§379.54 What are the reporting requirements for the compliance indicators?

(a) In order to receive continuation funding for the third or any subsequent year of a PWI grant, each grantee must submit data for the most recent complete project year no later than 60 days after the end of that project year, unless the Secretary authorizes a later submission date, in order for the Secretary to determine if the grantee has met the program compliance indicators established in this subpart F.

(b) If the data for the most recent complete project year provided under paragraph (a) of this section shows that a grantee has failed to achieve the minimum composite score required in §379.52(f) to meet the program compliance indicators, the grantee may, at its option, submit data from the first 6 months of the current project year no later than 60 days after the end of that 6-month period, unless the Secretary authorizes a later submission date, to demonstrate that its project performance has improved sufficiently to meet the minimum composite score.

Data from the first project year, however, must be submitted and is used (unless the grantee exercises the option in paragraph (b) of this section) to determine eligibility for the third year of funding (or the second continuation award).
