

by the Government for the sale of their land. This action is authorized only under the following conditions:

(1) Appraisals of all the land, buildings, improvements, timber, and crops of the particular tract are completed and approved.

(2) A determination is made by the Division or District Engineer that the buildings, improvements, and timber will not be needed, and the harvesting of timber or crops will not interfere with construction or operation of the project.

(3) ENG Form 1565, Agreement for Removal of Property, will be obtained from all persons having an interest in the property to be removed. This agreement will recite the amount which the owner is willing to have deducted from the value of the tract as a whole for the right of removal, which may not be less than the appraised salvage value of the buildings, improvements and timber, and the appraised value of the crops, as set out in paragraphs (g), (h), and (i) of this section.

(4) ENG Form 1565 will be obtained and accepted by the Division or District Engineer, or the Chief of the Real Estate Division.

(5) If an offer is obtained later, an appropriate reservation must be inserted in the Offer to Sell to reflect the prior agreement relative to reservations and removals of property and the agreed value of same.

(6) If it is necessary later to file a declaration of taking on the particular tract, a copy of the agreement (ENG Form 1565) will be forwarded with the correspondence transmitting the declaration of taking assembly for use of the Department of Justice in the court action. The agreement by its own terms will serve as a stipulation as to the amount to be deducted from the ultimate award for the right of removing buildings, improvements, timber or crops.

(o) *Loss or Damages to Improvements, Timber, or Crops*—(1) *Insurance Protection Against Risks.* The Government does not carry property insurance of any nature. Vendors, however, may be advised as to their liability for certain losses, and that insurance protection against such risks is optional. When buildings, improvements, timber, or

crops on land being acquired by the United States are protected by insurance in effect when acquisition activities are initiated, the time and method of cancellation and negotiation for refund on premiums paid will be the responsibilities of the vendor. In order to avoid double payments to vendors, any amounts actually collected by vendors under the terms of the insurance policies for damage or loss occurring after acceptance of the offer by the Government will be deducted from the purchase price, regardless of when title is vested in the United States or the right to possession is exercised.

(2) *Fixing Liability*—(i) *Prior to Vesting Title in Government.* Buildings, improvements, timber, or crops on land acquired by the United States by purchase or condemnation remain the property of the vendor until title has been vested in the United States by delivery of a deed of conveyance or filing of a declaration of taking, and loss or damage thereto caused by fire, acts of God, theft or vandalism, before such vesting of title, will be borne by the vendor, except as provided below.

(ii) *Possession by Government.* When the right to possession has been exercised by the United States under an accepted Offer to Sell, condemnation proceeding, or possession has otherwise been surrendered to and accepted by the United States, losses arising from damage to buildings, improvements, timber, or crops by fire, acts of God, theft, or vandalism will be borne by the United States. If, however, prior to vesting of title, the right to possession has been exercised, or surrender has been made and accepted only to part of the property, and the vendor continues to use buildings and/or to cultivate or harvest crops or timber, such loss will be borne by the vendor as to buildings, timber or crops retained.

(iii) *Title in Government.* After title has vested, losses to buildings, timber or crops not caused by the willful act or gross negligence of vendor will be borne by the United States; provided, however, that if the vendor continues in possession of buildings, timber or crops, after title has vested, and the deed, stipulation or order of court has reserved to the vendor the right to remove such buildings, timber or crops,

loss or damage thereto, both before and after removal, caused by fire, act of God, theft, or vandalism will be borne by the vendor, only to the extent of the amount deducted from the purchase price, as provided in the deed, stipulation or order of court, for the right to remove.

(p) *Other Reservations.* The following rights may be reserved to the owner wherever such reservation will be to the financial advantage of the Government and it has been determined by the Division or District Engineer that the reservation of the rights will not interfere with the operation of the project. These rights may be reserved in the Offer to Sell and in the condemnation estate but only whenever mutual agreement between the owner and the Government concerning all phases of the acquisition except just compensation has been reached, or by stipulation for settlement of condemnation cases, subject to approval of revestment, if any, by DAEN-REA.

