the Marshall Islands in place of grant programs in which those Freely Associated States no longer participate pursuant to the Compact of Free Association Amendments Act of 2003.

Comprehensive centers.—Funds would support a new cohort of Centers that would reflect changing priorities and new demands resulting from the reauthorization of the ESEA and that would provide services to the Bureau of Indian Education.

Student support and academic enrichment grants.—Funds would support formula grants to improve academic achievement by increasing the capacity of States and LEAs to provide all students with access to a well-rounded education, to improve school conditions for student learning, and to improve the use of technology.

School safety national activities.—Funds support competitive grants and other discretionary activities to foster a safe, secure, and drug-free learning environment; facilitate emergency management and preparedness; and prevent drug use and violence by students, and otherwise improve their well-being. These activities include school safety initiatives in Now Is The Time, the President's plan to protect our children and our communities by reducing gun violence, including efforts to create positive school climates and to counter the effects of pervasive violence on students.

Promise neighborhoods.—Funds support competitive grants and other activities for projects designed to improve significantly the educational and developmental outcomes of children within the Nation's most distressed communities, by providing children in the community with access to a cradle-through-college-to-career continuum of academic programs and community supports, including effective schools and services.

Full-service community schools.—Funds support grants to local educational agencies or the Bureau of Indian Education, in partnership with community-based organizations, nonprofit organizations, or other public or private entities, to provide comprehensive and coordinated academic, social, and health services for students, students' family members, and community members that will result in improved educational outcomes for children in neighborhoods with high rates of poverty, childhood obesity, academic failure, and involvement of community members in the justice system.

The Indian Education programs support the efforts of local educational agencies (LEA), tribes, and Indian organizations to improve teaching and learning for the Nation's American Indian and Alaska Native children.

Grants to local educational agencies.—Formula grants support LEAs in their efforts to enhance and supplement elementary and secondary school programs that serve Indian students, with the goal of ensuring that such programs assist participating students in meeting the same academic standards as all other students.

Special programs for Indian children.—Funds support competitive awards for Native Youth Community Projects under the Demonstration Grants authority to improve the college- and career-readiness of Native youth, as well as professional development grants for training Native American teachers and administrators for employment in school districts with concentrations of Indian students.

National activities.—Funds support research, evaluation, data collection, and related activities, grants for native language immersion schools and programs, and grants to tribes for education administrative planning, development, and coordination.

INNOVATION AND IMPROVEMENT

For carrying out activities authorized by [part G of title I, subpart 5 of part A and parts C and D] subparts 1 and 4 of part B and section 2232 of title II, and parts [B, C,] C and D and subparts 1 and 4 of part F of title [V] IV of the ESEA, and section 14007 of division A of the American Recovery and Reinvestment Act of 2009, as amended, \$1,181,226,000:] and for carrying out additional activities as specified below, \$1,331,556,000: Provided, That \$391,815,000 shall be for subparts 1 and 4 of part B and section 2232 of title II and shall be made available without regard to sections 2201 and 2241: Provided further, That \$529,741,000 shall be for parts C and D and subpart 4 of part F of title IV, and shall be made available without regard to sections 4311, 4409(a), and 4601 of the ESEA: Provided further, That section 4303(d)(3) shall not apply to the funds available for part C of title IV: Provided further, That of the funds available for part C of title IV, the Secretary shall use not less than \$26,000,000 to carry out section 4304, of which not more than \$10,000,000 shall be available to carry out section 4304(k), not more than \$100,000,000 to carry out section 4305(b), and not less than \$16,000,000 to carry out the activities in section 4305(a)(3) and to make up to 5 competitive grants to charter schools to develop and validate collaborative activities with local educational agencies to improve student outcomes: Provided, That [up to \$120,000,000] notwithstanding section 4601(b), \$180,000,000 shall be available through December 31, [2016 for section 14007 of division A of Public Law 111-5, and up to 5 percent of such funds may be used for technical assistance and the evaluation of activities carried out under such

INNOVATION AND IMPROVEMENT—Continued

section: Provided further, That the education facilities clearinghouse established through a competitive process in fiscal year 2013 may collect and disseminate information on effective educational practices and the latest research on the planning, design, financing, construction, improvement, operation, and maintenance of safe, healthy, high-performance public facilities for early learning programs, kindergarten through grade 12, and higher education: Provided further, That \$230,000,000 of the funds for subpart 1 of part D of title V of the ESEA shall be for competitive grants to local educational agencies, including charter schools that are local educational agencies, or States, or partnerships of: (1) a local educational agency, a State, or both; and (2) at least one nonprofit organization to develop and implement performance-based compensation systems for teachers, principals, and other personnel in high-need schools: Provided further, That such performancebased compensation systems must consider gains in student academic achievement as well as classroom evaluations conducted multiple times during each school year among other factors and provide educators with incentives to take on additional responsibilities and leadership roles: Provided further, That recipients of such grants shall demonstrate that such performance-based compensation systems are developed with the input of teachers and school leaders in the schools and local educational agencies to be served by the grant: *Provided further*, That recipients of such grants may use such funds to develop or improve systems and tools (which may be developed and used for the entire local educational agency or only for schools served under the grant) that would enhance the quality and success of the compensation system, such as high-quality teacher evaluations and tools to measure growth in student achievement: Provided further, That applications for such grants shall include a plan to sustain financially the activities conducted and systems developed under the grant once the grant period has expired: Provided further, That up to 5 percent of such funds for competitive grants shall be available for technical assistance, training, peer review of applications, program outreach, and evaluation activities: Provided further, That \$250,000,000 of the funds for part D of title V of the ESEA shall be available through December 31, 2016 for carrying out, in accordance with the applicable requirements of part D of title V of the ESEA, a preschool development grants program: Provided further, That the Secretary, jointly with the Secretary of HHS, shall make competitive awards to States for activities that build the capacity within the State to develop, enhance, or expand high-quality preschool programs, including comprehensive services and family engagement, for preschool-aged children from families at or below 200 percent of the Federal poverty line: Provided further, That each State may subgrant a portion of such grant funds to local educational agencies and other early learning providers (including, but not limited to, Head Start programs and licensed child care providers), or consortia thereof, for the implementation of high-quality preschool programs for children from families at or below 200 percent of the Federal poverty line: Provided further, That subgrantees that are local educational agencies shall form strong partnerships with early learning providers and that subgrantees that are early learning providers shall form strong partnerships with local educational agencies, in order to carry out the requirements of the subgrant: Provided further, That up to 3 percent of such funds for preschool development grants shall be available for technical assistance, evaluation, and other national activities related to such grants: Provided further, That \$10,000,000 of funds available under part D of title V of the ESEA shall be for the Full-Service Community Schools program: *Provided further*, That of the funds available for part B of title V of the ESEA, the Secretary shall use up to \$10,000,000 to carry out activities under section 5205(b) and shall use not less than \$16,000,000 for subpart 2: Provided further, That of the funds available for subpart 1 of part B of title V of the ESEA, and notwithstanding section 5205(a), the Secretary shall reserve up to \$100,000,000 to make multiple awards to non-profit charter management organizations and other entities that are not for-profit entities for the replication and expansion of successful charter school models and shall reserve not less than \$11,000,000 to carry out the activities described in section 5205(a), including improving quality and oversight of charter schools and providing technical assistance and grants to authorized public chartering agencies in order to increase the number of high-performing charter schools: Provided further, That funds available for part B of title V of the ESEA may be used for grants that support preschool education in charter schools: Provided further, That each application submitted pursuant to section 5203(a) shall describe a plan to monitor and hold accountable authorized public chartering agencies through such activities as providing technical assistance or establishing a professional development program, which may include evaluation, planning, training, and systems development for staff of authorized public chartering agencies to improve the capacity of such agencies in the State to authorize, monitor, and hold accountable charter schools: Provided further, That each application submitted pursuant to section 5203(a) shall contain assurances that State law, regulations, or other policies require that: (1) each authorized charter

