Table of CFR Titles and Chapters ................................................................. 473

Alphabetical List of Agencies Appearing in the CFR ................................. 489

List of CFR Sections Affected ...................................................................... 499
Cite this Code: CFR

To cite the regulations in this volume use title, part and section number. Thus, 7 CFR 2003.1 refers to title 7, part 2003, section 1.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16
  as of January 1
- Title 17 through Title 27
  as of April 1
- Title 28 through Title 41
  as of July 1
- Title 42 through Title 50
  as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, January 1, 1998), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cut-off date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

OBSOLETE PROVISIONS

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 1986, consult either the List of CFR Sections Affected, 1949-1963, 1964-1972, or 1973-1985, published in seven separate volumes. For the period beginning January 1, 1986, a “List of CFR Sections Affected” is published at the end of each CFR volume.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules (Table I), and Acts Requiring Publication in the Federal Register (Table II). A list of CFR titles, chapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of “Title 3—The President” is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency’s name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202-523-5227 or write to the Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408 or e-mail info@fedreg.nara.gov.

SALES

The Government Printing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call 202-512-1800, M-F 8 a.m. to 4 p.m. e.s.t. or fax your order to 202-512-2233, 24 hours a day. For payment by check, write to the Superintendent of Documents, Attn: New Orders, P.O. Box 371954, Pittsburgh, PA 15250-7954. For GPO Customer Service call 202-512-1803.

ELECTRONIC SERVICES

In addition, the Federal Register's public inspection list and table of contents are also available on the National Archives and Records Administration's Fax-on-Demand system. Phone, 301-713-6905.

RAYMOND A. MOSLEY,
Director,
Office of the Federal Register.

Title 7—Agriculture is composed of fifteen volumes. The parts in these volumes are arranged in the following order: parts 1-26, 27-52, 53-209, 210-299, 300-399, 400-699, 700-899, 900-999, 1000-1199, 1200-1599, 1600-1899, 1900-1939, 1940-1949, 1950-1999, and part 2000 to end. The contents of these volumes represent all current regulations codified under this title of the CFR as of January 1, 1998.

The Food and Consumer Service current regulations in the volume containing parts 210-299, include the Child Nutrition Programs and the Food Stamp Program. The regulations of the Federal Crop Insurance Corporation are found in the volume containing parts 400-699.

All marketing agreements and orders for fruits, vegetables and nuts appear in the one volume containing parts 900-999. All marketing agreements and orders for milk appear in the volume containing parts 1000-1199. Part 900—General Regulations is carried as a note in the volume containing parts 1000-1199, as a convenience to the user.

Redesignation tables appear in the Finding Aids section of the volumes containing parts 210-299 and parts 1600-1899.

For this volume, Cheryl E. Sirofchuck was Chief Editor. The Code of Federal Regulations publication program is under the direction of Frances D. McDonald, assisted by Alomha S. Morris.
Would you like to know... if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the LSA (List of CFR Sections Affected), the Federal Register Index, or both.

LSA
The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected. $27 per year.

Federal Register Index
The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references. $25 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Subpart A—Functional Organization of the Rural Development Mission Area

§ 2003.1 Definitions.
O&M—Operations and Management.
P&P—Policy and Planning.
RBS—Rural Business-Cooperative Development Service, USDA, or any successor agency.
RHS—Rural Housing Service, USDA, or any successor agency.
Rural Development—Rural Development mission area of USDA.
USDA—the United States Department of Agriculture.

§ 2003.2 General.
The Rural Development mission area of the Department of Agriculture was established as a result of the Department of Agriculture Reorganization Act of 1994, Title II of Pub.L. 103-354. Rural Development’s basic organization consists of Headquarters in Washington, D.C. and 47 State Offices. Headquarters maintains overall planning, coordination, and control of Rural Development agency programs. Administrators head RHS, RBS, and RUS under the direction of the Under Secretary for Rural Development. State Directors head the State Offices and are directly responsible to the Under Secretary for the execution of all Rural Development agency programs within the boundaries of their states.

§§ 2003.3—2003.4 [Reserved]

§ 2003.5 Headquarters organization.
(a) The Rural Development Headquarters is comprised of:
(1) The Office of the Under Secretary;
(2) Two Deputy Under Secretaries; and,
(3) Three Administrators and their staffs.
(b) The Rural Development Headquarters is located at 1400 Independence Avenue, SW., Washington, DC. 20250-0700

§ 2003.6 Office of the Under Secretary.
In accordance with 7 CFR § 2.17 the Secretary has delegated to the Under Secretary, Rural Development, authority to manage and administer programs and support functions of the Rural Development mission area.
(a) Office of the Deputy Under Secretary for P&P. This office is headed by the Deputy Under Secretary for P&P. The Under Secretary, Rural Development, has delegated to the Deputy Under Secretary for P&P, responsibility for formulation and development of short- and long-range rural development policies of the Department in accordance with 7 CFR § 2.45. The Deputy Under Secretary for P&P reports directly to the Under Secretary, Rural Development, and provides guidance and supervision for research, policy analysis and development, strategic
planning, partnerships and special initiatives. For budget and accounting purposes, all of the staff offices under the Deputy Under Secretary for P&P are housed in RBS.

(1) The Budget Analysis Division assesses potential impacts of alternative policies on the mission area's programs and operations and develops recommendations for change. The units are headed by the Chief Budget Officer, who individually serves as the top policy advisor to the Under Secretary and Deputy Under Secretary on all matters relating to mission area budget policy.

(2) The Research, Analysis and Information Division analyzes information on rural conditions and the strategies and techniques for promoting rural development. The division performs, or arranges to have conducted, short-term and major research studies needed to formulate policy.

(3) The Reinvention and Capacity Building Division coordinates the mission area's strategic planning initiatives, both at the National level and in the State Offices. The division assists the Rural Development agencies in their implementation of the Government Performance and Results Act (GPRA) and special initiatives of the Administration, USDA, and the Office of the Under Secretary.

(4) The Rural Initiatives and Partnership Division manages the mission area's involvement and coordination with other Federal and state departments and agencies to assess rural issues and develop model partnerships and initiatives to achieve shared rural development goals. The division is responsible for managing the National Rural Development Partnership and providing support and oversight of 37 State Rural Development Councils.

(b) Office of the Deputy Under Secretary for O&M. In accordance with 7 CFR 2.45, the Under Secretary, Rural Development, has delegated to the Deputy Under Secretary for O&M responsibility for providing leadership in planning, developing, and administering overall administrative management program policies and operational activities of the Rural Development mission area. The Deputy Under Secretary for O&M reports directly to the Under Secretary, Rural Development.

Office of the Deputy Administrator for O&M. Headed by the Deputy Administrator for O&M, this office reports directly to the Deputy Under Secretary for O&M, and is responsible for directing and coordinating the consolidated administrative and financial management functions for Rural Development. This office provides overall guidance and supervision for budget and financial management, human resources management and personnel services, administrative and procurement services, information resources management and automated data systems. For budget and accounting purposes, all of the staff offices under the Deputy Administrator for O&M are housed in RHS.

(i) Office of the Controller. Headed by the Chief Financial Officer, this office supports the Deputy Administrator for O&M in executing Rural Development requirements related to compliance with the Chief Financial Officers Act of 1990 and provides leadership, coordination, and oversight of all financial management matters and financial execution of the budget for the Rural Development agencies. This office also has full responsibility for Rural Development agencies' accounting, financial, reporting, and internal controls. The office provides direct oversight to the Headquarters Budget Division, Financial Management Division, and the Office of the Assistant Controller, located in St. Louis, Missouri.

(ii) Office of Assistant Administrator for Procurement and Administrative Services. Headed by the Assistant Administrator for Procurement and Administrative Services, this office is responsible to the Deputy Administrator for O&M for overseeing the Procurement Management Division, the Property and Supply Management Division, and the Support Services Division:

(A) The Procurement Management Division is responsible for developing, implementing, and interpreting procurement and contracting policies for the Rural Development mission area. Major functions include planning outreach efforts and goals for small and disadvantaged businesses, providing staff assistance reviews in State and
Local Offices, administering the Contracting Officer Professionalism Warrant program for Rural Development agencies, and coordinating the development of Rural Development's acquisition plans.

(B) The Property and Supply Management Division is responsible for developing office space acquisition and utilization policies, providing training to field office leasing officers, administering the Leasing Officer Warrant program, assuring accessibility compliance in Rural Development's work sites, administering Rural Development's Physical Security program, and establishing and providing oversight to the worksite Energy Conservation program. This office operates a nationwide supply warehousing and distribution program, and oversees a nationwide Personal Property Management and Utilization Program, manages the U.S. Department of Agriculture (USDA) Excess Personal Property Program for field level activities, and provides direct support services to Rural Development's St. Louis facilities.

(C) The Support Services Division has responsibility for designing, developing, administering, and controlling Rural Development’s directives management and issuance system, coordinating Rural Development’s Regulatory Agenda and Regulatory Program submissions to USDA and OMB, serving as Federal Register liaison, and analyzing and coordinating regulatory work plans for the Under Secretary. This office submits Paperwork Reduction Act public burden clearances to OMB, administers all printing programs, manages Rural Development travel policies and programs, and manages Freedom of Information Act, Privacy Act and Tort Claims programs.

(iii) Office of Information Resources Management (IRM). Headed by the Chief Information Officer, this office is responsible to the Deputy Administrator for O&M for developing Rural Development’s IRM policies, regulations, standards and guidelines. This office provides overall leadership and direction to activities assigned to the following four major divisions:

(A) The Customer Services Division is responsible for direct customer and technical support (hardware and software).

(B) The Management Services Division coordinates all IRM acquisition, budget, and policy and planning activities in support of Rural Development automation.

(C) The Information Technology Division provides support technical services in the areas of data administration, system integrity management, research and development, and telecommunications.

(D) The Systems Services Division is responsible for planning, directing, and controlling activities related to Rural Development’s Automated Information Systems.

(iv) Office of the Assistant Administrator for Human Resources. Headed by the Assistant Administrator for Human Resources, this office is responsible to the Deputy Administrator for O&M for the overall development, implementation, and management of personnel and human resources support services for Rural Development. The office provides direction to the Headquarters Personnel Services, Human Resources Training and Mission Area Personnel Services Division, and Labor Relations Staff offices. The office is also responsible for the establishment of recruitment, retention, and development policies and programs supporting workforce diversity and affirmative action.

(2) Office of Civil Rights Staff. Headed by a staff director, this staff has primary responsibility for providing leadership and administration of the Civil Rights Program for the Rural Development mission area. The staff conducts on-site reviews of borrowers and beneficiaries of Federal financial assistance to ensure compliance with Titles VI and VII of the Civil Rights Act of 1964, as amended, Title VIII of the Civil Rights Act of 1968, as amended, Section 504 of the Rehabilitation Act, the Americans with Disabilities Act, and prepares compliance reports. The staff conducts and evaluates Title VII compliance visits to insure that EEO programs are adequately implemented. In addition, the office develops, monitors, and evaluates Affirmative Employment programs for minorities, women and
§§ 2003.7—2003.9 7 CFR Ch. XVIII (1-1-98 Edition)

persons with disabilities, and coordinates and conducts community outreach activities at historically black colleges and universities. It also has oversight of special emphasis programs such as the Federal Women's Program, Hispanic Emphasis Program, and Black Emphasis Program. The staff director reports directly to the Deputy Under Secretary for O&M.

(3) Office of Communications. Headed by a director who reports directly to the Deputy Under Secretary for O&M, this office has primary responsibility for tracking legislation and development and institution of policies to provide public communication and information services related to the Rural Development. The office maintains a constituent data base and conducts minority outreach efforts and administers a public information and media center responsible for media inquiries, news releases, program announcements, media advisories, and information retrieval. This office also serves as liaison with Office of Congressional Relations (OCR), Office of the General Counsel (OGC), and other Departmental units involved in Congressional relations and public information. This office drafts testimony, prepares witnesses, and provides staff for hearings and markups. In addition, the office briefs Congressional members and staff on the Rural Development matters, coordinates Rural Development's legislative activities with other USDA agencies and OMB and develops and implements legislative strategy. The staff also coordinates development and production of brochures, press releases, and other public information materials.

§§ 2003.7—2003.9 [Reserved]

§ 2003.10 Rural Development State Offices.

(a) Headed by State Directors, State Offices report directly to the Under Secretary, Rural Development, and are responsible to the three Rural Development agency Administrators for carrying out agency program operations at the State level, ensuring adherence to program plans approved for the State by the Under Secretary, and rendering staff advisory and manpower support to Area and Local offices. The Rural Development State Directors, for budget and accounting purposes, are housed in the RHS agency.

(b) Program Directors within the State Office provide oversight and leadership on major program functions. Major program functions include: Single Family and Multi-Family Housing Loans and grants, Community Facility, Water and Waste Disposal, Business and Cooperative, and the Empowerment Zones and Enterprise Communities (EZ/EC) programs.

(c) The USDA Rural Development State Office locations are as follows:

§ 2003.14 Field Offices.

Rural Development field offices report to their respective State Director and State Office Program Directors. State Directors may organizationally structure their offices based on the program workloads within their respective State. Field offices generally are patterned in a three or two tier program delivery structure. In a three tier system, Local offices report to an Area office, that reports to the State Office. In a two tier system, a “Local” or “Area” office reports to the State Office. Locations and telephone numbers of Area and Local Offices may be obtained from the appropriate Rural Development State Office.

§§ 2003.15—2003.16 [Reserved]

§ 2003.17 Availability of information.

Information concerning Rural Development programs and agencies may be obtained from the Office of Communications, Rural Development, U. S. Department of Agriculture, STOP 0705, 1400 Independence Avenue SW., Washington, DC 20250-0705.

§ 2003.18 Functional organization of RHS.

(a) General. The Secretary established RHS pursuant to §233 of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 6943).

(b) Office of the Administrator. According to 7 CFR 2.49, the Administrator has responsibility for implementing programs aimed at delivering loans and grant assistance to rural Americans and their communities in obtaining adequate and affordable housing and community facilities, in accordance with Title V of the Housing Act of 1949 (42 U.S.C. 1471 et seq.) and the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.).

(i) Legislative Affairs Staff. The duties and responsibilities of this staff have now been aligned under the Office of Communication, headed by a director who reports directly to the Under Secretary for O&M. The Office of Communication is responsible for providing and carrying out legislative, public communication, and information services for the Rural Development mission area.

(ii) Office of Program Support Staff. The Program Support Staff is headed by a staff director who is responsible to the Administrator for monitoring managerial and technical effectiveness of RHS programs. The staff coordinates review and analysis of legislation, Executive Orders, OMB circulars, and Department regulations for their impact on Agency programs. The staff develops, implements, and reports on architectural and environmental policies, in cooperation with the Department. Staff responsibilities also include managing RHS’s Hazardous Waste Management Fund, coordinating the Debarment and Suspension process for RHS, tracking the use of Program Loan Cost Expense funds, and maintaining the RHS Internet “Home Page.”

(iii) Office of Deputy Administrator, Single Family Housing. Headed by the Deputy Administrator, Single Family Housing, this office is responsible to the Administrator for the development and implementation of RHS’s Single Family Housing programs, which extend supervised housing credit to rural people of limited resources, for adequate, modest, decent, safe, and sanitary homes. The office is responsible for administering and managing sections 502 and 504 Rural Housing direct and guaranteed loan and grant programs, Rural Housing and Self-Help Site loans, the Self-Help Technical Assistance grant program, Housing Application Packaging and Technical and Supervisory Assistance grants, and Home Improvement and Repaid loans and grants. The office directs the following three divisions: Single Family Housing Processing Division, Single Family Housing Servicing and Property Management Division, and Single Family Housing Centralized Servicing Center in St. Louis, Mo.

1. Office of Single Family Housing Processing Division. Headed by a division director, this division is responsible for development and nationwide implementation of policies on processing Single Family Housing direct and guaranteed program loans. In addition, the division provides direction on the following: the Rural Housing Targeted Area Set-Aside program, debarments,
payment assistance, title clearance and loan closing, site/subdivision development, Deferred Mortgage Payment Program; construction defects, credit reports, appraisals, Manufactured Housing, coordinated assessment reviews, Home Buyer’s Counseling/Education Program, and allocation of loan and grant program funds.

(ii) Office of Single Family Housing Servicing and Property Management Division. Headed by a division director, this division is responsible for the development and implementation of nationwide policies for servicing RHS’s multi-billion dollar portfolio of Single Family Housing loans, and managing and selling Single Family Housing inventory properties. The division also conducts state program evaluations, identifies program weaknesses, makes recommendations for improvements, and identifies corrective actions.

(iii) Office of Single Family Housing Centralized Servicing Center (CSC)—St. Louis, Missouri. Headed by a director, CSC is responsible for centrally servicing RHS’s multi-billion dollar portfolio of Single Family Housing loans. CSC provides interest credit or payment assistance renewals, performs escrow activities for real estate taxes and property hazard insurance, oversees collection of loan payments, and grants interest credit, payment assistance, and moratoria.

(4) Office of the Deputy Administrator, Multi-Family Housing Division. Headed by the Deputy Administrator, Multi-Family Housing, this office is responsible for the development and nationwide implementation of policies on processing Multi-Family Housing program loans. The Division manages the following program areas: elderly and family rental housing, Farm Labor Housing loans and grants, outreach contacts, congregate facilities, Housing Preservation Grants, cooperative housing, rural housing vouchers, appraisals, Congregate Housing Services Grants, Rental Assistance, Housing Application Packaging Grants, targeted area and nonprofit set asides, Multi-Family Housing suspensions and debarments, title clearance and loan closing, allocation and monitoring of loan and grant funds, adverse decisions and appeals, commercial credit reports, individual credit reports, and, site development.

(iii) Multi-Family Housing Portfolio Management Division. Headed by a division director, this division is responsible for the development and institution of policies on the management and servicing of the nationwide Multi-Family Housing programs. The Division implements current and long range plans for servicing Rural Rental Housing loans, Labor Housing loans and grants, and Rental Assistance or similar tenant subsidies.

(5) Office of the Deputy Administrator, Community Programs. Headed by the Deputy Administrator, Community Programs, this office is responsible for overseeing the administration and management of Community Facilities loans and grants to hospitals and nursing homes, police and fire stations, libraries, schools, adult and child care centers, etc. The office monitors and evaluates the administration of loan and grant programs on a nationwide basis and provides guidance and direction for community programs through two divisions, Community Programs Loan Processing Division and Servicing and Special Authorities Division.

(i) Community Programs Loan Processing Division. Headed by a director, this division is responsible for the overall administration, policy development, fund distribution, and processing of Community Facilities loans and other loan and grant programs assigned to the Division.
(ii) Servicing and Special Authorities Division. Headed by a division director, this division is responsible for the overall administration, policy development, and servicing of the Community Facilities loan and grant programs. The division conducts program evaluations, identifies program weaknesses, makes recommendations for improvements, and identifies corrective actions. The division also administers and services Nonprofit National Corporation loans and grants.

§§ 2003.19—2003.21 [Reserved]

§ 2003.22 Functional organization of RUS.

(a) General. The Secretary established RUS pursuant to § 232 of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 6942).

(b) Office of the Administrator. According to 7 CFR 2.47, the Administrator has responsibility for managing and administering the programs and support functions of RUS to provide financial and technical support for rural infrastructure to include electrification, clean drinking water, telecommunications, and water disposal systems, pursuant to the Consolidated Farm and Rural Development Act, as amended (7 U.S.C. 1921 et seq.), and the Rural Electrification Act of 1936, as amended (7 U.S.C. 901 et seq.). The office develops and implements strategic plans concerning the Rural Electrification Act of 1936, as amended. The Administrator serves as Governor of the Rural Telephone Bank (RTB) with a 13-member board of directors, and exercises all functions, powers, and duties of the RTB in accordance with 7 U.S.C. 944.

(1) Borrower and Program Support Services. Borrower and Program Support Services consist of the three following staffs which are responsible to the Administrator for planning and carrying out a variety of program and administrative services in support of all RUS programs, and providing expert advice and coordination for the Administrator:

(i) Administrative Liaison Staff. Headed by a staff director, this staff advises the Administrator on management issues and policies relating to human resources, EEO, labor-management partnership, administrative services, travel management, automated information systems, and administrative budgeting and funds control.

(ii) Program Accounting Services Division. Headed by a division director, this division develops and evaluates the accounting systems and procedures of Electric, Telecommunications, and Water and Wastewater borrowers; assures that accounting policies, systems, and procedures meet regulatory, Departmental, General Accounting Office, OMB, and Treasury Department requirements; examines borrowers' records and operations, and reviews expenditures of loans and other funds; develops audit requirements; and approves Certified Public Accountants to perform audits of borrowers.

(iii) Program and Financial Services Staff. Headed by a staff director, this office evaluates the financial conditions of troubled borrowers, negotiates settlements of delinquent loans, and makes recommendations to program Assistant Administrators on ways to improve the financial health of borrowers.

(2) Office of Assistant Administrator—Electric Program. Headed by the Assistant Administrator—Electric Program, this office is responsible to the Administrator for directing and coordinating the Rural Electrification program of RUS nationwide. This office develops, maintains, and implements regulations and program procedures on processing and approving loans and loan-related activities for rural electric borrowers. The office directs the following three divisions:

(i) Electric Regional Divisions. Headed by division directors, these two divisions are responsible for administering the Rural Electrification program in specific geographic areas and serving as the single point of contact for all distribution borrowers. The divisions provide guidance to borrowers on RUS loan policies and procedures, maintain oversight of borrower rate actions, and make recommendations to the Administrator on borrower applications for RUS financing. The divisions also assure that power plant, distribution, and transmission systems and facilities
are designed and constructed in accordance with the terms of the loan and proper engineering practices and specifications.

(ii) Power Supply Division. Headed by a division director, this division is responsible for administering the Rural Electrification program responsibilities with regard to power supply borrowers nationwide and serves as primary point of contact between RUS and all such borrowers. The division develops and maintains a loan processing program for Rural Electrification Act purposes, and develops and administers engineering and construction policies related to planning, design, construction, operation, and maintenance for power supply borrowers.

(iii) Electric Staff Division. Headed by a division director, this division is responsible for engineering activities related to the design, construction, and technical operations and maintenance of power plants; distribution of power; and transmission systems and facilities, including load management and communications. The division develops criteria and techniques for evaluating the financing and performance of electric borrowers and forecasting borrowers' future power needs; and maintains financial expertise on the distribution and power supply loan program, and retail and wholesale rates.

(3) Office of Assistant Administrator—Telecommunications Program. Headed by the Assistant Administrator—Telecommunications Program, this office is responsible to the Administrator for directing and coordinating the National Rural Telecommunications, Distance Learning, and Telemedicine programs of RUS. The Assistant Administrator, Telecommunications Program, serves as Assistant Governor of the RTB and is responsible for the day-to-day activities of the RTB. The office develops, maintains, and implements regulations and program procedures on the processing and approval of grants, loans, and loan-related activities for all rural telecommunications borrowers and grant recipients. The office directs the following three divisions:

(i) Telecommunications Standards Division. Headed by a division director, this division is responsible for engineering staff activities related to the design, construction, and technical operation and maintenance of rural telecommunications systems and facilities. The office develops engineering practices, policies, and technical data related to borrowers' telecommunications systems; and evaluates the application of new communications network technology, including distance learning and telemedicine, to rural telecommunications systems.

(ii) Advanced Telecommunications Services Staff. Headed by a staff director, this staff primarily serves the Assistant Administrator, Telecommunications Program in the role of the Assistant Governor of the RTB. The office performs analyses and makes recommendations to the AAT on issues raised by the RTB Governor, Board of Directors, or RTB borrowers. This staff maintains official records for the RTB Board and prepares minutes of RTB Board meetings. The staff director serves as the Assistant Secretary to the RTB. The staff performs the calculations necessary to determine the cost of money rate to RTB borrowers and recommends and develops program-wide procedures for loan and grant programs. The office is responsible for the Telecommunications Program's home page on the Internet.

(iii) Telecommunications Area Offices. Headed by area directors, these four offices are responsible for administering the Telecommunications, Distance Learning, and Telemedicine programs for specific geographic areas, and serving as the single point of contact for all program applicants and borrowers within their respective areas. The offices provide guidance to applicants and borrowers on RUS and RTB loan policies and procedures, and make recommendations to the Administrator on applications for loans, guarantees, and grants. The offices assure that borrower systems and facilities are designed and constructed in accordance with the terms of the loan, acceptable engineering practices and specifications, and acceptable loan security standards.

(4) Office of the Assistant Administrator—Water and Environmental Programs. Headed by the Assistant Administrator, Water and Environmental Programs, this office is responsible to
§ 2003.26 Functional organization of RBS.

(a) General. The Secretary established RBS pursuant to §234 of the Department of Agriculture Reorganization Act of 1994 (7 U.S.C. 6944).

(b) Office of the Administrator. According to 7 CFR 2.48, the Administrator is responsible for managing and administering the programs and support functions of RBS to provide assistance to disadvantaged communities through grants and loans and technical assistance to businesses and communities for rural citizens and cooperatives, pursuant to the following authorities: the Rural Electrification Act of 1936, as amended (7 U.S.C. 940c and 950aa et seq.), the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.), the Cooperative Marketing Act of 1926 (7 U.S.C. 451-457), the Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627), and the Food Security Act of 1985 (7 U.S.C. 1932). These grants, loans, and technical assistance improve community welfare by enhancing organizational and management skills, developing effective economic strategies, and expanding markets for a wide range of rural products and services.

(1) Resources Coordination Staff. Headed by the staff director, this staff is responsible to the Administrator for preparing legislative initiatives and modifications for program enhancement. The staff monitors legislative and regulatory proposals that potentially impact RBS functions. The staff serves as liaison on budgetary and financial management matters between RBS staff and the Office of the Controller, and assists the Administrator in presenting and supporting RBS’s budget and program plans. The staff also advises the Administrator and RBS officials on management issues and policies related to: human resources, labor relations, civil rights, EEO, space, equipment, travel, Senior Executive Service and Schedule C activities, contracting, automated information systems, and accounting. The staff provides analysis and recommendations on the effectiveness of administrative and management activities, and performs liaison functions between RBS and the Office of the Deputy Under Secretary for O&M on a wide variety of administrative functions.

(2) Office of the Deputy Administrator, Business Programs. Headed by the Deputy Administrator, Business Programs,
this office is responsible to the Administrator for overseeing and coordinating the Business and Industry Guaranteed and Direct Loan programs, Intermediary Relending Program loans, Rural Business Enterprise grants, Rural Business Opportunity grants, Rural Economic Development loan and grant programs, and the Rural Venture Capital Demonstration Program. The office participates in policy planning, and program development and evaluation. It also directs the following three divisions:

(i) Processing Division. Headed by the division director, this division is responsible for developing and maintaining loan processing regulations, and directs the processing and approval of guaranteed and direct business and industry loans, and the Rural Venture Capital Demonstration Program. It provides technical assistance to field employees and borrowers on loan processing and develops approval criteria and performance standards for loans. The division recommends plans, programs, and activities related to business loan programs and provides environmental guidance and support.

(ii) Servicing Division. Headed by the division director, this office is responsible for developing and maintaining servicing regulations. It directs and provides technical assistance to field employees and borrowers on servicing business loans and grants. The division reviews large, complex, or potentially controversial loan and grant dockets related to loan servicing and recommends servicing plans, programs, and activities related to business loan and grant programs.

(iii) Specialty Lenders Division. Headed by the division director, this office is responsible for directing and developing regulations concerning the processing and approval of Intermediary Relending loans, Rural Business Enterprise grants, Rural Business Opportunity grants, and Rural Economic Development loan and grant programs. The division provides technical assistance to field employees and borrowers on loan and grant processing and other activities. It also develops approval criteria and performance standards and recommends plans, programs, and activities related to business loan and grant programs.

(3) Office of the Deputy Administrator, Cooperative Services Programs. Headed by the Deputy Administrator, Cooperative Services Programs, this office is responsible to the Administrator for providing service to cooperative associations by administering a program of research and analysis of economic, social, legal, financial, and other related issues concerning cooperatives. The office administers programs to assist cooperatives in the organization and management of their associations and a program for economic research and analysis of the marketing aspects of cooperatives. The division administers and monitors activities of the National Sheep Industry Improvement Center and the Appropriate Technology Transfer to Rural Areas Program, and the Rural Cooperative Development Grant Program. The office directs the following three divisions:

(i) Cooperative Marketing Division. Headed by the division director, this division is responsible for participating in the formulation of National policies and procedures on cooperative marketing. The division conducts research and analysis and gives technical assistance to farmer cooperatives on cooperative marketing of certain crops, livestock, aquaculture, forestry, poultry, semen, milk, and dairy products to improve their market performance and economic position.

(ii) Cooperative Development Division. Headed by the division director, this division is responsible for participating in the formulation of National policies and procedures on cooperative development. The office conducts evaluations and analysis of proposed new cooperatives to develop plans for implementing feasible operations, and advises and assists rural resident groups and developing cooperatives in implementing sound business plans for new cooperatives. It provides research, analysis, and technical assistance to rural residents on cooperative development initiatives and strategies to improve economic conditions through cooperative efforts.
(iii) Cooperative Resource Management Division. Headed by the division director, this division is responsible for participating in the formulating of National policies and procedures on cooperative resource management. The division conducts research and analysis and gives technical assistance to cooperatives on their overall structure, strategic management and planning, financial issues, and operational characteristics to improve their use of resources, financial policies, and ability to adapt to market conditions. The division conducts research and analysis of policy, taxation, Federal laws, State statutes, and common laws that apply to cooperative incorporation, structure, and operation to assist cooperatives in meeting legal requirements.

(4) Office of the Deputy Administrator, Community Development. Headed by the Deputy Administrator, Community Development, this office is responsible to the Under Secretary, Rural Development, for coordinating and overseeing all functions in the Community Outreach and Empowerment Program areas. The office assists in providing leadership and coordination to National and local rural economic and community development efforts. For appropriation and accounting purposes, this office is located under RBS. The office directs the following two divisions:

(i) Empowerment Program Division. Headed by the division director, this division is responsible for formulating policies and developing plans, standards, procedures, and schedules for accomplishing RBS activities related to “community empowerment programs”, including EZ/EC, AmeriCorps, and other initiatives. The office develops informational materials and provides technical advice and services to support States on community empowerment programs. It also generates information about rural conditions and strategies and techniques for promoting rural economic development for community empowerment programs.

(ii) Community Outreach Division. Headed by the division director, this division is responsible for designing and overseeing overall systems and developing resources to support State and community level implementation activities for RBS programs. The office designs program delivery systems and tools, removes impediments to effective community-level action, supports field offices with specialized skills, and establishes partnerships with National organizations with grass-roots membership to assure that programs and initiatives are designed and implemented in a way that empowers communities. It develops methods for working with rural business intermediaries to assist them in providing technical assistance to new, small business, and provides Internet-based services to 1890 Land-grant universities, EZ/EC, and AmeriCorps volunteers, linking RBS information support to communities with high levels of need.

(5) Alternative Agricultural Research and Commercialization Corporation. Headed by a director, this Corporation is responsible for providing and monitoring financial assistance for the development and commercialization of new nonfood and nonfeed products from agricultural and forestry commodities in accordance with 7 U.S.C. 5901 et seq. The Corporation acts as a catalyst in forming private and public partnerships and promotes new uses of agricultural materials. It expands market opportunities for U.S. farmers through development of value-added industrial products and promotes environmentally friendly products. For budget and accounting purposes, this office is assigned to RBS. The director of the Corporation is responsible to the Office of the Secretary.

PART 2018—GENERAL

Subparts A–E—[Reserved]

Subpart F—Availability of Information

Sec.
2018 251 General statement.
2018 252 Public inspection and copying.
2018 253 Indexes.
2018 254 Requests for records.
2018 255 Appeals.
2018 256—2018 300 [Reserved]

Authority: 5 U.S.C. 552.
§ 2018.251 Subparts A-E—[Reserved]

§ 2018.252 Public inspection and copying.

Facilities for inspection and copying are provided by the Freedom of Information Officer (FOIO) in the National Office, by the State Director in each State Office, by the Rural Development Manager (formerly, District Director) in each District Office, and by the Community Development Manager (formerly, County Supervisor) in each County Office. A person requesting information may inspect such materials and, upon payment of applicable fees, obtain copies. Material may be reviewed during regular business hours. If any of the Rural Development materials requested are not located at the office to which the request was made, the request will be referred to the office where such materials are available.

§ 2018.253 Indexes.

Since Rural Development does not maintain any materials to which 5 U.S.C. 552(a)(2) applies, it maintains no indexes.

§ 2018.254 Requests for records.

Requests for records are to be submitted in accordance with 7 CFR 1.3 and may be made to the appropriate Community Development Manager, Rural Development Manager, State Administrative Management Program Director (formerly, State Administrative Officer), State Director, Freedom of Information/Privacy Act Specialist, or Freedom of Information Officer. The last two positions are located in the Rural Development Support Services Division, Washington, DC 20250. The phrase “FOIA REQUEST” should appear on the outside of the envelope in capital letters. The FOIA requests under the Farm Credit Programs (formally FmHA Farmer Programs) should be forwarded to the Farm Service Agency (FSA), Freedom of Information Officer, Room 3624, South Agriculture Building, 14th & Independence Avenue, SW., Washington, DC 20250-0506. Requests should be as specific as possible in describing the records being requested. The FOIA, Freedom of Information/Privacy Act Specialist, each State Administrative Management Program Director, each State Director, each Rural Development Manager, and each Community Development Manager are delegated authority to act respectively at the national, state, district, or county level on behalf of Rural Development to:

(a) Deny requests for records determined to be exempt under one or more provisions of 5 U.S.C. 552(b);

(b) Make discretionary releases (unless prohibited by other authority) of such records when it is determined that the public interests in disclosure outweigh the public and/or private ones in withholding; and

(c) Reduce or waive fees to be charged where determined to be appropriate.

