[53 FR 48881, Dec. 2, 1988, as amended at 58 FR 38201, July 15, 1993]

§3833.2-3 Consistency between the Federal Land Policy and Management Act, the General Mining Law of May 10, 1872, and the Act of August 10, 1993.

(a) The Federal Land Policy and Management Act requires that a notice of intention to hold or evidence of annual assessment work be filed on or before December 30 of each calendar year following the calendar year in which the mining claim, mill site, or tunnel site was located. To comply with the requirements of the Act for mining claims, mill sites, or tunnel sites located between September 1 and December 31 of a given calendar year, the claimant shall submit an annual filing on or before December 30, of the following calendar year for each location to prevent the mining claim, mill site, or tunnel site from being declared abandoned and void by operation of law.

(b) Evidence of assessment work filed under this subpart between January 1

and the following December 30 of the same calendar year shall be deemed to have been filed during that calendar year, regardless of what assessment year that work fulfilled under State law.

(c) Notice of intention to hold a mining claim, mill site, or tunnel site may be filed at the election of the owner, regardless of whether the assessment work has been suspended, deferred, or not yet accrued. However, the owner shall have filed with the Bureau of Land Management the same documents which have been or will be recorded with the local recordation office. There is no requirement to file a notice of intent to hold for a mill site or a tunnel site with the local recordation office. A notice of intention to hold a mining claim, mill site, or tunnel site shall be effective only to satisfy the filing requirement for the calendar year in which the notice is filed. The filing of a notice of intention to hold with the Bureau of Land Management shall not relieve the owner of complying with Federal and State laws pertaining to the performance of assessment work.

(d) The Act of August 10, 1993, does not affect the requirements to do assessment work in the assessment year beginning at 12 o'clock noon on September 1, 1999, or to make annual filings on or before December 30, 2000, pursuant to §§ 3833.2 and 3851.1.

(e) For mining claims and sites located on or after September 1, 1998, and on or before September 29, 1998, and for which the required \$100 maintenance fee was paid at the time of recording pursuant to § 314(b) of FLPMA and § 3833.1-2, payment of the maintenance fee holds the claims or sites through at least September 1, 1999.
