

rental for the period. However, if the Contractor's failure to submit was not the fault of the Contractor, the Contracting Officer shall grant to the Contractor in writing a reasonable extension of time to submit.

(h) Unless otherwise directed in writing by the Contracting Officer, the Contractor shall give priority in the use of the facilities to performing contracts and subcontracts of the Contracting Officer having cognizance of the facilities and shall not undertake any work involving the use of the facilities that would interfere with performing existing Government contracts or subcontracts.

(i) Concurrently with the submission of the written statement prescribed by paragraph (f) of this clause, the Contractor shall pay the rental due the Government under this clause. Payment shall be by check made payable to the office designated for contract administration and mailed or delivered to the Contracting Officer. Receipt and acceptance by the Government of the Contractor's check pursuant to this paragraph shall constitute an accord and satisfaction of the final amount due the Government hereunder, unless the Contractor is notified in writing within 180 days following receipt that the amount received is not regarded by the Government as the final amount due.

(j) If the Contractor uses any item of the facilities without authorization, the Contractor shall be liable for the full monthly rental, without credit, for such item for each month or part of a month in which such unauthorized use occurs; *provided*, however, that the agency head concerned may, in writing, waive the Contractor's liability for such unauthorized use if the agency head determines that without such a waiver gross inequity would result. The acceptance of any rental by the Government under this clause shall not be construed as a waiver or relinquishment of any rights it may have against the Contractor growing out of the Contractor's unauthorized use of the facilities or any other failure to perform this contract according to its terms.

TABLE I
Rental Rates

(i) For real property and associated fixtures, a fair and reasonable rental shall be established, based on sound commercial practice.

(ii) For plant equipment of the types covered in Federal Supply classes 3405, 3408, 3410, and 3411 through 3419, machine tools; and in 3441 through 3449, secondary metal forming and cutting machines, the following monthly rates shall apply:

Age of Equipment	Monthly Rental Rate
Under 2 years old	3.0 percent
Over 2 to 3 years old	2.0 percent

Age of Equipment	Monthly Rental Rate
Over 3 to 6 years old	1.5 percent
Over 6 to 10 years old	1.0 percent
Over 10 years old	0.75 percent

The age of each item of the equipment shall be based on the year in which it was manufactured, with a birthday on January 1 of each year thereafter. For example, an item of equipment manufactured on July 15, 1978, will be considered to be *over 1 year old* on and after January 1, 1979, and *over 2 years old* on and after January 1, 1980.

(iii) For personal property and equipment not covered in (i) or (ii) above, a rental shall be established at not less than the prevailing commercial rate, if any, or, in the absence of such rate, not less than 2 percent per month for electronic test equipment and automotive equipment and not less than 1 percent per month for all other property and equipment.

(End of clause)

52.245-10 Government Property (Facilities Acquisition).

As prescribed in 45.302-6(d), insert the following clause in solicitations and contracts when a facilities acquisition contract is contemplated:

GOVERNMENT PROPERTY (FACILITIES ACQUISITION) (MAR 1996)

(a) *Definitions.*

Facilities, as used in this clause, means all property provided under this facilities contract.

Related contract, as used in this clause, means a Government contract or subcontract for supplies or services under which the use of the facilities is or may be authorized.

(b) *Facilities to be provided.* (1) The Contractor, at Government expense and subject to the provisions of this contract, shall acquire, construct, or install the facilities and perform the related work as described in the Schedule.

(2) The Government, subject to the provisions of this contract, shall furnish to the Contractor the facilities identified in the Schedule as Government-furnished facilities. The Contractor, at Government expense, shall perform the work with respect to those Government-furnished facilities as is described in the Schedule.

(c) *Title in the facilities.* (1) The Government shall retain title to all Government-furnished property.

(2) Title to all facilities and components shall pass to and vest in the Government upon delivery by the vendor of all such items purchased by the Contractor for which it is

entitled to be reimbursed as a direct item of cost under this contract.

(3) Title to other property, the cost of which is reimbursable to the Contractor under this contract, shall pass to and vest in the Government upon—

(i) Issuance of the property for use in performing this contract;

(ii) Commencement of processing or use of the property in performing this contract; or

(iii) Reimbursement of the cost of the property by the Government, whichever occurs first.

(4) Title to the facilities shall not be affected by their incorporation into, or attachment to, any property not owned by the Government, nor shall any item of the facilities become a fixture or lose its identity as personal property by being attached to any real property. The Contractor shall keep the facilities free and clear of all liens and encumbrances and, except as otherwise authorized by this contract or by the Contracting Officer, shall not remove or otherwise part with possession of, or permit the use by others of, any of the facilities.

(5) The Contractor may, with the written approval of the Contracting Officer, install, arrange, or rearrange, on Government-furnished premises, readily movable machinery, equipment, and other items belonging to the Contractor. Title to any such item shall remain in the Contractor even though it may be attached to real property owned by the Government, unless the Contracting Officer determines that it is so permanently attached that removal would cause substantial injury to Government property.

(6) The Contractor shall not construct or install, at its own expense, any fixed improvement or structural alterations in Government buildings or other real property without advance written approval of the Contracting Officer. Fixed improvement, or structural alterations, as used herein, means any alteration or improvement in the nature of the building or other real property, that, after completion, cannot be removed without substantial loss of value or damage to the premises. The term does not include foundations for production equipment.

(d) *Property control.* The Contractor shall maintain property control procedures and records and a system of identification of the facilities in accordance with the provisions of Federal Acquisition Regulation (FAR) subpart 45.5 in effect on the date of this contract. The provisions of FAR 45.5 are hereby incorporated by reference and made a part of this contract.

(e) *Access.* The Government and any persons designated by it shall, at all reasonable times, have access to the premises where any of the facilities are located.

(f) *Indemnification of the Government.* The Contractor shall indemnify the Government and hold it harmless against claims for in-

jury to persons or damage to property of the Contractor or others arising from the Contractor's possession or use of the facilities, except as specified in the clause at FAR 52.228-7, Insurance—Liability to Third Persons. However, the provisions of the Contractor's related contracts shall govern any assumption of liability by the Government for claims arising under such related contracts.

(g) *Late delivery, diversion, and substitution.*

(1) The Government shall not be liable for breach of contract for any delay in delivery or nondelivery of facilities to be furnished under this contract.