§ 2018.255 Appeals.

If all or any part of an initial request is denied, it may be appealed in accordance with 7 CFR 1.7 to that particular Agency possessing the documents. Please select the appropriate Agency to forward your FOIA appeal from the following addresses: Administrator, Rural Housing Service, Room 5014, AG Box 0701, 14th & Independence Avenue, SW.—South Building, Washington, DC 20250-0701; Administrator, Rural Business-Cooperative Service, Room 5045, AG BOX 3201, 14th & Independence Avenue, SW.—South Building, Washington, DC 20250-3201 and Administrator, Rural Utilities Service, Room 4501, AG Box 1510, 14th & Independence Avenue,
§ 2045.1751 General.

Section 331(b) of the Consolidated Farm and Rural Development Act (Pub. L. 92–419), and section 506(a) of the Housing Act of 1949, empower the Secretary of Agriculture to accept and utilize voluntary and uncompensated services in carrying out the provisions of the above cited Acts. The Secretary has delegated those authorities to the Administrator of the Farmers Home Administration (FmHA) or its successor agency under Public Law 103–354 in 7 CFR 2.70(a) (1) and (2).

§ 2045.1752 Policy.

Voluntary and uncompensated (gratuitous) services may be accepted with the consent of the agency concerned, from the following sources under the conditions set forth in Exhibit A, “Agreement for Utilization of Employee of (Enter Official Title of Governing Body or Other Authorized Organization) By the Farmers Home Administration or its successor agency under Public Law 103–354” (Agreement Form). (a) Any agency of State government or of any territory or political subdivision. (b) Non-profit, educational, and charitable organizations, provided that no partisan, political, or profit motive is involved either explicitly or implicitly.

§ 2045.1753 Authority to accept gratuitous services.

(a) State Directors, Director, Personnel Division, and Director, Finance Office, are hereby authorized to accept and utilize gratuitous services offered by the governmental agencies listed in § 2045.1752(a). (b) An offer received by an FmHA or its successor agency under Public Law 103–354 State or County Office from a source listed in § 2045.1752(b) shall be transmitted to the National Office, Attention: Director, Personnel Division, for decision. The offer will be accompanied by copies of the Articles of Incorporation and By-laws (if the organization is incorporated), a statement that the organization accepts the conditions set forth in the Agreement Form, and evidence that the organization is financially able to meet the required fiscal obligations of the agreement.

§ 2045.1754 Scope of gratuitous services performed.

(a) Gratuitous services accepted in accordance with this subpart may be utilized to perform any function performed by regular FmHA or its successor agency under Public Law 103–354 employees (excluding Committee members). Such services must not result in the displacement of employees. Most of the gratuitous services should be performed at the County Office level and conform to a standard FmHA or its successor agency under Public Law 103–354 position description. A nonstandard position description may be developed and used, depending on current agency needs in a particular office and gratuitous skills available.
(b) Orientation and other training will be provided by FmHA or its successor agency under Public Law 103-354 so that gratuitous services may be performed in accordance with current FmHA or its successor agency under Public Law 103-354 procedure.

(c) Persons performing authorized gratuitous services will be held to the same standard as regular FmHA or its successor agency under Public Law 103-354 employees performing similar duties. The issuance of, and accountability for, identification cards and clearance of employee accountability will be as prescribed in FmHA or its successor agency under Public Law 103-354 Instructions 2024-B which is available in all FmHA or its successor agency under Public Law 103-354 Offices. Such persons, except Construction Inspectors, may, when under direct supervision of County Supervisors, act as Collection Officers and be allowed to use receipt books in accordance with FmHA or its successor agency under Public Law 103-354 Instructions 2024-C and 451.2 (part 1862 of this chapter and other applicable regulations available in all FmHA or its successor agency under Public Law 103-354 Offices).

§ 2045.1755 Preparation and disposition of agreement forms.

(a) Agreements to accept and utilize gratuitous services must be identical to the attached Exhibit A (Agreement Form) with such exceptions as may be authorized by the Office of the General Counsel, Department of Agriculture.

(b) Two copies of each signed Agreement Form will be forwarded to the Personnel Division. One copy will be retained in the State or Finance Office.

§ 2045.1756 Records and reports.

The FmHA or its successor agency under Public Law 103-354 official signing the Agreement Form will maintain records to show the names, duty assignments, time worked, and work locations of all persons performing gratuitous services. Copies of time reports submitted to the persons' employers should suffice. These records will be necessary to respond to occasional requests for reports on the acceptance and utilization of gratuitous services in the FmHA or its successor agency under Public Law 103-354.

EXHIBIT TO SUBPART JJ

EXHIBIT A—AGREEMENT FORM

FOR UTILIZATION OF EMPLOYEES OF (OFFICIAL TITLE OF GOVERNING BODY OR OTHER AUTHORIZED ORGANIZATION, I.E., PICKENS COUNTY, ALA., BOARD OF COMMISSIONERS)

BY THE FARMERS HOME ADMINISTRATION OR ITS SUCCESSOR AGENCY UNDER PUBLIC LAW 103-354

1. This Agreement, date—between,_______ is a (political subdivision), (educational), (charitable), (or nonprofit) an organization of the State of_______(hereinafter called the Agency) and the United States of America acting through Farmers Home Administration or its successor agency under Public Law 103-354, U.S. Department of Agriculture (hereinafter called the Administration) is entered into for the purpose of permitting certain employees of the Agency (hereinafter called the Agency employees) to assist in the Administration’s effort to provide agricultural, housing and other assistance for rural people of the State of_______in accordance with Section 331(b) of the Consolidated Farm and Rural Development Act and Section 506(a), Title V of the Housing Act of 1949.

2. The Administration certifies that it is empowered by the current Federal laws cited above, and related rules and regulations, to accept personnel assistance from the Agency as provided in paragraphs 4 and 5 below; and that the work assigned to Agency employees will be useful, in the public interest, could not otherwise be provided, and will not result in the displacement of employed workers.

3. The Agency certifies that it has the authority under the laws of the State of_______to enter into this Agreement and to provide the services agreed upon in the manner provided for.

4. The Administration hereby supplies the Agency with a narrative description which is made a part of this Agreement as Attachment “A,” explicitly setting forth the duties, knowledge, skills, and abilities to be required of Agency employees.

5. The Administration agrees to:

(a) Provide training for and responsible supervision of qualified and acceptable Agency employees in accordance with Attachment “A.”

(b) Provide work within the State of_______for qualified and acceptable Agency employees for periods not to exceed eight hours per day and 40 hours per week.
(c) Provide the office space, tools, equipment, and supplies to be used by Agency employees in performing work for the Administration.

(d) Report in the Agency, as required, the time worked by and work accomplishments of Agency employees.

(e) Consult with the Agency, as necessary, on situations involving delinquency, misconduct, neglect of work, and apparent conflicts of interest of Agency employees.

(f) Reimburse Agency employees for proper and reasonable travel and per diem expenses incurred in performing official duties for the Administration, in accordance with Administration travel regulations.

(g) Consider Agency employees to be Federal employees for the purposes of the Federal Employees Compensation Act (5 U.S.C. 8101) and of the Federal Tort Claims Act (28 U.S.C. 2671-2680).

6. The Agency agrees to:

(a) Not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, marital status, physical handicap, or national origin. The Agency will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, age, marital status, physical handicap, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training including apprenticeship. The Agency will post in conspicuous places, available to employees and applicants for employment, notices setting forth the provisions of this non-discriminating clause.

(b) Obtain fingerprints, police records, and work qualifications checks on potential assignees, and divulge the results to the Administration to obtain this information.

(c) Assign only Agency employees who are acceptable to the Administration in terms of meeting the same ability and suitability standards which are applied to Federal employment.

(d) Pay all salaries and other expenses of Agency employees and comply with Federal, State, and local minimum wage statutes. No monies will be paid by the Administration under this agreement, either to the Agency or its employees.

(e) Consider any Tort claims by third parties under applicable laws and regulations.

(f) Reassign or terminate the assignment of Agency employees upon request of the Administration.

7. The Agency and the Administration mutually understand and agree that the reasons for determining that an Agency employee is unacceptable or unsuitable for initial or continued assignment to Administration work may include but shall not be limited to the following:

(a) Practicing or appearing to practice discrimination for reasons of race, color, religion, sex, age, marital status, physical handicap, or national origin.

(b) Being or becoming involved in real or apparent conflicts of interest, such as, engaging directly or indirectly in business transactions with Administration applicants or borrowers, or using or appearing to use the Administration work assignment for private gain.

(c) Engaging in or having engaged in criminal, dishonest, or immoral conduct, or conducting himself in a manner which might embarrass or cause criticism of the Administration.

(d) Being absent from duty without authorization.

(e) Engaging in partisan political activity prohibited to Federal employees doing similar work.

(f) Lack of work.

(g) Inability of the employee to perform the duties of the assignment.

8. The term of this Agreement shall commence on the date thereof. It shall end on—_____, unless extended by mutual agreement, or unless terminated earlier by at least (30) days advanced written notice by either party to the other.

9. The Agency and the Administration respectively certify, each for itself, that its officer signing this Agreement is duly authorized thereto.

PART 2610—ORGANIZATION, FUNCTIONS, AND DELEGATIONS OF AUTHORITY

Sec. 2610.1 General statement.
2610.2 Headquarters organization.
2610.3 Regional organization.
2610.4 Requests for service.
2610.5 Delegations of authority.

SOURCE: 60 FR 52840, Oct. 11, 1995, unless otherwise noted.

§ 2610.1 General statement.

(a) The Inspector General Act of 1978 as amended, Pub. L. 95-452, 5 U.S.C. App., establishes an Office of Inspector General (OIG) in the U.S. Department of Agriculture (USDA) and transfers to it the functions, powers, and duties of offices referred to in the Department as the “Office of Investigation” and the “Office of Audit,” previously assigned to the OIG created by the Secretary’s Memoranda 1915 and 1727, dated March 23, 1977, and October 5, 1977, respectively. Under this Act, OIG is established as an independent and objective unit, headed by the Inspector General (IG), who is appointed by the President and reports to and is under the general supervision of the Secretary.

(b) The mission of OIG is to provide policy direction; to conduct, supervise, and coordinate audits and investigations of USDA programs and operations to determine efficiency and effectiveness; to prevent and detect fraud and abuse in such programs and operations; and to keep the Secretary and the Congress informed of problems and deficiencies relative to the programs and operations.

(c) The Secretary has made the following delegations of authority to the IG (7 CFR 2.33):

1. Advise the Secretary and General Officers in the planning, development, and execution of Department policies and programs.
2. Provide for the personal security of the Secretary and Deputy Secretary.
3. Serve as liaison official for the Department for all audits of USDA performed by the General Accounting Office.

4. In addition to the above delegations of authority, the IG, under the general supervision of the Secretary, has specific duties, responsibilities, and authorities pursuant to the Act, including:

   (i) Conduct and supervise audits and investigations relating to programs and operations of the Department.
   (ii) Provide leadership, coordination, and policy recommendations to promote economy, efficiency, and effectiveness, and to prevent and detect fraud and abuse in the administration of the Department’s program and operations.
   (iii) Keep the Secretary and the Congress fully and currently informed about problems and deficiencies and the necessity for and progress of corrective actions in the administration of the Department’s programs and operations.
   (iv) Make such investigations and reports relating to the administration of programs and operations of the Department as are in the judgment of the IG, necessary or desirable.
   (v) Review existing and proposed legislation and regulations and make recommendations to the Secretary and the Congress on the impact such laws or regulations will have on the economy and efficiency of program administration or in the prevention and detection of fraud and abuse in the programs and operations of the Department.
   (vi) Have access to all records, reports, audits, reviews, documents, papers, recommendations, or other material available to the Department which relate to programs and operations for which the IG has responsibility.
   (vii) Report expeditiously to the Attorney General any matter where there are reasonable grounds to believe there has been a violation of Federal criminal law.
   (viii) Issue subpoenas to other than Federal agencies for the production of information, documents, reports, answers, records, accounts, papers, and other data and documentary evidence necessary in the performance of functions assigned by the Act.
   (ix) Receive and investigate complaints or information from any Department employee concerning possible
violations of laws, rules or regulations, or mismanagement, gross waste of funds, abuse of authority, or substantial and specific dangers to the public health and safety.

(x) Select, appoint, and employ necessary officers and employees in OIG in accordance with laws and regulations governing the civil service, including an Assistant Inspector General for Auditing and an Assistant Inspector General for Investigations.

(xi) Obtain services as authorized by Section 3109 of Title 5, United States Code.

(xii) Enter into contracts and other arrangements for audits, inspections, studies, analyses, and other services with public agencies and private persons, and make such payments as may be necessary to carry out the provisions of the Act to the extent and in such amounts as may be provided in an appropriation act.

(d) The IG, under the Agriculture and Food Act of 1981, Pub. L. 97-98, 7 U.S.C. 2270, and pursuant to rules issued by the Secretary in 7 CFR part 1a, has the authority to:

(1) Designate employees of the Office of Inspector General who investigate alleged or suspected felony criminal violations of statutes administered by the Secretary of Agriculture or any agency of USDA, when engaged in the performance of official duties to:

(i) Execute and serve a warrant for an arrest, for the search of premises, or the seizure of evidence when issued under authority of the United States upon probable cause to believe that such a violation has been committed;

(ii) Make an arrest without a warrant for any such violation if such violation is committed or if the employee has probable cause to believe that such violation is being committed in his/her presence; and

(iii) Carry a firearm.

(2) Issue directives and take the actions prescribed by the Secretary's rules.

§ 2610.2 Headquarters organization.

(a) The OIG has a headquarters office in Washington, DC, and regional offices throughout the United States. The headquarters office consists of the immediate office of the IG and three operational units.

(b) Operational units. (1) The Assistant Inspector General for Policy Development and Resources Management (AIG/PD&RM) formulates OIG policies and procedures; develops, administers and directs comprehensive programs for the management, budget, financial, personnel, systems improvement, and information activities and operations of OIG; and is responsible for OIG automated data processing (ADP) and OIG information management systems. The staff maintains OIG's directives system; Departmental Regulations and Federal Register issuances; administers the Freedom of Information and Privacy Acts, which includes requests received from the Congress, other Federal agencies, intergovernmental organizations, the news media, and the public; and provides for the administration of an OIG EEO program, including affirmative action. The immediate office of the AIG/PD&RM and two divisions carry out these functions.

(2) The Assistant Inspector General for Audit (AIG/A) carries out the OIG's domestic and foreign audit operations through a headquarters office, a Financial Management and ADP Audit Operations staff located in Kansas City, Missouri, and six regional offices shown in § 2610.3(a). The staff provides a continual audit review of ADP security throughout USDA. Auditing officials conduct operational liaison on audit matters; schedule and conduct audits; release audit reports to management; follow agency action to assure that audit reports have been properly acted upon through review of Department management follow up system; monitor the quality of OIG audit reports; and coordinate activities with the Assistant Inspector General (AIG) for Investigations. The staff also provides an integrated approach to fraud prevention and detection and management improvement in USDA programs and operations; reviews Department legislation and regulations through the involvement and cooperation of the Department's principal officers and program managers; coordinates analyses and reports on the conduct of fraud
§ 2610.3 Regional organization.

(a) Each Regional Inspector General for Audit (RIG/A) is responsible to the IG and to the AIG/A for supervising the performance of all OIG auditing activities relating to the Department's domestic and foreign programs and operations within an assigned geographic area. The addresses and telephone numbers of the six Audit Regional Offices and the territories served are as follows:

<table>

Office of Inspector General, USDA

§ 2610.3
Delegations of authority.
(a) AIG’s listed in §2610.2; and RIG’s listed in §2610.3, are authorized to take whatever actions are necessary to carry out their assigned functions. This authority may be redelegated.
(b) The IG reserves the right to establish audit and investigation policies, program, procedures, and standards; to allocate appropriated funds; to determine audit and investigative jurisdiction; and to exercise any of the powers or functions or perform any of the duties referenced in the above delegation.

§ 2610.4 Requests for service.
(a) Heads of USDA agencies will direct requests for audit or investigative service to the AIG/A, AIG/I, RIG/A, RIG/I, or to other OIG audit or investigation officials responsible for providing service of the type desired in the geographical area where service is desired.
(b) Agency officials or other employees may, at any time, direct to the personal attention of the IG any audit or investigation matter that warrants such attention.
(c) Other persons may address their communications regarding audit or investigative matters to: The Inspector General, U.S. Department of Agriculture, Ag Box 2301, Washington, DC 20250. Additionally, persons may call or write the hotline office at 202-690-1622, 1-800-424-9121, TDD 202-690-1202, or Office of Inspector General, PO Box 23399, Washington, DC 20026. Bribes involving USDA programs may be reported using the 24 hour bribery hotline number at 202 720-7257.
§ 2620.4 Denials.

If the AIG/PD&RM determines that a requested record is exempt from mandatory disclosure and that discretionary release would be improper, the AIG/PD&RM shall give written notice of denial in accordance with §1.8(a) of this title.

§ 2620.5 Appeals.

The denial of a requested record may be appealed in accordance with §1.6(e) of this title. Appeals shall be addressed to the Inspector General, U.S. Department of Agriculture, Ag Box 2301, Washington, DC 20250. The Inspector General will give prompt notice of the determination concerning an appeal in accordance with §1.8(d) of this title.

§ 2620.4 Denials.

If the AIG/PD&RM determines that a requested record is exempt from mandatory disclosure and that discretionary release would be improper, the AIG/PD&RM shall give written notice of denial in accordance with §1.8(a) of this title.

PART 2700—ORGANIZATION AND FUNCTIONS

Sec. 2700.1 General statement. 2700.2 Organization. 2700.3 Functions.

AUTHORITY: 5 U.S.C. 301, 552; 7 CFR 2.81.

SOURCE: 47 FR 39128, Sept. 7, 1982, unless otherwise noted.

§ 2700.1 General statement.

This part is issued in accordance with 5 U.S.C. 552(a) to provide guidance for the general public as to the organization and functions of the Office of Information Resources Management.

§ 2700.2 Organization.

The Office of Information Resources Management (OIRM) was established on January 12, 1982. Delegations of authority to the Director, OIRM appear at 7 CFR 2.81. The organization is comprised of five headquarters divisions, an administrative staff and three computer centers to serve the Department. The organization is headed by the Director or, in the Director’s absence, by the Deputy Director or, in the absence of both, by the Director’s designee.

§ 2700.3 Functions.

(a) Director. Provides executive direction for OIRM. Develops and recommends Departmental information resources management principles, policies, and objectives; develops and disseminates Departmental information resources management standards, guidelines, rules, and regulations necessary to implement approved principles, policies, and programs; designs, develops, implements, and revises systems, processes, work methods, and techniques to improve the management of information resources and the operational effectiveness of the Department; provides telecommunications and automated data processing services to the Department’s agencies and staff offices.

(b) Deputy Director. Assists the Director and, in the absence of the Director, serves as the Acting Director.

(c) Administrative Management Staff. Provides support for agency management regarding budget, accounting, personnel, and other administrative matters.

(d) Planning Division. Defines, develops, guides, and administers the Department’s long-range planning process for information resources.

(e) Information Management Division. Develops policy, standards and guidelines for collection, protection, access, use and management of information.

(f) Review and Evaluation Division. Reviews and evaluates information resources programs and activities of Department agencies and staff offices for conformance with plans, policies, and standards.

(g) Agency Technical Services Division. Advises and consults with and assists Department agencies and staff offices on activities related to the development and implementation of automated information systems.

(h) Operations and Telecommunications Division. Coordinates the development and implementation of programs for ADP and telecommunications resource planning within Departmental computer centers and the National Finance Center, and for the acquisition and use of Department-wide telecommunications facilities and services.

(i) Departmental Computer Centers. The following centers provide ADP facilities and services to agencies and staff offices of the Department.

(2) Fort Collins Computer Center, 3825 E. Mulberry Street (P.O. Box 1206), Fort Collins, CO 80524.

(3) Kansas City Computer Center, 8930 Ward Parkway (P.O. Box 205), Kansas City, MO 64141.

PART 2710—AVAILABILITY OF INFORMATION TO THE PUBLIC

Sec. 2710.1 General statement. 2710.2 Public inspection and copying. 2710.3 Indexes. 2710.4 Initial request for records. 2710.5 Appeals.

APPENDIX A TO PART 2710—LIST OF ADDRESSES

AUTHORITY: 5 U.S.C. 301, 552; 7 CFR 1.1–1.16.

SOURCE: 47 FR 39129, Sept. 7, 1982, unless otherwise noted.
§ 2710.1 General statement.
This part is issued in accordance with 7 CFR 1.4 of the U.S. Department of Agriculture regulations governing the availability of records (7 CFR 11-11.6 and Appendix A) under the Freedom of Information Act (5 U.S.C. 552). The Department’s regulations, as supplemented by the regulations in this part, provide guidance for any person wishing to request records from the Office of Information Resources Management (OIRM).

§ 2710.2 Public inspection and copying.
(a) Background. 5 U.S.C. 552(a)(2) required that each agency make certain kinds of records available for public inspection and copying.
(b) Procedure. Persons wishing to gain access to OIRM records should contact the Information Access & Disclosure Officer by writing to the address shown in 2710.4(b)(2).

§ 2710.3 Indexes.
(a) Background. 5 U.S.C. 552(a)(2) also required that each agency maintain and make available for public inspection and copying current indexes providing identifying information for the public with regard to any records which are made available for public inspection and copying.
(b) Procedure. Persons wishing to get an index may contact the division or center that maintains the records. Publication of these indexes as a separate document is unnecessary and impractical.

§ 2710.4 Initial request for records.
(a) Background. The Information Access and Disclosure Officer is authorized to:
(1) Grant or deny requests for OIRM records.
(2) Make discretionary releases of OIRM records when it is determined that the public interests in disclosure outweigh the public and/or private ones in withholding.
(3) Reduce or waive fees to be charged where determined to be appropriate.
(b) Procedure. Persons wishing to request records from the Office of Information Resources Management may do so as follows:
(1) How. Submit each initial request for OIRM records as prescribed in 7 CFR 1.3(a).
(2) Where. Submit each initial request to the Information Access and Disclosure Officer, Office of Information Resources Management, USDA, 14th and Independence Ave., SW., Room 407-W, Washington, DC 20250.

§ 2710.5 Appeals.
Procedure. Any person whose initial request is denied in whole or in part may appeal that denial, in accordance with 7 CFR 1.3(e) and 1.7, to the Director, Office of Information Resources Management, by sending the appeal to the Information Access and Disclosure Officer, Office of Information Resources Management, USDA, 14th and Independence Ave., SW., Room 407-W, Washington, DC 20250. The Director, Office of Information Resources Management, will make the determination on the appeal.

APPENDIX A TO PART 2710—LIST OF ADDRESSES
Section 1. General
This list provides the titles and mailing addresses of officials who have custody of OIRM records. This list also identifies the normal working hours, Monday through Friday, excluding holidays, during which public inspection and copying of certain kinds of records, and indexes to those records, is permitted.

Section 2. List of Addresses
Director, Office of Information Resources Management, 14th and Independence Ave., SW., Rm. 113-W, Washington, DC 20250; Hours: 8:30 a.m.-5:00 p.m.
Chief, Planning Division, OIRM, 14th and Independence Ave., SW., Rm. 446-W, Washington, DC 20250; Hours: 8:30 a.m.-5:00 p.m.
Chief, Review and Evaluation Division, OIRM, 14th and Independence Ave., SW., Rm. 442-W, Washington, DC 20250; Hours: 8:30 a.m.-5:00 p.m.
Chief, Agency Technical Services Division, OIRM, 14th and Independence Ave., SW., Rm. 446-W, Washington, DC 20250; Hours: 8:30 a.m.-5:00 p.m.
Chief, Operations and Telecommunications Division, OIRM, 14th and Independence Ave., SW., Rm. 419-W, Washington, DC 20250; Hours: 8:30 a.m.-5:00 p.m.
Chief, Information Management Division, OIRM, 14th and Independence Ave., SW., Rm. 404-W, Washington, DC 20250; Hours: 8:30 a.m.-5:00 p.m.
Chief, St. Louis Computer Center, OIRM, 1520 Market Street, Rm. 3441, St. Louis, MO 63101; Hours: 8:00 a.m.-4:40 p.m.
Director, Kansas City Computer Center, OIRM, 8930 Ward Parkway, (P.O. Box 205), Kansas City, MO 64141; Hours: 8:00 a.m.-4:45 p.m.
Director, Fort Collins Computer Center, OIRM, 3825 E. Mulberry Street, (P.O. Box 1206), Fort Collins, CO 80521; Hours: 8:00 a.m.-4:30 p.m.
Director, Washington Computer Center, OIRM, 14th and Independence Ave., SW., Rm. S-107-S, Washington, DC 20250; Hours: 8:30 a.m.-5:00 p.m.
Information Access and Disclosure Officer, OIRM, 14th and Independence Ave., SW., Rm. 407-W, Washington, DC 20250; Hours: 8:30 a.m.-5:00 p.m.

PART 2810—ORGANIZATION AND FUNCTIONS—OFFICE OF OPERATIONS

Sec. 2810.1 General statement. 2810.2 Organization. 2810.3 Functions.

Authority: 5 U.S.C. 301 and 552; 7 CFR 2.76.

Source: 54 FR 52013, Dec. 20, 1989, unless otherwise noted.

§ 2810.1 General statement.

This part is issued in accordance with 5 U.S.C. 552(a) to provide guidance for the general public as to Office of Operations (OO) organization and functions.

§ 2810.2 Organization.

The Office of Operations (OO) was established January 12, 1982. Delegations of authority to the Director, OO, appear at 7 CFR 2.76. The organization is comprised of six divisions and one staff located at Department headquarters. Description of the functions of these organizational units are in the following section. The organization is headed by a Director.

§ 2810.3 Functions.

(a) Director. Provides executive direction for OO. Develops and promulgates overall policies and provides general direction, leadership, oversight, and coordination of USDA management of procurement, real and personal property activities, mail, and copier management. Provides executive services to the Office of the Secretary and operates activities providing consolidated USDA administrative functions and services.

(b) Deputy Director. Assists the Director and, in the absence of the Director, serves as Acting Director.

(c) Administrative Unit. Provides support for agency management regarding budget, accounting, personnel, and other administrative matters.

(d) Executive Services Division. Provides executive services to the Office of the Secretary in travel arrangements, supplies, furnishings, communications, equipment, and records. Operates the central USDA DC imprest fund.

(e) Facilities Management Division. Operates and maintains the USDA DC headquarters building complex, including headquarters parking. Oversees management and operation of USDA buildings nationwide, and provides DC area labor services.

(f) Mail and Reproduction Management Division. Oversees USDA mail, copier, and duplicating programs. Operates DC area central activities in these areas.

(g) Personal Property Management Division. Oversees USDA supply, motor vehicle, and personal property programs. Operates centralized warehouse and property rehabilitation facilities.

(h) Procurement Division. Oversees USDA procurement programs. Operates centralized purchasing operations for ADP and Washington area activities.

(i) Real Property Management Division. Oversees USDA real property management programs.

PART 2811—AVAILABILITY OF INFORMATION TO THE PUBLIC

Sec. 2811.1 General statement. 2811.2 Public inspection and copying. 2811.4 Initial requests for records. 2811.6 Fee schedule.

Appendix A to Part 2811—List of Addresses

Authority: 5 U.S.C. 301 and 552 (as amended); 7 CFR 1.3.

Source: 54 FR 52014, Dec. 20, 1989, unless otherwise noted.

§ 2811.1 General statement.

This part is issued in accordance with 7 CFR 1.3 of the Department of Agriculture regulations governing the availability of records (7 CFR 1.1-1.23 and Appendix A) under the Freedom of Information Act (FOIA), 5 U.S.C. 552.

The Department’s regulations, as supplemented by the regulations in this part, provide guidance for any person wishing to request records from Office of Operations.

§ 2811.2 Public inspection and copying.

(a) Background. 5 U.S.C. 552(a)(2) requires that each agency maintain and make available for public inspection and copying certain kinds of records.
Office of Operations, USDA

(b) Procedure. To gain access to OO records that are available for public inspection, contact the division that maintains them. See Appendix A, List of Addresses, for the location and hours of operation.

§ 2811.3 Indexes.
(a) Background. 15 U.S.C. 552(a)(2) also requires that each agency maintain and make available for public inspection and copying current indexes provided identifying information for the public with regard to any records which are made available for public inspection and copying. OO does not maintain any materials within the scope of these requirements.

§ 2811.4 Initial requests for records.
(a) Background. The head of each OO division, each OO contracting officer, each OO leasing officer, and the OO FOIA officer is authorized to:
(1) Grant or deny requests for OO records.
(2) Make discretionary release of OO records when it is determined that the public interest in disclosure outweighs the public and/or private ones in withholding.
(3) Reduce or waive fees to be charged where determined to be appropriate.
(4) Refer a request to the OO FOIA Officer for determination.
(b) Procedures. Persons wishing to request records from the Office of Operations may do so as follows:
(1) How. Submit each initial request for OO records as prescribed in 7 CFR 1.6.
(2) Where. Submit each initial request to the head of the unit that maintains the records. See Appendix A, List of Addresses. Contact the FOIA Officer for guidance as needed. Or, submit the request to the FOIA Officer for forwarding to the proper officials: FOIA Officer, Office of Operations, USDA, Room 134-W Administration Building, 14th & Independence Avenue SW., Washington, DC 20250.

§ 2811.5 Appeals.
Procedure. Any person whose initial request is denied in whole or in part may appeal that denial, in accordance with 7 CFR 1.6(e) and 1.8, to the Director, Office of Operations, USDA, Room 113-W Administration Building, 14th & Independence Avenue SW., Washington, DC 20250.

§ 2811.6 Fee schedule.
Department regulations provide for a schedule of reasonable standard charges for document search and duplication. See 7 CFR 1.2(b). Fees to be charged are set forth in 7 CFR part 1, subpart A, appendix A.

APPENDIX A TO PART 2811—LIST OF ADDRESSES
Section 1. General
This list provides the titles and mailing address of officials who have custody of OO records. The normal working hours of these offices are 8:30 a.m. to 5:00 p.m., Monday through Friday, excluding holidays, during which public inspection and copying of certain kinds of records is permitted.

Section 2. LIST OF ADDRESSES
All of the following addresses are located at 14th Street and Independence Avenue, Washington, DC. Address mail as follows:
Director, Office of Operations, USDA, Room 113-W Administration Building, Washington, DC 20250.
FOIA Officer, Office of Operations, USDA, Room 134-W Administration Building, Washington, DC 20250.
Chief, Executive Services Division, Office of Operations, USDA, Room 10-A, Administration Building, Washington, DC 20250.
Chief, Facilities Management Division, Office of Operations, USDA, Room S-313 South Building, Washington, DC 20250.
Chief, Mail and Reproduction Management Division, Office of Operations, USDA, Room 1540 South Building, Washington, DC 20250.
Chief, Personal Property Management Division, Office of Operations, USDA, Room 1524 South Building, Washington, DC 20250.
Chief, Procurement Division, Office of Operations, USDA, Room 1550 South Building, Washington, DC 20250.
Chief, Real Property Management Division, Office of Operations, USDA, Room 1564 South Building, Washington, DC 20250.

APPENDIX A TO PART 2812—GIFT/ACCEPTANCE AGREEMENT: EDUCATIONAL INSTITUTION OR NONPROFIT ORGANIZATION AND THE UNITED STATES DEPARTMENT OF AGRICULTURE

AUTHORITY: 5 U.S.C. 301.

SOURCE: 60 FR 34456, July 3, 1995, unless otherwise noted.

§ 2812.1 Purpose.
This part sets forth the procedures to be utilized by USDA agencies and laboratories in the donation of excess research equipment to educational institutions and non-profit organizations for the conduct of technical and scientific education and research activities as authorized by 15 U.S.C. 3710(i). Title to excess research equipment donated pursuant to 15 U.S.C. 3710(i), shall pass to the donee.

§ 2812.2 Eligibility.
Eligible organizations are educational institutions or non-profit organizations involved in the conduct of technical and scientific educational and research activities.

§ 2812.3 Definitions.
(a) Cannibalization. The dismantling of equipment for parts to repair or enhance other equipment. The residual is reported for disposal. Cannibalization is only authorized if the property value is greater when cannibalized than retention in the original condition.
(b) Education-related Federal equipment. Equipment that is appropriate for educational purposes.
(c) Excess personal property. Items of personal property no longer required by the controlling Federal agency.
(d) Research equipment. Federal property determined to be essential to conduct scientific or technical educational research.
(e) Technical and scientific education and research activities. Non-profit tax exempt public educational institutions or government sponsored research organizations which serve to conduct technical and scientific education and research.