(1) *Rights-of-Way for Stock to Water.* Reservations of rights-of-way will be permitted for watering stock, in the case of bona fide livestock operations, such as dairymen and ranchers. Such rights-of-way will be limited to a reasonable width and will not be permitted in public access and use areas. The reservations will be so worded as not to require the owners to fence the rights-of-way, but to provide that if they elect to do so, they must provide gates at satisfactory intervals to permit crossing of the rights-of-way.

(2) *Rights-of-Way for Water Pipeline for Domestic Use.* Reservations of rights-of-way for water pipelines for domestic use (household, stock watering, garden, farm yard, but excluding irrigation) may be permitted by providing for the reservation of a temporary or permanent easement.

(3) *Rights-of-Way for Water Pipeline for Irrigation Use.* (i) In areas where irrigation is commonly practiced, or is of paramount importance, owners of remainder or contiguous lands will be permitted to reserve a sufficient real estate interest to place water pipelines across Government-owned lands, in order to obtain financing for irrigation development and/or in order to be assured of being able to carry on irriga-

tion operations. In "water rights" States (prior appropriation of water rights), the reservation of such interests will be permitted only to those owners who have established water rights from the State, or who may in the future obtain such rights. When irrigation is a project purpose, such reservation must be coordinated with the Bureau of Reclamation.

(ii) Under these circumstances, a landowner may be permitted to reserve an easement and right-of-way for a water pipeline and pumping unit across the land he conveys, by appropriate provisions in the offer to sell and in the deed to the United States. In "water rights" States, this reservation will be "for the exercise of established water rights, although no right to use water is created hereby." (This phraseology is to be incorporated in the reservation.) The reservation will also include any pertinent provisions considered essential by the Division or District Engineer, such as requirement to install the pipeline underground and at a specified depth.

(iii) Reservations of this nature will also be permitted in those cases where acquisition is by condemnation. In these acquisitions, the reservation may be recited in the complaint and declaration of taking, whenever full agreement except as to just compensation has been reached, or it may be permitted later by stipulation.

(iv) When the project is located in an area in which the Bureau of Reclamation is developing, or planning to develop, irrigation districts or systems, prior coordination with the Bureau will provide that copies of all deeds and final condemnation judgments which recite reservations under this paragraph will be furnished to the local office of the Bureau. Thereafter, the Bureau of Reclamation will be responsible for supervising the exercise of the easements to insure compliance with Reclamation laws.

(v) Plans to provide for irrigation will be fully covered in the Real Estate Design Memorandum.

(4) Acquisitions in which these rights are to be reserved must, of course, be based on an appraisal of the fair market value of the estate to be acquired. Since the appraisal would probably be

made originally on the basis that there would be no reservation, revision must be prepared whenever the reservation appears to be appropriate, to reflect the reduction in severance damages or other financial advantage accruing to the Government. Consideration of counteroffers which include proposals for these reservations by the landowner will be based on and compared with the appraised fair market value of the estate proposed to be acquired. Deposits with a declaration of taking will be based on the appraised fair market value of the estate to be acquired by the condemnation action.

**§ 644.87 Preparation and execution of offers.**

(a) *Fee Acquisition Offer Form.* The use of the latest revision of ENG Form 42, Offer to Sell Real Property, is required in all authorized projects, except in those cases where agreements with the landowners can be fully reflected in an executed deed, and where the provisions of §§ 644.81(c), 644.82(a), and 644.86 are not applicable or can be fully complied with without the use of an Offer to Sell. When an agreement as to terms has been reached with the owner, or a counteroffer has been received which will be considered for acceptance or submitted for consideration by higher authority, a draft of the offer will be prepared, with particular attention to the following instructions:

(1) No changes or interlineations in the printed portions of the offer form will be permitted, unless authorized by the Chief of Engineers, except where the words "general warranty deed" are changed to another form of deed.

(2) Insert legal land description of property to be acquired, or attach description by Exhibits to be identified on page 1.

