following address: Attn: Alcohol Testing Program, Office of Motor Carrier Research and Standards (HCS-1), Federal Highway Administration, 400 Seventh Street, SW., Washington, DC 20590.

(4) Controlled substance tests. If a test required by this section is not administered within 32 hours following the accident, the employer shall cease attempts to administer a controlled substances test, and prepare and maintain on file a record stating the reasons the test was not promptly administered. Records shall be submitted to the FHWA upon request of the Associate Administrator.

(c) A driver who is subject to post-accident testing shall remain readily available for such testing or may be deemed by the employer to have refused to submit to testing. Nothing in this section shall be construed to require the delay of necessary medical attention for injured people following an accident or to prohibit a driver from leaving the scene of an accident for the period necessary to obtain assistance in responding to the accident, or to obtain necessary emergency medical care.

(d) An employer shall provide drivers with necessary post-accident information, procedures and instructions, prior to the driver operating a commercial motor vehicle, so that drivers will be able to comply with the requirements of this section.

(e)(1) The results of a breath or blood test for the use of alcohol, conducted by Federal, State, or local officials having independent authority for the test, shall be considered to meet the requirements of this section, provided such tests conform to the applicable Federal, State or local alcohol testing requirements, and that the results of the tests are obtained by the employer.

(2) The results of a urine test for the use of controlled substances, conducted by Federal, State, or local officials having independent authority for the test, shall be considered to meet the requirements of this section, provided such tests conform to the applicable Federal, State or local controlled substances testing requirements, and that the results of the tests are obtained by the employer.

(f) *Exception.* This section does not apply to:

(1) An occurrence involving only boarding or alighting from a stationary motor vehicle; or

(2) An occurrence involving only the loading or unloading of cargo; or

(3) An occurrence in the course of the operation of a passenger car or a multipurpose passenger vehicle (as defined in §571.3 of this title) by an employer unless the motor vehicle is transporting passengers for hire or hazardous materials of a type and quantity that require the motor vehicle to be marked or placarded in accordance with §177.823 of this title.

§ 382.305 Random testing.

(a) Every employer shall comply with the requirements of this section. Every driver shall submit to random alcohol and controlled substance testing as required in this section.

(b)(1) Except as provided in paragraphs (c) through (e) of this section, the minimum annual percentage rate for random alcohol testing shall be 25 percent of the average number of driver positions.

(2) Except as provided in paragraphs (f) through (h) of this section, the minimum annual percentage rate for random controlled substances testing shall be 50 percent of the average number of driver positions.

(c) The FHWA Administrator's decision to increase or decrease the minimum annual percentage rate for alcohol testing is based on the reported violation rate for the entire industry. All information used for this determination is drawn from the alcohol management information system reports required by §382.403 of this part. In order to ensure reliability of the data, the FHWA Administrator considers the quality and completeness of the reported data, may obtain additional information or reports from employers, and may make appropriate modifications in calculating the industry violation rate. Each year, the FHWA Administrator will publish in the FEDERAL REGISTER the minimum annual percentage rate for random alcohol testing of drivers. The new minimum annual percentage rate for random alcohol testing will be applicable start-

ing January 1 of the calendar year following publication.

(d)(1) When the minimum annual percentage rate for random alcohol testing is 25 percent or more, the FHWA Administrator may lower this rate to 10 percent of all driver positions if the FHWA Administrator determines that the data received under the reporting requirements of §382.403 for two consecutive calendar years indicate that the violation rate is less than 0.5 percent.

(2) When the minimum annual percentage rate for random alcohol testing is 50 percent, the FHWA Administrator may lower this rate to 25 percent of all driver positions if the FHWA Administrator determines that the data received under the reporting requirements of §382.403 for two consecutive calendar years indicate that the violation rate is less than 1.0 percent but equal to or greater than 0.5 percent.

(e)(1) When the minimum annual percentage rate for random alcohol testing is 10 percent, and the data received under the reporting requirements of §382.403 for that calendar year indicate that the violation rate is equal to or greater than 0.5 percent, but less than 1.0 percent, the FHWA Administrator will increase the minimum annual percentage rate for random alcohol testing to 25 percent for all driver positions.

(2) When the minimum annual percentage rate for random alcohol testing is 25 percent or less, and the data received under the reporting requirements of §382.403 for that calendar year indicate that the violation rate is equal to or greater than 1.0 percent, the FHWA Administrator will increase the minimum annual percentage rate for random alcohol testing to 50 percent for all driver positions.

