**Title 50:**

- **Chapter II—National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce** ........................................... 3
- **Chapter III—International Fishing and Related Activities** ............. 319
- **Chapter IV—Joint Regulations (United States Fish and Wildlife Service, Department of the Interior and National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce); Endangered Species Committee Regulations** ............................................................................ 369
- **Chapter V—Marine Mammal Commission** ..................................... 411

**Finding Aids:**

- **Material Approved for Incorporation by Reference** .................... 437
- **Table of CFR Titles and Chapters** ........................................... 439
- **Alphabetical List of Agencies Appearing in the CFR** ..................... 457
- **List of CFR Sections Affected** ............................................... 467
Cite this Code: CFR

To cite the regulations in this volume use title, part and section number. Thus, 50 CFR 216.1 refers to title 50, part 216, section 1.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16 as of January 1
- Title 17 through Title 27 as of April 1
- Title 28 through Title 41 as of July 1
- Title 42 through Title 50 as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, October 1, 1998), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

**OB SoL E P R O V I S I O N S**

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 1986, consult either the List of CFR Sections Affected, 1949-1963, 1964-1972, or 1973-1985, published in seven separate volumes. For the period beginning January 1, 1986, a “List of CFR Sections Affected” is published at the end of each CFR volume.

**IN C O R P O R A T I O N B Y R E F E R E N C E**

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

Properly approved incorporations by reference in this volume are listed in the Finding Aids at the end of this volume.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed in the Finding Aids of this volume as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, Washington DC 20408, or call (202) 523-4534.

**C F R I N D E X E S A N D T A B U L A R G U I D E S**

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules (Table I), and Acts Requiring Publication in the Federal Register (Table II). A list of CFR titles, chapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of “Title 3–The President” is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.
A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency's name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202-523-5227 or write to the Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408.

SALES

The Government Printing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call 202-512-1800, M-F, 8 a.m. to 4 p.m. e.s.t. or fax your order to 202-512-2233, 24 hours a day. For payment by check, write to the Superintendent of Documents, Attn: New Orders, P.O. Box 371954, Pittsburgh, PA 15250-7954. For GPO Customer Service call 202-512-1803.

ELECTRONIC SERVICES

The Office of the Federal Register also offers a free service on the National Archives and Records Administration's (NARA) World Wide Web site for public law numbers, Federal Register finding aids, and related information. Connect to NARA's web site at www.nara.gov/fedreg. The NARA site also contains links to GPO Access.

RAYMOND A. MOSLEY,
Director,
Office of the Federal Register.

October 1, 1998.
Title 50—Fish and Wildlife is composed of three volumes. The parts in these volumes are arranged in the following order: Parts 1-199, parts 200-599 and part 600 to end. The first volume (parts 1-199) contains the current regulations issued under chapter I—United States Fish and Wildlife Service, Department of the Interior. The second volume (parts 200-599) contains the current regulations issued under chapter II—National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce; chapter III—International Fishing and Related Activities, chapter IV—Joint Regulations (United States Fish and Wildlife Service, Department of the Interior and National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce); Endangered Species Committee regulations; and chapter V—Marine Mammal Commission. The third volume (part 600 to end) contains the current regulations issued under chapter VI—Fishery Conservation and Management, National Oceanic and Atmospheric Administration, Department of Commerce. The contents of these volumes represent all current regulations codified under this title of the CFR as of October 1, 1998.

Alphabetical listings of endangered and threatened wildlife and plants appear in part 17.

For this volume, Melanie L. Marcec was Chief Editor. The Code of Federal Regulations publication program is under the direction of Frances D. McDonald, assisted by Alomha S. Morris.
Would you like to know . . .

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the LSA (List of CFR Sections Affected), the Federal Register Index, or both.

LSA
The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected. $27 per year.

Federal Register Index
The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references. $25 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Superintendent of Documents Subscription Order Form

Order Processing Code: ☐ YES, send me the following indicated subscriptions for one year:

☐ LSA (List of CFR Sections Affected), (LCS) for $27 per year.
☐ Federal Register Index (FRSU) $25 per year.

The total cost of my order is $ _______

PART 216—REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS

Subpart A—Introduction
Sec.
216.1 Purpose of regulations.
216.2 Scope of regulations.
216.3 Definitions.
216.4 Other laws and regulations.
216.5 Payment of penalty.
216.6 Forfeiture and return of seized property.
216.7 Holding and bonding.
216.8 Enforcement officers.

Subpart B—Prohibitions
216.11 Prohibited taking.
216.12 Prohibited importation.
216.13 Prohibited uses, possession, transportation, sales, and permits.
216.14 Marine mammals taken before the MMPA.
216.15 Depleted species.
216.16 Prohibitions under the General Authorization for Level B harassment for scientific research.

Subpart C—General Exceptions
216.21 Actions permitted by international treaty, convention, or agreement.
216.22 Taking by State or local government officials.
216.23 Native exceptions.
216.24 Taking and related acts incidental to commercial fishing operations.
216.25 Exempted marine mammals and marine mammal products.
216.26 Collection of certain marine mammals parts without prior authorization.
216.27 Release, non-releasability, and disposition under special exception permits for rehabilitated marine mammals.

Subpart D—Special Exceptions
216.30 [Reserved]
216.31 Definitions.
216.32 Scope.
216.33 Permit application submission, review, and decision procedures.
216.34 Issuance criteria.
216.35 Permit restrictions.
216.36 Permit conditions.
216.37 Marine mammal parts.
216.38 Reporting.
216.39 Permit amendments.
216.40 Penalties and permit sanctions.
216.41 Permits for scientific research and enhancement.
216.42 Photography. [Reserved]
216.43 Public display. [Reserved]
216.44 Applicability/transition.
216.45 General Authorization for Level B harassment for scientific research.
216.46-216.49 [Reserved]

Subpart E—Designated Ports
216.50 Importation at designated ports.

Subpart F—Pribilof Islands, Taking for Subsistence Purposes
216.71 Allowable take of fur seals.
216.72 Restrictions on taking.
216.73 Disposition of fur seal parts.
216.74 Cooperation with Federal officials.

Subpart G—Pribilof Islands Administration
216.81 Visits to fur seal rookeries.
216.82 Dogs prohibited.
216.83 Importation of birds or mammals.
216.84 [Reserved]
216.85 Walrus and Otter Islands.
216.86 Local regulations.
216.87 Wildlife research.

Subpart H—Dolphin Safe Tuna Labeling
216.90 Purpose.
216.91 Labeling requirements.
216.92 Purse seine vessels greater than 400 short tons (362.8 metric tons).
216.93 Submission of documentation.
216.94 Requests to review documents.
216.95 False statements or endorsements.

Subpart I—General Regulations Governing Small Takes of Marine Mammals Incidental to Specified Activities
216.101 Purpose.
216.102 Scope.
216.103 Definitions.
216.104 Submission of requests.
216.105 Specific regulations.
216.107 Incidental harassment authorization for Arctic waters.
§ 216.108 Requirements for monitoring and reporting under incidental harassment authorizations for Arctic waters.

Subpart J—Taking of Ringed Seals Incidental to On-Ice Seismic Activities

216.111 Specified activity and specified geographical region.
216.112 Effective dates.
216.113 Permissible methods.
216.114 Mitigation.
216.115 Requirements for monitoring and reporting.
216.117 Renewal of Letters of Authorization.
216.118 Modifications to Letters of Authorization.
216.119 [Reserved]

Subparts K-L [Reserved]

Subpart M—Taking of Bottlenose Dolphins and Spotted Dolphins Incidental to Oil and Gas Structure Removal Activities

216.141 Specified activity and specified geographical region.
216.142 Effective dates.
216.143 Permissible methods of taking; mitigation.
216.144 Prohibitions.
216.145 Requirements for monitoring and reporting.
216.146 Letters of Authorization.
216.147 Renewal of Letters of Authorization.

Subpart N—Taking of Marine Mammals Incidental to Underwater Detonation of Conventional Explosives by the Department of Defense

216.151 Specified activity, geographical region, and incidental take levels.
216.152 Effective dates.
216.153 Permissible methods of taking; mitigation.
216.154 Prohibitions.
216.155 Requirements for monitoring and reporting.
216.156 Renewal of Letter of Authorization.

Subparts O–Q [Reserved]

NOTE TO PART 216: See also 50 CFR parts 228 and 229 for regulations governing certain incidental takings of marine mammals.

AUTHORITY: 16 U.S.C. 1361 et seq., unless otherwise noted.

50 CFR Ch. II (10-1-98 Edition)

SOURCE: 39 FR 1852, Jan. 15, 1974, unless otherwise noted.

Subpart A—Introduction

§ 216.1 Purpose of regulations.

§ 216.2 Scope of regulations.

This part 216 applies solely to marine mammals and marine mammal products as defined in §216.3. For regulations under the MMPA, with respect to other marine mammals and marine mammal products, see 50 CFR part 18. [30 FR 1852, Jan. 15, 1974, as amended at 59 FR 50375, Oct. 3, 1994]

§ 216.3 Definitions.

In addition to definitions contained in the MMPA, and unless the context otherwise requires, in this part 216:

ABI means Automated Broker Interface, the electronic product-entry filing system under the control of the U.S. Customs Service, Department of the Treasury.

Active sportfishing means paying passengers have their terminal fishing gear (lures, hooks, etc.) in the water in an attempt to catch fish or, in the case of fishing involving chumming, fishing is considered to be in progress from the instant fish have been sighted taking bait (boiling) during that chumming process.

Alaskan Native means a person defined in the Alaska Native Claims Settlement Act (43 U.S.C. 1602(b)) (85 Stat. 588) as a citizen of the United States.
who is of one-fourth degree or more Alaska Indian (including Tsimshian Indians enrolled or not enrolled in the Metlakta Indian Community), Eskimo, or Aleut blood or combination thereof. The term includes any Native, as so defined, either or both of whose adoptive parents are not Natives. It also includes, in the absence of proof of a minimum blood quantum, any citizen of the United States who is regarded as an Alaska Native by the Native village or group, of which he claims to be a member and whose father or mother is (or, if deceased, was) regarded as Native by any Native village or Native group. Any such citizen enrolled by the Secretary of the Interior pursuant to section 5 of the Alaska Native Claims Settlement Act shall be conclusively presumed to be an Alaskan Native for purposes of this part.

Article of handicraft means items made by an Indian, Aleut or Eskimo from the nonedible byproducts of fur seals taken for personal or family consumption which—

(1) Were commonly produced by Alaskan Natives on or before October 14, 1983;

(2) Are composed wholly or in some significant respect of natural materials; and

(3) Are significantly altered from their natural form and which are produced, decorated, or fashioned in the exercise of traditional native handicrafts without the use of pantographs, multiple carvers, or similar mass copying devices. Improved methods of production utilizing modern implements such as sewing machines or modern tanning techniques at a tannery registered pursuant to §216.23(c) may be used so long as no large scale mass production industry results. Traditional native handicrafts include, but are not limited to, weaving, carving, stitching, sewing, lacing, beading, drawing, and painting. The formation of traditional native groups, such as a cooperative, is permitted so long as no large scale mass production results.

Bona fide scientific research: (1) Means scientific research on marine mammals conducted by qualified personnel, the results of which:

(i) Likely would be accepted for publication in a refereed scientific journal;

(ii) Are likely to contribute to the basic knowledge of marine mammal biology or ecology. (Note: This includes, for example, marine mammal parts in a properly curated, professionally accredited scientific collection); or

(iii) Are likely to identify, evaluate, or resolve conservation problems.

(2) Research that is not on marine mammals, but that may incidentally take marine mammals, is not included in this definition. (see sections 101(a)(3)(A), 101(a)(5)(A), and 101(a)(5)(D) of the MMPA, and sections 7(b)(4) and 10(a)(1)(B) of the ESA).

Carrying capacity means the Regional Director's determination of the maximum amount of fish that a vessel can carry in short tons based on the greater of the amount indicated by the builder of the vessel, a marine surveyor's report, or the highest amount reported landed from any one trip.

Certified charter vessel means a fishing vessel of a non-U.S. flag nation, which is operating under the jurisdiction of
§ 216.3  
the marine mammal laws and regulations of another, harvesting, nation by a formal declaration entered into by mutual agreement of the nations.

Co-investigator means the on-site representative of a principal investigator.

Commercial fishing operation means the lawful harvesting of fish from the marine environment for profit as part of an ongoing business enterprise. Such terms may include licensed commercial passenger fishing vessel (as defined) activities, but no other sportfishing activities, whether or not the fish so caught are subsequently sold.

Commercial passenger fishing vessel means any vessel licensed for commercial passenger fishing purposes within the State out of which it is operating and from which, while under charter or hire, persons are legally permitted to conduct sportfishing activities.

Custody means holding a live marine mammal pursuant to the conditional authority granted under the MMPA, and the responsibility therein for captive maintenance of the marine mammal.

Director, Office of Protected Resources means Director, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910.

Director, Southwest Region means the Director, Southwest Region, NMFS, 501 W. Ocean Blvd., Long Beach, CA 90802, or his/her designee.

Dolphin Mortality Limit (DML) means the maximum allowable number of incidental dolphin mortalities per calendar year assigned to a vessel, unless a shorter time period is specified.

ETP means the eastern tropical Pacific Ocean which includes the Pacific Ocean area bounded by 40° N. latitude, 40° S. latitude, 160° W. longitude and the coastlines of North, Central and South America.

ETP Fishing Area 1 means the northern coastal portion of the ETP east of 117° W. longitude, north of 5° N. latitude, and west of 80° W. longitude.

ETP Fishing Area 2 means the offshore area south of 14° N. latitude, north of 6° N. latitude, east of 150° W. longitude, and west of 123° W. longitude.

ETP Fishing Area 3 means all other areas within the ETP not included in Fishing Areas 1 and 2.

Facility means, in the context specific to captive marine mammals: (1) One or more permanent primary enclosures used to hold marine mammals captive (i.e., pools, lagoons) and associated infrastructure (i.e., equipment and supplies necessary for the care and maintenance of marine mammals) where these enclosures are either located within the boundaries of a single contiguous parcel of land and water, or are grouped together within the same general area within which enclosure-to-enclosure transport is expected to be completed in less than one hour; or

(2) A traveling display/exhibit, where the enclosure(s) and associated infrastructure is transported together with the marine mammals.

Feeding is offering, giving, or attempting to give food or non-food items to marine mammals in the wild. It includes operating a vessel or providing other platforms from which feeding is conducted or supported. It does not include the routine discard of bycatch during fishing operations or the routine discharge of waste or fish byproducts from fish processing plants or other platforms if the discharge is otherwise legal and is incidental to operation of the activity.

First exporter means the person or company that first exports the fish or fish product, or, in the case of shipments that are subject to the labeling requirements of 50 CFR part 247 and that only contain fish harvested by vessels of the United States, the first seller of the fish or fish product.

Fisheries Certificate of Origin means NOAA Form 370, as described in 50 CFR 216.24(e)(3)(iii).

Fishing season means, for the purposes of §216.24(e), those sets made on trips that are completed between October 1 and September 30 of the following calendar year.
National Marine Fisheries Service/NOAA, Commerce  § 216.3

Fur seal means North Pacific fur seal, scientifically known as Callorhinus ursinus.

Hard part means any bone, tooth, baleen, treated pelt, or other part of a marine mammal that is relatively solid or durable.

Harvesting nation means the country under whose flag one or more fishing vessels are documented, or which has by formal declaration agreed to assert jurisdiction over one or more certified charter vessels, from which vessel(s) fish are caught that are a part of any cargo or shipment of fish to be imported into the United States, regardless of any intervening transshipments.

Humane means the method of taking, import, export, or other activity which involves the least possible degree of pain and suffering practicable to the animal involved.

Import means to land on, bring into, or introduce into, any place subject to the jurisdiction of the United States, whether or not such landing, bringing, or introduction constitutes an importation within the Customs laws of the United States; except that, for the purpose of any ban issued under 16 U.S.C. 1371(a)(2) on the importation of fish or fish products, the definition of “import” in §216.24(e)(1)(ii) shall apply.

Incidental catch means the taking of a marine mammal (1) because it is directly interfering with commercial fishing operations, or (2) as a consequence of the steps used to secure the fish in connection with commercial fishing operations: Provided, That a marine mammal so taken must immediately be returned to the sea with a minimum of injury and further, that the taking of a marine mammal, which otherwise meets the requirements of this definition shall not be considered an incidental catch of that mammal if it is used subsequently to assist in commercial fishing operations.

Intrusive research means a procedure conducted for bona fide scientific research involving: A break in or cutting of the skin or equivalent, insertion of an instrument or material into an orifice, introduction of a substance or object into the animal’s immediate environment that is likely either to be ingested or to contact and directly affect animal tissues (i.e., chemical substances), or a stimulus directed at animals that may involve a risk to health or welfare that may have an impact on normal function or behavior (i.e., audio broadcasts directed at animals that may affect behavior). For captive animals, this definition does not include:

(1) A procedure conducted by the professional staff of the holding facility or an attending veterinarian for purposes of animal husbandry, care, maintenance, or treatment, or a routine medical procedure that, in the reasonable judgment of the attending veterinarian, would not constitute a risk to the health or welfare of the captive animal; or

(2) A procedure involving either the introduction of a substance or object (i.e., as described in this definition) or a stimulus directed at animals that, in the reasonable judgment of the attending veterinarian, would not involve a risk to the health or welfare of the captive animal.

Kill-per-set means the number of small, toothed cetaceans (marine mammals) killed per purse seine set made involving marine mammals.

Kill-per-ton means the number of small toothed cetacean marine mammals killed per ton of yellowfin tuna caught in sets made on marine mammals.

Label means a display of written, printed, or graphic matter on or affixed to the immediate container of any article.

Land or landing means to begin offloading any fish, to arrive in port with the intention of offloading fish, or to cause any fish to be offloaded.

Large-scale driftnet means a gillnet that is composed of a panel or panels of webbing, or a series of such gillnets, with a total length of 2.5 kilometers or more that is used on the high seas and allowed to drift with the currents and winds for the purpose of harvesting fish
by entangling the fish in the webbing of the net.

Level A Harassment means any act of pursuit, torment, or annoyance which has the potential to injure a marine mammal or marine mammal stock in the wild.

Level B Harassment means any act of pursuit, torment, or annoyance which has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breeding, feeding, or sheltering but which does not have the potential to injure a marine mammal or marine mammal stock in the wild.

Marine environment means the oceans and the seas, including estuarine and brackish waters.

Marine mammal means those specimens of the following orders, which are morphologically adapted to the marine environment, whether alive or dead, and any part thereof, including but not limited to, any raw, dressed or dyed fur or skin: Cetacea (whales and porpoises), Pinnipedia, other than walrus (seals and sea lions).

Native village or town means any community, association, tribe, band, clan or group.

Optimum sustainable population is a population size which falls within a range from the population level of a given species or stock which is the largest supportable within the ecosystem to the population level that results in maximum net productivity. Maximum net productivity is the greatest net annual increment in population numbers or biomass resulting from additions to the population due to reproduction and/or growth less losses due to natural mortality.

Pregnant means pregnant near term.

Pribilovians means Indians, Aleuts, and Eskimos who live on the Pribilof Islands.

Principal investigator means the individual primarily responsible for the taking, importation, export, and any related activities conducted under a permit issued for scientific research or enhancement purposes.

Public display means an activity that provides opportunities for the public to view living marine mammals at a facility holding marine mammals captive.

Purse seine set on common dolphins means a purse seine set in which more than 50 percent of the marine mammals killed are common dolphins or, in sets with no dolphins killed, more than 50 percent of the dolphins captured are common dolphins.

Regional Director means the Director, Southwest Region, NMFS, 501 W. Ocean Blvd., Long Beach, CA 90802, or his/her designee.

Rehabilitation means treatment of beached and stranded marine mammals taken under section 109(h)(1) of the MMPA or imported under section 109(h)(2) of the MMPA, with the intent of restoring the marine mammal's health and, if necessary, behavioral patterns.

Secretary shall mean the Secretary of Commerce or his authorized representative.

Sexual harassment means any unwelcome sexual advance, request for sexual favors, or other verbal and physical conduct of a sexual nature which has the purpose or effect of substantially interfering with an individual's work performance or creating an intimidating, hostile, or offensive working environment.

Soft part means any marine mammal part that is not a hard part. Soft parts do not include urine or fecal material.

South Pacific Ocean means any waters of the Pacific Ocean that lie south of the equator.

Stranded or stranded marine mammal means a marine mammal specimen under the jurisdiction of the Secretary: (1) If the specimen is dead, and is on a beach or shore, or is in the water within the Exclusive Economic Zone of the United States; or (2) If the specimen is alive, and is on a beach or shore and is unable to return to the water, or is in the water within the Exclusive Economic Zone of the United States where the water is so shallow that the specimen is unable to return to its natural habitat under its own power.

Subsistence means the use of marine mammals taken by Alaskan Natives for food, clothing, shelter, heating,
transportation, and other uses necessary to maintain the life of the taker or those who depend upon the taker to provide them with such subsistence.

Subsistence uses means the customary and traditional uses of fur seals taken by Pribilovians for direct personal or family consumption as food, shelter, fuel, clothing, tools or transportation; for the making and selling of handicraft articles out of nond edible byproducts of fur seals taken for personal or family consumption; and for barter, or sharing, for personal or family consumption. As used in this definition—

(1) Family means all persons related by blood, marriage, or adoption, or any person living within a household on a permanent basis.

(2) Barter means the exchange of fur seals or their parts, taken for subsistence uses—

(i) For other wildlife or fish or their parts, or

(ii) For other food or for nond edible items other than money if the exchange is of a limited and noncommercial nature.

Take means to harass, hunt, capture, collect, or kill, or attempt to harass, hunt, capture, collect, or kill any marine mammal. This includes, without limitation, any of the following: The collection of dead animals, or parts thereof; the restraint or detention of a marine mammal, no matter how temporary; tagging a marine mammal; the negligent or intentional operation of an aircraft or vessel, or the doing of any other negligent or intentional act which results in disturbing or molesting a marine mammal; and feeding or attempting to feed a marine mammal in the wild.

Trip means a voyage starting when a vessel leaves port with all fish wells empty of fish and ending when a vessel unloads all of its fish.

Tuna product means any food product processed for retail sale and intended for human or animal consumption that contains an item listed in §216.24(e)(2)(i) or (ii), but does not include perishable items with a shelf life of less than 3 days.

Wasteful manner means any taking or method of taking which is likely to result in the killing of marine mammals beyond those needed for subsistence, subsistence uses, or for the making of authentic native articles of handicrafts and clothing, or which results in the waste of a substantial portion of the marine mammal and includes, without limitation, the employment of a method of taking which is not likely to assure the capture or killing of a marine mammal, or which is not immediately followed by a reasonable effort to retrieve the marine mammal.

EDITORIAL NOTE: For Federal Register citations affecting §216.3, see the List of Sections Affected in the Finding Aids section of this volume.

§ 216.4 Other laws and regulations.

(a) Federal. Nothing in this part, nor any permit issued under authority of this part, shall be construed to relieve a person from any other requirements imposed by a statute or regulation of the United States, including any applicable statutes or regulations relating to wildlife and fisheries, health, quarantine, agriculture, or customs.

(b) State laws or regulations. See part 403 of this chapter.

§ 216.5 Payment of penalty.

The respondent shall have 30 days from receipt of the final assessment decision within which to pay the penalty assessed. Upon a failure to pay the penalty, the Secretary may request the Attorney General to institute a civil action in the appropriate United States District Court to collect the penalty.

§ 216.6 Forfeiture and return of seized property.

(a) Whenever any cargo or marine mammal or marine mammal product has been seized pursuant to section 107 of the MMPA, the Secretary shall expedite any proceedings commenced under these regulations.

(b) Whenever a civil penalty has been assessed by the Secretary under these
§ 216.7

regulations, any cargo, marine mammal, or marine mammal product seized pursuant to section 107 of the MMPA shall be subject to forfeiture. If respondent voluntarily forfeits any such seized property or the monetary value thereof without court proceedings, the Secretary may apply the value thereof, if any, as determined by the Secretary, toward payment of the civil penalty.

(c) Whenever a civil penalty has been assessed under these regulations, and whether or not such penalty has been paid, the Secretary may request the Attorney General to institute a civil action in an appropriate United States District Court to compel forfeiture of such seized property or the monetary value thereof to the Secretary for disposition by him in such manner as he deems appropriate. If no judicial action to compel forfeiture is commenced within 30 days after final decision-making assessment of a civil penalty, pursuant to § 216.60, such seized property shall immediately be returned to the respondent.

(d) If the final decision of the Secretary under these regulations is that respondent has committed no violation of the MMPA or of any permit or regulations issued thereunder, any marine mammal, marine mammal product, or other cargo seized from respondent in connection with the proceedings under these regulations, or the bond or other monetary value substituted therefor, shall immediately be returned to the respondent.

(e) If the Attorney General commences criminal proceedings pursuant to section 105(b) of the MMPA, and such proceedings result in a finding that the person accused is not guilty of a criminal violation of the MMPA, the Secretary may institute proceedings for the assessment of a civil penalty under this part: Provided, That if no such civil penalty proceedings have been commenced by the Secretary within 60 days following the final disposition of the criminal case, any property seized pursuant to section 107 of the MMPA shall be returned to the respondent.

(f) If any seized property is to be returned to the respondent, the Regional Director shall issue a letter authorizing such return. This letter shall be dispatched to the respondent by registered mail, return receipt requested, and shall identify the respondent, the seized property, and, if appropriate, the bailee of the seized property. It shall also provide that upon presentation of the letter and proper identification, the seized property is authorized to be released. All charges for storage, care, or handling of the seized property accruing 5 days or more after the date of the return receipt shall be for the account of the respondent: Provided, That if it is the final decision of the Secretary under these regulations that the respondent has committed the alleged violation, all charges which have accrued for the storage, care, or handling of the seized property shall be for the account of the respondent.

§ 216.7 Holding and bonding.

(a) Any marine mammal, marine mammal product, or other cargo seized pursuant to section 107 of the MMPA shall be delivered to the appropriate Regional Director of the National Marine Fisheries Service (see § 201.2 of this title) or his designee, who shall either hold such seized property or arrange for the proper handling and care of such seized property.

(b) Any arrangement for the handling and care of seized property shall be in writing and shall state the compensation to be paid. Subpart F of 15 CFR part 904 contains additional procedures that govern seized property that is subject to forfeiture or has been forfeited under the MMPA.

§ 216.8 Enforcement officers.

Enforcement Agents of the National Marine Fisheries Service shall enforce the provisions of the MMPA and may take any actions authorized by the MMPA with respect to enforcement. In addition, the Secretary may utilize, by agreement, the personnel, services, and facilities of any other Federal Agency for the purposes of enforcing this MMPA. Pursuant to the terms of section 107(b) of the MMPA, the Secretary
may also designate officers and employees of any State or of any possession of the United States to enforce the provisions of this MMPA.

Subpart B—Prohibitions

§ 216.11 Prohibited taking.

Except as otherwise provided in subparts C, D, and I of this part 216 or in part 228 or 229, it is unlawful for:

(a) Any person, vessel, or conveyance subject to the jurisdiction of the United States to take any marine mammal on the high seas, or

(b) Any person, vessel, or conveyance to take any marine mammal in waters or on lands under the jurisdiction of the United States, or

(c) Any person subject to the jurisdiction of the United States to take any marine mammal during the moratorium.

§ 216.12 Prohibited importation.

(a) Except as otherwise provided in subparts C and D of this part 216, it is unlawful for any person to import any marine mammal or marine mammal product into the United States.

(b) Regardless of whether an importation is otherwise authorized pursuant to subparts C and D of this part 216, it is unlawful for any person to import into the United States any:

(1) Marine mammal:

(i) Taken in violation of the MMPA, or

(ii) Taken in another country in violation to the laws of that country;

(2) Any marine mammal product if

(i) The importation into the United States of the marine mammal from which such product is made would be unlawful under paragraph (b)(1) of this section, or

(ii) The sale in commerce of such product in the country of origin if the product is illegal.

(c) Except in accordance with an exception referred to in subpart C and §§216.31 (regarding scientific research permits only) and 216.32 of this part 216, it is unlawful to import into the United States any:

(1) Marine mammal which was pregnant at the time of taking.

(2) Marine mammal which was nursing at the time of taking, or less than 8 months old, whichever occurs later.

(3) Specimen of an endangered or threatened species of marine mammal.

(4) Specimen taken from a depleted species or stock of marine mammals, or

(5) Marine mammal taken in an inhumane manner.

(d) It is unlawful to import into the United States any fish, whether fresh, frozen, or otherwise prepared, if such fish was caught in a manner prescribed by the Secretary of Commerce for persons subject to the jurisdiction of the United States, whether or not any marine mammals were in fact taken incident to the catching of the fish.

§ 216.13 Prohibited uses, possession, transportation, sales, and permits.

It is unlawful for:

(a) Any person to use any port, harbor or other place under the jurisdiction of the United States for any purpose in any way connected with a prohibited taking or an unlawful importation of any marine mammal or marine mammal product; or

(b) Any person subject to the jurisdiction of the United States to possess any marine mammal taken in violation of the MMPA or these regulations, or to transport, sell, or offer for sale any such marine mammal or any marine mammal product made from any such mammal.

(c) Any person subject to the jurisdiction of the United States to use in a commercial fishery, any means or method of fishing in contravention of regulations and limitations issued by the Secretary of Commerce for that fishery to achieve the purposes of this MMPA.

(d) Any person to violate any term, condition, or restriction of any permit issued by the Secretary.

§ 216.14 Marine mammals taken before the MMPA.

(a) Section 102(e) of the MMPA provides, in effect, that the MMPA shall not apply to any marine mammal taken prior to December 21, 1972, or to any marine mammal product, consisting of or composed in whole or in part of, any marine mammal taken before that date. This prior status of any marine mammal or marine mammal product may be established by submitting to the Director, National Marine Fisheries Service prior to, or at the time of importation, an affidavit containing the following:

1. The Affiant’s name and address;
2. Identification of the Affiant;
3. A description of the marine mammals or marine mammal products which the Affiant desires to import;
4. A statement by the Affiant that, to the best of his knowledge and belief, the marine mammals involved in the application were taken prior to December 21, 1972;
5. A statement by the Affiant in the following language:

   The foregoing is principally based on the attached exhibits which, to the best of my knowledge and belief, are complete, true and correct. I understand that this affidavit is being submitted for the purpose of inducing the Federal Government to permit the importation of—under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 through 1407) and regulations promulgated thereunder, and that any false statements may subject me to the criminal penalties of 13 U.S.C. 1001, or to penalties under the Marine Mammal Protection Act of 1972.

(b) Either one of two exhibits shall be attached to such affidavit, and will contain either:

1. Records or other available evidence showing that the product consists of or is composed in whole or in part of marine mammals taken prior to the effective date of the MMPA. Such records or other evidentiary material must include information on how, when, where, and by whom the animals were taken, what processing has taken place since taking, and the date and location of such processing; or
2. A statement from a government agency of the country of origin exercising jurisdiction over marine mammals that any and all such mammals from which the products sought to be imported were derived were taken prior to December 21, 1972.

(c) No pre-Act marine mammal or pre-Act marine mammal product may be imported unless the requirements of this section have been fulfilled.

(d) This section has no application to any marine mammal or marine mammal product intended to be imported pursuant to §§216.21, 216.31 or §216.32.

§ 216.15 Depleted species.

The following species or population stocks have been designated by the Assistant Administrator as depleted under the provisions of the MMPA.

(a) Hawaiian monk seal (Monachus schauinslandi).
(b) Bowhead whale (Balaena mysticetus).
(c) North Pacific fur seal (Callorhinus ursinus). Pribilof Island population.
(d) Bottlenose dolphin (Tursiops truncatus), coastal-migratory stock along the U.S. mid-Atlantic coast.
(e) Eastern spinner dolphin (Stenella longirostris orientalis).
(f) Northeastern offshore spotted dolphin (Stenella attenuata).

§ 216.16 Prohibitions under the General Authorization for Level B harassment for scientific research.

It shall be unlawful for any person to:

(a) Provide false information in a letter of intent submitted pursuant to §216.45(b);
(b) Violate any term or condition imposed pursuant to §216.45(d).

[59 FR 50376, Oct. 3, 1994]

Subpart C—General Exceptions

§ 216.21 Actions permitted by international treaty, convention, or agreement.

The MMPA and these regulations shall not apply to the extent that they are inconsistent with the provisions of any international treaty, convention
or agreement, or any statute implementing the same relating to the tak-
ing or importation of marine mammals or marine mammal products, which
was existing and in force prior to De-
cember 21, 1972, and to which the
United States was a party. Specifi-
cally, the regulations in subpart B of
this part and the provisions of the
MMPA shall not apply to activities
carried out pursuant to the Interim
Convention on the Conservation of
North Pacific Fur Seals signed at
Washington on February 9, 1957, and
the Fur Seal Act of 1966, 16 U.S.C. 1151
through 1187, as in each case, from
time to time amended.

§ 216.22 Taking by State or local gov-
ernment officials.
(a) A State or local government offi-
cial or employee may take a marine
mammal in the normal course of his
duties as an official or employee, and
no permit shall be required, if such
taking:
(1) Is accomplished in a humane
manner;
(2) Is for the protection or welfare of
such mammal or for the protection of
the public health or welfare; and
(3) Includes steps designed to insure
return of such mammal, if not killed in
the course of such taking, to its natu-
ral habitat. In addition, any such offi-
cial or employee may, incidental to
such taking, possess and transport, but
not sell or offer for sale, such mammal
and use any port, harbor, or other place
under the jurisdiction of the United
States. All steps reasonably prac-
ticable under the circumstances shall
be taken by any such employee or offi-
cial to prevent injury or death to the
marine mammal as the result of such
taking. Where the marine mammal in
question is injured or sick, it shall be
permissible to place it in temporary
captivity until such time as it is able
to be returned to its natural habitat. It
shall be permissible to dispose of a car-
cass of a marine mammal taken in ac-
cordance with this subsection whether
the animal is dead at the time of tak-
ing or dies subsequent thereto.

(b) Each taking permitted under this
section shall be included in a written
report to be submitted to the Secretary
every six months beginning December
31, 1973. Unless otherwise permitted by
the Secretary, the report shall contain
a description of:
(1) The animal involved;
(2) The circumstances requiring the
taking;
(3) The method of taking;
(4) The name and official position of
the State official or employee involved;
(5) The disposition of the animal, in-
cluding in cases where the animal has
been retained in captivity, a descrip-
tion of the place and means of confine-
ment and the measures taken for its
maintenance and care; and
(6) Such other information as the
Secretary may require.

(c) Salvage of dead stranded marine
mammals or parts therefrom and sub-
sequent transfer.
(1) Salvage. In the performance of of-
official duties, a state or local govern-
ment employee; an employee of the Na-
tional Marine Fisheries Service, the
U.S. Fish and Wildlife Service, or any
other Federal agency with jurisdiction
and conservation responsibilities in
marine shoreline areas; or a person au-
thorized under 16 U.S.C. 1382(c) may
take and salvage a marine mammal
specimen if it is stranded and dead or it
was stranded or rescued and died dur-
ding treatment, transport, captivity or
other rehabilitation subsequent to that
stranding or distress if salvage is for
the purpose of utilization in scientific
research or for the purpose of mainte-
nance in a properly curated, profes-
sionally accredited scientific collec-
tion.

(2) Registration. A person salvaging a
dead marine mammal specimen under
this section must register the salvage
of the specimen with the appropriate
Regional Office of the National Marine
Fisheries Service within 30 days after
the taking or death occurs. The reg-
istration must include:
(i) The name, address, and any offi-
cial position of the individual engaged
in the taking and salvage;
(ii) A description of the marine mam-
mal specimen salvaged including the
scientific and common names of the
species;
(iii) A description of the parts
salvaged;
§ 216.22

(iv) The date and the location of the taking;

(v) Such other information as deemed necessary by the Assistant Administrator.

(3) Identification and curation. The Regional Director will assign a single unique number to each carcass, and the parts thereof, that are salvaged under the provisions of this section. The person who salvaged the specimen may designate the number to be assigned. After this number is assigned, the person who salvaged the specimen must permanently mark that number on each separate hard part of that specimen and must affix that number with tags or labels to each soft part of that specimen or the containers in which that soft part is kept. Each specimen salvaged under this section must be curated in accordance with professional standards.

(4) No sale or commercial trade. No person may sell or trade for commercial purposes any marine mammal specimen salvaged under this section.

(5) Transfer without prior authorization. A person who salvages a marine mammal specimen under this section may transfer that specimen to another person if:

(i) The person transferring the marine mammal specimen does not receive remuneration for the specimen;

(ii) The person receiving the marine mammal specimen is an employee of the National Marine Fisheries Service, the U.S. Fish and Wildlife Service, or any other Federal agency with jurisdiction and conservation responsibilities in marine shoreline areas; is a person authorized under 16 U.S.C. 1382(c); or is a person who has received prior authorization under paragraph (c)(6) of this section;

(iii) The marine mammal specimen is transferred for the purpose of scientific research, for the purpose of maintenance in a properly curated, professionally accredited scientific collection, or for educational purposes;

(iv) The unique number assigned by the National Marine Fisheries Service is on, marked on, or affixed to the marine mammal specimen or container; and

(v) Except as provided under paragraph (c)(8) of this section, the person transferring the marine mammal specimen notifies the appropriate Regional Office of the National Marine Fisheries Service of the transfer, including notification of the number of the specimen transferred and the person to whom the specimen was transferred, within 30 days after the transfer occurs.

(6) Other transfers within the United States. Except as provided under paragraphs (c)(5) and (c)(8) of this section, a person who salvages a marine mammal specimen, or who has received a marine mammal specimen under the provisions of this section, may not transfer that specimen to another person within the United States unless the Regional Director of the appropriate Regional Office of the National Marine Fisheries Service grants prior written authorization for the transfer. The Regional Director may grant authorization for the transfer if there is evidence that the conditions listed under paragraphs (c)(5)(i), (c)(5)(iii), and (c)(5)(iv) of this section are met.

(7) Transfers outside of the United States. A person who salvages a marine mammal specimen, or a person who has received a marine mammal specimen under the provisions of this section, may not transfer that specimen to a person outside of the United States unless the Assistant Administrator grants prior written authorization for the transfer. The Assistant Administrator may grant authorization for the transfer if there is evidence that the conditions listed under paragraphs (c)(5)(i), (c)(5)(iii), and (c)(5)(iv) of this section are met.

(8) Exceptions to requirements for notification or prior authorization. A person may transfer a marine mammal specimen salvaged under this section without the notification required in paragraph (c)(5)(v) of this section or the prior authorization required in paragraph (c)(6) of this section if:

(i) The transfer is a temporary transfer to a laboratory or research facility within the United States so that analyses can be performed for the person salvaging the specimen; or

(ii) The transfer is a loan of not more than 1 year to another professionally...
§ 216.23 Native exceptions.

(a) Taking. Notwithstanding the prohibitions of subpart B of this part 216, but subject to the restrictions contained in this section, any Indian, Aleut, or Eskimo who resides on the coast of the North Pacific Ocean or the Arctic Ocean may take any marine mammal without a permit, if such taking is:

(1) By Alaskan Natives who reside in Alaska for subsistence, or

(2) For purposes of creating and selling authentic native articles of handicraft and clothing, and

(3) In each case, not accomplished in a wasteful manner.

(b) Restrictions. (1) No marine mammal taken for subsistence may be sold or otherwise transferred to any person other than an Alaskan Native or delivered, carried, transported, or shipped in interstate or foreign commerce, unless:

(i) It is being sent by an Alaskan Native directly or through a registered agent to a tannery registered under paragraph (c) of this section for the purpose of processing, and will be returned directly or through a registered agent to the Alaskan Native; or

(ii) It is sold or transferred to a registered agent for resale or transfer to an Indian, Aleut, or Eskimo; or

(iii) It has first been transformed into an authentic native article of handicraft or clothing; or

(iv) It is an edible portion and sold (A) in an Alaskan Native village or town, or (B) to an Alaskan Native for his consumption.

(c) Any tannery, or person who wishes to act as an agent, within the jurisdiction of the United States may apply to the Director, National Marine Fisheries Service, U.S. Department of Commerce, Washington, DC 20235, for registration as a tannery or an agent which may possess and process marine mammal products for Indians, Aleuts, or Eskimos. The application shall include the following information:

(i) The name and address of the applicant;

(ii) A description of the applicant’s procedures for receiving, storing, processing, and shipping materials;

(iii) A proposal for a system of bookkeeping and/or inventory segregation by which the applicant could maintain accurate records of marine mammals received from Indians, Aleuts, or Eskimos pursuant to this section;

(iv) Such other information as the Secretary may request;

(v) A certification in the following language:

I hereby certify that the foregoing information is complete, true and correct to the best of my knowledge and belief. I understand that this information is submitted for the purpose of obtaining the benefit of an exception under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 through 1407) and regulations promulgated thereunder, and that any false statement may subject me to the criminal penalties of 18 U.S.C. 1001, or to penalties under the Marine Mammal Protection Act of 1972.

(vi) The signature of the applicant.

The sufficiency of the application shall be determined by the Secretary, and in that connection, he may waive any requirement for information, or require any elaboration or further information deemed necessary. The registration of a tannery or other agent shall be subject to such conditions as the Secretary prescribes, which may include,
§ 216.24 Taking and related acts incidental to commercial fishing operations.

NOTE TO §216.24: The provisions of 50 CFR part 229, rather than §216.24, will govern the incidental taking of marine mammals in the course of commercial fishing operations by persons using vessels of the United States, other than vessels used in the eastern tropical Pacific yellowfin tuna purse seine fishery, and vessels which have valid fishing permits issued in accordance with section 204(b) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1854(b)). Other commercial fisheries remain subject to regulations under §216.24.

(a)(1) No marine mammals may be taken in the course of a commercial fishing operation unless: The taking constitutes an incidental catch as defined in §216.3, a general permit and certificate(s) of inclusion have been obtained in accordance with these regulations and such taking is not in violation of such permit, certificate(s), and regulations.

(a)(2)(i) It is unlawful for any person using a Class I (400 short tons (362.8 metric tons) carrying capacity or less) or Class II (greater than 400 short tons (362.8 metric tons) carrying capacity, built before 1961) U.S. purse seine fishing vessel on a fishing involving the utilization of purse seines to capture yellowfin tuna, that is not operating under a Category 2 general permit and certificate(s) of inclusion, to carry more than two speedboats if any part of its fishing trip is in the Pacific Ocean area described in the General Permit for gear Category 2 operations.

(ii) It is unlawful for any person using a Class III (greater than 400 short tons (362.8 metric tons) carrying capacity, built after 1960) U.S. purse seine fishing vessel that does not have and operate under a valid operator and vessel certificate of inclusion, to catch, possess, or land tuna from a fishing trip that includes the Pacific Ocean area described in the General Permit for gear Category 2 operations.

(iii) It is unlawful for any person subject to the jurisdiction of the United States to receive, purchase, or possess tuna caught, possessed, or landed in violation of paragraph (a)(2)(ii) of this section.

(iv) It is unlawful for a person subject to the jurisdiction of the United States intentionally to deploy a purse seine net on, or to encircle, dolphins from a vessel operating in the ETP when the DML assigned to that vessel has been reached, or when there is not a DML assigned to that vessel.

(3) Upon written request in advance of entering the General Permit area, the limitation in (a)(2) may be waived by the Director, Southwest Region for the purpose of allowing transit through the General Permit area. The waiver will provide in writing the terms and conditions under which the vessel must operate, including a requirement to report by radio to the Director, Southwest Region the vessel’s date of exit from or subsequent entry to the permit area, in order to transit the area with more than two speedboats.

(b) [Reserved]

(c) Certificates of inclusion—(1) Vessel certificates of inclusion. The owner or managing owner of a vessel that participates in commercial fishing operations under the ATA permit must hold a valid vessel certificate of inclusion. Such certificates are not transferable and must be renewed annually. If a vessel certificate holder surrenders his/her certificate to the Director, Southwest Region, the certificate shall not be returned nor shall a new certificate be issued before the end of the calendar year. This provision does not
apply when a change of vessel ownership occurs.

(2) Operator's certificate of inclusion. The person in charge of and actually controlling fishing operations (hereinafter referred to as the operator) on a vessel engaged in commercial fishing operations under the ATA permit, must hold a valid operator's certificate of inclusion. Such certificates are not transferable, and must be renewed annually. In order to receive a certification of inclusion, the operator must have satisfactorily completed all required training.

(3) A vessel certificate issued pursuant to paragraph (c)(1) of this section must be on board the vessel while it is engaged in fishing operations and the operator's certificate issued pursuant to paragraph (c)(2) of this section must be in the possession of the operator to whom it was issued. Certificates must be shown upon request to an enforcement agent or other National Marine Fisheries Service (NMFS) designated agent. Vessels and operators at sea on a fishing trip on the expiration date of their certificate of inclusion, to whom or to which a certificate of inclusion for the next year has been issued, may take marine mammals under the terms of the new certificate. A vessel owner or operator is obligated to obtain or place the new certificate on board, as appropriate, when the vessel next returns to port.

(4) Applications. Owners or managing owners of purse seine vessels should make application for vessel certificates of inclusion to the Director, Southwest Region. Applications for vessel certificates of inclusion must contain:

(i) The name of the vessel that is to appear on the certificate(s) of inclusion;

(ii) The category of the general permit under which the applicant wishes to be included;

(iii) The species of fish sought and general area of operations;

(iv) The identity of state and local commercial fishing licenses, if applicable, under which vessel operations are conducted, and dates of expiration;

(v) The name of the operator and date of training, if applicable; and

(vi) The name and signature of the applicant, whether owner or managing owner, address, and if applicable, the organization acting on behalf of the vessel.

(5) Fees. (i) Applications for certificates of inclusion under paragraph (c)(1) of this section must include a fee of $200.00 for each vessel named in the application, unless the applicant's income is below Federal poverty guidelines and the applicant shows in the application that his/her income is below such guidelines, in which case a fee of $20.00 must be included.

(ii) The Assistant Administrator may change the amount of the fee required at any time a different fee is determined to be reasonable, and notification of such change shall be published in the Federal Register.

(6) The Director, Southwest Region shall determine the adequacy and completeness of applications, and upon said determination that such applications are adequate and complete, shall approve such applications and issue the certificate(s).

(7) Failure to comply with provisions of the ATA permit, certificates of inclusion, or these regulations may lead to suspension, revocation, modification, or denial of a certificate of inclusion. It may also subject the certificate holder, vessel, vessel owner, operator, or master to the penalties provided under the MMPA. Procedures governing permit sanctions and denials are found at subpart D of 15 CFR part 904.

(8) By using an operator or vessel certificate of inclusion under the ATA permit, the certificate holder authorizes the release to NMFS of all data collected by observers aboard purse seine vessels during fishing trips under the Inter-American Tropical Tuna Commission observer program or any other international observer program in which the United States may participate. The certificate holder must furnish the international observer program all release forms required to provide the observer data to NMFS. Data obtained under such releases will be used for the same purposes as data collected directly by observers placed by the NMFS and will be subject to the same standards of confidentiality.
§ 216.24 [Reserved]

(d) Terms and conditions of certificates under general permits shall include, but are not limited to the following:

1) [Reserved]

2) Encircling gear, purse seining involving the intentional taking of marine mammals—

(A) A certificated vessel may take marine mammals only if the taking is an incidental occurrence in the course of normal commercial tuna purse seine fishing operations, and the fishing operations are under the immediate direction of a person who is the holder of a valid operator’s certificate of inclusion, subject to the following conditions:

1)–2) [Reserved]

3) No purse seine net may be deployed on or used to encircle any school of dolphins in which any eastern spinner dolphin (Stenella longirostris), coastal spotted dolphin (Stenella attenuata), or, in the area from 40° N. lat. to 5° N. lat. and from 120° W. long. to the coastline of Central and South America, any offshore spotted dolphin (Stenella attenuata), are observed in the school prior to the release of the net skiff.

(B) The incidental mortality of marine mammals permitted under the general permit for each category will be monitored according to the methodology published in the FEDERAL REGISTER. The Assistant Administrator shall determine on the basis of the evidence available to him the date upon which the allowable quotas will be reached or exceeded. Notice of the Assistant Administrator’s determination shall be published in the FEDERAL REGISTER not less than seven days prior to the effective date.

(C) Except for the coastal spotted dolphin stock and the eastern spinner dolphin stock, if at the time the net skiff attached to the net is released from the vessel at the start of a set, and species or stocks that are prohibited from being taken are not reasonably observable, the fact that individuals of that species or stock are subsequently taken will not be cause for issuance of a notice of violation provided that all procedures required by the applicable regulations have been followed.

(D) The general permit is valid until surrendered by the permit holder or suspended or terminated by the Assistant Administrator provided the permittee and certificate holders under this part continue to use the best marine mammal safety techniques and equipment that are economically and technologically practicable. The Assistant Administrator may, upon receipt of new information which in his opinion is sufficient to require modification of the general permit or regulations, propose to modify such after consultation with the Marine Mammal Commission. These modifications must be consistent with and necessary to carry out the purposes of the MMPA. Any modifications proposed by the Assistant Administrator involving changes in the quotas will include the statements required by section 103(d) of the MMPA. Modifications will be proposed in the FEDERAL REGISTER and a public comment period will be allowed. At the request of any interested person within 15 days after publication of the proposed modification in the FEDERAL REGISTER, the Assistant Administrator may hold a public hearing to receive and evaluate evidence in those circumstances where he has determined it to be consistent with and necessary to carry out the purposes of the MMPA. Such request may be for a formal hearing on the record before an Administrative Law Judge. Within 10 days after receipt of the request for a public hearing, the Assistant Administrator will provide the requesting party or parties with his decision. If a request is denied, the Assistant Administrator shall state the reasons for the denial. Within 10 days after receipt of a decision denying a request for a formal hearing, the requesting person may file a written notice of appeal with the Administrator. Based upon the evidence presented in the notice, the Administrator will render a decision within 20 days from receipt of the notice.

(ii) General conditions:

(A) Marine mammals incidentally taken must be immediately returned to the environment where captured without further injury. The operators of purse seine vessels must take every precaution to refrain from causing or permitting incidental mortality or serious injury of
National Marine Fisheries Service/NOAA, Commerce § 216.24

marine mammals. Live marine mammals must not be brailed or hoisted onto the deck during ortza retrieval.

(B) Operators may take such steps as are necessary to protect their gear or person from damage or threat of personal injury. However, all marine mammals taken in the course of commercial fishing operations shall be subject to the definition of "incidental catch" in §216.3 of this part and may not be retained except where a specific permit has been obtained authorizing the retention.

(C) The vessel certificate holder shall notify the Director, Southwest Region of any change of vessel operator within at least 48 hours prior to departing on the next scheduled trip.

(iii) Reporting requirements: In accordance with §216.24(f) of these regulations, the following specific reporting procedures shall be required:

(A) The vessel certificate holder of each certificated vessel, who has been notified via certified letter from NMFS that his/her vessel is required to carry an observer, shall notify the Director, Southwest Region at least 5 days in advance of the vessel's departure on a fishing voyage to allow for observer placement. After a fishing voyage is initiated, the vessel is obligated to carry an observer until the vessel returns to port and one of the following conditions is met:

1. Unloads more than 400 tons of any species of tuna; or
2. Unloads any amount of any species of tuna equivalent to one half of the vessel's carrying capacity; or
3. Unloads its tuna catch after 40 days or more at sea from the date of departure.

Further, the Director, Southwest Region, may consider special circumstances for exemptions to this definition, provided written requests clearly describing the circumstances are received prior to the termination or the initiation of a fishing voyage. A response to the written request will be made by the Director, Southwest Region within five (5) days after receipt of the request. A vessel whose vessel certificate holder has failed to comply with the provisions of this section may not engage in fishing operations for which a general permit is required.

(B) [Reserved]

(C) The Director, Southwest Region, will provide to the public, periodic quota status reports summarizing the estimated incidental porpoise mortality by U.S. vessels of individual species and stock.

(iv) A vessel having a vessel certificate issued under paragraph (c)(1) may not engage in fishing operations for which a general permit is required unless it is equipped with a porpoise safety panel in its purse seine, and has and uses the other required gear, equipment, and procedures.

(A) Class I and II Vessels: For Class I purse seiners (400 short tons carrying capacity or less) and for Class II purse seiners (greater than 400 short tons carrying capacity, built before 1961), the porpoise safety panel must be a minimum of 100 fathoms in length (as measured before installation), except that the minimum length of the panel in nets deeper than 10 strips must be determined at a ratio of 10 fathoms in length for each strip that the net is deep. It must be installed so as to protect the perimeter of the backdown area. The perimeter of the backdown area is the length of the corkline which begins at the outboard end of the last bow bunch pulled and continues to at least two-thirds the distance from the backdown channel apex to the stern tiedown point. The porpoise safety panel must consist of small mesh webbing not to exceed 1 1/4" stretch mesh, extending from the corkline downward to a minimum depth equivalent to one strip of 100 meshes of 4 1/4" stretch mesh webbing. In addition, at least a 20-fathom length of corkline must be free from bunchlines at the apex of the backdown channel.

(B) Class III Vessels: For Class III purse seiners (greater than 400 short tons carrying capacity, built after 1960), the porpoise safety panel must be a minimum of 180 fathoms in length (as measured before installation), except that the minimum length of the panel in nets deeper than 18 strips must be determined in a ratio of 10 fathoms in length for each strip of net depth. It must be installed so as to protect the perimeter of the backdown area. The perimeter of the backdown area is the length of corkline which begins at the
outboard end of the last bowbunch pulled and continues to at least two-thirds the distance from the backdown channel apex to the stern tiedown point. The porpoise safety panel must consist of small mesh webbing not to exceed 1 1/4″ stretch mesh extending downward from the corkline and, if present, the base of the porpoise apron to a minimum depth equivalent to two strips of 100 meshes of 4 1/4″ stretch mesh webbing. In addition, at least a 20-fathom length of corkline must be free from bunchlines at the apex of the backdown channel.

(C) Porpoise safety panel markers: Each end of the porpoise safety panel and porpoise apron shall be identified with an easily distinguishable marker.

(D) Porpoise safety panel hand holds: Throughout the length of the corkline under which the porpoise safety panel and porpoise apron are located, hand hold openings are to be secured so that the insertion of a 1 3/8″ diameter cylindrical-shaped object meets resistance.

(E) Porpoise safety panel hangings: Throughout the length of the corkline under which the porpoise safety panel and porpoise apron are located, corkline hangings shall be inspected by the vessel operator following each trip. Hangings found to have loosened to the extent that a cylindrical object with a 1 3/8″ diameter will not meet resistance when inserted between the cork and corkline hangings, must be tightened so that a cylindrical object with a 1 3/8″ diameter cannot be inserted.

(F) Speedboats: Certificated vessels engaged in fishing operations involving setting on marine mammals shall carry a minimum of two speedboats in operating condition. All speedboats carried aboard purse seine vessels and in operating condition shall be rigged with towing bridles and towlines. Speedboat hoisting bridles shall not be substituted for towing bridles.

(G) Raft: A raft suitable to be used as a porpoise observation-and-rescue platform shall be carried on all certificated vessels.

(H) Facemask and snorkel, or viewbox: At least two facemasks and snorkels, or viewboxes, must be carried on all certificated vessels.

(I) Lights: All certificated vessels shall be equipped by July 1, 1986, with lights capable of producing a minimum of 140,000 lumens of output for use in darkness to ensure sufficient light to observe that procedures for porpoise release are carried out and to monitor incidental porpoise mortality.

(v) Vessel inspection: (A) Annual: At least once during each calendar year, purse seine nets and other gear and equipment required by these regulations shall be made available for inspection by an authorized National Marine Fisheries Service Inspector as specified by the Director, Southwest Region.

(B) Reinspection: Purse seine nets and other gear and equipment required by these regulations shall be made available for reinspection by an authorized National Marine Fisheries Service Inspector as specified by the Director, Southwest Region. The vessel certificate holder shall notify the Director, Southwest Region of any net modification at least 5 days prior to departure of the vessel in order to determine whether a reinspection or trial set is required.

(C) Upon failure to pass an inspection or reinspection, a vessel having a vessel certificate of inclusion issued under paragraph (c)(1) may not engage in fishing operations for which a general permit is required until the deficiencies in gear or equipment are corrected as required by an authorized National Marine Fisheries Service inspector.

(vi) Operator training requirements. All operators shall maintain proficiency sufficient to perform the procedures required herein, and must attend and satisfactorily complete a formal training session conducted under the auspices of the National Marine Fisheries Service in order to obtain their certificate of inclusion. At the training session an attendee shall be instructed concerning the provisions of the Marine Mammal Protection Act of 1972, the regulations promulgated pursuant to the MMPA, and the fishing gear and techniques which are required or will contribute to reducing serious injury and mortality of porpoise incidental to purse seining for tuna. Operators who have
received a written certificate of satisfactory completion of training and who possess a current or previous calendar year certificate of inclusion will not be required to attend additional formal training sessions unless there are substantial changes in the MMPA, the regulations, or the required fishing gear and techniques. Additional training may be required for any operator who is found by the Director, Southwest Region, to lack proficiency in the procedures required.

(vii) Marine mammal release requirements: All operators shall use the following procedures during all sets involving the incidental taking of marine mammals in association with the capture and landing of tuna.

(A) Backdown procedure: Backdown shall be performed following a purse seine set in which marine mammals are captured in the course of catching and landing tuna, and shall be continued until it is no longer possible to remove live marine mammals from the net by this procedure. Thereafter, other release procedures required shall be continued until all live animals have been released from the net.

(B) Prohibited use of sharp or pointed instrument: The use of a sharp or pointed instrument to remove any marine mammal from the net is prohibited.

(C) Sundown sets prohibited. On every set encircling porpoise, the backdown procedure must be completed and rolling of the net to sack-up must be begun before one-half hour after sundown, except as provided below. For the purpose of this section, sundown is defined as the time at which the upper edge of the sun disappears below the horizon or, if view of the sun is obscured, the local time of sunset calculated from tables developed by the U.S. Naval Observatory. A sundown set is a set in which the backdown procedure has not been completed and rolling the net to sack-up has not begun within one-half hour after sundown. Should a set extend beyond one-half hour after sundown, the operator must use the required marine mammal release procedures including the use of the high intensity lighting system.

(i) A certificated operator may obtain an initial waiver from this prohibition, for trips with an observer, by establishing to the satisfaction of the Director, Southwest Region, NMFS, based upon NMFS and Inter-American Tropical Tuna Commission (IATTC) observer records, that the operator’s average kill of marine mammals per set in sundown sets involving marine mammals was 3.01 marine mammals or fewer.

   (A) The application must include the following:
      (A) Name of the operator as it appears on the certificate of inclusion;
      (B) The dates of all observed trips any part of which occurred since July 1, 1986 and observed trips before that date, if necessary to include a minimum of three observed sundown sets;
      (C) Names of the vessels operated during those trips;
      (D) The number of marine mammals killed in sundown sets and the number of sundown sets involving marine mammals;
      (E) Detailed description of the circumstances that support any request that the mortality associated with a particular sundown set be excluded from consideration; and
      (F) The operator’s signature or the signature of an individual authorized by the operator to make the application in the operator’s absence.

(ii) All sundown sets since July 1, 1986 will be considered for this determination, except that the Director, Southwest Region will exclude one sundown set from each twelve month period from the calculations of average kill if the operator establishes to the satisfaction of the Director, Southwest Region that the kill in that sundown set was due to an unforeseeable equipment malfunction that could not have been avoided by reasonable diligence in operating or maintaining the vessel.

(iii) An operator must have a minimum of five observed sundown sets for the Director, Southwest Region to consider in determining whether or not the operator qualifies for an exemption. If an operator does not have five observed sundown sets since July 1, 1986, the Director, Southwest Region will consider records from observed trips before that date, starting with the most recent observed trip during which a sundown set was made and reviewing as many trips as necessary to
obtain at least five sundown sets for consideration.

(2) An operator fishing under an exemption from the sundown set prohibition must follow the marine mammal release requirements, including the use of high intensity lights for sets that continue one-half hour past sundown.

(3) An operator exemption is valid for one calendar year only on trips carrying a NMFS or IATTC observer and expires on December 31, unless renewed by the Director, Southwest Region.

(4) An exemption will be reviewed annually between November 1 and December 15 and the exemption will not be renewed if the operator’s average mortality in sundown sets during trips completed in the previous twelve month period ending November 1 exceeds the United States fleet’s average mortality rate in daylight sets for all of the observed trips completed in the same period.

(5) An operator who is notified that his or her exemption will not be renewed, or who anticipates not getting renewed, may petition the Director, Southwest Region in writing to reinstate the exemption based on excluding from the calculations one set where an unforeseeable equipment malfunction caused mortality in a sundown set that could not have been avoided by reasonable diligence in operating or maintaining the vessel. The Director, Southwest Region will reinstate the exemption if the evidence supports excluding the set and if the resulting recalculation of the operator’s performance meets the standard required by these regulations.

(D) Porpoise Safety Panel: During backdown, the porpoise safety panel must be positioned so that it protects the perimeter of the backdown area. The perimeter of the backdown area is the length of corkline which begins at the outboard end of the last bow bunch pulled and continues to at least two-thirds the distance from the backdown channel apex to the stern tiedown point. Any super apron must be positioned at the apex of the backdown channel.

(E) Use of explosive devices: The use of explosive devices is prohibited in all tuna purse seine operations that involve marine mammals.

(viii) Experimental fishing operations: The Assistant Administrator may authorize experimental fishing operations and may waive, as appropriate, any requirements within §216.24(d)(2), except quotas on the incidental kill of marine mammals and the prohibition on setting nets on pure schools of certain porpoise species.

(A) A vessel certificate holder may apply for an experimental fishing operation waiver by submitting the following information to the Assistant Administrator no less than 90 days before the intended date the proposed operation is intended to begin:

1. Name(s) of the vessel(s) and the vessel certificate holder(s) to participate;
2. A statement of the specific vessel gear and equipment or procedural requirement to be exempted and why such an exemption is necessary to conduct the experiment;
3. A description of how the proposed modification to the gear or procedures is expected to reduce incidental mortalities or serious injury of marine mammals;
4. A description of the applicability of this modification to other purse seine vessels;
5. Planned design, time, duration, and general area of the experimental operation;
6. Name(s) of the certificated operator(s) of the vessel(s) during the experiment;
7. A statement of the qualifications of the individual or company doing the analysis of the research.

(B) The Assistant Administrator will acknowledge receipt of the application and, upon determining that it is complete, publish notice in the Federal Register summarizing the application, making the full application available for inspection and inviting comments for a minimum period of thirty days from the date of publication.

(C) The Assistant Administrator, after considering the information identified in paragraph (d)(2)(viii)(A) of this section and the comments received, will deny the application giving the reasons for denial or issue a permit to conduct the experiment including restrictions and conditions as deemed appropriate.
(D) The permit for an experimental fishing operation will be valid only for the vessels and operators named in the permit, for the time period and areas specified, for trips carrying an observer assigned by the NMFS, and when all the terms and conditions of the permit are met.

(E) The Assistant Administrator may suspend or revoke an experimental fishing permit by written notice to the permit holder if the terms and conditions of the permit or the provisions of the regulations are not followed, after providing an opportunity for the permit holder to discuss the proposed suspension or revocation.

(ix) Operator Certificate of Inclusion Holder Performance Requirements. (A) The certificate of inclusion of any operator who makes one or more purse seine sets on marine mammals resulting in an average kill-per-set for a fishing trip which exceeds 26.30 marine mammals is suspended. Such suspension shall be effective upon notification from the Director, Southwest Region and shall be for a period of one year. If the operator exceeds the 26.30 marine mammals killed per set average for a subsequent trip within three years of reinstatement, the certificate is suspended. Such suspension shall be effective upon notification by the Director, Southwest Region and shall be for a period of one year. If the operator’s average mortality rate exceeds 26.30 marine mammals kill-per-set on a subsequent trip within five years of the second reinstatement, the certificate is revoked. The revocation shall be effective upon notification by the Director, Southwest Region and shall be permanent. An operator who is subject to a suspension or revocation under this paragraph may petition the Director, Southwest Region to review the operator’s marine mammal mortality history. The Director, Southwest Region may reinstate the operator’s certificate if the operator demonstrates that the operator has not exceeded a kill-per-set of 3.89 marine mammals during any of the eight consecutive observed trips immediately preceding the trip which caused the suspension. However, that trip will be considered as a single trip containing a kill-per-set of 3.89 marine mammals and subject to the conditions described in paragraph (d)(2)(ix)(F) of this section. The Director, Southwest Region may exclude from the mortality calculation for a trip, those purse seine sets in which marine mammal mortality resulted from an unavoidable and unforeseeable equipment breakdown. The mortality rate calculated after exclusion of a set or sets under this paragraph will determine the action taken under this performance evaluation system.

(B) Fishing trips with five or fewer sets on marine mammals and an average kill-per-set less than or equal to 26.30 marine mammals are not subject to further action under the operator performance system. Such trips neither count as trips meeting the performance standard nor count as trips failing to meet the performance standard for the purpose of determining actions based on performance in consecutive fishing trips.

(C) Fishing trips with more than five sets on marine mammals resulting in an average kill-per-set of not greater than 26.30 marine mammals are subject to review under the operator performance system as follows:

(1) The operator’s kill of marine mammals in purse seine sets on marine mammals will be determined from observer records.

(2) The kill-per-set will be determined by dividing the total kill of marine mammals by the number of sets involving marine mammals during the fishing trip.

(3) If the calculated kill-per-set for the trip is equal to or less than 3.89 marine mammals, the operator has met the performance standard and is not subject to further action under the performance system based on the current trip.

(4) If the calculated kill-per-set for the trip exceeds 3.89 marine mammals, the operator failed to meet the mortality performance standard and is subject to further action under the performance system.

(D) The Director, Southwest Region may exclude from the mortality calculation for a trip, those purse seine sets in which marine mammal mortality resulted from an unavoidable and unforeseeable equipment breakdown. Should exclusion of a set or sets cause
§ 216.24  

the operator’s performance to fall within the standard performance, that trip will not be counted as a trip for the purposes of the performance evaluation system.

(E) An operator shall not serve as a certificated operator until the Director, Southwest Region has determined under this subpart and notified the operator that the operator’s marine mammal mortality rate performance met or failed to meet the applicable performance standard on the previous observed trip. The Director, Southwest Region will make the determination within five days (excluding Saturdays, Sundays and Federal holidays) after receiving the observer data from the trip.

(F) An operator whose average marine mammal mortality rate exceeds 3.89 kill-per-set for a trip must have observer data and other pertinent records reviewed by the Director, Southwest Region and the Porpoise Rescue Foundation for the purpose of determining the causes of higher than acceptable mortality, must participate in supplemental marine mammal safety training as ordered by the Director, Southwest Region and must comply with actions for reducing marine mammal mortality which may be ordered by the Director, Southwest Region. The operator must carry an observer on the next trip for which he serves as the certificated operator. If the Director, Southwest Region determines that the required training or other ordered action has not been completed satisfactorily or is refused, the Director, Southwest Region will suspend the operator’s certificate of inclusion for one year.

(G) An operator whose average marine mammal mortality rate exceeds 3.89 marine mammals killed per set on two consecutive trips or on three trips ending within a period of twenty-four months or on three trips within eight consecutive trips completed within a period of twenty-four months must have observer data and other pertinent records reviewed by the Director, Southwest Region and the Porpoise Rescue Foundation for the purpose of determining the causes of higher than acceptable mortality, must participate in supplemental marine mammal safety training as ordered by the Director, Southwest Region and must comply with actions for reducing marine mammal mortality which may be ordered by the Director, Southwest Region. The operator must carry an expert fisherman (i.e., an experienced vessel operator with a history of low dolphin mortality), if required to do so by the Director, Southwest Region, to assist in perfecting marine mammal safety techniques, and must also carry an observer on the next trip for which he serves as the certificated operator. The selection of the expert fisherman will be provided by the General Permit holder or the Porpoise Rescue Foundation and subject to the approval of the Director, Southwest Region. If the Director, Southwest Region determines that the required training or other ordered action has not been completed satisfactorily or is refused, the Director, Southwest Region will suspend the operator’s certificate of inclusion for one year.

(H) The operator certificate of inclusion or an operator whose average marine mammal mortality rate exceeds 3.89 kill-per-set on three consecutive trips, or on any four trips (of which no more than two are consecutive) completed within a period of twenty-four months or on four trips (of which no more than two are consecutive) within eight consecutively observed trips, is suspended upon notification to the operator from the Director, Southwest Region.

(I) Following a suspension and a reinstatement of a certification of inclusion, the operator certificate of inclusion is suspended for any operator whose average marine mammal mortality rate exceeds 3.89 marine mammals killed per set on any subsequent trip as required under the criteria for a suspension established in paragraph (d)(2)(ix)(H) of this section. Under this paragraph, trips completed by the operator prior to suspension will be carried over and counted along with trips completed subsequent to the suspension. Such suspension shall be effective upon notification from the Director, Southwest Region and shall be for a period of one year. For purposes of this paragraph only, each suspension under paragraph (d)(2)(ix)(A) of this section will be considered equivalent to and
counted as three consecutive trips exceeding the trip kill rate of 3.89 marine mammals killed per set.

(J) An operator may appeal suspension of revocation of a certificate of inclusion under paragraphs (d)(2)(ix)(A), (d)(2)(ix)(H), or (d)(2)(ix)(I) of this section to the Assistant Administrator. Appeals must be filed in writing within 30 days of suspension or revocation and must contain a statement setting forth the basis for the appeal. Appeals must be filed with the Director, Southwest Region. The appeal may be presented at the option of the operator at a hearing before a person appointed by the Assistant Administrator to hear the appeal. The Assistant Administrator will determine, based upon the record, including any record developed at a hearing, if the suspension or revocation is supported under the criteria set forth in these regulations. The decision of the Assistant Administrator will be the final decision of the Department of Commerce.

(K) An operator must carry an observer on the operator's first trip after a suspension under this performance system has expired. An operator must also participate in supplemental marine mammal safety training and comply with actions for reducing marine mammal mortality as ordered by the Director, Southwest Region before making another trip as a certified operator.

(L) A person obtaining an operator certificate of inclusion for the first time must carry an observer on the operator's first trip.

(x) Vessel Certificate of Inclusion Holder Performance Requirements—(A) vessel certificate of inclusion holder desiring a DML for the following year must provide to the Director, Southwest Region, NMFS, 501 W. Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213, by September 1, the name of the purse seine vessel(s) of carrying capacity greater than 400 short tons (362.8 mt) that the owner thinks will intentionally deploy purse seine fishing nets in the ETP to encircle dolphins in an effort to capture tuna during the period. NMFS will forward the list of purse seine vessels to the Director of the IATTC on or before October 1, or as required by the IATTC, for assignment of a DML for the following year.

(B) Each vessel certificate of inclusion holder that desires a DML for the period July 1 to December 31, for a vessel that has not previously had a DML assigned for the year, must provide to the Director, Southwest Region, NMFS, 501 W. Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213, by March 15, the name of the purse seine vessel(s) of carrying capacity greater than 400 short tons (362.8 mt) that the owner thinks will intentionally deploy purse seine fishing nets in the ETP to encircle dolphins in an effort to capture tuna during the period. NMFS will forward the list of purse seine vessels to the Director of the IATTC on or before April 1, or as required by the IATTC, for assignment of a DML for the 6-month period July 1 to December 31.

Under the Agreement adopted at the Annual Meeting of the IATTC June 16-18, 1992, the DML shall be assigned from the unutilized pool of DMLs described under paragraph (d)(2)(x)(D) of this section, divided among the applicants for the 6-month period, and shall not exceed 50 percent of the DML assigned to a vessel in the fishery with a DML for the entire year.

(C)(1) NMFS will notify vessel owners of the DML assigned for each vessel for the following year as determined by the IATTC.

(2) NMFS may adjust the DMLs, either upward or downward with 15 percent of the original DML, except that the adjusted DMLs for the U.S. fleet will not exceed the original total of the DMLs for the U.S. fleet as assigned by the IATTC. All adjustments shall be made prior to December 1, and NMFS shall notify the IATTC prior to December 15. DMLs as assigned on December 1 will be applicable to the following year.

(3) NMFS may make an adjustment of a vessel's DMLs if it will further scientific or technological advancement in the protection of marine mammals in the fishery, or if the past performance of the vessel indicates that the protection or use of the yellowfin tuna stocks or marine mammals is best served by the adjustment, within the mandates of the MMPA. Experimental fishing operation waivers or scientific
research permits shall be considered a basis for adjustments.

(D)(1) Any vessel assigned a DML, that does not participate, by June 1, in this fishery by operating under valid certificates of inclusion, or that leaves the fishery, shall lose its right to utilize its DML for the remainder of the year.

(2) NMFS will determine, based on the available information, whether a vessel has left the fishery. A vessel lost at sea, undergoing extensive repairs, operating in an ocean area other than the ETP, or for which other information indicates will no longer be conducting purse seine operations in the ETP for the remainder of the period, shall be determined to have left the fishery. NMFS will make all reasonable efforts to determine the intentions of the vessel owner, and the owner of any vessel that has been preliminarily determined to have left the fishery will be provided notice of such preliminary determination and the opportunity to provide information on whether the vessel has left the fishery before NMFS makes a final determination and notifies the IATTC of this determination. The vessel owner will receive written notification of NMFS’ final determination.

(3) Any unused DML for a vessel that has been determined to have left the fishery will be returned to the IATTC, to be added to the pool of unutilized DMLs.

(E) Any vessel that exceeds its assigned DML, after any applicable adjustment under paragraph (d)(2)(x)(C)(2) of this section, shall have its DML for the subsequent year reduced by the amount of overage.

(F)(1) The vessel operator and owner are responsible for ensuring that the DML for that vessel is not exceeded.

(2) Observers, either from the IATTC observer program or the NMFS observer program, will make their records available to the vessel operators at any time, including after each set, so that the operator can monitor the balance of the DML remaining for use during the trip.

(3) Vessel captains must cease deploying purse seine sets to encircle dolphins intentionally when the vessel’s DML, as adjusted under paragraph (d)(2)(x)(C)(2) of this section, is reached.

(G)(1) Sanctions recommended by the Review Panel for any violation of these rules shall be considered by NMFS in its enforcement of these regulations.

(2) Intentionally deploying a purse seine net on or to encircle dolphins after the vessel’s DML is reached will disqualify the vessel from consideration for a DML for the following year. If already assigned, the DMLs for the following year will be withdrawn, and the IATTC notified by NMFS that the DML assigned to that vessel will be unutilized. The vessel owner will be provided an opportunity to provide information and comments on this issue before a final determination is made by NMFS.

(3) Encircling gear, purse seine not involving the intentional taking of marine mammals. (i) A certificate holder may take marine mammals so long as such taking is an incidental occurrence in the course of normal commercial fishing operations. Marine mammals taken incidental to commercial fishing operations shall be immediately returned to the environment where captured without further injury.

(ii) A certificate holder may take such steps as are necessary to protect his catch, gear, or person from depredation, damage or personal injury without inflicting death or injury to any marine mammal.

(iii) Only after all means permitted by paragraph (d)(3)(ii) of this section have been taken to deter a marine mammal from depredating the catch, damaging the gear, or causing personal injury, may the certificate holder injure or kill the animal causing the depredation or immediate damage, or about to cause immediate personal injury; however, in no event shall a certificate holder kill or injure an Atlantic bottlenosed dolphin, Tursiops truncatus, under the provisions of this paragraph. A certificate holder shall not injure or kill any animal permitted to be killed or injured under this paragraph unless the infliction of such damage is substantial and immediate and is actually being caused at the time such steps are taken. In all cases, the burden is on the certificate holder to report fully and demonstrate that
(i) The animal was causing substantial and immediate damage or about to cause personal injury and that all possible steps to protect against such damage or injury as permitted by paragraph (d)(3)(ii) of this section were taken and that such attempts failed.

(iv) Marine mammals taken in the course of commercial fishing operations shall be subject to the provisions of §216.3 with respect to “Incidental catch,” and may be retained except where a specific permit has been obtained authorizing the retention.

(v) All certificate holders shall maintain logs of incidental take of marine mammals in such form as prescribed by the Assistant Administrator. All deaths or injuries to marine mammals occurring in the course of commercial fishing operations under the conditions of a general permit shall be immediately recorded in the log and reported in writing to the Director, Southwest Region, where a certificate application was made, or to an enforcement agent or other designated agent of the National Marine Fisheries Service, at the earliest opportunity but no later than five days after such occurrence, except that if a vessel at sea returns to port later than five days after such occurrence, then it shall be reported within forty-eight hours after arrival in port. Reports must include:

(A) The location, time, and date of the death or injury;
(B) The identity and number of marine mammals killed or injured; and
(C) A description of the circumstances which led up to and caused the death or injury.

(4) Stationary gear. (i) A certificate holder may take marine mammals so long as such taking is an incidental occurrence in the course of normal commercial fishing operations. Marine mammals taken incidental to commercial fishing operations shall be immediately returned to the environment where captured without further injury.

(ii) A certificate holder may take such steps as are necessary to protect his catch, gear, or person from depredation, damage or personal injury without inflicting death or injury to any marine mammal.

(iii) Only after all means permitted by paragraph (d)(4)(ii) of this section have been taken to deter a marine mammal from depredating the catch, damaging the gear, or causing personal injury, may the certificate holder injure or kill the animal causing the depredation or immediate damage, or about to cause immediate personal injury; however, in no event shall a certificate holder injure or kill any animal permitted to be killed or injured under this paragraph unless the infliction of such damage is substantial and immediate and is actually being caused at the time such steps are taken. In all cases, the burden is on the certificate holder to report fully and demonstrate that the animal was causing substantial and immediate damage or about to cause personal injury and that all possible steps to protect against such damage or injury as permitted by paragraph (ii) were taken and that such attempts failed.

(iv) Marine mammals taken in the course of commercial fishing operations shall be subject to the provisions of §216.3 with respect to “Incidental catch,” and may be retained except where a specific permit has been obtained authorizing the retention.

(v) All certificate holders shall maintain logs of incidental take of marine mammals in such form as prescribed by the Assistant Administrator. All deaths or injuries to marine mammals occurring in the course of commercial fishing operations under the conditions of a general permit shall be immediately recorded in the log and reported in writing to the Director, Southwest Region, where a certificate application was made, or to an enforcement agent or other designated agent of the National Marine Fisheries Service, at the earliest opportunity but no later than five days after such occurrence, except that if a vessel at sea returns to port later than five days after such occurrence, then it shall be reported within forty-eight hours after arrival in port. Reports must include:

(A) The location, time, and date of the death or injury;
(B) The identity and number of marine mammals killed or injured; and
§ 216.24  50 CFR Ch. II (10-1-98 Edition)

(C) A description of the circumstances which led up to and caused the death or injury.

(5) Other gear. (i) A certificate holder may take marine mammals so long as such taking is an incidental occurrence in the course of normal commercial fishing operations. Marine mammals taken incidental to commercial fishing operations shall be immediately returned to the environment where captured without further injury.

(ii) A certificate holder may take such steps as are necessary to protect his catch, gear, or person from depredation, damage or personal injury without inflicting death or injury to any marine mammal.

(iii) Only after all means permitted by paragraph (d)(5)(ii) of this section have been taken to deter a marine mammal from depredating the catch, damaging the gear, or causing personal injury, may the certificate holder injure or kill the animal causing the depredation or immediate damage, or about to cause immediate personal injury; however, in no event shall a certificate holder kill or injure an Atlantic bottlenosed dolphin, Tursiops truncatus, under the provisions of this paragraph. A certificate holder shall not injure or kill any animal permitted to be killed or injured under this paragraph unless the infliction of such damage is substantial and immediate and is actually being caused at the time such steps are taken. In all cases, the burden is on the certificate holder to report fully and demonstrate that the animal was causing substantial and immediate damage or about to cause personal injury and that all possible steps to protect against such damage or injury as permitted by paragraphs (d)(5)(ii) of this section were taken and that such attempts failed.

(iv) Marine mammals taken in the course of commercial fishing operations shall be subject to the provisions of § 216.3 with respect to “Incidental catch,” and may not be retained except where a specific permit has been obtained authorizing the retention.

(v) All certificate holders shall maintain logs of incidental take of marine mammals in such form as prescribed by the Assistant Administrator. All deaths or injuries to marine mammals occurring in the course of commercial fishing operations under the conditions of a general permit shall be immediately recorded in the log and reported in writing to the Director, Southwest Region, where a certificate application was made, or to an enforcement agent, or other designee of the National Marine Fisheries Service, at the earliest opportunity but no later than five days after such occurrence, except that if a vessel at sea returns to port later than five days after such occurrence, then it shall be reported within forty-eight hours after arrival in port. Reports must include:

(A) The location, time, and date of the death or injury;
(B) The identity and number of marine mammals killed or injured; and
(C) A description of the circumstances which led up to and caused the death or injury.

(vi) [Reserved]

(vii) The number of Dall’s porpoise (Phocoenoides dalli) killed or injured by Japanese vessels operating in the U.S. EEZ is limited to an aggregate of 789 in the Bering Sea and 5,250 in the North Pacific Ocean over the period 1987 to 1989, of which no more than 448 may be taken from the Bering Sea and no more than 2,494 may be taken from the North Pacific Ocean in any single calendar year. The incidental take levels authorized by this subpart are reduced proportionately in the event that the Soviet Union reduces salmon quotas for 1988 or 1989 by more than 10 percent from the 1987 quota. Any permit issued under this part must indicate the measures by which the permit holder must comply with the conditions attached to the permit, and the reporting requirements of paragraph (d)(5)(v) of this section. Any permit issued under this part may allow retention of marine mammals for scientific purposes and will not require a separate permit under paragraph (d)(5)(iv) of this section.

(6) Commercial passenger fishing vessels (CPFV). (i) A certificate holder aboard the vessel may take marine mammals so long as the taking is limited to harassment and is an incidental occurrence in the course of the active sportfishing subject to the following
restrictions (paragraphs (d)(6) (ii) through (vi) of this section).

(ii) Takings are prohibited within 500 yards of a pinniped rookery or haul-out site.

(iii) A certificate holder aboard the CPFV must use only those non-lethal, non-injurious methods not including capture as approved in advance by the Assistant Administrator for Fisheries through publication in the Federal Register and stipulated in the General Permit for taking marine mammals.

(iv) Takings are allowed only while engaged in active sportfishing to prevent imminent marine mammal approaches to the vessel or to protect a passenger’s catch or gear from depredation or damage, without inflicting death or injury to any marine mammal.

(v) All operators must ensure the safe use of the approved methods for preventing marine mammal sportfishing interaction and must satisfactorily complete such training as may be required by the Assistant Administrator for Fisheries.

(vi) All certificate holders must maintain records of incidental take of marine mammals in such form as prescribed by the Assistant Administrator for Fisheries. All incidents involving harassment of marine mammals must be immediately recorded and reported in writing to the Director, Southwest Region to whom the certificate application was made, or to an enforcement agent or other designated agent of the National Marine Fisheries Service, at the earliest opportunity, but no later than five days after such occurrence. At a minimum, reports must include:

(A) The time, date, and location of the taking;

(B) The type of harassment device used, and the number used at each occurrence;

(C) The number and species of affected marine mammals; and

(D) A description of any behavioral changes noted that may be due to using the harassment device.

(e) Importation, purchase, shipment, sale and transport. (i) It is illegal to import into the United States any fish, whether fresh, frozen, or otherwise prepared, if the fish have been caught with commercial fishing technology that results in the incidental kill or incidental serious injury of marine mammals in excess of that allowed under this part for U.S. fishermen or in excess of what is specified in subsection (e)(5) in the case of fishing for yellowfin tuna.

(ii) For purposes of this paragraph (e), and in applying the definition of an “intermediary nation”, an import occurs when the fish or fish product is released from a nation’s Customs’ custody and enters into the territory of the nation. For other purposes, “import” is defined in §216.3.

(2) The following fish and categories of fish, which the Assistant Administrator has determined may be involved with commercial fishing operations which cause the death or injury of marine mammals, are subject to the requirements of this section:

(i) Tuna: yellowfin. The following U.S. Harmonized Tariff Schedule Item Numbers identify the categories of yellowfin tuna and yellowfin tuna products that are harvested in the ETP purse seine fisher (some of which are also harvested with large-scale driftnet), are imported into the United States, and are subject to the restrictions of paragraphs (e)(3) and (e)(5) of this section:

(A) Tuna, frozen whole or in the round:

0303.42.00.20.0 Tuna, yellowfin, whole frozen.
0303.42.00.40.6 Tuna, yellowfin, eviscerated head-on, frozen.
0303.42.00.60.1 Tuna, yellowfin, eviscerated head-off, frozen.
0303.49.00.40.9 Tuna, non-specific, frozen.

(B) Tuna, canned:

1604.14.10.00.0 Tuna, non-specific, canned in oil.
1604.14.20.40.0 Tuna, non-specific, canned, not in oil, not over 7kg in quota.
1604.14.30.40.8 Tuna, non-specific, canned, not in oil, not over 7kg over quota.

(C) Tuna, loins:

1604.14.40.00.4 Tuna, non-specific, not in air-tight container, not in oil, over 6.8kg.
1604.14.50.00.1 Tuna, non-specific, not in air-tight container, not in oil, not over 6.8kg.

(ii) Tuna: non-yellowfin. The following U.S. Harmonized Tariff Schedule Item Numbers identify the categories of tuna and tuna products that are harvested with large-scale driftnet and imported into the United States and are
subject to the restrictions of paragraph (e)(3) of this section:
(A) Tuna, frozen whole or in the round:
0303.41.00.0.0 Tuna, albacore, frozen.
0303.43.00.0.0 Tuna, skipjack, frozen.
0303.49.00.20.3 Tuna, bluefin, frozen.
(B) Tuna, canned:
1604.14.20.4 Tuna, albacore, canned, not in oil, not over 7kg in quota.
1604.14.30.2 Tuna, albacore, canned, not in oil, not over 7kg over quota.
(iii) Fish, other than tuna. The following U.S. Harmonized Tariff Schedule Item Numbers identify the categories of fish and fish products that are imported into the United States and are subject to the restrictions of paragraph (e)(3) of this section:
(A) Salmon:
(1) Salmon, frozen whole or in the round:
0303.10.00.12 Salmon, chinook, frozen.
0303.10.00.22 Salmon, chum, frozen.
0303.10.00.32 Salmon, pink, frozen.
0303.10.00.42 Salmon, sockeye, frozen.
0303.10.00.52 Salmon, coho, frozen.
0303.10.00.62 Salmon, Pacific, non-specific, frozen.
0303.21.00.0.0 Trout, frozen.
0303.22.00.0.0 Salmon, Atlantic, Danube, frozen.
0303.29.00.0.0 Salmonidae, non-specific, frozen.
0304.20.60.7 Salmonidae, salmon fillet, frozen.
0305.69.40.0.0 Salmonidae, salmon fillet dried/salted/brine.
(2) Salmon, canned:
1604.11.20.7 Salmon, pink, canned in oil.
1604.11.20.30 Salmon, sockeye, canned in oil.
1604.11.20.92 Salmon, non-specific, canned in oil.
1604.11.20.95 Salmon, chum, canned, not in oil.
1604.11.20.33 Salmon, pink, canned, not in oil.
1604.11.20.30 Salmon, sockeye, canned, not in oil.
1604.11.20.4 Salmon, non-specific, canned, not in oil.
1604.11.20.4 Salmon, non-specific, other.
(B) Squid:
0307.49.00.10 Squid, non-specific, fillet, frozen.
0307.49.00.50 Squid, non-specific, frozen/dried/salted/brine.
0307.49.00.60 Squid, non-specific, & cuttlefish frozen/dried/salted/brine.
1605.90.60.55 Squid, non-specific, prepared/preserved.
(C) Shark:
0303.79.00.0.4 Shark, dogfish and other sharks, frozen.
0305.59.00.8 Shark fins.
(D) Swordfish:
0303.79.40.0.8 Swordfish, frozen.
(E) Species not specifically identified:
0303.79.40.90鲨鱼, non-specific, frozen.
0304.20.66.6 Salmon, non-specific, fillet blocks frozen over 4.5kg.
0304.20.68.54 Salmon, non-specific, fillet, frozen.
0305.30.80.06 Fish, non-specific, fillet dried/salted/brine over 6.8kg.
0305.49.40.90 Fish, non-specific, smoked.
0305.59.40.0.4 Fish, non-specific, dried.
0305.69.50.0.0 Fish, non-specific, salted, not over 6.8kg.
0305.69.60.0.7 Fish, non-specific, salted, over 6.8kg.
1604.19.20.0.3 Fish, non-specific, in airtight containers, not in oil.
1604.19.30.0.1 Fish, non-specific, in airtight containers, in oil.
(3)(i) Tuna—(A) All nations. No shipment containing an item listed in paragraph (e)(2)(i) or (e)(2)(ii) of this section, from any nation, may be imported into the United States unless:
(1) Accompanied by a completed Fisheries Certificate of Origin described in paragraph (e)(3)(iii) of this section, or, for points of entry where the ABI system is available, the information required for the Certificate may be filed electronically by the ABI system in lieu of the paper form, provided that the electronic filing is no later than at the time of entry and all documentation in support of the ABI entry is maintained by the importer or broker for not less than 5 years and is kept available for inspection by NMFS personnel upon request;
(2) The tuna or tuna product was not harvested with a large-scale drift net after July 1, 1991; and
(3) An original invoice accompanies the shipment at the time of importation, or is made available within 30 days of a request by the Secretary to produce the invoice.
(B) Harvesting nations. No shipment containing an item listed in paragraph (e)(2)(ii) of this section may be imported into the United States from a harvesting nation subject to paragraph (e)(5)(i) of this section unless a finding required for importation has been made.
(C) Intermediary nations. No shipment containing an item listed in paragraph (e)(2)(i) of this section may be imported into the United States from an intermediary nation subject to paragraph (e)(5)(xiv) of this section if a ban is currently in force prohibiting the importation.

(D) Harvesting and intermediary nations. No shipment containing an item in paragraph (e)(2)(i) of this section may be imported into the United States from a nation that is both a harvesting nation subject to paragraph (e)(5)(i) of this section and an intermediary nation subject to paragraph (e)(5)(xiv) of this section unless the necessary findings have been made under both provisions and a ban is not currently in force.

(E) Tuna or tuna products sold in or exported from the United States that suggest the tuna was harvested in a manner not injurious to dolphins are subject to the requirements of subpart H.

(ii) Other fish. After July 1, 1991, no shipment containing an item listed in paragraphs (e)(2)(iii)(B) through (E) of this section, and, after July 1, 1992, no shipment containing an item in the whole of paragraph (e)(2)(iii) of this section, that was harvested by any nation determined by the Assistant Administrator to be engaged in large-scale driftnet fishing, or exported from any such nation, either directly or through an intermediary nation, may be imported into the United States unless:

(A) Accompanied by a complete Fisheries Certificate of Origin, as described in paragraph (e)(3)(iii) of this section;

(B) The fish or fish product was not harvested with a large-scale driftnet, if the area of harvest, as described on the Fisheries Certificate of Origin was:

(1) The South Pacific Ocean, for harvests after July 1, 1991; or

(2) Anywhere on the high seas, for harvests after July 1, 1992; and

(C) An original invoice accompanies the shipment at the time of importation, or is made available within 30 days of a request by the Secretary to produce the invoice.

(iii) Certificates of Origin. A Fisheries Certificate of Origin (NOAA Form 370), certified to be accurate by the first exporter of the accompanying shipment, must include the following information:

(A) Country under whose laws the harvesting vessel operated;

(B) Exporter (name and address);

(C) Consignee (name and address);

(D) Type and quantity of the fish or fish products to be imported, listed by U.S. Harmonized Tariff Schedule Number;

(E) Ocean area where the fish was harvested (ETP, Western Pacific Ocean, South Pacific Ocean, Atlantic Ocean, Caribbean Sea, Indian Ocean, or other);

(F) Type of fishing gear used to harvest the fish (purse seine, longline, bait boat, large-scale driftnet, other type of gillnet, trawl, pole and line, other);

(G) Dates on which the fishing trip began and ended;

(H) If shipment is tuna or products from tuna that were harvested in the ETP with a purse seine net, the name of the harvesting vessel; and

(I) For shipments harvested by vessels of a nation known to use large-scale driftnets, as determined by the Secretary pursuant to paragraph (e)(4) of this section, a statement must be included on the Fisheries Certificate of Origin, or by separate attachment, that is dated and signed by a responsible government official of the harvesting nation, certifying that the fish or fish product was harvested by a method other than large-scale driftnet, if the shipment includes:

(1) Tuna or tuna products described in paragraph (e)(2) (i) or (ii) of this section that were harvested on the high seas after July 1, 1991; or

(2) Fish or fish products other than tuna described in paragraph (e)(2)(iii) of this section that were harvested in the South Pacific Ocean after July 1, 1991, or that were harvested anywhere on the high seas after July 1, 1992.

(4) Large-scale driftnet nations. Based upon the best information available, the Assistant Administrator will determine which nations have registered vessels that engage in fishing with large-scale driftnets.
large-scale driftnets. Such determinations shall be published in the Federal Register. A responsible government official of any such nation may certify to the Assistant Administrator that none of the nation’s vessels use large-scale driftnets. Upon receipt of the certification, the Assistant Administrator may find, and publish such finding in the Federal Register, that none of the nation’s vessels engage in fishing with large-scale driftnets.

(5) Yellowfin tuna. (i) Any tuna or tuna products in the classifications listed in paragraph (e)(2)(i) of this section, from harvesting nations whose vessels of greater than 400 short tons (362.8 mt) carrying capacity operate in the ETP tuna purse seine fishery as determined by the Assistant Administrator, may not be imported into the United States unless the Assistant Administrator makes an affirmative finding under either paragraph (e)(5)(v), (e)(5)(viii) or (e)(5)(x) of this section and publishes the finding in the Federal Register that:

(A) The government of the harvesting nation has adopted a regulatory program governing the incidental taking of marine mammals in the course of such harvesting that is comparable to the regulatory program of the United States; and

(B) The average rate of incidental mortality by the vessels of the harvesting nation is comparable to the average rate of incidental mortality of marine mammals by U.S. vessels in the course of such harvesting as specified in paragraphs (e)(5)(v)(E) and (e)(5)(v)(F) of this section.

(ii) A harvesting nation which desires an initial finding under these regulations that will allow it to import into the United States those products listed in paragraph (e)(2)(i) of this section must provide the Assistant Administrator with the following information:

(A) A detailed description of the nation’s regulatory and enforcement program governing incidental taking of marine mammals in the purse seine fishery for yellowfin tuna, including:

(I) A description, with copies of relevant laws, implementing regulations and guidelines, of the gear and procedures required in the fishery to protect marine mammals, including but not limited to the following:

(1) A description of the methods used to identify problems and to take corrective actions to improve the performance of individual fishermen in reducing incidental mortality and serious injury. By 1990 the methods must identify individual operators with marine mammal mortality rates which are consistently and substantially higher than the majority of the nation’s fleet, and provide for corrective training and, ultimately, suspension and removal from the fishery if the operator’s performance does not improve to at least the performance of the majority of the fleet in a reasonable time period;

(ii) By 1990, a description of a regulatory system in operation which ensures that all marine mammal sets are completed through backdown to rolling the net to sack-up no later than one-half hour after sundown, except that individual operators may be exempted, if they have maintained consistently a rate of kill during their observed sundown sets which is not higher than that of the nation’s fleet average during daylight sets made during the time period used for their comparability finding; and

(iii) By 1990, a description of its restrictions on the use of explosive devices in the purse seine fishery which are comparable to those of the United States.

(B) A list of its vessels and any certified charter vessels of greater than 400 short tons carrying capacity which purse seined for yellowfin tuna at any time during the preceding year in the ETP, indicating the status of each vessel during that period (i.e., actively fishing in ETP, fishing in other waters; in port for repairs; inactive) and the status of each vessel expected to operate in the ETP in the year in which the submission is made.

(C) A compilation of the best available data for each calendar year on the
performance of any of its purse seine vessels (including certified charter vessels) fishing at any time for tuna associated with marine mammals within the ETP including the following:

(1) Total number of tons of yellowfin tuna observed caught in each fishing area by purse seine sets on:
   (i) Common dolphin and
   (ii) All other marine mammal species;

(2) Total number of marine mammals observed killed and the total number of marine mammals observed seriously injured in each fishing area by species/stock by purse seine sets on:
   (i) Common dolphin and
   (ii) All other marine mammal species;

(3) Total number of observed trips and total number of observed purse seine sets on marine mammals in each fishing area by the nation's purse seine fleet during the year;

(4) Total number of vessel trips and total number of purse seine sets on marine mammals in each fishing area by the nation's purse seine fleet during the year; and

(5) The total number of observed purse seine sets in each fishing area in which more than 15 marine mammals were killed.

(D) Data required by paragraph (e)(5)(ii)(C)(2) presented individually for the following marine mammal species/stocks: offshore spotted dolphin, coastal spotted dolphin, eastern spinner dolphin, whitebelly spinner dolphin, common dolphin, striped dolphin, and “other marine mammals”.

(E) A description of the source of the data provided in accordance with paragraph (e)(5)(ii)(C) of this section. The observer program from which these data are provided must be operated by the IATTC or another international program in which the United States participates and must sample at least the same percentage of the fishing trips as the United States achieves over the same time period, unless the Assistant Administrator determines that an alternative observer program, including a lesser level of observer coverage, will provide a sufficiently reliable average rate of incidental taking of marine mammals for the nation.

(iii) A nation applying for its initial finding of comparability should apply at least 120 days before the desired effective date. The Assistant Administrator's determination on a nation's application for its initial finding will be announced and published in the Federal Register within 120 days of receipt of the information required in paragraph (e)(5)(ii) of this section.

(iv) A harvesting nation that has in effect a positive finding under this section may request renewal of its finding for the following calendar year by providing the Assistant Administrator, by December 1 of the current calendar year, an update of the information listed in §216.24(e)(5)(ii) summarizing all fishing trips completed during the 12-month period from October 1 of the previous calendar year through September 30 of the current year.

(v) The Assistant Administrator's determination of a nation's timely submitted request for renewal of an affirmative finding will be announced by December 31. A finding will be valid for the calendar year following the fishing season for which observer data was submitted for obtaining a finding. The Assistant Administrator will make an affirmative finding or renew an affirmative finding if:

(A) The harvesting nation has provided all information required by paragraphs (e)(5)(i) and (e)(5)(iv) of this section;

(B) The nation's regulatory program is comparable to the regulatory program of the United States as described in paragraphs (a), (c), (d)(2), and (f) of this section and the nation has incorporated into its regulatory program such additional prohibitions as the United States may apply to its own vessels within 180 days after the prohibition applies to U.S. vessels;

(C) The data on marine mammal mortality and serious injury submitted by the harvesting nation are determined to be accurate;

(D) The observer coverage of fishing trips was equal to that achieved by the United States during the same time period or, if less, was determined by the Assistant Administrator to provide a sufficiently accurate sample of the nation's fleet mortality rate;
(E) For findings using data collected after 1988, the average kill-per-set rate for the longest period of time for which data are available, up to 5 consecutive years, or for the most recent year, whichever is lower, is no more than 25 percent greater than the U.S. average for the same time period, after the U.S. mortality rate is weighted to account for dissimilar amounts of fishing effort between the two nations in the three ETP fishing areas and for common dolphin and other marine mammal species, as provided in paragraph (e)(5)(v)(F) of this section for findings made in 1990.

(F) For determining comparability where there are fewer than five sets (including no effort) on dolphin by the U.S. fleet in a fishing area on a species grouping that has fishing effort by the foreign nation requesting a comparability test, the mortality rates used for comparability will be the overall (i.e., unweighted) kill-per-set rate of the U.S. fleet and of the foreign nation's fleet.

(G) For the 1989 fishing year and subsequent years, the nation's observed kill of eastern spinner dolphin (Stenella longirostris) and coastal spotted dolphin (Stenella attenuata) is no greater than 15 percent and 2 percent, respectively, of the nation's total annual observed dolphin mortality; and

(H) The nation has complied with all reasonable requests by the Assistant Administrator for cooperation in carrying out dolphin population assessments in the ETP.

(vi) Period of validity. A finding is valid only for the period for which it was issued and may be terminated before the end of the year if the Assistant Administrator finds that the nation no longer has a comparable regulatory program or kill rate.

(vii) Reconsideration of finding. The Assistant Administrator may reconsider a finding upon a request from and the submission of additional information by the harvesting nation, if the information indicates that the nation has met the requirements under paragraph (e)(5)(v) of this section. For a harvesting nation whose marine mammal mortality rate was found to exceed the acceptable levels prescribed in paragraphs (e)(5)(v)(E), (e)(5)(v)(F), or (e)(5)(v)(G) of this section, the additional information must include data collected by an acceptable observer program, which must demonstrate that the nation's fleet marine mammal mortality rate improved to the acceptable level during the period submitted for comparison, which must include, at a minimum, the most recent:

(A) Twelve months of observer data if the species composition rate prescribed by paragraph (e)(5)(v)(G) of this section was not acceptable; or

(B) Six months of observer data if the average kill-per-set rate prescribed by paragraph (e)(5)(v)(E) of this section was not acceptable.

(viii) Application for finding for nonmarine-mammal intentional sets. The Assistant Administrator's determination on a nation's application for a finding will be announced and published in the FEDERAL REGISTER. A harvesting nation which has implemented a regulatory program that prohibits the intentional setting of any purse seine net to encircle marine mammals and desires an initial finding under these regulations that will allow it to import into the United States those products listed in paragraph (e)(2)(i) of this section must provide the Assistant Administrator with the following:

(A) Documentary evidence establishing that its regulatory program includes:

(1) A law prohibiting the intentional setting of purse seine nets on marine mammals (a copy of the law must be submitted);

(2) A requirement that a certificate from an observer be obtained within 30 days of the completion of each and every trip of the nation's purse seine vessels greater than 400 short tons (362.8 mt) carrying capacity, stating that the observer was aboard the vessel during the entire trip and that there were no intentional purse seine sets on marine mammals; and

(B) A complete list of the nation's vessels and any certified charter vessels of greater than 400 short tons (362.8 mt) carrying capacity which purse seine for yellowfin tuna in the ETP, indicating the status of each vessel (i.e., actively fishing in the ETP, in port for repairs, etc.), and a list of changes to
this fleet within 30 days when changes occur.

(ix) Application for renewal of finding for non-marine-mammal intentional sets.
A harvesting nation, which has in effect an affirmative finding under this section, may request a renewal of its finding for the subsequent calendar year by providing the Assistant Administrator an annual report by November 1, covering the previous October 1 to September 30 period, which includes the following:

(A) Vessel summary data, to include:
   (1) The total number of observed trips;
   (2) The percentage of all purse seine fishing trips that carried observers under a program approved by the Assistant Administrator;
   (3) The total number, if any, of observed purse seine sets on marine mammals;
   (4) A summary of the number and species, if any, of all marine mammals killed or seriously injured in intentional purse seine sets on marine mammals;
   (5) A complete list of the nation's vessels and any certified charter vessels of greater than 400 short tons (362.8 mt) carrying capacity which purse seine for yellowfin tuna in the ETP, indicating the status of each vessel as of October 1;
   (B) A summary, which copies of relevant laws, of any changes in the nation's laws or regulatory program regarding marine mammals for the purse seine fishery in the ETP; and
   (C) A summary of any enforcement actions taken to ensure compliance with the nation's marine mammal protection laws.

(x) Review of finding for non-marine-mammal intentional sets. The Assistant Administrator will renew an affirmative finding obtained under paragraph (e)(5)(ix) of this section if:

(A) The harvesting nation has provided all of the information required by paragraph (e)(5)(ix) of this section and the conditions under which the original finding was made under paragraph (e)(5)(viii) of this section continue to exist; and

(B) Either 100 percent observer coverage is provided for all purse seine vessels as required by paragraph (e)(5)(viii)(A)(2) of this section; or the harvesting nation is in a probationary status in accordance with paragraph (e)(5)(x)(B)(1) of this section; and

(C) The harvesting nation meets the criteria of paragraphs (e)(5)(v)(E), and (e)(5)(v)(G) of this section; and

(D) Certificates have been provided to the Assistant Administrator within 30 days of the completion of each and every trip of the nation's purse seine vessels greater than 400 short tons (362.8 mt) carrying capacity from an observer approved by the Assistant Administrator or under the direction of the Inter-American Tropical Tuna Commission, and verified by the Inter-American Tropical Tuna Commission, stating that the observer was aboard the vessel during the entire trip and that there were no intentional purse seine sets on marine mammals or the nation received a positive reconsideration for an affirmative finding under paragraph (e)(5)(xii)(A) of this section.

(xi) Probation and revocation.

(A)(1) If it is determined that, during any trip, a purse seine was intentionally set on marine mammals, the nation will enter into a probationary status for 180 days, effective upon the date the vessel returns to port to unload.

(A)(2) If, during the probationary period of 180 days, there are any additional intentional purse seine sets made on marine mammals, the Assistant Administrator will immediately revoke the affirmative finding.

(B)(1) If it is determined that, during any trip, an observer is not aboard a nation's purse seine vessel greater than 400 short tons (362.8 mt) carrying capacity fishing in the ETP, that nation will enter into a probationary status for 1 year, effective upon the date the vessel returns to port to unload.

(B)(2) If, during the 1-year probationary period, a nation's purse seine vessel returns to port to unload, and it is determined that an observer was not aboard the vessel during a trip in the ETP, the Assistant Administrator will immediately revoke an affirmative finding made under paragraphs (e)(5)(viii) or (e)(5)(x) of this section.

(xii) Reconsideration.

(A) The Assistant Administrator will reconsider a revocation of an affirmative finding upon request from a harvesting nation.
which had its affirmative finding revoked under paragraph (e)(5)(xi)(A) of this section if:

(1) The number of marine mammals taken in purse seine nets that were intentionally set on marine mammals does not exceed the comparability standards established in paragraphs (e)(5)(v)(E) and (e)(5)(v)(G) of this section; and

(2) That nation provides documentary evidence that no additional purse seines were intentionally set on marine mammals during the 90-day period immediately preceding the request for reconsideration.

(B) A harvesting nation which has its affirmative finding revoked under paragraph (e)(5)(xi)(B) of this section or its reconsideration under paragraph (e)(5)(xii)(A) of this section denied, may request reconsideration for an affirmative finding under paragraph (e)(5)(vii) of this section.

(xiii) Verification. The Assistant Administrator may require verification of statements made in connection with requests to allow importations.

(xiv) Intermediary nation. Any yellowfin tuna or yellowfin tuna products in the classifications listed in paragraph (e)(2)(i) of this section, from any intermediary nation, as that term is defined in section 3 of the MMPA, may not be imported into the United States unless the Assistant Administrator determines and publishes in the Federal Register that the intermediary nation has provided reasonable proof and has certified to the United States that it has not imported, in the preceding 6 months, yellowfin tuna or yellowfin tuna products that are subject to a ban on direct importation into the United States under section 101(a)(2)(B) of the MMPA. A prohibition on imports under this paragraph may be lifted by the Assistant Administrator upon a determination announced in the Federal Register, based upon new information supplied by the government of the intermediary nation, that the nation has not imported, in the preceding 6 months, yellowfin tuna or yellowfin tuna products subject to a ban on direct imports under section 101(a)(2)(B) of the MMPA. A shipment of yellowfin tuna or yellowfin tuna products through a nation on a through bill of lading or in another manner that does not enter the shipments into that nation as an importation do not make that nation an intermediary nation. The Assistant Administrator shall act on any request to review decisions under this paragraph (e)(5)(xiv) that are accompanied by specific and detailed supporting information or documentation, within 30 days of receipt of such request. For purposes of this paragraph (e)(5)(xiv), certification and reasonable proof means the submission by a government official from the nation of a document reflecting the nation's customs records for the preceding 6 months, together with a certificate attesting that the document is accurate.

(xv) Pelly certification. After 6 months on an embargo being in place against a nation under this section, that fact shall be certified to the President for purposes of certification under section 8(a) of the Fishermen's Protective Act of 1967 (22 U.S.C. 1978(a)) for as long as the embargo is in effect.

(xvi) Coordination. The Assistant Administrator will promptly advise the Department of State of embargo decisions, actions and finding determinations.

(6) Fish refused entry. If fish is denied entry under the provisions of §216.24(e)(3), the District Director of Customs shall refuse to release the fish for entry into the United States and shall issue a notice of such refusal to the importer or consignee.

(7) [Reserved]

(8) Disposition of fish refused entry into the United States; redelivered fish. Fish which is denied entry under §216.24(e)(3) or which is delivered in accordance with §216.24(e)(7) and which is not exported under Customs supervision within 90 days from the date of notice of refusal of entry into the United States and shall be disposed of in accordance with the laws and regulations of the United States. Provided, however, That any disposition shall not result in an introduction into the United States of fish caught in violation of the Marine Mammal Protection Act of 1972.

(9) Dolphin safe requirements. (i) It is unlawful for any person to sell, purchase, offer for sale, transport, or ship...
in the United States, any tuna or tuna product that is not dolphin safe.

(ii) For purposes of this section, tuna or a tuna product is dolphin safe if:

(A) It does not contain tuna that was harvested on the high seas by a vessel engaged in large-scale driftnet fishing;

(B) In the case of tuna or a tuna product that contains tuna harvested in the ETP by a purse seine vessel, either the purse seine vessel is of less than 400 short tons (362.8 metric tons (mt)) carrying capacity or, if the purse seine vessel is of 400 short tons (362.8 mt) carrying capacity or greater, the tuna or tuna product is accompanied by:

(1) A completed Fisheries Certificate of Origin;

(2) A written statement by the captain of each vessel that harvested the tuna, certifying that the vessel did not intentionally deploy a purse seine net on, or to encircle, dolphins at any time during the trip; a written statement, signed by either the Secretary or a representative of the Inter-American Tropical Tuna Commission, certifying that an observer employed by or working under contract with the Inter-American Tropical Tuna Commission or the Secretary, was on board the vessel during the entire trip and that the vessel did not intentionally deploy a purse seine net on, or to encircle, dolphin at any time during the trip; and

(3) An endorsement on the Fisheries Certificate of Origin by each exporter, importer, and processor certifying that, to the best of his or her knowledge and belief, the Fisheries Certificate of Origin and attached documents, and the statements required by this paragraph (e)(9)(ii) accurately describe the tuna products;

(C) In the case of tuna or a tuna product containing tuna harvested outside the eastern tropical Pacific Ocean by a purse seine vessel, it is accompanied by a written statement, executed by the captain of the vessel, certifying that no purse seine net was intentionally deployed on, or to encircle, dolphins during the particular voyage on which the tuna was harvested; and

(D) In the case of tuna or a tuna product containing tuna harvested outside the ETP by a purse seine vessel in a fishery in which the Secretary has determined that a regular and significant association occurs between marine mammals and tuna, and in which tuna is harvested through the use of purse seine nets deployed on, or to encircle, marine mammals, it is accompanied by a written statement, executed by the captain of the vessel and by an observer, certifying that no purse seine net was intentionally deployed on, or to encircle, marine mammals during the particular voyage on which the tuna was harvested.

(iii) Submission of documentation—(A) Imported tuna or tuna product. The documents required by paragraph (e)(9)(ii) of this section must accompany the imported tuna or tuna product until no further endorsements are required on the documentation and the documents have been submitted to officials of the U.S. Customs Service at the time of importation.

(B) U.S. domestic shipments. The documents required by paragraph (e)(9)(ii) of this section must accompany tuna or tuna product, other than imported, until no further endorsements are required on the documentation and the documents have been submitted to the Director, Southwest Region, National Marine Fisheries Service, 501 W. Ocean Boulevard, Suite 4200, Long Beach, CA 90802.

(f) Observers. (1) The vessel certificate holder of any certificated vessel shall, upon the proper notification by the National Marine Fisheries Service, allow an observer duly authorized by the Secretary to accompany the vessel on any or all regular fishing trips for the purpose of conducting research and observing operations, including collecting information which may be used in civil or criminal penalty proceedings, forfeiture actions, or permit or certificate sanctions.

(2) Research and observation duties shall be carried out in such a manner as to minimize interference with commercial fishing operations. The navigator shall provide true vessel locations by latitude and longitude, accurate to the nearest minute, upon request by the observer. No owner, master, operator, or crew member of a certificated vessel shall impair or in any way interfere with the research or observations being carried out.
§ 216.24  

(3) Marine mammals killed during fishing operations which are accessible to crewmen and requested from the certificate holder or master by the observer shall be brought aboard the vessel and retained for biological processing, until released by the observer for return to the ocean. Whole marine mammals designated as biological specimens by the observer shall be retained in cold storage aboard the vessel until retrieved by authorized personnel of the National Marine Fisheries Service when the vessel returns to port for unloading.

