**Title 49:**

Subtitle A—Office of the Secretary of Transportation .................. 3

**Finding Aids:**

Material Approved for Incorporation by Reference ...................... 639

Table of CFR Titles and Chapters ........................................ 641

Alphabetical List of Agencies Appearing in the CFR ..................... 669

List of CFR Sections Affected ............................................ 669
Cite this Code: CFR

To cite the regulations in this volume use title, part and section number. Thus, 49 CFR 1.1 refers to title 49, part 1, section 1.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16: as of January 1
- Title 17 through Title 27: as of April 1
- Title 28 through Title 41: as of July 1
- Title 42 through Title 50: as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, October 1, 1998), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amend-
ments to existing regulations in the CFR. These OMB numbers are placed as
close as possible to the applicable recordkeeping or reporting requirements.

OBSOLETE PROVISIONS

Provisions that become obsolete before the revision date stated on the cover
each volume are not carried. Code users may find the text of provisions in
effect on a given date in the past by using the appropriate numerical list of
sections affected. For the period before January 1, 1986, consult either the List
arate volumes. For the period beginning January 1, 1986, a “List of CFR Sections
Affected” is published at the end of each CFR volume.

INCORPORATION BY REFERENCE

What is incorporation by reference? Incorporation by reference was established
by statute and allows Federal agencies to meet the requirement to publish regu-
lations in the Federal Register by referring to materials already published else-
where. For an incorporation to be valid, the Director of the Federal Register
must approve it. The legal effect of incorporation by reference is that the mate-
rial is treated as if it were published in full in the Federal Register (5 U.S.C.
552(a)). This material, like any other properly issued regulation, has the force
of law.

What is a proper incorporation by reference? The Director of the Federal Register
will approve an incorporation by reference only when the requirements of 1 CFR
part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material pub-
lished in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to
afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in
accordance with 1 CFR part 51.

Properly approved incorporations by reference in this volume are listed in the
Finding Aids at the end of this volume.

What if the material incorporated by reference cannot be found? If you have any
problem locating or obtaining a copy of material listed in the Finding Aids of
this volume as an approved incorporation by reference, please contact the agency
that issued the regulation containing that incorporation. If, after contacting the
agency, you find the material is not available, please notify the Director of the
Federal Register, National Archives and Records Administration, Washington DC
20408, or call (202) 523-4534.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate
volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS.
This volume contains the Parallel Table of Statutory Authorities and Agency
Rules (Table I), and Acts Requiring Publication in the Federal Register (Table
II). A list of CFR titles, chapters, and parts and an alphabetical list of agencies
publishing in the CFR are also included in this volume.

An index to the text of “Title 3—The President” is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index
is based on a consolidation of the “Contents” entries in the daily Federal Reg-
ister.
A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency's name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202-523-5227 or write to the Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408.

SALES

The Government Printing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call 202-512-1800, M-F, 8 a.m. to 4 p.m. e.s.t. or fax your order to 202-512-2233, 24 hours a day. For payment by check, write to the Superintendent of Documents, Attn: New Orders, P.O. Box 371954, Pittsburgh, PA 15250-7954. For GPO Customer Service call 202-512-1803.

ELECTRONIC SERVICES

The Office of the Federal Register also offers a free service on the National Archives and Records Administration's (NARA) World Wide Web site for public law numbers, Federal Register finding aids, and related information. Connect to NARA's web site at www.nara.gov/fedreg. The NARA site also contains links to GPO Access.

RAYMOND A. MOSLEY,
Director,
Office of the Federal Register.

October 1, 1998.
THIS TITLE

Title 49—Transportation is composed of seven volumes. The parts in these volumes are arranged in the following order: Parts 1–99, parts 100–185, parts 186–199, parts 200–399, parts 400–999, parts 1000–1199, part 1200 to End. The first volume (parts 1–99) contains current regulations issued under subtitle A—Office of the Secretary of Transportation; the second volume (parts 100–185) and the third volume (parts 186–199) contain the current regulations issued under chapter I—Research and Special Programs Administration (DOT); the fourth volume (parts 200–399) contains the current regulations issued under chapter II—Federal Railroad Administration (DOT), and chapter III—Federal Highway Administration (DOT); the fifth volume (parts 400–999) contains the current regulations issued under chapter IV—Coast Guard (DOT), chapter V—National Highway Traffic Safety Administration (DOT), chapter VI—Federal Transit Administration (DOT), chapter VII—National Railroad Passenger Corporation (AMTRAK), and chapter VIII—National Transportation Safety Board; the sixth volume (parts 1000–1199) contains the current regulations issued under chapter X—Surface Transportation Board and the seventh volume (part 1200 to End) contains the current regulations issued under chapter X—Surface Transportation Board and chapter XI—Bureau of Transportation Statistics, Department of Transportation. The contents of these volumes represent all current regulations codified under this title of the CFR as of October 1, 1998.

In the volume containing parts 100–185, see §172.101 for the Hazardous Materials Table, and §172.102 for the Optional Hazardous Materials Table. An Identification Number Cross Reference Index to Proper Shipping Names in §§172.101 and 172.102 appears at the beginning of part 172. The Federal Motor Vehicle Safety Standards appear in part 571.

Redesignation tables for chapter X—Surface Transportation Board, Department of Transportation appear in the Finding Aids section of the sixth and seventh volumes.

For this volume Melanie L. Marcec was the Chief Editor. The Code of Federal Regulations publication program is under the direction of Frances D. McDonald, assisted by Alomha S. Morris.
Would you like to know... if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the LSA (List of CFR Sections Affected), the Federal Register Index, or both.

LSA
The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected. $27 per year.

Federal Register Index
The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references. $25 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Superintendent of Documents Subscription Order Form

Order Preference Code: □ YES, send me the following indicated subscriptions for one year:
□ LSA (List of CFR Sections Affected), (LCS) for $27 per year.
□ Federal Register Index (FRSU) $25 per year.

The total cost of my order is $ __________

**APPENDIX TO SUBTITLE A—UNITED STATES RAILWAY ASSOCIATION—EMPLOYEE RESPONSIBILITIES AND CONDUCT** | 630  |
PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Subpart A—General

Sec.
1.1 Purpose.
1.2 Definitions.
1.3 Organization of the Department.
1.4 General responsibilities.

Subpart B—Office of the Secretary

1.21 Purpose.
1.22 Structure.
1.23 Spheres of primary responsibility.
1.24 Authority.
1.25 Relationships.
1.26 Secretarial succession.

Subpart C—Delegations

1.41 Purpose.
1.42 Exercise of authority.
1.43 General limitations and reservations.
1.44 Reservation of authority.
1.45 Delegations to all Administrators.
1.46 Delegations to Commandant of the Coast Guard.
1.47 Delegations to Federal Aviation Administrator.
1.48 Delegations to Federal Highway Administrator.
1.49 Delegations to Federal Railroad Administrator.
1.50 Delegation to National Highway Traffic Safety Administrator.
1.51 Delegations to Urban Mass Transportation Administrator.
1.52 Delegations to Saint Lawrence Seaway Development Corporation Administrator.
1.53 Delegations to the Administrator of the Research and Special Programs Administration.
1.54 Delegations to all Secretarial Officers.
1.55 Delegations to Deputy Secretary.
1.56 Delegations to the Assistant Secretary for Transportation Policy.
1.56a Delegations to the Assistant Secretary for Aviation and International Affairs.
1.56b Delegations to the Designated Senior Career Official, Office of the Assistant Secretary for Aviation and International Affairs.
1.57a Delegations to General Counsel.
1.57b Delegations to Deputy General Counsel.
1.58a Delegations to the Assistant General Counsel for Environmental, Civil Rights, and General Law.
1.59 Delegations to Assistant Secretary for Budget and Programs.
1.59a Delegations by the Assistant Secretary for Administration.
1.59b Delegations to the Inspector General.
1.60 Delegations to Assistant Secretary for Governmental Affairs.
1.61 Delegations to Assistant Secretary for Disadvantaged Business Utilization.
1.62 Delegations to the Director of Small Business Utilization.
1.63 Delegations to Assistant to the Secretary and Director of Public Affairs.
1.64 Delegations to the Director, Transportation Administrative Service Center.
1.65 Authority to classify information.
1.66 Delegations to Maritime Administrator.
1.67 Delegations to Maritime Subsidy Board.
1.68 [Reserved]
1.69 Delegations to the Director of Intelligence and Security.
1.70 Delegations to the Director of the Departmental Office of Civil Rights.
1.71 Delegations to the Director of the Bureau of Transportation Statistics.
1.72 Delegations to the Office of the Chief Information Officer.

APPENDIX A TO PART 1—DELEGATIONS AND REDELEGATIONS BY SECRETARIAL OFFICERS

SOURCE: Amdt. 1-113, 40 FR 43901, Sept. 24, 1975, unless otherwise noted.

Subpart A—General

§1.1 Purpose.
This part describes the organization of the Department of Transportation and provides for the performance of duties imposed upon, and the exercise of powers vested, in the Secretary of Transportation by law.

§1.2 Definitions.
As used in this part, Administrator includes:
(a) The Coast Guard Commandant.
(b) The Federal Aviation Administrator.
(c) The Federal Highway Administrator.
(d) The Federal Railroad Administrator.
(f) The Urban Mass Transportation Administrator.
(g) The Administrator of the St. Lawrence Seaway Development Corporation.
§ 1.3 Organization of the Department.

(a) The Secretary of Transportation is the head of the Department.
(b) The Department is comprised of the Office of the Secretary and the following operating elements, the heads of which report directly to the Secretary:
   (1) The U.S. Coast Guard, headed by the Commandant.
   (2) The Federal Aviation Administration, headed by the Administrator.
   (3) The Federal Highway Administration, headed by the Administrator.
   (4) The Federal Railroad Administration, headed by the Administrator.
   (6) The Urban Mass Transportation Administration, headed by the Administrator.
   (7) The St. Lawrence Seaway Development Corporation, headed by the Administrator.
   (8) The Research and Special Programs Administration, headed by the Administrator.
   (9) The Maritime Administration, headed by the Administrator and including within it the Maritime Subsidy Board composed of the Maritime Administrator, the Deputy Maritime Administrator, and the Chief Counsel of the Maritime Administration.
   (10) The Bureau of Transportation Statistics, headed by the Director.

§ 1.4 General responsibilities.

(a) Office of the Secretary. Provides for:
   (1) Leadership in formulating and executing well-balanced national and international transportation objectives, policies, and programs;
   (2) Stimulating and promoting research and development in all modes and types of transportation, with special emphasis on transportation safety;
   (3) Coordinating the various transportation programs of the Federal Government;
   (4) Encouraging maximum private development of transportation services;
   (5) Responsive, timely, and effective liaison with Congress, and public and private organizations on transportation matters;
   (6) Innovative approaches to urban transportation and environmental enhancement programs; and
   (7) Effective management of the Department as a whole.

(b) U.S. Coast Guard. Is responsible for:
   (1) Upon the high seas and waters subject to the jurisdiction of the United States:
      (i) Enforcing or assistance in enforcing applicable Federal laws;
      (ii) Administering laws and promulgating and enforcing regulations for promoting safety of life and property, covering all matters not specifically delegated by law to some other executive department or reserved to the States;
      (iii) Developing, establishing, maintaining, and operating, with due regard to the requirements of national defense, aids to navigation, icebreaking facilities, and rescue facilities for promoting safety; and
   (2) Maintaining a state of readiness to function as a specialized service in the Navy, in time of war or when the President shall direct, as provided in section 3 of title 14, United States Code.

(c) The Federal Aviation Administration. Is responsible for:
   (1) Promulgating and enforcing regulations on all safety matters relating to the manufacture, operation, and maintenance of aircraft;
   (2) Registering aircraft and recording rights in aircraft;
   (3) Developing, modifying, testing, and evaluating systems, procedures, facilities, and devices needed for the safe and efficient navigation and traffic control of aircraft;
Office of the Secretary of Transportation § 1.4

(4) Locating, constructing or installing, maintaining, and operating Federal aids to air navigation, wherever necessary;

(5) Developing air traffic regulations, and administering air traffic control of civil and military air operations within U.S. airspace;

(6) Providing grants-in-aid for developing public airports;

(7) Promoting and encouraging civil aviation abroad through technical aviation assistance to other governments;

(8) Promulgating and enforcing regulations on all safety matters relating to commercial launch activities.

(d) The Federal Highway Administration is responsible for:

(1) Planning, in cooperation with the States, the national highway system;

(2) Providing for improving, in cooperation with the States, roads on the Federal-aid primary, secondary, and interstate highway systems and urban extensions thereof;

(3) Highway beautification and scenic enhancement of the Federal-aid highway systems;

(4) Surveying and constructing forest highway system roads, defense highways and access roads, and parks and roads in national parks and other federally administered areas;

(5) Inspecting records of motor carriers operating in interstate commerce, inspecting motor carrier vehicles, and investigating accidents and reporting violations of motor carrier safety regulations; and

(6) Developing and administering uniform State standards for highway safety programs with respect to identification and surveillance of accident locations; highway design, construction, and maintenance, including highway related aspects of pedestrian safety; and traffic control devices.

(e) The Federal Railroad Administration is responsible for:

(1) Operating and managing the Alaska Railroad;

(2) Conducting research and development activity in support of improved rail transportation;

(3) Regulating safety functions pertaining to railroads, express companies, and water carriers operating in connection with railroads under a common control, management, or arrangement for continuous carriage or shipment; and

(4) Investigating and issuing reports concerning collisions, derailments, and other railroad accidents resulting in serious injury to persons or to the property of a railroad.

(f) The National Highway Traffic Safety Administration is responsible for:

(1) Promulgating uniform standards for developing State highway safety programs, except for those standards the development and administration of which are delegated to the Federal Highway Administration.

(2) Establishing, prescribing, and enforcing National standards for improving safety in the operation and performance of motor vehicles and equipment.

(3) Informing the public of the comparative characteristics and operational cost of passenger motor vehicles and requiring display of comparative insurance costs by automobile dealers.

(4) Administering a program of mandatory automotive fuel economy standards for passenger and non-passenger automobiles for model year 1978 and beyond.

(5) Establishing safeguards for the protection of purchasers with respect to the sale of motor vehicles having altered or reset odometers and enforcing the prohibition against tampering with odometers.

(g) The Urban Mass Transportation Administration is responsible for:

(1) Exercising the authority vested in the Secretary for developing comprehensive and coordinated mass transportation systems to serve metropolitan and other urban areas;

(2) Administering urban mass transportation programs and functions; and

(3) Assuring appropriate liaison and coordination with other governmental organization, with respect to the foregoing.

(h) The St. Lawrence Seaway Development Corporation. Is responsible for the development, operation, and maintenance of that part of the St. Lawrence Seaway within the territorial limits of the United States.

(i) The Research and Special Programs Administration. Is responsible for:
§ 1.4

(1) Planning, developing, initiating and managing programs in all fields of transportation research and development. Maintaining the capability to perform research and analysis in transportation planning and socioeconomic effects, program management, and technological support in response to request for line participation in DOT policy formulations. Particular efforts will be made on transportation systems problems, advanced transportation concepts, and on multimodal transportation needs, will develop and maintain a vital statistics and related transportation information data base;

(2) Exercising for the Secretary the multimodal hazardous materials (HM) program and prescribing and enforcing safety regulations for the transportation of gases or hazardous liquids by pipeline;

(3) Developing, managing, and evaluating programs and research activities for the security of passengers and cargo in the transportation systems and for the prevention of unlawful or other acts adversely affecting the efficiency or integrity of the Nation’s transportation systems and providing leadership in the development and improvement of coordinated domestic and international transportation services;

(4) Providing leadership on all technical, navigation and communication, and systems engineering activities;

(5) Providing a point of contact for the Department with the academic community to encourage transportation research;

(6) Overseeing the effective discharge of the Secretary's statutory and administrative transportation responsibilities in all emergencies affecting the national defense and in national or regional crises; and

(7) Managing a Transportation Safety Institute which designs and conducts training programs responsible to the requirements of Government and industry as expressed by the operating elements of the Department.

(j) The Maritime Administration. Is responsible for:

(1) Fostering the development and maintenance of an American merchant marine sufficient to meet the needs of the national security and of the domestic and foreign commerce of the United States;

(2) Awarding and administering construction-differential subsidy contracts and operating-differential subsidy contracts to aid the American merchant marine, and trade-in allowances for new ship construction;

(3) Entering into and administering agreements for capital construction funds (excepting fishing vessels) and construction reserve funds;

(4) Providing insurance on construction loans and ship mortgages or guarantees on ship financing obtained from private sources for ship construction and reconstruction (excepting fishing vessels);

(5) Providing assistance to the shipping industry to generate increased trade and cargo shipments on U.S. flag ships;

(6) Promoting development of ports and intermodal transportation systems;

(7) Promoting development of the domestic waterborne commerce of the United States;

(8) Overseeing the administration of cargo preference statutes;

(9) Entering into and administering charters and general agency agreements for operation of Government-owned merchant ships;

(10) Maintaining custody of, and preserving, ships in the National Defense Reserve Fleet;

(11) Selling surplus Government-owned ships;

(12) Supervising design and construction of ships for Government account;

(13) Furnishing war risk insurance on privately owned merchant ships;

(14) Administering the foreign transfer program regarding ships and other maritime properties;

(15) Training merchant marine officers;

(16) Conducting research and development to improve and promote the waterborne commerce of the United States; and

(17) Issuing rules and regulations with respect to the foregoing functions.

(k) The Maritime Subsidy Board (within the Maritime Administration). Is responsible for:

(1) Making, amending, and terminating subsidy contracts, which shall be
deemed to include, in the case of construction-differential subsidy: (i) The contract for the construction, reconstruction, or reconditioning of a vessel, and (ii) the contract for the sale of the vessel to the subsidy applicant or the contract to pay a construction-differential subsidy and the cost of the national defense features, and, in the case of operating-differential subsidy, the contract with the subsidy applicant for the payment of the subsidy.

(2) Conducting hearings and making determinations antecedent to making, amending, and terminating subsidy contracts, under the provisions of titles V, VI, and VII, and sections 301 (except investigations, hearings, and determinations, including changes in determinations, with respect to minimum manning scales, minimum wage scales, and minimum working conditions), 708, 805(a), and 805(f) of the Merchant Marine Act, 1936, as amended (the "Act").

(3) Approving the sale, assignment, or transfer of any operating subsidy contract under section 608 of the Act.

(4) Performing so much of the functions with respect to adopting rules and regulations, subpoenaing witnesses, administering oaths, taking evidence, and requiring the production of books, papers, and documents, under sections 204 and 214 of the Act, as they relate to the functions of the Board.

(5) Performing as much of the functions specified in section 12 of the Shipping Act, 1916, as amended, as the same relate to the functions of the Board under paragraphs (k) (1) through (4) of this section.

(i) The Bureau of Transportation Statistics. Is responsible for:

(1) Compiling, analyzing, and publishing a comprehensive set of transportation statistics to provide timely summaries and total (including industrywide aggregates and multiyear averages) of transportation-related information;

(2) Establishing and implementing, in cooperation with the modal administrators, the States, and other Federal officials, a comprehensive, long-term program for the collection and analysis of data relating to the performance of the national transportation system;

(3) Issuing guidelines for the collection of information by the Department required for statistics to be compiled pursuant to 49 U.S.C. 111(c)(1) in order to ensure that such information is accurate, reliable, relevant, and in a form that permits systematic analysis;

(4) Coordinating the collection of information by the Department required for statistics to be compiled pursuant to 49 U.S.C. 111(c)(1) with related information-gathering activities conducted by the other Federal departments and agencies collecting appropriate data not elsewhere gathered;

(5) Making the statistics published under this subsection readily accessible, in compliance with all disclosure laws, regulations, and requirements; and

(6) Identifying information that is needed in accordance with 49 U.S.C. 111(c)(1) but which is not being collected, reviewing such needs at least annually with the Advisory Council on Transportation Statistics, and making recommendations to appropriate Department of Transportation research officials concerning extramural and intramural research programs to provide such information.

Subpart B—Office of the Secretary

§ 1.21 Purpose.

This subpart establishes the basic organizational structure, spheres of primary responsibility, and lines of authority in the Office of the Secretary. It also describes the relationships between the Office of the Secretary and the operating administrations, and provides for succession to the position of Secretary in case of need.

§ 1.22 Structure.

(a) Secretary and Deputy Secretary. The Secretary and Deputy Secretary are assisted by the following, all of which report directly to the Secretary: The Associate Deputy Secretary and
§ 1.23 Spheres of primary responsibility.

(a) Secretary and Deputy Secretary. Overall planning, direction, and control of departmental affairs including civil rights, contract appeals, small and disadvantaged business participation in departmental programs, transportation research and technology, intelligence and security, and public affairs.

(b) Assistant Deputy Secretary and Director, Office of Intermodalism. Assists the Secretary and Deputy Secretary in carrying out a variety of executive and managerial policies, programs and initiatives. Focal point within the Federal Government for coordination of intermodal transportation policy which brings together departmental perspectives, advocates intermodal interests, and provides secretarial leadership and visibility on issues that involve or affect more than one operating administration.

(c) General Counsel. Legal services as the chief legal officer of the Department, legal advisor to the Secretary and the Office of the Secretary; final authority within the Department on questions of law; professional supervision, including coordination and review, over the legal work of the legal offices of the Department; drafting of legislation and review of legal aspects of legislative matters; point of coordination for the Office of the Secretary and Department Regulations Council; advice on questions of international law; exercise of functions, powers, and duties as Judge Advocate General under the Uniform Code of Military Justice (Chapter 47 of Title 10, U.S.C.) with respect to the United States Coast Guard; advice and assistance with respect to uniform time matters; ensures uniform departmental implementation of the Freedom of Information Act (5 U.S.C. 552); responds to requests for records of the Office of the Secretary.
including the Office of the Inspector General, under that statute; review and final action on applications for reconsideration of initial decisions not to disclose unclassified records of the Office of the Secretary requested under 5 U.S.C. 552(a)(3); promotion and coordination of efficient use of Departmental legal resources; recommendation, in conjunction with the Assistant Secretary for Administration, of legal career development programs within the Department; review and final action on applications for correction of military records of the United States Coast Guard.

(d) Assistant Secretary for Transportation Policy. Principal policy advisor to the Secretary and the Deputy Secretary. Public policy development, coordination, and evaluation for all aspects of transportation, with the goal of making the Nation's transportation resources function as an integrated national system; evaluation of private transportation sector operating and economic issues; evaluation of public transportation sector operating and economic issues; regulatory and legislative initiatives and review; energy, environmental, disability, and safety policy and program development and review; and transportation infrastructure assessment and review.

(e) Assistant Secretary for Aviation and International Affairs. Public policy assessment and review; private sector evaluation; international transportation and transport-related trade policy and issues; regulatory and legislative initiatives and review of maritime/shipbuilding policies and programs; transport-related trade promotion; coordination of land transport relations with Canada and Mexico; technical assistance and science and technology cooperation; international visitors' programs; economic regulation of the airline industry; and essential air service program.

(f) Assistant Secretary for Budget and Programs. Preparation, review and presentation of Department budget estimates; liaison with OMB and Congressional Budget and Appropriations Committees; departmental financial plans, apportionments, reapportionments, reprogramming, and allotments; program and systems evaluation and analysis; program evaluation criteria; program resource plans; analysis and review of legislative proposals and one-time reports and studies required by the Congress; budgetary and selected administrative matters relating to the Immediate Office of the Secretary.

(g) Assistant Secretary for Governmental Affairs. Coordination of legislative and non-legislative relationships; congressional affairs; communications and coordination with Federal, State and local governments, industry and labor, and with citizens and organizations representing consumers.

(h) Assistant Secretary for Administration. Organization; delegations of authority; personnel ceiling control; management studies; personnel management; acquisition and grant management (except for the responsibility listed for the Office of Small and Disadvantaged Business Utilization in this section); information resource management; financial management; development and implementation of a Departmental Accounting and Financial Information System (DAFIS); property management information; security; computer support; telecommunications; and administrative support services for the Office of the Secretary and certain other components of the Department.

(i) Inspector General. Conduct, supervise, and coordinate audits and investigations, review existing and proposed legislation and make recommendations to the Secretary and Congress (semiannual reports) concerning their impact on the economy and efficiency of program administration, or the prevention and detection of fraud and abuse; recommend policies for and conduct, supervise, or coordinate other activities of the Department for the purpose of promoting economy and efficiency in program administration, or preventing and detecting fraud and abuse.

(j) Executive Secretary. Central facilitative staff for the Immediate Office of the Secretary and the Secretarial Officers.

(k) Board of Contract Appeals. Conducts trials and issues final decisions, which are appealable to the United States Court of Appeals for the Federal Circuit, on appeals from contracting officer decisions under contracts
§ 1.24 Authority.

(a) The Deputy Secretary may exercise the authority of the Secretary, except where specifically limited by law, order, regulation, or instructions of the Secretary.

(b) Acting in his or her own name and title, each Assistant Secretary, the Inspector General, or the General Counsel, within his or her sphere of responsibility, is authorized to identify and define the requirements for, and to recommend to the Secretary, new or revised Departmental policies, plans, and proposals. Each of these officers is authorized to issue Departmental standards, criteria, systems and procedures that are consistent with applicable laws, Executive Orders, Government-wide regulations and policies established by the Secretary, and to inspect, review, and evaluate Departmental program performance and effectiveness and advise the Secretary regarding the adequacy thereof.

(c) Except for nondelegable statutory duties, including those which devolve as a result of succession to act as Secretary of Transportation, each Deputy Assistant Secretary, the Deputy Inspector General, and the Deputy General Counsel is authorized to act for and perform the duties of his or her principal in the absence or disability of the principal and as otherwise directed by the principal.

(d) Inspector General. The Inspector General shall report to and be under
Office of the Secretary of Transportation

§ 1.41 Purpose.

(a) Except as provided in paragraph (b) of this section, this subpart provides for the exercise of the powers and performance of the duties vested in the Secretary of Transportation by law.

(b) There are exceptions to the normal staff role described in paragraph (a) of this section. In selected instances, the Secretary has specifically delegated to Assistant Secretaries authority which they may exercise on the Secretary’s behalf. For example, the Secretary has delegated authority to the Assistant Secretary for Transportation Policy and the Assistant Secretary for Aviation and International Affairs, as appropriate, to decide on most requests to intervene or appear before administrative agencies, subject to the concurrence of the General Counsel. Also, from time to time, activities of an operational character may be delegated to an Assistant Secretary when the nature of the function or its stage of development makes it untimely to effect assignment to an operating administration.

§ 1.25 Relationships.

(a) Normal staff role. Normally, the functions of the Assistant Secretaries are staff and advisory in nature. In performing their functions, the Assistant Secretaries are responsible for continuing liaison and coordination among themselves and with the operating administrations to:

(1) Avoid unnecessary duplication of effort by or in conflict with the performance of similar activities by the operating administrations and the other Assistant Secretaries pursuant to their Secretarial delegations of authority; and

(2) Assure that the views of the operating administrations are considered in developing Departmental policies, plans, and proposals.

The Assistant Secretaries are also available to assist, as appropriate, the operating administrations in implementing Departmental policy and programs. As primary staff advisors to the Secretary, the Assistant Secretaries are concerned with transportation matters of the broadest scope, including modal, intermodal, and other matters of Secretarial interest.

(b) Exceptions. There are exceptions to the normal staff role described in paragraph (a) of this section. In selected instances, the Secretary has specifically delegated to Assistant Secretaries authority which they may exercise on the Secretary’s behalf. For example, the Secretary has delegated authority to the Assistant Secretary for Transportation Policy and the Assistant Secretary for Aviation and International Affairs, as appropriate, to decide on most requests to intervene or appear before administrative agencies, subject to the concurrence of the General Counsel. Also, from time to time, activities of an operational character may be delegated to an Assistant Secretary when the nature of the function or its stage of development makes it untimely to effect assignment to an operating administration.

§ 1.26 Secretarial succession.

(a) The following officials, in the order indicated, shall act as Secretary of Transportation, in case of the absence or disability of the Secretary, until the absence or disability ceases, or, in case of a vacancy, until a successor is appointed:

(1) Deputy Secretary.

(2) General Counsel.

(3) Assistant Secretary for Transportation Policy.

(4) Assistant Secretary for Aviation and International Affairs.

(5) Assistant Secretary for Governmental Affairs.

(6) Assistant Secretary for Budget and Programs.

(7) Associate Deputy Secretary.

(8) Federal Aviation Administrator.

(9) Assistant Secretary for Administration.

(b) Without regard to the foregoing, a person directed to perform the duties of the Secretary pursuant to 5 U.S.C. 3347 shall act as Secretary of Transportation.

§ 1.42 Exercise of authority.

In exercising powers and performing duties delegated by this subpart or re-delegated pursuant thereto, officials of the Department of Transportation are governed by applicable laws, Executive orders and regulations and by policies, objectives, plans, standards, procedures, and limitations as may be issued from time to time by or on behalf of the Secretary, or, with respect to matters under their jurisdictions, by or on behalf of the Deputy Secretary, an Assistant Secretary, the Inspector General, the General Counsel, or an Administrator. This includes, wherever specified, the requirement for advance notice to, prior coordination with, or prior approval by an authority other than that of the official proposing to act.

§ 1.43 General limitations and reservations.

(a) All powers and duties that are not delegated by the Secretary in this subpart, or otherwise vested in officials other than the Secretary, are reserved to the Secretary. Except as otherwise provided, the Secretary may exercise powers and duties delegated or assigned to officials other than the Secretary.

(b) Except as provided in §1.42 and subject to paragraph (a) of this section and §1.44, the Deputy Secretary, the Assistant Secretaries, the Inspector General, the General Counsel, and the Administrators exercise the powers and perform the duties delegated to them under this subpart.

(c) Notwithstanding the provisions of paragraph (a), the delegation of authority in §1.56b of this title to the Designated Senior Career Official in the Office of the Assistant Secretary for Aviation and International Affairs to make decisions in certain aviation hearing cases is exclusive, and may not be exercised by any other Department official, including the Secretary. The Secretary reserves (and delegates to the Assistant Secretary for Aviation and International Affairs) only the authority to make discretionary review of any such decision and to approve it or to remand it for reconsideration by the Designated Senior Career Official, with a full written explanation of the basis for the remand.

§ 1.44 Reservation of authority.

The delegations of authority in §§1.45 through 1.53 and §§1.66 and 1.67 do not extend to the following actions, authority for which is reserved to the Secretary or the Secretary’s delegatee within the Office of the Secretary:

(a) General transportation matters. (1) Transportation leadership authority under section 4(a) of the Department of Transportation Act (49 U.S.C. 1653(a)).

(2) Functions relating to transportation activities, plans, and programs under section 4(g) of the Department of Transportation Act (49 U.S.C. 1653(g)).

(3) Authority to develop, prepare, coordinate, transmit, and revise transportation investment standards and criteria under section 7 of the Department of Transportation Act (49 U.S.C. 1656).

(4) Authority relating to standard time zones and advanced (daylight) time (15 U.S.C. 260 et seq.).

(5) Authority related to national transportation policy under section 3 of the Airport and Airway Development Act of 1970 (84 Stat. 219).

(b) Legislation and reports. (1) Submission to the President, the Director of the Office of Management and Budget, or the Congress of proposals or recommendations for legislation, Executive orders, proclamations or reorganization plans or other Presidential action.

(2) Submission to Congress or the President of any report or any proposed transportation policy or investment standards or criteria, except with the prior written approval of the Secretary.

(c) Budget and finance. (1) Approval and submission to the Office of Management and Budget of original or amended budget estimates or requests for allocations of personnel ceiling (31 U.S.C. 22-24).

(2) Approval of requests for legislation which, if enacted, would authorize subsequent appropriations for the Department (31 U.S.C. 581b).

(3) Transfer of the balance of an appropriation from one operating element to another within the Department (31 U.S.C. 581c).

(4) Submission to the Director of the Office of Management and Budget of requests for the transfer of the balance or portions of an appropriation from one element to another within the Department (31 U.S.C. 665).

(d) Interventions and appearances. Except with respect to proceedings relating to safety fitness of an applicant (49 U.S.C. 1653(e)), the making of decisions on requests to intervene or appear before courts and administrative agencies to present the views of the Department.

(e) Personnel. (1) Recommendations to the Civil Service Commission of the allocation of a position to GS-16, 17, or 18 or an equivalent level (5 U.S.C. 5106).

(2) Recommendations to the Civil Service Commission of approval of the qualifications of any candidate for a position at grade GS-16, 17, or 18 or an equivalent level (5 U.S.C. 3324), or to an executive level position.

(3) Recommendations to the Civil Service Commission for a Lump-Sum Incentive Award in Excess of $5,000 (5 U.S.C. 4502).

(4) Approval of the following actions relating to Schedules A, B, and C and noncareer executive assignment positions or incumbents, except for actions under Schedules A and B limited to one year or less at grade GS-9 or lower, or an equivalent level:

(i) Establishment or abolition of positions;

(ii) Hires;

(iii) Promotions other than quality and periodic within-grade promotions;

(iv) Transfer of personnel to Schedule A, B, or C positions or non-career executive assignment positions, either permanently or on detail; and

(v) Transfer of personnel from Schedule A, B, or C or non-career executive assignment positions to career Civil Service positions.

(5) Approval of employment of experts or consultants.

(6) Authority relating to scientific and professional positions under section 6(a) (5) of the Department of Transportation Act (49 U.S.C. 1655(a)(5)).

(7) Authority to determine the maximum limit of age for appointment of air traffic controllers as provided by 5 U.S.C. 3307(b) (86 Stat. 141).

(8) Authority to develop, coordinate, and issue wage schedules under the Federal Wage system, except as delegated to the Commandant of the Coast Guard at § 1.46.

(f) Security. (1) Suspension or removal of an employee from a position in the Department for security reasons under Executive Order 10450 (3 CFR, 1949-53 Comp., p. 936) or the employment in the Department of a person who was previously separated for security reasons from any Federal agency.

(2) Authorizing the filling of a critical-sensitive position for a limited period by a person on whom a preappointment full field investigation has not been completed (Executive Order 10450).

(3) Requesting Presidential approval of a claim of executive privilege with respect to information requested by a congressional committee or Member of Congress.

(4) Making determinations prescribed by sections 4(a)(2)(B), 4(b)(3), 5(b), and 9 of Executive Order 10865 (3 CFR, 1959-63 Comp., p. 398) relating to the adjudication and final denial of access to classified information to industry personnel.

(5) Making those determinations or delegations prescribed by sections 2(B) (3), 5(E) (1) and (2) of Executive Order 11652 (37 FR 5209, March 10, 1972) which are reserved to the head of the Department.

(g) Procurement. Exercise of the extraordinary authority for defense contracts provided for in Public Law 85-304 (50 U.S.C. 1431-1435), and considerations
§ 1.44

and decisions on contract appeals and other matters pursuant to the Department of Transportation Contract Appeals Regulations (41 CFR part 12-60).

(h) Printing. Requesting approval of the Joint Committee on Printing for any procurement or other action requiring Committee approval.

(i) Interagency agreements. Execution of any written interdepartmental or interagency agreement with the head of another executive department or agency.

(j) Withholding of funds. Withholding or suspension of Federal-Aid Highway funds on a state-wide basis and the waiver or compromise of such withholding or suspension, except for the administration of 23 U.S.C. 141 and 154, which are specifically delegated in §1.48(b) (23) and (28) and in §1.50(i) (1) and (2).

(k) Alaska Railroad. Extension or abandonment of railroad service.

(l) National Highway Safety Advisory Committee. Directing the National Highway Safety Advisory Committee to meet (23 U.S.C. 404(c)).

(m) Coast Guard. The following powers relating to the Coast Guard:

1. Appointment of Advisory Committee to the Academy (14 U.S.C. 193).

2. Fixing date for visit to Academy by Board of Visitors (14 U.S.C. 194(b)).

(3)-(4) [Reserved]

5. Responsibility for supervising activities of Reserve components (10 U.S.C. 264(b)).

6. Convening General Courts-Martial under the personal authority granted by law (10 U.S.C. 822(a)(2)).

7. Approval of execution of a sentence dismissing a commissioned officer or cadet (10 U.S.C. 871(b)).

8. Approval of vacation of a suspension of dismissal (10 U.S.C. 872(b)).

9. Establishing procedures for the correction of military records (10 U.S.C. 1552(a)).

10. Establishing a Discharge Review Board under 10 U.S.C. 1553 and reviewing and taking final action on its findings in the following cases:

(i) Those cases in which a minority of the Board requests that their written opinion be forwarded to the Secretary for consideration;

(ii) Those cases selected by the Commandant to inform the Secretary of aspects of the Board's functions which may be of interest to the Secretary;

(iii) Any case in which the Secretary demonstrates an interest; and

(iv) Any case which the president of the Board believes is of significant interest to the Secretary.

11. [Reserved]

12. Substitute administrative discharge for dismissal of an officer under 10 U.S.C. 804 (a) and (b).

14. In time of war certify cases to President to extend statute of limitations until after termination of hostilities. (10 U.S.C. 843(e)).

16. Designate officers authorized to remit or suspend any part of amount of unexecuted part of any sentence. (10 U.S.C. 874(a)).

17. Substitute administrative form of discharge for discharge or dismissal executed in accordance with sentence of court-martial (10 U.S.C. 874(b)).

18. Substitute administrative discharge for previously executed sentence of dismissal when dismissal not imposed at new trial. (10 U.S.C. 875(c)).

19. Designate persons to convene courts of inquiry. (10 U.S.C. 935(a)).

(n) Automatic data processing. Approval authority relating to automatic data processing equipment and services as delimited by DOT D-1370.2A, Procurement of Automatic Data Processing Equipment and Services, of 7.22.70.

(o) Deepwater ports. The authority to issue, transfer, or amend a license for the construction and operation of a deepwater port (33 U.S.C. 1503(b)).

(p) [Reserved]

(q) Review and finality of actions by Maritime Subsidy Board. (1) Review of any decision, report, and/or order of the Maritime Subsidy Board, as described in 46 CFR part 202, as amended.

(r) Approval of cash purchases of passenger transportation. The authority under FPMR G-72, as amended, to authorize and approve cash purchases for
§ 1.45 Delegations to all Administrators.

(a) Except as prescribed by the Secretary of Transportation, each Administrator is authorized to:

(1) Exercise the authority of the Secretary over and with respect to any personnel within their respective organizations.

(2) Exercise the authority of the Secretary as executive head of a department, under any statute, Executive order or regulation.

(3) Request the Attorney General to approve the award, compromise, or settlement of any tort claim for an amount exceeding $100,000 (excluding interest) (28 U.S.C. 2672).

(4) Carry out the functions vested in the Secretary concerning environmental enhancement by 49 U.S.C. 303.

(5) Carry out the emergency preparedness functions assigned to the Secretary by Executive Order 12656 and by the Federal Emergency Management Agency, General Services Administration (FEMA/GSA) as they pertain to his administration, including those relating to continuity of operations, emergency resource management, associated Federal claimant procedures, facilities protection and warfare effects monitoring and reporting, research, stockpiling, financial aid, and training.

(6) Enter into inter- and intradepartmental reimbursable agreements other than with the head of another department or agency (31 U.S.C. 686). This authority may be redelegated only to Office Directors, Regional Directors, District Commanders, or other comparable levels and to those individuals that report to the above officials.

(7) Determine the existence and amount of indebtedness and the method of collecting repayments from employees and members within their respective administrations and collect repayments accordingly, as provided by 5 U.S.C. 591a. This authority may be made only to the principal officials responsible for financial management or such officials' principal assistants.

(8) Waive claims and make refunds in connection with claims of the United States for erroneous payment of pay and allowances or of travel, transportation, and relocation expenses and allowances in amounts aggregating not more than $1,500 without regard to any repayments, and deny requests for waiver of such claims regardless of the aggregate amount of the claim, as provided by 4 CFR parts 91, 92, and 93. This authority may be made only to the level of Regional Director or District Commander.

(9) Settle and pay claims by employees for personal property losses as provided by 31 U.S.C. 3721. This authority may be redelegated only to Office Directors, Regional Directors, District Commanders, or other comparable levels and to those individuals that report to the above officials.

(10) Exercise the authority of the Secretary to resolve informal allegations of discrimination arising in or relating to their respective organizations through Equal Employment Opportunity counseling or the Alternative Dispute Resolution process and to develop and implement affirmative action and diversity plans within their respective organizations. With regard to external civil rights programs, each Administrator exercises authority pursuant to statutes, regulations, executive orders, or delegations in subpart C of this part to carry out these programs, under the general policy guidance of the Director of the Departmental Office of Civil Rights, including conducting compliance reviews and other activities relating to the enforcement of these statutes, regulations, and executive orders.

(11) Review and approve for payment any voucher for $25 or less the authority for payment of which is questioned by a certifying or disbursing officer.

(12) Authorize and approve official non-foreign travel and transportation for themselves, their subordinates, and others performing services for, or in cooperation with, their operating administrations. Additionally, heads of operating administrations, through a redelegation from the Deputy Secretary,
may authorize and approve routine operational foreign travel, as defined in DOT 1500.6A, Travel Manual, of 1-2-85. These authorities may be redelegated in accordance with regulations issued by the Assistant Secretary for Administration.

(13) Exercise the authority of the Secretary to make certifications, findings and determinations under the Regulatory Flexibility Act (Pub. L. 96-354) with regard to any rulemaking document for which issuance authority is delegated by other sections in this part. This authority may be redelegated to those officials to whom document issuance authority has been delegated.

(15) Compromise, suspend collection action on, or terminate claims of the United States not exceeding $100,000 (excluding interest) that are referred to, or arise out of the activities of, his or her Operating Administration; provided that whenever he or she settles any administrative claim against the United States presents a novel question of law or of policy, he or she shall obtain the advice of the Assistant Attorney General in charge of the Civil Division; and provided further that whenever he or she settles any administrative claim against the United States for an amount in excess of $50,000, the Administrator shall prepare a memorandum fully explaining the basis for the action taken and send a copy of the memorandum to the Director, Federal Torts Claims Act Staff, Torts Branch of the Civil Division, U.S. Department of Justice.

(16) Compromise, suspend collection action on, or terminate claims against the United States not exceeding $100,000 (excluding interest) that are referred to, or arise out of the activities of, his or her Operating Administration; provided that when the Administrator believes that a claim against the United States presents a novel question of law or of policy, he or she shall obtain the advice of the Assistant Attorney General in charge of the Civil Division; and provided further that whenever he or she settles any administrative claim against the United States for an amount in excess of $50,000, the Administrator shall prepare a memorandum fully explaining the basis for the action taken and send a copy of the memorandum to the Director, Federal Torts Claims Act Staff, Torts Branch of the Civil Division, U.S. Department of Justice.

(17) Enter into memoranda of understanding with the Occupational Safety and Health Administration (OSHA) in regard to setting and enforcing occupational safety or health standards for employees in DOT-regulated industries. The General Counsel shall concur in each memorandum of understanding with OSHA prior to its execution by the Administrator of the operating administration concerned.

(b) Except as otherwise specifically provided, each official to whom authority is granted by §§ 1.45 through 1.53, 1.66, and 1.68 may redelegate and authorize successive redelegations of that authority within the organization under that official’s jurisdiction.

(c) Except as provided in §§ 1.48 and 1.59 and 49 CFR 25.302, the functions, powers, and duties of the Secretary of Transportation, with respect to the Uniform Relocation Assistance and Real Property Acquisition Act of 1970, Public Law 91-646; 84 Stat. 1984, are delegated to:

(1) The head of each of the following Operating Administrations with respect to programs administered by their respective organizations:

(i) U.S. Coast Guard;

(ii) Federal Aviation Administration;

(iii) Federal Highway Administration;

(iv) Federal Railroad Administration;

(v) Urban Mass Transportation Administration;

(vi) National Highway Traffic Safety Administration;

(vii) St. Lawrence Seaway Development Corporation; and

(viii) Maritime Administration.

(2) [Reserved]

(d) Each office to whom authority is delegated by either § 1.45(c) or § 1.59(p)
may redelegate and authorize successive redelegations of that authority within the organization under the Administrators’ or Assistant Secretary for Administration’s jurisdiction.

(e) Each office to whom authority is delegated by either § 1.45(c) or § 1.59(p) may prescribe additional procedures, requirements and regulations that are appropriate to the particular programs administered by the preparing official’s organization, provided:

(1) Any such additional guidance is not inconsistent with the Act, 49 CFR part 25 or subpart C of this manual;

(2) Any such additional guidance is approved prior to issuance by the Federal government’s designated lead agency, the Federal Highway Administration (see § 1.48(cc)), in coordination with the Assistant Secretary for Transportation Policy.

[Amdt. 1–113, 40 FR 43901, Sept. 24, 1975]

EDITORIAL NOTE: For Federal Register citations affecting § 1.45, see the List of CFR Sections Affected in the Finding Aids section of this volume.

§ 1.46 Delegations to Commandant of the Coast Guard.

The Commandant of the Coast Guard is delegated authority to:

(a) [Reserved]

(b) Carry out all the activities of the Coast Guard, including, but not limited to, law enforcement, safety of life and property at sea (excluding 46 U.S.C. 170 (7), (10) and (11)), aids to navigation, search and rescue, icebreaking, oceanographic research and military readiness functions (49 U.S.C. 1655(b)(1)).

(c) Carry out the following laws relating generally to water vessel anchorage, drawbridge operating regulations, obstructive bridges, pollution of the sea by oil and the locations and clearances of bridges and causeways over the navigable waters of the United States:

(1) Section 7 of the Act of March 4, 1915, as amended (38 Stat. 1053; 33 U.S.C. 471);

(2) Section 5 of the Act of August 18, 1894, as amended (28 Stat. 362; 33 U.S.C. 499);

(4) The Oil Pollution Act, 1961, as amended (75 Stat. 402; 33 U.S.C. 1001 et seq.);

(5) Sections 9 and 18 of the Act of March 3, 1899, as amended (30 Stat. 1151; 33 U.S.C. 401, 502);

(7) The General Bridge Act of 1946, as amended (60 Stat. 847, 33 U.S.C. 525 et seq.) except sections 502(c) and 503.

(d) Carry out the functions vested in the Secretary by the Vessel Documentation Act (94 Stat. 3453, 46 U.S.C. 65a et seq.) and the Tonnage Measurement Simplification Act (94 Stat. 3461, 46 U.S.C. 71 et seq.), and the functions assigned to the Secretary by Executive Order 12419 relating to admeasurement of ships; and carry out Reorganization Plan No. 1 of 1967, relating to ship mortgages.

(e) Request the Secretary of the Navy to build at naval shipyards Coast Guard vessels not normally or economically obtainable from private contractors (14 U.S.C. 145(a)(1)).

(f) Administer Executive Order 11459 (34 FR 5057), relating to approval of containers for transport under Customs seal.

(g) Exchange information, through the Secretary of State, with foreign governments on matters dealing with the safety of life and property at sea, other than radio communications, but not including the submission of suggestions to the Secretary of State on international collaboration and conferences (14 U.S.C. 142).

(h) Exchange personnel, vessels, facilities, and equipment with the Secretary of the Navy to facilitate operational readiness for wartime service with the Navy, and agree to undertake such assignments and functions for the mutual benefit of the Navy and Coast Guard as are necessary and advisable, except with respect to those exchanges and agreements which, in the Commandant’s judgment, may have substantial political impact or adversely affect mission performance (14 U.S.C. 145(c)).
§ 1.46

49 CFR Subtitle A (10-1-98 Edition)

(i) Approve retention of a rear admiral on active duty for a period not exceeding one year (14 U.S.C. 290(b)).

(j) Through the Chief Counsel, U.S. Coast Guard, settle and pay claims against the United States as provided by 10 U.S.C. 2733.

(k) Award life-saving medals and military decorations (except the Medal of Honor, the Distinguished Service Medal, and the Legion of Merit) and carry out the laws and Executive orders relating to those awards (14 U.S.C. 492a, 493, 494, 496, 497, 498, 500, 501, 502; Executive Order 4601, Mar. 1, 1926, as amended by Executive Order 7786 (3 FR 39); Executive Order 9158 (7 FR 3941); Executive Order 10637 (20 FR 7025); Executive Order 11046 (27 FR 8575); Executive Order 11448 (34 FR 915)).

(l) Carry out the functions vested in the Secretary by sections 104(i), 104(j), 311(b), 311(j) (2) and (3), 311(m)(2), 312, and 402(b)(6) of the Federal Water Pollution Control Act (33 U.S.C. 1321), as amended by the Oil Pollution Act of 1990 (August 18, 1990; Pub L. 101-380; 104 Stat. 484), and sections 4202(b) (2) and (3) of the Oil Pollution Act of 1990.

(m) Carry out the functions assigned to the Secretary by Executive Order 12777 (3 CFR, 1991 Comp.; 56 FR 54757) in sections 1(b), 2(a), 2(b)(2), 2(c), 2(d)(2), 2(e)(2), 2(f), 2(g)(2), 3, 3(a)(2), 3(b)(1) and (2), 6, 7(a) (1) and (3), 7(b), 7(c), 7(d), 8(d), 8(f), 8(g), 8(h), 9, and 10(c), excepting that portion of section 2(b)(2) relating to the establishment of procedures, methods, and equipment and other requirements for equipment to prevent and to contain discharges of oil and hazardous substances from pipelines, motor carriers, and railroads; and further excepting the exercise of the authority in section 2(d)(2) over motor carriers and railroads, other than for operations incident to the transfer of oil or hazardous substances to or from vessels, and the exercise of the authority in section 2(d)(2) over pipelines.

(n) Carry out the functions vested in the Secretary by the following statutes:

(1) Federal Boat Safety Act of 1971 (85 Stat. 213);

(2) Vessel Bridge-to-Bridge Radio-Telephone Act (85 Stat. 164);

(3) Public Law 92-339, relating to the licensing of personnel on certain towing vessels (86 Stat. 423);

(4) Port and Tanker Safety Act of 1978 (92 Stat. 1471), except sections 4, 5, 6, 7, 8, 12 and 13 of Sec. 2 to the extent that those sections pertain to the operation of the St. Lawrence Seaway;

(5) Sections 104(a) (a) and (g), 107(c), 108, 201, and 302(a) of the Marine Protection, Research, and Sanctuaries Act of 1972 (Pub. L. 92-532) relating to ocean dumping;

(6) International Voyage Load Line Act of 1973 (Pub. L. 93-115);

(7) Intervention on the High Seas Act (Pub. L. 93-248) except section 13(a);

(8) Public Law 93-524 (88 Stat. 1694) relating to the licensing of personnel on documented vessels in emergency situations;

(9) Section 304(a)(1) of the Independent Safety Board Act of 1974 (49 U.S.C. 1903(a)(1)) insofar as it relates to the promulgation of joint regulations with the National Transportation Safety Board (NTSB) governing investigations of major marine casualties and casualties involving public and nonpublic vessels, and the conduct of accident investigations upon request of the Board;

(ii) Section 307 of the Independent Safety Board Act of 1974 (49 U.S.C. 1906) insofar as it relates to responses to NTSB recommendations regarding marine casualties;

(10) International Navigational Rules Act of 1977 (Pub. L. 95-75, 91 Stat. 308); and

(11) International Safe Container Act (Pub. L. 95-208, 91 Stat. 1475), except section 4(e);

(12) 14 U.S.C. 195, relating to instruction of foreign nationals at the Coast Guard academy; and

(o) Carry out the functions vested in the Secretary by 14 U.S.C. 475 and Executive Order 11645, 3 CFR 371 (1973), 37 FR 2923, February 10, 1972, relating to the rental of housing facilities at or near Coast Guard installations.
Office of the Secretary of Transportation § 1.46

(p) Carry out the functions vested in the Secretary by Public Law 92-425 and Executive Order 11687 (37 FR 21479), relating to the Retired Serviceman’s Survivor Benefit Plan.

(q) Carry out the functions vested in the Secretary by section 5 of the International Bridge Act of 1972 (Pub. L. 92-434) as it relates to navigable waterways other than the St. Lawrence River.

(r) Carry out the functions vested in the Secretary by 14 U.S.C. 667, relating to schooling and transportation to schools for dependents of Coast Guard personnel.

(s) Carry out the following powers and duties vested in the Secretary by the Deepwater Port Act of 1974, as amended (33 U.S.C. 1501-1524):

1. The authority to process applications for the issuance, transfer or amendment of a license for the construction and operation of a deepwater port (33 U.S.C. 1503(b)) in coordination with the Administrator of the Maritime Administration.

2. Carry out other functions and responsibilities vested in the Secretary by the Deepwater Port Act of 1974, as amended, except as reserved by §1.44(o) and delegated by §§1.53(a)(3) and 1.66(aa).

(t) Carry out the functions vested in the Secretary by 49 App. U.S.C. 1801-1819, and 46 App. U.S.C. 3306(a)(5) to the extent they relate to regulations and exemptions governing the bulk transportation of hazardous materials that are loaded or carried on board a vessel without benefit of containers or labels, and received and handled by the vessel carrier without mark or count, and regulations and exemptions governing ships’ stores and supplies.

(u) Carry out the functions vested in the Secretary by 49 U.S.C. 1808(a), (b), and (c) and 1809 and 1810, relating to investigations, records, inspections, penalties, and specific relief, so far as they apply to the transportation in shipment of hazardous materials by water.

(v) Carry out the functions vested in the Secretary by the Magnuson Fishery Conservation and Management Act (Pub. L. 94-265, as amended; 16 U.S.C. 1801 et seq.) except that the authority to approve seizure of a foreign vessel may not be redelegated and shall be exercised in each instance only after consultation with the Department of State.

(w) Issue wage schedules for trades, crafts, and laboring employees in non-appropriated fund activities.

(x) Carry out the functions vested in the Secretary by 10 U.S.C. 2633 insofar as it relates to the relinquishment to a state of legislative jurisdiction of the United States over lands and interests under the control of the Coast Guard in that state.

(y) Carry out the functions and responsibilities vested in the Secretary by the Natural Gas Pipeline Safety Act of 1968, as amended (49 U.S.C. 1671 et seq.) relating to rulemaking so far as it applies to liquefied natural gas facilities adjacent to the navigable waters of the United States: Provided, That such rulemaking is in accordance with the Memorandum of Understanding between the Coast Guard and Materials Transportation Bureau executed on February 7, 1978, for regulation of such facilities.

(z) Carry out the functions vested in the Secretary by the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.), as amended, title VI of the Outer Continental Shelf Lands Act Amendments of 1978 (September 18, 1978; Pub. L. 95-372; 92 Stat. 629), except as delegated by §1.53(a)(6).

(aa) Carry out the functions vested in the Secretary by the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1714(i)) for lands under the administration of the U.S. Coast Guard.

(bb) Carry out the functions vested in the Secretary by the Act of September 10, 1976 (90 Stat. 1236, 46 U.S.C. 420) relating to the issuance of permits exempting specific cargo-carrying vessels operating within the State of Alaska from all or part of 46 U.S.C. 301, 301a, 301b, and 404 and the regulations issued thereunder.

(dd) Exercise all functions of the General Services Administrator pertaining to the acquisition of special purpose space in urban centers, as defined in 41 CFR 101-18.102, to house U.S.
Coast Guard Recruiting Offices pursuant to the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), as amended, and to acquire such space by firm term leases up to five (5) years in accordance with the authority contained in section 210(h) (1) of the Federal Property and Administrative Services Act of 1949, as amended. Provided, that such authority is exercised in accordance with the Memorandum of Understanding between the Department of Transportation and the General Services Administration executed on January 27, 1981, for implementation of this delegation.

(ee) Carry out all functions vested in the Secretary in any capacity by the Ocean Thermal Energy Conversion Act of 1980 (Pub. L. 96-320, August 3, 1980), except title II.

(ff) Carry out the functions vested in the Secretary by:

(1) Section 108(a)(3) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended (42 U.S.C. 9608(a)(3)), and by sections 7(b)(1), 7(b)(2), and 7(c) (2) of Executive Order 12580 relating to vessel financial responsibility; and

(2) Sections 2(e)(1), 2(e)(2), 2(i), 2(j)(1), 2(j)(2), 2(k), 3(a), 4(b)(1), 4(b)(2), 6(c), 9(d), 9(i), and 11(b)(2) of Executive Order 12580 relating to facilities and vessels under the jurisdiction, custody, or control of the Coast Guard.

(gg) Carry out the functions, relating to releases or threatened releases involving the coastal zone, Great Lakes waters, and ports and harbors, vested in the Secretary by sections 2(f), 2(i), 2(j)(1), 2(k), 4(c)(1), 4(c)(2), 5(b), 6(c), 9(d), 9(i), and 11(b)(2) of Executive Order 12580 insofar as they relate to:

(1) Responses to releases or threats of releases from vessels;

(2) Emergency action concerning releases or threats of releases at facilities other than active or inactive "hazardous waste management facilities" (as defined in 40 CFR 270.2); and

(3) Emergency action concerning releases or threats of releases at active or inactive "hazardous waste management facilities" only when the Coast Guard On-Scene Coordinator determines that such action must be taken pending the arrival on scene of an Environmental Protection Agency (EPA) On-Scene Coordinator (OSC). Unless otherwise agreed upon by the EPA and Coast Guard, this authority will not be exercised unless the EPA OSC is scheduled to arrive on scene within 48 hours of notification of the release or threat of release.

As used in this paragraph "emergency action" includes any removal action which, in the view of the Coast Guard On-Scene Coordinator, must be taken immediately to prevent or mitigate immediate and significant danger to the public health, welfare, or the environment. Situations in which such actions may be taken include, but are not limited to, fire, explosions, and other sudden releases; human, animal, or food chain exposure to acutely toxic substance; and the contamination of a drinking water supply. All functions listed in this paragraph include the authority to contract for, obligate monies for, and otherwise arrange for and coordinate the responses included within such functions.

(hh) Carry out the functions vested in the Secretary by the Act to Prevent Pollution from Ships (October 21, 1980; Pub. L. 96-478; 94 Stat. 2297) except section 10(b) and (c) and except as limited by §1.47(n), §1.52(c), and §1.66(u) of this title.

(ii) Carry out the functions vested in the Secretary by the Deep Seabed Hard Mineral Resources Act (June 21, 1980; Pub. L. 96-283; 94 Stat. 553) except section 118.

(jj) Carry out the functions vested in the Secretary to convene and approve a Coast Guard Reserve Policy Board as provided in 14 U.S.C. 703.

(ll) Carry out the functions vested in the Secretary by sections 1004(d)(2)(C), 1015(b), 1016, 4107(b), 4109, 4110, 4111, 4114(a), 4115(b), 4115(e), 4116(c), 4118, 4203, 5002(c)(4), 5002(i), 5002(k), 5003, 5004, 5005(a)(5), 7001(a), 7001(b)(2) and 7001(c) (6) and (11) of the Oil Pollution Act of
Office of the Secretary of Transportation

§ 1.46

(mm)—(oo) [Reserved]

(pp) Except as specifically reserved in 49 CFR 1.44, carry out the responsibilities of, and exercise the authority of the Secretary contained in the Uniform Code of Military Justice, chapter 47 of title 10 United States Code, and the Manual for Courts-Martial, United States.

(qq) Carry out the functions and exercise the authority vested in the Secretary by 14 U.S.C. 659 relating to providing assistance to film producers and obtaining reimbursement for assistance provided.

(rr) Exercise the authority of the Secretary contained in 10 U.S.C. 1588 to accept voluntary services for a museum or a family support program operated by the Coast Guard; to determine which expenses are eligible for reimbursement; and to provide reimbursement from nonappropriated funds of incidental expenses incurred by persons providing voluntary services as an ombudsman or for a family service center program.

(ss) Carry out the functions and exercise the authority vested in the Secretary by chapter 125, title 46 U.S.C., to establish and maintain a vessel identification system and to charge fees to persons providing information to or requesting information from the system.

(tt) Carry out the functions and exercise the authority vested in the Secretary by chapter 19, title 14 U.S.C., to establish and carry out a program of environmental compliance and restoration at current and former Coast Guard facilities and to expend funds from the Environmental Compliance and Restoration Account.

(uu) Carry out the functions and exercise the authority vested in the Secretary by 46 U.S.C. 2110 to establish, collect, and enforce the fees and charges required by that section.

(vv) Carry out the functions and exercise the authority vested in the Secretary by 46 U.S.C. 8103(b)(3) to waive the citizenship requirements on vessels documented under U.S. law.

(ww) Carry out the functions and exercise the authority vested in the Secretary by 46 U.S.C. 4711 to establish and enforce regulations to prevent the introduction and spread of aquatic nuisance species into the Great Lakes through the ballast water of vessels. This authority may be redelegated.

(xx) Carry out the functions and exercise the authority vested in the Secretary by 33 U.S.C. 1226 to prevent or respond to acts of terrorism and 46 U.S.C. app. 1803, subsections (a) and (b), to assess the state of security standards at foreign ports. This authority may be redelegated.

(yy) Carry out the functions and exercise the authority vested in the Secretary by 42 U.S.C. 7511b(f), concerning tank vessel emissions, to promulgate safety regulations, to consult with the Administrator of the Environmental Protection Agency concerning emission standards, and to enforce compliance of emission standards as determined by such consultation. This authority may be redelegated.

(zz) Carry out the functions and exercise the authority vested in the Secretary by 46 U.S.C. Chapter 47 (abandonment of barges) and §12301(b) (numbering of undocumented barges), as enacted by the Oceans Act of 1992, Title V, section 5301 et seq., Pub. L. No. 102-587, 106 Stat. 5081. This authority may be redelegated.

(aaa) Establish the promotion zone for rear admiral (lower half), provided all captains eligible for consideration under the provisions of section 257(a)(5), Title 14, U.S. Code, are placed in the zone.

(bbb) Remove an officer from active duty under section 326, Title 14, U.S. Code.

(ccc) Carry out the functions and exercise the authority vested in the Secretary by 46 U.S. Code Chapter 45 (uninspected commercial fishing industry vessels), as enacted by the Commercial Fishing Industry Vessel Safety Act of 1988, as amended, Title 46, 4501 et seq., Pub. L. No. 100-424, 102 Stat. 1585. This authority may be redelegated.

(ddd) Carry out the functions and exercise the authority vested in the Secretary by 46 U.S. Code Chapter 33 pertaining to the delegation of authority to classification societies to review and approve commercial vessel plans and examinations, as enacted by the Coast Guard Authorization Act of 1996.
§ 1.47 Delegations to Federal Aviation Administrator.

The Federal Aviation Administrator is delegated authority to:

(a) Carry out the powers and duties transferred to the Secretary of Transportation by, or subsequently vested in the Secretary by virtue of, section 60(c)(1) of the Department of Transportation Act (49 U.S.C. 1659(c)(1)), including those pertaining to aviation safety (except those related to transportation, packaging, marking, or description of hazardous materials) and vested in the Secretary by section 308(b) of title 49 U.S.C., and sections 306-309, 312-314, 1101, 1105, and 1111 and titles VI, VII, IX (excluding section 902(h)), and XII of the Federal Aviation Act of 1958, as amended.

(b) Carry out title XIII of the Federal Aviation Act of 1958, as amended (72 Stat. 800; 49 U.S.C. 1531 et seq.), relating to aviation insurance.
(c) Carry out the functions vested in the Secretary by the Act of September 7, 1957 (71 Stat. 629; 49 U.S.C. 1324 note), as amended by section 6(a)(3)(B) of the Department of Transportation Act, relating to the guarantee of aircraft purchase loans, and those functions which relate to the issuance of obligations to finance the expenses of such guarantees.

(d) Administer Executive Orders 11419 and 11322 relating to prohibited aviation operations and the prohibited carriage of commodities and products to and from Southern Rhodesia. Carry out the functions vested in the Secretary by Executive Order 12183.

(e) Provide certain facilities and services to FAA employees and their dependents at remote locations (49 U.S.C. 1659).

(f) Carry out the functions vested in the Secretary by:
   (2) Sections 208 and 209 of the Airport and Airway Revenue Act of 1970, as amended (49 U.S.C. 1742, 1742 note); and
   (3) Sections 21, 22, 23(b), 24, and 25 of the Airport and Airway Development Act Amendments of 1976 (49 U.S.C. 1346(a), 1348 note, 1713 note, 1356a, 1704).

(g) Carry out the functions vested in the Secretary by part B of title II of the Clean Air Act, as amended (84 Stat. 1703), and by 40 CFR part 87 as it relates to exemptions from aircraft air pollution standards.

(h) Carry out the functions of the Secretary under section 208 of the Appalachian Regional Development Act of 1965 (85 Stat. 168; 40 U.S.C. App. 208).

(i) Carry out the functions vested in the Secretary by section 902(h)(2) of the Federal Aviation Act of 1958, as amended, as it relates to enforcement of hazardous materials regulations as they apply to the transportation or shipment of such materials by air.

(j) Carry out the functions vested in the Secretary by 49 U.S.C. 1807 as it relates to the establishment of procedures for monitoring and enforcing provisions of regulations with respect to the transportation of radioactive materials on passenger-carrying aircraft.

(k) Carry out the functions vested in the Secretary by 49 App. U.S.C. 1808 (a), (b), and (c), 1809 and 1810 relating to investigations, records, inspections, penalties and specific relief so far as they apply to the transportation or shipment of hazardous materials by air, including the manufacture, fabrication, marking, maintenance, reconditioning, repair, or test of containers which are represented, marked, certified, or sold for use in the bulk transportation of hazardous materials by air.

(l) Serve, or designate a representative to serve, as Vice Chairman and alternate Department of Transportation member of the Interagency Group on International Aviation (IGIA) pursuant to interagency agreement of December 9, 1960, and Executive Order 11382, and provide for the administrative operation of the IGIA Secretariat.

(m) Carry out the functions vested in the Secretary by sections 4(a) and 5(c) of Executive Order 12316 of August 14, 1981 (46 FR 42237, Aug. 20, 1981) (delegating sections 107(c)(1)(c) and 108(b), respectively, of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, Pub. L. 96-510), insofar as they relate to aircraft.

(n) Carry out the functions vested in the Secretary by section 3(d) of the Act to Prevent Pollution from Ships (33 U.S.C. 1902(d)) as it relates to ships owned or operated by the Federal Aviation Administration when engaged in noncommercial service.

(o) [Reserved]

(p) Carry out the functions vested in the Secretary by:
   (1) Section 553(b) of Public Law 99-83 (99 Stat. 226), which relates to the authority of Federal Air Marshals to carry firearms and make arrests in coordination with the General Counsel; and
   (2) The following subsections of section 1115 of the Federal Aviation Act of 1958, as amended, which relates to the security of foreign airports: Subsection 1115(a), in coordination with the General Counsel and the Assistant Secretary for Aviation and International Affairs; subsection 1115(b), in coordination with the Assistant Secretary for Aviation and International Affairs; and subsection 1115(e)(2)(A)(ii), in coordination with the General Counsel and the...
§ 1.48 Delegations to Federal Highway Administrator.

The Federal Highway Administrator is delegated authority to:

(a) Investigate and report on the safety compliance records of applicants seeking operating authority, or approval of transactions involving transfer of operating authority, from the Interstate Commerce Commission, and to intervene and present evidence concerning applicants’ fitness in Commission proceedings under 49 U.S.C. 307, so far as it relates to motor carriers.

(b) Administer the following sections of title 23, U.S.C.:

1. 103(a); and
2. 103(b), (c), (d), and (e), except as they involve mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
3. 104, except as it involves the substitution of non-highway public mass transit projects authorized by sections(e)(4);
4. 105, except as subsections (a) and (g) involve mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
5. 106, except subsections (a), (c), and (d) as they involve mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
6. 107;
7. 108, except as it involves mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
8. 109, except subsections (a), (g), and (h) as they involve mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
9. 110, except as it involves mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
10. 111;
11. 112, 113, 114, except as they involve transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
12. 115;
13. 116, except subsections (a) and (c) as they involve mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
14. 117, except as it involves mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
15. 118, 119, 120;
16. 121 and 122, except as they involve mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c).
Office of the Secretary of Transportation § 1.48

(17) 123;
(18) 124, except as it involves mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
(19) 125, 126, and 127;
(20) 128, except as it involves mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
(21) 129, 130, 131, 132, 134, 135, 136, 137, 138, and 139;
(22) 140, except paragraph (a) of this section, as it involved mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
(23) 141, with the concurrence of the National Highway Traffic Safety Administrator as it relates to certification of the enforcement of speed limits;
(24) 142, except as it involves mass transportation projects authorized by subsections (a)(2) and (c) and by 103(e)(4);
(25) 143 and 144;
(26) 145, except as it involves mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
(27) 146 through 152 and 155 through 157, inclusive;
(28) 154 and 158 each with the concurrence of the National Highway Traffic Safety Administrator;
(29) 201 through 205, 210, 212, 214 through 218, (Chapter 2);
(30) 301, 302, and 303;
(31) 304, 305, 306, except as they involve mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
(32) 307 through 314 inclusive;
(33) 315 and 317, except as they involve mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c);
(34) 318 through 321 inclusive; and
(35) 323 and 324, except as they involve mass transportation projects authorized by sections 103(e)(4), 142(a)(2), or 142(c).

(c) Administer the following laws relating generally to highways:
(1) Sections 102, 107(c) through (e), 123(a) and (b), 124(c), 126(d) through (g), 138(c), 140, 142 through 145, 147 through 154, 167, and 171, and title IV, as amended (as it relates to matters within the primary responsibility of the Federal Highway Administrator), of the Surface Transportation Assistance Act of 1978, Public Law 95–599, 92 Stat. 2689; and sections 502–504, title V, of the Highway Revenue Act of 1978.
(4) The Federal-Aid Highway Act of 1968, as amended (82 Stat. 815);
(5) The Federal-Aid Highway Act of 1966, as amended (80 Stat. 766);
(7) The Federal-Aid Highway Act of 1956, as amended (70 Stat. 374);
(8) The Federal-Aid Highway Act of 1954, as amended (68 Stat. 70);
(9) The Act of September 26, 1961, as amended (75 Stat. 670);
(10) The Highway Revenue Act of 1956, as amended (70 Stat. 387, 23 U.S.C. 120 note);
(14) Section 502(c) of the General Bridge Act of 1946, as amended (60 Stat. 847, 33 U.S.C. 525(c));
(15) The Act of April 27, 1962 (76 Stat. 59);
(16) Reorganization Plan No. 7 of 1949 (63 Stat. 1070); and
(17) Sections 102(b) (except subparagraph (2)) and (c); 105(b)(1) and (c); 141; 146; 147; and 152 of the Federal-Aid Highway Act of 1976 (Pub. L. 94–280, 90 Stat. 425).

(1) Except sections 165 and 531 as they relate to matters within the primary...
§ 1.48

Responsibility of the Urban Mass Transportation Administrator; 105(f), 413, 414(b)(1) and (2); 421, 426, and title III; and

(ii) Section 414(b)(3), with the concurrence of the National Highway Traffic Safety Administrator.

(20) Sections 103(e), 105(a) through (g), 106(a), and (b), 110(b), 114(d), 117(f), 129(c) and (d), 123(g) and (i), 133(f), 134, 136, 137, 139 through 145, 146(b), 147(c), 148(a) through (f), (h), (i), (k), 151 through 157, 164, and 208 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Pub. L. 100-17, 101 Stat. 132).

(d) Carry out the functions vested in the Secretary of Transportation by section 601 of the Pipeline Safety Act of 1992, Public Law 102-508, relating to construction of the Page Avenue Extension Project in Missouri.

(e) Carry out 49 U.S.C. 3103 relating generally to investigation of the need for regulation of sizes, weights, and combinations of motor vehicles and qualifications and maximum hours of service of employees of motor carriers and motor private carriers.

(f) Carry out 49 U.S.C. 3102 relating generally to qualifications and maximum hours of service of employees of motor carriers and motor private carriers.

(g) Carry out 49 U.S.C. 503 and 3104 relating generally to service of process, designation of agents to receive service of process, and identification of interstate motor vehicles so far as they pertain to motor private carriers of property and motor carriers of migrant workers (except motor contract carriers).

(h) Carry out the functions and exercise the authority vested in the Secretary by 49 U.S.C., Subtitle IV, Part B:

(1) Chapter 131;
(2) Chapter 133;
(3) Chapter 135;
(4) Chapter 137, sections 13702(a), 13702(c)(1), 13702(c)(2), 13702(c)(3), 13704, 13707, and 13708;
(5) Chapter 139;
(6) Chapter 141, Subchapter I and sections 14121 and 14122 of Subchapter II;
(7) Chapter 143, sections 14501, 14502, and 14504;
(8) Chapter 147, sections 14701 through 14708; and
(9) Chapter 149, sections 14901 through 14913.

(i) Carry out the functions and exercise the authority vested in the Secretary by sections 104, 403(a), and 408 of the ICC Termination Act of 1995, Pub. L. 104-88, relating to miscellaneous motor carrier provisions, railroad-highway grade crossing regulation and fatigue-related issues pertaining to commercial motor vehicle safety.

(j) Carry out the functions of the Secretary under the Appalachian Regional Development Act of 1965 (79 Stat. 5; 40 U.S.C. App.) except section 208.

(k) Initiate proceedings as a complainant under 49 U.S.C. 10925 to revoke, suspend or amend the certificates, permits or licenses of a motor carrier.

(l) Carry out the Act of September 21, 1966, Public Law 89-599, relating to certain approvals concerned with a compact between the States of Missouri and Kansas.

(m) Carry out the law relating to the Chamizal border highway (80 Stat. 1477).

(o) Exercise the authority vested in the Secretary by section 204(b) of the Federal Railroad Safety Act of 1970 (84 Stat. 972, 45 U.S.C. 433(b)) with respect to the laws administered by the Federal Highway Administrator pertaining to highway safety and highway construction.

(p) Carry out the functions vested in the Secretary provided by 42 U.S.C. 4917 relating to procedures for the inspection, surveillance and measurement of commercial motor vehicles for compliance with interstate motor carrier noise emission standards and related enforcement activities including the promulgation of necessary regulations.
(q) Carry out the functions vested in the Secretary by section 5 (as it relates to bridges, other than railroad bridges, not over navigable waters), and section 8(a) (as it relates to all bridges other than railroad bridges) of the International Bridge Act of 1972 (Pub. L. 92-434, 86 Stat. 731).

(r) Carry out the functions vested in the Secretary by the following sections of the Urban Mass Transportation Act of 1964 as amended (78 Stat. 302, 49 U.S.C. 1608(c)(1)):
(1) Sections 3(a)(3), 3(e)(1), 5(g)(1), and 8 as they relate to urban planning (49 U.S.C. 1602(a)(3) and (e)(1), 1603(a), and 1604(g)(1)); and 1604(i)).

(2) Section 12(c)(11) relating to approval of boundaries of urbanized areas (49 U.S.C. 1608(c)(11));

(3) Section 18 as it relates to the formula grant program for non-urbanized areas in the Commonwealth of Puerto Rico.

(s) Exercise the authority vested in the Secretary by sections 101, 118, 120(b), and 124 of the Federal-Aid Highway Amendments of 1974 (Pub. L. 93-643, January 4, 1975, 88 Stat. 2281).

(t) [Reserved]

(u)(1) Carry out the functions vested in the Secretary by 49 App. U.S.C. 1808 (a), (b), and (c), 1809, and 1810 relating to investigations, records, inspections, penalties, and specific relief so far as they apply to the transportation or shipment of hazardous materials by highway, including the manufacture, fabrication, marking, maintenance, reconditioning, repair or test of containers which are represented, marked, certified, or sold for use in the bulk transportation of hazardous materials by highway.

(2) Carry out the functions vested in the Secretary by 49 App. U.S.C. 1804 (b) and (c); 1805(d), except paragraph (3) (49 App. U.S.C. 1805(d)(3)); 1811 relating to highway routing, except for pending applications for inconsistency rulings and nonpreemption determinations; 1813(d); and 1819.

(x) Carry out the functions vested in the Secretary by sections 4(a) and 5(c) of Executive Order 12316 of August 14, 1981 (46 FR 42237, August 20, 1981) (delegating sections 107(c)(1)(C) and 108(b), respectively, of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, Public Law 96-510, 94 Stat. 2781), insofar as they relate to motor carriers.

(y) Carry out the functions vested in the Secretary by section 118 of the National Visitor Center Facilities Act of 1968 (Pub. L. 90-264, 82 Stat. 43), as added by the Union Station Redevelopment Act of 1981 (Pub. L. 97-125; 95 Stat. 1672), with respect to the completion of the parking facility and associated ramps at Union Station in Washington, DC (40 U.S.C. 818).

(bb) Carry out the functions vested in the Secretary by Public Law 98-229, 98 Stat. 55, insofar as it relates to apportioning certain funds for construction of the Interstate Highway System in Fiscal Year 1985, apportioning certain funds for Interstate substitute highway projects, and increasing amounts available for emergency highway relief.

(cc) Prescribe regulations, as necessary, at parts 24 and 25 of this title, to implement Public Law 91-646, 84 Stat. 1894, and any amendments thereto, as appropriate, in coordination with the Assistant Secretary for Transportation Policy, and carry out all other functions vested in the Secretary by the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Public Law 91-646, 84 Stat. 1894, and any amendments thereto.
§ 1.49 Delegations to Federal Railroad Administrator.

The Federal Railroad Administrator is delegated authority to:

(a) Investigate and report on safety compliance records of applicants seeking railroad operating authority from the Interstate Commerce Commission, and to intervene and present evidence concerning applicants’ fitness in Commission proceedings under 49 U.S.C. 1653(e), relating to railroads.

(b) Carry out the Act of September 30, 1965, as amended (79 Stat. 893, 49 U.S.C. 1631 et seq.), relating generally to high speed ground transportation, except issuance of reports required by section 13(c) (49 U.S.C. 1643(c)).

(c) Carry out the following laws relating generally to safety appliances and equipment on railroad engines and cars, and protection of employees and travelers:

(1) The Act of March 2, 1893, as amended (27 Stat. 531, 45 U.S.C. 1 et seq.);
(6) The Act of March 4, 1915, as amended (38 Stat. 1192, 45 U.S.C. 30);
(7) Reorganization Plan No. 3 of 1965 (79 Stat. 1320, 45 U.S.C. 22 note);
(8) Joint Resolution of June 30, 1906, as amended (34 Stat. 838, 45 U.S.C. 35);
(9) The Act of May 27, 1908, as amended (35 Stat. 325, 45 U.S.C. 36 et seq.);
(10) The Act of March 4, 1909, as amended (35 Stat. 965, 45 U.S.C. 37); and

(d) Carry out the Act of March 4, 1907, as amended (34 Stat. 1415, 45 U.S.C. 61 et seq.), relating generally to hours of service of railroad employees.

(e) Carry out the functions vested in the Secretary by section 5 of the International Bridge Act of 1972 (Pub. L. 92-322, 49 U.S.C. 332, 49 CFR 1.57(l)).
(f) Carry out section 25 of the Interstate Commerce Act, as amended (49 U.S.C. 26), relating generally to railroad safety appliances, methods, and systems.

(g) Exercise the administrative powers under the Interstate Commerce Act with respect to powers and duties pertaining to railroad safety transferred to the Secretary (49 U.S.C. 1655(f)).

(h) Operate and administer the Alaska Railroad under the Act of March 12, 1914, as amended (38 Stat. 305), and Executive Order 11107 (28 F.R. 4225 (1963)).

(i) Make individual and general changes in freight rates and passenger fares for the Alaska Railroad, without power to delegate authority for general changes in freight rates and passenger fares.

(j) Promote and undertake research and development relating to rail matters generally (49 U.S.C. 1653(a), 1657(e)(1), 1657(n)(1), and 1657(q)(1)).

(k) Carry out the functions vested in the Secretary by subtitle B of the National Visitor Center Facilities Act of 1968, as added by the Union Station Redevelopment Act of 1981 (Pub. L. 97-125; 95 Stat. 1667) except section 114(e) and such parts of section 118 as provided for the completion of the parking facility and associated ramps at Union Station in Washington, DC.

(l) Exercise the authority vested in the Secretary by the Emergency Rail Services Act of 1970 (Pub. L. 91-458; 84 Stat. 971, 45 U.S.C. 421 et. seq.), except authority to make findings required by section 3(a) of that Act and the authority to sign guarantees of certificates issued by trustees.

(n) Carry out the functions vested in the Secretary by the Emergency Rail Facilities Restoration Act of 1972 (Pub. L. 92-591).

(o) Carry out the functions vested in the Secretary by subsection (b) (except as it relates to conducting consultations with the Administrator of the Environmental Protection Agency) and (c) of section 17 of the Noise Control Act of 1972 (Pub. L. 92-574).

(p) Carry out the functions vested in the Secretary by sections 201(i)(3); 202(b)(7); 203, except authority to issue subpoenas; 210; 212; 213; 215; 402; 403; and 601 of the Regional Rail Reorganization Act of 1973 (Pub. L. 93-236) as amended by the Rail Transportation Improvement Act (Pub. L. 94-555).

(q) Carry out the functions vested in the Secretary by subsections 4(h) and (i) of the Department of Transportation Act, as amended (49 U.S.C. 1653(h), (i)).

(r) [Reserved]

(s) Exercise the authority vested in the Secretary by 49 App. U.S.C. 1808 (a), (b), and (c), 1809, and 1810 relating to investigations, records, inspections, penalties, and specific relief so far as they apply to the transportation or shipment of hazardous materials by railroad, including the manufacture, fabrication, marking, maintenance, reconditioning, repair or test of containers which are represented, marked, certified, or sold for use in the bulk transportation of hazardous materials by railroad.

(t) Carry out the functions vested in the Secretary by 49 App. U.S.C. 1813 (a) and (b); and 1817.

(u) Carry out the functions vested in the Secretary by sections 204(c); except authority to issue subpoenas; 402; 403; 502; 503; 504; 505; 506, except (c); 507; 508; 511; 512; 513; 515; 517; 606; 610; 703; 704, except (c)(1); and 705; 707; 901; 905, as applicable, of the Railroad Revitalization and Regulatory Reform Act of 1976, as amended, section 5 of the Department of Transportation Act (49 U.S.C. 1654), except authority to issue subpoenas.

(v) Carry out functions vested in the Secretary by sections 17(a) and (b) (as they relate to consultations with the Administrator of the Environmental Protection Agency) of the Noise Control Act of 1972 (Pub. L. 92-574, 49 U.S.C. 1431).

(w) Carry out the functions vested in the Secretary by the Rock Island Railroad Transition and Employee Assistance Act (title I of Pub. L. 96-254) and by section 18 of the Milwaukee Railroad Restructuring Act (49 U.S.C. 916).
§ 1.50

(w) Carry out the functions vested in the Secretary by section 305 of the Regional Rail Reorganization Act of 1973, as amended (45 U.S.C. 745).

(x) Carry out the functions vested in the Secretary by sections 4(a) and 5(c) of Executive Order 12316 of August 14, 1981 (46 F.R. 42237, Aug. 20, 1981) (delegating sections 107(c)(1)(C) and 108(b), respectively, of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, Pub. L. 96-510), insofar as they relate to rolling stock.

(y) Carry out the functions vested in the Secretary by the Northeast Rail Service Act of 1981 (Pub. L. 97-35).

(z) Carry out the functions vested in the Secretary by section 3 of the Bridge Act of 1906, as amended (33 U.S.C. 493), relating to disputes over the terms and compensation for use of railroad bridges built under the Act.

(aa) Carry out the functions vested in the Secretary by titles II through VII of the Rail Safety and Service Improvement Act of 1982 (Pub. L. 97-468), which relates to rail safety, rail finances, and the transfer of the Alaska Railroad to the State of Alaska.

(bb) Carry out the functions vested in the Secretary by section 11 of the Budget Reconciliation Act of 1980 (Pub. L. 99-509), which relates to the abolition of the United States Railway Association, and the execution of the functions and duties of the Association transferred to the Secretary, effective April 1, 1987.

(cc) Carry out the functions vested in the Secretary by section 18 (g) and (h) of the Rail Safety Improvement Act of 1988 (Pub. L. 100-342).

(dd) Carry out the function vested in the Secretary by section 1163 of the Bankruptcy Code (11 U.S.C. 1163), which relates to the nomination of trustee for rail carriers in reorganization, with the concurrence of the Office of the General Counsel.

(ee) Carry out the functions vested in the Secretary by sections 9, 10, 11, 12, and 13 of the Sanitary Food Transportation Act of 1990 (Pub. L. 101-500; 104 Stat. 1213), with respect to transportation by railroad.

(ff) Exercise the authority vested in the Secretary by the Crime Control Act of 1990 (Pub. L. 101-647) as it relates to a railroad police officer’s authority to enforce the laws of any jurisdiction in which the police officer’s rail carrier employer owns property.

(hh) Exercise the authority vested in the Secretary by section 601 (d) and (e) of the National and Community Service Act of 1990 (45 U.S.C. 546 note) as it relates to the discharge of human waste from railroad passenger cars.

(ii) Carry out the functions and exercise the authority delegated to the Secretary in section 2(d)(2) of Executive Order 12777 (3 CFR, 1991 Comp.; 56 F.R. 54757), with respect to rail transportation, relating to the approval of means to ensure the availability of private personnel and equipment to remove, to the maximum extent practicable, a worst case discharge, the review and approval of response plans, and the authorization of railroads, subject to the Federal Water Pollution Control Act (33 U.S.C. 1321), to operate without approved response plans, except as delegated in § 1.46(m).

(jj) Exercise the authority vested in the Secretary by the Swift Rail Development Act of 1994, being Title I—High-Speed Rail of Public Law 103-440 (108 Stat. 4615), as it relates to the provision of financial assistance for high-speed rail corridor planning and technology improvements, the promulgation of necessary safety regulations, and the redemption of outstanding obligations and liabilities with respect to the Columbus and Greenville Railroad under Sections 505 and 511 of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 825 and 831, respectively).

[Amdt. 1-113, 40 F.R 43901, Sept. 24, 1975]

EDITORIAL NOTE: For Federal Register citations affecting § 1.49, see the List of CFR Sections Affected in the Finding Aids section of this volume.

§ 1.50 Delegation to the National Highway Traffic Safety Administrator.

The National Highway Traffic Safety Administrator is delegated authority to:
Office of the Secretary of Transportation

§ 1.51

(a) Carry out the National Traffic and Motor Vehicle Safety Act of 1966, as amended (15 U.S.C. 1381 et seq.).

(b) Carry out the Highway Safety Act of 1966, as amended (23 U.S.C. 401 et seq.), except for highway safety programs, research and development relating to highway design, construction and maintenance, traffic control devices, identification and surveillance of accident locations, and highway-related aspects of pedestrian and bicycle safety.

(c) Exercise the authority vested in the Secretary by section 210(2) of the Clean Air Act, as amended (42 U.S.C. 7544(2)).

(d) Exercise the authority vested in the Secretary by section 204(b) of the Federal Railroad Safety Act of 1970 (45 U.S.C. 433(b)) with respect to laws administered by the National Highway Traffic Safety Administrator pertaining to highway, traffic and motor vehicle safety.

(f) Carry out the functions vested in the Secretary by the Motor Vehicle Information and Cost Savings Act of 1972, as amended (35 U.S.C. 1901 et seq.), except section 512.

(g) Administer the following sections of title 23, United States Code, with the concurrence of the Federal Highway Administrator:

(1) 103 as it involves the withdrawal of Interstate routes and the substitution of non-highway public mass transit projects authorized by subsection (e)(4);

(2) 101(a) as it involves approval of boundaries of urban and urbanized areas, 104(f)(4), 105(d), 106(b) as it involves mass transportation

(h) Carry out the consultation functions vested in the Secretary by Executive Order 11912, as amended.

(j) Administer section 414(b)(1) of the Surface Transportation Assistance Act of 1982, as amended (49 U.S.C. 2304) with the concurrence of the Federal High-way Administrator, and section 414(b)(2).

(l) Carry out section 204(b) of the Surface Transportation and Uniform Relocation Assistance Act of 1987, Public Law 100-17 (101 Stat. 132) with the coordination of the Federal Highway Administrator.

(m) Carry out the functions vested in the Secretary by section 15(f) of the Sanitary Food Transportation Act of 1990 (Pub. L. 101-500, 104 Stat. 1213).

§ 1.51. Delegations to Urban Mass Transportation Administrator.

The Urban Mass Transportation Administrator is delegated authority to exercise the functions vested in the Secretary by:

(a) The Urban Mass Transportation Act of 1964, as amended (78 Stat. 302, 49 U.S.C. 1601 et seq.), except section 18 as it relates to the formula grant program for non-urbanized areas in the Commonwealth of Puerto Rico and section 22, relating to intercity bus service.

(b) Section 1 of Reorganization Plan No. 2 of 1968 (84 Stat. 1369).

(d) Sections 3 and 9 through 15 of the National Capital Transportation Assistance Act of 1969, as amended (D.C. Code, § 1-2441 et seq).

(e) The following sections of title 23, United States Code:

(1) 103 as it involves the withdrawal of Interstate routes and the substitution of non-highway public mass transit projects authorized by subsection (e)(4);

(2) 101(a) as it involves approval of boundaries of urban and urbanized areas, 104(f)(4), 105(d), 106(b) as it involves the Federal-aid urban system, and 134; and

(3) 101(b), (c), (d), and (e); 105(a) and (g); 106(a), (c), and (d); 108; 109(a), (g), (h); 110; 112; 113; 114; 116(a) and (c); 117; 121; 122; 124; 126; 140(a); 142; and 145 as they involve mass transportation
§ 1.52 Delegations to Saint Lawrence Seaway Development Corporation Administrator.

The Administrator of the Saint Lawrence Seaway Development Corporation is delegated authority to:

(a) Carry out the functions vested in the Secretary by sections 4, 5, 6, 7, 8, 12 and 13 of section 2 of the Port and Tanker Safety Act of 1978 (92 Stat. 1471) as they relate to the operation of the Saint Lawrence Seaway.

(b) Carry out the functions vested in the Secretary by section 5 of the International Bridge Act of 1972 (Pub. L. 92-434) as they relate to the St. Lawrence River.

(c) Carry out the functions vested in the Secretary by section 3(d) of the Act to Prevent Pollution from Ships (33 U.S.C. 1902(d)) as it relates to ships owned or operated by the Corporation when engaged in noncommercial service.

(d)-(e) [Reserved]

§ 1.53 Delegations to the Administrator of the Research and Special Programs Administration.

Administration. The Administrator of the Research and Special Programs Administration is delegated authority to exercise powers and perform duties, including duties under the specified statutes as follows:

(4) Sections 4(a) and 5(c) of Executive Order 12316 of August 14, 1981 (46 FR 42237, Aug. 20, 1981) (delegating sections 107(c)(1)(c) and 108(b), respectively, of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, Pub. L. 96-510), insofar as they relate to pipelines.

(6) Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) as amended, with respect to establishment, enforcement and review of regulations concerning pipeline safety.

(b) Hazards to Navigation and Harbors Act of 1914 (43 U.S.C. 95 et seq.) as amended, with respect to navigation and the safety of structures, equipment, and facilities in the navigable channels of waterways and watercourses.

(c) Section 601(d) of the Rail Passenger Service Act, as amended.

(d) Section 2 of Public Law 98-229, 98 Stat. 55, as amended, with respect to apportioning certain funds for Interstate substitute transit projects.
(b) Section 7005 of the Consolidated Omnibus Budget Reconciliation Act of 1985, as it relates to pipeline safety user fees.

(b) Hazardous materials. (1) Sections 101-121 of the Hazardous Materials Transportation Act of 1975 (49 App. U.S.C. 1801-1819), as amended by the Hazardous Materials Transportation Uniform Safety Act of 1990 (104 Stat. 3244), except as delegated by §§1.46(t), 1.47(j), 1.48(u)(2), and 1.49(s)(2), and except that the enforcement activities of the Research and Special Programs Administration (RSPA) shall be limited to any matter relating to or concerning any of the following:

(i) Any violation of an exemption or approval issued under that Act;

(ii) Any violation of any requirement for a telephonic or written report of a hazardous materials incident or any other reporting requirement imposed under that Act;

(iii) Any manufacture, fabrication, marking, maintenance, reconditioning, repair, testing, or retesting of any packaging, except modal-specific bulk packaging, which is represented, marked, certified, or sold for use in the transportation of hazardous materials, including any United Nations standard or DOT specification or exemption packaging;

(iv) Any manufacture, fabrication, marking, maintenance, reconditioning, repair, testing, or retesting of any modal-specific bulk packaging, which is represented, marked, certified, or sold for use in the transportation of hazardous materials, including any United Nations standard or DOT specification or exemption packaging, only when requested by the modal administration with primary responsibility for such activity;

(v) Any carrier of hazardous materials only when requested by the modal administration with primary responsibility for inspecting such carrier;

(vi) Any owner of any hazardous material for transportation with respect to its offering of any hazardous material for transportation in:

(A) Any modal-specific bulk packaging only when requested by the modal administration with primary responsibility for inspecting such packaging; or

(B) Any other packaging.

This delegation to the Administrator of RSPA does not limit the enforcement authority of the Administrators of FHWA, FRA, and FAA, and the Commandant of the Coast Guard under the Hazardous Materials Transportation Act, as amended. Those agencies have enforcement authority over all aspects of the transportation or shipment of hazardous materials by their respective modes, including the manufacture, fabrication, marking, maintenance, reconditioning, repair, testing, or retesting of any bulk packaging intended or represented as intended for use in the transportation of hazardous materials by their respective modes.

(2) Serves as the Department's point of contact and consults with the Environmental Protection Agency on matters arising under section 3003 of the Resources Conservation and Recovery Act (42 U.S.C. 6923) and section 9 of the Toxic Substances Control Act (15 U.S.C. 2608).

(3) Sections 601(c) and 902(h)(1) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1421 and 1472(h)(1), respectively), as they relate to regulations governing the transportation of hazardous materials by air.

(5) Section 406 of the ICC Termination Act of 1995 (Public Law 104-88) relating to the issuance of regulations concerning the use of certain fiber drum packagings for the transportation of liquid hazardous materials, including contracting for a study by the National Academy of Sciences.

(c) Passenger and cargo security. (1) Serve as the Department's point of contact in relationships with Government, state, regional, local and private groups and organizations in matters relative to the Department-wide program for enhancing the safety and security of passengers and cargo in transit.

(2) [Reserved]
§ 1.54 Delegations to all Secretarial Officers.

(a) This section sets forth general delegations to the Deputy Secretary, the Deputy Under Secretary, the General Counsel, the Inspector General and the Assistant Secretaries.

(b) Each officer named in paragraph (a) of this section is delegated authority to:

(1) Redelegate and authorize successive redelegations of authority granted

(e) Emergency preparedness. Carry out the functions related to emergency preparedness vested in the Secretary by 49 U.S.C. 101 and 301 or delegated to the Secretary by or through the Defense Production Act of 1950, 50 U.S.C. App. 2061 et seq.; Executive Order 10480; as amended; Executive Order 12148; Executive Order 12656; Executive Order 12742; Reorganization Plan No. 3 of 1978; and such other statutes, executive orders, and other directives as may pertain to emergency preparedness.

(f) Working Capital Fund for Financing the Activities of the Transportation Systems Center. (1) Section 207 of Public Law 96-254 (49 U.S.C. 1657(r)), authorizing the Secretary to establish a working capital fund for financing the activities of the Transportation Systems Center.

(2) [Reserved]

(g) [Reserved]

(h) Science and technology. (1) With respect to scientific and technological matters, serve as principal advisor to the Secretary and representative of the Department to the academic community, the private sector, professional organizations, and other Government agencies.

(2) Serve as principal liaison official for the Department of Transportation with the Office of Science and Technology Policy in the Executive Office of the President.

(3) Serve as Chairperson of the Department of Transportation's Research and Development Coordinating Council.

(4) Serve as Chairperson of the Department of Transportation Navigation Council.

(i) Carry out the functions vested in the Secretary by sections 4, 5, 6, 7, and 8 of the Sanitary Food Transportation Act of 1990 (Pub. L. 101-500; 104 Stat. 1213).

Office of the Secretary of Transportation

§ 1.55 Delegations to Deputy Secretary.

The Deputy Secretary may exercise the authority of the Secretary except where specifically limited by law, order, regulations, or instructions of the Secretary. In addition, the Deputy Secretary is delegated authority to:

(a) Exercise executive control over the Departmental Planning-Programming-Budgeting System.

(b) Serve as Chairman of the Departmental Executive Personnel Board and its Executive Committee.

(c) Originate direct correspondence to chairmen of Field Coordination

(49 U.S.C. 1657(e)(1))

by the Secretary within their respective organizations, except as limited by law or specific administrative reservation, including authority to publish those redelegations in appendix A of this part.

(2) Authorize and approve official travel (except foreign travel) and transportation for themselves, their subordinates, and others performing services for, or in cooperation with, the Office of the Secretary. This authority may be redelegated in accordance with regulations issued by the Assistant Secretary for Administration.

(3) Communicate directly with chairmen of Field Coordination Groups provided such communications are largely informational in character and do not conflict with program responsibilities of the operating administrations.

(4) Establish ad hoc committees for specific tasks within their assigned staff area.

(5) Establish, modify, extend, or terminate standing committees within their specific areas of responsibility when directed or authorized to do so by the Secretary.

(6) Designate members of interagency committees when such committees are specifically concerned with responsibilities of direct interest to their office.

(7) Exercise the following authorities with respect to executive level positions (GS-16, 17, or 18 or equivalent) within their respective areas of responsibility:
   (i) Determine how executive level positions will be filled; i.e., by reassignment, promotion, appointment.
   (ii) Establish selection criteria to be used in identifying eligible candidates.
   (iii) Confer with the Administrators on selection criteria and candidates for an executive level position that is a counterpart of an activity or position in the Office of the Secretary.
   (iv) Recommend final selection for executive level positions, subject to review by the Executive Committee of the Departmental Executive Personnel Board and approval by the Secretary and the Civil Service Commission.
   (v) Serve as ad hoc member of the Departmental Executive Personnel Board at the call of the Chairman and serve on the Board's Executive Committee whenever matters involving their respective offices or a functional counterpart thereof in an operating administration are presented to the Executive Committee for its consideration.

(8) Enter into inter- and intra-departmental reimbursable agreements other than with the head of another department or agency (31 U.S.C. 686). This authority may be redelegated only to office directors or other comparable levels and to contracting officers.

(9) Administer and perform the functions described in their respective functional statements.

(10) Exercise the authority of the Secretary to resolve informal allegations of discrimination arising in or relating to their respective organizations through Equal Employment Opportunity counseling or the Alternative Dispute Resolution process and to develop and implement affirmative action and diversity plans within their respective organizations.

§ 1.55 Delegations to Deputy Secretary.

The Deputy Secretary may exercise the authority of the Secretary except where specifically limited by law, order, regulations, or instructions of the Secretary. In addition, the Deputy Secretary is delegated authority to:

(a) Exercise executive control over the Departmental Planning-Programming-Budgeting System.

(b) Serve as Chairman of the Departmental Executive Personnel Board and its Executive Committee.

(c) Originate direct correspondence to chairmen of Field Coordination

§ 1.55 Delegations to Deputy Secretary.
§ 1.56 Delegations to the Assistant Secretary for Transportation Policy.

The Assistant Secretary for Transportation Policy is delegated authority to:

(a) Establish policy and maintain oversight of implementation of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321-4347) within the Department of Transportation.

(b) Oversee the implementation of section 4(f) of the Department of Transportation Act of 1969 (49 U.S.C. 303).

(c) Represent the Secretary of Transportation on various interagency boards, committees, and commissions to include the Architectural and Transportation Barriers Compliance Board and the Advisory Council on Historic Preservation.

(d) Except with respect to proceedings under section 4(e) of the Department of Transportation Act (49 U.S.C. 307) relating to safety fitness of an applicant, decide on requests to intervene or appear before administrative agencies to present the views of the Department subject to concurrence by the General Counsel.

(e) Carry out the functions vested in the Secretary by section 656 of the Department of Energy Organization Act (42 U.S.C. 7266) which pertains to planning and implementing energy conservation matters with the Department of Energy. Serves as the Department’s principal conservation officer.

§ 1.56a Delegations to the Assistant Secretary for Aviation and International Affairs.

The Assistant Secretary for Aviation and International Affairs is delegated authority to:
(a) Represent the Secretary of Transportation on various interagency boards, committees, and commissions to include the Trade Policy Review Group and the Trade Policy Staff Committee.

(b) Except with respect to proceedings under section 4(e) of the Department of Transportation Act (49 U.S.C. 307) relating to safety fitness of an applicant, decide on requests to intervene or appear before administrative agencies to present the views of the Department subject to concurrence by the General Counsel.

(c) Carry out the functions of the Secretary pertaining to aircraft with respect to Transportation Orders T-1 and T-2 (44 CFR chapter IV) under the Act of September 8, 1950, as amended (50 U.S.C. app. 2061 et seq.) and Executive Order No. 10480 (3 CFR, 1949-1953 comp., p. 962), as amended.

(d) Serve as Department of Transportation member of the Interagency Group on International Aviation, and pursuant to Executive Order No. 11382 (3 CFR, 1966-1970 comp., p. 691), as amended, serve as Chair of the Group.

(e) Serve as second alternate representing the Secretary of Transportation to the Trade Policy Committee as mandated by Reorganization Plan No. 3 of 1979 (5 U.S.C. app. at 1381 (1988) and Executive Order No. 12188 (3 CFR, 1980 comp., p. 131), as amended.

(f)(1) As supplemented by 14 CFR part 385, as limited by paragraph (f)(2) of this section, and except as provided in §§1.53(g), 1.57(a), and 1.57(s) of this title, carry out the functions transferred to the Department from the Civil Aeronautics Board under the following statutes:

(i) 49 U.S.C. app. 1551(b); and

(ii) Section 4(a)(1) through (4), (6), and (8) through (10) of the Civil Aeronautics Board Sunset Act of 1984 (49 U.S.C. app. 1553(a)(1) through (4), (6), and (8) through (10).

(f)(2) Insofar as the delegation in this paragraph (f) authorizes review of decisions of the Designated Senior Career Official in the Office of the Assistant Secretary for Aviation and International Affairs under §1.56b of this title, the authority is limited to approving any such decision or remanding it for reconsideration by the Designated Senior Career Official, with a full written explanation of the basis for the remand.

(g) Carry out the functions vested in the Secretary by the following subsections of section 1115 of the Federal Aviation Act of 1958, as amended, which relates to the security of foreign airports:

(1) Subsection 1115(e)(1), in coordination with the General Counsel, and the Federal Aviation Administrator; and

(2) Subsection 1115(e)(3), in coordination with the General Counsel, the Federal Aviation Administrator, the Assistant Secretary for Governmental Affairs, and the Assistant Secretary for Administration.

(h) Carry out the following statutory provisions relating to consumer protection:

(1) Section 4(a)(5) of the Civil Aeronautics Board Sunset Act of 1984 (49 U.S.C. app. 1553(a)(5)) relating to enforcement of the Consumer Credit Protection Act;

(2) Sections 101(3) (relating to relieving certain carriers from provisions of the Federal Aviation Act), 204 (relating to taking such actions and issuing such regulations as may be necessary to carry out responsibilities under the Act), 404 (relating to enforcing the duty of carriers to provide safe and adequate service), 407(a) (relating to requiring the production of information), 407(e) (relating to entering carrier property, and inspecting records), 411 (relating to determining whether any carrier or ticket agent is engaged in unfair or deceptive practices or unfair methods of competition), and 416 (relating to establishing just and reasonable classifications of carriers and rules to be followed by each) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1301(3), 1324, 1374, 1377 (a) and (e), 1381, and 1386) as appropriate to the consumer protection functions in this paragraph.

(i) Carry out the functions of the Secretary pertaining to a determination of whether a fee imposed upon one or more air carriers by the owner or operator of an airport is reasonable under section 113 of the Federal Aviation Administration Authorization Act of 1994.
§ 1.56b Delegations to the Designated Senior Career Official, Office of the Assistant Secretary for Aviation and International Affairs.

The Designated Senior Career Official in the Office of the Assistant Secretary for Aviation and International Affairs is delegated exclusive authority to make decisions in all hearing cases to select a carrier for limited-designation international route authority, and in any other case that the Secretary designates, under the authority transferred to the Department from the Civil Aeronautics Board described in §§1.56a(f) and 1.57(s) of this title; this includes the authority to adopt, reject or modify recommended decisions of administrative law judges.

§ 1.57 Delegations to General Counsel.

The General Counsel is delegated authority to:

(a) Conduct all rule-making proceedings, except the issuance of final rules, under specific laws relating generally to standard time zones and daylight saving (advanced standard) time.

(b) Determine the practicability of applying the standard time of any standard time zone to the movements of any common carrier engaged in interstate or foreign commerce and issue operating exceptions in any case in which the General Counsel determines that it is impractical to apply the standard time.

(c) Provide and coordinate the Department's counseling service to employees on questions of conflict of interest and other matters of legal import covered by Departmental regulations on employee responsibility and conduct. Assure that counseling and interpretations on these matters are available to designated Deputy Counselors of the Department. Serve as the Department's designee to the Civil Service Commission on these matters.

(d) Serve as the alternate representative of the Secretary on the Board of Directors of the National Railroad Passenger Corporation when so designated by the Secretary or Deputy Secretary and carry out the functions vested in the Secretary as a member of the board by section 303 of the Rail Passenger Service Act of 1970 (84 Stat. 1330).

(e) Review and take final action on referrals of the findings of the Board for Correction of Military Records of the Coast Guard (except with respect to those matters on which the Secretary's authority to take final action is exercised by the Board pursuant to 33 CFR 52.35-15) and the Coast Guard Discharge Review Board.

(f) Approve vacation of suspension of dismissal of military personnel (10 U.S.C. 872(b)).

(g) Grant permission, under specific circumstances, to deviate from a policy or procedure prescribed by part 9 of the regulations of the Office of the Secretary (part 9 of this subtitle) with respect to testimony of OST employees as witnesses in legal proceedings, the serving of legal process and pleadings in legal proceedings involving the Secretary or his Office, and the production of records of that Office pursuant to subpoena.

(h) Prepare proposed Executive orders and proclamations (including transmittal documents), effect appropriate Departmental coordination, and determine whether the transmittal to the Office of Management and Budget should be submitted over the Secretary's signature or the General Counsel's.

(i) Emboss and affix the official Departmental seal to appropriate documents and other materials, for all purposes for which authentication by seal is required.

(j) Except with respect to proceedings under section 4(e) of the Department of Transportation Act (80 Stat. 934) relating to safety fitness of an applicant, decide on requests to intervene or appear before courts or agencies to present the views of the Department, subject to the concurrence of other interested staff elements in the Office of the Secretary.
(k) Exercise the authority delegated to the Department by the Assistant Attorney General, Land and Natural Resources Division, in his order of October 2, 1970, to approve the sufficiency of the title to land being acquired by purchase or condemnation by the United States for the use of the Department. Redelegation and successive redelegations of this authority may only be made to attorneys within the Department.

(l) Issue regulations making editorial changes or corrections in the Regulations of the Office of the Secretary.

(m) Review and take final action on applications for reconsideration of initial decisions not to disclose unclassified records of the Office of the Secretary requested under 5 U.S.C. 552(a)(3).

(n) Consider, ascertain, adjust, determine, compromise, and settle for an amount not exceeding $25,000, any tort claim arising from the activities of any employee of the Office of the Secretary. Request the approval of the Attorney General for any such award, compromise, or settlement in excess of $25,000 (28 U.S.C. 2672).

(p) Grant or deny petitions for extension of time to file a document under part 202 of title 46.

(q) Deny petitions for rulemaking or petitions for exemptions in accordance with §5.13(c) of this title, and notify petitioners of denials in accordance with §5.13(d) of this title.

(r) Exercise the review authority delegated to the Secretary by the President in Executive Order 12597 of May 13, 1987.

(s) Assist and protect consumers in their dealings with the air transportation industry and assist state and local organizations in handling airline consumer complaints. Carry out 49 U.S.C. 40113 and 41771 as appropriate to those functions.

§ 1.57b Delegations to the Assistant General Counsel for Environmental, Civil Rights, and General Law.

Administer 5 U.S.C. 552 and 49 CFR part 7 in connection with the records of the Office of the Secretary (including the Office of the Inspector General) and issue procedures to ensure uniform Departmental implementation of statutes and regulations regarding public access to records.

§ 1.57a Delegations to Deputy General Counsel.

The Deputy General Counsel is delegated authority to:

(a) Appear on behalf of the Department on the record in hearing cases, and to initiate and carry out enforcement actions on behalf of the Department, under the authority transferred to the Department from the Civil Aeronautics Board as described in §§1.56a(f) and 1.57(s). This includes the authority to compromise penalties under 49 U.S.C. 46301; to issue appropriate orders, including cease and desist orders, under 49 U.S.C. 46101; and to require the production of information, enter carrier property and inspect records and inquire into the management of the business of a carrier under 49 U.S.C. 41711, as appropriate to the enforcement responsibilities. In carrying out these functions, the Deputy General Counsel is not subject to the supervision of the General Counsel.

(b) Initiate and carry out enforcement actions relating to:

1. Foreign airport security on behalf of the Department under 49 U.S.C. 44907; and

2. The Consumer Credit Protection Act under section 4(a)(5) of the Civil Aeronautics Board Sunset Act of 1984 (October 4, 1984; Pub. L. 98-443). In carrying out these functions, the Deputy General Counsel is not subject to the supervision of the General Counsel.

[Amdt. 1-269, 60 FR 15877, Mar. 28, 1995]

§ 1.57b Delegations to the Assistant General Counsel for Environmental, Civil Rights, and General Law.

Administer 5 U.S.C. 552 and 49 CFR part 7 in connection with the records of the Office of the Secretary (including the Office of the Inspector General) and issue procedures to ensure uniform Departmental implementation of statutes and regulations regarding public access to records.

§ 1.58 Delegations to Assistant Secretary for Budget and Programs.

The Assistant Secretary for Budget and Programs is delegated authority to:

(a) Exercise day-to-day operating management responsibility over the Office of Programs and Evaluation and the Office of Budget.

(b) Direct and manage the Departmental planning, evaluation, and budget activities.

(c) Request apportionment or re-apportionment of funds by the Office of Management and Budget, provided that no request for apportionment or re-apportionment which anticipates the need for a supplemental appropriation shall be submitted to the Office of Management and Budget without appropriate certification by the Secretary.

(d) Issue allotments or allocations of funds to components of the Department.

(e) Authorize and approve official travel and transportation for staff members of the Immediate Office of the Secretary including authority to sign and approve related travel orders and travel vouchers, but not including requests for overseas travel.

(f) Issue monetary authorizations for use of reception and representation funds.

(g) Act for the Secretary and Deputy Secretary with respect to certain budgetary and administrative matters relating to the Immediate Office of the Secretary.

(h) Provide Congressional Notification for Energy Savings Performance Contracts (ESPCs) with cancellation ceilings in excess of $750,000, pursuant to the National Energy Conservation Policy Act, as amended, 42 U.S.C. 8287 et seq.

§ 1.59 Delegations to the Assistant Secretary for Administration.

The Assistant Secretary for Administration is delegated authority for the following:

(a) Acquisition. (1) Exercise procurement authority with respect to requirements of the Office of the Secretary.

(b) Personnel. (1) Conduct a personnel management program for the Office of the Secretary with authority to take, direct others to take, recommend or approve any personnel action with respect to such authority.

(c) Finance. (1) Administer the financial and fiscal affairs of the Office of
Office of the Secretary of Transportation § 1.59

(1) Designate to the Treasury Department certifying officers and designated agents for the Office of the Secretary and imprest fund cashiers for the Departmental headquarters. (Redelegation to the Director of Financial Management is contained in subpart C, § 1.59a.)

(2) Designate to the Treasury Department certifying officers and designated agents for the Office of the Secretary and imprest fund cashiers for the Departmental headquarters. (Redelegation to the Director of Financial Management is contained in subpart C, § 1.59a.)

(3) In accordance with 31 U.S.C. 3512, grant or recommend relief from accountability for losses or deficiencies of disbursing officers, cashiers, or other accountable officers as follows:
   (i) Grant relief for losses or deficiencies of less than $500 for which charges or exceptions have not been raised by the General Accounting Office.
   (ii) Recommend relief by the Comptroller General for all other losses or deficiencies.

(4) Settle and pay claims by employees of the Office of the Secretary, except at the Transportation System Center, for personal property losses, as provided by 31 U.S.C. 241(b).

(5) Waive claims and make refunds in connection with claims of the United States for erroneous payment of pay and allowances or of travel, transportation, and relocation expenses and allowances to an employee of the Office of the Secretary in amounts aggregating not more than $1,500 without regard to any repayments, and deny requests for waiver of such claims regardless of the aggregate amount of the claim, as provided by 4 CFR parts 91, 92, and 93. This authority may be redelegated only to the Director of Financial Management.

(6) Compromise, suspend collection action on, or terminate claims of the United States not exceeding $100,000 (excluding interest) which are referred to, or arise out of the activities of, the Office of the Secretary.

(7) Determine the existence and amount of indebtedness and the method of collecting repayments from employees of the Office of the Secretary and collect repayments accordingly, as provided by 5 U.S.C. 5514. This authority may be redelegated only to the Director of Financial Management.

(8) Sign Budget Execution reports required by OMB Circular A-34, for the Office of the Secretary. (Redelegation to the Director of Financial Management is contained in subpart C, § 1.59a.)

(9) Review and approve for payment any voucher for $25 or less the authority for payment of which is questioned by a certifying or disbursing officer. (Redelegation to the Director of Financial Management is contained in subpart C, § 1.59a.)

(10) Approve cash purchases of emergency passenger transportation services costing over $100 under FPMR G-72, as amended.

(11) Perform accounting and related functions in support of the essential air service program.

(12) Carry out the functions and obligations assigned to the Secretary with respect to the Prompt Payment Act, Public Law 97-177.

(13) Carry out the functions and duties assigned to the Secretary with respect to the Debt Collection Act of 1982, Public Law 97-365.

(d) Special funds. Except as otherwise delegated, establish or operate, or both, such special funds as may be required by statute or by administrative determination. This excludes the Working Capital Fund (49 U.S.C. 327).

(e) Security. (1) Represent the Secretary on the National Communications Security Committee and Interdepartmental Committee on Internal Security.
   (2) Issue identification media “by direction of the Secretary”.
   (3) Classify information in the interests of national defense.
   (4) Take certain classified actions on behalf of the Department in connection with counter-audio programs.
   (6) Determine when emergencies, other than attack on the United States, justify activation of Personnel Security Regulations issued by the Secretary.
   (7) Approve exceptions to the Personnel Security regulations issued by the Secretary.

(8) Request the Office of Personnel Management to modify investigative requirements in other areas.
§ 1.59a Redelegations by the Assistant Secretary for Administration.

(a) The Assistant Secretary for Administration has redelegated to the Director of Acquisition and Grant Management authority to procure and authorize payment for property and services for the Office of the Secretary, with power to delegate and authorize successive redelegations.

(b) The Assistant Secretary for Administration has redelegated to the Director of Personnel authority to:

(1) Conduct a personnel management program for the Office of the Secretary with authority to take, direct others to take, recommend or approve any personnel action with respect to such authority.

(2) Develop, coordinate, and issue wage schedules for Department employees under the Federal Wage System, except as delegated to the Commandant of the Coast Guard at §1.46 of this part.
(c) The Assistant Secretary for Administration has redelegated to the Director of Financial Management authority to:

(1) Designate to the Treasury Department certifying officers and designated agents for the Office of the Secretary and imprest fund cashiers for the Departmental Headquarters.

(2) Certify to the validity of obligations as required by 31 U.S.C. 200 and to the adequacy of bond coverage for the designations under section 160(c)(2).

(3) Sign reports on Budget Execution as required by OMB Circular A-34 (Revised).

(4) Review and approve for payment any voucher for $25 or less the authority for payment of which is questioned by a certifying or disbursing officer.

(5) Process essential air service payments.

(6) Approve claims of OST employees allowable under 31 U.S.C. 3721 for amounts of $500 or less.

§ 1.60 Delegations to the Inspector General.

The Inspector General is delegated, and has agreed to carry out, the following:

(a) Aviation economics. The conduct of audits under 49 U.S.C. 1389; and 49 U.S.C. 1377(e).

(b) [Reserved]

[Amdt. 1-199, 49 FR 50997, Dec. 31, 1984]

§ 1.61 Delegations to Assistant Secretary for Governmental Affairs.

The Assistant Secretary for Governmental Affairs is delegated authority to:

(a) Establish procedures for responding to Congressional correspondence.

(b) Serve as the Department’s point of contact in relationships with public and private organizations and groups devoted to consumer and community services or affairs.

(c) Serve as coordinator for intra-Departmental consumer affairs programs.

§ 1.62 Delegations to the Director of Small and Disadvantaged Business Utilization.

The Director of Small and Disadvantaged Business Utilization is delegated authority to:

(a) Exercise Departmental responsibility for the implementation and execution of functions and duties under sections 8 and 15 of the Small Business Investment Act, as amended (15 U.S.C. 637 and 644).

(b) Carry out the functions vested in the Secretary by section 906 of the Railroad Revitalization and Regulatory Reform Act of 1976 (Pub. L. 94-210), as amended.

[Amdt. 1-157, 45 FR 83409, Dec. 18, 1980]

§ 1.63 Delegations to Assistant to the Secretary and Director of Public Affairs.

The Assistant to the Secretary and Director of Public Affairs is delegated authority to:

(a) [Reserved]

(b) Monitor the overall public information program and review and approve Departmental informational materials having policy-making ramifications before they are printed and disseminated.

(c) Carry out the functions vested in the Secretary by section 4(b) (as appropriate) of Executive Order 11912.

(d) Carry out the functions to promote carpooling and vanpooling which were vested in the Federal Energy Administration by section 381(b)(1)(B) of the Energy Policy and Conservation Act and transferred to the Department of Transportation by section 310 of the Department of Energy Organization Act of 1977.

§ 1.64 Delegations to the Director, Transportation Administrative Service Center.

The Director, Transportation Administrative Service Center (TASC), is delegated authority to operate the Working Capital Fund (49 U.S.C. 327).

§ 1.65 Authority to classify information.

(a) E.O. 12356 confers upon the Secretary of Transportation authority to originally classify information as Secret and Confidential with further authorization to delegate this authority. (No official of the Department of Transportation has authority to originally classify information as Top Secret.)

(b) The following delegations of this authority, which may not be redelegated, are hereby made:
   (1) Office of the Secretary (OST). Chief, Security Staff.
   (2) U.S. Coast Guard (USCG). The Commandant; Chief, Office of Operations.
   (3) Federal Aviation Administration (FAA). The Administrator; Director of Civil Aviation Security.
   (4) Maritime Administration (MARAD). The Administrator; Associate Administrator for Policy and Administration (Confidential only); Director, Office of International Activities (Confidential only); Chief, Division of National Security Plans (Confidential only).
   (c) Authority to originally classify information as Secret or Confidential is delegated to the following officials to become effective automatically upon declaration of civil readiness level Initial Alert or the comparable military readiness level. If invoked, this authority is automatically terminated when both civil and military levels return to the level of Communications Watch or comparable readiness state.
   (1) OST. Deputy Secretary; Assistant Secretary for Transportation Policy; Assistant Secretary for Aviation and International Affairs; Assistant Secretary for Administration.
   (2) USCG. Vice Commandant; Chief of Staff; Commander, Atlantic Area; Commander, Pacific Area; Commanders, Coast Guard Districts; Commander, Coast Guard Activities, Europe; Chief, Intelligence and Security Division.
   (3) FAA. Deputy Administrator; Directors, FAA Regions and Centers.
   (4) MARAD. Deputy Administrator; Region Directors; Heads of ALFA, BRAVO, and CHARLIE Emergency Teams when activated.

(d) Although the delegations of authority are expressed above in terms of positions, the authority is personal and is vested only in the individual occupying the position. The authority may not be exercised "by direction of" a designated official. The formal appointment or assignment of an individual to one of the identified positions, a designation in writing of an individual to act in the absence of one of these officials, or the exercise by an individual of the powers of one of these officials by operation of law, however, conveys the authority to originally classify information.

(e) Previous delegations of authority to Department of Transportation officials to originally classify information as Secret and Confidential are hereby rescinded.

§ 1.66 Delegations to Maritime Administrator.

With the exception of those authorities delegated to the Maritime Subsidy Board in § 1.67 of this title, the Maritime Administrator is delegated authority to:

(a) Carry out sections 9, 12, 14a, 21a, 37, 38, 40, 41, and 42 of the Shipping Act, 1916, as amended (46 App. U.S.C. 801 et seq.);
(c) Carry out the Merchant Marine Act, 1928, as amended (46 App. U.S.C. 891 et seq.);
(d) Carry out section 7 of the Intercoastal Shipping Act, 1933, as amended (46 App. U.S.C. 843 et seq.);
(e) Carry out the Merchant Marine Act, 1936, as amended (46 App. U.S.C. 1101 et seq.); except the authority delegated to the Administrator of the National Oceanic and Atmospheric Administration relating to the establishment of capital construction fund agreements under section 607 thereof and the granting of financing guarantees under title XI thereof, with respect to vessels in the fishing trade or industry;
(f) Carry out the Merchant Ship Sales Act of 1946, as amended (50 U.S.C. App. 1735 et seq.);
(g) Carry out the Suits in Admiralty Act (1920), as amended (46 App. U.S.C. 741 et seq.);
(h) Carry out the Civilian Nautical School Act, 1940 (46 App. U.S.C. 1331 et seq.);
(i) Carry out the Act of June 2, 1951 (46 App. U.S.C. 1241a) regarding the "Vessel Operations Revolving Fund";
(j) Carry out the Act of August 9, 1954 (50 U.S.C. 196 et seq.) commonly called the Emergency Foreign Vessels Acquisition Act;
(l) Carry out the Maritime Academy Act of 1958, as amended (46 App. U.S.C. 1381 et seq.);
(m) Carry out the Act of May 16, 1972, as amended (86 Stat. 140) authorizing sale or purchase of certain passenger vessels;
(n) Carry out the Act of August 22, 1972 (86 Stat. 618) authorizing sale of Liberty ships for use as artificial reefs;
(o) Carry out section 717 of the Act of October 26, 1972 (86 Stat. 1184) commonly known as the Department of Defense Appropriations Act, 1973, and similar subsequent enactments, with respect to transferring or otherwise making available vessels under the jurisdiction of the Maritime Administration to another Federal agency or, similarly, accepting vessels from another Federal agency;
(p) Carry out the provisions of sections 10 through 13 of Public Law 103-451, the National Maritime Heritage Act of 1994, 108 Stat. 4769, 4778-4782;
(q) Exercise the authority vested in the Administrator of General Services by the Act of June 1, 1948, Pub. L. 80-566, 62 Stat. 281, 40 U.S.C. 318-318c and the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 377, and delegated by the Administrator of General Services on May 8, 1995, relating to the enforcement of laws for the protection of property and persons at the United States Merchant Marine Academy, located in Kings Point, New York. This may be accomplished through appointment of uniformed personnel as special police, establishment of rules and regulations governing conduct on the affected property, and execution of agreements with other Federal, State, or local authorities. This delegation shall remain in effect through May 1, 2000;
(r) Carry out the responsibilities of the National Shipping Authority (initially established by the Secretary of Commerce effective March 13, 1951) in the capacity of Director, National Shipping Authority;
(t) Carry out all other activities previously vested in the Secretary of Commerce and transferred pursuant to Public Law 97-31;
(u) Carry out the functions vested in the Secretary by section 3(d) of the Act to Prevent Pollution from Ships (33 U.S.C. 1902(d)) as it relates to ships owned or operated by the Maritime Administration when engaged in non-commercial service;
(v) Carry out the responsibilities and exercise the authorities of the Secretary of Transportation under the Maritime Security Act of 1996, Public Law 104-239;
(w) Carry out the provisions of subtitle B of Public Law 101-624;
(x) Carry out the responsibilities and exercise the authorities of the Secretary of Transportation under sections 1008, 1009, and 1013 of Public Law 104-324;
(y) Carry out the functions vested in the Secretary by the Oil Pollution Act of 1990 (August 18, 1990; Pub. L. 101-380; 104 Stat. 484) in sections 4115(f) relating to vessel financing and 4117 relating to a feasibility study of an oil pollution prevention program. (See 49 CFR 1.46 and 1.53).
(z) Carry out the functions vested in the Secretary by Section 2927, Title XXIX of the National Defense Authorization Act of 1994 (Public Law 103-160; November 30, 1993) relating to authority to convey surplus real property to public entities for use in the development or operation of port facilities.
(aa) Carry out the following powers and duties vested in the Secretary by the Deepwater Port Act of 1974, as amended (33 U.S.C. 1501-1524):
§ 1.67 Delegations to Maritime Subsidy Board.

(a) The Maritime Subsidy Board is delegated authority to:

(1) Carry out all functions previously vested in the Secretary of Commerce pursuant to section 105(1) (except the last proviso thereto and readjustments in determinations of operating cost differentials not requiring a hearing and contractual changes reducing or realigning service requirements not involving additional subsidy or requiring a section 605(c) hearing under the Act (46 App. U.S.C. 1175(c)), section 105(2), and, insofar as applicable to these functions, section 105(3) of Reorganization Plan No. 21 of 1950, and section 202(b)(1) of Reorganization Plan No. 7 of 1961, except investigations, hearings and determinations, including changes in determinations, with respect to minimum manning scales, minimum wage scales, and minimum working conditions referred to in section 301(a) of the Merchant Marine Act, 1936, as amended (46 App. U.S.C. 1101 et seq.).

(2) Carry out all functions previously vested in the Secretary of Commerce pursuant to section 103(e) of Reorganization Plan No. 7 of 1961 and section 202(b)(2) (except requiring the filing of reports, accounts, records, rates, charges, and memoranda under section 21 of the Shipping Act, 1916, as amended, and making reports and recommendations to Congress) and section 202(b)(3) of Reorganization Plan No. 7 of 1961, insofar as said functions relate to the functions described in paragraph (a)(1) of this section.

(3) Execute and sign, by and through any member of the Board or the Secretary or an Assistant Secretary of the Board, contracts and other documents authorized or approved by the Board pursuant to paragraphs (a)(1) and (a)(2) of this section. The execution of such contracts or documents may be attested, under the seal of the Department of Transportation, by the Secretary or an Assistant Secretary of the Maritime Subsidy Board.

(b) The Maritime Subsidy Board may exercise other authorities of the Secretary of Transportation as applicable to performing the functions assigned to the Board in this part.

(c) The Board is composed of the Maritime Administrator, the Deputy Maritime Administrator, and the Chief Counsel of the Administration, and during a vacancy in any one of those offices, the person acting in such capacity shall be a member of the Board, unless the Secretary of Transportation designates another person. In case there still is a vacancy in the Board or in the absence or disability of one of its members, the Secretary of Transportation designates another person. In case there still is a vacancy in the Board or in the absence or disability of one of its members, the Secretary of Transportation designates another person.
the Board, while serving in that capacity, shall act pursuant to direct authority from the Secretary of Transportation and exercise judgment independent of authority otherwise delegated to the Maritime Administrator. The Maritime Administrator or the Acting Maritime Administrator serves as Chairperson of the Board. The concurring votes of two members shall be sufficient for the disposition of any matter which may come before the Board.

d) The Chairperson of the Maritime Subsidy Board may make use of officers and employees of the Maritime Administration to perform activities for the Board. Employees of the Maritime Administration may be designated as the Secretary or Assistant Secretaries of the Board.

§ 1.68 [Reserved]

§ 1.69 Delegations to the Director of Intelligence and Security.

The Director of Intelligence and Security is delegated authority to:

(b) Equal Pay Act of 1963 (enacted as section 6(d) of the Fair Labor Standards Act of 1938, 29 U.S.C. 206(d)).

(c) Alcohol, Drug Abuse, and Mental Health Administration Reorganization Act, 42 U.S.C. 290dd(b).

(d) 29 CFR Parts 1600 through 1691 (Equal Employment Opportunity Commission Regulations).

(e) Department of Transportation Coast Guard Military Justice Manual, CG-488, Part 700-9 (Civil Rights Complaints).

(i) Executive Order No. 12898, Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations. (In coordination with the Assistant Secretary for Transportation Policy.)

(j) 49 U.S.C. 47113, 47107, and 47123 (formerly sections 505(f), 511(a)(17), and 520 of the Airport and Airway Improvement Act of 1982, as amended).

(m) 49 U.S.C. 306.
§ 1.71 Delegations to the Director of the Bureau of Transportation Statistics.

The Director of the Bureau of Transportation Statistics is delegated authority to exercise powers and perform duties under the following statutes:

(a) Aviation information. (1) 49 U.S.C. 329(b)(1), relating to collection and dissemination of information on civil aeronautics;
(2) Section 4(a)(7) of the Civil Aeronautics Board Sunset Act of 1984 (October 4, 1984; Pub. L. 98-443), relating to the reporting of the extension of unsecured credit to political candidates (section 401, Federal Election Campaign Act of 1971; 2 U.S.C. 451), in conjunction with the General Counsel and the Assistant Secretary for Aviation and International Affairs; and
(3) 49 U.S.C. 40113 (relating to taking such actions and issuing such regulations as may be necessary to carry out responsibilities under the Act), 49 U.S.C. 41702 (relating to the duty of carriers to provide safe and adequate service), 49 U.S.C. 41708 and 41709 (relating to the requirement to keep information and the forms in which it is to be kept), and 49 U.S.C. 41701 (relating to establishing just and reasonable classifications of carriers and rules to be followed by each) as appropriate to carry out the responsibilities under this paragraph in conjunction with the General Counsel and the Assistant Secretary for Aviation and International Affairs.

(b) Motor carrier information. 49 U.S.C. 14123, relating to the collection and dissemination of information on motor carriers.

§ 1.72 Delegations to the Office of the Chief Information Officer.

(a) Carry out all functions and responsibilities assigned to the Secretary with respect to the Paperwork Reduction Act of 1995 (44 U.S.C. 3506);
(b) Carry out all functions and responsibilities assigned to the Secretary with respect to the Clinger-Cohen Act of 1996 (40 U.S.C. 1422 to 1424, 1427);
(c) Carry out all functions and responsibilities assigned to the Secretary with respect to the Computer Security Act of 1987 (40 U.S.C. 759, 759 notes);
(d) Approve waivers to Federal Information Processing Standards (FIPS) under Section 5131 of the Clinger-Cohen Act of 1996 (40 U.S.C. 1441); and
(e) Carry out all the functions and responsibilities assigned to the Secretary with respect to Executive Order 13011, Federal Information Technology, Section 2, paragraphs (a), (b), (d), (e), and (f).

APPENDIX A TO PART 1—DELEGATIONS AND REDELEGATIONS BY SECRETARIAL OFFICERS

1. Director of Budget. The Assistant Secretary for Budget and Programs has redelegated to the Director of Budget authority to:
(a) Request apportionment and reapportionment of funds by the Office of Management and Budget, provided that no request for apportionment or reapportionment which anticipates the need for a supplemental appropriation shall be submitted to the Office of Management and Budget without appropriate certification by the Secretary.
(b) Issue allotments or allocations of funds to components of the Department.

2. Chief Counsel, U.S. Coast Guard. (a) The General Counsel, as Judge Advocate General for the U.S. Coast Guard, has delegated to the Chief Counsel, U.S. Coast Guard, pursuant to the Uniform Code of Military Justice, chapter 47 of title 10, United States Code, authority to exercise the following powers and duties:
(1) The authority to recommend assignment for duty of judge advocates under Article 6(a), section 806(a) of title 10, United States Code.
(2) The authority to make field inspections in connection with the administration of military justice under Article 6(a) section 806(a) of Title 10, United States Code.
(3) The authority to designate military judges; to make assignments of, and exercise direct responsibility for, military judges; and to assign, or approve the performance of,
Office of the Secretary of Transportation

other duties of a judicial or nonjudicial nature by military judges under Article 26(c), section 826(c) of title 10, United States Code.

(ii) Authority to determine whether the,...art 27(b) UCMJ.

(iii) Authority to order cases sent to the Court of Military Appeals under Article 67(b)(2), section 867(b)(2) of title 10, United States Code.

(iv) Authority to examine records of general courts-martial not reviewed under Article 66, section 866 of title 10, United States Code, and modify or set aside the findings or the sentence, or refer the record to the Court of Military Review under Article 69, section 869 of title 10, United States Code.

(v) Authority to prescribe rules not inconsistent with the Manual for Courts-Martial to govern the professional supervision and discipline of military trial and appellate judges, judge advocates, and other lawyers who practice in proceedings governed by the UCMJ and Manual for Courts-Martial.

(vi) Authority to make the recommendation of the Judge Advocate General in a court-martial case requiring approval by the Secretary or the President.

(vii) Authority to approve a vacation of suspension of dismissal of military personnel.

(b) The authority delegated by paragraph (a)(3) of this section may be redelegated only to the Deputy Chief Counsel.

(c) The Chief Counsel shall make an annual summary report of his actions taken under paragraph (a)(6) of this section of this delegation to the General Counsel of the Department of Transportation (including the number of cases subject to that authority, the number of applications for review filed, and the disposition thereof) for inclusion, as appropriate, in the Judge Advocates General and Court of Military Appeals report to Congress required by Article 67(g), section 867(g) of title 10, United States Code.

3. Chief Counsels. The General Counsel has delegated to the Chief Counsels the authority delegated to the General Counsel by Amendment 1-41 to part 1 of title 49, Code of Federal Regulations, 35 F.R. 17653, November 17, 1970, as follows:

Section 855 of the Revised Statutes, as amended by Public Law 91-393, 84 Stat. 659 (40 U.S.C. 255) authorizes the Attorney General to delegate to other departments and agencies his authority to give written approval of the sufficiency of the title to land being acquired by the United States. The Attorney General has delegated to the Assistant Attorney General in charge of the Land and Natural Resources Division the authority to make delegations under that law to other Federal departments and agencies (35 F.R. 18084; 28 C.F.R. 0.66). The Assistant Attorney General, Land and Natural Resources Division, has further delegated certain responsibilities in connection with the approval of the sufficiency of the title to lands to the Department of Transportation as follows:

DELEGATION TO THE DEPARTMENT OF TRANSPORTATION FOR THE APPROVAL OF THE TITLE TO LANDS BEING ACQUIRED FOR FEDERAL PUBLIC PURPOSES

Pursuant to the provision of Public Law 91-393, approved September 1, 1970, 84 Stat. 655, amending R.S. 355 (40 U.S.C. 255), and acting under the provisions of Order No. 440-70 of the Attorney General, dated October 2, 1970, the responsibility for the approval of the sufficiency of the title to land for the purpose for which the property is being acquired by purchase or condemnation by the United States for the use of your Department is, subject to the general supervision of the Attorney General and to the following conditions, hereby delegated to your Department.

This delegation of authority is further subject to:

1. Compliance with the regulations issued by the Assistant Attorney General on October 2, 1970, a copy of which is enclosed.

2. This delegation is limited to:
(a) The acquisition of land for which the title evidence, prepared in compliance with these regulations, consists of a certificate of title, title insurance policy, or an owner’s duplicate Torrens certificate of title.

(b) The acquisition of lands valued at $100,000 or less, for which the title evidence consists of abstracts of title or other types of title evidence prepared in compliance with said regulations.

As stated in the above-mentioned Act, any Federal department or agency which has been delegated the responsibility to approve land titles under the Act may request the Attorney General to render his opinion as to the validity of the title to any real property or interest therein, or may request the advice or assistance of the Attorney General in connection with determinations as to the sufficiency of titles.

The Chief Counsels of the United States Coast Guard, Federal Aviation Administration, Federal Highway Administration, Federal Railroad Administration, National Highway Traffic Safety Administration, Urban Mass Transportation Administration, the St. Lawrence Seaway Development Corporation, Maritime Administration, and Research and Special Programs Administration are hereby authorized to approve the sufficiency of the title to land being acquired by purchase or condemnation by the United States for the use of their respective organizations. This delegation is subject to the limitations imposed by the Assistant Attorney General, Land and Natural Resources Division, in his delegation to the Department of Transportation. Redelegation of this authority may only be made by the Chief Counsels to attorneys within their respective organizations.

If his organization does not have an attorney experienced and capable in the examination of title evidence, a Chief Counsel may, with the concurrence of the General Counsel, request the Attorney General to (1) furnish an opinion as to the validity of a title to real property or interest therein, or (2) provide advice or assistance in connection with determining the sufficiency of the title.

(49 CFR 1.45(a) and 1.53(a); 49 U.S.C. 322)

EDITORIAL NOTE: For Federal Register citations affecting appendix A to part 1, see the List of CFR Sections Affected in the Finding Aids section of this volume.

§ 3.1 Description.

The official seal of the Department of Transportation is described as follows: A white abstract triskelion figure signifying motion appears within a circular blue field. The figure is symmetrical. The three branches of the figure curve outward in a counter-clockwise direction, each tapering almost to a point at the edge of the field. Surrounding the blue circle is a circular ring of letters. The upper half of the ring shows the words “Department of Transportation”. The lower half of the ring shows the words “United States of America”. The letters may be shown in either black or medium gray. The official seal of the Department is modified when embossed. It appears below in black and white.

49 CFR Subtitle A (10-1-98 Edition)

PART 5—RULEMAKING PROCEDURES

Subpart A—General

5.1 Applicability.
5.3 Initiation of rulemaking.
5.5 Participation by interested persons.
5.7 Regulatory docket.

Subpart B—Petitions for Rulemaking or Exemptions

5.11 Filing of petitions.
5.13 Processing of petitions.

Subpart C—Procedures

5.21 General.
5.23 Contents of notices.
Office of the Secretary of Transportation § 5.11

§ 5.11 Filing of petitions.

(a) Any person may petition the Secretary to issue, amend, or repeal a rule, or for a permanent or temporary exemption from any rule.

(b) Each petition filed under this section must:

(1) Be submitted in duplicate to the Docket Clerk, Office of the General Counsel, Department of Transportation, Washington, DC 20590.

(2) Set forth the text or substance of the rule or amendment proposed, or of the rule from which the exemption is sought, or specify the rule that the petitioner seeks to have repealed, as the case may be;

(3) Explain the interest of the petitioner in the action requested including, in the case of a petition for an exemption, the nature and extent of the relief sought and a description of the persons to be covered by the exemption;
§ 5.13 Processing of petitions.

(a) General. Each petition received under §5.11 of this part is referred to the head of the office responsible for the subject matter of that petition. No public hearing, argument, or other proceeding is held directly on a petition before its disposition under this section.

(b) Grants. If the Secretary determines that the petition contains adequate justification, he initiates rule-making action under subpart C of this part or grants the exemption, as the case may be.

(c) Denials. If the Secretary determines that the petition does not justify initiating rule-making action or granting the exemption, he denies the petition.

(d) Notification. Whenever the Secretary determines that a petition should be granted or denied, the office concerned and the Office of the General Counsel prepare a notice of that grant or denial for issuance to the petitioner, and the Secretary issues it to the petitioner.

Subpart C—Procedures

§ 5.21 General.

(a) Unless the Secretary finds, for good cause, that notice is impractical, unnecessary, or contrary to the public interest, a notice of proposed rule making is issued and interested persons are invited to participate in the rule-making proceedings with respect to each substantive rule.

(b) Unless the Secretary determines that notice and public rulemaking proceedings are necessary or desirable, interpretive rules, general statements of policy, and rules relating to organization, procedure, or practice are prescribed as final without notice or other public rulemaking proceedings.

(c) In his discretion, the Secretary may invite interested persons to participate in the rulemaking proceedings described in §5.29 of this subpart.

§ 5.23 Contents of notices.

(a) Each notice of proposed rule-making is published in the Federal Register, unless all persons subject to it are named and are personally served with a copy of it.

(b) Each notice, whether published in the Federal Register or personally served, includes:

(1) A statement of the time, place, and nature of the proposed rule-making proceeding;

(2) A reference to the authority under which it is issued;

(3) A description of the subjects or issues involved or the substance or terms of the proposed rule;

(4) A statement of the time within which written comments must be submitted and the required number of copies; and

(5) A statement of how and to what extent interested persons may participate in the proceeding.

§ 5.25 Petitions for extension of time to comment.

(a) Any person may petition the Secretary for an extension of time to submit comments in response to a notice of proposed rulemaking. The petition must be submitted in duplicate not later than 3 days before expiration of the time stated in the notice. The filing of the petition does not automatically extend the time for petitioner's comments.

(b) The Secretary grants the petition only if the petitioner shows a substantive interest in the proposed rule and good cause for the extension, and if the extension is in the public interest. If an extension is granted, it is granted as to all persons and is published in the Federal Register.

§ 5.27 Consideration of comments received.

All timely comments are considered before final action is taken on a rulemaking proposal. Late filed comments may be considered so far as possible without incurring additional expense or delay.
Office of the Secretary of Transportation

§ 5.29 Additional rulemaking proceedings.

The Secretary may initiate any further rulemaking proceedings that he finds necessary or desirable. For example, he may invite interested persons to present oral arguments, participate in conferences, appear at informal hearings, or participate in any other proceeding.

§ 5.31 Hearings.

(a) Sections 556 and 557 of title 5, United States Code, do not apply to hearings held under this part. As a fact-finding proceeding, each hearing is nonadversary and there are no formal pleadings or adverse parties. Any rule issued in a case in which a hearing is held is not necessarily based exclusively on the record of the hearing.

(b) The Secretary designates a representative to conduct any hearing held under this part. The General Counsel designates a member of his staff to serve as legal officer at the hearing.

§ 5.33 Adoption of final rules.

Final rules are prepared by representatives of the office concerned and the Office of the General Counsel. The rule is then submitted to the Secretary for his consideration. If the Secretary adopts the rule, it is published in the Federal Register, unless all persons subject to it are named and are personally served with a copy of it.

APPENDIX A TO PART 5

Pursuant to §5.1(b), the following officials of the Office of the Secretary of Transportation are authorized to conduct rulemaking proceedings under this part, as specified in this appendix:

(1) The General Counsel is authorized to conduct all rule-making proceedings, except the issuance of final rules, under the Act of March 19, 1918, ch. 24, as amended (15 U.S.C. 261-264); the Uniform Time Act of 1966 (80 Stat. 107, 15 U.S.C. 260-267); and section 6(e)(5) of the Department of Transportation Act (80 Stat. 939, 49 U.S.C. 1655(e)(5)).

(2) The General Counsel is authorized to determine the practicability of applying the standard time of any standard time zone to the movements of any common carrier engaged in interstate or foreign commerce, and, under section 2 of the Act of March 19, 1918, ch. 24, as amended (15 U.S.C. 262), to issue operating exceptions in any case in which he determines that it is impractical to apply the standard time.

SOURCE: 48 FR 1070, Jan. 10, 1983, unless otherwise noted.

Subpart A—General Provisions

§ 6.1 Purpose of these rules.

The Equal Access to Justice Act, 5 U.S.C. 504 (called “the Act” in this part), provides for the award of attorney fees and other expenses to eligible individuals and entities who are parties to certain administrative proceedings (called “adversary adjudications”) before government agencies, such as the Department of Transportation or any of its operating administrations. The rules in this part describe the parties eligible for awards and the proceedings that are covered. They also explain how to apply for awards, and the procedures and standards that this agency will use to make them. The use of the term “Department”, in this rule, will
§ 6.3 Applicability.

Section 6.9(a) applies to any adversary adjudication pending before the Department on or after October 1, 1981. In addition, applicants for awards must also meet the standards of §6.9(b) for any adversary adjudication commenced on or after March 29, 1996.

§ 6.5 Proceedings covered.

(a) The Act applies to adversary adjudications conducted by the Department of Transportation. These are adjudications under 5 U.S.C. 554 in which the position of the Department is represented by an attorney or other representative who enters an appearance and participates in the proceeding. Coverage of the Act begins at designation of a proceeding or issuance of a charge sheet. Any proceeding in which the Department may prescribe or establish a lawful present or future rate is not covered by the Act. Proceedings to grant or renew licenses are also excluded, but proceedings to modify, suspend, or revoke licenses are covered if they are otherwise “adversary adjudications.” For the Department of Transportation, the types of proceedings covered include, but may not be limited to: Coast Guard suspension or revocation of licenses, certificates or documents under 46 U.S.C. 7701 et seq.; Coast Guard class II civil penalty proceedings under the Clean Water Act, 33 U.S.C. 1321(b)(6)(B)(i); Coast Guard class II penalty proceedings under the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. 9609(b); suspension and revocation of Certificates of Registry proceedings for Great Lakes Pilots pursuant to 46 CFR Part 401; National Highway Traffic Safety Administration (NHTSA) automotive fuel economy enforcement under 49 U.S.C. Chapter 329 (49 CFR Part 511); Federal Highway Administration (FHWA) enforcement of motor carrier safety regulations under 49 U.S.C. 521 and 5123 (49 CFR 386); the Department’s aviation economic enforcement proceedings conducted by its Office of Aviation Enforcement and Proceedings pursuant to 49 U.S.C. Subtitle VII, 14 CFR Chapter II. Also covered are any appeal of a decision made pursuant to section 6 of the Contract Disputes Act of 1978 (41 U.S.C. 605) before an agency board of contract appeals as provided in section 8 of that Act (41 U.S.C. 607), any hearing conducted under Chapter 38 of title 31, and the Religious Freedom Restoration Act of 1993, 42 U.S.C. 2000bb et seq.

(b) If a proceeding includes both matters covered by the Act and matters specifically excluded from coverage, any award made will include only fees and expenses related to covered issues.

§ 6.6 Eligibility of applications.

(a) To be eligible for an award of attorney fees and other expenses under the Act, the applicant must be a party to an adversary adjudication for which it seeks an award. The term “party” is defined in 5 U.S.C. 504(b)(1)(B). The applicant must show that it meets all conditions of eligibility set out in this subpart and in paragraph (b) of this section.

(b) The types of eligible applicants are as follows:

1. An individual with a net worth of not more than $2 million;
2. The sole owner of an unincorporated business who has a net worth of not more than $7 million, including both personal and business interests, and not more than 500 employees;
3. A charitable or other tax-exempt organization as described in section 501(c)(3) of the Internal Revenue Code (26 U.S.C. 501(c)(3)) with not more than 500 employees;
4. A cooperative association as defined in section 15(a) of the Agricultural Marketing Act (12 U.S.C. 1141j(a)) with a net worth of not more than $5 million and not more than 500 employees;
5. Any other partnership, corporation, association, or public or private.
§ 6.9 Standards for awards.

(a) An eligible applicant may receive an award for fees and expenses incurred by that party in connection with a decision in favor of the applicant in a proceeding covered by this Part, unless the position of the Department over which the applicant has prevailed was substantially justified or special circumstances make the award sought unjust. The burden of proof that an award should not be made to an eligible applicant is on the Department where it has initiated the proceeding. No presumption arises that the Department's position was not substantially justified simply because the Department did not prevail. Whether or not the position of the Department was substantially justified shall be determined on the basis of the administrative record, as a whole, in the adversary adjudication for which fees and other expenses are sought. The "position of the Department" means, in addition to the position taken by the agency in the adversary adjudication, the action or failure to act by the Department upon which the adversary adjudication may be based.

(b) In the context of a Departmental proceeding to enforce a party's compliance with a statutory or regulatory requirement, if the demand by the Department is substantially in excess of the amount awarded to the government pursuant to the decision of the adjudicative officer and is unreasonable when compared with such decision, under the facts and circumstances of the case, the adjudicative officer shall award to an eligible applicant party the fees and expenses related to defending against the excessive demand, unless the applicant party has committed a willful violation of law or otherwise acted in bad faith, or special circumstances make an award unjust. Fees and expenses awarded under this paragraph shall be paid only as a consequence of appropriations provided in advance. As used in this section, "demand" means the express demand of

office of the Secretary of Transportation § 6.9

organization with a net worth of not more than $7 million and not more than 500 employees.

(6) For the purposes of §6.9(b), eligible applicants include small entities as defined in 5 U.S.C. 601.

(c) For the purpose of eligibility, the net worth and number of employees of an applicant shall be determined as of the date the proceeding was designated.

(d) An applicant who owns an unincorporated business will be considered an "individual" rather than a "sole owner of an unincorporated business" if the issues on which the applicant prevails are related primarily to personal interests rather than to business interests.

(e) The number of employees of an applicant includes all persons who regularly perform services for remuneration for the applicant, under the applicant's direction and control. Part-time employees shall be included on a proportional basis.

(f) The net worth and number of employees of the applicant and all of its affiliates shall be aggregated to determine eligibility. Any individual, corporation or other entity that directly or indirectly controls or owns a majority of the voting shares or other interest of the applicant, or any corporation or other entity of which the applicant directly or indirectly owns or controls a majority of the voting shares or other interest, will be considered an affiliate for purposes of this part, unless the administrative law judge determines that such treatment would be unjust and contrary to the purposes of the Act in light of the actual relationship between the affiliated entities. In addition, the administrative law judge may determine that financial relationships of the applicant other than those described in this paragraph constitute special circumstances that would make an award unjust.

(g) An applicant that participates in a proceeding primarily on behalf of one or more other persons or entities that would be ineligible is not itself eligible for an award.

(h) An applicant who appears pro se in a proceeding is ineligible for award of attorney fees. However, eligibility for other expenses is not affected by pro se representation.

the Department which led to the adversary adjudication, but does not include a recitation by the Department of the maximum statutory penalty
   (i) In the administrative complaint, or
   (ii) Elsewhere when accompanied by an express demand for a lesser amount.
   (c) The decision of the Department on the application for fees and other expenses shall be the final administrative decision under this section.
   (d) An award will be reduced or denied if the applicant has unduly or unreasonably protracted the proceeding.

§ 6.13 Delegations of authority.

The Secretary of Transportation delegates to the head of each operating administration of this Department the authority to take final action, other than rulemaking, on matters pertaining to the Act in actions that require section 554 proceedings. The head of each operating administration may redelegate this authority.

Subpart B—Information Required from Applicants

§ 6.17 Contents of application.

(a) An application for an award of fees and expenses under the Act shall identify the applicant and the proceeding for which an award is sought. The application shall show that the applicant has prevailed and identify the position of an agency or agencies in the proceeding that the applicant alleges was not substantially justified. Unless the applicant is an individual, the application shall also state that it did not have more than 500 employees at the time the proceeding was initiated, giving the number of employees of the applicant and describing briefly the type and purpose of its organization or business.

(b) The application shall also include a statement that the applicant’s net worth does not exceed $1 million (if an individual) or $5 million (for all other applicants, including their affiliates). However, an applicant may omit this statement if:
   (1) It attaches a copy of a ruling by the Internal Revenue Service that it qualifies as an organization described in section 501(c)(3) of the Internal Revenue Code (26 U.S.C. 501(c)(3)) or, in the case of a tax-exempt organization not required to obtain a ruling from the Internal Revenue Service on its exempt status, a statement that describes the basis for the applicant’s belief that it qualifies under such section; or

49 CFR Subtitle A (10-1-98 Edition)

§ 6.11 Allowable fees and expenses.

(a) Awards will be based on rates customarily charged by persons engaged in the business of acting as attorneys, agents or expert witnesses.

(b) No award for the fee of an attorney or agent under these rules may exceed $125.00 per hour. This amount shall include all other expenses incurred by the attorney or agent in connection with the case. No award to compensate an expert witness may exceed the highest market rate at which the Department pays expert witnesses, or $24.09 per hour, whichever is less.

(c) In determining the reasonableness of the fee sought for an attorney, agent or expert witness, the administrative law judge shall consider the following:
   (1) If the attorney, agent or witness is in private practice, his or her customary fee for similar services, or, if an employee of the applicant, the fully allocated cost of the services;
   (2) The prevailing rate for similar services in the community in which the attorney, agent or witness ordinarily performs services;
   (3) The time actually spent in the representation of the applicant;
   (4) The time reasonably spent in light of the difficulty or complexity of the issues in the proceeding; and
   (5) Such other factors as may bear on the value of the services provided.

(d) The reasonable cost of any study, analysis, engineering report, test, project or similar matter prepared on behalf of a party may be awarded, to the extent that the charge for the service does not exceed the prevailing rate for similar services, and the study or other matter was necessary for preparation of the applicant’s case.

(e) Fees may be awarded only for work performed after designation of a proceeding.

(2) It states that it is a cooperative association as defined in section 15(a) of the Agricultural Marketing Act (12 U.S.C. 114j(a)).

(c) The application shall state the amount of fees and expenses for which an award is sought.

(d) The application may also include any other matters that the applicant wishes this agency to consider in determining whether and in what amount an award should be made.

(e) The application shall be signed by the applicant or an authorized officer or attorney of the applicant. It shall also contain or be accompanied by a written verification under oath or under penalty of perjury that the information provided in the application is true and correct.

(f) If the applicant is a partnership, corporation, association, or organization, or a sole owner of an unincorporated business, the application shall state that it did not have more than 500 employees at the time the proceeding was initiated, giving the number of its employees and describing briefly the type and purpose of its organization or business.

§ 6.21 Documentation of fees and expenses.

(a) The application shall be accompanied by full documentation of the fees and expenses, including the cost of any study, analysis, engineering report, test, project or similar matter, for which an award is sought.

(b) The documentation shall include an affidavit from any attorney, agent, or expert witness representing or appearing in behalf of the party, stating the actual time expended and the rate at which fees and other expenses were computed and describing the specific services performed.

(1) The affidavit shall state the services performed. In order to establish the hourly rate, the affidavit shall state the hourly rate which is billed and paid by the majority of clients during the relevant time periods.

(2) If no hourly rate is paid by the majority of clients because, for instance, the attorney or agent represents most clients on a contingency basis, the attorney or agent shall provide information about two attorneys or agents with similar experience, who perform similar work, stating their hourly rate.

(c) The documentation shall also include a description of any expenses for which reimbursement is sought and a statement of the amounts paid and payable by the applicant or by any other person or entity for the services provided.

(d) The administrative law judge may require the applicant to provide vouchers, receipts, or other substantiation for any expenses claimed.
§ 6.23

(e) The administrative law judge may, within his or her discretion, make a determination as to whether a study, conducted by the applicant, was necessary to the preparation of the applicant's case.

Subpart C—Procedures for Considering Applications

§ 6.23 Filing and service of documents.

Any application for an award or other pleading or document related to an application shall be filed and served on all parties to the proceeding in the same manner as other pleadings in the proceeding.

§ 6.25 Answer to application.

(a) Within 30 calendar days after service of an application, the agency counsel may file an answer to the application. Unless the agency counsel requests an extension of time for filing or files a statement of intent to negotiate under paragraph (b) of this section, failure to file an answer within the 30-day period may be treated as a consent to the award request.

(b) If agency counsel and applicant believe that they can reach a settlement concerning the award, the agency counsel may file a statement of intent to negotiate. The filing of such a statement shall extend the time for filing an answer an additional 30 days.

(c) The answer shall explain in detail any objections to the award requested and identify the facts relied on in support of the Department's position. If the answer is based on any alleged facts not already in the record of the proceeding, the Department shall include with the answer either supporting affidavits or a request for further proceedings under § 6.3.

§ 6.27 Comments by other parties.

Any party to a proceeding, other than the applicant and the Department may file comments on an application within 30 days after it is served or on an answer within 15 days after it is served. A commenting party may not participate further in proceedings on the application.
§ 6.35 Agency review.
Where Department review of the underlying decision is permitted, either the applicant or agency counsel, may seek review of the initial decision on the fee application, or the Department may decide to review the decision on its own initiative. If neither the applicant nor the agency counsel seeks review within 30 days after the decision is issued, it shall become final.

§ 6.37 Judicial review.
Judicial review of final agency decisions on awards may be sought as provided in 5 U.S.C. 504(c)(2).

§ 6.39 Payment of award.
An applicant seeking payment of an award from the Department of Transportation or any of its operating administrations under this part shall submit a copy of the Department of Transportation's or any of its operating administration's final decisions granting the award, accompanied by a statement that the applicant will not seek review of the decision in the United States courts. The copy of the decision and the statement should be submitted to the head of the affected operating administration or the Secretary of Transportation, where the Department of Transportation, Office of the Secretary, has initiated the proceedings.

PART 7—PUBLIC AVAILABILITY OF INFORMATION

Subpart A—General Provisions

Sec.
7.1 General.
7.2 Definitions.

Subpart B—Information Required to be Made Public by DOT

7.3 Publication in the Federal Register.
7.4 Publication required.
7.5 Availability of opinions, orders, staff manuals, statements of policy, and interpretations and indices.
7.6 Deletion of identifying detail.
7.7 Access to materials and indices.
7.8 Copies.
7.9 Protection of records.
7.10 Public records.

§ 7.1 Subpart C—Availability of Reasonably Described Records Under the Freedom of Information Act

7.11 Applicability.
7.12 Administration of subpart.
7.13 Records available.
7.14 Requests for records.
7.15 Contacts for records requested under the FOIA.
7.16 Requests for records of concern to more than one government organization.
7.17 Consultation with submitters of commercial and financial information.

Subpart D—Procedures for Appealing Decisions Not to Disclose Records and/or Waive Fees

7.21 General.

Subpart E—Time Limits

7.31 Initial determinations.
7.32 Final determinations.
7.33 Extension.

Subpart F—Fees

7.41 General.
7.42 Payment of fees.
7.43 Fee schedule.
7.44 Services performed without charge or at a reduced charge.
7.45 Transcripts.
7.46 Alternative sources of information.

Source: Amdt. 1, 63 FR 38331, July 16, 1998, unless otherwise noted.
§ 7.2 Definitions.

As used in this part—

Administrator means the head of each DOT component of DOT and includes the Commandant of the Coast Guard, the Inspector General, and the Director of the Bureau of Transportation Statistics.

Concurrence means that the approval of the person being consulted is required in order for the subject action to be taken.

Consultation means that the approval of the person being consulted is not required in order for the subject action to be taken.

Department or DOT means the Department of Transportation, including the Office of the Secretary of Transportation, the Office of the Inspector General, and the following DOT components, all of which may be referred to as DOT components. Means of contacting each of these DOT components appear in §7.15. This definition specially excludes the Surface Transportation Board, which has its own FOIA regulations (49 CFR Part 1001):

1. United States Coast Guard,
2. Federal Aviation Administration,
3. Federal Highway Administration,
4. Federal Railroad Administration,
5. National Highway Traffic Safety Administration,
6. Federal Transit Administration,
7. Saint Lawrence Seaway Development Corporation,
8. Maritime Administration,
9. Research and Special Programs Administration, and

Primary Electronic Access Facility means the electronic docket facility in the DOT Headquarters Building, 400 7th Street, S.W., Washington, D.C. 20590.

Reading room records are those records required to be made available to the public under 5 U.S.C. 552(a)(2) as described in §7.5 of Subpart B of this part. These records are made available through DOT’s Primary Electronic Access Facility. Other records may also be made available at DOT’s discretion at DOT inspection facilities, including DOT’s Primary Electronic Access Facility.

Record includes any writing, drawing, map, recording, tape, film, photograph, or other documentary material by which information is preserved. The term also includes any such documentary material stored by computer.

Responsible DOT official means the head of the DOT component concerned, or the General Counsel or the Inspector General, as the case may be, or the designee of any of them, authorized to take an action under this part.

Secretary means the Secretary of Transportation or any person to whom the Secretary has delegated authority in the matter concerned.

Subpart B—Information Required To Be Made Public by DOT

§ 7.3 Publication in the Federal Register.

This section implements 5 U.S.C. 552(a)(1), and prescribes rules governing publication in the Federal Register of the following:

(a) Descriptions of DOT’s organization, including its DOT components and the established places at which, the officers from whom, and the methods by which, the public may secure information and make submittals or obtain decisions;

(b) Statements of the general course and methods by which DOT’s functions are channeled and determined, including the nature and requirements of all formal and informal procedures available;

(c) Rules of procedure, descriptions of forms available or the places at which forms may be obtained, and instructions as to the scope and contents of all papers, reports, or examinations;

(d) Substantive rules of general applicability adopted as authorized by law and statements of general policy or
interpretations of general applicability formulated and adopted by DOT; and
(e) Each amendment, revision, or repeal of any material listed in paragraphs (a) through (d) of this section.

§ 7.4 Publication required.
(a) General. The material described in §7.3 will be published in the Federal Register. For the purposes of this paragraph, material that will reasonably be available to the class of persons affected by it will be considered to be published in the Federal Register if it has been incorporated by reference with the approval of the Director of the Federal Register.

(b) Effect of nonpublication. Except to the extent he/she has actual and timely notice of the terms thereof, a person may not in any manner be required to resort to, or be adversely affected by, any procedure or matter required to be published in the Federal Register, but not so published.

§ 7.5 Availability of opinions, orders, staff manuals, statements of policy, and interpretations and indices.
(a) This section implements 5 U.S.C. 552(a)(2). It prescribes the rules governing the availability for public inspection and copying of the following reading room materials:
1. Any final opinion (including a concurring or dissenting opinion) or order made in the adjudication of a case.
2. Any policy or interpretation that has been adopted under DOT authority, including any policy or interpretation concerning a particular factual situation, if that policy or interpretation can reasonably be expected to have precedential value in any case involving a member of the public in a similar situation.
3. Any administrative staff manual or instruction to staff that affects any member of the public, including the prescribing of any standard, procedure, or policy that, when implemented, requires or limits any action of any member of the public or prescribes the manner of performance of any activity by any member of the public. However, this does not include staff manuals or instructions concerning internal operating rules, practices, guide-

§ 7.6 Deletion of identifying detail.
Whenever it is determined to be necessary to prevent a clearly unwarranted invasion of personal privacy, identifying details will be deleted from any record covered by this subpart that is published or made available for inspection. Whenever it is determined to be necessary to prevent the disclosure of information required or authorized to be withheld by another Federal statute, such information shall be deleted from any record covered by this subpart that is published or made available for inspection. A full explanation of the justification for the deletion will accompany the record published or made available for inspection.

§ 7.7 Access to materials and indices.
(a) Except as provided in paragraph (b) of this section, material listed in §7.5 will be made available for inspection and copying to any member of the
§ 7.8 Copies

Copies of any material covered by this subpart that is not published and offered for sale may be ordered, upon payment of the appropriate fee, from the Docket Offices listed in § 7.10. Copies will be certified upon request and payment of the fee prescribed in § 7.43(f).

§ 7.9 Protection of records.

(a) Records made available for inspection and copying may not be removed, altered, destroyed, or mutilated.

(b) 18 U.S.C. 641 provides for criminal penalties for embezzlement or theft of government records.

(c) 18 U.S.C. 2071 provides for criminal penalties for the willful and unlawful concealment, mutilation or destruction of, or the attempt to conceal, mutilate, or destroy, government records.

§ 7.10 Public Records.

Publicly available records are located in DOT’s Primary Electronic Access Facility at 400 7th Street, S.W., Washington, D.C. 20590.

(a) The Primary Electronic Access Facility maintains materials for the Office of the Secretary, including former Civil Aeronautics Board materials, and materials for the DOT components. This facility is located at Plaza Level 401, and the hours of operation are 10:00-17:00.

(b) Certain DOT components also maintain public record units at regional offices and at the offices of the Commandant and District Commanders of the United States Coast Guard. These facilities are open to the public Monday through Friday except Federal holidays, during regular working hours. The Saint Lawrence Seaway Development Corporation has facilities at 180 Andrews Street, Massena, New York 13662-0520.

(c) Operating Administrations may have separate facilities for manual records. Additional information on the location and hours of operations for Docket Offices and inspection facilities can be obtained through DOT’s Primary Electronic Access Facility, at (202) 366-9322.

Subpart C—Availability of Reasonably Described Records Under the Freedom of Information Act

§ 7.11 Applicability.

(a) This subpart implements 5 U.S.C. 552(a)(3), and prescribes the regulations governing public inspection and copying of reasonably described records under FOIA.

(b) This subpart does not apply to:

(1) Records published in the Federal Register, opinions in the adjudication of cases, statements of policy and interpretations, and administrative staff manuals that have been published or made available under subpart B of this part.

(2) Records or information compiled for law enforcement purposes and covered by the disclosure exemption described in § 7.13(c)(7) if—

(i) The investigation or proceeding involves a possible violation of criminal law; and

(ii) There is reason to believe that—

(A) The subject of the investigation or proceeding is not aware of its pendency, and

(B) Disclosure of the existence of the records could reasonably be expected to interfere with enforcement proceedings.
Office of the Secretary of Transportation  § 7.13

(3) Informant records maintained by a criminal law enforcement component of DOT under an informant’s name or personal identifier, if requested by a third party according to the informant’s name or personal identifier, unless the informant’s status as an informant has been officially confirmed.

§ 7.12 Administration of subpart.

Authority to administer this subpart and to issue determinations with respect to initial requests is delegated as follows:

(a) To the General Counsel for the records of the Office of the Secretary other than the Office of Inspector General.

(b) To the Inspector General for records of the Office of Inspector General.

(c) To the Administrator of each DOT component, who may redelegate to officers of that administration the authority to administer this part in connection with defined groups of records. However, each Administrator may redelegate the duties under subpart D of this part to consider appeals of initial denials of requests for records only to his or her deputy or to not more than one other officer who reports directly to the Administrator and who is located at the headquarters of that DOT component.

§ 7.13 Records available.

(a) Policy. It is DOT policy to make its records available to the public to the greatest extent possible, in keeping with the spirit of FOIA. This includes providing reasonably segregable information from documents that contain information that may be withheld.

(b) Statutory disclosure requirement. FOIA requires that DOT, on a request from a member of the public submitted in accordance with this subpart, make requested records available for inspection and copying.

(c) Statutory exemptions. Exempted from FOIA’s statutory disclosure requirement are matters that are:

(i) Specifically authorized under criteria established by Executive Order to be kept secret in the interest of national defense or foreign policy, and

(ii) In fact properly classified pursuant to such Executive order;

(ii) Related solely to the internal personnel rules and practices of an agency;

(iii) Specifically exempted from mandatory disclosure by statute (other than the Privacy Act or the Government in the Sunshine Act), provided that such statute—

(i) Requires that the matters be withheld from the public in such a manner as to leave not any discretion on the issue, or

(ii) Establishes particular criteria for withholding or refers to particular criteria for withholding or refers to particular types of matters to be withheld;

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Inter-agency or intra-agency memorandums or letters that would not be available by law to a party other than an agency in litigation with the agency;

(6) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Records or information compiled for law enforcement purposes, but only to the extent that the production of such law enforcement records or information—

(i) Could reasonably be expected to interfere with enforcement proceedings,

(ii) Would deprive a person of a right to a fair or an impartial adjudication,

(iii) Could reasonably be expected to constitute an unwarranted invasion of personal privacy,

(iv) Could reasonably be expected to disclose the identity of a confidential source, including a State, local, Tribal, or foreign agency or authority or any private institution that furnished information on a confidential basis, and, in the case of a record or information compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, information furnished by a confidential source,

(v) Would disclose techniques and procedures for law enforcement investigations or prosecutions or would disclose guidelines for law enforcement investigations or prosecutions if such
§ 7.14 Requests for records.

(a) Each person desiring access to or a copy of a record covered by this subpart shall comply with the following provisions:

1. A written request must be made for the record.

2. Such request should indicate that it is being made under FOIA.

3. The envelope in which a mailed request is sent should be prominently marked: “FOIA.”

4. The request should be addressed to the appropriate office as set forth in §7.15.

5. The request should state the format (e.g., paper, microfiche, computer diskette, etc.) in which the information is sought, if the requestor has a preference.

(b) If the requirements of paragraph (a) of this section are not met, treatment of the request will be at the discretion of the agency. The twenty-day limit for responding to requests, described in §7.31, will not start to run until the request has been identified, or would have been identified with the exercise of due diligence, by an employee of DOT as a request pursuant to FOIA and has been received by the office to which it should have been originally sent.

(c) Form of requests. (1) Each request should describe the particular record to the fullest extent possible. The request should describe the subject matter of the record, and, if known, indicate the date when it was made, the place where it was made, and the person or office that made it. If the description does not enable the office handling the request to identify or locate the record sought, that office will notify the requestor and, to the extent possible, indicate the additional data required.

2. Each request shall—

(i) Specify the fee category (commercial use, news media, educational institution, noncommercial scientific institution, or other) in which the requestor claims the request to fall and the basis of this claim (see subpart F of this part for fees and fee waiver requirements),

(ii) State the maximum amount of fees that the requestor is willing to pay, or include a request for a fee waiver, and

(iii) A request seeking a fee waiver shall, to the extent possible, address why the requestor believes that the criteria for fee waivers set out in §7.44(f) are met.

3. Requesters are advised that the time for responding to requests set forth in subpart E will not begin to run—

(i) If a requestor has not sufficiently identified the fee category applicable to the request,

(ii) If a requestor has not stated a willingness to pay fees as high as anticipated by DOT,

(iii) If a fee waiver request is denied and the requestor has not included an alternative statement of willingness to pay fees as high as anticipated by DOT, or

(iv) If a fee waiver request does not address fee waiver criteria.

(d) Creation of records. A request may seek only records that are in existence at the time the request is received. A request may not seek records that come into existence after the date on which it is received and may not require that new records be created in response to the request by, for example, combining or compiling selected items from manual files, preparing a new...
§ 7.15 Contacts for records requested under the FOIA.

Each person desiring a record under this subpart should submit a request in writing (via paper, facsimile, or electronic mail) to the DOT component where the records are located:

(a) FOIA Offices at 400 7th Street, S.W., Washington, DC 20590:
   (1) Office of the Secretary of Transportation, Room 5432.
   (2) Federal Highway Administration, Room 4428.
   (3) National Highway Traffic Safety Administration, Room 5221.
   (4) Federal Transit Administration, Room 9400.
   (5) Maritime Administration, Room 7221.
   (6) Research and Special Programs Administration, Room 8419.
   (7) Bureau of Transportation Statistics, Room 3430.
   (8) Office of Inspector General, Room 9210.
   (b) Federal Aviation Administration, 800 Independence Avenue, S.W., Room 905A, Washington, DC 20591.
   (c) United States Coast Guard, 2100 2nd Street, S.W., Room 6106, Washington, DC 20593-0001.
   (d) Director, Office of Finance, Saint Lawrence Seaway Development Corporation, 180 Andrews Street, P.O. Box 520, Massena, New York 13662-0520.
   (e) Federal Railroad Administration, 1120 Vermont Avenue NW, 7th Floor, Washington, DC. (Mailing address: 400 Seventh St., SW, Washington, DC 20590.)
   (f) Certain DOT components also maintain FOIA contacts at regional offices and at the offices of the Commandant and District Commanders of the United States Coast Guard. Additional information on the location of these offices can be obtained through the FOIA contact offices listed in this section.

§ 7.15 Contacts for records requested under the FOIA.

Each person desiring a record under this subpart should submit a request in writing (via paper, facsimile, or electronic mail) to the DOT component where the records are located:

(a) FOIA Offices at 400 7th Street, S.W., Washington, DC 20590:
   (1) Office of the Secretary of Transportation, Room 5432.
   (2) Federal Highway Administration, Room 4428.
   (3) National Highway Traffic Safety Administration, Room 5221.
   (4) Federal Transit Administration, Room 9400.
   (5) Maritime Administration, Room 7221.
   (6) Research and Special Programs Administration, Room 8419.
   (7) Bureau of Transportation Statistics, Room 3430.
   (8) Office of Inspector General, Room 9210.
   (b) Federal Aviation Administration, 800 Independence Avenue, S.W., Room 905A, Washington, DC 20591.
   (c) United States Coast Guard, 2100 2nd Street, S.W., Room 6106, Washington, DC 20593-0001.
   (d) Director, Office of Finance, Saint Lawrence Seaway Development Corporation, 180 Andrews Street, P.O. Box 520, Massena, New York 13662-0520.
   (e) Federal Railroad Administration, 1120 Vermont Avenue NW, 7th Floor, Washington, DC. (Mailing address: 400 Seventh St., SW, Washington, DC 20590.)
   (f) Certain DOT components also maintain FOIA contacts at regional offices and at the offices of the Commandant and District Commanders of the United States Coast Guard. Additional information on the location of these offices can be obtained through the FOIA contact offices listed in this section.
§ 7.16 Requests for records of concern to more than one government organization.

(a) If the release of a record covered by this subpart would be of concern to both DOT and another Federal agency, the determination as to whether such a record may be released will be made by DOT only after consultation with the other interested agency.

(b) If the release of the record covered by this subpart would be of concern to both DOT and a State, local, or Tribal government, a territory or possession of the United States, or a foreign government, the determination as to whether such a record may be released will be made by DOT only after consultation with the interested government.

(c) Alternatively, DOT may refer the request (or relevant portion thereof) for decision by a Federal agency that originated or is substantially concerned with the records, but only if that agency is subject to FOIA. Such referrals will be made expeditiously and the requestor notified in writing that a referral has been made.

§ 7.17 Consultation with submitters of commercial and financial information.

(a) If a request is received for information that has been designated by the submitter as confidential commercial information, or which DOT has some other reason to believe may contain information of the type described in §7.13(c)(4), the submitter of such information will, except as is provided in paragraphs (c) and (d) of this section, be notified expeditiously and asked to submit any written objections to release. At the same time, the requestor will be notified of the decision to submit any written objections to release. The submitter will, to the extent permitted by law, be afforded a reasonable period of time within which to provide a detailed statement of any such objections. The submitter’s statement shall specify all grounds for withholding any of the information. The burden shall be on the submitter to identify all information for which exempt treatment is sought and to persuade the agency that the information should not be disclosed.

(b) The responsible DOT component will, to the extent permitted by law, consider carefully a submitter’s objections and specific grounds for non-disclosure prior to determining whether to disclose business information. Whenever a decision is made to disclose such information over the objection of a submitter, the office responsible for the decision will forward to the submitter a written notice of intent to disclose that will, to the extent permitted by law, be forwarded to the submitter a reasonable number of days prior to the specified date upon which disclosure is intended. At the same time the submitter is notified, the requestor will be notified of the decision to disclose information. The written notice will include:

1. A statement of the reasons for which the submitter’s disclosure objections were not accepted;
2. A description of the business information to be disclosed; and
3. A specific disclosure date.

(c) The notice requirements of this section will not apply if:

1. The office responsible for the decision determines that the information should not be disclosed;
2. The information lawfully has been published or otherwise made available to the public; or
3. Disclosure of the information is required by law (other than 5 U.S.C. 552).

(d) The procedures established in this section will not apply in the case of:

2. Information contained in a document to be filed or in oral testimony that is sought to be withheld pursuant to Rule 39 of the Rules of Practice in
Office of the Secretary of Transportation

(e) Whenever a requestor brings suit seeking to compel disclosure of confidential commercial information, the responsible DOT component will promptly notify the submitter.

Subpart D—Procedures for Appealing Decisions Not to Disclose Records and/or Waive Fees

§ 7.21 General.

(a) Each officer or employee of DOT who, upon a request by a member of the public for a record under this part, makes a determination that the record is not to be disclosed, either because it is subject to an exemption or not in DOT’s custody and control, will give a written statement of the reasons for that determination to the person making the request; and indicate the names and titles or positions of each person responsible for the initial determination not to comply with such request, and the availability of an appeal within DOT. The denial letter will include an estimate of the volume of records or information withheld, in number of pages or in some other reasonable form of estimation. This estimate does not need to be provided if the volume is otherwise indicated through deletions on records disclosed in part, or if providing an estimate would harm an interest protected by an applicable exemption. Records disclosed in part will be marked or annotated to show both the amount and the location of the information deleted whenever practicable.

(b) When a request for a waiver of fees pursuant to §7.44 has been denied in whole or in part, the requestor may appeal the denial.

(c) Any person to whom a record has not been made available within the time limits established by §7.31 and any person who has been given a determination pursuant to paragraph (a) of this section that a record will not be disclosed may appeal to the responsible DOT official. Any person who has not received an initial determination on his or her request within the time limits established by §7.31 can seek immediate judicial review, which may be sought without the need first to submit an administrative appeal. Judicial review may be sought in the United States District Court for the judicial district in which the requestor resides or has his or her principal place of business, the judicial district in which the records are located, or in the District of Columbia. A determination that a record will not be disclosed and/or that a request for a fee waiver or reduction will not be granted does not constitute final agency action for the purposes of judicial review unless:

(1) It was made by the responsible DOT official; or

(2) The applicable time limit has passed without a determination on the initial request or the appeal, as the case may be, having been made.

(d) Each appeal must be made in writing within thirty days from the date of receipt of the original denial and should include the DOT file or reference number assigned to the request and all information and arguments relied upon by the person making the request. (Appeals may be submitted via facsimile and conventional mail, but not via electronic mail.) Such letter should indicate that it is an appeal from a denial of a request made under FOIA. The envelope in which a mailed appeal is sent should be prominently marked: “FOIA Appeal.” If these requirements are not met, the twenty-day limit described in §7.32 will not begin to run until the appeal has been identified, or would have been identified with the exercise of due diligence, by a DOT employee as an appeal under FOIA, and has been received by the appropriate office.

(e) Whenever the responsible DOT official determines it necessary, he/she may require the requestor to furnish additional information, or proof of factual allegations, and may order other proceedings appropriate in the circumstances; in any case in which a request or order is made, DOT’s time for responding ceases to count while the requestor responds to the request or order. The decision of the responsible DOT official as to the availability of the record or the appropriateness of a fee waiver or reduction constitutes final agency action for the purpose of judicial review.
§ 7.31

(f) The decision of the responsible DOT official not to disclose a record under this part or not to grant a request for a fee waiver or reduction is considered to be a denial by the Secretary for the purpose of 5 U.S.C. 552(a)(4)(B).

(g) Any final determination by the head of an DOT component not to disclose a record under this part or not to grant a request for a fee waiver or reduction is subject to concurrence by a representative of the General Counsel.

(h) Upon a determination that an appeal will be denied, the requestor will be informed in writing of the reasons for the denial of the request and the names and titles or positions of each person responsible for the determination, and that judicial review of the determination is available in the United States District Court for the judicial district in which the requestor resides or has his or her principal place of business, the judicial district in which the requested records are located, or the District of Columbia.

Subpart E—Time Limits

§ 7.31 Initial determinations.

An initial determination whether to release a record requested pursuant to subpart C of this part will be made within twenty Federal working days after the request is received by the appropriate office in accordance with §7.14, except that this time limit may be extended by up to ten Federal working days in accordance with §7.33. The person making the request will be notified immediately of such determination. If the determination is to grant the request, the desired record will be made available as promptly as possible. If the determination is to deny the request, the person making the request will be notified in writing, at the same time he or she is notified of such determination, of the reason for the determination, the right of such person to appeal the determination, and the name and title of each person responsible for the initial determination to deny the request.

(a) In general. Components ordinarily will respond to requests according to their order of receipt.

(b) Multitrack processing. (1) A component may use two or more processing tracks by distinguishing between simple and more complex requests based on the amount of work and/or time needed to process the request, or on the number of pages involved.

(2) A component using multitrack processing may provide requesters in its slower track(s) with an opportunity to limit the scope of their requests in order to qualify for faster processing within the specified limits of the component’s faster track(s). A component doing so will contact the requestor either by telephone, letter, facsimile, or electronic mail, whichever is most efficient in each case.

(c) Expedited processing. (1) Requests and appeals will be taken out of order and given expedited treatment whenever a compelling need is demonstrated and it is determined that the compelling need involves:

(i) Circumstances in which the lack of expedited treatment could reasonably be expected to pose an imminent threat to the life or physical safety of an individual.

(ii) Requests made by a person primarily engaged in disseminating information, with an urgency to inform the public of actual or alleged Federal Government activity.

(2) A request for expedited processing may be made at the time of the initial request for records or at any later time. For a prompt determination, a request for expedited processing must be received by the proper component. Requests must be submitted to the component that maintains the records requested.

(3) A requestor who seeks expedited processing must submit a statement, certified to be true and correct to the best of that person’s knowledge and belief, explaining in detail the basis for requesting expedited processing. For example, a requestor within the category in paragraph (c)(1)(ii) of this section, if not a full-time member of the news media, must establish that he or she is a person whose main professional activity or occupation is information dissemination, though it need not be his or her sole occupation. A requestor within the category in paragraph
§ 7.32 Final determinations.

(a) A determination with respect to any appeal made pursuant to § 7.21 will be made within twenty Federal working days after receipt of such appeal except that this time limit may be extended by up to ten Federal working days in accordance with § 7.33. The person making the request will be notified immediately of such determination pursuant to § 7.21.

(b) In general. Components ordinarily will respond to appeals according to their order of receipt.

(c) Multitrack processing. (1) A component may use two or more processing tracks by distinguishing between simple and more complex appeals based on the amount of work and/or time needed to process the appeal, or on the number of pages involved.

(2) A component using multitrack processing may provide persons making appeals in its slower track(s) with an opportunity to limit the scope of their appeals in order to qualify for faster processing within the specified limits of the component’s faster track(s). A component doing so will contact the person making the appeal either by telephone, letter, facsimile, or electronic mail, whichever is most efficient in each case.

(d) Expedited processing. (1) An appeal will be taken out of order and given expedited treatment whenever a compelling need is demonstrated and it is determined that the compelling need involves:

(i) Circumstances in which the lack of expedited treatment could reasonably be expected to pose an imminent threat to the life or physical safety of an individual;

(ii) A request made by a person primarily engaged in disseminating information, with an urgency to inform the public of actual or alleged Federal Government activity.

(2) A request for expedited processing may be made at the time of the appeal or at any later time. For a prompt determination, a request for expedited processing must be received by the proper component, which is the component that is processing the appeal for the records requested.

(3) A requestor who seeks expedited processing must submit a statement, certified to be true and correct to the best of that person’s knowledge and belief, explaining in detail the basis for requesting expedited processing. For example, a requestor within the category in § 7.31(c)(1)(ii), if not a full-time member of the news media, must establish that he or she is a person whose main professional activity or occupation is information dissemination, though it need not be his or her sole occupation. A requestor within the category in § 7.31(c)(1)(ii) also must establish a particular urgency to inform the public about the government activity involved in the request, beyond the public’s right to know about government activity generally. The formality of certification may be waived as a matter of discretion. A person who was granted expedited processing under § 7.31 need merely certify that the same circumstances apply.

(4) Within ten calendar days of receipt of a request for expedited processing, the proper component will decide whether to grant it and will notify the requestor of the decision. If a request for expedited treatment is granted, the appeal will be given priority and will be processed as soon as practicable. If a request for expedited processing is denied, any appeal of that decision will be acted on expeditiously.

§ 7.33 Extension.

(a) In unusual circumstances as specified in this section, the time limits
§ 7.41 prescribed in § 7.31 and § 7.32 may be extended by written notice to the person making the request setting forth the reasons for such extension and the date on which a determination is expected to be dispatched. Such notice may not specify a date that would result in a cumulative extension of more than 10 Federal working days without providing the requestor an opportunity to modify the request as noted in this section. As used in this paragraph, “unusual circumstances” means, but only to the extent reasonably necessary to the proper processing of the particular request:

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request.

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records that are demanded in a single request; or

(3) The need for consultation, which will be conducted with all practicable speed, with any other agency or DOT component having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject-matter interest therein.

(b) Where the extension is for more than 10 working days, the DOT component will provide the requestor with an opportunity either to modify the request so that it may be processed within the time limits or to arrange an alternative time period with the component for processing the request or a modified request.

(c) Where a component reasonably believes that multiple requests submitted by a requestor, or by a group of requesters acting in concert, constitute a single request that would otherwise involve unusual circumstances, and the requests involve clearly related matters, they may be aggregated for the purposes of fees and processing activities. Multiple requests involving unrelated matters will not be aggregated.

§ 7.42 Payment of fees.

(a) The fees prescribed in this subpart may be paid by check, draft, or money order, payable to the DOT component where fees were incurred, for deposit in the General Fund of the Treasury of the United States, e.g. DOT/FAA.

(b) Charges may be assessed by DOT for time spent searching for requested records even if the search fails to locate records or the records located are determined to be exempt from disclosure. In addition, if records are requested for commercial use, DOT may assess a fee for time spent reviewing
Office of the Secretary of Transportation § 7.43

any responsive records located to determine whether they are exempt from disclosure.

(c) When it is estimated that the search charges, review charges, duplication fees, or any combination of fees that could be charged to the requestor will likely exceed US $25, the requestor will be notified of the estimated amount of the fees, unless the requestor has indicated in advance his or her willingness to pay fees as high as those anticipated. In cases where a requestor has been notified that actual or estimated fees may amount to more than US $25, the request will be deemed not to have been received until the requestor has agreed to pay the anticipated total fee. The notice will also inform the requestor how to consult with the appropriate DOT officials with the object of reformulating the request to meet his or her needs at a lower cost.

(d) Payment of fees may be required prior to actual duplication or delivery of any releasable records to a requestor. However, advance payment, i.e., before work is commenced or continued on a request, may not be required unless:

(1) Allowable charges that a requestor may be required to pay are likely to exceed US $250; or

(2) The requestor has failed to pay within 30 days of the billing date fees charged for a previous request to any part of DOT.

(e) When paragraph (d)(1) of this section applies, the requestor will be notified of the likely cost and, where he/she has a history of prompt payment of FOIA fees, requested to furnish satisfactory assurance of full payment of FOIA fees. Where the requestor does not have any history of payment, he or she may be required to make advance payment of any amount up to the full estimated charges.

(f) When paragraph (d)(2) of this section applies, the requestor will be required to demonstrate that the fee has, in fact, been paid or to pay the full amount owed, including any applicable interest, late handling charges, and penalty charges as discussed in paragraphs (g) and (h) of this section. The requestor will also be required to make an advance payment of the full amount of the estimated fee before processing of a new request or continuation of a pending request is begun.

(g) DOT will assess interest on an unpaid bill starting on the 31st day following the day on which the notice of the amount due is first mailed to the requestor. Interest will accrue from the date of the notice of amount due and will be at the rate prescribed in 31 U.S.C. 3717. Receipt by DOT of a payment for the full amount of the fees owed within 30 calendar days after the date of the initial billing will stay the accrual of interest, even if the payment has not been processed.

(h) If payment of fees charged is not received within 30 calendar days after the date the initial notice of the amount due is first mailed to the requestor, an administrative charge will be assessed by DOT to cover the cost of processing and handling the delinquent claim. In addition, a penalty charge will be applied with respect to any principal amount of a debt that is more than 90 days past due. Where appropriate, other steps permitted by Federal debt collection statutes, including disclosure to consumer reporting agencies and use of collection agencies, will be used by DOT to encourage payment of amounts overdue.

(i) Notwithstanding any other provision of this subpart, when the total amount of fees that could be charged for a particular request (or aggregation of requests) under subpart C of this part, after taking into account all services that must be provided free of, or at a reduced charge, is less than US $10.00 DOT will not make any charge for fees.

§ 7.43 Fee schedule.

The rates for manual searching, computer operator/programmer time and time spent reviewing records will be calculated based on the grades and rates established by the Washington-Baltimore Federal White-Collar Pay Schedule or equivalent grades, as follows:

When performed by employees:

<table>
<thead>
<tr>
<th>Grade Range</th>
<th>Hourly Rate Calculation</th>
</tr>
</thead>
<tbody>
<tr>
<td>GS-1 through GS-8</td>
<td>Hourly rate of GS-5 step 7 plus 16%</td>
</tr>
<tr>
<td>GS-9 through GS-14</td>
<td>Hourly rate of GS-12 step 7 plus 16%</td>
</tr>
<tr>
<td>GS-15 and above</td>
<td>Hourly rate of GS-15 step 7 plus 16%</td>
</tr>
</tbody>
</table>
§ 7.44 Services performed without charge or at a reduced charge.

(a) A fee is not to be charged to any requestor making a request under subpart C of this part for the first two hours of search time unless the records are requested for commercial use. For purposes of this subpart, when a computer search is required two hours of search time will be considered spent when the hourly costs of operating the central processing unit used to perform the search added to the computer operator's salary cost (hourly rate plus 16 percent) equals two hours of the computer operator's salary costs (hourly rate plus 16 percent).

(b) A fee is not to be charged for any time spent searching for a record requested under subpart C if the records are not for commercial use and the requestor is a representative of the news media, an educational institution whose purpose is scholarly research, or a non-commercial scientific institution whose purpose is scientific research.

(c) A fee is not to be charged for duplication of the first 100 pages (standard paper, not larger than 8.5 x 14 inches) of records provided to any requestor in response to a request under Subpart C unless the records are requested for commercial use.

(d) A fee is not to be charged to any requestor under subpart C to determine whether a record is exempt from mandatory disclosure unless the record is requested for commercial use. A review charge may not be charged except with respect to an initial review to determine the applicability of a particular exemption to a particular record or portion of a record. A review charge may not be assessed for review at the administrative appeal level. When records or portions of records withheld in full under an exemption that is subsequently determined not to apply are reviewed again to determine the applicability of other exemptions not previously considered, this is considered an initial review for purposes of assessing a review charge.

(e) Documents will be furnished without charge or at a reduced charge if the official having initial denial authority determines that disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requestor.

§ 7.44 Services performed without charge or at a reduced charge.
(f) Factors to be considered by DOT officials authorized to determine whether a waiver or reduction of fees will be granted include:

1. Whether the subject matter of the requested records concerns the operations or activities of the Federal government;
2. Whether the disclosure is likely to contribute to an understanding of Federal government operations or activities;
3. Whether disclosure of the requested information will contribute to the understanding of the public at large, as opposed to the individual understanding of the requestor or a narrow segment of interested persons;
4. Whether the contribution to public understanding of Federal government operations or activities will be significant;

5. Whether the requestor has a commercial interest that would be furthered by the requested disclosure; and

6. Whether the magnitude of any identified commercial interest to the requestor is sufficiently large in comparison with the public interest in disclosure that disclosure is primarily in the commercial interest of the requestor.

(g) Documents will be furnished without charge or at a reduced charge if the official having initial denial authority determines that the request concerns records related to the death of an immediate family member who was, at the time of death, a DOT employee or a member of the Coast Guard.

(h) Documents will be furnished without charge or at a reduced charge if the official having initial denial authority determines that the request is by the victim of a crime who seeks the record of the trial or court-martial at which the requestor testified.

§ 7.45 Transcripts.

Transcripts of hearings or oral arguments are available for inspection. Where transcripts are prepared by a nongovernmental contractor, and the contract permits DOT to handle the reproduction of further copies, § 7.43 applies. Where the contract for transcription services reserves the sales privilege to the reporting service, any duplicate copies must be purchased directly from the reporting service.

§ 7.46 Alternative sources of information.

In the interest of making documents of general interest publicly available at as low a cost as possible, alternative sources will be arranged whenever possible. In appropriate instances, material that is published and offered for sale may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402; U.S. Department of Commerce’s National Technical Information Service (NTIS), Springfield, Virginia 22151; or National Audio-Visual Center, National Archives and Records Administration, Capital Heights, MD 20743-3701.

PART 8—CLASSIFIED INFORMATION: CLASSIFICATION/DECLASSIFICATION/ACCESS

Subpart A—General

Sec.
8.1 Scope.
8.3 Applicability.
8.5 Definitions.
8.7 Spheres of responsibility.

Subpart B—Classification/Declassification of Information

8.9 Information Security Review Committee.
8.11 Authority to classify information.
8.13 Authority to downgrade or declassify.
8.15 Mandatory review for classification.
8.17 Classification challenges.
8.19 Procedures for submitting and processing requests for classification reviews.
8.21 Burden of proof.
8.23 Classified information transferred to the Department of Transportation.

Subpart C—Access to Information

8.27 Public availability of declassified information.
8.29 Access by historical researchers and former Presidential appointees.
8.31 Industrial security.

Source: 62 FR 23661, May 1, 1997, unless otherwise noted.
§ 8.1 Scope.

This part sets forth procedures for the classification, declassification, and availability of information that must be protected in the interest of national security, in implementation of Executive Order 12958 of April 17, 1995, “Classified National Security Information;” and for the review of decisions to revoke, or not to issue, national security information clearances, or to deny access to classified information, under Executive Order 12968 of August 2, 1995, “Access to National Security Information”.

§ 8.3 Applicability.

This part applies to all elements of the Department of Transportation.

§ 8.5 Definitions.

As used in this part:

Classification means the act or process by which information is determined to be classified information.

Classification levels means the following three levels at which information may be classified:

(a) Top secret. Information that requires the highest degree of protection, and the unauthorized disclosure of which could reasonably be expected to cause exceptionally grave damage to the national security that the original classification authority is able to identify or describe.

(b) Secret. Information that requires a substantial degree of protection, and the unauthorized disclosure of which could reasonably be expected to cause serious damage to the national security that the original classification authority is able to identify or describe.

(c) Confidential. Information that requires protection and the unauthorized disclosure of which could reasonably be expected to cause damage to the national security that the original classification authority is able to identify or describe.

Classified information or “classified national security information” means information that has been determined under Executive Order 12958, or any predecessor or successor order, to require protection against unauthorized disclosure, and is marked to indicate its classified status when in documentary form.

Clearance means that an individual is eligible, under the standards of Executive Orders 10450 and 12968 and appropriate DOT regulations, for access to classified information.

Damage to the national security means harm to the national defense or foreign relations of the United States from the unauthorized disclosure of information, to include the sensitivity, value, and utility of that information.

Declassification means the authorized change in the status of information from classified information to unclassified information.

Downgrading means a determination by a declassification authority that information classified and safeguarded at a specific level shall be classified and safeguarded at a lower level.

Information means any knowledge that can be communicated, or documentary material, regardless of its physical form or characteristics, that is owned by, produced by or for, or is under the control of the United States Government. “Control” means the authority of the agency that originates information, or its successor in function, to regulate access to the information.