(2) The Government has the right, at its expense, to divert the facilities under this contract by directing the Contractor to—

(i) Deliver any of the facilities to locations other than those specified in the Schedule; or

(ii) Assign purchase orders or subcontracts for any of the facilities to the Government or third parties.

(3) The Government may furnish any facilities instead of having the Contractor acquire or construct them. In such event, the Contractor is entitled to reimbursement for the cost related to the acquisition or construction of the facilities, including the cost of terminating purchase orders and subcontracts.

(4) Appropriate equitable adjustment may be made in any related contract that so provides and that is affected by nondelivery, delay, diversion, or substitution under this paragraph (g).

(h) *Representations and warranties.* (1) The Government makes no warranty, express or implied, regarding the condition or fitness for use of any facilities. To the extent practical, the Contractor shall be allowed to inspect all the facilities to be furnished by the Government before their shipment.

(2) If the Contractor receives facilities in a condition not suitable for the intended use, the Contractor shall, within 30 days after receipt and installation thereof, so notify the Contracting Officer, detailing the facts, and, as directed by the Contracting Officer and at Government expense, either (i) return such item or otherwise dispose of it or (ii) effect repairs or modifications. An appropriate equitable adjustment may be made in any related contract that so provides and that is affected by the return, disposition, repair, or modification of any facilities.

(i) *Supersedure.* Upon the acquisition, construction, or installation of the facilities called for by this contract, or any usable increment of the facilities, and acceptance by the Government, the facilities shall then be subject to the provisions of the facilities contract that authorizes the use of the items.

(End of clause)

[48 FR 42478, Sept. 19, 1983, as amended at 61 FR 2640, Jan. 26, 1996]

52.245-11 Government Property (Facilities Use).

As prescribed in 45.302-6(e)(1), insert the following clause:

GOVERNMENT PROPERTY (FACILITIES USE)
(APR 1984)

(a) *Definitions. Facilities.* as used in this clause, means property provided under this facilities contract.

Related contract. as used in this clause, means a Government contract or subcontract for supplies or services under which the use of the facilities is or may be authorized.

(b) *Period of this contract.* If not otherwise specified in this contract and if not previously terminated under paragraph (k), the use of the facilities authorized under this contract shall terminate 5 years after its effective date. Thereafter, if continued use of the facilities by the Contractor is mutually desired, the parties shall enter into a new contract that shall incorporate such provisions as may then be required by applicable laws and regulations. The parties may, by written agreement, extend the use of the facilities under this contract beyond this 5-year period to permit the completion of any then-existing related contracts and subcontracts.

(c) *Title in the facilities.* (1) Title to the facilities shall remain in the Government. Title to parts replaced by the Contractor in carrying out its normal maintenance obligations under paragraph (g) shall pass to and vest in the Government upon completion of their installation in the facilities.

(2) Title to the facilities shall not be affected by their incorporation into or attachment to any property not owned by the Government, nor shall any item of the facilities become a fixture or lose its identity as personal property by being attached to any real property. The Contractor shall keep the facilities free and clear of all liens and encumbrances and, except as otherwise authorized by this contract or by the Contracting Officer, shall not remove or otherwise part with possession of, or permit the use by others of, any of the facilities.

(3) The Contractor may, with the written approval of the Contracting Officer, install, arrange, or rearrange, on Government-furnished premises, readily movable machinery, equipment, and other items belonging to the Contractor. Title to any such item shall remain in the Contractor even though it may be attached to real property owned by the Government, unless the Contracting Officer determines that it is so permanently at-

tached that removal would cause substantial injury to Government property.

(4) The Contractor shall not construct or install, at its own expense, any fixed improvement or structural alterations in Government buildings or other real property without advance written approval of the Contracting Officer. Fixed improvement or structural alterations, as used herein, means any alteration or improvement in the nature of the building or other real property that, after completion, cannot be removed without substantial loss of value or damage to the premises. The term does not include foundations for production equipment.

(d) *Location of the facilities.* The Contractor may use the facilities at any of the locations specified in the Schedule and, with the prior written approval of the Contracting Officer, at any other location. In granting this approval, the Contracting Officer may prescribe such terms and conditions as may be deemed necessary for protecting the Government's interest in the facilities involved. Those terms and conditions shall take precedence over any conflicting provisions of this contract.

(e) *Notice of use of the facilities.* The Contractor shall notify the Contracting Officer in writing—

(1) Whenever use of all facilities for Government work in any quarterly period averages less than 75 percent of the total use of the facilities; or

(2) Whenever any item of the facilities is no longer needed or usable for performing existing related contracts that authorize such use.

(f) *Property control.* The Contractor shall maintain property control procedures and records, and a system of identification of the facilities, in accordance with the provisions of Federal Acquisition Regulation (FAR) subpart 45.5 in effect on the date of this contract. The provisions of FAR 45.5 are hereby incorporated by reference and made a part of this contract.

(g) *Maintenance.* (1) Except as otherwise provided in the Schedule, the Contractor shall protect, preserve, maintain (including normal parts replacement), and repair the facilities in accordance with sound industrial practice.

(2) As soon as practicable after the execution of this contract, the Contractor shall submit to the Contracting Officer a written proposed maintenance program, including a maintenance records system, in sufficient detail to show the adequacy of the proposed program. If the Contracting Officer agrees to the proposed program, it shall become the normal maintenance obligation of the Contractor. The Contractor's performance according to the approved program shall satisfy the Contractor's obligations under subparagraphs (g)(1) and (g)(5) of this clause.

(3) The Contracting Officer may at any time direct the Contractor in writing to reduce the work required by the normal maintenance program. If such order reduces the cost of performing the maintenance, an appropriate equitable adjustment may be made in any affected related contract that so provides.

(4) The Contractor shall perform any maintenance work directed by the Contracting Officer in writing. Work in excess of the maintenance required under subparagraphs (g)(1) through (g)(3) of this clause shall be at Government expense. The Contractor shall notify the Contracting Officer in writing when sound industrial practice requires maintenance in excess of the normal maintenance program.

(5) The Contractor shall keep records of all work done on the facilities and shall give the Government reasonable opportunity to inspect such records. When facilities are disposed of under this contract, the Contractor shall deliver the related records to the Government or, if directed by the Contracting Officer, to third persons.

(6) The Contractor's obligation under this clause for each item of facilities shall continue until the item is removed, abandoned, or disposed of at the expiration of the 120-day period stated in subparagraph (l)(4) of this clause and when the Contractor has discharged its other obligations under this contract with respect to such items.