(4) The Secretary shall provide for the payment of all reasonable costs directly related to the quartering and maintaining of such observers on board such vessels. A vessel certificate holder who has been notified that the vessel is required to carry an observer, via certified letter from the National Marine Fisheries Service, shall notify the office from which the letter was received at least five days in advance of the fishing voyage to facilitate observer placement. A vessel certificate holder who has failed to comply with the provisions of this section may not engage in fishing operations for which a general permit is required.

(5) It is unlawful for any person to forcibly assault, impede, intimidate, interfere with, or to influence or attempt to influence an observer, or to harass (including sexual harassment) an observer by conduct which has the purpose or effect of unreasonably interfering with the observer’s work performance, or which creates an intimidating, hostile, or offensive environment. In determining whether conduct constitutes harassment, the totality of the circumstances, including the nature of the conduct and the context in which it occurred, will be considered. The determination of the legality of a particular action will be made from the facts on a case-by-case basis.

(6)(i) All observers must be provided sleeping, toilet and eating accommodations at least equal to that provided to a full crew member. A mattress or futon on the floor or a cot is not acceptable in place of a regular bunk. Meal and other galley privileges must be the same for the observer as for other crew members.

(ii) Female observers on a vessel with an all-male crew must be accommodated either in a single-person cabin or, if reasonable privacy can be ensured by installing a curtain or other temporary divider, in a two-person cabin shared with a licensed officer of the vessel. If the cabin assigned to a female observer does not have its own toilet and shower facilities that can be provided for the exclusive use of the observer, then a schedule for time-sharing common facilities must be established before the placement meeting and approved by NMFS and must be followed during the entire trip.

(iii) In the event there are one or more female crew members, the female observer may be provided a bunk in a cabin shared solely with female crew members, and provided toilet and shower facilities shared solely with these female crew members.

(7)(i) A vessel certificate of inclusion holder (or vessel owner in the case of a new application) may seek an exemption from carrying a female observer on a vessel by applying to the Director, Southwest Region when applying for the vessel certificate of inclusion until July 10, 1989 and establishing the following:

(A) The vessel will have an all-male crew;

(B) The vessel has fewer than two private (one-person) and semi-private (two-person) cabins in total (excluding the captain’s cabin);

(C) A temporary divider like a curtain cannot be installed in the private or semi-private cabin (excluding the captain’s cabin) to provide reasonable privacy; and

(D) There are no other areas (excluding the captain’s cabin) that can be converted to a sleeping room without either significant expense or significant sacrifice to the crew’s quarters.

(ii) The exclusion criteria in paragraph (f)(7)(i) of this section can be met without having to provide the captain’s cabin for the observer. The application for an exemption must also include an accurate diagram of the vessel’s living areas, and other areas possibly suitable for sleeping. Additional documentation to support the application may also be required, as may an inspection of the vessel. The exemption, once granted, is
valid for the same calendar year as the vessel certificate of inclusion, and the exemption must be renewed annually to remain valid. The vessel certificate of inclusion holder is responsible for reporting to the Director, Southwest Region any changes aboard the vessel within 15 days of the change which might affect the continued eligibility for an exemption. The Director, Southwest Region will revoke an exemption if the criteria for an exemption are no longer met.

(g) Penalties and rewards: Any person or vessel subject to the jurisdiction of the United States shall be subject to the penalties provided for under the MMPA for the conduct of fishing operations in violation of these regulations. The Secretary shall recommend to the Secretary of the Treasury that an amount equal to one-half of the fine incurred but not to exceed $2,500 be paid to any person who furnishes information which leads to a conviction for a violation of these regulations. Any officer, employee, or designated agent of the United States or of any State or local government who furnishes information or renders service in the performance of his official duties shall not be eligible for payment under this section.

[45 FR 72187, Oct. 31, 1980]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting §216.24, see the List of CFR Sections Affected in the Finding Aids section of this volume.

§ 216.25 Exempted marine mammals and marine mammal products.

(a) The provisions of the MMPA and these regulations shall not apply:

(1) To any marine mammal taken before December 21, 1972, or

(2) To any marine mammal product if the marine mammal portion of such product consists solely of a marine mammal taken before such date.

(b) The prohibitions contained in §216.12(c) (3) and (4) shall not apply to marine mammals or marine mammal products imported into the United States before the date on which a notice is published in the FEDERAL REGISTER with respect to the designation of the species or stock concerned as depleted or endangered.

(c) Section 216.12(b) shall not apply to articles imported into the United States before the effective date of the foreign law making the taking or sale, as the case may be, of such marine mammals or marine mammal products unlawful.

§ 216.26 Collection of certain marine mammal parts without prior authorization.

Notwithstanding any other provision of this subpart:

(a) Any bones, teeth or ivory of any dead marine mammal may be collected from a beach or from land within 1/4 of a mile of the ocean. The term ocean includes bays and estuaries.

(b) Notwithstanding the provisions of subpart D, soft parts that are sloughed, excreted, or discharged naturally by a living marine mammal in the wild may be collected or imported for bona fide scientific research and enhancement, provided that collection does not involve the taking of a living marine mammal in the wild.

(c) Any marine mammal part collected under paragraph (a) of this section or any marine mammal part collected and imported under paragraph (b) of this section must be registered and identified, and may be transferred or otherwise possessed, in accordance with §216.22(c). In registering a marine mammal part collected or imported under paragraph (b) of this section, the person who collected or imported the part must also state the scientific research or enhancement purpose for which the part was collected or imported.

(d) No person may purchase, sell or trade for commercial purposes any marine mammal part collected or imported under this section.

(e) The export of parts collected without prior authorization under paragraph (b) of this section may occur...
§ 216.27 Release, non-releasability, and disposition under special exception permits for rehabilitated marine mammals.

(a) Release requirements. (1) Any marine mammal held for rehabilitation must be released within six months of capture or import unless the attending veterinarian determines that:
   (i) The marine mammal might adversely affect marine mammals in the wild;
   (ii) Release of the marine mammal to the wild will not likely be successful given the physical condition and behavior of the marine mammal; or
   (iii) More time is needed to determine whether the release of the marine mammal to the wild will likely be successful. Releasability must be reevaluated at intervals of no less than six months until 24 months from capture or import, at which time there will be a rebuttable presumption that release into the wild is not feasible.

(2) The custodian of the rehabilitated marine mammal shall provide written notification prior to any release into the wild.
   (i) Notification shall be provided to:
      (A) The NMFS Regional Director at least 15 days in advance of releasing any beached or stranded marine mammal, unless advance notice is waived in writing by the Regional Director; or
      (B) The Office Director at least 30 days in advance of releasing any imported marine mammal.
   (ii) Notification shall include the following:
      (A) A description of the marine mammal, including its physical condition and estimated age;
      (B) The date and location of release; and
      (C) The method and duration of transport prior to release.

(3) The Regional Director, or the Office Director as appropriate, may:
   (i) Require additional information prior to any release;
   (ii) Change the date or location of release, or the method or duration of transport prior to release;
   (iii) Impose additional conditions to improve the likelihood of success or to monitor the success of the release; or
   (iv) Require other disposition of the marine mammal.

(4) All marine mammals must be released near wild populations of the same species, and stock if known, unless a waiver is granted by the Regional Director or the Office Director.

(5) All marine mammals released must be tagged or marked in a manner acceptable to the Regional Director or the Office Director. The tag number or description of the marking must be reported to the Regional Director or Office Director following release.

(b) Non-releasability and postponed determinations.

(1) The attending veterinarian shall provide the Regional Director or Office Director with a written report setting forth the basis of any determination under paragraphs (a)(1)(i) through (iii) of this section.

(2) Upon receipt of a report under paragraph (b)(1) of this section, the Regional Director or Office Director, in their sole discretion, may:
   (i) Order the release of the marine mammal;
   (ii) Order continued rehabilitation for an additional 6 months; or
   (iii) Order other disposition as authorized.

(3) No later than 30 days after a marine mammal is determined unreleasable in accordance with paragraphs (a)(1)(i) through (iii) of this section, the person with authorized custody must:
   (i) Request authorization to retain or transfer custody of the marine mammal in accordance with paragraph (c) of this section, or;
   (ii) Humanely euthanize the marine mammal or arrange any other disposition of the marine mammal authorized by the Regional Director or Office Director.

(4) Notwithstanding any of the provisions of this section, the Office Director may require use of a rehabilitated marine mammal for any activity authorized under subpart D in lieu of animals taken from the wild.
(5) Any rehabilitated beached or stranded marine mammal placed on public display following a non-releasability determination under paragraph (a)(1) of this section and pending disposition under paragraph (c) of this section, or any marine mammal imported for medical treatment otherwise unavailable and placed on public display pending disposition after such medical treatment is concluded, must be held in captive maintenance consistent with all requirements for public display.

(c) Disposition for a special exception purpose. (1) Upon receipt of an authorization request made under paragraph (b)(3)(i) of this section, or release notification under (a)(2), the Office Director may authorize the retention or transfer of custody of the marine mammal for a special exception purpose authorized under subpart D.

(2) The Office Director will first consider requests from a person authorized to hold the marine mammal for rehabilitation. The Office Director may authorize such person to retain or transfer custody of the marine mammal for scientific research, enhancement, or public display purposes.

(3) The Office Director may authorize retention or transfer of custody of the marine mammal only if:
   (i) Documentation has been submitted to the Office Director that the person retaining the subject animal or the person receiving custody of the subject animal by transfer, hereinafter referred to as the recipient, complies with public display requirements of 16 U.S.C. 1374(c)(2)(A) or, for purposes of scientific research and enhancement, holds an applicable permit, or an application for such a special exception permit under §216.33 or a request for a major amendment under §216.39 has been submitted to the Office Director and has been found complete;
   (ii) The recipient agrees to hold the marine mammal in conformance with all applicable requirements and standards; and
   (iii) The recipient acknowledges that the marine mammal is subject to seizure by the Office Director:
      (A) If, at any time pending issuance of the major amendment or permit, the Office Director determines that seizure is necessary in the interest of the health or welfare of the marine mammal;
      (B) If the major amendment or permit is denied; or
      (C) If the recipient is issued a notice of violation and assessment, or is subject to permit sanctions, in accordance with 15 CFR part 904.

(4) There shall be no remuneration associated with any transfer, provided that, the transferee may reimburse the transferor for any and all costs associated with the rehabilitation and transport of the marine mammal.

(5) Marine mammals undergoing rehabilitation or pending disposition under this section shall not be subject to public display, unless such activities are specifically authorized by the Regional Director or the Office Director, and conducted consistent with the requirements applicable to public display. Such marine mammals shall not be trained for performance or be included in any aspect of a program involving interaction with the public;

(6) Marine mammals undergoing rehabilitation shall not be subject to intrusive research, unless such activities are specifically authorized by the Office Director in consultation with the Marine Mammal Commission and its Committee of Scientific Advisors on Marine Mammals, and are conducted pursuant to a scientific research permit.

(d) Reporting. In addition to the report required under §216.22(b), the person authorized to hold marine mammals for rehabilitation must submit reports to the Regional Director or Office Director regarding release or other disposition. These reports must be provided in the form and frequency specified by the Regional Director or Office Director.

[61 FR 21933, May 10, 1996]

Subpart D—Special Exceptions

§216.30 [Reserved]

§216.31 Definitions.

For the purpose of this subpart, the definitions set forth in 50 CFR part 217 shall apply to all threatened and endangered marine mammals, unless a
§ 216.32

The regulations of this subpart apply to:

(a) All marine mammals and marine mammal parts taken or born in captivity after December 20, 1972; and

(b) All marine mammals and marine mammal parts that are listed as threatened or endangered under the ESA.

[61 FR 21935, May 10, 1996]

§ 216.33 Permit application submission, review, and decision procedures.

(a) Application submission. Persons seeking a special exemption permit under this subpart must submit an application to the Office Director. The application must be signed by the applicant, and provide in a properly formatted manner all information necessary to process the application. Written instructions addressing information requirements and formatting may be obtained from the Office Director upon request.

(b) Applications to export living marine mammals. For applicants seeking a special exception permit to export living marine mammals, the application must:

(1) Be submitted through the Convention on International Trade in Endangered Fauna and Flora management authority of the foreign government or, if different, the appropriate agency or agencies of the foreign government that exercises oversight over marine mammals.

(2) Include a certification from the foreign government that:

(i) The information set forth in the application is accurate;

(ii) The laws and regulations of the foreign government involved allow enforcement of the terms and conditions of the permit, and that the foreign government will enforce all terms and conditions; and

(iii) The foreign government involved will afford comity to any permit amendment, modification, suspension or revocation decision.

(c) Initial review. (1) NMFS will notify the applicant of receipt of the application.

(2) During the initial review, the Office Director will determine:

(i) Whether the application is complete.

(ii) Whether the proposed activity is for purposes authorized under this subpart.

(iii) If the proposed activity is for enhancement purposes, whether the species or stock identified in the application is in need of enhancement for its survival or recovery and whether the proposed activity will likely succeed in its objectives.

(iv) Whether the activities proposed are to be conducted consistent with the permit restrictions and permit specific conditions as described in §216.35 and §216.36(a).

(v) Whether sufficient information is included regarding the environmental impact of the proposed activity to enable the Office Director:

(A) To make an initial determination under the National Environmental Policy Act (NEPA) as to whether the proposed activity is categorically excluded from preparation of further environmental documentation, or whether the preparation of an environmental assessment (EA) or environmental impact statement (EIS) is appropriate or necessary; and

(B) To prepare an EA or EIS if an initial determination is made by the Office Director that the activity proposed is not categorically excluded from such requirements.

(3) The Office Director may consult with the Marine Mammal Commission (Commission) and its Committee of Scientific Advisors on Marine Mammals (Committee) in making these initial, and any subsequent, determinations.

(4) Incomplete applications will be returned with explanation. If the applicant fails to resubmit a complete application or correct the identified deficiencies within 60 days, the application will be deemed withdrawn. Applications that propose activities inconsistent with this subpart will be returned with explanation, and will not be considered further.
(d) Notice of receipt and application review. (1) Upon receipt of a valid, complete application, and the preparation of any NEPA documentation that has been determined initially to be required, the Office Director will publish a notice of receipt in the Federal Register. The notice will:
   (i) Summarize the application, including:
      (A) The purpose of the request;
      (B) The species and number of marine mammals;
      (C) The type and manner of special exception activity proposed;
      (D) The location(s) in which the marine mammals will be taken, from which they will be imported, or to which they will be exported; and
      (E) The requested period of the permit.
   (ii) List where the application is available for review.
   (iii) Invite interested parties to submit written comments concerning the application within 30 days of the date of the notice.
   (iv) Include a NEPA statement that an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an EA or EIS, that an EA was prepared resulting in a finding of no significant impact, or that a final EIS has been prepared and is available for review.
   (2) The Office Director will forward a copy of the complete application to the Commission for comment. If no comments are received within 45 days (or such longer time as the Office Director may establish) the Office Director will consider the Commission to have no objection to issuing a permit.
   (3) The Office Director may consult with any other person, institution, or agency concerning the application.
   (4) Within 30 days of publication of the notice of receipt in the Federal Register, any interested party may submit written comments or may request a public hearing on the application.
   (5) If the Office Director deems it advisable, the Office Director may hold a public hearing within 60 days of publication of the notice of receipt in the Federal Register. Notice of the date, time, and place of the public hearing will be published in the Federal Register not less than 15 days in advance of the public hearing. Any interested person may appear in person or through representatives and may submit any relevant material, data, views, or comments. A summary record of the hearing will be kept.
   (6) The Office Director may extend the period during which any interested party may submit written comments. Notice of the extension must be published in the Federal Register within 60 days of publication of the notice of receipt in the Federal Register.
   (7) If, after publishing a notice of receipt, the Office Director determines on the basis of new information that an EA or EIS must be prepared, the Office Director must deny the permit unless an EA is prepared with a finding of no significant impact. If a permit is denied under these circumstances the application may be resubmitted with information sufficient to prepare an EA or EIS, and will be processed as a new application.

(e) Issuance or denial procedures. (1) Within 30 days of the close of the public hearing or, if no public hearing is held, within 30 days of the close of the public comment period, the Office Director will issue or deny a special exception permit.
   (2) The decision to issue or deny a permit will be based upon:
      (i) All relevant issuance criteria set forth at §216.34;
      (ii) All purpose-specific issuance criteria as appropriate set forth at §216.41, §216.42, and §216.43;
      (iii) All comments received or views solicited on the permit application; and
      (iv) Any other information or data that the Office Director deems relevant.
   (3) If the permit is issued, upon receipt, the holder must date and sign the permit, and return a copy of the original to the Office Director. The permit shall be effective upon the permit holder’s signing of the permit. In signing the permit, the holder:
      (i) Agrees to abide by all terms and conditions set forth in the permit, and all restrictions and relevant regulations under this subpart; and
§ 216.34

(ii) Acknowledges that the authority to conduct certain activities specified in the permit is conditional and subject to authorization by the Office Director.

(4) Notice of the decision of the Office Director shall be published in the Federal Register within 10 days after the date of permit issuance or denial and shall indicate where copies of the permit, if issued, may be reviewed or obtained. If the permit issued involves marine mammals listed as endangered or threatened under the ESA, the notice shall include a finding by the Office Director that the permit:

(i) Was applied for in good faith;
(ii) If exercised, will not operate to the disadvantage of such endangered or threatened species; and
(iii) Is consistent with the purposes and policy set forth in section 2 of the ESA.

(5) If the permit is denied, the Office Director shall provide the applicant with an explanation for the denial.

(6) Under the MMPA, the Office Director may issue a permit for scientific research before the end of the public comment period if delaying issuance could result in injury to a species, stock, or individual, or in loss of unique research opportunities. The Office Director also may waive the 30-day comment period required under the ESA in an emergency situation where the health or life of an endangered or threatened marine mammal is threatened and no reasonable alternative is available. If a permit is issued under these circumstances, notice of such issuance before the end of the comment period shall be published in the Federal Register within 10 days of issuance.

(7) The applicant or any party opposed to a permit may seek judicial review of the terms and conditions of such permit or of a decision to deny such permit. Review may be obtained by filing a petition for review with the appropriate U.S. District Court as provided for by law.

§ 216.35 Permit restrictions.

The following restrictions shall apply to all permits issued under this subpart:

(a) The taking, importation, export, or other permitted activity involving marine mammals and marine mammal parts shall comply with the regulations of this subpart.

(b) The maximum period of any special exception permit issued, or any major amendment granted, is five years from the effective date of the permit or major amendment. In accordance with the provisions of §216.39, the period of a permit may be extended by a minor amendment up to 12 months.
§ 216.37 Marine mammal parts.

With respect to marine mammal parts acquired by take or import authorized under a permit issued under this subpart:

(a) Marine mammal parts are transferrable if:

(1) The person transferring the part receives no remuneration of any kind for the marine mammal part;
(2) The person receiving the marine mammal part is:

   (i) An employee of NMFS, the U.S. Fish and Wildlife Service, or any other governmental agency with conservation and management responsibilities, who receives the part in the course of their official duties;

   (ii) A holder of a special exception permit which authorizes the take, import, or other activity involving the possession of a marine mammal part of the same species as the subject part; or

   (iii) In the case of marine mammal parts from a species that is not depleted, endangered or threatened, a person who is authorized under section 112(c) of the MMPA and subpart C of this part to take or import marine mammals or marine mammal parts;

   (iv) Any other person specifically authorized by the Regional Director, consistent with the requirements of paragraphs (a)(1) and (a)(3) through (6) of this section.

(3) The marine mammal part is transferred for the purpose of scientific research, maintenance in a properly curated, professionally accredited scientific collection, or education, provided that, for transfers for educational purposes, the recipient is a museum, educational institution or equivalent that will ensure that the part is available to the public as part of an educational program;

(4) A unique number assigned by the permit holder is marked on or affixed to the marine mammal part or container;

(5) The person receiving the marine mammal part agrees that, as a condition of receipt, subsequent transfers may only occur subject to the provisions of paragraph (a) of this section; and

(6) Within 30 days after the transfer, the person transferring the marine mammal part notifies the Regional Director of the transfer, including a description of the part, the person to whom the part was transferred, the purpose of the transfer, certification that the recipient has agreed to comply with the requirements of paragraph (a) of this section for subsequent transfers, and, if applicable, the recipient's permit number.

(b) Marine mammal parts may be loaned to another person for a purpose described in paragraph (a)(3) of this section and without the agreement and notification required under paragraphs (a)(5) and (6) of this section, if:

(1) A record of the loan is maintained; and

(2) The loan is for not more than one year. Loans for a period greater than 12 months, including loan extensions or renewals, require notification of the Regional Director under paragraph (a)(6).

(c) Unless other disposition is specified in the permit, a holder of a special exception permit may retain marine mammal parts not destroyed or otherwise disposed of during or after a scientific research or enhancement activity, if such marine mammal parts are:

(1) Maintained as part of a properly curated, professionally accredited collection; or

(2) Made available for purposes of scientific research or enhancement at the request of the Office Director.

(d) Marine mammal parts may be exported and subsequently reimported by a permit holder or subsequent authorized recipient, for the purpose of scientific research, maintenance in a properly curated, professionally accredited scientific collection, or education, provided that:

(1) The permit holder or other person receives no remuneration for the marine mammal part;

(2) A unique number assigned by the permit holder is marked on or affixed to the marine mammal specimen or container;

(3) The marine mammal part is exported or reimported in compliance with all applicable domestic and foreign laws;

(4) If exported or reimported for educational purposes, the recipient is a museum, educational institution, or equivalent that will ensure that the part is available to the public as part of an educational program; and

(5) Special reports are submitted within 30 days after both export and reimport as required by the Office Director under §216.38.

[61 FR 21937, May 10, 1996]
§ 216.38 Reporting.

All permit holders must submit annual, final, and special reports in accordance with the requirements established in the permit, and any reporting format established by the Office Director.

[61 FR 21937, May 10, 1996]

§ 216.39 Permit amendments.

(a) General. Special exception permits may be amended by the Office Director. Major and minor amendments may be made to permits in response to, or independent of, a request from the permit holder. Amendments must be consistent with the Acts and comply with the applicable provisions of this subpart.

(1) A major amendment means any change to the permit specific conditions under §216.36(a) regarding:

(i) The number and species of marine mammals that are authorized to be taken, imported, exported, or otherwise affected;

(ii) The manner in which these marine mammals may be taken, imported, exported, or otherwise affected, if the proposed change may result in an increased level of take or risk of adverse impact;

(iii) The location(s) in which these marine mammals may be taken, from which they may be imported, and to which they may be exported, as applicable; and

(iv) The duration of the permit, if the proposed extension would extend the duration of the permit more than 12 months beyond that established in the original permit.

(2) A minor amendment means any amendment that does not constitute a major amendment.

(b) Amendment requests and proposals.

(1) Requests by a permit holder for an amendment must be submitted in writing and include the following:

(i) The purpose and nature of the amendment;

(ii) Information, not previously submitted as part of the permit application or subsequent reports, necessary to determine whether the amendment satisfies all issuance criteria set forth at §216.34, and, as appropriate, §216.41, §216.42, and §216.43.

(iii) Any additional information required by the Office Director for purposes of reviewing the proposed amendment.

(2) If an amendment is proposed by the Office Director, the permit holder will be notified of the proposed amendment, together with an explanation.

(c) Review of proposed amendments.

(1) Major amendments. The provisions of §216.33(d) and (e) governing notice of receipt, review and decision shall apply to all proposed major amendments.

(2) Minor amendments. (i) After reviewing all appropriate information, the Office Director will provide the permit holder with written notice of the decision on a proposed or requested amendment, together with an explanation for the decision.

(ii) If the minor amendment extends the duration of the permit 12 months or less from that established in the original permit, notice of the minor amendment will be published in the FEDERAL REGISTER within 10 days from the date of the Office Director’s decision.

(iii) A minor amendment will be effective upon a final decision by the Office Director.

[61 FR 21937, May 10, 1996]

§ 216.40 Penalties and permit sanctions.

(a) Any person who violates any provision of this subpart or permit issued thereunder is subject to civil and criminal penalties, permit sanctions and forfeiture as authorized under the Acts, and 15 CFR part 904.

(b) All special exception permits are subject to suspension, revocation, modification and denial in accordance with the provisions of subpart D of 15 CFR part 904.

[61 FR 21938, May 10, 1996]

§ 216.41 Permits for scientific research and enhancement.

In addition to the requirements under §§216.33 through 216.38, permits for scientific research and enhancement are governed by the following requirements:

(a) Applicant. (1) For each application submitted under this section, the applicant shall be the principal investigator
§ 216.41

responsible for the overall research or enhancement activity. If the research or enhancement activity will involve a periodic change in the principal investigator or is otherwise controlled by and dependent upon another entity, the applicant may be the institution, governmental entity, or corporation responsible for supervision of the principal investigator.

(2) For any scientific research involving captive maintenance, the application must include supporting documentation from the person responsible for the facility or other temporary enclosure.

(b) Issuance Criteria. For the Office Director to issue any scientific research or enhancement permit, the applicant must demonstrate that:

(1) The proposed activity furthers a bona fide scientific or enhancement purpose;

(2) If the lethal taking of marine mammals is proposed:

(i) Non-lethal methods for conducting the research are not feasible; and

(ii) For depleted, endangered, or threatened species, the results will directly benefit that species or stock, or will fulfill a critically important research need.

(3) Any permanent removal of a marine mammal from the wild is consistent with any applicable quota established by the Office Director.

(4) The proposed research will not likely have significant adverse effects on any other component of the marine ecosystem of which the affected species or stock is a part.

(5) For species or stocks designated or proposed to be designated as depleted, or listed or proposed to be listed as endangered or threatened:

(i) The proposed research cannot be accomplished using a species or stock that is not designated or proposed to be designated as depleted, or listed or proposed to be listed as threatened or endangered;

(ii) The proposed research, by itself or in combination with other activities will not likely have a long-term direct or indirect adverse impact on the species or stock;

(iii) The proposed research will either:

(A) Contribute to fulfilling a research need or objective identified in a species recovery or conservation plan, or if there is no conservation or recovery plan in place, a research need or objective identified by the Office Director in stock assessments established under section 117 of the MMPA;

(B) Contribute significantly to understanding the basic biology or ecology of the species or stock, or to identifying, evaluating, or resolving conservation problems for the species or stock; or

(C) Contribute significantly to fulfilling a critically important research need.

(6) For proposed enhancement activities:

(i) Only living marine mammals and marine mammal parts necessary for enhancement of the survival, recovery, or propagation of the affected species or stock may be taken, imported, exported, or otherwise affected under the authority of an enhancement permit. Marine mammal parts would include in this regard clinical specimens or other biological samples required for the conduct of breeding programs or the diagnosis or treatment of disease.

(ii) The activity will likely contribute significantly to maintaining or increasing distribution or abundance, enhancing the health or welfare of the species or stock, or ensuring the survival or recovery of the affected species or stock in the wild.

(iii) The activity is consistent with:

(A) An approved conservation plan developed under section 115(b) of the MMPA or recovery plan developed under section 4(f) of the ESA for the species or stock; or

(B) If there is no conservation or recovery plan, with the Office Director’s evaluation of the actions required to enhance the survival or recovery of the species or stock in light of the factors that would be addressed in a conservation or recovery plan.

(iv) An enhancement permit may authorize the captive maintenance of a marine mammal from a threatened, endangered, or depleted species or stock only if the Office Director determines that:

(A) The proposed captive maintenance will likely contribute directly to
the survival or recovery of the species or stock by maintaining a viable gene pool, increasing productivity, providing necessary biological information, or establishing animal reserves required to support directly these objectives; and

(B) The expected benefit to the species or stock outweighs the expected benefits of alternatives that do not require removal of marine mammals from the wild.

(v) The Office Director may authorize the public display of marine mammals held under the authority of an enhancement permit only if:

(A) The public display is incidental to the authorized captive maintenance;

(B) The public display will not interfere with the attainment of the survival or recovery objectives;

(C) The marine mammals will be held consistent with all requirements and standards that are applicable to marine mammals held under the authority of the Acts and the Animal Welfare Act, unless the Office Director determines that an exception is necessary to implement an essential enhancement activity; and

(D) The marine mammals will be excluded from any interactive program and will not be trained for performance.

(vi) The Office Director may authorize non-intrusive scientific research to be conducted while a marine mammal is held under the authority of an enhancement permit, only if such scientific research:

(A) Is incidental to the permitted enhancement activities; and

(B) Will not interfere with the attainment of the survival or recovery objectives.

(c) Restrictions. (1) The following restrictions apply to all scientific research permits issued under this subpart:

(i) Research activities must be conducted in the manner authorized in the permit.

(ii) Research results shall be published or otherwise made available to the scientific community in a reasonable period of time.

(iii) Research activities must be conducted under the direct supervision of the principal investigator or a co-investigator identified in the permit.

(iv) Personnel involved in research activities shall be reasonable in number and limited to:

(A) Individuals who perform a function directly supportive of and necessary to the permitted research activity; and

(B) Support personnel included for the purpose of training or as backup personnel for persons described in paragraph (c)(1)(iv)(A).

(v) Any marine mammal part imported under the authority of a scientific research permit must not have been obtained as the result of a lethal taking that would be inconsistent with the Acts, unless authorized by the Office Director.

(vi) Marine mammals held under a permit for scientific research shall not be placed on public display, included in an interactive program or activity, or trained for performance unless such activities:

(A) Are necessary to address scientific research objectives and have been specifically authorized by the Office Director under the scientific research permit; and

(B) Are conducted incidental to and do not in any way interfere with the permitted scientific research; and

(C) Are conducted in a manner consistent with provisions applicable to public display, unless exceptions are specifically authorized by the Office Director.

(vii) Any activity conducted incidental to the authorized scientific research activity must not involve any taking of marine mammals beyond what is necessary to conduct the research (i.e., educational and commercial photography).

(2) Any marine mammal or progeny held in captive maintenance under an enhancement permit shall be returned to its natural habitat as soon as feasible, consistent with the terms of the enhancement permit and the objectives of an approved conservation or recovery plan. In accordance with section 10(j) of the ESA, the Office Director may authorize the release of any population of an endangered or threatened species outside the current range of
§ 216.42

such species if the Office Director determines that such release will further the conservation of such species.

[61 FR 21938, May 10, 1996]

§ 216.42 Photography. [Reserved]

§ 216.43 Public display. [Reserved]

§ 216.44 Applicability/transition.

(a) General. The regulations of this subpart are applicable to all persons, including persons holding permits or other authorizing documents issued before June 10, 1996, by NMFS for the take, import, export, or conduct of any otherwise prohibited activity involving a marine mammal or marine mammal part for special exception purposes.

(b) Scientific research. Any intrusive research as defined in §216.3, initiated after June 10, 1996, must be authorized under a scientific research permit. Intrusive research authorized by the Office Director to be conducted on captive marine mammals held for public display purposes prior to June 10, 1996, must be authorized under a scientific research permit one year after June 10, 1996.

[61 FR 21939, May 10, 1996]

§ 216.45 General Authorization for Level B harassment for scientific research.

(a) General Authorization. (1) Persons are authorized under section 104(c)(3)(C) of the MMPA to take marine mammals in the wild by Level B harassment, as defined in §216.3, for purposes of bona fide scientific research provided, That:

(i) They submit a letter of intent in accordance with the requirements of paragraph (b) of this section, receive confirmation that the General Authorization applies in accordance with paragraph (c) of this section, and comply with the terms and conditions of paragraph (d) of this section; or

(ii) If such marine mammals are listed as endangered or threatened under the ESA, they have been issued a permit under Section 10(a)(1)(A) of the ESA and implementing regulations at 50 CFR parts 217-227, particularly at §222.23 through §222.28, to take marine mammals in the wild for the purpose of scientific research, the taking authorized under the permit involves such Level B harassment of marine mammals or marine mammal stocks, and they comply with the terms and conditions of that permit.

(b) Letter of intent. Except as provided under paragraph (a)(1)(ii) of this section, no taking, including harassment, of marine mammals listed as endangered or threatened under the ESA is authorized under the General Authorization. Marine mammals listed as endangered or threatened under the ESA may be taken for purposes of scientific research only after issuance of a permit for such activities pursuant to the ESA.

(c) The following types of research activities will likely qualify for inclusion under the General Authorization: Photo-identification studies, behavioral observations, and vessel and aerial population surveys (except aerial surveys over pinniped rookeries at altitudes of less than 1,000 ft).

[61 FR 21940, May 10, 1996]

§ 216.46 Applicability/transition.

(a) General. The regulations of this subpart are applicable to all persons, including persons holding permits or other authorizing documents issued before June 10, 1996, by NMFS for the take, import, export, or conduct of any otherwise prohibited activity involving a marine mammal or marine mammal part for special exception purposes.

(b) Scientific research. Any intrusive research as defined in §216.3, initiated after June 10, 1996, must be authorized under a scientific research permit. Intrusive research authorized by the Office Director to be conducted on captive marine mammals held for public display purposes prior to June 10, 1996, must be authorized under a scientific research permit one year after June 10, 1996.

[61 FR 21939, May 10, 1996]
National Marine Fisheries Service/NOAA, Commerce § 216.45

objectives, methodology, or other aspects of the proposed research;

(ii) The species or stocks of marine mammals (common and scientific names) that are the subject of the scientific research and any other species or stock of marine mammals that may be harassed during the conduct of the research;

(iii) The geographic location(s) in which the research is to be conducted, e.g., geographic name or lat./long.;

(iv) The period(s) of time over which the research will be conducted (up to five years), including the field season(s) for the research, if applicable;

(v) The purpose of the research, including a description of how the proposed research qualifies as bona fide research as defined in §216.3; and

(vi) The methods to be used to conduct the research.

(3) The letter of intent must be signed, dated, and certified by the applicant as follows:

In accordance with section 104(c)(3)(C) of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 et seq.) and implementing regulations (50 CFR part 216), I hereby notify the National Marine Fisheries Service of my intent to conduct research involving only Level B harassment on marine mammals in the wild, and request confirmation that the General Authorization for Level B Harassment for Scientific Research applies to the proposed research as described herein. I certify that the information in this letter of intent is complete, true, and correct to the best of my knowledge and belief, and I understand that any false statement may subject me to the criminal penalties of 18 U.S.C. 1001, or penalties under the MMPA and implementing regulations. I acknowledge and accept that authority to conduct scientific research on marine mammals in the wild under the General Authorization is a limited conditional authority restricted to Level B harassment only, and that any other take of marine mammals, including the conduct of any activity that has the potential to injure marine mammals (i.e., Level A harassment), may subject me to penalties under the MMPA and implementing regulations.

(c) Confirmation that the General Authorization applies or notification of permit requirement.

(i) Confirming that the General Authorization applies to the proposed scientific research as described in the letter of intent;

(ii) Notifying the applicant that all or part of the research described in the letter of intent is likely to result in a taking of a marine mammal in the wild involving other than Level B harassment and, as a result, cannot be conducted under the General Authorization, and that a scientific research permit is required to conduct all or part of the subject research; or

(iii) Notifying the applicant that the letter of intent fails to provide sufficient information and providing a description of the deficiencies, or notifying the applicant that the proposed research as described in the letter of intent is not bona fide research as defined in §216.3.

(2) A copy of each letter of intent and letter confirming that the General Authorization applies or notifying the applicant that it does not apply will be forwarded to the Marine Mammal Commission.

(3) Periodically, NMFS will publish a summary document in the Federal Register notifying the public of letters of confirmation issued.

(d) Terms and conditions. Persons issued letters of confirmation in accordance with paragraph (c) of this section are responsible for complying with the following terms and conditions:

(1) Activities are limited to those conducted for the purposes, by the means, in the locations, and during the periods of time described in the letter of intent and acknowledged as authorized under the General Authorization in the confirmation letter sent pursuant to paragraph (c) of this section;

(2) Annual reports of activities conducted under the General Authorization must be submitted to the Chief, Permits Division (address listed in paragraph (b) of this section) within 90 days of completion of the last field season(s) during the calendar year or, if the research is not conducted during a defined field season, no later than 90 days after the anniversary date of the letter of confirmation issued under paragraph (c) of this section. Annual reports must include:
§ 216.45 50 CFR Ch. II (10-1-98 Edition)

(i) A summary of research activities conducted;
(ii) Identification of the species and number of each species taken by Level B harassment;
(iii) An evaluation of the progress made in meeting the objectives of the research as described in the letter of intent; and
(iv) Any incidental scientific, educational, or commercial uses of photographs, videotape, and film obtained as a result of or incidental to the research and if so, names of all photographers.

(3) Authorization to conduct research under the General Authorization is for the period(s) of time identified in the letter of intent or for a period of 5 years from the date of the letter of confirmation issued under paragraph (c) of this section, whichever is less, unless extended by the Director or modified, suspended, or revoked in accordance with paragraph (e) of this section;

(4) Activities conducted under the General Authorization may only be conducted under the on-site supervision of the principal investigator or co-investigator(s) named in the letter of intent. All personnel involved in the conduct of activities under the General Authorization must perform a function directly supportive of and necessary for the research being conducted, or be one of a reasonable number of support personnel included for the purpose of training or as back-up personnel;

(5) The principal investigator must notify the appropriate Regional Director, NMFS, (Regional Director) in writing at least 2 weeks before initiation of on-site activities. The Regional Director shall consider this information in efforts to coordinate field research activities to minimize adverse impacts on marine mammals in the wild. The principal investigator must cooperate with coordination efforts by the Regional Director in this regard;

(6) If research activities result in a taking which exceeds Level B harassment, the applicant shall:
   (i) Report the taking within 12 hours to the Director, Office of Protected Resources, or his designee as set forth in the letter authorizing research; and
   (ii) Temporarily discontinue for 72 hours all field research activities that resulted in the taking. During this time period, the applicant shall consult with NMFS as to the circumstances surrounding the taking and any precautions necessary to prevent future taking, and may agree to amend the research protocol, as deemed necessary by NMFS.

(7) NMFS may review scientific research conducted pursuant to the General Authorization. If requested by NMFS, the applicant must cooperate with any such review and shall:
   (i) Allow any employee of NOAA or any other person designated by the Director, Office of Protected Resources to observe research activities; and
   (ii) Provide any documents or other information relating to the scientific research;

(8) Any photographs, videotape, or film obtained during the conduct of research under the General Authorization must be identified by a statement that refers to the General Authorization or ESA permit number, and includes the file number provided by NMFS in the confirmation letter, the name of the photographer, and the date the image was taken. This statement must accompany the image(s) in all subsequent uses or sales. The annual report must note incidental scientific, educational, or commercial uses of the images, and if there are any such uses, the names of all photographers; and

(9) Persons conducting scientific research under authority of the General Authorization may not transfer or assign any authority granted thereunder to any other person.

(e) Suspension, revocation, or modification.

(1) NMFS may suspend, revoke, or modify the authority to conduct scientific research under the General Authorization if:
   (i) The letter of intent included false information or statements of a material nature;
   (ii) The research does not constitute bona fide scientific research;
   (iii) Research activities result in takings of marine mammals other than by Level B harassment;
   (iv) Research activities differ from those described in the letter of intent submitted by the applicant and letter of confirmation issued by NMFS; or
(v) The applicant violates any term or condition set forth in this section.

(2) Any suspension, revocation, or modification is subject to the requirements of 15 CFR part 904.

[59 FR 50376, Oct. 3, 1994]

§§ 216.46-216.49 [Reserved]

Subpart E—Designated Ports

§ 216.50 Importation at designated ports.

(a) Any marine mammal or marine mammal product which is subject to the jurisdiction of the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce and is intended for importation into the United States shall be subject to the provisions of 50 CFR part 14.

(b) For the information of importers, designated ports of entry for the United States are:

New York, N.Y.
Miami, Fla.
Chicago, Ill.
San Francisco, Calif.
Los Angeles, Calif.
New Orleans, La.
Seattle, Wash.
Honolulu, Hi.

(c) Additionally, marine mammals or marine mammal products which are entered into Alaska, Hawaii, Puerto Rico, Guam, American Samoa or the Virgin Islands and which are not to be forwarded or transhipped within the United States may be imported through the following ports:

Alaska—Juneau, Anchorage, Fairbanks
Hawaii—Honolulu
Puerto Rico—San Juan
Guam—Honolulu, Hi.
American Samoa—Honolulu, Hi.
Virgin Islands—San Juan, P.R.

(d) Importers are advised to see 50 CFR part 14 for importation requirements and information.

that alternative methods will not result in increased disturbance to the rookery or the increased accidental take of female seals.

(3) Any taking of adult fur seals or pups, or the intentional taking of subadult female fur seals is prohibited.

(4) Only subadult male fur seals 124.5 centimeters or less in length may be taken.

(5) Seals with tags and/or entangling debris may only be taken if so directed by NMFS scientists.

(d) The scheduling of the harvest is at the discretion of the Pribilovians, but must be such as to minimize stress to the harvested seals. The Pribilovians must give adequate advance notice of their harvest schedules to the NMFS representatives to allow for necessary monitoring activities. Scheduling must be consistent with the following restrictions:

(1) St. Paul Island—Seals may only be harvested from the following haulout areas: Zapadni, English Bay, Northeast Point, Polovina, Lukanin, Kitovi, and Reef. No haulout area may be harvested more than once per week.

(2) St. George Island—Seals may only be harvested from the following haulout areas: Northeast and Zapadni. Neither haulout area may be harvested more than twice per week.

(e)(1) The Assistant Administrator is required to suspend the take provided for in §215.31 when:

(i) He determines, after reasonable notice by NMFS representatives to the Pribilovians on the island, that the subsistence needs of the Pribilovians on the island have been satisfied;

or

(ii) He determines that the harvest is otherwise being conducted in a wasteful manner; or

(iii) The lower end of the range of the estimated subsistence level provided in the notice issued under paragraph (b) of this section is reached.

(2) A suspension based on a determination under paragraph (e)(1)(i) of this section may be lifted by the Assistant Administrator if he finds that the conditions which led to the determination that the harvest was being conducted in a wasteful manner have been remedied.

(3) A suspension issued in accordance with paragraph (e)(1)(iii) of this section may not exceed 48 hours in duration and shall be followed immediately by a review of the harvest data to determine if a finding under paragraph (e)(1)(i) of this section is warranted.

(f) The Assistant Administrator shall terminate the take provided for in §215.31 on August 8 of each year or when it is determined under paragraph (e)(1)(i) of this section that the subsistence needs of the Pribilovians on the island have been satisfied, whichever occurs first.

§ 216.73 Disposition of fur seal parts.

Except for transfers to other Alaskan Natives for barter or sharing for personal or family consumption, no part of a fur seal taken for subsistence uses may be sold or otherwise transferred to any person unless it is a nonedible by-product which:

(a) Has been transformed into an article of handicraft, or

(b) Is being sent by an Alaskan Native directly, or through a registered agent, to a tannery registered under 50 CFR 216.23(c) for the purpose of processing, and will be returned directly to the Alaskan Native for conversion into an article of handicraft, or

(c) Is being sold or transferred to an Alaskan Native, or to an agent registered under 50 CFR 216.23(c) for resale or transfer to an Alaskan Native, who will convert the seal part into a handicraft.

§ 216.74 Cooperation with Federal officials.

Pribilovians who engage in the harvest of seals are required to cooperate with scientists engaged in fur seal research on the Pribilof Islands who may need assistance in recording tag or
other data and collecting tissue or other fur seal samples for research purposes. In addition, Pribilovians who take fur seals for subsistence uses must, consistent with 5 CFR 1320.7(k)(3), cooperate with the NMFS representatives on the Pribilof Islands who are responsible for compiling the following information on a daily basis: (a) The number of seals taken each day in the subsistence harvest, (b) The extent of the utilization of fur seals taken, and (c) Other information determined by the Assistant Administrator to be necessary for determining the subsistence needs of the Pribilovians or for making determinations under §215.32(e).

§216.81 Visits to fur seal rookeries.

From June 1 to October 15 of each year, no person, except those authorized by a representative of the National Marine Fisheries Service, or accompanied by an authorized employee of the National Marine Fisheries Service, shall approach any fur seal rookery or hauling grounds nor pass beyond any posted sign forbidding passage.

§216.82 Dogs prohibited.

In order to prevent molestation of fur seal herds, the landing of any dogs at Pribilof Islands is prohibited.

§216.83 Importation of birds or mammals.

No mammals or birds, except household cats, canaries and parakeets, shall be imported to the Pribilof Islands without the permission of an authorized representative of the National Marine Fisheries Service.

§216.84 [Reserved]

§216.85 Walrus and Otter Islands.

By Executive Order 1044, dated February 27, 1909, Walrus and Otter Islands were set aside as bird reservations. All persons are prohibited to land on these islands except those authorized by the appropriate representative of the National Marine Fisheries Service.

§216.86 Local regulations.

Local regulations will be published from time to time and will be brought to the attention of local residents and persons assigned to duty on the Islands by posting in public places and brought to the attention of tourists by personal notice.

§216.87 Wildlife research.

(a) Wildlife research, other than research on North Pacific fur seals, including specimen collection, may be permitted on the Pribilof Islands subject to the following conditions:

(1) Any person or agency, seeking to conduct such research shall first obtain any Federal or State of Alaska permit required for the type of research involved.

(2) Any person seeking to conduct such research shall obtain prior approval of the Director, Pribilof Islands Program, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, 1700 Westlake Avenue North, Seattle, WA 98109, by filing with the Director an application which shall include:

(i) Copies of the required Federal and State of Alaska permits; and

(ii) A resume of the intended research program.

(3) All approved research shall be subject to all regulations and administrative procedures in effect on the Pribilof Islands, and such research shall not commence until approval from the Director is received.

(4) Any approved research program shall be subject to such terms and conditions as the Director, Pribilof Islands Program deems appropriate.
§ 216.90

(5) Permission to utilize the Pribilof Islands to conduct an approved research program may be revoked by the Director, Pribilof Islands Program at any time for noncompliance with any terms and conditions, or for violations of any regulation or administrative procedure in effect on the Pribilof Islands.

Subpart H—Dolphin Safe Tuna Labeling

SOURCE: 61 FR 27794, June 3, 1996, unless otherwise noted.

§ 216.90 Purpose.

This subpart governs the requirements for labeling of tuna or tuna products sold in or exported from the United States that suggest the tuna was harvested in a manner not injurious to dolphins.

§ 216.91 Labeling requirements.

It is a violation of section 5 of the Federal Trade Commission Act (15 U.S.C. 45) for any person subject to U.S. jurisdiction, including any producer, exporter, importer, distributor, or seller of any tuna product exported from the United States or offered for sale in the United States to include on the label of that product the term “dolphin safe” or any other term, phrase, or symbol that claims or suggests that the tuna contained in the product was harvested using a fishing method that is not harmful to dolphins, if the product:

(a) Contains tuna harvested with a large-scale drift net; or
(b) Contains tuna harvested in the ETP by a purse seine vessel 400 short tons (362.8 metric tons) carrying capacity or greater and is labeled in a manner that violates the standards set forth in §216.92 or §216.93.

§ 216.92 Purse seine vessels greater than 400 short tons (362.8 metric tons).

For purposes of §216.91(b), any tuna product containing tuna that were harvested in the ETP by a purse seine vessel 400 short tons (362.8 metric tons) carrying capacity or greater, must be accompanied by:

(a) A completed Fisheries Certificate of Origin;
(b) A written statement by the captain of each vessel that harvested the tuna, certifying that the vessel did not intentionally deploy a purse seine net on or to encircle dolphins at any time during the trip;
(c) A written statement certifying that an observer, employed by or working under contract with the Inter-American Tropical Tuna Commission or the Secretary, was on board the vessel during the entire trip and that the vessel did not intentionally deploy a purse seine net on or to encircle dolphin at any time during the trip. The statement must be signed by either:
   (1) The Secretary; or
   (2) A representative of the Inter-American Tropical Tuna Commission; and
(d) An endorsement on the Fisheries Certificate of Origin by each exporter, importer, and processor certifying that, to the best of his or her knowledge and belief, the Fisheries Certificate of Origin and attached documentation, accurately describe the tuna products.

§ 216.93 Submission of documentation.

The documents required by §216.92 must accompany the tuna product whenever it is offered for sale or export, except that these documents need not accompany the product when offered for sale if:

(a) The documents do not require further endorsement by any importer or processor, and are submitted to officials of the U.S. Customs Service at the time of import; or
(b) The documents are endorsed as required by §216.92(d) and delivered to the Director, Southwest Region, or to the U.S. Customs Service at the time of exportation.

§ 216.94 Requests to review documents.

At any time, the Assistant Administrator may request, in writing, any exporter, importer, processor, distributor, or seller of any tuna or tuna product labeled in a manner subject to the
requirements of §216.91, to produce, within a specified time period, all documentary evidence concerning the origin of any product that is offered for sale as "dolphin safe," including the original invoice.

§ 216.95 False statements or endorsements.

Any person who knowingly and willfully makes a false statement or false endorsement required by §216.92 is liable for a civil penalty not to exceed $100,000, that may be assessed in an action brought in any appropriate District Court of the United States on behalf of the Secretary.

Subpart I—General Regulations Governing Small Takes of Marine Mammals Incidental to Specified Activities

SOURCE: 61 FR 15887, Apr. 10, 1996, unless otherwise noted.

§ 216.101 Purpose.

The regulations in this subpart implement section 101(a)(5) (A) through (D) of the Marine Mammal Protection Act of 1972, as amended, 16 U.S.C. 1371(a)(5), which provides a mechanism for allowing, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographic region.

§ 216.102 Scope.

The taking of small numbers of marine mammals under section 101(a)(5) (A) through (D) of the Marine Mammal Protection Act may be allowed only if the National Marine Fisheries Service:

(a) Finds, based on the best scientific evidence available, that the total taking by the specified activity during the specified time period will have a negligible impact on species or stock of marine mammal(s) and will not have an unmitigable adverse impact on the availability of those species or stocks of marine mammals intended for subsistence uses;

(b) Prescribes either regulations under §216.106, or requirements and conditions contained within an incidental harassment authorization issued under §216.107, setting forth permissible methods of taking and other means of effecting the least practicable adverse impact on the species or stock of marine mammal and its habitat and on the availability of the species or stock of marine mammal for subsistence uses, paying particular attention to rookeries, mating grounds, and areas of similar significance; and

(c) Prescribes either regulations or requirements and conditions contained within an incidental harassment authorization, as appropriate, pertaining to the monitoring and reporting of such taking. The specific regulations governing certain specified activities are contained in subsequent subparts of this part.

§ 216.103 Definitions.

In addition to definitions contained in the MMPA, and in §216.3, and unless the context otherwise requires, in subsequent subparts to this part:

Arctic waters means the marine and estuarine waters north of 60° N. lat.

Citizens of the United States and U.S. citizens mean individual U.S. citizens or any corporation or similar entity if it is organized under the laws of the United States or any governmental unit defined in 16 U.S.C. 1362(13). U.S. Federal, state and local government agencies shall also constitute citizens of the United States for purposes of this part.

Incidental harassment, incidental taking and incidental, but not intentional, taking all mean an accidental taking. This does not mean that the taking is unexpected, but rather it includes those takings that are infrequent, unavoidable or accidental. (A complete definition of "take" is contained in §216.3).

Negligible impact is an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival.

Small numbers means a portion of a marine mammal species or stock whose taking would have a negligible impact on that species or stock.
§ 216.104  Submission of requests.

(a) In order for the National Marine Fisheries Service to consider authorizing the taking by U.S. citizens of small numbers of marine mammals incidental to a specified activity (other than commercial fishing), or to make a finding that an incidental take is unlikely to occur, a written request must be submitted to the Assistant Administrator. All requests must include the following information for their activity:

1. A detailed description of the specific activity or class of activities that can be expected to result in incidental taking of marine mammals;

2. The date(s) and duration of such activity and the specific geographical region where it will occur;

3. The species and numbers of marine mammals likely to be found within the activity area;

4. A description of the status, distribution, and seasonal distribution (when applicable) of the affected species or stocks of marine mammals likely to be affected by such activities;

5. The type of incidental taking authorization that is being requested (i.e., takes by harassment only; takes by harassment, injury and/or death) and the method of incidental taking;

6. By age, sex, and reproductive condition (if possible), the number of marine mammals (by species) that may be taken by each type of taking identified in paragraph (a)(5) of this section, and the number of times such takings by each type of taking are likely to occur;

7. The anticipated impact of the activity upon the species or stock of marine mammal;

8. The anticipated impact of the activity on the availability of the species or stocks of marine mammals for subsistence uses;

9. The anticipated impact of the activity upon the habitat of the marine mammal populations, and the likelihood of restoration of the affected habitat;

10. The anticipated impact of the loss or modification of the habitat on the marine mammal populations involved;

11. The availability and feasibility (economic and technological) of equipment, methods, and manner of conducting such activity or other means of effecting the least practicable adverse impact upon the affected species or stocks, their habitat, and on their availability for subsistence uses, paying particular attention to rookeries, mating grounds, and areas of similar significance;

12. Where the proposed activity would take place in or near a traditional Arctic subsistence hunting area and/or may affect the availability of a species or stock of marine mammal for Arctic subsistence uses, the applicant must submit either a plan of cooperation or information that identifies what measures have been taken and/or will be taken to minimize any adverse effects on the availability of marine mammals for subsistence uses. A plan must include the following:

(i) A statement that the applicant has notified and provided the affected subsistence community with a draft plan of cooperation;

(ii) A schedule for meeting with the affected subsistence communities to discuss proposed activities and to resolve potential conflicts regarding any
aspects of either the operation or the plan of cooperation;

(iii) A description of what measures the applicant has taken and/or will take to ensure that proposed activities will not interfere with subsistence whaling or sealing; and

(iv) What plans the applicant has to continue to meet with the affected communities, both prior to and while conducting the activity, to resolve conflicts and to notify the communities of any changes in the operation;

(13) The suggested means of accomplishing the necessary monitoring and reporting that will result in increased knowledge of the species, the level of taking or impacts on populations of marine mammals that are expected to be present while conducting activities and suggested means of minimizing burdens by coordinating such reporting requirements with other schemes already applicable to persons conducting such activity. Monitoring plans should include a description of the survey techniques that would be used to determine the movement and activity of marine mammals near the activity site(s) including migration and other habitat uses, such as feeding. Guidelines for developing a site-specific monitoring plan may be obtained by writing to the Director, Office of Protected Resources; and

(14) Suggested means of learning of, encouraging, and coordinating research opportunities, plans, and activities relating to reducing such incidental taking and evaluating its effects.

(b)(1) The Assistant Administrator shall determine the adequacy and completeness of a request and, if determined to be adequate and complete, will begin the public review process by publishing in the Federal Register either:

(i) A proposed incidental harassment authorization; or

(ii) A notice of receipt of a request for the implementation or re-implementation of regulations governing the incidental taking.

(2) Through notice in the Federal Register, newspapers of general circulation, and appropriate electronic media in the coastal areas that may be affected by such activity, NMFS will invite information, suggestions, and comments for a period not to exceed 30 days from the date of publication in the Federal Register. All information and suggestions will be considered by the National Marine Fisheries Service in developing, if appropriate, the most effective regulations governing the issuance of letters of authorization or conditions governing the issuance of an incidental harassment authorization.

(3) Applications that are determined to be incomplete or inappropriate for the type of taking requested, will be returned to the applicant with an explanation of why the application is being returned.

(c) The Assistant Administrator shall evaluate each request to determine, based upon the best available scientific evidence, whether the taking by the specified activity within the specified geographic region will have a negligible impact on the species or stock and, where appropriate, will not have an unmitigable adverse impact on the availability of such species or stock for subsistence uses. If the Assistant Administrator finds that the mitigating measures would render the impact of the specified activity negligible when it would not otherwise satisfy that requirement, the Assistant Administrator may make a finding of negligible impact subject to such mitigating measures being successfully implemented. Any preliminary findings of “negligible impact” and “no unmitigable adverse impact” shall be proposed for public comment along with either the proposed incidental harassment authorization or the proposed regulations for the specific activity.

(d) If, subsequent to the public review period, the Assistant Administrator finds that the taking by the specified activity would have more than a negligible impact on the species or stock of marine mammal or would have an unmitigable adverse impact on the availability of such species or stock for subsistence uses, the Assistant Administrator shall publish in the Federal Register the negative finding along with the basis for denying the request.
§ 216.105 Specific regulations.

(a) For all petitions for regulations under this paragraph, applicants must provide the information requested in §216.104(a) on their activity as a whole, which includes, but is not necessarily limited to, an assessment of total impacts by all persons conducting the activity.

(b) For allowed activities that may result in incidental takings of small numbers of marine mammals by harassment, serious injury, death or a combination thereof, specific regulations shall be established for each allowed activity that set forth:
   (1) Permissible methods of taking;
   (2) Means of effecting the least practicable adverse impact on the species and its habitat and on the availability of the species for subsistence uses; and
   (3) Requirements for monitoring and reporting, including requirements for the independent peer-review of proposed monitoring plans where the proposed activity may affect the availability of a species or stock for taking for subsistence uses.

(c) Regulations will be established based on the best available information. As new information is developed, through monitoring, reporting, or research, the regulations may be modified, in whole or in part, after notice and opportunity for public review.

(a) A Letter of Authorization, which may be issued only to U.S. citizens, is required to conduct activities pursuant to any regulations established under §216.105. Requests for Letters of Authorization shall be submitted to the Director, Office of Protected Resources. The information to be submitted in a request for an authorization will be specified in the appropriate subpart to this part or may be obtained by writing to the above named person.

(b) Issuance of a Letter of Authorization will be based on a determination that the level of taking will be consistent with the findings made for the total taking allowable under the specific regulations.

(c) Letters of Authorization will specify the period of validity and any additional terms and conditions appropriate for the specific request.

(d) Notice of issuance of all Letters of Authorization will be published in the Federal Register within 30 days of issuance.

(e) Letters of Authorization shall be withdrawn or suspended, either on an individual or class basis, as appropriate, if, after notice and opportunity for public comment, the Assistant Administrator determines that:
   (1) The regulations prescribed are not being substantially complied with; or
   (2) The taking allowed is having, or may have, more than a negligible impact on the species or stock or, where relevant, an unmitigable adverse impact on the availability of the species or stock for subsistence uses.

(f) The requirement for notice and opportunity for public review in §216.106(e) shall not apply if the Assistant Administrator determines that an emergency exists that poses a significant risk to the wellbeing of the species or stocks of marine mammals concerned.

(g) A violation of any of the terms and conditions of a Letter of Authorization or of the specific regulations shall subject the Holder and/or any individual who is operating under the authority of the Holder's Letter of Authorization to penalties provided in the MMPA.

§ 216.107 Incidental harassment authorization for Arctic waters.

(a) Except for activities that have the potential to result in serious injury or mortality, which must be authorized under §216.105, incidental harassment authorizations may be issued, following a 30-day public review period, to allowed activities that may result in only the incidental harassment of a small number of marine mammals. Each such incidental harassment authorization shall set forth:
   (1) Permissible methods of taking by harassment;
   (2) Means of effecting the least practicable adverse impact on the species, its habitat, and on the availability of the species for subsistence uses; and
   (3) Requirements for monitoring and reporting, including requirements for
§ 216.108 Requirements for monitoring and reporting under incidental harassment authorizations for Arctic waters.

(a) Holders of incidental harassment authorizations effective in Arctic waters must notify the Alaska Regional Director, National Marine Fisheries Service, of any activities that may involve a taking by incidental harassment in Arctic waters at least 14 calendar days prior to commencement of the activity.

(b) Holders of incidental harassment authorizations effective in Arctic waters may be required by their authorization to designate at least one qualified biological observer or another appropriately experienced individual to observe and record the effects of activities on marine mammals. The number of observers required for monitoring the impact of the activity on marine mammals will be specified in the incidental harassment authorization. If observers are required as a condition of the authorization, the observer(s) must be approved in advance by the National Marine Fisheries Service.

(c) The monitoring program must, if appropriate, document the effects (including acoustical) on marine mammals and document or estimate the actual level of take. The requirements for monitoring plans, as specified in the incidental harassment authorization, may vary depending on the activity, the location, and the time.

(d) Where the proposed activity may affect the availability of a species or stock of marine mammal for taking for
§ 216.111 Specified activity and specified geographical region.

Regulations in this subpart apply only to the incidental taking of ringed seals (Phoca hispida) and bearded seals (Erignathus barbatus) by U.S. citizens engaged in on-ice seismic exploratory and associated activities over the Outer Continental Shelf of the Beaufort Sea of Alaska, from the shore outward to 45 mi (72 km) and from Point Barrow east to Demarcation Point, from January 1 through May 31 of any calendar year.
(a) On-ice geophysical seismic activities involving vibrator-type, airgun, or other energy source equipment shown to have similar or lesser effects.

(b) Operation of transportation and camp facilities associated with seismic activities.

§ 216.114 Mitigation.

(a) All activities identified in §216.113 must be conducted in a manner that minimizes to the greatest extent practicable adverse effects on ringed and bearded seals and their habitat.

(b) All activities identified in §216.113 must be conducted as far as practicable from any observed ringed or bearded seal or ringed seal lair. No energy source must be placed over an observed ringed seal lair, whether or not any seal is present.

§ 216.115 Requirements for monitoring and reporting.

(a) Holders of Letters of Authorization are required to cooperate with the National Marine Fisheries Service and any other Federal, state, or local agency monitoring the impacts on ringed or bearded seals.

(b) Holders of Letters of Authorization must designate qualified on-site individuals, as specified in the Letter of Authorization, to observe and record the presence of ringed or bearded seals and ringed seal lairs along shot lines and around camps, and the information required in paragraph (d) of this section.

(c) Holders of Letters of Authorization must conduct additional monitoring as required under an annual Letter of Authorization.

(d) An annual report must be submitted to the Assistant Administrator for Fisheries within 90 days after completing each year’s activities and must include the following information:

(1) Location(s) of survey activities.

(2) Level of effort (e.g., duration, area surveyed, number of surveys), methods used, and a description of habitat (e.g., ice thickness, surface topography) for each location.

(3) Numbers of ringed seals, bearded seals, or other marine mammals observed, proximity to seismic or associated activities, and any seal reactions observed for each location.

(4) Numbers of ringed seal lairs observed and proximity to seismic or associated activities for each location.

(5) Other information as required in a Letter of Authorization.

(a) To incidentally take ringed and bearded seals pursuant to these regulations, each company conducting seismic operations between January 1 and May 31 in the geographical area described in §216.111, must apply for and obtain a Letter of Authorization in accordance with §216.106.

(b) The application must be submitted to the National Marine Fisheries Service at least 90 days before the activity is scheduled to begin.

(c) Applications for Letters of Authorization and for renewals of Letters of Authorization must include the following:

(1) Name of company requesting the authorization;

(2) A description of the activity including method to be used (vibroseis, airgun, watergun), the dates and duration of the activity, the specific location of the activity and the estimated area that will actually be affected by the exploratory activity;

(3) Any plans to monitor the behavior and effects of the activity on marine mammals;

(4) A description of what measures the applicant has taken and/or will take to ensure that proposed activities will not interfere with subsistence sealing; and

(5) What plans the applicant has to continue to meet with the affected communities, both prior to and while conducting the activity, to resolve conflicts and to notify the communities of any changes in the operation.

(d) A copy of the Letter of Authorization must be in the possession of the persons conducting activities that may involve incidental takings of ringed and bearded seals.

§ 216.117 Renewal of Letters of Authorization.

(a) A Letter of Authorization issued under §216.106 for the activity identified in §216.111 will be renewed annually upon:
§ 216.118

(1) Timely receipt of the reports required under §216.115(d), which have been reviewed by the Assistant Administrator and determined to be acceptable; and

(2) A determination that the mitigation measures required under §216.114(b) and the Letter of Authorization have been undertaken.

(b) A notice of issuance of a Letter of Authorization or of a renewal of a Letter of Authorization will be published in the Federal Register within 30 days of issuance.

§ 216.118 Modifications to Letters of Authorization.

(a) In addition to complying with the provisions of §216.106, except as provided in paragraph (b) of this section, no substantive modification, including withdrawal or suspension, to a Letter of Authorization issued pursuant to §216.106 and subject to the provisions of this subpart shall be made until after notice and an opportunity for public comment. For purposes of this paragraph, renewal of a Letter of Authorization under §216.117, without modification, is not considered a substantive modification.

(b) If the Assistant Administrator determines that an emergency exists that poses a significant risk to the well-being of the species or stocks of marine mammals specified in §216.111, the Letter of Authorization issued pursuant to §216.106, or renewed pursuant to this section, may be substantively modified without prior notice and an opportunity for public comment. A notice will be published in the Federal Register subsequent to the action.

§ 216.119 [Reserved]

Subparts K-L [Reserved]

Subpart M—Taking of Bottlenose Dolphins and Spotted Dolphins Incidental to Oil and Gas Structure Removal Activities

Source: 60 FR 53145, Oct. 12, 1995, unless otherwise noted. Redesignated at 61 FR 15887, Apr. 10, 1996.
§ 216.145 Requirements for monitoring and reporting.

(a) Observer(s) approved by the National Marine Fisheries Service in advance of the detonation must be used to monitor the area around the site prior to, during, and after detonation of charges.

(b) (1) Both before and after each detonation episode, an aerial survey by NMFS-approved observers must be conducted for a period not less than 30 minutes within 1 hour of the detonation episode. To ensure that no marine mammals are within the designated 3,000 ft (1,000 yd, 941 m) safety zone nor are likely to enter the designated safety zone prior to or at the time of detonation, the pre-detonation survey must encompass all waters within one nautical mile of the structure.

(ii) Whenever the conditions described in paragraph (b)(1)(i) of this section occur, the aerial survey required under §216.145(b)(1) must be repeated prior to detonation of charges if the timing requirements of §216.145(b)(1) cannot be met.

(2) Detonation of explosives must occur no earlier than 1 hour after sunrise and no later than 1 hour before sunset;

(3) If weather and/or sea conditions preclude adequate aerial, shipboard or subsurface surveillance, detonations must be delayed until conditions improve sufficiently for surveillance to be undertaken; and

(4) Detonations must be staggered by a minimum of 0.9 seconds for each group of charges.

§ 216.144 Prohibitions.

Notwithstanding takings authorized by §216.143 or by a Letter of Authorization issued under §216.106, the following activities are prohibited:

(a) The taking of a marine mammal that is other than unintentional, except that the intentional passive herding of dolphins from the vicinity of the platform may be authorized under §109(h) of the Act as described in a Letter of Authorization;

(b) The violation of, or failure to comply with, the terms, conditions, and requirements of this part or a Letter of Authorization issued or renewed under §216.106 or §216.146.

(c) The incident-taking of any marine mammal of a species either not specified in this subpart or whenever the incident taking authorization for authorized species has been reached; and

(d) The use of single explosive charges having an impulse and pressure greater than that generated by a 50-lb (22.7 kg) explosive charge detonated outside the rig piling.

§ 216.146

(d)(1) A report summarizing the results of structure removal activities, mitigation measures, monitoring efforts, and other information as required by a Letter of Authorization, must be submitted to the Director, NMFS, Southeast Region, 9721 Executive Center Drive N, St. Petersburg, FL 33702 within 30 calendar days of completion of the removal of the rig.

(2) NMFS will accept the U.S. Government observer report as the activity report if all requirements for reporting contained in the Letter of Authorization are provided to that observer before the observer's report is complete.

§ 216.146 Letters of Authorization.

(a) To incidentally take bottlenose and spotted dolphins pursuant to these regulations, each company operating or which operated an oil or gas structure in the geographical area described in §216.141, and which is responsible for abandonment or removal of the platform, must apply for and obtain a Letter of Authorization in accordance with §216.106.

(b) A copy of the Letter of Authorization must be in the possession of the persons conducting activities that may involve incidental takings of bottlenose and spotted dolphins.

§ 216.147 Renewal of Letters of Authorization.

(a) A Letter of Authorization issued under §216.106 for the activity identified in §216.141 will be renewed annually upon:

(1) Timely receipt of the reports required under §216.145(d), which have been reviewed by the Assistant Administrator and determined to be acceptable;

(2) A determination that the maximum incidental take authorizations in §216.141(b) will not be exceeded; and

(3) A determination that the mitigation measures required under §216.143(b) and the Letter of Authorization have been undertaken.

(b) If a species' annual authorization is exceeded, the Assistant Administrator will review the documentation submitted with the annual reports required under §216.145(d), to determine that the taking is not having more than a negligible impact on the species or stock involved.

(c) Notice of issuance of a renewal of the Letter of Authorization will be published in the Federal Register.

(a) In addition to complying with the provisions of §216.106, except as provided in paragraph (b) of this section, no substantive modification, including withdrawal or suspension, to the Letter of Authorization issued pursuant to §216.106 and subject to the provisions of this subpart shall be made until after notice and an opportunity for public comment. For purposes of this paragraph, renewal of a Letter of Authorization under §216.147, without modification, is not considered a substantive modification.

(b) If the Assistant Administrator determines that an emergency exists that poses a significant risk to the wellbeing of the species or stocks of marine mammals specified in §216.141(b), the Letter of Authorization issued pursuant to §216.106, or renewed pursuant to this section may be substantively modified without prior notice and an opportunity for public comment. A notice will be published in the Federal Register subsequent to the action.

Subpart N—Taking of Marine Mammals Incidental to Underwater Detonation of Conventional Explosives by the Department of Defense

Effective Date Note: At 59 FR 5126, Feb. 3, 1994, subpart F to part 229 was added, effective March 3, 1994 through March 3, 1999. At 61 FR 15887, Apr. 10, 1996, subpart F of part 229 was redesignated as subpart N of part 216.
§ 216.151 Specified activity, geographical region, and incidental take levels.

(a) Regulations in this subpart apply only to the incidental taking of marine mammals specified in paragraph (b) of this section by U.S. citizens engaged in the detonation of conventional military explosives within the waters of the Outer Sea Test Range of the Naval Air Warfare Center, Pt. Mugu, Ventura County, CA.

(b) The incidental take of marine mammals under the activity identified in paragraph (a) of this section is limited annually to the following species and species groups:

(4) 10 detonations of 10 lbs (4.5 kg); and
(5) 20 detonations of 1 lb (0.45 kg), provided all terms, conditions, and requirements of these regulations and such Letter of Authorization are complied with.

(b) The activity identified in paragraph (a) of this section must be conducted in a manner that minimizes, to the greatest extent possible, adverse impacts on marine mammals and their habitat. When detonating explosives, the following mitigation measures must be utilized:

(1) If marine mammals are observed within the designated safety zone prescribed in the Letter of Authorization, or on a course that will put them within the safety zone prior to detonation, detonation must be delayed until the marine mammals are no longer within the safety zone.

(2) If weather and/or sea conditions preclude adequate aerial surveillance, detonation must be delayed until conditions improve sufficiently for aerial surveillance to be undertaken.

(3) If post-test surveys determine that an injurious or lethal take of a marine mammal has occurred, the test procedure and the monitoring methods must be reviewed and appropriate changes must be made prior to conducting the next project.

§ 216.154 Prohibitions.

Notwithstanding takings authorized by § 216.153 or by a Letter of Authorization issued under § 216.106, the following activities are prohibited:

(a) The taking of a marine mammal that is other than unintentional;
(b) The violation of, or failure to comply with, the terms, conditions, and requirements of this part or a Letter of Authorization issued or renewed under § 216.106 or § 216.156; and
(c) The incidental taking of any marine mammal of a species either not specified in this subpart or whose taking authorization for the year has been reached.

§ 216.155 Requirements for monitoring and reporting.

(a) The holder of the Letter of Authorization is required to cooperate with the National Marine Fisheries Service and any other Federal, state or local agency monitoring the impacts of the activity on marine mammals. The holder must notify the Director, Southwest Region, National Marine Fisheries Service, 501 West Ocean Boulevard, suite 4200, Long Beach, CA (Telephone: (310) 980-4001), at least 2 weeks prior to activities involving the detonation of explosives in order to satisfy paragraph (f) of this section.

(b) The holder of the Letter of Authorization must designate a qualified on-site individual(s) to record the effects of explosives detonation on marine mammals that inhabit the Outer Sea Test Range.

(c) The primary test area, and if necessary, secondary and tertiary test areas, in the Outer Sea Test Range, must be surveyed by marine mammal biologists and other trained individuals, and the marine mammal populations monitored, approximately 48 hours prior to a scheduled detonation, on the day of detonation, and for a period of time specified in the Letter of Authorization after each test or project. Monitoring shall include, but not necessarily be limited to, aerial surveillance sufficient to ensure that no marine mammals are within the designated safety zone nor are likely to enter the designated safety zone prior to or at the time of detonation.

(d)(1) Under the direction of a certified marine mammal veterinarian, examination and recovery of any dead or injured marine mammals will be conducted. Necropsies will be performed and tissue samples taken from any dead animals. After completion of the necropsy, animals not retained for shoreside examination, will be tagged and returned to the sea. The occurrence of live marine mammals will also be documented.

(2) Activities related to the monitoring described in paragraph (d)(1) of this section or the Letter of Authorization issued under this part may include the retention of marine mammals without the need for a separate scientific research permit. The use of such marine mammals in other scientific research may be authorized pursuant to 50 CFR parts 216 and 220.

(e) At its discretion, the National Marine Fisheries Service may place an observer on either the towing vessel, target vessel, or both, and on any ship or aircraft involved in marine mammal reconnaissance, or monitoring either prior to, during, or after explosives detonation in order to monitor the impact on marine mammals.

(f) A summary report must be submitted to the Assistant Administrator for Fisheries, NOAA, within 90 days after the conclusion of any explosives detonation project. This report must include the following information:

(1) Date and time of the test(s);

(2) A summary of the pre-test and post-test activities related to mitigating and monitoring the effects of explosives detonation on marine mammal populations; and

(3) Results of the monitoring program, including numbers by species/stock of any marine mammals noted injured or killed as a result of the detonation and numbers that may have been harassed due to presence within the safety zone.

(g) An annual report must be submitted to the Assistant Administrator for Fisheries, NOAA, no later than 120 days prior to the date of expiration of the annual Letter of Authorization in order for issuance of a Letter of Authorization for the following year. This annual report must contain the following information:

(1) Date and time of all tests conducted under the expiring Letter of Authorization;

(2) A description of all pre-test and post-test activities related to mitigating and monitoring the effects of explosives detonation on marine mammal populations;

(3) Results of the monitoring program, including numbers by species/stock of any marine mammals noted injured or killed as a result of the detonation and numbers that may have been harassed due to presence within the designated safety zone;

(4) If one or more species' take levels have been reached or exceeded during the previous year, additional documentation must be provided on the
National Marine Fisheries Service/NOAA, Commerce

§ 217.1 Purpose of regulations.

The regulations of parts 216 through 227 are promulgated to implement the following statutes enforced by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, which regulate the taking, possession, transportation, sale, purchase, taking and a description of any measures that will be taken in the following year to prevent exceeding the authorized incidental take level.

(5) Results of any population assessment studies made on marine mammals in the Outer Sea Test Range during the previous year.

§ 216.156 Renewal of Letter of Authorization.

(a) A Letter of Authorization issued under §216.106 for the activity identified in §216.151(a) will be renewed annually upon:

(1) Timely receipt of the reports required under §216.155(f) and (g), which have been reviewed by the Assistant Administrator for Fisheries, NOAA, and determined to be acceptable;

(2) A determination that the maximum incidental take authorizations in §216.151(b) will not be exceeded; and

(3) A determination that the mitigation measures required under §216.153(b) and the Letter of Authorization have been undertaken.

(b) If a species’ annual authorization is exceeded, the National Marine Fisheries Service will review the documentation submitted with the annual report required under §216.155(g), to determine that the taking is not having more than a negligible impact on the species or stock involved.

(c) Notice of issuance of a renewal of the Letter of Authorization will be published in the Federal Register.

(a) In addition to complying with the provisions of §216.106, except as provided in paragraph (b) of this section, no substantive modification, including withdrawal or suspension, to the Letter of Authorization issued pursuant to §216.106 and subject to the provisions of this subpart shall be made until after notice and an opportunity for public comment. For purposes of this paragraph, renewal of a Letter of Authorization under §216.146, without modification, is not considered a substantive modification.

(b) If the National Marine Fisheries Service determines that an emergency exists that poses a significant risk to the well-being of the species or stocks of marine mammals specified in §216.151, or that significantly and detrimentally alters the scheduling of explosive detonation within the area specified in §216.151, the Letter of Authorization issued pursuant to §216.106, or renewed pursuant to this section may be substantively modified without prior notice and an opportunity for public comment. A notice will be published in the Federal Register subsequent to the action.

Subparts O–Q [Reserved]

PART 217—GENERAL PROVISIONS

Subpart A—Introduction

Sec. 217.1 Purpose of regulations.

Subpart B—Definitions

217.12 Definitions.

Subpart C—Addresses

217.21 Assistant Administrator.

217.22 Office of Marine Mammals and Endangered Species.

217.23 Enforcement Division.

Authority: 16 U.S.C. 742a et seq., 1361 et seq., and 1531–1544, unless otherwise noted.

Subpart A—Introduction

§ 217.1 Purpose of regulations.

The regulations of parts 216 through 227 are promulgated to implement the following statutes enforced by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, which regulate the taking, possession, transportation, sale, purchase,
barter, exportation, and importation of wildlife.

[39 FR 41370, Nov. 27, 1974, as amended at 52 FR 24250, June 29, 1987]

§ 217.2 Scope of regulations.

The various provisions of parts 216 through 227 of this chapter are inter-related, and particular note should be taken that the parts must be construed with reference to each other. The regulations in parts 216 through 227 apply only for fish or wildlife under the jurisdictional responsibilities of the Secretary of Commerce for the purpose of carrying out the Endangered Species Act of 1973 (see part 222, § 222.23(a)). Endangered species of fish or wildlife other than those covered by these regulations are under the jurisdiction of the Secretary of the Interior. For rules and procedures relating to such species, see 50 CFR parts 10 through 17.

[39 FR 41370, Nov. 27, 1974, as amended at 52 FR 24250, June 29, 1987]

§ 217.3 Other applicable laws.

No statute or regulation of any State shall be construed to relieve a person from the restrictions, conditions, and requirements contained in parts 216 through 227 of this chapter. In addition, nothing in parts 216 through 227 of this chapter, nor any permit issued under parts 217 through 228 of this chapter, shall be construed to relieve a person from any other requirements imposed by a statute or regulation of any State or of the United States, including any applicable health, quarantine, agricultural, or customs laws or regulations, or other National Marine Fisheries Service enforced statutes or regulations.

[39 FR 41370, Nov. 27, 1974, as amended at 52 FR 24250, June 29, 1987]

§ 217.4 When regulations apply.

The regulations of parts 216 through 227 of this chapter shall apply to all matters, including the processing of permits, arising after the effective date of such regulations, with the following exception:

(a) Civil penalty proceedings. Except as otherwise provided in § 218.25, the civil penalty assessment procedures contained in parts 216 through 227 of this chapter shall apply only to any proceeding instituted by notice of violation dated subsequent to the effective date of these regulations, regardless of when the act or omission which is the basis of a civil penalty proceeding occurred.

(b) [Reserved]

[39 FR 41370, Nov. 27, 1974, as amended at 52 FR 24250, June 29, 1987]

Subpart B—Definitions

§ 217.12 Definitions.

Accelerator funnel means a device used to accelerate the flow of water through a shrimp trawl net.

Approved TED means:

(1) A hard TED that complies with the generic design criteria set forth in 50 CFR 227.72(e)(4)(i). (A hard TED may be modified as specifically authorized by 50 CFR 227.72(e)(4)(iv)); or

(2) A soft TED that complies with the provisions of 50 CFR 227.72(e)(4)(ii); or

(3) A special hard TED which complies with the provisions of 50 CFR 227.72(e)(4)(ii).

Assistant Administrator means the Assistant Administrator for Fisheries of the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, or his authorized representative.

Atlantic Area means all waters of the Atlantic Ocean south of 36°33′00.8″ N. latitude (the line of the North Carolina/Virginia border) and adjacent seas, other than waters of the Gulf Area, and all waters shoreward thereof (including ports).

Atlantic Shrimp Fishery-Sea Turtle Conservation Area (Atlantic SFSTCA) means the inshore and offshore waters extending to 10 nautical miles (18.5 km) offshore along the coast of the States of Georgia and South Carolina from the Georgia-Florida border (defined as the line along 30°42′45.6″ N. lat.) to the North Carolina-South Carolina border.
(defined as the line extending in a direction of 135°34′55″ from true north from the North Carolina-South Carolina land boundary, as marked by the border station on Bird Island at 33°51′07.9″ N. lat., 078°32′32.6″ W. long.).

Authorized officer means:
(1) Any commissioned, warrant, or petty officer of the U.S. Coast Guard;
(2) Any special agent or enforcement officer of the National Marine Fisheries Service;
(3) Any officer designated by the head of a Federal or state agency that has entered into an agreement with the Secretary or the Commandant of the Coast Guard to enforce the provisions of the Act; or
(4) Any Coast Guard personnel accompanying and acting under the direction of any person described in paragraph (1) of this definition.

Bait shrimper means a shrimp trawler that fishes for and retains its shrimp catch alive for the purpose of selling it for use as bait.

Commercial activity means all activities of industry and trade, including, but not limited to, the buying or selling of commodities and activities conducted for the purpose of facilitating such buying and selling: Provided, however, That it does not include the exhibition of commodities by museums or similar cultural or historical organizations.

Country of exportation means the last country from which the animal was exported before importation into the United States.

Country of origin means the country where the animal was taken from the wild, or the country of natal origin of the animal.

Fish or wildlife means any member of the animal kingdom, including without limitation any mammal, fish, bird (including any migratory, nonmigratory, or endangered bird for which protection is also afforded by treaty or other international agreement), amphibian, reptile, mollusk, crustacean, arthropod or other invertebrate, and includes any part, product, egg, or offspring thereof, or the dead body or parts thereof.

Fishing, or to fish, means:
(1) The catching taking or harvesting of fish or wildlife;
(2) The attempted catching, taking, or harvesting of fish or wildlife;
(3) Any other activity that can reasonably be expected to result in the catching, taking, or harvesting of fish or wildlife; or
(4) Any operations on any waters in support of, or in preparation for, any activity described in paragraphs (1) through (3) of this definition.

Footrope means a weighted rope or cable attached to the lower lip (bottom edge) of the mouth of a trawl net along the forwardmost webbing.

Footrope length means the distance between the points at which the ends of the footrope are attached to the trawl net, measured along the forwardmost webbing.

Foreign commerce includes, among other things, any transaction (1) between persons within one foreign country, or (2) between persons in two or more foreign countries, or (3) between a person within the United States and a person in one or more foreign countries, or (4) between persons within the United States, where the fish or wildlife in question are moving in any country or countries outside the United States.

Four-seam, straight-wing trawl means a design of shrimp trawl in which the main body of the trawl is formed from a top panel, a bottom panel, and two side panels of webbing. The upper and lower edges of the side panels of webbing are parallel over the entire length.

Four-seam, tapered-wing trawl means a design of shrimp trawl in which the main body of the trawl is formed from a top panel, a bottom panel, and two side panels of webbing. The upper and lower edges of the side panels of webbing converge toward the rear of the trawl.

Gulf Area means all waters of the Gulf of Mexico west of 81° W. longitude (the line at which the Gulf Area meets the Atlantic Area) and all waters shoreward thereof (including ports).

Gulf Shrimp Fishery-Sea Turtle Conservation Area (Gulf SFSTCA) means the offshore waters extending to 10 nautical miles (18.5 km) offshore along the coast of the States of Texas and Louisiana from the South Pass of the Mississippi River (west of 89°08′5″ W. long.) to the U.S.-Mexican border.
Hard TED means a rigid deflector grid and associated hardware designed to be installed in a trawl net forward of the codend for the purpose of excluding sea turtles from the net.

Headrope means a rope that is attached to the upper lip (top edge) of the mouth of a trawl net along the forwardmost webbing.

Headrope length means the distance between the points at which the ends of the headrope are attached to the trawl net, measured along the forwardmost webbing.

Import means to land on, bring into, or introduce into, or attempt to land on, bring into, or introduce into any place subject to the jurisdiction of the United States, whether or not such landing, bringing, or introduction constitutes an importation within the meaning of the tariff laws of the United States.

Inshore means marine and tidal waters landward of the 72 COLREGS demarcation line (International Regulations for Preventing Collisions at Sea, 1972), as depicted or noted on nautical charts published by the National Oceanic and Atmospheric Administration (Coast Charts, 1:80,000 scale) and as described in 33 CFR part 80.

Leatherback conservation zone means all inshore and offshore waters bounded on the south by a line along 28°24.6′ N. lat. (Cape Canaveral, FL), and bounded on the north by a line along 36°30.5′ N. lat. (North Carolina-Virginia border).

Length in reference to a shrimp trawler, means the distance from the tip of the vessel’s bow to the tip of its stern.

North Carolina restricted area means that portion of the offshore waters bounded on the north by a line along 34°17.6′ N. latitude (Rich Inlet, North Carolina) and 34°35.7′ N. latitude (Browns Inlet, North Carolina) to a distance of 1 nautical mile seaward of the 72 COLREGS demarcation line (International Regulations for Preventing Collisions at Sea, 1972).

Offshore means marine and tidal waters seaward of the 72 COLREGS demarcation line (International Regulations for Preventing Collisions at Sea, 1972), as depicted or noted on nautical charts published by the National Oceanic and Atmospheric Administration (Coast Charts, 1:80,000 scale) and as described in 33 CFR part 80.

Permit or “Certificate of exemption” means any document so designated by the National Marine Fisheries Service and signed by an authorized official of the National Marine Fisheries Service, including any document which modifies, amends, extends or renews any permit or certificate of exemption.

Person means an individual, corporation, partnership, trust, association, or any other private entity, or any officer, employee, agent, department, or instrumentality of the Federal Government, of any State or political subdivision thereof, or of any foreign government.

Possession means the detention and control, or the manual or ideal custody of anything which may be the subject of property, for one's use and enjoyment, either as owner or as the proprietor of a qualified right in it, and either held personally or by another who exercises it in one's place and name. Possession includes the act or state of possessing and that condition of facts under which one can exercise his power over a corporeal thing at his pleasure to the exclusion of all other persons. Possession includes constructive possession which means not actual but assumed to exist, where one claims to hold by virtue of some title, without having actual custody.

Pre-Act endangered species part means any sperm whale oil, including derivatives and products thereof, which was lawfully held within the United States on December 28, 1973 in the course of a commercial activity; or any finished scrimshaw product, if such product or the raw material for such product was lawfully held within the United States on December 28, 1973, in the course of a commercial activity.

Pusher-head trawl (chopsticks) means a trawl that is spread by poles suspended in a “V” configuration from the bow of the trawler.

Right whale, as used in subpart D of this part, means any whale that is a member of the western North Atlantic population of the northern right whale species (Eubalaena glacialis).

Scrimshaw product means any art form which involves the substantial etching or engraving of designs upon,
or the substantial carving of figures, patterns, or designs from any bone or tooth of any marine mammal of the order Cetacea. For purposes of this part, polishing or the adding of minor superficial markings does not constitute substantial etching, engraving or carving.

Secretary means the Secretary of Commerce or his authorized representative.

Shrimp means any species of marine shrimp (Order Crustacea) found in the Atlantic Area or the Gulf Area, including, but not limited to:
(1) Brown shrimp (Penaeus aztecus);
(2) White shrimp (P. setiferus);
(3) Rock shrimp (Sicyonia brevirostris);
(4) Pink shrimp (P. duorarum);
(5) Royal red shrimp (Hymenopenaeus robustus); and
(6) Seabob shrimp (Xiphopenaeus kroyeri).

Shrimp trawler means any vessel that is equipped with one or more trawl nets and that is capable of, or used for, fishing for shrimp, or whose on-board or landed catch of shrimp is more than 1 percent, by weight, of all fish comprising its on-board or landed catch.

Skimmer trawl means a trawl that extends from the outrigger of a vessel with a cable and a lead weight holding the trawl mouth open.

Soft TED means a panel of polypropylene or polyethylene netting designed to be installed in a trawl net forward of the codend for the purpose of excluding sea turtles from the net.

State means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, Guam, and the Trust Territory of the Pacific Islands.

Stretched mesh size means the distance between the centers of the two opposite knots in the same mesh when pulled taut.

Summer flounder means the species Paralichthys dentatus.

Summer flounder fishery-sea turtle protection area means:
(1) All offshore waters, bounded on the north by a line along 37°05' N. latitude (Cape Charles, VA) and bounded on the south by a line along 33°35' N. latitude (North Carolina-South Carolina border), except as provided in paragraph (2) of this definition.

(2) [Reserved]

Summer flounder trawler means any vessel that is equipped with one or more bottom trawl nets, and that is capable of, or used for, fishing for flounder, or whose on-board or landed catch of flounder is more than 100 pounds (45.4 kg).

Take means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or attempt to harass, harm, pursue, shoot, wound, kill, trap, capture, or collect.

Taper, in reference to the webbing used in trawls, means the angle of a cut used to shape the webbing, expressed as the ratio between the cuts that reduce the width of the webbing by cutting into the panel of webbing through one row of twine (bar cuts) and the cuts that extend the length of the panel of webbing by cutting straight aft through two adjoining rows of twine (point cuts). For example, sequentially cutting through the lengths of twine on opposite sides of a mesh, leaving an uncut edge of twines all lying in the same line, produces a relatively strong taper called “all-bars”; making a sequence of 4-bar cuts followed by 1-point cut produces a more gradual taper called “4 bars to 1 point” or “4b1p”; similarly, making a sequence of 2-bar cuts followed by 1-point cut produces a still more gradual taper called “2b1p”; and making a sequence of cuts straight aft does not reduce the width of the panel and is called a “straight” or “all-points” cut.

Taut means a condition in which there is no slack in the net webbing.

TED (turtle excluder device) means a device designed to be installed in a trawl net forward of the codend for the purpose of excluding sea turtles from the net.

Test net, or try net, means a net pulled for brief periods of time just before, or during, deployment of the primary net(s) in order to test for shrimp concentrations or determine fishing conditions (e.g., presence or absence of bottom debris, jellyfish, bycatch, seagrasses, etc.).

Tongue means any piece of webbing along the top, center, leading edge of a trawl, whether lying behind or ahead of
§ 217.21

the headrope, to which a towing bridle can be attached for purposes of pulling the trawl net and/or adjusting the shape of the trawl.

Transportation means to ship, convey, carry or transport by any means whatever, and deliver or receive for such shipment, conveyance, carriage, or transportation.

Triple-wing trawl means a trawl with a tongue on the top, center, leading edge of the trawl and an additional tongue along the bottom, center, leading edge of the trawl.

Two-seam trawl means a design of shrimp trawl in which the main body of the trawl is formed from a top panel and a bottom panel of webbing that are directly attached to each other down the sides of the trawl.

Underway, with respect to a vessel, means that the vessel is not at anchor, or made fast to the shore, or aground.

United States means the several States of the United States of America, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, Guam, and the Trust Territory of the Pacific Islands.

Vessel includes every description of watercraft, including nondisplacement craft and seaplanes, used or capable of being used as a means of transportation on water.

Vessel restricted in her ability to maneuver has the meaning specified for this term at 33 U.S.C. 2003(g).

Whoever means the same as person.

Wildlife means the same as fish or wildlife.

Wing net (butterfly trawl) means a trawl with a rigid frame, rather than trawl door, holding the trawl mouth open.

SOURCE: 39 FR 41373, Nov. 27, 1974, unless otherwise noted.

Subpart A—Introduction

§ 220.1 General.
Each person intending to engage in an activity for which a permit is required by parts 217 through 222 of this chapter or the Endangered Species Act of 1973 shall, before commencing such activity, obtain a valid permit authorizing such activity. Each person who desires to obtain the permit privileges authorized by parts 217 through 222 of this chapter must make application for such permit in accordance with the requirements of this part 220 of this chapter and the other regulations in parts 217 through 222 of this chapter which set forth the additional requirements for the specific permits desired. If the activity for which permission is sought is covered by the requirements of more than one part of parts 217 through 222 of this chapter, the requirements of each part must be met. If the information required for each specific permitted activity is included, one application may be accepted for all permits required, and a single permit may be issued.

§ 220.2 Purpose of regulations.
The regulations contained in this part will provide uniform rules and procedures for application, issuance, renewal, conditions, and general administration of permits issuable pursuant to parts 217 through 222 of this chapter.

§ 220.3 Scope of regulations.
The provisions in this part are in addition to, and are not in lieu of, other permit regulations of parts 217 through 222 of this chapter and apply to all permits issued thereunder, including “Endangered Fish or Wildlife” (part 222).

§ 220.4 Emergency variation from requirements.
The Director may approve variations from the requirements of this part when he finds that an emergency exists and that the proposed variations will not hinder effective administration of parts 217 through 222 of this chapter, and will not be unlawful.

Subpart B—Application for Permits

§ 220.11 Procedure for obtaining a permit.
The following general procedures apply to applications for permits:
(a) Forms. Applications must be submitted by letter containing all necessary information, attachments, certification, and signature. In no case will oral or telephone applications be accepted.
(b) Forwarding instructions. Applications must be submitted to the Director, National Marine Fisheries Service. The address is listed in §217.21.
(c) Time requirement. Applications must be received by the appropriate official of the National Marine Fisheries Service at least 90 calendar days prior to the date on which the applicant desires to have the permit made effective. The National Marine Fisheries Service will, in all cases, attempt to process applications deemed sufficient in the shortest possible time. The National Marine Fisheries Service does not, however, guarantee 90 days issuance after publication in the Federal Register of receipt of a permit application and some permits cannot be issued within that time period.

§ 220.12 [Reserved]

§ 220.13 Abandoned application.
Upon receipt of an insufficiently or improperly executed application, the
§ 220.21 Issuance of permits.

(a) No permit may be issued prior to the receipt of a written application therefor, unless a written variation from the requirements, as authorized by §220.4 is inserted into the official file of the National Marine Fisheries Service. Any representation of an employee or agent of the United States Government shall not be construed as a permit unless it meets the requirements of a permit as defined in 50 CFR 217.12.

(b) The Director shall issue the appropriate permit unless—

(1) Denial of a permit has been made pursuant to subpart D of 15 CFR part 904;

(2) The applicant has failed to disclose material information required, or has made false statements as to any material fact, in connection with his application;

(3) The applicant has failed to demonstrate a valid justification for the permit or a showing of responsibility;

(4) The authorization requested potentially threatens a wildlife population, or

(5) The Director finds through further inquiry or investigation, or otherwise, that the applicant is not qualified.

(c) Each permit shall bear a serial number. Such number may be re-assigned to the permittee to whom issued so long as he maintains continuity of renewal.

(d) The applicant shall be notified in writing of the denial of any permit request, and the reasons therefor. If authorized in the notice of denial, the applicant may submit further information, or reasons why the permit should not be denied. Such further submissions shall not be considered a new application. The final action by the Director shall be considered the final administrative decision of the Department.

[39 FR 41373, Nov. 27, 1974, as amended at 49 FR 1042, Jan. 6, 1984]

§ 220.22 Duration of permit.

Permits shall entitle the person to whom issued to engage in the activity specified in the permit, within the limitations of the applicable statute and regulations contained in parts 217 through 222 of this chapter for the period stated on the permit, unless sooner modified, suspended, or revoked pursuant to subpart D of 15 CFR part 904.

[49 FR 1042, Jan. 6, 1984]

§ 220.23 [Reserved]

§ 220.24 Renewal of permit.

Where the permit is renewable and a permittee intends to continue the activity described in the permit during any portion of the year ensuing its expiration, he shall, unless otherwise notified in writing by the Director, file a request for permit renewal, together with a certified statement that the information in his original application is still currently correct, or a statement of all changes in the original application, accompanied by any required fee at least 30 days prior to the expiration of his permit. Any person holding a valid renewable permit, who has complied with the foregoing provision of this section, may continue such activities as were authorized by his expired permit until his renewal application is acted upon.

§ 220.25 Permits not transferable; agents.

(a) Permits issued under parts 220 through 222 are not transferable or assignable. Some permits authorize certain activities in connection with a business or commercial enterprise and in the event of any lease, sale, or transfer of such business entity, the successor must obtain a permit prior to continuing the permitted activity. However, certain limited rights of succession are provided in §220.26.

(b) Except as otherwise stated on the face of a permit, any person who is under the direct control of the permittee, or who is employed by or under
contract to the permittee for the purposes authorized by the permit, may carry out the activity authorized by the permit.

§ 220.26 Right of succession by certain persons.

(a) Certain persons, other than the permittee, are granted the right to carry on a permitted activity for the remainder of the term of a current permit provided they comply with the provisions of paragraph (b) of this section. Such persons are the following:

(1) The surviving spouse, child, executor, administrator, or other legal representative of a deceased permittee; and

(2) A receiver or trustee in bankruptcy or a court designated assignee for the benefit of creditors.

(b) In order to secure the right provided in this section, the person or persons desiring to continue the activity shall furnish the permit to the issuing officer for endorsement within 90 days from the date the successor begins to carry on the activity.

§ 220.27 Change of mailing address.

During the term of his permit, a permittee may change his mailing address without procuring a new permit. However, in every case notification of the new mailing address must be forwarded to the issuing official within 30 days after such change. This section does not authorize the change of location of the permitted activity for which an amendment must be obtained.

§ 220.28 Change in name.

A permittee continuing to conduct a permitted activity is not required to obtain a new permit by reason of a mere change in trade name under which a business is conducted or a change of name by reason of marriage or legal decree: Provided, That such permittee must furnish his permit to the issuing official for endorsement within 30 days from the date the permittee begins conducting the permitted activity under the new name.

§§ 220.29–220.30 [Reserved]

§ 220.31 Discontinuance of activity.

When any permittee discontinues his activity, he shall, within 30 days thereof, mail his permit and a request for cancellation to the issuing officer, and said permit shall be deemed void upon receipt. No refund of any part of an amount paid as a permit fee shall be made where the operations of the permittee are, for any reason, discontinued during the tenure of an issued permit.

Subpart D—Conditions

§ 220.42 Permits are specific.

The authorizations on the face of a permit which set forth specific times, dates, methods of taking, numbers and kinds of fish or wildlife, location of activity, authorize certain circumscribed transactions, or otherwise permit a specifically limited matter, are to be strictly construed and shall not be interpreted to permit similar or related matters outside the scope of strict construction.

§ 220.43 Alteration of permits.

Permits shall not be altered, erased, or mutilated, and any permit which has been altered, erased, or mutilated shall immediately become invalid.

§ 220.44 Display of permit.

Any permit issued under parts 220 through 222 shall be displayed for inspection upon request to the Director or his agent, or to any other person relying upon its existence.

§ 220.45 Filing of reports.

Permittees may be required to file reports of the activities conducted under the permit. Any such reports shall be filed not later than March 31 for the preceding calendar year ending December 31, or any portion thereof, during which a permit was in force, unless the regulations of parts 217 through 222 of this chapter or the provisions of the permit set forth other reporting requirements.
§ 220.46 Maintenance of records.

From the date of issuance of the permit, the permittee shall maintain complete and accurate records of any taking, possession, transportation, sale, purchase, barter, exportation, or importation of fish or wildlife pursuant to such permit. Such records shall be kept current and shall include names and addresses of persons with whom any fish or wildlife has been purchased, sold, bartered, or otherwise transferred, and the date of such transaction, and such other information as may be required or appropriate. Such records, unless otherwise specified, shall be entered in books, legibly written in the English language. Such records shall be retained for 5 years from the date of issuance of the permit.

§ 220.47 Inspection requirement.

Any person holding a permit under parts 217 through 222 of this chapter shall allow the Director's agent to enter his premises at any reasonable hour to inspect any fish or wildlife held or to inspect, audit, or copy any permits, books, or records required to be kept by regulations of parts 217 through 222 of this chapter or by the Endangered Species Act of 1973.

Subpart E—Permits Involving Endangered or Threatened Sea Turtles

SOURCE: 43 FR 32009, July 28, 1978, unless otherwise noted.

§ 220.50 Purpose.

This subpart establishes procedures for issuance of permits for scientific purposes or to enhance the propagation or survival of “endangered” or “threatened” sea turtles and zoological exhibition or educational purposes for “threatened” sea turtles.

§ 220.51 Permit applications.

Applications for permits to take, import, export or engage in any other prohibited activity involving any species of sea turtle listed in 50 CFR 17.11 shall be submitted to the Wildlife Permit Office (WPO) of the U.S. Fish and Wildlife Service in accordance with either, 50 CFR 17.22(a) (Endangered Species) or 50 CFR 17.32(a) (Threatened Species) as appropriate. Applications involving activities under the jurisdiction of the National Marine Fisheries Service (NMFS) as defined in 50 CFR 222.29(a) and 50 CFR 227.4 shall be forwarded by the WPO to NMFS.

§ 220.52 Issuance of permits.

(a) Applications under the jurisdiction of the WPO shall be reviewed and acted upon in accordance with 50 CFR 17.22 or 50 CFR 17.32 as appropriate.

(b) NMFS shall make a complete review of applications forwarded to it by the WPO in accordance with §220.51 and determine the appropriate action to be taken in accordance with 50 CFR 220.21(b) and 222.23(c). In instances where the application involves activities solely within NMFS jurisdiction, NMFS shall issue permits or letters of denial and provide WPO with copies of its actions.

(c) Where a permit application involves activities under both NMFS and FWS jurisdiction, each agency will process the application for activities under its jurisdiction. WPO will issue either a permit or a letter of denial.

(d) Where a permit application for activities under NMFS jurisdiction also requires a permit under the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) (50 CFR part 23), NMFS will process the application for activities under its jurisdiction. WPO will issue the final document by means of a combination ESA/CITES permit or a letter of denial.

§ 220.53 Other requirements.

Permits issued by NMFS under this subpart shall be administered and comply with the provisions of 50 CFR parts 217 through 227 as appropriate.

PART 221—DESIGNATED PORTS

§ 221.1 Importation and exportation at designated ports.

Any fish or wildlife (other than shellfish and fishery products which (a) are
PART 222—ENDANGERED FISH OR WILDLIFE

Sec. 222.1 Purpose of regulations.

The regulations contained in this part identify the species or subspecies of fish or wildlife determined to be endangered under either the Endangered Species Conservation Act of 1969 or the Endangered Species Act of 1973, and presently deemed endangered species under the Endangered Species Act of 1973, which are under the jurisdiction of the Secretary of Commerce, and establish procedures and criteria for

§ 222.36 Policy regarding incidental capture of sea turtles.

§ 222.37 Special prohibitions relating to leatherback sea turtles.

§ 222.2 Scope of regulations.

(a) The regulations of this part apply only to endangered fish or wildlife.

(b) The provisions in this part are in addition to, and are not in lieu of, other regulations of parts 217 through 222 of this chapter which may require a permit or prescribe additional restrictions or conditions for the taking, importation, exportation, and interstate transportation of fish or wildlife. (See also parts 220 and 221 of this chapter.)

§ 222.3 Definitions.

These definitions apply only to § 222.2:

Adequately covered means, with respect to species listed pursuant to section 4 of the ESA, that a proposed conservation plan has satisfied the permit issuance criteria under section 10(a)(2)(B) of the ESA for the species covered by the plan and, with respect to unlisted species, that a proposed conservation plan has satisfied the permit issuance criteria under section 10(a)(2)(B) of the ESA that would otherwise apply if the unlisted species covered by the plan were actually listed.

For the Services to cover a species under a conservation plan, it must be listed on the section 10(a)(1)(B) permit.

Conservation plans also are known as “habitat conservation plans” or “HCPs.”

Changing circumstances means changes in circumstances affecting a species or geographic area covered by a conservation plan that can reasonably have been anticipated by plan developers and NMFS at the time of the conservation plan’s negotiation and development, and that result in a substantial and adverse change in the status of the covered species.

For the Services to cover a species under a conservation plan, it must be listed on the section 10(a)(1)(B) permit.

Conserved habitat areas means areas explicitly designated for habitat restoration, acquisition, protection, or other conservation purposes under a conservation plan.

Conservation plan means the plan required by section 10(a)(2)(A) of the ESA that an applicant must submit when applying for an incidental take permit. Conservation plans also are known as “habitat conservation plans” or “HCPs.”

Operating conservation program means those conservation management activities which are expressly agreed upon and described in a conservation plan or its Implementing Agreement, if any, and which are to be undertaken for the affected species when implementing an approved conservation plan, including measures to respond to changed circumstances.

Properly implemented conservation plan means any conservation plan, Implementing Agreement and permit whose commitments and provisions have been or are being fully implemented by the permittee.

Unforeseen circumstances means changes in circumstances affecting a species or geographic area covered by a conservation plan that could not reasonably have been anticipated by plan developers and NMFS at the time of the conservation plan’s negotiation and development, and that result in a substantial and adverse change in the status of the covered species.

Subpart B—Certificates of Exemption for Pre-Act Endangered Species Parts

SOURCE: 45 FR 57134, Aug. 27, 1980, unless otherwise noted.

§ 222.11-1 General certificate of exemption requirements.

(a) The Assistant Administrator, pursuant to the provisions of the Endangered Species Act, and pursuant to the provisions of this paragraph, may exempt any pre-Act endangered species part from one or more of the following:

(1) The prohibition, as set forth in section 9(a)(1)(A) of the Act, to export any such species part from the United States;

(2) The prohibitions, as set forth in section 9(a)(1)(E) of the Act, to deliver, receive, carry, transport, or ship in interstate or foreign commerce, by any means whatsoever and in the course of
§ 222.11-3 Application renewal procedure.

(a) Any person to whom a certificate of exemption has been issued by the National Marine Fisheries Service and who desires to obtain a renewal of such certificate of exemption may make application therefor to the Assistant Administrator. The sufficiency of the application shall be determined by the Assistant Administrator in accordance with the requirements of this part and, in that connection, he may waive any requirement for information, or require any elaboration for further information deemed necessary.

(b) One copy of a completed application for renewal shall be submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, Washington, DC 20235.

(c) The outside of the envelope should be marked, ATTENTION: Enforcement Division, “Certificate of Exemption Request.” Assistance may be obtained by writing or calling the Enforcement Division, NMFS, in Washington, DC (AC 202, 634-7265). At least 15 days should be allowed for processing. An application for a certificate of exemption shall provide the information contained in § 222.11-3 (when the information requested is not applicable, put “N.A.”) and such other information that the Assistant Administrator may require.

[45 FR 57134, Aug. 27, 1980, as amended at 50 FR 12808, Apr. 1, 1985]

§ 222.11-3 Application renewal requirements.

(a) The following information will be used as the basis for determining whether an application for renewal of a certificate of exemption is complete:

(2) The date of application.

(3) The identity of the applicant including complete name, original certificate of exemption number, current address, and telephone number, including zip and area codes. If the applicant is a corporation, partnership, or association set forth the details.

(4) The period of time for which a renewal of the certificate of exemption is requested; however, no renewal of certificate of exemption, or right claimed thereunder, shall be effective after the close of the three-year period beginning on the date of the expiration of the previous renewal of the certificate of exemption.

(5)(i) A complete and detailed updated inventory of all pre-Act endangered species parts for which the applicant seeks exemption. Each item on the inventory must be identified by the following information: a unique serial number; the weight of the item in grams, to the nearest whole gram; and a description in detail sufficient to permit ready identification of the item. Small lots, not exceeding five pounds (2,270 grams), of scraps or raw material, which may include or consist of one or more raw whale teeth, may be identified by a single serial number and total weight. All finished scrimshaw items subsequently made from a given lot of scrap may be identified by the lot serial number plus additional digits to signify the piece number of the individual finished item. Identification numbers will be in the following format: 00-000000-0000. The first two digits will be the last two digits of the appropriate certificate of exemption number; the next six digits, the serial number of the individual piece or lot of scrap or
§ 222.11-4 Procedures for issuance of renewals of certificates of exemption.

Whenever application for a renewal of a certificate of exemption is received by the Assistant Administrator which the Assistant Administrator deems sufficient, he shall, as soon as practicable, issue a certificate of renewal to the applicant.

§ 222.11-5 Application for modification of certificate of exemption by holder.

Where circumstances have changed so that an applicant or certificate of exemption holder desires to have any material term or condition of his application or certificate modified, he must submit in writing full justification and supporting information in conformance with the provisions of this part.

§ 222.11-6 Amendment of certificates of exemption.

All certificates are issued subject to the condition that the Assistant Administrator reserves the right to amend the provisions of a certificate of exemption for just cause at any time. Such amendments take effect on the date of notification, unless otherwise specified.

§ 222.11-7 Procedures for suspension, revocation, or modification of certificates of exemption.

Any violation of the applicable provisions of parts 217 through 222 of this chapter, or of the Act, or of a condition of the certificate of exemption may subject the certificate holder to the following:

(a) The penalties provided in the Act; and

(b) Suspension, revocation, or modification of the certificate of exemption, as provided in subpart D of 15 CFR part 904.

[49 FR 1042, Jan. 6, 1984]

§ 222.11-8 Purchaser provisions.

(a) Any person granted a certificate of exemption, including a renewal, under this subpart, upon a sale of any exempted pre-Act endangered species part, must provide the purchaser in writing with a description (including full identification number) of the part sold, and must inform the purchaser in writing of the purchaser’s obligation
§ 222.12-1 Certificate of exemption not transferable; exception.

Certificates of exemption issued under this subpart are not transferable. Provided, That in the event of the lease, sale or other transfer of the operations or activity authorized by the certificate of exemption the successor is not required by this subpart to obtain a new certificate of exemption prior to commencing such operations or activity. In such case, the successor will be treated as a purchaser and must comply with the record and reporting requirements set forth in §222.11-8.

[45 FR 57134, Aug. 27, 1980, as amended at 50 FR 12809, Apr. 1, 1985]

§ 222.12-2 Change of address.

A certificate of exemption holder may during the term of the certificate of exemption move his business or activity to a new location at which he intends regularly to carry on such business or activity, without obtaining a new certificate of exemption. However, in every case, notification of the new location of the business or activity must be given in writing within 10 days of such move to the Assistant Administrator. In each instance, the certificate of exemption must be endorsed by the Assistant Administrator. After endorsement of the certificate of exemption the Assistant Administrator will provide an amended certificate of exemption to the person to whom issued.

[50 FR 12808, Apr. 1, 1985]
§ 222.12-3 Certain continuance of business.

A certificate of exemption holder who requests that his certificate of exemption be amended by the Assistant Administrator for corrections or endorsement in compliance with the provisions contained in this subpart, may continue his operations while awaiting action by the Assistant Administrator.

§ 222.12-4 Change in trade name.

A certificate holder continuing to conduct business at the location shown on his certificate of exemption is not required to obtain a new certificate of exemption by reason of a change in trade name under which he conducts his business: Provided, That such certificate of exemption holder requests in writing that his certificate of exemption be endorsed to reflect such change of name to the Assistant Administrator within 30 days from the date the certificate of exemption holder begins his business under the new name.

§ 222.12-5 State or other law.

A certificate of exemption issued under this subpart confers no right or privilege to conduct a business or an activity contrary to State or other law. Similarly, compliance with the provisions of any State or other law affords no immunity under any Federal laws or regulations of any other Federal Agency.

§ 222.12-6 Right of entry and examination.

Any person authorized to enforce the Act may enter during business hours the premises, including places of storage, of any holder of a certificate of exemption or of any purchaser for the purpose of inspecting or examining any records or documents required to be kept by such certificate of exemption holder or successor under this subpart, and any endangered species parts at such premises of location.

§ 222.12-7 Records.

The records pertaining to pre-Act endangered species parts prescribed by this subpart shall be in permanent form, and shall be retained at the address shown on the certificate of exemption, or at the principal address of a purchaser in the manner prescribed by this subpart.

§ 222.12-8 Record of receipt and disposition.

(a) Holders of certificates of exemption must maintain records of all pre-Act endangered species parts they receive, sell, transfer, distribute or dispose of otherwise. Purchasers of pre-Act endangered species parts, unless ultimate users, must similarly maintain records of all such parts or products they receive.

(b) Such records as referred to in paragraph (a) of this section may consist of invoices or other commercial records which must be filed in an orderly manner separate from other commercial records maintained, and be readily available for inspection. Such records must (1) show the name and address of the purchaser, seller, or other transferor; (2) show the type, quantity, and identity of the part or product; (3) show the date of such sale or transfer; and (4) be retained, in accordance with the requirements of this subpart, for a period of not less than three years following the date of sale or transfer. Each pre-Act endangered species part will be identified by its number on the updated inventory required to renew a certificate of exemption.

(c)(1) Each certificate of exemption holder must submit a quarterly report (to the address given in the certificate) containing all record information required by paragraph (b) on all transfers of pre-Act endangered species parts made in the previous calendar quarter, or such other record information the Assistant Administrator may require from time to time.

(2) Quarterly reports are due on January 15, April 15, July 15, and October 15. The first report is due on October 15, 1985.