Mandatory declassification review means the review for declassification of classified information in response to a request for declassification that qualifies under Section 3.6 of Executive Order 12958.

Original classification means an initial determination that information requires, in the interest of national security, protection against unauthorized disclosure.

Original classification authority means an individual authorized in writing, either by the President or by agency heads or other officials designated by the President, to classify information in the first instance.

§ 8.7 Spheres of responsibility.

(a) Pursuant to Section 5.6(c) of Executive Order 12958, and to section 6.1 of Executive Order 12968, the Assistant Secretary for Administration is hereby designated as the senior agency official of the Department of Transportation with assigned responsibilities to assure
effective compliance with and implementation of Executive Order 12958, Executive Order 12968, Office of Management and Budget Directives, the regulations in this part, and related issuances.

(b) In the discharge of these responsibilities, the Assistant Secretary for Administration will be assisted by the Director of Security and Administrative Management, who, in addition to other actions directed by this part, will evaluate the overall application of and adherence to the security policies and requirements prescribed in this part and who will report his/her findings and recommendations to the Assistant Secretary for Administration, heads of Departmental elements, and, as appropriate, to the Secretary.

(c) Secretarial Officers and heads of Departmental elements will assure that the provisions in this part are effectively administered, that adequate personnel and funding are provided for this purpose, and that corrective actions that may be warranted are taken promptly.

Subpart B—Classification/Declassification of Information

§ 8.9 Information Security Review Committee.

(a) There is hereby established a Department of Transportation Information Security Review Committee, which will have authority to:

(1) Act on all suggestions and complaints not otherwise resolved with respect to the Department’s administration of Executive Order 12958 and implementing directives, including those regarding overclassification, failure to declassify, or delay in declassifying;

(2) Act on appeals of requests for classification reviews, and appeals of requests for records under 5 U.S.C. 552 (Freedom of Information Act) when the initial, and proposed final, denials are based on continued classification of the record; and

(3) Recommend to the Secretary, when necessary, appropriate administrative action to correct abuse or violation of any provision of Executive Order 12958 and implementing directives.

(b) The Information Security Review Committee will be composed of the Assistant Secretary for Administration, who will serve as Chair; the General Counsel; and the Director of Security and Administrative Management. When matters affecting a particular Departmental agency are at issue, the Associate Administrator for Administration for that agency, or the Chief of Staff for the U.S. Coast Guard, as the case may be, will participate as an ad hoc member, together with the Chief Counsel of that agency. Any regular member may designate a representative with full power to serve in his/her place.

(c) In carrying out its responsibilities to review decisions to revoke or not to issue clearances, or to deny access to classified information, the Committee will establish whatever procedures it deems fit.

§ 8.11 Authority to classify information.

(a) Executive Order 12958 confers upon the Secretary of Transportation the authority to originally classify information as SECRET or CONFIDENTIAL with further authorization to delegate this authority.

(b) The following delegations of authority originally to classify information as “Secret” or “Confidential”, which may not be redelegated, are hereby made:

(1) Office of the Secretary of Transportation. The Deputy Secretary; Assistant Secretary for Administration; Director of Intelligence and Security; Director of Security and Administrative Management.

(2) United States Coast Guard. Commandant; Chief, Office of Law Enforcement and Defense Operations.

(3) Federal Aviation Administration. Administrator; Assistant Administrator for Civil Aviation Security.

(4) Maritime Administration. Administrator.

(c) Although the delegations of authority set out in paragraph (b) of this section are expressed in terms of positions, the authority is personal and is invested only in the individual occupying the position. The authority may not be exercised “by direction of” a
§ 8.13 Authority to downgrade or declassify.

Information originally classified by the Department may be specifically downgraded or declassified by either the official authorizing the original classification, if that official is still serving in the same position, the originator's current successor in function, a supervisory official of either, officials delegated declassification authority in writing by the Secretary, or by the Departmental Information Security Review Committee.

§ 8.15 Mandatory review for classification.

(a) All information classified by the Department of Transportation under Executive Order 12958 or predecessor orders shall be subject to a review for declassification if:

(1) The request for review describes the information with sufficient specificity to enable its location with a reasonable amount of effort; and

(2) The information has not been reviewed for declassification within the prior two years. If the information has been reviewed within the prior two years, or if the information is the subject of pending litigation, the requestor will be informed of this fact, and of the Department's decision not to declassify the information and of his/her right to appeal the Department's decision not to declassify the information to the Interagency Security Classification Appeals Panel.

(b) All information reviewed for declassification because of a mandatory review will be declassified if it does not meet the standards for classification in Executive Order 12958. The information will then be released unless withhold-

§ 8.17 Classification challenges.

(a) Authorized holders of information classified by the Department of Transportation who, in good faith, believe that its classification status is improper are encouraged and expected to challenge the classification status of the information before the Departmental Information Security Review Committee.

(1) No individual will be subject to retribution for bringing such a challenge; and

(2) Each individual whose challenge is denied will be advised that he/she may appeal the Interagency Security Classification Appeals Panel established by section 5.4 of Executive Order 12958.

(b) This classification challenge provision is not intended to prevent an authorized holder of information classified by the Department of Transportation from informally questioning the classification status of particular information. Such information inquiries should be encouraged as means to resolve classification concerns and reduce the administrative burden of formal challenges.

§ 8.19 Procedures for submitting and processing requests for classification reviews.

(a) The Director of Security and Administrative Management is hereby designated as the official to whom a member of the public or another department or agency should submit a request for a classification review of classified information produced by or under the cognizance of the Department. Elements of the Department that receive a request directly will immediately notify the Director.

(b) If the request for classification review involves material produced by or under the cognizance of the U.S. Coast Guard or the Federal Aviation Administration, the Director will forward the request to the headquarters security staff of the element concerned for action. If the request involves material produced by other Departmental elements, the Director will serve as the office acting on the request.
(c) The office acting on the request will:

(1) Immediately acknowledge receipt of the request and provide a copy of the correspondence to the Director. If a fee for search of records is involved pursuant to 49 CFR Part 7, the requester will be so notified;

(2) Conduct a security review, which will include consultation with the office that produced the material and with source authorities when the classification, or exemption of material from automatic declassification, was based upon determinations by an original classifying authority; and

(3) Assure that the requester is notified of the determination within 30 calendar days or given an explanation as to why further time is necessary, and provide a copy of the notification to the Director.

(d) If the determination reached is that continued classification is required, the notification to the requester will include, whenever possible, a brief statement as to why the requested material cannot be declassified. The notification will also advise the requester of the right to appeal the determination to the Departmental Information Security Review Committee. A requester who wishes to appeal a classification review decision, or who has not been notified of a decision after 60 calendar days, may submit an appeal to the Departmental Information Security Review Committee.

(e) If the determination reached is that continued classification is not required, the information will be declassified and the material remarked accordingly. The office acting on the request will then refer the request to the departmental agency for determination if it is otherwise withholdable from public release under the Freedom of Information Act (5 U.S.C. 552) and the Department’s implementing regulations (49 CFR Part 7).

(1) If the material is available under the Freedom of Information Act, the requester will be advised that the material has been declassified and is available. If the request involves the furnishing of copies and a fee is to be collected, the requester will be so advised pursuant to 49 CFR Part 7, Departmental regulations implementing the Freedom of Information Act.

(2) If the material is not available under the Freedom of Information Act, the requester will be advised that the material has been declassified but that the record is unavailable pursuant to the Freedom of Information Act, and that the provisions concerning procedures for reconsidering decisions not to disclose records, contained in 49 CFR Part 7, apply.

(f) Upon receipt of an appeal from a classification review determination based upon continued classification, the Departmental Information Security Review Committee will acknowledge receipt immediately and act on the matter within 30 calendar days. With respect to information originally classified by or under the primary cognizance of the Department, the Committee, acting for the Secretary, has authority to overrule previous determinations in whole or in part when, in its judgment, continued protection in the interest of national security is no longer required. When the classification of the material produced in the Department is based upon a classification determination made by another department or agency, the Committee will immediately consult with its counterpart committee for that department or agency.

(1) If it is determined that the material produced in the Department requires continued classification, the requester will be so notified and advised of the right to appeal the decision to the Interagency Classification Review Committee.

(2) If it is determined that the material no longer requires classification, it will be declassified and remarked. The Committee will refer the request to the General Counsel, or to the head of the Departmental agency concerned, as the case may be, to determine if the material is otherwise withholdable from public release under the Freedom of Information Act (5 U.S.C. 552) and Departmental regulations, (49 CFR Part 7), and paragraphs (f)(1) and (2) of this section will be followed. A copy of the response to the requester will be provided to the Committee.

(g) Requests for a classification review of material more than 25 years old...
§ 8.21 Burden of proof.

For the purpose of determinations to be made under §§ 8.13, 8.15, and 8.17, the burden of proof is on the originating Departmental agency to show that continued classification is warranted.

§ 8.23 Classified information transferred to the Department of Transportation.

(a) Classified information officially transferred to the Department in conjunction with a transfer of function, and not merely for storage purposes, will be considered to have been originated by the Department.

(b) Classified information in the custody of the Department originated by a department or agency that has ceased to exist and for whom there is no successor agency will be deemed to have been originated by the Department. This information may be declassified or downgraded by the Department after consultation with any other agency that has an interest in the subject matter of the information. Such agency will be allowed 30 calendar days in which to express an objection, if it so desires, before action is taken. A difference of opinion that cannot be resolved will be referred to the Departmental Information Security Review Committee, which will consult with its counterpart committee for the other agency.

(c) Classified information transferred to the National Archives and Records Administration (NARA) will be declassified or downgraded by the Archivist of the United States in accordance with Executive Order 12958, Departmental classification guides, and any existing procedural agreement between NARA and the Department. The Department will take all reasonable steps to declassify information contained in records determined to have permanent historical value before they are accessioned in NARA.

(d) To the extent practicable, the Department will adopt a system of records management that will facilitate the public release of documents at the time such documents are declassified under the provisions of this part for automatic declassification. To the maximum extent possible without destroying the integrity of the Department's files, all such material will be segregated or set aside for public release upon request. The Department will cooperate with the Archivist in efforts to establish a Government-wide database of information that has been declassified.

Subpart C—Access to Information

(a) There is hereby established a Department of Transportation Personnel Security Review Board, which will, on behalf of the Secretary of Transportation (except in any case in which the Secretary personally makes the decision), make the administratively final decision on an appeal arising in any part of the Department from:

(1) A decision not to grant access to classified information;

(2) A decision to revoke access to classified information; or

(3) A decision under § 8.29 to deny access to classified information.

(b) The Personnel Security Review Board will be composed of:

(1) Two persons appointed by the Assistant Secretary for Administration: one from the Office of Personnel and Training, and one, familiar with personnel security adjudication, from the Office of Security and Administrative Management, who will serve as Chair;
§ 8.29 Access by historical researchers and former Presidential appointees.

Historical researchers. (1) Persons outside the executive branch who are engaged in historical research projects may have access to classified information provided that:

(i) Access to the information is clearly consistent with the interests of national security; and

(ii) The person to be granted access is trustworthy.

(2) The provisions of this paragraph apply only to persons who are conducting historical research as private individuals or under private sponsorship and do not apply to research conducted under Government contract or sponsorship. The provisions are applicable only to situations where the classified information concerned, or any part of it, was originated by the Department or its contractors, or where the information, if originated elsewhere, is in the sole custody of the Department. Any person requesting access to material originated in another agency or to information under the exclusive jurisdiction of the National Archives and Records Administration (NARA) will be referred to the other agency or to NARA, as appropriate.

(3) When a request for access to classified information for historical research is received, it will be referred to the appropriate local security office. That office will obtain from the applicant completed Standard Form 86, Questionnaire for National Security Positions, in triplicate, and Standard Form 87, Fingerprint Chart; a statement in detail to justify access, including identification of the kind of information desired and the organization or organizations, if any, sponsoring the research; and a written statement (signed, dated, and witnessed) with respect to the following:

(A) To safeguard classified information; and

(B) To protect information that has been determined to be proprietary or privileged and is therefore not eligible for public dissemination.

(ii) That the applicant understands that any classified information that the applicant receives affects the security of the United States.

(iii) That the applicant acknowledges an obligation to safeguard classified information or privileged information of which the applicant gains possession or

§ 8.27 Public availability of declassified information.

(a) It is a fundamental policy of the Department to make information available to the public to the maximum extent permitted by law. Information that is declassified for any reason loses its status as material protected in the interest of national security. Accordingly, declassified information will be handled in every respect on the same basis as all other unclassified information. Declassified information is subject to the Departmental public information policies and procedures, with particular reference to the Freedom of Information Act (5 U.S.C. 552) and implementing Departmental regulations (49 CFR Part 7).

(b) In furtherance of this policy, all classified material produced after June 1, 1972 that is of sufficient historical or other value to warrant preservation as permanent records in accordance with appropriate records administrative standards, and that becomes declassified, will be systematically reviewed prior to the end of each calendar year for the purpose of making the material publicly available. To the maximum extent possible without destroying the integrity of the Department's files, all such material will be segregated or set aside for public release upon request.
knowledge as a result of the applicant’s access to files of the Department.

(iv) That the applicant agrees not to reveal to any person or agency any classified information or privileged information obtained as a result of the applicant’s access except as specifically authorized in writing by the Department, and further agrees that the applicant shall not use the information for purposes other than those set forth in the applicant’s application.

(v) That the applicant agrees to authorize a review of the applicant’s notes and manuscript for the sole purpose of determining that no classified information or material is contained therein.

(vi) That the applicant understands that failure to abide by conditions of this statement will constitute sufficient cause for canceling the applicant’s access to classified information and for denying the applicant any future access, and may subject the applicant to criminal provisions of Federal law as referred to in this statement.

(vii) That the applicant is aware and fully understands that title 18, United States Code, Crimes and Criminal Procedures, and the Internal Security Act of 1950, as amended, title 50, United States Code, prescribe, under certain circumstances, criminal penalties for the unauthorized disclosure of information respecting the national security, and for loss, destruction, or compromise of such information.

(viii) That this statement is made to the U.S. Government to enable it to exercise its responsibilities for the protection of information affecting the national security.

(ix) That the applicant understands that any material false statement made by the applicant makes knowingly and willfully will subject the applicant to the penalties of 18 U.S.C. 1001.

(4) The security office will process the forms in the same manner as specified for a preappointment national agency check for a critical-sensitive position. Upon receipt of the completed national agency check, the security office, if warranted, may determine that access by the applicant to the information will be clearly consistent with the interests of national security and the person to be granted access is trustworthy. If deemed necessary, before making its determination, the office may conduct or request further investigation. Before access is denied in any case, the matter will be referred through channels to the Director of Security and Administrative Management for review and submission to the Personnel Security Review Board for final review.

(5) If access to TOP SECRET or intelligence or communications security information is involved a special background investigation is required. However, this investigation will not be requested until the matter has been referred through channels to the Director of Security and Administrative Management for determination as to adequacy of the justification and the consent of other agencies as required.

(6) When it is indicated that an applicant’s research may extend to material originating in the records of another agency, approval must be obtained from the other agency prior to the grant of access.

(7) Approvals for access will be valid for the duration of the current research project but no longer than 2 years from the date of issuance, unless renewed. If a subsequent request for similar access is made by the individual within one year from the date of completion of the current project, access may again be granted without obtaining a new National Agency Check. If more than one year has elapsed, a new National Agency Check must be obtained. The local security office will promptly advise its headquarters security staff of all approvals of access granted under the provisions of this section.

(8) An applicant may be given access only to that classified information that is directly pertinent to the applicant’s approved project. The applicant may review files or records containing classified information only in offices under the control of the Department. Procedures must be established to identify classified material to which the applicant is given access. The applicant must be briefed on local procedures established to prevent unauthorized access to the classified material while in the applicant’s custody, for the return of the material for secure storage at the end of the daily working period.
§ 9.1 Purpose.
(a) This part sets forth procedures governing the testimony of an employee in legal proceedings in which the United States is a party. It also sets forth procedures to be followed when an employee is issued a subpoena, order or other demand (collectively referred to in this part as a "demand") by a court or other competent authority, or is requested by a private litigant, to provide testimony or produce records concerning information acquired in the course of performing official duties or because of the employee’s official status. It also prescribes the
§ 9.2 Policies and procedures of the Department with respect to the acceptance of service of legal process and pleadings in legal proceedings involving the Department.

(b) The purposes of this part are to:
(1) Conserve the time of employees for conducting official business;
(2) Minimize the possibility of involving the Department in controversial issues not related to its mission;
(3) Maintain the impartiality of the Department among private litigants;
(4) Avoid spending the time and money of the United States for private purposes; and
(5) To protect confidential, sensitive information and the deliberative processes of the Department.

(c) Agency counsel, in his or her discretion, may permit an exception from any requirement in this part. The exception may be granted only when the deviation will not interfere with matters of operational or military necessity, and when agency counsel determines that:
(1) It is necessary to prevent a miscarriage of justice;
(2) The Department has an interest in the decision that may be rendered in the legal proceeding; or
(3) The exception is in the best interest of the Department or the United States.

For Office of Inspector General employees and documents, the Inspector General, in conjunction with the General Counsel of the Department, may permit an exception from any requirement of this part if the Inspector General determines, based on the Inspector General Act of 1978, as amended, that application of the requirement would be inappropriate.

§ 9.3 Definitions.

For purposes of this part:
Department means the Department of Transportation (DOT), including the Office of the Secretary (which encompasses the Office of the Inspector General) and the following operating administrations while they are part of DOT:
(a) The U.S. Coast Guard.
(b) The Federal Aviation Administration.
(c) The Federal Highway Administration.
(d) The Federal Railroad Administration.
(e) The Federal Transit Administration.
(f) The St. Lawrence Seaway Development Corporation.
(g) The National Highway Traffic Safety Administration.
(h) The Maritime Administration.
(i) The Research and Special Programs Administration.
(j) Any DOT operating administration established after the effective date of this part.

Legal proceeding means any case or controversy pending before any federal, state, or local court (including grand jury proceedings), any administrative proceeding pending before any federal, state, or local agency, or any legislative proceeding pending before any state or local agency.

Legal proceeding between private litigants means any legal proceeding in which neither the Department of Transportation nor the United States (including any federal agency or officer of the United States in his or her official capacity) is a party.

Employee of the Department or Employee means any current or former officer or employee of the Department; any active duty, retired, or former officer or enlisted member of the Coast Guard; or any current or former contractor (including any corporation or other entity and any employee or subcontractor).
§ 9.5 General prohibition of production or disclosure in legal proceedings.

No employee of the Department may provide testimony or produce any material contained in the files of the Department, or disclose any information relating to, or based upon, material contained in the files of the Department, or disclose any information or produce any material acquired as part of the performance of that employee's official duties or because of that employee's official status unless authorized in accordance with this part, or by other applicable law.

§ 9.7 Testimony by employees before the Department or in other legal proceedings in which the United States is a party.

In any legal proceeding before the Department or in which the United States (including any federal agency or officer of the United States) is a party:

(a) Agency counsel shall arrange for an employee to testify as a witness for the United States whenever the attorney representing the United States requests it.

(b) An employee may testify for the United States both as to facts within the employee's personal knowledge and as an expert or opinion witness. Except as provided in paragraph (c) of this section, an employee may not testify as an expert or opinion witness, with regard to any matter arising out of the employee's official duties or the functions of the Department, for any party other than the United States in any legal proceeding in which the United States is a party. An employee who receives a demand to testify on behalf of a party other than the United States may testify as to facts within the employee's personal knowledge, provided that the testimony be subject to the prior approval of agency counsel and to the Federal Rules of Civil Procedure and any applicable claims of privilege.

(c) An employee may testify as an expert or opinion witness on behalf of an officer or enlisted member of the Coast Guard in any legal proceeding conducted by the Coast Guard.

§ 9.9 Legal proceedings between private litigants: General rules.

In legal proceedings between private litigants:

(a) The proper method for obtaining testimony or records from an employee is to submit a request to agency counsel as provided in §§ 9.13 and 9.15 of this part, not to serve a demand on the employee. Whenever, in a legal proceeding between private litigants, an employee is served with a demand, or receives a request, to testify in that employee's official capacity or produce records, the employee shall immediately notify agency counsel.

(b) If authorized to testify pursuant to these rules, an employee may testify only as to facts within that employee's personal knowledge with regard to matters arising out of his or her official duties.

1. When the proceeding arises from an accident, an employee may testify only as to personally known facts, not reasonably available from other sources, observed by the employee or uncovered during the employee's investigation of the accident or observed by the employee even if he or she did not investigate the accident. The employee shall decline to testify regarding facts beyond the scope of his or her official duties.

2. The employee shall not testify to facts that are contained in a report, or any part of a report, unless the employee has obtained permission from agency counsel to disclose the information.

3. The employee shall not disclose confidential or privileged information unless the employee has obtained permission from agency counsel to disclose the information.
§ 9.11 Legal proceedings between private litigants: Demands.

(a) If an employee receives a demand that has not been validly issued or served, agency counsel may instruct the employee not to comply with the demand.

(b) If an employee receives a demand (validly issued and served) to testify or produce records, agency counsel, in his or her discretion, may grant the employee permission to testify or produce records only if the purposes of this part are met or agency counsel determines that an exception is appropriate.

(c) If a demand is issued to an employee, agency counsel shall contact the requester of the demand, inform that person of the requirements of this part, and may, in agency counsel’s discretion, ask that the demand be withdrawn.

(d) If the requester of the demand refuses to have it withdrawn or fails to comply with this part, the Department may seek to quash the demand.

(e) If the court or other competent authority declines to grant the Department’s motion to quash, agency counsel shall instruct the employee whether to testify or produce documents pursuant to the demand. Agency counsel may permit the testimony under §9.1(c) of this part. If response to a demand is required before the court or other competent authority rules on the motion to quash and the court fails to stay the demand, the employee must appear at the stated time and place, produce a copy of this part, and respectfully refuse to provide any testimony or produce any documents. Agency counsel shall take steps to arrange for legal representation for the employee. Agency counsel shall advise the employee how to respond, including not to testify, if the court or other competent authority rules that the demand must be complied with irrespective of these regulations.

§ 9.13 Legal proceedings between private litigants: Procedures to request records.

(a) In a legal proceeding between private litigants, a party who wishes to obtain records from the Department shall submit to agency counsel a request for the records. The request will
ordinarily be handled in accordance with the Department's procedures concerning requests for records found at 49 CFR part 7. If the party does not follow the procedures specified in that part, the request must be accompanied by a statement setting forth the relevance of the records to the proceeding. The request should be resolved before any request for testimony under §9.15 is submitted. Where a request for testimony includes a request for additional records, it shall indicate precisely how this new request differs in scope from any previous request in order to avoid agency duplication of effort. Agency counsel shall notify the requester of the approval or denial of the request.

(b) [Reserved]

§ 9.15 Legal proceedings between private litigants: Procedures to request testimony.

(a) Any party seeking the testimony of an employee in a legal proceeding between private litigants, concerning facts within the employee's personal knowledge with regard to matters arising out of the employee's official duties, shall, rather than serving a demand for the testimony, request the testimony at least 30 days before it is intended to be taken or received. The request must be submitted to agency counsel and must include:

1. The title of the case, docket number, and the court, or otherwise clearly identify the legal proceeding involved;
2. A statement setting forth the basic facts in the proceeding, such as the type, date, and location of an accident;
3. A summary of the unresolved issues applicable to the testimony sought;
4. A summary of the testimony sought and its relevant to the proceeding;
5. A certification with support, that the information desired is not reasonably available from other sources, including Departmental documents;
6. Pursuant to §9.9(d) of this part, an affidavit or certification describing the extent of a search of parties and potential parties and listing the names of the parties and potential parties notified; and
7. A declaration that the party will not seek expert or opinion testimony from the witness or seek the testimony of the witness at a hearing or trial in the proceeding.

The request shall specify which form of testimony (deposition, affidavit, declaration, or answers to interrogatories) is desired and the date by which it is desired; however, only one form, the one least burdensome to the Department that will provide the needed information, will be permitted for each witness.

(b) The party seeking the testimony shall include with its request for testimony a copy of any prior request(s) made by the same requester to the Department or other agency of the United States for records pertaining to the matter being litigated and of the response (not including the records themselves) to the request(s). The party seeking the testimony shall also comply with any agency counsel request that copies of the records previously disclosed by the Department, or a list of those records, be furnished.

(c) In accordance with the requirement of this section and the general provisions of this part, agency counsel shall notify the requester of the approval or denial of the request. Agency counsel may attach special conditions to its approval.

§ 9.17 Legal proceedings between private litigants: Procedures for taking testimony.

(a) Testimony of an employee of the Department may be taken only at the office to which the employee is assigned, or any other place designated by agency counsel. Additional conditions may be specified under §9.15(c) of this part. The time shall be reasonably fixed to avoid substantial interference with the performance of the employee's or agency counsel's official duties.

(b) Upon completion of the testimony of an employee of the Department, a copy of the transcript of the testimony shall be furnished, at the expense of the party requesting the testimony, to agency counsel for the Department's files.
§9.19 Acceptance of service on behalf of Secretary.

In any legal proceeding, at the option of the server, process or pleadings may be served on agency counsel, with the same effect as if served upon the Secretary or the head of the operating administration concerned, as the case may be. The official accepting service under this section shall acknowledge the service and take appropriate action. This section does not in any way abrogate or modify the requirements of Rule 4(d)(4) and 4(d)(5) of the Federal Rules of Civil Procedure regarding service of summons and complaint.

PART 10—MAINTENANCE OF AND ACCESS TO RECORDS PERTAINING TO INDIVIDUALS

Subpart A—Applicability and Policy

Sec.
10.1 Applicability.
10.3 Policy.
10.5 Definitions.

Subpart B—General

10.11 Administration of part.
10.13 Privacy Act Officer.
10.15 Protection of records.

Subpart C—Maintenance of Records

10.21 General.
10.23 Accounting of disclosures.
10.25 Mailing lists.
10.27 Government contractors.
10.29 Social Security numbers.

Subpart D—Availability of Records

10.31 Requests for records.
10.33 Acknowledgment and access.
10.35 Conditions of disclosure.
10.37 Identification of individual making request.
10.39 Location of records.

Subpart E—Correction of Records

10.41 Requests for correction of records.
10.43 Time limits.
10.45 Statement of disagreement.

Subpart F—Procedures for Reconsidering Decisions not to Grant Access to or Amend Records

10.51 General.

Subpart G—Exemptions

10.61 General exemptions.
10.63 Specific exemptions.

Subpart H—Fees

10.71 General.
10.73 Payment of fees.
10.75 Fee schedule.
10.77 Services performed without charge.

Subpart I—Criminal Penalties

10.81 Improper disclosure.
10.83 Improper maintenance of records.
10.85 Wrongfully obtaining records.

APPENDIX TO PART 10—EXEMPTIONS

Source: 45 FR 8993, Feb. 11, 1980, unless otherwise noted.

Subpart A—Applicability and Policy

§10.1 Applicability.

This part implements section 552a of title 5, United States Code, as well as other provisions of the Privacy Act of 1974, and prescribes rules governing the availability of those records of the Department of Transportation which relate to citizens of the United States and aliens lawfully admitted for permanent residence.

§10.3 Policy.

It is the policy of the Department of Transportation to comply with the letter and the spirit of the Privacy Act (the Act). Therefore, personal data contained in each system of records is afforded adequate protection against unauthorized access, is as accurate as is feasible, and is limited to that necessary to accomplish the stated use or uses of the system. Further, no system of records is exempted from the requirements of the Act unless it is determined that to do so is in the best interest of the government with due concern for individual rights.

§10.5 Definitions.

Unless the context requires otherwise, the following definitions apply in this part:
Office of the Secretary of Transportation

§ 10.13 Privacy Act Officer.

(a) To assist with implementation, evaluation, and administration issues, the Chief Information Officer appoints a principal coordinating official with the title Privacy Act Officer, and one Privacy Act Coordinator from his/her staff.

(b) Inquiries concerning Privacy Act matters, or requests for assistance,
§ 10.15 Protection of records.

(a) No person may, without permission, remove any record made available for inspection or copying under this part from the place where it is made available. In addition, no person may steal, alter, mutilate, obliterate, or destroy, in whole or in part, such a record.

(b) Section 641 of title 18 of the United States Code provides, in pertinent part, as follows:

Whoever * * * steals, purloins, or knowingly converts to his use or the use of another, or without authority, sells, conveys or disposes of any record * * * or thing of value of the United States or of any department or agency thereof * * * shall be fined not more than $10,000 or imprisoned not more than 10 years or both; but if the value of such property does not exceed the sum of $100, he shall be fined not more than $1,000 or imprisoned not more than one year or both * * *.

(c) Section 2071 of title 18 of the United States Code provides, in pertinent part, as follows:

Whoever willfully and unlawfully conceals, removes, mutilates, obliterates, or destroys, or attempts to do so, or with intent to do so takes and carries away any record, proceeding, map, book, paper, document, or other thing, filed or deposited * * * in any public office, or with any * * * public officer of the United States, shall be fined not more than $2,000 or imprisoned not more than 3 years, or both.

Subpart C—Maintenance of Records

§ 10.21 General.

Except to the extent that a system of records is exempt in accordance with subpart G of this part, the Department, with respect to each system of records:

(a) Maintains in its records only such information about an individual as is relevant and necessary to accomplish a purpose of the Department required to be accomplished by statute or by executive order of the President;

(b) Collects information to the greatest extent practicable directly from the subject individual when the information may result in adverse determinations about an individual’s rights, benefits, or privileges under Federal programs;

(c) Informs each individual whom it asks to supply information, on the form which it uses to collect the information or on a separate form that can be retained by the individual of:

(1) The authority (whether granted by statute, or by executive order of the President) which authorizes the solicitation of the information and whether disclosure of such information is mandatory or voluntary;

(2) The principal purpose or purposes for which the information is intended to be used;

(3) The routine uses, as published pursuant to paragraph (d)(4) of this section, which may be made of the information; and

(4) The effects, if any, on the individual of not providing all or any part of the requested information;

(d) Publishes in the Federal Register at least annually a notice of the existence and character of the system of records, including:

(1) The name and location of the system;

(2) The categories of individuals on whom records are maintained in the system;

(3) The categories of records maintained in the system;

(4) Each routine use of the records contained in the system, including the categories of users and the purpose of such use;

(5) The policies and practices regarding storage, retrievability, access controls, retention, and disposal of the records;

(6) The title and business address of the official responsible for the system of records;

(7) The procedures whereby an individual can be notified upon request if the system of records contains a record pertaining to that individual;
§ 10.29 Social Security numbers.

(a) No individual is denied any right, benefit, or privilege provided by law because of such individual’s refusal to disclose his Social Security account number.

(b) The provisions of paragraph (a) of this section do not apply to:

(1) Any disclosure which is required by Federal statute; or

(2) The disclosure of a Social Security number when such disclosure was required under statute or regulation adopted prior to January 1, 1975, to verify the identity of an individual.
§ 10.31  

(c) When an individual is requested to disclose his or her Social Security account number, that individual is informed whether that disclosure is mandatory or voluntary, by what statutory or other authority such number is solicited, what uses are made of it, and what detriments, including delay in the location of records, are incurred if the number is not provided.

Subpart D—Availability of Records

§ 10.31 Requests for records.

(a) Ordinarily, each person desiring to determine whether a record pertaining to him/her is contained in a system of records covered by this part or desiring access to a record covered by this part, or to obtain a copy of such a record, shall make a request in writing addressed to the system manager. The “Privacy Act Issuances” published by the Office of the Federal Register, National Archives and Records Administration, describes the systems of records maintained by all Federal agencies, including the Department and its components. In exceptional cases oral requests are accepted. A description of DOT Privacy Act systems notices is available through the Internet free of charge at http://www.access.gpo.gov/su_docs/aces/PrivacyAct.shtml?desc015.html. See §10.13(b) regarding inquiries concerning Privacy Act matters or requests for assistance.

(b) Each request shall specify the name of the requesting individual and the system of records in which the subject record is located or thought to be located. If assistance is required to determine the system of records identification number assigned in the systems notices, such assistance may be obtained from the appropriate Privacy Act officer or his assistant. Refer to §10.13 for procedures for requesting assistance.

§ 10.33 Acknowledgment and access.

(a) Requests by an individual to determine whether he or she is the subject of a record in a system of records, or requesting access to a record in a system of records, should be acknowledged within 10 working days, where the request is by mail. For requests in person, an immediate response is given, either granting access or informing such individual when notification or access may be expected.

(b) If the response granting access or copies of the record is made within 10 working days, separate acknowledgment is not required.

(c) Although requests for access to a record are normally in writing, e.g., by filing a written form or letter, it is the option of the individual to mail or present the request form in person.

§ 10.35 Conditions of disclosure.

(a) No record that is contained within a system of records of the Department is disclosed by any means of communication to any person, or to another agency, except pursuant to a written request by, or with the prior written consent of, the individual to whom the record pertains, unless disclosure of the record would be:

1. To those officers and employees of the Department who have a need for the record in the performance of their duties;

2. Required under part 7 of this title which implements the Freedom of Information Act;

3. For a routine use as defined in §10.5 and described pursuant to §10.21(d)(4);

4. To the Bureau of the Census for purposes of planning or carrying out a census or survey or related activity pursuant to the provisions of title 13, United States Code;

5. To a recipient who has provided the Department with advance adequate written assurance that the record will be used solely as a statistical research or reporting record, and the record is to be transferred in a form that is not individually identifiable;

6. To the National Archives of the United States as a record which has sufficient historical or other value to warrant its continued preservation by the U.S. Government, or for evaluation by the Administrator of General Services or his designee to determine whether the record has such value;
Office of the Secretary of Transportation

(7) To another agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity if the activity is authorized by law, and if the head of the agency or instrumentality has made a written request to the agency which maintains the record specifying the particular portion desired and the law enforcement activity for which the record is sought;

(8) To a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if upon such disclosure notification is transmitted to the last known address of such individual;

(9) To either House of the Congress, or to the extent of matters within its jurisdiction, any committee or subcommittee thereof, any joint committee of the Congress or subcommittee of any such joint committee;

(10) To the Comptroller General, or any authorized representatives, in the course of the performance of the duties of the General Accounting Office; or

(11) Pursuant to the order of a court of competent jurisdiction.

(b) Any individual requesting access to his or her record or to any information pertaining to that individual which is contained within a system of records within the Department has access to that record or information unless the system of records within which the record or information is contained is exempted from disclosure in accordance with subpart G, provided, however, that nothing in this part is deemed to require that an individual be given access to any information compiled in reasonable anticipation of a civil action or proceeding. No exemption contained in subpart G of part 7 of the regulations of the Office of the Secretary is relied upon to withhold from an individual any record which is otherwise accessible to such individual under the provisions of this part. Any individual who is given access to a record or information pertaining to him is permitted to have a person of his or her own choosing accompany him and to have a copy made of all or any portion of the record or information in a form comprehensible to the individual. When deemed appropriate, the individual may be required to furnish a written statement authorizing discussion of his record in the accompanying person’s presence.

(c) Medical records. Where requests are for access to medical records, including psychological records, the decision to release directly to the individual, or to withhold direct release, shall be made by a medical practitioner. Where the medical practitioner has ruled that direct release will do harm to the individual who is requesting access, normal release through the individual’s chosen medical practitioner will be recommended. Final review and decision on appeals of disapprovals of direct release will rest with the General Counsel.

(d) Any person requesting access to records or to any information pertaining to other individuals is not granted such access unless that person can show that he or she has obtained permission for such access from the individual to whom the record pertains, unless the request comes within one of the exceptions of paragraph (a) of this section.

§10.37 Identification of individual making request.

No record or information contained in a system of records is disclosed to an individual nor is any correction of a record in accordance with subpart E made at the request of an individual unless that individual demonstrates that he or she is who he or she claims to be. Normally, identity can be proven for individuals who appear in person by the presentation of an identifying document issued by a recognized organization (e.g., a driver’s license or a credit card) and which contains a means of verification such as a photograph or a signature. For requests by mail, the unique identifier used in the system should be included if known. Responses to mail requests are normally sent only to the name and address listed in the system of records. In the case of particularly sensitive records, additional identification requirements may...
§ 10.39 Location of records.

Each record made available under this subpart is available for inspection and copying during regular working hours at the place where it is located, or, upon reasonable notice, at the document inspection facilities of the Office of the Secretary or each administration. Original records may be copied but may not be released from custody. Upon payment of the appropriate fee, copies are mailed to the requester.

Subpart E—Correction of Records

§ 10.41 Requests for correction of records.

Any person who desires to have a record pertaining to that person corrected shall submit a written request detailing the correction and the reasons the record should be so corrected. Requests for correction of records shall be submitted to the System Manager.

§ 10.43 Time limits.

Within ten days (excluding Saturday, Sunday, and legal holidays) of the receipt in accordance with §10.41 of a request by an individual to amend a record pertaining to him, the receipt of the request is acknowledged in writing. If a determination is made to correct the record as requested, the correction is promptly made. If a determination is made not to correct the record the individual is informed promptly of the right to appeal in accordance with subpart F. If an appeal of a refusal to correct a record is in accordance with subpart F, a determination whether to correct the record is made within thirty days (excluding Saturday, Sunday, and legal holidays) of the receipt of the appeal unless, for good cause shown the Administrator concerned, or in the case of the Office of the Secretary, the General Counsel, extends such period. Where an extension is taken, the party taking the appeal is promptly notified of such fact.

§ 10.45 Statement of disagreement.

If a determination is made not to amend a record, the requester is informed of the right to file a concise statement setting forth the reasons for disagreement with the refusal to amend. In any disclosure containing information about which an individual has filed such a statement of disagreement, the portions of the record which are disputed are noted clearly and copies of the statement of disagreement provided. If the Administrator concerned or his or her delegee, or in the case of the Office of the Secretary, the General Counsel or his or her delegee, deems it appropriate, copies of a concise statement of the reasons for not making the amendments requested may be provided along with the statement of disagreement.

Subpart F—Procedures for Reconsidering Decisions not to Grant Access to or Amend Records

§ 10.51 General.

(a) Each officer or employee of the Department who, upon a request by a member of the public for a record under this part, makes a determination that access is not to be granted or who determines not to amend a record in a requested manner, gives a written statement of the reasons for that determination to the person making the request and indicates the name and title or position of each person responsible for the denial of such request and the procedure for appeal within the Department.

(b) Any person:

(1) Who has been given a determination pursuant to paragraph (a) of this section, that access will not be granted; or

(2) Who has been informed that an amendment to a requested record will not be made; may apply to the Administrator concerned, or in the case of the Office of the Secretary, to the General Counsel for review of that decision. A determination that access will not be
Office of the Secretary of Transportation

§ 10.61

An application for review must be made in writing and must include all information and arguments relied upon by the person making the request, and be submitted within 30 days of the date of the initial denial; exceptions to this time period are permitted for good reason.

(d) Upon a determination that a request for the correction of a record will be denied, the requester is informed that he may file a concise statement in accordance with § 10.45.

(e) Each application for review must indicate that it is an appeal from a denial of a request made under the Privacy Act. The envelope in which the application is sent should be marked prominently with the words “Privacy Act.” If these requirements are not met, the time limits described in § 10.43 do not begin to run until the application has been identified by an employee of the Department as an application under the Privacy Act and has been received by the appropriate office.

(f) The Administrator concerned, or the General Counsel, as the case may be, may require the person making the request to furnish additional information, or proof of factual allegations, and may order other proceedings appropriate in the circumstances. The decision of the Administrator concerned, or the General Counsel, as the case may be, as to the availability of the record or whether to amend the record is administratively final.

(g) The decision by the Administrator concerned, or the General Counsel, as the case may be, not to disclose a record under this part is considered a determination for the purposes of section 552a(g) of title 5, United States Code, “Civil Remedies.”

(h) Any final decision by an Administrator or his or her delegate not to grant access to or amend a record under this part is subject to concurrence by the General Counsel or his or her delegate.

Subpart G—Exemptions

§ 10.61 General exemptions.

(a) The Assistant Secretary for Administration, with regard to the Investigations Divisions; the Federal Aviation Administrator, with regard to the FAA’s Investigative Record System (DOT/FAA 815) and also with regard to the police functions of the National Capital Airport Police; and the Commandant of U.S. Coast Guard, with regard to the Intelligence and Security Division, may exempt from any part of the Act and this part except subsections (b), (c)(1) and (2), (e)(4)(A) through (F), (e)(6), (7), (9), (10), and (11), and (i) of the Act, and implementing §§10.35, 10.23(a) and (b), 10.21(d)(1) through (6), 10.83, and 10.85, any systems of records, or portions thereof, which they maintain which consist wholly of:

1. Information compiled for the purpose of identifying individual criminal offenders and alleged offenders and consisting only of identifying data and notations of arrests, the nature and disposition of criminal charges, sentencing, confinement, release, and parole and probation status;

2. Information compiled for the purpose of a criminal investigation, including reports of informants and investigators, and associated with an identifiable individual;

3. Reports identifiable to an individual compiled at any stage of the process of enforcement of the criminal laws from arrest or indictment through release from supervision.

(b) The requirements (including general notice) of sections 553(b)(2), (3), and (c) and (e) of title 5, United States Code, will be met by publication
§ 10.63 Specific exemptions.

The Secretary or his or her delegatee, in the case of the Office of the Secretary; or the Administrator or his or her delegate, in the case of an operating administration; or the Inspector General or his or her delegate, in the case of the Office of Inspector General, may exempt any system of records that is maintained by the Office of the Secretary, an operating administration, or the Office of Inspector General, as the case may be, from subsections (c)(3), (d), (e)(1), (e)(4)(G), (H), and (I), and (f) of the Act and implementing §§ 10.23(c); 10.35(b); 10.41; 10.43; 10.45; 10.21(a) and 10.21(d)(6), (7), and (8), under the following conditions:

(a) The system of records must consist of:

(1) Records subject to the provisions of section 552(b)(1) of title 5, United States Code;

(2) Investigatory material compiled for law enforcement purposes, other than material within the scope of §10.63(a)(2); Provided, however, That if any individual is denied any right, privilege, or benefit to which that individual would otherwise be entitled by Federal law, or for which that individual would otherwise be eligible, as a result of the maintenance of such material, such material is provided to such individual, except to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to September 27, 1975,

(b) The requirements (including general notice) of sections 553 (b) (1), (2) and (3), and (c) and (e) of title 5, United States Code, will be met by publication in appendix A to this part, which must, at a minimum, specify:

(1) The name of the systems; and

(2) The specific provisions of the Act from which the system is to be exempted and the reasons therefor.

(3) Records maintained in connection with providing protective services to the President of the United States or other individuals pursuant to section 3056 of title 18, United States Code;

(4) Records required by statute to be maintained and used solely as statistical records;

(5) Investigatory material compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment, military service, Federal contracts, or access to classified information, but only to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to September 27, 1975, the effective date of the Privacy Act of 1974, under an implied promise that the identity of the source would be held in confidence;

(6) Testing or examination material used solely to determine individual qualifications for appointment or promotion in the Federal service the disclosure of which would compromise the objectivity or fairness of the testing or examination process; or

(7) Evaluation material used to determine potential for promotion in the armed services, but only to the extent that the disclosure of such material would reveal the identity of a source who furnished information to the Government under an express promise that the identity of the source would be held in confidence, or, prior to the effective date of this section, under an implied promise that the identity of the source would be held in confidence. 
Office of the Secretary of Transportation

§ 10.81

(c) Any decision to exempt a system of records under this section is subject to the concurrence of the General Counsel.

(d) Any person may petition the Secretary in accordance with the provisions of 49 CFR part 5, to institute a rulemaking for the amendment or repeal of any exemptions established under this section.

Subpart H—Fees

§ 10.71 General.

This subpart prescribes fees for services performed for the public under this part by the Department.

§ 10.73 Payment of fees.

The fees prescribed in this subpart may be paid by check, draft, or postal money order payable to the Treasury of the United States.

§ 10.75 Fee schedule.

(a) Copies of documents by photocopy or similar method:

<table>
<thead>
<tr>
<th>Each page not larger than 11 x 17 inches:</th>
</tr>
</thead>
<tbody>
<tr>
<td>First page .................................................... $.25</td>
</tr>
<tr>
<td>Each page ................................................... .05</td>
</tr>
</tbody>
</table>

(b) Copies of documents by typewriter: Each page 2.00

(c) Certified copies of documents:

| (1) With Department of Transportation seal ....... 3.00 |
| (2) True copy, without seal ................................. 1.00 |

(d) Photographs:

| (1) Black and white print (from negative) ........... 1.25 |
| (2) Black and white print (from print) ................. 3.15 |
| (3) Color print (from negative) ......................... 3.50 |
| (4) Color print (from print) ............................... 6.25 |

(e) Duplicate data tapes—each reel of tape or fraction thereof ............................................................. 36.00

(f) Microreproduction fees are as follows:

| (1) Microfilm copies, each standard size sheet (4” x 6” containing up to 65 frames) .......... .15 |
| (2) Aperture card to hard copy, each copy ........ .50 |
| (4) 16mm microfilm to hard copy: |
| First .............................................................. .25 |
| Additional ..................................................... .07 |
| (g) Computerline printer output, each 1,000 lines or fraction thereof ........................................ 1.00 |

§ 10.77 Services performed without charge.

(a) No fee is charged for time spent in searching for records or reviewing or preparing correspondence related to records subject to this part.

(b) No fee is charged for documents furnished in response to:

(1) A request from an employee or former employee of the Department for copies of personnel records of the employee;

(2) A request from a Member of Congress for official use;

(3) A request from a State, territory, U.S. possession, county or municipal government, or an agency thereof;

(4) A request from a court that will serve as a substitute for the personal court appearance of an officer or employee of the Department;

(5) A request from a foreign government or an agency thereof, or an international organization.

(c) Documents are furnished without charge or at a reduced charge, if the Assistant Secretary of Administration or the Administrator concerned, as the case may be, determines that waiver or reduction of the fee is in the public interest, because furnishing the information can be considered as primarily benefiting the general public.

(d) When records are maintained in computer-readable form rather than human-readable form, one printed copy is made available which has been translated to human-readable form without a charge for translation but in accordance with §10.75(g), regarding computer line-printed charges.

Subpart I—Criminal Penalties

§ 10.81 Improper disclosure.

Any officer or employee of the Department who by virtue of his or her employment or official position, has possession of, or access to, agency records which contain individually identifiable information the disclosure of which is prohibited by this part and
§ 10.83 Improper maintenance of records.

Any officer or employee of the Department who willfully maintains a system of records without meeting the notice requirements of §10.21(d) of this part is guilty of a misdemeanor and fined not more than $5,000 in accordance with 5 U.S.C. 552a(i)(1).

§ 10.85 Wrongfully obtaining records.

Any person who knowingly and willfully requests or obtains any record concerning an individual from the Department under false pretenses is guilty of a misdemeanor and fined not more than $5,000 in accordance with 5 U.S.C. 552a(i)(2).

Appendix to Part 10—Exemptions

Part I. General Exemptions

Those portions of the following systems of records that consist of (a) Information compiled for the purpose of identifying individual criminal offenders and alleged offenders and consisting only of identifying data and notations of arrests, the nature and disposition of criminal charges, sentencing, confinement, release, and parole and probation status; (b) information compiled for the purpose of a criminal investigation, including reports of informants and investigators, and associated with an identifiable individual; or (c) reports identifiable to an individual compiled at any stage of the process of enforcement of the criminal laws from arrest or indictment through release from supervision, are exempt from all parts of 5 U.S.C. 552a except subsections (b) (Conditions of disclosure); (c) (3) and (2) (Accounting of certain disclosures); (e)(6) (A) through (f) (Publication of existence and character of system); (e)(6) (Ensure records are accurate, relevant, timely, and complete before disclosure to person other than an agency and other than pursuant to a Freedom of Information Act request), (7) (Restrict recordkeeping on First Amendment rights), (9) (Rules of conduct), (10) (Safeguards), and (11) (Routine use publication); and (i) (Criminal penalties):

A. The Investigative Records System maintained by the Assistant Inspector General for Investigations, Office of the Inspector General, Office of the Secretary (DOT/OST 100).

B. Police Warrant Files and Central Files maintained by the Federal Aviation Administration (DOT/FAA 807).

C. Law Enforcement Information System, maintained by the Office of Law Enforcement and Defense Operations, U.S. Coast Guard (DOT/CG 613).

E. The Investigative Records System maintained by the Federal Aviation Administration regarding criminal investigations conducted by offices of Investigations and Security at headquarters and FAA Regional and Center Security Divisions (DOT/FAA 815).

F. Joint Maritime Intelligence Element (J M I E) Support System, maintained by the Operations Systems, Center, US Coast Guard (DOT/CG 642).

These exemptions are justified for the following reasons:

1. From subsection (c)(3), because making available to a record subject the accounting of disclosures from records concerning him/her would reveal investigative interest by not only DOT but also the recipient agency, thereby permitting the record subject to take appropriate measures to impede the investigation, as by destroying evidence, intimidating potential witnesses, fleeing the area to avoid the thrust of the investigation, etc.

2. From subsections (d), (e)(4) (G) and (H), (f), and (g), because granting an individual access to investigative records, and granting him/her rights to amend/contest that information, interfere with the overall law enforcement process by revealing a pending sensitive investigation, possibly identify a confidential source, disclose information that would constitute an unwarranted invasion of another individual’s personal privacy, reveal a sensitive investigative technique, or constitute a potential danger to the health or safety of law enforcement personnel.

3. From subsection (e)(1), because it is often impossible to determine relevancy or necessity of information in the early stages of an investigation. The value of such information is a question of judgement and timing: what appears relevant and necessary when collected may ultimately be evaluated and viewed as irrelevant and unnecessary to an investigation. In addition, DOT may obtain information concerning the violation of laws other than those within the scope of its jurisdiction. In the interest of effective law enforcement, DOT should retain this information because it may aid in establishing patterns of unlawful activity and provide leads for other law enforcement agencies. Further, in obtaining evidence during an investigation, information may be provided to...
Office of the Secretary of Transportation

Part II. Specific Exemptions

A. The following systems of records are exempt from subsection (c)(3) (Accounting of Certain Disclosures), (d) (Access to Records), (e)(4)(G), (H), and (I) (Agency Rules) of 5 USC 552a to the extent that they contain investigatory material compiled for law enforcement purposes in accordance with 5 USC 552a(k)(2):

1. Investigative Record System (DOT/FAA 813) maintained by the Federal Aviation Administration at the Office of Civil Aviation Security in Washington, D.C.; the FAA regional Civil Aviation Security Divisions; the Civil Aviation Security Division at the Mike Monroney Aeronautical Center in Oklahoma City, Oklahoma; the FAA Civil Aviation Security Staff at the FAA Technical Center in Atlantic City, New Jersey; and the various Federal Records Centers located throughout the country.

3. FHWA Motor Carrier Safety Proposed Civil and Criminal Enforcement Cases, maintained by the Bureau of Motor Carrier Safety, Federal Highway Administration (DOT/FHWA 204).

4. Recreational Boating and Law Enforcement Cases (DOT/CG 504), maintained by the Office of Boating Safety, U.S. Coast Guard.

5. Port Safety Reporting System—Individual Violation Histories (DOT/CG 561), maintained by the Office of Marine Environment and Systems, U.S. Coast Guard.

7. U.S. Merchant Seaman’s Records (DOT/CG 589), maintained by the Office of Merchant Marine Safety, U.S. Coast Guard.

10. DOT/NHTSA Investigations of Alleged Misconduct or Conflict of Interest, maintained by the Associate Administrator for Administration, National Highway Traffic Safety Administration (DOT/NHTSA 458).

15. Vessel Identification System, maintained by the Operations Systems Center, U.S. Coast Guard (DOT/CG 590). The purpose of this exemption is to prevent persons who are the subjects of criminal investigations from learning too early in the investigative process that they are subjects, what information there is in Coast Guard files that indicates that they may have committed unlawful conduct, and who provided such information.

16. Marine Safety Information System, maintained by the Operations Systems Center, U.S. Coast Guard (DOT/CG 588). The purpose of this exemption is to prevent persons who are the subjects of criminal investigations from learning too early in the investigative process that they are subjects, what information there is in Coast Guard files that indicates that they may have committed unlawful conduct, and who provided such information.

These exemptions are justified for the following reasons:

1. From subsection (c)(3), because making available to a record subject the accounting of disclosures from records concerning him/her would reveal investigative interest by not only DOT but also the recipient agency, thereby permitting the record subject to take appropriate measures to impede the investigation, as by destroying evidence, intimidating potential witnesses, fleeing the
Federal civilian employment, military service, or access to classified information or used to determine potential for promotion in the armed services, are exempt from sections (c)(3) (Accounting of Certain Disclosures), (d) (Access to Records), (e)(4) (G), (H), and (I) (Agency Requirements), and (f) (Agency Rules) of 5 U.S.C. 552a(k) to the extent that disclosure of such material would reveal the identity of a source who provided information to the Government under an express or, prior to September 27, 1975, an implied promise of confidentiality (5 U.S.C. 552a(k) (5) and (7)).

2. Intelligence and Security Investigative Case System (DOT/CG 611), maintained by the Office of Operations, U.S. Coast Guard.

3. Officer Selection and Appointment System (DOT/CG 626), maintained by the Office of Personnel, U.S. Coast Guard.

5. Enlisted Recruiting Selection Record System maintained by the Office of Personnel, U.S. Coast Guard.

6. Office, Enlisted, and Recruiting Selection Test Files (DOT/CG 628), maintained by the Office of Personnel, U.S. Coast Guard.

7. Enlisted Personnel Record System (DOT/CG 629), maintained by the Office of Personnel, U.S. Coast Guard.

8. Coast Guard Personnel Security Program (DOT/CG 633), maintained by the Office of Personnel, U.S. Coast Guard.

9. Official Coast Guard Reserve Service Record System (DOT/CG 676), maintained by the Office of Reserve, U.S. Coast Guard.

11. Military Training and Education Records (DOT/CG 622), maintained by the Office of Personnel, U.S. Coast Guard.

12. Files pursuant to suitability for employment with National Highway Traffic Safety Administration (DOT/NHTSA-457) containing confidential investigatory reports.

The purpose of these exemptions is to prevent disclosure of the identities of sources who provide information to the government concerning the suitability, eligibility, or qualifications of individuals for Federal civilian employment, contracts, access to classified information, or appointment or promotion in the armed services, and who are
Office of the Secretary of Transportation

expressly or, prior to September 27, 1975, implied promised confidentiality (5 U.S.C. 552a(k) (5) and (7)).

E. Those portions of the following systems of records consisting of testing or examination material used solely to determine individual qualifications for appointment or promotion in the Federal Service are exempt from subsections (c)(3) (Accounting of Certain Disclosures), (d) (Access to Records), and (f) (Agency Rules) of 5 U.S.C. 552a:

1. Officer, Enlisted and Recruiting Selection Test Files (DOT/CG 628), maintained by the Office of Personnel, U.S. Coast Guard.
2. Official Coast Guard Reserve Service Record System (DOT/CG 676), maintained by the Office of Reserve, U.S. Coast Guard.
3. Military Training and Education Records (DOT/CG 622), maintained by the Office of Personnel, U.S. Coast Guard.
4. Reference Files (DOT/NHTSA 457), maintained by the National Highway Traffic Safety Administration personnel offices to determine fitness for employment prior to hiring.

The purpose of these exemptions is to preserve the value of these records as impartial measurement standards for appointment and promotion within the Federal service.

F. Those portions of the following systems of records which consist of information properly classified in the interest of national defense or foreign policy, in accordance with 5 U.S.C. 552(b)(1) and 552a(k) (5) and (7).

1. Investigative Record System (DOT/FAA 815) maintained by the Federal Aviation Administration at the Office of Civil Aviation Security in Washington, DC; the FAA regional Civil Aviation Security Divisions; the Civil Aviation Security Division at the Mike Monroney Aeronautical Center in Oklahoma City, Oklahoma; the FAA Civil Aviation Security Staff at the FAA Technical Center in Atlantic City, New Jersey; and the various Federal Records Centers located throughout the country.

The purpose of these exemptions is to prevent the disclosure of material authorized to be kept secret in the interest of national defense or foreign policy, in accordance with 5 U.S.C. 552(b)(1) and 552a(k) (5) and (7).

PART 11—PROTECTION OF HUMAN SUBJECTS

Sec.
11.101 To what does this policy apply?
11.102 Definitions.
11.103 Assuring compliance with this policy—research conducted or supported by any Federal Department or Agency.
11.104—11.106 [Reserved]
11.107 IRB Membership.
11.108 IRB functions and operations.
11.109 IRB review of research.
11.110 Expedited review procedures for certain kinds of research involving no more than minimal risk, and for minor changes in approved research.
11.111 Criteria for IRB approval of research.
11.112 Review by institution.
11.113 Suspension or termination of IRB approval of research.
11.114 Cooperative research.
11.115 IRB records.
11.116 General requirements for informed consent.
11.117 Documentation of informed consent.
11.118 Applications and proposals lacking definite plans for involvement of human subjects.
11.119 Research undertaken without the intention of involving human subjects.
11.120 Evaluation and disposition of applications and proposals for research to be conducted or supported by a Federal Department or Agency.
11.121 [Reserved]
11.122 Use of Federal funds.
11.123 Early termination of research support: Evaluation of applications and proposals.
11.124 Conditions.
§ 11.101

SOURCE: 56 FR 28012, 28023, June 18, 1991, unless otherwise noted.

§ 11.101 To what does this policy apply?

(a) Except as provided in paragraph (b) of this section, this policy applies to all research involving human subjects conducted, supported or otherwise subject to regulation by any federal department or agency which takes appropriate administrative action to make the policy applicable to such research. This includes research conducted by federal civilian employees or military personnel, except that each department or agency head may adopt such procedural modifications as may be appropriate from an administrative standpoint. It also includes research conducted, supported, or otherwise subject to regulation by the federal government outside the United States.

(1) Research that is conducted or supported by a federal department or agency, whether or not it is regulated as defined in §11.102(e), must comply with all sections of this policy.

(2) Research that is neither conducted nor supported by a federal department or agency but is subject to regulation as defined in §11.102(e) must be reviewed and approved, in compliance with §§11.101, §11.102, and §11.107 through §11.117 of this policy, by an institutional review board (IRB) that operates in accordance with the pertinent requirements of this policy.

(b) Unless otherwise required by department or agency heads, research activities in which the only involvement of human subjects will be in one or more of the following categories are exempt from this policy:

(1) Research conducted in established or commonly accepted educational settings, involving normal educational practices, such as (i) research on regular and special education instructional strategies, or (ii) research on the effectiveness of or the comparison among instructional techniques, curricula, or classroom management methods.

(2) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures, or observation of public behavior, unless:

(i) Information obtained is recorded in such a manner that human subjects can be identified, directly or through identifiers linked to the subjects; and

(ii) Any disclosure of the human subjects’ responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects’ financial standing, employability, or reputation.

(3) Research involving the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures, or observation of public behavior that is not exempt under paragraph (b)(2) of this section, if:

(i) The human subjects are elected or appointed public officials or candidates for public office; or (ii) federal statute(s) require(s) without exception that the confidentiality of the personally identifiable information will be maintained throughout the research and thereafter.

(4) Research, involving the collection or study of existing data, documents, records, pathological specimens, or diagnostic specimens, if these sources are publicly available or if the information is recorded by the investigator in such a manner that subjects cannot be identified, directly or through identifiers linked to the subjects.

(5) Research and demonstration projects which are conducted by or subject to the approval of department or agency heads, and which are designed to study, evaluate, or otherwise examine:

(i) Public benefit or service programs; (ii) procedures for obtaining benefits or services under those programs; (iii) possible changes in or alternatives to those programs or procedures; or (iv) possible changes in methods or levels of payment for benefits or services under those programs.

(6) Taste and food quality evaluation and consumer acceptance studies, (i) if wholesome foods without additives are consumed or (ii) if a food is consumed that contains a food ingredient at or below the level and for a use found to be safe, or agricultural chemical or environmental contaminant at or below the level found to be safe, by the Food and Drug Administration or approved by the Environmental Protection...
Office of the Secretary of Transportation § 11.102

Agency or the Food Safety and Inspection Service of the U.S. Department of Agriculture.

(c) Department or agency heads retain final judgment as to whether a particular activity is covered by this policy.

(d) Department or agency heads may require that specific research activities or classes of research activities conducted, supported, or otherwise subject to regulation by the department or agency but not otherwise covered by this policy, comply with some or all of the requirements of this policy.

(e) Compliance with this policy requires compliance with pertinent federal laws or regulations which provide additional protections for human subjects.

(f) This policy does not affect any state or local laws or regulations which may otherwise be applicable and which provide additional protections for human subjects.

(g) This policy does not affect any foreign laws or regulations which may otherwise be applicable and which provide additional protections to human subjects of research.

(h) When research covered by this policy takes place in foreign countries, procedures normally followed in the foreign countries to protect human subjects may differ from those set forth in this policy. [An example is a foreign institution which complies with guidelines consistent with the World Medical Assembly Declaration (Declaration of Helsinki amended 1989) issued either by sovereign states or by an organization whose function for the protection of human research subjects is internationally recognized.] In these circumstances, if a department or agency head determines that the procedures prescribed by the institution afford protections that are at least equivalent to those provided in this policy, the department or agency head may approve the substitution of the foreign procedures in lieu of the procedural requirements provided in this policy. Except when otherwise required by statute, Executive Order, or the department or agency head, notices of these actions as they occur will be published in the FEDERAL REGISTER or will be otherwise published as provided in department or agency procedures.

(i) Unless otherwise required by law, department or agency heads may waive the applicability of some or all of the provisions of this policy to specific research activities or classes of research activities otherwise covered by this policy. Except when otherwise required by statute or Executive Order, the department or agency head shall forward advance notices of these actions to the Office for Protection from Research Risks, Department of Health and Human Services (HHS), and shall also publish them in the FEDERAL REGISTER in such other manner as provided in department or agency procedures.

[56 FR 28012, 28023, June 18, 1991; 56 FR 29756, June 28, 1991]

§ 11.102 Definitions.

(a) Department or agency head means the head of any federal department or agency and any other officer or employee of any department or agency to whom authority has been delegated.

(b) Institution means any public or private entity or agency (including federal, state, and other agencies).

(c) Legally authorized representative means an individual or judicial or other body authorized under applicable law to consent on behalf of a prospective subject to the subject's participation in the procedure(s) involved in the research.

(d) Research means a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge. Activities which

—Institutions with HHS-approved assurances on file will abide by provisions of title 45 CFR part 46 subparts A-D. Some of the other Departments and Agencies have incorporated all provisions of title 45 CFR part 46 into their policies and procedures as well. However, the exemptions at 45 CFR 46.101(b) do not apply to research involving prisoners, fetuses, pregnant women, or human in vitro fertilization, subparts B and C. The exemption at 45 CFR 46.101(b)(2), for research involving survey or interview procedures or observation of public behavior, does not apply to research with children, subpart D, except for research involving observations of public behavior when the investigator(s) do not participate in the activities being observed.
meet this definition constitute research for purposes of this policy, whether or not they are conducted or supported under a program which is considered research for other purposes. For example, some demonstration and service programs may include research activities.

(e) Research subject to regulation, and similar terms are intended to encompass those research activities for which a federal department or agency has specific responsibility for regulating as a research activity, for example, Investigational New Drug requirements administered by the Food and Drug Administration. It does not include research activities which are incidentally regulated by a federal department or agency solely as part of the department's or agency's broader responsibility to regulate certain types of activities whether research or non-research in nature (for example, Wage and Hour requirements administered by the Department of Labor).

(f) Human subject means a living individual about whom an investigator (whether professional or student) conducting research obtains

(1) Data through intervention or interaction with the individual, or

(2) Identifiable private information.

Intervention includes both physical procedures by which data are gathered (for example, venipuncture) and manipulations of the subject or the subject's environment that are performed for research purposes. Interaction includes communication or interpersonal contact between investigator and subject. "Private information" includes information about behavior that occurs in a context in which an individual can reasonably expect that no observation or recording is taking place, and information which has been provided for specific purposes by an individual and which the individual can reasonably expect will not be made public (for example, a medical record). Private information must be individually identifiable (i.e., the identity of the subject is or may readily be ascertained by the investigator or associated with the information) in order for obtaining the information to constitute research involving human subjects.

(g) IRB means an institutional review board established in accord with and for the purposes expressed in this policy.

(h) IRB approval means the determination of the IRB that the research has been reviewed and may be conducted at an institution within the constraints set forth by the IRB and by other institutional and federal requirements.

(i) Minimal risk means that the probability and magnitude of harm or discomfort anticipated in the research are not greater in and of themselves than those ordinarily encountered in daily life or during the performance of routine physical or psychological examinations or tests.

(j) Certification means the official notification by the institution to the supporting department or agency, in accordance with the requirements of this policy, that a research project or activity involving human subjects has been reviewed and approved by an IRB in accordance with an approved assurance.

§ 11.103 Assuring compliance with this policy—research conducted or supported by any Federal Department or Agency.

(a) Each institution engaged in research which is covered by this policy and which is conducted or supported by a federal department or agency shall provide written assurance satisfactory to the department or agency head that it will comply with the requirements set forth in this policy. In lieu of requiring submission of an assurance, individual department or agency heads shall accept the existence of a current assurance, appropriate for the research in question, on file with the Office for Protection from Research Risks, HHS, and approved for federalwide use by that office. When the existence of an HHS-approved assurance is accepted in lieu of requiring submission of an assurance, reports (except certification) required by this policy to be made to department and agency heads shall also be made to the Office for Protection from Research Risks, HHS.

(b) Departments and agencies will conduct or support research covered by this policy only if the institution has an assurance approved as provided in
Office of the Secretary of Transportation § 11.103

this section, and only if the institution has certified to the department or agency head that the research has been reviewed and approved by an IRB provided for in the assurance, and will be subject to continuing review by the IRB. Assurances applicable to federally supported or conducted research shall at a minimum include:

(1) A statement of principles governing the institution in the discharge of its responsibilities for protecting the rights and welfare of human subjects of research conducted at or sponsored by the institution, regardless of whether the research is subject to federal regulation. This may include an appropriate existing code, declaration, or statement of ethical principles, or a statement formulated by the institution itself. This requirement does not preempt provisions of this policy applicable to department- or agency-supported or regulated research and need not be applicable to any research exempted or waived under §11.101 (b) or (i).

(2) Designation of one or more IRBs established in accordance with the requirements of this policy, and for which provisions are made for meeting space and sufficient staff to support the IRB’s review and recordkeeping duties.

(3) A list of IRB members identified by name; earned degrees; representative capacity; indications of experience such as board certifications, licenses, etc., sufficient to describe each member’s chief anticipated contributions to IRB deliberations; and any employment or other relationship between each member and the institution; for example: full-time employee, part-time employee, member of governing panel or board, stockholder, paid or unpaid consultant. Changes in IRB membership shall be reported to the department or agency head, unless in accord with §11.103(a) of this policy, the existence of an HHS-approved assurance is accepted. In this case, change in IRB membership shall be reported to the Office for Protection from Research Risks, HHS.

(4) Written procedures which the IRB will follow (i) for conducting its initial and continuing review of research and for reporting its findings and actions to the investigator and the institution; (ii) for determining which projects require review more often than annually and which projects need verification from sources other than the investigators that no material changes have occurred since previous IRB review; and (iii) for ensuring prompt reporting to the IRB of proposed changes in a research activity, and for ensuring that such changes in approved research, during the period for which IRB approval has already been given, may not be initiated without IRB review and approval except when necessary to eliminate apparent immediate hazards to the subject.

(5) Written procedures for ensuring prompt reporting to the IRB, appropriate institutional officials, and the department or agency head of (i) any unanticipated problems involving risks to subjects or others or any serious or continuing noncompliance with this policy or the requirements or determinations of the IRB and (ii) any suspension or termination of IRB approval.

(c) The assurance shall be executed by an individual authorized to act for the institution and to assume on behalf of the institution the obligations imposed by this policy and shall be filed in such form and manner as the department or agency head prescribes.

(d) The department or agency head will evaluate all assurances submitted in accordance with this policy through such officers and employees of the department or agency and such experts or consultants engaged for this purpose as the department or agency head determines to be appropriate. The department or agency head’s evaluation will take into consideration the adequacy of the proposed IRB in light of the anticipated scope of the institution’s research activities and the types of subject populations likely to be involved, the appropriateness of the proposed initial and continuing review procedures in light of the probable risks, and the size and complexity of the institution.

(e) On the basis of this evaluation, the department or agency head may approve or disapprove the assurance, or enter into negotiations to develop an approvable one. The department or
§§ 11.104–11.106
agency head may limit the period during which any particular approved assurance or class of approved assurances shall remain effective or otherwise condition or restrict approval.

(f) Certification is required when the research is supported by a federal department or agency and not otherwise exempted or waived under §11.101(b) or (i). An institution with an approved assurance shall certify that each application or proposal for research covered by the assurance and by §11.103 of this Policy has been reviewed and approved by the IRB. Such certification must be submitted with the application or proposal or by such later date as may be prescribed by the department or agency. An institution without an approved assurance covering the research shall certify within 30 days after receipt of a request for such a certification from the department or agency. Under no condition shall research covered by §11.103 of the Policy be supported prior to receipt of the certification that the research has been reviewed and approved by the IRB.

§ 11.107 IRB membership.
(a) Each IRB shall have at least five members, with varying backgrounds to promote complete and adequate review of research activities commonly conducted by the institution. The IRB shall be sufficiently qualified through the experience and expertise of its members, and the diversity of the members, including consideration of race, gender, and cultural backgrounds and sensitivity to such issues as community attitudes, to promote respect for its advice and counsel in safeguarding the rights and welfare of human subjects. In addition to possessing the professional competence necessary to review specific research activities, the IRB shall be able to ascertain the acceptability of proposed research in terms of institutional commitments and regulations, applicable law, and standards of professional conduct and practice. The IRB shall therefore include persons knowledgeable in these areas. If an IRB regularly reviews research that involves a vulnerable category of subjects, such as children, prisoners, pregnant women, or handicapped or mentally disabled persons, consideration shall be given to the inclusion of one or more individuals who are knowledgeable about and experienced in working with these subjects.

(b) Every nondiscriminatory effort will be made to ensure that no IRB consists entirely of men or entirely of women, including the institution’s consideration of qualified persons of both sexes, so long as no selection is made to the IRB on the basis of gender. No IRB may consist entirely of members of one profession.

(c) Each IRB shall include at least one member whose primary concerns are in scientific areas and at least one member whose primary concerns are in nonscientific areas.

(d) Each IRB shall include at least one member who is not otherwise affiliated with the institution and who is not part of the immediate family of a person who is affiliated with the institution.

(e) No IRB may have a member participate in the IRB’s initial or continuing review of any project in which the member has a conflicting interest, except to provide information requested by the IRB.

(f) An IRB may, in its discretion, invite individuals with competence in special areas to assist in the review of issues which require expertise beyond or in addition to that available on the IRB. These individuals may not vote with the IRB.

§ 11.108 IRB functions and operations.
In order to fulfill the requirements of this policy each IRB shall:
(a) Follow written procedures in the same detail as described in §11.103(b)(4) and, to the extent required by, §11.103(b)(5).
107

Office of the Secretary of Transportation § 11.110

(b) Except when an expedited review procedure is used (see §11.110), review proposed research at convened meetings at which a majority of the members of the IRB are present, including at least one member whose primary concerns are in nonscientific areas. In order for the research to be approved, it shall receive the approval of a majority of those members present at the meeting.

§11.109 IRB Review of research.

(a) An IRB shall review and have authority to approve, require modifications in (to secure approval), or disapprove all research activities covered by this policy.

(b) An IRB shall require that information given to subjects as part of informed consent is in accordance with §11.116. The IRB may require that information, in addition to that specifically mentioned in §11.116, be given to the subjects when in the IRB’s judgment the information would meaningfully add to the protection of the rights and welfare of subjects.

(c) An IRB shall require documentation of informed consent or may waive documentation in accordance with §11.117.

(d) An IRB shall notify investigators and the institution in writing of its decision to approve or disapprove the proposed research activity, or of modifications required to secure IRB approval of the research activity. If the IRB decides to disapprove a research activity, it shall include in its written notification a statement of the reasons for its decision and give the investigator an opportunity to respond in person or in writing.

(e) An IRB shall conduct continuing review of research covered by this policy at intervals appropriate to the degree of risk, but not less than once per year, and shall have authority to observe or have a third party observe the consent process and the research.

(Approved by the Office of Management and Budget under control number 9999-0020)

§11.110 Expedited review procedures for certain kinds of research involving no more than minimal risk, and for minor changes in approved research.

(a) The Secretary, HHS, has established, and published as a Notice in the Federal Register, a list of categories of research that may be reviewed by the IRB through an expedited review procedure. The list will be amended, as appropriate after consultation with other departments and agencies, through periodic republication by the Secretary, HHS, in the Federal Register. A copy of the list is available from the Office for Protection from Research Risks, National Institutes of Health, HHS, Bethesda, Maryland 20892.

(b) An IRB may use the expedited review procedure to review either or both of the following:

(1) Some or all of the research appearing on the list and found by the reviewer(s) to involve no more than minimal risk,

(2) Minor changes in previously approved research during the period (of one year or less) for which approval is authorized.

Under an expedited review procedure, the review may be carried out by the IRB chairperson or by one or more experienced reviewers designated by the chairperson from among members of the IRB. In reviewing the research, the reviewers may exercise all of the authorities of the IRB except that the reviewers may not disapprove the research. A research activity may be disapproved only after review in accordance with the non-expedited procedure set forth in §11.108(b).

(c) Each IRB which uses an expedited review procedure shall adopt a method for keeping all members advised of research proposals which have been approved under the procedure.

(d) The department or agency head may restrict, suspend, terminate, or choose not to authorize an institution’s or IRB’s use of the expedited review procedure.
§ 11.111 Criteria for IRB approval of research.

(a) In order to approve research covered by this policy the IRB shall determine that all of the following requirements are satisfied:

(1) Risks to subjects are minimized: (i) By using procedures which are consistent with sound research design and which do not unnecessarily expose subjects to risk, and (ii) whenever appropriate, by using procedures already being performed on the subjects for diagnostic or treatment purposes.

(2) Risks to subjects are reasonable in relation to anticipated benefits, if any, to subjects, and the importance of the knowledge that may reasonably be expected to result. In evaluating risks and benefits, the IRB should consider only those risks and benefits that may result from the research (as distinguished from risks and benefits of therapies subjects would receive even if not participating in the research). The IRB should not consider possible long-range effects of applying knowledge gained in the research (for example, the possible effects of the research on public policy) as among those research risks that fall within the purview of its responsibility.

(3) Selection of subjects is equitable. In making this assessment the IRB should take into account the purposes of the research and the setting in which the research will be conducted and should be particularly cognizant of the special problems of research involving vulnerable populations, such as children, prisoners, pregnant women, mentally disabled persons, or economically or educationally disadvantaged persons.

(4) Informed consent will be sought from each prospective subject or the subject’s legally authorized representative, in accordance with, and to the extent required by §11.116.

(5) Informed consent will be appropriately documented, in accordance with, and to the extent required by §11.117.

(6) When appropriate, the research plan makes adequate provision for monitoring the data collected to ensure the safety of subjects.

(7) When appropriate, there are adequate provisions to protect the privacy of subjects and to maintain the confidentiality of data.

(b) When some or all of the subjects are likely to be vulnerable to coercion or undue influence, such as children, prisoners, pregnant women, mentally disabled persons, or economically or educationally disadvantaged persons, additional safeguards have been included in the study to protect the rights and welfare of these subjects.

§ 11.112 Review by institution.

Research covered by this policy that has been approved by an IRB may be subject to further appropriate review and approval or disapproval by officials of the institution. However, those officials may not approve the research if it has not been approved by an IRB.

§ 11.113 Suspension or termination of IRB approval of research.

An IRB shall have authority to suspend or terminate approval of research that is not being conducted in accordance with the IRB’s requirements or that has been associated with unexpected serious harm to subjects. Any suspension or termination of approval shall include a statement of the reasons for the IRB’s action and shall be reported promptly to the investigator, appropriate institutional officials, and the department or agency head.

(Approved by the Office of Management and Budget under control number 9999-0020)

§ 11.114 Cooperative research.

Cooperative research projects are those projects covered by this policy which involve more than one institution. In the conduct of cooperative research projects, each institution is responsible for safeguarding the rights and welfare of human subjects and for complying with this policy. With the approval of the department or agency head, an institution participating in a cooperative project may enter into a joint review arrangement, rely upon the review of another qualified IRB, or make similar arrangements for avoiding duplication of effort.
§ 11.115 IRB records.

(a) An institution, or when appropriate an IRB, shall prepare and maintain adequate documentation of IRB activities, including the following:

(1) Copies of all research proposals reviewed, scientific evaluations, if any, that accompany the proposals, approved sample consent documents, progress reports submitted by investigators, and reports of injuries to subjects.

(2) Minutes of IRB meetings which shall be in sufficient detail to show attendance at the meetings; actions taken by the IRB; the vote on these actions including the number of members voting for, against, and abstaining; the basis for requiring changes in or disapproving research; and a written summary of the discussion of controverted issues and their resolution.

(3) Records of continuing review activities.

(4) Copies of all correspondence between the IRB and the investigators.

(5) A list of IRB members in the same detail as described is § 11.103(b)(3).

(6) Written procedures for the IRB in the same detail as described in § 11.103(b)(4) and § 11.103(b)(5).

(7) Statements of significant new findings provided to subjects, as required by § 11.116(b)(5).

(b) The records required by this policy shall be retained for at least 3 years, and records relating to research which is conducted shall be retained for at least 3 years after completion of the research. All records shall be accessible for inspection and copying by authorized representatives of the department or agency at reasonable times and in a reasonable manner.

(Approved by the Office of Management and Budget under control number 9999-0020)

§ 11.116 General requirements for informed consent.

Except as provided elsewhere in this policy, no investigator may involve a human being as a subject in research covered by this policy unless the investigator has obtained the legally effective informed consent of the subject or the subject’s legally authorized representative. An investigator shall seek such consent only under circumstances that provide the prospective subject or the representative sufficient opportunity to consider whether or not to participate and that minimize the possibility of coercion or undue influence. The information that is given to the subject or the representative shall be in language understandable to the subject or the representative. No informed consent, whether oral or written, may include any exculpatory language through which the subject or the representative is made to waive or appear to waive any of the subject’s legal rights, or releases or appears to release the investigator, the sponsor, the institution or its agents from liability for negligence.

(a) Basic elements of informed consent. Except as provided in paragraph (c) or (d) of this section, in seeking informed consent the following information shall be provided to each subject:

(1) A statement that the study involves research, an explanation of the purposes of the research and the expected duration of the subject’s participation, a description of the procedures to be followed, and identification of any procedures which are experimental;

(2) A description of any reasonably foreseeable risks or discomforts to the subject;

(3) A description of any benefits to the subject or to others which may reasonably be expected from the research;

(4) A disclosure of appropriate alternative procedures or courses of treatment, if any, that might be advantageous to the subject;

(5) A statement describing the extent, if any, to which confidentiality of records identifying the subject will be maintained;

(6) For research involving more than minimal risk, an explanation as to whether any compensation and an explanation as to whether any medical treatments are available if injury occurs and, if so, what they consist of, or where further information may be obtained;

(7) An explanation of whom to contact for answers to pertinent questions about the research and research subjects’ rights, and whom to contact in the event of a research-related injury to the subject; and
§ 11.117 Documentation of informed consent.

(a) Except as provided in paragraph (c) of this section, informed consent shall be documented by the use of a written consent form approved by the IRB and signed by the subject or the subject's legally authorized representative. A copy shall be given to the person signing the form.

(b) Except as provided in paragraph (c) of this section, the consent form may be either of the following:

(1) A written consent document that embodies the elements of informed consent required by §11.116. This form may be read to the subject or the subject's legally authorized representative, but in any event, the investigator

(8) A statement that participation is voluntary, refusal to participate will involve no penalty or loss of benefits to which the subject is otherwise entitled, and the subject may discontinue participation at any time without penalty or loss of benefits to which the subject is otherwise entitled.

(b) Additional elements of informed consent. When appropriate, one or more of the following elements of information shall also be provided to each subject:

(1) A statement that the particular treatment or procedure may involve risks to the subject (or to the embryo or fetus, if the subject is or may become pregnant) which are currently unforeseeable;

(2) Anticipated circumstances under which the subject's participation may be terminated by the investigator without regard to the subject's consent;

(3) Any additional costs to the subject that may result from participation in the research;

(4) The consequences of a subject's decision to withdraw from the research and procedures for orderly termination of participation by the subject;

(5) A statement that significant new findings developed during the course of the research which may relate to the subject's willingness to continue participation will be provided to the subject; and

(6) The approximate number of subjects involved in the study.

(c) An IRB may approve a consent procedure which does not include, or which alters, some or all of the elements of informed consent set forth above, or waive the requirement to obtain informed consent provided the IRB finds and documents that:

(1) The research involves no more than minimal risk to the subjects;

(2) The waiver or alteration will not adversely affect the rights and welfare of the subjects;

(3) The research could not practically be carried out without the waiver or alteration; and

(4) Whenever appropriate, the subjects will be provided with additional pertinent information after participation.

(e) The informed consent requirements in this policy are not intended to preempt any applicable Federal, state, or local laws which require additional information to be disclosed in order for informed consent to be legally effective.

(f) Nothing in this policy is intended to limit the authority of a physician to provide emergency medical care, to the extent the physician is permitted to do so under applicable Federal, state, or local law.

(Approved by the Office of Management and Budget under control number 9999-0020)
shall give either the subject or the representative adequate opportunity to read it before it is signed; or

(2) A short form written consent document stating that the elements of informed consent required by §11.116 have been presented orally to the subject or the subject's legally authorized representative. When this method is used, there shall be a witness to the oral presentation. Also, the IRB shall approve a written summary of what is to be said to the subject or the representative. Only the short form itself is to be signed by the subject or the representative. However, the witness shall sign both the short form and a copy of the summary, and the person actually obtaining consent shall sign a copy of the summary. A copy of the summary shall be given to the subject or the representative, in addition to a copy of the short form.

(c) An IRB may waive the requirement for the investigator to obtain a signed consent form for some or all subjects if it finds either:

(1) That the only record linking the subject and the research would be the consent document and the principal risk would be potential harm resulting from a breach of confidentiality. Each subject will be asked whether the subject wants documentation linking the subject with the research, and the subject's wishes will govern; or

(2) That the research presents no more than minimal risk of harm to subjects and involves no procedures for which written consent is normally required outside of the research context.

In cases in which the documentation requirement is waived, the IRB may require the investigator to provide subjects with a written statement regarding the research.

(Approved by the Office of Management and Budget under control number 9999-0020)

§ 11.118 Applications and proposals lacking definite plans for involvement of human subjects.

Certain types of applications for grants, cooperative agreements, or contracts are submitted to departments or agencies with the knowledge that subjects may be involved within the period of support, but definite plans would not normally be set forth in the application or proposal. These include activities such as institutional type grants when selection of specific projects is the institution's responsibility; research training grants in which the activities involving subjects remain to be selected; and projects in which human subjects' involvement will depend upon completion of instruments, prior animal studies, or purification of compounds. These applications need not be reviewed by an IRB before an award may be made. However, except for research exempted or reviewed under §11.101 (b) or (i), no human subjects may be involved in any project supported by these awards until the project has been reviewed and approved by the IRB, as provided in this policy, and certification submitted, by the institution, to the department or agency.

§ 11.119 Research undertaken without the intention of involving human subjects.

In the event research is undertaken without the intention of involving human subjects, but it is later proposed to involve human subjects in the research, the research shall first be reviewed and approved by an IRB, as provided in this policy, and certification submitted, by the institution, to the department or agency, and final approval given to the proposed change by the department or agency.

§ 11.120 Evaluation and disposition of applications and proposals for research to be conducted or supported by a Federal Department or Agency.

The department or agency head will evaluate all applications and proposals involving human subjects submitted to the department or agency through such officers and employees of the department or agency and such experts and consultants as the department or agency head determines to be appropriate. This evaluation will take into consideration the risks to the subjects, the adequacy of protection against these risks, the potential benefits of the research to the subjects and others, and the importance of the knowledge gained or to be gained.

(b) On the basis of this evaluation, the department or agency head may
§ 11.121
approve or disapprove the application or proposal, or enter into negotiations to develop an approvable one.

EDITORIAL NOTE: At 56 FR 28012, June 18, 1991, §11.120 was added without a paragraph (a) designation.

§ 11.121 [Reserved]

§ 11.122 Use of Federal funds.
Federal funds administered by a department or agency may not be expended for research involving human subjects unless the requirements of this policy have been satisfied.

§ 11.123 Early termination of research support: Evaluation of applications and proposals.
(a) The department or agency head may require that department or agency support for any project be terminated or suspended in the manner prescribed in applicable program requirements, when the department or agency head finds an institution has materially failed to comply with the terms of this policy.
(b) In making decisions about supporting or approving applications or proposals covered by this policy the department or agency head may take into account, in addition to all other eligibility requirements and program criteria, factors such as whether the applicant has been subject to a termination or suspension under paragraph (a) of this section and whether the applicant or the person or persons who would direct or have directed the scientific and technical aspects of an activity have/have directed the scientific and technical aspects of an activity have/have directed the scientific and technical aspects of an activity, in the judgment of the department or agency head, materially failed to discharge responsibility for the protection of the rights and welfare of human subjects (whether or not the research was subject to Federal regulation).

§ 11.124 Conditions.
With respect to any research project or any class of research projects the department or agency head may impose additional conditions prior to or at the time of approval when in the judgment of the department or agency head additional conditions are necessary for the protection of human subjects.

PART 17—INTERGOVERNMENTAL REVIEW OF DEPARTMENT OF TRANSPORTATION PROGRAMS AND ACTIVITIES

Sec.
17.1 What is the purpose of these regulations?
17.2 What definitions apply to these regulations?
17.3 What programs and activities of the Department are subject to these regulations?
17.4 [Reserved]
17.5 What is the Secretary’s obligation with respect to Federal interagency coordination?
17.6 What procedures apply to the selection of programs and activities under these regulations?
17.7 How does the Secretary communicate with state and local officials concerning the Department’s programs and activities?
17.8 How does the Secretary provide states an opportunity to comment on proposed Federal financial assistance and direct Federal development?
17.9 How does the Secretary receive and respond to comments?
17.10 How does the Secretary make efforts to accommodate intergovernmental concerns?
17.11 What are the Secretary's obligations in interstate situations?
17.12 How may a state simplify, consolidate, or substitute federally required state plans?
17.13 May the Secretary waive any provisions of these regulations?

SOURCE: 48 FR 29272, June 24, 1983, unless otherwise noted

§ 17.1 What is the purpose of these regulations?
Office of the Secretary of Transportation § 17.7

(b) These regulations are intended to foster an intergovernmental partnership and a strengthened Federalism by relying on state processes and on state, areawide, regional and local coordination for review of proposed Federal financial assistance and direct Federal development.

(c) These regulations are intended to aid the internal management of the Department, and are not intended to create any right or benefit enforceable at law by a party against the Department or its officers.

§ 17.2 What definitions apply to these regulations?

Department means the U.S. Department of Transportation.

Secretary means the Secretary of the U.S. Department of Transportation or an official or employee of the Department acting for the Secretary under a delegation of authority.

State means any of the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, American Samoa, the U.S. Virgin Islands, or the Trust Territory of the Pacific Islands.

§ 17.3 What programs and activities of the Department are subject to these regulations?

The Secretary publishes in the Federal Register a list of the Department's programs and activities that are subject to these regulations and identifies which of these are subject to the requirements of section 204 of the Demonstration Cities and Metropolitan Development Act.

§ 17.4 [Reserved]

§ 17.5 What is the Secretary's obligation with respect to Federal interagency coordination?

The Secretary, to the extent practicable, consults with and seeks advice from all other substantially affected Federal departments and agencies in an effort to assure full coordination between such agencies and the Department regarding programs and activities covered under these regulations.

§ 17.6 What procedures apply to the selection of programs and activities under these regulations?

(a) A state may select any program or activity published in the Federal Register in accordance with §17.3 of this part for intergovernmental review under these regulations. Each state, before selecting programs and activities shall consult with local elected officials.

(b) Each state that adopts a process shall notify the Secretary of the Department's programs and activities selected for that process.

(c) A state may notify the Secretary of changes in its selections at any time. For each change, the state shall submit to the Secretary an assurance that the state has consulted with elected local elected officials regarding the change. The Department may establish deadlines by which states are required to inform the Secretary of changes in their program selections.

(d) The Secretary uses a state's process as soon as feasible, depending on individual programs, and activities, after the Secretary is notified of its selections.

§ 17.7 How does the Secretary communicate with state and local officials concerning the Department's programs and activities?

(a) For those programs and activities covered by a state process under §17.6, the Secretary, to the extent permitted by law:

(1) Uses the state process to determine views of state and local elected officials; and,

(2) Communicates with state and local elected officials, through the state process, as early in a program planning cycle as is reasonably feasible to explain specific plans and actions.

(b) The Secretary provides notice to directly affected state, areawide, regional, and local entities in a state of proposed Federal financial assistance or direct Federal development if:

(1) The state has not adopted a process under the Order; or

(2) The assistance or development involves a program or activity not selected for the state process.
§ 17.8 How does the Secretary provide states an opportunity to comment on proposed Federal financial assistance and direct Federal development?

(a) Except in unusual circumstances, the Secretary gives state processes or state, areawide, regional and local officials and entities at least:
   (1) [Reserved]
   (2) 60 days from the date established by the Secretary to comment on proposed direct Federal development or Federal financial assistance.

(b) This section also applies to comments in cases in which the review, coordination, and communication with the Department have been delegated.

(c) Applicants for programs and activities subject to section 204 of the Demonstration Cities and Metropolitan Act shall allow areawide agencies a 60-day opportunity for review and comment.

§ 17.9 How does the Secretary receive and respond to comments?

(a) The Secretary follows the procedures in § 17.10 if:
   (1) A state office or official is designated to act as a single point of contact between a state process and all federal agencies, and
   (2) That office or official transmits a state process recommendation for a program selected under § 17.6.

(b) (1) The single point of contact is not obligated to transmit comments from state, areawide, regional or local officials and entities where there is no state process recommendation.
   (2) If a state process recommendation is transmitted by a single point of contact, all comments from state, areawide, regional and local officials and entities that differ from it must also be transmitted.
   (c) If a state has not established a process, or is unable to submit a state process recommendation, state, areawide, regional and local officials and entities may submit comments either to the applicant or to the Department.

(d) If a program or activity is not selected for a state process, state, areawide, regional and local officials and entities may submit comments either to the applicant or to the Department. In addition, if a state process recommendation for a nonselected program or activity is transmitted to the Department by the single point of contact, the Secretary follows the procedures of § 17.10 of this part.

(e) The Secretary considers comments which do not constitute a state process recommendation submitted under these regulations and for which the Secretary is not required to apply the procedures of § 17.10 of this part, when such comments are provided by a single point of contact, by the applicant, or directly to the Department by a commenting party.

§ 17.10 How does the Secretary make efforts to accommodate intergovernmental concerns?

(a) If a state process provides a state process recommendation to the Department through its single point of contact, the Secretary either:
   (1) Accepts the recommendation;
   (2) Reaches a mutually agreeable solution with the state process; or
   (3) Provides the single point of contact with a written explanation of the decision, in such form as the Secretary in his or her discretion deems appropriate. The Secretary may also supplement the written explanation by providing the explanation to the single point of contact by telephone, other telecommunication, or other means.

(b) In any explanation under paragraph (a)(3) of this section, the Secretary informs the single point of contact that:
   (1) The Department will not implement its decision for at least ten days after the single point of contact receives the explanation; or
   (2) The Secretary has reviewed the decision and determined that, because of unusual circumstances, the waiting period of at least ten days is not feasible.

(c) For purposes of computing the waiting period under paragraph (b)(1)
§ 17.11 What are the Secretary's obligations in interstate situations?

(a) The Secretary is responsible for:
(1) Identifying proposed federal financial assistance and direct federal development that have an impact on interstate areas;
(2) Notifying appropriate officials and entities in states which have adopted a process and which select the Department's program or activity.
(3) Making efforts to identify and notify the affected state, areawide, regional, and local officials and entities in those states that have not adopted a process under the Order or do not select the Department’s program or activity;
(4) Responding pursuant to §17.10 of this part if the Secretary receives a recommendation from a designated areawide agency transmitted by a single point of contact, in cases in which the review, coordination, and communication with the Department have been delegated.

(b) The Secretary uses the procedures in §17.10 if a state process provides a state process recommendation to the Department through a single point of contact.

§ 17.12 How may a state simplify, consolidate, or substitute federally required state plans?

(a) As used in this section:
(1) Simplify means that a state may develop its own format, choose its own submission date, and select the planning period for a state plan.
(2) Consolidate means that a state may meet statutory and regulatory requirements by combining two or more plans into one document and that the state can select the format, submission date, and planning period for the consolidated plan.
(3) Substitute means that a state may use a plan or other document that it has developed for its own purposes to meet Federal requirements.

(b) If not inconsistent with law, a state may decide to try to simplify, consolidate, or substitute federally required state plans without prior approval by the Secretary.

(c) The Secretary reviews each state plan that a state has simplified, consolidated, or substituted and accepts the plan only if its contents meet federal requirements.

§ 17.13 May the Secretary waive any provision of these regulations?

In an emergency, the Secretary may waive any provision of these regulations.

PART 18—UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS TO STATE AND LOCAL GOVERNMENTS

Subpart A—General

Sec.
18.1 Purpose and scope of this part.
18.2 Scope of subpart.
18.3 Definitions.
18.4 Applicability.
18.5 Effect on other issuances.
18.6 Additions and exceptions.

Subpart B—Pre-Award Requirements

18.10 Forms for applying for grants.
18.11 State plans.
18.12 Special grant or subgrant conditions for “high risk” grantees.

Subpart C—Post-Award Requirements

FINANCIAL ADMINISTRATION

18.20 Standards for financial management systems.
18.21 Payment.
18.22 Allowable costs.
18.23 Period of availability of funds.
18.24 Matching or cost sharing.
18.25 Program income.
18.26 Non-Federal audits.

CHANGES, PROPERTY, AND SUBAWARDS

18.30 Changes.
18.31 Real property.
18.32 Equipment.
18.33 Supplies.
18.34 Copyrights.
18.35 Subawards to debarred and suspended parties.
18.36 Procurement.
18.37 Subgrants.
§ 18.1

REPORTS, RECORDS, RETENTION, AND ENFORCEMENT

18.40 Monitoring and reporting program performance.
18.41 Financial reporting.
18.42 Retention and access requirements for records.
18.43 Enforcement.
18.44 Termination for convenience.

Subpart D—After-the-Grant Requirements

18.50 Closeout.
18.51 Later disallowances and adjustments.
18.52 Collection of amounts due.

Subpart E—Entitlements [Reserved]

SOURCE: 53 FR 8086 and 8087, Mar. 11, 1988, unless otherwise noted.

A-General

§ 18.1 Purpose and scope of this part.

This part establishes uniform administrative rules for Federal grants and cooperative agreements and subawards to State, local and Indian tribal governments.

§ 18.2 Scope of subpart.

This subpart contains general rules pertaining to this part and procedures for control of exceptions from this part.

§ 18.3 Definitions.

As used in this part:

Accrued expenditures mean the charges incurred by the grantee during a given period requiring the provision of funds for: (1) Goods and other tangible property received; (2) services performed by employees, contractors, subgrantees, subcontractors, and other payees; and (3) other amounts becoming owed under programs for which no current services or performance is required, such as annuities, insurance claims, and other benefit payments.

Accrued income means the sum of: (1) Earnings during a given period from services performed by the grantee and goods and other tangible property delivered to purchasers, and (2) amounts becoming owed to the grantee for which no current services or performance is required by the grantee.

Acquisition cost of an item of purchased equipment means the net invoice unit price of the property including the cost of modifications, attachments, accessories, or auxiliary apparatus necessary to make the property usable for the purpose for which it was acquired. Other charges such as the cost of installation, transportation, taxes, duty or protective in-transit insurance, shall be included or excluded from the unit acquisition cost in accordance with the grantee's regular accounting practices.

Administrative requirements mean those matters common to grants in general, such as financial management, kinds and frequency of reports, and retention of records. These are distinguished from “programmatic” requirements, which concern matters that can be treated only on a program-by-program or grant-by-grant basis, such as kinds of activities that can be supported by grants under a particular program.

Awarding agency means (1) with respect to a grant, the Federal agency, and (2) with respect to a subgrant, the party that awarded the subgrant.

Cash contributions mean the grantee's cash outlay, including the outlay of money contributed to the grantee or subgrantee by other public agencies and institutions, and private organizations and individuals. When authorized by Federal legislation, Federal funds received from other assistance agreements may be considered as grantee or subgrantee cash contributions.

Contract means (except as used in the definitions for “grant” and “subgrant” in this section and except where qualified by “Federal”) a procurement contract under a grant or subgrant, and means a procurement subcontract under a contract.

Cost sharing or matching means the value of the third party in-kind contributions and the portion of the costs of a federally assisted project or program not borne by the Federal Government.

Cost-type contract means a contract or subcontract under a grant in which the contractor or subcontractor is paid on
Office of the Secretary of Transportation § 18.3

the basis of the costs it incurs, with or without a fee.

Equipment means tangible, non-expendable, personal property having a useful life of more than one year and an acquisition cost of $5,000 or more per unit. A grantee may use its own definition of equipment provided that such definition would at least include all equipment defined above.

Expenditure report means: (1) For non-construction grants, the SF-269 “Financial Status Report” (or other equivalent report); (2) for construction grants, the SF-271 “Outlay Report and Request for Reimbursement” (or other equivalent report).

Federally recognized Indian tribal government means the governing body or a governmental agency of any Indian tribe, band, nation, or other organized group or community (including any Native village as defined in section 3 of the Alaska Native Claims Settlement Act, 85 Stat 688) certified by the Secretary of the Interior as eligible for the special programs and services provided by him through the Bureau of Indian Affairs.

Government means a State or local government or a federally recognized Indian tribal government.

Grant means an award of financial assistance, including cooperative agreements, in the form of money, or property in lieu of money, by the Federal Government to an eligible grantee. The term does not include technical assistance which provides services instead of money, or other assistance in the form of revenue sharing, loans, loan guarantees, interest subsidies, insurance, or direct appropriations. Also, the term does not include assistance, such as a fellowship or other lump sum award, which the grantee is not required to account for.

Grantee means the government to which a grant is awarded and which is accountable for the use of the funds provided. The grantee is the entire legal entity even if only a particular component of the entity is designated in the grant award document.

Local government means a county, municipality, city, town, township, local public authority (including any public and Indian housing agency under the United States Housing Act of 1937) school district, special district, intrastate district, council of governments (whether or not incorporated as a nonprofit corporation under state law), any other regional or interstate government entity, or any agency or instrumentality of a local government.

Obligations means the amounts of orders placed, contracts and subgrants awarded, goods and services received, and similar transactions during a given period that will require payment by the grantee during the same or a future period.

OMB means the United States Office of Management and Budget.

Outlays (expenditures) mean charges made to the project or program. They may be reported on a cash or accrual basis. For reports prepared on a cash basis, outlays are the sum of actual cash disbursement for direct charges for goods and services, the amount of indirect expense incurred, the value of in-kind contributions applied, and the amount of cash advances and payments made to contractors and subgrantees. For reports prepared on an accrued expenditure basis, outlays are the sum of actual cash disbursements, the amount of indirect expense incurred, the value of in-kind contributions applied, and the new increase (or decrease) in the amounts owed by the grantee for goods and other property received, for services performed by employees, contractors, subgrantees, subcontractors, and other payees, and other amounts becoming owed under programs for which no current services or performance are required, such as annuities, insurance claims, and other benefit payments.

Percentage of completion method refers to a system under which payments are made for construction work according to the percentage of completion of the work, rather than to the grantee's cost incurred.

Prior approval means documentation evidencing consent prior to incurring specific cost.

Real property means land, including land improvements, structures and appurtenances thereto, excluding movable machinery and equipment.

Share, when referring to the awarding agency’s portion of real property, equipment or supplies, means the same percentage as the awarding agency's
portion of the acquiring party's total costs under the grant to which the acquisition costs under the grant to which the acquisition cost of the property was charged. Only costs are to be counted—not the value of third-party in-kind contributions.

State means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State exclusive of local governments. The term does not include any public and Indian housing agency under United States Housing Act of 1937.

Subgrant means an award of financial assistance in the form of money, or property in lieu of money, made under a grant to a subgrantee. The term includes financial assistance when provided by contractual legal agreement, but does not include procurement purchases, nor does it include any form of assistance which is excluded from the definition of "grant" in this part.

Subgrantee means the government or other legal entity to which a subgrant is awarded and which is accountable to the grantee for the use of the funds provided.

Supplies means all tangible personal property other than "equipment" as defined in this part.

Suspension means depending on the context, either (1) temporary withdrawal of the authority to obligate grant funds pending corrective action by the grantee or subgrantee or a decision to terminate the grant, or (2) an action taken by a suspending official in accordance with agency regulations implementing E.O. 12549 to immediately exclude a person from participating in grant transactions for a period, pending completion of an investigation and such legal or debarment proceedings as may ensue.

Termination means permanent withdrawal of the authority to obligate previously-awarded grant funds before that authority would otherwise expire. It also means the voluntary relinquishment of that authority by the grantee or subgrantee. "Termination" does not include (1) Withdrawal of funds awarded on the basis of the grantee's under-estimate of the unobligated balance in a prior period; (2) Withdrawal of the unobligated balance as of the expiration of a grant; (3) Refusal to extend a grant or award additional funds, to make a competing or noncompeting continuation, renewal, extension, or supplemental award; or (4) voiding of a grant upon determination that the award was obtained fraudulently, or was otherwise illegal or invalid from inception.

Terms of a grant or subgrant mean all requirements of the grant or subgrant, whether in statute, regulations, or the award document.

Third party in-kind contributions mean property or services which benefit a federally assisted project or program and which are contributed by non-Federal third parties without charge to the grantee, or a cost-type contractor under the grant agreement.

Unliquidated obligations for reports prepared on a cash basis mean the amount of obligations incurred by the grantee that has not been paid. For reports prepared on an accrued expenditure basis, they represent the amount of obligations incurred by the grantee for which an outlay has not been recorded.

Unobligated balance means the portion of the funds authorized by the Federal agency that has not been obligated by the grantee and is determined by deducting the cumulative obligations from the cumulative funds authorized.

§ 18.4 Applicability.

(a) General. Subparts A through D of this part apply to all grants and subgrants to governments, except where inconsistent with Federal statutes or with regulations authorized in accordance with the exception provision of §18.6, or:

(1) Grants and subgrants to State and local institutions of higher education or State and local hospitals.

(2) The block grants authorized by the Omnibus Budget Reconciliation Act of 1981 (Community Services; Preventive Health and Health Services; Alcohol, Drug Abuse, and Mental Health Services; Maternal and Child Health Services; Social Services; Low-Income
Office of the Secretary of Transportation

§ 18.6

Entitlement programs. Entitlement programs enumerated above in §18.4(a)(3) through (8) are subject to subpart E.

§ 18.5 Effect on other issuances.

All other grants administration provisions of codified program regulations, program manuals, handbooks and other nonregulatory materials which are inconsistent with this part are superseded, except to the extent they are required by statute, or authorized in accordance with the exception provision in §18.6.

§ 18.6 Additions and exceptions.

(a) For classes of grants and grantees subject to this part, Federal agencies may not impose additional administrative requirements except in codified regulations published in the Federal Register.

(b) Exceptions for classes of grants or grantees may be authorized only by OMB.

(1) All Departmental requests for exceptions shall be processed through the Assistant Secretary of Administration.

(2) [Reserved]

(c) Exceptions on a case-by-case basis and for subgrantees may be authorized by the affected Federal agencies.
§ 18.10 Forms for applying for grants.

(a) Scope. (1) This section prescribes forms and instructions to be used by governmental organizations (except hospitals and institutions of higher education operated by a government) in applying for grants. This section is not applicable, however, to formula grant programs which do not require applicants to apply for funds on a project basis.

(2) This section applies only to applications to Federal agencies for grants, and is not required to be applied by grantees in dealing with applicants for subgrants. However, grantees are encouraged to avoid more detailed or burdensome application requirements for subgrants.

(b) Authorized forms and instructions for governmental organizations. (1) In applying for grants, applicants shall only use standard application forms or those prescribed by the granting agency with the approval of OMB under the Paperwork Reduction Act of 1980.

(2) Applicants are not required to submit more than the original and two copies of preapplications or applications.

(3) Applicants must follow all applicable instructions that bear OMB clearance numbers. Federal agencies may specify and describe the programs, functions, or activities that will be used to plan, budget, and evaluate the work under a grant. Other supplementary instructions may be issued only with the approval of OMB to the extent required under the Paperwork Reduction Act of 1980. For any standard form, except the SF-424 facesheet, Federal agencies may shade out or instruct the applicant to disregard any line item that is not needed.

(c) When a grantee applies for additional funding (such as a continuation or supplemental award) or amends a previously submitted application, only the affected pages need be submitted. Previously submitted pages with information that is still current need not be resubmitted.

[53 FR 8086 and 8087, Mar. 11, 1988, as amended at 53 FR 8086, Mar. 11, 1988]

§ 18.11 State plans.

(a) Scope. The statutes for some programs require States to submit plans before receiving grants. Under regulations implementing Executive Order 12372, “Intergovernmental Review of Federal Programs,” States are allowed to simplify, consolidate and substitute plans. This section contains additional provisions for plans that are subject to regulations implementing the Executive order.

(b) Requirements. A State need meet only Federal administrative or programmatic requirements for a plan that are in statutes or codified regulations.

(c) Assurances. In each plan the State will include an assurance that the State shall comply with all applicable Federal statutes and regulations in effect with respect to the periods for which it receives grant funding. For this assurance and other assurances required in the plan, the State may:

(1) Cite by number the statutory or regulatory provisions requiring the assurances and affirm that it gives the assurances required by those provisions,

(2) Repeat the assurance language in the statutes or regulations, or

(3) Develop its own language to the extent permitted by law.

(d) Amendments. A State will amend a plan whenever necessary to reflect: (1) New or revised Federal statutes or regulations or (2) a material change in any State law, organization, policy, or State agency operation. The State will obtain approval for the amendment and its effective date but need submit for approval only the amended portions of the plan.

49 CFR Subtitle A (10-1-98 Edition)
§ 18.12 Special grant or subgrant conditions for “high-risk” grantees.

(a) A grantee or subgrantee may be considered “high risk” if an awarding agency determines that a grantee or subgrantee:

(1) Has a history of unsatisfactory performance, or
(2) Is not financially stable, or
(3) Has a management system which does not meet the management standards set forth in this part, or
(4) Has not conformed to terms and conditions of previous awards, or
(5) Is otherwise not responsible; and

if the awarding agency determines that an award will be made, special conditions and/or restrictions shall correspond to the high risk condition and shall be included in the award.

(b) Special conditions or restrictions may include:

(1) Payment on a reimbursement basis;
(2) Withholding authority to proceed to the next phase until receipt of evidence of acceptable performance within a given funding period;
(3) Requiring additional, more detailed financial reports;
(4) Additional project monitoring;
(5) Requiring the grantee or subgrantee to obtain technical or management assistance; or
(6) Establishing additional prior approvals.

(c) If an awarding agency decides to impose such conditions, the awarding official will notify the grantee or subgrantee as early as possible, in writing, of:

(1) The nature of the special conditions/restrictions;
(2) The reason(s) for imposing them;
(3) The corrective actions which must be taken before they will be removed and the time allowed for completing the corrective actions; and
(4) The method of requesting reconsideration of the conditions/restrictions imposed.

§ 18.20 Standards for financial management systems.

(a) A State must expand and account for grant funds in accordance with State laws and procedures for expending and accounting for its own funds. Fiscal control and accounting procedures of the State, as well as its subgrantees and cost-type contractors, must be sufficient to—

(1) Permit preparation of reports required by this part and the statutes authorizing the grant, and
(2) Permit the tracing of funds to a level of expenditures adequate to establish that such funds have not been used in violation of the restrictions and prohibitions of applicable statutes.

(b) The financial management systems of other grantees and subgrantees must meet the following standards:

(1) Financial reporting. Accurate, current, and complete disclosure of the financial results of financially assisted activities must be made in accordance with the financial reporting requirements of the grant or subgrant.
(2) Accounting records. Grantees and subgrantees must maintain records which adequately identify the source and application of funds provided for financially-assisted activities. These records must contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and income.
(3) Internal control. Effective control and accountability must be maintained for all grant and subgrant cash, real and personal property, and other assets. Grantees and subgrantees must adequately safeguard all such property and must assure that it is used solely for authorized purposes.
(4) Budget control. Actual expenditures or outlays must be compared with budgeted amounts for each grant or subgrant. Financial information
must be related to performance or productivity data, including the development of unit cost information whenever appropriate or specifically required in the grant or subgrant agreement. If unit cost data are required, estimates based on available documentation will be accepted whenever possible.

(5) Allowable cost. Applicable OMB cost principles, agency program regulations, and the terms of grant and subgrant agreements will be followed in determining the reasonableness, allowability, and allocability of costs.

(6) Source documentation. Accounting records must be supported by such source documentation as cancelled checks, paid bills, payrolls, time and attendance records, contract and subgrant award documents, etc.

(7) Cash management. Procedures for minimizing the time elapsing between the transfer of funds from the U.S. Treasury and disbursement by grantees and subgrantees must be followed whenever advance payment procedures are used. Grantees must establish reasonable procedures to ensure the receipt of reports on subgrantees' cash balances and cash disbursements in sufficient time to enable them to prepare complete and accurate cash transactions reports to the awarding agency. When advances are made by letter-of-credit or electronic transfer of funds methods, the grantee must make drawdowns as close as possible to the time of making disbursements. Grantees must monitor cash drawdowns by their subgrantees to assure that they conform substantially to the same standards of timing and amount as apply to advances to the grantees.

(c) An awarding agency may review the adequacy of the financial management system of any applicant for financial assistance as part of a preaward review or at any time subsequent to award.

(d) Certain Urban Mass Transportation Administration (UMTA) grantees shall comply with the requirements of section 15 of the Urban Mass Transportation (UMT) Act of 1966, as amended, as implemented by 49 CFR part 630, regarding a uniform system of accounts and records and a uniform reporting system for certain grantees.

§ 18.21 Payment.

(a) Scope. This section prescribes the basic standard and the methods under which a Federal agency will make payments to grantees, and grantees will make payments to subgrantees and contractors.

(b) Basic standard. Methods and procedures for payment shall minimize the time elapsing between the transfer of funds and disbursement by the grantee or subgrantee, in accordance with Treasury regulations at 31 CFR part 205.

(c) Advances. Grantees and subgrantees shall be paid in advance, provided they maintain or demonstrate the willingness and ability to maintain procedures to minimize the time elapsing between the transfer of the funds and their disbursement by the grantee or subgrantee.

(d) Reimbursement. Reimbursement shall be the preferred method when the requirements in paragraph (c) of this section are not met. Grantees and subgrantees may also be paid by reimbursement for any construction grant. Except as otherwise specified in regulation, Federal agencies shall not use the percentage of completion method to pay construction grants. The grantee or subgrantee may use that method to pay its construction contractor, and if it does, the awarding agency's payments to the grantee or subgrantee will be based on the grantee's or subgrantee's actual rate of disbursement.

(e) Working capital advances. If a grantee cannot meet the criteria for advance payments described in paragraph (c) of this section, and the Federal agency has determined that reimbursement is not feasible because the grantee lacks sufficient working capital, the awarding agency may provide cash or a working capital advance basis. Under this procedure the awarding agency shall advance cash to the grantee to cover its estimated disbursement needs for an initial period generally geared to the grantee's disbursing cycle. Thereafter, the awarding agency shall reimburse the grantee for
its actual cash disbursements. The working capital advance method of payment shall not be used by grantees or subgrantees if the reason for using such method is the unwillingness or inability of the grantee to provide timely advances to the subgrantee to meet the subgrantee’s actual cash disbursements.

(f) Effect of program income, refunds, and audit recoveries on payment. (1) Grantees and subgrantees shall disburse repayments to and interest earned on a revolving fund before requesting additional cash payments for the same activity.

(2) Except as provided in paragraph (f)(1) of this section, grantees and subgrantees shall disburse program income, rebates, refunds, contract settlements, audit recoveries and interest earned on such funds before requesting additional cash payments.

(g) Withholding payments. (1) Unless otherwise required by Federal statute, awarding agencies shall not withhold payments for proper charges incurred by grantees or subgrantees unless—

(i) The grantee or subgrantee has failed to comply with grant award conditions or

(ii) The grantee or subgrantee is indebted to the United States.

(2) Cash withheld for failure to comply with grant award conditions shall be released to the grantee upon subsequent compliance. When a grant is suspended, payment adjustments will be made in accordance with §18.43(c).

(3) A Federal agency shall not make payment to grantees for amounts that are withheld by grantees or subgrantees from payment to contractors to assure satisfactory completion of work. Payments shall be made by the Federal agency when the grantee or subgrantee actually disburse the withheld funds to the contractors or to escrow accounts established to assure satisfactory completion of work.

(h) Cash depositories. (1) Consistent with the national goal of expanding the opportunities for minority business enterprises, grantees and subgrantees are encouraged to use minority banks (a bank which is owned at least 50 percent by minority group members). A list of minority owned banks can be obtained from the Minority Business Development Agency, Department of Commerce, Washington, DC 20230.

(2) A grantee or subgrantee shall maintain a separate bank account only when required by Federal-State agreement.

(i) Interest earned on advances. Except for interest earned on advances of funds exempt under the Intergovernmental Cooperation Act (31 U.S.C. 6501 et seq.) and the Indian Self-Determination Act (23 U.S.C. 450), grantees and subgrantees shall promptly, but at least quarterly, remit interest earned on advances to the Federal agency. The grantee or subgrantee may keep interest amounts up to $100 per year for administrative expenses.

(j) 23 U.S.C. 121 limits payments to States for highway construction projects to the Federal share of the costs of construction incurred to date, plus the Federal share of the value of stockpiled materials.

(k) Section 404 of the Surface Transportation Assistance Act of 1982 directs the Secretary to reimburse States for the Federal share of costs incurred.

§ 18.22 Allowable costs.

(a) Limitation on use of funds. Grant funds may be used only for:

(1) The allowable costs of the grantees, subgrantees and cost-type contractors, including allowable costs in the form of payments to fixed-price contractors; and

(2) Reasonable fees or profit to cost-type contractors but not any fee or profit (or other increment above allowable costs) to the grantee or subgrantee.

(b) Applicable cost principles. For each kind of organization, there is a set of Federal principles for determining allowable costs. Allowable costs will be determined in accordance with the cost principles applicable to the organization incurring the costs. The following chart lists the kinds of organizations and the applicable cost principles.

<table>
<thead>
<tr>
<th>For the costs of a—</th>
<th>Use the principles in—</th>

</tr>
</tbody>
</table>

§ 18.43(c)
§ 18.23 Period of availability of funds.

(a) General. Where a funding period is specified, a grantee may charge to the award only costs resulting from obligations of the funding period unless carryover of unobligated balances is permitted, in which case the carryover balances may be charged for costs resulting from obligations of the subsequent funding period.

(b) Liquidation of obligations. A grantee must liquidate all obligations incurred under the award not later than 90 days after the end of the funding period (or as specified in a program regulation) to coincide with the submission of the annual Financial Status Report (SF-269). The Federal agency may extend this deadline at the request of the grantee.

49 CFR Subtitle A (10-1-98 Edition)

§ 18.24 Matching or cost sharing.

(a) Basic rule: Costs and contributions acceptable. With the qualifications and exceptions listed in paragraph (b) of this section, a matching or cost sharing requirement may be satisfied by either or both of the following:

(1) Allowable costs incurred by the grantee, subgrantee or a cost-type contractor under the assistance agreement. This includes allowable costs borne by non-Federal grants or by others cash donations from non-Federal third parties.

(2) The value of third party in-kind contributions applicable to the period to which the cost sharing or matching requirements applies.

(b) Qualifications and exceptions—(1) Costs borne by other Federal grant agreements. Except as provided by Federal statute, a cost sharing or matching requirement may not be met by costs borne by another Federal grant. This prohibition does not apply to income earned by a grantee or subgrantee from a contract awarded under another Federal grant.

(2) General revenue sharing. For the purpose of this section, general revenue sharing funds distributed under 31 U.S.C. 6702 are not considered Federal grant funds.

(3) Cost or contributions counted towards other Federal costs-sharing requirements. Neither costs nor the values of third party in-kind contributions may count towards satisfying a cost sharing or matching requirement if they have been or will be counted towards satisfying a cost sharing or matching requirement of another Federal grant agreement, a Federal procurement contract, or any other award of Federal funds.

(4) Costs financed by program income. Costs financed by program income, as defined in §18.25, shall not count towards satisfying a cost sharing or matching requirement unless they are expressly permitted in the terms of the assistance agreement. (This use of general program income is described in §18.25(g).)

(5) Services or property financed by income earned by contractors. Contractors
under a grant may earn income from the activities carried out under the contract in addition to the amounts earned from the party awarding the contract. No costs of services or property supported by this income may count toward satisfying a cost sharing or matching requirement unless other provisions of the grant agreement expressly permit this kind of income to be used to meet the requirement.

(6) Records. Costs and third party in-kind contributions counting towards satisfying a cost sharing or matching requirement must be verifiable from the records of grantees and subgrantee or cost-type contractors. These records must show how the value placed on third party in-kind contributions was derived. To the extent feasible, volunteer services will be supported by the same methods that the organization uses to support the allocability of regular personnel costs.

(7) Special standards for third party in-kind contributions. (i) Third party in-kind contributions count towards satisfying a cost sharing or matching requirement only where, if the party receiving the contributions were to pay for them, the payments would be allowable costs.

(ii) Some third party in-kind contributions are goods and services that, if the grantee, subgrantee, or contractor receiving the contribution had to pay for them, the payments would have been an indirect costs. Costs sharing or matching credit for such contributions shall be given only if the grantee, subgrantee, or contractor has established, along with its regular indirect cost rate, a special rate for allocating to individual projects or programs the value of the contributions.

(iii) A third party in-kind contribution to a fixed-price contract may count towards satisfying a cost sharing or matching requirement only if it results in:

(A) An increase in the services or property provided under the contract (without additional cost to the grantee or subgrantee) or

(B) A cost savings to the grantee or subgrantee.

(iv) The values placed on third party in-kind contributions for cost sharing or matching purposes will conform to the rules in the succeeding sections of this part. If a third party in-kind contribution is a type not treated in those sections, the value placed upon it shall be fair and reasonable.

(8) 23 U.S.C. 121(a) permits reimbursement for actual construction cost incurred by States for highway construction projects. Except for private donations of right-of-way, contributions and donations shall not be considered State costs, and shall not be allowable for matching purposes for highway construction contracts. 23 U.S.C. 323 permits private donations of right-of-way to be used for a State's matching share, and establishes procedures for determining the fair market value of such donated right-of-way.

(9) Section 4(a) of the UMT Act of 1964, as amended, provides that the Federal grant for any project to be assisted under section 3 of the UMT Act of 1964, as amended, shall be in an amount equal to 75 percent of the net project costs. Net project cost is defined as that portion of the cost of the project which cannot be reasonably financed from revenues.

(10) Section 18(e) of the UMT Act of 1964, as amended, limits the Federal share to 80 percent of the net cost of construction, as determined by the Secretary of Transportation. The Federal share for the payment of subsidies for operating expenses, as defined by the Secretary, shall not exceed 50 percent of the net cost of such operating expense projects.

(c) Valuation of donated services—(1) Volunteer services. Unpaid services provided to a grantee or subgrantee by individuals will be valued at rates consistent with those ordinarily paid for similar work in the grantee's or subgrantee's organization. If the grantee or subgrantee does not have employees performing similar work, the rates will be consistent with those ordinarily paid by other employers for similar work in the same labor market. In either case, a reasonable amount for fringe benefits may be included in the valuation.

(2) Employees of other organizations. When an employer other than a grantee, subgrantee, or cost-type contractor furnishes free of charge the services of an employee in the employee's normal
§ 18.25 Program income.

(a) General. Grantees are encouraged to earn income to defray program costs. Program income includes income from fees for services performed, from the use or rental of real or personal property acquired with grant funds, an allowable direct cost. If any part of the donated property was acquired with Federal funds, only the non-federal share of the property may be counted as cost-sharing or matching.

(ii) If approval is not obtained under paragraph (e)(2)(i) of this section, no amount may be counted for donated land, and only depreciation or use allowances may be counted for donated equipment and buildings. The depreciation or use allowances for this property are not treated as third party in-kind contributions. Instead, they are treated as costs incurred by the grantee or subgrantee. They are computed and allocated (usually as indirect costs) in accordance with the cost principles specified in §18.22, in the same way as depreciation or use allowances for purchased equipment and buildings. The amount of depreciation or use allowances for donated equipment and buildings is based on the property’s market value at the time it was donated.

(f) Valuation of grantee or subgrantee donated real property for construction/acquisition. If a grantee or subgrantee donates real property for a construction or facilities acquisition project, the current market value of that property may be counted as cost sharing or matching. If any part of the donated property was acquired with Federal funds, only the non-federal share of the property may be counted as cost sharing or matching.

(g) Appraisal of real property. In some cases under paragraphs (d), (e) and (f) of this section, it will be necessary to establish the market value of land or a building or the fair rental rate of land or space in a building. In these cases, the Federal agency may require the market value or fair rental value be set by an independent appraiser, and that the value or rate be certified by the grantee. This requirement will also be imposed by the grantee on subgrantees.

[53 FR 8086 and 8087, Mar. 11, 1988, as amended at 53 FR 8086, Mar. 11, 1988]
from the sale of commodities or items fabricated under a grant agreement, and from payments of principal and interest on loans made with grant funds. Except as otherwise provided in regulations of the Federal agency, program income does not include interest on grant funds, rebates, credits, discounts, refunds, etc. and interest earned on any of them.

(b) Definition of program income. Program income means gross income received by the grantee or subgrantee directly generated by a grant supported activity, or earned only as a result of the grant agreement during the grant period. "During the grant period" is the time between the effective date of the award and the ending date of the award reflected in the final financial report.

(c) Cost of generating program income. If authorized by Federal regulations or the grant agreement, costs incident to the generation of program income may be deducted from gross income to determine program income.

(d) Governmental revenues. Taxes, special assessments, levies, fines, and other such revenues raised by a grantee or subgrantee are not program income unless the revenues are specifically identified in the grant agreement or Federal agency regulations as program income.

(e) Royalties. Income from royalties and license fees for copyrighted material, patents, and inventions developed by a grantee or subgrantee is program income only if the revenues are specifically identified in the grant agreement or Federal agency regulations as program income. (See §18.34.)

(f) Property. Proceeds from the sale of real property or equipment will be handled in accordance with the requirements of §§18.31 and 18.32.

(g) Use of program income. Program income shall be deducted from outlays which may be both Federal and non-Federal as described below, unless the Federal agency regulations or the grant agreement specify another alternative (or a combination of the alternatives). In specifying alternatives, the Federal agency may distinguish between income earned by the grantee and income earned by subgrantees and between the sources, kinds, or amounts of income. When Federal agencies authorize the alternatives in paragraphs (g) (2) and (3) of this section, program income in excess of any limits stipulated shall also be deducted from outlays.

(1) Deduction. Ordinarily program income shall be deducted from total allowable costs to determine the net allowable costs. Program income shall be used for current costs unless the Federal agency authorizes otherwise. Program income which the grantee did not anticipate at the time of the award shall be used to reduce the Federal agency and grantee contributions rather than to increase the funds committed to the project.

(2) Addition. When authorized, program income may be added to the funds committed to the grant agreement by the Federal agency and the grantee. The program income shall be used for the purposes and under the conditions of the grant agreement.

(3) Cost sharing or matching. When authorized, program income may be used to meet the cost sharing or matching requirement of the grant agreement. The amount of the Federal grant award remains the same.

(4) Section 3(a)(1)(D) of the UMT Act of 1964, as amended, provides that the Secretary shall establish requirements for the use of income derived from appraised land values for certain UMTA grants. Specific requirements shall be contained in grant agreements.

(5) UMTA grantees may retain program income for allowable capital or operating expenses.

(6) For grants awarded under section 9 of the UMT Act of 1964, as amended, any revenues received from the sale of advertising and concessions in excess of fiscal year 1985 levels shall be excluded from program income.

(7) 23 U.S.C. 156 requires that States shall charge fair market value for the sale, lease, or use of right-of-way airspace for non-transportation purposes and that such income shall be used for projects eligible under 23 U.S.C.

(h) Income after the award period. There are no Federal requirements governing the disposition of program income earned after the end of the award period (i.e., until the ending date of the final financial report, see paragraph (a).
§ 18.26  Non-Federal audits.

(a) Basic rule. Grantees and subgrantees are responsible for obtaining audits in accordance with the Single Audit Act Amendments of 1996 (31 U.S.C. 7501–7507) and revised OMB Circular A–133, “Audits of States, Local Governments, and Non-Profit Organizations.” The audits shall be made by an independent auditor in accordance with generally accepted government auditing standards covering financial audits.

(b) Subgrantees. State or local governments, as those terms are defined for purposes of the Single Audit Act Amendments of 1996, that provide Federal awards to a subgrantee, which expends $300,000 or more (or other amount as specified by OMB) in Federal awards in a fiscal year, shall:

(1) Determine whether State or local subgrantees have met the audit requirements of the Act and whether subgrantees covered by OMB Circular A–110, “Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations,” have met the audit requirements of the Act. Commercial contractors (private for-profit and private and governmental organizations) providing goods and services to State and local governments are not required to have a single audit performed. State and local governments should use their own procedures to ensure that the contractor has complied with laws and regulations affecting the expenditure of Federal funds;

(2) Determine whether the subgrantee spent Federal assistance funds provided in accordance with applicable laws and regulations. This may be accomplished by reviewing an audit of the subgrantee made in accordance with the Act, Circular A–110, or through other means (e.g., program reviews) if the subgrantee has not had such an audit;

(3) Ensure that appropriate corrective action is taken within six months after receipt of the audit report in instance of noncompliance with Federal laws and regulations;

(4) Consider whether subgrantee audits necessitate adjustment of the grantee’s own records; and

(5) Require each subgrantee to permit independent auditors to have access to the records and financial statements.

(c) Auditor selection. In arranging for audit services, §18.36 shall be followed.

§ 18.30  Changes.

(a) General. Grantees and subgrantees are permitted to rebudget within the approved direct cost budget to meet unanticipated requirements and may make limited program changes to the approved project. However, unless waived by the awarding agency, certain types of post-award changes in budgets and projects shall require the prior written approval of the awarding agency.

(b) Relation to cost principles. The applicable cost principles (see §18.22) contain requirements for prior approval of certain types of costs. Except where waived, those requirements apply to all grants and subgrants even if paragraphs (c) through (f) of this section do not.

(c) Budget changes—(1) Nonconstruction projects. Except as stated in other regulations or an award document, grantees or subgrantees shall obtain the prior approval of the awarding agency whenever any of the following changes is anticipated under a nonconstruction award:

(i) Any revision which would result in the need for additional funding.

(ii) Unless waived by the awarding agency, cumulative transfers among direct cost categories, or, if applicable, among separately budgeted programs, projects, functions, or activities which exceed or are expected to exceed ten percent of the current total approved budget, whenever the awarding agency’s share exceeds $100,000.

(iii) Transfer of funds allotted for training allowances (i.e., from direct...
§ 18.31 Payments to trainees to other expense categories.

(2) Construction projects. Grantees and subgrantees shall obtain prior written approval for any budget revision which would result in the need for additional funds.

(3) Combined construction and nonconstruction projects. When a grant or subgrant provides funding for both construction and nonconstruction activities, the grantee or subgrantee must obtain prior written approval from the awarding agency before making any fund or budget transfer from nonconstruction to construction or vice versa.

(d) Programmatic changes. Grantees or subgrantees must obtain the prior approval of the awarding agency whenever any of the following actions is anticipated:

(1) Any revision of the scope or objectives of the project (regardless of whether there is an associated budget revision requiring prior approval).

(2) Need to extend the period of availability of funds.

(3) Changes in key persons in cases where specified in an application or a grant award. In research projects, a change in the project director or principal investigator shall always require approval unless waived by the awarding agency.

(4) Under nonconstruction projects, contracting out, subgranting (if authorized by law) or otherwise obtaining the services of a third party to perform activities which are central to the purposes of the award. This approval requirement is in addition to the approval requirements of § 18.36 but does not apply to the procurement of equipment, supplies, and general support services.

(e) Additional prior approval requirements. The awarding agency may not require prior approval for any budget revision which is not described in paragraph (c) of this section.

(f) Requesting prior approval. (1) A request for prior approval of any budget revision will be in the same budget form as in the application and shall be accompanied by a narrative justification for the proposed revision.

§ 18.31 Real property.

(a) Title. Subject to the obligations and conditions set forth in this section, title to real property acquired under a grant or subgrant will vest upon acquisition in the grantee or subgrantee respectively.

(b) Use. Except as otherwise provided by Federal statutes, real property will be used for the originally authorized purposes as long as needed for that purposes, and the grantee or subgrantee shall not dispose of or encumber its title or other interests.

(c) Disposition. When real property is no longer needed for the originally authorized purpose, the grantee or subgrantee will request disposition instructions from the awarding agency. The instructions will provide for one of the following alternatives:

(1) Retention of title. Retain title after compensating the awarding agency. The amount paid to the awarding agency will be computed by applying the awarding agency's percentage of participation in the cost of the original purchase to the fair market value of the property. However, in those situations where a grantee or subgrantee is disposing of real property acquired with grant funds and acquiring replacement real property under the same program, the net proceeds from the disposition may be used as an offset to the cost of the replacement property.

(2) Sale of property. Sell the property and compensate the awarding agency.
§ 18.32 Equipment.

(a) Title. Subject to the obligations and conditions set forth in this section, title to equipment acquired under a grant or subgrant will vest upon acquisition in the grantee or subgrantee respectively.

(b) States. A State will use, manage, and dispose of equipment acquired under a grant by the State in accordance with State laws and procedures. Other grantees and subgrantees will follow paragraphs (c) through (e) of this section.

(c) Use. (1) Equipment shall be used by the grantee or subgrantee in the program or project for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When no longer needed for the original program or project, the equipment may be used in other activities currently or previously supported by a Federal agency.

(2) The grantee or subgrantee shall also make equipment available for use on other projects or programs currently or previously supported by the Federal Government, providing such use will not interfere with the work on the projects or programs for which it was originally acquired. First preference for other use shall be given to other programs or projects supported by the awarding agency. User fees should be considered if appropriate.

(3) Notwithstanding the encouragement in § 18.25(a) to earn program income, the grantee or subgrantee must not use equipment acquired with grant funds to provide services for a fee to compete unfairly with private companies that provide equivalent services, unless specifically permitted or contemplated by Federal statute.

(4) When acquiring replacement equipment, the grantee or subgrantee may use the equipment to be replaced as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property, subject to the approval of the awarding agency.

(d) Management requirements. Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part with grant funds, until disposition takes place will, as a minimum, meet the following requirements:

(1) Property records must be maintained that include a description of the property, a serial number or other identification number, the source of property, who holds title, the acquisition date, and cost of the property, percentage of Federal participation in the cost of the property, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property.

(2) A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.

(3) A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft shall be investigated.
Office of the Secretary of Transportation

§ 18.35

(4) Adequate maintenance procedures must be developed to keep the property in good condition.

(5) If the grantee or subgrantee is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.

(e) Disposition. When original or replacement equipment acquired under a grant or subgrant is no longer needed for the original project or program or for other activities currently or previously supported by a Federal agency, disposition of the equipment will be made as follows:

(1) Items of equipment with a current per-unit fair market value of less than $5,000 may be retained, sold or otherwise disposed of with no further obligation to the awarding agency.

(2) Items of equipment with a current per-unit fair market value in excess of $5,000 may be retained or sold and the awarding agency shall have a right to an amount calculated by multiplying the current market value or proceeds from sale by the awarding agency’s share of the equipment.

(3) In cases where a grantee or subgrantee fails to take appropriate disposition actions, the awarding agency may direct the grantee or subgrantee to take excess and disposition actions.

(f) Federal equipment. In the event a grantee or subgrantee is provided federally-owned equipment:

(1) Title will remain vested in the Federal Government.

(2) Grantees or subgrantees will manage the equipment in accordance with Federal agency rules and procedures, and submit an annual inventory listing.

(3) When the equipment is no longer needed, the grantee or subgrantee will request disposition instructions from the Federal agency.

(g) Right to transfer title. The Federal awarding agency may reserve the right to transfer title to the Federal Government or a third party named by the awarding agency when such a third party is otherwise eligible under existing statutes. Such transfers shall be subject to the following standards:

(1) The property shall be identified in the grant or otherwise made known to the grantee in writing.

(2) The Federal awarding agency shall issue disposition instruction within 120 calendar days after the end of the Federal support of the project for which it was acquired. If the Federal awarding agency fails to issue disposition instructions within the 120 calendar-day period the grantee shall follow §18.32(e).

(3) When title to equipment is transferred, the grantee shall be paid an amount calculated by applying the percentage of participation in the purchase to the current fair market value of the property.

§ 18.33 Supplies.

(a) Title. Title to supplies acquired under a grant or subgrant will vest, upon acquisition, in the grantee or subgrantee respectively.

(b) Disposition. If there is a residual inventory of unused supplies exceeding $5,000 in total aggregate fair market value upon termination or completion of the award, and if the supplies are not needed for any other federally sponsored programs or projects, the grantee or subgrantee shall compensate the awarding agency for its share.

§ 18.34 Copyrights.

The Federal awarding agency reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for Federal Government purposes:

(a) The copyright in any work developed under a grant, subgrant, or contract under a grant or subgrant; and

(b) Any rights of copyright to which a grantee, subgrantee or a contractor purchases ownership with grant support.

§ 18.35 Subawards to debarred and suspended parties.

Grantees and subgrantees must not make any award or permit any award (subgrant or contract) at any tier to any party which is debarred or suspended or is otherwise excluded from or ineligible for participation in Federal assistance programs under Executive Order 12549, “Debarment and Suspension.”
§ 18.36 Procurement.

(a) States. When procuring property and services under a grant, a State will follow the same policies and procedures it uses for procurements from its non-Federal funds. The State will ensure that every purchase order or other contract includes any clauses required by Federal statutes and executive orders and their implementing regulations. Other grantees and subgrantees will follow paragraphs (b) through (i) in this section.

(b) Procurement standards. (1) Grantees and subgrantees will use their own procurement procedures which reflect applicable State and local laws and regulations, provided that the procurements conform to applicable Federal law and the standards identified in this section.

(2) Grantees and subgrantees will maintain a contract administration system which ensures that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.

(3) Grantees and subgrantees will maintain a written code of standards of conduct governing the performance of their employees engaged in the award and administration of contracts. No employee, officer or agent of the grantee or subgrantee shall participate in selection, or in the award or administration of a contract supported by Federal funds if a conflict of interest, real or apparent, would be involved. Such a conflict would arise when:

(i) The employee, officer or agent,

(ii) Any member of his immediate family,

(iii) His or her partner, or

(iv) An organization which employs, or is about to employ, any of the above, has a financial or other interest in the firm selected for award. The grantee's or subgrantee's officers, employees or agents will neither solicit nor accept gratuities, favors or anything of monetary value from contractors, potential contractors, or parties to subagreements. Grantee and subgrantees may set minimum rules where the financial interest is not substantial or the gift is an unsolicited item of nominal intrinsic value. To the extent permitted by State or local law or regulations, such standards or conduct will provide for penalties, sanctions, or other disciplinary actions for violations of such standards by the grantee's and subgrantee's officers, employees, or agents, or by contractors or their agents. The awarding agency may in regulation provide additional prohibitions relative to real, apparent, or potential conflicts of interest.

(4) Grantee and subgrantee procedures will provide for a review of proposed procurements to avoid purchase of unnecessary or duplicative items. Consideration should be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

(5) To foster greater economy and efficiency, grantees and subgrantees are encouraged to enter into State and local intergovernmental agreements for procurement or use of common goods and services.

(6) Grantees and subgrantees are encouraged to use Federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

(7) Grantees and subgrantees are encouraged to use value engineering clauses in contracts for construction projects of sufficient size to offer reasonable opportunities for cost reductions. Value engineering is a systematic and creative analysis of each contract item or task to ensure that its essential function is provided at the overall lower cost.

(8) Grantees and subgrantees will make awards only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

(9) Grantees and subgrantees will maintain records sufficient to detail the significant history of a procurement. These records will include, but are not necessarily limited to the following: rationale for the method of
procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.

(10) Grantees and subgrantees will use time and material type contracts only—

(i) After a determination that no other contract is suitable, and

(ii) If the contract includes a ceiling price that the contractor exceeds at its own risk.

(11) Grantees and subgrantees alone will be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to source evaluation, protests, disputes, and claims. These standards do not relieve the grantee or subgrantee of any contractual responsibilities under its contracts. Federal agencies will not substitute their judgment for that of the grantee or subgrantee unless the matter is primarily a Federal concern. Violations of law will be referred to the local, State, or Federal authority having proper jurisdiction.

(12) Grantees and subgrantees will have protest procedures to handle and resolve disputes relating to their procurements and shall in all instances disclose information regarding the protest to the awarding agency. A protestor must exhaust all administrative remedies with the grantee and subgrantee before pursuing a protest with the Federal agency. Reviews of protests by the Federal agency will be limited to:

(i) Violations of Federal law or regulations and the standards of this section (violations of State or local law will be under the jurisdiction of State or local authorities) and

(ii) Violations of the grantee's or subgrantee's protest procedures for failure to review a complaint or protest. Protests received by the Federal agency other than those specified above will be referred to the grantee or subgrantee.

(c) Competition. (1) All procurement transactions will be conducted in a manner providing full and open competition consistent with the standards of §18.36. Some of the situations considered to be restrictive of competition include but are not limited to:

(i) Placing unreasonable requirements on firms in order for them to qualify to do business,

(ii) Requiring unnecessary experience and excessive bonding,

(iii) Noncompetitive pricing practices between firms or between affiliated companies,

(iv) Noncompetitive awards to consultants that are on retainer contracts,

(v) Organizational conflicts of interest,

(vi) Specifying only a "brand name" product instead of allowing "an equal" product to be offered and describing the performance of other relevant requirements of the procurement, and

(vii) Any arbitrary action in the procurement process.

(2) Grantees and subgrantees will conduct procurements in a manner that prohibits the use of statutorily or administratively imposed in-State or local geographical preferences in the evaluation of bids or proposals, except in those cases where applicable Federal statutes expressly mandate or encourage geographic preference. Nothing in this section preempts State licensing laws. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criteria provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

(3) Grantees will have written selection procedures for procurement transactions. These procedures will ensure that all solicitations:

(i) Incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured, and when necessary, shall set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible. When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a "brand name
§ 18.36  49 CFR Subtitle A (10-1-98 Edition)

...or equal'' description may be used as a means to define the performance or other salient requirements of a procurement. The specific features of the named brand which must be met by offerors shall be clearly stated; and

(ii) Identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.

(4) Grantees and subgrantees will ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, grantees and subgrantees will not preclude potential bidders from qualifying during the solicitation period.

(d) Methods of procurement to be followed—

(1) Procurement by small purchase procedures. Small purchase procedures are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than the simplified acquisition threshold fixed at 41 U.S.C. 403(11) (currently set at $100,000). If small purchase procedures are used, price or rate quotations shall be obtained from an adequate number of qualified sources.

(2) Procurement by sealed bids (formal advertising). Bids are publicly solicited and a firm-fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction, if the conditions in §18.36(d)(2)(i) apply.

(i) In order for sealed bidding to be feasible, the following conditions should be present:

(A) A complete, adequate, and realistic specification or purchase description is available;

(B) Two or more responsible bidders are willing and able to compete effectively and for the business; and

(C) The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

(ii) If sealed bids are used, the following requirements apply:

(A) The invitation for bids will be publicly advertised and bids shall be solicited from an adequate number of known suppliers, providing them sufficient time prior to the date set for opening the bids;

(B) The invitation for bids, which will include any specifications and pertinent attachments, shall define the items or services in order for the bidder to properly respond;

(C) All bids will be publicly opened at the time and place prescribed in the invitation for bids;

(D) A firm fixed-price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of; and

(E) Any or all bids may be rejected if there is a sound documented reason.

(3) Procurement by competitive proposals. The technique of competitive proposals is normally conducted with more than one source submitting an offer, and either a fixed-price or cost-reimbursement type contract is awarded. It is generally used when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements apply:

(i) Requests for proposals will be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals shall be honored to the maximum extent practical;

(ii) Proposals will be solicited from an adequate number of qualified sources;

(iii) Grantees and subgrantees will have a method for conducting technical evaluations of the proposals received and for selecting awardees;

(iv) Awards will be made to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered; and

(v) Grantees and subgrantees may use competitive proposal procedures for qualifications-based procurement of...
architectural/engineering (A/E) professional services whereby competitors’ qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

(4) Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source, or after solicitation of a number of sources, competition is determined inadequate.

(i) Procurement by noncompetitive proposals may be used only when the award of a contract is infeasible under small purchase procedures, sealed bids or competitive proposals and one of the following circumstances applies:

(A) The item is available only from a single source;

(B) The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;

(C) The awarding agency authorizes noncompetitive proposals; or

(D) After solicitation of a number of sources, competition is determined inadequate.

(ii) Cost analysis, i.e., verifying the proposed cost data, the projections of the data, and the evaluation of the specific elements of costs and profits, is required.

(iii) Grantees and subgrantees may be required to submit the proposed procurement to the awarding agency for pre-award review in accordance with paragraph (g) of this section.

(e) Contracting with small and minority firms, women’s business enterprise and labor surplus area firms. (1) The grantees and subgrantees will take all necessary affirmative steps to assure that minority firms, women’s business enterprises, and labor surplus area firms are used when possible.

(2) Affirmative steps shall include:

(i) Placing qualified small and minority businesses and women’s business enterprises on solicitation lists;

(ii) Assuring that small and minority businesses, and women’s business enterprises are solicited whenever they are potential sources;

(iii) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business, and women’s business enterprises;

(iv) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority business, and women’s business enterprises;

(v) Using the services and assistance of the Small Business Administration, and the Minority Business Development Agency of the Department of Commerce; and

(vi) Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (e)(2) (i) through (v) of this section.

(f) Contract cost and price. (1) Grantees and subgrantees must perform a cost or price analysis in connection with every procurement action including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation, but as a starting point, grantees must make independent estimates before receiving bids or proposals. A cost analysis must be performed when the offeror is required to submit the elements of his estimated cost, e.g., under professional, consulting, and architectural engineering services contracts. A cost analysis will be necessary when adequate price competition is lacking, and for sole source procurements, including contract modifications or change orders, unless price reasonableness can be established on the basis of a catalog or market price of a commercial product sold in substantial quantities to the general public or based on prices set by law or regulation. A price analysis will be used in all other instances to determine the reasonableness of the proposed contract price.

(2) Grantees and subgrantees will negotiate profit as a separate element of the price for each contract in which there is no price competition and in all cases where cost analysis is performed.
To establish a fair and reasonable profit, consideration will be given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

(3) Costs or prices based on estimated costs for contracts under grants will be allowable only to the extent that costs incurred or cost estimates included in negotiated prices are consistent with Federal cost principles (see §18.22). Grantees may reference their own cost principles that comply with the applicable Federal cost principles.

(4) The cost plus a percentage of cost and percentage of construction cost methods of contracting shall not be used.

(g) Awarding agency review. (1) Grantees and subgrantees must make available, upon request of the awarding agency, technical specifications on proposed procurements where the awarding agency believes such review is needed to ensure that the item and/or service specified is the one being proposed for purchase. This review generally will take place prior to the time the specification is incorporated into a solicitation document. However, if the grantee or subgrantee desires to have the review accomplished after a solicitation has been developed, the awarding agency may still review the specifications, with such review usually limited to the technical aspects of the proposed purchase.

(2) Grantees and subgrantees must on request make available for awarding agency pre-award review procurement documents, such as requests for proposals or invitations for bids, independent cost estimates, etc., when:

(i) A grantee's or subgrantee's procurement procedures or operation fails to comply with the procurement standards in this section; or

(ii) The procurement is expected to exceed the simplified acquisition threshold and is to be awarded without competition or only one bid or offer is received in response to a solicitation; or

(iii) The procurement, which is expected to exceed the simplified acquisition threshold, specifies a “brand name” product; or

(iv) The proposed award is more than the simplified acquisition threshold and is to be awarded to other than the apparent low bidder under a sealed bid procurement; or

(v) A proposed contract modification changes the scope of a contract or increases the contract amount by more than the simplified acquisition threshold.

(3) A grantee or subgrantee will be exempt from the pre-award review in paragraph (g)(2) of this section if the awarding agency determines that its procurement systems comply with the standards of this section.

(i) A grantee or subgrantee may request that its procurement system be reviewed by the awarding agency to determine whether its system meets these standards in order for its system to be certified. Generally, these reviews shall occur where there is a continuous high-dollar funding, and third-party contracts are awarded on a regular basis.

(ii) A grantee or subgrantee may self-certify its procurement system. Such self-certification shall not limit the awarding agency's right to survey the system. Under a self-certification procedure, awarding agencies may wish to rely on written assurances from the grantee or subgrantee that it is complying with these standards. A grantee or subgrantee will cite specific procedures, regulations, standards, etc., as being in compliance with these requirements and have its system available for review.

(h) Bonding requirements. For construction or facility improvement contracts or subcontracts exceeding the simplified acquisition threshold, the awarding agency may accept the bonding policy and requirements of the grantee or subgrantee provided the awarding agency has made a determination that the awarding agency's interest is adequately protected. If such a determination has not been made, the minimum requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. The “bid guarantee” shall consist of a firm commitment such as a bid bond,
certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(2) A performance bond on the part of the contractor for 100 percent of the contract price. A “performance bond” is one executed in connection with a contract to secure fulfillment of all the contractor’s obligations under such contract.

(3) A payment bond on the part of the contractor for 100 percent of the contract price. A “payment bond” is one executed in connection with a contract to assure payment as required by law of all persons supplying labor and material in the execution of the work provided for in the contract.

(i) Contract provisions. A grantee’s and subgrantee’s contracts must contain provisions in paragraph (i) of this section. Federal agencies are permitted to require changes, remedies, changed conditions, access and records retention, suspension of work, and other clauses approved by the Office of Federal Procurement Policy.

(1) Administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate. (Contracts more than the simplified acquisition threshold)

(2) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

(3) Compliance with Executive Order 11246 of September 24, 1965, entitled “Equal Employment Opportunity,” as amended by Executive Order 11375 of October 13, 1967, and as supplemented in Department of Labor regulations (41 CFR chapter 60). (All construction contracts awarded in excess of $10,000 by grantees and their contractors or subgrantees)

(4) Compliance with the Copeland “Anti-Kickback” Act (18 U.S.C. 874) as supplemented in Department of Labor regulations (29 CFR part 3). (All contracts and subgrants for construction or repair)

(5) Compliance with the Davis-Bacon Act (40 U.S.C. 276a to 276a-7) as supplemented by Department of Labor regulations (29 CFR part 5). (Construction contracts in excess of $2000 awarded by grantees and subgrantees when required by Federal grant program legislation)

(6) Compliance with Sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-330) as supplemented by Department of Labor regulations (29 CFR part 5). (Construction contracts awarded by grantees and subgrantees in excess of $2000, and in excess of $2500 for other contracts which involve the employment of mechanics or laborers)

(7) Notice of awarding agency requirements and regulations pertaining to reporting.

(8) Notice of awarding agency requirements and regulations pertaining to patent rights with respect to any discovery or invention which arises or is developed in the course of or under such contract.

(9) Awarding agency requirements and regulations pertaining to copyrights and rights in data.

(10) Access by the grantee, the subgrantee, the Federal grantor agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the contractor which are directly pertinent to that specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

(11) Retention of all required records for three years after grantees or subgrantees make final payments and all other pending matters are closed.

(12) Compliance with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. 1857(h)), section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection Agency regulations (40 CFR part 15). (Contracts, subcontracts, and subgrants of amounts in excess of $100,000)

(13) Mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the
§ 18.37 Subgrants.

(a) States. States shall follow state law and procedures when awarding and administering subgrants (whether on a cost reimbursement or fixed amount basis) of financial assistance to local and Indian tribal governments. States shall:

(1) Ensure that every subgrant includes any clauses required by Federal statute and executive orders and their implementing regulations;

(2) Ensure that subgrantees are aware of requirements imposed upon them by Federal statute and regulation;

(3) Ensure that a provision for compliance with § 18.42 is placed in every cost reimbursement subgrant.

(b) All other grantees. All other grantees shall follow the provisions of this part which are applicable to awarding agencies when awarding and administering subgrants (whether on a cost reimbursement or fixed amount basis) of financial assistance to local and Indian tribal governments. Grantees shall:

(1) Ensure that every subgrant includes any clauses required by Federal statute and executive orders and their implementing regulations;

(2) Ensure that every subgrant includes any clauses required by Federal statute and executive orders and their implementing regulations;
§ 18.40 Monitoring and reporting program performance.

(a) Monitoring by grantees. Grantees are responsible for managing the day-to-day operations of grant and subgrant supported activities. Grantees must monitor grant and subgrant supported activities to assure compliance with applicable Federal requirements and that performance goals are being achieved. Grantee monitoring must cover each program, function or activity.

(b) Nonconstruction performance reports. The Federal agency may, if it decides that performance information available from subsequent applications contains sufficient information to meet its programmatic needs, require the grantee to submit a performance report only upon expiration or termination of grant support. Unless waived by the Federal agency this report will be due on the same date as the final Financial Status Report.

(1) Grantees shall submit annual performance reports unless the awarding agency requires quarterly or semi-annual reports. However, performance reports will not be required more frequently than quarterly. Annual reports shall be due 90 days after the grant year, quarterly or semi-annual reports shall be due 30 days after the reporting period. The final performance report will be due 90 days after the expiration or termination of grant support. If a justified request is submitted by a grantee, the Federal agency may extend the due date for any performance report. Additionally, requirements for unnecessary performance reports may be waived by the Federal agency.

(2) Performance reports will contain, for each grant, brief information on the following:

(i) A comparison of actual accomplishments to the objectives established for the period. Where the output of the project can be quantified, a computation of the cost per unit of output may be required if that information will be useful.

(ii) The reasons for slippage if established objectives were not met.

(iii) Additional pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

(3) Grantees will be required to submit more than the original and two copies of performance reports.

(4) Grantees will adhere to the standards in this section in prescribing performance reporting requirements for subgrantees.

(c) Construction performance reports. For the most part, on-site technical inspections and certified percentage-of-completion data are relied on heavily by Federal agencies to monitor progress under construction grants and subgrants. The Federal agency will require additional formal performance reports only when considered necessary, and never more frequently than quarterly.

(1) Section 12(h) of the UMT Act of 1964, as amended, requires pre-award testing of new buses models.

(2) [Reserved]

(d) Significant developments. Events may occur between the scheduled performance reporting dates which have significant impact upon the grant or subgrant supported activity. In such cases, the grantee must inform the Federal agency as soon as the following types of conditions become known:

(1) Problems, delays, or adverse conditions which will materially impair the ability to meet the objective of the award. This disclosure must include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation.
§ 18.41 Financial reporting.

(a) General. (1) Except as provided in paragraphs (a) (2) and (5) of this section, grantees will use only the forms specified in paragraphs (a) through (e) of this section, and such supplementary or other forms as may from time to time be authorized by OMB, for:
   (i) Submitting financial reports to Federal agencies, or
   (ii) Requesting advances or reimbursements when letters of credit are not used.

   (2) Grantees need not apply the forms prescribed in this section in dealing with their subgrantees. However, grantees shall not impose more burdensome requirements on subgrantees.

   (3) Grantees shall follow all applicable standard and supplemental Federal agency instructions approved by OMB to the extent required under the Paperwork Reduction Act of 1980 for use in connection with forms specified in paragraphs (b) through (e) of this section. Federal agencies may issue substantive supplementary instructions only with the approval of OMB. Federal agencies may shade out or instruct the grantee to disregard any line item that the Federal agency finds unnecessary for its decisionmaking purposes.

   (4) Grantees will not be required to submit more than the original and two copies of forms required under this part.

(b) Financial Status Report—(1) Form. Grantees will use Standard Form 269 or 269A, Financial Status Report, to report the status of funds for all nonconstruction grants and for construction grants when required in accordance with §18.41(e)(2)(ii).

   (2) Accounting basis. Each grantee will report program outlays and program income on a cash or accrual basis as prescribed by the awarding agency. If the Federal agency requires accrual information and the grantee's accounting records are not normally kept on the accrual basis, the grantee shall not be required to convert its accounting system but shall develop such accrual information through and analysis of the documentation on hand.

   (3) Frequency. The Federal agency may prescribe the frequency of the report for each project or program. However, the report will not be required more frequently than quarterly. If the Federal agency does not specify the frequency of the report, it will be submitted annually. A final report will be required upon expiration or termination of grant support.

   (4) Due date. When reports are required on a quarterly or semiannual basis, they will be due 30 days after the reporting period. When required on an annual basis, they will be due 90 days after the grant year. Final reports will be due 90 days after the expiration or termination of grant support.

(c) Federal Cash Transactions Report—(1) Form. (i) For grants paid by letter or credit, Treasury check advances or electronic transfer of funds, the grantee will submit the Standard Form 272, Federal Cash Transactions Report, and when necessary, its continuation sheet, Standard Form 272a, unless the terms
of the award exempt the grantee from this requirement.

(ii) These reports will be used by the Federal agency to monitor cash advanced to grantees and to obtain disbursement or outlay information for each grant from grantees. The format of the report may be adapted as appropriate when reporting is to be accomplished with the assistance of automatic data processing equipment provided that the information to be submitted is not changed in substance.

(2) Forecasts of Federal cash requirements. Forecasts of Federal cash requirements may be required in the “Remarks” section of the report.

(3) Cash in hands of subgrantees. When considered necessary and feasible by the Federal agency, grantees may be required to report the amount of cash advances in excess of three days needs in the hands of their subgrantees or contractors and to provide short narrative explanations of actions taken by the grantee to reduce the excess balances.

(4) Frequency and due date. Grantees must submit the report no later than 15 working days following the end of each quarter. However, where an advance either by letter of credit or electronic transfer of funds is authorized at an annualized rate of one million dollars or more, the Federal agency may require the report to be submitted within 15 working days following the end of each month.

(d) Request for advance or reimbursement—(1) Advance payments. Requests for Treasury check advance payments will be submitted on Standard Form 270, Request for Advance or Reimbursement. (This form will not be used for drawdowns under a letter of credit, electronic funds transfer or Treasury check advance. (i) When a construction grant is paid by letter of credit, electronic funds transfer or Treasury check advance, the grantee will report its outlays to the Federal agency using Standard Form 271, Outlay Report and Request for Reimbursement for Construction Programs. The Federal agency will provide any necessary special instruction. However, frequency and due date shall be governed by §18.41(b) (3) and (4).

(ii) When a construction grant is paid by Treasury check advances based on periodic requests from the grantee, the advances will be requested on the form specified in §18.41(d).

(iii) The Federal agency may substitute the Financial Status Report specified in §18.41(b) for the Outlay Report and Request for Reimbursement for Construction Programs.

(3) Accounting basis. The accounting basis for the Outlay Report and Request for Reimbursement for Construction Programs shall be governed by §18.41(b)(2).

(f) Notwithstanding the provisions of paragraphs (a)(1) of this section, recipients of FHWA and National Highway Traffic Safety Administration (NHTSA) grants shall use FHWA, NHTSA or State financial reports.

§ 18.42 Retention and access requirements for records.

(a) Applicability. (1) This section applies to all financial and programmatic
§ 18.42  

49 CFR Subtitle A (10-1-98 Edition)  

records, supporting documents, statistical records, and other records of grantees or subgrantees which are:
(i) Required to be maintained by the terms of this part, program regulations or the grant agreement, or
(ii) Otherwise reasonably considered as pertinent to program regulations or the grant agreement.

(b) Length of retention period.  
(1) Except as otherwise provided, records must be retained for three years from the starting date specified in paragraph (c) of this section.
(2) If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.
(3) To avoid duplicate recordkeeping, awarding agencies may make special arrangements with grantees and subgrantees to retain any records which are continuously needed for joint use. The awarding agency will request transfer of records to its custody when it determines that the records possess long-term retention value. When the records are transferred to or maintained by the Federal agency, the 3-year retention requirement is not applicable to the grantee or subgrantee.
(c) Starting date of retention period—(1) General. When grant support is continued or renewed at annual or other intervals, the retention period for the records of each funding period starts on the day the grantee or subgrantee submits its expenditure report to the awarding agency, and counts the final expenditure report as the last expenditure report for that period. However, if grant support is continued or renewed quarterly, the retention period for each year’s records starts on the day the grantee submits its expenditure report for the last quarter of the Federal fiscal year. In all other cases, the retention period starts on the day the report has been waived, the retention period starts on the day the report would have been due.
(2) Real property and equipment records. The retention period for real property and equipment records starts from the date of the disposition or replacement or transfer at the direction of the awarding agency.
(3) Records for income transactions after grant or subgrant support. Where there is such a requirement, the retention period for the records pertaining to the earning of the income starts from the end of the fiscal year in which the income is earned.
(4) Indirect cost rate proposals, cost allocations plans, etc. This paragraph applies to the following types of documents, and their supporting records: indirect cost rate computations or proposals, cost allocation plans, and any similar accounting computations of the rate at which a particular group of costs is chargeable (such as computer usage chargeback rates or composite fringe benefit rates).
(i) If submitted for negotiation. If the proposal, plan, or other computation is required to be submitted to the Federal Government (or to the grantee) to form the basis for negotiation of the rate, then the 3-year retention period for its supporting records starts from the date of such submission.
(ii) If not submitted for negotiation. If the proposal, plan, or other computation is not required to be submitted to the Federal Government (or to the grantee) for negotiation purposes, then the 3-year retention period for the proposal, plan, or computation and its supporting records starts from the end of the fiscal year (or other accounting period) covered by the proposal, plan, or other computation.
(d) Substitution of microfilm. Copies made by microfilming, photocopying, or similar methods may be substituted for the original records.
(e) Access to records—(1) Records of grantees and subgrantees. The awarding agency and the Comptroller General of the United States, or any of their authorized representatives, shall have the right of access to any pertinent books, documents, papers, or other records of
Office of the Secretary of Transportation

§ 18.50 Closeout.

(a) General. The Federal agency will close out the award when it determines

them in the notice of suspension or termination or subsequently. Other grantee or subgrantee costs during suspension or after termination which are necessary and not reasonably avoidable are allowable if:

(1) The costs result from obligations which were properly incurred by the grantee or subgrantee before the effective date of suspension or termination, are not in anticipation of it, and, in the case of a termination, are noncancellable, and,

(2) The costs would be allowable if the award were not suspended or expired normally at the end of the funding period in which the termination takes effect.

§ 18.44 Termination for convenience.

Except as provided in §18.43 awards may be terminated in whole or in part only as follows:

(a) By the awarding agency with the consent of the grantee or subgrantee in which case the two parties shall agree upon the termination conditions, including the effective date and in the case of partial termination, the portion to be terminated, or

(b) By the grantee or subgrantee upon written notification to the awarding agency, setting forth the reasons for such termination, the effective date, and in the case of partial termination, the portion to be terminated. However, if, in the case of a partial termination, the awarding agency determines that the remaining portion of the award will not accomplish the purposes for which the award was made, the awarding agency may terminate the award in its entirety under either §18.43 or paragraph (a) of this section.

Subpart D—After-The-Grant Requirements

§ 18.50 Closeout.

(a) General. The Federal agency will close out the award when it determines
§ 18.51

that all applicable administrative actions and all required work of the grant has been completed.

(b) Reports. Within 90 days after the expiration or termination of the grant, the grantee must submit all financial, performance, and other reports required as a condition of the grant. Upon request by the grantee, Federal agencies may extend this timeframe. These may include but are not limited to:

(1) Final performance or progress report.
(2) Financial Status Report (SF 269) or Outlay Report and Request for Reimbursement for Construction Programs (SF-271) (as applicable).
(3) Final request for payment (SF-270) (if applicable).
(4) Invention disclosure (if applicable).
(5) Federally-owned property report:
   In accordance with §18.32(f), a grantee must submit an inventory of all federally owned property (as distinct from property acquired with grant funds) for which it is accountable and request disposition instructions from the Federal agency of property no longer needed.

(c) Cost adjustment. The Federal agency will, within 90 days after receipt of reports in paragraph (b) of this section, make upward or downward adjustments to the allowable costs.

(d) Cash adjustments. (1) The Federal agency will make prompt payment to the grantee for allowable reimbursable costs.
(2) The grantee must immediately refund to the Federal agency any balance of unobligated (unencumbered) cash advanced that is not authorized to be retained for use on other grants.

§ 18.52 Later disallowances and adjustments.

The closeout of a grant does not affect:

(a) The Federal agency's right to disallow costs and recover funds on the basis of a later audit or other review;
(b) The grantee's obligation to return any funds due as a result of later refunds, corrections, or other transactions;
(c) Records retention as required in §18.42;
(d) Property management requirements in §§18.31 and 18.32; and
(e) Audit requirements in §18.26.

§ 18.52 Collection of amounts due.

(a) Any funds paid to a grantee in excess of the amount to which the grantee is finally determined to be entitled under the terms of the award constitute a debt to the Federal Government. If not paid within a reasonable period after demand, the Federal agency may reduce the debt by:

(1) Making an administrative offset against other requests for reimbursements,
(2) Withholding advance payments otherwise due to the grantee, or
(3) Other action permitted by law.

(b) Except where otherwise provided by statutes or regulations, the Federal agency will charge interest on an overdue debt in accordance with the Federal Claims Collection Standards (4 CFR Ch. II). The date from which interest is computed is not extended by litigation or the filing of any form of appeal.

Subpart E—Entitlements

[Reserved]

PART 19—UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND AGREEMENTS WITH INSTITUTIONS OF HIGHER EDUCATION, HOSPITALS, AND OTHER NON-PROFIT ORGANIZATIONS

Subpart A—General

Sec.
19.1 Purpose.
19.2 Definitions.
19.3 Effect on other issuances.
19.4 Deviations.
19.5 Subawards.
19.6 Availability of material referenced in this part.

Subpart B—Pre-Award Requirements

19.10 Purpose.
19.11 Pre-award policies.
19.12 Forms for applying for Federal assistance.
19.13 Debarment and suspension.
19.14 Special award conditions.
19.15 Metric system of measurement.
19.17 Certifications and representations.
Subpart C—Post-Award Requirements

FINANCIAL AND PROGRAM MANAGEMENT

19.20 Purpose of financial and program management.
19.21 Standards for financial management systems.
19.22 Payment.
19.23 Cost sharing or matching.
19.24 Program income.
19.25 Revision of budget and program plans.
19.26 Non-Federal audits.
19.27 Allowable costs.
19.28 Period of availability of funds.

PROPERTY STANDARDS

19.30 Purpose of property standards.
19.31 Insurance coverage.
19.32 Real property.
19.33 Federally-owned and exempt property.
19.34 Equipment.
19.35 Supplies and other expendable property.
19.36 Intangible property.
19.37 Property trust relationship.

PROCUREMENT STANDARDS

19.40 Purpose of procurement standards.
19.41 Recipient responsibilities.
19.42 Codes of conduct.
19.43 Competition.
19.44 Procurement procedures.
19.45 Cost and price analysis.
19.46 Procurement records.
19.47 Contract administration.
19.48 Contract provisions.

REPORTS AND RECORDS

19.50 Purpose of reports and records.
19.51 Monitoring and reporting program performance.
19.52 Financial reporting.
19.53 Retention and access requirements for records.

TERMINATION AND ENFORCEMENT

19.60 Purpose of termination and enforcement.
19.61 Termination.
19.62 Enforcement.

Subpart D—After-the-Award Requirements

19.70 Purpose.
19.71 Closeout procedures.
19.72 Subsequent adjustments and continuing responsibilities.
19.73 Collection of amounts due.

APPENDIX A TO PART 19—CONTRACT PROVISIONS

SOURCE: 59 FR 15609, Apr. 4, 1994, unless otherwise noted.
§ 19.2

are made by the recipient or through the use of predetermined payment schedules.

(e) Award means financial assistance that provides support or stimulation to accomplish a public purpose. Awards include grants and other agreements in the form of money or property in lieu of money, by the Federal Government to an eligible recipient. The term does not include: Technical assistance, which provides services instead of money; other assistance in the form of loans, loan guarantees, interest subsidies, or insurance; direct payments of any kind to individuals; and, contracts which are required to be entered into and administered under procurement laws and regulations.

(f) Cash contributions means the recipient's cash outlay, including the outlay of money contributed to the recipient by third parties.

(g) Closeout means the process by which a Federal awarding agency determines that all applicable administrative actions and all required work of the award have been completed by the recipient and Federal awarding agency.

(h) Contract means a procurement contract under an award or subaward, and a procurement subcontract under a recipient's or subrecipient's contract.

(i) Cost sharing or matching means that portion of project or program costs not borne by the Federal Government.

(j) Date of completion means the date on which all work under an award is completed or the date on the award document, or any supplement or amendment thereto, on which Federal sponsorship ends.

(k) Disallowed costs means those charges to an award that the Federal awarding agency determines to be unallowable, in accordance with the applicable Federal cost principles or other terms and conditions contained in the award.

(l) Equipment means tangible non-expendable personal property including exempt property charged directly to the award having a useful life of more than one year and an acquisition cost of $5,000 or more per unit. However, consistent with recipient policy, lower limits may be established.

(m) Excess property means property under the control of any Federal awarding agency that, as determined by the head thereof, is no longer required for its needs or the discharge of its responsibilities.

(n) Exempt property means tangible personal property acquired in whole or in part with Federal funds, where the Federal awarding agency has statutory authority to vest title in the recipient without further obligation to the Federal Government. An example of exempt property authority is contained in the Federal Grant and Cooperative Agreement Act (31 U.S.C. 6306), for property acquired under an award to conduct basic or applied research by a non-profit institution of higher education or non-profit organization whose principal purpose is conducting scientific research.

(o) Federal awarding agency means the Federal agency that provides an award to the recipient. Except for the specific review requirements for deviations in §19.4, for Department of Transportation (DOT) awards, it means the DOT operating administration or departmental office that made the award.

(p) Federal funds authorized means the total amount of Federal funds obligated by the Federal Government for use by the recipient. This amount may include any authorized carryover of unobligated funds from prior funding periods when permitted by agency regulations or agency implementing instructions.

(q) Federal share of real property, equipment, or supplies means that percentage of the property's acquisition costs and any improvement expenditures paid with Federal funds.

(r) Funding period means the period of time when Federal funding is available for obligation by the recipient.

(s) Intangible property and debt instruments means, but is not limited to, trademarks, copyrights, patents and patent applications and such property as loans, notes and other debt instruments, lease agreements, stock and other instruments of property ownership, whether considered tangible or intangible.

(t) Obligations means the amounts of orders placed, contracts and grants
awarded, services received and similar transactions during a given period that require payment by the recipient during the same or a future period.

(u) Outlays or expenditures means charges made to the project or program. They may be reported on a cash or accrual basis. For reports prepared on a cash basis, outlays are the sum of cash disbursements for direct charges for goods and services, the amount of indirect expense charged, the value of third party in-kind contributions applied and the amount of cash advances and payments made to subrecipients. For reports prepared on an accrual basis, outlays are the sum of cash disbursements for direct charges for goods and services, the amount of indirect expense incurred, the value of in-kind contributions applied, and the net increase (or decrease) in the amounts owed by the recipient for goods and other property received, for services performed by employees, contractors, subrecipients and other payees and other amounts becoming owed under programs for which no current services or performance are required.

(v) Personal property means property of any kind except real property. It may be tangible, having physical existence, or intangible, having no physical existence, such as copyrights, patents, or securities.

(w) Prior approval means written approval by an authorized official evidencing prior consent.

(x) Program income means gross income earned by the recipient that is directly generated by a supported activity or earned as a result of the award (see exclusions in §§19.24 (e) and (h)). Program income includes, but is not limited to, income from fees for services performed, the use or rental of real or personal property acquired under federally-funded projects, the sale of commodities or items fabricated under an award, license fees and royalties on patents and copyrights, and interest on loans made with award funds. Interest earned on advances of Federal funds is not program income. Except as otherwise provided in Federal awarding agency regulations or the terms and conditions of the award, program income does not include the receipt of principal on loans, rebates, credits, discounts, etc., or interest earned on any of them.

(y) Project costs means all allowable costs, as set forth in the applicable Federal cost principles, incurred by a recipient and the value of the contributions made by third parties in accomplishing the objectives of the award during the project period.

(z) Project period means the period established in the award document during which Federal sponsorship begins and ends.

(aa) Property means, unless otherwise stated, real property, equipment, intangible property and debt instruments.

(bb) Real property means land, including land improvements, structures and appurtenances thereto, but excludes movable machinery and equipment.

(cc) Recipient means an organization receiving financial assistance directly from Federal awarding agencies to carry out a project or program. The term includes public and private institutions of higher education, public and private hospitals, and other quasi-public and private non-profit organizations such as, but not limited to, community action agencies, research institutes, educational associations, and health centers. The term may include commercial organizations, foreign or international organizations (such as agencies of the United Nations) which are recipients, subrecipients, or contractors or subcontractors of recipients or subrecipients at the discretion of the Federal awarding agency. The term does not include government-owned contractor-operated facilities or research centers providing continued support for mission-oriented, large-scale programs that are government-owned or controlled, or are designated as federally-funded research and development centers.

(dd) Research and development means all research activities, both basic and applied, and all development activities that are supported at universities, colleges, and other non-profit institutions. "Research" is defined as a systematic study directed toward fuller scientific knowledge or understanding of the subject studied. "Development" is the systematic use of knowledge and
understanding gained from research directed toward the production of useful materials, devices, systems, or methods, including design and development of prototypes and processes. The term research also includes activities involving the training of individuals in research techniques where such activities utilize the same facilities as other research and development activities and where such activities are not included in the instruction function.

(ee) Small awards means a grant or cooperative agreement not exceeding the small purchase threshold fixed at 41 U.S.C. 403(11) (currently $25,000).

(ff) Subaward means an award of financial assistance in the form of money, or property in lieu of money, made under an award by a recipient to an eligible subrecipient or by a subrecipient to a lower tier subrecipient. The term includes financial assistance when provided by any legal agreement, even if the agreement is called a contract, but does not include procurement of goods and services nor does it include any form of assistance which is excluded from the definition of “award” in paragraph (e) of this section.

(gg) Subrecipient means the legal entity to which a subaward is made and which is accountable to the recipient for the use of the funds provided. The term may include foreign or international organizations (such as agencies of the United Nations) at the discretion of the Federal awarding agency.

(hh) Supplies means all personal property excluding equipment, intangible property, and debt instruments as defined in this section, and inventions of a contractor conceived or first actually reduced to practice in the performance of work under a funding agreement (“subject inventions”), as defined in 37 CFR part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts, and Cooperative Agreements.”

(ii) Suspension means an action by a Federal awarding agency that temporarily withdraws Federal sponsorship under an award, pending corrective action by the recipient or pending a decision to terminate the award by the Federal awarding agency. Suspension of an award is a separate action from suspension under Federal agency regulations implementing E.O.s 12549 and 12689, “Debarment and Suspension.”

(jj) Termination means the cancellation of Federal sponsorship, in whole or in part, under an agreement at any time prior to the date of completion.

(kk) Third party in-kind contributions means the value of non-cash contributions provided by non-Federal third parties. Third party in-kind contributions may be in the form of real property, equipment, supplies and other expendable property, and the value of goods and services directly benefiting and specifically identifiable to the project or program.

(ll) Unliquidated obligations, for financial reports prepared on a cash basis, means the amount of obligations incurred by the recipient that have not been paid. For reports prepared on an accrued expenditure basis, they represent the amount of obligations incurred by the recipient for which an outlay has not been recorded.

(mm) Unobligated balance means the portion of the funds authorized by the Federal awarding agency that has not been obligated by the recipient and is determined by deducting the cumulative obligations from the cumulative funds authorized.

(nn) Unrecovered indirect cost means the difference between the amount awarded and the amount which could have been awarded under the recipient’s approved negotiated indirect cost rate.

(oo) Working capital advance means a procedure whereby funds are advanced to the recipient to cover its estimated disbursement needs for a given initial period.

§ 19.3 Effect on other issuances.

For awards subject to this part, all administrative requirements of codified program regulations, program manuals, handbooks and other non-regulatory materials which are inconsistent with the requirements of this part are superseded, except to the extent they are required by statute, or authorized in accordance with the deviations provision in § 19.4.
§ 19.4 Deviations.

The Office of Management and Budget (OMB) may grant exceptions for classes of grants or recipients subject to the requirements of this part when exceptions are not prohibited by statute. However, in the interest of maximum uniformity, exceptions from the requirements of this part shall be permitted only in unusual circumstances. Federal awarding agencies may apply more restrictive requirements to a class of recipients when approved by OMB. All requests for class deviations shall be processed through the Assistant Secretary for Administration. Federal awarding agencies may apply more restrictive requirements when awarding small awards, except for those requirements which are statutory, subject to the concurrence of the Assistant Secretary for Administration. Exceptions on a case-by-case basis may also be made by Federal awarding agencies, with the concurrence of the Assistant Secretary for Administration to ensure conformance with Department of Transportation grant administration policies.

§ 19.5 Subawards.

Unless sections of this part specifically exclude subrecipients from coverage, the provisions of this part shall be applied to subrecipients performing work under awards if such subrecipients are institutions of higher education, hospitals or other non-profit organizations. State and local government subrecipients are subject to the provisions of 49 CFR part 18, “Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments.”

§ 19.6 Availability of material referenced in this part.

(a) Copies of Federal Transit Administration (FTA) documents identified in this part may be obtained by calling the FTA Administrative Services Division at (202) 366-4865.

(b) Copies of Federal Aviation Administration (FAA) documents identified in this part may be obtained by calling the FAA Program Guidance Branch at (202) 267-3831.

Subpart B—Pre-Award Requirements

§ 19.10 Purpose.

Sections 19.11 through 19.17 prescribe forms and instructions and other pre-award matters to be used in applying for Federal awards.

§ 19.11 Pre-award policies.

(a) Use of grants and cooperative agreements, and contracts. In each instance, the Federal awarding agency shall decide on the appropriate award instrument (i.e., grant, cooperative agreement, or contract). The Federal Grant and Cooperative Agreement Act (31 U.S.C. 6301-08) governs the use of grants, cooperative agreements and contracts. A grant or cooperative agreement shall be used only when the principal purpose of a transaction is to accomplish a public purpose of support or stimulation authorized by Federal statute. The statutory criterion for choosing between grants and cooperative agreements is that for the latter, “substantial involvement is expected between the executive agency and the State, local government, or other recipient when carrying out the activity contemplated in the agreement.” Contracts shall be used when the principal purpose is acquisition of property or services for the direct benefit or use of the Federal Government.

(b) Public notice and priority setting. Federal awarding agencies shall notify the public of its intended funding priorities for discretionary grant programs, unless funding priorities are established by Federal statute.

§ 19.12 Forms for applying for Federal assistance.

(a) Federal awarding agencies shall comply with the applicable report clearance requirements of 5 CFR part 1320, “Controlling Paperwork Burdens on the Public,” with regard to all forms used by the Federal awarding agency in place of or as a supplement to the Standard Form 424 (SF-424) series.

(b) Applicants shall use the SF-424 series or those forms and instructions prescribed by the Federal awarding agency.
§ 19.13

(c) For Federal programs covered by E.O. 12372, “Intergovernmental Review of Federal Programs,” as implemented at 49 CFR part 17, Intergovernmental review of Department of Transportation programs and activities, the applicant shall complete the appropriate sections of the SF-424 (Application for Federal Assistance) indicating whether the application was subject to review by the State Single Point of Contact (SPOC). The name and address of the SPOC for a particular State can be obtained from the Federal awarding agency or the Catalog of Federal Domestic Assistance. The SPOC shall advise the applicant whether the program for which application is made has been selected by that State for review.

(d) Federal awarding agencies that do not use the SF-424 form should indicate whether the application is subject to review by the State under E.O. 12372.

§ 19.13 Debarment and suspension.

Federal awarding agencies and recipients shall comply with the non-procurement debarment and suspension rule, 49 CFR part 29, “Governmentwide Debarment and Suspension (Non-procurement) and Governmentwide Requirements for Drug-Free Workplace (Grants),” implementing E.O.s 12549 and 12689, “Debarment and Suspension.” This rule restricts subawards and contracts with certain parties that are debarred, suspended or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.

§ 19.14 Special award conditions.

(a) Federal awarding agencies may impose additional requirements as needed, if an applicant or recipient:

(1) Has a history of poor performance,

(2) Is not financially stable,

(3) Has a management system that does not meet the standards prescribed in this part,

(4) Has not conformed to the terms and conditions of a previous award, or

(5) Is not otherwise responsible.

(b) Additional requirements may only be imposed provided that such applicant or recipient is notified in writing as to:

(1) The nature of the additional requirements,

(2) The reason why the additional requirements are being imposed,

(3) The nature of the corrective action needed,

(4) The time allowed for completing the corrective actions, and

(5) The method for requesting reconsideration of the additional requirements imposed.

(c) A copy of such notices shall be sent to the Assistant Secretary for Administration. Any special conditions shall be promptly removed once the conditions that prompted them have been corrected.

§ 19.15 Metric system of measurement.

The Metric Conversion Act, as amended by the Omnibus Trade and Competitiveness Act (15 U.S.C. 205), declares that the metric system is the preferred measurement system for U.S. trade and commerce. The Act requires each Federal agency to establish a date or dates in consultation with the Secretary of Commerce, when the metric system of measurement will be used in the agency’s procurements, grants, and other business-related activities. Metric implementation may take longer where the use of the system is initially impractical or likely to cause significant inefficiencies in the accomplishment of federally-funded activities. Federal awarding agencies shall follow the provisions of E.O. 12770, “Metric Usage in Federal Government Programs.”

Under the Act, any State agency or agency of a political subdivision of a State which is using appropriated Federal funds must comply with section 6002. Section 6002 requires that preference be given in procurement programs to the purchase of specific products containing recycled materials identified in guidelines developed by the Environmental Protection Agency (EPA) (40 CFR parts 247-254). Accordingly, State and local institutions of higher education, hospitals, and non-profit organizations that receive direct Federal awards or other Federal funds shall give preference in their procurement programs funded with Federal
funds to the purchase of recycled products pursuant to the EPA guidelines.

§ 19.17 Certifications and representations.

Unless prohibited by statute or codified regulation, each Federal awarding agency is authorized and encouraged to allow recipients to submit certifications and representations required by statute, executive order, or regulation on an annual basis, if the recipients have ongoing and continuing relationships with the agency. Annual certifications and representations shall be signed by responsible officials with the authority to ensure recipients' compliance with the pertinent requirements.

Subpart C—Post-Award Requirements

FINANCIAL AND PROGRAM MANAGEMENT

§ 19.20 Purpose of financial and program management.

Sections 19.21 through 19.28 prescribe standards for financial management systems, methods for making payments and rules for: satisfying cost sharing and matching requirements, accounting for program income, budget revision approvals, making audits, determining allowability of cost, and establishing fund availability.

§ 19.21 Standards for financial management systems.

(a) Federal awarding agencies shall require recipients to relate financial data to performance data and develop unit cost information whenever practical.

(b) Recipients' financial management systems shall provide for the following:

(1) Accurate, current and complete disclosure of the financial results of each federally-sponsored project or program in accordance with the reporting requirements set forth in §19.52. If a Federal awarding agency requires reporting on an accrual basis from a recipient that maintains its records on other than an accrual basis, the recipient shall not be required to establish an accrual accounting system. These recipients may develop such accrual data for its reports on the basis of an analysis of the documentation on hand.

(2) Records that identify adequately the source and application of funds for federally-sponsored activities. These records shall contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, outlays, income and interest.

(3) Effective control over and accountability for all funds, property and other assets. Recipients shall adequately safeguard all such assets and assure they are used solely for authorized purposes.

(4) Comparison of outlays with budget amounts for each award. Whenever appropriate, financial information should be related to performance and unit cost data.

(5) Written procedures to minimize the time elapsing between the transfer of funds to the recipient from the U.S. Treasury and the issuance or redemption of checks, warrants or payments by other means for program purposes by the recipient. To the extent that the provisions of the Cash Management Improvement Act (CMIA) (Pub. L. 101-453) govern, payment methods of State agencies, instrumentalities, and fiscal agents shall be consistent with CMIA Treasury-State Agreements or the CMIA default procedures codified at 31 CFR part 205, “Withdrawal of Cash from the Treasury for Advances under Federal Grant and Other Programs.”

(6) Written procedures for determining the reasonableness, allocability and allowability of costs in accordance with the provisions of the applicable Federal cost principles and the terms and conditions of the award.

(7) Accounting records including cost accounting records that are supported by source documentation.

(c) Where the Federal Government guarantees or insures the repayment of money borrowed by the recipient, the Federal awarding agency, at its discretion, may require adequate bonding and insurance if the bonding and insurance requirements of the recipient are not deemed adequate to protect the interest of the Federal Government.

(d) The Federal awarding agency may require adequate fidelity bond coverage where the recipient lacks sufficient coverage to protect the Federal Government’s interest.
§ 19.22 Payment.

(a) Payment methods shall minimize the time elapsing between the transfer of funds from the United States Treasury and the issuance or redemption of checks, warrants, or payment by other means by the recipients. Payment methods of State agencies or instrumentalities shall be consistent with Treasury-State CMIA agreements or default procedures codified at 31 CFR part 205.

(b)(1) Recipients are to be paid in advance, provided they maintain or demonstrate the willingness to maintain:
   (i) Written procedures that minimize the time elapsing between the transfer of funds and disbursement by the recipient, and
   (ii) Financial management systems that meet the standards for fund control and accountability as established in section §19.21.

(2) Cash advances to a recipient organization shall be limited to the minimum amounts needed and be timed to be in accordance with the actual, immediate cash requirements of the recipient organization in carrying out the purpose of the approved program or project. The timing and amount of cash advances shall be as close as is administratively feasible to the actual disbursements by the recipient organization for direct program or project costs and the proportionate share of any allowable indirect costs.

(c) Whenever possible, advances shall be consolidated to cover anticipated cash needs for all awards made by the Federal awarding agency to the recipient.

(1) Advance payment mechanisms include, but are not limited to, Treasury check and electronic funds transfer.

(2) Advance payment mechanisms are subject to 31 CFR part 205.

(3) Recipients shall be authorized to submit requests for advances and reimbursements at least monthly when electronic fund transfers are not used.

(d) Requests for Treasury check advance payment shall be submitted on SF-270, “Request for Advance or Reimbursement,” or other forms as may be authorized by OMB. This form is not to be used when Treasury check advance payments are made to the recipient automatically through the use of a predetermined payment schedule or if precluded by special Federal awarding agency instructions for electronic funds transfer.

(e) Reimbursement is the preferred method when the requirements in paragraph (b) cannot be met. Federal awarding agencies may also use this method on any construction agreement, or if the major portion of the construction project is accomplished through private market financing or Federal loans, and the Federal assistance constitutes a minor portion of the project.

(1) When the reimbursement method is used, the Federal awarding agency shall make payment within 30 days after receipt of the billing, unless the billing is improper.

(2) Recipients shall be authorized to submit request for reimbursement at least monthly when electronic funds transfers are not used.

(f) If a recipient cannot meet the criteria for advance payments and the Federal awarding agency has determined that reimbursement is not feasible because the recipient lacks sufficient working capital, the Federal awarding agency may provide cash on a working capital advance basis. Under this procedure, the Federal awarding agency shall advance cash to the recipient to cover its estimated disbursement needs for an initial period generally geared to the awardee’s disbursing cycle. Thereafter, the Federal awarding agency shall reimburse the recipient for its actual cash disbursements. The working capital advance method of payment shall not be used for recipients unwilling or unable to provide timely advances to their subrecipient to meet the subrecipient’s actual cash disbursements.

(g) To the extent available, recipients shall disburse funds available from repayments to and interest earned on a revolving fund, program income, rebates, refunds, contract settlements,
audit recoveries and interest earned on such funds before requesting additional cash payments.

(h) Unless otherwise required by statute, Federal awarding agencies shall not withhold payments for proper charges made by recipients at any time during the project period unless the conditions in paragraphs (h)(1) or (2) of this section apply.

(1) A recipient has failed to comply with the project objectives, the terms and conditions of the award, or Federal reporting requirements.

(2) The recipient or subrecipient is delinquent in a debt owed to the United States as defined in OMB Circular A-129, "Managing Federal Credit Programs." Under such conditions, the Federal awarding agency may, upon reasonable notice, inform the recipient that payments shall not be made for obligations incurred after a specified date until the conditions are corrected or the indebtedness to the Federal Government is liquidated.

(i) Standards governing the use of banks and other institutions as depositories of funds advanced under awards are as follows.

(1) Except for situations described in paragraph (i)(2) of this section, Federal awarding agencies shall not require separate depository accounts for funds provided to a recipient or establish any eligibility requirements for depositories for funds provided to a recipient. However, recipients must be able to account for the receipt, obligation and expenditure of funds.

(2) Advances of Federal funds shall be deposited and maintained in insured accounts whenever possible.

(j) Consistent with the national goal of expanding the opportunities for women-owned and minority-owned business enterprises, recipients shall be encouraged to use women-owned and minority-owned banks (a bank which is owned at least 50 percent by women or minority group members).

(k) Recipients shall maintain advances of Federal funds in interest bearing accounts, unless the conditions in paragraphs (k)(1), (2) or (3) of this section apply.

(1) The recipient receives less than $120,000 in Federal awards per year.

(2) The best reasonably available interest bearing account would not be expected to earn interest in excess of $250 per year on Federal cash balances.

(3) The depository would require an average or minimum balance so high that it would not be feasible within the expected Federal and non-Federal cash resources.

(l) For those entities where CMIA and its implementing regulations do not apply, interest earned on Federal advances deposited in interest bearing accounts shall be remitted annually to the Department of Health and Human Services, Payment Management System, P.O. Box 6021, Rockville, MD 20852. Interest amounts up to $250 per year may be retained by the recipient for administrative expense. In keeping with Electric Funds Transfer rules, (31 CFR part 206), interest should be remitted to the HHS Payment Management System through an electric medium such as the FEDWIRE Deposit system. Recipients which do not have this capability should use a check. State universities and hospitals shall comply with CMIA, as it pertains to interest. If an entity subject to CMIA uses its own funds to pay pre-award costs for discretionary awards without prior written approval from the Federal awarding agency, it waives its right to recover interest under CMIA.

(m) Except as noted elsewhere in this part, only the following forms shall be authorized for the recipients in requesting advances and reimbursements. Federal agencies shall not require more than an original and two copies of these forms.

(1) SF-270, Request for Advance or Reimbursement. Each Federal awarding agency shall adopt the SF-270 as a standard form for all nonconstruction programs when electronic funds transfer or predetermined advance methods are not used. Federal awarding agencies, however, have the option of using this form for construction programs in lieu of the SF-271, "Outlay Report and Request for Reimbursement for Construction Programs."

(2) SF-271, Outlay Report and Request for Reimbursement for Construction Programs. Each Federal awarding agency shall adopt the SF-271 as the standard form to be used for requesting
§ 19.23 Cost sharing or matching.

(a) All contributions, including cash and third party in-kind, shall be accepted as part of the recipient's cost sharing or matching when such contributions meet all of the following criteria:

1. Are verifiable from the recipient's records.
2. Are not included as contributions for any other federally-assisted project or program.
3. Are necessary and reasonable for proper and efficient accomplishment of project or program objectives.
4. Are allowable under the applicable cost principles.
5. Are not paid by the Federal Government under another award, except where authorized by Federal statute to be used for cost sharing or matching.
6. Are provided for in the approved budget when required by the Federal awarding agency.
7. Conform to other provisions of this part, as applicable.

(b) Unrecovered indirect costs may be included as part of cost sharing or matching only with the prior approval of the Federal awarding agency.

(c) Values for recipient contributions of services and property shall be established in accordance with the applicable cost principles. If a Federal awarding agency authorizes recipients to donate buildings or land for construction/facilities acquisition projects or long-term use, the value of the donated property for cost sharing or matching shall be the lesser of (1) or (2).

1. The certified value of the remaining life of the property recorded in the recipient's accounting records at the time of donation.
2. The current fair market value. However, when there is sufficient justification, the Federal awarding agency may approve the use of the current fair market value of the donated property, even if it exceeds the certified value at the time of donation to the project.

(d) Volunteer services furnished by professional and technical personnel, consultants, and other skilled and unskilled labor may be counted as cost sharing or matching if the service is an integral and necessary part of an approved project or program. Rates for volunteer services shall be consistent with those paid for similar work in the labor market in which the recipient competes for the kind of services involved. In those instances in which the required skills are not found in the recipient organization, rates shall be consistent with those paid for similar work in the labor market in which the recipient competes for the kind of services involved. In either case, paid fringe benefits that are reasonable, allowable, and allocable may be included in the valuation.

(e) When an employer other than the recipient furnishes the services of an employee, these services shall be valued at the employee's regular rate of pay (plus an amount of fringe benefits that are reasonable, allowable, and allocable, but exclusive of overhead costs), provided these services are in the same skill for which the employee is normally paid.

(f) Donated supplies may include such items as expendable equipment, office supplies, laboratory supplies or workshop and classroom supplies. Value assessed to donated supplies included in the cost sharing or matching share shall be reasonable and shall not exceed the fair market value of the property at the time of the donation.

(g) The method used for determining cost sharing or matching for donated equipment, buildings and land for which title passes to the recipient may differ according to the purpose of the award, if the conditions in paragraph (g)(1) or (2) of this section apply.

1. If the purpose of the award is to assist the recipient in the acquisition of equipment, buildings or land, the total value of the donated property may be claimed as cost sharing or matching.

2. If the purpose of the award is to support activities that require the use of equipment, buildings or land, normally only depreciation or use charges for equipment and buildings may be made. However, the full value of equipment or other capital assets and fair rental charges for land may be allowed.
provided that the Federal awarding agency has approved the charges.

(h) The value of donated property shall be determined in accordance with the usual accounting policies of the recipient, with the following qualifications.

(1) The value of donated land and buildings shall not exceed its fair market value at the time of donation to the recipient as established by an independent appraiser (e.g., certified real property appraiser or General Services Administration representative) and certified by a responsible official of the recipient.

(2) The value of donated equipment shall not exceed the fair market value of equipment of the same age and condition at the time of donation.

(3) The value of donated space shall not exceed the fair rental value of comparable space as established by an independent appraisal of comparable space and facilities in a privately-owned building in the same locality.

(4) The value of loaned equipment shall not exceed its fair rental value.

(5) The following requirements pertain to the recipient's supporting records for in-kind contributions from third parties.

(i) Volunteer services shall be documented and, to the extent feasible, supported by the same methods used by the recipient for its own employees.

(ii) The basis for determining the valuation for personal service, material, equipment, buildings and land shall be documented.

(iii) Section 18(e) of the Federal Transit Act, as amended, (49 U.S.C. app. 1614(e)) provides that the Federal share for operating assistance shall not exceed 50 percent of the net cost. At least 50 percent of the remainder (the local share) must be derived from sources other than Federal funds or revenues of the system; and up to half of the local share may be derived from other Federal funds. For purposes of determining local share for section 18 operating assistance, the term “Federal funds or revenues” does not include funds received pursuant to a service agreement with a State or local service agency or a private social service organization. Nonregulatory guidance is contained in FTA Circular 9040.1B, section 18 Program Guidance and Grant Application Instructions, Chapter III, section 7.

§ 19.24 Program income.

(a) Federal awarding agencies shall apply the standards set forth in this section in requiring recipient organizations to account for program income related to projects financed in whole or in part with Federal funds.

(b) Except as provided in paragraph (h) of this section, program income earned during the project period shall be retained by the recipient and, in accordance with Federal awarding agency regulations or the terms and conditions of the award, shall be used in one or more of the ways listed in the following.

(1) Added to funds committed to the project by the Federal awarding agency and recipient and used to further eligible project or program objectives.

(2) Used to finance the non-Federal share of the project or program.

(3) Deducted from the total project or program allowable cost in determining the net allowable costs on which the Federal share of costs is based.

(c) When an agency authorizes the disposition of program income as described in paragraph (b)(1) or (b)(2) of this section, program income in excess of any limits stipulated shall be used in accordance with paragraph (b)(3) of this section.

(d) In the event that the Federal awarding agency does not specify in its regulations or the terms and conditions of the award how program income is to be used, paragraph (b)(3) of this section shall apply automatically to all projects or programs except research. For awards that support research, paragraph (b)(1) of this section shall apply automatically unless the awarding agency indicates in the terms and conditions another alternative on the award or the recipient is subject to special award conditions, as indicated in §19.14.