(h) *Access.* The Government and any persons designated by it shall, at all reasonable times, have access to the premises where any of the facilities are located.

(i) *Indemnification of the Government.* The Contractor shall indemnify the Government and hold it harmless against claims for injury to persons or damage to property of the Contractor or others arising from the Contractor's possession or use of the facilities under this contract. However, the provisions of the Contractor's related contracts shall govern any assumption of liability by the Government for claims arising under those contracts.

(j) *Representations and warranties.* (1) The Government makes no warranty, express or implied, regarding the condition or fitness for use of any facilities. To the extent practical, the Contractor shall be allowed to inspect all the facilities to be furnished by the Government before their shipment.

(2) If the Contractor receives facilities in a condition not suitable for the intended use, the Contractor shall, within 30 days after receipt and installation thereof, so notify the Contracting Officer, detailing the facts, and, as directed by the Contracting Officer and at Government expense, either (i) return such item or otherwise dispose of it or (ii) effect repairs or modifications. An appropriate equitable adjustment may be made in any related contract that so provides and that is

affected by the return, disposition, repair, or modification of any facilities.

(k) *Termination of use of the facilities.* (1) The Contractor may at any time, upon written notice to the Contracting Officer, terminate its authority to use any or all of the facilities. Termination under this paragraph (k) shall not relieve the Contractor of any of its obligations or liabilities under any related contract or subcontract affected by the termination.

(2) The Contracting Officer may at any time, upon written notice, terminate or limit the Contractor's authority to use any of the facilities. Except as otherwise provided in the Failure to Perform clause of this contract, an equitable adjustment may be made in any related contract of the Contractor that so provides and that is affected by such notice.

(l) *Disposition of the facilities.* (1) The provisions of this paragraph (l) shall apply to facilities whose use has been terminated by either the Contracting Officer or the Contractor under paragraph (k), except as provided in subparagraph (l)(2).

(2) Unless otherwise directed by the Contracting Officer, this paragraph (l) shall not apply to facilities terminated by the Contractor if—

(i) The facilities terminated do not comprise all of the facilities in the possession of the Contractor; and

(ii) The Contracting Officer determines that continued retention of the facilities will not interfere with the Contractor's operations.

(3) Within 60 days after the effective date of any notice of termination given under paragraph (k) or within such longer period as the Contracting Officer may approve in writing, the Contractor shall submit to the Contracting Officer an accounting for all the facilities covered by such notice. The submission of the Contractor shall be in a form satisfactory to the Contracting Officer.

(4) Within 120 days after the Contractor accounts for any facilities under subparagraph (l)(3), the Contracting Officer shall give written notice to the Contractor as to the disposition of the facilities, except as otherwise provided in subparagraph (l)(6). In its disposition of the facilities, the Government may either—

(i) Abandon the facilities in place, in which case all obligations of the Government regarding such abandoned facilities and the rehabilitation of the premises in and on which they are located shall immediately cease; or

(ii) Require the Contractor to comply, at Government expense, with such directions as the Contracting Officer may give with respect to—

(A) The preparation, protection, removal, or shipment of the affected facilities;

(B) The retention or storage of the affected facilities; *provided*, that the Contracting Officer shall not direct the Contractor to retain or store any items of facilities in or on real property not owned by the Government if such retention or storage will interfere with the Contractor's operations;

(C) The restoration of Government-owned property incident to the removal of the facilities from such property; and

(D) The sale of any affected facilities in such manner, at such times, and at such price as may be approved by the Government, except that the Contractor shall not be required to extend credit to any purchaser.

(5) If the Contracting Officer fails to give the written notice required by subparagraph (1)(4) of this clause within the prescribed 120-day period, the Contractor may, upon not less than 30 days' written notice to the Government, and at Government risk and expense, (i) retain the facilities in place or (ii) remove any of the affected severable facilities located in Contractor-owned property and store them at the Contractor's plant or in a public insured warehouse. Such removal and storage shall be in accordance with sound practice and in a manner compatible with the security classification of the facilities. Except as provided in this subparagraph (1)(5), the Government shall not be liable to the Contractor for failure to give the written notice required by subparagraph (1)(4).

(6) Nonseverable items of the facilities or items of the facilities subject to patent or proprietary rights shall be disposed of in such manner as the parties may have agreed to in writing.

(7) The Government, either directly or by third persons engaged by it, may remove or otherwise dispose of any facilities for which the Contractor's authority to use has been terminated, other than those for which specific provision is made in subparagraph (1)(6).

(8) The Contractor shall, within a reasonable time after the expiration of the 120-day period specified in subparagraph (1)(4), remove all of its property from the Government property and take such action as the Contracting Officer may direct in writing with respect to restoring such Government property, to the extent that it is affected by the installation of the Contractor's property, to its condition before such installation.

(9) Unless otherwise specifically provided in this contract, the Government shall not be obligated to the Contractor to restore or rehabilitate any property at the Contractor's plant, except for restoration or rehabilitation costs caused by removal of the facilities under subdivision (1)(4)(ii). The Contractor agrees to indemnify the Government against all suits or claims for damages arising out of the Government's failure to restore or rehabilitate any property at the Contractor's plant or property of its subcontractors, ex-

cept any damage as may be caused by the negligence of the Government, its agents, or independent contractors.

(m) *Supersedure*. (1) Facilities previously provided to the Contractor under the contracts specified in the Schedule of this contract shall become subject to this contract upon its effective date. The terms of those contracts by which such facilities were previously provided to the Contractor are hereby superseded with respect to such facilities, except for rights and obligations that may have accrued under such other contract before the effective date of this contract.

(2) Facilities subsequently provided the Contractor under any contract shall, if that contract so specifies, be subject to this contract upon the completion of their construction, acquisition, and installation or upon their availability for use, whichever occurs first, except as otherwise provided in the contract or other document by which such facilities are provided to the Contractor.