(f) The FHWA Administrator's decision to increase or decrease the minimum annual percentage rate for controlled substances testing is based on the reported positive rate for the entire industry. All information used for this determination is drawn from the controlled substances management information system reports required by §382.403 of this part. In order to ensure

reliability of the data, the FHWA Administrator considers the quality and completeness of the reported data, may obtain additional information or reports from employers, and may make appropriate modifications in calculating the industry positive rate. Each year, the FHWA Administrator will publish in the FEDERAL REGISTER the minimum annual percentage rate for random controlled substances testing of drivers. The new minimum annual percentage rate for random controlled substances testing will be applicable starting January 1 of the calendar year following publication.

(g) When the minimum annual percentage rate for random controlled substances testing is 50 percent, the FHWA Administrator may lower this rate to 25 percent of all driver positions if the FHWA Administrator determines that the data received under the reporting requirements of §382.403 for two consecutive calendar years indicate that the positive rate is less than 1.0 percent. However, after the initial two years of random testing by large employers and the initial first year of testing by small employers under this section, the FHWA Administrator may lower the rate the following calendar year, if the combined positive testing rate is less than 1.0 percent, and if it would be in the interest of safety.

(h) When the minimum annual percentage rate for random controlled substances testing is 25 percent, and the data received under the reporting requirements of §382.403 for any calendar year indicate that the reported positive rate is equal to or greater than 1.0 percent, the FHWA Administrator will increase the minimum annual percentage rate for random controlled substances testing to 50 percent of all driver positions.

(i) The selection of drivers for random alcohol and controlled substances testing shall be made by a scientifically valid method, such as a random number table or a computer-based random number generator that is matched with drivers' Social Security numbers, payroll identification numbers, or other comparable identifying numbers. Under the selection process used, each driver shall have an equal chance of

being tested each time selections are made.

(j) The employer shall randomly select a sufficient number of drivers for testing during each calendar year to equal an annual rate not less than the minimum annual percentage rate for random alcohol and controlled substances testing determined by the FHWA Administrator. If the employer conducts random testing for alcohol and/or controlled substances through a consortium, the number of drivers to be tested may be calculated for each individual employer or may be based on the total number of drivers covered by the consortium who are subject to random alcohol and/or controlled substances testing at the same minimum annual percentage rate under this part or any DOT alcohol or controlled substances random testing rule.

(k) Each employer shall ensure that random alcohol and controlled substances tests conducted under this part are unannounced and that the dates for administering random alcohol and controlled substances tests are spread reasonably throughout the calendar year.

(l) Each employer shall require that each driver who is notified of selection for random alcohol and/or controlled substances testing proceeds to the test site immediately; provided, however, that if the driver is performing a safety-sensitive function, other than driving a commercial motor vehicle, at the time of notification, the employer shall instead ensure that the driver ceases to perform the safety-sensitive function and proceeds to the testing site as soon as possible.

(m) A driver shall only be tested for alcohol while the driver is performing safety-sensitive functions, just before the driver is to perform safety-sensitive functions, or just after the driver has ceased performing such functions.

(n) If a given driver is subject to random alcohol or controlled substances testing under the random alcohol or controlled substances testing rules of more than one DOT agency for the same employer, the driver shall be subject to random alcohol and/or controlled substances testing at the annual percentage rate established for the calendar year by the DOT agency

regulating more than 50 percent of the driver's function.

(o) If an employer is required to conduct random alcohol or controlled substances testing under the alcohol or controlled substances testing rules of more than one DOT agency, the employer may—

(1) Establish separate pools for random selection, with each pool containing the DOT-covered employees who are subject to testing at the same required minimum annual percentage rate; or

(2) Randomly select such employees for testing at the highest minimum annual percentage rate established for the calendar year by any DOT agency to which the employer is subject.

§ 382.307 Reasonable suspicion testing.

(a) An employer shall require a driver to submit to an alcohol test when the employer has reasonable suspicion to believe that the driver has violated the prohibitions of subpart B of this part concerning alcohol. The employer's determination that reasonable suspicion exists to require the driver to undergo an alcohol test must be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech or body odors of the driver.

(b) An employer shall require a driver to submit to a controlled substances test when the employer has reasonable suspicion to believe that the driver has violated the prohibitions of subpart B of this part concerning controlled substances. The employer's determination that reasonable suspicion exists to require the driver to undergo a controlled substances test must be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech or body odors of the driver. The observations may include indications of the chronic and withdrawal effects of controlled substances.