§ 2812.4 Procedures.
(a) Prior to receipt of excess personal property/equipment under this part, the donee shall enter into a gift/acceptance agreement with the donor agency. A copy of that agreement is attached as appendix A to this part.
(b) Each agency head will designate in writing an authorized official to approve donations of excess property/equipment under this part.
(c) Property targeted for donation under this part will first be screened as excess by USDA agencies through the Departmental Excess Personal Property Coordinator (DEPPC) using the PMIS/PROP system.
(d) Upon reporting property for excess screening, if the pertinent USDA agency has an eligible organization in mind for donation under this part, enter “P.L. 102-245” in the note field. The property will remain in the excess system approximately 30-45 days and, if no agency in USDA requests it during the excess cycle, DEPPC will send the agency a copy of the excess report stamped “DONATION AUTHORITY TO THE HOLDING AGENCY IN ACCORDANCE WITH P.L. 102-245.”
(e) Donations under this Part will be accomplished by preparing a Standard Form (SF) 122, “Transfer Order-Excess Personal Property” and a written justification statement (submitted by the recipient) explaining why the property is needed.
(f) The SF-122 should be signed by both an authorized official of the agency and the Agency Property Management Officer. The following information should also be provided:
(1) Name and address of Donee Institution (Ship to)
Office of Operations, USDA

§ 2812.10

(2) Agency name and address (holding Agency)
(3) Location of property
(4) Shipping instructions (Donee contact person)
(5) Complete description of property, including acquisition amount, serial no., condition code, quantity, and agency order no.
(6) This statement needs to be added following property descriptions. "The property requested hereon is certified to be used for the conduct of technical and scientific education and research activities. This donation is pursuant to the provisions of Pub. L. 102-245."

(g) Once the excess personal property/equipment is physically received, the donee is required to immediately return a copy of the SF-122 to the donating agency indicating receipt of requested items. Cancellations should be reported to DEPPC so the property can be reported to the General Services Administration (GSA).

NOTE: The USDA agency shall send an informational copy of the transaction to GSA.

§ 2812.5 Restrictions.

(a) The authorized official (see §2812.4(b)) will approve the donation of excess personal property/equipment in the following groups to educational institutions or nonprofit organizations for the conduct of technical and scientific educational and research activities.

NOTE: Requests for items in FSC Groups or Classes other than the above should be referred to the agency head for consideration and approval.

(b) Excess personal property/equipment may be donated for cannibalization purposes, provided the donee submits a supporting statement which clearly indicates that cannibalizing the requested property for secondary use has greater potential benefit than utilization of the item in its existing form.

§ 2812.6 Title.

Title to excess personal property/equipment donated under this Part will automatically pass to the donee once the sponsoring agency receives the SF-122 indicating that the donee has received the property.

§ 2812.7 Costs.

Donated excess personal property/equipment is free of charge. However, the donee must pay all costs associated with packaging and transportation, unless the sponsoring agency has made other arrangements. The donee should specify the method of shipment.

§ 2812.8 Accountability and recordkeeping.

USDA requires that property requested by a donee be placed into use by the donee within a year of receipt and used for at least 1 year thereafter. Donees must maintain accountable records for such property during this time period.

§ 2812.9 Disposal.

When the property is no longer needed by the donee, it may be used in support of other Federal projects or sold and the proceeds used for technical and scientific education and research activities.

§ 2812.10 Liabilities and losses.

USDA assumes no liability with respect to accidents, bodily injury, illness, or any other damages or loss related to excess personal property/equipment donated under this Part. The donee is advised to insure or otherwise protect itself and others as appropriate.
APPENDIX A TO PART 2812—GIFT/ACCEPTANCE AGREEMENT: EDUCATIONAL INSTITUTION OR NONPROFIT ORGANIZATION AND THE UNITED STATES DEPARTMENT OF AGRICULTURE

Gift/Acceptance Agreement (Agreement) between (USDA Agency) and (Educational Institution or NonProfit Organization).

(1) Purpose. The purpose of the Agreement is to establish a relationship between the U.S. Department of Agriculture (USDA Agency) and (Educational Institution or NonProfit Organization) concerning the transfer of excess research equipment to this educational institution or nonprofit organization for the conduct of technical and scientific education and research activities. Title of ownership transfers to the recipient.

(2) Authority. Pub. L. 102-245, Sec. 303, amended, Section 11 of the Stevenson-Wydler Technology Innovation Act of 1980, by adding subsection (i), Research Equipment, which provides that "the Director of the laboratory, or the head of any Federal agency or department, may give research equipment that is excess to the needs of the laboratory, agency, or department to an educational institution or non-profit organization for the conduct of technical and scientific education and research activities."

(3) Objectives and program elements. This Agreement is intended to provide a mechanism for the transfer of excess research equipment from USDA to the (Educational Institution or Nonprofit Organization) in accordance with the procedures set out in the regulations implementing Pub. L. 102-245. In order to enable close collaboration, it is agreed that the (Educational Institution or Nonprofit Organization) will provide to (USDA Agency) an annual inventory listing of property acquired under Pub. L. 102-245.

(4) Management. The (USDA Agency) and (Educational Institution or NonProfit Organization) will each identify a coordinator to implement this Agreement. These coordinators shall meet when necessary to review new Federal property regulations.

(5) Effective date and revision or termination. The Agreement shall enter into effect upon signature and shall remain in effect for 3 years. It may be extended or amended by written agreement of the parties at any time prior to its expiration or termination. The Agreement may be terminated at any time upon 60 days written notice by either party to the other. The termination of the Agreement shall not affect the validity of any property transactions under the Agreement which were initiated prior to such termination.

Property Coordinators

The property coordinators for this Agreement are:

PART 2900—ESSENTIAL AGRICULTURAL USES AND VOLUMETRIC REQUIREMENTS—NATURAL GAS POLICY ACT

Sec. 2900.1 General.
2900.2 Definitions.
2900.3 Essential agricultural uses.
2900.4 Natural gas requirements.
2900.6 Effective date.

SOURCE: 44 FR 28786, May 17, 1979, unless otherwise noted.

§ 2900.1 General.

Section 401(c) of the Natural Gas Policy Act of 1978 (NGPA) requires the Secretary of Agriculture to determine the essential uses of natural gas, and to certify to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) the natural gas requirements, expressed either as volumes or percentages of use, of persons, or classes thereof, for essential agricultural uses in order to meet requirements of full food and fiber production. This rule covers establishments performing functions classed as essential agricultural uses whose natural gas supplies are distributed through the interstate pipeline systems even though such establishments may receive such gas directly from an intrastate pipeline or local distribution company. The rule provides to the Secretary of Energy (for purposes of Section 401(a) of the NGPA) and to the Federal Energy Regulatory Commission the following certifications:

(a) Essential agricultural uses of natural gas, expressed as classes of establishments that use gas for essential agricultural purposes; and

(b) Essential agricultural current requirements of natural gas, expressed as percentages of use.

§ 2900.2 Definitions.

(a) Full food and fiber production means the entire output of food and fiber produced for the domestic market, and for export, for building of reserves, and crops for soil building or conservation. This term also includes the processing of food and fiber into stable and storable products, and the maintenance of food quality after processing.

(b) Establishment means an economic unit, generally at a single physical location where business is conducted or where service or industrial operations are performed (for example, a factory, mill, store, mine, farm, sales office, or warehouse). (Note: This is the same definition used in the Standard Industrial Classification Manual, 1972 edition).

(c) Essential Agricultural Use Establishment means any Establishment, or the portion of an Establishment, which performs (or has the capability to perform) activities specified in §2900.3.

(d) Current Natural Gas Requirements means the amount of natural gas required by an Essential Agricultural Use Establishment to perform the activities devoted to full food and fiber production.

§ 2900.3 Essential agricultural uses.

For purposes of Section 401(c) of the NGPA the following classes or portions of classes are certified as essential agricultural uses in order to meet the requirements of full food and fiber production:

**Essential Agricultural Uses**

**Industry SIC No. and Industry Description**

**FOOD AND NATURAL FIBER PRODUCTION**

01 Agricultural Production—Crops

02 Agricultural Production—Livestock Excluding 0272—Horses and Other Equines, and Nonfood Portions of 0279—Animal Specialties, Not Elsewhere Classified.

0723 Crop Preparation Services for Market, Except Cotton Ginning (see fiber processing).

4971 Irrigation Systems.

**FERTILIZER AND AGRICULTURAL CHEMICALS**

(Process and Feedstock Use Only)

1474 Potash, Soda, and Borate Materials.

1475 Phosphate Rock.

1477 Sulfur.

2819 Industrial Inorganic Chemicals, n.e.c. (Agricultural related only).

2865 Cyclic Crudes and Cyclic Intermediates, Dyes and Organic Pigments (Agricultural related only).
Office of Energy, USDA

2869 Industrial Organic Chemicals, n.e.c. (Agricultural related only).
287 Agricultural Chemicals.
2899 Chemicals and Chemical Preparations, n.e.c. (Salt—Feed grade only).
3274 Lime (Agricultural lime only).

FOOD AND NATURAL FIBER PROCESSING—FOOD

20 Food and Kindred Products Except 2047 Dog, Cat and Other Pet Food, and 2048 Prepared Feeds and Feed Ingredients for Animals and Fowls, Not Elsewhere Classified.

ANIMAL FEEDS, AND FOOD
(Process and Feedstock Use Only)

287 Agricultural Chemicals

NATURAL FIBER

0724 Cotton Ginning.
2141 Tobacco Stemming and Redrying.
2299 Textile Goods, n.e.c. (wool tops, combing and converting).
3111 Leather Tanning and Finishing.

FOOD QUALITY MAINTENANCE—FOOD PACKAGING

2641 Paper Coating and Glazing (food related only).
2643 Bags, Except Textile (food related only).
2645 Die Cut Paper and Paperboard (food related only).
2646 Pressed and Molded Pulp Goods (food related only).
2649 Converted Paper Products (food related only).
2651 Folding Paperboard Boxes (food related only).
2653 Corrugated and Solid Fiber Boxes (food related only).
2654 Sanitary Food Containers.
2655 Fiber Cans, Tubes, Drums, and Similar Products (food related only).
3079 Miscellaneous Plastic Products (food related only).
3221 Glass Containers (food related only).
3411 Metal Cans (food related only).
3412 Metal Shipping Barrels, Drums, Kegs, and Pails (food related only).
3466 Metal Crowns and Closures (Food Related Only).
3497 Metal Foil and Leaf (food related only).

MARKETING AND DISTRIBUTION

4221 Farm Product Warehousing and Storage.
4222 Refrigerated Warehousing.
514 Groceries and Related Products.
5153 Farm Product Raw Materials—Grain.
54 Food Stores.

ENERGY PRODUCTION

(1) Agricultural production on set-aside acreage or acreage diverted from the production of a commodity (as provided under the Agricultural Act of 1949) to be devoted to the production of any commodity for conversion into alcohol or hydrocarbons for use as motor fuel or other fuels;
(2) Sugar refining for production of alcohol; and
(3) Distillation of fuel-grade alcohol from food grains and other biomass by facilities in existence on June 30, 1980 which do not have the installed capability to burn coal lawfully, for a period ending June 29, 1985.

§ 2900.4 Natural gas requirements.

For purposes of Section 401(c), NGPA, the natural gas requirements for each Essential Agricultural Use Establishment, whether such Essential Agricultural Use Establishment is in existence on the effective date of this rule or comes into existence thereafter, are certified to be 100 percent of Current Natural Gas Requirements.

§ 2900.6 Effective date.

This rule shall become effective on May 14, 1979.
§ 2901.1 Purpose and scope.

The purpose of this part 2901 is to provide procedures for the making of certain adjustments to the Secretary of Agriculture's Essential Agricultural Uses and Requirements regulations in accordance with section 502(c) of the Natural Gas Policy Act of 1978, in order to prevent special hardship, inequity, or an unfair distribution of burdens. The procedures in this part 2901 apply to any person seeking an interpretation of, modification of, rescission of, exception to or exemption from the Essential Agricultural Uses and Requirements regulations in part 2900 of this chapter.

§ 2901.2 Definitions.

(a) Person means any individual, firm, sole proprietorship, partnership, association, company, joint venture or corporation.

(b) Director means the Director of the Office of Energy, U.S. Department of Agriculture.

(c) Secretary means the Secretary of the U.S. Department of Agriculture.

(d) Adjustment means an interpretation, modification, rescission of, exception to or exemption from the Essential Agricultural Uses and Requirements regulations, part 2900 of this chapter.

(f) Petitioner means any person seeking an adjustment under this part 2901.

§ 2901.3 Oral presentation.

Any person seeking an adjustment under this part 2901 shall be given an opportunity to make an oral presentation of data, views and arguments in support of the request for an adjustment, provided that a request to make an oral presentation is submitted in writing with the request for the adjustment. An official of the Department of Agriculture shall preside at such oral presentation.

§ 2901.4 Interpretations.

(a) Request for an interpretation. (1) Any person seeking an interpretation of the Essential Agricultural Uses and Requirements regulations in part 2900 shall file a formal written request with the Director. The request should contain a full and complete statement of all relevant facts pertaining to the circumstances, act or transaction that is the subject of the request and to the action sought, and should state the special hardship, inequity, or unfair distribution of burdens that will be prevented by the interpretation sought and why the interpretation is consistent with the purposes of NGPA. The Director shall publish a notice in the Federal Register advising the public that a request for an interpretation has been received and that written comments will be accepted with respect thereto, if received within 20 days of the notice. The Federal Register notice will provide that copies of the request for interpretation from which confidential information has been deleted in accordance with paragraph (a)(2) of this section may be obtained from the petitioner.

(2) If the petitioner wishes to claim confidential treatment for any information contained in the request or other documents submitted under this part 2901, such person shall file together with the document a second copy of the document from which has been deleted the information for which confidential treatment is sought. The petitioner shall indicate in the original document that it is confidential or contains confidential information and may file a statement specifying the justification for non-disclosure of the information for which non-disclosure is sought. The Director shall consider such requests, and subject to the Freedom of Information Act, 5 U.S.C. 552 and other applicable laws and regulations, shall treat such information as confidential.

(b) Investigations. The Director may initiate an investigation of any statement in a request and utilize in his evaluation any relevant facts obtained in such investigation. The Director may accept submissions from third persons relevant to any request for interpretation provided that the petitioner
Office of Energy, USDA § 2901.5

is afforded an opportunity to respond to all such submissions. In evaluating a request for interpretation, the Director may consider any other source of information.

(c) Applicability. Any interpretation issued hereunder shall be issued on the basis of the information provided on the request, as supplemented by other information brought to the attention of the Director during the consideration of the request. The interpretation shall, therefore, depend for its authority on the accuracy of the factual statement and may be relied upon only to the extent that the facts of the actual situation correspond to those upon which the interpretation was based.

(d) Issuance of an interpretation. Upon consideration of the request for interpretation and other relevant information received or obtained by the Director, the Director may issue a written interpretation. A copy of the written interpretation shall be provided to FERC and the Secretary of Energy. Notice of the issuance of the written interpretation shall be published in the Federal Register. The granting of a request for issuance of an interpretation shall be considered final agency action for purposes of judicial review under §2901.8.

(e) Denial of an interpretation. An interpretation shall be considered denied for purposes of review of such denial under §2901.7 only if:

(1) The Director notifies the petitioner in writing that the request is denied and that an interpretation will not be issued; or

(2) The Director does not respond to a request for an interpretation, by (i) issuing a notice that an interpretation will be issued within 45 days of the date of receipt of the request, or within such extended time as the Director may prescribe by written notice within the 45-day period.

(f) For purposes of this part 2901 the word interpretation shall not be deemed to include a simple clarification of an actual or purported ambiguity in part 2900. The Director reserves the right to determine whether a request involves simple clarification and shall advise the requester of his decision.

§ 2901.5 Modifications and rescissions.

(a) Request for modification or rescission. (1) Any person seeking a modification or a rescission of the Essential Agricultural Uses and Requirements regulations of part 2900 shall file a formal written request with the Director. The request shall contain a full and complete statement of all relevant facts pertaining to the circumstance, act or transaction that is the subject of the request and to the action sought. The request should state the special hardship, inequity or unfair distribution of burdens that will be prevented by making the modification or rescission.

(2) If the petitioner wishes to claim confidential treatment for any information contained in the request or other documents submitted under this part 2901, such person shall file together with the document a second copy of the document from which has been deleted the information for which such person wishes to claim confidential treatment. The petitioner shall indicate in the original document that it is confidential or contains confidential information and may file a statement specifying the justification for non-disclosure of the information for which non-disclosure is sought. The Director shall consider such requests, and subject to the Freedom of Information Act, 5 U.S.C. 552 and other applicable laws and regulations, shall treat such information as confidential.

(b) Institution of rulemaking. Upon consideration of the request for modification or rescission and other relevant information received or obtained by the Director, the Director may institute rulemaking proceedings in accordance with the Administrative Procedures Act 5 U.S.C. 551 et seq. and applicable regulations.

(3) The request shall be filed as a petition for rulemaking and treated in accordance with the procedures, as applicable, of 7 CFR part 1, subpart B.

(c) Denial of a modification or rescission. If the Director (1) denies the request for modification or rescission in writing by notifying the petitioner that he does not intend to institute rulemaking proceedings as proposed and stating the reasons therefor, or (2) does not respond to a request for a
§ 2901.6 Exceptions and exemptions.

(a) Request for exception or exemption.  
(1) Any person seeking an exception or exemption from the Essential Agricultural Uses and Requirements regulations in part 2900 shall file a formal written request with the Director. The request shall contain a full and complete statement of all relevant facts pertaining to the circumstance, act, or transaction that is the subject of the request and to the action sought. The request should state the special hardship, inequity or unfair distribution of burdens that will be prevented by making the exception or exemption. The Director shall publish a notice in the Federal Register advising the public that a request for an exception or exemption has been received and that written comments will be accepted with respect thereto if received within 20 days of the notice. The Federal Register notice will provide that copies of the request from which confidential information has been deleted in accordance with paragraph (a)(2) of this section may be obtained from the petitioner. The Petitioner shall be afforded an opportunity to respond to such submissions.

(2) If the petitioner wishes to claim confidential treatment for any information contained in the request or other documents submitted under this part 2901, such person shall file together with the document a second copy of the document from which has been deleted the information for which such person wishes to claim confidential treatment. The petitioner shall indicate in the original document that it is confidential or contains confidential information and may file a statement specifying the justification for non-disclosure of the information for which non-disclosure is sought. The Director shall consider such requests, and subject to the Freedom of Information Act, 5 U.S.C. 552 and other applicable laws and regulations, shall treat such information as confidential.

(b) Decision and order. Upon consideration of the request for an exception or exemption and other relevant information received or obtained during the proceedings, the Director shall issue an order granting or denying the request. The Director shall publish a notice in the Federal Register of the issuance of a decision and order on the request. The granting of a request for an exception or exemption shall be considered final agency action for purposes of judicial review under § 2901.8.

(c) Denial of an exception or exemption. A request for an exception or exemption shall be considered denied for purposes of review of such denial under § 2901.7 only if:

(1) The Director has notified the petitioner in writing that the request is denied under paragraph (b) of this section; or

(2) The Director does not respond to a request for an exception or exemption by (i) granting the request for an exception or exemption under paragraph (b) of this section or (ii) giving notice of when a decision will be made within 45 days of the receipt of the request, or with such extended time as the Director may prescribe by written notice within the 45-day period.

§ 2901.7 Review of denials.

(a) Request for review.  
(1) Any person aggrieved or adversely affected by a denial of a request for any interpretation under § 2901.4 may request a review of the denial by the Secretary, within 30 days from the date of the denial.

(2) Any person aggrieved or adversely affected by a denial of a request for a modification or rescission under § 2901.5 may request a review of the denial by the Secretary within 30 days from the date of the denial.

(3) Any person aggrieved or adversely affected by a denial of a request for an exception or an exemption under
§ 2901.6, may request a review of the denial by the Secretary within 30 days from the date of the denial.

(b) Procedures. Any request for review under § 2901.7(a) shall be in writing and shall set forth the specific ground upon which the request is based. There is no final agency action for purposes of judicial review under § 2901.8 until that request has been acted upon. If the request for review has not been acted upon within 30 days after it is received, the request shall be deemed to have been denied. That denial shall then constitute final agency action for the purpose of judicial review under § 2901.8.

§ 2901.9 Effective date.

This rule shall become effective on October 29, 1979.

PART 3010 [RESERVED]

PART 3011—AVAILABILITY OF INFORMATION TO THE PUBLIC

Sec.
3011.1 General statement.
3011.2 Public inspection and copying.
3011.3 Indexes.
3011.4 Initial requests for records.
3011.5 Appeals.
3011.6 Fee schedule.

S O U R C E : 54 FR 51869, Dec. 19, 1989, unless otherwise noted.

§ 3011.1 General statement.
This part is issued in accordance with 7 CFR 1.3 of the Department of Agriculture regulations governing the availability of records (7 CFR 1.1—1.23 and Appendix A) under the Freedom of Information Act (5 U.S.C. 552, as amended). These regulations supplement the Department’s regulations by providing guidance for any person wishing to request records from the Office of Finance and Management (OFM).

§ 3011.2 Public inspection and copying.
(a) Background. 5 U.S.C. 552(a)(2) requires each agency to maintain and make available for public inspection and copying certain kinds of records.
(b) Procedure. To gain access to OFM records that are available for public inspection, contact the Freedom of Information Act Officer by writing to the address shown in §3011.4 of this title.

§ 3011.3 Indexes.
5 U.S.C. 552(a)(2) also requires that each agency maintain and make available for public inspection and copying current indexes providing identifying information for the public with regard to any records which are made available for public inspection and copying. OFM does not maintain any materials within the scope of these requirements.

§ 3011.4 Initial requests for records.
(a) Background. The Freedom of Information Act Officer is authorized to:
(1) Grant or deny requests for OFM records,
(2) Make discretionary release of OFM records when the benefit to the public in releasing the document outweighs any harm likely to result from disclosure,
(3) Reduce or waive fees to be charged where determined to be appropriate.
(b) Procedures. This part provides the titles and mailing address of officials who are authorized to release records to the public. The normal working hours of these offices are 8:30 a.m. to 5:00 p.m., local time, Monday through Friday, excluding holidays, during which public inspection and copying of certain kinds of records is permitted. Persons wishing to request records from the Office of Finance and Management may do so by submitting each initial written request for OFM records to the appropriate OFM official shown below:
(1) For records held at the Washington, DC Headquarters units, submit initial requests to the Freedom of Information Act Officer, Office of Finance and Management, USDA, 14th and Independence Ave., SW., Room 117-W, Administration Building, Washington, DC 20250-9000.
(2) For records held at the National Finance Center in New Orleans, Louisiana, submit initial requests to the Freedom of Information Act Officer, National Finance Center, OFM, USDA, 13800 Old Gentilly Road, Building 350, (P. O. Box 60,000, New Orleans, LA 70160), New Orleans, Louisiana 70129.
If the requester is unable to determine the official to whom the request should be addressed, it should be submitted to the Headquarters Freedom of Information Act Officer who will refer such requests to the appropriate officials.
§ 3011.5 Appeals.

Any person whose initial request is denied in whole or in part may appeal that denial, in accordance with 7 CFR 1.6(e) and 1.8, to the Director, Office of Finance and Management, USDA, Room 117-W, Administration Building, 14th and Independence Ave., Washington, DC 20250-9000.

§ 3011.6 Fee schedule.

Departmental regulations provide for a schedule of reasonable standard charges for document search and duplication. See 7 CFR 1.2(b). Fees to be charged are set forth in 7 CFR part 1, subpart A, Appendix A.

PART 3015—UNIFORM FEDERAL ASSISTANCE REGULATIONS

Subpart A—General

Sec.
3015.1 Purpose and scope of this part.
3015.2 Applicability.
3015.3 Conflicting policies and deviations.
3015.4 Special restrictive terms.

Subpart B—Cash Depositories

3015.10 Physical segregation and eligibility.
3015.11 Separate bank accounts.
3015.12 Moneys advanced to recipients.
3015.13 Minority and women-owned banks.

Subpart C—Bonding and Insurance

3015.15 General.
3015.16 Construction and facility improvement.
3015.17 Fidelity bonds.
3015.18 Source of bonds.

Subpart D—Record Retention and Access Requirements

3015.20 Applicability.
3015.21 Retention period.
3015.22 Starting date of retention period.
3015.23 Microfilm.
3015.24 Access to records.
3015.25 Restrictions to public access.

Subpart E—Waiver of “Single” State Agency Requirements

3015.30 Waiver of “single” State agency requirements.

Subpart F—Grant Related Income

3015.40 Scope.
3015.41 General program income.
3015.42 Proceeds from sale of real property and from sale of equipment and supplies acquired for use.
3015.43 Royalties and other income earned from a copyrighted work.
3015.44 Royalties or equivalent income earned from patents or from inventions.
3015.45 Other program income.
3015.46 Interest earned on advances of grant funds.

Subpart G—Cost-Sharing or Matching

3015.50 Scope.
3015.51 Acceptable contributions and costs.
3015.52 Qualifications and exceptions.
3015.53 Valuation of donated services.
3015.54 Valuation of donated supplies and loaned equipment or space.
3015.55 Valuation of donated equipment, buildings, and land.
3015.56 Appraisal of real property.

Subpart H—Standards for Financial Management Systems

3015.60 Scope.
3015.61 Financial management standards.

Subpart I [Reserved]

Subpart J—Financial Reporting Requirements

3015.80 Scope and applicability.
3015.81 General.
3015.82 Financial status report.
3015.83 Federal cash transactions report.
3015.84 Request for advance or reimbursement.
3015.85 Outlay report and request for reimbursement for construction programs.

Subpart K—Monitoring and Reporting Program Performance

3015.90 Scope.
3015.91 Monitoring by recipients.
3015.92 Performance reports.
3015.93 Significant developments.
3015.94 Site visits.
3015.95 Waivers, extensions and enforcement actions.

Subpart L—Payment Requirements

3015.100 Scope.
3015.101 General.
3015.102 Payment methods.
3015.103 Withholding payments.
3015.104 Requesting advances or reimbursements.
3015.105 Payments to subrecipients.

Subpart M—Programmatic Changes and Budget Revisions

3015.110 Scope and applicability.
Pt. 3015

3015.111 Cost principles.
3015.112 Approval procedures.
3015.113 Programmatic changes.
3015.114 Budgets—general.
3015.115 Budget revisions.
3015.116 Construction and nonconstruction work under the same grant, subgrant, or cooperative agreement.

Subpart N—Grant and Subgrant Closeout, Suspension and Termination

3015.120 Closeout.
3015.121 Amounts payable to the Federal government.
3015.122 Violation of terms.
3015.123 Suspension.
3015.124 Termination.
3015.125 Applicability to subgrants.

Subparts O–P [Reserved]

Subpart Q—Application for Federal Assistance

3015.150 Scope and applicability.
3015.151 Authorized forms.
3015.152 Preapplication for Federal assistance.
3015.153 Notice of preapplication review action.
3015.154 Application for Federal assistance (nonconstruction programs).
3015.155 Application for Federal assistance (construction programs).
3015.156 Application for Federal assistance (short form).
3015.157 Authorized form for nongovernmental organizations.
3015.158 Competition in the awarding of discretionary grants and cooperative agreements.

Subpart R—Property

3015.160 Scope and applicability.
3015.161 Additional requirements.
3015.162 Title to real property, equipment and supplies.
3015.163 Real property.
3015.164 Statutory exemptions for equipment and supplies.
3015.165 Rights to require transfer of equipment.
3015.166 Use of equipment.
3015.167 Replacement of equipment.
3015.168 Disposal of equipment.
3015.169 Equipment management requirements.
3015.170 Damage, loss, or theft of equipment.
3015.171 Unused supplies.
3015.172 Federal share of real property, equipment, and supplies.
3015.173 Using or returning the Federal share.
3015.174 Subrecipient’s share.

7 CFR Ch. XXX (1–1–98 Edition)

3015.175 Intangible personal property.

Subpart S—Procurement

3015.180 Scope and applicability.
3015.181 Standards of conduct.
3015.182 Open and free competition.
3015.183 Access to contractor records.
3015.184 Equal employment opportunity.

Subpart T—Cost Principles

3015.190 Scope.
3015.191 Governments.
3015.192 Institutions of higher education.
3015.193 Other non-profit organizations.
3015.194 For-profit organizations.
3015.195 Subgrants and cost-type contracts.
3015.196 Costs allowable with approval.

Subpart U—Miscellaneous

3015.200 Acknowledgement of support on publications and audiovisuals.
3015.201 Use of consultants.
3015.202 Limits on total payments to the recipient.
3015.203 [Reserved]
3015.204 FEDERAL REGISTER publications.
3015.205 General provisions for grants and cooperative agreements with institutions of higher education, other nonprofit organizations, and hospitals.

Subpart V—Intergovernmental Review of Department of Agriculture Programs and Activities

3015.300 Purpose.
3015.301 Definitions.
3015.302 Applicability.
3015.303 Secretary’s general responsibilities.
3015.304 Federal interagency coordination.
3015.305 State selection of programs and activities.
3015.306 Communication with State and local elected officials.
3015.307 State comments on proposed Federal financial assistance and direct Federal development.
3015.308 Processing comments.
3015.309 Accommodation of intergovernmental concerns.
3015.310 Interstate situations.
3015.311 Simplification, consolidation, or substitution of State plans.
3015.312 Waivers.

APPENDIX A TO PART 3015—DEFINITIONS

APPENDIX B TO PART 3015—OMB CIRCULAR A–128, "AUDITS OF STATE AND LOCAL GOVERNMENTS"

AUTHORITY: 5 U.S.C. 301, Subpart I, 31 U.S.C. 7505, unless otherwise noted.

SOURCE: 46 FR 55639, Nov. 10, 1981, unless otherwise noted.
Subpart A—General

§ 3015.1 Purpose and scope of this part.

(a)(1) This part establishes USDA-wide uniform requirements for the administration of open-ended entitlement grants and specifies the set of principles for determining allowable costs under USDA grants and cooperative agreements to State and local governments, universities, non-profit and for-profit organizations as set forth in OMB Circulars A–87, A–21, A–122, and 48 CFR 31.2, respectively. This Part also contains the general provisions that apply to all grants and cooperative agreements made by USDA.

(2) Additionally, this part establishes intergovernmental review provisions required by Executive Order 12372 for any programs listed in the Federal Register as covered, and policy on competition in awarding discretionary grants and cooperative agreements.

(3) Rules for nonentitlement grants and cooperative agreements to State and local governments are found in part 3016.

(4) Rules for nonentitlement grants and cooperative agreements to institutions of higher education, hospitals, and other non-profit organizations are found in part 3019.

(b) These rules supersede and take precedence over any individual USDA agency regulations and directives dealing with the administration of grants and cooperative agreements to the extent such regulations and directives are inconsistent with this part, unless such inconsistency is based on a statutory provision or an exception has been obtained from OMB. (See § 3015.3.) Definitions for the terms used in this part are set forth in Appendix A. Definitions for the implementation of standard audit requirements for State and local governments and Indian Tribal governments are contained in Subpart I—Audits.

(c) The purpose of this part is to simplify, standardize, and improve the administration of USDA grants and cooperative agreements.

(d) Responsibility for developing and interpreting the material for this part and in keeping it up-to-date is assigned to the Office of the Deputy Director, Finance, a component of the Office of Operations and Finance (O&F), which reports to the Assistant Secretary for Administration.

§ 3015.2 Applicability.

(a) Grants and cooperative agreements. This part applies to USDA grants and cooperative agreements. For each substantive provision in this part, either the words of the provision itself or other words in the same subsection tell whether the provision applies to subgrants. Exemptions to this part may be applicable to certain kinds of recipients. (See paragraph (d) of this section.)

(b) Terminology applicable to this part. This part's substantive rules are the same for grants and cooperative agreements. Many of the rules are also the same for subgrants. Therefore, certain simplified terminology is used in the text. Specifically in all portions of this part:

(1) Each provision that applies to grants also applies to cooperative agreements, even though the latter term does not appear in the provisions.

(2) Each provision that applies to recipients of grants applies to recipients of cooperative agreements, even though the latter term does not appear in the provision.

(3) The term recipient refers equally to recipients of grants and recipients of cooperative agreements.

(4) The term awarding agency refers equally to a USDA agency that awards a grant and to one that awards a cooperative agreement.

(5) The term subgrant refers equally to certain awards under grants and to the same kinds of awards under cooperative agreements.

(c) Public institutions of higher education and hospitals. Grants, cooperative agreements and subgrants awarded to institutions of higher education and hospitals operated by a government are subject only to the provisions of this part that apply to non-governmental organizations.

(d) Recipients to which this part does not automatically apply. This part does not automatically apply to the kinds of...
§ 3015.3 Conflicting policies and deviations.

(a) Statutory provisions. Federal statutes that apply to some USDA grant programs may contain provisions that conflict with this part. Those statutory provisions take precedence over this part.

(b) Nonstatutory provisions. USDA awarding agencies occasionally develop grant provisions that are inconsistent with this part. USDA attempts to keep these provisions to a minimum by internal procedures that require these provisions to be justified to appropriate officials of USDA and OMB. If the conflicting provisions are of long-term and general applicability, O&F may require that the awarding agency (1) publish the conflicting provision as a notice in the Federal Register and (2) give the public an opportunity to comment before making the regulations final.

(c) Nonstatutory provisions—subgrants. If a provision of a subgrant conflicts with this part, the recipient is considered as violating the provisions of the grant, unless the subgrant provision is authorized in writing, by the awarding agency.

(d) OMB exceptions. In some cases, OMB grants exceptions from the requirements of the Circulars, when permissible under existing laws. In those instances where a program receives an exception to a particular provision of a Circular, the exception takes precedence over this part.