(End of clause)

Alternate I (JUL 1985). As prescribed in 45.302-6(e)(2), substitute the following paragraph (c) of the basic clause:

(c) *Title*. (1) Title to equipment (and other tangible personal property) having a unit acquisition cost of less than \$5,000, purchased with funds available for research, shall vest in the Contractor upon acquisition or as soon thereafter as feasible, provided that the Contractor received the Contracting Officer's approval before acquiring the equipment. Title to other equipment purchased with Government funds shall vest in the Government. The Government may at any time during the term of this contract or upon its completion or termination transfer to the Contractor the title to any equipment purchased with funds available for research. Any such transfer shall be upon terms and conditions agreed to by the parties. The Contractor agrees that it shall not charge under any Government contract or subcontract any depreciation, amortization, or use of the equipment purchased or transferred under this paragraph. When title to equipment is vested in the Contractor or is transferred under this paragraph to the Contractor, the equipment ceases to be Government property. Within 10 days after the end of the calendar quarter in which such acquisition or transfer of title occurs, the Contractor shall furnish the Contracting Officer a list of all equipment, title to which is vested in the Contractor.

(2)(i) The Government shall retain title to all Government-furnished property.

(ii) Except as set forth in subparagraph (c)(1), title to all property shall pass to and vest in the Government upon delivery by the vendor of all such items purchased by the

Federal Acquisition Regulation

52.245-13

Contractor for which it is entitled to be reimbursed as a direct item of cost under this or a related contract.

(iii) Title to replacement parts furnished by the Contractor in performing its normal obligations under paragraph (g) shall pass to and vest in the Government upon completion of their installation in the facilities.

(iv) Title to other property, the cost of which is reimbursable to the contractor under this contract or a related contract, shall pass to and vest in the Government upon—

(A) Issuance of the property for use in performing this contract;

(B) Commencement of processing or use of the property in performing this contract; or

(C) Reimbursement of the cost of the property by the Government, whichever occurs first.

(3) Title to the facilities shall not be affected by their incorporation into or attachment to any property not owned by the Government, nor shall any item of the facilities become a fixture or lose its identity as personal property by being attached to any real property. The Contractor shall keep the facilities free and clear of all liens and encumbrances and, except as otherwise authorized by this contract or by the Contracting Officer, shall not remove or otherwise part with possession of, or permit the use by others of, any of the facilities.

(4) The Contractor may, with the written approval of the Contracting Officer, install, arrange, or rearrange, on Government-furnished premises, readily movable machinery, equipment, and other items belonging to the Contractor. Title to any such item shall remain in the Contractor even though it may be attached to real property owned by the Government, unless the Contracting Officer determines that it is so permanently attached that removal would cause substantial injury to Government property.

(5) The Contractor shall not construct or install, at its own expense, any fixed improvement or structural alterations in Government buildings or other real property without advance written approval of the Contracting Officer. Fixed improvement, as used herein, means any alteration or improvement in the nature of the building or other real property that, after completion, cannot be removed without substantial loss of value or damage to the premises. The term does not include foundations for production equipment.

(6) Vesting title under this paragraph (c) is subject to civil rights legislation, 42 U.S.C. 2000d. Before title is vested and by signing

this contract, the Contractor accepts and agrees that—

No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under this contemplated financial assistance (title to equipment).

[48 FR 42478, Sept. 19, 1983, as amended at 50 FR 26904, June 28, 1985]

52.245-12 Contract Purpose (Nonprofit Educational Institutions).

As prescribed in 45.302-7(a), the contracting officer may insert the following clause in solicitations and contracts when a facilities use contract is contemplated and award may be made to a nonprofit educational institution:

CONTRACT PURPOSE (NONPROFIT EDUCATIONAL INSTITUTIONS) (APR 1984)

This facilities use contract is designed specifically for nonprofit educational institutions to set forth provisions for the use and accountability of facilities furnished or acquired under related contracts identified elsewhere herein. There are no funds provided under this contract. Costs incurred for acquisition, maintenance, repair, replacement, disposition, or other purposes in connection with the facilities accountable hereunder will be subject to the reimbursement provisions of the related contracts; *provided*, however, that should no other contract be available for reimbursement of such costs, this contract may be appropriately modified to provide for such reimbursement.

(End of clause)

52.245-13 Accountable Facilities (Nonprofit Educational Institutions).

As prescribed in 45.302-7(b), the contracting officer may insert the following clause in solicitations and contracts when a facilities contract is contemplated and award may be made to a nonprofit educational institution:

ACCOUNTABLE FACILITIES (NONPROFIT EDUCATIONAL INSTITUTIONS) (APR 1984)

The facilities accountable under this contract are those facilities furnished or acquired under this contract and those facilities furnished or acquired under those related contracts that are specifically identified in this contract Schedule.

52.245-14

(End of clause)

52.245-14 Use of Government Facilities.

As prescribed in 45.302-7(c), the contracting officer may insert the following clause in solicitations and contracts when a facilities use contract is contemplated and award may be made to a nonprofit educational institution:

USE OF GOVERNMENT FACILITIES (APR 1984)

The Contractor may use the facilities without charge in performing—

(a) Contracts with the Government which specifically authorize such use without charge;

(b) Subcontracts of any tier if the Contracting Officer having cognizance of the prime contract has authorized, in writing, use without charge; and

(c) Other work for which the Contracting Officer has specifically authorized use without charge in writing.

(End of clause)

52.245-15 Transfer of Title to the Facilities.

As prescribed in 45.302-7(d), insert the following clause:

TRANSFER OF TITLE TO THE FACILITIES (JUL 1985)

(a) The Contracting Officer may, at any time during the term of this contract and acting under Public Law 97-258 (31 U.S.C. 6306), transfer title to equipment to the Contractor upon mutually agreeable terms and conditions. This clause takes precedence over the title paragraph of the Government property clause of this contract. However, every agreement to transfer title to equipment shall provide that the Contractor will not include in the contract price or charge the Government in any manner for depreciation, amortization, or use of such equipment.

(b) Vesting title under paragraph (a) above is subject to civil rights legislation, 42 U.S.C. 2000d. Before title is vested and by signing this contract, the contractor accepts and agrees that—

No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under this contemplated financial assistance (title to equipment).

(End of clause)

[48 FR 42478, Sept. 19, 1983, as amended at 50 FR 26905, June 28, 1985]

48 CFR Ch. 1 (10-1-96 Edition)

52.245-16 Facilities Equipment Modernization.

As prescribed in 45.302-7(e), insert the following clause:

FACILITIES EQUIPMENT MODERNIZATION (APR 1985)

(a) The Contractor agrees to return to the Government the net cost savings realized from using modernized or replacement equipment provided by the Government under this contract. This applies to using such equipment on any contracts or subcontracts that are firm-fixed price, or that are fixed-price with economic price adjustment provisions, entered into within the 3 years following the date such equipment is placed into production. This provision does not apply to the use of such equipment in sealed bid contracts entered into after the equipment is placed in production or in contracts or subcontracts that specifically provide that they have been priced on the basis of anticipated use of such equipment.