(c) The required observations for alcohol and/or controlled substances reasonable suspicion testing shall be made by a supervisor or company official who is trained in accordance with § 382.603 of this part. The person who makes the determination that reasonable suspicion exists to conduct an al-

cohol test shall not conduct the alcohol test of the driver.

(d) Alcohol testing is authorized by this section only if the observations required by paragraph (a) of this section are made during, just preceding, or just after the period of the work day that the driver is required to be in compliance with this part. A driver may be directed by the employer to only undergo reasonable suspicion testing while the driver is performing safety-sensitive functions, just before the driver is to perform safety-sensitive functions, or just after the driver has ceased performing such functions.

(e)(1) If an alcohol test required by this section is not administered within two hours following the determination under paragraph (a) of this section, the employer shall prepare and maintain on file a record stating the reasons the alcohol test was not promptly administered. If an alcohol test required by this section is not administered within eight hours following the determination under paragraph (a) of this section, the employer shall cease attempts to administer an alcohol test and shall state in the record the reasons for not administering the test.

(2) For the years stated in this paragraph, employers who submit MIS reports shall submit to the FHWA each record of a test required by this section that is not completed within 8 hours. The employer's records of tests that could not be completed within 8 hours shall be submitted to the FHWA by March 15, 1996; March 15, 1997; and March 15, 1998; for calendar years 1995, 1996, and 1997, respectively. Employers shall append these records to their MIS submissions. Each record shall include the following information:

(i) Type of test (reasonable suspicion/post-accident);

(ii) Triggering event (including date, time, and location);

(iii) Reason(s) test could not be completed within 8 hours; and

(iv) If blood alcohol testing could have been completed within eight hours, the name, address, and telephone number of the testing site where blood testing could have occurred.

(3) Records of tests that could not be completed in eight hours shall be submitted to the FHWA at the following

address: Attn.: Alcohol Testing program, Office of Motor Carrier Research and Standards (HCS-1), Federal Highway Administration, 400 Seventh Street, SW., Washington, DC 20590.

(4) Notwithstanding the absence of a reasonable suspicion alcohol test under this section, no driver shall report for duty or remain on duty requiring the performance of safety-sensitive functions while the driver is under the influence of or impaired by alcohol, as shown by the behavioral, speech, and performance indicators of alcohol misuse, nor shall an employer permit the driver to perform or continue to perform safety-sensitive functions, until:

(i) An alcohol test is administered and the driver's alcohol concentration measures less than 0.02; or

(ii) Twenty four hours have elapsed following the determination under paragraph (a) of this section that there is reasonable suspicion to believe that the driver has violated the prohibitions in this part concerning the use of alcohol.

(5) Except as provided in paragraph (e)(2) of this section, no employer shall take any action under this part against a driver based solely on the driver's behavior and appearance, with respect to alcohol use, in the absence of an alcohol test. This does not prohibit an employer with independent authority of this part from taking any action otherwise consistent with law.

(f) A written record shall be made of the observations leading to a controlled substance reasonable suspicion test, and signed by the supervisor or company official who made the observations, within 24 hours of the observed behavior or before the results of the controlled substances test are released, whichever is earlier.

§ 382.309 Return-to-duty testing.

(a) Each employer shall ensure that before a driver returns to duty requiring the performance of a safety-sensitive function after engaging in conduct prohibited by subpart B of this part concerning alcohol, the driver shall undergo a return-to-duty alcohol test with a result indicating an alcohol concentration of less than 0.02.

(b) Each employer shall ensure that before a driver returns to duty requiring

the performance of a safety-sensitive function after engaging in conduct prohibited by subpart B of this part concerning controlled substances, the driver shall undergo a return-to-duty controlled substances test with a result indicating a verified negative result for controlled substances use.

§ 382.311 Follow-up testing.

(a) Following a determination under § 382.605(b) that a driver is in need of assistance in resolving problems associated with alcohol misuse and/or use of controlled substances, each employer shall ensure that the driver is subject to unannounced follow-up alcohol and/or controlled substances testing as directed by a substance abuse professional in accordance with the provisions of § 382.605(c)(2)(ii).

(b) Follow-up alcohol testing shall be conducted only when the driver is performing safety-sensitive functions, just before the driver is to perform safety-sensitive functions, or just after the driver has ceased performing safety-sensitive functions.