(d) The Assistant Administrator may authorize the record information to be submitted in a manner other than that prescribed in paragraph (b) of this section when it is shown by the record
§ 222.21 General permit requirement.

No person shall take, import, export, or engage in any other prohibited activity involving, any species or subspecies of fish or wildlife which the Secretary has determined to be endangered under the Endangered Species Act, as amended, or it will facilitate the administration or enforcement of the Act and reducing the costs thereof. Exporters are advised to see 50 CFR part 14 for a listing of the designated ports.

§ 222.13-1 Procedure by exporter.

Shipment may not be made until the requirements of §222.13 are met by the exporter. A copy of the certificate of exemption, and any endorsements thereon, must be sent by the exporter to the District Director of Customs at the port of exportation, and must precede or accompany the shipment in order to permit appropriate inspection prior to lading.

§ 222.13-2 Action by Customs.

Upon receipt of a certificate of exemption authorizing the exportation of pre-Act endangered species parts or scrimshaw products, the District Director of Customs may order such inspection as deemed necessary prior to lading of the merchandise. If satisfied that the shipment is proper and agrees with the information contained in the certificate, and any endorsement thereto, the District Director of Customs will clear the merchandise for export. The certificate, and any endorsements, will be forwarded to the Chief, Enforcement Division, F/CMS National Marine Fisheries Service, Washington, DC 20235.

§ 222.13-3 Transportation to effect exportation.

Notwithstanding any provision of this subpart, it shall not be required that authorization be obtained from the Assistant Administrator for the transportation in interstate or foreign commerce of pre-Act endangered species parts to effect an exportation of such parts authorized under the provisions of this subpart.

§ 222.13-4 Burden of proof; presumption.

Any person claiming the benefit of any exemption or certificate of exemption under the Act or regulations, shall have the burden of proving that the exemption or certificate is applicable, has been granted, and was valid and in force at the time of the alleged violation.
§ 222.22 Permits for the incidental taking of endangered species.

(a) Scope. (1) The Assistant Administrator may issue permits to take endangered marine species incidentally to an otherwise lawful activity under section 10(a)(1)(B) of the Endangered Species Act of 1973. The regulations in this section apply only to those endangered species under the jurisdiction of the Secretary of Commerce identified in §222.23(a).

(2) If the applicant represents an individual or a single entity, such as a corporation, the Assistant Administrator will issue an individual incidental take permit. If the applicant represents a group or organization whose members conduct the same or a similar activity in the same geographical area with similar impacts on endangered marine species, the Assistant Administrator will issue a general incidental take permit. To be covered by a general incidental take permit, each individual conducting the activity must have a certificate of inclusion issued under paragraph (f) of this section.

(b) Permit application procedures. Applications should be sent to the Assistant Administrator for Fisheries, National Marine Fisheries Service, 1335 East West Highway, Silver Spring, MD 20910. The sufficiency of the application will be determined by the Assistant Administrator in accordance with the requirements of this section. At least 120 days should be allowed for processing. Each application must be signed and dated and include the following:

(1) The type of application, either:

(i) Application for an Individual Incidental Take Permit under the Endangered Species Act of 1973, or

(2) The name, address and telephone number of the applicant. If the applicant is a partnership, corporate entity or is representing a group or organization, the applicable details.

(3) The species or stocks, by common and scientific name, and a description of the status, distribution, seasonal distribution, habitat needs, feeding habits and other biological requirements of the affected species or stocks.

(4) A detailed description of the proposed activity, including the anticipated dates, duration and specific location. If the request is for a general incidental take permit, an estimate of the total level of activity expected to be conducted.

(5) A conservation plan, based on the best scientific and commercial data available, which specifies

(i) The anticipated impact (i.e., amount, extent and type of anticipated taking) of the proposed activity on the species or stocks;

(ii) The anticipated impact of the proposed activity on the habitat of the species or stocks and the likelihood of restoration of the affected habitat;

(iii) The steps (specialized equipment, methods of conducting activities, or other means) that will be taken to monitor, minimize and mitigate such impacts, and the funding available to implement such measures; and

(iv) The alternative actions to such taking that were considered and the reasons why those alternatives are not being used.

(v) A list of all sources of data used in preparation of the plan, including reference reports, environmental assessments and impact statements, and personal communications with recognized experts on the species or activity who may have access to data not published in current literature.

(c) Issuance criteria. (1) In determining whether to issue a permit, the Assistant Administrator will consider the following:

(i) The status of the affected species or stocks;

(ii) The potential severity of direct, indirect and cumulative impacts on the
section 222.22

National Marine Fisheries Service/NOAA, Commerce

species or stocks and habitat as a result of the proposed activity;
(iii) The availability of effective monitoring techniques;
(iv) The use of the best available technology for minimizing or mitigating impacts; and
(v) The views of the public, scientists and other interested parties knowledgeable of the species or stocks or other matters related to the application.

(2) To issue the permit, the Assistant Administrator must find that:
(i) The taking will be incidental;
(ii) The applicant will, to the maximum extent practicable, monitor, minimize and mitigate the impacts of such taking;
(iii) The taking will not appreciably reduce the likelihood of the survival and recovery of the species in the wild;
(iv) The applicant has amended the conservation plan to include any measures (not originally proposed by the applicant) that the Assistant Administrator determines are necessary or appropriate; and
(v) There are adequate assurances that the conservation plan will be funded and implemented, including any measures required by the Assistant Administrator.

d Permit conditions. In addition to the general conditions set forth in part 220 of this chapter, every permit issued under this section will contain such terms and conditions as the Assistant Administrator deems necessary and appropriate, including, but not limited to the following:

(1) Reporting requirements or rights of inspection for determining whether the terms and conditions are being complied with;
(2) The species and number of animals covered;
(3) The authorized method of taking;
(4) The procedures to be used to handle or dispose of any animals taken; and
(5) The payment of a fee to reimburse the National Marine Fisheries Service the cost of processing the application.

e Duration of permits. The duration of permits issued under this section will be such as to provide adequate assurances to the permit holder to commit funding necessary for the activities authorized by the permit, including conservation activities. In determining the duration of a permit, the Assistant Administrator will consider the duration of the proposed activities, as well as the possible positive and negative effects associated with issuing a permit of the proposed duration on listed species, including the extent to which the conservation plan is likely to enhance the habitat of the endangered species or increase the long-term survivability of the species.

f Certificates of inclusion. (1) Any individual who wishes to conduct an activity covered by a general incidental take permit must apply to the Assistant Administrator for a certificate of inclusion. Each application must be signed and dated and include the following:
(i) The general incidental take permit under which the applicant wants coverage.
(ii) The name, address and telephone number of the applicant. If the applicant is a partnership or a corporate entity, the applicable details.
(iii) A description of the activity the applicant seeks to have covered under the general incidental take permit including the anticipated dates, duration, and specific location; and
(iv) A signed certification that the applicant has read and understands the general incidental take permit and the conservation plan, will comply with their terms and conditions, and will fund and implement applicable measures of the conservation plan.

(2) To issue a certificate of inclusion, the Assistant Administrator must find that:
(i) The applicant will be engaged in the activity covered by the general permit and
(ii) The applicant has made adequate assurances that the applicable measures of the conservation plan will be funded and implemented.

g Assurances provided to permittee in case of changed or unforeseen circumstances. The assurances in this paragraph (g) apply only to incidental take permits issued in accordance with paragraph (c) of this section where the conservation plan is being properly implemented, and apply only with respect to species adequately covered by the
conservation plan. These assurances cannot be provided to Federal agencies. This rule does not apply to incidental take permits issued prior to March 25, 1998. The assurances provided in incidental take permits issued prior to March 25, 1998 remain in effect, and those permits will not be revised as a result of this rulemaking.

(1) Changed circumstances provided for in the plan. If additional conservation and mitigation measures are deemed necessary to respond to changed circumstances and were provided for in the plan’s operating conservation program, the permittee will implement the measures specified in the plan.

(2) Changed circumstances not provided for in the plan. If additional conservation and mitigation measures are deemed necessary to respond to changed circumstances and such measures were not provided for in the plan’s operating conservation program, NMFS will not require any conservation and mitigation measures in addition to those provided for in the plan without the consent of the permittee, provided the plan is being properly implemented.

(3) Unforeseen circumstances. (i) In negotiating unforeseen circumstances, NMFS will not require the commitment of additional land, water, or financial compensation or additional restrictions on the use of land, water, or other natural resources otherwise available for development or use under the original terms of the conservation plan without the consent of the permittee.

(ii) NMFS will have the burden of demonstrating that unforeseen circumstances exist, using the best scientific and commercial data available. These findings must be clearly documented and based upon reliable technical information regarding the status and habitat requirements of the affected species. NMFS will consider, but not be limited to, the following factors:

(A) Size of the current range of the affected species;

(B) Percentage of range adversely affected by the conservation plan;

(C) Percentage of range conserved by the conservation plan;

(D) Ecological significance of that portion of the range affected by the conservation plan;

(E) Level of knowledge about the affected species and the degree of specificity of the species' conservation program under the conservation plan; and

(F) Whether failure to adopt additional conservation measures would appreciably reduce the likelihood of survival and recovery of the affected species in the wild.

(h) Nothing in this rule will be construed to limit or constrain the Assistant Administrator, any Federal, State, local, or tribal government agency, or a private entity, from taking additional actions at its own expense to protect or conserve a species included in a conservation plan.

[55 FR 20606, May 18, 1990, as amended at 63 FR 8872, Feb. 23, 1998]

§ 222.23 Permits for scientific purposes or to enhance the propagation or survival of the affected endangered species.

(a) The Director, National Marine Fisheries Service, may issue permits for scientific purposes or to enhance the propagation or survival of the affected endangered species which authorize, under such terms and conditions as he may prescribe, taking, importation, or certain other acts with respect to endangered species otherwise prohibited by section 9 of the Endangered Species Act of 1973. The
species listed as endangered under either the Endangered Species Conservation Act of 1969 or the Endangered Species Act of 1973 and currently under the jurisdiction of the Secretary of Commerce are: Shortnose sturgeon (Acipenser brevirostrum); Totoaba (Cynoscion macdonaldi); Snake River sockeye salmon (Oncorhynchus nerka); Umpqua River cutthroat trout (Oncorhynchus clarki clarki); Southern California steelhead (Oncorhynchus mykiss), which includes all naturally spawned populations of steelhead (and their progeny) in streams from the Santa Maria River, San Luis Obispo County, California (inclusive) to Malibu Creek, Los Angeles County, California (inclusive); Upper Columbia River steelhead (Oncorhynchus mykiss), which includes the Wells Hatchery stock and all naturally spawned populations of steelhead (and their progeny) in streams in the Columbia River Basin upstream from the Yakima River, Washington, to the United States-Canada Border; Sacramento River winter-run chinook salmon (Oncorhynchus tshawytscha); Western North Pacific (Korean) gray whale (Eschrichtius robustus), Blue whale (Balaenoptera musculus), Humpback whale (Megaptera novaeangliae), Bowhead whale (Balaena mysticetus), Right whales (Eubalaena spp.), Fin or finback whale (Balaenoptera physalus), Sei whale (Balaenoptera borealis), Sperm whale (Physeter catodon); Cochito (Phocoena sinus), Chinese river dolphin (Lipotes vexillifer); Indus River dolphin (Platanista minor); Caribbean monk seal (Monachus tropicalis) Hawaiian monk seal (Monachus schauinslandi); Mediterranean monk seal (Monachus monachus); Saimaa seal (Phoca hispida saimensis); Steller sea lion (Eumetopias jubatus), western population, which consists of Steller sea lions from breeding colonies located west of 144° W. long.; Leatherback sea turtle (Dermochelys coriacea), Pacific hawksbill sea turtle (Eretmochelys imbricata bissa), Atlantic hawksbill sea turtle (Eretmochelys imbricata imbricata), Atlantic ridley sea turtle (Lepidochelys kempii). Green sea turtle (Chelonia mydas) breeding colony populations in Florida and on the Pacific coast of Mexico, and the olive ridley sea turtle (Lepidochelys olivacea) breeding colony population on the Pacific coast of Mexico. Of these, the National Marine Fisheries Service has sole agency jurisdiction for sea turtles while the turtles are in the water and the U.S. Fish and Wildlife Service has jurisdiction for sea turtles while the turtles are on land. Within the jurisdiction of a State, more restrictive State laws or regulations in regard to endangered species shall prevail in regard to taking. Proof of compliance with applicable State laws will be required before a permit will be issued.

(b) Application procedures. To obtain such a permit, an application must be made to the Director in accordance with this subpart, except for marine mammal permits which shall be issued in accordance with the provisions of part 216, subpart D of this chapter, and sea turtle permits which shall be issued in accordance with part 220, subpart E of this chapter. The sufficiency of the application shall be determined by the Director in accordance with the requirements of this part and, in that connection, he may waive any requirement for information, or require any elaboration or further information deemed necessary. The following information will be used as the basis for determining whether an application is complete and whether a permit for scientific purposes or to enhance the propagation or survival of the affected endangered species should be issued by the Director. An original and four copies of the completed application shall be submitted to the Director, National Marine Fisheries Service, National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce, Washington, DC 20235. Assistance may be obtained by writing the Director or calling the Marine Mammal and Endangered Species Division in Washington, DC (202-634-9415) effective December 2, 1974, it will become 202-634-7529. At least 45 days should be allowed for processing. An application for a permit shall provide the following information (when the information requested is not applicable put “N.A.”) and such other information that the Director may require:

1. Title: As applicable, either:
§ 222.23

(i) Application for Permit for Scientific Purposes under the Endangered Species Act of 1973; or

(2) The date of the application.

(3) The identity of the applicant including complete name, address, and telephone number. If the applicant is a partnership or a corporate entity set forth the details. If the endangered species is to be utilized by a person other than the Applicant, set forth the name of that person and such other information as would be required if such person were an Applicant.

(4) A description of the purpose of the proposed acts, including:

(i) A detailed justification of the need for the endangered species, including a discussion of possible alternatives, whether or not under the control of the applicant; and

(ii) A detailed description of how the species will be used.

(5) A detailed description of the project, or program, in which the endangered species is to be used, including:

(i) The period of time over which the project or program will be conducted;

(ii) The names and addresses of the sponsors or cooperating institutions and the scientists involved;

(iii) A copy of the formal research proposal or contract if one has been prepared;

(iv) A statement of whether the proposed project or program has broader significance than the individual researcher’s goals (i.e., does the proposed project or program respond directly or indirectly to recommendation of any national or international scientific body charged with research or management of the endangered species, and, if so, how?); and

(v) A description of the arrangements, if any, for the disposition of any dead specimen or its skeleton or other remains, for the continued benefit to science, in a museum or other institutional collection.

(6) A description of the endangered species which is the subject of the application, including the following:

(i) A list of each species and the number of each, including the common and scientific name; the subspecies (if applicable); population group, and range;

(ii) A physical description of each animal, including the age, size, and sex;

(iii) A list of the probable dates of capture or other taking, importation, exportation, and other acts which require a permit, for each animal, and the location of capture or other taking, importation, exportation, and other acts which require a permit, as specifically as possible;

(iv) A description of the status of the stock of each species related insofar as possible to the location or area of taking;

(v) A description of the manner of taking for each animal, including the gear to be used;

(vi) The name and qualifications of the persons or entity which will capture or otherwise take the animals;

(vii) If the capture or other taking is to be done by a contractor, a statement as to whether a qualified member of your staff (include name(s) and qualifications) will supervise or observe the capture or other taking. Accompany such statement with a copy of the proposed contract or a letter from the contractor indicating agreement to capture or otherwise taken the animals, should a permit be granted;

(7) A description of the manner of transportation of any live animal taken, imported, exported, or shipped in interstate commerce, including:

(i) Mode of transportation;

(ii) Name of transportation company;

(iii) Length of time in transit for the transfer of the animal(s) from the capture site to the holding facility;

(iv) Length of time in transit for any future move or transfer of the animal(s) that is planned;

(v) The qualifications of the common carrier or agent used for transportation of the animals;

(vi) A description of the pen, tank, container, cage, cradle, or other devices used, both to hold the animal at the capture site and during transportation;

(vii) Special care before and during transportation, such as salves, antibiotics, moisture; and
(viii) A statement as to whether the animals will be accompanied by a veterinarian or other similarly qualified person, and the qualifications of such person.

(8) Describe the contemplated care and maintenance of any live animals sought, including a complete description of the facilities where any such animals will be maintained including:

(i) The dimensions of the pools or other holding facilities and the number, sex, and age of animals by species to be held in each;

(ii) The water supply, amount, and quality;

(iii) The diet, amount and type, for all animals;

(iv) Sanitation practices used;

(v) Qualifications and experience of the staff; and

(vi) A written certification from a licensed veterinarian knowledgeable about the species (or related species) or group which is the subject of the application, or from a recognized expert on the species (or related species) or group covered in the application that he has personally reviewed the amendments for transporting and maintaining the animal(s) and that in his opinion they are adequate to provide for the well-being of the animal; and

(vii) The availability in the future of a consulting expert or veterinarian meeting paragraph (b)(8)(vi) requirements of this section;

(9) A statement of willingness to participate in a cooperative breeding program and maintain or contribute data to a stud book.

(10) A statement of how the applicant’s proposed project or program will enhance or benefit the wild population.

(11) For the 5 years preceding the date of this application, provide a detailed description of all mortalities involving species which were under the control of or utilized by the applicant and are either presently listed as endangered species or are taxonomically related within the Order to the species which is the subject of this application, including:

(i) A list of all endangered species and species related to the species which is the subject of this application; captured, transported, maintained, or utilized by the applicant for scientific purposes or to enhance the propagation or survival of the affected species, and/or for all such species caused to be captured, transported, maintained, or utilized for scientific purposes or to enhance the propagation or survival of the affected species, by the Applicant;

(ii) The numbers of mortalities among such animals by species, by date, location of capture, i.e., from which population, and location of such mortalities;

(iii) The cause(s) of any such mortalities; and

(iv) The steps which have been taken by Applicant to avoid or decrease any such mortalities.

(12) A certification in the following language:

I hereby certify that the foregoing information is complete, true and correct to the best of my knowledge and belief. I understand that this information is submitted for the purpose of obtaining a permit under the Endangered Species Act of 1973 (87 Stat. 864, Pub. L. 93-205, 16 U.S.C. 1531 et seq.) and regulations promulgated thereunder, and that any false statement may subject me to the criminal penalties of 18 U.S.C. 1001, or to penalties under the Endangered Species Act of 1973.

(13) The applicant and/or an officer thereof must sign the application.

(c) Issuance criteria. The Director shall specifically consider, among other criteria, the following in determining whether to issue a permit for scientific purposes or to enhance the propagation or survival of the affected endangered species:

(1) Whether the permit was applied for in good faith;

(2) Whether the permit if granted and exercised will not operate to the disadvantage of the endangered species;

(3) Whether the permit would be consistent with the purposes and policy set forth in section 2 of the Act;

(4) Whether the permit would further a bona fide and necessary or desirable scientific purpose or enhance the propagation or survival of the endangered species, taking into account the benefits anticipated to be derived on behalf of the endangered species;

(5) The status of the population of the requested species, and the effect of the proposed action on the population, both direct and indirect;
§ 222.24

(6) If a live animal is to be taken, transported, or held in captivity—the applicant's qualifications for the proper care and maintenance of the species and the adequacy of his facilities;

(7) Whether alternative non-endangered species or population stocks can and should be used;

(8) Whether the animal was born in captivity or was (or will be) taken from the wild;

(9) Provision for disposition of the species if and when the applicant's project or program terminates;

(10) How the applicant's needs, program, and facilities compare and relate to proposed and ongoing projects and programs;

(11) Whether the expertise, facilities, or other resources available to the applicant appear adequate to successfully accomplish the objectives stated in the application;

(12) Opinions or views of scientists or other persons or organizations knowledgeable of the species which is the subject of the application or of other matters germane to the application; and

(d) Permits applied for under this section shall contain terms and conditions as the Director may deem appropriate, including:

(1) The number and kind of species which are covered;

(2) The location and manner of taking;

(3) Port of entry or export;

(4) The methods of transportation, care and maintenance to be used with live species;

(5) Any requirements for reports or rights of inspections with respect to any activities carried out pursuant to the permit;

(6) The transferability or assignability of the permit;

(7) The sale or other disposition of the species, its progeny or the species product;

(8) A reasonable fee covering the costs of issuance of such permit, including reasonable inspections and an appropriate apportionment of overhead and administrative expenses of the Department of Commerce. All such fees will be deposited in the Treasury to the credit of the appropriation which is current and chargeable for the cost of furnishing the service.

[39 FR 41375, Nov. 27, 1974]

EDITORIAL NOTE: For Federal Register citations affecting §222.23, see the List of CFR Sections Affected in the Finding Aids section of this volume.

§ 222.24 Procedures for issuance of permits.

(a) Whenever application for a permit is received by the Director which the Director deems sufficient, he shall, as soon as practicable, publish a notice thereof in the Federal Register. Information received by the Director as a part of the application shall be available to the public as a matter of public record at every stage of the proceeding. An interested party may within 30 days after the date of publication of such notice, submit to the Director his written data, views, or arguments with respect to the taking, importation, or other action proposed in the application and may request a hearing in connection with the action to be taken thereon.

(b) If a request for a hearing is made within the 30-day period referred to in paragraph (a) of this section, or if the Director determines that a hearing would otherwise be advisable, the Director may, within 60 days after the date of publication of the notice referred to in paragraph (a) of this section, afford to such requesting party or parties an opportunity for a hearing. Such hearing shall also be open to participation by any interested members of the public. Notice of the date, time, and place of such hearing shall be published in the Federal Register not less than 15 days in advance of such hearing. Any interested person may appear in person or through representatives at the hearing and may submit any relevant material, data, views, comments, arguments, or exhibits. A summary record of the hearing shall be kept.

(c) Except as provided in subpart D of 15 CFR part 904, as soon as practicable but not later than 30 days after the close of the hearing (or if no hearing is held, as soon as practicable after the end of the 30 days succeeding publication of the notice referred to in paragraph (a) of this section) the Director
National Marine Fisheries Service/NOAA, Commerce

shall issue or deny issuance of the permit. Notice of the decision of the Director shall be published in the Federal Register within 10 days after the date of the issuance or denial and indicate where copies of the permit, if issued, may be obtained.

(d) If a permit is issued, the Director shall publish notice thereof in the Federal Register, including his finding that (1) such permit was applied for in good faith, (2) if granted and exercised will not operate to the disadvantage of such endangered species, and (3) will be consistent with the purposes and policy set forth in section 2 of the Endangered Species Act of 1973. The requirements of this paragraph pertain solely to the permits issued under §222.23.

(e) The Director may waive the thirty-day period in an emergency situation where the health or life of an endangered animal is threatened and no reasonable alternative is available to the applicant, but notice of any such waiver shall be published by the Director in the Federal Register within ten days following the issuance of the certificate of exemption or permit.

§222.25 Applications for modification of permit by permittee.

Where circumstances have changed so that an applicant or permittee desires to have any term or condition of his application or permit modified, he must submit in writing full justification and supporting information in conformance with the provisions of this part and the part under which the permit has been issued or requested. Such applications for modification are subject to the same issuance criteria as are original applications, as provided in §§222.22(c) and 222.23(c).

§222.26 Amendment of permits by NMFS.

All permits are issued subject to the condition that the National Marine Fisheries Service reserves the right to amend the provisions of a permit for just cause at any time during its term. Such amendments take effect on the date of notification, unless otherwise specified.

§222.27 Procedures for suspension, revocation, or modification of permits.

Any violation of the applicable provisions of parts 217 through 222 of this chapter, or of the Act, or of a condition of the permit may subject the certificate holder to the following:

(a) The penalties provided in the Act; and

(b) Suspension, revocation, or modification of the permit, as provided in subpart D of 15 CFR part 904.

§222.28 Possession of permits.

(a) Any permit issued under these regulations must be in the possession of the person to whom it is issued (or an agent of such person) during:

(1) The time of the authorized taking, importation, exportation, or other act;

(2) The period of any transit of such person or agent which is incident to such taking, importation, exportation, or other act; and

(3) Any other time while any animal under such permit is in the possession of such person or agent.

(b) A duplicate copy of the issued permit must be physically attached to the tank, container, package, enclosure, or other means of containment, in which the animal is placed for purposes of storage, transit, supervision, or care.

§222.31 Approaching humpback whales in Hawaii.

Except as provided in subpart C (Endangered Fish or Wildlife Permits) of this part it is unlawful for any person subject to the jurisdiction of the United States to commit, to attempt to commit, to solicit another to commit, or to cause to be committed, within 200 nautical miles (370.4 km) of the Islands of Hawaii, any of the following acts with respect to humpback whales (Megaptera novaeangliae):
§ 222.32 Approaching North Atlantic right whales.

(a) Prohibitions. Except as provided under paragraph (c) of this section, it is unlawful for any person subject to the jurisdiction of the United States to commit, attempt to commit, to solicit another to commit, or cause to be committed any of the following acts:

1. Approach (including by interception) within 500 yards (460 m) of a right whale by vessel, aircraft, or any other means;

2. Fail to undertake required right whale avoidance measures specified under paragraph (b) of this section.

(b) Right whale avoidance measures. Except as provided under paragraph (c) of this section, the following avoidance measures must be taken if within 500 yards (460 m) of a right whale:

1. If underway, a vessel must steer a course away from the right whale and immediately leave the area at a slow safe speed;

2. An aircraft must take a course away from the right whale and immediately leave the area at a constant airspeed.

(c) Exceptions. The following exceptions apply to this section, but any person who claims the applicability of an exception has the burden of proving that the exception is applicable:

1. Paragraphs (a) and (b) of this section do not apply if a right whale approach is authorized by NMFS through a permit issued under subpart C (Endangered Fish or Wildlife Permits) of this part or through a similar authorization.

2. Paragraphs (a) and (b) of this section do not apply where compliance would create an imminent and serious threat to a person, vessel, or aircraft.

3. Paragraphs (a) and (b) of this section do not apply when approaching to investigate a right whale entanglement or injury, or to assist in the disentanglement or rescue of a right whale, provided that permission is received from NMFS or a NMFS designee prior to the approach.

4. Paragraphs (a) and (b) of this section do not apply to an aircraft unless the aircraft is conducting whale watch activities or is being operated for that purpose.

5. Paragraph (b) of this section does not apply to the extent that a vessel is restricted in her ability to maneuver, and because of the restriction, cannot comply with paragraph (b) of this section.

to civil penalties under the Act for incidental captures of endangered sea turtles by shrimp trawl gear.

§ 222.42 Special prohibitions relating to leatherback sea turtles.

Special prohibitions relating to leatherback sea turtles are provided at § 227.72(e)(2)(iv) of this chapter.

[60 FR 25623, May 12, 1995]

PART 225—FEDERAL/STATE CO-OPERATION IN THE CONSERVATION OF ENDANGERED AND THREATENED SPECIES

Sec.
225.1 Purpose of regulations.
225.2 Scope of regulations.
225.3 Definitions.
225.4 Cooperation with the States.
225.5 Cooperative agreement.
225.6 Allocation of funds.
225.7 Financial assistance.
225.8 Availability of funds.
225.9 Payments.
225.10 Assurances.
225.11 Submission of documents.
225.12 Project evaluation.
225.13 Contracts.
225.14 Inspection.

SOURCE: 41 FR 24354, June 16, 1976, unless otherwise noted.

§ 225.1 Purpose of regulations.

§ 225.2 Scope of regulations.

This part applies to endangered and threatened species under the jurisdiction of the Department of Commerce (see 50 CFR 222.23(a)).

§ 225.3 Definitions.

In addition to the definitions contained in the Act, and unless the context otherwise requires, in this part 225:

(b) Agreements mean signed documented statements of the actions to be taken by the State(s) and the Director in furthering certain purposes of the Act. They include:

(1) A Cooperative Agreement entered into pursuant to section 6(c) of the Act and, where appropriate, containing provisions found in section 6(d)(2) of the Act.

(2) A Grant-In-Aid Award which includes a statement of the actions to be taken in connection with the conservation of endangered or threatened species receiving Federal financial assistance, objectives and costs of such actions, and costs to be borne by the Federal Government and by the State(s).

(c) Application for Federal Assistance means a description of work to be accomplished, including objectives and needs, expected results and benefits, approach, cost, location and time required for completion.

(d) Director means the Director of the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, or his authorized designee.

(e) Program means a State-developed plan for the conservation and management of all resident species which are deemed by the Secretary to be endangered or threatened and those which are deemed by the State to be endangered or threatened, which includes goals, priorities, strategies, actions, and funding necessary to accomplish the objectives on an individual species basis.

(f) Project means a substantial undertaking to conserve the various endangered or threatened species.

(g) Project segment means an essential part or a division of a project, usually separated as a period of time, occasionally as a unit of work.

(h) Resident species means, for purposes of these regulations, with respect to a State, a species which exists in the wild in that State during any part of its life.

(i) Secretary means the Secretary of Commerce or his authorized designee.
§ 225.4 Cooperation with the States.

The Director shall cooperate with any State which establishes and maintains an adequate and active program for the conservation of endangered and threatened species. In order for a State program to be deemed an adequate and active program, the Director must find and reconfirm, on an annual basis, that:

(a) Authority resides in a State agency to conserve resident species determined by the State agency or the Director to be endangered or threatened;
(b) The State agency has established an acceptable conservation program, consistent with the purposes and policies of the Act, for all resident species in the State which are deemed by the Director to be endangered or threatened; and has furnished a copy of such program together with all pertinent details, information and data requested to the Director;
(c) The State agency is authorized to conduct investigations to determine the status and requirements for survival of resident species;
(d) The State agency is authorized to establish programs, including the acquisition of land or aquatic habitat or interests therein, for the conservation of resident endangered or threatened species; and
(e) Provisions are made for public participation in designating resident species as endangered or threatened.

§ 225.5 Cooperative agreement.

Following receipt of an application by a State for a Cooperative Agreement and a determination by the Director that the State program for endangered and threatened species is adequate and active, the Director shall enter into an Agreement with the State. A Cooperative Agreement is necessary before a Grant-In-Aid Award can be approved for endangered or threatened species projects. The Cooperative Agreement must be reconfirmed annually to insure that it reflects new laws, species lists, rules or regulations, and programs, and to demonstrate that the program is still active and adequate. In order for a State to receive financial assistance, such Cooperative Agreement must also contain:

(a) The actions that are to be taken by the Director and the State;
(b) The benefits that are expected to be derived in connection with the conservation of endangered or threatened species; and
(c) The estimated cost of these actions.

§ 225.6 Allocation of funds.

The Director shall allocate funds, appropriated for the purpose of carrying out section 6 of the Act, to various States using the following as the basis for his determination:

(a) The international commitments of the United States to protect endangered or threatened species;
(b) The readiness of a State to proceed with a conservation program consistent with the objectives and purposes of the Act;
(c) The number of federally listed endangered and threatened species within a State; and
(d) The potential for restoring endangered and threatened species within a State; and
(e) The relative urgency to initiate a program to restore and protect an endangered or threatened species in terms of survival of the species.

§ 225.7 Financial assistance.

(a) Before any Federal funds may be obligated for any project to be undertaken in a State, the State must have entered into a Cooperative Agreement. Subsequent to such agreement, the Director may further agree with a State(s) to provide financial assistance in the development and implementation of acceptable projects for the conservation of endangered and threatened species. Documents to provide financial assistance will consist of an Application for Federal Assistance and a Grant-In-Aid Award. The availability of Federal funds under a Grant-In-Aid Award shall be contingent upon the continued existence of the Cooperative Agreement.

(b) To meet the requirements of the Act, the Application for Federal Assistance shall certify that the State agency submitting the project is committed to its execution and that it has been reviewed by the appropriate State officials and is in compliance with other
requirements of the Office of Management and Budget Circular No. A-95 (as revised and published in the Federal Register on January 13, 1976 (41 FR 2052)).

(c) The mutual obligations by the cooperating agencies will be set forth in a Grant-In-Aid Award executed between the State and the Director. The Grant-In-Aid Award shall cover the proposed financing and the work items described in the documents supporting it. The form and content for both the Application for Federal Assistance and the Grant-In-Aid Award are provided in the Federal Aid Handbook No. 22.

§ 225.8 Availability of funds.

Funds allocated to a State are available for obligation during the fiscal year for which they are allocated and until the close of the succeeding fiscal year. For the purpose of this section, obligation of allocated funds occurs when a Grant-In-Aid Award is signed by the Director.

§ 225.9 Payments.

The payment of the Federal share of costs incurred in the conduct of activities included under a Grant-In-Aid Award shall be in accordance with the Treasury Circular 1075.

(a) Federal payments under the Act shall not exceed 75 percent of the program costs as stated in the agreement; except, the Federal share may be increased to 90 percent when two or more States having a common interest in one or more endangered or threatened resident species, the conservation of which may be enhanced by cooperation of such States, jointly enter into an agreement with the Director.

(b) The State share of program costs may be in the form of cash or in-kind contributions, including real property, subject to standards established by the Director as provided in Federal Management Circular 74-7.

(c) Payments of funds, including payment of such preliminary costs and expenses as may be incurred in connection with projects, shall not be made unless all documents that may be necessary or required in the administration of the Act shall have first been submitted to and approved by the Director. Payments shall be made for expenditures reported and certified by the State agency. Payments shall be made only to the State office or official designated by the State agency and authorized under the laws of the State to receive public funds for the State.

(d) Vouchers and forms provided by the Director and certified as therein prescribed, showing amounts expended and the amount of Federal Aid funds claimed to be due on account thereof, shall be submitted to the Director by the State agency.

[41 FR 24354, June 16, 1976, as amended at 49 FR 30074, July 26, 1984]

§ 225.10 Assurances.

A State shall certify that it will comply with all applicable Federal laws, regulations, and requirements as they relate to the application, acceptance, and use of Federal funds for projects under the Act in accordance with Federal Management Circular 74-7.

§ 225.11 Submission of documents.

Documents required by section 6 of the Act or by these regulations shall be addressed to the Director, National Marine Fisheries Service, Washington, DC 20235.

§ 225.12 Project evaluation.

Any difference of opinion about a proposed project or appraised value of land to be acquired or any other related matter will be considered by qualified representatives of the Director and the State. Final determination in the event of continued disagreement rests with the Director.

§ 225.13 Contracts.

The State may use its own regulations in obtaining services provided they adhere to Federal laws and the requirements set forth in Federal Management Circular 74-7. The State is the responsible authority without recourse to the Director regarding settlement of contractual issues.

§ 225.14 Inspection.

Supervision of each project by the State shall include adequate and continuous inspection. The project will be subject to periodic Federal inspection.
Subpart A—Introduction

§ 226.1 Purpose of regulations.

The regulations contained in this part identify those habitats designated as critical under section 7 of the Endangered Species Act, as amended, by the Assistant Administrator for Fisheries, National Oceanic and Atmospheric Administration, for those endangered and threatened species under the jurisdiction of the Secretary of Commerce. The list of these species is found in 50 CFR 222.23(a) for endangered species and 50 CFR 227.4 for threatened species.

§ 226.2 Scope of regulations.

(a) The critical habitat designations contained in this part apply only to the endangered and threatened species listed in this part.

(b) Regulations implementing section 7 of the Endangered Species Act, as amended, are found in 50 CFR part 402.

(c) The provisions in this part are in addition to, and not in lieu of other regulations of parts 217 through 227 and 402 of this chapter.

Subpart B—Critical Habitat for Marine Mammals

§ 226.11 Northwestern Hawaiian Islands.

All beach areas, sand spits and islets, including all beach crest vegetation to its deepest extent inland, lagoon waters, inner reef waters, and ocean waters out to a depth of 20 fathoms around the following:

- Kure Atoll (28°24' N, 178°20' W)
- Midway Islands, except Sand Island and its harbor (28°14' N, 177°22' W)
- Pearl and Hermes Reef (27°55' N, 175° W)
- Lisianski Island (26°46' N, 173°58' W)
- Laysan Island (25°46' N, 171°44' W)
- Maro Reef (25°25' N, 170°36' W)
- Gardner Pinnacles (25°00' N, 168°00' W)
- French Frigate Shoals (23°45' N, 166°00' W)
- Necker Island (23°34' N, 164°42' W)
- Nihoa Island (23°03.5' N, 161°35.5' W).

Source: 44 FR 17711, Mar. 23, 1979, unless otherwise noted.
NIHOA ISLAND

(from NOS chart 19016)

[53 FR 18990, May 26, 1988]
§ 226.12 North Pacific Ocean.

Steller Sea Lion (Eumetopias jubatus)

(a) Alaska rookeries, haulouts, and associated areas. In Alaska, all major Steller sea lion rookeries identified in Table 1 and major haulouts identified in Table 2 and associated terrestrial, air, and aquatic zones. Critical habitat includes a terrestrial zone that extends 3,000 feet (0.9 km) landward from the baseline or base point of each major rookery and major haulout in Alaska. Critical habitat includes an air zone that extends 20 nm (37 km) above the terrestrial zone of each major rookery and major haulout in Alaska. Measured vertically from sea level. Critical habitat includes an aquatic zone that extends 3,000 feet (0.9 km) above areas historically occupied by sea lions at each major rookery in California and Oregon, measured vertically from sea level. Critical habitat includes an aquatic zone that extends 3,000 feet (0.9 km) seaward in State and Federally managed waters from the baseline or basepoint of each major rookery and major haulout in Alaska that is west of 144° W. longitude.

(b) California and Oregon rookeries and associated areas. In California and Oregon, all major Steller sea lion rookeries identified in Table 1 and associated air and aquatic zones. Critical habitat includes an air zone that extends 3,000 feet (0.9 km) above areas historically occupied by sea lions at each major rookery in California and Oregon, measured vertically from sea level. Critical habitat includes an aquatic zone that extends 3,000 feet (0.9 km) seaward in State and Federally managed waters from the baseline or basepoint of each major rookery in California and Oregon.

(c) Three special aquatic foraging areas in Alaska. Three special aquatic foraging areas in Alaska, including the Shelikof Strait area, the Bogoslof area, and the Seguam Pass area.

(1) Critical habitat includes the Shelikof Strait area in the Gulf of Alaska which is identified in Figure 2 and consists of the area between the Alaska Peninsula and Tugidak, Sitkinak, Aliaktlilik, Kodiak, Raspberry, Afognak and Shuyak Islands (connected by the shortest lines); bounded on the west by a line connecting Cape Kumlik (56°38'157°27'W) and the southwestern tip of Tugidak Island (56°24'N/154°41'W) and bounded in the east by a line connecting Cape Douglas (58°51'N/153°15'W) and the northernmost tip of Shuyak Island (58°37'N/152°22'W).

(2) Critical habitat includes the Bogoslof area in the Bering Sea shelf which is identified in Figure 3 and consists of the area between 170°00'W and 164°00'W, south of straight lines connecting 55°00'N/170°00'W and 55°00'C/168°00'W; 55°30'N/168°00'W and 55°30'C/166°00'W; 56°00'N/166°00'W and 56°00'C/164°00'W and north of the Aleutian Islands and straight lines between the islands connecting the following coordinates in the order listed:

(3) Critical habitat includes the Seguam Pass area which is identified in Figure 4 and consists of the area between 52°00'N and 53°00'N and between 173°30'W and 172°30'W.

Northern Right Whale (Eubalaena glacialis)

(a) Great South Channel. The area bounded by 41°40' N/69°45' W; 41°00' N/69°05' W; 41°38' N/68°13' W; and 42°10' N/69°31' W (Figure 6 to part 226).

(b) Cape Cod Bay, Massachusetts. The area bounded by 42°04.8' N/70°10' W; 42°12' N/70°15' W; 42°12' N/70°30' W; 41°46.8' N/70°30' W and on the south and east by the interior shore line of Cape Cod, Massachusetts (Figure 7 to part 226).

(c) Southeastern United States. The coastal waters between 31°15' N and 30°15' N from the coast out 15 nautical miles; and the coastal waters between 30°15' N and 28°00' N from the coast out 5 nautical miles (Figure 8 to part 226).

[58 FR 45278, Aug. 27, 1993]

[59 FR 28805, June 3, 1994]
§ 226.21 Sacramento River winter-run chinook salmon (Oncorhynchus tshawytscha).
The following waterways, bottom and water of the waterways and adjacent riparian zones: The Sacramento River from Keswick Dam, Shasta County (River Mile 302) to Chippis Island (River Mile 0) at the westward margin of the Sacramento-San Joaquin Delta, all waters from Chippis Island westward to Carquinez Bridge, including Honker Bay, Grizzly Bay, Suisun Bay, and Carquinez Strait, all waters of San Pablo Bay westward of the Carquinez Bridge, and all waters of San Francisco Bay (north of the San Francisco-Oakland Bay Bridge) from San Pablo Bay to the Golden Gate Bridge.

§ 226.22 Snake River sockeye salmon (Oncorhynchus nerka), Snake River spring/summer chinook salmon (Oncorhynchus tshawytscha), Snake River fall chinook salmon (Oncorhynchus tshawytscha).
The following areas consisting of the water, waterway bottom, and adjacent riparian zone of specified lakes and river reaches in hydrologic units presently or historically accessible to listed Snake River salmon (except reaches above impassable natural falls, and Dworshak and Hells Canyon Dams). Adjacent riparian zones are defined as those areas within a horizontal distance of 300 feet (91.4 m) from the normal line of high water of a stream channel (600 feet or 182.8 m, when both sides of the stream channel are included) or from the shoreline of a standing body of water. Figure 5 identifies the general geographic extent of larger rivers, lakes, and streams within hydrologic units designated as critical habitat for Snake River sockeye, spring/summer chinook, and fall chinook salmon. Note that Figure 5 does not constitute the definition of critical habitat, but instead is provided as a general reference to guide Federal agencies and interested parties in locating the general boundaries of critical habitat for listed Snake River salmon. The complete text delineating critical habitat for each species follows. Hydrologic units (table 3) are those defined by the Department of the Interior (DOI), U.S. Geological Survey (USGS) publication, “Hydrologic Unit Maps, United States Geological Survey Water Supply Paper 2294, 1987”, and the following DOI, USGS, 1:500,000 scale hydrologic unit map: State of Oregon, 1974; State of Washington, 1974; State of Idaho, 1974, which are incorporated by reference. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies of the USGS publication and maps may be obtained from the USGS, Map Sales, Box 25286, Denver, CO 80225. Copies may be inspected at NMFS, Endangered Species Branch, Environmental and Technical Services Division, 911 NE, 11th Avenue, room 620, Portland, OR 97232, NMFS, Office of Protected Resources, 1335 East-West Highway, Silver Spring, MD 20910, or at the Office of the Federal Register, 800 North Capitol Street, NW., Suite 700, Washington, DC.
§ 226.23 Lower Snake-Tucannon, Middle Salmon-Chamberlain, Middle Salmon-Panther, and Upper Salmon. Critical habitat borders on or passes through the following counties in Oregon: Clatsop, Columbia, Gillium, Hood River, Morrow, Multnomah, Sherman, Umatilla, Wallowa, Wasco; the following counties in Washington: Aosin, Benton, Clark, Columbia, Cowlitz, Franklin, Garfield, Klickitat, Pacific, Skamania, Wahkiakum, Walla, Whitman; and the following counties in Idaho: Blaine, Custer, Idaho, Lemhi, Lewis, Nez Perce.

(b) Snake River Spring/Summer Chinook Salmon (Oncorhynchus tshawytscha). The Columbia River from a straight line connecting the west end of the Clatsop jetty (south jetty, Oregon side) and the west end of the Peacock jetty (north jetty, Washington side) and including all Columbia River estuarine areas and river reaches proceeding upstream to the confluence of the Columbia and Snake Rivers; the Snake River, all river reaches from the confluence of the Columbia River, upstream to Hells Canyon Dam; the Palouse River from its confluence with the Snake River upstream to Palouse Falls; the Clearwater River from its confluence with the Snake River upstream to its confluence with Lolo Creek; the North Fork Clearwater River from its confluence with the Clearwater River upstream to Dworshak Dam. Critical habitat also includes river reaches presently or historically accessible (except reaches above impassable natural falls, and Dworshak and Hells Canyon Dams) to Snake River spring/summer chinook salmon in the following hydrologic units: Hells Canyon, Imnaha, Lower Grande Ronde, Lower North Fork Clearwater, Lower Salmon, Lower Snake, Lower Snake-Asotin, Lower Snake-Tucannon, and Palouse. Critical habitat borders on or passes through the following counties in Oregon: Baker, Clatsop, Columbia, Gillium, Hood River, Morrow, Multnomah, Sherman, Umatilla, Wallowa, Wasco; the following counties in Washington: Adams, Aosin, Benton, Clark, Columbia, Cowlitz, Franklin, Garfield, Klickitat, Lincoln, Pacific, Skamania, Spokane, Wahkiakum, Walla, Whitman; and the following counties in Idaho: Adams, Benewah, Clearwater, Idaho, Latah, Lewis, Nez Perce, Shoshone, Valley.

§ 226.23 Umpqua River cutthroat trout (Oncorhynchus clarki clarki).

(a) The following areas consisting of the water, waterway bottom, and adjacent riparian zone of specified lakes and river reaches in hydrologic units presently accessible to listed Umpqua River cutthroat trout. Adjacent riparian zones are defined as those areas within a slope distance of 300 ft. (91.4 m) from the normal line of high water of a stream channel (600 ft or 182.8 m,
when both sides of the stream channel are included) or from the shoreline of a standing body of water. Figure 9 to this part identifies the general geographic extent of larger rivers, lakes, and streams within hydrologic units designated as critical habitat for Umpqua River cutthroat trout. Note that Figure 9 does not constitute the definition of critical habitat but, instead, is provided as a general reference to guide Federal agencies and interested parties in locating the general boundaries of critical habitat for listed Umpqua River cutthroat trout. The complete text delineating the critical habitat for the species follows. Hydrologic units are those defined by the Department of the Interior (DOI), U.S. Geological Survey (USGS) publication, "Hydrologic Unit Maps, Water Supply Paper 2294, 1986, and the following DOI, USGS, 1:500,000 scale hydrologic unit map: State of Oregon (1974) which is incorporated by reference. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies of the USGS publication and maps may be obtained from the USGS, Map Sales, Box 25286, Denver, CO 80225. Copies may be inspected during normal business hours at NMFS, Protected Resources Division, 525 NE Oregon St., Suite 500, Portland, OR 97232-2737, telephone (503/230-5422).

§ 226.71 Sandy Point, St. Croix, U.S. Virgin Islands.

LEATHERBACK SEA TURTLE (DERMOCHELYS CORIACEA)

The waters adjacent to Sandy Point, St. Croix, U.S. Virgin Islands, up to and inclusive of the waters from the hundred fathom curve shoreward to the level of mean high tide with boundaries at 17°42'12" North and 64°50'00" West.

§ 226.72 Green Sea Turtle (Chelonia mydas).

(a) Culebra Island, Puerto Rico—Waters surrounding the island of Culebra from the mean high water line seaward to 3 nautical miles (5.6 km). These waters include Culebra's outlying Keys including Cayo Norte, Cayo Ballena, Cayos Geniqui, Isla Culebrita, Arrecife Culebrita, Cayo de Luis Peña, Las Hermanas, El Mono, Cayo Lobo, Cayo Lobito, Cayo Botijuela, Alcarraza, Los Gemelos, and Piedra Steven.

(b) [Reserved]

[63 FR 46701, Sept. 2, 1998]

Effective Date Note: At 63 FR 46701, Sept. 2, 1998, §226.72 was added, effective Oct. 2, 1998.
§ 226.73 Hawksbill Sea Turtle (Eretmochelys imbricata).
(a) Mona and Monito Islands, Puerto Rico—Waters surrounding the islands of Mona and Monito, from the mean high water line seaward to 3 nautical miles (5.6 km).

(b) [Reserved].

[63 FR 46701, Sept. 2, 1998]

Major Steller sea lion rookery sites are identified in the following table. Where two sets of coordinates are given, the baseline extends in a clockwise direction from the first set of geographic coordinates along the shoreline at mean lower-low water to the second set of coordinates. Where only one set of coordinates is listed, that location is the base point.

[59 FR 28805, June 3, 1994]
PART 227—THREATENED SPECIES

Subpart A—General Provisions

§ 227.1 Purpose.

The regulations contained in this part identify the species, subspecies, or any other group of fish and wildlife of the same species or smaller taxa in common spatial arrangement that interbreed when mature, under the jurisdiction of the Secretary of Commerce which have been determined to be threatened species under the Endangered Species Act of 1973 and provide for the conservation of such species by establishing rules and procedures to govern activities involving the species.

§ 227.2 Scope.

(a) The regulations contained in this part apply only to the threatened species enumerated in §227.4.

(b) The provision of this part are in addition to, and not in lieu of other regulations of parts 217 through 222 and part 225 of this chapter II which prescribe additional restrictions or conditions governing threatened species.

(c) Certain of the threatened fish or wildlife listed in 50 CFR 17.11 and enumerated in 50 CFR 227.4 are included in Appendix I or II to the Convention on International Trade in Endangered Species of Wild Fauna and Flora. The importation, exportation, and reexportation of such species are subject to additional regulations provided in part 23, chapter I (title 50).

§ 227.3 Definitions.

In addition to the definitions contained in the Act, and in parts 217 and 225 of this chapter, and unless the context otherwise requires, in this part 227:

(a) Act means the Endangered Species Act of 1973, as amended, 16 U.S.C. 1531 through 1547;

(b) Assistant Administrator means the Assistant Administrator for Fisheries, National Oceanic and Atmospheric Administration, Department of Commerce, or his authorized delegate. The Assistant Administrator for Fisheries is in charge of the National Marine Fisheries Service;
§ 227.4

(c) Ongoing project(s) means an activity for scientific purposes or to enhance the propagation or survival of such species which are not conducted in the course of a commercial activity initiated before the listing of the affected species;

(d) Plastron means the ventral part of the shell of a sea turtle consisting typically of nine symmetrically placed bones overlaid by horny plates; and

(e) Sea turtle(s) means those sea turtle species enumerated in §227.4 and any part(s), product(s), egg(s) or offspring thereof, or the dead body or part(s) thereof.

§ 227.4 Enumeration of threatened species.

The species listed as threatened under the Act which are under the jurisdiction of the Secretary of Commerce are:

(a) Green sea turtle (Chelonia mydas) except for those populations listed under 50 CFR 222.23(a).1

(b) Loggerhead sea turtle (Caretta caretta).1

(c) Pacific ridley sea turtle (Lepidochelys olivacea) except for those populations listed under 50 CFR 222.23(a).1

(d) Guadalupe fur seal (Arctocephalus townsendi).

(e) Steller (northern) sea lion (Eumetopias jubatus), eastern population, which consists of all Steller sea lions from breeding colonies located east of 144°W. longitude.

(f) Snake River spring/summer chinook salmon (Oncorhynchus tshawytscha). Includes all natural population(s) of spring/summer chinook salmon in the mainstream Snake River and any of the following subbasins: Tucannon River, Grande Ronde River, Imnaha River, Salmon River, and Clearwater River.

(g) Snake River fall chinook salmon (Oncorhynchus tshawytscha). Includes all natural population(s) of fall chinook in the mainstem Snake River and any of the following subbasins: Tucannon River, Grande Ronde River, Imnaha River, Salmon River, and Clearwater River.

(h) Central California Coast Coho Salmon. Includes all coho salmon naturally reproduced in streams between Punta Gorda in Humboldt County, CA, and the San Lorenzo River in Santa Cruz County, CA.

(i) Southern Oregon/Northern California Coast coho salmon (Oncorhynchus kisutch). Includes all coho salmon naturally reproduced in streams between Cape Blanco in Curry County, OR, and Punta Gorda in Humboldt County, CA.

(j) Central California Coast steelhead (Oncorhynchus mykiss). Includes all naturally spawned populations of steelhead (and their progeny) in streams from the Russian River to Aptos Creek, Santa Cruz County, California (inclusive), and the drainages of San Francisco and San Pablo Bays eastward to the Napa River (inclusive), Napa County, California. Excludes the Sacramento-San Joaquin River Basin of the Central Valley of California.

(k) South-Central California Coast steelhead (Oncorhynchus mykiss). Includes all naturally spawned populations of steelhead (and their progeny) in streams from the Pajaro River (inclusive), located in Santa Cruz County, California, to (but not including) the Santa Maria River;

(l) Snake River Basin steelhead (Oncorhynchus mykiss). Includes all naturally spawned populations of steelhead (and their progeny) in streams in the Snake River Basin of southeast Washington, northeast Oregon, and Idaho.

(m) Lower Columbia River steelhead (Oncorhynchus mykiss). Includes all naturally spawned populations of steelhead (and their progeny) in streams and tributaries to the Columbia River between the Cowlitz and Wind Rivers, Washington, inclusive, and the Willamette and Hood Rivers, Oregon, inclusive. Excluded are steelhead in the upper Willamette River Basin above Willamette Falls and steelhead from the Little and Big White Salmon Rivers in Washington;

1Department of Commerce, National Oceanic and Atmospheric Administration, National Marine Fisheries Service, jurisdiction for sea turtles is limited to turtles while in the water.
§ 227.12

Steller sea lion.

(a) General prohibitions. The prohibitions of section 9 of the Act (16 U.S.C. 1538) and the following regulatory provisions shall apply to the eastern population of Steller sea lions:

(i) No discharge of firearms. Except as provided in paragraph (b) of this section, no person subject to the jurisdiction of the United States may discharge a firearm at or within 100 yards (91.4 meters) of a Steller sea lion. A firearm is any weapon, such as a pistol or rifle, capable of firing a missile using an explosive charge as a propellant.

(ii) No approach in buffer areas. Except as provided in paragraph (b) of this section:

(a) General prohibitions. The prohibitions of section 9 of the Act (16 U.S.C. 1538) relating to endangered species apply to the Guadalupe fur seal except as provided in paragraph (b) of this section.

(b) Exceptions. (1) The Assistant Administrator may issue permits authorizing activities which would otherwise be prohibited under paragraph (a) of this section in accordance with the subject to the provisions of part 222 subpart C—Endangered Fish or Wildlife Permits.

(2) Any Federal, State or local government official, employee, or designated agent may, in the course of official duties, take a stranded Guadalupe fur seal without a permit if such taking:

(i) Is accomplished in a humane manner;

(ii) Is for the protection or welfare of the animal, is for the protection of the public health or welfare, or is for the salvage or disposal of a dead specimen;

(iii) Includes steps designed to ensure the return of the animal to its natural habitat, if feasible; and

(iv) Is reported within 30 days to the Director, Southwest Region, National Marine Fisheries Service, 300 S. Ferry Street, Terminal Island, CA 90731.

(3) Any animal or specimen taken under paragraph (b)(2) of this section may only be retained, disposed of, or salvaged in accordance with directions from the Director, Southwest Region.

EFFECTIVE DATE NOTE: 1. At 63 FR 42591, Aug. 10, 1998, in §227.4, paragraph (o) was added, effective Oct. 9, 1998.

Chart 16013
(4) Commercial Fishing Operations. The incidental mortality and serious injury of endangered and threatened Steller sea lions in commercial fisheries can be authorized in compliance with sections 101(a)(5) and 118 of the Marine Mammal Protection Act.

(b) Exceptions—(1) Permits. The Assistant Administrator may issue permits authorizing activities that would otherwise be prohibited under paragraph (a) of this section in accordance with and subject to the provisions of 50 C.F.R. part 222, subpart C—Endangered Fish or Wildlife Permits.

(2) Official activities. The taking of Steller sea lions must be reported within 30 days to the Regional Administrator, Alaska Region. Paragraph (a) of this section does not prohibit or restrict a Federal, state or local government official, or his or her designee, who is acting in the course of official duties from:

(i) Taking a Steller sea lion in a humane manner, if the taking is for the protection or welfare of the animal, the protection of the public health and welfare, or the nonlethal removal of nuisance animals; or

(ii) Entering the buffer areas to perform activities that are necessary for national defense, or the performance of other legitimate governmental activities.

(3) Subsistence takings by Alaska natives. Paragraph (a) of this section does not apply to the taking of Steller sea lions for subsistence purposes under section 10(e) of the Act.

(4) Emergency situations. Paragraph (a)(2) of this section does not apply to an emergency situation in which compliance with that provision presents a threat to the health, safety, or life of a person or presents a significant threat to the vessel or property.

(5) Exemptions. Paragraph (a)(2) of this section does not apply to any activity authorized by a prior written exemption from the Director, Alaska Region, National Marine Fisheries Service. Concurrently with the issuance of any exemption, the Assistant Administrator will publish notice of the exemption in the Federal Register. An exemption may be granted only if the activity has been conducted historically or traditionally in the buffer zones, and there is no readily available and acceptable alternative to or site for the activity.

(6) Navigational transit. Paragraph (a)(2) of this section does not prohibit a vessel in transit from passing through a strait, narrows, or passageway listed in this paragraph if the vessel proceeds in continuous transit and maintains a minimum of 1 nautical mile from the rookery site. The listing of a strait, narrows, or passageway does not indicate that the area is safe for navigation. The listed straits, narrows, or passageways include the following:

(c) Penalties. (1) Any person who violates this section or the Act is subject to the penalties specified in section 11 of the Act, and any other penalties provided by law.

(2) Any vessel used in violation of this section or the Endangered Species Act is subject to forfeiture under section 11(e)(4)(B) of the Act.

Subpart C—Threatened Marine and Anadromous Fish

§ 227.21 Threatened salmon.

(a) Prohibitions. The prohibitions of section 9 of the ESA (16 U.S.C. 1538) relating to endangered species apply to the threatened species of salmon listed in §227.4 (f), (g), (h), and (i), except as provided in paragraph (b) of this section. These prohibitions shall become effective for the threatened species of salmon listed in §227.4(i) on August 18, 1997.

(b) Exceptions. (1) The exceptions of section 10 of the ESA (16 U.S.C. 1539) and other exceptions under the Act relating to endangered species, including
§ 227.22 Southern Oregon/Northern California Coast (SONCC) coho salmon.

The following exceptions to the prohibitions of section 227.21(a) apply to SONCC coho salmon:

(a) Take of SONCC coho salmon within three miles (approximately 5 km) of the coast, and in bay, estuarine or freshwater fisheries regulated under the sole authority of the State of Oregon is not prohibited, if the take results from a fisheries harvest program conducted in accordance with the Oregon Coastal Salmon Restoration Initiative of March 1997 (OCSRI), provided that NMFS has issued written concurrence that the fisheries regulations are consistent with the OCSRI using information provided through the April 1997 Memorandum of Agreement (MOA) between the State of Oregon and NMFS.

(b) Incidental take of SONCC coho salmon in ocean fisheries within 3 miles (approximately 5 km) of the coast that are regulated under the sole authority of the State of California is not prohibited, provided that the ocean salmon fishing regulations adopted by the California Fish and Game Commission and CDFG for recreational and commercial fisheries within 3 miles (approximately 5 km) of the coast are consistent with the Pacific Fishery Management Council’s Fishery Management Plan for Ocean Salmon Fisheries and the annual ocean salmon fishing regulations issued by the Secretary of Commerce for the Federal EEZ.

(c) Take of SONCC coho salmon in a hatchery program regulated under the sole authority of the State of Oregon is not prohibited, if the take results from a hatchery program conducted in accordance with the OCSRI, and the take is counted against the total allocation of harvest-related mortality as specified in the OCSRI, provided that NMFS has issued written concurrence that the hatchery program is consistent with the OCSRI including the hatchery and genetic management plan adopted pursuant to the OCSRI, using information provided through the MOA.

(d) Take of SONCC coho salmon in fisheries research and monitoring activities conducted in California and Oregon is not prohibited provided that:

(1) Research and monitoring involving directed take of coho salmon is conducted by CDFG personnel (in California) and ODFW personnel (in Oregon).

(2) The CDFG and ODFW, respectively, provide NMFS with a list of all research and monitoring activities involving coho salmon directed take planned for the coming year for NMFS’ review and approval, including an estimate of the total directed take that is anticipated, a description of the study
design including a justification for taking the species and a description of the techniques to be used, and a point of contact.

(3) The CDFG and ODFW, respectively, annually provide NMFS with the results of research and monitoring studies directed at SONCC coho salmon, including a report of the directed take resulting from the studies.

(4) The CDFG and ODFW, respectively, provide NMFS annually with a list of all research and monitoring studies each permits that may incidentally take listed coho salmon during the coming year and report the level of incidental take of listed coho salmon from the previous year’s research and monitoring studies.

(5) The research and monitoring activities do not include the use of electrofishing in any body of water known or suspected to contain coho salmon.

(e) Incidental take of the SONCC coho salmon in Oregon that results from a habitat restoration activity, as defined in paragraph (4), is not prohibited, provided that:

(1) The activity is conducted pursuant to a watershed action or restoration plan that the state has affirmed in writing is consistent with state watershed plan guidelines that NMFS has found meet the standards set forth in 50 CFR 222.22(c), and NMFS concurs in writing that the plan is consistent with those guidelines; or

(2) Until a watershed action or restoration plan is approved by both Oregon and NMFS as described in paragraph (e)(1) of this section, or until August 18, 1999, whichever occurs first, the ODFW has made a written finding that the activity is consistent with State of Oregon conservation guidelines that NMFS has previously found meet the standards set forth in 50 CFR 222.22(c).

(f) Incidental take of the SONCC coho salmon in California that results from a habitat restoration activity, as defined in paragraph (3) of this section, is not prohibited, provided that California has a program in effect that NMFS finds will assure technically supported watershed assessments and coordinated long-term monitoring strategies for watershed protection plans and activities and:

(1) The activity is conducted pursuant to a watershed protection plan that CDFG has affirmed in writing is consistent with state watershed plan guidelines for California’s Watershed Protection Program that NMFS has found meet the standards set forth in 50 CFR 222.22(c), and NMFS concurs in writing that the plan is consistent with those guidelines; or

(2) Until a watershed protection or restoration plan is certified by the State of California and NMFS as described in paragraph (f)(1) of this section, or until August 18, 1999, whichever occurs first, NMFS has made a written finding that the activity is consistent with State of California conservation guidelines that NMFS has previously found meet the standards set forth in 50 CFR 222.22(c).

(3) “Habitat restoration activity” is defined as an activity that has the sole objective of restoring natural aquatic or riparian habitat conditions or processes.

Subpart D—Threatened Marine Reptiles

§ 227.71 Prohibitions.

(a) Except as provided in §227.72, the prohibitions of section 9 of the Act (16 U.S.C. 1538) relating to endangered species apply to any species of sea turtle enumerated in §227.4.

(b) Except as provided in §227.72, it is unlawful for any person subject to the jurisdiction of the United States to do any of the following:
(1) Own, operate, or be on board a vessel, except if that vessel is in compliance with all applicable provisions of §227.72(e);  
(2) Fish for, catch, take, harvest, or possess, fish or wildlife while on board a vessel, except if that vessel is in compliance with all applicable provisions of §227.72(e);  
(3) Fish for, catch, take, harvest, or possess, fish or wildlife contrary to any notice of tow-time or other restriction specified in, or issued under, §227.72(e) (3) or (6);  
(4) Possess fish or wildlife taken in violation of paragraph (b) of this section;  
(5) Fail to follow any of the sea turtle handling and resuscitation requirements specified in §227.72(e) (1);  
(6) Possess a sea turtle in any manner contrary to the handling and resuscitation requirements of §227.72(e) (1);  
(7) Fail to comply immediately, in the manner specified at 50 CFR 620.8 (b)–(d), with instructions and signals specified therein issued by an authorized officer, including instructions and signals to haul back a net for inspection;  
(8) Refuse to allow an authorized officer to board a vessel, or to enter an area where fish or wildlife may be found, for the purpose of conducting a boarding, search, inspection, seizure, investigation, or arrest in connection with enforcement of this section;  
(9) Destroy, stave, damage, or dispose of in any manner, fish or wildlife, gear, cargo, or any other matter after a communication or signal from an authorized officer, or upon the approach of such an officer or of an enforcement vessel or aircraft, before the officer has an opportunity to inspect same, or in contravention of directions from the officer;  
(10) Assault, resist, oppose, impede, intimidate, threaten, obstruct, delay, prevent, or interfere with an authorized officer in the conduct of any boarding, search, inspection, seizure, investigation, or arrest in connection with enforcement of this section;  
(11) Interfere with, delay, or prevent by any means, the apprehension of another person, knowing that such person committed an act prohibited by this section;  
(12) Resist a lawful arrest for an act prohibited by this section;  
(13) Make a false statement, oral or written, to an authorized officer or to the agency concerning the fishing for, catching, taking, harvesting, landing, purchasing, selling, or transferring fish or wildlife, or concerning any other matter subject to investigation under this section by such officer, or required to be submitted under this part 227;  
(14) Sell, barter, trade or offer to sell, barter, or trade, a TED that is not an approved TED; or  
(15) Attempt to do, solicit another to do, or cause to be done, any of the foregoing.

(c) In connection with any action alleging a violation of this section, any person claiming the benefit of any exemption, exception, or permit under this subpart D has the burden of proving that the exemption, exception, or permit is applicable, was granted, and was valid and in force at the time of the alleged violation. Further, any person claiming that a modification made to a TED that is the subject of such an action complies with the requirements of §227.72(e) (4)(iii) has the burden of proving such claim.

§227.72 Exceptions to prohibitions.

(a) Scientific, propagation, or survival permits. (1) The Assistant Administrator may issue permits authorizing activities which would otherwise be prohibited under §227.71 for scientific purposes or to enhance the propagation or survival of such species. Applications for these permits are subject to the provisions of part 220 of this chapter II.

(2) Ongoing scientific, propagation, or survival projects, which would otherwise be prohibited by §227.71 may continue without a permit until an application for a permit has been denied or 90 days from the effective date of the listing of the affected species, whichever comes first. If a permit has not been denied, ongoing projects may continue beyond this 90-day period provided that the individual responsible for such project(s) has applied for a permit and receives a letter from the Assistant Administrator stating that
§ 227.72

the application is complete and sufficient for processing within the 90-day period. Projects not receiving a permit or letter indicating sufficiency by the 90th day must cease. Within 30 days of receipt of an application, the Assistant Administrator will determine the completeness and sufficiency of the application for processing. If an application is deemed complete and sufficient for processing, a permit will be issued or denied within the next 90 days beginning with the date of the letter informing the applicant that the application is sufficient. Approved projects shall continue in accordance with the conditions of the permit.

(b) Permits for zoological exhibition or educational purposes. The Assistant Administrator may issue permits authorizing activities which would be otherwise prohibited under §227.71 for zoological exhibition or educational purposes. Applications for these permits are subject to the provisions of part 220 of this chapter II.

(c) Exceptions for injured, dead, or stranded specimens. If any member of any threatened species listed in §227.4 is found injured, dead, or stranded, any agent or employee of the National Marine Fisheries Service, the Fish and Wildlife Service, the U.S. Coast Guard, or any other Federal land or water management agency, or any agent or employee of a State agency responsible for fish and wildlife who is designated by his or her agency for such purposes, may, when acting in the course of his or her official duties, take such specimens without a permit if such taking is necessary to aid a sick, injured, or stranded specimen or dispose of a dead specimen or salvage a dead specimen which may be useful for scientific study. Wherever possible, live specimens shall be returned to their aquatic environment as soon as possible. Every action shall be reported in writing to the Assistant Administrator within 30 days, and reports of further occurrence shall be made as deemed appropriate by the Assistant Administrator until the specimen is either returned to its environment or disposed of. Reports shall be mailed by registered or certified mail, return receipt requested, to the Assistant Administrator for Fisheries, National Marine Fisheries Service, Washington, DC 20235, and shall contain the following information:

1. Name and position of the official or employee involved;
2. Description of the specimen(s) involved;
3. Date and location of disposal;
4. Circumstances requiring the action;
5. Method of disposal;
6. Disposition of the specimen(s), including, where the specimen(s) has been retained in captivity, a description of the place and means of confinement, and the measures taken for its maintenance and care; and
7. Such other information as the Assistant Administrator may require.

(d) Exception for research or conservation. Any employee or agent of the National Marine Fisheries Service, the Fish and Wildlife Service, or a State fish and wildlife agency operating a conservation program pursuant to the terms of a Cooperative Agreement with the National Marine Fisheries Service or the Fish and Wildlife Service in accordance with section 6(c) of the Act, designated by his or her agency for such purposes, may, when acting in the course of his or her official duties, take any threatened species to carry out scientific research or conservation programs. All such takings shall be reported within 30 days of the taking to the Assistant Administrator who may request additional reports of the taking and research at his discretion.

(e) Exception for incidental taking—(1) General. The prohibitions against taking in §227.71(a) do not apply to the incidental take of any member of any species of sea turtle listed in §227.4 (i.e., a take not directed toward such member) during fishing or scientific research activities, to the extent that those involved are in compliance with the requirements of paragraphs (e)(1), (2), (3), and (6) of this section, or in compliance with the terms and conditions of an incidental take permit issued pursuant to paragraph (e)(7) of this section.

(i) Any specimen so taken must be handled with due care to prevent injury to live specimens, observed for activity, and returned to the water according to the following procedures:
§ 227.72

(A) Sea turtles that are dead or actively moving must be released over the stern of the boat. In addition, they must be released only when trawls are not in use, when the engine gears are in neutral position, and in areas where they are unlikely to be recaptured or injured by vessels.

(B) Resuscitation must be attempted on sea turtles that are comatose or inactive but not dead by:

(1) Placing the turtle on its back (carapace) and pumping its breastplate (plastron) with hand or foot; or

(2) Placing the turtle on its breastplate (plastron) and elevating its hindquarter several inches for a period of 1 up to 24 hours. The amount of the elevation depends on the size of the turtle; greater elevations are needed for larger turtles. Sea turtles being resuscitated must be shaded and kept wet or moist. Those that revive and become active must be released over the stern of the boat only when trawls are not in use, when the engine gears are in neutral position, and in areas where they are unlikely to be recaptured or injured by vessels. Similarly, sea turtles that fail to move within several hours (up to 24, if possible) must be returned to the water in the same manner.

(ii) Any specimen so taken must not be consumed, sold, landed, offloaded, transshipped, or kept below deck.

(Gear requirements—(i) TED requirement. Except as provided in paragraph (e)(2)(ii) of this section, any shrimp trawler that is in the Atlantic Area or Gulf Area must have an approved TED (as defined in §217.12 of this subchapter) installed in each net that is rigged for fishing. A net is rigged for fishing if it is in the water, or if it is shackled, tied, or otherwise connected to any trawl door or board, or to any tow rope, cable, pole or extension, either on board or attached in any manner to the shrimp trawler.

(ii) Exemptions from the TED requirement. (A) A shrimp trawler is exempt from the TED requirements of paragraph (e)(2)(ii) of this section if it complies with the alternative tow-time restrictions in paragraph (e)(3)(i) of this section and if:

(1) Has on board no power or mechanical-advantage trawl retrieval system (i.e., any device used to haul any part of the net aboard);

(2) Is a bait shrimper that retains all live shrimp on board in a container with a circulating seawater system, if it does not possess more than 32 pounds (14.5 kg) of dead shrimp on board, and if it has on board a valid original state bait-shrimp license (if in a state that requires such a license);

(B) The following fishing gear or activities are exempted from the TED requirements of paragraph (e)(2)(i) of this section:

(1)(i) For any shrimp trawler fishing in the Gulf SFSTCA or the Atlantic SFSTCA, a single test net (try net) with a headrope length of 12 ft (3.6 m) or less and with a footrope length of 15 ft (4.6 m) or less, if it is either pulled immediately in front of another net or is not connected to another net in any way, if no more than one test net is used at a time, and if it is not towed as a primary net.

(ii) Prior to December 19, 1997, in areas other than the Gulf SFSTCA or the Atlantic SFSTCA, a single test net (try net) with a headrope length of 20 ft (6.1 m) or less, if it is either pulled immediately in front of another net or is not connected to another net in any way, if no more than one test net is used at a time, and if it is not towed as a primary net.

(iii) Applicable after December 19, 1997, a single test net (try net) with a headrope length of 12 ft (3.6 m) or less and with a footrope length of 15 ft (4.6 m) or less, if it is either pulled immediately in front of another net or is not connected to another net in any way, if no more than one test net is used at a time, and if it is not towed as a primary net.
time, and if it is not towed as a primary net. 

(2) A beam or roller trawl fished without doors, boards, or similar devices, that has a mouth formed by a rigid frame and rigid vertical bars, if none of the spaces between the bars, or between the bars and the frame, exceed 4 inches (10.2 cm); and 

(3) A shrimp trawler fishing for, or possessing, royal red shrimp, if at least 90 percent (by weight) of all shrimp either found on board, or offloaded from that shrimp trawler, is royal red shrimp.

(iii) Gear requirement—summer flounder trawlers — (A) TED requirement. Except as provided in paragraph (e)(2)(iii)(B) of this section, any summer flounder trawler in the summer flounder fishery-sea turtle protection area must have an approved TED (as defined in §217.12 of this chapter) installed in each net that is rigged for fishing. A net is rigged for fishing if it is in the water, or if it is shackled, tied, or otherwise connected to any trawl door or board, or to any tow rope, cable, pole or extension, either on board or attached in any manner to the summer flounder trawler.

(B) Exemptions from the TED requirement. Any summer flounder trawler north of 35°46.1′ N. lat. (Oregon Inlet, NC) from January 15 through March 15 annually is exempt from the TED requirement of paragraph (e)(2)(iii)(A) of this section, unless the Assistant Administrator determines that TED use is necessary to protect sea turtles or ensure compliance, pursuant to the procedures of paragraph (e)(6) of this section.

(C) Monitoring. Summer flounder trawlers must carry on board an NMFS-approved observer if requested upon written notification from the Director, Southeast Region, NMFS, or the Director, Northeast Region, NMFS, sent to the address specified for the vessel in either the NMFS or state fishing permit application, or to the address specified for registration or documentation purposes, or upon written notification otherwise served on the owner or operator of the vessel. Owners and operators must comply with the terms and conditions specified in such written notification. All NMFS-approved observers will report any violations of this section, or other applicable regulations and laws; such information may be used for enforcement purposes.

(iv) Gear requirement—leatherback conservation zone—(A) Leatherback surveys. From January 1 through June 30 of each year, weekly aerial surveys will be conducted (contingent upon weather conditions) by NMFS or state agents in the leatherback conservation zone (defined in §217.12 of this chapter). If sighting rates of greater than 10 leatherback turtles per 50 nautical miles (92.6 km) of trackline are observed, the aerial surveys of that area will be replicated within 24 hours, or as soon as practicable thereafter.

(B) TED requirements and registration. If surveys pursuant to (e)(2)(iv)(A) of this section indicate a sighting rate within the leatherback conservation zone of greater than 10 leatherback sea turtles per 50 nautical miles (92.6 km) of trackline, NMFS will close, for a 2-week period, an area of the leatherback conservation zone encompassing all, or a portion of, inshore waters and offshore waters 10 nautical miles (18.5 km) seaward of the COLREGS demarcation line, bounded by 1° lat. coinciding with the trackline, within the leatherback conservation zone. Within such closed area, fishing by any shrimp trawler required to have a NMFS-approved TED installed in each net rigged for fishing is prohibited, unless the TED installed is one described at paragraph (e)(4)(ii)(G)(2)(ii) or, prior to October 13, 1999, paragraph (e)(4)(iii)(A)(4)(ii) of this section, and the owner or operator of the shrimp trawler has notified the Director, Southeast Region, NMFS (Regional Director) of his or her intention to fish in that area, in accordance
with the procedure provided in paragraphs (e)(6)(iv) (A) through (F) of this section. If requested in writing from the Regional Director, owners and operators of shrimp trawlers in the leatherback conservation zone must carry NMFS-approved observers aboard such vessel(s). A shrimp trawler in the leatherback conservation zone must comply with the terms and conditions specified in such written request, as well as provide information on trawling hours, gear modifications, and turtle captures.

(C) Notification. NMFS will immediately announce specific area closures on the NOAA weather radio channel, in newspapers, and other media. Specific area closures will be effective upon filing for public inspection at the Office of the Federal Register. Owners and operators of shrimp trawl vessels in the leatherback conservation zone are responsible for monitoring the NOAA weather radio channel for closure announcements. Shrimp trawlers may also call the Southeast Regional Office at (813) 570-5312 to receive updated area closure information.

(3) Tow-time restrictions—(i) Duration of tows. If tow-time restrictions are utilized pursuant to paragraphs (e)(2)(ii), (e)(3)(ii), or (e)(3)(iii) of this section, a shrimp trawler must limit tow times to no more than 55 minutes from April 1 through October 31; and to no more than 75 minutes from November 1 through March 31. A shrimp trawler in the North Carolina restricted area must limit tow times to no more than 30 minutes from May 16 through August 15. The tow time is measured from the time that the trawl door enters the water until it is removed from the water. For a trawl that is not attached to a door, the tow time is measured from the time the codend enters the water until it is removed from the water.

(ii) Alternative—special environmental conditions. (A) The Assistant Administrator may allow compliance with tow-time restrictions, as an alternative to the TED requirement of paragraph (e)(2)(i) of this section, if he/she determines that the presence of algae, seaweed, debris or other special environmental conditions in a particular area makes trawling with TED-equipped nets impracticable.

(B) North Carolina restricted area. From June 27, 1994 through November 30, 1994, a shrimp trawler in the North Carolina restricted area, as an alternative to complying with the TED requirement of paragraph (e)(2)(i) of this section, may comply with the tow-time restrictions set forth in paragraph (e)(3)(ii) of this section. The owner or operator of a shrimp trawler who wishes to operate his or her shrimp trawler in the North Carolina restricted area must register pursuant to paragraph (e)(3)(v) of this section, with registration received by the Director, Southeast Region, NMFS, at least 24 hours before the first use of such tow times. Registration may be made by telephoning (813) 893-3141 or writing to 9721 Executive Center Drive, St. Petersburg, FL 33702. The owner or operator of a shrimp trawler in the North Carolina restricted area must carry onboard a NMFS-approved observer upon written notification by the Director, Southeast Region, NMFS. Notification shall be made to the address specified for the vessel in either the NMFS or state fishing permit application, the registration or documentation papers, or otherwise served upon the owner or operator of the vessel. The owner or operator must comply with the terms and conditions specified in such written notification. All observers will report any violations of this section, or other applicable regulations and laws; such information may be used for enforcement purposes.

(iii) Substitute—ineffectiveness of TEDs. The Assistant Administrator may require compliance with tow-time restrictions, as a substitute for the TED requirement of paragraph (e)(2)(i) of this section, if he/she determines that TEDs are ineffective in protecting sea turtles.

(iv) Notice; applicability; conditions. The Assistant Administrator will publish notification concerning any tow-time restriction imposed under paragraphs (e)(3)(ii) or (iii) of this section in the FEDERAL REGISTER and will announce it in summary form on channel 16 of the marine VHF radio. A notification of tow-time restrictions will include findings in support of these restrictions as an alternative to, or as
substitute for, the TED requirements of paragraph (e)(2)(i) of this section. The notification will specify the effective dates, the geographic area where tow-time restrictions apply, and any applicable conditions or restrictions that the Assistant Administrator determines are necessary or appropriate to protect sea turtles and ensure compliance, including, but not limited to, a requirement to carry observers, or for all shrimp trawlers in the area to synchronize their tow times so that all trawl gear remains out of the water during certain times. A notification withdrawing tow-time restrictions will include findings in support of that action.

(v) Registration. If the Assistant Administrator imposes restrictions under paragraph (e)(3)(ii) or (iii) of this section, he/she may require the owner and operator of a shrimp trawler to register before entering an area where, and during the time when, the restrictions apply. If registration is required, the trawler’s owner and operator must submit the following information to the NMFS Regional Office:

(A) The name and official number (or registration number) of the shrimp trawler;
(B) The names, mailing and street addresses, and telephone numbers of the trawler owner and operator;
(C) The permit number or other identification of relevant state or Federal fishing permit(s);
(D) Where and when the trawler intends to fish;
(E) Where and when the trawler will depart on any fishing trip, with sufficient specificity to allow for an observer to embark on the trip; and
(F) Any changes in the information submitted under paragraphs (e)(3)(v) (A) through (E) of this section. Failure to do so immediately will void the registration, which will render unlawful any subsequent entry of the shrimp trawler into the area where and during the time when the restrictions apply.

(vi) Procedures. The Assistant Administrator will consult with the appropriate fishery officials (state or Federal) where the affected shrimp fishery is located in issuing a notification concerning tow-time restrictions. An emergency notification can be effective for a period of up to 30 days and may be renewed for additional periods of up to 30 days each if the Assistant Administrator finds that the conditions that necessitated the imposition of tow-time restrictions continue to exist. The Assistant Administrator may invite comments on such an action, and may withdraw or modify the action by following procedures similar to those for implementation. The Assistant Administrator will implement any permanent tow-time restriction through rulemaking.

(4) Approved TEDs. Any netting, webbing, or mesh that may be measured to determine compliance with this paragraph (e)(4) is subject to measurement, regardless of whether it is wet or dry. Any such measurement will be of the stretched mesh size.

(i) Hard TEDs. Hard TEDs are TEDs with rigid deflector grids and are categorized as “hooped hard TEDs,” such as the NMFS and Cameron TEDs (Figures 1 & 2), or “single-grid hard TEDs,” such as the Matagorda and Georgia TEDs (Figures 3 & 4). Hard TEDs complying with the following generic design criteria are approved TEDs:

(A) Construction materials. A hard TED must be constructed of one or a combination of the following materials, with minimum dimensions as follows:

(1) Solid steel rod with a minimum outside diameter of 3/4 inch (0.64 cm);
(2) Fiberglass or aluminum rod with a minimum outside diameter of 5/8 inch (1.27 cm); or
(3) Steel or aluminum tubing with a minimum outside diameter of 3/4 inch (1.27 cm) and a minimum wall thickness of 1/8 inch (0.32 cm) (also known as schedule 40 tubing).

(B) Method of attachment. A hard TED must be sewn into the trawl around the entire circumference of the TED with heavy twine.

(C) Angle of deflector bars. (1) Except as provided in paragraph (e)(4)(i)(C)(2) of this section, the angle of the deflector bars must be between 30° and 55° from the normal, horizontal flow through the interior of the trawl.

(2) For any shrimp trawler fishing in the Gulf SFSTCA or the Atlantic SFSTCA, a hard TED with the position of the escape opening at the bottom of
§ 227.72

the net when the net is in its deployed position, the angle of the deflector bars from the normal, horizontal flow through the interior of the trawl, at any point, must not exceed 55°, and:

(i) If the deflector bars that run from top to bottom are attached to the bottom frame of the TED, the angle of the bottom-most 4 inches (10.2 cm) of each deflector bar, measured along the bars, must not exceed 45° (Figures 14a and 14b);

(ii) If the deflector bars that run from top to bottom are not attached to the bottom frame of the TED, the angle of the imaginary lines connecting the bottom frame of the TED to the bottom end of each deflector bar which runs from top to bottom must not exceed 45° (Figure 15).

(D) Space between bars. The space between deflector bars, and between the deflector bars and the frame, must not exceed 4 inches (10.2 cm).

(E) Direction of bars. The deflector bars must run from top to bottom of the TED, as the TED is positioned in the net, except that up to four of the bottom bars and two of the top bars, including the frame, may run from side to side of the TED.

(F) Position of escape opening. The entire width of the escape opening from the trawl must be centered on and immediately forward of the frame at either the top or bottom of the net when the net is in its deployed position. The escape opening must be at the top of the net when the slope of the deflector bars from forward to aft is upward, and must be at the bottom when such slope is downward. For a single-grid TED, the escape opening must be cut horizontally along the same plane as the TED, and may not be cut in a fore-and-aft direction.

(G) Size of escape opening. (1) On a hooped hard TED, the escape opening must be at least 25 inches by 25 inches (63.5 cm by 63.5 cm) in the Gulf Area, or 30 inches by 30 inches (76.2 cm by 76.2 cm) in the Atlantic Area. A door frame may not be used over the escape opening; however, a webbing flap may be used as provided in paragraph (e)(4)(iv)(C) of this section.

(ii) On a single-grid hard TED, the cut in the trawl webbing for the escape opening cannot be narrower than the outside width of the grid minus 4 inches (10.2 cm) on both sides of the grid, when measured as a straight line width. (Figure 13 of this part illustrates the dimensions of this cut.) The resulting escape opening in the net webbing must measure at least 32 inches (81.3 cm) in horizontal taut length and, simultaneously, 10 inches (25.4 cm) in vertical taut height in the Gulf Area; or 35 inches (88.9 cm) in horizontal taut length and, simultaneously, 12 inches (30.5 cm) in vertical taut height in the Atlantic Area. The vertical measurement must be taken at the midpoint of the horizontal measurement.

(ii) Escape opening for leatherback turtles. A single-grid hard TED escape opening shall be enlarged to allow leatherback turtles to escape by cutting an exit hole in the extension forward of the TED frame 26 inches (66 cm) deep, on each side, by 83 inches (211 cm) across (Figures 12a and 12b of this part). Excess webbing is removed by cutting across ½ mesh forward of the TED frame. The exit hole cover is made by cutting a 133-inch (338-cm) by 58-inch (148 cm) piece of webbing no smaller than 1½ inch (4 cm) stretch mesh and no larger than 1½ inch (4.2 cm) stretch mesh. The 133-inch (338 cm) edge of the cover is attached to the forward edge of the opening (83-inch (211 cm) edge) with a sewing sequence of 3:2. The cover should overlap 5 inches (13 cm) of the exit hole on each side. The side of the cover is attached, maintaining the 5-inch (13-cm) overlap, to the side of the opening by sewing 28 inches (71 cm) of the cover to 26 inches (66 cm) of the opening forward of the TED frame and by sewing 15 inches (38 cm) of the cover to 15 inches (38 cm) of the extension behind the TED frame. The cover may extend no more than 24 inches (61 cm) behind the posterior edge of the TED frame. The circumference of the exit opening must be 142 inches (361 cm) when stretched. If an accelerator funnel is used with a single-grid hard TED, modified as above, it must also have a minimum circumference of 142 inches (361 cm).

(H) Size of hoop or grid—(1) Hooped hard TED. (i) An oval front hoop on a
hard TED must have an inside horizontal measurement of at least 32 inches (81.3 cm) and an inside vertical measurement of at least 30 inches (76.2 cm) in the Atlantic Area.

(ii) A circular front hoop on a hard TED must have an inside diameter of at least 32 inches (81.3 cm) in the Gulf Area or 35 inches (88.9 cm) in the Atlantic Area.

(2) Single-grid hard TED. A single-grid hard TED must have an inside horizontal and vertical measurement of at least 28 inches (71.1 cm) in the Gulf Area or 30 inches (76.2 cm) in the Atlantic Area. The required inside measurements must be at the mid-point of the deflector grid.

Floats must be attached to the top one-half of all hard TEDs with bottom escape openings. The floats may be attached either outside or inside the net, but not to a flap. Floats attached inside the net must be behind the rear surface. Floats must be attached with heavy twine or rope. Floats must be constructed of aluminum, hard plastic, expanded polyvinyl chloride, or expanded ethylene vinyl acetate unless otherwise specified. The requirements of this paragraph may be satisfied by compliance with either the dimension requirements of paragraph (e)(4)(i)(I)(1) of this section, or the buoyancy requirements of paragraph (e)(4)(i)(I)(2) of this section, or the buoyancy-dimension requirements of paragraph (e)(4)(i)(I)(3) of this section. If roller gear is used pursuant to paragraph (e)(4)(iv)(E), the roller gear must be included in the circumference measurement of the TED or the total weight of the TED.

(1) Float dimension requirements. (i) For hard TEDs with a circumference of 120 inches (304.8 cm) or more, a minimum of either one round, aluminum or hard plastic float, no smaller than 9.8 inches (25.0 cm) in diameter, or one expanded polyvinyl chloride or expanded ethylene vinyl acetate float, no smaller than 6.75 inches (17.2 cm) in diameter by 8.75 inches (22.2 cm) in length, must be attached.

(ii) For hard TEDs with a circumference of less than 120 inches (304.8 cm), a minimum of either one round, aluminum or hard plastic float, no smaller than 9.8 inches (25.0 cm) in diameter, or one expanded polyvinyl chloride or expanded ethylene vinyl acetate float, no smaller than 6.75 inches (17.2 cm) in diameter by 8.75 inches (22.2 cm) in length, must be attached.
§ 227.72

North, St. Petersburg, FL 33702, and include the manufacturer’s name, address, and telephone number; the sizes, styles, and anticipated number of TEDs to be produced annually; the method of marking; and a description of the manufacturer’s distinctive, identifying symbol. Upon receipt of a complete request, the Director, Southeast Region, NMFS, will notify the manufacturer in writing of their registration.

(3) Buoyancy-dimension requirements. Floats of any size and in any combination, provided that they are marked pursuant to paragraph (e)(4)(i)(I)(2)(i) of this section, must be attached such that the combined buoyancy of the floats equals or exceeds the following values:

(i) For floats constructed of aluminum or hard plastic, regardless of the size of the TED grid, the combined buoyancy must equal or exceed 14 lb (6.4 kg);

(ii) For floats constructed of expanded polyvinyl chloride or expanded ethylene vinyl acetate, where the circumference of the TED is 120 inches (304.8 cm) or more, the combined buoyancy must equal or exceed 20 lb (9.1 kg); or

(iii) For floats constructed of expanded polyvinyl chloride or expanded ethylene vinyl acetate, where the circumference of the TED is less than 120 inches (304.8 cm), the combined buoyancy must equal or exceed 10 lb (4.5 kg).

(ii) Special Hard TEDs. Special hard TEDs are hard TEDs which do not meet all of the design and construction criteria of the generic standards. The following special hard TEDs are approved TEDs:

(A) Flounder TED (Figure 10 of this part). The horizontal bar must be connected at both ends to the sides of the frame and parallel to the bottom bar of the frame. There must be a space no larger than 10 inches (25.4 cm) between the horizontal bar and the bottom bar of the frame. An additional vertical bar runs from the middle of the bottom bar to the middle of the horizontal bar dividing the opening at the bottom into two rectangles with an opening height of no more than 10 inches (25.4 cm) and an opening width of no more than 14 1/2 inches (36.8 cm). If, because of the width of the TED, the opening width of the bottom rectangles exceeds the maximum allowed, additional vertical bars must be added. This TED must comply with paragraphs (e)(4)(i)(B), (e)(4)(i)(C), (e)(4)(i)(F), and (e)(4)(i)(G) of this section with respect to the method of attachment, the angle of the deflector bars, the position of the escape opening, and the size of the escape opening, except that the deflector bars must be positioned in the net to deflect turtles to the escape opening in the top of the trawl. This TED may not be configured with a bottom escape opening. Installation of an accelerator funnel is not permitted with this TED. Use of this TED is restricted to the Atlantic summer flounder bottom trawl fishery.

(B) Jones TED (Figure 11 of this part). The Jones TED must be constructed of at least 1 1/4 inch (3.2 cm) outside diameter aluminum or steel pipe, and the pipe must have a wall thickness of at least 1/8 inch (0.3 cm). It must be generally oval in shape with a flattened bottom. The deflector bars must be attached to the frame at a 45° angle from the horizontal positioning downward and each bar must be attached at only one end to the frame. The deflector bars must be attached and lie in the same plane as the frame. The space between the ends of the bottom deflector bars and the bottom frame bar must be no more than 3 inches (7.6 cm). The spacing between the bottom three deflector bars on each side must be no greater than 2 1/2 inches (6.4 cm). The spacing between all other deflector bars must not exceed 3 1/2 inches (8.9 cm) and spacing between ends of opposing deflector bars also must not exceed 3 1/2 inches (8.9 cm). This TED must comply with paragraphs (e)(4)(i)(B),
(e)(4)(i)(C), (e)(4)(i)(F), (e)(4)(i)(G), (e)(4)(i)(H)(2), and (e)(4)(i)(I) of this section with respect to the method of attachment, the angle of the deflector bars, the position of the escape opening, the size of the escape opening, the size of the grid, and flotation.

(iii) Soft TEDs. Soft TEDs are TEDs with deflector panels made from polypropylene or polyethylene netting. Prior to October 13, 1999, the following soft TEDs are approved TEDs:

(A) Parker TED. The Parker TED is a soft TED, consisting of a single triangular panel, composed of webbing of two different mesh sizes, that forms a complete barrier inside a trawl and that angles toward an escape opening in the top of the trawl.

(1) Excluder Panel. (Figure 5) The excluder panel of the Parker TED must be constructed of a single triangular piece of 8-inch (20.3 cm) stretched mesh webbing and two trapezoidal pieces of 4-inch (10.2-cm) stretched mesh webbing. The webbing must consist of number 48 (3-mm thick) or larger polypropylene or polyethylene webbing that is heat-set knotted or braided.

The leading edge of the 8-inch (20.3-cm) mesh panel must be 36 meshes wide. The 8-inch (20.3-cm) mesh panel must be tapered on each side with all-bar cuts to converge on an apex, such that the length of each side is 36 bars. The leading edges of the 4-inch (10.2-cm) mesh panels must be 8 meshes wide. The edges of the 4-inch (10.2-cm) mesh panels must be cut with all-bar cuts running parallel to each other, such that the length of the inner edge is 72 bars and the length of the outer edge is 89 bars and the resulting fore-and-aft edge is 8 meshes deep. The two 4-inch (10.2-cm) mesh panels must be sewn to the 8-inch (20.3-cm) mesh panel to create a single triangular excluder panel.

The 72-bar edge of each 4-inch (10.2-cm) mesh panel must be securely joined with twine to one of the 36-bar edges of the 8-inch (20.3-cm) mesh panel, tied with knots at each knot of the 4-inch (10.2-cm) webbing and at least two wraps of twine around each bar of 4-inch (10.2-cm) mesh and the adjoining bar of the 8-inch (20.3-cm) mesh. The adjoining fore-and-aft edges of the two 4-inch (10.2-cm) mesh panels must be sewn together evenly.

(2) Limitations on which trawls may have a Parker TED installed. The Parker TED must not be installed or used in a two-seam trawl with a tongue, nor in a triple-wing trawl (a trawl with a tongue along the headrope and a second tongue along the footrope). The Parker TED may be installed and used in any other trawl if the taper of the body panels of the trawl does not exceed 41/40 and if it can be properly installed in compliance with paragraph (c)(3)(iii) of this section.

(3) Panel installation—(i) Leading edge attachment. The leading edge of the excluder panel must be attached to the inside of the bottom of the trawl across a straight row of meshes. For a two-seam trawl or a four-seam, tapered-wing trawl, the row of meshes for attachment to the trawl must run the entire width of the bottom body panel and half the height of each wing panel of the trawl. Every mesh of the leading edge of the excluder panel must be evenly sewn to this row of meshes; meshes may not be laced to the trawl. The row of meshes for attachment to the trawl must contain the following number of meshes, depending on the stretched mesh size used in the trawl:

- for a mesh size of 21/4 inches (5.7 cm), 152±168 meshes;
- for a mesh size of 21/8 inches (5.4 cm), 161±178 meshes;
- for a mesh size of 2 inches (5.1 cm), 171±189 meshes;
- for a mesh size of 17/8 inches (4.8 cm), 182±202 meshes;
- for a mesh size of 13/4 inches (4.4 cm), 196±216 meshes;
- for a mesh size of 15/8 inches (4.1 cm), 211±233 meshes;
- for a mesh size of 11/2 inches (3.8 cm), 228±252 meshes;
- for a mesh size of 13/8 inches (3.5 cm), 249±275 meshes; and
- for a mesh size of 11/4 inches (3.2 cm), 274±302 meshes.

(ii) Apex attachment. The apex of the triangular excluder panel must be attached to the inside of the top body panel of the trawl at the centerline of the trawl. The distance, measured aft along the centerline of the top body panel from the same row of meshes for attachment of the excluder panel to the bottom body panel of the trawl, to the apex attachment point must contain the following number of meshes,
§ 227.72

depending on the stretched mesh size used in the trawl: for a mesh size of 2\(\frac{1}{4}\) inches (5.7 cm), 78-83 meshes; for a mesh size of 2\(\frac{1}{8}\) inches (5.4 cm), 83-88 meshes; for a mesh size of 2 inches (5.1 cm), 87-93 meshes; for a mesh size of 1\(\frac{3}{8}\) inches (4.8 cm), 93-99 meshes; for a mesh size of 1\(\frac{1}{2}\) inches (4.4 cm), 100-106 meshes; for a mesh size of 1\(\frac{5}{8}\) inches (4.1 cm), 107-114 meshes; for a mesh size of 1\(\frac{3}{8}\) inches (3.8 cm), 114-124 meshes; and for a mesh size of 1\(\frac{1}{4}\) inches (3.2 cm), 127-135 meshes.

(iii) Side attachment. The sides of the excluder panel must be attached even to the inside of the trawl from the outside attachment points of the excluder panel's leading edge to the apex of the excluder panel. Each side must be sewn with the same sewing sequence, and, if the sides of the excluder panel cross rows of bars in the trawl, then the crossings must be distributed evenly over the length of the side attachment.

(4) Escape opening. The escape opening for the Parker soft TED must match one of the following specifications:

(i) Longitudinal cut. A slit at least 56 inches (1.4 m) in taut length must be cut along the centerline of the top body panel of the trawl net immediately forward of the apex of the panel webbing. The slit must not be covered or closed in any manner. The edges and end points of the slit must not be reinforced in any way; for example, by attaching additional rope or webbing or by changing the orientation of the webbing.

(ii) Leatherback escape opening. A horizontal cut extending from the attachment of one side of the deflector panel to the trawl to the attachment of the other side of the deflector panel to the trawl must be made in a single row of meshes across the top of the trawl and measure at least 96 inches (244 cm) in taut width. All trawl webbing above the deflector panel between the 96-inch (244-cm) cut and edges of the deflector panel must be removed. A rectangular flap of nylon webbing not larger than 2-inch (5.1-cm) stretched mesh may be sewn to the forward edge of the escape opening. The width of the flap must not be larger than the width of the forward edge of the escape opening. The flap must not extend more than 12 inches (30.4 cm) beyond the rear point of the escape opening. The sides of the flap may be attached to the top of the trawl but must not be attached farther aft than the row of meshes through the rear point of the escape opening. One row of steel chain not larger than 1\(\frac{1}{4}\) inch (4.76 mm) may be sewn evenly to the back edge of the flap. The stretched length of the chain must not exceed 96 inches (244 cm). A Parker TED using the escape opening described in this paragraph meets the requirements of paragraph (e)(2)(iv)(B) of this section.

(B) [Reserved]

(iv) Allowable modifications to TEDs. No modifications may be made to an approved soft TED. Unless otherwise prohibited in paragraph (e)(4)(ii) of this section, only the following modifications may be made to an approved hard TED and an approved special hard TED:

(A) Floats. In addition to floats required pursuant to paragraph (e)(4)(i)(I) of this section, floats may be attached to the top one-half of the TED, either outside or inside the net, but not to a flap. Floats attached inside the net must be behind the rear surface at the top of the TED.

(B) Accelerator funnel. An accelerator funnel may be installed in the trawl, if it is made of net webbing material with a stretched mesh size not greater than 1\(\frac{5}{8}\) inches (4.1 cm), if it has an inside horizontal opening of at least 39 inches (99.1 cm) when measured in a taut position, if it is inserted in the net immediately forward of the TED, and if its rear edge does not extend past the bars of the TED. The trailing edge of the accelerator funnel may be attached to the TED on the side opposite the escape opening if not more than 1/3 of the circumference of the funnel is attached, and if its rear edge does not extend past the bars of the TED. Theaccelerator funnel may be attached to the TED on the side opposite the escape opening if not more than 1/3 of the circumference of the funnel is attached, and if its rear edge does not extend past the bars of the TED. The trailing edge of the accelerator funnel may be attached to the TED on the side opposite the escape opening if not more than 1/3 of the circumference of the funnel may be attached to the TED. In an downward shooting TED, only the top 1/3 of the circumference of the funnel may be attached to the TED. In an upward shooting TED, only the bottom 1/3 of the circumference of the funnel may be attached to the TED.

(C) Webbing flap. A webbing flap may be used to cover the escape opening if: No device holds it closed or otherwise
restricts the opening; it is constructed of webbing with a stretched mesh size no larger than 1 5/8 inches (4.1 cm); it lies on the outside of the trawl; it is attached along its entire forward edge forward of the escape opening; it is not attached on the sides beyond the row of meshes that lies 6 inches (15.2 cm) behind the posterior edge of the grid; and it does not extend more than 24 inches (60.0 cm) beyond the posterior edge of the grid, except for trawlers fishing in the Gulf SFSTCA or Atlantic SFSTCA with a hard TED with the position of the escape opening at the bottom of the net when the net is in its deployed position, in which case the webbing flap must not extend beyond the posterior edge of the grid.

(D) Chafing webbing. A single piece of nylon webbing, with a twine size no smaller than size 36 (2.46 mm in diameter), may be attached outside of the escape opening webbing flap to prevent chafing on bottom opening TEDs. This webbing may be attached along its leading edge only. This webbing may not extend beyond the trailing edge or sides of the existing escape opening webbing flap, and it must not interfere or otherwise restrict the turtle escape opening.

(E) Roller gear. Roller gear may be attached to the bottom of a TED to prevent chafing on the bottom of the TED and the trawl net. When a webbing flap is used in conjunction with roller gear, the webbing flap must be of a length such that no part of the webbing flap can touch or come in contact with any part of the roller gear assembly or the means of attachment of the roller gear assembly to the TED, when the trawl net is in its normal, horizontal position. Roller gear must be constructed according to one of the following design criteria:

1. A single roller consisting of hard plastic shall be mounted on an axle rod, so that the roller can roll freely about the axle. The maximum diameter of the roller shall be 6 inches (15.2 cm), and the maximum width of the axle rod shall be 12 inches (30.4 cm). The axle rod must be attached to the TED by two support rods. The maximum clearance between the roller and the TED shall not exceed 1 inch (2.5 cm) at the center of the roller. The support rods and axle rod must be made from solid steel or solid aluminum rod no larger than 1/2 inch (1.28 cm) in diameter. The attachment of the support rods to the TED shall be such that there are no protrusions (lips, sharp edges, burrs, etc.) on the front face of the grid. The axle rod and support rods must lie entirely behind the plane of the face of the TED grid.

2. A single roller consisting of hard plastic tubing shall be tightly tied to the back face of the TED grid with rope or heavy twine passed through the center of the roller tubing. The roller shall lie flush against the TED. The maximum outside diameter of the roller shall be 3 1/2 inches (8.0 cm), the minimum outside diameter of the roller shall be 2 inches (5.1 cm), and the maximum length of the roller shall be 12 inches (30.4 cm). The roller must lie entirely behind the plane of the face of the grid.

(5)(i) Revision of generic design criteria, and approval of TEDs, of allowable modifications of hard TEDs, and of special hard TEDs. The Assistant Administrator may revise the generic design criteria for hard TEDs set forth in paragraph (e)(4)(i) of this section, may approve special hard TEDs in addition to those listed in paragraph (e)(4)(ii) of this section, may approve allowable modifications to hard TEDs in addition to those authorized in paragraph (e)(4)(iv) of this section, or may approve other TEDs, by regulatory amendment, if, according to a NMFS-approved scientific protocol, the TED demonstrates a sea turtle exclusion rate of 97 percent or greater (or an equivalent exclusion rate). Two such protocols have been published by NMFS (52 FR 24262, June 29, 1987; and 55 FR 41092, October 9, 1990) and will be used only for testing relating to hard TED designs. Testing under any protocol must be conducted under the supervision of the Assistant Administrator, and shall be subject to all such conditions and restrictions as the Assistant Administrator deems appropriate. Any person wishing to participate in such testing should contact the Director, Southeast Fisheries Science Center, NMFS.
(ii) Upon application, the Assistant Administrator may issue permits, subject to such conditions and restrictions as the Assistant Administrator deems appropriate, authorizing public or private experimentation aimed at improving shrimp retention efficiency of existing approved TEDs and at developing additional TEDs, or conducting fishery research, that would otherwise be subject to paragraph (e)(2) of this section. Applications should be addressed to the Director, Southeast Region, NMFS, 9450 Koger Blvd., St. Petersburg, FL 33702.

(6) Limitations on incidental takings during fishing activities—(i) Limitations. The exemption for incidental takings of sea turtles in paragraph (e)(1) of this section does not authorize incidental takings during fishing activities if the takings:

(A) Would violate the restrictions, terms, or conditions of an incidental take statement or biological opinion;

(B) Would violate the restrictions, terms, or conditions of an incidental take permit; or

(C) May be likely to jeopardize the continued existence of a species listed under the Act.

(ii) Determination; restrictions on fishing activities. The Assistant Administrator may issue a determination that incidental takings during fishing activities are unauthorized. Pursuant thereto, the Assistant Administrator may restrict fishing activities in order to conserve a species listed under the Act, including, but not limited to, restrictions on the fishing activities of vessels subject to paragraph (e)(2)(ii) of this section. The Assistant Administrator will take such action if he/she determines that restrictions are necessary to avoid unauthorized takings that may be likely to jeopardize the continued existence of a listed species. The Assistant Administrator may withdraw or modify a determination concerning unauthorized takings or any restriction on fishing activities if the Assistant Administrator determines that such action is warranted.

(iii) Notice; applicability; conditions. The Assistant Administrator will publish a notification of a determination concerning unauthorized takings or a notification concerning the restriction of fishing activities in the FEDERAL REGISTER. The Assistant Administrator will provide as much advance notice as possible, consistent with the requirements of the Act, and will announce the notification in summary form on channel 16 of the marine VHF radio. Notification of a determination concerning unauthorized takings will include findings in support of that determination; specify the fishery, including the target species and gear used by the fishery, the area, and the times, for which incidental takings are not authorized; and include such other conditions and restrictions as the Assistant Administrator determines are necessary or appropriate to protect sea turtles and ensure compliance. Notification of restriction of fishing activities will include findings in support of the restriction, will specify the time and area where the restriction is applicable, and will specify any applicable conditions or restrictions that the Assistant Administrator determines are necessary or appropriate to protect sea turtles and ensure compliance. Such conditions and restrictions may include, but are not limited to, limitations on the types of fishing gear that may be used, tow-time restrictions, alteration or extension of the periods of time during which particular tow-time requirements apply, requirements to use TEDs, and requirements to provide observers. Notification of withdrawal or modification will include findings in support of that action.

(iv) Registration. If the Assistant Administrator imposes restrictions under paragraph (e)(6)(ii) of this section, he/she may require the owner and operator of a vessel to register before entering an area where, and during the time when, the restrictions apply. If registration is required, the vessel’s owner and operator must submit the following information to the NMFS Regional Office:

(A) The name and official number (or registration number) of the vessel;

(B) The names, mailing and street addresses, and telephone numbers of the vessel owner and operator;

(C) The permit number or other identification of relevant state or Federal fishing permit(s).
(D) Where and when the vessel intends to fish; and
(E) Where and when the vessel will depart on any fishing trip, with sufficient specificity to allow for an observer to embark on the trip.
(F) Any changes in the information submitted under paragraphs (e)(6)(iv) (A) through (E) of this section. Failure to do so immediately will void the registration, which will render unlawful any subsequent entry of the fishing vessel into the area where and during the time when the restrictions apply.
(v) Procedures. The Assistant Administrator will consult with the appropriate fisheries officials (state or Federal) where the fishing activities are located in issuing notification of a determination concerning unauthorized takings or notification concerning the restriction of fishing activities. An emergency notification will be effective for a period of up to 30 days and may be renewed for additional periods of up to 30 days each. The Assistant Administrator may invite comments on such action, and may withdraw or modify the action by following procedures similar to those for implementation. The Assistant Administrator will implement any permanent determination or restriction through rule-making.
(7) Incidental-take permits. The Assistant Administrator may issue permits authorizing activities that would otherwise be prohibited in §227.71(a) of this chapter in accordance with section 10(a)(1)(B) of the Act (16 U.S.C. 1539(a)(1)(B)), and in accordance with, and subject to, the provisions of parts 220 and 222 of this chapter. Such permits may be issued for the incidental taking of both endangered and threatened species of sea turtles. This section supersedes restrictions on the scope of parts 220 and 222, including, but not limited to, the restrictions specified in §§220.3, 222.1, 222.2(a) and 222.22(a).
(f) Subsistence. The prohibition in §227.71(b) shall not apply with respect to the taking of any member of the species of green sea turtle (Chelonia mydas) in waters seaward of mean low tide for personal consumption by residents of the Trust Territory of the Pacific Islands if such taking is customary, traditional and necessary for the sustenance of such resident and his immediate family. Sea turtles so taken cannot be transferred to non-residents or sold.

[43 FR 32809, July 28, 1978]

EDITORIAL NOTE: For Federal Register citations affecting §227.72, see the List of CFR Sections Affected in the Finding Aids section of this volume.

EFFECTIVE DATE NOTE: At 60 FR 15516, Mar. 24, 1995 in §227.72, paragraph (e)(4)(i)(I) was revised. Paragraph (e)(4)(i)(I)(ii) contains information collection requirements and will not become effective until approval has been given by the Office of Management and Budget.

PART 229—AUTHORIZATION FOR COMMERCIAL FISHERIES UNDER THE MARINE MAMMAL PROTECTION ACT OF 1972

Subpart A—General Provisions

§ 229.1 Purpose and scope.
(a) The regulations in this part implement sections 101(a)(5)(E) and 118 of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1371(a)(5)(E) and 1387) that provide for exceptions for the taking of marine mammals incidental to certain commercial fishing operations from the Act’s general moratorium on the taking of marine mammals.
(b) Section 118 of the Act, rather than sections 103 and 104, governs the incidental taking of marine mammals in the course of commercial fishing operations by persons using vessels of the United States, other than vessels fishing for yellowfin tuna in the eastern tropical Pacific Ocean purse seine fishery, and vessels that have valid fishing permits issued in accordance with section 204(b) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1824(b)).
(c) The regulations of Subpart B also govern the incidental taking by commercial fishers of marine mammals from species or stocks designated under the Act as depleted on the basis of their listing as threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).
(d) The regulations of this part do not apply to the incidental taking of California sea otters or to Northwest treaty Indian tribal members exercising treaty fishing rights.
(e) Authorizations under subpart A of this part are exemptions only from the taking prohibitions under the Act and not those under the Endangered Species Act of 1973. To be exempt from the taking prohibitions under the Endangered Species Act, specific authorization under subpart B of this part is required.
(f) Authorizations under this part do not apply to the intentional lethal taking of marine mammals in the course of commercial fishing operations.
(g) The purposes of the regulations in this part are to:
(1) Reduce the incidental mortality or serious injury of marine mammals occurring in the course of commercial fishing operations below the potential biological removal level for a particular stock, and
(2) Reduce the incidental mortality or serious injury of marine mammals occurring in the course of commercial fishing operations to insignificant levels approaching a zero mortality and serious injury rate by the statutory deadline of April 30, 2001.

§ 229.2 Definitions.
In addition to the definitions contained in the Act and §216.3 of this chapter, and unless the context otherwise requires, in this part 229:
Act or MMPA means the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 et seq.).
American lobster or lobster means *Homarus americanus*.

Anchored gillnet means any gillnet gear, including sink gillnets, that is set anywhere in the water column and which is anchored, secured or weighted to the bottom.

Assistant Administrator means the Assistant Administrator for Fisheries of the National Oceanic and Atmospheric Administration.

Authorization Certificate means a document issued by the Assistant Administrator, or designee, under the authority of section 118 of the Act that authorizes the incidental, but not intentional, taking of marine mammals in Category I or II fisheries.

Breaking strength means the highest tensile force which an object can withstand before breaking.

Bridle means the lines connecting a gillnet to an anchor or buoy line.

Buoy line means a line connecting fishing gear in the water to a buoy at the surface of the water.

Category I fishery means a commercial fishery determined by the Assistant Administrator to have frequent incidental mortality and serious injury of marine mammals. A commercial fishery that frequently causes mortality or serious injury of marine mammals is one that is by itself responsible for the annual removal of 50 percent or more of any stock’s potential biological removal level.

Category II fishery means a commercial fishery determined by the Assistant Administrator to have occasional incidental mortality and serious injury of marine mammals. A commercial fishery that occasionally causes mortality or serious injury of marine mammals is one that, collectively with other fisheries, is responsible for the annual removal of more than 10 percent of any marine mammal stock’s potential biological removal level, yet that fishery by itself is responsible for the annual removal of 1 percent or less of that stock’s potential biological removal level. In the absence of reliable information indicating the frequency of incidental mortality and serious injury of marine mammals by a commercial fishery, the Assistant Administrator will determine whether the taking is “remote” by evaluating other factors such as fishing techniques, gear used, methods used to deter marine mammals, target species, seasons and areas fished, qualitative data from logbooks or fisher reports, stranding data, and the species and distribution of marine mammals in the area or at the discretion of the Administrator.