§ 3015.4 Special restrictive terms.

(a) Occasionally an awarding agency, or a recipient awarding a subgrant, may find that a particular recipient:

(1) Is financially unstable, or

(2) Has a history of poor performance, or

(3) Has a management system that does not meet the standards in this part.

In these cases the awarding agency may impose special conditions that are more restrictive than otherwise permitted by this part. If so, the awarding agency must tell the recipient in writing why it is imposing the special conditions and what corrective action is needed.

(b) At the time an awarding agency imposes a special grant condition under paragraph (a) of this section, the awarding agency, through O&F, shall notify OMB and other interested parties.

(c) At the time a recipient imposes a special restrictive subgrant condition under paragraph (a) of this section, it must notify the awarding agency, giving full particulars. The awarding agency, through O&F, shall then notify OMB and other interested parties.

(d) A special restrictive grant or subgrant condition under paragraph (a) of this section is considered consistent with this part.

§ 3015.10 Physical segregation and eligibility.

Except as provided in § 3015.11, awarding agencies shall not impose grant or subgrant conditions which:

(a) Require the recipient to use a separate bank account for the deposit of grant or subgrant funds, or

(b) Establish any eligibility requirements for banks or other financial institutions in which recipients deposit grant or subgrant funds.

§ 3015.11 Separate bank accounts.

A separate bank account shall be required when applicable letter of credit agreements provide that funds will not be drawn until the recipient’s checks are presented to the bank for payment.

§ 3015.12 Moneys advanced to recipients.

Any moneys advanced to recipients which are subject to the control or regulation of the United States or any of its officers, agents, or employees (public moneys as defined in Treasury Circular 176, as amended), must be deposited in a bank with Federal Deposit Insurance Corporation (FDIC) insurance coverage and the balance exceeding the FDIC coverage must be collateralized.

§ 3015.13 Minority and women-owned banks.

Consistent with the national goal of expanding opportunities for minority business enterprises, recipients, and subrecipients are encouraged to use minority and women-owned banks. Upon request, awarding agencies will furnish a listing of minority and women-owned banks to recipients.

Subpart C—Bonding and Insurance

§ 3015.15 General.

In administering grants, subgrants, and cooperative agreements, recipients shall observe their regular requirements and practices with respect to bonding and insurance. No additional bonding and insurance requirements, including fidelity bonds, shall be imposed by the provisions of the grant, subgrant, or cooperative agreement except as provided in §§3015.16 through 3015.18.

§ 3015.16 Construction and facility improvement.

(a) Scope. This section covers requirements for bid guarantees, performance bonds, and payment bonds when the recipients will contract or subcontract for construction or facility improvement (including alterations and renovations of real property) under a grant or subgrant.

(b) Bids and contracts or subcontracts of $100,000 or less. Unless otherwise required by law, the recipients shall follow its own requirements and practices relating to bid guarantees, performance bonds, and payment bonds.

(c) Bids and contracts or subcontracts exceeding $100,000. Unless otherwise required by law, the recipient may follow its own regular policy and requirements if the USDA awarding agency has decided that the Federal government’s interest will be adequately protected. If this decision has not been made, the minimum requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to 5 percent of the bid price;

(2) A performance bond on the part of the contractor for 100 percent of the contract price; and

(3) A payment bond on the part of the contractor for 100 percent of the contract price.

§ 3015.17 Fidelity bonds.

(a) If the recipient is not a unit of government, the awarding agency may require the recipient to carry adequate fidelity bond coverage where the absence of coverage for the grant-supported activity is considered as creating an unacceptable risk.

(b) If the subrecipient is not a unit of government, the awarding agency or the recipient may require that the subrecipient carry adequate fidelity bond coverage where the absence of coverage for the subgrant-supported activity is considered as creating an unacceptable risk.
§ 3015.18 Source of bonds.

Any bonds required under § 3015.16(c)(1) through (3) or § 3015.17 shall be obtained from companies holding certificates of authority as acceptable sureties (31 CFR part 223). A list of these companies is published annually by the Department of the Treasury in its Circular 570.

Subpart D—Record Retention and Access Requirements

§ 3015.20 Applicability.

(a) This subpart applies to all financial records, supporting documents, statistical records and other records of recipients, which are:

(1) Required to be maintained by the provisions of a USDA grant or cooperative agreement,

(2) Otherwise reasonably considered as pertinent to a USDA grant or cooperative agreement.

(b) This subpart does not apply to the records of contractors and subcontractors under grants, subgrants and cooperative agreements. For a requirement to place a provision concerning these records in certain kinds of contracts, see Subpart 5 of this part.

§ 3015.21 Retention period.

(a) Except as provided in paragraphs (b) and (c) of this section, records shall be kept for 3 years from the starting date specified in § 3015.22.

(b) If any litigation, claim, negotiation, audit or other action involving the records has been started before the end of the 3-year period, the records shall be kept until all issues are resolved, or until the end of the regular 3-year period, whichever is later.

(c) In order to avoid dual record-keeping, awarding agencies may make special arrangements for recipients to keep any records which are continuously needed for joint use. The awarding agency shall request a recipient to transfer records to its custody when the awarding agency decides that the records possess long-term retention value. When the records are transferred to or maintained by the awarding agency the 3-year retention requirement shall not apply to the recipient.

(d) Records for nonexpendable property acquired in whole or in part, with Federal funds shall be retained for three years after its final disposition.

§ 3015.22 Starting date of retention period.

(a) General. The retention period starts from the date of the submission of the final expenditure report or, where USDA grant support is continued or renewed at annual or other intervals, the 3-year retention period for the records of each funding period starts on the day the recipient submits to USDA its annual or final expenditure report for that period. If an expenditure report has been waived, the 3-year retention period starts on the day the report would have been due. Exceptions to this paragraph are contained in paragraphs (b) through (d) of this section.

(b) Equipment records. The 3-year retention period for the equipment records required by Subpart R starts from the date of the equipment’s disposition, replacement, or transfer at the direction of the awarding agency.

(c) Records for income transactions after grant or subgrant support. (1) In cases where USDA requires that program income (as defined in Appendix A) be applied to costs incurred after expiration or termination of grant or subgrant support, the 3-year retention period for these cost records starts from the end of the recipient’s fiscal year in which the costs are incurred.

(2) Where USDA requires the disposition of copyright royalties or other program income earned after expiration or termination of grant or subgrant support, the 3-year retention period for those income records starts from the end of the recipient’s fiscal year in which the income was earned. (See Subpart F, § 3015.44.)

(d) Indirect cost rate proposals, cost allocation plans, etc.—(1) Applicability. This paragraph applies to the following types of documents and their supporting records:

(i) Indirect cost rate computations or proposals;

(ii) Cost allocation plans; and

(iii) Any similar accounting computations of the rate at which a particular group of costs is chargeable.
(such as computer usage chargeback rates or composite fringe benefit rates).

(2) If submitted for negotiation. If the Federal government requires submission of the proposal, plan, or other computation for negotiation of the rate chargeable for particular costs, then the 3-year retention period for the plan, proposal or other computation and the supporting records starts from the date of such submission.

(3) If not submitted for negotiation. If the Federal government does not require submission of the proposal, plan, or other computation for negotiation of the rate chargeable for particular costs, then the 3-year retention period for the proposal, plan, or other computation starts from the end of the fiscal year covered by such proposal, plan, or other computation.

§ 3015.23 Microfilm.
Copies made by microfilming, photocopying, or similar methods may be substituted for the original records.

§ 3015.24 Access to records.
(a) Records of recipients. USDA and the Comptroller General of the United States, or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of the recipient which are pertinent in a specific USDA award in order to make audit, examination, excerpts, and transcripts.

(b) Records of subrecipients. USDA and the Comptroller General of the United States, and the recipient, or any of their authorized representatives, shall have the right of access to any books, documents, papers, or other records of the subrecipient which are pertinent to a specific USDA grant or cooperative agreement, in order to make audit, examination, excerpts, and transcripts.

(c) Expiration of right of access. The rights of access in this section shall not be limited to the required retention period but shall last as long as the records are kept.

§ 3015.25 Restrictions to public access.
Unless required by law, no awarding agency shall impose grant or subgrant conditions which limit public access to records covered by this subpart, except when the awarding agency determines that such records must be kept confidential and would have been excepted from disclosure pursuant to USDA’s “Freedom of Information” regulations if the records had belonged to USDA (7 CFR 1.1-1.16).

Subpart E—Waiver of “Single” State Agency Requirements

§ 3015.30 Waiver of “single” State agency requirements.
Section 204 of the Intergovernmental Cooperation Act of 1968 authorizes Federal agencies to waive “single” State agency requirements on request of the Governor or other duly constituted State authorities.

(a) Approval authority. The awarding agency has approval authority for waiver requests, and shall handle them as quickly as feasible. Approval should be given whenever possible.

(b) Refusal procedures. When it is necessary to refuse a request for waiver of the “single” State agency requirements under section 204, the awarding agency shall, through O&F, advise OMB that the request cannot be granted. Such advice should indicate the reasons for the denial of the request. Notification, through O&F, to OMB shall occur prior to informing the State of the refusal.

Subpart F—Grant Related Income

§ 3015.40 Scope.
This subpart contains policies and requirements related to program income and interest and other investment income earned on advances of grant funds. Appendix A defines the term “program income.” There are five categories of program income covered in this subpart. Each is treated in a separate section. The categories are:

(a) General program income;
(b) Proceeds from sale of real property and from sale of equipment and supplies acquired for use;
(c) Royalties and other income earned from a copyrighted work;
(d) Royalties or equivalent income earned from patents or inventions; and
§ 3015.41 General program income.

(a) Applicability. This section applies to "general program income" as defined in Appendix A.

(b) Use. (1) General program income shall be retained by the recipient and used in accordance with one or a combination of the alternatives in paragraphs (c), (d), and (e) of this section, as follows: The alternative in paragraph (c) may always be used by recipients and must be used if neither of the other two alternatives is permitted by the provisions of the grant award. The alternatives in paragraph (d) or (e) of this section may be used only if expressly permitted by the provisions of the grant award. In specifying alternatives that may be used, the provisions of the grant award may distinguish between income earned by the recipient and income earned by sub-recipients and between the sources, kinds, or amounts of income.

(2) The provisions of a subgrant award may restrict the use of general program income earned by the subrecipient to only one or some of the alternatives permitted by the provisions of the grant, but the alternative in paragraph (c) of this section shall always be permitted.

(c) Deduction alternative. (1) Under this alternative, the income is used for allowable costs of the project or program. If there is a cost-sharing or matching requirement, costs supported by the income may not count toward satisfying that requirement. Therefore, the maximum percentage of Federal cost-sharing is applied to the net amount determined by deducting the income from total allowable costs and third party in-kind contributions. The income shall be used for current costs unless the awarding agency authorizes its use in a later period.

(2) To illustrate this alternative, assume the same situation as in paragraph (c)(2) of this section. Under this alternative, the 90 percent maximum percentage of Federal cost-sharing would be applied to the full $100,000, and $90,000 could therefore be paid to the recipient.

(d) Cost-sharing or matching alternative. (1) Under this alternative, the income is used for allowable costs of the project or program but, in this case, the costs supported by the income may count toward satisfying a cost-sharing or matching requirement. Therefore, the maximum percentage of Federal cost-sharing is applied to total allowable costs and third party in-kind contributions. The income shall be used for current costs unless the awarding agency authorizes its use in a later period.

(2) To illustrate this alternative, assume the same situation as in paragraph (c)(2) of this section. Under this alternative, the 90 percent maximum percentage of Federal cost-sharing would be applied to the full $100,000, and $90,000 could therefore be paid to the recipient.

(e) Additional costs alternative. Under this alternative, the income is used for allowable costs of the project or program. If there is a cost-sharing or matching requirement, costs supported by the income may count toward satisfying that requirement. Therefore, the maximum percentage of Federal cost-sharing is applied to the net amount determined by deducting the income from total allowable costs and third party in-kind contributions. The income shall be used for current costs unless the awarding agency authorizes its use in a later period.

(1) To illustrate this alternative, assume a project in which the recipient incurs $100,000 of allowable costs and receives no third party in-kind contributions. If the recipient earns $10,000 in general program income and this alternative applies, that $10,000 must be deducted from the $100,000 before applying the maximum percentage of Federal cost-sharing. If that percentage is 90 percent, the most that could be paid to the recipient would therefore be $81,000 (90 percent times $90,000).

§ 3015.42 Proceeds from sale of real property and from sale of equipment and supplies acquired for use.

The following kinds of program income shall be governed by Subpart R of this part:
Office of Chief Financial Officer, USDA

§ 3015.46 Interest earned on advances of grant funds.

(a) Except when exempted by Federal statute (see paragraph (b) of this section for the principal exemption), recipients shall remit to the Federal government any interest or other investment income earned on advances of USDA grant funds. This includes any interest or investment income earned by subrecipients and cost-type contractors on advances to them that result from advances of USDA grant funds to the recipient. Unless the recipient receives other instructions from the responsible USDA awarding agency, the recipient shall remit the amount due by check or money order payable to the awarding agency. This requirement may not be administratively waived.

(b) In accordance with the Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4213), States, as defined in the Act, shall not be accountable to the Federal government for interest or investment income earned by the State itself, or by its subrecipients, where this income is attributable to grants-in-aid, as defined in the Act.1

1"State" is defined in the Act to include any agency or instrumentality of a State.

§ 3015.45 Other program income.

(a) This section applies to program income not treated elsewhere in this part which subsequently results from an activity supported by a grant or subgrant but which does not accrue until after the period of grant or subgrant support. An example is proceeds from the sale or rental of a residual inventory of merchandise created or purchased by a grant-supported workshop during the period of support.

(b) The provisions of the grant award govern the disposition of income subject to this section. If the provisions of the grant award do not treat this kind of income, there are no USDA requirements governing its disposition. A recipient may impose requirements of its own on the disposition of this kind of income which is earned by its subrecipients provided those requirements are in addition to and not inconsistent with any requirements imposed by the provisions of the grant award.

§ 3015.44 Royalties or equivalent income earned from patents or from inventions.

Disposition of royalties or equivalent income earned on patents or inventions arising out of activities assisted by a grant or subgrant shall be governed by the provisions of the grant or subgrant agreement. If the agreement does not provide for the disposition of the royalties or equivalent income, the disposition shall be in accordance with the recipient’s own policies.

§ 3015.43 Royalties and other income earned from a copyrighted work.

(a) This section applies to royalties, license fees, and other income earned by a recipient from a copyrighted work developed under the grant or subgrant. Income of that kind is covered by this section whether a third party or the recipient acts as the publisher, seller, exhibitor, or performer of the copyrighted work. In some cases the recipient incurs costs to earn the income but does not charge these costs to USDA grant funds, to required cost-sharing or matching funds, or to other program income. Costs of that kind may be deducted from the gross income in order to determine how much must be treated as program income.

(b) The provisions of the grant award govern the disposition of income subject to this section. If the provisions of the grant award do not treat this kind of income, there are no USDA requirements governing its disposition. A recipient may impose requirements of its own on the disposition of this kind of income which is earned by its subrecipients provided those requirements are in addition to and not inconsistent with any requirements imposed by the provisions of the grant award.

(a) Proceeds from the sale of real property purchased or constructed under a grant or subgrant.

(b) Proceeds from the sale of equipment and supplies created or purchased under a grant or subgrant and intended primarily for use in the grant or subgrant-supported project or program rather than for sale or rental.

§ 3015.42 Reconciliation of financial data.

(a) This section applies to reconcile financial data when the recipient is required to submit financial reports.

(b) The provisions of the grant award govern the reconciliation of financial data. If the provisions of the grant award do not treat this kind of income, there are no USDA requirements governing its reconciliation.

§ 3015.41 Receipts deposited or remitted.

(a) This section applies to receipts deposited or remitted by a recipient.

(b) The provisions of the grant award govern the receipting of receipts. If the provisions of the grant award do not treat this kind of income, there are no USDA requirements governing its receipting.

§ 3015.40 Program income.

(a) This section applies to program income.

(b) The provisions of the grant award govern the disposition of income subject to this section. If the provisions of the grant award do not treat this kind of income, there are no USDA requirements governing its disposition.

§ 3015.39 Other income.

(a) This section applies to other income.

(b) The provisions of the grant award govern the disposition of income subject to this section. If the provisions of the grant award do not treat this kind of income, there are no USDA requirements governing its disposition.

§ 3015.38 Other program income.

(a) This section applies to other program income.

(b) The provisions of the grant award govern the disposition of income subject to this section. If the provisions of the grant award do not treat this kind of income, there are no USDA requirements governing its disposition.

§ 3015.37 Royalties and other income.

(a) Royalties earned from a copyrighted work.

(b) Royalties or equivalent income earned on patents or from inventions.
§ 3015.50

(c) Recipients are cautioned that they are subject to the provisions of Subpart L for minimizing the time between the transfer of advances and their disbursement. Those provisions apply even if there is no accountability to the Federal government for interest or other investment income earned on the advances.

Subpart G—Cost-Sharing or Matching

§ 3015.50 Scope.

This subpart contains rules reflecting Federal requirements for cost-sharing or matching. These rules apply whether cost-sharing or matching is required by Federal statute, awarding agency regulations, or by other provisions established by the specific grant agreement.

§ 3015.51 Acceptable contributions and costs.

A cost-sharing or a matching requirement may be satisfied after qualifications and exceptions are met in §3015.52 and by satisfying either or both of the following:

(a) Allowable costs incurred by the recipient or by any subrecipient under the grant or subgrant. This includes allowable costs supported by non-Federal grants or by cash donations from non-Federal third parties. Allowable costs shall be determined in accordance with the cost principles set forth in Subpart T.

(b) The value of third party in-kind contributions applicable to the same period when a cost-sharing or matching requirement applies.

§ 3015.52 Qualifications and exceptions.

(a) Costs supported by other Federal grants. (1) A cost-sharing or a matching requirement shall not be met by costs supported by another Federal grant, except as provided by Federal statute. This exception, however, does not apply to costs supported by general program income earned from a contract awarded under another Federal grant.

(2) For the purpose of this part, funds provided under General or Counter-cyclical Revenue Sharing Programs (31 U.S.C. 1221 et seq. and 42 U.S.C. 6721 et seq.) are not considered Federal grants. Therefore, allowable costs supported by these funds may be used to satisfy a cost-sharing or a matching requirement.

(b) Costs or contributions applied towards other Federal cost-sharing requirements. Recipient costs or the value of third party in-kind contributions shall not count towards satisfying a cost-sharing or matching requirement of a USDA grant if they are or will be counted towards satisfying a cost-sharing or matching requirement of another Federal grant, a Federal procurement contract, or any other award of Federal funds.

(c) Costs financed by general program income. Costs financed by general program income as defined in Appendix A shall not count towards satisfying a cost-sharing or matching requirement of a USDA grant supporting the activity unless the provisions of the grant award expressly permit the income to be used for cost-sharing or matching purposes. (This is the alternative for use of general program income described in §3015.41).

(d) Services or property financed by income earned by contractors. Contractors under a grant or subgrant may earn income from the activities carried out under the contract in addition to the amounts earned from the party awarding the contract. No costs of services or property supported by this income may count toward satisfying a cost-sharing or matching requirement unless other provisions of the grant award expressly permit this kind of income to be used to meet the requirement.

(e) Records. In order to count cost and third party in-kind contributions towards satisfying a cost-sharing or a matching requirement, there must be verification and accurate documentation from the records of recipients or cost-type contractors. These records
Office of Chief Financial Officer, USDA

§ 3015.55 Valuation of donated equipment, buildings, and land.

When a third party donates equipment, buildings or land, and the title is given to the recipient, the treatment of this donated property shall depend upon the purpose of the grant or subgrant as follows:

(a) Awards for capital expenditures. If the purpose of the grant or subgrant is to assist the recipient in acquiring property, such as equipment, buildings, and land, then the market value of that property at the time of donation may be counted as cost-sharing or matching.

(b) Other awards. If the nature of the grant or subgrant is not for the purpose of acquiring property, the following rules shall apply:

(1) If approval is obtained from the awarding agency, the market value at the time of donation of the equipment or buildings and the fair rental rate of the donated land may be counted as cost-sharing or matching. In the case of a subgrant, the provisions of the USDA grant should require that the approval be obtained from the awarding agency as well as the recipient. In all cases, the approval may be given only if a purchase of the equipment or rental of the land would be approved as an allowable direct cost.

(2) If approval is not obtained under paragraph (b)(1) of this section, no amount shall be counted for donated land. Instead, only depreciation or use allowances may be counted for donated equipment and buildings and treated as costs incurred by the recipient. They are computed and allocated (usually as
§ 3015.56 Appraisal of real property.

In some cases, it will be necessary to establish the market value of land or a building or the fair rental rate of land or of space in a building. In these cases, the awarding agency must require that the market value or fair rental rate be set by an independent appraiser (or by a representative of the U.S. General Services Administration, if available) and that the value or rate be certified by a responsible official of the party to which the property or its use is donated. This requirement must also be imposed by the recipient on subgrants.

Subpart H—Standards for Financial Management Systems

§ 3015.60 Scope.

This subpart contains standards for financial management systems of recipients. No additional financial management standards or requirements shall be imposed by awarding agencies. Awarding agencies will, however, provide recipients with suggestions and assistance on establishing or improving financial management systems when such assistance is needed or requested.

§ 3015.61 Financial management standards.

The following standards shall be met by recipients and subrecipients in managing their financial management system.

(a) Financial reporting. Complete, accurate, and current disclosure of the financial results of each USDA sponsored project or program shall be made in accordance with the financial reporting requirements set forth in the grant or subgrant. When a USDA awarding agency requires reporting on an accrual basis, the recipient shall not be required to establish an accrual accounting system, but shall develop such accrual data for its reports on the basis of an analysis of the documentation on hand.

(b) Accounting records. The source and application of funds shall be readily identified by the continuous maintenance of updated records. Records, as such, shall contain information pertaining to grant or subgrant awards, authorizations, obligations, unobligated balances, assets, outlays, and income. When the recipient is a governmental entity, the records shall also contain liabilities.

(c) Internal control. Effective control over and accountability for all USDA grant or subgrant funds, real and personal property assets shall be maintained. Recipients shall adequately safeguard all such property and shall ensure that it is used solely for authorized purposes. In cases where projects are not 100 percent Federally funded, recipients must have effective internal controls to assure that expenditures financed with Federal funds are properly chargeable to the grant supported project.

(d) Budgetary control. The actual and budgeted amounts for each grant or subgrant shall be compared. If appropriate, or required by the awarding agency, financial information shall be related to performance and unit cost data. When unit cost data is required, estimates based on available documentation may be accepted whenever possible.

(e) Advance payments. There shall be specific procedures established to minimize the time elapsing between the advance of Federal grant or subgrant funds and their subsequent disbursement by the recipient. When advances are made by a letter of credit method, the recipients shall make drawdowns as close as possible to the time of making the disbursements. This same procedure shall be followed by recipients who advance cash to subrecipients to ensure that timely fiscal transactions and reporting requirements are conducted.

(f) Allowable costs. Established procedures shall be used for determining the reasonableness, allowability, and allocability of costs in accordance with
the cost principles prescribed by Subpart T of this part and the provisions of the grant award.

(g) Source documentation. Accounting records shall be supported by source documentation. These documentations include, but are not limited to, cancelled checks, paid bills, payrolls, contract and subgrant award documents.

(h) Audit resolution. A systematic method shall be employed by each recipient to assure timely and appropriate resolution of audit findings and recommendations.

Subpart J—Financial Reporting Requirements

§ 3015.80 Scope and applicability.

(a) This subpart prescribes requirements and forms for recipients to report financial information to USDA and to request grant payments when a letter of credit is not used.

(b) This subpart need not be applied by recipients in dealing with their subrecipients. Recipients are encouraged not to impose on subrecipients more burdensome requirements than USDA imposes on them.

§ 3015.81 General.

(a) Except as provided in paragraphs (d) and (e) of this section, recipients shall use only the forms specified in §§ 3015.82 through 3015.85, and such other forms as may be authorized by OMB for:

(1) Submitting grant financial reports to awarding agencies, or

(2) Requesting grant payments when letters of credit or automatic prescheduled Treasury check advances are not used.

(b) Recipients shall follow all applicable standard instructions issued by OMB for use in connection with the forms specified in §§ 3015.82 through 3015.85. Awarding agencies may not issue substantive supplementary instructions that are inconsistent with this subpart or impose additional requirements on recipients without the approval of O&F and OMB. However, awarding agencies may shade out or instruct the recipient to disregard any line item that the awarding agency finds unnecessary for its decision-making purposes.

(c) Recipients shall not be required to submit more than one original and two copies of the forms required under this subpart.

(d) Awarding agencies may provide computer outputs to recipients to expedite or contribute to the accuracy of reporting. Awarding agencies may accept the required information from recipients in machine readable form or computer printouts instead of prescribed formats.

(e) When an awarding agency determines that a recipient's accounting system does not meet the standards for financial management systems contained in Subpart H of this part, it may require more frequent financial reports or more detail (or both) upon written notice to the recipient (without regard to § 3015.4) until such time as the standards are met.

(f) Awarding agencies may waive any report required by this subpart, if not needed.

(g) Awarding agencies may extend the due date for any financial report upon receiving a justified request from the recipient. The recipient should not wait until the due date if an extension is to be requested, but should submit the request as soon as the need becomes known. Failure by a recipient to submit a report by its due date may result in severe enforcement actions by USDA. These may include withholding of further grant payments, suspension or termination of the grant, etc. Therefore recipients are urged to submit reports on time.

§ 3015.82 Financial status report.

(a) Form. Recipients shall use Standard Form 269, Financial Status Report, to report the status of funds for all nonconstruction projects or programs.

(b) Accounting basis. Unless specified in the provisions of the grant or subgrant each recipient shall report program outlays and program income on the same accounting basis, i.e., cash or accrual, which it uses in its accounting system.
§ 3015.83 Federal cash transactions report.

(a) Form. (1) For grants or cooperative agreements paid by letters of credit (or Treasury check advances) through any USDA payment office, the recipient shall submit to USDA a Standard Form 272, Federal Cash Transactions Report, and, when necessary, its continuation sheet, SF-272a. Recipients under the Regional Disbursing Office (RDO) system shall not be required to submit a SF-272. For these recipients, awarding agencies shall use information contained in the Request for Payment to monitor recipient cash balances and to get disbursement information.

(2) The SF-272 will be used by USDA to monitor cash advanced to recipients and to obtain disbursement or outlay information from recipients for each grant or cooperative agreement. The format of the report may be adapted, as appropriate, when reporting is to be accomplished with the assistance of automatic data processing equipment, provided that the identical information is submitted.

(b) Forecasts of Federal cash requirements. Awarding agencies may require that forecasts of Federal cash requirements be provided in the “Remarks” section of the report.

(c) Cash in hands of subrecipients or contractors. When considered necessary and feasible by the responsible USDA awarding agency, recipients may be required to:

(1) Show in the “Remarks” section of the report the amount of cash advances exceeding three days needs in the hands of their subrecipients or contractors, and

(2) Provide short narrative explanations or actions taken by the recipient to reduce such excess balances.

(d) Frequency and due date. Recipients shall submit the report no later than 15 working days following the end of each quarter. However, the USDA payment office may require recipients receiving advances of one million dollars or more per year to submit a report within 15 working days following the end of each month. Awarding agencies may waive the requirement for submission of the SF-272 when monthly advances do not exceed $10,000 per recipient, provided that such advances are monitored through other forms contained in this subpart, or if, in the awarding agency's opinion, the recipient's accounting controls are adequate to minimize excessive Federal advances.

§ 3015.84 Request for advance or reimbursement.

(a) Advance payments. Recipients of nonconstruction grants or cooperative agreements shall request Treasury check advance payments on Standard Form 270, Request for Advance or Reimbursement. This form is not used for
Office of Chief Financial Officer, USDA

§ 3015.92

Subpart K—Monitoring and Reporting Program Performance

§ 3015.90 Scope.

This subpart establishes procedures for monitoring and reporting program performance of recipients. These procedures place responsibility on recipients to manage the day-to-day operations of their grant and subgrant supported activities.

§ 3015.91 Monitoring by recipients.

Recipients shall monitor the performance of grant and subgrant-supported activities to assure that performance goals are being achieved. Recipient monitoring shall cover each program, function, or activity.

§ 3015.92 Performance reports.

(a) Nonconstruction. The awarding agency shall, if it decides that performance information available from subsequent applications contains sufficient information to meet its programmatic needs, require the recipient to submit a performance report only upon expiration or termination of grant support. Unless waived by the awarding agency this report will be due on the same date as the final Financial Status Report (as provided in §3015.82 (d) and (e)).

(1) Recipients shall submit annual performance reports unless the awarding agency requires quarterly or semi-annual reports or unless covered under paragraph (a) of this section. Annual reports shall be due 90 days after the grant year; quarterly or semi-annual reports shall be due 30 days after the reporting period. The final performance report shall be due 90 days after the expiration or termination of grant support. If a justified request is submitted by a recipient, the awarding agency may extend the due date for any performance report. Additionally, requirements for unnecessary performance reports may be waived by the awarding agency.

(2) Performance reports shall contain, for each grant, brief information on the following:

(i) A comparison of actual accomplishments to the goals established for the period. Where the output of the project can be readily expressed in numbers, a computation of the cost per

§ 3015.85 Outlay report and request for reimbursement for construction programs.

(a) Construction grants paid by reimbursement method. (1) Requests for reimbursement under construction grants shall be submitted on Standard Form 271, Outlay Report and Request for Reimbursement for Construction Programs. Awarding agencies may, however, prescribe the Request for Advance or Reimbursement form specified in §3015.84 instead of this form.

(2) The frequency for submitting reimbursement requests is treated in §3015.104.

(b) Construction grants paid by letter of credit or Treasury check advance.

(1) When a construction grant or a cooperative agreement is paid by letter of credit or Treasury check advances, the recipient shall report its outlays to the awarding agency using Standard Form 271, Outlay Report and Request for Reimbursement for Construction Programs. The awarding agency will provide any necessary special instructions. However, frequency and due date shall be governed by §3015.82 (c) and (d).

(2) When a construction grant or cooperative agreement is paid by Treasury check advances based on periodic requests from the recipient, the advances shall be requested on the form specified in §3015.84.

(3) The awarding agency may substitute the Financial Status Report specified in §3015.82 for the Outlay Report and Request for Reimbursement.

(c) Accounting basis. The accounting basis for the Outlay Report and Request for Reimbursement for Construction Programs shall be governed by §3015.82(b).
§ 3015.93 Significant developments.

Events may occur between the scheduled performance reporting dates which have significant impact upon the grant or subgrant supported activity. In such cases, the recipient shall inform the awarding agency as soon as the following types of conditions become known:

(a) Problems, delays, or adverse conditions which will materially impair the ability to meet the objective of the award. This disclosure shall include a statement of the action taken, or contemplated, and any assistance needed to resolve the situation.

(b) Favorable developments which enable meeting time schedules and goals sooner or at less cost than anticipated or producing more beneficial results than originally planned.

§ 3015.94 Site visits.

The awarding agency shall make site visits as frequently as practicable to:

(a) Review program accomplishments and manage control systems.

(b) Provide such technical assistance as may be required.

§ 3015.95 Waivers, extensions and enforcement actions.

(a) Reports from recipients. USDA may waive any performance report required by this subpart if not needed.

(b) Reports from subrecipients. The recipient may waive any performance report from a subrecipient when not needed. The recipient may extend the due date for any performance report from a subrecipient if the recipient will still be able to meet its performance reporting obligations to the USDA awarding agency.

Subpart L—Payment Requirements

§ 3015.100 Scope.

This subpart prescribes the basic standards and methods under which a USDA awarding agency will make grant payments to recipients, and recipients will make subgrant payments to their subrecipients.

§ 3015.101 General.

Methods and procedures for making payments to recipients shall minimize the time elapsing between the transfer of funds and the recipient’s disbursements.

§ 3015.102 Payment methods.

(a) Non-construction. (1) Letters of credit will be used to pay USDA recipients when all the following conditions exist:

(i) There is or will be a continuing relationship between the recipient and the USDA awarding agency for at least a 12 month period and the total amount of advances to be received from the awarding agency is $120,000 or more per year.

(ii) The recipient has established or demonstrated to the USDA awarding agency the willingness and ability to establish procedures that will minimize the time elapsing between the transfer of funds from the Treasury and their disbursement by the recipient.

(iii) The recipient’s financial management system meets the standards for fund control and accountability prescribed in Subpart H of this part.

(2) Advances by Treasury check will be used, in accordance with Treasury...
Circular No. 1075, when the recipient does not meet the requirements in paragraph (a)(1)(i) of this section but does meet the requirements in paragraphs (a)(1) (ii) and (iii) of this section.

(3) Reimbursement by Treasury check shall be the preferred method when the recipient does not meet the requirements specified in either paragraph (a)(1)(ii) or paragraph (a)(1)(iii) of this section. This method may also be used when USDA financial assistance makes up only a minor portion of the program and where the major portion of the program is accomplished through private financing or Federal loans.

(b) Construction. (1) Reimbursement by Treasury check shall be the preferred method when the recipient does not meet the requirements specified in §3015.102(a)(1)(ii) or (iii), and may be used for any USDA construction grant unless USDA has entered into an agreement with the recipient to use a letter of credit for all USDA grants, including construction grants.