(a) The medical review officer may report to the employer using any communications device, but in all instances a signed, written notification must be forwarded within three business days of completion of the medical review officer's review, pursuant to part 40 of this title. A legible photocopy of the fourth copy of Part 40 Appendix A subtitled *COPY 4—SEND DIRECTLY TO MEDICAL REVIEW OFFICER—DO NOT SEND TO LABORATORY* of the *Federal Custody and Control Form OMB Number 9999-0023* may be used to make the signed, written notification to the employer for all test results (positive, negative, canceled, etc.), provided that the controlled substance(s) verified as positive, and the MRO's signature, shall be legibly noted in the remarks section of step 8 of the form completed by the medical review officer. The MRO must sign all verified positive test results. An MRO may sign or rubber stamp negative test results. An MRO's staff may rubber stamp negative test results under written authorization of the MRO. In no event shall an MRO, or his/her staff, use electronic signature technology to comply with this section. All reports, both oral and in writing, from the medical review officer to an employer shall clearly include:

(1) A statement that the controlled substances test being reported was in accordance with part 40 of this title

and this part, except for legible photocopies of Copy 4 of the Federal Custody and Control Form;

(b) A medical review officer shall report to the employer that the medical review officer has made all reasonable efforts to contact the driver as provided in §40.33(c) of this title. The employer shall, as soon as practicable, request that the driver contact the medical review officer prior to dispatching the driver or within 24 hours, whichever is earlier.

§ 382.409 Medical review officer record retention for controlled substances.

(a) A medical review officer shall maintain all dated records and notifications, identified by individual, for a minimum of five years for verified positive controlled substances test results.

(b) A medical review officer shall maintain all dated records and notifications, identified by individual, for a minimum of one year for negative and canceled controlled substances test results.

(c) No person may obtain the individual controlled substances test results retained by a medical review officer, and no medical review officer shall release the individual controlled substances test results of any driver to any person, without first obtaining a specific, written authorization from the tested driver. Nothing in this paragraph shall prohibit a medical review officer from releasing, to the employer or to officials of the Secretary of

Transportation, any DOT agency, or any State or local officials with regulatory authority over the controlled substances testing program under this part, the information delineated in §382.407(a) of this subpart.

§ 382.411 Employer notifications.

(a) An employer shall notify a driver of the results of a pre-employment controlled substance test conducted under this part, if the driver requests such results within 60 calendar days of being notified of the disposition of the employment application. An employer shall notify a driver of the results of random, reasonable suspicion and post-accident tests for controlled substances conducted under this part if the test results are verified positive. The employer shall also inform the driver which controlled substance or substances were verified as positive.

(b) The designated management official shall make reasonable efforts to contact and request each driver who submitted a specimen under the employer's program, regardless of the driver's employment status, to contact and discuss the results of the controlled substances test with a medical review officer who has been unable to contact the driver.

(c) The designated management official shall immediately notify the medical review officer that the driver has been notified to contact the medical review officer within 24 hours.

§ 382.413 Inquiries for alcohol and controlled substances information from previous employers.

(a)(1) An employer shall, pursuant to the driver's written authorization, inquire about the following information on a driver from the driver's previous employers, during the preceding two years from the date of application, which are maintained by the driver's previous employers under §382.401(b)(1) (i) through (iii) of this subpart:

(i) Alcohol tests with a result of 0.04 alcohol concentration or greater;

(ii) Verified positive controlled substances test results; and

(iii) Refusals to be tested.

(2) The information obtained from a previous employer may contain any alcohol and drug information the previous employer obtained from other previous employers under paragraph (a)(1) of this section.

(b) If feasible, the information in paragraph (a) of this section must be obtained and reviewed by the employer prior to the first time a driver performs safety-sensitive functions for the employer. If not feasible, the information must be obtained and reviewed as soon as possible, but no later than 14-calendar days after the first time a driver performs safety-sensitive functions for the employer. An employer may not permit a driver to perform safety-sensitive functions after 14 days without having made a good faith effort to obtain the information as soon as possible. If a driver hired or used by the employer ceases performing safety-sensitive functions for the employer before expiration of the 14-day period or before the employer has obtained the information in paragraph (a) of this section, the employer must still make a good faith effort to obtain the information.

(c) An employer must maintain a written, confidential record of the information obtained under paragraph (a) or (f) of this section. If, after making a good faith effort, an employer is unable to obtain the information from a previous employer, a record must be made of the efforts to obtain the information and retained in the driver's qualification file.

(d) The prospective employer must provide to each of the driver's previous employers the driver's specific, written authorization for release of the information in paragraph (a) of this section.