(b)(1) The Contractor shall maintain adequate records for implementing this clause. The Contractor shall make such records available at its office for inspection, audit, or reproduction by any authorized representative of the Contracting Officer.

(2) When the Contractor authorizes a subcontractor to use the modernized or replacement equipment, the subcontractor shall be required to maintain records and make them and additional information available to the Contracting Officer.

(c) Records of equipment shall generally be acceptable if they are maintained under established accounting practices and permit a fair estimation of the net cost savings realized. Net cost savings realized shall be determined by a comparison of the Contractor's cost experience in the operation of the equipment before and after modernization.

(d) Amounts due the Government under this clause shall be returned by the Contractor, as directed by the Contracting Officer, by—

(1) Credits to, or adjustment of the prices of, the related contracts benefitting from using the modernized or replacement equipment;

(2) Payment to the Government through the Contracting Officer having cognizance of the equipment; or

(3) Any other means mutually agreed to.

(End of clause)

[48 FR 42478, Sept. 19, 1983, as amended at 50 FR 1748, Jan. 11, 1985; 50 FR 52434, Dec. 23, 1985]

52.245-17 Special Tooling.

As prescribed in 45.306-5, insert the following clause:

SPECIAL TOOLING (DEC 1989)

(a) *Definition. Special tooling* means jigs, dies, fixtures, molds, patterns, taps, gauges, other equipment and manufacturing aids, all components of these items, and replacements of these items that are of such a specialized nature that without substantial modification or alteration their use is limited to the development or production of particular supplies or parts thereof or performing particular services. It does not include material, special test equipment, facilities (except foundations and similar improvements necessary for installing special tooling), general or special machine tools, or similar capital items. Special tooling for the purpose of this clause, includes all special tooling acquired or fabricated by the Contractor for the Government (other than special tooling to be delivered as a line item) or furnished by the Government for use in connection with and under the terms of the contract.

(b) *Title.* The Government retains title to Government-owned special tooling and option to take title to all special tooling subject to this clause until such time as title or option to take title is relinquished by the Contracting Officer as provided for in subparagraphs (j)(2) and (j)(3) of this clause.

(c) *Risk of loss.* Except to the extent that the Government shall have otherwise assumed the risk of loss to special tooling applicable to this clause, in the event of the loss, theft or destruction of or damage to any such property, the repair or replacement shall be accomplished by the Contractor at its own expense.

(d) *Special tooling furnished by the Government.* (1) Except as otherwise provided in this contract, all Government-furnished special tooling is provided *as is*. The Government makes no warranty whatsoever with respect to special tooling furnished *as is*, except that the property is in the same condition when placed at the f.o.b. point specified in the solicitation as when last available for inspection by the Contractor under the solicitation.

(2) The Contractor may repair any special tooling made available on an *as is* basis. Such repair will be at the Contractor's expense, except as otherwise provided in this clause. Such property may be modified as necessary for use under this contract at the Contractor's expense, except as otherwise directed by the Contracting Officer. Any repair or modification of property furnished *as is* shall not affect the title of the Government.

(3) If there is any change in the condition of special tooling furnished *as is* from the time inspected or last available for inspection

under the solicitation to the time placed on board at the location specified in the solicitation or the Government directs a change in the quantity of special tooling furnished or to be furnished, and such change will adversely affect the Contractor, the Contractor shall, upon receipt of the property, notify the Contracting Officer detailing the facts, and, as directed by the Contracting Officer, either (i) return such items at the Government's expense or otherwise dispose of the property or (ii) effect repair to return the property to its condition when inspected under the solicitation or, if not inspected, last available for inspection under the solicitation. After completing the directed action and upon written request of the Contractor, the Contracting Officer shall equitably adjust any contractual provisions affected by the return, disposition, or repair in accordance with procedures provided for in the Changes clause of this contract. The foregoing provisions for adjustment are the exclusive remedy available to the Contractor, and the Government shall not be otherwise liable for any delivery of special tooling in a condition or in quantities other than that when originally offered.

(e) *Use of special tooling.* The Contractor may use special tooling subject to this clause on other Government effort when specifically approved in writing by the Contracting Officer for this contract and the Contracting Officer for the contract under which the special tooling will be used. Any other use of the special tooling shall be subject to advance written approval of the Contracting Officer. In the event the Government elects to remove any special tooling that is required for continued contract performance, the contract shall be equitably adjusted in accordance with paragraph (m) of this clause.

(f) *Property control—(1) Records.* The Contractor's special tooling records shall provide the following minimum information regarding each item of special tooling subject to this clause and shall be made available for Government inspection at all reasonable times:

(i) Number or code of the contract to which the tooling is accountable and the number or code of the contract for which the tooling was originally acquired or fabricated.

(ii) Retention codes as defined below:

(A) *Primary Code.* Assign one of the following to each item of special tooling:

Code A. Spares Tooling. Required to produce a provisioned spare part or assembly.

Code B. Judgment (Insurance) Tooling. Fabrication tools for parts that are not provisioned spares but which in the judgment of the Contractor will be required at some time for logistic support of the end item.

Code C. Rate Tooling. Necessary to economically produce at increased rates (e.g.,

for mobilization or surge) but not essential for parts fabrication at low production rates.

Code D. Assembly Tooling. Required for manufacture of the end product but not required for production of spare parts. Those items having no postproduction need except for potential modification or resumed production programs.

(B) *Secondary Code.* Assign one or more of the following codes, as applicable, to each item of special tooling:

Code 1. Repair Tooling. Items which are capable of being used for repair of provisioned parts or assemblies.

Code 2. Replaceable Tooling. Spares or judgment tooling (primary retention code A or B) which, in the opinion of the Contractor, can be effectively and economically replaced by soft tooling on an *as required* basis in lieu of retention of the *hard* production tooling for supporting postproduction requirements.

Code 3. Maintenance Tooling. Items which are capable of being used for depot level maintenance of the applicable end item or components thereof.

Code 4. Crash Damage Tooling. Items which apply to provisioned or nonprovisioned parts or assemblies which are designated as or have the potential of being required for crash damage repairs.