(e) Unless Federal awarding agency regulations or the terms and conditions of the award provide otherwise, recipients shall have no obligation to the Federal Government regarding program income earned after the end of the project period.
§ 19.25 Revision of budget and program plans.

(a) The budget plan is the financial expression of the project or program as approved during the award process. It may include either the Federal and non-Federal share, or only the Federal share, depending upon Federal awarding agency requirements. It shall be related to performance for program evaluation purposes whenever appropriate.

(b) Recipients are required to report deviations from budget and program plans, and request prior approvals for budget and program plan revisions, in accordance with this section.

(c) For nonconstruction awards, recipients shall request prior approvals from Federal awarding agencies for one or more of the following program or budget related reasons.

(1) Change in the scope or the objective of the project or program (even if there is no associated budget revision requiring prior written approval).

(2) Change in a key person specified in the application or award document.

(3) The absence for more than three months, or a 25 percent reduction in time devoted to the project, by the approved project director or principal investigator.

(4) The need for additional Federal funding.

(5) The transfer of amounts budgeted for indirect costs to absorb increases in direct costs, or vice versa, if approval is required by the Federal awarding agency.

(7) The transfer of funds allotted for training allowances (direct payment to trainees) to other categories of expense.

(8) Unless described in the application and funded in the approved awards, the subaward, transfer or contracting out of any work under an award. This provision does not apply to
the purchase of supplies, material, equipment or general support services.

(d) No other prior approval requirements for specific items may be imposed unless a deviation has been approved by OMB.

(e) Except for requirements listed in paragraphs (c)(1) and (c)(4) of this section, Federal awarding agencies are authorized, at their option, to waive cost-related and administrative prior written approvals required by this part and OMB Circulars A-21 and A-122. Such waivers may include authorizing recipients to do any one or more of the following:

1. Incur pre-award costs 90 calendar days prior to award or more than 90 calendar days with the prior approval of the Federal awarding agency. All pre-award costs are incurred at the recipient’s risk (i.e., the Federal awarding agency is under no obligation to reimburse such costs if for any reason the recipient does not receive an award or if the award is less than anticipated and inadequate to cover such costs).

2. Initiate a one-time extension of the expiration date of the award of up to 12 months unless one or more of the following conditions apply. For one-time extensions, the recipient must notify the Federal awarding agency in writing with the supporting reasons and revised expiration date at least 10 days before the expiration date specified in the award. This one-time extension may not be exercised merely for the purpose of using unobligated balances.

(i) The terms and conditions of award prohibit the extension.

(ii) The extension requires additional Federal funds.

(iii) The extension involves any change in the approved objectives or scope of the project.

3. Carry forward unobligated balances to subsequent funding periods.

4. For awards that support research, unless the Federal awarding agency provides otherwise in the award or in the agency’s regulations, the prior approval requirements described in paragraph (e) of this section are automatically waived (i.e., recipients need not obtain such prior approvals) unless one of the conditions included in paragraph (e)(2) of this section applies.

(f) The Federal awarding agency may, at its option, restrict the transfer of funds among direct cost categories or programs, functions and activities for awards in which the Federal share of the project exceeds $100,000 and the cumulative amount of such transfers exceeds or is expected to exceed 10 percent of the total budget as last approved by the Federal awarding agency. No Federal awarding agency shall permit a transfer that would cause any Federal appropriation or part thereof to be used for purposes other than those consistent with the original intent of the appropriation.

(g) All other changes to nonconstruction budgets, except for the changes described in paragraph (j) of this section, do not require prior approval.

(h) For construction awards, recipients shall request prior written approval promptly from Federal awarding agencies for budget revisions whenever the conditions in paragraphs (h)(1), (2) or (3) of this section apply.

1. The revision results from changes in the scope or the objective of the project or program.

2. The need arises for additional Federal funds to complete the project.

3. A revision is desired which involves specific costs for which prior written approval requirements may be imposed consistent with applicable OMB cost principles listed in §19.27.

(i) No other prior approval requirements for specific items may be imposed unless a deviation has been approved by OMB.

(j) When a Federal awarding agency makes an award that provides support for both construction and nonconstruction work, the Federal awarding agency may require the recipient to request prior approval from the Federal awarding agency before making any fund or budget transfers between the two types of work supported.

(k) For both construction and nonconstruction awards, Federal awarding agencies shall require recipients to notify the Federal awarding agency in writing promptly whenever the amount of Federal authorized funds is expected to exceed the needs of the recipient for the project period by more than $5,000 or five percent of the Federal award, whichever is greater. This notification.
shall not be required if an application for additional funding is submitted for a continuation award.

(l) When requesting approval for budget revisions, recipients shall use the budget forms that were used in the application unless the Federal awarding agency indicates a letter of request suffices.

(m) Within 30 calendar days from the date of receipt of the request for budget revisions, Federal awarding agencies shall review the request and notify the recipient whether the budget revisions have been approved. If the revision is still under consideration at the end of 30 calendar days, the Federal awarding agency shall inform the recipient in writing of the date when the recipient may expect the decision.

§ 19.26 Non-Federal audits.

(a) Recipients and subrecipients that are institutions of higher education or other non-profit organizations (including hospitals) shall be subject to the audit requirements contained in the Single Audit Act Amendments of 1996 (31 U.S.C. 7501-7507) and revised OMB Circular A-133, “Cost Principles for State, Local Governments, and Non-Profit Organizations.”

(b) State and local governments shall be subject to the audit requirements contained in the Single Audit Act Amendments of 1996 (31 U.S.C. 7501-7507) and revised OMB Circular A-133, “Audits of States, Local Governments, and Non-Profit Organizations.”

(c) For-profit hospitals not covered by the audit provisions of revised OMB Circular A-133 shall be subject to the audit requirements of the Federal awarding agencies.

(d) Commercial organizations shall be subject to the audit requirements of the Federal awarding agency or the prime recipient as incorporated into the award document.

§ 19.27 Allowable costs.

For each kind of recipient, there is a set of Federal principles for determining allowable costs. Allowability of costs shall be determined in accordance with the cost principles applicable to the entity incurring the costs. Thus, allowable costs incurred by State, local or federally-recognized Indian tribal governments is determined in accordance with the provisions of OMB Circular A-87, “Cost Principles for State and Local Governments.” The allowability of costs incurred by non-profit organizations is determined in accordance with the provisions of OMB Circular A-122, “Cost Principles for Non-Profit Organizations.” The allowability of costs incurred by institutions of higher education is determined in accordance with the provisions of OMB Circular A-21, “Cost Principles for Educational Institutions.” The allowability of costs incurred by hospitals is determined in accordance with the provisions of Appendix E of 45 CFR part 74, “Principles for Determining Costs Applicable to Research and Development Under Grants and Contracts with Hospitals.” The allowability of costs incurred by commercial organizations and those non-profit organizations listed in Attachment C to Circular A-122 is determined in accordance with the provisions of the Federal Acquisition Regulation (FAR) at 48 CFR part 31.

§ 19.28 Period of availability of funds.

Where a funding period is specified, a recipient may charge to the grant only allowable costs resulting from obligations incurred during the funding period and any pre-award costs authorized by the Federal awarding agency.

Property Standards

§ 19.30 Purpose of property standards.

(a) Sections 19.31 through 19.37 set forth uniform standards governing management and disposition of property furnished by the Federal Government whose cost was charged to a project supported by a Federal award. Federal awarding agencies shall require recipients to observe these standards under awards and shall not impose additional requirements, unless specifically required by Federal statute. The recipient may use its own property management standards and procedures provided it observes the provisions of §§ 19.31 through 19.37.

(b) Transfer of capital assets. Section 12(k) of the Federal Transit Act, as amended, (49 U.S.C. app. 1608(k)) allows
the transfer without compensation of real property (including land) and equipment acquired under the Act for another public purpose under certain conditions. Procedures to allow these transfers have not been issued.

§ 19.31 Insurance coverage.

Recipients shall, at a minimum, provide the equivalent insurance coverage for real property and equipment acquired with Federal funds as provided to property owned by the recipient. Federally-owned property need not be insured unless required by the terms and conditions of the award.

§ 19.32 Real property.

Each Federal awarding agency shall prescribe requirements for recipients concerning the use and disposition of real property acquired in whole or in part under awards. Unless otherwise provided by statute, such requirements, at a minimum, shall contain the following.

(a) Title to real property shall vest in the recipient subject to the condition that the recipient shall use the real property for the authorized purpose of the project as long as it is needed and shall not encumber the property without approval of the Federal awarding agency.

(b) The recipient shall obtain written approval by the Federal awarding agency for the use of real property in other federally-sponsored projects when the recipient determines that the property is no longer needed for the purpose of the original project. Use in other projects shall be limited to those under federally-sponsored projects (i.e., awards) or programs that have purposes consistent with those authorized for support by the Department of Transportation.

(c) When the real property is no longer needed as provided in paragraphs (a) and (b) of this section, the recipient shall request disposition instructions from the Federal awarding agency or its successor Federal awarding agency. The Federal awarding agency shall observe one or more of the following disposition instructions.

(1) The recipient may be permitted to retain title without further obligation to the Federal Government after it compensates the Federal Government for that percentage of the current fair market value of the property attributable to the Federal participation in the project.

(2) The recipient may be directed to sell the property under guidelines provided by the Federal awarding agency and pay the Federal Government for that percentage of the current fair market value of the property attributable to the Federal participation in the project (after deducting actual and reasonable selling and fix-up expenses, if any, from the sales proceeds). When the recipient is authorized or required to sell the property, proper sales procedures shall be established that provide for competition to the extent practicable and result in the highest possible return.

(3) The recipient may be directed to transfer title to the property to the Federal Government or to an eligible third party provided that, in such cases, the recipient shall be entitled to compensation for its attributable percentage of the current fair market value of the property.

§ 19.33 Federally-owned and exempt property.

(a) Federally-owned property. (1) Title to federally-owned property remains vested in the Federal Government. Recipients shall submit annually an inventory listing of federally-owned property in their custody to the Federal awarding agency. Upon completion of the award or when the property is no longer needed, the recipient shall report the property to the Federal awarding agency for further Federal agency utilization.

(2) If the Federal awarding agency has no further need for the property, it shall be declared excess and reported to the General Services Administration, unless the Federal awarding agency has statutory authority to dispose of the property by alternative methods (e.g., the authority provided by the Federal Technology Transfer Act (15 U.S.C. 3710(i)) to donate research equipment to educational and non-profit organizations in accordance with E.O. 12821, “Improving Mathematics and Science Education in Support of the
§ 19.34 National Education Goals. Appropriate instructions shall be issued to the recipient by the Federal awarding agency.

(b) Exempt property. When statutory authority exists, the Federal awarding agency has the option to vest title to property acquired with Federal funds in the recipient without further obligation to the Federal Government and under conditions the Federal awarding agency considers appropriate. Such property is “exempt property.” Should a Federal awarding agency not establish conditions, title to exempt property upon acquisition shall vest in the recipient without further obligation to the Federal Government.

§ 19.34 Equipment.

(a) Title to equipment acquired by a recipient with Federal funds shall vest in the recipient, subject to conditions of this section.

(b) The recipient shall not use equipment acquired with Federal funds to provide services to non-Federal outside organizations for a fee that is less than private companies charge for equivalent services, unless specifically authorized by Federal statute, for as long as the Federal Government retains an interest in the equipment.

(c) The recipient shall use the equipment in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds and shall not encumber the property without approval of the Federal awarding agency. When no longer needed for the original project or program, the recipient shall use the equipment in connection with its other federally-sponsored activities, in the following order of priority:

(1) Activities sponsored by the Federal awarding agency which funded the original project, then

(2) Activities sponsored by other Federal awarding agencies.

(d) The recipient shall make it available for use on other projects or programs if such other use will not interfere with the work on the project or program for which the equipment was originally acquired. First preference for such other use shall be given to other projects or programs sponsored by the Federal awarding agency that financed the equipment; second preference shall be given to projects or programs sponsored by other Federal awarding agencies. If the equipment is owned by the Federal Government, use on other activities not sponsored by the Federal Government shall be permissible if authorized by the Federal awarding agency. User charges shall be treated as program income.

(e) When acquiring replacement equipment, the recipient may use the equipment to be replaced as trade-in or sell the equipment and use the proceeds to offset the costs of the replacement equipment subject to the approval of the Federal awarding agency.

(f) The recipient’s property management standards for equipment acquired with Federal funds and federally-owned equipment shall include all of the following.

(1) Equipment records shall be maintained accurately and shall include the following information.

(i) A description of the equipment.

(ii) Manufacturer’s serial number, model number, Federal stock number, national stock number, or other identification number.

(iii) Source of the equipment, including the award number.

(iv) Whether title vests in the recipient or the Federal Government.

(v) Acquisition date (or date received, if the equipment was furnished by the Federal Government) and cost.

(vi) Information from which one can calculate the percentage of Federal participation in the cost of the equipment (not applicable to equipment furnished by the Federal Government).

(vii) Location and condition of the equipment and the date the information was reported.

(viii) Unit acquisition cost.

(ix) Ultimate disposition data, including date of disposal and sales price or the method used to determine current fair market value where a recipient compensates the Federal awarding agency for its share.

(2) Equipment owned by the Federal Government shall be identified to indicate Federal ownership.
Office of the Secretary of Transportation  § 19.34

(3) A physical inventory of equipment shall be taken and the results reconciled with the equipment records at least once every two years. Any differences between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the difference. The recipient shall, in connection with the inventory, verify the existence, current utilization, and continued need for the equipment.

(4) A control system shall be in effect to insure adequate safeguards to prevent loss, damage, or theft of the equipment. Any loss, damage, or theft of equipment shall be investigated and fully documented; if the equipment was owned by the Federal Government, the recipient shall promptly notify the Federal awarding agency.

(5) Adequate maintenance procedures shall be implemented to keep the equipment in good condition.

(6) Where the recipient is authorized or required to sell the equipment, proper sales procedures shall be established which provide for competition to the extent practicable and result in the highest possible return.

(g) When the recipient no longer needs the equipment, the equipment may be used for other activities in accordance with the following standards. For equipment with a current per unit fair market value of $5,000 or more, the recipient may retain the equipment for other uses provided that compensation is made to the original Federal awarding agency or its successor. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original project or program to the current fair market value of the equipment. If the recipient has no need for the equipment, the recipient shall request disposition instructions from the Federal awarding agency. The Federal awarding agency shall determine whether the equipment can be used to meet the agency’s requirements. If no requirement exists within that agency, the availability of the equipment shall be reported to the General Services Administration by the Federal awarding agency to determine whether a requirement for the equipment exists in other Federal agencies. The Federal awarding agency shall issue instructions to the recipient no later than 120 calendar days after the recipient’s request and the following procedures shall govern.

(1) If so instructed or if disposition instructions are not issued within 120 calendar days after the recipient’s request, the recipient shall sell the equipment and reimburse the Federal awarding agency an amount computed by applying to the sales proceeds the percentage of Federal participation in the cost of the original project or program. However, the recipient shall be permitted to deduct and retain from the Federal share $500 or ten percent of the proceeds, whichever is less, for the recipient’s selling and handling expenses.

(2) If the recipient is instructed to ship the equipment elsewhere, the recipient shall be reimbursed by the Federal Government by an amount which is computed by applying the percentage of the recipient’s participation in the cost of the original project or program to the current fair market value of the equipment, plus any reasonable shipping or interim storage costs incurred.

(3) If the recipient is instructed to otherwise dispose of the equipment, the recipient shall be reimbursed by the Federal awarding agency for such costs incurred in its disposition.

(4) The Federal awarding agency may reserve the right to transfer the title to the Federal Government or to a third party named by the Federal Government when such third party is otherwise eligible under existing statutes. Such transfer shall be subject to the following standards.

(i) The equipment shall be appropriately identified in the award or otherwise made known to the recipient in writing.

(ii) The Federal awarding agency shall issue disposition instructions within 120 calendar days after receipt of a final inventory. The final inventory shall list all equipment acquired with grant funds and federally-owned equipment. If the Federal awarding agency fails to issue disposition instructions within the 120 calendar day period, the recipient shall apply the
§ 19.35 Supplies and other expendable property.

(a) Title to supplies and other expendable property shall vest in the recipient upon acquisition. If there is a residual inventory of unused supplies exceeding $5000 in total aggregate value upon termination or completion of the project or program and the supplies are not needed for any other federally-sponsored project or program, the recipient shall retain the supplies for use on non-Federal sponsored activities or sell them, but shall, in either case, compensate the Federal Government for its share. The amount of compensation shall be computed in the same manner as for equipment.

(b) The recipient shall not use supplies acquired with Federal funds to provide services to non-Federal outside organizations for a fee that is less than private companies charge for equivalent services, unless specifically authorized by Federal statute as long as the Federal Government retains an interest in the supplies.

§ 19.36 Intangible property.

(a) The recipient may copyright any work that is subject to copyright and was developed, or for which ownership was purchased, under an award. The Federal awarding agency(ies) reserve a royalty-free, nonexclusive and irrevocable right to reproduce, publish, or otherwise use the work for Federal purposes, and to authorize others to do so.

(b) Recipients are subject to applicable regulations governing patents and inventions, including government-wide regulations issued by the Department of Commerce at 37 CFR part 401, “Rights to Inventions Made by Non-profit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements.”

(c) Unless waived by the Federal awarding agency, the Federal Government has the right to the following:

1. Obtain, reproduce, publish or otherwise use the data first produced under an award.

2. Authorize others to receive, reproduce, publish, or otherwise use such data for Federal purposes.

3. Title to intangible property and debt instruments acquired under an award or subaward vests upon acquisition in the recipient. The recipient shall use that property for the originally-authorized purpose, and the recipient shall not encumber the property without approval of the Federal awarding agency. When no longer needed for the originally authorized purpose, disposition of the intangible property shall occur in accordance with the provisions of paragraph § 19.34(g).

§ 19.37 Property trust relationship.

Real property, equipment, intangible property and debt instruments that are acquired or improved with Federal funds shall be held in trust by the recipient as trustee for the beneficiaries of the project or program under which the property was acquired or improved. Agencies may require recipients to record liens or other appropriate notices of record to indicate that personal or real property has been acquired or improved with Federal funds and that use and disposition conditions apply to the property.

§ 19.40 Purpose of procurement standards.

Sections 19.41 through 19.48 set forth standards for use by recipients in establishing procedures for the procurement of supplies and other expendable property, equipment, real property and other services with Federal funds. These standards are furnished to ensure that such materials and services are obtained in an effective manner and in compliance with the provisions of applicable Federal statutes and executive orders. No additional procurement standards or requirements shall be imposed by the Federal awarding agencies upon recipients, unless specifically required by Federal statute or executive order or approved by OMB.
§ 19.41 Recipient responsibilities.
The standards contained in this section do not relieve the recipient of the contractual responsibilities arising under its contract(s). The recipient is the responsible authority, without recourse to the Federal awarding agency, regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in support of an award or other agreement. This includes disputes, claims, protests of award, source evaluation or other matters of a contractual nature. Matters concerning violation of statute are to be referred to such Federal, State or local authority as may have proper jurisdiction.

§ 19.42 Codes of conduct.
The recipient shall maintain written standards of conduct governing the performance of its employees engaged in the award and administration of contracts. No employee, officer, or agent shall participate in the selection, award, or administration of a contract supported by Federal funds if a real or apparent conflict of interest would be involved. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in the firm selected for an award. The officers, employees, and agents of the recipient shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors, or parties to subagreements. However, recipients may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value. The standards of conduct shall provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the recipient.

§ 19.43 Competition.
All procurement transactions shall be conducted in a manner to provide, to the maximum extent practical, open and free competition. The recipient shall be alert to organizational conflicts of interest as well as noncompetitive practices among contractors that may restrict or eliminate competition or otherwise restrain trade. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, invitations for bids and/or requests for proposals shall be excluded from competing for such procurements. Awards shall be made to the bidder or offeror whose bid or offer is responsive to the solicitation and is most advantageous to the recipient, price, quality and other factors considered. Solicitations shall clearly set forth all requirements that the bidder or offeror shall fulfill in order for the bid or offer to be evaluated by the recipient. Any and all bids or offers may be rejected when it is in the recipient’s interest to do so.

§ 19.44 Procurement procedures.
(a) All recipients shall establish written procurement procedures. These procedures shall provide for, at a minimum, that the conditions in paragraphs (a)(1), (2) and (3) of this section apply.

(1) Recipients avoid purchasing unnecessary items.

(2) Where appropriate, an analysis is made of lease and purchase alternatives to determine which would be the most economical and practical procurement for the Federal Government.

(3) Solicitations for goods and services provide for all of the following:

(i) A clear and accurate description of the technical requirements for the material, product or service to be procured. In competitive procurements, such a description shall not contain features which unduly restrict competition.

(ii) Requirements which the bidder/offeror must fulfill and all other factors to be used in evaluating bids or proposals.

(iii) A description, whenever practicable, of technical requirements in terms of functions to be performed or performance required, including the range of acceptable characteristics or minimum acceptable standards.
§ 19.44

164

49 CFR Subtitle A (10-1-98 Edition)

(iv) The specific features of “brand name or equal” descriptions that bidders are required to meet when such items are included in the solicitation.

(v) The acceptance, to the extent practicable and economically feasible, of products and services dimensioned in the metric system of measurement.

(vi) Preference, to the extent practicable and economically feasible, for products and services that conserve natural resources and protect the environment and are energy efficient.

(b) Positive efforts shall be made by recipients to utilize small businesses, minority-owned firms, and women's business enterprises, whenever possible. Recipients of Federal awards shall take all of the following steps to further this goal.

(1) Ensure that small businesses, minority-owned firms, and women's business enterprises are used to the fullest extent practicable.

(2) Make information on forthcoming opportunities available and arrange timeframes for purchases and contracts to encourage and facilitate participation by small businesses, minority-owned firms, and women's business enterprises.

(3) Consider in the contract process whether firms competing for larger contracts intend to subcontract with small businesses, minority-owned firms, and women's business enterprises.

(4) Encourage contracting with consortia of small businesses, minority-owned firms and women's business enterprises when a contract is too large for one of these firms to handle individually.

(5) Use the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Department of Commerce's Minority Business Development Agency in the solicitation and utilization of small businesses, minority-owned firms, and women's business enterprises.

(c) The type of procuring instruments used (e.g., fixed price contracts, cost reimbursable contracts, purchase orders, and incentive contracts) shall be determined by the recipient but shall be appropriate for the particular procurement and for promoting the best interest of the program or project involved. The “cost-plus-a-percentage-of-cost” or “percentage of construction cost” methods of contracting shall not be used.

(d) Contracts shall be made only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of the proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and technical resources or accessibility to other necessary resources. In certain circumstances, contracts with certain parties are restricted by 49 CFR part 29, the implementation of E.O.'s 12549 and 12689, “Debarment and Suspension.”

(e) Recipients shall, on request, make available for the Federal awarding agency, pre-award review and procurement documents, such as request for proposals or invitations for bids, independent cost estimates, etc., when any of the following conditions apply:

(1) A recipient's procurement procedures or operation fails to comply with the procurement standards in this part.

(2) The procurement is expected to exceed the small purchase threshold fixed at 41 U.S.C. 403 (11) (currently $25,000) and is to be awarded without competition or only one bid or offer is received in response to a solicitation.

(3) The procurement, which is expected to exceed the small purchase threshold, specifies a “brand name” product.

(4) The proposed award over the small purchase threshold is to be awarded to other than the apparent low bidder under a sealed bid procurement.

(5) A proposed contract modification changes the scope of a contract or increases the contract amount by more than the amount of the small purchase threshold.

(f) Additional procurement procedures.

(1) Section 165 of the STAA of 1982, as amended; section 337 of the Surface Transportation and Uniform Relocation Assistance Act (STURAA) of 1987, 49 U.S.C. 1601, section 1048 of the Intermodal Surface Transportation Efficiency Act of 1991, and section 9129 of
Office of the Secretary of Transportation

§ 19.48 Contract provisions.

The recipient shall include, in addition to provisions to define a sound and complete agreement, the following provisions in all contracts. The following provisions shall also be applied to subcontracts.

(a) Contracts in excess of the small purchase threshold shall contain contractual provisions or conditions that allow for administrative, contractual, or legal remedies in instances in which a contractor violates or breaches the contract terms, and provide for such remedial actions as may be appropriate.

(b) All contracts in excess of the small purchase threshold shall contain suitable provisions for termination by the recipient, including the manner by which termination shall be effected and the basis for settlement. In addition, such contracts shall describe conditions under which the contract may

§ 19.46 Procurement records.

Procurement records and files for purchases in excess of the small purchase threshold shall include the following at a minimum:

(a) Basis for contractor selection,
(b) Justification for lack of competition when competitive bids or offers are not obtained, and
(c) Basis for award cost or price.

§ 19.47 Contract administration.

A system for contract administration shall be maintained to ensure contractor conformance with the terms, conditions and specifications of the contract and to ensure adequate and timely follow-up of all purchases. Recipients shall evaluate contractor performance and document, as appropriate, whether contractors have met the terms, conditions, and specifications of the contract.

§ 19.48 Contract provisions.

Some form of cost or price analysis shall be made and documented in the procurement files in connection with every procurement action. Price analysis may be accomplished in various ways, including the comparison of price quotations submitted, market prices and similar indicia, together with discounts. Cost analysis is the review and evaluation of each element of cost to determine reasonableness, allocability and allowability.
§ 19.50 Purpose of reports and records.

Sections 19.51 through 19.53 set forth the procedures for monitoring and reporting on the recipient's financial and program performance and the necessary standard reporting forms. They also set forth record retention requirements.

§ 19.51 Monitoring and reporting program performance.

(a) Recipients are responsible for managing and monitoring each project, program, subaward, function or activity supported by the award. Recipients shall monitor subawards to ensure subrecipients have met the audit requirements as delineated in § 19.26.

(b) The Federal awarding agency shall prescribe the frequency with which the performance reports shall be submitted. Except as provided in § 19.51(f), performance reports shall not be required more frequently than quarterly or, less frequently than annually. Annual reports shall be due 90 calendar days after the grant year; quarterly or semi-annual reports shall be due 30 days after the reporting period. The Federal awarding agency may require annual reports before the anniversary dates of multiple year awards in lieu of these requirements. The final performance reports are due 90 calendar days after the expiration or termination of the award.

(c) If inappropriate, a final technical or performance report shall not be required after completion of the project.
(d) When required, performance reports shall generally contain, for each award, brief information on each of the following:

1. A comparison of actual accomplishments with the goals and objectives established for the period, the findings of the investigator, or both. Whenever appropriate and the output of programs or projects can be readily quantified, such quantitative data should be related to cost data for computation of unit costs.

2. Reasons why established goals were not met, if appropriate.

3. Other pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

(e) Recipients shall not be required to submit more than the original and two copies of performance reports.

(f) Recipients shall immediately notify the Federal awarding agency of developments that have a significant impact on the award-supported activities. Also, notification shall be given in the case of problems, delays, or adverse conditions which materially impair the ability to meet the objectives of the award. This notification shall include a statement of the action taken or contemplated, and any assistance needed to resolve the situation.

(g) Federal awarding agencies may make site visits, as needed.

(h) Federal awarding agencies shall comply with clearance requirements of 5 CFR part 1320 when requesting performance data from recipients.

§ 19.52 Financial reporting.

(a) The following forms or such other forms as may be approved by OMB are authorized for obtaining financial information from recipients.

1. SF-269 or SF-269A, Financial Status Report.

(i) Each Federal awarding agency shall require recipients to use the SF-269 or SF-269A to report the status of funds for all nonconstruction projects or programs. Each Federal awarding agency may, however, have the option of not requiring the SF-269 or SF-269A when the SF-270, Request for Advance or Reimbursement, or SF-272, Report of Federal Cash Transactions, is determined to provide adequate information to meet its needs, except that a final SF-269 or SF-269A shall be required at the completion of the project when the SF-270 is used only for advances.

(ii) The Federal awarding agency shall prescribe whether the report shall be on a cash or accrual basis. If the Federal awarding agency requires accrual information and the recipient’s accounting records are not normally kept on the accrual basis, the recipient shall not be required to convert its accounting system, but shall develop such accrual information through best estimates based on an analysis of the documentation on hand.

(iii) The Federal awarding agency shall determine the frequency of the Financial Status Report for each project or program, considering the size and complexity of the particular project or program. However, the report shall not be required more frequently than quarterly or less frequently than annually. A final report shall be required at the completion of the agreement.

(iv) The Federal awarding agency shall require recipients to submit the SF-269 or SF-269A (an original and no more than two copies) no later than 30 days after the end of each specified reporting period for quarterly and semiannual reports, and 90 calendar days for annual and final reports. Extensions of reporting due dates may be approved by the Federal awarding agency upon request of the recipient.

(i) When funds are advanced to recipients, the Federal awarding agency shall require each recipient to submit the SF-272 and, when necessary, its continuation sheet, SF-272a. The Federal awarding agency shall use this report to monitor cash advanced to recipients and to obtain disbursement information for each agreement with the recipients.

(ii) Federal awarding agencies may require forecasts of Federal cash requirements in the “Remarks” section of the report.

(iii) When practical and deemed necessary, Federal awarding agencies may require recipients to report in the “Remarks” section the amount of cash advances received in excess of three days.
§ 19.53

Recipients shall provide short narrative explanations of actions taken to reduce the excess balances.

(iv) Recipients shall be required to submit not more than the original and two copies of the SF-272 15 calendar days following the end of each quarter. The Federal awarding agencies may require a monthly report from those recipients receiving advances totaling $1 million or more per year.

(v) Federal awarding agencies may waive the requirement for submission of the SF-272 for any one of the following reasons:

(A) When monthly advances do not exceed $25,000 per recipient, provided that such advances are monitored through other forms contained in this section;

(B) If, in the Federal awarding agency’s opinion, the recipient’s accounting controls are adequate to minimize excessive Federal advances; or,

(C) When the electronic payment mechanisms provide adequate data.

(b) When the Federal awarding agency needs additional information or more frequent reports, the following shall be observed.

(1) When additional information is needed to comply with legislative requirements, Federal awarding agencies shall issue instructions to require recipients to submit such information under the ‘Remarks’ section of the reports.

(2) When a Federal awarding agency determines that a recipient’s accounting system does not meet the standards in § 19.21, additional pertinent information to further monitor awards may be obtained upon written notice to the recipient until such time as the system is brought up to standard. The Federal awarding agency, in obtaining this information, shall comply with report clearance requirements of 5 CFR part 1320.

(3) Federal awarding agencies are encouraged to shade out any line item on any report if not necessary.

(4) Federal awarding agencies may accept the identical information from the recipients in machine readable format or computer printouts or electronic outputs in lieu of prescribed formats.

(5) Federal awarding agencies may provide computer or electronic outputs to recipients when such expedites or contributes to the accuracy of reporting.

§ 19.53 Retention and access requirements for records.

(a) This section sets forth requirements for record retention and access to records for awards to recipients. Federal awarding agencies shall not impose any other record retention or access requirements upon recipients.

(b) Financial records, supporting documents, statistical records, and all other records pertinent to an award shall be retained for a period of three years from the date of submission of the final expenditure report or, for awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report, as authorized by the Federal awarding agency. The only exceptions are the following.

(1) If any litigation, claim, or audit is started before the expiration of the 3-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved and final action taken.

(2) Records for real property and equipment acquired with Federal funds shall be retained for 3 years after final disposition.

(3) When records are transferred to or maintained by the Federal awarding agency, the 3-year retention requirement is not applicable to the recipient.

(4) Indirect cost rate proposals, cost allocations plans, etc. as specified in paragraph § 19.53(g).

(c) Copies of original records may be substituted for the original records if authorized by the Federal awarding agency.

(d) The Federal awarding agency shall request transfer of certain records to its custody from recipients when it determines that the records possess long term retention value. However, in order to avoid duplicate recordkeeping, a Federal awarding agency may make arrangements for recipients to retain any records that are continuously needed for joint use.
(e) The Federal awarding agency, the Inspector General, Comptroller General of the United States, or any of their duly authorized representatives, have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to the awards, in order to make audits, examinations, excerpts, transcripts and copies of such documents. This right also includes timely and reasonable access to a recipient's personnel for the purpose of interview and discussion related to such documents. The rights of access in this paragraph are not limited to the required retention period, but shall last as long as records are retained.

(f) Unless required by statute, no Federal awarding agency shall place restrictions on recipients that limit public access to the records of recipients that are pertinent to an award, except when the Federal awarding agency can demonstrate that such records shall be kept confidential and would have been exempted from disclosure pursuant to the Freedom of Information Act (5 U.S.C. 552) if the records had belonged to the Federal awarding agency.

(g) Indirect cost rate proposals, cost allocations plans, etc. Paragraphs (g)(1) and (g)(2) of this section apply to the following types of documents, and their supporting records: Indirect cost rate computations or proposals, cost allocation plans, and any similar accounting computations of the rate at which a particular group of costs is chargeable (such as computer usage chargeback rates or composite fringe benefit rates).

(1) If submitted for negotiation. If the recipient submits to the Federal awarding agency or the subrecipient submits to the recipient the proposal, plan, or other computation to form the basis for negotiation of the rate, then the 3-year retention period for its supporting records starts at the end of the fiscal year (or other accounting period) covered by the proposal, plan, or other computation.

Termination and Enforcement

§ 19.60 Purpose of termination and enforcement.

Sections 19.61 and 19.62 set forth uniform suspension, termination and enforcement procedures.

§ 19.61 Termination.

(a) Awards may be terminated in whole or in part only if the conditions in paragraph (a) (1), (2), or (3) of this section apply.

(1) By the Federal awarding agency, if a recipient materially fails to comply with the terms and conditions of an award.

(2) By the Federal awarding agency with the consent of the recipient, in which case the two parties shall agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated.

(3) By the recipient upon sending to the Federal awarding agency written notification setting forth the reasons for such termination, the effective date, and, in the case of partial termination, the portion to be terminated.

(b) If costs are allowed under an award, the responsibilities of the recipient referred to in §19.71(a), including those for property management as applicable, shall be considered in the termination of the award, and provision shall be made for continuing responsibilities of the recipient after termination, as appropriate.
§ 19.70

with the terms and conditions of an award, whether stated in a Federal statute, regulation, assurance, application, or notice of award, the Federal awarding agency may, in addition to imposing any of the special conditions outlined in § 19.14, take one or more of the following actions, as appropriate in the circumstances.

(1) Temporarily withhold cash payments pending correction of the deficiency by the recipient or more severe enforcement action by the Federal awarding agency.

(2) Disallow (that is, deny both use of funds and any applicable matching credit for) all or part of the cost of the activity or action not in compliance.

(3) Wholly or partly suspend or terminate the current award.

(4) Withhold further awards for the project or program.

(5) Take other remedies that may be legally available.

(b) Hearings and appeals. In taking an enforcement action, the awarding agency shall provide the recipient an opportunity for hearing, appeal, or other administrative proceeding to which the recipient is entitled under any statute or regulation applicable to the action involved.

(c) Effects of suspension and termination. Costs of a recipient resulting from obligations incurred by the recipient during a suspension or after termination of an award are not allowable unless the awarding agency expressly authorizes them in the notice of suspension or termination or subsequently. Other recipient costs during suspension or after termination which are necessary and not reasonably avoidable are allowable if the conditions in paragraph (c) (1) or (2) of this section apply.

(1) The costs result from obligations which were properly incurred by the recipient before the effective date of suspension or termination, are not in anticipation of it, and in the case of a termination, are noncancellable.

(2) The costs would be allowable if the award were not suspended or expired normally at the end of the funding period in which the termination takes effect.

(d) Relationship to debarment and suspension. The enforcement remedies identified in this section, including suspension and termination, do not preclude a recipient from being subject to debarment and suspension under E.O.s 12549 and 12689 and 49 CFR part 29 (see § 19.13).

Subpart D—After-the-Award Requirements

§ 19.70 Purpose.

Sections 19.71 through 19.73 contain closeout procedures and other procedures for subsequent disallowances and adjustments.

§ 19.71 Closeout procedures.

(a) Recipients shall submit, within 90 calendar days after the date of completion of the award, all financial, performance, and other reports as required by the terms and conditions of the award. The Federal awarding agency may approve extensions when requested by the recipient.

(b) Unless the Federal awarding agency authorizes an extension, a recipient shall liquidate all obligations incurred under the award not later than 90 calendar days after the funding period or the date of completion as specified in the terms and conditions of the award or in agency implementing instructions.

(c) The Federal awarding agency shall make prompt payments to a recipient for allowable reimbursable costs under the award being closed out.

(d) The recipient shall promptly refund any balances of unobligated cash that the Federal awarding agency has advanced or paid and that is not authorized to be retained by the recipient for use in other projects. OMB Circular A–129 governs unreturned amounts that become delinquent debts.

(e) When authorized by the terms and conditions of the award, the Federal awarding agency shall make a settlement for any upward or downward adjustments to the Federal share of costs after closeout reports are received.

(f) The recipient shall account for any real and personal property acquired with Federal funds or received from the Federal Government in accordance with §§ 19.31 through 19.37.

(g) In the event a final audit has not been performed prior to the closeout of
Office of the Secretary of Transportation

an award, the Federal awarding agency shall retain the right to recover an appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

§ 19.72 Subsequent adjustments and continuing responsibilities.

(a) The closeout of an award does not affect any of the following.

2. Cope Land “Anti-Kickback” Act (18 U.S.C. 874 and 40 U.S.C. 276c)—All contracts and subcontracts in excess of $2,000 for construction or repair awarded by recipients and subrecipients shall include a provision for compliance with the Cope Land “Anti-Kickback” Act (18 U.S.C. 874), as supplemented by Department of Labor regulations (29 CFR part 3, “Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in part by Loans or Grants from the United States”). The Act provides that each contractor or subrecipient shall be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he is otherwise entitled. The recipient shall report all suspected or reported violations to the Federal awarding agency.

3. Davis-Bacon Act, as amended (40 U.S.C. 276a to a-7)—When required by Federal program legislation, all construction contracts awarded by the recipients and subrecipients of more than $2000 shall include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 276a to a(7) and as supplemented by Department of Labor regulations (29 CFR part 3, “Labor Standards Provisions Applicable to Contracts Governing Federally Financed and Assisted Construction”). Under this Act, contractors shall be required to pay wages to laborers and mechanics at a rate not less than the minimum wages specified in a wage determination made by the Secretary of Labor. In addition, contractors shall be required to pay wages not less than once a week. The recipient shall place a copy of the current prevailing wage determination made by the Department of Labor in each solicitation and the award of a contract shall be conditioned upon the acceptance of the wage determination. The recipient shall report all suspected or reported violations to the Federal awarding agency.

4. Contract Work Hours and Safety Standards Act (40 U.S.C. 327–332)—Where applicable, all contracts awarded by recipients in excess of...
$2,000 for construction contracts and in excess of $2,500 for other contracts that involve the employment of mechanics or laborers shall include a provision for compliance with sections 102 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333), as supplemented by Department of Labor regulations (29 CFR part 5). Under section 102 of the Act each contractor shall be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than 1 1/2 times the basic rate of pay for hours worked in excess of 40 hours in the work week. Section 107 of the Act is applicable to construction work and provides that no laborer or mechanic shall be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

5. Rights to Inventions Made Under a Contract or Agreement—Contracts or agreements for the performance of experimental, developmental, or research work shall provide for the rights of the Federal Government and the recipient in any resulting invention in accordance with 37 CFR part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency.

6. Clean Air Act (42 U.S.C. 7401 et seq.) and the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.), as amended—Contracts and subgrants of amounts in excess of $100,000 shall contain a provision that requires the recipient to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401 et seq.) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251 et seq.). Violations shall be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

8. Debarment and Suspension (E.O.s 12549 and 12689)—No contract shall be made to parties listed on the General Services Administration’s List of Parties Excluded from Federal Procurement or Nonprocurement Programs in accordance with E.O.s 12549 and 12689, “Debarment and Suspension” and 49 CFR part 29. This list contains the names of parties debarred, suspended, or otherwise excluded by agencies, and contractors declared ineligible under statutory or regulatory authority other than E.O. 12549. Contractors with awards that exceed the small purchase threshold shall provide the required certification regarding its exclusion status and that of its principal employees.

PART 20—NEW RESTRICTIONS ON LOBBYING

Subpart A—General

Sec. 20.100 Conditions on use of funds.
20.105 Definitions.
20.110 Certification and disclosure.

Subpart B—Activities by Own Employees

20.200 Agency and legislative liaison.
20.205 Professional and technical services.
20.210 Reporting.

Subpart C—Activities by Other than Own Employees

20.300 Professional and technical services.

Subpart D—Penalties and Enforcement

20.400 Penalties.
20.405 Penalty procedures.
20.410 Enforcement.

Subpart E—Exemptions

20.500 Secretary of Defense.

Subpart F—Agency Reports

20.600 Semi-annual compilation.
20.605 Inspector General report.

APPENDIX A TO PART 20—CERTIFICATION REGARDING LOBBYING

APPENDIX B TO PART 20—DISCLOSURE FORM TO REPORT LOBBYING

SOURCE: 55 FR 6737 and 6756, Feb. 26, 1990, unless otherwise noted.
Subpart A—General

§ 20.100 Conditions on use of funds.

(a) No appropriated funds may be expended by the recipient of a Federal contract, grant, loan, or cooperative agreement to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of Congress in connection with any of the following covered Federal actions: the awarding of any Federal contract, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(b) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

(c) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a disclosure form, set forth in appendix A, if such person has made or has agreed to make any payment using nonappropriated funds (to include profits from any covered Federal action), which would be prohibited under paragraph (a) of this section.

§ 20.105 Definitions.

For purposes of this part:

(a) Agency, as defined in 5 U.S.C. 552(f), includes Federal executive departments and agencies as well as independent regulatory commissions and Government corporations, as defined in 31 U.S.C. 9101(1).

(b) Covered Federal action means any of the following Federal actions:

(1) The awarding of any Federal contract;
(2) The making of any Federal grant;
(3) The making of any Federal loan;
(4) The entering into of any cooperative agreement; and,
(5) The extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

Covered Federal action does not include receiving from an agency a commitment providing for the United States to insure or guarantee a loan. Loan guarantees and loan insurance are addressed independently within this part.

(c) Federal contract means an acquisition contract awarded by an agency, including those subject to the Federal Acquisition Regulation (FAR), and any other acquisition contract for real or personal property or services not subject to the FAR.

(d) Federal cooperative agreement means a cooperative agreement entered into by an agency.

(e) Each person who requests or receives from an agency a commitment providing for the United States to insure or guarantee a loan shall file with that agency a disclosure form, set forth in appendix B, if that person has made or has agreed to make any payment to influence or attempt to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with that loan insurance or guarantee.
appropriation made by law to any person. The term does not include technical assistance which provides services instead of money, or other assistance in the form of revenue sharing, loans, loan guarantees, loan insurance, interest subsidies, insurance, or direct United States cash assistance to an individual.

(f) Federal loan means a loan made by an agency. The term does not include loan guarantee or loan insurance.

(g) Indian tribe and tribal organization have the meaning provided in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b). Alaskan Natives are included under the definitions of Indian tribes in that Act.

(h) Influencing or attempting to influence means making, with the intent to influence, any communication to or appearance before an officer or employee or any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any covered Federal action.

(i) Loan guarantee and loan insurance means an agency’s guarantee or insurance of a loan made by a person.

(j) Local government means a unit of government in a State and, if chartered, established, or otherwise recognized by a State for the performance of a governmental duty, including a local public authority, a special district, an intrastate district, a council of governments, a sponsor group representative organization, and any other instrumentality of a local government.

(k) Officer or employee of an agency includes the following individuals who are employed by an agency:

1. An individual who is appointed to a position in the Government under title 5, U.S. Code, including a position under a temporary appointment;

2. A member of the uniformed services as defined in section 101(3), title 37, U.S. Code;

3. A special Government employee as defined in section 202, title 18, U.S. Code; and,

4. An individual who is a member of a Federal advisory committee, as defined by the Federal Advisory Committee Act, title 5, U.S. Code appendix 2.

(l) Person means an individual, corporation, company, association, authority, firm, partnership, society, State, and local government, regardless of whether such entity is operated for profit or not for profit. This term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

(m) Reasonable compensation means, with respect to a regularly employed officer or employee of any person, compensation that is consistent with the normal compensation for such officer or employee for work that is not furnished to, not funded by, or not furnished in cooperation with the Federal Government.

(n) Reasonable payment means, with respect to professional and other technical services, a payment in an amount that is consistent with the amount normally paid for such services in the private sector.

(o) Recipient includes all contractors, subcontractors at any tier, and subgrantees at any tier of the recipient of funds received in connection with a Federal contract, grant, loan, or cooperative agreement. The term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

(p) Regularly employed means, with respect to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement or a commitment providing for the United States to insure or guarantee a loan, an officer or employee who is employed by such person for at least 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person for receipt of such contract, grant, loan, cooperative agreement, loan insurance commitment, or loan guarantee commitment. An officer or employee who is employed by such person for less than 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person shall be considered to be regularly employed as
§ 20.110 Certification and disclosure.

(a) Each person shall file a certification, and a disclosure form, if required, with each submission that initiates agency consideration of such person for:

(1) Award of a Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) An award of a Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000.

(b) Each person shall file a certification, and a disclosure form, if required, upon receipt by such person of:

(1) A Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) A Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000.

Unless such person previously filed a certification, and a disclosure form, if required, under paragraph (a) of this section.

(c) Each person shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affects the accuracy of the information contained in any disclosure form previously filed by such person under paragraphs (a) or (b) of this section. An event that materially affects the accuracy of the information reported includes:

(1) A cumulative increase of $25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action; or

(2) A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; or,

(3) A change in the officer(s), employee(s), or Member(s) contacted to influence or attempt to influence a covered Federal action.

(d) Any person who requests or receives from a person referred to in paragraphs (a) or (b) of this section:

(1) A subcontract exceeding $100,000 at any tier under a Federal contract;

(2) A subgrant, contract, or subcontract exceeding $100,000 at any tier under a Federal grant;

(3) A contract or subcontract exceeding $100,000 at any tier under a Federal loan exceeding $150,000; or,

(4) A contract or subcontract exceeding $100,000 at any tier under a Federal cooperative agreement,

Shall file a certification, and a disclosure form, if required, to the next tier above.

(e) All disclosure forms, but not certifications, shall be forwarded from tier to tier until received by the person referred to in paragraphs (a) or (b) of this section. That person shall forward all disclosure forms to the agency.

(f) Any certification or disclosure form filed under paragraph (e) of this section shall be treated as a material representation of fact upon which all receiving tiers shall rely. All liability arising from an erroneous representation shall be borne solely by the tier filing that representation and shall not be shared by any tier to which the erroneous representation is forwarded. Submitting an erroneous certification or disclosure constitutes a failure to file the required certification or disclosure, respectively. If a person fails to file a required certification or disclosure, the United States may pursue all available remedies, including those authorized by section 1352, title 31, U.S. Code.

(g) For awards and commitments in process prior to December 23, 1989, but not made before that date, certifications shall be required at award or commitment, covering activities occurring between December 23, 1989, and the date of award or commitment. However, for awards and commitments in process prior to the December 23, 1989 effective date of these provisions, but not made before December 23, 1989, disclosure forms shall not be required at time of award or commitment but shall be filed within 30 days.
§ 20.200  
(h) No reporting is required for an activity paid for with appropriated funds if that activity is allowable under either subpart B or C.

§ 20.200  
Subpart B—Activities by Own Employees

§ 20.200  
Agency and legislative liaison.

(a) The prohibition on the use of appropriated funds, in §20.100 (a), does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement if the payment is for agency and legislative liaison activities not directly related to a covered Federal action.

(b) For purposes of paragraph (a) of this section, providing any information specifically requested by an agency or Congress is allowable at any time.

(c) For purposes of paragraph (a) of this section, the following agency and legislative liaison activities are allowable at any time only where they are not related to a specific solicitation for any covered Federal action:

1. Discussing with an agency (including individual demonstrations) the qualities and characteristics of the person's products or services, conditions or terms of sale, and service capabilities; and,

2. Technical discussions and other activities regarding the application or adaptation of the person's products or services for an agency's use.

(d) For purposes of paragraph (a) of this section, the following agencies and legislative liaison activities are allowable only where they are prior to formal solicitation of any covered Federal action:

1. Providing any information not specifically requested but necessary for an agency to make an informed decision about initiation of a covered Federal action;

2. Technical discussions regarding the preparation of an unsolicited proposal prior to its official submission; and,

3. Capability presentations by persons seeking awards from an agency pursuant to the provisions of the Small Business Act, as amended by Public Law 95-507 and other subsequent amendments.

(e) Only those activities expressly authorized by this section are allowable under this section.

§ 20.205  
Professional and technical services.

(a) The prohibition on the use of appropriated funds, in §20.100 (a), does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement or an extension, continuation, renewal, amendment, or modification of a Federal contract, grant, loan, or cooperative agreement if payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal contract, grant, loan, or cooperative agreement if payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal contract, grant, loan, or cooperative agreement.

(b) For purposes of paragraph (a) of this section, ``professional and technical services'' shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting of a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of
his or her client’s proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.

(c) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation, or reasonably expected to be required by law or regulation, and any other requirements in the actual award documents.

(d) Only those services expressly authorized by this section are allowable under this section.

§ 20.210 Reporting.

No reporting is required with respect to payments of reasonable compensation made to regularly employed officers or employees of a person.

Subpart C—Activities by Other Than Own Employees

§ 20.300 Professional and technical services.

(a) The prohibition on the use of appropriated funds, in §20.100 (a), does not apply in the case of any reasonable payment to a person, other than an officer or employee of a person requesting or receiving a covered Federal action, if the payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal contract, grant, loan, or cooperative agreement or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal contract, grant, loan, or cooperative agreement.

(b) The reporting requirements in §20.110 (a) and (b) regarding filing a disclosure form by each person, if required, shall not apply with respect to professional or technical services rendered directly in the preparation, submission, or negotiation of any commitment providing for the United States to insure or guarantee a loan.

(c) For purposes of paragraph (a) of this section, “professional and technical services” shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting or a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client’s proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.

(d) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation, or reasonably expected to be required by law or regulation, and any other requirements in the actual award documents.
§ 20.400 Persons other than officers or employees of a person requesting or receiving a covered Federal action include consultants and trade associations.

(f) Only those services expressly authorized by this section are allowable under this section.

Subpart D—Penalties and Enforcement

§ 20.400 Penalties.

(a) Any person who makes an expenditure prohibited herein shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such expenditure.

(b) Any person who fails to file or amend the disclosure form (see appendix B) to be filed or amended if required herein, shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

(c) A filing or amended filing on or after the date on which an administrative action for the imposition of a civil penalty is commenced does not prevent the imposition of such civil penalty for a failure occurring before that date. An administrative action is commenced with respect to a failure when an investigating official determines in writing to commence an investigation of an allegation of such failure.

(d) In determining whether to impose a civil penalty, and the amount of any such penalty, by reason of a violation by any person, the agency shall consider the nature, circumstances, extent, and gravity of the violation, the effect on the ability of such person to continue in business, any prior violations by such person, the degree of culpability of such person, the ability of the person to pay the penalty, and such other matters as may be appropriate.

(e) First offenders under paragraphs (a) or (b) of this section shall be subject to a civil penalty of $10,000, absent aggravating circumstances. Second and subsequent offenses by persons shall be subject to an appropriate civil penalty between $10,000 and $100,000, as determined by the agency head or his or her designee.

(f) An imposition of a civil penalty under this section does not prevent the United States from seeking any other remedy that may apply to the same conduct that is the basis for the imposition of such civil penalty.

§ 20.405 Penalty procedures.

Agencies shall impose and collect civil penalties pursuant to the provisions of the Program Fraud and Civil Remedies Act, 31 U.S.C. sections 3803 (except subsection (c)), 3804, 3805, 3806, 3807, 3808, and 3812, insofar as these provisions are not inconsistent with the requirements herein.

§ 20.410 Enforcement.

The head of each agency shall take such actions as are necessary to ensure that the provisions herein are vigorously implemented and enforced in that agency.

Subpart E—Exemptions

§ 20.500 Secretary of Defense.

(a) The Secretary of Defense may exempt, on a case-by-case basis, a covered Federal action from the prohibition whenever the Secretary determines, in writing, that such an exemption is in the national interest. The Secretary shall transmit a copy of each such written exemption to Congress immediately after making such a determination.

(b) The Department of Defense may issue supplemental regulations to implement paragraph (a) of this section.

Subpart F—Agency Reports

§ 20.600 Semi-annual compilation.

(a) The head of each agency shall collect and compile the disclosure reports (see appendix B) and, on May 31 and November 30 of each year, submit to the Secretary of the Senate and the Clerk of the House of Representatives a report containing a compilation of the information contained in the disclosure reports received during the six-month period ending on March 31 or September 30, respectively, of that year.

(b) The report, including the compilation, shall be available for public inspection 30 days after receipt of the report by the Secretary and the Clerk.
Office of the Secretary of Transportation

Pt. 20 App. A

(c) Information that involves intelligence matters shall be reported only to the Select Committee on Intelligence of the Senate, the Permanent Select Committee on Intelligence of the House of Representatives, and the Committees on Appropriations of the Senate and the House of Representatives in accordance with procedures agreed to by such committees. Such information shall not be available for public inspection.

(d) Information that is classified under Executive Order 12356 or any successor order shall be reported only to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives or the Committees on Armed Services of the Senate and the House of Representatives (whichever such committees have jurisdiction of matters involving such information) and to the Committees on Appropriations of the Senate and the House of Representatives in accordance with procedures agreed to by such committees. Such information shall not be available for public inspection.

(e) The first semi-annual compilation shall be submitted on May 31, 1990, and shall contain a compilation of the disclosure reports received from December 23, 1989 to March 31, 1990.

(f) Major agencies, designated by the Office of Management and Budget (OMB), are required to provide machine-readable compilations to the Secretary of the Senate and the Clerk of the House of Representatives no later than with the compilations due on May 31, 1991. OMB shall provide detailed specifications in a memorandum to these agencies.

(g) Non-major agencies are requested to provide machine-readable compilations to the Secretary of the Senate and the Clerk of the House of Representatives.

(h) Agencies shall keep the originals of all disclosure reports in the official files of the agency.

§ 20.605 Inspector General report.

(a) The Inspector General, or other official as specified in paragraph (b) of this section, of each agency shall prepare and submit to Congress each year, commencing with submission of the President's Budget in 1991, an evaluation of the compliance of that agency with, and the effectiveness of, the requirements herein. The evaluation may include any recommended changes that may be necessary to strengthen or improve the requirements.

(b) In the case of an agency that does not have an Inspector General, the agency official comparable to an Inspector General shall prepare and submit the annual report, or, if there is no such comparable official, the head of the agency shall prepare and submit the annual report.

(c) The annual report shall be submitted at the same time the agency submits its annual budget justifications to Congress.

(d) The annual report shall include the following: All alleged violations relating to the agency's covered Federal actions during the year covered by the report, the actions taken by the head of the agency in the year covered by the report with respect to those alleged violations and alleged violations in previous years, and the amounts of civil penalties imposed by the agency in the year covered by the report.

APPENDIX A TO PART 20—CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete
and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

If any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.
# DISCLOSURE OF LOBBYING ACTIVITIES

Complete this form to disclose lobbying activities pursuant to 31 U.S.C. 1552
(See reverse for public burden disclosure.)

## 1. Type of Federal Action:
- a. contract
- b. grant
- c. cooperative agreement
- d. loan
- e. loan guarantee
- f. loan insurance

## 2. Status of Federal Action:
- a. bid/offer application
- b. initial award
- c. post-award

## 3. Report Type:
- a. initial filing
- b. material change

For Material Change Only:
- year
- quarter
- date of last report

## 4. Name and Address of Reporting Entity:
- □ Prime
- □ Subcontractor

Federal Use Only: 181
This disclosure form shall be completed by the reporting entity, whether subawardee or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1332. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Use the SF-LLL-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.

2. Identify the status of the covered Federal action.

3. Identify the appropriate classification of this report. If this is a followup report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.

4. Enter the full name, address, city, state and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subawardee recipient. Identify the tier of the subawardee, e.g., the first subawardee of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.

5. If the organization filing the report in item 4 checks "Subawardee", then enter the full name, address, city, state and zip code of the prime Federal recipient. Include Congressional District, if known.

6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.

7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.

8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number, Invitation for Bid (IFB) number: grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefix, e.g., "RFP-DE-99-001:"

9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.

10. (a) Enter the full name, address, city, state and zip code of the lobbying entity engaged by the reporting entity identified in item 4 to influence the covered Federal action.

(b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a).

11. Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (item 4) to the lobbying entity (item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.

12. Check the appropriate box(es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.

13. Check the appropriate box(es). Check all boxes that apply. If other, specify nature.

14. Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the date(s) of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with Federal officials. Identify the Federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.

15. Check whether or not a SF-LLL-A Continuation Sheet(s) is attached.

16. The certifying official shall sign and date the form, print his/her name, title, and telephone number.
PART 21—NONDISCRIMINATION IN FEDERALLY-ASSISTED PROGRAMS OF THE DEPARTMENT OF TRANSPORTATION—EFFECTUATION OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

Sec.
21.1 Purpose.
21.3 Application of this part.
21.5 Discrimination prohibited.
21.7 Assurances required.
21.9 Compliance information.
21.11 Conduct of investigations.
21.15 Hearings.
21.17 Decisions and notices.
21.21 Effect on other regulations, forms, and instructions.
21.23 Definitions.

APPENDIX A TO PART 21—ACTIVITIES TO WHICH THIS PART APPLIES

APPENDIX B TO PART 21—ACTIVITIES TO WHICH THIS PART APPLIES WHEN A PRIMARY OBJECTIVE OF THE FEDERAL FINANCIAL ASSISTANCE IS TO PROVIDE EMPLOYMENT

APPENDIX C TO PART 21—APPLICATION OF PART 21 TO CERTAIN FEDERAL FINANCIAL ASSISTANCE OF THE DEPARTMENT OF TRANSPORTATION

SOURCE: 35 FR 10080, June 18, 1970, unless otherwise noted.

§ 21.1 Purpose.

The purpose of this part is to effectuate the provisions of title VI of the Civil Rights Act of 1964 (hereafter referred to as the Act) to the extent that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity receiving Federal financial assistance from the Department of Transportation.

§ 21.3 Application of this part.

(a) This part applies to any program for which Federal financial assistance is authorized under a law administered by the Department, including the federally assisted programs and activities listed in appendix A to this part. It also applies to money paid, property transferred, or other Federal financial assistance extended under any such program after the effective date of this part pursuant to an application approved before that effective date. This part does not apply to:

(1) Any Federal financial assistance by way of insurance or guaranty contracts;

(2) Money paid, property transferred, or other assistance extended under any such program before the effective date of this part, except where such assistance was subject to the title VI regulations of any agency whose responsibilities are now exercised by this Department;

(3) Any assistance to any individual who is the ultimate beneficiary under any such program; or

(4) Any employment practice, under any such program, of any employer, employment agency, or labor organization, except to the extent described in §21.5(c).

The fact that a program or activity is not listed in appendix A to this part shall not mean that title VI of the Act is otherwise applicable, that such program is not covered. Other programs under statutes now in force or hereinafter enacted may be added to appendix A to this part.

(b) In any program receiving Federal financial assistance in the form, or for the acquisition, of real property or any interest in real property, to the extent that rights to space on, over, or under any such property are included as part of the program receiving that assistance, the nondiscrimination requirement of this part shall extend to any facility located wholly or in part in that space.

§ 21.5 Discrimination prohibited.

(a) General. No person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program to which this part applies.

(b) Specific discriminatory actions prohibited:

(1) A recipient under any program to which this part applies may not, directly or through contractual or other arrangements, on the grounds of race, color, or national origin,
(i) Deny a person any service, financial aid, or other benefit provided under the program;
(ii) Provide any service, financial aid, or other benefit to a person which is different, or is provided in a different manner, from that provided to others under the program;
(iii) Subject a person to segregation or separate treatment in any matter related to his receipt of any service, financial aid, or other benefit under the program;
(iv) Restrict a person in any way in the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid, or other benefit under the program;
(v) Treat a person differently from others in determining whether he satisfies any admission, enrollment, quota, eligibility, membership, or other requirement or condition which persons must meet in order to be provided any service, financial aid, or other benefit provided under the program;
(vi) Deny a person an opportunity to participate in the program through the provision of services or otherwise or afford him an opportunity to do so which is different from that afforded others under the program; or
(vii) Deny a person the opportunity to participate as a member of a planning, advisory, or similar body which is an integral part of the program.
(2) A recipient, in determining the types of services, financial aid, or other benefits, or facilities which will be provided under any such program, or the class of person to whom, or the situations in which, such services, financial aid, other benefits, or facilities will be provided under any such program, or the class of persons to be afforded an opportunity to participate in any such program; may not, directly or through contractual or other arrangements, utilize criteria or methods of administration which have the effect of subjecting persons to discrimination because of their race, color, or national origin, or have the effect of defeating or substantially impairing accomplishment of the objectives of the program with respect to individuals of a particular race, color, or national origin.
(3) In determining the site or location of facilities, a recipient or applicant may not make selections with the purpose or effect of excluding persons from, denying them the benefits of, or subjecting them to discrimination under any program to which this regulation applies, on the grounds of race, color, or national origin; or with the purpose or effect of defeating or substantially impairing the accomplishment of the objectives of the Act or this part.
(4) As used in this section the services, financial aid, or other benefits provided under a program receiving Federal financial assistance include any service, financial aid, or other benefit provided in or through a facility provided with the aid of Federal financial assistance.
(5) The enumeration of specific forms of prohibited discrimination in this paragraph does not limit the generality of the prohibition in paragraph (a) of this section.
(6) Examples demonstrating the application of the provisions of this section to certain programs of the Department of Transportation are contained in appendix C of this part.
(7) This part does not prohibit the consideration of race, color, or national origin if the purpose and effect are to remove or overcome the consequences of practices or impediments which have restricted the availability of, or participation in, the program or activity receiving Federal financial assistance on the grounds of race, color, or national origin. Where prior discriminatory practice or usage tends, on the grounds of race, color, or national origin to exclude individuals from participation in, to deny them the benefits of, or to subject them to discrimination under any program or activity to which this part applies, the applicant or recipient must take affirmative action to remove or overcome the effects of the prior discriminatory practice or usage. Even in the absence of prior discriminatory practice or usage, a recipient in administering a program or activity to which this part applies, is expected to take affirmative action to assure that no person is excluded from participation in or denied the benefits of the program or activity on the grounds of race, color, or national origin.
(c) Employment practices:

(1) Where a primary objective of a program of Federal financial assistance to which this part applies is to provide employment, a recipient or other party subject to this part shall not, directly or through contractual or other arrangements, subject a person to discrimination on the ground of race, color, or national origin in its employment practices under such program (including recruitment or recruitment advertising, hiring, firing, upgrading, promotion, demotion, transfer, layoff, termination, rates of pay or other forms of compensation or benefits, selection for training or apprenticeship, use of facilities, and treatment of employees). Such recipient shall take affirmative action to insure that applicants are employed, and employees are treated during employment, without regard to their race, color, or national origin. The requirements applicable to construction employment under any such program shall be those specified in or pursuant to Part III of Executive Order 11246 or any Executive order which supersedes it.

(2) Federal financial assistance to programs under laws funded or administered by the Department which have as a primary objective the providing of employment include those set forth in appendix B to this part.

(3) Where a primary objective of the Federal financial assistance is not to provide employment, but discrimination on the grounds of race, color, or national origin in the employment practices of the recipient or other persons subject to the regulation tends, on the grounds of race, color, or national origin, to exclude individuals from participating in, to deny them the benefits of, or to subject them to discrimination under any program to which this regulation applies, on the grounds of race, color, or national origin; or if the purpose is to, or its effect when made will, substantially impair the accomplishment of the objectives of this part.

[35 FR 10080, June 18, 1970, as amended by Amdt. 72-2, 38 FR 17997, July 5, 1973]

§ 21.7 Assurances required.

(a) General. (1) Every application for Federal financial assistance to carry out a program to which this part applies, except a program to which paragraph (b) of this section applies, and every application for Federal financial assistance to provide a facility shall, as a condition to its approval and the extension of any Federal financial assistance pursuant to the application, contain or be accompanied by, an assurance that the program will be conducted or the facility operated in compliance with all requirements imposed by or pursuant to this part. Every program of Federal financial assistance shall require the submission of such an assurance. In the case where the Federal financial assistance is to provide or is in the form of personal property, or real property or interest therein or structures thereon, the assurance shall obligate the recipient, or, in the case of a subsequent transfer, the transferee, for the period during which the property is used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits, or for as long as the recipient retains ownership or possession of the property, whichever is longer. In all other cases the assurance shall obligate the recipient for the period during which Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits, or for as long as the recipient retains ownership or possession of the property, whichever is longer. In all other cases the assurance shall obligate the recipient for the period during which Federal financial assistance is extended to the program. In the case where the assistance is sought for the construction of a facility or part of a facility, the assurance shall in any event extend to the entire facility and to facilities operated in connection therewith. The Secretary shall specify the form of the foregoing assurances for each program, and the extent to which like assurances will be required.
of subgrantees, contractors and subcontractors, transferees, successors in interest, and other participants in the program. Any such assurance shall include provisions which give the United States a right to seek its judicial enforcement.

(2) In the case where Federal financial assistance is provided in the form of a transfer of real property, structures, or improvements thereon, or interest therein, from the Federal Government, the instrument effecting or recording the transfer shall contain a covenant running with the land assuring nondiscrimination for the period during which the real property is used for a purpose for which the Federal financial assistance is extended or for another purpose involving the provision of similar services or benefits. Where no transfer of property or interest therein from the Federal Government is involved, but property is acquired or improved under a program of Federal financial assistance, the recipient shall agree to include such covenant in any subsequent transfer of such property. When the property is obtained from the Federal Government, such covenant may also include a condition coupled with a right to be reserved by the Department to revert title to the property in the event of a breach of the covenant where, in the discretion of the Secretary, such a condition and right of reverter is appropriate to the program under which the real property is obtained and to the nature of the grant and the grantee. In such event if a transferee of real property proposes to mortgage or otherwise encumber the real property as security for financing construction of new, or improvement of existing, facilities on such property for the purposes for which the property was transferred, the Secretary may agree, upon request of the transferee and if necessary to accomplish such financing, and upon such conditions as he deems appropriate, to subordinate such right of reversion to the lien of such mortgage or other encumbrance.

(b) Continuing State programs. Every application by a State or a State agency to carry out a program involving continuing Federal financial assistance to which this part applies (including the programs listed in appendix A to this part) shall as a condition to its approval and the extension of any Federal financial assistance pursuant to the application: (1) Contain or be accompanied by a statement that the program is (or, in the case of a new program, will be) conducted in compliance with all requirements imposed by or pursuant to this part, and (2) provide or be accompanied by provision for such methods of administration for the program as are found by the Secretary to give reasonable guarantee that the applicant and all recipients of Federal financial assistance under such program will comply with all requirements imposed by or pursuant to this part.

§ 21.9 Compliance information.

(a) Cooperation and assistance. The Secretary shall to the fullest extent practicable seek the cooperation of recipients in obtaining compliance with this part and shall provide assistance and guidance to recipients to help them comply voluntarily with this part.

(b) Compliance reports. Each recipient shall keep such records and submit to the Secretary timely, complete, and accurate compliance reports at such times, and in such form and containing such information, as the Secretary may determine to be necessary to enable him to ascertain whether the recipient has complied or is complying with this part. In the case of any program under which a primary recipient extends Federal financial assistance to any other recipient, such other recipient shall also submit such compliance reports to the primary recipient as may be necessary to enable the primary recipient to carry out its obligations under this part. In general recipients should have available for the Secretary racial and ethnic data showing the extent to which members of minority groups are beneficiaries of programs receiving Federal financial assistance.

(c) Access to sources of information. Each recipient shall permit access by the Secretary during normal business
hours to such of its books, records, accounts, and other sources of information, and its facilities as may be pertinent to ascertain compliance with this part. Where any information required of a recipient is in the exclusive possession of any other agency, institution, or person and this agency, institution, or person fails or refuses to furnish this information, the recipient shall so certify in its report and shall set forth what efforts it has made to obtain the information.

(d) Information to beneficiaries and participants. Each recipient shall make available to participants, beneficiaries, and other interested persons such information regarding the provisions of this part and its applicability to the program under which the recipient receives Federal financial assistance, and make such information available to them in such manner, as the Secretary finds necessary to apprise such persons of the protections against discrimination assured them by the Act and this part.

(e) Intimidatory or retaliatory acts prohibited. No recipient or other person shall intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by section 601 of the Act or this part, or because he has made a complaint, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this part. The identity of complainants shall be kept confidential except to the extent necessary to carry out the purposes of this part, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder.

§21.13 Procedure for effecting compliance.

(a) General. If there appears to be a failure or threatened failure to comply with this part, and if the noncompliance or threatened noncompliance cannot be corrected by informal means, compliance with this part may be effected by the suspension or termination of or refusal to grant or to continue Federal financial assistance or by any other means authorized by law. Such other means may include, but are not limited to: (1) A reference to the Department of Justice with a recommendation that appropriate proceedings be brought to enforce any rights of the United States under any law of the United States (including other titles of the Act), or any assurance or other contractual undertaking, whether the recipient has failed to comply with this part.

(d) Resolution of matters. (1) If an investigation pursuant to paragraph (c) of this section indicates a failure to comply with this part, the Secretary will so inform the recipient and the matter will be resolved by informal means whenever possible. If it has been determined that the matter cannot be resolved by informal means, action will be taken as provided for in §21.13.

(2) If an investigation does not warrant action pursuant to paragraph (d)(1) of this section the Secretary will so inform the recipient and the complainant, if any, in writing.

§21.11 Conduct of investigations.

(a) Periodic compliance reviews. The Secretary shall from time to time review the practices of recipients to determine whether they are complying with this part.

(b) Complaints. Any person who believes himself or any specific class of persons to be subjected to discrimination prohibited by this part may by himself or by a representative file with the Secretary a written complaint. A complaint must be filed not later than 180 days after the date of the alleged discrimination, unless the time for filing is extended by the Secretary.

(c) Investigations. The Secretary will make a prompt investigation whenever a compliance review, report, complaint, or any other information indicates a possible failure to comply with this part. The investigation will include, where appropriate, a review of the pertinent practices and policies of the recipient, the circumstances under which the possible noncompliance with this part occurred, and other factors relevant to a determination as to
and (2) any applicable proceeding under State or local law.

(b) Noncompliance with §21.7. If an applicant fails or refuses to furnish an assurance required under §21.7 or otherwise fails or refuses to comply with a requirement imposed by or pursuant to that section, Federal financial assistance may be refused in accordance with the procedures of paragraph (c) of this section. The Department shall not be required to provide assistance in such a case during the pendency of the administrative proceedings under such paragraph. However, subject to §21.21, the Department shall continue assistance during the pendency of such proceedings where such assistance is due and payable pursuant to an application approved prior to the effective date of this part.

(c) Termination of or refusal to grant or to continue Federal financial assistance. No order suspending, terminating, or refusing to grant or continue Federal financial assistance shall become effective until:

(1) The Secretary has advised the applicant or recipient of his failure to comply and has determined that compliance cannot be secured by voluntary means;

(2) There has been an express finding on the record, after opportunity for hearing, of a failure by the applicant or recipient to comply with a requirement imposed by or pursuant to this part;

(3) The action has been approved by the Secretary pursuant to §21.17(e); and

(4) The expiration of at least 30 days after the Secretary has filed with the committee of the House and the committee of the Senate having legislative jurisdiction over the program involved, a full written report of the circumstances and the grounds for such action.

Any action to suspend or terminate or to refuse to grant or to continue Federal financial assistance shall be limited to the particular political entity, or part thereof, or other applicant or recipient as to whom such a finding has been made and shall be limited in its effect to the particular program, or part thereof, in which such noncompliance has been so found.

(d) Other means authorized by law. No action to effect compliance with title VI of the Act by any other means authorized by law shall be taken by this Department until:

(1) The Secretary has determined that compliance cannot be secured by voluntary means;

(2) The recipient or other person has been notified of its failure to comply and of the action to be taken to effect compliance; and

(3) The expiration of at least 10 days from the mailing of such notice to the recipient or other person. During this period of at least 10 days, additional efforts shall be made to persuade the recipient or other person to comply with the regulation and to take such corrective action as may be appropriate.

§ 21.15 Hearings.

(a) Opportunity for hearing. Whenever an opportunity for a hearing is required by §21.13(c), reasonable notice shall be given by registered or certified mail, return receipt requested, to the affected applicant or recipient. This notice shall advise the applicant or recipient of the action proposed to be taken, the specific provision under which the proposed action against it is to be taken, and the matters of fact or law asserted as the basis for this action, and either: (1) Fix a date not less than 20 days after the date of such notice within which the applicant or recipient may request of the Secretary that the matter be scheduled for hearing or (2) advise the applicant or recipient that the matter in question has been set down for hearing at a stated place and time. The time and place so fixed shall be reasonable and shall be subject to change for cause. The complainant, if any, shall be advised of the time and place of the hearing. An applicant or recipient may waive a hearing and submit written information and argument for the record. The failure of an applicant or recipient to request a hearing under this paragraph or to appear at a hearing for which a date has been set shall be deemed to be a waiver of the right to a hearing under section 602 of the Act and §21.13(c) and consent to the making of a decision on the basis of such information as is available.

(b) Time and place of hearing. Hearings shall be held at the offices of the Department in Washington, D.C., at a
time fixed by the Secretary unless he determines that the convenience of the applicant or recipient or of the Department requires that another place be selected. Hearings shall be held before the Secretary, or at his discretion, before a hearing examiner appointed in accordance with section 306 of title 5, United States Code, or detailed under section 3344 of title 5, United States Code.

(c) Right to counsel. In all proceedings under this section, the applicant or recipient and the Department shall have the right to be represented by counsel.

(d) Procedures, evidence, and record. (1) The hearing, decision, and any administrative review thereof shall be conducted in conformity with sections 554 through 557 of title 5, United States Code, and in accordance with such rules of procedure as are proper (and not inconsistent with this section) relating to the conduct of the hearing, giving of notices subsequent to those provided for in paragraph (a) of this section, taking of testimony, exhibits, arguments and briefs, requests for findings, and other related matters. Both the Department and the applicant or recipient shall be entitled to introduce all relevant evidence on the issues as stated in the notice for hearing or as determined by the officer conducting the hearing at the outset of or during the hearing.

(2) Technical rules of evidence do not apply to hearings conducted pursuant to this part, but rules or principles designed to assure production of the most credible evidence available and to subject testimony to test by cross-examination shall be applied where reasonably necessary by the officer conducting the hearing. The hearing officer may exclude irrelevant, immaterial, or unduly repetitious evidence. All documents and other evidence offered or taken for the record shall be open to examination by the parties and opportunity shall be given to refute facts and arguments advanced on either side of the issues. A transcript shall be made of the oral evidence except to the extent the substance thereof is stipulated for the record. All decisions shall be based upon the hearing record and written findings shall be made.

(e) Consolidated or joint hearings. In cases in which the same or related facts are asserted to constitute noncompliance with this part with respect to two or more programs to which this part applies, or noncompliance with this part and the regulations of one or more other Federal departments or agencies issued under title VI of the Act, the Secretary may, by agreement with such other departments or agencies, where applicable, provide for the conduct of consolidated or joint hearings, and for the application to such hearings of rules or procedures not inconsistent with this part. Final decisions in such cases, insofar as this regulation is concerned, shall be made in accordance with §21.17.

§ 21.17 Decisions and notices.

(a) Procedure on decisions by hearing examiner. If the hearing is held by a hearing examiner, the hearing examiner shall either make an initial decision, if so authorized, or certify the entire record including his recommended findings and proposed decision to the Secretary for a final decision, and a copy of such initial decision or certification shall be mailed to the applicant or recipient and to the Department. Where the initial decision is made by the hearing examiner the applicant or recipient may, within 30 days after the mailing of such notice of initial decision, file with the Secretary his exceptions to the initial decision, with his reasons therefor. In the absence of exceptions, the Secretary may, on his own motion, within 45 days after the initial decision, serve on the applicant or recipient a notice that he will review the decision. Upon the filing of such exceptions or of notice of review, the Secretary shall review the initial decision and issue his own decision thereon including the reasons therefor. In the absence of either exceptions or a notice of review the initial decision shall, subject to paragraph (e) of this section, constitute the final decision of the Secretary.

(b) Decisions on record or review by the Secretary. Whenever a record is certified to the Secretary for decision or he reviews the decision of a hearing examiner pursuant to paragraph (a) of this section, or whenever the Secretary conducts the hearing, the applicant or
Office of the Secretary of Transportation § 21.21

recipient shall be given reasonable oppor-
tunity to file with him briefs or other written statements of its conten-
tions, and a written copy of the final
decision of the Secretary shall be sent
to the applicant or recipient and to the
complainant, if any.

(c) Decisions on record where a hearing
is waived. Whenever a hearing is waived
pursuant to §21.15, a decision shall be
made by the Secretary on the record
and a written copy of such decision
shall be sent to the applicant or recipi-
ent, and to the complainant, if any.

(d) Rulings required. Each decision of
a hearing examiner or the Secretary
shall set forth his ruling on each find-
ing, conclusion, or exception presented,
and shall identify the requirement or
requirements imposed by or pursuant
to this part with which it is found that
the applicant or recipient has failed to
comply.

(e) Approval by Secretary. Any final
decision by an official of the Depart-
ment, other than the Secretary person-
ally, which provides for the suspension
or termination of, or refusal to grant or con-
tinue Federal financial assistance, in
whole or in part, under the program in-
volved, and may contain such terms,
conditions, and other provisions as are
consistent with and will effectuate the
purposes of the Act and this part, in-
cluding provisions designed to assure
that no Federal financial assistance
will thereafter be extended under such
programs to the applicant or recipient
determined by such decision to be in
default in its performance of an assur-
ance given by it pursuant to this part,
or to have otherwise failed to comply
with this part, unless and until it cor-
rects its noncompliance and satisfies
the Secretary that it will fully comply
with this part.

(f) Content of orders. The final deci-
sion may provide for suspension or ter-
mination of, or refusal to grant or con-
tinue Federal financial assistance, in
whole or in part, under the program in-
volved, and may contain such terms,
conditions, and other provisions as are
consistent with and will effectuate the
purposes of the Act and this part, in-
cluding provisions designed to assure
that no Federal financial assistance
will thereafter be extended under such
programs to the applicant or recipient
determined by such decision to be in
default in its performance of an assur-
ance given by it pursuant to this part,
or to have otherwise failed to comply
with this part, unless and until it cor-
rects its noncompliance and satisfies
the Secretary that it will fully comply
with this part.

Action taken pursuant to section 602
of the Act is subject to judicial review
as provided in section 603 of the Act.

21.21 Effect on other regulations,
forms, and instructions.

(a) Effect on other regulations. All reg-
ulations, orders, or like directions
issued before the effective date of this
part by any officer of the Department
which impose requirements designed to
prohibit any discrimination against in-
dividuals on the grounds of race, color,
or national origin under any program
to which this part applies, and which
authorize the suspension or termina-
tion of or refusal to grant or to con-
tinue Federal financial assistance to
any applicant for a recipient of such assistance under such program for failure to comply with such requirements, are hereby superseded to the extent that such discrimination is prohibited by this part, except that nothing in this part may be considered to relieve any person of any obligation assumed or imposed under any such superseded regulation, order, instruction, or like direction before the effective date of this part. Nothing in this part, however, supersedes any of the following (including future amendments thereof): (1) Executive Order 11246 (3 CFR, 1965 Supp., p. 167) and regulations issued thereunder or (2) any other orders, regulations, or instructions, insofar as such orders, regulations, or instructions prohibit discrimination on the ground of race, color, or national origin in any program or situation to which this part is inapplicable, or prohibit discrimination on any other ground.

(b) Forms and instructions. The Secretary shall issue and promptly make available to all interested persons forms and detailed instructions and procedures for effectuating this part as applied to programs to which this part applies and for which he is responsible.

(c) Supervision and coordination. The Secretary may from time to time assign to officials of the Department, or to officials of other departments or agencies of the Government with the consent of such departments or agencies, responsibilities in connection with the effectuation of the purposes of title VI of the Act and this part (other than responsibility for final decision as provided in §21.17), including the achievement of effective coordination and maximum uniformity within the Department and within the Executive Branch of the Government in the application of title VI and this part to similar programs and in similar situations. Any action taken, determination made or requirement imposed by an official of another department or agency acting pursuant to an assignment of responsibility under this paragraph shall have the same effect as though such action had been taken by the Secretary of this Department.

§ 21.23 Definitions.

Unless the context requires otherwise, as used in this part:

(a) Applicant means a person who submits an application, request, or plan required to be approved by the Secretary, or by a primary recipient, as a condition to eligibility for Federal financial assistance, and ‘‘application’’ means such an application, request, or plan.

(b) Facility includes all or any part of structures, equipment, or other real or personal property or interests therein, and the provision of facilities includes the construction, expansion, renovation, remodeling, alteration or acquisition of facilities.

(c) Federal financial assistance includes:

(1) Grants and loans of Federal funds;

(2) The grant or donation of Federal property and interests in property;

(3) The detail of Federal personnel;

(4) The sale and lease of, and the permission to use (on other than a casual or transient basis), Federal property or any interest in such property without consideration or at a nominal consideration, or at a consideration which is reduced for the purpose of assisting the recipient, or in recognition of the public interest to be served by such sale or lease to the recipient; and

(5) Any Federal agreement, arrangement, or other contract which has as one of its purposes the provision of assistance.

(d) Program includes any program, project, or activity for the provision of services, financial aid, or other benefits to individuals (including education or training, health, welfare, rehabilitation, housing, or other services, whether provided through employees of the recipient of Federal financial assistance or provided by others through contracts or other arrangements with the recipient, and including work opportunities), or for the provision of facilities for furnishing services, financial aid or other benefits to individuals. The services, financial aid, or
other benefits provided under a program receiving Federal financial assistance shall be deemed to include any services, financial aid, or other benefits provided with the aid of Federal financial assistance, and to include any services, financial aid or other benefits provided in or through a facility provided with the aid of Federal financial assistance or such non-Federal resources.

(f) Recipient may mean any State, territory, possession, the District of Columbia, or Puerto Rico, or any political subdivision thereof, any public or private agency, institution, or organization, or other entity, or any individual, in any State, territory, possession, the District of Columbia, or Puerto Rico, to whom Federal financial assistance is extended, directly or through another recipient, for any program, including any successor, assignee, or transferee thereof, but such term does not include any ultimate beneficiary under any such program.

(g) Secretary means the Secretary of Transportation or, except in §21.17 (e), any person to whom he has delegated his authority in the matter concerned.

APPENDIX A TO PART 21—ACTIVITIES TO WHICH THIS PART APPLIES

1. Use of grants made in connection with Federal-aid highway systems (23 U.S.C. 101 et seq.).
4. Lease of real property and the grant of permits, licenses, easements and rights-of-way covering real property under control of the Coast Guard (14 U.S.C. 99 (n) and (o)).
5. Utilization of Coast Guard personnel and facilities by any State, territory, possession, or political subdivision thereof (14 U.S.C. 141(a)).
7. Use of obsolete and other Coast Guard material by sea scout service of Boys Scouts of America, any incorporated unit of the Coast Guard auxiliary, and public body or private organization not organized for profit (14 U.S.C. 641(a)).
9. Use of grants for the support of basic scientific research by nonprofit institutions of higher education and nonprofit organizations whose primary purpose is conduct of scientific research (42 U.S.C. 1891).
11. Use of U.S. land acquired for public airports under:
   a. Section 16 of the Federal Airport Act, 49 U.S.C. 1115; and
   b. Surplus Property Act (sec. 13(g) of the Surplus Property Act of 1944, 50 U.S.C. App. 1622(g), and sec. 3 of the Act of Oct. 1, 1949, 50 U.S.C. App. 1622(b).
12. Activities carried out in connection with the Aviation Education Program of the Federal Aviation Administration under sections 305, 311, and 313(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1346, 1352, and 1354(a)).
APPENDIX C TO PART 21—APPLICATION OF PART 21 TO CERTAIN FEDERAL FINANCIAL ASSISTANCE OF THE DEPARTMENT OF TRANSPORTATION

Nondiscrimination on Federally Assisted Projects

(a) Examples. The following examples, without being exhaustive, illustrate the application of the nondiscrimination provisions of this part on projects receiving Federal financial assistance under the programs of certain Department of Transportation operating administrations:

1. Appalachia Regional Development Act of 1965 (40 U.S.C. App. 1 et seq.).

APPENDIX B TO PART 21—ACTIVITIES TO WHICH THIS PART APPLIES WHEN A PRIMARY OBJECTIVE OF THE FEDERAL FINANCIAL ASSISTANCE IS TO PROVIDE EMPLOYMENT

1. Appalachia Regional Development Act of 1965 (40 U.S.C. App. 1 et seq.).
and vehicle servicing) constructed on, over or under the right-of-way of such highways.

(v) Neither the State, any other persons subject to this part, nor its contractors and subcontractors may be subject to any discrimination in their employment practices in connection with highway construction projects or other projects assisted by the Federal Highway Administration.

(ii) The State shall not locate or design a highway in such a manner as to require, on the basis of race, color, or national origin, the relocation of any persons.

(iii) The State shall not locate, design, or construct a highway in such a manner as to deny reasonable access to, and use thereof, to any persons on the basis of race, color, or national origin.

(3) Urban Mass Transportation Administration. (i) Any person who is, or seeks to be, a patron of any public vehicle which is operated as a part of, or in conjunction with, a project shall be given the same access, seating, and other treatment with regard to the use of such vehicle as other persons without regard to their race, color, or national origin.

(ii) No person who is, or seeks to be, an employee of the project sponsor or lessees, concessionaires, contractors, licensees, or any organization furnishing public transportation service as a part of, or in conjunction with, the project shall be treated less favorably than any other employee or applicant with regard to hiring, dismissal, advancement, wages, or any other conditions and benefits of employment, on the basis of race, color, or national origin.

(iii) No person or group of persons shall be discriminated against with regard to the routing, scheduling, or quality of service of transportation service furnished as a part of, or in conjunction with, the project on the basis of race, color, or national origin. Frequency of service, age and quality of vehicles assigned to routes, and other treatment with regard to the use of such vehicle as other persons without regard to their race, color, or national origin.

(iv) The location of projects requiring land acquisition and the displacement of persons from their residences and businesses may not be determined on the basis of race, color, or national origin.

(b) Obligation of the airport operator—(1) Tenants, contractors, and concessionaires. Each airport operator shall require each tenant, contractor, and concessionaire who provides any activity, service, or facility at the airport under lease, contract with, or franchise from the airport, to covenant in a form specified by the Administrator, Federal Aviation Administration, that he will comply with the nondiscrimination requirements of this part.

(2) Notification of beneficiaries. The airport operator shall: (i) Make a copy of this part available at his office for inspection during normal working hours by any person asking for it, and (ii) conspicuously display a sign, or signs, furnished by the FAA, in the main public area or areas of the airport, stating that discrimination based on race, color, or national origin is prohibited on the airport.

(3) Reports. Each airport owner subject to this part shall, within 15 days after he receives it, forward to the Area Manager of the FAA Area in which the airport is located a copy of each written complaint charging discrimination because of race, color, or national origin by any person subject to this part, together with a statement describing all actions taken to resolve the matter, and the results thereof. Each airport operator shall submit to the area manager of the FAA area in which the airport is located a report for the preceding year on the date and in a form prescribed by the Federal Aviation Administrator.

APPENDIX A TO SUBPART F—SIZE STANDARDS FOR AIRPORT CONCESSIONAIRES

SCHEDULE A—INFORMATION FOR DETERMINING MINORITY BUSINESS ENTERPRISE ELIGIBILITY

SCHEDULE B—INFORMATION FOR DETERMINING JOINT VENTURE ELIGIBILITY

§ 23.2 Applicability.

This part applies to any DOT program through which funds are made available to members of the public for accomplishing DOT’s purposes. Contracts and subcontracts which are to be performed entirely outside the United States, its possessions, Puerto Rico, and the North Mariana Islands, are exempted from this part.
§ 23.5 Definitions.

Affirmative action means taking specific steps to eliminate discrimination and its effects, to ensure nondiscriminatory results and practices in the future, and to involve minority business enterprises fully in contracts and programs funded by the Department.

Applicant means one who submits an application, request, or plan to be approved by a Departmental official or by a primary recipient as a condition to eligibility for DOT financial assistance, and application means such an application, request, or plan.

Compliance means the condition existing when a recipient or contractor has met and implemented the requirements of this part.

Contract means a mutually binding legal relationship or any modification thereof obligating the seller to furnish supplies or services, including construction, and the buyer to pay for them. For purposes of this part, a lease is a contract.

Contractor means one who participates, through a contract or subcontract, in any program covered by this part, and includes lessees.

Department or DOT means the Department of Transportation, including its operating elements.

DOT-assisted contract means any contract or modification of a contract between a recipient and a contractor which is paid for in whole or in part with DOT financial assistance or any contract or modification of a contract between a recipient and a lessee.

DOT financial assistance means financial aid provided by the Department or the United States Railroad Association to a recipient, but does not include a direct contract. The financial aid may be provided directly in the form of actual money, or indirectly in the form of guarantees authorized by statute as financial assistance services of Federal personnel, title or other interest in real or personal property transferred for less than fair market value, or any other arrangement through which the recipient benefits financially, including licenses for the construction or operation of a Deep Water Port.

Departmental element means the following parts of DOT:

(a) The Office of the Secretary (OST);
(b) The Federal Aviation Administration (FAA);
(c) The United States Coast Guard (USCG);
(d) The Federal Highway Administration (FHWA);
(e) The Federal Railroad Administration (FRA);
(f) The National Highway Traffic Safety Administration (NHTSA);
(g) The Urban Mass Transportation Administration (UMTA);
(h) The St. Lawrence Seaway Development Corporation (SLSDC); and
(i) The Research and Special Programs Administration (RSPA).

Joint venture means an association of two or more businesses to carry out a single business enterprise for profit for which purpose they combine their property, capital, efforts, skills, and knowledge.

Lessees means a business or person that leases, or is negotiating to lease, property from a recipient or the Department on the recipient's or Department's facility for the purpose of operating a transportation-related activity or for the provision of goods or services to the facility or to the public on the facility.

Minority means a person who is a citizen or lawful permanent resident of the United States and who is:

(a) Black (a person having origins in any of the black racial groups of Africa);
(b) Hispanic (a person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race);
(c) Portuguese (a person of Portuguese, Brazilian, or other Portuguese culture or origin, regardless of race);
(d) Asian American (a person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands); or
(e) American Indian and Alaskan Native (a person having origins in any of the original peoples of North America.)
(f) Members of other groups, or other individuals, found to be economically and socially disadvantaged by the Small Business Administration under section 8(a) of the Small Business Act, as amended (15 U.S.C. 637(a)).
Minority business enterprise or MBE means a small business concern, as defined pursuant to section 3 of the Small Business Act and implementing regulations, which is owned and controlled by one or more minorities or women. This definition applies only to financial assistance programs. For the purposes of this part, owned and controlled means a business:

(a) Which is at least 51 per centum owned by one or more minorities or women or, in the case of a publicly owned business, at least 51 per centum of the stock of which is owned by one or more minorities or women; and

(b) Whose management and daily business operations are controlled by one or more such individuals.

MBE coordinator means the official designated by the head of the Department element to have overall responsibility for promotion of minority business enterprise in his/her Departmental element.

Noncompliance means the condition existing when a recipient or contractor has failed to implement the requirements of this part.

Primary recipient is a recipient who receives DOT financial assistance and passes some or all of this assistance on to another recipient.

Program means any undertaking by a recipient to use DOT financial assistance, and includes the entire activity any part of which receives DOT financial assistance.

Recipient means any entity, public or private, to whom DOT financial assistance is extended, directly or through another recipient for any program.

Secretary means the Secretary of transportation or any person whom he/she has designated to act for him/her.

Set-aside means a technique which limits consideration of bids or proposals to those submitted by MBEs.

§ 23.41 General.

(a) Responsibilities of applicants and recipients. (1) All applicants and recipients shall follow the requirements of §23.43.

(2) Applicants and recipients in the following categories who will let DOT-assisted contracts shall implement an MBE program containing the elements set forth in §23.45 (e) through (i). This program shall be submitted for approval to the DOT element concerned with the application for financial assistance or project approval.

(i) Applicants for funds in excess of $250,000, exclusive of transit vehicle purchases, under sections 3, 5, 9, 9A, 17 and 18 of the Urban Mass Transportation Act of 1964, as amended, and Federal-aid urban systems.

(ii) Applicants for planning funds in excess of $100,000 under section 6, 8, 9 or 9A of the Urban Mass Transportation Act of 1964, as amended.

(iii) Applicants for Section 402 program funds of the National Highway Traffic Safety Administration;

(iv) Applicants for funds in excess of $250,000 awarded by the Federal Aviation Administration to general aviation airports;

(v) Applicants for funds in excess of $400,000 awarded by the Federal Aviation Administration to non-hub airports; and

(vi) Applicants for planning funds in excess of $75,000 awarded by the Federal Aviation Administration.

(vii) Licensees or applicants for a license under the Deepwater Port Act of 1974 (33 U.S.C. 1501 et seq.).

(3) All applicants and recipients in the following categories who will let DOT-assisted contracts shall implement an MBE program containing all the elements set forth in §23.45. The program shall be submitted for approval to the DOT element concerned with the application for assistance or project approval.

(i) Applicants for Federal-aid highway program funds;
Office of the Secretary of Transportation § 23.43

(ii) Applicants for funds in excess of $500,000, exclusive of transit vehicle purchases, under sections 3, 5, 9, 9A, 17 and 18 of the Urban Mass Transportation Act of 1964, as amended, and Federal-aid urban systems;

(iii) Applicants for planning funds in excess of $200,000 under section 6, 8, 9 and 9A of the Urban Mass Transportation Act of 1964, as amended.

(iv) Applicants for funds in excess of $500,000 awarded by the Federal Aviation Administration to large, medium and small hub airports; and

(v) Applicants for financial assistance programs, including loan guarantees, by the Federal Railroad Administration and the U.S. Railroad Association.

(b) Approval requirement. Applications and funding agreements are signed and authorizations to proceed are approved only after the applicant's MBE program has been approved by the Departmental element. This requirement applies to applications, authorizations to proceed requested by Federal-aid highway program recipients, and requests for draw downs from the U.S. Railroad Association submitted 90 days or more following the effective date of this part.

(c) Effect of agreement. The MBE program prepared by the applicant and the commitment made by the applicant to carry out the MBE program is incorporated into and becomes part of this agreement and subsequent financial assistance agreements. The agreement between the Department and the recipient shall contractually bind the recipient to the commitments made in the MBE program, as approved by the Department. Failure to keep these commitments shall be deemed noncompliance with this part. Once submitted and approved, an MBE program is applicable to all DOT-assisted contracts solicited and let by the applicant after the approval date of the MBE program regardless of the approval date of the grant or project under which the contracts are let.

(d) Other MBE programs. (1) Applicants meeting the criteria set forth in paragraphs (a)(2) and (3) of this section who have formulated MBE programs under previous requirements of DOT or other agencies shall revise these programs to conform to the requirements of this part prior to the approval of their next application.

(2) An MBE program approved by one Departmental element is acceptable to all Departmental elements. Applicants having an approved MBE program are not required to resubmit the program or to produce a new program for future applications, as long as all requirements for approval continue to be met and implementation of the program is achieving compliance. The Departmental element reassesses its approval of the MBE program of continuing recipients at least annually.

(e) Transit vehicle manufacturers. Transit vehicle manufacturers who wish to bid on UMTA-assisted transit vehicle procurement contracts shall have a UMTA-approved MBE program. Each UMTA recipient shall require these manufacturers to certify that they have such a program as a condition for bidding on UMTA-assisted contracts.

(f) Exemptions. The head of the Departmental element may, under appropriate circumstances, and with the concurrence of the Secretary, grant deviations or exemptions from this subpart. A request for deviation or exemption from this subpart shall be in writing and shall include a showing as to how the particular situation is exceptional and how the modified program complies substantially with this part. If the applicant asserts that State or local law prohibits it from including a particular provision in its program, the applicant shall provide copies of all legal citations supporting the claim.

§ 23.43 General requirements for recipients.

(a) Each recipient shall agree to abide by the statements in paragraphs (a)(1) and (2) of this section. These statements shall be included in the recipient's DOT financial assistance agreement and in all subsequent agreements between the recipient and any subrecipient and in all subsequent DOT-assisted contracts between recipients or subrecipients and any contractor.
§ 23.45 Required MBE program components.

(a) A policy statement, expressing a commitment to use MBEs in all aspects of contracting to the maximum extent feasible. (1) The applicant’s policymaking body (Board, Council, etc.) shall issue a policy statement, signed by the chairperson, which expresses its commitment to the program, outlines the various levels of responsibility and states

(1) “Policy. It is the policy of the Department of Transportation that minority business enterprises as defined in 49 CFR part 23 shall have the maximum opportunity to participate in the performance of contracts financed in whole or in part with Federal funds under this agreement. Consequently the MBE requirements of 49 CFR part 23 apply to this agreement.”

(2) “MBE Obligation. (i) The recipient or its contractor agrees to ensure that minority business enterprises as defined in 49 CFR part 23 have the maximum opportunity to participate in the performance of contracts and subcontracts financed in whole or in part with Federal funds provided under this agreement. In this regard all recipients or contractors shall take all necessary and reasonable steps in accordance with 49 CFR part 23 to ensure that minority business enterprises have the maximum opportunity to compete for and perform contracts. Recipients and their contractors shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of DOT-assisted contracts.”

(b) Each DOT financial assistance agreement shall include the following: “If as a condition of assistance the recipient has submitted and the Department has approved a minority business enterprise affirmative action program which the recipient agrees to carry out, this program is incorporated into this financial assistance agreement by reference. This program shall be treated as a legal obligation and failure to carry out the approved program the Department shall impose such sanctions as noted in 49 CFR part 23, subpart E, which sanctions may include termination of the agreement or other measures that may affect the ability of the recipient to obtain future DOT financial assistance.”

(c) The recipient shall advise each subrecipient, contractor, or subcontractor that failure to carry out the requirements set forth in paragraph (a) of this section shall constitute a breach of contract and, after the notification of the Department, may result in termination of the agreement or contract by the recipient or such remedy as the recipient deems appropriate.

(d) Recipients shall take action concerning lessees as follows:

(1) Recipients shall not exclude MBEs from participation in business opportunities by entering into long-term, exclusive agreements with non-MBEs for the operation of major transportation-related activities or major activities for the provision of goods and services to the facility or to the public on the facility.

(2) Recipients required to submit affirmative action programs under §23.41 (a)(2) or (a)(3) that have business opportunities for lessees shall submit to the Department for approval with their programs overall goals for the participation as lessees of firms owned and controlled by minorities and firms owned and controlled by women. These goals shall be for a specified period of time and shall be based on the factors listed in §23.45(g)(5). Recipients shall review these goals at least annually, and whenever the goals expire. The review shall analyze projected versus actual MBE participation during the period covered by the review and any changes in factual circumstances affecting the selection of goals. Following each review, the recipient shall submit new overall goals to the Department for approval. Recipients that fail to meet their goals for MBE lessees shall demonstrate to the Department in writing that they made reasonable efforts to meet the goals.

(3) Except as provided in this section, recipients are not required to include lessees in their affirmative action programs. Lessees themselves are not subject to the requirements of this part, except for the obligation of §23.7 to avoid discrimination against MBEs.

§ 23.45 Required MBE program components.

(a) A policy statement, expressing a commitment to use MBEs in all aspects of contracting to the maximum extent feasible. (1) The applicant’s policymaking body (Board, Council, etc.) shall issue a policy statement, signed by the chairperson, which expresses its commitment to the program, outlines the various levels of responsibility and states
the objectives of the program. The policy statement shall be circulated throughout the applicant’s organization and to minority, female, and non-minority community and business organizations.

(b) The designation of liaison officer, as well as such support staff as may be necessary and proper to administer the program, and a description of the authority, responsibility, and duties of the liaison officer and support staff. (1) The Chief Executive Officer of the recipient shall designate an MBE liaison officer and adequate staff to administer the MBE program. The MBE liaison officer shall report directly to the Chief Executive Officer.

(2) The MBE liaison officer shall be responsible for developing, managing, and implementing the MBE program on a day-to-day basis; for carrying out technical assistance activities for MBEs; and for disseminating information on available business opportunities so that MBEs are provided an equitable opportunity to bid on the applicant’s contracts.

(c) Procedures to ensure that MBEs have an equitable opportunity to compete for contracts and subcontracts. The recipient shall develop and use affirmative action techniques to facilitate MBE participation in contracting activities. These techniques include:

(1) Arranging solicitations, time for the presentation of bids, quantities, specifications, and delivery schedules so as to facilitate the participation of MBEs.

(2) Providing assistance to MBEs in overcoming barriers such as the inability to obtain bonding, financing, or technical assistance.

(3) Carrying out information and communications programs on contracting procedures and specific contracting opportunities in a timely manner, with such programs being bilingual where appropriate.

(d) Opportunities for the use of banks owned and controlled by minorities or women. (1) The recipient shall thoroughly investigate the full extent of services offered by banks owned and controlled by minorities or women in its community and make the greatest feasible use of these banks.

(2) Recipients shall also encourage prime contractors to use the services of banks owned and controlled by minorities or women.

(e) MBE directory. (1) The recipient shall have available a directory or source list to facilitate identifying MBEs with capabilities relevant to general contracting requirements and to particular solicitations. The recipient shall make the directory available to bidders and proposers in their efforts to meet the MBE requirements. It shall specify which firms the Department, recipient, or the Small Business Administration has determined to be eligible MBEs in accordance with procedures set forth in this subpart. Recipients subject to the disadvantaged business enterprise program requirements of subpart D of this part shall compile and update their directories annually. The directories shall include the addresses of listed firms.

(2) [Reserved]

(f) Procedures to ascertain the eligibility of MBEs and joint ventures involving MBEs. (1) To ensure that its MBE program benefits only firms owned and controlled by minorities or women, the recipient shall certify the eligibility of MBEs and joint ventures involving MBEs that are named by the competitors in accordance with this subpart. Recipients may, at their own discretion, accept certifications made by other DOT recipients.

(2) Recipients shall require their prime contractors to make good faith efforts to replace an MBE subcontractor that is unable to perform successfully with another MBE. The recipient shall approve all substitutions of subcontractors before bid opening and during contract performance, in order to ensure that the substitute firms are eligible MBEs.

(3) Recipients covered by the disadvantaged business program requirements of subpart D of this part shall, in determining whether a firm is an eligible disadvantaged business enterprise, take at least the following steps:

(i) Perform an on-site visit to the offices of the firm and to any job sites on which the firm is working at the time of the eligibility investigation;

(ii) Obtain the resumes or work histories of the principal owners of the
§ 23.45

202

49 CFR Subtitle A (10-1-98 Edition)

firm and personally interview these individuals;

(iii) Analyze the ownership of stock in the firm, if it is a corporation;

(iv) Analyze the bonding and financial capacity of the firm;

(v) Determine the work history of the firm, including contracts it has received and work it has completed;

(vi) Obtain or compile a list of equipment owned or available to the firm and the licenses of the firm and its key personnel to perform the work it seeks to do as part of the DBE program; and

(vii) Obtain a statement from the firm of the type of work it prefers to perform as part of the DBE program.

(g) Percentage goals for the dollar value of work to be awarded to MBEs. (1) Once the recipient has reviewed proposed contracting to identify those contracting activities which have the greatest potential for MBE participation, the recipient shall set goals that are practical and related to the potential availability of MBEs in desired areas of expertise.

(2) The applicant/recipient shall establish two types of MBE goals:

(i) Overall goals for its entire MBE program, for a specified period of time (e.g., one year), or for a specific project, (e.g., the construction of a facility); and

(ii) Contract goals on each specific prime contract with subcontracting possibilities, which the bidder or proposer must meet or exceed or demonstrate that it could not meet despite its best efforts.

(3)(i) Recipients shall submit their overall goals and a description of the methodology used in establishing them with their MBE program. When the overall goals expire, new overall goals shall be set and submitted to the Department for approval. Contract goals need not be submitted in the applicant's MBE program, but the program shall contain a description of the methodology to be used in establishing them. Contract goals may require approval by the Department prior to contract solicitation.

(ii) At the time the recipient submits its overall goals to the Department for approval, the recipient shall publish a notice announcing these goals, informing the public that the goals and a description of how they were selected are available for inspection during normal business hours at the principal office of the recipient for 30 days following the date of the notice, and informing the public that the Department and the recipient will accept comments on the goals for 45 days from the date of the notice. The notice shall include addresses to which comments may be sent, and shall be published in general circulation media and available minority-focus media and trade association publications, and shall state that the comments are for informational purposes only.

(4) Recipients covered by the disadvantaged business enterprise program requirements of subpart D of this part shall establish an overall goal and contract goal for firms owned and controlled by socially and economically disadvantaged individuals. Other recipients shall establish separate overall and contract goals for firms owned and controlled by minorities and firms owned and controlled by women, respectively.

(5) The applicant shall consider the following factors in setting overall goals:

(i) Overall goals shall be based on projection of the number and types of contracts to be awarded by the applicant and a projection of the number and types of MBEs likely to be available to compete for contracts from the recipient over the period during which the goals will be in effect.

(ii) Overall goals shall also be based on past results of the applicant's recipient's efforts to contract with MBEs and the reasons for the high or low level of those results.

(6) The applicant/recipient shall review the overall goals at least annually. The review process shall analyze projected versus actual MBE participation during the previous year. The necessary revisions shall be made based on the analysis and submitted to the Department for approval.

(7) Goals shall be set for specific contracts based on the known availability of qualified MBEs.

(8) Recipients and contractors shall, at a minimum, seek MBEs in the same geographic area in which they seek
contractors or subcontractors generally for a given solicitation. If the recipient or contractor cannot meet the goals using MBEs from this geographic area, the recipient or contractor, as part of its efforts to meet the goal, shall expand its search to a reasonable wider geographic area.

(h) A means to ensure that competitors make good faith efforts to meet MBE contract goals. (1) For all contracts for which contract goals have been established, the recipient shall, in the solicitation, inform competitors that the apparent successful competitor will be required to submit MBE participation information to the recipient and that the award of the contract will be conditioned upon satisfaction of the requirements established by the recipient pursuant to this subsection.

(i) The apparent successful competitor's submission shall include the following information:

(A) The names and addresses of MBE firms that will participate in the contract;

(B) A description of the work each named MBE firm will perform;

(C) The dollar amount of participation by each named MBE firm.

(ii) The recipient may select the time at which it requires MBE information to be submitted. Provided, that the time of submission shall be before the recipient commits itself to the performance of the contract by the apparent successful competitor.

(2) If the MBE participation submitted in response to paragraph (h)(1) of this section does not meet the MBE contract goals, the apparent successful competitor shall satisfy the recipient that the competitor has made good faith efforts to meet the goals.

(i) The recipient may prescribe other requirements of equal or greater effectiveness in lieu of good faith efforts. Any recipient choosing alternative requirements shall inform the DOT office concerned by letter of the content of the requirements it has prescribed within 30 days of the effective date of this subsection. The recipient may put these alternative requirements into effect immediately and prior DOT approval of alternative requirements is not necessary.

(ii) If the Department determines that the alternative requirements are not as or more effective than the good faith efforts provisions of this subsection, the Department may require the recipient to use the good faith efforts requirements of this subsection instead of the requirements it has prescribed.

(3) Meeting MBE contract goals, making good faith efforts as provided in paragraph (h)(2) of this section, or meeting requirements established by recipients in lieu of good faith efforts, is a condition of receiving a DOT-assisted contract for which contract goals have been established.

(i) [Reserved]

(j) A description of the methods by which the recipient will require subrecipients, contractors, and subcontractors to comply with applicable MBE requirements. (1) The recipient shall include in its MBE program a description and the specific language of any preconditions to subgrants or contracts pertaining to the use of MBEs, including subcontracting programs, it awards with DOT funds in addition to those required by this section. It shall specify on what size and/or type of contracts and subgrants it includes such preconditions. The description shall contain a summary of the ways the recipient provides help to its subrecipients, contractors, and subcontractors in drafting and implementing their programs for using MBEs. The description shall also include the means by which the recipient enforces the requirements placed on subrecipients, contractors and subcontractors.

(2) Any MBE subcontracting programs required by the recipient in addition to those required by this section shall be submitted to the recipient by the apparent successful bidder/proposer. The bidders/proposers shall be advised in the solicitation that failure to submit the additional MBE subcontracting program shall make the bidder/proposer ineligible for award.

(k) Procedures by which the applicant/recipient will implement MBE set-asides. Where not prohibited by state or local law and determined by the recipient to be necessary to meet MBE goals, procedures to implement MBE set-asides shall be established. MBE set-asides
§ 23.47 Counting MBE participation toward meeting MBE goals.

MBE participation shall be counted toward meeting MBE goals set in accordance with this subpart as follows:

(a) Once a firm is determined to be an eligible MBE in accordance with this subpart, the total dollar value of the contract awarded to the MBE is counted toward the applicable MBE goals.

(b) The total dollar value of a contract to an MBE owned and controlled by both minority males and non-minority females is counted toward the goals for minorities and women, respectively, in proportion to the percentage of ownership and control of each group in the business. The total dollar value of a contract with an MBE owned and controlled by minority women is counted toward either the minority goal or the goal for women, but not to both. The contractor or recipient employing the firm may choose the goal to which the contract value is applied.

APPENDIX A TO § 23.45—GUIDANCE CONCERNING GOOD FAITH EFFORTS

To determine whether a contractor that has failed to meet MBE contract goals may receive the contract, the recipient must decide whether the efforts the competitor made to obtain MBE participation were “good faith efforts” to meet the goals. Efforts that are merely pro forma are not good faith efforts to meet the goals. Efforts to obtain MBE participation are not good faith efforts to meet the goals, even if they are sincerely motivated, if, given all relevant circumstances, they could not reasonably be expected to produce a level of MBE participation sufficient to meet the goals. In order to award a contract to a competitor that has failed to meet MBE contract goals, the recipient must determine that the competitor’s efforts were those that, given all relevant circumstances, a competitor actively and aggressively seeking to meet the goals would make.

To assist recipients in making the required judgment, the Department has prepared a list of the kinds of efforts that contractors may make in obtaining MBE participation. It is not intended to be a mandatory checklist; the Department does not require recipients to insist that a contractor do any one, or any particular combination, of the things on the list. Nor is the list intended to be exclusive or exhaustive. Other factors or types of efforts may be relevant in appropriate cases. In determining whether a contractor has made good faith efforts, it will usually be important for a recipient to look not only at the different kinds of efforts that the contractor has made, but also the quantity and intensity of these efforts.

The Department offers the following list of kinds of efforts that recipients may consider:

1. Whether the contractor attended any pre-solicitation or pre-bid meetings that were scheduled by the recipient to inform MBEs of contracting and subcontracting opportunities;
2. Whether the contractor advertised in general circulation, trade association, and minority-focus media concerning the subcontracting opportunities;
3. Whether the contractor provided written notice to a reasonable number of specific MBEs that their interest in the contract was being solicited, in sufficient time to allow the MBEs to participate effectively;
4. Whether the contractor followed up initial solicitations of interest by contacting MBEs to determine with certainty whether the MBEs were interested;
5. Whether the contractor selected portions of the work to be performed by MBEs in order to increase the likelihood of meeting the MBE goals (including, where appropriate, breaking down contracts into economically feasible units to facilitate MBE participation);
6. Whether the contractor provided interested MBEs with adequate information about the plans, specifications and requirements of the contract;
7. Whether the contractor negotiated in good faith with interested MBEs, not rejecting MBEs as unqualified without sound reasons based on a thorough investigation of their capabilities;
8. Whether the contractor made efforts to assist interested MBEs in obtaining bonding, lines of credit, or insurance required by the recipient or contractor; and
9. Whether the contractor effectively used the services of available minority community organizations; minority contractors’ groups; local, state and Federal minority business assistance offices; and other organizations that provide assistance in the recruitment and placement of MBEs.

(c) A recipient or contractor may count toward its MBE goals a portion of the total dollar value of a contract with a joint venture eligible under the standards of this subpart equal to the percentage of the ownership and control of the MBE partner in the joint venture.

(d)(1) A recipient or contractor may count toward its MBE goals only expenditures to MBEs that perform a commercially useful function in the work of a contract. An MBE is considered to perform a commercially useful function when it is responsible for execution of a distinct element of the work of a contract and carrying out its responsibilities by actually performing, managing, and supervising the work involved. To determine whether an MBE is performing a commercially useful function, the recipient or contractor shall evaluate the amount of work subcontracted, industry practices, and other relevant factors.

(2) Consistent with normal industry practices, an MBE may enter into subcontracts. If an MBE contractor subcontracts a significantly greater portion of the work of the contract than would be expected on the basis of normal industry practices, the MBE shall be presumed not to be performing a commercially useful function. The MBE may present evidence to rebut this presumption to the recipient. The recipient’s decision on the rebuttal of this presumption is subject to review by the Department.

(e)(1) A recipient or contractor may count toward its MBE, DBE, or WBE goals 60 percent of its expenditures for materials and supplies required under a contract and obtained from an MBE, DBE, or WBE regular dealer, and 100 percent of such expenditures to an MBE, WBE, or DBE manufacturer.

(2) For purposes of this section, a manufacturer is a firm that operates or maintains a factory or establishment that produces on the premises the materials or supplies obtained by the recipient or contractor.

(3) For purposes of this section, a regular dealer is a firm that owns, operates, or maintains a store, warehouse, or other establishment in which the materials or supplies required for the performance of the contract are bought, kept in stock, and regularly sold to the public in the usual course of business. To be a regular dealer, the firm must engage in, as its principal business, and in its own name, the purchase and sale of the products in question. A regular dealer in such bulk items as steel, cement, gravel, stone, and petroleum products need not keep such products in stock, if it owns or operates distribution equipment. Brokers and packagers shall not be regarded as manufacturers or regular dealers within the meaning of this section.

(f) A recipient or contractor may count toward its MBE, DBE, or WBE goals the following expenditures to MBE, DBE, or WBE firms that are not manufacturers or regular dealers:

(1) The fees or commissions charged for providing a bona fide service, such as professional, technical, consultant or managerial services and assistance in the procurement of essential personnel, facilities, equipment, materials or supplies required for performance of the contract, provided that the fee or commission is determined by the recipient to be reasonable and not excessive as compared with fees customarily allowed for similar services.

(2) The fees charged for delivery of materials and supplies required on a job site (but not the cost of the materials and supplies themselves) when the hauler, trucker, or delivery service is not also the manufacturer of or a regular dealer in the materials and supplies, provided that the fee is determined by the recipient to be reasonable and not excessive as compared with fees customarily allowed for similar services.

(3) The fees or commissions charged for providing any bonds or insurance specifically required for the performance of the contract, provided that the fee or commission is determined by the recipient to be reasonable and not excessive as compared with fees customarily allowed for similar services.

§ 23.51 Certification of the eligibility of minority business enterprises.

(a) To ensure that this part benefits only MBEs which are owned and controlled in both form and substance by one or more minorities or women, DOT recipients shall use Schedules A and B (reproduced at the end of this part) to certify firms which wish to participate as MBEs in DOT under this part.

(b) Except as provided in paragraph (c) of this section, each business, including the MBE partner in a joint venture, wishing to participate as a MBE under this part in a DOT-assisted contract shall complete and submit Schedule A. Each entity wishing to participate as a joint venture MBE under this part in DOT-assisted contracts shall in addition complete and submit Schedule B. The schedule(s) shall be signed and notarized by the authorized representative of the business entity. A business seeking certification as an MBE shall submit the required schedules with its bid or proposal for transmission to the contracting agency involved.

(c) Under the following circumstances, a business seeking to participate as an MBE under this subpart need not submit schedule A or B:

(1) If a DOT recipient has established a different certification process that DOT has determined to be as or more effective than the process provided for by this section. Where such a process exists, potential MBE contractors shall submit the information required by the recipient’s process.

(2) If the potential MBE contractor states in writing that it has submitted the same information to or has been certified by the DOT recipient involved, any DOT element, or another Federal agency that uses essentially the same definition and ownership and control criteria as DOT. The potential MBE contractor shall obtain the information and certification (if any) from the other agency and submit it to the recipient or cause the other agency to submit it. The recipient may rely upon such a certification. Where another agency has collected information but not made a determination concerning eligibility, the DOT recipient shall make its own determination based on

§ 23.51 Certification of the eligibility of minority business enterprises.

(a) To ensure that this part benefits only MBEs which are owned and controlled in both form and substance by one or more minorities or women, DOT recipients shall use Schedules A and B (reproduced at the end of this part) to certify firms which wish to participate as MBEs in DOT under this part.

(b) Except as provided in paragraph (c) of this section, each business, including the MBE partner in a joint venture, wishing to participate as a MBE under this part in a DOT-assisted contract shall complete and submit Schedule A. Each entity wishing to participate as a joint venture MBE under this part in DOT-assisted contracts shall in addition complete and submit Schedule B. The schedule(s) shall be signed and notarized by the authorized representative of the business entity. A business seeking certification as an MBE shall submit the required schedules with its bid or proposal for transmission to the contracting agency involved.

(c) Under the following circumstances, a business seeking to participate as an MBE under this subpart need not submit schedule A or B:

(1) If a DOT recipient has established a different certification process that DOT has determined to be as or more effective than the process provided for by this section. Where such a process exists, potential MBE contractors shall submit the information required by the recipient’s process.

(2) If the potential MBE contractor states in writing that it has submitted the same information to or has been certified by the DOT recipient involved, any DOT element, or another Federal agency that uses essentially the same definition and ownership and control criteria as DOT. The potential MBE contractor shall obtain the information and certification (if any) from the other agency and submit it to the recipient or cause the other agency to submit it. The recipient may rely upon such a certification. Where another agency has collected information but not made a determination concerning eligibility, the DOT recipient shall make its own determination based on
the information it has obtained from the other agency.

(3) If the potential MBE contractor has been determined by the Small Business Administration to be owned and controlled by socially and economically disadvantaged individuals under section 8(a) of the Small Business Act, as amended.

§ 23.53 Eligibility standards.

(a) The following standards shall be used by recipients in determining whether a firm is owned and controlled by one or more minorities or women is and shall therefore be eligible to be certified as an MBE. Businesses aggrieved by the determination may appeal in accordance with procedures set forth in § 23.55.

(1) Bona fide minority group membership shall be established on the basis of the individual’s claim that he or she is a member of a minority group and is so regarded by that particular minority community. However, the recipient is not required to accept this claim if it determines the claim to be invalid.

(2) An eligible minority business enterprise under this part shall be an independent business. The ownership and control by minorities or women shall be real, substantial, and continuing and shall go beyond the pro forma ownership of the firm as reflected in its ownership documents. The minority or women owners shall enjoy the customary incidents of ownership and shall share in the risks and profits commensurate with their ownership interests, as demonstrated by an examination of the substance rather than form of arrangements. Recognition of the business as a separate entity for tax or corporate purposes is not necessarily sufficient for recognition as an MBE. In determining whether a potential MBE is an independent business, DOT recipients shall consider all relevant factors, including the date the business was established, the adequacy of its resources for the work of the contract, and the degree to which financial, equipment leasing, and other relationships with nonminority firms vary from industry practice.

(3) The minority or women owners shall also possess the power to direct or cause the direction of the management and policies of the firm and to make the day-to-day as well as major decisions on matters of management, policy, and operations. The firm shall not be subject to any formal or informal restrictions which limit the customary discretion of the minority or women owners. There shall be no restrictions through, for example, bylaw provisions, partnership agreements, or charter requirements for cumulative voting rights or otherwise that prevent the minority or women owners, without the cooperation or vote of any owner who is not a minority or woman, from making a business decision of the firm.

(4) If the owners of the firm who are not minorities or women are disproportionately responsible for the operation of the firm, then the firm is not controlled by minorities or women and shall not be considered an MBE within the meaning of this part. Where the actual management of the firm is contracted out to individuals other than the owner, those persons who have the ultimate power to hire and fire the managers can, for the purposes of this part, be considered as controlling the business.

(5) All securities which constitute ownership and/or control of a corporation for purposes of establishing it as an MBE under this part shall be held directly by minorities or women. No securities held in trust, or by any guardian for a minor, shall be considered as held by minority or women in determining the ownership or control of a corporation.

(6) The contributions of capital or expertise by the minority or women owners to acquire their interests in the firm shall be real and substantial. Examples of insufficient contributions include a promise to contribute capital, a note payable to the firm or its owners who are not socially and economically disadvantaged, or the mere participation as an employee, rather than as a manager.

(b) In addition to the above standards, DOT recipients shall give special consideration to the following circumstances in determining eligibility under this part.
§ 23.55

(1) Newly formed firms and firms whose ownership and/or control has changed since the date of the advertisement of the contract are closely scrutinized to determine the reasons for the timing of the formation of or change in the firm.

(2) A previous and/or continuing employer-employee relationship between or among present owners is carefully reviewed to ensure that the employee-owner has management responsibilities and capabilities discussed in this section.

(3) Any relationship between an MBE and a business which is not an MBE which has an interest in the MBE is carefully reviewed to determine if the interest of the non-MBE conflicts with the ownership and control requirements of this section.

(c) A joint venture is eligible under this part if the MBE partner of the joint venture meets the standards for an eligible MBE set forth above and the MBE partner is responsible for a clearly defined portion of the work to be performed and shares in the ownership, control, management responsibilities, risks, and profits of the joint venture.

(d) A joint venture is eligible to compete in an MBE set-aside under this part if the MBE partner of the joint venture meets the standards for an eligible MBE set forth above and the MBE partner's share in the ownership, control, and management responsibilities, risks, and profits of the joint venture is at least 51 percent and the MBE partner is responsible for a clearly defined portion of the work to be performed.

(e) A business wishing to be certified as an MBE or joint venture MBE by a DOT recipient shall cooperate with the recipient in supplying additional information which may be requested in order to make a determination.

(f) Once certified, an MBE shall update its submission annually by submitting a new Schedule A or certifying that the Schedule A on file is still accurate. At any time there is a change in ownership or control of the firm, the MBE shall submit a new Schedule A.

(g) Except as provided in §23.55, the denial of a certification by the Department or a recipient shall be final, for that contract and other contracts being let by the recipient at the time of the denial of certification. MBEs and joint ventures denied certification may correct deficiencies in their ownership and control and apply for certification only for future contracts.

(h) Recipients shall safeguard from disclosure to unauthorized persons information that reasonably may be regarded as confidential business information, consistent with Federal, state and local law.

§ 23.55 Appeals of denials of certification as an MBE.

(a) Filing. Any firm which believes that it has been wrongly denied certification as an MBE or joint venture under §§23.51 and 23.53 by the Department or a recipient of DOT financial assistance may file an appeal in writing, signed and dated, with the Department. The appeal shall be filed no later than 180 days after the date of denial of certification. The Secretary may extend the time for filing or waive the time limit in the interest of justice, specifying in writing the reasons for so doing. Third parties who have reason to believe that another firm has been wrongly denied or granted certification as an MBE or joint venture may advise the Secretary. This information is not considered an appeal pursuant to this section.

(b) Decision to investigate. The Secretary ensures that a prompt investigation is made pursuant to prescribed DOT title VI investigation procedures.

(c) Status of certification during the investigation. The Secretary may at his/her discretion, deny the MBE or joint venture in question eligibility to participate as an MBE DOT-assisted contracts let during the pendency of the investigation, after providing the MBE or joint venture in question an opportunity to show cause by written statement to the Secretary why this should not occur.

(d) Cooperation in investigation. All parties shall cooperate fully with the investigation. Failure or refusal to furnish requested information or other failure to cooperate is a violation of this part.

(e) Determinations. The Secretary makes one of the following determinations and informs the MBE or joint
venture in writing of the reasons for the determination:
(1) The MBE or joint venture is certified; or
(2) The MBE or joint venture is not eligible to be certified and is denied eligibility to participate as an MBE in any direct or DOT-assisted contract until a new application for certification is approved by the recipient.

Subpart D—Implementation of Section 105(f) of the Surface Transportation Assistance Act of 1982

SOURCE: 48 FR 33442, July 21, 1983, unless otherwise noted.

§ 23.61 Purpose.
(a) The purpose of this subpart is to implement section 106(c) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (Pub. L. 100–17) and section 105(f) of the Airport and Airway Safety and Capacity Expansion Act of 1987 (Pub. L. 100–223) so that, except to the extent the Secretary determines otherwise, not less than ten percent of the funds authorized by the Act for the programs listed in §23.63 of this subpart is expended with small business concerns owned and controlled by socially and economically disadvantaged individuals.
(b) The ten percent level of participation for disadvantaged businesses established by section 106(c) and section 105(f) will be achieved if recipients under the programs covered by this subpart set and meet overall disadvantaged business goals of at least ten percent.

§ 23.62 Definitions.
The following definitions apply to this subpart. Where these definitions are inconsistent with the definitions of §23.5 of this part, these definitions control for all other purposes under this part.

Disadvantaged business means a small business concern: (a) Which is at least 51 percent owned by one or more socially and economically disadvantaged individuals, or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more socially and economically disadvantaged individuals; and (b) whose management and daily business operations are controlled by one or more of the socially and economically disadvantaged individuals who own it.

Small business concern means a small business as defined pursuant to section 3 of the Small Business Act and relevant regulations promulgated pursuant thereto except that a small business concern shall not include any concern or group of concerns controlled by the same socially and economically disadvantaged individual or individuals which has annual average gross receipts in excess of $14 million over the previous three fiscal years. The Secretary shall adjust this figure from time to time for inflation.

Socially and economically disadvantaged individuals means those individuals who are citizens of the United States (or lawfully admitted permanent residents) and who are women, Black Americans, Hispanic Americans, Native Americans, Asian-Pacific Americans, or Asian-Indian Americans and any other minorities or individuals found to be disadvantaged by the Small Business Administration pursuant to section 8(a) of the Small Business Act. Recipients shall make a rebuttable presumption that individuals in the following groups are socially and economically disadvantaged. Recipients also may determine, on a case-by-case basis, that individuals who are not a member of one of the following groups are socially and economically disadvantaged.

(a) Black Americans which includes persons having origins in any of the Black racial groups of Africa;
(b) Hispanic Americans which includes persons of Mexican, Puerto Rican, Cuban, Central or South American, or
§ 23.63 Applicability.

This subpart applies to all DOT financial assistance in the following categories that recipients expend in DOT-assisted contracts:

(a) Federal-aid highway funds authorized by title I of the Act;

(b) Urban mass transportation funds authorized by title I or III of the Act or the Urban Mass Transportation Act of 1964, as amended; and

(c) Funds authorized by title I, II (except section 203) or III of the Surface Transportation Assistance Act of 1982 (Pub. L. 97-424) and obligated on or after April 2, 1987.

(d) Funds authorized under section title I of the Airport and Airway Safety and Capacity Expansion Act of 1987 (Pub. L. 100-223).

§ 23.64 Submission of overall goals.

(a) Each recipient of funds to which this subpart applies that is required to have an MBE program under §23.41 of this part shall establish an overall goal for the use of disadvantaged businesses.

(b) Each recipient required to establish an overall goal shall calculate it in terms of a percentage of one of the following bases, as applicable:

(1) For recipients of Federal-aid highway funds, all such funds that the recipient will expend in DOT-assisted contracts in the forthcoming fiscal year; or

(2) For recipients of urban mass transportation or airport funds, all such funds (exclusive of funds to be expended for purchases of transit vehicles) that the recipient will expend in DOT-assisted contracts in the forthcoming fiscal year. In appropriate cases, the UMTA or FAA Administrator may permit recipients to express overall goals as a percentage of funds for a particular grant, project, or group of grants and/or projects.

(c) Each recipient of Federal-aid highway funds, urban mass transportation funds, or airport funds shall submit its overall goal to FHWA or UMTA or FAA, as appropriate, for approval 60 days before the beginning of the Federal fiscal year to which the goal applies. An UMTA or FAA recipient calculating its overall goal as a percentage of funds for a particular grant, project, or group of grants or projects shall submit its overall goal to UMTA or FAA at a time determined by the UMTA or FAA Administrator.

(d) Recipients submitting a goal of ten percent or more shall submit the goal under the procedures set forth in §23.45(g) of this part.

(e) If an FHWA or UMTA or FAA recipient requests approval of an overall goal of less than ten percent, the recipient shall take the following steps in addition to those set forth in §23.45(g) of this part:

(1) Submit with its request a justification including the elements set forth in §23.65;

(2) Ensure that the request is signed, or concurred in, by the Governor of the state (in the case of a state transportation agency), the Mayor or other elected official(s) responsible for the operation of a mass transit agency; or, with respect to an airport sponsor, the elected official, head of the board, or other official responsible for the operation of the sponsor, and

(3) Consult with minority and general contractors’ associations, community organizations, and other officials or organizations which could be expected to have information concerning the availability of disadvantaged businesses and the adequacy of the recipient’s efforts to increase the participation of such businesses. If it appears to the Administrator that the recipient has failed to consult with a relevant person or organization, the Administrator may direct...
the recipient to consult with that person or organization.

§ 23.65 Content of justification.

An FHWA or UMTA or FAA recipient requesting approval of an overall goal of less than ten percent shall include information on the following points in its justification. Guidance concerning this information is found in appendix D.

(a) The recipient's efforts to locate disadvantaged businesses;

(b) The recipient's efforts to make disadvantaged businesses aware of contracting opportunities;

(c) The recipient's initiatives to encourage and develop disadvantaged businesses;

(d) Legal or other barriers impeding the participation of disadvantaged businesses at at least a ten percent level in the recipient's DOT-assisted contracts, and the recipient's efforts to overcome or mitigate the effects of these barriers;

(e) The availability of disadvantaged businesses to work on the recipient's DOT-assisted contracts;

(f) The size and other characteristics of the minority population of the recipient's jurisdiction, and the relevance of these factors to the availability or potential availability of disadvantaged businesses to work on the recipient's DOT-assisted contracts; and

(g) A summary of the views and information concerning the availability of disadvantaged businesses and the adequacy of the recipient's efforts to increase the participation of such businesses provided by the persons and organizations consulted by the recipient under § 23.64(f)(3).

§ 23.66 Approval and disapproval of overall goals.

(a) The Administrator reviews and approves any overall goal of ten percent or more submitted by a recipient as provided in § 23.45(g) of this part.

(b) The Administrator of the concerned Departmental element approves a requested goal of less than ten percent if he or she determines, on the basis of the recipient's justification and any other information available to the Administrator, that

(1) The recipient is making all appropriate efforts to increase disadvantaged business participation in its DOT-assisted contracts to a ten percent level; and

(2) Despite the recipient's efforts, the recipient's requested goal represents a reasonable expectation for the participation of disadvantaged businesses in its DOT-assisted contracts, given the availability of disadvantaged businesses to work on these contracts.

(c) Before approving or disapproving a requested goal of less than ten percent, the Administrator provides the Director of the DOT Office of Small and Disadvantaged Business Utilization with an opportunity to review and comment on the request.

(d) If the Administrator does not approve the goal the recipient has requested, the Administrator, after consulting with the recipient, establishes an adjusted overall goal. The adjusted overall goal represents the Administrator's determination of a reasonable expectation for the participation of disadvantaged businesses in the recipient's DOT-assisted contracts, and is based on the information provided by the recipient and/or other information available to the Administrator.

(e) The Administrator may condition the approval or establishment of any overall goal on any reasonable future action by the recipient.

§ 23.67 Special provision for transit vehicle manufacturers.

(a) Each UMTA recipient shall require that each transit vehicle manufacturer, as a condition of being authorized to bid on transit vehicle procurements in which UMTA funds participate, certify that it has complied with the requirements of this section. This requirement shall go into effect on October 1, 1983.

(b) Each manufacturer shall establish and submit for the UMTA Administrator's approval an annual percentage overall goal. The base from which the goal is calculated shall be the amount of UMTA financial assistance participating in transit vehicle contracts to
be performed by the manufacturer during the fiscal year in question. Funds attributable to work performed outside the United States and its territories, possessions, and commonwealths shall be excluded from this base. The requirements and procedures of §23.64 (d) and (e)(1) and §§23.65–23.66 of this subpart shall apply to transit vehicle manufacturers as they apply to recipients.

(c) The manufacturer may make the certification called for in paragraph (a) if it has submitted the goal required by paragraph (b) and the UMTA Administrator has either approved it or not disapproved it.

§ 23.68 Compliance.

(a) Compliance with the requirements of this subpart is enforced through the provisions of this section, not through the provisions of subpart E of this part.

(b) Failure of a recipient to have an approved MBE program, including an approved overall goal, as required by §23.64 of this subpart, is noncompliance with this subpart.

(c) If a recipient fails to meet an approved overall goal, it shall have the opportunity to explain to the Administrator of the concerned Department element why the goal could not be achieved and why meeting the goal was beyond the recipient's control.

(d)(1) If the recipient does not make such an explanation, or if the Administrator determines that the recipient's explanation does not justify the failure to meet the approved overall goal, the Administrator may direct the recipient to take appropriate remedial action. Failure to take remedial action directed by the Administrator is noncompliance with this subpart.

(2) Before the Administrator determines whether a recipient's explanation justifies its failure to meet the approved overall goal, the Administrator gives the Director, Office of Small and Disadvantaged Business Utilization, an opportunity to review and comment on the recipient's explanation.

(e)(1) In the event of noncompliance with this subpart by a recipient of Federal-aid highway funds, the FHWA Administrator may take any action provided for in 23 CFR 1.36.

(2) In the event of noncompliance with this subpart by a recipient of funds administered by UMTA or FAA, the UMTA or FAA Administrator may take appropriate enforcement action. Such action may include the suspension or termination of Federal funds or the refusal to approve projects, grants, or contracts until deficiencies are remedied.

§ 23.69 Challenge procedure.

(a) Each recipient required to establish an overall goal under §23.64 shall establish a challenge procedure consistent with this section to determine whether an individual presumed to be socially and economically disadvantaged as provided in §23.62 is in fact socially and economically disadvantaged.

(b) The recipient's challenge procedure shall provide as follows:

(1) Any third party may challenge the socially and economically disadvantaged status of any individual (except an individual who has a current 8(a) certification from the Small Business Administration) presumed to be socially and economically disadvantaged if that individual is an owner of a firm certified by or seeking certification from the recipient as a disadvantaged business. The challenge shall be made in writing to the recipient.

(2) With its letter, the challenging party shall include all information available to it relevant to a determination of whether the challenged party is in fact socially and economically disadvantaged.

(i) If the recipient determines that there is not reason to believe that the challenged party is in fact socially and economically disadvantaged.

(3) The recipient shall determine, on the basis of the information provided by the challenging party, whether there is reason to believe that the challenged party is in fact not socially and economically disadvantaged.

(i) If the recipient determines that there is not reason to believe that the challenged party is not socially and economically disadvantaged, the recipient shall so inform the challenging party in writing. This terminates the proceeding.
(ii) If the recipient determines that there is reason to believe that the challenged party is not socially and economically disadvantaged, the recipient shall begin a proceeding as provided in paragraphs (b) (4), (5), and (6) of this section.

(4) The recipient shall notify the challenged party in writing that his or her status as a socially and economically disadvantaged individual has been challenged. The notice shall identify the challenging party and summarize the grounds for the challenge. The notice shall also require the challenged party to provide to the recipient, within a reasonable time, information sufficient to permit the recipient to evaluate his or her status as a socially and economically disadvantaged individual.

(5) The recipient shall evaluate the information available to it and make a proposed determination of the social and economic disadvantage of the challenged party. The recipient shall notify both parties of this proposed determination in writing, setting forth the reasons for its proposal. The recipient shall provide an opportunity to the parties for an informal hearing, at which they can respond to this proposed determination in writing and in person.

(6) Following the informal hearing, the recipient shall make a final determination. The recipient shall inform the parties in writing of the final determination, setting forth the reasons for its decision.

(7) In making the determinations called for in paragraphs (b) (3), (5), and (6) of this section, the recipient shall use the standards set forth in appendix C to this subpart.

(8) During the pendency of a challenge under this section, the presumption that the challenged party is a socially and economically disadvantaged individual shall remain in effect.

(c) The final determination of the recipient under paragraphs (b)(3)(i) and (b)(6) may be appealed to the Department by the adversely affected party to the proceeding under the procedures of §23.55 of this part.

APPENDIX A TO SUBPART D—SECTION-BY-SECTION ANALYSIS

This section-by-section analysis describes the provisions of the final rule. This material is normally published in the preamble to the final rule. However, the Department believes that it may be useful to recipients, contractors, and the public to publish this information in an appendix to the final regulation. As a result, this information will be available to users of the Code of Federal Regulations as well as to persons who have access to the Federal Register print of the regulation.

Section 23.61 Purpose.

This section states that the purpose of subpart D is to implement section 106(c) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 and section 105(f) of the Airport and Airway Safety and Capacity Expansion Act of 1987. The rest of the section restates the text of the statute and states that the ten percent level of disadvantaged business participation established by the statute will be achieved if recipients set and meet goals of at least ten percent. The Department of Transportation is committed to carrying out section 106(c) and section 105(f) and achieving its objectives, and intends to enforce the obligations of the recipients and contractors under section 106(c) and section 105(f) and 49 CFR part 23.

Section 23.62 Definitions.

As used in subpart D, the word Act means the Surface Transportation and Uniform Relocation Assistance Act of 1987 and the Airport and Airway Safety and Capacity Expansion Act of 1987. The definition of the term disadvantaged business in subpart D is very similar to the definition of the term minority business enterprise used for other purposes in 49 CFR part 23. A different term is employed in recognition of the fact that a slightly different set of individuals is eligible to own and control a disadvantaged business than is eligible to own and control a minority business enterprise. In other cases, at least 51 percent of the business must be owned by one or more of the eligible individuals, and the firm's management and daily business operations must be controlled by one or more of the eligible individuals who own it. It is important to note that the business owners themselves must control the operations of the business. Absentee ownership, or titular ownership by an individual who does not take an active role in controlling the business, is not consistent with eligibility as a disadvantaged business under this regulation. In order to be an eligible disadvantaged business, a firm...
must meet the criteria of §23.53 of this regulation and must be certified as 49 CFR part 23 provides.

Small business concern is defined as a small business meeting the standards of section 3 of the Small Business Act and relevant regulations that implement it. These regulations are summarized in appendix B to the subpart. It should be emphasized that any business which fails to qualify under the standards as a small concern, including a firm certified by SBA under the 8(a) program, cannot be certified as a disadvantaged business, even though it is owned and controlled by socially and economically disadvantaged individuals. Since the small business status of a firm can change over the years, we recommend that recipients make a point of reviewing periodically the small business status of firms with existing certifications periodically to make sure that they still qualify.

Congress determined, in order to ensure that the DBE program meets its objective of helping small minority businesses become self-sufficient and able to compete in the market with non-disadvantaged firms, that DBE firms should “graduate” from the program once their average annual receipts reach $14 million.

In implementing this provision, recipients should note that a firm is not “graduated” from the program, and hence no longer an eligible DBE, until its average annual gross receipts over the previous three-year period exceed $14 million. The fact that a firm exceeds $14 million in gross receipts in a single year does not necessarily result in “graduation.” For example, suppose a firm has the following history:

1985—$11 million
1986—$13 million
1987—$34 million
1988—$14 million
1989—$15 million

The firm makes $14 million in 1987. However, the firm’s average annual gross receipts for 1985-87 are $12.67 million, so the firm remains eligible in 1988. This hypothetical firm would remain eligible in 1989 as well, since its average annual gross receipts for 1986-88 would be $13.67 million. However, the firm’s average annual gross receipts for 1987-89 would be $14.3 million. As a result, the firm would not be eligible in 1990.

It should also be pointed out the $14 million ceiling, like small business size limits under section 3 of the Small Business Act, includes revenues of “affiliates” of the firm as well as the firm itself. This is the import of the “any concern or group of concerns” language. In addition, firms still are subject to applicable lower limits on business size established by the Small Business Administration in 13 CFR part 121. For example, if SBA regulations say that $7.5 million average gross annual revenues is the size limit for a certain type of business, that size limit, rather than the overall $14 million ceiling, determines whether the firm qualifies in terms of its size to be a DBE.

Socially and economically disadvantaged individuals is the term that defines the persons eligible to own and control a disadvantaged business. The term includes the following groups: First, anyone who is socially and economically disadvantaged by SBA under the 8(a) program is regarded as socially and economically disadvantaged for the purpose of DOT-assisted programs. Second, any individual who is a member of one of the designated groups (Black Americans, Hispanic Americans, Native Americans, Asian-Pacific Americans, and Asian Indian-Americans or women) is rebuttably presumed to be socially and economically disadvantaged. By rebuttably presumed, we mean that the socially and economically disadvantaged status of any individual who is a member of one of the groups is normally assumed by the recipient. With the exception of persons whose origins are from Burma and Thailand the members of these presumed groups are exactly the same persons who are considered to be minorities for purposes of the §23.5 definition of “minority.”

Individuals whose origins are from Burma and Thailand are not presumed to be socially and economically disadvantaged individuals for purposes of subpart D. This means that firms owned and controlled by such individuals are eligible to be considered as MBEs for purposes of FRA, NHTSA and other DOT financial assistance programs but not as disadvantaged businesses for purposes of FHWA, UMTA and FAA programs (unless their owners are determined to be socially and economically disadvantaged on an individual basis). If SBA determines any additional groups to be presumptively socially and economically disadvantaged, these groups will become eligible for consideration as owners of disadvantaged businesses on the same basis as Black Americans, Hispanic Americans, and members of the other presumptive groups.

A recipient may, through its certification program, determine that individuals who are not members of any of the presumptive groups are socially and economically disadvantaged. On this basis, for example, disabled Vietnam veterans, Appalachian white males, Hasidic Jews, or any other individuals who are able to demonstrate to the recipient that they are socially and economically disadvantaged may be treated as eligible to own and control a disadvantaged business, on the same basis as a member of one of the presumptive groups. It must be emphasized that these individuals are not determined to be socially and economically disadvantaged on the basis of their group membership. Rather, the social and economic disadvantage of each must be determined on an individual.
case-by-case basis. Guidance for making these determinations is found in appendix C.

Section 23.63 Applicability.

This section provides that subpart D applies to all DOT financial assistance in a number of categories that recipients expend “in DOT-assisted contracts.” The last phrase is very important. The base from which goals are calculated is not the total amount of money which each recipient receives from FHWA or FAA or UMTA. It is the amount of money that the recipient expends in DOT-assisted contracts. Funds that the recipient does not expend in contracts (i.e., funds spent by an FHWA or FAA recipient to acquire land or pay its own employees to supervise construction; funds used by an UMTA recipient to pay salaries of bus drivers) are not part of the base from which the overall goal is calculated. Only those funds to be expended by the recipient in contracts are available to create contracting opportunities for disadvantaged businesses, so only these funds comprise the base from which goals for the use of disadvantaged businesses are calculated.

The first category of program funds to which subpart D applies is Federal-aid highway funds authorized by title I of the Act. The second category is urban mass transportation funds authorized by title I (i.e., inter-state transfer and substitution funds) or title III of the Act. The third category is funds authorized by title I, title II (except section 202), or title III of the Surface Transportation Assistance Act of 1982 which were obligated on or after April 2, 1987 (the enactment date of the STURAA). The provisions of subpart D also apply to the FAA-administered airport funds authorized by the Airport and Airway Safety and Capacity Expansion Act of 1987.

Section 23.64 Submission of Overall Goals.

This section concerns the procedures for submission of overall goals to be used by recipients of funds covered by this subpart. Paragraph (a) is intended to avoid the imposition of new administrative burdens on recipients of relatively low amounts of DOT financial assistance. This paragraph provides that only those recipients who are required by 49 CFR part 23 to have MBE programs under 49 CFR part 23 must comply with the goal setting requirements of subpart D. This includes all state transportation agencies who receive FHWA funds and UMTA recipients who receive at least $250,000 in UMTA capital and operating funds, exclusive of funds for transit vehicle purchases, or $100,000 in UMTA planning funds. Recipients of FAA airport program funds who receive planning funds in excess of $75,000 or more than $250,000 (general aviation airports), $400,000 (non-hub airports), or $500,000 (hub airports) in FAA assistance also must submit overall goals. UMTA or FAA recipients who are not required to have an MBE program by §23.41 need not comply with the goal setting provisions of subpart D.

Paragraph (b) describes how recipients calculate their overall goals. Recipients of FHWA funds use as the base for calculating their percentage goal all Federal-aid funds that the recipient will expend in DOT-assisted contracts in the forthcoming fiscal year. Funds authorized by section 202 of the STAA are considered to be Federal-aid highway funds for this purpose. For UMTA or FAA funds, the base is all Federal funds (exclusive of funds to be expended for transit vehicle purchases) that the recipient will expend in DOT-assisted contracts in the forthcoming fiscal year. The UMTA or FAA Administrator may, however, allow recipients to base their goals on Federal funds received for a particular grant, project, or group of grants or projects.

The Department is aware that recipients may not be aware of the exact amount of Federal funds to be received or to be used in Federally-assisted contracts in the forthcoming fiscal year. However, it is reasonable to expect that recipients will have a close enough projection so that they can determine a reasonable expectation for disadvantaged business participation expressed in percentage terms.

Paragraph (c) provides that, with the exception of UMTA or FAA recipients calculating their goals on a grant or project basis, each UMTA, FHWA, or FAA recipient which must submit an overall goal is required to do so by the August 1 preceding the beginning of the fiscal year to which the goals apply. For example, goal submissions pertaining to fiscal year 1985 are due August 1, 1984. In the case of Fiscal Year 1984, DOT expects recipients to submit overall goals for approval as close to August 1 as possible.

Paragraph (d) provides that, if the recipient is submitting a goal of ten percent or more, the recipient simply submits the goal under the procedures of §23.45(g) of this part, exactly in the manner that goals have been required to be submitted under the existing regulation.

Paragraph (e) concerns the situation in which a recipient is requesting approval of an overall goal of less than ten percent. Such a recipient is required to comply with the steps set forth in §23.45(g). However, it is required to take three additional steps. First, it must submit a justification for its request containing the information listed in §23.65.

Second, it must ensure that the request is signed or concurred in by the Governor of the state (in the case of a state transportation agency) or the Mayor or other elected official responsible for the operation of a
mass transit agency. If the official responsible for the operation of a mass transit agency or airport sponsor is not a Mayor, another appropriate elected official or officials should provide the signature or concurrence (e.g., a County Executive, the Chairman of a Board of Directors for a transit authority consisting of elected officials, etc.). The reason for this requirement is to ensure that a request for a goal of less than ten percent has the backing of the responsible elected official. This should help to prevent frivolous requests or requests based solely on the views of the non-elected staff of a state or local agency. It is also intended to protect the Department from becoming involved in a disagreement between, for example, a state transportation agency and a governor over disadvantaged business policy. It will also signal to the Department that a request for a lower goal has the backing of the highest responsible elected official involved with the jurisdiction.

The third requirement is that, before making a request for a goal of less than ten percent, the recipient must consult with minority and general contracting associations, community organizations (particularly minority community organizations) and other officials or organizations which can be expected to have information concerning the availability of disadvantaged businesses and the adequacy of recipients' efforts to increase the participation of such businesses. This consultation need not involve a formal public comment period. However, it should involve contact between responsible official(s) of the recipient and representatives of the organizations consulted, which should also have the opportunity to provide written information.

The provision is based on the belief that the organizations consulted are likely to be in a position to give the recipient useful information concerning the availability of disadvantaged businesses and the effectiveness of and problems with the recipient's efforts to increase disadvantaged business participation. The information sought in the consultation is intended to include the views of the consulted parties on the points listed in paragraph (a)—(f) of §23.65. Such information is important to the recipient in formulating a request for a goal of less than ten percent, the Department in evaluating such a request, and to both the recipient and the Department in attempting to determine what additional steps would be appropriate to increase disadvantaged business participation in the future.

There may be some circumstances in which a recipient will have failed to consult with a party whose information could be very useful to the formulation and evaluation of a request for a goal less than ten percent. If the Administrator becomes aware of such a case, the Administrator has the discretion to tell the recipient to go back and consult with that party. Pending this further consultation, the Administrator would not approve the request for a goal of less than ten percent.

Section 23.65 lists the types of information that a recipient seeking a goal of less than ten percent must provide to the Administrator. The purpose of this information is to enable the Department to make an informed determination of what the reasonable expectation for the recipient's disadvantaged business participation level is for the forthcoming fiscal year. These items of information are discussed in greater detail in appendix D. In the absence of a justification, the FHWA, UMTA, or FAA Administrators will not be able to consider a request for a goal of less than ten percent.

Section 23.66 Approval and Disapproval of Overall Goals.

Paragraph (a) of this section concerns the situation in which a recipient submits for approval an overall goal of ten percent or more. In response to such a request, the Administrator follows the review and approval procedure provided in §23.48(g) of the existing rule. The FHWA, UMTA, or FAA Administrators will review and approve goals submitted under this paragraph in the same manner and in accordance with the same policies as they have reviewed and approved overall goals under the existing 49 CFR part 23.

Paragraph (b) concerns a situation in which a recipient has requested approval of a goal of less than ten percent. In order to approve the goal the recipient has requested, the Administrator must make two determinations. First, the Administrator must determine that the recipient is making all appropriate efforts to increase disadvantaged participation on its DOT-assisted contracts to at least a ten percent level. Second, the Administrator must determine that, despite the recipient’s efforts, the goal requested by the recipient is the reasonable expectation, short of ten percent, for the participation of disadvantaged businesses in its DOT-assisted contracts, given the availability of disadvantaged businesses to work on these contracts.

Both of these determinations are very important. The concept of a goal as the reasonable expectation for the recipient’s performance recognizes the possibility that there may be limits, related to the availability of disadvantaged businesses, that prevent the attainment of a ten percent goal. Before granting a request for a goal below ten percent, the Administrator must determine that such a limit does in fact exist. However, the idea of a reasonable expectation also assumes that the recipient is doing everything
it can to increase disadvantaged business participation, both by seeking to increase the availability of disadvantaged businesses and seeking to increase the ability of available disadvantaged businesses to work on its contracts. If the recipient is not taking all appropriate steps to increase disadvantaged business participation, then the goal it has requested is not its reasonable expectation for recipient’s disadvantaged business participation. This adjusted overall goal is on information provided by the recipient or any other information available to the Administrator from other sources, including input from interested groups and the past performance of the recipient or other recipients whose situation is analogous to that of the recipient in question. In approving either the goal requested by the recipient or in establishing an adjusted overall goal, the Administrator may condition the approval or establishment of an overall goal on any reasonable future action by the recipient.

Section 23.67 Special Provision for Transit Vehicle Manufacturers.

This section addresses the special situation of the purchase of transit vehicles by UMTA recipients. The intent of this section is to provide a simplified method by which transit vehicle manufacturers and UMTA recipients can meet disadvantaged business obligations. The Department does not directly regulate transit vehicle manufacturers, since they are not the recipients of Federal financial assistance from UMTA. Rather, they are contractors to UMTA recipients. Consequently, paragraph (a) imposes the basic obligation of this section on UMTA recipients themselves.

Paragraph (a) is a requirement that UMTA recipients condition the authority of manufacturers to bid on UMTA-assisted transit vehicle procurements on a certification by the manufacturer that it has complied with the other provisions of this section. In order to permit manufacturers reasonable start-up time, and to avoid disruption of the whole procurement process, this requirement does not go into effect until October 1, 1983.

Paragraph (b) requires that, in order to make this certification, manufacturers have UMTA-approved overall goal. The base for calculating these goals is the amount of UMTA financial assistance participating in transit vehicle contracts to be performed by the manufacturer during the fiscal year in question. The Department is aware that UMTA recipients order some vehicles from foreign manufacturers and that the vehicles produced by domestic manufacturers use foreign components in some cases. The Department’s regulation does not, of course, have extraterritorial application. Consequently, the manufacturer may exclude from the base from which the goal is calculated the value of the work performed abroad. For example, suppose an UMTA recipient buys a bus from a Canadian manufacturer for $100,000. Fifty percent of the work on the bus is performed in Canada. In this case, the amount of funds contributing toward the base from which the manufacturer’s goal is calculated is $40,000 (i.e., eighty percent of the $50,000 of the value of the bus attributable to work performed in the United States).

In submitting an overall goal for the UMTA Administrator’s approval, the manufacturer is required to follow the same procedures as recipients with respect to timing, justification of goals, etc. The Administrator follows the same criteria and has the same authority with respect to approval and condition of recipient’s overall goals as he or she does with respect to recipient’s goals. The UMTA Administrator may issue additional guidance with respect to procedures for the submission of overall goals and the content or justification of overall goals that take into account special circumstances of transit vehicle manufacturers, if this appears appropriate.

Paragraph (c) provides that the manufacturer may make the certification to recipients required by paragraph (a) if it has submitted the goals provided for by this section and the UMTA Administrator has either approved them or not disapproved them. This provision is intended to prevent delays in transit vehicle procurements.

Section 23.68 Compliance.

Paragraph (a) points out that compliance with subpart D, as distinguished from compliance with other portions of the regulation, is enforced through §23.68 rather than through subpart E of the regulation. For example, a recipient’s failure to have an approved overall goal as required by subpart D would be treated under §23.68. A complaint of discrimination against a recipient by a particular disadvantaged business would be handled under the procedures of subpart E. Paragraphs (b) and (d)(1) list the three circumstances in which a recipient may find itself in noncompliance with subpart D. These are the only three circumstances in which a recipient may be in noncompliance with subpart D. While a recipient may be in noncompliance with 49 CFR part 23 for other reasons, these other types of noncompliance are handled through the procedures of subpart E.

Paragraph (b) names the first two situations in which a recipient may be found in noncompliance with subpart D. First, the recipient can be in noncompliance by failing to
have an approved overall goal as required by §23.64. This includes not only the situation in which the recipient does not submit a goal to the Department for approval, but also situations in which a recipient does not accept an adjusted overall goal established by the Administrator or fails or refuses to carry out conditions established by the Administrator under §23.6(e).

Second, a recipient may be in noncompliance if it does not have an approved disadvantaged business program. Subpart D does not, in itself, require the creation of such a program. However, such a program, as prescribed by other provisions of 49 CFR part 23, is essential if a recipient is to comply with the disadvantaged business participation requirements of subpart D. Consequently, the failure to have a program, or failure to have a program which fully meets the requirements of 49 CFR part 23, is noncompliance with subpart D.

For example, 49 CFR part 23 requires that, before a recipient awards a contract, it ensure that the apparent successful bidder has met the contract goal or has demonstrated good faith efforts to do so. If a recipient’s program does not provide for making this determination before the award of contract, but instead provides for checking the disadvantaged business participation efforts of the contractor only after the award of the contract, the recipient has a program that does not conform to 49 CFR part 23. The recipient may therefore be found in noncompliance with subpart D.

Paragraphs (c) and (d)(1) concern the procedure that recipients and the Department must follow when a recipient is failing or has fallen short of its approved overall goal. The goal-setting process is intended to determine, in advance, the reasonable expectation for the recipient’s disadvantaged business participation. These paragraphs are intended to provide for the situation in which the recipient’s performance does not meet this expectation. At any time the Administrator requests it, or at the recipient’s own initiative, the recipient would make an explanation to the Administrator concerning why the goal could not be achieved. This explanation, if it is to be satisfactory to the Administrator, must demonstrate that recipient’s failure to meet the goal is for reasons beyond the recipient’s control.

For example, if the recipient expected substantial disadvantaged business participation in a major project, and the project was postponed by litigation or a natural disaster, the recipient could make a case that its failure to meet the goal was attributable to factors beyond its control. A situation that might arise more frequently concerns the failure of contractors to meet contract goals. Under the Department’s regulation, recipients may award contracts to contractors who do not meet contract goals if these contractors demonstrate to the recipient that they have made good faith efforts to do so. It is conceivable that a recipient would have set contract goals commensurate with its overall goal, would have given appropriate scrutiny to the claims of contractors that they made unsuccessful but good faith efforts to meet these contract goals, and awarded contracts to contractors who did not meet contract goals in a number of instances. Collectively, these contract awards would cause the recipient to fall below its overall goal.

The Administrator may take circumstances of this kind into account in determining whether a recipient’s failure to meet its overall goal was because of factors beyond the recipient’s control. In doing so, however, the Administrator also must consider the degree of scrutiny by the recipients of contractors’ claims of unsuccessful good faith efforts and the efforts the recipient made in order to make up for shortfalls in particular contracts and prevent such shortfalls in other contracts.

If the recipient’s explanation that factors beyond its control prevented achievement of the overall goal is determined by the Administrator to justify the failure to reach the goal, the matter is closed. If the recipient does not provide an explanation or if the Administrator determines that the recipient’s explanation is not adequate, the Administrator may take the additional step of directing the recipient to take appropriate remedial action. Remedial action includes prospective steps to improve disadvantaged business participation, such as additional outreach, assistance to disadvantaged businesses or, where not inconsistent with state or local law, the use of set-asides. In order to take the remedial steps which the Administrator prescribes, the recipient may have to devote additional resources to the task.

Failure or refusal by the recipient to take these remedial steps is the third form of noncompliance with subpart D. The Department wants to make it very clear that failure to meet an overall goal, as such, does not constitute noncompliance with subpart D. However, if the recipient fails to meet the goal, does not satisfactorily explain its failure to meet the goal as being beyond its control, and then fails or refuses to take remedial steps prescribed by the Administrator, it would be in noncompliance.

Paragraph (e) sets forth the sources of sanctions for recipient noncompliance under subpart D. These sanctions are the same measures that are available to the FHWA, UMTA or FAA Administrator with respect to the failure of a recipient to carry out any condition of receiving Federal financial assistance.
Section 23.69 Challenge Procedure.

The proposal in the NPRM to make the presumption of social and economic disadvantage rebuttable caused some confusion among recipients who commented. They asked whether this meant that they had to investigate the social and economic status of each business owner that sought certification for programs covered by subpart D. They also asked by what criteria, and through what procedure, the rebuttable presumption would be applied.

This section is intended to answer these questions. First, the basic meaning of a presumption of social and economic disadvantage is that the recipient assumes that a member of the designated groups is socially and economically disadvantaged. In making certification decisions, the recipient relies on this presumption, and does not investigate the social and economic status of individuals who fall into one of the presumptive groups.

However, saying that the presumption is rebuttable means that a third party may challenge the actual social and economic disadvantage of a business owner who has received or is seeking certification for his firm. The procedures for making such a challenge are spelled out in this section. They are set forth in detail in §23.69 and are basically self-explanatory. Two points deserve emphasis. First, the procedures are intended to be informal. Recipients are not required to establish elaborate court-like tribunals, use strict rules of evidence, etc. Second, while a challenge is in progress, the presumption of social and economic disadvantage remains in effect. Therefore, if a firm has been certified, and the social and economic disadvantage of its owner is under challenge, the firm continues to be certified and eligible to be considered a disadvantaged business for purposes of the recipient’s DOT-assisted contracting activities.

Amendments to §23.41(a)

The NPRM proposed to make technical amendments to §23.41(a)(2)(i) and §23.41(a)(3)(ii). These amendments added additional UMTA funding sources (e.g. Section 9A) to the list of sources from which funds would contribute toward the threshold amounts for determining whether UMTA recipients had to have MBE programs. There were no comments on these proposed changes. These amendments are adopted unchanged from the NPRM. The final rule makes similar amendments to §23.41(a)(2)(i) and (a)(3)(ii).

Relationship Between Subpart D and the Remainder of 49 CFR Part 23

In order to prevent uncertainty, the Department wishes to restate the relationship between subpart D and the remainder of 49 CFR part 23. Under 49 CFR part 23, certain recipients are required to have MBE programs. It is only these recipients who are required to follow the provisions of subpart D. Recipients who do not implement Subpart D do so only with respect to their FHWA and UMTA programs cited in subpart D. For example, a state department of transportation receiving funds from FHWA, UMTA, NHTSA, FRA, and FAA would be required to follow the subpart D goal procedures with respect only to its FHWA and UMTA funds. It would not be required to do so for its FAA, NHTSA, and FRA funds. The recipient would continue to follow all applicable procedures of 49 CFR part 23 with respect to the FAA, FRA, and the NHTSA funds.

With respect to FHWA and UMTA-assisted programs, recipients will now set only one DBE goal, at both the overall and contract goal level. There are no longer separate DBE and WBE goals. Rather, the single DBE goal applies to all DBEs, whether they are owned and controlled by minorities or by women.

The contract award procedures of 49 CFR part 23 apply to contracts under subpart D just as they do to contracts under other provisions of 49 CFR part 23. Recipients may award contracts to those successful bidders who meet contract goals or demonstrate that they made good faith efforts to do so.

Recipients must certify the eligibility of firms to participate under subpart D programs just as they do with respect to programs covered by other provisions of 49 CFR part 23. For businesses owned and controlled by members of the presumptive groups listed in the definition of socially and economically disadvantaged individuals in subpart D, the certification process is, with one exception, exactly the same as the certification process that has existed all along under 49 CFR part 23. The exception is that individuals with origins in Burma, Thailand, and Portugal are presumed to be socially and economically disadvantaged. They can be eligible under subpart D only if they successfully demonstrate to the recipient that they are socially and economically disadvantaged as individuals.

However, businesses owned and controlled by individuals with origins in these countries continue to be eligible minority businesses under other provisions of 49 CFR part 23. The result is that these firms may be certified for participation in FAA, FRA, NHTSA, or other DOT-assisted programs as before, but must make an individual showing of social and economic disadvantage in order to be regarded as eligible to participate in FHWA and UMTA programs as disadvantaged businesses. The same requirement for an individual determination of social and economic disadvantage applies to any individual who is not a member of one of the presumptive groups, such as a nonminority woman, a handicapped person, etc.
Decertification Procedures

Substantial concern has been expressed about the infiltration of DOT-assisted programs by “fronts”—businesses that claim to be owned and controlled by minorities, women, or other disadvantaged individuals, but which, in fact, are ineligible for participation in DOT-assisted programs as MBES, WBEs or disadvantaged businesses. The Department wants to take this opportunity to reemphasize the importance of scrutiny of all firms seeking to participate in DOT-assisted programs. We believe strongly that recipients should take prompt action to ensure that only firms meeting the eligibility criteria of 49 CFR part 23 participate as MBES, WBEs, or disadvantaged businesses in DOT-assisted programs. This means not only that recipients should carefully check the eligibility of firms applying for certification for the first time, but also that they should review the eligibility of firms with existing certifications in order to ensure that they are still eligible. A firm’s circumstances, organization, ownership or control can change over time, resulting in a once-eligible firm becoming ineligible. A second look at a firm previously found to be eligible may reveal factors leading, on renewed consideration, to a determination that it is ineligible.

49 CFR part 23 does not, as presently drafted, prescribe any particular procedures for actions by recipients to remove the eligibility of firms that they have previously treated as eligible. When a recipient comes to believe that a firm with a current certification is not eligible, the Department recommends that the recipients take certain steps before removing the firm’s eligibility. The recipient should inform the firm in writing of its concerns about the firm’s eligibility, give the firm an opportunity to respond to these concerns in person and in writing, and provide the firm a written explanation of the reasons for the recipient’s final decision. This process may be brief and informal. For example, the firm’s opportunity to respond to the recipient’s concerns need not involve a formal court-type hearing. However, in the interest of ensuring that eligibility removal decisions are made fairly, these steps should take place before a firm’s eligibility is removed. The Department believes that such a procedure in so-called “decertification” cases will make the procedure fairer and better administratively, as well as help prevent unnecessary procedural litigation. Procedures of this kind are not a regulatory requirement, but the Department believes that, as a matter of policy, that they are advisable for recipients to use.

Once a recipient has made a final decision on certification, that determination goes into effect immediately with respect to the recipient’s DOT-assisted contracts (see §23.53(g)). If a firm that has been denied certification or has been decertified appeals the recipient’s action to the Department under §23.55, or if a third party challenges the recipient’s decision to certify the firm under §23.55, the recipient’s action remains in effect until and unless the Department makes a determination under §23.55 reversing the recipient’s action. The recipient’s action is not stayed during the pendancy of a §23.55 appeal.

For example, if a recipient has decertified a firm and the firm appeals the decertification to DOT, the firm remains ineligible for consideration as a disadvantaged business with respect to the recipient’s DOT-assisted programs until and unless the Department finds that the firm is eligible. Likewise, if the recipient has certified the firm as eligible, the firm remains eligible while the Department’s consideration of a third party’s challenge to its eligibility is pending. The Department has followed this policy and interpretation of its regulations consistently under the existing rule, and we will continue to do so with respect to subpart D.

There is only one exception to this rule. Section 23.55(c) provides that, in appropriate cases, the Secretary may deny the firm in question eligibility to participate as an MBE (or disadvantaged business) on DOT-assisted contracts let during the pendancy of the investigation, after providing the firm an opportunity to show cause by written statement to the Secretary why this should not occur. This paragraph is intended, and has been consistently interpreted and applied by the Department, to cover only a situation in which the recipient has decided that a firm is eligible and a third party has challenged the correctness of the recipient’s determination. As a matter of policy, the Department believes that the award of contracts to ineligible firms is a very serious blow to the integrity of the Department’s program. Consequently, if it appears to the Department that a challenged firm’s eligibility is in serious doubt, the Department, under §23.55(c), can administratively “enjoin” the firm’s participation pending a final determination on the merits of the challenge to its certification. This provision does not, however, authorize the Department to maintain a firm’s eligibility in effect pending the outcome of the §23.55 Appeal, when the recipient has refused to certify or has decertified the firm.

Appendix B to Subpart D—Determinations of Business Size

In determining the eligibility of businesses for purposes of 49 CFR part 23, recipients
must determine whether or not a business is a small business concern as defined by section 3 of the Small Business Act. If a business is not a small business concern according to these standards, then it is not eligible to participate as an MBE, WBE, or disadvantaged business under 40 CFR part 23. This is true even though the business may be owned and controlled by minorities, women, or socially and economically disadvantaged individuals and is eligible in all other respects. Even a firm certified by the SBA under the 8(a) program is not eligible under this regulation if it is not a small business.

In determining whether a business is a small business concern, recipients should apply the standards established by the Small Business Administration in 13 CFR part 121. In particular, recipients should refer to §121.3-8 (Definition of Small Business for Government Procurement) and §121.3-12 (Definition of Small Business for Government Subcontractors). This appendix lists the most frequent applications of these sections to the kinds of contracting done by FHWA and UMTA recipients. For information on types of businesses not listed in this appendix (e.g., manufacturers), recipients should consult §121.3-8 and the appendices to 13 CFR part 121.

Recipients should apply the following size standards:

1. Subcontracts of $10,000 or less: A business is small if, including its affiliates, it does not have more than 500 employees.
2. Subcontracts over $10,000 and prime contracts:

A business is regarded as small if it meets the following criteria:

(a) Construction:

(1) General Construction (in which less than 75 percent of the work falls into one of the categories in paragraph (2)): The firm's average annual receipts for the three preceding fiscal years do not exceed $12 million.

(2) Special trade contractors:

<table>

</tbody>
</table>

APPENDIX C TO SUBPART D—GUIDANCE FOR MAKING DETERMINATIONS OF SOCIAL AND ECONOMIC DISADVANTAGE

Before making any determination of social and economic disadvantage, the recipient should always determine whether a firm is a small business concern. If it is not, then the firm is not eligible to be considered a disadvantaged business, and no further determinations need be made.

Under the definition of “socially and economically disadvantaged individual” used in subpart D of this part, members of the named groups (Black Americans, Hispanic Americans, Native Americans, Asian Pacific Americans, and Asian-Indian Americans) and persons certified as socially and economically disadvantaged by the Small Business Administration (SBA) under the SBA’s section 8(a) program are presumed to be both socially and economically disadvantaged. This presumption is rebuttable. This means that, as part of a challenge to the eligibility of a firm a recipient has certified under §23.69 of this regulation, a third party may present evidence that the firm’s owners are not truly socially and/or economically disadvantaged, even though they are members of one of the presumptive groups. Recipients must follow the challenge procedure in §23.69 when a challenge is made, using this appendix for guidance in making determinations under that procedure.

Under the regulation, anyone who has been certified by SBA under its 8(a) program as socially and economically disadvantaged is automatically considered to be a socially and economically disadvantaged individual
for purposes of this regulation. However, the absence of an 8(a) certification does not mean that an individual or firm is ineligible under this regulation.

Recipients should continue the existing practice of making their own judgments about whether an individual is in fact a member of one of the presumptive groups. If an individual has not maintained identification with the group to the extent that he or she is commonly recognized as a group member, it is unlikely that he or she will in fact have suffered the social disadvantage which members of the group are presumed to have experiences. If an individual has not held himself or herself out to be a member of one of the groups, has not acted as a member of a community of disadvantaged persons, and would not be identified by persons in the population at large as belonging to the disadvantaged group, the individual should be required to demonstrate social disadvantage on an individual basis.

For example, an individual could demonstrate that he had a Chinese ancestor. However, this hypothetical person has never lived in a Chinese-American community, has held himself out to be white for driver's license or other official records purposes, has not previously claimed to be a Chinese-American, and would not be perceived by others in either the Chinese-American community or non-minority community to be a Chinese-American (or any other sort of Asian-Pacific American) by virtue of his appearance, culture, language or associations.

The recipient should not regard this individual as an Asian-Pacific American.

Individuals who are not presumed to be socially and economically disadvantaged by virtue of membership in one of these groups may, nevertheless, be found to be socially and economically disadvantaged on a case-by-case basis. If an individual requests that his or her business be certified as an eligible disadvantaged business under subpart D, the recipient, as part of its certification process, is responsible for making a determination of social and economic disadvantage.

In making determinations of social and economic disadvantage, recipients should be guided by the following standards, which have been adopted from materials prepared by the SBA.

A. SOCIAL DISADVANTAGE

(2) Elements of Social Disadvantage. In order to determine that an individual is socially disadvantaged, the recipient must conclude that the individual meets the following standards:

(i) The individual's social disadvantage must stem from his or her color; national origin; gender; physical handicap; long-term residence in an environment isolated from the mainstream of American society; or other similar causes beyond the individual's control. The individual cannot establish social disadvantage on the basis of factors which are common to small business persons who are not socially disadvantaged. For example, because of their marginal financial status, many small businesses have difficulty obtaining credit through normal banking channels. An individual predating a social disadvantage claim on denial of bank credit to his or her firm would have to establish that the denial was based on one or more of the listed causes, or similar causes—not simply on the individual's or the firm's marginal financial status.

(ii) The individual must demonstrate that he or she has personally suffered social disadvantage, not merely claim membership in a non-designated group which could be considered socially disadvantaged. This can be achieved, for example, by describing specific instances of discrimination which the individual has experienced, or by recounting in some detail how his or her development in the business world has been thwarted by one or more of the listed causes or similar causes. As a general rule, the more specific an explanation of how one has personally suffered social disadvantage, the more persuasive it will be. In assessing such facts, the recipient should place substantial weight on prior administrative or judicial findings of discrimination experienced by the individual. Such findings, however, are not necessarily conclusive evidence of an individual's social disadvantage; nor are they a prerequisite for establishing social disadvantage.

(iii) The individual's social disadvantage must be rooted in treatment which he or she has experienced in American society, not in other countries.

(iv) The individual's social disadvantage must be chronic, longstanding, and substantial, not fleeting or insignificant. Typically, a number of incidents illustrating a person's social disadvantage, occurring over a substantial period of time, would be necessary to make a successful claim. Usually, only by demonstrating a series of obstacles which have impeded one's progress in the business world can an individual demonstrate chronic, longstanding, and substantial social disadvantage.

(v) The individual's social disadvantage must have negatively affected his or her entry into, and/or advancement in, the business world.

The closer the individual can link social disadvantage to impairment of business opportunities, the stronger the case. For example, the recipient should place little weight on annoying incidents experienced by an individual which have had little or no impact on the person's career or business development. On the other hand, the recipient...
Office of the Secretary of Transportation

should place greater weight on concrete occurrences which have tangibly disadvantaged an individual in the business world.

(2) Evidence of Social Disadvantage. The recipient should consider, as evidence of an individual’s claim of social disadvantage, any relevant evidence in support of an individual’s claim of social disadvantage. In addition to a personal statement from the individual, any related reports, letters, or other documentation in support of matters discussed in the personal statement. The recipient should consider such evidence, as evidence of an individual’s social disadvantage, in the following experiences of the individual, where relevant: education, employment, and business history. However, if the individual’s personal statements relating to other matters as well. Moreover, the attainment of a quality education or job should not absolutely disqualify the individual from being found socially disadvantaged if other evidence of social disadvantage is presented by the recipient.

(i) Education. The recipient should consider, as evidence of an individual’s social disadvantage, denial of equal access to business or professional schools; denial of equal access to curricula; exclusion from social and professional association with students and teachers; denial of educational honors; social patterns or pressures which have discouraged the individual from pursuing a professional or business education; and other similar factors.

(ii) Employment. The recipient should consider, as evidence of an individual’s social disadvantage, discrimination in hiring; discrimination in promotions and other aspects of professional advancement; discrimination in pay and fringe benefits; discrimination in other terms and conditions of employment; retaliatory behavior by an employer; social patterns or pressures which have channelled the individual into non-professional or non-business fields; and other similar factors.

(iii) Business History. The recipient should consider, as evidence of an individual’s social disadvantage, acquisition of credit or capital; acquisition of credit under unfavorable circumstances; discrimination in receipt (award and/or bid) of government contracts; discrimination by potential clients; exclusion from business or professional organizations; and other similar factors which have retarded the individual’s business development.

B. Economic Disadvantage

Recipients should always make a determination of social disadvantage before proceeding to make a determination of economic disadvantage. If the recipient determines that the individual is not socially disadvantaged, it is not necessary to make the economic disadvantage determination.

As a general rule, economically disadvantaged individuals are socially disadvantaged individuals whose ability to compete in the free enterprise system has been impaired due to diminished capital and credit opportunities, as compared to others in the same or similar line of business and competitive market area who are not socially disadvantaged. In determining the degree of diminished credit and capital opportunities of a socially disadvantaged individual, consideration will be given to both the disadvantaged individual and the applicant concern with which he or she is affiliated.

In considering the economic disadvantage of firms and owners, it is important for recipients to understand that they are making a comparative judgment about relative disadvantage. Obviously, someone who is destitute is not likely to be in any position to own a business. The test is not absolute deprivation, but rather disadvantage compared to business owners who are not socially disadvantaged individuals and firms owned by such individuals.

It is the responsibility of applicant firms and their owners to provide information to the recipient about their economic situation when they seek eligibility as disadvantaged businesses. Recipients are encouraged to become knowledgeable about the types of businesses with which they deal, so that they can make a reasonably informed comparison between an applicant firm and other firms in the same line of business. Recipients are not required to make a detailed, point-by-point, accountant-like comparison of the businesses involved. Recipients are expected to make a basic judgment about the characteristics and its socially disadvantaged owner(s) are in a more difficult economic situation than most firms (including established firms) and owners who are not socially disadvantaged.

Other Eligibility Considerations

It is very important for recipients to realize that making a determination of social and economic disadvantage, standing alone, does not mean that a firm is eligible. The recipient must also determine that the firm is 51 percent owned by socially and economically disadvantaged individuals and that these individuals control the firm. In making these latter determinations, recipients should continue to follow 23.51-23.53 of subpart C of 49 CFR part 23.

If a firm or other party believes that any recipient’s social and economic disadvantage determination is in error, the firm or party may make an administrative certification appeal to the Department as provided in 49 CFR 23.55.
APPENDIX D TO SUBPART D—JUSTIFICATION FOR REQUESTS FOR APPROVAL OF OVERALL GOALS OF LESS THAN TEN PERCENT

The purpose of a justification for a request for approval of an overall goal of less than ten percent is to explain why the goal requested by the recipient is the reasonable expectation for the participation of disadvantaged businesses in the recipient's DOT-assisted contracts. The justification has two basic elements. First, the recipient should show that it is doing as much as it can to increase disadvantaged business participation to at least a ten percent level. Second, the recipient should show that, given the availability of disadvantaged businesses, the requested goal is the reasonable expectation for the level of disadvantaged business participation that these efforts are likely to obtain.

With respect to the specific elements of the justification listed in §23.65, the Department offers the following guidance, usually in the form of questions the answers to which will help the Department make an informed decision. It should be emphasized that this material is guidance, and is not intended to create a regulatory requirement or a mandatory list of the contents for recipient's submissions. However, it will help the Department to make expeditious and well-informed decisions if recipients provide reasonably complete and detailed information. Doing so will also facilitate suggestions by the Department on additional ways recipients can increase disadvantaged business participation.

(a) Efforts to locate disadvantaged businesses. What contacts has the recipient made with sources of information about disadvantaged businesses (such as minority contractors, associations, the Commerce Department's Minority Business Development Administration, DOT Office of Small and Disadvantaged Utilization (and its Program Management Centers), and other recipients' directories of disadvantaged businesses)? In what geographic areas has it sought to locate additional disadvantaged businesses? Have these or other information sources produced additional names of disadvantaged businesses potentially available to work on the recipient's DOT-assisted contract? What follow-up was done with respect to these firms?

(b) Efforts to make disadvantaged businesses aware of contracting opportunities. What steps does the recipient take through publications, advertising, pre-bid conferences, direct contact, putting disadvantaged businesses in touch with firms that may bid on prime contracts, and other means to let disadvantaged businesses know about specific contracting and subcontracting opportunities as they arise? (Activity of this kind by the recipient is important because, in many cases, disadvantaged businesses may not be in a position to learn of contracting opportunities through informal communications networks available to non-disadvantaged firms.)

(c) Initiatives to encourage and develop disadvantaged businesses. What is the recipient doing to assist the formation and growth of disadvantaged firms, by means such as training, technical assistance, financial assistance and involvement of other sources of support (such as the FWA Supportive Services Program and other Federal, state, or local agencies and associations)? What has the recipient done to facilitate the ability of disadvantaged businesses to perform contracts (e.g., splitting a large contract or project into smaller segments that disadvantaged businesses can more readily perform)?

(d) Legal or other barriers to disadvantaged business participation. What specific barriers to disadvantaged business participation has the recipient identified? (Common barriers include bonding, prequalification and licensing requirements; difficulty in obtaining financing; any state or local residency requirement or preference, or any other formal or informal limitations on the area from which disadvantaged businesses are sought; and the reluctance of some members of the non-disadvantaged contracting community to use firms owned and controlled by socially and economically disadvantaged persons.) What is the recipient doing about the barriers it has identified? (Examples of efforts to overcome or mitigate the effect of these barriers include changes to or exceptions from state or local requirements as they affect disadvantaged businesses, technical or financial assistance to disadvantaged businesses to help them meet existing requirements, or cooperative efforts with financial institutions and non-minority contractors' associations.)

(e) The availability of disadvantaged businesses. How many disadvantaged businesses are available to perform work for the recipient on DOT-assisted contracts? The starting point for the recipient's information should be its directory or list of certified disadvantaged businesses. The number of firms in this directory may not give a complete picture, however. Disadvantaged firms in other jurisdictions, not currently certified by the recipient, may be willing and able to work on the recipient's contracts. On the other hand, firms in the directory may have limited availability (e.g., lack of interest in the recipient's work, other commitments, limitations of the amount of work they can handle). In some cases (e.g., where a state spends a large portion of its funds on a single large project requiring very specialized contractors), the availability of work that disadvantaged firms can perform could be a limitation. The recipient, as appropriate, should...
Office of the Secretary of Transportation

§ 23.73 Complaints.

(a) Filing. Any person who believes himself or herself, another person, or any specific class of individuals to be subjected to a violation of this part may file a complaint in writing, signed and dated, with the Department. The complaint shall be filed no later than 180 days after the date of any alleged violation or the dates on which a continuing course of conduct in violation of this part was disclosed. The Secretary may extend the time for filing or waive the time limit in the interest of justice, specifying in writing the reason for so doing.

(b) Investigations. The Secretary ensures that a prompt investigation is made pursuant to prescribed DOT Title VI investigation procedures.

(c) Cooperation in investigation. The respondent to the complaint shall cooperate fully with the investigation. Failure or refusal by the respondent to furnish requested information or other failure to cooperate is a violation of this part.

(d) Determinations. Upon completion of the investigation, the Secretary informs the recipient or contractor and complainant of the results of the investigation in writing. If the investigation indicates a failure to comply with this part, the conciliation procedures of §23.83 and, if necessary, the enforcement procedures of §23.83 are followed.

(e) Intimidation or retaliation acts prohibited. No recipient, contractor, or other person shall intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by this part, or because he or she made a complaint, testified, assisted, or participated in any manner in an investigation, proceeding, or hearing under this part. The identity of complainants shall be kept confidential at their election and during the conduct of any investigation, proceeding, or hearing under this part. But when such confidentiality is likely to hinder the investigation the complainant shall be advised for the purpose of waiving the privilege.

§ 23.75 Compliance reviews of recipients.

(a) Desk audit. All compliance reviews conducted after financial assistance has been approved or contracts have been awarded begin with a desk audit. The desk audit is a review of all material and information concerning the recipient's MBE performance.

(b) On-site review. An on-site review includes interviews, visits to project or facility sites receiving DOT funds, and inspection of any statistical or documentary materials relevant to the recipient's performance which were not available for review during the desk audit.

(c) Cooperation. The recipient shall cooperate fully with these reviews. Failure or refusal to furnish requested
§ 23.81 Conciliation procedures for financial assistance programs.

(a) Reasonable cause notice. Whenever the responsible office of civil rights makes a determination of reasonable cause to believe that a recipient is in noncompliance, a notice is sent promptly and in writing by registered mail, return receipt requested, describing the areas of noncompliance requiring the applicant or recipient to show cause within 30 days why enforcement proceedings or other appropriate action to ensure compliance should not be instituted and offering the recipient an opportunity to conciliate. The responsible office of civil rights shall pursue conciliation efforts for at least 30 days from the date of the reasonable cause notice.

(1) Successful conciliation. If a conciliation agreement is signed by the Departmental element's office of civil rights and recipient, it is approved or disapproved by the head of the Departmental element within 20 days of receiving it. If the head of the Departmental element disapproves the agreement, the reasons therefor are stated in writing. The head of the Departmental element may propose amendments to the agreement which are forwarded to the recipient, requesting the recipient's acceptance or rejection of the amended agreement within 20 days of receipt.

(2) Unsuccessful conciliation. If no agreement is signed within 120 days of the notice of reasonable cause enforcement proceedings set forth in §23.83 begin. The head of the responsible office of civil rights, upon a written determination that an additional 30 days are needed to complete conciliation, may extend the conciliation period for 30 days. Subsequent extensions may be made upon such written determinations. The determinations shall include reasons for the extension and shall be provided to the complainant and respondent.

(b) Effect of conciliation agreement. If a conciliation agreement is approved, the existence of the determination of noncompliance does not act as a bar to the provision of financial assistance as long as the terms of the agreement are fulfilled. A compliance review is conducted by the Department element within nine months of the approval of an agreement.

§ 23.83 Enforcement proceedings for financial assistance programs.

(a) Whenever conciliation efforts pursuant to §23.81 are unsuccessful, enforcement proceedings begin. These proceedings are conducted in accordance with the Department's procedures for enforcing title VI (49 CFR part 21).

(b) A finding of noncompliance and the imposition of any sanction pursuant to these proceedings is binding on all other Departmental elements. Sanctions are limited to the recipient with respect to whom the noncompliance finding has been made and to the particular program or activity, or part thereof, in which noncompliance has been found.

§ 23.85 Emergency enforcement procedure.

(a) General. Whenever the Secretary determines that the conciliation and enforcement proceedings set forth in §§23.81 and 23.83 will not result in the timely and adequate enforcement of the provisions of this part, he/she initiates special enforcement procedures to obtain compliance.

(b) Emergency reasonable cause notice. A notice is sent, registered mail, return receipt requested, describing the reasons why the normal course of conciliation and enforcement pursuant to §§23.81 and 23.83 will not result in timely and adequate enforcement, and requiring the recipient to show cause, within a specified period of time, generally not to exceed 15 days,
why appropriate action, described in the notice, to ensure compliance should not be taken. The notice states that the recipient must respond in writing or orally on the record before an official appointed by the Secretary or the proposed action will be taken.

(c) Decision. If the Secretary, after reviewing the recipient’s oral or written response, determines that such action is necessary, he/she orders that all or any part of the contracting activities of the recipient affected by the recipient’s alleged noncompliance be halted until the matter is resolved under §23.81 or §23.83. The Secretary’s action under this paragraph may not affect any contract already awarded. When the Secretary makes an order under this paragraph, resolution of the matter shall proceed on an expedited basis.

§ 23.87 Suspension and debarment; referral to the Department of Justice.

(a) If, at any time, any person has reason to believe that any person or firm has willfully and knowingly provided incorrect information or made false statements, or otherwise acted in a manner subjecting that person or firm to suspension or debarment action under 49 CFR part 29, he or she may contact the appropriate DOT element concerning the existence of a cause for suspension or debarment, as provided in 49 CFR 29.17.

(b) Upon the receipt of information indicating a violation of 18 U.S.C. 1001, or any other Federal criminal statute, the Department may refer the matter to the public under an agreement with the sponsor, another concessionaire, or the owner of a terminal, if other than the sponsor. Businesses which conduct an aeronautical activity are not considered concessionaires for purposes of this subpart. Aeronautical activities include scheduled and nonscheduled air carriers, air taxis, air charters, and air couriers, in their normal passenger or freightcarrying capacities; fixed base operators, flight schools; and sky-diving, parachute-jumping, flying guide services, and helicopter or other air tours.

(b) Examples of entities that do not meet the definition of a concession include suppliers, flight kitchens and inflight caterers servicing air carriers, government agencies, industrial plants, farm leases, individuals leasing hangar space, custodial and security contracts, individual taxis with permits, telephone and electric utilities, skycap services under contract with an air carrier, and management contracts.

(c) Concessions may be operated under the following types of agreements:

(1) Leases.
(2) Subleases.
(3) Permits.
(4) Contracts.
(5) Other instruments or arrangements.

Concessionaire means one who operates a concession.
§ 23.91 Applicability.

This subpart applies to any sponsor that has received a grant for airport development authorized by the Airport and Airway Improvement Act of 1982, as amended by the Airport and Airway Safety and Capacity Expansion Act of 1987.

§ 23.93 Requirements for airport sponsors.

(a) General requirements. (1) Each sponsor shall abide by the non-discrimination requirements of §23.7 with respect to the award and performance of any concession agreement covered by this subpart.

(2) Each sponsor shall take all necessary and reasonable steps to foster participation by DBE’s in its airport concession activities.

(3) The following statements shall be included in all concession agreements executed between the sponsor and any firm after the effective date of this subpart.

(i) "This agreement is subject to the requirements of the U.S. Department of Transportation’s regulations, 49 CFR part 23, subpart F. The concessionaire agrees that it will not discriminate against any business owner because of the owner’s race, color, national origin, or sex in connection with the award or performance of any concession agreement covered by 49 CFR part 23, subpart F."

(ii) "The concessionaire agrees to include the above statements in any subsequent concession agreements that it enters and cause those businesses to similarly include the statements in further agreements."

(b) Additional requirements for primary airports (1) Sponsors of primary airports shall implement a disadvantaged business enterprise (DBE) concession plan containing the elements listed in §23.95. Sponsors of more than one primary airport shall implement a separate plan for each location that has received assistance for airport development. The plan shall be submitted to the appropriate FAA Regional Office for approval.

(2) The sponsor shall review and update the plan at least annually. The updated plan shall include any information required under §23.95 that was
§ 23.95 Elements of Disadvantaged Business Enterprise (DBE) concession plan.

(a) Overall annual DBE goals. (1) The sponsor shall establish an overall goal for the participation of DBE's in concessions for each 12-month period covered by the plan. The goals shall be based on the factors listed in §23.45(g)(5).

(2) Sponsors shall calculate the overall DBE goal as a percentage of one of the following bases:

(i) The estimated gross receipts that will be earned by all concessions operating at the airport during the goal period. (Where the terms of a concession agreement do not provide for the sponsor to know the gross receipts, the sponsor shall use the net payment to the airport for such agreements and combine these figures with the estimated gross receipts from other agreements, for purposes of making this calculation. The plan shall indicate which concession agreements do not provide for the sponsor to know the gross receipts.)

(ii) The total number of concession agreements operating at the airport during the goal period.

(3) The plan shall state which base the sponsor proposes to use for calculating the overall goals. Sponsors proposing to use the base described in paragraph (a)(2)(i) of this section shall submit a rationale as required by §23.99.

(4) Sponsors who will employ the procedures of paragraph (a)(2)(i) of this section shall exclude from the overall goal any portion of a firm's estimated gross receipts that will not be generated from a concession activity.

Example. A firm operates a restaurant in the airport terminal which services the travelling public and under the same lease agreement, provides in-flight catering service to the air carriers. The projected gross receipts from the restaurant are included in the overall goal calculation, while the gross receipts to be earned by the in-flight catering service are excluded.

(5) Sponsors who will employ the procedures of paragraph (a)(2)(i) of this section shall use the net payment to the airport for banks and banking services, including automated teller machines (ATM) and foreign currency exchanges.

(6) To the extent practicable, sponsors shall seek to obtain DBE participation in all types of concession activities and not concentrate participation in one category or a few categories to the exclusion of others.

(7) Airport sponsors may establish an overall annual goal exceeding 10 percent.

(b) Goal methodology. (1) The plan shall contain a description of the methodology used in establishing each of the overall DBE goals. The methodology shall include information on the concessions that will operate at the airport during the period covered by the plan and the potential for DBE participation. For each concession agreement, the sponsor shall provide the following information, together with an additional information requested by the Regional Civil Rights Officer:

(i) Name of firm.

(ii) Type of business (e.g. bookstore, car rental, baggage carts).

(iii) Beginning and expiration dates of agreement, including options to renew.

(iv) For new agreements, method of solicitation proposed by sponsor (e.g. request for proposals, invitation for bids).

(v) Dates that material amendments will be made to the agreement (if known).

(vi) Estimated gross receipts for each goal period established in the plan.

(vii) Identification of those concessionaires that have been certified under this subpart as DBE's.
§ 23.95

(ii) An indication of those concessions having potential for participation by DBE’s.

(3) Sponsors who will include a DBE contract goal or other requirements in solicitations for concession agreements shall state those requirements in the plan.

(4) If none of the overall goals set under paragraph (a)(2)(i) or (a)(2)(ii) of this section is 10 percent or more, the sponsor shall submit the information and follow the procedures outlined in §23.101.

(c) DBE set-asides. (1) Where not prohibited by state or local law and determined by the sponsor to be necessary to meet DBE goals, procedures to implement DBE set-asides shall be established. The DBE plan shall specify the concessions to be set-aside.

(2) If a state or local law prohibits the use of set-asides in the award of concessions, a citation of the appropriate authority shall be included in the plan.

(d) Accomplishments in achieving DBE goals. The plan shall contain an analysis of the accomplishments made by the sponsor toward achieving the previous year’s goal. The plan shall show the effect of those results on the overall level of DBE participation in the airport’s concessions.

(e) Explanation for not achieving a goal. (1) If the analysis required under paragraph (d) of this section indicates that the sponsor failed to meet the previous year’s overall goal, the plan shall include a statement of the reasons demonstrating why failure to meet the goal was beyond the sponsor’s control.

(2) If the FAA determines that the reasons given by the sponsor are not sufficient justification, or if the sponsor fails to state any reasons, the FAA may require the sponsor to implement appropriate remedial measures. Such measures may include an adjustment to the overall goals of the concession plan.

(f) Certification procedures. (1) The certification procedures set forth in §23.51 are applicable to this subpart.

Sponsors may count toward their overall goals only those firms that have been certified in accordance with the procedures of that section.

(2) Except as provided in §23.51(c), each business, including the DBE partner in a joint venture, wishing to participate as a DBE under this subpart in a concession shall complete and submit Schedule A. Each entity wishing to participate as a joint venture DBE under this subpart shall in addition complete and submit Schedule B. (Schedules A and B are reproduced at the end of this part.)

(3) Sponsors shall take at least the following steps in determining whether a firm is an eligible DBE:

(i) Obtain the resumes or work histories of the principal owners of the firm and personally interview these individuals;

(ii) Analyze the ownership of stock in the firm, if it is a corporation;

(iii) Analyze the bonding and financial capacity of the firm;

(iv) Determine the work history of the firm, including any concession contracts it may have received;

(v) Obtain or compile a list of the licenses of the firm and its key personnel to perform the concession contracts it wishes to receive; and

(vi) Obtain a statement from the firm of the type of concession it prefers to operate.

(4) Prior to making a certification determination, the sponsor shall perform an on-site visit to the offices of the firm and to any of its facilities that may be necessary to validate the certification information obtained from the firm.

(5) The challenge procedure set forth in §23.69 are applicable to this subpart.

(g) Certification standards. (1) Sponsors shall use the same standards for ownership and control as contained in §23.53 in determining whether a firm may be certified as a DBE.