Category III fishery means a commercial fishery determined by the Assistant Administrator to have a remote likelihood of, or no known incidental mortality and serious injury of marine mammals. A commercial fishery that has a remote likelihood of causing incidental mortality and serious injury of marine mammals is one that collectively with other fisheries is responsible for the annual removal of:

1. Ten percent or less of any marine mammal stock’s potential biological removal level, or
2. More than 10 percent of any marine mammal stock’s potential biological removal level, yet that fishery by itself is responsible for the annual removal of 1 percent or less of that stock’s potential biological removal level.

Commercial fishing operation means the catching, taking, or harvesting of fish from the marine environment (or other areas where marine mammals occur) that results in the sale or barter of all or part of the fish harvested. The term includes licensed commercial passenger fishing vessel (as defined in §216.3 of this chapter) activities and aquaculture activities.
Depleted species means any species or population that has been designated as depleted under the Act and is listed in §216.15 of this chapter or part 18, subpart E of this title, or any endangered or threatened species of marine mammal.

Driftnet, drift gillnet, or drift entanglement gear means gillnet gear that is not anchored, secured or weighted to the bottom.

Fish with or fishing with means to use, set, or haul back gear or allow gear that is set to remain in the water.

Fisher means the vessel owner or operator or owner or operator of gear in a nonvessel fishery.

Fishery has the same meaning as in section 3 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1802).

Fishing trip means any time spent away from port actively engaged in commercial fishing operations. The end of a fishing trip will be the time of a fishing vessel's return to port or the return of a fisher from tending gear in a nonvessel fishery.

Fishing vessel or vessel means any vessel, boat, ship, or other craft that is used for, equipped to be used for, or of a type normally used for, fishing.

Float-line means the rope at the top of a gillnet from which the mesh portion of the net is hung.

Gillnet means fishing gear consisting of a wall of webbing or nets, designed or configured so that the webbing or nets are held approximately vertically in the water column designed to capture fish by entanglement, gilling, or wedging. Gillnets include gillnets of all types such as sink gillnets, other anchored gillnets, and drift gillnets.

Groundline, with reference to lobster pot gear, means a line connecting lobster pots in a lobster pot trawl, and, with reference to gillnet gear, means a line connecting a gillnet or gillnet bridle to an anchor or buoy line.

Incidental, but not intentional, take means the non-intentional or accidental taking of a marine mammal that results from, but is not the purpose of, carrying out an otherwise lawful action.

Incidental mortality means the non-intentional or accidental death of a marine mammal that results from, but is not the purpose of, carrying out an otherwise lawful action.

Injury means a wound or other physical harm. Signs of injury to a marine mammal include, but are not limited to, visible blood flow, loss of or damage to an appendage or jaw, inability to use one or more appendages, asymmetry in the shape of the body or body position, noticeable swelling or hemorrhage, laceration, puncture or rupture of eyeball, listless appearance or inability to defend itself, inability to swim or dive upon release from fishing gear, or signs of equilibrium imbalance. Any animal that ingests fishing gear, or any animal that is released with fishing gear entangling, trailing or perforating any part of the body will be considered injured regardless of the absence of any wound or other evidence of an injury.

Inshore Lobster waters means all state and Federal waters between 36°33'00.8"N lat. (the Virginia/North Carolina border) and the U.S./Canada border that is shoreward of the area designated below as "offshore lobster waters."

Interaction means coming in contact with fishing gear or catch. An interaction may be characterized by a marine mammal entangled, hooked, or otherwise trapped in fishing gear, regardless of whether injury or mortality occurs, or situations where marine mammals are preying on catch. Catch means fish or shellfish that has been hooked, entangled, snagged, trapped or otherwise captured by commercial fishing gear.

Lead-line means the rope, weighted or otherwise, to which the bottom edge of a gillnet is attached.

List of Fisheries means the most recent final list of commercial fisheries published in the Federal Register by the Assistant Administrator, categorized according to the likelihood of incidental mortality and serious injury of marine mammals during commercial fishing operations.

Lobster pot means any trap, structure or other device that is placed on the ocean bottom and is designed to or is capable of catching lobsters.

Lobster pot trawl means two or more lobster pots attached to a single groundline.

Mid-Atlantic coastal waters means waters bounded by the line defined by the
following points: The southern shoreline of Long Island, New York at 72°30'W, then due south to 33°51'N lat., thence west to the North Carolina/South Carolina border.

Minimum population estimate means an estimate of the number of animals in a stock that:

(1) Is based on the best available scientific information on abundance, incorporating the precision and variability associated with such information; and

(2) Provides reasonable assurance that the stock size is equal to or greater than the estimate.

Negligible impact has the same meaning as in §228.3 of this chapter.

Net productivity rate means the annual per capita rate of increase in a stock resulting from additions due to reproduction, less losses due to mortality.

NMFS means the National Marine Fisheries Service.

Nonvessel fishery means a commercial fishing operation that uses fixed or other gear without a vessel, such as gear used in set gillnet, trap, beach seine, weir, ranch, and pen fisheries.

Northeast waters means those U.S. waters east of 72°30'W and north of 36°33'00.8"N lat. (the Virginia-North Carolina border).

Observer means an individual authorized by NMFS, or a designated contractor, to record information on marine mammal interactions, fishing operations, marine mammal life history information, and other scientific data, and collect biological specimens during commercial fishing activities.

Offshore lobster waters includes all U.S. waters seaward of the following lines except for waters in the Great South Channel critical right whale habitat: Beginning at the international boundary between the U.S. and Canada; thence southerly along the boundary to the LORAN C 9960-Y-44400 line; thence southerly along the 44400 line to 70°W long.; thence south along the 70° meridian to the LORAN C 9960-W-13700 line; thence southeasterly to the intersection with the LORAN C 9960-Y-43700 line; thence westerly to the intersection with the LORAN C 9960-W-14610 line; thence southerly along the 14610 line to the intersection with the LORAN C 9960-Y-43700 line; thence southerly to the intersection of the LORAN C lines 9960-Y-43500 and 9960-X-26400; thence southerly to the intersection of the LORAN C lines 9960-Y-42300 and 9960-X-26700; thence southerly to the intersection of the LORAN C lines 9960-Y-41600 and 9960-X-26875; thence southerly in a line toward the intersection of LORAN C lines 9960-Y-40600 and 9960-X-26800 but stopping at 36°33'00.8"N lat. (the North Carolina/Virginia border); thence due west to the shore.

Operator, with respect to any vessel, means the master, captain, or other individual in charge of that vessel.

Potential biological removal level means the maximum number of animals, not including natural mortalities, that may be removed from a marine mammal stock while allowing that stock to reach or maintain its optimum sustainable population. The potential biological removal level is the product of the following factors:

(1) The minimum population estimate of the stock;
(2) One-half the maximum theoretical or estimated net productivity rate of the stock at a small population size; and
(3) A recovery factor of between 0.1 and 1.0.

Regional Fishery Management Council means a regional fishery management council established under section 302 of the Magnuson Fishery Conservation and Management Act.

Serious injury means any injury that will likely result in mortality.

Sink gillnet has the meaning specified in 50 CFR 648.2.

Sinking line means rope that sinks and does not float at any point in the water column. Polypropylene rope is not sinking line unless it contains a lead core.

Spotter plane means a plane that is deployed for the purpose of locating schools of target fish for a fishing vessel that intends to set fishing gear on them.
§ 229.3

Stellwagen Bank/Jeffreys Ledge area means all Federal waters in the Gulf of Maine, except those designated as right whale critical habitat, that lie south of the 43°15′ N lat. line and west of the 70° W long. line.

Strategic stock means a marine mammal stock:
(1) For which the level of direct human-caused mortality exceeds the potential biological removal level;
(2) Which, based on the best available scientific information, is declining and is likely to be listed as a threatened species under the Endangered Species Act of 1973 within the foreseeable future;
(3) Which is listed as a threatened species or endangered species under the Endangered Species Act of 1973 or
(4) Which is designated as depleted under the Marine Mammal Protection Act of 1972, as amended.

Strikenet or to fish with strikenet gear means a gillnet, or a net similar in construction to a gillnet, that is designed so that when it is deployed, it encircles or encloses an area of water either with the net, or by utilizing the shoreline to complete encirclement, or to fish with such a net and method.

Take Reduction Plan means a plan developed to reduce the incidental mortality and serious injury of marine mammals during commercial fishing operations in accordance with section 118 of the Marine Mammal Protection Act of 1972, as amended.

Take Reduction Team means a team established to recommend methods of reducing the incidental mortality and serious injury of marine mammals due to commercial fishing operations, in accordance with section 118 of the Marine Mammal Protection Act of 1972, as amended.

Tended gear or tend means active fishing gear that is physically attached to a vessel or to fish so that active gear is attached to the vessel.

U.S. waters means both state and Federal waters to the outer boundaries of the U.S. exclusive economic zone along the east coast of the United States from the Canadian/U.S. border southward to a line extending eastward from the southernmost tip of Florida on the Florida shore.

Vessel owner or operator means the owner or operator of:
(1) A fishing vessel that engages in a commercial fishing operation; or
(2) Fixed or other commercial fishing gear that is used in a nonvessel fishery.

Vessel of the United States has the same meaning as in section 3 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1802).

Weak link means a breakable device that will part when subject to a certain tension load.

§ 229.3 Prohibitions.

(a) It is prohibited to take any marine mammal incidental to commercial fishing operations except as otherwise provided in part 216 of this chapter or in this part 229.

(b) It is prohibited to assault, harm, harass (including sexually harass), oppose, impede, intimidate, impair, or in any way influence or interfere with an observer, or attempt the same. This prohibition includes, but is not limited to, any action that interferes with an observer’s responsibilities, or that creates an intimidating, hostile, or offensive environment.

(c) It is prohibited to provide false information when registering for an Authorization Certificate, applying for renewal of the Authorization Certificate, reporting the taking of any marine mammal, or providing information to any observer.

(d) It is prohibited to tamper with or destroy observer equipment in any way.

(e) It is prohibited to intentionally lethally take any marine mammal in the course of commercial fishing operations unless imminently necessary in self-defense or to save the life of a person in immediate danger, and such taking is reported in accordance with the requirements of § 229.6.

(f) It is prohibited to violate any regulation in this part or any provision of section 118 of the Act.

(g) It is prohibited to fish with lobster pot gear in the areas and for the times specified in §229.32 (c)(4) through (c)(10) unless the lobster pot gear meets the marking requirements specified in
§ 229.32(c)(1) and complies with the closures, modifications, and restrictions specified in § 229.32 (c)(2) through (c)(10).

(h) It is prohibited to fish with anchored gillnet gear in the areas and for the times specified in § 229.32 (d)(3) through (d)(8) unless that gillnet gear meets the marking requirements specified in § 229.32(d)(1) and complies with the closures, modifications, and restrictions specified in § 229.32 (d)(2) through (d)(8).

(i) It is prohibited to fish with drift gillnets in the areas and for the times specified in § 229.32(e)(2) unless the drift gillnet gear meets the marking requirements specified in § 229.32(e)(1) and complies with the restrictions specified in § 229.32(e)(2).

(j) It is prohibited to fish with shark drift net gear in the areas and for the times specified in § 229.32(f)(2) and (3) unless the gear meets the marking requirements specified in § 229.32(f)(1) and complies with the restrictions and requirements specified in §§ 229.32 (f)(2) and (f)(3).

§ 229.4 Requirements for Category I and II fisheries.

(a) General. (1) For a vessel owner or crew members to lawfully incidentally take marine mammals in the course of a commercial fishing operation in a Category I or II fishery, the owner or authorized representative of a fishing vessel or non-fishing gear must have in possession a valid Certificate of Authorization. The owner of a fishing vessel or non-vessel fishing gear must be responsible for obtaining a Certificate of Authorization.

(2) The granting and administration of Authorization Certificates under this part will be integrated and coordinated with existing fishery license, registration, or permit systems and related programs wherever possible. These programs may include, but are not limited to, state or interjurisdictional fisheries programs. If the administration of Authorization Certificates is integrated into a program, NMFS will publish a notice in the FEDERAL REGISTER announcing the integrated program and summarizing how an owner or authorized representative of a fishing vessel or non-fishing gear may register under that program or how registration will be achieved if no action is required on the part of the affected vessel. NMFS will make additional efforts to contact participants in the affected fishery via other appropriate means of notification.

(b) Registration. (1) The owner of a vessel, or for nonvessel gear fisheries, the owner of gear, who participates in a Category I or II fishery is required to be registered for a Certificate of Authorization.

(2) Unless a notice is published in the FEDERAL REGISTER announcing an integrated registration program, the owner of a vessel, or for nonvessel fishery, the owner of the gear must register for and receive an Authorization Certificate. To register, owners must submit the following information using the format specified by NMFS:

(i) Name, address, and phone number of owner.

(ii) Name, address, and phone number of operator, if different from owner, unless the name of the operator is not known or has not been established at the time the registration is submitted.

(iii) For a vessel fishery, vessel name, length, home port; U.S. Coast Guard documentation number or state registration number, and if applicable; state commercial vessel license number and for a nonvessel fishery, a description of the gear and state commercial license number, if applicable.

(iv) A list of all Category I and II fisheries in which the fisher may actively engage during the calendar year.

(v) The approximate time, duration, and location of each such fishery operation, and the general type and nature of use of the fishing gear and techniques used.

(vi) A certification signed and dated by the owner of an authorized representative of the owner as follows: “I hereby certify that I am the owner of the vessel, that I have reviewed all information contained on this document, and that it is true and complete to the best of my knowledge.”

(3) If a notice is published in the FEDERAL REGISTER announcing an integrated registration program, the owner of a vessel, or for nonvessel fishery, the
§ 229.4

The owner of the gear may register by following the directions provided in that notice. If a person receives a registration to which he or she is not entitled or if the registration contains incorrect, inaccurate or incomplete information, the person shall notify NMFS within 10 days following receipt. If a fisher participating in a Category I or II fishery who expects to receive automatic registration does not receive that registration within the time specified in the notice announcing the integrated registration program, the person shall notify NMFS as directed in the notice or may apply for registration by submitting the information required under paragraph (b)(1)(i) through (b)(1)(vi) of this section.

(c) Fee. A check or money order made payable to NMFS in the amount specified in the notice of the final List of Fisheries must accompany each registration submitted to NMFS. The amount of this fee will be based on recovering the administrative costs incurred in granting an authorization. The Assistant Administrator may waive the fee requirement for good cause upon the recommendation of the Regional Director.

(d) Address. Unless the granting and administration of authorizations under part 229 is integrated and coordinated with existing fishery licenses, registrations, or related programs pursuant to paragraph (a) of this section, requests for registration forms and completed registration forms should be sent to the NMFS Regional Offices are given:

(1) Alaska Region, NMFS, P.O. Box 21668, 709 West 9th Street, Juneau, AK 99802; telephone: 907-586-7235;

(2) Northwest Region, NMFS, 7600 Sand Point Way NE, Seattle, WA 98115-0070; telephone: 206-526-4353;

(3) Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213; telephone: 310-980-4001;

(4) Northeast Region, NMFS, 1 Blackburn Drive, Gloucester, MA 01930; telephone: 508-281-9254; or

(5) Southeast Region, NMFS, 9721 Executive Center Drive North, St. Petersburg, FL 33702; telephone: 813-570-5301.

(e) Issuance. (1) Unless an integrated registration program is in place, NMFS will issue an Authorization Certificate and, if necessary, a decal to an owner or authorized representative who:

(i) Submits a completed registration form and the required fee.

(ii) Has complied with the requirements of this section and §§229.6 and 229.7.

(iii) Has submitted updated registration or renewal registration which includes a statement (yes/no) whether any marine mammals were killed or injured during the current or previous calendar year.

(2) If an integrated registration program has been established, an Authorization Certificate or other proof of registration will be issued annually to each fisher registered for that fishery.

(3) If a person receives a renewed Authorization Certificate or a decal to which he or she is not entitled, the person shall notify NMFS within 10 days following receipt. In order for a Authorization Certificate to be valid, the certification must be signed and dated by the owner or an authorized representative of the owner.

(f) Authorization Certificate and decal requirements. (1) The annual decal must be attached to the vessel on the port side of the cabin or, in the absence of a cabin, on the forward port side of the hull, and must be free of obstruction and in good condition. The decal must be attached to the Authorization Certificate for nonvessel fisheries.

(2) The Authorization Certificate, or a copy, must be on board the vessel while it is operating in a Category I or II fishery, or, in the case of nonvessel fisheries, the Authorization Certificate with decal attached, or copy must be in the possession of the person in charge of the fishing operation. The Authorization Certificate, or copy, must be made available upon request to any state or Federal enforcement agent authorized to enforce the Act, any designated agent of NMFS, or any contractor providing observer services to NMFS.

(3) Authorization Certificates and annual decals are not transferable. In the event of the sale or change in ownership of the vessel, the Authorization Certificate is void and the new owner must register for an Authorization Certificate and decal.
(4) An Authorization Certificate holder must notify the issuing office in writing:
(i) If the vessel or nonvessel fishing gear will engage in any Category I or II fishery not listed on the initial registration form at least 30 days prior to engaging in that fishery; and,
(ii) If there are any changes in the mailing address or vessel ownership within 30 days of such change.

(g) Reporting. Any Authorization Certificate holders must comply with the reporting requirements specified under §229.6.

(h) Disposition of marine mammals. Any marine mammal incidentally taken must be immediately returned to the sea with a minimum of further injury unless directed otherwise by NMFS personnel, a designated contractor or an official onboard observer, or authorized otherwise by a scientific research permit in the possession of the operator.

(i) Monitoring. Authorization Certificate holders must comply with the observer or other monitoring requirements specified under §229.7.

(j) Deterrence. When necessary to deter a marine mammal from damaging fishing gear, catch, or other private property, or from endangering personal safety, vessel owners and crew members engaged in a Category I or II fishery must comply with all deterrence provisions set forth in the Act and all guidelines and prohibitions published thereunder.

(k) Self-defense. When imminently necessary in self-defense or to save the life of a person in immediate danger, a marine mammal may be lethally taken if such taking is reported to NMFS in accordance with the requirements of §229.6.

(l) Take reduction plans and emergency regulations. Authorization Certificate holders must comply with any applicable take reduction plans and emergency regulations.

(m) Expiration. Authorization Certificates and annual decals expire at the end of each calendar year.

§ 229.7 Monitoring of incidental mortalities and serious injuries.

(a) Purpose. The Assistant Administrator will establish a program to monitor incidental mortality and serious injury of marine mammals during the course of commercial fishing operations in order to:

(1) Obtain statistically reliable estimates of incidental mortality and serious injury;

(2) Determine the reliability of reports of incidental mortality and injury under §229.6; and

(3) Identify changes in fishing methods or technology that may increase or decrease incidental mortality and serious injury.

(b) Observer program. Pursuant to paragraph (a) of this section, the Assistant Administrator may place observers aboard Category I and II vessels as necessary. Observers may, among other tasks:

(1) Record incidental mortality and injury, and bycatch of other nontarget species;

(2) Record numbers of marine mammals sighted; and

(3) Perform other scientific investigations, which may include, but are not limited to, sampling and photographing incidental mortalities and serious injuries.

(c) Observer requirements for Authorization Certificate holders. (1) If requested by NMFS or a designated contractor providing observer services to NMFS, an Authorization Certificate holder engaged in a Category I or II fishery must take aboard an observer to accompany the vessel on fishing trips.

(2) After being notified by NMFS, or by a designated contractor providing observer services to NMFS, that the vessel is required to carry an observer, the Authorization Certificate holder must comply with the notification by providing information requested within the specified time on scheduled or anticipated fishing trips.

(3) NMFS, or a designated contractor providing observer services to NMFS, may waive the observer requirement based on a finding that the facilities for housing the observer or for carrying out observer functions are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized.

(4) The Authorization Certificate holder and crew must cooperate with the observer in the performance of the observer's duties including:

(i) Providing adequate accommodations;

(ii) Allowing for the embarking and debarking of the observer as specified by NMFS personnel or designated contractors. The operator of a vessel must ensure that transfers of observers at sea are accomplished in a safe manner, via small boat or raft, during daylight hours if feasible, as weather and sea conditions allow, and with the agreement of the observer involved;

(iii) Allowing the observer access to all areas of the vessel necessary to conduct observer duties;

(iv) Allowing the observer access to communications equipment and navigation equipment, when available on the vessel, as necessary to perform observer duties;
(v) Providing true vessel locations by latitude and longitude, accurate to the minute, or by loran coordinates, upon request by the observer;

(vi) Sampling marine mammal or other protected species specimens, upon request by NMFS personnel;

(vii) Sampling, retaining and storing mammal or other protected species specimens, upon request by NMFS personnel, designated contractors, or the observer aboard, if adequate facilities are available and if feasible;

(viii) Notifying the observer in a timely fashion of when all commercial fishing operations are to begin and end;

(ix) Not impairing or in any way interfering with the research or observations being carried out; and

(x) Complying with other guidelines or regulations that NMFS may develop to ensure the effective deployment and use of observers.

(5) Marine mammals incidentally killed during fishing operations and which are readily accessible to crew members, must be brought onboard the vessel as biological specimens and retained for the purposes of scientific research if feasible and requested by NMFS personnel, designated contractors, or the aboard observer. Marine mammals so collected and retained as biological specimens must, upon request by NMFS personnel, designated contractors, or the aboard observer, be retained in cold storage on board the vessel, if feasible, until removed at the request of NMFS personnel, designated contractors, or the observer aboard, retrieved by authorized personnel of NMFS, or released by the observer for return to the ocean. Such biological specimens may be transported on board the vessel during the fishing trip and back to port under this authorization.

(6) Any marine mammal incidentally taken may be retained only if authorized by NMFS personnel, designated contractors or an official observer aboard, or by a scientific research permit that is in the possession of the operator.

(d) Observer requirements for Category III fisheries. (1) The Assistant Administrator may place observers on Category III vessels if the Assistant Administrator:

(i) Believes that the incidental mortality and serious injury of marine mammals from such fishery may be contributing to the immediate and significant adverse impact on a species or stock listed as a threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.); and

(ii) Has complied with §229.9(a)(3)(i) and (ii); or

(iii) Has the consent of the vessel owner.

(2) If an observer is placed on a Category III vessel, the vessel owner and/or operator must comply with the requirements of §229.7(c).

(e) Alternative observer program. The Assistant Administrator may establish an alternative observer program to provide statistically reliable information on the species and number of marine mammals incidentally taken in the course of commercial fishing operations. The alternative observer program may include direct observation of fishing activities from vessels, airplanes, or points on shore.

§229.8 Publication of List of Fisheries.

(a) The Assistant Administrator will publish in the Federal Register a proposed revised List of Fisheries on or about July 1 of each year for the purpose of receiving public comment. Each year, on or about October 1, the Assistant Administrator will publish a final revised List of Fisheries, which will become effective January 1 of the next calendar year.

(b) The proposed and final revised List of Fisheries will:

(1) Categorize each commercial fishery based on the definitions of Category I, II, and III fisheries set forth in §229.2; and

(2) List the marine mammals that interact with commercial fishing operations and the estimated number of vessels or persons involved in each commercial fishery.

(c) The Assistant Administrator may publish a revised List of Fisheries at other times, after notification and opportunity for public comment. The revised final List of Fisheries will become effective no sooner than 30 days after publication in the Federal Register.
§ 229.9 Emergency regulations.

(a) If the Assistant Administrator finds that the incidental mortality or serious injury of marine mammals from commercial fisheries is having, or is likely to have, an immediate and significant adverse impact on a stock or species, the Assistant Administrator will:

(1) In the case of a stock or species for which a take reduction plan is in effect—
   (i) Prescribe emergency regulations that, consistent with such plan to the maximum extent practicable, reduce incidental mortality and serious injury in that fishery; and
   (ii) Approve and implement on an expedited basis, any amendments to such plan that are recommended by the Take Reduction Team to address such adverse impact;

(2) In the case of a stock or species for which a take reduction plan is being developed—
   (i) Prescribe emergency regulations to reduce such incidental mortality and serious injury in that fishery; and
   (ii) Approve and implement, on an expedited basis, such plan, which will provide methods to address such adverse impact if still necessary;

(3) In the case of a stock or species for which a take reduction plan does not exist and is not being developed, or in the case of a Category III fishery that the Assistant Administrator believes may be contributing to such adverse impact,
   (i) Prescribe emergency regulations to reduce such incidental mortality and serious injury in that fishery, to the extent necessary to mitigate such adverse impact;
   (ii) Immediately review the stock assessment for such stock or species and the classification of such commercial fishery under this section to determine if a take reduction team should be established; and
   (iii) Where necessary to address such adverse impact on a species or stock listed as a threatened species or endangered species under the Endangered Species Act (16 U.S.C. 1531 et seq.), place observers on vessels in a Category III fishery if the Assistant Administrator has reason to believe such vessels may be causing the incidental mortality and serious injury to marine mammals from such stock.

(b) Prior to taking any action under §229.9(a)(1) through (3), the Assistant Administrator will consult with the Marine Mammal Commission, all appropriate Regional Fishery Management Councils, state fishery managers, and the appropriate take reduction team, if established.

(c) Any emergency regulations issued under this section:
   (1) Shall be published in the Federal Register and will remain in effect for no more than 180 days or until the end of the applicable commercial fishing season, whichever is earlier, except as provided in paragraph (d) of this section; and
   (2) May be terminated by notification in the Federal Register at an earlier date if the Assistant Administrator determines that the reasons for the emergency regulations no longer exist.

(d) If the Assistant Administrator finds that incidental mortality and serious injury of marine mammals in a commercial fishery is continuing to have an immediate and significant adverse impact on a stock or species, the Assistant Administrator may extend the emergency regulations for an additional period of not more than 90 days or until reasons for the emergency regulations no longer exist, whichever is earlier.

§ 229.10 Penalties.

(a) Except as provided for in paragraphs (b) and (c) of this section, any person who violates any regulation under this part or any provision of section 118 of the MMPA shall be subject to all penalties set forth in the Act.

(b) The owner or master of a vessel that fails to comply with a take reduction plan shall be subject to the penalties of sections 105 and 107 of the Act, and may be subject to the penalties of section 106 of the Act.

(c) The owner of a vessel engaged in a Category I or II fishery who fails to ensure that a decal, or other physical evidence of such authorization issued by NMFS, is displayed on the vessel or is in possession of the operator of the vessel shall be subject to a penalty of not more than $100.
(d) Failure to comply with take reduction plans or emergency regulations issued under this part may result in suspension or revocation of an Authorization Certificate, and failure to comply with a take reduction plan is also subject to the penalties of sections 105 and 107 of the Act, and may be subject to the penalties of section 106 of the Act.

(e) For fishers operating in Category I or II fisheries, failure to report all incidental injuries and mortalities within 48 hours of the end of each fishing trip, or failure to comply with requirements to carry an observer, will subject such persons to the penalties of sections 105 and 107 and may subject them to the penalties of section 106 of the Act, which will result in suspension, revocation, or denial of an Authorization Certificate until such requirements have been fulfilled.

(f) For fishers operating in Category III fisheries, failure to report all incidental injuries and mortalities within 48 hours of the end of each fishing trip will subject such persons to the penalties of sections 105 and 107, and may subject them to section 106, of the Act.

(g) Suspension, revocation or denial of Authorization Certificates. (1) Until the Authorization Certificate holder complies with the regulations under this part, the Assistant Administrator shall suspend or revoke an Authorization Certificate or deny an annual renewal of an Authorization Certificate in accordance with the provisions in 15 CFR part 904 if the Authorization Certificate holder fails to report all incidental mortality and serious injury of marine mammals as required under §229.6; or fails to take aboard an observer if requested by NMFS or its designated contractors.

(2) The Assistant Administrator may suspend or revoke an Authorization Certificate or deny an annual renewal of an Authorization Certificate in accordance with the provisions in 15 CFR part 904 if the Authorization Certificate holder fails to comply with any applicable take reduction plan, take reduction regulations, or emergency regulations developed under this subpart or subparts B and C of this part or if the Authorization Certificate holder fails to comply with other requirements of these regulations;

(3) A suspended Authorization Certificate may be reinstated at any time at the discretion of the Assistant Administrator provided the Assistant Administrator has determined that the reasons for the suspension no longer apply or corrective actions have been taken.

§ 229.11 Confidential fisheries data.

(a) Proprietary information collected under this part is confidential and includes information, the unauthorized disclosure of which could be prejudicial or harmful, such as information or data that are identifiable with an individual fisher. Proprietary information obtained under part 229 will not be disclosed, in accordance with NOAA Administrative Order 216-100, except:

(1) To Federal employees whose duties require access to such information;

(2) To state employees under an agreement with NMFS that prevents public disclosure of the identity or business of any person;

(3) When required by court order; or

(4) In the case of scientific information involving fisheries, to employees of Regional Fishery Management Councils who are responsible for fishery management plan development and monitoring.

(5) To other individuals or organizations authorized by the Assistant Administrator to analyze this information, so long as the confidentiality of individual fishers is not revealed.

(b) Information will be made available to the public in aggregate, summary, or other such form that does not disclose the identity or business of any person in accordance with NOAA Administrative Order 216-100 (see ADDRESSES). Aggregate or summary form means data structured so that the identity of the submitter cannot be determined either from the present release of the data or in combination with other releases.

§ 229.12 Consultation with the Secretary of the Interior.

The Assistant Administrator will consult with the Secretary of the Interior prior to taking actions or making
§ 229.20 Determinations under this part that affect or relate to species or population stocks of marine mammals for which the Secretary of the Interior is responsible under the Act.

Subpart B—Takes of Endangered and Threatened Marine Mammals

§ 229.20 Issuance of permits.

(a) Determinations. During a period of up to 3 consecutive years, NMFS will allow the incidental, but not the intentional, taking by persons using vessels of the United States or foreign vessels that have valid fishing permits issued by the Assistant Administrator in accordance with section 204(b) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1824(b)), while engaging in commercial fishing operations, of marine mammals from a species or stock designated as depleted because of its listing as an endangered species or threatened species under the Endangered Species Act of 1973 if the Assistant Administrator determines that:

(1) The incidental mortality and serious injury from commercial fisheries will have a negligible impact on such species or stock;

(2) A recovery plan has been developed or is being developed for such species or stock pursuant to the Endangered Species Act of 1973; and

(3) Where required under regulations in subpart A of this part:

(i) A monitoring program has been established under §229.7;

(ii) Vessels engaged in such fisheries are registered in accordance with §229.4; and

(iii) A take reduction plan has been developed or is being developed for such species or stock in accordance with regulations at subpart C of this part.

(b) Procedures for making determinations. In making any of the determinations listed in paragraph (a) of this section, the Assistant Administrator will publish an announcement in the Federal Register of fisheries having takes of marine mammals listed under the Endangered Species Act, including a summary of available information regarding the fishery interactions with listed species. Any interested party may, within 45 days of such publication, submit to the Assistant Administrator written data or views with respect to the listed fisheries. As soon as practicable after the end of the 45 days following publication, NMFS will publish in the Federal Register a list of the fisheries for which the determinations listed in paragraph (a) of this section have been made. This publication will set forth a summary of the information used to make the determinations.

(c) Issuance of authorization. The Assistant Administrator will issue appropriate permits for vessels in fisheries that are required to register under §229.4 and for which determinations under the procedures of paragraph (b) of this section can be made.

(d) Category III fisheries. Vessel owners engaged only in Category III fisheries for which determinations are made under the procedures of paragraph (b) of this section will not be subject to the penalties of this Act for the incidental taking of marine mammals to which this subpart applies, as long as the vessel owner or operator of such vessel reports any incidental mortality or injury of such marine mammals in accordance with the requirements of §229.6.

(e) Emergency authority. During the course of the commercial fishing season, if the Assistant Administrator determines that the level of incidental mortality or serious injury from commercial fisheries for which such a determination was made under this section has resulted or is likely to result in an impact that is more than negligible on the endangered or threatened species or stock, the Assistant Administrator will use the emergency authority of §229.9 to protect such species or stock, and may modify any permit granted under this paragraph as necessary.

(f) Suspension, revocation, modification and amendment. The Assistant Administrator may, pursuant to the provisions of 15 CFR part 904, suspend or revoke a permit granted under this paragraph if the Assistant Administrator determines that the conditions or limitations set forth in such permit are not being complied with. The Assistant Administrator may amend or modify,
after notification and opportunity for public comment, the list of fisheries published in accordance with §229.21(b) whenever the Assistant Administrator determines there has been a significant change in the information or conditions used to determine such a list.

(g) Southern sea otters. This subpart does not apply to the taking of Southern (California) sea otters.

Subpart C—Take Reduction Plan Regulations and Emergency Regulations

§ 229.31 Pacific Offshore Cetacean Take Reduction Plan.

(a) Purpose and scope. The purpose of this section is to implement the Pacific Offshore Cetacean Take Reduction Plan. Paragraphs (b) through (d) of this section apply to all U.S. drift gillnet fishing vessels operating in waters seaward of the coast of California or Oregon, including adjacent high seas waters. For purposes of this section, the fishing season is defined as beginning May 1 and ending on January 31 of the following year.

(b) Extenders. An extender is a line that attaches a buoy (float) to a drift gillnet’s floatline. The floatline is attached to the top of the drift gillnet. All extenders (buoy lines) must be at least 6 fathoms (36 ft; 10.9 m) in length during all sets. Accordingly, all floatlines must be fished at a minimum of 36 feet (10.9 m) below the surface of the water.

(c) Pingers. (1) For the purposes of this paragraph (c), a pinger is an acoustic deterrent device which, when immersed in water, broadcasts a 10 kHz (± 2 kHz) sound at 132 dB (± 4 dB) re 1 micropascal at 1 m, lasting 300 milliseconds (+ 15 milliseconds), and repeating every 4 seconds (+ .2 seconds); and remains operational to a water depth of at least 100 fathoms (600 ft or 182.88 m).

(2) While at sea, drift gillnet vessels with gillnets onboard must carry enough pingers to meet the configuration requirements set forth under paragraph (c)(3) of this section.

(3) Pingers must be attached on or near the floatline and on or near the leadline and spaced no more than 300 ft (90.9 m) apart. Pingers attached on extenders, or attached to the floatline with lanyards, must be within 3 ft (0.91 m) of the floatline. Pingers attached with lanyards to the leadline must be within 6 ft (1.82 m) of the leadline. Pingers on or near the floatline and on or near the leadline must be staggered, such that the horizontal distance between a pinger on or near the floatline and a pinger on the leadline is no more than 150 ft (45.5 m). Any materials used to weight pingers must not change its specifications set forth under paragraph (c)(1) of this section.

(4) The pingers must be operational and functioning at all times during deployment.

(5) If requested, NMFS may authorize the use of pingers with specifications or pinger configurations differing from those set forth in paragraphs (c)(1) and (c)(3) of this section for limited, experimental purposes within a single fishing season.

(d) Skipper education workshops. After notification from NMFS, vessel operators must attend a skipper education workshop before commencing fishing each fishing season. For the 1997/1998 fishing season, all vessel operators must have attended one skipper education workshop by October 30, 1997. NMFS may waive the requirement to attend these workshops by notice to all vessel operators.

§ 229.32 Atlantic large whale take reduction plan regulations.

(a)(1) Regulated waters. The regulations in this section apply to all U.S. waters except for the areas exempted in paragraph (a)(2) of this section.

(2) Exempted waters. The regulations in this section do not apply to waters landward of the following lines:

Maine and New Hampshire

50 CFR Ch. II (10-1-98 Edition)

North Carolina to Florida
All marine and tidal waters landward of the 72 COLREGS demarcation line (International Regulations for Prevent-
ing Collisions at Sea, 1972), as depicted or noted on nautical charts published by the National Oceanic and Atmos-
pheric Administration (Coast Charts 1:80,000 scale), and as described in 33 CFR part 80.

(b) Gear marking provisions—(1) Gear marking required for specified gear—(i) Specified gear. Specified fishing gear
consists of lobster pot gear in inshore and offshore lobster waters, anchored gillnet gear in northeast waters and in
mid-Atlantic coastal waters; drift gillnet gear in mid-Atlantic coastal waters; and shark driftnet gear in
southeast waters.
(ii) Requirement. From January 1, 1998, and as otherwise required in para-
graphs (c)(1), (d)(1), (e)(1), and (f)(1) of this section, any person who owns or
fishes with specified fishing gear must mark that gear as specified in para-
graphs (b)(2) and (b)(3) of this section, unless otherwise required by the As-
sistant Administrator under paragraph (g) of this section.
(2) Color code. Gear must be marked as specified with the appropriate colors
to designate gear-types as follows:
Lobster pot gear in inshore lobster waters—
red and green
Lobster pot gear in offshore lobster waters—
red and blue
Anchored gillnet gear in northeast waters—
green and yellow
Anchored gillnet gear in mid-Atlantic waters—
green and black
Mid-Atlantic driftnet gear—blue and yellow
Shark driftnet gear—blue and black

(3) Markings. Each color of the color
codes must be permanently marked on or along the line or lines specified
under paragraphs (c)(1), (d)(1), (e)(1), and (f)(1) of this section. Each color
mark of the color codes must be clearly visible when the gear is hauled or re-
moved from the water. Each mark must be at least 4 inches (10.2 cm) long.
The two color marks must be placed
within 6 inches (15.2 cm) of each other. (For example, buoy lines of inshore lobster pot gear must have a red mark and a green mark, each at least 4 inches long, with the red and green marks placed within 6 inches of each other.) If the color of the rope is the same or similar to a color code, a white mark may be substituted for that color code. In marking or affixing the color code or associated neutral band, the line may be dyed, painted, or marked with thin colored whipping line, thin colored plastic or heat shrink tubing, or other material, or thin line may be woven into or through the line, or the line may be marked as approved in writing by the Assistant Administrator. If the Assistant Administrator revises the gear marking requirements under paragraph (f) of this section, the gear must be marked in compliance with these requirements.

(c) Restrictions applicable to lobster pot gear in regulated waters—(1) Gear marking requirements. No person may fish with lobster pot gear in regulated waters unless that gear is marked by gear type and region according to the gear marking code specified under paragraph (b) of this section. From January 1, 1998, all buoy lines used in connection with lobster pot gear must be marked within 2 ft (0.6 m) of the top of the buoy line (or 2 ft below a weak link) and midway along the length of the buoy line.

(2) No line floating at the surface. No person may fish with lobster pot gear that has any portion of the buoy line floating at the surface at any time, except that, if there are more than one buoy attached to a single buoy line or if there are a high flyer and a buoy used together on a single buoy line, floating line may be used between these objects.

(3) No wet storage of gear. No person may leave lobster pot gear in the water without hauling it out of the water at least once in 30 days.

(4) Cape Cod Bay Restricted area—(i) Area. The Cape Cod Bay restricted area consists of the Cape Cod Bay Critical Habitat area specified under 50 CFR 216.13(a), unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section.

(ii) Winter restricted period. The winter restricted period for this area is from January 1 through May 15 of each year, unless the Assistant Administrator revises the restricted period in accordance with paragraph (g) of this section. The Assistant Administrator may waive the restrictions of these paragraphs through a document in the Federal Register if it is determined that right whales have left the critical habitat and are unlikely to return for the remainder of the winter restricted period. During the winter restricted period, no person may fish with lobster pot gear in the Cape Cod Bay Restricted Area unless person's gear complies with the following requirements:

(A) Weak links. All buoy lines are attached to the buoy with a weak link. The breaking strength of this weak link must be no more than 1100 lb;

(B) Multiple pot trawls. All pots are set in trawls of four or more pots. Single pots and two or three pot trawls are not allowed.

(C) Sinking buoy lines. All buoy lines are sinking line except the bottom portion of the line, which may be a section of floating line not to exceed 1/3 the overall length of the buoy line.

(D) Sinking ground line. All ground lines are made entirely of sinking line.

(iii) Other restricted period. From May 16 through December 31 of each year, no person may fish with lobster pot gear in the Cape Cod Bay Restricted Area unless that person's gear complies with at least two of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(11) of this section. The Assistant Administrator may revise this restricted period in accordance with paragraph (g) of this section.

(5) Great South Channel Restricted Lobster Area—(i) Area. The Great South Channel restricted area consists of the Great South Channel Critical Habitat area specified under 50 CFR 216.13(a), unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section.

(ii) Spring closed period. The spring closed period for this area is from April 1 through June 30 of each year unless the Assistant Administrator revises the closed period in accordance with
paragraph (g) of this section. During the spring closed period, no person may fish with or set lobster pot gear in the Great South Channel restricted lobster area unless the Assistant Administrator specifies gear modifications or alternative fishing practices in accordance with paragraph (g) of this section and the gear or practices comply with those specifications.

(iii) Other restricted period. From July 1 through March 31 no person may fish with lobster pot gear in the Great South Channel Restricted Lobster Area unless that person’s gear complies with at least two of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(11) of this section. The Assistant Administrator may revise this restricted period in accordance with paragraph (g) of this section.

(6) Stellwagen Bank/Jeffreys Ledge Restricted Area—(i) Area. The Stellwagen Bank/Jeffreys Ledge restricted area consists of all Federal waters of the Gulf of Maine that lie to the south of the 43°15’ N lat. line and west of the 70°W long. line, except for right whale critical habitat, unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section.

(ii) Gear Requirements. No person may fish with lobster pot gear in the Stellwagen Bank/Jeffreys Ledge Restricted Area unless that person’s gear complies with at least two of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(11) of this section. The Assistant Administrator may revise this requirement in accordance with paragraph (g) of this section.

(7) Northern offshore lobster waters—(i) Area. The northern offshore waters area includes all offshore lobster waters north of 41°30’ N lat., except for areas included in the Great South Channel Critical Habitat.

(ii) Gear requirements. No person may fish with lobster pot gear in the northern offshore lobster waters area unless that person’s gear complies with at least one of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(11) of this section. The Assistant Administrator may revise this requirement in accordance with paragraph (g) of this section.

(8) Southern offshore lobster waters—(i) Area. The southern offshore waters area includes all offshore lobster waters south of 41°30’ N lat., except for areas included in the Great South Channel Critical Habitat.

(ii) Gear requirements. From December 1 through March 31 no person may fish with lobster pot gear in the southern offshore lobster waters area unless that person’s gear complies with at least one of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(11) of this section. The Assistant Administrator may revise this requirement in accordance with paragraph (g) of this section.

(9) Northern inshore lobster waters—(i) Area. Northern inshore lobster waters consist of all inshore lobster waters north of 41°30’ N lat., except the Cape Cod Bay restricted area, Great South Channel restricted area and the Stellwagen Bank/Jeffreys Ledge restricted area.

(ii) Gear requirements. No person may fish with lobster pot gear in the northern inshore lobster waters area unless that person’s gear complies with at least one of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(11) of this section. The Assistant Administrator may revise this requirement in accordance with paragraph (g) of this section.

(10) Southern inshore lobster waters—(i) Area. The southern inshore lobster waters south of 41°30’ N lat., except the Great South Channel restricted area.

(ii) Gear requirements. From December 1 through March 31 no person may fish with lobster pot gear in the southern inshore lobster waters area unless that person’s gear complies with at least one of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(11) of this section. The Assistant Administrator may revise this requirement in accordance with paragraph (g) of this section.

(11) Lobster Take Reduction Technology List. The following gear characteristics comprise the Lobster Take Reduction Technology List:

(i) All buoy lines are 7/8 inches in diameter or less.
(ii) All buoys are attached to the buoy line with a weak link having a maximum breaking strength of up to 1100 lb. Weak links may include swivels, plastic weak links, rope of appropriate diameter, hog rings, rope stapled to a buoy stick, or other materials or devices approved in writing by the Assistant Administrator.

(iii) For gear set in offshore lobster areas only, all buoys are attached to the buoy line with a weak link having a maximum breaking strength of up to 3700 lb.

(iv) For gear set in offshore lobster areas only, all buoys are attached to the buoy line by a section of rope no more than ¾ the diameter of the buoy line.

(v) All buoy lines are composed entirely of sinking line.

(vi) All ground lines are made of sinking line.

(d) Restrictions applicable to anchored gillnet gear in regulated waters—

(1) Marking requirements. No person may fish with anchored gillnet gear in northeast or mid-Atlantic waters unless that gear is marked according to the gear marking code specified under paragraph (b) of this section. From January 1, 1998, all buoy lines used in connection with anchored gillnets must be marked within 2 ft (0.6 m) of the top of the buoy line (or two ft below a weak link) and midway along the length of the buoy line.

(2) No line floating at the surface. No person may fish with anchored gillnet gear that has any portion of the buoy line floating at the surface at any time, except that, if there are more than one buoy attached to a single buoy line or if there are a high flyer and a buoy used together on a single buoy line, floating line may be used between these objects.

(3) Cape Cod Bay restricted area—

(ii) Area. The Cape Cod Bay restricted area consists of the Cape Cod Bay Critical Habitat area specified under 50 CFR 216.13(b), unless the Assistant Administrator extends that area under paragraph (g) of this section.

(ii) Winter restricted period. The winter restricted period for this area is from January 1 through May 15 of each year, unless the Assistant Administrator revises the restricted period under paragraph (g) of this section. During the winter restricted period, no person may fish with anchored gillnet gear in the Cape Cod Bay restricted area unless the Assistant Administrator specifies gear modifications or alternative fishing practices under paragraph (g) of this section and the gear or practices comply with those specifications. The Assistant Administrator may waive this closure for the remaining portion of any year through a notification in the Federal Register if NMFS determines that right whales have left the critical habitat and are unlikely to return for the remainder of the season.

(iii) Other restricted period. From May 16 through December 31 of each year, no person may fish with anchored gillnet gear in the Cape Cod Bay Restricted Area unless that person’s gear complies with at least two of the characteristics of the Gillnet Take Reduction Technology List in paragraph (d)(9) of this section. The Assistant Administrator may revise this restricted period in accordance with paragraph (g) of this section.

(4) Great South Channel restricted gillnet area—

(i) Area. The Great South Channel restricted gillnet area consists of the area bounded by lines connecting the following four points: 41°02.2′ N/69°02′ W., 41°43.5′ N/69°36.3′ W., 42°10′ N/68°31′ W., and 41°38′ N/68°13′ W., unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section. This area includes the Great South Channel critical habitat area specified under 50 CFR 216.13(a), except for the “sliver area” identified below.

(ii) Spring closed period. The spring closed period for this area is from April 1 through June 30 of each year unless the Assistant Administrator revises the closed period in accordance with paragraph (g) of this section. During the spring closed period, no person may set or fish with anchored gillnet gear in the Great South Channel restricted gillnet area unless the Assistant Administrator specifies gear modifications or alternative fishing practices in accordance with paragraph (g) of this section and the gear or practices comply with those specifications.
§ 229.32

(iii) Other restricted period. From July 1 through March 31 no person may fish with lobster pot gear in the Great South Channel restricted gillnet area unless that person's gear complies with at least two of the characteristics of the Gillnet Take Reduction Technology List in paragraph (d)(9) of this section. The Assistant Administrator may revise this restricted period in accordance with paragraph (g) of this section.

(5) Great South Channel sliver restricted area—(i) Area. The Great South Channel sliver restricted area consists of the area bounded by lines connecting the following points: 41°02′.7 N/69°02′ W., 41°43′.5 N/69°36′.3 W., 41°40′ N/69°45′ W., and 41°00′ N/69°05′ W., unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section.

(ii) Gear requirements. No person may fish with anchored gillnet gear in the Great South Channel sliver restricted area unless that person's gear complies with at least two of the characteristics of the Gillnet Take Reduction Technology List in paragraph (d)(9) of this section. The Assistant Administrator may revise these requirements in accordance with paragraph (g) of this section.

(6) Stellwagen Bank/Jeffreys Ledge restricted area—(i) Area. The Stellwagen Bank/Jeffreys Ledge restricted area consists of all Federal waters of the Gulf of Maine that lie to the south of the 43°15′ N. lat. line and west of the 70° W. long. line, except right whale critical habitat, unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section.

(ii) Gear requirements. No person may fish with anchored gillnet gear in the Stellwagen Bank/Jeffreys Ledge restricted area unless that person's gear complies with at least two of the characteristics of the Gillnet Take Reduction Technology List in paragraph (d)(9) of this section. The Assistant Administrator may revise these requirements in accordance with paragraph (g) of this section.

(7) Other northeast waters area—(i) Area. The other northeast waters area consists of all northeast waters except for the Cape Cod Bay restricted area, the Great South Channel restricted gillnet area and Great South Channel sliver restricted areas and the Stellwagen Bank/Jeffreys Ledge restricted area.

(ii) Gear requirements. No person may fish with anchored gillnet gear in the other northeast waters area unless that person's gear complies with at least one of the characteristics of the Gillnet Take Reduction Technology List in paragraph (d)(9) of this section. The Assistant Administrator may revise these requirements in accordance with paragraph (g) of this section.

(8) Mid-Atlantic coastal waters area—(i) Area. The mid-Atlantic coastal waters area is defined in §229.2.

(ii) Gear requirements. From December 1 through March 31, no person may fish with anchored gillnets in mid-Atlantic coastal waters area unless that person's gear complies with at least one of the characteristics of the Gillnet Take Reduction Technology List in paragraph (d)(9) of this section. The Assistant Administrator may revise these requirements in accordance with paragraph (g) of this section.

(9) Gillnet Take Reduction Technology List. The following gear characteristics comprise the Gillnet Take Reduction Technology List:

(i) All buoy lines are 7/16 inches in diameter or less.

(ii) All buoys are attached to the buoy line with a weak link having a maximum breaking strength of up to 1100 lb. Weak links may include swivels, plastic weak links, rope of appropriate diameter, hog rings, rope stapled to a buoy stick, or other materials or devices approved in writing by the Assistant Administrator.

(iii) Gear is anchored with the holding power of a 22 lb. danforth-style anchor at each end.

(iv) Gear is anchored with a 50 lb dead weight at each end.

(v) Nets are attached to a lead line weighing 100 lb or more per 300 feet.

(vi) Weak links with a breaking strength of up to 1100 lb are installed in the float rope between net panels.

(vii) All buoy lines are composed entirely of sinking line.

(e) Restrictions applicable to mid-Atlantic driftnet gear—(1) Gear marking requirements. No person may fish in mid-
Atlantic coastal waters with drift gillnet gear unless that gear is marked by gear type and region according to the gear marking code specified under paragraph (b) of this section. From January 1, 1998, all buoy lines used in connection with driftnet gear in the mid-Atlantic must be marked within 2 ft (0.6 m) of the top of the buoy line and midway along the length of the buoy line according to gear type and region.

(2) Restrictions. From January 1, 1998, during the winter/spring restricted period, no person may fish at night with driftnet gear in the mid-Atlantic coastal waters area unless that gear is tended. Before a vessel returns to port, all driftnet gear set by that vessel in the mid-Atlantic coastal waters area must be removed from the water and stowed on board the vessel. The winter/spring restricted period for this area is from December 1 through March 31 unless the Assistant Administrator revises that restricted period in accordance with paragraph (g) of this section.

(f) Restrictions applicable to shark driftnet gear—(1) Gear marking requirements. No person may fish with drift gillnet gear in southeast waters unless that gear is marked according to the gear marking code specified under paragraph (b) of this section. From November 1, 1998, all buoy lines must be marked within 2 ft (0.6 m) of the top of the buoy line and midway along the length of the buoy line. From November 1, 1999, each net panel must be marked along both the float line and the lead line at least once every 100 feet (30.8 m).

(2) Management areas—(i) SEUS restricted area. The southeast U.S. restricted area consists of the area from 32°00' N lat. (near Savannah, GA) south to 27°51' N lat. (near Sebastian Inlet, FL), extending from the shore eastward to 80°00' W long., unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section.

(ii) SEUS observer area. The SEUS observer area consists of the SEUS restricted area and an additional area along the coast south to 28°46.5' N lat. (near West Palm Beach, FL) and extending from the shore eastward out to 80°00' W long., unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section.

(3) Restrictions—(i) Closure. Except as provided under paragraph (f)(3)(iii) of this section, no person may fish with driftnet gear in the SEUS restricted area during the closed period. The closed period for this area is from November 1 through March 31 of the following year, unless the Assistant Administrator changes that closed period in accordance with paragraph (g) of this section.

(ii) Observer requirement. No person may fish with driftnet gear in the SEUS observer area from November 1 through March 31 of the following year unless the operator of the vessel calls the SE Regional Office in St. Petersburg, FL, not less than 48 hours prior to departing on any fishing trip in order to arrange for observer coverage. If the Regional Office requests that an observer be taken on board a vessel during a fishing trip at any time from November 1 through March 31 of the following year, no person may fish with driftnet gear aboard that vessel in the SEUS observer area unless the observer is on board that vessel during the trip.

(iii) Special provision for strikenets. Fishing with strikenet gear is exempt from the restriction under paragraph (e)(3)(ii) of this section if:

(A) No nets are set at night or when visibility is less than 500 yards (460 m).

(B) Each set is made under the observation of a spotter plane.

(C) No net is set within 3 nautical miles of a right, humpback, or fin whale.

(D) If a right, humpback or fin whale moves within 3 nautical miles of the set gear, the gear is removed immediately from the water.

(g) Other provisions. In addition to any other emergency authority under the Marine Mammal Protection Act, the Endangered Species Act, the Magnuson-Stevens Fishery Conservation and Management Act, or other appropriate authority, the Assistant Administrator may take action under this section in the following situations:

(1) Entanglements in critical habitat. If a serious injury or mortality of a right whale occurs in the Cape Cod Bay critical habitat from January 1 through
Pt. 229, Fig. 1

May 15, in the Great South Channel restricted areas from April 1 through June 30, or in the SEUS restricted area from November 1 through March 31 as a result of an entanglement by gear types allowed to be used in those areas and times, the Assistant Administrator shall close that area to that gear type for the rest of that time period and for that same time period in each subsequent year, unless the Assistant Administrator revises the restricted period in accordance with paragraph (g)(2) of this section or unless other measures are implemented under paragraph (g)(2) of this section.

(2) Other special measures. The Assistant Administrator may revise the requirements of this section through publication of a rule in the Federal Register if:

(i) NMFS verifies that certain gear characteristics are both operationally effective and reduce serious injuries and mortalities of endangered whales;
(ii) New gear technology is developed and determined to be appropriate;
(iii) Revised breaking strengths are determined to be appropriate;
(iv) New marking systems are developed and determined to be appropriate;
(v) NMFS determines that right whales are remaining longer than expected in a closed area or have left earlier than expected;
(vi) NMFS determines that the boundaries of a closed area are not appropriate;
(vii) Gear testing operations are considered appropriate; or
(viii) Similar situations occur.

SUBCHAPTER D—WHALING

PART 230—WHALING PROVISIONS

Sec. 230.1 Purpose and scope.
230.2 Definitions.
230.3 General prohibitions.
230.4 Aboriginal subsistence whaling.
230.5 Licenses for aboriginal subsistence whaling.
230.6 Quotas and other restrictions.
230.7 Salvage of stinkers.
230.8 Reporting by whaling captains.

AUTHORITY: 16 U.S.C. 916 et seq.
SOURCE: 61 FR 29631, June 11, 1996, unless otherwise noted.

§ 230.1 Purpose and scope.
The purpose of the regulations in this part is to implement the Whaling Convention Act (16 U.S.C. 916 et seq.) by prohibiting whaling except for aboriginal subsistence whaling allowed by the International Whaling Commission.

Rules elsewhere in this chapter govern such topics as scientific research permits, and incidental take and harassment of marine mammals.

§ 230.2 Definitions.
Aboriginal subsistence whaling means whaling authorized by paragraph 13 of the Schedule annexed to and constituting a part of the Convention.

Assistant Administrator means the Assistant Administrator for Fisheries of the National Oceanic and Atmospheric Administration.

Authorized officer means:
(1) Any commissioned, warrant, or petty officer of the U.S. Coast Guard;
(2) Any special agent or enforcement officer of the National Marine Fisheries Service;
(3) Any officer designated by the head of a Federal or state agency that has entered into an agreement with the Secretary of Commerce or the Commandant of the Coast Guard to enforce the provisions of the Whaling Convention Act; or
(4) Any Coast Guard personnel accompanying and acting under the direction of any person described in paragraph (1) of this definition.

Calf means any whale less than 1 year old or having milk in its stomach.

Commission means the International Whaling Commission established by article III of the Convention.

Convention means the International Convention for the Regulation of Whaling signed at Washington on December 2, 1946.

Cooperative agreement means a written agreement between the National Oceanic and Atmospheric Administration and a Native American whaling organization for the cooperative management of aboriginal subsistence whaling operations.

Landing means bringing a whale or any parts thereof onto the ice or land in the course of whaling operations.

Native American whaling organization means an entity recognized by the National Oceanic and Atmospheric Administration as representing and governing Native American whalers for the purposes of cooperative management of aboriginal subsistence whaling.

Regulations of the Commission means the regulations in the Schedule annexed to and constituting a part of the Convention, as modified, revised, or amended by the Commission from time to time.

Stinker means a dead, unclaimed whale found upon a beach, stranded in shallow water, or floating at sea.

Strike means hitting a whale with a harpoon, lance, or explosive device.

Wasteful manner means a method of whaling that is not likely to result in the landing of a struck whale or that does not include all reasonable efforts to retrieve the whale.

Whale products means any unprocessed part of a whale and blubber, meat, bones, whale oil, sperm oil, spermaceti, meal, and baleen.

Whaling means the scouting for, hunting, striking, killing, flensing, or landing of a whale, and the processing of whales or whale products.
§ 230.3 General prohibitions.

(a) No person shall engage in whaling in a manner that violates the Convention, any regulation of the Commission, or this part.

(b) No person shall engage in whaling without first having obtained a license or scientific research permit issued by the Assistant Administrator.

(c) No person shall ship, transport, purchase, sell, offer for sale, import, export, or possess any whale or whale products taken or processed in violation of the Convention, any regulation of the Commission, or this part, except as specified in §230.4(f).

(d) No person shall fail to make, keep, submit, or furnish any record or report required of him/her by the Convention, any regulation of the Commission, or this part.

(e) No person shall refuse to permit any authorized officer to enforce the Convention, any regulation of the Commission, or this part.

§ 230.4 Aboriginal subsistence whaling.

(a) No person shall engage in aboriginal subsistence whaling, except a whaling captain licensed pursuant to §230.5 or a member of a whaling crew under the control of a licensed captain.

(b) No whaling captain shall engage in whaling that is not in accordance with the regulations of the Commission, this part, and the relevant cooperative agreement.

(c) No whaling captain shall engage in whaling for any calf or any whale accompanied by a calf.

(d) No whaling captain shall engage in whaling without an adequate crew or without adequate supplies and equipment.

(e) No person may receive money for participation in aboriginal subsistence whaling.

(f) No person may sell or offer for sale whale products from whales taken in an aboriginal subsistence hunt, except that authentic articles of Native handicrafts may be sold or offered for sale.

(g) No whaling captain shall continue to whale after:

(1) The quota set for his/her village by the relevant Native American whaling organization is reached;

(2) The license under which he/she is whaling is suspended as provided in §230.5(b); or

(3) The whaling season for that species has been closed pursuant to §230.6.

(h) No whaling captain shall claim domicile in more than one whaling village.

(i) No person may salvage a stinker without complying with the provisions of §230.7.

(j) No whaling captain shall engage in whaling with a harpoon, lance, or explosive dart that does not bear a permanent distinctive mark identifying the captain as the owner thereof.

(k) No whaling captain shall engage in whaling in a wasteful manner.

§ 230.5 Licenses for aboriginal subsistence whaling.

(a) A license is hereby issued to whaling captains identified by the relevant Native American whaling organization.

(b) The Assistant Administrator may suspend the license of any whaling captain who fails to comply with the regulations in this part.

§ 230.6 Quotas and other restrictions.

(a) Quotas for aboriginal subsistence whaling shall be set in accordance with the regulations of the Commission. Quotas shall be allocated to each whaling village or captain by the appropriate Native American whaling organization. The Assistant Administrator shall publish in the Federal Register, at least annually, aboriginal subsistence whaling quotas and any other limitations on aboriginal subsistence whaling deriving from regulations of the Commission. These quotas and restrictions shall also be incorporated in the relevant cooperative agreements.
§ 230.8 Reporting by whaling captains.

(a) The relevant Native American whaling organization shall require each whaling captain licensed pursuant to §230.5 to provide a written statement of his/her name and village of domicile and a description of the distinctive marking to be placed on each harpoon, lance, and explosive dart.

(b) Each whaling captain shall provide to the relevant Native American whaling organization an oral or written report of whaling activities including but not limited to the striking, attempted striking, or landing of a whale and, where possible, specimens from landed whales. The Assistant Administrator is authorized to provide technological assistance to facilitate prompt reporting and collection of specimens from landed whales, including but not limited to ovaries, ear plugs, and baleen plates. The report shall include at least the following information:

1. The number, dates, and locations of each strike, attempted strike, or landing.
2. The length (taken as the straight-line measurement from the tip of the upper jaw to the notch between the tail flukes) and the sex of the whales landed.
3. The length and sex of a fetus, if present in a landed whale.
4. An explanation of circumstances associated with the striking or attempted striking of any whale not landed.

(c) If the relevant Native American whaling organization fails to provide the National Marine Fisheries Service the required reports, the Assistant Administrator may require the reports to be submitted by the whaling captains directly to the National Marine Fisheries Service.
PART 253—FISHERIES ASSISTANCE PROGRAMS

Subpart A—General

§ 253.1 Purpose.

(a) The regulations in this part pertain to fisheries assistance programs. Subpart B of these rules governs the Fisheries Obligation Guarantee Program, which guarantees the repayment of certain long-term fisheries and aquacultural debts. This allows those debts to be placed in the same private investment market that buys U.S. Treasury securities, where interest rates are lower and maturities are longer. The Program does all credit work and holds and services all credit collateral. The Program’s guarantee fee makes it self-supporting.

(b) Subpart C implements Title III of Public Law 99-659 (16 U.S.C. 4100 et seq.), which has two objectives:

1. To promote and encourage State activities in support of the management of interjurisdictional fishery resources identified in interstate or Federal fishery management plans; and

2. To promote and encourage management of interjurisdictional fishery resources throughout their range.

(3) The scope of this part includes guidance on making financial assistance awards to States or Interstate Commissions to undertake projects in support of management of interjurisdictional fishery resources in both the exclusive economic zone (EEZ) and State waters, and to encourage States to enter into enforcement agreements with either the Department of Commerce or the Department of the Interior.

Subpart B—Fisheries Obligation Guarantee Program

§ 253.10 Definitions.

The terms used in this subpart have the following meanings:

Act means Title XI of the Merchant Marine Act, 1936, as amended.

Actual cost means project cost (less a 10-percent salvage value), depreciated (excluding land) on a straightline basis at 1-year intervals over the project property’s useful life including architectural, engineering, inspection, delivery, outfitting, and interest costs, as well as the cost of any consulting contract the Division requires.

Applicant means the one applying for a guarantee (the prospective notemaker).

Application means an application for a guarantee.

Application fee means 0.5 percent of the dollar amount of an application.

Aquacultural facility means land, land structures, water structures, water craft built in the U.S., and equipment for hatching, caring for, or growing fish under controlled circumstances.
to repay a guaranteed note if a notemaker fails to repay it as agreed. Guarantee fee means 1 percent of a guaranteed note's average annual unpaid principal balance. Guaranteed note means a promissory note from a notemaker to a noteholder whose repayment the guarantor guarantees. Guarantor means the U.S., acting, under the Act, by and through the Secretary of Commerce. Industry means the fisheries and/or aquacultural industry. Noteholder means a guaranteed note payee. Notemaker means a guaranteed note payor. Passenger fishing means carrying in vessels for commercial purposes passengers who catch fish. Program means the Fisheries Obligation Guarantee Program. Project means the construction of new project property or the refurbishing or purchase of used project property including architectural, engineering, inspection, delivery, outfitting, and interest costs, as well as the cost of any consulting contract the Division requires. Project property means the vessel or facility involved in a project whose actual cost is eligible under the Act for guarantee and controls the dollar amount of a guaranteed note. Property means the project property and all other property pledged as security for a U.S. note. Qualified means acceptable, in the Division's credit risk judgment, and otherwise meeting the Division's requirements for guarantee. Refinancing means newer debt that either replaces older debt or reimburses applicants for previous expenditures. Refinancing/assumption fee means 0.25 percent of the principal amount of a guaranteed note to be refinanced or assumed. Refurbishing means any reconstruction, reconditioning, or other improvement of used project property involving more than routine repair or maintenance. Security documents mean all collateral securing the U.S. note's repayment and all other assurances, undertakings, and
§ 253.11 Guarantee policy.

(a) A guarantee financing or refinancing up to 80 percent of a project’s actual cost shall be available to any qualified citizen otherwise eligible under the Act and these rules, except:

(1) Vessel construction. The Program will not finance this project cost. The Program will only refinance this project cost for an existing vessel whose previous construction cost has already been financed (or otherwise paid). Refinancing this project cost for a vessel that already exists is not inconsistent with wise use, but financing it may be.

(2) Vessel refurbishing that materially increases an existing vessel’s harvesting capacity. The Program will not finance this project cost. The Program will only refinance this project cost for a vessel whose previous refurbishing cost has already been financed (or otherwise paid). Refinancing this project cost is not inconsistent with wise use, but financing it may be.

(3) Purchasing a used vessel or used fishery facility. The Program will neither finance nor refinance this project cost (except for a used vessel or fishery facility that the Program purchased and is reselling), unless the used vessel or fishery facility will be refurbished in the United States and will be a contributory project or it will be used in an underutilized fishery.

(b) Every project, other than those specified in paragraphs (a) (1) and (2) of this section, is consistent with wise use and every project, other than those specifically precluded in paragraphs (a) (1) and (2) of this section, may be financed, as well as refinanced.

(a) Guaranteed note—(1) Principal. This may not exceed 80 percent of actual cost, but may, in the Division’s credit judgment, be less.

(2) Maturity. This may not exceed 25 years, but shall not exceed the project property’s useful life and may, in the Division’s credit judgment, be less.

(3) Interest rate. This may not exceed the amount the Division deems reasonable.

(4) Prepayment penalty. The Division will allow a reasonable prepayment penalty, but the guarantor will not guarantee a notemaker’s payment of it.

(5) Form. This will be the simple promissory note (with the guarantee attached) the Division prescribes, promising only to pay principal, interest, and prepayment penalty.

(6) Sole security. The guaranteed note and the guarantee will be the noteholder’s sole security.

(b) U.S. note and security documents—(1) Form. The U.S. note and security documents will be in the form the Division prescribes.

(2) U.S. note. This exists to evidence the notemaker’s actual and contingent liability to the guarantor (contingent if the guarantor does not pay the guaranteed note (including any portion of it), on the notemaker’s behalf or if the guarantor does not advance any other amounts or incur any other expenses on the notemaker’s behalf to protect
the U.S. or accommodate the notemaker; actual if, and to the same monetary extent that, the guarantor does. Payment of the guaranteed note by anyone but the guarantor will amortize the original principal balance (and interest accruing on it) of the U.S. note to the same extent that it amortizes the guaranteed note. The U.S. note will, among other things, contain provisions for adding to its principal balance all amounts the Program advances, or expenses it incurs, to protect the U.S. or accommodate the notemaker.

(3) Security documents. The Division will, at a minimum, require a pledge of all project property (or adequate substitute collateral). The Division will require such other security as it deems the circumstances of each notemaker and project require to protect the U.S. All security documents will secure the U.S. note. The security documents will, among other things, contain provisions for adding to the U.S. note all Program advances, expenditures, and expenses required to protect the U.S. or accommodate the notemaker.

(4) Recourse. Significant Program reliance, as a secondary means of repayment, on the net worths of parties other than the notemaker will ordinarily require secured recourse against those net worths. Recourse may be by a repayment guarantee or irrevocable letter of credit. Ordinarily, the Division will require recourse against: All major shareholders of a closely-held corporate notemaker, the parent corporation of a subsidiary corporate notemaker without substantial pledged assets other than the project property, and all major limited partners. The Division may also require recourse against others it deems necessary to protect the U.S. The principal parties in interest, who ultimately stand most to benefit from the project, should ordinarily be held financially accountable for the project’s performance. Where otherwise appropriate recourse is unavailable, the conservatively projected net liquidating value of the notemaker’s assets pledged to the Program must, in the Division’s credit judgment, substantially exceed all projected Program exposure.

(c) Dual-use CCF. For a vessel, the Division may require annually depositing some portion of the project property’s net income into a dual-use CCF. A dual-use CCF provides the normal CCF tax-deferral benefits, but also gives the Program control of CCF withdrawals and recourse against CCF deposits and ensures an emergency refurbishing reserve (tax-deferred) for project property.

§ 253.13 Ability and experience requirements.

A notemaker and the majority of its principals must generally have the ability, experience, resources, character, reputation, and other qualifications the Division deems necessary for successfully operating the project property and protecting the U.S. The Program will ordinarily not provide guarantees: For venture capital purposes; to a notemaker whose principals are all from outside the industry; or for a notemaker the majority of whose principals cannot document successful industry ability and experience of a duration, degree, and nature consistent with protecting the U.S.

§ 253.14 Economic and financial requirements.

(a) Income and expense projections. The Division’s conservative income and expense projections for the project property’s operation must prospectively indicate net earnings that can service all debt, properly maintain the project property, and protect the U.S. against the industry’s cyclical economics and other risks of loss.

(b) Working capital. The Division’s conservative assessment of an applicant’s financial condition must indicate initial working capital prospectively sufficient to provide for the project property to achieve net earnings projections, fund all foreseeable contingencies, and protect the U.S. At the Division’s discretion, some portion of projected working capital needs may be met by something other than current assets minus current liabilities (i.e., by a line or letter of credit, non-current assets readily capable of generating working capital, a guarantor with sufficient financial resources, etc.).
§ 253.15 Miscellaneous.

(a) Applicant. Only the legal title holder of project property (or the lessee of an appropriate long-term financing lease) may apply for a guarantee. Applicants must submit an "Application for Fisheries Obligation Program Guarantee" to the appropriate NMFS Regional Financial Services Branch to be considered for a guaranteed loan.

(b) Investigation and approval. The Division shall do a due diligence investigation of every application it accepts and determine if, in the Division's sole judgment, the application is eligible and qualified. Applications the Division deems ineligible or unqualified will be declined. The Division will approve eligible and qualified applications based on the applicability of the information obtained during the application and investigation process to the programmatic goals and financial requirements of the program and under terms and conditions that, in the Division's sole discretion, protect the U.S. The Division will state these terms and conditions in its approval in principal letter.

(c) Insurance. All property and other risks shall be continuously insured during the term of the U.S. note. Insurers must be acceptable to the Division. Insurance must be in such forms and amounts and against such risks as the Division deems necessary to protect the U.S. Insurance must be endorsed to include the requirements the U.S., as respects its interest only, deems necessary to protect the U.S. (e.g., the Program will ordinarily be an additional insured as well as the sole loss payee for the amount of its interest; cancellation will require 20 days' advance written notice; vessel seaworthiness will be admitted, and the Program will be adequately protected against other insureds' breaches of policy warranties, negligence, omission, etc.)

(d) Property inspections. The Division will require adequate condition and valuation inspection of all property as the basis for assessing the property's worth and suitability for guarantee. The Division may also require these at specified periods during guarantee life. These must be conducted by competent and impartial inspectors acceptable to the Division. Inspection cost will be at an applicant's expense. Those occurring before application approval may be included in actual cost.

(e) Guarantee terms and conditions. The Division's approval in principle letter shall specify the terms and conditions of the guarantor's willingness to guarantee. These shall be incorporated in closing documents that the Division prepares. Terms and conditions are at the Division's sole discretion. An applicant's nonacceptance will result in disqualification for guarantee.

(f) Noteholder. The Division will, as a gratuitous service, request parties interested in investing in guaranteed notes to submit offers to fund each prospective guaranteed note. The Division and the applicant will, by mutual consent, choose the responsive bidder, which ordinarily will be the prospective noteholder whose bid represents the lowest net effective annual cost of capital. Until the Division has closed the guarantee, arrangements between an applicant and a prospective noteholder are a matter of private contract between them, and the Program is not responsible to either for nonperformance by the other.

(g) Closing—(1) Approval in principle letters. Every closing will be in strict accordance with a final approval in principle letter.
(2) Contracts. The guaranteed note, U.S. note, and security documents will ordinarily be on standard Program forms that may not be altered without Divisional approval. The Division will ordinarily prepare all contracts, except certain pledges involving real property, which will be prepared by each notemaker’s attorney at the direction and approval of the Division’s attorney.

(3) Closing schedules. The Division will ordinarily close guarantee transactions with minimal services from applicants’ attorneys, except where real property pledges or other matters appropriate for private counsel are involved. Real property services required from an applicant's attorney may include: Title search, mortgage and other document preparation, execution and recording, escrow and disbursement, and a legal opinion and other assurances. An applicant’s attorney’s expense, and that of any other private contractor required, is for applicant’s account. Attorneys and other contractors must be satisfactory to the Division. The Division will attempt to meet reasonable closing schedules, but will not be liable for adverse interest-rate fluctuations, loss of commitments, or other consequences of being unable to meet an applicant’s and a prospective noteholder's closing schedule. These parties should work closely with the Division to ensure a closing schedule the Division can meet.

§ 253.16 Fees.

(a) Application fee. The Division will not accept an application without the application fee. Fifty percent of the application fee is fully earned at application acceptance, and is not refundable. The rest is fully earned when the Division issues an approval in principal letter, and it is refundable only if the Division declines an application or an applicant requests refund before the Division issues an approval in principal letter.

(b) Guarantee fee. Each guarantee fee will be due in advance and will be based on the guaranteed note’s repayment provisions for the prospective year. The first annual guarantee fee is due at guarantee closing. Each subsequent one is due and payable on the guarantee closing’s anniversary date. Each is fully earned when due, and shall not subsequently be refunded for any reason.

(c) Refinancing or assumption fee. This fee applies only to refinancing or assuming existing guaranteed notes. It is due upon application for refinancing or assuming a guaranteed note. It is fully earned when due and shall be non-refundable. The Division may waive a refinancing or assumption fee's payment when the refinancing or assumption's primary purpose is to protect the U.S.

(d) Where payable. Fees are payable by check made payable to “NMFS/FSFF.” Other than those collected at application or closing, fees are payable by mailing checks to: U.S. Department of Commerce, National Oceanic and Atmospheric Administration, National Marine Fisheries Service, P.O. Box 73004, Chicago, Ill. 60673. To ensure proper crediting, each check must include the official case number the Division assigns to each guarantee.

§ 253.17 Demand and payment.

Every demand must be delivered in writing to the Division. Each must include the noteholder’s certified record of the date and amount of each payment made on the guaranteed note and the manner of its application. Should the Division not acknowledge receipt of a timely demand, the noteholder must possess evidence of the demand’s timely delivery.

§ 253.18 Program operating guidelines.

The Division may issue Program operating guidelines, as the need arises, governing national Program policy and administrative issues not addressed by these rules.

§ 253.19 Default and liquidation.

Upon default of the security documents, the Division shall take such remedial action (including, where appropriate, liquidation) as it deems best able to protect the U.S.’ interest.
§ 253.20 Definitions.

The terms used in this subpart have the following meanings:

Adopt means to implement an interstate fishery management plan by State action or regulation.

Commercial fishery failure means a serious disruption of a fishery resource affecting present or future productivity due to natural or undetermined causes. It does not include either:

(1) The inability to harvest or sell raw fish or manufactured and processed fishery merchandise; or

(2) Compensation for economic loss suffered by any segment of the fishing industry as the result of a resource disaster.

Enforcement agreement means a written agreement, signed and dated, between a state agency and either the Secretary of the Interior or Secretary of Commerce, or both, to enforce Federal and state laws pertaining to the protection of interjurisdictional fishery resources.

Federal fishery management plan means a plan developed and approved under the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.).

Fisheries management means all activities concerned with conservation, restoration, enhancement, or utilization of fisheries resources, including research, data collection and analysis, monitoring, assessment, information dissemination, regulation, and enforcement.

Fishery resource means finfish, mollusks, and crustaceans, and any form of marine or Great Lakes animal or plant life, including habitat, other than marine mammals and birds.

Interjurisdictional fishery resource means:

(1) A fishery resource for which a fishery occurs in waters under the jurisdiction of one or more states and the U.S. Exclusive Economic Zone; or

(2) A fishery resource for which an interstate or a Federal fishery management plan exists; or

(3) A fishery resource which migrates between the waters under the jurisdiction of two or more States bordering on the Great Lakes.

Interstate Commission means a commission or other administrative body established by an interstate compact.

Interstate compact means a compact that has been entered into by two or more states, established for purposes of conserving and managing fishery resources throughout their range, and consented to and approved by Congress.

Interstate Fisheries Research Program means research conducted by two or more state agencies under a formal interstate agreement.

Interstate fishery management plan means a plan for managing a fishery resource developed and adopted by the member states of an Interstate Marine Fisheries Commission, and contains information regarding the status of the fishery resource and fisheries, and recommends actions to be taken by the States to conserve and manage the fishery resource.

Landed means the first point of off-loading fishery resources.

NMFS Regional Director means the Director of any one of the five National Marine Fisheries Service regions.

Project means an undertaking or a proposal for research in support of management of an interjurisdictional fishery resource or an interstate fishery management plan.

Research means work or investigative study, designed to acquire knowledge of fisheries resources and their habitat.

Secretary means the Secretary of Commerce or his/her designee.

State means each of the several states, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, Guam, or the Commonwealth of the Northern Mariana Islands.

State Agency means any department, agency, commission, or official of a state authorized under the laws of the State to regulate commercial fisheries or enforce laws relating to commercial fisheries.

Value means the monetary worth of fishery resources used in developing the apportionment formula, which is equal to the price paid at the first point of landing.
Volume means the weight of the fishery resource as landed, at the first point of landing.

§ 253.21 Apportionment.

(a) Apportionment formula. The amount of funds apportioned to each state is to be determined by the Secretary as the ratio which the equally weighted average of the volume and value of fishery resources harvested by domestic commercial fishermen and landed within such state during the 3 most recent calendar years for which data satisfactory to the Secretary are available bears to the total equally weighted average of the volume and value of all fishery resources harvested by domestic commercial fishermen and landed within all of the states during those calendar years.

(1) The equally weighted average value is determined by the following formula:

\[
\frac{\text{Volume of X State}}{\text{Volume of all States}} = A \text{ percent}
\]

\[
\frac{\text{Value of X State}}{\text{Value of all States}} = B \text{ percent}
\]

\[
\frac{A\% + B\%}{2} = \text{State percentage used to determine state's share of the total available funds}
\]

(2) Upon appropriation of funds by Congress, the Secretary will take the following actions:

(i) Determine each state's share according to the apportionment formula.

(ii) Certify the funds to the respective NMFS Regional Director.

(iii) Instruct NMFS Regional Directors to promptly notify states of funds' availability.

(b) No state, under the apportionment formula in paragraph (a) of this section, that has a ratio of one-third of 1 percent or higher may receive an apportionment for any fiscal year that is not less than 0.5 percent of the total amount of funds available for apportionment for such fiscal year.

(c) If a state's ratio under the apportionment formula in paragraph (b) of this section is less than one-third of 1 percent, that state may receive funding if the state:

(1) Is signatory to an interstate fishery compact;

(2) Has entered into an enforcement agreement with the Secretary and/or the Secretary of the Interior for a fishery that is managed under an interstate fishery management plan;

(3) Borders one or more of the Great Lakes;

(4) Has entered into an interstate cooperative fishery management agreement and has in effect an interstate fisheries management plan or an interstate fisheries research program; or

(5) Has adopted a Federal fishery management plan for an interjurisdictional fishery resource.

(d) Any state that has a ratio of less than one-third of 1 percent and meets any of the requirements set forth in paragraphs (c) (1) through (5) of this section may receive an apportionment for any fiscal year that is not less than 0.5 percent of the total amount of funds available for apportionment for such fiscal year.

(e) No state may receive an apportionment under this section for any fiscal year that is more than 6 percent of the total amount of funds available for apportionment for such fiscal year.

(f) Unused apportionments. Any part of an apportionment for any fiscal year to any state:

(1) That is not obligated during that year;

(2) With respect to which the state notifies the Secretary that it does not wish to receive that part; or

(3) That is returned to the Secretary by the state, may not be considered to be appropriated to that state and must be added to such funds as are appropriated for the next fiscal year. Any notification or return of funds by a state referred to in this section is irrevocable.

§ 253.22 State projects.

(a) General—(1) Designation of state agency. The Governor of each state shall notify the Secretary of which agency of the state government is authorized under its laws to regulate commercial fisheries and is, therefore, designated receive financial assistance awards. An official of such agency shall certify which official(s) is authorized
§ 253.23 Other funds.

(a) Funds for disaster assistance. (1) The Secretary shall retain sole authority in distributing any disaster assistance funds made available under section 308(b) of the Act. The Secretary may distribute these funds after he or she has made a thorough evaluation of the scientific information submitted, and has determined that a commercial fishery failure of a fishery resource arising from natural or undetermined causes has occurred. Funds may only be used to restore the resource affected by the disaster, and only by existing methods and technology. Any fishery resource used in computing the states’ amount under the apportionment formula in §253.21(a) will qualify for funding under this section. The Federal share of the cost of any activity conducted under the disaster provision of the Act shall be limited to 75 percent of the total cost.

50 CFR Ch. II (10-1-98 Edition)
(2) In addition, pursuant to section 308(d) of the Act, the Secretary is authorized to award grants to persons engaged in commercial fisheries, for uninsured losses determined by the Secretary to have been suffered as a direct result of a fishery resource disaster. Funds may be distributed by the Secretary only after notice and opportunity for public comment of the appropriate limitations, terms, and conditions for awarding assistance under this section. Assistance provided under this section is limited to 75 percent of an uninsured loss to the extent that such losses have not been compensated by other Federal or State programs.

(b) Funds for interstate commissions. Funds authorized to support the efforts of the three chartered Interstate Marine Fisheries Commissions to develop and maintain interstate fishery management plans for interjurisdictional fisheries will be divided equally among the Commissions.

§ 253.24 Administrative requirements.

Federal assistance awards made as a result of this Act are subject to all Federal laws, Executive Orders, Office of Management and Budget Circulars as incorporated by the award; Department of Commerce and NOAA regulations; policies and procedures applicable to Federal financial assistance awards; and terms and conditions of the awards.

PART 259—CAPITAL CONSTRUCTION FUND

§ 259.1 Execution of agreements and deposits made in a Capital Construction Fund.

In the case of a taxable year of a taxpayer beginning after December 31, 1969, and before January 1, 1972, the rules governing the execution of agreements and deposits under such agreements shall be as follows:

(a) A capital construction fund agreement executed and entered into by the taxpayer on or prior to the due date, with extensions, for the filing of his Federal income tax return for such taxable year or years will be deemed to be effective on the date of the execution of such agreement or as of the close of business of the last regular business day of each such taxable year or years to which such deposit relates, whichever day is earlier.

(b) Notwithstanding the provisions of paragraph (a) of this section, where:

(1) For taxable years beginning after December 31, 1969, and prior to January 1, 1971, an application for a capital construction fund agreement is filed by a taxpayer prior to January 1, 1972, and a capital construction fund agreement is executed and entered into by the taxpayer prior to March 1, 1972, and

(2) For taxable years beginning after December 31, 1970, and prior to January 1, 1972, an application for a capital construction fund agreement is filed by a taxpayer prior to January 1, 1973, and a capital construction fund agreement is executed and entered into by the taxpayer prior to March 1, 1973 (or, if earlier, 60 days after the publication of final joint regulations under section 607 of the Merchant Marine Act, 1936, as amended); then such a capital construction fund agreement will be deemed to be effective as of the close of business of the last regular business day of each such taxable year or years to which such deposit related.
The phrase "existing capital and special reserve funds" does not refer to the Capital Construction Fund program but rather to funds established with the Maritime Administration prior to the amendment of the Merchant Marine Act, 1936, which authorized the Capital Construction Fund program.

(c)(1) Deposits made in a capital construction fund pursuant to such an agreement within 60 days after the date of execution of the agreement, or on or prior to the due date, with extensions, for the filing of his Federal income tax return for such taxable year or years, whichever date shall be later, shall be deemed to have been made on the date of the actual deposit or as of the close of business of the last regular business day of each such taxable year or years to which such deposit relates, whichever day is earlier.

(2) Notwithstanding paragraph (c)(1) of this section, for taxable years beginning after December 31, 1970, and ending prior to January 1, 1972, deposits made later than the last date permitted under paragraph (c)(1) of this section but on or before January 9, 1973, in a capital construction fund pursuant to an agreement with the Secretary of Commerce, acting by and through the Administrator of the National Oceanic and Atmospheric Administration, shall be deemed to have been made on the date of the actual deposit or as of the close of business of the last regular business day of such taxable year, whichever is earlier.

(d) Nothing in this section shall alter the rules and regulations governing the timing of deposits with respect to existing capital and special reserve funds or with respect to the treatment of deposits for any taxable year or years other than a taxable year or years beginning after December 31, 1969, and before January 1, 1972.¹

¹The phrase "existing capital and special reserve funds" does not refer to the Capital Construction Fund program but rather to funds established with the Maritime Administration prior to the amendment of the Merchant Marine Act, 1936, which authorized the Capital Construction Fund program.
(ii) Official number, or, in the case of vessels under 5 net tons, the State registration number where required,
(iii) Type of vessel (i.e., catching vessel, processing vessel, transporting vessel, passenger carrying fishing vessel, etc.),
(iv) General characteristic (i.e., net tonnage, fish-carrying capacity, age, length, type of fishing gear, number of passengers carried or in the case of vessels operating in the foreign or domestic commerce the various uses of the vessel, etc.),
(v) Whether owned or leased and, if leased, the name of the owner, and a copy of the lease,
(vi) Date and place of construction,
(vii) If reconstructed, date of redelivery and place of reconstruction,
(viii) Trade (or trades) in which vessel is documented and date last documented,
(ix) If a fishing vessel, the fishery of operation (which in this section means each species or group of species—each species must be specifically identified by acceptable common names—of fish, shellfish, or other living marine resources which each vessel catches, processes, or transports or will catch, process, or transport for commercial purposes such as marketing or processing the catch),
(x) If a fishing vessel, the area of operation (which for fishing vessels means the general geographic areas in which each vessel will catch, process, or transport, or charter for each species or group of species of fish, shellfish, or other living marine resources).

(4) The specific objectives to be achieved by the accumulation of assets in a Capital Construction Fund (to be incorporated in Schedule B of the Interim CCF Agreement) including:
(i) Number of vessels,
(ii) Type of vessel (i.e., catching, processing, transporting, or passenger carrying fishing vessel),
(iii) General characteristics (i.e., net tonnage, fish-carrying capacity, age, length, type of fishing gear, number of passengers carried),
(iv) Cost of projects,
(v) Amount of indebtedness to be paid for vessels to be constructed, acquired, or reconstructed (all notes, mortgages, or other evidences of the indebtedness must be submitted as soon as available, together with sufficient additional evidence to establish that full proceeds of the indebtedness to be paid from a CCF under an Interim CCF Agreement, were used solely for the purpose of the construction, acquisition, or reconstruction of Schedule B vessels),
(vi) Date of construction, acquisition, or reconstruction,
(vii) Fishery of operation (which in this section means each species or group of species—each species must be specifically identified by acceptable common name—of fish, shellfish, or other living marine resources),
(viii) Area of operation (which in this section means the general geographic areas in which each vessel will operate for each species or group of species of fish, shellfish, or other living marine resources).

(c) Filing. The application must be signed and submitted in duplicate to the Regional Office of the National Marine Fisheries Service's Financial Assistance Division corresponding to the region in which the party conducts its business. As a general rule, the Interim CCF Agreement must be executed and entered into by the taxpayer on or prior to the due date, with extensions, for the filing of the Federal tax return in order to be effective for the tax year to which that return relates. It is manifestly in the Applicant's best interest to file at least 45 days in advance of such date.

exists for each acquisition in this category (on a one-for-one basis) an additional Schedule B construction or reconstruction. The sole consideration for permitting an acquisition in this category is that it will enable the party (but the Secretary will not attempt to predetermine such an ability) to accelerate accomplishment of the additional Schedule B construction or reconstruction. Should this consideration materially fail, the Secretary shall, at his discretion, disqualify previously qualified withdrawals in this category, seek liquidated damages as provided for in paragraph (a)(4) of this section and/or terminate the Interim CCF Agreement.

(2) A vessel more than 5 years old, but not more than 25 years old (special showing required if more than 25 years old, see paragraph (b) of this section), at the time of acquisition by the party seeking CCF withdrawal therefor may be a qualified vessel for the purpose of acquisition, but only if that same vessel becomes a Schedule A vessel and (in addition to being a Schedule B vessel for the purpose of its acquisition) becomes a Schedule B vessel for the purpose of the vessel's reconstruction to be accomplished ordinarily within 7 years from the date of acquisition. The sole consideration for permitting an acquisition in this category is that it will enable a party (but the Secretary will not attempt to predetermine such an ability) to accelerate accomplishment of the Schedule B reconstruction of the vessel so acquired. Should this consideration materially fail, the same penalty prescribed in paragraph (a)(1) of this section applies.

(3) Reserved for minimum deposits under this section.

(4) Reserved for liquidated damages.

(b) Reconstruction. No reconstruction project costing less than $100,000 shall qualify a vessel for reconstruction, unless the reconstruction project costs, or will cost, 20 percent or more of the reconstructed vessel's acquisition cost (in its unreconstructed state) to the party seeking CCF withdrawal therefor. If the reconstruction project meets the $100,000 test, then the 20 percent test applies. Conversely, if the reconstruction project does not meet the $100,000 test, then the 20 percent test applies.

(1) Reconstruction may include rebuilding, replacing, reconditioning, converting and/or improving any portion of a vessel. A reconstruction project must, however, substantially prolong the useful life of the reconstructed vessel, increase its value, or adapt it to a different commercial use in the fishing trade or industry.

(2) All, or the major portion (ordinarily, not less than 80 percent), of a reconstruction project's actual cost must (for the purpose of meeting the above dollar or percentage tests) be classifiable as a capital expenditure for Internal Revenue Service (IRS) purposes. That otherwise allowable (i.e., for the purpose of meeting the above dollar or percentage tests) portion of a reconstruction project's actual cost which is not classifiable as a capital expenditure shall, however, be excluded from the amount qualified for withdrawal as a result of the reconstruction project.

(3) No vessel more than 25 years old at the time of withdrawal or request for withdrawal shall be a qualified vessel for the purpose of reconstruction unless a special showing is made, to the Secretary's discretionary satisfaction, that the type and degree of reconstruction intended will result in an efficient and productive vessel with an economically useful life at least 10 years beyond the date reconstruction is completed.

(c) Time permitted for construction or reconstruction. Construction or reconstruction must be completed within 18 months from the date construction or reconstruction first commences, unless otherwise consented to by the Secretary.

(d) Energy saving improvements. An improvement made to a vessel to conserve energy shall, regardless of cost, be treated as a reconstruction for the purpose of qualifying a CCF withdrawal for such expenditure and shall be exempted from having to meet conditional fishery requirements for reconstruction as set forth in §259.32 and from all qualifying tests for reconstruction set forth in paragraph (b) of this section with the following exceptions:
(1) An energy saving improvement shall be required to meet both conditional fishery requirements and the qualifying tests for reconstruction if it serves the dual purpose of saving energy and meeting the reconstruction requirement of paragraph (a) of this section for qualifying a withdrawal for the acquisition of a used vessel.

(2) That portion of the actual cost of an energy saving improvement which is to be paid for from the CCF must be classifiable and treated as a capital expenditure for Internal Revenue Service purposes.

(e) Safety projects. The acquisition and installation of safety equipment for a qualified vessel and vessel modifications whose central purpose is materially increasing the safety of a qualified vessel shall, regardless of cost, be treated as reconstruction for the purpose of qualifying a CCF withdrawal for such expenditure, shall be exempt from having to meet conditional fishery requirements for reconstruction as set forth in §259.32, and shall be exempt from all qualifying tests for reconstruction set forth in paragraph (b) of this section, with the following exceptions:

(1) A safety improvement shall be required to meet both conditional fishery requirements and all qualifying tests for reconstruction if it serves the dual purpose of safety and meeting the reconstruction requirement of paragraph (a) of this section for qualifying a withdrawal for the acquisition of a used vessel;

(2) That portion of the actual cost of a safety improvement that is to be paid for from the CCF must be classifiable and treated as a capital expenditure for Internal Revenue Service purposes;

(3) Safety improvement projects whose clear and central purpose is restricted to complying with the requirements of the Commercial Fishing Industry Vessel Safety Act of 1988 (Public Law 100-424 Sec. 1, 102 stat. 1585 (1988) (codified in scattered sections of 46 U.S.C.)) shall, without further documentation, be considered to fall within this paragraph (e). Satisfactory documentation will be required for all other projects proposed to be considered as falling within this paragraph (e).

Projects not required by law or regulation whose central purpose clearly involves something other than an improvement that materially increases the safety of a vessel will not be considered to fall within this paragraph (e).

§259.32 Conditional fisheries.

(a) The Secretary may from time-to-time establish certain fisheries in which CCF benefits will be restricted. The regulatory mechanism for so doing is part 251 of this chapter. Each fishery so restricted is termed a “conditional fishery”. Subpart A of part 251 of this chapter establishes the procedure to be used by the Secretary in proposing and adopting a fishery as a conditional fishery. Subpart B of part 251 of this chapter enumerates each fishery actually adopted as a conditional fishery (part 251 of this chapter should be referred to for details). The purpose of this §259.32 is to establish the effect of conditional fishery adoption upon Interim CCF Agreements.

(b) If a written request for an otherwise permissible action under an Interim CCF Agreement is submitted prior to the date upon which conditional fishery adoption occurs, then the Secretary will act, in an otherwise normal manner, upon so much of the action then applied for as is then permissible without regard to the subsequent adoption of a conditional fishery (even, if that adoption occurs before the Secretary gives his consent or issues an Interim CCF Agreement or amendment thereto, all as the case may be). Nevertheless, the conditions as set forth in paragraph (d) of this section shall apply.

(c) If a written request for an otherwise permissible action under an Interim CCF Agreement is submitted after the date upon which conditional fishery adoption occurs, then the Secretary will act, in an otherwise normal manner, upon so much of the action then applied for as is then permissible without regard to the previous adoption of a conditional fishery (even, if that adoption occurs before the Secretary gives his consent or issues an Interim CCF Agreement or amendment thereto, all as the case may be). Nevertheless, the conditions as set forth in paragraph (d) of this section shall apply.
(d) Conditional fishery adoption shall have no effect whatsoever upon a Schedule B objective whose qualification for withdrawal (which may be in an amount equal to the total cost over time of a Schedule B objective, i.e., a series of withdrawals) has been, prior to the date of conditional fishery adoption, either consented to by the Secretary or requested in accordance with paragraph (b) or (c) of this section. This extends to past, present, and future withdrawals in an amount representing up to 100 percent of the cost of a Schedule B objective. Commencement of any project in these categories shall, however, be started not later than 6 months from the date of conditional fishery adoption and shall be completed within 24 months from the date of conditional fishery adoption, unless for good and sufficient cause shown the Secretary, at his discretion, consents to a longer period for either project commencement or completion. Consent to the qualification of withdrawal for any project in these categories not commenced or completed within the periods allowed shall be revoked at the end of the periods allowed.

(e) Conditional fishery adoption shall have no effect whatsoever upon Schedule B objectives which will not result in significantly increasing harvesting capacity in a fishery adopted as a conditional fishery.

(1) Construction of a new vessel (vessel “Z”) which has during the previous 18 months operated substantially in the same fishery as the “Y” vessel and which has a fishing capacity substantially equivalent to the “Y” vessel. Failure to remove a vessel could subject all withdrawals to be treated as nonqualified and may be cause for termination of the CCF. What constitutes substantially equivalent fishing capacity shall be a matter for the Secretary’s discretion. Ordinarily, in exercising his discretion about what does or does not constitute substantially equivalent fishing capacity, the Secretary will take into consideration (i) the average size of vessels constructed for the adopted conditional fishery in question at the time vessel “Z” was constructed or, if constructed for a different fishery, the average size of vessels in the adopted conditional fishery at the time vessel “Z” entered it, (ii) the average size of vessels constructed for the adopted conditional fishery at the time vessel “Y” was or will be constructed, and (iii) such other factors as the Secretary may deem material and equitable, including the length of time the party had owned or leased vessel “Z” and the length of time the vessel has operated in the conditional fishery. The Secretary will consider these factors, and exercise his discretion, in such a way as to encourage use of this program by established fishermen who have owned or leased for substantial periods vessels which need to be replaced, even though a “Z” vessel may have been constructed at a time which dictated a lesser fishing capacity than dictated for a “Y” vessel at the time of its construction.

(2) Acquisition and/or reconstruction of a used vessel for operation in an adopted conditional fishery shall be deemed to significantly increase harvesting capacity in that fishery unless the vessel to be acquired and/or reconstructed had during the previous 3 years operated substantially in the same fishery as the adopted conditional fishery in which it will operate after acquisition and/or reconstruction. If less than 3 years, then acquisition and/or reconstruction of a used vessel for operation in an adopted conditional fishery shall be deemed to significantly increase harvesting capacity in that
fishery unless there occurs vessel removal or permanent placement elsewhere under the same conditions specified for construction in paragraph (e)(1) of this section.

3. Construction of a new vessel or the acquisition and/or reconstruction of a used vessel for operation in an adopted conditional fishery shall not be deemed to significantly increase the harvesting capacity where the vessel constructed, acquired and/or reconstructed replaces another vessel which was lost or destroyed and which had, immediately prior to the loss or destruction, operated in the same fishery as the adopted conditional fishery, provided, however, that the fishing capacity of the replacement vessel has a fishing capacity substantially equivalent to the vessel lost or destroyed and that the construction, acquisition and/or reconstruction is completed within 2 years after the close of the taxable year in which the loss or destruction occurred. The Secretary may, at his discretion, and for good and sufficient cause shown, extend the replacement period, provided that the request for extension of time to replace is timely filed with the Secretary.

(f) Conditional fishery adoption shall have the following effect on all Schedule B objectives (whether for acquisition, construction, or reconstruction) which the Secretary deems to significantly increase harvesting capacity in that fishery, excluding those circumstances specifically exempted by paragraphs (b) through (e) of this section (which shall be governed by the provisions of paragraphs (b) through (e) of this section).

1. The Secretary may nevertheless consent to the qualification of withdrawal, but only up to an amount not exceeding the total of eligible ceilings actually deposited during tax years other than the taxable year in which conditional fishery adoption occurs plus a pro-rata portion of eligible ceilings generated in the tax year in which conditional fishery adoption occurs. Pro-ration shall be according to the number of months or any part thereof in a party’s tax year which elapse before the adoption of the conditional fishery occurs. For example, if a party’s tax year runs from January 1, 1974, to December 31, 1974, and conditional fishery adoption occurs on August 15, 1974, (i.e., during the 8th month of the party’s tax year), then the pro-rata portion for that year is eight-twelfths of the total eligible ceilings generated during that year.

2. Qualified withdrawals in excess of the amount specified in paragraph (f)(1) of this section shall not, during the continuance of the adopted conditional fishery, be consented to. Parties at this point shall have the following option:

(i) Make, with the Secretary’s consent, a nonqualified withdrawal of the excess and discontinue the future deposit of eligible ceilings (which may effect termination of the Interim CCF Agreement).

(ii) Reserve the excess, as well as the future deposit of eligible ceilings, for a Schedule B objective not then involving an adopted conditional fishery. If amendment of an Interim CCF Agreement is necessary in order to include a Schedule B objective not then involving an adopted conditional fishery, the party may, with the Secretary’s consent, make the necessary amendment.

(iii) Reserve the excess, as well as the future deposit of eligible ceilings, for a Schedule B objective involving a then adopted conditional fishery in anticipation that the then adopted conditional fishery will eventually be disadopted, in which case all deposits of eligible ceilings will once again be eligible for the Secretary’s consent as qualified withdrawals. If the adoption of a conditional fishery continues for a substantial length of time and there is no foreseeable prospect of disadoption, then the Secretary, in his discretion, may require paragraph (f)(2)(i) or (ii) of this section to be effected.

(g) The Secretary shall neither enter into a new Interim CCF Agreement, nor permit amendment of an existing one, which involves a Schedule B objective in a then adopted conditional fishery unless paragraph (b), (c) or (d) of this § 259.32 applies or unless the Schedule B objective is expressly conditioned upon acquisition construction, or reconstruction of the type permitted under paragraph (e) of this § 259.32. Such an express condition would not survive beyond the time at which conditional fishery status is removed.
§ 259.33 Constructive deposits and withdrawals; ratification of withdrawals (as qualified) made without first having obtained Secretary's consent; first tax year for which Interim CCF Agreement is effective.

(a) Periods controlling permissibility. For the purpose of this §259.33, the period between the beginning and the end of a party's tax year is designated “Period (aa)”; the period between the end of a party's tax year and the party's tax due date for that tax year is designated “Period (bb)”; the period between the party's tax due date and the date on which ends the party's last extension (if any) of that tax due date is designated “Period (cc)”. 

(b) Constructive deposits and withdrawals (before Interim CCF Agreement effectiveness date). Constructive deposits and withdrawals shall be permissible only during the Period (aa) during which a written application for an Interim CCF Agreement is submitted to the Secretary and so much of the next succeeding Period (aa), if any, which occurs before the Secretary executes the Interim CCF Agreement previously applied for. All otherwise qualified expenditures of eligible ceilings during Period (aa) may be consented to by the Secretary as constructive deposits and withdrawals: Provided, The applicant's application for an Interim CCF Agreement and for consent to constructive deposit and withdrawal qualification (together with sufficient supporting data to enable the Secretary's execution or issuance of consent) is submitted to the Secretary either before the end of Period (bb) or, if extension was requested and received, before the end of Period (cc).

(c) Constructive deposits (after Interim CCF Agreement effectiveness date). The Secretary shall not permit constructive deposits or withdrawals after the effective date of an Interim CCF Agreement. Eligible ceilings must, after the effective date of an Interim CCF Agreement, be physically deposited in money or kind in scheduled depositories before the last date eligible ceilings for any Period (aa) of any party become ineligible for deposit (the last date being Period (bb) or Period (cc), whichever applies).

(d) Ratification of withdrawals (as qualified) made without first having obtained Secretary's consent. The Secretary may ratify as qualified any withdrawal made without first having obtained the Secretary's consent therefor, provided the withdrawal was such as would have resulted in the Secretary's consent had it been requested before withdrawal, and provided further that the party's request for consent (together with sufficient supporting data to enable issuance of the Secretary's consent) is submitted to the Secretary either before the end of Period (bb) or, if extension was requested and received, before the end of Period (cc).

(1) If, however, the Secretary receives the request in proper form so close to the latest permissible period that the consent cannot be given before expiration of Period (bb) or Period (cc), whichever applies, then the burden is entirely upon the party to negotiate with IRS for such relief as may be available (e.g., filing an amended tax return, if appropriate). The Secretary will nevertheless issue his consent however long past the party's Period (bb) or Period (cc), whichever applies, the Secretary's administrative workload requires. Should IRS relief be, for any reason, unavailable, the Secretary shall regard the same as merely due to the applicant's having failed to apply in a more timely fashion.
(2) All parties shall be counseled that it is manifestly in their best interest to request the Secretary's consent 45 days in advance of the expected date of withdrawal. Withdrawals made without the Secretary's consent, in reliance on obtaining the Secretary's consent, are made purely at a party's own risk. Should any withdrawal made without the Secretary's consent prove, for any reason, to be one to which the Secretary will not or cannot consent by ratification, then the result will be either, at the Secretary's discretion, an unqualified withdrawal or an involuntary termination of the Interim CCF Agreement.

(3) Should the withdrawal made without having first obtained the Secretary's consent be made in pursuance of a project not then an eligible Schedule B objective, then the Secretary may entertain an application to amend the Interim CCF Agreement's Schedule B objectives as the prerequisite to consenting to the withdrawal, all under the same time constraints and conditions as otherwise specified herein.

(4) Any withdrawals made, after the effective date of an Interim CCF Agreement, without the Secretary's consent are automatically non-qualified withdrawals unless the Secretary subsequently consents to them by ratification as otherwise specified herein.

(5) Redeposit of that portion of the ceiling withdrawn without the Secretary's consent, and for which such consent is not subsequently given (either by ratification or otherwise), shall not be permitted. If such a non-qualified withdrawal adversely affects the Interim CCF Agreement's general status in any wise deemed by the Secretary, at his discretion, to be significant and material, the Secretary may involuntarily terminate the Interim CCF Agreement.

(e) First tax year for which Interim CCF Agreement is effective. An Agreement, to be effective for any party's Period (aa), must be executed and entered into by the party, and submitted to the Secretary, before the end of Period (bb) or Period (cc), whichever applies, for such Period (aa). If executed and entered into by the party, and/or received by the Secretary, after the end of Period (bb) or Period (cc), whichever applies, then the Agreement will be first effective for the next succeeding Period (aa).

(1) If, however, the Secretary receives an Agreement executed and entered into by the party in proper form so close to the latest permissible period that the Secretary cannot execute the Agreement before expiration of Period (bb) or Period (cc), whichever applies, then the burden is entirely upon the party to negotiate with IRS for such relief as may be available (e.g., filing an amended tax return, if appropriate). The Secretary will nevertheless execute the Agreement however long past the party's Period (bb) or Period (cc), whichever applies, the Secretary's administrative workload requires. Should IRS relief be, for any reason, unavailable, the Secretary shall regard the same as merely due to the party's having failed to apply in a more timely manner.

(2) All parties shall be counseled that it is manifestly in their best interest to enter into and execute an Agreement, and submit the same to the Secretary, at least 45 days in advance of the Period (bb) or Period (cc), whichever applies, for the Period (aa) for which the Agreement is first intended to be effective.

§ 259.34 Minimum and maximum deposits; maximum time to deposit.

(a) Minimum annual deposit. The minimum annual (based on each party's taxable year) deposit required by the Secretary in order to maintain an Interim CCF Agreement shall be an amount equal to 2 percent of the total anticipated cost of all Schedule B objectives unless such 2 percent exceeds during any tax year 50 percent of a party's Schedule A taxable income, in which case the minimum deposit for that year shall be 50 percent of the party's Schedule A taxable income.

(1) Minimum annual deposit compliance shall be audited at the end of each party's taxable year unless any one or more of the Schedule B objectives is scheduled for commencement more than 3 taxable years in advance of the taxable year in which the agreement is
effected, in which case minimum annual deposit compliance shall be audited at the end of each 3-year taxable period. In any taxable year, a Party may apply any eligible amount in excess of the 2 percent minimum annual deposit toward meeting the party's minimum annual deposit requirement in past or future years: Provided, however, At the end of each 3-year period, the aggregate amount in the fund must be in compliance with 2 percent minimum annual deposit rule (unless the 50 percent of taxable income situation applies).

(2) The Secretary may, at his discretion and for good and sufficient cause shown, consent to minimum annual deposits in any given tax year or combination of tax years in an amount lower than prescribed herein: Provided, The party demonstrates to the Secretary's satisfaction the availability of sufficient funds from any combination of sources to accomplish Schedule B objectives at the time they are scheduled for accomplishment.

(b) Maximum deposits. Other than the maximum annual ceilings established by the Act, the Secretary shall not establish a maximum annual ceiling: Provided, however, That deposits can no longer be made once a party has deposited 100 percent of the anticipated cost of all Schedule B objectives, unless the Interim CCF Agreement is then amended to establish additional Schedule B objectives.

(c) Maximum time to deposit. Ten years shall ordinarily be the maximum time the Secretary shall permit in which to accumulate deposits prior to commencement of any given Schedule B objective. A time longer than 10 years, either by original scheduling or by subsequent extension through amendment, may, however, be permitted at the Secretary's discretion and for good and sufficient cause shown.

§ 259.35 Annual deposit and withdrawal reports required.

(a) The Secretary will require from each Interim CCF Agreement holder (Party) the following annual deposit and withdrawal reports. Failure to submit such reports may be cause for involuntary termination of CCF Agreements.

(1) A preliminary deposit and withdrawal report at the end of each calendar year, which must be submitted not later than 45 days after the close of the calendar year. The report must give the amounts withdrawn from and deposited into the party's CCF during the subject year, and be in letter form showing the agreement holder's name, FVCCF identification number, and taxpayer identification number. Each report must bear certification that the deposit and withdrawal information given includes all deposit and withdrawal activity for the year and the account reported. Negative reports must be submitted in those cases where there is no deposit and/or withdrawal activity. If the party's tax year is the same as the calendar year, and if the final deposit and withdrawal report required under paragraph (a)(2) of this section is submitted before the due date for this preliminary report, then this report is not required.

(2) A final deposit and withdrawal report at the end of the tax year, which shall be submitted not later than 30 days after expiration of the due date, with extensions (if any), for filing the party's Federal income tax return. The report must be made on a form prescribed by the Secretary using a separate form for each FVCCF depository. Each report must bear certification that the deposit and withdrawal information given includes all deposit and withdrawal activity for the year and account reported. Negative reports must be submitted in those cases where there is no deposit and/or withdrawal activity.

(b) Failure to submit the required annual deposit and withdrawal reports shall be cause after due notice for either, or both, disqualification of withdrawal or involuntary termination of the Interim CCF Agreement, at the Secretary's discretion.

(c) Additionally, the Secretary shall require from each Interim CCF Agreement holder, not later than 30 days after expiration of the party's tax due date, with extensions (if any), a copy of the party's Federal Income Tax Return filed with IRS for the preceding tax year. Failure to submit shall after due notice be cause for the same adverse
§ 259.36 CCF accounts.

(a) General: Each CCF account in each scheduled depository shall have an account number, which must be reflected on the reports required by §259.35. All CCF accounts shall be reserved only for CCF transactions. There shall be no intermingling of CCF and non-CCF transactions and there shall be no pooling of 2 or more CCF accounts without prior consent of the Secretary. Safe deposit boxes, safes, or the like shall not be eligible CCF depositories without the Secretary’s consent and then only under such conditions as the Secretary, in his discretion, prescribes.

(b) Assignment: The use of Fund assets for transactions in the nature of a countervailing balance, compensating balance, pledge, assignment, or similar security arrangement shall constitute a material breach of the Agreement unless prior written consent of the Secretary is obtained.

(c) Depositories: (1) Section 607(c) of the Act provides that amounts in a CCF must be kept in the depository or depositories specified in the Agreement and be subject to such trustee or other fiduciary requirements as the Secretary may specify.

(2) Unless otherwise specified in the Agreement, the party may select the type or types of accounts in which the assets of the Fund may be deposited.

(3) Non-cash deposits or investments of the Fund should be placed in control of a trustee under the following conditions:

(i) The trustee should be specified in the Agreement;

(ii) The trust instrument should provide that all investment restrictions stated in section 607(c) of the Act will be literal;

(iii) The trust instrument should provide that the trustee will give consideration to the party’s withdrawal requirements under the Agreement when investing the Fund;

(iv) The trustee must agree to be bound by all rules and regulations which have been or will be promulgated governing the investment or management of the Fund.

§ 259.37 Conditional consents to withdrawal qualification.

The Secretary may conditionally consent to the qualification of withdrawal, such consent being conditional upon the timely submission to the Secretary of such further proofs, assurances, and advice as the Secretary, in his discretion, may require. Failure of a party to comply with the conditions of such a consent within a reasonable time and after due notice shall, at the Secretary’s discretion, be cause for either, or both, nonqualification of withdrawal or involuntary Interim CCF Agreement termination.

§ 259.38 Miscellaneous.

(a) Wherever the Secretary prescribes time constraints herein for the submission of any CCF transactions, the postmark date shall control if mailed or, if personally delivered, the actual date of submission. All required materials may be submitted to any Financial Assistance Division office of the National Marine Fisheries Service.

(b) All CCF information received by the Secretary shall be held strictly confidential, except that it may be published or disclosed in statistical form provided such publication does not disclose, directly or indirectly, the identity of any fundholder.

(c) While recognizing that precise regulations are necessary in order to treat similarly situated parties similarly, the Secretary also realizes that precision in regulations can often cause inequitable effects to result from unavoidable, unintended, or minor discrepancies between the regulations and the circumstances they attempt to govern. The Secretary will, consequently, at his discretion, as a matter of privilege and not as a matter of right, attempt to afford relief to parties where literal application of the purely procedural, as opposed to substantive, aspects of these regulations would otherwise work an inequitable hardship. This privilege will be sparingly granted and no party should before the fact attempt to act in reliance on its being granted after the fact.
§ 259.38

(d) These §§ 259.30 through 259.38 are applicable absolutely to all Interim CCF Agreements first entered into (or the amendment of all then existing Interim CCF Agreements, which amendment is first entered into) on or after the date these §§ 259.30 through 259.38 are adopted. These §§ 259.30 through 259.38 are applicable to all Interim CCF Agreements entered into before the date these §§ 259.30 through 259.38 are adopted, with the following exceptions only:

1. The vessel age limitations imposed by § 259.31 shall not apply to already scheduled Schedule B objectives.

2. The minimum deposits imposed by § 259.34 shall not apply to any party’s tax year before that party’s tax year next following the one in which these §§ 259.30 through 259.38 are adopted.