(3) The word "none" should be inserted in the blank spaces following the first and third lines, respectively, on page 2 of the offer form when title is being acquired free and clear of all rights outstanding in third parties and the vendor is not permitted to except or reserve any right or interest in the property to be conveyed to the Government.

(4) Particular attention is directed to § 644.86, regarding exceptions and res-

ervations and outstanding rights in third parties. No exceptions or reservations of crops, timber, buildings and improvements, subsurface rights, or any other interest will be incorporated in any offer to sell unless the required approvals have first been obtained.

(5) In any case where the offer form deviates from the standard approved forms or contains any conditions, exception, or reservation contrary to these instructions, the assembly will be forwarded to HQDA (DAEN-REA) WASH DC 20314 for consideration with the recommendations of the Division and District Engineer. This may be done at the same time a counteroffer is submitted to DAEN-REA in accordance with § 644.84(d).

(6) The landowner's name will be set forth in the offer in the exact way in which it appears on record.

(7) When it is necessary for a corporate agent, fiduciary, or any person other than an individual owner to execute the offer, satisfactory evidence of the authority to act for the owner must be attached to each of the copies of the Offer to Sell.

(8) Where it is necessary to attach sheets to the offer in order to fully set forth the terms of reservations, exceptions, or outstanding rights in third parties, such additional sheets must be securely attached and initialed by all parties signing the Offer to Sell.

(9) The name and address of the person or persons to whom notice of acceptance is to be sent must be accurately set forth. The address where the landowner can be reached after he vacates the property, if different from the address to which the notice is to be sent, should be obtained.

(b) *Submission, Acceptance, and Distribution of Offers to Sell.* (1) For each purchase transaction, the original offer and four copies will be signed by the landowner and spouse, if any. A copy (5th) will be left with the landowner when the offer is obtained.

(2) Division and District Engineers, the Chiefs of the Real Estate Divisions, and the incumbents of the position to which authority is delegated as provided in § 644.84(d) are authorized to accept offers to sell for the acquisition of

land or interests in land and easements, licenses, permits, or similar acquisition instruments: *Provided*, The price set forth in the instrument is within their authority to approve or has been approved in writing by higher authority. The Division or District Engineer may also delegate to Project Managers (including the heads of any field offices with responsibility for real estate acquisition) authority to execute real estate instruments by which land or interests in land are acquired by agreement with landowners, provided the consideration set forth in the instrument is within the approved appraised value or has been approved as provided in § 644.84(c). Upon approval of the offer or other instrument requiring payment to the landowner, a determination that necessary funds are available, and acceptance of the instrument under the authority contained in this subparagraph, the instrument will be numbered in conformity with existing regulations and will immediately be distributed as follows:

(i) Original offers to sell will be retained at the Division or District for site audit.

(ii) Send signed copy to vendor as provided in paragraph (b)(3) of this section below.

(iii) Attached conformed copy to title assembly.

(iv) File signed copy with project records.

(3) Upon acceptance of the Offer to Sell, the Division or District Engineer will notify the vendor by transmitting a signed copy of the contract (accepted offer) to vendor by ENG Form 53, Notice of Acceptance of Offer to Sell Real Property.

(4) Upon acceptance of the Offer to Sell, the Division or District Engineer will notify the using service, in the case of military acquisition, that the Offer to Sell has been accepted and that the Government has "the right of immediate occupancy and use of the land," subject to the terms of the accepted offer. The land should be clearly identified to the using service.

(5) Instruments which do not provide for payments to landowners will be distributed in accordance with regulations governing such cases.