school in the State operate under a legally binding charter or performance contract between itself and the school's authorized public chartering agency that describes the rights and responsibilities of the school and the public chartering agency; conduct annual, timely, and independent audits of the school's financial statements that are filed with the school's authorized public chartering agency; and demonstrate improved student academic achievement; and (2) authorized public chartering agencies use increases in student academic achievement for all groups of students described in section 1111(b)(2)(C)(v) of the ESEA as one of the most important factors when determining to renew or revoke a school's charter 2017 for subpart 1 of part F of title IV: Provided further, That of the amounts available for section 4611 of the ESEA, the Secretary may reserve up to \$30,000,000 for the Advanced Research Projects Agency-Education (ARPA-ED), which shall be established within the Department of Education, with a Director appointed by the Secretary, to identify and promote advances in fundamental and applied sciences and engineering that could be translated into new learning technologies, to develop, test, and evaluate novel learning technologies and related processes, and to accelerate transformational technological advances: Provided further, That such funds shall remain available until expended and may be used to award grants, contracts, cooperative agreements, and cash prizes, and to enter into other transactions (in accordance with such regulations as the Secretary may establish regarding such other transactions): Provided further, That the Secretary may appoint up to 20 scientific, engineering, professional, and other mission-related personnel to positions in ARPA-ED, for up to four years, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service: Provided further, That the personnel appointed under the preceding proviso shall be paid at rates of compensation determined by the Secretary: Provided further, That \$120,000,000, to remain until expended, shall be for competitive grants to local educational agencies to develop and implement comprehensive strategies to improve socioeconomic integration in early childhood education programs and elementary and secondary schools, of which up to \$2,500,000 may be used for national activities including technical assistance, evaluation, and dissemination: Provided further, That \$100,000,000 shall be for competitive grants to local educational agencies, in partnership with institutions of higher education and other public and private entities, to develop and implement strategies to provide high-quality instruction and other learning opportunities in computer science to students in pre-kindergarten through grade 12, including students in underserved communities or from groups historically underrepresented in science, technology, engineering, and mathematics fields: Provided further, That \$2,500,000 of the funds provided in the previous proviso shall be for national activities, including technical assistance, evaluation, and dissemination: Provided further, That \$10,000,000 shall be for grants to non-profit organizations to support teacher-led projects designed to improve educational outcomes for high-need students. (Department of Education Appropriations Act, 2016.)

Education, innovation, and research.—Funds would support grants to local educational agencies (LEAs), State educational agencies (SEAs), the Bureau of Indian Education (BIE), consortia of LEAs or SEAs, nonprofit organizations; or consortia of SEAs, LEAs, or the BIE with a nonprofit organization, a business, an educational service agency, or an institution of higher education designed to improve the achievement and attainment of high-need students. Funds would also support Advanced Research Projects Agency-Education (ARPA-ED), to identify and promote advances in fundamental and applied sciences and engineering that could be translated into new learning technologies, to develop, test, and evaluate novel learning technologies and related processes, and to accelerate transformational technological advances.

Teacher and school leader incentive fund grants.—Funds would support grants to develop, implement, improve, or expand human capital management systems or performance-based compensation systems, especially in high-need schools.

School leader recruitment and support.—Funds would support grants to improve the recruitment, preparation, placement, support, and retention of effective principals and other school leaders in high-need schools.

Supporting effective educator development.—Funds would support competitive grants to institutions of higher education, national nonprofit entities, and the BIE to provide educators with evidence-based professional

development and to support pathways that allow educators with nontraditional preparation and certification to obtain employment in traditionally underserved local educational agencies.

Charter schools grants.—Funds would support competitive grants for the planning, design, initial implementation, and expansion of successful charter schools. Funds would also support information dissemination activities and competitive grants to improve charter schools' access to facilities.

Magnet schools assistance.—Funds would support competitive grants to LEAs to establish and operate magnet school programs that are part of an approved desegregation plan.

Stronger together.—Funds would support competitive grants to LEAs to develop and implement comprehensive plans with concrete and ambitious goals for improving socioeconomic diversity in the Nation's preK-12 schools.

Computer science for all development grants.—Funds would support competitive grants to local educational agencies to provide high-quality instruction and other learning opportunities in computer science in pre-kindergarten through grade 12, with a focus on expanding access to these opportunities for students in underserved communities or from groups historically underrepresented in science, technology, engineering, and mathematics fields.

Ready to learn programming.—Funds would support competitive grants to public telecommunications entities to develop and distribute educational video programming and digital content, such as applications and online educational games, for preschool and elementary school children and their parents, caregivers, and teachers to facilitate student academic achievement.

Arts in education.—Funds would support projects and programs to promote arts education for students, including disadvantaged students, through competitive grants to support development and dissemination of instructional materials and programming and professional development for arts educators.

Javits gifted and talented education.—Funds would support a coordinated program of research, demonstration projects, innovative strategies, and other activities to build and enhance the capacity of elementary and secondary schools to identify gifted and talented students and meet their special educational needs.

American history and civics academies.—Funds would support competitive grants to institutions of higher education and other nonprofit organizations to improve the quality of American history and civics education by providing intensive workshops for teachers and students.

STEM master teacher corps.—Funds would support grants to States to support the development of statewide STEM Master Teacher Corps to promote improved professional development and instruction in STEM subjects as well as grants to States and non-profit organizations to support effective, statewide professional development programs in STEM subjects.

Teach to lead.—Funds would support the implementation, expansion, and dissemination of teacher-led projects designed to improve educator effectiveness and student outcomes, empowering teachers to lead beyond their classroom.

Preschool for all.—Funds would support grants to States to expand the number and availability of high-quality preschool programs to serve all 4-year-olds from low- and moderate-income families, and improve the quality of existing programs.

Respect: Best job in the world.—Funds would support competitive grants to States with subgrants to LEAs to improve compensation and paths for advancement, teacher leadership opportunities, and working conditions to attract and retain effective teachers in high-needs schools.

Computer science for all.—Funds would support competitive grants to State educational agencies to ensure that all students, including those in underserved communities or from historically underrepresented subgroups, have access to computer science and other rigorous instruction in science, technology, engineering, and mathematics.

Language acquisition State grants.—This program supports formula grants to States to improve services for English Learners. States are accountable for demonstrating that English Learners are making progress toward proficiency in English and meeting the same high State academic standards as all other students. Funds also support national activities, including professional development to increase the supply of high-quality teachers of English Learners, a pilot to identify effective multi-generational approaches to improving literacy, and a national information clearinghouse on English language acquisition.

OFFICE OF SPECIAL EDUCATION AND REHABILITATIVE SERVICES

Federal Funds

SPECIAL EDUCATION

For carrying out the Individuals with Disabilities Education Act (IDEA) and the Special Olympics Sport and Empowerment Act of 2004, [\$12,976,858,000] \$13,066,858,000, of which [\$3,456,259,000] \$3,536,259,000 shall become available