(2) Businesses operating under the following structures may be eligible for certification as DBE’s under this subpart:

(i) Sole proprietorships.

(ii) Corporations.

(iii) Partnerships.

(iv) Other structures that provide for ownership and control by the socially
(3) A business operating under a franchise (or license) agreement may be certified if it meets the standards in this section and the franchisor is not affiliated with the franchisee. In determining whether affiliation, as defined in §23.89, exists, the restraints relating to standardized quality, advertising, accounting format, and other provisions imposed on a franchisee by its franchise agreement generally shall not be considered, provided that the franchisee has the right to profit from its efforts and bears the risk of loss commensurate with ownership. Alternatively, even though a franchisee may not be controlled by the franchisor by virtue of such provisions in the franchise agreement, control, and, thus, affiliation could arise through other means, such as common management or excessive restrictions upon the sale of the franchise interest.

(4) Joint ventures described in §23.53(d) are eligible for certification as DBE's under this subpart.

(h) Businesses operating under the following arrangements are not eligible for certification as DBE's under this subpart:

(1) Limited partnerships, in which a non-DBE is the general partner.

(2) Other arrangements that do not provide for ownership and control by the socially and economically disadvantaged owners.

(i) Good faith efforts. The sponsor shall make good faith efforts to achieve the overall goals of the approved plan. The efforts shall include:

(1) Locating and identifying DBE's who may be interested in participating as concessionaires;

(2) Notifying DBE's and other organizations of concession opportunities and encouraging them to compete, when appropriate;

(3) Informing competitors for concession opportunities of any DBE requirements during pre-solicitation meetings;

(4) Providing information concerning the availability of DBE firms to competitors to assist them in meeting DBE requirements; and

(5) When practical, structuring contracting activities so as to encourage and facilitate the participation of DBE's.

§ 23.97 Appeals of certification denials.

The procedures concerning the appeal of a denial of certification set forth in §23.55 are applicable to this subpart.

§ 23.99 Rationale for basing overall goals on the number of concession agreements.

(a) A sponsor who proposes to calculate the overall DBE goals as a percentage of the number of concession agreements shall submit information with the DBE plan to demonstrate that one of the following applies to the airport:

(1) In order to attain an overall DBE goal of 10 percent on the basis of gross receipts, the airport would need to award a disproportionate percentage of the opportunities to DBE's. This rationale may address a time period that extends beyond that covered by the current plan; or

(2) Other circumstances at the airport exist that do not make it feasible to use gross receipts as the basis for calculating the goals.

(b) If the FAA approves of the request, the sponsor shall not be required to provide further justification during subsequent years of the plan, unless requested by the FAA to do so.

(c) If the FAA determines that the information submitted by the sponsor fails to justify the requested goal-setting procedure, the sponsor shall resubmit the plan. The goals in the revised plan shall be calculated as a percentage of gross receipts, as outlined in paragraph (a)(2)(i) of §23.95.

§ 23.101 Information required when none of the overall annual goals is 10 percent or more.

(a) A sponsor requesting approval for a concession plan in which none of the overall annual DBE goals is 10 percent or more shall provide information on the following points:

(1) The sponsor’s efforts to locate DBE’s in the relevant geographic area that are capable of operating the concessions that will become available;

(2) The sponsor’s efforts to notify DBE’s of concession opportunities and to encourage them to compete.
§ 23.103 Obligations of concessionaires and competitors.

(a) Sponsors may impose requirements on competitors for concession agreements as a means of achieving the DBE goals or a portion of the goals established under paragraph (a) of §23.91 of this subpart, provided that the DBE participation specified in the solicitation or other request is an eligible arrangement, as defined in this subpart.

(b) Nothing in this subpart shall require any sponsor to modify or abrogate an existing concession agreement (one executed prior to the date the sponsor became subject to this subpart) during its term. When options to renew such agreements are exercised or when a material amendment is made to the agreement, the sponsor shall assess the potential for DBE participation and include any opportunities in the goals established under paragraph (a) of §23.95.

§ 23.105 Privately-owned terminal buildings.

(a) Awards of concession agreements that are made by private owners of terminal buildings are covered by this subpart. Airport sponsors subject to this subpart. Airport sponsors subject to this subpart shall levy the applicable requirements on the terminal owner through the agreement with the owner or by other means, except that certification shall, in the case of primary airports, be performed by the airport sponsor. The sponsor shall ensure that the terminal owner complies with these requirements.

(b) If the terminal building is at a primary airport, the sponsor shall obtain from the terminal owner the overall goals and other elements of the DBE concession plan required under §23.95. This information shall be incorporated into the concession plan and goals established by the sponsor and submitted to the FAA in accordance with this subpart.

(c) If the terminal building is at a commercial service airport (except primary), general aviation, or reliever airport, the sponsor shall ensure that the owner complies with the requirements in paragraph (c) of §23.93.

§ 23.107 Prohibition on long-term, exclusive concession agreements.

(a) Except as provided in paragraph (b) of this section, sponsors shall not enter into long-term, exclusive agreements for the operation of concessions. For purposes of this section, a long-term agreement is one having a term in excess of five years. Guidelines for determining whether an agreement is exclusive, as used in this section, have been included in the FAA’s “DBE Program Development Kit for Airport Grant-in-Aid Recipients.” This publication can be obtained from any FAA Regional Civil Rights Officer or from the FAA Office of Civil Rights, 800 Independence Avenue, SW., Washington, DC 20591, Attention, ACR-4.

(b) A long-term, exclusive agreement is permitted under this subpart, provided that:

(1) Special local circumstances exist that make it important to enter such agreement, and
(2) The responsible FAA regional civil rights officer approves of a plan for ensuring adequate DBE participation throughout the term of the agreement.

(c) Approval of the plan referenced in paragraph (b)(2) of this section relieves the sponsor of the need to obtain an exemption under the procedures of §23.41(f) and the Notice of Policy (45 FR 45281, July 3, 1980). The Notice of Policy can be obtained from the FAA Office of Civil Rights at the address given in paragraph (a) of this section.

(d) Sponsors shall submit the following information with the plan referenced in paragraph (b)(2) of this section:

(1) A description of the special local circumstances that warrant a long-term, exclusive agreement, e.g., a requirement to make certain capital improvements to a leasehold facility.

(2) A copy of the draft and final leasing and subleasing or other agreements. The long-term, exclusive agreement shall provide that:

(i) One or more DBE’s will participate throughout the term of the agreement and account for at least 10 percent of the annual estimated gross receipts.

(ii) The extent of DBE participation will be reviewed prior to the exercise of each renewal option to consider whether an increase is warranted. (In some instances, a decrease may be warranted.)

(iii) A DBE that is unable to perform successfully will be replaced by another DBE, if the remaining term of the agreement makes this feasible.

(3) Assurances that the DBE participation will be in an acceptable form, such as a sublease, joint venture, or partnership.

(4) Documents used by the sponsor in certifying the DBE’s.

(5) A description of the type of business or businesses to be operated, location, storage and delivery space, “back-of-the-house facilities” such as kitchens, window display space, advertising space, and other amenities that will increase the DBE’s chance to succeed.

(6) Information on the investment required on the part of the DBE and any unusual management or financial arrangements between the prime concessionaire and DBE.

(7) Information on the estimated gross receipts and net profit to be earned by the DBE.

§ 23.109 Compliance procedures.

In the event of noncompliance with this subpart by a sponsor, the FAA Administrator may take any action provided for in section 519 of the Airport and Airway Improvement Act of 1982, as amended.

§ 23.111 Effect on § 23.43(d).

Except for commitments made prior to issuance of this subpart as a condition of receiving an exemption from §23.43(d)(1), which prohibits certain long-term, exclusive agreements, the provisions of §23.43(d) shall not apply to any airport, its lessees, concessionaires, or other organizations, if the airport sponsor is covered by the requirements in this subpart. Leasing goals established in accordance with §23.43(d)(2) and approved by the FAA prior to the effective date of this subpart shall terminate as set forth below:

(a) For primary airports, upon FAA approval of a DBE concession plan required under §23.93(b).

(b) For nonprimary airports, at the conclusion of the period to which the leasing goal applies.

1 As measured by total assets
2 As measured by number of employees.

SCHEDULE A—INFORMATION FOR DETERMINING MINORITY BUSINESS ENTERPRISE ELIGIBILITY

1. Name of firm
2. Address of firm
3. Phone Number of firm
4. Indicate whether firm is sole proprietorship, partnership, joint venture, corporation or other business entity (please specify)
5. Nature of firm's business
6. Years firm has been in business
7. Ownership of firm: Identify those who own 5 percent or more of the firm's ownership. Columns e and f need be filled out only if the firm is less than 100 percent minority owned.
   a—Name
   b—Race
   c—Sex
   d—Years of ownership
   e—Ownership percentage
   f—Voting percentage

With firms less than 100 percent minority owned, list the contributions of money, equipment, real estate, or expertise of each of the owners.

8. Control of firm: (a) Identify by name, race, sex, and title in the firm those individuals (including owners and non-owners) who are responsible for day-to-day management and policy decisionmaking, including, but not limited to, those with prime responsibility for:
   (1) Financial decisions
   (2) Management decisions, such as—
      a. Estimating
      b. Marketing and sales
      c. Hiring and firing of management personnel
      d. Purchases of major items or supplies
      e. Supervision of field operations

9. For each of those listed in question 8, provide a brief summary of the person's experience and number of years with the firm, indicating the person's qualifications for the responsibilities given to him or her.

10. Describe or attach a copy of any stock options or other ownership options that are outstanding, and any agreements between owners or between owners and third parties which restrict ownership or control of minority owners.

11. Identify any owner (see item 7) or management official (see item 8) of the named firm who is or has been an employee of another firm that has an ownership interest in or a present business relationship with the named firm. Present business relationships include shared space, equipment, financing, or employees as well as both firms having some of the same owners.

12. What are the gross receipts of the firm for each of the last two years?

| Year ending | $1,200 |
| Year ending | $1,200 |

13. Name of bonding company, if any:

   Bonding limit
   Source of letters of credit, if any

14. Are you authorized to do business in the state as well as locally, including all necessary business licenses?

15. Indicate if this firm or other firms with any of the same officers have previously received or been denied certification or participation as an MBE and describe the circumstances. Indicate the name of the certifying authority and the date of such certification or denial.

   AFFIDAVIT

   "The undersigned swears that the foregoing statements are true and correct and include all material information necessary to identify and explain the operations of (name of firm) as well as the ownership thereof. Further, the undersigned agrees to provide through the prime contractor or, if no prime, directly to the grantee current, complete and accurate information regarding actual work performed on the project, the payment therefor and any proposed changes, if any, of the foregoing arrangements and to permit the audit and examination of books, records and files of the named firm. Any material misrepresentation will be grounds for terminating any contract which may be awarded and for initiating action under Federal or State laws concerning false statements."

NOTE: If, after filing this Schedule A and before the work of this firm is completed on the contract covered by this regulation,
there is any significant change in the information submitted, you must inform the grantee of the change through the prime contractor or, if no prime contractor, inform the grantee directly.

Schedule B — Information for Determining Joint Venture Eligibility

(This form need not be filled in if all joint venture firms are minority owned.)

1. Name of joint venture ______________________________
2. Address of joint venture ______________________________
3. Phone number of joint venture __________________________
4. Identify the firms which comprise the joint venture. (The MBE partner must complete Schedule A.)
   (a) Describe the role of the MBE firm in the joint venture.
   (b) Describe very briefly the experience and business qualifications of each non-MBE joint venturer.
5. Nature of the joint venture’s business __________________________

6. Provide a copy of the joint venture agreement.
7. What is the claimed percentage of MBE ownership?
8. Ownership of joint venture: (This need not be filled in if described in the joint venture agreement, provided by question 6.)
   (a) Profit and loss sharing.
   (b) Capital contributions, including equipment.
   (c) Other applicable ownership interests.
9. Control of and participation in this contract. Identify by name, race, sex, and “firm” those individuals (and their titles) who are responsible for day-to-day management and policy decisionmaking, including, but not limited to, those with prime responsibility for:
   (a) Financial decisions
   (b) Management decisions, such as:

(1) Estimating
(2) Marketing and sales

(3) Hiring and firing of management personnel
(4) Purchasing of major items or supplies

(c) Supervision of field operations

NOTE: If, after filing this Schedule B and before the completion of the joint venture’s work on the contract covered by this regulation, there is any significant change in the information submitted, the joint venture must inform the grantee, either directly or through the prime contractor if the joint venture is a subcontractor.

AFFIDAVIT

“The undersigned swear that the foregoing statements are correct and include all material information necessary to identify and explain the terms and operation of our joint venture and the intended participation by each joint venturer in the undertaking. Further, the undersigned covenant and agree to provide to the grantee current, complete and accurate information regarding actual joint venture work and the payment therefor and any proposed changes in any of the joint venture arrangements and to permit the audit and examination of the books, records and files of the joint venture, or those of each joint venturer relevant to the joint venture, by authorized representatives of the grantee or the Federal funding agency. Any material misrepresentation will be grounds for terminating any contract which may be awarded and for initiating action under Federal or State laws concerning false statements.”

24.1 Purpose.
24.2 Definitions.
24.3 No duplication of payments.
24.4 Assurances, monitoring and corrective action.
24.5 Manner of notices.
24.6 Administration of jointly-funded projects.
24.7 Federal agency waiver of regulations.
24.8 Compliance with other laws and regulations.
24.9 Recordkeeping and reports.
24.10 Appeals.

Subpart B—Real Property Acquisition

24.101 Applicability of acquisition requirements.
24.102 Basic acquisition policies.
24.103 Criteria for appraisals.
24.104 Review of appraisals.
24.105 Acquisition of tenant-owned improvements.
24.106 Expenses incidental to transfer of title to the Agency.
24.107 Certain litigation expenses.
24.108 Donations.

Subpart C—General Relocation Requirements

24.201 Purpose.
24.202 Applicability.
24.203 Relocation notices.
24.204 Availability of comparable replacement dwelling before displacement.
24.205 Relocation planning, advisory services, and coordination.
24.206 Eviction for cause.
24.207 General requirements—claims for relocation payments.
24.208 Relocation payments not considered as income.

24.301 Payment for actual reasonable moving and related expenses—residential moves.
24.302 Fixed payment for moving expenses—residential moves.
24.303 Payment for actual reasonable moving and related expenses—nonresidential moves.
24.304 Reestablishment expenses—nonresidential moves.
24.305 Ineligible moving and related expenses.
24.306 Fixed payment for moving expenses—nonresidential moves.
24.307 Discretionary utility relocation payments.

Subpart E—Replacement Housing Payments

24.401 Replacement housing payment for 180-day homeowner occupants.
24.402 Replacement housing payment for 90-day occupants.
24.403 Additional rules governing replacement housing payments.
24.404 Replacement housing of last resort.

Subpart F—Mobile Homes

24.501 Applicability.
24.502 Moving and related expenses—mobile homes.
24.503 Replacement housing payment for 180-day mobile homeowner occupants.
24.504 Replacement housing payment for 90-day mobile home occupants.
24.505 Additional rules governing relocation payments to mobile home occupants.

Subpart G—Certification

24.601 Purpose.
24.602 Certification application.
24.603 Monitoring and corrective action.

APPENDIX A TO PART 24—ADDITIONAL INFORMATION
APPENDIX B TO PART 24—STATISTICAL REPORT FORM

SOURCE: 54 FR 8028, Mar. 2, 1989, unless otherwise noted.

Subpart A—General

§ 24.1 Purpose.
The purpose of this part is to promulgate rules to implement the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as
amended (42 U.S.C. 4601 et seq.), in accordance with the following objectives:

(a) To ensure that owners of real property to be acquired for Federal and federally-assisted projects are treated fairly and consistently, to encourage and expedite acquisition by agreements with such owners, to minimize litigation and relieve congestion in the courts, and to promote public confidence in Federal and federally-assisted land acquisition programs;

(b) To ensure that persons displaced as a direct result of Federal or federally-assisted projects are treated fairly, consistently, and equitably so that such persons will not suffer disproportionate injuries as a result of projects designed for the benefit of the public as a whole; and

(c) To ensure that Agencies implement these regulations in a manner that is efficient and cost effective. 

[54 FR 8928, Mar. 2, 1989; 54 FR 24712, June 9, 1989]

§ 24.2 Definitions.

(a) Agency. The term Agency means the Federal agency, State, State agency, or person that acquires real property or displaces a person.

(1) Acquiring agency. The term acquiring agency means a State agency, as defined in paragraph (a)(4) of this section, which has the authority to acquire property by eminent domain under State law, and a State agency or person which does not have such authority. Any Agency or person solely acquiring property pursuant to the provisions of §24.101(a) (1), (2), (3), or (4) need not provide the assurances required by §24.4(a)(1) or (2).

(2) Displacing agency. The term displacing agency means any Federal agency carrying out a program or project, and any State, State agency, or person carrying out a program or project with Federal financial assistance, which causes a person to be a displaced person.

(3) Federal agency. The term Federal agency means any department, Agency, or instrumentality in the executive branch of the Government, any wholly owned Government corporation, the Architect of the Capitol, the Federal Reserve Banks and branches thereof, and any person who has the authority to acquire property by eminent domain under Federal law.

(4) State agency. The term State agency means any department, Agency or instrumentality of a State or of a political subdivision of a State, any department, Agency, or instrumentality of two or more States or of two or more political subdivisions of a State or States, and any person who has the authority to acquire property by eminent domain under State law.

(b) Appraisal. The term appraisal means a written statement independently and impartially prepared by a qualified appraiser setting forth an opinion of defined value of an adequately described property as of a specific date, supported by the presentation and analysis of relevant market information.

(c) Business. The term business means any lawful activity, except a farm operation, that is conducted:

(1) Primarily for the purchase, sale, lease and/or rental of personal and/or real property, and/or for the manufacture, processing, and/or marketing of products, commodities, and/or any other personal property; or

(2) Primarily for the sale of services to the public; or

(3) Primarily for outdoor advertising display purposes, when the display must be moved as a result of the project; or

(4) By a nonprofit organization that has established its nonprofit status under applicable Federal or State law.

(d) Comparable replacement dwelling. The term comparable replacement dwelling means a dwelling which is:

(1) Decent, safe and sanitary as described in paragraph (f) of this section; and

(2) Functionally equivalent to the displacement dwelling. The term functionally equivalent means that it performs the same function, provides the same utility, and is capable of contributing to a comparable style of living. While a comparable replacement dwelling need not possess every feature of the displacement dwelling, the principal features must be present. Generally, functional equivalency is an objective standard, reflecting the range of purposes for which the various physical features of a dwelling may be used.
However, in determining whether a replacement dwelling is functionally equivalent to the displacement dwelling, the Agency may consider reasonable trade-offs for specific features when the replacement unit is equal to or better than the displacement dwelling. (See appendix A of this part);

(3) Adequate in size to accommodate the occupants;

(4) In an area not subject to unreasonable adverse environmental conditions;

(5) In a location generally not less desirable than the location of the displaced person's dwelling with respect to public utilities and commercial and public facilities, and reasonably accessible to the person's place of employment;

(6) On a site that is typical in size for residential development with normal site improvements, including customary landscaping. The site need not include special improvements such as outbuildings, swimming pools, or greenhouses. (See also §24.403(a)(2));

(7) Currently available to the displaced person on the private market. However, a comparable replacement dwelling for a person receiving government housing assistance before displacement may reflect similar government housing assistance. (See appendix A of this part.); and

(8) Within the financial means of the displaced person.

(i) A replacement dwelling purchased by a homeowner in occupancy at the displacement dwelling for at least 180 days prior to initiation of negotiations (180-day homeowner) is considered to be within the homeowner's financial means if the homeowner will receive the full price differential as described in §24.401(c), all increased mortgage interest costs as described at §24.401(d) and all incidental expenses as described at §24.401(e), plus any additional amount required to be paid under §24.404, Replacement housing of last resort.

(ii) A replacement dwelling rented by an eligible displaced person is considered to be within his or her financial means if, after receiving rental assistance under this part, the person's monthly rent and estimated average monthly utility costs for the replacement dwelling do not exceed the person's base monthly rental for the displacement dwelling as described at §24.402(b)(2).

(iii) For a displaced person who is not eligible to receive a replacement housing payment because of the person's failure to meet length-of-occupancy requirements, comparable replacement rental housing is considered to be within the person's financial means if an Agency pays that portion of the monthly housing costs of a replacement dwelling which exceeds 30 percent of such person's gross monthly household income or, if receiving a welfare assistance payment from a program that designates amounts for shelter and utilities, the total of the amounts designated for shelter and utilities. Such rental assistance must be paid under §24.404, Replacement housing of last resort.

(e) Contribute materially. The term contribute materially means that during the 2 taxable years prior to the taxable year in which displacement occurs, or during such other period as the Agency determines to be more equitable, a business or farm operation:

1. Had average annual gross receipts of at least $5000; or
2. Had average annual net earnings of at least $1000; or
3. Contributed at least 33\(\frac{1}{3}\) percent of the owner's or operator's average annual gross income from all sources.

(f) Decent, safe, and sanitary dwelling. The term decent, safe, and sanitary dwelling means a dwelling which meets applicable housing and occupancy codes. However, any of the following standards which are not met by an applicable code shall apply unless waived for good cause by the federal agency funding the project. The dwelling shall:

1. Be structurally sound, weather-tight, and in good repair.
2. Contain a safe electrical wiring system adequate for lighting and other devices.
3. Contain a heating system capable of sustaining a healthful temperature.
(of approximately 70 degrees) for a displaced person, except in those areas where local climatic conditions do not require such a system.

(4) Be adequate in size with respect to the number of rooms and area of living space needed to accommodate the displaced person. There shall be a separate, well lighted and ventilated bathroom that provides privacy to the user and contains a sink, bathtub or shower stall, and a toilet, all in good working order and properly connected to appropriate sources of water and to a sewage drainage system. In the case of a housekeeping dwelling, there shall be a kitchen area that contains a fully usable sink, properly connected to potable hot and cold water and to a sewage drainage system, and adequate space and utility service connections for a stove and refrigerator.

(5) Contains unobstructed egress to safe, open space at ground level. If the replacement dwelling unit is on the second story or above, with access directly from or through a common corridor, the common corridor must have at least two means of egress.

(6) For a displaced person who is handicapped, be free of any barriers which would preclude reasonable ingress, egress, or use of the dwelling by such displaced person.

(g) Displaced person— (1) General. The term displaced person means any person who moves from the real property or moves his or her personal property from the real property: (This includes a person who occupies the real property prior to its acquisition, but who does not meet the length of occupancy requirements of the Uniform Act as described at § 24.401(a) and 24.402(a)):

(i) As a direct result of a written notice of intent to acquire, the initiation of negotiations for, or the acquisition of, such real property in whole or in part for a project.

(ii) As a direct result of a written notice of intent to acquire, the initiation of negotiations for, or the acquisition of, such real property in whole or in part for a project.

(iii) As a direct result of rehabilitation or demolition for a project.

(iv) As a direct result of rehabilitation or demolition for a project.

(v) As a direct result of rehabilitation or demolition for a project.

(vi) As a direct result of rehabilitation or demolition for a project.

(vii) As a direct result of rehabilitation or demolition for a project.

(viii) As a direct result of rehabilitation or demolition for a project.

(2) Persons not displaced. The following is a nonexclusive listing of persons who do not qualify as displaced persons under this part:

(i) A person who moves before the initiation of negotiations (see also §24.403(d)), unless the Agency determines that the person was displaced as a direct result of the program or project; or

(ii) A person who initially enters into occupancy of the property after the date of its acquisition for the project; or

(iii) A person who has occupied the property for the purpose of obtaining assistance under the Uniform Act;

(iv) A person who is not required to relocate permanently as a direct result of a project. Such determination shall be made by the Agency in accordance with any guidelines established by the Federal agency funding the project (see also appendix A of this part); or

(v) An owner-occupant who moves as a result of an acquisition as described at §§24.101(a) (1) and (2), or as a result of the rehabilitation or demolition of the real property. (However, the displacement of a tenant as a direct result of any acquisition, rehabilitation or demolition for a Federal or federally-assisted project is subject to this part.); or

(vi) A person whom the Agency determines is not displaced as a direct result of a partial acquisition; or

(vii) A person who, after receiving a notice of relocation eligibility (described at §24.203(b)), is notified in writing that he or she will not be displaced for a project. Such notice shall not be issued unless the person has not moved and the Agency agrees to reimburse the person for any expenses incurred to satisfy any binding contractual relocation obligations entered into after the effective date of the notice of relocation eligibility; or

(viii) An owner-occupant who voluntarily conveys his or her property, as described at §24.101(a) (1) and (2), after being informed in writing that if a mutually satisfactory agreement on terms of the conveyance cannot be reached,
the Agency will not acquire the property. In such cases, however, any resulting displacement of a tenant is subject to the regulations in this part; or

(ix) A person who retains the right of use and occupancy of the real property for life following its acquisition by the Agency; or

(x) An owner who retains the right of use and occupancy of the real property for a fixed term after its acquisition by the Department of the Interior under Public Law 93-477 or Public Law 93-303, except that such owner remains a displaced person for purposes of subpart D of this part; or

(xi) A person who is determined to be in unlawful occupancy prior to the initiation of negotiations (see paragraph (y) of this section), or a person who has been evicted for cause, under applicable law, as provided for in §24.206.

(h) Dwelling. The term dwelling means the place of permanent or customary and usual residence of a person, according to local custom or law, including a single family house; a single family unit in a two-family, multi-family, or multi-purpose property; a unit of a condominium or cooperative housing project; a non-housekeeping unit; a mobile home; or any other residential unit.

(i) Farm operation. The term farm operation means any activity conducted solely or primarily for the production of one or more agricultural products or commodities, including timber, for sale or home use, and customarily producing such products or commodities in sufficient quantity to be capable of contributing materially to the operator's support.

(j) Federal financial assistance. The term Federal financial assistance means a grant, loan, or contribution provided by the United States, except any Federal guarantee or insurance and any interest reduction payment to an individual in connection with the purchase and occupancy of a residence by that individual.

(k) Initiation of negotiations. Unless a different action is specified in applicable Federal program regulations, the term initiation of negotiations means the following:

(1) Whenever the displacement results from the acquisition of the real property by a Federal agency or State agency, the initiation of negotiations means the delivery of the initial written offer of just compensation by the Agency to the owner or the owner's representative to purchase the real property for the project. However, if the Federal agency or State agency issues a notice of its intent to acquire the real property, and a person moves after that notice, but before delivery to the initial written purchase offer, the initiation of negotiations means the actual move of the person from the property.

(2) Whenever the displacement is caused by rehabilitation, demolition or privately undertaken acquisition of the real property (and there is no related acquisition by a Federal agency or a State agency), the initiation of negotiations means the notice to the person that he or she will be displaced by the project or, if there is no notice, the actual move of the person from the property.

(3) In the case of a permanent relocation to protect the public health and welfare, under the Comprehensive Environmental Response Compensation and Liability Act of 1980 (Pub. L. 96-510, or Superfund) the initiation of negotiations means the formal announcement of such relocation or the Federal or federally-coordinated health advisory where the Federal Government later decides to conduct a permanent relocation.

(l) Lead agency. The term lead agency means the Department of Transportation acting through the Federal Highway Administration.

(m) Mortgage. The term mortgage means such classes of liens as are commonly given to secure advances on, or the unpaid purchase price of, real property, under the laws of the State in which the real property is located, together with the credit instruments, if any, secured thereby.

(n) Nonprofit organization. The term nonprofit organization means an organization that is incorporated under the applicable laws of a State as a nonprofit organization, and exempt from paying Federal income taxes under section 501 of the Internal Revenue Code (26 U.S.C. 501).
(o) Notice of intent to acquire or notice of eligibility for relocation assistance. Written notice furnished to a person to be displaced, including those to be displaced by rehabilitation or demolition activities from property acquired prior to the commitment of Federal financial assistance to the activity, that establishes eligibility for relocation benefits prior to the initiation of negotiation and/or prior to the commitment of Federal financial assistance.

(p) Owner of a dwelling. A person is considered to have met the requirement to own a dwelling if the person purchases or holds any of the following interests in real property:

1. Fee title, a life estate, a land contract, a 99-year lease, or a lease including any options for extension with at least 50 years to run from the date of acquisition; or

2. An interest in a cooperative housing project which includes the right to occupy a dwelling; or

3. A contract to purchase any of the interests or estates described in paragraphs (p) (1) or (2) of this section, or

4. Any other interest, including a partial interest, which in the judgment of the Agency warrants consideration as ownership.

(q) Person. The term person means any individual, family, partnership, corporation, or association.

(r) Program or project. The phrase program or project means any activity or series of activities undertaken by a Federal agency or with Federal financial assistance received or anticipated in any phase of an undertaking in accordance with the Federal funding agency guidelines.

(s) Salvage value. The term salvage value means the probable sale price of an item, if offered for sale on the condition that it will be removed from the property at the buyer’s expense, allowing a reasonable period of time to find a person buying with knowledge of the uses and purposes for which it is adaptable and capable of being used, including separate use of serviceable components and scrap when there is no reasonable prospect of sale except on that basis.

(t) Small business. A business having not more than 500 employees working at the site being acquired or displaced by a program or project, which site is the location of economic activity. Sites occupied solely by outdoor advertising signs, displays, or devices do not qualify as a business for purposes of §24.304.

(u) State. Any of the several States of the United States or the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, the Trust Territories of the Pacific Islands or a political subdivision of any of these jurisdictions.

(v) Tenant. The term tenant means a person who has the temporary use and occupancy of real property owned by another.

(w) Uneconomic remnant. The term uneconomic remnant means a parcel of real property in which the owner is left with an interest after the partial acquisition of the owner’s property, and which the acquiring agency has determined has little or no value or utility to the owner.

(y) Unlawful occupancy. A person is considered to be in unlawful occupancy if the person has been ordered to move by a court of competent jurisdiction prior to the initiation of negotiations or is determined by the Agency to be a squatter who is occupying the real property without the permission of the owner and otherwise has no legal right to occupy the property under State law. A displacing agency may, at its discretion, consider such a squatter to be in lawful occupancy.

(z) Utility costs. The term utility costs means expenses for heat, lights, water and sewer.

(aa) Utility facility. The term utility facility means any electric, gas, water, steampower, or materials transmission or distribution system; any transportation system; any communications system, including cable television; and any fixtures, equipment, or other property associated with the operation, maintenance, or repair of any such system. A utility facility may be publically, privately, or cooperatively owned.
§ 24.3 Utility relocation.

The term utility relocation means the adjustment of a utility facility required by the program or project undertaken by the displacing agency. It includes removing and reinstalling the facility, including necessary temporary facilities; acquiring necessary right-of-way on new location; moving, rearranging or changing the type of existing facilities; and taking any necessary safety and protective measures. It shall also mean constructing a replacement facility that has the functional equivalency of the existing facility and is necessary for the continued operation of the utility service, the project economy, or sequence of project construction.

§ 24.4 Assurances, monitoring and corrective action.

(a) Assurances—(1) Before a Federal agency may approve any grant to, or contract, or agreement with, a State agency under which Federal financial assistance will be made available for a project which results in real property acquisition or displacement that is subject to the Uniform Act, the State agency must provide appropriate assurances that it will comply with the Uniform Act and this part. A displacing agency’s assurances shall be in accordance with section 210 of the Uniform Act. An acquiring agency’s assurances shall be in accordance with section 305 of the Uniform Act and must contain specific reference to any State law which the Agency believes provides an exception to section 301 or 302 of the Uniform Act. If, in the judgment of the Federal agency, Uniform Act compliance will be served, a State agency may combine its section 210 and section 305 assurances in one document.

(2) If a Federal agency or State agency provides Federal financial assistance to a “person” causing displacement, such Federal or State agency is responsible for ensuring compliance with the requirements of this part, notwithstanding the person’s contractual obligation to the grantee to comply.

(3) As an alternative to the assurance requirement described in paragraph (a)(1) of this section, a Federal agency may provide Federal financial assistance to a State agency after it has accepted a certification by such State agency in accordance with the requirements in subpart G of this part.

(b) Monitoring and corrective action. The Federal agency will monitor compliance with this part, and the State agency shall take whatever corrective action is necessary to comply with the Uniform Act and this part. The Federal agency may also apply sanctions in accordance with applicable program regulations. (Also see §24.603, subpart G.)

(c) Prevention of fraud, waste, and mismanagement. The Agency shall take appropriate measures to carry out this part in a manner that minimizes fraud, waste, and mismanagement.

§ 24.5 Manner of notices.

Each notice which the Agency is required to provide to a property owner or occupant under this part, except the notice described at §24.102(b), shall be personally served or sent by certified or registered first-class mail, return receipt requested, and documented in Agency files. Each notice shall be written in plain, understandable language. Persons who are unable to read and understand the notice must be provided with appropriate translation and counseling. Each notice shall indicate the name and telephone number of a person who may be contacted for answers to questions or other needed help.

§ 24.6 Administration of jointly-funded projects.

Whenever two or more Federal agencies provide financial assistance to an Agency or Agencies, other than a Federal agency, to carry out functionally or geographically related activities which will result in the acquisition of
property or the displacement of a person, the Federal agencies may by agreement designate one such agency as the cognizant Federal agency. In the unlikely event that agreement among the Agencies cannot be reached as to which agency shall be the cognizant Federal agency, then the lead agency shall designate one of such agencies to assume the cognizant role. At a minimum, the agreement shall set forth the federally assisted activities which are subject to its terms and cite any policies and procedures, in addition to this part, that are applicable to the activities under the agreement. Under the agreement, the cognizant Federal agency shall assure that the project is in compliance with the provisions of the Uniform Act and this part. All federally assisted activities under the agreement shall be deemed a project for the purposes of this part.

§ 24.7 Federal agency waiver of regulations.

The Federal agency funding the project may waive any requirement in this part not required by law if it determines that the waiver does not reduce any assistance or protection provided to an owner or displaced person under this part. Any request for a waiver shall be justified on a case-by-case basis.

§ 24.8 Compliance with other laws and regulations.

The implementation of this part must be in compliance with other applicable Federal laws and implementing regulations, including, but not limited to, the following:

(a) Section I of the Civil Rights Act of 1866 (42 U.S.C. 1982 et seq.).

(b) Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.).

(c) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. 3601 et seq.), as amended.

(e) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 790 et seq.).

(g) The Age Discrimination Act of 1975 (42 U.S.C. 6101 et seq.).

(h) Executive Order 11063—Equal Opportunity and Housing, as amended by Executive Order 12299.

(j) Executive Order 11625—Minority Business Enterprise.

(k) Executive Orders 11988, Floodplain Management, and 11990, Protection of Wetlands.

(l) Executive Order 12250—Leadership and Coordination of Non-Discrimination Laws.

(m) Executive Order 12299—Leadership and Coordination of Fair Housing in Federal Programs.

(n) Executive Order 12630—Governmental Actions and Interference with Constitutionally Protected Property Rights.

§ 24.9 Recordkeeping and reports.

(a) Records. The Agency shall maintain adequate records of its acquisition and displacement activities in sufficient detail to demonstrate compliance with this part. These records shall be retained for at least 3 years after each owner of a property and each person displaced from the property receives the final payment to which he or she is entitled under this part, or in accordance with the applicable regulations of the Federal funding agency, whichever is later.

(b) Confidentiality of records. Records maintained by an Agency in accordance with this part are confidential regarding their use as public information, unless applicable law provides otherwise.

(c) Reports. The Agency shall submit a report of its real property acquisition and displacement activities under this part if required by the Federal agency funding the project. A report will not be required more frequently than every 3 years, or as the Uniform Act provides, unless the Federal funding agency shows good cause. The report shall be prepared and submitted in the format contained in appendix B of this part.

§ 24.10 Appeals.

(a) General. The Agency shall promptly review appeals in accordance with the requirements of applicable law and this part.
(b) Actions which may be appealed. Any aggrieved person may file a written appeal with the Agency in any case in which the person believes that the Agency has failed to properly consider the person’s application for assistance under this part. Such assistance may include, but is not limited to, the person’s eligibility for, or the amount of, a payment required under §24.106 or §24.107, or a relocation payment required under this part. The Agency shall consider a written appeal regardless of form.

c) Time limit for initiating appeal. The Agency may set a reasonable time limit for a person to file an appeal. The time limit shall not be less than 60 days after the person receives written notification of the Agency’s determination on the person’s claim.

d) Right to representation. A person has a right to be represented by legal counsel or other representative in connection with his or her appeal, but solely at the person’s own expense.

e) Review of files by person making appeal. The Agency shall permit a person to inspect and copy all materials pertinent to his or her appeal, except materials which are classified as confidential by the Agency. The Agency may, however, impose reasonable conditions on the person’s right to inspect, consistent with applicable laws.

(f) Scope of review of appeal. In deciding an appeal, the Agency shall consider all pertinent justification and other material submitted by the person, and all other available information that is needed to ensure a fair and full review of the appeal.

g) Determination and notification after appeal. Promptly after receipt of all information submitted by a person in support of an appeal, the Agency shall make a written determination on the appeal, including an explanation of the basis on which the decision was made, and furnish the person a copy. If the full relief requested is not granted, the Agency shall advise the person of his or her right to seek judicial review.

(h) Agency official to review appeal. The Agency official conducting the review of the appeal shall be either the head of the Agency or his or her authorized designee. However, the official shall not have been directly involved in the action appealed.

Subpart B—Real Property Acquisition

§ 24.101 Applicability of acquisition requirements.

(a) General. The requirements of this subpart apply to any acquisition of real property for a Federal program or project, and to programs and projects where there is Federal financial assistance in any part of project costs except for:

1. Voluntary transactions that meet all of the following conditions:
   (i) No specific site or property needs to be acquired, although the Agency may limit its search for alternative sites to a general geographic area.
   (ii) The property to be acquired is not part of an intended, planned, or designated project area where all or substantially all of the property within the area is to be acquired within specific time limits.
   (iii) The Agency will not acquire the property in the event negotiations fail to result in an amicable agreement, and the owner is so informed in writing.
   (iv) The Agency will inform the owner of what it believes to be fair market value of the property.

2. Acquisitions for programs or projects undertaken by an Agency or person that receives Federal financial assistance but does not have authority to acquire property by eminent domain, provided that such Agency or person shall:
   (i) Prior to making an offer for the property, clearly advise the owner that it is unable to acquire the property in the event negotiations fail to result in an amicable agreement; and
   (ii) Inform the owner of what it believes to be fair market value of the property.

3. The acquisition of real property from a Federal agency, State, or State agency, if the Agency desiring to make the purchase does not have authority
Office of the Secretary of Transportation § 24.102

to acquire the property through condemnation.

(4) The acquisition of real property by a cooperative from a person who, as a condition of membership in the cooperative, has agreed to provide without charge any real property that is needed by the cooperative.

(5) Acquisition for a program or project which is undertaken by, or receives Federal financial assistance from, the Tennessee Valley Authority or the Rural Electrification Administration.

(b) Less-than-full-fee interest in real property. In addition to fee simple title, the provisions of this subpart apply when acquiring fee title subject to retention of a life estate or a life use; to acquisition by leasing where the lease term, including option(s) for extension, is 50 years or more; and to the acquisition of permanent easements. (See appendix A of this part, §24.101(b).)

(c) Federally-assisted projects. For projects receiving Federal financial assistance, the provisions of §§24.102, 24.103, 24.104, and 24.105 apply to the greatest extent practicable under State law. (See §24.4(a).)

§24.102 Basic acquisition policies.

(a) Expedious acquisition. The Agency shall make every reasonable effort to acquire the real property expeditiously by negotiation.

(b) Notice to owner. As soon as feasible, the owner shall be notified of the Agency's interest in acquiring the real property and the basic protections, including the agency's obligation to secure an appraisal, provided to the owner by law and this part. (See also §24.104.)

(c) Appraisal, waiver thereof, and invitation to owner. (1) Before the initiation of negotiations the real property to be acquired shall be appraised, except as provided in §24.102(c)(2), and the owner, or the owner's designated representative, shall be given an opportunity to accompany the appraiser during the appraiser's inspection of the property.

(2) An appraisal is not required if the owner is donating the property and releases the Agency from this obligation, or the Agency determines that an appraisal is unnecessary because the valuation problem is uncomplicated and the fair market value is estimated at $2,500 or less, based on a review of available data.

(d) Establishment and offer of just compensation. Before the initiation of negotiations, the Agency shall establish an amount which it believes is just compensation for the real property. The amount shall not be less than the approved appraisal of the fair market value of the property, taking into account the value of allowable damages or benefits to any remaining property. (See also §24.104.) Promptly thereafter, the Agency shall make a written offer to the owner to acquire the property for the full amount believed to be just compensation.

(e) Summary statement. Along with the initial written purchase offer, the owner shall be given a written statement of the basis for the offer of just compensation, which shall include:

(1) A statement of the amount offered as just compensation. In the case of a partial acquisition, the compensation for the real property to be acquired and the compensation for damages, if any, to the remaining real property shall be separately stated.

(2) A description and location identification of the real property and the interest in the real property to be acquired.

(3) An identification of the buildings, structures, and other improvements (including removable building equipment and trade fixtures) which are considered to be part of the real property for which the offer of just compensation is made. Where appropriate, the statement shall identify any separately held ownership interest in the property, e.g., a tenant-owned improvement, and indicate that such interest is not covered by the offer.

(f) Basic negotiation procedures. The Agency shall make reasonable efforts to contact the owner or the owner's representative and discuss its offer to purchase the property, including the basis for the offer of just compensation; and, explain its acquisition policies and procedures, including its payment of incidental expenses in accordance with §24.106. The owner shall be
§ 24.103

Given reasonable opportunity to consider the offer and present material which the owner believes is relevant to determining the value of the property and to suggest modification in the proposed terms and conditions of the purchase, the Agency shall consider the owner's presentation.

(g) Updating offer of just compensation. If the information presented by the owner, or a material change in the character or condition of the property, indicates the need for new appraisal information, or if a significant delay has occurred since the time of the appraisal(s) of the property, the Agency shall have the appraisal(s) updated or obtain a new appraisal(s). If the latest appraisal information indicates that a change in the purchase offer is warranted, the Agency shall promptly reestablish just compensation and offer that amount to the owner in writing.

(h) Coercive action. The Agency shall not advance the time of condemnation, or defer negotiations or condemnation or the deposit of funds with the court, or take any other coercive action in order to induce an agreement on the price to be paid for the property.

(i) Administrative settlement. The purchase price for the property may exceed the amount offered as just compensation when reasonable efforts to negotiate an agreement at that amount have failed and an authorized Agency official approves such administrative settlement as being reasonable, prudent, and in the public interest. When Federal funds pay for or participate in acquisition costs, a written justification shall be prepared which indicates that available information (e.g., appraisals, recent court awards, estimated trial costs, or valuation problems) supports such a settlement.

(j) Payment before taking possession. Before requiring the owner to surrender possession of the real property, the Agency shall pay the agreed purchase price to the owner, or in the case of a condemnation, deposit with the court, for the benefit of the owner, an amount not less than the Agency's approved appraisal of the fair market value of such property, or the court award of compensation in the condemnation proceeding for the property. In exceptional circumstances, with the prior approval of the owner, the Agency may obtain a right-of-entry for construction purposes before making payment available to an owner.

(k) Uneconomic remnant. If the acquisition of only a portion of a property would leave the owner with an uneconomic remnant, the Agency shall offer to acquire the uneconomic remnant along with the portion of the property needed for the project. (See §24.2(w).)

(l) Inverse condemnation. If the Agency intends to acquire any interest in real property by exercise of the power of eminent domain, it shall institute formal condemnation proceedings and not intentionally make it necessary for the owner to institute legal proceedings to prove the fact of the taking of the real property.

(m) Fair rental. If the Agency permits a former owner or tenant to occupy the real property after acquisition for a short term or a period subject to termination by the Agency on short notice, the rent shall not exceed the fair market rent for such occupancy.

§ 24.103 Criteria for appraisals.

(a) Standards of appraisal. The format and level of documentation for an appraisal depend on the complexity of the appraisal problem. The Agency shall develop minimum standards for appraisals consistent with established and commonly accepted appraisal practice for those acquisitions which, by virtue of their low value or simplicity, do not require the in-depth analysis and presentation necessary in a detailed appraisal. A detailed appraisal shall be prepared for all other acquisitions. A detailed appraisal shall reflect nationally recognized appraisal standards, including, to the extent appropriate, the Uniform Appraisal Standards for Federal Land Acquisition. An appraisal must contain sufficient documentation, including valuation data and the appraiser's analysis of that data, to support his or her opinion of value. At a minimum, a detailed appraisal shall contain the following items:

(1) The purpose and/or the function of the appraisal, a definition of the estate being appraised, and a statement of the assumptions and limiting conditions affecting the appraisal.
(2) An adequate description of the physical characteristics of the property being appraised (and, in the case of a partial acquisition, an adequate description of the remaining property), a statement of the known and observed encumbrances, if any, title information, location, zoning, present use, an analysis of highest and best use, and at least a 5-year sales history of the property.

(3) All relevant and reliable approaches to value consistent with commonly accepted professional appraisal practices. When sufficient market sales data are available to reliably support the fair market value for the specific appraisal problem encountered, the Agency, at its discretion, may require only the market approach. If more than one approach is utilized, there shall be an analysis and reconciliation of approaches to value that are sufficient to support the appraiser’s opinion of value.

(4) A description of comparable sales, including a description of all relevant physical, legal, and economic factors such as parties to the transaction, source and method of financing, and verification by a party involved in the transaction.

(5) A statement of the value of the real property to be acquired and, for a partial acquisition, a statement of the damages and benefits, if any, to the remaining real property, where appropriate.

(6) The effective date of valuation, date of appraisal, signature, and certification of the appraiser.

(b) Influence of the project on just compensation. To the extent permitted by applicable law, the appraiser shall disregard any decrease or increase in the fair market value of the real property caused by the project for which the property is to be acquired, or by the likelihood that the property would be acquired for the project, other than that due to physical deterioration within the reasonable control of the owner.

(c) Owner retention of improvements. If the owner of a real property improvement is permitted to retain it for removal from the project site, the amount to be offered for the interest in the real property to be acquired shall be not less than the difference between the amount determined to be just compensation for the owner’s entire interest in the real property and the salvage value (defined at §24.2(s)) of the retained improvement.

(d) Qualifications of appraisers. (1) The Agency shall establish criteria for determining the minimum qualifications of appraisers. Appraiser qualifications shall be consistent with the level of difficulty of the appraisal assignment. The Agency shall review the experience, education, training, and other qualifications of appraisers, including review appraisers, and utilize only those determined to be qualified.

(2) If the appraisal assignment requires the preparation of a detailed appraisal pursuant to §24.103(a), and the Agency uses a contract (fee) appraiser to perform the appraisal, such appraiser shall be certified in accordance with title XI of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) (12 U.S.C. 3331 et seq).

(e) Conflict of interest. No appraiser or review appraiser shall have any interest, direct or indirect, in the real property being appraised for the Agency that would in any way conflict with the preparation or review of the appraisal. Compensation for making an appraisal shall not be based on the amount of the valuation. No appraiser shall act as a negotiator for real property which that person has appraised, except that the Agency may permit the same person to both appraise and negotiate an acquisition where the value of the acquisition is $2,500, or less.

§ 24.104 Review of appraisals.

The Agency shall have an appraisal review process and, at a minimum:

(a) A qualified reviewing appraiser shall examine all appraisals to assure that they meet applicable appraisal requirements and shall, prior to acceptance, seek necessary corrections or revisions.

(b) If the reviewing appraiser is unable to approve or recommend approval of an appraisal as an adequate basis for the establishment of the offer of just compensation, and it is determined
that it is not practical to obtain an additional appraisal, the reviewing appraiser may develop appraisal documentation in accordance with §24.103 to support an approved or recommended value.

(c) The review appraiser’s certification of the recommended or approved value of the property shall be set forth in a signed statement which identifies the appraisal reports reviewed and explains the basis for such recommendation or approval. Any damages or benefits to any remaining property shall also be identified in the statement.

§ 24.105 Acquisition of tenant-owned improvements.

(a) Acquisition of improvements. When acquiring any interest in real property, the Agency shall offer to acquire at least an equal interest in all buildings, structures, or other improvements located upon the real property to be acquired, which it requires to be removed or which it determines will be adversely affected by the use to which such real property will be put. This shall include any improvement of a tenant-owner who has the right or obligation to remove the improvement at the expiration of the lease term.

(b) Improvements considered to be real property. Any building, structure, or other improvement, which would be considered to be real property if owned by the owner of the real property on which it is located, shall be considered to be real property for purposes of this subpart.

(c) Appraisal and establishment of just compensation for tenant-owned improvements. Just compensation for a tenant-owned improvement is the amount which the improvement contributes to the fair market value of the whole property or its salvage value, whichever is greater. (Salvage value is defined at §24.2(s).)

(d) Special conditions. No payment shall be made to a tenant-owner for any real property improvement unless:

(1) The tenant-owner, in consideration for the payment, assigns, transfers, and releases to the Agency all of the tenant-owner’s right, title, and interest in the improvement; and

(2) The owner of the real property on which the improvement is located disclaims all interest in the improvement; and

(3) The payment does not result in the duplication of any compensation otherwise authorized by law.

(e) Alternative compensation. Nothing in this subpart shall be construed to deprive the tenant-owner of any right to reject payment under this subpart and to obtain payment for such property interests in accordance with other applicable law.

[54 FR 8928, Mar. 2, 1989; 54 FR 24712, June 9, 1989]

§ 24.106 Expenses incidental to transfer of title to the Agency.

(a) The owner of the real property shall be reimbursed for all reasonable expenses the owner necessarily incurred for:

(1) Recording fees, transfer taxes, documentary stamps, evidence of title, boundary surveys, legal descriptions of the real property, and similar expenses incidental to conveying the real property to the Agency. However, the Agency is not required to pay costs solely required to perfect the owner’s title to the real property; and

(2) Penalty costs and other charges for prepayment of any preexisting recorded mortgage entered into in good faith encumbering the real property; and

(3) The pro rata portion of any prepaid real property taxes which are allocable to the period after the Agency obtains title to the property or effective possession of it, whichever is earlier.

(b) Whenever feasible, the Agency shall pay these costs directly so that the owner will not have to pay such costs and then seek reimbursement from the Agency.

§ 24.107 Certain litigation expenses.

The owner of the real property shall be reimbursed for any reasonable expenses, including reasonable attorney, appraisal, and engineering fees, which the owner actually incurred because of a condemnation proceeding, if:

(a) The final judgment of the court is that the Agency cannot acquire the real property by condemnation; or
§ 24.203 Relocation notices.

(a) General information notice. As soon as feasible, a person scheduled to be displaced shall be furnished with a general written description of the displacing agency's relocation program which does at least the following:

(1) Informs the person that he or she may be displaced for the project and generally describes the relocation payment(s) for which the person may be eligible, the basic conditions of eligibility, and the procedures for obtaining the payment(s).

(2) Informs the person that he or she will be given reasonable relocation advisory services, including referrals to replacement properties, help in filing payment claims, and other necessary assistance to help the person successfully relocate.

(3) Informs the person that he or she will not be required to move without at least 90 days' advance written notice (see paragraph (c) of this section), and informs any person to be displaced from a dwelling that he or she cannot be required to move permanently unless at least one comparable replacement dwelling has been made available.

(4) Describes the person's right to appeal the Agency's determination as to a person's application for assistance for which a person may be eligible under this part.

(b) Notice of relocation eligibility. Eligibility for relocation assistance shall begin on the date of initiation of negotiations (defined in §24.2(k)) for the occupied property. When this occurs, the Agency shall promptly notify all occupants in writing of their eligibility for applicable relocation assistance.

(c) Ninety-day notice—(1) General. No lawful occupant shall be required to move unless he or she has received at least 90 days advance written notice of the earliest date by which he or she may be required to move.

(2) Timing of notice. The displacing agency may issue the notice 90 days before it expects the person to be displaced or earlier.

(3) Content of notice. The 90-day notice shall either state a specific date as the earliest date by which the occupant may be required to move, or state that the occupant will receive a further notice indicating, at least 30 days in advance, the specific date by which he or she must move. If the 90-day notice is issued before a comparable replacement dwelling is made available, the notice must state clearly that the occupant will not have to move earlier than 90 days after such a dwelling is made available. (See §24.204(a).)

(4) Urgent need. In unusual circumstances, an occupant may be required to vacate the property on less than 90 days advance written notice if the displacing agency determines that a 90-day notice is impracticable, such as when the person's continued occupancy of the property would constitute
§ 24.204 Availability of comparable replacement dwelling before displacement.

(a) General. No person to be displaced shall be required to move from his or her dwelling unless at least one comparable replacement dwelling (defined at §24.2(d)) has been made available to the person. Where possible, three or more comparable replacement dwellings shall be made available. A comparable replacement dwelling will be considered to have been made available to a person, if:

(1) The person is informed of its location; and

(2) The person has sufficient time to negotiate and enter into a purchase agreement or lease for the property; and

(3) Subject to reasonable safeguards, the person is assured of receiving the relocation assistance and acquisition payment to which the person is entitled in sufficient time to complete the purchase or lease of the property.

(b) Circumstances permitting waiver. The Federal agency funding the project may grant a waiver of the policy in paragraph (a) of this section in any case where it is demonstrated that a person must move because of:

(1) A major disaster as defined in section 102(c) of the Disaster Relief Act of 1974 (42 U.S.C. 5121); or

(2) A presidentially declared national emergency; or

(3) Another emergency which requires immediate vacation of the real property, such as when continued occupancy of the displacement dwelling constitutes a substantial danger to the health or safety of the occupants or the public.

(c) Basic conditions of emergency move. Whenever a person is required to relocate for a temporary period because of an emergency as described in paragraph (b) of this section, the Agency shall:

(1) Take whatever steps are necessary to assure that the person is temporarily relocated to a decent, safe, and sanitary dwelling; and

(2) Pay the actual reasonable out-of-pocket moving expenses and any reasonable increase in rent and utility costs incurred in connection with the temporary relocation; and

(3) Make available to the displaced person as soon as feasible, at least one comparable replacement dwelling. (For purposes of filing a claim and meeting the eligibility requirements for a relocation payment, the date of displacement is the date the person moves from the temporarily-occupied dwelling.)

§ 24.205 Relocation planning, advisory services, and coordination.

(a) Relocation planning. During the early stages of development, Federal and Federal-aid programs or projects shall be planned in such a manner that the problems associated with the displacement of individuals, families, businesses, farms, and nonprofit organizations are recognized and solutions are developed to minimize the adverse impacts of displacement. Such planning, where appropriate, shall precede any action by an Agency which will cause displacement, and should be scoped to the complexity and nature of the anticipated displacing activity including an evaluation of program resources available to carry out timely and orderly relocations. Planning may involve a relocation survey or study which may include the following:

(1) An estimate of the number of households to be displaced including information such as owner/tenant status, estimated value and rental rates of properties to be acquired, family characteristics, and special consideration of the impacts on minorities, the elderly, large families, and the handicapped when applicable.

(2) An estimate of the number of comparable replacement dwellings in the area (including price ranges and rental rates) that are expected to be available to fulfill the needs of those households displaced. When an adequate supply of comparable housing is not expected to be available, consideration of housing of last resort actions should be instituted.

(3) An estimate of the number, type and size of the businesses, farms, and nonprofit organizations to be displaced
and the approximate number of employees that may be affected.

(4) Consideration of any special relocation advisory services that may be necessary from the displacing agency and other cooperating agencies.

(b) Loans for planning and preliminary expenses. In the event that an Agency elects to consider using the duplicative provision in section 215 of the Uniform Act which permits the use of project funds for loans to cover planning and other preliminary expenses for the development of additional housing, the lead agency will establish criteria and procedures for such use upon the request of the Federal agency funding the program or project.

(c) Relocation assistance advisory services—(1) General. The Agency shall carry out a relocation assistance advisory program which satisfies the requirements of title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.), title VIII of the Civil Rights Act of 1968 (42 U.S.C. 3601 et seq.), and Executive Order 11063 (27 FR 11527, November 24, 1962), and offers the services described in paragraph (c)(2) of this section. If the Agency determines that a person occupying property adjacent to the real property acquired for the project is caused substantial economic injury because of such acquisition, it may offer advisory services to such person.

(2) Services to be provided. The advisory program shall include such measures, facilities, and services as may be necessary or appropriate in order to:

(i) Determine the relocation needs and preferences of each person to be displaced and explain the relocation payments and other assistance for which the person may be eligible, the related eligibility requirements, and the procedures for obtaining such assistance. This shall include a personal interview with each person.

(ii) Provide current and continuing information on the availability, purchase prices, and rental costs of comparable replacement dwellings, and explain that the person cannot be required to move unless at least one comparable replacement dwelling is made available as set forth in §24.204(a).

(A) As soon as feasible, the Agency shall inform the person in writing of the specific comparable replacement dwelling and the price or rent used for establishing the upper limit of the replacement housing payment (see §24.403(a) and (b)) and the basis for the determination, so that the person is aware of the maximum replacement housing payment for which he or she may qualify.

(B) Where feasible, housing shall be inspected prior to being made available to assure that it meets applicable standards. (See §24.2(d) and (f).) If such an inspection is not made, the person to be displaced shall be notified that a replacement housing payment may not be made unless the replacement dwelling is subsequently inspected and determined to be decent, safe, and sanitary.

(C) Whenever possible, minority persons shall be given reasonable opportunities to relocate to decent, safe, and sanitary replacement dwellings, not located in an area of minority concentration, that are within their financial means. This policy, however, does not require an Agency to provide a person a larger payment than is necessary to enable a person to relocate to a comparable replacement dwelling.

(D) All persons, especially the elderly and handicapped, shall be offered transportation to inspect housing to which they are referred.

(iii) Provide current and continuing information on the availability, purchase prices, and rental costs of suitable commercial and farm properties and locations. Assist any person displaced from a business or farm operation to obtain and become established in a suitable replacement location.

(iv) Minimize hardships to persons in adjusting to relocation by providing counseling, advice as to other sources of assistance that may be available, and such other help as may be appropriate.

(v) Supply persons to be displaced with appropriate information concerning Federal and State housing programs, disaster loan and other programs administered by the Small Business Administration, and other Federal and State programs offering assistance to displaced persons, and technical help to persons applying for such assistance.
§ 24.206 Eviction for cause.

Eviction for cause must conform to applicable state and local law. Any person who occupies the real property and is not in unlawful occupancy on the date of the initiation of negotiations, is presumed to be entitled to relocation payments and other assistance set forth in this part unless the Agency determines that:

(a) The person received an eviction notice prior to the initiation of negotiations and, as a result of that notice is later evicted; or
(b) The person is evicted after the initiation of negotiations for serious or repeated violation of material terms of the lease or occupancy agreement; and
(c) In either case the eviction was not undertaken for the purpose of evading the obligation to make available the payments and other assistance set forth in this part.

For purposes of determining eligibility for relocation payments, the date of displacement is the date the person moves, or if later, the date a comparable replacement dwelling is made available. This section applies only to persons who would otherwise have been displaced by the project.

§ 24.207 General requirements—claims for relocation payments.

(a) Documentation. Any claim for a relocation payment shall be supported by such documentation as may be reasonably required to support expenses incurred, such as bills, certified prices, appraisals, or other evidence of such expenses. A displaced person must be provided reasonable assistance necessary to complete and file any required claim for payment.

(b) Expedited payments. The Agency shall review claims in an expedited manner. The claimant shall be promptly notified as to any additional documentation that is required to support the claim. Payment for a claim shall be made as soon as feasible following receipt of sufficient documentation to support the claim.

(c) Advance payments. If a person demonstrates the need for an advance relocation payment in order to avoid or reduce a hardship, the Agency shall issue the payment, subject to such safeguards as are appropriate to ensure that the objective of the payment is accomplished.

(d) Time for filing—(1) All claims for a relocation payment shall be filed with the Agency within 18 months after:
   (i) For tenants, the date of displacement;
   (ii) For owners, the date of displacement or the date of the final payment for the acquisition of the real property, whichever is later.
   (2) This time period shall be waived by the Agency for good cause.

(e) Multiple occupants of one displacement dwelling. If two or more occupants of the displacement dwelling move to separate replacement dwellings, each occupant is entitled to a reasonable prorated share, as determined by the Agency, of any relocation payments that would have been made if the occupants moved together to a comparable replacement dwelling. However, if the Agency determines that two or more occupants maintained separate households within the same dwelling, such occupants have separate entitlements to relocation payments.

(f) Deductions from relocation payments. An Agency shall deduct the amount of any advance relocation payment, to which a displaced person is otherwise entitled. Similarly, a Federal agency shall, and a State agency may, deduct from relocation payments any rent that the displaced person owes the Agency; provided that no deduction shall be made if it would prevent the
displaced person from obtaining a comparable replacement dwelling as required by §24.204. The Agency shall not withhold any part of a relocation payment to a displaced person to satisfy an obligation to any other creditor.

(g) Notice of denial of claim. If the Agency disapproves all or part of a payment claimed or refuses to consider the claim on its merits because of untimely filing or other grounds, it shall promptly notify the claimant in writing of its determination, the basis for its determination, and the procedures for appealing that determination.

§ 24.208 Reimbursement payments not considered as income.

No relocation payment received by a displaced person under this part shall be considered as income for the purpose of the Internal Revenue Code of 1954, which has been redesignated as the Internal Revenue Code of 1986 or for the purpose of determining the eligibility or the extent of eligibility of any person for assistance under the Social Security Act or any other Federal law, except for any Federal law providing low-income housing assistance.

Subpart D—Payments for Moving and Related Expenses

§ 24.301 Payment for actual reasonable moving and related expenses—residential moves.

Any displaced owner-occupant or tenant of a dwelling who qualifies as a displaced person (defined at §24.2(g)) is entitled to payment of his or her actual moving and related expenses, as the Agency determines to be reasonable and necessary, including expenses for:

(a) Transportation of the displaced person and personal property. Transportation costs for a distance beyond 50 miles are not eligible, unless the Agency determines that relocation beyond 50 miles is justified.

(b) Packing, crating, unpacking, and uncrating of the personal property.

(c) Disconnecting, dismantling, removing, reassembling, and reinstalling relocated household appliances, and other personal property.

(d) Storage of the personal property for a period not to exceed 12 months, unless the Agency determines that a longer period is necessary.

(e) Insurance for the replacement value of the property in connection with the move and necessary storage.

(f) The replacement value of property lost, stolen, or damaged in the process of moving (not through the fault or negligence of the displaced person, his or her agent, or employee) where insurance covering such loss, theft, or damage is not reasonably available.

(g) Other moving-related expenses that are not listed as ineligible under §24.305, as the Agency determines to be reasonable and necessary.

§ 24.302 Fixed payment for moving expenses—residential moves.

Any person displaced from a dwelling or a seasonal residence is entitled to receive an expense and dislocation allowance as an alternative to a payment for actual moving and related expenses under §24.301. This allowance shall be determined according to the applicable schedule approved by the Federal Highway Administration. This includes a provision that the expense and dislocation allowance to a person with minimal personal possessions who is in occupancy of a dormitory style room shared by two or more other unrelated persons or a person whose residential move is performed by an agency at no cost to the person shall be limited to $50.

§ 24.303 Payment for actual reasonable moving and related expenses—nonresidential moves.

(a) Eligible costs. Any business or farm operation which qualifies as a displaced person (defined at §24.2(g)) is entitled to payment for such actual moving and related expenses, as the Agency determines to be reasonable and necessary, including expenses for:

(1) Transportation of personal property. Transportation costs for a distance beyond 50 miles are not eligible, unless the Agency determines that relocation beyond 50 miles is justified.

(2) Packing, crating, unpacking, and uncrating of the personal property.

(3) Disconnecting, dismantling, removing, reassembling, and reinstalling relocated machinery, equipment,
other personal property, including substitute personal property described at §24.303(a)(12). This includes connection to utilities available nearby. It also includes modifications to the personal property necessary to adapt it to the replacement structure, the replacement site, or the utilities at the replacement site, and modifications necessary to adapt the utilities at the replacement site to the personal property. (Expenses for providing utilities from the right-of-way to the building or improvement are excluded.)

(4) Storage of the personal property for a period not to exceed 12 months, unless the Agency determines that a longer period is necessary.

(5) Insurance for the replacement value of the personal property in connection with the move and necessary storage.

(6) Any license, permit, or certification required of the displaced person at the replacement location. However, the payment may be based on the remaining useful life of the existing license, permit, or certification.

(7) The replacement value of property lost, stolen, or damaged in the process of moving (not through the fault or negligence of the displaced person, his or her agent, or employee) where insurance covering such loss, theft, or damage is not reasonably available.

(8) Professional services necessary for:
   (i) Planning the move of the personal property,
   (ii) Moving the personal property, and
   (iii) Installing the relocated personal property at the replacement location.

(9) Relettering signs and replacing stationery on hand at the time of displacement that are made obsolete as a result of the move.

(10) Actual direct loss of tangible personal property incurred as a result of moving or discontinuing the business or farm operation. The payment shall consist of the lesser of:
   (i) The fair market value of the item for continued use at the displacement site, less the proceeds from its sale. (To be eligible for payment, the claimant must make a good faith effort to sell the personal property, unless the Agency determines that such effort is not necessary. When payment for property loss is claimed for goods held for sale, the fair market value shall be based on the cost of the goods to the business, not the potential selling price.); or
   (ii) The estimated cost of moving the item, but with no allowance for storage. (If the business or farm operation is discontinued, the estimated cost shall be based on a moving distance of 50 miles.)

(11) The reasonable cost incurred in attempting to sell an item that is not to be relocated.

(12) Purchase of substitute personal property. If an item of personal property which is used as part of a business or farm operation is not moved but is promptly replaced with a substitute item that performs a comparable function at the replacement site, the displaced person is entitled to payment of the lesser of:
   (i) The cost of the substitute item, including installation costs at the replacement site, minus any proceeds from the sale or trade-in of the replaced item; or
   (ii) The estimated cost of moving and reinstalling the replaced item but with no allowance for storage. At the Agency’s discretion, the estimated cost for a low cost or uncomplicated move may be based on a single bid or estimate.

(13) Searching for a replacement location. A displaced business or farm operation is entitled to reimbursement for actual expenses, not to exceed $1,000, as the Agency determines to be reasonable, which are incurred in searching for a replacement location, including:
   (i) Transportation.
   (ii) Meals and lodging away from home.
   (iii) Time spent searching, based on reasonable salary or earnings.
   (iv) Fees paid to a real estate agent or broker to locate a replacement site, exclusive of any fees or commissions related to the purchase of such site.

(14) Other moving-related expenses that are not listed as ineligible under §24.305, as the Agency determines to be reasonable and necessary.

(b) Notification and inspection. The following requirements apply to payments under this section:
§ 24.304 Reestablishment expenses—nonresidential moves.

In addition to the payments available under §24.303 of this subpart, a small business, as defined in §24.2(t), farm or nonprofit organization is entitled to receive a payment, not to exceed $10,000, for expenses actually incurred in relocating and reestablishing such small business, farm or nonprofit organization at a replacement site.

(a) Eligible expenses. Reestablishment expenses must be reasonable and necessary, as determined by the Agency. They include, but are not limited to, the following:

(1) Repairs or improvements to the replacement real property as required by Federal, State or local law, code or ordinance.

(2) Modifications to the replacement property to accommodate the business operation or make replacement structures suitable for conducting the business.

(3) Construction and installation costs for exterior signing to advertise the business.

(4) Provision of utilities from right-of-way to improvements on the replacement site.

(5) Redecoration or replacement of soiled or worn surfaces at the replacement site, such as paint, panelling, or carpeting.

(6) Licenses, fees and permits when not paid as part of moving expenses.

(7) Feasibility surveys, soil testing and marketing studies.

(8) Advertisement of replacement location.

(9) Professional services in connection with the purchase or lease of a replacement site.

(10) Estimated increased costs of operation during the first 2 years at the replacement site for such items as:

(i) Lease or rental charges,

(ii) Personal or real property taxes,

(iii) Insurance premiums, and

(iv) Utility charges, excluding impact fees.

(11) Impact fees or one-time assessments for anticipated heavy utility usage.

(12) Other items that the Agency considers essential to the reestablishment of the business.

(b) Ineligible expenses. The following is a nonexclusive listing of reestablishment expenditures not considered to be reasonable, necessary, or otherwise eligible:

(1) Purchase of capital assets, such as, office furniture, filing cabinets, machinery, or trade fixtures.
§ 24.305  
(2) Purchase of manufacturing materials, production supplies, product inventory, or other items used in the normal course of the business operation.

(3) Interest on money borrowed to make the move or purchase the replacement property.

(4) Payment to a part-time business in the home which does not contribute materially to the household income.

§ 24.305  Ineligible moving and related expenses.

A displaced person is not entitled to payment for:

(a) The cost of moving any structure or other real property improvement in which the displaced person reserved ownership. However, this part does not preclude the computation under §24.401(c)(4)(iii); or

(b) Interest on a loan to cover moving expenses; or

(c) Loss of goodwill; or

(d) Loss of profits; or

(e) Loss of trained employees; or

(f) Any additional operating expenses of a business or farm operation incurred because of operating in a new location except as provided in §24.304(a)(10); or

(g) Personal injury; or

(h) Any legal fee or other cost for preparing a claim for a relocation payment or for representing the claimant before the Agency; or

(i) Expenses for searching for a replacement dwelling; or

(j) Physical changes to the real property at the replacement location of a business or farm operation except as provided in §§24.303(a)(3) and §24.304; or

(k) Costs for storage of personal property on real property already owned or leased by the displaced person.

§ 24.306  Fixed payment for moving expenses—nonresidential moves.

(a) Business. A displaced business may be eligible to choose a fixed payment in lieu of the payments for actual moving and related expenses, and actual reasonable reestablishment expenses provided by §§24.303 and 24.304. Such fixed payment, except for payment to a nonprofit organization, shall equal the average annual net earnings of the business, as computed in accordance with paragraph (e) of this section, but not less than $1,000 nor more than $20,000. The displaced business is eligible for the payment if the Agency determines that:

(1) The business owns or rents personal property which must be moved in connection with such displacement and for which an expense would be incurred in such move; and, the business vacates or relocates from its displacement site.

(2) The business cannot be relocated without a substantial loss of its existing patronage (clientele or net earnings). A business is assumed to meet this test unless the Agency determines that it will not suffer a substantial loss of its existing patronage; and

(3) The business is not a part of a commercial enterprise having more than three other entities which are not being acquired by the Agency, and which are under the same ownership and engaged in the same or similar business activities.

(4) The business is not operated at a displacement dwelling solely for the purpose of renting such dwelling to others.

(5) The business is not operated at the displacement site solely for the purpose of renting the site to others.

(6) The business contributed materially to the income of the displaced person during the 2 taxable years prior to displacement (see §24.2(e)).

(b) Determining the number of businesses. In determining whether two or more displaced legal entities constitute a single business which is entitled to only one fixed payment, all pertinent factors shall be considered, including the extent to which:

(1) The same premises and equipment are shared;

(2) Substantially identical or interrelated business functions are carried out and business and financial affairs are commingled;

(3) The entities are held out to the public, and to those customarily dealing with them, as one business; and

(4) The same person or closely related persons own, control, or manage the affairs of the entities.
(c) Farm operation. A displaced farm operation (defined at §24.2(i)) may choose a fixed payment, in lieu of the payments for actual moving and related expenses and actual reasonable reestablishment expenses, in an amount equal to its average annual net earnings as computed in accordance with paragraph (e) of this section, but not less than $1,000 nor more than $20,000. In the case of a partial acquisition of land which was a farm operation before the acquisition, the fixed payment shall be made only if the Agency determines that:

(1) The acquisition of part of the land caused the operator to be displaced from the farm operation on the remaining land; or

(2) The partial acquisition caused a substantial change in the nature of the farm operation.

(d) Nonprofit organization. A displaced nonprofit organization may choose a fixed payment of $1,000 to $20,000, in lieu of the payments for actual moving and related expenses and actual reasonable reestablishment expenses, if the Agency determines that it cannot be relocated without a substantial loss of existing patronage (membership or clientele). A nonprofit organization is assumed to meet this test, unless the Agency demonstrates otherwise. Any payment in excess of $1,000 must be supported with financial statements for the two 12-month periods prior to the acquisition. The amount to be used for the payment is the average of 2 years annual gross revenues less administrative expenses. (See appendix A of this part).

(e) Average annual net earnings of a business or farm operation. The average annual net earnings of a business or farm operation are one-half of its net earnings before Federal, State, and local income taxes during the 2 taxable years immediately prior to the taxable year in which it was displaced. If the business or farm was not in operation for the full 2 taxable years prior to displacement, net earnings shall be based on the actual period of operation at the displacement site during the 2 taxable years prior to displacement, projected to an annual rate. Average annual net earnings may be based upon a different period of time when the Agency determines it to be more equitable. Net earnings include any compensation obtained from the business or farm operation by its owner, the owner’s spouse, and dependents. The displaced person shall furnish the Agency proof of net earnings through income tax returns, certified financial statements, or other reasonable evidence which the Agency determines is satisfactory.

§ 24.307 Discretionary utility relocation payments.

(a) Whenever a program or project undertaken by a displacing agency causes the relocation of a utility facility (see §§24.2(aa) and (bb)) and the relocation of the facility creates extraordinary expenses for its owner, the displacing agency may, at its option, make a relocation payment to the owner for all or part of such expenses, if the following criteria are met:

(1) The utility facility legally occupies State or local government property, or property over which the State or local government has an easement or right-of-way; and

(2) The utility facility’s right of occupancy thereon is pursuant to State law or local ordinance specifically authorizing such use, or where such use and occupancy has been granted through a franchise, use and occupancy permit, or other similar agreement; and

(3) Relocation of the utility facility is required by and is incidental to the primary purpose of the project or program undertaken by the displacing agency; and

(4) There is no Federal law, other than the Uniform Act, which clearly establishes a policy for the payment of utility moving costs that is applicable to the displacing agency’s program or project; and

(5) State or local government reimbursement for utility moving costs or payment of such costs by the displacing agency is in accordance with State law.

(b) For the purposes of this section, the term extraordinary expenses means those expenses which, in the opinion of the displacing agency, are not routine or predictable expenses relating to the utility’s occupancy of rights-of-way.
§ 24.401 Replacement housing payment for 180-day homeowner-occupants.

(a) Eligibility. A displaced person is eligible for the replacement housing payment for a 180-day homeowner-occupant if the person:

(1) Has actually owned and occupied the displacement dwelling for not less than 180 days immediately prior to the initiation of negotiations; and

(2) Purchases and occupies a decent, safe, and sanitary replacement dwelling within one year after the later of the following dates (except that the Agency may extend such one year period for good cause):

(i) The date the person receives final payment for the displacement dwelling or, in the case of condemnation, the date the full amount of the estimate of just compensation is deposited in the court, or

(ii) The date the displacing agency’s obligation under §24.204 is met.

(b) Amount of payment. The replacement housing payment for an eligible 180-day homeowner-occupant may not exceed $22,500. (See also §24.404.) The payment under this subpart is limited to the amount necessary to relocate to a comparable replacement dwelling within one year from the date the displaced homeowner-occupant is paid for the displacement dwelling, or the date a comparable replacement dwelling is made available to such person, whichever is later. The payment shall be the sum of:

(1) The amount by which the cost of a replacement dwelling exceeds the acquisition cost of the displacement dwelling, as determined in accordance with paragraph (c) of this section; and

(2) The increased interest costs and other debt service costs which are incurred in connection with the mortgage(s) on the replacement dwelling, as determined in accordance with paragraph (d) of this section; and

(3) The reasonable expenses incidental to the purchase of the replacement dwelling, as determined in accordance with paragraph (e) of this section.

(c) Price differential—(1) Basic computation. The price differential to be paid under paragraph (b)(1) of this section is the amount which must be added to the acquisition cost of the displacement dwelling to provide a total amount equal to the lesser of:

(i) The reasonable cost of a comparable replacement dwelling as determined in accordance with §24.403(a); or

(ii) The purchase price of the decent, safe, and sanitary replacement dwelling actually purchased and occupied by the displaced person.

(2) Mixed-use and multifamily properties. If the displacement dwelling was part of a property that contained another dwelling unit and/or space used for non-residential purposes, and/or is located on a lot larger than typical for residential purposes, only that portion of the acquisition payment which is actually attributable to the displacement dwelling shall be considered its acquisition cost when computing the price differential.

(3) Insurance proceeds. To the extent necessary to avoid duplicate compensation, the amount of any insurance proceeds received by a person in connection with a loss to the displacement dwelling due to a catastrophic occurrence (fire, flood, etc.) shall be included in the acquisition cost of the displacement dwelling when computing the price differential. (Also see §24.3.)
(4) Owner retention of displacement dwelling. If the owner retains ownership of his or her dwelling, moves it from the displacement site, and reoccupies it on a replacement site, the purchase price of the replacement dwelling shall be the sum of:

   (i) The cost of moving and restoring the dwelling to a condition comparable to that prior to the move; and

   (ii) The cost of making the unit a decent, safe, and sanitary replacement dwelling (defined at §24.2(f)); and

   (iii) The current fair market value for residential use of the replacement site (see appendix A of this part, §24.401(c)(4)(iii)), unless the claimant rented the displacement site and there is a reasonable opportunity for the claimant to rent a suitable replacement site; and

   (iv) The retention value of the dwelling, if such retention value is reflected in the “acquisition cost” used when computing the replacement housing payment.

(d) Increased mortgage interest costs. The displacing agency shall determine the factors to be used in computing the amount to be paid to a displaced person under paragraph (b)(2) of this section. The payment for increased mortgage interest cost shall be the amount which will reduce the mortgage balance on a new mortgage to an amount which could be amortized with the same monthly payment for principal and interest as that for the mortgage(s) on the displacement dwelling.

   In addition, payments shall include other debt service costs, if not paid as incidental costs, and shall be based only on bona fide mortgages that were valid liens on the displacement dwelling for at least 180 days prior to the initiation of negotiations. Paragraphs (d)(1) through (5) of this section shall apply to the computation of the increased mortgage interest costs payment, which payment shall be contingent upon a mortgage being placed on the replacement dwelling.

   (1) The payment shall be based on the unpaid mortgage balance(s) on the displacement dwelling; however, in the event the person obtains a smaller mortgage than the mortgage balance(s) computed in the buydown determination the payment will be prorated and reduced accordingly. (See appendix A of this part.) In the case of a home equity loan the unpaid balance shall be that balance which existed 180 days prior to the initiation of negotiations or the balance on the date of acquisition, whichever is less.

   (2) The payment shall be based on the remaining term of the mortgage(s) on the displacement dwelling or the term of the new mortgage, whichever is shorter.

   (3) The interest rate on the new mortgage used in determining the amount of the payment shall not exceed the prevailing fixed interest rate for conventional mortgages currently charged by mortgage lending institutions in the area in which the replacement dwelling is located.

   (4) Purchaser’s points and loan origination or assumption fees, but not seller’s points, shall be paid to the extent:

      (i) They are not paid as incidental expenses;

      (ii) They do not exceed rates normal to similar real estate transactions in the area;

      (iii) The Agency determines them to be necessary; and

      (iv) The computation of such points and fees shall be based on the unpaid mortgage balance on the displacement dwelling, less the amount determined for the reduction of such mortgage balance under this section.

   (5) The displaced person shall be advised of the approximate amount of this payment and the conditions that must be met to receive the payment as soon as the facts relative to the person’s current mortgage(s) are known and the payment shall be made available at or near the time of closing on the replacement dwelling in order to reduce the new mortgage as intended.

(e) Incidental expenses. The incidental expenses to be paid under paragraph (b)(3) of this section or §24.402(c)(1) are those necessary and reasonable costs actually incurred by the displaced person incident to the purchase of a replacement dwelling, and customarily paid by the buyer, including:

   (1) Legal, closing, and related costs, including those for title search, preparing conveyance instruments, notary fees, preparing surveys and plats, and recording fees.
§ 24.402 Replacement housing payment for 90-day occupants.

(a) Eligibility. A tenant or owner-occupant displaced from a dwelling is entitled to a payment not to exceed $5,250 for rental assistance, as computed in accordance with paragraph (b) of this section, or downpayment assistance, as computed in accordance with paragraph (c) of this section, if such displaced person:

(1) Has actually and lawfully occupied the displacement dwelling for at least 90 days immediately prior to the initiation of negotiations; and

(2) Has rented, or purchased, and occupied a decent, safe, and sanitary replacement dwelling within 1 year (unless the Agency extends this period for good cause) after:

(i) For a tenant, the date he or she moves from the displacement dwelling, or

(ii) For an owner-occupant, the later of:

(A) The date he or she receives final payment for the displacement dwelling, or in the case of condemnation, the date the full amount of the estimate of just compensation is deposited with the court; or

(B) The date he or she moves from the displacement dwelling.

(b) Rental assistance payment—(1) Amount of payment. An eligible displaced person who rents a replacement dwelling is entitled to a payment not to exceed $5,250 for rental assistance. (See also §24.404.) Such payment shall be 42 times the amount obtained by subtracting the base monthly rental for the displacement dwelling from the lesser of:

(i) The monthly rent and estimated average monthly cost of utilities for a comparable replacement dwelling; or

(ii) The monthly rent and estimated average monthly cost of utilities for the decent, safe, and sanitary replacement dwelling actually occupied by the displaced person.

(2) Base monthly rental for replacement dwelling. The base monthly rental for the displacement dwelling is the lesser of:

(i) The average monthly cost for rent and utilities at the displacement dwelling for a reasonable period prior to displacement, as determined by the Agency. (For an owner-occupant, use the fair market rent for the displacement dwelling. For a tenant who paid little or no rent for the displacement dwelling, use the fair market rent, unless its use would result in a hardship because of the person's income or other circumstances); or

(ii) Thirty (30) percent of the person's average gross household income. (If the person refuses to provide appropriate evidence of income or is a dependent, the base monthly rental shall be established solely on the criteria in paragraph (b)(2)(i) of this section. A full time student or resident of an institution may be assumed to be a dependent, unless the person demonstrates otherwise); or

(iii) The total of the amounts designated for shelter and utilities if receiving a welfare assistance payment from a program that designates the amounts for shelter and utilities.

(3) Manner of disbursement. A rental assistance payment may, at the Agency’s discretion, be disbursed in either a lump sum or in installments. However,
except as limited by §24.403(f), the full amount vests immediately, whether or not there is any later change in the person’s income or rent, or in the condition or location of the person’s housing.

(c) Downpayment assistance payment—

(1) Amount of payment. An eligible displaced person who purchases a replacement dwelling is entitled to a downpayment assistance payment in the amount the person would receive under paragraph (b) of this section if the person rented a comparable replacement dwelling. At the discretion of the Agency, a downpayment assistance payment may be increased to any amount not to exceed $5,250. However, the payment to a displaced homeowner shall not exceed the amount the owner would receive under §24.401(b) if he or she met the 180-day occupancy requirement. An Agency’s discretion to provide the maximum payment shall be exercised in a uniform and consistent manner, so that eligible displaced persons in like circumstances are treated equally. A displaced person eligible to receive a payment as a 180-day owner-occupant under §24.401(a) is not eligible for this payment. (See also appendix A of this part, §24.402(c).)

(2) Application of payment. The full amount of the replacement housing payment for downpayment assistance must be applied to the purchase price of the replacement dwelling and related incidental expenses.

§ 24.403 Additional rules governing replacement housing payments.

(a) Determining cost of comparable replacement dwelling. The upper limit of a replacement housing payment shall be based on the cost of a comparable replacement dwelling (defined at §24.2(d)).

(1) If available, at least three comparable replacement dwellings shall be examined and the payment computed on the basis of the dwelling most nearly representative of, and equal to, or better than, the displacement dwelling. An adjustment shall be made to the asking price of any dwelling, to the extent justified by local market data (see also §24.205(a)(2) and appendix A of this part). An obviously overpriced dwelling may be ignored.

(2) If the site of the comparable replacement dwelling lacks a major exterior attribute of the displacement dwelling site, (e.g., the site is significantly smaller or does not contain a swimming pool), the value of such attribute shall be subtracted from the acquisition cost of the displacement dwelling for purposes of computing the payment.

(3) If the acquisition of a portion of a typical residential property causes the displacement of the owner from the dwelling and the remainder is a buildable residential lot, the Agency may offer to purchase the entire property. If the owner refuses to sell the remainder to the Agency, the fair market value of the remainder may be added to the acquisition cost of the displacement dwelling for purposes of computing the replacement housing payment.

(4) To the extent feasible, comparable replacement dwellings shall be selected from the neighborhood in which the displacement dwelling was located or, if that is not possible, in nearby or similar neighborhoods where housing costs are generally the same or higher.

(b) Inspection of replacement dwelling. Before making a replacement housing payment or releasing a payment from escrow, the Agency or its designated representative shall inspect the replacement dwelling and determine whether it is a decent, safe, and sanitary dwelling as defined at §24.2(f).

(c) Purchase of replacement dwelling. A displaced person is considered to have met the requirement to purchase a replacement dwelling, if the person:

(1) Purchases a dwelling; or
(2) Purchases and rehabilitates a substandard dwelling; or
(3) Relocates a dwelling which he or she owns or purchases; or
(4) Constructs a dwelling on a site he or she owns or purchases; or
(5) Contracts for the purchase or construction of a dwelling on a site provided by a builder or on a site the person owns or purchases.

(6) Currently owns a previously purchased dwelling and site, valuation of which shall be on the basis of current fair market value.

(d) Occupancy requirements for displacement or replacement dwelling. No person shall be denied eligibility for a
replacement housing payment solely because the person is unable to meet the occupancy requirements set forth in these regulations for a reason beyond his or her control, including:

(1) A disaster, an emergency, or an imminent threat to the public health or welfare, as determined by the President, the Federal agency funding the project, or the displacing agency; or

(2) Another reason, such as a delay in the construction of the replacement dwelling, military reserve duty, or hospital stay, as determined by the Agency.

(e) Conversion of payment. A displaced person who initially rents a replacement dwelling and receives a rental assistance payment under §24.402(b) is eligible to receive a payment under §24.401 or §24.402(c) if he or she meets the eligibility criteria for such payments, including purchase and occupancy within the prescribed 1-year period. Any portion of the rental assistance payment that has been disbursed shall be deducted from the payment computed under §24.401 or §24.402(c).

(f) Payment after death. A replacement housing payment is personal to the displaced person and upon his or her death the undisbursed portion of any such payment shall not be paid to the heirs or assigns, except that:

(1) The amount attributable to the displaced person’s period of actual occupancy of the replacement housing shall be paid.

(2) The full payment shall be disbursed in any case in which a member of a displaced family dies and the other family member(s) continue to occupy a decent, safe, and sanitary replacement dwelling.

(3) Any portion of a replacement housing payment necessary to satisfy the legal obligation of an estate in connection with the selection of a replacement dwelling by or on behalf of a deceased person shall be disbursed to the estate.

§24.404 Replacement housing of last resort.

(a) Determination to provide replacement housing of last resort. Whenever a program or project cannot proceed on a timely basis because comparable replacement dwellings are not available within the monetary limits for owners or tenants, as specified in §24.401 or §24.402, as appropriate, the Agency shall provide additional or alternative assistance under the provisions of this subpart. Any decision to provide last resort housing assistance must be adequately justified either:

(1) On a case-by-case basis, for good cause, which means that appropriate consideration has been given to:
   (i) The availability of comparable replacement housing in the program or project area; and
   (ii) The resources available to provide comparable replacement housing; and
   (iii) The individual circumstances of the displaced person; or

(2) By a determination that:
   (i) There is little, if any, comparable replacement housing available to displaced persons within an entire program or project area; and, therefore, last resort housing assistance is necessary for the area as a whole; and
   (ii) A program or project cannot be advanced to completion in a timely manner without last resort housing assistance; and
   (iii) The method selected for providing last resort housing assistance is cost effective, considering all elements which contribute to total program or project costs. (Will project delay justify waiting for less expensive comparable replacement housing to become available?)

(b) Basic rights of persons to be displaced. Notwithstanding any provision of this subpart, no person shall be required to move from a displacement dwelling unless comparable replacement housing is available to such person. No person may be deprived of any rights the person may have under the Uniform Act or this part. The Agency shall not require any displaced person to accept a dwelling provided by the Agency under these procedures (unless the Agency and the displaced person have entered into a contract to do so) in lieu of any acquisition payment or any relocation payment for which the person may otherwise be eligible.

(c) Methods of providing comparable replacement housing. Agencies shall have broad latitude in implementing this subpart, but implementation shall be
for reasonable cost, on a case-by-case basis unless an exception to case-by-case analysis is justified for an entire project.

(1) The methods of providing replacement housing of last resort include, but are not limited to:

(i) A replacement housing payment in excess of the limits set forth in §24.401 or §24.402. A rental assistance subsidy under this section may be provided in installments or in a lump sum at the Agency’s discretion.

(ii) Rehabilitation of and/or additions to an existing replacement dwelling.

(iii) The construction of a new replacement dwelling.

(iv) The provision of a direct loan, which requires regular amortization or deferred repayment. The loan may be unsecured or secured by the real property. The loan may bear interest or be interest-free.

(v) The relocation and, if necessary, rehabilitation of a dwelling.

(vi) The purchase of land and/or a replacement dwelling by the displacing agency and subsequent sale or lease to, or exchange with a displaced person.

(vii) The removal of barriers to the handicapped.

(viii) The change in status of the displaced person with his or her concurrence from tenant to homeowner when it is more cost effective to do so, as in cases where a downpayment may be less expensive than a last resort rental assistance payment.

(2) Under special circumstances, consistent with the definition of a comparable replacement dwelling, modified methods of providing replacement housing of last resort permit consideration of replacement housing based on space and physical characteristics different from those in the displacement dwelling (see appendix A, of this part, §24.404), including upgraded, but smaller replacement housing that is decent, safe, and sanitary and adequate to accommodate individuals or families displaced from marginal or substandard housing with probable functional obsolescence. In no event, however, shall a displaced person be required to move into a dwelling that is not functionally equivalent in accordance with §24.2(d)(2).

(3) The agency shall provide assistance under this subpart to a displaced person who is not eligible to receive a replacement housing payment under §§24.401 and 24.402 because of failure to meet the length of occupancy requirement when comparable replacement rental housing is not available at rental rates within the person’s financial means, which is 30 percent of the person’s gross monthly household income. Such assistance shall cover a period of 42 months.

Subpart F—Mobile Homes

§24.501 Applicability.

This subpart describes the requirements governing the provision of relocation payments to a person displaced from a mobile home and/or mobile home site who meets the basic eligibility requirements of this part. Except as modified by this subpart, such a displaced person is entitled to a moving expense payment in accordance with subpart D and a replacement housing payment in accordance with subpart E to the same extent and subject to the same requirements as persons displaced from conventional dwellings.

§24.502 Moving and related expenses—mobile homes.

(a) A homeowner-occupant displaced from a mobile home or mobile home site is entitled to a payment for the cost of moving his or her mobile home on an actual cost basis in accordance with §24.301. A non-occupant owner of a rented mobile home is eligible for actual cost reimbursement under §24.303. However, if the mobile home is not acquired, but the homeowner-occupant obtains a replacement housing payment under one of the circumstances described at §24.503(a)(3), the owner is not eligible for payment for moving personal property from the mobile home.

(b) The following rules apply to payments for actual moving expenses under §24.301:

(1) A displaced mobile homeowner, who moves the mobile home to a replacement site, is eligible for the reasonable cost of disassembling, moving,
§ 24.503 Replacement housing payment for 180-day mobile homeowner-occupants.

(a) A displaced owner-occupant of a mobile home is entitled to a replacement housing payment, not to exceed $22,500, under §24.401 if:

(1) The person both owned the displacement mobile home and occupied it on the displacement site for at least 180 days immediately prior to the initiation of negotiations;

(2) The person meets the other basic eligibility requirements at §24.401(a); and

(3) The Agency acquires the mobile home and/or mobile home site, or the mobile home is not acquired by the Agency but the owner is displaced from the mobile home because the Agency determines that the mobile home:

(i) Is not and cannot economically be made decent, safe, and sanitary; or

(ii) Cannot be relocated without substantial damage or unreasonable cost; or

(iii) Cannot be relocated because there is no available comparable replacement dwelling site; or

(iv) Cannot be relocated because it does not meet mobile home park entrance requirements.

(b) If the mobile home is not acquired, and the Agency determines that it is not practical to relocate it, the acquisition cost of the displacement dwelling used when computing the price differential amount, described at §24.401(c), shall include the salvage value or trade-in value of the mobile home, whichever is higher.

§ 24.504 Replacement housing payment for 90-day mobile home occupants.

A displaced tenant or owner-occupant of a mobile home is eligible for a replacement housing payment, not to exceed $5,250, under §24.402 if:

(a) The person actually occupied the displacement mobile home on the displacement site for at least 90 days immediately prior to the initiation of negotiations;

(b) The person meets the other basic eligibility requirements at §24.402(a); and

(c) The Agency acquires the mobile home and/or mobile home site, or the mobile home is not acquired by the Agency but the owner or tenant is displaced from the mobile home because of one of the circumstances described at §24.503(a)(3).

§ 24.505 Additional rules governing relocation payments to mobile home occupants.

(a) Replacement housing payment based on dwelling and site. Both the mobile home and mobile home site must be considered when computing a replacement housing payment. For example, a displaced mobile home occupant may have owned the displacement mobile home and rented the site or may have rented the displacement mobile home and owned the site. Also, a person may elect to purchase a replacement mobile home and rent a replacement site, or rent a replacement mobile home and purchase a replacement site. In such cases, the total replacement housing payment shall consist of a payment for a dwelling and a payment for a site, each computed under the applicable section in subpart E. However, the total replacement housing payment under subpart E shall not exceed the maximum payment (either $22,500 or $5,250) permitted under the section that governs the computation for the dwelling. (See also §24.403(b).)

(b) Cost of comparable replacement dwelling—(1) If a comparable replacement mobile home is not available, the replacement housing payment shall be
computed on the basis of the reasonable cost of a conventional comparable replacement dwelling.

(2) If the Agency determines that it would be practical to relocate the mobile home, but the owner-occupant elects not to do so, the Agency may determine that, for purposes of computing the price differential under §24.401(c), the cost of a comparable replacement dwelling is the sum of:

(i) The value of the mobile home,
(ii) The cost of any necessary repairs or modifications, and
(iii) The estimated cost of moving the mobile home to a replacement site.

(c) Initiation of negotiations. If the mobile home is not actually acquired, but the occupant is considered displaced under this part, the “initiation of negotiations” is the initiation of negotiations to acquire the land, or, if the land is not acquired, the written notification that he or she is a displaced person under this part.

(d) Person moves mobile home. If the owner is reimbursed for the cost of moving the mobile home under this part, he or she is not eligible to receive a replacement housing payment to assist in purchasing or renting a replacement mobile home. The person may, however, be eligible for assistance in purchasing or renting a replacement site.

(e) Partial acquisition of mobile home park. The acquisition of a portion of a mobile home park property may leave a remaining part of the property that is not adequate to continue the operation of the park. If the Agency determines that a mobile home located in the remaining part of the property must be moved as a direct result of the project, the owner and any tenant shall be considered a displaced person who is entitled to relocation payments and other assistance under this part.

Subpart G—Certification

§ 24.601 Purpose.

This subpart permits a State agency to fulfill its responsibilities under the Uniform Act by certifying that it shall operate in accordance with State laws and regulations which shall accomplish the purpose and effect of the Uniform Act, in lieu of providing the assurances required by §24.4 of this part.

[54 FR 8928, Mar. 2, 1989; 54 FR 24712, June 9, 1989]

§ 24.602 Certification application.

An agency wishing to proceed on the basis of a certification may request an application for certification from the lead agency [Director, Office of Right-of-Way, HRW–1, Federal Highway Administration, 400 Seventh St. SW., Washington, DC 20590]. The completed application for certification must be approved by the governor of the State, or the governor’s designee, and must be coordinated with the Federal funding agency, in accordance with application procedures.

[58 FR 26072, April 30, 1993]

§ 24.603 Monitoring and corrective action.

(a) The Federal lead agency shall, in coordination with other Federal agencies, monitor from time to time State agency implementation of programs or projects conducted under the certification process and the State agency shall make available any information required for this purpose.

(b) A Federal agency that has accepted a State agency’s certification pursuant to this subpart should withhold its approval of any of its Federal financial assistance to any project, program, or activity, in progress or to be undertaken by such State agency, if it is found by the Federal agency that the State agency has failed to comply with the applicable State law and regulations implementing those provisions of the Uniform Act for which the State agency would otherwise have provided the assurances required by sections 210 and 305 of the Uniform Act. The Federal agency may withhold Federal financial assistance if the certifying State agency fails to comply with the applicable State law and regulations implementing other provisions of the Uniform Act. The Federal agency shall notify the lead agency at least 15 days prior to any decision to withhold funds under this subpart. The lead agency may consult with the Federal agency upon receiving such notification. The
lead agency will also inform other Federal agencies which have accepted certification under this subpart from the same State agency of the pending action.

(c) A Federal agency may, after consultation with the lead agency, and notice to and consultation with the governor, or his or her designee, rescind any previous approval provided under this subpart if the certifying State agency fails to comply with its certification or with applicable State law and regulations. The Federal agency shall initiate consultation with the lead agency at least 30 days prior to any decision to rescind approval of a certification under this subpart. The lead agency will also inform other Federal agencies which have accepted a certification under this subpart from the same State agency, and will take whatever action that may be appropriate.

(d) The lead agency may require periodic information or data from affected Federal or State agencies.

APPENDIX A TO PART 24—ADDITIONAL INFORMATION

This appendix provides additional information to explain the intent of certain provisions of this part.

Subpart A—General

Section 24.2 Definitions

Section 24.2(d)(2) Definition of comparable replacement dwelling. The requirement in §24.2(d)(2) that a comparable replacement dwelling be "functionally equivalent" to the displacement dwelling means that it must perform the same function, provide the same utility, and be capable of contributing to a comparable style of living as the displacement dwelling. While it need not possess every feature of the displacement dwelling, the principal features must be present.

For example, if the displacement dwelling contains a pantry and a similar dwelling is not available, a replacement dwelling with ample kitchen cupboards may be acceptable. Insulated and heated space in a garage might prove a good substitute for a basement workshop space. A dining area may substitute for a separate dining room. Under some circumstances, attic space could substitute for basement space for storage purposes, and vice versa.

Only in unusual circumstances may a comparable replacement dwelling contain fewer rooms or, consequentially, less living space than the displacement dwelling. Such may be the case when a decent, safe, and sanitary replacement dwelling (which by definition is "adequate to accommodate" the displaced person) may be found to be "functionally equivalent" to a larger but very run-down substandard dwelling.

Section 24.2(d)(7) requires that a comparable replacement dwelling for a person who is not receiving assistance under any government housing program before displacement must be currently available on the private market without any subsidy under a government housing program. A public housing unit may qualify as a comparable replacement dwelling only for a person displaced from a public housing unit; a privately-owned dwelling with a housing program subsidy tied to the unit may qualify as a comparable replacement dwelling only for a person displaced from a similarly subsidized unit or public housing; a housing program subsidy to a person (not tied to the building), such as a HUD Section 8 Existing Housing Program Certificate or a Housing Voucher, may be reflected in an offer of a comparable replacement dwelling to a person receiving a similar subsidy or occupying a privately-owned subsidized unit or public housing unit before displacement.

However, nothing in this part prohibits an Agency from offering, or precludes a person from accepting, assistance under a government housing program, even if the person did not receive similar assistance before displacement. However, the Agency is obligated to inform the person of his or her options under this part. (If a person accepts assistance under a government housing program, the rental assistance payment under §24.402 would be computed on the basis of the person’s actual out-of-pocket cost for the replacement housing.)

Section 24.2(g)(2) Persons not displaced. Section 24.2(g)(2)(iv) recognizes that there are circumstances where the acquisition of real property takes place without the intent or necessity that an occupant of the property be permanently displaced. Because such occupants are not considered "displaced persons" under this part, great care must be exercised to ensure that they are treated fairly and equitably. For example, if the tenant-occupant of a dwelling will not be displaced, but is required to relocate temporarily in connection with the project, the temporarily-occupied housing must be decent, safe, and sanitary and the tenant must be reimbursed for all reasonable out-of-pocket expenses incurred in connection with the temporary relocation, including moving expenses and increased housing costs during the temporary relocation.
Office of the Secretary of Transportation

Pt. 24, App. A

Section 24.102 Basic Acquisition Policies

Section 24.102(d) Establishment of offer of just compensation. The initial offer to an owner or lessee or not the renter also has that right) supersedes any other payment; it is only required to be made when the owner is agreeable to the process. Personal, face-to-face contact should take place, if feasible, but this section is not intended to require such contact in all cases.

Section 24.102(j) Payment before taking possession. It is intended that a right-of-entry for construction purposes be obtained only in the exceptional case, such as an emergency project, when there is no time to make an appraisal and purchase offer and the property owner is agreeable to the process.

Section 24.102(m) Fair rental. Section 301(6) of the Uniform Act limits what an Agency may charge when a former owner or previous occupant of a property is permitted to rent the property for a short term or when occupancy is subject to termination by the Agency on short notice. Such rent may not exceed "the fair rental value * * * to a short-term occupier," Generally, the Agency’s right to terminate occupancy on short notice (whether or not the renter also has that right) supersedes any other payment; it is only required to be made when the owner is agreeable to the process.

Section 24.103 Criteria for Appraisals

Section 24.103(a) Standards of appraisal. In paragraph (a)(3) of this section, it is intended that all relevant and reliable approaches to be utilized. However, where an Agency determines that the market approach will be adequate by itself because of the type of property being appraised and the availability of sales data, it may limit the appraisal assignment to the market approach.

Section 24.103(b) Less-than-full-fee interest in real property. This provision provides a benchmark by which the requirements of the subpart clearly apply to leases. However, the Agency may apply the regulations to any less-than-full-fee acquisition which is short of 50 years but which in its judgment should be covered.
Section 24.103(b) Influence of the project on just compensation. As used in this section, the term "project" is intended to mean an undertaking which is planned, designed, and intended to operate as a unit.

Because of the public knowledge of the proposed project, property values may be affected. A property owner should not be penalized because of a decrease in value caused by the proposed project nor reap a windfall at public expense because of increased value created by the proposed project.

Section 24.103(e) Conflict of interest. The overall objective is to minimize the risk of fraud and mismanagement and to promote public confidence in Federal and federally-assisted land acquisition practices. Recognizing that the costs may outweigh the benefits in some circumstances, §24.103(e) provides that the same person may both appraise and negotiate an acquisition, if the value is $2,500 or less. However, it should be noted that all appraisals must be reviewed in accordance with §24.104. This includes appraisals of real property valued at $2,500, or less.

Section 24.104 Review of appraisals

This section recognizes that Agencies differ in the authority delegated to the review appraiser. In some cases the reviewer establishes the amount of the offer to the owner and in other cases the reviewer makes a recommendation which is acted on at a higher level. It is also within Agency discretion to decide whether a second review is needed if the first review appraiser establishes a value different from that in the appraisal report or reports on a property.

Before acceptance of an appraisal, the review appraiser must determine that the appraiser's documentation, including valuation data and the analyses of that data, demonstrates the soundness of the appraiser's opinion of value. The qualifications of the review appraiser and the level of explanation of the basis for the reviewer's recommendation or approved value depend on the complexity of the appraisal problem. For a low value property requiring an uncomplicated valuation process, the reviewer's approval, endorsing the appraiser's report, may satisfy the requirement for the reviewer's statement.

Section 24.106 Expenses Incidental to Transfer of Title to the Agency

Generally, the Agency is able to pay such incidental costs directly and, where feasible, is required to do so. In order to prevent the property owner from making unnecessary out-of-pocket expenditures and to avoid duplication of expenses, the property owner should be informed early in the acquisition process of the Agency's intent to make such arrangements. In addition, it is emphasized that such expenses must be reasonable and necessary.

Subpart C—General Relocation Requirements

Section 24.204 Availability of Comparable Replacement Dwelling Before Displacement

Section 24.204(a) General. This provision requires that no one may be required to move from a dwelling without one comparable replacement dwelling having been made available. In addition, §24.204(a) requires that, "Where possible, three or more comparable replacement dwellings shall be made available." Thus the basic standard for the number of referrals required under this section is three. Only in situations where three comparable replacement dwellings are not available (e.g., when the local housing market does not contain three comparable dwellings) may the Agency make fewer than three referrals.

Section 24.205 Relocation Assistance Advisory Services

Section 24.205(c)(2)(ii)(C) is intended to emphasize that if the comparable replacement dwellings are located in areas of minority concentration, minority persons should, if possible, also be given opportunities to relocate to replacement dwellings not located in such areas.

Section 24.207 General Requirements—Claims for Relocation Payments

Section 24.207(a) allows an Agency to make a payment for low cost or uncomplicated moves without additional documentation, as long as the payment is limited to the amount of the lowest acceptable bid or estimate, as provided for in §24.303(c).

Subpart D—Payment for Moving and Related Expenses

Section 24.306 Fixed Payment for Moving Expenses—Nonresidential Moves

Section 24.306(d) Nonprofit organizations. Gross revenues may include membership fees, class fees, cash donations, tithes, receipts from sales or other forms of fund collection that enables the non-profit organization to operate. Administrative expenses are those for administrative support such as rent, utilities, salaries, advertising and other like items as well as fundraising expenses. Operating expenses for carrying out the purposes of the non-profit organization are not included in administrative expenses. The monetary receipts and expense amounts may be verified with certified financial statements or financial documents required by public agencies.
Office of the Secretary of Transportation

Pt. 24, App. A

Section 24.307 Discretionary Utility Relocation Payments

Section 24.307(c) describes the issues which must be agreed to between the displacing agency and the utility facility owner in determining the amount of the relocation payment. To facilitate and aid in reaching such agreement, the practices in the Federal Highway Administration regulation, 23 CFR part 645, subpart A, Utility Relocations, Adjustments and Reimbursement, should be followed.

Subpart E—Replacement Housing Payments

Section 24.401 Replacement Housing Payment for 180-Day Homeowner-Occupants

Section 24.401(a)(2) The provision for extending eligibility for a replacement housing payment beyond the one year period for good cause means that an extension may be granted if some event beyond the control of the displaced person such as acute or life threatening illness, bad weather preventing the completion of construction of a replacement dwelling or other like circumstances should cause delays in occupying a decent, safe, and sanitary replacement dwelling.

Section 24.401(c) Price differential. The provision in §24.401(c)(4)(iii) to use the current fair market value for residential use does not mean the Agency must have the property appraised. Any reasonable method for arriving at the fair market value may be used.

Section 24.401(d) Increased mortgage interest costs. The provision in §24.401(d) set forth the factors to be used in computing the payment that will be required to reduce a person's replacement mortgage (added to the downpayment) to an amount which can be amortized at the same monthly payment for principal and interest over the same period of time as the remaining term on the displacement mortgages. This payment is commonly known as the "buydown."

The remaining principal balance, the interest rate, and monthly principal and interest payments for the old mortgage as well as the interest rate, points and term for the new mortgage must be known to compute the increased mortgage interest costs. If the combination of interest and points for the new mortgage exceeds the current prevailing fixed interest rate and points for conventional mortgages and there is no justification for the excessive rate, then the current prevailing fixed interest rate and points shall be used in the computations. Justification may be the unavailability of the current prevailing rate due to the amount of the new mortgage, credit difficulties, or other similar reasons.

**SAMPLE COMPUTATION**

| Old Mortgage: Remaining Principal Balance ......................... | $50,000 |
| Monthly Payment (principal and interest) .......... | 458.22 |
| Interest rate (percent) ..... | 7 |
| New Mortgage: Interest rate (percent) ..... | 10 |
| Points ......................... | 3 |
| Term (years) ..................... | 15 |

Remaining term of the old mortgage is determined to be 174 months. (Determining, or computing, the actual remaining term is more reliable than using the data supplied by the mortgagee). However, if it is shorter, use the term of the new mortgage and compute the needed monthly payment.

Amount to be financed to maintain monthly payments of $458.22 at 10%—$42,010.18

\[
\text{Old Mortgage: } 50,000 - 42,010.18 = 7,989.82
\]

3 points on $42,010.18 ........ 1,260.31

Total buydown necessary to maintain payments at $458.22/month ........ 9,250.13

If the new mortgage actually obtained is less than the computed amount for a new mortgage ($42,010.18), the buydown shall be prorated accordingly. If the actual mortgage obtained in our example were $35,000, the buydown payment would be $7,706.57 ($35,000 ÷ $42,010.18 = .8331; $9,250.13 × .83 = $7,706.57).

The Agency is obligated to inform the person of the approximate amount of this payment and that he or she must obtain a mortgage of at least the same amount as the old mortgage and for at least the same term in order to receive the full amount of this payment. The displacée is also to be advised of the interest rate and points used to calculate the payment.

Section 24.402 Replacement Housing Payment for 90-Day Occupants

The downpayment assistance provisions in §24.402(c) are intended to limit such assistance to the amount of the computed rental assistance payment for a tenant or an eligible homeowner. It does, however, provide the latitude for Agency discretion in offering downpayment assistance which exceeds the computed rental assistance payment, up to the $5,250 statutory maximum. This does not mean, however, that such Agency discretion
may be exercised in a selective or discriminatory fashion. The displacing agency should develop a policy which affords equal treatment for persons in like circumstances and this policy should be applied uniformly throughout the Agency's programs or projects. It is recommended that displacing agencies coordinate with each other to reach a consensus on a uniform procedure for the State and/or the local jurisdiction.

For purposes of this section, the term downpayment means the downpayment ordinarily required to obtain conventional loan financing for the decent, safe, and sanitary dwelling actually purchased and occupied. However, if the downpayment actually required of a displaced person for the purchase of the replacement dwelling exceeds the amount ordinarily required, the amount of the downpayment may be the amount which the Agency determines is necessary.

Section 24.403 Additional Rules Governing Replacement Housing Payments

Section 24.403(a)(1). The procedure for adjusting the asking price of comparable replacement dwellings requires that the agency provide advisory assistance to the displaced person concerning negotiations so that he or she may enter the market as a knowledgeable buyer. If a displaced person elects to buy one of the selected comparables, but cannot acquire the property for the adjusted price, it is appropriate to increase the replacement housing payment to the actual purchase amount.

Section 24.404 Replacement Housing of Last Resort

Section 24.404(b). Basic rights of persons to be displaced. This paragraph affirms the right of a 180-day homeowner-occupant, who is eligible for a replacement housing payment under §24.401, to a reasonable opportunity to purchase a comparable replacement dwelling. However, it should be read in conjunction with the definition of "owner of a dwelling" at §24.2(p). The Agency is not required to provide persons owning only a fractional interest in the displacement dwelling a greater level of assistance to purchase a replacement dwelling than the Agency would be required to provide such persons if they owned fee simple title to the displacement dwelling. If such assistance is not sufficient to buy a replacement dwelling, the Agency may provide additional purchase assistance or rental assistance.

Section 24.404(c). Methods of providing comparable replacement housing. The use of cost effective means of providing comparable replacement housing is implied throughout the subpart. The term "reasonable cost" is used here to underline the fact that while innovative means to provide housing are encouraged, they should be cost-effective.

Section 24.404(c)(2) permits the use of last resort housing, in special cases, which may involve variations from the usual methods of obtaining comparability. However, it should be specially noted that such variation should never result in a lowering of housing standards nor should it ever result in a lower quality of living style for the displaced person. The physical characteristics of the comparable replacement dwelling may be dissimilar to those of the displacement dwelling but they may never be inferior.

One example might be the use of a new mobile home to replace a very substandard conventional dwelling in an area where comparable conventional dwellings are not available.

Another example could be the use of a superior, but smaller decent, safe and sanitary dwelling to replace a large, old substandard dwelling, only a portion of which is being used as living quarters by the occupants and no other large comparable dwellings are available in the area.

Subpart F—Mobile Homes

Section 24.503 Replacement Housing Payment for 180-Day Mobile Homeowner-Occupants

A 180-day owner-occupant who is displaced from a mobile home on a rented site may be eligible for a replacement housing payment for a dwelling computed under §24.401 and a replacement housing payment for a site computed under §24.402. A 180-day owner-occupant of both the mobile home and the site, who relocates the mobile home, may be eligible for a replacement housing payment under §24.401 to assist in the purchase of a replacement site or, under §24.402, to assist in renting a replacement site.

[54 FR 8928, Mar. 2, 1989; 54 FR 24712, June 9, 1989]

APPENDIX B TO PART 24—STATISTICAL REPORT FORM

This appendix sets forth the statistical information collected from Agencies in accordance with §24.9(c).

General

1. Report coverage. This report covers all relocation and real property acquisition activities under a Federal or a federally assisted project or program subject to the provisions of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended by Public Law 100-17, 101 Stat. 132.

2. Report period. Activities shall be reported on a Federal fiscal year basis, i.e., October 1 through September 30.

3. Where and when to submit report. Submit an original and two copies of this report to (Name and Address of Federal Agency) as soon as possible.
as possible after September 30, but NOT LATER THAN NOVEMBER 15.

4. How to report relocation payments. The full amount of a relocation payment shall be reported as if disbursed in the year during which the claim was approved, regardless of whether the payment is to be paid in installments.

5. How to report dollar amounts. Round off all money entries in Parts B and C to the nearest dollar.

6. Statutory references. The references in Part B indicate the section of the Uniform Act that authorizes the cost.

Part A. Persons displaced
Report in Part A the number of persons ("households," "businesses, including nonprofit organizations," and "farms") who were permanently displaced during the fiscal year by project or program activities and moved to their replacement dwelling or location. This includes businesses, nonprofit organizations and farms which, upon displacement, discontinued operations. The category "households" includes all families and individuals. A family shall be reported as "one," not by the number of people in the family unit. Persons shall be reported according to their status as "owners" or "tenants" of the property from which displaced.

Part B. Relocation payments and expenses
Columns (A) and (B). Report in Column (A) the number of displacements during the report year. Report in Column (B) the total amount represented by the displacements reported in Column (A).

Line 7A is a new line item for reporting the business reestablishment expense payment.

Lines 7A and 9, Column (B). Report in Column (B) the amount of costs that were included in the total amount approved on Lines 6 and 8, Column (B).

Lines 12A and B. Report in Column (A) the number of households displaced by project or program activities which were provided assistance in accordance with section 206(a) of the Uniform Act. Report in Column (B) the total financial assistance under section 206(a) allocable to the households reported in Column (A). (If a household received financial assistance under section 203 or section 204 as well as under section 206(a) of the Uniform Act, report the household as a displacement in Column (A), but in Column (B) report only the amount of financial assistance allocable to section 206(a). For example, if a tenant-household receives a payment of $7,000 to rent a replacement dwelling, the sum of $5,250 shall be included on Line 10, Column (B), and $1,750 shall be included on Line 12B, Column (B).)

Line 13. Report on Line 13 all administrative costs incurred during the report year in connection with providing relocation advisory assistance and services under section 205 of the Uniform Act.

Line 15. Report on Line 15 the total number of relocation appeals filed during the fiscal year by aggrieved persons.

Part C. Real property acquisition subject to Uniform Act
Lines 16, Columns (A) and (B). Report in Column (A) all parcels acquired during the report year where title or possession was vested in the acquiring agency during the reporting period. (Include parcels acquired without Federal financial assistance, if there was or will be Federal financial assistance in other phases of the project or program.) Report in Column (B) the total of the amounts paid, deposited in court, or otherwise made available to a property owner pursuant to applicable law in order to vest title or possession in the acquiring agency.

Line 17. Report on Line 17 the number of parcels reported on Line 16 that were acquired by condemnation where price disagreement was involved.

AUTHORITY: Sec. 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794); sec. 16(a) and (d) of the Federal Transit Act of 1964, as amended (49 U.S.C. 5310 (a) and (f)); sec. 165(b) of the Federal-Aid Highway Act of 1973, as amended (23 U.S.C. 142 nt.).

SOURCE: 44 FR 31468, May 31, 1979, unless otherwise noted.

EDITORIAL NOTE: Nomenclature changes to part 27 appear at 61 FR 56424, Nov. 1, 1996.

Subpart A—General

§ 27.1 Purpose.

The purpose of this part is to carry out the intent of section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) as amended, to the end that no otherwise qualified individual with a disability in the United States shall, solely by reason of his or her disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

§ 27.3 Applicability.

(a) This part applies to each recipient of Federal financial assistance from the Department of Transportation and to each program or activity that receives or benefits from such assistance.

(b) Design, construction, or alteration of buildings or other fixed facilities by public entities subject to part 37 of this title shall be in conformance with appendix A to part 37 of this title.

All other entities subject to section 504 shall design, construct or alter a building, or other fixed facilities shall be in conformance with either appendix A to part 37 of this title or the Uniform Federal Accessibility Standards, 41 CFR part 101-19 subpart 101-19.6, appendix A.

[44 FR 31468, May 31, 1979, as amended at 56 FR 45621, Sept. 6, 1991]

§ 27.5 Definitions.

As used in this part:

Applicant means one who submits an application, request, or plan to be approved by a Departmental official or by a primary recipient as a condition to eligibility for Federal financial assistance, and application means such an application, request, or plan.

Commercial service airport means an airport that is defined as a commercial service airport for purposes of the Federal Aviation Administration’s Airport Improvement Program and that enplanes annually 2500 or more passengers and receives scheduled passenger service of aircraft.

Department means the Department of Transportation.

Discrimination means denying handicapped persons the opportunity to participate in or benefit from any program or activity receiving Federal financial assistance.
Facility means all or any portion of buildings, structures, vehicles, equipment, roads, walks, parking lots, or other real or personal property or interest in such property.

Federal financial assistance means any grant, loan, contract (other than a procurement contract or a contract of insurance or guaranty), or any other arrangement by which the Department provides or otherwise makes available assistance in the form of:

(a) Funds;
(b) Services of Federal personnel; or
(c) Real or personal property or any interest in, or use of such property, including:
   (1) Transfers or leases of such property for less than fair market value or for reduced consideration; and
   (2) Proceeds from a subsequent transfer or lease of such property if the Federal share of its fair market value is not returned to the Federal Government.

Handicapped person means (1) any person who (a) has a physical or mental impairment that substantially limits one or more major life activities, (b) has a record of such an impairment, or (c) is regarded as having such an impairment. (2) As used in this definition, the phrase:
   (a) Physical or mental impairment means (i) any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular, reproductive; digestive; genito-urinary; hemic and lymphatic; skin; and endocrine; or (ii) any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. The term physical or mental impairment includes, but is not limited to, such diseases and conditions as orthopedic, visual, speech, and hearing impairments; cerebral palsy; epilepsy; muscular dystrophy; multiple sclerosis; cancer; heart disease; mental retardation; emotional illness; drug addiction; and alcoholism.
   (b) Major life activities means functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.
   (c) Has a record of such an impairment means has a history of, or has been classified, or misclassified, as having a mental or physical impairment that substantially limits one or more major life activities.
   (d) Is regarded as having an impairment means:
      (1) Has a physical or mental impairment that does not substantially limit major life activities but that is treated by a recipient as constituting such a limitation;
      (2) Has a physical or mental impairment that substantially limits major life activity only as a result of the attitudes of others toward such an impairment; or
      (3) Has none of the impairments set forth in paragraph (1) of this definition, but is treated by a recipient as having such an impairment.

Head of Operating Administration means the head of an operating administration within the Department (U.S. Coast Guard, Federal Highway Administration, Federal Aviation Administration, Federal Railroad Administration, National Highway Traffic Safety Administration, Federal Transit Administration, and Research and Special Programs Administration) providing Federal financial assistance to the recipient.

Primary recipient means any recipient that is authorized or required to extend Federal financial assistance from the Department to another recipient for the purpose of carrying out a program.

Qualified handicapped person means:
   (1) With respect to employment, a handicapped person who, with reasonable accommodation and within normal safety requirements, can perform the essential functions of the job in question, but the term does not include any individual who is an alcoholic or drug abuser whose current use of alcohol or drugs prevents such person from performing the duties of the job in question or whose employment, by reason of such current alcohol or drug abuse, would constitute a direct threat to property or the safety of others; and
§ 27.7 Discrimination prohibited.

(a) General. No qualified handicapped person shall, solely by reason of his disability, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity that receives or benefits from Federal financial assistance administered by the Department of Transportation.

(b) Discriminatory actions prohibited.

(1) A recipient, in providing any aid, benefit, or service, may not, directly or through contractual, licensing, or other arrangements, on the basis of disability:

(i) Deny a qualified handicapped person the opportunity to participate in or benefit from the aid, benefit, or service;

(ii) Afford a qualified handicapped person an opportunity to participate in or benefit from the aid, benefit, or service that is not substantially equal to that afforded persons who are not handicapped;

(iii) Provide a qualified handicapped person with an aid, benefit, or service that is not as effective in affording equal opportunity to obtain the same result, to gain the same benefit, or to reach the same level of achievement as persons who are not handicapped;

(iv) Provide different or separate aid, benefits, or services to handicapped persons or to any class of handicapped persons unless such action is necessary to provide qualified handicapped persons with aid, benefits or services that are as effective as those provided to persons who are not handicapped;

(v) Aid or perpetuate discrimination against a qualified handicapped person by providing financial or other assistance to an agency, organization, or person that discriminates on the basis of disability in providing any aid, benefit, or service to beneficiaries of the recipient's program;

(vi) Deny a qualified handicapped person the opportunity to participate in conferences, in planning or advising recipients, applicants or would-be applicants, or

(vii) Otherwise limit a qualified handicapped person in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving an aid, benefit, or service.

(2) For purposes of this part, aids, benefits, and services, to be equally effective, are not required to produce the identical result or level of achievement for handicapped and nonhandicapped persons, but must afford handicapped persons equal opportunity to obtain the same result, to gain the same benefit, or to reach the same level of achievement, in the most integrated setting that is reasonably achievable.

(3) Even if separate or different programs or activities are available to handicapped persons, a recipient may not deny a qualified handicapped person the opportunity to participate in
§ 27.9 Assurance required.

(a) General. Each application for Federal financial assistance to carry out a program to which this part applies, and each application to provide a facility, shall, as a condition to approval or extension of any Federal financial assistance pursuant to the application, contain, or be accompanied by, written assurance that the program will be conducted or the facility operated in compliance with all the requirements imposed by or pursuant to this part. An applicant may incorporate these assurances by reference in subsequent applications to the Department.

(b) Future effect of assurances. Recipients of Federal financial assistance, and transferees of property obtained by a recipient with the participation of Federal financial assistance, are bound by the recipient's assurance under the following circumstances:

(1) When Federal financial assistance is provided in the form of a conveyance of real property or an interest in real property from the Department of Transportation to a recipient, the instrument of conveyance shall include a covenant running with the land binding the recipient and subsequent transferees to comply with the requirements of this part for so long as the property is used for the purpose for which Federal financial assistance was provided or for a similar purpose.

(2) When Federal financial assistance is used by a recipient to purchase or improve real property, the assurance provided by the recipient shall obligate the recipient to comply with the requirements of this part and require any subsequent transferee to agree in writing to comply with the requirements of this part. The obligations of the recipient and transferees under this part shall continue in effect for as long as the property is used for the purpose for which Federal financial assistance was provided or for a similar purpose.

(3) When Federal financial assistance is provided to the recipient in the form of, or is used by the recipient to obtain, personal property, the assurance provided by the recipient shall obligate

the programs or activities that are not separate or different.

(4) A recipient may not, directly or through contractual or other arrangements, utilize criteria or methods of administration:

(i) That have the effect of subjecting qualified handicapped persons to discrimination on the basis of disability,

(ii) That have the purpose or effect of defeating or substantially reducing the likelihood that handicapped persons can benefit by the objectives of the recipient's program, or

(iii) That yield or perpetuate discrimination against another recipient if both recipients are subject to common administrative control or are agencies of the same State.

(5) In determining the site or location of a facility, an applicant or a recipient may not make selections:

(i) That have the effect of excluding handicapped persons from, denying them the benefits of, or otherwise subjecting them to discrimination under any program or activity that receives or benefits from Federal financial assistance, or

(ii) That have the purpose or effect of defeating or substantially impairing the accomplishment of the objectives of the program or activity with respect to handicapped persons.

(6) As used in this section, the aid, benefit, or service provided under a program or activity receiving or benefiting from Federal financial assistance includes any aid, benefit, or service provided in or through a facility that has been constructed, expanded, altered, leased or rented, or otherwise acquired, in whole or in part, with Federal financial assistance.

(c) Communications. Recipients shall take appropriate steps to ensure that communications with their applicants, employees, and beneficiaries are available to persons with impaired vision and hearing.

(d) Programs limited by Federal law. In programs authorized by Federal statute or executive order that are designed especially for the handicapped, or for a particular class of handicapped persons, the exclusion of nonhandicapped or other classes of handicapped persons is not prohibited by this part.
§ 27.13 Designation of responsible employee and adoption of grievance procedures.

(a) Designation of responsible employee. Each recipient that employs fifteen or more persons shall, within 90 days of

the recipient to comply with the requirements of this part for the period it retains ownership or possession of the property or the property is used by a transferee for purposes directly related to the operations of the recipient.

(4) When Federal financial assistance is used by a recipient for purposes other than to obtain property, the assurance provided shall obligate the recipient to comply with the requirements of this part for the period during which the Federal financial assistance is extended to the program.

§ 27.11 Remedial action, voluntary action and compliance planning.

(a) Remedial action. (1) If the responsible Departmental official finds that a qualified handicapped person has been excluded from participation in, denied the benefits of, or otherwise subjected to discrimination under, any program or activity in violation of this part, the recipient shall take such remedial action as the responsible Departmental official deems necessary to overcome the effects of the violation.

(2) Where a recipient is found to have violated this part, and where another recipient exercises control over the recipient that has violated this part, the responsible Departmental official, where appropriate, may require either or both recipients to take remedial action.

(3) The responsible Departmental official may, where necessary to overcome the effects of a violation of this part, require a recipient to take remedial action:

(i) With respect to handicapped persons who are no longer participants in the recipient’s program but who were participants in the program when such discrimination occurred, and

(ii) With respect to handicapped persons who would have been participants in the program had the discrimination not occurred.

(b) Voluntary action. A recipient may take steps, in addition to any action that is required by this part, to assure the full participation in the recipient’s program or activity by qualified handicapped persons.

(c) Compliance planning. (1) A recipient shall, within 90 days from the effective date of this part, designate and forward to the head of any operating administration providing financial assistance, with a copy to the responsible Departmental official the names, addresses, and telephone numbers of the persons responsible for evaluating the recipient’s compliance with this part.

(2) A recipient shall, within 180 days from the effective date of this part, after consultation at each step in paragraphs (c)(2) (i)-(iii) of this section with interested persons, including handicapped persons and organizations representing the handicapped:

(i) Evaluate its current policies and practices for implementing these regulations, and notify the head of the operating administration of the completion of this evaluation;

(ii) Identify shortcomings in compliance and describe the methods used to remedy them;

(iii) Begin to modify, with official approval of recipient’s management, any policies or practices that do not meet the requirements of this part according to a schedule or sequence that includes milestones or measures of achievement. These modifications shall be completed within one year from the effective date of this part;

(iv) Take appropriate remedial steps to eliminate the effects of any discrimination that resulted from previous policies and practices; and

(v) Establish a system for periodically reviewing and updating the evaluation.

(3) A recipient shall, for at least three years following completion of the evaluation required under paragraph (c)(2) of this section, maintain on file, make available for public inspection, and furnish upon request to the head of the operating administration:

(i) A list of the interested persons consulted;

(ii) A description of areas examined and any problems indentified; and

(iii) A description of any modifications made and of any remedial steps taken.

§ 27.13 Designation of responsible employee and adoption of grievance procedures.

(a) Designation of responsible employee. Each recipient that employs fifteen or more persons shall, within 90 days of
§ 27.15 Notice.

(a) A recipient shall take appropriate initial and continuing steps to notify participants, beneficiaries, applicants, and employees, including those with impaired vision or hearing, and unions or professional organizations holding collective bargaining or professional agreements with the recipient, that it does not discriminate on the basis of disability. The notification shall state, where appropriate, that the recipient does not discriminate in admission or access to, or treatment or employment in, its programs or activities. The notification shall also include an identification of the responsible employee designated pursuant to §27.13(a). A recipient shall make the initial notification required by this section within 90 days of the effective date of this part. Methods of initial and continuing notification may include the posting of notices, publication in newspapers and magazines, placement of notices in recipients' publications and distribution of memoranda or other written communications.

(b) If a recipient publishes or uses recruitment materials or publications containing general information that it makes available to participants, beneficiaries, applicants, or employees, it shall include in those materials or publications a statement of the policy described in paragraph (a) of this section. A recipient may meet the requirement of this paragraph either by including appropriate inserts in existing materials and publications or by revising and reprinting the materials and publications. In either case, the addition or revision must be specially noted.

§ 27.17 Effect of State or local law.

The obligation to comply with this part is not obviated or affected by any State or local law.

§ 27.19 Compliance with Americans with Disabilities Act requirements and FTA policy.

(a) Recipients subject to this part (whether public or private entities as defined in 49 CFR part 37) shall comply with all applicable requirements of the Americans with Disabilities Act (ADA) of 1990 (42 U.S.C. 12101-12213) including the Department's ADA regulations (49 CFR parts 37 and 38), the regulations of the Department of Justice implementing titles II and III of the ADA (28 CFR parts 35 and 36), and the regulations of the Equal Employment Opportunity Commission (EEOC) implementing title I of the ADA (29 CFR part 1630). Compliance with the EEOC title I regulations is required as a condition of compliance with section 504 for DOT recipients even for organizations which, because they have fewer than 25 or 15 employees, would not be subject to the EEOC regulation in its own right. Compliance with all these regulations is a condition of receiving Federal financial assistance from the Department of Transportation. Any recipient not in compliance with this requirement shall be subject to enforcement action under subpart F of this part.

(b) Consistent with FTA policy, any recipient of Federal financial assistance from the Federal Transit Administration whose solicitation was made before August 26, 1990, and is for one or more inaccessible vehicles, shall provide written notice to the Secretary (e.g., in the case of a solicitation made in the past under which the recipient can order additional new buses after the effective date of this section). The Secretary shall review each case individually, and determine whether the Department will continue to participate in the Federal grant, consistent with the Department's ADA regulations (49 CFR parts 37 and 38), the regulations of the Department of Justice implementing titles II and III of the ADA (28 CFR parts 35 and 36), and the regulations of the Equal Employment Opportunity Commission (EEOC) implementing title I of the ADA (29 CFR part 1630). Compliance with the EEOC title I regulations is required as a condition of compliance with section 504 for DOT recipients even for organizations which, because they have fewer than 25 or 15 employees, would not be subject to the EEOC regulation in its own right. Compliance with all these regulations is a condition of receiving Federal financial assistance from the Department of Transportation. Any recipient not in compliance with this requirement shall be subject to enforcement action under subpart F of this part.
§ 27.71 Airport facilities.

(a) This section applies to all terminal facilities and services owned, leased, or operated on any basis by a recipient of DOT financial assistance at a commercial service airport, including parking and ground transportation facilities.

(b) Airport operators shall ensure that the terminal facilities and services subject to this section shall be readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs. Airport operators shall be deemed to comply with this section 504 obligation if they meet requirements applying to state and local government programs and facilities under Department of Justice (DOJ) regulations implementing Title II of the Americans with Disabilities Act (ADA)

(c) The airport shall ensure that there is an accessible path between the gate and the area from which aircraft are boarded.

(d) Systems of inter-terminal transportation, including, but not limited to, shuttle vehicles and people movers, shall comply with applicable requirements of the Department of Transportation’s ADA rules.

(e) The Americans with Disabilities Act Accessibility Guidelines (ADAAGs), including section 10.4 concerning airport facilities, shall be the standard for accessibility under this section.

(f) Contracts or leases between carriers and airport operators concerning the use of airport facilities shall set forth the respective responsibilities of the parties for the provision of accessible facilities and services to individuals with disabilities as required by this part and applicable ADA rules of the Department of Transportation and Department of Justice for airport operators and applicable Air Carrier Access Act rules (49 CFR part 382) for carriers.

(g) If an airport operator who receives Federal financial assistance for an existing airport facility has not already done so, the recipient shall submit a transition plan meeting the requirements of §27.65(d) of this part to the FAA no later than March 3, 1997.

§ 27.72 Boarding assistance for small aircraft.

(a) Paragraphs (b) and (c) of this section apply to airports with 10,000 or more annual enplanements.

(b) Airports shall, in cooperation with carriers serving the airports, provide boarding assistance to individuals with disabilities using mechanical lifts, ramps, or other devices that do not require employees to lift or carry passengers up stairs.

(c)(1) Each airport operator shall negotiate in good faith with each carrier serving the airport concerning the acquisition and use of boarding assistance devices. The airport operator and the carrier(s) shall, by no later than September 2, 1997, sign a written agreement allocating responsibility for meeting the boarding assistance requirements of this section between or among the parties. The agreement shall be made available, on request, to representatives of the Department of Transportation.

(2) The agreement shall provide that all actions necessary to ensure accessible boarding for passengers with disabilities are completed as soon as practicable, but no later than December 2, 1998 at large and medium commercial service hub airports (those with 1,200,000 or more annual enplanements); December 2, 1999 for small commercial service hub airports (those with between 250,000 and 1,199,999 annual enplanements); or December 4, 2000 for non-hub commercial service primary airports (those with between 10,000 and 249,999 annual enplanements). All air carriers and airport operators involved are jointly responsible for the timely and complete implementation of the agreement.
§ 27.75 Federal Highway Administration—highways.

(a) New facilities—(1) Highway rest area facilities. All such facilities that will be constructed with Federal financial assistance shall be designed and constructed in accordance with the accessibility standards referenced in §27.3(b) of this part.

(2) Curb cuts. All pedestrian crosswalks constructed with Federal financial assistance shall have curb cuts or ramps to accommodate persons in wheelchairs, pursuant to section 228 of the Federal-Aid Highway Act of 1973 (23 U.S.C. 402(b)(1)(F)).

(3) Pedestrian over-passes, under-passes and ramps. Pedestrian over-passes, under-passes and ramps, constructed with Federal financial assistance, shall be accessible to handicapped persons, including having gradients no steeper than 10 percent, unless:

(i) Alternate safe means are provided to enable mobility-limited persons to cross the roadway at that location; or

(ii) It would be infeasible for mobility-limited persons to reach the over-passes, under-passes or ramps because of unusual topographical or architectural obstacles unrelated to the federally assisted facility.

(b) Existing facilities—Rest area facilities. Rest area facilities on Interstate highways shall be made accessible to handicapped persons, including wheelchair users, within a three-year period after the effective date of this part. Other rest area facilities shall be made accessible when Federal financial assistance is used to improve the rest area, or when the roadway adjacent to or in the near vicinity of the rest area is constructed, reconstructed or otherwise altered with Federal financial assistance.

§ 27.77 Recipients of Essential Air Service subsidies.

Any air carrier receiving Federal financial assistance from the Department of Transportation under the Essential Air Service program shall, as a condition of receiving such assistance, comply with applicable requirements of this part and applicable section 504 and ACAA rules of the Department of Transportation.

Subpart C—Enforcement

§ 27.121 Compliance information.

(a) Cooperation and assistance. The responsible Departmental official, to the fullest extent practicable, seeks the cooperation of recipients in securing compliance with this part and provides assistance and guidance to recipients to help them comply with this part.

(b) Compliance reports. Each recipient shall keep on file for one year all complaints of noncompliance received. A record of all such complaints, which may be in summary form, shall be kept for five years. Each recipient shall keep other records and submit to the responsible Departmental official or his/her designee timely, complete, and accurate compliance reports at such times, and in such form, and containing such information as the responsible Department official may prescribe. In the case of any program under which a primary recipient extends Federal financial assistance to any other recipient, the other recipient shall also submit compliance reports to the primary recipient so as to enable the primary recipient to prepare its report.

(c) Access to sources of information. Each recipient shall permit access by the responsible Departmental official or his/her designee during normal business hours to books, records, accounts, and other sources of information, and to facilities that are pertinent to compliance with this part. Where required information is in the exclusive possession of another agency or person who fails or refuses to furnish the information, the recipient shall so certify in its report and describe the efforts made to obtain the information. Considerations of privacy or confidentiality do not bar the Department from evaluating or seeking to enforce compliance with this part. Information of a confidential nature obtained in connection with compliance evaluation or enforcement is not disclosed by the Department, except in formal enforcement proceedings, where necessary, or where otherwise required by law.

(d) Information to beneficiaries and participants. Each recipient shall make available to participants, beneficiaries, and other interested persons such information regarding the provisions of this regulation and its application to the program for which the recipient receives Federal financial assistance, and make such information available to them in such manner, as the responsible Departmental official finds necessary to apprise them of the protections against discrimination provided by the Act and this part.

§ 27.123 Conduct of investigations.

(a) Periodic compliance reviews. The responsible Departmental official or his/her designee, from time to time, reviews the practices of recipients to determine whether they are complying with this part.

(b) Complaints. Any person who believes himself/herself or any specific class of individuals to be harmed by failure to comply with this part may, personally or through a representative, file a written complaint with the responsible Departmental official. A Complaint must be filed not later than 180 days from the date of the alleged discrimination, unless the time for filing is extended by the responsible Departmental official or his/her designee.

(c) Investigations. The responsible Departmental official or his/her designee makes a prompt investigation whenever a compliance review, report, complaint, or any other information indicates a possible failure to comply with this part. The investigation includes, where appropriate, a review of the pertinent practices and policies of the recipient, and the circumstances under which the possible noncompliance with this part occurred.

(d) Resolution of matters. (1) If, after an investigation pursuant to paragraph (c) of this section, the responsible Departmental official finds reasonable cause to believe that there is a failure to comply with this part, the responsible Departmental official will inform the recipient. The matter is resolved by informal means whenever possible. If the responsible Department official determines that the matter cannot be resolved by informal means, action is taken as provided in § 27.125.

(2) If an investigation does not warrant action pursuant to paragraph (d)(1) of this section, the responsible Departmental official or his/her designee so informs the recipient and the complainant, if any, in writing.
§ 27.125

(e) Intimidating and retaliatory acts prohibited. No employee or contractor of a recipient shall intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by section 504 of the Act or this part, or because the individual has made a complaint, testified, assisted, or participated in any manner in an investigation, hearing, or proceeding, under this part. The identity of complainants is kept confidential at their election during the conduct of any investigation, hearing or proceeding under this part. However, when such confidentiality is likely to hinder the investigation, the complainant will be advised for the purpose of waiving the privilege.

§ 27.125 Compliance procedure.

(a) General. If there is reasonable cause for the responsible Departmental official to believe that there is a failure to comply with any provision of this part that cannot be corrected by informal means, the responsible Departmental official may recommend suspension or termination of, or refusal to grant or to continue Federal financial assistance, or take any other steps authorized by law. Such other steps may include, but are not limited to:

(1) A referral to the Department of Justice with a recommendation that appropriate proceedings be brought to enforce any rights of the United States under any law of the United States (including other titles of the Act), or any assurance or other contractual undertaking; and

(2) Any applicable proceeding under State or local law.

(b) Refusal of Federal financial assistance. (1) No order suspending, terminating, or refusing to grant or to continue Federal financial assistance becomes effective until:

(i) The responsible Departmental official has advised the applicant or recipient of its failure to comply and has determined that compliance cannot be secured by voluntary means; and

(ii) There has been an express finding by the Secretary on the record, after opportunity for hearing, of a failure by the applicant or recipient to comply with a requirement imposed by or pursuant to this part.

(2) Any action to suspend, terminate, or refuse to grant or to continue Federal financial assistance is limited to the particular program to which the failure is attributed, and is limited to its effect on the particular program, or part thereof, in which noncompliance has been found.

(c) Other means authorized by law. No other action is taken until:

(1) The responsible Departmental official has determined that compliance cannot be secured by voluntary means;

(2) The recipient or other person has been notified by the responsible Departmental official of its failure to comply and of the proposed action;

(3) The expiration of at least 10 days from the mailing of such notice to the recipient or other person. During the period, additional efforts are made to persuade the recipient or other person to comply with the regulations and to take such corrective action as may be appropriate.

§ 27.127 Hearings.

(a) Opportunity for hearing. Whenever an opportunity for a hearing is required by §27.125(b), reasonable notice is given by the responsible Departmental official by registered or certified mail, return receipt requested, to the affected applicant or recipient. This notice advises the applicant or recipient of its failure to comply and of the proposed action; and either:

(1) Fixes a date not less than 20 days after the date of such notice within which the applicant or recipient may request a hearing; or

(2) Advises the applicant or recipient that the matter in question has been set for hearing at a stated place and time.

The time and place shall be reasonable and subject to change for cause. The complainant, if any, also is advised of the time and place of the hearing. An applicant or recipient may waive a hearing and submit written information and argument for the record. The failure of an applicant or recipient to
request a hearing constitutes a waiver of the right to a hearing under section 504 of the Act and §27.125(b), and consent to the making of a decision on the basis of such information as may be part of the record.

(b) If the applicant or recipient waives its opportunity for a hearing, the responsible Departmental official shall notify the applicant or recipient that it has the opportunity to submit written information and argument for the record. The responsible Departmental official may also offer written information and argument into the record.

(c) Time and place of hearing. Hearings are held at the office of the Department in Washington, DC, at a time fixed by the responsible Departmental official unless he/she determines that the convenience of the applicant or recipient or of the Department requires that another place be selected. Hearings are held before an Administrative Law Judge designated in accordance with 5 U.S.C. 3105 and 3344 (section 11 of the Administrative Procedure Act).

(d) Right to counsel. In all proceedings under this section, the applicant or recipient and the responsible Departmental official have the right to be represented by counsel.

(e) Procedures, evidence and record. (1) The hearing, decision, and any administrative review thereof are conducted in conformity with sections 554 through 557 of title 5 of the United States Code, and in accordance with such rules of procedure as are proper (and not inconsistent with this section) relating to the conduct of the hearing, giving notice subsequent to those provided for in paragraph (a) of this section, taking testimony, exhibits, arguments and briefs, requests for findings, and other related matters. The responsible Departmental official and the applicant or recipient are entitled to introduce all relevant evidence on the issues as stated in the notice for hearing or as determined by the officer conducting the hearing. Any person (other than a government employee considered to be on official business) who, having been invited or requested to appear and testify as a witness on the government’s behalf, attends at a time and place scheduled for a hearing provided for by this part may be reimbursed for his/her travel and actual expenses in an amount not to exceed the amount payable under the standardized travel regulations applicable to a government employee traveling on official business.

(2) Technical rules of evidence do not apply to hearings conducted pursuant to this part, but rules or principles designed to assure production of the most credible evidence available and to subject testimony to cross examination are applied where reasonably necessary by the Administrative Law Judge conducting the hearing. The Administrative Law Judge may exclude irrelevant, immaterial, or unduly repetitious evidence. All documents and other evidence offered or taken for the record are open to examination by the parties and opportunity is given to refute facts and arguments advanced by either side. A transcript is made of the oral evidence except to the extent the substance thereof is stipulated for the record. All decisions are based on the hearing record and written findings shall be made.

(f) Consolidation or joint hearings. In cases in which the same or related facts are asserted to constitute noncompliance with this regulation with respect to two or more programs to which this part applies, or noncompliance with this part and the regulations of one or more other Federal departments or agencies issued under section 504 of the Act, the responsible Departmental official may, in agreement with such other departments or agencies, where applicable, provide for consolidated or joint hearings. Final decisions in such cases, insofar as this regulation is concerned, are made in accordance with §27.129.

§ 27.129 Decisions and notices.

(a) Decisions by Administrative Law Judge. After the hearing, the Administrative Law Judge certifies the entire record including his recommended findings and proposed decision to the Secretary for a final decision. A copy of the certification is mailed to the applicant or recipient and to the complainant, if any. The responsible Departmental official and the applicant or recipient may submit written arguments
to the Secretary concerning the Administrative Law Judge's recommended findings and proposed decision.

(b) Final decision by the Secretary. When the record is certified to the Secretary by the Administrative Law Judge, the Secretary reviews the record and accepts, rejects, or modifies the Administrative Law Judge's recommended findings and proposed decision, stating the reasons therefor.

(c) Decisions if hearing is waived. Whenever a hearing pursuant to §27.125(b) is waived, the Secretary makes his/her final decision on the record, stating the reasons therefor.

(d) Rulings required. Each decision of the Administrative Law Judge or the Secretary contains a ruling on each finding or conclusion presented and specifies any failures to comply with this part.

(e) Content of orders. The final decision may provide for suspension or termination, or refusal to grant or continue Federal financial assistance, in whole or in part, under the program involved. The decision may contain such terms, conditions, and other provisions as are consistent with and will effectuate the purposes of the Act and this part, including provisions designed to assure that no Federal financial assistance will thereafter be extended unless and until the recipient corrects its noncompliance and satisfies the Secretary that it will fully comply with this part.

(f) Subsequent proceedings. (1) An applicant or recipient adversely affected by an order issued under paragraph (e) of this section is restored to full eligibility to receive Federal financial assistance if it satisfies the terms and conditions of that order or if it brings itself into compliance with this part and provides reasonable assurance that it will fully comply with this part.

(2) Any applicant or recipient adversely affected by an order entered pursuant to paragraph (e) of this section may, at any time, request the responsible Departmental official to restore its eligibility, to receive Federal financial assistance. Any request must be supported by information showing that the applicant or recipient has met the requirements of paragraph (f)(1) of this section. If the responsible Departmental official determines that those requirements have been satisfied, he/she may restore such eligibility, subject to the approval of the Secretary.

(3) If the responsible Departmental official denies any such request, the applicant or recipient may submit a request, in writing, for a hearing specifying why it believes the responsible Departmental official should restore it to full eligibility. It is thereupon given a prompt hearing, with a decision on the record. The applicant or recipient is restored to eligibility if it demonstrates to the satisfaction of the Secretary at the hearing that it satisfied the requirements of paragraph (f)(1) of this section.

(4) The hearing procedures of §27.127(b) through (c) and paragraphs (a) through (d) of this section apply to hearings held under paragraph (f)(3) of this section.

(5) While proceedings under this paragraph are pending, the sanctions imposed by the order issued under paragraph (e) of this section shall remain in effect.

PART 28—ENFORCEMENT OF NON-DISCRIMINATION ON THE BASIS OF HANDICAP IN PROGRAMS OR ACTIVITIES CONDUCTED BY THE DEPARTMENT OF TRANSPORTATION

Sec.

§ 28.101 Purpose.
The purpose of this part is to carry out section 119 of the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978, which amended section 504 of the Rehabilitation Act of 1973 to prohibit discrimination on the basis of handicap in programs or activities conducted by Executive agencies, including this Department, or the United States Postal Service. 49 CFR part 27 implements section 504 in the Department’s financial assistance programs.

§ 28.102 Application.
This part applies to all programs or activities conducted by the Department except for programs and activities conducted outside the United States that do not involve individuals with handicaps in the United States.

§ 28.103 Definitions.
For purposes of this part, the term—Assistant Attorney General means the Assistant Attorney General, Civil Rights Division, United States Department of Justice.

Auxiliary aids means services or devices that enable persons with impaired sensory, manual, or speaking skills to have an equal opportunity to participate in, and enjoy the benefits of, programs or activities conducted by the Department. For example, auxiliary aids useful for persons with impaired vision include readers, Brailled materials, audio recordings, and other similar services and devices. Auxiliary aids useful for persons with impaired hearing include telephone handset amplifiers, telephones compatible with hearing aids, telecommunication devices for deaf persons (TDD’s), interpreters, notetakers, written materials, and other similar services and devices.

Complete complaint means a written statement that contains the complainant’s name and address and describes the Department’s alleged discriminatory actions in sufficient detail to inform the Department of the nature and date of the alleged violation of section 504. It shall be signed by the complainant or by someone authorized to do so on his or her behalf. Complaints filed on behalf of classes or third parties shall describe or identify (by name, if possible) the alleged victims of discrimination.

Current illegal use of drugs means illegal use of drugs that occurred recently enough to justify a reasonable belief that a person’s drug use is current or that continuing use is a real and ongoing problem.

Drug means a controlled substance, as defined in schedules I through V of section 202 of the Controlled Substances Act (21 U.S.C. 812).

Department or DOT means the U.S. Department of Transportation, including the Office of the Secretary and all operating administrations.

Departmental Element (or “DOT element”) means any one of the following organizations within the Department:
(a) Office of the Secretary (OST).
(b) United States Coast Guard (USCG).
(c) Federal Aviation Administration (FAA).
(d) Federal Highway Administration (FHWA).
(e) Federal Railroad Administration (FRA).
(f) National Highway Traffic Safety Administration (NHTSA).
(g) Federal Transit Administration (FTA).
(h) Research and Special Programs Administration (RSPA).
(i) Maritime Administration (MARAD).
(j) St. Lawrence Seaway Development Corporation (SLSDC).

Facility means all or any portion of buildings, structures, equipment, roads, walks, parking lots, rolling stock or other conveyances, or other real or personal property.

Illegal use of drugs means the use of one or more drugs, the possession or distribution of which is unlawful under the Controlled Substances Act (21 U.S.C. 812). The term “illegal use of drugs” does not include the use of a drug taken under supervision by a licensed health care professional, or other uses authorized by the Controlled
§ 28.103

Substances Act or other provisions of Federal law.

Individual with handicaps means any person who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment.

As used in this definition, the phrase:

(1) Physical or mental impairment—
   (i) Includes any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: Neurological; muscular; skeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine;
   (ii) Includes any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities; and
   (iii) Includes, but is not limited to, such diseases or conditions as orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, drug addiction, and alcoholism.

(2) Major life activities includes functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(3) Has a record of such an impairment means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.

(4) Is regarded as having an impairment means—
   (i) Has a physical or mental impairment that does not substantially limit major life activities but is treated by the Department as constituting such a limitation;
   (ii) Has a physical or mental impairment that substantially limits major life activities only as a result of the attitudes of others toward such impairment; or
   (iii) Has none of the impairments defined in paragraph (1) of this definition but is treated by the Department as having such an impairment.

Qualified individual with handicaps means—

(1) With respect to education services provided by the U.S. Merchant Marine Academy or the U.S. Coast Guard Academy, an individual with handicaps who meets the essential eligibility requirements for participation in and receipt of such services, including the physical standards applicable to the U.S. Naval Reserve or the U.S. Coast Guard.

(2) With respect to any other Department program or activity under which a person is required to perform services or to achieve a level of accomplishment, an individual with handicaps who meets the essential eligibility requirements and who can achieve the purpose of the program or activity without modifications in the program or activity that the Department can demonstrate would result in a fundamental alteration in its nature. The essential eligibility requirements include the ability to participate without endangering the safety of the individual or others.

(3) With respect to any other program or activity, an individual with handicaps who meets the essential eligibility requirements for participation in, or receipt of benefits from, that program or activity.

(4) Qualified handicapped person as that term is defined for purposes of employment in 29 CFR 1613.702(f), which is made applicable to this part by § 28.140.

only to programs or activities conducted by Executive agencies and not to federally assisted programs.

§§ 28.104—28.109 [Reserved]

§ 28.110 Self-evaluation.

(a) The Department shall, by one year of the effective date of this part, evaluate its current policies and practices, and effects thereof, that do not or may not meet the requirements of this part, and, to the extent modification of any such policies and practices is required, the Department shall proceed to make the necessary modifications.

(b) The Department shall provide an opportunity to interested persons, including individuals with handicaps, agency employees with handicaps, and organizations representing individuals with handicaps, to participate in the self-evaluation process by submitting comments (both oral and written).

(c) The Department shall, until at least three years following completion of the evaluation required under paragraph (a) of this section, or until such time as all modifications identified by the self-evaluation to be necessary to comply with section 504 have been completed, whichever occurs later, maintain on file and make available for public inspection—

(1) A description of areas examined, regulations and nonregulatory criteria reviewed, and any problems identified; and

(2) A description of any modifications made.

§ 28.111 Notice.

The Department shall make available to employees, applicants, participants, beneficiaries, and other interested persons such information regarding the provisions of this part and its applicability to the programs or activities conducted by the Department, and make such information available to them in such manner as the Department finds necessary to apprise such persons of the protections against discrimination assured them by section 504 and this regulation.

§§ 28.112—28.129 [Reserved]

§ 28.130 General prohibition against discrimination.

(a) No qualified individual with handicaps shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity conducted by the Department.

(b)(1) The Department, in providing any aid, benefit, or service, may not, directly or through contractual, licensing, or other arrangement, on the basis of handicap—

(i) Deny a qualified individual with handicaps the opportunity to participate in or benefit from the aid, benefit, or service;

(ii) Afford a qualified individual with handicaps an opportunity to participate in or benefit from the aid, benefit, or service that is not equal to that afforded others;

(iii) Provide a qualified individual with handicaps with an aid, benefit, or service that is not as effective in affording equal opportunity to obtain the same result, to gain the same benefit, or to reach the same level of achievement as that provided to others;

(iv) Provide different or separate aid, benefits, or services to individuals with handicaps or to any class of individuals with handicaps than is provided to others unless such action is necessary to provide qualified individuals with handicaps with aid, benefits, or services that are as effective as those provided to others;

(v) Deny a qualified individual with handicaps the opportunity to participate as a member of planning or advisory boards; or

(vi) Otherwise limit a qualified individual with handicaps in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving the aid, benefit, or service.

(2) The Department may not deny a qualified individual with handicaps the opportunity to participate in programs or activities that are not separate or different, despite the existence of permissibly separate or different programs or activities.
§ 28.131

(3) The Department may not, directly or through contractual or other arrangements, utilize criteria or methods of administration the purpose or effect of which would—

(i) Subject qualified individuals with handicaps to discrimination on the basis of handicap; or

(ii) Defeat or substantially impair the accomplishment of the objectives of a program or activity with respect to individuals with handicaps.

(4) The Department may not, in determining the site or location of a facility, make selections the purpose or effect of which would—

(i) Exclude individuals with handicaps from, deny them the benefits of, or otherwise subject them to discrimination under any program or activity conducted by the Department; or

(ii) Defeat or substantially impair the accomplishment of the objectives of a program or activity with respect to individuals with handicaps.

(5) The Department, in the selection of procurement contractors, may not use criteria that subject qualified individuals with handicaps to discrimination on the basis of handicap.

(6) The Department may not administer a licensing or certification program in a manner that subjects qualified individuals with handicaps to discrimination on the basis of handicap.

The Department may not administer programs and activities in the most integrated setting appropriate to the needs of qualified individuals with handicaps.

§ 28.131 Illegal use of drugs.

(a) General. (1) Except as provided in paragraph (b) of this section, this part does not prohibit discrimination against an individual based on that individual’s current illegal use of drugs.

(2) The agency shall not discriminate on the basis of illegal use of drugs against an individual who is not engaging in current illegal use of drugs and who—

(i) Has successfully completed a supervised drug rehabilitation program or has otherwise been rehabilitated successfully;

(ii) Is participating in a supervised rehabilitation program; or

(iii) Is erroneously regarded as engaging in such use.

(b) Health and rehabilitation services. The agency shall not deny health services or services provided under titles I, II, and III of the Rehabilitation Act to an individual on the basis of that individual’s current illegal use of drugs, if the individual is otherwise entitled to such services.

(c) Drug testing. (1) This part does not prohibit the agency from adopting or administering reasonable policies or procedures, including but not limited to drug testing, designed to ensure that an individual who formerly engaged in the illegal use of drugs is not engaging in current illegal use of drugs.

(2) Nothing in paragraph (c) of this section shall be construed to encourage, prohibit, restrict, or authorize the conduct of testing for the illegal use of drugs.

§§ 28.132–28.139 [Reserved]

§ 28.140 Employment.

(a) No qualified individual with handicaps shall, on the basis of handicap, be subjected to discrimination in employment under any program or activity conducted by the Department.
(b) The definitions, requirements, and procedures of section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791), as established by the Equal Employment Opportunity Commission in 29 CFR part 1613, shall apply to employment in federally conducted programs or activities. The provisions of this section do not apply to military personnel of the U.S. Coast Guard.

§§ 28.141—28.148 [Reserved]

§ 28.149 Program accessibility: Discrimination prohibited.

Except as otherwise provided in §28.150, no qualified individual with handicaps shall, because the Department's facilities are inaccessible to or unusable by individuals with handicaps, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity conducted by the Department.

§ 28.150 Program accessibility: Existing facilities.

(a) General. The Department shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by individuals with handicaps. This paragraph does not—

(1) Necessarily require the Department to make each of its existing facilities accessible to and usable by individuals with handicaps;

(2) [Reserved]

(3) Require the Department to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where personnel of a DOT element believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the DOT element has the burden of proving that compliance with §28.150(a) would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the Secretary or his or her designee, after considering all resources available for use in the funding and operation of the program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action would result in such an alteration or such burdens, the Department shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that individuals with handicaps receive the benefits and services of the program or activity.

(b) Methods. The Department may comply with the requirements of this section through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities, use of accessible rolling stock, or any other methods that result in making its programs or activities readily accessible to and usable by individuals with handicaps. The Department is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with this section. The Department, in making alterations to existing buildings, shall meet accessibility requirements to the extent compelled by the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151-4157), and any regulations implementing it. In choosing among available methods for meeting the requirements of this section, the Department shall give priority to those methods that offer programs and activities to qualified individuals with handicaps in the most integrated setting appropriate.

(c) Time period for compliance. The Department shall comply with the obligations established under this section within sixty days of the effective date of this part except that where structural changes in facilities are undertaken, such changes shall be made within three years of the effective date of this part, but in any event as expeditiously as possible. Provided that, where major restructuring of fixed facilities to accommodate technological changes is planned to occur within five years from the effective date of this part, changes needed to comply with this section are not required to be made until the planned restructuring.
§ 28.151 Program accessibility: New construction and alterations.

Each building or part of a building that is constructed or altered by, on behalf of, or for the use of the Department shall be designed, constructed, or altered so as to be readily accessible to and usable by individuals with handicaps. The definitions, requirements and standards of the Architectural Barriers Act (42 U.S.C. 4151-4157), as established in 49 CFR 101-19.600-607, apply to buildings covered by this section, except for military facilities of the Coast Guard, which are covered by 32 CFR part 56.

§ 28.160 Communications.

(a) The Department shall take appropriate steps to ensure effective communication with applicants, participants, personnel of other Federal entities, and members of the public.

(1) The Department shall furnish appropriate auxiliary aids where necessary to afford an individual with handicaps an equal opportunity to participate in, and enjoy the benefits of, a program or activity conducted by the Department.

(i) In determining what type of auxiliary aid is necessary, the Department shall give primary consideration to the requests of the individual with handicaps.

(ii) The Department need not provide individually prescribed devices, readers for personal use or study, or other devices of a personal nature to applicants or participants in programs.

(2) Where the Department communicates with applicants and beneficiaries by telephone, telecommunication devices for deaf persons (TDDs) or equally effective telecommunication systems, shall be used to communicate with persons with impaired hearing.

(b) The Department shall ensure that interested persons, including persons with impaired vision or hearing, can obtain information as to the existence and location of accessible services, activities, and facilities.

(c) The Department shall provide signs at each primary entrance to each of its inaccessible facilities, directing users to a location at which they can obtain information as to the location of accessible facilities. The international symbol for accessibility shall be used at each primary entrance of an accessible facility.

(d) This section does not require the Department to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where personnel of a DOT element believe that the proposed action would fundamentally alter the program or activity or would result in an undue financial and administrative burden, the DOT element has...
§ 28.170 Compliance procedures.

(a) Except as provided in paragraph (b) of this section, paragraphs (c)-(k) of this section apply to all allegations of discrimination on the basis of handicap in programs of activities conducted by the Department;

(b)(1) The Department shall process complaints alleging violations of section 504 with respect to employment according to the procedures established by the Equal Employment Opportunity Commission in 29 CFR part 1613 pursuant to section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791).

(2) The Department shall process complaints alleging violations of section 504 with respect to requirements of any Department safety regulation, concerning an individual's qualifications to perform a function or to receive a certificate or license, and the complainant has available within the Departmental element a formal review or appeal mechanism concerning that decision, the Department shall not take action on the complaint until the Departmental element's review or appeal process has been completed.

(c) Responsibility for implementation and operation of this section shall be vested in the Director, Departmental Office of Civil Rights.

(d)(1) The Department shall accept and investigate all complete complaints for which it has jurisdiction. All complete complaints must be filed within 180 days of the alleged act of discrimination. The Department may extend this time period for good cause.

(2) If the subject matter of a complete complaint concerns a decision by a Departmental element, under a safety regulation, concerning an individual's qualifications to perform a function or to receive a certificate or license, and the complainant has available within the Departmental element a formal review or appeal mechanism concerning that decision, the Department shall not take action on the complaint until the Departmental element's review or appeal process has been completed.

(e) If the Department receives a complaint over which it does not have jurisdiction, it shall promptly notify the complainant and shall make reasonable efforts to refer the complaint to the appropriate Government entity.

(f) The Department shall notify the Architectural and Transportation Barriers Compliance Board upon receipt of any complaint alleging that a building or facility that is subject to the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), is not readily accessible to and usable by individuals with handicaps.

(g) Within 180 days of the receipt of a complete complaint for which it has jurisdiction, the Department shall notify the complainant of the results of the investigation in a letter containing—

(1) Findings of fact and conclusions of law;

(2) A description of a remedy for each violation found; and

(3) A notice of the right to appeal.

(h) Appeals of the findings of fact and conclusions of law or remedies must be filed by the complainant within 90 days of receipt from the Department of the letter required by §28.170(g). The Department may extend this time for good cause.
§§ 28.171—28.999

(i) Timely appeals shall be accepted and processed by the Assistant Secretary for Transportation Policy. The appeal will not be heard by the same person who made the initial determination on the request. The decision on the appeal shall constitute the Department's final action in the matter.

(j) The Department shall notify the complainant of the results of the appeal within 60 days of the receipt of the request. If the Department determines that it needs additional information from the complainant, it shall have 60 days from the date it receives the additional information to make its determination on the appeal.

(k) The time limits cited in paragraphs (g) and (j) of this section may be extended with the permission of the Assistant Attorney General.

(l) The Department may delegate its authority for conducting complaint investigations to other Federal agencies, except that the authority for making the final determination may not be delegated to another agency.

2. For additional information, see related documents published at 52 FR 20360, May 29, 1987; 53 FR 19160, May 26, 1988; and 53 FR 34474, September 6, 1988.
Office of the Secretary of Transportation

Subpart A—General

§ 29.100 Purpose.

(a) Executive Order (E.O.) 12549 provides that, to the extent permitted by law, Executive departments and agencies shall participate in a governmentwide system for nonprocurement debarment and suspension. A person who is debarred or suspended shall be excluded from Federal financial and nonfinancial assistance and benefits under Federal programs and activities. Debarment or suspension of a participant in a program by one agency shall have governmentwide effect.

(b) These regulations implement section 3 of E.O. 12549 and the guidelines promulgated by the Office of Management and Budget under section 6 of the E.O. by:

1. Prescribing the programs and activities that are covered by the governmentwide system;
2. Prescribing the governmentwide criteria and governmentwide minimum due process procedures that each agency shall use;
3. Providing for the listing of debarred and suspended participants, participants declared ineligible (see definition of “ineligible” in §29.105), and participants who have voluntarily excluded themselves from participation in covered transactions;
4. Setting forth the consequences of a debarment, suspension, determination of ineligibility, or voluntary exclusion; and
5. Offering such other guidance as necessary for the effective implementation and administration of the governmentwide system.

(c) These regulations also implement Executive Order 12689 (3 CFR, 1989 Comp., p. 236) and 31 U.S.C. 6101 note (Public Law 103-353, sec. 2455, 108 Stat. 3327) by—

1. Providing for the inclusion in the List of Parties Excluded from Federal Procurement and Nonprocurement Programs all persons proposed for debarment, debarred or suspended under the Federal Acquisition Regulation, 48 CFR Part 9, subpart 9.4; persons against which governmentwide exclusions have been entered under this part; and persons determined to be ineligible; and
2. Setting forth the consequences of a debarment, suspension, determination of ineligibility, or voluntary exclusion.

(d) Although these regulations cover the listing of ineligible participants and the effect of such listing, they do not prescribe policies and procedures governing declarations of ineligibility.

[60 FR 33040, 33064, June 26, 1995]

§ 29.105 Definitions.

The following definitions apply to this part:

Adequate evidence. Information sufficient to support the reasonable belief that a particular act or omission has occurred.

Affiliate. Persons are affiliates of each other if, directly or indirectly, either one controls or has the power to control the other, or, a third person controls or has the power to control both. Indicia of control include, but are not limited to: interlocking management or ownership, identity of interests among family members, shared facilities and equipment, common use of employees, or a business entity organized following the suspension or debarment of a person which has the same or similar management, ownership, or principal employees as the suspended, debarred, ineligible, or voluntarily excluded person.

Agency. Any executive department, military department or defense agency or other agency of the executive branch, excluding the independent regulatory agencies.

Civil judgment. The disposition of a civil action by any court of competent jurisdiction, whether entered by verdict, decision, settlement, stipulation, or otherwise creating a civil liability for the wrongful acts complained of; or a final determination of liability under the Program Fraud Civil Remedies Act of 1988 (31 U.S.C. 3801-12).

Conviction. A judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, including a plea of nolo contendere.
Debarment. An action taken by a debarring official in accordance with these regulations to exclude a person from participating in covered transactions. A person so excluded is “debarred.”

Debarring official. An official authorized to impose debarment. The debarring official is either:

(1) The agency head, or
(2) An official designated by the agency head.

(3) Debarring Official. For DOT the designated official is the head of a Departmental operating administration, who may delegate any of his or her functions under this part and authorize successive delegations.

DOT. Department of Transportation.

Indictment. Indictment for a criminal offense. An information or other filing by competent authority charging a criminal offense shall be given the same effect as an indictment.

Ineligible. Excluded from participation in Federal nonprocurement programs pursuant to a determination of ineligibility under statutory, executive order, or regulatory authority, other than Executive Order 12549 and its agency implementing regulations; for example, excluded pursuant to the Davis-Bacon Act and its implementing regulations, the equal employment opportunity acts and executive orders, or the environmental protection acts and executive orders. A person is ineligible where the determination of ineligibility affects such person’s eligibility to participate in more than one covered transaction.

Legal proceedings. Any criminal proceeding or any civil judicial proceeding to which the Federal Government or a State or local government or quasi-governmental authority is a party. The term includes appeals from such proceedings.

List of Parties Excluded from Federal Procurement and Nonprocurement Programs. A list compiled, maintained and distributed by the General Services Administration (GSA) containing the names and other information about persons who have been debarred, suspended, or voluntarily excluded under Executive Orders 12549 and 12689 and these regulations or 48 CFR part 9, subpart 9.4, persons who have been proposed for debarment under 48 CFR part 9, subpart 9.4, and those persons who have been determined to be ineligible.

Notice. A written communication served in person or sent by certified mail, return receipt requested, or its equivalent, to the last known address of a party, its identified counsel, its agent for service of process, or any partner, officer, director, owner, or joint venturer of the party. Notice, if undeliverable, shall be considered to have been received by the addressee five days after being properly sent to the last address known by the agency.

Operating administration includes the Office of the Secretary, the head of which, for the purposes of this rule, is the Assistant Secretary for Administration.

Participant. Any person who submits a proposal for, enters into, or reasonably may be expected to enter into a covered transaction. This term also includes any person who acts on behalf of or is authorized to commit a participant in a covered transaction as an agent or representative of another participant.

Person. Any individual, corporation, partnership, association, unit of government or legal entity, however organized, except: foreign governments or foreign governmental entities, public international organizations, foreign government owned (in whole or in part) or controlled entities, and entities consisting wholly or partially of foreign governments or foreign governmental entities.

Preponderance of the evidence. Proof by information that, compared with that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

Principal. Officer, director, owner, partner, key employee, or other person within a participant with primary management or supervisory responsibilities; or a person who has a critical influence on or substantive control over a covered transaction, whether or not employed by the participant. Persons who have a critical influence on or substantive control over a covered transaction are:

(1) Principal investigators.

Proposal. A solicited or unsolicited bid, application, request, invitation to
consider or similar communication by
or on behalf of a person seeking to par-
ticipate or to receive a benefit, directly
or indirectly, in or under a covered
transaction.

Respondent. A person against whom a
debarment or suspension action has
been initiated.

State. Any of the States of the United
States, the District of Columbia, the
Commonwealth of Puerto Rico, any
territory or possession of the United
States, or any agency of a State, exclu-
sive of institutions of higher education,
hospitals, and units of local govern-
ment. A State instrumentality will be
considered part of the State govern-
ment if it has a written determination
from a State government that such
State considers that instrumentality
to be an agency of the State govern-
ment.

Suspending official. An official au-
thorized to impose suspension. The sus-
pending official is either:
(1) The agency head, or
(2) An official designated by the
agency head.

(3) Suspending Official. For DOT the
designated official is the head of a De-
partmental operating administration,
who may delegate any of his or her
functions under this part and authorize
successive delegations.

Suspension. An action taken by a sus-
pending official in accordance with
these regulations that immediately ex-
cludes a person from participating in
covered transactions for a temporary
period, pending completion of an inves-
tigation and such legal, debarment, or
Program Fraud Civil Remedies Act
proceedings as may ensue. A person so
excluded is “suspended.”

Voluntary exclusion or voluntarily ex-
cluded. A status of nonparticipation or
limited participation in covered trans-
actions assumed by a person pursuant
to the terms of a settlement.

[Amdt. 29-1, 53 FR 19203, 19204, May 26, 1988,
as amended at 53 FR 19203, May 26, 1988, 60
FR 33040, 33064, June 26, 1995]

§ 29.110 Coverage.
(a) These regulations apply to all per-
sons who have participated, are cur-
cently participating or may reasonably
be expected to participate in trans-
actions under Federal nonprocurement
programs. For purposes of these regu-
lations such transactions will be referred
to as “covered transactions.”
(1) Covered transaction. For purposes
of these regulations, a covered trans-
action is a primary covered transaction
or a lower tier covered transaction.
Covered transactions at any tier need
not involve the transfer of Federal
funds.
(i) Primary covered transaction. Except
as noted in paragraph (a)(2) of this sec-
tion, a primary covered transaction is
any nonprocurement transaction be-
tween an agency and a person, regard-
less of type, including: grants, coopera-
tive agreements, scholarships, fellow-
ships, contracts of assistance, loans,
loan guarantees, subsidies, insurance,
payments for specified use, donation
agreements and any other nonprocure-
ment transactions between a Federal
agency and a person. Primary covered
transactions also include those trans-
actions specially designated by the
U.S. Department of Housing and Urban
Development in such agency’s regula-
tions governing debarment and suspen-
sion.
(ii) Lower tier covered transaction. A
lower tier covered transaction is:
(A) Any transaction between a par-
ticipant and a person other than a pro-
curement contract for goods or serv-
ices, regardless of type, under a pri-
mary covered transaction.
(B) Any procurement contract for
goods or services between a participant
and a person, regardless of type, ex-
pected to equal or exceed the Federal
procurement small purchase threshold
fixed at 10 U.S.C. 2304(g) and 41 U.S.C.
253(g) (currently $25,000) under a pri-
mary covered transaction.
(C) Any procurement contract for
goods or services between a participant
and a person under a covered trans-
action, regardless of amount, under
which that person will have a critical
influence on or substantive control
over that covered transaction. Such
persons are:
(i) Principal investigators.
(ii) Providers of federally-required
audit services.

(2) Exceptions. The following trans-
actions are not covered:
(i) Statutory entitlements or manda-
tory awards (but not subtier awards
§ 29.115 Policy.

(a) In order to protect the public interest, it is the policy of the Federal Government to conduct business only with responsible persons. Debarment and suspension are discretionary actions that, taken in accordance with Executive Order 12549 and these regulations, are appropriate means to implement this policy.

(b) Debarment and suspension are serious actions which shall be used only in the public interest and for the Federal Government's protection and not for purposes of punishment. Agencies may impose debarment or suspension for the causes and in accordance with the procedures set forth in these regulations.

(c) When more than one agency has an interest in the proposed debarment or suspension of a person, consideration shall be given to designating one agency as the lead agency for making the decision. Agencies are encouraged to establish methods and procedures for coordinating their debarment or suspension actions.

§ 29.120 Saving clause.

Any debarment or suspension initiated before October 1, 1988, shall be governed by part 29 of the Department's regulations as part 29 existed immediately before October 1, 1988, including §29.126 thereof.

[Amdt. 29-1, 53 FR 19203, May 26, 1988]

Subpart B—Effect of Action

§ 29.200 Debarment or suspension.

(a) Primary covered transactions. Except to the extent prohibited by law, persons who are debarred or suspended shall be excluded from primary covered transactions as either participants or principals throughout the Executive
§ 29.210 Voluntary exclusion.

Persons who accept voluntary exclusions under § 29.315 are excluded in accordance with the terms of their settlements. DOT shall, and participants may, contact the original action agency to ascertain the extent of the exclusion.

§ 29.215 Exception provision.

DOT may grant an exception permitting a debarred, suspended, or voluntarily excluded person, or a person proposed for debarment under 48 CFR part 9, subpart 9.4, to participate in a particular covered transaction upon a written determination by the agency head or an authorized designee stating the reason(s) for deviating from the Presidential policy established by Executive Order 12549 and §29.200. However, in accordance with the President’s stated intention in the Executive Order, exceptions shall be granted only infrequently. Exceptions shall be reported in accordance with §29.505(a).

[60 FR 33041, 33064, June 26, 1995]

§ 29.220 Continuation of covered transactions.

(a) Notwithstanding the debarment, suspension, proposed debarment under 48 CFR part 9, subpart 9.4, determination of ineligibility, or voluntary exclusion of any person by an agency, agencies and participants may continue covered transactions in existence at the time the person was debarred, suspended, proposed for debarment under 48 CFR part 9, subpart 9.4, declared ineligible, or voluntarily excluded. A decision as to the type of termination action, if any, to be taken should be made only after thorough review to ensure the propriety of the proposed action.

(b) Agencies and participants shall not renew or extend covered transactions (other than no-cost time extensions) with any person who is debarred, suspended, proposed for debarment under 48 CFR part 9, subpart 9.4, ineligible or voluntarily excluded, except as provided in §29.215.

[60 FR 33041, 33064, June 26, 1995]
§ 29.225 Failure to adhere to restrictions.

(a) Except as permitted under § 29.215 or § 29.220, a participant shall not knowingly do business under a covered transaction with a person who is—

(1) Debarred or suspended;

(2) Proposed for debarment under 48 CFR part 9, subpart 9.4; or

(3) Ineligible for or voluntarily excluded from the covered transaction.

(b) Violation of the restriction under paragraph (a) of this section may result in disallowance of costs, annulment or termination of award, issuance of a stop work order, debarment or suspension, or other remedies as appropriate.

(c) A participant may rely upon the certification of a prospective participant in a lower tier covered transaction that it and its principals are not debarred, suspended, proposed for debarment under 48 CFR part 9, subpart 9.4, ineligible, or voluntarily excluded from the covered transaction (See appendix B of these regulations), unless it knows that the certification is erroneous. An agency has the burden of proof that a participant did knowingly do business with a person that filed an erroneous certification.

[60 FR 33041, 33064, June 26, 1995]

Subpart C—Debarment

§ 29.300 General.

The debarring official may debar a person for any of the causes in § 29.305, using procedures established in §§ 29.310 through 29.314. The existence of a cause for debarment, however, does not necessarily require that the person be debarred; the seriousness of the person’s acts or omissions and any mitigating factors shall be considered in making any debarment decision.

§ 29.305 Causes for debarment.

Debarment may be imposed in accordance with the provisions of §§ 29.300 through 29.314 for:

(a) Conviction of or civil judgment for:

(1) Commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public or private agreement or transaction;

(2) Violation of Federal or State antitrust statutes, including those proscribing price fixing between competitors, allocation of customers between competitors, and bid rigging;

(3) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, receiving stolen property, making false claims, or obstruction of justice; or

(4) Commission of any other offense indicating a lack of business integrity or business honesty that seriously and directly affects the present responsibility of a person.

(b) Violation of the terms of a public agreement or transaction so serious as to affect the integrity of an agency program, such as:

(1) A willful failure to perform in accordance with the terms of one or more public agreements or transactions;

(2) A history of failure to perform or of unsatisfactory performance of one or more public agreements or transactions; or

(3) A willful violation of a statutory or regulatory provision or requirement applicable to a public agreement or transaction.

(c) Any of the following causes:

(1) A nonprocurement debarment by any Federal agency taken before October 1, 1988, the effective date of these regulations, or a procurement debarment by any Federal agency taken pursuant to 48 CFR subpart 9.4;

(2) Knowingly doing business with a debarred, suspended, ineligible, or voluntarily excluded person, in connection with a covered transaction, except as permitted in § 29.215 or § 29.220;

(3) Failure to pay a single substantial debt, or a number of outstanding debts (including disallowed costs and overpayments, but not including sums owed the Federal Government under the Internal Revenue Code) owed to any Federal agency or instrumentality, provided the debt is uncontested by the debtor or, if contested, provided that the debtor’s legal and administrative remedies have been exhausted;
Office of the Secretary of Transportation

§ 29.314

(4) Violation of a material provision of a voluntary exclusion agreement entered into under § 29.315 or of any settlement of a debarment or suspension action; or
(5) Violation of any requirement of subpart F of this part, relating to providing a drug-free workplace, as set forth in §29.615 of this part.
(d) Any other cause of so serious or compelling a nature that it affects the present responsibility of a person.

§ 29.310 Procedures.
DOT shall process debarment actions as informally as practicable, consistent with the principles of fundamental fairness, using the procedures in §§29.311 through 29.314.

§ 29.311 Investigation and referral.
Information concerning the existence of a cause for debarment from any source shall be promptly reported, investigated, and referred, when appropriate, to the debarring official for consideration. After consideration, the debarring official may issue a notice of proposed debarment.

§ 29.312 Notice of proposed debarment.
A debarment proceeding shall be initiated by notice to the respondent advising:
(a) That debarment is being considered;
(b) Of the reasons for the proposed debarment in terms sufficient to put the respondent on notice of the conduct or transaction(s) upon which it is based;
(c) Of the cause(s) relied upon under §29.305 for proposing debarment;
(d) Of the provisions of §§29.311 through 29.314, and any other DOT procedures, if applicable, governing debarment decisionmaking; and
(e) Of the potential effect of a debarment.

§ 29.313 Opportunity to contest proposed debarment.
(a) Submission in opposition. Within 30 days after receipt of the notice of proposed debarment, the respondent may submit, in person, in writing, or through a representative, information and argument in opposition to the proposed debarment.
(b) Additional proceedings as to disputed material facts. (1) In actions not based upon a conviction or civil judgment, if the debarring official finds that the respondent's submission in opposition raises a genuine dispute over facts material to the proposed debarment, respondent(s) shall be afforded an opportunity to appear with a representative, submit documentary evidence, present witnesses, and confront any witness the agency presents.
(2) A transcribed record of any additional proceedings shall be made available at cost to the respondent, upon request, unless the respondent and the agency, by mutual agreement, waive the requirement for a transcript.

§ 29.314 Debarring official's decision.
(a) No additional proceedings necessary. In actions based upon a conviction or civil judgment, or in which there is no genuine dispute over material facts, the debarring official shall make a decision on the basis of all the information in the administrative record, including any submission made by the respondent. The decision shall be made within 45 days after receipt of any information and argument submitted by the respondent, unless the debarring official extends this period for good cause.
(b) Additional proceedings necessary. (1) In actions in which additional proceedings are necessary to determine disputed material facts, written findings of fact shall be prepared. The debarring official shall base the decision on the facts as found, together with any information and argument submitted by the respondent and any other information in the administrative record.
(2) The debarring official may refer disputed material facts to another official for findings of fact. The debarring official may reject any such findings, in whole or in part, only after specifically determining them to be arbitrary and capricious or clearly erroneous.
(3) The debarring official's decision shall be made after the conclusion of the proceedings with respect to disputed facts.
(c) (1) Standard of proof. In any debarment action, the cause for debarment
must be established by a preponderance of the evidence. Where the proposed debarment is based upon a conviction or civil judgment, the standard shall be deemed to have been met.

(2) Burden of proof. The burden of proof is on the agency proposing debarment.

(d) Notice of debarring official’s decision. (1) If the debarring official decides to impose debarment, the respondent shall be given prompt notice:

(i) Referring to the notice of proposed debarment;
(ii) Specifying the reasons for debarment;
(iii) Stating the period of debarment, including effective dates; and
(iv) Advising that the debarment is effective for covered transactions throughout the executive branch of the Federal Government unless an agency head or an authorized designee makes the determination referred to in §29.215.

(2) If the debarring official decides not to impose debarment, the respondent shall be given prompt notice of that decision. A decision not to impose debarment shall be without prejudice to a subsequent imposition of debarment by any other agency.

§ 29.315 Settlement and voluntary exclusion.

(a) When in the best interest of the Government, DOT may, at any time, settle a debarment or suspension action.

(1) An operating administration may settle a debarment or suspension action under this section.

(2) [Reserved]

(b) If a participant and the agency agree to a voluntary exclusion of the participant, such voluntary exclusion shall be entered on the Nonprocurement List (see subpart E).

§ 29.320 Period of debarment.

(a) Debarment shall be for a period commensurate with the seriousness of the cause(s). If a suspension precedes a debarment, the suspension period shall be considered in determining the debarment period.

(1) Debarment for causes other than those related to a violation of the requirements of subpart F of this part generally should not exceed three years. Where circumstances warrant, a longer period of debarment may be imposed.

(2) In the case of a debarment for a violation of the requirements of subpart F of this part (see 29.305(c)(5)), the period of debarment shall not exceed five years.

(b) The debarring official may extend an existing debarment for an additional period, if that official determines that an extension is necessary to protect the public interest. However, a debarment may not be extended solely on the basis of the facts and circumstances upon which the initial debarment action was based. If debarment for an additional period is determined to be necessary, the procedures of §§29.311 through 29.314 shall be followed to extend the debarment.

(c) The respondent may request the debarring official to reverse the debarment decision or to reduce the period or scope of debarment. Such a request shall be in writing and supported by documentation. The debarring official may grant such a request for reasons including, but not limited to:

(1) Newly discovered material evidence;
(2) Reversal of the conviction or civil judgment upon which the debarment was based;
(3) Bona fide change in ownership or management;
(4) Elimination of other causes for which the debarment was imposed; or
(5) Other reasons the debarring official deems appropriate.

§ 29.325 Scope of debarment.

(a) Scope in general. (1) Debarment of a person under these regulations constitutes debarment of all its divisions and other organizational elements from all covered transactions, unless the debarment decision is limited by its terms to one or more specifically identified individuals, divisions or other organizational elements or to specific types of transactions.
Office of the Secretary of Transportation § 29.410

(2) The debarment action may include any affiliate of the participant that is specifically named and given notice of the proposed debarment and an opportunity to respond (see §§ 29.311 through 29.314).

(b) Imputing conduct. For purposes of determining the scope of debarment, conduct may be imputed as follows:

(1) Conduct imputed to participant. The fraudulent, criminal or other seriously improper conduct of any officer, director, shareholder, partner, employee, or other individual associated with a participant may be imputed to the participant when the conduct occurred in connection with the individual's performance of duties for or on behalf of the participant, or with the participant's knowledge, approval, or acquiescence. The participant's acceptance of the benefits derived from the conduct shall be evidence of such knowledge, approval, or acquiescence.

(2) Conduct imputed to individuals associated with participant. The fraudulent, criminal, or other seriously improper conduct of a participant may be imputed to any officer, director, shareholder, partner, employee, or other individual associated with the participant who participated in, knew of, or had reason to know of the participant's conduct.

Subpart D—Suspension

§ 29.400 General.

(a) The suspending official may suspend a person for any of the causes in § 29.405 using procedures established in §§ 29.410 through 29.413.

(b) Suspension is a serious action to be imposed only when:

(1) There exists adequate evidence of one or more of the causes set out in § 29.405, and

(2) Immediate action is necessary to protect the public interest.

(c) In assessing the adequacy of the evidence, the agency should consider how much information is available, how credible it is given the circumstances, whether or not important allegations are corroborated, and what inferences can reasonably be drawn as a result. This assessment should include an examination of basic documents such as grants, cooperative agreements, loan authorizations, and contracts.

§ 29.405 Causes for suspension.

(a) Suspension may be imposed in accordance with the provisions of §§ 29.400 through 29.413 upon adequate evidence:

(1) To suspect the commission of an offense listed in § 29.305(a); or

(2) That a cause for debarment under § 29.305 may exist.

(b) Indictment shall constitute adequate evidence for purposes of suspension actions.

§ 29.410 Procedures.

(a) Investigation and referral. Information concerning the existence of a cause for suspension from any source shall be promptly reported, investigated, and referred, when appropriate, to the suspending official for consideration. After consideration, the suspending official may issue a notice of suspension.

(b) Decisionmaking process. DOT shall process suspension actions as informally as practicable, consistent with principles of fundamental fairness, using the procedures in §§ 29.411 through 29.413.
§ 29.411 Notice of suspension.

When a respondent is suspended, notice shall immediately be given:

(a) That suspension has been imposed;
(b) That the suspension is based on an indictment, conviction, or other adequate evidence that the respondent has committed irregularities and clearly reflecting on the propriety of further Federal Government dealings with the respondent;
(c) Describing any such irregularities in terms sufficient to put the respondent on notice without disclosing the Federal Government’s evidence;
(d) Of the cause(s) relied upon under § 29.405 for imposing suspension;
(e) That the suspension is for a temporary period pending the completion of an investigation or ensuing legal, debarment, or Program Fraud Civil Remedies Act proceedings;
(f) Of the provisions of §§ 29.411 through 29.413 and any other DOT procedures, if applicable, governing suspension decisionmaking; and
(g) Of the effect of the suspension.

§ 29.412 Opportunity to contest suspension.

(a) Submission in opposition. Within 30 days after receipt of the notice of suspension, the respondent may submit, in person, in writing, or through a representative, information and argument in opposition to the suspension.
(b) Additional proceedings as to disputed material facts. (1) If the suspending official finds that the respondent’s submission in opposition raises a genuine dispute over facts material to the suspension, respondent(s) shall be afforded an opportunity to appear with a representative, submit documentary evidence, present witnesses, and confront any witness the agency presents, unless:
   (i) The action is based on an indictment, conviction or civil judgment, or
   (ii) A determination is made, on the basis of Department of Justice advice, that the substantial interests of the Federal Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced.
(2) A transcripted record of any additional proceedings shall be prepared and made available at cost to the respondent, upon request, unless the respondent and the agency, by mutual agreement, waive the requirement for a transcript.

§ 29.413 Suspending official’s decision.

The suspending official may modify or terminate the suspension (for example, see § 29.320(c) for reasons for reducing the period or scope of debarment) or may leave it in force. However, a decision to modify or terminate the suspension shall be without prejudice to the subsequent imposition of suspension by any other agency or debarment by any agency. The decision shall be rendered in accordance with the following provisions:

(a) No additional proceedings necessary. In actions: based on an indictment, conviction, or civil judgment; in which there is no genuine dispute over material facts; or in which additional proceedings to determine disputed material facts have been denied on the basis of Department of Justice advice, the suspending official shall make a decision on the basis of all the information in the administrative record, including any submission made by the respondent. The decision shall be made within 45 days after receipt of any information and argument submitted by the respondent, unless the suspending official extends this period for good cause.
(b) Additional proceedings necessary. (1) In actions in which additional proceedings are necessary to determine disputed material facts, written findings of fact shall be prepared. The suspending official shall base the decision on the facts as found, together with any information and argument submitted by the respondent and any other information in the administrative record.
(2) The suspending official may refer matters involving disputed material facts to another official for findings of fact. The suspending official may reject any such findings, in whole or in part, only after specifically determining them to be arbitrary or capricious or clearly erroneous.
(c) Notice of suspending official’s decision. Prompt written notice of the suspending official’s decision shall be sent to the respondent.
§ 29.415 Period of suspension.
(a) Suspension shall be for a temporary period pending the completion of an investigation or ensuing legal, debarment, or Program Fraud Civil Remedies Act proceedings, unless terminated sooner by the suspending official or as provided in paragraph (b) of this section.
(b) If legal or administrative proceedings are not initiated within 12 months after the date of the suspension notice, the suspension shall be terminated unless an Assistant Attorney General or United States Attorney requests its extension in writing, in which case it may be extended for an additional six months. In no event may a suspension extend beyond 18 months, unless such proceedings have been initiated within that period.
(c) The suspending official shall notify the Department of Justice of an impending termination of a suspension, at least 30 days before the 12-month period expires, to give that Department an opportunity to request an extension.

§ 29.420 Scope of suspension.
The scope of a suspension is the same as the scope of a debarment (see §29.325), except that the procedures of §§29.410 through 29.413 shall be used in imposing a suspension.

Subpart E—Responsibilities of GSA, Agency and Participants

§ 29.500 GSA responsibilities.
(a) In accordance with the OMB guidelines, GSA shall compile, maintain, and distribute a list of all persons who have been debarred, suspended, or voluntarily excluded by agencies under Executive Order 12549 and these regulations, and those who have been determined to be ineligible.
(b) At a minimum, this list shall include:
(1) The names and addresses of all debarred, suspended, ineligible, and voluntarily excluded persons, in alphabetical order, with cross-references when more than one name is involved in a single action;
(2) The type of action;
(3) The cause for the action;
(4) The scope of the action;
(5) Any termination date for each listing; and
(6) The agency and name and telephone number of the agency point of contact for the action.

§ 29.505 DOT responsibilities.
(a) The agency shall provide GSA with current information concerning debarments, suspension, determinations of ineligibility, and voluntary exclusions it has taken. Until February 18, 1989, the agency shall also provide GSA and OMB with information concerning all transactions in which DOT has granted exceptions under §29.215 permitting participation by debarred, suspended, or voluntarily excluded persons.
(b) Unless an alternative schedule is agreed to by GSA, the agency shall advise GSA of the information set forth in §29.500(b) and of the exceptions granted under §29.215 within five working days after taking such actions.
(c) The agency shall direct inquiries concerning listed persons to the agency that took the action.
(d) Agency officials shall check the Nonprocurement List before entering covered transactions to determine whether a participant in a primary transaction is debarred, suspended, ineligible, or voluntarily excluded (Tel. #).
(e) Agency officials shall check the Nonprocurement List before approving principals or lower tier participants where agency approval of the principal or lower tier participant is required under the terms of the transaction, to determine whether such principals or participants are debarred, suspended, ineligible, or voluntarily excluded.

§ 29.510 Participants' responsibilities.
(a) Certification by participants in primary covered transactions. Each participant shall submit the certification in appendix A to this part for it and its principals at the time the participant submits its proposal in connection with a primary covered transaction, except that States need only complete such certification as to their principals. Participants may decide the method and frequency by which they determine the eligibility of their principals. In
§ 29.600 Purpose.

(a) The purpose of this subpart is to carry out the Drug-Free Workplace Act of 1988 by requiring that—

(1) A grantee, other than an individual, shall certify to the agency that it will provide a drug-free workplace;

(2) A grantee who is an individual shall certify to the agency that, as a condition of the grant, he or she will not engage in the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance in conducting any activity with the grant.

(b) Requirements implementing the Drug-Free Workplace Act of 1988 for contractors with the agency are found at 48 CFR subparts 9.4, 23.5, and 52.2.

§ 29.605 Definitions.

(a) Except as amended in this section, the definitions of §29.105 apply to this subpart.

(b) For purposes of this subpart—

(1) Controlled substance means a controlled substance in schedules I through V of the Controlled Substances Act (21 U.S.C. 812), and as further defined by regulation at 21 CFR 1308.11 through 1308.15;

(2) Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

(3) Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

(4) Drug-free workplace means a site for the performance of work done in connection with a specific grant at which employees of the grantee are prohibited from engaging in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance;
(5) Employee means the employee of a grantee directly engaged in the performance of work under the grant, including:
   (i) All direct charge employees;
   (ii) All indirect charge employees, unless their impact or involvement is insignificant to the performance of the grant; and,
   (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee’s payroll.

This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the payroll; or employees of subrecipients or subcontractors in covered workplaces);

(6) Federal agency or agency means any United States executive department, military department, government corporation, government controlled corporation, any other establishment in the executive branch (including the Executive Office of the President), or any independent regulatory agency;

(7) Grant means an award of financial assistance, including a cooperative agreement, in the form of money, or property in lieu of money, by a Federal agency directly to a grantee. The term includes block grant and entitlement grant programs, whether or not exempted from coverage under the grants management government-wide common rule on uniform administrative requirements for grants and cooperative agreements. The term does not include technical assistance that provides services instead of money, or other assistance in the form of loans, loan guarantees, interest subsidies, insurance, or direct appropriations; or any veterans’ benefits to individuals, i.e., any benefit to veterans, their families, or survivors by virtue of the service of a veteran in the Armed Forces of the United States;

(8) Grantee means a person who applies for or receives a grant directly from a Federal agency (except another Federal agency);

(9) Individual means a natural person;

(10) State means any of the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency of a State, exclusive of institutions of higher education, hospitals, and units of local government. A State instrumentality will be considered part of the State government if it has a written determination from a State government that such State considers the instrumentality to be an agency of the State government.