(2) When the reimbursement by Treasury check method is not used, §3015.102(a) (1) and (2) shall apply to the construction grants. Implementing procedures under §3015.102(a) (1) and (2) will be the same for construction grants as for nonconstruction grants awarded to the same recipient, insofar as possible.

(3) USDA awarding agencies will not use the percentage-of-completion method to pay its construction grants. The recipient may use that method to pay its construction contractor, but if it does, USDA payments to the recipient will nevertheless be based on the recipient's actual rate of disbursements.

§ 3015.104 Requesting advances or reimbursements.

(a) Advances. If advance payments are by Treasury check and are not prescheduled, the recipient shall submit its payment requests at least monthly. Less frequent requests are not permitted for they result in advances covering excessive periods of time. Recipient requests for advances shall not be made in excess of the Federal share of reasonable estimates of outlays for the month covered. These estimates shall be made on a cash basis, even if the recipient uses an accrual accounting system.

(b) Reimbursements. If payments are made through reimbursement or by Treasury check:

(1) Requests for reimbursements may be submitted monthly or more frequently if authorized to do so by the awarding agency. Ordinarily, payment will be made within 30 days after receipt of a proper request for reimbursement.

(2) The recipient shall not request reimbursement for the Federal share of amounts withheld from contractors to ensure satisfactory completion of work until after it makes those payments.

(c) Forms. The forms for requesting advances or reimbursements are identified in Subpart J of this part.

§ 3015.105 Payments to subrecipients.

Recipients shall observe the requirements of this subpart in making (or
§ 3015.110 Scope and applicability.
(a) Scope. This subpart deals with prior approval requirements for post-award programmatic changes and budget revisions by recipients.
(b) Exemption of mandatory or formula grants. Sections 3015.113 through 3015.115 do not apply to programmatic changes or budget revisions made by recipients under State plans or other grants which the awarding agency is required by law to award if the applicant meets all applicable requirements for entitlement.
(c) Exemption of certain subgrants. Sections 3015.113 through 3015.115 do not apply to subgrants from States to their local governments under a mandatory or formula grant, if the local government is not required to apply for the subgrant on a project basis. Generally, such exempt subgrants will occur under a State plan which provides for local administration of a State-wide program under State supervision.

§ 3015.111 Cost principles.
(a) The cost principles prescribed by subpart T of this part require prior approval of certain types of costs. Except when waived, those prior approval requirements apply to all grants and subgrants, whether or not §§ 3015.113 through 3015.115 apply.
(b) Procedures for prior approvals required by the cost principles are in § 3015.112. Procedures for prior approvals required by this subpart are in § 3015.112.
Office of Chief Financial Officer, USDA

§ 3015.115

(c) Changes in key people. This section applies to grants, subgrants, and cooperative agreements for research. This section does not apply to other types of grants, subgrants, or cooperative agreements unless other terms of the award make it apply. The recipient shall obtain prior approval:

(1) To continue the project during any continuous period of more than three months without the active direction of an approved project director or principal investigator;

(2) For its selection of a replacement for the project director of principal investigator;

(3) For its selection of a replacement for any other persons named and expressly designated as key project people in the grant, subgrant, or cooperative agreement award document; or

(4) To permit the project director or principal investigator (or anyone covered by paragraph (c)(3) of this section) to devote substantially less effort to the project than was anticipated when the award was made.

(d) Transferring work and providing financial assistance to others. Recipients shall obtain prior approval for transferring to another party the actual performance of the substantive programmatic work, and for providing any form of financial assistance to another party.

(e) Audiovisual activities. (1) Except to the extent explicitly included in the project plan approved at the time of award, using grant support for any of the following requires prior approval:

(i) Producing an audiovisual.

(ii) Buying ownership of any of the rights in the work embodied in the audiovisual. (This does not apply to merely buying a license in any of the rights. For the remainder of this section, buying ownership of the rights is referred to simply as buying or purchasing an audiovisual).

(iii) Presenting or distributing to the general public an audiovisual that was produced or bought with grant support.

(2) Prior approval is not required for:

(i) Any audiovisual activity under a subgrant.

(ii) Any audiovisual whose direct production or purchase cost to the recipient is $5,000 or less.

(iii) The production or purchase of an audiovisual as a research instrument or for documenting experimentation or findings, if the audiovisual is not intended for presentation or distribution to the general public.

(3) Following are examples of presentation or distribution of an audiovisual to the general public.

(i) Broadcast on commercial, cable, or educational television, or radio.

(ii) Showing in commercial motion picture theaters.

(iii) Showing in public places such as airports, waiting rooms, bus or railroad depots, and vacation resorts.

(iv) Showing to civic associations, schools (except when used as a teaching tool in a classroom setting), clubs, fraternal organizations, or similar lay groups.

§ 3015.114 Budgets—general.

(a) Research and non-research project budgets. For research and non-research projects which involve cost-sharing or matching, approved budgets shall ordinarily consist of a single set of figures covering total project cost (the sum of the awarding agency's share and the recipient's share). However, the awarding agency may specify that the recipient's share not be included in the approved budget. In no case, however, shall the approved budget be in the form of a separate set of figures for each share.

(b) Subdivision by programmatic segments. Some grants, subgrants, and cooperative agreements contain two or more programmatic segments (such as discrete programs, projects, functions, or types of activities). In these cases, the awarding agency may require that the approved budget be subdivided to show the anticipated cost of each programmatic segment.

§ 3015.115 Budget revisions.

(a) Nonconstruction projects. (1) Except as provided in paragraph (a)(2) of this section, the recipient of a grant, subgrant, or cooperative agreement having an approved budget shall obtain prior approval for any budget revision which will:

(i) Involve transfer of amounts budgeted for indirect costs to absorb increases in direct costs, or
§ 3015.116

(ii) Involve transfer of amounts previously budgeted for training allowances (direct payments to trainees), or
(iii) Result in a need for the award of additional funds, e.g., an increase in the base upon which indirect costs are calculated which will increase allocable indirect costs and result in a claim for a supplementary award.
(2) Any or all of the prior approval requirements in paragraph (a) of this section may be waived by the awarding agency.
(3) Except as provided in § 3015.116 other budget changes under non-construction grants do not require approval.

§ 3015.116 Construction and non-construction work under the same grant, subgrant, or cooperative agreement.

When a grant, subgrant, or cooperative agreement provides support for both construction and nonconstruction work, the awarding agency may require prior approval for any fund or budget transfers between the two types of work.

Subpart N—Grant and Subgrant Closeout, Suspension and Termination

§ 3015.120 Closeout.

(a) Each grant or subgrant shall be closed out as soon as possible after expiration or notice of termination.
(b) The following shall apply when closing out USDA grants:
(1) Upon request from the recipient, any allowable reimbursable cost not covered by previous payments shall be promptly paid by USDA.
(2) Any unobligated balance of cash advanced to the recipient shall be immediately refunded to the awarding agency or managed in accordance with USDA instructions.
(3) Within a maximum period of 90 days following the date of expiration or termination of a grant, all financial performance and related reports required by the terms of the agreement shall be submitted to the awarding agency by the recipient. USDA reserves the option of extending the due date for any report and may waive any report that it considers to be unnecessary.
(4) The provisions formally expressed and agreed to within the grant arrangement shall dictate the settlement of any upward or downward adjustments of the Federal share of costs.

(c)(1) A grant closeout shall not affect the retention period for, or Federal rights of access to, grant records. (See Subpart D of this part).
(2) The closeout of a grant does not affect the recipient’s responsibilities regarding property under Subpart R of this part or with respect to any program income the recipient is still accountable for under Subpart F of this part.

§ 3015.121 Amounts payable to the Federal government.

The following outstanding sums for each grant shall be considered as a debt or debts owed by the recipient to the Federal government. They shall, if not
Office of Chief Financial Officer, USDA

§ 3015.122 Violation of terms.

(a) Whenever it is determined that the recipient has materially failed to comply with the provisions of the grant award, the awarding agency may suspend or terminate, in accordance with §§3015.123 and 3015.124, any grant in whole, or in part, at any time before the date of completion, or take such other remedies as may be legally available and appropriate.

(b) A grant may be suspended or terminated in the current period for failure to submit a report still due from a prior period. This action is applicable when a project or program is supported over two or more funding periods.

§ 3015.123 Suspension.

(a) When a recipient has materially failed to comply with the provisions prescribed in the grant agreement, the awarding agency may, after reasonable notice to the recipient, suspend the grant in whole or in part. A suspension notice shall be issued by the awarding agency stating the reasons for the suspension, any corrective action required of the recipient, and the effective date. Suspension may go into effect immediately if the awarding agency deems it necessary to protect its interest and if a delayed effective date would be unreasonable considering the awarding agency's responsibilities to protect the Federal government's interest. Suspension shall remain in effect until the recipient has taken corrective action satisfactory to the awarding agency, or given evidence that such corrective action will be taken, or until the awarding agency terminates the grant.

(b) Unless specifically authorized by the awarding agency in the notice of suspension or subsequently expressed in an amendment to it, new obligations incurred by the recipient during the suspension period shall not be allowed. Necessary and otherwise allowable costs which the recipient could not reasonably avoid during the suspension period will be allowed, if they result from obligations properly incurred by the recipient before the effective date of the suspension and not in anticipation of suspension or termination. If the awarding agency approves, third party in-kind contributions applicable to the suspension period may be allowed in satisfaction of cost-sharing or matching requirements.

(c) During the suspension period, appropriate adjustments to payments under the suspended grant will be made by not giving credit to the recipient for disbursements made in payment of unauthorized obligations incurred during the suspension period or by withholding subsequent payments.

§ 3015.124 Termination.

(a) Termination for cause. The awarding agency may terminate any grant or other agreement in whole, or in part, at any time before the date of expiration, whenever it is determined that the recipient has materially failed to comply with the conditions of the agreement. The awarding agency shall promptly notify the recipient in writing of the determination and reasons for the termination, together with the effective date.

(b) Termination by mutual agreement. Except as provided in paragraph (a) of this section, grants may be terminated in whole, or in part, only as follows:

(1) When the awarding agency and the recipient agree upon the termination conditions, including the effective date.
§ 3015.125 Applicability to subgrants.

Recipient subgrants shall be subjected to the same standards regarding closeout, suspension, and termination of subgrants as prescribed in this subpart for awarding agencies.

Subparts O–P [Reserved]

Subpart Q—Application for Federal Assistance

§ 3015.150 Scope and applicability.

(a) This subpart prescribes forms and instructions to be used by governmental organizations (except hospitals, non-profit organizations, and institutions of higher education operated by a government) in applying to USDA for discretionary grants. This subpart is not applicable, however, to mandatory or formula grants or programs which do not require applicants to apply to USDA for funds on a project basis.

(b) This subpart permits awarding agencies to prescribe the form of applications by nongovernmental organizations (including hospitals, non-profit organizations, and institutions of higher education operated by a government), but prescribes the use of a standard facesheet for certain of these applications.

(c) This subpart applies only to applications for grants or cooperative agreements and is not required to be applied by recipients in dealing with applicants for subgrants. However, recipients are encouraged not to adopt more detailed or burdensome application requirements for subgrants.

(d) This subpart also prescribes standards for competition to be used by USDA agencies in awarding discretionary cooperative agreements and grants. This subpart is not applicable to cooperative agreements awarded pursuant to the provisions of sections 1472(b) and 1473C of the National Agricultural Research, Extension and Teaching Policy Act of 1977, as amended.

[46 FR 55639, Nov. 10, 1981, as amended at 51 FR 17172, May 9, 1986]

§ 3015.151 Authorized forms.

(a) Sections 3015.152 through 3015.156 specify the forms that governmental organizations shall use to apply to USDA for a discretionary grant.

(b) Governments need not submit more than the original and two copies of application forms. When less will suffice, the awarding agency shall notify potential applicants.

(c) When a government agency amends a previously submitted application or applies for additional funding (such as a continuation or supplemental award) only the facesheet and any other affected pages are required to be submitted. Previously submitted pages whose information is still current may be resubmitted, but are not required to be resubmitted.

§ 3015.152 Preapplication for Federal assistance.

(a) When a government submits a preapplication, it shall use the Preapplication for Federal Assistance form prescribed by Circular A–102. The purposes of these preapplications shall be to:

1. Establish communication between the potential applicant and the awarding agency;
2. Determine the potential applicant’s eligibility;
(3) Identify projects which have little or no chance for Federal funding before applicants incur significant costs for preparing an application.

(b) Preapplication is always required if the potential applicant is a government and the proposed project (1) is for construction, land acquisition, or land development, and (2) would require more than $100,000 of Federal funding. If these conditions are not present, potential applicants need not submit preapplications unless required to do so by the awarding agency. Any government may submit a preapplication even when not required.

§ 3015.153 Notice of preapplication review action.

Awarding agencies shall inform governmental applicants of the results of their review of preapplications by using the Notice of Preapplication Review Action form prescribed by Circular A-102. If the review cannot be completed within 45 days, the awarding agency shall inform the applicant, in writing, when it will complete the review.

§ 3015.154 Application for Federal assistance (nonconstruction programs).

Governments shall use the Application for Federal Assistance (Nonconstruction Programs) form prescribed by OMB Circular A-102 in applying for discretionary grants unless a form specified in § 3015.155 or § 3015.156 is to be used.

§ 3015.155 Application for Federal assistance (construction programs).

Governments shall use the Application for Federal Assistance (Construction Programs) form prescribed by Circular A-102 in applying for any grant whose purpose is solely or primarily construction, land acquisition, or land development.

§ 3015.156 Application for Federal assistance (short form).

Governments shall use the Application for Federal Assistance (Short Form) form prescribed by Circular A-102 in applying for any single-purpose, one-time grant of less than $10,000 not requiring Circular A-95 clearinghouse review, an environmental impact statement, or the relocation of persons, businesses, or farms. Awarding agencies may, at their discretion, authorize or require this form for applications for larger amounts.

§ 3015.157 Authorized form for nongovernmental organizations.

Nongovernmental organizations shall use application forms prescribed by the awarding agency. The facesheet of these applications shall be Standard Form 424.

§ 3015.158 Competition in the awarding of discretionary grants and cooperative agreements.

(a) Standards for competition. Except as provided in paragraph (d) of this section, awarding agencies shall enter into discretionary grants and cooperative agreements only after competition. An awarding agency's competitive award process shall adhere to the following standards:

(1) Potential applicants must be invited to submit proposals through publications such as the FEDERAL REGISTER, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means of solicitation. In so doing, awarding agencies should consider the broadest dissemination of project solicitations in order to reach the highest number of potential applicants.

(2) Proposals are to be evaluated objectively by independent reviewers in accordance with written criteria set forth by the awarding agency. Reviewers should make written comments, as appropriate, on each application. Independent reviewers may be from the private sector, another agency, or within the awarding agency, as long as they do not include anyone who has approval authority for the applications being reviewed or anyone who might appear to have a conflict of interest in the role of reviewer of applications. A conflict of interest might arise when the reviewer or the reviewer’s immediate family members have been associated with the applicant or applicant organization within the past two years as an owner, partner, officer, director,
§ 3015.160

7 CFR Ch. XXX (1-1-98 Edition)

(a) Except as explained in paragraphs (c), (d), and (e) of this section, this subpart applies to real property, equipment (including ADP) and supplies whose acquisition is supported by a grant.

(b) Also contained in this subpart are standards covering inventions, patents, and copyrights arising out of activities supported by a grant.

(c) This subpart does not apply to:

(1) Property for which only depreciation or use allowances are charged;

(2) Property donated entirely as a third party in-kind contribution; or

(3) Equipment or supplies acquired primarily for sale or rental, rather than for use.

(d) This subpart applies to equipment or supplies acquired by a contractor under a grant or subgrant only if, by terms of the contract, title vests in the recipient or subrecipient.
(e) For research grants that are subject to an institutional cost-sharing agreement, real property, equipment, and supplies shall be subject to this subpart only if at least some part of the acquisition cost is supported as a direct cost by Federal grant funds.

§ 3015.161 Additional requirements.
Provided they observe the requirements of this subpart, recipients may follow their own property management policies and procedures. Unless specifically required by Federal statutes or Executive Orders, awarding agencies may not impose on recipients property requirements (including property reporting requirements) not authorized by this subpart.

§ 3015.162 Title to real property, equipment and supplies.
Subject to the obligations and conditions specified in this subpart, title to real property, equipment, and supplies acquired under a grant or subgrant shall vest, upon acquisition, in the recipient or subrecipient, respectively. In certain cases, money due the Federal government upon disposition of real property may be authorized to be used for allowable costs rather than paid to USDA. (See § 3015.173.)

§ 3015.163 Real property.
Except as stated otherwise by Federal statutes, real property applicable to this subpart shall be subject to the following requirements, in addition to any other requirements imposed by the provisions of the grant award:
(a) Use. The property shall be used for the originally authorized purpose as long as needed for that purpose. When no longer so needed, the awarding agency may approve the use of the property for other purposes. These uses shall be limited to:
(1) Projects or programs supported by other Federal grants or assistance agreements.
(2) Activities not supported by other Federal grants or assistance agreements but having purposes consistent with those of the legislation under which the original grant was made.
(b) Transfer of title. In accordance with paragraph (a) of this section, approval may be requested from the awarding agency to transfer title to an eligible third party for continued use for authorized purposes. If approval is permissible under Federal statutes, and is given, the terms of the transfer shall provide that the transferee shall assume all the rights and obligations of the transferor set forth in this subpart or in other terms of the grant or subgrant.
(c) Disposition. When the real property is no longer to be used as provided in paragraphs (a) and (b) of this section, the disposition instructions of the awarding agency shall be followed. Those instructions will provide for one of the following alternatives:
(1) The property shall be sold and the Federal government shall have a right to an amount computed by multiplying the Federal share of the property times the proceeds from sale (after deducting actual and reasonable selling and fix-up expenses, if any, from the sales proceeds). Proper sales procedures shall be followed which provide for competition to the extent practicable and result in the highest possible return.
(2) The recipient shall have the option either of selling the property in accordance with paragraph (c)(1) of this section or of retaining title. If title is retained, the Federal government shall have a right to an amount computed by multiplying the market value of the property by the Federal share of the property.
(3) The recipient shall transfer the title to either the Federal government or an eligible non-Federal party named by the awarding agency. The recipient shall be entitled to be paid an amount computed by multiplying the market value of the property by the non-Federal share of the property. In cases where the property belonged to a subrecipient, see § 3015.172 for the subrecipient’s share.

§ 3015.164 Statutory exemptions for equipment and supplies.
(a) In certain circumstances some Federal statutes permit title to equipment or supplies acquired with grant funds to vest in the recipient without further obligation to the Federal government or on such terms and conditions as deemed appropriate. The Federal Grant
and Cooperative Agreement Act of 1977, Pub. L. 95-224, is an example of such a statute. It provides this authority for equipment and supplies purchased with the funds of grants (and Federal contracts and cooperative agreements) for the conduct of basic or applied scientific research at non-profit institutions of higher education or at non-profit organizations whose primary purpose is the conduct of scientific research.

(b) If equipment is subject to a statute of the kind described in paragraph (a) of this section, it shall be exempt from the requirements in the remaining sections of this subpart. However, when an equipment item has a unit acquisition cost of $1,000 or more, it shall be subject to § 3015.165 concerning rights to require transfer, and, while subject to such a right, to the rules on replacement in § 3015.167.

(c) If supplies are subject to a statute of the kind described in paragraph (a) of this section, they shall be exempt from all provisions of the remainder of this subpart which would otherwise apply.

§ 3015.165 Rights to require transfer of equipment.

(a) USDA right. The awarding agency shall have the right to require the transfer of equipment (including title) for items of equipment having a unit cost of $1,000 or more to the Federal government or to an eligible non-Federal party named by the awarding agency. Normally, USDA agencies will only exercise this right if the project or program for which the equipment was acquired is transferred from one recipient to another. The following conditions shall govern this right:

(1) The property shall be appropriately identified in the grant award.

(2) In order for the awarding agency to exercise the right, disposition instructions must be issued no later than 120 days after the end of USDA grant support for the project or program for which the equipment was acquired. Furthermore:

(i) If the equipment is eligible for the exemptions in § 3015.164 and ceases to be needed for the project or program for which it was acquired while the project or program is still being performed by the recipient, the disposition instructions must have been received by the recipient while the equipment was still needed for that project or program.

(ii) If the equipment is not eligible for those exemptions, disposition instructions must have been received by the recipient before other permissible disposition of the equipment took place in accordance with § 3015.168.

(3) If the right is exercised, the recipient shall be entitled to be paid any reasonable, resulting shipping or storage costs incurred, plus an amount computed by multiplying the market value of the equipment by the non-Federal share of the equipment.

(b) Right of parties awarding subgrants. A recipient may reserve for itself, when awarding a subgrant, rights similar to those found in paragraph (a) of this section which covers items of equipment having a unit acquisition cost of $1,000 or more which are acquired under that subgrant. Without the approval of the awarding agency, the right may be exercised only if the project or program for which the equipment was acquired is transferred to another subrecipient and only for the purpose of transferring the equipment to the new subrecipient for continued use in the project or program.

(c) Equipment lists. If at any time an awarding agency is considering exercising its right to require transfer of equipment, it may require the recipient to furnish it with a list of all items of equipment that are subject to the right. As such, the awarding agency will decide which items, if any, should be transferred.

§ 3015.166 Use of equipment.

(a) Basic rule. Whenever the equipment is not transferred under the provisions set forth in § 3015.165, it shall be used by the recipient in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When the equipment is no longer needed for the original project or program the recipient shall use the equipment, if needed, in other projects or programs currently or previously funded by the Federal
office of Chief Financial Officer, USDA § 3015.168

§ 3015.168 Disposal of equipment.

When original or replacement equipment is no longer to be used in projects or programs currently or previously sponsored by the Federal government, disposal of the equipment shall be made as follows:

(a) Equipment with a unit acquisition cost of less than $1,000 may be sold, retained or otherwise disposed of with no further obligation to the Federal government.

(b) All other equipment may be retained or sold. The Federal government shall have a right to an amount calculated by multiplying the current market value or proceeds from sale by the Federal share of the equipment (see §3015.172). If part of the Federal share of the equipment came from an award under which the exemptions in §3015.164 were applicable, the amount due shall be reduced pro rata. In any case, if the equipment is sold, $100 or 10 percent of the total sales proceeds, whichever is greater, may be deducted and retained from the amount otherwise due for selling and handling expenses. If the recipient’s project or program for which or under which the equipment was acquired is still receiving grant support from the same Federal program and if the awarding agency approves, the net amount due may be used for allowable costs of that
§ 3015.169 Equipment management requirements.

Recipient procedures for managing equipment shall, as a minimum, meet the following requirements (including replacement equipment) until such actions as transfer, replacement or disposal takes place:

(a) Property records shall be maintained accurately. (Subpart D of this part contains retention and access requirements for these records.) The records shall include for each item of equipment the following:

(1) A description of the equipment including manufacturer’s serial numbers.
(2) An identification number, such as the manufacturer’s serial number.
(3) Identification of the grant under which the recipient acquired the equipment.
(4) The information needed to calculate the Federal share of the equipment (see § 3015.172).
(5) Acquisition date and unit acquisition cost.
(6) Location, use and condition of the equipment and the date the information was reported.
(7) All pertinent information on the ultimate transfer, replacement, or disposal of the equipment.

(b) Every two years, at a minimum, a physical inventory shall be conducted and the results reconciled with the property records to verify the existence, current utilization, and continued need for the equipment. Any discrepancies between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the differences.

(c) In order to insure adequate safeguards to prevent loss, damage or theft of equipment, a control system shall be used. Any damage, damage or theft of equipment shall be investigated and fully documented. The awarding agency may require a report of the circumstances involving the loss, damage, or theft of equipment.

(d) In order to keep the equipment in good condition, adequate maintenance procedures shall be implemented.

§ 3015.170 Damage, loss, or theft of equipment.

(a) Applicability. This section applies to equipment with a unit acquisition cost of $1,000 or more that, before disposal (see § 3015.168), is damaged beyond repair, lost, or stolen.

(b) Recipient at fault—(1) Applicability. This paragraph applies if:

(i) At the time of the damage, loss, or theft, the recipient does not have a control system in effect as required by § 3015.169, and
(ii) The damage, loss, or theft is not due to an act of God.

(2) Equipment replaced. If the equipment is replaced, the replacement is governed by § 3015.167. When that happens, the market value of the original equipment at the time it was damaged, lost, or stolen is used instead of the amount received for trade-in or sale.

(3) Equipment not replaced. If the equipment is not replaced, the Federal government has a right to an amount calculated by multiplying the Federal share in the equipment by its market value at the time of damage, loss, or theft. The amount is reduced pro rata if part of the Federal share of the equipment comes from an award under which the exemption in § 3015.164 applied.

(c) Recipient not at fault—(1) Applicability. This paragraph applies if:

(i) At the time of the damage, loss, or theft, the recipient does have a control system in effect as required by § 3015.169 or
(ii) The damage, loss, or theft is due to an act of God.

(2) Recipient not compensated. If the recipient is not compensated for the
Office of Chief Financial Officer, USDA

§ 3015.172 Federal share of real property, equipment, and supplies.

This subpart contains principles necessary to determine the Federal (or non-Federal) share of real property, equipment, or supplies.

(a) General. (1) Except as explained in the following paragraphs of this section, the Federal share of the property shall be the same percentage as the Federal share of the acquiring party’s total cost under the grant during the grant or subgrant year (or other funding period) to which the acquisition cost of the property was charged. For this purpose, “costs under the grant” means allowable costs which are either supported by the grant or counted toward satisfying a cost-sharing or matching requirement of the grant.

(2) If the property is acquired by a subrecipient, the Federal share of the subrecipient’s costs under the grant and hence of the property shall be calculated by multiplying the Federal share of the recipient’s costs by the latter’s share of the subrecipient’s costs. (For example, if the Federal share of the recipient’s costs is 50 percent and the subgrant bears only 50 percent of a subrecipient’s costs, then the Federal share of that subrecipient’s costs (and of the property acquired by that subrecipient) is 25 percent.)

(3) The provisions of some grant awards set different maximum percentages of Federal financial participation for different categories of costs. In these cases, for the purposes of this section, the costs in each category are considered as costs under a separate grant. If two categories have the same maximum percentage of Federal participation and costs in one category are permitted to count toward satisfying a cost-sharing or matching requirement of the other, they are a single category for the purposes of this rule. Also, all categories with a 100 percent rate are considered a single category for the purposes of this rule.

(b) Property acquired only partly under a grant. (1) Sometimes only a part of the acquisition cost of an item of property is supported as a direct cost by the grant or counted as a direct cost toward a cost-sharing or matching requirement. Occasionally, the amount paid for the property is only a part of its value. The remainder is donated as an in-kind contribution by the party that provided the property.

(2) To determine the Federal share of such property, first calculate the Federal share of the acquiring party’s total costs under the grant as explained in paragraph (a) of this section. Next multiply that share by the percentage of the property’s acquisition cost (or its market value, if the item was partly donated) which was supported as a direct cost by the grant or
§ 3015.173 Using or returning the Federal share.

(a) This section applies when, under §3015.163, 3015.166 or 3015.170, the Federal government has a right to an amount of money upon disposal or loss, theft, or damage of property.

(b) If the recipient's project or program for which the property was acquired is still receiving grant support from the same Federal program, the awarding agency may authorize use of the net money due for allowable costs of that project or program.

(c) Otherwise, the net amount must be returned to the awarding agency by check or money order.

§ 3015.174 Subrecipient's share.

Where this subpart requires a sharing of the market value or sale proceeds of property acquired under a subgrant, the non-Federal share shall be proportionally divided between the recipient and the subrecipient. The subrecipient shall be entitled to the amount it would have received or retained if the award to it had been made directly by the Federal government. The remainder of the non-Federal share shall belong to the recipient.

§ 3015.175 Intangible personal property.

(a) Inventions and Patents. (1) If the recipient is a small business or non-profit organization (including universities and other institutions of higher education), the allocation of rights in inventions produced under a grant or cooperative agreement shall be determined in accordance with the provisions of sections 200 through 206 of Pub. L. 96-517 (35 U.S.C. 200-206) and OMB Circular A-124.

(2) For all other recipients, the allocation of rights in inventions shall be determined in accordance with the “Government Patent Policy” (President’s Memorandum for Heads of Executive Departments and Agencies, February 18, 1983) and OMB Circular A-124.

(b) Copyrights—(1) Applicability. This section applies to the copyright in any original work of authorship prepared with grant support. Additionally, if ownership of a copyright or of any of the exclusive rights comprising a copyright are purchased with grant support, this section applies to the purchased copyright or rights.

(2) Basic rules. (i) USDA reserves a royalty-free, nonexclusive, and irrevocable license to exercise, and to authorize others to exercise, the rights for Federal Government purposes. Subject to this license, the owner is free to exercise, preserve, or transfer all its rights. The recipient shall ensure that no agreement is entered into for transferring the rights which would conflict with the nonexclusive license of USDA.

(ii) One way that USDA may exercise its nonexclusive license is to authorize exercise of the rights in another project or activity that receives or has received grant support from the Federal Government.

(iii) A recipient awarding a subgrant is allowed to impose subgrant terms reserving a nonexclusive license for itself, similar to the one reserved by this section for USDA, with respect to any copyright or rights subject to this section that arise under the subgrant.

[48 FR 35875, Aug. 8, 1983]
Subpart S—Procurement
§ 3015.180 Scope and applicability.
(a) This subpart contains information for complying with Attachment 0, "Procurement Standards", of OMB Circulars A-102 and A-110. Circular A-102 covers grant and cooperative agreement programs with State and local governments and Indian Tribal governments. Circular A-110 covers grant and cooperative agreement programs with institutions of higher education, hospitals, and other nonprofit organizations. Copies of both Circulars may be obtained from O&F.
(b) This subpart applies to recipient procurements (by purchase, rental, or barter) of supplies, equipment, and services (including construction).
(c) This subpart applies only to procurements that are supported in whole or in part by a grant or cooperative agreement.
(d) This subpart does not apply to procurements of land, existing land improvements or structures, or any other existing real property.
(e) The Attachment 0 of Circulars A-102 and A-110 apply to procurements under subgrants as well as grants.

§ 3015.181 Standards of conduct.
(a) Recipients shall maintain a written code or standards of conduct governing the performance of their officers, employees or agents engaged in awarding and administering contracts supported by Federal funds:
(1) No employee, officer or agent shall participate in the selection, award, or administration of contracts using Federal funds where to his knowledge, such employee, officer or agent or his immediate family, partners or organizations has a financial interest in, is negotiating with, or has any arrangements concerning prospective employment with the proposed contractor.
(2) The recipient’s officers, employees or agents shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or proposed contractors.
(3) Provisions shall be made for disciplinary actions against the recipient’s officers, employees, or agents or by contractors or their agents violating the standards of conduct.
(b) Awarding agencies may review the written standards of conduct to determine if they meet the minimum standards of Attachment 0 of OMB Circulars A-110 and A-102. Recipients will be notified of deficiencies and make corrective action.

§ 3015.182 Open and free competition.
All procurement transactions, regardless of whether by sealed bids or by negotiation and without regard to dollar value shall be conducted in a manner that provides maximum open and free competition.

§ 3015.183 Access to contractor records.
The Attachment 0 requires recipients to include in specified kinds of contracts a provision for access to the contractor’s records by the recipient and the Federal government. The following applies to the provision:
(a) The provision must require the contractor to place the same provision in any subcontract which would have to have the provision were it awarded by the recipient.
(b) The provision must require retention of records for three years after final payment is made under the contract or subcontract and all pending matters are closed. The provision must also require that, if any audit, litigation, or other action involving the records is started before the end of the three year period, the records must be retained until all issues arising out of the action are resolved or until the end of the three year period, whichever is later.
(c) In contracts and subcontracts under a subgrant, the provision must require that access to the records be provided to the recipient as well as the subrecipient and the Federal government.

§ 3015.184 Equal employment opportunity.
(a) The Attachment 0 requires recipients to include in contracts in excess of $10,000 a provision requiring compliance with Executive Order 11246, concerning equal employment opportunity as amended by Executive Order 11375.
§ 3015.190 Scope.

This subpart makes the allowable costs incurred by the recipient the maximum amount of money a recipient is entitled to receive from USDA. In addition, this subpart identifies the principles to be used in determining allowable costs. These cost principles shall apply to transactions and activities conducted under grants, subgrants, cooperative agreements, cost-type contracts and cost-type subcontracts under grants.

(a) Allowable costs. Grant funds may be used only for allowable costs of the activities for which the grant was awarded. This means that the total amount of money that the recipient is entitled to receive from USDA may not exceed the allowable costs incurred by the recipient for those activities.

(b) The following rules apply in computing maximum allowable costs:

(1) Third party in-kind contributions. Because they are not allowable costs of the party that receives them, the value of third party in-kind contributions received may not be included in determining maximum allowable costs. However, as provided in Subpart G of this part, third party in-kind contributions may count towards satisfying a cost-sharing or matching requirement of the Federal grant.

(2) Costs supported by another grant. Allowable costs incurred by the recipient and supported by another Federal grant (or by a non-Federal grant) awarded to the recipient may not be included in determining maximum allowable costs. The basic intent of this rule is to prevent double compensation. It does not, however, prevent proration of costs that are allowable under two or more awards.