(e) The release of any information under this section may take the form of personal interviews, telephone interviews, letters, or any other method of transmitting information that ensures confidentiality.

(f) The information in paragraph (a) of this section may be provided directly to the prospective employer by the driver, provided the employer assures itself that the information is true and accurate.

(g) An employer may not use a driver to perform safety-sensitive functions if

the employer obtains information on a violation of the prohibitions in subpart B of this part by the driver, without obtaining information on subsequent compliance with the referral and rehabilitation requirements of §382.605 of this part.

(h) Employers need not obtain information under paragraph (a) of this section generated by previous employers prior to the starting dates in §382.115 of this part.

Subpart E—Consequences for Drivers Engaging in Substance Use-Related Conduct

§ 382.501 Removal from safety-sensitive function.

(a) Except as provided in subpart F of this part, no driver shall perform safety-sensitive functions, including driving a commercial motor vehicle, if the driver has engaged in conduct prohibited by subpart B of this part or an alcohol or controlled substances rule of another DOT agency.

(b) No employer shall permit any driver to perform safety-sensitive functions, including driving a commercial motor vehicle, if the employer has determined that the driver has violated this section.

(c) For purposes of this subpart, commercial motor vehicle means a commercial motor vehicle in commerce as defined in §382.107, and a commercial motor vehicle in interstate commerce as defined in Part 390 of this subchapter.

§ 382.503 Required evaluation and testing.

No driver who has engaged in conduct prohibited by subpart B of this part shall perform safety-sensitive functions, including driving a commercial motor vehicle, unless the driver has met the requirements of §382.605. No employer shall permit a driver who has engaged in conduct prohibited by subpart B of this part to perform safety-sensitive functions, including driving a commercial motor vehicle, unless the driver has met the requirements of §382.605.

§ 382.505 Other alcohol-related conduct.

(a) No driver tested under the provisions of subpart C of this part who is found to have an alcohol concentration of 0.02 or greater but less than 0.04 shall perform or continue to perform safety-sensitive functions for an employer, including driving a commercial motor vehicle, nor shall an employer permit the driver to perform or continue to perform safety-sensitive functions, until the start of the driver's next regularly scheduled duty period, but not less than 24 hours following administration of the test.

(b) Except as provided in paragraph (a) of this section, no employer shall take any action under this part against a driver based solely on test results showing an alcohol concentration less than 0.04. This does not prohibit an employer with authority independent of this part from taking any action otherwise consistent with law.

§ 382.507 Penalties.

Any employer or driver who violates the requirements of this part shall be subject to the penalty provisions of 49 U.S.C. section 521(b).

Subpart F—Alcohol Misuse and Controlled Substances Use Information, Training, and Referral**§ 382.601 Employer obligation to promulgate a policy on the misuse of alcohol and use of controlled substances.**

(a) *General requirements.* Each employer shall provide educational materials that explain the requirements of this part and the employer's policies and procedures with respect to meeting these requirements.

(1) The employer shall ensure that a copy of these materials is distributed to each driver prior to the start of alcohol and controlled substances testing under this part and to each driver subsequently hired or transferred into a position requiring driving a commercial motor vehicle.

(2) Each employer shall provide written notice to representatives of em-

ployee organizations of the availability of this information.

(b) *Required content.* The materials to be made available to drivers shall include detailed discussion of at least the following:

(1) The identity of the person designated by the employer to answer driver questions about the materials;

(2) The categories of drivers who are subject to the provisions of this part;

(3) Sufficient information about the safety-sensitive functions performed by those drivers to make clear what period of the work day the driver is required to be in compliance with this part;

(4) Specific information concerning driver conduct that is prohibited by this part;

(5) The circumstances under which a driver will be tested for alcohol and/or controlled substances under this part, including post-accident testing under § 382.303(d);

(6) The procedures that will be used to test for the presence of alcohol and controlled substances, protect the driver and the integrity of the testing processes, safeguard the validity of the test results, and ensure that those results are attributed to the correct driver, including post-accident information, procedures and instructions required by § 382.303(d) of this part;

(7) The requirement that a driver submit to alcohol and controlled substances tests administered in accordance with this part;

(8) An explanation of what constitutes a refusal to submit to an alcohol or controlled substances test and the attendant consequences;

(9) The consequences for drivers found to have violated subpart B of this part, including the requirement that the driver be removed immediately from safety-sensitive functions, and the procedures under § 382.605;

(10) The consequences for drivers found to have an alcohol concentration of 0.02 or greater but less than 0.04;

(11) Information concerning the effects of alcohol and controlled substances use on an individual's health, work, and personal life; signs and symptoms of an alcohol or a controlled substances problem (the driver's or a coworker's); and available methods of

intervening when an alcohol or a controlled substances problem is suspected, including confrontation, referral to any employee assistance program and or referral to management.

