

(3) A showing that existing communication facilities are inadequate.

[41 FR 45008, Oct. 14, 1976, as amended at 48 FR 52737, Nov. 22, 1983]

§ 5.58 Partial grants.

Where the Commission without a hearing grants any application in part, or with any privileges, terms, or conditions other than those requested, or subject to any interference that may result to a station if designated application or applications are subsequently granted, the action of the Commission shall be considered as a grant of such application unless the applicant shall, within 30 days from the date on which such grant is made or from its effective date if a later date is specified, file with the Commission a written request rejecting the grant as made. Upon receipt of such request, the Commission will vacate its original action upon the application and set the application for hearing in the same manner as other applications are set for hearing.

§ 5.59 Defective applications.

(a) Applications which are defective with respect to completeness of answers to required questions, execution or other matters of a purely formal character will not be received for filing by the Commission, and will be returned to the applicant with a brief statement as to the omissions.

(b) If an applicant is requested by the Commission to file any documents or information not included in the prescribed application form, a failure to comply with such request will constitute a defect in the application.

(c) Applications which are not in accordance with the Commission's rules, regulations or other requirements will be considered defective unless accompanied either (1) by a petition to amend any rule or regulation with which the application is in conflict, or (2) by a request of the applicant for waiver of, or an exception to, any rule, regulation or requirement with which the application is in conflict. Such request shall show the nature of the waiver or exception desired and set forth the reasons in support thereof.

§ 5.60 Amendment or dismissal of applications.

(a) Any application may be amended or dismissed without prejudice upon request of the applicant prior to the time the application is granted or designated for hearing. Each amendment to, or request for dismissal of an application shall be signed, authenticated, and submitted in the same manner and with the same number of copies as required for the original application. All subsequent correspondence or other material which the applicant desires to have incorporated as a part of an application already filed shall be submitted in the form of an amendment to the application.

(b) Failure to prosecute an application, or failure to respond to official correspondence or request for additional information, will be cause for dismissal. Such dismissal will be without prejudice where an application has not yet been designated for hearing; such dismissal may be made with prejudice after an application has been designated for hearing.

§ 5.61 [Reserved]

§ 5.62 Licenses required for separate experimental projects.

A separate station license will be required for each class of station in the Experimental Radio Service. Application for a class of station embracing widely divergent and unrelated experimentations normally will require a separate license for each phase of the experimental program: *Provided, however*, That the Commission may, when circumstances warrant, issue a single license embracing the entire project.

[28 FR 12506, Nov. 22, 1963, as amended at 48 FR 52737, Nov. 22, 1983]

§ 5.63 License period.

(a) The basic license period for stations in the Experimental Radio Service is 2 years.

(b) A license will not be granted for a period longer than that which is required for completion of the experimental project. If such period is estimated to be less than 2 years, a statement to that effect by the applicant may facilitate a grant of the application. See also § 5.58.