(c) *Easement Acquisition Offer Form.*

(1) The use of ENG Form 2970, Offer to Sell Easement, is required for the acquisition of all types of easement estates, such as flowage, spoil, drainage, road, railroad, utility, restrictive or safety (Army and Air Force), clearance (Air Force), and other required easement acquisitions, except in those cases where agreements with landowners can be fully reflected in an executed deed, and where the provisions of §§ 644.84(b) and 644.86(d) are not applicable or can be fully complied with without the use of an Offer to Sell. Pages 1 and 2 of ENG Form 2970, containing the terms and conditions of the acquisition, are standard and need no modification. The tract of land in which the particular easement will be acquired will be described in Exhibit "A," and the easement estate will be set forth in Exhibit "B" to ENG Form 2970. Division Engineers are authorized to approve deviations in ENG Form 2970 in all cases where the easement does not cost more than \$500: *Provided*, That any deviation from the estates listed in Figure 5-6 of ER 405-1-12, must have the prior approval of DAEN-REA. When easements are being acquired from a vendor from whom fee is also being acquired, ENG Forms 42 and 2970 may be combined into one instrument in order to complete the entire acquisition as one transaction.

(2) In the acquisition of easements for rights-of-way for access roads, utility lines, etc., which cross or encroach upon rights-of-way or property of railroad companies, public utility companies, cities, counties and States, ENG Form 893, License for Installations Upon Right-of-Way, may be accepted, at the discretion of the Division or District Engineer, provided it is determined that such companies, municipalities, counties, or States are not vested with authority to convey a perpetual easement and the granting of a license under the conditions recited in ENG Form 893 will protect the interests of the United States and grant sufficient use of the right-of-way or land for project purposes. Normally a license of this nature should be obtained for a nominal consideration. Occasionally it will be necessary to provide for the payment of a small fee to cover the

licensor's engineering and administrative expenses. In such cases, the consideration for the granting of a license will not exceed \$100. In cases where the licensor demands a consideration equal to the appraised value of the right to be acquired, consideration will be given to the acquisition of a perpetual easement by condemnation, if the licensor is not vested with authority to grant such an easement.

(3) The description of the tract over which an easement is being acquired should be prefaced by terminology similar to that of ENG Form 42 which makes the tract inclusive of the abutting owner's interest in contiguous roads and other easements, if any.

(4) Offer assemblies will be prepared, accepted, and distributed in the same manner as provided for fee acquisition, except that ENG Form 3422, Notice of Acceptance of Offer to Sell Easement, will be used.

(d) *Payment.* After acceptance and distribution of the offer assembly and the acquisition is ready for closing, payment will be made.

(e) *Cancellation of Contracts.* If, for any reason, it is necessary to cancel a contract for acceptance by the Government of the Offer to Sell, the cancellation will be effected by using ENG Form 1572, Agreement for Mutual Cancellation of Contract. Upon execution of this agreement by the landowner and the Division or District Engineer, or the Chief of the Real Estate Division, distribution of the original and copies of the agreement will be the same as for the accepted Offer to Sell.

(f) *Transfer of Tracts from Purchase to Condemnation.* If, at any time in the course of acquisition by purchase, it becomes apparent that acquisition by purchase will involve substantial delay or cannot be accomplished, action will be taken to acquire the land by condemnation.

(g) *Acquisition of Land by Donation.* (1) In cases where the acquisition of real property has been authorized and approved by donation, ENG Form 42, Offer to Sell Real Property, or ENG Form 2970, Offer to Sell Easement, will be entered into setting forth the terms and conditions of the donation and conveyance to the United States.

(2) The offer, when approved and accepted, will be distributed in accordance with paragraph (b)(2) of this section.

(3) Title clearance and closing of donation cases are processed in the same manner as any other fee or easement acquisition.

(h) *Vacation of Property by Landowners and Tenants—(1) Notice to Landowners.* From the inception of the project, landowners and tenants will be instructed to notify the Division or District Engineer or Real Estate Project Manager, in writing, as soon as they vacate their property; to turn in their keys whenever possible in order that the buildings may be kept under lock; and to keep the Division or District Engineer or Real Estate Project Office advised of any changes in address in order to expedite title clearance, payment, closing action, and the distribution of funds in condemnation proceedings. Landowners and tenants will be informed that, in order to protect their interests, they should not move from their property and that the Government will not require them to surrender possession until:

(i) They have received notice of acceptance of an offer granting the Government the right of immediate possession; or

(ii) They have been served notice of the filing of a condemnation proceeding by which the Government has obtained the right of possession.