on July 1, [2016] 2017, and shall remain available through September 30, [2017] 2018, and of which \$9,283,383,000 shall become available on October 1, [2016] 2017, and shall remain available through September 30, [2017] 2018, for academic year [2016-2017] 2017-2018: Provided, That the amount for section 611(b)(2) of the IDEA shall be equal to the lesser of the amount available for that activity during fiscal year [2015] 2016, increased by the amount of inflation as specified in section 619(d)(2)(B) of the IDEA, or the percent change in the funds appropriated under section 611(i) of the IDEA, but not less than the amount for that activity during fiscal year [2015] 2016: Provided further, That the Secretary shall, without regard to section 611(d) of the IDEA, distribute to all other States (as that term is defined in section 611(g)(2)), subject to the third proviso, any amount by which a State's allocation under section 611(d), from funds appropriated under this heading, is reduced under section 612(a)(18)(B), according to the following: 85 percent on the basis of the States' relative populations of children aged 3 through 21 who are of the same age as children with disabilities for whom the State ensures the availability of a free appropriate public education under this part, and 15 percent to States on the basis of the States' relative populations of those children who are living in poverty: Provided further, That the Secretary may not distribute any funds under the previous proviso to any State whose reduction in allocation from funds appropriated under this heading made funds available for such a distribution: Provided further, That the States shall allocate such funds distributed under the second proviso to local educational agencies in accordance with section 611(f): Provided further, That the amount by which a State's allocation under section 611(d) of the IDEA is reduced under section 612(a)(18)(B) and the amounts distributed to States under the previous provisos in fiscal year 2012 or any subsequent year shall not be considered in calculating the awards under section 611(d) for fiscal year 2013 or for any subsequent fiscal years: Provided further, That, notwithstanding the provision in section 612(a)(18)(B) regarding the fiscal year in which a State's allocation under section 611(d) is reduced for failure to comply with the requirement of section 612(a)(18)(A), the Secretary may apply the reduction specified in section 612(a)(18)(B) over a period of consecutive fiscal years, not to exceed five, until the entire reduction is applied: Provided further, That the Secretary may, in any fiscal year in which a State's allocation under section 611 is reduced in accordance with section 612(a)(18)(B), reduce the amount a State may reserve under section 611(e)(1) by an amount that bears the same relation to the maximum amount described in that paragraph as the reduction under section 612(a)(18)(B) bears to the total allocation the State would have received in that fiscal year under section 611(d) in the absence of the reduction: Provided further, That the Secretary shall either reduce the allocation of funds under section 611 for any fiscal year following the fiscal year for which the State fails to comply with the requirement of section 612(a)(18)(A) as authorized by section 612(a)(18)(B), or seek to recover funds under section 452 of the General Education Provisions Act (20 U.S.C. 1234a): Provided further, That the funds reserved under 611(c) of the IDEA may be used to provide technical assistance to States to improve the capacity of the States to meet the data collection requirements of sections 616 and 618 and to administer and carry out other services and activities to improve data collection, coordination, quality, and use under parts B and C of the IDEA: [Provided further, That the level of effort a local educational agency must meet under section 613(a)(2)(A)(iii) of the IDEA, in the year after it fails to maintain effort is the level of effort that would have been required in the absence of that failure and not the LEA's reduced level of expenditures:] Provided further, That the Secretary may use funds made available for the State Personnel Development Grants program under part D, subpart 1 of IDEA to evaluate program performance under such subpart: Provided further, That notwithstanding section 613(f)(1) of the IDEA, local educational agencies may also use funds that they reserve under section 613(f) to develop and implement coordinated, early intervening services for children ages 3 through 5, who have not been identified as needing special education and related services but who need additional developmental, academic, and behavioral support to succeed in a general education environment or participate in appropriate activities: Provided further, That, with respect to children receiving services under the preceding proviso, and who have not yet entered kindergarten, the Secretary may waive the requirements of section 613(f)(4) of the IDEA: Provided further, That, notwithstanding section 643 of the IDEA, the Secretary may reserve up to \$15,000,000 of the funds appropriated under section 644 of the IDEA to support grants to partnerships of public and private entities for model demonstration projects to increase early screening, evaluation and assessments, early intervention services, and other services, for infants and toddlers with disabilities and at-risk infants and toddlers who may otherwise not qualify for services under Part C of the IDEA in their State: Provided further, That the Secretary may use funds reserved under the preceding proviso to support technical assistance and evaluation activities related to carrying out and assessing the performance of those grants: Provided further, That each entity that receives a grant under the second preceding proviso may make subgrants, contracts, or otherwise distribute those funds on a competitive, targeted,

or formula basis to public, private, and non-profit entities, including local educational agencies and early intervention service providers, to carry out activities authorized under that proviso. (Department of Education Appropriations Act, 2016.)

Grants to States.—Formula grants are provided to States to assist them in providing special education and related services to children with disabilities ages 3 through 21.

Preschool grants.—Formula grants provide additional funds to States to further assist them in providing special education and related services to children with disabilities ages 3 through 5 served under the Grants to States program. The goal of both of the Grants to States and the Preschool grants programs is to improve results for children with disabilities by assisting State and local educational agencies to provide children with disabilities with access to high quality education that will help them meet challenging

SPECIAL EDUCATION—Continued

standards and prepare them for employment and independent living. Under current law, local educational agencies (LEAs) may reserve up to 15 percent of the funds they receive under Part B of the IDEA to provide coordinated early intervening services (CEIS) to children in grades kindergarten through twelve. In the 2017 Budget, the Administration would provide additional flexibility to allow LEAs to provide CEIS to children ages 3 through 5 so that they are better prepared to enter school ready to learn.

Grants for infants and families.—Formula grants are provided to assist States to implement statewide systems of coordinated, comprehensive, multi-disciplinary interagency programs to provide early intervention services to children with disabilities, birth through age 2, and their families. The goal of this program is to help States provide a comprehensive system of early intervention services that will enhance child and family outcomes. The Administration would reserve \$15 million of the requested increase to make competitive grants to partnerships of public and private entities to support community-based model demonstration projects. These model demonstration projects would focus on expanding early screening, referral, and early intervention services to infants and toddlers eligible for Part C and those who are at-risk, but not eligible, for Part C and their families.

National activities.—Funds are provided for personnel preparation and development, technical assistance, and other activities to support State efforts to improve results for children with disabilities under the State Grants programs. The goal of National Activities is to link States, school systems, and families to best practices to improve results for infants, toddlers, and children with disabilities. The request includes \$10 million under the Technical Assistance and Dissemination program that would support grants to increase substantially the Administration's investment in model demonstration projects to build the evidence-base for promising practices in critical areas such as interventions for students with autism that require intensive services and support.

Special Olympics education programs.—Funds are provided to promote the expansion of the Special Olympics and the design and implementation of Special Olympics education programs.

Performance data related to program goals include:

Vocational rehabilitation State grants.—The basic State grants program provides Federal matching funds to State vocational rehabilitation (VR) agencies to assist individuals with physical or mental impairments to become gainfully employed. Services are tailored to the specific needs of the individual. Priority is given to serving those with the most significant disabilities. In FY 2015, State VR agencies assisted approximately 184,000 individuals with disabilities to obtain an employment outcome, about 93 percent of whom were individuals with significant disabilities. VR State Grants is a core program of the workforce development system under the Workforce Innovation and Opportunity Act (WIOA) and a required partner in the one-stop service delivery system for accessing employment and training services. Amendments made by WIOA require State VR agencies to reserve and use at least 15 percent of their Federal grant allotment to support pre-employment transition services for students with disabilities provided in accordance with new section 113 of the Rehabilitation Act. Between 1.0 percent and 1.5 percent of the funds appropriated for the VR State grants program must be set aside for Grants for Indians.

The request for the VR State Grants program includes the CPIU adjustment specified in the authorizing statute. The 2017 request also includes language that would allow the Secretary to use amounts provided in this Act for the VR State Grants program that remain available subsequent to the reallotment of funds to States pursuant to section 110(b) of the Rehabilitation Act to support innovative activities aimed at improving outcomes for individuals with disabilities, including activities under the Promoting Readiness of Minors in Supplemental Security Income (PROMISE) program

Client assistance State grants.—Formula grants are made to States to provide assistance in informing and advising clients and applicants about benefits available under the Rehabilitation Act and, if requested, to pursue legal or administrative remedies to ensure the protection of the rights of individuals with disabilities.

Supported employment state grants.—Under this formula grant program, State vocational rehabilitation (VR) agencies receive supplemental funds to provide ongoing support services for up to 24 months to assist individuals with the most significant disabilities in achieving competitive integrated employment. States are required to use half of the funds they receive under this program to provide supported employment and extended services to youth with the most significant disabilities and to provide a match of 10 percent for the portion used to serve such youth. States are also able to use SE funds to provide extended services for up to 4 years to eligible youth with the most significant disabilities. An individual's potential for supported employment must be considered as part of the assessment to determine eligibility for the Title I Vocational Rehabilitation State Grants program.

Training.—Grants are made to States and public or nonprofit agencies and organizations, including institutions of higher education, to increase the number of skilled personnel available for employment in the field of rehabilitation and to upgrade the skills of those already employed.

Demonstration and training programs.—Competitive grants and contracts are awarded to expand and improve the provision and effectiveness of

programs and services authorized under the Rehabilitation Act or further the purposes of the Act in promoting the employment and independence of individuals with disabilities in the community. Funds are used to support model demonstrations, technical assistance, and projects designed to improve program performance and the delivery of vocational rehabilitation and independent living services.

Independent living services for older individuals who are blind.—Grants are awarded to States to assist individuals over the age of 55 with severe visual disabilities to adjust to their disability and increase their ability to care for their own needs.

Protection and advocacy of individual rights.—Formula grants are made to State protection and advocacy systems to protect the legal and human rights of individuals with disabilities.

Helen Keller National Center for Deaf-Blind Youths and Adults.—The Center provides services to deaf-blind youths and adults and provides training and technical assistance to professional and allied personnel at its national headquarters center and through its regional representatives and affiliate agencies.

This institution provides undergraduate, continuing education, and graduate programs for students who are deaf, hard of hearing, and hearing. The University also conducts basic and applied research and provides public service programs for persons with hearing loss and persons who work with them.