§ 29.610 Coverage.
   (a) This subpart applies to any grantee of the agency.
   (b) This subpart applies to any grant, except where application of this subpart would be inconsistent with the international obligations of the United States or the laws or regulations of a foreign government. A determination of such inconsistency may be made only by the agency head or his/her designee.
   (c) The provisions of subparts A, B, C, D and E of this part apply to matters covered by this subpart, except where specifically modified by this subpart. In the event of any conflict between provisions of this subpart and other provisions of this part, the provisions of this subpart are deemed to control with respect to the implementation of drug-free workplace requirements concerning grants.

§ 29.615 Grounds for suspension of payments, suspension or termination of grants, or suspension or debarment.

A grantee shall be deemed in violation of the requirements of this subpart if the agency head or his or her official designee determines, in writing, that—
   (a) The grantee has made a false certification under §29.630;
   (b) With respect to a grantee other than an individual—
      (1) The grantee has violated the certification by failing to carry out the requirements of paragraphs (A)(a)–(g) and/or (B) of the certification (Alternate I to appendix C) or
§ 29.620

(2) Such a number of employees of the grantee have been convicted of violations of criminal drug statutes for violations occurring in the workplace as to indicate that the grantee has failed to make a good faith effort to provide a drug-free workplace.

(c) With respect to a grantee who is an individual—

(1) The grantee has violated the certification by failing to carry out its requirements (Alternate II to appendix C); or

(2) The grantee is convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity.

§ 29.620 Effect of violation.

(a) In the event of a violation of this subpart as provided in §29.615, and in accordance with applicable law, the grantee shall be subject to one or more of the following actions:

(1) Suspension of payments under the grant;

(2) Suspension or termination of the grant; and

(3) Suspension or debarment of the grantee under the provisions of this part.

(b) Upon issuance of any final decision under this part requiring debarment of a grantee, the debarred grantee shall be ineligible for award of any grant from any Federal agency for a period specified in the decision, not to exceed five years (see §29.320(a)(2) of this part).

§ 29.625 Exception provision.

The agency head may waive with respect to a particular grant, in writing, a suspension of payments under a grant, suspension or termination of a grant, or suspension or debarment of a grantee if the agency head determines that such a waiver would be in the public interest. This exception authority cannot be delegated to any other official.

§ 29.630 Certification requirements and procedures.

(a)(1) As a prior condition of being awarded a grant, each grantee shall make the appropriate certification to the Federal agency providing the grant, as provided in appendix C to this part.

(2) Grantees are not required to make a certification in order to continue receiving funds under a grant awarded before March 18, 1989, or under a no-cost time extension of such a grant. However, the grantee shall make a one-time drug-free workplace certification for a non-automatic continuation of such a grant made on or after March 18, 1989.

(b) Except as provided in this section, all grantees shall make the required certification for each grant. For mandatory formula grants and entitlements that have no application process, grantees shall submit a one-time certification in order to continue receiving awards.

(c) A grantee that is a State may elect to make one certification for each Federal fiscal year. States that previously submitted an annual certification are not required to make a certification for Fiscal Year 1990 until June 30, 1990. Except as provided in paragraph (d) of this section, this certification shall cover all grants to all State agencies from any Federal agency. The State shall retain the original of this statewide certification in its Governor's office and, prior to grant award, shall ensure that a copy is submitted individually with respect to each grant, unless the Federal agency has designated a central location for submission.

(d)(1) The Governor of a State may exclude certain State agencies from the statewide certification and authorize these agencies to submit their own certifications to Federal agencies. The statewide certification shall name any State agencies so excluded.

(2) A State agency to which the statewide certification does not apply, or a State agency in a State that does not have a statewide certification, may elect to make one certification in each Federal fiscal year. State agencies that previously submitted a State agency certification are not required to make a certification for Fiscal Year 1990 until June 30, 1990. The State agency shall retain the original of this State agency-wide certification in its central office and, prior to grant award, shall
Office of the Secretary of Transportation

ensure that a copy is submitted individually with respect to each grant, unless the Federal agency designates a central location for submission.

(3) When the work of a grant is done by more than one State agency, the certification of the State agency directly receiving the grant shall be deemed to certify compliance for all workplaces, including those located in other State agencies.

(e)(1) For a grant of less than 30 days performance duration, grantees shall have this policy statement and program in place as soon as possible, but in any case by a date prior to the date on which performance is expected to be completed.

(2) For a grant of 30 days or more performance duration, grantees shall have this policy statement and program in place within 30 days after award.

(3) Where extraordinary circumstances warrant for a specific grant, the grant officer may determine a different date on which the policy statement and program shall be in place.

§ 29.635 Reporting of and employee sanctions for convictions of criminal drug offenses.

(a) When a grantee other than an individual is notified that an employee has been convicted for a violation of a criminal drug statute occurring in the workplace, it shall take the following actions:

(1) Within 10 calendar days of receiving notice of the conviction, the grantee shall provide written notice, including the convicted employee’s position title, to every grant officer, or other designee on whose grant activity the convicted employee was working, unless a Federal agency has designated a central point for the receipt of such notices. Notification shall include the identification number(s) for each of the Federal agency’s affected grants.

(2) Within 30 calendar days of receiving notice of the conviction, the grantee shall do the following with respect to the employee who was convicted.

(i) Take appropriate personnel action against the employee, up to and including termination, consistent with requirements of the Rehabilitation Act of 1973, as amended; or

(ii) Require the employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency.

(b) A grantee who is an individual who is convicted for a violation of a criminal drug statute occurring during the conduct of any grant activity shall report the conviction, in writing, within 30 calendar days, to his or her Federal agency grant officer, or other designee, unless the Federal agency has designated a central point for the receipt of such notices. Notification shall include the identification number(s) for each of the Federal agency’s affected grants.

(Approved by the Office of Management and Budget under control number 0991-0002)

APPENDIX A TO PART 29—CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS—PRIMARY COVERED TRANSACTIONS

Instructions for Certification

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency’s determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns that its
certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms covered transaction, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.

6. The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled “Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transaction,” provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

Certification Regarding Debarment, Suspension, and Other Responsibility Matters—Primary Covered Transactions

(1) The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
   (a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any Federal department or agency;
   (b) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
   (c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
   (d) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

(2) Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

[60 FR 33042, 33064, June 26, 1995]

APPENDIX B TO PART 29—CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION—LOWER TIER COVERED TRANSACTIONS

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

5. Workplaces under grants, for grantees other than individuals, Alternate II applies.

Office of the Secretary of Transportation

Pt. 29, App. C

APPENDIX C TO PART 29—CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS

Instructions for Certification

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

3. For grantees who are individuals, Alternate I applies.

4. For grantees who are individuals, Alternate II applies.

5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees’ attention is called, in particular, to the following definitions from these rules:

   Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 812) and as further defined by regulation (21 CFR 1308.11 through 1308.15);

   Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

   Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

   Employee means the employee of a grantee directly engaged in the performance of work under a grant, including: (i) All direct charge employees; (ii) All indirect charge employees unless their impact or involvement is insignificant to the performance of the grant; and, (iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee’s payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers; even if used to meet a matching requirement; consultants or independent contractors not on the grantee’s payroll; or employees of subrecipients or subcontractors in covered workplaces).

   Certification Regarding Drug-Free Workplace Requirements

   Alternate I. (Grantees Other Than Individuals)

   A. The grantee certifies that it will or will continue to provide a drug-free workplace by:

   (a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee’s workplace and specifying the actions that will be taken against employees for violation of such prohibition;

   (b) Establishing an ongoing drug-free awareness program to inform employees about—

   (1) The dangers of drug abuse in the workplace;

   (2) The grantee’s policy of maintaining a drug-free workplace;

   (3) Any available drug counseling, rehabilitation, and employee assistance programs; and

   (4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

   (c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

   (d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will—

   (1) Abide by the terms of the statement; and

   (2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

   (e) Notifying the agency in writing, within ten calendar days after receiving notice under paragraph (d)(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

   (f) Taking one of the following actions, within 30 calendar days of receiving notice under paragraph (d)(2), with respect to any employee who is so convicted—

   (1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

   (2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

   (g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

   B. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

   Place of Performance (Street address, city, county, state, zip code)
Alternate II. (Grantees Who Are Individuals)

(a) The grantee certifies that, as a condition of the grant, he or she will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in conducting any activity with the grant;

(b) If convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity, he or she will report the conviction, in writing, within 10 calendar days of the conviction, to every grant officer or other designee, unless the Federal agency designates a central point for the receipt of such notices. When notice is made to such a central point, it shall include the identification number(s) of each affected grant.

[55 FR 21690, 21705, May 25, 1990]

PART 30—DENIAL OF PUBLIC WORKS CONTRACTS TO SUPPLIERS OF GOODS AND SERVICES OF COUNTRIES THAT DENY PROCUREMENT MARKET ACCESS TO U.S. CONTRACTORS

Sec. 30.1 Purpose.
30.3 Applicability.
30.5 Effective dates.
30.7 Definitions.
30.9 Citizenship: Direct or indirect control.
30.11 Use of solicitation provisions and contract clauses.
30.13 Restrictions on Federal public works projects; Certification.
30.15 Restrictions on Federal public works projects.
30.17 Waivers.

SOURCE: 53 FR 1916, June 1, 1988, unless otherwise noted.

§ 30.1 Purpose.

The rules in this part implement section 109(a) of the Continuing Resolution on the Fiscal Year 1988 Budget, Public Law No. 100-202 (signed December 22, 1987) [the Continuing Resolution], and section 115 of the Airport and Airways Safety and Capacity Expansion Act of 1987, Public Law No. 100-223 (signed December 30, 1987) [the Airport Safety Act]. These rules are intended to give uniform implementation to these statutes throughout DOT procurement and grant programs.

§ 30.3 Applicability.

(a) The restrictions imposed by section 109(a) of the Continuing Resolution extend to all DOT agencies as well as all recipients of DOT funds. The restrictions apply to all projects for which funds are obligated or contracts or subcontracts are awarded during fiscal year 1988, including projects and contracts under all DOT financial assistance programs. The prohibition applies to public buildings and public works projects everywhere in the United States or any territory or possession of the United States. U.S. overseas bases, installations, and embassies are not subject to this part.

(b) The restrictions imposed by section 115 of the Airport Safety Act extend to all projects for which funds are made available by that Act, whether or not the contracts are awarded during fiscal year 1988. The restrictions apply to all contracts entered into under grants authorized by the Airport Safety Act.

(c) This part applies to projects covered by section 109(a) of the Continuing Resolution, section 115 of the Airport Safety Act, or both. Whether one or the other statute or both apply, the effect on the project shall be the same, subject to paragraph (e) of this section.

(d) In addition to construction, alteration, and repair contracts, the restrictions of this part cover all architect, engineering, and other services related to the preparation and performance of construction, alteration, and repair of public projects and public works.

(e) The restrictions of this part also apply to all products used in the construction, alteration, or repair of public projects and public works; Provided, however, That

(1) The restrictions of this part do not apply to construction equipment or vehicles that do not become part of a delivered structure, product, or project and
§ 30.5

(2) Notwithstanding paragraph (c) of this section, the restrictions of section 109(a) of the Continuing Resolution do not apply to vehicles to be used by the project, including, but not limited to, buses, trucks, automobiles, rail rolling stock, and aircraft.

§ 30.5 Effective dates.

The provisions of section 109(a) of the Continuing Resolution apply to contracts (or new subcontracts under existing contracts, whether or not subject to the restriction) entered into after December 22, 1987, its date of enactment, and before October 1, 1988. The provisions of section 115 of the Airport Safety Act apply to contracts funded by the Act and entered into after December 30, 1987, its date of enactment; the restrictions remain effective so long as money provided by the Airport Safety Act is used. Accordingly, any contracts or subcontracts subject to the restrictions of this part entered into with contractors or subcontractors owned or controlled by citizens of subject countries, as defined by §§ 30.7 and 30.9 of this part, since December 22, 1987 shall be canceled at no cost to the Government, subject to the waiver provisions of §30.17 of this part. All public works or public buildings contracts entered into after December 22, 1987, shall include, or be modified to include, a provision prohibiting subcontracting with citizens of subject countries, as defined by §§ 30.7 and 30.9 of this part.

§ 30.7 Definitions.

(a) Funds appropriated for FY 1988 by this resolution or any other law, as used in this part with reference to section 109(a) of the Continuing Resolution, means all appropriated and trust funds available to DOT, its modal administration, or their grantees for expenditure or obligation in fiscal year 1988, regardless of the fiscal year in which the funds were appropriated.

(b) Funds made available by this Act, as used in this part with reference to section 115(a) of the Airport Safety Act, means all funds, including trust funds, made available to DOT, its modal administrations, or their grantees by that Act, whether or not the contracts to be funded are awarded during fiscal year 1988.

(c) Contractor and subcontractor means any person, other than a supplier of products, performing any architectural, engineering, or other service directly related to the preparation for or performance of the construction, alteration, or repair of any public building or public work in the United States or any territory or possession of the United States.

(d) Contractor or subcontractor of a foreign country means any contractor or subcontractor that is a citizen or national of a foreign country, or is controlled directly or indirectly by one or more citizens or nationals of a foreign country.

(e) Service of a foreign country means any service provided by a person that is a citizen or national of a foreign country, or is controlled by one or more citizens or nationals of a foreign country.

(f) Product of a foreign country means construction materials, i.e., articles, materials, and supplies brought to the construction site for incorporation into the public works project. A product is considered to have been produced in a foreign country if more than fifty percent of the total cost of the product is allocable to production or manufacture in the foreign country.

(g) Foreign country means a country included in the list of countries that discriminate against U.S. firms published by the U.S. T.R.

§ 30.9 Citizenship: Direct or indirect control.

A contractor, subcontractor, or person providing a service shall be considered to be a citizen or national of a foreign country, or controlled directly or indirectly by citizens or nationals of a foreign country, within the meaning of this part.

(a) If 50 percent or more of the contractor or subcontractor is owned by one or more citizens or nationals of the foreign country;

(b) If the title to 50 percent or more of the stock of the contractor or subcontractor is held subject to trust or fiduciary obligation in favor of one or more citizens or nationals of the foreign country;
(c) If 50 percent or more of the voting power in the contractor or subcontractor is vested in or exercisable on behalf of one or more citizens or nationals of the foreign country;

(d) In the case of a partnership, if any general partner is a citizen or national of the foreign country;

(e) In the case of a corporation, if the number of its directors necessary to constitute a quorum are citizens of the foreign country or the corporation is organized under the laws of the foreign country or any subdivision, territory, or possession thereof; or

(f) In the case of a contractor or subcontractor that is a joint venture, if any participant meets any of the criteria in paragraphs (a) through (e) of this section.

§ 30.11 Use of solicitation provisions and contract clauses.

(a) Unless the President or the Secretary waives the restrictions imposed by section 109(a) of the Continuing Resolution in accordance with § 30.17 of this part, the contracting officer shall insert a clause similar to the clause at § 30.15, Restrictions on Federal Public Works Projects, in contractions and solicitations, if—

(1) The contract is awarded on or after December 22, 1987, and before October 1, 1988; and

(2) The contract obligates funds appropriated for use in FY 1988 by the Continuing Resolution or any other law; and

(3) The contract is for the acquisition of construction, alteration and repair, architectural, engineering, or other services directly related to the preparation for or performance of construction, alteration, and repair for Federal public works projects inside the United States, U.S. territories, or U.S. possessions.

(b) Unless the Secretary waives the restrictions imposed by section 115 of the Airport Safety Act in accordance with § 30.17 of this part, the contracting officer shall insert a clause similar to the solicitation provision at § 30.13 of this part, Restrictions on Public Works Projects—Certification, in solicitations containing the clause at § 30.15 of this part, Restrictions on Federal Public Works Projects.

(c) Any contract already awarded that should have contained the clause prescribed in paragraph (a) or (b) of this section, but did not, shall be modified to include the clause. In the event that the contracting officer is unable to modify such contract, the contract shall be canceled at no cost to the Government, unless a waiver is granted in accordance with § 30.17 of this part.

(d) Contracting officers shall insert a provision similar to the solicitation provision at § 30.13 of this part, Restrictions on Public Works Projects—Certification, in solicitations containing the clause at § 30.15 of this part, Restrictions on Federal Public Works Projects.

(e) Any solicitation issued before December 22, 1987, that will result in the award of a contract covered by paragraph (a) of this section after December 22, 1987, and before October 1, 1988, and that should have contained a provision similar to that § 30.13 of this part, but did not, shall be amended to include the provision if the contract has not yet been awarded.

§ 30.13 Restrictions on Federal public works projects: Certification.

As prescribed in § 30.11(c) of this part, the contracting officer shall insert the following provision in solicitations containing the clause at § 30.15, Restrictions on Federal Public Works Projects:

RESTRICTIONS ON FEDERAL PUBLIC WORKS PROJECTS—CERTIFICATION

(a) Definitions. The definitions pertaining to this provision are those that are set forth in 49 CFR 30.7-30.9.

(b) Certification. By signing this solicitation, the Offeror certifies that with respect to this solicitation, and any resultant contract, the Offeror—

(1) Is [ ] is not [ ] a contractor of a foreign country included on the list of countries that discriminated against U.S. firms published by the Office of the United States Trade Representative (U.S.T.R.);

(2) Has [ ] has not [ ] entered into any contract or subcontract with a subcontractor of a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R.; and

(3) Has [ ] has not [ ] entered into any subcontract for any product to be used on
the Federal public works project that is produced in a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R.

(c) Applicability of 18 U.S.C. 1001. This certification in this solicitation provision concerns a matter within the jurisdiction of an agency of the United States and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under Title 18, United States Code, Section 1001.

(d) Notice. The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(e) Restrictions on contract award. No contract will be awarded to an offeror (1) who is owned or controlled by one or more citizens or nationals of a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R. or (2) whose subcontractors are owned or controlled by one or more citizens or nationals of a foreign country on such U.S.T.R. list or (3) who incorporates in the public works project any product of a foreign country on such U.S.T.R. list; unless a waiver to these restrictions is granted by the President of the United States or the Secretary of Transportation. (Notice of the granting of a waiver will be published in the Federal Register.)

(f) System. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (b) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(g) Subcontracts. The Offeror agrees that, if awarded a contract resulting from this solicitation, it will incorporate this solicitation provision, including this paragraph (g), in each solicitation issued under such contract.

[End of Provision]

§ 30.15 Restrictions on Federal public works projects.

The contracting officer shall insert the following clause in solicitations and contracts as prescribed at §30.11(a) through (b) of this part:

Restrictions on Federal Public Works Projects

(a) Definitions. The definitions pertaining to this clause are those that are set forth in 49 CFR 30.7–30.9

(b) General. This clause implements the procurement provisions contained in the Continuing Resolution on the Fiscal Year 1988 Budget, Public Law No. 100-202, and the Airport and Airway Safety and Capacity Expansion Act of 1987, Public Law No. 100-223.

(c) Restrictions. The Contractor shall not knowingly enter into any subcontract under this contract: (1) With a subcontractor of a foreign country included on the list of countries that discriminate against U.S. firms published by the United States Trade Representative (U.S.T.R.); or (2) for the supply of any product for use on the Federal Public works project under this contract that is produced or manufactured in a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R.

(d) Certification. The Contractor may rely upon the certification of a prospective subcontractor that it is not a subcontractor of a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R. and that products supplied by such subcontractor for use on the Federal public works project under this contract are not products of a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R., unless the contractor has knowledge that the certification is erroneous.

(e) Erroneous certification. The certification in paragraph (b) of the provision entitled “Restriction on Federal Public Works Projects—Certification,” is a material representation of fact upon which reliance was placed when making the award. If it is later determined that the Contractor knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may cancel this contract for default at no cost to the Government.

(f) Cancellation. Unless the restrictions of this clause are waived as provided in paragraph (e) of the provision entitled “Restriction on Federal Public Works Projects—Certification,” if the Contractor knowingly enters into a subcontract with a subcontractor that is a subcontractor of a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R. or that supplies any product for use on the Federal public works project under this contract of a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R., the Contracting Officer may cancel this contract for default, at no cost to the Government.

(g) Subcontracts. The Contractor shall incorporate this clause, without modification, including this paragraph (g) in all solicitations and contracts under this contract.
CERTIFICATION REGARDING RESTRICTIONS ON FEDERAL PUBLIC WORKS PROJECTS—SUBCONTRACTORS

(1) The Offeror/Contractor, by submission of an offer and/or execution of a contract certifies that the Offeror/Contractor is (i) not an Offeror/Contractor owned or controlled by one or more citizens or nationals of a foreign country included on the list of countries that discriminate against U.S. firms published by the United States Trade Representative (U.S.T.R.) or (2) not supplying any product for use on the Federal public works project that is produced or manufactured in a foreign country included on the list of foreign countries that discriminate against U.S. firms published by the U.S.T.R.

THIS CERTIFICATION CONCERNS A MATTER WITHIN THE JURISDICTION OF AN AGENCY OF THE UNITED STATES AND THE MAKING OF A FALSE FICTITIOUS, OR FRAUDULENT CERTIFICATION MAY RENDER THE MAKER SUBJECT TO PROSECUTION UNDER TITLE 18, UNITED STATES CODE, SECTION 1001

(2) The Offeror shall provide immediate written notice to the Contractor if, at any time, the Offeror learns that its certification was erroneous by reason of changed circumstances.

(3) The Contractor shall not knowingly enter into any subcontract under this contract: (i) with a subcontractor of a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R.; or (ii) for the supply of any product for use on the Federal public works project that is produced or manufactured in a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R.

(4) Unless the restrictions of this clause have been waived under the contract for the Federal public works project, if a contractor knowingly enters into a subcontract with a subcontractor that is a subcontractor of a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R. or that supplies any product for use on the Federal public works project under this contract that is produced or manufactured in a foreign country included on the list of countries that discriminate against U.S. firms published by the U.S.T.R., the Government Contracting Officer may direct, through higher-tier contractors, cancellation of this subcontract at no cost to the Government.

(5) Definitions. The definitions pertaining to this clause are those that are set forth in 49 CFR 30.7–30.9

(6) The certification in paragraph (g)(1) of this clause is a material representation of fact upon which reliance was placed when making the award. If it is later determined that the Contractor knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Government Contracting Officer may direct, through higher-tier Contractors, cancellation of this subcontract at no cost to the Government.

(7) The Contractor agrees to insert this clause, without modification, including this paragraph, in all solicitations and subcontracts under this clause.

§ 30.17 Waivers.

(a) The Secretary may waive the restrictions imposed by section 115 of the Airport Safety Act on the use of a product or service in a project if the Secretary determines that:

(1) Application of the restriction to such product, service, or project would not be in the public interest;

(2) Products or services of the same class or kind are not produced or offered in the United States, or in any foreign country that is not listed by the U.S.T.R. in sufficient and reasonable available quantities and of a satisfactory quality; or

(3) Exclusion of such product or service from the project would increase the cost of the overall project contract by more than 20 percent.

(b) The President or the Secretary may waive the restrictions imposed by section 109(a) of the Continuing Resolution with respect to an individual contract if the President or the Secretary determines that such action is necessary in the public interest, on a contract-by-contract basis. The Secretary may apply the factors listed in paragraphs (a)(2) and (a)(3) of this section in determining whether a waiver is in the public interest.

(c) The authority of the President or the Secretary to issue waivers may not be delegated. The Department shall publish notice of any waiver granted pursuant to this part by the President or the Secretary in the FEDERAL REGISTER within ten days. The notice shall
§ 30.19

describe in detail the contract involved, the specific reasons for granting the waiver, and how the waiver meets the criteria of this section.

§ 30.19 Buy American Act.

The restrictions of this part are in addition to any other restrictions contained in Federal law, including the Buy American Act, 41 U.S.C. 10a-10d, and Buy American provisions in legislation governing DOT provisions. Normal evaluation methods for implementing the provisions of the Buy American Act in contracts for the construction, alteration, or repair of public buildings or public works will be applied after determining the offeror's eligibility for award on the basis of application of the provisions in this part.

SOURCE: 53 FR 881, Jan. 14, 1988, unless otherwise noted.

§ 31.1 Basis and purpose.

(a) Basis. This part implements the Program Fraud Civil Remedies Act of 1986, Public Law No. 99-509, sections 6101-6104, 100 Stat. 3801 (October 21, 1986), to be codified at 31 U.S.C. 3801-3812. 31 U.S.C. 3809 of the statute requires each authority head to promulgate regulations necessary to implement the provisions of the statute.

(b) Purpose. This part (1) establishes administrative procedures for imposing civil penalties and assessments against persons who make, submit, or present, or cause to be made, submitted, or presented, false, fictitious, or fraudulent claims or written statements to the authority or to certain others, and (2) specifies the hearing and appeal rights of persons subject to allegations of liability for such penalties and assessments.

§ 31.2 Definitions.

ALJ means an Administrative Law Judge in the authority appointed pursuant to 5 U.S.C. 3105 or detailed to the authority pursuant to 5 U.S.C. 3344. Authority means the Department of Transportation.

Authority head means the Assistant Secretary or Deputy Assistant Secretary for Budget and Programs, Department of Transportation.

Benefit means, in the context of "statement," anything of value, including but not limited to any advantage, preference, privilege, license, permit, favorable decision, ruling, status, or loan guarantee.
Claim means any request, demand, or submission—
   (a) Made to the authority for property, services, or money (including money representing grants, loans, insurance, or benefits);
   (b) Made to a recipient of property, services, or money from the authority or to a party to a contract with the authority—
      (1) For property or services if the United States—
         (i) Provided such property or services;
         (ii) Provided any portion of the funds for the purchase of such property or services; or
         (iii) Will reimburse such recipient or party for the purchase of such property or services; or
      (2) For the payment of money (including money representing grants, loans, insurance, or benefits) if the United States—
         (i) Provided any portion of the money requested or demanded; or
         (ii) Will reimburse such recipient or party for any portion of the money paid on such request or demand; or
   (c) Made to the authority which has the effect of decreasing an obligation to pay or account for property, services, or money.

Complaint means the administrative complaint served by the reviewing official on the defendant under §31.7.

Defendant means any person alleged in a complaint under § 31.7 to be liable for a civil penalty or assessment under § 31.3.

Government means the United States Government.

Individual means a natural person.

Initial decision means the written decision of the ALJ required by §§ 31.10 or 31.37 and includes a revised initial decision issued following a remand or a motion for reconsideration.

Investigating official means the Inspector General of the Department of Transportation or an officer or employee of the Office of Inspector General designated by the Inspector General and serving in a position for which the rate of basic pay is not less than the minimum rate of basic pay for grade GS-16 under the General Schedule.

Knows or has reason to know, means that a person, with respect to a claim or statement—
   (a) Has actual knowledge that the claim or statement is false, fictitious, or fraudulent;
   (b) Acts in deliberate ignorance of the truth or falsity of the claim or statement; or
   (c) Acts in reckless disregard of the truth or falsity of the claim or statement.

Makes, wherever it appears, shall include the terms presents, submits, and causes to be made, presented, or submitted. As the context requires, making or made, shall likewise include the corresponding forms of such terms.

Person means any individual, partnership, corporation, association, or private organization, and includes the plural of that term.

Representative means an attorney who is a member in good standing of the bar of any State, Territory, or possession of the United States or of the District of Columbia or the Commonwealth of Puerto Rico. This definition is not intended to foreclose pro se appearances. An individual may appear for himself or herself, and a corporation or other entity may appear by an owner, officer, or employee of the corporation or entity.

Reviewing official means the Deputy General Counsel of the Department of Transportation, or other officer or employee of the Department who is designated by the Deputy General Counsel and eligible under 31 U.S.C. 3801(a)(8).

Statement means any representation, certification, affirmation, document, record, or accounting or bookkeeping entry made—
   (a) With respect to a claim or to obtain the approval or payment of a claim (including relating to eligibility to make a claim); or
   (b) With respect to (including relating to eligibility for)—
      (1) A contract with, or bid or proposal for a contract with; or
      (2) A grant, loan, or benefit from, the authority, or any State, political subdivision of a State, or other party, if the United States Government provides any portion of the money or property under such contract or for such
§ 31.3 Basis for civil penalties and assessments.

(a) Claims. (1) Except as provided in paragraph (c) of this section, any person who makes a claim that the person knows or has reason to know—
   (i) Is false, fictitious, or fraudulent;
   (ii) Includes or is supported by any written statement which asserts a material fact which is false, fictitious, or fraudulent;
   (iii) Includes or is supported by any written statement that—
      (A) Omits a material fact;
      (B) Is false, fictitious, or fraudulent as a result of such omission; and
      (C) Is a statement in which the person making such statement has a duty to include such material fact; or
   (iv) Is for payment for the provision of property or services which the person has not provided as claimed, shall be subject, in addition to any other remedy that may be prescribed by law, to a civil penalty of not more than $5,500 for each such claim.
   (2) Each voucher, invoice, claim form, or other individual request or demand for property, services, or money constitutes a separate claim.
   (3) A claim shall be considered made to the authority, recipient, or party when such claim is actually made to an agent, fiscal intermediary, or other entity, including any State or political subdivision thereof, acting for or on behalf of the authority.
   (4) Each claim for property, services, or money is subject to a civil penalty regardless of whether such property, services, or money is actually delivered or paid.
   (5) If the Government has made any payment (including transferred property or provided services) on a claim, a person subject to a civil penalty under paragraph (a)(1) of this section shall also be subject to an assessment of not more than twice the amount of such claim or that portion thereof that is determined to be in violation of paragraph (a)(1) of this section. Such assessment shall be in lieu of damages sustained by the Government because of such claim.
   (b) Statements. (1) Except as provided in paragraph (c) of this section, any person who makes a written statement that—
      (i) The person knows or has reason to know—
         (A) Asserts a material fact which is false, fictitious, or fraudulent; or
         (B) Is false, fictitious, or fraudulent because it omits a material fact that the person making the statement has a duty to include in such statement; and
      (ii) Contains, or is accompanied by, an express certification or affirmation of the truthfulness and accuracy of the contents of the statement, shall be subject, in addition to any other remedy that may be prescribed by law, to a civil penalty of not more than $5,500.
   (2) Each written representation, certification, or affirmation constitutes a separate statement.
   (3) A statement shall be considered made to the authority when such statement is actually made to an agent, fiscal intermediary, or other entity, including any State or political subdivision thereof, acting for or on behalf of the authority.
   (c) No proof of specific intent to defraud is required to establish liability under this section.
   (d) In any case in which it is determined that more than one person is liable for making a claim or statement under this section, each such person may be held liable for a civil penalty under this section.
   (e) In any case in which it is determined that more than one person is liable for making a claim under this section on which the Government has made payment (including transferred property or provided services), an assessment may be imposed against any

1 As adjusted in accordance with the Federal Civil Penalties Inflation Adjustment Act of 1990 (Pub. L. 101-140), as amended by the Debt Collection Improvement Act of 1996 (Pub. L. 104-143 section 31001).

such person or jointly and severally against any combination of such persons.

§ 31.4 Investigation.

(a) If an investigating official concludes that a subpoena pursuant to the authority conferred by 31 U.S.C. 3804(a) is warranted—

(1) The subpoena so issued shall notify the person to whom it is addressed of the authority under which the subpoena is issued and shall identify the records or documents sought;

(2) The investigating official may designate a person to act on his or her behalf to receive the documents sought; and

(3) The person receiving such subpoena shall be required to tender to the investigating official or the person designated to receive the documents a certification that the documents sought have been produced, or that such documents are not available and the reasons therefor, or that such documents, suitably identified, have been withheld based upon the assertion of an identified privilege.

(b) If the investigating official concludes that an action under the Program Fraud Civil Remedies Act may be warranted, the investigating official shall submit a report containing the findings and conclusions of such investigation to the reviewing official.

(c) Nothing in this section shall preclude or limit an investigating official's discretion to refer allegations directly to the Department of Justice for suit under the False Claims Act or other civil relief, or to defer or postpone a report or referral to the reviewing official to avoid interference with a criminal investigation or prosecution.

(d) Nothing in this section modifies any responsibility of an investigating official to report violations of criminal law to the Attorney General.

§ 31.5 Review by the reviewing official.

(a) If, based on the report of the investigating official under §31.4(b), the reviewing official determines that there is adequate evidence to believe that a person is liable under §31.3 of this part, the reviewing official shall transmit to the Attorney General a written notice of the reviewing official's intention to issue a complaint under §31.7.

(b) Such notice shall include—

(1) A statement of the reviewing official's reasons for issuing a complaint;

(2) A statement specifying the evidence that supports the allegations of liability;

(3) A description of the claims or statements upon which the allegations of liability are based;

(4) An estimate of the amount of money or the value of property, services, or other benefits requested or demanded in violation of §31.3 of this part;

(5) A statement of any exculpatory or mitigating circumstances that may relate to the claims or statements known by the reviewing official or the investigating official; and

(6) A statement that there is a reasonable prospect of collecting an appropriate amount of penalties and assessments.

§ 31.6 Prerequisites for issuing a complaint.

(a) The reviewing official may issue a complaint under §31.7 only if—

(1) The Department of Justice approves the issuance of a complaint in a written statement described in 31 U.S.C. 3803(b)(1), and

(2) In the case of allegations of liability under §31.3(a) with respect to a claim, the reviewing official determines that, with respect to such claim or a group of related claims submitted at the same time such claim is submitted (as defined in paragraph (b) of this section), the amount of money or the value of property or services demanded or requested in violation of §31.3(a) does not exceed $150,000.

(b) For the purposes of this section, a related group of claims submitted at the same time shall include only those claims arising from the same transaction (e.g., grant, loan, application, or contract) that are submitted simultaneously as part of a single request, demand, or submission.

(c) Nothing in this section shall be construed to limit the reviewing official's authority to join in a single complaint against a person's claims that
§ 31.7 Complaint.
(a) On or after the date the Department of Justice approves the issuance of a complaint in accordance with 31 U.S.C. 3803(b)(1), the reviewing official may serve a complaint on the defendant, as provided in § 31.8.
(b) The complaint shall state—
1. The allegations of liability against the defendant, including the statutory basis for liability, an identification of the claims or statements that are the basis for the alleged liability, and the reasons why liability allegedly arises from such claims or statements;
2. The maximum amount of penalties and assessments for which the defendant may be held liable;
3. Instructions for filing an answer to request a hearing, including a specific statement of the defendant’s right to request a hearing by filing an answer and to be represented by a representative; and
4. That failure to file an answer within 30 days of service of the complaint will result in the imposition of the maximum amount of penalties and assessments without right to appeal, as provided in § 31.10.
(c) At the same time the reviewing official serves the complaint, he or she shall serve the defendant with a copy of these regulations.

§ 31.8 Service of complaint.
(a) Service of a complaint must be made by certified or registered mail or by delivery in any manner authorized by Rule 4(d) of the Federal Rules of Civil Procedure. Service of a complaint is complete upon receipt.
(b) Proof of service, stating the name and address of the person on whom the complaint was served, and the manner and date of service, may be made by—
1. Affidavit of the individual serving the complaint by delivery;
2. A United States Postal Service return receipt card acknowledging receipt; or
3. Written acknowledgment of receipt by the defendant or his or her representative.

§ 31.9 Answer.
(a) The defendant may request a hearing by serving an answer on the reviewing official within 30 days of service of the complaint. Service of an answer shall be made by delivering a copy to the reviewing official or by placing a copy in the United States mail, postage prepaid and addressed to the reviewing official. Service of an answer is complete upon such delivery or mailing. An answer shall be deemed to be a request for hearing.
(b) In the answer, the defendant—
1. Shall admit or deny each of the allegations of liability made in the complaint;
2. Shall state any defense on which the defendant intends to rely;
3. May state any reasons why the defendant contends that the penalties and assessments should be less than the statutory maximum; and
4. Shall state the name, address, and telephone number of the person authorized by the defendant to act as defendant’s representative, if any.
(c) If the defendant is unable to file an answer meeting the requirements of paragraph (b) of this section within the time provided, the defendant may, before the expiration of 30 days from service of the complaint, serve on the reviewing official a general answer denying liability and requesting a hearing, and a request for an extension of time within which to serve an answer meeting the requirements of paragraph (b) of this section. The reviewing official shall file promptly the complaint, the general answer denying liability, and the request for an extension of time as provided in § 31.11. For good cause shown, the ALJ may grant the defendant up to 30 additional days from the original due date within which to serve an answer meeting the requirements of paragraph (b) of this section.

§ 31.10 Default upon failure to answer.
(a) If the defendant does not answer within the time prescribed in § 31.9(a), the reviewing official may refer the
§ 31.13 Referral of complaint and answer to ALJ.

Upon receipt of an answer, the reviewing official shall refer the matter to an ALJ by filing the complaint and answer in accordance with §31.26.

§ 31.12 Notice of hearing.

(a) When the ALJ receives the complaint and answer, the ALJ shall promptly serve a notice of hearing upon the defendant in the manner prescribed by §31.8. At the time, the ALJ shall send a copy of such notice to the representative for the Government and shall file a copy with the Docket Clerk.

(b) Such notice shall include—

(1) The tentative time and place, and the nature of the hearing;
(2) The legal authority and jurisdiction under which the hearing is to be held;
(3) The matters of fact and law to be asserted;
(4) A description of the procedures for the conduct of the hearing;
(5) The name, address, and telephone number of the representative of the Government and of the defendant, if any; and
(6) Such other matters as the ALJ deems appropriate.

§ 31.13 Parties to the hearing.

(a) The parties to the hearing shall be the defendant and the authority.
§ 31.14 Separation of functions.

(a) The investigating official, the reviewing official, and any employee or agent of the authority who takes part in investigating, preparing, or presenting a particular case may not, in such case or a factually related case—

(1) Participate in the hearing as the ALJ;

(2) Participate or advise in the initial decision or the review of the initial decision by the authority head, except as a witness or a representative in public proceedings; or

(3) Make the collection of penalties and assessments under 31 U.S.C. 3806.

(b) The ALJ shall not be responsible to, or subject to the supervision or direction of, the investigating official or the reviewing official.

(c) Except as provided in paragraph (a) of this section, the representative for the Government may be employed anywhere in the authority, including in the offices of either the investigating official or the reviewing official.

§ 31.15 Ex parte contacts.

No party or person (except employees of the ALJ’s office) shall communicate in any way with the ALJ on any matter at issue in a case, unless on notice and opportunity for all parties to participate. This provision does not prohibit a person or party from inquiring about the status of a case or asking routine questions concerning administrative functions or procedures.

§ 31.16 Disqualification of reviewing official or ALJ.

(a) A reviewing official or ALJ in a particular case may disqualify himself or herself at any time.

(b) A party may file a motion for disqualification of a reviewing official or an ALJ. Such motion shall be accompanied by an affidavit alleging personal bias or other reason for disqualification.

(c) Such motion and affidavit shall be filed promptly upon the party’s discovery of reasons requiring disqualification, or such objections shall be deemed waived.

(d) Such affidavit shall state specific facts that support the party’s belief that personal bias or other reason for disqualification exists and the time and circumstances of the party’s discovery of such facts. It shall be accompanied by a certificate of the representative of record that it is made in good faith.

(e)(1) If the ALJ determines that a reviewing official is disqualified, the ALJ shall dismiss the complaint without prejudice.

(2) If the ALJ disqualifies himself or herself, the case shall be reassigned promptly to another ALJ.

(3) If the ALJ denies a motion to disqualify, the authority head may determine the matter only as part of his or her review of the initial decision upon appeal, if any.

§ 31.17 Rights of parties.

Except as otherwise limited by this part, all parties may—

(a) Be accompanied, represented, and advised by a representative;

(b) Participate in any conference held by the ALJ;

(c) Conduct discovery;

(d) Agree to stipulations of fact or law, which shall be made part of the record;

(e) Present evidence relevant to the issues at the hearing;

(f) Present and cross-examine witnesses;

(g) Present oral arguments at the hearing as permitted by the ALJ; and

(h) Submit written briefs and proposed findings of fact and conclusions of law after the hearing.

§ 31.18 Authority of the ALJ.

(a) The ALJ shall conduct a fair and impartial hearing, avoid delay, maintain order, and assure that a record of the proceeding is made.

(b) The ALJ has the authority to—

(1) Set and change the date, time, and place of the hearing upon reasonable notice to the parties;

(2) Continue or recess the hearing in whole or in part for a reasonable period of time;

(3) Hold conferences to identify or simplify the issues, or to consider
Office of the Secretary of Transportation

§ 31.20 Disclosure of documents.

(a) Upon written request to the reviewing official, the defendant may review any relevant and material documents, transcripts, records, and other materials that relate to the allegations set out in the complaint and upon which the findings and conclusions of the investigating official under §31.4(b) are based, unless such documents are subject to a privilege under Federal law. Upon payment of fees for duplication, the defendant may obtain copies of such documents.

(b) Upon written request to the reviewing official, the defendant also may obtain a copy of all exculpatory information in the possession of the reviewing official or investigating official relating to the allegations in the complaint, even if it is contained in a document that would otherwise be privileged. If the document would otherwise be privileged, only that portion containing exculpatory information must be disclosed.

(c) The notice sent to the Attorney General from the reviewing official as described in §31.5 is not discoverable under any circumstances.

(d) The defendant may file a motion to compel disclosure of the documents subject to the provisions of this section. Such a motion may only be filed following the serving of an answer pursuant to §31.9.

§ 31.21 Discovery.

(a) The following types of discovery are authorized:

(1) Requests for production of documents for inspection and copying;
§ 31.22 Exchange of witness lists, statements, and exhibits.

(a) At least 15 days before the hearing or at such other time as may be ordered by the ALJ, the parties shall exchange witness lists, copies of prior statements of proposed witnesses, and copies of proposed hearing exhibits, including copies of any written statements that the party intends to offer in lieu of live testimony in accordance with §31.33(b). At the time the above documents are exchanged, any party that intends to rely on the transcript of deposition testimony in lieu of live testimony at the hearing, if permitted by the ALJ, shall provide each party with a copy of the specific pages of the transcript it intends to introduce into evidence.

(b) If a party objects, the ALJ shall not admit into evidence the testimony of any witness whose name does not appear on the witness list of any exhibit not provided to the opposing party as provided above unless the ALJ finds good cause for the failure or that there is no prejudice to the objecting party.

(c) Unless another party objects within the time set by the ALJ, documents exchanged in accordance with paragraph (a) of this section shall be deemed to be authentic for the purpose of admissibility at the hearing.

§ 31.23 Subpoenas for attendance at hearing.

(a) A party wishing to procure the appearance and testimony of any individual at the hearing may request that the ALJ issue a subpoena.

(b) A subpoena requiring the attendance and testimony of an individual may also require the individual to produce documents at the hearing.

(c) A party seeking a subpoena shall file a written request therefor not less
than 15 days before the date fixed for the hearing unless otherwise allowed by the ALJ for good cause shown. Such request shall be accompanied by a proposed subpoena, which shall specify and documents to be produced and shall designate the witnesses and describe the address and location thereof with sufficient particularity to permit such witnesses to be found.

(d) The subpoena shall specify the time and place at which the witness is to appear and any documents the witness is to produce.

(e) The party seeking the subpoena shall serve it in the manner prescribed in §31.8. A subpoena on a party or upon an individual under the control of party may be served by first class mail.

(f) A party or the individual to whom the subpoena is directed may file a motion to quash the subpoena within ten days after service or on or before the time specified in the subpoena for compliance if it is less than ten days after service. If the ALJ has not acted on such a motion by the return date, such date shall be suspended pending the ALJ's final action on the motion.

§ 31.24 Protective order.

(a) A party or a prospective witness or deponent may file a motion for a protective order with respect to discovery sought by an opposing party or with respect to the hearing, seeking to limit the availability or disclosure of evidence.

(b) In issuing a protective order, the ALJ may make any order which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, including one or more of the following:

1. That the discovery not be had;

2. That the discovery may be had only on specified terms and conditions, including a designation of the time or place;

3. That the discovery may be had only through a method of discovery other than that requested;

4. That certain matters not be inquired into, or that the scope of discovery be limited to certain matters;

5. That discovery be conducted with no one present except persons designated by the ALJ;

6. That the contents of discovery or evidence be sealed;

7. That a deposition after being sealed be opened only by order of the ALJ;

8. That a trade secret or other confidential research, development, commercial information, or facts pertaining to any criminal investigation, proceeding, or other administrative investigation not be disclosed or be disclosed only in a designated way;

9. That the parties simultaneously submit to the ALJ specified documents or information enclosed in sealed envelopes to be opened as directed by the ALJ.

§ 31.25 Fees.

The party requesting a subpoena shall pay the cost of the fees and mileage of any witness subpoenaed in the amounts that would be payable to a witness in a proceeding in United States District Court. A check for witness fees and mileage shall accompany the subpoena when served, except that when a subpoena is issued on behalf of the authority, a check for witness fees and mileage need not accompany the subpoena.

§ 31.26 Filing, form, and service of papers.

(a) Filing and form. (1) A party filing any document under this part shall submit (i) the original and two copies to the Docket Clerk, Documentary Services Division (C-55), room 4107, Department of Transportation, 400 7th Street SW., Washington, DC 20590; and (ii) two copies simultaneously to the ALJ or, if on appeal, to the authority head. The requirements of this paragraph apply to all filings under this part, regardless of whether there is a cross-reference to §31.26.

(2) Every pleading and paper filed in the proceeding shall contain a caption setting forth the title of the action, the case number assigned by the Docket Clerk, and a designation of the paper (e.g., motion to quash subpoena).

(3) Every pleading and paper shall be signed by, and shall contain the address and telephone number of, the party or the person on whose behalf the paper was filed, or his or her representative.
§ 31.27  Papers are considered filed when they are mailed. Date of mailing may be established by a certificate from the party or its representative or by proof that the document was sent by certified or registered mail.

(b) Service. A party filing a document shall, at the time of filing, serve a copy of such document on every other party. Service upon any party of any document other than those required to be served as prescribed in §31.8 shall be made by delivering a copy, or by placing a copy of the document in the United States mail, postage prepaid and addressed, to the party’s last known address. When a party is represented by a representative, service shall be made upon such representative in lieu of the actual party.

(c) Proof of service. A certificate of the individual serving the document by personal delivery or by mail, setting forth the manner of service, shall be proof of service.

§ 31.27 Computation of time.

(a) In computing any period of time under this part or in an order issued thereunder, the time begins with the day following the act, event, or default, and includes the last day of the period, unless it is a Saturday, Sunday, or legal holiday observed by the Federal government, in which event it includes the next business day.

(b) When the period of time allowed is less than seven days, intermediate Saturdays, Sundays, and legal holidays observed by the Federal government shall be excluded from the computation.

(c) Where a document has been served or issued by placing it in the United States mail, an additional five days will be added to the time permitted for any responses.

§ 31.28 Motions.

(a) Any application to the ALJ for an order or ruling shall be by motion. Motions shall state the relief sought, the authority relied upon, and the facts alleged, and shall be filed and served on all other parties.

(b) Except for motions made during a prehearing conference or at the hearing, all motions shall be in writing. The ALJ may require that oral motions be reduced to writing.

(c) Within 15 days after a written motion is served, or such other time as may be fixed by the ALJ, any party may file a response to such motion.

(d) The ALJ may not grant a written motion before the time for filing response thereto has expired, except upon consent of the parties or following a hearing on the motion, but may overrule or deny such motion without awaiting a response.

(e) The ALJ shall make a reasonable effort to dispose of all outstanding motions prior to the beginning of the hearing.

(f) Except as provided by §§31.21(e)(3) and 31.23(f), which concern subpoenas, the filing or pendency of a motion shall not automatically alter or extend a deadline or return date.

§ 31.29 Sanctions.

(a) The ALJ may sanction a person, including any party or representative, for—

(1) Failing to comply with an order, rule, or procedure governing the proceeding;

(2) Failing to prosecute or defend an action; or

(3) Engaging in other misconduct that interferes with the speedy, orderly, or fair conduct of the hearing.

(b) Sanctions include but are not limited to those specifically set forth in paragraph (c), (d), and (e) of this section. Any such sanction shall reasonably relate to the severity and nature of the failure or misconduct.

(c) When a party fails to comply with an order, including an order for taking a deposition, the production of evidence within the party’s control, or a request for admission, the ALJ may—

(1) Draw an inference in favor of the requesting party with regard to the information sought;

(2) In the case of requests for admission, deem each matter of which an admission is requested to be admitted;

(3) Prohibit the party failing to comply with such order from introducing evidence concerning, or otherwise relying upon, testimony relating to the information sought; and
(4) Strike any part of the pleadings or other submissions of the party failing to comply with such request.

(d) If a party fails to prosecute or defend an action under this part commenced by service of a notice of hearing, the ALJ may dismiss the action or may issue an initial decision imposition penalties and assessments.

(e) The ALJ may refuse to consider any motion, request, response, brief or other document which is not filed in a timely fashion.

§ 31.30 The hearing and burden of proof.

(a) The ALJ shall conduct a hearing on the record in order to determine whether the defendant is liable for a civil penalty or assessment under § 31.3 and, if so, the appropriate amount of any such civil penalty or assessment considering any aggravating or mitigating factors.

(b) The authority shall prove defendant's liability and any aggravating factors by a preponderance of the evidence.

(c) The defendant shall prove any affirmative defenses and any mitigating factors by a preponderance of the evidence.

(d) The hearing shall be open to the public unless otherwise ordered by the ALJ for good cause shown.

§ 31.31 Determining the amount of penalties and assessments.

(a) In determining an appropriate amount of civil penalties and assessments, the ALJ and the authority head, upon appeal, should evaluate any circumstances that mitigate or aggravate the violation and should articulate in their opinions the reasons that support the penalties and assessments they impose. Because of the intangible costs of fraud, the expense of investigating such conduct, and the need to deter others who might be similarly tempted, ordinarily double damages and a significant civil penalty should be imposed. Because of the intangible costs of fraud, the expense of investigating such conduct, and the need to deter others who might be similarly tempted, ordinarily double damages and a significant civil penalty should be imposed.

(b) Although not exhaustive, the following factors are among those that may influence the ALJ and the authority head in determining the amount of penalties and assessments to impose with respect to the misconduct (i.e., the false fictitious, of fraudulent claims or statements) charged in the complaint:

(1) The number of false, fictitious, or fraudulent claims or statements;

(2) The time period over which such claims or statements were made;

(3) The degree of the defendant's culpability with respect to the misconduct;

(4) The amount of money or the value of the property, services, or benefit falsely claimed;

(5) The value of the Government's actual loss as a result of the misconduct, including foreseeable consequential damages and the costs of investigation;

(6) The relationship of the amount imposed as civil penalties to the amount of the Government's loss;

(7) The potential or actual impact of the misconduct upon national defense, public health or safety, or public confidence in the management of Government programs and operations, including particularly the impact on the intended beneficiaries of such programs;

(8) Whether the defendant has engaged in a pattern of the same or similar misconduct;

(9) Whether the defendant attempted to conceal the misconduct;

(10) The degree to which the defendant has involved others in the misconduct or in concealing it;

(11) Where the misconduct of employees or agents is imputed to the defendant, the extent to which the defendant's practices fostered or attempted to preclude such misconduct;

(12) Whether the defendant cooperated in or obstructed an investigation of the misconduct;

(13) Whether the defendant assisted in identifying and prosecuting other wrongdoers;

(14) The complexity of the program or transaction, and the degree of the defendant's sophistication with respect to it, including the extent of the defendant's prior participation in the program or in similar transactions;

(15) Whether the defendant has been found, in any criminal, civil, or administrative proceeding to have engaged in similar misconduct or to have dealt dishonestly with the Government of the United States or of a State, directly or indirectly; and
§ 31.32

(16) The need to deter the defendant and others from engaging in the same or similar misconduct.

(c) Nothing in this section shall be construed to limit the ALJ or the authority head from considering any other factors that in any given case may mitigate or aggravate the offense for which penalties and assessments are imposed.

§ 31.32 Location of hearing.

(a) The hearing may be held—

(1) In any judicial district of the United States in which the defendant resides or transacts business;

(2) In any judicial district of the United States in which the claim or statement in issue was made; or

(3) In such other place as may be agreed upon by the defendant and the ALJ.

(b) Each party shall have the opportunity to present written and oral argument with respect to the location of the hearing.

(c) The hearing shall be held at the place and at the time ordered by the ALJ.

§ 31.33 Witnesses.

(a) Except as provided in paragraph (b) of this section, testimony at the hearing shall be given orally by witnesses under oath or affirmation.

(b) At the discretion of the ALJ, testimony may be admitted in the form of a written statement or deposition. Any such written statement must be provided to all other parties along with the last known address of such witness, in a manner which allows sufficient time for other parties to subpoena such witness for cross-examination at the hearing. Prior written statements of witnesses proposed to testify at the hearing and deposition transcripts shall be exchanged as provided in §31.22(a).

(c) The ALJ shall exercise reasonable control over the mode and order of interrogating witnesses and presenting evidence so as to (1) make the interrogation and presentation effective for the ascertainment of the truth, (2) avoid needless consumption of time, and (3) protect witnesses from harassment or undue embarrassment.

(d) The ALJ shall permit the parties to conduct such cross-examination as may be required for a full and true disclosure of the facts.

(e) At the discretion of the ALJ, a witness may be cross-examined on matters relevant to the proceeding without regard to the scope of his or her direct examination. To the extent permitted by the ALJ, cross-examination on matters outside the scope of direct examination shall be conducted in the manner of direct examination and may proceed by leading questions only if the witness is a hostile witness, an adverse party, or a witness identified with an adverse party.

(f) Upon motion of any party, the ALJ shall order witnesses excluded so that they cannot hear the testimony of other witnesses. This rule does not authorize exclusion of—

(1) A party who is an individual;

(2) In the case of a party that is not an individual, an officer or employee of the party (i) appearing for the entity pro se or (ii) designated by the party’s representative; or

(3) An individual whose presence is shown by a party to be essential to the presentation of its case, including an individual employed by the Government engaged in assisting the representative for the Government.

§ 31.34 Evidence.

(a) The ALJ shall determine the admissibility of evidence.

(b) Except as provided in this part, the ALJ shall not be bound by the Federal Rules of Evidence. However, the ALJ may apply the Federal Rules of Evidence where appropriate, e.g., to exclude unreliable evidence.

(c) The ALJ shall exclude irrelevant and immaterial evidence.

(d) Although relevant, evidence may be excluded if its probative value is substantially outweighed by the danger of unfair prejudice, confusion of the issues, or by considerations of undue delay or needless presentation of cumulative evidence.

(e) Although relevant, evidence may be excluded if it is privileged under Federal law.
(f) Evidence concerning offers of compromise or settlement shall be inadmissible to the extent provided in Rule 408 of the Federal Rules of Evidence.

(g) The ALJ shall permit the parties to introduce rebuttal witnesses and evidence.

(h) All documents and other evidence offered or taken for the record shall be open to examination by all parties, unless otherwise ordered by the ALJ pursuant to §31.24.

§31.35 The record.

(a) The hearing will be recorded and transcribed. Transcripts may be obtained following the hearing from the ALJ at a cost not to exceed the actual cost of duplication.

(b) The transcript of testimony, exhibits and other evidence admitted at the hearing, and all papers and requests filed in the proceeding constitute the record for the decision by the ALJ and the authority head.

(c) The record may be inspected at the offices of the Docket Clerk (see §31.26(a)(1) for address) and copied (upon payment of a reasonable fee) by anyone, unless otherwise ordered by the ALJ pursuant to §31.24.

§31.36 Post-hearing briefs.

The ALJ may require the parties to file post-hearing briefs. In any event, any party may file a post-hearing brief. The ALJ shall fix the time for filing such briefs. Such briefs may be accompanied by proposed findings of fact and conclusions of law. The ALJ may permit the parties to file reply briefs.

§31.37 Initial decision.

(a) The ALJ shall issue an initial decision based only on the record, which shall contain findings of fact, conclusions of law, and the amount of any penalties and assessments imposed.

(b) The findings of fact shall include a finding on each of the following issues:

1. Whether the claims or statements identified in the complaint, or any portions thereof, violate §31.3;

2. If the person is liable for penalties or assessments, the appropriate amount of any such penalties or assessments considering any mitigating or aggravating factors that he or she finds in the case, such as those described in §31.31.

(c) The ALJ shall promptly serve the initial decision on all parties within 90 days after the time for submission of post-hearing briefs and reply briefs (if permitted) has expired. The ALJ shall at the same time serve all parties with a statement describing the right of any defendant determined to be liable for a civil penalty or assessment to file a motion for reconsideration with the ALJ or a notice of appeal with the authority head. If the ALJ fails to meet the deadline contained in this paragraph, he or she shall notify the parties of the reason for the delay and shall set a new deadline.

(d) Unless the initial decision of the ALJ is timely appealed to the authority head, or a motion for reconsideration of the initial decision is timely filed, the initial decision shall constitute the final decision of the authority head and shall be final and binding on the parties 30 days after it is issued by the ALJ.

§31.38 Reconsideration of initial decision.

(a) Except as provided in paragraph (d) of this section, any party may file a motion for reconsideration of the initial decision within 20 days of receipt of the initial decision. If service was made by mail, receipt will be presumed to be five days from the date of mailing in the absence of contrary proof.

(b) Every such motion must set forth the matters claimed to have been erroneously decided and the nature of the alleged errors. Such motion shall be accompanied by a supporting brief.

(c) Responses to such motions shall be allowed only upon request of the ALJ.

(d) No party may file a motion for reconsideration of an initial decision that has been revised in response to a previous motion for reconsideration.

(e) The ALJ may dispose of a motion for reconsideration by denying it or by issuing a revised initial decision.

(f) If the ALJ denies a motion for reconsideration, the initial decision shall constitute the final decision of the authority head and shall be final and binding on the parties 30 days after the
§ 31.39

ALJ denies the motion, unless the initial decision is timely appealed to the authority head in accordance with §31.39.

(g) If the ALJ issues a revised initial decision, that decision shall constitute the final decision of the authority head and shall be final and binding on the parties 30 days after it is issued, unless it is timely appealed to the authority head in accordance with §31.39.

§ 31.39 Appeal to authority head.

(a) Any defendant who has served a timely answer and who is determined in an initial decision to be liable for a civil penalty or assessment may appeal such decision to the authority head by filing a notice of appeal in accordance with this section and §31.26.

(b)(1) A notice of appeal may be filed at any time within 30 days after the ALJ issues an initial decision. However, if another party files a motion for reconsideration under §31.38, consideration of the appeal shall be stayed automatically pending resolution of the motion for reconsideration.

(2) If a motion for reconsideration is timely filed, a notice of appeal may be filed within 30 days after the ALJ denies the motion or issues a revised initial decision, whichever applies.

(c) If the defendant files a timely notice of appeal and the time for filing motions for reconsideration under §31.38 has expired, the Docket Clerk shall forward two copies of the notice of appeal to the authority head, and shall forward or make available the record of the proceeding to the authority head.

(d) A notice of appeal shall be accompanied by a written brief specifying exceptions to the initial decision and reasons supporting the exceptions.

(e) The representative for the Government may file a brief in opposition to exceptions within 30 days of receiving the notice of appeal and accompanying brief.

(f) There is no right to appear personally before the authority head.

(g) There is no right to appeal any interlocutory ruling by the ALJ.

(h) In reviewing the initial decision, the authority head shall not consider any objection that was not raised before the ALJ unless a demonstration is made of extraordinary circumstances causing the failure to raise the objection.

(i) If any party demonstrates to the satisfaction of the authority head that additional evidence not presented at such hearing is material and that there were reasonable grounds for the failure to present such evidence at such hearing, the authority head shall remand the matter to the ALJ for consideration of such additional evidence.

(j) The authority head may affirm, reduce, reverse, compromise, remand, or settle any penalty or assessment determined by the ALJ in any initial decision.

(k) The authority head shall promptly serve each party to the appeal with a copy of the decision of the authority head and with a statement describing the right of any person determined to be liable for a penalty or assessment to seek judicial review.

(l) Unless a petition for review is filed as provided in 31 U.S.C. 3805 after a defendant has exhausted all administrative remedies under this part and within 60 days after the date on which the authority head serves the defendant with a copy of the authority head's decision, a determination that a defendant is liable under §31.3 is final and is not subject to judicial review.

§ 31.40 Stays ordered by the Department of Justice.

If at any time the Attorney General or an Assistant Attorney General designated by the Attorney General transmits to the authority head a written finding that continuation of the administrative process described in this part with respect to a claim or statement may adversely affect any pending or potential criminal or civil action related to such claim or statement, the authority head shall stay the process immediately. The authority head may order the process resumed only upon receipt of the written authorization of the Attorney General.
§ 31.41 Stay pending appeal.
(a) An initial decision is stayed automatically pending disposition of a motion for reconsideration or of an appeal to the authority head.
(b) No administrative stay is available following a final decision of the authority head.

§ 31.42 Judicial review.
Section 3805 of title 31, United States Code, authorizes judicial review by an appropriate United States District Court of a final decision of the authority head imposing penalties or assessments under this part and specifies the procedures for such review.

§ 31.43 Collection of civil penalties and assessments.
Sections 3806 and 3808(b) of title 31, United States Code, authorize actions for collection of civil penalties and assessments imposed under this part and specify the procedures for such actions.

§ 31.44 Right to administrative offset.
The amount of any penalty or assessment which has become final, or for which a judgment has been entered under § 31.42 or § 31.43, or any amount agreed upon in a compromise or settlement under § 31.6, except that an administrative offset may not be made under this subsection against a refund of an overpayment of Federal taxes, then or later owing by the United States to the defendant.

§ 31.45 Deposit in Treasury of United States.
All amounts collected pursuant to this part shall be deposited as miscellaneous receipts in the Treasury of the United States, except as provided in 31 U.S.C. 3806(g).

§ 31.46 Compromise or settlement.
(a) Parties may make offers of compromise or settlement at any time.
(b) The reviewing official has the exclusive authority to compromise or settle a case under this part at any time after the date on which the ALJ issues an initial decision, except during the pendency of any review under § 31.42 or during the pendency of any action to collect penalties and assessments under § 31.43.
(c) The authority head has exclusive authority to compromise or settle a case under this part at any time after the date on which the ALJ issues an initial decision, except during the pendency of any review under § 31.42 or during the pendency of any action to collect penalties and assessments under § 31.43.
(d) The Attorney General has exclusive authority to compromise or settle a case under this part during the pendency of any review under § 31.42 or of any action to recover penalties and assessments under 31 U.S.C. 3806.
(e) The investigating official may recommend settlement terms to the reviewing official, the authority head, or the Attorney General, as appropriate.
(f) Any compromise or settlement must be in writing.

§ 31.47 Limitations.
(a) The notice of hearing with respect to a claim or statement must be served in the manner specified in § 31.8 within 6 years after the date on which such claim or statement is made.
(b) If the defendant fails to serve a timely answer, service of a notice under § 31.10(b) shall be deemed a notice of hearing for purposes of this section.
(c) The statute of limitations may be extended by agreement of the parties.
Pt. 37

Subpart B—Applicability

37.21 Applicability: General.
37.23 Service under contract.
37.25 University transportation systems.
37.27 Transportation for elementary and secondary education systems.
37.29 Private entities providing taxi service.
37.31 Vanpools.
37.33 Airport transportation systems.
37.35 Supplemental service for other transportation modes.
37.37 Other applications.
37.39 [Reserved]

Subpart C—Transportation Facilities

37.41 Construction of transportation facilities by public entities.
37.43 Alteration of transportation facilities by public entities.
37.45 Construction and alteration of transportation facilities by private entities.
37.47 Key stations in light and rapid rail systems.
37.49 Designation of responsible person(s) for intercity and commuter rail stations.
37.51 Key stations in commuter rail systems.
37.55 Intercity rail station accessibility.
37.57 Required cooperation.
37.59 Differences in accessibility completion dates.
37.61 Public transportation programs and activities in existing facilities.
37.63–37.69 [Reserved]

Subpart D—Acquisition of Accessible Vehicles by Public Entities

37.71 Purchase or lease of new non-rail vehicles by public entities operating fixed route systems.
37.73 Purchase or lease of used non-rail vehicles by public entities operating fixed route systems.
37.75 Remanufacture of non-rail vehicles and purchase or lease of remanufactured non-rail vehicles by public entities operating fixed route systems.
37.77 Purchase or lease of new non-rail vehicles by public entities operating demand responsive systems for the general public.
37.79 Purchase or lease of new rail vehicles by public entities operating rapid or light rail systems.
37.81 Purchase or lease of used rail vehicles by public entities operating rapid or light rail systems.
37.83 Remanufacture of rail vehicles and purchase or lease of remanufactured rail vehicles by public entities operating rapid or light rail systems.
37.85 Purchase or lease of new intercity and commuter rail cars.
37.87 Purchase or lease of used intercity and commuter rail cars.
37.89 Remanufacture of intercity and commuter rail cars and purchase or lease of remanufactured intercity and commuter rail cars.
37.91 Wheelchair locations and food service on intercity rail trains.
37.93 One car per train rule.
37.95 Ferries and other passenger vessels operated by public entities. [Reserved]
37.97–37.99 [Reserved]

Subpart E—Acquisition of Accessible Vehicles by Private Entities

37.101 Purchase or lease of vehicles by private entities not primarily engaged in the business of transporting people.
37.103 Purchase or lease of new non-rail vehicles by private entities primarily engaged in the business of transporting people.
37.105 Equivalent service standard.
37.107 Acquisition of passenger rail cars by private entities primarily engaged in the business of transporting people.
37.109 Ferries and other passenger vessels operated by private entities. [Reserved]
37.111–37.119 [Reserved]

Subpart F—Paratransit as a Complement to Fixed Route Service

37.121 Requirement for comparable complementary paratransit service.
37.123 ADA paratransit eligibility: Standards.
37.125 ADA paratransit eligibility: Process.
37.127 Complementary paratransit service for visitors.
37.129 Types of service.
37.131 Service criteria for complementary paratransit.
37.133 Subscription service.
37.135 Submission of paratransit plan.
37.137 Paratransit plan development.
37.139 Plan contents.
37.141 Requirements for a joint paratransit plan.
37.143 Paratransit plan implementation.
37.145 State comment on plans.
37.147 Considerations during FTA review.
37.149 Disapproved plans.
37.151 Waiver for undue financial burden.
37.153 FTA waiver determination.
37.155 Factors in decision to grant an undue financial burden waiver.
37.157–37.159 [Reserved]

Subpart G—Provision of Service

37.161 Maintenance of accessible features: General.
37.163 Keeping vehicle lifts in operative condition—public entities.
37.165 Lift and securement use.
§ 37.3 Definitions.

As used in this part:

Accessible means, with respect to vehicles and facilities, complying with the accessibility requirements of parts 37 and 38 of this title.

Administrator means Administrator of the Federal Transit Administration, or his or her designee.

Alteration means a change to an existing facility, including, but not limited to, remodeling, renovation, rehabilitation, reconstruction, historic restoration, changes or rearrangement in structural parts or elements, and changes or rearrangement in the plan configuration of walls and full-height partitions. Normal maintenance, re-roofing, painting or wallpapering, asbestos removal, or changes to mechanical or electrical systems are not alterations unless they affect the usability of the building or facility.

Automated guideway transit system or AGT means a fixed-guideway transit system which operates with automated (driverless) individual vehicles or multi-car trains. Service may be on a fixed schedule or in response to a passenger-activated call button.

Auxiliary aids and services includes:

(1) Qualified interpreters, notetakers, transcription services, written materials, telephone headset amplifiers, assistive listening devices, assistive listening systems, telephones compatible with hearing aids, closed caption decoders, closed and open captioning, text telephones (also known as telephone devices for the deaf, or TDDs), videotext displays, or other effective methods of making aurally delivered materials available to individuals with hearing impairments;

(2) Qualified readers, taped texts, Braille materials, large print materials, or other effective methods of making visually delivered materials available to individuals with visual impairments.

§ 37.3 Definitions.

As used in this part:

Accessible means, with respect to vehicles and facilities, complying with the accessibility requirements of parts 37 and 38 of this title.

Administrator means Administrator of the Federal Transit Administration, or his or her designee.

Alteration means a change to an existing facility, including, but not limited to, remodeling, renovation, rehabilitation, reconstruction, historic restoration, changes or rearrangement in structural parts or elements, and changes or rearrangement in the plan configuration of walls and full-height partitions. Normal maintenance, re-roofing, painting or wallpapering, asbestos removal, or changes to mechanical or electrical systems are not alterations unless they affect the usability of the building or facility.

Automated guideway transit system or AGT means a fixed-guideway transit system which operates with automated (driverless) individual vehicles or multi-car trains. Service may be on a fixed schedule or in response to a passenger-activated call button.

Auxiliary aids and services includes:

(1) Qualified interpreters, notetakers, transcription services, written materials, telephone headset amplifiers, assistive listening devices, assistive listening systems, telephones compatible with hearing aids, closed caption decoders, closed and open captioning, text telephones (also known as telephone devices for the deaf, or TDDs), videotext displays, or other effective methods of making aurally delivered materials available to individuals with hearing impairments;

(2) Qualified readers, taped texts, Braille materials, large print materials, or other effective methods of making visually delivered materials available to individuals with visual impairments.

333
(3) Acquisition or modification of equipment or devices; or
(4) Other similar services or actions.

Bus means any of several types of self-propelled vehicles, generally rubber-tired, intended for use on city streets, highways, and busways, including but not limited to minibuses, forty- and thirty-foot buses, articulated buses, double-deck buses, and electrically powered trolley buses, used by public entities to provide designated public transportation service and by private entities to provide transportation service including, but not limited to, specified public transportation services. Self-propelled, rubber-tired vehicles designed to look like antique or vintage trolleys are considered buses.

Commerce means travel, trade, transportation, or communication among the several states, between any foreign country or any territory or possession and any state, or between points in the same state but through another state or foreign country.

Commuter authority means any state, local, regional authority, corporation, or other entity established for purposes of providing commuter rail transportation (including, but not necessarily limited to, the New York Metropolitan Transportation Authority, the Connecticut Department of Transportation, the Maryland Department of Transportation, the Southeastern Pennsylvania Transportation Authority, the New Jersey Transit Corporation, the Massachusetts Bay Transportation Authority, the Port Authority Trans-Hudson Corporation, and any successor agencies) and any entity created by one or more such agencies for the purposes of operating, or contracting for the operation of, commuter rail transportation.

Commuter bus service means fixed route bus service, characterized by service predominantly in one direction during peak periods, limited stops, use of multi-ride tickets, and routes of extended length, usually between the central business district and outlying suburbs. Commuter bus service may also include other service, characterized by a limited route structure, limited stops, and a coordinated relationship to another mode of transportation.

Commuter rail car means a rail passenger car obtained by a commuter authority for use in commuter rail transportation.

Commuter rail transportation means short-haul rail passenger service operating in metropolitan and suburban areas, whether within or across the geographical boundaries of a state, usually characterized by reduced fare, multiple ride, and commutation tickets and by morning and evening peak period operations. This term does not include light or rapid rail transportation.

Demand responsive system means any system of transporting individuals, including the provision of designated public transportation service by public entities and the provision of transportation service by private entities, including but not limited to specified public transportation service, which is not a fixed route system.

Designated public transportation means transportation provided by a public entity (other than public school transportation) by bus, rail, or other conveyance (other than transportation by aircraft or intercity or commuter rail transportation) that provides the general public with general or special service, including charter service, on a regular and continuing basis.

Disability means, with respect to an individual, a physical or mental impairment that substantially limits one or more of the major life activities of such individual; a record of such an impairment; or being regarded as having such an impairment.

(1) The phrase physical or mental impairment means—
(i) Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological, musculoskeletal, special sense organs, respiratory including speech organs, cardiovascular, reproductive, digestive, genito-urinary, hemic and lymphatic, skin, and endocrine;
(ii) Any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities;
(iii) The term physical or mental impairment includes, but is not limited to, such contagious or noncontagious diseases and conditions as orthopedic, visual, speech, and hearing impairments; cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, specific learning disabilities, HIV disease, tuberculosis, drug addiction and alcoholism;

(iv) The phrase physical or mental impairment does not include homosexuality or bisexuality.

(2) The phrase major life activities means functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and work.

(3) The phrase has a record of such an impairment means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.

(4) The phrase is regarded as having such an impairment means—

(i) Has a physical or mental impairment that does not substantially limit major life activities, but which is treated by a public or private entity as constituting such a limitation;

(ii) Has a physical or mental impairment that substantially limits a major life activity only as a result of the attitudes of others toward such an impairment; or

(iii) Has none of the impairments defined in paragraph (1) of this definition but is treated by a public or private entity as having such an impairment.

(5) The term disability does not include—

(i) Transvestism, transsexualism, pedophilia, exhibitionism, voyeurism, gender identity disorders not resulting from physical impairments, or other sexual behavior disorders;

(ii) Compulsive gambling, kleptomania, or pyromania;

(iii) Psychoactive substance abuse disorders resulting from the current illegal use of drugs.

Facility means all or any portion of buildings, structures, sites, complexes, equipment, roads, walks, passageways, parking lots, or other real or personal property, including the site where the building, property, structure, or equipment is located.

Fixed route system means a system of transporting individuals (other than by aircraft), including the provision of designated public transportation service by public entities and the provision of transportation service by private entities, including, but not limited to, specified public transportation service, on which a vehicle is operated along a prescribed route according to a fixed schedule.

FT Act means the Federal Transit Act of 1964, as amended (49 U.S.C. App. 1601 et seq.).

High speed rail means a rail service having the characteristics of intercity rail service which operates primarily on a dedicated guideway or track not used, for the most part, by freight, including, but not limited to, trains on welded rail, magnetically levitated (maglev) vehicles on a special guideway, or other advanced technology vehicles, designed to travel at speeds in excess of those possible on other types of railroads.

Individual with a disability means a person who has a disability, but does not include an individual who is currently engaging in the illegal use of drugs, when a public or private entity acts on the basis of such use.

Intercity rail passenger car means a rail car, intended for use by revenue passengers, obtained by the National Railroad Passenger Corporation (Amtrak) for use in intercity rail transportation.

Intercity rail transportation means transportation provided by Amtrak.

Light rail means a streetcar-type vehicle operated on city streets, semi-exclusive rights of way, or exclusive rights of way. Service may be provided by step-entry vehicles or by level boarding.

New vehicle means a vehicle which is offered for sale or lease after manufacture without any prior use.

Operates includes, with respect to a fixed route or demand responsive system, the provision of transportation service by a public or private entity itself or by a person under a contractual or other arrangement or relationship with the entity.
§ 37.3

Over-the-road bus means a bus characterized by an elevated passenger deck located over a baggage compartment.

Paratransit means comparable transportation service required by the ADA for individuals with disabilities who are unable to use fixed route transportation systems.

Private entity means any entity other than a public entity.

Public entity means:
1. Any state or local government;
2. Any department, agency, special purpose district, or other instrumentality of one or more state or local governments; and
3. The National Railroad Passenger Corporation (Amtrak) and any commuter authority.

Purchase or lease, with respect to vehicles, means the time at which an entity is legally obligated to obtain the vehicles, such as the time of contract execution.

Public school transportation means transportation by schoolbus vehicles of schoolchildren, personnel, and equipment to and from a public elementary or secondary school and school-related activities.

Rapid rail means a subway-type transit vehicle railway operated on exclusive private rights of way with high level platform stations. Rapid rail also may operate on elevated or at grade level track separated from other traffic.

Remanufactured vehicle means a vehicle which has been structurally restored and has had new or rebuilt major components installed to extend its service life.

Secretary means the Secretary of Transportation or his/her designee.

Service animal means any guide dog, signal dog, or other animal individually trained to work or perform tasks for an individual with a disability, including, but not limited to, guiding individuals with impaired vision, alerting individuals with impaired hearing to intruders or sounds, providing minimal protection or rescue work, pulling a wheelchair, or fetching dropped items.

Small operator means, in the context of over-the-road buses (OTRBs), a private entity primarily in the business of transporting people that is not a Class I motor carrier. To determine whether an operator has sufficient average annual gross transportation operating revenues to be a Class I motor carrier, its revenues are combined with those of any other OTRB operator with which it is affiliated.

Solicitation means the closing date for the submission of bids or offers in a procurement.

Specified public transportation means transportation by bus, rail, or any other conveyance (other than aircraft) provided by a private entity to the general public, with general or special service (including charter service) on a regular and continuing basis.

Station means, with respect to intercity and commuter rail transportation, the portion of a property located appurtenant to a right of way on which intercity or commuter rail transportation is operated, where such portion is used by the general public and is related to the provision of such transportation, including passenger platforms, designated waiting areas, restrooms, and, where a public entity providing rail transportation owns the property, concession areas, to the extent that such public entity exercises control over the selection, design, construction, or alteration of the property, but this term does not include flag stops (i.e., stations which are not regularly scheduled stops but at which trains will stop to board or detrain passengers only on signal or advance notice).

Transit facility means, for purposes of determining the number of text telephones needed consistent with section 10.3.1(12) of appendix A to this part, a physical structure the primary function of which is to facilitate access to and from a transportation system which has scheduled stops at the structure. The term does not include an open structure or a physical structure the primary purpose of which is other than providing transportation services.

Used vehicle means a vehicle with prior use.

Vanpool means a voluntary commuter ridesharing arrangement, using vans with a seating capacity greater
than 7 persons (including the driver) or buses, which provides transportation to a group of individuals traveling directly from their homes to their regular places of work within the same geographical area, and in which the commuter/driver does not receive compensation beyond reimbursement for his or her costs of providing the service.

Vehicle, as the term is applied to private entities, does not include a rail passenger car, railroad locomotive, railroad freight car, or railroad caroose, or other rail rolling stock described in section 242 of title III of the Act.

Wheelchair means a mobility aid belonging to any class of three or four-wheeled devices, usable indoors, designed for and used by individuals with mobility impairments, whether operated manually or powered. A “common wheelchair” is such a device which does not exceed 30 inches in width and 48 inches in length measured two inches above the ground, and does not weigh more than 600 pounds when occupied.

§ 37.5 Nondiscrimination.
(a) No entity shall discriminate against an individual with a disability in connection with the provision of transportation service.
(b) Notwithstanding the provision of any special transportation service to individuals with disabilities, an entity shall not, on the basis of disability, deny to any individual with a disability the opportunity to use the entity’s transportation service for the general public, if the individual is capable of using that service.
(c) An entity shall not require an individual with a disability to use designated priority seats, if the individual does not choose to use these seats.
(d) An entity shall not impose special charges, not authorized by this part, on individuals with disabilities, including individuals who use wheelchairs, for providing services required by this part or otherwise necessary to accommodate them.
(e) An entity shall not require that an individual with disabilities be accompanied by an attendant.
(f) Private entities that are primarily engaged in the business of transporting people and whose operations affect commerce shall not discriminate against any individual on the basis of disability in the full and equal enjoyment of specified transportation services. This obligation includes, with respect to the provision of transportation services, compliance with the requirements of the rules of the Department of Justice concerning eligibility criteria, making reasonable modifications, providing auxiliary aids and services, and removing barriers (28 CFR 36.301–36.306).
(g) An entity shall not refuse to serve an individual with a disability or require anything contrary to this part because its insurance company conditions coverage or rates on the absence of individuals with disabilities or requirements contrary to this part.
(h) It is not discrimination under this part for an entity to refuse to provide service to an individual with disabilities because that individual engages in violent, seriously disruptive, or illegal conduct. However, an entity shall not refuse to provide service to an individual with disabilities solely because the individual’s disability results in appearance or involuntary behavior that may offend, annoy, or inconvenience employees of the entity or other persons.

§ 37.7 Standards for accessible vehicles.
(a) For purposes of this part, a vehicle shall be considered to be readily accessible to and usable by individuals with disabilities if it meets the requirements of this part and the standards set forth in part 38 of this title.
(b)(1) For purposes of implementing the equivalent facilitation provision in §38.2 of this subtitle, the following parties may submit to the Administrator of the applicable operating administration a request for a determination of equivalent facilitation:
§ 37.9 Standards for accessible transportation facilities.

(a) For purposes of this part, a transportation facility shall be considered to be readily accessible to and usable by individuals with disabilities if it meets the requirements of this part and the standards set forth in appendix A to this part.

(b) Facility alterations begun before January 26, 1992, in a good faith effort to make a facility accessible to individuals with disabilities may be used to meet the key station requirements set forth in §§37.47 and 37.51 of this part,
Office of the Secretary of Transportation § 37.9

even if these alterations are not consistent with the standards set forth in appendix A to this part, if the modifications complied with the Uniform Federal Accessibility Standard (UFAS) (41 CFR part 101-19, subpart 101-19.6) or ANSI A117.1 (1980) (American National Standards Specification for Making Buildings and Facilities Accessible to and Usable by the Physically Handicapped). This paragraph applies only to alterations of individual elements and spaces and only to the extent that provisions covering those elements or spaces are contained in UFAS or ANSI A117.1, as applicable.

(c) Public entities shall ensure the construction of new bus stop pads are in compliance with section 10.2.1.(1) of appendix A to this part, to the extent construction specifications are within their control.

(d)(1) For purposes of implementing the equivalent facilitation provision in section 2.2 of appendix A to this part, the following parties may submit to the Administrator of the applicable operating administration a request for a determination of equivalent facilitation:

(i)(A) A public or private entity that provides transportation facilities subject to the provisions of subpart C this part, or other appropriate party with the concurrence of the Administrator;

(B) With respect to airport facilities, an entity that is an airport operator subject to the requirements of 49 CFR part 27 or regulations implementing the Americans with Disabilities Act, an air carrier subject to the requirements of 14 CFR part 382, or other appropriate party with the concurrence of the Administrator.

(ii) The manufacturer of a product or accessibility feature to be used in the facility of such entity to comply with this part.

(2) The requesting party shall provide the following information with its request:

(i) Entity name, address, contact person and telephone;

(ii) Specific provision of Appendix A to Part 37 concerning which the entity is seeking a determination of equivalent facilitation.

(iii) [Reserved]

(iv) Alternative method of compliance, with demonstration of how the alternative meets or exceeds the level of accessibility or usability of the vehicle provided in appendix A to this part; and

(v) Documentation of the public participation used in developing an alternative method of compliance.

(3) In the case of a request by a public entity that provides transportation facilities (including an airport operator), or a request by an air carrier with respect to airport facilities, the required public participation shall include the following:

(i) The entity shall contact individuals with disabilities and groups representing them in the community. Consultation with these individuals and groups shall take place at all stages of the development of the request for equivalent facilitation. All documents and other information concerning the request shall be available, upon request, to members of the public.

(ii) The entity shall make its proposed request available for public comment before the request is made final or transmitted to DOT. In making the request available for public review, the entity shall ensure that it is available, upon request, in accessible formats.

(iii) The entity shall sponsor at least one public hearing on the request and shall provide adequate notice of the hearing, including advertisement in appropriate media, such as newspapers of general and special interest circulation and radio announcements.

(4) In the case of a request by a manufacturer or a private entity other than an air carrier, the manufacturer or private entity shall consult, in person, in writing, or by other appropriate means, with representatives of national and local organizations representing people with those disabilities who would be affected by the request.

(5) A determination of compliance will be made by the Administrator of the concerned operating administration on a case-by-case basis, with the concurrence of the Assistant Secretary for Policy and International Affairs.

(6) Determinations of equivalent facilitation are made only with respect
§ 37.11

to transportation facilities, and pertain only to the specific situation concerning which the determination is made. Entities shall not cite these determinations as indicating that a product or method constitute equivalent facilities in situations other than those to which the determinations specifically pertain. Entities shall not claim that a determination of equivalent facilitation indicates approval or endorsement of any product or method by the Federal government, the Department of Transportation, or any of its operating administrations.

§ 37.11 Administrative enforcement.

(a) Recipients of Federal financial assistance from the Department of Transportation are subject to administrative enforcement of the requirements of this part under the provisions of 49 CFR part 27, subpart C.

(b) Public entities, whether or not they receive Federal financial assistance, also are subject to enforcement action as provided by the Department of Justice.

(c) Private entities, whether or not they receive Federal financial assistance, are also subject to enforcement action as provided in the regulations of the Department of Justice implementing title III of the ADA (28 CFR part 36).

[56 FR 45621, Sept. 6, 1991, as amended at 61 FR 25416, May 21, 1996]

§ 37.13 Effective date for certain vehicle specifications.

(a) The vehicle lift specifications identified in §§38.23(b)(6), 38.83(b)(6), 38.95(b)(6), and 38.125(b)(6) of this title apply to solicitations for vehicles under this part after January 25, 1992.

(b) The vehicle door height requirements for vehicles over 22 feet identified in §38.25(c) of this title apply to solicitations for vehicles under this part after January 25, 1992.

[56 FR 64215, Dec. 9, 1991]
(b) A private entity which purchases or leases new, used, or remanufactured vehicles, or remanufactures vehicles, for use, or in contemplation of use, in fixed route or demand responsive service under contract or other arrangement or relationship with a public entity, shall acquire accessible vehicles in all situations in which the public entity itself would be required to do so by this part.

(c) A public entity which enters into a contractual or other arrangement or relationship with a private entity to provide fixed route service shall ensure that the percentage of accessible vehicles operated by the public entity in its overall fixed route or demand responsive fleet is not diminished as a result.

§ 37.25 University transportation systems.

(a) Transportation services operated by private institutions of higher education are subject to the provisions of this part governing private entities not primarily engaged in the business of transporting people.

(b) Transportation systems operated by public institutions of higher education are subject to the provisions of this part governing public entities. If a public institution of higher education operates a fixed route system, the requirements of this part governing commuter bus service apply to that system.

§ 37.27 Transportation for elementary and secondary education systems.

(a) The requirements of this part do not apply to public school transportation.

(b) The requirements of this part do not apply to the transportation of school children to and from a private elementary or secondary school, and its school-related activities, if the school is providing transportation service to students with disabilities equivalent to that provided to students without disabilities. The test of equivalence is the same as that provided in § 37.105. If the school does not meet the requirement of this paragraph for exemption from the requirements of this part, it is subject to the requirements of this part for private entities not primarily engaged in transporting people.

§ 37.29 Private entities providing taxi service.

(a) Providers of taxi service are subject to the requirements of this part for private entities primarily engaged in the business of transporting people which provide demand responsive service.

(b) Providers of taxi service are not required to purchase or lease accessible automobiles. When a provider of taxi service purchases or leases a vehicle other than an automobile, the vehicle is required to be accessible unless the provider demonstrates equivalency as provided in § 37.105 of this part. A provider of taxi service is not required to purchase vehicles other than automobiles in order to have a number of accessible vehicles in its fleet.

(c) Private entities providing taxi service shall not discriminate against individuals with disabilities by actions including, but not limited to, refusing to provide service to individuals with disabilities who can use taxi vehicles, refusing to assist with the stowing of mobility devices, and charging higher fares or fees for carrying individuals with disabilities and their equipment than are charged to other persons.

§ 37.31 Vanpools.

Vanpool systems which are operated by public entities, or in which public entities own or purchase or lease the vehicles, are subject to the requirements of this part for demand responsive service for the general public operated by public entities. A vanpool system in this category is deemed to be providing equivalent service to individuals with disabilities if a vehicle that an individual with disabilities can use is made available to and used by a vanpool in which such an individual chooses to participate.
§ 37.33 Airport transportation systems.

(a) Transportation systems operated by public airport operators, which provide designated public transportation and connect parking lots and terminals or provide transportation among terminals, are subject to the requirements of this part for fixed route or demand responsive systems, as applicable, operated by public entities. Public airports which operate fixed route transportation systems are subject to the requirements of this part for commuter bus service operated by public entities. The provision by an airport of additional accommodations (e.g., parking spaces in a close-in lot) is not a substitute for meeting the requirements of this part.

(b) Fixed-route transportation systems operated by public airport operators between the airport and a limited number of destinations in the area it serves are subject to the provisions of this part for commuter bus systems operated by public entities.

(c) Private jitney or shuttle services that provide transportation between an airport and destinations in the area it serves in a route-deviation or other variable mode are subject to the requirements of this part for private entities primarily engaged in the business of transporting people. They may meet equivalency requirements by such means as sharing or pooling accessible vehicles among operators, in a way that ensures the provision of equivalent service.

§ 37.35 Supplemental service for other transportation modes.

(a) Transportation service provided by bus or other vehicle by an intercity commuter or rail operator, as an extension of or supplement to its rail service, and which connects an intercity rail station and limited other points, is subject to the requirements of this part for fixed route commuter bus service operated by a public entity.

§ 37.37 Other applications.

(a) A private entity does not become subject to the requirements of this part for public entities, because it receives an operating subsidy from, is regulated by, or is granted a franchise or permit to operate by a public entity.

(b) Shuttle systems and other transportation services operated by privately-owned hotels, car rental agencies, historical or theme parks, and other public accommodations are subject to the requirements of this part for private entities not primarily engaged in the business of transporting people. Either the requirements for demand responsive or fixed route service may apply, depending upon the characteristics of each individual system of transportation.

(c) Conveyances used by members of the public primarily for recreational purposes rather than for transportation (e.g., amusement park rides, ski lifts, or historic rail cars or trolleys operated in museum settings) are not subject to the requirements of this part. Such conveyances are subject to Department of Justice regulations implementing title II or title III of the ADA (28 CFR part 35 or 36), as applicable.

(d) Transportation services provided by an employer solely for its own employees are not subject to the requirements of this part. Such services are subject to the regulations of the Equal Employment Opportunity Commission under title I of the ADA (29 CFR part 1630) and, with respect to public entities, the regulations of the Department of Justice under title II of the ADA (28 CFR part 35).

(e) Transportation systems operated by private clubs or establishments exempted from coverage under title II of the Civil Rights Act of 1964 (42 U.S.C. 2000-a(e)) or religious organizations or entities controlled by religious organizations are not subject to the requirements of this part.

(f) If a parent private company is not primarily engaged in the business of transporting people, or is not a place of...
Office of the Secretary of Transportation § 37.43

public accommodation, but a subsidiary company or an operationally distinct segment of the company is primarily engaged in the business of transporting people, the transportation service provided by the subsidiary or segment is subject to the requirements of this part for private entities primarily engaged in the business of transporting people.

(g) High-speed rail systems operated by public entities are subject to the requirements of this part governing intercity rail systems.

(h) Private rail systems providing fixed route or specified public transportation service are subject to the requirements of §37.107 with respect to the acquisition of rail passenger cars. Such systems are subject to the requirements of the regulations of the Department of Justice implementing title III of the ADA (28 CFR part 36) with respect to stations and other facilities.

§ 37.39 [Reserved]

Subpart C—Transportation Facilities

§ 37.41 Construction of transportation facilities by public entities.

A public entity shall construct any new facility to be used in providing designated public transportation services so that the facility is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs. This requirement also applies to the construction of a new station for use in intercity or commuter rail transportation. For purposes of this section, a facility or station is "new" if its construction begins (i.e., issuance of notice to proceed) after January 25, 1992, or, in the case of intercity or commuter rail stations, after October 7, 1991.

§ 37.43 Alteration of transportation facilities by public entities.

(a)(1) When a public entity alters an existing facility or a part of an existing facility used in providing designated public transportation services in a way that affects or could affect the usability of the facility or part of the facility, the entity shall make the alterations (or ensure that the alterations are made) in such a manner, to the maximum extent feasible, that the altered portions of the facility are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, upon the completion of such alterations.

(2) When a public entity undertakes an alteration that affects or could affect the usability of or access to an area of a facility containing a primary function, the entity shall make the alteration in such a manner that, to the maximum extent feasible, the path of travel to the altered area and the bathrooms, telephones, and drinking fountains serving the altered area are readily accessible to and usable by individuals who use wheelchairs, upon completion of the alterations. Provided, that alterations to the path of travel, drinking fountains, telephones and bathrooms are not required to be made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, if the cost and scope of doing so would be disproportionate.

(3) The requirements of this paragraph also apply to the alteration of existing intercity or commuter rail stations by the responsible person for, owner of, or person in control of the station.

(4) The requirements of this section apply to any alteration which begins (i.e., issuance of notice to proceed or work order, as applicable) after January 25, 1992, or, in the case of intercity and commuter rail stations, after October 7, 1991.

(b) As used in this section, the phrase to the maximum extent feasible applies to the occasional case where the nature of an existing facility makes it impossible to comply fully with applicable accessibility standards through a planned alteration. In these circumstances, the entity shall provide the maximum physical accessibility feasible. Any altered features of the facility or portion of the facility that can be made accessible shall be made accessible. If providing accessibility to certain individuals with disabilities (e.g., those who use wheelchairs) would not be feasible, the facility shall be
§ 37.43  Made accessible to individuals with other types of disabilities (e.g., those who use crutches, those who have impaired vision or hearing, or those who have other impairments).

(c) As used in this section, a primary function is a major activity for which the facility is intended. Areas of transportation facilities that involve primary functions include, but are not necessarily limited to, ticket purchase and collection areas, passenger waiting areas, train or bus platforms, baggage checking and return areas and employment areas (except those involving non-occupiable spaces accessed only by ladders, catwalks, crawl spaces, very narrow passageways, or freight (non-passenger) elevators which are frequented only by repair personnel).

(d) As used in this section, a “path of travel” includes a continuous, unobstructed way of pedestrian passage by means of which the altered area may be approached, entered, and exited, and which connects the altered area with an exterior approach (including sidewalks, parking areas, and streets), an entrance to the facility, and other parts of the facility. The term also includes the restrooms, telephones, and drinking fountains serving the altered area. An accessible path of travel may include walks and sidewalks, curb ramps and other interior or exterior pedestrian ramps, clear floor paths through corridors, waiting areas, concourses, and other improved areas, parking access aisles, elevators and lifts, bridges, tunnels, or other passageways between platforms, or a combination of these and other elements.

(e) (1) Alterations made to provide an accessible path of travel to the altered area will be deemed disproportionate to the overall alteration when the cost exceeds 20 percent of the cost of the alteration to the primary function area (without regard to the costs of accessibility modifications).

(2) Costs that may be counted as expenditures required to provide an accessible path of travel include:

(i) Costs associated with providing an accessible entrance and an accessible route to the altered area (e.g., widening doorways and installing ramps);

(ii) Costs associated with making restrooms accessible (e.g., grab bars, enlarged toilet stalls, accessible faucet controls);

(iii) Costs associated with providing accessible telephones (e.g., relocation of phones to an accessible height, installation of amplification devices or TDDs);

(iv) Costs associated with relocating an inaccessible drinking fountain.

(f) (1) When the cost of alterations necessary to make a path of travel to the altered area fully accessible is disproportionate to the cost of the overall alteration, then such areas shall be made accessible to the maximum extent without resulting in disproportionate costs;

(2) In this situation, the public entity should give priority to accessible elements that will provide the greatest access, in the following order:

(i) An accessible entrance;

(ii) An accessible route to the altered area;

(iii) At least one accessible restroom for each sex or a single unisex restroom (where there are one or more restrooms);

(iv) Accessible telephones;

(v) Accessible drinking fountains;

(vi) When possible, other accessible elements (e.g., parking, storage, alarms).

(g) If a public entity performs a series of small alterations to the area served by a single path of travel rather than making the alterations as part of a single undertaking, it shall nonetheless be responsible for providing an accessible path of travel.

(h) (1) If an area containing a primary function has been altered without providing an accessible path of travel to that area, and subsequent alterations of that area, or a different area on the same path of travel, are undertaken within three years of the original alteration, the total cost of alteration to the primary function areas on that path of travel during the preceding three year period shall be considered in determining whether the cost of making that path of travel is disproportionate;

(2) For the first three years after January 26, 1992, only alterations undertaken between that date and the date of the alteration at issue shall be considered in determining if the cost of
providing accessible features is disproportionate to the overall cost of the alteration.

(3) Only alterations undertaken after January 26, 1992, shall be considered in determining if the cost of providing an accessible path of travel is disproportionate to the overall cost of the alteration.

§ 37.47 Key stations in light and rapid rail systems.

(a) Each public entity that provides designated public transportation by means of a light or rapid rail system shall make key stations on its system readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs. This requirement is separate from and in addition to requirements set forth in § 37.43 of this part.

(b) Each public entity shall determine which stations on its system are key stations. The entity shall identify key stations, using the planning and public participation process set forth in paragraph (d) of this section, and taking into consideration the following criteria:

(1) Stations where passenger boardings exceed average station passenger boardings on the rail system by at least fifteen percent, unless such a station is close to another accessible station;

(2) Transfer stations on a rail line or between rail lines;

(3) Major interchange points with other transportation modes, including stations connecting with major parking facilities, bus terminals, intercity or commuter rail stations, passenger vessel terminals, or airports;

(4) End stations, unless an end station is close to another accessible station; and

(5) Stations serving major activity centers, such as employment or government centers, institutions of higher education, hospitals or other major health care facilities, or other facilities that are major trip generators for individuals with disabilities.

(c)(1) Unless an entity receives an extension under paragraph (c)(2) of this section, the public entity shall achieve accessibility of key stations as soon as possible, but in no case later than July 26, 1993, except that an entity is not required to complete installation of detectable warnings required by section 10.3.2(2) of appendix A to this part until July 26, 1994.

(2) The FTA Administrator may grant an extension of this completion date for key station accessibility for a period up to July 26, 2020, provided that two-thirds of key stations are made accessible by July 26, 2010. Extensions may be granted as provided in paragraph (e) of this section.

(d) The public entity shall develop a plan for compliance for this section. The plan shall be submitted to the appropriate FTA regional office by July 26, 1992. (See appendix B to this part for list.)

(1) The public entity shall consult with individuals with disabilities affected by the plan. The public entity also shall hold at least one public hearing on the plan and solicit comments on it. The plan submitted to FTA shall document this public participation, including summaries of the consultation with individuals with disabilities and the comments received at the hearing and during the comment period. The plan also shall summarize the public entity’s responses to the comments and consultation.

(2) The plan shall establish milestones for the achievement of required accessibility of key stations, consistent with the requirements of this section.

(e) A public entity wishing to apply for an extension of the July 26, 1993, deadline for key station accessibility shall include a request for an extension with its plan submitted to FTA under paragraph (d) of this section. Extensions may be granted only with respect to key stations which need extraordinarily expensive structural changes to, or replacement of, existing facilities (e.g., installations of elevators, raising the entire passenger platform,
or alterations of similar magnitude and cost). Requests for extensions shall provide for completion of key station accessibility within the time limits set forth in paragraph (c) of this section. The FTA Administrator may approve, approve with conditions, modify, or disapprove any request for an extension.

[56 FR 45621, Sept. 6, 1991, as amended at 58 FR 63102, Nov. 30, 1993]

§ 37.49 Designation of responsible person(s) for intercity and commuter rail stations.

(a) The responsible person(s) designated in accordance with this section shall bear the legal and financial responsibility for making a key station accessible in the same proportion as determined under this section.

(b) In the case of a station more than fifty percent of which is owned by a public entity, the public entity is the responsible party.

(c) In the case of a station more than fifty percent of which is owned by a private entity the persons providing commuter or intercity rail service to the station are the responsible parties, in a proportion equal to the percentage of all passenger boardings at the station attributable to the service of each, over the entire period during which the station is made accessible.

(d) In the case of a station of which no entity owns more than fifty percent, the owners of the station (other than private entity owners) and persons providing intercity or commuter rail service to the station are the responsible persons.

(1) Half the responsibility for the station shall be assumed by the owner(s) of the station. The owners shall share this responsibility in proportion to their ownership interest in the station, over the period during which the station is made accessible.

(2) The person(s) providing commuter or intercity rail service to the station shall assume the other half of the responsibility. These persons shall share this responsibility for the station in a proportion equal to the percentage of all passenger boardings at the station attributable to the service of each, over the period during which the station is made accessible.

(e) Persons who must share responsibility for station accessibility under paragraphs (c) and (d) of this section may, by agreement, allocate their responsibility in a manner different from that provided in this section.

§ 37.51 Key stations in commuter rail systems.

(a) The responsible person(s) shall make key stations on its system readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs. This requirement is separate from and in addition to requirements set forth in §37.43 of this part.

(b) Each commuter authority shall determine which stations on its system are key stations. The commuter authority shall identify key stations, using the planning and public participation process set forth in paragraph (d) of this section, and taking into consideration the following criteria:

(1) Stations where passenger boardings exceed average station passenger boardings on the rail system by at least fifteen percent, unless such a station is close to another accessible station;

(2) Transfer stations on a rail line or between rail lines;

(3) Major interchange points with other transportation modes, including stations connecting with major parking facilities, bus terminals, intercity or commuter rail stations, passenger vessel terminals, or airports;

(4) End stations, unless an end station is close to another accessible station; and

(5) Stations serving major activity centers, such as employment or government centers, institutions of higher education, hospitals or other major health care facilities, or other facilities that are major trip generators for individuals with disabilities.

(c)(1) Except as provided in this paragraph, the responsible person(s) shall achieve accessibility of key stations as soon as possible, but in no case later than July 26, 1993, except that an entity is not required to complete installation of detectable warnings required

(a) The following agreements entered into in New York, New York, and Philadelphia, Pennsylvania, contain lists of key stations for the public utilities that are a party to those agreements for those service lines identified in the agreements. The identification of key stations under these agreements is deemed to be in compliance with the requirements of this Subpart:

(1) Settlement Agreement by and among Eastern Paralyzed Veterans Association, Inc., James J. Peters, Terrance Moakley, and Denise Figueroa, individually and as representatives of the class of all persons similarly situated (collectively, “the EPVA class representatives”); and Metropolitan Transportation Authority, New York City Transit Authority, and Manhattan and Bronx Surface Transit Operating Authority (October 4, 1984).

(2) Settlement Agreement by and between Eastern Paralyzed Veterans Association of Pennsylvania, Inc., and James J. Peters, individually; and Dudley R. Sykes, as Commissioner of the Philadelphia Department of Public Property, and his successors in office and the City of Philadelphia (collectively “the City”) and Southeastern Pennsylvania Transportation Authority (June 28, 1989).

(b) To comply with §§37.47 (b) and (d) or 37.51 (b) and (d) of this part, the entities named in the agreements are required to use their public participation and planning processes only to develop and submit to the FTA Administrator plans for timely completion of key station accessibility, as provided in this subpart.

(c) In making accessible the key stations identified under the agreements cited in this section, the entities named in the agreements are subject to the requirements of §37.9 of this part.
§ 37.55 Intercity rail station accessibility.
All intercity rail stations shall be made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, as soon as practicable, but in no event later than July 26, 2010. This requirement is separate from and in addition to requirements set forth in § 37.43 of this part.

§ 37.57 Required cooperation.
An owner or person in control of an intercity or commuter rail station shall provide reasonable cooperation to the responsible person(s) for that station with respect to the efforts of the responsible person to comply with the requirements of this subpart.

§ 37.59 Differences in accessibility completion dates.
Where different completion dates for accessible stations are established under this part for a station or portions of a station (e.g., extensions of different periods of time for a station which serves both rapid and commuter rail systems), accessibility to the following elements of the station shall be achieved by the earlier of the completion dates involved:
(a) Common elements of the station;
(b) Portions of the facility directly serving the rail system with the earlier completion date; and
(c) An accessible path from common elements of the station to portions of the facility directly serving the rail system with the earlier completion date.

§ 37.61 Public transportation programs and activities in existing facilities.
(a) A public entity shall operate a designated public transportation program or activity conducted in an existing facility so that, when viewed in its entirety, the program or activity is readily accessible to and usable by individuals with disabilities.
(b) This section does not require a public entity to make structural changes to existing facilities in order to make the facilities accessible by individuals who use wheelchairs, unless and to the extent required by § 37.43 or 37.51 of this part (with respect to key stations). Entities shall comply with other applicable accessibility requirements for such facilities.
(c) Public entities, with respect to facilities that, as provided in paragraph (b) of this section, are not required to be made accessible to individuals who use wheelchairs, are not required to provide to such individuals services made available to the general public at such facilities when the individuals could not utilize or benefit from the services.

§§ 37.63–37.69 [Reserved]

Subpart D—Acquisition of Accessible Vehicles By Public Entities

§ 37.71 Purchase or lease of new non-rail vehicles by public entities operating fixed route systems.
(a) Except as provided elsewhere in this section, each public entity operating a fixed route system making a solicitation after August 25, 1990, to purchase or lease a new bus or other new vehicle for use on the system, shall ensure that the vehicle is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.
(b) A public entity may purchase or lease a new bus that is not readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, if it applies for, and the FTA Administrator grants, a waiver as provided for in this section.
(c) Before submitting a request for such a waiver, the public entity shall hold at least one public hearing concerning the proposed request.
(d) The FTA Administrator may grant a request for such a waiver if the public entity demonstrates to the FTA Administrator’s satisfaction that—
(1) The initial solicitation for new buses made by the public entity specified that all new buses were to be lift-equipped and were to be otherwise accessible to and usable by individuals with disabilities;
(2) Hydraulic, electromechanical, or other lifts for such new buses could not be provided by any qualified lift manufacturer to the manufacturer of such
new buses in sufficient time to comply with the solicitation; and

(3) Any further delay in purchasing new buses equipped with such necessary lifts would significantly impair transportation services in the community served by the public entity.

(e) The public entity shall include with its waiver request a copy of the initial solicitation and written documentation from the bus manufacturer of its good faith efforts to obtain lifts in time to comply with the solicitation, and a full justification for the assertion that the delay in bus procurement needed to obtain a lift-equipped bus would significantly impair transportation services in the community. This documentation shall include a specific date at which the lifts could be supplied, copies of advertisements in trade publications and inquiries to trade associations seeking lifts, and documentation of the public hearing.

(f) Any waiver granted by the FTA Administrator under this section shall be subject to the following conditions:

(1) The waiver shall apply only to the particular bus delivery to which the waiver request pertains;

(2) The waiver shall include a termination date, which will be based on information concerning when lifts will become available for installation on the new buses the public entity is purchasing. Buses delivered after this date, even though procured under a solicitation to which a waiver applied, shall be equipped with lifts;

(3) Any bus obtained subject to the waiver shall be capable of accepting a lift, and the public entity shall install a lift as soon as one becomes available;

(4) Such other terms and conditions as the FTA Administrator may impose.

(g)(1) When the FTA Administrator grants a waiver under this section, he/she shall promptly notify the appropriate committees of Congress.

(2) If the FTA Administrator has reasonable cause to believe that a public entity fraudulently applied for a waiver under this section, the FTA Administrator shall:

(i) Cancel the waiver if it is still in effect; and

(ii) Take other appropriate action.

§ 37.73 Purchase or lease of used non-rail vehicles by public entities operating fixed route systems.

(a) Except as provided elsewhere in this section, each public entity operating a fixed route system purchasing or leasing, after August 25, 1990, a used bus or other used vehicle for use on the system, shall ensure that the vehicle is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(b) A public entity may purchase or lease a used vehicle for use on its fixed route system that is not readily accessible to and usable by individuals with disabilities if, after making demonstrated good faith efforts to obtain an accessible vehicle, it is unable to do so.

(c) Good faith efforts shall include at least the following steps:

(1) An initial solicitation for used vehicles specifying that all used vehicles are to be lift-equipped and otherwise accessible to and usable by individuals with disabilities, or, if an initial solicitation is not used, a documented communication so stating;

(2) A nationwide search for accessible vehicles, involving specific inquiries to used vehicle dealers and other transit providers; and

(3) Advertising in trade publications and contacting trade associations.

(d) Each public entity purchasing or leasing used vehicles that are not readily accessible to and usable by individuals with disabilities shall retain documentation of the specific good faith efforts it made for three years from the date the vehicles were purchased. These records shall be made available, on request, to the FTA Administrator and the public.

§ 37.75 Remanufacture of non-rail vehicles and purchase or lease of remanufactured non-rail vehicles by public entities operating fixed route systems.

(a) This section applies to any public entity operating a fixed route system which takes one of the following actions:

(1) After August 25, 1990, remanufactures a bus or other vehicle so as to extend its useful life for five years or
§ 37.77 Purchase or lease of new non-rail vehicles by public entities operating a demand responsive system for the general public.

(a) Except as provided in this section, a public entity operating a demand responsive system for the general public making a solicitation after August 25, 1990, to purchase or lease a new bus or other new vehicle for use on the system, shall ensure that the vehicle is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(b) If the system, when viewed in its entirety, provides a level of service to individuals with disabilities, including individuals who use wheelchairs, equivalent to the level of service it provides to individuals without disabilities, it may purchase new vehicles that are not readily accessible to and usable by individuals with disabilities.

(c) For purposes of this section, it shall be considered feasible to remanufacture a bus or other motor vehicle so as to be readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, unless an engineering analysis demonstrates that including accessibility features required by this part would have a significant adverse effect on the structural integrity of the vehicle.

(d) If a public entity operates a fixed route system, any segment of which is included on the National Register of Historic Places, and if making a vehicle of historic character used solely on such segment readily accessible to and usable by individuals with disabilities would significantly alter the historic character of such vehicle, the public entity has only to make (or purchase or lease a remanufactured vehicle with) those modifications to make the vehicle accessible which do not alter the historic character of such vehicle, in consultation with the National Register of Historic Places.

(e) A public entity operating a fixed route system as described in paragraph (d) of this section may apply in writing to the FTA Administrator for a determination of the historic character of the vehicle. The FTA Administrator shall refer such requests to the National Register of Historic Places, and shall rely on its advice in making determinations of the historic character of the vehicle.
program office a certificate that it provides equivalent service meeting the standards of paragraph (c) of this section. Public entities operating demand responsive service receiving funds under any other section of the FT Act shall file the certificate with the appropriate FTA regional office. A public entity which does not receive FTA funds shall make such a certificate and retain it in its files, subject to inspection on request of FTA. All certificates under this paragraph may be made and filed in connection with a particular procurement or in advance of a procurement; however, no certificate shall be valid for more than one year. A copy of the required certificate is found in appendix C to this part.

(e) The waiver mechanism set forth in §37.71(b)-(g) (unavailability of lifts) of this subpart shall also be available to public entities operating a demand responsive system for the general public.

§ 37.79 Purchase or lease of new rail vehicles by public entities operating rapid or light rail systems.

Each public entity operating a rapid or light rail system making a solicitation after August 25, 1990, to purchase or lease a new rapid or light rail vehicle for use on the system shall ensure that the vehicle is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

§ 37.81 Purchase or lease of used rail vehicles by public entities operating rapid or light rail systems.

(a) Except as provided elsewhere in this section, each public entity operating a rapid or light rail system which, after August 25, 1990, purchases or leases a used rapid or light rail vehicle for use on the system shall ensure that the vehicle is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(b) A public entity may purchase or lease a used rapid or light rail vehicle for use on its rapid or light rail system that is not readily accessible to and usable by individuals if, after making demonstrated good faith efforts to obtain an accessible vehicle, it is unable to do so.

(c) Good faith efforts shall include at least the following steps:

(1) The initial solicitation for used vehicles made by the public entity specifying that all used vehicles were to be accessible to and usable by individuals with disabilities, or, if a solicitation is not used, a documented communication so stating;

(2) A nationwide search for accessible vehicles, involving specific inquiries to manufacturers and other transit providers; and

(3) Advertising in trade publications and contacting trade associations.

(d) Each public entity purchasing or leasing used rapid or light rail vehicles that are not readily accessible to and usable by individuals with disabilities shall retain documentation of the specific good faith efforts it made for three years from the date the vehicles were purchased. These records shall be made available, on request, to the FTA Administrator and the public.

§ 37.83 Remanufacture of rail vehicles and purchase or lease of remanufactured rail vehicles by public entities operating rapid or light rail systems.

(a) This section applies to any public entity operating a rapid or light rail system which takes one of the following actions:

(1) After August 25, 1990, remanufactures a light or rapid rail vehicle so as to extend its useful life for five years or more or makes a solicitation for such remanufacturing;

(2) Purchases or leases a light or rapid rail vehicle which has been remanufactured so as to extend its useful life for five years or more, where the purchase or lease occurs after August 25, 1990, and during the period in which the useful life of the vehicle is extended.

(b) Vehicles acquired through the actions listed in paragraph (a) of this section shall, to the maximum extent feasible, be readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(c) For purposes of this section, it shall be considered feasible to remanufacture a rapid or light rail vehicle so
§ 37.85 Purchase or lease of new intercity and commuter rail cars.

Amtrak or a commuter authority making a solicitation after August 25, 1990, to purchase or lease a new intercity or commuter rail car for use on the system shall ensure that the vehicle is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

§ 37.87 Purchase or lease of used intercity and commuter rail cars.

(a) Except as provided elsewhere in this section, Amtrak or a commuter authority purchasing or leasing a used intercity or commuter rail car after August 25, 1990, shall ensure that the car is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(b) Amtrak or a commuter authority may purchase or lease a used intercity or commuter rail car that is not readily accessible to and usable by individuals if, after making demonstrated good faith efforts to obtain an accessible vehicle, it is unable to do so.

(c) Good faith efforts shall include at least the following steps:

(1) An initial solicitation for used vehicles specifying that all used vehicles accessible to and usable by individuals with disabilities;

(2) A nationwide search for accessible vehicles, involving specific inquiries to used vehicle dealers and other transit providers; and

(3) Advertising in trade publications and contacting trade associations.

(d) When Amtrak or a commuter authority leases a used intercity or commuter rail car for a period of seven days or less, Amtrak or the commuter authority may make and document good faith efforts as provided in this paragraph instead of in the ways provided in paragraph (c) of this section:

(1) By having and implementing, in its agreement with any intercity railroad or commuter authority that serves as a source of used intercity or commuter rail cars for a lease of seven days or less, a provision requiring that the lessor provide all available accessible rail cars before providing any inaccessible rail cars.

(2) By documenting that, when there is more than one source of intercity or commuter rail cars for a lease of seven days or less, the lessee has obtained all available accessible intercity or commuter rail cars from all sources before obtaining inaccessible intercity or commuter rail cars from any source.

(e) Amtrak and commuter authorities purchasing or leasing used intercity or commuter rail cars that are not readily accessible to and usable by individuals with disabilities shall retain documentation of the specific good faith efforts that were made for three years from the date the cars were purchased. These records shall be made available, on request, to the Federal Railroad Administration or FTA Administrator, as applicable. These records shall be made available to the public, on request.

[56 FR 45621, Sept. 6, 1991, as amended at 58 FR 62102, Nov. 30, 1993]
§ 37.93 One car per train rule.

(a) The definition of accessible for purposes of meeting the one car per train rule is spelled out in the applicable subpart for each transportation system type in part 38 of this title.

(b) Each person providing intercity rail service and each commuter rail authority shall ensure that, as soon as practicable, but in no event later than July 26, 1995, that each train has one car that is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(c) Each public entity providing light or rapid rail service shall ensure that each train, consisting of two or more vehicles, includes at least one car that is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.
§ 37.95 Ferries and other passenger vessels operated by public entities.

[Reserved]

§§ 37.97–37.99 [Reserved]

Subpart E—Acquisition of Accessible Vehicles By Private Entities

§ 37.101 Purchase or lease of vehicles by private entities not primarily engaged in the business of transporting people.

(a) Application. This section applies to all purchases or leases of vehicles by private entities which are not primarily engaged in the business of transporting people, in which a solicitation for the vehicle is made after August 25, 1990.

(b) Fixed Route System. Vehicle Capacity Over 16. If the entity operates a fixed route system and purchases or leases a vehicle with a seating capacity of over 16 passengers (including the driver) for use on the system, it shall ensure that the vehicle is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(c) Fixed Route System. Vehicle Capacity of 16 or Fewer. If the entity operates a fixed route system and purchases or leases a vehicle with a seating capacity of 16 or fewer passengers (including the driver) for use on the system, it shall ensure that the vehicle is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, unless the system, when viewed in its entirety, meets the standard for equivalent service of § 37.105 of this part.

(d) Demand Responsive System, Vehicle Capacity Over 16. If the entity operates a demand responsive system, and purchases or leases a vehicle with a seating capacity of over 16 passengers (including the driver) for use on the system, it shall ensure that the vehicle is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, unless the system, when viewed in its entirety, meets the standard for equivalent service of § 37.105 of this part.

(e) Demand Responsive System, Vehicle Capacity of 16 or Fewer. Entities providing demand responsive transportation covered under this section are not specifically required to ensure that new vehicles with seating capacity of 16 or fewer are accessible to individuals with wheelchairs. These entities are required to ensure that their systems, when viewed in their entirety, meet the equivalent service requirements of §§ 37.171 and 37.105, regardless of whether or not the entities purchase a new vehicle.

§ 37.103 Purchase or lease of new non-rail vehicles by private entities primarily engaged in the business of transporting people.

(a) Application. This section applies to all acquisitions of new vehicles by private entities which are primarily engaged in the business of transporting people and whose operations affect commerce, in which a solicitation for the vehicle is made (except as provided in paragraph (d) of this section) after August 25, 1990.

(b) Fixed route systems. If the entity operates a fixed route system, and purchases or leases a new vehicle other than an automobile, a van with a seating capacity of less than eight persons (including the driver), or an over-the-road bus, it shall ensure that the vehicle is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(c) Demand responsive systems. If the entity operates a demand responsive system, and purchases or leases a new vehicle other than an automobile, a van with a seating capacity of less than eight persons (including the driver), or an over-the-road bus, it shall ensure that the vehicle is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, unless the system, when viewed in its entirety, meets the standard for equivalent service of § 37.105 of this part.

(d) Vans with a capacity of fewer than 8 persons. If the entity operates either a fixed route or demand responsive system, and purchases or leases a new van with a seating capacity of fewer than
Office of the Secretary of Transportation

§ 37.107 Acquisition of passenger rail cars by private entities primarily engaged in the business of transporting people.

(a) A private entity which is primarily engaged in the business of transporting people and whose operations affect commerce, which makes a solicitation after February 25, 1992, to purchase or lease a new rail passenger car to be used in providing specified public transportation, shall ensure that the car is readily accessible to, and usable by, individuals with disabilities, including individuals who use wheelchairs. The accessibility standards in part 38 of this title which apply depend upon the type of service in which the car will be used.

(b) Except as provided in paragraph (c) of this section, a private entity which is primarily engaged in transporting people and whose operations affect commerce, which remanufactures a rail passenger car to be used in providing specified public transportation to extend its useful life for ten years or more, or purchases or leases such a remanufactured rail car, shall ensure that the rail car, to the maximum extent feasible, is made readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs. For purposes of this paragraph, it shall be considered feasible to remanufacture a rail passenger car to be readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs, unless an engineering analysis demonstrates that doing so would have a significant adverse effect on the structural integrity of the car.

(c) Compliance with paragraph (b) of this section is not required to the extent that it would significantly alter the historic or antiquated character of a historic or antiquated rail passenger car, or a rail station served exclusively by such cars, or would result in the violation of any rule, regulation, standard or order issued by the Secretary under the Federal Railroad Safety Act of 1970. For purposes of this section, a historic or antiquated rail passenger car means a rail passenger car—

(1) Which is not less than 30 years old at the time of its use for transporting individuals;
(2) The manufacturer of which is no longer in the business of manufacturing rail passenger cars; and
(3) Which—
(i) Has a consequential association with events or persons significant to the past; or
(ii) Embodies, or is being restored to embody, the distinctive characteristics of a type of rail passenger car used in the past, or to represent a time period which has passed.
§ 37.109 Ferries and other passenger vessels operated by private entities. [Reserved]

§§ 37.111—37.119 [Reserved]

Subpart F—Paratransit as a Complement to Fixed Route Service

§ 37.121 Requirement for comparable complementary paratransit service.

(a) Except as provided in paragraph (c) of this section, each public entity operating a fixed route system shall provide paratransit or other special service to individuals with disabilities that is comparable to the level of service provided to individuals without disabilities who use the fixed route system.

(b) To be deemed comparable to fixed route service, a complementary paratransit system shall meet the requirements of §§ 37.123-37.133 of this subpart. The requirement to comply with § 37.131 may be modified in accordance with the provisions of this subpart relating to undue financial burden.

(c) Requirements for complementary paratransit do not apply to commuter bus, commuter rail, or intercity rail systems.

§ 37.123 ADA paratransit eligibility: Standards.

(a) Public entities required by § 37.121 of this subpart to provide complementary paratransit service shall provide the service to the ADA paratransit eligible individuals described in paragraph (e) of this section.

(b) If an individual meets the eligibility criteria of this section with respect to some trips but not others, the individual shall be ADA paratransit eligible only for those trips for which he or she meets the criteria.

(c) Individuals may be ADA paratransit eligible on the basis of a permanent or temporary disability.

(d) Public entities may provide complementary paratransit service to persons other than ADA paratransit eligible individuals. However, only the cost of service to ADA paratransit eligible individuals may be considered in a public entity’s request for an undue financial burden waiver under §§ 37.151-37.155 of this part.

(e) The following individuals are ADA paratransit eligible:

(1) Any individual with a disability who is unable, as the result of a physical or mental impairment (including a vision impairment), and without the assistance of another individual (except the operator of a wheelchair lift or other boarding assistance device), to board, ride, or disembark from any vehicle on the system which is readily accessible to and usable individuals with disabilities.

(2) Any individual with a disability who needs the assistance of a wheelchair lift or other boarding assistance device and is able, with such assistance, to board, ride and disembark from any vehicle which is readily accessible to and usable by individuals with disabilities if the individual wants to travel on a route on the system during the hours of operation of the system at a time, or within a reasonable period of such time, when such a vehicle is not being used to provide designated public transportation on the route.

(i) An individual is eligible under this paragraph with respect to travel on an otherwise accessible route on which the boarding or disembarking location which the individual would use is one at which boarding or disembarking from the vehicle is precluded as provided in § 37.167(g) of this part.

(ii) An individual using a common wheelchair is eligible under this paragraph if the individual’s wheelchair cannot be accommodated on an existing vehicle (e.g., because the vehicle’s lift does not meet the standards of part 38 of this title), even if that vehicle is accessible to other individuals with disabilities and their mobility wheelchairs.

(iii) With respect to rail systems, an individual is eligible under this paragraph if the individual could use an accessible rail system, but—

(A) There is not yet one accessible car per train on the system; or

(B) Key stations have not yet been made accessible.

(3) Any individual with a disability who has a specific impairment-related
condition which prevents such individual from traveling to a boarding location or from a disembarking location on such system.

(i) Only a specific impairment-related condition which prevents the individual from traveling to a boarding location or from a disembarking location is a basis for eligibility under this paragraph. A condition which makes traveling to boarding location or from a disembarking location more difficult for a person with a specific impairment-related condition than for an individual who does not have the condition, but does not prevent the travel, is not a basis for eligibility under this paragraph.

(ii) Architectural barriers not under the control of the public entity providing fixed route service and environmental barriers (e.g., distance, terrain, weather) do not, standing alone, form a basis for eligibility under this paragraph. The interaction of such barriers with an individual's specific impairment-related condition may form a basis for eligibility under this paragraph, if the effect is to prevent the individual from traveling to a boarding location or from a disembarking location.

(f) Individuals accompanying an ADA paratransit eligible individual shall be provided service as follows:

(1) One other individual accompanying the ADA paratransit eligible individual shall be provided service—

(i) If the ADA paratransit eligible individual is traveling with a personal care attendant, the entity shall provide service to one other individual in addition to the attendant who is accompanying the eligible individual;

(ii) A family member or friend is regarded as a person accompanying the eligible individual, and not as a personal care attendant, unless the family member or friend registered is acting in the capacity of a personal care attendant;

(2) Additional individuals accompanying the ADA paratransit eligible individual shall be provided service, provided that space is available for them on the paratransit vehicle carrying the ADA paratransit eligible individual and that transportation of the additional individuals will not result in a denial of service to ADA paratransit eligible individuals;

(3) In order to be considered as “accompanying” the eligible individual for purposes of this paragraph (f), the other individual(s) shall have the same origin and destination as the eligible individual.

§37.125 ADA paratransit eligibility: Process.

Each public entity required to provide complementary paratransit service by §37.121 of this part shall establish a process for determining ADA paratransit eligibility.

(a) The process shall strictly limit ADA paratransit eligibility to individuals specified in §37.123 of this part.

(b) All information about the process, materials necessary to apply for eligibility, and notices and determinations concerning eligibility shall be made available in accessible formats, upon request.

(c) If, by a date 21 days following the submission of a complete application, the entity has not made a determination of eligibility, the applicant shall be treated as eligible and provided service until and unless the entity denies the application.

(d) The entity’s determination concerning eligibility shall be in writing. If the determination is that the individual is ineligible, the determination shall state the reasons for the finding.

(e) The public entity shall provide documentation to each eligible individual stating that he or she is “ADA Paratransit Eligible.” The documentation shall include the name of the eligible individual, the name of the transit provider, the telephone number of the entity’s paratransit coordinator, an expiration date for eligibility, and any conditions or limitations on the individual’s eligibility including the use of a personal care attendant.

(f) The entity may require recertification of the eligibility of ADA paratransit eligible individuals at reasonable intervals.

(g) The entity shall establish an administrative appeal process through which individuals who are denied eligibility can obtain review of the denial.
§ 37.127

(1) The entity may require that an appeal be filed within 60 days of the denial of an individual’s application.

(2) The process shall include an opportunity to be heard and to present information and arguments, separation of functions (i.e., a decision by a person not involved with the initial decision to deny eligibility), and written notification of the decision, and the reasons for it.

(3) The entity is not required to provide paratransit service to the individual pending the determination on appeal. However, if the entity has not made a decision within 30 days of the completion of the appeal process, the entity shall provide paratransit service from that time until and unless a decision to deny the appeal is issued.

(h) The entity may establish an administrative process to suspend, for a reasonable period of time, the provision of complementary paratransit service to ADA eligible individuals who establish a pattern or practice of missing scheduled trips.

(1) Trips missed by the individual for reasons beyond his or her control (including, but not limited to, trips which are missed due to operator error) shall not be a basis for determining that such a pattern or practice exists.

(2) Before suspending service, the entity shall take the following steps:

(i) Notify the individual in writing that the entity proposes to suspend service, citing with specificity the basis of the proposed suspension and setting forth the proposed sanction.

(ii) Provide the individual an opportunity to be heard and to present information and arguments;

(iii) Provide the individual with written notification of the decision and the reasons for it.

(3) The appeals process of paragraph (g) of this section is available to an individual on whom sanctions have been imposed under this paragraph. The sanction is stayed pending the outcome of the appeal.

(i) In applications for ADA paratransit eligibility, the entity may require the applicant to indicate whether or not he or she travels with a personal care attendant.

§ 37.127 Complementary paratransit service for visitors.

(a) Each public entity required to provide complementary paratransit service under § 37.121 of this part shall make the service available to visitors as provided in this section.

(b) For purposes of this section, a visitor is an individual with disabilities who does not reside in the jurisdiction(s) served by the public entity or other entities with which the public entity provides coordinated complementary paratransit service within a region.

(c) Each public entity shall treat as eligible for its complementary paratransit service all visitors who present documentation that they are ADA paratransit eligible, under the criteria of § 37.125 of this part, in the jurisdiction in which they reside.

(d) With respect to visitors with disabilities who do not present such documentation, the public entity may require the documentation of the individual’s place of residence and, if the individual’s disability is not apparent, of his or her disability. The entity shall provide paratransit service to individuals with disabilities who qualify as visitors under paragraph (b) of this section. The entity shall accept a certification by such individuals that they are unable to use fixed route transit.

(e) A public entity shall make the service to a visitor required by this section available for any combination of 21 days during any 365-day period beginning with the visitor’s first use of the service during such 365-day period. In no case shall the public entity require a visitor to apply for or receive eligibility certification from the public entity before receiving the service required by this section.

§ 37.129 Types of service.

(a) Except as provided in this section, complementary paratransit service for ADA paratransit eligible persons shall be origin-to-destination service.

(b) Complementary paratransit service for ADA paratransit eligible persons described in § 37.123(e)(2) of this part may also be provided by on-call...
bus service or paratransit feeder service to an accessible fixed route, where such service enables the individual to use the fixed route bus system for his or her trip.

(c) Complementary paratransit service for ADA eligible persons described in §37.123(e)(3) of this part also may be provided by paratransit feeder service to and/or from an accessible fixed route.

§ 37.131 Service criteria for complementary paratransit.

The following service criteria apply to complementary paratransit required by §37.121 of this part.

(a) Service Area—(1) Bus. (i) The entity shall provide complementary paratransit service to origins and destinations within corridors with a width of three-fourths of a mile on each side of each fixed route. The corridor shall include an area with a three-fourths of a mile radius at the ends of each fixed route.

(ii) Within the core service area, the entity also shall provide service to small areas not inside any of the corridors but which are surrounded by corridors.

(iii) Outside the core service area, the entity may designate corridors with widths from three-fourths of a mile up to one and one half miles on each side of a fixed route, based on local circumstances.

(iv) For purposes of this paragraph, the core service area is that area in which corridors with a width of three-fourths of a mile on each side of each fixed route merge together such that, with few and small exceptions, all origins and destinations within the area would be served.

(b) Rail. (i) For rail systems, the service area shall consist of a circle with a radius of ¾ of a mile around each station.

(ii) At end stations and other stations in outlying areas, the entity may designate circles with radii of up to 1½ miles as part of its service area, based on local circumstances.

(c) Jurisdictional boundaries. Notwithstanding any other provision of this paragraph, an entity is not required to provide paratransit service in an area outside the boundaries of the jurisdiction(s) in which it operates, if the entity does not have legal authority to operate in that area. The entity shall take all practicable steps to provide paratransit service to any part of its service area.

(b) Response time. The entity shall schedule and provide paratransit service to any ADA paratransit eligible person at any requested time on a particular day in response to a request for service made the previous day. Reservations may be taken by reservation agents or by mechanical means.

(1) The entity shall make reservation service available during at least all normal business hours of the entity's administrative offices, as well as during times, comparable to normal business hours, on a day when the entity's offices are not open before a service day.

(2) The entity may negotiate pickup times with the individual, but the entity shall not require an ADA paratransit eligible individual to schedule a trip to begin more than one hour before or after the individual's desired departure time.

(3) The entity may use real-time scheduling in providing complementary paratransit service.

(4) The entity may permit advance reservations to be made up to 14 days in advance of an ADA paratransit eligible individual's desired trips. When an entity proposes to change its reservations system, it shall comply with the public participation requirements equivalent to those of §37.131(b) and (c).

(c) Fares. The fare for a trip charged to an ADA paratransit eligible user of the complementary paratransit service shall not exceed twice the fare that would be charged to an individual paying full fare (i.e., without regard to discounts) for a trip of similar length, at a similar time of day, on the entity's fixed route system.

(1) In calculating the full fare that would be paid by an individual using the fixed route system, the entity may include transfer and premium charges applicable to a trip of similar length, at a similar time of day, on the fixed route system.

(2) The fares for individuals accompanying ADA paratransit eligible individuals, who are provided service under
§ 37.133 Subscription service.

(a) This part does not prohibit the use of subscription service by public entities as part of a complementary paratransit system, subject to the limitations in this section.

(b) Subscription service may not absorb more than fifty percent of the number of trips available at a given time of day, unless there is non-subscription capacity.

(c) Notwithstanding any other provision of this section, the entity may establish waiting lists or other capacity constraints and trip purpose restrictions or priorities for participation in the subscription service only.

§ 37.135 Submission of paratransit plan.

(a) General. Each public entity operating fixed route transportation service, which is required by §37.121 to provide complementary paratransit service, shall develop a paratransit plan.

(b) Initial submission. Except as provided in §37.141 of this part, each entity shall submit its initial plan for compliance with the complementary paratransit service provision by January 26, 1992, to the appropriate location identified in paragraph (f) of this section.

(c) Annual Updates. Except as provided in this paragraph, each entity shall submit an annual update to its plan on January 26 of each succeeding year.

(1) If an entity has met and is continuing to meet all requirements for complementary paratransit in §§37.121-37.133 of this part, the entity may submit to FTA an annual certification of continued compliance in lieu of a plan update. Entities that have submitted a joint plan under §37.141 may submit a joint certification under this paragraph. The requirements of §§37.137 (a) and (b), 37.138 and 37.139 do not apply when a certification is submitted under this paragraph.

(2) In the event of any change in circumstances that results in an entity which has submitted a certification of

§ 37.133 (f) of this part, shall be the same as for the ADA paratransit eligible individuals they are accompanying.

(3) A personal care attendant shall not be charged for complementary paratransit service.

(4) The entity may charge a fare higher than otherwise permitted by this paragraph to a social service agency or other organization for agency trips (i.e., trips guaranteed to the organization).

(d) Trip purpose restrictions. The entity shall not impose restrictions or priorities based on trip purpose.

(e) Hours and days of service. The complementary paratransit service shall be available throughout the same hours and days as the entity’s fixed route service.

(f) Capacity constraints. The entity shall not limit the availability of complementary paratransit service to ADA paratransit eligible individuals by any of the following:

(1) Restrictions on the number of trips an individual will be provided;

(2) Waiting lists for access to the service; or

(3) Any operational pattern or practice that significantly limits the availability of service to ADA paratransit eligible persons.

(i) Such patterns or practices include, but are not limited to, the following:

(A) Substantial numbers of significantly untimely pickups for initial or return trips;

(B) Substantial numbers of trip denials or missed trips;

(C) Substantial numbers of trips with excessive trip lengths.

(ii) Operational problems attributable to causes beyond the control of the entity (including, but not limited to, weather or traffic conditions affecting all vehicular traffic that were not anticipated at the time a trip was scheduled) shall not be a basis for determining that such a pattern or practice exists.

(g) Additional service. Public entities may provide complementary paratransit service to ADA paratransit eligible individuals exceeding that provided for in this section. However, only the cost of service provided for in this section may be considered in a public entity’s request for an undue financial burden waiver under §§37.151-37.155 of this part.

§ 37.137 Paratransit plan development.

(a) Survey of existing services. Each submitting entity shall survey the area to be covered by the plan to identify any person or entity (public or private) which provides a paratransit or other special transportation service for ADA paratransit eligible individuals in the service area to which the plan applies.

(b) Public participation. Each submitting entity shall ensure public participation in the development of its paratransit plan, including at least the following:

(1) Outreach. Each submitting entity shall solicit participation in the development of its plan by the widest range of persons anticipated to use its paratransit service. Each entity shall develop contacts, mailing lists and other appropriate means for notification of opportunities to participate in the development of the paratransit plan;

(2) Consultation with individuals with disabilities. Each entity shall contact individuals with disabilities and groups representing them in the community. Consultation shall begin at an early stage in the plan development and should involve persons with disabilities in all phases of plan development. All documents and other information concerning the planning procedure and the provision of service shall be available, upon request, to members of the public, except where disclosure would be an unwarranted invasion of personal privacy;

(3) Opportunity for public comment. The submitting entity shall make its plan available for review before the plan is finalized. In making the plan available for public review, the entity shall ensure that the plan is available upon request in accessible formats;

(4) Public hearing. The entity shall sponsor at a minimum one public hearing and shall provide adequate notice of the hearing, including advertisement in appropriate media, such as newspapers of general and special interest circulation and radio announcements; and

(5) Special requirements. If the entity intends to phase-in its paratransit plan.
service over a multi-year period, or request a waiver based on undue financial burden, the public hearing shall afford the opportunity for interested citizens to express their views concerning the phase-in, the request, and which service criteria may be delayed in implementation.

(c) Ongoing requirement. The entity shall create an ongoing mechanism for the participation of individuals with disabilities in the continued development and assessment of services to persons with disabilities. This includes, but is not limited to, the development of the initial plan, any request for an undue financial burden waiver, and each annual submission.

§ 37.139 Plan contents.

Each plan shall contain the following information:

(a) Identification of the entity or entities submitting the plan, specifying for each—

(1) Name and address; and

(2) Contact person for the plan, with telephone number and facsimile telephone number (FAX), if applicable.

(b) A description of the fixed route system as of January 26, 1992 (or subsequent year for annual updates), including—

(1) A description of the service area, route structure, days and hours of service, fare structure, and population served. This includes maps and tables, if appropriate;

(2) The total number of vehicles (bus, van, or rail) operated in fixed route service (including contracted service), and percentage of accessible vehicles and percentage of routes accessible to and usable by persons with disabilities, including persons who use wheelchairs;

(3) Any other information about the fixed route service that is relevant to establishing the basis for comparability of fixed route and paratransit service.

(c) A description of existing paratransit services, including:

(1) An inventory of service provided by the public entity submitting the plan;

(2) An inventory of service provided by other agencies or organizations, which may in whole or in part be used to meet the requirement for complementary paratransit service; and

(3) A description of the available paratransit services in paragraphs (c)(2) and (c)(3) of this section as they relate to the service criteria described in §37.131 of this part of service area, response time, fares, restrictions on trip purpose, hours and days of service, and capacity constraints; and to the requirements of ADA paratransit eligibility.

(d) A description of the plan to provide comparable paratransit, including:

(1) An estimate of demand for comparable paratransit service by ADA eligible individuals and a brief description of the demand estimation methodology used;

(2) An analysis of differences between the paratransit service currently provided and what is required under this part by the entity(ies) submitting the plan and other entities, as described in paragraph (c) of this section;

(3) A brief description of planned modifications to existing paratransit and fixed route service and the new paratransit service planned to comply with the ADA paratransit service criteria;

(4) A description of the planned comparable paratransit service as it relates to each of the service criteria described in §37.131 of this part—service area, absence of restrictions or priorities based on trip purpose, response time, fares, hours and days of service, and lack of capacity constraints. If the paratransit plan is to be phased in, this paragraph shall be coordinated with the information being provided in paragraphs (d)(5) and (d)(6) of this paragraph;

(5) A timetable for implementing comparable paratransit service, with a specific date indicating when the planned service will be completely operational. In no case may full implementation be completed later than January 26, 1997. The plan shall include milestones for implementing phases of the plan, with progress that can be objectively measured yearly;

(6) A budget for comparable paratransit service, including capital and operating expenditures over five years.

(e) A description of the process used to certify individuals with disabilities.
as ADA paratransit eligible. At a minimum, this must include—

(1) A description of the application and certification process, including—

(i) The availability of information about the process and application materials in inaccessible formats;

(ii) The process for determining eligibility according to the provisions of §§37.123–37.125 of this part and notifying individuals of the determination made;

(iii) The entity’s system and timetable for processing applications and allowing presumptive eligibility; and

(iv) The documentation given to eligible individuals.

(2) A description of the administrative appeals process for individuals denied eligibility.

(3) A policy for visitors, consistent with §37.127 of this part.

(f) Description of the public participation process including—

(1) Notice given of opportunity for public comment, the date(s) of completed public hearing(s), availability of the plan in accessible formats, outreach efforts, and consultation with persons with disabilities.

(2) A summary of significant issues raised during the public comment period, along with a response to significant comments and discussion of how the issues were resolved.

(g) Efforts to coordinate service with other entities subject to the complementary paratransit requirements of this part which have overlapping or contiguous service areas or jurisdictions.

(h) The following endorsements or certifications:

(1) A resolution adopted by the board of the entity authorizing the plan, as submitted. If more than one entity is submitting the plan there must be an authorizing resolution from each board. If the entity does not function with a board, a statement shall be submitted by the entity’s chief executive;

(2) In urbanized areas, certification by the Metropolitan Planning Organization (MPO) that it has reviewed the plan and that the plan is in conformance with the transportation plan developed under the Federal Transit/Federal Highway Administration joint planning regulation (49 CFR part 613 and 23 CFR part 450). In a service area which is covered by more than one MPO, each applicable MPO shall certify conformity of the entity’s plan. The provisions of this paragraph do not apply to non-FTA recipients;

(3) A certification that the survey of existing paratransit service was conducted as required in §37.137(a) of this part;

(4) To the extent service provided by other entities is included in the entity’s plan for comparable paratransit service, the entity must certify that:

(i) ADA paratransit eligible individuals have access to the service;

(ii) The service is provided in the manner represented; and

(iii) Efforts will be made to coordinate the provision of paratransit service by other providers.

(i) A request for a waiver based on undue financial burden, if applicable. The waiver request should include information sufficient for FTA to consider the factors in §37.155 of this part. If a request for an undue financial burden waiver is made, the plan must include a description of additional paratransit services that would be provided to achieve full compliance with the requirement for comparable paratransit in the event the waiver is not granted, and the timetable for the implementation of these additional services.

(j) Annual plan updates. (1) The annual plan updates submitted January 26, 1993, and annually thereafter, shall include information necessary to update the information requirements of this section. Information submitted annually must include all significant changes and revisions to the timetable for implementation;

(2) If the paratransit service is being phased in over more than one year, the entity must demonstrate that the milestones identified in the current paratransit plans have been achieved. If the milestones have not been achieved, the plan must explain any slippage and what actions are being taken to compensate for the slippage.

(3) The annual plan must describe specifically the means used to comply with the public participation requirements, as described in §37.137 of this part.
§ 37.141 Requirements for a joint paratransit plan.

(a) Two or more entities with overlapping or contiguous service areas or jurisdictions may develop and submit a joint plan providing for coordinated paratransit service. Joint plans shall identify the participating entities and indicate their commitment to participate in the plan.

(b) To the maximum extent feasible, all elements of the coordinated plan shall be submitted on January 26, 1992. If a coordinated plan is not completed by January 26, 1992, those entities intending to coordinate paratransit service must submit a general statement declaring their intention to provide coordinated service and each element of the plan specified in §37.139 to the extent practicable. In addition, the plan must include the following certifications from each entity involved in the coordination effort:

(1) A certification that the entity is committed to providing ADA paratransit service as part of a coordinated plan.

(2) A certification from each public entity participating in the plan that it will maintain current levels of paratransit service until the coordinated plan goes into effect.

(c) Entities submitting the above certifications and plan elements in lieu of a completed plan on January 26, 1992, shall submit a complete plan by July 26, 1992.

(d) Filing of an individual plan does not preclude an entity from cooperating with other entities in the development or implementation of a joint plan. An entity wishing to join with other entities after its initial submission may do so by meeting the filing requirements of this section.

§ 37.143 Paratransit plan implementation.

(a) Each entity shall begin implementation of its complementary paratransit plan, pending notice from FTA. The implementation of the plan shall be consistent with the terms of the plan, including any specified phase-in period.

(b) If the plan contains a request for a waiver based on undue financial burden, the entity shall begin implementation of its plan, pending a determination on its waiver request.

§ 37.145 State comment on plans.

Each state required to receive plans under §37.135 of this part shall:

(a) Ensure that all applicable section 18 and section 9 recipients have submitted plans.

(b) Certify to FTA that all plans have been received.

(c) Forward the required certification with comments on each plan to FTA. The plans, with comments, shall be submitted to FTA no later than April 1, 1992, for the first year and April 1 annually thereafter.

(d) The State shall develop comments to each plan, responding to the following points:

(1) Was the plan filed on time?

(2) Does the plan appear reasonable?

(3) Are there circumstances that bear on the ability of the grantee to carry out the plan as represented? If yes, please elaborate.

(4) Is the plan consistent with statewide planning activities?

(5) Are the necessary anticipated financial and capital resources identified in the plan accurately estimated?

§ 37.147 Considerations during FTA review.

In reviewing each plan, at a minimum FTA will consider the following:

(a) Whether the plan was filed on time;

(b) Comments submitted by the state, if applicable;

(c) Whether the plan contains responsive elements for each component required under §37.139 of this part;

(d) Whether the plan, when viewed in its entirety, provides for paratransit service comparable to the entity’s fixed route service;

(e) Whether the entity complied with the public participation efforts required by this part; and

(f) The extent to which efforts were made to coordinate with other public entities with overlapping or contiguous service areas or jurisdictions.

§ 37.149 Disapproved plans.

(a) If a plan is disapproved in whole or in part, FTA will specify which provisions are disapproved. Each entity
shall amend its plan consistent with this information and resubmit the plan to the appropriate FTA Regional Office within 90 days of receipt of the disapproval letter.

(b) Each entity revising its plan shall continue to comply with the public participation requirements applicable to the initial development of the plan (set out in §37.137 of this part).

§ 37.151 Waiver for undue financial burden.

If compliance with the service criteria of §37.131 of this part creates an undue financial burden, an entity may request a waiver from all or some of the provisions if the entity has complied with the public participation requirements in §37.137 of this part and if the following conditions apply:

(a) At the time of submission of the initial plan on January 26, 1992—

(1) The entity determines that it cannot meet all of the service criteria by January 26, 1997; or

(2) The entity determines that it cannot make measured progress toward compliance in any year before full compliance is required. For purposes of this part, measured progress means implementing milestones as scheduled, such as incorporating an additional paratransit service criterion or improving an aspect of a specific service criterion.

(b) At the time of its annual plan update submission, if the entity believes that circumstances have changed since its last submission, and it no longer able to comply by January 26, 1997, or make measured progress in any year before 1997, as described in paragraph (a)(2) of this section.

§ 37.153 FTA waiver determination.

(a) The Administrator will determine whether to grant a waiver for undue financial burden on a case-by-case basis, after considering the factors identified in §37.155 of this part and the information accompanying the request. If necessary, the Administrator will return the application with a request for additional information.

(b) Any waiver granted will be for a limited and specified period of time.

(c) If the Administrator grants the applicant a waiver, the Administrator will do one of the following:

(1) Require the public entity to provide complementary paratransit service to all ADA paratransit eligible individuals, even if doing so would cause the public entity to incur an undue financial burden. Basic complementary paratransit service in corridors defined as provided in §37.131(a) along the public entity's key routes during core service hours.

(ii) For purposes of this section, key routes are defined as routes along which there is service at least hourly throughout the day.

(ii) For purposes of this section, core service hours encompass at least peak periods, as these periods are defined locally for fixed route service, consistent with industry practice.

(3) If the Administrator determines that the public entity will incur an undue financial burden as the result of providing basic complementary paratransit service, such that it is infeasible for the entity to provide basic complementary paratransit service, the Administrator shall require the public entity to coordinate with other available providers of demand responsive service in the area served by the public entity to maximize the service to ADA paratransit eligible individuals to the maximum extent feasible.
§ 37.155 Factors in decision to grant an undue financial burden waiver.

(a) In making an undue financial burden determination, the FTA Administrator will consider the following factors:

(1) Effects on current fixed route service, including reallocation of accessible fixed route vehicles and potential reduction in service, measured by service miles;

(2) Average number of trips made by the entity’s general population, on a per capita basis, compared with the average number of trips to be made by registered ADA paratransit eligible persons, on a per capita basis;

(3) Reductions in other services, including other special services;

(4) Increases in fares;

(5) Resources available to implement complementary paratransit service over the period covered by the plan;

(6) Percentage of budget needed to implement the plan, both as a percentage of operating budget and a percentage of entire budget;

(7) The current level of accessible service, both fixed route and paratransit;

(8) Cooperation/coordination among area transportation providers;

(9) Evidence of increased efficiencies, that have been or could be effectuated, that would benefit the level and quality of available resources for complementary paratransit service; and

(10) Unique circumstances in the submitting entity’s area that affect the ability of the entity to provide paratransit, that militate against the need to provide paratransit, or in some other respect create a circumstance considered exceptional by the submitting entity.

(b)(1) Costs attributable to complementary paratransit shall be limited to costs of providing service specifically required by this part to ADA paratransit eligible individuals, by entities responsible under this part for providing such service.

(2) If the entity determines that it is impracticable to distinguish between trips mandated by the ADA and other trips on a trip-by-trip basis, the entity shall attribute to ADA complementary paratransit requirements a percentage of its overall paratransit costs. This percentage shall be determined by a statistically valid methodology that determines the percentage of trips that are required by this part. The entity shall submit information concerning its methodology and the data on which its percentage is based with its request for a waiver. Only costs attributable to ADA-mandated trips may be considered with respect to a request for an undue financial burden waiver.

(3) Funds to which the entity would be legally entitled, but which, as a matter of state or local funding arrangements, are provided to another entity and used by that entity to provide paratransit service which is part of a coordinated system of paratransit meeting the requirements of this part, may be counted in determining the burden associated with the waiver request.

§§ 37.157–37.159 [Reserved]

Subpart G—Provision of Service

§ 37.161 Maintenance of accessible features: General.

(a) Public and private entities providing transportation services shall maintain in operative condition those features of facilities and vehicles that are required to make the vehicles and facilities readily accessible to and usable by individuals with disabilities. These features include, but are not limited to, lifts and other means of access to vehicles, securement devices, elevators, signage and systems to facilitate communications with persons with impaired vision or hearing.

(b) Accessibility features shall be repaired promptly if they are damaged or out of order. When an accessibility feature is out of order, the entity shall take reasonable steps to accommodate individuals with disabilities who would otherwise use the feature.

(c) This section does not prohibit isolated or temporary interruptions in service or access due to maintenance or repairs.

§ 37.163 Keeping vehicle lifts in operative condition: Public entities.

(a) This section applies only to public entities with respect to lifts in non-rail vehicles.
Office of the Secretary of Transportation

§ 37.167 Other service requirements.

(a) This section applies to public and private entities.

(b) On fixed route systems, the entity shall announce stops as follows:

(1) The entity shall announce at least at transfer points with other fixed routes, other major intersections and destination points, and intervals along a route sufficient to permit individuals with visual impairments or other disabilities to be oriented to their location.

(2) The entity shall announce any stop on request of an individual with a disability.

(c) Where vehicles or other conveyances for more than one route serve the same stop, the entity shall provide a means by which an individual with a
§ 37.169

visual impairment or other disability can identify the proper vehicle to enter or be identified to the vehicle operator as a person seeking a ride on a particular route.

(d) The entity shall permit service animals to accompany individuals with disabilities in vehicles and facilities.

(e) The entity shall ensure that vehicle operators and other personnel make use of accessibility-related equipment or features required by part 38 of this title.

(f) The entity shall make available to individuals with disabilities adequate information concerning transportation services. This obligation includes making adequate communications capacity available, through accessible formats and technology, to enable users to obtain information and schedule service.

(g) The entity shall not refuse to permit a passenger who uses a lift to disembark from a vehicle at any designated stop, unless the lift cannot be deployed, the lift will be damaged if it is deployed, or temporary conditions at the stop, not under the control of the entity, preclude the safe use of the stop by all passengers.

(h) The entity shall not prohibit an individual with a disability from traveling with a respirator or portable oxygen supply, consistent with applicable Department of Transportation rules on the transportation of hazardous materials (49 CFR subtitle B, chapter 1, subchapter C).

(i) The entity shall ensure that adequate time is provided to allow individuals with disabilities to complete boarding or disembarking from the vehicle.

(j)(1) When an individual with a disability enters a vehicle, and because of a disability, the individual needs to sit in a seat or occupy a wheelchair securement location, the entity shall ask the following persons to move in order to allow the individual with a disability to occupy the seat or securement location:

(ii) Individuals sitting in or a fold-down or other movable seat in a wheelchair securement location.

(2) This requirement applies to light rail, rapid rail, and commuter rail systems only to the extent practicable.

(3) The entity is not required to enforce the request that other passengers move from priority seating areas or wheelchair securement locations.

(4) In all signage designating priority seating areas for elderly persons and persons with disabilities, or designating wheelchair securement areas, the entity shall include language informing persons sitting in these locations that they should comply with requests by transit provider personnel to vacate their seats to make room for an individual with a disability. This requirement applies to all fixed route vehicles when they are acquired by the entity or to new or replacement signage in the entity’s existing fixed route vehicles.

[56 FR 45621, Sept. 6, 1991, as amended at 58 FR 63103, Nov. 30, 1993]

§ 37.169 Interim requirements for over-the-road bus service operated by private entities.

(a) Private entities operating over-the-road buses, in addition to compliance with other applicable provisions of this part, shall provide accessible service as provided in this section.

(b) The private entity shall provide assistance, as needed, to individuals with disabilities in boarding and disembarking, including moving to and from the bus seat for the purpose of boarding and disembarking. The private entity shall ensure that personnel are trained to provide this assistance safely and appropriately.

(c) To the extent that they can be accommodated in the areas of the passenger compartment provided for passengers’ personal effects, wheelchairs or other mobility aids and assistive devices used by individuals with disabilities, or components of such devices, shall be permitted in the passenger compartment. When the bus is at rest at a stop, the driver or other personnel shall assist individuals with disabilities with the stowage and retrieval of mobility aids, assistive devices, or other items that can be accommodated
in the passenger compartment of the bus.
(d) Wheelchairs and other mobility aids or assistive devices that cannot be accommodated in the passenger compartment (including electric wheelchairs) shall be accommodated in the baggage compartment of the bus, unless the size of the baggage compartment prevents such accommodation.
(e) At any given stop, individuals with disabilities shall have the opportunity to have their wheelchairs or other mobility aids or assistive devices stowed in the baggage compartment before other baggage or cargo is loaded, but baggage or cargo already on the bus does not have to be off-loaded in order to make room for such devices.
(f) The entity may require up to 48 hours' advance notice only for providing boarding assistance. If the individual does not provide such notice, the entity shall nonetheless provide the service if it can do so by making a reasonable effort, without delaying the bus service.

§ 37.171 Equivalency requirement for demand responsive service operated by private entities not primarily engaged in the business of transporting people.

A private entity not primarily engaged in the business of transporting people which operates a demand responsive system shall ensure that its system, when viewed in its entirety, provides equivalent service to individuals with disabilities, including individuals who use wheelchairs, as it does to individuals without disabilities. The standards of §37.105 shall be used to determine if the entity is providing equivalent service.

§ 37.173 Training requirements.

Each public or private entity which operates a fixed route or demand responsive system shall ensure that personnel are trained to proficiency, as appropriate to their duties, so that they operate vehicles and equipment safely and properly assist and treat individuals with disabilities who use the service in a respectful and courteous way, with appropriate attention to the difference among individuals with disabilities.

§ 37.181 Applicability dates.

This subpart applies to all private entities that operate OTRBs. The requirements of the subpart begin to apply to large operators beginning October 30, 2000 and to small operators beginning October 29, 2001.

§ 37.183 Purchase or lease of new OTRBs by operators of fixed-route systems.

The following requirements apply to private entities that are primarily in the business of transporting people, whose operations affect commerce, and that operate a fixed-route system, with respect to OTRBs delivered to them on or after the date on which this subpart applies to them:

(a) Large operators. If a large entity operates a fixed-route system, and purchases or leases a new OTRB for or in contemplation of use in that system, it shall ensure that the vehicle is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(b) Small operators. If a small entity operates a fixed-route system, and purchases or leases a new OTRB for or in contemplation of use in that system, it must do one of the following two things:

(1) Ensure that the vehicle is readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs; or

(2) Ensure that equivalent service, as defined in §37.105, is provided to individuals with disabilities, including individuals who use wheelchairs. To meet this equivalent service standard, the service provided by the operator must permit a wheelchair user to travel in his or her own mobility aid.

§ 37.185 Fleet accessibility requirement for OTRB fixed-route systems of large operators.

Each large operator subject to the requirements of §37.183 shall ensure that—
(a) By October 30, 2006 no less than 50 percent of the buses in its fleet with which it provides fixed-route service are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(b) By October 29, 2012, 100 percent of the buses in its fleet with which it provides fixed-route service are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.

(c) Request for time extension. An operator may apply to the Secretary for a time extension of the fleet accessibility deadlines of this section. If he or she grants the request, the Secretary sets a specific date by which the operator must meet the fleet accessibility requirement. In determining whether to grant such a request, the Secretary considers the following factors:

1. Whether the operator has purchased or leased, since October 30, 2000, enough new OTRBs to replace 50 percent of the OTRBs with which it provides fixed-route service by October 30, 2006 or 100 percent of such OTRBs by October 29, 2012;

2. Whether the operator has purchased or leased, between October 28, 1998 and October 30, 2000, a number of new inaccessible OTRBs significantly exceeding the number of buses it would normally obtain in such a period;

3. The compliance with all requirements of this part by the operator over the period between October 28, 1998 and the request for time extension.

§ 37.187 Interline service.

(a) When the general public can purchase a ticket or make a reservation with one operator for a fixed-route trip of one or more stages in which another operator provides service, the first operator must arrange for an accessible bus, or equivalent service, as applicable, to be provided for each stage of the trip to a passenger with a disability. The following examples illustrate the provisions of this paragraph (a):

Example 1. By going to Operator X’s ticket office or calling X for a reservation, a passenger can buy or reserve a ticket from Point A through to Point C, transferring at intermediate Point B to a bus operated by Operator Y. Operator Y is responsible for communicating immediately with Operator X to ensure that Y knows that a passenger needing accessible transportation or equivalent service, as applicable, is traveling from Point B to Point C. By immediate communication, we mean that the ticket or reservation agent for Operator X, by phone, fax, computer, or other instantaneous means, contacts Operator Y the minute the reservation or ticketing transaction with the passenger, as applicable, has been completed. It is the responsibility of each carrier to know how to contact carriers with which it interlines (e.g., Operator X must know Operator Y’s phone number).

Example 2. Operator X fails to provide the required information in a timely manner to Operator Y. Operator X is responsible for compensating the passenger for the consequent unavailability of an accessible bus or equivalent service, as applicable, on the B-C leg of the interline trip.

(b) Each operator retains the responsibility for providing the transportation required by this subpart to the passenger for its portion of an interline trip. The following examples illustrate the provisions of this paragraph (b):

Example 1. In Example 1 to paragraph (a) of this section, Operator Y provides the required information to Operator Y in a timely fashion. However, Operator Y fails to provide an accessible bus or equivalent service to the passenger at Point B as the rules require. Operator Y is responsible for compensating the passenger as provided in §37.199.

Example 2. Operator X provides the required information to Operator Y in a timely fashion. However, the rules require Operator Y to provide an accessible bus on 48 hours’ advance notice (i.e., as a matter of interim service under §37.193(a) or service by a small mixed-service operator under §37.191), and the passenger has purchased the ticket or made the reservation for the interline trip only 8 hours before Operator Y’s bus leaves from Point B to go to Point C. In this situation, Operator Y is not responsible for providing an accessible bus to the passenger at Point B, any more than that it would be had the passenger directly contacted Operator Y to travel from Point B to Point C.

(c) All fixed-route operators involved in interline service shall ensure that they have the capacity to receive communications at all times concerning interline service for passengers with disabilities. The following examples illustrate the provisions of this paragraph (c):

Example 1. Operator Y’s office is staffed only during normal weekday business hours. Operator Y must have a means of receiving communications from carriers with which it
interlines (e.g., telephone answering machine, fax, computer) when no one is in the office.

Example 2. Operator Y has the responsibility to monitor its communications devices at reasonable intervals to ensure that it can act promptly on the basis of messages received. If Operator Y receives a message from Operator X on its answering machine on Friday night, notifying Y of the need for an accessible bus on Monday morning, it has the responsibility of making sure that the accessible bus is there on Monday morning. Operator Y is not excused from its obligation because no one checked the answering machine over the weekend.

§ 37.189 Service requirement for OTRB demand-responsive systems.

(a) This section applies to private entities primarily in the business of transporting people, whose operations affect commerce, and that provide demand-responsive OTRB service. Except as needed to meet the other requirements of this section, these entities are not required to purchase or lease accessible buses in connection with providing demand-responsive service.

(b) Demand-responsive operators shall ensure that, beginning one year from the date on which the requirements of this subpart begin to apply to the entity, any individual with a disability who requests service in an accessible OTRB receives such service. This requirement applies to both large and small operators.

(c) The operator may require up to 48 hours’ advance notice to provide this service.

(d) If the individual with a disability does not provide the advance notice the operator requires under paragraph (a) of this section, the operator shall nevertheless provide the service if it can do so by making a reasonable effort.

(e) To meet this requirement, an operator is not required to fundamentally alter its normal reservation policies or to displace another passenger who has reserved a seat on the bus. The following examples illustrate the provisions of this paragraph (e):

Example 1. A tour bus operator requires all passengers to reserve space on the bus three months before the trip date. This requirement applies to passengers with disabilities on the same basis as other passengers. Consequently, an individual passenger who is a wheelchair user would have to request an accessible bus at the time he or she made his reservation, at least three months before the trip date. If the individual passenger with a disability makes a request for space on the trip and an accessible OTRB 48 hours before the trip date, the operator could refuse the request because all passengers were required to make reservations three months before the trip date.

Example 2. A group makes a reservation to charter a bus for a trip four weeks in advance. A week before the trip date, the group discovers that someone who signed up for the trip is a wheelchair user who needs an accessible bus, or someone who later buys a seat in the block of seats the group has reserved needs an accessible bus. A group representative or the passenger with a disability informs the bus company of this need more than 48 hours before the trip date. The bus company must provide an accessible bus.

Example 3. While the operator’s normal deadline for reserving space on a charter or tour trip has passed, a number of seats for a trip are unfilled. The operator permits members of the public to make late reservations for the unfilled seats. If a passenger with a disability calls 48 hours before the trip is scheduled to leave and requests a seat and the provision of an accessible OTRB, the operator must meet this request, as long as it does not displace another passenger with a reservation.

Example 4. A tour bus trip is nearly sold out three weeks in advance of the trip date. A passenger with a disability calls 48 hours before the trip is scheduled to leave and requests a seat and the provision of an accessible OTRB. The operator need not meet this request if it will have the effect of displacing a passenger with an existing reservation. If other passengers would not be displaced, the operator must meet this request.

§ 37.191 Special provision for small mixed-service operators.

(a) For purposes of this section, a small mixed-service operator is a small operator that provides both fixed-route and demand-responsive service and does not use more than 25 percent of its buses for fixed-route service.

(b) An operator meeting the criteria of paragraph (a) of this section may conduct all its trips, including fixed-route trips, on an advance-reservation basis as provided for demand-responsive trips in §37.189. Such an operator is not required to comply with the accessible bus acquisition/equivalent service obligations of §37.183(b).
§ 37.193  Interim service requirements.

(a) Until 100 percent of the fleet of a large or small operator uses to provide fixed-route service is composed of accessible OTRBs, the operator shall meet the following interim service requirements:

(1) Beginning one year from the date on which the requirements of this subpart begin to apply to the operator, it shall ensure that any individual with a disability that requests service in an accessible OTRB receives such service.

(ii) The operator may require up to 48 hours’ advance notice to provide this service.

(ii) If the individual with a disability does not provide the advance notice the operator requires, the operator shall nevertheless provide the service if it can do so by making a reasonable effort.

(iii) If the trip on which the person with a disability wishes to travel is already provided by an accessible bus, the operator has met this requirement.

(2) Before a date one year from the date on which this subpart applies to the operator, an operator which is unable to provide the service specified in paragraph (a) of this section shall comply with the requirements of §37.169.

(3) Interim service under this paragraph (a) is not required to be provided by a small operator who is providing equivalent service to its fixed-route service as provided in §37.183(b)(2).

§ 37.195  Purchase or lease of OTRBs by private entities not primarily in the business of transporting people.

This section applies to all purchases or leases of new vehicles by private entities which are not primarily engaged in the business of transporting people, with respect to buses delivered to them on or after the date on which this subpart begins to apply to them.

(a) Fixed-route systems. If the entity operates a fixed-route system and purchases or leases an OTRB for or in contemplation of use on the system, it shall meet the requirements of §37.183 (a) or (b), as applicable.

(b) Demand-responsive systems. The requirements of §37.189 apply to demand-responsive systems operated by private entities not primarily in the business of transporting people. If such an entity operates a demand-responsive system, and purchases or leases an OTRB for or in contemplation of use on the system, it is not required to purchase or lease an accessible bus except as needed to meet the requirements of §37.189.

§ 37.197  Remanufactured OTRBs.

(a) This section applies to any private entity operating OTRBs that takes one of the following actions:

(1) On or after the date on which this subpart applies to the entity, it remanufactures an OTRB so as to extend its useful life for five years or more or makes a solicitation for such remanufacturing;

(2) Purchases or leases an OTRB which has been remanufactured so as to extend its useful life for five years or more, where the purchase or lease occurs after the date on which this subpart applies to the entity and during the period in which the useful life of the vehicle is extended.

(b) In any situation in which this subpart requires an entity purchasing or leasing a new OTRB to purchase or lease an accessible OTRB, OTRBs acquired through the actions listed in paragraph (a) of this section shall, to the maximum extent feasible, be readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs.
§ 37.201 Intermediate and rest stops.

(a) Whenever an OTRB makes an intermediate or rest stop, a passenger with a disability, including an individual using a wheelchair, shall be permitted to leave and return to the bus on the same basis as other passengers. The operator shall ensure that assistance is provided to passengers with disabilities as needed to enable the passenger to get on and off the bus at the stop (e.g., operate the lift and provide assistance with securement; provide other boarding assistance if needed, as in the case of a wheelchair user who has transferred to a vehicle seat because other wheelchair users occupied all securement locations).

(b) If an OTRB operator owns, leases, or controls the facility at which a rest or intermediate stop is made, or if an OTRB operator contracts with the person who owns, leases, or controls such a facility to provide rest stop services, the OTRB operator shall ensure the facility complies fully with applicable requirements of the Americans with Disabilities Act.
§ 37.203 Lift maintenance.

(a) The entity shall establish a system of regular and frequent maintenance checks of lifts sufficient to determine if they are operative.

(b) The entity shall ensure that vehicle operators report to the entity, by the most immediate means available, any failure of a lift to operate in service.

(c) Except as provided in paragraph (d) of this section, when a lift is discovered to be inoperative, the entity shall take the vehicle out of service before the beginning of the vehicle’s next trip and ensure that the lift is repaired before the vehicle returns to service.

(d) If there is no other vehicle available to take the place of an OTRB with an inoperative lift, such that taking the vehicle out of service before its next trip will reduce the transportation service the entity is able to provide, the entity may keep the vehicle in service with an inoperative lift for no more than five days from the day on which the lift is discovered to be inoperative.

§ 37.205 Additional passengers who use wheelchairs.

If a number of wheelchair users exceeding the number of securement locations on the bus seek to travel on a trip, the operator shall assign the securement locations on a first come-first served basis. The operator shall offer boarding assistance and the opportunity to sit in a vehicle seat to passengers who are not assigned a securement location. If the passengers who are not assigned securement locations are unable or unwilling to accept this offer, the operator is not required to provide transportation to them on the bus.

§ 37.207 Discriminatory practices.

It shall be considered discrimination for any operator to—

(a) Deny transportation to passengers with disabilities, except as provided in § 37.5(h);

(b) Use or request the use of persons other than the operator’s employees (e.g., family members or traveling companions of a passenger with a disability, medical or public safety personnel) for routine boarding or other assistance to passengers with disabilities, unless the passenger requests or consents to assistance from such persons;

(c) Require or request a passenger with a disability to reschedule his or her trip, or travel at a time other than the time the passenger has requested, in order to receive transportation as required by this subpart;

(d) Fail to provide reservation services to passengers with disabilities equivalent to those provided other passengers; or

(e) Fail or refuse to comply with any applicable provision of this part.

§ 37.209 Training and other requirements.

OTRB operators shall comply with the requirements of §§ 37.161, 37.165–37.167, and 37.173. For purposes of § 37.173, “training to proficiency” is deemed to include, as appropriate to the duties of particular employees, training in proper operation and maintenance of accessibility features and equipment, boarding assistance, securement of mobility aids, sensitive and appropriate interaction with passengers with disabilities, handling and storage of mobility devices, and familiarity with the requirements of this subpart. OTRB operators shall provide refresher training to personnel as needed to maintain proficiency.

§ 37.211 Effect of NHTSA and FHWA safety rules.

OTRB operators are not required to take any action under this subpart.
§ 37.213 Information collection requirements.

(a) This paragraph (a) applies to demand-responsive operators under § 37.189 and fixed-route operators under § 37.193(a)(1) that are required to, and small mixed-service operators under § 37.191 that choose to, provide accessible OTRB service on 48 hours' advance notice.

(1) When the operator receives a request for accessible bus service, the operator shall complete lines 1-8 of the Form A in Appendix A to this subpart. The operator shall immediately provide a copy of the form to the passenger.

(2) On the scheduled date of the trip, the operator shall complete lines 9-11 of the form. In any case in which the requested accessible bus was not provided, the operator shall immediately provide a copy of the form to the passenger.

(3) The operator shall retain its copy of the completed form for five years. The operator shall make these forms available to Department of Transportation or Department of Justice officials at their request.

(4) Beginning October 29, 2001 for large operators, and October 28, 2002 for small operators, and on that date in each year thereafter, each operator shall submit a summary of its forms to the Department of Transportation. The summary shall state the number of situations in which equivalent service was needed, the number of times such service was provided, and the number of times compensation was paid. It shall also include the name, address, telephone number, and contact person name for the operator.

(b) This paragraph (b) applies to small fixed-route operators who choose to provide equivalent service to passengers with disabilities under § 37.183(b)(2).

(1) The operator shall complete Form B in Appendix A to this subpart on every occasion on which a passenger with a disability needs equivalent service in order to be provided transportation.

(2) The operator shall provide one copy of the form to the passenger and retain another copy of the completed form for five years. The operator shall make these forms available to Department of Transportation or Department of Justice officials at their request.

(3) Beginning October 28, 2002, and on that date in each year thereafter, each operator shall submit a summary of its forms to the Department of Transportation. The summary shall state the number of situations in which equivalent service was needed, the number of times such service was provided, and the number of times compensation was paid. It shall also include the name, address, telephone number, and contact person name for the operator.

(c) Beginning October 30, 2000 for large operators, and October 29, 2001 for small operators, and on that date in each year thereafter, each fixed-route operator shall submit to the Department a report on how many passengers with disabilities used the lift to board accessible buses. For fixed-route operators, the report shall reflect separately the data pertaining to 48-hour advance reservation service and other service.

(d) Each operator shall submit to the Department, October 28, 1999 and each year thereafter on that date, a summary report listing the number of new buses and used buses it has purchased or leased during the preceding year, and how many of the buses in each category are accessible. It shall also include the total number of buses in the operator’s fleet and the name, address, telephone number, and contact person name for the operator.

(e) The information required to be submitted to the Department shall be sent to the following address: Bureau of Transportation Statistics, 400 7th Street, SW., Washington, DC 20590.

§ 37.215 Review of requirements.

(a) Beginning October 28, 2005, the Department will review the requirements of § 37.189 and their implementation. The Department will complete this review by October 30, 2006.

(1) As part of this review, the Department will consider factors including,
but not necessarily limited to, the following:

(i) The percentage of accessible buses in the demand-responsive fleets of large and small demand-responsive operators.

(ii) The success of small and large demand-responsive operators’ service at meeting the requests of passengers with disabilities for accessible buses in a timely manner.

(iii) The ridership of small and large operators’ demand-responsive service by passengers with disabilities.

(iv) The volume of complaints by passengers with disabilities.

(v) Cost and service impacts of implementation of the requirements of §37.189.

(2) The Department will make one of the following decisions on the basis of the review:

(i) Retain §37.189 without change; or

(ii) Modify the requirements of §37.189 for large and/or small demand-responsive operators.

(b) Beginning October 30, 2006, the Department will review the requirements of §§37.183, 37.185, 37.187, 37.191 and 37.193(a) and their implementation. The Department will complete this review by October 29, 2007.

(1) As part of this review, the Department will consider factors including, but not necessarily limited to, the following:

(i) The percentage of accessible buses in the fixed-route fleets of large and small fixed-route operators.

(ii) The success of small and large fixed-route operators’ interim or equivalent service at meeting the requests of passengers with disabilities for accessible buses in a timely manner.

(iii) The ridership of small and large operators’ fixed-route service by passengers with disabilities.

(iv) The volume of complaints by passengers with disabilities.

(v) Cost and service impacts of implementation of the requirements of these sections.

(2) The Department will make one of the following decisions on the basis of the review:

(i) Retain §§37.183, 37.185, 37.187, 37.191, 37.193(a) without change; or

(ii) Modify the requirements of §§37.183, 37.185, 37.187, 37.191, 37.193(a) for large and/or small fixed-route operators.

APPENDIX A TO SUBPART H OF PART 37—FORMS FOR ADVANCE NOTICE REQUESTS AND PROVISION OF EQUIVALENT SERVICE

Form A—For Use by Providers of Advance Notice Service

1. Operator’s name
2. Address
3. Phone number:
4. Passenger’s name:
5. Address:
6. Phone number:
7. Scheduled date and time of trip:
8. Date and time of request:
9. Was accessible bus provided for trip? Yes no
10. Was there a basis recognized by U.S. Department of transportation regulations for not providing an accessible bus for the trip? Yes no
   If yes, explain
11. If the answers to items 9 and 10 were both no, attach documentation that compensation required by department of transportation regulations was paid.

Form B—For Use by Providers of Equivalent Service

1. Operator’s name
2. Address
3. Phone number:
4. Passenger’s name:
5. Address:
6. Phone number:
7. Date and time of trip:
8. Location of need for equivalent service:
9. Was equivalent service provided for trip? Yes no
10. If the answer to items 9 and 10 is no, attach documentation that compensation required by Department of Transportation regulations was paid.

1. PURPOSE.

This document sets guidelines for accessibility to buildings and facilities by individuals with disabilities under the Americans with Disabilities Act (ADA) of 1990. These guidelines are to be applied during the design, construction, and alteration of buildings and facilities covered by Titles II and III of the ADA to the extent required by regulations issued by Federal agencies, including the Department of Justice and the Department of Transportation, under the ADA.

The technical specifications 4.2 through 4.35, of these guidelines are the same as those of the American National Standard Institute's document A117.1-1986, except as noted in this text by italics. However, sections 4.1.1 through 4.1.7 and sections 5 through 10 are different from ANSI A117.1 in their entirety and are printed in standard type.

The illustrations and text of ANSI A117.1 are reproduced with permission from the American National Standards Institute. Copies of the standard may be purchased from the American National Standards Institute at 1430 Broadway, New York, New York 10018.

2. GENERAL.

2.1 Provisions for Adults. The specifications in these guidelines are based upon adult dimensions and anthropometrics.

2.2 Equivalent Facilitation. Departures from particular technical and scoping requirements of this guideline by the use of other designs and technologies are permitted where the alternative designs and technologies used will provide substantially equivalent or greater access to and usability of the facility.

3. MISCELLANEOUS INSTRUCTIONS AND DEFINITIONS.

3.1 Graphic Conventions. Graphic conventions are shown in Table 1. Dimensions that are not marked minimum or maximum are absolute, unless otherwise indicated in the text or captions.

### 3.4 General Terminology

#### 3.2 Dimensional Tolerances

All dimensions are subject to conventional building industry tolerances for field conditions.

#### 3.3 Notes

The text of these guidelines does not contain notes or footnotes. Additional information, explanations, and advisory materials are located in the Appendix. Paragraphs marked with an asterisk have related, non-mandatory material in the Appendix. In the Appendix, the corresponding paragraph numbers are preceded by an A.

#### 3.4 General Terminology

**comply with.** Meet one or more specifications of these guidelines.

**if . . . then.** Denotes a specification that applies only when the conditions described are present.

**may.** Denotes an option or alternative.

**shall.** Denotes a mandatory specification or requirement.

**should.** Denotes an advisory specification or recommendation.

#### 3.5 Definitions

**Accessible Aisle.** An accessible pedestrian space between elements, such as parking spaces, seating, and desks, that provides clearances appropriate for use of the elements.

**Accessible.** Describes a site, building, facility, or portion thereof that complies with these guidelines.

**Accessible Element.** An element specified by these guidelines (for example, telephone, controls, and the like).

**Accessible Route.** A continuous unobstructed path connecting all accessible elements and spaces of a building or facility. Interior accessible routes may include corridors, floors, ramps, elevators, lifts, and clear floor space at fixtures. Exterior accessible routes may include parking access aisles, curb ramps, crosswalks at vehicular ways, walks, ramps, and lifts.

**Accessible Space.** Space that complies with these guidelines.

**Adaptability.** The ability of certain building spaces and elements, such as kitchen counters, sinks, and grab bars, to be added or altered so as to accommodate the needs of individuals with or without disabilities or to accommodate the needs of persons with different types or degrees of disability.

**Addition.** An expansion, extension, or increase in the gross floor area of a building or facility.

**Administrative Authority.** A governmental agency that adopts or enforces regulations and guidelines for the design, construction, or alteration of buildings and facilities.

**Alteration.** An alteration is a change to a building or facility made by, on behalf of, or for the use of a public accommodation or commercial facility, that affects or could affect the usability of the building or facility or part thereof. Alterations include, but are not limited to, remodeling, renovation, rehabilitation, reconstruction, historic restoration, changes or rearrangement of the structural parts or elements, and changes or rearrangement in the plan configuration of walls and full-height partitions. Normal maintenance, re-roofing, painting or wallpapering, or changes to mechanical and electrical systems are not alterations unless they affect the usability of the building or facility.

**Area of Rescue Assistance.** An area, which has direct access to an exit, where people who are unable to use stairs may remain temporarily in safety to await further instructions or assistance during emergency evacuation.

**Assembly Area.** A room or space accommodating a group of individuals for recreational, educational, political, social, or amusement purposes, or for the consumption of food and drink.

**Automatic Door.** A door equipped with a power-operated mechanism and controls that open and close the door automatically upon receipt of a momentary actuating signal. The switch that begins the automatic cycle may be a photoelectric device, floor mat, or manual switch (see power-assisted door).
### 3.5 Definitions

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Building</strong></td>
<td>Any structure used and intended for supporting or sheltering any use or occupancy.</td>
</tr>
<tr>
<td><strong>Circulation Path</strong></td>
<td>An exterior or interior way of passage from one place to another for pedestrians, including, but not limited to, walks, hallways, courtyards, stairways, and stair landings.</td>
</tr>
<tr>
<td><strong>Clear</strong></td>
<td>Unobstructed.</td>
</tr>
<tr>
<td><strong>Clear Floor Space</strong></td>
<td>The minimum unobstructed floor or ground space required to accommodate a single stationary wheelchair and occupant.</td>
</tr>
<tr>
<td><strong>Closed Circuit Telephone</strong></td>
<td>A telephone with dedicated line(s) such as a house phone, courtesy phone or phone that must be used to gain entrance to a facility.</td>
</tr>
<tr>
<td><strong>Common Use</strong></td>
<td>Refers to those interior and exterior rooms, spaces, or elements that are made available for the use of a restricted group of people (for example, occupants of a homeless shelter, the occupants of an office building, or the guests of such occupants).</td>
</tr>
<tr>
<td><strong>Cross Slope</strong></td>
<td>The slope that is perpendicular to the direction of travel (see running slope).</td>
</tr>
<tr>
<td><strong>Curb Ramp</strong></td>
<td>A short ramp cutting through a curb or built up to it.</td>
</tr>
<tr>
<td><strong>Detectable Warning</strong></td>
<td>A standardized surface feature built in or applied to walking surfaces or other elements to warn visually impaired people of hazards on a circulation path.</td>
</tr>
<tr>
<td><strong>Dwelling Unit</strong></td>
<td>A single unit which provides a kitchen or food preparation area, in addition to rooms and spaces for living, bathing, sleeping, and the like. Dwelling units include a single family home or a townhouse used as a transient group home; an apartment building used as a shelter; guestrooms in a hotel that provide sleeping accommodations and food preparation areas; and other similar facilities used on a transient basis. For purposes of these guidelines, use of the term “Dwelling Unit” does not imply the unit is used as a residence.</td>
</tr>
<tr>
<td><strong>Egress Means of</strong></td>
<td>A continuous and unobstructed way of exit travel from any point in a building or facility to a public way. A means of egress comprises vertical and horizontal travel and may include intervening room spaces, doorways, hallways, corridors, passageways, balconies, ramps, stairs, enclosures, lobbies, horizontal exits, courts and yards. An accessible means of egress is one that complies with these guidelines and does not include stairs, steps, or escalators. Areas of rescue assistance or evacuation elevators may be included as part of accessible means of egress.</td>
</tr>
<tr>
<td><strong>Element</strong></td>
<td>An architectural or mechanical component of a building, facility, space, or site, e.g., telephone, curb ramp, door, drinking fountain, seating, or water closet.</td>
</tr>
<tr>
<td><strong>Entrance</strong></td>
<td>Any access point to a building or portion of a building or facility used for the purpose of entering. An entrance includes the approach walk, the vertical access leading to the entrance platform, the entrance platform itself, vestibules (if provided, the entry doors) or gates, and the hardware of the entry doors or gates.</td>
</tr>
<tr>
<td><strong>Facility</strong></td>
<td>All or any portion of buildings, structures, site improvements, complexes, equipment, roads, walks, passageways, parking lots, or other real or personal property located on a site.</td>
</tr>
<tr>
<td><strong>Ground Floor</strong></td>
<td>Any occupiable floor less than one story above or below grade with direct access to grade. A building or facility always has at least one ground floor and may have more than one ground floor as where a split level entrance has been provided or where a building is built into a hillside.</td>
</tr>
<tr>
<td><strong>Mezzanine or Mezzanine Floor</strong></td>
<td>That portion of a story which is an intermediate floor level placed within the story and having occupiable spaces above and below its floor.</td>
</tr>
<tr>
<td><strong>Marked Crossing</strong></td>
<td>A crosswalk or other identified path intended for pedestrian use in crossing a vehicular way.</td>
</tr>
<tr>
<td><strong>Multifamily Dwelling</strong></td>
<td>Any building containing more than two dwelling units.</td>
</tr>
<tr>
<td><strong>Occupable</strong></td>
<td>A room or enclosed space designed for human occupancy in which individuals congregate for amusement, educational or similar purposes, or in which occupants are engaged at labor, and which is equipped with means of egress, light, and ventilation.</td>
</tr>
</tbody>
</table>
3.5 Definitions

Operable Part. A part of a piece of equipment or appliance used to insert or withdraw objects, or to activate, deactivate, or adjust the equipment or appliance (for example, coin slot, pushbutton, handle).

Path of Travel. (Reserved).

Power-assisted Door. A door used for human passage with a mechanism that helps to open the door, or relieves the opening resistance of a door, upon the activation of a switch or a continued force applied to the door itself.

Public Use. Describes interior or exterior rooms or spaces that are made available to the general public. Public use may be provided at a building or facility that is privately or publicly owned.

Ramp. A walking surface which has a running slope greater than 1:20.

Running Slope. The slope that is parallel to the direction of travel (see cross slope).

Service Entrance. An entrance intended primarily for delivery of goods or services.

Signage. Displayed verbal, symbolic, tactile, and pictorial information.

Site. A parcel of land bounded by a property line or a designated portion of a public right-of-way.

Site Improvement. Landscaping, paving for pedestrian and vehicular ways, outdoor lighting, recreational facilities, and the like, added to a site.

Sleeping Accommodations. Rooms in which people sleep, for example, dormitory and hotel or motel guest rooms or suites.

Space. A definable area, e.g., room, toilet room, hall, assembly area, entrance, storage room, alcove, courtyard, or lobby.

Story. That portion of a building included between the upper surface of a floor and upper surface of the floor or roof next above. If such portion of a building does not include occupable space, it is not considered a story for purposes of these guidelines. There may be more than one floor level within a story as in the case of a mezzanine or mezzanines.

Structural Frame. The structural frame shall be considered to be the columns and the girders, beams, trusses and spandrels having direct connections to the columns and all other members which are essential to the stability of the building as a whole.

Tactile. Describes an object that can be perceived using the sense of touch.

Text Telephone. Machinery or equipment that employs interactive graphic (i.e., typed) communications through the transmission of coded signals across the standard telephone network. Text telephones can include, for example, devices known as TDD's (telecommunication display devices or telecommunication devices for deaf persons) or computers.

Transient Lodging. A building, facility, or portion thereof, excluding outpatient medical care facilities, that contains one or more dwelling units or sleeping accommodations. Transient lodging may include, but is not limited to, resorts, group homes, hotels, motels, and dormitories.

Vehicular Way. A route intended for vehicular traffic, such as a street, driveway, or parking lot.

Walk. An exterior pathway with a prepared surface intended for pedestrian use, including general pedestrian areas such as plazas and courts.

NOTE: Sections 4.1.1 through 4.1.7 are different from ANSI A117.1 in their entirety and are printed in standard type (ANSI A117.1 does not include scoping provisions).
### 4. ACCESSIBLE ELEMENTS AND SPACES: SCOPE AND TECHNICAL REQUIREMENTS.

#### 4.1 Minimum Requirements

##### 4.1.1 Application.

1. General. All areas of newly designed or newly constructed buildings and facilities required to be accessible by 4.1.2 and 4.1.3 and altered portions of existing buildings and facilities required to be accessible by 4.1.6 shall comply with these guidelines, 4.1 through 4.35, unless otherwise provided in this section or as modified in a special application section.

2. Application Based on Building Use. Special application sections 5 through 10 provide additional requirements for restaurants and cafeterias, medical care facilities, business and mercantile, libraries, accessible transient lodging, and transportation facilities. When a building or facility contains more than one use covered by a special application section, each portion shall comply with the requirements for that use.

3. Areas Used Only by Employees as Work Areas. Areas that are used only as work areas shall be designed and constructed so that individuals with disabilities can approach, enter, and exit the areas. These guidelines do not require that any areas used only as work areas be constructed to permit maneuvering within the work area or be constructed or equipped (i.e., with racks or shelves) to be accessible.

4. Temporary Structures. These guidelines cover temporary buildings or facilities as well as permanent facilities. Temporary buildings and facilities are not of permanent construction but are extensively used or are essential for public use for a period of time. Examples of temporary buildings or facilities covered by these guidelines include, but are not limited to: reviewing stands, temporary classrooms, bleacher areas, exhibit areas, temporary banking facilities, temporary health screening services, or temporary safe pedestrian passageways around a construction site. Structures, sites and equipment directly associated with the actual processes of construction, such as scaffolding, bridging, materials hoists, or construction trailers are not included.

5. General Exceptions.

   a. In new construction, a person or entity is not required to meet fully the requirements of these guidelines where that person or entity can demonstrate that it is structurally impracticable to do so. Full compliance will be considered structurally impracticable only in those rare circumstances when the unique characteristics of terrain prevent the incorporation of accessibility features. If full compliance with the requirements of these guidelines is structurally impracticable, a person or entity shall comply with the requirements to the extent it is not structurally impracticable. Any portion of the building or facility which can be made accessible shall comply to the extent that it is not structurally impracticable.

   b. Accessibility is not required to 0) observation galleries used primarily for security purposes; or fill in non-occupiable spaces accessed only by ladders, catwalks, crawl spaces, very narrow passageways, or freight (non-passenger) elevators, and frequented only by service personnel for repair purposes; such spaces include, but are not limited to, elevator pits, elevator penthouses, piping or equipment catwalks.

#### 4.1.2 Accessible Sites and Exterior Facilities: New Construction. An accessible site shall meet the following minimum requirements.

1. At least one accessible route complying with 4.3 shall be provided within the boundary of the site from public transportation stops, accessible parking spaces, passenger loading zones if provided, and public streets or sidewalks, to an accessible building entrance.

2. At least one accessible route complying with 4.3 shall connect accessible buildings, accessible facilities, accessible elements, and accessible spaces that are on the same site.

3. All objects that protrude from surfaces or posts into circulation paths shall comply with 4.4.

Except as provided in (b), access aisles adjacent to accessible spaces shall be 60 in (1525 mm) wide minimum.

(b) One in every eight accessible spaces, but not less than one, shall be served by an accessible aisle 96 in (2440 mm) wide minimum and shall be designated "van accessible" as required by 4.6.4. The vertical clearance at such spaces shall comply with 4.6.5. All such spaces may be grouped on one level of a parking structure.

EXCEPTION: Provision of all required parking spaces in conformance with "Universal Parking Design" (see appendix A4.6.3) is permitted.

(c) If passenger loading zones are provided, then at least one passenger loading zone shall comply with 4.6.6.

(d) All facilities providing medical care and other services for persons with mobility impairments, parking spaces complying with 4.6 shall be provided in accordance with 4.1.2(5)(a) except as follows:

(i) Outpatient units and facilities: 10 percent of the total number of parking spaces provided serving each such outpatient unit or facility.

(ii) Units and facilities that specialize in treatment or services for persons with mobility impairments: 20 percent of the total number of parking spaces provided serving each such unit or facility.

(e) Valet parking: Valet parking facilities shall provide a passenger loading zone complying with 4.6.6 located on an accessible route to the entrance of the facility. Paragraphs 5(b), 5(d), and 5(f) of this section do not apply to valet parking facilities.

(f) If toilet facilities are provided on a site, then each such public or common use toilet facility shall comply with 4.22. If bathing facilities are provided on a site, then each such public or common use bathing facility shall comply with 4.23.

For single user portable toilet or bathing units clustered at a single location, at least 5% but no less than one toilet unit or bathing unit complying with 4.22 or 4.23 shall be installed at each cluster whenever typical inaccessible units are provided. Accessible units shall be identified by the International Symbol of Accessibility.

EXCEPTION: Portable toilet units at construction sites used exclusively by construction personnel are not required to comply with 4.1.2(5).

(7) Building Signage. Signs which designate permanent rooms and spaces shall comply with 4.30.1, 4.30.4, 4.30.5 and 4.30.6. Other signs which provide direction to, or information about, functional spaces of the building shall comply with 4.30.1, 4.30.2, 4.30.3, and 4.30.5. Elements and spaces of accessible facilities which shall be identified by the International Symbol of Accessibility and which shall comply with 4.30.7 are:

(a) Parking spaces designated as reserved for individuals with disabilities.
Office of the Secretary of Transportation
Pt. 37, App. A

4.1.3 Accessible Buildings: New Construction

(b) Accessible passenger loading zones:
(c) Accessible entrances when not all are accessible ( inaccessible entrances shall have directional signage to indicate the route to the nearest accessible entrance);
(d) Accessible toilet and bathing facilities when not all are accessible.

4.1.3 Accessible Buildings: New Construction. Accessible buildings and facilities shall meet the following minimum requirements:

(1) At least one accessible route complying with 4.3 shall connect accessible building or facility entrances with all accessible spaces and elements within the building or facility.
(2) All objects that overhang or protrude into circulation paths shall comply with 4.4.
(3) Ground and floor surfaces along accessible routes and in accessible rooms and spaces shall comply with 4.5.
(4) Interior and exterior stairs connecting levels that are not connected by an elevator, ramp, or other accessible means of vertical access shall comply with 4.9.
(5) Only one passenger elevator complying with 4.10 shall serve each level, including mezzanines, in all multi-story buildings and facilities unless exempted below. If more than one elevator is provided, each full passenger elevator shall comply with 4.10.

EXCEPTION 1: Elevators are not required in facilities that are less than three stories or that have less than 3000 square feet per story unless the building is a shopping center, a shopping mall, or the professional office of a health care provider, or another type of facility as determined by the Attorney General. The elevator exemption set forth in this paragraph does not obviate or limit in any way the obligation to comply with the other accessibility requirements established in section 4.1.3. For example, floors above or below the accessible ground floor must meet the requirements of this section except for elevator service. If toilet or bathing facilities are provided on a level not served by an elevator, then toilet or bathing facilities must be provided on the accessible ground floor. In new construction if a building or facility is eligible for this exemption but a full passenger elevator is nonetheless planned, that elevator shall meet the requirements of 4.10 and shall serve each level in the building. A full passenger elevator that provides service from a garage to only one level of a building or facility is not required to serve other levels.

EXCEPTION 2: Elevator pits, elevator penthouses, mechanical rooms, piping or equipment catwalks are exempted from this requirement.

EXCEPTION 3: Accessible ramps complying with 4.8 may be used in lieu of an elevator.

EXCEPTION 4: Platform lifts (wheelchair lifts) complying with 4.11 of this guideline and applicable state or local codes may be used in lieu of an elevator only under the following conditions:
(a) To provide an accessible route to a performing area in an assembly occupancy.
(b) To comply with the wheelchair viewing position line-of-sight and dispersion requirements of 4.33.3.
(c) To provide access to incidental occupiable spaces and rooms which are not open to the general public and which house no more than five persons, including but not limited to equipment control rooms and projection booths.
(d) To provide access where existing site constraints or other constraints make use of a ramp or an elevator infeasible.

(6) Windows: (Reserved).
(7) Doors:
(a) At each accessible entrance to a building or facility, at least one door shall comply with 4.13.
(b) Within a building or facility, at least one door at each accessible space shall comply with 4.13.
(c) Each door that is an element of an accessible route shall comply with 4.13.
4.1.3 Accessible Buildings: New Construction

(d) Each door required by 4.3.10, Egress, shall comply with 4.13.

(b) In new construction, at a minimum, the requirements in (a) and (b) below shall be satisfied independently:

(i) At least 50% of all public entrances (excluding those in (ii) below) must be accessible. At least one must be a ground floor entrance. Public entrances are any entrances that are not loading or service entrances.

(ii) Accessible entrances must be provided in a number at least equivalent to the number of exits required by the applicable building/fire codes. (This paragraph does not require an increase in the total number of entrances planned for a facility.)

(iii) An accessible entrance must be provided to each tenancy in a facility (for example, individual stores in a strip shopping center).

One entrance may be considered as meeting more than one of the requirements in (a). Where feasible, accessible entrances shall be the entrances used by the majority of people visiting or working in the building.

(b)(i) In addition, if direct access is provided for pedestrians from an enclosed parking garage to the building, at least one direct entrance from the garage to the building must be accessible.

(ii) If access is provided for pedestrians from a pedestrian tunnel or elevated walkway, one entrance to the building from each tunnel or walkway must be accessible.

One entrance may be considered as meeting more than one of the requirements in (b).

Because entrances also serve as emergency exits whose proximity to all parts of buildings and facilities is essential, it is preferable that all entrances be accessible.

(c) If the only entrance to a building, or tenancy in a facility, is a service entrance, that entrance shall be accessible.

(d) Entrances which are not accessible shall have directional signage complying with 4.30.1.

4.30.2, 4.30.3, and 4.30.5, which indicates the location of the nearest accessible entrance.

