

§ 76.3

(e) Notice of quarantine: Notice is hereby given that because of the existence of the contagion of hog cholera and the nature and extent of such contagion or the existence of vectors, the following areas are quarantined:

[Reserved]

[37 FR 3600, Feb. 17, 1972]

EDITORIAL NOTE: The quarantined areas in paragraph (e) of § 76.2 are not carried in the Code of Federal Regulations. For Federal Register citations affecting § 76.2, see the List of CFR Sections Affected in the Finding Aids section of this volume.

§ 76.3 General restrictions.

Swine or swine products referred to in this part shall not be moved interstate except in accordance with the regulations in this part.

§ 76.4 Interstate movement of hog cholera virus prohibited, except as provided.

Virulent hog cholera virus shall not be moved interstate, except that: In specific cases and under such conditions as he may impose to prevent the interstate spread of hog cholera and to effectuate the hog cholera eradication program, the Deputy Administrator may authorize the interstate movement of stated quantities of virulent hog cholera virus for research, diagnostic, biologics production, or export purposes if he determines that such movement will not endanger swine or impair the hog cholera eradication program. When so moved for purposes other than export, such virus shall be accompanied by a permit from the appropriate official of the State of destination and shall in all cases, including export, be accompanied by a certificate issued by the Deputy Administrator specifying any conditions imposed regarding the specific shipment.

§ 76.5 Interstate movement of swine affected with or exposed to hog cholera.

(a) Swine affected with hog cholera may not be moved interstate for any purpose.

(b) Exposed swine (as defined in § 76.1(e)) may be moved interstate from any point in any State to a recognized slaughtering establishment for immediate slaughter and special processing

9 CFR Ch. I (1-1-97 Edition)

in accordance with Schedule A of § 76.12.

§ 76.6 Interstate movement of certain swine not affected with or exposed to hog cholera.

(a) Swine not known to be affected with or exposed to hog cholera may be moved interstate from any point in any nonquarantined area to a recognized slaughtering establishment for immediate slaughter, or to an approved livestock market for sale for immediate slaughter without further restriction under this part.

(b) Swine not known to be affected with or exposed to hog cholera may be moved interstate from any nonquarantined area for feeding or breeding purposes as provided in this paragraph (b):

(1) From any approved livestock market to any point other than a nonapproved livestock market in accordance with Schedule B of § 76.12.

(2) From a farm of origin to any point other than a nonapproved livestock market in accordance with Schedule C of § 76.12.

(3) From any premises other than a farm of origin or an approved or nonapproved livestock market to any point other than a nonapproved livestock market in accordance with Schedule D of § 76.12.

(c) Swine not known to be affected with or exposed to hog cholera may be moved interstate from any nonquarantined area for exhibition purposes as provided in paragraph (b) of this section.

[37 FR 3600, Feb. 17, 1972, as amended at 40 FR 53546, Nov. 19, 1975]

§ 76.7 Interstate movement of vaccinated swine.

(a) Official vaccinates may be moved interstate in accordance with the same restrictions and conditions which apply to nonvaccinated swine under the provisions of this part.

(b) Notwithstanding any other provisions of this part, swine treated with approved modified live virus vaccine after July 1, 1969, but prior to January 1, 1970, or treated with other virulent hog cholera virus prior to April 1, 1966, may be moved interstate only from a nonquarantined area and if they are