(3) Costs used to match another Federal grant. A cost that the recipient uses to meet a cost-sharing or matching requirement of one Federal grant may not count towards determining maximum allowable costs under another Federal grant, unless specifically authorized by a Federal statute.

(4) Costs supported by general program income. A grant may not pay for a cost which is supported by general program income earned by the recipient or by a subrecipient under the grant. Therefore, these costs may not be included in determining maximum allowable costs.

(5) Use of money due Federal government. In accordance with §3015.173, an awarding agency, under certain circumstances, may authorize a recipient to use certain money due the Federal government for allowable costs of the project or programs, instead of returning the money to the Federal Government. Costs supported by the money may not be included as part of the maximum allowable costs charged to USDA.

(6) Subgrant and contract costs. The recipient’s allowable costs include allowable outlays, if any, to its subrecipients and contractors. If the recipient pays a subrecipient more than the allowable costs incurred by the subrecipient, the excess is not an allowable cost of the recipient and may not be included as part of the maximum allowable costs charged to USDA. However, for cost-type contracts a reasonable fee or profit paid by the recipient to the contractor, in addition to the contractor’s allowable costs, may be included in this maximum unless prohibited by the provisions of the grant award.

§ 3015.191 Governments.

(a) OMB Circular No. A-87, and any subsequent amendments to this Circular published in the Federal Register by OMB, shall be used in determining the allowable costs of activities conducted by governments.

(b) Additional amendments to the Circular, unless otherwise prescribed by OMB, shall go into effect at the start of a government’s first fiscal year.
§ 3015.192 Institutions of higher education.

(a) OMB Circular No. A-21, including any amendments to the Circular published in the Federal Register by OMB, shall be used in determining the allowable costs of activities conducted by institutions of higher education (other than for-profit institutions).

(b) Additional amendments to the Circular, unless otherwise prescribed by OMB, shall go into effect at the start of an institution’s first fiscal year following the amendment’s publication in the Federal Register.

§ 3015.193 Other nonprofit organizations.

(a) OMB Circular No. A-122, including any subsequent amendments to the Circulars published in the Federal Register by OMB, shall be used in determining the allowable costs of activities conducted by nonprofit organizations under grants, cooperative agreements, cost reimbursement contracts, and other contracts in which costs are used in pricing, administration, or settlement. It does not apply to colleges or universities which are covered by Circular A-21; State, local and federally recognized Indian Tribal governments which are covered by Circular A-87, or hospitals.

(b) Future amendments to the Circular, unless otherwise prescribed by OMB, shall go into effect at the time the initial award is made to the recipient.

§ 3015.194 For-profit organizations.

The principles to be used when determining the allowable costs of activities conducted by for-profit organizations are contained in the Federal Acquisition Regulation at 48 CFR Subpart 31.2. Exception: Independent research and development costs including any indirect costs allocable to them are unallowable. Independent research and development are defined in the Federal Acquisition Regulation at 48 CFR 31.205-18.

[60 FR 44124, Aug. 24, 1995]

§ 3015.195 Subgrants and cost-type contracts.

USDA cost principles applicable to a cost-type contractor or a subrecipient will not necessarily be the same as those applicable to the recipient. For example, where a State government awards a subrecipient or cost-type contract to an institution of higher education, OMB Circular A-21 would apply to the costs incurred by the institution of higher education even though OMB Circular A-87 would apply to the costs incurred by the State.

§ 3015.196 Costs allowable with approval.

Each set of cost principles specifically identifies certain costs that, in order to be allowable, must be approved by the awarding agency. Other costs do not require approval. The following procedures govern approval of these costs:

(a) When costs are allocated in accordance with a government-wide cost allocation plan or when treated as indirect costs, acceptance of the costs as part of the indirect cost rate or cost allocation plan shall constitute approval.

(b)(1) All direct costs must be approved in advance by the awarding agency.

(2) When costs are specified in the budget, approval of the budget shall constitute approval of the cost.

(3) Specific prior approval in writing from the awarding agency is required if the costs are not specified in the budget, or if there is no approved budget. For this purpose the prior approval procedures of Subpart M shall be followed, except that, for formula or mandatory grants, the awarding agency’s written approval may be signed by any authorized official of the awarding agency.

(c) The awarding agency may waive or conditionally waive the requirement for its approval of the costs. A waiver, as such, shall be applicable only to the requirement for approval. If it is determined, by audit or otherwise, that the costs do not meet other requirements or tests for allowability specified by the applicable cost principles, such as reasonableness and necessity, the costs may be disallowed.

[60 FR 44124, Aug. 24, 1995]
§ 3015.200

(d) In the case of subgrants and cost-type contracts, no approval shall be given which is inconsistent with the purpose or the provisions of the Federal grant.

Subpart U—Miscellaneous

§ 3015.200 Acknowledgement of support on publications and audiovisuals.

(a) Definitions. Appendix A defines “audiovisual,” “production of an audiovisual,” and “publication.”

(b) Publications. Recipients shall have an acknowledgement of awarding agency support placed on any publications written or published with grant support and, if feasible, on any publication reporting the results of, or describing, a grant-supported activity.

(c) Audiovisuals. Recipients shall have an acknowledgement of awarding agency support placed on any audiovisual which is produced with grant support and which has a direct production cost to the recipient of over $5,000. Unless the other provisions of the grant award make it apply, this requirement does not apply to:

(1) Audiovisuals produced under mandatory or formula grants or under subgrants.

(2) Audiovisuals produced as research instruments or for documenting experimentation or findings and not intended for presentation or distribution to the general public.

(d) Waivers. Awarding agencies may waive any requirement of this section.

§ 3015.201 Use of consultants.

(a) Definition. Appendix A defines “consultant.”

(b) Applicability. This section applies only to the use of consultants whose fees are supported by a grant, subgrant, or cost-type contract.

(c) Basic policy—(1) Prior approval. Awarding agencies shall not require prior approval for the use of consultants.

(2) Exceptions. (i) In unusual cases, using a consultant may constitute a transfer of substantive programmatic work, which requires prior approval under discretionary grants.

(ii) Consulting fees paid by an organization to its own employees require prior approval.

(d) Use of an organization’s own employees—(1) Faculty members of education institutions. Charges representing extra compensation (above base salary) paid by an educational institution to a salaried member of its faculty for consulting work are allowable only in unusual cases, and only if both of the following conditions exist:

(i) The consultation is across departmental lines or involves a separate or remote operation; and

(ii) The work performed by the consultant is in addition to his or her regular departmental load.

(2) All other cases. In all other cases, consulting fees paid in addition to salary by recipients or cost-type contractors to people who are also their employees may be supported by a grant, subgrant, or cost-type contract only in unusual cases, and only if all of the following three conditions exist:

(i) The policies of the recipient or contractor permit such consulting fee payments to its own employees regardless of whether Federal grant funds are involved;

(ii) The work involved is clearly outside the scope of the person’s salaried employment; and

(iii) It would be inappropriate or not feasible to compensate for the additional work by paying additional salary to the employee.

(3) Requirement for approval. Consulting fees paid under this section must have a specific prior approval in writing from the Head of the recipient or contractor or from his or her designated representative. If the recipient or contractor is a government, the approval may be given by the Head (or a designated representative of the Head) of the government agency which is primarily responsible for administering or carrying out the project or program. If the designated representative is personally involved in the project or program under consideration, the approval may be given only by the Head. If the Head is personally involved in the project or program under consideration, prior approval from the awarding agency is required. Such prior approval must include a determination
that the applicable requirements in paragraph (d) (1) or (2) of this section are present.

(e) Documentation standards. (1) Charges for consulting payments must be supported in the records of the recipient or cost-type contractor by an invoice from the consultant and a copy of the written report (if a report is appropriate) or other documented evidence of the work performed from the consultant.

(2) If any of the following information is not shown on the invoice and/or report from the consultant, the information must be shown in a memorandum or other document prepared by the recipient or contractor for its files, or noted in handwriting on the consultant’s invoice by the recipient or contractor. The memorandum, other document, or handwritten notation must be signed by an official of the recipient or contractor and show:

(i) The name of the consultant;
(ii) The nature of the services provided (such as statistical analysis of data, participation on project advisory committee, or specified medical services to eligible beneficiaries);
(iii) The relevance of the services to the project or program, if not apparent from the nature of the services; and
(iv) Whichever of the following is applicable:
(A) (If the fee was based on a rate per day or hours worked) the rate and the dates and/or hours worked;
(B) (If the fee was based on a rate per unit of service provided, such as the number of patients examined by a physician) the rate, the number of units of service provided, and the beginning and ending dates of the overall period of service; or
(C) (If the fee was determined on some other basis) the basis for determining the fee and the beginning and ending dates of the period in which services were provided.

§ 3015.204 Federal Register publications.

(a) Program regulations. Most grant programs have program-specific regulations, which are published in the FEDERAL REGISTER and codified in the Code of Federal Regulations. In some cases the program-specific regulations are promulgated in the form of agency directives or manuals which may be obtained from the awarding agency.

(b) Program announcements. For each program, the awarding agency may publish in the FEDERAL REGISTER one or more program announcements. Program announcements invite applications for one or more stated program objectives. They include at least the following information:

(1) An estimate of how much money will be available for competing awards, and the expected size of the awards, broken down by subprogram or priority area when appropriate;
(2) Who is eligible;
(3) How to obtain application kits;
(4) Where to submit applications; and
(5) The deadline for submitting applications.

(c) Cooperative agreements. If any or all of the awards are likely to be cooperative agreements rather than grants, the program announcement so states. In that case, if feasible, the program announcement also describes the anticipated substantial Federal involvement in performance. (This paragraph
§ 3015.205

does not prevent the award of cooperative agreements under a program announcement that mentioned only grants. Nor does it prevent the award of grants under a program announcement that mentioned only cooperative agreements.)

(d) Evaluation criteria. The awarding agency publishes its criteria for evaluating grant applications either in the program regulations or the program announcement. If the criteria are not all equal in importance, their relative weights are also published. The criteria cover at least the following factors (except where the nature of the eligible projects makes one or more of these factors irrelevant):

1. How well qualified the project’s personnel will be;
2. The adequacy of the applicant’s facilities and resources;
3. The adequacy of the project plan or methodology;
4. The cost-effectiveness of the project; and
5. How closely the project objectives fit the objectives for which applications were invited.

(e) Funding priorities. If the awarding agency will give priority to one or more particular kinds of projects, the priority (and how it will be applied in deciding which applications to fund) is described in the program announcement.

(f) Competing continuations vs. “new” projects. If the awarding agency will give a preference to competing continuation applications over applications for projects not already receiving support under the program, or vice versa, the preference is described in the program announcement.

(g) Programs with few potential applicants. In some programs the number of potential applicants is relatively small. (For example, in some programs only the States are eligible.) In these situations the awarding agency may send a copy of the program announcement directly to every potential applicant instead of publishing it in the FEDERAL REGISTER.

(h) Register—Other information which is available. In addition to the items specified above, each awarding Agency makes available to the public the following information and materials for each program:

1. A copy of, or reference to, the authorizing statutes for the program;
2. All guidelines of general applicability for administration of the program;
3. A description of the procedures the awarding agency will use for evaluating applications; and
4. Any other information that the awarding agency believes will be helpful.

(i) Consulting with applicants. Each awarding agency publishes as much information as practicable to reduce the need for consultation by applicants. If the awarding agency does provide consultation, its staff members try to give consistent interpretations and fair treatment to all requestors.

§ 3015.205 General provisions for grants and cooperative agreements with institutions of higher education, other nonprofit organizations, and hospitals.

(a) Scope. This section sets forth general provisions which apply, in whole or in part, to grants and cooperative agreements awarded by USDA to institutions of higher education, other nonprofit organizations, and hospitals. (General provisions applicable to grants and cooperative agreements with State and local governments are set forth in the Office of Management and Budget (OMB) Circular A–102, Attachment M and are made a condition of each grant or cooperative agreement awarded to such recipients). Any statutory provisions that apply to the particular agreement at hand, that are not included herein, shall be made a part of the award document. All administrative requirements contained in subparts A through U of 7 CFR part 3015 shall apply, as appropriate.

(b) Assurances and compliance. It shall be a condition of every USDA grant or cooperative agreement awarded to institutions of higher education, other nonprofit organizations and hospitals that the recipient assure and certify compliance with the following general requirements to the extent applicable:

1. It will comply with the following provisions regarding the rights and welfare of human subjects:
(i) The recipient organization is responsible for safeguarding the rights and welfare of any human subjects involved in research, development, and related activities supported by this agreement. The recipient organization may conduct research involving human subjects only as described in the proposal and as approved by the recipient organization’s cognizant Institutional Review Board. Prior to conducting such research, the recipient organization shall obtain and document a legally sufficient informed consent from each human subject involved. No such informed consent shall include any exculpatory language through which the subject is made to waive, or to appear to waive, any of his or her legal rights, including any release of the recipient organization or its agents from liability for negligence.

(ii) The recipient organization agrees to comply with U.S. Department of Health and Human Services’ regulations regarding human subjects, appearing in 45 CFR part 46 (as amended).

(iii) It will comply with USDA policy which is to assure that the risks do not outweigh either potential benefits to the subjects or the expected value of the knowledge sought.

(iv) Selection of subjects or groups of subjects shall be made without regard to sex, race, color, religion, or national origin unless these characteristics are factors to be studied.

(2) It will comply with the Animal Welfare Act, as amended, 7 U.S.C. 2131, et seq., and the regulations promulgated thereunder by the Secretary of Agriculture (9 CFR, Subchapter A) pertaining to the care, handling, and treatment of warm-blooded animals held or used for research, teaching, or other activities supported by Federal funds. Recipient organizations may request registration of facilities and a current listing of licensed dealers from the Regional Office of the Animal and Plant Health Inspection Service (APHIS), USDA, for the Region in which their facility is located. The location of the appropriate APHIS Regional Office, as well as information concerning this requirement, may be obtained by contacting the Senior Staff Officer, Animal Care Staff, USDA/APHIS, Federal Center Building, Hyattsville, Maryland 20782.

(3) It will assume primary responsibility for implementing proper conduct or recombinant DNA research and it will comply with the national Institute of Health Guidelines for Recombinant DNA Research, as revised.

(4) It will comply with Section 5 of the International Air Transportation Fair Competitive Practices Act of 1974, 49 U.S.C. 1517, which requires:

(i) Any air transportation to, from, between, or within a country, other than the U.S., of persons or property, the expense of which will be assisted by USDA funding, to be performed on a U.S.-flag carrier if service provided by such carrier is “available.”

(ii) For the purposes of this requirement:

(A) Passenger or freight service by a certificated air carrier is considered “available” even though:

(1) Comparable or a different kind of service by a noncertificated air carrier costs less; or

(2) Service by a noncertificated air carrier can be paid for in excess foreign currency; or

(3) Service by a noncertificated air carrier is preferred by the recipient organization contractor or traveler needing air transportation.

(B) Passenger service by a certificated air carrier is considered to be “unavailable”:

(1) When the traveler, while enroute, has to wait six hours or more for an available U.S. carrier; or

(2) When any flight by a U.S. carrier interrupted by a stop anticipated to be six hours or more for refueling, reloading repairs, etc., and no other flight by a U.S. carrier is available during the six-hour period; or

(3) When the flight by a U.S. carrier takes 12 or more hours longer than a foreign carrier.

(5) It possesses legal authority to enter into the agreement; that a resolution, motion or similar action has been duly adopted or passed as an official act of its governing body, authorizing the acceptance of the agreement including all understandings and assurances contained therein and directing and authorizing the person identified
as the official representative of the recipient organization to act in connection with the agreement and to provide such additional information as may be required.

(6) It will comply with Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000d, and in accordance with Title VI of that Act, no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the recipient receives Federal financial assistance and will immediately take any measures necessary to effectuate this agreement.

(7) It will establish safeguards to prohibit employees from using their positions for a purpose that is or gives the appearance of being motivated by a desire for private gain for themselves or others, particularly those with whom they have family, business, or other ties.

(8) It will give USDA, the awarding agency or the Comptroller General, through any authorized representative, access to and the right to examine all records, books, papers or documents related to the award.

(9) It will comply with all requirements imposed by the awarding agency concerning special requirements of law, program requirements, and other administrative requirements.

(10) It will insure that the facilities under its ownership, lease or supervision which shall be utilized in the accomplishment of the project are not listed on the Environmental Protection Agency’s (EPA) list of violating facilities and that it will notify the awarding agency of the receipt of any communication from the Director of the EPA, Office of Federal Activities, indicating that a facility to be utilized in the project is under consideration for listing by the EPA.

(11) It will comply with the flood insurance purchase requirements of the National Flood Insurance Act of 1968, as amended, and the Flood Disaster Protection Act of 1973, 42 U.S.C. 4001-4127. Section 102(a) requires, on and after March 2, 1975, the purchase of flood insurance in communities where such insurance is available as a condition for construction or acquisition purposes for use in any area that has been identified by the Secretary of the Department of Housing and Urban Development as an area having special flood hazards.

(12) It will assist the awarding agency in its compliance with Section 106 of the National Historic Preservation Act of 1966, 16 U.S.C. 470, Executive Order 11593, and the Archaeological and Historic Preservation Act of 1974, 16 U.S.C. 486a–1, et. seq., by (i) consulting with the State Historic Preservation Officer on the conduct of investigations, as necessary, to identify properties listed in or eligible for inclusion in the National Register of Historic Places that are subject to adverse effects (see 36 CFR 800.8) by the activity, and notifying the awarding agency of the existence of any such properties, and by (ii) complying with all requirements established by the awarding agency to avoid or mitigate adverse effects upon such properties.

(13) It will comply with Title IX of the Education Amendments of 1972, 20 U.S.C. 1681, et. seq., which prohibits discrimination on the basis of sex in Federally assisted education programs.

(14) It will comply with Section 504 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. 794. Section 504 provides that no otherwise qualified handicapped individual shall solely by reason of his handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.

(15) It will comply with the Age Discrimination Act of 1975, 42 U.S.C. 6101-6107, which prohibits unreasonable discrimination based on age, in programs or activities receiving Federal financial assistance.

(16) It is in compliance with the Clean Air Act of 1970, 42 U.S.C. 7401 et seq., which requires federally assisted activities to be in conformance with State (Clean Air) Implementation Plan.

(17) It will establish safeguards to ensure that USDA funds are properly spent. In particular, except nonprofit organizations which are subject to the lobbying provisions of paragraph B.21 of OMB Circular A-122, it will assure
that funds are not used for partisan or political activity purposes.

(c) USDA awarding agencies shall obtain the required assurances and certifications by including the following clause in each grant or cooperative agreement awarded to institutions of higher education, other nonprofit organizations and hospitals:

As a condition of this grant or cooperative agreement, the recipient assures and certifies that it is in compliance with and will comply in the course of the agreement with all applicable laws, regulations, Executive Orders and other generally applicable requirements, including those set out in 7 CFR 3015.205(b), which hereby are incorporated in this agreement by reference, and such other statutory provisions as are specifically set forth herein.

Subpart V—Intergovernmental Review of Department of Agriculture Programs and Activities

SOURCE: 48 FR 29112, June 24, 1983, unless otherwise noted.

§ 3015.300 Purpose.

(b) These regulations are intended to foster an intergovernmental partnership and a strengthened Federalism by relying on State processes and on State, arewide, regional and local coordination for review of proposed Federal financial assistance and direct Federal development.

(c) The regulations are intended to aid the internal management of the Department, and are not intended to create any right or benefit enforceable at law by a party against the Department or its officers.

§ 3015.301 Definitions.

Department means the U.S. Department of Agriculture.

Secretary means the Secretary of the U.S. Department of Agriculture or an official or employee of the Department acting for the Secretary under a delegation of authority.

State means any of the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, American Samoa, the U.S. Virgin Island, or the Trust Territory of the Pacific Islands.
§ 3015.304 Federal interagency coordination.

The Secretary, to the extent practicable, consults with and seeks advice from all other substantially affected Federal departments and agencies in an effort to assure full coordination between such agencies and the Department regarding programs and activities covered under these regulations.

§ 3015.305 State selection of programs and activities.

(a) A State may select any program or activity published in the Federal Register in accordance with §3015.302 of this subpart for intergovernmental review under these regulations. Each State, before selecting programs and activities, shall consult with local elected officials.

(b) Each State that adopts a process shall notify the secretary of the Department’s programs and activities selected for that process.

(c) A State may notify the Secretary of changes in its selections at any time. For each change, the State shall submit to the Secretary an assurance that the State has consulted with elected local officials regarding the change. The Department may establish deadlines by which States are required to inform the Secretary of changes in their program selections.

(d) The Secretary uses a State’s process as soon as feasible, depending on individual programs and activities, after the Secretary is notified of its selections.

§ 3015.306 Communication with State and local elected officials.

(a) The Secretary provides notice to directly affected State, area-wide, regional, and local entities in a State of proposed Federal financial assistance or direct Federal development if:

(1) The State has not adopted a process under the Order; or

(2) The assistance or development involves a program or an activity that is not covered under the State process.

(b) This notice may be made by publication in the Federal Register or other appropriate means, which the Department in its discretion deems appropriate.

(c) In order to facilitate communication with State and local officials the Secretary has established an office within the Department to receive all communications pertinent to this Order. All communications should be sent to the Office of Finance and Management, Room 143-W, Administration Building, Washington, DC 20250, Attention: E.O. 12372.

§ 3015.307 State comments on proposed Federal financial assistance and direct Federal development.

(a) Except in unusual circumstances, the Secretary gives State processes or directly affected State, area-wide, regional, and local officials and entities:

(1) At least 30 days from the date established by the Secretary to comment on proposed Federal financial assistance in the form of noncompeting continuation awards; and

(2) At least 60 days from the date established by the Secretary to comment on proposed direct Federal development or Federal financial assistance other than noncompeting continuation awards.
§ 3015.308 Processing comments.

(a) The Secretary follows the procedures in §3015.309 if:

(1) A State office or official is designated to act as a single point of contact between a State process and all Federal agencies; and

(2) That office or official transmits a State process recommendation for a program selected under §3015.305.

(b) (1) The single point of contact is not obligated to transmit comments form State, areawide, regional or local officials and entities where there is no State process recommendation.

(2) If a State process recommendation is transmitted by a single point of contact, all comments from State, areawide, regional, and local officials and entities that differ from it must also be transmitted.

(c) If a State has not established a process, or is unable to submit a State process recommendation, State, areawide, regional and local officials and entities may submit comments either to the applicant or to the Department.

(d) If a program or activity is not selected by a State process, State, areawide, regional and local officials and entities may submit comments either to the applicant or to the Department.

§ 3015.309 Accommodation of intergovernmental concerns.

(a) If a State process provides a State process recommendation to the Department through its single point of contact, the Secretary either—

(1) Accepts the recommendations;

(2) Reaches a mutually agreeable solution with the State process; or

(3) Provides the single point of contact with a written explanation of the decision, as the Secretary in his or her discretion deems appropriate. The Secretary may also supplement the written explanation by also providing the explanation to the single point of contact by telephone, other telecommunication, or other means.

(b) In any explanation under paragraph (a)(3) of this section, the Secretary informs the single point of contact that:

(1) The Department will not implement its decision for at least ten days after the single point of contact receives the explanation; or

(2) The Secretary has reviewed the decision and determined that, because of unusual circumstances, the waiting period of at least ten days is not feasible.

(c) For purposes of computing the waiting period under paragraph (b)(1) of this section, a single point of contact is presumed to have received written notification five days after the date of mailing of such notification.

§ 3015.310 Interstate situations.

(a) The Secretary is responsible for:

(1) Identifying proposed Federal financial assistance and direct Federal development that have an impact on interstate areas;

(2) Notifying appropriate officials in States which have adopted a process and which selected the Department's program or activity;

(3) Making efforts to identify and notify the affected State, areawide, regional, and local officials and entities in those States that have not adopted a process under the Order or do not select the Department's program or activity; and
§ 3015.311

(4) Responding, pursuant to § 3015.309 of this subpart, if the Secretary receives a recommendation from a designated areawide agency transmitted by a single point of contact, in cases in which the review, coordination, and communication with the Department have been delegated.

(b) The Secretary uses the procedures in § 3015.309 if a State process provides a State process recommendation to the Department through a single point of contact.

§ 3015.311 Simplification, consolidation, or substitution of State plans.

(a) As used in this section:

(1) Simplify means that a State may develop its own format, choose its own submission date, and select the planning period for a State plan.

(2) Consolidate means that a State may meet statutory and regulatory requirements by combining two or more plans into one document and that the State can select the format, submission date, the planning period for the consolidated plan.

(3) Substitute means that a State may use a plan or other document that it has developed for its own purposes to meet Federal requirements.

(b) If not inconsistent with law, a State may decide to try to simplify, consolidate, or substitute Federally required State plans without prior approval by the Secretary.

(c) The Secretary reviews each State plan a State has simplified, consolidated or substituted and accepts the plan only if its contents meet Federal requirements.

§ 3015.312 Waivers.

In an emergency, the Secretary may waive any provision of these regulations.

Appendix A to Part 3015—Definitions

Section I “Grant” and “Cooperative Agreement”

(a) “Grant” unless qualified by “non-Federal” means an award by the Federal government of money, property instead of money, services, or anything of value, to the State or other recipient, with the following characteristics:

(1) The principal purpose of the award is to accomplish a public purpose of support or stimulation authorized by Federal statute, rather than acquisition, by purchase, lease, or barter, of property or services for the direct benefit or use of the Federal government; and

(2) At the time the award is made, no substantial involvement is anticipated between the executive agency, acting for the Federal government, and the State or local government or other recipient during performance of the contemplated activity.

(b) “Cooperative agreement” has the same meaning as “grant,” except that, at the time a cooperative agreement is awarded, substantial involvement is anticipated between the executive agency, acting for the Federal government, and the State or local government or other recipient during performance of the contemplated activity.

(c) “Grants” and “cooperative agreements” do not include technical assistance, which provides services instead of money; revenue sharing; loans; loan guarantees; capital contributions to loan funds; interest subsidies; insurance; or direct appropriations. (See the definition of “Non-Federal grant” in Section II of this Appendix.)

Section II Other Definitions.

“Acquisition” of property includes purchase, construction, or fabrication of property. It does not include rental of property or alterations and renovations of real property.

“Acquisition cost” of an item of purchased equipment means the net invoice price of the equipment. It includes the cost of modifications, attachments, accessories, or auxiliary apparatus necessary to make the equipment usable for the purpose for which it was acquired. Other charges, such as the cost of installation, transportation, taxes, duty, or protective in-transit insurance shall be included in or excluded from the unit acquisition cost in accordance with the regular accounting practices of the organization purchasing the equipment.

If an item of equipment is acquired by trading in another item and paying an additional amount, “acquisition cost” means the amount received for trade-in plus the additional outlay. (See the definition of “amount received for trade-in.”)

For purposes of the rules on equipment and supplies, “acquisition cost” of a copy of a work of authorship (such as a book, print of a motion picture, or tape of a television program) refers to the cost of fabricating or purchasing the individual copy, considered as a material object. It does not include the cost of developing, or acquiring rights to, the work embodied in the copy.

“Advance by Treasury check” is a payment made by a Treasury check to a recipient of a grant or cooperative agreement, before payments are made by the recipient of
the grant or cooperative agreement. Advances by Treasury check are based on either a periodic request from the recipient or a predetermined payment schedule.

"Amount received for trade-in" of an item of equipment traded in for replacement equipment means the amount that would have been paid for the replacement equipment without a trade-in, minus the amount paid with the trade-in. The term refers to the actual difference, not necessarily the trade-in value, shown on an invoice. For example, suppose that a recipient can buy a new machine for $5,000 in cash. The recipient actually buys this machine by trading in a used machine and paying $3,000 in cash. In this case, the amount received for trade-in would be $2,000 ($5,000 minus $3,000) regardless of the trade-in allowance shown on the invoice.

"Approved budget" means a budget (including any revised budget) which has been approved by the awarding agency. (See the definition of "budget").

"Audiovisual" means a product containing visual imagery or sound or both. Examples of audiovisuals are motion pictures, live or prerecorded radio or television programs, slide shows, filmstrips, audio recordings, and multimedia presentations.

"Awarding agency" means (1) for grants and cooperative agreements, the USDA agency making the award, and (2) for subgrants, the recipient.

"Bid guarantee" means a firm commitment such as a bid bond, certified check, or other negotiable instrument, accompanying a bid as assurance that the bidder will, if its bid is accepted, execute the required contractual documents within the time specified.

"Budget" means the recipient's financial expenditure plan approved by the awarding agency to carry out the purposes of the Federal-supported project. The budget is comprised of both the Federal share and any non-Federal share of such plan and any subsequent authorized rebudgeting of funds.

For those programs that do not involve Federal approval of the non-Federal share of costs, such as research grants, the term "budget" means the financial expenditure plan approved by the awarding agency including any subsequent authorized rebudgeting of funds, for the use of Federal funds only. Any expenditures charged to an approved budget consisting of Federal and non-Federal shares are deemed to be supported by the grant in the same proportion as the percentage of Federal/non-Federal participation in the overall budget.

"Budget period" means the period specified in the grant or cooperative agreement during which Federal funds awarded are authorized to be expended, obligated, or firmly committed by the recipient for the purposes specified in the agreement.

"Closeout" of a grant or cooperative agreement means the process by which an awarding agency determines that all applicable administrative actions and all required work of the grant or cooperative agreement have been completed by the recipient and the awarding agency.

"Consultant" means a person who gives advice or services for a fee, but not as an employee. The term includes guest speakers when not acting as employees of the party that engages them. Note that in unusual cases it is possible for a person to be both an employee and a consultant at the same time. (See § 3015.201)

"Contract" means a procurement contract awarded under a grant, cooperative agreement, or subgrant; and "subcontract" means a procurement subcontract under such a contract. Procurement contracts and subcontracts are ones which place the parties in a buyer-seller relationship, regardless of the label used by the parties to describe the relationship (e.g., purchase-of-service agreement). The terms "contract" and "subcontract" do not include any agreements between organizational components of the same legal entity, even if one of the components provides property or services to or for the other. (See definitions of "subgrant," "cost-type contract," and "fixed price contract.")

"Cost-sharing" and "matching" each mean the value of third party in-kind contributions plus that portion of the allowable costs of recipients not supported by the Federal Government. (The terms "cost-sharing" and "matching," in this part, are synonymous.)

"Cost-type contract" means a contract or subcontract in which the contractor or subcontractor is paid on the basis of the costs it incurs. The term includes cost-plus-fixed-fee contracts and subcontracts. However, the term does not include any subcontracts under a "fixed-price contract.")

"Discretionary" grants and cooperative agreements are ones which a Federal statute authorizes but does not require USDA to award.

"Equipment" means an article of tangible personal property that has a useful life of more than two years and acquisition cost of $500 or more. Any recipient may use its own definition of equipment if its definition is at least as inclusive as the definition provided here.

"Expenditure report" means (1) for non-construction awards, the "Financial Status Report" (or other equivalent report); (2) for construction awards, the "Outlay Report and Request for Reimbursement for Construction Programs" (or other equivalent report).

"Federal funds authorized" means the total amount of Federal funds obligated by the Federal Government for use by the recipient. This amount is a limit on the total
amount of money that the recipient is entitled to receive from the Federal Government as a result of the award. In addition to this limit, there are other limits. Refer to §3015.20 for a summary of these.

“Federally recognized Indian tribal government” means the governing body or a governmental agency of any Indian tribe, band, nation, or other organized group or community (including any Native village as defined in section 3 of the Alaska Native Claims Settlement Act, 83 Stat. 688) certified by the Secretary of the Interior as eligible for the special programs and services provided by him or her through the Bureau of Indian Affairs.

“Fidelity bond” means a bond indemnifying the recipient against losses resulting from the fraud or lack of integrity, honesty or fidelity of one or more employees, officers or other persons holding a position of trust.

“Fixed-price contract” means any contract except a cost-type contract. The term includes firm-fixed price contracts. It also includes contracts under which the contractor is paid at a fixed rate per unit of service or unit of labor time. (See the definitions of “contract” and “cost-type contract.”)

“General program income” means all program income except the special categories treated in §§3015.43 through 3015.46. The term “general program income” is limited to amounts that accrue to a recipient of grant or cooperative agreement during the period of Federally assisted support, or to a subrecipient during the period of sub-award support.

“Local government” means a local unit of government including specifically, a county, municipality, city, town, township, local public authority, school district, special district, intra-state district, council of governments (whether or not incorporated as a non-profit corporation under State law), sponsor or sponsoring local organization of a watershed project (as defined in 7 CFR 620.2, 40 FR 12472, March 19, 1974), any other regional or interstate government entity, or any agency or instrumentality of a local government.

“Mandatory” or “formula” grants and cooperative agreements are ones which a Federal statute requires USDA to award if the applicant meets specified conditions.

“Non-Federal grant” means an award of financial assistance in the form of money which includes no Federal funds, and for which the recipient must account to the donor on an actual cost basis. The term does not include any award that would be excluded from the definitions of “grant” and “cooperative agreement” if it were made by the Federal government.

“Obligations” means the amounts of orders placed, contracts and subgrants awarded, services received, and similar transactions during a given period, which will require payment during the same or future period.

“O&F” means the Office of Operations and Finance, which is an organizational component in USDA reporting to the Assistant Secretary for Administration.

“OMB” means the Office of Management and Budget in the Executive Office of the President.

“Outlays” means charges made to the grant project or program. Outlays may be reported on a cash or accrual basis.