(iii) Nomenclature, function, or comparable code.

(iv) Tool part number or code.

(v) Tool identification number, or quantity of each tool part number or code, if tool identification number is not assigned.

(vi) Part number(s) of item(s) on which used (complete hierarchy of part numbers).

(vii) Unit price. (Estimates are acceptable.)

(viii) Storage method code. Assign one of the following:

Code J. Inside storage.

Code K. Outside storage.

Code L. Other.

(ix) Estimated weight of tool, if over 25 pounds.

(x) Estimated volume of tool, if over 3 cubic feet.

(xi) Location of Contractor, subcontractor, vendor for each item. Use Federal Supply Code for Manufacturers (FSCM), or name and address if code is not available.

(xii) All operation sheets or other data as are necessary to show the manufacturing operation or processes for which such items were used, designed, or modified.

(2) *Identification or tagging.* To the extent practicable, the Contractor shall identify all special tooling subject to this clause in accordance with the Contractor's identification procedures.

(g) *Maintenance.* The Contractor shall maintain special tooling in accordance with sound industrial practice. These requirements do not apply to those items designated by the Contracting Officer for disposal as scrap or identified as of no further

interest to the Government under paragraph (j), Disposition instructions, of this clause.

(h) *Identification of excess special tooling.* The Contractor shall promptly identify and report all special tooling in excess of the amounts needed to complete full performance under this contract (see subdivision (i)(2)(i) of this clause).

(i) *Lists of special tooling.* The Contractor shall periodically prepare and distribute lists of special tooling as described below:

(1) *Special tooling list.* The list shall be furnished within 60 days after delivery of the first production end item under this contract or completion of the initial provisioning process, whichever is later, and shall include all special tooling subject to this clause as of the reporting date. However, if this contract represents the final production contract, the Contractor shall provide this list of all tools not later than 180 days prior to scheduled delivery of the last production end item. If this is a contract for storage of special tooling, the list shall be provided within 60 days of contract implementation.

(2) *Excess special tooling list—(i) Excess special tooling.* Except for items subject to subdivision (i)(2)(ii) of this clause, lists of special tooling excess to this contract shall be furnished within 60 days of the date that the item is determined to be excess. The Contractor shall include in this list the information prescribed in Format of lists, subparagraph (i)(3) of this clause, as well as the applicable excess code as follows:

Code V. Excess to contract requirements with no follow-on requirements.

Code W. Excess to contract requirements but can be used to support actual or anticipated follow-on requirements.

Code X. Excess due to changes in design or specification of the end items.

Code Y. Excess due to nonserviceable or nonrepairable condition.

Code Z. Other.

(ii) *Termination inventory.* These items shall be submitted on SF 1432 or by computer list attached to an SF 1432 in accordance with FAR 45.606. Format and content of this submission will be as prescribed by Format of lists, subparagraph (i)(3) of this clause, but will contain information as prescribed by FAR subpart 45.6, in effect on the date of award of this contract.

(3) *Format of lists.* Lists furnished by the Contractor shall state the type of list and shall include all information from subparagraph (f)(1), Records, of this clause, items (i) through (xi). All lists will be grouped by primary retention code as prescribed in subdivision (f)(1)(ii)(A) of this clause and further listed in tool part number sequence.

(4) *Distribution of lists.* The Contractor shall submit two copies of lists to each of the following recipients unless otherwise directed:

(i) The Contracting Officer.

(ii) The Administrative Contracting Officer.

(iii) The inventory control point designated by the contracting office.

(j) *Disposition instructions.* The Contracting Officer shall provide the Contractor with written disposition instructions within 180 days of receipt of the list as prescribed by subparagraph (i)(1) of this clause and within 90 days of the receipt of excess special tooling lists reported in accordance with subparagraph (i)(2) of this clause. The Contracting Officer may direct disposition by any of the methods listed in subparagraphs (j)(1) through (j)(3) of this clause, or a combination of such methods. The Contractor shall comply with such disposition instructions.

(1) The Contracting Officer may identify specific items of special tooling to be retained or give the Contractor a list specifying the products, parts, or services including follow-on requirements for which the Government may require special tooling and request the Contractor to identify all usable items of special tooling on hand that were designed for or used in the production or performance of such products, parts, or services. Once items of usable special tooling required by the Government are identified, the Contracting Officer may—

(i) Direct the Contractor to transfer specified items of special tooling to follow-on contracts requiring their use. Those items shall be furnished for use on the contract(s) as specified by the Contracting Officer and shall be subject to the provisions of the gaining contract(s); or

(ii) Request the Contractor to enter into an appropriate storage contract for special tooling specified to be retained by the Contractor for the Government. Tooling to be stored shall be stored pursuant to a storage contract between the Government and the Contractor; or

(iii) Direct the Contractor to transfer title to the Government (to the extent not previously transferred) and deliver to the Government those items of special tooling which are specified for removal from the Contractor's plant.

(2) The Contracting Officer may direct the Contractor to sell, or dispose of as scrap, for the account of the Government, any special tooling not specified by the Government pursuant to subparagraph (j)(1) of this clause. To the extent that the Contractor incurs any costs occasioned by compliance with such direction, for which it is not otherwise compensated, the contract price shall be equitably adjusted in accordance with the Changes clause of this contract. The net proceeds of all sales shall either be credited to the cost of contract performance or shall be otherwise paid to the Government as directed by the Contracting Officer. Sale of special tooling to the prime Contractor or any of its subcontractors is subject to the

prior written approval of the Contracting Officer.

(3) The Contracting Officer may furnish the Contractor with a statement disclaiming further Government interest or right in specified special tooling.

(4) Restoration of Contractor's premises. Unless otherwise provided in this contract, the Government has no obligation to restore or rehabilitate the Contractor's premises under any circumstances (e.g., abandonment, disposition upon completion of need, or upon contract completion). However, if special tooling is withdrawn or if other special tooling is substituted, then the equitable adjustment under paragraph (m) of this clause may properly include restoration or rehabilitation costs.

(k) *Access to special tooling.* The Contractor shall provide access to special tooling subject to this clause at all reasonable times to all individuals designated by the Contracting Officer.