Gallaudet operates the Laurent Clerc National Deaf Education Center, which includes elementary and secondary education programs on the main campus of the University serving students who are deaf or hard of hearing. The Kendall Demonstration Elementary School serves students from birth through grade 8, and the Model Secondary School for the Deaf (MSSD) serves high school students in grades 9 through 12. The Clerc Center also develops and disseminates information on effective educational techniques and strategies for teachers and professionals working with students who are deaf or hard of hearing.

In 2015, the appropriation for Gallaudet represented approximately 67 percent of total revenue for the University. Approximately 25 percent of the Federal appropriation was used to support activities at the Clerc Center, which received nearly 100 percent of its revenue through the appropriation. In addition, the University receives other Federal funds such as student financial aid, vocational rehabilitation, Endowment Grant program income, and competitive grants and contracts. The 2017 request includes funds that may be used for the Endowment Grant program.

The resources in this schedule are proposed for later transmittal under proposed legislation to reauthorize the Carl D. Perkins Career and Technical Education Act of 2006.

Career and Technical Education:

Career and technical education State grants.—Funds would support formula grants to States for programs that focus on improving the academic achievement and career and technical skills of secondary and postsecondary students. Funds would also support projects to promote innovation in career and technical education. The request includes funding for a Career and Technical Education Innovation Fund competition for grants to support the development and operation of innovative, evidence-based job training programs in high-demand fields that provide a path to the middle class for low-income individuals.

Next generation high schools.—Funds would support competitive grants to transform teaching and learning in high schools by encouraging partnerships among local educational agencies, institutions of higher education, businesses, and other entities to enhance instruction and provide career-related experiences to students, helping them prepare for college and careers. Grantees would leverage new and existing Federal, State, and local resources to create learning models that are rigorous, relevant, and better focused on real-world experiences while incorporating personalized learning, work- and project-based learning, and career and college exploration.

Aid for institutional development:

Strengthening institutions.—Funds support planning and development grants for improving academic programs and financial management at schools that enroll high proportions of disadvantaged students and have low per-student expenditures.

Strengthening tribally controlled colleges and universities.—Discretionary and mandatory funds support grants to American Indian tribally controlled colleges and universities with scarce resources to enable them to improve and expand their capacity to serve students and to strengthen management and fiscal operations.

Strengthening Alaska Native and Native Hawaiian-serving institutions.—Discretionary and mandatory funds support Alaska Native and Native Hawaiian-serving institutions to enable them to improve and expand their capacity to serve students and to strengthen management and fiscal operations.

Strengthening historically Black colleges and universities.—Discretionary and mandatory funds support grants to help historically Black undergraduate institutions to improve and expand their capacity to serve students and to strengthen management and fiscal operations.

Strengthening historically Black graduate institutions.—Funds support grants to help historically Black graduate institutions to improve and expand their capacity to serve students and to strengthen management and fiscal operations.

Strengthening predominantly Black institutions.—Discretionary and mandatory funds support grants to predominantly Black institutions to improve and expand their capacity to serve students.

Strengthening Asian American- and Native American Pacific Islanderserving institutions.—Discretionary and mandatory funds support grants to help Asian American and Native American Pacific Islander-serving institutions improve and expand their capacity to serve students and to strengthen management and fiscal operations.

Strengthening Native American-serving nontribal institutions.—Discretionary and mandatory funds support grants to help Native American-serving nontribal institutions improve and expand their capacity to serve students and to strengthen management and fiscal operations.

Minority science and engineering improvement.—Funds support grants to predominantly minority institutions to help them make long-range improvements in science and engineering education and to increase the participation of minorities in scientific and technological careers.

Aid for Hispanic-serving institutions:

Developing Hispanic-serving institutions.—Funds support Hispanic-serving institutions to help them improve and expand their capacity to serve students.

Developing Hispanic-serving institutions STEM and articulation programs.—Mandatory funds support Hispanic-serving institutions to help them improve and expand their capacity to serve students with priority given to applications that propose to increase the number of Hispanics and other low-income students attaining degrees in the fields of science, technology, engineering, or mathematics; and to develop model transfer and articulation agreements between 2-year Hispanic-serving institutions and 4-year institutions in such fields.

Promoting postbaccalaureate opportunities for Hispanic Americans.—Discretionary funds support Hispanic-serving Institutions to help them expand and improve postbaccalaureate educational opportunities.

HBCU and Minority-serving institutions (MSI) innovation for completion fund.—Funds support innovative and evidenced-based student-centered strategies and interventions to increase the number of low-income students completing degree programs at HBCUs and MSIs, including Hispanic-serving institutions, Predominantly Black institutions, Tribally Controlled Colleges and Universities, Asian American and Native American Pacific Islander-serving institutions, and Native American-serving nontribal institutions.

Other aid for institutions:

International education and foreign language studies programs.—Funds promote the development and improvement of domestic and overseas international and foreign language programs by providing institutional and fellowship grant funding to strengthen the capability and performance of American education in foreign languages and in area and international studies.

Fund for the improvement of postsecondary education/First in the world.—Funds would support the First in the World initiative, an evidence-based program that supports the development and evaluation of innovative strategies designed to improve college completion, particularly for high-need students.

Model transition programs for students with intellectual disabilities into higher education.—Funds support grants to institutions of higher education or consortia of such institutions to create or expand high quality, inclusive model comprehensive transition and postsecondary programs for students with intellectual disabilities.

Tribally controlled postsecondary career and technical institutions.—Funds support the operation and improvement of eligible tribally controlled postsecondary career institutions to ensure continued and expanded educational opportunities for Indian students.

Assistance for students:

Federal TRIO programs.—Funds support postsecondary education outreach and student support services to help individuals from disadvantaged backgrounds prepare for, enter, and complete college and graduate studies.

Gaining early awareness and readiness for undergraduate programs.—Funds support early college preparation and awareness activities at the State and local levels to ensure that low-income elementary and

HIGHER EDUCATION—Continued

secondary school students are prepared for and pursue postsecondary education.

Graduate assistance in areas of national need.—Funds support fellowships to graduate students of superior ability who have financial need for study in areas of national need.

Child care access means parents in school.—Funds support a program designed to bolster the participation of low-income parents in postsecondary education through the provision of campus-based child care services.

Teacher and principal pathways.—Funds support grants to institutions of higher education and other non-profit entities to create or expand high quality pathways to prepare participants to be effective teachers or principals.

America's college promise.—Funds would support the creation of a new partnership with states to make 2 years of community college free for responsible students by helping them waive tuition in high-quality programs while promoting key reforms to help more students complete at least 2 years of college. Funds would also support HBCUs and other MSIs by waiving or significantly reducing tuition and fees for up to 60 credits for low-income students.

College opportunity and graduation bonus.—Funds would support a program to reward colleges that successfully enroll and graduate a significant number of low- and moderate-income students on time and encourage all institutions to improve their performance.

HOWARD UNIVERSITY

For partial support of Howard University, \$221,821,000, of which not less than \$3,405,000 shall be for a matching endowment grant pursuant to the Howard University Endowment Act and shall remain available until expended. (Department of Education Appropriations Act, 2016.)

Howard University is a private, nonprofit institution of higher education consisting of 13 schools and colleges. Federal funds are used to provide partial support for University programs as well as for the Howard University Hospital, a teaching facility. In 2015, the Federal appropriation represented approximately 38 percent of the University's revenue and 10 percent of the Hospital's revenue.

COLLEGE HOUSING AND ACADEMIC FACILITIES LOANS PROGRAM

For Federal administrative expenses to carry out activities related to existing facility loans pursuant to section 121 of the HEA, [\$435,000] \$457,000. (Department of Education Appropriations Act, 2016.)

HISTORICALLY BLACK COLLEGE AND UNIVERSITY CAPITAL FINANCING PROGRAM ACCOUNT

For the cost of guaranteed loans, \$20,150,000, as authorized pursuant to part D of title III of the HEA, which shall remain available through September 30, [2017] 2018: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That these funds are available to subsidize total loan principal, any part of which is to be guaranteed, not to exceed [\$302,099,000] \$282,212,885: Provided further, That these funds may be used to support loans to public and private Historically Black Colleges and Universities without regard to the limitations within section 344(a) of the HEA.

In addition, for administrative expenses to carry out the Historically Black College and University Capital Financing Program entered into pursuant to part D of title III of the HEA, [\$334,000] \$349,000. (Department of Education Appropriations Act, 2016.)