(e) These §§ 259.30 through 259.38 are specifically incorporated in all past, present, and future Interim CCF Agreements by reference thereto made in Whereas Clause number 2 of all such Interim CCF Agreements.
Subchapter G—Processed Fishery Products, Processed Products Thereof, and Certain Other Processed Food Products

Part 260—Inspection and Certification

Subpart A—Inspection and Certification of Establishments and Fishery Products for Human Consumption

Sec.
260.1 Administration of regulations.

Definitions
260.6 Terms defined.
260.7 Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.

Inspection Service
260.12 Where inspection service is offered.
260.13 Who may obtain inspection service.
260.14 How to make application.
260.15 Information required in connection with application.
260.16 Filing of application.
260.17 Record of filing time.
260.18 When application may be rejected.
260.19 When application may be withdrawn.
260.20 Disposition of inspected sample.
260.21 Basis of inspection and grade or compliance determination.
260.22 Order of inspection service.
260.23 Postponing inspection service.
260.24 Financial interest of inspector.
260.25 Forms of certificates.
260.26 Issuance of certificates.
260.27 Issuance of corrected certificates.
260.28 Issuance of an inspection report in lieu of an inspection certificate.
260.29 Disposition of inspection certificates.
260.30 Report of inspection results prior to issuance of formal report.

Appeal Inspection
260.36 When appeal inspection may be requested.
260.37 Where to file for an appeal inspection and information required.
260.38 When an application for an appeal inspection may be withdrawn.
260.39 When appeal inspection may be refused.
260.40 Who shall perform appeal inspection.
260.41 Appeal inspection certificate.

Licensing of Samplers and Inspectors
260.47 Who may become licensed sampler.
260.48 Application to become a licensed sampler.
260.49 Inspectors.
260.50 Suspension or revocation of license of licensed sampler or licensed inspector.
260.51 Surrender of license.

Sampling
260.57 How samples are drawn by inspectors or licensed samplers.
260.58 Accessibility for sampling.
260.59 How officially drawn samples are to be identified.
260.60 How samples are to be shipped.
260.61 Sampling plans and procedures for determining lot compliance.
260.62 Issuance of certificate of sampling.
260.63 Identification of lots sampled.

Fees and Charges
260.69 Payment fees and charges.

Subpart A—Inspection and Certification of Establishments and Fishery Products for Human Consumption

§ 260.1 Administration of regulations.

The Secretary of Commerce is charged with the administration of the regulations in this part except that he may delegate any or all of such functions to any officer or employee of the National Marine Fisheries Service of the Department in his discretion.\(^1\)

[36 FR 21037, Nov. 3, 1971]

DEFINITIONS

§ 260.6 Terms defined.

Words in the regulations in this part in the singular form shall be deemed to import the plural and vice versa, as the case may demand. For the purposes of the regulations in this part, unless the context otherwise requires, the following terms shall have the following meanings:

Acceptance number. “Acceptance number” means the number in a sampling plan that indicates the maximum number of deviants permitted in a sample of a lot that meets a specific requirement.

Applicant. “Applicant” means any interested party who requests inspection service under the regulations in this part.

Case. “Case” means the number of containers (cased or uncased) which, by the particular industry are ordinarily packed in a shipping container.

Certificate of loading. “Certificate of loading” means a statement, either written or printed, issued pursuant to the regulations in this part, relative to check-loading of a processed product subsequent to inspection thereof.

Certificate of sampling. “Certificate of sampling” means a statement, either written or printed, issued pursuant to the regulations in this part, identifying officially drawn samples and may include a description of condition of containers and the condition under which the processed product is stored.

Class. “Class” means a grade or rank of quality.

Condition. “Condition” means the degree of soundness of the product which may affect its merchantability and includes, but is not limited to those factors which are subject to change as a result of age, improper preparation and processing, improper packaging, improper storage, or improper handling.

Department. “Department” means the U.S. Department of Commerce.

Deviant. “Deviant” means a sample unit affected by one or more deviations or a sample unit that varies in a specifically defined manner from the requirements of a standard, specification, or other inspection document.

Deviation. “Deviation” means any specifically defined variation from a particular requirement.

Director. “Director” means the Director of the National Marine Fisheries Service.

\(^1\)All functions of the Department of Agriculture which pertain to fish, shellfish, and any products thereof, now performed under the authority of title II of the Act of August 14, 1946, popularly known as the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621-1627) including but not limited to the development and promulgation of grade standards, the inspection and certification, and improvement of transportation facilities and rates for fish and shellfish and any products thereof, were transferred to the Department of the Interior by the Director of the Budget (23 FR 2304) pursuant to section 6(a) of the Act of Aug. 8, 1956, popularly known as the Fish and Wildlife Act of 1956 (16 U.S.C. 742e). Reorganization Plan No. 4 of 1970 (84 Stat. 2090) transferred, among other things, such functions from the U.S. Department of the Interior to the U.S. Department of Commerce.
Establishment. “Establishment” means any premises, buildings, structures, facilities, and equipment (including vehicles) used in the processing, handling, transporting, and storage of fish and fishery products.

Inspection certificate. “Inspection certificate” means a statement, either written or printed, issued pursuant to the regulations in this part, setting forth in addition to appropriate descriptive information relative to a processed product, and the container thereof, the quality and condition, or any part thereof, of the product and may include a description of the conditions under which the product is stored.

Inspection service. “Inspection service” means:

1. The sampling pursuant to the regulations in this part;
2. The determination pursuant to the regulations in this part of:
   i. Essential characteristics such as style, type, size, or identity of any processed product which differentiates between major groups of the same kind;
   ii. The class, quality, and condition of any processed product, including the condition of the container thereof by the examination of appropriate samples;
3. The issuance of any certificate of sampling, inspection certificates, or certificates of loading of a processed product, or any report relative to any of the foregoing; or
4. Performance by an inspector of any related services such as to observe the preparation of the product from its raw state through each step in the entire process; or observe conditions under which the product is being harvested, prepared, handled, stored, processed, packed, preserved, transported, or held; or observe sanitation as a prerequisite to the inspection of the processed product, either on a contract basis or periodic basis; or check load the inspected processed product in connection with the marketing of the product, or any other type of service of a consultative or advisory nature related herewith.

Inspector. “Inspector” means any employee of the Department authorized by the Secretary or any other person licensed by the Secretary to investigate, sample, inspect, and certify in accordance with the regulations in this part to any interested party the class, quality and condition of processed products covered in this part and to perform related duties in connection with the inspection service.

Interested party. “Interested party” means any person who has a financial interest in the commodity involved.

Licensed sampler. “Licensed sampler” means any person who is authorized by the Secretary to draw samples of processed products for inspection service, to inspect for identification and condition of containers in a lot, and may, when authorized by the Secretary, perform related services under the act and the regulations in this part.

Lot. “Lot” has the following meanings:

1. For the purpose of charging fees and issuing certificates, “Lot” means any number of containers of the same size and type which contain a processed product of the same type and style located in the same or adjacent warehouses and which are available for inspection at any one time: Provided,
   i. Processed products in separate piles which differ from each other as to grade or other factors may be deemed to be separate lots;
2. For the purpose of sampling and determining the grade or compliance with a specification, “Lot” means each pile of containers of the same size and type containing a processed product of the same type and style which is separated from other containers in that warehouse, but containers in the same pile bearing an identification mark different from other containers in that
§ 260.7 Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.

Subsection 203(h) of the Agricultural Marketing Act of 1946 provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks or other identifications and devices for making such marks or identifications, issued or authorized under section 203 of said act, and certain misrepresentations concerning the inspection or grading of agricultural products under said section. For the purposes of said subsection and the provisions in this part, the terms listed below shall have the respective meanings specified:

**pile** may be deemed to be a separate lot.

Official establishment. “Official establishment” means any establishment which has been approved by National Marine Fisheries Service, and utilizes inspection service on a contract basis.

Officially drawn sample. “Officially drawn sample” means any sample that has been selected from a particular lot by an inspector, licensed sampler, or by any other person authorized by the Secretary pursuant to the regulations in this part.

Person. “Person” means any individual, partnership, association, business trust, corporation, any organized group of persons (whether incorporated or not), the United States (including, but not limited to, any corporate agencies thereof), any State, county, or municipal government, any common carrier, and any authorized agent of any of the foregoing.

Plant. “Plant” means the premises, buildings, structures, and equipment (including, but not being limited to, machines, utensils, and fixtures) employed or used with respect to the manufacture or production of processed products.

Processed product. “Processed product” means any fishery product or other food product covered under the regulations in this part which has been preserved by any recognized commercial process, including, but not limited to, canning, freezing, dehydrating, drying, the addition of chemical substances, or by fermentation.

Quality. “Quality” means the inherent properties of any processed product which determine the relative degree of excellence of such product, and includes the effects of preparation and processing, and may or may not include the effects of packing media, or added ingredients.

Rejection number. “Rejection number” means the number in a sampling plan that indicates the minimum number of deviants in a sample that will cause a lot to fail a specific requirement.

Sample. “Sample” means any number of sample units to be used for inspection.

Sample unit. “Sample unit” means a container and/or its entire contents, a portion of the contents of a container or other unit of commodity, or a composite mixture of a product to be used for inspection.

Sampling. “Sampling” means the act of selecting samples of processed products for the purpose of inspection under the regulations in this part.

Secretary. “Secretary” means the Secretary of the Department or any other officer or employee of the Department authorized to exercise the powers and to perform the duties of the Secretary in respect to the matters covered by the regulations in this part.

Shipping container. “Shipping container” means an individual container designed for shipping a number of packages or cans ordinarily packed in a container for shipping or designed for packing unpackaged processed products for shipping.

Unofficially drawn sample. “Unofficially drawn sample” means any sample that has been selected by any person other than an inspector or licensed sampler, or by any other person not authorized by the Director pursuant to the regulations in this part.

Wholesome. “Wholesome” means the minimum basis of acceptability for human food purposes, of any fish or fishery product as defined in section 402 of the Federal Food, Drug, and Cosmetic Act, as amended.

Official certificate. “Official certificate” means any form of certification, either written or printed, including those defined in §260.6, used under this part to certify with respect to the inspection, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).

Official device. “Official device” means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Director for the purpose of applying any official mark or other identification to any product or the packaging material thereof.

Official identification. “Official identification” means any United States (U.S.) standard designation of class, grade, quality, size, quantity, or condition specified in this part or any symbol, stamp, label, or seal indicating that the product has been graded or inspected and/or indicating the class, grade, quality, size, quantity, or condition of the product approved by the Director and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product.

Official mark. “Official mark” means the grade mark, inspection mark, combined form of inspection and grade mark, and any other mark, or any variations in such marks, including those prescribed in §260.86, approved by the Secretary and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded or inspected or both, or indicating the appropriate U.S. Grade or condition of the product, or for the purpose of maintaining the identity of products graded or inspected or both under this part.

Official memorandum. “Official memorandum” means any initial record of findings made by an authorized person in the process of grading, inspecting, or sampling pursuant to this part, any processing or plant-operation report made by an authorized person in connection with grading, inspecting, or sampling under this part, and any report made by an authorized person of services performed pursuant to this part.

Inspector certificate. “Inspector certificate” means any form of certification, either written or printed, including those defined in §260.6, used under this part to certify with respect to the inspection, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).
§ 260.16 Filing of application.
An application for inspection service shall be regarded as filed only when made in accordance with the regulations in this part.

§ 260.17 Record of filing time.
A record showing the date and hour when each application for inspection or for an appeal inspection is received shall be maintained.

§ 260.18 When application may be rejected.
An application for inspection service may be rejected by the Secretary (a) for noncompliance by the applicant with the regulations in this part, (b) for nonpayment for previous inspection services rendered, (c) when the product is not properly identifiable by code or other marks, or (d) when it appears that to perform the inspection service would not be to the best interests of the Government. Such applicant shall be promptly notified of the reason for such rejection.

§ 260.19 When application may be withdrawn.
An application for inspection service may be withdrawn by the applicant at any time before the inspection is performed: Provided, That, the applicant shall pay at the hourly rate prescribed in § 260.70 for the time incurred by the inspector in connection with such application, any travel expenses, telephone, telegraph or other expenses which have been incurred by the inspection service in connection with such application.

§ 260.20 Disposition of inspected sample.
Any sample of a processed product that has been used for inspection may be returned to the applicant, at his request and expense; otherwise it shall be destroyed, or disposed of to a charitable institution.

§ 260.21 Basis of inspection and grade or compliance determination.
(a) Inspection service shall be performed on the basis of the appropriate U.S. standards for grades of processed products, Federal, Military, Veterans Administration or other government agency specifications, written contract specification, or any written specification or instruction which is approved by the Secretary.

(b) Unless otherwise approved by the Director compliance with such grade standards, specifications, or instructions shall be determined by evaluating the product, or sample, in accordance with the requirements of such standards, specifications, or instructions: Provided, That when inspection for quality is based on any U.S. grade standard which contains a scoring system the grade to be assigned to a lot is the grade indicated by the average of the total scores of the sample units: Provided further, That:

1. Such sample complies with the applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act;
2. Such sample complies with the product description;
3. Such sample meets the indicated grade with respect to factors of quality which are not rated by score points; and
4. With respect to those factors of quality which are rated by score points, each of the following requirements is met:
   (i) None of the sample units falls more than one grade below the indicated grade because of any quality factor to which a limiting rule applies;
   (ii) None of the sample units falls more than 4 score points below the minimum total score for the indicated grade; and
   (iii) The number of sample units classed as deviants does not exceed the applicable acceptance number indicated in the sampling plans contained in § 260.61. A “deviant,” as used in this paragraph, means a sample unit that falls into the next grade below the indicated grade but does not score more than 4 points below the minimum total score for the indicated grade.
5. If any of the provisions contained in paragraphs (b)(3) and (4) of this section are not met the grade is determined by considering such provisions in connection with succeedingly lower
§ 260.29 Disposition of inspection certificates.

The original of any inspection certificate, issued under the regulations in this part, and not to exceed four copies thereof, if requested prior to issuance, shall be delivered or mailed promptly to the applicant, or person designated by the applicant. All other copies shall be filed in such manner as the Secretary may designate. Additional copies of any such certificates may be supplied to any interested party as provided in § 260.78.
§ 260.30 Report of inspection results prior to issuance of formal report.

Upon request of any interested party, the results of an inspection may be telegraphed or telephoned to him, or to any other person designated by him, at his expense.

APPEAL INSPECTION

§ 260.36 When appeal inspection may be requested.

An application for an appeal inspection may be made by any interested party who is dissatisfied with the results of an inspection as stated in an inspection certificate, if the lot of processed products can be positively identified by the inspection service as the lot from which officially drawn samples were previously inspected. Such application shall be made within thirty (30) days following the day on which the previous inspection was performed, except upon approval by the Secretary the time within which an application for appeal inspection may be made, may be extended.

§ 260.37 Where to file for an appeal inspection and information required.

(a) Application for an appeal inspection may be filed with:

(1) The inspector who issued the inspection certificate on which the appeal covering the processed product is requested; or

(2) The inspector in charge of the office of inspection at or nearest the place where the processed product is located.

(b) The application for appeal inspection shall state the location of the lot of processed products and the reasons for the appeal; and date and serial number of the certificate covering inspection of the processed product on which the appeal is requested, and such application may be accompanied by a copy of the previous inspection certificate and any other information that may facilitate inspection. Such application may be made orally (in person or by telephone), in writing, or by telegraph. If made orally, written confirmation shall be made promptly.

§ 260.38 When an application for an appeal inspection may be withdrawn.

An application for appeal inspection may be withdrawn by the applicant at any time before the appeal inspection is performed: Provided, That the applicant shall pay at the hourly rate prescribed in § 260.70, for the time incurred by the inspector in connection with such application, any travel expenses, telephone, telegraph, or other expenses which have been incurred by the inspection service in connection with such application.

§ 260.39 When appeal inspection may be refused.

An application for an appeal inspection may be refused if:

(a) The reasons for the appeal inspection are frivolous or not substantial;

(b) The quality or condition of the processed product has undergone a material change since the previous inspection covering the processed product on which the appeal inspection is requested;

(c) The lot in question is not, or cannot be made accessible for the selection of officially drawn samples;

(d) The lot relative to which appeal inspection is requested cannot be positively identified by the inspector as the lot from which officially drawn samples were previously inspected; or

(e) There is noncompliance with the regulations in this part. Such applicant shall be notified promptly of the reason for such refusal.

§ 260.40 Who shall perform appeal inspection.

An appeal inspection shall be performed by an inspector or inspectors (other than the one from whose inspection the appeal is requested) authorized for this purpose by the Secretary and, whenever practical, such appeal inspection shall be conducted jointly by two such inspectors: Provided, That the inspector who made the inspection on which the appeal is requested may be authorized to draw the samples when another inspector or licensed sampler is not available in the area where the product is located.
§ 260.41 Appeal inspection certificate.

After an appeal inspection has been completed, an appeal inspection certificate shall be issued showing the results of such appeal inspection; and such certificate shall supersede the inspection certificate previously issued for the processed product involved. Each appeal inspection certificate shall clearly identify the number and date of the inspection certificate which it supersedes. The superseded certificate shall become null and void upon the issuance of the appeal inspection certificate and shall no longer represent the quality or condition of the processed product described therein. The inspector or inspectors issuing an appeal inspection certificate shall forward notice of such issuance to such persons as he considers necessary to prevent misuse of the superseded certificate if the original and all copies of such superseded certificate have not previously been delivered to the inspector or inspectors issuing the appeal inspection certificate. The provisions in the regulations in this part concerning forms of certificates, issuance of certificates, and disposition of certificates shall apply to appeal inspection certificates, except that copies of such appeal inspection certificates shall be furnished all interested parties who received copies of the superseded certificate.

Licensing of Samplers and Inspectors

§ 260.47 Who may become licensed sampler.

Any person deemed to have the necessary qualifications may be licensed as a licensed sampler to draw samples for the purpose of inspection under the regulations in this part. Such a license shall bear the printed signature of the Secretary, and shall be countersigned by an authorized employee of the Department. Licensed samplers shall have no authority to inspect processed products under the regulations in this part except as to identification and condition of the containers in a lot. A licensed sampler shall perform his duties pursuant to the regulations in this part as directed by the Director.

§ 260.48 Application to become a licensed sampler.

Application to become a licensed sampler shall be made to the Secretary on forms furnished for that purpose. Each such application shall be signed by the applicant in his own handwriting, and the information contained therein shall be certified by him to be true, complete, and correct to the best of his knowledge and belief, and the application shall contain or be accompanied by:

(a) A statement showing his present and previous occupations, together with names of all employers for whom he has worked, with periods of service, during the 10 years previous to the date of his application;
(b) A statement that, in his capacity as a licensed sampler, he will not draw samples from any lot of processed products with respect to which he or his employer is an interested party;
(c) A statement that he agrees to comply with all terms and conditions of the regulations in this part relating to duties of licensed samplers; and
(d) Such other information as may be requested.

§ 260.49 Inspectors.

Inspections will ordinarily be performed by employees under the Secretary who are employed as Federal Government employees for that purpose. However, any person employed under any joint Federal-State inspection service arrangement may be licensed, if otherwise qualified, by the Secretary to make inspections in accordance with this part on such processed products as may be specified in his license. Such license shall be issued only in a case where the Secretary is satisfied that the particular person is qualified to perform adequately the inspection service for which such person is to be licensed. Each such license shall bear the printed signature of the Secretary and shall be countersigned by an authorized employee of the Department. An inspector shall perform his duties pursuant to the regulations in this part as directed by the Director.
§ 260.50 Suspension or revocation of license of licensed sampler or licensed inspector.

Pending final action by the Secretary, the Director may, whenever he deems such action necessary, suspend the license of any licensed sampler, or licensed inspector, issued pursuant to the regulations in this part, by giving notice of such suspension to the respective licensee, accompanied by a statement of the reasons therefor. Within 7 days after the receipt of the aforesaid notice and statement of reasons by such licensee, he may file an appeal, in writing, with the Secretary supported by any argument or evidence that he may wish to offer as to why his license should not be suspended or revoked. After the expiration of the aforesaid 7 day period and consideration of such argument and evidence, the Secretary shall take such action as he deems appropriate with respect to such suspension or revocation.

§ 260.51 Surrender of license.

Upon termination of his services as a licensed sampler or licensed inspector, or suspension or revocation of his license, such licensee shall surrender his license immediately to the office of inspection serving the area in which he is located. These same provisions shall apply in a case of an expired license.

§ 260.57 How samples are drawn by inspectors or licensed samplers.

An inspector or a licensed sampler shall select samples, upon request, from designated lots of processed products which are so placed as to permit thorough and proper sampling in accordance with the regulations in this part. Such person shall, unless otherwise directed by the Secretary, select sample units of such products at random, and from various locations in each lot in such manner and number, not inconsistent with the regulations in this part, as to secure a representative sample of the lot. Samples drawn for inspection shall be furnished by the applicant at no cost to the Department.

§ 260.58 Accessibility for sampling.

Each applicant shall cause the processed products for which inspection is requested to be made accessible for proper sampling. Failure to make any lot accessible for proper sampling shall be sufficient cause for postponing inspection service until such time as such lot is made accessible for proper sampling.

§ 260.59 How officially drawn samples are to be identified.

Officially drawn samples shall be marked by the inspector or licensed sampler so such samples can be properly identified for inspection.

§ 260.60 How samples are to be shipped.

Unless otherwise directed by the Secretary, samples which are to be shipped to any office of inspection shall be forwarded to the office of inspection serving the area in which the processed products from which the samples were drawn is located. Such samples shall be shipped in a manner to avoid, if possible, any material change in the quality or condition of the sample of the processed product. All transportation charges in connection with such shipments of samples shall be at the expense of the applicant and wherever practicable, such charges shall be prepaid by him.

§ 260.61 Sampling plans and procedures for determining lot compliance.

(a) Except as otherwise provided for in this section in connection with in-plant inspection and unless otherwise approved by the Secretary, samples shall be selected from each lot in the exact number of sample units indicated for the lot size in the applicable single sampling plan or, at the discretion of the inspection service, any comparable multiple sampling plan: Provided, That at the discretion of the inspection service the number of sample units selected may be increased to the exact number of sample units indicated for any one of the larger sample sizes provided for in the appropriate plans.

(b) Under the single sampling plans with respect to any specified requirement:
(1) If the number of deviants (as defined in connection with the specific requirements) in the sample does not exceed the acceptance number prescribed for the sample size the lot meets the requirement;

(2) If the number of deviants (as defined in connection with the specific requirement) in the sample exceeds the acceptance number prescribed for the sample size the lot fails the requirement.

(c) Under the multiple sampling plans inspection commences with the smallest sample size indicated under the appropriate plan and with respect to any specified requirement:

(1) If the number of deviants (as defined in connection with the specific requirement) in the sample being considered does not exceed the acceptance number prescribed for that sample size the lot meets the requirement;

(2) If the number of deviants (as defined in connection with the specific requirement) in the sample being considered equals or exceeds the rejection number prescribed for that sample size the lot fails the requirement; or

(3) If the number of deviants (as defined in connection with the specific requirement) in the sample being considered falls between the acceptance and rejection numbers of the plan, additional sample units are added to the sample so that the sample thus cumulated equals the next larger cumulative sample size in the plan. It may then be determined that the lot meets or fails the specific requirement by considering the cumulative sample and applying the procedures outlined in paragraphs (c)(1) and (2) of this section or by considering successively larger samples cumulated in the same manner until the lot meets or fails the specific requirement.

(d) If in the conduct of any type of in-plant inspection the sample is examined before the lot size is known and the number of sample units exceeds the prescribed sample size for such lot but does not equal any of the prescribed larger sample sizes the lot may be deemed to meet or fail a specific requirement in accordance with the following procedure:

(1) If the number of deviants (as defined in connection with the specific requirement) in the nonprescribed sample does not exceed the acceptance number of the next smaller sample size the lot meets the requirements;

(2) If the number of deviants (as defined in connection with the specific requirement) in the nonprescribed sample equals the acceptance number prescribed for the next larger sample size additional sample units shall be selected to increase the sample to the next larger prescribed sample size;

(3) If the number of deviants (as defined in connection with the specific requirement) in the nonprescribed sample exceeds the acceptance number prescribed for the next larger sample size the lot fails the requirement.

(e) In the event that the lot compliance determination provisions of a standard or specification are based on the number of specified deviations instead of deviants the procedures set forth in this section may be applied by substituting the word “deviation” for the word “deviant” wherever it appears.

(f) Sampling plans referred to in this section are those contained in Tables I, II, III, IV, V, and VI which follow or any other plans which are applicable. For processed products not included in these tables, the minimum sample size shall be the exact number of sample units prescribed in the table, container group, and lot size that, as determined by the inspector, most closely resembles the product, type, container size and amount of product to be samples.

1 For extension of the single sample sizes beyond 72 sample units, refer to table V of this section; for multiple sampling plans comparable to the various single sampling plans refer to table VI of this section.
The sample units for the various container size groups are as follows: Groups 1, 2, and 3—1 container and its entire contents. Groups 4 and 5—approximately 3 pounds of product. When determined by the inspector that a 3-pound sample unit is inadequate, a larger sample unit of 1 or more containers and their entire contents may be substituted for 1 or more sample units of 3 pounds.

1 These multiple sampling plans may be used in lieu of the single sampling plans listed at the heading of each column.
§ 260.62 Issuance of certificate of sampling.

Each inspector and each licensed sampler shall prepare and sign a certificate of sampling to cover the samples drawn by the respective person, except that an inspector who inspects the samples which he has drawn need not prepare a certificate of sampling. One copy of each certificate of sampling prepared shall be retained by the inspector or licensed sampler (as the case may be) and the original and all other copies thereof shall be disposed of in accordance with the instructions of the Secretary.

§ 260.63 Identification of lots sampled.

Each lot from which officially drawn samples are selected shall be marked in such manner as may be prescribed by the Secretary, if such lots do not otherwise possess suitable identification.

FEES AND CHARGES

§ 260.69 Payment fees and charges.

Fees and charges for any inspection service shall be paid by the interested party making the application for such service, in accordance with the applicable provisions of the regulations in this part, and, if so required by the person in charge of the office of inspection serving the area where the services are to be performed, an advance of funds prior to rendering inspection service in an amount suitable to the Secretary, may be required as a guarantee of payment for the services rendered. All fees and charges for any inspection service, performed pursuant to the regulations in this part shall be paid by check, draft, or money order made payable to the National Marine Fisheries Service. Such check, draft, or money order shall be remitted to the appropriate regional or area office serving the geographical area in which the services are performed, within ten (10) days from the date of billing, unless otherwise specified in a contract between the applicant and the Secretary, in which latter event the contract provisions shall apply.

[36 FR 21038, Nov. 3, 1971]

§ 260.70 Schedule of fees.

(a) Unless otherwise provided in a written agreement between the applicant and the Secretary, the fees to be charged and collected for any inspection service performed under the regulations in this part at the request of the United States, or any other agency or instrumentality thereof, will be published as a notice in the Federal Register, and will be in accordance with §260.81.

(b) Fees are reviewed annually to ascertain that the hourly fees charged are adequate to recover the costs of the services rendered.

1. The TYPE I (Contract Inspection) hourly fee is determined by dividing the estimated annual costs by the estimated annual billable hours.

2. The TYPE II (Lot Inspection) hourly fee is determined by adding a factor of 50 percent to the TYPE I fee, to cover additional costs (down-time, etc.) associated with conducting lot inspection services.

3. The TYPE III (Miscellaneous and Consulting) hourly fee is determined by adding a factor of 25 percent to the TYPE I fee, to cover the additional costs (down-time, etc.) associated with conducting miscellaneous inspection services.

[48 FR 24901, June 3, 1983]

§ 260.71 [Reserved]

§ 260.72 Fees for inspection service performed under cooperative agreement.

The fees to be charged and collected for any inspection or similar service performed under cooperative agreement shall be those provided for by such agreement.

§ 260.73 Disposition of fees for inspections made under cooperative agreement.

Fees for inspection under a cooperative agreement with any State or person shall be disposed of in accordance with the terms of such agreement. Such portion of the fees collected under a cooperative agreement as may be due the United States shall be remitted in accordance with §260.69.
§ 260.74

Fee for appeal inspection.

The fee to be charged for an appeal inspection shall be at the rates prescribed in this part for other inspection services. Provided, That, if the result of any appeal inspection made for any applicant, other than the United States or any agency or instrumentality thereof, discloses that a material error was made in the inspection on which the appeal is made, no inspection fee shall be assessed.

§ 260.76 [Reserved]

§ 260.77 Fees for score sheets.

If the applicant for inspection service requests score sheets showing in detail the inspection of each container or sample inspected and listed thereon, such score sheets may be furnished by the inspector in charge of the office of inspection serving the area where the inspection was performed; and such applicant shall be charged at the rate of $2.75 for each 12 sampled units, or fraction thereof, inspected and listed on such score sheets.

§ 260.78 Fees for additional copies of inspection certificates.

Additional copies of any inspection certificate other than those provided for in §260.29, may be supplied to any interested party upon payment of a fee of $2.75 for each set of five (5) or fewer copies.

§ 260.79 Travel and other expenses.

Charges may be made to cover the cost of travel and other expenses incurred in connection with the performance of any inspection service, including appeal inspections: Provided, That, if charges for sampling or inspection are based on an hourly rate, an additional hourly charge may be made for travel time including time spent waiting for transportation as well as time spent traveling, but not to exceed 8 hours of travel time for any one person for any one day; And provided further, That, if travel is by common carrier, no hourly charge may be made for travel time outside the employee’s official work hours.

§ 260.80 Charges for inspection service on a contract basis.

Irrespective of fees and charges prescribed in the foregoing sections, the Secretary may enter into a written memorandum of understanding or contract, whichever may be appropriate, with any administrative agency charged with the administration of a marketing order effective pursuant to the Agricultural Marketing Agreement Act of 1937, as revised (16 U.S.C. 661 et seq.) for the making of inspections pursuant to said agreement or order on such basis as will reimburse the National Marine Fisheries Service of the Department for the full cost of rendering such inspection service as may be determined by the Secretary. Likewise, the Secretary may enter into a written memorandum of understanding or contract, whichever may be appropriate, with an administrative agency charged with the administration of a similar program operated pursuant to the laws of any State.

[36 FR 21038, Nov. 3, 1971]

§ 260.81 Readjustment and increase in hourly rates of fees.

(a) When Federal Pay Act increases occur, the hourly rates for inspection fees will automatically be increased on the effective date of the pay act by an amount equal to the increase received by the average GS grade level of fishery product inspectors receiving such pay increases.

(b) The hourly rates of fees to be charged for inspection services will be subject to review and reevaluation for possible readjustment not less than every 3 years: Provided, That, the hourly rates of fees to be charged for inspection services will be immediately reevaluated as to need for readjustment with each Federal Pay Act increase.

[35 FR 15925, Oct. 9, 1970]

MICROSCALE

§ 260.84 Policies and procedures.

The policies and procedures pertaining to any of the inspection services are contained within the NMFS Fishery Products Inspection Manual. The policies and procedures are available
§ 260.86 Approved identification.

(a) Grade marks: The approved grade mark or identification may be used on containers, labels, or otherwise indicated for any processed product that:

(1) Has been packed under inspection as provided in this part to assure compliance with the requirements for wholesomeness established for the raw product and of sanitation established for the preparation and processing operations, and

(2) Has been certified by an inspector as meeting the requirements of such grade, quality or classification.

The grade marks approved for use shall be similar in form and design to the examples of Figures 1 to 5 of this section.

(b) Inspection marks: The approved inspection marks may be used on containers, labels, or otherwise indicated for any processed product that:

(1) Has been packed under inspection as provided in this part to assure compliance with the requirements for wholesomeness established for the raw product and of sanitation established for the preparation and processing operations, and

(2) Has been certified by an inspector as meeting the requirements of such grade, quality or classification.
§ 260.86

an inspector as meeting the requirements of such quality or grade classification as may be approved by the Secretary.

The inspection marks approved for use shall be similar in form and design to the examples in Figures 6, 7, and 8 of this section.

Statement enclosed within a circle.

PACKED UNDER FEDERAL INSPECTION

U.S. DEPARTMENT OF COMMERCE

Figure 7.

Statement enclosed within a circle.

OCT. 3, 1970

U.S. DEPARTMENT OF COMMERCE

FIGURE 9.

U. S. D. C.

OCT. 3, 1970

ACCEPTED Per SPECIFICATIONS

FIGURE 10.
§ 260.88  
Removal of labels bearing inspection marks: At the time a lot of fishery products is found to be mislabeled and the labels on the packages are not removed within ten (10) consecutive calendar days, the following procedure shall be applicable:

(1) The processor, under the supervision of the inspector, shall clearly and conspicuously mark all master cases in the lot by means of a "rejected by USDC Inspector" stamp provided by the Department.

(2) The processor shall be held accountable to the Department for all mislabeled products until the products are properly labeled.

(3) Clearance for the release of the relabeled products shall be obtained by the processor from the inspector.

(f) Users of inspection services having an inventory of labels which bear official approved identification marks stating "U.S. Department of the Interior" or otherwise referencing the Interior Department, will be permitted to use such marks until December 31, 1971, except that upon written request the Director, National Marine Fisheries Service, may extend such period for the use of specific labels.

§ 260.89  
Political activity.  
All inspectors and licensed samplers are forbidden, during the period of their respective appointments or licenses, to take an active part in political management or in political campaigns. Political activities in city, county, State, or national elections, whether primary or regular, or in behalf of any party or candidate, or any measure to be voted upon, are prohibited. This applies to all appointees or licensees, including, but not limited to, temporary and cooperative employees and employees on leave of absence with or without pay. Willful violation of this section will constitute grounds for dismissal in the case of appointees and revocation of licenses in the case of licensees.

§ 260.90  
Compliance with other laws.  
None of the requirements in the regulations in this part shall excuse failure to comply with any Federal, State, county, or municipal laws applicable to the operation of food processing establishments and to processed food products.

§ 260.91  
Identification.  
Each inspector and licensed sampler shall have in his possession at all times and present upon request, while on duty, the means of identification furnished by the Department to such person.

§ 260.92  
Debarment and suspension.

(a) Debarment. Any person may be debarred from using or benefiting from the inspection service provided under the regulations of this subchapter or under the terms of any inspection contract, and such debarment may apply to one or more plants under his control, if such person engages in one or more of the following acts or activities:

(1) Misrepresenting, misstating, or withholding any material or relevant facts or information in conjunction with any application or request for an inspection contract, inspection service, inspection appeal, lot inspection, or other service provided for under the regulations of this subchapter.

(2) Using on a processed product any label which displays any official identification, official device, or official mark, when the label is not currently approved for use by the Director or his delegate.

(3) Using on a processed product any label which displays the words "Packed Under Federal Inspection, U.S. Department of Commerce", or which displays any official mark, official device, or official identification, or which displays a facsimile of the foregoing, when such product has not been inspected under the regulations of this subchapter.

(4) Making any statement or reference to the U.S. Grade of any processed product or any inspection service provided under the regulations of this subchapter on the label or in the advertising of any processed product, when such product has not been inspected under the regulations of this subchapter.

(5) Making, using, issuing or attempting to issue or use in conjunction with the sale, shipment, transfer or advertisement of a processed product any
certificate of loading, certificate of sampling, inspection certificate, official device, official identification, official mark, official document, or score sheet which has not been issued, approved, or authorized for use with such product by an inspector.

6) Using any of the terms “United States”, “Officially graded”, “Officially inspected”, “Government inspected”, “Federally inspected”, “Officially sampled”, or words of similar import or meanings, or using any official device, official identification, or official mark on the label, on the shipping container, or in the advertising of any processed product, when such product has not been inspected under the regulations of this subchapter.

7) Using, attempting to use, altering or reproducing any certificate, certificate form, design, insignia, mark, shield, device, or figure which simulates in whole or in part any official mark, official device, official identification, certificate of loading, certificate of sampling, inspection certificate or other official certificate issued pursuant to the regulations of this subchapter.

8) Assaulting, harassing, interfering, obstructing or attempting to interfere or obstruct any inspector or sampler in the performance of his duties under the regulations of this subchapter.

9) Violating any one or more of the terms of any inspection contract or the provisions of the regulations of this subchapter.

10) Engaging in acts or activities which destroy or interfere with the purposes of the inspection program or which have the effect of undermining the integrity of the inspection program.

(b) Temporary suspension. (1) Whenever the Director has reasonable cause to believe that any person has engaged in any act or activity described in paragraph (a) of this section, and in such act or activity, in the judgment of the Director, would cause serious and irreparable injury to the inspection program and services provided under the regulations of this subchapter, the Director may, without a hearing, temporarily suspend, either before or after the institution of a debarment hearing, the inspection service provided under the regulations of this subchapter or under any inspection contract for one or more plants under the control of such person. Notice of suspension shall be served by registered or certified mail, return receipt requested, and the notice shall specifically state those acts or activities of such person which are the bases for the suspension. The suspension shall become effective five (5) days after receipt of the notice.

(2) Once a person has received a notice of a temporary suspension, a debarment hearing will be set for 30 days after the effective date of the suspension. Within 60 days after the completion of the debarment hearing, the Hearing Examiner shall determine, based upon evidence of record, whether the temporary suspension shall be continued or terminated. A temporary suspension shall be terminated by the Hearing Examiner if he determines that the acts or activities, which were the bases for the suspension, did not occur or will not cause serious and irreparable injury to the inspection program and services provided under the regulations of this subchapter. This determination of the Hearing Examiner on the continuation or termination of the temporary suspension shall be final and there shall be no appeal of this determination. The initial decision by the Hearing Examiner on the debarment shall be made in accordance with paragraph (b)(1), Decisions, of this section.

(3) After a debarment hearing has been instituted against any person by a suspension, such suspension will remain in effect until a final decision is rendered on the debarment in accordance with the regulations of this section or the temporary suspension is terminated by the Hearing Examiner.

(4) When a debarment hearing has been instituted against any person not under suspension, the Director may, in accordance with the regulations of this paragraph (b) temporarily suspend such person, and the suspension will remain in effect until a final decision on the debarment is rendered in accordance with the regulations of this section or the temporary suspension is terminated by the Hearing Examiner.
§ 260.93

(c) Hearing Examiner. All hearing shall be held before a Hearing Examiner appointed by the Secretary or the Director.

(d) Hearing. If one or more of the acts or activities described in paragraph (a) of this section have occurred, the Director may institute a hearing to determine the length of time during which the person shall be debarred and those plants to which the debarment shall apply. No person may be debarred unless there is a hearing, as prescribed in this section, and it has been determined by the Hearing Examiner, based on evidence of record, that the one or more of the activities described in paragraph (a) of this section have occurred. Any debarment or suspension must be instituted within two (2) years of the time when such acts or activities described in paragraph (a) of this section have occurred.

(e) Notice of hearing. The Director shall notify such person of the debarment hearing by registered or certified mail, return receipt requested. The notice shall set forth the time and place of the hearing, the specific acts or activities which are the basis for the debarment hearing, the time period of debarment being sought, and those plants to which the debarment shall apply. Except for the debarment hearing provided for in paragraph (b) of this section the hearing will be set for a time not longer than 120 days after receipt of the notice of hearing.

(f) Time and place of hearing. The hearing shall be held at a time and place fixed by the Director: Provided, however, The Hearing Examiner may, upon a proper showing of inconvenience, change the time and place of the hearing. Motions for change of time or place of the hearing must be mailed to or served upon the Hearing Examiner no later than 10 days before the hearing.

(g) Right to counsel. In all proceedings under this section, all persons and the Department of Commerce shall have the right to be represented by counsel, in accordance with the rules and regulations set forth in title 43, Code of Federal Regulations, part 1.

(h) Form, execution, and service of documents. (1) All papers to be filed under the regulations in this section shall be clear and legible; and shall be dated, signed in ink, contain the docket description and title of the proceeding, if any, and the address of the signatory. Five copies of all papers are required to be filed. Documents filed shall be executed by:

(i) The person or persons filing same, (ii) by an authorized officer thereof if it be a corporation or, (iii) by an attorney or other person having authority with respect thereto.

(2) All documents, when filed, shall show that service has been made upon all parties to the proceeding. Such service shall be made by delivering one copy to each party in person or by mailing by first-class mail, properly addressed with postage prepaid. When a party has appeared by attorney or other representative, service on such attorney or other representative will be deemed service upon the party. The date of service of document shall be the day when the matter served is deposited in the U.S. mail, shown by the postmark thereon, or is delivered in person, as the case may be.

(3) A person is deemed to have appeared in a hearing by the filing with the Director a written notice of his appearance or his authority in writing to appear on behalf of one of the persons to the hearing.

(4) The original of every document filed under this section and required to be served upon all parties to a proceeding shall be accompanied by a certificate of service signed by the party making service, stating that such service has been made upon each party to the proceeding. Certificates of service may be in substantially the following form:

I hereby certify that I have this day served the foregoing document upon all parties of record in this proceeding by: (1) Mailing postage prepaid, (2) delivering in person, a copy to each party.

Dated at ______ this ______ day of ________, 19____

Signature

(i) Procedures and evidence. (1) All parties to a hearing shall be entitled to introduce all relevant evidence on the issues as stated in the notice for hearing or as determined by the Hearing Examiner at the outset of or during the hearing.
(2) Technical rules of evidence shall not apply to hearings conducted pursuant to this section, but rules or principles designed to assure production of the most credible evidence available and to subject testimony to test by cross-examination shall be applied where reasonably necessary.

(j) Duties of Hearing Examiner. The Hearing Examiner shall have the authority and duty to:

(1) Take or cause depositions to be taken.

(2) Regulate the course of the hearings.

(3) Prescribe the order in which evidence shall be presented.

(4) Dispose of procedural requests or similar matters.

(5) Hear and initially rule upon all motions and petitions before him.

(6) Administer oaths and affirmations.

(7) Rule upon offers of proof and receive competent, relevant, material, reliable, and probative evidence.

(8) Control the admission of irrelevant, immaterial, incompetent, unreliable, repetitious, or cumulative evidence.

(9) Hear oral arguments if the Hearing Examiner determined such requirement is necessary.

(10) Fix the time for filing briefs, motions, and other documents to be filed in connection with hearings.

(11) Issue the initial decision and dispose of any other pertinent matters that normally and properly arise in the course of proceedings.

(12) Do all other things necessary for an orderly and impartial hearing.

(k) The record. (1) The Director will designate an official reporter for all hearings. The official transcript of testimony taken, together with any exhibits and briefs filed therewith, shall be filed with the Director. Transcripts of testimony will be available in any proceeding under the regulations of this section, at rates fixed by the contract between the United States of America and the reporter. If the reporter is an employee of the Department of Commerce, the rate will be fixed by the Director.

(2) The transcript of testimony and exhibits, together with all briefs, papers, and all rulings by the Hearing Examiner shall constitute the record. The initial decision will be predicated on the same record, as will be final decision.

(l) Decisions. (1) The Hearing Examiner shall render the initial decision in all debarment proceedings before him. The same Hearing Examiner who presides at the hearing shall render the initial decision except when such Examiner becomes unavailable to the Department of Commerce. In such case, another Hearing Examiner will be designated by the Secretary or Director to render the initial decision. Briefs, or other documents, to be submitted after the hearing must be received not later than twenty (20) days after the hearing, unless otherwise extended by the Hearing Examiner upon motion by a party. The initial decision shall be made within sixty (60) days after the receipt of all briefs. If no appeals from the initial decision is served upon the Director within ten (10) days of the date of the initial decision, it will become the final decision on the 20th day following the date of the initial decision. If an appeal is received, the appeal will be transmitted to the Secretary who will render the final decision after considering the record and the appeal.

(2) All initial and final decisions shall include a statement of findings and conclusions, as well as the reasons or bases therefore, upon the material issues presented. A copy of each decision shall be served on the parties to the proceeding, and furnished to interested persons upon request.

(3) It shall be the duty of the Hearing Examiner, and the Secretary where there is an appeal, to determine whether the person has engaged in one or more of the acts or activities described in paragraph (a) of this section, and, if there is a finding that the person has engaged in such acts or activities, the length of time the person shall be debarred, and the plants to which the debarment shall apply.

§ 260.96 Application for fishery products inspection service on a contract basis at official establishments.

Any person desiring to process and pack products in an establishment under fishery products inspection service on a contract basis, must receive approval of such buildings and facilities as an official establishment prior to the inauguration of such service. An application for inspection service to be rendered in an establishment shall be approved according to the following procedure:

(a) Initial survey: When application has been filed for inspection service as aforesaid, NMFS inspector(s) shall examine the buildings, premises, and facilities according to the requirements of the fishery products inspection service and shall specify any additional facilities required for the service.

(b) Final survey and establishment approval: Prior to the inauguration of the fishery products inspection service, a final survey of the buildings, premises, and facilities shall be made to verify that the buildings are constructed and facilities are in accordance with the approved drawings and the regulations in this part.

(c) Drawings and specifications of new construction or proposed alterations of existing official establishments shall be furnished to the Director in advance of actual construction for prior approval with regard to compliance with requirements for facilities.

[36 FR 21039, Nov. 3, 1971]

§ 260.97 Conditions for providing fishery products inspection service at official establishments.

(a) The determination as to the inspection effort required to adequately provide inspection service at any establishment will be made by NMFS. The man-hours required may vary at different official establishments due to factors such as, but not limited to, size and complexity of operations, volume and variety of products produced, and adequacy of control systems and cooperation. The inspection effort requirement may be reevaluated when the contracting party or NMFS deems there is sufficient change in production, equipment and change of quality control input to warrant reevaluation. Inspectors will not be available to perform any of employee or management duties, however, they will be available for consultation purposes. NMFS reserves the right to reassign inspectors as it deems necessary.

(b) NMFS shall not be held responsible:

1. For damages occurring through any act of commission or omission on the part of its inspectors when engaged in performing services; or
2. For production errors, such as processing temperatures, length of process, or misbranding of products; or
3. For failure to supply enough inspection effort during any period of service.

(c) The contracting party will:

1. Use only wholesome raw material which has been handled or stored under sanitary conditions and is suitable for processing; maintain the official establishment(s), designated on the contract in such sanitary condition and to employ such methods of handling raw materials for processing as may be necessary to conform to the sanitary requirements prescribed or approved by NMFS;
2. Adequately code each primary container and master case of products sold or otherwise distributed from a manufacturing, processing, packing, or repackaging activity to enable positive lot identification to facilitate, where necessary, the segregation of specific food lots that may have become contaminated or otherwise unfit for their intended use;
3. Not permit any labels on which reference is made to Federal inspection, to be used on any product which is not packed under fishery products inspection service nor permit any labels on which reference is made to any U.S. Grade to be used on any product.

1 Compliance with the above requirements does not excuse failure to comply with all applicable sanitary rules and regulations of city, county, State, Federal, or other agencies having jurisdiction over such establishments and operations.
which has not been officially certified as meeting the requirements of such grade; nor supply labels bearing reference to Federal inspection to another establishment unless the products to which such labels are to be applied have been packed under Federal inspection at an official establishment;

(4) Not affix any label on which reference is made to Federal inspection to any container of processed foods, produced in any designated official establishment, with respect to which the grade of such product is not certified because of adulteration due to the presence of contaminants in excess of limits established in accordance with the regulations or guidelines issued pursuant to the Food, Drug, and Cosmetic Act, as amended;

(5) Not, with respect to any product for which U.S. Grade Standards are in effect, affix any label on which reference is made to Federal inspection to any container of processed food which is substandard: Provided, That such label may be affixed to any container of such substandard quality product if such label bears a statement to indicate the substandard quality;

(6) Not, with respect to any product for which U.S. Grade Standard are not in effect, affix any label on which reference is made to the Federal inspection to containers of processed foods, except with the approval of NMFS;

(7) Furnish such reports of processing, packaging, grading, laboratory analyses, and output of products inspected, processed, and packaged at the designated official establishment(s) as may be requested by NMFS, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942;

(8) Make available for use by inspectors, adequate office space in the designated official establishment(s) and furnish suitable desks, office equipment, and files for the proper care and storage of inspection records;

(9) Make laboratory facilities and necessary equipment available for the use of inspectors to inspect samples of processed foods and/or components thereof;

(10) Furnish and provide laundry service, as required by NMFS, for coats, trousers, smocks, and towels used by inspectors during performance of duty in official establishment(s);

(11) Furnish stenographic and clerical assistance as may be necessary in the typing of certificates and reports and the handling of official correspondence, as well as furnish the labor incident to the drawing and grading of samples and other work required to facilitate adequate inspection procedures whenever necessary;

(12) Submit to NMFS, three (3) copies of new product specifications in a manner prescribed by NMFS, and three (3) end-product samples for evaluation and/or laboratory analysis on all products for approval, for which U.S. Grade Standards are not available, when inspection is to be applied to such products. If requested of NMFS, such new specifications and end-product samples shall be considered confidential;

(13) Submit, as required by NMFS, for approval, proofs prior to printing and thereafter four (4) copies of any finished label which may or may not bear official identification marks, when such products are packed under Federal inspection on a contract basis;

(14) Not make deceptive, fraudulent, or unauthorized use in advertising, or otherwise, of the fishery products inspection service, the inspection certificates or reports issued, or the containers on which official identification marks are embossed or otherwise identified, in connection with the sale of any processed products;

(15) Submit to NMFS, four (4) copies of each label which may or may not bear official identification marks, when such labels are to be withdrawn from inspection or when approved labels are disapproved for further use under inspection;

(16) Notify NMFS in advance of the proposed use of any labels which require obliteration of any official identification marks, and all reference to the inspection service on approved labels which have been withdrawn or disapproved for use;
§ 260.98 Premises.

The premises about an official establishment shall be free from conditions which may result in the contamination of food including, but not limited to, the following:

(a) Strong offensive odors;
(b) Improperly stored equipment, litter, waste, refuse, and uncut weeds or grass within the immediate vicinity of the buildings or structures that may constitute an attractant, breeding place, or harborage for rodents, insects, and other pests;
(c) Excessively dusty roads, yards, or parking lots that may constitute a source of contamination in areas where food is exposed;
(d) Inadequately drained areas that may contribute contamination to food products through seepage or foot-borne filth and by providing a breeding place for insects or micro-organisms;

If the grounds of an official establishment are bordered by grounds not under the official establishment operator’s control of the kind described in violation of any of the provisions of the regulations in the part.

(3) In case the fishery products inspection service is terminated for cause by NMFS under the terms of paragraph (d)(1)(iii) of this section, or in case of automatic termination under terms of paragraph (d)(1)(iv) of this section, the contracting party must destroy all unused containers, labels, and advertising material on hand bearing official identification marks, or reference to fishery products inspection service, or must obliterate official identification marks, and all reference to the fishery products inspection service on said containers, labels and advertising material.

After termination of the fishery products inspection service, NMFS may, at such time or times as it may determine to be necessary, during regular business hours, enter the establishment(s) or other facilities in order to ascertain that the containers, labels, and advertising material have been altered or disposed of in the manner provided herein, to the satisfaction of NMFS.

[36 FR 21039, Nov. 3, 1971]

§ 260.98 Premises.

The premises about an official establishment shall be free from conditions which may result in the contamination of food including, but not limited to, the following:

(a) Strong offensive odors;
(b) Improperly stored equipment, litter, waste, refuse, and uncut weeds or grass within the immediate vicinity of the buildings or structures that may constitute an attractant, breeding place, or harborage for rodents, insects, and other pests;
(c) Excessively dusty roads, yards, or parking lots that may constitute a source of contamination in areas where food is exposed;
(d) Inadequately drained areas that may contribute contamination to food products through seepage or foot-borne filth and by providing a breeding place for insects or micro-organisms;

If the grounds of an official establishment are bordered by grounds not under the official establishment operator’s control of the kind described in violation of any of the provisions of the regulations in the part.

(3) In case the fishery products inspection service is terminated for cause by NMFS under the terms of paragraph (d)(1)(iii) of this section, or in case of automatic termination under terms of paragraph (d)(1)(iv) of this section, the contracting party must destroy all unused containers, labels, and advertising material on hand bearing official identification marks, or reference to fishery products inspection service, or must obliterate official identification marks, and all reference to the fishery products inspection service on said containers, labels and advertising material.

After termination of the fishery products inspection service, NMFS may, at such time or times as it may determine to be necessary, during regular business hours, enter the establishment(s) or other facilities in order to ascertain that the containers, labels, and advertising material have been altered or disposed of in the manner provided herein, to the satisfaction of NMFS.

[36 FR 21039, Nov. 3, 1971]
paragraphs (b) through (d) of this section, care must be exercised in the official establishment by inspection, extermination, or other means to effect exclusion of pests, dirt, and other filth that may be a source of food contamination.

[36 FR 21040, Nov. 3, 1971]

The buildings and structures shall be properly constructed and maintained in a sanitary condition, including, but not limited to the following requirements:

(a) Lighting. There shall be sufficient light (1) consistent with the use to which the particular portion of the building is devoted, and (2) to provide for efficient cleaning. Belts and tables on which picking, sorting, or trimming operations are carried on shall be provided with sufficient nonglaring light to insure adequacy of the respective operation. Light bulbs, fixtures, skylights, or other glass suspended over exposed food in any step of preparation shall be of the safety type or otherwise protected to prevent food contamination in case of breakage.

(b) Ventilation. There shall be sufficient ventilation in each room and compartment thereof to prevent excessive condensation of moisture and to insure sanitary and suitable processing and operating conditions. If such ventilation does not prevent excessive condensation, the Director may require that suitable facilities be provided to prevent the condensate from coming in contact with equipment used in processing operations and with any ingredient used in the manufacture or production of a processed product.

(c) Drains and gutters. All drains and gutters shall be properly installed with approved traps and vents. The drainage and plumbing system must permit the quick runoff of all water from official establishment buildings, and surface water around buildings and on the premises; and all such water shall be disposed of in such a manner as to prevent a nuisance or health hazard. Tanks or other equipment whose drains are connected to the waste system must have such screens and vacuum breaking devices affixed so as to prevent the entrance of waste water, material, and the entrance of vermin to the processing tanks or equipment.

(d) Water supply. There shall be ample supply of both hot and cold water; and the water shall be of safe and sanitary quality with adequate facilities for its (1) distribution throughout buildings, and (2) protection against contamination and pollution.

Sea water of safe suitable and sanitary quality may be used in the processing of various fishery products when approved by NMFS prior to use.

(e) Construction. Roofs shall be weathertight. The walls, ceilings, partitions, posts, doors, and other parts of all buildings and structures shall be of such materials, construction, and finish as to permit their efficient and thorough cleaning. The floors shall be constructed of tile, cement, or other equally impervious material, shall have good surface drainage, and shall be free from openings or rough surfaces which would interfere with maintaining the floors in a clean condition.

(f) Processing rooms. Each room and each compartment in which any processed products are handled, processed, or stored (1) shall be so designed and constructed as to insure processing and operating conditions of a clean and orderly character; (2) shall be free from objectional odors and vapors; and (3) shall be maintained in a clean and sanitary condition.

(g) Prevention of animals and insects in official establishment(s). Dogs, cats, birds, and other animals (including, but not being limited to rodents and insects) shall be excluded from the rooms from which processed products are being prepared, handled, or stored and from any rooms from which ingredients (including, but not being limited to salt, sugar, spices, flour, batter, breading, and fishery products) are handled and stored. Screens, or other devices, adequate to prevent the passage of insects shall, where practical, be provided for all outside doors and openings. The use of chemical compounds such as cleaning agents, insecticides, bactericides, or rodent poisons shall not be permitted except under such precautions and restrictions as will prevent any possibility of their contamination of the processed product. The use of such compounds shall...
§ 260.100 Facilities.

Each official establishment shall be equipped with adequate sanitary facilities and accommodations, including, but not being limited to, the following:

(a) Containers approved for use as containers for processed products shall not be used for any other purpose.

(b) No product or material not intended for human food or which creates an objectionable condition shall be processed, handled, or stored in any room, compartment, or place where any fishery product is manufactured, processed, handled, or stored.

(c) Suitable facilities for cleaning and sanitizing equipment (e.g., brooms, brushes, mops, clean cloths, hose, nozzles, soaps, detergent, sprayers) shall be provided at convenient locations throughout the plant.

(d) Durable signs shall be posted conspicuously in each toilet room and locker room directing employees to wash hands before returning to work.

(e) Toilet facilities shall be provided according to the following formula:

<table>
<thead>
<tr>
<th>Number of persons</th>
<th>Toilet bowls required</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 to 15, inclusive</td>
<td>1</td>
</tr>
<tr>
<td>16 to 35, inclusive</td>
<td>2</td>
</tr>
<tr>
<td>36 to 55, inclusive</td>
<td>3</td>
</tr>
<tr>
<td>56 to 80, inclusive</td>
<td>4</td>
</tr>
<tr>
<td>For each additional 30 persons in excess of 80</td>
<td>1</td>
</tr>
</tbody>
</table>

*Urinals may be substituted for toilet bowls but only to the extent of one-third of the total number of bowls required.

§ 260.101 Lavatory accommodations.

Modern lavatory accommodations, and properly located facilities for cleaning and sanitizing utensils and hands, shall be provided.

(a) Adequate lavatory and toilet accommodations, including, but not being limited to, running hot water (135°F or more) and cold water, soap, and single service towels, shall be provided. Such accommodations shall be in or near toilet and locker rooms and also at such other places as may be essential to the cleanliness of all personnel handling products.

(b) Sufficent containers with covers shall be provided for used towels and other wastes.

(c) An adequate number of hand washing facilities serving areas where edible products are prepared shall be operated by other than hand-operated controls, or shall be of a continuous flow type which provides an adequate flow of water for washing hands.

(d) Durable signs shall be posted conspicuously in each toilet room and locker room directing employees to wash hands before returning to work.

(e) Toilet facilities shall be provided in operable, in good repair, and in a sanitary condition.

§ 260.102 Equipment.

All equipment used for receiving, washing, segregating, picking, processing, packaging, or storing any processed products or any ingredients used in the manufacture or production thereof, shall be of such design, material, and construction as will:

(a) Enable the examination, segregation, preparation, packaging, and other processing operations applicable to processed products, in an efficient, clean, and sanitary manner, and

(b) Permit easy access to all parts to insure thorough cleaning and effective bactericidal treatment. Insofar as is practicable, all such equipment shall be made of smooth impermeable corrosion-resistant material that will not adversely affect the processed product by chemical action or physical contact. Such equipment shall be kept in good repair and sanitary condition. Such
§ 260.103 Operations and operating procedures shall be in accordance with an effective sanitation program.

(a) All operators in the receiving transporting, holdings, segregating, preparing, processing, packaging, and storing of processed products and ingredients, used as aforesaid, shall be strictly in accord with clean and sanitary methods and shall be conducted as rapidly as possible and at temperatures that will inhibit and retard the growth of bacterial and other micro-organisms and prevent any deterioration or contamination of such processed products or ingredients thereof. Mechanical adjustments or practices which may cause contamination of foods by oil, dust, paint, scale, fumes, grinding materials, decomposed food, filth, chemicals, or other foreign materials shall not be conducted during any manufacturing or processing operation.

(b) All processed products, raw materials, ingredients, and components thereof shall be subject to inspection during each manufacturing or processing operation. To assure a safe, wholesome finished product, changes in processing methods and procedures as may be required by the Director shall be effected as soon as practicable. All processed products which are not manufactured or prepared in accordance with the requirements contained in §260.96 to §260.104 or are unwholesome or otherwise not fit for human food shall be removed and segregated prior to any further processing operation.

(c) Official establishments operating under Federal inspection should have an effective quality control program as appropriate for the nature of the products and processing operations. Such quality control program shall include, but not be limited to:

(1) Containers, utensils, pans, and buckets used for the storage or transporting of partially processed food ingredients shall not be nested unless re-washed and sanitized before each use;

(2) Containers which are used for holding partially processed food ingredients shall not be stacked in such manner as to permit contamination of the partially processed food ingredients;

(3) Packages or containers for processed products shall be clean when being filled with such products; and all reasonable precautions shall be taken to avoid soiling or contaminating the surface of any package or container liner which is, or will be, in direct contact with such products.

(f) Retention tags: (1) Any equipment such as, but not limited to, conveyors, tillers, sorters, choppers, and containers which fail to meet appropriate and adequate sanitation requirements will be identified by the inspector in an appropriate and conspicuous manner with the word “RETAINED.” Following such identification, the equipment shall not be used until the discrepancy has been resolved, the equipment reinspected and approved by the inspector and the “RETAINED” identification removed by the inspector.

(2) Lot(s) of processed products that may be considered to be mislabeled and/or unwholesome by reason of contaminants or which may otherwise be in such condition as to require further evaluation or testing to determine that the product properly labeled and/or wholesome will be identified by the inspector in an appropriate and conspicuous manner with the word “RETAINED.” Such lot(s) of product shall be held for reinspection or testing. Final disposition of the lot(s) shall be determined by NMFS and the removal of the “RETAINED” identification shall be performed by the inspector.

[36 FR 21041, Nov. 3, 1971]
§ 260.104 Personnel.

The establishment management shall be responsible for taking all precautions to assure the following:

(a) Disease control. No person affected by disease in a communicable form, or while a carrier of such disease, or while affected with boils, sores, infected wounds, or other abnormal sources of microbiological contamination, shall work in a food plant in any capacity in which there is a reasonable possibility of food ingredients becoming contaminated by such person, or of disease being transmitted by such person to other individuals.

(b) Cleanliness. All persons, while working in direct contact with food preparation, food ingredients, or surfaces coming into contact therewith shall:

(1) Wear clean outer garments, maintain a high degree of personal cleanliness, and conform to hygienic practices while on duty, to the extent necessary to prevent contamination of food products.

(2) Wash and sanitize their hands thoroughly to prevent contamination by undesirable microorganisms before starting work, after each absence from the work station, and at any other time when the hands may have become soiled or contaminated.

(3) Remove all insecure jewelry and, when food is being manipulated by hand, remove from hands any jewelry that cannot be adequately sanitized.

(4) If gloves are used in food handling, maintain them in an intact, clean, and sanitary condition. Such gloves shall be of an impermeable material except where their usage would be inappropriate or incompatible with the work involved.

(5) Wear hair nets, caps, masks, or other effective hair restraints. Other persons that may incidentally enter the processing areas shall comply with this requirement.

(6) Not store clothing or other personal belongings, eat food, drink beverages, chew gum, or use tobacco in any form in areas where food or food ingredients are exposed or in areas used for washing equipment or utensils.

(7) Take any other necessary precautions to prevent contamination of foods with microorganisms or foreign substances including, but not limited to perspiration, hair, cosmetics, tobacco, chemicals, and medicants.

(c) Education and training. Personnel responsible for identifying sanitation failures or food contamination should have a background of education or experience, or a combination thereof, to provide a level of competency necessary for production of clean wholesome food. Food handlers and supervisors should receive appropriate training in proper food-handling techniques and food-protection principles and should be cognizant of the danger of poor personal hygiene and unsanitary practices, and other vectors of contamination.

[36 FR 21041, Nov. 3, 1971]
 Compliance with a voluntary standard issued as a Program policy does not relieve any party from the responsibility to comply with the provisions of the Federal Food, Drug, and Cosmetic Act; or other Federal laws and regulations.

(b) Notification of an application for a new grade standard shall be published in the Federal Register. If adopted, the grade standard shall be issued as a Program policy and contained in the NMFS Fishery Products Inspection Manual.

(c) Revision and revision of a U.S. Standard for Grades will be made a Program policy amendment and contained in the NMFS Fishery Products Inspection Manual.

(d) The NMFS Fishery Products Inspection Manual is available to interested parties.

§ 261.103 Basis for determination of a U.S. Standard for Grades.

(a) To address the inherently distinct and dissimilar attributes found in the fishery product groups, each standard for grades should have a different scope and product description, product forms, sample sizes, definition of defects, etc. The Secretary will make the final determination regarding the content of a U.S. Standard for Grades.

(b) A proposal for a new or revised U.S. grade standard may include the following:

(1) Scope and product description, which describes the products that are eligible for grading using the standard (e.g., fish portion, fish fillet).

(2) Product forms, which describe the types, styles and market forms covered by the standard (e.g., skin-off, tail-on, headless).

(3) Grade and inspection marks, which describe the grades and inspection mark criteria for each grade category (e.g., Grade A ≤ 15 points).

(4) Grade determination, which describes the means by which the grade is determined (i.e., the factors rated by score points and those that are not). Standards may contain defect grouping limiting rules that contain additional provisions that must be met.

(5) Sampling, which describes the method of sampling and sample unit sizes (e.g., 10 portions, 8 ounces, etc.).

(6) Procedures that describe the process used to determine the product grade (e.g., label declarations, sensory evaluation).

(7) definitions of defects, which outline the defects associated with the products covered by the standard, defines them, and describes the method of counting or measuring the defects. This section may provide associated defect points or reference a defect table (e.g., bruises, blood spots, bones, black spots, coating defects, 1-inch squares, percent by weight, ratios).

(8) Defect point assessment, which describes how to assess points and provides any special guidance that may be necessary to the particular standard (e.g., defect points for certain categories are added together and divided by the weight of the sample unit; the number of instances are counted to determine if it is slight, moderate, or excessive defect).

(9) Tolerances for lot certification, which provide the sections from Title 50 CFR that regulate lot certification.

(10) Hygiene, which specifies the sections of applicable Federal regulations regulating the safe, wholesome production of food for human consumption.

(11) Methods of analysis, which describe the methods of analysis that will be used in the evaluation of the products covered by the standard for grades (e.g., net weight, deglazing, debreading).

(12) Defect table, which is the table of defects and associated points to be assessed for each defect.
SUBCHAPTER H—[RESERVED]

SUBCHAPTER I—TUNA FISHERIES

PART 285—ATLANTIC TUNA FISHERIES

Subpart A—General

Sec.
285.1 Purpose and scope.
285.2 Definitions.
285.3 Prohibitions.
285.4 Facilitation of enforcement.
285.5 Civil procedures.
285.6 Civil penalties.
285.7 Experimental fishing exemption.
285.8 At-sea observer coverage.
285.9 Archival tags.

Subpart B—Atlantic Bluefin Tuna (Thunnus thynnus thynnus)

285.20 Fishing seasons.
285.21 Vessel permits.
285.22 Quotas.
285.23 Incidental catch.
285.24 Catch limits.
285.25 Purse seine vessel requirements.
285.26 Size classes.
285.27 Tag and release program.
285.28 Dealer permits.
285.29 Recordkeeping and reporting.
285.30 Tags.
285.31 Prohibitions.
285.32 Civil penalties.
285.33 Gear restrictions.
285.34 Restrictions on sale.

Subpart C—Atlantic Tunas Other Than Bluefin Tuna

285.50 Species subject to regulation.
285.51 Authorized fishing gear.
285.52 Size limits.
285.53 Vessel permits.
285.54 Vessel recordkeeping and reporting.
285.55 Dealer permits.
285.56 Dealer recordkeeping and reporting.
285.57 Purse seine vessel requirements.
285.58 Incidental catch.
285.59 Prohibitions.

Subpart D—Restrictions on Tuna Imports

285.80 Basis and purpose.
285.81 Species subject to regulation.
285.82 Species under investigation by the Commission.
285.83 Investigations authorized.
285.84 Publication of findings.
285.85 Proof of admissibility.
285.86 Removal of import restrictions.
285.87 Import restrictions for Belize, Honduras, and Panama.

Subpart E—International Port Inspection

285.100 Basis and purpose.
285.101 Authorized officer.
285.102 Vessels subject to inspection.
285.103 Reports.

Subpart F—Bluefin Tuna Statistical Documentation

285.200 Species subject to documentation requirements.
285.201 Documentation requirements.
285.203 Validation requirements.
285.204 Ports of entry.
285.205 Prohibitions.

Figure 1 to Part 285

Authority: 16 U.S.C. 971 et seq.

Source: 50 FR 43398, Oct. 25, 1985, unless otherwise noted.

Subpart A—General

§ 285.1 Purpose and scope.

(a) The Atlantic Tuna Convention Act of 1975 (16 U.S.C. 971-971h) authorizes the Secretary to implement the recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT). The Secretary’s authority under the Act has been delegated to the Assistant Administrator.

(b) This part implements the ICCAT recommendations for persons and vessels subject to the jurisdiction of the United States.

(c) This part does not apply to any person or vessel authorized by the Commission, or in writing by the Director, or any state upon written authorization by the Director, to engage in fishing for research purposes.

(d) Under section 9(d) of the Act, determinations made by the Assistant Administrator that the provisions of this part apply within the territorial sea of the United States adjacent to, and within the boundaries of, the States of Texas, Louisiana, Alabama, Florida, Georgia, South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, New York, Rhode Island, Massachusetts, New...
Hampshire, and the Commonwealths of Puerto Rico and the Virgin Islands, and, with the exceptions of §§ 285.22 (c) and (d), 285.23 (a) and (b) and 285.25 within the territorial sea of the United States adjacent to, and within the boundaries of, the State of Maine, continue in effect.

§ 285.2 Definitions.

The terms used in this part have the following meanings (definitions in the Act are repeated here to aid understanding of the rules): Act means the Atlantic Tunas Convention Act of 1975, 16 U.S.C. 971–971h. Aircraft means any contrivance used for flight in air. Albacore means the fish species Thunnus alalunga. Angling means fishing for or catching of, or the attempted fishing for or catching of, fish by any person (angler) with a hook attached to a line which is hand held or by rod and reel made for this purpose. Archival tag means an electronic recording device that is implanted or affixed to a fish that is released alive back into the ocean to allow collection of scientific information about the migratory behavior of that fish. Assistant Administrator means the Assistant Administrator for Fisheries, National Oceanic and Atmospheric Administration, Department of Commerce, or an individual to whom appropriate authority has been delegated. Atlantic bluefin tuna means the subspecies of bluefin tuna Thunnus thynnus thynnus that is found in the Atlantic Ocean. Size classes for Atlantic bluefin tuna are defined in §285.26. Atlantic bonito means the fish species Sarda chiliensis or Sarda sarda. Authorized officer means:

1. Any commissioned, warrant, or petty officer of the U.S. Coast Guard; or any U.S. Coast Guard personnel acting under the direction of a commissioned, warrant, or petty officer of the U.S. Coast Guard;
2. Any special agent or fisheries enforcement officer of NMFS; or
3. Any person designated by the head of any Federal or state agency that has entered into an agreement with the Secretary or the Commandant of the U.S. Coast Guard to enforce the provisions of the Magnuson Act.

Bandit gear means vertical hook-and-line gear with rods attached to a vessel, with no more than two hooks per line and with line retrieved by manual, electric, or hydraulic reels. Bigeye tuna means the fish species Thunnus obesus. Bluefin tuna means the fish species Thunnus thynnus that is found in any ocean area. Buy-boat means any vessel or other means of conveyance used by a dealer in purchasing or receiving Atlantic bluefin tuna from any person or fishing vessel engaged in fishing for any tuna. Cargo vessel means any fishing vessel used for transporting fish or fish products. Charter boat means a vessel less than 100 gross tons (90.8 metric tons) that meets the requirements of the Coast Guard to carry six or fewer passengers for hire and that carries a passenger for hire at any time during the calendar year. Commercial activity means any activity, other than fishing, of industry, trade, or commerce, including but not limited to the buying or selling of a regulated species and activities conducted for the purpose of facilitating such buying and selling. Commercial fishing means fishing for purposes including sale or barter of any or all of the fish harvested.

Commission means the International Commission for the Conservation of Atlantic Tunas established under Article III of the Convention. Convention means the International Convention for the Conservation of Atlantic Tunas, signed at Rio de Janeiro, Brazil, on May 14, 1966, 20 U.S.T. 2887, TIAS 6767, including any amendments or protocols thereto, which are binding upon the United States. Curved fork length means a measurement of the length of Atlantic tuna taken in a line tracing the contour of the body from the tip of the upper jaw to the fork of the tail, which abuts the ventral side of the pectoral fin and the ventral side of the caudal keel. Dealer means any person who engages in a commercial activity with respect to a regulated species or parts thereof.
Director means the Director of the Office of Fisheries Conservation and Management, 1335 East-West Highway, Silver Spring, MD 20910.

downrigger means a rod attached to a vessel and with a weight on a cable that is in turn attached to hook-and-line gear to maintain lures or bait at depth while trolling, and that has a release system to retrieve the weight by rod and reel or by manual, electric, or hydraulic winch after a fish strike on the hook-and-line.

dressed weight means the weight of a fish after it has been gilled, gutted, headed, and deheaded.

drift gillnet, sometimes called a drift entanglement net or drift net, means a flat net, unattached to the ocean bottom, whether or not attached to a vessel, designed to be suspended vertically in the water to entangle the head or other body parts of fish that attempt to pass through the meshes.
eviscerated means removal of the alimentary organs only.
fishing means the catching or fishing for, or the attempted catching or fishing for, any species of fish covered by the Convention, or any activities in support of fishing.
Fisheries Science Center Director means:

(1) For areas south of Virginia, the Science and Research Director, Southeast Fisheries Science Center, NMFS, 75 Virginia Beach Drive, Miami, FL 33149, telephone 305-361-5761, or a designee; or

(2) For Virginia and areas to the north, the Science and Research Director, Northeast Fisheries Science Center, NMFS, 166 Water Street, Woods Hole, MA 02543-1097, telephone 508-548-5123.

Fishing record means all records of navigation and operations, as well as all records of catching, harvesting, transporting, landing, purchase or sale.

Fishing trip means the time period between when a fishing vessel departs from port to carry out fishing operations and the time such vessel returns to port or offloads any of its catch.

Fishing vessel means any vessel engaged in fishing, processing, or transporting fish loaded on the high seas, or any vessel outfitted for such activities.

Fishing week means a period of time beginning at 0001 hours local time on Sunday, and ending at 2400 hours local time on the following Saturday.

Fixed gear means stationary, anchored non-trawl gear.

Handgear means handline, harpoon, or rod and reel.

Handline or handline gear means fishing gear which is released by hand and consists of one main line of variable length to which is attached one or two leaders and hooks. Handlines are retrieved only by hand, and not by mechanical means.

Harpoon or harpoon gear means fishing gear consisting of a pointed dart or iron attached to the end of a line several hundred feet in length, the other end of which is attached to a floatation device. Harpoon gear is attached to a pole or stick which is propelled only by hand, and not by mechanical means.

Headboat (partyboat) means a vessel that holds a valid Certificate of Inspection issued by the U.S. Coast Guard to carry passengers for hire.

Intermediate country means a country from which bluefin tuna or bluefin tuna products that were previously imported by that nation are exported to the United States. Shipments of bluefin tuna or bluefin tuna products through a country on a through bill of lading or in another manner that does not enter the shipments into that country as an importation do not make that country an intermediate country under this definition.

Land means to begin offloading fish, to offload fish, or to arrive in port with the intention of offloading fish.

Length overall means the length listed on the vessel's U.S. Coast Guard Certificate of Documentation or Certificate of Number, or if not documented, on the vessel's state registration certificate.

Longline or longline gear means fishing gear which is set horizontally, either anchored, floating, or attached to a vessel, which consists of a main or groundline with three or more gangions and hooks. A longline may be retrieved by hand or mechanical means.

Metric ton (mt) means 2204.6 pounds (1000 kilograms).
NMFS means the National Marine Fisheries Services, National Oceanic and Atmospheric Administration, Department of Commerce.

Operator, with respect to any vessel, means the master or other individual on board and in charge of that vessel.

Owner means, with respect to any vessel
(1) Any person who owns that vessel in whole or part;
(2) Any charterer of the vessel, whether bareboat, time, or voyage; or
(3) Any person who acts in the capacity of a charterer, including but not limited to parties to a management agreement, operating agreement, or any similar agreement that bestows control over the destination, function, or operation of the vessel.

Pacific bluefin tuna means the subspecies of bluefin tuna *Thunnus thynnus orientalis* that is found in the Pacific Ocean.

Person means any individual, partnership, corporation, or association subject to the jurisdiction of the United States.

Plastic tag means the plastic or combination plastic and metal marker issued for the tag and release program under §285.27.

Postmark means independently verifiable evidence of date of mailing, such as U.S. Postal Service postmark, United Parcel Service (U.P.S.) or other private carrier postmark, certified mail receipt, overnight mail receipt or a receipt issued upon hand delivery to an authorized representative of NMFS.

Private boat means any vessel fishing in the Angling category other than charter or party boats.

Purse seining means fishing for or catching a regulated species by means of an encircling net and associated gear.

Recreational fishing means fishing for purposes not including sale or barter of any or all of the fish harvested.

Regional Director means
(1) For the purposes of Atlantic tuna vessel and dealer permits and Atlantic bluefin tuna dealer reports, the Director, Northeast Region, National Marine Fisheries Service, One Blackburn Drive, Gloucester, MA 01930-3799; and for purposes of reporting for Atlantic tunas other than bluefin, the Regional Director, Southeast Region, National Marine Fisheries Service, 9721 Executive Center Drive, St. Peters burg, FL 33702-2432.
(2) For the purposes of Pacific bluefin dealer permits and reporting, the Director, Southwest Region, National Marine Fisheries Service, 501 W. Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213.

Regulated species means albacore, Atlantic bluefin tuna, bigeye tuna, skipjack tuna, or yellowfin tuna.

Regulatory area means all waters of the Atlantic Ocean including adjacent seas, except the waters over which the individual States exercise fishery management jurisdiction unless the Assistant Administrator has determined otherwise in accordance with this part, as noted in §285.1(d).

Reporting week means a period of time beginning at 0001 hours local time on Sunday, and ending at 2400 hours local time the following Saturday.

Restricted-fishing day means a date, beginning at 0001 hours and ending at 2400 hours, after the commencement date of the General category fishing season and before the effective date of fishery closure on attaining the annual or subperiod quota, designated by the Director under §285.24(a) upon which no fishing for, possession or retention of Atlantic bluefin tuna may be conducted by persons aboard vessels permitted in the Atlantic tunas General category.

Rod and reel means vertical hook-and-line gear with a hand-held (includes rod holder) fishing rod and a manually operated reel attached.

Round or round weight means a fish or the weight of a fish before gilling, gutting, beheading, and definning.

Secretary means the Secretary of Commerce, or a designee.

Short ton (st) means 2,000 pounds (907 kilograms).

Skipjack tuna means the fish species *Katsuwonus (Euthynnus) pelamis*.

State means any State of the United States, the District of Columbia, the Commonwealths of Puerto Rico and the Virgin Islands, and territories and possessions of the United States.

Straight fork length means a measurement of the length of Atlantic tuna.
§ 285.3 Prohibitions.

It is unlawful:

(a) For any person or for any fishing vessel subject to the jurisdiction of the United States to engage in fishing or to land any Atlantic tuna in violation of these rules, except that fish implanted or affixed with archival tags may be possessed, retained and landed under the provisions of § 285.9.

(b) For any person to land, transship, ship, transport, purchase, sell, offer for sale, import, export, or have in custody, possession, or control any fish that the person knows, or should have known, was taken, retained, possessed, or landed contrary to the regulations of another country.

(c) For a dealer or any person in charge of any fishing vessel subject to the jurisdiction of the United States to fail to make, keep, or furnish reports required by this part.

(d) For a dealer or any person in charge of any fishing vessel subject to the jurisdiction of the United States to obstruct or to refuse to allow any authorized officer to enter the dealer’s premises or to board the fishing vessel to search or inspect its catch, equipment, books, documents, records, or other articles, or to question the persons in the dealer’s premises or aboard the fishing vessel under the provisions of this part.

(e) For any person to import from any country any regulated species in any form subject to regulation under a recommendation of the Commission, or any fish in any form not under regulation but under investigation by the Commission, during the period such fish have been denied entry under this part.

(f) For any person or vessel subject to the jurisdiction of the United States to land:

(1) Any tuna, except bluefin, in forms other than round (fins intact), or other than eviscerated with the head, tail, and fins removed, except that one pectoral fin must remain attached; and

(2) Bluefin tuna in forms other than round (fins intact), or other than eviscerated with the head and fins removed, except that one pectoral fin and tail must remain attached.

(g) For any person subject to the jurisdiction of the United States to land, transship, ship, transport, purchase, sell, offer for sale, import, export, or have in custody, possession, or control any regulated species that was harvested, retained, or possessed in a manner contrary to the regulations of another country.

(h) For any person to refuse to provide information requested by NMFS personnel or anyone collecting information for NMFS, under an agreement or contract, relating to the scientific monitoring or management of tuna.

(i) For any person to assault, impede, oppose, intimidate, or interfere with, by any means, NMFS personnel or anyone collecting information for NMFS, under an agreement or contract, relating to the scientific monitoring or management of tuna.

(j) For any person on board a vessel subject to the jurisdiction of the United States to fish for or catch any Atlantic tuna with gear that is not authorized under § 285.21(b) or § 285.51, or to retain or land Atlantic tunas taken with unauthorized gear.

(k) For any person to possess any Atlantic tuna on board a vessel subject to the jurisdiction of the United States
§ 285.4 Facilitation of enforcement.

(a) The Secretary, the Secretary of the Department in which the U.S. Coast Guard is operating, and the U.S. Customs Service will enforce jointly this part and the provisions of the Act.

(b) Enforcement agents of NMFS will enforce provisions of this part and the Act on behalf of the Secretary and may take any actions authorized with respect to enforcement. By agreement, the Secretary may utilize the personnel, services, and facilities of any other Federal Agency to enforce these rules and the Act. By agreement, the Secretary also may designate personnel of a State to enforce these rules and the Act.

(c) The operator of, or any other person aboard, any fishing vessel subject to this part must immediately comply with instructions and signals issued by an authorized officer to stop the vessel and with instructions to facilitate safe boarding and inspection of the vessel, its gear, equipment, fishing record (where applicable), and catch for purposes of enforcing the Act and this part.

(d) Communications. (1) Upon being approached by a U.S. Coast Guard vessel or aircraft, or other vessel or aircraft with an authorized officer aboard, the operator of a fishing vessel must be alert for communications conveying enforcement instructions.

(2) VHF-FM radiotelephone is the preferred method of communicating between vessels. If the size of the vessel and the wind, sea, and visibility conditions allow, a loudhailer may be used instead of the radio. Hand signals, placards, high frequency radiotelephone, or voice may be employed by an authorized officer, and message blocks may be dropped from an aircraft.

(3) If other communications are not practicable, visual signals may be transmitted by flashing light directed at the vessel signaled. Coast Guard units will normally use the flashing light signal “L" as the signal to stop. In the International Code of Signals, “L" (.—..) means “you should stop your vessel instantly.”

(4) Failure of a vessel’s operator promptly to stop the vessel when directed to do so by an authorized officer

§ 285.5 Civil procedures.

(a) The method for assessment of civil penalties for violation of these rules or the Act must be in accordance with the procedures set forth in 15 CFR part 904.

(b) In view of the perishable nature of tuna when not processed otherwise than by chilling or freezing, authorized officers may cause to be sold, for not less than its reasonable market value, unchilled or unfrozen tunas that may be seized and forfeited under the Act and this part.

(c) The purchaser must remit the proceeds of any sale made under paragraph (b) of this section to the Director. The Director will deposit and retain the proceeds in the Suspense Account of NMFS (Account No. DO 6875—Phase 19) after deducting the reasonable cost of the sale, if any, pending judgement of the court or other disposition of the case.

§ 285.6 Civil penalties.

Any person who:
(a) Violates any provisions of § 285.3 (a), (b), or (f) of this part will be assessed a civil penalty of not more than $25,000 for a first violation and a civil penalty of not more than $50,000 for any subsequent violation;
(b) Violates any provision of § 285.3 (c) or (d) of this part will be assessed a civil penalty of not more than $1,000 for a first violation and a civil penalty of not more than $5,000 for any subsequent violation; or
(c) Violates any provision of § 285.3(e) will be assessed a civil penalty of not more than $100,000.

§ 285.7 Experimental fishing exemption.

(a) Upon a written request received at least 30 days before the desired effective date, the Director, in order to provide for the conduct of experimental fishing to gather data needed to make management decisions for the Atlantic tuna resources or fisheries, may exempt any person or vessel from specific requirements of this part.

(b) A request for an exemption must be in writing and received by the Director at least thirty (30) days before the desired effective date. The request must specify any vessel(s) involved, describe the gear to be used, the manner in which the gear will be fished, the duration of the activity, the area where the activity will be conducted, the species of tuna that will be caught, the anticipated bycatch, the port(s) involved and the disposition of the catch, both domestic and foreign. The request must include any fee specified by the Director pursuant to § 285.7(e).

(c) The Director may not grant such exemption unless it is determined that the purpose, design, and administration of the experimental fishing is consistent with the objectives of the management program, ICCAT recommendations, the provisions of the Atlantic Tunas Convention Act, and other applicable law, and that granting the exemption will not:

(1) Have a detrimental effect on the Atlantic tunas resources and fisheries;

(2) Create significant enforcement problems.

(d) Each vessel participating in any experimental fishing activity is subject to all provisions of this part except those specified in the exemption granted that activity by the Director. The conditions, duration of the experimental fishing, and the provisions of this part to which the exemption applies, will be specified in a letter issued by the Director to each vessel or person participating in the exempted activity. This letter must be carried aboard the vessel conducting the exempted activity. Any exemption authorization that has been altered, erased, or mutilated is invalid. A letter of exemption issued under this part is not transferable or assignable. Any violation of any condition in a letter of exemption shall render it null and void upon receipt of written notification from the Director.

(e) The Director may charge a fee to recover the administrative expenses of issuing a letter of exemption. The amount of the fee will be calculated, at least annually, in accordance with the procedures of the NOAA Finance Handbook for determining administrative costs of each special product or service. The fee may not exceed such costs. Persons seeking an exemption may contact the Director at (301) 713-2334 to find out the applicable fee. Failure to pay the fee will preclude issuance of the exemption. Payment by a commercial instrument later determined to be insufficiently funded shall invalidate any letter of exemption.

[58 FR 45290, Aug. 27, 1993]

§ 285.8 At-sea observer coverage.

(a) Notwithstanding the selection for placement or the placement of on-board fishery observers under the authority of any other Federal statute or fisheries regulation, NMFS may require observers for any vessel engaged in directed fishing for, or incidentally taking, Atlantic tunas at any time.

(b) Owners of vessels selected for observer coverage are required to notify the appropriate Fisheries Science Center Director before commencing any fishing trip that may result in the harvest of any Atlantic tuna. Notification procedures will be specified in selection letters to vessel owners.

(c) An owner or operator of a vessel on which a NMFS-approved observer is embarked must:

(1) Provide accommodations and food that are equivalent to those provided to the crew;

(2) Allow the observer access to and use of the vessel's communications equipment and personnel upon request for the transmission and receipt of messages related to the observer's duties;

(3) Provide accommodations and food that are equivalent to those provided to the crew;

(4) Allow the observer access to and use of the vessel's navigation equipment and personnel upon request to determine the vessel's position.

[58 FR 45290, Aug. 27, 1993]
scales, holds, and any other space used to hold, process, weigh, or store fish; and

(5) Allow the observer to inspect and copy the vessel’s log, communications logs, and any records associated with the catch and distribution of fish for that trip.

[58 FR 45290, Aug. 27, 1993]

§ 285.9 Archival tags.

(a) Reserved.

(b) Landing. Notwithstanding other provisions of this part, any person may catch, possess, retain, and land any regulated species in which an archival tag has been affixed or implanted, provided that person complies with all requirements of paragraph (c) of this section.

(c) Landing report. The person possessing, retaining, or landing, under the authority of paragraph (b) of this section, a regulated species in which an archival tag has been affixed or implanted must contact the NMFS, Southeast Science Center (1-800-437-3936) or any NMFS enforcement office (a list of local NMFS enforcement offices can be obtained from the Director) prior to, or at the time of landing, furnish all requested information regarding the location and method of capture, and, as instructed, remove the tag and return it to NMFS or make the fish available so that a NMFS scientist, enforcement agent, or other person designated in writing by the Director may inspect the fish and recover the tag.

(d) Quota monitoring. If a regulated species landed under the authority of paragraph (b) of this section is subject to a quota, the fish shall be counted against the applicable quota category consistent with the fishing gear and activity which resulted in the catch. In the event such fishing gear or activity is otherwise prohibited under applicable provisions of this part, the fish shall be counted against the scientific reserve quota established for that species.

[63 FR 669, Jan. 7, 1998]

Subpart B—Atlantic Bluefin Tuna (Thunnus thynnus thynnus)

SOURCE: 50 FR 43400, Oct. 25, 1985, unless otherwise noted.

§ 285.20 Fishing seasons.

(a) Commencement. Fishing in the regulatory area for Atlantic bluefin tuna will begin

(1) On January 1 of each year:

(i) For anglers fishing for Atlantic bluefin tuna under the quota specified in §285.22(d);

(ii) For vessels permitted in the Incidental Catch category fishing under the quota specified in §285.22(e); and

(iii) For anglers participating in the tag and release program under §285.27.

(2) On June 1 of each year:

(i) For vessels permitted in the General category fishing under the quota specified in §285.22(a), and

(ii) For vessels permitted in the Harpoon Boat category fishing under the quota specified in §285.22(b).

(3) On August 15 of each year:

(i) For vessels permitted in the Purse Seine category fishing under the quota specified in §285.22(c).

(ii) [Reserved]

(4) Consistent with the Convention, the Act and this part, the Assistant Administrator may change the commencement date under this section for any vessel permit category or person (angler) if the Assistant Administrator determines that the changed date will enable scientific research on the status of the stock to be conducted more effectively and will not prevent the quotas for the affected fishery from being caught, based upon historical catch data or other relevant information. The Assistant Administrator will publish a notice in the FEDERAL REGISTER of any change in the commencement date(s) for fishing under this section at least 60 days before commencement of the affected fishery.

(b) Closure. (1)(i) NMFS will monitor catch and landing statistics, including catch and landing statistics from previous years and projections based on those statistics, of Atlantic bluefin tuna by vessels other than those permitted in the Purse Seine category. On
the basis of these statistics, NMFS will project a date when the catch of Atlantic bluefin tuna will equal any quota established under this section, and will file notification with the Office of the Federal Register stating that fishing for or retaining Atlantic bluefin tuna under the quota must cease on that date at a specified hour.

(ii) Upon determining that variations in seasonal distribution, abundance, or migration patterns of ABT, or the catch rate in one area may preclude anglers in another area from a reasonable opportunity to harvest a portion of the quota, NMFS may close all or part of the Angling category, and may reopen it at a later date if NMFS determines that ABT have migrated into an identified area. In determining the need for any such temporary or area closure, NMFS will consider the following factors:

(A) The usefulness of information obtained from catches of a particular geographic area of the fishery for biological sampling and monitoring the status of the stock;
(B) The current year catches from the particular geographic area relative to the catches recorded for that area during the preceding four years;
(C) The catches from the particular geographic area to date relative to the entire category and the likelihood of closure of that entire category of the fishery if no allocation is made;
(D) The projected ability of the entire category to harvest the remaining amount of Atlantic bluefin tuna before the anticipated end of the fishing season.

(2) Angling for Atlantic bluefin tuna under a tag and release program under § 285.27 may continue even after fishing for a quota has ceased.

(3) A vessel permitted in the Purse Seine category may fish under the bluefin tuna quota specified in § 285.22(c), or in fisheries for Atlantic yellowfin or skipjack tuna or other fisheries where bluefin tuna might be taken as bycatch, only until the allocation of bluefin tuna assigned or transferred under § 285.25(d) to that vessel is reached. Upon reaching its individual vessel allocation of Atlantic bluefin tuna, directed purse seine fisheries for Atlantic tunas are closed to such vessel and the vessel will be deemed to have been given notice to that effect.

(c) State actions.
Nothing in this section may be construed to invalidate any more restrictive commencement or closure date established by any State in waters under its jurisdiction.

§ 285.21 Vessel permits.

(a) Permit requirements. A vessel that fishes for, takes, retains or possesses Atlantic bluefin tuna must have on board a valid permit issued to the vessel owner under this section.

(b) Categories of permits. (1) Upon submission of a complete and valid application pursuant to paragraph (c) of this section, the owner of each qualifying vessel may be issued a permit by NMFS for one of the following permit categories: General, Charter/Headboat, Angling, Harpoon Boat, Purse Seine, or Incidental Catch. A permit will not be issued for more than one category.

(2) Persons may fish for, retain or possess Atlantic bluefin tuna only under the quota, catch limits, and size classes applicable to the permit category of the carrying vessel, except that anglers on board General and Charter/Headboat category vessels may fish for and retain school, large school and small medium bluefin tuna, subject to the limits applicable to the Angling category only until such time that a large medium or giant bluefin tuna is caught, retained or possessed on board the vessel.

(3) School, large school and small medium bluefin tuna landed by anglers on board General and Charter/Headboat category vessels are counted against the Angling category quota. When the General category fishery is open, large medium and giant bluefin tuna landed by anglers on board Angling and Charter/Headboat category vessels are counted against the General category quota.

(4) School, large school and small medium bluefin tuna landed by anglers on board General and Charter/Headboat category vessels are counted against the Angling category quota. When the General category fishery is open, large medium and giant bluefin tuna landed by anglers on board Angling category vessels are counted against the General category quota.
§ 285.21  
50 CFR Ch. II (10-1-98 Edition)

may not be sold and are counted against the Angling category quota.

(4) Persons fishing for Atlantic bluefin tuna must not possess on board or use any gear inappropriate to the category for which the carrying vessel is permitted:

(i) General—rod and reel (including downriggers), handline, harpoon, bandit gear;

(ii) Charter/Headboat—rod and reel (including downriggers), handline;

(iii) Angling—rod and reel (including downriggers), handline;

(iv) Harpoon Boat—harpoon;

(v) Purse Seine—purse seine nets, fixed gear, traps, longlines.

(5) When fishing for, or possessing, Atlantic bluefin tuna, operators of vessels permitted for the Charter/Headboat category must have on board a current copy of the operator's merchant marine license or the operator's uninspected passenger vessel license.

(6) Vessels permitted for any category other than the Angling category are eligible to conduct commercial fishing for Atlantic bluefin tuna.

(7) Except for purse seine vessels for which a permit has been issued under this section, an owner may change the category of the vessel's Atlantic tunas permit to another category by application on the appropriate form to NMFS or by dialing 1-888-USA-TUNA before the specified deadline. After the deadline, the vessel's permit category may not be changed to another category for the remainder of the calendar year, regardless of any change in the vessel's ownership. For 1997, the deadline is July 28, 1997. In years after 1997, the deadline for category changes is May 15.

(c) Application procedure. A vessel owner applying for a permit under this section must submit a completed permit application as indicated in the application instructions at least 30 days before the date on which the applicant desires to have the permit made effective.

(1) Applicants must provide all information concerning vessel, gear used, fishing areas, and fisheries participation, including sworn statements relative to income requirements and permit conditions, as indicated in the instructions on the application form.

(2) Applicants must also submit a copy of the official state registration or United States Coast Guard documentation, charter/Headboat license, and, if a boat is owned by a corporation or partnership, the corporate or partnership documents (copy of Certificate of Incorporation and Articles of Association or Incorporation), along with the names of all shareholders owning 5 percent or more of the corporation's stock.

(3) NMFS may require the applicant to provide documentation supporting any sworn statements required under this section before a permit is issued or to substantiate why such permit should not be revoked or otherwise sanctioned under paragraph (j) of this section.

(4) Applicants must also submit any other information that may be necessary for the issuance or administration of the permit, as requested by NMFS.

(d) Issuance. (1) Except as provided in subpart D of 15 CFR part 904, a permit shall be issued within 30 days of receipt of a completed application. An application is complete when all requested forms, reports, information, sworn statements and supporting documentation have been received.

(2) The applicant will be notified of any deficiency in the application. If the applicant fails to correct the deficiency within 15 days following the date of notification, the application will be considered abandoned.

(e) Duration. A permit issued under this section remains valid until it expires or is suspended, revoked, or modified pursuant to subpart D of 15 CFR part 904. Permits expire on the date indicated on the permit or when any of the information previously submitted on the application changes. Permits must be renewed upon expiration. Renewal of permits must be initiated at least 30 days before the expiration date to avoid a lapse in validity.

(f) Alteration. A permit issued under this section which is substantially altered, erased, or mutilated is invalid.

(g) Replacement. Replacement permits will be issued when requested by the owner or authorized representative. A
National Marine Fisheries Service/NOAA, Commerce § 285.22

request for a replacement permit will not be considered a new application. An appropriate fee, consistent with paragraph (k) of this section, may be charged for issuance of the replacement permit.

(h) Transfer. A permit issued under this section, except in the case of a purse seine permit as allowed under paragraph (m) of this section, is not transferable or assignable to another vessel or owner; it is valid only for the vessel and owner to which it is issued.

(i) Display. A permit issued under this section must be carried on board the vessel at all times. The permit must be displayed for inspection upon request of any authorized officer or any employee of NMFS designated by the Regional Director for such purpose. Upon sale of any large medium or giant Atlantic bluefin tuna, the vessel permit must be presented for inspection to the permitted dealer completing the landing card.

(j) Sanctions. The Administrator may suspend, revoke, modify, or deny a permit issued or sought under this section. Procedures governing permit sanctions and denials are found at subpart D of 15 CFR part 904.

(k) Fees. NMFS may charge a fee to recover the administrative expenses of permit issuance. The amount of the fee shall be determined, at least biennially, in accordance with the procedures of the NOAA Finance Handbook, available from the Director, for determining administrative costs of each special product or service. The fee may not exceed such costs and is specified with application or renewal instructions. The required fee must accompany each application or renewal. Failure to pay the fee will preclude issuance of the permit.

(l) Change in application information. Within 15 days after any change in the information contained in an application submitted under this section, the vessel owner must report the change by phone (1-888-USA-TUNA) or internet (http://www.usatuna.com). In such case, a new permit will be issued to incorporate the new information. For certain informational changes, NMFS may require supporting documentation before a new permit will be issued or may require payment of an additional fee. Permittees will be notified of such requirements, if applicable, when reporting changes. In case of failure to report changes, the permit shall be void as of the sixteenth day after a change in the permit information should have been reported as found in an action under 15 CFR part 904.

(m) Closed categories. The Regional Director will issue permits to catch and retain Atlantic bluefin tuna under §285.22(c) only to current owners of those purse seine vessels, or their replacements, that were granted allocations under this subpart and landed Atlantic bluefin tuna in the fishery for Atlantic bluefin tuna during the period 1980 through 1982. The Regional Director will not issue a permit to take Atlantic bluefin tuna under this subpart to the owner of any vessel that was replaced or consolidated with another vessel and retired from the purse seine fishery during the period 1980 through 1982, unless that vessel is replacing another vessel being retired from the fishery.

§ 285.22 Quotas.

The total annual (January 1-December 31) amount of Atlantic bluefin tuna that may be caught, retained, possessed or landed by persons and vessels subject to U.S. jurisdiction in the regulatory area is subdivided as follows:

(a) General. (1) The total annual amount of large medium and giant Atlantic bluefin tuna that may be caught, retained, possessed or landed in the regulatory area by vessels permitted in the General category under §285.21(b) is 633 mt, of which 374 mt are available in the period beginning June 1 and ending August 31; 187 mt are available in the period beginning September 1 and ending September 30, and 72 mt are available in the period beginning October 1.

(2) On the basis of the statistics referenced at §285.20(b)(1), the Assistant Administrator will project a date when the catch of Atlantic bluefin tuna will equal the available quota in any period, and will publish a notification in the Federal Register stating that
§ 285.22

(fishing for, retaining, possessing, or landing Atlantic bluefin tuna under the quota for that period is prohibited from a specified time on that date until the opening of the subsequent quota period, whereupon a quota equal to the initial quota for that period as adjusted for estimated overharvest or underharvest prior to that period will become available.

(3) When the coastwide General category fishery has been closed in any quota period under paragraph (a)(2) of this section, the Director may publish a notification in the Federal Register to make available up to 10 mt of the quota set aside for an area comprising the waters south and west of a straight line originating at a point on the southern shore of Long Island at 72°27' W. long. (Shinnecock Inlet) and running SSE 150° true, and north of 38°47' N. lat. The daily catch limit for the set-aside area will be one large medium or giant ABT per vessel per day. Upon the effective date of the set-aside fishery, fishing for, retaining, or landing large medium or giant ABT is authorized only within the set-aside area. Any portion of the set-aside amount not harvested prior to the reopening of the coastwide General category fishery in the subsequent quota period established under paragraph (a)(1) of this section may be carried over for the purpose of renewing the set-aside fishery at a later date.

(b) Harpoon Boat. The total annual amount of large medium and giant Atlantic bluefin tuna that may be caught, retained, possessed, or landed in the regulatory area by vessels permitted in the Harpoon Boat category under § 285.21(b) is 53 mt.

(c) Purse Seine. The total amount of large medium and giant Atlantic bluefin tuna that may be caught, retained, possessed, or landed in the regulatory area by vessels permitted in the Purse Seine category under § 285.21(b) is 250 mt.

(d) Angling. The total annual amount of Atlantic bluefin tuna that may be caught, retained, possessed, or landed in the regulatory area by anglers is 265 mt. No more than 6 mt of this quota may be school medium or giant bluefin tuna quota and no more than 108 mt of this quota may be school Atlantic bluefin. The size class subquotas for Atlantic bluefin tuna are further subdivided as follows:

1. 51 mt of school, 71 mt of large school or small medium, and 4 mt of large medium or giant Atlantic bluefin tuna may be caught, retained, possessed, or landed south of 38°47' N. lat.
2. 57 mt of school, 80 mt of large school or small medium, and 2 mt of large medium or giant Atlantic bluefin tuna may be caught, retained, possessed, or landed north of 38°47' N. lat.

(e) Incidental. The total annual amount of large medium and giant Atlantic bluefin tuna that may be caught, retained, possessed, or landed in the regulatory area by vessels permitted in the Incidental Catch category under § 285.21(b) is 110 mt. This quota is further subdivided as follows:

1. 109 mt for longline vessels. No more than 86 mt may be caught, retained, possessed, or landed in the area south of 34°00' N. lat.
2. For vessels fishing under § 285.23 (a) and (b), 1 mt may be caught, retained, possessed, or landed in the regulatory area.

(f) Reserve. The total amount of Atlantic bluefin tuna that will be held in reserve for inseason adjustments and fishery independent research is 33 mt. The Assistant Administrator may allocate any portion (from zero to 100 percent) of this amount to any category of the fishery, including research activities authorized under § 285.1(c). The Assistant Administrator will publish a notice of allocation of any inseason adjustment amount in the Federal Register before such allocation is to become effective. Before making any such allocation, the Assistant Administrator will consider the following factors:

1. The usefulness of information obtained from catches of the particular category of the fishery for biological sampling and monitoring the status of the stock;
2. The catches of the particular gear segment to date and the likelihood of closure of that segment of the fishery if no allocation is made;
3. The projected ability of the particular gear segment to harvest the additional amount of Atlantic bluefin
§ 285.23 Incidental catch.

(a) Herring, mackerel, and menhaden purse seine gear and fixed gear other than longlines or traps. Subject to the quotas in §285.22, large medium and giant Atlantic bluefin tuna may be retained during any fishing trip on board a vessel for which an Incidental Catch permit has been issued under §285.21 that is fishing with herring, mackerel, and menhaden purse seine gear or fixed gear other than longlines or traps primarily for species of fish other than tuna, provided that the total amount of Atlantic bluefin tuna taken does not exceed 2 percent, by weight, of all other fish on board the vessel at the end of each fishing trip.

(b) Traps. Subject to the quotas in §285.22, large medium and giant Atlantic bluefin tuna may be retained during any fishing trip on board a vessel for which an Incidental Catch permit under §285.21 has been issued that catches Atlantic bluefin tuna incidentally while fishing with traps, provided that the total amount of Atlantic bluefin tuna taken does not exceed 2 percent, by weight, of all other fish landed by the owner of the vessel within the preceding 30-day period.

(c) Longlines. Subject to the quotas in §285.22, any person operating a vessel using longline gear possessing an Incidental Catch permit issued under §285.21 may retain or land large medium and giant Atlantic bluefin tuna as an incidental catch. The amount of Atlantic bluefin tuna retained or landed may not exceed:

(1) One fish per vessel per fishing trip landed south of 34°00' N. latitude, provided that for the months of January through April at least 1,500 pounds (680 kg), and for the months of May through December at least 3,500 pounds (1,588 kg), either dressed or round weight, of species other than Atlantic bluefin tuna are legally caught, retained, and offloaded from the same

§ 285.24 Catch limits.

(a) General category. (1) From the start of each fishing year, except on designated restricted-fishing days, only one large medium or giant Atlantic bluefin tuna may be caught and landed per day from a vessel for which a General category permit has been issued under this part. On designated restricted-fishing days, persons aboard such vessels may not fish for, possess or retain Atlantic bluefin tuna. For calendar year 1997, designated restricted-fishing days are: July 16, 17, 23, and 30; August 6, 10, 11, 12, 17, 20, 24, and 27; and September 1, 3, 6, 7, 10, 11, 14, 17, 19, 21, 24, and 28.

(2) The Assistant Administrator may increase or reduce the catch limit over a range from zero (restricted fishing days) to a maximum of three large medium or giant Atlantic bluefin tuna per day per vessel based on a review of dealer reports, daily landing trends, availability of the species on the fishing grounds, and any other relevant factors, to provide for maximum utilization of the quota. The Assistant Administrator will publish a document in the Federal Register of any adjustment in the allowable daily catch limit made under this paragraph. Other than fishery closures pursuant to attainment of quotas in any period, such notice of catch limit adjustment shall be filed at the Office of the Federal Register at least 3 calendar days prior to the change becoming effective.

(b) Harpoon Boat category. Vessels permitted in the Harpoon Boat category may catch multiple giant bluefin tuna but only one large medium bluefin tuna per day per vessel may be caught.

(c) Purse Seine category. Large medium bluefin tuna may be caught from a vessel for which a Purse Seine category permit has been issued provided that the total amount of large medium bluefin landed per trip does not exceed 15 percent by weight of the total amount of giant Atlantic bluefin tuna landed on that trip, and the total annual amount of large medium bluefin landed does not exceed 10 percent by weight of the total amount of giant Atlantic bluefin tuna allocated to that vessel for that fishing season.

(d) Angling category. (1) Each angler on board a vessel permitted in the Angling category may catch and retain each day no more than two Atlantic bluefin tuna which may be from the school or large school size class. In addition to the per angler limits, one small medium size class bluefin tuna may be retained each day, per angling category vessel. Anglers may not retain young school Atlantic bluefin tuna.

(2) In addition to the daily catch limit for school, large school and small
medium bluefin tuna, a vessel for which an Angling category permit has been issued may catch and retain annually one large medium or giant Atlantic bluefin tuna, to be counted against the Angling category quota specified in §285.22. The owner or operator of the vessel must report to the nearest NMFS enforcement office within 24 hours of landing any large medium or giant bluefin, and must make the tuna available for inspection and attachment of a tag. No such large medium or giant Atlantic bluefin tuna may be sold or transferred to any person for a commercial purpose except for taxidermic purposes. A list of local NMFS enforcement offices may be obtained from the Regional Director.

(3) The Assistant Administrator may increase or reduce the per angler catch limit for any size class bluefin tuna or may change the per angler limit to a per boat limit or a per boat limit to a per angler limit based on a review of daily landing trends, availability of the species on the fishing grounds, and any other relevant factors, to provide for maximum utilization of the quota spread over the longest possible period of time. The Assistant Administrator will publish a document in the Federal Register of any adjustment in the allowable daily catch limit made under this paragraph. Other than fishery closures pursuant to attainment of quotas in any period, such notice of catch limit adjustment shall be filed at the Office of the Federal Register at least 3 calendar days prior to the change becoming effective.

(4) Anglers on board vessels for which an Angling category permit has been issued may possess school, large school, and small medium Atlantic bluefin tuna in an amount not to exceed one large medium or giant Atlantic bluefin tuna as specified in paragraph (a)(1) of this section. Once the applicable catch limit for large medium or giant bluefin tuna is possessed or retained on authorized commercial fishing days, persons aboard vessels for which Charter/Headboat category permits have been issued under this part must cease fishing and the vessel must proceed to port. Large medium or giant ABT landed under this paragraph (e)(2) may be sold.

(3) When the General category fishery is closed, except when fishing in the Gulf of Mexico, operators of vessels for which a Charter/Headboat category permit has been issued under this part are subject to the annual vessel limit and reporting requirement for non-commercial take of large medium or giant Atlantic bluefin tuna as specified in paragraph (d)(2) of this section. Once the applicable catch limit for large medium or giant bluefin tuna is possessed or retained under the Angling category quota, fishing by persons aboard Charter/Headboat category vessels must
§ 285.25 Purse seine vessel requirements.

(a) Mesh size. Any owner or operator of a vessel with a permit issued under §285.21(b) conducting a directed fishery for Atlantic bluefin tuna with nets, other than a trap net, must use a purse seine net with a mesh size equal to or smaller than 4.5 inches in the main body (stretched when wet) and which has at least 24-count thread throughout the net.

(b) Exemption. The Director may exempt any person from the mesh restrictions in paragraph (a) of this section if it is determined that the net sought to be exempted will not result in significant injury or mortality to Atlantic bluefin tuna which are encircled by the net but manage to escape.

(c) Inspection. Any owner of a purse seine vessel with a permit issued under §285.21(b) must request an inspection of the vessel and fishing gear by an enforcement agent of NMFS before commencing any fishing trip that may result in the harvest of any regulated species and before offloading any Atlantic bluefin tuna. The vessel owner must request such inspection at least 24 hours before commencement of a fishing trip and offloading by calling 508-563-5721 or 508-281-9261. Purseseine vessel owners must have each large medium and giant bluefin tuna in their catch weighed, measured, and the information recorded on the landing card required under §285.28(a) at the time of offloading and prior to transporting said tuna from the area of offloading.

(d) Vessel allocations. (1) Owners or operators of vessels for which a Purse seine permit has been issued under §285.21(b) must apply for an allocation of Atlantic bluefin tuna from the quotas specified in §285.22. The owner or operator must apply for this allocation in writing to the Regional Director by April 15 and must specify the particular size class or classes of Atlantic bluefin tuna for which the vessel will fish. The owner or operator must supply documentation of the vessel's stockholders, owners, partners, or association structure.

(2) The Regional Director will review applications for allocations of Atlantic bluefin tuna on or about May 1, and will make equal allocations of the available size classes of Atlantic bluefin tuna among vessel owners so requesting. Such allocations are freely transferable, in whole or in part, among purse seine vessel permit holders. Any purse seine vessel permit holder intending to land bluefin tuna under an allocation transferred from another purse seine vessel permit holder must provide written notice of such intent to the Regional Director 3 days before landing any such bluefin tuna. Such notification must include the transfer date, amount (mt) transferred, and the permit numbers of vessels involved in the transfer. Trip or seasonal catch limits otherwise applicable under §285.24(c) are not altered by transfers of bluefin tuna allocation. Purse seine vessel permit holders who, through landing and/or transfer, have no remaining bluefin tuna allocation may not use their permitted vessels in any fishery in which Atlantic bluefin tuna might be caught.

(3) Purse seine vessel owners may apply to the Regional Director to permanently consolidate vessel permits issued under §285.21(b). Upon approval of consolidation by the Regional Director, the Atlantic tuna permit(s) of the transferring vessel(s) will be cancelled.
§ 285.26 Size classes.

Total curved fork length will be the sole criterion for determining the size class of whole (head on) Atlantic bluefin tuna. For this purpose, all measurements must be taken in a line tracing the contour of the body from the tip of the upper jaw to the fork of the tail, which abuts the ventral side of the pectoral fin and the ventral side of the caudal keel. For any Atlantic bluefin tuna found with the head removed, it is deemed, for purposes of this subpart, that the tuna, when caught, fell into a size class in accordance with the following formula: Total curved fork length equals pectoral fin curved fork length multiplied by a factor of 1.35. The pectoral fin curved fork length will be the sole criterion for determining the size class of a beheaded Atlantic bluefin tuna. For this purpose, all measurements must be taken in a line tracing the contour of the body from the ventral side of the pectoral fin to the fork of the tail, which abuts the ventral side of the caudal keel.

and the holder of the consolidated permit is authorized to apply for allocations of Atlantic bluefin tuna commensurate with the number of consolidated permits. Purse seine vessel owners who cancel their permit by means of consolidation must not fish their vessel in any fishery in which Atlantic bluefin tuna might be caught.