(l) *Storage or shipment.* The Contractor shall promptly arrange for either the shipment or the storage of special tooling specified in accordance with the final disposition instructions in subdivisions (j)(1)(ii) or (j)(1)(iii) of this clause. Tooling to be shipped shall be properly packaged, packed, and marked in accordance with the directions of the Contracting Officer. All operation sheets or other appropriate data necessary to show the manufacturing operations or processes for which the items were used or designed shall accompany special tooling to be shipped or stored or shall otherwise be provided to the Government as directed by the Contracting Officer. To the extent that the Contractor incurs costs for storage, shipment, packing, crating, or handling under this paragraph and not otherwise compensated for, the contract price shall be equitably adjusted in accordance with the Changes clause of this contract.

(m) *Equitable adjustment.* When this clause specifies an equitable adjustment, it shall be made to any affected contract provision in accordance with the procedures of the Changes clause. When appropriate, the Contracting Officer may initiate an equitable adjustment in favor of the Government. The right to an equitable adjustment shall be the Contractor's exclusive remedy. The Government shall not be liable to suit for breach of contract for—

(1) Any delay in delivery of Government-furnished special tooling;

(2) Delivery of Government-furnished special tooling in a condition not suitable for its intended use;

(3) A decrease in or substitution of special tooling; or

(4) Failure to repair or replace Government-furnished special tooling for which the Government is responsible.

(n) *Subcontract provisions.* In order to perform this contract, the Contractor may place subcontracts (including purchase orders) involving the use of special tooling. If the full cost of the tooling is charged to those subcontracts, the Contractor agrees to include in the subcontract appropriate provisions to obtain Government rights and data comparable to the rights of the Government under this clause (unless the Contractor and Contracting Officer agree in writing that such rights are not of interest to the Government). The Contractor agrees to exercise such rights for the benefit of the Government as directed by the Contracting Officer.

(End of clause)

[54 FR 48995, Nov. 28, 1989]

52.245-18 Special Test Equipment.

As prescribed in 45.307-3, insert the following clause:

SPECIAL TEST EQUIPMENT (FEB 1993)

(a) *Special test equipment*, as used in this clause, means either single or multipurpose integrated test units engineered, designed, fabricated, or modified to accomplish special purpose testing in performing a contract. It consists of items or assemblies of equipment, including standard or general purpose items or components, that are interconnected and interdependent so as to become a new functional entity for special testing purposes. It does not include material, special tooling, facilities (except foundations and similar improvements necessary for installing special test equipment), and plant equipment items used for general plant testing purposes.

(b) The Contractor may either acquire or fabricate special test equipment at Government expense when the equipment is not otherwise itemized in this contract and the prior approval of the Contracting Officer has been obtained. The Contractor shall provide the Contracting Officer with a written notice, at least 30 days in advance, of the Contractor's intention to acquire or fabricate the special test equipment. As a minimum, the notice shall also include an estimated aggregate cost of all items and components of the equipment the individual cost of which is less than \$5,000, and the following information on each item or component of equipment costing \$5,000 or more:

(1) The end use application and function of each proposed special test unit, identifying special characteristics and the reasons for the classification of the test unit as special test equipment.

(2) A complete description identifying the items to be acquired and the items to be fabricated by the Contractor.

(3) The estimated cost of the item of special test equipment or component.

(4) A statement that intra-plant screening of Contractor and Government-owned special test equipment and components has been accomplished and that none are available for use in performing this contract.

(c) The Government may furnish any special test equipment or components rather than approve their acquisition or fabrication by the Contractor. Such Government-furnished items shall be subject to the Government Property clause, except that the Government shall not be obligated to deliver such items any sooner than the Contractor could have acquired or fabricated them after expiration of the 30-day notice period in paragraph (b) of this clause. However, unless the Government notifies the Contractor of its decision to furnish the items within the 30-day notice period, the Contractor may proceed to acquire or fabricate the equipment or components subject to any other applicable provisions of this contract.

(d) The Contractor shall, in any subcontract that provides that special test equipment or components may be acquired or fabricated for the Government, insert provisions that conform substantially to the language of this clause, including this paragraph (d). The Contractor shall furnish the names of such subcontractors to the Contracting Officer.

(e) If an engineering change requires either the acquisition or fabrication of new special test equipment or substantial modification of existing special test equipment, the Contractor shall comply with paragraph (b) above. In so complying, the Contractor shall identify the change order which requires the proposed acquisition, fabrication, or modification.

(End of clause)

[48 FR 42478, Sept. 19, 1983, as amended at 53 FR 27468, July 20, 1988; 53 FR 36028, Sept. 16, 1988; 54 FR 48997, Nov. 28, 1989; 57 FR 60589, Dec. 21, 1992]

52.245-19 Government Property Furnished "As Is."

As prescribed in 45.308-2, insert the following clause:

GOVERNMENT PROPERTY FURNISHED "AS IS" (APR 1984)

(a) The Government makes no warranty whatsoever with respect to Government property furnished *as is*, except that the property is in the same condition when placed at the f.o.b. point specified in the solicitation as when inspected by the Contractor pursuant to the solicitation or, if not inspected by the Contractor, as when last

Federal Acquisition Regulation

52.246-2

available for inspection under the solicitation.

(b) The Contractor may repair any property made available on an *as is* basis. Such repair will be at the Contractor's expense except as otherwise provided in this clause. Such property may be modified at the Contractor's expense, but only with the written permission of the Contracting Officer. Any repair or modification of property furnished *as is* shall not affect the title of the Government.

(c) If there is any change in the condition of Government property furnished *as is* from the time inspected or last available for inspection under the solicitation to the time placed on board at the location specified in the solicitation, and such change will adversely affect the Contractor, the Contractor shall, upon receipt of the property, notify the Contracting Officer detailing the facts and, as directed by the Contracting Officer, either (1) return such property at the Government's expense or otherwise dispose of the property or (2) effect repairs to return the property to its condition when inspected under the solicitation or, if not inspected, last available for inspection under the solicitation. After completing the directed action and upon written request of the Contractor, the Contracting Officer shall equitably adjust any contractual provisions affected by the return, disposition, or repair in accordance with the procedures provided for in the Changes clause of this contract. The foregoing provisions for adjustment are the exclusive remedy available to the Contractor, and the Government shall not be otherwise liable for any delivery of Government property furnished *as is* in a condition other than that in which it was originally offered.

(d) Except as otherwise provided in this clause, Government property furnished *as is* shall be governed by the Government Property clause of this contract.

(End of clause)

[48 FR 42478, Sept. 19, 1983, as amended at 54 FR 48997, Nov. 28, 1989]

52.246-1 Contractor Inspection Requirements.