(c) *Optional provision.* The materials supplied to drivers may also include information on additional employer policies with respect to the use of alcohol or controlled substances, including any consequences for a driver found to have a specified alcohol or controlled substances level, that are based on the employer's authority independent of this part. Any such additional policies or consequences must be clearly and obviously described as being based on independent authority.

(d) *Certificate of receipt.* Each employer shall ensure that each driver is required to sign a statement certifying that he or she has received a copy of these materials described in this section. Each employer shall maintain the original of the signed certificate and may provide a copy of the certificate to the driver.

§ 382.603 Training for supervisors.

Each employer shall ensure that all persons designated to supervise drivers receive at least 60 minutes of training on alcohol misuse and receive at least an additional 60 minutes of training on controlled substances use. The training will be used by the supervisors to determine whether reasonable suspicion exists to require a driver to undergo testing under § 382.307. The training shall include the physical, behavioral, speech, and performance indicators of probable alcohol misuse and use of controlled substances.

§ 382.605 Referral, evaluation, and treatment.

(a) Each driver who has engaged in conduct prohibited by subpart B of this part shall be advised by the employer of the resources available to the driver in evaluating and resolving problems associated with the misuse of alcohol and use of controlled substances, including the names, addresses, and telephone numbers of substance abuse professionals and counseling and treatment programs.

(b) Each driver who engages in conduct prohibited by subpart B of this

part shall be evaluated by a substance abuse professional who shall determine what assistance, if any, the employee needs in resolving problems associated with alcohol misuse and controlled substances use.

(c)(1) Before a driver returns to duty requiring the performance of a safety-sensitive function after engaging in conduct prohibited by subpart B of this part, the driver shall undergo a return-to-duty alcohol test with a result indicating an alcohol concentration of less than 0.02 if the conduct involved alcohol, or a controlled substances test with a verified negative result if the conduct involved a controlled substance.

(2) In addition, each driver identified as needing assistance in resolving problems associated with alcohol misuse or controlled substances use,

(i) Shall be evaluated by a substance abuse professional to determine that the driver has properly followed any rehabilitation program prescribed under paragraph (b) of this section, and

(ii) Shall be subject to unannounced follow-up alcohol and controlled substances tests administered by the employer following the driver's return to duty. The number and frequency of such follow-up testing shall be as directed by the substance abuse professional, and consist of at least six tests in the first 12 months following the driver's return to duty. The employer may direct the driver to undergo return-to-duty and follow-up testing for both alcohol and controlled substances, if the substance abuse professional determines that return-to-duty and follow-up testing for both alcohol and controlled substances is necessary for that particular driver. Any such testing shall be performed in accordance with the requirements of 49 CFR part 40. Follow-up testing shall not exceed 60 months from the date of the driver's return to duty. The substance abuse professional may terminate the requirement for follow-up testing at any time after the first six tests have been administered, if the substance abuse professional determines that such testing is no longer necessary.

(d) Evaluation and rehabilitation may be provided by the employer, by a substance abuse professional under

contract with the employer, or by a substance abuse professional not affiliated with the employer. The choice of substance abuse professional and assignment of costs shall be made in accordance with employer/driver agreements and employer policies.

(e) The employer shall ensure that a substance abuse professional who determines that a driver requires assistance in resolving problems with alcohol misuse or controlled substances use does not refer the driver to the substance abuse professional's private practice or to a person or organization from which the substance abuse professional receives remuneration or in which the substance abuse professional has a financial interest. This paragraph does not prohibit a substance abuse professional from referring a driver for assistance provided through—

(1) A public agency, such as a State, county, or municipality;

(2) The employer or a person under contract to provide treatment for alcohol or controlled substance problems on behalf of the employer;

(3) The sole source of therapeutically appropriate treatment under the driver's health insurance program; or

(4) The sole source of therapeutically appropriate treatment reasonably accessible to the driver.

(f) The requirements of this section with respect to referral, evaluation and rehabilitation do not apply to applicants who refuse to submit to a pre-employment alcohol or controlled substances test or who have a pre-employment alcohol test with a result indicating an alcohol concentration of 0.04 or greater or a controlled substances test with a verified positive test result.