“Payment bond” means a bond executed in connection with a contract, to assure payment as required by law of all persons supplying labor and materials in the execution of the work provided in the contract.

“Percentage-of-completion method” refers to a system under which payments are made for construction work according to the percentage of completion of the work, instead of the recipient’s rate of disbursements.

“Personal property” means property of any kind except real property. It may be tangible—having physical existence, or intangible—having no physical existence, such as patents, inventions, and copyrights.

“Production of an audiovisual” means any of the steps that lead to a finished audiovisual, including design, layout, script-writing, filming, editing, fabrication, sound recording, or taping. The term does not include the placing of captions for the hearing impaired on films or videotapes not originally produced for use with the hearing impaired.

“Program income” means gross income earned by a recipient from activities supported by a grant or cooperative agreement. (See definition of “supported by a grant or cooperative agreement.”) It includes but is not limited to income in the form of fees for services performed during the life of the grant, cooperative agreement, or subgrant, proceeds from sale of tangible personal or real property, usage or rental fees, and patent or copyright royalties. If income meets this definition, it shall be considered program income regardless of the method used to calculate the amount paid to the recipient whether, for example, by a cost-reimbursement method or fixed price arrangement.

Nora will the income’s classification as program income be affected by the fact that the recipient earns it from a procurement contract awarded to the recipient (1) by the Federal government or (2) by another recipient acting under another Federal grant, cooperative agreement, or subgrant.

The following are not considered program income:

(1) “Revenues” raised by a government recipient under its governing powers, such as taxes, special assessments, levies, and fines.
Office of Chief Financial Officer, USDA
Pt. 3015, App. A

(However, the receipt and expenditure of these revenues shall be recorded as a part of the transactions of the Federally-assisted project or program when the revenues are specifically earmarked for the project in accordance with the terms of the grant, cooperative agreement, or subgrant.)

(2) Tuition and related fees received by an institution of higher education for a regularly offered course taught by an employee performing under a grant, cooperative agreement, or subgrant.

(3) Income earned by contractors or subcontractors.

(4) Internal reimbursements or transfers of funds between organizational components of the same legal entity (e.g., between agencies of the same government).

(5) Third party in-kind contributions.

(6) Gifts or financial assistance from another source, such as (i) a non-Federal grant, (ii) another Federal grant, and (iii) charitable contributions (whether or not for a restricted purpose), and

(7) Interest or other investment income earned from investing advances of Federal cash. (This kind of income is treated in §3015.46.)

“Project period” means the total time for which the recipient’s project or program is approved for support including any extensions. Project periods may consist of one or more budget periods.

“Publication” means a published book, periodical, pamphlet, brochure, flier, or similar item. It does not include any audiovisuals.

“Real property” means land, land improvements, structures, and things attached to them so as to become a part of them. Movables machinery and other kinds of equipment are not real property. If a question comes up about whether certain property should be classified as real property, the law of the State or foreign country in which the property is located governs.

“Recipient” means a State or local government, Federally recognized Indian Tribe, university, non-profit, for profit, or other organization that is a recipient of grants or cooperative agreements from a USDA agency.

“Replacement equipment” means property acquired to take the place of other equipment. To qualify as replacement equipment, it must serve the same function as the equipment replaced and must be of the same model, grade, or quality.

“State” means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory, possession, or trust territory of the United States, or any agency or instrumentality of a State. The term does not include local governments.

“Subgrant” means an award of money, or property instead of money, which:

(1) Is made under a grant or cooperative agreement by the recipient of the grant or cooperative agreement; and

(2) Is made principally to accomplish a purpose of support of stimulation rather than to establish a buyer-seller relationship between the two parties.

Any award which meets that definition is a subgrant even if the parties to the award use some other label such as “grant,” “agreement,” “cooperative agreement,” “contract,” “allotment,” or “delegation agreement.” Also, if the award meets that definition, it is a subgrant whether or not the awarding agency is expected to be substantially involved in its performance. However, the term “subgrant” does not include any type of assistance which is excluded from the definitions of “grant” and “cooperative agreement” by Section I(c) of this Appendix.

“Supplies” means all tangible personal property other than equipment.

“Supported by a grant or cooperative agreement,” as applied to a cost or an activity, means that the cost or the cost of the activity is entirely or partly (1) treated as a direct cost under a grant, cooperative agreement, subgrant, or cost-type contract, and (2) either supported by Federal funds or counted towards a Federal cost-sharing or matching requirement.

“Suspension” of an award means temporary withdrawal of the recipient’s authority to obligate the funds awarded pending corrective action by the recipient or a decision to terminate the award.

“Termination” of an award means permanent withdrawal of the recipient’s authority to obligate previously awarded funds before that authority would otherwise expire. It also means the voluntary relinquishment of that authority by the recipient.

“Termination” does not include:

(a) Withdrawal of the unobligated balance upon expiration of award;

(b) Refusal by the awarding agency to extend an award or to award additional funds (such as refusal to make a competing or non-competing continuation, renewal, extension, or supplemental award);

(c) Annulment, i.e., voiding of an award upon determination that the award was obtained fraudulently or was otherwise illegal or invalid from inception;

(d) Withdrawal of surplus Federal funds from a discretionary grant or any analogous withdrawal of funds by a recipient from a subrecipient; or

(e) Withdrawal from a mandatory or formula grant of surplus Federal funds authorized which the recipient will not obligate during the fiscal year, or any analogous withdrawal of funds by a recipient from a subrecipient.

“Terms” of a grant, cooperative agreement, subgrant, or contract means all rights and duties created by the award, whether
Subject: Audits of State and Local Governments

To the Heads of Executive Departments and Establishments.

Office of Management and Budget
Circular No. A-128
April 12, 1984

Purpose: Audits of State and Local Governments.

1. This Circular is issued pursuant to the Single Audit Act of 1984, Pub. L. 98-502. It establishes audit requirements for State and local governments that receive Federal aid, and defines Federal responsibilities for implementing and monitoring those requirements.

3. Background. The Single Audit Act builds upon earlier efforts to improve audits of Federal aid programs. The Act requires State or local governments that receive $100,000 or more a year in Federal funds to have an audit made for that year. Section 7505 of the Act requires the Director of the Office of Management and Budget to prescribe policies, procedures and guidelines to implement the Act. It specifies that the Director shall designate “cognizant” Federal agencies, determine criteria for making appropriate charges to Federal programs for the cost of audits, and provide procedures to assure that small firms or firms owned and controlled by disadvantaged individuals have the opportunity to participate in contracts for single audits.

4. Policy. The Single Audit Act requires the following:
   a. State or local governments that receive $100,000 or more a year in Federal financial assistance shall have an audit made in accordance with this Circular.
   b. State or local governments that receive between $25,000 and $100,000 a year shall have an audit made in accordance with this Circular, or in accordance with Federal laws and regulations governing the programs they participate in.
   c. State or local governments that receive less than $25,000 a year shall be exempt from compliance with the Act and other Federal audit requirements. These State and local governments shall be governed by audit requirements prescribed by State or local law or regulation.
   d. Nothing in this paragraph exempts State or local governments from maintaining records of Federal financial assistance or from providing access to such records to Federal agencies, as provided for in Federal law or in Circular A-102, “Uniform requirements for grants to State or local governments.”

5. Definitions. For the purposes of this Circular the following definitions from the Single Audit Act apply:
   a. Cognizant agency means the Federal agency assigned by the Office of Management and Budget to carry out the responsibilities described in paragraph 11 of this Circular.
   b. Federal financial assistance means assistance provided by a Federal agency in the form of grants, contracts, cooperative agreements, loans, loan guarantees, property, interest subsidies, insurance, or direct appropriations, but does not include direct Federal cash assistance to individuals. It includes awards received directly from Federal agencies, or indirectly through other units of State and local governments.
   c. Federal agency has the same meaning as the term ‘agency’ in section 551(1) of Title 5, United States Code.
   d. Generally accepted accounting principles has the meaning specified in the generally accepted government auditing standards.
   e. Generally accepted governmental auditing standards means the Standards For Audit of Government Organizations, Programs, Activities, and Functions, developed by the Comptroller General, dated February 27, 1981.
   f. Independent auditor means:
(1) A State or local government auditor who meets the independence standards specified in generally accepted government auditing standards; or
(2) A public accountant who meets such independence standards.

f. Internal controls means the plan of organization and methods and procedures adopted by management to ensure that:
(1) Resource use is consistent with laws, regulations, and policies;
(2) Resources are safeguarded against waste, loss, and misuse; and
(3) Reliable data are obtained, maintained, and fairly disclosed in reports.

g. Indian tribe means any Indian tribe, band, nations, or other organized group or community, including any Alaskan Native village or regional or village corporations (as defined in, or established under, the Alaskan Native Claims Settlement Act) that is recognized by the United States as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

h. Local government means any unit of local government within a State, including a county, a borough, municipality, city, town, township, parish, local public authority, special district, school district, intrastate district, council of governments, and any other instrumentality of local government.

i. Major Federal Assistance Program, as defined by Pub. L. 98-502, is described in the Attachment to this Circular.

j. Public accountants means those individuals who meet the qualification standards included in generally accepted government auditing standards for personnel performing government audits.

k. State means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam American Samoa, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands, any instrumentation thereof, and any multi-State, regional, or interstate entity that has governmental functions and any Indian tribe.

l. Subrecipient means any person or government department, agency, or establishment that receives Federal financial assistance to carry out a program through a State or local government, but does not include an individual that is a beneficiary of such a program. A subrecipient may also be a direct recipient of Federal financial assistance.

m. Scope of audit. The Single Audit Act provides that:
(1) The audit shall be made by an independent auditor in accordance with generally accepted government auditing standards covering financial and compliance audits.
(2) The audit shall cover the entire operations of a State or local government or, at the option of that government, it may cover departments, agencies or establishments that received, expended, or otherwise administered Federal financial assistance during the year. However, if a State or local government receives $25,000 or more in General Revenue Sharing Funds in a fiscal year, it shall have an audit of its entire operations. A series of audits of individual departments, agencies, and establishments for the same fiscal year may be considered a single audit.

n. A public hospital and public colleges and universities may be excluded from State and local audits and the requirements of this Circular. However, if such entities are excluded, audits of these entities shall be made in accordance with statutory requirements and the provisions of Circular A-110. Uniform requirements for grants to universities, hospitals, and other nonprofit organizations.

d. The auditor shall determine whether:
(1) The financial statements of the government, department, agency or establishment present fairly its financial position and the results of its financial operations in accordance with generally accepted accounting principles;
(2) The organization has internal accounting and other control systems to provide reasonable assurance that it is managing Federal financial assistance programs in compliance with applicable laws and regulations; and
(3) The organization has complied with laws and regulations that may have material effect on its financial statements and on each major Federal assistance program.

7. Frequency of audit. Audits shall be made annually unless the State or local government has, by January 1, 1987, a constitutional or statutory requirement for less frequent audits. For those governments, the cognizant agency shall permit biennial audits, covering both years, if the government so requests. It shall also honor requests for biennial audits by governments that have an administrative policy calling for audits less frequent than annual, but only for fiscal years beginning before January 1, 1987.

8. Internal control and compliance reviews. The Single Audit Act requires that the independent auditor determine and report on whether the organization has internal control systems to provide reasonable assurance that it is managing Federal assistance programs in compliance with applicable laws and regulations.

a. Internal control review. In order to provide this assurance the auditor must make a study and evaluation of internal control systems used in administering Federal assistance programs. The study and evaluation must be made whether or not the auditor intends to place reliance on such systems. As part of this review, the auditor shall:
(1) Test whether these internal control systems are functioning in accordance with prescribed procedures.

(2) Examine the recipient's system for monitoring subrecipients and obtaining and acting on subrecipient audit reports.

b. Compliance review. The law also requires the auditor to determine whether the organization has complied with laws and regulations that may have a material effect on each major Federal assistance program.

(3) In order to determine which major programs are to be tested for compliance, State and local governments shall identify in their accounts all Federal funds received and expended and the programs under which they were received. This shall include funds received directly from Federal agencies and through other State and local governments.

(2) The review must include the selection and testing of a representative number of charges from each major Federal assistance program. The selection and testing of transactions shall be based on the auditor's professional judgment considering such factors as the amount of expenditures for the program and the individual awards; the newness of the program or changes in its conditions; prior experience with the program, particularly as revealed in audits and other evaluations (e.g., inspections, program reviews); the extent to which the program is carried out through subrecipients; the extent to which the program contracts for goods or services; the level to which the program is already subject to program reviews of other forms of independent oversight; the adequacy of the controls for ensuring compliance; the expectation of adherence or lack of adherence to the applicable laws and regulations; and the potential impact of adverse findings.

(a) In making the test of transactions, the auditor shall determine whether:

--- The amounts reported as expenditures were for allowable services, and
--- The records show that those who received services or benefits were eligible to receive them.

(b) In addition to transaction testing, the auditor shall determine whether:

--- Matching requirements, levels of effort and earmarking limitations were met,
--- Federal financial reports and claims for advances and reimbursements contain information that is supported by the books and records from which the basic financial statements have been prepared, and
--- Amounts claimed or used for matching were determined in accordance with OMB Circular A-87, "Cost principles for State and local governments," and Attachment F of Circular A-102, "Uniform requirements for grants to State and local governments."

(c) The principal compliance requirements of the largest Federal aid programs may be ascertained by referring to the Compliance Supplement for Single Audits of State and Local Governments, issued by OMB and available from the Government Printing Office. For those programs not covered in the Compliance Supplement, the auditor may ascertain compliance requirements by researching the statutes, regulations, and agreements governing individual programs.

(3) Transactions related to other Federal assistance programs that are affected in connection with examinations of financial statements and evaluations of internal controls shall be tested for compliance with Federal laws and regulations that apply to such transactions.

9. Subrecipients. State or local governments that receive Federal financial assistance and provide $25,000 or more of it in a fiscal year to a subrecipient shall:

a. Determine whether State or local subrecipients have met the audit requirements of this Circular and whether subrecipients covered by Circular A-110, "Uniform requirements for grants to universities, hospitals, and other nonprofit organizations," have met that requirement;

b. Determine whether the subrecipient spent Federal assistance funds provided in accordance with applicable laws and regulations. This may be accomplished by reviewing an audit of the subrecipient made in accordance with this Circular, Circular A-110, or through other means (e.g., program reviews) if the subrecipient has not yet had such an audit;

c. Ensure that appropriate corrective action is taken within six months after receipt of the audit report in instances of noncompliance with Federal laws and regulations;

d. Consider whether subrecipient audits necessitate adjustment of the recipient's own records; and

e. Require each subrecipient to permit independent auditors to have access to the records and financial statements as necessary to comply with this Circular.

10. Relation to other audit requirements. The Single Audit Act provides that an audit made in accordance with this Circular shall be in lieu of any financial or financial compliance audit required under individual Federal assistance programs. To the extent that a single audit provides Federal agencies with information and assurances they need to carry out their overall responsibilities, they shall rely upon and use such information. However, a Federal agency shall make any additional audits which are necessary to carry out its responsibilities under Federal law and regulation. Any additional Federal audit effort shall be planned and carried out in such a way as to avoid duplication.
Office of Chief Financial Officer, USDA

Pt. 3015, App. B

a. The provisions of this Circular do not limit the authority of Federal agencies to make, or contract for audits and evaluations of Federal financial assistance programs, nor do they limit the authority of any Federal agency Inspector General or other Federal audit official.

b. The provisions of this Circular do not authorize any State or local government or subrecipient thereof to constrain Federal agencies, in any manner, from carrying out additional audits.

c. A Federal agency that makes or contracts for audits in addition to the audits made by recipients pursuant to this Circular shall, in agreement with other applicable laws and regulations, arrange for funding the cost of such additional audits. Such additional audits include economy and efficiency audits, program results audits, and program evaluations.

11. Cognizant agency responsibilities. The Single Audit Act provides for cognizant Federal agencies to oversee the implementation of this Circular.

a. The Office of Management and Budget will assign cognizant agencies for States and their subdivisions and larger local governments and their subdivisions. Other Federal agencies may participate with an assigned cognizant agency, in order to fulfill the cognizance responsibilities. Smaller governments not assigned a cognizant agency will be under the general oversight of the Federal agency that provides them the most funds whether directly or indirectly.

b. A cognizant agency shall have the following responsibilities:

(1) Ensure that audits are made and reports are received in a timely manner and in accordance with the requirements of this Circular.

(2) Provide technical advice and liaison to State and local governments and independent auditors.

(3) Obtain or make quality control reviews of selected audits made by non-Federal audit organizations, and provide the results, when appropriate, to other interested organizations.

(4) Promptly inform other affected Federal agencies and appropriate Federal law enforcement officials of any reported illegal acts or irregularities. They should also inform State or local law enforcement and prosecuting authorities, if not advised by the recipient, of any violation of law within their jurisdiction.

(5) Advise the recipient of audits that have been found not to have met the requirements set forth in this Circular. In such instances, the recipient will be expected to work with the auditor to take corrective action. If corrective action is not taken, the cognizant agency shall notify the recipient and Federal awarding agencies of the facts and make recommendations for followup action. Major inadequacies or repetitive substandard performance of independent auditors shall be referred to appropriate professional bodies for disciplinary action.

(6) Coordinate, to the extent practicable, audits made by or for Federal agencies that are in addition to the audits made pursuant to this Circular, so that the additional audits build upon such audits.

(7) Oversee the resolution of audit findings that affect the programs of more than one agency.

12. Illegal acts or irregularities. If the auditor becomes aware of illegal acts or other irregularities, prompt notice shall be given to recipient management officials above the level of involvement. (See also paragraph 13a)(3) below for the auditor’s reporting responsibilities.) The recipient, in turn, shall promptly notify the cognizant agency of the illegal acts or irregularities and of proposed and actual actions, if any. Illegal acts and irregularities include such matters as conflicts of interest, falsification of records or reports, and misappropriations of funds or other assets.

13. Audit Reports. Audit reports must be prepared at the completion of the audit. Reports serve many needs of State and local governments as well as meeting the requirements of the Single Audit Act.

a. The audit report shall state that the audit was made in accordance with the provisions of this Circular. The report shall be made up of at least:

(1) The auditor’s report on financial statements and on a schedule of Federal assistance; the financial statements; and a schedule of Federal assistance, showing the total expenditures for each Federal assistance program as identified in the Catalog of Federal Domestic Assistance. Federal programs or grants that have not been assigned a catalog number shall be identified under the caption “other Federal assistance.”

(2) The auditor’s report on the study and evaluation of internal control systems must identify the organization’s significant internal accounting controls, and those controls designed to provide reasonable assurance that Federal programs are being managed in compliance with laws and regulations. It must also identify the controls that were evaluated, the controls that were not evaluated, and the material weaknesses identified as a result of the evaluation.

(3) The auditor’s report on compliance containing:

—A statement of positive assurance with respect to those items tested for compliance, including compliance with law and regulations pertaining to financial reports and claims for advances and reimbursements;

—Negative assurance on those items not tested;
—A summary of all instances of noncompliance; and
—An identification of total amounts questioned, if any, for each Federal assistance award, as a result of noncompliance.

b. The three parts of the audit report may be bound into a single report, or presented at the same time as separate documents.

c. All fraud abuse, or illegal acts or indications of such acts, including all questioned costs found as the result of these acts that audits disclose, become aware of, should normally be covered in a separate written report submitted in accordance with paragraph 13f.

d. In addition to the audit report, the recipient shall provide comments on the findings and recommendations in the report, including a plan for corrective action taken or planned and comments on the status of corrective action taken on prior findings. If corrective action is not necessary, a statement describing the reason it is not should accompany the audit report.

e. The reports shall be made available by the State or local government for public inspection within 30 days after the completion of the audit.

f. In accordance with generally accepted government audit standards, reports shall be submitted by the auditor to the organization audited and to those requiring or arranging for the audit. In addition, the recipient shall submit copies of the reports to each Federal department or agency that provided Federal assistance funds to the recipient. Subrecipients shall submit copies to recipients that provided them Federal assistance funds. The reports shall be sent within 30 days after the completion of the audit, but no later than one year after the end of the audit period unless a longer period is agreed to with the cognizant agency.

g. Recipients of more than $100,000 in Federal funds shall submit one copy of the audit report within 30 days after issuance to a central clearinghouse to be designated by the Office of Management and Budget. The clearinghouse will keep completed audits on file and follow up with State and local governments that have not submitted required audit reports.

h. Recipients shall keep audit reports on file for three years from their issuance.

14. Audit Resolution. As provided in paragraph 11, the cognizant agency shall be responsible for monitoring the resolution of audit findings that affect the programs of more than one Federal agency. Resolution of findings that relate to the programs of a single Federal agency will be the responsibility of the recipient and that agency. Alternate arrangements may be made on a case-by-case basis by a case-by-case basis by agreement among the agencies concerned.

Resolution shall be made within six months after receipt of the report by the Federal departments and agencies. Corrective action should proceed as rapidly as possible.

15. Audit workpapers and reports. Workpapers and reports shall be retained for a minimum of three years from the date of the audit report, unless the auditor is notified in writing by the cognizant agency to extend the retention period. Audit workpapers shall be made available upon request to the cognizant agency or its designee or the General Accounting Office, at the completion of the audit.

16. Audit Costs. The cost of audits made in accordance with the provisions of this Circular are allowable charges to Federal assistance programs.

a. The charges may be considered a direct cost or an allocated indirect cost, determined in accordance with the provision of Circular A-87, “Cost principles for State and local governments.”

b. Generally, the percentage of costs charged to Federal assistance programs for a single audit shall not exceed the percentage that Federal funds expended represent of total funds expended by the recipient during the fiscal year. The percentage may be exceeded, however, if appropriate documentation demonstrates higher actual costs.

17. Sanctions. The Single Audit Act provides that no cost may be charged to Federal assistance programs for audits required by the Act that are not made in accordance with this Circular. In cases of continued inability or unwillingness to have a proper audit, Federal agencies must consider other appropriate sanctions including:

—Withholding a percentage of assistance payments until the audit is completed satisfactorily,

—Withholding or disallowing overhead costs, and

—Suspending the Federal assistance agreement until the audit is made.

18. Auditor Selection. In arranging for audit services State and local governments shall follow the procurement standards prescribed by Attachment O of Circular A-102, “Uniform requirements for grants to State and local governments.” The standards provide that while recipients are encouraged to enter into intergovernmental agreements for audit and other services, analysis should be made to determine whether it would be more economical to purchase the services from private firms. In instances where use of such intergovernmental agreements are required by State statutes (e.g., audit services) these statutes will take precedence.

19. Small and Minority Audit Firms. Small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals shall have the maximum practicable opportunity to participate
in contracts awarded to fulfill the requirements of this Circular. Recipients of Federal assistance shall take the following steps to further this goal:

a. Assure that small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals are used to the fullest extent practicable.

b. Make information on forthcoming opportunities available and arrange time-frames for the audit so as to encourage and facilitate participation by small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals.

c. Consider in the contract process whether firms competing for large audits intend to subcontract with small audit firms and audit firms owned and controlled by socially and economically disadvantaged individuals.

d. Encourage contracting with small audit firms or audit firms owned and controlled by socially and economically disadvantaged individuals which have traditionally audited government programs and, in such cases where this is not possible, assure that these firms are given consideration for audit subcontracting opportunities.

e. Encourage contracting with consortiums of small audit firms as described in paragraph (a) above when a contract is too large for an individual small audit firm or audit firm owned and controlled by socially and economically disadvantaged individuals.

f. Use the services and assistance, as appropriate, of such organizations as the Small Business Administration in the solicitation and utilization of small audit firms or audit firms owned and controlled by socially and economically disadvantaged individuals.

20. Reporting. Each Federal agency will report to the Director of OMB on or before March 1, 1987, and annually thereafter on the effectiveness of State and local governments in carrying out the provisions of this Circular. The report must identify each State or local government or Indian tribe that, in the opinion of the agency, is failing to comply with the Circular.

21. Regulations. Each Federal agency shall include the provisions of this Circular in its regulations implementing the Single Audit Act.

22. Effective date. This Circular is effective upon publication and shall apply to fiscal years of State and local governments that begin after December 31, 1984. Earlier implementation is encouraged. However, until it is implemented, the audit provisions of Attachment P to Circular A-102 shall continue to be observed.

23. Inquiries. All questions or inquiries should be addressed to Financial Management Division, Office of Management and Budget, telephone number 202/395-7000.

24. Sunset review date. This Circular shall have an independent policy review to ascertain its effectiveness three years from the date of issuance.

David A. Stockman, Director.

Definition of Major Program as Provided in Pub. L. 98-502

“Major Federal Assistance Program,” for State and local governments having Federal assistance expenditures between $100,000 and $100,000,000, means any program for which Federal expenditures during the applicable year exceed the larger of $300,000, or 3 percent of such total expenditures.

Where total expenditures of Federal assistance exceed $100,000,000, the following criteria apply:

<table>
<thead>
<tr>
<th>Total expenditures of Federal financial assistance for all programs</th>
<th>Major federal assistance program means any program that exceeds</th>
</tr>
</thead>

PART 3016—UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS TO STATE AND LOCAL GOVERNMENTS

Subpart A—General

Sec. 3016.1 Purpose and scope of this part.
3016.2 Scope of subpart.
3016.3 Definitions.
3016.4 Applicability.
3016.5 Effect on other issuances.
3016.6 Additions and exceptions.

Subpart B—Pre-Award Requirements

3016.10 Forms for applying for grants.
3016.11 State plans.
3016.12 Special grant or subgrant conditions for “high-risk” grantees.

Subpart C—Post-Award Requirements

3016.20 Standards for financial systems.
3016.21 Payment.
§ 3016.1

3016.22 Allowable costs.
3016.23 Period of availability of funds.
3016.24 Matching or cost sharing.
3016.25 Program income.
3016.26 Non-Federal audit.

Changes, Property, and Subawards

3016.30 Changes.
3016.31 Real property.
3016.32 Equipment.
3016.33 Supplies.
3016.34 Copyrights.
3016.35 Subawards to debarred and suspended parties.
3016.36 Procurement.
3016.37 Subgrants.

Reports, Records, Retention, and Enforcement

3016.40 Monitoring and reporting program performance.
3016.41 Financial reporting.
3016.42 Retention and access requirements for records.
3016.43 Enforcement.
3016.44 Termination for convenience.

Subpart D—After-the-Grant Requirements

3016.50 Closeout.
3016.51 Later disallowances and adjustments.
3016.52 Collection of amounts due.

Subpart E—Entitlement [Reserved]

Authority: 5 U.S.C. 301.
Source: 53 FR 8044, 8087, Mar. 11, 1988, unless otherwise noted.

Subpart A—General

§ 3016.1 Purpose and scope of this part.

This part establishes uniform administrative rules for Federal grants and cooperative agreements and subawards to State, local and Indian tribal governments.

§ 3016.2 Scope of subpart.

This subpart contains general rules pertaining to this part and procedures for control of exceptions from this part.

§ 3016.3 Definitions.

As used in this part:

Accrued expenditures mean the charges incurred by the grantee during a given period requiring the provision of funds for: (1) Goods and other tangible property received; (2) services performed by employees, contractors, subgrantees, subcontractors, and other payees; and (3) other amounts becoming owed under programs for which no current services or performance is required, such as annuities, insurance claims, and other benefit payments.

Accrued income means the sum of: (1) Earnings during a given period from services performed by the grantee and goods and other tangible property delivered to purchasers, and (2) amounts becoming owed to the grantee for which no current services or performance is required by the grantee.

Acquisition cost of an item of purchased equipment means the net invoice unit price of the property including the cost of modifications, attachments, accessories, or auxiliary apparatus necessary to make the property usable for the purpose for which it was acquired. Other charges such as the cost of installation, transportation, taxes, duty or protective in-transit insurance, shall be included or excluded from the unit acquisition cost in accordance with the grantee's regular accounting practices.

Administrative requirements mean those matters common to grants in general, such as financial management, kinds and frequency of reports, and retention of records. These are distinguished from programmatic requirements, which concern matters that can be treated only on a program-by-program or grant-by-grant basis, such as kinds of activities that can be supported by grants under a particular program.

Awarding agency means (1) with respect to a grant, the Federal agency, and (2) with respect to a subgrant, the party that awarded the subgrant.

Cash contributions means the grantee's cash outlay, including the outlay of money contributed to the grantee or subgrantee by other public agencies and institutions, and private organizations and individuals. When authorized by Federal legislation, Federal funds
received from other assistance agreements may be considered as grantee or subgrantee cash contributions.

Contract means (except as used in the definitions for grant and subgrant in this section and except where qualified by Federal) a procurement contract under a grant or subgrant, and means a procurement subcontract under a contract.

Cost sharing or matching means the value of the third party in-kind contributions and the portion of the costs of a federally assisted project or program not borne by the Federal Government.

Cost-type contract means a contract or subcontract under a grant in which the contractor or subcontractor is paid on the basis of the costs it incurs, with or without a fee.

Equipment means tangible, non-expendable, personal property having a useful life of more than one year and an acquisition cost of $5,000 or more per unit. A grantee may use its own definition of equipment provided that such definition would at least include all equipment defined above.

Expenditure report means: (1) For non-construction grants, the SF-269 Financial Status Report (or other equivalent report); (2) for construction grants, the SF-271 Outlay Report and Request for Reimbursement (or other equivalent report).

Federally recognized Indian tribal government means the governing body or a governmental agency of any Indian tribe, band, nation, or other organized group or community (including any Native village as defined in section 3 of the Alaska Native Claims Settlement Act, 85 Stat 688) certified by the Secretary of the Interior as eligible for the special programs and services provided by him through the Bureau of Indian Affairs.

Government means a State or local government or a federally recognized Indian tribal government.

Grant means an award of financial assistance, including cooperative agreements, in the form of money, or property in lieu of money, by the Federal Government to an eligible grantee. The term does not include technical assistance which provides services instead of money, or other assistance in the form of revenue sharing, loans, loan guarantees, interest subsidies, insurance, or direct appropriations. Also, the term does not include assistance, such as a fellowship or other lump sum award, which the grantee is not required to account for.

Grantee means the government to which a grant is awarded and which is accountable for the use of the funds provided. The grantee is the entire legal entity even if only a particular component of the entity is designated in the grant award document.

Local government means a county, municipality, city, town, township, local public authority (including any public and Indian housing agency under the United States Housing Act of 1937) school district, special district, intrastate district, council of governments (whether or not incorporated as a nonprofit corporation under state law), any other regional or interstate government entity, or any agency or instrumentality of a local government.

Obligations means the amounts of orders placed, contracts and subgrants awarded, goods and services received, and similar transactions during a given period that will require payment by the grantee during the same or a future period.

OMB means the United States Office of Management and Budget.

Outlays (expenditures) mean charges made to the project or program. They may be reported on a cash or accrual basis. For reports prepared on a cash basis, outlays are the sum of actual cash disbursement for direct charges for goods and services, the amount of indirect expense incurred, the value of in-kind contributions applied, and the amount of cash advances and payments made to contractors and subgrantees. For reports prepared on an accrued expenditure basis, outlays are the sum of actual cash disbursements, the amount of indirect expense incurred, the value of in-kind contributions applied, and the new increase (or decrease) in the amounts owed by the grantee for goods and other property received, for services performed by employees, contractors, subgrantees, subcontractors, and other payees, and other amounts becoming owed under programs for which no current services or performance are
required, such as annuities, insurance claims, and other benefit payments.

Percentage of completion method refers to a system under which payments are made for construction work according to the percentage of completion of the work, rather than to the grantee's cost incurred.

Prior approval means documentation evidencing consent prior to incurring specific cost.

Real property means land, including land improvements, structures and appurtenances thereto, excluding movable machinery and equipment.

Share, when referring to the awarding agency's portion of real property, equipment or supplies, means the same percentage as the awarding agency's portion of the acquiring party's total costs under the grant to which the acquisition costs under the grant to which the acquisition cost of the property was charged. Only costs are to be counted—not the value of third-party in-kind contributions.

State means any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State exclusive of local governments. The term does not include any public and Indian housing agency under United States Housing Act of 1937.

Subgrant means an award of financial assistance in the form of money, or property in lieu of money, made under a grant by a grantee to an eligible subgrantee. The term includes financial assistance when provided by contractual legal agreement, but does not include procurement purchases, nor does it include any form of assistance which is excluded from the definition of grant in this part.

Subgrantee means the government or other legal entity to which a subgrant is awarded and which is accountable to the grantee for the use of the funds provided.

Supplies means all tangible personal property other than equipment as defined in this part.

Suspension means depending on the context, either (1) temporary withdrawal of the authority to obligate grant funds pending corrective action by the grantee or subgrantee or a decision to terminate the grant, or (2) an action taken by a suspending official in accordance with agency regulations implementing E.O. 12549 to immediately exclude a person from participating in grant transactions for a period, pending completion of an investigation and such legal or debarment proceedings as may ensue.

Termination means permanent withdrawal of the authority to obligate previously-awarded grant funds before that authority would otherwise expire. It also means the voluntary relinquishment of that authority by the grantee or subgrantee. Termination does not include: (1) Withdrawal of funds awarded on the basis of the grantee's underestimate of the unobligated balance in a prior period; (2) Withdrawal of the unobligated balance as of the expiration of a grant; (3) Refusal to extend a grant or award additional funds, to make a competing or noncompeting continuation, renewal, extension, or supplemental award; or (4) voiding of a grant upon determination that the award was obtained fraudulently, or was otherwise illegal or invalid from inception.

Terms of a grant or subgrant mean all requirements of the grant or subgrant, whether in statute, regulations, or the award document.

