

order, except that communications between the DE and the Presiding Officer do not constitute ex parte communications, nor do communications between the DE and his staff prior to issuance of the proposed order.

(4) The DE may request additional information on specified issues from the participants, in whatever form the DE designates, giving all participants a fair opportunity to be heard on such additional matters. The DE shall include this additional information in the administrative record.

(5) Within a reasonable time following receipt of the Presiding Officer's recommended decision, the DE shall withdraw, issue, or modify and issue the proposed order as a final order. The DE's decision shall be based on a preponderance of the evidence in the administrative record, shall consider the penalty factors set out in section 309(g)(3) of the CWA, shall be in writing, shall include a clear and concise statement of reasons for the decision, and shall include any final order assessing a penalty. The DE's decision, once issued, shall constitute final Corps action for purposes of judicial review.

(6) The DE shall issue the final order by sending the order, or written notice of its withdrawal, to the permittee by certified mail. Issuance of the order under this subparagraph constitutes final Corps action for purposes of judicial review.

(7) The DE shall provide written notice of the issuance, modification and issuance, or withdrawal of the proposed order to every person who submitted written comments on the proposed order.

(8) The notice shall include a statement of the right to judicial review and of the procedures and deadlines for obtaining judicial review. The notice shall also note the right of a commenter to petition for a hearing pursuant to 33 CFR 326.6(c)(3) if no hearing was previously held.

(k) *Effective date of order.* (1) Any final order issued under this subpart shall become effective 30 calendar days following its issuance unless an appeal is taken pursuant to section 309(g)(8) of the Clean Water Act, or in the case where no hearing was held prior to the

final order, and a petition for hearing is filed by a prior commenter.

(2) If a petition for hearing is received within 30 days after the final order is issued, the DE shall:

(i) Review the evidence presented by the petitioner.

(ii) If the evidence is material and was not considered in the issuance of the order, the DE shall immediately set aside the final order and schedule a hearing. In that case, a hearing will be held, a new recommendation will be made by the Presiding Officer to the DE and a new final decision issued by the DE.

(iii) If the DE denies a hearing under this subparagraph, the DE shall provide to the petitioner, and publish in the FEDERAL REGISTER, notice of, and the reasons for, such denial.

(l) *Judicial review.* (1) Any permittee against whom a final order assessing a civil penalty under these regulations or any person who provided written comments on a proposed order may obtain judicial review of the final order.

(2) In order to obtain judicial review, the permittee or commenter must file a notice of appeal in the United States District Court for either the District of Columbia, or the district in which the violation was alleged to have occurred, within 30 calendar days after the date of issuance of the final order.

(3) Simultaneously with the filing of the notice of appeal, the permittee or commenter must send a copy of such notice by certified mail to the DE and the Attorney General.

- 327.4 General policies.
- 327.5 Presiding officer.
- 327.6 Legal adviser.
- 327.7 Representation.
- 327.8 Conduct of hearings.
- 327.9 Filing of the transcript of the public hearing.
- 327.10 Authority of the presiding officer.
- 327.11 Public notice.

AUTHORITY: 33 U.S.C. 1344; 33 U.S.C. 1413.

SOURCE: 51 FR 41249, Nov. 13, 1986, unless otherwise noted.

§ 327.1 Purpose.

This regulation prescribes the policy, practice and procedures to be followed by the U.S. Army Corps of Engineers in the conduct of public hearings conducted in the evaluation of a proposed DA permit action or Federal project as defined in § 327.3 of this part including those held pursuant to section 404 of the Clean Water Act (33 U.S.C. 1344) and section 103 of the Marine Protection, Research and Sanctuaries Act (MPRSA), as amended (33 U.S.C. 1413).

§ 327.2 Applicability.

This regulation is applicable to all divisions and districts responsible for the conduct of public hearings.

§ 327.3 Definitions.

(a) *Public hearing* means a public proceeding conducted for the purpose of acquiring information or evidence which will be considered in evaluating a proposed DA permit action, or Federal project, and which affords the public an opportunity to present their views, opinions, and information on such permit actions or Federal projects.