(e) Transfer at sea. Purse seine vessel owners or operators may transfer large medium and giant Atlantic bluefin tuna at sea from the net of the catching vessel to another permitted purse seine vessel provided the amount transferred does not cause the receiving vessel to exceed its annual vessel allocation as modified by authorized transfers. Such at-sea transfers are authorized only between purse seine vessels permitted under § 285.21 and not to buy boats permitted under § 285.28.

§ 285.27 Tag and release program.

(a) Notwithstanding other provisions of this part, a person aboard a vessel permitted under this part, other than a person aboard a vessel permitted in the General category on a designated restricted-fishing day, may fish for Atlantic bluefin tuna under a tag and release program, provided the person tags all Atlantic bluefin tuna so caught with tags issued or approved by NMFS under this section, and releases and returns such fish to the sea immediately after tagging and with a minimum of injury. To participate in this program, an angler must obtain tags, reporting cards, and detailed instructions for their use from the Cooperative Tagging Center, Southeast Fisheries Center, NMFS, 75 Virginia Beach Drive, Miami, FL 33149-1099 or by calling (800) 437-3936.

(b) Tags obtained from sources other than NMFS may be used to fish for Atlantic bluefin tuna provided the angler has registered each year with the Cooperative Tagging Center and the NMFS program manager has approved the use of tags from that source. Anglers using an alternative source of tags wishing to tag bluefin tuna can call (800) 437-3936 or write NMFS at the address given above.

(c) Anglers registering for the Atlantic bluefin tagging program are required to provide their name, address, phone number, and, if applicable, identify the alternate source of tags.

(d) If NMFS-issued or NMFS-approved tags are not on board a vessel, all anglers on board that vessel are deemed to be ineligible to fish under this section.

§ 285.28 Dealer permits.

(a) General. A dealer purchasing, receiving, possessing, importing or exporting Atlantic bluefin tuna must have a valid permit required under this section. If such purchase or receipt is made from a buy-boat, the buy-boat must have a valid permit under paragraph (l) of this section.

(b) Application. Applications for a dealer permit must be in writing on an appropriate form obtained from the Regional Director. The application must be signed by the applicant, and be submitted to the Regional Director at least 30 days before the date upon which the applicant desires the permit to be effective. The application must contain the following information: Company name; principal place of business; owner or owners’ names; applicant’s name (if different from owner or owners) and mailing address and telephone number; and any other information required by the Regional Director.

(c) Issuance. (1) Except as provided in subpart D of 15 CFR part 904, the Regional Director will issue a permit within 30 days of receipt of a completed application.

(2) The Regional Director will notify the applicant of any deficiency in the application. If the applicant fails to correct the deficiency within 15 days following the date of notification, the application will be considered abandoned.

(d) Duration. Any permit issued under this section remains valid until December 31 of the year for which it is issued, unless suspended or revoked.

(e) Alteration. Any permit which is substantially altered, erased, or mutilated is invalid.

(f) Replacement. The Regional Director may issue replacement permits. An application for a replacement permit is not considered a new application.

(g) Transfer. A permit issued under this section is not transferable or assignable; it is valid only for the dealer to whom it is issued.

(h) Inspection. The dealer must keep the permit issued under this section at his/her principal place of business. The permit must be displayed for inspection upon request of any authorized officer, or any employee of NMFS designated by the Regional Director for such purpose.

(i) Sanctions. The Administrator may suspend, revoke, modify, or deny a permit issued or sought under this section. Procedures governing permit sanctions and denial are found at subpart D of 15 CFR part 904.
(j) Fees. The Regional Director may charge a fee to recover the administrative expenses of permit issuance. The amount of the fee is calculated, at least annually, in accordance with the procedures of the NOAA Finance Handbook for determining administrative costs of each special product or service. The fee may not exceed such costs and is specified on each application form. The appropriate fee must accompany each application. Failure to pay the fee will preclude issuance of the permit. Payment by a commercial instrument later determined to be insufficiently funded shall invalidate any permit.

(k) Change in application information. Within 15 days after any change in the information contained in an application submitted under this section, the dealer issued a permit will report the change in writing to the Regional Director.

(l) Buy-boats. Each buy-boat must have a dealer permit issued under this section. The Regional Director will not issue a dealer permit under this section for a buy-boat operation to any vessel which has a valid fishing permit issued under §285.21. The Regional Director will not issue a dealer permit to a buy-boat unless the owner or operator of the buy-boat agrees in writing to allow an individual authorized by the Regional Director to accompany the buy-boat on any trip to observe operations. The Regional Director will provide reasonable notice to the owner or operator of any buy-boat that an individual will be placed aboard. Failure to allow an authorized individual to be placed aboard following reasonable notice voids the permit. The Regional Director will reimburse the owner of any buy-boat for any expenses which the Regional Director determines to be reasonable and which are related directly to the placement of an individual aboard that buy-boat.

§ 285.29 Recordkeeping and reporting.

(a) Any person issued a dealer permit under §285.28 must report via electronic facsimile (fax) or an Interactive Voice Response System (IVRS) as instructed by the Regional Director within 24 hours of the purchase or receipt of each Atlantic bluefin tuna from the person or vessel that harvested the fish. Said report via fax or the IVRS must include the tag number affixed to the fish by the dealer, the date landed, the round and/or dressed weight (indicating which weight(s) measured), the total or pectoral fin curved fork length (indicating which length(s) measured), and the permit category of the landing vessel. In addition, dealers must submit to the Regional Director a daily report on a reporting card provided by NMFS. Said card must be postmarked and mailed at the dealer’s expense within 24 hours of the purchase or receipt of each Atlantic bluefin tuna. Each vessel permit holder or vessel operator must sign each reporting card immediately upon transfer of the fish to verify the name of the vessel that landed the fish and the vessel permit number, and each card must indicate the tag number affixed to the fish by the dealer or assigned by an authorized officer, the date landed, the port where landed, the round and/or dressed weight (indicating which weight(s) measured), the total and/or pectoral fin curved fork length (indicating which length(s) measured), gear used, and area where the fish was caught. The dealer purchasing or receiving the Atlantic bluefin tuna must inspect the vessel permit and verify that the required vessel name and vessel permit information is correctly recorded on the reporting card.

(b) Any person issued a dealer permit under §285.28 must submit to the Regional Director a bi-weekly report on forms supplied by NMFS.

(1) Said report must be postmarked and mailed, at the dealer’s expense, within 10 days after the end of each 2-week reporting period in which Atlantic bluefin tuna were purchased, received, or imported. The biweekly reporting periods are defined as the first day through the 14th day of each month and the 15th day through the last day of the month. Each report must specify accurately and completely for each tuna purchased or received: Date of landing or import, vessel Atlantic Bluefin Tuna permit number (if applicable), tail tag number, weight in pounds or kilograms (specify...
§ 285.30 Tags.

(a) Issuance of tags. The Regional Director will issue numbered tail tags to each person receiving a dealer’s permit under § 285.28.

(b) Transfer of tags. Tail tags issued under this section are not transferable and are usable only by the permitted dealer to whom they are issued.

(c) Affixing tags. (1) A dealer or agent must affix a tail tag to each Atlantic bluefin tuna purchased or received, immediately upon its offloading from a vessel. The tail tag must be affixed to the tuna between the fifth dorsal finlet and the keel. Any person who catches a large medium or giant Atlantic bluefin tuna and does not transfer it to a permitted dealer must contact the nearest NMFS enforcement office at the time of landing said Atlantic bluefin tuna and make the tuna available so that a NMFS enforcement agent may inspect the fish and affix a tail tag to it. A list of local NMFS enforcement offices can be obtained by contacting regional offices in Gloucester, MA (508-281-9261) and St. Petersburg, FL (813-570-5344). The Regional Director may designate a person other than a NMFS agent to inspect and tag the fish. Such designation will be made in writing.

(d) Removal of tags. A tag affixed to any Atlantic bluefin tuna under paragraph (c)(1) of this section or under § 285.202(a)(6)(v) must remain on the tuna until the tuna is cut into portions. If the tuna or tuna parts subsequently are packaged for transport for domestic commercial use or for export, the tag number must be written legibly and indelibly on the outside of any
§ 285.31 Prohibitions.

(a) It is unlawful for any person or vessel subject to the jurisdiction of the United States to do any of the following:

(1) Fish for, catch, possess, or land Atlantic bluefin tuna without a valid permit required under §285.21 and carried onboard the vessel;

(2) Fish for, catch, possess, or land Atlantic bluefin tuna after fishing has been closed or before fishing has commenced under §285.20, except under the provisions of §285.27;

(3) Fish for, catch, possess or retain Atlantic bluefin tuna in excess of the quotas specified in §285.22 except that fish may be caught and released under the provisions of §285.27.

(4) Fish for, catch, or possess or retain Atlantic bluefin tuna in excess of the catch limits specified in §285.24, except that fish may be caught and released under the provisions of §285.27.

(5) Fish for, catch, possess, or land Atlantic bluefin tuna in excess of any allocation made under §285.25(d);

(6) Fish for or catch Atlantic bluefin tuna in a directed fishery with purse seine nets without an allocation made under §285.25(d);

(7) Fish for or catch Atlantic bluefin tuna in a directed fishery with nets other than those specified in §285.25;

(8) For any vessel other than a vessel holding a purse seine permit issued under §285.22(b), to approach to within 100 yd (91.5 meters) of the cork line of any purse seine net used by any vessel fishing for Atlantic bluefin tuna, or for any such purse seine vessel to approach to within 100 yd (91.5 meters) of any vessel, other than a purse seine vessel, actively fishing for Atlantic bluefin tuna;

(9) Retain or land Atlantic bluefin tuna in excess of the incidental catch provisions under §285.23;

(10) Land any Atlantic bluefin tuna in forms other than round (fins intact), or other than eviscerated with the head and fins removed, except that one pectoral fin and the tail must remain attached;

(11) Retain any Atlantic bluefin tuna caught under the tag and release program allowed under §285.27;

(12) Purchase, receive, or transfer Atlantic bluefin tuna from any person or vessel without a valid dealer permit issued under §285.28(a);

(13) Purchase, receive, or transfer any Atlantic bluefin tuna at sea from a person or vessel engaged in fishing for such tuna without a valid dealer permit for buy-boat operations issued under §285.28 unless between permitted purse seine vessels as authorized under §285.25(e);

(14) Sell, offer for sale, or transfer any Atlantic bluefin tuna to any person or vessel other than to a person or vessel with a permit issued under §285.28;

(15) Sell, offer for sale, or transfer to any person for a commercial purpose any large medium or giant Atlantic bluefin tuna caught with rod and reel gear under §285.24(d)(2) or §285.24(e)(2);

(16) Engage in fishing with a vessel issued a permit under §285.21 unless the vessel travels to and from the area where it will be fishing under its own power and the person operating that vessel brings any Atlantic bluefin tuna under control (secured to the catching vessel or aboard) with no assistance from other vessels, except in circumstances where the safety of the vessel or its crew is jeopardized or due to other circumstances beyond the control of the operator;

(17) Fail to release immediately with a minimum of injury any Atlantic bluefin tuna that will not be retained;

(18) Fail to inspect any vessel's permit or fail to affix immediately to any large medium or giant Atlantic bluefin tuna, between the fifth dorsal finlet and the keel, an individually numbered tail tag when the tuna has been received for a commercial purpose or purchased by that dealer from any person or vessel having caught such tuna;
(19) Remove any tag affixed to an Atlantic bluefin tuna under § 285.30(c)(1) or under § 285.202(a)(6)(v), before removal is allowed under § 285.30(d), or fail to write the tag number on the shipping package or container as prescribed by that section;

(20) Purchase or transport with a buy-boat any Atlantic bluefin tuna captured incidentally by longlines;

(21) Begin fishing or offloading from any purse seine vessel to which a permit has been issued under § 285.21 any Atlantic bluefin tuna without first requesting an inspection of the vessel in accordance with § 285.25;

(22) Fail to report the catching of any Atlantic bluefin tuna to which a plastic tag has been affixed under a tag and release program conducted by NMFS or any other scientific organization or in which an archival tag has been affixed or implanted;

(23) Falsify or fail to make, keep, maintain, or submit any reports, or other record required by this subpart;

(24) Refuse to allow an authorized officer to make inspections for the purpose of checking any records relating to the catching, harvesting, landing, purchase, or sale of any Atlantic bluefin tuna required by this subpart;

(25) Make any false statement, oral or written, to an authorized officer concerning the catching, harvesting, landing, purchase, or sale of any Atlantic bluefin tuna;

(26) Fish for, catch, retain, possess or land Atlantic bluefin tuna with longline gear except as provided in § 285.23(c);

(27) Fish for or catch Atlantic bluefin tuna with longline gear, or while having longline gear on board, if the vessel is permitted in the General or Harpoon Boat category under § 285.21;

(28) Fish for or catch school, large school or small medium Atlantic bluefin tuna with gear other than hook and line, which is held by hand or rod and reel made for this purpose, or to possess such fish taken with unauthorized gear;

(29) Use or possess handline or harpoon flotation gear which is not marked in accordance with § 285.33, or is marked with the Atlantic bluefin tuna permit number of another vessel;

(30) Fish for, catch, possess, or retain Atlantic bluefin tuna from the Gulf of Mexico except as specified under § 285.23(c) or § 285.24(e)(2), or if taken incidental to recreational fishing for other species and retained in accordance with § 285.24(d)(2);

(31) Fish for, catch, possess or retain Atlantic bluefin tuna with a gear type or in a manner other than specified in §§ 285.21, 285.22, 285.23, 285.24 and 285.25, or other than authorized under an experimental fishing exemption issued pursuant to the requirements of § 285.7;

(32) Interfere with, delay, or prevent by any means, the apprehension of another person, knowing that such person has committed any act prohibited by this part;

(33) Retain young school Atlantic bluefin tuna for any purpose;

(34) Sell, offer for sale, purchase, receive for a commercial purpose, trade, or barter, or if a seafood dealer or processor, retain or possess, any Atlantic bluefin tuna other than a large medium or giant, except with documentation as specified in § 285.34;

(35) Refuse to permit access of NMFS personnel to inspect any records relating to, or area of custody of, Atlantic bluefin tuna;

(36) Reuse any tail tag previously affixed to an Atlantic bluefin tuna under § 285.30 or reuse any tail tag number previously written on a shipping package or container as prescribed by that section; or

(37) Fish for, catch, possess, or retain any Atlantic bluefin tuna less than the large medium size class from a vessel other than one issued a permit for the Angling or Charter/Headboat categories under § 285.21, or a permit for the Purse Seine category under § 285.21 as authorized under § 285.23(d), or, for calendar year 1997, a permit for the General category under § 285.21;

(38) Fail to cease fishing and return to port once the catch limit for large medium and giant bluefin is retained or possessed on board vessels permitted in the General and Charter/Headboat categories.

(39) For owners or operators of General category permitted vessels, and persons aboard vessels permitted in the General category under § 285.21, to fish...
§ 285.32 Civil penalties.

(a) Any person who violates §285.31(a)(1) through (a)(21) inclusive, or (a)(25) through (a)(31) inclusive, or (a)(33) and (a)(34) or (a)(36) through (a)(38) inclusive, will be assessed a civil penalty of not more than $25,000 for a first violation and a civil penalty of not more than $50,000 for a subsequent violation.

(b) Any person who violates §285.31(a)(22) through (24) inclusive, or (a)(32), or (a)(35) will be assessed a civil penalty of not more than $1,000, and a civil penalty of not more than $5,000 for a subsequent violation.

(c) Any person who violates §285.31(b) will be assessed a civil penalty in accordance with the criteria set forth in 16 U.S.C. 971e.

§ 285.34 Restrictions on sale.

(a) Any Atlantic bluefin tuna less than the large medium size class may not be, or attempted to be, purchased, bartered, traded, sold, or offered for sale, or retained or possessed by a dealer or seafood processor in any state unless it is lawfully imported and is accompanied by the Commission’s Bluefin Tuna Statistical Document.

(b) Except for a bluefin tuna landed in a Pacific state and remaining in the state of landing, a bluefin tuna that is possessed by a dealer or seafood processor is deemed to be a bluefin tuna harvested from the Atlantic Ocean by a United States vessel unless it is accompanied by the Commission’s Bluefin Tuna Statistical Document.

§ 285.50 Species subject to regulation.

Regulations contained in this subpart pertain to yellowfin tuna, bigeye tuna, albacore tuna, skipjack tuna and Atlantic bonito.
(b) Total curved fork length is the sole criterion for determining the size class of whole (head on) Atlantic yellowfin and bigeye tuna. For this purpose, all measurements must be taken in a line tracing the contour of the body from the tip of the upper jaw to the fork of the tail, which abuts the ventral side of the pectoral fin and the ventral side of the caudal keel.

[61 FR 30187, June 14, 1996]

§ 285.53 Vessel permits.

(a) Permit requirements. The operator of each vessel that fishes for, or takes, Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito must have on board a valid permit issued under this section.

(b) Commercial vessel permits. As a prerequisite to selling Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito to be eligible for exemption from applicable bag limits, if any, specified in this subpart, an owner or operator of a vessel that fishes for or takes Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito must be issued a vessel permit in the commercial category appropriate for the gear type or method of fishing.

(c) Charter/Headboat vessel permits. Owners or operators of charter vessels and headboats must be issued a charter/headboat vessel permit to lawfully fish for, catch, retain, or land Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito. Anglers on board charter vessels and headboats must adhere to applicable catch limits for the recreational fisheries.

(d) Recreational vessel permits. Owners or operators of private recreational vessels must be issued vessel permits in order to fish for, catch, retain, or land Atlantic yellowfin, bigeye, albacore, and skipjack tunas. Anglers aboard private recreational vessels must adhere to applicable daily catch limits. Atlantic tunas taken on board private recreational vessels may not be sold.

(e) Purse seine. Directed purse seine fishing for Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito is restricted to owners of those purse seine vessels that have current Atlantic bluefin tuna purse seine permits under §285.21(b) and that have reported, or replaced vessels that have reported, Atlantic yellowfin, skipjack, albacore or bigeye tuna landings to NMFS over the period 1989 through 1993. The owner or operator of such purse seine vessel must apply for authorization to fish for Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito in writing to the Regional Director by April 15. The owner must supply documentation of the vessel’s stockholders, owners, partners, or association structure and records of landings to verify that the vessel meets the qualifying criteria. The Regional Director will review these applications for authorization on or about May 1 and issue authorizations as appropriate.

(f) Exemptions. In lieu of a permit issued under this section, persons on board a vessel for which a valid permit for the Atlantic bluefin tuna fishery has been issued under §285.21 of this part are eligible to fish for and take Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito using the authorized gear and subject to the commercial fishing restrictions applicable to the category of permit issued for the vessel. In lieu of a permit issued under this section, owners or operators of vessels for which valid permits for the Atlantic shark fishery (50 CFR part 678) or the Atlantic swordfish fishery (50 CFR part 630) have been issued are eligible to fish for and take Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito using the authorized gear and subject to fishing restrictions applicable to the permit issued to the vessel. Owners or operators of vessels fishing for Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito shoreward of the outer boundary of the EEZ around Puerto Rico and the Virgin Islands with only handgear on board are exempt from the permit requirements of this section.

§ 285.54 Vessel recordkeeping and reporting.

(a)(1) Logbooks. If selected and so notified in writing by the Director, the owner and/or operator of a vessel for
which a permit has been issued under §285.21 or §285.53, must ensure that a daily logbook form is maintained of the vessel’s fishing effort, catch, and disposition on forms available from the Science and Research Director. Such forms must be submitted to the Science and Research Director postmarked not later than the seventh day after sale of the fish offloaded from a trip. If no fishing occurred during a month, a report so stating must be submitted in accordance with instructions provided with the forms.

(2) Tally sheets. The owner and operator of a vessel for which a permit has been issued under §285.21 or §285.53, and who is required to submit a logbook under paragraph (a)(1) of this section, must ensure that copies of tally sheets are submitted for all fish offloaded and sold after a fishing trip. Each tally sheet must show the dealer to whom the fish were transferred, the date they were transferred, and the carcass weight of each fish for which individual carcass weights are normally recorded. For species not individually weighed, tally sheets must record total weights by market category. Copies of tally sheets must be submitted with the logbook forms required under paragraph (a)(1) of this section.

(b) The master or other person in charge of a fishing vessel, subject to the jurisdiction of the United States, except vessels proceeding directly to Puerto Rico or to any other U.S. port for unloading, must report to the Regional Director not less than 48 hours prior to entering the regulatory area via the Panama Canal. In addition, the master or other person in charge of a vessel, subject to the jurisdiction of the United States except a vessel without fish on board, must notify the Regional Director not less than 48 hours prior to leaving the regulatory area via the Panama Canal. Each report must include the name of the reporting vessel, the tonnage by species on board, and whether the fish were caught in Pacific or Atlantic waters.

(c) All such fishing vessels entering or leaving the regulatory area via the Panama Canal are subject to inspection. Official seals will be affixed to wells containing fish taken within or outside the regulatory area, as appropriate and the same will be noted on the vessel log. The official seals may be removed only by a designated agent of NMFS upon arrival at point of sale or delivery.

(d) The master or other person in charge of a fishing vessel subject to the jurisdiction of the United States, must notify the Regional Director not less than 48 hours prior to any transfer of Atlantic tuna taken in the regulatory area to another vessel for the purpose of transshipment. Such reports must include the date and place of unloading, name and destination of the oncarrying vessel, and the tonnage by species of tuna transferred.

(e) The failure to file the reports or to follow the procedures required by this section, the tampering with or the removal of an official seal, or the alteration of a fishing vessel’s log by any person or fishing vessel subject to the jurisdiction of the United States is a prohibited act within the meaning of §285.3.

(f) Any person authorized to carry out enforcement activities under the Act or these regulations has power, without warrant or other process, to inspect, at any reasonable time, catch on board the vessel, log books, catch reports, statistical records, or other reports as required by the regulations in this part to be made, kept or furnished.

(g) Owners and operators of vessels fishing for Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito shoreward of the outer boundary of the EEZ around Puerto Rico and the Virgin Islands with only handgear on board are exempt from the reporting requirements of this section.

§ 285.55 Dealer permits.

(a) General. Effective November 15, 1995, a dealer purchasing or attempting to purchase, receiving, possessing, importing or exporting Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito must have a valid permit required under this section.

(b) Application. Applications for a dealer permit must be in writing on an
appropriate form obtained from the Regional Director. The application must be signed by the applicant, and be submitted to the Regional Director at least 30 days before the date upon which the applicant desires the permit to be effective. The application must contain the following information: Company name; principal place of business; owner or owners’ names; applicant’s name (if different from owner or owners) and mailing address and telephone number; and any other information required by the Regional Director.

(c) Issuance. (1) Except as provided in subpart D of 15 CFR part 904, the Regional Director will issue a permit within 30 days of receipt of a completed application.

(2) The Regional Director will notify the applicant of any deficiency in the application. If the applicant fails to correct the deficiency within 15 days following the date of notification, the application will be considered abandoned.

(d) Duration. Any permit issued under this section remains valid until December 31 of the year for which it is issued, unless suspended or revoked.

(e) Alteration. Any permit which is substantially altered, erased, or mutilated is invalid.

(f) Replacement. The Regional Director may issue replacement permits. An application for a replacement permit is not considered a new application.

(g) Transfer. A permit issued under this section is not transferable or assignable; it is valid only for the dealer to whom it is issued.

(h) Inspection. The dealer must keep the permit issued under this section at his/her principal place of business. The permit must be displayed for inspection upon request of any authorized officer, or any employee of NMFS designated by the Regional Director for such purpose.

(i) Sanctions. The Administrator may suspend, revoke, modify, or deny a permit issued or sought under this section. Procedures governing permit sanctions and denials are found at subpart D of 15 CFR part 904.

(j) Fees. The Regional Director may charge a fee to recover the administrative expenses of permit issuance. The amount of the fee is calculated, at least annually, in accordance with the procedures of the NOAA Finance Handbook for determining administrative costs of each special product or service. The fee may not exceed such costs and is specified on each application form. The appropriate fee must accompany each application. Failure to pay the fee will preclude issuance of the permit. Payment by a commercial instrument later determined to be insufficiently funded shall invalidate any permit.

(k) Change in application information. Within 15 days after any change in the information contained in an application submitted under this section, the dealer issued a permit will report the change in writing to the Regional Director.

(l) Exemptions. Dealers issued valid permits for the Atlantic bluefin tuna fishery under §285.28 of this part, dealers issued valid permits for the Atlantic shark fishery (50 CFR part 678) or the Atlantic swordfish fishery (50 CFR part 630), and dealers located in Puerto Rico and the Virgin Islands who purchase, sell, or re-sell only Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito taken shoreward of the outer boundary of the EEZ around Puerto Rico and the Virgin Islands by handgear are exempt from the permit requirements of this section.

§ 285.56 Dealer recordkeeping and reporting.

(a) A dealer who has been issued a dealer permit pursuant to §285.55 must submit reports to the Fisheries Science Center Director as specified in paragraph (b) of this section. A report form is available from the Science and Research Director. The following information must be included in each report:

(1) Name, address, and permit number of the dealer.

(2) Names and official numbers of fishing vessels from which Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito were received.

(3) Dates of receipt of Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito.

(4) Listed by each port and county where Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic
§ 285.57 Purse seine vessel requirements.

(a) Mesh size. Any owner or operator of a purse seine vessel conducting a directed fishery for Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito must use a purse seine net with a mesh size as specified under § 285.25(a).

(b) Inspection. The owner or operator of a purse seine vessel conducting a directed fishery for Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito must request an inspection of the vessel and fishing gear by an enforcement agent of NMFS prior to commencing fishing for the season in any fishery that may result in the harvest of any regulated species. The owner or operator must request such inspection at least 48 hours before commencement of the first fishing trip of the season. In addition, at least 48 hours before commencement of offloading any Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito after a fishing trip, the owner or operator must request an inspection of vessel and catch by calling 508-563-5721 or 508-281-9261. The inability to provide for an inspection within 48 hours of notification shall constitute a waiver of this requirement. The
owner or operator of a purse seine vessel must have the vessel’s catch information recorded on the appropriate forms at the time of offloading and prior to transporting said tuna from the area of offloading.

§ 285.58 Incidental catch.

Persons or fishing vessels subject to the jurisdiction of the United States must release, in a manner to promote survival, any yellowfin tuna or bigeye tuna less than the minimum size specified in § 285.52 taken incidental to authorized fishing in the regulatory area.

§ 285.59 Prohibitions.

(a) It is unlawful for any person or vessel subject to the jurisdiction of the United States to do any of the following:

1. Fish for, catch, possess, retain or land Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito without a valid permit required under § 285.53 and carried on board the vessel;

2. Fish for, catch, land, retain or possess, Atlantic yellowfin or bigeye tuna below the minimum size specified in § 285.52;

3. Fail to release immediately with a minimum of injury any Atlantic yellowfin or bigeye tuna that will not be retained;

4. Fish for or catch Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito in a directed fishery with purse seine nets if without any remaining bluefin tuna allocation made under § 285.25(d);

5. For any vessel other than a vessel holding a purse seine permit issued under § 285.53(d), to approach to within 100 yds (91.5 meters) of the cork line of any purse seine net used by any vessel fishing for Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito, or for any such purse seine vessel to approach to within 100 yds (91.5 meters) of any vessel, other than a purse seine vessel, actively fishing for Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito;

6. Begin fishing or offloading from any purse seine vessel to which a permit has been issued under § 285.21 any Atlantic tuna without first requesting an inspection of the vessel in accordance with § 285.57(b);

7. Fail to report the catching of any Atlantic tuna to which a plastic tag has been affixed under a tag and release program conducted by NMFS or any other scientific organization;

8. Falsify or fail to make, keep, maintain, or submit any reports, or other record required by this subpart;

9. Refuse to allow an authorized officer to make inspections for the purpose of checking any records relating to the catching, harvesting, landing, purchase, or sale of any Atlantic tuna required by this subpart;

10. Make any false statement, oral or written, to an authorized officer concerning the catching, harvesting, landing, purchase, sale, or transfer of any Atlantic tuna;

11. Interfere with, delay, or prevent by any means, the apprehension of another person, knowing that such person has committed any act prohibited by this part;

12. Refuse to permit access of NMFS personnel to inspect any records relating to, or area of custody of, Atlantic yellowfin, bigeye, albacore, and skipjack tunas and Atlantic bonito;

(b) It is unlawful for any person subject to the jurisdiction of the United States to violate any other provision of this subpart, the Act, or any other rules implemented under the Act.

Subpart D—Restrictions on Tuna Imports

§ 285.80 Basis and purpose.

(a) The stocks of Atlantic tunas under investigation and regulation by the Commission represent the concern of a number of countries interested in the conservation of such stocks. In order to assure that the achievement of the conservation objectives of the Commission are fulfilled the Act provides for certain restrictions on the importation of Atlantic tunas. Pursuant to section 6(c) of the Act, the Secretary, with the concurrence of the Secretary of State, is directed to promulgate regulations to prohibit:

1. The entry into the United States of fish in any form of those species...
which are subject to regulation pursuant to a recommendation of the Commission and which were taken from the regulatory area in such manner or in such circumstances as would tend to diminish the effectiveness of the conservation recommendations of the Commission; and

(2) The entry into the United States, from any country when vessels of such country are being used in the conduct of fishing operations in the regulatory area in such manner or in such circumstances as would tend to diminish the effectiveness of the conservation recommendations of the Commission, of fish in any form of those species which are subject to regulation pursuant to a recommendation of the Commission and which were taken from the regulatory area;

(3) The entry into the United States, from any country when vessels of such country engage in repeated and flagrant fishery operations in the regulatory area which seriously threaten the achievement of the objectives of the Commission’s recommendations, of fish in any form of those species which are under investigation by the Commission and which were taken from the regulatory area.

(b) By letter of February 18, 1976, the Secretary of State concurred in the promulgation of the regulations in this part. Such regulations are designed to implement the provisions of section 6(c) of the Act with respect to import controls and to proscribe procedures for the establishment of restrictions on imports of tuna and tuna-like fish whenever such action shall be deemed warranted.

§ 285.81 Species subject to regulation.

The species of tuna currently subject to regulation by recommendation of the Commission within the meaning of section 6(c) of the Act are yellowfin, Atlantic bluefin, skipjack, albacore, bigeye and Atlantic bonito, and billfishes.

§ 285.82 Species under investigation by the Commission.

Those species of tuna currently under investigation by the Commission with-
to regulations which are taken in the regulatory area by fishermen of other countries contrary to the Commission's conservation recommendations;

(iv) Whether or not the country, having put conservation measures into effect, takes reasonable action to enforce such measures;

(v) The number of vessels of the country which conduct fishing operations in the regulatory area;

(vi) The quantity of species subject to regulation taken from the regulatory area by the Country's vessels contrary to the Commission's conservation recommendations and its relationship to (A) the total quantity permitted to be taken by the vessels of all countries participating in the fishery and (B) the quantity of such species sought to be restored to the stocks of fish pursuant to the Commission's conservation recommendations.

(b) Any person who has reason to believe that the vessels of any country are being used in the conduct of fishing operations in the regulatory area in such manner or in such circumstances as would tend to diminish the effectiveness of the conservation recommendations of the Commission or that other acts within the purview of the import control provisions of section 6(c) of the Act, are occurring or are likely to occur, may communicate his belief to the Assistant Administrator. Every such communication must contain or be accompanied by a full statement of the reasons for the belief, including a detailed description of such specific acts or events as may indicate a need for instituting an investigation as authorized in this part.

(c) Upon receipt by the Assistant Administrator of any communication submitted pursuant to paragraph (b) of this section and upon a finding that the communication complies with the requirements of that paragraph, the Assistant Administrator will promptly conduct an investigation to be made as appears to be warranted by the circumstances of the case. In conducting such investigations the Assistant Administrator or his designated representative will consider any representations offered by foreign interests, importers, brokers, domestic producers, or other interested persons. Unless good cause to the contrary exists every such investigation will be completed within 60 days following receipt of the communication.

§ 285.84 Publication of findings.

If it is determined on the basis of § 285.83 that species of fish subject to regulation or under investigation by the Commission, as the case may be, are ineligible for entry into the United States under section 6(c) of the Act, the Assistant Administrator with the approval of the Secretary of the Commerce and with the concurrence of the Secretary of State, will publish a finding to that effect in the Federal Register. Effective upon the date of publication of such finding in the Federal Register every shipment of fish in any form of the species found to be ineligible will be denied entry unless it is established by satisfactory proof pursuant to § 285.85 that a particular shipment of such fish is not ineligible for entry:

Provided,

That entry will not be denied and no such proof will be required for any such shipment which, on the date of such publication, was in transit to the United States on board a vessel operating as a common carrier.

§ 285.85 Proof of admissibility.

(a) For the purposes of § 285.83 of this part and section 6(c) of the Act a shipment of fish in any form of the species under regulation or under investigation by the Commission offered for entry, directly or indirectly, from a country named in a finding published under § 285.84 is eligible for entry if the shipment is accompanied by a certificate of eligibility certifying as may be appropriate, that the fish in the shipment:

(1) Are not of the species specified in the published finding;

(2) Are of the species named in the published finding but were not taken in the regulatory area; or

(3) Are of the species named in the published finding but are products of
§ 285.85

an American fishery lawfully taken in conformity with applicable conservation laws and regulations and landed in the country named in the published finding solely for transshipment. The certificate shall be attached to the invoice and be in the following form:

CERTIFICATE OF ELIGIBILITY

I, ________________, an authorized officer of the Government of ________________, certify that the shipment of tuna accompanied by this certificate, consisting of ________________ (quantity) of ________________ (Species) in ________________ (Number and kind of packages or containers bearing the following marks and numbers.)

☐ (a) Contains no tuna of the species prohibited entry into the United States by virtue of a finding of ineligibility published under regulations issued pursuant to section 6(c) of the Atlantic Tunas Convention Act of 1975. (A certificate of authentication executed by a consular officer or a consular agent of the United States must be attached.)

☐ (b) Contains tuna of the species prohibited entry into the United States by virtue of a finding of ineligibility published under regulations issued pursuant to section 6(c) of the Atlantic Tunas Convention Act of 1975, but that such tuna were caught in the waters of ________________ (Identify area or areas in which tuna were taken) by vessels subject to the jurisdiction of ________________ and that none of the tuna were taken in the Atlantic Ocean or its adjacent seas. (A certificate of authentication executed by a consular officer or consular agent of the United States must be attached.)

☐ (c) Contains tuna of the species prohibited entry into the United States by virtue of a finding of ineligibility published under regulations issued pursuant to section 6(c) of the Atlantic Tunas Convention Act of 1975, but that such tuna, as shown in the attached declaration, were taken in strict conformity with applicable conservation laws and regulations in a fishing enterprise conducted under the American flag by vessels of the United States, are products of an American fishery within the meaning of Schedule 1, Part 15A, Tariff Schedules of the United States, were landed in a foreign country solely for transshipment without change in condition and are eligible for free entry under such Schedule and 19 CFR 10.78-10.79. (Where an entry is to be made pursuant to this paragraph, this certificate must be executed by a consular officer or consular agent of the United States and the declaration(s) required by 19 CFR 10.79 and must be attached.)

I, __________________________ (Name and full title of officer)________________________ (Title) of the United States of America at ______________________ (Place), duly commissioned and qualified, do hereby certify that (Name of foreign official), whose true signature and official seal are, respectively subscribed and affixed to the annexed certificate, was, on the ______________________ day of ________________, 19 __________ , the date thereof, ______________________ (Title of foreign official), duly commissioned and qualified, to whose official acts faith and credit are due.

In witness whereof I have hereunto set my hand and affixed the seal of the ________________ this day of ________________, 19 __________ .

______________________________
Signature

(Name and full title of officer)
§ 285.86 Removal of import restrictions.

Upon a determination by the Assistant Administrator that the conditions no longer exist which warranted the imposition of import restrictions in the finding published pursuant to § 285.84, the Assistant Administrator, with the approval of the Secretary and the concurrence of the Secretary of State, will publish a finding to such effect in the Federal Register. Effective upon the date of publication of such finding, the prior existing import restrictions against the country designated therein will terminate. Provided, That for a period of 1 year from such date of publication every shipment of fish in any form that was subject to the finding published pursuant to § 285.84 will continue to be denied entry unless the shipment is accompanied by a certification executed by an authorized official of the country of export and authenticated by a consular officer or consular agent of the United States, certifying that no portion of the shipment is comprised of fish taken prior to or during the import restriction.

§ 285.87 Import restrictions for Belize, Honduras, and Panama.

(a) Effective August 20, 1997 all shipments of Atlantic bluefin tuna or Atlantic bluefin tuna products in any form harvested by a vessel of Honduras or Belize will be denied entry into the United States, unless a validated Bluefin Statistical Document required under subpart F of this part, §§ 285.200 through 285.205, shows that a particular shipment of such bluefin tuna was exported prior to January 1, 1998.

Subpart E—International Port Inspection

Source: 48 FR 53564, Nov. 28, 1983, unless otherwise noted.

§ 285.100 Basis and purpose.

At its sixth regular meeting, the International Commission for the Conservation of Atlantic Tunas (Commission) adopted an international port inspection scheme to assist in the enforcement of the Commission's recommendations. The following regulations have been adopted by the United States to implement the port inspection scheme.

§ 285.101 Authorized officer.

For the purposes of this subpart, an authorized officer is a person appointed by a contracting party (the United States and the countries listed in § 285.102(a)) as an authorized inspector for the Commission, who possesses an identification card so stating.

§ 285.102 Vessels subject to inspection.

(a) All United States tuna vessels or vessels carrying tuna and their catch, gear, and records are subject to inspection under this subpart by an authorized officer when landing or transshipping tuna or when making a port call at a port of the following countries, which are defined as the contracting parties. The names of any subsequent additional contracting parties may be added to the list by Federal Register notice. United States tuna vessels or vessels carrying tuna are also subject to the requirements of subparts A through C as appropriate.

1. Brazil
2. Cuba
3. France
4. Gabon
5. Ivory Coast
6. Portugal
7. Senegal
8. South Africa
9. Spain
(b) All tuna vessels or vessels carrying tuna, and registered by any of the above countries, and their catch, gear and records are subject to inspection under this subpart when landing or transshipping tuna or when making a port call in the United States.

(c) A vessel entering a port of the above countries because of force majeure shall be exempt from inspection by an authorized officer.

§ 285.103 Reports.

(a) Inspections must be reported on a standardized Commission form and signed by the authorized officer. The master is entitled to add or have added to the report, any observation which the master thinks suitable. If the master adds information to the report, he also must sign the report. The authorized officer will note in the vessel's log that the inspection has been made. A copy of the report will be given to the vessel master and a copy sent to the authorized officer's national authority.

(b) The master must allow the authorized officer to examine any portion of the catch and gear and provide any relevant documents as the authorized officer deems necessary to verify compliance with these regulations.

[48 FR 53564, Nov. 28, 1983, as amended at 53 FR 24645, June 29, 1988]

Subpart F—Bluefin Tuna Statistical Documentation

SOURCE: 60 FR 14388, Mar. 17, 1995, unless otherwise noted.

§ 285.200 Species subject to documentation requirements.

Imports into the United States and exports or re-exports from the United States of all bluefin tuna or bluefin tuna products regardless of ocean area of catch are subject to the documentation requirements of this subpart.

(a) Documentation is required for bluefin tuna identified by the following item numbers from the Harmonized Tariff Schedule:

1. Fresh or chilled bluefin tuna, excluding fillets and other fish meat, No. 0302.39.00.20.
2. Frozen bluefin tuna, excluding fillets, No. 0303.49.00.20.
3. Bluefin tuna products in other forms (e.g., chunks, fillets, canned) listed under any other item numbers from the Harmonized Tariff Schedule are subject to the documentation requirements of this subpart, except that fish parts other than meat (i.e., heads, eyes, roe, guts, tails) may be allowed entry without said statistical documentation.

§ 285.201 Documentation requirements.

(a) Bluefin imports. (1) Imports of all bluefin tuna products into the United States must be accompanied at the time of entry by an original completed approved Bluefin Tuna Statistical Document with the information and exporter's certification specified in §285.202(a)(1) through (7). Such information must be validated as specified in §285.202(a)(8) by a responsible government official of the country whose flag vessel caught the tuna (regardless of where the fish are first landed), unless the Assistant Administrator has waived validation requirements for the country pursuant to §285.203.

(2) Bluefin tuna imported into the United States from a country requiring a tag on all such tuna available for sale must be accompanied by the appropriate tag issued by that country, and said tag must remain on any tuna until it reaches its final import destination. If the final import destination is the United States, the tag must remain on the tuna until it is cut into portions. If the tuna portions are subsequently packaged for domestic commercial use or export, the tag number and the issuing country must be written legibly and indelibly on the outside of the package.

(3) Dealers selling bluefin tuna that was previously imported into the United States for domestic commercial use must provide on the original Bluefin Tuna Statistical Document that accompanied the import shipment the correct information and importer's certification specified in §285.202(a)(9). The original of the completed Bluefin Tuna Statistical Document must be postmarked and mailed by said dealer to the Regional Director within 24 hours of the time the tuna was imported into the United States.
(b) Bluefin exports. (1) Dealers exporting bluefin tuna that was harvested by U.S. vessels and first landed in the United States must complete an original numbered Bluefin Tuna Statistical Document issued to that dealer by the Regional Director. Such an individually numbered document is not transferable or reusable and may be used only once by the dealer to which it was issued to report on a specific export shipment. Dealers must provide on the Bluefin Tuna Statistical Document the correct information and exporter certification specified in §285.202(a)(1) through (7). As required under §285.203, the Bluefin Tuna Statistical Document must be validated as specified in §285.202(a)(8) by an official of the U.S. Government or, if authorized by NMFS, an official of an accredited institution. A list of such officials may be obtained by contacting the Office of Fisheries Conservation and Management, NMFS, Silver Spring, MD (301-713-2347), or the nearest NMFS Enforcement Office. A list of local NMFS enforcement offices can be obtained by contacting regional offices in Gloucester, MA (508-281-9261), St. Petersburg, FL (813-570-5344) and Long Beach, CA (310-980-4050). Dealers requesting government validation for exports should notify NMFS as soon as possible after arrival of the vessel to avoid delays in inspection and validation of the export shipment.

(2) Dealers re-exporting bluefin tuna that was previously imported into the United States must provide on the original Bluefin Tuna Statistical Document that accompanied the import shipment the correct information and intermediate importer's certification specified in §285.202(a)(9).

(3) Dealers must submit the original of the completed Bluefin Tuna Statistical Document to accompany the shipment of bluefin tuna to its export or re-export destination. A copy of the Bluefin Tuna Statistical Document completed as specified under paragraph (b)(1) or (2) of this section must be postmarked and mailed by said dealer to the Regional Director within 24 hours of the time the tuna was exported or re-exported from the United States.

(c) Recordkeeping. Dealers must retain at their principal place of business a copy of each Bluefin Tuna Statistical Document required to be submitted to the Regional Director pursuant to this section for a period of 2 years from the date on which it was submitted to the Regional Director.

(a) A Bluefin Tuna Statistical Document, to be deemed complete, must:

(1) Have a document number assigned as prescribed by the country issuing the document;

(2) State the name of the country issuing the document, which is the country whose flag vessel harvested the bluefin tuna, regardless of where the tuna is first landed;

(3) State the name of the vessel that caught the fish and the vessel’s registration number, if applicable;

(4) State the name of the owner of the trap that caught the fish, if applicable;

(5) State the point of export, which is the city, state or province, and country from which the bluefin tuna is first exported;

(6) State the following specified information about the shipment:

(i) The product type (fresh or frozen) and product form (round, gilled and gutted, dressed, fillet or other);

(ii) The method of fishing used to harvest the fish (purse seine, trap, rod and reel, etc.);

(iii) The ocean area from which the fish was harvested (western Atlantic, eastern Atlantic, Mediterranean, or Pacific);

(iv) The weight of each fish (in kilograms for the same product form previously specified);

(v) The identifying tag number, if landed by vessels from countries with tagging programs;

(7) State the name and license number of, and be signed and dated in the exporter’s certification block by, the exporter;

(8) If applicable, state the name and title of, and be signed and dated in the validation block by, a responsible government official of the country whose flag vessel caught the tuna (regardless of where the tuna are first landed) or
by an official of an institution accredited by said government, with official government or accredited institution seal affixed, thus validating the information on the Bluefin Tuna Statistical Document; and

(9) As applicable, state the name(s) and address(es), including the name of the city and state or province of import, and the name(s) of the intermediate country(ies) or the name of the country of final destination, and license number(s) of, and be signed and dated in the importer's certification block by, each intermediate and the final importer.

(b) An approved Bluefin Tuna Statistical Document may be obtained from the Regional Director to accompany exports of bluefin tuna from the United States. Bluefin tuna dealers in countries that do not provide an approved Bluefin Tuna Statistical Document to exporters may obtain an approved Bluefin Tuna Statistical Document from the Regional Director to accompany exports to the United States.

(c) Dealers from a country exporting bluefin tuna to the United States may use the approved Bluefin Tuna Statistical Document obtainable from the Regional Director or documents developed by the dealer's country, if that country submits a copy, through the ICCAT Executive Secretariat, to the Assistant Administrator, and the Assistant Administrator concurs with the ICCAT Secretariat's determination that the document meets the information requirements of the ICCAT recommendation. In such case, the Assistant Administrator shall provide a list of countries for which validation requirements are waived to the appropriate official of the U.S. Customs Service. Said list shall indicate the circumstances of exemption for each issuing country and the non-government institutions, if any, accredited to validate Bluefin Tuna Statistical Documents for that country.

(b) Exports. The approved Bluefin Tuna Statistical Document accompanying any export of bluefin tuna from the United States must be validated by a U.S. government official, except under circumstances of waiver, if any, specified on the form and accompanying instructions, or in a letter to permitted dealers from the Regional Director. Such circumstances of waiver of government validation shall be consistent with ICCAT recommendations concerning validation of Bluefin Tuna Statistical Documents. If authorized, such waiver of government validation may include:

(1) Exemptions from government validation for fish with individual tags affixed pursuant to §280.52 or §285.30 of this chapter, or;

(2) Validation by non-government officials authorized to do so by the Regional Director under paragraph (c) of this section.

(c) Authorization for non-government validation. Institutions, or associations seeking authorization to validate Bluefin Tuna Statistical Documents accompanying exports from the United States, must apply in writing to the Regional Director. A letter of application must indicate the procedures to be used for verification of information to be validated, must list the names, addresses, and telephone/fax numbers of individuals to perform validation, and must provide an example of the stamp
or seal to be applied to the Bluefin Tuna Statistical Document. Upon finding the institution or association capable of verifying the information required on the Bluefin Tuna Statistical Document, the Regional Director will issue, within 30 days, a letter specifying the duration of effectiveness and conditions of authority to validate Bluefin Tuna Statistical Documents accompanying exports from the United States. The effectiveness of such authorization will be delayed as necessary for the Assistant Administrator to notify the ICCAT Secretariat of non-government institutions and associations authorized to validate Bluefin Tuna Statistical Documents.

§ 285.204 Ports of entry.

The Assistant Administrator shall monitor the importation of bluefin tuna into the United States. If the Assistant Administrator determines that the diversity of handling practices at certain ports at which bluefin tuna is being imported into the United States allow for circumvention of the Bluefin Tuna Statistical Document requirement, he/she may designate, after consultation with the U.S. Customs Service, those ports at which Pacific or Atlantic bluefin tuna may be imported into the United States. The Assistant Administrator shall announce in the FEDERAL REGISTER the names of ports so designated and the effective dates of entry restrictions.

§ 285.205 Prohibitions.

It is unlawful for any person to do any of the following:

(a) Import or attempt to import any bluefin tuna into the United States without an accompanying original form of an approved Bluefin Tuna Statistical Document correctly completed with the appropriate certification and government validation.

(b) Import any bluefin tuna into the United States from a country that requires all such tuna to be tagged, without said tag accompanying the bluefin tuna.

(c) Remove a tag from any bluefin tuna imported into the United States accompanied by a tag, prior to its being cut into portions for a destination in the United States or for export.

(d) Fail to write legibly and indelibly the tag number and the issuing country on the outside of any package containing a part or parts of a bluefin tuna that was imported into the United States accompanied by said tag.

(e) Export or re-export from the United States any bluefin tuna without an accompanying original approved Bluefin Tuna Statistical Document correctly completed with the appropriate certification and, if applicable, validated by a designated official of the United States government or an official of an institution authorized by the Regional Director pursuant to §285.203(c) to validate such documents.

(f) Fail to provide in a timely manner any originals or copies of Bluefin Tuna Statistical Documents required to be submitted to the Regional Director pursuant to §285.201.

(g) Write false information on or modify any information previously written on any Bluefin Tuna Statistical Document required by this subpart or to validate such document if not authorized to do so by the Regional Director.

(h) Fail to maintain copies of completed Bluefin Tuna Statistical Documents as required under §285.201.

(i) Import any bluefin tuna in a manner inconsistent with any ports of entry designated by the Assistant Administrator pursuant to §285.204.

(j) Reuse, or transfer to another dealer, any numbered Bluefin Tuna Statistical Document issued to a dealer under this subpart.

(k) Import any Atlantic bluefin tuna or Atlantic bluefin tuna products into the United States from Belize or Honduras after August 20, 1997 unless a validated Bluefin Statistical Document required under this subpart F, §§285.200 through 285.205, shows that a particular shipment of such bluefin tuna was exported prior to August 20, 1997.

(l) Import any Atlantic bluefin tuna or Atlantic bluefin tuna products into the United States from Panama after January 1, 1998, unless a validated Bluefin Statistical Document required under this subpart F, §§285.200 through
Pt. 285, Fig. 1

285.205, shows that a particular shipment of such bluefin tuna was exported prior to January 1, 1998.

296.14 Subrogation.
296.15 Judicial review.

SOURCE: 47 FR 49600, Nov. 1, 1982, unless otherwise noted.

§ 296.1 Purpose.

These regulations implement title IV of the Outer Continental Shelf Lands Act Amendments of 1978, as amended (title IV). Title IV establishes a Fishermen's Contingency Fund to compensate commercial fishermen for damage or loss caused by obstructions associated with oil and gas activities on the Outer Continental Shelf.

§ 296.2 Definitions.

Area affected by Outer Continental Shelf activities means the area within a 3-mile radius of any casualty site which:

(1) Includes any portion of a leased block, pipeline, easement, right of way, or other OCS oil and gas exploration, development, or production activity; or

(2) Is otherwise associated (as determined by the Chief, Financial Services Division) with OCS oil and gas activities, such as, for example, expired lease areas, relinquished rights-of-way or easements, and areas used extensively by surface vessels supporting OCS oil and gas activities (areas landward of the OCS are included when such areas meet this criterion).
§ 296.3 Fishermen's contingency fund.

(a) General. There is established in the Treasury of the United States the Fishermen's Contingency Fund. The Fund is available without fiscal year limitation as a revolving fund to carry out the purposes of title IV of the Outer Continental Shelf Lands Act Amendments of 1978, as amended.

(b) Payments into the fund. Each Holder of an exploration permit, lease, easement, or rights-of-way for the construction of a pipeline, or a prelease exploration drilling permit issued or maintained under the Outer Continental Shelf Lands Act, in effect on or after June 30, 1982, shall pay assessments to the Fund. All pipeline right-of-way and easements are to be included for assessment except those constructed and operated lines within the confines of a single lease or group of contiguous leases under unitized operation or single operator. Payments will not be required for geological or geophysical permits, other than prelease exploratory drilling permits issued under section 11 of the Outer Continental Shelf Lands Act (43 U.S.C. 1340).

(1) Assessments to maintain the fund. When the total amount in the Fund is less than the Chief, FSD, determines is needed to pay Fund claims and expenses, the Chief, FSD, will notify the Secretary of the Interior that additional assessments are needed.

(2) Billing and collections. The Secretary of the Interior will calculate the amounts to be paid by each Holder and shall notify each Holder of the dollar amount and the time and place for all payments. Each assessment shall be paid to the Secretary of the Interior no later than 45 days after the Secretary of the Interior sends notice of the assessment.

(3) Annual assessment limits. No Holder shall be required to pay in excess of $5,000 for any lease, permit, easement or right-of-way in any calendar year.

(c) Moneys recovered through subrogation. Any moneys recovered by the Secretary through the subrogation of a claimant's rights shall be deposited into the Fund.

(d) Investments of the fund. Excess sums in the Fund will be invested in obligations of, or guaranteed by, the United States. Revenue from such investments shall be deposited into the Fund.

(e) Litigation. The Fund may sue and be sued in its own name.

§ 296.4 Claims eligible for compensation.

(a) Claimants. Damage or loss eligible for Fund compensation must be suffered by a commercial fisherman.

(b) Damage or loss of fishing gear. Damage or loss is eligible for Fund...
compensation if it was caused by materials, equipment, tools, containers, or other items associated with OCS oil and gas exploration, development, or production activities. Damage or loss may be eligible for compensation even though it did not occur in OCS waters if the item causing the damage or loss was associated with oil and gas exploration, development, or production activities in OCS waters.

(c) Exceptions. Damage or loss is not eligible for Fund compensation:

(1) If the damage or loss was caused by the negligence or fault of the claimant;
(2) If the damage or loss occurred prior to September 18, 1978;
(3) To the extent that damage or loss exceeds the replacement value of the fishing gear involved;
(4) For any portion of the damage or loss which can be compensated by insurance;
(5) If the claim is not filed within 90 calendar days of the date the claimant or the claimant’s agent first became aware of the damage or loss (or such longer period as the Secretary may allow under unusual and extenuating circumstances); or
(6) If the damage or loss was caused by an obstruction unrelated to OCS oil and gas exploration, development, or production activities.

§ 296.5 Instructions for filing claims.

(a) Fifteen-day report required to gain presumption of causation—(1) General. Damages or losses are presumed to be qualified for compensation if certain requirements are satisfied. One requirement is that a report must be made to NMFS within fifteen (15) days after the date on which the vessel first returns to a port after discovering the damage or loss. Filing of a fifteen-day report must be followed up by filing a detailed claim.

(2) When and how to file a fifteen-day report. To qualify for the presumption of causation, a fifteen-day report must be made to NMFS within fifteen days after the date on which the vessel first returns to a port after discovering the damage or loss. Satisfaction of the fifteen-day requirement is determined by the postmark, if the report is mailed; by the date of a call, if the report is telephoned or radiotelephoned; or, by the date of appearance, if the report is made in person. The fifteen-day report must be made to the Chief, Financial Services Division, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910; telephone: (301) 713-2396.

(b) Form of claim. Claims must be in writing. Claims may be submitted on NOAA form 88-164. This form may be obtained from any NMFS regional office or from the Chief, FSD. Although claimants are not required to use this claim form, it will probably be to their benefit to do so.

(c) Who must file and when and where to file claims. All claimants (including those who filed 15-day reports to gain the presumption of causation) must submit a claim application to the Chief, Financial Services Division, within 90 calendar days of the date the claimant or the claimant’s agent first became aware of the damage or loss. The Chief, FSD, may allow a longer period for filing claims if, in his discretion, unusual and extenuating circumstances justify a longer period. The term “filed” means delivered in person, or mailed (as determined by the date of the postmark) to the Chief, Financial Services Division, National Marine Fisheries Service, 1825 Connecticut Avenue, NW., Washington, DC 20225. The Chief, FSD, suggests that mailed claims be sent by registered or certified mail, return receipt requested, so the claimant will have a record that
§ 296.6 NMFS processing of claims.

(a) Action by NMFS. Upon receipt of a claim, the Chief, FSD, will:

(1) Send an abstract of the claim to the Secretary of the Interior;

(2) Send the reported location of any obstruction which was not recovered;
and retained to the National Ocean Survey, which will inform the Defense Mapping Agency Hydrographic/Topographic Center.

(b) Actions by the Interior Department. Upon receipt of an abstract of a claim, the Interior Department will immediately:

(1) Plot the casualty site, and advise NMFS whether the site is in an area affected by OCS activities;

(2) make reasonable efforts to notify all persons known to have engaged in activities associated with OCS energy activity in the vicinity where the damage or loss occurred.

(c) Responses to notice of claim. (1) Each person notified by the Interior Department will, within thirty days after receipt of the notice, advise the Chief, FSD, and the Interior Department whether he admits or denies responsibility for the damages claimed.

(2) Each person notified by the Interior Department who fails to give timely and proper advice of admission or denial of responsibility shall be presumed to deny responsibility for the damages claimed.

(3) If any person admits responsibility, the Chief, FSD, will initiate action to recover from that party any sums paid or to be paid for the claimed damages.

(4) Any person referred to in this section, including lessees or permittees or their contractors or subcontractors, may submit evidence about any claim to the Chief, FSD.

(d) Failure to meet filing requirements. The Chief, FSD, may reject any claim that does not meet the filing requirements. The Chief, FSD, will give a claimant whose claim is rejected written notice of the reasons for rejection within 30 days after the date on which the claim was filed. If the claimant does not refile an acceptable claim within 30 days after the date of this written notice, the claimant is not eligible for Fund compensation unless there are extenuating circumstances.

(e) Proceedings—(1) Location. Any required proceeding will be conducted within such United States judicial district in which the claimant's home port is located.

(2) Powers. For purposes of any proceeding, the Assistant Administrator, NMFS, or his designee, shall have the power to administer oaths and subpoena witnesses and the production of books, records, and other evidence relative to the issues involved.

(3) Amendments to claims. A claimant may amend the claim at any time before the Chief, FSD, issues an initial determination.

(4) Criminal penalty for fraudulent claims. Any person who files a fraudulent claim is subject to prosecution under 18 U.S.C. sections 287 and 1001, each of which, upon conviction, imposes a penalty of not more than a $10,000 fine and 5 years' imprisonment, or both.

§ 296.7 Burden of proof and presumption of causation.

(a) Burden of proof. The claimant has the burden to establish, by a preponderance of the evidence, all facts necessary to qualify his claim, including:

(1) The identity or nature of the item which caused the damage or loss; and

(2) That the item is associated with oil and gas exploration, development, or production activities on the Outer Continental Shelf.

(b) Presumption of causation. Notwithstanding the above, damages or losses are presumed to be caused by items associated with oil and gas exploration, development, or production activities on the OCS if the claimant establishes that:

(1) The claimant's commercial fishing vessel was being used for commercial fishing and was located in an area affected by OCS oil and gas exploration, development, or production activities;

(2) A report on the location of the obstruction which caused such damage or loss, and the nature of such damage or loss, was made within fifteen days after the date on which the vessel first returned to a port after discovering such damage;

(3) There was no record on the most recent nautical charts issued by the
§ 296.8 National Ocean Survey, NOAA, or in any weekly Notice to Mariners issued by the Defense Mapping Agency Hydrographic/Topographic Center, in effect at least 15 days before the date the damage or loss occurred, then an obstruction existed in the immediate vicinity where the damage or loss occurred. In the case of damages caused by a pipeline, the presumption will be available regardless of whether the pipeline was recorded on charts or in the Notice to Mariners; and
(4) There was no proper surface marker or lighted buoy attached, or closely anchored, to such obstruction.

(c) Geographic exclusion from presumption of causation. Damage or loss occurring within a one-quarter mile radius of obstructions recorded on charts or in a Notice to Mariners, or properly marked, is presumed to involve the recorded or marked obstruction.

§ 296.8 Amount of award.

(a) Actual damages. The award for damaged fishing gear will be the lesser of the gear's repair cost or replacement cost. The award for lost fishing gear will be the gear's replacement cost.

(b) Consequential damages. An award may also include compensation for any damage or loss (except personal injury) that is incurred as a consequence of the fishing gear damage or loss.

(c) Resulting economic loss. An award may also include 50 percent of the resulting economic loss from damage to or loss of fishing vessels and gear.

(d) Attorney, CPA, consultant fees. An award may also include compensation for reasonable fees paid by the claimant to an attorney, CPA, or other consultant for the preparation or prosecution of a claim.

(e) Negligence of claimant. (1) An award will be reduced to the extent that the loss or damage was caused by the negligence or fault of the claimant. For example, a claimant who sustained $10,000 in damages and whose negligence or fault was found to be responsible for 40% of the damage would receive $6,000 in compensation. If the same claimant were responsible for 99% of the negligence or fault that caused the damage, the claimant would receive $100 in compensation.

(2) Negligence of the owner or operator of the fishing vessel or gear will reduce crewmember awards to the same extent that it reduces an award to the vessel's owner or operator.

(f) Insurance proceeds. An award will be reduced by the amount the claimant has, or reasonably would have, received under a commercial policy of full hull and machinery and protection and indemnity insurance, whether or not such insurance was in effect at the time the casualty occurred.

[47 FR 49600, Nov. 1, 1982, as amended at 50 FR 13796, Apr. 8, 1985]

§ 296.9 Initial determination.

The Chief, FSD will make an initial determination on a claim within 60 days after the day on which the claim is accepted for filing. The initial determination will state:

(a) If the claim is disapproved, the reason for disapproval, or

(b) If the claim is approved, the amount of compensation and the basis on which the amount was determined.

§ 296.10 Agency review.

(a) Within 30 days after the Chief, FSD, issues an initial determination, the claimant, or any other interested person who submitted evidence relating to the initial determination, may ask the Assistant Administrator, NMFS, or his designee, for a review of the initial determination.

(b) The petitioner may submit written or oral evidence within 30 days of filing the petition for review.

§ 296.11 Final determination.

(a) If a petition for review of an initial determination is filed within 30 days after the date the Chief, FSD, issues an initial determination, the Assistant Administrator, NMFS, or his designee will conduct a review of the initial determination, and will issue a final determination no later than 60 days after receipt of the request for review of the initial determination.

(b) If a petition for review of an initial determination is not filed within 30 days after the day on which the Chief, FSD, issues an initial determination, the initial determination will become a final determination.
§ 296.12 Payment of costs.

(a) By person denying responsibility for damage. Any person who is notified by the Interior Department and fails to respond or denies responsibility for the damages claimed will pay the costs of the proceedings if such person is subsequently found to be responsible for the damage claimed.

(b) By the claimant. Any claimant who files a claim will pay the cost of the proceedings if such person is subsequently found to be responsible for the damage claimed.

(c) By person denying responsibility for damage and the claimant. If more than one party is found to have responsibility for the damage claimed, then the cost of the proceedings will be apportioned between them.

§ 296.13 Payment of award for claim.

(a) Upon an initial determination, the Chief, Financial Services Division, shall immediately disburse the claim awarded if the claimant signed as part of his/her application a statement agreeing to repay all or any part of the award if the award should for any reason be subsequently reduced.

(b) [Reserved]

[61 FR 6322, Feb. 20, 1996]

§ 296.14 Subrogation.

(a) The claim application will contain a subrogation statement signed by the claimant as a condition of payment of the claim which:

1. Assigns to the Fund the claimant’s rights against third parties; and

2. Provides that the claimant will assist the Fund in any reasonable way to pursue those rights.

(b) Collection of subrogated rights. If a reasonable chance of successful collection exists, NMFS will refer any subrogated rights to the Justice Department for collection.

(c) Any moneys recovered through subrogation shall be deposited into the Fund.

§ 296.15 Judicial review.

Any claimant or other person who is aggrieved by a final determination may, no later than 30 days after the determination, seek judicial review of the determination in the United States District Court for such judicial district as may be mutually agreeable to the parties concerned or, if no agreement can be reached, in the United States District Court for the judicial district in which the claimant’s home port is located.

300.24 Pacific bluefin tuna—Dealer permits.
300.25 Pacific bluefin tuna—Dealer recordkeeping and reporting.
300.26 Pacific bluefin tuna—Tags.
300.27 Pacific bluefin tuna—Documentation requirements.
300.28 Pacific bluefin tuna—Prohibitions.

Subpart D—South Pacific Tuna Fisheries

300.30 Purpose and scope.
300.31 Definitions.
300.32 Vessel licenses.
300.33 Compliance with applicable national laws.
300.34 Reporting requirements.
300.35 Vessel and gear identification.
300.36 Closed area stowage requirements.
300.37 Radio monitoring.
300.38 Prohibitions.
300.39 Exceptions.
300.40 Civil penalties.
300.41 Investigation notification.
300.42 Findings leading to removal from fishing area.
300.43 Observers.
300.44 Other inspections.

Subpart E—Pacific Halibut Fisheries

300.60 Purpose and scope.
300.61 Definitions.
300.62 Annual management measures.
300.63 Catch sharing plans and domestic management measures.
300.64 Fishing by U.S. treaty Indian tribes.
300.65 Prohibitions.

Subpart F—Fraser River Sockeye and Pink Salmon Fisheries

300.90 Purpose and scope.
300.91 Definitions.
300.92 Relation to other laws.
300.93 Reporting requirements.
300.94 Prohibitions and restrictions.
300.95 Treaty Indian fisheries.
300.96 Penalties.
300.97 Inseason orders.

Subpart G—Antarctic Marine Living Resources

300.100 Purpose and scope.
300.101 Definitions.
300.102 Relationship to other treaties, conventions, laws, and regulations.
300.103 Procedure for according protection to CCAMLR Ecosystem Monitoring Program Sites.
300.104 Scientific research.
300.105 Initiating a new fishery.
300.106 Exploratory fisheries.
300.107 Reporting and recordkeeping requirements.
300.108 Vessel and gear identification.
300.109 Gear disposal.
300.110 Mesh size.
300.111 Framework for annual management measures.
300.112 Harvesting permits.
300.113 Import permits.
300.114 Appointment of a designated representative.
300.115 Prohibitions.
300.116 Facilitation of enforcement and inspection.
300.117 Penalties.

Subpart H—Vessels of the United States Fishing in Colombian Treaty Waters

300.120 Purpose.
300.121 Definitions.
300.122 Relation to other laws.
300.123 Certificates and permits.
300.124 Recordkeeping and reporting.
300.125 Vessel identification.
300.126 Prohibitions.
300.127 Facilitation of enforcement.
300.128 Penalties.
300.129 Fishing year.
300.130 Vessel and gear restrictions.
§ 300.1 Purpose and scope.

The purpose of this part is to implement the fishery conservation and management measures provided for in the international treaties, conventions, or agreements specified in each subpart, as well as certain provisions of the Lacey Act Amendments of 1981. The regulations in this part apply, except where otherwise specified in this part, to all persons and all places subject to the jurisdiction of the United States under the acts implemented under each subpart.

§ 300.2 Definitions.

In addition to the definitions in each act, agreement, convention, or treaty specified in subparts B through K of this part, the terms used in this part have the following meanings:

Assistant Administrator means the Assistant Administrator for Fisheries, National Oceanic and Atmospheric Administration, Department of Commerce, or a designee. Address: Room 14555, 1315 East-West Highway, Silver Spring, MD 20910.

Authorized officer means:

(1) Any commissioned, warrant, or petty officer of the U.S. Coast Guard; or any U.S. Coast Guard personnel accompanying and acting under the direction of a commissioned, warrant, or petty officer of the U.S. Coast Guard;

(2) Any special agent or fisheries enforcement officer of NMFS; or

(3) Any person designated by the head of any Federal or state agency that has entered into an agreement with the Secretary of Commerce or the Commandant of the U.S. Coast Guard to enforce the provisions of any statute administered by the Secretary.

CCAMLR inspector means a person designated by a member of the Commission for the Conservation of Antarctic Marine Living Resources as an inspector under Article XXIV of the Convention on the Conservation of Antarctic Marine Living Resources to verify compliance with measures in effect under the Convention.

Director, Alaska Region, means Director, Alaska Region, NMFS, 709 West Ninth Street, Suite 401, P.O. Box 21668, Juneau, AK 99802, or a designee.

Director, Northeast Region, means Director, Northeast Region, NMFS, One Blackburn Drive, Gloucester, MA 01930-2298, or a designee.

Director, Northwest Region, means Director, Northwest Region, NMFS, 501 West Ocean Boulevard, Suite 4200, Long Beach, CA 90802-4213, or a designee.

Director, Southeast Fisheries Science Center, means Director, Science and Research, Southeast Fisheries Science Center, NMFS, 75 Virginia Beach Drive, Miami, FL 33149, or a designee.

Director, Southeast Region, means Director, Southeast Region, NMFS, 9721 Executive Center Drive, N., St. Petersburg, FL 33702, or a designee.

Director, Southwest Region, means Director, Southwest Region, NMFS, 501 West Ocean Boulevard, Suite 400, Long Beach, CA 90802-4213, or a designee.
Exclusive Economic Zone or EEZ means the zone established by Presidential Proclamation 5030, dated March 10, 1983, as defined in 16 U.S.C. 1802(6).

Fishing or to fish means:
(1) The catching or taking of fish;
(2) The attempted catching or taking of fish;
(3) Any other activity that can reasonably be expected to result in the catching or taking of fish; or
(4) Any operations at sea in support of, or in preparation for, any activity described in paragraphs (1) through (3) of this definition.

Fishing vessel means any vessel, boat, ship, or other craft that is used for, equipped to be used for, or of a type normally used for fishing.

IATTC means the Inter-American Tropical Tuna Commission, established pursuant to the Convention for the Establishment of an Inter-American Tropical Tuna Commission.

Import means to land on, bring into, or introduce into, or attempt to land on, bring into, or introduce into, any place subject to the jurisdiction of the United States, whether or not such landing, bringing, or introduction, constitutes an importation within the meaning of the customs laws of the United States.

IRCS means International Radio Call Sign.

Magnuson Act means the Magnuson Fishery Conservation and Management Act, 16 U.S.C. 1801 et seq.

National of the United States or U.S. national means any person subject to the jurisdiction of the United States, including, but not limited to, a citizen or resident of the United States, or a person employed on a vessel of the United States. In the case of a corporation, partnership or other non-natural person, this includes, but is not limited to, any entity that is the owner of a vessel of the United States.

NMFS means the National Marine Fisheries Service, NOAA, Department of Commerce.

NMFS Headquarters means NMFS, 1315 East-West Highway, Silver Spring, MD 20910. Attention: Office of Fisheries Conservation and Management.

Official number means the documentation number issued by the USCG or the certificate number issued by a state or the USCG for an undocumented vessel, or any equivalent number if the vessel is registered in a foreign nation.

Operator means, with respect to any vessel, the master or other individual aboard and in charge of that vessel.

Owner means, with respect to any vessel:
(1) Any person who owns that vessel in whole or part (whether or not the vessel is leased or chartered);
(2) Any charterer of the vessel, whether bareboat, time, or voyage;
(3) Any person who acts in the capacity of a charterer, including but not limited to parties to a management agreement, operating agreement, or any similar agreement that bestows control over the destination, function, or operation of the vessel; or
(4) Any agent designated as such by a person described in this definition.

Person means any individual (whether or not a citizen or national of the United States), any corporation, partnership, association, or other entity (whether or not organized, or existing under the laws of any state), and any Federal, state, local, or foreign government or any entity of any such government.

Secretary means the Secretary of Commerce or a designee.

USCG means the United States Coast Guard.

Yellowfin tuna means any fish of the species Thunnus albacares (synonomy: Neothunnus macropterus).

§ 300.3 Relation to other laws.
Other laws that may apply to fishing activities addressed herein are set forth in §600.705 of chapter VI of this title.

§ 300.4 General prohibitions.
It is unlawful for any person subject to the jurisdiction of the United States to:
(a) Violate the conditions or restrictions of a permit issued under this part.
(b) Fail to submit information, fail to submit information in a timely manner, or submit false or inaccurate
§ 300.5 Facilitation of enforcement.

(a) Compliance. The operator of, or any other person aboard, any fishing vessel subject to this part must immediately comply with instructions and signals issued by an authorized officer or CCAMLR inspector to stop the vessel, and with instructions to facilitate safe boarding and inspection of the vessel, its gear, equipment, fishing record (where applicable), and catch for purposes of enforcing this part.

(b) Communications. (1) Upon being approached by a USCG vessel or aircraft, or other vessel or aircraft with an authorized officer or CCAMLR inspector aboard, the operator of a fishing vessel must be alert for communications conveying enforcement instructions.

(2) VHF-FM radiotelephone is the preferred method of communicating between vessels. If the size of the vessel and the wind, sea, and visibility conditions allow, a loudhailer may be used instead of the radio. Hand signals, placards, high frequency radiotelephone, voice, flags, whistle or horn may be employed by an authorized officer or CCAMLR inspector, and message blocks may be dropped from an aircraft.

(3) If other communications are not practicable, visual signals may be
transmitted by flashing light directed at the vessel signaled. USCG units will normally use the flashing light signal “L” which, in the International Code of Signals, means “you should stop your vessel instantly.”

(4) Failure of a vessel’s operator promptly to stop the vessel when directed to do so by an authorized officer or CCAMLR inspector, or by an enforcement vessel or aircraft, using loudhailer, radiotelephone, flashing light, flags, whistle, horn or other means constitutes prima facie evidence of the offense of refusal to allow an authorized officer or CCAMLR inspector to board.

(5) A person aboard a vessel who does not understand a signal from an enforcement unit and who is unable to obtain clarification by loudhailer or radiotelephone must consider the signal to be a command to stop the vessel immediately.

(c) Boarding. The operator of a vessel directed to stop must:

(1) Monitor Channel 16, VHF-FM, if so equipped.

(2) Stop immediately and lay to or, if appropriate and/or directed to do so by the authorized officer or CCAMLR inspector, maneuver in such a way as to allow the safe boarding of the vessel by the authorized officer or CCAMLR inspector and the boarding party.

(3) Except for those vessels with a freeboard of 4 ft (1.25 m) or less, provide a safe ladder, if needed, for the authorized officer or CCAMLR inspector and boarding party to come aboard.

(4) When necessary to facilitate the boarding or when requested by an authorized officer or CCAMLR inspector, provide a manrope or safety line, and illumination for the ladder.

(5) Take such other actions as necessary to facilitate boarding and to ensure the safety of the authorized officer or CCAMLR inspector and the boarding party.

(d) Signals. The following signals, extracted from the International Code of Signals, may be sent by flashing light by an enforcement unit when conditions do not allow communications by loudhailer or radiotelephone. Knowledge of these signals by vessel operators is not required. However, knowledge of these signals and appropriate action by a vessel operator may preclude the necessity of sending the signal “L” and the necessity for the vessel to stop instantly.

(1) “AA” repeated (. .-) is the call to an unknown station. The operator of the signaled vessel should respond by identifying the vessel by radiotelephone or by illuminating the vessel’s identification.

(2) “RY-CY” (. .- -. . -.-. -.--) means “you should proceed at slow speed, a boat is coming to you.” This signal is normally employed when conditions allow an enforcement boarding without the necessity of the vessel being boarded coming to a complete stop, or, in some cases, without retrieval of fishing gear that may be in the water.

(3) “SQ3” ( .- -. .- -. -.-) means “you should stop or heave to; I am going to board you.”
§ 300.12 Issuing offices.

Any Regional Director may issue permits required under this subpart. While applicants for permits may submit an application to any Regional Director, applicants are encouraged to submit their applications (with envelopes marked “Attn: HSFCa Permits”) to the Regional Director with whom they normally interact on fisheries matters.

§ 300.13 Vessel permits.

(a) Eligibility. (1) Except for vessels having unpaid or overdue civil penalties, criminal fines, or other liabilities incurred in a judicial proceeding under any statute administered by NOAA, any high seas fishing vessel of the United States is eligible to receive a permit under this subpart, unless the vessel was previously authorized to be used for fishing on the high seas by a foreign nation, and—

(i) The foreign nation suspended such authorization, because the vessel undermined the effectiveness of international conservation and management measures, and the suspension has not expired; or

(ii) The foreign nation, within the 3 years preceding application for a permit under this section, withdrew such authorization, because the vessel undermined the effectiveness of international conservation and management measures.

(2) The restrictions in paragraphs (a)(1)(i) and (ii) of this section do not apply if ownership of the vessel has changed since the vessel undermined the effectiveness of international conservation and management measures, and the new owner has provided sufficient evidence to the Regional Director demonstrating that the owner and operator at the time the vessel undermined the effectiveness of such measures has no further legal, beneficial, or financial interest in, or control of, the vessel.

(3) The restrictions in paragraphs (a)(1)(i) and (ii) of this section do not apply if it is determined by the Regional Director that issuing a permit would not subvert the purposes of the Agreement.

(b) Application forms. The owner or operator of a high seas fishing vessel may apply for a permit under this subpart by completing an application form. Applicants may obtain an application form from a Regional Director.

(c) Application information. An applicant must submit a complete and accurate permit application, signed by the owner or operator, to the appropriate Regional Director.

(d) Fees. NMFS will charge a fee to recover the administrative expenses of permit issuance. The amount of the fee will be determined in accordance with the procedures of the NOAA Finance Handbook, available from a Regional Director, for determining administrative costs of each special product or service. The fee is specified with the application form. The appropriate fee must accompany each application. Failure to pay the fee will preclude issuance of the permit. Payment by a commercial instrument later determined to be insufficiently funded will invalidate any permit.

(e) Issuance. (1) Except as provided in subpart D of 15 CFR part 904, the Regional Director will issue a permit, which will include appropriate conditions or restrictions, within 30 days of receipt of a completed application and payment of the appropriate fee.

(2) The Regional Director will notify the applicant of any deficiency in the application.

(f) Validity. Permits issued under this subpart are valid for 5 years from the date of issuance. Renewal of a permit...
prior to its expiration is the responsibility of the permit holder. For a permit to remain valid to its expiration date, the vessel’s USCG documentation or state registration must be kept current. A permit issued under this subpart is void when the name of the owner or vessel changes, or in the event the vessel is no longer eligible for U.S. documentation, such documentation is revoked or denied, or the vessel is removed from such documentation.

(g) Change in application information. Any change in vessel documentation status or other permit application information must be reported to the Regional Director in writing within 15 days of such changes.

(h) Transfer. A permit issued under this subpart is not transferable or assignable to another vessel or owner; it is valid only for the vessel and owner to which it is issued.

(i) Display. A valid permit, or a copy thereof, issued under this subpart must be on board the vessel while operating on the high seas and available for inspection by an authorized officer. Faxed copies of permits are acceptable.

§ 300.14 Vessel and gear identification. [Reserved]

§ 300.15 Prohibitions.

In addition to the prohibitions in section 300.4, it is unlawful for any person to:

(a) Use a high seas fishing vessel on the high seas in contravention of international conservation and management measures.

(b) Use a high seas fishing vessel on the high seas, unless the vessel has on board a valid permit issued under section 300.13.

§ 300.16 Penalties.

Any person or high seas fishing vessel found to be in violation of the Act, this subpart, or any permit issued under this subpart will be subject to the civil and criminal penalty provisions, permit sanctions, and forfeiture provisions prescribed in the Act, 15 CFR part 904 (Civil Procedures), and other applicable laws.

§ 300.17 Reporting and recordkeeping. [Reserved]

Subpart C—Pacific Tuna Fisheries

Authority: 16 U.S.C. 951-961 and 971 et seq.

§ 300.20 Purpose and scope.

The regulations in this subpart implement the Tuna Conventions Act of 1950 (Act), the Atlantic Tunas Convention Act of 1975, and the IATTC recommendations for the conservation of yellowfin tuna and the recommendations of the International Commission for the Conservation of Atlantic Tunas for the conservation of bluefin tuna, so far as they affect vessels and persons subject to the jurisdiction of the United States.

§ 300.21 Definitions.

In addition to the terms defined in § 300.2, in the Act, the Convention for the Establishment of an Inter-American Tropical Tuna Commission, and the International Convention for the Conservation of Atlantic Tunas, the terms used in this subpart have the following meanings. If a term is defined differently in § 300.2, the Act, or the Conventions, the definition in this section shall apply.

Bluefin tuna means the fish species Thunnus thynnus that is found in any ocean area.

Fishing vessel means any vessel, boat, ship, or other craft that is used for, equipped to be used for, or of a type that is normally used for fishing or for assisting or supporting a vessel engaged in fishing, except purse seine skiffs.

Pacific bluefin tuna means the subspecies of bluefin tuna Thunnus thynnus orientalis that is found in the Pacific Ocean.

Regional Director means the Director, Southwest Region.

Tag means the flexible, self-locking ribbon issued by the NMFS for the identification of bluefin tuna under § 300.26 or 285.30 of chapter II of this title.
§ 300.22 Yellowfin tuna—Record-keeping and written reports.

The master or other person in charge of a fishing vessel, or a person authorized in writing to serve as the agent for either person, must keep an accurate log of all operations conducted from the fishing vessel, entering for each day the date, noon position (stated in latitude and longitude or in relation to known physical features), and the tonnage of fish on board, by species. The record and bridge log maintained at the request of the IATTC shall be sufficient to comply with this paragraph, provided the items of information specified are accurately entered in the log.

§ 300.23 Yellowfin tuna—Persons and vessels exempted.

This subpart does not apply to:

(a) Any person or vessel authorized by the IATTC, the Assistant Administrator, or any state of the United States to engage in fishing for research purposes.

(b) Any person or vessel engaged in sport fishing for personal use.

§ 300.24 Pacific bluefin tuna—Dealer permits.

(a) General. A dealer importing Pacific bluefin tuna, or purchasing or receiving for export Pacific bluefin tuna first landed in the United States, must have a valid permit issued under this section.

(b) Application. A dealer must apply for a permit in writing on an appropriate form obtained from the Regional Director. The application must be signed by the dealer and be submitted to the Regional Director at least 30 days before the date upon which the dealer desires to have the permit made effective. The application must contain the following information: Company name, principal place of business, owner's or owners' names, applicant's name (if different from owner or owners) and mailing address and telephone number, and any other information required by the Regional Director.

(c) Issuance. (1) Except as provided in subpart D of 15 CFR part 904, the Regional Director will issue a permit within 30 days of receipt of a completed application.

(2) The Regional Director will notify the applicant of any deficiency in the application. If the applicant fails to correct the deficiency within 15 days following the date of notification, the application will be considered abandoned.

(d) Duration. Any permit issued under this section is valid until December 31 of the year for which it is issued, unless suspended or revoked.

(e) Alteration. Any permit that is substantially altered, erased, or mutilated is invalid.

(f) Replacement. The Regional Director may issue replacement permits. An application for a replacement permit is not considered a new application.

(g) Transfer. A permit issued under this section is not transferable or assignable; it is valid only for the dealer to whom it is issued.

(h) Inspection. The dealer must keep the permit issued under this section at his/her principal place of business. The permit must be displayed for inspection upon request of any authorized officer, or any employee of NMFS designated by the Regional Director for such purpose.

(i) Sanctions. The Assistant Administrator may suspend, revoke, modify, or deny a permit issued or sought under this section. Procedures governing permit sanctions and denials are found at subpart D of 15 CFR part 904.

(j) Fees. The Regional Director may charge a fee to recover the administrative expenses of permit issuance. The amount of the fee is calculated, at least annually, in accordance with the procedures of the NOAA Finance Handbook, available from the Regional Director, for determining administrative costs of each special product or service. The fee may not exceed such costs and is specified on each application form. The appropriate fee must accompany each application. Failure to pay the fee will preclude issuance of the permit. Payment by a commercial instrument later determined to be insufficiently funded shall invalidate any permit.

(k) Change in application information. Within 15 days after any change in the information contained in an application submitted under this section, the dealer issued a permit must report the change to the Regional Director in.
writing. The permit is void if any change in information is not reported within 15 days.

§ 300.25 Pacific bluefin tuna—Dealer recordkeeping and reporting.

Any person issued a dealer permit under § 300.24:

(a) Must submit to the Regional Director a biweekly report on bluefin imports and exports on forms supplied by NMFS.

1. The report required by this paragraph (a) must be postmarked and mailed at the dealer’s expense within 10 days after the end of each 2-week reporting period in which Pacific bluefin tuna were exported. The biweekly reporting periods are defined as the first day to the 14th day of each month and the 15th day to the last day of the month.

2. Each report must specify accurately and completely for each tuna or each shipment of bulk-frozen tuna exported: Date of landing or import; any tag number (if so tagged); weight in kilograms (specify if round or dressed); and any other information required by the Regional Director. At the top of each form, the company’s name, license number, and the name of the person filling out the report must be specified. In addition, the beginning and ending dates of the 2-week reporting period must be specified by the dealer and noted at the top of the form.

(b) Must allow an authorized officer, or any employee of NMFS designated by the Regional Director for this purpose, to inspect and copy any records of transfers, purchases, or receipts of Pacific bluefin tuna.

(c) Must retain at his/her principal place of business a copy of each biweekly report for a period of 2 years from the date on which it was submitted to the Regional Director.

§ 300.26 Pacific bluefin tuna—Tags.

(a) Issuance. The Regional Director will issue numbered tags to each person receiving a dealer’s permit under § 300.24.

(b) Transfer. Tail tags issued under this section are not transferable and are usable only by the permitted dealer to whom they are issued.

(c) Affixing tags. At the discretion of dealers permitted under § 300.24, a tag issued under paragraph (a) of this section may be affixed to each Pacific bluefin tuna purchased or received by the dealer. If so tagged, the tag must be affixed to the tuna between the fifth dorsal finlet and the keel and tag numbers must be recorded on NMFS reports required by § 300.25(a) and any documents accompanying the shipment of Pacific bluefin tuna for domestic commercial use or export.

(d) Removal. A NMFS-issued tag affixed to any Pacific bluefin tuna at the option of any permitted dealer under paragraph (c) of this section or any tag affixed to any Pacific bluefin tuna to meet the requirements of § 285.202(a)(6)(v) of this chapter must remain on the tuna until the tuna is cut into portions. If the tuna or tuna parts subsequently are packaged for transport for domestic commercial use or for export, the tag number must be written legibly and indelibly on the outside of any package or container.

(e) Reuse. Tags issued under this section are separately numbered and may be used only once, one tail tag per fish, to distinguish the purchase of one Pacific bluefin tuna. Once affixed to a tuna or recorded on any package, container or report, a tail tag and associated number may not be reused.

§ 300.27 Pacific bluefin tuna—Documentation requirements.

Bluefin tuna imported into, or exported or re-exported from the customs territory of the United States is subject to the documentation requirements specified in part 285 of this chapter (§§ 285.200–285.203).

§ 300.28 Pacific bluefin tuna—Prohibitions.

In addition to the prohibitions in § 300.4, it is unlawful for any person or vessel subject to the jurisdiction of the United States to:

(a) Import Pacific bluefin tuna or purchase or receive for export Pacific bluefin tuna first landed in the United States without a valid dealer permit issued under § 300.24.

(b) Remove any NMFS-issued tag affixed to any Pacific bluefin tuna at the option of any permitted dealer or any
§ 300.30 Purpose and scope.

This subpart implements the South Pacific Tuna Act of 1988 (Act) and the Treaty on Fisheries Between the Governments of Certain Pacific Island States and the Government of the United States of America (Treaty) and applies to persons and vessels subject to the jurisdiction of the United States.

§ 300.31 Definitions.

In addition to the terms defined in § 300.2, in the Act, and in the Treaty, and unless the context requires otherwise, the terms used in this subpart have the following meanings. If a term is defined differently in § 300.2, the Act, or the Treaty, the definition in this section shall apply.

Administrator means the individual or organization designated by the Pacific Island Parties to act on their behalf under the Treaty and notified to the United States.

Applicable national law means any provision of law of a Pacific Island Party that is described in paragraph 1(a) of Annex I of the Treaty.

Authorized inspector means any individual authorized by a Pacific Island Party or the Secretary to conduct inspections, to remove samples of fish, and to gather any other information relating to fisheries in the Licensing Area.

Authorized officer means any officer who is authorized by the Secretary, or the Secretary of Transportation, or the head of any Federal or state agency that has entered into an enforcement agreement with the Secretary under section 10(a) of the Act.

Authorized party officer means any officer authorized by a Pacific Island Party to enforce the provisions of the Treaty.

Closed area means any of the closed areas identified in Schedule 2 of Annex I of the Treaty.

Fishing means searching for, catching, taking, or harvesting fish; attempting to search for, catch, take, or harvest fish; engaging in any other activity that can reasonably be expected to result in the locating, catching, taking, or harvesting of fish; placing, searching for, or recovering fish aggregating devices or associated electronic equipment such as radio beacons; any operations at sea directly in support of, or in preparation for, any activity described in this paragraph; or aircraft use, relating to the activities described in this definition, except for flights in emergencies involving the health or safety of crew members or the safety of a vessel.

Fishing arrangement means an arrangement between a Pacific Island Party and the owner of a U.S. fishing vessel that complies with section 6(b) of the Act.

Fishing vessel or vessel means any boat, ship, or other craft that is used for, equipped to be used for, or of a type normally used for commercial fishing, and that is documented under the laws of the United States.

Licensing Area means all waters in the Treaty Area except for:

1. Those waters subject to the jurisdiction of the United States in accordance with international law.
2. Those waters within closed areas.
3. Those waters within limited areas closed to fishing.

Licensing period means the period of validity of licenses issued in accordance with the Treaty.

Limited area(s) means those areas so identified in Schedule 3 of Annex I of the Treaty.

Operator means any person who is in charge of, directs or controls a vessel.
including the owner, charterer and master.

Pacific Island Party means a Pacific island nation that is a party to the Treaty.

Regional Director means the Director, Southwest Region, or a designee.

Transship means to unload any or all of the fish on board a licensed vessel either ashore or onto another vessel.

Treaty Area means the area described in paragraph 1(k) of Article I of the Treaty.

§ 300.32 Vessel licenses.

(a) Each vessel fishing in the Licensing Area must have a license issued by the Administrator for the licensing period being fished, unless excepted by § 300.39. Each licensing period begins on June 15 and ends on June 14 of the following year.

(b) Upon receipt, the license or a duly certified copy, facsimile or telex confirmation must be carried on board the vessel when in the Licensing Area or Closed Areas and must be produced at the request of authorized officers, authorized party officers, or authorized inspectors. Prior to receipt of the license, but after issuance, a vessel may be used to fish, provided the number of the issued license is available on board.

(c) Application forms for licenses to use a vessel to fish in the Licensing Area may be requested from, and upon completion, must be returned to, the Regional Director. All of the information requested on the form and the following must be supplied before the application will be considered complete:

(1) The licensing period for which the license is requested.

(2) The name of an agent, located in Port Moresby, Papua New Guinea, who, on behalf of the license holder, will receive and respond to any legal process issued in accordance with the Treaty.

(3) Documentation from an insurance company showing that the vessel will be fully insured for the licensing period against all risks and liabilities normally covered by maritime liability insurance.

(4) If the owner or charterer is the subject of proceedings under the bankruptcy laws of the United States, reasonable assurances that the owner of charterer will be financially able to fulfill any and all responsibilities under the Treaty, Act, and regulations, including the payment of any penalties or fines.

(5) A copy of the vessel’s USCG Certificate of Documentation.

(d) The number of available licenses are set forth in Schedule 2 of Annex II of the Treaty.

(e) Applications for vessels may be submitted at any time; complete applications will be forwarded to the Secretary of State for transmittal to the Administrator.

(f) The Secretary, in consultation with the Secretary of State, may determine that a license application for a vessel should not be forwarded to the Administrator if:

(1) The application is not in accord with the Treaty, Act, or regulations;

(2) The owner or charterer is the subject of proceedings under the bankruptcy laws of the United States, and reasonable financial assurances have not been provided to the Secretary that the owner or charterer will be financially able to fulfill any and all responsibilities under the Treaty, Act, and regulations, including the payment of any penalties or fines;

(3) The owner or charterer has not established to the satisfaction of the Secretary that the vessel will be fully insured for the licensing period against all risks and liabilities normally covered by maritime liability insurance; or

(4) The owner or charterer has not paid any final penalty assessed by the Secretary in accordance with the Act.

(g) An applicant will be promptly notified if that applicant’s license application will not be forwarded to the Administrator, and of the reasons therefor. Within 15 days of notification by the Regional Director that the application will not be forwarded, an applicant may request reconsideration by providing a petition for reconsideration accompanied by new or additional information.

§ 300.33 Compliance with applicable national laws.

The operator of the vessel shall comply with each of the applicable national laws, and the operator of the
§ 300.34 Reporting requirements.
(a) License holders shall comply with the reporting requirements of parts 4 and 5 of Annex I to the Treaty.
(b) Information provided by license holders under Schedule 5 of Annex I of the Treaty shall be provided on the designated Forum Fisheries Agency form(s) to the Regional Director within 2 days of reaching port.
(c) Information provided by license holders under Schedule 6 of Annex I of the Treaty shall be provided on the designated Forum Fisheries Agency form(s) to the Regional Director within 2 days of completing unloading.
(d) Any information required to be recorded, or to be notified, communicated or reported pursuant to a requirement of these regulations, the Act, or the Treaty shall be true, complete and correct. Any change in circumstances that has the effect of rendering any of the information provided false, incomplete or misleading shall be communicated immediately to the Regional Director.

§ 300.35 Vessel and gear identification.
While a vessel is in the Licensing Area, a Limited Area closed to fishing, or a Closed Area, a recent and up-to-date copy of the International Code of Signals (INTERCO) shall be on board and accessible at all times. The operator shall comply with the 1999 Food and Agricultural Organization standard specifications for the marking and identification of fishing vessels. The international radio call sign of the vessel shall be painted in white on a black background, or in black on a white background, and be clear, distinct, and uncovered, in the following manner:
(a) On both sides of the vessel’s hull or superstructure, with each letter and number being at least 1 m high and having a stroke width of 16.7 cm, with the background extending to provide a border around the mark of not less than 16.7 cm.
(b) On the vessel’s deck, on the body of any helicopter and on the hull of any skiff, with each letter and number being at least 30 cm high, and having a stroke width of 5 cm with the background extending to provide a border around the mark of not less than 5 cm.
(c) On any other equipment being carried by and intended to be separated from the vessel during normal fishing operations, with each letter and number being at least 10 cm high and having a stroke width of 1.7 cm, with the background extending to provide a border around the mark of not less than 1.7 cm.

§ 300.36 Closed area stowage requirements.
At all times while a vessel is in a Closed Area, the fishing gear of the vessel shall be stowed in a manner as not to be readily available for fishing. In particular, the boom shall be lowered as far as possible so that the vessel cannot be used for fishing, but so that the skiff is accessible for use in emergency situations; the helicopter, if any shall be tied down; and launches shall be secured.

§ 300.37 Radio monitoring.
The international distress frequency, 2.182 mHz, and 156.8 mHz (Channel 16, VHF) shall be monitored continuously from the vessel for the purpose of facilitating communication with the fisheries management, surveillance and enforcement authorities of the Parties.

§ 300.38 Prohibitions.
(a) Except as provided for in § 300.39, in addition to the prohibitions in § 300.4, it is unlawful for any person subject to the jurisdiction of the United States to do any of the following:
(1) To violate the Act or any provision of any regulation or order issued pursuant to Act.
(2) To use a vessel for fishing in violation of an applicable national law.
(3) To violate the terms and conditions of any fishing arrangement to which that person is a party.
(4) To use a vessel for fishing in a Limited Area in violation of the requirements set forth in Schedule 3 of Annex I of the Treaty on “Limited Areas”. 
(5) To use a vessel for fishing in any Closed Area.

(6) To refuse to permit any authorized officer or authorized party officer to board a fishing vessel for purpose of conducting a search or inspection in connection with the enforcement of the Act or the Treaty.

(7) To refuse to comply with the instructions of an authorized officer or authorized party officer relating to fishing activities under the Treaty.

(8) To refuse to permit an authorized inspector full access to any place where fish taken in the Licensing Area is unloaded.

(9) To refuse to allow an authorized inspector to remove samples of fish from a vessel that fished in the Licensing Area.

(10) To forcibly assault, resist, oppose, impede, intimidate, or interfere with:

(i) Any authorized officer, authorized party officer or authorized inspector in the conduct of a search or inspection in connection with the enforcement of these regulations, the Act or the Treaty; or

(ii) An observer in the conduct of observer duties under the Treaty.

(11) To transship fish on board a vessel that fished in the Licensing Area, except in accordance with the conditions set out in parts 3 and 4 of Annex I to the Treaty.

(12) To use a vessel to fish in a manner inconsistent with an order issued by the Secretary under §300.42 (section 11 of the Act).

(7) Except for circumstances involving force majeure and other emergencies involving the health or safety of crew members or the safety of the vessel, to use aircraft in association with fishing activities of a vessel, unless it is identified on the license application for the vessel, or any amendment thereto.

§300.39 Exceptions.

(a) The prohibitions of §300.38 and the licensing requirements of §300.32 do not apply to fishing for albacore tuna by vessels using the trolling method outside of the 200 nautical mile fisheries zones of the Pacific Island Parties.

(b) The prohibitions of §300.38(a)(4), (a)(5), and (b)(3) do not apply to fishing under the terms and conditions of a fishing arrangement.

§300.40 Civil penalties.

The procedures of 15 CFR part 904 apply to the assessment of civil penalties, except as modified by the requirements of section 8 of the Act.

§300.41 Investigation notification.

Upon commencement of an investigation under section 10(b)(1) of the Act, the operator of any vessel concerned shall have 30 days after receipt of notification of the investigation and the operator’s rights under section 10(b)(1) to submit comments, information, or evidence bearing on the investigation, and to request in writing that the Secretary provide the operator an opportunity to present the comments, information, or evidence orally to the Secretary or the Secretary’s representative.

§300.42 Findings leading to removal from fishing area.

(a) Following an investigation conducted under section 10(b) of the Act, the Secretary, with the concurrence of the Secretary of State, and upon the request of the Pacific Island Party concerned, may order a fishing vessel that has not submitted to the jurisdiction of

Int'l. Fishing and Related Activities § 300.42

(5) To use a vessel for fishing in any Closed Area.

(6) To refuse to permit any authorized officer or authorized party officer to board a fishing vessel for purpose of conducting a search or inspection in connection with the enforcement of the Act or the Treaty.

(7) To refuse to comply with the instructions of an authorized officer or authorized party officer relating to fishing activities under the Treaty.

(8) To refuse to permit an authorized inspector full access to any place where fish taken in the Licensing Area is unloaded.

(9) To refuse to allow an authorized inspector to remove samples of fish from a vessel that fished in the Licensing Area.

(10) To forcibly assault, resist, oppose, impede, intimidate, or interfere with:

(i) Any authorized officer, authorized party officer or authorized inspector in the conduct of a search or inspection in connection with the enforcement of these regulations, the Act or the Treaty; or

(ii) An observer in the conduct of observer duties under the Treaty.

(11) To transship fish on board a vessel that fished in the Licensing Area, except in accordance with the conditions set out in parts 3 and 4 of Annex I to the Treaty.

(12) To use a vessel to fish in a manner inconsistent with an order issued by the Secretary under §300.42 (section 11 of the Act).

(7) Except for circumstances involving force majeure and other emergencies involving the health or safety of crew members or the safety of the vessel, to use aircraft in association with fishing activities of a vessel, unless it is identified on the license application for the vessel, or any amendment thereto.

§300.39 Exceptions.

(a) The prohibitions of §300.38 and the licensing requirements of §300.32 do not apply to fishing for albacore tuna by vessels using the trolling method outside of the 200 nautical mile fisheries zones of the Pacific Island Parties.

(b) The prohibitions of §300.38(a)(4), (a)(5), and (b)(3) do not apply to fishing under the terms and conditions of a fishing arrangement.

§300.40 Civil penalties.

The procedures of 15 CFR part 904 apply to the assessment of civil penalties, except as modified by the requirements of section 8 of the Act.

§300.41 Investigation notification.

Upon commencement of an investigation under section 10(b)(1) of the Act, the operator of any vessel concerned shall have 30 days after receipt of notification of the investigation and the operator’s rights under section 10(b)(1) to submit comments, information, or evidence bearing on the investigation, and to request in writing that the Secretary provide the operator an opportunity to present the comments, information, or evidence orally to the Secretary or the Secretary’s representative.

§300.42 Findings leading to removal from fishing area.

(a) Following an investigation conducted under section 10(b) of the Act, the Secretary, with the concurrence of the Secretary of State, and upon the request of the Pacific Island Party concerned, may order a fishing vessel that has not submitted to the jurisdiction of
§ 300.43  Observers.
(a) The operator and each member of the crew of a vessel shall allow and assist any person identified as an observer under the Treaty by the Pacific Island Parties:
(1) To board the vessel for scientific, compliance, monitoring and other functions at the point and time notified by the Pacific Island Parties to the Secretary.
(2) Without interfering unduly with the lawful operation of the vessel, to have full access to and use of facilities and equipment on board the vessel that the observer may determine are necessary to carry out observer duties; have full access to the bridge, fish on board, and areas that may be used to hold, process, weigh and store fish; remove samples; have full access to vessel’s records, including its log and documentation for the purpose of inspection and copying; have reasonable access to navigation equipment, charts, and radios, and gather any other information relating to fisheries in the Licensing Area.
(3) To disembark at the point and time notified by the Pacific Island Parties to the Secretary.
(4) To carry out observer duties safely.
(b) The operator shall provide the observer, while on board the vessel, at no expense to the Pacific Island Parties, with food, accommodation and medical facilities of reasonable standard as may be acceptable to the Pacific Island Party whose representative is serving as the observer.

§ 300.44  Other inspections.
The operator and each member of the crew of any vessel from which any fish taken in the Licensing Area is unloaded or transshipped shall allow, or arrange for, and assist any authorized inspector, authorized party officer, or authorized officer to have full access to any place where the fish is unloaded or transshipped, to remove samples, to have full access to the vessel’s records, including its log and documentation for the purpose of inspection and
photocopying, and to gather any other information relating to fisheries in the Licensing Area without interfering un-
duly with the lawful operation of the vessel.

**Subpart E—Pacific Halibut Fisheries**

**AUTHORITY:** 16 U.S.C. 773–773k.

§ 300.60 Purpose and scope.

This subpart implements the North Pacific Halibut Act of 1982 (Act) and is intended to supplement, not conflict with, the annual fishery management measures adopted by the International Pacific Halibut Commission (Commission) under the Convention between the United States and Canada for the Preservation of the Halibut Fishery of the Northern Pacific Ocean and Bering Sea (Convention).

§ 300.61 Definitions.

In addition to the terms defined in §300.2 and those in the Act and the Convention, the terms used in this subpart have the following meanings. If a term is defined differently in §300.2, the Act, or the Convention, the definition in this section shall apply.

**Area 2A** includes all waters off the States of California, Oregon, and Washington.

Commercial fishing means fishing, the resulting catch of which either is, or is intended to be, sold or bartered.

Person includes an individual, corporation, firm, or association.

**Subarea 2A±1** includes all U.S. waters off the coast of Washington that are north of 46°53′18″ N. lat. and east of 125°44′00″ W. long., and all inland marine waters of Washington.

Treaty Indian tribes means the Hoh, Jamestown S’Klallam, Lower Elwha S’Klallam, Lummi, Makah, Port Gamble S’Klallam, Quileute, Quinault, Skokomish, Suquamish, Swinomish, and Tulalip tribes.

§ 300.62 Annual management measures.

Annual management measures may be added and modified through adoption by the Commission and publication in the Federal Register by the Assistant Administrator, with immediate regulatory effect. Such measures may include, inter alia, provisions governing: Licensing of vessels, inseason actions, regulatory areas, fishing periods, closed periods, closed areas, catch limits (quotas), fishing period limits, size limits, careful release of halibut, vessel clearances, logs, receipt and possession of halibut, fishing gear, retention of tagged halibut, supervision of unloading and weighing, and sport fishing for halibut. The Assistant Administrator will publish the Commission’s regulations setting forth annual management measures in the Federal Register by March 15 each year. Annual management measures may be adjusted inseason by the Commission.

§ 300.63 Catch sharing plans and domestic management measures.

Catch sharing plans (CSP) may be developed by the appropriate regional fishery management council, and approved by NMFS, for portions of the fishery. Any approved catch sharing plan may be obtained from the Director, Northwest Region, or the Director, Alaska Region.

(a) The catch sharing plan for area 2A provides a framework that shall be applied to the annual Area 2A total allowable catch (TAC) adopted by the Commission, and shall be implemented through domestic and Commission regulations, which will be published in the Federal Register each year before March 15. The Area 2A CSP allocates halibut among the treaty Indian fishery, segments of the non-Indian commercial fishery, and segments of the recreational fishery.

(1) Each year, before January 1, NMFS will publish a proposal to govern the recreational fishery under the CSP for the following year and will seek public comment. The comment period will extend until after the Commission’s annual meeting, so the public will have the opportunity to consider the final area 2A total allowable catch (TAC) before submitting comments. After the Commission’s annual meeting and review of public comments, NMFS will publish in the Federal Register the final rule governing sport fishing in area 2A. Annual management measures may be adjusted inseason by NMFS.
§ 300.64 Fishing by U.S. treaty Indian tribes.

(a) Halibut fishing in subarea 2A-1 by members of U.S. treaty Indian tribes located in the State of Washington is governed by this section.

(b) Commercial fishing for halibut by treaty Indians is permitted only in subarea 2A-1 with hook-and-line gear in conformance with the season and quota established annually by the Commission.

(c) Commercial fishery in subarea 2A is governed by the annual management measures published pursuant to §§ 300.62 and 300.63.

(d) The fisheries are governed by the Commission's management measures and the annual salmon management measures.

(e) Commercial fishing for halibut by treaty Indians shall comply with the Commission's management measures.

(f) Commercial fishing for halibut by treaty Indians shall comply with the Commission's management measures.

(g) The following table sets forth the fishing areas of each of the 12 treaty Indian tribes fishing pursuant to this section. Within subarea 2A-1, boundaries of a tribe's fishing area may be revised as ordered by a Federal Court.

<table>

§ 300.90 Purpose and scope.

This subpart implements the Pacific Salmon Treaty Act of 1985 (16 U.S.C. 3631–3644) (Act) and is intended to supplement, not conflict with, the fishery regimes and Fraser River Panel regulations adopted under the Treaty between the Government of the United States of America and the Government of Canada Concerning Pacific Salmon, signed at Ottawa, January 28, 1985 (Treaty).

§ 300.91 Definitions.

In addition to the terms defined in §300.2 and those in the Act and the Treaty, the terms used in this subpart have the following meanings. If a term is defined differently in §300.2, the Act, or the Treaty, the definition in this section shall apply.

All-citizen means any person who is not a treaty Indian fishing in that treaty Indian's tribal treaty fishing places pursuant to treaty Indian tribal
fishing regulations (whether in compliance with such regulations or not).

Authorized officer means, in addition to those individuals identified under authorized officer at §300.2, any state, Federal, or other officer as may be authorized by the Secretary in writing, including any treaty Indian tribal enforcement officer authorized to enforce tribal fishing regulations.

Commission means the Pacific Salmon Commission established by the Pacific Salmon Treaty.

Consistent regulation or consistent order means any Federal, state, or treaty Indian tribal regulation or order that is in addition to and not in conflict with (at least as restrictive as) any regime of the Commission, Fraser River Panel regulation, inseason order of the Secretary, or these regulations.

Fishing gear—
(1) Gill net means a fishing net of single web construction, not anchored, tied, staked, placed, or weighted in such a manner that it cannot drift.

(2) Purse seine means all types of fishing gear consisting of a lead line, cork line, auxiliary lines, purse line and purse rings and of mesh net webbing fashioned in such a manner that it is used to encircle fish, and in addition prevent their escape under the bottom or lead line of the net by drawing in the bottom of the net by means of the purse line so that it forms a closed bag.

(3) Reef net means a non-self-fishing open bunt square or rectangular section of mesh netting suspended between two anchored boats fashioned in such a manner that to impound salmon passing over the net, the net must be raised to the surface.

(4) Troll fishing gear means one or more lines that drag hooks with bait or lures behind a moving fishing vessel.

(5) Treaty Indian fishing gear means fishing gear defined authorized, and identified under treaty Indian tribal laws and regulations in accordance with the requirements of Final Decision No. 1 and subsequent orders in United States v. Washington, 384 F. Supp. 312 (W.D. Wash., 1974).

Fraser River Panel means the Fraser River Panel established by the Pacific Salmon Treaty.

Fraser River Panel Area (U.S.) means the United States' portion of the Fraser River Panel Area specified in Annex II of the Treaty as follows:

(1) The territorial water and the high seas westward from the western coast of Canada and the United States of America and from a direct line drawn from Bonilla Point, Vancouver Island, to the lighthouse of Tatoosh Island, Washington—which line marks the entrance of Juan de Fuca Strait—and embraced between 48° and 49° N. lat., excepting therefrom, however, all the waters of Barkley Sound, eastward of a straight line drawn from Bonilla Point to Cape Beale and all the waters of Nitinat Lake and the entrance thereto.

(2) The waters included within the following boundaries: Beginning at Bonilla Point, Vancouver Island, thence along the aforesaid direct line drawn from Bonilla Point to Tatoosh Lighthouse, Washington, described in paragraph (1) of this definition, thence to the nearest point of Cape Flattery, thence following the southerly shore of Juan de Fuca Strait to Point Wilson, on Whidbey Island, thence following the western shore of the said Whidbey Island, to the entrance to Deception Pass, thence across said entrance to the southern side of Reservation Bay, on Fidalgo Island, thence following the western and northern shore line of the said Fidalgo Island to Swinomish Slough, crossing the said Swinomish Slough, in line with the track of the Great Northern Railway (Burlington Northern Railroad), thence northerly following the shoreline of the mainland to Atkinson Point at the northerly entrance to Burrard Inlet, British Columbia, thence in a straight line to the southern end of Bowen Island, then westerly following the southern shore of Bowen Island to Cape Roger Curtis, thence in a straight line to Gower Point, thence westerly following the shoreline to Welcome Point on Sechelt Peninsula, thence in a straight line to Point Young on Lasqueti Island, thence in a straight line to Dorcas Point on Vancouver Island, thence following the eastern and southern shores of the said Vancouver Island, to the starting point at Bonilla Point, as shown on the British Admiralty Chart Number 579, and on the U.S. Coast and Geodetic Survey Chart Number 6300,
corrected to March 14, 1930, copies of which are annexed to the 1930 Convention between Canada and the United States of America for Protection, Preservation, and Extension of the Sockeye Salmon Fishery in the Fraser River System as amended, signed May 26, 1930. [Note: U.S. Coast and Geodetic Survey Chart Number 6300 has been replaced and updated by NOAA Chart Number 18400.]

(3) The Fraser River and the streams and lakes tributary thereto.

(4) The Fraser River Panel Area (U.S.) includes Puget Sound Management and Catch Reporting Areas 4B, 5, 6, 6A, 6B, 6C, 6D, 7, 7A, 7B, 7C, 7D, and 7E as defined in the Washington State Administrative Code at Chapter 220-22 as of June 27, 1986.

Fraser River Panel regulations means regulations applicable to the Fraser River Panel Area that are recommended by the Commission (on the basis of proposals made by the Fraser River Panel) and approved by the Secretary of State.

Mesh size means the distance between the inside of one knot to the outside of the opposite (vertical) knot in one mesh of a net.

Pink salmon means *Oncorhynchus gorbuscha.*

Sockeye salmon means the anadromous form of *Oncorhynchus nerka.*

Treaty fishing places (of an Indian tribe) means locations within the Fraser River Panel Area (U.S.) as determined in or in accordance with Final Decision No. 1 and subsequent orders in United States v. Washington, 394 F. Supp. 312 (W.D. Wash. 1974), to be places at which that treaty Indian tribe may take fish under rights secured by treaty with the United States.

Treaty Indian means any member of a treaty Indian tribe whose treaty fishing place is in the Fraser River Panel Area (U.S.) or any assistant to a treaty Indian authorized to assist in accordance with §300.95(d).

Treaty Indian tribe means any of the federally recognized Indian tribes of the State of Washington having fishing rights secured by treaty with the United States to fish for salmon stocks subject to the Pacific Salmon Treaty in treaty fishing places within the Fraser River Panel Area (U.S.). Currently these tribes are the Makah, Tribe, Lower Elwha Klallam Tribe, Port Gamble Klallam Tribe, Jamestown Klallam Tribe, Suquamish Tribe, Lummi Tribe, Nooksack Tribe, the Swinomish Indian Tribal Community, and the Tulalip Tribe.

§ 300.92 Relation to other laws.

(a) Insofar as they are consistent with this part, any other applicable Federal law or regulation, or any applicable law and regulations of the State of Washington or of a treaty Indian tribe with treaty fishing rights in the Fraser River Panel Area (U.S.) will continue to have force and effect in the Fraser River Panel Area (U.S.) with respect to fishing activities addressed herein.

(b) Any person fishing subject to this subpart is bound by the international boundaries now recognized by the United States within the Fraser River Panel Area (U.S.) described in §300.91, notwithstanding any dispute or negotiation between the United States and Canada regarding their respective jurisdictions, until such time as different boundaries are published by the United States.

(c) Any person fishing in the Fraser River Panel Area (U.S.) who also fishes for groundfish in the EEZ should consult Federal regulations at part 663 of this title for applicable requirements, including the requirement that vessels engaged in commercial fishing for groundfish (except commercial passenger vessels) have vessel identification in accordance with §663.6. Federal regulations governing salmon fishing in the EEZ, which includes a portion of the Fraser River Panel Area (U.S.), are at part 661 of this title. Annual regulatory modifications are published in the Federal Register.