As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with the direct loans obligated and loan

guarantees committed in 1992 and beyond, as well as any administrative expenses for the College Housing and Academic Facilities Loans (CHAFL) Program and the Historically Black College and University (HBCU) Capital Financing Program. The subsidy amounts are estimated on a present value basis; the administrative expenses are on a cash basis. These programs are administered separately but consolidated in the Budget for presentation purposes.

College housing and academic facilities loans program.—Funds for this activity pay the Federal costs of administering CHAFL, College Housing Loans (CHL), and Higher Education Facilities Loans (HEFL) programs. Prior to 1994, these programs provided financing for the construction, reconstruction, and renovation of housing, academic, and other educational facilities. Although no new loans have been awarded since 1993, the Department of Education will incur costs for administering the outstanding loans through 2030.

Historically Black college and university capital financing program.—The HBCU Capital Financing Program provides HBCUs with access to capital financing for the repair, renovation, and construction of classrooms, libraries, laboratories, dormitories, instructional equipment, and research instrumentation. The authorizing statute gives the Department authority to enter into insurance agreements with a private for-profit Designated Bonding Authority. The bonding authority issues the loans and maintains an escrow account in which 5 percent of each institution's principal is deposited. The Budget requests \$20.1 million in new loan subsidies, allowing the program to guarantee an estimated \$282 million in new loans in 2017. The Budget also requests a 2-year period of availability for this loan subsidy. In addition, the Budget requests funds for the Federal costs of administering the program and providing technical assistance activities that improve the financial stability of HBCUs.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Federal Government resulting from direct loans obligated in 1996 and beyond. The Federal Financing Bank (FFB) purchases bonds issued by the HBCU Designated Bonding Authority. Under the policies governing Federal credit programs, bonds purchased by the FFB and supported by the Department of Education with a letter of credit create the equivalent of a Federal direct loan. HBCU bonds are also available for purchase by the private sector, and these will be treated as loan guarantees. However, the Department anticipates that all HBCU loans will be financed by the FFB. The amounts in this account are a means of financing and are not included in the budget totals.

374 Office of Federal Student Aid—Continued Federal Funds—Continued THE BUDGET FOR FISCAL YEAR 2017

STUDENT FINANCIAL ASSISTANCE—Continued Status of Direct Loans (in millions of dollars)

Identifi	cation code 091-0200-0-1-502	2015 actual	2016 est.	2017 est.
	Cumulative balance of direct loans outstanding:			
1210	Outstanding, start of year	330	347	357
1251	Repayments: Repayments and prepayments	-31	-37	-38
1264	Write-offs for default: Other adjustments, net (+ or -)	48	47	46
1290	Outstanding, end of year	347	357	365

Notes.—Figures include, in all years, institutional matching share of defaulted notes assigned from institutions to the Education Department.

Funding from the Student Financial Assistance account and related matching funds would provide more than 10.3 million awards totaling more than \$33.8 billion in available aid in award year 2017–2018. In addition, the request would provide \$4.1 billion in aid to an estimated 714,000 students through an expanded Perkins loan program.

Federal Pell grants.—Pell Grants are the single largest source of grant aid for postsecondary education. Funding for this program is provided from two sources: discretionary and mandatory budget authority provided by the College Cost Reduction and Access Act, as amended, and changes to the Higher Education Act of 1965 made in the 2012 appropriations act.

In 2017, over 7.7 million undergraduates will receive up to \$4,860 from the discretionary award and an additional \$1,075 from the mandatory add-on to help pay for postsecondary education. Undergraduate students establish eligibility for these grants under award and need determination rules set out in the authorizing statute and annual appropriations act. The 2017 Budget request includes \$22.5 billion in discretionary funding for Pell Grants in 2017, which, when combined with mandatory funding, will support a projected maximum award of \$5,935. Additionally, the Budget proposes to make several reforms to the Pell Grant program:

First, it would reinstate year-round Pell Grant eligibility with total Pell aid limited to 150 percent of a student's regular Pell Grant award, ensuring that students can accelerate their studies and enter the workforce on time. Students will now be eligible for a third semester of Pell during an academic year if they have already completed a full-time course load of 24 credits.

Second, it would provide a \$300 Pell bonus award to recipients who take 15 credits per semester, and are enrolled in 30 semester hours (or the equivalent) of coursework during an award year, to encourage more students to complete their degrees on-time. This feature will be treated as discretionary and funded through annual appropriations and carry over funding. The bonus will effectively raise the maximum grant level for students who take 15 credits, but will not impact the calculation of the Pell maximum award.

Third, to help reduce recidivism, it will lift the restriction on providing Pell Grants to individuals incarcerated in Federal or State penal institutions. Fourth, it will strengthen academic progress requirements in the Pell

Grant program in order to encourage students to complete their studies on time.

Fifth, it would prevent additional Pell disbursements to recipients who repeatedly enroll and obtain aid but do not earn any academic credits.

Sixth, the Budget would move Iraq Afghanistan Service Grants to the Pell Grant program so eligible students receive the full, non-sequestered Pell award.

Seventh, and finally, the Budget proposes eliminating questions related to assets, non-IRS untaxed income, non-IRS income exclusions, and other income adjustments, which have been shown to confuse students.

The Budget also extends the inflationary increase to the maximum Pell grant award, which is scheduled to end after the 2017–2018 award year.

Federal supplemental educational opportunity grants (SEOG).—Federal funds are awarded by formula to qualifying institutions, which use these funds to award grants to undergraduate students. While institutions have discretion in awarding these funds, they are required to give priority to Pell Grant recipients and other students with exceptional need. The Federal share of these grants cannot exceed 75 percent of the total grant. The 2017 Budget includes \$733 million for SEOG, which would generate \$925.2

million in aid to more than 1.5 million students. The President's 2017 Budget proposes to reform Federal allocations in the campus-based programs to target those institutions that enroll and graduate higher numbers of Pell-eligible students, and offer affordable and quality education and training such that graduates can obtain employment and repay their educational debt.

Federal work-study.—Federal funds are awarded by formula to qualifying institutions, which provide part-time jobs to eligible undergraduate and graduate students. Hourly earnings under this program must be at least the Federal minimum wage. Federal funding, in most cases, pays 75 percent of a student's hourly wages, with the remaining 25 percent paid by the employer. The Federal Work-Study program also requires participating institutions to use at least 7 percent of their total funds for students employed in community service jobs. The 2017 Budget includes \$989.7 million for Work-Study, which would generate \$1.1 billion in aid to 674,000 students. The President's 2017 Budget proposes to reform Federal allocations in the campus-based programs to target those institutions that enroll and graduate higher numbers of Pell-eligible students, and offer affordable and quality education and training such that graduates can obtain employment and repay their educational debt.

Federal Perkins loans.—Institutions award low-interest loans from institutional revolving funds, which comprise Federal Capital Contributions, institutional matching funds, and student repayments on outstanding loans. No new Federal Capital Contributions have been appropriated since 2004, and the program was recently authorized through September 30, 2017 by the Federal Perkins Loan Program Extension Act of 2015. The Budget proposes to modernize and expand the Perkins Loan program so more colleges can participate and more students can access loans. The proposal would increase, beginning on July 1, 2017, the annual loan amounts available to students to \$8.5 billion. Rather than operating through institutional revolving funds, the Federal Government would originate and service Perkins Loans. Loan volume would be allocated among degree-granting institutions. This new formula will encourage colleges to control costs and enroll and graduate higher numbers of Pell-eligible students. Schools would have some discretion about student eligibility. Perkins Loan borrowers would be charged the same interest rate as Unsubsidized Stafford Loan borrowers. Perkins loans would accrue interest while students are in school, and other loan terms and conditions would be the same as current Unsubsidized Stafford loans. Mandatory loan subsidy costs of this proposal would reduce 2017 outlays by \$305 million, savings which would be reinvested in student aid. Subsidy costs are displayed in the Federal Perkins Loan program account.

Iraq and Afghanistan service grants.—This program provides non-need-based grants to students whose parent or guardian was a member of the Armed Forces and died in Iraq or Afghanistan as a result of performing military service after September 11, 2001. Service Grants are equal to the maximum Pell Grant for a given award year. The 2017 Budget proposes to move the Iraq and Afghanistan Service Grant program into the Pell Grant program, so eligible students receive a full, non-sequestered award.

Funding tables.—The following tables display student aid funds available, the number of aid awards, average awards, and the unduplicated count of recipients from each Federal student aid program. Loan amounts reflect the amount actually loaned to borrowers, not the Federal cost of these loans. The data in these tables include matching funds wherever appropriate. The 2017 data in these tables reflect the Administration's legislative proposals.