(9) In buildings or facilities, or portions of buildings or facilities, required to be accessible, accessible means of egress shall be provided in the same number as required for exits by local building/life safety regulations. Where a required exit from an occupiable level above or below a level of accessible exit discharge is not accessible, an area of rescue assistance shall be provided on each such level (in a number equal to that of inaccessible required exits). Areas of rescue assistance shall comply with 4.3.11. A horizontal exit meeting the requirements of local building/life safety regulations shall satisfy the requirement for an area of rescue assistance.

EXCEPTION: Areas of rescue assistance are not required in buildings or facilities having a supervised automatic sprinkler system.

(10) Drinking Fountains:

(a) Where only one drinking fountain is provided on a floor there shall be a drinking fountain which is accessible to individuals who use wheelchairs in accordance with 4.15 and one accessible to those who have difficulty bending or stooping. This can be accommodated by the use of a "hi-lo" fountain, by providing one fountain accessible to those who use wheelchairs and one fountain at a standard height convenient for those who have difficulty bending; by providing a fountain accessible under 4.15 and a water cooler; or by such other means as would achieve the required accessibility for each group on each floor.

(b) Where more than one drinking fountain or water cooler is provided on a floor, 50% of those provided shall comply with 4.15 and shall be on an accessible route.

(11) Toilet Facilities: If toilet rooms are provided, then each public and common use toilet room shall comply with 4.22. Other toilet rooms provided for the use of occupants of specific spaces (i.e., a private toilet room for the occupant of a private office) shall be adaptable. If bathing rooms are provided, then each public and common use bathroom shall comply with 4.23. Accessible toilet rooms and bathing facilities shall be on an accessible route.
### 4.1.3 Accessible Buildings: New Construction

<table>
<thead>

</tr>
</tbody>
</table>

1. Additional public telephones may be installed at any height. Unless otherwise specified, accessible telephones may be either forward or side reach telephones.

2. A bank consists of two or more adjacent public telephones, often installed as a unit.

3. EXCEPTION: For exterior installations only, if dial tone first service is available, then a side reach telephone may be installed instead of the required forward reach telephone (i.e., one telephone in proximity to each bank shall comply with 4.31).

4. (b) All telephones required to be accessible and complying with 4.31.2 through 4.31.8 shall be equipped with a volume control. In addition, 25 percent, but never less than one, of all other public telephones provided shall be equipped with a volume control and shall be dispersed among all types of public telephones, including closed circuit telephones, throughout the building or facility. Signage complying with applicable provisions of 4.30.7 shall be provided.

(c) The following shall be provided in accordance with 4.31.9:

(i) If a total number of four or more public pay telephones (including both interior and exterior phones) is provided at a site, and at least one is in an interior location, then at least one interior public pay telephone shall be provided.

(ii) If an interior public pay telephone is provided in a stadium or arena, in a convention center, in a hotel with a convention center, or...

</tr>
</tbody>
</table>

In addition, one percent, but not less than one, of all fixed seats shall be aisle seats with no armrests on the aisle side, or removable or folding armrests on the aisle side. Each such seat shall be identified by a sign or marker. Signage notifying patrons of the availability of such seats shall be posted at the ticket office. Aisle seats are not required to comply with 4.33.4.

(b) This paragraph applies to assembly areas where audible communications are integral to the use of the space (e.g., concert and lecture halls, playhouses and movie theaters, meeting rooms, etc.). Such assembly areas, if (1) they accommodate at least 50 persons, or if they have audio-amplification systems, and (2) they have fixed seating, shall have a permanently installed assistive listening system complying with 4.33. For other assembly areas, a permanently installed assistive listening system, or an adequate number of electrical outlets or other supplementary wiring necessary to support a portable assistive listening system shall be provided. The minimum number of receivers to be provided shall be equal to 4 percent of the total number of seats, but in no case less than two. Signage complying with applicable provisions of 4.30 shall be installed to notify patrons of the availability of a listening system.

(20) Where automated teller machines (ATMs) are provided, each ATM shall comply with the requirements of 4.34 except where two or more are provided at a location, then only one must comply.

EXCEPTION: Drive-up-only automated teller machines are not required to comply with 4.27.2, 4.27.3 and 4.34.3.

(21) Where dressing and fitting rooms are provided for use by the general public, patients, customers or employees, 5 percent, but never less than one, of dressing rooms for each type of use in each cluster of dressing rooms shall be accessible and shall comply with 4.35.

Examples of types of dressing rooms are those serving different genders or distinct and different functions as in different treatment or examination facilities.

4.1.4 (Reserved).

4.1.5 Accessible Buildings: Additions.

Each addition to an existing building or facility shall be regarded as an alteration. Each space or element added to the existing building or facility shall comply with the applicable provisions of 4.1.1 to 4.1.3. Minimum Requirements for New Construction and the applicable technical specifications of 4.2 through 4.35 and sections 5 through 10. Each addition that
affects or could affect the usability of an area containing a primary function shall comply with 4.1.6(2).

4.1.6 Accessible Buildings: Alterations.

(a) No alteration shall be undertaken which decreases or has the effect of decreasing accessibility or usability of a building or facility below the requirements for new construction at the time of alteration.

(b) If existing elements, spaces, or common areas are altered, then each such altered element, space, feature, or area shall comply with the applicable provisions of 4.1.1 to 4.1.3 Minimum Requirements for New Construction. If the applicable provision for new construction requires that an element, space, or common area be on an accessible route, the altered element, space, or common area is not required to be on an accessible route except as provided in 4.1.6(2) (Alterations to an Area Containing a Primary Function).

(c) If alterations of single elements, when considered together, amount to an alteration of a room or space in a building or facility, the entire space shall be made accessible.

(d) No alteration of an existing element, space, or area of a building or facility shall impose a requirement for greater accessibility than that which would be required for new construction. For example, if the elevators and stairs in a building are being altered and the elevators are, in turn, being made accessible, then no accessibility modifications are required to the stairs connecting levels connected by the elevator. If stair modifications to correct unsafe conditions are required by other codes, the modifications shall be done in compliance with these guidelines unless technically infeasible.

(e) At least one interior public pay telephone complying with 4.3.1.9 shall be provided if:

(i) Alterations to existing buildings or facilities with less than four exterior or interior public pay telephones would increase the total number to four or more telephones with at least one in an interior location; or

(ii) Alterations to one or more exterior or interior public pay telephones occur in an existing building or facility with four or more public telephones with at least one in an interior location.

(i) If an escalator or stair is planned or installed where none existed previously and major structural modifications are necessary for such installation, then a means of accessible vertical access shall be provided that complies with the applicable provisions of 4.7, 4.8, 4.10, or 4.11.

(g) In alterations, the requirements of 4.1.3(9), 4.3.10 and 4.3.11 do not apply.

(h) If the alteration entails alterations to an entrance, and the building has an accessible entrance, the entrance being altered is not required to comply with 4.1.3(9), except to the extent required by 4.1.6(2). If a particular entrance is not made accessible, appropriate accessible signage indicating the location of the nearest accessible entrance shall be installed at or near the inaccessible entrance, such that a person with disabilities will not be required to retrace the approach route from the inaccessible entrance.

(i) If the alteration work is limited solely to the electrical, mechanical, or plumbing system, or to hazardous material abatement, or automatic sprinkler retrofitting, and does not involve the alteration of any elements or spaces required to be accessible under these guidelines, then 4.1.6(2) does not apply.

(j) EXCEPTION: In alteration work, if compliance with 4.1.6 is technically infeasible, the alteration shall provide accessibility to the maximum extent feasible. Any elements or features of the building or facility that are being altered and can be made accessible shall be made accessible within the scope of the alteration.

Technically infeasible: Means, with respect to an alteration of a building or a facility, that it has little likelihood of being accomplished because existing structural conditions would require removing or altering a load-bearing member which is an essential part of the structural frame, or because other existing physical or site constraints prohibit modification or
### 4.1.6 Accessible Buildings: Alterations

<table>
<thead>
<tr>
<th>(i) A slope between 1:8 and 1:10 is allowed for a maximum rise of 3 inches. A slope steeper than 1:8 is not allowed.</th>
</tr>
</thead>
<tbody>
<tr>
<td>(ii) Stairs: Full extension of handrails at stairs shall not be required in alterations where such extensions would be hazardous or impossible due to plan configuration.</td>
</tr>
<tr>
<td>(iii) Elevators:</td>
</tr>
<tr>
<td>(i) If safety door edges are provided in existing automatic elevators, automatic door reopening devices may be omitted (see 4.10.6).</td>
</tr>
<tr>
<td>(ii) Where existing shaft configuration or technical infeasibility prohibits strict compliance with 4.10.9, the minimum car plan dimensions may be reduced by the minimum amount necessary, but in no case shall the inside car area be smaller than 48 in by 48 in.</td>
</tr>
<tr>
<td>(iii) Equivalent facilitation may be provided with an elevator car of different dimensions when usability can be demonstrated and when all other elements required to be accessible comply with the applicable provisions of 4.10. For example, an elevator of 47 in by 69 in (1195 mm by 1755 mm) with a door opening on the narrow dimension, could accommodate the standard wheelchair clearances shown in Figure 4.</td>
</tr>
<tr>
<td>(iv) Doors:</td>

</tr>
<tr>
<td>(i) Where it is technically infeasible to comply with 4.22 or 4.23, the installation of at least one unisex toilet/bathroom per floor, located in the same area as existing toilet facilities, will be permitted in lieu of modifying existing toilet facilities to be accessible. Each unisex toilet room shall contain one water closet complying with 4.16 and one lavatory complying with 4.19, and the door shall have a privacy latch.</td>
</tr>
</tbody>
</table>

#### Addition of Elements, Spaces, or Features Which Are in Full and Strict Compliance with the Minimum Requirements for New Construction and Which Are Necessary to Provide Accessibility

| (i) These guidelines do not require the installation of an elevator in an altered facility that is less than three stories or has less than 3,000 square feet per story unless the building is a shopping center, a shopping mall, the professional office of a health care provider, or another type of facility as determined by the Attorney General. |
| (ii) The exemption provided in paragraph (i) does not obviate or limit in any way the obligation to comply with the other accessibility requirements established in these guidelines. For example, alterations to floors above or below the ground floor must be accessible regardless of whether the altered facility has an elevator. If a facility subject to the elevator exemption set forth in paragraph (i) nonetheless has a full passenger elevator, that elevator shall meet, to the maximum extent feasible, the accessibility requirements of these guidelines. |

#### Alterations to an Area Containing a Primary Function: In addition to the requirements of 4.1.6(i), an alteration that affects or could affect the usability of or access to an area containing a primary function shall be made so as to ensure that, to the maximum extent feasible, the path of travel to the altered area and the restrooms, telephones, and drinking fountains serving the altered area, are readily accessible to and usable by individuals with disabilities, unless such alterations are disproportionate to the overall alterations in terms of cost and scope (as determined under criteria established by the Attorney General).
4.1.7 Accessible Buildings: Historic Preservation

(ii) Where it is technically infeasible to install a required standard stall (Fig. 30(6)), or where other codes prohibit reduction of the fixture count (i.e., removal of a water closet in order to create a double-wide stall), either alternate stall (Fig. 30(6)) may be provided in lieu of the standard stall.

(iii) When existing toilet or bathing facilities are being altered and are not made accessible, signage complying with 4.30.1, 4.30.2, 4.30.3, 4.30.5, and 4.30.7 shall be provided indicating the location of the nearest accessible toilet or bathing facility within the facility.

(I) Assembly Areas:

(i) Where it is technically infeasible to disperse accessible seating throughout an altered assembly area, accessible seating areas may be clustered. Each accessible seating area shall have provisions for companion seating and shall be located on an accessible route that also serves as a means of emergency egress.

(ii) Where it is technically infeasible to alter all performing areas to be on an accessible route, at least one of each type of performing area shall be made accessible.

(g) Platform Lifts (Wheelchair Lifts): In alterations, platform lifts (wheelchair lifts) complying with 4.11 and applicable state or local codes may be used as part of an accessible route. The use of lifts is not limited to the four conditions in exception 4 of 4.1.30(8).

(h) Dressing Rooms: In alterations where technical infeasibility can be demonstrated, one dressing room for each sex on each level shall be made accessible. Where only unisex dressing rooms are provided, accessible unisex dressing rooms may be used to fulfill this requirement.

4.1.7 Accessible Buildings: Historic Preservation

(1) Applicability:

(a) General Rule. Alterations to a qualified historic building or facility shall comply with 4.1.6 Accessible Buildings. Alterations, the applicable technical specifications of 4.2 through 4.35 and the applicable special application sections 5 through 10 unless it is determined in accordance with the procedures in 4.1.7(2) that compliance with the requirements for accessible routes interior and exterior, ramps, entrances, or facilities would threaten or destroy the historic significance of the building or facility in which case the alternative requirements in 4.1.7(3) may be used for the feature.

EXCEPTION: (Reserved)

(b) Definition. A qualified historic building or facility is a building or facility that is:

(i) Listed in or eligible for listing in the National Register of Historic Places; or

(ii) Designated as historic under an appropriate State or local law.

(2) Procedures:

(a) Alterations to Qualified Historic Buildings and Facilities Subject to Section 106 of the National Historic Preservation Act:

(i) Section 106 Process. Section 106 of the National Historic Preservation Act (16 U.S.C. 470 f) requires that a Federal agency with jurisdiction over a Federal, federally assisted, or federally licensed undertaking consider the effects of the agency's undertaking on buildings and facilities listed in or eligible for listing in the National Register of Historic Places and give the Advisory Council on Historic Preservation a reasonable opportunity to comment on the undertaking prior to approval of the undertaking.

(ii) ADA Application. Where alterations are undertaken to a qualified historic building or facility that is subject to section 106 of the National Historic Preservation Act, the Federal agency with jurisdiction over the undertaking shall follow the section 106 process. If the State Historic Preservation Officer or Advisory Council on Historic Preservation agrees that compliance with the requirements for accessible routes interior and exterior, ramps, entrances, or facilities would threaten or destroy the historic significance of the building or facility, the alternative requirements in 4.1.7(3) may be used for the feature.
4.2 Space Allowance and Reach Ranges

(b) Alterations to Qualified Historic Buildings and Facilities Not Subject to Section 106 of the National Historic Preservation Act. Where alterations are undertaken to a qualified historic building or facility that is not subject to section 106 of the National Historic Preservation Act, if the entity undertaking the alterations believes that compliance with the requirements for accessible routes (exterior and interior), ramps, entrances, or toilets would threaten or destroy the historic significance of the building or facility and that the alternative requirements in 4.1.7(3) should be used for the feature, the entity should consult with the State Historic Preservation Officer. If the State Historic Preservation Officer agrees that compliance with the accessibility requirements for accessible routes (exterior and interior), ramps, entrances or toilets would threaten or destroy the historical significance of the building or facility, the alternative requirements in 4.1.7(3) may be used.

(c) Consultation With Interested Persons. Interested persons should be invited to participate in the consultation process, including State or local accessibility officials, individuals with disabilities, and organizations representing individuals with disabilities.

(d) Certified Local Government Historic Preservation Programs. Where the State Historic Preservation Officer has delegated the consultation responsibility for purposes of this section to a local government historic preservation program that has been certified in accordance with section 101(c) of the National Historic Preservation Act of 1966 (16 U.S.C. 470a(c)) and implementing regulations (36 CFR 61.5), the responsibility may be carried out by the appropriate local government body or official.

(3) Historic Preservation: Minimum Requirements.

(a) At least one accessible route complying with 4.3 from a site access point to an accessible entrance shall be provided.

EXCEPTION: A ramp with a slope no greater than 1:6 for a run not to exceed 2 ft (610 mm) may be used as part of an accessible route to an entrance.

(b) At least one accessible entrance complying with 4.14 which is used by the public shall be provided.

EXCEPTION: If it is determined that no entrance used by the public can comply with 4.14, then access at any entrance not used by the general public but open (unlocked) with directional signage at the primary entrance may be used. The accessible entrance shall also have a notification system. Where security is a problem, remote monitoring may be used.

(c) If toilets are provided, then at least one toilet facility complying with 4.22 and 4.1.6 shall be provided along an accessible route that complies with 4.3. Such toilet facility may be unisex in design.

(d) Accessible routes from an accessible entrance to all publicly used spaces on at least the level of the accessible entrance shall be provided. Access shall be provided to all levels of a building or facility in compliance with 4.1 whenever practical.

(e) Displays and written information, documents, etc., should be located where they can be seen by a seated person. Exhibits and signage displayed horizontally (e.g., open book), should be no higher than 44 in (1120 mm) above the floor surface.

NOTE: The technical provisions of sections 4.2 through 4.35 are the same as those of the American National Standard Institute's document A117.1-1980, except as noted in the text.

4.2.1 Wheelchair Passage Width. The minimum clear width for single wheelchair passage shall be 32 in (815 mm) at a point and 36 in (915 mm) continuously (see Fig. 1 and 24(e)).

4.2.2 Width for Wheelchair Passing. The minimum width for two wheelchairs to pass is 60 in (1525 mm) (see Fig. 2).

4.2.3 Wheelchair Turning Space. The space required for a wheelchair to make a 180-degree turn is a clear space of 60 in (1525 mm)
Office of the Secretary of Transportation

Pt. 37, App. A

4.2.4* Clear Floor or Ground Space for Wheelchairs

4.2.4* Clear Floor or Ground Space for Wheelchairs.

4.2.4.1 Size and Approach. The minimum clear floor or ground space required to accommodate a single, stationary wheelchair and occupant is 30 in by 48 in (760 mm by 1220 mm) (see Fig. 4(a)). The minimum clear floor or ground space for wheelchairs may be positioned for forward or parallel approach to an object (see Fig. 4(b) and (c)). Clear floor or ground space for wheelchairs may be part of the knee space required under some objects.

4.2.4.2 Relationship of Maneuvering Clearance to Wheelchair Spaces. One full unobstructed side of the clear floor or ground space for a wheelchair shall adjoin or overlap an accessible route or adjoin another wheelchair clear floor space. If a clear floor space is located in an alcove or otherwise confined on all or part of three sides, additional maneuvering clearances shall be provided as shown in Fig. 4(d) and (e).

4.2.4.3 Surfaces for Wheelchair Spaces. Clear floor or ground spaces for wheelchairs shall comply with 4.5.

4.2.5* Forward Reach. If the clear floor space only allows forward approach to an object, the maximum high forward reach allowed shall be 48 in (1220 mm) (see Fig. 5(a)). The minimum low forward reach is 15 in (380 mm). If the high forward reach is over an obstruction, reach and clearances shall be as shown in Fig. 5(b).

4.2.6* Side Reach. If the clear floor space allows parallel approach by a person in a wheelchair, the maximum high side reach allowed shall be 54 in (1370 mm) and the low side reach shall be no less than 9 in (230 mm) above the floor (Fig. 6(a) and (b)). If the side reach is over an obstruction, the reach and clearances shall be as shown in Fig. 6(c).

4.3 Accessible Route.

4.3.1* General. All walks, halls, corridors, aisles, skywalks, tunnels, and other spaces...
4.3 Accessible Route

that are part of an accessible route shall comply with 4.3.

4.3.2 Location.

(1) At least one accessible route within the boundary of the site shall be provided from public transportation stops, accessible parking, and accessible passenger loading zones, and public streets or sidewalks to the accessible building entrance they serve. The accessible route shall, to the maximum extent feasible, coincide with the route for the general public.

(2) At least one accessible route shall connect accessible buildings, facilities, elements, and spaces that are on the same site.

(3) At least one accessible route shall connect accessible building or facility entrances with all accessible spaces and elements and with all accessible dwelling units within the building or facility.

(4) An accessible route shall connect at least one accessible entrance of each accessible dwelling unit with those exterior and interior spaces and facilities that serve the accessible dwelling unit.

4.3.3 Width. The minimum clear width of an accessible route shall be 36 in (915 mm) except at doors (see 4.13.5 and 4.13.6). If a person in a wheelchair must make a turn around an obstruction, the minimum clear width of the accessible route shall be as shown in Fig. 7(a) and (b).

4.3.4 Passing Space. If an accessible route has less than 60 in (1525 mm) clear width, then passing spaces at least 60 in by 60 in (1525 mm by 1525 mm) shall be located at reasonable intervals not to exceed 200 ft (61 m). A T-intersection of two corridors or walks is an acceptable passing place.

4.3.5 Head Room. Accessible routes shall comply with 4.4.2.

4.3.6 Surface Textures. The surface of an accessible route shall comply with 4.5.

---

(b) Forward Approach

(c) Parallel Approach

NOTE: x ≤ 24 in (610 mm).

(d) Clear Floor Space in Alcoves

NOTE: x ≤ 15 in (380 mm).

(e) Additional Maneuvering Clearances for Alcoves

NOTE: if x > 24 in (610 mm), then an additional maneuvering clearance of 8 in (200 mm) shall be provided as shown.

NOTE: if x > 15 in (380 mm), then an additional maneuvering clearance of 12 in (300 mm) shall be provided as shown.

Fig. 4
Minimum Clear Floor Space for Wheelchairs
4.3 Accessible Route

(a) High Forward Reach Limit

(b) Maximum Forward Reach over an Obstruction

NOTE: x shall be ≤ 25 in (635 mm); y shall be ≥ x. When x < 20 in (510 mm), then y shall be 48 in (1220 mm) maximum. When x is 20 to 25 in (510 to 635 mm), then y shall be 44 in (1120 mm) maximum.

Fig. 5
Forward Reach
4.3.7 Slope. An accessible route with a running slope greater than 1:20 is a ramp and shall comply with 4.8. Nowhere shall the cross slope of an accessible route exceed 1:50.

4.3.8 Changes in Levels. Changes in levels along an accessible route shall comply with 4.5.2. If an accessible route has changes in level greater than 1/2 in (13 mm), then a curb ramp, ramp, elevator, or platform lift (as permitted in 4.1.3 and 4.1.6) shall be provided that complies with 4.7, 4.8, 4.10, or 4.11, respectively. An accessible route does not include stairs, steps, or escalators. See definition of "egress, means of" in 3.5.

4.3.9 Doors. Doors along an accessible route shall comply with 4.13.
4.3.10* Egress. Accessible routes serving any accessible space or element shall also serve as a means of egress for emergencies or connect to an accessible area of rescue assistance.

4.3.11 Areas of Rescue Assistance.

4.3.11.1 Location and Construction. An area of rescue assistance shall be one of the following:

1. A portion of a stairway landing within a smokeproof enclosure (complying with local requirements).

2. A portion of an exterior exit balcony located immediately adjacent to an exit stairway when the balcony complies with local requirements for exterior exit balconies. Openings to the interior of the building located within 20 feet (6 m) of the
4.4 Protruding Objects

area of rescue assistance shall be protected with fire assemblies having a three-fourths hour fire protection rating.

3. A portion of a one-hour fire-resistive corridor (complying with local requirements for fire- resistive construction and for openings) located immediately adjacent to an exit enclosure.

4. A vestibule located immediately adjacent to an exit enclosure and constructed to the same fire-resistive standards as required for corridors and openings.

5. A portion of a stairway landing within an exit enclosure which is vented to the exterior and is separated from the interior of the building with not less than one-hour fire-resistive doors.

6. When approved by the appropriate local authority, an area or a room which is separated from other portions of the building by a smoke barrier. Smoke barriers shall have a fire-resistive rating of not less than one hour and shall completely enclose the area or room. Doors in the smoke barrier shall be tight-fitting smoke- and draft control assemblies having a fire- protection rating of not less than 30 minutes and shall be self-closing or automatic closing. The area or room shall be provided with an exit directly to an exit enclosure. Where the room or area exits into an exit enclosure which is required to be of more than one-hour fire-resistive construction, the room or area shall have the same fire-resistive construction, including the same opening protection, as required for the adjacent exit enclosure.

7. An elevator lobby when elevator shafts and adjacent lobbies are pressurized as required for smokeproof enclosures by local regulations and when complying with requirements herein for size, communication, and signage. Such pressurization system shall be actuated by smoke detectors on each floor located in a manner approved by the appropriate local authority. Pressurization equipment and its duct work within the building shall be separated from other portions of the building by a minimum two-hour fire-resistive construction.

4.3.11.2 Size. Each area of rescue assistance shall provide at least two accessible areas each being not less than 30 inches by 48 inches (760 mm by 1220 mm). The area of rescue assistance shall not encroach on any required exit width. The total number of such 30-inch by 48-inch (760 mm by 1220 mm) areas per story shall be not less than one for every 200 persons of calculated occupant load served by the area of rescue assistance.

EXCEPTION: The appropriate local authority may reduce the minimum number of 30-inch by 48-inch (760 mm by 1220 mm) areas to one for each area of rescue assistance on floors where the occupant load is less than 200.

4.3.11.3 Stairway Width. Each stairway adjacent to an area of rescue assistance shall have a minimum clear width of 48 inches between handrails.

4.3.11.4 Two-way Communication. A method of two-way communication, with both visible and audible signals, shall be provided between each area of rescue assistance and the primary entry. The fire department or appropriate local authority may approve a location other than the primary entry.

4.3.11.5 Identification. Each area of rescue assistance shall be identified by a sign which states "AREA OF RESCUE ASSISTANCE" and displays the international symbol of accessibility. The sign shall be illuminated when exit sign illumination is required. Signage shall also be installed at all inaccessible exits and where otherwise necessary to clearly indicate the direction to areas of rescue assistance. In each area of rescue assistance, instructions on the use of the area under emergency conditions shall be posted adjoining the two-way communication system.

4.4 Protruding Objects.

4.4.1 General. Objects projecting from walls (for example, telephones) with their leading edges between 27 in and 80 in (685 mm and 2030 mm) above the finished floor shall protrude no more than 4 in (100 mm) into walls, halls, corridors, passageways, or aisles (see Fig. 8Aa). Objects mounted with their leading edges at or below 27 in (685 mm) above the finished floor may protrude any amount (see Fig. 8Aa and 8B). Free-standing objects mounted on posts or pylons may overhang 12 in (305 mm) maximum from 27 in to 80 in (685 mm to 2030 mm) above the ground or
4.4 Protruding Objects

finished floor (see Fig. 8(c) and (d)). Protruding objects shall not reduce the clear width of an accessible route or maneuvering space (see Fig. 8(e)).

4.4.2 Head Room. Walks, halls, corridors, passageways, aisles, or other circulation spaces shall have 80 in (2030 mm) minimum clear head room (see Fig. 8(f)). If vertical clearance of an area adjoining an accessible route is reduced to less than 80 in (nominal dimension), a barrier to warn blind or visually-impaired persons shall be provided (see Fig. 8(f)).

4.5 Ground and Floor Surfaces.

4.5.1 General. Ground and floor surfaces along accessible routes and in accessible rooms and spaces including floors, walks, ramps, stairs, and curb ramps, shall be stable, firm, slip-resistant, and shall comply with 4.5.

4.5.2 Changes in Level. Changes in level up to 1/4 in (6 mm) may be vertical and without edge treatment (see Fig. 7(c)). Changes in level between 1/4 in and 1/2 in (6 mm and 13 mm)
4.4 Protruding Objects

**Fig. 8 (c) Free-Standing Overhanging Objects**

**Fig. 8 (c-1) Overhead Hazards**

**Fig. 8 (d) Objects Mounted on Posts or Pylons**

Fig. 8
Protruding Objects (Continued)
4.5 Ground and Floor Surfaces

shall be beveled with a slope no greater than 1:2 (see Fig. 7(d)). Changes in level greater than 1/2 in (13 mm) shall be accomplished by means of a ramp that complies with 4.7 or 4.8.

4.5.3 Carpet. If carpet or carpet tile is used on a ground or floor surface, then it shall be securely attached; have a firm cushion, pad, or backing, or no cushion or pad; and have a level loop, textured loop, level cut pile, or level cut/uncut pile texture. The maximum pile thickness shall be 1/2 in (13 mm) (see Fig. 8(i)). Exposed edges of carpet shall be fastened to floor surfaces and have trim along the entire length of the exposed edge. Carpet edge trim shall comply with 4.5.2.

4.5.4 Gratings. If gratings are located in walking surfaces, then they shall have spaces no greater than 1/2 in (13 mm) wide in one direction (see Fig. 8(g)). If gratings have elongated openings, then they shall be placed so that the long dimension is perpendicular to the dominant direction of travel (see Fig. 8(h)).

4.6 Parking and Passenger Loading Zones.

4.6.1 Minimum Number. Parking spaces required to be accessible by 4.1 shall comply with 4.6.2 through 4.6.5. Passenger loading zones required to be accessible by 4.1 shall comply with 4.6.5 and 4.6.6.
4.6 Parking and Passenger Loading Zones

4.6.2 Location. Accessible parking spaces serving a particular building shall be located on the shortest accessible route of travel from adjacent parking to an accessible entrance. In parking facilities that do not serve a particular building, accessible parking shall be located on the shortest accessible route of travel to an accessible pedestrian entrance of the parking facility. In buildings with multiple accessible entrances with adjacent parking, accessible parking spaces shall be dispersed and located closest to the accessible entrances.

4.6.3 Parking Spaces. Accessible parking spaces shall be at least 96 in (2440 mm) wide. Parking access aisles shall be part of an accessible route to the building or facility entrance and shall comply with 4.3. Two accessible parking spaces may share a common access aisle (see Fig. 9). Parked vehicle overhangs shall not reduce the clear width of an accessible route. Parking spaces and access aisles shall be level with surface slopes not exceeding 1:50 (2%) in all directions.

4.6.4 Signage. Accessible parking spaces shall be designated as reserved by a sign showing the symbol of accessibility (see 4.30.7). Spaces complying with 4.1.25(1)(11) shall have an additional sign "Van-Accessible" mounted below the symbol of accessibility. Such signs shall be located so they cannot be obscured by a vehicle parked in the space.

4.6.5 Vertical Clearance. Provide minimum vertical clearance of 114 in (2895 mm) at accessible passenger loading zones and along at least one vehicle access route to such areas from site entrance(s) and exit(s). At parking spaces complying with 4.1.25(11), provide minimum vertical clearance of 98 in (2490 mm) at the parking space and along at least one vehicle access route to such spaces from site entrance(s) and exit(s).

4.6.6 Passenger Loading Zones. Passenger loading zones shall provide an access aisle at least 60 in (1525 mm) wide and 20 ft (6100 mm) long adjacent and parallel to the vehicle pull-up space (see Fig. 10). If there are curbs between the access aisle and the vehicle pull-up space, then a curb ramp complying with 4.7 shall be provided. Vehicle standing spaces and access aisles shall be level with
4.7 Curb Ramps

4.7.1 Location. Curb ramps complying with 4.7 shall be provided wherever an accessible route crosses a curb.

4.7.2 Slope. Slopes of curb ramps shall comply with 4.8.2. The slope shall be measured as shown in Fig. 11. Transitions from ramps to walks, gutters, or streets shall be flush and free of abrupt changes. Maximum slopes of adjoining gutters, road surface immediately adjacent to the curb ramp, or accessible route shall not exceed 1:20.

4.7.3 Width. The minimum width of a curb ramp shall be 36 in (915 mm), exclusive of flared sides.

4.7.4 Surface. Surfaces of curb ramps shall comply with 4.5.

4.7.5 Sides of Curb Ramps. If a curb ramp is located where pedestrians must walk across the ramp, or where it is not protected by handrails or guardrails, it shall have flared sides; the maximum slope of the flare shall be 1:10 (see Fig. 12(a)). Curb ramps with returned curbs may be used where pedestrians would not normally walk across the ramp (see Fig. 12(b)).

4.7.6 Built-up Curb Ramps. Built-up curb ramps shall be located so that they do not project into vehicular traffic lanes (see Fig. 13).

4.7.7 Detectable Warnings. A curb ramp shall have a detectable warning complying with 4.29.2. The detectable warning shall extend the full width and depth of the curb ramp.

4.7.8 Obstructions. Curb ramps shall be located or protected to prevent their obstruction by parked vehicles.

4.7.9 Location at Marked Crossings. Curb ramps at marked crossings shall be wholly contained within the markings, excluding any flared sides (see Fig. 15).

4.7.10 Diagonal Curb Ramps. If diagonal (or corner type) curb ramps have returned curbs or other well-defined edges, such edges shall be parallel to the direction of pedestrian flow. The bottom of diagonal curb ramps shall have 48 in (1220 mm) minimum clear space as shown in Fig. 15(c) and (d). If diagonal curb ramps are provided at marked crossings, the 48 in (1220 mm) clear space shall be within the markings (see Fig. 15(c) and (d)). If diagonal curb ramps have flared sides, they shall also have at least a 24 in (610 mm) long segment of straight curb located on each side of the curb ramp and within the marked crossing (see Fig. 15(c)).
4.8 Ramps

4.7.11 Islands. Any raised islands in crossings shall be cut through level with the street or have curb ramps at both sides and a level area at least 48 in (1220 mm) long between the curb ramps in the part of the island intersected by the crossings (see Fig. 10(a) and (b)).

4.8 Ramps.

4.8.1 General. Any part of an accessible route with a slope greater than 1:20 shall be considered a ramp and shall comply with 4.8.

4.8.2 Slope and Rise. The least possible slope shall be used for any ramp. The maximum slope of a ramp in new construction shall be 1:12. The maximum rise for any run shall be 30 in (760 mm) (see Fig. 10). Curb ramps and ramps to be constructed on existing sites or in existing buildings or facilities may have slopes and rises as allowed in 4.1.6(6)(a) if space limitations prohibit the use of a 1:12 slope or less.
4.8 Ramps

### Fig. 16
Components of a Single Ramp Run and Sample Ramp Dimensions

#### 4.8.3 Clear Width.
The minimum clear width of a ramp shall be 36 in (915 mm).

#### 4.8.4* Landings.
Ramps shall have level landings at bottom and top of each ramp and each ramp run. Landings shall have the following features:

1. The landing shall be at least as wide as the ramp run leading to it.
2. The landing length shall be a minimum of 60 in (1525 mm) clear.
3. If ramps change direction at landings, the minimum landing size shall be 60 in by 60 in (1525 mm by 1525 mm).
4. If a doorway is located at a landing, then the area in front of the doorway shall comply with 4.13.6.

#### 4.8.5* Handrails.
If a ramp run has a rise greater than 6 in (150 mm) or a horizontal projection greater than 72 in (1830 mm), then it shall have handrails on both sides. Handrails are not required on curb ramps or adjacent to seating in assembly areas. Handrails shall comply with 4.38 and shall have the following features:

1. Handrails shall be provided along both sides of ramp segments. The inside handrail on switchback or dogleg ramps shall always be continuous.
2. If handrails are not continuous, they shall extend at least 12 in (305 mm) beyond the top and bottom of the ramp segment and shall be parallel with the floor or ground surface (see Fig. 17).
3. The clear space between the handrail and the wall shall be 1 1/2 in (38 mm).
4. Gripping surfaces shall be continuous.
5. Top of handrail gripping surfaces shall be mounted between 34 in and 38 in (865 mm and 965 mm) above ramp surfaces.
6. Ends of handrails shall be either rounded or returned smoothly to floor, wall, or post.
7. Handrails shall not be joined to railings or returned smoothly to floor, wall, or post.

#### 4.8.6 Cross Slope and Surfaces.
The cross slope of ramp surfaces shall be no greater than 1:50. Ramp surfaces shall comply with 4.5.
### 4.9 Stairs

**4.9.7 Edge Protection.** Ramps and landings with drop-offs shall have curbs, walls, railings, or projecting surfaces that prevent people from slipping off the ramp. Curbs shall be a minimum of 2 in (50 mm) high (see Fig. 17).

**4.9.8 Outdoor Conditions.** Outdoor ramps and their approaches shall be designed so that water will not accumulate on walking surfaces.

**4.9 Stairs.**

**4.9.1 Minimum Number.** Stairs required to be accessible by 4.1 shall comply with 4.9.

**4.9.2 Treads and Risers.** On any given flight of stairs, all steps shall have uniform riser heights and uniform tread widths. Stair treads shall be no less than 11 in (280 mm) wide, measured from riser to riser (see Fig. 18(a)). Open risers are not permitted.

**4.9.3 Nosings.** The underside of nosings shall not be abrupt. The radius of curvature at the leading edge of the tread shall be no greater than 1/2 in (13 mm). Risers shall be sloped or the underside of the nosing shall have an angle not less than 60 degrees from the horizontal. Nosings shall project no more than 1-1/2 in (38 mm) (see Fig. 18).

**4.9.4 Handrails.** Stairways shall have handrails at both sides of all stairs. Handrails shall comply with 4.26 and shall have the following features:

1. Handrails shall be continuous along both sides of stairs. The inside handrail on switchback or dogleg stairs shall always be continuous (see Fig. 19(a) and (b)).

2. If handrails are not continuous, they shall extend at least 12 in (305 mm) beyond the top riser and at least 12 in (305 mm) plus the width of one tread beyond the bottom riser. At the top, the extension shall be parallel with the floor or ground surface. At the bottom, the handrail shall continue to slope for a distance of the width of one tread from the bottom riser; the remainder of the extension shall be horizontal (see Fig. 19(c) and (d)). Handrail extensions shall comply with 4.4.

3. The clear space between handrails and wall shall be 1-1/2 in (38 mm).

4.4 Gripping surfaces shall be uninterrupted by newel posts, other construction elements, or obstructions.

5. Top of handrail gripping surface shall be mounted between 34 in and 38 in (865 mm and 965 mm) above stair nosings.

6. Ends of handrails shall be either rounded or returned smoothly to floor, wall or post.

7. Handrails shall not rotate within their fittings.

**4.9.5 Detectable Warnings at Stairs.** (Reserved).

**4.9.6 Outdoor Conditions.** Outdoor stairs and their approaches shall be designed so that water will not accumulate on walking surfaces.

### 4.10 Elevators.

**4.10.1 General.** Accessible elevators shall be on an accessible route and shall comply with 4.10 and with the ASME A17.1-1990, Safety Code for Elevators and Escalators. Freight elevators shall not be considered as meeting the requirements of this section unless the only elevators provided are used as combination passenger and freight elevators for the public and employees.

**4.10.2 Automatic Operation.** Elevator operation shall be automatic. Each car shall be equipped with a self-leveling feature that will automatically bring the car to floor landings within a tolerance of 1/2 in (13 mm) under rated loading to zero loading conditions. This self-leveling feature shall be automatic and independent of the operating device and shall correct the overtravel or undertravel.

**4.10.3 Hall Call Buttons.** Call buttons in elevator lobbies and halls shall be centered at 42 in (1065 mm) above the floor. Such call buttons shall have visual signals to indicate when each call is registered and when each call is answered. Call buttons shall be a minimum of 3/4 in (19 mm) in the smallest dimension. The button designating the up direction shall be on top. (See Fig. 20.) Buttons shall be raised, or flush. Objects mounted beneath hall call buttons shall not project into the elevator lobby more than 4 in (100 mm).
4.10 Elevators

(c) Rounded Nosing
4.10 Elevators

(a) Plan

(b) Elevation of Center Handrail

(c) Extension at Bottom of Run

(d) Extension at Top of Run

NOTE:
X is the 12 in minimum handrail extension required at each top riser.
Y is the minimum handrail extension of 12 in plus the width of one tread that is required at each bottom riser.

Fig. 19
Stair Handrails
Office of the Secretary of Transportation

Pt. 37, App. A

4.10 Elevators

4.10.5 Raised and Braille Characters on Hoistway Entrances. All elevator hoistway entrances shall have raised and Braille floor designations provided on both jambs. The centerline of the characters shall be 60 in (1525 mm) above finish floor. Such characters shall be 2 in (50 mm) high and shall comply with 4.30.4. Permanently applied plates are acceptable if they are permanently fixed to the jambs. (See Fig. 20).

4.10.6* Door Protective and Reopening Device. Elevator doors shall open and close automatically. They shall be provided with a reopening device that will stop and reopen a car door and hoistway door automatically if the door becomes obstructed by an object or person. The device shall be capable of completing these operations without requiring contact for an obstruction passing through the opening at heights of 5 in and 29 in (125 mm and 735 mm) above finish floor (see Fig. 20). Door reopening devices shall remain effective for at least 20 seconds. After such an interval, doors may close in accordance with the requirements of ASME A17.1-1990.

4.10.7* Door and Signal Timing for Hall Calls. The minimum acceptable time from notification that a car is answering a call until the doors of that car start to close shall be calculated from the following equation:

\[ T = \frac{D}{(1.5 \text{ ft/s})} \text{ or } T = \frac{D}{(445 \text{ mm/s})} \]

where \( T \) total time in seconds and \( D \) distance (in feet or millimeters) from a point in the lobby or corridor 60 in (1525 mm) directly in front of the farthest call button controlling that car to the centerline of its hoistway door (see Fig. 21). For cars with in-car lanterns, \( T \) begins when the lantern is visible from the vicinity of hall call buttons and an audible signal is sounded. The minimum acceptable notification time shall be 5 seconds.

4.10.8 Door Delay for Car Calls. The minimum time for elevator doors to remain fully open in response to a car call shall be 3 seconds.

4.10.9 Floor Plan of Elevator Cars. The floor area of elevator cars shall provide space for wheelchair users to enter the car. maneuver

NOTE: The automatic door reopening device is activated if an object passes through either line A or line B. Line A and line B represent the vertical locations of the door reopening device not requiring contact.

Fig. 20

Hallway and Elevator Entrances

4.10.4 Hall Lanterns. A visible and audible signal shall be provided at each hoistway entrance to indicate which car is answering a call. Audible signals shall sound once for the up direction and twice for the down direction or shall have verbal annunciators that say "up" or "down." Visible signals shall have the following features:

1. Hall lantern fixtures shall be mounted so that their centerline is at least 72 in (1830 mm) above the lobby floor. (See Fig. 20.)

2. Visual elements shall be at least 2-1/2 in (64 mm) in the smallest dimension.

3. Signals shall be visible from the vicinity of the hall call button (see Fig. 20). In-car lanterns located in cars, visible from the vicinity of hall call buttons, and conforming to the above requirements, shall be acceptable.
within reach of controls, and exit from the car. Acceptable door opening and inside dimensions shall be as shown in Fig. 22. The clearance between the car platform sill and the edge of any hoistway landing shall be no greater than 1-1/4 in (32 mm).

**4.10.10 Floor Surfaces.** Floor surfaces shall comply with 4.5.

**4.10.11 Illumination Levels.** The level of illumination at the car controls, platform, and car threshold and landing sill shall be at least 5 footcandles (53.8 lux).

**4.10.12* Car Controls.** Elevator control panels shall have the following features:

1. Buttons. All control buttons shall be at least 5/4 in (19 mm) in their smallest dimension. They shall be raised or flush.

2. Tactile, Braille, and Visual Control Indicators. All control buttons shall be designated by Braille and by raised standard alphabet characters for letters, Arabic characters for numerals, or standard symbols as shown in Fig. 23(a), and as required in ASME A17.1-1990. Raised and Braille characters and symbols shall comply with 4.30. The call button for the main entry floor shall be designated by a raised star at the left of the floor designation (see Fig. 23(a)). All raised designations for control buttons shall be placed immediately to the left of the button to which they apply. Applied plate.

permanently attached, are an acceptable means to provide raised control designations. Floor buttons shall be provided with visual indicators to show when each call is registered. The visual indicators shall be extinguished when each call is answered.

3. Height. All floor buttons shall be no higher than 54 in (1370 mm) above the finish floor for side approach and 48 in (1220 mm) for front approach. Emergency controls, including the emergency alarm and emergency stop, shall be grouped at the bottom of the panel and shall have their centerlines no less than 35 in (890 mm) above the finish floor (see Fig. 23(a) and (b)).
4.10.13 Car Position Indicators

(4) Location. Controls shall be located on a front wall if cars have center opening doors, and at the side wall or at the front wall next to the door if cars have side opening doors (see Fig. 23c) and (d).

4.10.13 Car Position Indicators. In elevator cars, a visual car position indicator shall be provided above the car control panel or over the door to show the position of the elevator in the hoistway. As the car passes or stops at a floor served by the elevators, the corresponding numerals shall illuminate, and an audible signal shall sound. Numerals shall be a minimum of 1/2 in (13 mm) high. The audible signal shall be no less than 20 decibels with a frequency no higher than 1500 Hz. An automatic verbal announcement of the floor number at which a car stops or which a car passes may be substituted for the audible signal.

4.10.14 Emergency Communications. If provided, emergency two-way communication systems between the elevator and a point outside the hoistway shall comply with ASME
### 4.11 Platform Lifts (Wheelchair Lifts)

A17.1 1990. The highest operable part of a two-way communication system shall be a maximum of 48 in (1220 mm) from the floor of the car. It shall be identified by a raised symbol and lettering complying with 4.30 and located adjacent to the device. If the system uses a handset then the length of the cord from the panel to the handset shall be at least 29 in (735 mm). If the system is located in a closed compartment the compartment door hardware shall conform to 4.27, Controls and Operating Mechanisms. The emergency intercommunication system shall not require voice communication.

#### 4.11 Platform Lifts (Wheelchair Lifts)

##### 4.11.1 Location

Platform lifts (wheelchair lifts) permitted by 4.1 shall comply with the requirements of 4.11.

##### 4.11.2 Other Requirements

If platform lifts (wheelchair lifts) are used, they shall comply with 4.2.4, 4.5, 4.27, and ASME A17.1 Safety Code for Elevators and Escalators, Section XX, 1990.

##### 4.11.3 Entrance

If platform lifts are used, they shall facilitate unassisted entry, operation, and exit from the lift in compliance with 4.11.2.

### 4.12 Windows

#### 4.12.1 General

(Reserved).

#### 4.12.2 Window Hardware

(Reserved).

### 4.13 Doors

#### 4.13.1 General

Doors required to be accessible by 4.1 shall comply with the requirements of 4.13.

#### 4.13.2 Revolving Doors and Turnstiles

Revolving doors or turnstiles shall not be the only means of passage at an accessible entrance or along an accessible route. Any accessible gate or door shall be provided adjacent to the turnstile or revolving door and shall be so designed as to facilitate the same use pattern.

#### 4.13.3 Gates

Gates, including ticket gates, shall meet all applicable specifications of 4.13.

#### 4.13.4 Double-Leaf Doorways

If doorways have two independently operated door leaves, then at least one leaf shall meet the specifications in 4.13.5 and 4.13.6. That leaf shall be an active leaf.

#### 4.13.5 Clear Width

Doorways shall have a minimum clear opening of 32 in (815 mm) with the door open 90 degrees, measured between the face of the door and the opposite stop (see Fig. 24(a), (b), (c), and (d)). Openings more than 24 in (610 mm) in depth shall comply with 4.2.1 and 4.3.3 (see Fig. 24(c)).

**EXCEPTION:** for doors not requiring full user passage, such as shallow closets, may have the clear opening reduced to 20 in (510 mm) minimum.

#### 4.13.6 Maneuvering Clearances at Doors

Minimum maneuvering clearances at doors that are not automatic or power-assisted shall be as shown in Fig. 25. The floor or ground area within the required clearances shall be level and clear.

**EXCEPTION:** Entry doors to acute care hospital bedrooms for in-patients shall be exempted from the requirement for space at the latch side of the door (see dimension “x” in Fig. 25) if the door is at least 44 in (1120 mm) wide.

#### 4.13.7 Two Doors in Series

The minimum space between two hinged or pivoted doors in series shall be 48 in (1220 mm) plus the width of any door swinging into the space. Doors in series shall swing either in the same direction or away from the space between the doors (see Fig. 26).

#### 4.13.8 Thresholds at Doorways

Thresholds at doorways shall not exceed 3/4 in (19 mm) in height for exterior sliding doors or 1/2 in (13 mm) for other types of doors. Raised thresholds and floor level changes at accessible doorways shall be beveled with a slope no greater than 1:2 (see 4.5.2).

#### 4.13.9 Door Hardware

Handles, pulls, latches, locks, and other operating devices on accessible doors shall have a shape that is easy
to grasp with one hand and does not require tight grasping, tight pinching, or twisting of the wrist to operate. Lever-operated mechanisms, push-type mechanisms, and U-shaped handles are acceptable designs. When sliding doors are fully open, operating hardware shall be exposed and usable from both sides. Hardware required for accessible door passage shall be mounted no higher than 48 in (1220 mm) above finished floor.

**4.13.10 Door Closers.** If a door has a closer, then the sweep period of the closer shall be adjusted so that from an open position of 70 degrees, the door will take at least 3 seconds to move to a point 3 in (75 mm) from the latch, measured to the leading edge of the door.

**4.13.11 Door Opening Force.** The maximum force for pushing or pulling open a door shall be as follows:

1. Fire doors shall have the minimum opening force allowable by the appropriate administrative authority.
2. Other doors.
   - (a) exterior hinged doors: (Reserved).
   - (b) interior hinged doors: 5 lb (22.2N)
   - (c) sliding or folding doors: 5 lb (22.2N)

These forces do not apply to the force required to retract latch bolts or disengage other devices that may hold the door in a closed position.
4.13 Doors

(a) Front Approaches — Swinging Doors

NOTE: $x = 12$ in (305 mm) if door has both a closer and latch.

(b) Hinge Side Approaches — Swinging Doors

NOTE: $x = 54$ in (1370 mm) minimum if door has closer.

NOTE: $y = 48$ in (1220 mm) minimum if door has closer.

(c) Latch Side Approaches — Swinging Doors

NOTE: All doors in above shall comply with the clearances for front approaches.

Fig. 25
Maneuvering Clearances at Doors
4.13 Doors

(d) Front Approach — Sliding Doors and Folding Doors

(e) Slide Side Approach — Sliding Doors and Folding Doors

(f) Latch Side Approach — Sliding Doors and Folding Doors

NOTE: All doors in alcoves shall comply with the clearances for front approaches.

Fig. 25
Maneuvering Clearances at Doors (Continued)

Fig. 26
Two Hinged Doors in Series
### 4.14 Entrances

**4.13.12* Automatic Doors and Power-Assisted Doors.** If an automatic door is used, then it shall comply with ANSI/A156.19-1984. Such doors shall be open to back check faster than 3 seconds and shall require no more than 15 lbf (66 N) to stop door movement. If a power-assisted door is used, its door-opening force shall comply with 4.13.11 and its closing shall conform to the requirements in ANSI A156.19-1984.

#### 4.14 Entrances.

**4.14.1 Minimum Number.** Entrances required to be accessible by 4.1 shall be part of an accessible route complying with 4.3. Such entrances shall be connected by an accessible route to public transportation stops, to accessible parking and passenger loading zones, and to public streets or sidewalks if available (see 4.3.2(1)). They shall also be connected by an accessible route to all accessible spaces or elements within the building or facility.

**4.14.2 Service Entrances.** A service entrance shall not be the sole accessible entrance unless it is the only entrance to a building or facility (for example, in a factory or garage).

**4.15 Drinking Fountains and Water Coolers.**

**4.15.1 Minimum Number.** Drinking fountains or water coolers required to be accessible by 4.1 shall comply with 4.15.

**4.15.2 Spout Height.** Spouts shall be no higher than 36 in (915 mm), measured from the floor or ground surfaces to the spout outlet (see Fig. 27(a)).

**4.15.3 Spout Location.** The spouts of drinking fountains and water coolers shall be at the front of the unit and shall direct the water flow in a trajectory that is parallel or nearly parallel to the front of the unit. The spout shall provide a flow of water at least 4 in (100 mm) high so as to allow the insertion of a cup or glass under the flow of water. On an accessible drinking fountain with a round or oval bowl, the spout must be positioned so the flow of water is within 3 in (75 mm) of the front edge of the fountain.

#### 4.15.4 Controls.** Controls shall comply with 4.27.4. That controls shall be front mounted or side mounted near the front edge.

#### 4.15.5 Clearances.

1. Wall- and post-mounted cantilevered units shall have a clear knee space between the bottom of the apron and the floor or ground at least 27 in (685 mm) high, 30 in (760 mm) wide, and 17 in to 19 in (430 mm to 485 mm) deep (see Fig. 27(a) and (b)). Such units shall also have a minimum clear floor space 30 in by 48 in (760 mm by 1220 mm) to allow a person in a wheelchair to approach the unit facing forward.

2. Free-standing or built-in units not having a clear space under them shall have a clear floor space at least 30 in by 48 in (760 mm by 1220 mm) that allows a person in a wheelchair to make a parallel approach to the unit (see Fig. 27(c) and (d)). This clear floor space shall comply with 4.2.4.

**4.16 Water Closets.**

**4.16.1 General.** Accessible water closets shall comply with 4.16.

**4.16.2 Clear Floor Space.** Clear floor space for water closets not in stalls shall comply with Fig. 28. Clear floor space may be arranged to allow either a left-handed or right-handed approach.

**4.16.3 Height.** The height of water closets shall be 17 in to 19 in (430 mm to 485 mm), measured to the top of the toilet seat (see Fig. 29(b)). Seats shall not be sprung to return to a lifted position.

**4.16.4 Grab Bars.** Grab bars for water closets not located in stalls shall comply with 4.26 and Fig. 29. The grab bar behind the water closet shall be 36 in (915 mm) minimum.

**4.16.5 Flush Controls.** Flush controls shall be hand operated or automatic and shall comply with 4.27.4. Controls for flush valves.
shall be mounted on the wide side of toilet areas no more than 44 in (1120 mm) above
the floor.

4.16.6 Dispensers. Toilet paper dispensers shall be installed within reach, as shown in
Fig. 29(b). Dispensers that control delivery, or that do not permit continuous paper flow, shall
not be used.

4.17.1 Location. Accessible toilet stalls shall be on an accessible route and shall meet the
requirements of 4.17.

4.17.2 Water Closets. Water closets in accessible stalls shall comply with 4.16.

Fig. 27
Drinking Fountains and Water Coolers
4.17 Toilet Stalls

4.17.3* Size and Arrangement. The size and arrangement of the standard toilet stall shall comply with Fig. 30(a), Standard Stall. Standard toilet stalls with a minimum depth of 56 in (1420 mm) (see Fig. 30(a)) shall have wall-mounted water closets. If the depth of a standard toilet stall is increased at least 3 in (75 mm), then a floor-mounted water closet may be used. Arrangements shown for standard toilet stalls may be reversed to allow either a left- or right-hand approach. Additional stalls shall be provided in conformance with 4.22.4.

EXCEPTION: In instances of alteration work where provision of a standard stall (Fig. 30(a)) is technically infeasible or where plumbing code requirements prevent combining existing stalls to provide space, either alternate stall (Fig. 30(b)) may be provided in lieu of the standard stall.

4.17.4 Toe Clearances. In standard stalls, the front partition and at least one side partition shall provide a toe clearance of at least 9 in (230 mm) above the floor. If the depth of the stall is greater than 60 in (1525 mm), then the toe clearance is not required.

4.17.5* Doors. Toilet stall doors, including door hardware, shall comply with 4.13. If toilet stall approach is from the latch side of the stall door, clearance between the door side of the
4.17 Toilet Stalls

(a) Standard Stall
(b) Alternate Stalls
(c) Rear Wall of Standard Stall
(d) Side Walls

Fig. 30
Toilet Stalls
4.19 Lavatories and Mirrors

 stall and any obstruction may be reduced to a minimum of 42 in (1065 mm) (Fig. 30).

4.17.6 Grab Bars. Grab bars complying with the length and positioning shown in Fig. 30(a), (b), (c), and (d) shall be provided. Grab bars may be mounted with any desired method as long as they have a gripping surface at the locations shown and do not obstruct the required clear floor area. Grab bars shall comply with 4.26.

4.18 Urinals.

4.18.1 General. Accessible urinals shall comply with 4.18.

4.18.2 Height. Urinals shall be stall-type or wall-hung with an elongated rim at a maximum of 17 in (430 mm) above the finish floor.

4.18.3 Clear Floor Space. A clear floor space 30 in by 48 in (760 mm by 1220 mm) shall be provided in front of urinals to allow forward approach. This clear space shall adjoin or overlap an accessible route and shall comply with 4.2.4. Urinal shields that do not extend beyond the front edge of the urine rim may be provided with 29 in (735 mm) clearance between them.

4.18.4 Flush Controls. Flush controls shall be hand operated or automatic, and shall comply with 4.27.4, and shall be mounted no more than 44 in (1120 mm) above the finish floor.

4.19 Lavatories and Mirrors.

4.19.1 General. The requirements of 4.19 shall apply to lavatory fixtures, vanities, and built-in lavatories.

4.19.2 Height and Clearances. Lavatories shall be mounted with the rim or counter surface no higher than 34 in (869 mm) above the finish floor. Provide a clearance of at least 29 in (735 mm) above the finish floor to the bottom of the apron. Knee and toe clearance shall comply with Fig. 31.

4.19.3 Clear Floor Space. A clear floor space 30 in by 48 in (760 mm by 1220 mm) complying with 4.2.4 shall be provided in front of a lavatory to allow forward approach. Such clear floor space shall adjoin or overlap an accessible route and shall extend a maximum of 19 in (485 mm) underneath the lavatory (see Fig. 32).

4.19.4 Exposed Pipes and Surfaces. Hot water and drain pipes under lavatories shall be insulated or otherwise configured to protect against contact. There shall be no sharp or abrasive surfaces under lavatories.

4.19.5 Faucets. Faucets shall comply with 4.27.4. Lever-operated, push-type, and electronically controlled mechanisms are examples of acceptable designs. If self-closing valves arc
4.20 Bathtubs

4.20.1 General. Accessible bathtubs shall comply with 4.20.

4.20.2 Floor Space. Clear floor space in front of bathtubs shall be as shown in Fig. 33.

4.20.3 Seat. An in-tub seat or a seat at the head end of the tub shall be provided as shown in Fig. 33 and 34. The structural strength of seats and their attachments shall comply with 4.26.3. Seats shall be mounted securely and shall not slip during use.

4.20.4 Grab Bars. Grab bars complying with 4.26 shall be provided as shown in Fig. 33 and 34.

4.20.5 Controls. Faucets and other controls complying with 4.27.4 shall be located as shown in Fig. 34.

4.20.6 Shower Unit. A shower spray unit with a hose at least 60 in (1525 mm) long that can be used both as a fixed shower head and as a hand-held shower shall be provided.

4.20.7 Bathtub Enclosures. If provided, enclosures for bathtubs shall not obstruct controls or transfer from wheelchairs onto bathtub seats or into tubs. Enclosures on bathtubs shall not have tracks mounted on their rims.

4.21 Shower Stalls.

4.21.1 General. Accessible shower stalls shall comply with 4.21.

4.21.2 Size and Clearances. Except as specified in 9.1.2, shower stall size and clear floor space shall comply with Fig. 35(a) or (b). The shower stall in Fig. 35(a) shall be 36 in by 36 in (915 mm by 915 mm). Shower stalls required by 9.1.2 shall comply with Fig. 57(a) or (b). The shower stall in Fig. 35(b) will fit into the space required for a bathtub.

4.21.3 Seat. A seat shall be provided in shower stalls 36 in by 36 in (915 mm by 915 mm) and shall be as shown in Fig. 36. The seat shall be mounted 17 in to 19 in (430 mm to 485 mm) from the bathroom floor and shall extend the full depth of the stall. In a 36 in by 36 in (915 mm by 915 mm) shower stall, the seat shall be on the wall opposite the controls. Where a fixed seat is provided in a 30 in by 60 in minimum (760 mm by 1525 mm) shower stall, it shall be a folding type and shall be mounted on the wall adjacent to the controls as shown in Fig. 57. The structural strength of seats and their attachments shall comply with 4.26.3.

4.21.4 Grab Bars. Grab bars complying with 4.26 shall be provided as shown in Fig. 37.

4.21.5 Controls. Faucets and other controls complying with 4.27.4 shall be located as shown in Fig. 37. In shower stalls 36 in by 36 in (915 mm by 915 mm), all controls, faucets, and the shower unit shall be mounted on the side wall opposite the seat.

4.21.6 Shower Unit. A shower spray unit with a hose at least 60 in (1525 mm) long that can be used both as a fixed shower head and as a hand-held shower shall be provided.

EXCEPTION: In unmonitored facilities where vandalism is a consideration, a fixed shower head mounted at 48 in (1220 mm) above the shower floor may be used in lieu of a hand-held shower head.

4.21.7 Curbs. If provided, curbs to shower stalls 36 in by 36 in (915 mm by 915 mm) shall be no higher than 1/2 in (13 mm). Shower stalls that are 30 in by 60 in (760 mm by 1525 mm) minimum shall not have curbs.

4.21.8 Shower Enclosures. If provided, enclosures for shower stalls shall not obstruct controls or obstruct transfer from wheelchairs onto shower seats.

4.22 Toilet Rooms.

4.22.1 Minimum Number. Toilet facilities required to be accessible by 4.1 shall comply

Clear Floor Space at Bathtubs

(a) With Seat in Tub

(b) With Seat at Head of Tub

Fig. 34
Grab Bars at Bathtubs
4.22.2 Doors. All doors to accessible toilet rooms shall comply with 4.13. Doors shall not swing into the clear floor space required for any fixture.

4.22.3 Clear Floor Space. The accessible fixtures and controls required in 4.22.4, 4.22.5, 4.22.6, and 4.22.7 shall be on an accessible route. An unobstructed turning space complying with 4.2.3 shall be provided within an accessible toilet room. The clear floor space at fixtures and controls, the accessible route, and the turning space may overlap.

4.22.4 Water Closets. If toilet stalls are provided, then at least one shall be a standard toilet stall complying with 4.17; where 6 or more stalls are provided, in addition to the stall complying with 4.17.3, at least one stall 36 in. (915 mm) wide with an outward swinging, self-closing door and parallel grab bars complying with Figs. 306(d) and 4.26 shall be provided. Water closets in such stalls shall comply with 4.16. If water closets are not in stalls, then at least one shall comply with 4.18.

4.22.5 Urinals. If urinals are provided, then at least one shall comply with 4.18.

4.22.6 Lavatories and Mirrors. If lavatories and mirrors are provided, then at least one of each shall comply with 4.19.

4.22.7 Controls and Dispensers. If controls, dispensers, receptacles, or other
4.23 Bathrooms, Bathing Facilities, and Shower Rooms

equipment are provided, then at least one of each shall be on an accessible route and shall comply with 4.27.

4.23 Bathrooms, Bathing Facilities, and Shower Rooms.

4.23.1 Minimum Number. Bathrooms, bathing facilities, or shower rooms required to be accessible by 4.1 shall comply with 4.23 and shall be on an accessible route.

4.23.2 Doors. Doors to accessible bathrooms shall comply with 4.13. Doors shall not swing into the floor space required for any fixture.

4.23.3' Clear Floor Space. The accessible fixtures and controls required in 4.23.4, 4.23.5, 4.23.6, 4.23.7, 4.23.8, and 4.23.9 shall be on an accessible route. An unobstructed turning

</tbody>
</table>
4.26 Handrails, Grab Bars, and Tub and Shower Seats

4.26.1* General. All handrails, grab bars, and tub and shower seats required to be accessible by 4.1, 4.8, 4.9, 4.16, 4.17, 4.20 or 4.21 shall comply with 4.26.

4.26.2* Size and Spacing of Grab Bars and Handrails. The diameter or width of the gripping surfaces of a handrail or grab bar shall be 1-1/4 in to 1-1/2 in (32 mm to 38 mm), or the shape shall provide an equivalent gripping surface. If handrails or grab bars are mounted adjacent to a wall, the space between the wall and the grab bar shall be 1-1/2 in (38 mm) (see Fig. 39(a), (b), (c), and (d)). Handrails may be located in a recess if the recess is a maximum of 3 in (75 mm) deep and extends at least 18 in (455 mm) above the top of the rail (see Fig. 39(d)).

4.26.3 Structural Strength. The structural strength of grab bars, tub and shower seats, fasteners, and mounting devices shall meet the following specification:

(1) Bending stress in a grab bar or seat induced by the maximum bending moment from the application of 250 lb (1112N) shall be less than the allowable stress for the material of the grab bar or seat.

(2) Shear stress induced in a grab bar or seat by the application of 250 lb (1112N) shall be less than the allowable shear stress for the material of the grab bar or seat. If the connection between the grab bar or seat and its mounting bracket or other support is considered to be fully restrained, then direct and torsional shear stresses shall be totaled for the combined shear stress, which shall not exceed the allowable shear stress.

(3) Shear force induced in a fastener or mounting device from the application of 250 lb (1112N) shall be less than the allowable lateral load of either the fastener or mounting device or the supporting structure, whichever is the smaller allowable load.

(4) Tensile force induced in a fastener by a direct tension force of 250 lb (1112N) plus the maximum moment from the application of 250 lb (1112N) shall be less than the allowable withdrawal load between the fastener and the supporting structure.

(5) Grab bars shall not rotate within their fittings.
4.26 Handrails, Grab Bars, and Tub and Shower Seats

Fig. 39
Size and Spacing of Handrails and Grab Bars

4.26.4 Eliminating Hasards. A handrail or grab bar and any wall or other surface adjacent to it shall be free of any sharp or abrasive elements. Edges shall have a minimum radius of 1/8 in (3.2 mm).

4.27 Controls and Operating Mechanisms.

4.27.1 General. Controls and operating mechanisms required to be accessible by 4.1 shall comply with 4.27.
4.28 Alarms

4.27.2 Clear Floor Space. Clear floor space complying with 4.2.4 that allows a forward or a parallel approach by a person using a wheelchair shall be provided at controls, dispensers, receptacles, and other operable equipment.

4.27.3* Height. The highest operable part of controls, dispensers, receptacles, and other operable equipment shall be placed within at least one of the reach ranges specified in 4.2.5 and 4.2.6. Electrical and communications system receptacles on walls shall be mounted no less than 15 in (380 mm) above the floor.

EXCEPTION: These requirements do not apply where the use of special equipment dictates otherwise or where electrical and communications systems receptacles are not normally intended for use by building occupants.

4.27.4 Operation. Controls and operating mechanisms shall be operable with one hand and shall not require tight grasping, pinching, or twisting of the wrist. The force required to activate controls shall be no greater than 5 lbf (22.2 N).

4.28 Alarms.

4.28.1 General. Alarm systems required to be accessible by 4.1 shall comply with 4.28. At a minimum, visual signal appliances shall be provided in buildings and facilities in each of the following areas: restrooms and any other general usage areas (e.g., meeting rooms), hallways, lobbies, and any other area for common use.

4.28.2* Audible Alarms. If provided, audible emergency alarms shall produce a sound that exceeds the prevailing equivalent sound level in the room or space by at least 15 dBA or exceeds any maximum sound level with a duration of 60 seconds by 5 dBA, whichever is louder. Sound levels for alarm signals shall not exceed 120 dBA.

4.28.3* Visual Alarms. Visual alarm signal appliances shall be integrated into the building or facility alarm system. If single station audible alarms are provided, then single station visual alarm signals shall be provided. Visual alarm signals shall have the following minimum photometric and location features:

(1) The lamp shall be a xenon strobe type or equivalent.

(2) The color shall be clear or nominal white (i.e., unfiltered or clear filtered white light).

(3) The maximum pulse duration shall be two tenths of one second (0.2 sec) with a maximum duty cycle of 40 percent. The pulse duration is defined as the time interval between initial and final points of 10 percent of maximum signal.

(4) The intensity shall be a minimum of 75 candela.

(5) The flash rate shall be a minimum of 1 Hz and a maximum of 3 Hz.

(6) The appliance shall be placed 80 in (2030 mm) above the highest floor level within the space or 6 in (152 mm) below the ceiling, whichever is lower.

(7) In general, no place in any room or space required to have a visual signal appliance shall be more than 50 ft (15 m) from the signal (in the horizontal plane). In large rooms and spaces exceeding 100 ft (30 m) across, without obstructions 6 ft (2 m) above the floor, such as auditoriums, devices may be placed around the perimeter, spaced a maximum 100 ft (30 m) apart, in lieu of suspending appliances from the ceiling.

(8) No place in common corridors or hallways in which visual alarm signaling appliances are required shall be more than 50 ft (15 m) from the signal.

4.28.4* Auxiliary Alarms. Units and sleeping accommodations shall have a visual alarm connected to the building emergency alarm system or shall have a standard 110-volt electrical receptacle into which such an alarm can be connected and a means by which a signal from the building emergency alarm system can trigger such an auxiliary alarm. When visual alarms are in place the signal shall be visible in all areas of the unit or room. Instructions for use of the auxiliary alarm or receptacle shall be provided.
### 4.29 Detectable Warnings

#### 4.29.1 General
Detectable warnings required by 4.1 and 4.7 shall comply with 4.29.

#### 4.29.2 Detectable Warnings on Walking Surfaces
Detectable warnings shall consist of raised truncated domes with a diameter of nominal 0.9 in (23 mm), a height of nominal 0.2 in (5 mm) and a center-to-center spacing of nominal 2.35 in (60 mm) and shall contrast visually with adjoining surfaces, either light-on-dark, or dark-on-light.

The material used to provide contrast shall be an integral part of the walking surface. Detectable warnings used on interior surfaces shall differ from adjoining walking surfaces in resiliency or sound-on-cane contact.

#### 4.29.3 Detectable Warnings on Doors To Hazardous Areas
(Reserved)

#### 4.29.4 Detectable Warnings at Stairs
(Reserved)

#### 4.29.5 Detectable Warnings at Hazardous Vehicular Areas
If a walk crosses or adjoins a vehicular way, and the walking surfaces are not separated by curbs, railings, or other elements between the pedestrian areas and vehicular areas, the boundary between the areas shall be defined by a continuous detectable warning which is 36 in (915 mm) wide, complying with 4.29.2.

#### 4.29.6 Detectable Warnings at Reflecting Pools
The edges of reflecting pools shall be protected by railings, walls, curbs, or detectable warnings complying with 4.29.2.

#### 4.29.7 Standardization
(Reserved)

### 4.30 Signage

#### 4.30.1 General
Signage required to be accessible by 4.1 shall comply with the applicable provisions of 4.30.

#### 4.30.2 Character Proportion
Letters and numbers on signs shall have a width-to-height ratio between 3:5 and 1:1 and a stroke-width-to-height ratio between 1:5 and 1:10.

### 4.30.3 Character Height
Characters and numbers on signs shall be sized according to the viewing distance from which they are to be read. The minimum height is measured using an upper case X. Lower case characters are permitted.

<table>
<thead>
<tr>
<th>Height Above Finished Floor</th>
<th>Minimum Character Height</th>

</thead>
<tbody>
<tr>
<td>Suspended or Projected</td>
<td>3 in. (75 mm) minimum</td>
</tr>
<tr>
<td>Overhead in compliance with 4.4.2</td>
<td></td>
</tr>
</tbody>
</table>

#### 4.30.4 Raised and Brailed Characters and Pictorial Symbol Signs (Pictograms)
Letters and numerals shall be raised 1/32 in. upper case, sans serif or simple serif type and shall be accompanied with Grade 2 braille. Raised characters shall be at least 5/8 in (16 mm) high, but no higher than 2 in (50 mm). Pictograms shall be accompanied by the equivalent verbal description placed directly below the pictogram. The border dimension of the pictogram shall be 6 in (152 mm) minimum in height.

#### 4.30.5 Finish and Contrast
The characters and background of signs shall be eggshell, matte, or other non-glare finish. Characters and symbols shall contrast with their background — either light characters on a dark background or dark characters on a light background.

#### 4.30.6 Mounting Location and Height
Where permanent identification is provided, for rooms and spaces, signs shall be installed on the wall adjacent to the latch side of the door. Where there is no wall space to the latch side of the door, including at double leaf doors, signs shall be placed on the nearest adjacent wall. Mounting height shall be 60 in (1525 mm) above the finish floor to the centerline of the sign. Mounting location for such signage shall be so that a person may approach within 3 in (76 mm) of signage without encountering protruding objects or standing within the swing of a door.

#### 4.30.7 Symbols of Accessibility
(1) Facilities and elements required to be identified as accessible by 4.1 shall use the international symbol of accessibility. The
4.30 Signage

</tbody>
</table>

Symbol shall be displayed as shown in Fig. 43(a) and (b).

2. Volume Control Telephones. Telephones required to have a volume control by 4.1.3(17)(a) shall be identified by a sign containing a depiction of a telephone handset with radiating sound waves.

3. Text Telephones. Text telephones required by 4.1.3(17)(c) shall be identified by the international TDO symbol (Fig. 43(b)). In addition, if a facility has a public text telephone, directional signage indicating the location of the nearest text telephone shall be placed adjacent to all banks of telephones which do not contain a text telephone. Such directional signage shall include the international TDO symbol. If a facility has no banks of telephones, the directional signage shall be provided at the entrance (e.g., in a building directory).

4. Assistive Listening Systems. In assembly areas where permanently installed assistive listening systems are required by 4.1.3(19)(b), the availability of such systems shall be identified with signage that includes the international symbol of access for hearing loss (Fig. 43(d)).

4.30.8* Illumination Levels. (Reserved).

4.31 Telephones.

4.31.1 General. Public telephones required to be accessible by 4.1 shall comply with 4.31.

4.31.2 Clear Floor or Ground Space. A clear floor or ground space at least 30 in by 48 in (760 mm by 1220 mm) that allows either a forward or parallel approach by a person using a wheelchair shall be provided at telephones (see Fig. 44). The clear floor or ground space shall comply with 4.2.4. Bases, enclosures, and fixed seats shall not impede approaches to telephones by people who use wheelchairs.

4.31.3* Mounting Height. The highest operable part of the telephone shall be within the reach ranges specified in 4.2.5 or 4.2.6.

4.31.4 Protruding Objects. Telephones shall comply with 4.4.
4.31 Telephones

**Fig. 44**
Mounting Heights and Clearances for Telephones

### 4.31.5 Hearing Aid Compatible and Volume Control Telephones Required by 4.1.

1. Telephones shall be hearing aid compatible.
2. Volume controls, capable of a minimum of 12 dBA and a maximum of 18 dBA above normal, shall be provided in accordance with 4.1.3. If an automatic reset is provided then 18 dBA may be exceeded.

### 4.31.6 Controls
Telephones shall have pushbutton controls where service for such equipment is available.
4.32 Fixed or Built-in Seating and Tables

4.31.7 Telephone Books. Telephone books, if provided, shall be located in a position that complies with the reach ranges specified in 4.2.5 and 4.2.6.

4.31.8 Cord Length. The cord from the telephone to the handset shall be at least 29 in (735 mm) long.

4.31.9* Text Telephones Required by 4.1.

(1) Text telephones used with a pay telephone shall be permanently affixed within, or adjacent to, the telephone enclosure. If an acoustic coupler is used, the telephone cord shall be sufficiently long to allow connection of the text telephone and the telephone receiver.

(2) Pay telephones designated to accommodate a portable text telephone shall be equipped with a shelf and an electrical outlet within or adjacent to the telephone enclosure. The telephone handset shall be capable of being placed flush on the surface of the shelf. The shelf shall be capable of accommodating a text telephone and shall have 6 in (152 mm) minimum vertical clearance in the area where the text telephone is to be placed.

(3) Equivalent facilitation may be provided. For example, a portable text telephone may be made available in a hotel at the registration desk if it is available on a 24-hour basis for use with nearby pay telephones. In this instance, at least one pay telephone shall comply with paragraph 2 of this section. In addition, if an acoustic coupler is used, the telephone handset cord shall be sufficiently long so as to allow connection of the text telephone and the telephone receiver. Directional signage shall be provided and shall comply with 4.30.7.

4.32 Fixed or Built-in Seating and Tables.

4.32.1 Minimum Number. Fixed or built-in seating or tables required to be accessible by 4.1 shall comply with 4.32.

4.32.2 Seating. If seating spaces for people in wheelchairs are provided at fixed tables or counters, clear floor space complying with 4.2.4 shall be provided. Such clear floor space shall not overlap knee space by more than 19 in (485 mm) (see Fig. 45).

4.32.3 Knee Clearances. If seating for people in wheelchairs is provided at tables or counters, knee spaces at least 27 in (685 mm) high, 30 in (760 mm) wide, and 19 in (485 mm) deep shall be provided (see Fig. 45).

4.32.4* Height of Tables or Counters. The tops of accessible tables and counters shall be from 28 in to 34 in (710 mm to 865 mm) above the finish floor or ground.

4.33 Assembly Areas.

4.33.1 Minimum Number. Assembly and associated areas required to be accessible by 4.1 shall comply with 4.33.

4.33.2* Size of Wheelchair Locations. Each wheelchair location shall provide minimum clear ground or floor spaces as shown in Fig. 46.

4.33.3* Placement of Wheelchair Locations. Wheelchair areas shall be an integral part of any fixed seating plan and shall be provided so as to provide people with physical disabilities a choice of admission prices and lines of sight comparable to those for members of the general public. They shall adjoin an accessible route that also serves as a means of egress in case of emergency. At least one companion fixed seat shall be provided next to each wheelchair seating area. When the seating capacity exceeds 300, wheelchair spaces shall be provided in more than one location. Readily removable seats may be installed in wheelchair spaces when the spaces are not required to accommodate wheelchair users.

EXCEPTION: Accessible viewing positions may be clustered for bleachers, balconies, and other areas having sight lines that require slopes of greater than 5 percent. Equivalent accessible viewing positions may be located on levels having accessible egress.

4.33.4 Surfaces. The ground or floor at wheelchair locations shall be level and shall comply with 4.5.
4.33 Assembly Areas

Fig. 45
Minimum Clearances for Seating and Tables

Fig. 46
Space Requirements for Wheelchair
Seating Spaces in Series
### 4.34 Automated Teller Machines

**4.34.5 Access to Performing Areas.**
An accessible route shall connect wheelchair seating locations with performing areas, including stages, arena floors, dressing rooms, locker rooms, and other spaces used by performers.

**4.34.6 Placement of Listening Systems.**
If the listening system provided serves individual fixed seats, then such seats shall be located within a 50 ft (15 m) viewing distance of the stage or playing area and shall have a complete view of the stage or playing area.

**4.34.7 Types of Listening Systems.**
Assistive listening systems (ALS) are intended to augment standard public address and audio systems by providing signals which can be received directly by persons with special receivers or their own hearing aids and which eliminate or filter background noise. The type of assistive listening system appropriate for a particular application depends on the characteristics of the setting, the nature of the program, and the intended audience. Magnetic induction loops, infra-red and radio frequency systems are types of listening systems which are appropriate for various applications.

### 4.35 Dressing and Fitting Rooms.

**4.35.1 General.** Dressing and fitting rooms required to be accessible by 4.1 shall comply with 4.35 and shall be on an accessible route.

**4.35.2 Clear Floor Space.** A clear floor space allowing a person using a wheelchair to make a 180-degree turn shall be provided in every accessible dressing room entered through a swinging or sliding door. No door shall swing into any part of the turning space. Turning space shall not be required in a private dressing room entered through a curtained opening at least 32 in (815 mm) wide if clear floor space complying with section 4.2 renders the dressing room usable by a person using a wheelchair.

**4.35.3 Doors.** All doors to accessible dressing rooms shall be in compliance with section 4.13.

**4.35.4 Bench.** Every accessible dressing room shall have a 24 in by 48 in (610 mm by 1220 mm) bench fixed to the wall along the longer dimension. The bench shall be mounted 17 in to 19 in (430 mm to 485 mm) above the finished floor. Clear floor space shall be provided alongside the bench to allow a person using a wheelchair to make a parallel transfer onto the bench. The structural strength of the bench and attachments shall comply with 4.26.3. Where installed in conjunction with showers, swimming pools, or other wet locations, water shall not accumulate upon the surface of the bench and the bench shall have a slip-resistant surface.

**4.35.5 Mirror.** Where mirrors are provided in dressing rooms of the same use, then in an accessible dressing room, a full-length mirror, measuring at least 18 in wide by 54 in high (460 mm by 1370 mm), shall be mounted in a position affording a view to a person on the bench as well as to a person in a standing position.

NOTE: Sections 4.1.1 through 4.1.7 and sections 5 through 10 are different from ANSI A117.1 in their entirety and are printed in standard type.
5. RESTAURANTS AND CAFETERIAS.

5.1 General. Except as specified or modified in this section, restaurants and cafeterias shall comply with the requirements of 4.1 to 4.35. Where fixed tables or dining counters where food is consumed but there is no service are provided, at least 5 percent, but not less than one, of the fixed tables (or a portion of the dining counter) shall be accessible and shall comply with 4.32 as required in 4.1.3(18). In establishments where separate areas are designated for smoking and non-smoking patrons, the required number of accessible fixed tables (or counters) shall be proportionally distributed between the smoking and non-smoking areas. In new construction, and where practicable in alterations, accessible fixed tables (or counters) shall be distributed throughout the space or facility.

5.2 Counters and Bars. Where food or drink is served at counters exceeding 34 in (865 mm) in height for consumption by customers seated on stools or standing at the counter, a portion of the main counter which is 60 in (1525 mm) in length minimum shall be provided in compliance with 4.32 or service shall be available at accessible tables within the same area.

---

5.3 Access Aisles. All accessible fixed tables shall be accessible by means of an access aisle at least 36 in (915 mm) clear between parallel edges of tables or between a wall and the table edges.

5.4 Dining Areas. In new construction, all dining areas, including raised or sunken dining areas, loggias, and outdoor seating areas, shall be accessible. In non-elevator buildings, an accessible means of vertical access to the mezzanine is not required under the following conditions: 1) the area of mezzanine seating measures no more than 33 percent of the area of the total accessible seating area; 2) the same services and decor are provided in an accessible space usable by the general public; and, 3) the accessible areas are not restricted to use by people with disabilities. In alterations, accessibility to raised or sunken dining areas, or to all parts of outdoor seating areas is not required provided that the same services and decor are provided in an accessible space usable by the general public and are not restricted to use by people with disabilities.

5.5 Food Service Lines. Food service lines shall have a minimum clear width of 36 in (915 mm), with a preferred clear width of 42 in (1065 mm) to allow passage around a person using a wheelchair. Tray slides shall be mounted no higher than 34 in (865 mm) above the floor (see Fig. 53). If self-service shelves
6.0 Medical Care Facilities

are provided, at least 50 percent of each type
must be within reach ranges specified in 4.2.5
and 4.2.6.

5.6 Tableware and Condiment Areas. Self-service shelves and dispensing devices
for tableware, dishware, condiments, food
and beverages shall be installed to comply
with 4.2 (see Fig. 54).

5.7 Raised Platforms. In banquet rooms
or spaces where a head table or speaker's
lectern is located on a raised platform, the
platform shall be accessible in compliance
with 4.8 or 4.11. Open edges of a raised plat-
form shall be protected by placement of tables
or by a curb.

5.8 Vending Machines and Other
Equipment. Spaces for vending machines
and other equipment shall comply with 4.2
and shall be located on an accessible route.

5.9 Quiet Areas. (Reserved).

6. MEDICAL CARE
   FACILITIES.

6.1 General. Medical care facilities included
in this section are those in which people re-
cieve physical or medical treatment or care and
where persons may need assistance in respon-
ding to an emergency and where the period of
stay may exceed twenty-four hours. In addition
to the requirements of 4.1 through 4.35, med-
ical care facilities and buildings shall comply
with 6.

(1) Hospitals - general purpose hospitals,
psychiatric facilities, detoxification facilities —
At least 10 percent of patient bedrooms and
toilets, and all public use and common use
areas are required to be designed and con-
structed to be accessible.

(2) Hospitals and rehabilitation facilities
that specialize in treating conditions that affect
mobility, or units within either that specialize
in treating conditions that affect mobility — All
patient bedrooms and toilets, and all public
use and common use areas are required to be
designed and constructed to be accessible.

(3) Long term care facilities, nursing homes
— At least 50 percent of patient bedrooms
and toilets, and all public use and common
use areas are required to be designed and
constructed to be accessible.

(4) Alterations to patient bedrooms.

(a) When patient bedrooms are being added
or altered as part of a planned renovation of an
entire wing, a department, or other discrete
area of an existing medical facility, a percent-
age of the patient bedrooms that are being
added or altered shall comply with 6.3. The
percentage of accessible rooms provided shall
be consistent with the percentage of rooms
required to be accessible by the applicable
requirements of 6.1(1), 6.1(2), or 6.1(3), until
the number of accessible patient bedrooms in
the facility equals the overall number that
would be required if the facility were newly
constructed. (For example, if 20 patient bed-
rooms are being altered in the obstetrics
department of a hospital, 2 of the altered rooms
must be made accessible. If, within the same
hospital, 20 patient bedrooms are being altered
in a unit that specializes in treating mobility
impairments, all of the altered rooms must be
made accessible.) Where toilet/bath rooms are
part of patient bedrooms which are added or
altered and required to be accessible, each
such patient toilet/bathroom shall comply
with 6.4.

(b) When patient bedrooms are being added
or altered individually, and not as part of an
alteration of the entire area, the altered patient
bedrooms shall comply with 6.3, unless either:
a) the number of accessible rooms provided in
the department or area containing the altered
patient bedroom equals the number of acces-
sible patient bedrooms that would be required
if the percentage requirements of 6.1(1), 6.1(2),
or 6.1(3) were applied to that department or
area; or b) the number of accessible patient
bedrooms in the facility equals the overall
number that would be required if the facility
were newly constructed. Where toilet/bath-
rooms are part of patient bedrooms which
are added or altered and required to be acces-
sible, each such toilet/bathroom shall comply
with 6.4.
6.2 Entrances. At least one accessible entrance that complies with 4.14 shall be protected from the weather by canopy or roof overhang. Such entrances shall incorporate a passenger loading zone that complies with 4.6.6.

6.3 Patient Bedrooms. Provide accessible patient bedrooms in compliance with 4.1 through 4.35. Accessible patient bedrooms shall comply with the following:

   (1) Each bedroom shall have a door that complies with 4.13.

   EXCEPTION: Entry doors to acute care hospital bedrooms for in-patients shall be exempted from the requirement in 4.13.6 for maneuvering space at the latch side of the door if the door is at least 44 in (1120 mm) wide.

   (2) Each bedroom shall have adequate space to provide a maneuvering space that complies with 4.2.3. In rooms with 2 beds, it is preferable that this space be located between beds.

   (3) Each bedroom shall have adequate space to provide a minimum clear floor space of 36 in (915 mm) along each side of the bed and to provide an accessible route complying with 4.3.3 to each side of each bed.

6.4 Patient Toilet Rooms. Where toilet/bath rooms are provided as a part of a patient bedroom, each patient bedroom that is required to be accessible shall have an accessible toilet/bath room that complies with 4.22 or 4.23 and shall be on an accessible route.

7. BUSINESS AND MERCANTILE.

7.1 General. In addition to the requirements of 4.1 to 4.35, the design of all areas used for business transactions with the public shall comply with 7.

7.2 Sales and Service Counters, Teller Windows, Information Counters.

   (1) In department stores and miscellaneous retail stores where counters have cash registers and are provided for sales or distribution of goods or services to the public, at least one of each type shall have a portion of the counter which is at least 36 in (915 mm) in length with a maximum height of 36 in (915 mm) above the finished floor. It shall be on an accessible route complying with 4.3. The accessible counters must be dispersed throughout the building or facility. In alterations where it is technically infeasible to provide an accessible counter, an auxiliary counter meeting these requirements may be provided.

   (2) At ticketing counters, teller stations in a bank, registration counters in hotels and motels, box office ticket counters, and other counters that may not have a cash register but at which goods or services are sold or distributed, either:

      (i) a portion of the main counter which is a minimum of 36 in (915 mm) in length shall be provided with a maximum height of 36 in (915 mm); or

      (ii) an auxiliary counter with a maximum height of 36 in (915 mm) in close proximity to the main counter shall be provided; or

      (iii) equivalent facilitation shall be provided, e.g., at a hotel registration counter, equivalent facilitation might consist of: (1) provision of a folding shelf attached to the main counter on which an individual with disabilities can write, and (2) use of the space on the side of the counter or at the concierge desk, for handling materials back and forth.

   All accessible sales and service counters shall be on an accessible route complying with 4.3.

   (3) * Assistive Listening Devices. (Reserved)
8.0 Libraries

7.3* Check-out Aisles.

(1) In new construction, accessible check-out aisles shall be provided in conformance with the table below:

<table>
<thead>
<tr>
<th>Total Check-out Aisles of Each Design</th>
<th>Minimum Number of Accessible Check-out Aisles (of each design)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 - 4</td>
<td>1</td>
</tr>
<tr>
<td>5 - 8</td>
<td>2</td>
</tr>
<tr>
<td>8 - 15</td>
<td>3</td>
</tr>
<tr>
<td>over 15</td>
<td>3, plus 20% of additional aisles</td>
</tr>
</tbody>
</table>

EXCEPTION: In new construction, where the selling space is under 5000 square feet, only one check-out aisle is required to be accessible.

EXCEPTION: In alterations, at least one check-out aisle shall be accessible in facilities under 5000 square feet of selling space. In facilities of 5000 or more square feet of selling space, at least one of each design of check-out aisle shall be made accessible when altered until the number of accessible check-out aisles of each design equals the number required in new construction.

Examples of check-out aisles of different "design" include those which are specifically designed to serve different functions. Different "design" includes but is not limited to the following features - length of belt or no belt; or permanent signage designating the aisle as an express lane.

(2) Clear aisle width for accessible check-out aisles shall comply with 4.2.1 and maximum adjoining counter height shall not exceed 38 in (965 mm) above the finish floor. The top of the lip shall not exceed 40 in (1015 mm) above the finish floor.

(3) Signage identifying accessible check-out aisles shall comply with 4.30.7 and shall be mounted above the check-out aisle in the same location where the check-out number or type of check-out is displayed.

7.4 Security Bollards. Any device used to prevent the removal of shopping carts from store premises shall not prevent access or egress to people in wheelchairs. An alternate entry that is equally convenient to that provided for the ambulatory population is acceptable.

8. LIBRARIES.

8.1 General. In addition to the requirements of 4.1 to 4.36, the design of all public areas of a library shall comply with 8, including reading and study areas, stacks, reference rooms, reserve areas, and special facilities or collections.

8.2 Reading and Study Areas. At least 5 percent or a minimum of one of each element of fixed seating, tables, or study carrels shall comply with 4.2 and 4.32. Clearances between fixed accessible tables and between study carrels shall comply with 4.3.

8.3 Check-Out Areas. At least one lane at each check-out area shall comply with 7.2(1). Any traffic control or book security gates or turnstiles shall comply with 4.13.

8.4 Card Catalogs and Magazine Displays. Minimum clear aisle space at card catalogs and magazine displays shall comply with Fig. 55. Maximum reach height shall comply with 4.2, with a height of 48 in (1220 mm) preferred irrespective of approach allowed.

8.5 Stacks. Minimum clear aisle width between stacks shall comply with 4.3, with a minimum clear aisle width of 42 in (1065 mm) preferred where possible. Shelf height in stack areas is unrestricted (see Fig. 56).
9.0 Accessible Transient Lodging

9. ACCESSIBLE TRANSIENT LODGING.

(1) Except as specified in the special technical provisions of this section, accessible transient lodging shall comply with the applicable requirements of 4.1 through 4.35. Transient lodging includes facilities or portions thereof used for sleeping accommodations, when not classed as a medical care facility.

9.1 Hotels, Motels, Inns, Boarding Houses, Dormitories, Resorts and Other Similar Places of Transient Lodging.

9.1.1 General. All public use and common use areas are required to be designed and constructed to comply with section 4 (Accessible Elements and Spaces: Scope and Technical Requirements).

EXCEPTION: Sections 9.1 through 9.4 do not apply to an establishment located within a building that contains not more than five rooms for rent or hire and that is actually occupied by the proprietor or such establishment as the residence of such proprietor.

9.1.2 Accessible Units, Sleeping Rooms, and Suites. Accessible sleeping rooms or suites that comply with the requirements of 9.2 (Requirements for Accessible Units, Sleeping Rooms, and Suites) shall be provided in conformance with the table below. In addition, in hotels of 50 or more sleeping rooms or suites, additional accessible sleeping rooms or suites that include a roll-in shower shall also be provided in conformance with the table below. Such accommodations shall comply with the requirements of 9.2, 4.31, and Figure 57(a) or (b).
9.1.3 Sleeping Accommodations for Persons with Hearing Impairments

### 9.2 Requirements for Accessible Units, Sleeping Rooms and Suites

#### 9.1.4 Classes of Sleeping Accommodations.

1. In order to provide persons with disabilities a range of options equivalent to those available to other persons served by the facility, sleeping rooms and suites required to be accessible by 9.1.2 shall be dispersed among the various classes of sleeping accommodations available to patrons of the place of transient lodging. Factors to be considered include room size, cost, amenities provided, and the number of beds provided.

2. Equivalent Facilitation. For purposes of this section, it shall be deemed equivalent facilitation if the operator of a facility elects to limit construction of accessible rooms to those intended for multiple occupancy, provided that such rooms are made available at the cost of a single-occupancy room to an individual with disabilities who requests a single-occupancy room.

#### 9.1.5 Alterations to Accessible Units, Sleeping Rooms, and Suites.

When sleeping rooms are being altered in an existing facility, or portion thereof, subject to the requirements of this section, at least one sleeping room or suite that complies with the requirements of 9.2 (Requirements for Accessible Units, Sleeping Rooms, and Suites) shall be provided for each 25 sleeping rooms, or fraction thereof, of rooms being altered until the number of such rooms provided equals the number required to be accessible with 9.1.2. In addition, at least one sleeping room or suite that complies with the requirements of 9.3 (Visual Alarms, Notification Devices, and Telephones) shall be provided for each 25 sleeping rooms, or fraction thereof, of rooms being altered until the number of such rooms equals the number required to be accessible by 9.1.3.

#### 9.2 Requirements for Accessible Units, Sleeping Rooms and Suites.

**9.2.1 General.** Units, sleeping rooms, and suites required to be accessible by 9.1 shall comply with 9.2.

**9.2.2 Minimum Requirements.** An accessible unit, sleeping room or suite shall be on an accessible route complying with 4.3 and have the following accessible elements and spaces.

1. Accessible sleeping rooms shall have a 36 in (915 mm) clear width maneuvering space located along both sides of a bed, except that where two beds are provided, this requirement can be met by providing a 36 in (915 mm) wide maneuvering space located between the two beds.

2. An accessible route complying with 4.3 shall connect all accessible spaces and elements, including telephones, within the unit, sleeping room, or suite. This is not intended to require an elevator in multi-story units as long as the spaces identified in 9.2.2(b) and (7) are on accessible levels and the accessible sleeping area is suitable for dual occupancy.

3. Doors and doorways designed to allow passage into and within all sleeping rooms, suites or other covered units shall comply with 4.13.

4. If fixed or built-in storage facilities such as cabinets, shelves, closets, and drawers are provided in accessible spaces, at least one of each type provided shall contain storage space complying with 4.25. Additional storage may be provided outside of the dimensions required by 4.25.

5. All controls in accessible units, sleeping rooms, and suites shall comply with 4.27.

6. Where provided as part of an accessible unit, sleeping room, or suite, the following spaces shall be accessible and shall be on an accessible route:
   - (a) the living area.
   - (b) the dining area.
   - (c) at least one sleeping area.
   - (d) patios, terraces, or balconies.

EXCEPTION: The requirements of 4.13.8 and 4.3.8 do not apply where it is necessary to utilize a higher door threshold or a change in level to protect the integrity of the unit from wind/water damage. Where this exception results in patios, terraces or balconies that are not at an accessible level, equivalent facilitation

---

65
9.3 Visual Alarms, Notification Devices and Telephones

<table>
<thead>
<tr>
<th>Shall be provided. (E.g., equivalent facilitation at a hotel patio or balcony might consist of providing raised decking or a ramp to provide accessibility.)</th>
</tr>
</thead>
<tbody>
<tr>
<td>(c) at least one full bathroom (i.e., one with a water closet, a lavatory, and a bathtub or shower).</td>
</tr>
<tr>
<td>(d) if only half baths are provided, at least one half bath.</td>
</tr>
<tr>
<td>(g) carports, garages or parking spaces.</td>
</tr>
<tr>
<td>(7) Kitchens, Kitchenettes, or Wet Bars. When provided as accessory to a sleeping room or suite, kitchens, kitchenettes, wet bars, or similar amenities shall be accessible. Clear floor space for a front or parallel approach to cabinets, counters, sinks, and appliances shall be provided to comply with 4.2.4. Countertops and sinks shall be mounted at a maximum height of 34 in (865 mm) above the floor. At least fifteen percent of shelf space in cabinets or refrigerators/freezers shall be within the reach range of 42.5 in or 42.6 in and space shall be designed to allow for the operation of cabinet and/or appliance doors so that all cabinets and appliances are accessible and usable. Controls and operating mechanisms shall comply with 4.27.</td>
</tr>
<tr>
<td>(8) Sleeping room accommodations for persons with hearing impairments required by 9.1 and complying with 9.3 shall be provided in the accessible sleeping room or suite.</td>
</tr>
</tbody>
</table>

9.3.2 Equivalent Facilitation. For purposes of this section, equivalent facilitation shall include the installation of electrical outlets (including outlets connected to a facility’s central alarm system) and telephone wiring in sleeping rooms and suites to enable persons with hearing impairments to utilize portable visual alarms and communication devices provided by the operator of the facility.

9.4 Other Sleeping Rooms and Suites. Doors and doorways designed to allow passage into and within all sleeping units or other covered units shall comply with 4.13.5.

9.5 Transient Lodging in Homeless Shelters, Halfway Houses, Transient Group Homes, and Other Social Service Establishments.

9.5.1 New Construction. In new construction all public use and common use areas are required to be designed and constructed to comply with section 4. At least one of each type of amenity (such as washers, dryers and similar equipment installed for the use of occupants) in each common area shall be accessible and shall be located on an accessible route to any accessible unit or sleeping accommodation.

EXCEPTION: Where elevators are not provided as allowed in 4.1.36(f), accessible amenities are not required on inaccessible floors as long as one of each type is provided in common areas on accessible floors.

9.5.2 Alterations.

1. Social service establishments which are not homeless shelters:

(a) The provisions of 9.5.3 and 9.1.5 shall apply to sleeping rooms and beds.

(b) Alteration of other areas shall be consistent with the new construction provisions of 9.5.1.

2. Homeless shelters. If the following elements are altered, the following requirements apply:
### 10.0 Transportation Facilities

#### 10.0.1 General

Every station, bus stop, bus stop pad, terminal, building or other transportation facility, shall comply with the applicable provisions of 4.1 through 4.35, sections 5 through 9, and the applicable provisions of this section. The exceptions for elevators in 4.1.3(b), exception 1 and 4.1.6(1)(k) do not apply to a terminal, depot, or other station used for specified public transportation, or an airport passenger terminal, or facilities subject to Title II.

#### 10.2 Bus Stops and Terminals

#### 10.2.1 New Construction

1. Where new bus stop pads are constructed at bus stops, bays or other areas where a lift or ramp is to be deployed, they shall have a firm, stable surface; a minimum clear length of 96 inches (measured from the curb or vehicle roadway edge) and a minimum clear width of 60 inches (measured parallel to the vehicle roadway) to the maximum extent allowed by legal or site constraints; and shall be connected to streets, sidewalks or pedestrian paths by an accessible route complying with 4.3 and 4.4. The slope of the pad parallel to the roadway shall, to the extent practicable, be the same as the roadway. For water drainage, a maximum slope of 1:50 (2%) perpendicular to the roadway is allowed.

2. Where provided, new or replaced bus shelters shall be installed or positioned so as to permit a wheelchair or mobility aid user to enter from the public way and to reach a location, having a minimum clear floor area of 30 inches by 48 inches, entirely within the perimeter of the shelter. Such shelters shall be connected by an accessible route to the boarding area provided under paragraph 1) of this section.

3. Where provided, all new bus route identification signs shall comply with 4.30.5. In addition, to the maximum extent practicable, all new bus route identification signs shall comply with 4.30.2 and 4.30.3.

#### 9.5.3 Accessible Sleeping Accommodations in New Construction

Accessible sleeping rooms shall be provided in conformance with the table in 9.1.2 and shall comply with 9.3 Accessible Units, Sleeping Rooms and Suites (where the items are provided). Additional sleeping rooms that comply with 9.3 Sleeping Accommodations for Persons with Hearing Impairments shall be provided in conformance with the table provided in 9.1.3.

In facilities with multi-bed rooms or spaces, a percentage of the beds equal to the table provided in 9.1.2 shall comply with 9.2.2(1).
10.3 Fixed Facilities and Stations

that are sized to the maximum dimensions permitted under legitimate local, state or federal regulations or ordinances shall be considered in compliance with 4.30.2 and 4.30.3 for purposes of this section.

EXCEPTION: Bus schedules, timetables, or maps that are posted at the bus stop or bus bay are not required to comply with this provision.

10.2.2 Bus Stop Siting and Alterations.

(1) Bus stop sites shall be chosen such that, to the maximum extent practicable, the areas where lifts or ramps are to be deployed comply with section 10.2.1(1) and (2).

(2) When new bus route identification signs are installed or old signs are replaced, they shall comply with the requirements of 10.2.1(3).

10.3 Fixed Facilities and Stations.

10.3.1 New Construction. New stations in rapid rail, light rail, commuter rail, intercity bus, intercity rail, high speed rail, and other fixed guideway systems (e.g., automated guideway transit, monorails, etc.) shall comply with the following provisions, as applicable:

(1) Elements such as ramps, elevators or other circulation devices, fare vending or other ticketing areas, and fare collection areas shall be placed to minimize the distance which wheelchair users and other persons who cannot negotiate steps may have to travel compared to the general public. The circulation path, including an accessible entrance and an accessible route, for persons with disabilities shall, to the maximum extent practicable, coincide with the circulation path for the general public. Where the circulation path is different, signage complying with 4.30.1, 4.30.2, 4.30.3, 4.30.5, and 4.30.7(1) shall be provided to indicate direction and identify the accessible entrance and accessible route.

(2) In lieu of compliance with 4.1.38, at least one entrance to each station shall comply with 4.14. Entrances. If different entrances to a station serve different transportation fixed routes or groups of fixed routes, at least one entrance serving each group or route shall comply with 4.14. Entrances. All accessible entrances shall, to the maximum extent practicable, coincide with those used by the majority of the general public.

(3) Direct connections to commercial, retail, or residential facilities shall have an accessible route complying with 4.3 from the point of connection to boarding platforms and all transportation system elements used by the public. Any elements provided to facilitate future direct connections shall be on an accessible route connecting boarding platforms and all transportation system elements used by the public.

(4) Where signs are provided at entrances to stations identifying the station or the entrance, or both, at least one sign at each entrance shall comply with 4.30.4 and 4.30.6. Such signs shall be placed in uniform locations at entrances within the transit system to the maximum extent practicable.

EXCEPTION: Where the station has no defined entrance, but signage is provided, then the accessible signage shall be placed in a central location.

(5) Stations covered by this section shall have identification signs complying with 4.30.1, 4.30.2, 4.30.3, and 4.30.5. Signs shall be placed at frequent intervals and shall be clearly visible from within the vehicle on both sides when not obstructed by another train. When station identification signs are placed close to vehicle windows (i.e., on the side opposite from boarding) each shall have the top of the highest letter or symbol below the top of the vehicle window and the bottom of the lowest letter or symbol above the horizontal mid-line of the vehicle window.

(6) Lists of stations, routes, or destinations served by the station and located on boarding areas, platforms, or mezzanines shall comply with 4.30.1, 4.30.2, 4.30.3, and 4.30.5. A minimum of one sign identifying the specific station and complying with 4.30.4 and 4.30.6 shall be provided on each platform or boarding area. All signs referenced in this paragraph shall, to the maximum extent practicable, be placed in uniform locations within the transit system.
Office of the Secretary of Transportation

10.3 Fixed Facilities and Stations

(7)* Automatic fare vending, collection and adjustment (e.g., add-fare) systems shall comply with 4.34.2, 4.34.3, and 4.34.4. At each accessible entrance such devices shall be located on an accessible route. If self-service fare collection devices are provided for the use of the general public, at least one accessible device for entering, and at least one for exiting, unless one device serves both functions, shall be provided at each accessible point of entry or exit. Accessible fare collection devices shall have a minimum clear opening width of 32 inches; shall permit passage of a wheelchair; and, where provided, coin or card slots and controls necessary for operation shall comply with 4.27. Gates which must be pushed open by wheelchair or mobility aid users shall have a smooth continuous surface extending from 2 inches above the floor to 27 inches above the floor and shall comply with 4.13. Where the circulation path does not coincide with that used by the general public, accessible fare collection systems shall be located at or adjacent to the accessible point of entry or exit.

(8) Platform edges bordering a drop-off and not protected by platform screens or guard rails shall have a detectable warning. Such detectable warnings shall comply with 4.29.2 and shall be 24 inches wide running the full length of the platform drop-off.

(9) In stations covered by this section, rail-to-platform height in new stations shall be coordinated with the floor height of new vehicles so that the vertical difference, measured when the vehicle is at rest, is within plus or minus 5/8 inch under normal passenger load conditions. For rapid rail, light rail, commuter rail, high speed rail, and intercity rail systems in new stations, the horizontal gap, measured when the new vehicle is at rest, shall be no greater than 3 inches. For slow-moving automated guided way "people mover" transit systems, the horizontal gap in new stations shall be no greater than 1 inch.

EXCEPTION 1: Existing vehicles operating in new stations may have a vertical difference with respect to the new platform within plus or minus 1-1/2 inches.

EXCEPTION 2: In light rail, commuter rail and intercity rail systems where it is not operationally or structurally feasible to meet the horizontal gap or vertical difference requirements, mini-high platforms, car-borne or platform-mounted lifts, ramps or bridge plates, or similar manually deployed devices, meeting the applicable requirements of 36 CFR part 1192, or 49 CFR part 38 shall suffice.

(10) Stations shall not be designed or constructed so as to require persons with disabilities to board or alight from a vehicle at a location other than one used by the general public.

(11) Illumination levels in the areas where signage is located shall be uniform and shall minimize glare on signs. Lighting along circulation routes shall be of a type and configuration to provide uniform illumination.

(12) Text Telephones: The following shall be provided in accordance with 4.31.9:

(a) If an interior public pay telephone is provided in a transit facility (as defined by the Department of Transportation) at least one interior public test telephone shall be provided in the station.

(b) Where four or more public pay telephones serve a particular entrance to a rail station and at least one is in an interior location, at least one interior public test telephone shall be provided to serve that entrance. Compliance with this section constitutes compliance with section 4.1.3(17)(e).

(13) Where it is necessary to cross tracks to reach boarding platforms, the route surface shall be level and flush with the rail top at the outer edge and between the rails, except for a maximum 2-1/2 inch gap on the inner edge of each rail to permit passage of wheel flanges. Such crossings shall comply with 4.29.5. Where gap reduction is not practicable, an above-grade or below-grade accessible route shall be provided.

(14) Where public address systems are provided to convey information to the public in terminals, stations, or other fixed facilities, a means of conveying the same or equivalent information to persons with hearing loss or who are deaf shall be provided.

---

69

447
10.3.2 Existing Facilities: Key Stations.

(15) Where clocks are provided for use by the general public, the clock face shall be uncluttered so that its elements are clearly visible. Hands, numerals, and/or digits shall contrast with the background either light-on-dark or dark-on-light. Where clocks are mounted overhead, numerals and/or digits shall comply with 4.30.3. Clocks shall be placed in uniform locations throughout the facility and system to the maximum extent practicable.

(16) Where provided in below grade stations, escalators shall have a minimum clear width of 32 inches. At the top and bottom of each escalator run, at least two contiguous treads shall be level beyond the comb plate before the risers begin to form. All escalator treads shall be marked by a strip of clearly contrasting color, 2 inches in width, placed parallel to and on the nose of each step. The strip shall be of a material that is at least as slip resistant as the remainder of the tread. The edge of the tread shall be apparent from both ascending and descending directions.

(17) Where provided, elevators shall be glazed or have transparent panels to allow an unobstructed view both in to and out of the car. Elevators shall comply with 4.10.

EXCEPTION: Elevator cars with a clear floor area in which a 60 inch diameter circle can be inscribed may be substituted for the minimum car dimensions of 4.10, Fig. 22.

(18) Where provided, ticketing areas shall permit persons with disabilities to obtain a ticket and check baggage and shall comply with 7.2.

(19) Where provided, baggage check-in and retrieval systems shall be on an accessible route complying with 4.3, and shall have space immediately adjacent complying with 4.2. If unattended security barriers are provided, at least one gate shall comply with 4.13. Gates which must be pushed open by wheelchair or mobility aid users shall have a smooth continuous surface extending from 2 inches above the floor to 27 inches above the floor.

10.3.2 Existing Facilities: Key Stations.

(1) Rapid, light and commuter rail key stations, as defined under criteria established by the Department of Transportation in subpart C of 49 CFR part 37 and existing intercity rail stations shall provide at least one accessible route from an accessible entrance to those areas necessary for use of the transportation system.

(2) The accessible route required by 10.3.2(1) shall include the features specified in 10.3.1 (1), (4)-(6), (11)-(15), and (17)-(19).

(3) Where technical infeasibility in existing stations requires the accessible route to lead from the public way to a paid area of the transit system, an accessible fare collection system, complying with 10.3.17(1), shall be provided along such accessible route.

(4) In light rail, rapid rail and commuter rail key stations, the platform or a portion thereof and the vehicle floor shall be coordinated so that the vertical difference, measured when the vehicle is at rest, within plus or minus 1/16 inches under all normal passenger load conditions, and the horizontal gap, measured when the vehicle is at rest, is no greater than 3 inches for at least one door of each vehicle or car required to be accessible by 49 CFR part 37.

EXCEPTION 1: Existing vehicles retrofitted to meet the requirements of 49 CFR 37.93 (one-car-per-train rule) shall be coordinated with the platform such that, for at least one door, the vertical difference between the vehicle floor and the platform, measured when the vehicle is at rest with 50% normal passenger capacity, is within plus or minus 2 inches and the horizontal gap is no greater than 4 inches.

EXCEPTION 2: Where it is not structurally or operationally feasible to meet the horizontal gap or vertical difference requirements, mid-high platforms, car-borne or platform mounted lifts, ramps or bridge plates, or similar manually deployed devices, meeting the applicable requirements of 36 CFR Part 1192 shall suffice.
(5) New direct connections to commercial, retail, or residential facilities shall, to the maximum extent feasible, have an accessible route complying with 4.3 from the point of connection to boarding platforms and all transportation system elements used by the public. Any elements provided to facilitate future direct connections shall be on an accessible route connecting boarding platforms and all transportation system elements used by the public.

10.3.3 Existing Facilities: Alterations.

(1) For the purpose of complying with 4.1.6(2) Alterations to an Area Containing a Primary Function, an area of primary function shall be as defined by applicable provisions of 49 CFR 37.436(f) (Department of Transportation's ADA Rule) or 28 CFR 36.403 (Department of Justice's ADA Rule).

10.4. Airports.

10.4.1 New Construction.

(1) Elements such as ramps, elevators or other vertical circulation devices, ticketing areas, security checkpoints, or passenger waiting areas shall be placed to minimize the distance which wheelchair users and other persons who cannot negotiate steps may have to travel compared to the general public.

(2) The circulation path, including an accessible entrance and an accessible route, for persons with disabilities shall, to the maximum extent practicable, coincide with the circulation path for the general public. Where the circulation path is different, directional signage complying with 4.30.1, 4.30.2, 4.30.3 and 4.30.5 shall be provided which indicates the location of the nearest accessible entrance and its accessible route.

(3) Ticketing areas shall permit persons with disabilities to obtain a ticket and check baggage and shall comply with 7.2.

(4) Where public pay telephones are provided, and at least one is at an interior location, a public pay telephone shall be provided in compliance with 4.31.9. Additionally, if four or more public pay telephones are located in any of the following locations, at least one public text telephone shall also be provided in that location:

(a) a main terminal outside the security areas;
(b) a concourse within the security areas; or
(c) a baggage claim area in a terminal.

Compliance with this section constitutes compliance with section 4.1.3(17)(c).

(5) Baggage check-in and retrieval systems shall be on an accessible route complying with 4.3, and shall have space immediately adjacent complying with 4.2.4. If unattended security barriers are provided, at least one gate shall comply with 4.13. Gates which must be pushed open by wheelchair or mobility aid users shall have a smooth continuous surface extending from 2 inches above the floor to 27 inches above the floor.

(6) Terminal information systems which broadcast information to the general public through a public address system shall provide a means to provide the same or equivalent information to persons with a hearing loss or who are deaf. Such methods may include, but are not limited to, visual paging systems using video monitors and computer technology. For persons with certain types of hearing loss such methods may include, but are not limited to, an assistive listening system complying with 4.33.7.

(7) Where clocks are provided for use by the general public, the clock face shall be uncluttered so that its elements are clearly visible. Hands, numerals, and/or digits shall contrast with their background either light-on-dark or dark-on-light. Where clocks are mounted overhead, numerals and/or digits shall comply with 4.30.3. Clocks shall be placed in uniform locations throughout the facility to the maximum extent practicable.

(8) Security Systems. [Reserved]

10.5 Boat and Ferry Docks.
[Reserved]
APPENDIX

This appendix contains materials of an advisory nature and provides additional information that should help the reader to understand the minimum requirements of the guidelines or to design buildings or facilities for greater accessibility. The paragraph numbers correspond to the sections or paragraphs of the guideline to which the material relates and are therefore not consecutive (for example, A4.1.2.1 contains additional information relevant to 4.1.2.1). Sections of the guidelines for which additional material appears in this appendix have been indicated by an asterisk. Nothing in this appendix shall in any way obviate any obligation to comply with the requirements of the guidelines itself.

A4.1.2 Equivalency Considerations. Specific examples of equivalent facilities are found in the following sections:

- 4.1.60(d) Elevators in Alterations
- 4.31.9 Text Telephones
- 7.2 Sales and Service Counters, Teller Windows, Information Centers
- 9.1.4 Classes of Sleeping Accommodations
- 9.2.26(b) Requirements for Accessible Units, Sleeping Rooms, and Suites

A4.1.3 Application.

**A4.1.3(a) Areas Used Only by Employees as Work Areas.** Where there are a series of individual work stations of the same type (e.g., laboratories, service counters, ticket booths), 5%, but not less than one, of each type of work station should be constructed so that an individual with disabilities can maneuver within the work stations. Rooms housing individual offices in a typical office building must meet the requirements of the guidelines concerning doors, accessible routes, etc. but do not need to allow for maneuvering space around individual desks. Modifications required to permit maneuvering within the work area may be accomplished as a reasonable accommodation to individual employees with disabilities under Title I of the ADA. Consideration should also be given to placing shelves in employee work areas at a convenient height for accessibility or installing commercially available shelving that is adjustable so that reasonable accommodations can be made in the future.

If work stations are made accessible they should comply with the applicable provisions of 4.2 through 4.35.

**A4.1.2 Accessible Sites and Exterior Facilities: New Construction.**

**A4.1.2.1 Valet Parking.** Valet parking is not always usable by individuals with disabilities. For instance, an individual may use a type of vehicle controls that render the regular controls inoperable or the driver's seat in a van may be removed. In these situations, another person cannot park the vehicle. It is recommended that some valet parking spaces be provided at valet parking facilities for individuals whose vehicles cannot be parked by another person and that such spaces be located on an accessible route to the entrance of the facility.

**A4.1.3 Accessible Buildings: New Construction.**

**A4.1.3(a) Only full passenger elevators are covered by the accessibility provisions of 4.10. Materials and equipment hoists, freight elevators not intended for passenger use, dumbwaiters, and construction elevators are not covered by these guidelines.** If a building is exempt from the elevator requirement, it is not necessary to provide a platform lift or other means of vertical access in lieu of an elevator.

Under Exception 4, platform lifts are allowed where existing conditions make it impractical to install a ramp or elevator. Such conditions generally occur when it is essential to provide access to small raised or lowered areas where space may not be available for a ramp. Examples include, but are not limited to, raised pharmacy platforms, commercial offices raised above a sales floor, or radio and news booths.

**A4.1.3(b) Supervised automatic sprinkler systems have built-in signals for monitoring features of the system such as the opening and closing of water control valves, the power supplies for needed pumps, water tank levels, and for indicating conditions that will impair the satisfactory operation of the sprinkler system.**
A4.2 Space Allowances and Reach Ranges

**A4.1.3(10)** If an odd number of drinking fountains is provided on a floor, the requirement in 4.1.3(10) may be met by rounding down the odd number to an even number and calculating 50% of the even number. When more than one drinking fountain on a floor is required to comply with 4.13, these fountains should be dispersed to allow wheelchair users convenient access. For example, in a large facility such as a convention center that has water fountains at several locations on a floor, the accessible water fountains should be located so that wheelchair users do not have to travel a greater distance than other people to use a drinking fountain.

**A4.1.3(12)** In addition to the requirements of section 4.1.3(10), the installation of additional volume controls is encouraged. Volume controls may be installed on any telephone.

**A4.1.3(19(a))** Readily removable or folding seating units may be installed in lieu of providing an open space for wheelchair users. Folding seating units are usually two fixed seats that can be easily folded into a fixed center bar to allow for one or two open spaces for wheelchair users when necessary. These units are more easily adapted than removable seats which generally require the seat to be removed in advance by the facility management.

Either a sign or a marker placed on seating with removable or folding arm rests as required by this section. Consideration should be given for ensuring identification of such seats in a darkened theater. For example, a marker which contrasts light on dark or dark on light and which also reflects light could be placed on the side of such seating so as to be visible in a lighted auditorium and also to reflect light from a flashlight.

**A4.1.6 Accessible Buildings: Alterations.**

**A4.1.6(11)** When an entrance is being altered, it is preferable that those entrances being altered be made accessible to the extent feasible.

**A4.2 Space Allowances and Reach Ranges.**

**A4.2.1 Wheelchair Passage Width.**

1. Space Requirements for Wheelchairs. Many persons who use wheelchairs need a 30 in (760 mm) clear opening width for doorways, gates, and the like, when the latter are entered head-on. If the person is unfamiliar with a building, if competing traffic is heavy, if sudden or frequent movements are needed, or if the wheelchair must be turned at an opening, then greater clear widths are needed. For most situations, the addition of an inch of leeway on either side is sufficient. Thus, a minimum clear width of 32 in (815 mm) will provide adequate clearance. However, when an opening or a restriction in a passageway is more than 24 in (610 mm) long, it is essentially a passageway and must be at least 36 in (915 mm) wide.

2. Space Requirements for Use of Walking Aids. Although people who use walking aids can maneuver through clear width openings of 32 in (815 mm), they need 36 in (915 mm) wide passageways and walks for comfortable gait. Crutch tips, often extending down at a wide angle, are a hazard in narrow passageways where they might not be seen by other pedestrians. Thus, the 36 in (915 mm) width provides a safety allowance both for the person with a disability and for others.

3. Space Requirements for Passing, Able-bodied persons in winter clothing, walking
A4.2 Space Allowances and Reach Ranges

Fig. A2
Space Needed for Smooth U-Turn in a Wheelchair

NOTE: Footrests may extend further for tall people

Fig. A3
Dimensions of Adult-Sized Wheelchairs

straight ahead with arms swinging, need 32 in (815 mm) of width, which includes 2 in (50 mm) on either side for sway, and another 1 in (25 mm) tolerance on either side for clearing nearby objects or other pedestrians. Almost all wheelchair users and those who use walking aids can also manage within this 32 in (815 mm) width for short distances. Thus, two streams of traffic can pass in 64 in (1625 mm) in a comfortable flow. Sixty inches (1525 mm) provides a minimum width for a somewhat more restricted flow. If the clear width is less than 60 in (1525 mm), two wheelchair users will not be able to pass but will have to seek a wider place for passing. Forty-eight inches (1220 mm) is the minimum width needed for an ambulatory person to pass a nonambulatory or semi-ambulatory person. Within this 48 in (1220 mm) width, the ambulatory person will have to twist to pass a wheelchair user, a person with a service animal, or a
Office of the Secretary of Transportation

Pt. 37, App. A

A4.3 Accessible Route

A4.3.1 General.

(1) Travel Distances. Many people with mobility impairments can move at only very slow speeds; for many, traveling 200 ft (61 m) could take about 2 minutes. This assumes a rate of about 1.5 ft/s (455 mm/s) on level ground. It also assumes that the traveler would move continuously. However, on trips over 100 ft (30 m), disabled people are apt to rest frequently, which substantially increases their trip times. Resting periods of 2 minutes for every 100 ft (30 m) can be used to estimate travel times for people with severely limited stamina. In inclement weather, slow progress and resting can greatly increase a disabled person’s exposure to the elements.

(2) Sites. Level, indirect routes or those with running slopes lower than 1:20 can sometimes provide more convenience than direct routes with maximum allowable slopes or with ramps.

A4.3.10 Egress. Because people with disabilities may visit, be employed or be a resident in any building, emergency management plans with specific provisions to ensure their safe evacuation also play an essential role in fire safety and life safety.

A4.3.11.3 Stairway Width. A 48 inch (1220 mm) wide exit stairway is needed to allow assisted evacuation (e.g., carrying a person in a wheelchair) without encroaching on the exit path for ambulatory persons.
A4.5 Ground and Floor Surfaces

A4.5.1 General. People who have difficulty walking or maintaining balance or who use crutches, canes, or walkers, and those with restricted gait are particularly sensitive to slipping and tripping hazards. For such people, a stable and regular surface is necessary for safe walking, particularly on stairs. Wheelchairs can be propelled most easily on surfaces that are hard, stable, and regular. Soft loose surfaces such as shag carpet, loose sand or gravel, wet clay, and irregular surfaces such as cobblestones can significantly impede wheelchair movement.

Slip resistance is based on the frictional force necessary to keep a shoe heel or crutch tip from slipping on a walking surface under conditions likely to be found on the surface. While the dynamic coefficient of friction during walking varies in a complex and non-uniform way, the static coefficient of friction, which can be measured in several ways, provides a close approximation of the slip resistance of a surface. Contrary to popular belief, some slippage is necessary to walking, especially for persons with restricted gait; a truly "non-slip" surface could not be negotiated.

The Occupational Safety and Health Administration recommends that walking surfaces have a static coefficient of friction of 0.5. A research project sponsored by the Architectural and Transportation Barriers Compliance Board (Access Board) conducted tests with persons with disabilities and concluded that a higher coefficient of friction was needed by such persons. A static coefficient of friction of 0.6 is recommended for accessible routes and 0.8 for ramps.

It is recognized that the coefficient of friction varies considerably due to the presence of contaminants, water, floor finishes, and other factors not under the control of the designer or builder and not subject to design and construction guidelines and that compliance would be difficult to measure on the building site. Nevertheless, many common building materials suitable for flooring are now labeled with information on the static coefficient of friction. While it may not be possible to compare one product directly with another, or to guarantee a constant measure, builders and designers are encouraged to specify materials with appropriate values. As more products include information on slip resistance, improved uniformity in measurement and specification is likely. The Access Board's advisory guidelines on Slip Resistant Surfaces provides additional information on this subject.

Cross slopes on walls and ground or floor surfaces can cause considerable difficulty in propelling a wheelchair in a straight line.
A4.6 Parking and Passenger Loading Zones

A4.6.3 Parking Spaces.

The increasing use of vans with side-mounted lifts or ramps by persons with disabilities has necessitated some revisions in specifications for parking spaces and adjacent access aisles. The typical accessible parking space is 96 in (2440 mm) wide with an adjacent 60 in (1525 mm) access aisle. However, this aisle does not permit lifts or ramps to be deployed and still leave room for a person using a wheelchair or other mobility aid to exit the lift platform or ramp. In tests conducted with actual lift/van/wheelchair combinations, under a Board-sponsored Accessible Parking and Loading Zones Project, researchers found that a space and aisle totaling almost 204 in (5180 mm) wide was needed to deploy a lift and exit conveniently. The "van accessible" parking space required by these guidelines provides a 96 in (2440 mm) wide space with a 96 in (2440 mm) adjacent access aisle which is just wide enough to maneuver and exit from a side-mounted lift. If a 96 in (2440 mm) access aisle is placed between two spaces, two "van accessible" spaces are created. Alternatively, if the wide access aisle is provided at the end of a row (an area often unused), it may be possible to provide the wide access aisle without additional space (see Fig. A5a).

A sign is needed to alert van users to the presence of the wider aisle, but the space is not intended to be restricted only to vans.

"Universal" Parking Space Design. An alternative to the provision of a percentage of spaces with a wide aisle, and the associated need to include additional signage, is the use of what has been called the "universal" parking space design. Under this design, all accessible spaces are 132 in (3350 mm) wide with a 60 in (1525 mm) access aisle (see Fig. A5b). One

---

Fig. A5
Parking Space Alternatives
A4.8 Ramps

Advantage to this design is that no additional signage is needed because all spaces can accommodate a van with a side-mounted lift or ramp. Also, there is no competition between cars and vans for spaces since all spaces can accommodate either. Furthermore, the wider space permits vehicles to park on one side or the other within the 1/32 in (350 mm) space to allow persons to enter the vehicle on either the driver or passenger side, although, in some cases, this would require exiting or entering without a marked access aisle.

An essential consideration for any design is having the access aisle level with the parking space. Since a person with a disability, using a lift or ramp, must maneuver within the access aisle, the aisle cannot include a ramp or sloped area. The access aisle must be connected to an accessible route to the appropriate accessible entrance of a building or facility. The parking access aisle must either blend with the accessible route or have a curb ramp complying with 4.7. Such a curb ramp opening must be located within the access aisle boundaries, not within the parking space boundaries. Unfortunately, many facilities are designed with a ramp that is blocked when any vehicle parks in the accessible space. Also, the required dimensions of the access aisle cannot be restricted by planters, curbs or wheel stops.

A4.8.4 Signage. Signs designating parking places for disabled people can be seen from a driver’s seat if the signs are mounted high enough above the ground and located at the front of a parking space.

A4.6.5 Vertical Clearance. High-top vans, which disabled people or transportation services often use, require higher clearances in parking garages than automobiles.

A4.8 Ramps.

A4.8.1 General. Ramps are essential for wheelchair users if elevators or lifts are not available to connect different levels. However, some people who use walking aids have difficulty with ramps and prefer stairs.

A4.8.2 Slope and Rise. Ramp slopes between 1:16 and 1:20 are preferred. The ability to manage an incline is related to both its slope and its length. Wheelchair users with disabilities affecting their arms or with low stamina have serious difficulty using inclines. Most ambulatory people and most people who use wheelchairs can manage a slope of 1:16. Many people cannot manage a slope of 1:12 for 30 ft (9 m).

A4.8.4 Landings. Level landings are essential toward maintaining an aggregate slope that complies with these guidelines. A ramp landing that is not level causes individuals using wheelchairs to tip backward or bottom out when the ramp is approached.

A4.8.5 Handrails. The requirements for stair and ramp handrails in this guideline are for adults. When children are principal users in a building or facility, a second set of handrails at an appropriate height can assist them and aid in preventing accidents.

A4.9 Stairs.

A4.9.1 Minimum Number. Only interior and exterior stairs connecting levels that are not connected by an elevator, ramp, or other accessible means of vertical access have to comply with 4.9.

A4.10 Elevators.

A4.10.6 Door Protective and Reopening Device. The required door reopening device would hold the door open for 20 seconds if the doorway remains obstructed. After 20 seconds, the door may begin to close. However, if designed in accordance with ASME A17.1-1990, the door closing movement could still be stopped if a person or object exerts sufficient force at any point on the door edge.

A4.10.7 Door and Signal Timing for Hall Calls. This paragraph allows variation in the location of call buttons, advance time for warning signals, and the holding period used to meet the time requirement.

A4.10.12 Car Controls. Industry-wide standardization of elevator control panel design would make all elevators significantly more convenient for use by people with severe visual impairments. In many cases, it will be possible to locate the highest control on elevator panels within 48 in (1220 mm) from the floor.
A4.11 Platform Lifts (Wheelchair Lifts)

A4.10.13 Car Position Indicators. A special button may be provided that would activate the audible signal within the given elevator only for the desired trip, rather than maintaining the audible signal in constant operation.

A4.10.14 Emergency Communications. A device that requires no handset is easier to use by people who have difficulty reaching. Also, small handles on handset compartment doors are not usable by people who have difficulty grasping.

Ideally, emergency two-way communication systems should provide both voice and visual display intercommunication so that persons with hearing impairments and persons with vision impairments can receive information regarding the status of a rescue. A voice intercommunication system cannot be the only means of communication because it is not accessible to people with speech and hearing impairments. While a voice intercommunication system is not required, at a minimum, the system should provide both an audio and visual indication that a rescue is on the way.

A4.11 Platform Lifts (Wheelchair Lifts).

A4.11.2 Other Requirements. Inclined stairway chairlifts, and inclined and vertical platform lifts (wheelchair lifts) are available for short-distance, vertical transportation of people with disabilities. Care should be taken in selecting lifts as some lifts are not equally suitable for use by both wheelchair users and semi-ambulatory individuals.

A4.12 Windows.

A4.12.1 General. Windows intended to be operated by occupants in accessible spaces should comply with 4.12.

A4.12.2 Window Hardware. Windows requiring pushing, pulling, or lifting to open (for example, double-hung, sliding, or casement and awning units without crank) should require no more than 5 lb (22.2 N) to open or close. Locks, cranks, and other window hardware should comply with 4.27.

A4.13 Doors.

A4.13.8 Thresholds at Doorways. Thresholds and surface height changes in doorways are particularly inconvenient for wheelchair users who also have low stamina or restrictions in arm movement because complex maneuvering is required to get over the level change while operating the door.

A4.13.9 Door Hardware. Some disabled persons must push against a door with their chair or walker to open it. Applied kickplates on doors with closers can reduce required maintenance by withstanding abuse from wheelchairs and canes. To be effective, they should cover the door width, less approximately 2 in (51 mm), up to a height of 16 in (405 mm) from its bottom edge and be centered across the width of the door.

A4.13.10 Door Closers. Closers with delayed action features give a person more time to maneuver through doorways. They are particularly useful on frequently used interior doors such as entrances to toilet rooms.

A4.13.11 Door Opening Force. Although most people with disabilities can exert at least 5 lb (22.2 N), both pushing and pulling from a stationary position, a few people with severe disabilities cannot exert 3 lb (13.5 N). Although some people cannot manage the allowable forces in this guideline and many others have difficulty, door closers must have certain minimum closing forces to close doors satisfactorily. Forces for pushing or pulling doors open are measured with a push-pull scale under the following conditions:

1. Hinged doors: Force applied perpendicular to the door at the door opener or 30 in (760 mm) from the hinged side, whichever is farther from the hinge.

2. Sliding or folding doors: Force applied parallel to the door at the door pull or latch.

3. Application of force: Apply force gradually so that the applied force does not exceed the resistance of the door. In high-rise buildings, air-pressure differentials may require a modification of this specification in order to meet the functional intent.
A4.13.12 Automatic Doors and Power-Assisted Doors. Sliding automatic doors do not need guard rails and are more convenient for wheelchair users and visually impaired people to use. If slowly opening automatic doors can be reactivated before their closing cycle is completed, they will be more convenient in busy doorways.

A4.15 Drinking Fountains and Water Coolers.

A4.15.2 Spout Height. Two drinking fountains, mounted side by side or on a single post, are usable by people with disabilities and people who find it difficult to bend over.

---

(a) Diagonal Approach

1. Takes transfer position, swings footrest out of the way, sets brakes.
2. Removes armrest, transfers.
3. Moves wheelchair out of the way, changes position (some people fold chair or pivot it 90° to the toilet).
4. Positions on toilet, releases brake.

(b) Side Approach

1. Takes transfer position, removes armrest, sets brakes.
2. Transfers.
3. Positions on toilet.

Fig. A6
Wheelchair Transfers
## A4.18 Water Closets

### A4.16 Water Closets.

#### A4.16.3 Height.
Height preferences for toilet seats vary considerably among disabled people. Higher seat heights may be an advantage to some ambulatory disabled people, but are often a disadvantage for wheelchair users and others. Toilet seats 18 in (455 mm) high seem to be a reasonable compromise. Thick seats and filler rings are available to adapt standard fixtures to these requirements.

#### A4.16.4 Grab Bars.
Fig. A6(a) and (b) show the diagonal and side approaches most commonly used to transfer from a wheelchair to a water closet. Some wheelchair users can transfer from the front of the toilet while others use a 90-degree approach. Most people who use the two additional approaches can also use either the diagonal approach or the side approach.

#### A4.16.5 Flush Controls.
Flush valves and related plumbing can be located behind walls or to the side of the toilet, or a toilet seat lid can be provided if plumbing fittings are directly behind the toilet seat. Such designs reduce the chance of injury and imbalance caused by leaning back against the fittings. Flush controls for tank-type toilets have a standardized mounting location on the left side of the tank (facing the tank). Tanks can be obtained by special order with controls mounted on the right side. If administrative authorities require flush controls for flush valves to be located in a position that conflicts with the location of the rear grab bar, then that bar may be split or shifted toward the wide side of the toilet area.

### A4.17 Toilet Stalls.

#### A4.17.3 Size and Arrangement.
This section requires use of the 60 in (1525 mm) standard stall (Figure 306a) and permits the 36 in (915 mm) or 48 in (1220 mm) wide alternate stall (Figure 306b) only in alterations where provision of the standard stall is technically infeasible or where local plumbing codes prohibit reduction in the number of fixtures. A standard stall provides a clear space on one side of the water closet to enable persons who use wheelchairs to perform a side or diagonal transfer from the wheelchair to the water closet. However, some persons with disabilities who use mobility aids such as walkers, canes or crutches are better able to use the two parallel grab bars in the 36 in (915 mm) wide alternate stall to achieve a standing position.

In large toilet rooms, where six or more toilet stalls are provided, it is therefore required that a 36 in (915 mm) wide stall with parallel grab bars be provided in addition to the standard stall required in new construction. The 36 in (915 mm) width is necessary to achieve proper use of the grab bars; wider stalls would position the grab bars too far apart to be easily used and narrower stalls would position the grab bars too close to the water closet. Since the stall is primarily intended for use by persons using canes, crutches and walkers, rather than wheelchairs, the length of the stall could be conventional. The door, however, must swing outward to ensure a usable space for people who use crutches or walkers.

#### A4.17.5 Doors.
To make it easier for wheelchair users to close toilet stall doors, doors can be provided with closers, spring hinges, or a pull bar mounted on the inside surface of the door near the hinge side.

### A4.19 Lavatories and Mirrors.

#### A4.19.6 Mirrors.
If mirrors are to be used by both ambulatory people and wheelchair users, then they must be at least 74 in (1880 mm) high at their topmost edge. A single full length mirror can accommodate all people, including children.

### A4.21 Shower Stalls.

#### A4.21.1 General.
Shower stalls that are 36 in by 36 in (915 mm by 915 mm) wide provide additional safety to people who have difficulty maintaining balance because all grab bars and walls are within easy reach. Seated people use the walls of 36 in by 36 in (915 mm by 915 mm) showers for back support. Shower stalls that are 60 in (1525 mm) wide and have no curb may increase usability of a bathroom by wheelchair users because the shower area provides additional maneuvering space.

#### A4.22 Toilet Rooms.

#### A4.22.3 Clear Floor Space.
In many small facilities, single-user restrooms may be the only
facilities provided for all building users. In addition, the guidelines allow the use of "unisex" or "family" accessible toilet rooms in alterations when technical infeasibility can be demonstrated. Experience has shown that the provision of accessible "unisex" or single-user restrooms is a reasonable way to provide access for wheelchair users and any attendant, especially when attendants are of the opposite sex. Since these facilities have proven so useful, it is often considered advantageous to install a "unisex" toilet room in new facilities in addition to making the multi-stall restrooms accessible, especially in shopping malls, large auditoriums, and convention centers.

Figure 28 (section 4.16) provides minimum clear floor space dimensions for toilets in accessible "unisex" toilet rooms. The dotted lines designate the minimum clear floor space, depending on the direction of approach, required for wheelchair users to transfer onto the toilet seat. The dimensions of 48 in (1220 mm) and 60 in (1525 mm), respectively, correspond to the space required for the two common transfer approaches utilized by wheelchair users. (See Fig. A6b). It is important to keep in mind that the placement of the toilet at the Immediate side of the water closet will preclude the side approach transfer illustrated in Figure A6b.

To accommodate the side transfer, the space adjacent to the water closet must remain clear of obstruction for 42 in (1065 mm) from the centerline of the toilet (Figure 28) and the lavatory must not be located within this clear space. A turning circle or T-turn, the clear floor space at the lavatory, and maneuvering space at the door must be considered when determining the possible wall locations. A privacy latch or other accessible means of ensuring privacy during use should be provided at the door.

RECOMMENDATIONS:

1. In new construction, accessible single-user restrooms may be desirable in some situations because they can accommodate a wide variety of building users. However, they cannot be used in lieu of making the multi-stall toilet rooms accessible as required.

2. Where strict compliance to the guidelines for accessible toilet facilities is technically infeasible in the alteration of existing facilities, accessible "unisex" toilets are a reasonable alternative.

3. In designing accessible single-user restrooms, the provisions of adequate space to allow a side transfer will provide accommodation to the largest number of wheelchair users.

---

**Fig. A7**
A4.23 Bathrooms, Bathing Facilities, and Shower Rooms

A4.23.3 Clear Floor Space. Figure A7 shows two possible configurations of a toilet room with a roll-in shower. The specific shower shown is designed to fit exactly within the dimensions of a standard bathtub. Since the shower does not have a lip, the floor space can be used for required maneuvering space. This would permit a toilet room to be smaller than would be permitted with a bathtub and still provide enough floor space to be considered accessible. This design can provide accessibility in facilities where space is at a premium (i.e., hotels and medical care facilities). The alternate roll-in shower (Fig. 57b) also provides sufficient room for the "T-turn" and does not require plumbing to be on more than one wall.

A4.23.9 Medicine Cabinets. Other alternatives for storing medical and personal care items are very useful to disabled people. Shelves, drawers, and floor-mounted cabinets can be provided within the reach ranges of disabled people.

A4.26 Handrails, Grab Bars, and Tub and Shower Seats.

A4.26.1 General. Many disabled people rely heavily upon grab bars and handrails to maintain balance and prevent serious falls. Many people brace their forearms between supports and walls to give them more leverage and stability in maintaining balance or for lifting. The grab bar clearance of 1-1/2 in (38 mm) required in this guideline is a safety clearance to prevent injuries resulting from arms slipping through the openings. It also provides adequate gripping room.

A4.26.2 Size and Spacing of Grab Bars and Handrails. This specification allows for alternate shapes of handrails as long as they allow an opposing grip similar to that provided by a circular section of 1-1/4 in to 1-1/2 in (32 mm to 38 mm).

A4.27 Controls and Operating Mechanisms.

A4.27.3 Height. Fig. A8 further illustrates...
A4.28 Alarms.

A4.28.2 Audible Alarms. Audible emergency signals must have an intensity and frequency that can attract the attention of individuals who have partial hearing loss. People over 60 years of age generally have difficulty perceiving frequencies higher than 10,000 Hz. An alarm signal which has a periodic element to its signal, such as single stroke bells (clang-pause-clang-pause), hi-lo (up-down-up-down) and fast whoop (on-off-on-off) are best. Avoid continuous or reverberating tones. Select a signal which has a sound characterized by three or four clear tones without a great deal of "noise" in between.

A4.28.3 Visual Alarms. The specifications in this section do not preclude the use of zoned or coded alarm systems.

A4.28.4 Auxiliary Alarms. Locating visual emergency alarms in rooms where persons who are deaf may work or reside alone can ensure that they will always be warned when an emergency alarm is activated. To be effective, such devices must be located and oriented so that they will spread signals and reflections throughout a space or raise the overall light level sharply. However, visual alarms alone are not necessarily the best means to alert sleepers. A study conducted by Underwriters Laboratory (UL) concluded that a flashing light more than seven times brighter was required (110 candela v. 15 candela at the same distance) to awaken sleepers as was needed to alert awake subjects in a normal daytime illuminated room.

For hotel and other rooms where people are likely to be asleep, a signal-activated vibrator placed between mattress and box spring or under a pillow was found by UL to be much more effective in alerting sleepers. Many readily available devices are sound-activated so that they could respond to an alarm clock, clock radio, wake-up telephone call or room smoke detector. Activation by a building alarm system can either be accomplished by a separate circuit activating an auditory alarm which would, in turn, trigger the vibrator or by a signal transmitted through the ordinary 110 volt outlet. Transmission of signals through the power line is relatively simple and is the basis of common, inexpensive remote light control systems sold in many department and electronic stores for home use. So called "wireless" intercoms operate on the same principle.

A4.29 Detectable Warnings.

A4.29.2 Detectable Warnings on Walking Surfaces. The material used to provide contrast should contrast by at least 70%. Contrast in percent is determined by:

\[ \text{Contrast} = \left( \frac{B_1 - B_2}{B_2} \right) \times 100 \]

where \( B_1 \) = light reflectance value (LRV) of the lighter area and \( B_2 \) = light reflectance value (LRV) of the darker area.

Note that in any application both white and black are never absolute; thus, \( B_1 \) never equals 100 and \( B_2 \) is always greater than 0.

A4.30 Signage.

A4.30.1 General. In building complexes where finding locations independently on a routine basis may be a necessity (for example, college campuses), tactile maps or prerecorded instructions can be very helpful to visually impaired people. Several maps and auditory instructions have been developed and tested for specific applications. The type of map or instructions used must be based on the information to be communicated, which depends highly on the type of buildings or users.

Landmarks that can easily be distinguished by visually impaired individuals are useful as orientation cues. Such cues include changes in illumination level, bright colors, unique patterns, wall murals, location of special equipment or other architectural features.

Many people with disabilities have limitations in movement of their heads and reduced peripheral vision. Thus, signage positioned
A4.30 Signage

perpendicular to the path of travel is easiest for them to notice. People can generally distinguish signage within an angle of 30 degrees to either side of the centerlines of their faces without moving their heads.

A4.30.2 Character Proportion. The legibility of printed characters is a function of the viewing distance, character height, the ratio of the stroke width to the height of the character, the contrast of color between character and background, and print font. The size of characters must be based upon the intended viewing distance. A severely nearsighted person may have to be much closer to recognize a character of a given size than a person with normal visual acuity.

A4.30.4 Raised and Braille Characters and Pictorial Symbol Signs (Pictograms). The standard dimensions for braille are as follows:

- Dot diameter .059 in.
- Inter-dot spacing .090 in.
- Horizontal separation between cells .241 in.
- Vertical separation between cells .395 in.

Raised borders around signs containing raised characters may make them confusing to read unless the border is set far away from the characters. Accessible signage with descriptive materials about public buildings, monuments, and objects of cultural interest may not provide sufficiently detailed and meaningful information. Interpretive guides, audio tape devices, or other methods may be more effective in presenting such information.

A4.30.5 Finish and Contrast. An eggshell finish (11 to 19 degree gloss on 60 degree glossmeter) is recommended. Research indicates that signs are more legible for persons with low vision when characters contrast with their background by at least 70 percent. Contrast in percent shall be determined by:

\[
\text{Contrast} = \frac{|B_1 - B_2|}{B_2} \times 100
\]

where \(B_1\) = light reflectance value (LRR) of the lighter area
and \(B_2\) = light reflectance value (LRR) of the darker area.

Note that in any application both white and black are never absolute; thus, \(B_1\) never equals 100 and \(B_2\) is always greater than 0.

The greatest readability is usually achieved through the use of light-colored characters or symbols on a dark background.

A4.30.7 Symbols of Accessibility for Different Types of Listening Systems. Paragraph 4 of this section requires signage indicating the availability of an assistive listening system. An appropriate message should be displayed with the international symbol of access for hearing loss since this symbol conveys general accessibility for people with hearing loss. Some suggestions are:

- INFRARED
  - ASSISTIVE LISTENING SYSTEM
  - AVAILABLE
  - PLEASE ASK

- AUDIO LOOP IN USE
- TURN T-SWITCH FOR BETTER HEARING
- OR ASK FOR HELP

- FM
  - ASSISTIVE LISTENING SYSTEM AVAILABLE
  - PLEASE ASK

The symbol may be used to notify persons of the availability of other auxiliary aids and services such as: real time captioning, captioned note taking, sign language interpreters, and oral interpreters.

A4.30.8 Illumination Levels. Illumination levels on the sign surface shall be in the 100 to 300 lux range (10 to 30 footcandles) and shall be uniform over the sign surface. Signs shall be located such that the illumination level on the surface of the sign is not significantly exceeded by the ambient light or visible bright lighting source behind or in front of the sign.
### A4.31 Telephones

#### A4.31.3 Mounting Height

In localities where the dual-tone dial system is in operation, calls can be placed at a coin telephone through the operator without inserting coins. The operator button is located at a height of 48 in (1170 mm) if the coin slot of the telephone is at 54 in (1370 mm). A generally available public telephone with a coin slot mounted lower on the equipment would allow universal installation of telephones at a height of 48 in (1220 mm) or less to all operable parts.

#### A4.31.9 Text Telephones

A public text telephone may be an integrated text telephone pay phone unit or a conventional portable text telephone that is permanently affixed within, or adjacent to, the telephone enclosure. In order to be usable with a pay phone, a text telephone which is not a single integrated text telephone pay phone unit will require a shelf large enough (10 in [255mm] wide by 10 in [255 mm] deep with a 6 in [150 mm] vertical clearance minimum) to accommodate the device, an electrical outlet, and a power cord. Movable or portable text telephones may be used to provide equivalent facilities. A text telephone should be readily available so that a person using it may access the text telephone easily and conveniently. As currently designed pocket type text telephones for personal use do not accommodate a wide range of users. Such devices would not be considered substantially equivalent to conventional text telephones. However, in the future as technology develops, this could change.

#### Table A1: Convenient Heights of Tables and Counters for Seated People

<table>
<thead>
<tr>
<th>Conditions of Use</th>
<th>Short Women (in mm)</th>
<th>Tall Women (in mm)</th>
<th>Tall Men (in mm)</th>

<td>26 660</td>
<td>27 685</td>
<td></td>
</tr>
<tr>
<td>Light detailed work:</td>
<td>26 710</td>
<td>31 785</td>
<td></td>
</tr>
</tbody>
</table>

1. All dimensions are based on a work-surface thickness of 1 1/2 in (38 mm) and a clearance of 1 1/2 in (38 mm) between legs and the underside of a work surface.

2. This type of wheelchair arm does not interfere with the positioning of a wheelchair under a work surface.

3. This dimension is limited by the height of the armrests: a lower height would be preferable. Some people in this group prefer lower work surfaces, which require positioning the wheelchair back from the edge of the counter.

#### A4.32 Fixed or Built-in Seating and Tables

#### A4.32.4 Height of Tables or Counters

Different types of work require different table or counter heights for comfort and optimal performance. Light detailed work such as writing requires a table or counter close to elbow height for a standing person. Heavy manual work such as rolling dough requires a counter or table height about 10 in (255 mm) below elbow height for a standing person. This principle of high/low table or counter heights also applies for seated persons; however, the limiting condition for seated manual work is clearance under the table or counter.

#### A4.33 Assembly Areas

#### A4.33.2 Size of Wheelchair Locations

Spaces large enough for two wheelchairs allow people who are coming to a performance together to sit together.

#### A4.33.3 Placement of Wheelchair Locations

The location of wheelchair areas can be planned so that a variety of positions
within the seating area are provided. This will allow choice in viewing and price categories.

Building/life safety codes set minimum distances between rows of fixed seats with consideration of the number of seats in a row, the exit aisle width and arrangement, and the location of exit doors. "Continental" seating, with a greater number of seats per row and a commensurate increase in row spacing and exit doors, facilitates emergency egress for all people and increases ease of access to mid-row seats especially for people who walk with difficulty. Consideration of this positive attribute of "continental" seating should be included along with all other factors in the design of fixed seating areas.

A5.0 Restaurants and Cafeterias

A5.0 Restaurants and Cafeterias.

A5.1 General. Dining counters (where there is no service) are typically found in small carry-out restaurants, bakeries, or coffee shops and may only be a narrow eating surface attached to a wall. This section requires that where such a dining counter is provided, a portion of the counter shall be at the required accessible height.

A7.0 Business and Mercantile.

A7.23(1) Assistive Listening Devices. At all sales and service counters, teller windows, box offices, and information kiosks where a physical barrier separates service personnel and customers, it is recommended that at least one permanently installed assistive listening device complying with 4.33 be provided at each location or series. Where assistive listening devices are installed, signage should be provided identifying those stations which are so equipped.

A7.3 Check-out Aisles. Section 7.2 refers to counters without aisles; section 7.3 concerns check-out aisles. A counter without an aisle (7.2) can be approached from more than one direction such as in a convenience store. In order to use a check-out aisle (7.3), customers must enter a defined area (an aisle) at a particular point, pay for goods, and exit at a particular point.

A10.3 Fixed Facilities and Stations.

A10.3.1(7) Route Signs. One means of making control buttons on fare vending machines usable by persons with vision impairments is to raise them above the surrounding surface. Those activated by a mechanical motion are likely to be more detectable. If farecard vending, collection, and adjustment devices are designed to accommodate farecards having one tactilely distinctive corner, then a person who has a vision impairment will insert the card with greater ease. "Token collection devices that are designed to accommodate tokens which are perforated can allow a person to distinguish more readily between tokens and common coins. Thoughtful placement of accessible gages and fare vending machines in relation to tracessible devices will make their use and detection easier for all persons with disabilities.
Office of the Secretary of Transportation

APPENDIX C TO PART 37—CERTIFICATIONS

Certification of Equivalent Service

The (name of agency) certifies that its demand responsive service offered to individuals with disabilities, including individuals who use wheelchairs, is equivalent to the most integrated setting feasible and is equivalent with respect to:

(1) Response time;
(2) Fares;
(3) Geographic service area;
(4) Hours and days of service;
(5) Restrictions on trip purpose;
(6) Availability of information and reservation capability; and
(7) Constraints on capacity or service availability.

In accordance with 49 CFR 37.77, public entities operating demand responsive systems for the general public which receive financial assistance under section 18 of the Federal Transit Act must file this certification with the appropriate state program office before procuring any inaccessible vehicle. Such public entities not receiving FTA funds shall also file the certification with the appropriate state program office. Such public entities receiving FTA funds under any other section of the FT Act must file the certification with the appropriate FTA regional office. This certification is valid for no longer than one year from its date of filing.

(name of authorized official)

APPENDIX D TO PART 37—CONSTRUCTION AND INTERPRETATION OF PROVISIONS OF 49 CFR PART 37

This appendix explains the Department's construction and interpretation of provisions of 49 CFR part 37. It is intended to be used as definitive guidance concerning the meaning and implementation of these provisions. The appendix is organized on a section-by-section basis. Some sections of the rule are not discussed in the appendix, because they are self-explanatory or we do not currently have interpretive material to provide concerning them.

The Department also provides guidance by other means, such as manuals and letters. The Department intends to update this Appendix periodically to include guidance, provided in response to inquiries about specific situations, that is of general relevance or interest.

AMENDMENTS TO 49 CFR PART 27

Section 27.67(d) has been revised to reference the Access Board facility guidelines (found in appendix A to part 37) as well as the Uniform Federal Accessibility Standard (UFAS). This change was made to ensure consistency between requirements under section 504 and the ADA. Several caveats relating to the application of UFAS (e.g., that spaces not used by the public or likely to result in the employment of individuals with disabilities would not have to meet the standards) have been deleted. It is the Department's understanding that provisions of the Access Board standards and part 37 make them unnecessary.

The Department is aware that there is a transition period between the publication of this rule and the effective date of many of its provisions (e.g., concerning facilities and paratransit services) during which section 504 remains the basic authority for accessibility modifications. In this interval, the Department expects recipients' compliance with section 504 to look forward to compliance with the ADA provisions. That is, if a recipient is making a decision about the shape of its paratransit service between the publication of this rule and January 26, 1992, the decision should be in the direction of service that will help to comply with post-January 1992 requirements. A recipient that severely curtailed its present paratransit service in October, and then asked for a three- or five-year phase-in of service under its paratransit plan, would not be acting consistent with this policy.

Likewise, the Department would view with disfavor any attempt by a recipient to accelerate the beginning of the construction, installation or alteration of a facility to before January 26, 1992, to “beat the clock” and avoid the application of this rule's facility standards. The Department would be very reluctant to approve grants, contracts, exemption requests etc., that appear to have this effect. The purpose of the Department's administration of section 504 is to ensure compliance with the national policy stated in the ADA, not to permit avoidance of it.

SUBPART A—GENERAL

Section 37.3 Definitions

The definition of "commuter authority" includes a list of commuter rail operators drawn from a statutory reference in the
ADA. It should be noted that this list is not exhaustive. Other commuter rail operators (e.g., in Chicago or San Francisco) would also be encompassed by this definition. The definition of “commuter bus service” is important because the ADA does not require complementary paratransit to be provided with respect to commuter bus service operated by public entities. The rationale that may be inferred for the statutory exemption for this kind of service concerns its typical characteristics (e.g., no attempt to comprehensively cover a service area, limited route structure, limited origins and destinations, interface with another mode of transportation, limited purposes of travel). These characteristics can be found in some transportation systems other than bus systems oriented toward work trips. For example, bus service that is used as a dedicated connector to commuter or intercity rail service, certain airport shuttles, and university bus systems share many or all of these characteristics. As explained further in the discussion of subpart B, the Department has determined that it is appropriate to cover these services with the requirements applicable to commuter bus systems.

The definitions of “designated public transportation” and “specified public transportation” exclude transportation by aircraft. Persons interested in matters concerning access to air travel for individuals with disabilities should refer to 14 CFR part 382, the Department’s regulation implementing the Air Carrier Access Act. Since the facility requirements of this part refer to facilities included in the provision of designated or specified public transportation, airport facilities are not covered by this part. DOJ makes clear that public and private airport facilities are covered under its title II and title III regulations, respectively.

The examples given in the definition of “facility” all relate to ground transportation. We would point out that, since transportation by passenger vessels is covered by this rule and by DOJ rules, such vessel-related facilities as docks, wharfs, vessel terminals, etc., fall under this definition. It is intended that specific requirements for vessels and related facilities will be set forth in future rulemaking.

The definitions of “fixed route system” and “demand responsive system” derive directly from the ADA’s definitions of these terms. Some systems, like a typical city bus system or a dial-a-ride van system, fit clearly into one category or the other. Other systems may not so clearly fall into one of the categories. Nevertheless, because how a system is categorized has consequences for the requirements it must meet, entities must determine, on a case-by-case basis, into which category their systems fall.

In making this determination, one of the key factors to be considered is whether the individual, in order to use the service, must request the service, typically by making a call.

With fixed route service, no action by the individual is needed to initiate public transportation. If an individual is at a bus stop at the time the bus is scheduled to appear, then that individual will be able to access the transportation system. However, to access demand responsive service, an additional step must be taken by the individual before he or she can ride the bus, i.e., the individual must make a telephone call.

(S. Rept. 101-116 at 54).

Other factors, such as the presence or absence of published schedules, or the variation of vehicle intervals in anticipation of differences in usage, are less important in making the distinction between the two types of service. If a service is provided along a given route, and a vehicle will arrive at certain times regardless of whether a passenger actively requests the vehicle, the service in most cases should be regarded as fixed route rather than demand responsive.

At the same time, the fact that there is an interaction between a passenger and transportation service does not necessarily make the service demand responsive. For many types of service (e.g., intercity bus, intercity rail) which are clearly fixed route, a passenger has to interact with an agent to buy a ticket. Some services (e.g., certain commuter bus or commuter rail operations) may use flag stops, in which a vehicle along the route does not stop unless a passenger flags the vehicle down. A traveler staying at a hotel usually makes a room reservation before hopping on the hotel shuttle. This kind of interaction does not make an otherwise fixed route service demand responsive.

On the other hand, we would regard a system that permits user-initiated deviations from routes or schedules as demand-responsive. For example, if a rural public transit system (e.g., a section 18 recipient) has a few fixed routes, the fixed route portion of its system would be subject to the requirements of subpart F for complementary paratransit service. If the entity changed its system so that it operated as a route-deviation system, we would regard it as a demand responsive system. Such a system would not be subject to complementary paratransit requirements.

The definition of “individual with a disability” excludes someone who is currently engaging in the illegal use of drugs, when a covered entity is acting on the basis of such use. This concept is more important in employment and public accommodations contexts than it is in transportation, and is discussed at greater length in the DOJ and EEOC rules. Essentially, the definition says that, although drug addiction (i.e., the status or a diagnosis of being a drug abuser) is a disability, no one is regarded as being an...
individual with a disability on the basis of current illegal drug use. Moreover, even if an individual has a disability, a covered entity can take action against the individual if the individual is currently engaging in illegal drug use. For example, if a person with a mobility or vision impairment is ADA paratransit eligible, but is caught possessing or using cocaine or marijuana on a paratransit vehicle, the transit provider can deny the individual further eligibility. If the individual has successfully undergone rehabilitation or is no longer using drugs, as explained in the preamble to the DOJ rules, the transit provider could not continue to deny eligibility on the basis that the individual was a former drug user or still was diagnosed as a person with a substance abuse problem.

We defined "paratransit" in order to note its specialized usage in the rule. Part 37 uses this term to refer to the complementary paratransit service comparable to public fixed route systems which must be provided. Typically, paratransit is provided in a demand responsive mode. Obviously, the rule refers to a wide variety of demand responsive services that are not "paratransit," in this specialized sense.

The ADA's definition of "over-the-road bus" may also be somewhat narrower than the common understanding of the term. The ADA definition focuses on a bus with an elevated passenger deck over a baggage compartment (i.e., a "Greyhound-type" bus). Other types of buses commonly referred to as "over-the-road buses," which are sometimes used for commuter bus or other service, do not come within this definition. Only buses that do come within the definition are subject to the over-the-road bus exception to accessibility requirements in Title III of the ADA.

For terminological clarity, we want to point out that two different words are used in ADA regulations to refer to devices on which individuals with hearing impairments communicate over telephone lines. DOJ uses the more traditional term "telecommunications device for the deaf" (TDD). The Access Board uses a newer term, "text telephone." The DOT rule uses the terms interchangeably.

The definition of "transit facility" applies only with reference to the TDD requirement of appendix A to this Part. The point of the definition is to exempt from TDD requirements open structures, like bus shelters, or facilities which are not used primarily as transportation stops or terminals. For example, a drug store in a small town may sell intercity bus tickets, and people waiting for the bus may even wait for the bus inside the store. But the drug store's raison d'être is not to be a bus station. Its transportation function is only incidental. Consequently, its obligations with respect to TDDs would be those required of a place of public accommodation by DOJ rules.

A "used vehicle" means a vehicle which has prior use; prior, that is, to its acquisition by its present owner or lessee. The definition is not relevant to existing vehicles in one's own fleet, which were obtained before the ADA vehicle accessibility requirements took effect.

A "vanpool" is a voluntary commuter ride-sharing arrangement using a van with a seating capacity of more than seven persons, including the driver. Carpools are not included in the definition. There are some systems using larger vehicles (e.g., buses) that operate, in effect, as vanpools. This definition encompasses such systems. Vanpools are used for daily work trips, between commuters' homes (or collection points near them) and work sites (or drop points near them). Drivers are themselves commuters who are either volunteers who receive no compensation for their efforts or persons who are reimbursed by other riders for the vehicle, operating, and driving costs.

The definition of "wheelchair" includes a wide variety of mobility devices. This inclusiveness is consistent with the legislative history of the ADA (See S. Rept. 101-116 at 48). While some mobility devices may not look like many persons' traditional idea of a wheelchair, three and four wheeled devices, of many varied designs, are used by individuals with disabilities and must be transported. The definition involves an 'envelope' relating to the Access Board requirements for vehicle lifts.

A lift conforming to Access Board requirements is 30" x 48" and capable of lifting a wheelchair/occupant combination of up to 600 pounds. Consequently, a common wheelchair is one that fits these size and weight dimensions. Devices used by individuals with disabilities that do not fit this envelope (e.g., may "gurneys") do not have to be carried.

Section 37.5 Nondiscrimination This section states the general nondiscrimination obligation for entities providing transportation service. It should be noted that virtually all public and private entities covered by this regulation are also covered by DOJ regulations, which have more detailed statements of general nondiscrimination obligations.

Under the ADA, an entity may not consign an individual with disabilities to a separate, "segregated," service for such persons, if the individual can in fact use the service for the general public. This is true even if the individual takes longer, or has more difficulty, than other persons in using the service for the general public.
Office of the Secretary of Transportation

One instance in which this principal applies concerns the use of designated priority seats (e.g., the so-called “elderly and handicapped” seats near the entrances to buses). A person with an ability (e.g., a visual impairment) may choose to take advantage of this accommodation or not. If not, it is contrary to rule for the entity to insist that the individual enter or remain in the priority seats.

The prohibition on special charges applies to charges for service to individuals with disabilities that are higher than charges for the same or comparable services to other persons. For example, if a shuttle service charges $20.00 for a ride from a given location to the airport for most people, it could not charge $40.00 because the passenger had a disability or needed to use the shuttle service’s lift-equipped van. Higher mileage charges for using an accessible vehicle would likewise be inconsistent with the rule. So would charging extra to carry a service animal accompanying an individual with a disability.

If a taxi company charges $1.00 to stow luggage in the trunk, it cannot charge $2.00 to stow a folding wheelchair there. This provision must also be considered in the face of difficulties with their insurance companies. For example, a transit company told a transit provider that it would withdraw coverage, or raise rates, unless a transit provider refused to carry persons with disabilities, or unless the provider refused to carry three-wheeled scooters, this would not excuse the provider from providing the service as mandated by this part. This is not a regulatory requirement on insurance companies, but simply says that covered entities must comply with this part, even in the face of difficulties with their insurance companies.

Section 37.7 Standards for Accessible Vehicles

This section makes clear that, in order to meet accessibility requirements of this rule, vehicles must comply with Access Board standards, incorporated in DOT rules as 49 CFR part 38. Paragraph (b) of §37.7 spells out a procedure by which an entity (public or private) can deviate from provisions of part 38 with respect to vehicles. The entity can make a case to the Administrator that it is unable to comply with a particular portion of part 36, as written, for specified reasons, and that it is providing comparable compliance by some alternative method. The entity would have to describe how its alternative mode of compliance would meet or exceed the level of access to or usability of the vehicle that compliance with part 36 would otherwise provide.

It should be noted that equivalent facilitation does not provide a means to get a waiver of accessibility requirements. Rather, it is a way in which comparable (not a lesser degree of) accessibility can be provided by other means. The entity must consult with the public through some means of public participation in devising its alternative form of compliance, and the public input must be reflected in the submission to the Administrator (or the Federal Railroad Administrator) in appropriate cases, such as a request concerning Amtrak. The Administrator will make a case-by-case decision about whether compliance with part 38 was achievable and, if not, whether the proffered alternative complies with the equivalent facilitation standard. DOT intends to consult with the Access Board in making these determinations.

This equivalent facilitation provision can apply to buses or other motor vehicles as well as to rail cars and vehicles. An example of what could be an equivalent facilitation
would concern rail cars which would leave too wide a horizontal gap between the door and the platform. If the operator used a combination of bridgeplates and personnel to bridge the gap, it might be regarded as an equivalent facilitation in appropriate circumstances.

Section 37.7(c) clarifies which specifications must be complied with for the key station. The Access Board, as well as DOT, recognize that the standards for the Uniform Federal Accessibility Standard (UFAS) do not fully meet the standards of appendix A. For example, the key station may not be fully accessible as this rule requires, then additional modifications would have to be made according to the standards of appendix A. Suppose this entity has put an elevator into the station to make it accessible to individuals who use wheelchairs. If the elevator does not fully meet the applicable standards, but met the applicable ANSI standard when it was installed, it would not need further modifications now. But if it had not already done so, the station would have to install a tactile strip along the platform edge in order to make the key station fully accessible as provided in this rule. The tactile strip would have to meet appendix A requirements.

The rule specifically provides that "grandfathering" applies only to alterations of individual elements and spaces and only to the extent that provisions covering those elements or spaces are found in UFAS or ANSI A117.1. For example, alterations to the telecommunications devices for the deaf (TDDs) were not installed. (Neither UFAS nor the ANSI standard include requirements concerning TDDs). However, because appendix A does contain TDD requirements, the key station must now be altered in accordance with the standards for TDDs. Similarly, earlier alteration of an entire station in accordance with UFAS or the ANSI standard would not relieve an entity from compliance with any applicable provision concerning the gap between the platform between the platform and the vehicle in a key station, because neither of these two standards addresses the interface between vehicle and platform.

New paragraph (c) of this section clarifies a provision of the Access Board's standards concerning the construction of bus stop pads at bus stops. The final Access Board standard (found at §10.2.1[1]) of appendix A to part 37 has been rewritten slightly to clear up confusion about the perceived necessary construction of a bus stop pad. Section 10.2.1[1] does not fully meet appendix A standard. So long as the work was done in conformity with the standard that was in effect when the work was done, the alteration will be considered accessible.
provider. Paragraph (c) of §37.9 merely notes that where a transit provider does have control over the construction, it must exercise that control to ensure that the pad meets these specifications.

One further clarification concerning the implication of this provision deals with a bus loading island at which buses pull up on both sides of the island. It would be possible to read the bus pad specification to require the island to be a minimum of 84 inches wide (two widths of a bus stop pad), so that a lift could be deployed from buses on both sides of the island at the same time. A double-wide bus pad, however, is likely to exceed available space in most instances.

Where there is space, of course, building a double-wide pad is one acceptable option under this rule. However, the combination of a pad of normal width and standard operational practices may also suffice. (Such practices could be offered as an equivalent facilitation.) For example, buses on either side of the island could stop at staggered locations (i.e., the bus on the left side could stop several feet ahead of the bus on the right side), so that even when buses were on both sides of the island at once, their lifts could be deployed without conflict. Where it is possible, building the pad a little longer than normal size could facilitate such an approach. In a situation where staggered stop areas are not feasible, an operational practice of having one bus wait until the other’s lift cycle had been completed could do the job. Finally, the specification does not require that a pad be built at all. If there is nothing that can be done to permit lift deployment on both sides of an island, the buses can stop on the street, or some other location, so long as the lift is deployable.

Like §37.7, this section contains a provision allowing an entity to request approval of providing accessibility through an equivalent facilitation.

Section 37.11 Administrative Enforcement

This section spells out administrative means of enforcing the requirements of the ADA. Recipients of Federal financial assistance (whether public or private entities) are subject to DOT’s §504 enforcement procedures. The existing procedures, including administrative complaints to the DOT Office of Civil Rights, investigation, attempts at conciliation, and final resort to proceedings to cut off funds to a noncomplying recipient, will continue to be used.

In considering enforcement matters, the Department is guided by a policy that emphasizes compliance. The aim of enforcement action, as we see it, is to make sure that entities meet their obligations, not to impose sanctions for their own sake. The Department’s enforcement priority is on failures to comply with basic requirements and “pattern or practice” kinds of problems, rather than on isolated operational errors.

Under the DOJ rules implementing title II of the ADA (28 CFR part 36), DOT is a “designated agency” for enforcement of complaints relating to transportation programs of public entities, even if they do not receive Federal financial assistance. When it receives such a complaint, the Department will investigate the complaint, attempt conciliation and, if conciliation is not possible, take action under section 504 and/or refer the matter to the DOJ for possible further action.

Title III of the ADA does not give DOT any administrative enforcement authority with respect to private entities whose transportation services are subject to part 37. In its title III rule (28 CFR part 36), DOJ assumes enforcement responsibility for all title III matters. If the Department of Transportation receives complaints of violations of part 37 by private entities, it will refer the matters to the DOJ.

It should be pointed out that the ADA includes other enforcement options. Individuals have a private right of action against entities who violate the ADA and its implementing regulations. The DOJ can take violators to court. These approaches are not mutually exclusive with the administrative enforcement mechanisms described in this section. An aggrieved individual can complain to DOT about an alleged transportation violation and go to court at the same time. Use of administrative enforcement procedures is not, under titles II and III, an administrative remedy that individuals must exhaust before taking legal action.

We also would point out that the ADA does not assert any blanket preemptive authority over state or local nondiscrimination laws and enforcement mechanisms. While requirements of the ADA and this regulation would preempt conflicting state or local provisions (e.g., a building code or zoning ordinance that prevents compliance with appendix A or other facility accessibility requirements, a provision of local law that said bus drivers could not leave their seats to help secure wheelchair users), the ADA and this rule do not prohibit states and localities from legislating in areas relating to disability. For example, if a state law requires a higher degree of service than the ADA, that requirement could still be enforced. Also, states and localities may continue to enforce their own parallel requirements. For example, it would be a violation of this rule for a taxi driver to refuse to pick up a person based on that person’s disability. Such a refusal may also be a violation of a county’s taxi rules, subjecting the violator to a fine or suspension of operating privileges. Both ADA and local remedies could proceed in such a case.

Labor-management agreements cannot stand in conflict with the requirements of
Pt. 37, App. D

49 CFR Subtitle A (10-1-98 Edition)

the ADA and this rule. For example, if a labor-management agreement provides that vehicle drivers are not required to provide assistance to persons with disabilities in a situation in which this rule requires such assistance, then the assistance must be provided notwithstanding the agreement. Labor and management do not have the authority to agree to violate requirements of Federal law.

Section 37.13 Effective Date for Certain Vehicle Lift Specifications.

This section contains an explicit statement of the effective date for vehicle lift platform specifications. The Department has decided to apply the new part 38 lift platform specifications to solicitations after January 25, 1992. As in the October 4, 1990, rule implementing the acquisition requirements; the date of a solicitation is deemed to be the closing date for the submission of bids or offers in a procurement.

SUBPART B—APPLICABILITY

Section 37.21 Applicability.—General

This section emphasizes the broad applicability of part 37. Unlike section 504, the ADA and its implementing rules apply to entities whether or not they receive Federal financial assistance. They apply to private and public entities alike. For entities which do receive Federal funds, compliance with the ADA and part 37 is a condition of compliance with section 504 and 49 CFR part 27, DOT’s section 504 rule.

Virtually all entities covered by this rule also are covered by DOJ rules, either under 28 CFR part 36 as state and local program providers or under 28 CFR part 35 as operators of places of public accommodation. Both sets of rules apply; one does not override the other. The DOT rules apply only to the entity’s transportation facilities, vehicles, or services; the DOJ rules may cover the entity’s activities more broadly. For example, if a public entity operates a transit system and a zoo, DOT’s coverage would stop at the transit system’s edge, while DOJ’s rule would cover the zoo as well.

DOT and DOJ have coordinated their rules, and the rules have been drafted to be consistent with one another. Should, in the context of some future situation, there be an apparent inconsistency between the two rules, the DOT rule would control within the sphere of transportation services, facilities and vehicles.

Section 37.23 Service Under Contract

This section requires private entities to “stand in the shoes” of public entities with whom they contract to provide transportation services. It ensures that, while a public entity may contract out its service, it may not contract away its ADA responsibilities. The requirement applies primarily to vehicle acquisition requirements and to service provision requirements.

If a public entity wants to acquire accessible buses, it may contract with a private entity to provide the service, under the terms of either the public entity’s agreement with the private entity or under the terms of the public entity’s Federal contract. The private entity and the public entity must comply with the rules applicable to the public entity. The private entity and the public entity are treated identically.

The import of the provision is that it requires a private entity contracting to provide transportation service to a public entity to follow the rules applicable to the public entity. For the time being, a private entity operating in its own right can purchase a new over-the-road bus inaccessible to individuals who use wheelchairs. When that private entity operates service under contract to the public entity, however, it is just as obligated as the public entity itself to purchase an accessible bus for use in that service, whether or not it is an over-the-road bus.

The “stand in the shoes” requirement applies not only to vehicles acquired by private entities explicitly under terms of an executed contract to provide service to a public entity, but also to vehicles acquired “in contemplation of use” for service under such a contract. This language is included to ensure good faith compliance with accessibility requirements for vehicles acquired before the execution of a contract. Whether a particular acquisition is in contemplation of use on a contract will be determined on a case-by-case basis. However, acquiring a vehicle a short time before a contract is executed and then using it for the contracted service is an indication that the vehicle was acquired in contemplation of use on the contract, as is acquiring a vehicle ostensibly for other service provided by the entity and then regularly rotating it into service under the contract.

The “stand in the shoes” requirement is applicable only to the vehicles and service
Office of the Secretary of Transportation

(public entity service requirements, like §37.163, apply to a private entity in these situations) provided under contract to a public entity. Public entity requirements clearly do not apply to all phases of a private entity's operations, just because it has a contract with a public entity. For example, a private bus company, if purchasing buses for service under contract to a public entity, must purchase accessible buses. The same company, to the extent permitted by the private entity's provisions of this part, may purchase inaccessible vehicles for its tour bus operations.

The Department also notes that the "stands in the shoes" requirement may differ depending on the kind of service involved. The public entity's "shoes" are shaped differently, for example, depending on whether the public entity is providing fixed route or demand responsive service to the general public. In the case of demand responsive service, a public entity is not required to buy an accessible vehicle if its demand responsive system, when viewed in its entirety, provides service to individuals with disabilities equivalent to its service to other persons. A private contractor providing a portion of this paratransit service would not necessarily have to acquire an accessible vehicle if this equivalency test is being met by the system as a whole. Similarly, a public entity can, after going through a "good faith efforts" search, acquire inaccessible buses. A private entity under contract to the public can do the same. "Stand in the shoes" may also mean that, under some circumstances, a private contractor need not acquire accessible vehicles. If a private company contracts with a public school district to provide school bus service, it is covered, for that purpose, by the exemption for public school transportation.

In addition, the requirement that a private entity play by the rules applicable to a public entity can apply in situations involving an "arrangement or other relationship" with a public entity other than the traditional contract for service. For example, a private utility company that operates what is, in essence, a regular fixed route public transportation system for a city, and which receives section 3 or 9 funds from FTA via an agreement with a state or local government agency, would fall under the provisions of this section. The provider would have to comply with the vehicle acquisition, paratransit, and service requirements that would apply to the public on the route through which it receives the FTA funds, if that public entity operated the system itself. The Department would not, however, construe this section to apply to situations in which the degree of FTA funding and state and local agency involvement is considerably less, or in which the system of transportation involved is not a de facto surrogate for a traditional public entity fixed route transit system serving a city (e.g., a private non-profit social service agency which receives FTA section 16(b)(2) funds to purchase a vehicle).

This section also requires that a public entity not diminish the percentage of accessible vehicles in its fleet through contracting. For example, suppose a public entity has 100 buses in its fleet, of which 20 are accessible, meaning that 20 percent of its fleet is accessible. The entity decides to add a fixed route, for which a contractor is engaged. The contractor is supplying ten of its existing inaccessible buses for the fixed route. To maintain the 20 percent accessibility ratio, there would have to be 22 accessible buses out of the 110 buses now in operation in carrying out the public entity's service. The public entity could maintain its 20 percent level of accessibility through any one or more of a number of means, such as having the contractor to provide two accessible buses, retrofitting two if its own existing buses, or accelerating replacement of two of its own inaccessible buses with accessible buses.

This rule applies the "stand in the shoes" principle to transactions wholly among private entities as well. For example, suppose a taxi company (a private entity primarily engaged in the business of transporting people) contracts with a hotel to provide airport shuttle van service. With respect to that service, the taxi company would be subject to the requirements for private entities not primarily in the business of transporting people, since it would be "standing in the shoes" of the hotel for that purpose.

Section 37.163 University Transportation Systems

Private university-operated transportation systems are subject to the requirements of this rule for private entities not primarily engaged in the business of transporting people. With one important exception, public university-operated transportation systems are subject to the requirements of the rule for public entities. The nature of the systems involved—demand-responsive or fixed route—determines the precise requirements involved.

For public university fixed route systems, public entity requirements apply. In the case of fixed route systems, the requirements for commuter bus service would govern. This has the effect of requiring the acquisition of accessible vehicles and compliance with most other provisions of the rule, but does not require the provision of complementary paratransit or submitting a paratransit plan. As a result, private and public universities will have very similar obligations under the rule.
Pt. 37, App. D

Section 37.27 Transportation for Elementary and Secondary Education Systems

This section restates the statutory exemption from public entity requirements given to public school transportation. This extension also applies to transportation of pre-school children to Head Start or special education programs which receive Federal assistance. It also applies to arrangements permitting pre-school children of school bus drivers to ride a school bus or allowing teen-age mothers to be transported to day care facilities at a school or along a school bus route so that their mothers may continue to attend school (See H. Rept. 101-485, pt. 1 at 27). The situation for private schools is more complex. According to the provision, a private elementary or secondary school's transportation system is exempt from coverage under this rule if all three of the following conditions are met: (1) The school receives Federal financial assistance; (2) the school is subject to section 504; and (3) the school's transportation system provides transportation services to individuals with disabilities, including wheelchair users, equivalent to those provided to individuals without disabilities. The test of equivalency is the same as that for other private entities, and is described under §37.105. If the school does not meet all these criteria, then it is subject to the requirements of Part 37 for private entities not primarily engaged in the business of transporting people.

The Department notes that, given the constitutional law on church-state separation, it is likely that church-affiliated private schools do not receive Federal financial assistance. To the extent that these schools' transportation systems are operated by religious entities or entities controlled by religious organizations, they are not subject to the ADA at all, so this section does not apply to them.

Section 37.29 Private Providers of Taxi Service

This section first recites that providers of taxi service are private entities primarily engaged in the business of transporting people which provide demand responsive service. For purposes of this section, other transportation services that involve calling for a car and a driver to take one place (e.g., limousine services, of the kind that provide luxury cars and chauffeurs for senior proms and analogous adult events) are regarded as taxi services.

Under the ADA, no private entity is required to purchase an accessible automobile. If a taxi company purchases a larger vehicle, like a van, it is subject to the same rules as any other private entity primarily engaged in the business of transporting people which operates a demand responsive service. That is, unless it is already providing equivalent service, any van it acquires must be accessible. Equivalent service is measured according to the criteria of §37.105. Taxi companies are not required to acquire vehicles other than automobiles to add accessible vehicles to their fleets.

Taxi companies are subject to non-discrimination obligations. These obligations mean, first, that a taxi service may not deny a ride to an individual with a disability who is capable of using the taxi vehicles. It would be discrimination to pass up a passenger because he or she was blind or used a wheelchair, if the wheelchair was one that could be stowed in the cab and the passenger could transfer to a vehicle seat. Nor could a taxi company insist that a wheelchair user wait for a lift-equipped van if the person could use an automobile.

It would be discrimination for a driver to refuse to assist with stowing a wheelchair in the trunk (since taxi drivers routinely assist passengers with stowing luggage). It would be discrimination to charge a higher fare for carrying a person with a disability than for carrying a non-disabled passenger, or a higher fare for stowing a wheelchair than for stowing a suitcase. (Charging the same fee for stowing a wheelchair as for stowing a suitcase would be proper, however.) The fact that it may take somewhat more time and effort to serve a person with a disability than another passenger does not justify discriminatory conduct with respect to passengers with disabilities.

State or local governments may run user-side subsidy arrangements for the general public (e.g., taxi voucher systems for senior citizens or low-income persons). Under the DOJ title II rule, these programs would have to meet "program accessibility" requirements, which probably would require that accessible transportation be made available to senior citizens or low-income persons with disabilities. This would not directly require private taxi providers who accept the vouchers to purchase accessible vehicles beyond the requirements of this rule, however.

Section 37.31 Vanpools

This provision applies to public vanpool systems the requirements for public entities operating demand responsive systems for the general public. A public vanpool system is one operated by a public entity, or in which a public entity owns or purchases or leases the vehicles. Lesser degrees of public involvement with an otherwise private ride-sharing arrangement (e.g., provision of parking spaces, HOV lanes, coordination or clearhouse services) do not convert a private into a public system.

The requirement for a public vanpool system is that it purchase or lease an accessible vehicle unless it can demonstrate that it provides equivalent service to individuals with disabilities, including individuals who use wheelchairs, as it provides to individuals.
without disabilities. For a public vanpool system, the equivalency requirement would be met if an accessible vehicle is made available to and used by a vanpool when an individual with a disability needs such a vehicle to participate. Public vanpool systems may meet this requirement through obtaining a percentage of accessible vehicles that is reasonable in light of demand for them by participants, but this is not required, so long as the entity can respond promptly to requests for participation in a vanpool with the provision of an accessible van when needed.

There is no requirement for private vanpools, defined as a voluntary arrangement in which the driver is compensated only for expenses.

Section 37.33 Airport Transportation Systems

Fixed route transportation systems operated by public airports are regarded by this section as fixed route commuter bus systems. As such, shuttles among terminals and parking lots, connector systems among the airport and a limited number of other local destinations must acquire accessible buses, but are not subject to complementary paratransit requirements. (If a public airport operates a demand responsive system for the general public, it would be subject to the rules for demand responsive systems for the general public.)

It should be noted that this section applies only to transportation services that are operated by public airports themselves (or by private contractors who stand in their shoes). When a regular urban mass transit system serves the airport, the airport is subject to the requirements of that urban transit system.

Virtually all airports are served by taxi stands. Without exception, there is no requirement for taxi services at airports. However, this is not a function of the primary service of the airport. The airport is truly a part of the urban mass transit system, not just a parking lot. Consequently, a requirement for accessible vehicles would not be appropriate.

The service that the carrier provides in this situation is essentially a continuation by other means of its primary service. We view the obligation of the rail operator as

Section 37.35 Supplemental Service for Other Transportation Modes

This section applies to a number of situations in which an operator of another transportation mode uses bus or other service to connect its service with limited other points. One instance is when an intercity railroad route is set up such that the train stops outside the major urban center which is the actual destination for many passengers. Examples mentioned to us include bus service run by Amtrak from a stop in Columbus, Wisconsin, to downtown Madison, or from San Jose to San Francisco. Such service is fixed route, from the train station to a few points in the metropolitan area, with a schedule keyed to the train schedule. It would be regarded as commuter bus service, meaning that accessible vehicles would have to be acquired but complementary paratransit was not required.

Another instance is one in which a commuter rail operator uses fixed route bus service as a dedicated connection to, or extension of, its rail service. The service may go to park and ride lots or other destinations beyond the vicinity of the rail line. Again, this service shares the characteristics of commuter bus service that might be used even if the rail line were not present, and does not attempt to be a comprehensive mass transit bus service for the area.

Of course, there may be instances in which a rail operator uses demand responsive in- tercity transportation as a part of its service, such as a shuttle service to a race track or race meet in Illinois. This kind of service is covered by the rules governing private entities not primarily engaged in the business of transporting people. Fixed route or demand responsive rules apply, depending on the characteristics of the system involved.

Private entities (i.e., those operating places of public accommodation) may operate similar systems, as when a cruise ship operator provides a shuttle or connector between an airport and the dock. This service is covered by the rules governing private entities not primarily engaged in the business of transporting people. Fixed route or demand responsive rules apply, depending on the characteristics of the system involved.

One situation not explicitly covered in this section concerns ad hoc transportation arrangements, for instance, by a rail operator when the train does not wind up at its intended destination. For example, an Amtrak train bound for Philadelphia may be halted at Wilmington by a track blockage between the two cities. Usually, the carrier responds by providing bus service to the scheduled destination or to the next point where rail service can resume.
being to ensure that all passengers, including individuals with disabilities, are provided service to the destination in a non-discriminatory manner. This includes, for instance, providing service in the most integrated setting appropriate to the needs of the individual and service that gets a passenger with a disability to the destination as soon as other passengers.

Section 37.37 Other Applications

The ADA specifically defines “public entity” as a “private entity.” The statute does not include in this definition a private entity that receives a subsidy or franchise from a state or local government or a public entity. Only through the definition of “operates” (see discussion of §37.23) do private entities’ relationships to public entities subject private entities to the requirements for public entities. Consequently, in deciding which provisions of the rule to apply to an entity in other than situations covered by §37.23, the nature of the entity—public or private—is determinative.

Transportation service provided by public accommodations is viewed as being provided by private entities not primarily engaged in the business of transporting people. Either the provisions of this part applicable to demand responsive or fixed route systems apply, depending on the nature of a specific system at a specific location. The distinction between fixed route and demand responsive systems is discussed in connection with the definitions section above. It is the responsibility of each private entity, in the first instance, to assess the nature of each transportation system on a case-by-case basis and determine the applicable rules.

On the other hand, conveyances used for recreational purposes, such as amusement park rides, ski lifts, or historic rail cars or trolleys operated in museum settings, are not viewed as transportation under this rule at all. Other conveyances may fit into this category as well.

The criterion for determining what requirements apply is whether the conveyances are primarily an aspect of the recreational experience itself or a means of getting from Point A to Point B. At a theme park, for instance, a large roller coaster (though a “train” of cars on a track) is a public accommodation not subject to this rule; the tram that transports the paying customers around the park, with a stop at the roller coaster, is a transportation system subject to the “private, not primarily” provisions of this part.

Employer-provided transportation for employees is not covered by this part, but by EEOC rules under title I of the ADA. (Public entities are also subject to DOJ’s title II rules with respect to employment.) This exclusion from part 37 applies to transportation services provided by an employer (whether access to motor pool vehicles, parking shuttles, employer-sponsored van pools) that is made available solely to its own employees. If an employer provides service to its own employees and other persons, such as workers of other employers or customers, it would be subject to the requirements of this part from private entities not primarily engaged in the business of transporting people or public entities, as applicable.

The rule looks to the private entity actually providing the transportation service in question in determining whether the “private, primarily” or “private, not primarily” rules apply. For example, Conglomerate, Inc., owns a variety of agribusiness, petrochemical, weapons system production, and fast food corporations. One of its many subsidiaries, Green Tours, Inc., provides charter bus service for people who want to view national parks, old-growth forests, and other environmentally significant places. It is probably impossible to say in what business Conglomerate, Inc. is primarily engaged, but it clearly is not transporting people. Green Tours, Inc., on the other hand, is clearly primarily engaged in the business of transporting people, and the rule treats it as such.

On the other hand, when operating a transportation service off to the side of the main business of a public accommodation (e.g., a hotel shuttle), the entity as a whole would be considered. Even if some dedicated employees are used to provide the service, shuttles and other systems provided as a means of getting to, from, or around a public accommodation remain solidly in the “private, not primarily” category.

Subpart C—Transportation Facilities

Section 37.41 Construction of Transportation Facilities by Public Entities

Section 37.41 contains the general requirement that all new facilities constructed after January 25, 1992, be accessible to and usable by individuals with disabilities. This provision tracks the statute closely, and is analogous to a provision in the DOJ regulations for private entities. Section 226 of the ADA provides little discretion in this requirement.

The requirement is keyed to construction which “begins” after January 25, 1992. The regulation defines “begin” to mean when a notice to proceed order has been issued. This term has a standard meaning in the construction industry, as an instruction to the contractor to proceed with the work.

Questions have been raised concerning which standards apply before January 26, 1992. There are Federal requirements that apply to all recipients of federal money, depending on the circumstances.
First, if an entity is a Federal recipient and uses Federal dollars to construct the facility, regulations implementing section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), require the recipient to comply with the Uniform Federal Accessibility Standards.

Second, since the Civil Rights Restoration Act of 1987 (Pub. L. 100-259), an operation of a recipient of federal funds would also have to comply with section 504, even though the activity was not paid for with Federal funds. Thus, the Uniform Federal Accessibility Standards would apply to this construction as well.

As mentioned above, the Department intends, in the period before January 26, 1991, to view compliance with section 504 in light of compliance with ADA requirements (this point applies to alterations as well as new construction). Consequently, in reviewing requests for grants, contract approvals, exemptions, etc., (whether with respect to ongoing projects or new, experimental, or one-time efforts), the Department will, as a policy matter, seek to ensure compliance with ADA standards.

Section 37.43 Alteration of Transportation Facilities by Public Entities

This section sets out the accessibility requirements that apply when a public entity undertakes an alteration of an existing facility. In general, the section requires that any alteration, to the maximum extent feasible, results in the altered area being accessible to and usable by individuals with disabilities, including persons who use wheelchairs. The provisions follow closely those adopted by the DOJ, in its regulations implementing title III of the ADA.

The section requires specific activities whenever an alteration of an existing facility is undertaken.

First, if the alteration is made to a primary function area, (or access to an area containing a primary function), the entity shall make the alteration in such a way as to ensure that the path of travel to the altered area and the restrooms, telephones and drinking fountains servicing the altered area are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs. Second, alterations to drinking fountains, telephones, and restrooms do not have to be completed if the cost and scope of making them accessible is disproportionate.

Third, the requirement goes into effect for alterations begun after January 26, 1991.

Fourth, the term ‘maximum extent feasible’ means that all changes that are possible must be made. The requirement to make changes to the maximum extent feasible derives from clear legislative history. The Senate Report states—

The phrase ‘to the maximum extent feasible’ has been included to allow for the occasional case in which the nature of an existing facility is such as to make it virtually impossible to renovate the building in a manner that results in its being entirely accessible to and usable by individuals with disabilities. In all such cases, however, the alteration should provide the maximum amount of physical accessibility feasible.

Thus, for example the term ‘maximum extent feasible’ should be construed as not requiring entities to make building alterations that have little likelihood of being accomplished without removing or altering a load-bearing structural member unless the load-bearing structural member is otherwise being removed or altered as part of the alteration. (S. Rept. 101-116, at 68).

Fifth, primary function means a major activity for which the facility is intended. Primary function areas include waiting areas, ticket purchase and collection areas, train or bus platforms, baggage checking and return areas, and employment areas (with some exceptions stated in the rule, for areas used by service personnel that are very difficult to access).

Sixth, ‘path of travel’ means a continuous, unobstructed way of pedestrian passage by means of which the altered area may be approached, entered, and exited, and which connects the altered area with an exterior approach and includes restrooms, telephones, and drinking fountains serving the altered area. If changes to the path of travel are disproportionate, then only those changes which are not disproportionate are to be completed.

Seventh, the final rule specifies that costs exceeding 20 percent would be disproportionate. This is consistent with the DOJ. In determining costs, the Department intends costs to be based on changes to the passenger service area that is scheduled for alteration.

Finally, the Department has defined the term ‘begin’, in the context of begin an alteration that is subject to the alteration provision to mean when a notice to proceed or work order is issued. Two terms are used (instead of only notice to proceed in the context of new construction) because many alterations may be carried out by the entity itself, in which case the only triggering event would be a work order or similar authorization to begin.

In looking at facility concepts like ‘disproportionality’ and ‘to the maximum extent feasible,’ the Department will consider any expenses related to accessibility for passengers. It is not relevant to consider non-passenger related improvements (e.g., installing a new track bed) or to permit ‘gold-plating’ (attributing to accessibility costs the expense of non-related improvements, such as charging to accessibility costs the price of a whole new door, when only adding a new handle to the old door was needed for accessibility).
Section 37.47 Key Stations in Light and Rapid Rail Systems

Section 37.49 Designation of Responsible Person(s) for Intercity and Commuter Rail Stations

This section sets forth a mechanism for determining who bears the legal and financial responsibility for accessibility modifications to a commuter and/or intercity rail station. The final provision of the section is the most important. It authorizes all concerned parties to come to their own agreement concerning the allocation of responsibility. Such an agreement can allocate responsibility in any way acceptable to the parties. The Department strongly encourages parties to come to such an agreement.

In the absence of such an agreement, a statutory/regulatory scheme allocates responsibility. In the first, and simplest, situation posed by the statute, a single public entity owns more than 50 percent of the station. In this case, the public entity is the responsible person and nobody else is required to bear any of the responsibility.

In the second situation, a private entity owns more than 50 percent of the station. The private entity need not bear any of the responsibility for making the station accessible. A public entity owner of the station, who does not operate passenger rail service through the station, is not required to bear any of the responsibility for making the station accessible. The total responsibility is divided between passenger railroads operating service through the station, on the basis of respective passenger boardings. If there is only one railroad operating service through the station, it bears the total responsibility.

The Department believes that reference to passenger boardings is the most equitable way of dividing responsibility among railroads, since the number of people drawn to the station by each is likely to reflect "cost causation" quite closely. The Department notes, however, that, as passenger boarding percentages change over time, the portion of responsibility assigned to each party also may change. Station modifications may involve long-term capital investment and planning, while passenger boarding percentages are more volatile. Some railroads may stop serving a station, while others may begin service, during the period of time before modifications to the station are complete. To help accommodate such situations, the rule refers to passenger boardings "over the entire period during which the station is made accessible."

This language is intended to emphasize that as circumstances change, the parties involved have the responsibility to adjust their arrangements for cost sharing. For example, suppose Railroad A has 30 percent of the passenger boardings in year 1, but by year 10 has 60 percent of the boardings. It would not be fair for Railroad A to pay only 30 percent of the costs of station modifications occurring in later years. Ultimately, the total cost burden for modifying the station (for example) 20 years would be allocated on the share of the total number or boardings attributable to each railroad over the whole 20 year period, in order to avoid such unfairness.

The third, and most complicated, situation is one in which no party owns 50 percent of the station. For example, consider the following hypothetical situation:

<table>
<thead>
<tr>
<th>Party</th>
<th>Ownership percentage</th>
<th>Boardings percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Private freight RR</td>
<td>40</td>
<td>0</td>
</tr>
<tr>
<td>City</td>
<td>30</td>
<td>0</td>
</tr>
<tr>
<td>Amtrak</td>
<td>0</td>
<td>25</td>
</tr>
<tr>
<td>Commuter A</td>
<td>30</td>
<td>50</td>
</tr>
<tr>
<td>Commuter B</td>
<td>0</td>
<td>25</td>
</tr>
</tbody>
</table>

The private freight railroad drops out of the calculation of who is responsible. All of the responsibility would be allocated among four public entities: the city (a public entity who does not operate railroad service), Amtrak, and the two commuter railroads. Half the responsibility would go to public entity owners of the station (whether or not they are railroads who run passenger service through the station). The other half of the responsibility would go to railroads who run passenger service through the station (whether or not they are station owners).

