

§ 702.6 Eligible entity.

In order to be eligible to enter into a CRSC Contract, an entity must own or have control over eligible land.

§ 702.7 Salinity control plan.

(a) The applicant, in consultation with SCS, shall develop the salinity control plan which is the most cost-effective consistent with the project plan.

(b) All salinity control plans must be approved by the CD in order for the SRP's contained therein to be eligible for cost-share assistance.

(c) When approving salinity control plans, the CD shall ensure that the salinity control plan is consistent with the approved project plan and cost-effective SRP's identified in the approved project implementation plan for the area.

§ 702.8 Eligible salinity reduction practices (SRP's).

(a) Eligible SRP's are those practices specified in the project implementation plan and the participant's salinity control plan that:

- (1) Significantly reduce the salt loading from a unit of land; or
- (2) Replace incidental fish and wildlife values foregone; or
- (3) Reduce erosion or seepage to a degree which significantly benefits salinity control.

(b) Notwithstanding the foregoing provisions of this section, the following practices shall not be considered to be eligible SRP's:

(1) Practices installed primarily for the purpose of bringing additional land into production, for increasing production above that which is incidental to application of conservation treatment for salinity control, or for flood protection; and

(2) Practices which are installed or commenced before the contract for cost-share assistance has been approved.

§ 702.9 CRSC Contract and obligations of the participant.

(a) In order to receive cost-share assistance in accordance with this part, an eligible entity must enter into a CRSC Contract with a COC and, if required by the COC, enter into separate

operation and maintenance agreements in accordance with § 702.10 of this part.

(b) The CRSC Contract will be comprised of:

(1) The terms and conditions of the contract; and

(2) The salinity control plan.

(c) All CRSC Contracts shall have a term of not less than 3 nor more than 10 years.

(d) Eligible entities may offer to enter into a CRSC Contract in accordance with this part through the COC located in the same county as the eligible land or such other COC designated to administer contracts in the project area.

(e) By entering into a CRSC Contract, the participant agrees to:

(1) Carry out the terms and conditions of the CRSC Contract;

(2) Implement the salinity control plan:

(i) In accordance with the schedule of completion dates included in such plan, unless an extension of time is granted by the COC in consultation with the CD; and

(ii) Install all SRP's included in the salinity control plan in accordance with the SCS field office technical guide, regardless of whether the applicant receives cost-share assistance with respect to a SRP;

(3) Acquire all authorities, rights, easements, permits or other approvals necessary to install and maintain the SRP's and for compliance with applicable Federal, State, and local laws and regulations;

(4) Hold the Federal government harmless for any losses it may sustain if the participant infringes on the rights of others or fails to comply with applicable Federal, State, or local laws or regulations;

(5) Operate and maintain, at no cost to the Federal government, the SRP's as specified in the salinity control plan and ACP-245, Practice Approval and Payment Application, or as specified in separate operation and maintenance agreements entered into by the participant for the effective lifespan of the SRP's, as determined by SCS; and

(6) Not undertake any action on the land subject to the CRSC Contract that tends to defeat the purposes of the program provided for by this part.
