(i) Include the following information, as applicable, and any other information that may be pertinent, in the supporting documentation:

(A) The acquisition history of the supplies or services, including sources, prices, quantities, and dates of award;

(B) The circumstances which make it necessary to exclude the particular source from the contract action, including—

(1) The reasons for the lack of or potential loss of alternative sources; e.g., the technical complexity and criticality of the supplies or services; and

(2) The current annual requirement and projected needs for the supplies or services;

(C) Whether the existing source must be totally excluded from the contract action or whether a partial exclusion is sufficient;

(D) The potential effect of exclusion on the excluded source in terms of loss of capability to furnish the supplies or services in the future;

(E) When FAR 6.202(a)(1) is the authority, the basis for—

(1) The determination of future competition; and

(2) The determination of reduced overall costs. Include, as a minimum, a discussion of start-up costs, facility costs, duplicative administration costs, economic order quantities, and life cycle cost considerations; and

(2) A comparison of current production capacity with that necessary to meet mobilization requirements;

(3) An analysis of the risks of relying on the present source; and

Alternate 1: will increase or maintain competition for this requirement and is expected to result in a reduction of \$_____ in overall costs for the present and future acquisition of these supplies or services. (Describe how estimate was derived.)

Alternate 2: is in the interest of national defense because it will result in having a supplier available for furnishing these supplies or services in case of a national emergency or industrial mobilization. (Explain circumstances requiring exclusion of source.)

Alternate 3: is in the interest of national defense because it will result in establishment or maintenance of an essential engineering, research or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center. (Explain circumstances requiring exclusion of source.)