As prescribed in 46.301, insert the following clause:

CONTRACTOR INSPECTION REQUIREMENTS (APR 1984)

The Contractor is responsible for performing or having performed all inspections and tests necessary to substantiate that the supplies or services furnished under this contract conform to contract requirements, including any applicable technical requirements for specified manufacturers' parts. This clause takes precedence over any Gov-

ernment inspection and testing required in the contract's specifications, except for specialized inspections or tests specified to be performed solely by the Government.

(End of clause)

[48 FR 42478, Sept. 19, 1983, as amended at 60 FR 34762, July 3, 1995]

52.246-2 Inspection of Supplies—Fixed-Price.

As prescribed in 46.302, insert the following clause:

INSPECTION OF SUPPLIES—FIXED-PRICE (AUG 1996)

(a) Definition. *Supplies*, as used in this clause, includes but is not limited to raw materials, components, intermediate assemblies, end products, and lots of supplies.

(b) The Contractor shall provide and maintain an inspection system acceptable to the Government covering supplies under this contract and shall tender to the Government for acceptance only supplies that have been inspected in accordance with the inspection system and have been found by the Contractor to be in conformity with contract requirements. As part of the system, the Contractor shall prepare records evidencing all inspections made under the system and the outcome. These records shall be kept complete and made available to the Government during contract performance and for as long afterwards as the contract requires. The Government may perform reviews and evaluations as reasonably necessary to ascertain compliance with this paragraph. These reviews and evaluations shall be conducted in a manner that will not unduly delay the contract work. The right of review, whether exercised or not, does not relieve the Contractor of the obligations under the contract.

(c) The Government has the right to inspect and test all supplies called for by the contract, to the extent practicable, at all places and times, including the period of manufacture, and in any event before acceptance. The Government shall perform inspections and tests in a manner that will not unduly delay the work. The Government assumes no contractual obligation to perform any inspection and test for the benefit of the Contractor unless specifically set forth elsewhere in this contract.

(d) If the Government performs inspection or test on the premises of the Contractor or a subcontractor, the Contractor shall furnish, and shall require subcontractors to furnish, at no increase in contract price, all reasonable facilities and assistance for the safe and convenient performance of these duties. Except as otherwise provided in the contract, the Government shall bear the expense of Government inspections or tests made at

other than the Contractor's or subcontractor's premises; *provided*, that in case of rejection or test, the Government shall not be liable for any reduction in the value of inspection or test samples.

(e)(1) When supplies are not ready at the time specified by the Contractor for inspection or test, the Contracting Officer may charge to the Contractor the additional cost of inspection or test.

(2) The Contracting Officer may also charge the Contractor for any additional cost of inspection or test when prior rejection makes reinspection or retest necessary.

(f) The Government has the right either to reject or to require correction of nonconforming supplies. Supplies are nonconforming when they are defective in material or workmanship or are otherwise not in conformity with contract requirements. The Government may reject nonconforming supplies with or without disposition instructions.

(g) The Contractor shall remove supplies rejected or required to be corrected. However, the Contracting Officer may require or permit correction in place, promptly after notice, by and at the expense of the Contractor. The Contractor shall not tender for acceptance corrected or rejected supplies without disclosing the former rejection or requirement for correction, and, when required, shall disclose the corrective action taken.

(h) If the Contractor fails to promptly remove, replace, or correct rejected supplies that are required to be removed or to be replaced or corrected, the Government may either (1) by contract or otherwise, remove, replace, or correct the supplies and charge the cost to the Contractor or (2) terminate the contract for default. Unless the Contractor corrects or replaces the supplies within the delivery schedule, the Contracting Officer may require their delivery and make an equitable price reduction. Failure to agree to a price reduction shall be a dispute.

(i)(1) If this contract provides for the performance of Government quality assurance at source, and if requested by the Government, the Contractor shall furnish advance notification of the time (i) when Contractor inspection or tests will be performed in accordance with the terms and conditions of the contract and (ii) when the supplies will be ready for Government inspection.

(2) The Governments request shall specify the period and method of the advance notification and the Government representative to whom it shall be furnished. Requests shall not require more than 2 workdays of advance notification if the Government representative is in residence in the Contractor's plant, nor more than 7 workdays in other instances.

(j) The Government shall accept or reject supplies as promptly as practicable after delivery, unless otherwise provided in the con-

tract. Government failure to inspect and accept or reject the supplies shall not relieve the Contractor from responsibility, nor impose liability on the Government, for nonconforming supplies.

(k) Inspections and tests by the Government do not relieve the Contractor of responsibility for defects or other failures to meet contract requirements discovered before acceptance. Acceptance shall be conclusive, except for latent defects, fraud, gross mistakes amounting to fraud, or as otherwise provided in the contract.

(l) If acceptance is not conclusive for any of the reasons in paragraph (k) hereof, the Government, in addition to any other rights and remedies provided by law, or under other provisions of this contract, shall have the right to require the Contractor (1) at no increase in contract price, to correct or replace the defective or nonconforming supplies at the original point of delivery or at the Contractor's plant at the Contracting Officer's election, and in accordance with a reasonable delivery schedule as may be agreed upon between the Contractor and the Contracting Officer; *provided*, that the Contracting Officer may require a reduction in contract price if the Contractor fails to meet such delivery schedule, or (2) within a reasonable time after receipt by the Contractor of notice of defects or nonconformance, to repay such portion of the contract as is equitable under the circumstances if the Contracting Officer elects not to require correction or replacement. When supplies are returned to the Contractor, the Contractor shall bear the transportation cost from the original point of delivery to the Contractor's plant and return to the original point when that point is not the Contractor's plant. If the Contractor fails to perform or act as required in (1) or (2) above and does not cure such failure within a period of 10 days (or such longer period as the Contracting Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure, the Government shall have the right by contract or otherwise to replace or correct such supplies and charge to the Contractor the cost occasioned the Government thereby.

(End of clause)

Alternate I (JUL 1985). If a fixed-price incentive contract is contemplated, substitute paragraphs (g), (h), and (l) below for paragraphs (g), (h), and (l) of the basic clause.

(g) The Contractor shall remove supplies rejected or required to be corrected. However, the Contracting Officer may require or permit correction in place, promptly after notice. The Contractor shall not tender for acceptance corrected or rejected supplies