The Department of Education manages Federal student aid programs that will provide nearly \$140 billion in new Federal student aid grants and loans (excluding Direct Consolidation Loans) to 12.1 million students and parents in 2017. The Offices of Postsecondary Education, the Under Secretary and Federal Student Aid (FSA) are primarily responsible for administering the Federal student financial assistance programs. FSA was created by Congress in 1998 with a mandate to improve service to students and other student aid program participants, reduce student aid administration costs, and improve accountability and program integrity.

Student Aid Administration

The 2017 Budget includes \$732 million for student aid administration activities and \$900 million for loan servicing activities, for a total of \$1.632 billion in discretionary budget authority. Administrative functions supported by these discretionary funds include: processing student aid applications; providing and tracking aid awards to students, parents, and schools; servicing the Department's loan portfolio; promoting efforts to reach key student populations; and simplifying the student aid application.

Servicing costs are largely determined by volume (borrower accounts per month) and the negotiated contractual per-borrower price for each type of mon metrics, and on the basis of the capacity of each servicer to process new and loan status (such as in-school, repayment, deferment, and forbearance).

² Value in 2017 reflects Budget policy to make Iraq and Afghanistan service grants part of the Pell Grant program.

376 Office of Federal Student Aid—Continued THE BUDGET FOR FISCAL YEAR 2017

STUDENT AID ADMINISTRATION—Continued

overall cost for servicing since servicers are paid more for in-repayment borrowers than for in-school borrowers and less for borrowers who are delinquent than those who are current. The servicing contracts' incentive-based pricing and the contracts' performance metrics are designed to encourage high-quality customer service and help borrowers stay current. Servicing costs in 2017 have increased over past years and will continue to do so, as the Direct Loan program's total number of borrowers continue to increase and as the portfolio matures with more borrowers moving from in-school to in-repayment status.

Summary of Loan Levels, Subsidy Budget Authority and Outlays by Program (in millions of dollars)

Identification code 091-0206-0-1-502	2015 actual	2016 est.	2017 est.
Direct loan levels supportable by subsidy budget authority:			
115001 TEACH Grants	95	95	104
Direct loan subsidy (in percent): 132001 TEACH Grants	16.57	13.05	11.88
132999 Weighted average subsidy rate	16.57	13.05	11.88
Direct loan subsidy budget authority: 133001 TEACH Grants	16	12	12
Direct loan subsidy outlays: 134001 TEACH Grants	13	12	11
Direct loan reestimates: 135001 TEACH Grants	-31	-2	

The TEACH Grant program, authorized by the College Cost Reduction and Access Act of 2007, awards annual grants of up to \$4,000 to full- or part-time undergraduate and graduate students who agree to teach mathematics, science, foreign languages, bilingual education, special education, or reading at a high-poverty school for not less than four years within eight years of graduation. The program began awarding grants in the 2008–2009 award year. Students must have a grade point average of 3.25 or higher to be eligible to receive a grant. Students who fail to fulfill the service requirements must repay the grants, including interest accrued from the time of award.

Because TEACH Grants turn into loans in cases where the service requirements are not fulfilled, for budget and accounting purposes the program is operated consistent with the requirements of the Federal Credit Reform Act of 1990. This program account records subsidy costs reflecting the net present value of the estimated lifetime Federal program costs for grants awarded in a given fiscal year. Under this approach the subsidy cost reflects the cost of grant awards net of expected future repayments for grants that are converted to loans.

Beginning in 2021, the Budget proposes consolidating TEACH grants and the current teacher loan forgiveness programs into a single loan forgiveness program.

The Higher Education Amendments of 1998 clarified that reserve funds held by public and non-profit guaranty agencies participating in the Federal Family Education Loan (FFEL) program are Federal property. These reserves are used to pay default claims from FFEL lenders and fees to support agency efforts to avert defaults. The Federal Government reimburses these reserves for default claim payments. The Consolidated Appropriations Act, 2016, increased guaranty agency reinsurance payments from 95 percent of the face value of loans to 100 percent. The following schedule reflects the balances in these guaranty agency funds.

The Federal Government has two major student loan programs: the FFEL program and the William D. Ford Federal Direct Loan (Direct Loan) program. The SAFRA Act eliminated the authorization to originate new FFEL

DEPARTMENT OF EDUCATION

Office of Federal Student Aid—Continued Federal Funds—Continued Federal Federal Funds—Continued Federal Federal Federal Federal Federal Federal Federal Federal Federal Feder

loans; as of July 1, 2010, the Direct Loan program originates all new loans. This narrative outlines the structure of these two programs and provides text tables displaying program cost data; loan volume, subsidy, default, and interest rates; and other descriptive information.

From its inception in 1965 through the end of June 2010, the FFEL program guaranteed almost \$899 billion in loans to postsecondary students and their parents. Although no new FFEL loans have been originated since July 1, 2010, over \$250 billion of outstanding FFEL loans continue to be serviced by lenders and guaranty agencies. The Federal Government continues to make payments to these intermediaries. The Consolidated Appropriations Act, 2016, increased guaranty agency reinsurance payments from 95 percent of the face value of loans to 100 percent.

Under the Direct Loan program, the Federal Government provides loan capital through the Treasury while the Department of Education loan origination and servicing is handled by private and not-for-profit loan servicers under performance-based contracts with the Department. The Direct Loan program began operation in award year 1994–1995, originating 7 percent of overall loan volume. In 2017, excluding Consolidation Loans, the Direct Loan program will make \$101.6 billion in new loans available. (This figure does not include the current Perkins program nor the new Perkins program proposed in the 2017 Budget.)

The Direct Loan program offers four types of loans: Subsidized Stafford, Unsubsidized Stafford, PLUS, and Consolidation. Loans can be used for qualified educational expenses. Undergraduates with financial need may receive a subsidized Stafford loan (graduate and professional students are not eligible). The other three loan programs are available to borrowers at all income levels. The Bipartisan Student Loan Certainty Act of 2013 changed how student loan interest rates are set. The rates are set annually for loans originated in the upcoming award year based on the 10-year Treasury note; those rates will remain fixed for the life of the loan. For Subsidized Stafford loans available to undergraduates, the interest rate will be equal to the 10-year Treasury note plus 2.05 percent and capped at 8.25 percent. Loans originated in award year 2015-2016 have an interest rate of 4.29 percent. Interest payments for these loans are fully subsidized by the Federal Government while a student is in school (up to 150 percent of program length) and during grace and deferment periods. The interest rate on new Unsubsidized Stafford loans for undergraduate borrowers is the same as that on subsidized Stafford loans for undergraduates. The Unsubsidized Stafford loan interest rate for graduate and professional students is equal to the 10-year Treasury note plus 3.6 percent and capped at 9.5 percent. Loans originated in award year 2015-2016 have an interest rate of 5.84 percent. The borrower interest rate on PLUS loans to graduate and professional students and parents of undergraduate borrowers is equal to the 10-year Treasury note plus 4.6 percent and capped at 10.5 percent. PLUS loans originated in award year 2015-2016 have an interest rate of 6.84 percent.

Consolidation loans allow borrowers to combine FFEL, Direct Loans, and Perkins Loans, as well as some loans made under the Public Health Service Act. The interest rate for new Consolidation loans equals the weighted average of the interest rate on the loans consolidated, rounded up to the nearest one-eighth of a percent.

For most types of Direct Loans, the origination fee is a base rate of one percent, but an additional surcharge for sequestration was added in 2013, 2014, 2015 and 2016. The base origination fee for PLUS loans is four percent, but has included an additional surcharge in 2013, 2014, 2015 and 2016.

Borrowers may choose from four basic types of repayment plans: standard, graduated, extended (available for qualified borrowers who have outstanding loans of more than \$30,000), and income-driven. FFEL borrowers may change repayment plans annually. Direct Loan borrowers may switch between repayment plans at any time. The maximum repayment period is 10 years for standard and graduated plans, as well as the income-sensitive repayment plan that is available only for FFEL loans. Under the current income-driven administrative Pay As You Earn (PAYE) and statutory In-

come-Based-Repayment (IBR) plans, for new borrowers after 2014, the repayment period is 20 years. Under the current income-driven administrative Revised Pay As You Earn (REPAYE), the repayment period is 20 or 25 years depending on whether the borrower has any graduate school loans. And, under the extended, income-based, and income-contingent repayment (ICR) plans, the maximum time is 25 years. Income-driven plans (except for REPAYE and ICR) require partial financial hardship in order to qualify for reduced payments and the monthly payment is capped at the monthly payment of the 10-year Standard plan. At the end of the repayment term, the borrower's remaining balance is forgiven.