On the ownership side of the equation, the city and Commuter A each own half of that portion of the station that is not owned by the private freight railroad. Therefore, the two parties divide up the ownership half of the responsibility equally. Based on their ownership interest, each of these two parties bears 25 percent of the responsibility for the entire station. Note that, should ownership percentages or owners change over the period during which the station is made accessible, these percentages may change. It is ownership percentage over this entire period that ultimately determines the percentage of responsibility.

On the passenger rail operations side of the equation, 50 percent of passenger boardings are attributable to Commuter A and 25 percent each to Commuter B and Amtrak. Therefore, half of this portion of the responsibility belongs to Commuter A, while a quarter each goes to the other railroads. This means that, based on passenger boardings, 25 percent of the responsibility goes to Commuter A, 12.5 percent to Commuter B, and 12.5 percent to Amtrak. Again, it is the proportion of passenger boardings over the entire length of the period during which the station is made accessible that ultimately determines the percentage of responsibility.

49 C.F.R. Title 49 Subtitle A (10-1-98 Edition)
Office of the Secretary of Transportation

Section 37.51 Key Stations in Commuter Rail Systems

These sections require that key stations in light, rapid, and commuter rail systems be made accessible as soon as practicable, but no later than July 26, 1993. Being made accessible, for this purpose, means complying with the applicable provisions of Appendix A to this part. "As soon as practicable" means that, if modification can be made before July 26, 1993, they must be. A rail operator that failed to make a station accessible by July 26, 1993 would be in noncompliance with the ADA and this rule, except in a case where an extension of time had been granted.

What is a key station? A key station is one designated as such by the commuter authority or light/rapid rail operator, through the planning process and public participation process set forth in this section. The five criteria listed in the regulation are intended to guide the selection process but, while the entity must take these criteria into account (and this consideration must be reflected in the planning process and documents), they are not mandatory selection standards. That is, it is not required that every station that meets one of the criteria be designated as a key station. Since the criteria are not mandatory selection standards, the understanding of their terms is also a matter appropriately left to the planning process. A tight, legalistic definition is not necessary in the context of factors intended for consideration.

For instance, what constitutes a major activity center or how close a station needs to be to another station to be not be designated as key depend largely on local factors that it would not be reasonable to specify in this rule.

Given the wide discretion permitted to rail operators in identifying key stations, there would be no objection to identifying as a key station a new (presumably accessible) station now under construction. Doing so would involve consideration of the key station criteria and would be subject to the planning/public participation process.
Once an extension is granted, the extension applies to all accessibility modifications in the station. However, the rail operator should not delay non-extraordinarily expensive modifications to the station. The key station plan and any extension request should include a schedule for phasing in non-extraordinarily expensive modifications to the station. For example, even if a key station is not going to be accessible to wheelchair users for 15 years, pending the installation of an elevator, the rail operator can improve its accessibility to persons with visual impairments by installing tactile strips.

An extension cannot be granted except for a particular station which needs an extraordinarily expensive modification. An extension cannot be granted non-extraordinarily expensive changes to Station B because the extraordinarily expensive changes to Station A will absorb many resources. Non-extraordinarily expensive changes, however costly considered collectively for a system, are not, under the statute, grounds for granting an extension to one or more stations or the whole system. Only particular stations where an extraordinarily expensive modification must be made qualify for extensions.

The FTA Administrator can approve, modify, or disapprove any request for an extension. For example, it is not a forgone conclusion that a situation for which an extension is granted will have the maximum possible extension granted. If it appears that the rail operator can make some stations accessible sooner, FTA can grant an extension for a shorter period (e.g., 2005 for a particular station rather than 2010).

Section 37.53 Exception for New York and Philadelphia

Consistent with the legislative history of the ADA, this section formally recognizes the selection of key stations in two identified litigation settlement agreements in New York and Philadelphia as in compliance with the ADA. Consequently, the entities involved can limit their key station planning process to issues concerning the timing of key station accessibility. The section references also §37.9, which provides that key station accessibility alterations which have already been made, or which are begun before January 26, 1992, and which conform to specified prior standards, do not have to be re-modified. On the other hand, alterations begun after January 25, 1992 (including forthcoming key station modifications under the New York and Philadelphia agreements), must meet the requirements of appendix A to this part.

This is an exception only for the two specified agreements. There are no situations in which other cities can take advantage of this provision. Nor are the provisions of the two agreements normative for other cities. Other cities must do their own planning, with involvement from local citizens, and cannot rely on agreements unique to New York and Philadelphia to determine the appropriate number of percentage of key stations or other matters.

Section 37.57 Required Cooperation

This section implements §242(e)(2)(C) of the ADA, which treats as discrimination a failure, by an owner or person in control of an intercity rail station, to provide reasonable cooperation to the responsible persons’ efforts to comply with accessibility requirements. For example, the imposition by the owner of an unreasonable insurance bond from the responsible person as a condition of making accessibility modifications would violate this requirement. See H. Rept. 101–485 at 53.

The statute also provides that failure of the owner or person in control to cooperate does not create a defense to a discrimination suit against the responsible person, but the responsible person would have a third party action against the uncooperative owner or person in control. The rule does not restate this portion of the statute in the regulation, since it would be implemented by the courts if such an action is brought. Since cooperation is also a regulatory requirement, however, the Department could entertain a section 504 complaint against a recipient of Federal funds who failed to cooperate.

The House Energy and Commerce Committee provided as an example of an action under this provision a situation in which a failure to cooperate leads to a construction delay, which in turn leads to a lawsuit by an individual with disabilities against the responsible person for damages awarded the plaintiff. Also, a responsible person could obtain an injunction to force the recalcitrant owner or controller of the station to permit accessibility work to proceed. (Id.)

This provision does not appear to be intended to permit a responsible person to seek contribution for a portion of the cost of accessibility work from a party involved with the station whom the statute and §37.49 do not identify as a responsible person. It simply provides a remedy for a situation in which someone impedes the responsible person’s efforts to comply with accessibility obligations.
Portions of the same station may have different accessibility completion date requirements, both as the result of different statutory time frames for different kinds of stations and individual decisions made on requests for extension. The principle at work in responding to such situations is that if part of a station may be made accessible after another part, the “late” part of the work should not get in the way of people’s use of modifications resulting from the “early” part.

For example, the commuter part of a station may have to be made accessible by July 1993 (e.g., there is no need to install an elevator, and platform accessibility can be achieved by use of a relatively inexpensive mini-high platform). The Amtrak portion of the same station, by statute, is required to be accessible as soon as practicable, but no later than July 2010. If there is a common entrance to the station, that commuter rail passengers and Amtrak passengers both use, or a common ticket counter, it would have to be accessible by July 1993. If there were a waiting room used by Amtrak passengers but not commuter passengers (who typically stand and wait on the platform at this station), it would not have to be accessible by July 1993, but if the path from the common entrance to the commuter platform went through the waiting room, the path would have to be an accessible path by July 1993.

Section 37.61 Public Transportation Programs and Activities in Existing Facilities

This section implements section 228(a) of the ADA and establishes the general requirement for entities to operate their transportation facilities in a manner that, when viewed in its entirety, is accessible to and usable by individuals with disabilities. The section clearly excludes from this requirement access by persons in wheelchairs, unless these changes would be necessitated by the alterations or key station provisions.

In addition, the waiver request must include copies of advertisements in trade publications and inquiries to trade associations seeking lifts for the buses. The public entity also must include a full justification for the assertion that a delay in the bus procurement sufficient to obtain a lift-equipped bus would significantly impair transportation services in the community. There is no length of time that would be a per se delay constituting a “significant impairment”. It will be more difficult to obtain a waiver if a relatively short rather than relatively
lengthy delay is involved. A showing of timetables, absent a showing of significant impairment of actual transit services, would not form a basis for granting a waiver. Any waiver granted by the Department under this provision will be a conditional waiver. The conditions are intended to ensure that the waiver provision does not create an loophole in the accessible vehicle acquisition requirement that Congress intended to impose. The ADA requires a waiver to be limited in duration and the rule requires a termination date to be included. The date will be established on the basis of the information the Department receives concerning the availability of lifts in the waiver request and elsewhere. In addition, so that a waiver does not become open-ended, it will apply only to a particular procurement. If a transit agency wants a waiver for a subsequent delivery of buses in the procurement, or another procurement entirely, it will have to make a separate waiver request. For example, if a particular order of buses is delivered over a period of time, each delivery would be the potential subject of a waiver request. First, the entity would request a waiver for the first shipment of buses. If all of the conditions are met, the waiver would be granted, with a date specified to coincide with the due date of the lifts. When the lifts become available those buses would have to be retrofitted with the lifts. A subsequent delivery of buses—on the same order—would have to receive its own waiver, subject to the same conditions and specifications of the first waiver. The purpose of the waiver, as the Department construes it, is to address a situation in which (because of a sudden increase in the number of lift-equipped buses requested) lift manufacturers are unable to produce enough lifts to meet the demand in a timely fashion.

Section 37.73 Purchase or Lease of Used Non-Rail Vehicles by Public Entities Operating a Fixed Route System

The basic rule is that an acquisition of a used vehicle would have to be for an accessible vehicle. There is an exception, however, for situations in which the transit provider makes a good faith effort to obtain accessible used vehicles but does not succeed in finding them. The ADA requires transit agencies to purchase accessible used vehicles, providing a “demonstrated good faith efforts” exception to the requirement. The purpose is to allow agencies to purchase accessible used vehicles, providing a “demonstrated good faith efforts” exception to the requirement. The rule requires that good faith efforts include specifying accessible vehicles in bid solicitations. The ADA requires that the agency receiving the waiver be able to purchase accessible vehicles despite good faith efforts to become more and more difficult to satisfy. S. Rept. 101-116 at 49; H. Rept. 101-485 at 90.

Consistent with this guidance, this section requires that good faith efforts include specifying accessible vehicles in bid solicitations. The section also requires that the entity retain for two years documentation of that effort, and that the information be available to FTA and the public. It does not meet the good faith efforts requirement to purchase inaccessible, rather than accessible, used buses, just because the former are less expensive, particularly if the difference is a difference attributable to the presence of a lift. There may be situations in which good faith efforts involve buying fewer accessible buses in preference to more accessible buses.

The public participation requirements involved in the development of the paratransit plans for all fixed route operators requires an ongoing relationship, including extensive outreach, to the community likely to be using its accessible service. We believe that it will be difficult to comply with the public participation requirements and not involve the affected community in the decisions concerning the purchase or lease of used accessible vehicles.

There is an exception to these requirements for donated vehicles. Not all “zero dollar” transfers are donations, however. The legislative history to this provision provides insights. It is not the Committee’s intent to make the vehicle accessibility provisions of this title applicable to vehicles donated to a public entity. The Committee understands that it is not usual to donate vehicles to a public entity. However, there could be instances where someone could conceivably donate a bus to a public transit operator in a will. In such a case, the transit operators should not be prevented from accepting a gift. The Committee does not intend that this limited exemption for donated vehicles be used to circumvent the intent of the ADA. For example, a local transit authority could not arrange to be the recipient of donated inaccessible buses. This would be a violation of the ADA. S. Rpt. 101-116, at 46; H. Rpt. 101-485, at 87.
Entities interested in accepting donated vehicles must submit a request to FTA to verify that the transaction is a donation.

There is one situation, in which a vehicle has prior use is not treated as a used vehicle. If a vehicle has been remanufactured, and it is within the period of the extension of its useful life, it is not viewed as a used vehicle (see H. Rept. 101-485, Pt 1 at 27). During this period, such a vehicle may be acquired by another entity without going through the good faith efforts process. This is because, at the time of its remanufacture, the bus would have been made as accessible if feasible. When the vehicle has completed its extended useful life (e.g., the beginning of year six when its useful life has extended five years), it becomes subject to used bus requirements.

Section 37.75 Remanufacture of Non-Rail Vehicles and Purchase or Lease of Remanufactured Non-rail Vehicles by Public Entities Operating Fixed Route Systems

This section tracks the statute closely, and contains the following provisions. First, it requires any public entity operating a fixed route system to purchase an accessible vehicle if the acquisition occurs after August 25, 1990, if the vehicle is remanufactured after August 25, 1990, or the entity contracts or undertakes the remanufacture of a vehicle after August 25, 1990. The ADA legislative history makes it clear that remanufacture is to include changes to the structure of the vehicle which extend the useful life of the vehicle for five years. It clearly is not intended to capture things such as engine overhauls and the like.

The term remanufacture, as used in the ADA context, is different from the use of the term in previously issued FTA guidance. The term has a specific meaning under the ADA: there must be structural work done to the vehicle and the work must extend the vehicle’s useful life by five years.

The ADA imposes no requirements on what FTA traditionally considers bus rehabilita-
tion. Such work involves rebuilding a bus to original specifications and focuses on me-
chanical systems and interiors. Often this work includes replacing components. It is less extensive than remanufacture.

The statute, and the rule, includes an ex-
ception for the remanufacture of historical vehicles. This exception applies to the re-
manufacture of or purchase of a remanufactured vehicle that (1) is of historic character; (2) operates solely on a segment of a fixed route system which is on the National Reg-
ister of Historic Places; and (3) making the vehicle accessible would significantly alter the historic character of the vehicle. The exception only extends to the remanufacture that would alter the historic character of the vehicle. All modifications that can be made without altering the historic character (such as slip resistant flooring) must be done.

Section 37.77 Purchase or Lease of New Non-Rail Vehicles by Public Entities Operating a Demand Responsive System for the General Public

Section 224 of the ADA requires that a public entity operating a demand responsive system purchase or lease accessible new vehicles, for which a solicitation is made after August 25, 1990, unless the system, when viewed in its entirety, provides a level of service to individuals with disabilities, including individuals who use wheelchairs, equivalent to the level of service provided to individuals without disabilities. This section is the same as the October 4, 1990 final rule which promulgated the immediately effective acquisition requirements of the ADA.

The Department has been asked to clarify what “accessible when viewed in its entirety” means in the context of a demand responsive system being allowed to purchase an inaccessible vehicle. First, it is important to note that this exception applies only to demand responsive systems (and not fixed route systems). The term “equivalent service” was discussed during the passage of the ADA. Material from the legislative history indicates that “when viewed in its entirety/equivalent service” means that “when all aspects of a transportation system are analyzed, equal opportunities for each individual with a disability to use the transportation system must exist.” (H. Rept. 101-184, Pt. 2, at 95; S. Rept. 101-116 at 54). For example, both reports said that “the time delay between a phone call to access the demand responsive system and picking up the individual is not greater because the individual needs a lift or ramp or other accommodation to access the vehicle.” (Id.)

Consistent with this, the Department has specified certain service criteria that are to be used when determining if the service is equivalent. As in previous rulemakings on this provision, the standards (which include service area, response time, fares, hours and days of service, trip purpose restrictions, information and reservations capability, and other capacity constraints) are not absolute standards. They do not say, for example, that a person with a disability must be picked up in a specified number of hours. The requirement is that there must be equivalent service for all passengers, whether or not they have a disability. If the system provides service to persons without disabilities within four hours of a call for service, then passengers with disabilities must be afforded the same service.

The Department has been asked specifically where an entity should send its “equivalent level of service” certifications. We provide the following: Equivalent level of service certifications should be submitted to the state program office if you are a public entity receiving FTA funds through the state.
Section 37.79 Purchase or Lease of New Rail Vehicles by Public Entities Operating Rapid or Light Rail Systems

This section echoes the requirement of §37.71—all new rail cars must be accessible.

Section 37.81 Purchase or Lease of Used Rail Vehicles by Public Entities Operating Rapid or Light Rail Systems

This section lays out the requirements for a public entity acquiring a used rail vehicle. The requirements and standards are the same as those specified for non-rail vehicles in §37.73. While we recognize it may create difficulties for entities in some situations, the statute does not include any extension or short-term leases. The Department will consider, in a case-by-case basis, how the good faith efforts requirement would apply in the case of an agreement between rail carriers to permit quick-response, short-term leases of cars over a period of time.

Section 37.83 Remanufacture of Rail Vehicles and Purchase or Lease of Remanufactured Rail Vehicles by Public Entities Operating Rapid or Light Rail System

This section parallels the remanufacturing section for buses, including the exception for historical vehicles. With respect to an entity having a class of historic vehicles that may meet the standards for the historic vehicle exception (e.g., San Francisco cable cars), the Department would not object to a request for application of the exception on a system-wide, as approved to car-by-car, basis.

Section 37.85 Purchase or Lease of New Intercity and Commuter Rail Cars

This section incorporates the statutory requirement that new intercity and commuter rail cars be accessible. The specific accessibility provisions of the statute for example, there are slightly different requirements for intercity rail cars versus commuter rail cars are specified in part 38 of this regulation. These standards are adopted from the voluntary guidelines issues by the Access Board. The section basically parallels the acquisition requirements for buses and other vehicles. It should be noted that the definition of commuter rail operator clearly allows for additional operators to qualify as commuter, since the definition describes the functional characteristics of an operator, as well as listing existing commuter rail operators.

We would point out that the ADA applies this requirement to all new vehicles. This includes not only vehicles and systems that currently are being operated in the U.S., but new, experimental, or imported vehicles and systems. The ADA does not stand in the way of new technology, but it does require that new technology, and the benefits it brings, be accessible to all persons, including those with disabilities. This point applies to all vehicle acquisition provisions of this regulation, whether for rail or non-rail, private or public, fixed route or demand responsive vehicles and systems.

Section 37.87 Purchase or Lease of Used Intercity and Commuter Rail Cars

This section also parallels closely the requirements in the ADA for the purchase or lease of accessible used rail vehicles. We acknowledge that, in some situations, the statutory requirement for to make good faith efforts to acquire accessible used vehicles may create difficulties for rail operators attempting to lease rail cars quickly for a short time (e.g., as fill-ins for cars which need repairs). In some cases, it may be possible to mitigate these difficulties through means such as making good faith efforts with respect to an overall agreement between two rail operators to make cars available to one another when needed, rather than each time a car is provided under such an agreement.

Section 37.89 Remanufacture of Intercity and Commuter Rail Cars

This section requires generally that remanufactured cars be made accessible, to the maximum extent feasible. Feasible is defined in paragraph (c) of the section to be “unless an engineering analysis demonstrates that remanufacturing the car to be accessible would have a significant adverse effect on the structural integrity of the car.” Increased cost is not a reason for viewing other sections of this subpart concerning remanufactured vehicles.

In addition, this section differs from the counterpart sections for non-rail vehicles and light and rapid rail vehicles in two ways. First, the extension of useful life needed to trigger the section is ten rather than five
years. Second, there is no historic vehicle exception. Both of these differences are statutory.

Remanufacture of vehicles implies work that extends their expected useful life of the vehicle. A mid-life overhaul, not extending the total useful life of the vehicle, would not be viewed as a remanufacture of the vehicle.

Section 37.93 One Car Per Train Rule

This section implements the statutory directive that all rail operators (light, rapid, commuter and intercity) have at least one car per train accessible to persons with disabilities, including individuals who use wheelchairs by July 26, 1995. (See ADA sections 242(a)(1), 242(b)(1), 228(b)(1).) Section 37.93 contains this general requirement. In some cases, entities will meet the one-car-per-train rule through the purchase of new cars. In this case, since all new rail vehicles have to be accessible, compliance with this provision is straightforward.

However, certain entities may not be purchasing any new vehicles by July 26, 1995, or may not be purchasing enough vehicles to ensure that one car per train is accessible. In these cases, these entities will have to retrofit existing cars to meet this requirement. What a retrofitted car must look like to meet the requirement has been decided by the Access Board. These standards are contained in part 38 of this rule.

We would point that, consistent with the Access Board standards, a rail system using mini-high platforms or wayside lifts is not required, in most circumstances, to “double-stop” in order to give passengers a chance to board the second or subsequent car in a train at the mini-high platform or wayside lift. The only exception to this would be a situation in which all the wheelchair positions spaces in the first car were occupied. In this case, the train would have to double-stop to allow a wheelchair user to board, rather than passing the person by when there was space available in other than the first car.

Section 37.95 Ferries and Other Passenger Vessels

Although at this time there are no specific requirements for vessels, ferries and other passenger vessels operated by public entities are subject to the requirements of §37.5 of this part and applicable requirements of 28 CFR part 35, the DOJ rule under title II of the ADA.

### Subpart E—Acquisition of Accessible Vehicles by Private Entities

#### Section 37.101 Purchase or Lease of Non-Rail Vehicles by Private Entities Not Primarily Engaged in the Business of Transporting People

#### Section 37.103 Purchase or Lease of New Non-Rail Vehicles by Private Entities Primarily Engaged in the Business of Transporting People

#### Section 37.105 Equivalent Service Standard

The first two sections spell out the distinctions among the different types of service elaborated in the ADA and requirements that apply to them. For clarity, we provide the following chart.

**PRIVATE ENTITIES “NOT PRIMARILY ENGAGED”**

<table>
<thead>
<tr>
<th>System type</th>
<th>Vehicle capacity</th>
<th>Requirement</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td></td>
<td>capacity of less than</td>
<td></td>
</tr>
<tr>
<td></td>
<td>8.</td>
<td></td>
</tr>
</tbody>
</table>

Equivalency, for purposes of these requirements, is spelled out in §37.105. It is important to note that some portions of this section (referring to response time, reservations capacity, and restrictions on trip purpose) apply only to demand responsive systems. Another provision (schedules/headways) applies only to fixed route systems. This is because these points of comparison apply only to one or the other type system. The remaining provisions apply to both kinds of systems.
Pt. 37, App. D

In applying the provisions this section, it is important to note that they are only points of comparison, not substantive criteria. For example, unlike the response time criteria of §37.131, this section does not require that a system provide any particular response time. All it says is that, in order for there to be equivalency, if the demand responses of the system are all met in two hours (or 8 hours, or a week and a half after a call for service), the service must get an accessible van to a person with a disability in 2 hours, or 8 hours, or a week and a half.

The vehicle acquisition and equivalency provisions work together in the following way. A private entity is about to acquire a vehicle for a transportation service in one of the categories to which equivalency is relevant. The entity looks at its present service (considered without regard to the vehicle it plans to acquire). Does the present service meet the equivalency standard? (In answering this question, the point of reference is the next potential customer who needs an accessible vehicle. The fact that such persons have not called in the past is irrelevant.) If not, the entity is required to acquire an accessible vehicle. If so, the entity may acquire an accessible or an inaccessible vehicle. This process must be followed every time the entity purchases or leases a vehicle. Given changes in the mix of both customers and vehicles, the answer to the question about equivalency will probably not be the same for an entity every time it is asked.

One difference between the requirements for “private, not primarily” and “private, primarily” entities is that the requirements apply to all vehicles purchased or leased for the former, but only to new vehicles for the latter. This means that entities in the latter category are not required to acquire accessible vehicles when they purchase or lease used vehicles. Another oddity in the statute is that entities who can devise efficient methods of providing paratransit service can realize in its paratransit service.

The Department views the line between “private, primarily” and “private, not primarily engaged in the business of providing transportation by bus or van. This relationship of the bus or van service to an airline’s main business is analogous to that of a shuttle to a hotel. For this purpose, it is of only incidental interest that the main business of the airline is flying people around the country instead of putting them up for the night).

Section 37.109 Ferries and Other Passenger Vessels

Although at this time there are no specific requirements for vessels, ferries and other passenger vessels operated by private entities are subject to the requirements of §37.5 of this part and applicable requirements of 28 CFR part 36, the DOJ rule under title III of the ADA.

Subpart F—Paratransit as a Complement to Fixed Route Service

Section 37.121 Requirement for Comparable Complementary Paratransit Service

This section sets forth the basic requirement that all public entities who operate a fixed route system provide paratransit service that is both comparable and complementary to the fixed route service. By “comparable,” we mean service that meets the service criteria of this subpart.

This requirement applies to light and rapid rail systems as well as to bus systems, even when rail and bus systems share all or part of the same service area. Commuter bus, commuter rail and intercity rail systems do not have to provide paratransit, however. The remaining provisions of subpart F set forth the details of the eligibility requirements for paratransit, the service criteria that paratransit systems must meet, the planning process involved, and the procedures for applying for waivers based on undue financial burden.

Paratransit may be provided by a variety of modes. Publicly operated dial-a-ride vans, service contracted out to a private paratransit provider, user-side subsidy programs, or any combination of these and other approaches is acceptable. Entities who feel it necessary to apply for an undue financial burden waiver should be aware that one of the factors FTA will examine in evaluating waiver requests is efficiencies the provider could realize in its paratransit service. Therefore, it is important for entities in this situation to use the most economical and efficient methods of providing paratransit they can devise.
Office of the Secretary of Transportation

Pt. 37, App. D

It is also important for them to establish and consistently implement strong controls against fraud, waste and abuse in the para-transit system. Fraud, waste and abuse can drain significant resources from a system and control of these problems is an important "efficiency for any paratransit system. It will be difficult for the Department to grant an undue financial burden waiver to entities which do not have a good means of determining if fraud, waste and abuse are problems and adequate methods of combatting these problems, where they are found to exist.

Section 37.123 ADA Paratransit Eligibility—Standards

General Provisions

This section sets forth the minimum requirements for eligibility for complementary paratransit service. All fixed route operators providing complementary paratransit must make service available at least to individuals meeting these standards. The ADA does not prohibit providing paratransit service to anyone. Entities may provide service to additional persons as well. Since only service to ADA eligible persons is required by the rule, however, only the costs of this service can be counted in the context of a request for an undue financial burden waiver.

When the rule says that ADA paratransit eligibility shall be strictly limited to persons in the eligible categories, then, it is not saying that entities are in any way precluded from serving other people. It is saying that the persons who must be provided service, and counting the costs of providing them service, in context of an undue burden waiver, are limited to the regulatory categories.

Temporary Disabilities

Eligibility may be based on a temporary as well as a permanent disability. The individual must meet one of the three eligibility criteria in any case, but can do so for a limited period of time. For example, if an individual breaks both legs and is in two casts for several weeks, becomes a wheelchair user for the duration, and the bus route that would normally take him to work is not accessible, the individual could be eligible under the second eligibility category. In granting eligibility to such a person, the entity should establish an expiration date for eligibility consistent with the expected end of the period disability.

Trip-by-Trip Eligibility

A person may be ADA paratransit eligible for some trips but not others. Eligibility does not inhere in the individual or his or her disability, as such, but in meeting the functional criteria of inability to use the fixed route system established by the ADA. This inability is likely to change with differing circumstances.

For example, someone whose impairment-related condition is a severe sensitivity to temperatures below 20 degrees is not prevented from using fixed route transit when the temperature is 75 degrees. Someone whose impairment-related condition is an inability to maneuver a wheelchair through snow is not prevented from using fixed route transit when there is no snow on the ground. Someone with a cognitive disability may have learned to take the same bus route to a supported employment job every day. This individual is able to navigate the system for work purposes and therefore would not be eligible for paratransit for work trips. But the individual may be unable to get to other destinations on the bus system without getting lost, and would be eligible for paratransit for non-work trips. Someone who normally drives his own car to a rail system park and ride lot may have a specific impairment related condition preventing him from getting to the station when his car is in the shop. A person who can use accessible fixed route service can go to one destination on an accessible route; another destination would require the use of an inaccessible route. The individual would be eligible for the latter but not the former.

In many cases, though the person is eligible for some trips but not others, eligibility determinations would not have to be made literally on a trip-by-trip basis. It may often be possible to establish the conditions on eligibility as part of the initial eligibility determination process. Someone with a temperature sensitivity might be granted seasonal eligibility. Somebody who is able to navigate the system for work but not non-work trips could have this fact noted in his or her eligibility documentation. Likewise, someone with a variable condition (e.g., multiple sclerosis, HIV disease, need for kidney dialysis) could have their eligibility based on the underlying condition, with paratransit need for a particular trip dependent on self-assessment or a set of medical standards (e.g., trip within a certain amount of time after a dialysis session). On the other hand, persons in the second eligibility category (people who can use accessible fixed route service where it exists) would be given service on the basis of the particular route they would use for a given trip.

Because entities are not precluded from providing service beyond that required by the rule, an entity that believes it is too difficult to administer a program of trip-by-trip eligibility is not required to do so. Nothing prevents an entity from providing all requested trips to a person whom the ADA requires to receive service for only some trips. In this case, if the entity intends to request an undue financial burden waiver, the entity, as provided in the undue burden provisions of
this rule, must estimate, by a statistically valid technique, the percentage of its paratransit trips that are mandated by the ADA. Only that percentage of its total costs will be counted in considering the undue burden waiver request.

**Category 1 Eligibility**

The first eligibility category includes, among others, persons with mental or visual impairments who, as a result, cannot “navigate the system.” This eligibility category includes people who cannot board, ride, or disembark from an accessible vehicle “without the assistance of another individual.” This means that, if an individual needs an attendant to board, ride, or disembark from an accessible fixed route vehicles (including “navigating the system”), the individual is eligible for paratransit. One implication of this language is that an individual does not lose paratransit eligibility based on “inability to navigate the system” because the individual chooses to travel with a friend on the paratran system (even if the friend could help the person navigate the fixed route system). Eligibility in this category is based on ability to board, ride, and disembark independently.

Mobility training (e.g., of persons with mental or visual impairments) may help to improve the ability of persons to navigate the system or to get to a bus stop. Someone who is successfully mobility trained to use the fixed route system for all or some trips need not be provided paratransit service for those trips. The Department encourages entities to sponsor such training as a means of assisting individuals to use fixed route rather than paratransit.

**Category 2 Eligibility**

The second eligibility criterion is the broadest, with respect to persons with mobility impairments, but its impact should be reduced over time as transit systems become more accessible. This category applies to persons who could use accessible fixed route transportation, but accessible transportation is not being used at the time, and on the route, the persons would travel. This concept is route based, not system based.

Speaking first of bus systems, if a person is traveling from Point A to Point B on route 1, and route 1 is accessible, the person is not eligible for paratransit for the trip. This is true even though other portions of the system are still inaccessible, if the person is traveling from Point A to Point C on route 2, which is not accessible, the person is eligible for that trip. If the person is traveling from Point A to Point B on accessible route 1, with a transfer at B to go on inaccessible route 3 to Point D, then the person is eligible for the second leg of the trip. (The entity could choose to provide a paratransit trip from A to D or a paratransit or on-call bus trip from B to D.)

For purposes of this standard, we view a route as accessible when all buses scheduled on the route are accessible. Otherwise, it is unlikely that an accessible vehicle could be provided “within a reasonable period of time” when the individual wants to travel, as the provision requires. We recognize that some systems’ operations may not be organized in a way that permits determining whether a given route is accessible, even though a route-by-route determination appears to be contemplated by the statute. In such cases, it may be that category 2 eligibility would persist until the entire system was eligible.

With respect to a rail system, an individual is eligible under this standard if, on the route or line he or she wants to use, there is not yet one car per train accessible or if key stations are not yet accessible. This eligibility remains even if bus systems covering the area served by the rail system become 100 percent accessible. This is necessary because people use rail systems for different kinds of trips than bus systems. It would often take much more in the way of time, trouble, and transfers for a person to go on the buses of one or more transit authorities than to have a direct trip provided by the rail operator. Since bus route systems are often designed to feed rail systems rather than duplicate them, it may often be true that “you can’t get there from here” relying entirely on bus routes or the paratransit service area that parallels them.

If the lift on a vehicle cannot be deployed at a particular stop, an individual is eligible for paratransit under this category with respect to the service to the inaccessible stop. If on otherwise accessible route 1, an individual wants to travel from Point A to Point E, and the lift cannot be deployed at E, the individual is eligible for paratransit for the trip. (On-call bus would not work as a mode of providing this trip, since a bus lift will not deploy at the stop.) This is true even though service from Point A to all other points on the line is fully accessible. In this circumstance, the entity should recognize that seriously about working with the local government involved to have the stop moved or made accessible.

When we say that a lift cannot be deployed, we mean literally that the mechanism will not work at the location to permit a wheelchair user or other person with a disability to disembark or that the lift will be damaged if it is used there. It is not consistent with the rule for a transit provider to declare a stop off-limits to someone who uses the lift while allowing other passengers to use the stop. However, if temporary conditions not under the operator’s control (e.g., construction, an accident, a landslide) make it so hazardous for anyone to disembark that
the stop is temporarily out of service for all passengers may the operator refuse to allow
a passenger to disembark using the lift.

**CATEGORY 3 E LIGIBILITY**

The third eligibility criterion concerns indi-
viduals who have a specific impairment-re-
lated condition which prevents them from
going to or from a stop or station. As noted
in the legislative history of the ADA, this is
intended to be a "very narrow exception" to
the general rule that difficulty in traveling
to or from boarding or disembarking loca-
tions is not a basis for eligibility.

What is a specific impairment-related con-
tion? The legislative history mentions four
examples: Chronic fatigue, blindness, a lack
of cognitive ability to remember and follow
directions, or a special sensitivity to tem-
perature. Impaired mobility, severe commun-
ications disabilities (e.g., a combination of
serious vision and hearing impairments),
cardiopulmonary conditions, or various
other serious health problems may have
similar effects. The Department does not be-
lieve that it is appropriate, or even possible,
to create an exhaustive list.

What is a specific impairment-related con-
tion? The rule uses as an eligibility cri-
terion is not just the existence of a specific
impairment-related condition. To be a basis
for eligibility, the condition must prevent
the individual from traveling to a boarding
location or from a disembarking location.
The word "prevent" is very important. For
anyone, going to a bus stop and waiting for
a bus is more difficult and less comfortable
than waiting for a vehicle at one's home. This
is likely to be all the more true for an
individual with a disability. But for many
persons with disabilities, in many cir-
cumstances, getting to a bus stop is possible.
If an impairment related condition only
makes the job of accessing transit more dif-
cult than it might otherwise be, but does
not prevent the travel, then the person is not
eligible.

For example, in many areas, there are not
yet curb cuts. A wheelchair user can often
get around this problem by taking a less di-
rect route to a destination than an ambula-
tory person would take. That involves more
time, trouble, and effort than for someone
without a mobility impairment. But the per-
son can still get to the bus stop. On the basis
of these architectural barriers, the person
would not be eligible.

Entities are cautioned that, particularly in
cases involving lack of curb cuts and other
architectural barrier problems, assertions of
eligibility should be given tight scrutiny.

If we add a foot of snow to the scenario,
then the same person taking the same route
may be unable to get to the bus stop. It is
not the snow alone that stops him; it is the
interaction of the snow and the fact that the
individual has a specific-impairment related
condition that requires him to push a wheel-
chair through the snow that prevents the
travel.

Inevitably, some judgment is required to
distinguish between situations in which
travel is prevented and situations in which it
is merely made more difficult. In the Depart-
ment's view, a case of "prevented travel"
can be made not only where travel is lit-
erally impossible (e.g., someone cannot find
the bus stop, someone cannot push a wheel-
chair through the foot of snow or up a steep
hill) but also where the difficulties are so
substantial that a reasonable person with
the impairment-related condition in ques-
tion would be deterred from making the trip.

The regulation makes the interaction be-
tween an impairment-related condition and
the environmental barrier (whether distance,
weather, terrain, or architectural barriers)
the key to eligibility determinations. This is
an individual determination depending on
the specifics of their impairment-related
condition, one individual may be able to get
from his home to a bus stop under a given
set of conditions, while his next-door neigh-
bor may not.

**COMPANIONS**

The ADA requires entities to provide para-
transit to one person accompanying the eli-
gible individual, with others served on a
space-available basis. The one individual
who is guaranteed space on the vehicle can
be anyone—family member, business associ-
ate, friend, date, etc. The provider cannot
limit the eligible individual's choice of type
of companion. The transit authority may re-
quire that the eligible individual reserve a
space for the companion when the individual
reserves his or her own ride. This one indi-
vidual rides even if this means that there is
less room for other eligible individuals. Ad-
ditional individuals beyond the first compan-
ion are carried only on a space available
basis; that is, they do not displace other
ADA paratransit eligible individuals.

A personal care attendant (i.e., someone
designated or employed specifically to help
the eligible individual meet his or her per-
sonal needs) always may ride with the eligi-
ble individual. If there is a personal care at-
tendant on the trip, the eligible individual
may still bring a companion, plus additional
companions on a space available basis. The
entity may require that, in reserving the
trip, the eligible individual reserve the space
for the attendant.

To prevent potential abuse of this provi-
sion, the rule provides that a companion
(e.g., friend or family member) does not
count as a personal care attendant unless the
eligible individual regularly makes use
of a personal care attendant and the companion is actually acting in that capacity. As noted under §37.125, a provider may require that, as part of the initial eligibility certification process, an individual indicate whether he or she travels with a personal care attendant. If someone does not indicate the use of an attendant, then any individual accompanying him or her would be regarded simply as a companion.

To be viewed as “accompanying” the eligible individual, a companion must have the same origin and destination points as the eligible individual. In appropriate circumstances, entities may also wish to provide service to a companion who has either an origin or destination, but not both, with the eligible individual (e.g., the individual’s date is dropped off at her own residence on the return trip from a concert).

Section 37.125 ADA Paratransit Eligibility—
Process

This section requires an eligibility process to be established by each operator of complementary paratransit. The details of the process are to be devised through the planning and public participation process of this subpart. The process may not impose unreasonable administrative burdens on applicants, and, since it is part of the entity’s nondiscrimination obligations, may not involve “user fees” or application fees to the applicant.

The process may include functional criteria related to the substantive eligibility criteria of §37.123 and, where appropriate, functional evaluation or testing of applicants. The substantive eligibility process is not aimed at making a medical or diagnostic determination. While evaluation by a physician (or professionals in rehabilitation or other relevant fields) may be used as part of the process, a diagnosis of a disability is not dispositive. What is needed is a determination of whether, as a practical matter, the individual can use fixed route transit in his or her own circumstances. That is a transportation decision primarily, not a medical decision.

The goal of the process is to ensure that only people who meet the regulatory criteria, strictly applied, are regarded as ADA paratransit eligible. The Department recognizes that transit entities may wish to provide service to other persons, which is not prohibited by this rule. However, the eligibility process should clearly distinguish those persons who are ADA eligible from those who are provided service on other grounds. For example, eligibility documentation must clearly state whether someone is ADA paratransit eligible or eligible on some other basis.

Often, people tend to think of paratransit exclusively in terms of people with mobility impairments. Under the ADA, this is not accurate. Persons with visual impairments may be eligible under either the first or third eligibility categories. To accommodate them, all documents concerning eligibility must be made available in one or more accessible formats, on request. Accessible formats include computer disks, braille documents, audio cassettes, and large print documents. A document does not necessarily need to be made available in the format a requester prefers, but it does have to be made available in a format the person can use. There is no use giving a computer disk to someone who does not have a computer, for instance, or a braille document to a person who does not read braille.

When a person applies for eligibility, the entity will provide all the needed forms and instructions. These forms and instructions may include a declaration of whether the individual travels with a personal care attendant. The entity may make further inquiries concerning such a declaration (e.g., with respect to the individual’s actual need for a personal care attendant).

When the application process is complete—all necessary actions by the applicant taken—the entity should process the application in 21 days. If it is unable to do so, it must begin to provide service to the applicant on the 22nd day, as if the application had been granted. Service may be terminated only if and when the entity denies the application. All determinations shall be in writing; in the case of a denial, reasons must be specified. The reasons must specifically relate the evidence in the matter to the eligibility criteria of this rule and of the entity’s process. A mere recital that the applicant can use fixed route transit is not sufficient.

For people granted eligibility, the documentation of eligibility shall include at least the following information:

– The individual’s name
– The name of the transit provider
– The telephone number of the entity’s paratransit coordinator
– An expiration date for eligibility
– Any conditions or limitations on the individual’s eligibility, including the use of a personal care attendant.

The last point refers to the situation in which a person is eligible for some trips but not others. Or if the traveler is authorized to have a personal care attendant ride free of charge. For example, the documentation may say that the individual is eligible only when the temperature falls below a certain point, or when the individual is going to a destination not on an accessible bus route, or for non-work trips, etc.

As the mention of an expiration date implies, certification is not forever. The entity
may recertify eligibility at reasonable inter-
vals to make sure that changed cir-
mstances have not invalidated or changed
the individual’s eligibility. In the Depart-
ment’s experience, the recertification interval
is probably between one and three
years. Less than one year would probably be
too burdensome for consumers; over three
years would mean that the individual
must provide service beginning
on someone, it must first notify the individ-
ual. If the vehicle does not arrive at all, or is sent
to the wrong address, or to the wrong en-
trance to a building, that is not a missed trip
attributable to the passenger. There may be
other circumstances beyond the individual’s
control (e.g., a sudden turn for the worse in
someone with a variable condition, a sudden
family emergency) that make it impractica-le for the individual to travel at the sched-
uled time and also for the individual to no-
tify the entity in time to cancel the trip be-
fore the vehicle comes. Such circumstances
also would not form part of a sanctionable
pattern or practice.

Once an entity has certified someone as el-
igible, the individual’s eligibility takes on
the coloration of a property right. (This is
not merely a theoretical statement. If one
dependson transportation one has been
found eligible for to get a job, and the eli-
gibility is removed, one may lose the job.
The same can be said for access to medical
care or other important services.) Con-
sequently, before eligibility may be removed
“for cause,” under this provision, the entity
must provide administrative due process to
the individual.

If the entity proposes to impose sanctions
on someone, it must first notify the individ-
ual in writing (using accessible formats
where necessary). The notice must specify
the basis of the proposed action (e.g., Mr.
Smith scheduled trips for 8 a.m. on May 15,
2 p.m. on June 3, 9 a.m. on June 21, and 9:20
p.m. on July 10, and on each occasion the ve-
cicle appeared at the scheduled time and Mr.
Smith was nowhere to be found) and set
forth the proposed sanction (e.g., Mr. Smith
would not receive service for 15 days).

The entity would provide the individual an
opportunity to be heard (i.e., an in-person in-
formal hearing before a decisionmaker) as
well as to present written and oral informa-
tion and arguments. All relevant entity

The rule also allows an entity to establish
a process to suspend, for a reasonable period
of time, the provision of paratransit service
to an ADA eligible person who establishes a
pattern or practice of missing scheduled
trips. The purpose of this process would be to
deter or deal with chronic “no-shows.” The
sanction system—articulated criteria for the
imposition of sanctions, length of suspension
periods, details of the administrative proc-
as, etc.—would be developed through the
public planning and participation process for
the entity’s paratransit plan, and the result
reflected in the plan submission to FTA.

It is very important to note that sanctions
could be imposed only for a “pattern or prac-
tice” of missed trips. A pattern or practice
involves intentional, repeated or regular ac-
tions, not isolated, accidental, or singular
incidents. Moreover, only actions within the
control of the individual count as part of a
pattern or practice. Missed trips due to oper-
ator error are not attributable to the indi-
vidual passenger for this purpose. If the vehi-
icle arrives substantially after the scheduled
pickup time, and the passenger has given up
on the vehicle and taken a taxi or gone down
the street to talk to a neighbor, that is not a
missed trip attributable to the passenger.

If the vehicle does not arrive at all, or is sent
to the wrong address, or to the wrong en-
trance to a building, that is not a missed trip
attributable to the passenger. There may be
other circumstances beyond the individual’s
control (e.g., a sudden turn for the worse in
someone with a variable condition, a sudden
family emergency) that make it impractica-le for the individual to travel at the sched-
uled time and also for the individual to no-
tify the entity in time to cancel the trip be-
fore the vehicle comes. Such circumstances
also would not form part of a sanctionable
pattern or practice.

Once an entity has certified someone as el-
igible, the individual’s eligibility takes on
the coloration of a property right. (This is
not merely a theoretical statement. If one
dependson transportation one has been
found eligible for to get a job, and the eli-
gibility is removed, one may lose the job.
The same can be said for access to medical
care or other important services.) Con-
sequently, before eligibility may be removed
“for cause,” under this provision, the entity
must provide administrative due process to
the individual.

If the entity proposes to impose sanctions
on someone, it must first notify the individ-
ual in writing (using accessible formats
where necessary). The notice must specify
the basis of the proposed action (e.g., Mr.
Smith scheduled trips for 8 a.m. on May 15,
2 p.m. on June 3, 9 a.m. on June 21, and 9:20
p.m. on July 10, and on each occasion the ve-
cicle appeared at the scheduled time and Mr.
Smith was nowhere to be found) and set
forth the proposed sanction (e.g., Mr. Smith
would not receive service for 15 days).

The entity would provide the individual an
opportunity to be heard (i.e., an in-person in-
formal hearing before a decisionmaker) as
well as to present written and oral informa-
tion and arguments. All relevant entity

The rule also allows an entity to establish
a process to suspend, for a reasonable period
of time, the provision of paratransit service
to an ADA eligible person who establishes a
pattern or practice of missing scheduled
trips. The purpose of this process would be to
deter or deal with chronic “no-shows.” The
sanction system—articulated criteria for the
imposition of sanctions, length of suspension
periods, details of the administrative proc-
as, etc.—would be developed through the
public planning and participation process for
the entity’s paratransit plan, and the result
reflected in the plan submission to FTA.

It is very important to note that sanctions
could be imposed only for a “pattern or prac-
tice” of missed trips. A pattern or practice
involves intentional, repeated or regular ac-
tions, not isolated, accidental, or singular
incidents. Moreover, only actions within the
control of the individual count as part of a
pattern or practice. Missed trips due to oper-
ator error are not attributable to the indi-
vidual passenger for this purpose. If the vehi-
icle arrives substantially after the scheduled
pickup time, and the passenger has given up
on the vehicle and taken a taxi or gone down
the street to talk to a neighbor, that is not a
missed trip attributable to the passenger.

If the vehicle does not arrive at all, or is sent
to the wrong address, or to the wrong en-
trance to a building, that is not a missed trip
attributable to the passenger. There may be
other circumstances beyond the individual’s
control (e.g., a sudden turn for the worse in
someone with a variable condition, a sudden
family emergency) that make it impractica-le for the individual to travel at the sched-
uled time and also for the individual to no-
tify the entity in time to cancel the trip be-
fore the vehicle comes. Such circumstances
also would not form part of a sanctionable
pattern or practice.

Once an entity has certified someone as el-
igible, the individual’s eligibility takes on
the coloration of a property right. (This is
not merely a theoretical statement. If one
dropends on transportation one has been
found eligible for to get a job, and the eli-
gibility is removed, one may lose the job.
The same can be said for access to medical
care or other important services.) Con-
sequently, before eligibility may be removed
“for cause,” under this provision, the entity
must provide administrative due process to
the individual.

If the entity proposes to impose sanctions
on someone, it must first notify the individ-
ual in writing (using accessible formats
where necessary). The notice must specify
the basis of the proposed action (e.g., Mr.
Smith scheduled trips for 8 a.m. on May 15,
2 p.m. on June 3, 9 a.m. on June 21, and 9:20
p.m. on July 10, and on each occasion the ve-
cicle appeared at the scheduled time and Mr.
Smith was nowhere to be found) and set
forth the proposed sanction (e.g., Mr. Smith
would not receive service for 15 days).

The entity would provide the individual an
opportunity to be heard (i.e., an in-person in-
formal hearing before a decisionmaker) as
well as to present written and oral informa-
tion and arguments. All relevant entity

The rule also allows an entity to establish
a process to suspend, for a reasonable period
of time, the provision of paratransit service
to an ADA eligible person who establishes a
pattern or practice of missing scheduled
trips. The purpose of this process would be to
deter or deal with chronic “no-shows.” The
sanction system—articulated criteria for the
imposition of sanctions, length of suspension
periods, details of the administrative proc-
as, etc.—would be developed through the
public planning and participation process for
the entity’s paratransit plan, and the result
reflected in the plan submission to FTA.

It is very important to note that sanctions
could be imposed only for a “pattern or prac-
tice” of missed trips. A pattern or practice
involves intentional, repeated or regular ac-
tions, not isolated, accidental, or singular
incidents. Moreover, only actions within the
control of the individual count as part of a
pattern or practice. Missed trips due to oper-
ator error are not attributable to the indi-
vidual passenger for this purpose. If the vehi-

records and personnel would be made available to the individual, and other persons could testify. It is likely that, in many cases, an important factual issue would be whether or not the responsibility of the provider or the passenger, and the testimony of other persons and the provider’s records or personnel are likely to be relevant in deciding this issue. While the hearing is intended to be informal, the individual could bring a representative (e.g., someone from an advocacy organization, an attorney).

The individual may waive the hearing and proceed on the basis of written presentations. If the individual does not respond to the notice within a reasonable time, the entity may make, in effect, a default finding and impose sanctions. If there is a hearing, and the individual needs paratransit service to attend the hearing, the entity must provide it. We would emphasize that, prior to a finding against the individual after this due process procedure, the individual must continue to receive service. The entity cannot suspend service while the matter is pending.

The entity must notify the individual in writing about the decision, the reasons for it, and the sanctions imposed, if any. Again, this information would be made available in accessible formats. In the case of a decision adverse to the individual, the administrative appeals process of this section would apply. The sanction would be stayed pending an appeal.

There are means other than sanctions, however, by which a transit provider can deal with a “no-show” problem in its system. Providers who use “real time scheduling” report that this technique is very effective in reducing no-shows and cancellations, and increasing the mix of real time scheduling in a system can probably be of benefit in this area. Calling the customer to reconfirm a reasonable time before pickup can head off some problems, as can educating consumers to call with cancellations ahead of time. Training of dispatch and operator personnel can help to avoid miscommunications that lead to missed trips.

Section 37.127 Complementary Paratransit for Visitors

This section requires each entity having a complementary paratransit system to provide service to visitors from out of town on the same basis as it is provided to local residents. By “on the same basis,” we mean under all the same conditions, service criteria, etc., without distinction. For the period of a visit, the visitor is treated exactly like an eligible local user, without any higher priority being given to either.

A visitor is defined as someone who does not reside in the jurisdiction or jurisdictions served by the public entity or other public entities with which it coordinates paratransit service. For example, suppose a five-county metropolitan area provides coordinated paratransit service under a joint plan. A resident of any of the five counties would not be regarded as a visitor in any of them. Note that the rule talks in terms of “jurisdiction” rather than “service area.” If an individual lives in XYZ County, but outside the fixed route service area of that county’s transit provider, the individual is still not a visitor for purposes of paratransit in PQR County, if PQR is one of the counties with which XYZ provides coordinated paratransit service.

A visitor can become eligible in one of two ways. The first is to present documentation from his or her “home” jurisdiction’s paratransit system. The local provider will give “full faith and credit” to the ID card or other documentation from the other entity. If the individual has no such documentation, the local provider may require the provision of proof of visitor status (i.e., proof of residence somewhere else) and, if the individual’s disability is not apparent, proof of the disability (e.g., a letter from a doctor or rehabilitation professional). Once this documentation is presented and is satisfactory, the local provider will make service available on the basis of the individual’s statement that he or she is unable to use the fixed route transit system.

The local provider need serve someone based on visitor eligibility for no more than 21 days. After that, the individual is treated the same as a local person for eligibility purposes. This is true whether the 21 days are consecutive or parcelled out over several shorter visits. The local provider may require the erstwhile visitor to apply for eligibility in the usual local manner. A visitor who expects to be around longer than 21 days should apply for regular eligibility as soon as he arrives. The same approach may be used for a service of requested visits totaling 21 days or more in a relating compact period of time. Preferably, this application process should be arranged before the visitor arrives, by letter, telephone or fax, so that a complete application can be processed expeditiously.

Section 37.129 Types of Service

The basic mode of service for complementary paratransit is demand responsive, origin-to-destination service. This service may be provided for persons in any one of the three eligibility categories, and must always be provided to persons in the first category (e.g., people who cannot navigate the system). The local planning process should decide whether, or in what circumstances, this service is to be provided as door-to-door or curb-to-curb service.

For persons in the second eligibility category (e.g., persons who can use accessible buses, but do not have an accessible bus
route available to take them to their des-}
(tination), origin-to-destination service can
be used. Alternatively, the entity can pro-
vide either of two other forms of service. One
is on-call bus, in which the individual calls
the provider and arranges for one or more ac-
cessible buses to arrive on the routes he
needs to use at the appropriate time. On-call
bus service must meet all the service criteria
of §37.131, except that on-call buses run only
on fixed routes and the fare charged can be
only the fixed route fare that anyone pays on
the bus (including discounts).

The second option is “feeder paratransit”
to an accessible fixed route that will take
the individual to his or her destination. Feeder paratransit, again, would have to
meet all the criteria of §37.131. With respect
to fares, the paratransit fare could be
charged, but the individual would not be
double charged for the trip. That is, having
paid the paratransit fare, the transfer to the
fixed route would be free.

For persons in the third eligibility cat-
egory (e.g., persons who can use fixed route
transit but who, because of a specific impair-
ment-related condition, cannot get to or
from a stop), the “feeder paratransit” op-
tion, under the conditions outlined above, is
available. For some trips, it might be nec-
essary to arrange for feeder service at both
ends of the fixed route trip. Given the more
complicated logistics of such arrangements,
and the potential for a mistake that would
seriously inconvenience the passenger, the
transit provider should consider carefully
whether such a “double feeder” system,
while permissible, is truly workable in its
system (as opposed to a simpler system that
used feeder service only at one end of a trip
when the bus let the person off at a place
from which he or she could independently
get to the destination). There may be some
situations in which origin to destination
service is easier and less expensive.

Section 37.131 Service Criteria for
Complementary Paratransit Service Area

The basic bus system service area is a cor-
ridor with a width of $\frac{3}{4}$ of a mile on each side
of each fixed route. At the end of a route,
there is a semicircular “cap” on the cor-
ridor, consisting of a three-quarter mile ra-
dius from the end point of the route to the
parallel sides of the corridor.

Complementary paratransit must provide
service to any origin or destination point
within a corridor fitting this description
around any route in the bus system. Note
that this does not say that an eligible user
must live within a corridor in order to be eli-
gible. If an individual lives outside the cor-
ridor, and can find a way of getting to a
pickup point within the corridor, the service
must pick him up there. The same holds true
at the destination end of the trip.

Another concept involved in this service
criterion is the core service area. Imagine a
bus route map of a typical city. Color the
bus routes and their corridors blue, against
the white outline map. In the densely popu-
lated areas of the city, the routes (which
with their corridors attached, cut $\frac{3}{4}$ mile
swaths) merge together into a solid blue
mass. There are few, if any, white spots left
uncovered, and they are likely to be very
small. Paratransit would serve all origins
and destinations in the solid blue mass.

But what of the little white spots sur-
rrounded by various bus corridors? Because it
would make sense to avoid providing service
to such small isolated areas, the rule re-
quires paratransit service there as well. So
color them in too.

Outside the core area, though, as bus
routes follow radial arteries into the suburbs
and exurbs (we know real bus route maps are
more complicated than this, but we simplify
for purposes of illustration), there are in-
creasingly wide white areas between the blue
corridors, which may have corridors on either side of them but are not small areas completely surrounded by corridors. These white spaces are not part of the paratransit service area and the entity does not have to serve origins and destinations there. However, if, through the planning process, the entity wants to enlarge the width of one or more of the blue corridors from the $\frac{3}{4}$ of a mile width, it can do so, to a maximum of 1½ miles on each side of a route. The cost of service provided within such an expanded corridor can be counted in connection with an undue financial burden waiver request.

There may be a part of the service area where part of one of the corridors overlaps a political boundary, resulting in a requirement to serve origins and destinations in a neighboring jurisdiction which the entity lacks legal authority to service. The entity is not required to serve such origins and destinations, even though the area on the other side of the political boundary is within a corridor. This exception to the service area criterion d when there is a legal bar to the entity providing service on the other side of the boundary.

The rule requires, in this situation, that the entity take all practicable steps to get around the problem so that it can provide service throughout its service area. The entity should work with the state or local governments involved, via coordination plans, reciprocity agreements, memorandum of understanding or other means to prevent political boundaries from becoming barriers to the travel of individuals with disabilities.

The definition of the service area for rail systems is somewhat different, though many of the same concepts apply.

Around each station on the line (whether or not a key station), the entity would draw a circle with a radius of $\frac{3}{4}$ mile. Some circles may touch or overlap. The series of circles is the rail system’s service area. (We recognize that, in systems where stations are close together, this could result in a service area that approached being a corridor like that of a bus line.) The rail system would provide paratransit service from any point in one circle to any point in any other circle. The entity would not have to provide service to two points within the same circle, since a trip between two points in the vicinity of the same station is not a trip that typically would be taken by train. Nor would the entity have to provide service to spaces between the circles. For example, a train trip would not get close to point x; one would have to take a bus or other mode of transportation to get from station E or F to point x. A paratransit system comparable to the rail service area would not be required to take someone there either.

Rail systems typically provide trips that are not made, or cannot be made conveniently, on bus systems. For example, many rail systems cross jurisdictional boundaries that bus systems often do not. One can travel from Station A to a relatively distant Station E on a rail system in a single trip, while a bus trip between the same points, if possible at all, may involve a number of indirect routings and transfers, on two bus systems that may not interface especially well.
Office of the Secretary of Transportation

Pt. 37, App. D

Rail operators have an obligation to provide paratransit equivalents of trips between circles to persons who cannot use fixed route rail systems because they cannot navigate the system, because key stations or trains are not yet accessible, or because they cannot access stations from points within the circles because of a specific impairment-related condition. For individuals who are eligible in category 2 because they need an accessible key station to use the system, the paratransit obligation extends only to transportation among “circles” centered on designated key stations (since, even when the key station plan is fully implemented, these individuals will be unable to use non-key stations).

It is not sufficient for a rail operator to refer persons with disabilities to an accessible bus system in the area. The obligation to provide paratransit for a rail system is independent of the operations of any bus system serving the same area, whether operated by the same entity that operates the rail system or a different entity. Obviously, it will be advantageous for bus and rail systems to coordinate their paratransit efforts, but a coordinated system would have to ensure coverage of trips comparable to rail trips that could not conveniently be taken on the fixed route bus system.

**RESPONSE TIME**

Under this provision, an entity must make its reservation service available during the hours its administrative offices are open. If those offices are open 9 to 5, those are the hours during which the reservations service must be open, even if the entity’s transit service operated 6 a.m. to midnight. On days prior to a service day on which the administrative offices are not open at all (e.g., a Sunday prior to a Monday service day), the reservation service would also be open 9 to 5. Note that the reservation service on any day does not have to be provided directly by a “real person.” An answering machine or other technology can suffice.

Any caller reaching the reservation service during the 9 to 5 period, in this example, could reserve service for any time during the next 6 a.m. to 12 midnight service day. This is the difference between “next day scheduling” and a system involving a 24-hour prior reservation requirement, in which a caller would have to reserve a trip at 7 a.m. today if he or she wanted to travel at 7 a.m. tomorrow. The latter approach is not adequate under this rule.

The entity may use real time scheduling for all or part of its service. Like the Moliere character who spoke prose all his life without knowing it, many entities may already be using some real time scheduling (e.g., for return trips which are scheduled on a when-needed basis, as opposed to in advance). A number of transit providers who have used real time scheduling believe that it is more efficient on a per-trip basis and reduces cancellations and no-shows significantly. We encourage entities to consider this form of service.

Sometimes users want to schedule service well in advance, to be sure of traveling when they want to. The rule tells providers to permit reservations to be made much as 14 days in advance. In addition, though an entity may negotiate with a user to adjust pickup and return trip times to make scheduling more efficient, the entity cannot insist on scheduling a trip more than one hour earlier or later than the individual desires to travel. Any greater deviation from desired trip would exceed the bounds of comparability.

**FARES**

To calculate the proper paratransit fare, the entity would determine the route(s) that an individual would take to get from his or her origin to his or her destination on the fixed route system. At the time of day the person was traveling, what is the fare for that trip on those routes? Applicable charges like transfer fees or premium service charges may be added to the amount, but discounts (e.g., the half-fare discount for off-peak fixed route travel by elderly and handicapped persons) would not be subtracted. The transit provider could charge up to twice the resulting amount for the paratransit trip.

The mode through which paratransit is provided does not change the method of calculation. For example, if paratransit is provided via user side subsidy taxi service rather than publicly operated dial-a-ride van service, the cost to the user could still be only twice the applicable fixed route fare. The system operates the same regardless of whether the paratransit trip is being provided in place of a bus or a rail trip the user cannot make on the fixed route system. Where bus and rail systems are run by the same provider (or where the same bus provider runs parallel local and express buses along the same route), the comparison would be made to the mode on which a typical fixed route user would make the particular trip, based on schedule, length, convenience, avoidance of transfers, etc.

Companions are charged the same fare as the eligible individual they are accompanying. Personal care attendants ride free.

One exception to the fare requirement is made for social service agency (or other organization-sponsored) trips. This exception, which allows the transit provider to negotiate a price with the agency that is more than twice the relevant fixed route fare, applies to “agency trips,” by which we mean trips which are guaranteed to the agency for its use. That is, if an agency wants 12 slots for a trip to the mall on Saturday for clients...
with disabilities, the agency makes the reservation for the trips in its name, the agency will be paying for the transportation, and the trips are reserved to the agency, for whichever 12 people the agency designates, the provider may then negotiate any price it can with the agency for the trips. We distinguish this situation from one in which an agency employee, as a service, calls and makes an individual reservation in the name of a client, where the client will be paying for the transportation.

Restrictions and Priorities Based on Trip Purpose

This is a simple and straightforward requirement. There can be no restrictions or priorities based on trip purpose in a comparable complementary paratransit system. When a user reserves a trip, the entity will need to know the origin, destination, time of travel, and how many people are traveling. The entity does not need to know why the person is traveling, and should not even ask.

Hours and Days of Service

This criterion says simply that if a person can travel to a given destination using a given fixed route at a given time of day, an ADA paratransit eligible person must be able to travel to that same destination on paratransit at that time of day. This criterion recognizes that the shape of the service area can change. Late at night, for example, it is common for certain routes not to be run. Those routes, and their paratransit corridors, do not need to be served with paratransit when the fixed route system is not running on them. One couldn’t get to destinations in that corridor by fixed route at those times, so paratransit service is not necessary either.

It should be pointed out that service during low-demand times need not be by the same paratransit mode as during higher usage periods. For example, if a provider uses its own paratransit vans during high demand periods, it could use a private contractor or user-side subsidy provider during low demand periods. This would presumably be a more efficient way of providing late night service. A call-forwarding device for communication with the auxiliary carrier during these low demand times would be perfectly acceptable, and could reduce administrative costs.

Capacity Constraints

This provision specifically prohibits two common mechanisms that limit use of a paratransit system so as to constrain demand to its capacity. The first is a waiting list. Typically, a waiting list involves a determination by a provider that it can provide service only to a given number of eligible persons. Other eligible persons are not able to receive service until one of the people being served moves away or otherwise no longer uses the service. Then the persons on the waiting list can move up. The process is analogous to the wait that persons in rival cities have to endure to be able to buy season tickets to a sold-out slate of professional football games.

The second mechanism specifically mentioned is a number limit on the trips a passenger can take in a given period of time. It is a kind of rationing in which, for example, if one has taken his quota of 30 trips in this month, he cannot take further trips for the rest of the month.

In addition, this paragraph prohibits any operational pattern or practice that significantly limits the availability of service of ADA paratransit eligible persons. As discussed under §37.125 in the context of missed trips by passengers, a “pattern or practice” involves, regular, or repeated actions, not isolated, accidental, or singular incidents. A missed trip, late arrival, or trip denial now and then does not trigger this provision.

Operational problems outside the control of the entity do not count as part of a pattern or practice under this provision. For example, if the vehicle has an accident on the way to pick up a passenger, the late arrival would not count as part of a pattern or practice. If something that could not have been anticipated at the time the trip was scheduled (e.g., a snowstorm, an accident or hazardous materials incident that traps the paratransit vehicle, like all traffic on a certain highway, for hours), the resulting missed trip would not count as part of a pattern or practice. On the other hand, if the entity regularly does not maintain its vehicles well, such that frequent mechanical breakdowns result in missed trips or late arrivals, a pattern or practice may exist. This is also true in a situation in which scheduling practices fail to take into account regularly occurring traffic conditions (e.g., rush hour traffic jams), resulting in frequent late arrivals.

The rule mentions three specific examples of operational patterns or practices that would violate this provision. The first is a pattern or practice of substantial numbers of significantly untimely pickups (either for initial or return trips). To violate this provision, there must be both a substantial number of late arrivals and the late arrivals in question must be significant in length. For example, a DOT Inspector General’s (IG) report on one city’s paratransit system disclosed that around 30 percent of trips were between one and five hours late. Such a situation would trigger this provision. On the other hand, only a few instances of trips one to five hours late, or many instances of trips a few minutes late, would not trigger this provision.
Office of the Secretary of Transportation

The second example is substantial numbers of trip denials or missed trips. For example, if on a regular basis the reservation phone lines open at 5 a.m. and callers after 7 a.m. are all told that they cannot travel, or the phone lines shut down after 7 a.m. and a recorded message says to call back the next day, or the phone lines are always so busy that no one can get through, this provision would be triggered. (Practices of this kind would probably violate the response time criterion as well.) Also, if, on a regular basis, the entity misses a substantial number of trips (e.g., a trip is scheduled, the passenger is waiting, but the vehicle never comes, goes to the wrong address, is extremely late, etc.), it would violate this provision.

The third example is substantial numbers of trips with excessive trip lengths. Since paratransit is a shared ride service, paratransit rides between point A and point B will usually take longer, and involve more intermediate stops, than a taxi ride between the same two points. However, when the number of intermediate stops and the total trip time for a given passenger grows so large as to make use of the system prohibitively inconvenient, then this provision would be triggered. For example, the IG report referred to above mentioned a situation in which 9 percent of riders had one way trips averaging between two and four hours, with an average of 16 intermediate stops. Such a situation would probably trigger this provision.

Though these three examples probably cover the most frequently cited problems in paratransit operations that directly or indirectly limit the provision of service that is theoretically available to eligible persons, the list is not exhaustive. Other patterns or practices could trigger this provision. For example, the Department has heard about a situation in which an entity's paratransit service is widely regarded as being less reliable than conventional transit service. Though these three examples probably cover the most frequently cited problems in paratransit operations that directly or indirectly limit the provision of service that is theoretically available to eligible persons, the list is not exhaustive. Other patterns or practices could trigger this provision. For example, the Department has heard about a situation in which an entity's paratransit service is widely regarded as being less reliable than conventional transit service.

This provision emphasizes that entities may go beyond the requirements of this section to provide service to ADA paratransit individuals. For example, no one is precluded from offering service in a larger service area, during greater hours than the fixed route system, or without charge. However, costs of such additional service do not count with respect to undue financial burden waiver requests. Where a service criterion itself incorporates a range of actions the entity may take (e.g., providing wide corridors outside the urban core, using real time scheduling), however, costs of providing that optional service may be counted for undue financial burden waiver request purposes.

Section 37.133 Subscription Service

As part of its paratransit service, an entity may include a subscription service component. However, at any given time of day, this component may not absorb more than 50 percent of available capacity on the total system. For example, if, at 8 a.m., the system can provide 400 trips, no more than 200 of these can be subscription trips.

The one exception to this rule would occur in a situation in which there is excess non-subscription capacity available. For example, if over a long enough period of time to establish a pattern, there were only 150 non-subscription trips requested at 8 a.m., the provider could begin to provide 250 subscription trips at that time. Subsequently, if non-subscription demand increased over a period of time, such that the 50 trips were needed to satisfy a regular non-subscription demand at that time, and overall system capacity had not increased, the 50 trips would have to be returned to the non-subscription category. During times of high subscription demand, entities could use the trip time negotiation discretion of §37.131(c)(2) to shift some trips to other times.

Because subscription service is a limited subcomponent of paratransit service, the rule permits restrictions to be imposed on its use that could not be imposed elsewhere. There may be a waiting list for provision of subscription service or the use of other capacity constraints. Also, there may be restrictions or priorities based on trip purpose. For example, subscription service under peak work trip times could be limited to work trips. We emphasize that these limitations apply only to subscription service. It is acceptable for a provider to put a person on a waiting list for access to subscription service at 8 a.m. for work trips; the same person could not be wait-listed for access to paratransit service in general.

Section 37.135 Submission of Paratransit Plans

This section contains the general requirements concerning the submission of paratransit plans. Each public entity operating fixed route service is required to develop and submit a plan for paratransit service. Where you send your plans depends on the type of entity you are. There are two categories of entities which should submit their plans to FTA—(1) FTA recipients and (2) entities who are administered by the state on behalf of FTA.

These FTA grantees submit their plans to the states because the agency would like the benefit of the states’ expertise before final
review. The states' role is as a commenter, not as a reviewer.

This section also specifies annual progress reports concerning the meeting of previously approved milestones and slippage, and notifies the DOT of the reasons for it and plans to catch up, and any significant changes in the operator's environment, such as the withdrawal from the marketplace of a private paratransit provider or whose service the entity has relied upon to provide part of its paratransit service.

Paragraph (d) of this section specifies a maximum time period for the phase-in of the implementation of paratransit plans. The Department recognizes that it is not reasonable to expect paratransit systems to spring into existence fully formed, like Athena from the head of Zeus. Under this paragraph, all entities must be in full compliance with all paratransit provisions by January 26, 1997, unless the entity has received a waiver from FTA based on undue financial burden (which applies only to the service criteria of §37.131, not to eligibility requirements or other paratransit provisions).

While the rule assumes that most entities will take a year to fully implement these provisions, longer than a year requires the paratransit plans to submit milestones that are susceptible to objective verification. Not all plans will be approved with a five-year lead-in period. Consistent with the proposed rule, the Department intends to look at each plan individually to see what is required for implementation in each case. DOT may approve only a shorter phase-in period in a given case.

Section 37.137 Paratransit Plan Development

Section 35.137 establishes three principal requirements in the development of paratransit plans.

First is the requirement to survey existing paratransit services within the service area. This is required by section 223(c)(8) of the ADA. While the ADA falls short of explicitly requiring coordination, clearly this is one of the goals. The purpose of the survey is to determine what is being provided already, so that a transit provider can accurately assess what additional service is needed to meet the service criteria for comparable paratransit service. The plan does not have to discuss private paratransit providers whose services will not be used to help meet paratransit requirements under this rule. However, the public entity will need to know specifically what services are being provided by whom if the entity is to count the transportation toward the overall need.

Since the public entity is required to provide paratransit to all ADA paratransit eligible individuals, there is some concern that currently provided service may be cut back or eliminated. It is possible that this may happen and such action would have a negative effect on transportation provided to persons with disabilities in general. The Department urges each entity required to submit a plan to work with current providers of transportation, not only to determine what transportation services they provide, but also to continue to provide service into the foreseeable future.

Second, §37.137 specifies requirements for public participation. First, the entity must perform outreach, to ensure that a wide range of persons anticipated to use the paratransit service know about and have the opportunity to participate in the development of the plan. Not only must the entity identify who these individuals or groups are, the entity also must contact the people at an early stage in the development process.

The other public participation requirements are straightforward. There must be a public hearing and an opportunity to comment. The hearing must be accessible to those with disabilities, and notice of the hearing must be accessible as well. There is a special efforts test identified in this paragraph for comments concerning a multi-year phase-in of a paratransit plan.

The final general requirement of the section specifies that efforts at public participation must be made permanent through some mechanism that provides for participation in all phases of paratransit plan development and submission. The Department is not requiring that there be an advisory committee established, although this is one method of institutionalizing participation. The Department is not as interested in the specific structure used to ensure public participation as we are interested in the effectiveness of the effort.

The Department believes that public participation is a key element in the effective implementation of the ADA. The ADA is an opportunity to develop programs that will ensure the integration of all persons into not just the transportation system of America, but all of the opportunities transportation makes possible. This opportunity is not without tremendous challenges to the transportation providers. It is only through dialogue, over the long term, that usable, possible plans can be developed and implemented.

Section 37.139 Plan Contents

This section contains substantive categories of information to be contained in the paratransit plan: Information on current and changing fixed route service; inventory of existing paratransit service; discussion of the discrepancies between existing paratransit and what is required under this regulation; a discussion of the public participation requirements and how they have been met; the plan for paratransit service; the budget for paratransit services; efforts to coordinate with other transportation providers; a description of the process in place or
Office of the Secretary of Transportation

Pt. 37, App. D

to be used to register ADA paratransit eligible individuals; a description of the documentation provided to each individual verifying eligibility; and a request for a waiver based on undue financial burden, if applicable. The final rule contains a reorganized and slightly expanded section on plan contents, reflecting requests to be more explicit, rather than less.

The list of required elements is the same for all entities required to submit paratransit plans. There is no document length requirement, however. Each entity (or group plan) is unique and we expect the plans to reflect this. While we would like the plan elements presented in the order listed in this section, the contents most likely will vary greatly, depending on the size, geographic area, budget, complexity of issues, etc. of the particular submitting agency.

This section and §37.139 provide for a maximum phase-in period of five years, with an assumed one-year phase-in for all paratransit programs. (The required budget has been changed to five years as well.) The Department has established a maximum five-year phase-in in the belief that not all systems will require that long, but that some, particularly those which had chosen to meet requirements, however. Each entity (or group plan) is unique and we expect the plans to reflect this. While we would like the plan elements presented in the order listed in this section, the contents most likely will vary greatly, depending on the size, geographic area, budget, complexity of issues, etc. of the particular submitting agency.

The ADA itself contained a figure of 43 million persons with disabilities. It should be pointed out that many of these may not necessarily be eligible for ADA paratransit service. The Department's regulatory impact analysis discussing the probable costs involved in implementing this rule places the possible percentage of population who would be eligible for paratransit service at between 1.4 and 1.9 percent. This figure can vary depending on the type and variety of services you have available, or on such things as climate, proximity to medical care, family, etc. that a person with a disability may need. Clearly estimating demand is one of the most critical elements in the plan, since it will be used to make decisions about all of the various service criteria.

Section 37.139 contains a new paragraph (j), spelling out in more detail requirements related to the annual submission of plans. Since there is now the possibility for five-year phase-ins, the annual plan demonstrates the progress made to date, and explains any delays.

Section 37.141 Requirements If a Joint Plan is Submitted

The Department believes that, particularly in large, multi-provider regions, a coordinated regional paratransit plan and system are extremely important. Such coordination can do much to ensure that the most comprehensive transportation can be provided with the most efficient use of available resources. We recognize that the effort of putting together such a coordinated system can be a lengthy one. This section is intended to facilitate the process of forming such a coordinated system.

If a number of entities wish to submit a joint plan for a coordinated system, they must, like other entities, submit a document by January 26, 1992. At a minimum, this document must include the following:

(1) A general statement that the participating entities intend to file a joint coordinated plan;
(2) A certification from each participating entity that it is committed to providing paratransit as a part of a coordinated plan;
(3) A certification from each participating entity that it will maintain at least current levels of paratransit service until the coordinated paratransit service called for by the joint plan is implemented;
(4) As many elements of the plan as possible.

These provisions ensure that significant planning will precede, and plan implementation will begin by, January 26, 1992, without precluding entities from cooperating because it was not possible to complete coordinating
Pt. 37, App. D

different public entities by that date. The entities involved in a joint plan are required to submit all elements of their plan by July 26, 1992.
The final provision in the section notes that an entity may later join a coordinated plan, even if it has filed its own plan on January 26, 1992. An entity must submit its own plan by January 26, 1992, if it has not provided a certification of participation in a joint plan. In this case, the entity must provide the assurances and certifications required of all of the other participating entities.

The Department fully expects that many jurisdictions filing joint plans will be able to do so by January 26, 1992. For those who cannot, the regulatory provision ensures that there will be no decrease in paratransit service. Further, since we anticipate coordinated service areas to provide more effective service, complete implementation of a joint plan could be more rapid than if each entity was providing service on its own.

Entities submitting a joint plan do not have any longer than any other entities to fully implement complementary paratransit service. In any case, all plans (joint or single) must be fully implemented by January 26, 1997, absent a waiver for undue financial burden (which would, in the case of a joint plan, be considered on a joint basis).

Section 37.143 Paratransit Plan Implementation

As already discussed under §37.135, the states will receive FTA recipient plans for section 18 recipients administered by the State or any small urbanized area recipient of section 9 funds administered by a state. Public entities who do not receive FTA funds will submit their plans directly to the applicable Regional Office (listed in appendix B to the rule).

The role of the state is to accept the plans on behalf of FTA, to ensure that all plans are submitted to it and forward the plans, with any comments on the plans, to FTA. This comment is very important for FTA to receive, since states administer these programs on behalf of FTA. Each state's specific knowledge of FTA grantees it administers will provide helpful information to FTA in making its decisions.

The rule lists five questions the states must answer when they forward the plans. These questions are gauged to capitalize on the working knowledge the states possess on the grantees. FTA will send a more specific letter of instruction to each state explaining its role.

Section 37.147 FTA Review of Plans

This provision spells out factors FTA will consider in reviewing each plan, including whether the submission is complete, whether the plan complies with the substance of the ADA regulation, whether the entity complied with the public participation requirements in developing the plan, efforts by the entity to coordinate with other entities in a plan submission, and any comments submitted by the states.

These elements are not the only items that will be reviewed by FTA. Every portion of the plan will be reviewed and assessed for compliance with the regulation. This section merely highlights those provisions thought most important by the Department.

Section 37.151 Waiver for Undue Financial Burden

The Department has adopted a five-year phase-in for paratransit service. Under this scheme, each entity required to provide paratransit service will be able to design a phase-in of its service specifically geared to local circumstances. While all jurisdictions will not receive approval for plans with a five-year phase-in, each entity will be able to request what it needs based on local circumstances. Generally, the section allows an entity to request a waiver at any time it determines that it will not be able to meet a five-year phase-in or make measured progress toward its full compliance date specified in its original plan.

A waiver for undue financial burden should be requested if one of the following circumstances applies. First, when the entity submits its first plan on January 26, 1992, if the entity knows it will not be able to reach full compliance within five years, or if the entity cannot make measured progress the first year it may submit a waiver request.

The entity also should apply for a waiver, if, during plan implementation, there are changed circumstances which make it unlikely that compliance will be possible.

The concept of measured progress should be given its plain meaning. It is not acceptable to submit a plan which shows significant progress in implementing a plan in years four and five, but no progress in years one and two. Similarly, the progress must be susceptible to objective verification. An entity cannot merely "work toward" developing a particular aspect of a plan.

The Department intends that undue burden waiver requests will be given close scrutiny, and waiver will not be granted highly. In reviewing requests, however, as the legislative history indicates, FTA will look at the individual financial constraints within which each public entity operates its fixed route system. "Any determination of undue financial burden cannot have assumed the collection of additional revenues, such as those received through increases in local taxes or legislative appropriations, which would not have otherwise been made available to the fixed route operator." (H. Rept. 101-485, Pt. 1, at 31)
Section 37.153  FTA Waiver Determination

If the FTA Administrator grants a waiver for undue financial burden, the waiver will be for a specified period of time and the Administrator will determine what the entity must do to meet its responsibilities under the ADA. Each determination will involve a judgment of what is appropriate on a case-by-case basis. Since each waiver will be granted based on individual circumstances, the Department does not deem it appropriate to specify a generally applicable duration for a waiver.

When a waiver is granted, the rule calls for entities to look first at the number of trips provided to each individual as a means of providing service that does not create an undue burden. This capacity constraint, unlike manipulations of other service criteria, will not result in a degradation of the quality of service. An entity intending to submit an undue burden waiver request should take this approach into account in its planning process.

It should be noted that requiring an entity to provide paratransit service at least during core hours along key routes is one option that the Administrator has available in making a decision about the service to be provided. This requirement stems from the statutory provision that the Administrator can require the entity to provide a minimum level of service, even if to do so would be an undue financial burden. Certainly part of a request for a waiver could be a locally endorsed alternative to this description of basic service. The rule states explicitly the Administrator's discretion to return the application for more information if necessary.

Section 37.155  Factors in Decision to Grant an Undue Financial Burden Waiver

Factors the Administrator will consider in making a decision whether to grant an undue financial burden waiver request include effects on current fixed route service, reductions in other services, increases in fares, resources available to implement supplementary paratransit over the period of the plan, current level of accessible service (fixed route and paratransit), cooperation among transit providers, evidence of increased efficiencies that have been or could be used, any unique circumstances that may affect the entity's ability to provide paratransit service, the level of per capita service being provided, both to the population as a whole and what is being anticipated to be provided to persons who are eligible and registered to receive ADA paratransit service.

This final element allows some measure of comparability, regardless of the specific service criteria and should assist in a general assessment of level of effort.

It is only the costs associated with providing paratransit service to ADA-paratransit eligible persons that can be counted in assessing whether or not there is an undue financial burden. Two cost factors are included in the considerations which enhance the Administrator's ability to assess real commitment to these paratransit provisions. First, the Department will allow a statistically valid methodology for estimating number of trips mandated by the ADA. While the regulation calls for a trip-by-trip determination of eligibility, this provision recognizes that this is not possible for some systems, particularly the large systems. Since only those trips provided to a person when he or she is ADA eligible may be counted in determining an undue financial burden, this provision is necessary.

Second, in determining costs to be counted toward providing paratransit service, paragraph (b)(3) allows an entity to include in its paratransit budget dollars to which it is legally entitled, but which, as a matter of state or local funding arrangements, are provided to another entity that is actually providing the paratransit service.

For example, a state government may provide a certain formula allocation of the revenue from a certain tax to each jurisdiction for use in providing transportation service at the local level. The funds, depending on local arrangements, may flow either to a transit authority—a regulated entity under this rule—or to a city or county government. If the funds go to the transit authority, they clearly may be counted in an undue burden calculation. In addition, however, this provision also allows funds that flow through the city or county government to be counted in the undue burden calculation, since they are basically the same funds and should not be treated differently based on the accident of previously-determined local arrangements.

On the other hand, this provision does not allow funds of a private non-profit or other organization who uses Department of Health and Human Services grant or private contributions to be counted toward the entity's financial commitment to paratransit.

SUBPART G—PROVISION OF SERVICE

Section 37.161  Maintenance of Accessible Features—General

This section applies to all entities providing transportation services, public and private. It requires those entities to maintain in operative condition those features or facilities and equipment that make facilities and vehicles accessible to and usable by individuals with disabilities.

The ADA requires that, to the maximum extent feasible, facilities be accessible to and usable by individuals with disabilities. This section recognizes that it is not sufficient to provide features such as lift-equipped vehicles, elevators, communications systems to provide information to people with vision or
hearing impairments, etc. if these features are not maintained in a manner that enables individuals with disabilities to use them. Inoperative lifts or elevators, locked accessible doors, unclean accessible features, or improperly maintained lifts or elevators, blocked by equipment or boxes of materials are not accessible to or usable by individuals with disabilities.

The rule points out that temporary obstructions or isolated instances of mechanical failure would not be considered violations of the ADA or this rule. Repairs must be made "promptly." The rule does not, and probably could not, state a time limit for making particular repairs, given the variety of circumstances involved. However, repairing accessible features must be made a high priority. Allowing obstructions or out of order accessibility equipment to persist beyond a reasonable period of time would violate this Part, as would mechanical failures due to improper or inadequate maintenance. Failure of the entity to ensure that accessible routes are free of obstruction and properly maintained, or failure to arrange prompt repair of inoperative elevators, lifts, or other accessibility-related equipment, would also violate this part.

The rule also requires that accommodations be made to individuals with disabilities who would otherwise use an inoperative accessibility feature. For example, when a rail system discovers that an elevator is out of order, blocking access to one of its stations, it could accommodate users of the station by announcing the problem at other stations to alert passengers and offer accessible shuttle bus service around the temporarily inaccessible station. If a public address system were available of checking the lift, it may be used.) If alternate day checks, for example, are sufficient to determine that lifts are actually working, then they are permitted. If a lift is used in service on a given day, that may be sufficient to determine that the lift is operative with respect to the next day. It would be a violation of this part, however, for the entity to neglect to check lifts regularly and frequently, or to exhibit a pattern of lift breakdowns in service resulting in stranded passengers when the lifts had not been checked before the vehicle failed to provide required accessibility to passengers that day.

When a lift breaks down in service, the driver must let the entity know about the problem by the most immediate means available. If the vehicle is equipped with a radio or telephone, the driver must call in the problem on the spot. If not, then the driver would have to make a phone call at the first opportunity (e.g., from a phone booth during the turnaround time at the end of the run). It is not sufficient to wait until the end of the day and report the problem when the vehicle returns to the barn.

When a lift is discovered to be inoperative, either because of an in-service failure or as the result of a maintenance check, the entity must take the vehicle out of service before the beginning of its next service day (with the exception discussed below) and repair the lift before the vehicle is put back into service. In the case of an in-service failure, this means that the vehicle can continue its runs on that day, but cannot start a new service day before the lift is repaired. If a maintenance check in the evening after completion of a day's run or in the morning before a day's runs discloses the problem, then the bus would not go into service until the repair had taken place.

The Department realizes that, in the years before bus fleets are completely accessible, taking buses with lifts out of service for repairs in this way would probably result in an
inaccessible spare bus being used on the route, but at least attention would have to be paid quickly to the lift repair, resulting in a quicker return to service of a working accessible bus.

The rule provides an exception for those situations in which there is no spare vehicle (either accessible or inaccessible) available to take the place of the vehicle with an operative lift, such that putting the latter vehicle into the shop would result in a reduction of service to the public (e.g., a scheduled run on a route could not be made). The Department would emphasize that the exception does not apply when there is any spare vehicle available.

Where the exception does apply, the provider may keep the vehicle with the inoperative lift in service for a maximum of three days (for providers operating in an area of over 50,000 population) or five days (for providers operating in an area of 50,000 population or less). After these times have elapsed, the vehicle must go into the shop, not to return until the lift is repaired. Even during the three- or five-day period, if an accessible spare bus becomes available at any time, it must be used in place of the bus with the inoperative lift or an inaccessible spare that is being used in its place.

In a fixed route system, if a bus is operating without a working lift (either on the day when the lift fails in service or as the result of the exception discussed above) and headways between accessible buses on the route on which the vehicle is operating exceed 30 minutes, the entity must accommodate passengers, who would otherwise be inconvenienced by the lack of an accessible bus. This accommodation would be by a paratransit or other special vehicle that would pick up passengers with disabilities who cannot use the regular bus because its lift is inoperative. Passengers who need lifts in this situation would, in effect, be ADA paratransit eligible under the second eligibility category. However, since they would have no way of knowing that the bus they sought to catch would not be accessible that day, the transit authority must actively provide alternative service to them. This could be done, for example, by having a “shadow” accessible service available along the route or having the bus driver call in the minute he saw an accessible passenger he could not pick up (including the original passenger stranded by an in-service lift failure), with a short (i.e., less than 30-minute) response from an accessible vehicle dispatched to pick up the stranded passenger. To minimize problems in providing such service, when a transit authority is using the “no spare vehicles” exception, the entity could place the vehicle with the inoperative lift on a route with headways between accessible buses shorter than 30 minutes.

Entities have often recommended or required that wheelchair users make use of securement systems for their mobility devices. The entity, in other words, can require wheelchair users to “buckle up” their mobility devices. The entity is required, on a vehicle meeting Part 38 standards, to use the securement system to secure wheelchairs as provided in that part. On other vehicles (e.g., existing vehicles with securement systems which do not comply with Part 38 standards), the entity must provide and use a securement system to ensure that the mobility device remains within the securement area. This latter requirement is a mandate to use best efforts to restrain or confine the wheelchair to the securement area. The entity does the best it can, given its securement technology and the nature of the wheelchair. The Department encourages entities with relatively less adequate securement systems on their vehicles, where feasible, to retrofit the vehicles with better securement systems, that can successfully restrain a wide variety of wheelchairs. It is our understanding that the cost of doing so is not enormous.

An entity may not, in any case, deny transportation to a common wheelchair and its user because the wheelchair cannot be secured or restrained by a vehicle's securement system, to the entity's satisfaction.

Entities have often recommended or required that a wheelchair user transfer out of his or her own device into a vehicle seat. Under this rule, it is no longer permissible to require such a transfer. The entity may provide information on risks and make a recommendation with respect to transfer, but the final decision on whether to transfer is up to the passenger.

The entity's personnel have an obligation to ensure that a passenger with a disability is able to take advantage of the accessibility provided.
and safety features on vehicles. Consequently, the driver or other personnel must provide assistance with the use of lifts, ramps, and securement devices. For example, the driver must deploy the lift properly and safely. If the passenger cannot do so independently, the driver must assist the passenger with using the securement device. On a vehicle which uses a ramp, if a stop is to be made at any time a vehicle is to stop where a major intersection or destination points. This means (except, as noted above, in the situation where the driver can make himself or herself heard without recourse to amplification.) Entities must make communications and information available, using accessible formats and technology (e.g., Braille, large print, TDDs) to obtain information about transportation services. Someone cannot adequately use the bus system if schedule and route information is not available in a form he or she can use. If there is only one phone line on which ADA paratransit eligible...
individuals can reserve trips, and the line is chronically busy, individuals cannot schedule service. Such obstacles to the use of transportation service are contrary to this section. (The latter could, in some circumstances, be viewed as a capacity constraint.)

It is inconsistent with this section for a transit provider to refuse to let a passenger use a lift at any designated stop, unless the lift is physically unable to deploy or the lift would be damaged if it did deploy (see discussion under §37.123). In addition, if a temporary situation at the stop (e.g., construction, an accident, a landslide) made the stop unsafe for anyone to use, the provider could decline to operate the lift there (just as it refused to open the door for other passengers at the same point). The provider could not, however, declare a stop “off limits” to persons with disabilities that is used for other persons. If the transit authority has concerns about barriers or safety hazards that peculiarly affect individuals with disabilities that would use the stop, it should consider making efforts to move the stop.

Under DOT hazardous materials rules, a passenger may bring a portable medical oxygen supply on board a vehicle. Since the hazardous materials rules permit this, transit providers cannot prohibit it. For further information on hazardous materials rules, as they may affect transportation of assistive devices, entities may contact the Department’s Research and Special Programs Administration, Office of Hazardous Materials Transportation (202–366–0656).

One concern that has been expressed is that transportation systems (particularly some rail systems) may make it difficult for persons with disabilities to board or disembark from vehicles by very rapidly closing doors on the vehicles before individuals with disabilities (who may move more slowly through crowds in the vehicle or platform than other persons) have a chance to get on or off the vehicle. Doing so is contrary to the rule; operators must make appropriate provision to give individuals with disabilities adequate time to board or disembark.

Section 37.169 Interim Requirements for Over-the-Road Bus Service Operated by Private Entities

Private over-the-road bus (OTRB) service is, first of all, subject to all the other private entity requirements of the rule. The requirements of this section are in addition to the other applicable provisions.

Boarding assistance is required. The Department cannot require any particular boarding assistance devices at this time. Each operator may decide what mode of boarding assistance is appropriate for its operation. We agree with the discussion in the DOJ Title II rule’s preamble that carrying is a disfavored method of providing assistance to an individual with a disability. However, since accessible private OTRBs cannot be required by this rule, there may be times when carrying is the only available means of providing access to an OTRB. If the entity does not exercise its discretion to provide an alternative means, it is required by the rule that any employee who provides boarding assistance—above all, who may carry or otherwise directly physically assist a passenger—must be trained to provide this assistance appropriately and safely.

The baggage priority provision for wheelchairs and other assistive devices involves a similar procedure to that established in the Department’s Air Carrier Access Act rule (14 CFR part 382). In brief, it provides that, at any given stop, a person with a wheelchair or other assistive device would have the device loaded before other items at this stop. An individual traveling with a wheelchair is not similarly situated to a person traveling with luggage. For the wheelchair user, the wheelchair is an essential mobility device, without which travel is impossible. The rationale of this provision is that, while no one wants his or her items left behind, carrying the wheelchair is more important to its user than ordinary luggage to a traveler. If it comes to an either/or choice (the wheelchair user’s luggage would not have any priority over other luggage, however). There would be no requirement, under this provision, for “bumping” baggage already on the bus from previous stops in order to make room for the wheelchair.

The entity could require advance notice from a passenger in only one circumstance. If a passenger needed boarding assistance, the entity could require up to 48 hours’ advance notice for the purpose of providing needed assistance. While advance notice requirements are generally undesirable, this appears to be a case in which a needed accommodation may be able to be provided successfully only if the transportation provider knows in advance that some extra staffing is needed to accomplish it. While the primary need for advance notice appears to be in the situation of an unstaffed station, there could be other situations in which advance notice was needed in order to ensure that the accommodation could be made. Entities should not ask for advance notice in all cases, but just in those cases in which it is really needed for this purpose. Even if advance notice is not provided, the entity has the obligation to provide boarding assistance if it can be provided with available staff.
Section 37.171 Equivalency Requirement for Demand Responsive Service Operated by Private Entities Not Primarily in the Business of Transporting People

This provision is a service requirement closely related to the private entity requirement in §§37.101–37.105 of this part. Entities in this category are always required to provide equivalent service, regardless of what they are doing with respect to the acquisition of accessible vehicles. The effect of this provision may be to require some entities to arrange, either through acquiring their own accessible vehicles or coordinating with other providers, to have accessible vehicles available to meet the equivalency standards of §37.105 or otherwise to comply with those standards.

Section 37.173 Training

A well-trained workforce is essential in ensuring that the accessibility-related equipment and accommodations required by the ADA actually result in the delivery of good transportation service to individuals with disabilities. The utility of training was recognized by Congress as well. (See S. Rept. 100–116 at 48.) At the same time, we believe that training should be conducted in an efficient and effective manner, with appropriate flexibility allowed to the organizations that must carry it out. Each transportation provider is responsible for ensuring that contractor personnel receive the appropriate training. While we are confident of this approach, we recognize relevant differences and respond to individuals with disabilities. All individuals with disabilities, course, are not alike. The appropriate ways one deals with persons with various disabilities (e.g., mobility, vision, hearing, or mental impairments) are likely to differ and, while no one expects bus operators to be trained as disability specialists, recognizing relevant differences and responding to them appropriately is extremely significant. Public entities who contract with private entities to have service provided—above all, complementary paratransit—are responsible for ensuring that contractor personnel receive the appropriate training.

One of the best sources of information on how best to train personnel to interact appropriately with individuals with disabilities is the disability community itself. Consequently, the Department urges entities to work with disability organizations concerning how to train their personnel. Involving these groups in the process of establishing training programs, in addition to providing useful information, should help to establish or improve working relationships among transit providers and disability groups that, necessarily, will be of long duration. We note that several transit providers use persons with disabilities to provide the actual training. Others have reported that role playing is an effective method to instill an appreciation of the particular perspective of one traveling with a disability.

Finally, one of the important points in training concerns differences among individuals with disabilities. All individuals with disabilities, of course, are not alike. The appropriate ways one deals with persons with various kinds of disabilities (e.g., mobility, vision, hearing, or mental impairments) are likely to differ and, while no one expects bus drivers to be trained as disability specialists, recognizing relevant differences and responding to them appropriately is extremely significant. Public entities who contract with private entities to have service provided—above all, complementary paratransit—are responsible for ensuring that contractor personnel receive the appropriate training.

[56 FR 45621, Sept. 6, 1991, as amended at 61 FR 25416, May 21, 1996]
Office of the Secretary of Transportation

PART 38—AMERICANS WITH DISABILITIES ACT (ADA) ACCESSIBILITY SPECIFICATIONS FOR TRANSPORTATION VEHICLES

Subpart A—General

§ 38.1 Purpose.
This part provides minimum guidelines and requirements for accessibility standards in part 37 of this title for transportation vehicles required to be accessible by the Americans With Disabilities Act (ADA) of 1990 (42 U.S.C. 1201 et seq.).

§ 38.2 Equivalent facilitation.
Departures from particular technical and scoping requirements of these guidelines by use of other designs and technologies are permitted where the alternative designs and technologies used will provide substantially equivalent or greater access to and usability of the vehicle. Departures are to be considered on a case-by-case basis.
§ 38.3 Definitions.
See § 37.3 of this title.

§ 38.4 Miscellaneous instructions.
(a) Dimensional conventions. Dimensions that are not noted as minimum or maximum are absolute.

(b) Dimensional tolerances. All dimensions are subject to conventional engineering tolerances for material properties and field conditions, including normal anticipated wear not exceeding accepted industry-wide standards and practices.

(c) Notes. The text of these guidelines does not contain notes or footnotes. Additional information, explanations, and advisory materials are located in the Appendix.

(d) General terminology. (1) Comply with means meet one or more specification of these guidelines.

(2) If or if * * * then denotes a specification that applies only when the conditions described are present.

(3) May denotes an option or alternative.

(4) Shall denotes a mandatory specification or requirement.

(5) Should denotes an advisory specification or recommendation.

Subpart B—Buses, Vans and Systems

§ 38.21 General.

(a) New, used or remanufactured buses and vans (except over-the-road buses covered by subpart G of this part), to be considered accessible by regulations in part 37 of this title shall comply with the applicable provisions of this subpart.

(b) If portions of the vehicle are modified in a way that affects or could affect accessibility, each such portion shall comply, to the extent practicable, with the applicable provisions of this subpart. This provision does not require that inaccessible buses be retrofitted with lifts, ramps or other boarding devices.

§ 38.23 Mobility aid accessibility.

(a) General. All vehicles covered by this subpart shall provide a level-change mechanism or boarding device (e.g., lift or ramp) complying with paragraph (b) or (c) of this section and sufficient clearances to permit a wheelchair or other mobility aid user to reach a securement location. At least two securement locations and devices, complying with paragraph (d) of this section, shall be provided on vehicles in excess of 22 feet in length; at least one securement location and device, complying with paragraph (d) of this section, shall be provided on vehicles 22 feet in length or less.

(b) Vehicle lift—(1) Design load. The design load of the lift shall be at least 600 pounds. Working parts, such as cables, pulleys, and shafts, which can be expected to wear, and upon which the lift depends for support of the load, shall have a safety factor of at least six, based on the ultimate strength of the material. Nonworking parts, such as platform, frame, and attachment hardware which would not be expected to wear, shall have a safety factor of at least three, based on the ultimate strength of the material.

(ii) Requirements. The controls shall be interlocked with the vehicle brakes, transmission, or door, or shall provide other appropriate mechanisms or systems, to ensure that the vehicle cannot be moved when the lift is not stowed and so the lift cannot be deployed unless the interlocks or systems are engaged. The lift shall deploy to all levels (i.e., ground, curb, and intermediate positions) normally encountered in the operating environment. Where provided, each control for deploying, lowering, raising, and stowing the lift and lowering the roll-off barrier shall be of a momentary contact type requiring continuous manual pressure by the operator and shall not allow improper lift sequencing when the lift platform is occupied. The controls shall allow reversal of the lift operation sequence, such as raising or lowering a platform that is part way down, without allowing an occupied platform to fold or retract into the stowed position.

(ii) Exception. Where the lift is designed to deploy with its long dimension parallel to the vehicle axis and which pivots into or out of the vehicle while occupied (i.e., “rotary lift”), the
requirements of this paragraph prohibiting the lift from being stowed while occupied shall not apply if the stowed position is within the passenger compartment and the lift is intended to be stowed while occupied.

3 Emergency operation. The lift shall incorporate an emergency method of deploying, lowering to ground level with a lift occupant, and raising and stowing the empty lift if the power to the lift fails. No emergency method, manual or otherwise, shall be capable of being operated in a manner that could be hazardous to the lift occupant or to the operator when operated according to manufacturer’s instructions, and shall not permit the platform to be stowed or folded when occupied, unless the lift is a rotary lift and is intended to be stowed while occupied.

4 Power or equipment failure. Platforms stowed in a vertical position, and deployed platforms when occupied, shall have provisions to prevent their deploying, falling, or folding any faster than 12 inches/second or their dropping of an occupant in the event of a single failure of any load carrying component.

5 Platform barriers. The lift platform shall be equipped with barriers to prevent any of the wheels of a wheelchair or mobility aid from rolling off the platform during its operation. A movable barrier or inherent design feature shall prevent a wheelchair or mobility aid from rolling off the edge closest to the vehicle until the platform is in its fully raised position. Each side of the lift platform which extends beyond the vehicle in its raised position shall have a barrier a minimum 1 1/2 inches high. Such barriers shall not interfere with maneuvering into or out of the aisle. The loading-edge barrier (outer barrier) which functions as a loading ramp when the lift is at ground level, shall be sufficient when raised or closed, or a supplementary system shall be provided, to prevent a power wheelchair or mobility aid from riding over or defeating it. The outer barrier of the lift shall automatically raise or close, or a supplementary system shall automatically engage, and remain raised, closed, or engaged at all times that the platform is more than 3 inches above the roadway or sidewalk and the platform is occupied. Alternatively, a barrier or system may be raised, lowered, opened, closed, engaged, or disengaged by the lift operator, provided an interlock or inherent design feature prevents the lift from rising unless the barrier is raised or closed or the supplementary system is engaged.

6 Platform surface. The platform surface shall be free of any protrusions over 1/4 inch high and shall be slip resistant. The platform shall have a minimum clear width of 26 1/2 inches at the platform, a minimum clear width of 30 inches measured from 2 inches above the platform surface to 30 inches above the platform, and a minimum clear length of 48 inches measured from 2 inches above the surface of the platform to 30 inches above the surface of the platform. (See Fig. 1)

7 Platform gaps. Any openings between the platform surface and the raised barriers shall not exceed 5/8 inch in width. When the platform is at vehicle floor height with the inner barrier (if applicable) down or retracted, gaps between the forward lift platform edge and the vehicle floor shall not exceed 1 1/2 inch horizontally and 5/8 inch vertically. Platforms on semi-automatic lifts may have a hand hold not exceeding 1 1/2 inches by 4 1/2 inches located between the edge barriers.

8 Platform entrance ramp. The entrance ramp, or loading-edge barrier used as a ramp, shall not exceed a slope of 1:8, measured on level ground, for a maximum rise of 3 inches, and the transition from roadway or sidewalk to ramp may be vertical without edge treatment up to 1/4 inch. Thresholds between 1/4 inch and 1/2 inch high shall be beveled with a slope no greater than 1:2.

9 Platform deflection. The lift platform (not including the entrance ramp) shall not deflect more than 3 degrees (exclusive of vehicle roll or pitch) in any direction between its unloaded position and its position when loaded with 600 pounds applied through a 26 inch by 26 inch test pallet at the centroid of the platform.

10 Platform movement. No part of the platform shall move at a rate exceeding 6 inches/second during lowering and lifting an occupant, and shall not exceed 12 inches/second during deploying...
or stowing. This requirement does not apply to the deployment or stowage cycles of lifts that are manually deployed or stowed. The maximum platform horizontal and vertical acceleration when occupied shall be 0.3g.

(11) Boarding direction. The lift shall permit both inboard and outboard facing of wheelchair and mobility aid users.

(12) Use by standees. Lifts shall accommodate persons using walkers, crutches, canes or braces or who otherwise have difficulty using steps. The platform may be marked to indicate a preferred standing position.

(13) Handrails. Platforms on lifts shall be equipped with handrails on two sides, which move in tandem with the lift, and which shall be graspable and provide support to standees throughout the entire lift operation. Handrails shall have a usable component at least 8 inches long with the lowest portion a minimum 30 inches above the platform and the highest portion a maximum 38 inches above the platform. The handrails shall be capable of withstanding a force of 100 pounds concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall have a cross-sectional diameter between 1¼ inches and 1½ inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than ¼ inch. Handrails shall be placed to provide a minimum 1½ inches knuckle clearance from the nearest adjacent surface. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the vehicle.

(c) Vehicle ramp—(1) Design load. Ramps 30 inches or longer shall support a load of 600 pounds, placed at the centroid of the ramp distributed over an area of 26 inches by 26 inches, with a safety factor of at least 3 based on the ultimate strength of the material. Ramps shorter than 30 inches shall support a load of 300 pounds.

(2) Ramp surface. The ramp surface shall be continuous and slip resistant; shall not have protrusions from the surface greater than ¼ inch high; shall have a clear width of 30 inches; and shall accommodate both four-wheel and three-wheel mobility aids.

(3) Ramp threshold. The transition from roadway or sidewalk and the transition from vehicle floor to the ramp may be vertical without edge treatment up to ¼ inch. Changes in level between ¼ inch and ½ inch shall be beveled with a slope no greater than 1:2.

(4) Ramp barriers. Each side of the ramp shall have barriers at least 2 inches high to prevent mobility aid wheels from slipping off.

(5) Slope. Ramps shall have the least slope practicable and shall not exceed 1:4 when deployed to ground level. If the height of the vehicle floor from which the ramp is deployed is 3 inches or less above a 6-inch curb, a maximum slope of 1:4 is permitted; if the height of the vehicle floor from which the ramp is deployed is 6 inches or less, but greater than 3 inches, above a 6-inch curb, a maximum slope of 1:6 is permitted; if the height of the vehicle floor from which the ramp is deployed is 9 inches or less, but greater than 6 inches, above a 6-inch curb, a maximum slope of 1:8 is permitted; if the height of the vehicle floor from which the ramp is deployed is greater than 9 inches above a 6-inch curb, a slope of 1:12 shall be achieved. Folding or telescoping ramps are permitted provided they meet all structural requirements of this section.

(6) Attachment. When in use for boarding or alighting, the ramp shall be firmly attached to the vehicle so that it is not subject to displacement when loading or unloading a heavy power mobility aid and that no gap between vehicle and ramp exceeds ½ inch.

(7) Stowage. A compartment, securement system, or other appropriate method shall be provided to ensure that stowed ramps, including portable ramps stowed in the passenger area, do not impinge on a passenger’s wheelchair or mobility aid or pose any hazard to passengers in the event of a sudden stop or maneuver.

(8) Handrails. If provided, handrails shall allow persons with disabilities to grasp them from outside the vehicle while starting to board, and to continue to use them throughout the boarding process, and shall have the top between 30 inches and 38 inches above the ramp surface. The handrails
§ 38.25 Doors, steps and thresholds.

(a) Slip resistance. All aisles, steps, floor areas where people walk and floors in securement locations shall have slip-resistant surfaces.

(b) Contrast. All step edges, thresholds and the boarding edge of ramps or
§ 38.27 Priority seating signs.

(a) Each vehicle shall contain sign(s) which indicate that seats in the front of the vehicle are priority seats for persons with disabilities, and that other passengers should make such seats available to those who wish to use them. At least one set of forward-facing seats shall be so designated.

(b) Each securement location shall have a sign designating it as such.

(c) Characters on signs required by paragraphs (a) and (b) of this section shall have a width-to-height ratio between 1:5 and 1:10, with a minimum character height (using an upper case “X”) of ½ inch, with “wide” spacing (generally, the space between letters shall be ½ the height of upper case letters), and shall contrast with the background either light-on-dark or dark-on-light.

§ 38.29 Interior circulation, handrails and stanchions.

(a) Interior handrails and stanchions shall permit sufficient turning and maneuvering space for wheelchairs and other mobility aids to reach a securement location from the lift or ramp.

(b) handrails and stanchions shall be provided in the entrance to the vehicle in a configuration which allows persons with disabilities to grasp such assists from outside the vehicle while starting to board, and to continue using such assists throughout the boarding and fare collection process. Handrails shall have a cross-sectional diameter between 1¼ inches and 1½ inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than ½ inch. Handrails shall be placed to provide a minimum 1½ inches knuckle clearance from the nearest adjacent surface. Where on-board fare collection devices are used on vehicles in excess of 22 feet in length, a horizontal passenger assist shall be located across the front of the vehicle and shall prevent passengers from sustaining injuries on the fare collection device or windshield in the event of a sudden deceleration. Without restricting the vestibule space, the assist shall provide support for a boarding passenger from the front door through the boarding procedure. Passengers shall be able to lean against the assist for security while paying fares.

(c) For vehicles in excess of 22 feet in length, overhead handrail(s) shall be provided which shall be continuous except for a gap at the rear doorway.

(d) Handrails and stanchions shall be sufficient to permit safe boarding, on-board circulation, seating and standing assistance, and alighting by persons with disabilities.

(e) For vehicles in excess of 22 feet in length with front-door lifts or ramps, vertical stanchions immediately behind the driver shall either terminate at the lower edge of the aisle-facing seats, if applicable, or be “dog-legged” so that the floor attachment does not impede or interfere with wheelchair footrests. If the driver seat platform must be passed by a wheelchair or mobility aid user entering the vehicle, the platform, to the maximum extent practicable, shall not extend into the aisle or vestibule beyond the wheel housing.

(f) For vehicles in excess of 22 feet in length, the minimum interior height along the path from the lift to the securement location shall be 68 inches. For vehicles of 22 feet in length or less, the minimum interior height from lift to securement location shall be 56 inches.

§ 38.31 Lighting.

(a) Any stepwell or doorway immediately adjacent to the driver shall have, when the door is open, at least 2 foot-candles of illumination measured on the step tread or lift platform.
(b) Other stepwells and doorways, including doorways in which lifts or ramps are installed, shall have, at all times, at least 2 foot-candles of illumination measured on the step tread, or lift or ramp, when deployed at the vehicle floor level.

(c) The vehicle doorways, including doorways in which lifts or ramps are installed, shall have outside light(s) which, when the door is open, provide at least 1 foot-candle of illumination on the street surface for a distance 3 feet (915 mm) perpendicular to the bottom step tread or lift outer edge. Such light(s) shall be shielded to protect the eyes of entering and exiting passengers.

§ 38.31 Lighting.

* * * * *

(c) The vehicle doorways, including doorways in which lifts or ramps are installed, shall have outside light(s) which, when the door is open, provide at least 1 foot-candle of illumination on the street surface for a distance of 3 feet perpendicular to all points on the bottom step tread outer edge. Such light(s) shall be located below window level and shielded to protect the eyes of entering and exiting passengers.

§ 38.33 Fare box.

Where provided, the farebox shall be located as far forward as practicable and shall not obstruct traffic in the vestibule, especially wheelchairs or mobility aids.

§ 38.35 Public information system.

(a) Vehicles in excess of 22 feet in length, used in multiple-stop, fixed-route service, shall be equipped with a public address system permitting the driver, or recorded or digitized human speech messages, to announce stops and provide other passenger information within the vehicle.

(b) [Reserved]
§ 38.53 Doorways.

(a) Clear width. (1) Passenger doorways on vehicle sides shall have clear openings at least 32 inches wide when open.

(2) If doorways connecting adjoining cars in a multi-car train are provided, and if such doorway is connected by an aisle with a minimum clear width of 30 inches to one or more spaces where wheelchair or mobility aid users can be accommodated, then such doorway shall have a minimum clear opening of 30 inches to permit wheelchair and mobility aid users to be evacuated to an adjoining vehicle in an emergency.

(b) Signage. The International Symbol of Accessibility shall be displayed on the exterior of accessible vehicles operating on an accessible rapid rail system unless all vehicles are accessible and are not marked by the accessibility symbol. (See Fig. 6.)

(c) Signals. Auditory and visual warning signals shall be provided to alert passengers of closing doors.

(d) Coordination with boarding platform—(1) Requirements. Where new vehicles will operate in new stations, the design of vehicles shall be coordinated with the boarding platform design such that the horizontal gap between each vehicle door at rest and the platform shall be no greater than 3 inches and the height of the vehicle floor shall be within plus or minus ½ inch of the platform height under all normal passenger load conditions. Vertical alignment may be accomplished by vehicle air suspension or other suitable means of meeting the requirement.

(2) Exception. New vehicles operating in existing stations may have a floor height within plus or minus ¾ inches of the platform height. At key stations, the horizontal gap between at least one door of each such vehicle and the platform shall be no greater than 3 inches.

(3) Exception. Retrofitted vehicles shall be coordinated with the platform in new and key stations such that the horizontal gap shall be no greater than 4 inches and the height of the vehicle floor, under 50% passenger load, shall be within plus or minus 2 inches of the platform height.

§ 38.55 Priority seating signs.

(a) Each vehicle shall contain sign(s) which indicate that certain seats are priority seats for persons with disabilities, and that other passengers should make such seats available to those who wish to use them.

(b) Characters on signs required by paragraph (a) of this section shall have a width-to-height ratio between 3.5 and 1:1 and a stroke width-to-height ratio between 1:5 and 1:10, with a minimum character height (using an upper case "X") of ½ inch, with "wide" spacing (generally, the space between letters shall be ½ the height of upper case letters), and shall contrast with the background, either light-on-dark or dark-on-light.

§ 38.57 Interior circulation, handrails and stanchions.

(a) Handrails and stanchions shall be provided to assist safe boarding, onboard circulation, seating and standing assistance, and alighting by persons with disabilities.

(b) Handrails, stanchions, and seats shall allow a route at least 32 inches wide so that at least two wheelchair or mobility aid users can enter the vehicle and position the wheelchairs or mobility aids in areas, each having a minimum clear space of 48 inches by 30 inches, which do not unduly restrict movement of other passengers. Space
to accommodate wheelchairs and mobility aids may be provided within the normal area used by standees and designation of specific spaces is not required. Particular attention shall be given to ensuring maximum maneuverability immediately inside doors. Ample vertical stanchions from ceiling to seat-back rails shall be provided. Vertical stanchions from ceiling to floor shall not interfere with wheelchair or mobility aid user circulation and shall be kept to a minimum in the vicinity of doors.

(c) The diameter or width of the gripping surface of handrails and stanchions shall be 1\(\frac{1}{4}\) inches to 1\(\frac{1}{2}\) inches or provide an equivalent gripping surface and shall provide a minimum 1\(\frac{1}{2}\) inches knuckle clearance from the nearest adjacent surface.

§ 38.59 Floor surfaces.

Floor surfaces on aisles, places for standees, and areas where wheelchair and mobility aid users are to be accommodated shall be slip-resistant.

§ 38.61 Public information system.

(a)(1) Requirements. Each vehicle shall be equipped with a public address system permitting transportation system personnel, or recorded or digitized human speech messages, to announce stations and provide other passenger information. Alternative systems or devices which provide equivalent access are also permitted. Each vehicle operating in stations having more than one line or route shall have an external public address system to permit transportation system personnel, or recorded or digitized human speech messages, to announce train, route, or line identification information.

(2) Exception. Where station announcement systems provide information on arriving trains, an external train speaker is not required.

(b) [Reserved]

§ 38.63 Between-car barriers.

(a) Requirement. Suitable devices or systems shall be provided to prevent, deter or warn individuals from inadvertently stepping off the platform between cars. Acceptable solutions include, but are not limited to, pantograph gates, chains, motion detectors or similar devices.

(b) Exception. Between-car barriers are not required where platform screens are provided which close off the platform edge and open only when trains are correctly aligned with the doors.

Subpart D—Light Rail Vehicles and Systems

§ 38.71 General.

(a) New, used and remanufactured light rail vehicles, to be considered accessible by regulations in part 37 of this title shall comply with this subpart.

(b)(1) Vehicles intended to be operated solely in light rail systems confined entirely to a dedicated right-of-way, and for which all stations or stops are designed and constructed for revenue service after the effective date of standards for design and construction in § 37.21 and § 37.23 of this title shall provide level boarding and shall comply with § 38.73(d)(1) and § 38.85 of this part.

(2) Vehicles designed for, and operated on, pedestrian malls, city streets, or other areas where level boarding is not practicable shall provide wayside or car-borne lifts, mini-high platforms, or other means of access in compliance with § 38.83(b) or (c) of this part.

(c) If portions of the vehicle are modified in a way that affects or could affect accessibility, each such portion shall comply, to the extent practicable, with the applicable provisions of this subpart. This provision does not require that inaccessible vehicles be retrofitted with lifts, ramps or other boarding devices.

(d) Existing vehicles retrofitted to comply with the “one-car-per-train rule” at § 37.93 of this title shall comply with § 38.75, § 38.77(c), § 38.79(a) and § 38.83(a) of this part and shall have, in new and key stations, at least one door which complies with §§ 38.73(a), (b) and (d) of this part. Vehicles previously designed and manufactured in accordance with the accessibility requirements of part 609 of this title or the Secretary of Transportation regulations implementing section 504 of the Rehabilitation Act of 1973 that were in
§ 38.73 Doorways.

(a) Clear width—(1) All passenger doorways on vehicle sides shall have minimum clear openings of 32 inches when open.

(2) If doorways connecting adjoining cars in a multi-car train are provided, and if such doorway is connected by an aisle with a minimum clear width of 30 inches to one or more spaces where wheelchair or mobility aid users can be accommodated, then such doorway shall have a minimum clear opening of 30 inches to permit wheelchair and mobility aid users to be evacuated to an adjoining vehicle in an emergency.

(b) Signage. The International Symbol of Accessibility shall be displayed on the exterior of each vehicle operating on an accessible light rail system unless all vehicles are accessible and are not marked by the access symbol (see fig. 6).

(c) Signals. Auditory and visual warning signals shall be provided to alert passengers of closing doors.

(d) Coordination with boarding platform—(1) Requirements. The design of level-entry vehicles shall be coordinated with the boarding platform or mini-high platform design so that the horizontal gap between a vehicle at rest and the platform shall be no greater than 3 inches and the height of the vehicle floor shall be within plus or minus ½ inch of the platform height. Vertical alignment may be accomplished by vehicle air suspension, automatic ramps or lifts, or any combination.

(2) Exception. New vehicles operating in existing stations may have a floor height within plus or minus 1½ inches of the platform height. At key stations, the horizontal gap between a vehicle at rest and the platform shall be no greater than 3 inches.

(3) Exception. Retrofitted vehicles shall be coordinated with the platform in new and key stations such that the horizontal gap shall be no greater than 4 inches and the height of the vehicle floor, under 50% passenger load, shall be within plus or minus 2 inches of the platform height.

(4) Exception. Where it is not operationally or structurally practicable to meet the horizontal or vertical requirements of paragraphs (d) (1), (2) or (3) of this section, platform or vehicle devices complying with §38.83(b) or platform or vehicle mounted ramps or bridge plates complying with §38.83(c) shall be provided.

§ 38.75 Priority seating signs.

(a) Each vehicle shall contain sign(s) which indicate that certain seats are priority seats for persons with disabilities, and that other passengers should make such seats available to those who wish to use them.

(b) Where designated wheelchair or mobility aid seating locations are provided, signs shall indicate the location and advise other passengers of the need to permit wheelchair and mobility aid users to occupy them.

(c) Characters on signs required by paragraphs (a) or (b) of this section shall have a width-to-height ratio between 3:5 and 1:1 and a stroke width-to-height ratio between 1:5 and 1:10, with a minimum character height (using an upper case “X”) of ¾ inch, with “wide” spacing (generally, the space between letters shall be ⅛6 the height of upper case letters), and shall contrast with the background, either light-on-dark or dark-on-light.

§ 38.77 Interior circulation, handrails and stanchions.

(a) Handrails and stanchions shall be sufficient to permit safe boarding, onboard circulation, seating and standing assistance, and alighting by persons with disabilities.

(b) At entrances equipped with steps, handrails and stanchions shall be provided in the entrance to the vehicle in a configuration which allows passengers to grasp such assists from outside the vehicle while starting to board, and to continue using such handrails or stanchions throughout the boarding process. Handrails shall have a cross-sectional diameter between 1½ inches and 1¾ inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of
§ 38.83 Mobility aid accessibility.

(a)(1) General. All new light rail vehicles, other than level entry vehicles, covered by this subpart shall provide a level-change mechanism or boarding device (e.g., lift, ramp or bridge plate) complying with either paragraph (b) or (c) of this section and sufficient clearances to permit at least two wheelchair or mobility aid users to reach areas, each with a minimum clear floor space of 48 inches by 30 inches, which do not unduly restrict passenger flow. Space to accommodate wheelchairs and mobility aids may be provided within the normal area used by standees and designation of specific spaces is not required. Particular attention shall be given to ensuring maximum maneuverability immediately inside doors. Ample vertical stanchions from ceiling to seat-back rails shall be provided. Vertical stanchions from ceiling to floor shall not interfere with wheelchair or mobility aid circulation and shall be kept to a minimum in the vicinity of accessible doors.

§ 38.81 Lighting.

(a) Any stepwell or doorway with a lift, ramp or bridge plate immediately adjacent to the driver shall have, when the door is open, at least 2 foot-candles of illumination measured on the step tread or lift platform.

(b) Other stepwells, and doorways with lifts, ramps or bridge plates, shall have, at all times, at least 2 foot-candles of illumination measured on the step tread or lift or ramp, when deployed at the vehicle floor level.

(c) The doorways of vehicles not operating at lighted station platforms shall have outside lights which provide at least 1 foot-candle of illumination on the station platform or street surface for a distance of 3 feet perpendicular to all points on the bottom step tread. Such lights shall be located below window level and shielded to protect the eyes of entering and exiting passengers.

§ 38.83 Mobility aid accessibility.

(a)(1) General. All new light rail vehicles, other than level entry vehicles, covered by this subpart shall provide a level-change mechanism or boarding device (e.g., lift, ramp or bridge plate) complying with either paragraph (b) or (c) of this section and sufficient clearances to permit at least two wheelchair or mobility aid users to reach areas, each with a minimum clear floor space of 48 inches by 30 inches, which do not unduly restrict passenger flow. Space to accommodate wheelchairs and mobility aids may be provided within the normal area used by standees and designation of specific spaces is not required.

(2) Exception. If lifts, ramps or bridge plates meeting the requirements of this section are provided on station platforms or other stops required to be accessible, or mini-high platforms complying with §38.73(d) of this part are provided, the vehicle is not required to be equipped with a car-borne device. Where each new vehicle is compatible with a single platform-mounted access system or device, additional systems or devices are not required for each vehicle provided that the single device could be used to provide access to each
§ 38.83  

49 CFR Subtitle A (10-1-98 Edition)

new vehicle if passengers using wheelchairs or mobility aids could not be accommodated on a single vehicle.

(b) Vehicle lift—(1) Design load. The design load of the lift shall be at least 600 pounds. Working parts, such as cables, pulleys, and shafts, which can be expected to wear, and upon which the lift depends for support of the load, shall have a safety factor of at least six, based on the ultimate strength of the material. Nonworking parts, such as platform, frame, and attachment hardware which would not be expected to wear, shall have a safety factor of at least three, based on the ultimate strength of the material.

(2) Controls—(i) Requirements. The controls shall be interlocked with the vehicle brakes, propulsion system, or door, or shall provide other appropriate mechanisms or systems, to ensure that the vehicle cannot be moved when the lift is not stowed and so the lift cannot be deployed unless the interlocks or systems are engaged. The lift shall deploy to all levels (i.e., ground, curb, and intermediate positions) normally encountered in the operating environment. Where provided, each control for deploying, lowering, raising, and stowing the lift and lowering the roll-off barrier shall be of a momentary contact type requiring continuous manual pressure by the operator and shall not allow improper lift sequencing when the lift platform is occupied. The controls shall allow reversal of the lift operation sequence, such as raising or lowering a platform that is part way down, without allowing an occupied platform to fold or retract into the stowed position.

(ii) Exception. Where physical or safety constraints prevent the deployment at some stops of a lift having its long dimension perpendicular to the vehicle axis, the transportation entity may specify a lift which is designed to deploy with its long dimension parallel to the vehicle axis and which pivots into or out of the vehicle while occupied (i.e., “rotary lift”). The requirements of paragraph (b)(2)(i) of this section prohibiting the lift from being stowed while occupied shall not apply to a lift design of this type if the stowed position is within the passenger compartment and the lift is intended to be stowed while occupied.

(iii) Exception. The brake or propulsion system interlocks requirement does not apply to a station platform mounted lift provided that a mechanical, electrical or other system operates to ensure that vehicles do not move when the lift is in use.

(3) Emergency operation. The lift shall incorporate an emergency method of deploying, lowering to ground level with a lift occupant, and raising and stowing the empty lift if the power to the lift fails. No emergency method, manual or otherwise, shall be capable of being operated in a manner that could be hazardous to the lift occupant or to the operator when operated according to manufacturer’s instructions, and shall not permit the platform to be stowed or folded when occupied, unless the lift is a rotary lift intended to be stowed while occupied.

(4) Power or equipment failure. Lift platforms stowed in a vertical position, and deployed platforms when occupied, shall have provisions to prevent their deploying, falling, or folding any faster than 12 inches/second or their dropping of an occupant in the event of a single failure of any load carrying component.

(5) Platform barriers. The lift platform shall be equipped with barriers to prevent any of the wheels of a wheelchair or mobility aid from rolling off the lift during its operation. A movable barrier or inherent design feature shall prevent a wheelchair or mobility aid from riding over or defeating it. The outer barrier on the outboard of the lift shall automatically rise or close, or a supplementary system shall be provided, to prevent a power wheelchair or mobility aid from riding over or defeating it. The outer barrier on the outboard of the lift shall automatically rise or close, or a supplementary system shall automatically engage, and
remain raised, closed, or engaged at all times that the lift is more than 3 inches above the station platform or roadway and the lift is occupied. Alternatively, a barrier or system may be raised, lowered, opened, closed, engaged or disengaged by the lift operator provided an interlock or inherent design feature prevents the lift from rising unless the barrier is raised or closed or the supplementary system is engaged.

(6) Platform surface. The lift platform surface shall be free of any protrusions over 1\(\frac{1}{4}\) inch high and shall be slip resistant. The lift platform shall have a minimum clear width of 28\(\frac{1}{2}\) inches at the platform, a minimum clear width of 30 inches measured from 2 inches above the lift platform surface to 30 inches above the surface, and a minimum clear length of 48 inches measured from 2 inches above the surface of the platform to 30 inches above the surface. (See Fig. 1)

(7) Platform gaps. Any openings between the lift platform surface and the raised barriers shall not exceed 5\(\frac{1}{8}\) inch wide. When the lift is at vehicle floor height with the inner barrier (if applicable) down or retracted, gaps between the forward lift platform edge and vehicle floor shall not exceed \(\frac{1}{2}\) inch horizontally and \(\frac{3}{8}\) inch vertically. Platforms on semi-automatic lifts may have a hand hold not exceeding 1\(\frac{1}{2}\) inches by 4\(\frac{1}{2}\) inches located between the edge barriers.

(8) Platform entrance ramp. The entrance ramp, or loading-edge barrier used as a ramp, shall not exceed a slope of 1:16 measured on level ground, for a maximum rise of 3 inches, and the transition from the station platform or roadway to ramp may be vertical without edge treatment up to \(\frac{1}{4}\) inch. Thresholds between \(\frac{1}{4}\) inch and \(\frac{1}{2}\) inch high shall be beveled with a slope no greater than 1:2.

(9) Platform deflection. The lift platform (not including the entrance ramp) shall not deflect more than 3 degrees (exclusive of vehicle roll) in any direction between its unloaded position and its position when loaded with 600 pounds applied through a 26 inch by 26 inch test pallet at the centroid of the lift platform.

(10) Platform movement. No part of the platform shall move at a rate exceeding 6 inches/second during lowering and lifting an occupant, and shall not exceed 12 inches/second during deploying or stowing. This requirement does not apply to the deployment or stowage cycles of lifts that are manually deployed or stowed. The maximum platform horizontal and vertical acceleration when occupied shall be 0.3g.

(11) Boarding direction. The lift shall permit both inboard and outboard facing of wheelchairs and mobility aids.

(12) Use by standees. Lifts shall accommodate persons using walkers, crutches, canes or braces or who otherwise have difficulty using steps. The lift may be marked to indicate a preferred standing position.

(13) Handrails. Platforms on lifts shall be equipped with handrails, on two sides, which move in tandem with the lift which shall be graspable and provide support to standees throughout the entire lift operation. Handrails shall have a usable component at least 8 inches long with the lowest portion a minimum 30 inches above the platform and the highest portion a maximum 38 inches above the platform. The handrails shall be capable of withstanding a force of 100 pounds concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. Handrails shall have a cross-sectional diameter between 1\(\frac{3}{4}\) inches and 1\(\frac{1}{2}\) inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than \(\frac{1}{8}\) inch. Handrails shall be placed to provide a minimum 1\(\frac{1}{2}\) inches knuckle clearance from the nearest adjacent surface. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the vehicle.

(c) Vehicle ramp or bridge plate.—(1) Design load. Ramps or bridge plates 30 inches or longer shall support a load of 600 pounds, placed at the centroid of the ramp or bridge plate distributed over an area of 26 inches, with a safety factor of at least 3 based on the ultimate strength of the material. Ramps or bridge plates shorter than 30 inches shall support a load of 300 pounds.

(2) Ramp surface. The ramp or bridge plate surface shall be continuous and
§ 38.85 Slip resistant, shall not have protrusions from the surface greater than 1/4 inch, shall have a clear width of 30 inches, and shall accommodate both four-wheel and three-wheel mobility aids.

(3) Ramp threshold. The transition from roadway or station platform and the transition from vehicle floor to the ramp or bridge plate may be vertical without edge treatment up to 1/4 inch. Changes in level between 1/4 inch and 1/2 inch shall be beveled with a slope no greater than 1:2.

(4) Ramp barriers. Each side of the ramp or bridge plate shall have barriers at least 2 inches high to prevent mobility aid wheels from slipping off.

(5) Slope. Ramps or bridge plates shall have the least slope practicable. If the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 3 inches or less above the station platform a maximum slope of 1:4 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 6 inches or less, but more than 3 inches, above the station platform a maximum slope of 1:6 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 9 inches or less, but more than 6 inches, above the station platform a maximum slope of 1:12 shall be achieved. Folding or telescoping ramps are permitted provided they meet all structural requirements of this section.

(6) Attachment—(i) Requirement. When in use for boarding or alighting, the ramp or bridge plate shall be attached to the vehicle, or otherwise prevented from moving such that it is not subject to displacement when loading or unloading a heavy power mobility aid and that any gaps between vehicle and ramp or bridge plate, and station platform and ramp or bridge plate, shall not exceed 1/8 inch.

(ii) Exception. Ramps or bridge plates which are attached to, and deployed from, station platforms are permitted in lieu of vehicle devices provided they meet the displacement requirements of paragraph (c)(6)(i) of this section.

(7) Stowage. A compartment, securement system, or other appropriate method shall be provided to ensure that stowed ramps or bridge plates, including portable ramps or bridges plates stowed in the passenger area, do not impinge on a passenger's wheelchair or mobility aid or pose any hazard to passengers in the event of a sudden stop.

(8) Handrails. If provided, handrails shall allow persons with disabilities to grasp them from outside the vehicle while starting to board, and to continue to use them throughout the boarding process, and shall have the top between 30 inches and 38 inches above the ramp surface. The handrails shall be capable of withstanding a force of 100 pounds concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall have a cross-sectional diameter between 1 1/4 inches and 1 1/2 inches or shall provide an equivalent grasping surface, and have "eased" edges with corner radii of not less than 1/8 inch. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the vehicle.

§ 38.87 Public information system.

(a) Each vehicle shall be equipped with an interior public address system permitting transportation system personnel, or recorded or digitized human speech messages, to announce stations and provide other passenger information. Alternative systems or devices which provide equivalent access are also permitted.

(b) [Reserved]
§ 38.91 General.

(a) New, used and remanufactured commuter rail cars, to be considered accessible by regulations in part 37 of this title, shall comply with this subpart.

(b) If portions of the car are modified in such a way that it affects or could affect accessibility, each such portion shall comply, to the extent practicable, with the applicable provisions of this subpart. This provision does not require that inaccessible cars be retrofitted with lifts, ramps or other boarding devices.

(c)(1) Commuter rail cars shall comply with §§ 38.93(d) and 38.109 of this part for level boarding wherever structurally and operationally practicable.

(2) Where level boarding is not structurally or operationally practicable, commuter rail cars shall comply § 38.95 of this part.

§ 38.93 Doorways.

(a) Clear width. (1) At least one door on each side of the car from which passengers board opening onto station platforms and at least one adjacent doorway into the passenger coach compartment, if provided, shall have a minimum clear opening of 32 inches.

(2) If doorways connecting adjoining cars in a multi-car train are provided, and if such doorway is connected by an aisle with a minimum clear width of 30 inches to one or more spaces where wheelchair or mobility aid users can be accommodated, then such doorway shall have, to the maximum extent practicable in accordance with the regulations issued under the Federal Railroad Safety Act of 1970 (49 CFR parts 229 and 231), a clear opening of 30 inches.

(b) Passageways. A route at least 32 inches wide shall be provided from doors required to be accessible by paragraph (a)(1) of this section to seating locations complying with § 38.95(d) of this part. In cars where such doorways require passage through a vestibule, such vestibule shall have a minimum width of 42 inches. (See Fig. 3)

(c) Signals. If doors to the platform close automatically or from a remote location, auditory and visual warning signals shall be provided to alert passengers or closing doors.

(d) Coordination with boarding platform—(1) Requirements. Cars operating in stations with high platforms, or mini-high platforms, shall be coordinated with the boarding platform design such that the horizontal gap between a car at rest and the platform shall be no greater than 3 inches and the height of the car floor shall be within plus or minus 5⁄8 inch of the platform height. Vertical alignment may be accomplished by car air suspension, platform lifts or other devices, or any combination.

(2) Exception. New vehicles operating in existing stations may have a floor height within plus or minus 1⁄2 inches of the platform height. At key stations, the horizontal gap between at least one accessible door of each such vehicle and the platform shall be no greater than 3 inches.

(3) Exception. Where platform setbacks do not allow the horizontal gap or vertical alignment specified in paragraph (d)(1) or (d)(2) of this section, car, platform or portable lifts complying with § 38.95(b) of this part, or car or platform ramps or bridge plates, complying with § 38.95(c) of this part, shall be provided.

(4) Exception. Retrofitted vehicles shall be coordinated with the platform in new and key stations such that the horizontal gap shall be no greater than 4 inches and the height of the vehicle floor, under 50% passenger load, shall
§ 38.95 Mobility aid accessibility.

(a)(1) General. All new commuter rail cars, other than level entry cars, covered by this subpart shall provide a level-change mechanism or boarding device (e.g., lift, ramp or bridge plate) complying with either paragraph (b) or (c) of this section; sufficient clearances to permit a wheelchair or mobility aid user to reach a seating location; and at least two wheelchair or mobility aid seating locations complying with paragraph (d) of this section.

(2) Exception. If portable or platform lifts, ramps or bridge plates meeting the applicable requirements of this section are provided on station platforms or other stops required to be accessible, or mini-high platforms complying with §38.93(d) are provided, the car is not required to be equipped with a car-borne device. Where each new car is compatible with a single platform-mounted access system or device, additional systems or devices are not required for each car provided that the single device could be used to provide access to each new car if passengers using wheelchairs or mobility aids could not be accommodated on a single car.

(b) Car Lift—(1) Design load. The design load of the lift shall be at least 600 pounds. Working parts, such as cables, pulleys, and shafts, which can be expected to wear, and upon which the lift depends for support of the load, shall have a safety factor of at least six, based on the ultimate strength of the material. Nonworking parts, such as platform, frame, and attachment hardware which would not be expected to wear, shall have a safety factor of at least three, based on the ultimate strength of the material.

(2) Controls—(i) Requirements. The controls shall be interlocked with the car brakes, propulsion system, or door, or shall provide other appropriate mechanisms or systems, to ensure that the car cannot be moved when the lift is not stowed and so the lift cannot be deployed unless the interlocks or systems are engaged. The lift shall deploy to all platform levels normally encountered in the operating environment. Where provided, each control for deploying, lowering, raising, and stowing the lift and lowering the roll-off barrier shall be of a monetary contact type requiring continuous manual pressure by the operator and shall not allow improper lift sequencing when the lift platform is occupied. The controls shall allow reversal of the lift operation sequence, such as raising or lowering a platform that is part way down, without allowing an occupied platform to fold or retract into the stowed position.

(ii) Exception. Where physical or safety constraints prevent the deployment at some stops of a lift having its long dimension perpendicular to the car axis, the transportation entity may specify a lift which is designed to deploy with its long dimension parallel to the car axis and which pivots into or out of the car while occupied (i.e., “rotary lift”). The requirements of paragraph (b)(2)(i) of this section prohibiting the lift from being stowed while occupied shall not apply to a lift design of this type if the stowed position is within the passenger compartment and the lift is intended to be stowed while occupied.

(iii) Exception. The brake or propulsion system interlock requirement does not apply to a platform mounted or portable lift provided that a mechanical, electrical or other system operates to ensure that cars do not move when the lift is in use.

(3) Emergency operation. The lift shall incorporate an emergency method of deploying, lowering to ground or platform level with a lift occupant, and raising and stowing the empty lift if the power to the lift fails. No emergency method, manual or otherwise, shall be capable of being operated in a manner that could be hazardous to the lift occupant or to the operator when operated according to manufacturer's instructions, and shall not permit the platform to be stowed or folded when
occupied, unless the lift is a rotary lift intended to be stowed while occupied.

(4) Power or equipment failure. Platforms stowed in a vertical position, and deployed platforms when occupied, shall have provisions to prevent their deploying, falling, or folding any faster than 12 inches/second or their dropping of an occupant in the event of a single failure of any load carrying component.

(5) Platform barriers. The lift platform shall be equipped with barriers to prevent any of the wheels of a wheelchair or mobility aid from rolling off the lift during its operation. A movable barrier or inherent design feature shall prevent a wheelchair or mobility aid from rolling off the edge closest to the car until the lift is in its fully raised position. Each side of the lift platform which, in its raised position, extends beyond the car shall have a barrier a minimum 1½ inches high. Such barriers shall not interfere with maneuvering into or out of the car. The loading-edge barrier (outer barrier) which functions as a loading ramp when the lift is at ground or station platform level, shall be sufficient when raised or closed, or a supplementary system shall be provided, to prevent a power wheelchair or mobility aid from riding over or defeating it. The outer barrier of the lift shall automatically rise or close, or a supplementary system shall automatically engage, and remain raised, closed, or engaged at all times that the lift platform is more than 3 inches above the station platform and the lift is occupied. Alternatively, a barrier or system may be raised, lowered, opened, closed, engaged or dis-engaged by the lift operator provided an interlock or inherent design feature prevents the lift from rising unless the barrier is raised or closed or the supplementary system is engaged.

(6) Platform surface. The lift platform surface shall be free of any protrusions over 1/4 inch high and shall be slip resistant. The lift platform shall have a minimum clear width of 28½ inches at the platform, a minimum clear width of 30 inches measured from 2 inches above the lift platform surface to 30 inches above the surface, and a minimum clear length of 48 inches measured from 2 inches above the surface of the platform to 30 inches above the surface. (See Fig. 1)

(7) Platform gaps. Any openings between the lift platform surface and the raised barriers shall not exceed ¾ inch wide. When the lift is at car floor height with the inner barrier down (if applicable) or retracted, gaps between the forward lift platform edge and car floor shall not exceed ½ inch horizontally and ¾ inch vertically.

(8) Platform entrance ramp. The entrance ramp, or loading-edge barrier used as a ramp, shall not exceed a slope of 1:8, when measured on level ground, for a maximum rise of 3 inches, and the transition from station platform to ramp may be vertical without edge treatment up to ¼ inch. Thresholds between ¼ inch and ½ inch high shall be beveled with a slope no greater than 1:2.

(9) Platform deflection. The lift platform (not including the entrance ramp) shall not deflect more than 3 degrees (exclusive of vehicle roll) in any direction between its unloaded position and its position when loaded with 600 pounds applied through a 26 inch by 26 inch test pallet at the centroid of the lift platform.

(10) Platform movement. No part of the platform shall move at a rate exceeding 6 inches/second during lowering and lifting an occupant, and shall not exceed 12 inches/second during deploying or stowing. This requirement does not apply to the deployment or stowage cycles of lifts that are manually deployed or stowed. The maximum platform horizontal and vertical acceleration when occupied shall be 0.3g.

(11) Boarding direction. The lift shall permit both inboard and outboard facing of wheelchairs and mobility aids.

(12) Use by standees. Lifts shall accommodate persons using walkers, crutches, canes or braces or who otherwise have difficulty using steps. The lift may be marked to indicate a preferred standing position.

(13) Handrails. Platforms on lifts shall be equipped with handrails, on two sides, which move in tandem with the lift which shall be graspable and provide support to standees throughout the entire lift operation. Handrails shall have a usable component at least 8 inches long with the lowest portion a
minimum 30 inches above the platform and the highest portion a maximum 38 inches above the platform. The handrails shall be capable of withstanding a force of 100 pounds concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall have a cross-sectional diameter between 1 1/4 inches and 1 1/2 inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than 1/8 inch. Handrails shall be placed to provide a minimum 1 1/2 inches knuckle clearance from the nearest adjacent surface. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the car.

(c) Car ramp or bridge plate—(1) Design load. Ramps or bridge plates 30 inches or longer shall support a load of 600 pounds, placed at the centroid of the ramp or bridge plate distributed over an area of 26 inches by 26 inches, with a safety factor of at least 3 based on the ultimate strength of the material. Ramps or bridge plates shorter than 30 inches shall support a load of 300 pounds.

(2) Ramp surface. The ramp or bridge plate surface shall be continuous and slip resistant, shall not have protrusions from the surface greater than 1/4 inch high, shall have a clear width of 30 inches and shall accommodate both four-wheel and three-wheel mobility aids.

(3) Ramp threshold. The transition from station platform to the ramp or bridge plate and the transition from car floor to the ramp or bridge plate may be vertical without edge treatment up to 1/4 inch. Changes in level between 1/4 inch and 1/2 inch shall be beveled with a slope no greater than 1:2.

(4) Ramp barriers. Each side of the ramp or bridge plate shall have barriers at least 2 inches high to prevent mobility aid wheels from slipping off.

(5) Slope. Ramps or bridge plates shall have the least slope practicable. If the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 3 inches or less above the station platform a maximum slope of 1:8 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 6 inches or less, but more than 3 inches, above the station platform a maximum slope of 1:6 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 9 inches or less, but more than 6 inches, above the station platform a maximum slope of 1:4 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is greater than 9 inches above the station platform a slope of 1:12 shall be achieved. Folding or telescoping ramps are permitted provided they meet all structural requirements of this section.

(6) Attachment—(i) Requirement. When in use for boarding or alighting, the ramp or bridge plate shall be attached to the vehicle, or otherwise prevented from moving such that it is not subject to displacement when loading or unloading a heavy power mobility aid and that any gaps between vehicle and ramp or bridge plate, and station platform and ramp or bridge plate, shall not exceed 1/8 inch.

(ii) Exception. Ramps or bridge plates which are attached to, and deployed from, station platforms are permitted in lieu of car devices provided they meet the displacement requirements of paragraph (c)(6)(i) of this section.

(7) Stowage. A compartment, securement system, or other appropriate method shall be provided to ensure that stowed ramps or bridge plates, including portable ramps or bridge plates stowed in the passenger area, do not impinge on a passenger's wheelchair or mobility aid or pose any hazard to passengers in the event of a sudden stop.

(8) Handrails. If provided, handrails shall allow persons with disabilities to grasp them from outside the car while starting to board, and to continue to use them throughout the boarding process, and shall have the top between 30 inches and 38 inches above the ramp surface. The handrails shall be capable of withstanding a force of 100 pounds concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall have a cross-sectional diameter between 1 1/4 inches and 1 1/2 inches or shall provide an equivalent grasping surface, and have eased
edges with corner radii of not less than 1/8 inch. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the car.

(d) Mobility aid seating location. Spaces for persons who wish to remain in their wheelchairs or mobility aids shall have a minimum clear floor space 48 inches by 30 inches. Such spaces shall adjoin, and may overlap, an accessible path. Not more than 6 inches of the required clear floor space may be accommodated for footrests under another seat provided there is a minimum of 9 inches from the floor to the lowest part of the seat overhanging the space. Seating spaces may have fold-down or removable seats to accommodate other passengers when a wheelchair or mobility aid user is not occupying the area, provided the seats, when folded up, do not obstruct the clear floor space required. (See Fig. 2.)

§ 38.97 Interior circulation, handrails and stanchions.

(a) Where provided, handrails or stanchions within the passenger compartment shall be placed to permit sufficient turning and maneuvering space for wheelchairs and other mobility aids to reach a seating location, complying with § 38.95(d) of this part, from an accessible entrance. The diameter or width of the gripping surface of interior handrails and stanchions shall be 1 1/4 inches to 1 1/2 inches or shall provide an equivalent gripping surface. Handrails shall be placed to provide a minimum 1 1/2 inches knuckle clearance from the nearest adjacent surface.

(b) Where provided, handrails or stanchions shall be sufficient to permit safe boarding, on-board circulation, seating and standing assistance, and alighting by persons with disabilities.

(c) At entrances equipped with steps, handrails or stanchions shall be provided in the entrance to the car in a configuration which allows passengers to grasp such assists from outside the car while starting to board, and to continue using such assists throughout the boarding process, to the extent permitted by part 231 of this title.

§ 38.99 Floors, steps and thresholds.

(a) Floor surfaces on aisles, step treads, places for standees, and areas where wheelchair and mobility aid users are to be accommodated shall be slip-resistant.

(b) All thresholds and step edges shall have a band of color(s) running the full width of the step or threshold which contrasts from the step tread and riser or adjacent floor, either light-on-dark or dark-on-light.

§ 38.101 Lighting

(a) Any stepwell or doorway with a lift, ramp or bridge plate shall have, when the door is open, at least 2 foot-candles of illumination measured on the step tread, ramp, bridge plate, or lift platform.

(b) The doorways of cars not operating at lighted station platforms shall have outside lights which, when the door is open, provide at least 1 foot-candle of illumination on the station platform surface for a distance of 3 feet perpendicular to all points on the bottom step tread edge. Such lights shall be shielded to protect the eyes of entering and exiting passengers.

§ 38.103 Public information system.

(a) Each car shall be equipped with an interior public address system permitting transportation system personnel, or recorded or digitized human speech messages, to announce stations and provide other passenger information. Alternative systems or devices which provide equivalent access are also permitted.

(b) [Reserved]

§ 38.105 Priority seating signs.

(a) Each car shall contain sign(s) which indicate that certain seats are priority seats for persons with disabilities and that other passengers should make such seats available to those who wish to use them.

(b) Characters on signs required by paragraph (a) shall have a width-to-height ratio between 3:5 and 1:1 and a stroke width-to-height ratio between 1:5 and 1:10, with a minimum character height (using an upper case “X”) of 3/8 inch, with “wide” spacing (generally, the space between letters shall be 3/8
§ 38.107 Restrooms.

(a) If a restroom is provided for the general public, it shall be designed so as to allow a person using a wheelchair or mobility aid to enter and use such restroom as specified in paragraphs (a)(1) through (5) of this section.

(1) The minimum clear floor area shall be 35 inches by 60 inches. Permanently installed fixtures may overlap this area a maximum of 6 inches, if the lowest portion of the fixture is a minimum of 9 inches above the floor, and may overlap a maximum of 19 inches, if the lowest portion of the fixture is a minimum of 29 inches above the floor, provided such fixtures do not interfere with access to the water closet. Fold-down or retractable seats or shelves may overlap the clear floor space at a lower height provided they can be easily folded up or moved out of the way.

(2) The height of the water closet shall be 17 inches to 19 inches measured to the top of the toilet seat. Seats shall not be sprung to return to a lifted position.

(3) A grab bar at least 24 inches long shall be mounted behind the water closet, and a horizontal grab bar at least 40 inches long shall be mounted on at least one side wall, with one end not more than 12 inches from the back wall, at a height between 33 inches and 36 inches above the floor.

(4) Faucets and flush controls shall be operable with one hand and shall not require tight grasping, pinching, or twisting of the wrist. The force required to activate controls shall be no greater than 5 lbf (22.2 N). Controls for flush valves shall be mounted no more than 44 inches above the floor.

(5) Doorways on the end of the enclosure, opposite the water closet, shall have a minimum clear opening width of 32 inches. Doorways on the side wall shall have a minimum clear opening width of 39 inches. Door latches and hardware shall be operable with one hand and shall not require tight grasping, pinching, or twisting of the wrist.

(b) Restrooms required to be accessible shall be in close proximity to at least one seating location for persons using mobility aids and shall be connected to such a space by an unobstructed path having a minimum width of 32 inches.

§ 38.109 Between-car barriers.

Where vehicles operate in a high-platform, level-boarding mode, and where between-car bellows are not provided, devices or systems shall be provided to prevent, deter or warn individuals from inadvertently stepping off the platform between cars. Appropriate devices include, but are not limited to, pantograph gates, chains, motion detectors or other suitable devices.

Subpart F—Intercity Rail Cars and Systems

§ 38.111 General.

(a) New, used and remanufactured intercity rail cars, to be considered accessible by regulations in part 37 of this title shall comply with this subpart to the extent required for each type of car as specified below.

(1) Single-level rail passenger coaches and food service cars (other than single-level dining cars) shall comply with §§ 38.113 through 38.123 of this part. Compliance with § 38.125 of this part shall be required only to the extent necessary to meet the requirements of paragraph (d) of this section.

(2) Single-level dining and lounge cars shall have at least one connecting doorway complying with § 38.113(a)(2) of this part connected to a car accessible to persons using wheelchairs or mobility aids, and at least one space complying with §§ 38.125(d) (2) and (3) of this part, to provide table service to a person who wishes to remain in his or her wheelchair, and space to fold and store a wheelchair for a person who wishes to transfer to an existing seat.

(3) Bi-level dining cars shall comply with §§ 38.113(a)(2), 38.115(b), 38.117(a), and 38.121 of this part.

(4) Bi-level lounge cars shall have doors on the lower level, on each side of the car from which passengers board, complying with § 38.113, a restroom complying with § 38.123, and at least one space complying with § 38.125(d) (2) and (3) to provide table service to a person who wishes to remain in his or her wheelchair and space to fold and
store a wheelchair for a person who wishes to transfer to an existing seat.

(5) Restrooms, complying with §38.123 shall be provided in single-level rail passenger coaches and food services cars adjacent to the accessible seating locations required by paragraph (d) of this section. Accessible restrooms are required in dining and lounge cars only if restrooms are provided for other passengers.

(6) Sleeper cars shall comply with §§38.113 (b) through (d), 38.115 through 38.121, and 38.125 of this part, and have at least one compartment which can be entered and used by a person using a wheelchair or mobility aid and complying with §38.127 of this part.

(b)(1) If physically and operationally practicable, intercity rail cars shall comply with §38.113(d) of this part for level boarding.

(2) Where level boarding is not structurally or operationally practicable, intercity rail cars shall comply with §38.125.

(c) If portions of the car are modified in a way that affects or could affect accessibility, each portion shall comply, to the extent practicable, with the applicable provisions of this subpart. This provision does not require that inaccessible cars be retrofitted with lifts, ramps or other boarding devices.

(d) Passenger coaches or food service cars shall have the number of spaces complying with §38.125(d)(2) of this part and the number of spaces complying with §38.125(d) of this part and shall have at least one compartment which can be entered and used by a person using a wheelchair or mobility aid and complying with §38.127 of this part.

§38.113 Doorways.

(a) Clear width. (1) At least one doorway, on each side of the car from which passengers board, of each car required to be accessible by §38.111(a) and where the spaces required by §38.111(d) of this part are located, and at least one adjacent doorway into coach passenger compartments shall have a minimum clear opening width of 32 inches.

(2) Doorways at ends of cars connecting two adjacent cars, to the maximum extent practicable in accordance with regulations issued under the Federal Railroad Safety Act of 1970 (49 CFR parts 229 and 231), shall have a clear opening width of 32 inches to permit wheelchair and mobility aid users to enter into a single-level dining car, if available.

(b) Passageway. Doorways required to be accessible by paragraph (a) of this section shall permit access by persons using mobility aids and shall have an unobstructed passageway at least 32 inches wide leading to an accessible sleeping compartment complying with §38.127 of this part or seating locations complying with §38.125(d) of this part. In cars where such doorways require passage through a vestibule, such vestibule shall have a minimum width of 42 inches. (see Fig. 4)

(c) Signals. If doors to the platform close automatically or from a remote location, auditory and visual warning signals shall be provided to alert passengers of closing doors.

(d) Coordination with boarding platforms.—(1) Requirements. Cars which provide level-boarding in stations with high platforms shall be coordinated with the boarding platform or mini-high platform design such that the horizontal gap between a car at rest and the platform shall be no greater than 3 inches and the height of the car floor shall be within plus or minus ½ inch of the platform height. Vertical alignment may be accomplished by car air suspension, platform lifts or other devices, or any combination.

(2) Exception. New cars operating in existing stations may have a floor height within plus or minus ½ inch of the platform height.

(3) Exception. Where platform setbacks do not allow the horizontal gap or vertical alignment specified in paragraph (d) (1) or (2), platform or portable lifts complying with §38.125(b) of this part, or car or platform bridge plates,
§ 38.115 Interior circulation, handrails and stanchions.

(a) Where provided, handrails or stanchions within the passenger compartment shall be placed to permit sufficient turning and maneuvering space for wheelchairs and other mobility aids to reach a seating location, complying with §38.125(d) of this part, from an accessible entrance. The diameter or width of the gripping surface of interior handrails and stanchions shall be 1 1/4 inches to 1 1/2 inches or shall provide an equivalent gripping surface. Handrails shall be placed to provide a minimum 1 1/2 inches knuckle clearance from the nearest adjacent surface.

(b) Where provided, handrails and stanchions shall be sufficient to permit safe boarding, on-board circulation, seating and standing assistance, and alighting by persons with disabilities.

(c) At entrances equipped with steps, handrails or stanchions shall be provided in the entrance to the car in a configuration which allows passengers to grasp such assists from outside the car while starting to board, and to continue using such assists throughout the boarding process, to the extent permitted by part 231 of this title.

§ 38.117 Floors, steps and thresholds.

(a) Floor surfaces on aisles, step treads and areas where wheelchair and mobility aid users are to be accommodated shall be slip-resistant.

(b) All step edges and thresholds shall have a band of color(s) running the full width of the step or threshold which contrasts from the step tread and riser or adjacent floor, either light-on-dark or dark-on-light.

§ 38.119 Lighting.

(a) Any stepwell, or doorway with a lift, ramp or bridge plate, shall have, when the door is open, at least 2 foot-candles of illumination measured on the step tread, ramp, bridge plate or lift platform.

(b) The doorways of cars not operating at lighted station platforms shall have outside lights which, when the door is open, provide at least 1 foot-candle of illumination on the station platform surface for a distance of 3 feet perpendicular to all points on the bottom step tread edge. Such lights shall be shielded to protect the eyes of entering and exiting passengers.

§ 38.121 Public information system.

(a) Each car shall be equipped with a public address system permitting transportation system personnel, or recorded or digitized human speech messages, to announce stations and provide other passenger information. Alternative systems or devices which provide equivalent access are also permitted.

(b) [Reserved]

§ 38.123 Restrooms.

(a) If a restroom is provided for the general public, and an accessible restroom is required by §38.111 (a) and (e) of this part, it shall be designed so as to allow a person using a wheelchair or mobility aid to enter and use such restroom as specified in paragraphs (a) (1) through (5) of this section.

(1) The minimum clear floor area shall be 35 inches by 60 inches. Permanently installed fixtures may overlap this area a maximum of 6 inches, if the lowest portion of the fixture is a minimum of 9 inches above the floor, and may overlap a maximum of 19 inches, if the lowest portion of the fixture is a minimum of 29 inches above the floor. Fixtures shall not interfere with access to and use of the water closet. Fold-
§ 38.125 Mobility aid accessibility.

(a)(1) General. All intercity rail cars, other than level entry cars, required to be accessible by §§38.111 (a) and (e) of this subpart shall provide a level-change mechanism or boarding device (e.g., lift, ramp or bridge plate) complying with either paragraph (b) or (c) of this section and sufficient clearances to permit a wheelchair or other mobility aid user to reach a seating location complying with paragraph (d) of this section.

(2) Exception. If portable or platform lifts, ramps or bridge plates meeting the applicable requirements of this section are provided on station platforms or other stops required to be accessible, or mini-high platforms complying with §38.113(d) are provided, the car is not required to be equipped with a car borne device.

(b) Car Lift—(1) Design load. The design load of the lift shall be at least 600 pounds. Working parts, such as cables, pulleys, and shafts, which can be expected to wear, and upon which the lift depends for support of the load, shall have a safety factor of at least six, based on the ultimate strength of the material. Nonworking parts, such as platform, frame, and attachment hardware which would not be expected to wear, shall have a safety factor of at least three, based on the ultimate strength of the material.

(2) Controls—(i) Requirements. The controls shall be interlocked with the car brakes, propulsion system, or door, or shall provide other appropriate mechanisms or systems, to ensure that the car cannot be moved when the lift is not stowed and so the lift cannot be deployed unless the interlocks or systems are engaged. The lift shall deploy to all platform levels normally encountered in the operating environment. Where provided, each control for deploying, lowering, raising, and stowing the lift shall deploy to all platform levels normally encountered in the operating environment. Where provided, each control for deploying, lowering, raising, and stowing the lift platform is occupied. The controls shall allow reversal of the lift operation sequence, such as raising or lowering a platform that is part way down, without allowing an occupied platform to fold or retract into the stowed position.

(ii) Exception. Where physical or safety constraints prevent the deployment at some stops of a lift having its long dimension perpendicular to the car axis, the transportation entity may specify a lift which is designed to deploy with its long dimension parallel to the car axis and which pivots into or out of the car while occupied (i.e., “rotary lift”). The requirements of paragraph (b)(2)(i) of this section prohibiting the lift from being stowed while occupied shall not apply to a lift design of this type if the stowed position is
within the passenger compartment and the lift is intended to be stowed while occupied.

(iii) Exception. The brake or propulsion system interlocks requirement does not apply to platform mounted or portable lifts provided that a mechanical, electrical or other system operates to ensure that cars do not move when the lift is in use.

(3) Emergency operation. The lift shall incorporate an emergency method of deploying, lowering to ground or station platform level with a lift occupant, and raising and stowing the empty lift if the power to the lift fails. No emergency method, manual or otherwise, shall be capable of being operated in a manner that could be hazardous to the lift occupant or to the operator when operated according to manufacturer's instructions, and shall not permit the platform to be stowed or folded when occupied, unless the lift is a rotary lift and is intended to be stowed while occupied.

(4) Power or equipment failure. Platforms stowed in a vertical position, and deployed platforms when occupied, shall have provisions to prevent their deploying, falling, or folding any faster than 12 inches/second or their dropping of an occupant in the event of a single failure of any load carrying component.

(5) Platform barriers. The lift platform shall be equipped with barriers to prevent any of the wheels of a wheelchair or mobility aid from rolling off the lift during its operation. A movable barrier or inherent design feature shall prevent a wheelchair or mobility aid from rolling off the edge closest to the car until the lift is in its fully raised position. Each side of the lift platform which, in its raised position, extends beyond the car shall have a barrier a minimum 1½ inches high. Such barriers shall not interfere with maneuvering into or out of the car. The loading-edge barrier (outer barrier) which functions as a loading ramp when the lift is at ground or station platform level, shall be sufficient when raised or closed, or a supplementary system shall be provided, to prevent a power wheelchair or mobility aid from riding over or defeating it. The outer barrier of the lift shall automatically rise or close, or a supplementary system shall automatically engage, and remain raised, closed, or engaged at all times that the lift platform is more than 3 inches above the station platform and the lift is occupied. Alternatively, a barrier or system may be raised, lowered, opened, closed, engaged or disengaged by the lift operator provided an interlock or inherent design feature prevents the lift from rising unless the barrier is raised or closed or the supplementary system is engaged.

(6) Platform surface. The lift platform surface shall be free of any protrusions over ⅛ inch high and shall be slip resistant. The lift platform shall have a minimum clear width of 28⅝ inches at the platform, a minimum clear width of 30 inches measured from 2 inches above the lift platform surface to 30 inches above the surface, and a minimum clear length of 48 inches measured from 2 inches above the surface of the platform to 30 inches above the surface. (See Fig. 1.)

(7) Platform gaps. Any openings between the lift platform surface and the raised barriers shall not exceed ⅝ inch wide. When the lift is at car floor height with the inner barrier (if applicable) down or retracted, gaps between the forward lift platform edge and car floor shall not exceed ½ inch horizontally and ⅝ inch vertically.

(8) Platform entrance ramp. The entrance ramp, or loading-edge barrier used as a ramp, shall not exceed a slope of 1:8, when measured on level ground, for a maximum rise of 3 inches, and the transition from station platform to ramp may be vertical without edge treatment up to ⅛ inch. Thresholds between ⅛ inch and ½ inch high shall be beveled with a slope no greater than 1:2.

(9) Platform deflection. The lift platform (not including the entrance ramp) shall not deflect more than 3 degrees (exclusive of car roll) in any direction between its unloaded position and its position when loaded with 600 pounds applied through a 26 inch by 26 inch test pallet at the centroid of the lift platform.

(10) Platform movement. No part of the platform shall move at a rate exceeding 6 inches/second during lowering and
lifting an occupant, and shall not exceed 12 inches/second during deploying or stowing. This requirement does not apply to the deployment or stowage cycles of lifts that are manually deployed or stowed. The maximum platform horizontal and vertical acceleration when occupied shall be 0.3g.

(11) Boarding direction. The lift shall permit both inboard and outboard facing of wheelchairs and mobility aids.

(12) Use by standees. Lifts shall accommodate persons using walkers, crutches, canes or braces or who otherwise have difficulty using steps. The lift may be marked to indicate a preferred standing position.

(13) Handrails. Platforms on lifts shall be equipped with handrails, on two sides, which move in tandem with the lift, and which shall be graspable and provide support to standees throughout the entire lift operation. Handrails shall have a usable component at least 8 inches long with the lowest portion a minimum 30 inches above the platform and the highest portion a maximum 38 inches above the platform. The handrails shall be capable of withstanding a force of 100 pounds concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall have a cross-sectional diameter between 1 1/4 inches and 1 1/2 inches or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than 1/8 inch. Handrails shall be placed to provide a minimum 1 1/2 inches knuckle clearance from the nearest adjacent surface. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the car.

(c) Car ramp or bridge plate—(1) Design load. Ramps or bridge plates 30 inches or longer shall support a load of 600 pounds, placed at the centroid of the ramp or bridge plate distributed over an area of 26 inches by 26 inches, with a safety factor of at least 3 based on the ultimate strength of the material. Ramps or bridge plates shorter than 30 inches shall support a load of 300 pounds.

(2) Ramp surface. The ramp or bridge plate surface shall be continuous and slip resistant, shall not have protrusions from the surface greater than 1/4 inch high, shall have a clear width of 30 inches and shall accommodate both four-wheel and three-wheel mobility aids.

(3) Ramp threshold. The transition from station platform to the ramp or bridge plate and the transition from car floor to the ramp or bridge plate may be vertical without edge treatment up to 1/4 inch. Changes in level between 1/4 inch and 1/2 inch shall be beveled with a slope no greater than 1:2.

(4) Ramp barriers. Each side of the ramp or bridge plate shall have barriers at least 2 inches high to prevent mobility aid wheels from slipping off.

(5) Slope. Ramps or bridge plates shall have the least slope practicable. If the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 3 inches or less above the station platform a maximum slope of 1:4 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is 6 inches or less, but more than 3 inches, above the station platform a maximum slope of 1:6 is permitted; if the height of the vehicle floor, under 50% passenger load, from which the ramp is deployed is greater than 9 inches above the station platform a slope of 1:12 shall be achieved. Folding or telescoping ramps are permitted provided they meet all structural requirements of this section.

(6) Attachment—(i) Requirement. When in use for boarding or alighting, the ramp or bridge plate shall be attached to the vehicle, or otherwise prevented from moving such that it is not subject to displacement when loading or unloading a heavy power mobility aid and that any gaps between vehicle and ramp or bridge plate, and station platform and ramp or bridge plate, shall not exceed 3/8 inch.

(ii) Exception. Ramps or bridge plates which are attached to, and deployed from, station platforms are permitted in lieu of car devices provided they...
§ 38.127 Sleeping compartments.

(a) Sleeping compartments required to be accessible shall be designed so as to allow a person using a wheelchair or mobility aid to enter, maneuver within and approach and use each element within such compartment. (See Fig. 5.)

(b) Each accessible compartment shall contain a restroom complying with §38.123(a) which can be entered directly from such compartment.

(c) Controls and operating mechanisms (e.g., heating and air conditioning controls, lighting controls, call buttons, electrical outlets, etc.) shall be mounted no more than 48 inches, and no less than 15 inches, above the floor and shall have a clear floor area directly in front a minimum of 30 inches by 48 inches. Controls and operating mechanisms shall be operable with one hand and shall not require tight grasping, pinching, or twisting of the wrist.

Subpart G—Over-the-Road Buses and Systems

§ 38.151 General.

(a) New, used and remanufactured over-the-road buses, to be considered accessible by regulations in part 37 of this title, shall comply with this subpart.

(b) Over-the-road buses covered by §37.7(c) of this title shall comply with §38.23 and this subpart.

§ 38.153 Doors, steps and thresholds.

(a) Floor surfaces on aisles, step treads and areas where wheelchair and mobility aid users are to be accommodated shall be slip-resistant.

(b) All step edges shall have a band of color(s) running the full width of the step which contrasts from the step.
§ 38.159 Mobility aid accessibility.

(a)(1) General. All vehicles covered by this subpart shall provide a level-change mechanism or boarding device (e.g., lift or ramp) complying with paragraph (b) or (c) of this section and fare collection device and shall prevent passengers from sustaining injuries on the fare collection device or windshield in the event of a sudden deceleration. Without restricting the vestibule space, the assist shall provide support for a boarding passenger from the door through the boarding procedure. Passenger's shall be able to lean against the assist for security while paying fares.

(b) Where provided within passenger compartments, handrails or stanchions shall be sufficient to permit safe onboard circulation, seating and standing assistance, and alighting by persons with disabilities.
sufficient clearances to permit a wheelchair or other mobility aid user to reach a securement location. At least two securement locations and devices, complying with paragraph (d) of this section, shall be provided.
(2) Exception. If portable or station-based lifts, ramps or bridge plates meeting the applicable requirements of this section are provided at stations or other stops required to be accessible under regulations issued by the Department of Transportation, the bus is not required to be equipped with a vehicle-borne device.

(b) Vehicle lift—(1) Design load. The design load of the lift shall be at least 600 pounds (2665 N). Working parts, such as cables, pulleys, and shafts, which can be expected to wear, and upon which the lift depends for support of the load, shall have a safety factor of at least six, based on the ultimate strength of the material. Nonworking parts, such as platform, frame and attachment hardware which would not be expected to wear, shall have a safety factor of at least three, based on the ultimate strength of the material.

(2) Controls—(i) Requirements. The controls shall be interlocked with the vehicle brakes, transmission, or door, or shall provide other appropriate mechanisms or systems, to ensure that the vehicle cannot be moved when the lift is not stowed and so the lift cannot be deployed unless the interlocks or systems are engaged. The lift shall deploy to all levels (i.e., ground, curb, and intermediate positions) normally encountered in the operating environment. Where provided, each control for deploying, lowering, raising, and stowing the lift platform shall be of a momentary contact type requiring continuous manual pressure by the operator and shall not allow improper lift sequencing when the lift platform is occupied. The controls shall allow reversal of the lift operation sequence, such as raising or lowering a platform that is part way down, without allowing an occupied platform to fold or retract into the stowed position.

(ii) Exception. Where the lift is designed to deploy with its long dimension parallel to the vehicle axis and which pivots into or out of the vehicle while occupied (i.e., “rotary lift”), the requirements of this paragraph (b)(2) prohibiting the lift from being stowed while occupied shall not apply if the stowed position is within the passenger compartment and the lift is intended to be stowed while occupied.

(3) Emergency operation. The lift shall incorporate an emergency method of deploying, lowering to ground level with a lift occupant, and raising and stowing the empty lift if the power to the lift fails. No emergency method, manual or otherwise, shall be capable of being operated in a manner that could be hazardous to the lift occupant or to the operator when operated according to manufacturer’s instructions, and shall not permit the platform to be stowed or folded when occupied, unless the lift is a rotary lift and is intended to be stowed while occupied.

(4) Power or equipment failure. Platforms stowed in a vertical position, and deployed platforms when occupied, shall have provisions to prevent their deploying, falling, or folding any faster than 12 inches/second (305 mm/sec) or their dropping of an occupant in the event of a single failure of any load carrying component.

(5) Platform barriers. The lift platform shall be equipped with barriers to prevent any of the wheels of a wheelchair or mobility aid from rolling off the platform during its operation. A movable barrier or inherent design feature shall prevent a wheelchair or mobility aid from rolling off the edge closest to the vehicle unless the platform is in its fully raised position. Each side of the lift platform which extends beyond the vehicle in its raised position shall have a barrier a minimum 1½ inches (13 mm) high. Such barriers shall not interfere with maneuvering into or out of the aisle. The loading-edge barrier (outer barrier) which functions as a loading ramp when the lift is at ground level, shall be sufficient when raised or closed, or a supplementary system shall be provided, to prevent a power wheelchair or mobility aid from riding over or defeating it. The outer barrier of the lift shall automatically raise or close, or a supplementary system shall automatically engage, and remain raised, closed, or engaged at all times that the platform is more than 3 inches
(537) Office of the Secretary of Transportation § 38.159

(75 mm) above the roadway or sidewalk and the platform is occupied. Alternatively, a barrier or system may be raised, lowered, opened, closed, engaged, or disengaged by the lift operator, provided an interlock or inherent design feature prevents the lift from rising unless the barrier is raised or closed or the supplementary system is engaged.

(6) Platform surface. The platform surface shall be free of any protrusions of \( \frac{1}{4} \) inch \((6.5 \text{ mm})\) high and shall be slip resistant. The platform shall have a minimum clear width of \(28\frac{1}{2}\) inches \((725 \text{ mm})\) at the platform, a minimum clear width of 30 inches \((760 \text{ mm})\) measured from 2 inches \((50 \text{ mm})\) above the platform surface to 30 inches \((760 \text{ mm})\) above the platform, and a minimum clear length of 48 inches \((1220 \text{ mm})\) measured from 2 inches \((50 \text{ mm})\) above the surface of the platform to 30 inches \((760 \text{ mm})\) above the surface of the platform. (See Figure 1 to this part.)

(7) Platform gaps. Any openings between the platform surface and the raised barriers shall not exceed \(5\frac{1}{8}\) inch \((16 \text{ mm})\) in width. When the platform is at vehicle floor height with the inner barrier (if applicable) down or retracted, gaps between the forward lift platform edge and the vehicle floor shall not exceed \(\frac{1}{2}\) inch \((13 \text{ mm})\) horizontally and \(\frac{1}{4}\) inch \((16 \text{ mm})\) vertically. Platforms on semi-automatic lifts may have a hand hold not exceeding \(1\frac{1}{2}\) inches \((28 \text{ mm})\) by \(4\frac{1}{2}\) inches \((113 \text{ mm})\) located between the edge barriers.

(8) Platform entrance ramp. The entrance ramp, or loading-edge barrier used as a ramp, shall not exceed a slope of 1:8, measured on level ground, for a maximum rise of 3 inches \((75 \text{ mm})\), and the transition from roadway or sidewalk to ramp may be vertical without edge treatment up to \(\frac{1}{4}\) inch \((6.5 \text{ mm})\). Thresholds between \(\frac{1}{4}\) inch \((6.5 \text{ mm})\) and \(\frac{1}{2}\) inch \((13 \text{ mm})\) high shall be beveled with a slope no greater than 1:2.

(9) Platform deflection. The lift platform (not including the entrance ramp) shall not deflect more than 3 degrees (exclusive of vehicle roll or pitch) in any direction between its unloaded position and its position when loaded with 600 pounds \((2665 \text{ N})\) applied through a 26 inch \((660 \text{ mm})\) by 26 inch test pallet at the centroid of the platform.

(10) Platform movement. No part of the platform shall move at a rate exceeding 6 inches/second \((150 \text{ mm/sec})\) during lowering and lifting an occupant, and shall not exceed 12 inches/second \((300 \text{ mm/sec})\) during deploying or stowing. This requirement does not apply to the deployment or stowage cycles of lifts that are manually deployed or stowed. The maximum platform horizontal and vertical acceleration when occupied shall be 0.3g.

(11) Boarding direction. The lift shall permit both inboard and outboard facing of wheelchair and mobility aid users.

(12) Use by standees. Lifts shall accommodate persons using walkers, crutches, canes or braces or who otherwise have difficulty using steps. The platform may be marked to indicate a preferred standing position.

(13) Handrails. Platforms on lifts shall be equipped with handrails on two sides, which move in tandem with the lift, and which shall be graspable and provide support to standees throughout the entire lift operation. Handrails shall have a usable component at least 8 inches \((200 \text{ mm})\) long and the lowest portion a minimum 30 inches \((760 \text{ mm})\) above the platform and the highest portion a minimum 38 inches \((965 \text{ mm})\) above the platform. The handrails shall be capable of withstanding a force of 100 pounds \((445 \text{ N})\) concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall have a cross-sectional diameter between \(\frac{1}{4}\) inches \((32 \text{ mm})\) and \(\frac{1}{8}\) inches \((38 \text{ mm})\) or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than \(\frac{1}{8}\) inch \((3.5 \text{ mm})\). Handrails shall be placed to provide a minimum \(1\frac{1}{2}\) inches \((38 \text{ mm})\) knuckle clearance from the nearest adjacent surface. Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the vehicle.

(c) Vehicle ramp—(1) Design load. Ramps 30 inches \((760 \text{ mm})\) or longer shall support a load of 600 pounds \((2665 \text{ N})\), placed at the centroid of the ramp distributed over an area of 26 inches by 26 inches \((660 \text{ mm by } 660 \text{ mm})\), with a
§ 38.159

safety factor of at least 3 based on the ultimate strength of the material. Ramps shorter than 30 inches (760 mm) shall support a load of 300 pounds (1332 N).

(2) Ramp surface. The ramp surface shall be continuous and slip resistant; shall not have protrusions from the surface greater than ¼ inch (6.5 mm) high; shall have a clear width of 30 inches (760 mm); and shall accommodate both four-wheel and three-wheel mobility aids.

(3) Ramp threshold. The transition from roadway or sidewalk and the transition from vehicle floor to the ramp may be vertical without edge treatment up to ¼ inch (6.5 mm). Changes in level between ¼ inch (6.5 mm) and ½ inch (13 mm) shall be beveled with a slope no greater than 1:2.

(4) Ramp barriers. Each side of the ramp shall have barriers at least 2 inches (50 mm) high to prevent mobility aid wheels from slipping off.

(5) Slope. Ramps shall have the least slope practicable and shall not exceed 1:4 when deployed to ground level. If the height of the vehicle floor from which the ramp is deployed is 3 inches (75 mm) or less, a maximum slope of 1:4 is permitted; if the height of the vehicle floor from which the ramp is deployed is 6 inches (150 mm) or less, but greater than 3 inches (75 mm), above a 6 inch (150 mm) curb, a maximum slope of 1:4 is permitted; if the height of the vehicle floor from which the ramp is deployed is 9 inches (225 mm) or less, but greater than 6 inches (150 mm), above a 6 inch (150 mm) curb, a maximum slope of 1:6 is permitted; if the height of the vehicle floor from which the ramp is deployed is 9 inches (225 mm) or less, but greater than 6 inches (150 mm), above a 6 inch (150 mm) curb, a maximum slope of 1:8 is permitted; if the height of the vehicle floor from which the ramp is deployed is greater than 9 inches (225 mm) above a 6 inch (150 mm) curb, a slope of 1:12 shall be achieved. Folding or telescoping ramps are permitted provided they meet all structural requirements of this section.

(6) Attachment. When in use for boarding or alighting, the ramp shall be firmly attached to the vehicle so that it is not subject to displacement when loading or unloading a heavy power mobility aid and that no gap between vehicle and ramp exceeds ½ inch (16 mm).

(7) Stowage. A compartment, securement system, or other appropriate method shall be provided to ensure that stowed ramps, including portable ramps stowed in the passenger area, do not impinge on a passenger’s wheelchair or mobility aid or pose any hazard to passengers in the event of a sudden stop or maneuver.

(8) Handrails. If provided, handrails shall allow persons with disabilities to grasp them from outside the vehicle while starting to board, and to continue to use them throughout the boarding process, and shall have the top between 30 inches (760 mm) above the ramp surface. The handrails shall be capable of withstanding a force of 100 pounds (445 N) concentrated at any point on the handrail without permanent deformation of the rail or its supporting structure. The handrail shall have a cross-sectional diameter between 1¼ inches (32 mm) and 1½ inches (38 mm) or shall provide an equivalent grasping surface, and have eased edges with corner radii of not less than ½ inch (3.5 mm). Handrails shall not interfere with wheelchair or mobility aid maneuverability when entering or leaving the vehicle.

(d) Securement devices—(1) Design load. Securement systems, and their attachments to vehicles, shall restrain a force in the forward longitudinal direction of up to 2,000 pounds (8,880 N) per securement leg or clamping mechanism and a minimum of 4,000 pounds (17,760 N) for each mobility aid.

(2) Location and size. The securement system shall be placed as near to the accessible entrance as practicable and shall have a clear floor area of 30 inches (760 mm) by 48 inches (1220 mm). Such space shall adjoin, and may overlap, an access path. Not more than 6 inches (150 mm) of the required clear floor space may be accommodated for footrests under another seat, modesty panel, or other fixed element provided there is a minimum of 9 inches (230 mm) from the floor to the lowest part of the seat overhanging the space. Securement areas may have fold-down seats to accommodate other passengers when a wheelchair or mobility aid is not occupying the area, provided the seats, when folded up, do not obstruct
§ 38.173 Automated guideway transit vehicles and systems.

(a) Automated Guideway Transit (AGT) vehicles and systems, sometimes called "people movers", operated in airports and other areas where AGT vehicles travel at slow speed (i.e., at a speed of no more than 20 miles per hour at any location on their route during normal operation), shall comply with the provisions of §38.53 (a) through (c), and §§38.55 through 38.61 of this part for rapid rail vehicles and systems.
§ 38.175

(b) Where the vehicle covered by paragraph (a) will operate in an accessible station, the design of vehicles shall be coordinated with the boarding platform design such that the horizontal gap between a vehicle door at rest and the platform shall be no greater than 1 inch and the height of the vehicle floor shall be within plus or minus ½ inch of the platform height under all normal passenger load conditions. Vertical alignment may be accomplished by vehicle air suspension or other suitable means of meeting the requirement.

(c) In stations where open platforms are not protected by platform screens, a suitable device or system shall be provided to prevent, deter or warn individuals from stepping off the platform between cars. Acceptable devices include, but are not limited to, pantograph gates, chains, motion detectors or other appropriate devices.

(d) Light rail and rapid rail AGT vehicles and systems shall comply with subparts D and C of this part, respectively. AGT systems whose vehicles travel at a speed of more than 20 miles per hour at any location on their route during normal operation are covered under this paragraph rather than under paragraph (a) of this section.

[56 FR 45756, Sept. 6, 1991, as amended at 61 FR 25416, May 21, 1996]

§ 38.177 High-speed rail cars, monorails and systems.

(a) All cars for high-speed rail systems, including but not limited to those using “maglev” or high speed steel-wheel-on-steel rail technology, and monorail systems operating primarily on dedicated rail (i.e., not used by freight trains) or guideway, in which stations are constructed in accordance with part 37, subpart C of this title, shall be designed for high-platform, level boarding and shall comply with §38.111(a) of this part for each type of car which is similar to intercity rail, §§38.111(d), 38.113 (a) through (c) and (e), 38.115 (a) and (b), 38.117 (a) and (b), 38.121 through 38.123, 38.125(d), and 38.127 (if applicable) of this part. The design of cars shall be coordinated with the boarding platform design such that the horizontal gap between a car door at rest and the platform shall be no greater than 3 inches and the height of the car floor shall be within plus or minus ½ inch of the platform height under all normal passenger load conditions. Vertical alignment may be accomplished by car air suspension or other suitable means of meeting the requirement. All doorways shall have, when the door is open, at least 2 foot-candles of illumination measured on the door threshold.

(b) All other high-speed rail cars shall comply with the similar provisions of subpart F of this part.

§ 38.177 Ferries, excursion boats and other vessels. [Reserved]

§ 38.179 Trams, and similar vehicles, and systems

(a) New and used trams consisting of a tractor unit, with or without passenger accommodations, and one or more passenger trailer units, including but not limited to vehicles providing shuttle service to remote parking areas, between hotels and other public accommodations, and between and within amusement parks and other recreation areas, shall comply with this section. For purposes of determining applicability of 49 CFR 37.101, 37.103, or 37.105 the capacity of such a vehicle or “train” shall consist of the total combined seating capacity of all units, plus the driver, prior to any modification for accessibility.

(b) Each tractor unit which accommodates passengers and each trailer unit shall comply with §38.25 and §38.29 of this part. In addition, each such unit shall comply with §38.23 (b) or (c) and shall provide at least one space for wheelchair or mobility aid users complying with §38.23(d) of this part unless the complete operating unit consisting of tractor and one or more trailers can already accommodate at least two wheelchair or mobility aid users.

APPENDIX TO PART 38—GUIDANCE MATERIAL

This appendix contains materials of an advisory nature and provides additional information that should help the reader to understand the minimum requirements of the standards or to design vehicles for greater accessibility. Each entry is applicable to all subparts of this part except where noted. Nothing in this appendix shall in any way obviate any obligation to comply with the requirements of the standards themselves.

I. SLIP RESISTANT SURFACE—AISLES, STEPS, FLOOR AREAS WHERE PEOPLE WALK, FLOOR AREAS IN SECUREMENT LOCATIONS, LIFT PLATFORMS, RAMPS

Slip resistance is based on the frictional force necessary to keep a shoe heel or crutch tip from slipping on a walking surface under conditions likely to be found on the surface. While the dynamic coefficient of friction during walking varies in a complex and non-uniform way, the static coefficient of friction, which can be measured in several ways,
Office of the Secretary of Transportation

Pt. 38, App.

IV. Priority Seating Signs and Other Signage

A. Finish and Contrast. The characters and background of signs should be eggshell, matte, or other non-glare finish. An eggshell finish (11 to 19 degree gloss on 60 degree glossmeter) is recommended. Characters and symbols shall contrast with their background—either light characters on a dark background or dark characters on a light background. Research indicates that signs are more legible for persons with low vision when characters contrast with their background by at least 70 percent. Contrast in percent shall be determined by:

\[ \text{Contrast} = \left( \frac{B - B'}{B} \right) \times 100 \]

Where \( B \) = light reflectance value (LRV) of the lighter area and \( B' \) = light reflectance value (LRV) of the darker area.

Note that in any application both white and black are never absolute; thus, \( B \) never equals 100 and \( B' \) is always greater than 0.

The greatest readability is usually achieved through the use of light-colored characters or symbols on a dark background.

B. Destination and Route Signs. (The following specifications, which are required for buses (§38.39), are recommended for other types of vehicles, particularly light rail vehicles, when appropriate.)

1. Where destination or route information is displayed on the exterior of a vehicle, each vehicle shall have illuminated signs on the front and boarding side of the vehicle.

2. Characters on signs required by paragraph IV.B.1 of this appendix shall have a width-to-height ratio between 3:5 and 1:1 and a stroke width-to-height ratio between 1:5 and 1:3, with a minimum character height (using an upper case "X") of 1 inch for signs on the boarding side and a minimum character height of 2 inches for front "headsigns," with "wide" spacing (generally, the space between letters shall be \( \frac{1}{3} \) the height of upper case letters), and shall contrast with the background, either dark-on-light or light-on-dark, or as recommended above.

C. Designation of Accessible Vehicles. The International Symbol of Accessibility should be displayed as shown in Figure 6.

V. Public Information Systems

This section has been reserved and there currently is no requirement that vehicles be equipped with an information system which is capable of providing the same or equivalent information to persons with hearing loss. While the Department assesses available and soon-to-be available technology during a study to be conducted during Fiscal Year 1992, entities are encouraged to employ whatever services, signage or alternative systems or devices that provide equivalent access and are available. Two possible types...
of devices are visual display systems and listening systems. However, it should be noted that while visual display systems accommodate persons who are deaf or are hearing impaired, assistive listening systems did only those with a partial loss of hearing.

A. Visual Display Systems. Announcements may be provided in a visual format by the use of electronic message boards or video monitors.

Electronic message boards using a light emitting diode (LED) or “flip-dot” display are currently provided in some transit stations and terminals and may be usable in vehicles. These devices may be used to provide real-time or pre-programmed messages; however, real-time message displays require the availability of an employee for keyboard entry of the information to be announced.

Video monitor systems, such as visual paging systems provided in some airports (e.g., Baltimore-Washington International Airport), are another alternative. The Architectural and Transportation Barriers Compliance Board (Access Board) can provide technical assistance and information on these systems (“Airport TDD Access: Two Case Studies,” 1990).

B. Assistive Listening Systems. Assistive listening systems (ALS) are intended to augment standard public address and audio systems by providing signals which can be received directly by persons with special receivers or their own hearing aids and which eliminate or filter background noise. Magnetic induction loops, infra-red and radio frequency systems are types of listening systems which are appropriate for various applications.

An assistive listening system appropriate for transit vehicles, where a group of persons or where the specific individuals are not known in advance, may be different from the system appropriate for a particular individual provided as an auxiliary aid or as part of a reasonable accommodation. The appropriate device for an individual is the type that individual can use, whereas the appropriate system for a station or vehicle will necessarily be geared toward the “average” or aggregate needs of various individuals. Earphone jacks with variable volume controls can benefit only people who have slight hearing loss and do not help people who use hearing aids. At the present time, magnetic induction loops are the most feasible type of listening system for people who use hearing aids equipped with “T-coils”, but people without hearing aids or those with hearing aids not equipped with inductive pick-ups cannot use them without special receivers. Radio frequency systems can be extremely effective and inexpensive. People without hearing aids can use them, but people with hearing aids need a special receiver to use them as they are presently designed. If hearing aids had a jack to allow a by-pass of microphones, then radio frequency systems would be suitable for people with and without hearing aids. Some listening systems may be subject to interference from other equipment and feedback from hearing aids of people who are using the systems. Such interference can be controlled by careful engineering design that anticipates feedback sources in the surrounding area.

The Architectural and Transportation Barriers Compliance Board (Access Board) has published a pamphlet on Assistive Listening Systems which lists demonstration centers across the country where technical assistance can be obtained in selecting and installing appropriate systems. The State of New York has also adopted a detailed technical specification which may be useful.

VI. Over-the-Road Buses

A. Door Width. Achieving a 30 inch wide front door on an over-the-road bus is considered not feasible if doing so would necessitate reduction of the bus approach angle, relocating the front axle rearward, or increasing the bus overall length.

B. Restrooms. The following is provided to assist manufacturers and designers to create restrooms which can be used by people with disabilities. These specifications are derived from requirements for rail vehicles and represent compromises between space needed for use and constraints imposed by vehicle dimensions. As a result, some persons with disabilities cannot use a restroom which meets these specifications and operators who do provide such restrooms should provide passengers with disabilities sufficient advance information about design so that those passengers can assess their ability to use them. Designers should provide additional space beyond these minimum specifications whenever possible.

1) If an accessible restroom is provided, it should be designed so as to allow a person using a wheelchair or mobility aid to enter and use such restroom as specified in paragraphs (1)(a) through (e) of section VI.B of this appendix.

(a) The minimum clear floor area should be 35 inches (890 mm) by 60 inches (1525 mm). Permanently installed fixtures may overlap this area a maximum of 6 inches (150 mm), if the lowest portion of the fixture is a minimum of 9 inches (230 mm) above the floor, and may overlap a maximum of 19 inches (485 mm), if the lowest portion of the fixture is a minimum of 29 inches (740 mm) above the floor, provided such fixtures do not interfere with access to the water closet. Fold-down or retractable seats or shelves may overlap the clear floor space at a lower height provided they can be easily folded up or moved out of the way.

(b) The height of the water closet should be 17 inches (430 mm) to 19 inches (485 mm) measured to the top of the toilet seat.
should not be sprung to return to a lifted position.

(c) A grab bar at least 24 inches (610 mm) long should be mounted behind the water closet, and a horizontal grab bar at least 40 inches (1015 mm) long should be mounted on at least one side wall, with one end not more than 12 inches (305 mm) from the back wall, at a height between 33 inches (840 mm) and 36 inches (915 mm) above the floor.

(d) Faucets and flush controls should be operable with one hand and should not require tight grasping, pinching, or twisting of the wrist. The force required to activate controls should be no greater than 5 lbs (22.2 N). Controls for flush valves should be mounted no more than 44 inches (1120 mm) above the floor.

(e) Doorways on the end of the enclosure, opposite the water closet, should have a minimum clear opening width of 32 inches (815 mm). Door latches and hardware should be operable with one hand and should not require tight grasping, pinching, or twisting of the wrist.

(2) Accessible restrooms should be in close proximity to at least one seating location for persons using mobility aids and should be connected to such a space by an unobstructed path having a minimum width of 32 inches (815 mm).

C. Visibility Through a Window. Care should be taken so that the lift does not obscure the vision of the person occupying the securement position.

[56 FR 45756, Sept. 6, 1991, as amended at 63 FR 51702, 51703, Sept. 28, 1998]

EFFECTIVE DATE NOTE: At 63 FR 51702, 51703, Sept. 28, 1998, the appendix to part 38 was amended by adding a new section VI, effective Oct. 28, 1998.

PART 40—PROCEDURES FOR TRANSPORTATION WORKPLACE DRUG TESTING PROGRAMS

Sec.

Subpart A—General

40.1 Applicability.
40.3 Definitions.
40.5–40.19 [Reserved]

Subpart B—Drug Testing

40.21 The drugs.
40.23 Preparation for testing.
40.25 Specimen collection procedures.
40.27 Laboratory personnel.
40.29 Laboratory analysis procedures.
40.31 Quality assurance and quality control.
40.33 Reporting and review of results.
40.35 Protection of employee records.
40.37 Individual access to test and laboratory certification results.
40.39 Use of certified laboratories.

Subpart C—Alcohol Testing

40.51 The breath alcohol technician.
40.53 Devices to be used for breath alcohol tests.
40.55 Quality assurance plans for EBTs.
40.57 Locations for breath alcohol testing.
40.59 The breath alcohol testing form.
40.61 Preparation for breath alcohol testing.
40.63 Procedures for screening tests.
40.65 Procedures for confirmation tests.
40.67 Refusals to test and uncompleted tests.
40.69 Inability to provide an adequate amount of breath.
40.71–40.77 [Reserved]
40.79 Invalid tests.
40.81 Availability and disclosure of alcohol testing information about individual employees.
40.83 Maintenance and disclosure of records concerning EBTs and BATs.

Subpart D—Non-Evidential Alcohol Screening Devices

40.91 Authorization for use of non-evidential alcohol screening devices.
40.93 The screening test technician.
40.95 Quality assurance plans for non-evidential screening devices.
40.97 Locations for non-evidential alcohol screening tests.
40.99 Testing forms.
40.101 Screening test procedure.
40.103 Refusals to test and uncompleted tests.
40.105 Inability to provide an adequate amount of breath or saliva.
40.107 Invalid tests.
40.109 Availability and disclosure of alcohol testing information about individual employees.
40.111 Maintenance and disclosure of records concerning non-evidential testing devices and STTs.

APPENDIX A TO PART 40—FEDERAL DRUG TESTING CUSTODY AND CONTROL FORM

APPENDIX B TO PART 40—THE BREATH ALCOHOL TESTING FORM

AUTHORITY: 49 U.S.C. 102, 301, 322, 5331, 20140, 31306, 45101–45106.

SOURCE: 54 FR 49866, Dec. 1, 1989, unless otherwise noted.

Subpart A—General

SOURCE: 59 FR 7354, Feb. 15, 1994, unless otherwise noted.
§ 40.1 Applicability.
This part applies, through regulations that reference it issued by agencies of the Department of Transportation, to transportation employers, including self-employed individuals, required to conduct drug and/or alcohol testing programs by DOT agency regulations and to such transportation employers' officers, employees, agents and contractors (including, but not limited to, consortia). Employers are responsible for the compliance of their officers, employees, agents, consortia and/or contractors with the requirements of this part.

§ 40.3 Definitions.
The following definitions apply to this part:
Air blank. A reading by an EBT of ambient air containing no alcohol. (In EBTs using gas chromatography technology, a reading of the device's internal standard.)
Alcohol. The intoxicating agent in beverage alcohol, ethyl alcohol or other low molecular weight alcohols including methyl or isopropyl alcohol.
Alcohol concentration. The alcohol in a volume of breath expressed in terms of grams of alcohol per 210 liters of breath as indicated by a breath test under this part.
Alcohol use. The consumption of any beverage, mixture or preparation, including any medication, containing alcohol.
Aliquot. A portion of a specimen used for testing.
Blind sample or blind performance test specimen. A urine specimen submitted to a laboratory for quality control testing purposes, with a fictitious identifier, so that the laboratory cannot distinguish it from employee specimens, and which is spiked with known quantities of specific drugs or which is blank, containing no drugs.
Breath Alcohol Technician (BAT). An individual who instructs and assists individuals in the alcohol testing process and operates an EBT.
Canceled or invalid test. In drug testing, a drug test that has been declared invalid by a Medical Review Officer. A canceled test is neither a positive nor a negative test. For purposes of this part, a sample that has been rejected for testing by a laboratory is treated the same as a canceled test. In alcohol testing, a test that is deemed to be invalid under §40.79. It is neither a positive nor a negative test.
Chain of custody. Procedures to account for the integrity of each urine or blood specimen by tracking its handling and storage from point of specimen collection to final disposition of the specimen. With respect to drug testing, these procedures shall require that an appropriate drug testing custody form (see §40.23(a)) be used from time of collection to receipt by the laboratory and that upon receipt by the laboratory an appropriate laboratory chain of custody form(s) account(s) for the sample or sample aliquots within the laboratory.
Collection container. A container into which the employee urinates to provide the urine sample used for a drug test.
Collection site. A place designated by the employer where individuals present themselves for the purpose of providing a specimen of their urine to be analyzed for the presence of drugs.
Collection site person. A person who instructs and assists individuals at a collection site and who receives and makes a screening examination of the urine specimen provided by those individuals.
Confirmation (or confirmatory) test. In drug testing, a second analytical procedure to identify the presence of a specific drug or metabolite that is independent of the screening test and that uses a different technique and chemical principle from that of the screening test in order to ensure reliability and accuracy. (Gas chromatography/mass spectrometry (GC/MS) is the only authorized confirmation method for cocaine, marijuana, opiates, amphetamines, and phencyclidine.) In alcohol testing, a second test, following a screening test with a result of 0.02 or greater, that provides quantitative data of alcohol concentration.
DHHS. The Department of Health and Human Services or any designee of the Secretary, Department of Health and Human Services.
DOT agency. An agency of the United States Department of Transportation administering regulations related to drug or alcohol testing, including the
§ 40.21 The drugs.