(2) *Complete Appraisals Prior to Vacation.* Where an offer is accepted or a declaration of taking is filed, the individual tracts will have been surveyed and appraised. In condemnation proceedings for possession, there may be cases in which individual tract surveys and appraisals will not have been completed at the time the condemnation proceeding is filed. In such cases, landowners and tenants will not be required to surrender possession, and buildings and improvements will not be removed or destroyed in the conduct of construction work, until individual appraisals have been completed and photographs have been procured.

(3) *Inspection of Property.* (i) As soon as a landowner or tenant gives notification that he is vacating his property,

or as soon as this information is obtained from any other source, the District Engineer will immediately have a member of his staff make a personal inspection of the property and execute ENG Form 1567, Report on Vacation of Property. The inspection will be made with a view of determining whether all buildings, improvements, and crops on the land to be acquired, as listed in the appraisal report, are still on the land and in substantially the same condition as they were on the date of the appraisal.

(ii) Where buildings, improvements, and crops have been removed under a reservation in the offer, an appropriate entry will be made in paragraph (3) of ENG Form 1567.

(iii) Where buildings, improvements, and crops have been removed or destroyed in the conduct of construction work on the project, an appropriate entry will be made in paragraph (3) of ENG Form 1567.

(iv) It will be determined whether or not the land is wholly unoccupied and vacant and whether there is evidence of present use thereof for farming and other operations.

(v) The original report will be retained in the real estate project files. The second copy will be held for the use of the closing attorneys on purchase cases, or for the use of the local representative of the Department of Justice in condemnation cases.

(i) *Public Relations.* One of the most difficult problems encountered in the real estate activities of the Department of the Army, particularly from a public relations standpoint, is that of the sudden dislocation of families, tenants as well as owners, and the relocation of these families. Special attention, therefore, will be given to their problems.

(j) *Payment of Relocation Assistance and Acquisition.* Public Law 91-646 provides for reimbursement of certain expenses incurred by owners and tenants who are displaced as the result of Federal and federally-assisted programs. Payment of relocation assistance benefits and certain costs incurred by the vendor in transfer of title to the Government and certain litigation expenses incurred by the owner is provided for under that Act.

#### § 644.88 Other acquisition.

(a) *Acquisition From Other Federal Departments and Agencies—(1) Transfers.* Transfers will be obtained from other Government agencies after issuance of real estate directives. Muniments of title will be obtained from the transferring agency, if possible, and be forwarded to HQDA (DAEN-REP) WASH DC 20314, with the original transfer letter or document. Title 10 U.S.C. 2571 authorizes transfer of real property within the Department of Defense (10 U.S.C. 2662).

(2) *Permits.* Upon receipt of a proper request from an authorized command, service or agency, Division or District Engineers and the Chiefs of the Real Estate Divisions are authorized to obtain, accept, and renew permits from other Government departments or agencies for the temporary (five years) use of land (except public domain for Air Force) and buildings. The use of over 500 acres of public domain land must have prior approval by the Assistant Secretary of Defense (MRA&L) pursuant to Department of Defense Directive 4165.12.

(b) *Withdrawal of Public Domain Lands and Right-of-Entry Permits for Temporary Use.* (1) Withdrawal of public domain lands will be necessary if a site is selected for construction and/or there is a continuing military use. Except in time of war, withdrawals in excess of 5,000 acres for military use must be by authority of an Act of Congress (Pub. L. 85-337, 43 U.S.C. 156).

(2) Requests for withdrawal of public domain land will be made to the appropriate State or Regional Supervisor of the Bureau of Land Management (BLM), Department of the Interior, by the Division or District Engineer, pursuant to 43 CFR part 295, as soon as a real estate directive is issued.

(i) If use of land is needed promptly to meet a construction deadline or for other use, the request for withdrawal will contain this information, and the BLM supervisor will be requested to expedite submission of his report to BLM in Washington, and to publish the proposed withdrawal in the FEDERAL REGISTER as soon as possible.

(ii) A copy of the request will be forwarded to HQDA (DAEN-REA) WASH DC 20314 (with a copy to HQ, USAF
