(a) The Act specifies, among other things, how agencies shall make their records available upon public request, imposes strict time standards for agency responses, and exempts certain records from public disclosure. Each agency’s implementation of these requirements is located in its respective title of the Code of Federal Regulations and referenced in subpart 24.2 of its implementing acquisition regulations.

(b) Contracting officers may receive requests for records that may be exempted from mandatory public disclosure. The exemptions most often applicable are those relating to classified information, to trade secrets and confidential commercial or financial information, to interagency or intra-agency memoranda, or to personal and medical information pertaining to an individual. Since these requests often involve complex issues requiring an in-depth knowledge of a large and increasing body of court rulings and policy guidance, contracting officers are cautioned to comply with the implementing regulations of their agency and to obtain necessary guidance from the agency officials having Freedom of Information Act responsibility.