(b) *Permit action*, as used herein means the evaluation of and decision on an application for a DA permit pursuant to sections 9 or 10 of the Rivers and Harbors Act of 1899, section 404 of the Clean Water Act, or section 103 of the MPRSA, as amended, or the modification, suspension or revocation of any DA permit (see 33 CFR 325.7).

(c) *Federal project* means a Corps of Engineers project (work or activity of any nature for any purpose which is to be performed by the Chief of Engineers pursuant to Congressional authorizations) involving the discharge of dredged or fill material into waters of the United States or the transportation of dredged material for the purpose of dumping it in ocean waters subject to section 404 of the Clean Water Act, or section 103 of the MPRSA.

§ 327.4 General policies.

(a) A public hearing will be held in connection with the consideration of a DA permit application or a Federal project whenever a public hearing is needed for making a decision on such

permit application or Federal project. In addition, a public hearing may be held when it is proposed to modify or revoke a permit. (See 33 CFR 325.7).

(b) Unless the public notice specifies that a public hearing will be held, any person may request, in writing, within the comment period specified in the public notice on a DA permit application or on a Federal project, that a public hearing be held to consider the material matters at issue in the permit application or with respect to Federal project. Upon receipt of any such request, stating with particularity the reasons for holding a public hearing, the district engineer may expeditiously attempt to resolve the issues informally. Otherwise, he shall promptly set a time and place for the public hearing, and give due notice thereof, as prescribed in § 327.11 of this part. Requests for a public hearing under this paragraph shall be granted, unless the district engineer determines that the issues raised are insubstantial or there is otherwise no valid interest to be served by a hearing. The district engineer will make such a determination in writing, and communicate his reasons therefor to all requesting parties. Comments received as form letters or petitions may be acknowledged as a group to the person or organization responsible for the form letter or petition.

(c) In case of doubt, a public hearing shall be held. HQDA has the discretionary power to require hearings in any case.

(d) In fixing the time and place for a hearing, the convenience and necessity of the interested public will be duly considered.

§ 327.5 Presiding officer.

(a) The district engineer, in whose district a matter arises, shall normally serve as the presiding officer. When the district engineer is unable to serve, he may designate the deputy district engineer or other qualified person as presiding officer. In cases of unusual interest, the Chief of Engineers or the division engineer may appoint such person as he deems appropriate to serve as the presiding officer.

(b) The presiding officer shall include in the administrative record of the permit action the request or requests for

the hearing and any data or material submitted in justification thereof, materials submitted in opposition to or in support of the proposed action, the hearing transcript, and such other material as may be relevant or pertinent to the subject matter of the hearing. The administrative record shall be available for public inspection with the exception of material exempt from disclosure under the Freedom of Information Act.

§ 327.6 Legal adviser.

At each public hearing, the district counsel or his designee may serve as legal advisor to the presiding officer. In appropriate circumstances, the district engineer may waive the requirement for a legal advisor to be present.

§ 327.7 Representation.

At the public hearing, any person may appear on his own behalf, or may be represented by counsel, or by other representatives.

§ 327.8 Conduct of hearings.

(a) The presiding officer shall make an opening statement outlining the purpose of the hearing and prescribing the general procedures to be followed.

(b) Hearings shall be conducted by the presiding officer in an orderly but expeditious manner. Any person shall be permitted to submit oral or written statements concerning the subject matter of the hearing, to call witnesses who may present oral or written statements, and to present recommendations as to an appropriate decision. Any person may present written statements for the hearing record prior to the time the hearing record is closed to public submissions, and may present proposed findings and recommendations. The presiding officer shall afford participants a reasonable opportunity for rebuttal.

(c) The presiding officer shall have discretion to establish reasonable limits upon the time allowed for statements of witnesses, for arguments of parties or their counsel or representatives, and upon the number of rebuttals.

(d) Cross-examination of witnesses shall not be permitted.

(e) All public hearings shall be reported verbatim. Copies of the transcripts of proceedings may be purchased by any person from the Corps of Engineers or the reporter of such hearing. A copy will be available for public inspection at the office of the appropriate district engineer.

(f) All written statements, charts, tabulations, and similar data offered in evidence at the hearing shall, subject to exclusion by the presiding officer for reasons of redundancy, be received in evidence and shall constitute a part of the record.