Federal student loans have other benefits. For example, Federal student loans can be discharged when borrowers die, become totally and permanently disabled, or, under some circumstances, declare bankruptcy. In addition, there are several loan forgiveness programs. For example, new borrowers after October 1, 1998, who are employed as teachers in schools serving low-income populations for five consecutive, complete school years, qualify for up to \$5,000 in loan forgiveness; this benefit is increased to \$17,500 for mathematics, science, and special education teachers considered highly qualified under criteria established in the Elementary and Secondary Education Act. In addition, under the Public Sector Loan Forgiveness Program (PSLF), qualifying borrowers who have worked for 10 years in the public sector and made 120 qualifying monthly payments in the standard or income-driven plans can have any remaining loan balance forgiven. This benefit is only available in the Direct Loan program, though FFEL borrowers may receive the benefit by taking out a Direct Consolidation Loan. Forgiveness is available for all borrowers, regardless of when they took out their loans.

The 2017 Budget proposes to expand and increase teacher loan forgiveness, up to \$25,000 for teachers graduating from an effective preparation program who serve in low-income schools, starting in 2021. This proposal would consolidate various postsecondary assistance available for teachers, such as TEACH grants and the current teacher loan forgiveness program, into a single loan forgiveness program. In addition, the 2017 Budget would reform the PAYE terms to ensure that program benefits are targeted to the neediest borrowers and safeguard the program for the future, including by protecting against institutional practices that may further increase student indebtedness. To simplify borrowers' experience while reducing program complexity, PAYE would become the only income-driven repayment plan for borrowers who originate their first loan on or after July 1, 2017, which would allow for easier selection of a repayment plan. Students who borrowed their first loans prior to July 1, 2017, would continue to be able to select among the existing repayment plans through their current course of study, in addition to the modified PAYE. The Budget proposes additional changes to PAYE to include: eliminating the standard payment cap under PAYE so that high-income, high-balance borrowers pay an equitable share of their earnings as their incomes rise; calculating payments for married borrowers filing separately on the combined household Adjusted Gross Income; establishing a 25-year forgiveness period for students who borrowed as graduate students; capping the amount of interest that can accrue when a borrower's monthly payment is insufficient to cover the interest to avoid ballooning loan balances; capping PSLF at the aggregate loan limit for independent undergraduate students to protect against institutional practices that may further increase student indebtedness, while ensuring the program provides sufficient relief for students committed to public service and; preventing payments made under non-income driven repayment plans from being applied toward PSLF to ensure that loan forgiveness is targeted to students with the greatest need.

The following tables display performance indicators and program data; including projected overall Direct Loan and FFEL costs default rates.

Weighted Average, Direct Loans	16.33	15.86	15.69

¹Default rates displayed in this table, which reflect projected defaults over the life of a loan cohort, are used in developing program cost estimates. The Department uses other rates based on defaults occurring in the first 3 years of repayment to determine institutional eligibility to participate in Federal loan programs. These 3-year rates are lower than those included in this table.

FFEL program payments are made to lenders (interest subsidies, loan defaults, and discharges) and guaranty agencies (default collection costs, administrative services). These payments are partially offset by an annual consolidation loan holder fee. In Direct Loans, cash outflows are primarily payments to Treasury. Cash inflows include principal and interest payments on outstanding Direct Loans.

The following table shows Government payments to and from lenders, guaranty agencies, and borrowers for specific years, regardless of when loans were originated. These flows do not reflect long-term costs to the Government, nor the value of outstanding loan assets, which are reflected in credit reform subsidy estimates.

The Federal Credit Reform Act of 1990 accounts for differences in the amount and timing of cash flows among direct and guaranteed loan programs to make cost estimates for these programs comparable with each other and other Federal programs.

Notes: For 2014, the rates are current; these include the actual executed rates for 2014 and the effect of re-estimates on those rates.

The table above describes Direct Loan costs on a subsidy rate basis: program costs calculated under the Federal Credit Reform Act of 1990 and comparably projected estimates of Federal administrative costs. As with any long-term projection, the comparison is based on assumed future interest rates, borrower characteristics, administrative costs, and other factors over

¹Liquidating account reflects loans made prior to 1992.

²Reflects the cost or savings associated with policy changes passed in the Consolidated Appropriations Act of 2016.

³Reflects the cost or savings associated with expanding and reformulating the Pay As You Earn repayment plan.

DEPARTMENT OF EDUCATION

Office of Federal Student Aid—Continued Federal Funds—Continued Federal Funds—Continued Student Aid—Continued Federal Funds—Continued Federal Funds—Federal Funds—Continued Federal Federal Federal Federal Federal Federal F

the life of the loan cohort. To the degree actual conditions differ from projections, estimated subsidy rates will change.

The Federal Credit Reform Act of 1990 requires the cost of existing loan cohorts to be reestimated to reflect changes in actual and assumed borrower behavior, interest rates, and other factors. The following table shows the impact of these reestimates in FFEL and Direct Loans.

Loan Disbursement and Subsidy Costs

/in	L:I	linns	of a	4~1	lara'

	FFEL	Direct Loans
Original Subsidy Costs	+\$77.1	-\$105.3
Cumulative Reestimates	-\$53.1	+\$25.3
Net Subsidy Costs	+\$24.0	-\$80.0
Total Disbursements	+\$898.7	+\$1,072.4

Changes in interest rate projections are a significant factor in FFEL and Direct Loan reestimates; recent declines in interest rates below historical averages have been a major driver in changes to program costs. In addition, the number of borrowers enrolled in income-based repayment plans has begun to increase which reflects program costs.

As required by the Federal Credit Reform Act of 1990, this program account records the subsidy costs associated with Federal Family Education

Loans (FFEL), formerly guaranteed student loans, committed in 1992 and beyond. Beginning with the 1993 cohort of loans, mandatory administrative costs, specifically contract collection costs, are included in the FFEL subsidy estimates of each year's cohort. Subsidy amounts are estimated on a net present value basis.

A description of the FFEL program and accompanying tables are included under the Federal Direct Student Loan program account.

Guaranteed loan reestimates: 235001 HEAL Loan Guarantee	-19	-21	

Consistent with the Consolidated Appropriations Act, 2014 (P.L. 113–76), the Health Education Assistance Loans (HEAL) program was transferred to the Department of Education from the Department of Health and Human Services in FY 2014. The Department of Education assumed responsibility for the program and the authority to administer, service, collect, and enforce the program.

The HEAL program guarantees loans from private lenders to health professions students to pay for the costs of their training. As required by the Federal Credit Reform Act of 1990, this account records the subsidy costs associated with HEAL loan guarantees committed in 1992 and beyond (including modifications of HEAL loan guarantees that resulted from obligations or commitments in any year), as well as administrative expenses of the program.

Research and Statistics:

Research, development, and dissemination.—Funds support a diverse portfolio of research, development, and dissemination activities that provide parents, teachers, and schools with evidence-based information on effective educational practices. Funds requested in 2017 would be used to sustain and expand research and evaluation efforts across all dimensions of education, including increased support for dissemination activities to improve the Department's program performance data and reporting.

Statistics.—Funds support the Department's statistical data collection activities, which are conducted by the National Center for Education Statistics (NCES). NCES collects, analyzes, and disseminates education statistics at all levels, from preschool through postsecondary and adult education, including statistics on international education activities. The 2017 request would allow NCES to support a wide range of activities, including initiating a new round of the Early Childhood Longitudinal Study Birth Cohort, developing a study on college loan performance, collecting additional data through the Teaching and Learning International Survey, supporting the My Brother's Keeper initiative, and creating P-12 and postsecondary information hubs.

Regional educational laboratories.—Funds support a network of 10 regional laboratories that provide expert advice, including training and technical assistance, to help States and school districts apply proven research findings in their school improvement efforts.

Assessment.—Funds support the ongoing National Assessment of Educational Progress (NAEP) and the National Assessment Governing Board (NAGB). NAEP administers assessments to samples of students in order to gather reliable information about educational attainment in important academic areas. NAGB is responsible for formulating NAEP policy; developing student achievement levels; and selecting, consistent with the requirements of the statute, the subjects to be assessed.

Research in special education.—Funds support research to build the evidence base on improving special education and early intervention services and outcomes for infants, toddlers, and children with disabilities.