(d) Except as otherwise provided in this subpart, general provisions governing off-reservation fishing by treaty Indians are found at 25 CFR part 249, subpart A. Additional general and specific provisions governing treaty Indian fisheries are found in regulations and laws promulgated by each treaty Indian tribe for fishermen fishing pursuant to tribal authorization.
§ 300.93 Reporting requirements.

Any person fishing for sockeye or pink salmon within the Fraser River Panel Area (U.S.) and any person receiving or purchasing fish caught by such persons are subject to State of Washington reporting requirements at Washington Administrative Code, Chapter 220-69. Treaty Indian fishermen are subject also to tribal reporting requirements. No separate Federal reports are required.

§ 300.94 Prohibitions and restrictions.

In addition to the prohibitions in §300.4, the following prohibitions and restrictions apply.

(a) In addition to the prohibited acts set forth in the Act at 16 U.S.C. 3637(a), the following restrictions apply to sockeye and pink salmon fishing in the Fraser River Panel Area (U.S.):

(1) The Fraser River Panel Area (U.S.) is closed to sockeye and pink salmon fishing, unless opened by Fraser River Panel regulations or by inseason orders of the Secretary issued under §300.97 that give effect to orders of the Fraser River Panel, unless such orders are determined not to be consistent with domestic legal obligations. Such regulations and inseason orders may be further implemented by regulations promulgated by the United States, the State of Washington, or any treaty Indian tribe, which are also consistent with domestic legal obligations.

(2) It is unlawful for any person or fishing vessel subject to the jurisdiction of the United States to—

(i) Remove the head of any sockeye or pink salmon caught in the Fraser River Panel Area (U.S.), or possess a salmon with the head removed, if that salmon has been marked by removal of the adipose fin to indicate that a coded wire tag has been implanted in the head of the fish.

(ii) Fail to permit an authorized officer to inspect a record or report required by the State of Washington or treaty Indian tribal authority.

(b) Notwithstanding paragraph (a) of this section, nothing in this subpart will be construed to prohibit the retention of sockeye or pink salmon caught by any person while lawfully engaged in a fishery for subsistence or ceremonial purposes pursuant to treaty Indian tribal regulations, for recreational purposes pursuant to recreational fishing regulations promulgated by the State of Washington, or as otherwise authorized by treaty Indian tribal or State of Washington law or regulation, provided that such treaty Indian tribal or State regulation is consistent with U.S.-approved Commission fishery regimes, Fraser River Panel regulations, or inseason orders of the Secretary applicable to fishing in the Fraser River Panel Area (U.S.).

(d) The following types of fishing gear are authorized, subject to the restrictions set forth in this subpart and according to the times and areas established by Fraser River Panel regulations or inseason orders of the Secretary:

(1) All citizens: Gill net, purse seine, reef net, and troll fishing gear. Specific restrictions on all citizens gear are contained in the Washington State Administrative Code of Chapter 220-47.

(2) Treaty Indians: Treaty Indian fishing gear.

(e) Geographic descriptions of Puget Sound Salmon Management and Catch Reporting Areas, which are referenced in the Commission’s regimes, Fraser River Panel regulations, and in
§ 300.95 Treaty Indian fisheries.

(a) Any treaty Indian must comply with this section when fishing for sockeye and pink salmon at the treaty Indian tribe's treaty fishing places in the Fraser River Panel Area (U.S.) during the time the Commission or the Secretary exercises jurisdiction over these fisheries. Fishing by a treaty Indian outside the applicable Indian tribe's treaty fishing places will be subject to the Fraser River Panel regulations and inseason orders applicable to all citizens, as well as to the restrictions set forth in this section.

(b) Nothing in this section will relieve a treaty Indian from any applicable law or regulation imposed by a treaty Indian tribe, or from requirements lawfully imposed by the United States or the State of Washington in accordance with the requirements of Final Decision No. 1 and subsequent orders in United States v. Washington, 384 F. Supp. 312 (W.D. Wash., 1974).

(c) Identification. (1) Any treaty Indian fishing under the authority of this subpart must have in his or her possession at all times while fishing or engaged in any activity related to fishing the treaty Indian identification required by 25 CFR 249.3 or by applicable tribal law.

(2) Any person assisting a treaty Indian under the authority of paragraph (d) of this section must have in his or her possession at all such times a valid identification card issued by the Bureau of Indian Affairs or by a treaty Indian tribe, identifying the holder as a person qualified to assist a treaty Indian. The identification card must include the name of the issuing tribe, the name, address, date of birth, and photograph of the assistant, and the name and identification number of the treaty Indian whom the assistant is authorized to assist.

(3) Identification described in paragraph (c) (1) or (2) of this section must be shown on demand to an authorized officer by the treaty Indian or authorized assistant.

(d) Fishing assistance. (1) Any member of a treaty Indian tribe fishing under this subpart may, if authorized by the treaty Indian's tribe, receive fishing assistance from, and only from, the treaty Indian tribal member's spouse, forebears, children, grandchildren, and siblings, as authorized by the U.S. District Court for the Western District of Washington in United States v. Washington, 384 F. Supp. 312 (W.D. Wash., 1974). For purposes of this section, the treaty Indian tribal member whom the assistant is authorized to assist must be present aboard the fishing vessel at all times while engaged in the exercise of treaty Indian fishing rights subject to this subpart.

(2) No treaty Indian may, while fishing at a treaty fishing place in accordance with treaty-secured fishing rights, permit any person 16 years of age or older other than the authorized holder of a currently valid identification card issued in accordance with the requirements of paragraphs (c) (1) and (2) of this section to fish for said treaty Indian, assist said treaty Indian in fishing, or use any gear or fishing location identified as said treaty Indian's gear or location.

(3) Treaty Indians are prohibited from participating in a treaty Indian fishery under this section at any time persons who are not treaty Indians are aboard the fishing vessel or in contact with fishing gear operated from the fishing vessel, unless such persons are authorized employees or officers of a treaty Indian tribe or tribal fisheries management organization, the Northwest Indian Fisheries Commission, the Commission, or a fisheries management agency of the United States or the State of Washington.

§ 300.96 Penalties.

Any treaty Indian who commits any act that is unlawful under this subpart normally will be referred to the applicable tribe for prosecution and punishment. If such tribe fails to prosecute such persons in a diligent manner for the offense(s) referred to the tribe, or if
§ 300.97 Inseason orders.

(a) During the fishing season, the Secretary may issue orders that establish fishing times and areas consistent with the annual Commission regime and inseason orders of the Fraser River Panel. Inseason orders will be consistent with domestic legal obligations. Violation of such inseason orders is violation of this subpart.

(b) Notice of inseason orders. (1) Official notice of such inseason orders is available from NMFS (for orders applicable to all-citizen fisheries) and from the Northwest Indian Fisheries Commission (for orders applicable to treaty Indian fisheries) through the following Area Code 206 toll-free telephone hotlines: All-citizen fisheries: 1-800-562-6513; Treaty Indian fisheries: 1-800-562-6142.

(2) Notice of inseason orders of the Secretary and other applicable tribal regulations may be published and released according to tribal procedures in accordance with Final Decision No. 1 and subsequent orders in United States v. Washington, 384 F. Supp. 312 (W.D. Wash., 1974).

(3) Inseason orders may also be communicated through news releases to radio and television stations and newspapers in the Fraser River Panel Area (U.S.).

(4) Inseason orders of the Secretary will also be published in the Federal Register as soon as practicable after they are issued.

Subpart G—Antarctic Marine Living Resources

Authority: 16 U.S.C. 2431 et seq.

§ 300.100 Purpose and scope.

(a) This subpart implements the Antarctic Marine Living Resources Convention Act of 1984 (Act).

(b) This subpart regulates—

(1) The harvesting of Antarctic marine living resources or other associated activities by any person subject to the jurisdiction of the United States or by any vessel of the United States.

(2) The importation into the United States of any Antarctic marine living resource.

§ 300.101 Definitions.

In addition to the terms defined in §300.2, in the Act, and in the Convention on the Conservation of Antarctic Marine Living Resources, done at Canberra, Australia, May 7, 1980 (Convention), the terms used in this subpart have the following meanings. If a term is defined differently in §300.2, such Act, or such Convention, the definition in this section shall apply.

Antarctic convergence means a line joining the following points along the parallels of latitude and meridians of longitude:

<table>
<thead>
<tr>
<th>Lat.</th>
<th>Long.</th>
</tr>
</thead>
<tbody>
<tr>
<td>50° S</td>
<td>0° E</td>
</tr>
<tr>
<td>50° S</td>
<td>30° E</td>
</tr>
<tr>
<td>45° S</td>
<td>30° E</td>
</tr>
<tr>
<td>45° S</td>

<tr>
<td>Chionodraco rastrospinosus</td>
<td>Ocellated icefish.</td>
</tr>
</tbody>
</table>

Antarctic marine living resources or AMLR(s) means the populations of finfish, mollusks, crustaceans, and all other species of living organisms, including birds, found south of the Antarctic Convergence, and their parts or products.
§ 300.103 Procedure for according protection to CCAMLR Ecosystem Monitoring Program Sites.

(a) General. (1) Any person subject to the jurisdiction of the United States must apply for and be granted an entry permit authorizing specific activities prior to entering a CCAMLR Ecosystem Monitoring Program (CEMP) Protected Site designated in accordance with the CCAMLR Conservation Measure describing the Procedures for According Protection for CEMP Sites.

(2) If a CEMP Protected Site is also a site specially protected under the Antarctic Treaty (or the Protocol on Environmental Protection to the Antarctic Treaty and its Annexes, when it enters into force), an applicant seeking to enter such a Protected Site must apply to the Director of the NSF for a permit under applicable provisions of the ACA or any superseding legislation. The permit granted by NSF shall constitute a joint CEMP/ACA Protected Site permit and any person holding such a permit must comply with the appropriate CEMP Protected Site Management Plan. In all other cases, an applicant are designated as scientific research activities by the Assistant Administrator.

§ 300.102 Relationship to other treaties, conventions, laws, and regulations.

(a) Other conventions and treaties to which the United States is a party and other Federal statutes and implementing regulations may impose additional restrictions on the harvesting and importation into the United States of AMLRs.

seeking a permit to enter a CEMP Protected Site must apply to the Assistant Administrator for a CEMP permit in accordance with the provisions of this section.

(b) Responsibility of CEMP permit holders and persons designated as agents under a CEMP permit. (1) The CEMP permit holder and person designated as agents under a CEMP permit are jointly and severally responsible for compliance with the Act, this subpart, and any permit issued under this subpart.

(2) The CEMP permit holder and agents designated under a CEMP permit are responsible for the acts of their employees and agents constituting violations, regardless of whether the specific acts were authorized or forbidden by the CEMP permit holder or agents, and regardless of knowledge concerning their occurrence.

(c) Prohibitions regarding the Antarctic Treaty System and other applicable treaties and statutes. Holders of permits to enter CEMP Protected Sites are not permitted to undertake any activities within a CEMP Protected Site that are not in compliance with the provisions of:

(1) The Antarctic Treaty, including the Agreed Measures for the Conservation of Antarctic Fauna and Flora (including the Protocol on the Environmental Protection to the Antarctic Treaty and its Annexes when it enters into force), as implemented under the ACA and any superseding legislation. (Persons interested in conducting activities subject to the Antarctic Treaty or the Protocol should contact the Office of Polar Programs, NSF).

(d) Prohibitions on takings. Permits issued under this section do not authorize any takings as defined in the applicable statutes and implementing regulations governing the activities of persons in Antarctica.

(e) Issuance criteria. Permits designated in this section may be issued by the Assistant Administrator upon a determination that:

(1) The specific activities meet the requirements of the Act.

(2) There is sufficient reason, established in the permit application, that the scientific purpose for the intended entry cannot be served elsewhere.

(3) The actions permitted will not violate any provisions or prohibitions of the Protected Site's Management Plan submitted in compliance with the CCAMLR Conservation Measure describing the Procedures for According Protection to CEMP Sites.

(f) Application process. An applicant seeking a CEMP permit from the Assistant Administrator to enter a CEMP Protected Site shall include the following in the application:

(1) A detailed justification that the scientific objectives of the applicant cannot be accomplished elsewhere and a description of how said objectives will be accomplished within the terms of the Protected Site's Management Plan.

(2) A statement signed by the applicant that the applicant has read and fully understands the provisions and prohibitions of the Protected Site's Management Plan. Prospective applicants may obtain copies of the relevant Management Plans and the CCAMLR Conservation Measure describing the Procedures for According Protection to CEMP Sites by requesting them from the Assistant Administrator.

(g) Conditions. CEMP permits issued under this section will contain special and general conditions including a condition that the permit holder shall submit a report describing the activities conducted under the permit within 30 days of the expiration of the CEMP permit.

(h) Duration. Permits issued under this section are valid for a period of 1 year. Applicants requesting a permit to reenter a Protected Site must include the report required by the general condition in the previously issued CEMP permit describing the activities conducted under authority of that permit.

(i) Transfer. CEMP permits are not transferable or assignable. A CEMP permit is valid only for the person to whom it is issued.

(j) Modification. (1) CEMP permits can be modified by submitting a request to the Assistant Administrator. Such requests shall specify:
§ 300.104

(i) The action proposed to be taken along with a summary of the reasons therefore.

(ii) The steps that the permit holder may take to demonstrate or achieve compliance with all lawful requirements.

(2) If a requested modification is not in compliance with the terms of the Protected Site’s Management Plan, the Assistant Administrator will treat the requested modification as an application for a new CEMP permit and so notify the holder. Modifications will be acted upon within 30 days of receipt. The CEMP permit holder must report to the Assistant Administrator any change in previously submitted information within 10 days of the change.

(3) Additional conditions and restrictions. The Assistant Administrator may revise the CEMP permit effective upon notification of the permit holder, to impose additional conditions and restrictions as necessary to achieve the purposes of the Convention, the Act and the CEMP Management Plan. The CEMP permit holder must, as soon as possible, notify any and all agents operating under the permit of any and all revisions or modifications to the permit.

(k) Revocation or suspension. CEMP permits may be revoked or suspended based upon information received by the Assistant Administrator and such revocation or suspension shall be effective upon notification to the permit holder.

(1) A CEMP permit may be revoked or suspended based on a violation of the permit, the Act, or this subpart.

(2) Failure to report a change in the information submitted in a CEMP permit application within 10 days of the change is a violation of this subpart and voids the application or permit, as applicable. Title 15 CFR part 904 governs permit sanctions under this subpart.

(l) Exceptions. Entry into a Protected Site described in this section is lawful if committed under emergency conditions to prevent the loss of human life, compromise human safety, prevent the loss of vessels or aircraft, or to prevent environmental damage.

(m) Protected sites. (1) Sites protected by the Antarctic Treaty and regulated under the ACA are listed at 45 CFR part 670 subparts G and H.

(2) The following sites have been identified as CEMP Protected Sites subject to the regulatory authority of the Act:

(i) Seal Islands, South Shetland Islands—The Seal Islands are composed of islands and skerries located approximately 7 km north of the northwest corner of Elephant Island, South Shetland Islands. The Seal Islands CEMP Protected Site includes the entire Seal Islands group, which is defined as Seal Island plus any land or rocks exposed at mean low tide within a distance of 5.5 km of the point of highest elevation on Seal Island. Seal Island is situated at 60°59′14″ S. lat., 55°23′04″ W. long.

(ii) Cape Shirreff and the San Telmo Islands. This designation takes effect on May 1, 1995. Cape Shirreff is a low, ice-free peninsula towards the western end of the north coast of Livingston Island, South Shetland Islands, situated at 62°29′ S. lat., 60°47′ W. long, between Barclay Bay and Hero Bay. San Telmo Island is the largest of a small group of ice-free rock islets, approximately 2 km west of Cape Shirreff. The boundaries of the Cape Shirreff CEMP Protected Site are identical to the boundaries of the Site of Special Scientific Interest No. 32, as specified by ATCM Recommendation XV–7. No manmade boundary markers indicate the limits of the SSSI or protected site. The boundaries are defined by natural features and include the entire area of the Cape Shirreff peninsula north of the glacier ice tongue margin, and most of the San Telmo Island group. For the purposes of the protected site, the entire area of Cape Shirreff and the San Telmo Island group is defined as any land or rocks exposed at mean low tide within the area delimited by the map of SSSI No. 32 and available from the Assistant Administrator.

§ 300.104 Scientific research.

(a) The management measures issued pursuant to the procedures at §300.111 do not apply to catches of less than 5 tons taken by any vessel for research purposes, unless otherwise indicated.

(b) Catches taken by any vessel for research purposes will be considered as part of any catch limit.
(c) The catch reporting procedure identified in management measures issued pursuant to the procedures at §300.111 applies whenever the catch within any 5-day reporting period exceeds 5 tons, unless more specific reporting requirements apply to the species being fished.

(d) Any person, organization or institution planning to use a vessel for research purposes, when the estimated catch is expected to be less than 50 tons, must provide the following vessel and research notification to the Assistant Administrator at least 2 months in advance of the planned research:

(1) Name and registration number of vessel.

(2) Division and subarea in which research is to be carried out.

(3) Estimated dates of entering and leaving CCAMLR Convention Area.

(4) Purposes of research.

(5) Fishing equipment to be used (bottom trawl, midwater trawl, longline, crab pots, other).

(e) The following measures apply to any person planning to use any vessel for research purposes, when the estimated catch is expected to be more than 50 tons:

(1) The person must use the CCAMLR Format for Reporting Plans for Finfish Surveys in the Convention Area when the Total Catch is Expected to be More Than 50 Tons to report the details of the research plan to the Assistant Administrator at least 7 months in advance of the planned starting date for the research. A copy of the format is available from the Assistant Administrator.

(2) The format requires:

(i) The name of the CCAMLR Member.

(ii) Survey details.

(iii) Description of the vessel.

(iv) Description of the fishing gear to be used.

(v) Description of acoustic gear to be used.

(vi) Survey design and methods of data analyses.

(vii) Data to be collected.

(3) A summary of the results of any research fishing subject to these provisions must be provided to the Assistant Administrator within 150 days of the completion of the research fishing and a full report must be provided within 11 months.

(4) Catch and effort data resulting from the research fishing must be reported to the Assistant Administrator using the CCAMLR C4 haul-by-haul reporting format for research vessels.

§ 300.105 Initiating a new fishery.

(a) A new fishery, for purposes of this section, is a fishery on a species using a particular method in a statistical subarea for which:

(1) Information on distribution, abundance, demography, potential yield and stock identity from comprehensive research/surveys or exploratory fishing has not been submitted to CCAMLR;

(2) Catch and effort data have never been submitted to CCAMLR; or

(3) Catch and effort data from the two most recent seasons in which fishing occurred have not been submitted to CCAMLR.

(b) An individual subject to these regulations intending to develop a new fishery shall notify the Assistant Administrator no later than July 1 of the year in which he or she intends to initiate the fishery and shall not initiate the fishery pending CCAMLR review.

(c) The notification shall be accompanied by information on:

(1) The nature of the proposed fishery, including target species, methods of fishing, proposed region and any minimum level of catches that would be required to develop a viable fishery.

(2) Biological information from comprehensive research/survey cruises, such as distribution, abundance, demographic data and information on stock identity.

(3) Details of dependent and associated species and the likelihood of them being affected by the proposed fishery.

(4) Information from other fisheries in the region or similar fisheries elsewhere that may assist in the valuation of potential yield.

§ 300.106 Exploratory fisheries.

(a) An exploratory fishery, for purposes of this section, is a fishery that was previously defined as a new fishery under §300.105.

(b) A fishery will continue to be classified as an exploratory fishery until sufficient information is available to:
§ 300.108 Vessel and gear identification.

(a) Vessel identification. (1) The operator of each harvesting vessel assigned an IRCS must display that call sign amidships on both the port and starboard sides of the deckhouse or hull, so that it is visible from an enforcement or inspection vessel, and on an appropriate weather deck so that it is visible from the air.

(2) The operator of each harvesting vessel not assigned an IRCS, such as a small trawler associated with a mothership or one of a pair of trawlers, must display the IRCS of the associated vessel, followed by a numerical suffix specific for the non-assigned vessel.

(3) The vessel identification must be in a color in contrast to the background and must be permanently affixed to the harvesting vessel in block roman alphabet letters and arabic numerals at least 1 m in height for harvesting vessels over 20 m in length, and at least 0.5 m in height for all other harvesting vessels.

(b) Navigational lights and shapes. Each harvesting vessel must display the lights and shapes prescribed by the International Regulations for Preventing Collisions at Sea, 1972 (TIAS 8587, and 1981 amendment TIAS 10672), for the activity in which the harvesting vessel is engaged (as described at 33 CFR part 81).

(c) Gear identification. (1) The operator of each harvesting vessel must ensure that all deployed fishing gear that is not physically and continuously attached to a harvesting vessel is clearly marked at the surface with a buoy displaying the vessel identification of the harvesting vessel (see paragraph (a) of this section) to which the gear belongs, a light visible for 2 miles at night in good visibility, and a radio buoy. Trawl codends passed from one vessel to another are considered continuously attached gear and do not have to be marked.

(2) The operator of each harvesting vessel must ensure that deployed longlines, strings of traps or pots, and gillnets are marked at the surface at each terminal end with a buoy displaying the vessel identification of the harvesting vessel to which the gear belongs (see paragraph (a) of this section), a light visible for 2 miles at night in good visibility, and a radio buoy.
§ 300.109 Gear disposal.

(a) The operator of a harvesting vessel may not dump overboard, jettison or otherwise discard any article or substance that may interfere with other fishing vessels or gear, or that may catch fish or cause damage to any marine resource, including marine mammals and birds, except in cases of emergency involving the safety of the ship or crew or as specifically authorized by communication from the appropriate USCG commander or authorized officer. These articles and substances include, but are not limited to, fishing gear, net scraps, bale straps, plastic bags, oil drums, petroleum containers, oil, toxic chemicals or any manmade items retrieved in a harvesting vessel’s gear.

(b) The operator of a harvesting vessel may not abandon fishing gear in Convention waters.

(c) The operator of a harvesting vessel must provide a copy of the CCAMLR information brochure “Marine Debris—A Potential Threat to Antarctic Marine Mammals” to each member of the crew of the harvesting vessel and must display copies of the CCAMLR placard “Avoidance of Incidental Mortality of Antarctic Marine Mammals” in the wheelhouse and crew quarters of the harvesting vessels. Copies of the brochure and placard will be provided to each holder of a harvesting permit by NMFS when issuing the permit.

§ 300.110 Mesh size.

(a) The use of pelagic and bottom trawls having the mesh size in any part of a trawl less than indicated is prohibited for any directed fishing for the following Antarctic finfishes:

1. Nototthenia rossii and Dissostichus eleginoides—120 mm.
2. Champsocephalus gunnari—90 mm.
3. Gobionotothen gibberifrons, Nototthenia kempi, and Lepidorhirus squamifrons—80 mm.

(b) Any means or device that would reduce the size or obstruct the opening of the meshes is prohibited.

(c) The following procedure will be used for determining compliance with mesh size requirements.

(1) Description of gauges. (i) Gauges for determining mesh sizes will be 2 mm thick, flat, of durable material and capable of retaining their shape. They may have either a series of parallel-edged sides connected by intermediate tapering edges with a taper of one to eight on each side, or only tapering edges with the taper defined above. They will have a hole at the narrowest extremity.

(ii) Each gauge will be inscribed on its face with the width in millimeters both on the parallel-sided section, if any, and on the tapering section. In the case of the latter, the width will be inscribed every 1 mm interval, but the indication of the width may appear at regular intervals other than 1 mm.

(2) Use of the gauge. (i) The net will be stretched in the direction of the long diagonal of the meshes.

(ii) A gauge as described in paragraph (c)(1) of this section will be inserted by its narrowest extremity into the mesh opening in the direction perpendicular to the plane of the net.

(iii) The gauge may be inserted into the mesh opening either with a manual force or using a weight or dynamometer, until it is stopped at the tapering edges by the resistance of the mesh.

(3) Selection of meshes to be measured. (i) Mesures to be measured will form a series of 20 consecutive meshes chosen in the direction of the long axis of the net, except that the meshes to be measured need not be consecutive if the application of paragraph (c)(3)(ii) of this section prevents it.
(ii) Meshes less than 50 cm from lacings, ropes, or codline will not be measured. This distance will be measured perpendicular to the lacings, ropes or codline with the net stretched in the direction of that measurement. No mesh will be measured which has been mended or broken or has attachments to the net fixed at that mesh.

(iii) Nets will be measured only when wet and unfrozen.

(4) The measurement of each mesh will be the width of the gauge at the point where the gauge is stopped, when using this gauge in accordance with paragraph (c)(2) of this section.

(5) Determination of the mesh size of the net will be the arithmetical mean in millimeters of the measurements of the total number of meshes selected and measured as provided for in paragraphs (c)(3) and (4) of this section, the arithmetical mean being rounded up to the next millimeter.

(6) Inspection procedure. (i) One series of 20 meshes, selected in accordance with paragraph (c)(3) of this section, will be measured by inserting the gauge manually without using a weight or dynamometer. The mesh size of the net will then be determined in accordance with paragraph (c)(5) of this section. If the calculation of the mesh size shows that the mesh size does not appear to comply with the rules in force, then two additional series of 20 meshes selected in accordance with paragraph (c)(3) of this section will be measured. The mesh size will then be recalculated in accordance with paragraph (c)(5) of this section, taking into account the 60 meshes already measured; this recalculation will be the mesh size of the net.

(ii) If the captain of the vessel contests the mesh size determined in accordance with paragraph (c)(6)(i) of this section, such measurement will not be considered for the determination of the mesh size and the net will be remeasured.

(A) A weight or dynamometer attached to the gauge will be used for remeasurement. The choice of weight or dynamometer is at the discretion of the inspectors. The weight will be fixed to the hole in the narrowest extremity of the gauge or be applied at the largest extremity of the gauge.

(B) The accuracy of the weight or dynamometer must be certified by the appropriate national authority.

(C) For nets of a mesh size of 35 mm or less as determined in accordance with paragraph (c)(6)(i) of this section, a force of 19.61 newtons (equivalent to a mass of 2 kg) will be applied, and for other nets, a force of 49.03 newtons (equivalent to a mass of 5 kg).

(D) For the purpose of determining the mesh size in accordance with paragraph (c)(5) of this section, when using a weight or dynamometer, one series of 20 meshes only will be measured.

§ 300.111 Framework for annual management measures.

(a) Introduction. New management measures may be added and others modified through publication of a regulatory action in the FEDERAL REGISTER. The following framework process authorizes the implementation of measures that may affect the operation of the commercial or exploratory fisheries, gear, area restrictions, or changes in catch and/or effort.

(b) Preliminary notice. The Secretary of State shall publish preliminary notice in the FEDERAL REGISTER of the management measures adopted by the parties to the Convention.

(c) Procedure. At its annual meeting, usually in October or November, the Commission may recommend new measures and that established measures be modified, removed, or re-instituted. After public notice of those recommendations by the Secretary of State and opportunity for public comment, and after considering the impact of instituting the measures and any public comment received by the Secretary of State, the Assistant Administrator may implement the management measures by notice in the FEDERAL REGISTER, with immediate force and effect. The notification in the FEDERAL REGISTER will summarize new management measures, and respond to any public comments received by the Secretary of State on the preliminary notice.

(d) Types of management measures to be frameworked. Management measures
§ 300.112 Harvesting permits.

(a) General. (1) Every vessel subject to the jurisdiction of the United States that attempts to reduce or reduces any AMLR to possession must have a harvesting permit authorizing the attempt or reduction, unless the attempt or reduction occurs during recreational fishing or is covered by an individual permit. Boats launched from a vessel issued a harvesting permit do not require a separate permit, but are covered by the permit issued the launching vessel. Any enforcement action that results from the activities of a launched boat will be taken against the launching vessel.

(2) Permits issued under this section do not authorize vessels or persons subject to the jurisdiction of the United States to harass, capture, harm, kill, harvest, or import marine mammals. No marine mammals may be taken in the course of commercial fishing operations unless the taking is allowed under the Marine Mammal Protection Act and/or the Endangered Species Act pursuant to an exemption or permit granted by the appropriate agency.

(b) Responsibility of owners and operators. (1) The owners and operators of each harvesting vessel are jointly and severally responsible for compliance with the Act, this subpart, and any permit issued under the Act and this subpart.

(2) The owners and operators of each such vessel are responsible for the acts of their employees and agents constituting violations, regardless of whether the specific acts were authorized or forbidden by the owners or operators, and regardless of knowledge concerning their occurrence.

(3) The owner of such vessel must report any sale, change in ownership, or other disposition of the vessel to the Assistant Administrator within 15 days of the occurrence.

(c) Application. Application forms for harvesting permits are available from the Assistant Administrator (Attn: CCAMLR permits). A separate fully completed and accurate application must be submitted for each vessel for which a harvesting permit is requested at least 90 days before the date anticipated for the beginning of harvesting.

(d) Issuance. The Assistant Administrator may issue a harvesting permit to a vessel if the Assistant Administrator determines that the harvesting described in the application will meet the requirements of the Act and will not:

(1) Decrease the size of any harvested population to levels below those that ensure its stable recruitment. For this purpose, the Convention recommends that its size not be allowed to fall below a level close to that which ensures the greatest net annual increment.

(2) Upset the ecological relationships between harvested, dependent, and related populations of AMLRs and the restoration of depleted populations to levels that will ensure stable recruitment.

(3) Cause changes or increase the risk of changes in the marine ecosystem that are not potentially reversible over 2 or 3 decades, taking into account the state of available knowledge of the direct and indirect impact of harvesting, the effect of the introduction of alien species, the effects of associated activities on the marine ecosystem and of the effects of environmental changes, with the aim of making possible the sustained conservation of AMLRs.

(4) Violate the management measures issued pursuant to § 300.111 of this subpart.

(5) Violate any other conservation measures in force with respect to the United States under the Convention or the Act.

(e) Duration. A harvesting permit is valid from its date of issuance to its date of expiration unless it is revoked or suspended.

(f) Transfer. Permits are not transferable or assignable. A permit is valid only for the vessel to which it is issued.

(g) Display. Each harvesting vessel when engaged in harvesting must either have on board an up-to-date copy of its harvesting permit or a fully completed and up-to-date harvesting vessel permit in a form prescribed by the Assistant Administrator.
Int'l Fishing and Related Activities

§ 300.113 Certificate and vessel operator must produce it for inspection upon the request of an authorized officer or CCAMLR inspector. In order for the certificate to be considered complete, the vessel owner or operator must enter on it the name and IRCS of the vessel issued the harvesting permit, the number of the harvesting permit and its date of issuance and expiration, the harvesting authorized by the permit, and all conditions and restrictions contained in the permit. Blank certificates are available from the Assistant Administrator.

(h) Changes in information submitted by permit applicants or holders—(1) Changes in pending applications. Applicants for a harvesting permit must report to the Assistant Administrator in writing any change in the information contained in the application. The processing period for the application will be extended as necessary to review the change.

(2) Changes occurring after permit issuance—(i) Changes other than in the manner and amount of harvesting. The owner or operator of a vessel that has been issued a harvesting permit must report to the Assistant Administrator in writing any change in previously submitted information other than a proposed change in the location, manner, or amount of harvesting within 15 days of the change. Based on such reported information, the Assistant Administrator may revise the permit effective upon notification to the permit holder. As soon as possible, the vessel owner or operator must revise any harvesting vessel certificate evidencing the permit, accordingly.

(ii) Requested changes in the location, manner, or amount of harvesting. Any changes in the manner or amount of harvesting must be proposed in writing to the Assistant Administrator and may not be undertaken unless authorized by the Assistant Administrator through a permit revision or issuance of a new permit. If a requested change in the location, manner, or amount of harvesting could significantly affect the status of any Antarctic marine living resource, the Assistant Administrator will treat the requested change as an application for a new permit and so notify the holder.

(i) Additional conditions and restrictions. The Assistant Administrator may revise the harvesting permit, effective upon notification to the permit holder, to impose additional conditions and restrictions on the harvesting vessel as necessary to achieve the purposes of the Convention or the Act. The permit holder must, as soon as possible, direct the vessel operator to revise the harvesting vessel certificate, if any, accordingly.

(j) Revision, suspension, or revocation for violations. A harvesting permit may be revised, suspended, or revoked if the harvesting vessel is involved in the commission of any violation of its permit, the Act, or this subpart. Failure to report a change in the information contained in an application within 15 days of the change is a violation of this subpart and voids the application or permit, as applicable. If a change in vessel ownership is not reported, the violation is chargeable to the previous owner. Title 15 CFR part 904 governs permit sanctions under this subpart.

§ 300.113 Import permits.

(a) General. (1) Any AMLR may be imported into the United States if its harvest is authorized by an individual permit or a harvesting permit. The harvesting permit, the harvesting vessel certificate, or the individual permit, or a copy of any thereof, must accompany the import. AMLRs harvested by entities not subject to U.S. jurisdiction and, thus, not harvested under a U.S. issued permit (i.e., a harvesting permit or an individual permit), also may be imported into the United States if such harvesting will meet or met the requirements of the Act and will not or did not violate any conservation measure in force with respect to the United States under the Convention or the Act or violate any of the regulations in this subpart, including resource management measures contained therein. A NMFS issued import permit or copy thereof must accompany such an import as proof that the foreign harvested resources met such requirements. Further, the importer is required to complete and return to the Assistant Administrator, no later than 10 days after the date of the importation, an import ticket reporting the...
importation. However, in no event may a marine mammal be imported into the United States unless authorized and accompanied by an import permit issued under the Marine Mammal Protection Act and/or the Endangered Species Act.

(2) A permit issued under this section does not authorize the harvest of any AMLRs.

(b) Application. Application forms for import permits are available from the Assistant Administrator (Attn: CCAMLR permits). A fully completed and accurate application must be submitted for each import permit requested at least 30 days before the anticipated date of the importation.

(c) Issuance. The Assistant Administrator may issue an import permit if the Assistant Administrator determines that the importation meets the requirements of the Act and that the resources were not or will not be harvested in violation of any conservation measure in force with respect to the United States or in violation of any regulation in this subpart. Blank import tickets will be attached to the permit. Additional blank import tickets are available from the Assistant Administrator.

(d) Duration. An import permit is valid from its date of issuance to its date of expiration unless it is revoked or suspended.

(e) Transfer. An import permit is not transferable or assignable.

(f) Changes in information submitted by permit applicants or holders—(1) Changes in pending applications. Applicants for an import permit must report in writing to the Assistant Administrator any changes in the information submitted in their import permit application. The processing period for the application will be extended as necessary to review the change.

(2) Changes occurring after permit issuance. Any entity issued an import permit must report in writing to the Assistant Administrator any changes in previously submitted information. Any changes that would not result in a change in the importation authorized by the permit must be reported on the import ticket required to be submitted to the Assistant Administrator no later than 10 days after the date of importation. Any changes that would result in a change in the importation authorized by the permit, such as country of origin, type and quantity of the resource to be imported, and Convention statistical subarea from which the resource was harvested, must be proposed in writing to the Assistant Administrator and may not be undertaken unless authorized by the Assistant Administrator by a permit revision or new permit.

(g) Revision, suspension, or revocation. An import permit may be revised, suspended, or revoked based upon information subsequently reported, effective upon notification to the permit holder. An import permit may be revised, suspended, or revoked, based upon a violation of the permit, the Act, or this subpart. Failure to report a change in the information contained in an import permit application is a violation of this subpart and voids the application or permit, as applicable. Title 15 CFR part 904 governs permit sanctions under this subpart.

(h) Disposition of resources not accompanied by required documentation. (1) When AMLRs are imported into the United States unaccompanied by a permit authorizing import, the importer must either:

(i) Abandon the resources;

(ii) Waive claim to the resources; or

(iii) Place the resources into a bonded warehouse and attempt to obtain a permit authorizing their importation.

(2) If, within 60 days of such resources being placed into a bonded warehouse, the District Director of the U.S. Customs Service receives documentation that import of the resources into the United States is authorized by a permit, the resources will be allowed entry. If documentation of a permit is not presented within 60 days, the importer's claim to the resources will be deemed waived.

(3) When resources are abandoned or claim to them waived, the resources will be delivered to the Administrator of NOAA, or a designee, for storage or disposal as authorized by law.

§ 300.114 Appointment of a designated representative.

(a) All holders of permits authorizing fishing in subarea 48.3 must appoint a
§ 300.115 Prohibitions.

In addition to the prohibitions in §300.4, it is unlawful for any person to:

(a) Reduce to possession or attempt to reduce to possession any AMLRs without a permit for such activity as required by §300.112.

(b) Import into the United States any AMLRs without either a permit to import those resources as required by §300.113 or a permit to harvest those resources as required by §300.112.

(c) Engage in harvesting or other associated activities in violation of the provisions of the Convention or in violation of a conservation measure in force with respect to the United States under Article IX of the Convention.

(d) Ship, transport, offer for sale, sell, purchase, import, export or have custody, control or possession of, any AMLR that he or she knows, or reasonably should have known, was harvested in violation of a conservation measure in force with respect to the United States under Article IX of the Convention.

(e) Refuse to allow any CCAMLR inspector to board a vessel of the United States or a vessel subject to the jurisdiction of the United States for the purpose of conducting an inspection authorized by the Act, this subpart, or any permit issued under the Act.

(f) Refuse to provide appropriate assistance, including access as necessary to communications equipment, to CCAMLR inspectors.

(g) Refuse to sign a written notification of alleged violations of Commission measures in effect prepared by a CCAMLR inspector.

(h) Assault, resist, oppose, impede, intimidate, or interfere with a CCAMLR inspector in the conduct of any boarding or inspection authorized by the Act, this subpart, or any permit issued under the Act.

(i) Use any vessel to engage in harvesting after the revocation, or during the period of suspension, of an applicable permit issued under the Act.

(j) Fail to identify, falsely identify, fail to properly maintain, or obscure the identification of a harvesting vessel or its gear as required by this subpart.

(k) Fish in a closed area.

(l) Trawl with a mesh size in any part of the trawl net smaller than that allowed for any directed fishing for Antarctic finfishes as specified in management measures issued pursuant to §300.111.

(m) Use any means or device that would reduce the size or obstruct the opening of the trawl meshes specified in management measures issued pursuant to §300.111.

(n) Possess fish in violation of the catch limit specified in management measures issued pursuant to §300.111.

(o) Discard netting or other substances in the Convention Area in violation of §300.109.

(p) Violate or attempt to violate any provision of this subpart, the Act, any other regulation promulgated under the Act or any permit issued under the Act.

§ 300.116 Facilitation of enforcement and inspection.

In addition to the facilitation of enforcement provisions of §300.5, the following requirements apply to this subpart.

(a) Access and records. (1) The owners and operator of each harvesting vessel must provide authorized officers and CCAMLR inspectors access to all spaces where work is conducted or business papers and records are prepared or stored, including but not limited to personal quarters and areas within personal quarters. If inspection of a particular area would interfere with specific ongoing scientific research, and if the operator of the harvesting vessel makes such assertion and produces an individual permit that covers that specific research, the authorized officer or CCAMLR inspector...
§ 300.117

will not disturb the area, but will record the information pertaining to the denial of access.

(2) The owner and operator of each harvesting vessel must provide to authorized officers and CCAMLR inspectors all records and documents pertaining to the harvesting activities of the vessel, including but not limited to production records, fishing logs, navigation logs, transfer records, product receipts, cargo stowage plans or records, draft or displacement calculations, customs documents or records, and an accurate hold plan reflecting the current structure of the vessel's storage and factory spaces.

(3) Before leaving vessels that have been inspected, the CCAMLR inspector will give the master of the vessel a Certificate of Inspection and a written notification of any alleged violations of Commission measures in effect and will afford the master the opportunity to comment on it. The ship's master must sign the notification to acknowledge receipt and the opportunity to comment on it.

(b) Reports by non-inspectors. All scientists, fishermen, and other non-inspectors present in the Convention area and subject to the jurisdiction of the United States are encouraged to report any violation of Commission conservation and management measures observed in the Convention area to the Office of Ocean Affairs (CCAMLR Violations), Department of State, Room 5801, Washington, DC 20520.

(c) Storage of AMLRs. The operator of each harvesting vessel storing AMLRs in a storage space on board the vessel must ensure that non-resource items are neither stowed beneath nor covered by resource items, unless required to maintain the stability and safety of the vessel. Non-resource items include, but are not limited to, portable conveyors, exhaust fans, ladders, nets, fuel bladders, extra bin boards, or other moveable non-resource items. These non-resource items may be in a resource storage space when necessary for the safety of the vessel or crew or for the storage of the items. Lumber, bin boards, or other dunnage may be used for shoring or bracing of product to ensure the safety of crew and to prevent shifting of cargo within the space.

§ 300.117 Penalties.

Any person or harvesting vessel found to be in violation of the Act, this subpart, or any permit issued under this subpart will be subject to the civil and criminal penalty provisions and forfeiture provisions prescribed in the Act, 15 CFR part 904, and other applicable laws.
Figure 1 to Subpart G—Boundaries of the Statistical Reporting Area in the Southern Ocean
FIGURE 2 TO SUBPART G—THE USE OF STREAMER LINES TO MINIMIZE THE INCIDENTAL MORTALITY OF SEABIRDS IN THE COURSE OF LONGLINE FISHING OR LONGLINE FISHING RESEARCH OPERATIONS IN THE CONVENTION AREA
§ 300.120 Purpose.

This subpart implements fishery conservation and management measures as provided in fishery agreements pursuant to the Treaty Between the Government of the United States of America and the Government of the Republic of Colombia Concerning the Status of Quita Sueno, Roncador and Serrana (TIAS 10120) (Treaty).

§ 300.121 Definitions.

In addition to the terms defined in §300.2, the Magnuson Act, and §600.10 of this title, and in the Treaty, the terms used in this subpart have the following meanings. If a term is defined differently in §300.2, the Magnuson Act, or the Treaty, the definition in this section shall apply.

Conch means Strombus gigas.

Factory vessel means a vessel that processes, transforms, or packages aquatic biological resources on board.

Lobster means one or both of the following:

(1) Smoothtail lobster, Panulirus laevicauda.

(2) Spiny lobster, Panulirus argus.

Regional Director means the Director, Southeast Region, or a designee.

Science and Research Director means the Director, Southeast Fisheries Science Center.

Treaty waters means the waters of one or more of the following:

(1) Quita Sueno, enclosed by latitudes 13°55′N. and 14°43′N. between longitudes 80°55′W. and 81°28′W.

(2) Serrana, enclosed by arcs 12 nautical miles from the low water line of the cays and islands in the general area of 14°22′N. l.t., 80°20′W. long.

(3) Roncador, enclosed by arcs 12 nautical miles from the low water line of Roncador Cay, in approximate position 13°35′N. l.t., 80°05′W. long.

§ 300.122 Relation to other laws.

(a) The relation of this subpart to other laws is set forth in §600.705 of this title and paragraph (b) of this section. Particular note should be made to the reference in §600.705 to the applicability of title 46 U.S.C., under which a Certificate of Documentation is invalid when the vessel is placed under the command of a person who is not a citizen of the United States.

(b) Minimum size limitations for certain species, such as reef fish in the Gulf of Mexico, may apply to vessels transiting the EEZ with such species aboard.

§ 300.123 Certificates and permits.

(a) Applicability. An owner of a vessel of the United States that fishes in treaty waters is required to obtain an annual certificate issued by the Republic of Colombia and an annual vessel permit issued by the Regional Director.

(b) Application for certificate/permit. (1) An application for a permit must be submitted and signed by the vessel’s owner. An application may be submitted at any time, but should be submitted to the Regional Director not less than 90 days in advance of its need. Applications for the ensuing calendar year should be submitted to the Regional Director by October 1.

(2) An applicant must provide the following:

(i) A copy of the vessel’s valid USCG certificate of documentation or, if not documented, a copy of its valid state registration certificate.

(ii) Vessel name and official number.

(iii) Name, address, telephone number, and other identifying information of the vessel owner or, if the owner is a corporation or partnership, of the responsible corporate officer or general partner.

(iv) Principal port of landing of fish taken from treaty waters.

(v) Type of fishing to be conducted in treaty waters.

(vi) Any other information concerning the vessel, gear characteristics, principal fisheries engaged in, or fishing areas, as specified on the application form.

(vii) Any other information that may be necessary for the issuance or administration of the permit, as specified on the application form.

(c) Issuance. (1) The Regional Director will request a certificate from the Republic of Colombia if:
§ 300.124 

(i) The application is complete.
(ii) The applicant has complied with all applicable reporting requirements of § 300.124 during the year immediately preceding the application.

(2) Upon receipt of an incomplete application, or an application from a person who has not complied with all applicable reporting requirements of § 300.124 during the year immediately preceding the application, the Regional Director will notify the applicant of the deficiency. If the applicant fails to correct the deficiency within 30 days of the Regional Director’s notification, the application will be considered abandoned.

(3) The Regional Director will issue a permit as soon as the certificate is received from the Republic of Colombia.

(d) Duration. A certificate and permit are valid for the calendar year for which they are issued, unless the permit is revoked, suspended, or modified under subpart D of 15 CFR part 904.

(e) Transfer. A certificate and permit issued under this section are not transferable or assignable. They are valid only for the fishing vessel and owner for which they are issued.

(f) Display. A certificate and permit issued under this section must be carried aboard the fishing vessel while it is in treaty waters. The operator of a fishing vessel must present the certificate and permit for inspection upon request of an authorized officer or an enforcement officer of the Republic of Colombia.

§ 300.125 Vessel identification.

(a) Official number. A vessel with a permit issued pursuant to § 300.123, when in treaty waters, must display its official number on the port and starboard sides of the deckhouse or hull, and on an appropriate weather deck, so as to be clearly visible from an enforcement vessel or aircraft. The official number must be permanently affixed to or painted on the vessel and must be in block arabic numerals in contrasting color to the background at least 18 inches (45.7 cm) in height for fishing vessels over 65 ft (19.8 m) in length, and at least 10 inches (25.4 cm) in height for all other vessels.

(b) Duties of operator. The operator of each fishing vessel must—

(1) Keep the official number clearly legible and in good repair.
(2) Ensure that no part of the fishing vessel, its rigging, fishing gear, or any other material aboard obstructs the view of the official number from an enforcement vessel or aircraft.

§ 300.126 Prohibitions.

In addition to the general prohibitions specified in § 600.725 of this title
and the prohibited acts specified in §300.4, it is unlawful for any person to do any of the following:
(a) Fish in treaty waters without the certificate and permit aboard, or fail to display the certificate and permit, as specified in §300.129(a) and (f).
(b) Fail to notify the Regional Director of a change in application information, as specified in §300.123(j).
(c) Fail to report a vessel's arrival in and departure from treaty waters, as required by §300.124(a).
(d) Falsify or fail to display and maintain vessel identification, as required by §300.125.
(e) Fail to comply immediately with instructions and signals issued by an enforcement officer of the Republic of Colombia, as specified in §300.127.
(f) Operate a factory vessel in treaty waters, as specified in §300.130(a).
(g) Use a monofilament gillnet in treaty waters, as specified in §300.130(b).
(h) Use autonomous or semi-autonomous diving equipment in treaty waters, as specified in §300.130(c).
(i) Use or possess in treaty waters a lobster trap or fish trap without a degradable panel, as specified in §300.130(d).
(j) Possess conch smaller than the minimum size limit, as specified in §300.131(a).
(k) Fish for or possess conch in the closed area or during the closed season, as specified in §300.131(b) and (c).
(l) Retain on board a berried lobster or strip eggs from or otherwise molest a berried lobster, as specified in §300.132(a).
(m) Possess a lobster smaller than the minimum size, as specified in §300.132(b).
(n) Fail to return immediately to the water unharmed a berried or undersized lobster, as specified in §300.132(a) and (b).

§ 300.127 Facilitation of enforcement.
(a) The provisions of §600.730 of this title and paragraph (b) of this section apply to vessels of the United States fishing in treaty waters.
(b) The operator of, or any other person aboard, any vessel of the United States fishing in treaty waters must immediately comply with instructions and signals issued by an enforcement officer of the Republic of Colombia to stop the vessel and with instructions to facilitate safe boarding and inspection of the vessel, its gear, equipment, fishing record, and catch for purposes of enforcing this subpart.

§ 300.128 Penalties.
Any person committing or fishing vessel used in the commission of a violation of the Magnuson Act or any regulation issued under the Magnuson Act, is subject to the civil and criminal penalty provisions and civil forfeiture provisions of the Magnuson Act, to part 600 of this title, to 15 CFR part 904, and to other applicable law. In addition, Colombian authorities may require a vessel involved in a violation of this subpart to leave treaty waters.

§ 300.129 Fishing year.
The fishing year for fishing in treaty waters begins on January 1 and ends on December 31.

§ 300.130 Vessel and gear restrictions.
(a) Factory vessels. Factory vessels are prohibited from operating in treaty waters.
(b) Monofilament gillnets. A monofilament gillnet made from nylon or similar synthetic material are prohibited from being used in treaty waters.
(c) Tanks and air hoses. Autonomous or semiautonomous diving equipment (tanks or air hoses) are prohibited from being used to take aquatic biological resources in treaty waters.
(d) Trap requirements. A lobster trap or fish trap used or possessed in treaty waters that is constructed of material other than wood must have an escape panel located in the upper half of the sides or on top of the trap that, when removed, will leave an opening no smaller than the throat or entrance of the trap. Such escape panel must be constructed of or attached to the trap with wood, cotton, or other degradable material.
(e) Poisons and explosives. [Reserved]

§ 300.131 Conch harvest limitations.
(a) Size limit. The minimum size limit for possession of conch in or from treaty waters is 7.94 oz (225 g) for an
§ 300.132 Lobster harvest limitations.

(a) Berried lobsters. A berried (egg-bearing) lobster in treaty waters may not be retained on board. A berried lobster must be returned immediately to the water unharmed. A berried lobster may not be stripped, scraped, shaved, clipped, or in any other manner molested to remove the eggs.

(b) Size limit. The minimum size limit for possession of lobster in or from treaty waters is 5.5 inches (13.97 cm), tail length. Tail length means the measurement, with the tail in a straight, flat position, from the anterior upper edge of the first abdominal (tail) segment to the tip of the closed tail. A lobster smaller than the minimum size limit must be returned immediately to the water unharmed.

Subpart I—United States-Canada Fisheries Enforcement

Authority: 16 U.S.C. 1801 et seq.

§ 300.140 Purpose and scope.

This subpart implements the Agreement Between the Government of the United States of America and the Government of Canada on Fisheries Enforcement executed at Ottawa, Canada, on September 26, 1990 (Agreement), allowing each party to the Agreement to take appropriate measures, consistent with international law, to prevent its nationals, residents and vessels from violating those national fisheries laws and regulations of the other party. This subpart applies, except where otherwise specified in this subpart, to all persons and all places (on water and on land) subject to the jurisdiction of the United States under the Magnuson Act. This includes, but is not limited to, activities of nationals, residents and vessels of the United States (including the owners and operators of such vessels) within waters subject to the fisheries jurisdiction of Canada as defined in this subpart, as well as on the high seas and in waters subject to the fisheries jurisdiction of the United States.

§ 300.141 Definitions.

In addition to the terms defined in §300.2 and those in the Magnuson Act and the Agreement, the terms used in this subpart have the following meanings. If a term is defined differently in §300.2, the Magnuson Act, or the Agreement, the definition in this section applies.

Applicable Canadian fisheries law means any Canadian law, regulation or similar provision relating in any manner to fishing by any fishing vessel other than a Canadian fishing vessel in waters subject to the fisheries jurisdiction of Canada, including, but not limited to, any provision relating to stowage of fishing gear by vessels passing through such waters, and to obstruction or interference with enforcement of any such law or regulation.

Authorized officer of Canada means any fishery officer, protection officer, officer of the Royal Canadian Mounted Police, or other employee authorized by the appropriate authority of any national or provincial agency of Canada to enforce any applicable Canadian fisheries law.

Canadian fishing vessel means a fishing vessel:

(1) That is registered or licensed in Canada under the Canada Shipping Act and owned by one or more persons each of whom is a Canadian citizen, a person resident and domiciled in Canada, or a corporation incorporated under the laws of Canada or of a province, having its principal place of business in Canada; or

(2) That is not required by the Canada Shipping Act to be registered or licensed in Canada and is not registered or licensed elsewhere but is owned as described in paragraph (1) of this definition.

Waters subject to the fisheries jurisdiction of Canada means the internal waters, territorial sea, and the zone that Canada has established, extending 200 nautical miles from its coasts, in which it exercises sovereign rights for the
§ 300.142 Prohibitions.

The prohibitions in this section apply within waters subject to the fisheries jurisdiction of Canada and during hot pursuit therefrom by an authorized officer of Canada. It is unlawful for any national or resident of the United States, or any person on board a vessel of the United States, or the owner or operator of any such vessel, to do any of the following:

(a) Engage in fishing in waters subject to the fisheries jurisdiction of Canada without the express authorization of the Government of Canada.

(b) Take or retain fish in waters subject to the fisheries jurisdiction of Canada without the express authorization of the Government of Canada.

(c) Be on board a fishing vessel in waters subject to the fisheries jurisdiction of Canada without stowing all fishing gear on board either:

(1) Below deck, or in an area where it is not normally used, such that the gear is not readily available for fishing; or

(2) If the gear cannot readily be moved, in a secured and covered manner, detached from all towing lines, so that it is rendered unusable for fishing; unless the vessel has been authorized by the Government of Canada to fish in the particular location within waters subject to the fisheries jurisdiction of Canada in which it is operating.

(d) While on board a fishing vessel in waters subject to the fisheries jurisdiction of Canada, fail to respond to any inquiry from an authorized officer of Canada regarding the vessel’s name, flag state, location, route or destination, and/or the circumstances under which the vessel entered such waters.

(e) Violate the Agreement, any applicable Canadian fisheries law, or the terms or conditions of any permit, license or any other authorization granted by Canada under any such law.

(f) Fail to comply immediately with any of the enforcement and boarding procedures specified in § 300.143.

(g) Destroy, hide, or dispose of in any manner, any fish, gear, cargo or other matter, upon any communication or signal from an authorized officer of Canada, or upon the approach of such an officer, enforcement vessel or aircraft, before the officer has had the opportunity to inspect same, or in contravention of directions from such an officer.

(h) Refuse to allow an authorized officer of Canada to board a vessel for the purpose of conducting any inspection, search, seizure, investigation or arrest in connection with the enforcement of any applicable Canadian fisheries law.

(i) Assault, resist, oppose, impede, intimidate, threaten, obstruct, delay, prevent, or interfere, in any manner, with an authorized officer of Canada in the conduct of any boarding, inspection, search, seizure, investigation or arrest in connection with the enforcement of any applicable Canadian fisheries law.

(j) Make any false statement, oral or written, to an authorized officer of Canada in response to any inquiry by that officer in connection with enforcement of any applicable Canadian fisheries law.

(k) Falsify, cover, or otherwise obscure, the name, home port, official number (if any), or any other similar marking or identification of any fishing vessel subject to this subpart such that the vessel cannot be readily identified from an enforcement vessel or aircraft.

(l) Attempt to do any of the foregoing.

§ 300.143 Facilitation of enforcement.

(a) General. Persons aboard fishing vessels subject to this subpart must immediately comply with instructions and/or signals issued by an authorized officer of the United States or Canada, or by an enforcement vessel or aircraft, to stop the vessel, and with instructions to facilitate safe boarding and inspection for the purpose of enforcing any applicable Canadian fisheries law, the Agreement, or this subpart. All of the provisions of § 300.5 regarding communications, boarding, and signals apply to this subpart. For purposes of this subpart, authorized officer in § 305 means an authorized officer of the United States.
§ 300.144 Penalties and sanctions.

Any person, any fishing vessel, or the owner or operator of any such vessel, who violates any provision of the Agreement or this subpart, is subject to the civil and criminal fines, penalties, forfeitures, permit sanctions, or other sanctions provided in the Magnuson Act, part 904 of this title, 15 CFR part 904 (Civil Procedures), and any other applicable law or regulation.

50 CFR Ch. III (10-1-98 Edition)

Subpart J—U.S. Nationals Fishing in Russian Fisheries

Authority: 16 U.S.C. 1801 et seq.

§ 300.150 Purpose.

§ 300.151 Definitions.

In addition to the terms defined in §300.2 and those in the Magnuson Act, the terms used in this subpart have the following meanings. If a term is defined differently in §300.2 or the Magnuson Act, the definition in this section shall apply.

Affiliates means two persons (including individuals and entities) related in such a way that—

(1) One indirectly or directly controls or has power to control the other; or

(2) A third party controls or has power to control both. Indicia of control include, but are not limited to, interlocking management or ownership, identity of interests among family members, shared facilities and equipment, common use of employees, or a reorganized entity having the same or similar management, ownership, or employees as a former entity.

Embassy of the Russian Federation means the Fisheries Attache of the embassy located in Washington, D.C.

Fishery resource means any fish, any stock of fish, any species of fish, and any habitat of fish.

Fishing or to fish means any activity that does, is intended to, or can reasonably be expected to result in catching or removing from the water fishery resources. Fishing also includes the acts of scouting, processing, and support.

Operator, with respect to any vessel, means the master or other individual

§ 300.144 Penalties and sanctions.

United States or Canada. (See paragraph (b) of this section for specific requirements for complying with signals and instructions issued by an authorized officer of Canada.)

(b) Canadian signals. In addition to signals set forth in §300.5, persons aboard fishing vessels subject to this subpart must immediately comply with the following signals by an authorized officer of Canada.

(1) Authorized officers of Canada use the following signals to require fishing vessels to stop or heave to:

(i) The hoisting of a rectangular flag, known as the International Code Flag "L", which is divided vertically and horizontally into quarters and colored so that:

(A) The upper quarter next to the staff and the lower quarter next to the fly are yellow; and

(B) The lower quarter next to the staff and the upper quarter next to the fly are black;

(ii) The flashing of a light to indicate the International Morse Code letter "L", consisting of one short flash, followed by one long flash, followed by two short flashes (. . .); or

(iii) The sounding of a horn or whistle to indicate the International Morse Code letter "L", consisting of one short blast, followed by one long blast, followed by two short blasts (. . .).

(2) Authorized officers of Canada use the following signals to require a fishing vessel to prepare to be boarded:

(i) The hoisting of flags representing the International Code Flag "SQ3"; or

(ii) The flashing of a light, or the sounding of a horn or whistle, to indicate the International Morse Code Signal "SQ3" (. . . . . . . . . . . . . .

§ 300.144 Penalties and sanctions.

Any person, any fishing vessel, or the owner or operator of any such vessel, who violates any provision of the Agreement or this subpart, is subject to the civil and criminal fines, penalties, forfeitures, permit sanctions, or other sanctions provided in the Magnuson Act, part 904 of this title, 15 CFR part 904 (Civil Procedures), and any other applicable law or regulation.
§ 300.152 Procedures.

(a) Application for annual permits. U.S. vessel owners and operators must have a valid permit issued by the Russian Federation obtained pursuant to a complete application submitted through NMFS before fishing in the Russian EZ or for Russian fishery resources. Application forms and copies of applicable laws and regulations of the Russian Federation may be obtained from NMFS Headquarters.

(b) Other application information. Applications for motherships, processing or transport vessels must identify the type of fishing gear to be employed or the fishing quotas if the vessel has received or is requesting a quota. To facilitate processing, NMFS requests that permit applications for more than 10 vessels be grouped by type and fishing area, and provide the name, address, telephone, and FAX number(s) of an individual who will be the official point of contact for an application.

(c) Review of Applications. NMFS will review each application, and, if it is complete, forward it to the Department of State for submission to the competent authorities of the Russian Federation. NMFS will notify the permit holders, and that is the successor party to the Agreement of May 31, 1988.

Russian fisheries, Russian fishery resources, or fishery resources over which Russia exercises sovereign rights or fishery management authority means fishery resources within the Russian EZ, fishery resources of the Russian continental shelf, and anadromous species that originate in the waters of Russia, whether found in the Russian EZ or beyond any exclusive economic zone or its equivalent.

Scouting means any operation by a vessel exploring (on behalf of the vessel or another vessel) for the presence of fish by any means that do not involve the catching of fish.

Support means any operation by a vessel assisting fishing by another vessel, including—

(1) Transferring or transporting fish or fish products; or

(2) Supplying a fishing vessel with water, fuel, provisions, fishing equipment, fish processing equipment, or other supplies.
§ 300.153 Permit issuance.

(a) Acceptance. Once the Department of State has accepted the conditions and restrictions proposed by the Russian Federation and all fees have been paid, the competent authorities of the Russian Federation will approve the application. The Russian Federation will issue a permit to the vessel owner for each fishing vessel for which it has approved an application. That vessel will thereupon be authorized by the Russian Federation to fish in accordance with the Agreement and the terms and conditions set forth in the permit. The vessel owner is prohibited from transferring the permit to any other vessel or person. Any such transfer, or the sale or other transfer of the vessel, will immediately invalidate the permit. The vessel owner must notify NMFS of any change in the permit application information submitted to NMFS Headquarters under §300.152 within 7 calendar days of the change.

(b) Copies. The vessel owner and operator must mail a copy of each permit and any conditions and restrictions issued for that vessel by the Russian Federation within 7 calendar days of its receipt to NMFS Headquarters.

(c) Validity. Any permit issued by the Russian Federation with respect to a vessel subject to this subpart will be deemed to be a valid permit only if:

(1) A completed permit application has been forwarded to the competent authorities of the Russian Federation as provided in §300.152(b)(1).

(2) Such application has been approved and a permit issued by the competent authorities of the Russian Federation as provided in paragraph (a) of this section.

(3) The U.S. Department of State has notified the competent authorities of the Russian Federation that it has accepted the conditions and restrictions as provided in paragraph (a) of this section. The permit will be rendered invalid by: The transfer or sale of the permit specified in paragraph (a) of this section; the failure to submit to NMFS any changes in permit application information as required by paragraph (a) of this section; failure to submit to NMFS any permit copy required by paragraph (b) of this section or any other information or report required by any other provision of this subpart; or the failure to pay required permit fees.

(d) Russian-imposed sanctions. (1) The Russian Federation will impose appropriate fines, penalties, or forfeitures in accordance with its laws, for violations of its relevant laws or regulations.

(2) In the case of arrest and seizure of a U.S. vessel by Russian authorities, notification will be given promptly through diplomatic channels informing the United States of the facts and actions taken.

(3) The Russian Federation will release U.S. vessels and their crews promptly, subject to the posting of reasonable bond or other security.

(4) The sanctions for violations of limitations or restrictions on fishing operations will be appropriate fines, penalties, forfeitures, or revocations or suspensions of fishing privileges.

§ 300.154 Recordkeeping and reporting.

(a) General. The owner and operator of a vessel subject to this subpart are responsible for complying with all recordkeeping and reporting requirements in this part in a timely and accurate manner. Reports and records required by this subpart must be in English, in the formats specified, and unless otherwise specified, based on Greenwich mean time (GMT).

(b) Vessel permit abstract report. (1) The owner and operator of a vessel subject to this subpart must submit to NMFS Headquarters a permit abstract report containing the following information:

(i) Vessel name.

(ii) Russian Federation permit number.

(iii) Duration of permit (e.g., 1/1/91-12/31/91).
(iv) Authorized areas of fishing operations in geographic coordinates.
(v) Authorized catch quota in tons.
(vi) Authorized fishing gear.
(vii) Type of permit (e.g., catcher).

(2) The report must be telefaxed to (301) 713-0596 within 5 calendar days of receipt of the Russian permit.

(c) Activity reports. The owner and operator of a vessel subject to this subpart must submit to the Regional Director by telefax to (907) 586-7313, the following reports:

(1) Depart Report (Action code DEPART). At least 24 hours before the vessel departs from the EEZ for the Russian EZ, NMFS must receive the following information:

(i) The date (month and day), and time (hour and minute GMT), and position (latitude and longitude to the nearest degree and minute), at which the vessel will depart the EEZ for the Russian EZ.

(ii) The weight in metric tons (to the nearest hundredth of a metric ton) of all fish and fish product (listed by species and product codes) on board the vessel at the time it will depart the EEZ.

(2) Return Report (Action code RETURN). At least 24 hours before a vessel that has been in the Russian EZ enters the EEZ, NMFS must receive the following information:

(i) The date (month and day), time (hour and minute GMT), and position (latitude and longitude to the nearest degree and minute), at which the vessel will enter the EEZ.

(ii) The weight in metric tons (to the nearest hundredth of a metric ton) of all fish and fish products (listed by species and product codes) on board the vessel at the time it will enter the EEZ, and the areas (Russian EZ, U.S. EEZ, or other) in which such fish products were harvested or received.

(3) All reports must specify: The appropriate action code (“DEPART” or “RETURN”); the vessel’s name and international radio call sign (IRCS); the sender’s name and telephone number, and FAX, TELEX, and COMSAT numbers; the date (month and day) and time (hour and minute GMT) that the report is submitted to NMFS; and the intended U.S. port of landing.

A list of species and product codes may be obtained from the Regional Director.

(d) Recordkeeping. The owner and operator of a vessel subject to this subpart must retain all copies of all reports required by this subpart on board the vessel for 1 year after the end of the calendar year in which the report was generated. The owner and operator must retain and make such records available for inspection upon the request of an authorized officer at any time for 3 years after the end of the calendar year in which the report was generated, whether or not such records on board the vessel.

§ 300.155 Requirements.

(a) Compliance with permit requirements. (1) U.S. nationals and vessels subject to this subpart must have a valid permit, as specified in §300.153(c) in order to fish for Russian fishery resources.

(2) U.S. nationals and vessels subject to this subpart that are fishing for Russian fishery resources must comply with all provisions, conditions, and restrictions of any applicable permit.

(b) Compliance with Russian law. U.S. nationals and vessels fishing for Russian fishery resources must comply with the relevant laws and regulations of the Russian Federation.

(c) Protection of marine mammals. U.S. nationals and vessels fishing for Russian fishery resources may not harass, hunt, capture, or kill any marine mammal within the Russian EZ, attempt to do so, except as may be provided for by an international agreement to which both the United States and Russia are parties, or in accordance with specific authorization and controls established by the Russian Federation. The provisions of the Marine Mammal Protection Act (MMPA), 16 U.S.C. 1361 et seq. also apply to any person or vessel subject to the jurisdiction of the United States while in the Russian EZ, and it shall not be a defense to any violation of the MMPA that the person or vessel was acting in accordance with any permit or authorization issued by the Russian Federation.

(d) Cooperation with enforcement procedures. (1) The operator of, or any person aboard, any U.S. vessel subject to this subpart must immediately comply
§ 300.156 Prohibited acts.

In addition to the prohibited acts specified at §300.4, it shall be unlawful for any U.S. national or vessel, or the owner or operator of any such vessel:

(a) To fish for Russian fishery resources without a valid permit issued by the competent authorities of the Russian Federation.

(b) To violate the provisions, conditions, and restrictions of an applicable permit.

(c) To violate the relevant laws and regulations of the Russian Federation.

(d) To harass, hunt, capture, or kill any marine mammal within the Russian EZ, or while fishing for Russian fishery resources, except as provided in §300.155(c).

(e) To fail to comply immediately with enforcement and boarding procedures specified in §300.155(d).

(f) To refuse to allow an authorized officer of the Russian Federation to board and inspect a vessel subject to this subpart for purposes of conducting any search, inspection, arrest, or seizure in connection with the enforcement of the relevant laws and regulations of the Russian Federation.

(g) To assault, resist, oppose, impede, intimidate, threaten, or interfere with, in any manner, any authorized officer of the Russian Federation in the conduct of any search, inspection, seizure, or arrest in connection with enforcement of the relevant laws and regulations of the Russian Federation.

(h) To fail to pay fines or penalties or comply with forfeitures imposed for a violation of the relevant laws and regulations of the Russian Federation.

(i) To refuse or fail to allow a Russian observer to board a vessel subject to this subpart while fishing in the Russian EZ, or for Russian fishery resources.

(j) To fail to provide to a Russian observer aboard a vessel fishing in the Russian EZ or for Russian fishery resources, the courtesies and accommodations provided to ship’s officers.

(k) To assault, resist, oppose, impede, intimidate, threaten, interfere with, harass, or fail to cooperate, in any manner, with a Russian observer placed aboard a vessel subject to this subpart.

(l) To fail to reimburse the Russian Federation for the costs incurred in the utilization of Russian observers placed aboard such vessel.

(m) To possess, have custody or control of, ship, transport, offer for sale, sell, purchase, transship, import, export, or traffic in any manner, any fish
Int'l. Fishing and Related Activities § 300.161

or parts thereof taken or retained, landed, purchased, sold, traded, acquired, or possessed, in any manner, in violation of the relevant laws and regulations of the Russian Federation, the Magnuson Act, or this subpart.

(n) To enter the Russian EZ to fish unless a permit application has been submitted through NMFS to the competent authorities of the Russian Federation by the U.S. Department of State for such vessel as provided in this subpart.

(o) To fish for Russian fisheries or to possess fish taken in Russian fisheries on board a vessel subject to this subpart without a valid permit or other valid form of authorization issued by the competent authorities of the Russian Federation on board the vessel.

(p) To falsify, or fail to report to NMFS, any change in the information contained in a permit application subject to this subpart within 7 calendar days of such change.

(q) To attempt to do, cause to be done, or aid and abet in doing, any of the foregoing.

(r) To violate any other provision of this subpart.

§ 300.157 Penalties.

In addition to any fine, penalty, or forfeiture imposed by the Russian Federation, nationals and vessels of the United States violating the prohibitions of §300.156 are subject to the fines, penalties, and forfeitures and the adjudicative procedures provided in the Magnuson Act, 16 U.S.C. 1858, 1860, 1861, and any other applicable laws and regulations of the United States.

Subpart K—Transportation and Labeling of Fish or Wildlife

§ 300.160 Requirement for marking of containers or packages.

Except as otherwise provided in this subpart, all persons are prohibited from importing, exporting, or transporting in interstate commerce any container or package containing any fish or wildlife (including shellfish) unless each container or package is conspicuously marked on the outside with both the name and address of the shipper and consignee and an accurate list of its contents by species and number of each species.

§ 300.161 Alternatives and exceptions.

(a) The requirements of §300.160 may be met by complying with one of the following alternatives to the marking requirement:

(1)(i) Conspicuously marking the outside of each container or package containing fish or wildlife with the word “fish” or “wildlife” as appropriate for its contents, or with the common name of its contents by species, and

(ii) Including an invoice, packing list, bill of lading, or similar document to accompany the shipment that accurately states the name and address of the shipper and consignee, states the total number of packages or containers in the shipment, and for each species in the shipment specifies: The common name that identifies the species (examples include: chinook (or king) salmon; bluefin tuna; and whitetail deer); and the number of that species (or other appropriate measure of quantity such as gross or net weight). The invoice, packing list, bill of lading, or equivalent document must be securely attached to the outside of one container or package in the shipment so that it is readily accessible for inspection; or

(2) Affixing the shipper’s wildlife import/export license number preceded by “FWS” on the outside of each container or package containing fish or wildlife if the shipper has a valid wildlife import/export license issued under authority of part 14 of this title. For each shipment marked in accordance with this paragraph (a)(2), the records maintained under §14.93(d) of this title must include a copy of the invoice, packing list, bill of lading, or other similar document that accurately states the information required by paragraph (a)(1)(ii) of this section.

(3) In the case of subcontainers or packages within a larger packing container, only the outermost container must be marked in accordance with this section, provided, that for live fish
or wildlife that are packed in sub-containers within a larger packing container, if the subcontainers are numbered or labeled, the packing list, invoice, bill of lading, or other similar document, must reflect that number or label.

(4) A conveyance (truck, plane, boat, etc.) is not considered a container for purposes of requiring specific marking of the conveyance itself, provided that:

(i) The fish or wildlife within the conveyance is carried loosely or is readily identifiable, and is accompanied by the document required by paragraph (a)(1)(ii) of this section; or

(ii) The fish or wildlife is otherwise packaged and marked in accordance with this subpart.

(b) The requirements of §300.160 of chapter III of this title do not apply to containers or packages containing—

(1) Fox, nutria, rabbit, mink, chinchilla, marten, fisher, muskrat, and karakul that have been bred and born in captivity, or their products, if a signed statement certifying that the animals were bred and born in captivity accompanies the shipping documents;

(2) Fish or shellfish contained in retail consumer packages labeled pursuant to the Food, Drug and Cosmetic Act, 21 U.S.C. 301 et seq.; or

(3) Fish or shellfish that are landed by, and offloaded from, a fishing vessel (whether or not the catch has been carried by the fishing vessel interstate), as long as the fish or shellfish remain at the place where first offloaded.

§ 401.1 Administration.

The Director of the U.S. Fish and Wildlife Service and the Director of the National Marine Fisheries Service shall jointly administer the Anadromous Fish Conservation Act for the Secretaries.

§ 401.2 Definitions.

As used in this part, terms shall have the meanings ascribed in this section.

(a) Secretary. The Secretary of Commerce, the Secretary of the Interior, or their authorized representatives.

(c) Eligible states. Any coastal State of the United States, the State of Vermont, and the States bordering the Great Lakes. The area within the Columbia River basin is excluded.

(d) State fishery agency. Any department(s), division(s), commission(s), or official(s) of a State empowered under its laws to regulate a commercial or sport fishery.

(e) Non-Federal interest. Any organization, association, institution, business, school, individual, or group of individuals, municipality and others outside the Federal Government, in addition to State fishery agencies, which desire to cooperate within the terms of the Act.

(f) Cooperator. One or more States acting jointly or severally or other non-Federal interests, participating in a project agreement or grant-in-aid award with the Secretary.

(g) Anadromous fish. Aquatic, gill breathing, vertebrate animals bearing paired fins which migrate to and spawn in fresh water, but which spend part of their life in an oceanic environment; also fish in the Great Lakes that ascend streams to spawn.

(h) Application for Federal assistance. A description of work to be accomplished, including objectives and needs, expected results and benefits, approach, cost, location and time required for completion.

(i) Project agreement. The formal document executed between the Secretary of the Interior and the Cooperator, committing the Cooperator to the performance of described activities and the Federal Government to participation in the financing of those activities.

(j) Grant-in-Aid award. The formal document executed between the Secretary of Commerce and the Cooperator, committing the Cooperator to the performance of described activities and the Federal Government to participation in the financing of those activities.

§ 401.3 Submission of documents.

Applications for Federal assistance and other documents for projects relating generally to recreational fisheries shall be submitted to the concerned Regional Office of the U.S. Fish and Wildlife Service, or for projects relating generally to commercial fisheries of the concerned Regional Office of the National Marine Fisheries Service.
§ 401.4 Activities prohibited.

Law enforcement, public relations, harvesting, marketing and processing activities, construction of fisherman use facilities, and activities concerned with landlocked anadromous fish populations (except fish in the Great Lakes that ascend streams to spawn) may not be financed under the Act.

§ 401.5 Coordination with States.

The Secretary will approve an Application For Federal Assistance only after he has coordinated the application with the State office established to review applications under Executive Order 12372 (if the State has established such an office and wishes to review these applications) and other non-Federal entities which have management authority over the resource to be affected.

[48 FR 29137, June 24, 1983]

§ 401.6 Prosecution of work.

(a) Project work shall be carried through to a state of completion acceptable to the Secretary with reasonable promptness. Failure to render satisfactory performance reports or failure to complete the project to the satisfaction of the Secretary shall be cause for suspension of Federal assistance for the project until the project provisions are satisfactorily met. Federal assistance may be terminated upon determination by the Secretary that satisfactory progress has not been maintained. The Secretary shall have the right to inspect and review work at any time.

(b) Research and development work shall be continuously coordinated by the Cooperator with studies conducted by others to avoid unnecessary duplication.

(c) All work shall be performed in accordance with applicable local laws, except when in conflict with Federal laws or regulations, in which case Federal laws or regulations shall prevail.

§ 401.7 General information for the Secretary.

Before any Federal funds may be obligated for any project an applicant shall furnish to the Secretary, upon his request, information regarding the laws affecting anadromous fish and the authority of the applicant to participate in the benefits of the Act.

(a) Document signature. Individuals authorized to sign project documents under the Commercial Fisheries Research and Development Act of 1964 (78 Stat. 197, as amended), 16 U.S.C. 779 through 779f, or the Federal Aid in Sport Fish Restoration Act (64 Stat. 430, as amended), 16 U.S.C. 777 through 777f, may likewise sign project documents contemplated in this part.

(b) Program information. The Secretary may, from time to time, request, and the Cooperators shall furnish, information relating to the administration and maintenance of any project established under the Act.

§ 401.8 Availability of funds.

The period of availability of funds to the States or other non-Federal interests for obligation shall be established by the administering Federal agency.

§ 401.9 Payments to cooperators.

Payments shall be made to Cooperators in accordance with provisions of grant-in-aid awards or project agreements.

§ 401.10 Request for payment.

Request for payment shall be on forms provided by the Secretary, certified as therein prescribed, and submitted to the Regional Director by the Cooperator.

§ 401.11 Property as matching funds.

The non-Federal share of the cost of projects may be in the form of real or personal property. Specific procedures to be used by grantees in placing the value on real or personal property for matching funds are set forth in Attachment F of Federal Management Circular 74-7.

§ 401.12 Ownership of property.

When real property is acquired pursuant to the provisions of the Act, title to such property, or interests therein, shall be vested in the United States, and the conveying instrument shall recite the United States of America as the grantee. However, if the Secretary determines that under the terms of the application for Federal assistance and
Joint Regulations on Endangered Species

§ 401.21

grant-in-aid award or project agreement, the intent and purpose of the Act may be better served by other ownership of such property, an appropriate transfer may be made. When real or personal property is utilized as matching funds, title to such property shall be in the Cooperator unless otherwise specified in the grant-in-aid award or project agreement.

§ 401.13 Personnel.
The Cooperator shall maintain an adequate and competent force of employees to initiate and carry approved work to satisfactory completion.

§ 401.14 Inspection.
Cooperator supervision of each project shall include adequate and continuous inspection. The project will be subject at all times to Federal inspection.

§ 401.15 Record retention.
All records of accounts and reports with supporting documentation therefor, as set forth in Attachment C of Federal Management Circular 74-7, will be retained by the Cooperator for a period of 3 years after submission of the final expenditure report on the project. Record retention for a period longer than 3 years is required if audit findings have not been resolved.

§ 401.16 Records and reporting.
Performance reports and other reports shall be furnished as requested by the Secretary. Cost records shall be maintained separately for each project. The accounts and records maintained by the Cooperator, together with all supporting documents, shall be open at all times to the inspection of authorized representatives of the United States, and copies thereof shall be furnished when requested.

(Approved by the Office of Management and Budget under control number 0648-0102)

§ 401.17 Safety and accident prevention.
In the performance of each project, the Cooperator shall comply with all applicable Federal, State, and local laws governing safety, health and sanitation.

§ 401.18 Contracts.
A Cooperator may use its own regulations or guidelines in obtaining services by contract or otherwise, provided that they adhere to applicable Federal laws, regulations, policies, guidelines, and requirements, as set forth in Attachment D of Federal Management Circular 74-7. However, the Cooperator is the responsible authority, without recourse to the Federal agency, regarding the settlement of such contractual issues.

§ 401.19 Statements and payrolls.
The regulations of the Secretary of Labor applicable to contractors and subcontractors (29 CFR part 3), made pursuant to the Copeland “Anti-Kickback” Act (18 U.S.C. 874), as amended, are made a part of the regulations in this part by reference. The Cooperator will comply with the regulations in this part and any amendments or modifications thereof, and the Cooperator’s prime contractor will be responsible for the submission of statements required of subcontractors thereunder. The foregoing shall apply except as the Secretary of Labor may specifically provide for reasonable limitation, variations, tolerances, and exemptions.

§ 401.20 Officials not to benefit.
No Member of, or Delegate to, Congress, or resident Commissioner, shall be admitted to any share or any part of any project agreement made under the Act, or to any benefit that may arise therefrom. This provision shall not be construed to extend to this agreement if made with a corporation for its general benefit.

§ 401.21 Patents and inventions.
Determination of the patent rights in any inventions or discoveries resulting from work under project agreements entered into pursuant to the Act shall be consistent with the “Government Patent Policy” (President’s memorandum for Heads of Executive Departments and Agencies, August 23, 1971, and statement of Government Patent Policy as printed in 36 FR 16889).
§ 401.22 Civil rights.

Each application for Federal assistance, grant-in-aid award, or project agreement shall be supported by a statement of assurances executed by the Cooperator providing that the project will be carried out in accordance with title VI, Nondiscrimination in federally Assisted Programs of the Civil Rights Act of 1964 and with the Secretary's regulations promulgated thereunder.

§ 401.23 Audits.

The State is required to conduct an audit at least every two years in accordance with the provisions of Attachment P OMB Circular A-102. Failure to conduct audits as required may result in withholding of grant payments or such other sanctions as the Secretary may deem appropriate.

[49 FR 30074, July 26, 1984]

PART 402—INTERAGENCY CO-OPERATION—ENDANGERED SPECIES ACT OF 1973, AS AMENDED

Subpart A—General

Sec.
402.01 Scope.
402.02 Definitions.
402.03 Applicability.
402.04 Counterpart regulations.
402.05 Emergencies.
402.06 Coordination with other environmental reviews.
402.07 Designation of lead agency.
402.08 Designation of non-Federal representative.
402.09 Irreversible or irrevocable commitment of resources.

Subpart B—Consultation Procedures

402.10 Conference on proposed species or proposed critical habitat.
402.11 Early consultation.
402.12 Biological assessments.
402.13 Informal consultation.
402.14 Formal consultation.
402.15 Responsibilities of Federal agency following issuance of a biological opinion.
402.16 Reinitiation of formal consultation.

Authority: 16 U.S.C. 1531 et seq.

Source: 51 FR 19957, June 3, 1986, unless otherwise noted.
Joint Regulations on Endangered Species § 402.02

or critical habitat Biological assessments are required under section 7(c) of the Act if listed species or critical habitat may be present in the area affected by any major construction activity as defined in §404.02. Section 7(d) of the Act prohibits Federal agencies and applicants from making any irreversible or irretrievable commitment of resources which has the effect of foreclosing the formulation or implementation of reasonable and prudent alternatives which would avoid jeopardizing the continued existence of listed species or resulting in the destruction or adverse modification of critical habitat. Section 7(e)-(o)(1) of the Act provide procedures for granting exemptions from the requirements of section 7(a)(2). Regulations governing the submission of exemption applications are found at 50 CFR part 451, and regulations governing the exemption process are found at 50 CFR parts 450, 452, and 453.

(b) The U.S. Fish and Wildlife Service (FWS) and the National Marine Fisheries Service (NMFS) share responsibilities for administering the Act. The Lists of Endangered and Threatened Wildlife and Plants are found in 50 CFR 17.11 and 17.12 and the designated critical habitats are found in 50 CFR 17.95 and 17.96 and 50 CFR part 226. Endangered or threatened species under the jurisdiction of the NMFS are located in 50 CFR 222.23(a) and 227.4. If the subject species is cited in 50 CFR 222.23(a) or 227.4, the Federal agency shall contact the NMFS. For all other listed species the Federal Agency shall contact the FWS.

§ 402.02 Definitions.

Action means all activities or programs of any kind authorized, funded, or carried out, in whole or in part, by Federal agencies in the United States or upon the high seas. Examples include, but are not limited to:

(a) actions intended to conserve listed species or their habitat;
(b) the promulgation of regulations;
(c) the granting of licenses, contracts, leases, easements, rights-of-way, permits, or grants-in-aid; or
(d) actions directly or indirectly causing modifications to the land, water, or air.

Action area means all areas to be affected directly or indirectly by the Federal action and not merely the immediate area involved in the action.

Applicant refers to any person, as defined in section 3(13) of the Act, who requires formal approval or authorization from a Federal agency as a prerequisite to conducting the action.

Biological assessment refers to the information prepared by or under the direction of the Federal agency concerning listed and proposed species and designated and proposed critical habitat that may be present in the action area and the evaluation potential effects of the action on such species and habitat.

Biological opinion is the document that states the opinion of the Service as to whether or not the Federal action is likely to jeopardize the continued existence of listed species or result in the destruction or adverse modification of critical habitat.

Conference is a process which involves informal discussions between a Federal agency and the Service under section 7(a)(4) of the Act regarding the impact of an action on proposed species or proposed critical habitat and recommendations to minimize or avoid the adverse effects.

Conservation recommendations are suggestions of the Service regarding discretionary measures to minimize or avoid adverse effects of a proposed action on listed species or critical habitat or regarding the development of information.

Critical habitat refers to an area designated as critical habitat listed in 50 CFR parts 17 or 226.

Cumulative effects are those effects of future State or private activities, not involving Federal activities, that are reasonably certain to occur within the action area of the Federal action subject to consultation.

Designated non-Federal representative refers to a person designated by the Federal agency as its representative to conduct informal consultation and/or to prepare any biological assessment.

Destruction or adverse modification means a direct or indirect alteration that appreciably diminishes the value
of critical habitat for both the survival and recovery of a listed species. Such alterations include, but are not limited to, alterations adversely modifying any of those physical or biological features that were the basis for determining the habitat to be critical.

Director refers to the Assistant Administrator for Fisheries for the National Oceanic and Atmospheric Administration, or his authorized representative; or the Fish and Wildlife Service regional director, or his authorized representative, for the region where the action would be carried out.

Early consultation is a process requested by a Federal agency on behalf of a prospective applicant under section 7(a)(3) of the Act.

Effects of the action refers to the direct and indirect effects of an action on the species or critical habitat, together with the effects of other activities that are interrelated or interdependent with that action, that will be added to the environmental baseline. The environmental baseline includes the past and present impacts of all Federal, State, or private actions and other human activities in the action area, the anticipated impacts of all proposed Federal projects in the action area that have already undergone formal or early section 7 consultation, and the impact of State or private actions which are contemporaneous with the consultation in process. Indirect effects are those that are caused by the proposed action and are later in time, but still are reasonably certain to occur. Interrelated actions are those that are part of a larger action and depend on the larger action for their justification. Interdependent actions are those that have no independent utility apart from the action under consideration.

Formal consultation is a process between the Service and the Federal agency that commences with the Federal agency’s written request for consultation under section 7(a)(2) of the Act and concludes with the Service’s issuance of the biological opinion under section 7(b)(3) of the Act.

Informal consultation is an optional process that includes all discussions, correspondence, etc., between the Service and the Federal agency or the designated non-Federal representative prior to formal consultation, if required.

Jeopardize the continued existence of means to engage in an action that reasonably would be expected, directly or indirectly, to reduce appreciably the likelihood of both the survival and recovery of a listed species in the wild by reducing the reproduction, numbers, or distribution of that species.

Listed species means any species of fish, wildlife, or plant which has been determined to be endangered or threatened under section 4 of the Act. Listed species are found in 50 CFR 17.11-17.12.

Major construction activity is a construction project (or other undertaking having similar physical impacts) which is a major Federal action significantly affecting the quality of the human environment as referred to in the National Environmental Policy Act (NEPA, 42 U.S.C. 4332(2)(C)).

Preliminary biological opinion refers to an opinion issued as a result of early consultation.

Proposed critical habitat means habitat proposed in the Federal Register to be designated or revised as critical habitat under section 4 of the Act for any listed or proposed species.

Proposed species means any species of fish, wildlife, or plant that is proposed in the Federal Register to be listed under section 4 of the Act.

Reasonable and prudent alternatives refer to alternative actions identified during formal consultation that can be implemented in a manner consistent with the intended purpose of the action, that can be implemented consistent with the scope of the Federal agency’s legal authority and jurisdiction, that is economically and technologically feasible, and that the Director believes would avoid the likelihood of jeopardizing the continued existence of listed species or resulting in the destruction or adverse modification of critical habitat.

Reasonable and prudent measures refer to those actions the Director believes necessary or appropriate to minimize
Joint Regulations on Endangered Species
§ 402.08

the impacts, i.e., amount or extent, of incidental take.

Recovery means improvement in the status of listed species to the point at which listing is no longer appropriate under the criteria set out in section 4(a)(1) of the Act.

Service means the U.S. Fish and Wildlife Service or the National Marine Fisheries Service, as appropriate.

§ 402.03 Applicability.

Section 7 and the requirements of this part apply to all actions in which there is discretionary Federal involvement or control.

§ 402.04 Counterpart regulations.

The consultation procedures set forth in this part may be superseded for a particular Federal agency by joint counterpart regulations among that agency, the Fish and Wildlife Service, and the National Marine Fisheries Service. Such counterpart regulations shall be published in the Federal Register in proposed form and shall be subject to public comment for at least 60 days before final rules are published.

§ 402.05 Emergencies.

(a) Where emergency circumstances mandate the need to consult in an expedited manner, consultation may be conducted informally through alternative procedures that the Director determines to be consistent with the requirements of sections 7(a)–(d) of the Act. This provision applies to situations involving acts of God, disasters, casualties, national defense or security emergencies, etc.

(b) Formal consultation shall be initiated as soon as practicable after the emergency is under control. The Federal agency shall submit information on the nature of the emergency action(s), the justification for the expedited consultation, and the impacts to endangered or threatened species and their habitats. The Service will evaluate such information and issue a biological opinion including the information and recommendations given during the emergency consultation.

§ 402.06 Coordination with other environmental reviews.

(a) Consultation, conference, and biological assessment procedures under section 7 may be consolidated with interagency cooperation procedures required by other statutes, such as the National Environmental Policy Act (NEPA) (42 U.S.C. 4321 et seq., implemented at 40 CFR Parts 1500–1508) or the Fish and Wildlife Coordination Act (FWCA) (16 U.S.C. 661 et seq.). Satisfying the requirements of these other statutes, however, does not in itself relieve a Federal agency of its obligations to comply with the procedures set forth in this part or the substantive requirements of section 7. The Service will attempt to provide a coordinated review and analysis of all environmental requirements.

(b) Where the consultation or conference has been consolidated with the interagency cooperation procedures required by other statutes such as NEPA or FWCA, the results should be included in the documents required by those statutes.

§ 402.07 Designation of lead agency.

When a particular action involves more than one Federal agency, the consultation and conference responsibilities may be fulfilled through a lead agency. Factors relevant in determining an appropriate lead agency include the time sequence in which the agencies would become involved, the magnitude of their respective involvement, and their relative expertise with respect to the environmental effects of the action. The Director shall be notified of the designation in writing by the lead agency.

§ 402.08 Designation of non-Federal representative.

A Federal agency may designate a non-Federal representative to conduct informal consultation or prepare a biological assessment by giving written notice to the Director of such designation. If a permit or license applicant is involved and is not the designated non-Federal representative, then the applicant and Federal agency must agree on the choice of the designated non-Federal representative. If a biological assessment is prepared by the designated

377
non-Federal representative, the Federal agency shall furnish guidance and supervision and shall independently review and evaluate the scope and contents of the biological assessment. The ultimate responsibility for compliance with section 7 remains with the Federal agency.

§ 402.09 Irreversible or irretrievable commitment of resources.

After initiation or reinitiation of consultation required under section 7(a)(2) of the Act, the Federal agency and any applicant shall make no irreversible or irretrievable commitment of resources with respect to the agency action which has the effect of foreclosing the formulation or implementation of any reasonable and prudent alternatives which would avoid violating section 7(a)(2). This prohibition is in force during the consultation process and continues until the requirements of section 7(a)(2) are satisfied. This provision does not apply to the conference requirement for proposed species or proposed critical habitat under section 7(a)(4) of the Act.

Subpart B—Consultation Procedures

§ 402.10 Conference on proposed species or proposed critical habitat.

(a) Each Federal agency shall confer with the Service on any action which is likely to jeopardize the continued existence of any proposed species or result in the destruction or adverse modification of proposed critical habitat. The conference is designed to assist the Federal agency and any applicant in identifying and resolving potential conflicts at an early stage in the planning process.

(b) The Federal agency shall initiate the conference with the Director. The Service may request a conference if, after a review of available information, it determines that a conference is required for a particular action.

(c) A conference between a Federal agency and the Service shall consist of informal discussions concerning an action that is likely to jeopardize the continued existence of the proposed species or result in the destruction or adverse modification of the proposed critical habitat at issue. Applicants may be involved in these informal discussions to the greatest extent practicable. During the conference, the Service will make advisory recommendations, if any, on ways to minimize or avoid adverse effects. If the proposed species is subsequently listed or the proposed critical habitat is designated prior to completion of the action, the Federal agency must review the action to determine whether formal consultation is required.

(d) If requested by the Federal agency and deemed appropriate by the Service, the conference may be conducted in accordance with the procedures for formal consultation in § 402.14. An opinion issued at the conclusion of the conference may be adopted as the biological opinion when the species is listed or critical habitat is designated, but only if no significant new information is developed (including that developed during the rulemaking process on the proposed listing or critical habitat designation) and no significant changes to the Federal action are made that would alter the content of the opinion. An incidental take statement provided with a conference opinion does not become effective unless the Service adopts the opinion once the listing is final.

(e) The conclusions reached during a conference and any recommendations shall be documented by the Service and provided to the Federal agency and to any applicant. The style and magnitude of this document will vary with the complexity of the conference. If formal consultation also is required for a particular action, then the Service will provide the results of the conference with the biological opinion.

§ 402.11 Early consultation.

(a) Purpose. Early consultation is designed to reduce the likelihood of conflicts between listed species or critical habitat and proposed actions and occurs prior to the filing of an application for a Federal permit or license. Although early consultation is conducted between the Service and the Federal agency, the prospective applicant should be involved throughout the consultation process.

(b) Request by prospective applicant. If a prospective applicant has reason to
believe that the prospective action may affect listed species or critical habitat, it may request the Federal agency to enter into early consultation with the Service. The prospective applicant must certify in writing to the Federal agency that (1) it has a definitive proposal outlining the action and its effects and (2) it intends to implement its proposal, if authorized.

(c) Initiation of early consultation. If the Federal agency receives the prospective applicant’s certification in paragraph (b) of this section, then the Federal agency shall initiate early consultation with the Service. This request shall be in writing and contain the information outlined in §402.14(c) and, if the action is a major construction activity, the biological assessment as outlined in §402.12.

d) Procedures and responsibilities. The procedures and responsibilities for early consultation are the same as outlined in §402.14(c)–(j) for formal consultation except that all references to the “applicant” shall be treated as the “prospective applicant” and all references to the “biological opinion” or the “opinion” shall be treated as the “preliminary biological opinion” for the purpose of this section.

(e) Preliminary biological opinion. The contents and conclusions of a preliminary biological opinion are the same as for a biological opinion issued after formal consultation except that the incidental take statement provided with a preliminary biological opinion does not constitute authority to take listed species.

(f) Confirmation of preliminary biological opinion as final biological opinion. A preliminary biological opinion may be confirmed as a biological opinion issued after formal consultation if the Service reviews the proposed action and finds that there have been no significant changes in the action as planned or in the information used during the early consultation. A written request for confirmation of the preliminary biological opinion should be submitted after the prospective applicant applies to the Federal agency for a permit or license but prior to the issuance of such permit or license. Within 45 days of receipt of the Federal agency’s request, the Service shall either:

(1) Confirm that the preliminary biological opinion stands as a final biological opinion; or

(2) If the findings noted above cannot be made, request that the Federal agency initiate formal consultation.

§402.12 Biological assessments.

(a) Purpose. A biological assessment shall evaluate the potential effects of the action on listed and proposed species and designated and proposed critical habitat and determine whether any such species or habitat are likely to be adversely affected by the action and is used in determining whether formal consultation or a conference is necessary.

(b) Preparation requirement. (1) The procedures of this section are required for Federal actions that are “major construction activities”; provided that a contract for construction was not entered into or actual construction was not begun on or before November 10, 1978. Any person, including those who may wish to apply for an exemption from section 7(a)(2) of the Act, may prepare a biological assessment under the supervision of the Federal agency and in cooperation with the Service consistent with the procedures and requirements of this section. An exemption from the requirements of section 7(a)(2) is not permanent unless a biological assessment has been prepared.

(2) The biological assessment shall be completed before any contract for construction is entered into and before construction is begun.

(c) Request for information. The Federal agency or the designated non-Federal representative shall convey to the Director either (1) a written request for a list of any listed or proposed species or designated or proposed critical habitat that may be present in the action area; or (2) a written notification of the species and critical habitat that are being included in the biological assessment.

(d) Director’s response. Within 30 days of receipt of the notification of, or the request for, a species list, the Director shall either concur with or revise the list or, in those cases where no list has
§ 402.12

been provided, advise the Federal agency or the designated non-Federal representative in writing whether, based on the best scientific and commercial data available, any listed or proposed species or designated or proposed critical habitat may be present in the action area. In addition to listed and proposed species, the Director will provide a list of candidate species that may be present in the action area. Candidate species refers to any species being considered by the Service for listing as endangered or threatened species but not yet the subject of a proposed rule. Although candidate species have no legal status and are accorded no protection under the Act, their inclusion will alert the Federal agency of potential proposals or listings.

(1) If the Director advises that no listed species or critical habitat may be present, the Federal agency need not prepare a biological assessment and further consultation is not required. If only proposed species or proposed critical habitat may be present in the action area, then the Federal agency must confer with the Service if required under § 402.10, but preparation of a biological assessment is not required unless the proposed listing and/or designation becomes final.

(2) If a listed species or critical habitat may be present in the action area, the Director will provide a species list or concur with the species list provided. The Director also will provide available information (or references thereto) regarding these species and critical habitat, and may recommend discretionary studies or surveys that may provide a better information base for the preparation of an assessment. Any recommendation for studies or surveys is not to be construed as the Service's opinion that the Federal agency has failed to satisfy the information standard of section 7(a)(2) of the Act.

(f) Contents. The contents of a biological assessment are at the discretion of the Federal agency and will depend on the nature of the Federal action. The following may be considered for inclusion:

(1) The results of an on-site inspection of the area affected by the action to determine if listed or proposed species are present or occur seasonally.

(2) The views of recognized experts on the species at issue.

(3) A review of the literature and other information.

(4) An analysis of the effects of the action on the species and habitat, including consideration of cumulative effects, and the results of any related studies.

(5) An analysis of alternate actions considered by the Federal agency for the proposed action.

(g) Incorporation by reference. If a proposed action requiring the preparation of a biological assessment is identical, or very similar, to a previous action for which a biological assessment was prepared, the Federal agency may fulfill the biological assessment requirement for the proposed action by incorporating by reference the earlier biological assessment, plus any supporting data from other documents that are pertinent to the consultation, into a written certification that:

(1) The proposed action involves similar impacts to the same species in the same geographic area;

(2) No new species have been listed or proposed or no new critical habitat designated or proposed for the action area; and

(3) The biological assessment has been supplemented with any relevant changes in information.

(h) Permit requirements. If conducting a biological assessment will involve the taking of a listed species, a permit under section 10 of the Act (16 U.S.C. 1539) and part 17 of this title (with respect to species under the jurisdiction of the FWS) or parts 220, 222, and 227 of this title (with respect to species under the jurisdiction of the NMFS) is required.
(i) Completion time. The Federal agency or the designated non-Federal representative shall complete the biological assessment within 180 days after its initiation (receipt of or concurrence with the species list) unless a different period of time is agreed to by the Director and the Federal agency. If a permit or license applicant is involved, the 180-day period may not be extended unless the agency provides the applicant, before the close of the 180-day period, with a written statement setting forth the estimated length of the proposed extension and the reasons why such an extension is necessary.

(j) Submission of biological assessment. The Federal agency shall submit the completed biological assessment to the Director for review. The Director will respond in writing within 30 days as to whether or not he concurs with the findings of the biological assessment. At the option of the Federal agency, formal consultation may be initiated under §402.14(c) concurrently with the submission of the assessment.

(k) Use of the biological assessment. (1) The Federal agency shall use the biological assessment in determining whether formal consultation or a conference is required under §§402.14 or 402.10, respectively. If the biological assessment indicates that there are no listed species or critical habitat present that are likely to be adversely affected by the action and the Director concurs as specified in paragraph (j) of this section, then formal consultation is not required. If the biological assessment indicates that the action is not likely to jeopardize the continued existence of proposed species or result in the destruction or adverse modification of proposed critical habitat, and the Director concurs as specified in this section, then formal consultation is not required.

(2) The Director may use the results of the biological assessment in (i) determining whether to request the Federal agency to initiate formal consultation or a conference, (ii) formulating a biological opinion, or (iii) formulating a preliminary biological opinion.

§402.14 Formal consultation.

(a) Requirement for formal consultation. Each Federal agency shall review its actions at the earliest possible time to determine whether any action may affect listed species or critical habitat. If such a determination is made, formal consultation is required, except as noted in paragraph (b) of this section. The Director may request a Federal agency to enter into consultation if he identifies any action of that agency that may affect listed species or critical habitat and for which there has been no consultation. When such a request is made, the Director shall forward to the Federal agency a written explanation of the basis for the request.

(b) Exceptions. (1) A Federal agency need not initiate formal consultation if, as a result of the preparation of a biological assessment under §402.12 or as a result of informal consultation with the Service under §402.13, the Federal agency determines, with the written concurrence of the Director, that the proposed action is not likely to adversely affect any listed species or critical habitat.

(2) A Federal agency need not initiate formal consultation if a preliminary biological opinion, issued after early consultation under §402.11, is confirmed as the final biological opinion.
§ 402.14  50 CFR Ch. IV (10-1-98 Edition)

(c) Initiation of formal consultation. A written request to initiate formal consultation shall be submitted to the Director and shall include:

(1) A description of the action to be considered;

(2) A description of the specific area that may be affected by the action;

(3) A description of any listed species or critical habitat that may be affected by the action;

(4) A description of the manner in which the action may affect any listed species or critical habitat and an analysis of any cumulative effects;

(5) Relevant reports, including any environmental impact statement, environmental assessment, or biological assessment prepared; and

(6) Any other relevant available information on the action, the affected listed species, or critical habitat.

Formal consultation shall not be initiated by the Federal agency until any required biological assessment has been completed and submitted to the Director in accordance with § 402.12. Any request for formal consultation may encompass, subject to the approval of the Director, a number of similar individual actions within a given geographical area or a segment of a comprehensive plan. This does not relieve the Federal agency of the requirements for considering the effects of the action as a whole.

(d) Responsibility to provide best scientific and commercial data available. The Federal agency requesting formal consultation shall provide the Service with the best scientific and commercial data available or which can be obtained during the consultation for an adequate review of the effects that an action may have upon listed species or critical habitat. This information may include the results of studies or surveys conducted by the Federal agency or the designated non-Federal representative. The Federal agency shall provide any applicant with the opportunity to submit information for consideration during the consultation.

(e) Duration and extension of formal consultation. Formal consultation concludes within 90 days after its initiation unless extended as provided below. If an applicant is not involved, the Service and the Federal agency may mutually agree to extend the consultation for a specific time period. If an applicant is involved, the Service and the Federal agency may mutually agree to extend the consultation provided that the Service submits to the applicant, before the close of the 90 days, a written statement setting forth:

(1) The reasons why a longer period is required,

(2) The information that is required to complete the consultation, and

(3) The estimated date on which the consultation will be completed.

A consultation involving an applicant cannot be extended for more than 60 days without the consent of the applicant. Within 45 days after concluding formal consultation, the Service shall deliver a biological opinion to the Federal agency and any applicant.

(f) Additional data. When the Service determines that additional data would provide a better information base from which to formulate a biological opinion, the Director may request an extension of formal consultation and request that the Federal agency obtain additional data to determine how or to what extent the action may affect listed species or critical habitat. If formal consultation is extended by mutual agreement according to § 402.14(e), the Federal agency shall obtain, to the extent practicable, that data which can be developed within the scope of the extension. The responsibility for conducting and funding any studies belongs to the Federal agency and the applicant, not the Service. The Service's request for additional data is not to be construed as the Service's opinion that the Federal agency has failed to satisfy the information standard of section 7(a)(2) of the Act. If no extension of formal consultation is agreed to, the Director will issue a biological opinion using the best scientific and commercial data available.

(g) Service responsibilities. Service responsibilities during formal consultation are as follows:

(1) Review all relevant information provided by the Federal agency or otherwise available. Such review may include an on-site inspection of the action area with representatives of the Federal agency and the applicant.
(2) Evaluate the current status of the listed species or critical habitat.
(3) Evaluate the effects of the action and cumulative effects on the listed species or critical habitat.
(4) Formulate its biological opinion as to whether the action, taken together with cumulative effects, is likely to jeopardize the continued existence of listed species or result in the destruction or adverse modification of critical habitat.
(5) Discuss with the Federal agency and any applicant the Service's review and evaluation conducted under paragraphs (g)(1) through (3) of this section, the basis for any finding in the biological opinion, and the availability of reasonable and prudent alternatives (if a jeopardy opinion is to be issued) that the agency and the applicant can take to avoid violation of section 7(a)(2). The Service will utilize the expertise of the Federal agency and any applicant in identifying these alternatives. If requested, the Service shall make available to the Federal agency the draft biological opinion for the purpose of analyzing the reasonable and prudent alternatives. The 45-day period in which the biological opinion must be delivered will not be suspended unless the Federal agency secures the written consent of the applicant to an extension to a specific date. The applicant may request a copy of the draft opinion from the Federal agency. All comments on the draft biological opinion must be submitted to the Service through the Federal agency, although the applicant may send a copy of its comments directly to the Service. The Service will not issue its biological opinion prior to the 45-day or extended deadline while the draft is under review by the Federal agency. However, if the Federal agency submits comments to the Service regarding the draft biological opinion within 10 days of the deadline for issuing the opinion, the Service is entitled to an automatic 10-day extension on the deadline.
(6) Formulate discretionary conservation recommendations, if any, which will assist the Federal agency in reducing or eliminating the impacts that its proposed action may have on listed species or critical habitat.
(7) Formulate a statement concerning incidental take, if such take may occur.
(8) In formulating its biological opinion, any reasonable and prudent alternatives, and any reasonable and prudent measures, the Service will use the best scientific and commercial data available and will give appropriate consideration to any beneficial actions taken by the Federal agency or applicant, including any actions taken prior to the initiation of consultation.

(h) Biological opinions. The biological opinion shall include:

(1) A summary of the information on which the opinion is based;
(2) A detailed discussion of the effects of the action on listed species or critical habitat; and
(3) The Service's opinion on whether the action is likely to jeopardize the continued existence of a listed species or result in the destruction or adverse modification of critical habitat (a "jeopardy" biological opinion); or, the action is not likely to jeopardize the continued existence of a listed species or result in the destruction or adverse modification of critical habitat (a "no jeopardy" biological opinion). A "jeopardy" biological opinion shall include reasonable and prudent alternatives, if any. If the Service is unable to develop such alternatives, it will indicate that to the best of its knowledge there are no reasonable and prudent alternatives.

(i) Incidental take. (1) In those cases where the Service concludes that an action (or the implementation of any reasonable and prudent alternatives) and the resultant incidental take of listed species will not violate section 7(a)(2), and, in the case of marine mammals, where the taking is authorized pursuant to section 101(a)(5) of the Marine Mammal Protection Act of 1972, the Service will provide with the biological opinion a statement concerning incidental take that:

(i) Specifies the impact, i.e., the amount or extent, of such incidental taking on the species;
(ii) Specifies those reasonable and prudent measures that the Director considers necessary or appropriate to minimize such impact;
(iii) In the case of marine mammals, specifies those measures that are necessary to comply with section 101(a)(5) of the Marine Mammal Protection Act of 1972 and applicable regulations with regard to such taking;

(iv) Sets forth the terms and conditions (including, but not limited to, reporting requirements) that must be complied with by the Federal agency or any applicant to implement the measures specified under paragraphs (i)(1)(ii) and (i)(1)(iii) of this section;

and

(v) Specifies the procedures to be used to handle or dispose of any individuals of a species actually taken.

(2) Reasonable and prudent measures, along with the terms and conditions that implement them, cannot alter the basic design, location, scope, duration, or timing of the action and may involve only minor changes.

(3) In order to monitor the impacts of incidental take, the Federal agency or any applicant must report the progress of the action and its impact on the species to the Service as specified in the incidental take statement. The reporting requirements will be established in accordance with 50 CFR 13.45 and 18.27 for FWS and 50 CFR 220.45 and 228.5 for NMFS.

(4) If during the course of the action the amount or extent of incidental taking, as specified under paragraph (i)(1)(i) of this Section, is exceeded, the Federal agency must reinitiate consultation immediately.

(5) Any taking which is subject to a statement as specified in paragraph (i)(1) of this section and which is in compliance with the terms and conditions of that statement is not a prohibited taking under the Act, and no other authorization or permit under the Act is required.

(j) Conservation recommendations. The Service may provide with the biological opinion a statement containing discretionary conservation recommendations. Conservation recommendations are advisory and are not intended to carry any binding legal force.

(k) Incremental steps. When the action is authorized by a statute that allows the agency to take incremental steps toward the completion of the action, the Service shall, if requested by the Federal agency, issue a biological opinion on the incremental step being considered, including its views on the entire action. Upon the issuance of such a biological opinion, the Federal agency may proceed with or authorize the incremental steps of the action if:

(1) The biological opinion does not conclude that the incremental step would violate section 7(a)(2);

(2) The Federal agency continues consultation with respect to the entire action and obtains biological opinions, as required, for each incremental step;

(3) The Federal agency fulfills its continuing obligation to obtain sufficient data upon which to base the final biological opinion on the entire action;

(4) The incremental step does not violate section 7(d) of the Act concerning irreversible or irrevocable commitment of resources; and

(5) There is a reasonable likelihood that the entire action will not violate section 7(a)(2) of the Act.

(l) Termination of consultation.

(1) Formal consultation is terminated with the issuance of the biological opinion.

(2) If during any stage of consultation a Federal agency determines that its proposed action is not likely to occur, the consultation may be terminated by written notice to the Service.

(3) If during any stage of consultation a Federal agency determines, with the concurrence of the Director, that its proposed action is not likely to adversely affect any listed species or critical habitat, the consultation is terminated.

[51 FR 19957, June 3, 1986, as amended at 54 FR 40350, Sept. 29, 1989]
Joint Regulations on Endangered Species

(c) If the Federal agency determines that it cannot comply with the requirements of section 7(a)(2) after consultation with the Service, it may apply for an exemption. Procedures for exemption applications by Federal agencies and others are found in 50 CFR part 451.

§ 402.16 Reinitiation of formal consultation.

Reinitiation of formal consultation is required and shall be requested by the Federal agency or by the Service, where discretionary Federal involvement or control over the action has been retained or is authorized by law and:

(a) If the amount or extent of taking specified in the incidental take statement is exceeded;

(b) If new information reveals effects of the action that may affect listed species or critical habitat in a manner or to an extent not previously considered;

(c) If the identified action is subsequently modified in a manner that causes an effect to the listed species or critical habitat that was not considered in the biological opinion; or

(d) If a new species is listed or critical habitat designated that may be affected by the identified action.

PART 403—TRANSFER OF MARINE MAMMAL MANAGEMENT AUTHORITY TO STATES

§ 403.01 Purpose and scope of regulations.

The regulations contained in this part implement section 109 of the Act which, upon a finding by the Secretary of compliance with certain requirements, provides for the transfer of marine mammal management authority to the states.

(a) The regulations of this part apply the procedures for the transfer of marine mammal management authority to a state, the form and minimum requirements of a state application for the transfer of management authority, the relationship between Federal and state wildlife agencies both prior and subsequent to the transfer of management authority, and the revocation and return of management authority to the Federal Government.

(b) Nothing in this part shall prevent:

(1) The taking of a marine mammal by or on behalf of a Federal, state or local government official, in accordance with § 18.22 or § 216.22 of this Title and section 109(h) of the Act, or (2) the adoption or enforcement of any state law or regulation relating to any marine mammal taken before December 21, 1972.

(c) The information collection requirements contained in §§ 403.03, 403.06, and 403.07 of this part do not require approval by the Office of Management and Budget under 44 U.S.C. 3501 et seq., because there are fewer than 10 respondents annually.

§ 403.02 Definitions.

The following definitions apply to this part:

(a) The term species includes any population stock.

(b) Optimum Sustainable Population or OSP means a population size which falls within a range from the population level of a given species or stock which is the largest supportable within the ecosystem to the population level that results in maximum net productivity. Maximum net productivity is the greatest net annual increment in population numbers or biomass resulting from additions to the population due to reproduction and/or growth less losses due to natural mortality.

(c) State management program means existing and proposed state statutes,
§ 403.03 Review and approval of State request for management authority.