(g) The presiding officer shall allow a period of not less than 10 days after the close of the public hearing for submission of written comments.

(h) In appropriate cases, the district engineer may participate in joint public hearings with other Federal or state agencies, provided the procedures of those hearings meet the requirements of this regulation. In those cases in which the other Federal or state agency allows a cross-examination in its public hearing, the district engineer may still participate in the joint public hearing but shall not require cross-examination as a part of his participation.

§ 327.9 Filing of the transcript of the public hearing.

Where the presiding officer is the initial action authority, the transcript of the public hearing, together with all evidence introduced at the public hearing, shall be made a part of the administrative record of the permit action or Federal project. The initial action authority shall fully consider the matters discussed at the public hearing in arriving at his initial decision or recommendation and shall address, in his decision or recommendation, all substantial and valid issues presented at the hearing. Where a person other than the initial action authority serves as presiding officer, such person shall forward the transcript of the public hearing and all evidence received in connection therewith to the initial action authority together with a report summarizing the issues covered at the hearing. The report of the presiding officer and the transcript of the public hearing and evidence submitted thereat shall in

such cases be fully considered by the initial action authority in making his decision or recommendation to higher authority as to such permit action or Federal project.

§ 327.10 Authority of the presiding officer.

Presiding officers shall have the following authority:

(a) To regulate the course of the hearing including the order of all sessions and the scheduling thereof, after any initial session, and the recessing, reconvening, and adjournment thereof; and

(b) To take any other action necessary or appropriate to the discharge of the duties vested in them, consistent with the statutory or other authority under which the Chief of Engineers functions, and with the policies and directives of the Chief of Engineers and the Secretary of the Army.

§ 327.11 Public notice.

(a) Public notice shall be given of any public hearing to be held pursuant to this regulation. Such notice should normally provide for a period of not less than 30 days following the date of public notice during which time interested parties may prepare themselves for the hearing. Notice shall also be given to all Federal agencies affected by the proposed action, and to state and local agencies and other parties having an interest in the subject matter of the hearing. Notice shall be sent to all persons requesting a hearing and shall be posted in appropriate government buildings and provided to newspapers of general circulation for publication. Comments received as form letters or petitions may be acknowledged as a group to the person or organization responsible for the form letter or petition.

(b) The notice shall contain time, place, and nature of hearing; the legal authority and jurisdiction under which the hearing is held; and location of and availability of the draft environmental impact statement or environmental assessment.

PART 328—DEFINITION OF WATERS OF THE UNITED STATES

Sec.

328.1 Purpose.

328.2 General scope.

328.3 Definitions.

328.4 Limits of jurisdiction.

328.5 Changes in limits of waters of the United States.

AUTHORITY: 33 U.S.C. 1344.

SOURCE: 51 FR 41250, Nov. 13, 1986, unless otherwise noted.

§ 328.1 Purpose.

This section defines the term “waters of the United States” as it applies to the jurisdictional limits of the authority of the Corps of Engineers under the Clean Water Act. It prescribes the policy, practice, and procedures to be used in determining the extent of jurisdiction of the Corps of Engineers concerning “waters of the United States.” The terminology used by section 404 of the Clean Water Act includes “navigable waters” which is defined at section 502(7) of the Act as “waters of the United States including the territorial seas.” To provide clarity and to avoid confusion with other Corps of Engineer regulatory programs, the term “waters of the United States” is used throughout 33 CFR parts 320 through 330. This section does not apply to authorities under the Rivers and Harbors Act of 1899 except that some of the same waters may be regulated under both statutes (see 33 CFR parts 322 and 329).

§ 328.2 General scope.

Waters of the United States include those waters listed in § 328.3(a). The lateral limits of jurisdiction in those waters may be divided into three categories. The categories include the territorial seas, tidal waters, and non-tidal waters (see 33 CFR 328.4 (a), (b), and (c), respectively).

§ 328.3 Definitions.

For the purpose of this regulation these terms are defined as follows:

(a) The term *waters of the United States* means

(1) All waters which are currently used, or were used in the past, or may