Statewide data systems.—Funds support competitive grant awards to States to foster the design, development, implementation, and use of longitudinal data systems. In 2017, funding would support linking K-12 systems to systems that include early childhood, postsecondary, and workforce information, or further developing such systems. In addition, funds would support awards to public and private agencies to improve data coordination, quality, and use at the local, State, and national levels.

DEPARTMENT OF EDUCATION

Departmental Management Federal Funds 391

Special education studies and evaluations.—Funds support studies, evaluations, and assessments related to the implementation of the Individuals with Disabilities Education Act in order to improve special education and early intervention services and outcomes for infants, toddlers, and children with disabilities.

The Program Administration account includes the direct Federal costs of providing grants and administering early, elementary, and secondary education; Indian education; English language acquisition; higher education; career, technical, and adult education; special education programs; and programs for persons with disabilities. It also supports assessment, statistics, and research activities.

In addition, this account includes the cost of providing centralized support and administrative services, overall policy development, and strategic planning for the Department. Included in the centralized activities are rent and mail services; telecommunications; contractual services; financial management and accounting, including payments to schools, education agencies and other grant recipients, and preparation of auditable financial statements; information technology services; personnel management; personnel security; budget formulation and execution; legal services; congressional and public relations; and intergovernmental affairs.

Included in this account is the Department of Education's cost to relocate staff and renovate buildings occupied by Department staff to reduce the Department's real estate footprint and generate rent savings.

Also included in this account are contributions from the public. Activities supported include receptions for Blue Ribbon Schools and Historically

THE BUDGET FOR FISCAL YEAR 2017

The Office for Civil Rights is responsible for ensuring that no person is unlawfully discriminated against on the basis of race, color, national origin, sex, disability, or age in the delivery of services or the provision of benefits in programs or activities of schools and institutions receiving financial assistance from the Department of Education. The authorities under which the Office for Civil Rights operates are Title VI of the Civil Rights Act of 1964 (racial and ethnic discrimination), Title IX of the Education Amendments of 1972 (sex discrimination), section 504 of the Rehabilitation Act of 1973 (discrimination against individuals with a disability), the Age Discrimination Act of 1975, the Americans with Disabilities Act of 1990, and the Boy Scouts of America Equal Access Act of 2002.

The Inspector General is responsible for the quality, coverage, and coordination of audit and investigation functions relating to Federal education activities. The Inspector General has the authority to inquire into all activities of the Department, including those performed under Federal education contracts, grants, or other agreements. Under the Chief Financial Officers Act of 1990, the Inspector General is also responsible for internal reviews of the Department's financial systems and audits of its financial statements.

GENERAL PROVISIONS

SEC. 301. No funds appropriated in this Act may be used for the transportation of students or teachers (or for the purchase of equipment for such transportation) in order to overcome racial imbalance in any school or school system, or for the transportation of students or teachers (or for the purchase of equipment for such transportation) in order to carry out a plan of racial desegregation of any school or school system.

SEC. 302. None of the funds contained in this Act shall be used to require, directly or indirectly, the transportation of any student to a school other than the school which is nearest the student's home, except for a student requiring special education, to the school offering such special education, in order to comply with title VI of the Civil Rights Act of 1964. For the purpose of this section an indirect requirement of transportation of students includes the transportation of students to carry out a plan involving the reorganization of the grade structure of schools, the pairing of schools, or the clustering of schools, or any combination of grade restructuring, pairing, or clustering. The prohibition described in this section does not include the establishment of magnet schools.

SEC. 303. No funds appropriated in this Act may be used to prevent the implementation of programs of voluntary prayer and meditation in the public schools.

(TRANSFER OF FUNDS)

SEC. 304. Not to exceed 1 percent of any discretionary funds (pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985) which are appropriated for the Department of Education in this Act may be transferred between appropriations, but no such appropriation shall be increased by more than 3 percent by any such transfer: *Provided*, That the transfer authority granted by this section shall not be used to create any new program or to fund any project or activity for which no funds are provided in this Act: *Provided further*, That the Committees on Appropriations of the House of Representatives and the Senate are notified at least 15 days in advance of any transfer.

[Sec. 305. The Outlying Areas may consolidate funds received under this Act, pursuant to 48 U.S.C. 1469a, under part A of title V of the ESEA.]

SEC. [306] 305. Section 105(f)(1)(B)(ix) of the Compact of Free Association Amendments Act of 2003 (48 U.S.C. 1921d(f)(1)(B)(ix)) shall be applied by substituting ["2016"] "2017" for ["2009"] "2016".

SEC. [307] 306. [The Secretary, in consultation with the Director of the Institute of Education Sciences, may reserve funds under section 9601 of the ESEA (subject to the limitations in subsections (b) and (c) of that section) in order to carry out activities authorized under paragraphs (1) and (2) of subsection (a) of that section with respect to any ESEA program funded in this Act and without respect to the source of funds for those activities: Provided, That high-quality evaluations of ESEA programs shall be prioritized, before using funds for any other evaluation activities: Provided further, That any funds reserved under this section shall be available from July 1, 2016 through September 30, 2017: Provided further, That not later than 10 days prior to the initial obligation of funds reserved under this section, the Secretary, in consultation with the Director, shall submit an evaluation plan to the Senate Committees on Appropriations and Health, Education, Labor, and Pensions and the House Committees on Appropriations and Education and the Workforce which identifies the source and amount of funds reserved under this section, the impact on program grantees if funds are withheld, the programs to be evaluated with such funds, how ESEA programs will be regularly evaluated, and how findings from evaluations completed under this section will be widely disseminated Funds consolidated for evaluation purposes under section 8601(c) of the ESEA shall be available from July 1, 2017, through September 30, 2018.

SEC. [308] 307. (a) An institution of higher education that maintains an endowment fund supported with funds appropriated for title III or V of the HEA for fiscal year [2016] 2017 may use the income from that fund to award scholarships to students, subject to the limitation in section 331(c)(3)(B)(i) of the HEA. The use of such income for such purposes, prior to the enactment of this Act, shall be considered to have been an allowable use of that income, subject to that limitation.

(b) Subsection (a) shall be in effect until titles III and V of the HEA are reauthorized.

SEC. [309]308. Section 114(f) of the HEA (20 U.S.C. 1011c(f)) is amended by striking ["2015"]"2016"and inserting ["2016"]"2017".

SEC. [310] 309. Section 458(a) of the HEA (20 U.S.C. 1087h(a)) is amended in paragraph (4) by striking ["2014"] "2016" and inserting ["2016"] "2017".

[Sec. 311. Section 428(c)(1) of the HEA (20 U.S.C. 1078(c)(1)) is amended by striking "95 percent" and inserting "100 percent".]

394 GENERAL PROVISIONS—Continued THE BUDGET FOR FISCAL YEAR 2017

- [SEC. 312. Notwithstanding section 5(b) of the Every Student Succeeds Act, funds provided in this Act for non-competitive formula grant programs authorized by the ESEA for use during academic year 2016–2017 shall be administered in accordance with the ESEA as in effect on the day before the date of enactment of the Every Student Succeeds Act.]
- SEC. 313. Career pathways programs.—
- (1) Subsection (d) of section 484 of the HEA is amended by replacing (d)(2) with the following:
- "(2) ELIGIBLE CAREER PATHWAY PROGRAM.—In this subsection, the term "eligible career pathway program" means a program that combines rigorous and high-quality education, training, and other services that—
- "(A) aligns with the skill needs of industries in the economy of the State or regional economy involved;
- "(B) prepares an individual to be successful in any of a full range of secondary or postsecondary education options, including apprenticeships registered under the Act of August 16, 1937 (commonly known as the "National Apprenticeship Act"; 50 Stat. 664, chapter 663; 29 U.S.C. 50 et seq.) (referred to individually in this Act as an "apprenticeship", except in section 171);
- "(C) includes counseling to support an individual in achieving the individual's education and career goals;
- "(D) includes, as appropriate, education offered concurrently with and in the same context as workforce preparation activities and training for a specific occupation or occupational cluster;
- "(E) organizes education, training, and other services to meet the particular needs of an individual in a manner that accelerates the educational and career advancement of the individual to the extent practicable;
- "(F) enables an individual to attain a secondary school diploma or its recognized equivalent, and at least 1 recognized postsecondary credential; and
- "(G) helps an individual enter or advance within a specific occupation or occupational cluster.".