(a) DOT agency drug testing programs require that employers test for marijuana, cocaine, opiates, amphetamines and phencyclidine.

(b) An employer may include in its testing protocols other controlled substances or alcohol only pursuant to a DOT agency approval, if testing for those substances is authorized under agency regulations and if the DHHS has established an approved testing protocol and positive threshold for each such substance.

(c) Urine specimens collected under DOT agency regulations requiring compliance with this part may only be used to test for controlled substances designated or approved for testing as described in this section and shall not be used to conduct any other analysis or test unless otherwise specifically authorized by DOT agency regulations.
§ 40.23 Preparation for testing.

The employer and certified laboratory shall develop and maintain a clear and well-documented procedure for collection, shipment, and accessioning of urine specimens under this part. Such a procedure shall include, at a minimum, the following:

(a)(1) Except as provided in paragraph (a)(2) of this section, use of the drug testing form prescribed under this part.

(i) This form is found in appendix A to this part.

(ii) Employers and other participants in the DOT drug testing program may not modify or revise this form, except that the drug testing custody and control form may include such additional information as may be required for billing or other legitimate purposes necessary to the collection, provided that personal identifying information on the donor (other than the social security number or other employee ID number) may not be provided to the laboratory.

(iii) Donor medical information may appear only on the copy provided the donor.

(b)(1) Use of a clean, single-use specimen bottle that is securely wrapped until filled with the specimen. A clean, single-use collection container (e.g., disposable cup or sterile urinal) that is securely wrapped until used may also be employed. If urination is directly into the specimen bottle, the specimen bottle shall be provided to the employee still sealed in its wrapper or shall be unwrapped in the employee's presence immediately prior to its being provided; and the collection site person shall unwrap the specimen bottle in the presence of the employee at the time the urine specimen is presented.

(2) Use of a tamperproof sealing system, designed in a manner such to ensure against undetected opening. The specimen bottle shall be identified with a unique identifying number identical to that appearing on the urine custody and control form, and space shall be provided to initial the bottle affirming its identity. For purposes of clarity, this part assumes use of a system made up of one or more preprinted labels and seals (or a unitary label/seal), but use of other, equally effective technologies is authorized.

(c) Use of a shipping container in which the specimen and associated paperwork may be transferred and which can be sealed and initialled to prevent undetected tampering. If the split specimen option is exercised, the split specimen and associated paperwork shall be sealed in a shipping (or storage) container and initialled to prevent undetected tampering.

(d) Written procedures, instructions and training shall be provided as follows:

(1) Employer collection procedures and training shall clearly emphasize that the collection site person is responsible for maintaining the integrity of the specimen collection and transfer process, carefully ensuring the modesty and privacy of the donor, and is to avoid any conduct or remarks that might be construed as accusatorial or otherwise offensive or inappropriate.

(2) A collection site person shall have successfully completed training to carry out this function or shall be a licensed medical professional or technician who is provided instructions for collection under this part and certifies completion as required in this part.

(i) A non-medical collection site person shall receive training in compliance with this part and shall demonstrate proficiency in the application
§ 40.25 Specimen collection procedures.

(a) Designation of collection site. (1) Each employer drug testing program shall have one or more designated collection sites which have all necessary personnel, materials, equipment, facilities and supervision to provide for the collection, security, temporary storage, and shipping or transportation of urine specimens to a certified drug testing laboratory. An independent medical facility may also be utilized as a collection site provided the other applicable requirements of this part are met.

(2) A designated collection site may be any suitable location where a specimen can be collected under conditions set forth in this part, including a properly equipped mobile facility. A designated collection site shall be a location having an enclosure within which private urination can occur, a toilet for completion of urination (unless a single-use collector is used with sufficient capacity to contain the void), and a suitable clean surface for writing. The site must also have a source of water for washing hands, which, if practicable, should be external to the enclosure where urination occurs.

(b) Security. The purpose of this paragraph is to prevent unauthorized access which could compromise the integrity of the collection process or the specimen.

(1) Procedures shall provide for the designated collection site to be secure. If a collection site facility is dedicated solely to urine collection, it shall be secure at all times. If a facility cannot be dedicated solely to drug testing, the portion of the facility used for testing shall be secured during drug testing.

(2) A facility normally used for other purposes, such as a public rest room or hospital examining room, may be secured by visual inspection to ensure other persons are not present and undetected access (e.g., through a rear door not in the view of the collection site person) is not possible. Security during collection may be maintained by effective restriction of access to collection materials and specimens. In the case of a public rest room, the facility must be posted against access during the entire collection procedure to avoid embarrassment to the employee or distraction of the collection site person.

(3) If it is impractical to maintain continuous physical security of a collection site from the time the specimen is presented until the sealed mailer is transferred for shipment, the following minimum procedures shall apply. The specimen shall remain under the direct control of the collection site person from delivery to its being sealed in the mailer. The mailer shall be immediately mailed, maintained in secure storage, or remain until mailed under

[54 FR 48666, Dec. 1, 1989, as amended at 60 FR 19536, Apr. 19, 1995]
§ 40.25 49 CFR Subtitle A (10-1-98 Edition)

the personal control of the collection site person.

(c) Chain of custody. The chain of custody block of the drug testing custody and control form shall be properly executed by authorized collection site personnel upon receipt of specimens. Handling and transportation of urine specimens from one authorized individual or place to another shall always be accomplished through chain of custody procedures. Since specimens and documentation are sealed in shipping containers that would indicate any tampering during transit to the laboratory and couriers, express carriers, and postal service personnel do not have access to the chain of custody forms, there is no requirement that such personnel document chain of custody for the shipping container during transit. Nor is there a requirement that there be a chain of custody entry when a specimen which is sealed in such a shipping container is put into or taken out of secure storage at the collection site prior to pickup by such personnel. This means that the chain of custody is not broken, and a test shall not be canceled, because couriers, express carriers, and similar persons involved solely with the transportation of a specimen to a laboratory, have not documented their participation in the chain of custody documentation or because the chain of custody does not contain entries related to putting the specimen into or removing it from secure temporary storage at the collection site. Every effort shall be made to minimize the number of persons handling specimens.

(d) Access to authorized personnel only. No unauthorized personnel shall be permitted in any part of the designated collection site where urine specimens are collected or stored. Only the collection site person may handle specimens prior to their securement in the mailing container or monitor or observe specimen collection (under the conditions specified in this part). In order to promote security of specimens, avoid distraction of the collection site person and ensure against any confusion in the identification of specimens, the collection site person shall have only one donor under his or her supervision at any time. For this purpose, a collection procedure is complete when the urine bottle has been sealed and initialed, the drug testing custody and control form has been executed, and the employee has departed the site (or, in the case of an employee who was unable to provide a complete specimen, has entered a waiting area).

(e) Privacy. (1) Procedures for collecting urine specimens shall allow individual privacy unless there is a reason to believe that a particular individual may alter or substitute the specimen to be provided, as further described in this paragraph.

(2) For purposes of this part, the following circumstances are the exclusive grounds constituting a reason to believe that the individual may alter or substitute the specimen:

(i) The employee has presented a urine specimen that falls outside the normal temperature range (32°–38° C/90°–100° F), and

(A) The employee declines to provide a measurement of body temperature (taken by a means other than use of a rectal thermometer), as provided in paragraph (f)(14) of the part; or

(B) Body temperature varies by more than 1°C/1.8°F from the temperature of the specimen;

(ii) The last urine specimen provided by the employee (i.e., on a previous occasion) was determined by the laboratory to have a specific gravity of less than 1.003 and a creatinine concentration below .2g/L;

(iii) The collection site person observes conduct clearly and unequivocally indicating an attempt to substitute or adulterate the sample (e.g., substitute urine in plain view, blue dye in specimen presented, etc.); or

(iv) The employee has previously been determined to have used a controlled substance without medical authorization and the particular test was being conducted under a DOT agency regulation providing for follow-up testing upon or after return to service.

(3) A higher-level supervisor of the collection site person, or a designated employer representative, shall review and concur in advance with any decision by a collection site person to obtain a specimen under the direct observation of a same gender collection site person based upon the circumstances...
(f) Integrity and identity of specimen. Employers shall take precautions to ensure that a urine specimen is not adulterated or diluted during the collection procedure and that information on the urine bottle and on the urine custody and control form can identify the individual from whom the specimen was collected. The following minimum precautions shall be taken to ensure that unadulterated specimens are obtained and correctly identified:

(1) To deter the dilution of specimens at the collection site, toilet bluing agents shall be placed in toilet tanks wherever possible, so the reservoir of water in the toilet bowl always remains blue. Where practicable, there shall be no other source of water (e.g., shower or sink) in the enclosure where urination occurs. If there is another source of water in the enclosure it shall be effectively secured or monitored to ensure it is not used as a source for diluting the specimen.

(2) When an individual arrives at the collection site, the collection site person shall ensure that the individual is positively identified as the employee selected for testing (e.g., through presentation of photo identification or identification by the employer’s representative). If the individual’s identity cannot be established, the collection site person shall not proceed with the collection. If the employee requests, the collection site person shall show his/her identification to the employee.

(3) If the individual fails to arrive at the assigned time, the collection site person shall contact the appropriate authority to obtain guidance on the action to be taken.

(4) The collection site person shall ask the individual to remove any unnecessary outer garments such as a coat or jacket that might conceal items or substances that could be used to tamper with or adulterate the individual’s urine specimen. The collection site person shall ensure that all personal belongings such as a purse or briefcase remain with the outer garments. The individual may retain his or her wallet. If the employee requests it, the collection site personnel shall provide the employee a receipt for any personal belongings.

(5) The individual shall be instructed to wash and dry his or her hands prior to urination.

(6) After washing hands, the individual shall remain in the presence of the collection site person and shall not have access to any water fountain, faucet, soap dispenser, cleaning agent or any other materials which could be used to adulterate the specimen.

(7) The individual may provide his/her specimen in the privacy of a stall or otherwise partitioned area that allows for individual privacy. The collection site person shall provide the individual with a specimen bottle or collection container, if applicable, for this purpose.

(8) The collection site person shall note any unusual behavior or appearance on the urine custody and control form.

(9) In the exceptional event that an employer-designated collection site is not accessible and there is an immediate requirement for specimen collection (e.g., circumstances require a post-accident test), a public rest room may be used according to the following procedures: A collection site person of the same gender as the individual shall accompany the individual into the public rest room which shall be made secure during the collection procedure. If possible, a toilet bluing agent shall be placed in the bowl and any accessible toilet tank. The collection site person shall remain in the rest room, but outside the stall, until the specimen is collected. If no bluing agent is available to deter specimen dilution, the collection site person shall instruct the individual not to flush the toilet until the specimen is delivered to the collection site person. After the collection site person has possession of the specimen, the individual will be instructed to flush the toilet and to participate with the collection site person in completing the chain of custody procedures.

(10) The collection site person shall instruct the employee to provide at least 45 ml of urine under the split sample method of collection or 30 ml of urine under the single sample method of collection.
(i)(A) Employers with employees subject to drug testing only under the drug testing rules of the Research and Special Programs Administration and/or Coast Guard may use the “split sample” method of collection or may collect a single sample for those employees.

(B) Employers with employees subject to drug testing under the drug testing rules of the Federal Highway Administration, Federal Railroad Administration, Federal Transit Administration, or Federal Aviation Administration shall use the “split sample” method of collection for those employees.

(ii) Employers using the split sample method of collection shall follow the procedures in this paragraph (f)(10)(ii):

(A) The donor shall urinate into a collection container or a specimen bottle capable of holding at least 60 ml.

(B)(1) If a collection container is used, the collection site person, in the presence of the donor, pours the urine into two specimen bottles. Thirty (30) ml shall be poured into one specimen bottle, to be used as the primary specimen. At least 15 ml shall be poured into the other bottle, to be used as the split specimen.

(2) If a single specimen bottle is used as a collection container, the collection site person, in the presence of the donor, shall pour 15 ml of urine from the specimen bottle into a second specimen bottle (to be used as the split specimen) and retain the remainder (at least 30 ml) in the collection bottle (to be used as the primary specimen).

(C) Nothing in this section precludes the use of a collection method or system that does not involve the physical pouring of urine from one container or bottle to another by the collection site person, provided that the method or system results in the subdivision of the specimen into a primary (30 ml) and a split (at least 15 ml) specimen that can be transmitted to the laboratory and tested in accordance with the requirements of this Subpart.

(D) Both bottles shall be shipped in a single shipping container, together with copies 1, 2, and the split specimen copy of the chain of custody form, to the laboratory.

(E) If the test result of the primary specimen is positive, the employee may request that the MRO direct that the split specimen be tested in a different DHHS-certified laboratory for presence of the drug(s) for which a positive result was obtained in the test of the primary specimen. The MRO shall honor such a request if it is made within 72 hours of the employee having been notified of a verified positive test result.

(F) When the MRO informs the laboratory in writing that the employee has requested a test of the split specimen, the laboratory shall forward, to a different DHHS-approved laboratory, the split specimen bottle, with seal intact, a copy of the MRO request, and the split specimen copy of the chain of custody form with appropriate chain of custody entries.

(G) The result of the test of the split specimen is transmitted by the second laboratory to the MRO.

(H) Action required by DOT agency regulations as the result of a positive drug test (e.g., removal from performing a safety-sensitive function) is not stayed pending the result of the test of the split specimen.

(I) If the result of the test of the split specimen fails to reconfirm the presence of the drug(s) or drug metabolite(s) found in the primary specimen, the MRO shall cancel the test, and report the cancellation and the reasons for it to the DOT, the employer, and the employee.

(iii) Employers using the single sample collection method shall follow the procedures in paragraph:

(A) The collector may choose to direct the employee to urinate either directly into a specimen bottle or into a separate collection container.

(B) If a separate collection container is used, the collection site person shall pour at least 30 ml of the urine from the collection container into the specimen bottle in the presence of the employee.

(iv)(A)(1) In either collection methodology, upon receiving the specimen from the individual, the collection site person shall determine if the specimen has at least 30 milliliters of urine for a single specimen collection or 45 milliliters of urine for a split specimen collection.
(2) If the individual has not provided the required quantity of urine, the specimen shall be discarded. The collection site person shall direct the individual to drink up to 40 ounces of fluid, distributed reasonably through a period of up to three hours, or until the individual has provided a new urine specimen, whichever occurs first. If the employee refuses to drink fluids as directed or to provide a new urine specimen, the collection site person shall terminate the collection and notify the employer that the employee has refused to submit to testing.

(3) If the employee has not provided a sufficient specimen within three hours of the first unsuccessful attempt to provide the specimen, the collection site person shall discontinue the collection and notify the employer.

(B) The employer shall direct any employee who does not provide a sufficient urine specimen (see paragraph (f)(10)(iv)(A)(3) of this section) to obtain, as soon as possible after the attempted provision of urine, an evaluation from a licensed physician who is acceptable to the employer concerning the employee's ability to provide an adequate amount of urine.

(1) If the physician determines, in his or her reasonable medical judgment, that a medical condition has, or with a high degree of probability, could have, precluded the employee from providing an adequate amount of urine, the employee's failure to provide an adequate amount of urine shall not be deemed a refusal to take a test. For purposes of this paragraph, a medical condition includes an ascertainable physiological condition (e.g., a urinary system dysfunction) or a documented pre-existing psychological disorder, but does not include unsupported assertions of "situational anxiety" or dehydration. The physician shall provide to the MRO a brief written statement setting forth his or her conclusion and the basis for it, which shall not include detailed information on the medical condition of the employee. Upon receipt of this statement, the MRO shall report his or her conclusions to the employer in writing.

(11) After the specimen has been provided and submitted to the collection site person, the individual shall be allowed to wash his or her hands.

(12) Immediately after the specimen is collected, the collection site person shall measure the temperature of the specimen. The temperature measuring device used must accurately reflect the temperature of the specimen and not contaminate the specimen. The time from urination to temperature measure is critical and in no case shall exceed 4 minutes.

(13) A specimen temperature outside the range of 32°-38° C/90°-100° F constitutes a reason to believe that the individual has altered or substituted the specimen (see paragraph (e)(2)(i) of this section). In such cases, the individual supplying the specimen may volunteer to have his or her oral temperature taken to provide evidence to counter the reason to believe the individual may have altered or substituted the specimen.

(14) Immediately after the specimen is collected, the collection site person shall also inspect the specimen to determine its color and look for any signs of contaminants. Any unusual findings shall be noted on the urine custody and control form.

(15) All specimens suspected of being adulterated shall be forwarded to the laboratory for testing.

(16) Whenever there is reason to believe that a particular individual has altered or substituted the specimen as described in paragraph (e)(2)(i) or (iii) of this section, a second specimen shall be obtained as soon as possible under the direct observation of a same gender collection site person.

(17) Both the individual being tested and the collection site person shall
§ 40.25  49 CFR Subtitle A (10-1-98 Edition)

keep the specimen in view at all times prior to its being sealed and labeled. As provided below, the specimen shall be sealed (by placement of a tamperproof seal over the bottle cap and down the sides of the bottle) and labeled in the presence of the employee. If the specimen is transferred to a second bottle, the collection site person shall request the individual to observe the transfer of the specimen and the placement of the tamperproof seal over the bottle cap and down the sides of the bottle.

(18) The collection site person and the individual being tested shall be present at the same time during procedures outlined in paragraphs (f)(19)–(f)(22) of this section.

(19) The collection site person shall place securely on the bottle an identification label which contains the date, the individual’s specimen number, and any other identifying information provided or required by the employer. If separate from the label, the tamperproof seal shall also be applied.

(20) The individual shall initial the identification label on the specimen bottle for the purpose of certifying that it is the specimen collected from him or her.

(21) The collection site person shall enter on the drug testing custody and control form all information identifying the specimen. The collection site person shall sign the drug testing custody and control form certifying that the collection was accomplished according to the applicable Federal requirements.

(22)(i) The individual shall be asked to read and sign a statement on the drug testing custody and control form certifying that the specimen identified as having been collected from him or her is in fact the specimen he or she provided.

(ii) When specified by DOT agency regulation or required by the collection site (other than an employer site) or by the laboratory, the employee may be required to sign a consent or release form authorizing the collection of the specimen, analysis of the specimen for designated controlled substances, and release of the results to the employer. The employee may not be required to waive liability with respect to negligence on the part of any person participating in the collection, handling or analysis of the specimen or to indemnify any person for the negligence of others.

(23) The collection site person shall complete the chain of custody portion of the drug testing custody and control form to indicate receipt of the specimen from the employee and shall certify proper completion of the collection.

(24) The urine specimen and chain of custody form are now ready for shipment. If the specimen is not immediately prepared for shipment, the collection site person shall ensure that it is appropriately safeguarded during temporary storage.

(25)(i) While any part of the above chain of custody procedures is being performed, it is essential that the urine specimen and custody documents be under the control of the involved collection site person. If the involved collection site person leaves his or her work station momentarily, the collection site person shall take the specimen and drug testing custody and control form with him or her or shall secure them. After the collection site person returns to the work station, the custody process will continue. If the collection site person is leaving for an extended period of time, he or she shall package the specimen for mailing before leaving the site.

(ii) The collection site person shall not leave the collection site in the interval between presentation of the specimen by the employee and securement of the sample with an identifying label bearing the employee’s specimen identification number (shown on the urine custody and control form) and seal initialed by the employee. If it becomes necessary for the collection site person to leave the site during this interval, the collection shall be nullified and (at the election of the employer) a new collection begun.

(g) Collection control. To the maximum extent possible, collection site personnel shall keep the individual’s specimen bottle within sight both before and after the individual has urinated. After the specimen is collected, it shall be properly sealed and labeled.

(h) Transportation to laboratory. Collection site personnel shall arrange to
ship the collected specimen to the drug testing laboratory. The specimens shall be placed in shipping containers designed to minimize the possibility of damage during shipment (e.g., specimen boxes and/or padded mailers); and those containers shall be securely sealed to eliminate the possibility of undetected tampering with the specimen and/or the form. On the tape sealing the shipping container, the collection site person shall sign and enter the date specimens were sealed in the shipping container for shipment. The collection site person shall ensure that the chain of custody documentation is enclosed in each container sealed for shipment to the drug testing laboratory. Since specimens and documentation are sealed in shipping containers that would indicate any tampering during transit to the laboratory and couriers, express carriers, and postal service personnel do not have access to the chain of custody forms, there is no requirement that such personnel document chain of custody for the shipping container during transit. Nor is there a requirement that there be a chain of custody entry when a specimen which is sealed in such a shipping container is put into or taken out of secure storage at the collection site prior to pickup by such personnel. This means that the chain of custody is not broken, and a test shall not be canceled, because couriers, express carriers, postal service personnel, or similar persons involved solely with the transportation of a specimen to a laboratory, have not documented their participation in the chain of custody documentation or because the chain of custody does not contain entries related to putting the specimen into or removing it from secure temporary storage at the collection site.

(i) Failure to cooperate. If the employee refuses to cooperate with the collection process, the collection site person shall inform the employer representative and shall document the non-cooperation on the drug testing custody and control form.

(j) Employee requiring medical attention. If the sample is being collected from an employee in need of medical attention (e.g., as part of a post-accident test given in an emergency medical facility), necessary medical attention shall not be delayed in order to collect the specimen.

(k) Use of chain of custody form. A chain of custody form (and a laboratory internal chain of custody document, where applicable), shall be used for maintaining control and accountability of each specimen from the point of collection to final disposition of the specimen. The date and purpose shall be documented on the form each time a specimen is handled or transferred and every individual in the chain of custody shall be identified. Since specimens and documentation are sealed in shipping containers that would indicate any tampering during transit to the laboratory and couriers, express carriers, and postal service personnel do not have access to the chain of custody forms, there is no requirement that such personnel document chain of custody for the shipping container during transit. Nor is there a requirement that there be a chain of custody entry when a specimen which is sealed in such a shipping container is put into or taken out of secure storage at the collection site prior to pickup by such personnel. This means that the chain of custody is not broken, and a test shall not be canceled, because couriers, express carriers, postal service personnel, or similar persons involved solely with the transportation of a specimen to a laboratory, have not documented their participation in the chain of custody documentation or because the chain of custody does not contain entries related to putting the specimen into or removing it from secure temporary storage at the collection site. Every effort shall be made to minimize the number of persons handling specimens.

§ 40.27 Laboratory personnel.

(a) Day-to-day management. (1) The laboratory shall have a qualified individual to assume professional, organizational, educational, and administrative responsibility for the laboratory’s urine drug testing facility.
(2) This individual shall have documented scientific qualifications in analytical forensic toxicology. Minimum qualifications are:

(i) Certification as a laboratory director by a State in forensic or clinical laboratory toxicology; or

(ii) A Ph.D. in one of the natural sciences with an adequate undergraduate and graduate education in biology, chemistry, and pharmacology or toxicology; or

(iii) Training and experience comparable to a Ph.D. in one of the natural sciences, such as a medical or scientific degree with additional training and laboratory/research experience in biology, chemistry, and pharmacology or toxicology; and

(iv) In addition to the requirements in paragraph (a)(2)(i), (ii), or (iii) of this section, minimum qualifications also require:

(A) Appropriate experience in analytical forensic toxicology including experience with the analysis of biological material for drugs of abuse, and

(B) Appropriate training and/or experience in forensic applications of analytical toxicology, e.g., publications, court testimony, research concerning analytical toxicology of drugs of abuse, or other factors which qualify the individual as an expert witness in forensic toxicology.

(3) This individual shall be engaged in and responsible for the day-to-day management of the drug testing laboratory even where another individual has overall responsibility for an entire multi-specialty laboratory.

(4) This individual shall be responsible for ensuring that there are enough personnel with adequate training and experience to supervise and conduct the work of the drug testing laboratory. He or she shall assure the continued competency of laboratory personnel by documenting their in-service training, reviewing their work performance, and verifying their skills.

(5) This individual shall be responsible for the laboratory's having a procedure manual which is complete, up-to-date, available for personnel performing tests, and followed by those personnel. The procedure manual shall be reviewed, signed, and dated by this responsible individual whenever procedures are first placed into use or changed or when a new individual assumes responsibility for management of the drug testing laboratory. Copies of all procedures and dates on which they are in effect shall be maintained. (Specific contents of the procedure manual are described in §40.29(n)(1).)

(6) This individual shall be responsible for maintaining a quality assurance program to assure the proper performance and reporting of all test results; for maintaining acceptable analytical performance for all controls and standards; for maintaining quality control testing; and for assuring and documenting the validity, reliability, accuracy, precision, and performance characteristics of each test and test system.

(7) This individual shall be responsible for taking all remedial actions necessary to maintain satisfactory operation and performance of the laboratory in response to quality control systems not being within performance specifications, errors in result reporting or in analysis of performance testing results. This individual shall ensure that sample results are not reported until all corrective actions have been taken and he or she can assure that the tests results provided are accurate and reliable.

(b) Test validation. The laboratory's urine drug testing facility shall have a qualified individual(s) who reviews all pertinent data and quality control results in order to attest to the validity of the laboratory's test reports. A laboratory may designate more than one person to perform this function. This individual(s) may be any employee who is qualified to be responsible for day-to-day management or operation of the drug testing laboratory.

(c) Day-to-day operations and supervision of analysts. The laboratory's urine drug testing facility shall have an individual to be responsible for day-to-day operations and to supervise the technical analysts. This individual(s) shall have at least a bachelor's degree in the chemical or biological sciences or medical technology or equivalent. He or she shall have training and experience in the theory and practice of the
procedures used in the laboratory, resulting in his or her thorough understanding of quality control practices and procedures; the review, interpretation, and reporting of test results; maintenance of chain of custody; and proper remedial actions to be taken in response to test systems being out of control limits or detecting aberrant test or quality control results.

(d) Other personnel. Other technicians or nontechnical staff shall have the necessary training and skills for the tasks assigned.

(e) Training. The laboratory’s urine drug testing program shall make available continuing education programs to meet the needs of laboratory personnel.

(f) Files. Laboratory personnel files shall include: resume of training and experience, certification or license if any; references; job descriptions; records of performance evaluation and advancement; incident reports; and results of tests which establish employee competency for the position he or she holds, such as a test for color blindness, if appropriate.

§ 40.29 Laboratory analysis procedures.

(a) Security and chain of custody. (1) Drug testing laboratories shall be secure at all times. They shall have in place sufficient security measures to control access to the premises and to ensure that no unauthorized personnel handle specimens or gain access to the laboratory process or to areas where records are stored. Access to these secured areas shall be limited to specifically authorized individuals whose authorization is documented. With the exception of personnel authorized to conduct inspections on behalf of Federal agencies for which the laboratory is engaged in urine testing or on behalf of DHHS, all authorized visitors and maintenance and service personnel shall be escorted at all times. Documentation of individuals accessing these areas, dates, and time of entry and purpose of entry must be maintained.

(2) Laboratories shall use chain of custody procedures to maintain control and accountability of specimens from receipt through completion of testing, reporting of results during storage, and continuing until final disposition of specimens. The date and purpose shall be documented on an appropriate chain of custody form each time a specimen is handled or transferred and every individual in the chain shall be identified. Accordingly, authorized technicians shall be responsible for each urine specimen or aliquot in their possession and shall sign and complete chain of custody forms for those specimens or aliquots as they are received.

(b) Receiving. (i) When a shipment of specimens is received, laboratory personnel shall inspect each package for evidence of possible tampering and compare information on specimen bottles within each package to the information on the accompanying chain of custody forms. Any direct evidence of tampering or discrepancies in the information on specimen bottles and the employer’s chain of custody forms attached to the shipment shall be immediately reported to the employer and shall be noted on the laboratory’s chain of custody form which shall accompany the specimens while they are in the laboratory’s possession.

(ii) Where the employer has used the split sample method, and the laboratory observes that the split specimen is untestable, inadequate, or unavailable for testing, the laboratory shall nevertheless test the primary specimen. The laboratory does not inform the MRO or the employer of the untestability, inadequacy, or unavailability of the split specimen until and unless the primary specimen is a verified positive test and the MRO has informed the laboratory that the employee has requested a test of the split specimen.

(2) In situations where the employer uses the split sample collection method, the laboratory shall log in the split specimen, with the split specimen bottle seal remaining intact. The laboratory shall store this sample securely (see paragraph (c) of this section). If the result of the test of the primary specimen is negative, the laboratory may discard the split specimen. If the result of the test of the primary specimen is positive, the laboratory shall retain the split specimen in frozen storage for 60 days from the date on which the laboratory acquires it (see
paragraph (h) of this section. Following the end of the 60-day period, if not informed by the MRO that the employee has requested a test of the split specimen, the laboratory may discard the split specimen.

(3) When directed in writing by the MRO to forward the split specimen to another DHHS-certified laboratory for analysis, the second laboratory shall analyze the split specimen by GC/MS to reconfirm the presence of the drug(s) or drug metabolite(s) found in the primary specimen. Such GC/MS confirmation shall be conducted without regard to the cutoff levels of §40.29(f). The split specimen shall be retained in long-term storage for one year by the laboratory conducting the analysis of the split specimen (or longer if litigation concerning the test is pending).

(c) Short-term refrigerated storage. Specimens that do not receive an initial test within 7 days of arrival at the laboratory shall be placed in secure refrigeration units. Temperatures shall not exceed 6°C. Emergency power equipment shall be available in case of prolonged power failure.

(d) Specimen processing. Laboratory facilities for urine drug testing will normally process specimens by grouping them into batches. The number of specimens in each batch may vary significantly depending on the size of the laboratory and its workload. When conducting either initial or confirmatory tests, every batch shall contain an appropriate number of standards for calibrating the instrumentation and a minimum of 10 percent controls. Both quality control and blind performance test samples shall appear as ordinary samples to laboratory analysts.

(e) Initial test. (1) The initial test shall use an immunoassay which meets the requirements of the Food and Drug Administration for commercial distribution. The following initial cutoff levels shall be used when screening specimens to determine whether they are negative for these five drugs or classes of drugs:

<table>
<thead>
<tr>
<th>Drug/metabolite</th>
<th>Initial cutoff level (ng/ml)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Marijuana metabolites</td>
<td>50</td>
</tr>
<tr>
<td>Cocaine metabolites</td>
<td>300</td>
</tr>
<tr>
<td>Opiate metabolites</td>
<td></td>
</tr>
</tbody>
</table>

(2) These cutoff levels are subject to change by the Department of Health and Human Services as advances in technology or other considerations warrant identification of these substances at other concentrations.

(f) Confirmatory test. (1) All specimens identified as positive on the initial test shall be confirmed using gas chromatography/mass spectrometry (GC/MS) techniques at the cutoff levels listed in this paragraph for each drug. All confirmations shall be by quantitative analysis. Concentrations that exceed the linear region of the standard curve shall be documented in the laboratory record as “greater than highest standard curve value.”

<table>
<thead>
<tr>
<th>Drug/metabolite</th>
<th>Confirmatory cutoff level (ng/ml)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Marijuana metabolite 1</td>
<td>15</td>
</tr>
<tr>
<td>Cocaine metabolite 2</td>
<td>150</td>
</tr>
<tr>
<td>Opiates</td>
<td></td>
</tr>
<tr>
<td>Morphine</td>
<td>300</td>
</tr>
<tr>
<td>Codeine</td>
<td>300</td>
</tr>
<tr>
<td>Phencyclidine</td>
<td>25</td>
</tr>
<tr>
<td>Amphetamines:</td>
<td></td>
</tr>
<tr>
<td>Amphetamine</td>
<td>500</td>
</tr>
<tr>
<td>Methamphetamine 1</td>
<td>500</td>
</tr>
</tbody>
</table>

(2) These cutoff levels are subject to change by the Department of Health and Human Services as advances in technology or other considerations warrant identification of these substances at other concentrations.

(g) Reporting results. (1) The laboratory shall report test results to the employer’s Medical Review Officer within an average of 5 working days after receipt of the specimen by the laboratory. Before any test result is reported (the results of initial tests, confirmatory tests, or quality control data), it shall be reviewed and the test certified as an accurate report by the responsible individual. The report shall identify the drugs/metabolites tested for, whether positive or negative, the specimen number assigned by the employer,
and the drug testing laboratory specimen identification number (accession number).

(2) The laboratory shall report as negative all specimens that are negative on the initial test or negative on the confirmatory test. Only specimens confirmed positive shall be reported positive for a specific drug.

(3) The Medical Review Officer may request from the laboratory and the laboratory shall provide quantitation of test results. The MRO shall report whether the test is positive or negative, and may report the drug(s) for which there was a positive test, but shall not disclose the quantitation of test results to the employer. Provided, that the MRO may reveal the quantitation of a positive test result to the employer, the employee, or the decision-maker in a lawsuit, grievance, or other proceeding initiated by or on behalf of the employee and arising from a verified positive drug test.

(4) The laboratory may transmit results to the Medical Review Officer by various electronic means (for example, teleprinters, facsimile, or computer) in a manner designed to ensure confidentiality of the information. Results may not be provided verbally by telephone. The laboratory and employer must ensure the security of the data transmission and limit access to any data transmission, storage, and retrieval system.

(5) The laboratory shall send only to the Medical Review Officer the original or a certified true copy of the drug testing custody and control form (part 2), which, in the case of a report positive for drug use, shall be signed (after the required certification block) by the individual responsible for day-to-day management of the drug testing laboratory or the individual responsible for attesting to the validity of the test reports, and attached to which shall be a copy of the test report.

(6) The laboratory shall provide the employer an aggregate quarterly statistical summary of urinalysis testing of the employer's employees. Laboratories may provide the report to a consortium provided that the laboratory provides employer-specific data and the consortium forwards the employer-specific data to the respective employers within 14 days of receipt of the laboratory report. The laboratory shall provide the report to the employer or consortium not more than 14 calendar days after the end of the quarter covered by the summary. Laboratory confirmation data only shall be included from test results reported within that quarter. The summary shall contain only the following information:

(i) Number of specimens received for testing;

(ii) Number of specimens confirmed positive for—
   (A) Marijuana metabolite
   (B) Cocaine metabolite
   (C) Opiates;
   (D) Phencyclidine;
   (E) Amphetamines;
   (iii) Number of specimens for which a test was not performed.

Quarterly reports shall not contain personal identifying information or other data from which it is reasonably likely that information about individuals’ tests can be readily inferred. If necessary, in order to prevent disclosure of such data, the laboratory shall not send such a report until data are sufficiently aggregated to make such an inference unlikely. In any quarter in which a report is withheld for this reason, or because no testing was conducted, the laboratory shall so inform the consortium/employer in writing.

(7) The laboratory shall make available copies of all analytical results for employer drug testing programs when requested by DOT or any DOT agency with regulatory authority over the employer.

(8) Unless otherwise instructed by the employer in writing, all records pertaining to a given urine specimen shall be retained by the drug testing laboratory for a minimum of 2 years.

(h) Long-term storage. Long-term frozen storage (−20°C or less) ensures that positive urine specimens will be available for any necessary retest during administrative or disciplinary proceedings. Drug testing laboratories shall retain and place in properly secured long-term frozen storage for a minimum of 1 year all specimens confirmed positive, in their original labeled specimen bottles. Within this 1-year period, an employer (or other person designated in a DOT agency regulation) may request
§ 40.29

the laboratory to retain the specimen for an additional period of time, but if no such request is received the laboratory may discard the specimen after the end of 1 year, except that the laboratory shall be required to maintain any specimens known to be under legal challenge for an indefinite period.

(i) Retesting specimens. Because some analytes deteriorate or are lost during freezing and/or storage, quantitation for a retest is not subject to a specific cutoff requirement but must provide data sufficient to confirm the presence of the drug or metabolite.

(j) Subcontracting. Drug testing laboratories shall not subcontract and shall perform all work with their own personnel and equipment. The laboratory must be capable of performing testing for the five classes of drugs (marijuana, cocaine, opiates, phencyclidine and amphetamines) using the initial immunoassay and confirmatory GC/MS methods specified in this part. This paragraph does not prohibit subcontracting of laboratory analysis if specimens are sent directly from the collection site to the subcontractor, the subcontractor is a laboratory certified by DHHS as required in this part, and the subcontractor is responsible to the employer for compliance with this part and applicable DOT agency regulations as if it were the prime contractor.

(k) Laboratory facilities. (1) Laboratory facilities shall comply with applicable provisions of any State licensing requirements.

(2) Laboratories certified in accordance with DHHS Guidelines shall have the capability, at the same laboratory premises, of performing initial and confirmatory tests for each drug or metabolite for which service is offered.

(l) Inspections. The Secretary, a DOT agency, any employer utilizing the laboratory, DHHS or any organization performing laboratory certification on behalf of DHHS reserves the right to inspect the laboratory at any time. Employer contracts with laboratories for drug testing, as well as contracts for collection site services, shall permit the employer and the DOT agency of jurisdiction (directly or through an agent) to conduct unannounced inspections.

(m) Documentation. The drug testing laboratories shall maintain and make available for at least 2 years documentation of all aspects of the testing process. This 2 year period may be extended upon written notification by a DOT agency or by any employer for which laboratory services are being provided. The required documentation shall include personnel files on all individuals authorized to have access to specimens; chain of custody documents; quality assurance/quality control records; procedure manuals; all test data (including calibration curves and any calculations used in determining test results); reports; performance records on performance testing; performance on certification inspections; and hard copies of computer-generated data. The laboratory shall maintain documents for any specimen known to be under legal challenge for an indefinite period.

(n) Additional requirements for certified laboratories.—(1) Procedure manual. Each laboratory shall have a procedure manual which includes the principles of each test preparation of reagents, standards and controls, calibration procedures, derivation of results, linearity of methods, sensitivity of methods, cutoff values, mechanisms for reporting results, controls criteria for unacceptable specimens and results, remedial actions to be taken when the test systems are outside of acceptable limits, reagents and expiration dates, and references. Copies of all procedures and dates on which they are in effect shall be maintained as part of the manual.

(2) Standards and controls. Laboratory standards shall be prepared with pure drug standards which are properly labeled as to content and concentration. The standards shall be labeled with the following dates: when received; when prepared or opened; when placed in service; and expiration date.

(3) Instruments and equipment. (i) Volumetric pipettes and measuring devices shall be certified for accuracy or be checked by gravimetric, colorimetric, or other verification procedure. Automatic pipettes and dilutors shall
be checked for accuracy and reproducibility before being placed in service and checked periodically thereafter.

(ii) There shall be written procedures for instrument set-up and normal operation, a schedule for checking critical operating characteristics for all instruments, tolerance limits for acceptable function checks and instructions for major trouble shooting and repair. Records shall be available on preventive maintenance.

(4) Remedial actions. There shall be written procedures for the actions to be taken when systems are out of acceptable limits or errors are detected. There shall be documentation that these procedures are followed and that all necessary corrective actions are taken. There shall also be in place systems to verify all stages of testing and reporting and documentation that these procedures are followed.

(5) Personnel available to testify at proceedings. A laboratory shall have qualified personnel available to testify in an administrative or disciplinary proceeding against an employee when that proceeding is based on positive urinalysis results reported by the laboratory.

(6) The laboratory shall not enter into any relationship with an employer's MRO that may be construed as a potential conflict of interest or derive any financial benefit by having an employer use a specific MRO.

§ 40.31 Quality assurance and quality control.

(a) General. Drug testing laboratories shall have a quality assurance program which encompasses all aspects of the testing process including but not limited to specimen acquisition, chain of custody security and reporting of results, initial and confirmatory testing and validation of analytical procedures. Quality assurance procedures shall be designed, implemented and reviewed to monitor the conduct of each step of the process of testing for drugs.

(b) Laboratory quality control requirements for initial tests. Each analytical run of specimens to be screened shall include:

(1) Urine specimens certified to contain no drug;
(2) Urine specimens fortified with known standards; and
(3) Positive controls with the drug or metabolite at or near the cutoff level.

In addition, with each batch of samples a sufficient number of standards shall be included to ensure and document the linearity of the assay method over time in the concentration area of the cutoff. After acceptable values are obtained for the known standards, those values will be used to calculate sample data. Implementation of procedures to ensure the carryover does not contaminate the testing of an individual's specimen shall be documented. A minimum of 10 percent of all test samples shall be quality control specimens. Laboratory quality control samples, prepared from spiked urine samples of determined concentration shall be included in the run and should appear as normal samples to laboratory analysts. One percent of each run, with a minimum of at least one sample, shall be the laboratory's own quality control samples.

(c) Laboratory quality control requirements for confirmation tests. Each analytical run of specimens to be confirmed shall include:

(1) Urine specimens certified to contain no drug;
(2) Urine specimens fortified with known standards; and
(3) Positive controls with the drug or metabolite at or near the cutoff level.

The linearity and precision of the method shall be periodically documented. Implementation of procedures to ensure that carryover does not contaminate the testing of an individual's specimen shall also be documented.

(d) Employer blind performance test procedures. (1) Each employer covered by DOT agency drug testing regulations shall use blind testing quality control procedures as provided in this paragraph.

(2) Each employer shall submit three blind performance test specimens for each 100 employee specimens it submits, up to a maximum of 100 blind performance test specimens submitted per quarter. A DOT agency may increase this per quarter maximum number of
§ 40.33 Reporting and review of results.

(a) Medical review officer shall review confirmed positive results. (1) An essential part of the drug testing program is the final review of confirmed positive results from the laboratory. A positive test result does not automatically identify an employee/applicant as having used drugs in violation of a DOT agency regulation. An individual with a detailed knowledge of possible alternate medical explanations is essential and the error is determined to be an administrative error (clerical, sample mixup, etc.), the employer shall promptly notify the DOT agency concerned. The DOT agency and the employer shall require the laboratory to take corrective action to minimize the occurrence of the particular error in the future, and, if there is reason to believe the error could have been systemic, the DOT agency may also require review and reanalysis of previously run specimens.

(2) Should a false positive error occur on a blind performance test specimen and the error is determined to be a technical or methodological error, the employer shall instruct the laboratory to submit all quality control data from the batch of specimens which included the false positive specimen to the DOT agency concerned. In addition, the laboratory shall retest all specimens analyzed positive for that drug or metabolite from the time of final resolution of the error back to the time of the last satisfactory performance test cycle. This retesting shall be documented by a statement signed by the individual responsible for day-to-day management of the laboratory's urine drug testing. The DOT agency concerned may require an on-site review of the laboratory which may be conducted unannounced during any hours of operation of the laboratory. Based on information provided by the DOT agency, DHHS has the option of revoking or suspending the laboratory's certification or recommending that no further action be taken if the case is one of less serious error in which corrective action has already been taken, thus reasonably assuring that the error will not occur again.
Office of the Secretary of Transportation § 40.33

to the review of results. This review shall be performed by the Medical Review Officer (MRO) prior to the transmission of the results to employer administrative officials. The MRO review shall include review of the chain of custody to ensure that it is complete and sufficient on its face.

(2) The duties of the MRO with respect to negative results are purely administrative.

(b) Medical review officer—qualifications and responsibilities.

(1) The MRO shall be a licensed physician with knowledge of substance abuse disorders and may be an employee of a transportation employer or a private physician retained for this purpose.

(2) [Reserved]

(3) The role of the MRO is to review and interpret confirmed positive test results obtained through the employer's testing program. In carrying out this responsibility, the MRO shall examine alternate medical explanations for any positive test result. This action may include conducting a medical interview and review of the individual's medical history, or review of any other relevant biomedical factors. The MRO shall review all medical records made available by the tested individual when a confirmed positive test could have resulted from legally prescribed medication. The MRO shall not, however, consider the results or urine samples that are not obtained or processed in accordance with this part.

(c) Positive test result. (1) Prior to making a final decision to verify a positive test result for an individual, the MRO shall give the individual an opportunity to discuss the test result with him or her.

(2) The MRO shall contact the individual directly, on a confidential basis, to determine whether the employee wishes to discuss the test result. A staff person under the MRO's supervision may make the initial contact, and a medically licensed or certified staff person may gather information from the employee. Except as provided in paragraph (c)(5) of this section, the MRO shall talk directly with the employee before verifying a test as positive.

(3) If, after making all reasonable efforts and documenting them, the MRO is unable to reach the individual directly, the MRO shall contact a designated management official who shall direct the individual to contact the MRO as soon as possible. If it becomes necessary to reach the individual through the designated management official, the designated management official shall employ procedures that ensure, to the maximum extent practicable, the requirement that the employee contact the MRO is held in confidence.

(4) If, after making all reasonable efforts, the designated management official is unable to contact the employee, the employer may place the employee on temporary medically unqualified status or medical leave.

(5) The MRO may verify a test as positive without having communicated directly with the employee about the test in three circumstances:

(i) The employee expressly declines the opportunity to discuss the test;

(ii) Neither the MRO nor the designated employer representative, after making all reasonable efforts, has been able to contact the employee within 14 days of the date on which the MRO receives the confirmed positive test result from the laboratory;

(iii) The designated employer representative has successfully made and documented a contact with the employee and instructed the employee to contact the MRO (see paragraphs (c)(3) and (c)(4) of this section), and more than five days have passed since the date the employee was successfully contacted by the designated employer representative.

(6) If a test is verified positive under the circumstances specified in paragraph (c)(5) (ii) or (iii) of this section, the employee may present to the MRO information documenting that serious illness, injury, or other circumstances unavoidably prevented the employee from being contacted by the MRO or designated employer representative (paragraph (c)(5)(ii) of this section) or from contacting the MRO (paragraph (c)(5)(iii) of this section) within the times provided. The MRO, on the basis of such information, may reopen the verification, allowing the employee to present information concerning a legitimate explanation for the confirmed
§ 40.33

(7) Following verification of a positive test result, the MRO shall, as provided in the employer’s policy, refer the case to the employer’s employee assistance or rehabilitation program, if applicable, to the management official empowered to recommend or take administrative action (or the official’s designated agent), or both. (d) Verification for opiates; review for prescription medication. Before the MRO verifies a confirmed positive result for opiates, he or she shall determine that there is clinical evidence—in addition to the urine test—of unauthorized use of any opium, opiate, or opium derivative (e.g., morphine/codeine). (This requirement does not apply if the employer’s GC/MS confirmation testing for opiates confirms the presence of 6-monoacetylmorphine.)

(e) In a situation in which the employer has used the single sample method of collection, the MRO shall notify each employee who has a confirmed positive test that the employee has 72 hours in which to request a reanalysis of the original specimen, if the test is verified positive. If requested to do so by the employee within 72 hours of the employee’s having been informed of a verified positive test, the Medical Review Officer shall direct, in writing, a reanalysis of the original sample. The MRO may also direct, in writing, such a reanalysis if the MRO questions the accuracy or validity of any test result. Only the MRO may authorize such a reanalysis, and such a reanalysis may take place only at laboratories certified by DHHS. If the reanalysis fails to reconfirm the presence of the drug or drug metabolite, the MRO shall cancel the test and report the cancellation and the reasons for it to the DOT, the employer, and the employee.

(f)(1) In situations in which the employer uses the split sample method of collection, the MRO shall notify each employee who has a confirmed positive test that the employee has 72 hours in which to request a test of the split specimen, if the test is verified as positive. If the employee requests an analysis of the split specimen within 72 hours of having been informed of a verified positive test, the MRO shall direct, in writing, the laboratory to provide the split specimen to another DHHS-certified laboratory for analysis. If the analysis of the split specimen fails to reconfirm the presence of the drug(s) or drug metabolite(s) found in the primary specimen, or if the split specimen is unavailable, inadequate for testing or untestable, the MRO shall cancel the test and report cancellation and the reasons for it to the DOT, the employer, and the employee.

(2) If the analysis of the split specimen is reconfirmed by the second laboratory for the presence of the drug(s) or drug metabolite(s), the MRO shall notify the employer and employee of the results of the test.

(2) If the analysis of the split specimen is reconfirmed by the second laboratory for the presence of the drug(s) or drug metabolite(s), the MRO shall notify the employer and employee of the results of the test.

(g) If an employee has not contacted the MRO within 72 hours, as provided in paragraphs (e) and (f) of this section, the employee may present to the MRO information documenting that serious illness, injury, inability to contact the MRO, lack of actual notice of the verified positive test, or other circumstances unavoidably prevented the employee from timely contacting the MRO. If the MRO concludes that there is a legitimate explanation for the employee’s failure to contact the MRO within 72 hours, the MRO shall direct that the reanalysis of the primary specimen or analysis of the split specimen, as applicable, be performed.

(h) When the employer uses the split sample method of collection, the employee is not authorized to request a reanalysis of the primary specimen as provided in paragraph (e) of this section.

(i) Disclosure of information. Except as provided in this paragraph, the MRO shall not disclose to any third party medical information provided by the individual to the MRO as a part of the testing verification process.

(1) The MRO may disclose such information to the employer, a DOT agency or other Federal safety agency, or a physician responsible for determining the medical qualification of the employee under an applicable DOT agency regulation, as applicable, only if—

(i) An applicable DOT regulation permits or requires such disclosure;
(ii) In the MRO’s reasonable medical judgment, the information could result in the employee being determined to be medically unqualified under an applicable DOT agency rule; or

(iii) In the MRO’s reasonable medical judgment, in a situation in which there is no DOT agency rule establishing physical qualification standards applicable to the employee, the information indicates that continued performance by the employee of his or her safety-sensitive function could pose a significant safety risk.

(2) Before obtaining medical information from the employee as part of the verification process, the MRO shall inform the employee that information may be disclosed to third parties as provided in this paragraph and the identity of any parties to whom information may be disclosed.

§ 40.35 Protection of employee records.

Employer contracts with laboratories shall require that the laboratory maintain employee test records in confidence, as provided in DOT agency regulations. The contracts shall provide that the laboratory shall disclose information related to a positive drug test of an individual to the individual, the employer, or the decisionmaker in a lawsuit, grievance, or other proceeding initiated by or on behalf of the individual and arising from a certified positive drug test.

§ 40.37 Individual access to test and laboratory certification results.

Any employee who is the subject of a drug test conducted under this part shall, upon written request, have access to any records relating to his or her drug test and any records relating to the results of any relevant certification, review, or revocation-of-certification proceedings.

§ 40.39 Use of certified laboratories.

(a) Except as provided in paragraph (b) of this section, employers subject to this part shall use only laboratories certified under the DHHS “Mandatory Guidelines for Federal Workplace Drug Testing Programs,” April 11, 1988, and subsequent amendments thereto.

(b) Employers subject to this part may also use laboratories located outside the United States if—

(1) The Department of Transportation, based on a written recommendation from DHHS, has certified the laboratory as meeting DHHS laboratory certification standards or deemed the laboratory fully equivalent to a laboratory meeting DHHS laboratory certification standards; or

(2) The Department of Transportation, based on a written recommendation from DHHS, has recognized a foreign certifying organization as having equivalent laboratory certification standards and procedures to those of DHHS, and the foreign certifying organization has certified the laboratory, pursuant to those equivalent standards and procedures.

[61 FR 37016, July 16, 1996]

Subpart C—Alcohol Testing

§ 40.51 The breath alcohol technician.

(a) The breath alcohol technician (BAT) shall be trained to proficiency in the operation of the EBT he or she is using and in the alcohol testing procedures of this part.

(1) Proficiency shall be demonstrated by successful completion of a course of instruction which, at a minimum, provides training in the principles of EBT methodology, operation, and calibration checks; the fundamentals of breath analysis for alcohol content; and the procedures required in this part for obtaining a breath sample, and interpreting and recording EBT results.

(2) Only courses of instruction for operation of EBTs that are equivalent to the Department of Transportation model course, as determined by the National Highway Traffic Safety Administration (NHTSA), may be used to train BATs to proficiency. On request, NHTSA will review a BAT instruction course for equivalency.

(3) The course of instruction shall provide documentation that the BAT
§ 40.53 Devices to be used for breath alcohol tests.

(a) For screening tests, employers shall use only EBTs. When the employer uses for a screening test an EBT that does not meet the requirements of paragraphs (b) (1) through (3) of this section, the employer shall use a log book in conjunction with the EBT (see §40.59(c)).

(b) For confirmation tests, employers shall use EBTs that meet the following requirements:

(1) EBTs shall have the capability of providing, independently or by direct link to a separate printer, a printed result in triplicate (or three consecutive identical copies) of each breath test and of the operations specified in paragraphs (b) (2) and (3) of this section.

(2) EBTs shall be capable of assigning a unique and sequential number to each completed test, with the number capable of being read by the BAT and the employee before each test and being printed out on each copy of the result.

(3) EBTs shall be capable of printing out, on each copy of the result, the manufacturer's name for the device, the device's serial number, and the time of the test.

(4) EBTs shall be able to distinguish alcohol from acetone at the 0.02 alcohol concentration level.

(5) EBTs shall be capable of the following operations:

(i) Testing an air blank prior to each collection of breath; and

(ii) Performing an external calibration check.

§ 40.55 Quality assurance plans for EBTs.

(a) In order to be used in either screening or confirmation alcohol testing subject to this part, an EBT shall have a quality assurance plan (QAP) developed by the manufacturer.

(1) The plan shall designate the method or methods to be used to perform external calibration checks of the device, using only calibration devices on the NHTSA “Conforming Products List of Calibrating Units for Breath Alcohol Tests.”

(2) The plan shall specify the minimum intervals for performing external calibration checks of the device. Intervals shall be specified for different frequencies of use, environmental conditions (e.g., temperature, altitude, humidity), and contexts of operation (e.g., stationary or mobile use).

(3) The plan shall specify the tolerances on an external calibration check within which the EBT is regarded to be in proper calibration.

(4) The plan shall specify inspection, maintenance, and calibration requirements and intervals for the device.
§ 40.61 Preparation for breath alcohol testing.

(a) When the employee enters the alcohol testing location, the BAT will require him or her to provide positive identification (e.g., through use of a photo I.D. card or identification by an employer representative). On request by the employee, the BAT shall provide positive identification to the employee.

(b) The employer shall comply with the NHTSA-approved quality assurance plan for each EBT it uses for alcohol screening or confirmation testing subject to this part.

(1) The employer shall ensure that external calibration checks of each EBT are performed as provided in the QAP.

(2) The employer shall take an EBT out of service if any external calibration check results in a reading outside the tolerances for the EBT set forth in the QAP. The EBT shall not again be used for alcohol testing under this part until it has been serviced and has had an external calibration check resulting in a reading within the tolerances for the EBT.

(3) The employer shall ensure that inspection, maintenance, and calibration of each EBT are performed by the manufacturer or a maintenance representative certified by the device’s manufacturer or a state health agency or other appropriate state agency. The employer shall also ensure that each BAT or other individual who performs an external calibration check of an EBT used for alcohol testing subject to this part has demonstrated proficiency in conducting such a check of the model of EBT in question.

(4) The employer shall maintain records of the external calibration checks of EBTs as provided in §40.83.

(c) No unauthorized persons shall be permitted access to the testing location when the EBT remains unsecured or, in order to prevent such persons from seeing or hearing a testing result, at any time when testing is being conducted.

(d) In unusual circumstances (e.g., when it is essential to conduct a test outdoors at the scene of an accident), a test may be conducted at a location that does not fully meet the requirements of paragraph (a) of this section. In such a case, the employer or BAT shall provide visual and aural privacy to the employee to the greatest extent practicable.

(e) The BAT shall supervise only one employee’s use of the EBT at a time. The BAT shall not leave the alcohol testing location while the testing procedure for a given employee (see §§ 40.61 through 40.65) is in progress.

§ 40.59 The breath alcohol testing form.

(a) Each employer shall use the breath alcohol testing form prescribed under this part. The form is found in appendix A to this subpart. Employers may not modify or revise this form, except that a form directly generated by an EBT may omit the space for affixing a separate printed result to the form.

(b) The form shall provide triplicate (or three consecutive identical) copies. Copy 1 (white) shall be transmitted to the employer. Copy 2 (green) shall be provided to the employee. Copy 3 (blue) shall be retained by the BAT. Except for a form generated by an EBT, the form shall be 8½ by 11 inches in size.

§ 40.57 Locations for breath alcohol testing.

(a) Each employer shall conduct alcohol testing in a location that affords visual and aural privacy to the individual being tested, sufficient to prevent unauthorized persons from seeing or hearing test results. All necessary equipment, personnel, and materials for breath testing shall be provided at the location where testing is conducted.

(b) An employer may use a mobile collection facility (e.g., a van equipped for alcohol testing) that meets the requirements of paragraph (a) of this section.

§ 40.63 Procedures for screening tests.

(a) The BAT shall complete Step 1 on the Breath Alcohol Testing Form. The employee shall then complete Step 2 on the form, signing the certification. Refusal by the employee to sign this certification shall be regarded as a refusal to take the test.

(b) An individually-sealed mouthpiece shall be opened in view of the employee and BAT and attached to the EBT in accordance with the manufacturer's instructions.

(c) The BAT shall instruct the employee to blow forcefully into the mouthpiece for at least 6 seconds or until the EBT indicates that an adequate amount of breath has been obtained.

(d)(1) If the EBT does not meet the requirements of §40.53(b) (1) through (3), the BAT shall ensure, before a screening test is administered to each employee, that he or she and the employee read the sequential test number displayed on the EBT. The BAT shall record the displayed result, test number, testing device, serial number of the testing device, and time in Step # of the form.

(2) If the EBT does not meet the requirements of §40.53(b) (1) through (3), the BAT and the employee shall take the following steps:

(i) Show the employee the result displayed on the EBT. The BAT shall record the displayed result, test number, testing device, serial number of the testing device, and time and quantified result in Step 3 of the form.

(ii) Record the test number, date of the test, name of the BAT, location, and quantified test result in the log book. The employee shall initial the log book entry.

(3) If the EBT provides a printed result, but does not print the results directly onto the form, the BAT shall show the employee the result displayed on the EBT. The BAT shall then affix the test result printout to the breath alcohol test form in the designated space, using a method that will provide clear evidence of removal (e.g., tamper-evident tape).

(e)(1) In any case in which the result of the screening test is a breath alcohol concentration of less than 0.02, the BAT shall date the form and sign the certification in Step 3 of the form. The employee shall sign the certification and fill in the date in Step 4 of the form.

(2) No further testing is authorized. The BAT shall transmit the result of less than 0.02 to the employer in a confidential manner, and the employer shall receive and store the information so as to ensure that confidentiality is maintained as required by §40.81.

(3) If the employee does not sign the certification in Step 4 of the form for a test, it shall not be considered a refusal to be tested. In this event, the BAT shall note the employee's failure to sign in the "Remarks" section of the form.

(4) If a test result printed by the EBT (see paragraph (d)(3) or (d)(4) of this section) does not match the displayed result, or if a sequential test number printed by the EBT does not match the sequential test number displayed by the EBT prior to the screening test (see paragraph (d)(1) of this section), the BAT shall note the disparity in the "Remarks" section. Both the employee and the BAT shall initial and sign the notation. In accordance with §40.79, the test is invalid and the employee shall be so advised.

(f) If the result of the screening test is an alcohol concentration of 0.02 or greater, a confirmation test shall be performed as provided in §40.65.

(g) If the confirmation test will be conducted by a different BAT, the BAT who conducts the screening test shall complete and sign the form and log book entry. The BAT will provide the employee with Copy 2 of the form.

(h) If the confirmation test will be conducted at a different site from the screening test, the employer or its agent shall ensure that—

(1) The employee is advised against taking any of the actions mentioned in the first sentence of §40.65(b) of this part.
(2) The employee is advised that he or she must not drive, perform safety-sensitive duties, or operate heavy equipment, as noted in Block 4 of the alcohol testing form; and

(3) The employee is under observation of a BAT, STT, or other employer personnel while in transit from the screening test site to the confirmation test site.

§ 40.65 Procedures for confirmation tests.

(a) If a BAT other than the one who conducted the screening test is conducting the confirmation test, the new BAT shall follow the procedures of § 40.61.

(b) The BAT shall instruct the employee not to eat, drink, put any object or substance in his or her mouth, and, to the extent possible, not belch during a waiting period before the confirmation test. This time period begins with the completion of the screening test, and shall not be less than 15 minutes. The confirmation test shall be conducted within 30 minutes of the completion of the screening test. The BAT shall explain to the employee the reason for this requirement (i.e., to prevent any accumulation of mouth alcohol leading to an artificially high reading) and the fact that it is for the employee’s benefit. The BAT shall also explain that the test will be conducted at the end of the waiting period, even if the employee has disregarded the instruction. If the BAT becomes aware that the employee has not complied with this instruction, the BAT shall so note in the “Remarks” section of the form. If the BAT conducts the confirmation test more than 30 minutes after the result of the screening test has been obtained, the BAT shall note in the “Remarks” section of the form the time that elapsed between the screening and confirmation tests and the reason why the confirmation test could not be conducted within 30 minutes of the screening test.

(c)(1) If a BAT other than the one who conducted the screening test is conducting the confirmation test, the new BAT shall initiate a new Breath Alcohol Testing form. The BAT shall complete Step 1 on the form. The employee shall then complete Step 2 on the form, signing the certification. Refusal by the employee to sign this certification shall be regarded as a refusal to take the test. The BAT shall note in the “Remarks” section of the form that a different BAT conducted the screening test.

(2) In all cases, the procedures of § 40.63 (a), (b), and (c) shall be followed. A new mouthpiece shall be used for the confirmation test.

(d) Before the confirmation test is administered for each employee, the BAT shall ensure that the EBT registers 0.00 on an air blank. If the reading is greater than 0.00, the BAT shall conduct one more air blank. If the reading is greater than 0.00, testing shall not proceed using that instrument, which shall be taken out of service. However, testing may proceed on another instrument. Any EBT taken out of service because of failure to perform an air blank accurately shall not be used for testing until a check of external calibration is completed and the EBT is found to be within tolerance limits.

(e) Before the confirmation test is administered for each employee, the BAT shall ensure that he or she and the employee read the sequential test number displayed by the EBT.

(f) In the event that the screening and confirmation test results are not identical, the confirmation test result is deemed to be the final result upon which any action under operating administration rules shall be based.

(g)(1) If the EBT provides a printed result, but does not print the results directly onto the form, the BAT shall show the employee the result displayed on the EBT. The BAT shall then affix the test result printout to the breath alcohol test form in the designated space, using a method that will provide clear evidence of removal (e.g., tamper-evident tape).

(2) If the EBT prints the test results directly onto the form, the BAT shall show the employee the result displayed on the EBT.

(h)(1) Following the completion of the test, the BAT shall date the form and sign the certification in Step 3 of
the form. The employee shall sign the certification and fill in the date in Step 4 of the form.

(2) If the employee does not sign the certification in Step 4 of the form, it shall not be considered a refusal to be tested. In this event, the BAT shall note the employee's failure to sign in the "Remarks" section.

(3) If a test result printed by the EBT (see paragraph (g)(1) or (g)(2) of this section) does not match the displayed result, or if a sequential test number printed by the EBT does not match the sequential test number displayed by the EBT prior to the confirmation test (see paragraph (e) of this section), the BAT shall note the disparity in the "Remarks" section. Both the employee and the BAT shall initial and sign the notation. In accordance with §40.79, the test is invalid and the employee shall be so advised.

(i) The BAT shall transmit all results to the employer in a confidential manner.

(1) Each employer shall designate one or more employer representatives for the purpose of receiving and handling alcohol testing results in a confidential manner. All communications by BATs to the employer concerning the alcohol testing results of employees shall be to a designated employer representative.

(2) Such transmission may be in writing (the employer copy (Copy 1) of the breath alcohol testing form), in person or by telephone or electronic means, but the BAT shall ensure immediate transmission to the employer of results that require the employer to prevent the employee from performing a safety-sensitive function.

(3) If the initial transmission is not in writing (e.g., by telephone), the employer shall establish a mechanism to verify the identity of the BAT providing the information.

(4) If the initial transmission is not in writing, the BAT shall follow the initial transmission by providing to the employer the employer's copy of the breath alcohol testing form. The employer shall store the information so as to ensure that confidentiality is maintained as required by §40.81.

(i) If the physician determines, in his or her reasonable medical judgment, that a medical condition has, or with a high degree of probability, could have, precluded the employee from providing an adequate amount of breath shall not be deemed a refusal to take a test. The physician shall provide to the employer a written statement of the basis for his or her conclusion.

(ii) If the licensed physician, in his or her reasonable medical judgment, is unable to make the determination set forth in paragraph (d)(2)(i) of this section the employee's failure to provide an adequate amount of breath shall be regarded as a refusal to take a test. The licensed physician shall provide a written statement of the basis for his or her conclusion to the employer.

§§ 40.71-40.77 [Reserved]

§ 40.79 Invalid tests.

(a) A breath alcohol test shall be invalid under the following circumstances:

(1) The next external calibration check of an EBT produces a result that differs by more than the tolerance stated in the QAP from the known value of the test standard. In this event, every test result of 0.02 or above obtained on the device since the last valid external calibration check shall be invalid;

(2) The BAT does not observe the minimum 15-minute waiting period prior to the confirmation test, as provided in §40.65(b);

(3) The BAT does not perform an air blank of the EBT before a confirmation test, or an air blank does not result in a reading of 0.00 prior to the administration of the test, as provided in §40.65;

(4) The BAT does not sign the form as required by §§40.63 and 40.65;

(5) The BAT has failed to note on the remarks section of the form that the employee has failed or refused to sign the form following the recording or printing on or attachment to the form of the test result;

(6) An EBT fails to print a confirmation test result; or

(7) On a confirmation test and, where applicable, on a screening test, the sequential test number or alcohol concentration displayed on the EBT is not the same as the sequential test number or alcohol concentration on the printed result.

(b) [Reserved]

§ 40.81 Availability and disclosure of alcohol testing information about individual employees.

(a) Employers shall maintain records in a secure manner, so that disclosure of information to unauthorized persons does not occur.

(b) Except as required by law or expressly authorized or required in this section, no employer shall release covered employee information that is contained in the records required to be maintained by this part or by DOT agency alcohol misuse rules.

(c) An employee subject to testing is entitled, upon written request, to obtain copies of any records pertaining to the employee's use of alcohol, including any records pertaining to his or her alcohol tests. The employer shall promptly provide the records requested by the employee. Access to an employee's records shall not be contingent upon payment for records other than those specifically requested.

(d) Each employer shall permit access to all facilities utilized in complying with the requirements of this part and DOT agency alcohol misuse rules to the Secretary of Transportation, any DOT agency with regulatory authority over the employer, or a state agency with regulatory authority over the employer (as authorized by DOT agency regulations).

(e) When requested by the Secretary of Transportation, any DOT agency with regulatory authority over the employer, or a state agency with regulatory authority over the employer (as authorized by DOT agency regulations), each employer shall make available copies of all results for employer alcohol testing conducted under the requirements of this part and any other information pertaining to the employer's alcohol misuse prevention program. The information shall include name-specific alcohol test results, records and reports.
§ 40.83 Maintenance and disclosure of records concerning EBTs and BATs.

(a) Each employer or its agent shall maintain the following records for two years:

(1) Records of the inspection and maintenance of each EBT used in employee testing;

(2) Documentation of the employer's compliance with the QAP for each EBT it uses for alcohol testing under this part;

(3) Records of the training and proficiency testing of each BAT used in employee testing;

(4) The log books required by § 40.59(c).

(b) Each employer or its agent shall maintain for five years records pertaining to the calibration of each EBT used in alcohol testing under this part, including records of the results of external calibration checks.

(c) Records required to be maintained by this section shall be disclosed on the same basis as provided in § 40.81.

Subpart D—Non-Evidential Alcohol Screening Devices

§ 40.91 Authorization for use of non-evidential alcohol screening devices.

Non-evidential alcohol screening tests, performed using screening devices included by the National Highway Traffic Safety Administration on its conforming products list for non-evidential screening devices, may be used in lieu of EBTs to perform screening tests required by operating administrations' alcohol testing regulations. Non-evidential screening devices may not be used for confirmation alcohol tests, which must be conducted using EBTs as provided in subpart C of this part.

§ 40.93 The screening test technician.

(a) Anyone meeting the requirements of this part to be a BAT may act as a screening test technician (STT), provided that the individual has demonstrated proficiency in the operation of the non-evidential screening device he or she is using.

(b) Any other individual may act as an STT if he or she successfully completes a course of instruction concerning the procedures required by this part for conducting alcohol screening tests. Only the Department of Transportation model course, or a course of instruction determined by the Department of Transportation's Office of Drug Enforcement and Program Compliance to be equivalent to it, may be used for this purpose.

(c) With respect to any non-evidential screening device involving changes, contrasts, or other readings that are indicated on the device in terms of color, STTs shall, in order to be regarded as proficient, be able to...
discern correctly these changes, contrasts or readings.

(d) The STT shall receive additional training, as needed, to ensure proficiency, concerning new or additional devices or changes in technology that he or she will use.

(e) The employer or its agent shall document the training and proficiency of each STT it uses to test employees and maintain the documentation as provided in §40.83.

(f) The provisions of §40.53(b) and (c); §40.57; §40.59; §40.61; §40.63(e)(1)-(2), (f), (g), and (h); §40.69; and §40.81; and other provisions, as applicable, of this part apply to STTs as well as to BATs.

§ 40.95 Quality assurance plans for non-evidential screening devices.

(a) In order to be used for alcohol screening tests subject to this part, a non-evidential screening device shall have an approved quality assurance plan (QAP) developed by the manufacturer and approved by the National Highway Traffic Safety Administration (NHTSA).

(1) The plan shall designate the method or methods to be used to perform quality control checks; the temperatures at which the non-evidential screening device shall be stored and used, as well as other environmental conditions (e.g., altitude, humidity) that may affect the performance of the device; and, where relevant, the shelf life of the device.

(2) The QAP shall prohibit the use of any device that does not pass the specified quality control checks or that has passed its expiration date.

(b) The manufacturers’ instructions on or included in the package for each saliva testing device shall include directions on the proper use of the device, the time frame within which the device must be read and the manner in which the reading is made.

(c) The employer and its agents shall comply with the QAP and manufacturer’s instructions for each non-evidential screening device it uses for alcohol screening tests subject to this Part.

§ 40.97 Locations for non-evidential alcohol screening tests.

(a) Locations for non-evidential alcohol screening tests shall meet the same requirements set forth for breath alcohol testing in §40.57 of this part.

(b) The STT shall supervise only one employee’s use of a non-evidential screening device at a time. The STT shall not leave the alcohol testing location while the screening test procedure for a given employee is in progress.

§ 40.99 Testing forms.

STTs conducting tests using a non-evidential screening device shall use the alcohol testing form as provided in §40.59 and appendix B of this part for the screening test.

§ 40.101 Screening test procedure.

(a) The steps for preparation for testing shall be the same as provided for breath alcohol testing in §40.61 of this part.

(b) The STT shall complete Step 1 on the form required by §40.99. The employee shall then complete Step 2 on the form, signing the certification. Refusal by the employee to sign this certification shall be regarded as a refusal to take the test.

(c) If the employer is using a non-evidential breath testing device, the STT shall follow the same steps outlined for screening tests using EBTs in §40.63.

(d) If the employer is using a saliva testing device, the STT shall take the following steps:

(1) The STT shall explain the testing procedure to the employee.

(2) The STT shall check the expiration date of the saliva testing device, show the date to the employee, and shall not use a device at any time subsequent to the expiration date.

(3) The STT shall open an individually sealed package containing the device in the presence of the employee.

(4) The STT shall offer the employee the opportunity to use the swab. If the employee chooses to use the swab, the STT shall instruct the employee to insert the absorbent end of the swab into the employee’s mouth and move it actively throughout the mouth for a sufficient time to ensure that it is completely saturated, as provided in the manufacturer’s instructions for the device.

(5) If the employee chooses not to use the swab, or in all cases in which a new test is necessary because the device did
§ 40.103

not activate (see paragraph (d)(8) of this section), the STT shall insert the absorbent end of the swab into the employee's mouth, moving it actively throughout the mouth for a sufficient time to ensure that it is completely saturated, as provided in the manufacturer's instructions for the device. The STT shall wear a surgical grade glove while doing so.

(6) The STT shall place the device on a flat surface or otherwise in a position in which the swab can be firmly placed into the opening provided in the device for this purpose. The STT shall insert the swab into this opening and maintain firm pressure on the device until the device indicates that it is activated.

(7) If the procedures of paragraph (d)(3)–(d)(5) of this section are not followed successfully (e.g., the swab breaks, the STT drops the swab on the floor or another surface, the swab is removed or falls from the device before the device is activated), the STT shall discard the device and swab and conduct a new test using a new device. The new device shall be one that has been under the control of the employer or STT prior to the test. The STT shall note in the remarks section of the form the reason for the new test. In this case, the STT shall offer the employee the choice of using the swab himself or herself, or having the STT use the swab. If the procedures of paragraph (d)(3)–(d)(5) of this section are followed successfully on the new test, the collection shall be terminated and an explanation provided in the remarks section of the form. A new test shall then be conducted, using an EBT for both the screening and confirmation tests.

(8) If the procedures of paragraph (d)(3)–(d)(5) of this section are followed successfully, but the device is not activated, the STT shall discard the device and swab and conduct a new test, in the same manner as provided in paragraph (d)(7) of this section. In this case, the STT shall place the swab into the employee's mouth to collect saliva for the new test.

(9) The STT shall read the result displayed on the device two minutes after inserting the swab into the device. The STT shall show the device and its reading to the employee and enter the result on the form.

(10) Devices, swabs, gloves and other materials used in saliva testing shall not be reused, and shall be disposed of in a sanitary manner following their use, consistent with applicable requirements.

(e) In the case of any screening test performed under this section, the STT, after determining the alcohol concentration result, shall follow the applicable provisions of §40.63 (e)(1)–(2), (f), (g), and (h). The STT shall also enter, in the "Remarks" section of the form, a notation that the screening test was performed using a non-evidential breath testing device or a saliva device, as applicable. Following completion of the screening test, the STT shall date the form and sign the certification in Step 3 of the form.

§ 40.103 Refusals to test and uncompleted tests.

(a) Refusal by an employee to complete and sign the alcohol testing form required by §40.99 (Step 2), to provide a breath or saliva sample, to provide an adequate amount of breath, or otherwise to cooperate in a way that prevents the completion of the testing process, shall be noted by the STT in the remarks section of the form. This constitutes a refusal to test. The testing process shall be terminated and the STT shall immediately notify the employer.

(b) If the screening test cannot be completed, for reasons other than a refusal by the employee, or if an event occurs that would invalidate the test, the STT shall, if practicable, immediately begin a new screening test, using a new testing form and, in the case of a test using a saliva screening device, a new device.

§ 40.105 Inability to provide an adequate amount of breath or saliva.

(a) If an employee is unable to provide sufficient breath to complete a test on a non-evidential breath testing device, the procedures of §40.69 apply.

(b) If an employee is unable to provide sufficient saliva to complete a test on a saliva screening device (e.g., the employee does not provide sufficient saliva to activate the device), the STT,
as provided in §40.101 of this part, shall conduct a new test using a new device. If the employee refuses to complete the new test, the STT shall terminate testing and immediately inform the employer. This constitutes a refusal to test.

(c) If the new test is completed, but there is an insufficient amount of saliva to activate the device, STT shall immediately inform the employer, which shall immediately cause an alcohol test to be administered to the employee using an EBT.

§40.107 Invalid tests.
An alcohol test using a non-evidential screening device shall be invalid under the following circumstances:
(a) With respect to a test conducted on a saliva device—
(1) The result is read before two minutes or after 15 minutes from the time the swab is inserted into the device;
(2) The device does not activate;
(3) The device is used for a test after the expiration date printed on its package; or
(4) The STT fails to note in the remarks section of the form that the screening test was conducted using a saliva device;
(b) With respect to a test conducted on any non-evidential alcohol testing device, the STT has failed to note on the remarks section of the form that the employee has failed or refused to sign the form following the recording on the form of the test result.

§40.109 Availability and disclosure of alcohol testing information about individual employees.
The provisions of §40.81 apply to records of non-evidential alcohol screening tests.
§ 40.111 Maintenance and disclosure of records concerning non-evidential testing devices and STTs.

Records concerning STTs and non-evidential testing devices shall be maintained and disclosed following the same requirements applicable to BATs and EBTs under §40.81 of this part.
Office of the Secretary of Transportation

APPENDIX A TO PART 40—FEDERAL DRUG TESTING CUSTODY AND CONTROL FORM

579
Paperwork Redaction Act Notice (as required by 5 CFR 1320.21)

Public reporting burden for this collection of information, including the time for reviewing instructions, gathering and maintaining the data needed, and completing and reviewing the collection of information is estimated to average 5 minutes per response: 4 minutes/doctor; 3 minutes/生命; and 3 minutes/laboratory. Federal employees may send comments regarding these burden estimates, or any other aspect of this collection of information, including suggestions for reducing the burden, to Public Health Service Reports Clearance Officer, Attn: PRA, Robert R. Humphrey Building, RM 1424, 201 Independence Ave S.W., Washington, D.C. 20201. Individuals from the private sector may send comments/suggestions to: Department of Transportation, Drug Enforcement and Program Compliance, Room 9104, 400 Seventh St. S.W., Washington, D.C. 20590. In addition, copies of all comments/suggestions may be sent to Office of Management and Budget, Paperwork Reduction Project, Room 3518, 725 Seventeenth St. N.W., Washington, D.C. 20503.

Back of Copy 1, 2, 3, 4, and 6.
Federal Drug Testing Custody and Control Form

Step 1: To be Completed by Collector or Employer Representative

A. Employer Name, Address and I.D. No.

B. MFO Name and Address

C. Donor SSN or Employee I.D. No.

D. Reason for Test: Pre-employment, Random, Reasonable Suspicions Cause, Post Accident

E. Tests to be Performed: THC, Cocaine, POP, Opiates and Amphetamines

Step 2: To be Completed by Collector - Specimen temperature must be read within 4 minutes of collection.

Specimen temperature within range: Yes, 90°F - 100°F/50°C - 98°C

No, Record specimen temperature here

Step 3: To be Completed by Collector and Donor - Collector affixes label(s) and bottle(s), Collector dates label(s), Donor initials label(s).

Step 4: To be Completed by Donor - Go to copy 4 (pink page).

Step 5: To be Completed by Collector:

Should the results of the laboratory tests for the specimen identified by this form be confirmed positive, the Medical Review Officer will contact you to ask about prescriptions and over-the-counter medications you may have taken. Therefore, you may want to make a list of those medications as a "memory jogger." THIS LIST IS NOT NECESSARY IF YOU CAME IN TO MAKE A LIST, DO SO EITHER ON A SEPARATE PIECE OF PAPER OR ON THE BACK OF YOUR COPY.

**COPY 5 - GIVE TO DONOR**

**COPY 6 - DO NOT SEND TO LABORATORY**

---

584
Privacy Act Statement: (For Federal Employees Only)

Substitution of the information on the attached form is voluntary. However, incomplete submission of the information, refusal to provide a urine specimen, or substitution or subterfuge of a specimen may result in delay or denial of your application for employment/appointment or may result in removal from the Federal service or other disciplinary action.

The authority for obtaining the urine specimen and identifying information contained herein is Executive Order 12564 ("Drug-Free Federal Workplace"), 5 U.S.C. 7314(d), 5 U.S.C. § 7310, and Section 603 of Public Law 100-77. 5 U.S.C. § 7301, texts. Under provisions of Executive Order 12564 and 5 U.S.C. 7301, test results may only be determined by agency officials on a need-to-know basis. This may include the agency Medical Review Officer, the administrator of the Employee Assistance Program, and a supervisor with authority to take adverse personnel action. This information may also be disclosed to a court where necessary to defend against a challenge to an adverse personnel action.

Substitution of your SSN is not required by law and is voluntary. Your refusal to furnish your number will not result in the denial of any rights, benefits, or privileges provided by law. Your SSN is solicited pursuant to Executive Order 9357, for purposes of associating information in agency files relating to you and for purposes of identifying the specimen provided for urinalysis testing for illegal drugs. If you refuse to indicate your SSN, a substitute number or other identifier will be assigned, as required, to process the specimen.

In the event laboratory analysis determines the presence of one or more illegal drugs in the specimen you provide, you will be contacted by an agency Medical Review Officer (MRO). The MRO will determine whether there is a legitimate medical explanation for the drug(s) identified by urinalysis.

Paperwork Reduction Act Notice (as required by 5 CFR 1320.31)

Public reporting burden for this collection of information, including the time for reviewing instructions, gathering and maintaining the data needed, and completing and reviewing the collection of information is estimated to average 5 minutes per response. This estimate includes the time to review, summarize, and complete the collection of information. It is required to obtain a Federal position. A survey conducted for reducing the burden. To Public Health Service Security Clearance Office, attn: PIN, Hubert H. Humphrey Building, Rm 721-B, 200 Independence Ave. S.W., Washington, D.C. 20201. Individuals from the private sector may send comments or suggestions to: Office of Management and Budget, Paperwork Reduction Project, Rm 3514, 400 Seventh St. S.W., Washington, D.C. 20503. In addition, copies of all comments and suggestions may be sent to: Office of Management and Budget, Paperwork Reduction Project, Rm 3514, 725 17th Street N.W., Washington, D.C. 20503.

E. Tests to be Performed:
   - THC, Cocaine, PCP, Opiates and Amphetamines
   - Only THC and Cocaine
   - OTHER (Specify)

**LABORATORY ACCESSION NO.**

**STEP 1: TO BE COMPLETED BY COLLECTOR OR EMPLOYER REPRESENTATIVE**

**STEP 2: TO BE COMPLETED BY COLLECTOR**
- Specimen temperature must be read within 4 minutes of collection.
- Specimen temperature within range:
  - Yes, 90°F ± 10°F
  - 35°C ± 3°C
  - No, Record specimen temperature here

**STEP 3: TO BE COMPLETED BY COLLECTOR AND DONOR**
- Collector affixes bottle sealing to bottle(s). Collector dates seal(s). Donor initials seal(s).

**STEP 4: SEE BELOW**

**STEP 5: TO BE COMPLETED BY COLLECTOR - RETURN TO COPY 1**

**COLLECTION SITE LOCATION:**

- Collection Facility
- Collector's Business Phone No. ( )
- Address
- City
- State
- Zip

**REMARKS:**
- I certify that the specimen collected on this form is the specimen submitted to me by the donor providing the certification on Copy 4 of this form, that it bears the same specimen identification number as the set forth above, and that it has been collected, handled, and sealed as in accordance with applicable Federal requirements.

**STEP 6: TO BE INITIATED BY THE COLLECTOR AND COMPLETED AS NECESSARY THEREAFTER**

**PURPOSE OF CHANGE:**

**STEP 4: TO BE COMPLETED BY DONOR**

- Daytime Phone No.: ____________________________
- Evening Phone No.: ____________________________
- Date of Birth: ___/___/___

I certify that I provided my urine specimen to the collector that I have not adulterated it in any manner, that each specimen bottle used was sealed with a tamper-evident seal in my presence and that the information provided on this form and on the seal affixed to each specimen bottle is correct.

**STEP 5: TO BE COMPLETED BY THE MEDICAL REVIEW OFFICER**

- Medical Review Officer's Name: ____________________________
- Medical Review Officer's Date: ___/___/___
- Signature of Medical Review Officer: ____________________________

**REMARKS:**
- I have reviewed the laboratory results for the specimen identified by this form in accordance with applicable Federal requirements. My determination/finalization as follows:
  - [ ] Negative
  - [ ] Positive
  - [ ] Test Not Performed
  - [ ] Test Cancelled

**COPY 7: FORWARD TO EMPLOYER - DO NOT SEND TO LABORATORY**

587
INSTRUCTION FOR COMPLETING DRUG TESTING CUSTODY AND CONTROL FORM

The following instructions are in accordance with procedures established by the Department of Health and Human Services and the Department of Transportation mandatory programs for federal and transportation workplace drug testing programs.

NOTE: Use bright red pen, press hard, and check all copies for legibility.

STEP 1
- If the information in STEP 1 has not been completed on collection slip (if done), complete STEP 1 (A-K).

NOTE:
- Specify whether or provide ID or Employee ID number must be annotated in STEP 2, collecting completion section.
- If specimen temperature is not within range, check beta market "No" and record specimen temperature.

STEP 2
- Upon receipt of specimen from donor, check specimen temperatures. This must be accomplished within 6 minutes. Check black marked "Yes" if temperature is within range.
- If specimen temperature is not within range, check black marked "No" and record specimen temperature.

STEP 3
FOR SINGLE SPECIMEN COLLECTIONS ONLY
- Secure cap on both specimen bottles and affix specimen bottle seal labeled A over the cap and discard the excess of the gather specimen bottles containing at least 30 ml of urine.
- Affix specimen bottle seal labeled B over the center position of the specimen bottle (bottle containing at least 30 ml of urine) and affix specimen bottle seal labeled A over the cap and discard the excess of the specimen bottle.
- Record date on both specimen bottle seals.

IF SINGLE SPECIMEN COLLECTION ONLY
- Secure cap on specimen bottle containing at least 30 ml of urine and affix specimen bottle seal labeled A over the cap and discard the excess of the specimen bottle.
- Record date on specimen bottle seal.

Instructions to initial the specimen bottle seal.

STEP 4
- Turn to Copy 2 (pink) page, STEP 4. Initial donor to complete STEP 4.
- Ensure donor provides his/her deemed and evening phone number and date of birth.
- Initial donor to read certification statement. Ensure donor signs his/her name and date, and certifies completion agreement.

NOTE: Basic referral to signs must be annotated in STEP 4, collector's remarks section.

STEP 5
- After returning to Copy 1, go to STEP 5.
- Complete the name and address of the facility at which the collection is taking place.
- List a business telephone number where collection can be reached.
- Place a check in the box indicating whether or not a field specimen was collected.
- Print any additional information concerning the collection (e.g., name referral to punch in/or statement, specimen collected under direct supervision, specimen collected in the specimen section).
- Collector completes collection certification section by printing and signing his/her name, recording the date and time of collection. Be sure to date A.M. or P.M.

STEP 6
CHAIN OF CUSTODY SECTION
NOTE: Each line the specimen is handled, transported, or placed into storage prior to being purchased by shipper, every individual must be identified (including a direct observation, if required), and the date and person of change recorded. The following instructions pertain to a collection in which the donor provides a specimen directly to the collector who packs, packages, and ships the specimen to the laboratory.

Record date of collection.
- In the "Specimen Released By" column, sign and print your name indicating that you have transferred the specimen from the donor.
- This "Preparation of Package" entry is the next person to print (Provide Specimen for Testing) and assigns the transfer of the specimen from the donor to the collector.
- On the next line, record the date the specimen was received by you.
- Complete the "Specimen Received By" field by signing and printing your name.
- If you are preparing the specimen for shipment to the laboratory, complete the "Specimen Released By" field by signing the original specimen collection sheet.

Compose the "Preparation of Package" entry, explaining the transfer of the specimen from the collector to the center or shipped package (e.g., Specify Specimen to Lab).

COMPLETING THE COLLECTION PROCESS
- Upon completing Step 6, initial donor to initial copy 4, page 1 of the Drug Testing Custody and Control Form. Donor may leave the collection center at this point.
- If a single specimen collection was performed, place both specimen bottles and Copy 3, and 5 of the Drug Testing Custody and Control Form in the shipping container.
- If a single collection was performed, place the specimen bottle and Copy 1 and 2 of the Drug Testing Custody and Control Form in the shipping container. Discard Copy 3.
- Secure the shipping container. On the shipping container seal, record your initials and date, and sign.
- Send Copy 4 (pink page) directly to the Medical Review Officer. Do not send to laboratory.
- Return Copy 3 (pink page) to your records.
- Forward Copy 7 (blue page) to the employer. Do not send to laboratory.

APPENDIX B TO PART 40—THE BREATH ALCOHOL TESTING FORM

U.S. Department of Transportation (DOT)
Breath Alcohol Testing Form

[THE INSTRUCTIONS FOR COMPLETING THIS FORM ARE ON THE BACK OF COPY 2]

STEP 1: TO BE COMPLETED BY BREATH ALCOHOL TECHNICIAN

A. Employee Name

B. SSN or Employee ID No.

C. Employer Name:
   Address:
   Telephone No.

D. Reason for Test: □ Pre-employment □ Random □ Reasonable Suspicion/Cause □ Post-accident □ Return to Duty □ Follow-up

STEP 2: TO BE COMPLETED BY EMPLOYEE

I certify that I am about to submit to breath alcohol testing required by U.S. Department of Transportation regulations and that the identifying information provided on this form is true and correct.

Signature of Employee

Date

STEP 3: TO BE COMPLETED BY BREATH ALCOHOL TECHNICIAN

I certify that I have conducted breath alcohol testing on the above named individual in accordance with the procedures established in the U.S. Department of Transportation regulation, 49 CFR Part 40, that I am qualified to operate the testing devices identified, and that the results are as recorded.

Screening test: Complete only if the testing device is not designed to detect the following.

Test No.
Testing Device Name
Testing Device Serial Number
Time
Result

Confirmation test: Confirmation test results MUST be affixed to the back of each copy of this form.

Remarks:

Signature of Breath Alcohol Technician

Date

STEP 4: TO BE COMPLETED BY EMPLOYEE

I certify that I have submitted to the breath alcohol test the results of which are accurately recorded on this form. I understand that I must not drive, perform safety-sensitive duties, or operate heavy equipment if the results are 0.02 or greater.

Signature of Employee

Privacy Act Statement

Affected in those cases where completed Breath Alcohol Testing Forms are retained in a Federal Privacy Act system of records.

Except for your Social Security Number (SSN), retention of the information on this form is mandatory. Incorrect completion of the information, failure to provide an adequate breath specimen for testing without a valid medical explanation, engaging in conduct that clearly obviates the testing process, or failure to sign the certification statement on the front side of this form may result in delay or denial of your application for employment/appointment, your ability to complete performing safety-sensitive duties, removal from a safety-sensitive position, or other disciplinary action.

The authority for obtaining the breath specimen required by the U.S. Department of Transportation is the Omnibus Transportation Employee Testing Act of 1991, Pub. L. 102-240, Title V. The principal purpose for which the information sought is to be used is to ensure that you have submitted to breath alcohol testing and in no event that you are promptly notified of the event of noncompliance with the U.S. Department of Transportation breath alcohol testing requirements.

Submission of your SSN is not required by law and is voluntary. If you object to the use of your SSN in this form, you will not be denied any rights, benefits, or privileges provided by law, a subsection number or other disaster will be assigned.

The information provided in this form may be disclosed, as a routine use, to a Federal, State, or local agency for authorized investigative or enforcement purposes or to a court or an administrative tribunal when the Governor's office of the agency is a party to a judicial proceeding before the court or involved in administrative proceedings before the tribunal.

PAPERWORK REDUCTION ACT NOTICE (as required by 5 CFR 1320.21)

Public reporting burden for this collection of information is estimated to average 10 minutes per response, 57000/1000000, 45 minutes/Alcoholic Alcohol Tester.

Interested individuals are invited to comment on any aspect of this collection of information, including suggestions for reducing the burden, to the U.S. Department of Transportation, Employee Testing and Program Compliance, Room 8880, 400 Seventh St., N.W., Washington, D.C. 20590 or Office of Management and Budget, Paperwork Reduction Project, Room 1320, 725 Seventeenth St., N.W., Washington, D.C. 20503.

INSTRUCTIONS FOR COMPLETING THE U.S. DEPARTMENT OF TRANSPORTATION BREATH ALCOHOL TESTING FORM

NOTE: Use a ballpoint pen, press hard, and check all copies for legibility.

STEP 1 The Breath Alcohol Technician (BAT) completes the information required in this step. Be sure to affix the employee’s name and check the box identifying the reason for the test.

NOTE: If the employee refuses to provide SSN or I.D. number, be sure to indicate this in the remarks section in STEP 3. Proceed with STEP 2.

STEP 2 Instruct the employee to read, sign, and date the employee certification statement in STEP 3.

NOTE: If the employee refuses to sign the certification statement, do not proceed with the alcohol test.

Contact the designated employer representative.

STEP 3 The Breath Alcohol Technician (BAT) completes the information required in this step. After conducting the alcohol screening test, do the following (as appropriate):

If the breath testing device used in conducting the screening test is capable of printing the screening test information located on the front of this form (test number, testing device name, testing device serial number, time of test and results), complete this information in the space provided on the front of this form.

NOTE: Be sure to enter the result of the test exactly as it is indicated on the breath testing device, i.e., 0.00, 0.02, 0.04, etc.

OR, If the breath testing device used in conducting the screening test is incapable of printing the screening test information located on the front of this form, affix the printed information in the spaces provided above. Be sure to use tamper-evident tape.

If the results of the screening test are less than 0.02, print, sign your name, and enter today’s date in the space provided. Go to STEP 4.

If the results of the screening test are 0.02 or greater, a confirmation test must be administered in accordance with DOT regulations. An EVIDENTIAL BREATH TESTING device that is capable of printing confirmation test information may be used in conducting the test.

After conducting the alcohol confirmation test, affix the printed information in the space provided above. Be sure to use tamper-evident tape.

Print, sign your name, and enter the date in the space provided. Go to STEP 4.

STEP 4 Instruct the employee to read, sign, and date the employee certification statement in STEP 6.

NOTE: If the employee refuses to sign the certification statement in STEP 4, be sure to indicate this in the remarks section in STEP 3.

Forward Copy 1 (white page) to the employer.
Give Copy 2 (green page) to the employee.
Retain Copy 3 (blue page) for BAT records.

PAPERWORK REDUCTION ACT NOTICE (as required by 5 CFR 1320.21)

Public reporting burden for this collection of information is estimated to average 1 hour per response, 4 minutes/Breath Alcohol Technician. Individuals may request an extension of time to respond to the collection of information, including suggestions for reducing the burden, to U.S. Department of Transportation, Drug Enforcement and Program Compliance, Room 3045, 400 Seventh St., NW, Washington, D.C. 20590 or Office of Management and Budget, Paperwork Reduction Project, Room 3514, 725 7th St. NW, Washington, D.C. 20503.

COPY 3 - BREATH ALCOHOL TECHNICIAN RETAINS

OMB No. 2110-0529
Exp. Date: 2/18/97

[59 FR 43013, Aug. 19, 1994]
§ 41.100 Purpose and applicability.
(a) This part implements the provisions of 49 U.S.C. 7701 et seq., and Executive Order (E.O.) 12699, “Seismic Safety of Federal and Federally-Assisted or Regulated New Building Construction” (3 CFR, 1990 Comp., p. 269). Under the Executive Order the DOT is given the responsibility for developing and implementing its own mission-appropriate and cost-effective regulations governing seismic safety.
(b) This part applies to new DOT owned buildings and to new DOT leased, assisted and regulated buildings. The purpose of this part is to reduce risk to lives of the building occupants, improve the capabilities of essential buildings to function during or after an earthquake, and to reduce earthquake losses of public buildings and investments.
(c) This part may be further implemented by the DOT Operating Administrations.

§ 41.105 Definitions.
As used in this part—
Operating Administration includes the Office of the Secretary.
DOT means the U.S. Department of Transportation.

§ 41.110 New DOT owned buildings and additions to buildings.
(a) DOT Operating Administrations responsible for the design and construction of new DOT Federally owned buildings will ensure that each building is designed and constructed in accord with the seismic design and construction standards set out in §41.120 of this part.
(b) This section pertains to all building projects for which development of detailed plans and specifications was initiated after January 5, 1990. It applies to additions to existing buildings as well as to new buildings. It applies worldwide.
(c) For DOT Federally owned buildings, a certification of compliance with the seismic design and construction requirements of this part is required prior to the acceptance of the building. Such statements of compliance may include the engineer’s and architect’s authenticated verifications of seismic design codes, standards, and practices used in the design and construction of the building, construction observation reports, local or state building department plan review documents, or other documents deemed appropriate by the DOT Operating Administration.

§ 41.115 New buildings to be leased for DOT occupancy.
(a) DOT Operating Administrations responsible for the design and construction of new buildings to be leased for DOT occupancy or use will ensure that each building is designed and constructed in accord with the seismic design and construction standards set out in §41.120 of this part.
(b) This section pertains to all building projects for which development of detailed plans and specifications was executed after January 5, 1990.
(c) For new Federally leased buildings, a certification of compliance with the seismic design and construction requirements of this part is required prior to the acceptance of the building. Such statements of compliance may include the engineer’s and architect’s authenticated verifications of seismic design codes, standards, and practices used in the design and construction of the building, construction observation reports, local or state building department plan review documents, or other documents deemed appropriate by the DOT Operating Administration.
§ 41.117 Buildings built with Federal assistance.

(a) Each DOT Operating Administration assisting in the financing, through Federal grants or loans, or guaranteeing the financing, through loan or mortgage insurance programs, of newly constructed buildings will ensure that any building constructed with such assistance is constructed in accord with seismic standards set out in §41.120 of this part.

(b) This section applies to new buildings and additions to existing buildings financed in whole or in part through Federal grants or loans administered by DOT Operating Administrations, or through guaranteed financing through loan or mortgage insurance programs administered by DOT Operating Administrations.

(c) Any building constructed with Federal financial assistance, after July 14, 1993 must be designed and constructed in accord with seismic standards approved by the DOT operating Administration under §41.120 of this part in order to be eligible for Federal financial assistance.

(d) For buildings built with Federal financial assistance, a certification of compliance with the seismic design and construction requirements of this part is required prior to the furnishing of such assistance. Such statements of compliance may include the engineer’s and architect’s authenticated verification of seismic design codes, standards, and practices used in the design and construction of the building, construction observation reports, local or state building department plan review documents, or other documents deemed appropriate by the DOT Operating Administration.

§ 41.119 DOT regulated buildings.

(a) Each DOT Operating Administration with responsibility for regulating the structural safety of buildings and additions to existing buildings will ensure that each DOT regulated building is designed and constructed in accord with seismic design and construction standards as provided by this part.

(b) This section pertains to all new building projects for which development of detailed plans and specifications begin after July 14, 1993.

§ 41.120 Acceptable model codes.

(a) This section describes the standards that must be used to meet the seismic design and construction requirements of this part.

(b)(1) The following are model codes which have been found to provide a level of seismic safety substantially equivalent to that provided by use of the 1988 National Earthquake Hazards Reduction Program (NEHRP) Recommended Provisions (Copies are available from the Office of Earthquakes and Natural Hazards, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472.):

(2) Versions of the NEHRP seismic maps have been adopted along with the NEHRP Recommended Provisions into...
Office of the Secretary of Transportation

§ 71.1 Limits defined; exceptions authorized for certain rail operating purposes only.

(a) This part prescribes the geographic limits of each of the eight standard time zones established by section 1 of the Standard Time Act, as amended by section 4 of the Uniform Time Act of 1966 (15 U.S.C. 261). It also contains lists of operating exceptions granted for specified rail carriers, whose operations cross the time zone boundaries prescribed by this part, authorizing them to carry the standard of time on which the major portion of a

§ 41.125 Judicial review.

Nothing in this part is intended to create any right or benefit, substantive or procedural, enforceable at law by a party against the DOT, its Operating Administrations, its officers, or any person.
§ 71.2 Annual advancement of standard time.

(a) The Uniform Time Act of 1966 (15 U.S.C. 260(a)), as amended, requires that the standard time of each State observing Daylight Saving Time shall be advanced 1 hour beginning at 2:00 a.m. on the first Sunday in April of each year and ending on the last Sunday in October. This advanced time shall be the standard time of each zone during such period. The Act authorizes any State to exempt itself from this requirement. States in two or more time zones may exempt the easternmost time zone portion from this requirement.

(b) Section 3(b) of the Uniform Time Act of 1966 (15 U.S.C. 260(b)) provides that “it is the express intent of Congress * * * to supersede any and all laws of the States or political subdivisions thereof insofar as they may now or hereafter provide for advances in time or changeover dates different from those specified in [section 3(a) of that Act]”, which are those specified in paragraph (a) of this section.

§ 71.3 Atlantic zone.

The first zone, the Atlantic standard time zone, includes that part of the United States that is between 52°30′ W. longitude and 67°30′ W. longitude and that part of the Commonwealth of Puerto Rico that is west of 67°30′ W. longitude, but does not include any part of the State of Maine.

§ 71.4 Eastern zone.

The second zone, the eastern standard time zone, includes that part of the United States that is west of 67°30′ W. longitude and east of the boundary line described in § 71.5, and includes all of the State of Maine, but does not include any part of the Commonwealth of Puerto Rico.

§ 71.5 Boundary line between eastern and central zones.

(a) Minnesota-Michigan-Wisconsin. From the junction of the western boundary of the State of Michigan with the boundary between the United States and Canada northerly and easterly along the west line of Gogebic County to the west line of Ontonagon County; thence south along the west line of Ontonagon County to the north line of Gogebic County; thence southerly and easterly along the north line of Gogebic County to the west line of Iron County; thence north along the west line of Iron County to the north line of Iron County; thence east along the north line of Iron County to the east line of Iron County; thence south along the east line of Iron County to the north line of Dickinson County; thence east along the north line of Dickinson County to the east line of Dickinson County; thence south along the east line of Dickinson County to the north line of Menominee County; thence east along the north line of Menominee County to the east line of Menominee County; thence southerly and easterly along the east line of Menominee County to Lake Michigan; thence east to the western boundary of the State of Michigan; thence southerly and easterly along the western boundary of the State of Michigan to a point in the middle of Lake Michigan opposite the main channel of Green Bay; thence southerly along the western boundary of the State of Michigan to its junction with the southern boundary thereof and the northern boundary of the State of Indiana.
(b) Indiana-Illinois. From the junction of the western boundary of the State of Michigan with the northern boundary of the State of Indiana to the east line of LaPorte County; thence southerly along the east line of LaPorte County to the north line of Starke County; thence west along the north line of Starke County to the west line of Starke County; thence South along the west line of Starke County to the south line of Starke County; thence west along the south line of Starke County to the east line of Jasper County; thence south along the east line of Jasper County to the south line of Jasper County; thence west along the south lines of Jasper and Newton Counties to the western boundary of the State of Indiana; thence south along the western boundary of the State of Indiana to the north line of Gibson County; thence easterly and southerly along the north line of Gibson County to the east line of Gibson County; thence south along the east line of Gibson County to the north line of Warrick County; thence easterly and southerly along the north lines of Warrick and Spencer Counties to the east line of Spencer County; thence southerly along the east line of Spencer County to the Indiana-Kentucky boundary.

(c) Kentucky. From the junction of the east line of Spencer County, Ind., with the Indiana-Kentucky boundary easterly along that boundary to the west line of Meade County, Ky.; thence southeasterly and southwesterly along the west lines of Meade and Hardin Counties to the southwest corner of Hardin County; thence along the south lines of Hardin and Larue Counties to the northwest corner of Taylor County; thence southeasterly along the west (southwest) line of Taylor County and northeasterly along the east (southeast) line of Taylor County to the west line of Casey County; thence southerly along the west and south lines of Casey, Pulaski, and McCreary Counties to the Kentucky-tennessee boundary.

(d) Tennessee. From the junction of the west line of McCreary County, Ky., with the Kentucky-Tennessee boundary westerly along that boundary to the west line of Scott County, Tenn.; thence southerly along the west line of Scott County, the north and west lines of Morgan County, and the north line of Roane County to the north line of Rhea County; thence northwesterly along the north line of Rhea County; and thence southwesterly along the west lines of Rhea and Hamilton Counties to the Tennessee-Georgia boundary.

(e) Georgia-Alabama. From the junction of the west line of Hamilton County, Tenn., with the Tennessee-Georgia boundary westerly along that boundary to its junction with the Alabama-Georgia boundary; thence southerly along that boundary and the Florida-Georgia boundary to the southwest corner of the State of Georgia.

(f) Florida. From the southwest corner of the State of Georgia to the midpoint of the Apalachicola River on the downstream side of Jim Woodruff Dam; thence southerly along the middle of the main channel of the Apalachicola River to its intersection with the Jackson River; thence westerly along the center of the Jackson River to its intersection with the Intracoastal Waterway; thence westerly along the center of the Intracoastal Waterway to the west line of Gulf County; thence southerly along the west line of Gulf County to the Gulf of Mexico.

(g) [Reserved]

(h) Municipalities on boundary line. All municipalities located upon the zone boundary line described in this section are in the central standard time zone.

§ 71.6 Central zone.

The third zone, the central standard time zone, includes that part of the United States that is west of the boundary line between the eastern and central standard time zones described in §71.5 and east of the boundary line between the central and mountain standard time zones described in §71.7.
§ 71.7 Boundary line between central and mountain zones.

(a) Montana-North Dakota. Beginning at the junction of the Montana-North Dakota boundary with the boundary of the United States and Canada southerly along the Montana-North Dakota boundary to the Missouri River; thence southerly and easterly along the middle of that river to the midpoint of the confluence of the Missouri and Yellowstone Rivers; thence southerly and easterly along the middle of the Yellowstone River to the north boundary of T. 150 N., R. 104 W.; thence east to the northwest corner of T. 150 N., R. 102 W.; thence south to the southwest corner of T. 149 N., R. 102 W.; thence east to the northwest corner of T. 148 N., R. 102 W.; thence south to the southwest corner of T. 147 N., R. 102 W.; thence east to the southwest corner of T. 148 N., R. 101 W.; thence south to the middle of the Little Missouri; thence easterly and northerly along the middle of that river to the midpoint of its confluence with the Missouri River; thence southerly and easterly along the middle of the Missouri River to the midpoint of its confluence with the northern land boundary of Oliver County; thence west along the northern county line to the northwest boundary; thence south along the western county line to the southern boundary; thence east along the southern county line to the northwest corner of T. 140 N., R. 83 W.; thence south to the southwest corner of T. 140 N., R. 82 W.; thence east to the southeast corner of T. 140 N., R. 83 W.; thence south to the middle of the Heart River; thence easterly and northerly along the middle of that river to the southern boundary of T. 139 N., R. 82 W.; thence east to the middle of the Heart River; thence southerly and easterly along the middle of that river to the midpoint of the confluence of the Heart and Missouri Rivers; thence southerly and easterly along the middle of the Missouri River to the northern boundary of T. 130 N., R. 80 W.; thence west to the northwest corner of T. 130 N., R. 80 W.; thence south to the North Dakota-South Dakota boundary; thence easterly along that boundary to the middle of the Missouri River.

(b) South Dakota. From the junction of the North Dakota-South Dakota boundary with the Missouri River southerly along the main channel of that river to the crossing of the Chicago & North Western Railway near Pierre; thence southerly along the range line between Rs. 28 and 29 E. to the north line of Mellette County; thence east along the north line of Mellette County to the west line of Tripp County; thence south along the west line of Tripp County to the south Dakota-Nebraska boundary.

(c) Nebraska. From the junction of the west line of Tripp County, South Dakota with the South Dakota-Nebraska boundary west along that boundary to the south line of Nebraska; thence southerly along the range line between Rs. 30 and 31 W. to the southwest corner of sec. 19, T. 33 N., R. 30 W.; thence easterly along section lines to the northeast corner of sec. 29, T. 33 N., R. 30 W.; thence southerly along section lines with their offsets to the northeast corner of sec. 17, T. 32 N., R. 30 W.; thence westerly along section lines to the northwest corner of sec. 18, T. 32 N., R. 30 W.; thence southerly along the range line to the southwest corner of T. 31 N., R. 30 W.; thence easterly along the township line to the northeast corner of T. 30 N., R. 30 W.; thence southerly along the range line to the southwest corner of T. 29 N., R. 29 W.; thence westerly along the township line to the northwest corner of sec. 4, T. 28 N., R. 30 W.; thence southerly along section lines to the southwest corner of sec. 33, T. 28 N., R. 30 W.; thence easterly along the township line to the northeast corner of sec. 4, T. 27 N., R. 30 W.; thence southerly along section lines to the southwest corner of sec. 22, T. 26 N., R. 30 W.; thence easterly along section lines to the northeast corner of sec. 24, T. 26 N., R. 30 W.; thence southerly along the range line to the north line of Thomas County; thence westerly along the north line of Thomas County to the west line of Thomas County; thence south along the west line of Thomas County to the north line of McPherson County; thence west along the north line of McPherson County to the west line of McPherson County; thence south along the west line of McPherson County to
§ 71.9 Boundary line between mountain and Pacific zones.

(a) Montana-Idaho-Oregon. From the junction of the Idaho-Montana boundary with the northern boundary of the State of Oklahoma westerly along the Colorado-Okalhoma boundary to the northwest corner of the State of Oklahoma; thence southerly along the west boundary of the State of Oklahoma and the west boundary of the State of Texas to the southeast corner of the State of New Mexico; thence westerly along the Texas-New Mexico boundary to the east line of Hudspeth County, Tex.; thence southerly along the east line of Hudspeth County, Tex., to the boundary between the United States and Mexico.

(b) Utah-Nevada-Arizona-California. From the northeast corner of the State of Nevada southerly along the Utah-Nevada boundary, the Nevada-Arizona boundary, and the Arizona-California boundary to the junction with the boundary between the United States and Mexico.
boundary to the boundary between the United States and Mexico.
(c) [Reserved]
(d) Points on boundary line. All municipalities located upon the zone boundary line described in this section are in the mountain standard time zone.

§ 71.10 Pacific zone.

The fifth zone, the Pacific standard time zone, includes that part of the continental United States that is west of the boundary line between the mountain and Pacific standard time zones described in § 71.9, but does not include any part of the State of Alaska.

§ 71.11 Alaska zone.

The sixth zone, the Alaska standard time zone, includes the entire State of Alaska, except as provided in § 71.12 of this title.

§ 71.12 Hawaii-Aleutian zone.

The seventh zone, the Hawaii-Aleutian standard time zone, includes the entire State of Hawaii and, in the State of Alaska, that part of the Aleutian Islands that is west of 169 degrees 30 minutes west longitude.

§ 71.13 Samoa zone.

The eighth zone, the Samoa standard time zone, includes that part of the United States that is between 169 degrees 30 minutes west longitude and 172 degrees 30 minutes west longitude, but does not include any part of the States of Hawaii and Alaska.

PART 79—MEDALS OF HONOR

Sec.
79.1 Scope.
79.3 Application.
79.5 Investigation.
79.7 Award.
79.9 Design.

SOURCE: 61 FR 17578, Apr. 22, 1996, unless otherwise noted.

§ 79.1 Scope.

(a) This part implements 49 U.S.C. 80504, which authorizes the President of the United States to award a bronze medal for bravery to any person who, by extreme daring, risks his/her life in trying to prevent, or to save the life of a person in, a grave accident/incident in the United States that involves an interstate rail carrier or a motor vehicle being operated on public highways.

(b) The actions for which the medal may be awarded must reflect such unusual daring and bravery that a person would not normally be expected to perform them as a regular part of his/her regular work or vocation.

§ 79.3 Application.

(a) Any person may apply for the award of the medal described in §79.1, but only on behalf of another person, by writing to the Secretary of Transportation, Attention: Medals of Honor, within two (2) years of the action that is the subject of the application.

(b) Although no application form is required, the following information must be provided:
(1) Name, address, and telephone number of the person submitting the application.
(2) Name, address, and telephone number of the person on whose behalf the application is submitted.
Office of the Secretary of Transportation

(3) Date, time, place, and weather conditions of the action that is the subject of the application.

(4) Identification of rail or motor carrier involved, or of operator of motor vehicles involved.

(5) Identification of any public or private authority that investigated the accident/incident involved.

(6) Name, address, and telephone number of any witness to the action that is the subject of the application.

(7) Detailed description of the action that is the subject of the application, including why the person submitting the application thinks that the action merits the extraordinary recognition embodied in the Medal of Honor.

(c) An application and any documentary or other evidence supporting it must be supported by oath or affirmation, or by the signer’s acknowledgment that a knowingly false statement is punishable as perjury.

§ 79.5 Investigation.

The Department of Transportation may make any investigation of an application that it deems appropriate, including the taking of testimony under oath or affirmation.

§ 79.7 Award.

If the Secretary of Transportation decides that it is warranted, the Secretary shall award the Medal on behalf of and in the name of the President of the United States.

§ 79.9 Design.

The Department is authorized to adopt and revise the existing designs for the award, rosette, and ribbon provided for by statute.

PART 89—IMPLEMENTATION OF THE FEDERAL CLAIMS COLLECTION ACT

Subpart A—General

Sec.
89.1 Purpose.
89.3 Applicability.
89.5 Delegations of authority.
89.7 Exceptions to delegated authority.
89.9 Redelegation.
89.11 Standards for exercise of delegated authority.
89.13 Documentary evidence of compromise.
89.15 Regulations, reports, and supporting documentation.

Subpart B—Collection of Claims Section

89.21 Administrative collection.
89.23 Interest, late payment penalties, and collection charges.
89.25 Collection by administrative offset.
89.27 Referral for litigation.
89.29 Disclosure to commercial credit bureaus and consumer reporting agencies.
89.31 Use of professional debt collection agencies.
89.33 [Reserved]

Subpart C—Referral of Debts to IRS for Tax Refund Offset

89.37 Applicability and scope.
89.39 Administrative charges.
89.41 Notice requirement before offset.
89.43 Review within the Department.
89.45 Department determination.
89.47 Stay of offset.

SOURCE: 53 FR 51238, Dec. 21, 1988, unless otherwise noted.
§ 89.3 Applicability.

(a) The part applies to collection of all claims due the United States under the Federal Claims Collection Act of 1966 as amended by the Debt Collection Act of 1982 and the Debt Collection Amendments of 1986 (Pub. L. 99-578), arising from activities under the jurisdiction of DOT including amounts due the United States from fees, overpayments, fines, civil penalties, loans, damages, interest, and other sources.

(b) This part does not apply to collection, settlement or compromise of debts owed the United States pursuant to authority other than Title 31, Chapter 37, Subchapter II: for example, application of this part to the enforcement of contracts under 46 U.S.C. 1117, delegated to the DOT Maritime Administration, is not required.

(c) Section 89.23 (interest, late payment penalties, and collection charges) and §89.25 (collection by administrative offset) of this part do not apply to debts which other United States government agencies or state governments or units of general local government owe the Department (see 31 U.S.C. 3701(c)); however, other statutory or common law may provide legal authority. Neither does the proposed rule apply to recovery of debts owed by current or former employees of the United States governed by 5 U.S.C. 5514.

(d) Claims arising out of contracts that contain specific provisions relating to claims are governed by those specific provisions to the extent that those provisions comply with existing law and with 4 CFR chapter II.

(e) As used in this part, the terms debt and claims are interchangeable and have the meaning defined in 4 CFR 101.2(a). A debtor’s liability arising out of a particular incident or adjudication exclusive of interest, administrative costs, and late payment penalties, is a single claim.

(f) Except as provided in paragraphs (b), (c) and (d) of this section the provisions of this part shall apply to the collection of all debts and claims owed to any DOT operating element. A claim arising from the assessment of civil penalty or fine is not subject to the procedures of this subpart until the claim has been reduced to a liquidated debt by a signed settlement agreement, a court order or judgment, or a final administrative determination.

§ 89.5 Delegations of authority.

The functions, powers, and duties of the Secretary of Transportation to attempt collection of claims, to compromise claims of the United States not exceeding $100,000 (excluding interest) and to suspend and terminate action to collect such claims are delegated to:

(a) The Assistant Secretary for Administration with respect to claims arising out of the activities of, or referred to, the Office of the Secretary;

(b) The heads of other DOT operating elements with respect to claims arising out of the activities of, or referred to, their organizations.

§ 89.7 Exceptions to delegated authority.

The authority delegated under §89.5 does not apply to any claim:

(a) As to which there is an indication of (1) fraud; (2) the presentation of a false claim; or (3) misrepresentation on the part of the debtor or any other party having an interest in the claim;

(b) Based on tax statutes; or

(c) Arising from an exception made by the General Accounting Office in the account of an accountable officer.

§ 89.9 Redelegation.

Each officer to whom authority is delegated under §89.5 may redelegate and authorize successive redelegations of the authority within the organization under his or her jurisdiction.

§ 89.11 Standards for exercise of delegated authority.

The authority delegated under §89.5 shall be exercised in accordance with the standards for the collection and compromise of claims and for the suspension and termination of action to collect claims promulgated by the United States General Accounting Office and the United States Department of Justice, and published at 4 CFR chapter II, as those standards may be amended.
§ 89.13 Documentary evidence of compromise.

A compromise of any claim is not final or binding on the United States unless it is in writing, signed by an officer or employee authorized to compromise that claim.

§ 89.15 Regulations, reports, and supporting documentation.

(a) Each officer to whom authority is delegated under §89.5 may promulgate regulations for the exercise of that authority within his or her organization. These regulations shall be revised, as necessary, to conform to any amendments to this part.

(b) Each officer to whom authority is delegated under §89.5 shall furnish the following information to the Assistant Secretary for Administration:

1. A copy of each redelegation of that authority.
2. A semiannual report listing those claims compromised or with respect to which collection action has been suspended or terminated, specifying the name of the debtors, the amount of the claim, the nature of the claim, the type of action taken, and the general basis for the action taken.
3. A copy of any implementing regulations governing the exercise of the authority delegated under §89.5, and any amendments to those regulations.
4. Each officer or employee to whom the Secretary’s authority has been delegated or redelegated, before exercising such authority, shall acquire sufficient documentation to demonstrate that the action taken is in the best interests of the United States. This documentation will be retained with and treated as part of the file concerning the debt.
5. The failure of any officer or employee to comply with this section does not limit or impair his or her exercise of authority.

Subpart B—Collection of Claims

§ 89.21 Administrative collection.

Except as provided differently by the DOT operating elements pursuant to §89.3:

(a) DOT shall send a debtor a total of three progressively stronger written demands at not more than 30-day intervals, unless a response to the first or second demand indicates that a further demand would be futile or the debtor’s response does not require rebuttal, or other pertinent information indicates that additional written demands would be unnecessary.

(b) The initial written demand for payment (and the notice of offset under §89.25) shall inform the debtor of:

1. The basis for the indebtedness and the debtor’s right to obtain review (see §89.22(f) for details on review).
2. The amount of the claim;
3. That domestic and overseas payment in excess of ten thousand dollars or more shall be made by wire transfer through the Federal Reserve communications, commonly known as Fedwire, to the account of the U.S. Treasury in accordance with the instructions provided in the demand letter; payments originating in foreign countries shall be made by wire transfer to the extent practicable.
4. The delinquency date, or the date by which payment is to be made (30 days from the date of mailing or hand delivery of the initial demand letter);
5. The standard for interest, penalties, and administrative charges in accordance with 31 U.S.C. 3717, if payment is not received by the due date (see §89.23 for details regarding interest, collection charges, and late payment penalty charges);
6. Where a notice of offset is concerned, the right to make voluntary payment before collection by offset begins (see §89.25).
7. The possible reporting of the claim to commercial credit bureaus and consumer reporting agencies; however a notice of offset should not include this warning.
8. The possibility that DOT will forward the claim to a collection agency, the General Accounting Office, the Department of Justice, or private counsel contracting with the Department of Justice for collection; however a notice of offset should not include this warning.
9. If the debtor fails to respond to the demands for payment by the due date specified in the notice, the Department may take further action under this part or the FCCS under 4 CFR parts 101 through 105, pursuant to
§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.

§ 89.23 Interest, late payment penalties, and collection charges.

(a) DOT shall charge interest on an outstanding debt at the Treasury Current Value of Funds Rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717 and 4 CFR 102.13(c), unless DOT determines that a higher rate is necessary to protect the interests of the United States. DOT shall charge a late payment penalty at a rate of six percent a year on any portion of a debt that is more than 90 days overdue.
Office of the Secretary of Transportation

§ 89.29 Disclosure to commercial credit bureaus and consumer reporting agencies.

(a) Data on all delinquent commercial and consumer debts may be reported to commercial credit bureaus and consumer reporting agencies (see 31 U.S.C. 3701(a)(3)). Sixty days prior to release of information to a consumer

§ 89.25 Collection by administrative offset.

(a) Whenever feasible, after a debtor fails to pay a claim, request a review of a claim, or make an arrangement for payment following a demand made in accordance with §89.21, DOT shall collect claims under this part by means of administrative offset against obligations of the United States to the debtor pursuant to 31 U.S.C. 3716 and 4 CFR 102.3. Salary offset against present or former employees of the United States is not governed by this part (see 49 CFR part 92).

(b) The Department shall notify the debtor in writing in conformance with 31 U.S.C. 3716 and the FCCS of its intent to collect the debt by offset, unless the debtor pays the debt in full, including all interest, administrative charges, and penalties, or executes an agreement to pay the debt by installment at terms acceptable to DOT.

(c) In making collection by administrative offset under 31 U.S.C. 3716, DOT must do so in accordance with the requirements set forth in §89.21(b)(1-6).

(See also procedures for recovery of debts to the United States by salary offset, 49 CFR part 92.)

§ 89.27 Referral for litigation.

Claims that are not settled or for which collection action is not compromised, suspended or terminated under 4 CFR parts 103 and 104 or collected by collection agencies shall be referred to the General Accounting Office or the Department of Justice for litigation in accordance with the procedures in 4 CFR part 105.

§ 89.29 Disclosure to commercial credit bureaus and consumer reporting agencies.

(a) Data on all delinquent commercial and consumer debts may be reported to commercial credit bureaus and consumer reporting agencies (see 31 U.S.C. 3701(a)(3)). Sixty days prior to

§ 89.31 Use of professional debt collection agencies.

Debts over 90 days delinquent (see §89.21(b)(4)) may be turned over to professional debt collection agencies except for those debts owed by State and local governments, other Federal agencies, current employees, and other debts prohibited by statute from being turned over to commercial collection agencies.

§ 89.33 [Reserved]

Subpart C—Referral of Debts to IRS for Tax Refund Offset

SOURCE: 54 FR 28681, July 7, 1989, unless otherwise noted.

§ 89.37 Applicability and scope.

(a) This subpart implements 31 U.S.C. 3720A which authorizes the IRS to reduce a tax refund by the amount of a past-due legally enforceable debt owed to the United States.

(b) For purposes of this subpart, a past-due legally enforceable debt referable to the IRS is:

(1) A debt which:

(i) Is owed to the United States;

(ii) Is at least $25.00;

(iii) Except in the case of a judgment debt, has been delinquent for at least three months but has not been delinquent for more than ten years at the time the offset is made; (iv) Cannot be currently collected pursuant to the salary offset provisions of 5 U.S.C. 5514(a)(1);

(v) Is ineligible for administrative offset under 31 U.S.C. 3716(a) by reason of 31 U.S.C. 3716(c)(2) or cannot be collected by administrative offset under 31 U.S.C. 3716(a) by the Department against amounts payable to or on behalf of the debtor by or on behalf of the Department;

(vi) Has been disclosed by the Department to a consumer reporting agency as authorized by 31 U.S.C. 3711(f), unless a consumer reporting agency would be prohibited from using such information by 15 U.S.C. 1681c, or unless the amount of the debt does not exceed $100.00; and

(2) A debt for which the Department has:

(i) Notified or has made reasonable attempt to notify the taxpayer that the debt is past-due and, that the debt, unless repaid within 60 days thereafter, will be referred to the IRS for offset against any overpayment of tax;

(ii) Given the debtor at least 60 days from the date of notification to present information that all or part of the debt is not past-due or legally enforceable, has considered information presented by such debtor, and has determined that an amount of debt is past-due and legally enforceable;

§ 89.39 Administrative charges.

In accordance with 4 CFR 102.13, all administrative charges incurred in connection with the referral of the debt to the IRS shall be added to the debt and thus increase the amount of the offset.

§ 89.41 Notice requirement before offset.

A request for offset from an IRS tax refund will be made only after the Department has made a determination that an amount is owed and past-due and provides the debtor with 60 days written notice. The Department's notice of intention to collect by IRS tax refund offset (Notice of Intent) includes:

(a) The amount of the debt;
(b) That unless the debt is repaid within 60 days from the date of the Department’s Notice of Intent, the Department will refer the debt to the IRS for offset against any amount due the debtor as a tax refund;

(c) That the debtor has a right to present information that all or part of the debt is not past-due or legally enforceable; and

(d) A mailing address for forwarding any written correspondence and a contact name and telephone number for any questions.

§ 89.43 Review within the Department.

(a) Notification by debtor. A debtor who receives a Notice of Intent may present, for 60 days from the date of the Notice of Intent, information that all or part of the debt is not past-due or legally enforceable. (However, this does not extend the regulatory period for submitting written statements or for requesting an administrative hearing on the merits of an alleged violation, nor does it extend the period to appeal an assessed civil penalty.) To comply with this procedure, the debtor must:

(1) Send a written request for a review of the information to the address provided in the notice.

(2) State in the request the amount disputed and the reasons why the debtor believes that the debt is not past-due or legally enforceable.

(3) Include in the request any documents which the debtor wishes to be considered or state that additional information will be submitted within the remainder of the 60 day period.

(b) Submission of information. The debtor may submit information showing that all or part of the debt is not past-due or not legally enforceable along with the notification required by paragraph (a) of this section. Failure to submit the information within the remainder of the 60 day period will be interpreted as there is no additional information for consideration.

(c) Review of the information. The Department considers all available information related to the issue of whether the debt is past-due and the issue of whether the debt is legally enforceable. After a decision has been reached, the Department notifies the debtor whether the Department has sustained amended, or cancelled its determination that the debt is past-due and legally enforceable.

§ 89.45 Department determination.

(a) Following review of the information, the Department notifies the debtor with a written decision that includes the supporting rationale.

(b) If the Department either sustains or amends its determination, it shall notify the debtor that the debt is being referred to the IRS for offset against the debtor’s Federal income tax refund. If the Department determines that there is no legally enforceable debt or that full payment has been made, the case will be closed.

§ 89.47 Stay of offset.

If the debtor timely notifies the Department that he or she is complying with the procedures in §89.43(a) of this subpart and timely submits additional information in accordance with §89.43(b) of this subpart, the debt will not be referred to the IRS while the matter is under review by the Department. Referral will not be made until the issuance of a written decision, in accordance with §89.45 of this subpart, which sustains or amends the Department’s original determination.

PART 91—INTERNATIONAL AIR TRANSPORTATION FAIR COMPETITIVE PRACTICES

§ 91.1 Purpose.

The purpose of this part is to prescribe the Secretary’s role in executing his responsibilities under sections 2 and 3 of the International Air Transportation Fair Competitive Practices

SOURCE: 41 FR 54770, Dec. 15, 1976, unless otherwise noted.
Act of 1974 to the end that U.S. flag air carriers operating in foreign air transportation are protected from all forms of discrimination or unfair competitive practices and are compensated for excessive or otherwise discriminatory charges levied by foreign governments or other foreign entities for the use of airport or airway property.

§ 91.3 Investigations.

The Assistant Secretary for Policy, Plans and International Affairs (Assistant Secretary), in coordination with the General Counsel and the Federal Aviation Administrator (Administrator), on complaint of any U.S. flag air carrier or on their own initiative, shall investigate: (a) Instances of alleged excessive or otherwise discriminatory user charges or (b) discriminatory or unfair competitive practices to which U.S. flag air carriers are subjected by a foreign government or other foreign entity. Excessive or otherwise discriminatory charges include, but are not limited to, unreasonable landing fees, unreasonable monopoly ground handling fees and unreasonable air navigation charges. Discriminatory or unfair competitive practices include, but are not limited to, unreasonably differentiated fuel allocations, cargo, charter or currency restrictions and inferior monopoly ground handling services.

§ 91.5 Findings and recommendations.

(a) Upon finding that a foreign government or entity imposes excessive or otherwise discriminatory charges against U.S. flag air carriers or causes such carriers to be subjected to discriminatory or unfair competitive practices, the Assistant Secretary, in coordination with the General Counsel and the Administrator, shall determine the extent of the discrimination or unfair competitive practices.

(b) Where the matter involves excessive or otherwise discriminatory charges, the Assistant Secretary shall prepare a report and recommend that the Secretary promptly submit a report on the matter to the Secretary of State and the Chairman of the Civil Aeronautics Board in accordance with 49 U.S.C. 1159a.

(c) Where the matter involves discrimination or unfair competitive practices other than user charges, the Assistant Secretary shall prepare a report and recommend that the Secretary take such other action within the jurisdiction of the Department as is appropriate under the circumstances in accordance with 49 U.S.C. 1159b.

(d) If the Secretary determines, after review of the report and recommendations made under paragraph (b) of this section, that unreasonably excessive or otherwise discriminatory charges exist, the Secretary will submit a report on the matter to the Secretary of State and the Chairman of the Civil Aeronautics Board in accordance with 49 U.S.C. 1159a.

(e) If the Secretary determines, after review of the report and recommendations made under paragraph (c) of this section, that discriminatory or unfair competitive practices exist, the Secretary will commence all appropriate action within his jurisdiction in accordance with 49 U.S.C. 1159b.

§ 91.7 Determination of compensatory charges.

(a) Upon indication by the Secretary of State that the excessive or otherwise discriminatory user charges have not been reduced or eliminated, the Secretary will direct the Assistant Secretary to compute the appropriate amount of compensatory charges.

(b) Upon approving the amount of compensatory charges computed under paragraph (a) of this section, the Secretary will notify the Secretary of State and the Secretary of the Treasury of his determination.

§ 91.9 Distribution of compensatory funds.

(a) On or after January 1 and July 1 of each year, each U.S. flag air carrier which has been subjected to excessive or otherwise discriminatory charges for which compensatory charges have been collected shall, upon compliance with paragraph (c) of this section, be entitled to pro rata reimbursement for excessive or otherwise discriminatory charges incurred to date, not to exceed the amount of such charges actually paid by that carrier.
(b) The Secretary will publish in the FEDERAL REGISTER, at least 30 days before a U.S. flag air carrier becomes entitled to reimbursement, a notice setting forth the procedures to be followed in making claims for reimbursement. This notice will specify the form in which application shall be made and the specific items of proof, if any, to be submitted.

(c) On or after January 1 and July 1 of each year, each U.S. flag carrier claiming a right to reimbursement shall apply for such reimbursement in accordance with the FEDERAL REGISTER notice referred to in paragraph (b) of this section.

(d) The Assistant Secretary shall, on the basis of the application and such other data as may be available, compute the amount to which such carrier is entitled.

(e) Subject to the provisions of §91.13(b), upon approving the computation made by the Assistant Secretary, the Secretary shall issue such certificate as will entitle each such carrier to payment from the account maintained by the Secretary of the Treasury for this purpose.

§91.11 Standards.

(a) To minimize the burden of implementing this part on the United States, on U.S. flag air carriers and on foreign air carriers, estimates and periodic adjustments will be used to determine the amount of discrimination and compensatory charges therefor.

(b) For the purpose of determining the amount of excessive or otherwise discriminatory charges imposed upon U.S. flag air carriers by an entity:

1. A service or use of airport or airway property includes, but is not limited to, fueling, food service, ticketing, baggage handling, runways, ramps, parking areas, navigational aids, communications facilities or any other service necessary and incidental to the conduct of a flight.

2. An excessive or otherwise discriminatory charge includes, but is not limited to, a charge substantially above the cost of providing a service or any charge for a service that is substantially inferior to that which the U.S. flag air carrier could have provided for itself, at the same cost, by contract or otherwise (see also §91.3).

(c) In determining the amount of compensatory charge:

1. The total amount of excessive or otherwise discriminatory charges levied against U.S. flag air carriers will be estimated in dollars.

2. The total volume of operations to the United States by air carriers of the nation concerned will be estimated for the succeeding six-month period.

3. The total amount of excessive or otherwise discriminatory charges in paragraph (c)(1) of this section will be divided by the total volume of operations in paragraph (c)(2) of this section, and

4. The quotient thus computed (which may be adjusted to reflect the type of aircraft) will constitute the compensatory charge to be collected as a condition to acceptance of the general declaration at the time of landing or takeoff of such air carriers of the nation concerned.

§91.13 Refunds.

(a) Where, in his discretion, the Secretary finds that good cause has been shown, the Secretary may authorize a refund of collected compensatory charges. For purposes of this section, good cause includes, but is not limited to, an error of fact, a miscalculation, or a determination that an original conclusion of entitlement was insufficient, invalid, erroneous or invalidated by subsequent events.

(b) Notwithstanding the provisions of §91.9(e) the Secretary may suspend for a reasonable time the issuance of a certificate of entitlement upon a showing by a payor of compensatory charges that there is a substantial likelihood that the payor will make a showing of good cause under §91.13(a).

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, the issuance of a certificate of entitlement under §91.9(e) or the distribution to U.S. flag air carriers of funds collected under this part shall be with prejudice to any claim for refund under this section.
PART 92—RECOVERING DEBTS TO THE UNITED STATES BY SALARY OFFSET

Sec. 92.1 Purpose.
92.3 Scope.
92.5 Definitions.
92.7 Notice, hearing, written response and decision.
92.9 Exceptions to notice, hearing, written response, and final decision.
92.11 Demand for payment.
92.13 Request for hearing.
92.15 Request for hearing after time expires.
92.17 Form of hearings and written decisions.
92.19 Obtaining the services of a hearing officer.
92.21 Deduction from pay.
92.23 Collection.
92.25 Source of deductions.
92.27 Duration of deductions.
92.29 Limitation on amount of deductions.
92.31 Liquidation from final payment.
92.33 Recovery from other payments due a separated employee.
92.35 Interest, penalties and administrative costs.
92.37 Non-waiver of rights by payment.
92.39 Refunds.
92.41 Requesting recovery when the Department is not the paying agency.
92.43 Requests for recovery when the Department is the paying agency.
92.45 Other debt collections.

SOURCE: 53 FR 4171, Feb. 12, 1988, unless otherwise noted.

§ 92.1 Purpose.

(a) Collects debts owed to the United States by current and former DOT employees;

(b) Determines and collects interest and other charges on that indebtedness.

(c) Offsets the salary of DOT employees to collect debts owed to the United States by those employees; and,

(d) Obtains salary offset to collect debts owed to the United States by employees of other agencies under programs administered by DOT.

§ 92.3 Scope.

The provisions of this part are applicable to the indebtedness of a current or former employee of DOT incurred under any program administered by DOT. The provisions of this part do not apply to the collection of indebtedness by authority other than 5 U.S.C. 5514.

§ 92.5 Definitions.

As used in this part:

(a) Agency means an Executive Agency as defined by section 105 of title 5, United States Code, the U.S. Postal Service, the U.S. Postal Rate Commission, a Military Department as defined by section 102 of title 5, United States Code, an agency or court in the judicial branch, an agency of the legislative branch, and any other independent establishments which are entities of the Federal Government. In DOT each operating element will act for the agency in collecting debts under this rule.

(b) Creditor agency means the agency to which the debt is owed.

(c) Debt means an amount owed to the United States from sources which include, but are not necessarily limited to, erroneous payments made to employees, overpayments of benefits, salary or other allowances, loans insured or guaranteed by the United States and all other amounts due the United States from fees, leases, rents, royalties, services, sales of real or personal property, overpayments, penalties, damages, interest, fines and forfeitures (except those arising under the Uniform Code of Military Justice) and all other similar sources. This term does not include a Government claim arising under the Internal Revenue Code of 1954 (26 U.S.C. 1-9602) as amended; the Social Security Act (42 U.S.C. 301-1307f); the tariff laws of the United States; or any case where collection of
Office of the Secretary of Transportation § 92.7  

(a) Except as provided in §92.9 of this part, each employee from whom the department proposes to offset a debt against the Federal pay of an employee who is indebted to the United States under a program administered by DOT under these regulations is entitled to receive a minimum of 30 days written notice as described in §92.11 of this part (see also §92.21(a)).  

(b) Each employee owing a debt to the United States which will be collected by salary offset is entitled to petition for a hearing before collection starts. This petition shall be filed directly with the accounting or finance office of the DOT creditor operating element which shall make appropriate hearing arrangements consistent with law and regulations. The DOT creditor operating element shall provide an explanation of the rights of the employee. If a hearing is provided, the following issues shall be heard:

(1) Federal Claims Collection Standards, 4 CFR Ch. II, jointly published by the Department of Justice and the General Accounting Office.

(j) Hearing means an informal conference before a hearing official in which the employee and the DOT operating element are given an opportunity to present evidence, witnesses, and argument. The hearing official shall be either an administrative law judge or an individual not under the supervision or control of the Department.

(k) Paying agency means the agency authorizing the payment of the employee's current pay.

(l) Salary offset means an administrative offset to collect a debt under 5 U.S.C. 5514 by deduction(s) at one or more officially established pay intervals from the current pay account of a present or former employee with or without his or her consent. It includes a single offset from the final salary of an employee whose employment ends.

(m) Waiver means the cancellation, remission, forgiveness or non-recovery of a debt allegedly owed by an employee to an agency as permitted or required by 5 U.S.C. 5584, 5 U.S.C. 8346(b), 10 U.S.C. 2774, or 32 U.S.C. 716, or any other law.

§92.7 Notice, hearing, written response and decision.

(a) Except as provided in §92.9 of this part, each employee from whom the department proposes to offset a debt against the Federal pay of an employee who is indebted to the United States under a program administered by DOT under these regulations is entitled to receive a minimum of 30 days written notice as described in §92.11 of this part (see also §92.21(a)).

(b) Each employee owing a debt to the United States which will be collected by salary offset is entitled to petition for a hearing before collection starts. This petition shall be filed directly with the accounting or finance office of the DOT creditor operating element which shall make appropriate hearing arrangements consistent with law and regulations. The DOT creditor operating element shall provide an explanation of the rights of the employee. If a hearing is provided, the following issues shall be heard:
§ 92.9 Exceptions to notice, hearing, written response, and final decision.

(a) Exceptions. The procedural requirements of 5 U.S.C. 5514 do not apply to recovery by way of retroactive deductions for administrative adjustments associated with the Federal benefits program. In such cases the content of the notification to employees is stated in §92.9(b).

(b) Simplified procedures to be followed. In the event that a retroactive deduction from pay or allowances is required to recover an insufficiency of deductions arising through normal processing delays, and those insufficient deductions did not occur in more than four pay periods, rather than following the specific procedures required by 5 U.S.C. 5514(a)(2), and set forth in §92.11 through §92.17 of this part, the DOT creditor operating element shall issue in advance of the collection a simplified notice to the employee that:

(1) Because of the employee's election for changes in voluntary payroll deduction, corresponding deductions shall be imposed on the employee’s salary to cover the period between the effective date of the election and the first regular withholding. The employee may dispute the amount of the retroactive collection by notifying his or her accounting or finance officer; or

(2) Due to a normal ministerial adjustment in pay or allowances which could not be placed into effect immediately, future pay will be reduced to permit the DOT creditor operating element to recover any excess pay or allowances received by the employee. The employee may dispute the amount of the retroactive collection by notifying his or her accounting or finance officer.

(c) Limitation on exceptions. The exceptions described in paragraph (a) of this section shall not include a recovery required to be made for any reason other than routine processing delays in putting the change into effect, even if the period of time for which the amounts must be retroactively recovered is less than four pay periods. If normal processing delays exceed four pay periods, then the full procedures prescribed under 5 U.S.C. 5514 and §§92.11 through 92.17 of this part will be extended to the employee.

§ 92.11 Demand for payment.

(a) The DOT creditor operating element shall send a debtor a total of three progressively stronger written demands at not more than 30-day intervals, unless a response to the first or second demand indicates that a further demand would be futile and the debtor's response does not require rebuttal (see also §92.21(a)). Other information may also indicate that additional written demands are unnecessary.

(b) The initial written demand for payment shall inform the debtor of:

(1) The basis for the indebtedness;

(2) The amount of the claim;

(3) The date by which payment is to be made:

(4) The debtor’s liability for interest, penalties and administrative charges in accordance with 31 U.S.C. 3717 and §92.35 of this part, if payment is not received within 30 days of the due date (see §92.35 for details regarding interest, penalties and administrative costs);

(5) The intent of the agency to collect by salary offset, including asking the assistance of other Federal agencies to help in the offset whenever possible, if the debtor:

(i) Has not made payment by the payment due date;

(ii) Has not requested a review of the claim within the agency as set out in paragraph (b)(8) of this section; or

(iii) Has not made an arrangement for payment by the payment due date;

(6) The possible submission of claims to a collection agency or referral to the General Accounting Office or the Department of Justice for litigation in
§ 92.13 Request for hearing.

(a) The employee shall be advised in the notification that a hearing may be requested by filing a written petition within 15 calendar days of receipt of the notification, addressed to the chief accounting officer or other official who is to rule on the request for review. A petition shall be in writing and shall set forth the specific reasons why the employee believes that the claim should not be sustained, amended, or canceled. The DOT creditor operating element shall acknowledge receipt of the request for a review, and upon completion of consideration shall notify the employee whether its determination has been sustained, amended, or canceled within 15 days of the receipt of the request for a review. If the DOT creditor operating element sustains the determination, it shall notify the debtor of its intent to collect by salary offset unless payment is received within 15 days of the mailing of the notification of its determination following a review of the claim. If the DOT creditor operating element amends the determination, it shall notify the debtor of the amendment and the basis for the amendment. If the DOT creditor operating element cancels the determination, it shall notify the debtor of the cancellation and the basis for the cancellation.

(b) The employee shall be provided with a written explanation of the consequences of signing a confession of judgment note. The employee shall sign a statement acknowledging receipt of the written explanation which shall recite that the statement was read and understood before execution of the note and that the note is being signed knowingly and voluntarily. Some form of evidence of these facts shall be maintained in the agency's file on the employee.

(c) The fact that amounts paid on or deducted from the debt which are later waived or found not owed to the United States will be promptly refunded to the employee unless there are applicable contractual or statutory provisions to the contrary.

(d) The name, address, and telephone number of the accounting or finance officer who may be contacted if the employee wishes to review the records or to obtain information.

§ 92.13 Request for hearing.

(a) The employee shall be advised in the notification that a hearing may be requested by filing a written petition within 15 calendar days of receipt of the notification, addressed to the chief accounting officer or other official who is to rule on the request for review. A petition shall be in writing and shall set forth the specific reasons why the employee believes that the claim should not be sustained, amended, or canceled. The DOT creditor operating element shall acknowledge receipt of the request for a review, and upon completion of consideration shall notify the employee whether its determination has been sustained, amended, or canceled within 15 days of the receipt of the request for a review. If the DOT creditor operating element sustains the determination, it shall notify the debtor of its intent to collect by salary offset unless payment is received within 15 days of the mailing of the notification of its determination following a review of the claim. If the DOT creditor operating element amends the determination, it shall notify the debtor of the amendment and the basis for the amendment. If the DOT creditor operating element cancels the determination, it shall notify the debtor of the cancellation and the basis for the cancellation.

(b) The employee shall be provided with a written explanation of the consequences of signing a confession of judgment note. The employee shall sign a statement acknowledging receipt of the written explanation which shall recite that the statement was read and understood before execution of the note and that the note is being signed knowingly and voluntarily. Some form of evidence of these facts shall be maintained in the agency's file on the employee.

(c) The fact that amounts paid on or deducted from the debt which are later waived or found not owed to the United States will be promptly refunded to the employee unless there are applicable contractual or statutory provisions to the contrary.

(d) The name, address, and telephone number of the accounting or finance officer who may be contacted if the employee wishes to review the records or to obtain information.
§ 92.15 Request for hearing after time expires.

The Department may accept late requests for a hearing if the employee can show that delay in requesting a hearing beyond the period provided in the notice described in § 92.11 of this part was caused by circumstances beyond his or her control or because of failure to receive notice of the time limit (unless he or she was otherwise aware of it) or because of new information.

§ 92.17 Form of hearings and written decisions.

(a) Hearings shall consist of informal conferences before an administrative law judge or other hearing official (see § 92.5(j)) in which the employee and the DOT creditor operating element are given full opportunity to present evidence, witnesses, and argument. The DOT operating element will maintain a summary record of a hearing provided under these procedures.

(b) Written decisions provided after a request for hearing shall, at a minimum, summarize the evidence alleged to substantiate the nature and origin of the alleged debt; the administrative law judge's or other hearing official's analysis, findings, and conclusions; the amount and validity of the alleged debt; and, where applicable, the repayment schedule.

(c) A copy of the administrative law judge's or other hearing official's final decision shall be provided to the employee as well as the chief of the office authorized to collect debts by deduction from salary.

(d) The decision of the administrative law judge or other hearing official shall be final and binding on the parties.

§ 92.19 Obtaining the services of a hearing official.

(a) Where a DOT operating element is the creditor agency, the chief of the appropriate accounting or finance office shall schedule a hearing before an administrative law judge or other hearing official.

(b) If another (non-DOT) agency is the creditor agency, then it is the responsibility of that agency to arrange for a hearing if one is requested.

(c) Agents for the paying agency are designated in appendix A to 5 CFR part 581. (This appendix lists the agents designated to accept legal process for the executive branch, the U.S. Postal Service, the Postal Rate Commission, the District of Columbia, American Samoa, Guam, the Virgin Islands, and the Smithsonian Institution.)

§ 92.21 Deduction from pay.

(a) After other, less severe collection actions have failed, the DOT operating element (see § 92.5(g)) may implement steps to obtain collection by salary offset. The method and the amount of the salary offset shall be the method and amount stated in the creditor agency's demand letter (see § 92.11) or notice (see § 92.7), or, if applicable, in the decision of an administrative law judge or other hearing official after an employee-requested hearing on the matter. If a DOT operating element is the creditor, the procedures stated in § 92.11 shall be followed.

(b) Before a collection by salary offset may be made, the chief of the accounting or finance office of the paying DOT operating element shall be furnished with certified documentation by the creditor agency indicating that the creditor agency has sent the employee a demand letter pursuant to § 92.11 of this part stating as a minimum:

(1) The nature and amount of the indebtedness and the intention of the agency to initiate, at the expiration of thirty days, a proceeding to collect the
(2) That the employee has the opportunity to inspect and copy Government records relating to the debt;

(3) That the employee has the opportunity to enter into a written agreement with the agency to establish a schedule for the repayment of the debt;

(4) That the employee has an opportunity for a hearing on the determination of the agency concerning the existence or the amount of the debt, and in the case of an individual whose repayment schedule is established other than by a written agreement as described in paragraph (b)(3) of this section concerning the terms of the repayment schedule; and

(5) That the creditor agency’s regulations implementing 5 U.S.C. 5514 have been approved by OPM (see 5 CFR 550.1108(a)).

(c) Where a hearing has been held, a copy of the decision of the administrative law judge or other hearing official must be furnished to the chief of the accounting or finance office of the paying DOT operating element before collection of the indebtedness by salary offset may be initiated. The method and amount of the offset will be as stated in the decision.

§ 92.23 Collection.

(a) A debt shall be collected in a lump sum or by installment deductions at officially established pay intervals from an employee’s current pay account, unless the employee and the DOT operating element agree to alternative arrangements for payment (see §92.11(b)(9) describing such voluntary repayment arrangements). The alternative arrangement shall be in writing, signed by both the employee and the chief of the appropriate accounting or finance office, and shall be documented in the DOT operating element’s files.

(b) Under 31 U.S.C. 3716 and 4 CFR 102.3(b)(3), agencies may not initiate offset to collect a debt more than 10 years after the Government’s right to collect the debt accrued, unless facts material to the Government’s right to collect the debt were not known by the DOT operating element’s official or officials charged with the responsibility to discover and collect the debt.

§ 92.25 Source of deductions.

Except as provided in §92.31 and §92.33 of this part (with respect to separated employees), the paying DOT operating element will make deductions only from disposable pay (see §92.5(f)).

§ 92.27 Duration of deductions.

Debts shall be collected in one lump sum where possible. However, if the employee is financially unable to pay in one lump sum or the amount of the debt exceeds 15 percent of disposable pay payable in one pay period, collection will be made in installments. Such installment deductions will be made over a period not greater than the anticipated period of employment or active duty, as the case may be, except as provided in §§92.29, 92.31, and 92.33 of this part.

§ 92.29 Limitation on amount of deductions.

The size and frequency of installment deductions shall bear a reasonable relation to the size of the debt and the employee’s ability to pay. However, the amount deducted for any period may not exceed 15 percent of the disposable pay from which the deduction is made, unless the employee has agreed in writing to the deduction of a greater amount.

§ 92.31 Liquidation from final payment.

If the employee retires, resigns his or her employment, is terminated, or the employment or period of active duty ends before collection of the debt is completed, there shall be an offset from subsequent payments of any nature (e.g., final salary, lump sum leave, etc.) due the employee from the DOT operating element on the date of separation to the extent necessary to liquidate the debt.

§ 92.33 Recovery from other payments due a separated employee.

If the debt cannot be liquidated by offset from any final payment due the employee as of the date of separation,
§ 92.35 Interest, penalties and administrative costs.

(a) Where a DOT creditor operating element (see §92.5(g)) is the creditor, it shall charge interest on an outstanding debt at the rate published by the Secretary of the Treasury in accordance with 31 U.S.C. 3717. The rate of interest assessed shall be the rate of the current value of funds to the United States Treasury (i.e., the Treasury tax and loan account rate), as prescribed and published by the Secretary of the Treasury in the FEDERAL REGISTER and the Treasury Financial Manual Bulletins annually or quarterly, in accordance with 31 U.S.C. 3717. The DOT creditor operating element shall charge a penalty of six percent a year, in addition to interest, on any portion of a debt that is more than 90 days past due. It shall assess administrative charges to cover additional costs incurred in processing and handling the debt beyond the payment due date. The imposition of interest, penalties and administrative charges is made in accordance with 31 U.S.C. 3717 and 4 CFR 102.13.

(b) Interest on debt shall begin to accrue on the date on which the debtor is first sent or delivered notice of the debt and of the interest requirements or, in the case of advance billings, on the calendar date following the specified due date of the debt provided the advance billing gives notice of the interest requirements for late payment. Interest on the debt shall continue to accrue until payment is received. Interest shall be calculated only on the principal of the debt (simple interest). The rate of interest charged shall be the rate in effect on the date from which interest begins to accrue, and shall remain fixed for the duration of the indebtedness.

(c) A DOT creditor operating element shall waive the monthly interest on debt that is paid within 30 calendar days after the date on which interest began to accrue.

(d) A DOT creditor operating element may waive interest, penalties and/or administrative charges if it finds that:

1. The debtor is unable to pay any significant sum toward the claim within a reasonable period of time;

2. Collection of interest, penalties or administrative charges will jeopardize collection of the principal of the debt;

3. It is otherwise in the best interest of the United States, including the situation where an offset or installment payment agreement is in effect.

§ 92.37 Non-waiver of rights by payment.

An employee's payment or agreement to pay, whether voluntary or involuntary, of all or any portion of an alleged debt being collected pursuant to these procedures shall not be construed as a waiver of any rights which the employee may have under this part to the extent of such payment or agreement.

§ 92.39 Refunds.

(a) Amounts paid or deducted from the account of a current or former employee of the United States Government, pursuant to this part, for a debt which is found not owing to the United States shall be promptly refunded to the employee.

(b) Amounts which are waived shall, after proper application, be promptly returned after approval of the application.

§ 92.41 Requesting recovery when the Department is not the paying agency.

(a) Format of the request for recovery.

1. Where the DOT operating element is the creditor agency and another agency is the paying agency, the chief of the accounting of finance office of the appropriate DOT operating element (see §92.5(g)) shall complete and certify the “Debt Claim Form” (see Attachment 1), and attach a copy of the demand letter sent to the employee pursuant to §92.11 with a statement of the employee’s response thereto, or, if a hearing was held pursuant to §92.13, attach a copy of the decision of the administrative law judge or other hearing
§ 92.43 Requests for recovery when the Department is the paying agency.

(a) Incomplete request for recovery. If the request for recovery received by

The DOT creditor operating element shall certify that the employee owes the debt, the amount and basis of the debt, the date on which payment is due, the date the Government's right to collect the debt accrued, and that the Departmental regulations implementing 5 U.S.C. 5514 have been approved by the Office of Personnel Management.

(2) If the collection is to be made in voluntary or involuntary installments (see Attachment 1), the DOT creditor operating element shall also advise the paying agency of the amount of the installments and, if a date for the beginning of payments other than the next officially established pay period is required, the date of the first installment.

(3) Unless the employee has voluntarily agreed to the salary offset in writing or, in the absence of such agreement, has signed a statement acknowledging receipt of the procedures required by 5 U.S.C. 5514(a)(2) and the writing or statement is attached to the debt claim form, the DOT creditor operating element shall also indicate the action(s) taken under 5 U.S.C. 5514 and give the date(s) the action(s) were taken.

(b) Submitting the request for recovery—

(1) Current employees. The DOT creditor operating element shall submit the “Debt Claim Form” (Attachment 1) to the employee's paying agency.

(2) Employees who are separating or have separated—

(i) Employees who are in the process of separating. If the employee is in the process of separating, the DOT creditor operating element shall submit its debt claim (Attachment 1) to the employee's paying agency for collection as provided in §92.31 of this part. The paying agency is required to certify the total amount of its collection made or to be made prior to separation and notify the DOT creditor operating element and the employee as provided in §92.41(b)(2)(iii). If the paying agency is aware that the employee is entitled to payments from the Civil Service Retirement and Disability Fund, or other similar payments, it shall advise the DOT operating element and send a copy of the debt claim and certification to the agency responsible for making such payments as notice that a debt is outstanding.

(ii) Employees who have already separated. If the employee has already separated and all payments due from his or her former paying agency have been paid, the DOT operating element may request, unless otherwise prohibited for example by court order, that monies which are due and payable to the employee from the Civil Service Retirement and Disability Fund (5 CFR 891.1801 et seq.) or other similar funds, be administratively offset in order to collect the debt (see 31 U.S.C. 3716 and the FCCS).

(iii) Employees who transfer from one paying agency to another. If, after the DOT creditor operating element has submitted the debt claim to the employee's paying agency, the employee transfers to a position served by a different paying agency before the debt is collected in full, the paying agency from which the employee separates shall certify the total amount of the collection made on the debt. One copy of the certification shall be furnished to the employee and another to the DOT operating element along with notice of the employee's transfer. The original of the debt claim form shall be inserted in the employee's official personnel folder along with a copy of the certification of the amount which has been collected. Upon receiving the official personnel folder, the new paying agency shall, in accordance with the DOT operating element's properly certified claim, resume the collection from the employee's current pay account and notify the employee and the DOT creditor operating element of the resumption. The DOT operating element is not required to repeat the required collection procedures from the beginning in order to resume the collection. However, it shall be the responsibility of the DOT creditor operating element to review the debt upon receiving the former paying agency's notice of the employee's transfer to make sure the collection is resumed by the new paying agency.
§ 92.45 Other debt collections.

49 CFR Subtitle A (10-1-98 Edition)

the chief of the accounting or finance office of the appropriate DOT operating element is incomplete in any respect (see §92.21(b)) including, but not limited to, the failure to certify in writing that the employee owes the debt, the amount and basis of the debt, the date on which payment(s) is due, the date the creditor agency's right to collect the debt first accrued, and that the creditor agency's regulations implementing 5 U.S.C. 5514 were approved by OPM, the request shall be returned to the creditor agency with a statement of the deficiency. No action to implement salary offset may be initiated until a complete offset request has been received.

(b) Complete request for recovery. If a complete request for recovery is received by the chief of the accounting or finance office of the appropriate DOT operating element, a copy of the request and any supporting documentation shall be transmitted to the appropriate payroll office, and deductions shall be scheduled to begin at the next officially established pay interval. A copy of the request and any supporting documentation shall be provided to the debtor, along with a notice of the date deductions will begin.

(c) The DOT operating element may not review the merits of the creditor agency's determination with respect to the amount or validity of the debt as stated in the request for recovery.

§ 92.45 Other debt collections.

Separate rules exist for general collection of debts owed the United States under 31 U.S.C. 3711, 3716-18, 4 CFR Ch. II.

PART 93—AIRCRAFT ALLOCATION

§ 93.1 Issuance of aircraft allocations.

From time to time, the Director, Office of Emergency Transportation, issues planning orders allocating aircraft to the Department of Defense, identified by FAA registration number, for the Civil Reserve Air Fleet Program, or as a reserve fleet for use in certain contingencies in the Civil Reserve Air Fleet Program of the Department of Defense. The current listing of aircraft allocations may be obtained upon request from the Director, Office of Emergency Transportation, Department of Transportation, Washington, DC 20590.

§ 93.3 Reporting requirements.

In the event any aircraft identified in the allocations in effect:

(a) Is destroyed or suffers major damage the owner or operator, or both, shall give immediate notice thereof to the Director, Office of Emergency Transportation; or

(b) Is sold, leased, or otherwise transferred, the transferor or owner, or both, shall give immediate notice thereof to the Director, Office of Emergency Transportation, together with full information concerning the identity of the transferee, the date and place of transfer, and the terms and conditions of the transfer.

[32 FR 20778, Dec. 23, 1967]

PART 95—ADVISORY COMMITTEES

§ 95.1 Applicability.

(a) This part prescribes uniform regulations governing the formation and use of advisory committees by the Office of the Secretary of Transportation, the U.S. Coast Guard, the Federal Aviation Administration, the Federal Highway Administration, the Federal Railroad Administration, the Urban Mass Transportation Administration, the National Highway Traffic Safety Administration, and the St. Lawrence Seaway Development Corporation. It does not apply to the National Transportation Safety Board.

(b) This part applies to advisory committees formed or used by the organizations named in paragraph (a) of this section. It also applies to those organizations whenever they affiliate with, participate in, or use similar advisory committees formed or used by other departments or agencies of the Executive Branch of the Government, unless specifically exempted under paragraph (c) of this section. Advisory committees whose membership includes “consultants and advisers” are subject to this part regardless of whether those members are considered to be Government employees on the days they attend committee meetings.

(c) This part does not apply to:

(1) Any advisory committee the purpose, composition, and operation of which is specified by statute, unless and to the extent that statute authorizes the President to prescribe regulations for the committee’s formation and use.

(2) Any advisory committee composed wholly of representatives of State or local agencies or of charitable, religious, educational, civic, social welfare, or similar nonprofit organizations.

(3) Any local, regional, or national committee whose only function is to disseminate information for public agencies, or any local civil committee whose primary function is to perform a
§ 95.3 Definitions.

For the purposes of this part:

(a) Advisory committee includes any committee, board, commission, council, conference, panel, task force, or other similar group, or any subcommittee, or other subgroup thereof, which is formed within the Department in the interest of obtaining advice or recommendations, or for any other purpose, and which is not composed wholly of officers or employees of the Government. It also includes any committee, board, commission, council, conference, panel, task force, or other similar group, or any subcommittee or subgroup thereof, which is not formed within the Department, but only during the period it is being used by the Department in the same manner as a Government-formed advisory committee.

(b) Industry advisory committee includes any advisory committee composed predominately of members or representatives of a single industry or group of related industries, or any subdivision of a single industry, made on a geographic, service, or product basis.

(c) Department means Department of Transportation.

(d) Secretary means the Secretary of Transportation.

§ 95.5 Use of advisory committees generally.

(a) Advisory committees are formed to provide a means of obtaining advice, views, and recommendations of benefit to the operations of the Government from industrialists, businessmen, scientists, engineers, educators, and other public and private citizens whose experience and talents would not otherwise be available to the Department. An advisory committee may be used when its counsel is desired on matters under consideration by any part of the Department. Unless specifically authorized by law to the contrary, no advisory committee may be used for functions which are not solely advisory.

Determinations of action to be taken with respect to matters upon which an advisory committee advises or recommends may be made only by a full-time, salaried officer or employee of the Government.

(b) An advisory committee may be established to serve the Department as a whole, the Office of the Secretary, any operating administration, any combination of the Office of the Secretary and the operating administrations, or the operating administrations collectively. However, no advisory committee may be formed or used unless (1) the committee is specifically authorized by law, or (2) the committee is specifically approved, in writing, by the Secretary or his designee, to be in the public interest in connection with the performance of duties imposed on the Department or any part of it.

§ 95.7 Industry advisory committees: Membership.

Each industry advisory committee must be reasonably representative of the group of industries, the single industry, or the product segment thereof to which it relates, taking into account the size and function of business enterprises in the industry or industries and their location, affiliation, and competitive status among other factors. Selection of industry members shall, unless otherwise provided by statute, be limited to persons actively engaged in operations in the particular industry, industries, or segments concerned, except in cases in which the Secretary or his designee considers that such a limitation would interfere with effective committee operations.

§ 95.9 Meetings; other than industry advisory committees.

(a) Meetings of an advisory committee, other than an industry advisory committee, may be held only at the call, or with the advance approval, of a full-time, salaried officer or employee of the Department, with an agenda formulated or approved by that officer or employee.

(b) Each meeting shall be chaired by, or be conducted in the presence of, a full-time, salaried officer or employee of the Government who is required to
§ 95.11 Meetings; industry advisory committees

(a) Meetings of an industry advisory committee may be held only at the call of a full-time, salaried officer or employee of the Department, with an agenda formulated by that officer or employee.

(b) Each meeting shall be chaired by a full-time, salaried officer or employee of the Government who is required to adjourn the meeting whenever he considers it to be in the public interest. The Secretary or his designee may waive the requirements of this paragraph in any case in which he determines that:

(1) Compliance with that requirement would interfere with the proper functioning of the committee or would be impracticable;

(2) Adequate provisions are made to assure otherwise that the operation of the committee is subject to Government control and purpose; and

(3) The waiver is in the public interest.

§ 95.13 Antitrust laws.

The activities of advisory committees are subject to the antitrust laws and committee members are not immune from prosecution under those laws. The Department of Justice takes the position that it retains complete freedom to institute proceedings, either civil or criminal, or both, in the event that any particular plan or course of action is used to accomplish unlawful private ends, and to institute civil actions to enjoin continuance of any act or practices found not to be in the public interest and persisted in after notice to desist. This part is intended to minimize the possibility of violating the antitrust laws. Industry representatives and Government personnel officially connected with advisory committees should be advised of the antitrust aspects of the committee activity.

§ 95.15 Conflicts of interest statutes, orders, and regulations.

There is a body of statutes, orders, and regulations prescribed by the President, the Secretary, and other authorities, dealing with conflicts of interest and designed to prevent any conflict between the official duties and...
status of Government officers and employees and their private interest. Government officers and employees are required to comply with all applicable laws, orders, and regulations. Part 99 of this chapter sets forth a comprehensive list of the conflicts of interest statutes and guidelines for the employees of the Department to follow in the application of these statutes to part-time advisers and consultants to the Government. Any officer or employee appointed to serve on an advisory committee who has any doubt or question respecting a possible conflict of interest shall seek specific legal advice on his individual situation.

PART 98—ENFORCEMENT OF RESTRICTIONS ON POST-EMPLOYMENT ACTIVITIES

Subpart A—Administration of Enforcement Proceedings

§ 98.1 Purpose.

The purpose of this part is to set forth the administrative enforcement procedures that the Department of Transportation will follow when there is an allegation that a former employee of the Department has violated 18 U.S.C. 207.

§ 98.2 Definitions.

For the purposes of this part, the following definitions apply:

(a) Administration means each of the following:
   (1) The United States Coast Guard.
   (2) The Federal Aviation Administration.
   (3) The Federal Highway Administration.
   (4) The Federal Railroad Administration.
   (6) The Urban Mass Transportation Administration.
   (7) The Saint Lawrence Seaway Development Corporation.
   (8) The Research and Special Programs Administration.
   (9) The Maritime Administration.

(b) Department means the Department of Transportation.

(c) 18 U.S.C. 207 means 18 U.S.C. 207 (a), (b), or (c) or any regulations issued under 18 U.S.C. 207.

(d) Secretary means the Secretary of Transportation.

§ 98.3 Reports of apparent violations.

Any person may report, to the Assistant General Counsel for Environmental, Civil Rights and General Law, an apparent violation by a former employee of the Department of Transportation.

§ 98.4 Initiation of administrative disciplinary proceeding.

(a) Whenever the Assistant General Counsel for Environmental, Civil Rights and General Law has determined that there is reasonable cause to believe that a former Departmental employee has violated 18 U.S.C. 207, the Assistant General Counsel for Environmental, Civil Rights, and General Law:

   (1) Shall expeditiously provide that information to the Director, Office of Government Ethics, and to the Criminal Division, Department of Justice; and
   (2) After coordinating any proceeding with the Criminal Division, Department of Justice, to avoid prejudicing criminal proceedings, may institute an administrative disciplinary proceeding in accordance with this part.
§ 98.5 Former employee response to notice.

(a) Within 30 working days after service of a notice pursuant to §98.4(c), the former employee may submit to the Departmental counsel in writing:

1. A request for a hearing, which, if not all issues are disputed by the former employee, should specify those issues that are;

2. Any evidence and arguments in lieu of a hearing or

3. A statement that the allegations are true and set forth any factors that should be considered in determining the administrative sanction to be imposed.

(b) The Department shall deem the right to a hearing to have been waived by the former employee if the former employee does not submit a request under paragraph (b)(1) of this section within 30 working days after service of notice pursuant to §98.4(c).

§ 98.6 Examiner.

(a) The presiding official at a hearing held under this part and the deciding official under §98.9 of this part (hereinafter referred to as the “examiner”) shall be designated by the Secretary.

(b) The examiner shall not have been involved in any of the events specified in the allegations, shall not have been involved in the investigation of the allegations and the institution of the proceedings under this part, and shall not be or have been employed by the administration, or the Office of the Secretary if applicable, in which the alleged violation occurred.

§ 98.7 Hearing.

(a) The examiner shall, within 30 working days of a request for a hearing under §98.5(b), schedule the hearing for a reasonable time, date, and place. The examiner shall grant any delays or continuances that the examiner determines to be necessary and appropriate for fair resolution of the case, with due regard to the former employee's need for adequate time to prepare a defense and for expeditious resolution of allegations that may be damaging to that former employee's reputation.

(b) The following rights shall be granted to a former employee who requests a hearing under §98.5(b):

1. To represent oneself or to be represented by counsel.

2. To introduce and examine witnesses and to submit physical evidence.

3. To confront and cross-examine adverse witnesses.

4. To present oral argument.

5. To obtain a transcript or recording of the hearing on request from the official reporter upon payment of the fees fixed therefor.

(c) In a hearing under this part, the Federal Rules of Civil Procedure and Evidence do not apply. However, the examiner may make such orders and determinations regarding discovery, admissibility of evidence, conduct of examination and cross-examination, and similar matters the examiner deems necessary or appropriate to ensure orderliness in the proceedings and fundamental fairness to the parties.
§ 98.8 Decision by examiner.
(a) In a hearing under § 98.7 of this part, the Departmental counsel must establish a violation by a preponderance of the evidence.
(b) The examiner shall make a decision exclusively on matters of record in the proceeding and shall set forth in the decision:
   (1) All findings of fact relevant to the matters at issue;
   (2) All conclusions of law relevant to the matters at issue; and
   (3) The sanction to be imposed, if any.

§ 98.9 Decision if hearing waived.
(a) If the former employee waives or, in accordance with § 98.5(b) of this part, is deemed to have waived a hearing under this part, the examiner shall, after review of the record as it exists, make a decision as to whether the former employee is in violation of 18 U.S.C. 207.
(b) In a decision under paragraph (a) of this section, the requirements of § 98.8 of this part apply.

§ 98.10 Appeal.
(a) Within 30 working days after receipt of a decision issued under § 98.8 or § 98.9 of this part, either the Departmental counsel or the former employee may appeal the decision to the Secretary.
(b) In making a decision on an appeal, the Secretary shall consider only the evidence admitted during the prior proceeding and contained in the record of that proceeding.
(c) If the Secretary modifies or reverses the initial decision, the Secretary shall specify the findings of fact and conclusions of law that are different from those of the examiner.

§ 98.11 Final administrative decision.
The final administrative decision under this part shall be:
(a) The decision of the examiner under § 98.8(b), if there is no appeal under § 98.10;
(b) The decision by the examiner under § 98.9, if a hearing is waived or is deemed to have been waived and there is no appeal under § 98.10; or
(c) The decision of the Secretary on an appeal under § 98.10.

Subpart B—Administrative Sanctions
§ 98.12 Administrative sanctions.
(a) The Secretary, in decisions under § 98.10 of this part, and the examiner, in decisions under § 98.8 and § 98.9 of this part, may impose an administrative sanction against a former employee who, after a final administrative decision under this part, is found to be in violation of 18 U.S.C. 207.
(b) The administrative sanctions that may be imposed under subsection (a) of this section are:
   (1) Prohibiting the former employee from making, on behalf of any other person except the United States, any formal or informal appearance before, or, with the intent to influence, any oral or written communication to, the Department of any of its administrations on any matter of business for a period not to exceed five years; or
   (2) Taking other appropriate disciplinary action, such as a reprimand or suspension from participation in a particular matter or matters before the Department.

Subpart C—Judicial Review
§ 98.13 Judicial review.
Any former employee found to have violated 18 U.S.C. 207 by a final administrative decision under this part may seek judicial review of disciplinary action imposed under this part.

PART 99—EMPLOYEE RESPONSIBILITIES AND CONDUCT

Subpart A—General
Sec. 99.735-1 Cross-reference to ethical conduct standards and financial disclosure regulations.

Subparts B-E [Reserved]

Subpart F—Responsibilities of the Government Employee and Special Government Employee Following Departure From Government Service
99.735-80 Applicability.
99.735-81 Post-employment duties and responsibilities.
§ 99.735-1

Appendix A—Categories of Financial Interests Exempted from the Prohibitions of Section 208(a) of Title 18, United States Code

Appendix B—Reserved

Appendix E—Statutes Regulating Post-Employment Responsibilities of Government and Special Government Employees

Source: Amdt. 99-10, 42 FR 3119, Jan. 14, 1977, unless otherwise noted.

Subpart A—General

§ 99.735-1 Cross-reference to ethical conduct standards and financial disclosure regulations.

Employees of the Department of Transportation are subject to the executive branch-wide Standards of Ethical Conduct at 5 CFR part 2635, the Department of Transportation regulations at 5 CFR part 6001 which supplement the executive branch-wide standards and the executive branch-wide financial disclosure regulations at 5 CFR part 2634.

[61 FR 39904, July 31, 1996]

Subparts B–E [Reserved]

Subpart F—Responsibilities of the Government Employee and Special Government Employee Following Departure From Government Service

§ 99.735-80 Applicability.

The provisions of this subpart apply only to employees who terminated government service before January 1, 1991.

[58 FR 7995, Feb. 11, 1993]

§ 99.735-81 Post-employment duties and responsibilities.

The duties and obligations of a Government employee (or a special Government employee) do not end when government service terminates by retirement, resignation, or for any other reason. In fact the U.S. Code sets forth specific criminal penalties for certain activities by former Government employees. To summarize broadly, section 207 of title 18, U.S. Code, prohibits a former Government employee from acting as agent or attorney in various types of proceedings and matters on behalf of a non-Government party when the employee was involved in the subject matter while working for the Government. The duration and nature of the prohibitions depend in part on the depth of the employee's involvement in the matter while in Government service. Section 208 of the same title relates to activities performed while a Government employee that benefit an employee's prospective private employer. All Government employees and special Government employees should become familiar with the provisions of the two statutory sections cited, which have been made a part of this regulation as appendix E, so that they will be aware of the restrictions which might affect them upon their termination from the Government service.

Appendix A—Categories of Financial Interests Exempted From the Prohibitions of Section 208(a) of Title 18, United States Code

I. (a) Pursuant to the authority of section 208(b) of title 18, United States Code, the following are exempted from the prohibitions of section 208(a) of title 18, United States Code, because they are too remote or too inconsequential to affect the integrity of an employee's services in any matter in which he may act in his governmental capacity.

(1) Any holding in a widely held mutual fund, or regulated investment company, which does not specialize in an industry in which the possibility of conflict arise.

(2) Continued participation in a bona fide pension, retirement, group life, health, or accident insurance plan or other employee welfare or benefit plan that is maintained by a business or nonprofit organization by which the employee was formerly employed, to the extent that the employee's rights in the plans are vested and require no additional services by him or further payments to the plans by the organization with respect to the services of the employee. In addition, to the extent that the welfare or benefit plan is a profit sharing or stock bonus plan, this exemption does not apply and the procedures prescribed in §99.735-15c (c) through (e) will apply to the interest of that employee in the plan.

(3) Participation in an air carrier frequent flyers or substantially similar program that is available to the general public on the same terms and conditions and involves no direct financial interest in the carrier, such
Office of the Secretary of Transportation

as stockholdings or similar types of investment interests.

APPENDIX B-D [RESERVED]

APPENDIX E—STATUTES REGULATING POST-EMPLOYMENT RESPONSIBILITIES OF GOVERNMENT AND SPECIAL GOVERNMENT EMPLOYEES

NOTE: This appendix applies only to employees who terminated government service before January 1, 1991.

§207 Disqualification of former officers and employees in matters connected with former duties or official responsibilities: disqualification of partners.

(a) Whoever, having been an officer or employee of the executive branch of the United States Government, of any independent agency of the United States, or of the District of Columbia, including a special Government employee, after his employment has ceased, knowingly acts as agent or attorney for anyone other than the United States in connection with any judicial or other proceeding, application, request for a ruling or other determination, contract, claim, controversy, charge, accusation, arrest, or other particular matter in which the United States is a party or has a direct and substantial interest in which such officer or employee of the Government or special Government employee participates or has participated personally and substantially as a Government employee through decision, approval, disapproval, recommendation, the rendering of advice, investigation or otherwise, or which is the subject of his official responsibility:

Shall be fined not more than $5,000, or imprisoned not more than one year, or both.

A partner of a present or former officer or employee of the executive branch of the United States Government, of any independent agency of the United States, or of the District of Columbia or of a present or former special Government employee shall as such be subject to the provisions of sections 203, 205, and 207 of this title only as expressly provided in subsection (c) of this section. (Added Pub. L. 87-349, section 1(a), Oct. 23, 1962, 76 Stat. 1123.)

§203 Acts affecting a personal financial interest.

(a) Except as permitted by subsection (b) hereof, whoever, being an officer or employee of the executive branch of the United States Government, of any independent agency of the United States, or of the District of Columbia, including a special Government employee, participates personally and substantially as a Government officer or employee, through decision, approval, disapproval, recommendation, the rendering of advice, investigation or otherwise, in a judicial or other proceeding, application, request for a ruling or other determination, contract, claim, controversy, charge, accusation, arrest, or other particular matter in which, to his knowledge, he, his spouse, minor child, partner, organization in which he is serving as officer, director, trustee, partner or employee, or any person or organization with whom he is

629
negotiating or has any arrangement concerning prospective employment, has a financial interest:

Shall be fined not more than $10,000, or imprisoned not more than two years, or both.

(b) Subsection (a) hereof shall not apply (1) if the officer or employee first advises the Government official responsible for appointment to his position of the nature and circumstances of the judicial or other proceeding, application, request for a ruling or other determination, contract, claim, controversy, charge, accusation, arrest, or other particular matter and makes full disclosure of the financial interest and receives in advance a written determination made by such official that the interest is not so substantial as to be deemed likely to affect the integrity of the officer or employee; or (2) if, by general rule or regulation published in the FEDERAL REGISTER, the financial interest has been exempted from the requirements of clause (1) hereof as being too remote or too inconsequential to affect the integrity of Government officers' or employees' services. (Added Pub. L. 87-849, section 1(a), Oct. 23, 1962, 76 Stat. 1124.)

New 18 U.S.C. 208. This section forbids certain actions by an officer or employee of the Government in his role as a servant or representative of the Government. Its thrust is therefore to be distinguished from that of sections 203 and 205 which forbid certain actions in his capacity as a representative of persons outside the Government.

Subsection (a) in substance requires an officer or employee of the executive branch, an independent agency or the District of Columbia, including a special Government employee, to refrain from participating as such in any matter in which, to his knowledge, he, his spouse, minor child or partner has a financial interest. He must also remove himself from a matter in which a business or nonprofit organization with which he is connected or is seeking employment has a financial interest.

Subsection (b) permits the agency of an officer or employee of the executive branch, an independent agency or the District of Columbia, including a special Government employee, to grant him an ad hoc exemption from subsection (a) if the officer or employee first advises the Government official responsible for appointment to his position of the nature and circumstances of the judicial or other proceeding, application, request for a ruling or other determination, contract, claim, controversy, charge, accusation, arrest, or other particular matter and makes full disclosure of the financial interest and receives in advance a written determination made by such official that the interest is not so substantial as to be deemed likely to affect the integrity of the services which the Government may expect from such officer or employee, or (2) if, by general rule or regulation published in the FEDERAL REGISTER, the financial interest has been exempted from the requirements of clause (1) hereof as being too remote or too inconsequential to affect the integrity of Government officers' or employees' services.

Section 208 is similar in purpose to the former 18 U.S.C. 434 but prohibits a greater variety of conduct than the "transaction of business with *** [a] business entity" to which the prohibition of section 434 was limited. In addition, the provision in section 208 including the interests of a spouse and others is new, as is the provision authorizing exemptions for insignificant interest.

Office of the Secretary of Transportation

Subpart A—General

Section 1. Purpose and policy. (a) These regulations implement Pub. L. 93-236, The Regional Rail Reorganization Act of 1973. They prescribe standards of ethical and other conduct, and reporting requirements, for employees of the United States Railway Association (the Association). The standards and requirements are appropriate to the particular functions and activities of the Association.

(b) The absence of a specific published standard of conduct covering an act tending to discredit an employee of the Association does not mean that the act is condoned, is permissible, or would not call for and result in corrective or disciplinary action.

(c) Personnel of the Association shall observe standards of conduct that will reflect credit on the Association.

Sec. 3. Definitions. Unless the context requires otherwise, the following definitions apply in these regulations:

“Association” means the United States Railway Association established by Pub. L. 93-236.

“Chairman” means the Chairman of the Board of Directors of the Association.

“Employee” means an officer or employee of the Association.

“General Counsel” means the General Counsel of the Association, or his designee.

“ Includes” means “includes but is not limited to.”

“May” is used in a permissive sense to state authority or permission to do the act prescribed, and the words “a person may not” * * *” mean that a person is not required, authorized, or permitted to do the act prescribed.

“Shall” is used in an imperative sense.

Sec. 5. Applicability. These regulations apply to each employee of the Association.

Subpart B—Ethical and Other Conduct and Responsibilities of Employees

Sec. 7. General. (a) Each employee shall avoid any action, whether or not specifically prohibited by these regulations, which might result in or create the appearance of:

(1) Using his Association office for private gain;

(2) Giving preferential treatment to any person;

(3) Impeding the efficiency or economy of the Association;

(4) Losing complete independence or impartiality;

(5) Making an Association decision outside of official channels; or

(6) Affecting adversely the confidence of the public in the integrity of the Association.

(b) An employee may not engage in criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, or any conduct prejudicial to the integrity of the Association.

Sec. 9. Gifts, entertainment, and favors. (a) Except as provided in paragraphs (b) and (c) of this section, an employee may not solicit or accept, directly or indirectly, any gift, gratuity, favor, entertainment, food, lodging, loan, or other thing of monetary value, from a person or employer of a person who:

(1) Has, or is seeking to obtain, contractual or other business or financial relationships with the Association.

(2) Has interests which may be substantially affected by the performance or nonperformance of that employee’s official duties.

(b) Notwithstanding paragraph (a) of this section, an employee may:

(1) Accept a gift, gratuity, favor, entertainment, loan, or other thing of monetary value, or accept, directly or indirectly, any gift, gratuity, favor, entertainment, food, lodging, loan, or other thing of monetary value, from a person or employer of a person who:

(a) Is a relative of the employee;

(b) Is an employee of the Association;

(c) Is a relative of an employee of the Association;

(d) Is a partner of the employee;

(e) Is a relative of a partner of the employee;

(f) Is a partner of an employee of the Association;

(g) Is an employee of the Association who is under the direct supervision of the employee;

(h) Is a family member of an employee of the Association;

(2) Has interests which may be substantially affected by the performance or nonperformance of that employee’s official duties.

(3) Accept unsolicited advertising or promotional material such as pens, pencils, note pads, calendars, or other items of nominal intrinsic value or insignia.

(4) Accept an invitation addressed to the Association, when approved by the General Counsel, to participate in an inaugural trip or similar ceremonial event related to transportation, and accept food, lodging, and entertainment incident thereto.

(c) An employee may not solicit a contribution from another employer for a gift to an official superior, make a donation as a gift to an official superior, or accept a gift from an employee receiving less pay than himself. However, this paragraph does not prohibit a voluntary gift of nominal value or a donation in a nominal amount made on a special occasion such as marriage, illness, retirement, or transfer.

Sec. 11. Outside employment and other activities. (a) An employee may not engage in any outside employment or other outside activity which is not compatible with the full and proper discharge of the duties and responsibilities of his employment with the Association. Incompatible activities include:

(1) Acceptance of a fee, compensation, gift, payment of expenses, or any other thing of monetary value in circumstances in which acceptance may result in, or create the appearance of, a conflict of interest; and

631
Outside employment which tends to impair his mental or physical capacity to perform his duties and responsibilities of his employment with the Association in an acceptable manner.

(b) An employee may not receive any salary or anything of monetary value from a private source as compensation for his services to the Association.

(c) This section does not preclude an employee from participating in the affairs of, or accepting an award for a meritorious public contribution or achievement given by a charitable, religious, professional, social, or fraternal organization, a nonprofit educational or recreational organization, or a public service or civic organization.

Section 13. Financial interests. (a) Except where authorized by statute or these regulations, an employee may not have a direct or indirect financial interest that conflicts substantially, or appears to conflict substantially, with his Association duties and responsibilities. In any case in which such a question of financial interest arises the procedures set forth in section 17 apply.

(b) The fact that an employee is on leave of absence from employment with or has served as an attorney or consultant to, a railroad, or a company engaged in the manufacture, construction, or supply of railroad facilities and equipment, or a creditor of a railroad, shall not, of itself, be deemed to be a financial interest conflicting with his Association duties or responsibilities. This provision does not affect the obligation of such an employee to submit a statement of employment and financial interest as required by section 32(a)(1).

(c) The fact that an employee owns shares of stock, corporate bonds, or other corporate securities in any single railroad, or a company engaged in the manufacture, construction or supply of railroad facilities and equipment, or a creditor of a railroad, having a current aggregate market value of $10,000 or more, or an option to purchase such securities, shall not, in itself, be deemed to be a financial interest conflicting with his Association duties or responsibilities. This provision does not affect the obligation of such an employee to submit a statement of employment and financial interest as required by section 32(a)(1).

Section 15. Conflicts of interest. (a) Except where specifically exempted by statute or these regulations, a conflict of interest exists whenever the performance of the duties of an employee has or appears to have a direct and predictable effect upon a financial interest of such employee or of his spouse, minor child, partner, or person or organization with which he is associated or is negotiating for future employment.

(b) A conflict of interest exists even though there is no reason to suppose that the employee will, in fact, resolve the conflict to his own personal advantage rather than to that of the Association.

Section 17. Disqualification arising from personal financial interests. (a) Except as stated in paragraph (e) of this section, or except as permitted by statute, an employee may not participate personally and substantially as an employee, through decision, approval, disapproval, recommendation, the rendering of advice, investigation or otherwise, in a judicial or other proceeding, application, request for a ruling or other determination, contract, claim controversy, charge, accusation, or other particular matter in which, to his knowledge, he, his spouse, minor child, a blood relative who is a resident of the employee’s household, partner, organization in which he is serving as officer, director, trustee, partner or employee, or any person or organization with whom he is negotiating or has any arrangement concerning prospective employment, has a financial interest, unless he shall cause the financial interest involved to be divested, or request a determination of the propriety of his participation in any matter by informing the General Counsel of the nature and circumstances of the matter and financial interest involved.

(b) After examining the information submitted the General Counsel may:

(1) Relieve the employee from participation in the matter and, if possible, reassign it to another employee who is not subordinate to the relieved employee;

(2) Approve the employee’s participation upon determining in writing that the interest involved is not so substantial as to be likely to affect the integrity of the services the Association may expect from the employee;

(3) Recommend the reassignment of the employee; or

(4) If none of these alternatives is feasible, direct the employee to cause the financial interest to be divested so that it no longer comes within the scope of this section.

(c) In any case in which the General Counsel has reason to believe that an employee may have an interest that would be disqualifying under this section, he shall discuss the matter with the employee. If he finds that the interest exists, he may take any of the actions stated in paragraph (b) of this section.

(d) In any case in which the employee is dissatisfied with the General Counsel’s decision, the employee may appeal the matter to the Chairman of the Association for reconsideration and final determination of the appropriate action.

(e) Information concerning categories of financial interests which are exempted from the prohibitions of §§13(a), 15, and paragraph (a) of this section as being too remote or too inconsequential to affect the integrity of an

Subtitle A, App.

49 CFR Subtitle A (10-1-98 Edition)
employee's interest in a matter, are set forth in Appendix 1.

SEC. 19. Use of Association property or official title. (a) An employee may not, directly or indirectly, use or allow the use of Association property of any kind, including property leased to the Association, for other than an officially approved activity. Each employee has a positive duty to protect and conserve Association property, including equipment, supplies, and other property entrusted or issued to him.

(b) An employee may not, directly or indirectly, use or allow the use of his title or position in connection with any commercial enterprise or in endorsing any commercial product or service.

SEC. 20. Misuse of information. An employee may not, for the purpose of furthering a private interest, directly or indirectly, use or allow the use of official information obtained through or in connection with his Association employment, if that information has not been made available by the Association to the general public.

SEC. 21. Indebtedness. Each employee shall pay his just financial obligations in a proper and timely manner, especially those imposed by law such as Federal, State, or local taxes. For the purposes of this section "just financial obligations" means those that are recognized as such by the employee or reduced to a judgment by a court, and "in a proper and timely manner" means in a manner which the circumstances, reflect adversely on the Association as his employer. The Association will not determine the validity or amount of a disputed debt and will not initiate action to collect such debts.

SEC. 22. Miscellaneous provisions. (a) Each employee shall acquaint himself with these regulations which relate to his ethical and other conduct as an employee of the Association.

(b) In the appointment of personnel and in assignment of their duties, the President of the Association shall take steps to avoid, to as great an extent as possible, any conflict between the Association duties and the private interests of such personnel.

SUBPART C—STATEMENTS OF EMPLOYMENT AND FINANCIAL INTEREST

SEC. 31. Employees required to submit statement. (a) Each of the following employees shall submit a statement of employment and financial interest on a form provided by the Association:

(1) Each employee who within the preceding two years was employed by or served as an attorney or consultant to, a railroad or a company significantly engaged in the manufacture, construction or supply of railroad facilities and equipment, including, but not limited to, rolling stock, terminal facilities, signal equipment, track and road bed, and electrical and communication transmission equipment. The General Counsel shall decide, in a doubtful case, whether the relationship to the railroad industry is sufficiently significant as to require submission of a statement of employment and financial interest.

(2) Each employee who is in a position identified in Appendix 2.

(b) Any employee who believes that his position has been improperly included as one requiring the submission of a statement of employment and financial interest is entitled to have that inclusion reviewed by the General Counsel.

(c) Any employee in a position which meets the criteria in paragraph (a) of this section may be excluded from the reporting requirements of this section if the General Counsel determines that the duties of the position are at such a level of responsibility that the submission of a statement is not necessary because of the degree of supervision and review and the remote or consequential effect on the integrity of the Association.

SEC. 32. Time and place for submission of employee statements. Each employee who is subject to the reporting requirements of sec. 31 shall submit his employment and financial interest statement to the General Counsel within 30 days after entering the employ of the Association.

SEC. 33. Supplementary statements. (a) Each employee shall, not later than July 31 of each year, file a supplementary statement, showing, as of June 30 of that year, any change in, or addition to, the information contained in his statement of employment and financial interest. If changes or additions have not occurred, a negative report is required.

(b) Compliance with the reporting requirements of this subpart is not an alternative to observance of the conflict-of-interest provisions of subpart B of these regulations, but is to facilitate uniform compliance with, and the orderly administration of subpart B.

SEC. 34. Committee on Commerce, Information not known by employee. If any information required to be included on a statement of employment and financial interest or a supplementary statement, including any holding placed in trust, is not known to the employee but is known to another person, the employee shall request that other person to submit the information on his behalf, and the employee shall so notify the General Counsel.

SEC. 35. Information not required. An employee is not required to submit a statement of employment and financial interest or supplementary statement any information relating to his connection with, or interest in, a professional society, or a charitable, religious, social, fraternal, recreational, public service, civic, or political
organization, or a similar organization not conducted as a business enterprise. For the purposes of this section, educational and other institutions doing research and development or related work involving grants of money from or contracts with the Association are considered to be "business enterprises" and are required to be included in the employees' statement of employment and financial interest.

SEC. 4L. Confidentiality of employee's statement. (a) Except for special statements of financial interest required by sec. 13(c) each statement of employment and financial interest and each supplementary statement shall be held in confidence. The reviewing officials and others who receive statements are responsible for maintaining them in confidence and shall not allow access to, or allow information to be disclosed from, a statement except to carry out the purposes of these regulations. Information may not be disclosed to any person outside the Association, except as the General Counsel may determine for good cause shown. No disclosure permitted by this paragraph may be made unless the affected employee has been notified that disclosure is contemplated, and the employee is given an opportunity to present reasons and arguments to maintain the confidentiality of the statement.

(b) Each statement of employment and financial interest and each supplementary statement shall be maintained in the records of the Association.

SEC. 43. Interpretation and advisory service. The General Counsel shall provide authoritative counseling and interpretations to employees who require advice and guidance on questions of conflicts of interest or any other matters of legal import covered by these regulations.

SUBPART D—DISQUALIFICATION OF FORMER EMPLOYEES IN MATTERS CONNECTED WITH FORMER DUTIES OR OFFICIAL RESPONSIBILITIES; DISQUALIFICATION OF PARTNERS

SEC. 5L. Matters in which employee participated personally and substantially. Except as permitted by sec. 5S hereof, an employee of the Association, after his employment has ceased, may not act as agent or attorney for anyone other than the Association in connection with any judicial or other proceeding, application, request for a ruling or other determination, contract, claim, controversy, charge, accusation, arrest, or other particular matter in which the Association is a party or directly and substantially interested, and which was under his official responsibility as an officer or employee of the Association at any time within a period of one year prior to the termination of such responsibility.

SEC. 55. Employee with outstanding scientific or technological qualifications. A former employee with outstanding scientific or technological qualifications may act as attorney or agent or appear personally in connection with a particular matter in a scientific or technological field if the General Counsel certifies in writing, in advance, that the public interest would be served by such action or appearance.

SEC. 57. Partner of employee. A partner of an employee of the Association may not act as agent or attorney for anyone other than the Association, in connection with any judicial or other proceeding, application, request for a ruling or other determination, contract, claim, controversy, charge, accusation, arrest, or other particular matter in which the Association is a party or has a direct and substantial interest and in which such employee of the Association participates personally and substantially as an employee through decision, approval, disapproval, recommendation, the rendering of advice, investigation or otherwise, or which is the subject of his official responsibility.

APPENDIX 1—CATEGORIES OF FINANCIAL INTERESTS EXEMPTED FROM THE PROHIBITIONS OF SECTIONS 13(A), 15, AND 17(A)

I. (a) The following are exempted from the prohibitions of sections 13(a), 15, and 17(a), because they are too remote or too inconsequential to affect the integrity of an employee's services in any matter in which he may act in his official capacity.

(1) Any holding in a widely held mutual fund, or regulated investment company, which does not specialize in the transportation industry.

(2) Ownership of shares of stock and of corporate bonds or other corporate securities, if the current aggregate market value of the stocks and other securities so owned in any single corporation is less than $10,000 and is less than one percent of the outstanding stock of the organization concerned, and if the employee, his spouse, or minor children...
Office of the Secretary of Transportation

are not active in the management of the organization and have no other connection with or interest in it.

(3) Continued participation in a bona fide pension, retirement, deferred compensation, group life, health, or accident insurance plan or other employee welfare or benefit plan that is maintained by a business or nonprofit organization by which the employee was formerly employed, to the extent that the employee's rights in the plans are vested and require no additional services by him. To the extent the welfare or benefit plan is a profit sharing or stock bonus plan, this exemption does not apply.

(b) Notwithstanding paragraph 1(a)(2), the interest of an employee, whose position is listed in section II of this appendix, shall not be exempt from the prohibitions of sections 13(a), 15, and 17(a), with respect to any stock or other security holding in an organization to which he is assigned, or for which he has specific responsibility as a part of his regular duties, for conducting inspections or issuing certificates, waivers, exemptions, or approvals.

II. The following is a list of positions to which the exemption in paragraph 1(a)(2) of this appendix does not apply. This list may be amended at any time by the Association. [To be supplied]

List of CFR Sections Affected

All changes in this volume of the Code of Federal Regulations which were made by documents published in the Federal Register since January 1, 1986, are enumerated in the following list. Entries indicate the nature of the changes effected. Page numbers refer to Federal Register pages. The user should consult the entries for chapters and parts as well as sections for revisions.