(a) Any state may request the transfer of management authority for a species of marine mammals by submitting a written request to the Director of the Fish and Wildlife Service ("Director") for species of marine mammals under the jurisdiction of the FWS, or to the Assistant Administrator for Fisheries of the National Marine Fisheries Service ("Assistant Administrator") for species of marine mammals under the jurisdiction of the NMFS. The request must include:

(1) Copies of existing and proposed statutes, regulations, policies and other authorities of state law which comprise those aspects of the state management program outlined in paragraph (b) of this section, and, in the case of Alaska, paragraphs (d) (1) through (3) of this section;

(2) A narrative discussion of the statutes, regulations, policies and other authorities which comprise those aspects of the state management program outlined in paragraph (b) of this section, and, in the case of Alaska, paragraph (d) of this section, which explains the program in terms of the requirements of the Act and the regulations of this part; and

(3) Supplementary information as required by paragraph (c) of this section.

(b) A request for transfer of marine mammal management authority will not be approved unless it contains the following:

(1) The scientific and common names and estimated range of the species of marine mammals subject to the state management program.

(2) Provisions of state law concerning the take of marine mammals that—

(i) Require that the taking of marine mammals be humane as defined by section 3(4) of the Act;

(ii) Do not permit the taking of marine mammals until the following have occurred:

(A) The state, pursuant to the requirements of §403.04 of this part, has determined that the species is at its Optimum Sustainable Population (OSP) and determined the maximum number of animals that may be taken without reducing the species below its OSP, and, in the case of Alaska, when a species is below OSP, the maximum numbers that can be taken for subsistence uses while allowing the species to increase toward its OSP;

(B) The determination as to OSP and maximum take are final and implemented under state law; and

(C) A cooperative allocation agreement, if required under §403.05(a) of this part, is implemented;

(iii) Do not permit take in excess of the maximum number of animals that may be taken as determined pursuant to §403.04 of this part; provided that for

(3) The Secretary means the Secretary of Commerce, depending on the species involved. Under section 3(11) of the Act, the Secretary of Commerce has jurisdiction over members of the order Cetacea and members, other than walruses, of the order Pinnipedia; the Secretary of the Interior has jurisdiction over all other mammals. These secretarial authorities have been delegated to the National Marine Fisheries Service and the Fish and Wildlife Service, respectively.

(g) The Service or Services means the Fish and Wildlife Service (FWS) and the National Marine Fisheries Service (NMFS), as appropriate depending on the species involved. Any determination or finding required by this part to be made by the "Service" must be made by the Director of the FWS or by the Assistant Administrator of the NMFS, or their delegates, as appropriate.
Joint Regulations on Endangered Species § 403.03

Alaska, subsistence take may be allowed in accordance with paragraph (d) of this section, and if the species is below OSP, any level of take allowed for subsistence use shall permit the species to increase toward OSP;

(iv) Do not permit take that is for scientific research or public display purposes except such take by or on behalf of the state, or pursuant to a Federal permit issued under § 18.31 or § 216.31 of this title; and

(v) Regulate the incidental taking of the species in a manner consistent with section 101(a) (2), (4) and (5) of the Act.

(3) Provisions for annually acquiring and evaluating data and other new evidence relating to OSP of the species and the maximum allowable take, and if warranted on the basis of such evaluation, for requiring reevaluations of OSP and maximum allowable take determinations pursuant to § 403.04.

(4) Procedures for the resolution of differences between the state and the appropriate Service that might arise during the development of a cooperative allocation agreement pursuant to § 403.05(a) of this part.

(5) Procedures for the submission of an annual report meeting the requirements of § 403.05(b) of this part to the appropriate Service regarding the administration of the state management program during the reporting period.

(6) A description of—

(i) The organization of state offices involved in the administration and enforcement of the state management program;

(ii) Any permit system relating to the marine mammals, the laws that apply to such permits, and the procedures to be used in granting or withholding such permits;

(iii) State laws relating to judicial review of administrative decisions as they relate to the state management program;

(iv) State laws relating to administrative rulemaking as they relate to the state management program;

(c) In addition to the aspects of the state management program required to be submitted by paragraph (b) of this section, the state shall submit information, in summary form, relating to:

(1) The anticipated staffing and funding of state offices involved in the administration and enforcement of the state management program;

(2) Anticipated research and enforcement activities relating to conservation of the species for which management authority is sought; and

(3) Such other materials and information as the Service may request or which the state may deem necessary or advisable to demonstrate the compatibility of the state management program with the policy and purposes of the Act and the rules and regulations issued under the Act.

(d) In addition to the requirements contained in paragraphs (b) and (c) of this section, a request for the transfer of marine mammal management authority by the State of Alaska must contain the following concerning subsistence use of the species—

(1) A statute and regulations concerning the take of marine mammals that ensure that

(i) The taking of marine mammals species for subsistence uses will be the priority consumptive uses of the species;

(ii) If restrictions on subsistence uses of the species are required, such restrictions shall be based upon the customary and direct dependence upon the species as the mainstay of livelihood, local residency, and the availability of alternative resources; and

(iii) The taking of marine mammal species for subsistence uses is accomplished in a non-wasteful manner;

(2) Statutes or regulations that ensure that the appropriate state agency will—

(i) Authorize nonsubsistence consumptive uses of a marine mammal species only if such uses will have no significant adverse impact on subsistence uses of the species;

(ii) Regulate nonsubsistence consumptive uses in a manner which, to the maximum extent practicable, provides economic opportunities, including, but not limited to, licensing of marine mammal hunting guides and the assignment of guiding areas, for residents of rural coastal villages of Alaska who engage in subsistence uses of the species; and

(iii) Make written findings supporting the authorizations and regulations
§ 403.04 Determinations and hearings under section 109(c) of the MMPA.

(a) Introduction. In order to gain approval of its marine mammal management program the state must provide for a process, consistent with section 109(c) of the Act, to determine the optimum sustainable population of the species and the maximum number of animals that may be taken from populations it manages without reducing the species below OSP. The state process must be completed before the state may exercise any management authority over the subject marine mammals, and it must include the elements set forth below.

(b) Basis, purpose, and scope. The process set forth in this section is applicable to and required for only the determination of the OSP of the species and maximum number that may be taken without reducing it below its OSP and, in the case of Alaska if the species is below OSP, the maximum

VerDate 10<SEP>98 01:53 Oct 29, 1998 Jkt 179207 PO 00000 Frm 00384 Fmt 8010 Sfmt 8010 Y:\SGML\179207T.XXX pfrm02 PsN: 179207T
number of animals that may be taken, if any, for subsistence uses without preventing the species from increasing toward its OSP. The state need not allow the maximum take, as determined in accordance with this process, that is biologically permissible. The state may change regulations establishing bag limits, quotas, seasons, areas, manner of take, etc. within the maximum biologically permissible take pursuant to its other rulemaking criteria, authority, and procedures. Compliance with the process set forth in this section would not be required again unless the state proposes to modify its determinations of the status of the species with respect to its OSP or the maximum permissible take from that species.

(c) Initial determination by the State. The state agency with responsibility for managing the species in the event management authority is transferred to the state shall make initial determinations on the basis of the best scientific evidence available of:

(1) Whether or not it is at its OSP; (2) if so, the maximum number of that species that may be taken without reducing it below its OSP; and (3) if not, in the case of Alaska, the maximum number of animals that may be taken, if any, for subsistence uses without preventing the species from increasing toward its OSP.

(d) Notice and review of initial determinations and request for hearing. The state agency shall provide notice of its initial determinations to the Service and the public and shall provide access to or copies of the documentation supporting its determinations to the Service and the public. The state agency shall indicate, in the notice of its initial determinations, the location(s) and hours during which such documentation may be inspected, and the costs, if any, of copies of such documentation. The state agency shall also indicate in the notice that any interested person may request a hearing regarding the initial determinations, and the state shall provide a reasonable time, not less than 30 days, for making the request, taking into account the time required to advise the public of the initial determinations and to make the supporting documentation readily available to interested persons for their consideration. If a request for a hearing is not made within the prescribed time period, the initial determinations shall be treated as final.

(e) Notice of hearing. If a request for a hearing is made within the prescribed time period by any interested person, the state agency shall provide notice of the hearing to the Service and the public not less than 30 days in advance of the scheduled date(s) of the hearing(s). The notice shall include the date(s), location(s), and purpose of the hearing, a recitation of the initial determinations, the name(s) of the person(s) who will preside at the hearing, and the manner and date by which interested persons must notify the state agency or presiding officer(s) of their desire to participate in the hearing. The state shall also make available and distribute upon request a list of witnesses and description of the documentation and other evidence that will be relied upon by the state’s witnesses in support of its initial determinations sufficiently in advance of the hearing date so as to allow interested persons to prepare questions and supporting or rebuttal testimony for the hearing.

(f) Conduct of the hearing. (1) The hearing shall be publicly conducted and reported verbatim by an official reporter.

(2) The state shall sponsor all written documentation in support of its determinations with witnesses who are able, by virtue of training and experience, to respond fully to cross-examination regarding the facts and conclusions contained therein provided that, except by agreement of the parties, the state agency may not call any witnesses or introduce any documentation into the record unless the advance notice requirements of paragraph (e) of this section are met with respect to such witnesses or documentation.

(3) Any interested person who has notified the state agency of his desire to participate in the hearing pursuant to paragraph (e) of this section may participate in the hearing by presenting oral or written testimony or cross-examining the witnesses or other parties with respect to matters relevant to
§ 403.05 State and Federal responsibilities after transfer of management authority.

(a) After determinations required by section 403.04 of this part have been made in respect to a species whose range extends beyond the territorial waters of the state, the state shall not exercise management authority until a cooperative allocation agreement with the Secretary has been signed and the Service has transferred management authority pursuant to § 403.03(h). The cooperative allocation agreement shall provide procedures for allocating, on a timely basis, the maximum amount of take as determined by the state pursuant to § 403.04 of this part. Such allocation shall give first priority to incidental take within the zone described in section 3(14)(B) of the Act as provided for under section 101(a) of the Act, except that in the case of Alaska, first priority shall be given to subsistence use.

(b) For those species to which paragraph (a) of this section applies, the state may request the Service to regulate the taking of the species within the zone described in section 3(14)(B) of the Act for subsistence uses and/or hunting in a manner consistent with the regulation by the state of such taking within the state. If such a request is made, the Service shall adopt and enforce within such zone, such of the state’s regulatory provisions as the Service considers to be consistent with the administration within such zone of section 101(a) of the Act.
(c) If management authority for a species has been transferred to a state pursuant to this subpart, the Service shall provide to the state an opportunity to review all requests for permits to remove live animals from habitat within the state for scientific research or public display purposes. If the state finds that issuance of the permit would not be consistent with its management program for the species:

1. The state shall so inform the Service, together with the reasons for such finding, within 30 days of its receipt of the application, and the Service shall not issue the permit; and

2. The Service shall provide to the permit applicant and the state an opportunity to adjust the permit application or otherwise reconcile it with the state management program for the species.

(d) After management of a species has been transferred to the state, state and Federal authorities shall cooperate to the maximum extent practicable in conserving the species of marine mammals.

§ 403.06 Monitoring and review of State management program.

(a) The Service has responsibility to monitor and review implementation of all state management programs approved pursuant to this part.

(b) In order to facilitate such review, each state to which management authority has been transferred shall submit an annual report, not later than 120 days after the close of such state's first full fiscal or calendar year following the effective date of the Service's approval of the State management program, and at the same time each following year, or at such other time as may be agreed upon. The report shall contain the following information current for each reporting period:

1. Any changes in the state laws which comprise those aspects of the state management program submitted pursuant to §403.03(b), and, in the case of Alaska, §403.03(d), of this part;

2. Pertinent new data on the marine mammal species or the marine ecosystems in question including a summary of the status, trend and general health of the species;

3. A summary of available information relating to takings under the state management program;

4. A summary of state actions to protect species' habitat;

5. A summary of all state research activity on the species;

6. Any significant changes in the information provided with the original request for transfer of management authority;

7. A summary of enforcement activity;

8. A summary of budget and staffing levels for the marine mammal activities in the categories of research, management and enforcement;

9. Any other information which the Service may request, consistent with the Act as amended, or which the state deems necessary or advisable to facilitate review by the Service of state management of the species.

(c) Each state having an approved management program shall file a report, in a timely manner, not to exceed 45 days from the occurrence of any of the following:

1. Any change in a relevant state law (amendments, repealers, or new legislation or regulations or judicial precedent) as submitted pursuant to paragraphs (b)(2) through (b)(5), and in the case of Alaska, paragraph (d), of §403.03 of this part that may impair the State's ability to implement the program;

2. Any significant natural or man-made occurrence or any new scientific information that may warrant reconsideration of the determinations made pursuant to §403.04 of this part.

(d) All components of the state request for transfer of management authority, as well as annual reports submitted under paragraph (b) of this section and any reports submitted under paragraph (c) of this section, shall be available for inspection and copying at the Office of the Chief, Division of Wildlife Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, DC 20240, or, as appropriate, at the Office of Protected Species and Habitat Conservation, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, DC 20235, and at
§ 403.07 Revocation and return of State management authority.

(a) Revocation of management. The Service shall have responsibility to review management of a species transferred to a state under this part and to determine whether or not the implementation of the state management program continues to comply with the requirements of the Act, this part and the state's approved management program.

(1) Upon receipt of any substantial factual information suggesting that the state management program is not being implemented or is being implemented in a manner inconsistent with the Act, this part, or the state's approved management program, the Service shall, as soon as practicable but not later than 30 days after receipt, determine whether or not the state continues to comply with the requirements of the Act, this part and the state's approved management program.

(2) Whenever pursuant to a review as specified in paragraph (a)(1) of this section, the Service determines that any substantial aspect of the state management program is not in compliance with the requirements of the Act, this part or the state's approved management program, it shall provide written notice to the state of its intent to revoke management, and such return shall become effective, upon publication of a notice in the Federal Register to this effect no sooner than 30 days (except in an emergency as determined by the Service) nor longer than 60 days after the state has provided notice of its intent to return management or unless otherwise agreed upon.

(b) Voluntary return of management authority to the Service. (1) If a state desires to return management of a species of marine mammals to the Service, it shall provide the Service notice of intent to return management. The Service shall accept the return of management, and such return shall become effective, upon publication of a notice in the Federal Register to this effect no sooner than 30 days (except in an emergency as determined by the Service) nor longer than 60 days after the state has provided notice of its intent to return management or unless otherwise agreed upon.

(2) If implementation of any aspect of the state management program is enjoined by court order, the state shall advise the Service of such injunction and its effect on the state management program. If the state determines that the effect of the injunction is to preclude effective conservation and management of the species under the terms of the state management program, it shall so notify the Service and such notification shall be treated as a notice of intent to return management as provided in paragraph (b)(1) of this section. If the state determines that the injunction does not preclude effective conservation and management of marine mammals under the terms of the state management program, it shall so notify the Service together with the basis for the state's determination and such notice shall be treated as a report submitted pursuant to the terms of § 403.06(c)(1) of this part. In either case, the state shall provide notice to the Service as soon as practicable but not more than 30 days after issuance of the injunction. Management authority returned to the Service pursuant to this paragraph may be re-transferred to the state, notwithstanding the requirements of § 403.03, when, in the judgment of the Service, the cause for return of management authority to the Service has been alleviated in such a way as to
allow effective conservation and management of the species consistent with the requirements of the Act and this part.

(c) When revocation of a management authority pursuant to paragraph (a) of this section becomes final, or when a state returns management pursuant to paragraph (b) of this section, the Service shall resume such management authority and provide for the conservation of the species within the state in accordance with the provisions of the Act.

§ 403.08 List of States to which management has been transferred.

The following states have received management authority pursuant to this part for the species listed and, where appropriate, cooperative allocation agreements pursuant to § 403.05(c) are in force: [Reserved].

PART 424—LISTING ENDANGERED AND THREATENED SPECIES AND DESIGNATING CRITICAL HABITAT

Subpart A—General Provisions

§ 424.01 Scope and purpose.

(a) Part 424 provides rules for revising the Lists of Endangered and Threatened Wildlife and Plants and, where appropriate, designating or revising their critical habitats. Criteria are provided for determining species to be endangered or threatened and for designating critical habitats. Procedures for receiving and considering petitions to revise the lists and for conducting periodic reviews of listed species also are established.

(b) The purpose of these rules is to interpret and implement those portions of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.), that pertain to the listing of species and the determination of critical habitats.

§ 424.02 Definitions.

(a) The definitions of terms in 50 CFR 402.02 shall apply to this part 424, except as otherwise stated.

(b) Candidate means any species being considered by the Secretary for listing as an endangered or a threatened species, but not yet the subject of a proposed rule.

(c) Conservation, conserve, and conserving mean to use and the use of all methods and procedures that are necessary to bring any endangered or threatened species to the point at which the measures provided pursuant to the Act are no longer necessary. Such methods and procedures include, but are not limited to, all activities associated with scientific resources management such as research, census, law enforcement, habitat acquisition and maintenance, propagation, live trapping, and transplantation, and, in the extraordinary case where population pressures within a given ecosystem cannot be otherwise relieved, may include regulated taking.

(d) Critical habitat means (1) the specific areas within the geographical area currently occupied by a species, at the time it is listed in accordance with the Act, on which are found those physical or biological features (i) essential to the conservation of the species and (ii) that may require special management considerations or protection, and
§ 424.10 General.

The Secretary may add a species to the lists or designate critical habitat, delete a species or critical habitat, change the listed status of a species, revise the boundary of an area designated as critical habitat, or adopt or modify special rules (see 50 CFR 17.40-17.48 and parts 222 and 227) applied to a threatened species only in accordance with the procedures of this part.

§ 424.11 Factors for listing, delisting, or reclassifying species.

(a) Any species or taxonomic group of species (e.g., genus, subgenus) as defined in §424.02(k) is eligible for listing under the Act. A taxon of higher rank than species may be listed only if all included species are individually found to be endangered or threatened. In determining whether a particular taxon or population is a species for the purposes of the Act, the Secretary shall rely on standard taxonomic distinctions and the biological expertise of the Department and the scientific community concerning the relevant taxonomic group.

(b) The Secretary shall make any determination required by paragraphs (c) and (d) of this section solely on the basis of the best available scientific and commercial information regarding a species’ status, without reference to possible economic or other impacts of such determination.

(c) A species shall be listed or reclassified if the Secretary determines, on the basis of the best scientific and commercial data available after conducting a review of the species’ status, that the species is endangered or threatened because of any one or a combination of the following factors:

1. The present or threatened destruction, modification, or curtailment of its habitat or range;

2. Overutilization for commercial, recreational, scientific, or educational purposes;

3. Disease or predation;

4. Inadequate numbers resulting from any of the above factors.

5. Alien species.

7. Man-made pollution or toxic substances.

8. Other natural or man-made factors such as disease or predation.

9. Other factors affecting the conservation of the species.

§ 424.10 General.

(2) specific areas outside the geographical area occupied by a species at the time it is listed upon a determination by the Secretary that such areas are essential for the conservation of the species.

(e) Endangered species means a species that is in danger of extinction throughout all or a significant portion of its range.

(f) List or lists means the Lists of Endangered and Threatened Wildlife and Plants found at 50 CFR 17.11(h) or 17.12(h).

(g) Plant means any member of the plant kingdom, including, without limitation, seeds, roots, and other parts thereof.

(h) Public hearing means an informal hearing to provide the public with the opportunity to give comments and to permit an exchange of information and opinion on a proposed rule.

(i) Secretary means the Secretary of the Interior or the Secretary of Commerce, as appropriate, or their authorized representatives.

(j) Special management considerations or protection means any methods or procedures useful in protecting physical and biological features of the environment for the conservation of listed species.

(k) Species includes any species or subspecies of fish, wildlife, or plant, and any distinct population segment of any vertebrate species that interbreeds when mature. Excluded is any species of the Class Insecta determined by the Secretary to constitute a pest whose protection under the provisions of the Act would present an overwhelming and overriding risk to man.

(l) State agency means any State agency, department, board, commission, or other governmental entity that is responsible for the management and conservation of fish, plant, or wildlife resources within a State.

(m) Threatened species means any species that is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range.

(n) Wildlife or fish and wildlife means any member of the animal kingdom, including without limitation, any vertebrate, mollusk, crustacean, arthropod, or other invertebrate, and includes any part, product, egg, or offspring thereof, or the dead body or parts thereof.
(4) The inadequacy of existing regulatory mechanisms; or
(5) Other natural or manmade factors affecting its continued existence.

d) The factors considered in delisting a species are those in paragraph (c) of this section as they relate to the definitions of endangered or threatened species. Such removal must be supported by the best scientific and commercial data available to the Secretary after conducting a review of the status of the species. A species may be delisted only if such data indicate that it is neither endangered nor threatened for one or more of the following reasons:

(1) Extinction. Unless all individuals of the listed species had been previously identified and located, and were later found to be extirpated from their previous range, a sufficient period of time must be allowed before delisting to indicate clearly that the species is extinct.

(2) Recovery. The principal goal of the U.S. Fish and Wildlife Service and the National Marine Fisheries Service is to return listed species to a point at which protection under the Act is no longer required. A species may be delisted only if such data indicate that it is no longer endangered or threatened.

(3) Original data for classification in error. Subsequent investigations may show that the best scientific or commercial data available indicate that it is no longer endangered or threatened.

(e) The fact that a species of fish, wildlife, or plant is protected by the Convention on International Trade in Endangered Species of Wild Fauna and Flora (see part 23 of this title 50) or a similar international agreement on such species, or has been identified as requiring protection from unrestricted commerce by any foreign nation, or to be in danger of extinction or likely to become so within the foreseeable future by any State agency or by any agency of a foreign nation that is responsible for the conservation of fish, wildlife, or plants, may constitute evidence that the species is endangered or threatened. The weight given such evidence will vary depending on the international agreement in question, the criteria pursuant to which the species is eligible for protection under such authorities, and the degree of protection afforded the species. The Secretary shall give consideration to any species protected under such an international agreement, or by any State or foreign nation, to determine whether the species is endangered or threatened.

(f) The Secretary shall take into account, in making determinations under paragraph (c) or (d) of this section, those efforts, if any, being made by any State or foreign nation, or any political subdivision of a State or foreign nation, to protect such species, whether by predator control, protection of habitat and food supply, or other conservation practices, within any area under its jurisdiction, or on the high seas.

§ 424.12 Criteria for designating critical habitat.

(a) Critical habitat shall be specified to the maximum extent prudent and determinable at the time a species is proposed for listing. If designation of critical habitat is not prudent or if critical habitat is not determinable, the reasons for not designating critical habitat will be stated in the publication of proposed and final rules listing a species. A final designation of critical habitat shall be made on the basis of the best scientific data available, after taking into consideration the probable economic and other impacts of making such a designation in accordance with §424.19.

(1) A designation of critical habitat is not prudent when one or both of the following situations exist:

(i) The species is threatened by taking or other human activity, and identification of critical habitat can be expected to increase the degree of such threat to the species, or
(ii) Such designation of critical habitat would not be beneficial to the species.

(2) Critical habitat is not determinable when one or both of the following situations exist:

(i) Information sufficient to perform required analyses of the impacts of the designation is lacking, or
(ii) The biological needs of the species are not sufficiently well known to
§ 424.13 Sources of information and relevant data.

When considering any revision of the lists, the Secretary shall consult as appropriate with affected States, interested persons and organizations, other affected Federal agencies, and, in cooperation with the Secretary of State, with the country or countries in which the species concerned are normally found or whose citizens harvest such species from the high seas. Data reviewed by the Secretary may include, but are not limited to scientific or commercial publications, administrative reports, maps, or other graphic materials, information received from experts on the subject, and comments from interested parties.

§ 424.14 Petitions.

(a) General. Any interested person may submit a written petition to the Secretary requesting that one of the actions described in §424.10 be taken. Such a document must clearly identify permit identification of an area as critical habitat.

(b) In determining what areas are critical habitat, the Secretary shall consider those physical and biological features that are essential to the conservation of a given species and that may require special management considerations or protection. Such requirements include, but are not limited to the following:

(1) Space for individual and population growth, and for normal behavior;
(2) Food, water, air, light, minerals, or other nutritional or physiological requirements;
(3) Cover or shelter;
(4) Sites for breeding, reproduction, rearing of offspring, germination, or seed dispersal; and generally;
(5) Habitats that are protected from disturbance or are representative of the historic geographical and ecological distributions of a species.

When considering the designation of critical habitat, the Secretary shall focus on the principal biological or physical constituent elements within the defined area that are essential to the conservation of the species. Known primary constituent elements shall be listed with the critical habitat description. Primary constituent elements may include, but are not limited to, the following: roost sites, nesting grounds, spawning sites, feeding sites, seasonal wetland or dryland, water quality or quantity, host species or plant pollinator, geological formation, vegetation type, tide, and specific soil types.

(c) Each critical habitat will be defined by specific limits using reference points and lines as found on standard topographic maps of the area. Each area will be referenced to the State(s), county(ies), or other local governmental units within which all or part of the critical habitat is located. Unless otherwise indicated within the critical habitat description, the names of the State(s) and county(ies) are provided for information only and do not constitute the boundaries of the area. Ephemeral reference points (e.g., trees, sand bars) shall not be used in defining critical habitat.

(d) When several habitats, each satisfying the requirements for designation as critical habitat, are located in proximity to one another, an inclusive area may be designated as critical habitat.

Example: Several dozen or more small ponds, lakes, and springs are found in a small local area. The entire area could be concluded that the upland areas were essential to the conservation of an aquatic species located in the ponds and lakes.

(e) The Secretary shall designate as critical habitat areas outside the geographical area presently occupied by a species only when a designation limited to its present range would be inadequate to ensure the conservation of the species.

(f) Critical habitat may be designated for those species listed as threatened or endangered but for which no critical habitat has been previously designated.

(g) Existing critical habitat may be revised according to procedures in this section as new data become available to the Secretary.

(h) Critical habitat shall not be designated within foreign countries or in other areas outside of United States jurisdiction.
Joint Regulations on Endangered Species § 424.14

itself as a petition and be dated. It must contain the name, signature, address, telephone number, if any, and the association, institution, or business affiliation, if any, of the petitioner. The Secretary shall acknowledge in writing receipt of such a petition within 30 days.

(b) Petitions to list, delist, or reclassify species. (1) To the maximum extent practicable, within 90 days of receiving a petition to list, delist, or reclassify a species, the Secretary shall make a finding as to whether the petition presents substantial scientific or commercial information indicating that the petitioned action may be warranted. For the purposes of this section, "substantial information" is that amount of information that would lead a reason-able person to believe that the measure proposed in the petition may be warranted. The Secretary shall promptly publish such finding in the FEDERAL REGISTER and so notify the petitioner.

(2) In making a finding under paragraph (b)(1) of this section, the Secretary shall consider whether such petition—

(i) Clearly indicates the administrative measure recommended and gives the scientific and any common name of the species involved;

(ii) Contains detailed narrative justification for the recommended measure, describing, based on available information, past and present numbers and distribution of the species involved and any threats faced by the species;

(iii) Provides information regarding the status of the species over all or a significant portion of its range; and

(iv) Is accompanied by appropriate supporting documentation in the form of bibliographic references, reprints of pertinent publications, copies of reports or letters from authorities, and maps.

The petitioner may provide information that describes any recommended critical habitat as to boundaries and physical features, and indicates any benefits and/or adverse effects on the species that would result from such designation. Such information, however, will not be a basis for the determination of the substantiality of a petition.

(3) Upon making a positive finding under paragraph (b)(1) of this section, the Secretary shall commence a review of the status of the species concerned and shall make, within 12 months of receipt of such petition, one of the following findings:

(i) The petitioned action is not warranted, in which case the Secretary shall promptly publish such finding in the FEDERAL REGISTER and so notify the petitioner.

(ii) The petitioned action is warranted, in which case the Secretary shall promptly publish in the FEDERAL REGISTER a proposed regulation to implement the action pursuant to §424.16 of this part, or

(iii) The petitioned action is warranted, but that—

(A) The immediate proposal and timely promulgation of a regulation to implement the petitioned action is precluded because of other pending proposals to list, delist, or reclassify species, and

(B) Expeditious progress is being made to list, delist, or reclassify qualified species,

in which case, such finding shall be promptly published in the FEDERAL REGISTER together with a description and evaluation of the reasons and data on which the finding is based.

(4) If a finding is made under paragraph (b)(3)(iii) of this section with regard to any petition, the Secretary shall, within 12 months of such finding, again make one of the findings described in paragraph (b)(3) with regard to such petition, but no further finding of substantial information will be required.

(c) Petitions to revise critical habitat.

(1) To the maximum extent practicable, within 90 days of receiving a petition to revise a critical habitat designation, the Secretary shall make a finding as to whether the petition presents substantial scientific information indicating that the revision may be warranted. The Secretary shall promptly publish such finding in the FEDERAL REGISTER and so notify the petitioner.

(2) In making the finding required by paragraph (c)(1) of this section, the Secretary shall consider whether a petition contains—
§ 424.15 Notices of review.

(a) If the Secretary finds that one of the actions described in §424.10 may be warranted, but that the available evidence is not sufficiently definitive to justify proposing the action at that time, a notice of review may be published in the Federal Register. The notice will describe the measure under consideration, briefly explain the reasons for considering the action, and solicit comments and additional information on the action under consideration.

(b) The Secretary from time to time also may publish notices of review containing the names of species that are considered to be candidates for listing under the Act and indicating whether sufficient scientific or commercial information is then available to warrant proposing to list such species, the names of species no longer being considered for listing, or the names of listed species being considered for delisting or reclassification. However, none of the substantive or procedural provisions of the Act apply to a species that is designated as a candidate for listing.

(c) Such notices of review will invite comment from all interested parties regarding the status of the species named. At the time of publication of such a notice, notification in writing will be sent to State agencies in any affected States, known affected Federal agencies, and, to the greatest extent practicable, through the Secretary of State, to the governments of any foreign countries in which the subject species normally occur.

§ 424.16 Proposed rules.

(a) General. Based on the information received through §§424.13, 424.14, 424.15, and 424.21, or through other available avenues, the Secretary may propose revising the lists as described in §424.10.

(b) Contents. A notice of a proposed rule to carry out one of the actions described in §424.10 shall contain the complete text of the proposed rule, a summary of the data on which the proposal is based (including, as appropriate, citation of pertinent information sources), and shall show the relationship of such data to the rule proposed. If such a rule designates or revises critical habitat, such summary shall, to the maximum extent practicable, include a brief description and evaluation of those activities (whether public or private) that, in the opinion of the Secretary, if undertaken, may adversely modify such habitat, or may be affected by such designation. Any proposed rule to designate or revise critical habitat shall contain a map of such habitat. Any such notice proposing the listing, delisting, or reclassification of a species or the designation or revision of critical habitat shall also include a summary of factors affecting the species and/or critical habitat.

(c) Procedures—(1) Notifications. In the case of any proposed rule to list, delist, or reclassify a species, or to designate or revise critical habitat, the Secretary shall—

(i) Publish notice of the proposal in the Federal Register;
(ii) Give actual notice of the proposed regulation (including the complete text of the regulation) to the
§ 424.17 Time limits and required actions.

(a) General. (1) Within 1 year of the publication of a rule proposing to determine whether a species is an endangered or threatened species, or to designate or revise critical habitat, the Secretary shall publish one of the following in the Federal Register:

(i) A final rule to implement such determination or revision,

(ii) A finding that such revision should not be made,

(iii) A notice withdrawing the proposed rule upon a finding that available evidence does not justify the action proposed by the rule, or

(iv) A notice extending such 1-year period by an additional period of not more than 6 months because there is substantial disagreement among scientists knowledgeable about the species concerned regarding the sufficiency or accuracy of the available data relevant to the determination or revision concerned.

(2) If an extension is made under paragraph (a)(1)(iv) of this section, the Secretary shall, within the extended period, take one of the actions described in paragraphs (a)(1)(i), (ii), or (iii) of this section.

(3) If a proposed rule is withdrawn under paragraph (a)(1)(iii) of this section, the notice of withdrawal shall set forth the basis upon which the proposed rule has been found not to be supported by available evidence. The Secretary shall not again propose a rule withdrawn under such provision except on the basis of sufficient new information that warrants a reproposal.

(b) Critical habitat designations. A final rule designating critical habitat of an endangered or a threatened species shall to the extent permissible under §424.12 be published concurrently with the final rule listing such species, unless the Secretary deems that—

(1) It is essential to the conservation of such species that it be listed promptly; or

(2) Critical habitat of such species is not then determinable, in which case, the Secretary, with respect to the proposed regulation to designate such habitat, may extend the 1-year period specified in paragraph (a) of this section by not more than one
§ 424.18 Final rules—general.

(a) Contents. A final rule promulgated to carry out the purposes of the Act will be published in the Federal Register. This publication will contain the complete text of the rule, a summary of the comments and recommendations received in response to the proposal (including applicable public hearings), summaries of the data on which the rule is based and the relationship of such data to the final rule, and a description of any conservation measures available under the rule. Publication of a final rule to list, delist, or reclassify a species or designate or revise critical habitat shall also provide a summary of factors affecting the species. A rule designating or revising critical habitat shall also provide a summary of the boundaries and a map of such habitat and will, to the maximum extent practicable, be accompanied by a brief description and evaluation of those activities (whether public or private) that might occur in the area and which, in the opinion of the Secretary, may adversely modify such habitat or be affected by such designation.

(b) Effective date. A final rule shall take effect—

(1) Not less than 30 days after it is published in the Federal Register, except as otherwise provided for good cause found and published with the rule; and

(2) Not less than 90 days after (i) publication in the Federal Register of the proposed rule, and (ii) actual notification of any affected State agencies and counties or equivalent jurisdictions in accordance with §424.16(c)(1)(ii).

(c) Disagreement with State agency. If a State agency, given notice of a proposed rule in accordance with §424.16(c)(1)(ii), submits comments disagreeing in whole or in part with a proposed rule, and the Secretary issues a final rule that is in conflict with such comments, or if the Secretary fails to adopt a rule for which a State agency has made a petition in accordance with §424.14, the Secretary shall provide such agency with a written justification for the failure to adopt a rule consistent with the agency’s comments or petition.

§ 424.19 Final rules—impact analysis of critical habitat.

The Secretary shall identify any significant activities that would either affect an area considered for designation as critical habitat or be likely to be affected by the designation, and shall, after proposing designation of such an area, consider the probable economic and other impacts of the designation upon proposed or ongoing activities. The Secretary may exclude any portion of such an area from the critical habitat if the benefits of such exclusion outweigh the benefits of specifying the area as part of the critical habitat. The Secretary shall not exclude any such area if, based on the best scientific and commercial data available, he determines that the failure to designate that area as critical habitat will result in the extinction of the species concerned.

§ 424.20 Emergency rules.

(a) Sections 424.16, 424.17, 424.18, and 424.19 notwithstanding, the Secretary may at any time issue a regulation implementing any action described in §424.10 in regard to any emergency posing a significant risk to the well-being of a species of fish, wildlife, or plant. Such rules shall, at the discretion of the Secretary, take effect immediately on publication in the Federal Register. In the case of any such action that applies to a resident species, the Secretary shall give actual notice of such regulation to the State agency in each State in which such species is believed to occur. Publication in the Federal Register of such an emergency rule shall provide detailed reasons why the rule is necessary. An emergency rule shall cease to have force and effect after 240 days unless the procedures described in §§424.16, 424.17, 424.18, and 424.19 (as appropriate) have been complied with during that period.
§ 424.21 Periodic review.

At least once every 5 years, the Secretary shall conduct a review of each listed species to determine whether it should be delisted or reclassified. Each such determination shall be made in accordance with §§ 424.11, 424.16, and 424.17 of this part, as appropriate. A notice announcing those species under active review will be published in the Federal Register. Notwithstanding this section’s provisions, the Secretary may review the status of any species at any time based upon a petition (see §424.14) or upon other data available to the Service.
PART 450—GENERAL PROVISIONS

§ 450.01 Definitions

The following definitions apply to terms used in this subchapter.

Agency action means all actions of any kind authorized, funded or carried out, in whole or in part by Federal agencies, including, in the instance of an application for a permit or license, the underlying activity for which the permit or license is sought.

Alternative courses of action means all reasonable and prudent alternatives, including both no action and alternatives extending beyond original project objectives and acting agency jurisdiction.

Benefits means all benefits of an agency action, both tangible and intangible, including but not limited to economic, environmental and cultural benefits.

Biological assessment means the report prepared pursuant to section 7(c) of the Act, 16 U.S.C. 1536(c).

Biological opinion means the written statement prepared pursuant to section 7(b) of the Act, 16 U.S.C. 1536(b).

Chairman means the Chairman of the Endangered Species Committee, who is the Secretary of the Interior.

Committee means the Endangered Species Committee established pursuant to section 7(e) of the Act, 16 U.S.C. 1536(e).

Critical habitat refers to those areas listed as Critical Habitat in 50 CFR parts 17 and 226.

Destruction or adverse modification is defined at 50 CFR 402.02.

Federal agency means any department, agency or instrumentality of the United States.

Irreversible or irretrievable commitment of resources means any commitment of resources which has the effect of foreclosing the formulation or implementation of any reasonable or prudent alternatives which would not violate section 7(a)(2) of the Act.

Jeopardize the continued existence of is defined at 50 CFR 402.02.

Mitigation and enhancement measures means measures, including live propagation, transplantation, and habitat acquisition and improvement, necessary and appropriate (a) to minimize the adverse effects of a proposed action on listed species or their critical habitats and/or (b) to improve the conservation status of the species beyond that which would occur without the action. The measures must be likely to protect the listed species or the critical habitat, and be reasonable in their cost, the availability of the technology required to make them effective, and other considerations deemed relevant by the Committee.

Permit or license applicant means any person whose application to an agency for a permit or license has been denied primarily because of the application of section 7(a)(2) of the Act, 16 U.S.C. 1536(a)(2).

Person means an individual, corporation, partnership, trust, association, or any other private entity, or any public body or officer, employee, agent, department, or instrumentality of the Federal government, of any State or political subdivision thereof, or of any foreign government.

Proposed action means the action proposed by the Federal agency or by a permit or license applicant, for which exemption is sought.

Secretary means the Secretary of the Interior or the Secretary of Commerce, or his or her delegate, depending upon which Secretary has responsibility for the affected species as determined pursuant to 50 CFR 402.01.

Service means the United States Fish and Wildlife Service or the National Marine Fisheries Service, as appropriate.
To the extent that such information is available to the applicant means all pertinent information the applicant has on the subject matter at the time the application is submitted, and all other pertinent information obtainable from the appropriate Federal agency pursuant to a Freedom of Information Act request.

[50 FR 8126, Feb. 28, 1985]

PART 451—APPLICATION PROCEDURE

§ 451.01 Definitions.

All definitions contained in 50 CFR 450.01 are applicable to this part.

§ 451.02 Applications for exemptions.

(a) Scope. This section prescribes the application procedures for applying for an exemption from the requirements of section 7(a)(2) of the Endangered Species Act, as amended.

(b) Where to apply. Applications should be made to the appropriate Secretary(ies) by writing:

(1) The Secretary, Attention: Endangered Species Committee, Department of the Interior, 18th and C Street, NW., Washington, DC 20240.

(2) The Secretary, Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20204.

(c) Who may apply. (1) A Federal agency, (2) the Governor of the State in which an agency action will occur, if any, or (3) a permit or license applicant may apply to the Secretary for an exemption for an agency action if, after consultation under section 7(a)(2) of the Act, the Secretary's opinion indicates that the agency action would violate section 7(a)(2) of the Act.

(d) When to apply. (1) Except in the case of agency action involving a permit or license application, an application for an exemption must be submitted to the Secretary within 90 days following the termination of the consultation process.

(2) In the case of agency action involving a permit or license application, an application for an exemption may be submitted after the Federal agency concerned formally denies the permit or license. An applicant denied a permit or license may not simultaneously seek administrative review within the permitting or licensing agency and apply for an exemption. If administrative review is sought, an application for an exemption may be submitted if that review results in a formal denial of the permit or license. For an exemption application to be considered, it must be submitted within 90 days after the date of a formal denial of a permit or license.

(e) Contents of the application when submitted. Exemption applicants must provide the following information at the time the application is submitted.

(1) Name, mailing address, and phone number, including the name and telephone number of an individual to be contacted regarding the application.

(2) If the applicant is a Federal agency:

(i) A comprehensive description of the proposed agency action and if a license or permit denial is involved, a comprehensive description of the license or permit applicant's proposed action.

(ii) In the case of a denial of a license or permit, a description of the permit or license sought, including a statement of who in the Federal agency denied the permit or license, the grounds for the denial, and a copy of the permit or license denial.

(iii) A description of all permit(s), license(s) or other legal requirements which have been satisfied or obtained, or which must still be satisfied or obtained, before the proposed action can proceed.

(iv) A description of the consultation process carried out pursuant to section 7(a) of the Act.

(v) A copy of the biological assessment, if one was prepared.

(vi) A copy of the biological opinion.

(vii) A description of each alternative to the proposed action considered by the Federal agency, by the licensing or...
§ 451.02
permitting agency, and by the permit or license applicant, to the extent known.

(viii) A statement describing why the proposed agency action cannot be altered or modified to avoid violating section 7(a)(2) of the Act.

(ix) A description of resources committed by the Federal agency, or the permit or license applicant, if any, to the proposed action subsequent to the initiation of consultation.

(3) If the applicant is a permit or license applicant other than a Federal agency:

(i) A comprehensive description of the applicant’s proposed action.

(ii) A description of the permit or license sought from the Federal agency, including a statement of who in that agency denied the permit or license and the grounds for the denial.

(iii) A description of all permit(s), license(s) or other legal requirements which have been satisfied or obtained, or which must still be satisfied or obtained, before it can proceed with the proposed action.

(iv) A copy of the permit or license denial.

(v) A copy of the biological assessment, if one was prepared.

(vi) A copy of the biological opinion.

(vii) A description of the consultation process carried out pursuant to section 7(a) of the Act, to the extent that such information is available to the applicant.

(viii) A statement describing why the applicant’s proposed action cannot be altered or modified to avoid violating section 7(a)(2) of the Act.

(ix) A description of resources committed to the proposed action subsequent to the initiation of consultation.

(4) If the applicant is the Governor of a State in which the proposed agency action may occur:

(i) A comprehensive description of the proposed agency action and if a license or permit denial is involved, a comprehensive description of the license or permit applicant’s proposed action.

(ii) A description of the permit or license, if any, sought from the Federal agency, including a statement of who in that agency denied the permit or license and the grounds for the denial, to the extent that such information is available to the Governor.

(iii) A description of all permit(s), license(s) or other legal requirements which have been satisfied or obtained, or which must still be satisfied or obtained before the agency can proceed with the proposed action, to the extent that such information is available to the Governor.

(iv) A copy of the biological assessment, if one was prepared.

(v) A copy of the biological opinion.

(vi) A description of the consultation process carried out pursuant to section 7(a) of the Act, to the extent that such information is available to the Governor.

(vii) A description of all alternatives considered by the Federal agency, by the licensing or permitting agency, and by the permit or license applicant, to the extent that such information is available to the Governor.

(viii) A statement describing why the proposed agency action cannot be altered or modified to avoid violating section 7(a)(2) of the Act.

(ix) A description of resources committed to the proposed action subsequent to the initiation of consultation, to the extent that such information is available to the Governor.

(x) A description of resources committed to the proposed action by the permit or license applicant subsequent to the initiation of consultation.

(xi) A statement describing why the proposed action is in the public interest.

(5) Each applicant, whether a Federal agency, a permit or license applicant, or a Governor, must also submit the following:

(i) A complete statement of the nature and the extent of the benefits of the proposed action.

(ii) A complete discussion of why the benefits of the proposed action clearly outweigh the benefits of each considered alternative course of action.

(iii) A complete discussion of why none of the considered alternatives are reasonable and prudent.

(iv) A complete statement explaining why the proposed action is in the public interest.
Joint Regulations on Endangered Species

Pt. 452

(v) A complete explanation of why the action is of regional or national significance.

(vi) A complete discussion of mitigation and enhancement measures proposed to be undertaken if an exemption is granted.

(6) When the exemption applicant is a license or permit applicant or a Governor, a copy of the application shall be provided by the exemption applicant at the time the application is filed, to the Federal agency which denied the license or permit.

(f) Review of the application by the Secretary.

(1) Upon receiving the application, the Secretary shall review the contents thereof and consider whether the application complies with the requirements set forth in paragraphs (c), (d) and (e) of this section.

(2) The Secretary shall reject an application within 10 days of receiving it if he determines that it does not comply with paragraphs (c), (d) and (e) of this section. If the Secretary rejects an application because it does not contain the information required by paragraph (e) of this section, the applicant may resubmit a revised application so long as the applicant does so during the 90 day period specified in paragraph (d) of this section.

(3) If the Secretary finds that the application meets the requirements of paragraphs (c), (d), and (e) of this section, he will consider the application in accordance with part 452.

(g) Notification of the Secretary of State. The Secretary will promptly transmit to the Secretary of State a copy of all applications submitted in accordance with §451.02.

(h) Public notification. Upon receipt of an application for exemption, the Secretary shall promptly publish a notice in the Federal Register (1) announcing that an application has been filed, (2) stating the applicant's name, (3) briefly describing the proposed agency action and the result of the consultation process, (4) summarizing the information contained in the application, (5) designating the place where copies of the application can be obtained and (6) specifying the name of the person to contact for further information. The Secretary will promptly notify each member of the Committee upon receipt of an application for exemption.

(i) The information collection requirements contained in part 451 do not require approval by the Office of Management and Budget under 44 U.S.C. 3501 et seq., because it is anticipated there will be fewer than ten respondents annually.

§451.03 Endangered Species Committee.

(a) Scope. This section contains provisions governing the relationship between the Secretary and the Endangered Species Committee.

(b) Appointment of State member. (1) Upon receipt of an application for exemption, the Secretary shall promptly notify the Governors of each affected State, if any, as determined by the Secretary, and request the Governors to recommend individuals to be appointed to the Endangered Species Committee for consideration of the application. Written recommendations of these Governors must be received by the Secretary within 10 days of receipt of notification. The Secretary will transmit the Governors' recommendations to the President and will request that the President appoint a State resident to the Endangered Species Committee from each affected State within 30 days after the application for exemption was submitted.

(2) When no State is affected, the Secretary will submit to the President a list of individuals with expertise relevant to the application and will request the President to appoint, within 30 days after the application for exemption was submitted, an individual to the Endangered Species Committee.

PART 452—CONSIDERATION OF APPLICATION BY THE SECRETARY

Sec.
452.01 Purpose and scope.
452.02 Definitions.
452.03 Threshold review and determinations.
452.04 Secretary's report.
452.05 Hearings.
452.06 Parties and intervenors.
452.07 Separation of functions and ex parte communications.
452.08 Submission of Secretary's report.
452.09 Consolidated and joint proceedings.
§ 452.01 Purpose and scope.

This part prescribes the procedures to be used by the Secretary when examining applications for exemption from section 7(a)(2) of the Endangered Species Act.

§ 452.02 Definitions.

Definitions applicable to this part are contained in 50 CFR 450.01.

§ 452.03 Threshold review and determinations.

(a) Threshold determinations. Within 20 days after receiving an exemption application, or a longer time agreed upon between the exemption applicant and the Secretary, the Secretary shall conclude his review and determine:

(1) Whether any required biological assessment was conducted;

(2) To the extent determinable within the time period provided, whether the Federal agency and permit or license applicant, if any, have refrained from making any irreversible or irretrievable commitment of resources; and

(3) Whether the Federal agency and permit or license applicant, if any, have carried out consultation responsibilities in good faith and have made a reasonable and responsible effort to develop and fairly consider modifications or reasonable and prudent alternatives to the proposed action which would not violate section 7(a)(2) of the Act.

(b) Burden of proof. The exemption applicant has the burden of proving that the requirements of § 452.03(a) have been met.

(c) Negative finding. If the Secretary makes a negative finding on any threshold determination, the Secretary shall deny the application and notify the exemption applicant in writing of his finding and grounds thereof. The exemption process shall terminate when the applicant receives such written notice. The Secretary’s denial shall constitute final agency action for purposes of judicial review under chapter 7 of title 5 of the United States Code.

(d) Positive finding. If the Secretary makes a positive finding on each of the threshold determinations, he shall notify the exemption applicant in writing that the application qualifies for consideration by the Endangered Species Committee.

(e) Secretary of State opinion. The Secretary shall terminate the exemption process immediately if the Secretary of State, pursuant to his obligations under section 7(i) of the Act, certifies in writing to the Committee that granting an exemption and carrying out the proposed action would violate an international treaty obligation or other international obligation of the United States.

§ 452.04 Secretary’s report.

(a) Contents of the report. If the Secretary has made a positive finding on each of the threshold determinations, he shall proceed to gather information and prepare a report for the Endangered Species Committee:

(1) Discussing the availability of reasonable and prudent alternatives to the proposed action;

(2) Discussing the nature and extent of the benefits of the proposed action;

(3) Discussing the nature and extent of the benefits of alternative courses of action consistent with conserving the species or the critical habitat;

(4) Summarizing the evidence concerning whether the proposed action is of national or regional significance;

(5) Summarizing the evidence concerning whether the proposed action is in the public interest;

(6) Discussing appropriate and reasonable mitigation and enhancement measures which should be considered by the Committee in granting an exemption; and

(7) Discussing whether the Federal agency and permit or license applicant, if any, have refrained from making any irreversible or irretrievable commitment of resources.

(b) Preparation of the report. The report shall be prepared in accordance with procedures set out in § 452.05 and § 452.09.

§ 452.05 Hearings.

(a) Hearings. (1) To develop the record for the report under § 452.04, the Secretary, in consultation with the members of the Committee, shall hold a
hearing in accordance with 5 U.S.C. 554, 555, and 556.

(2) The Secretary shall designate an Administrative Law Judge to conduct the hearing. The Secretary shall assign technical staff to assist the Administrative Law Judge.

(3) When the Secretary designates the Administrative Law Judge, the Secretary may establish time periods for conducting the hearing and closing the record.

(4) The Secretary may require the applicant to submit further discussions of the information required by §451.02(e)(5). This information will be made part of the record.

(b) Prehearing conferences. (1) The Administrative Law Judge may, on his own motion or the motion of a party or intervenor, hold a prehearing conference to consider:

(i) The possibility of obtaining stipulations, admissions of fact or law and agreement to the introduction of documents;

(ii) The limitation of the number of witnesses;

(iii) Questions of law which may bear upon the course of the hearings;

(iv) Prehearing motions, including motions for discovery; and

(v) Any other matter which may aid in the disposition of the proceedings.

(2) If time permits and if necessary to materially clarify the issues raised at the prehearing conference, the Administrative Law Judge shall issue a statement of the actions taken at the conference and the agreements made. Such statement shall control the subsequent course of the hearing unless modified for good cause by a subsequent statement.

(c) Notice of hearings. Hearings and prehearing conferences will be announced by a notice in the Federal Register stating: (1) The time, place and nature of the hearing or prehearing conference; and (2) the matters of fact and law to be considered. Such notices will ordinarily be published at least 15 days before the scheduled hearings.

(d) Conduct of hearings—(1) Admissibility of evidence. Relevant, material, and reliable evidence shall be admitted. Inadmissible, irrelevant, unreliable, or unduly repetitious parts of an admissible document may be segregated and excluded so far as practicable.

(2) Motions, objections, rebuttal and cross-examination. Motions and objections may be filed with the Administrative Law Judge, rebuttal evidence may be submitted, and cross-examination may be conducted, as required for a full and true disclosure of the facts, by parties, witnesses under subpoena, and their respective counsel.

(i) Objections. Objections to evidence shall be timely, and the party making them may be required to state briefly the grounds relied upon.

(ii) Offers of proof. When an objection is sustained, the examining party may make a specific offer of proof and the Administrative Law Judge may receive the evidence in full. Such evidence, adequately marked for identification, shall be retained in the record for consideration by any reviewing authority.

(iii) Motions. Motions and petitions shall state the relief sought, the basis for relief and the authority relied upon.

If made before or after the hearing it may be stated and responded to orally, but the Administrative Law Judge may require that they be reduced to writing. Oral argument on motions and deadlines by which to file responses to written motions will be at the discretion of the Administrative Law Judge.

(e) Applicant responsibility. In proceedings conducted pursuant to this section, the exemption applicant has the burden of going forward with evidence concerning the criteria for exemption.

(f) Open meetings and record. All hearings and all hearing records shall be open to the public.

(g) Requests for information, subpoenas. (1) The Administrative Law Judge is authorized to exercise the authority of the Committee to request, subject to the Privacy Act of 1974, that any person provide information necessary to enable the Committee to carry out its duties. Any Federal agency or the exemption applicant shall furnish such information to the Administrative Law Judge. (2) The Administrative Law Judge may exercise the authority of the Committee to issue subpoenas for
the attendance and testimony of witnesses and the production of relevant papers, books, and documents.

(h) Information collection. The information collection requirements contained in §452.05 do not require approval by the Office of Management and Budget under 44 U.S.C. 3501 et seq., because it is anticipated there will be fewer than ten respondents annually.

§ 452.06 Parties and intervenors.

(a) Parties. The parties shall consist of the exemption applicant, the Federal agency responsible for the agency action in question, the Service, and intervenors whose motions to intervene have been granted.

(b) Intervenors. (1) The Administrative Law Judge shall provide an opportunity for intervention in the hearing. A motion to intervene must state the petitioner's name and address, identify its representative, if any, set forth the interest of the petitioner in the proceeding and show that the petitioner's participation would assist in the determination of the issues in question.

(2) The Administrative Law Judge shall grant leave to intervene if he determines that an intervenor's participation would contribute to the fair determination of issues. In making this determination, the Administrative Law Judge may consider whether an intervenor represents a point of view not adequately represented by a party or another intervenor.

§ 452.07 Separation of functions and ex parte communications.

(a) Separation of functions. (1) The Administrative Law Judge and the technical staff shall not be responsible for or subject to the supervision or direction of any person who participated in the endangered species consultation at issue;

(2) The Secretary shall not allow an agency employee or agent who participated in the endangered species consultation at issue or a factually related matter to participate or advise in a determination under this part except as a witness or counsel in public proceedings.

(b) Ex parte communications. The provisions of 5 U.S.C. 557(d) apply to the hearing and the preparation of the report.

§ 452.08 Submission of Secretary's report.

(a) Upon closing of the record, the Administrative Law Judge shall certify the record and transmit it to the Secretary for preparation of the Secretary's report which shall be based on the record. The Secretary may direct the Administrative Law Judge to reopen the record and obtain additional information if he determines that such action is necessary.

(b) The Secretary shall submit his report and the record of the hearing to the Committee within 140 days after making his threshold determinations under §452.03(a) or within such other period of time as is mutually agreeable to the applicant and the Secretary.

§ 452.09 Consolidated and joint proceedings.

(a) When the Secretary is considering two or more related exemption applications, the Secretary may consider them jointly and prepare a joint report if doing so would expedite or simplify consideration of the issues.

(b) When the Secretaries of the Interior and Commerce are considering two or more related exemption applications, they may consider them jointly and prepare a joint report if doing so would expedite or simplify consideration of the issues.

PART 453—ENDANGERED SPECIES COMMITTEE

Sec.

453.01 Purpose.

453.02 Definitions.

453.03 Committee review and final determinations.

453.04 Committee information gathering.

453.05 Committee meetings.

453.06 Additional Committee powers.

Source: 50 FR 8130, Feb. 28, 1985, unless otherwise noted.

§ 453.01 Purpose.

This part prescribes the procedures to be used by the Endangered Species Committee.
Joint Regulations on Endangered Species

Committee when examining applications for exemption from section 7(a)(2) of the Endangered Species Act of 1973, as amended.

§ 453.02 Definitions.
Definitions applicable to this part are contained in 50 CFR 450.01.

§ 453.03 Committee review and final determinations.

(a) Final determinations. Within 30 days of receiving the Secretary’s report and record, the Committee shall grant an exemption from the requirements of section 7(a)(2) of the Act for an agency action if, by a vote in which at least five of its members concur:

(1) It determines that based on the report to the Secretary, the record of the hearing held under § 452.05, and on such other testimony or evidence as it may receive:

(i) There are no reasonable and prudent alternatives to the proposed action;

(ii) The benefits of such action clearly outweigh the benefits of alternative courses of action consistent with conserving the species or its critical habitat, and such action is in the public interest;

(iii) The action is of regional or national significance; and

(iv) Neither the Federal agency concerned nor the exemption applicant made any irreversible or irretrievable commitment of resources prohibited by section 7(d) of the Act; and,

(2) It establishes such reasonable mitigation and enhancement measures, including, but not limited to, live propagation, transplantation, and habitat acquisition and improvement, as are necessary and appropriate to minimize the adverse effects of the proposed action upon the endangered species, threatened species, or critical habitat concerned. Any required mitigation and enhancement measures shall be carried out and paid for by the exemption applicant.

(b) Decision and order. The Committee’s final determinations shall be documented in a written decision. If the Committee determines that an exemption should be granted, the Committee shall issue an order granting the exemption and specifying required mitigation and enhancement measures. The Committee shall publish its decision and order in the Federal Register as soon as practicable.

(c) Permanent exemptions. Under section 7(h)(2) of the Act, an exemption granted by the Committee shall constitute a permanent exemption with respect to all endangered or threatened species for the purposes of completing such agency action—

(1) Regardless of whether the species was identified in the biological assessment, and

(2) Only if a biological assessment has been conducted under section 7(c) of the Act with respect to such agency action. Notwithstanding the foregoing, an exemption shall not be permanent if—

(i) The Secretary finds, based on the best scientific and commercial data available, that such exemption would result in the extinction of a species that was not the subject of consultation under section 7(a)(2) of the Act or was not identified in any biological assessment conducted under section 7(c) of the Act, and

(ii) The Committee determines within 60 days after the date of the Secretary’s finding that the exemption should not be permanent.

If the Secretary makes a finding that the exemption would result in the extinction of a species, as specified above, the Committee shall meet with respect to the matter within 30 days after the date of the finding. During the 60 day period following the Secretary’s determination, the holder of the exemption shall refrain from any action which would result in extinction of the species.

(d) Finding by the Secretary of Defense. If the Secretary of Defense finds in writing that an exemption for the agency action is necessary for reasons of national security, the Committee shall grant the exemption notwithstanding any other provision in this part.

§ 453.04 Committee information gathering.

(a) Written submissions. When the Chairman or four Committee members decide that written submissions are necessary to enable the Committee to
make its final determinations, the Chairman shall publish a notice in the FEDERAL REGISTER inviting written submissions from interested persons. The notice shall include: (1) The address to which such submissions are to be sent; (2) the deadline for such submissions; and (3) a statement of the type of information needed.

(b) Public hearing. (1) When the Chairman or four Committee members decide that oral presentations are necessary to enable the Committee to make its final determinations, a public hearing shall be held.

(2) The public hearing shall be conducted by (i) the Committee or (ii) a member of the Committee or other person, designated by the Chairman or by four members of the Committee.

(3) Notice. The Chairman shall publish in the FEDERAL REGISTER a general notice of a public hearing, stating the time, place and nature of the public hearing.

(4) Procedure. The public hearing shall be open to the public and conducted in an informal manner. All information relevant to the Committee's final determinations shall be admissible, subject to the imposition of reasonable time limitations on oral testimony.

(5) Transcript. Public hearings will be recorded verbatim and a transcript thereof will be available for public inspection.

§ 453.05 Committee meetings.

(a) The committee shall meet at the call of the Chairman or five of its members.

(b) Five members of the Committee or their representatives shall constitute a quorum for the transaction of any function of the Committee, except that in no case shall any representative be considered in determining the existence of a quorum for the transaction of a Committee function which involves a vote by the Committee on the Committee's final determinations.

(c) Only members of the Committee may cast votes. In no case shall any representative cast a vote on behalf of a member.

(d) Committee members appointed from the affected States shall collectively have one vote. They shall determine among themselves how it will be cast.

(e) All meetings and records of the Committee shall be open to the public.

(f) The Chairman shall publish a notice of all Committee meetings in the FEDERAL REGISTER. The notice will ordinarily be published at least 15 days prior to the meeting.

§ 453.06 Additional Committee powers.

(a) Secure information. Subject to the Privacy Act, the Committee may secure information directly from any Federal agency when necessary to enable it to carry out its duties.

(b) Subpoenas. For the purpose of obtaining information necessary for the consideration of an application for an exemption, the Committee may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents.

(c) Rules and orders. The Committee may issue and amend such rules and orders as are necessary to carry out its duties.

(d) Delegate authority. The Committee may delegate its authority under paragraphs (a) and (b) of this section to any member.

PART 501—IMPLEMENTATION OF THE PRIVACY ACT OF 1974

Sec. 501.1 Purpose and scope.
501.2 Definitions.
501.3 Procedure for responding to requests regarding the existence of records pertaining to an individual.
501.4 Requests for access—times, places and requirements for identification of individuals.
501.5 Disclosure of requested information.
501.6 Requests for correction or amendment of a record.
501.7 Agency review of requests for amendment or correction of a record.
501.8 Appeal of initial denial of a request for amendment or correction.
501.9 Fees.

AUTHORITY: Sec. 3, Privacy Act of 1974 (5 U.S.C. 552a(f)).
SOURCE: 40 FR 49276, Oct. 21, 1975, unless otherwise noted.

§ 501.1 Purpose and scope.
(a) Purpose. The purpose of these rules is to fulfill the responsibilities of the Marine Mammal Commission (the "Commission") under section 3 of the Privacy Act of 1974, 5 U.S.C. 552a(f) (the "Act") by establishing procedures whereby an individual will be notified if any system of records maintained by the Commission contains a record pertaining to him or her; by defining the times and places at which records will be made available and the identification requirements which must be met by any individual requesting access to them; by establishing procedures for disclosure to an individual, on request, of any record pertaining to him or her; and by establishing procedures for processing, reviewing, and making a final determination on requests of individuals to correct or amend a record pertaining to him or her, including a provision for administrative appeal of initial adverse determinations on such requests. These rules are promulgate with particular attention to the purposes and goals of the Act, and in accordance therewith provide for relative ease of access to records pertaining to an individual, and for maintenance by the Commission of only those records which are current, accurate, necessary, relevant and complete with respect to the purposes for which they were collected.
(b) Scope. These rules apply only to "record" contained in "systems of records," defined by the Act as follows:

The term "record" means any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, his education, financial transactions, medical history, and criminal or employment history and that contains his name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a fingerprint or voice print or a photograph;
The term "system of records" means of group of any record under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

Notices with respect to the systems maintained by the Commission have been published in the FEDERAL REGISTER, as required by the Act. These rules pertain only to the systems of records disclosed in such notices, and to any systems that may become the subject of a notice at any time in the future.
(c) Nothing in these rules shall be construed as pertaining to requests made under the Freedom of Information Act, 5 U.S.C. 552.

§ 501.2 Definitions.
(a) As used in this part:
(2) The term Commission means the Marine Mammal Commission.
(3) The term Director means the Executive Director of the Marine Mammal Commission.
(4) The term Privacy Officer means an individual designated by the Director to receive all requests regarding the existence of records, requests for access and requests for correction or amendment; to review and make initial determinations regarding all such requests; and to provide assistance to any individual wishing to exercise his or her rights under the Act.
(b) Other terms shall be used in this part in accordance with the definitions contained in section 3 of the Privacy Act of 1974, 5 U.S.C. 552a(a).
§ 501.3 Procedure for responding to requests regarding the existence of records pertaining to an individual.

Any individual may submit a request to be notified whether a system of records, with respect to which the Commission has published a notice in the Federal Register, contains a record pertaining to him or her. Requests may be made in writing to the Privacy Officer or by appearing in person at the Commission offices located at 1625 I Street, NW., Room 307, Washington, DC 20006 between the hours of 9:00 a.m. and 5:00 p.m. on any working day. Systems of records that are the subject of a request should be identified by reference to the system name designated in the Notice of Systems of Records published in the Federal Register. In the event a system name is not known to the individual, a general request will suffice if it indicates reasons for the belief that a record pertaining to the named individual is maintained by the Commission. Receipt of inquiries submitted by mail will be acknowledged within 10 days of receipt (excluding Saturdays, Sundays, and legal public holidays) unless a response can also be prepared and forwarded to the individual within that time.

§ 501.4 Requests for access—times, places and requirements for identification of individuals.

Requests for access to a system of records pertaining to any individual may be made by that individual by mail addressed to the Privacy Officer, or by submitting a written request in person at the Commission offices located at 1625 I Street, NW., Room 307, Washington, DC 20006 between the hours of 9:00 a.m. and 5:00 p.m. on any working day. Assistance in gaining access under this section, securing an amendment or correction under § 501.6, or preparing an appeal under §§ 501.5(d) and 501.8 shall be provided by the Privacy Officer on request directed to the Commission office. An individual appearing in person at the Commission offices will be granted immediate access to any records to which that individual is entitled under the Act upon satisfaction of identity by means of a document bearing the individual’s photograph or signature. For requests made by mail, identification of the individual shall be adequate if established by means of submitting a certificate of a notary public, or equivalent officer empowered to administer oaths, substantially in accord with the following:

City of: __________________ County of: __________________________
________________________: ss (Name of individual) who affixed (his) (her) signature below in my presence, came before me, a (Title), in the aforesaid County and State, this ______ day of ______, 19____, and established (his)(her) identity to my satisfaction.
My Commission expires ____________.

The certificate shall not be required, however, for written requests pertaining to non-sensitive information or to information which would be required to be made available under the Freedom of Information Act. The Privacy Officer shall determine the adequacy of any proof of identity offered by an individual.

[41 FR 5, Jan. 2, 1976]

§ 501.5 Disclosure of requested information.

(a) Upon request and satisfactory proof of identity, an individual appearing at the Commission offices shall be given immediate access to and permission to review any record, contained in a system of records, pertaining to him or her, shall be allowed to have a person of his/her choosing accompany him/her, and shall be given a copy of all or any portion of the record. The individual to which access is granted shall be required to sign a written statement authorizing the presence of the person who accompanies him or her, and authorizing discussion of his or her record in the presence of the accompanying person.

(b) Requests made by mail to the Privacy Officer at the Commission offices will be acknowledged within 10 days from date of receipt (excluding Saturdays, Sundays, and legal public holidays). This acknowledgement shall advise the individual whether access to the record will be granted and, if access is granted, copies of such records shall be enclosed.

(c) If the Privacy Officer initially determines to deny access to all or any portion of a record, notice of denial...
shall be given to the individual in writing, within 30 days (excluding Saturdays, Sundays and holidays) after acknowledgement is given, and shall include the following:

1. The precise record to which access is being denied;
2. The reason for denial, including a citation to the appropriate provisions of the Act and of these Rules;
3. A statement that the denial may be appealed to the Director;
4. A statement of what steps must be taken to perfect an appeal to the Director; and,
5. A statement that the individual has a right to judicial review under 5 U.S.C. 552a(g)(1) of any final denial issued by the Director.

(d) Administrative appeal of an initial denial, in whole or in part, of any request for access to a record, shall be available. An individual may appeal by submitting to the Director a written request for reconsideration stating therein specific reasons for reversal which address directly the reasons for denial stated in the initial notice of denial. If access is denied on appeal, a final notice of denial shall be sent to the individual within 30 days (excluding Saturdays, Sundays and holidays), and shall state with particularity the grounds for rejecting all reasons for reversal submitted by the individual. The denial shall then be deemed final for purposes of obtaining judicial review.

§ 501.6 Requests for correction or amendment of a record.

(a) Any individual may request the correction or amendment of a record pertaining to him or her in writing addressed to the Privacy Officer at the Commission offices. Verification of identity required for such requests shall be the same as that specified in §501.4 of this part with respect to requests for access. Records sought to be amended must be identified with as much specificity as is practicable under the circumstances of the request, and at a minimum, should refer to the system name designated in the Notice of System Records published in the Federal Register, the type of record in which the information thought to be improperly maintained or incorrect is contained, and the precise information that is the subject of the request (for example, system name, description of record, paragraph, sentence, line, words). Assistance in identifying a record, and in otherwise preparing a request, may be obtained by contacting the Privacy Officer at the Commission offices.

(b) A request should, in addition to identifying the individual and the record sought to be amended or corrected, include:

1. The specific wording or other information to be deleted, if any;
2. The specific wording or other information to be inserted, if any, and the exact place in the record at which it is to be inserted, and,
3. A statement of the basis for the requested amendment or correction (e.g. that the record is inaccurate, unnecessary, irrelevant, untimely, or incomplete), together with supporting documents, if any, which substantiate the statement.

§ 501.7 Agency review of requests for amendment or correction of a record.

(a) Where possible, each request for amendment or correction shall be reviewed, and a determination on the request made, by the Privacy Officer within 10 days of receipt (excluding Saturdays, Sundays and holidays). An acknowledgement shall inform the individual making the request that the estimated time within which a disposition of the request is expected to be made, and shall prescribe such further information as may be necessary to process the request. The request shall be granted, or an initial decision to deny shall be made, within ten days of receipt of all information specified in the acknowledgement (excluding Saturdays, Sundays and holidays).

(b) Within 30 days (excluding Saturdays, Sundays and holidays) after arriving at a decision on a request, the Privacy Officer shall either:

Marine Mammal Commission

§ 501.7
§ 501.8

(1) Make the requested amendment or correction, in whole or in part, and advise the individual in writing of such action; or,

(2) Advise the individual in writing that the request has been initially denied, in whole or in part, stating, with respect to those portions denied;
(i) The date of the denial;
(ii) The reasons for the denial, including a citation to an appropriate section of the Act and these Rules; and,
(iii) The right of the individual to prosecute an appeal and to obtain judicial review should a final denial result from the appeal.

(c) In reviewing a request for amendment or correction of a record, the Privacy Officer shall consider the following criteria:
(1) The sufficiency of the evidence submitted by the individual;
(2) The factual accuracy of the information sought to be amended or corrected;
(3) The relevance and necessity of the information sought to be amended or corrected in terms of the purposes for which it was collected;
(4) The timeliness and currency of the information sought to be amended or corrected in terms of the purposes for which it was collected;
(5) The completeness of the information sought to be amended or corrected in terms of the purposes for which it was collected;
(6) The degree of possibility that denial of the request could unfairly result in determinations adverse to the individual;
(7) The character of the record sought to be corrected or amended; and,
(8) The propriety and feasibility of complying with the specific means of correction or amendment requested by the individual. If an amendment or correction is otherwise permissible under the Act and other relevant statutes, a request shall be denied only if the individual has failed to establish, by a preponderance of the evidence, the propriety of the amendment or correction in light of these criteria.

§ 501.8 Appeal of initial denial of a request for amendment or correction.

(a) The initial denial of a request for amendment or correction may be appealed by submitting to the Director the following appeal papers:
(1) A copy of the original request for amendment or correction;
(2) A copy of the initial denial; and
(3) A precise statement of the reasons for the individual’s belief that the denial is in error, referring specifically to the criteria contained in § 501.7(c)(1) through (8).

The appeal must be signed by the individual. While these papers normally will constitute the entire Record on Appeal, the Director may add additional information, from sources other than the individual, where necessary to facilitate a final determination. Any such additional information added to the record shall promptly be disclosed to the individual to the greatest extent possible, and an opportunity for comment thereon shall be afforded prior to the final determination. Appeals should be submitted to the Director within 90 days after the date of the initial denial.

(b) The Director shall issue a final determination on appeal within thirty days (excluding Saturdays, Sundays, and legal public holidays) from the date on which a completed Record on Appeal (including any additional information deemed necessary) is received. Review, and final determination by the Director, shall be based upon the criteria specified in § 501.7(c)(1) through (8).

(c) If the appeal is resolved favorably to the individual, the final determination shall specify the amendments or corrections to be made. Copies of the final determination shall be transmitted promptly to the individual and to the Privacy Officer. The Privacy Officer shall make the requested amendment or correction and advise the individual in writing of such action.

(d) If the appeal is denied, the final determination shall state, with particularity, the reasons for denial, including a citation to an appropriate section of the Act and of these Rules. The final determination shall be forwarded promptly to the individual, together with a notice which shall inform
§ 510.4

the individual of his or her right to submit to the Privacy Officer, for inclusion in the record, a concise statement of grounds for disagreement with the final determination. Receipt of any such statement shall be acknowledged by the Privacy Officer, and all subsequent and prior users of the record shall be provided copies of the statement. The notice shall also inform the individual of his or her right, under 5 U.S.C. 552a(g)(1), to obtain judicial review of the final determination.

§ 510.9 Fees.

A fee of $0.10 shall be charged for each copy of each page of a record made, by photocopy or similar process, at the request of an individual. No fee shall be charged for copies made at the initiative of the Commission incident to granting access to a record. A total copying fee of $2.00 or less may be waived by the Privacy Officer, but fees for all requests made contemporaneously by an individual shall be aggregated to determine the total fee.

[41 FR 5, Jan. 2, 1976]

PART 510—IMPLEMENTATION OF THE FEDERAL ADVISORY COMMITTEE ACT

Sec.

510.1 Purpose.

510.2 Scope.

510.3 Definitions.

510.4 Calling of meetings.

510.5 Notice of meetings.

510.6 Public participation.

510.7 Closed meetings.

510.8 Minutes.

510.9 Uniform pay guidelines.

Authority: Sec. 8(a), Federal Advisory Committee Act, 5 U.S.C. App. I.

Source: 41 FR 3306, Jan. 22, 1976, unless otherwise noted.

§ 510.1 Purpose.

The regulations prescribed in this part set forth the administrative guidelines and management controls for advisory committees reporting to the Marine Mammal Commission. These regulations are authorized by section 8(a) of the Federal Advisory Committee Act, 5 U.S.C. appendix I. Guidelines and controls are prescribed for calling of meetings, notice of meetings, public participation, closing of meetings, keeping of minutes, and compensation of committee members, their staff and consultants.

§ 510.2 Scope.

These regulations shall apply to the operation of advisory committees reporting to the agency.

§ 510.3 Definitions.

For the purposes of this part,

(a) The term Act means the Federal Advisory Committee Act, 5 U.S.C. appendix I;

(b) The term Chairperson means each person selected to chair an advisory committee established by the Commission;

(c) The term Commission means the Marine Mammal Commission, established by 16 U.S.C. 1401(a);

(d) The term committee means any advisory committee reporting to the Commission; and

(e) The term Designee means the agency official designated by the Chairman of the Commission (1) to perform those functions specified by sections 10(e) and (f) of the Act, and (2) to perform such other responsibilities as are required by the Act and applicable regulations to be performed by the “agency head.”

§ 510.4 Calling of meetings.

(a) No committee shall hold any meeting except with the advance approval of the Designee. Requests for approval may be made, and approval to hold meetings may be given orally or in writing, but if approval is given orally, the fact that approval has been given shall be stated in the public notice published pursuant to §510.5 of these regulations.

(b) An agenda shall be submitted to, and must be approved by, the Designee in advance of each committee meeting, and that meeting shall be conducted in accordance with the approved agenda. The agenda shall list all matters to be considered at the meeting, and shall indicate when any part of the meeting will be closed to the public on the authority of exemptions contained in the
§ 510.5  Notice of meetings.

(a) Notice of each committee meeting shall be timely published in the FEDERAL REGISTER. Publication shall be considered timely if made at least 15 days before the date of the meeting, except that shorter notice may be provided in emergency situations.

(b) The notice shall state the time, place, scheduled and purposes of the committee meeting, and shall include, whenever it is available, a summary of the agenda. The notice shall indicate the approximate times at which any portion of the meeting will be closed to the public and shall include an explanation for the closing of any portion of the meeting pursuant to § 510.7.

§ 510.6  Public participation.

(a) All committee meetings, or portions of meetings, that are open to the public shall be held at a reasonable time and at a place that is reasonably accessible to the public. A meeting room shall be selected which, within the bounds of the resources and facilities available, affords space to accommodate all members of the public who reasonably could be expected to attend.

(b) Any member of the public shall be permitted to file a written statement with the committee, either by personally delivering a copy to the Chairperson, or by submitting the statement by mail to the Marine Mammal Commission Offices at the address indicated in the notice of meeting. Such statements should be received at least one week in advance of the scheduled meeting at which they are expected to be considered by the committee.

(c) Opportunities will ordinarily be afforded to interested persons to speak to agenda items during that portion of the open meeting during which that item is to be considered by the committee, subject to such reasonable time limits as the committee may establish, and consideration of the extent to which the committee has received the benefit of comments by interested persons, the complexity and the importance of the subject, the time constraints under which the meeting is to be conducted, the number of persons who wish to speak during the meeting, and the extent to which the statement provides the committee with information which has not previously been available and is relevant to its decision or other action on that request. Interested persons may be required to serve reasonable notice of their intentions to speak so that the committee may assess whether procedures and scheduling for the meeting can be adjusted to accommodate large numbers of participants.

§ 510.7  Closed meetings.

(a) Whenever the committee seeks to have all or a portion of a meeting closed to the public on the basis of an exemption provided in 5 U.S.C. 552(b), the Chairperson shall notify the Designee at least 30 days before the scheduled date of the meeting. The notification shall be in writing and shall specify all the reasons for closing any part of the meeting.

(b) If, after consultation with the General Counsel of the Commission, the Designee finds the request to be warranted and in accordance with the policy of the Act, the request shall be granted. The determination of the Designee to grant any such request shall be in writing and shall specify all the reasons for closing any part of the meeting.

§ 510.8  Minutes.

Detailed minutes shall be kept of each portion of each committee meeting. The minutes shall include: the time and place of the meeting; a list of the committee members and staff in attendance; a complete summary of matters discussed and conclusions reached; copies of all reports received, issued, or approved by the committee; a description of the extent to which the meeting was open to the public; and a description of public participation, including a list of members of the public who presented oral or written statements and an estimate of the number of members of the public who attended the open sessions. The Chairperson
§ 510.9 Uniform pay guidelines.

(a) Compensation of members and staff of, and consultants to the Committee of Scientific Advisors on Marine Mammals is fixed in accordance with 16 U.S.C. 1401(e), 1403(b), and 1406.

(b) Compensation for members and staff of, and consultants to all advisory committees reporting to the Commission except the Committee of Scientific Advisors on Marine Mammals shall be fixed in accordance with guidelines established by the Director of the Office of Management and Budget pursuant to section 7(d) of the Act, 5 U.S.C. appendix I.

PART 520—PUBLIC AVAILABILITY OF AGENCY MATERIALS

§ 520.1 Purpose.

These regulations implement the provisions of the "Freedom of Information Act," 5 U.S.C. 552. They establish procedures under which the public may inspect and obtain copies of nonexempt material maintained by the Commission, provide for administrative appeal of initial determinations to deny requests for material, and prescribe uniform fees to be charged by the Commission to recover direct search and duplication costs.

§ 520.2 Scope.

(a) These regulations shall apply to all final opinions, including concurring and dissenting opinions, as well as orders, made by the Commission in the adjudication of cases; to all statements of policy and interpretations which have been adopted by the Commission and are not published in the Federal Register; to the Commission's administrative staff manuals and instructions to staff that affect a member of the public; and to any other Commission records reasonably described and requested by a person in accordance with these regulations—except to the extent that such material is exempt in accordance with paragraph (b) of this section.

(b) Requests for inspection and copies shall not be granted with respect to materials that are:

(1)(i) Specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy, and

(ii) Are in fact properly classified pursuant to such Executive order;

(2) Related solely to the internal personnel rules and practices of the Commission;

(3) Specifically exempted from disclosure by statute;

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the Commission;

(6) Personnel and medical files and similar files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would:

(i) Interfere with enforcement proceedings,

(ii) Deprive a person of a right to a fair trial or an impartial adjudication,

(iii) Constitute an unwarranted invasion of personal privacy,

(iv) Disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source,

(v) Disclose investigative techniques and procedures, or

(vi) Endanger the life or physical safety of law enforcement personnel;
(8) Contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or
(9) Geological and geophysical information and data, including maps, concerning wells.

§ 520.3 Definitions.
As used in these regulations:
(a) The term Commission means the Marine Mammal Commission;
(b) The term Director means the Executive Director of the Marine Mammal Commission;
(c) The term exempt materials means those materials described in §520.2(b);
(d) The term non-exempt materials refers to all materials described in §520.2(a), but not included in §520.2(b); and
(e) The term General Counsel means the General Counsel of the Marine Mammal Commission.

§ 520.4 Availability of materials.
(a) All non-exempt materials shall be available for inspection during normal business hours at the Commission offices, 1625 I Street, NW., Room 307, Washington, DC. Space shall be made available at that location for the use of any person who is granted permission to inspect such materials.
(b) Requests to inspect, and obtain copies of, any material maintained by the Commission may be made in person at the Commission offices, or submitted in writing to the Executive Director, Marine Mammal Commission, 1625 I St., NW., Room 307, Washington, DC 20006. Each request should include a reasonable description of the material being sought, and should contain sufficient detail to facilitate retrieval of the material without undue delay. The Commission staff shall assist to the extent practicable in identifying material that is imprecisely described by the person requesting such material.
(c) An initial determination whether, and to what extent, to grant each request shall be made by the General Counsel or his delegate within 10 days (excepting Saturdays, Sundays, and legal public holidays) after receipt of that request. The person making the request shall be notified immediately of the determination made. In making such determinations, it shall first be considered whether the material requested is of a type described in §520.2(a); if it is, the request shall be granted unless the material is exempted by §520.2(b). If the material requested is not of a type described in §520.2(a), or is the subject of one or more exemptions, the request shall be denied.
(d) If a determination is made to grant a request, the relevant material shall promptly be made available for inspection at the Commission offices. Copies of the material disclosed shall be furnished within a reasonable time after payment of the fee specified in §520.7. Copies of less than 10 pages of material requested in person ordinarily will be furnished immediately following the determination to grant the request and payment of the fee. Larger numbers of copies may be furnished at the earliest convenience of the Commission staff, but must be furnished within a reasonable time following payment of the fee.
(e) Whenever required to prevent a clearly unwarranted invasion of personal privacy, the General Counsel or his delegate shall determine that identifying details shall be deleted from an opinion, statement of policy, interpretation, or staff manual or instruction to which access is granted or of which copies are furnished. Where portions of the requested material are exempt under §520.2(b), and are reasonably segregable from the remainder of the material, those portions shall be excised from the material disclosed. Whenever details are deleted or portions are excised and not disclosed, the notification shall include the information specified in §520.4(f).
(f) If a determination is made to deny a request, the notification shall include a statement of the reasons for such action, shall set forth the name and position of the person responsible for the denial, and shall advise the requester of the right, and the procedures required under §520.5, to appeal the denial to the Director.
§ 520.5 Administrative appeal.
(a) An appeal to the Director of any denial, in whole or in part, of a request for access to and copies of material may be made by submission of a written request for reconsideration. Such requests must state specific reasons for reconsideration that address directly the grounds upon which the denial was based. Requests should be addressed to the Director at the Commission offices.
(b) The Director shall make a determination with respect to any appeal within 20 days (excepting Saturdays, Sundays, and legal public holidays) after receipt of the request for reconsideration. The person making such a request shall immediately be notified by mail of the determination.
(c) If the initial denial is reversed by the Director, any material with which the reversal is concerned shall be made available for inspection, and copies shall be furnished, in accordance with § 520.4(d).
(d) If the denial is upheld, in whole or in part, the Director shall include in the notification a statement of the requester’s right of judicial review under 5 U.S.C. 552(a)(4), and the names and positions of the persons responsible for the denial.

§ 520.6 Extensions of time.
(a) Whenever unusual circumstances exist, as set forth in §520.6(b), the times within which determinations must be made by the General Counsel on requests for access (10 working days), and by the Director on requests for reconsideration (20 working days), may be extended by written notice to the requester. The notice shall set forth the reasons for such extension, and the date on which a determination is expected to be made. The maximum extension of time allowed under this section shall be 10 working days, but shall be utilized only to the extent reasonably necessary to the proper processing of the particular request.
(b) As used in this section, “unusual circumstances” shall mean:
(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the Commission offices;
(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are the subject of a single request; or
(3) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject-matter interest therein.

§ 520.7 Fees.
(a) The following standard charges for document search and duplication, based on the direct costs of such services, must be paid before access to, or copies of material will be granted under these regulations:
(1) Search: $4.00 per person-hour for clerical time; $8.00 per person-hour for professional or supervisory time;
(2) Duplication: $.10 per page of photocopied material.
(b) The Commission shall furnish without charge, or at a reduced charge, copies of any material disclosed pursuant to these regulations, whenever the General Counsel or the Director determines that waiver or reduction of the fee is in the public interest because furnishing the information can be considered as primarily benefiting the general public.

PART 530—COMPLIANCE WITH THE NATIONAL ENVIRONMENTAL POLICY ACT

Sec.
530.1 Purpose.
530.2 Ensuring that environmental documents are actually considered in agency decision-making.
530.3 Typical classes of action.
530.4 Environmental information.

SOURCE: 44 FR 52837, Sept. 11, 1979, unless otherwise noted.

§ 530.1 Purpose.
The purpose of this part is to establish procedures which supplement the National Environmental Policy Act (NEPA) regulations and provide for the implementation of those provisions
§ 530.2 Ensuring that environmental documents are actually considered in agency decision-making.

Section 1505.1 of the NEPA regulations contains requirements to ensure adequate consideration of environmental documents in agency decision-making. To implement these requirements, Commission officials shall:

(a) Consider all relevant environmental documents in evaluating proposals for agency actions;

(b) Ensure that all relevant environmental documents, comments, and responses accompany the proposal through existing agency review processes;

(c) Consider only those alternatives encompassed by the range of alternatives discussed in the relevant environmental documents when evaluating any proposal for action by the Commission which is likely to significantly affect the quality of the human environment; and

(d) Where an environmental impact statement (EIS) has been prepared, consider the specific alternatives analyzed in the EIS when evaluating the proposal which is the subject of the EIS. All Commission officials directly involved in developing, evaluating, and/or reaching decisions on proposed actions shall consider relevant environmental documents and comply with the applicable provisions of the NEPA process.

§ 530.3 Typical classes of action.

Section 1507.3(b)(2), in conjunction with §1508.4, requires agencies to identify typical classes of action that warrant similar treatment under NEPA with respect to the preparation of EIS's or environmental assessments. As a general matter, the Commission’s activities do not include actions for which EIS’s or environmental assessments are required. Its activities involve:

(a) Consultation with and recommendations to other Federal agencies for actions relating to marine mammal protection and conservation for which an EIS or environmental assessment is either not required by the NEPA regulations or for which an EIS or environmental assessment is prepared by another Federal agency; and

(b) Research contracts relating to policy issues, biological-ecological data needed to make sound management decisions, and better methods for collecting and analyzing data. These activities are not, by themselves, major Federal actions significantly affecting the quality of the human environment and the Commission’s activities are therefore categorically excluded from the requirement to prepare an EIS or environmental assessment except for proposals for legislation which are initiated by the Commission, for which the Commission shall develop environmental assessments or EIS’s, as appropriate, in accordance with the NEPA regulations. The Commission shall independently determine whether an EIS or an environmental assessment is required where:

(1) A proposal for agency action is not covered by one of the typical classes of action above; or

(2) For actions which are covered, the presence of extraordinary circumstances indicates that some other level of environmental review may be appropriate.

§ 530.4 Environmental information.

Interested persons may contact the Office of the General Counsel for information regarding the Commission’s compliance with NEPA.
§ 540.2 Program.

The Executive Director is designated as the Commission’s official responsible for implementation and oversight of information security programs and procedures. He acts as the recipient of questions, suggestions, and complaints regarding all elements of this program, and is solely responsible for changes to it and for insuring that it is at all times consistent with Executive Order 12356. The Executive Director also serves as the Commission’s official contact for requests for declassification of materials submitted under the provisions of Executive Order 12356, regardless of the point of origin of such requests. He is responsible for assuring that requests submitted under the Freedom of Information Act are handled in accordance with that Act and that declassification requests submitted under the provisions of Executive Order 12356 are acted upon within 60 days of receipt.

[44 FR 55381, Sept. 26, 1979]

§ 540.3 Procedures.

(a) Mandatory declassification review. All requests for mandatory review shall be handled by the Executive Director or his designee. Under no circumstances shall the Executive Director refuse to confirm the existence or non-existence of a document requested under the Freedom of Information Act or the mandatory review provisions of Executive Order 12356, unless the fact of its existence or non-existence would itself be classified under Executive Order 12356. Requests for declassification shall be acted upon promptly providing that the request reasonably describes the information which is the subject of the request for declassification. In light of the fact that the Commission does not have original classification authority and national security information in its custody has been classified by another Federal agency, the Executive Director will refer all requests for national security information in its custody to the Federal agency that classified it or, if the agency that classified it has either ceased to exist or transferred the information in conjunction with a transfer of functions, to the appropriate federal agency exercising original classification authority with respect to the same subject, for review and disposition in accordance with Executive Order 12356 and that agency’s regulations and guidelines.

(b) Exceptional cases. When an employee or contractor of the Commission originates information that is believed to require classification, the Executive Director shall ensure that it is protected in accordance with Executive Order 12356 and shall promptly transmit it under appropriate safeguards to the agency with appropriate subject matter jurisdiction and classification authority for review and action in accordance with the Order and that agency’s regulations and guidelines.

(c) Derivative classification. Derivative classification markings shall be applied to information that is in substance the same as information that is already classified, in accordance with Executive Order 12356, Section 2-1, unless it is determined through inquiries made to the originators of the classified information or other appropriate persons that the paraphrasing, restating, or summarizing of the classified information obviates the need for its classification, in which case the information shall be issued as unclassified or shall be marked appropriately. After verifying the current level of classification so far as practicable, paper copies of such derivatively classified information shall be marked so as to indicate:

(1) The source of the original classification;
(2) The identity of the Commission employee originating the derivatively classified document;
(3) The dates or events for declassification or review for declassification indicated on the classified source material; and
(4) Any additional authorized markings appearing on the source material.

(d) Handling. All classified documents shall be delivered to the Executive Director or his designee immediately upon receipt. All potential recipients of such documents shall be advised of the names of such designees and updated information as necessary. In the event that the Executive Director or his designee is not available to receive
such documents, they shall be turned over to the Administrative Officer and secured, unopened, in the combination safe located in the Commission offices until the Executive Director or his designee is available. Under no circumstances shall classified materials that cannot be delivered to the Executive Director or his designee be stored other than in the designated safe.

(e) Reproduction. Reproduction of classified material shall take place only in accordance with Executive Order 12356, its implementing directives, and any limitations imposed by the originator. Should copies be made, they are subject to the same controls as the original document. Records showing the number and distribution of copies shall be maintained, where required by the Executive Order, by the Administrative Officer and the log stored with the original documents. These measures shall not restrict reproduction for the purposes of mandatory review.

(f) Storage. All classified documents shall be stored in the combination safe located in the Commission’s offices. The combination shall be changed as required by ISOO Directive No. 1, dated June 23, 1982. The combination shall be known only to the Executive Director and his designees with the appropriate security clearance.

(g) Employee education. All employees who have been granted a security clearance and who have occasion to handle classified materials shall be advised of handling, reproduction, and storage procedures and shall be required to review Executive Order 12356 and appropriate ISOO directives. This shall be effected by a memorandum to all affected employees at the time these procedures are implemented. New employees will be instructed in procedures as they enter employment with the Commission.

(h) Agency terminology. The use of the terms Top Secret, Secret, and Confidential shall be limited to materials classified for national security purposes.

PART 550—ENFORCEMENT OF NONDISCRIMINATION ON THE BASIS OF HANDICAP IN PROGRAMS OR ACTIVITIES CONDUCTED BY MARINE MAMMAL COMMISSION

Sec.
550.101 Purpose.
550.102 Application.
550.103 Definitions.
550.104-550.109 [Reserved]
550.110 Self-evaluation.

550.170 Compliance procedures.
550.171-550.999 [Reserved]

SOURCE: 51 FR 4579, Feb. 5, 1986, unless otherwise noted.

§ 550.101 Purpose.

This part effectuates section 119 of the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978, which amended section 504 of the Rehabilitation Act of 1973 to prohibit discrimination on the basis of handicap in programs or activities conducted by executive agencies or the United States Postal Service.

§ 550.102 Application.

This part applies to all programs or activities conducted by the agency.

§ 550.103 Definitions.

For purposes of this part, the term—Assistant Attorney General means the Assistant Attorney General, Civil Rights Division, United States Department of Justice.

Auxiliary aids means services or devices that enable persons with impaired sensory, manual, or speaking
skills to have an equal opportunity to participate in, and enjoy the benefits of, programs or activities conducted by the agency. For example, auxiliary aids useful for persons with impaired vision include readers, Brailled materials, audio recordings, telecommunications devices and other similar services and devices. Auxiliary aids useful for persons with impaired hearing include telephone handset amplifiers, telephones compatible with hearing aids, telecommunication devices for deaf persons (TDD's), interpreters, notetakers, written materials, and other similar services and devices.

Complete complaint means a written statement that contains the complainant's name and address and describes the agency's alleged discriminatory action in sufficient detail to inform the agency of the nature and date of the alleged violation of section 504. It shall be signed by the complainant or by someone authorized to do so on his or her behalf. Complaints filed on behalf of classes or third parties shall describe or identify (by name, if possible) the alleged victims of discrimination.

Facility means all or any portion of buildings, structures, equipment, roads, walks, parking lots, rolling stock or other conveyances, or other real or personal property.

Handicapped person means any person who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment.

As used in this definition, the phrase:

1. Physical or mental impairment includes—
   (i) Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine; or
   (ii) Any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. The term 'physical or mental impairment' includes, but is not limited to, such diseases and conditions as orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, and drug addition and alcoholism.

2. Major life activities includes functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

3. Has a record of such an impairment means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.

4. Is regarded as having an impairment means—
   (i) Has a physical or mental impairment that does not substantially limit major life activities but is treated by the agency as constituting such a limitation;
   (ii) Has a physical or mental impairment that substantially limits major life activities only as a result of the attitudes of others toward such impairment;
   (iii) Has none of the impairments defined in subparagraph (1) of this definition but is treated by the agency as having such an impairment.

Qualified handicapped person means—

1. With respect to any agency program or activity under which a person is required to perform services or to achieve a level of accomplishment, a handicapped person who meets the essential eligibility requirements and who can achieve the purpose of the program or activity without modifications in the program or activity that the agency can demonstrate would result in a fundamental alteration in its nature; or

2. With respect to any other program or activity, a handicapped person who meets the essential eligibility requirements and who can achieve the purpose of the program or activity without modifications in the program or activity that the agency can demonstrate would result in a fundamental alteration in its nature; or

3. Qualified handicapped person is defined for purposes of employment in 29 CFR 1613.702(f), which is made applicable to this part by § 550.140.
amended by the Rehabilitation Act Amendments of 1974 (Pub. L. 93-516, 88 Stat. 1617), and the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978 (Pub. L. 95-602, 92 Stat. 2955). As used in this part, section 504 applies only to programs or activities conducted by Executive agencies and not to federally assisted programs.

§§ 550.104–550.109 [Reserved]

§ 550.110 Self-evaluation.

(a) The agency shall, by April 9, 1987, evaluate its current policies and practices, and the effects thereof, that do not or may not meet the requirements of this part, and, to the extent modification of any such policies and practices is required, the agency shall proceed to make the necessary modifications.

(b) The agency shall provide an opportunity to interested persons, including handicapped persons or organizations representing handicapped persons, to participate in the self-evaluation process by submitting comments (both oral and written).

(c) The agency shall, until three years following the completion of the self-evaluation, maintain on file and make available for public inspections:

1. A description of areas examined and any problems identified, and

2. A description of any modifications made.

§ 550.111 Notice.

The agency shall make available to employees, applicants, participants, beneficiaries, and other interested persons such information regarding the provisions of this part and its applicability to the programs or activities conducted by the agency, and make such information available to them in such manner as the head of the agency finds necessary to apprise such persons of the protections against discrimination assured them by section 504 and this regulation.
§ 550.150 Program accessibility: Existing facilities.

(a) General. The agency shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by handicapped persons.

(1) Necessarily require the agency to make each of its existing facilities accessible to and usable by handicapped persons;

(2) Require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with §550.150(a) would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion.

(b) Methods. The agency may take any other action that it can demonstrate would result in such alteration or burdens but would nevertheless ensure that handicapped persons receive the benefits and services of the program or activity.

§§ 550.141-550.148 [Reserved]

§ 550.149 Program accessibility: Discrimination prohibited.

Except as otherwise provided in §550.150, no qualified handicapped person shall, because the agency’s facilities are inaccessible to or unusable by handicapped persons, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity conducted by the agency.

§ 550.150 Program accessibility: Existing facilities.

(a) General. The agency shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by handicapped persons.

(1) Necessarily require the agency to make each of its existing facilities accessible to and usable by handicapped persons;

(2) Require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with §550.150(a) would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion.

(b) Methods. The agency may take any other action that it can demonstrate would result in such alteration or burdens but would nevertheless ensure that handicapped persons receive the benefits and services of the program or activity.
§ 550.151 Program accessibility: New construction and alterations.

Each building or part of a building that is constructed or altered by, on behalf of, or for the use of the agency shall be designed, constructed, or altered so as to be readily accessible to and usable by handicapped persons. The definitions, requirements, and standards of the Architectural Barriers Act (42 U.S.C. 4151-4157), as established in 41 CFR 101-19.600 to 101-19.607, apply to buildings covered by this section.

§ 550.152-550.159 [Reserved]

§ 550.160 Communications.

(a) The agency shall take appropriate steps to ensure effective communication with applicants, participants, personnel of other Federal entities, and members of the public.

(i) The agency shall furnish appropriate auxiliary aids where necessary to afford a handicapped person an equal opportunity to participate in, and enjoy the benefits of, a program or activity conducted by the agency.

(ii) The agency need not provide individually prescribed devices, readers for personal use or study, or other devices of a personal nature.

(b) Where the agency communicates with applicants and beneficiaries by telephone, telecommunication devices for deaf persons (TDD's) or equally effective telecommunication systems shall be used.

§ 550.160 Communications. Through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities, use of accessible rolling stock, or any other methods that result in making its programs or activities readily accessible to and usable by handicapped persons. The agency is nor required to make structural changes in existing facilities where other methods are effective in achieving compliance with this section. The agency, in making alterations to existing buildings, shall meet accessibility requirements to the extent compelled by the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151-4157), and any regulations implementing it. In choosing among available methods for meeting the requirements of this section, the agency shall give priority to those methods that offer programs and activities to qualified handicapped persons in the most integrated setting appropriate.

(c) Time period for compliance. The agency shall comply with the obligations established under this section by June 6, 1986, except that where structural changes in facilities are undertaken, such changes shall be made by April 7, 1989, but in any event as expeditiously as possible.

(d) Transition plan. In the event that structural changes to facilities will be undertaken to achieve program accessibility, the agency shall develop, by October 7, 1986, a transition plan setting forth the steps necessary to complete such changes. The agency shall provide an opportunity to interested persons, including handicapped persons or organizations representing handicapped persons, to participate in the development of the transition plan by submitting comments (both oral and written). A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum—

(1) Identify physical obstacles in the agency's facilities that limit the accessibility of its programs or activities to handicapped persons;

(2) Describe in detail the methods that will be used to make the facilities accessible;

(3) Specify the schedule for taking the steps necessary to achieve compliance with this section and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period; and

(4) Indicate the official responsible for implementation of the plan.

[51 FR 4579, Feb. 5, 1986; 51 FR 7543, Mar. 5, 1986]
Marine Mammal Commission § 550.170

with impaired vision or hearing, can obtain information as to the existence and location of accessible services, activities, and facilities.

(c) The agency shall provide signage at a primary entrance to each of its inaccessible facilities, directing users to a location at which they can obtain information about accessible facilities. The international symbol for accessibility shall be used at each primary entrance of an accessible facility.

(d) This section does not require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with §550.160 would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action required to comply with this section would result in such an alteration or burdens but would nevertheless ensure that, to the maximum extent possible, handicapped persons receive the benefits and services of the program or activity.

§§ 550.161–550.169 [Reserved]

§ 550.170 Compliance procedures.

(a) Except as provided in paragraph (b) of this section, this section applies to all allegations of discrimination on the basis of handicap in programs or activities conducted by the agency.

(b) The agency shall process complaints alleging violations of section 504 with respect to employment according to the procedures established by the Equal Employment Opportunity Commission in 29 CFR part 1613 pursuant to section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791).

(c) The General Counsel for the Commission shall be responsible for coordinating implementation of this section. Complaints may be sent to the General Counsel for the Commission, Marine Mammal Commission, Room 307, 1625 I Street, NW., Washington, DC 20006.

(d) The agency shall accept and investigate all complete complaints for which it has jurisdiction. All complete complaints must be filed within 180 days of the alleged act of discrimination. The agency may extend this time period for good cause.

(e) If the agency receives a complaint over which it does not have jurisdiction, it shall promptly notify the complainant and shall make reasonable efforts to refer the complaint to the appropriate government entity.

(f) The agency shall notify the Architectural and Transportation Barriers Compliance Board upon receipt of any complaint alleging that a building or facility that is subject to the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151–4157), or section 502 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 792), is not readily accessible to and usable by handicapped persons.

(g) Within 180 days of the receipt of a complete complaint for which it has jurisdiction, the agency shall notify the complainant of the results of the investigation in a letter containing—

(1) Findings of fact and conclusions of law;
(2) A description of a remedy for each violation found;
(3) A notice of the right to appeal.

(h) Appeals of the findings of fact and conclusions of law or remedies must be filed by the complainant within 90 days of receipt from the agency of the letter required by §550.170(g). The agency may extend this time for good cause.

(i) Timely appeals shall be accepted and processed by the head of the agency.

(j) The head of the agency shall notify the complainant of the results of the appeal within 60 days of the receipt of the request. If the head of the agency determines that additional information is needed from the complainant,
he or she shall have 60 days from the
date of receipt of the additional infor-
mation to make his or her determi-
nation on the appeal.

(k) The time limits cited in para-
graphs (g) and (j) of this section may be
extended with the permission of the
Assistant Attorney General.

(l) The agency may delegate its au-
thority for conducting complaint in-
vestigations to other Federal agencies,
except that the authority for making
the final determination may not be
delegated to another agency.

§§ 550.171-550.999 [Reserved]

PART 560—IMPLEMENTATION OF
THE GOVERNMENT IN THE SUN-
SHINE ACT

Sec.
560.1 Purpose and scope.
560.2 Definitions.
560.3 Open meetings.
560.4 Notice of meetings.
560.5 Closed meetings.
560.6 Procedures for closing meetings.
560.7 Recordkeeping requirements.
560.8 Public availability of records.

AUTHORITY: 5 U.S.C. 552b(g).

SOURCE: 50 FR 2571, Jan. 17, 1985, unless
otherwise noted.

§ 560.1 Purpose and scope.

This part contains the regulations of
the Marine Mammal Commission im-
plementing the Government in the
Sunshine Act (5 U.S.C. 552b). Consis-
tent with the Act, it is the policy of the
Marine Mammal Commission that
the public is entitled to the fullest prac-
ticable information regarding its deci-
sion making processes. The provisions
of this part set forth the basic re-
 sponsibilities of the Commission with re-
gard to this policy and offer guidance
to members of the public who wish to
exercise the rights established by the
Act. These regulations also fulfill the
requirement of 5 U.S.C. 552b(g) that
each agency subject to the Act promul-
gate regulations to implement the open
meeting requirements of subsections
(b) through (f) of section 552b.

§ 560.2 Definitions.

For purposes of this part, the term—
Administrative Officer means the Ad-
nominate Officer of the Marine Mammal Commission.

Commission means the Marine Mam-
mal Commission, a collegial body es-
tablished under 16 U.S.C. 1401 that
functions as a unit and is composed of
three individual members, each of
whom is appointed by the President, by
and with the advice and consent of the
Senate.

Commissioner means an individual
who is a member of the Marine Mammal Commission.

Executive Director means the Execu-
tive Director of the Marine Mammal Commission.

General Counsel means the General
Counsel of the Marine Mammal Com-
mmission.

Meeting means the deliberations of at
least a majority of the members of the
Commission where such deliberations
determine or result in the joint con-
duct or disposition of official Commissi-

on business, but does not include an
individual Commissioner’s considera-
tion of official Commission business

circulated in writing for disposition ei-
ther by notation or by separate, se-
quential consideration, and deliberations
on whether to:

(1) Hold a meeting with less than 7
days notice, as provided in § 560.4(d)
of this part;

(2) Change the subject matter of a
publicly announced meeting or the
determination of the Commission to open
or close a meeting or portions thereof
to public observation, as provided in
§ 560.4(e) of this part;

(3) Change the time or place of an an-
nounced meeting, as provided in
§ 560.4(f) of this part;

(4) Close a meeting or portions of a
meeting, as provided in § 560.5 of this
part; or

(5) Withhold from disclosure informa-
tion pertaining to a meeting or por-
tions of a meeting, as provided in § 560.5
of this part.

Public observation means attendance
by one or more members of the public
at a meeting of the Commission, but
does not include participation in the
meeting.
Public participation means the presentation or discussion of information, raising of questions, or other manner of involvement in a meeting of the Commission by one or more members of the public in a manner that contributes to the disposition of Commission business.

§ 560.3 Open meetings.

(a) Except as otherwise provided in this part, every portion of every meeting of the Commission shall be open to public observation.

(b) Meetings of the Commission, or portions thereof, shall be open to public participation only when an announcement to that effect is issued under §560.4(b)(4) of this part. Public participation shall be conducted in an orderly, nondisruptive manner and in accordance with such procedures as the chairperson of the meeting may establish. Public participation may be terminated at any time for any reason.

(c) When holding open meetings, the Commission shall make a diligent effort to provide ample space, sufficient visibility, and adequate acoustics to accommodate the public attendance anticipated for the meeting.

(d) Members of the public may record open meetings of the Commission by means of any mechanical or electronic device, unless the chairperson of the meeting determines that such recording would disrupt the orderly conduct of the meeting.

§ 560.4 Notice of meetings.

(a) Except as otherwise provided in this section, the Commission shall make a public announcement at least 7 days prior to a meeting.

(b) The public announcement shall include:

(1) The time and place of the meeting;

(2) The subject matter of the meeting;

(3) Whether the meeting is to be open, closed, or portions thereof closed;

(4) Whether public participation will be allowed; and

(c) The public announcement requirement shall be implemented by:

(1) Submitting the announcement for publication in the Federal Register;

(2) Distributing the announcement to affected governmental entities;

(3) Mailing the announcement to persons and organizations known to have an interest in the subject matter of the meeting; and

(4) Other means that the Executive Director deems appropriate to inform interested parties.

(d) A meeting may be held with less than 7 days notice if a majority of the members of the Commission determine by recorded vote that the business of the Commission so requires. The Commission shall make a public announcement to this effect at the earliest practicable time. The announcement shall include the information required by paragraph (b) of this section and shall be issued in accordance with those procedures set forth in paragraph (c) of this section that are practicable given the available period of time.

(e) The subject matter of an announced meeting, or the determination of the Commission to open or close a meeting or portions thereof to public observation, may be changed if a majority of the members of the Commission determine by recorded vote that Commission business so requires and that no earlier announcement of the change was possible. The Commission shall make a public announcement of the changes made and the vote of each member on each change at the earliest practicable time. The announcement shall be issued in accordance with those procedures set forth in paragraph (c) of this section that are practicable given the available period of time.

(f) The time or place of an announced meeting may be changed only if a public announcement of the change is made at the earliest practicable time. The announcement shall be issued in accordance with those procedures set forth in paragraph (c) of this section that are practicable given the available period of time.

§ 560.5 Closed meetings.

(a) A meeting or portions thereof may be closed, and information pertaining to such meeting or portions
§ 560.6 Procedures for closing meetings.

(a) A meeting or portions thereof may be closed and information pertaining to such meeting or portions thereof may be withheld under §560.5 of this part only when a majority of the members of the Commission vote to take such action.
§ 560.8 Public availability of records.

(a) The Commission shall make available to the public the transcript, electronic recording, or minutes of a meeting, except for items of discussion or testimony that relate to matters the Commission has determined to contain information which may be withheld under §560.5 of this part.

(b) The transcript, electronic recordings or minutes of a meeting shall be made available for public review as soon as practicable after each meeting at the Marine Mammal Commission, 1625 I Street NW., Washington, DC 20006.

(c) Copies of the transcript, a transcription of the electronic recording, or the minutes of a meeting shall be furnished at cost to any person upon written request. Written requests should be addressed to the Administrative Officer, Marine Mammal Commission, 1625 I Street NW., Washington, DC 20006.
FINDING AIDS

A list of CFR titles, subtitles, chapters, subchapters and parts and an alphabetical list of agencies publishing in the CFR are included in the CFR Index and Finding Aids volume to the Code of Federal Regulations which is published separately and revised annually.

Material Approved for Incorporation by Reference

(Revised as of October 1, 1998)

The Director of the Federal Register has approved under 5 U.S.C. 552(a) and 1 CFR Part 51 the incorporation by reference of the following publications. This list contains only those incorporations by reference effective as of the revision date of this volume. Incorporations by reference found within a regulation are effective upon the effective date of that regulation. For more information on incorporation by reference, see the preliminary pages of this volume.

List of CFR Sections Affected

All changes in this volume of the Code of Federal Regulations which were made by documents published in the Federal Register since January 1, 1986, are enumerated in the following list. Entries indicate the nature of the changes effected. Page numbers refer to Federal Register pages. The user should consult the entries for chapters and parts as well as sections for revisions.

For the period before January 1, 1986, see the "List of CFR Sections Affected, 1973-1985" published in four separate volumes.

50 CFR

Chapter II

215 Authority citation revised.............................................. 24839
215.2 Revised ............................................................... 24839
215.3 Revised ............................................................... 24840
215.31–215.34 (Subpart D) Revised...................................... 24840

### 50 CFR—Continued

#### Chapter III—Continued

| Redesignated as Part 371 | \(371\) redesignated as Part 371 
| (Subchapter D) | 11752 |

#### 380 Nomenclature change

| \(380\) Nomenclature change | 8489 |

#### 380.2 Amended

| \(380.2\) Amended | 8486 |

#### 380.23 (b)(1), (c) through (j), (k) introductory text, (l)(v)(A), (ix) and (xii) revised; \(k\)(v)(ii)(G), (l), (m) and (n) added | 8486 |

#### 380.24 (e) removed; (f) and (g) redesignated as (e) and (f); (a) introductory text, (b) introductory text, (c) introductory text, \(d\) introductory text, new \(e\) introductory text, \(f\) introductory text, \(i\) introductory text, \(j\) and \(k\) revised; \(e\)(iv), \(i\) and \(k\)(iv) added | 8487 |

#### 380.26 (b) through (i) revised | 8488 |

#### 380.27 Revised | 8488 |

#### 380 Figures 2 and 3 redesignated as Appendixes A and B; new Figure 2 added | 8489 |

### 1997

#### 50 CFR—Continued

#### Chapter II

| Temporary regulations | 33374 |

#### 216 Temporary regulations

| \(216\) Temporary regulations | 33374 |

#### 217 Authority citation revised

| \(217\) Authority citation revised | 6737 |

#### 217.12 (a) heading, \(4\) and \(b)(4) revised; \(a\) introductory text added | 24355 |

#### 217.21 Revised; interim | 38483 |

#### 217.22 Amended; interim | 38484 |

#### 217.23 \(a\)(1), \(c\) through \(j\), \(k\) introductory text, \(i\)(v)(A), (ix) and (xii) revised; \(k\)(v)(ii)(G), (l), (m) and (n) added | 11752 |

#### 217.24 (e) removed; (f) and (g) redesignated as (e) and (f); \(a\) introductory text, \(b\) introductory text, \(c\) introductory text, \(d\) introductory text, \(e\) introductory text, \(f\) introductory text, \(i\) introductory text, \(j\) and \(k\) revised; \(e\)(iv), \(i\) and \(k\)(iv) added | 8487 |

#### 217.25 (a) corrected | 46 |

#### 217.25.4 \(a\)(1) heading, \(1\), \(d\) and \(e\) revised; \(a\)(4) amended | 332 |

#### 217.25.5 \(b\)(7) added; interim | 27519 |

#### 217.25.6 \(c\), \(d\), \(e\), \(g\), \(k\) and \(l\) revised | 30744 |

#### 217.25.7 \(b\) revised | 34416, 38487 |

#### 217.25.22 \(a\)(1), \(c\), \(d\) and \(f\) heading revised; \(f\) amended | 35109 |

#### 217.25.23 \(a\)(1) revised; \(a\)(3) amended | 38941 |

#### 217.25.24 \(a\)(1) and \(e\) revised; \(a\)(4) amended | 30745 |

#### 217.25.25 \(a\) revised | 38941 |

#### 217.25.26 \(a\) amended | 30745 |

#### 217.25.29 Heading revised; introductory text removed; \(a\), \(b\) introductory text, \(c\) and \(d\) amended; \(f\) added | 30745 |

#### 217.25.31 \(a\)(4) and \(37\) revised; \(a\)(39) added | 30745 |

#### 217.25.32 \(a\)(40) added | 38487 |

#### 217.25.33 Heading revised; existing text redesignated as \(a\); \(b\) added | 38487 |