Third party in-kind contributions mean property or services which benefit a federally assisted project or program and which are contributed by non-federal third parties without charge to the grantee, or a cost-type contractor under the grant agreement.

Unliquidated obligations for reports prepared on a cash basis mean the amount of obligations incurred by the grantee that has not been paid. For reports prepared on an accrued expenditure basis, they represent the amount of obligations incurred by the grantee for which an outlay has not been recorded.

Unobligated balance means the portion of the funds authorized by the Federal agency that has not been obligated by the grantee and is determined by deducting the cumulative obligations from the cumulative funds authorized.
§ 3016.4 Applicability.

(a) General. Subparts A–D of this part apply to all grants and subgrants to governments, except where inconsistent with Federal statutes or with regulations authorized in accordance with the exception provision of § 3016.6, or:

(1) Grants and subgrants to State and local institutions of higher education or State and local hospitals.

(2) The block grants authorized by the Omnibus Budget Reconciliation Act of 1981 (Community Services; Preventive Health and Health Services; Alcohol, Drug Abuse, and Mental Health Services; Maternal and Child Health Services; Social Services; Low-Income Home Energy Assistance; States' Program of Community Development Block Grants for Small Cities; and Elementary and Secondary Education other than programs administered by the Secretary of Education under Title V, Subtitle D, Chapter 2, Section 583—the Secretary's discretionary grant program) and Titles I–III of the Job Training Partnership Act of 1982 and under the Public Health Services Act (Section 212), Alcohol and Drug Abuse Treatment and Rehabilitation Block Grant and Part C of Title V, Mental Health Service for the Homeless Block Grant).

(3) Entitlement grants to carry out the following programs of the Social Security Act:

(i) Aid to Needy Families with Dependent Children (Title IV–A of the Act, not including the Work Incentive Program (WIN) authorized by section 402(a)(19)(G); HHS grants for WIN are subject to this part);

(ii) Child Support Enforcement and Establishment of Paternity (Title IV–D of the Act);

(iii) Foster Care and Adoption Assistance (Title IV–E of the Act);

(iv) Aid to the Aged, Blind, and Disabled (Titles I, X, XIV, and XVI–AABD of the Act); and

(v) Medical Assistance (Medicaid) (Title XIX of the Act) not including the State Medicaid Fraud Control program authorized by section 1903(a)(6)(B).

(4) Entitlement grants under the following programs of The National School Lunch Act:

(i) School Lunch (section 4 of the Act), (ii) Commodity Assistance (section 6 of the Act), (iii) Special Meal Assistance (section 11 of the Act), (iv) Summer Food Service for Children (section 13 of the Act), and (v) Child Care Food Program (section 17 of the Act).

(5) Entitlement grants under the following programs of The Child Nutrition Act of 1966:

(i) Special Milk (section 3 of the Act), and

(ii) School Breakfast (section 4 of the Act).

(6) Entitlement grants for State Administrative expenses under The Food Stamp Act of 1977 (section 16 of the Act).

(7) A grant for an experimental, pilot, or demonstration project that is also supported by a grant listed in paragraph (a)(3) of this section;

(8) Grant funds awarded under subsection 412(e) of the Immigration and Nationality Act (8 U.S.C. 1522(e)) and subsection 501(a) of the Refugee Education Assistance Act of 1980 (Pub. L. 96–422, 94 Stat. 1809), for cash assistance, medical assistance, and supplemental security income benefits to refugees and entrants and the administrative costs of providing the assistance and benefits;

(9) Grants to local education agencies under 20 U.S.C. 236 through 241–1(a), and 242 through 244 (portions of the Impact Aid program), except for 20 U.S.C. 238(d)(2)(c) and 240(f) (Entitlement Increase for Handicapped Children); and

(10) Payments under the Veterans Administration’s State Home Per Diem Program (38 U.S.C. 641(a)).

(b) Entitlement programs. Entitlement programs enumerated above in § 3016.4(a)(3)–(8) are subject to Subpart E.

§ 3016.5 Effect on other issuances.

All other grants administration provisions of codified program regulations, program manuals, handbooks and other nonregulatory materials which are inconsistent with this part are superseded, except to the extent they are required by statute, or authorized in accordance with the exception provision in § 3016.6.
§ 3016.6 Additions and exceptions.

(a) For classes of grants and grantees subject to this part, Federal agencies may not impose additional administrative requirements except in codified regulations published in the Federal Register.

(b) Exceptions for classes of grants or grantees may be authorized only by OMB.

(c) Exceptions on a case-by-case basis and for subgrantees may be authorized by the affected Federal agencies.

Subpart B—Pre-Award Requirements

§ 3016.10 Forms for applying for grants.

(a) Scope. (1) This section prescribes forms and instructions to be used by governmental organizations (except hospitals and institutions of higher education operated by a government) in applying for grants. This section is not applicable, however, to formula grant programs which do not require applicants to apply for funds on a project basis.

(2) This section applies only to applications to Federal agencies for grants, and is not required to be applied by grantees in dealing with applicants for subgrants. However, grantees are encouraged to avoid more detailed or burdensome application requirements for subgrants.

(b) Authorized forms and instructions for governmental organizations. (1) In applying for grants, applicants shall only use standard application forms or those prescribed by the granting agency with the approval of OMB under the Paperwork Reduction Act of 1990.

(2) Applicants are not required to submit more than the original and two copies of preapplications or applications.

(3) Applicants must follow all applicable instructions that bear OMB clearance numbers. Federal agencies may specify and describe the programs, functions, or activities that will be used to plan, budget, and evaluate the work under a grant. Other supplementary instructions may be issued only with the approval of OMB to the extent required under the Paperwork Reduction Act of 1990. For any standard form, except the SF-424 facesheet, Federal agencies may shade out or instruct the applicant to disregard any line item that is not needed.

(4) When a grantee applies for additional funding (such as a continuation or supplemental award) or amends a previously submitted application, only the affected pages need be submitted. Previously submitted pages with information that is still current need not be resubmitted.

§ 3016.11 State plans.

(a) Scope. The statutes for some programs require States to submit plans before receiving grants. Under regulations implementing Executive Order 12372, “Intergovernmental Review of Federal Programs,” States are allowed to simplify, consolidate and substitute plans. This section contains additional provisions for plans that are subject to regulations implementing the Executive Order.

(b) Requirements. A State need meet only Federal administrative or programmatic requirements for a plan that are in statutes or codified regulations.

(c) Assurances. In each plan the State will include an assurance that the State shall comply with all applicable Federal statutes and regulations in effect with respect to the periods for which it receives grant funding. For this assurance and other assurances required in the plan, the State may:

(1) Cite by number the statutory or regulatory provisions requiring the assurances and affirm that it gives the assurances required by those provisions,

(2) Repeat the assurance language in the statutes or regulations, or

(3) Develop its own language to the extent permitted by law.

(d) Amendments. A State will amend a plan whenever necessary to reflect:

(1) New or revised Federal statutes or regulations or

(2) A material change in any State law, organization, policy, or State agency operation. The State will obtain approval for the amendment and its effective date but need submit for approval only the amended portions of the plan.
§ 3016.12 Special grant or subgrant conditions for “high-risk” grantees.

(a) A grantee or subgrantee may be considered “high risk” if an awarding agency determines that a grantee or subgrantee:

1. Has a history of unsatisfactory performance, or
2. Is not financially stable, or
3. Has a management system which does not meet the management standards set forth in this part, or
4. Has not conformed to terms and conditions of previous awards, or
5. Is otherwise not responsible; and if the awarding agency determines that an award will be made, special conditions and/or restrictions shall correspond to the high risk condition and shall be included in the award.

(b) Special conditions or restrictions may include:

1. Payment on a reimbursement basis;
2. Withholding authority to proceed to the next phase until receipt of evidence of acceptable performance within a given funding period;
3. Requiring additional, more detailed financial reports;
4. Additional project monitoring;
5. Requiring the grantee or subgrantee to obtain technical or management assistance; or
6. Establishing additional prior approvals.

(c) If an awarding agency decides to impose such conditions, the awarding official will notify the grantee or subgrantee as early as possible, in writing, of:

1. The nature of the special conditions/restrictions;
2. The reason(s) for imposing them;
3. The corrective actions which must be taken before they will be removed and the time allowed for completing the corrective actions; and
4. The method of requesting reconsideration of the conditions/restrictions imposed.

§ 3016.20 Standards for financial management systems.

(a) A State must expand and account for grant funds in accordance with State laws and procedures for expending and accounting for its own funds. Fiscal control and accounting procedures of the State, as well as its subgrantees and cost-type contractors, must be sufficient to—

1. Permit preparation of reports required by this part and the statutes authorizing the grant, and
2. Permit the tracing of funds to a level of expenditures adequate to establish that such funds have not been used in violation of the restrictions and prohibitions of applicable statutes.

(b) The financial management systems of other grantees and subgrantees must meet the following standards:

1. Financial reporting. Accurate, current, and complete disclosure of the financial results of financially assisted activities must be made in accordance with the financial reporting requirements of the grant or subgrant.
2. Accounting records. Grantees and subgrantees must maintain records which adequately identify the source and application of funds provided for financially-assisted activities. These records must contain information pertaining to grant or subgrant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays or expenditures, and income.
3. Internal control. Effective control and accountability must be maintained for all grant and subgrant cash, real and personal property, and other assets. Grantees and subgrantees must adequately safeguard all such property and must assure that it is used solely for authorized purposes.
4. Budget control. Actual expenditures or outlays must be compared with budgeted amounts for each grant or subgrant. Financial information
must be related to performance or productivity data, including the development of unit cost information whenever appropriate or specifically required in the grant or subgrant agreement. If unit cost data are required, estimates based on available documentation will be accepted whenever possible.

(5) Allowable cost. Applicable OMB cost principles, agency program regulations, and the terms of grant and subgrant agreements will be followed in determining the reasonableness, allowability, and allocability of costs.

(6) Source documentation. Accounting records must be supported by such source documentation as cancelled checks, paid bills, payrolls, time and attendance records, contract and subgrant award documents, etc.

(7) Cash management. Procedures for minimizing the time elapsing between the transfer of funds from the U.S. Treasury and disbursement by grantees and subgrantees must be followed whenever advance payment procedures are used. Grantees must establish reasonable procedures to ensure the receipt of reports on subgrantees’ cash balances and cash disbursements in sufficient time to enable them to prepare complete and accurate cash transactions reports to the awarding agency. When advances are made by letter-of-credit or electronic transfer of funds methods, the grantee must make drawdowns as close as possible to the time of making disbursements. Grantees must monitor cash drawdowns by their subgrantees to assure that they conform substantially to the same standards of timing and amount as apply to advances to the grantees.

(c) An awarding agency may review the adequacy of the financial management system of any applicant for financial assistance as part of a preaward review or at any time subsequent to award.

§ 3016.21 Payment.

(a) Scope. This section prescribes the basic standard and the methods under which a Federal agency will make payments to grantees, and grantees will make payments to subgrantees and contractors. (b) Basic standard. Methods and procedures for payment shall minimize the time elapsing between the transfer of funds and disbursement by the grantee or subgrantee, in accordance with Treasury regulations at 31 CFR part 205. (c) Advances. Grantees and subgrantees shall be paid in advance, provided they maintain or demonstrate the willingness and ability to maintain procedures to minimize the time elapsing between the transfer of the funds and their disbursement by the grantee or subgrantee.

(d) Reimbursement. Reimbursement shall be the preferred method when the requirements in paragraph (c) of this section are not met. Grantees and subgrantees may also be paid by reimbursement for any construction grant. Except as otherwise specified in regulation, Federal agencies shall not use the percentage of completion method to pay construction grants. The grantee or subgrantee may use that method to pay its construction contractor, and if it does, the awarding agency’s payments to the grantee or subgrantee will be based on the grantee’s or subgrantee’s actual rate of disbursement.

(e) Working capital advances. If a grantee cannot meet the criteria for advance payments described in paragraph (c) of this section, and the Federal agency has determined that reimbursement is not feasible because the grantee lacks sufficient working capital, the awarding agency may provide cash or a working capital advance basis. Under this procedure the awarding agency shall advance cash to the grantee to cover its estimated disbursement needs for an initial period generally geared to the grantee’s disbursing cycle. Thereafter, the awarding agency shall reimburse the grantee for its actual cash disbursements. The working capital advance method of payment shall not be used by grantees or subgrantees if the reason for using such method is the unwillingness or inability of the grantee to provide timely advances to the subgrantee to meet the subgrantee’s actual cash disbursements.

(f) Effect of program income, refunds, and audit recoveries on payment.
Grantees and subgrantees shall disburse repayments to and interest earned on a revolving fund before requesting additional cash payments for the same activity.

(2) Except as provided in paragraph (f)(1) of this section, grantees and subgrantees shall disburse program income, rebates, refunds, contract settlements, audit recoveries and interest earned on such funds before requesting additional cash payments.

(g) Withholding payments. (1) Unless otherwise required by Federal statute, awarding agencies shall not withhold payments for proper charges incurred by grantees or subgrantees unless—
(i) The grantee or subgrantee has failed to comply with grant award conditions or
(ii) The grantee or subgrantee is indebted to the United States.

(2) Cash withheld for failure to comply with grant award condition, but without suspension of the grant, shall be released to the grantee upon subsequent compliance. When a grant is suspended, payment adjustments will be made in accordance with §3016.43(c).

(3) A Federal agency shall not make payment to grantees for amounts that are withheld by grantees or subgrantees from payment to contractors to assure satisfactory completion of work. Payments shall be made by the Federal agency when the grantees or subgrantees actually disburse the withheld funds to the contractors or to escrow accounts established to assure satisfactory completion of work.

(h) Cash depositories. (1) Consistent with the national goal of expanding the opportunities for minority business enterprises, grantees and subgrantees are encouraged to use minority banks (a bank which is owned at least 50 percent by minority group members). A list of minority owned banks can be obtained from the Minority Business Development Agency, Department of Commerce, Washington, DC 20230.

(2) A grantee or subgrantee shall maintain a separate bank account only when required by Federal-State agreement.

(i) Interest earned on advances. Except for interest earned on advances of funds exempt under the Intergovernmental Cooperation Act (31 U.S.C. 6501 et seq.) and the Indian Self-Determination Act (23 U.S.C. 450), grantees and subgrantees shall promptly, but at least quarterly, remit interest earned on advances to the Federal agency. The grantee or subgrantee may keep interest amounts up to $100 per year for administrative expenses.

§ 3016.22 Allowable costs.

(a) Limitation on use of funds. Grant funds may be used only for:

(1) The allowable costs of the grantees, subgrantees and cost-type contractors, including allowable costs in the form of payments to fixed-price contractors; and

(2) Reasonable fees or profit to cost-type contractors but not any fee or profit (or other increment above allowable costs) to the grantee or subgrantee.

(b) Applicable cost principles. For each kind of organization, there is a set of Federal principles for determining allowable costs. Allowable costs will be determined in accordance with the cost principles applicable to the organization incurring the costs. The following chart lists the kinds of organizations and the applicable cost principles.

<table>

§ 3016.23 Period of availability of funds.

(a) General. Where a funding period is specified, a grantee may charge to the award only costs resulting from obligations of the funding period unless carryover of unobligated balances is permitted, in which case the carryover balances may be charged for costs resulting from obligations of the subsequent funding period.
§ 3016.24 Matching or cost sharing.

(a) Basic rule: Costs and contributions acceptable. With the qualifications and exceptions listed in paragraph (b) of this section, a matching or cost sharing requirement may be satisfied by either or both of the following:

(1) Allowable costs incurred by the grantee, subgrantee or a cost-type contractor under the assistance agreement. This includes allowable costs borne by non-Federal grants or by others cash donations from non-Federal third parties.

(2) The value of third party in-kind contributions applicable to the period to which the cost sharing or matching requirements applies.

(b) Qualifications and exceptions—(1) Costs borne by other Federal grant agreements. Except as provided by Federal statute, a cost sharing or matching requirement may not be met by costs borne by another Federal grant. This prohibition does not apply to income earned by a grantee or subgrantee from a contract awarded under another Federal grant.

(2) General revenue sharing. For the purpose of this section, general revenue sharing funds distributed under 31 U.S.C. 6702 are not considered Federal grant funds.

(3) Costs or contributions counted towards other Federal costs-sharing requirements. Neither costs nor the values of third party in-kind contributions may count towards satisfying a cost sharing or matching requirement of a grant agreement if they have been or will be counted towards satisfying a cost sharing or matching requirement of another Federal grant agreement, a Federal procurement contract, or any other award of Federal funds.

(4) Costs financed by program income. Costs financed by program income, as defined in § 3016.25, shall not count towards satisfying a cost sharing or matching requirement unless they are expressly permitted in the terms of the assistance agreement. (This use of general program income is described in § 3016.25(g)).

(5) Services or property financed by income earned by contractors. Contractors under a grant may earn income from the activities carried out under the contract in addition to the amounts earned from the party awarding the contract. No costs of services or property supported by this income may count toward satisfying a cost sharing or matching requirement unless other provisions of the grant agreement expressly permit this kind of income to be used to meet the requirement.

(6) Records. Costs and third party in-kind contributions counting towards satisfying a cost sharing or matching requirement must be verifiable from the records of grantees and subgrantee or cost-type contractors. These records must show how the value placed on third party in-kind contributions was derived. To the extent feasible, volunteer services will be supported by the same methods that the organization uses to support the allocability of regular personnel costs.

(7) Special standards for third party in-kind contributions. (i) Third party in-kind contributions count towards satisfying a cost sharing or matching requirement only where, if the party receiving the contributions were to pay for them, the payments would be allowable costs.

(ii) Some third party in-kind contributions are goods and services that, if the grantee, subgrantee, or contractor receiving the contribution had to pay for them, the payments would have been an indirect costs. Costs sharing or matching credit for such contributions shall be given only if the grantee, subgrantee, or contractor has established, along with its regular indirect cost rate, a special rate for allocating to individual projects or programs the value of the contributions.

(iii) A third party in-kind contribution to a fixed-price contract may count towards satisfying a cost sharing or matching requirement only if it results in:
Office of Chief Financial Officer, USDA  § 3016.24

(A) An increase in the services or property provided under the contract (without additional cost to the grantee or subgrantee) or
(B) A cost savings to the grantee or subgrantee.

(iv) The values placed on third party in-kind contributions for cost sharing or matching purposes will conform to the rules in the succeeding sections of this part. If a third party in-kind contribution is a type not treated in those sections, the value placed upon it shall be fair and reasonable.

(c) Valuation of donated services—(1) Volunteer services. Unpaid services provided to a grantee or subgrantee by individuals will be valued at rates consistent with those ordinarily paid for similar work in the grantee's or subgrantee's organization. If the grantee or subgrantee does not have employees performing similar work, the rates will be consistent with those ordinarily paid by other employers for similar work in the same labor market. In either case, a reasonable amount for fringe benefits may be included in the valuation.

(2) Employees of other organizations. When an employer other than a grantee, subgrantee, or cost-type contractor furnishes free of charge the services of an employee in the employee's normal line of work, the services will be valued at the employee's regular rate of pay exclusive of the employee's fringe benefits and overhead costs. If the services are in a different line of work, the rates will be consistent with those ordinarily paid by other employers for similar work in the same labor market. In either case, a reasonable amount for fringe benefits may be included in the valuation.

(d) Valuation of third party donated supplies and loaned equipment or space. (1) If a third party donates supplies, the contribution will be valued at the market value of the supplies at the time of donation.

(2) If a third party donates the use of equipment or space in a building but retains title, the contribution will be valued at the fair rental rate of the equipment or space.

(e) Valuation of third party donated equipment, buildings, and land. If a third party donates equipment, buildings, or land, and title passes to a grantee or subgrantee, the treatment of the donated property will depend upon the purpose of the grant or subgrant, as follows:

(1) Awards for capital expenditures. If the purpose of the grant or subgrant is to assist the grantee or subgrantee in the acquisition of property, the market value of that property at the time of donation may be counted as cost sharing or matching.

(2) Other awards. If assisting in the acquisition of property is not the purpose of the grant or subgrant, paragraphs (e)(2) (i) and (ii) of this section apply:

(i) If approval is obtained from the awarding agency, the market value at the time of donation of the donated equipment or buildings and the fair rental rate of the donated land may be counted as cost sharing or matching.

In the case of a subgrant, the terms of the grant agreement may require that the approval be obtained from the Federal agency as well as the grantee. In all cases, the approval may be given only if a purchase of the equipment or rental of the land would be approved as an allowable direct cost. If any part of the donated property was acquired with Federal funds, only the non-federal share of the property may be counted as cost-sharing or matching.

(ii) If approval is not obtained under paragraph (e)(2)(i) of this section, no amount may be counted for donated land, and only depreciation or use allowances may be counted for donated equipment and buildings. The depreciation or use allowances for this property are not treated as third party in-kind contributions. Instead, they are treated as costs incurred by the grantee or subgrantee. They are computed and allocated (usually as indirect costs) in accordance with the cost principles specified in §3016.22, in the same way as depreciation or use allowances for purchased equipment and buildings. The amount of depreciation or use allowances for donated equipment and buildings is based on the property's market value at the time it was donated.

(f) Valuation of grantee or subgrantee donated real property for construction/acquisition. If a grantee or subgrantee donates real property for a construction or facilities acquisition project, the current market value of that property may be counted as cost sharing or matching. If any part of the donated property was acquired with Federal
§ 3016.25 Program income.

(a) General. Grantees are encouraged to earn income to defray program costs. Program income includes income from fees for services performed, from the use or rental of real or personal property acquired with grant funds, from the sale of commodities or items fabricated under a grant agreement, and from payments of principal and interest on loans made with grant funds. Except as otherwise provided in regulations of the Federal agency, program income does not include interest on grant funds, rebates, credits, discounts, refunds, etc. and interest earned on any of them.

(b) Definition of program income. Program income means gross income received by the grantee or subgrantee directly generated by a grant supported activity, or earned only as a result of the grant agreement during the grant period. “During the grant period” is the time between the effective date of the award and the ending date of the award reflected in the final financial report.

(c) Cost of generating program income. If authorized by Federal regulations or the grant agreement, costs incident to the generation of program income may be deducted from gross income to determine program income.

(d) Governmental revenues. Taxes, special assessments, levies, fines, and other such revenues raised by a grantee or subgrantee are not program income unless the revenues are specifically identified in the grant agreement or Federal agency regulations as program income.

(e) Royalties. Income from royalties and license fees for copyrighted material, patents, and inventions developed by a grantee or subgrantee is program income only if the revenues are specifically identified in the grant agreement or Federal agency regulations as program income. (See §3016.34.)

(f) Property. Proceeds from the sale of real property or equipment will be handled in accordance with the requirements of §§3016.31 and 3016.32.

(g) Use of program income. Program income shall be deducted from outlays which may be both Federal and non-Federal as described below, unless the Federal agency regulations or the grant agreement specify another alternative (or a combination of the alternatives). In specifying alternatives, the Federal agency may distinguish between income earned by the grantee and income earned by subgrantees and between the sources, kinds, or amounts of income. When Federal agencies authorize the alternatives in paragraphs (g) (2) and (3) of this section, program income in excess of any limits stipulated shall also be deducted from outlays.

(1) Deduction. Ordinarily program income shall be deducted from total allowable costs to determine the net allowable costs. Program income shall be used for current costs unless the Federal agency authorizes otherwise. Program income which the grantee did not anticipate at the time of the award shall be used to reduce the Federal agency and grantee contributions rather than to increase the funds committed to the project.

(2) Addition. When authorized, program income may be added to the funds committed to the grant agreement by the Federal agency and the grantee. The program income shall be used for the purposes and under the conditions of the grant agreement.

(3) Cost sharing or matching. When authorized, program income may be used to meet the cost sharing or matching requirement of the grant agreement. The amount of the Federal grant award remains the same.

(h) Income after the award period. There are no Federal requirements governing the disposition of program income earned after the end of the award period.
Office of Chief Financial Officer, USDA § 3016.30

period (i.e., until the ending date of the final financial report, see paragraph (a) of this section), unless the terms of the agreement or the Federal agency regulations provide otherwise.

§ 3016.26 Non-Federal audit.

(a) Basic rule. Grantees and subgrantees are responsible for obtaining audits in accordance with the Single Audit Act Amendments of 1996 (31 U.S.C. 7501-7507) and revised OMB Circular A-133, “Audits of States, Local Governments, and Non-Profit Organizations.” The audits shall be made by an independent auditor in accordance with generally accepted government auditing standards covering financial audits.

(1) In USDA, revised OMB Circular A-133 is implemented in 7 CFR part 3052, “Audits of States, Local Governments, and Non-Profit Organizations.”

(2) [Reserved]

(b) Subgrantees. State or local governments, as those terms are defined for purposes of the Single Audit Act Amendments of 1996, that provide Federal awards to a subgrantee, which expend $300,000 or more (or other amount as specified by OMB) in Federal awards in a fiscal year, shall:

(1) Determine whether State or local subgrantees have met the audit requirements of the Act and whether subgrantees covered by OMB Circular A-110, “Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations,” have met the audit requirements of the Act. Commercial contractors (private for-profit and private and governmental organizations) providing goods and services to State and local governments are not required to have a single audit performed. State and local governments should use their own procedures to ensure that the contractor has complied with laws and regulations affecting the expenditure of Federal funds;

(2) Determine whether the subgrantee spent Federal assistance funds provided in accordance with applicable laws and regulations. This may be accomplished by reviewing an audit of the subgrantee made in accordance with the Act, Circular A-110, or through other means (e.g., program reviews) if the subgrantee has not had such an audit;

(3) Ensure that appropriate corrective action is taken within six months after receipt of the audit report in instance of noncompliance with Federal laws and regulations;

(4) Consider whether subgrantee audits necessitate adjustment of the grantee’s own records; and

(5) Require each subgrantee to permit independent auditors to have access to the records and financial statements.

(c) Auditor selection. In arranging for audit services, § 3016.36 shall be followed.

CHANGES, PROPERTY, AND SUBAWARDS

§ 3016.30 Changes.

(a) General. Grantees and subgrantees are permitted to rebudget within the approved direct cost budget to meet unanticipated requirements and may make limited program changes to the approved project. However, unless waived by the awarding agency, certain types of post-award changes in budgets and projects shall require the prior written approval of the awarding agency.

(b) Relation to cost principles. The applicable cost principles (see § 3016.22) contain requirements for prior approval of certain types of costs. Except where waived, those requirements apply to all grants and subgrants even if paragraphs (c) through (f) of this section do not.

(c) Budget changes. (1) Nonconstruction projects. Except as stated in other regulations or an award document, grantees or subgrantees shall obtain the prior approval of the awarding agency whenever any of the following changes is anticipated under a nonconstruction award:

(i) Any revision which would result in the need for additional funding.

(ii) Unless waived by the awarding agency, cumulative transfers among direct cost categories, or, if applicable, among separately budgeted programs, projects, functions, or activities which exceed or are expected to exceed ten percent of the current total approved
§ 3016.31 Real property.

(a) Title. Subject to the obligations and conditions set forth in this section, title to real property acquired under a grant or subgrant will vest upon acquisition in the grantee or subgrantee respectively.

(b) Use. Except as otherwise provided by Federal statutes, real property will be used for the originally authorized purposes as long as needed for that purposes, and the grantee or subgrantee shall not dispose of or encumber its title or other interests.

(c) Disposition. When real property is no longer needed for the originally authorized purpose, the grantee or subgrantee will request disposition instructions from the awarding agency. The instructions will provide for one of the following alternatives:

(1) Retention of title. Retain title after compensating the awarding agency. The amount paid to the awarding agency will be computed by applying the awarding agency’s percentage of participation in the cost of the original purchase to the fair market value of the property. However, in those situations where a grantee or subgrantee is disposing of real property acquired...
with grant funds and acquiring replacement real property under the same program, the net proceeds from the disposition may be used as an offset to the cost of the replacement property.

(2) Sale of property. Sell the property and compensate the awarding agency. The amount due to the awarding agency will be calculated by applying the awarding agency’s percentage of participation in the cost of the original purchase to the proceeds of the sale after deduction of any actual and reasonable selling and fixing-up expenses. If the grant is still active, the net proceeds from sale may be offset against the original cost of the property. When a grantee or subgrantee is directed to sell property, sales procedures shall be followed that provide for competition to the extent practicable and result in the highest possible return.

(3) Transfer of title. Transfer title to the awarding agency or to a third-party designated/approved by the awarding agency. The grantee or subgrantee shall be paid an amount calculated by applying the grantee or subgrantee’s percentage of participation in the purchase of the real property to the current fair market value of the property.

§ 3016.32 Equipment.

(a) Title. Subject to the obligations and conditions set forth in this section, title to equipment acquired under a grant or subgrant will vest upon acquisition in the grantee or subgrantee respectively.

(b) States. A State will use, manage, and dispose of equipment acquired under a grant by the State in accordance with State laws and procedures. Other grantees and subgrantees will follow paragraphs (c) through (e) of this section.

(c) Use. (1) Equipment shall be used by the grantee or subgrantee in the program or project for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds. When no longer needed for the original program or project, the equipment may be used in other activities currently or previously supported by a Federal agency.

(2) The grantee or subgrantee shall also make equipment available for use on other projects or programs currently or previously supported by the Federal Government, providing such use will not interfere with the work on the projects or program for which it was originally acquired. First preference for other use shall be given to other programs or projects supported by the awarding agency. User fees should be considered if appropriate.

(3) Notwithstanding the encouragement in § 3016.25(a) to earn program income, the grantee or subgrantee must not use equipment acquired with grant funds to provide services for a fee to compete unfairly with private companies that provide equivalent services, unless specifically permitted or contemplated by Federal statute.

(4) When acquiring replacement equipment, the grantee or subgrantee may use the equipment to be replaced as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property, subject to the approval of the awarding agency.

(d) Management requirements. Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part with grant funds, until disposition takes place will, as a minimum, meet the following requirements:

(1) Property records must be maintained that include a description of the property, a serial number or other identification number, the source of property, who holds title, the acquisition date, and cost of the property, percentage of Federal participation in the cost of the property, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property.

(2) A physical inventory of the property must be taken and the results reconciled with the property records at least once every two years.

(3) A control system must be developed to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft shall be investigated.

(4) Adequate maintenance procedures must be developed to keep the property in good condition.
§ 3016.33 Supplies.

(a) Title. Title to supplies acquired under a grant or subgrant will vest, upon acquisition, in the grantee or subgrantee respectively.

(b) Disposition. If there is a residual inventory of unused supplies exceeding $5,000 in total aggregate fair market value upon termination or completion of the award, and if the supplies are not needed for any other federally sponsored programs or projects, the grantee or subgrantee shall compensate the awarding agency for its share.

§ 3016.34 Copyrights.

The Federal awarding agency reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish or otherwise use, and to authorize others to use, for Federal Government purposes:

(a) The copyright in any work developed under a grant, subgrant, or contract under a grant or subgrant; and

(b) Any rights of copyright to which a grantee, subgrantee or a contractor purchases ownership with grant support.

§ 3016.35 Subawards to debarred and suspended parties.

Grantees and subgrantees must not make any award or permit any award (subgrant or contract) at any tier to any party which is debarred or suspended or is otherwise excluded from or ineligible for participation in Federal assistance programs under Executive Order 12549, “Debarment and Suspension.”

§ 3016.36 Procurement.

(a) States. When procuring property and services under a grant, a State will
follow the same policies and procedures it uses for procurements from its non-Federal funds. The State will ensure that every purchase order or other contract includes any clauses required by Federal statutes and executive orders and their implementing regulations. Other grantees and subgrantees will follow paragraphs (b) through (i) in this section.

(b) Procurement standards. (1) Grantees and subgrantees will use their own procurement procedures which reflect applicable State and local laws and regulations, provided that the procurements conform to applicable Federal law and the standards identified in this section.

(2) Grantees and subgrantees will maintain a contract administration system which ensures that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.

(3) Grantees and subgrantees will maintain a written code of standards of conduct governing the performance of their employees engaged in the award and administration of contracts. No employee, officer or agent of the grantee or subgrantee shall participate in selection, or in the award or administration of a contract supported by Federal funds if a conflict of interest, real or apparent, would be involved. Such a conflict would arise when:

(i) The employee, officer or agent,

(ii) Any member of his immediate family,

(iii) His or her partner, or

(iv) An organization which employs, or is about to employ, any of the above, has a financial or other interest in the firm selected for award. The grantee’s or subgrantee’s officers, employees or agents will neither solicit nor accept gratuities, favors or anything of monetary value from contractors, potential contractors, or parties to subagreements. Grantee and subgrantee may set minimum rules where the financial interest is not substantial or the gift is an unsolicited item of nominal intrinsic value. To the extent permitted by State or local law or regulations, such standards or conduct will provide for penalties, sanctions, or other disciplinary actions for violations of such standards by the grantee’s and subgrantee’s officers, employees, or agents, or by contractors or their agents. The awarding agency may in regulation provide additional prohibitions relative to real, apparent, or potential conflicts of interest.

(4) Grantee and subgrantee procedures will provide for a review of proposed procurements to avoid purchase of unnecessary or duplicative items. Consideration should be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.

(5) To foster greater economy and efficiency, grantees and subgrantees are encouraged to enter into State and local intergovernmental agreements for procurement or use of common goods and services.

(6) Grantees and subgrantees are encouraged to use Federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

(7) Grantees and subgrantees are encouraged to use value engineering clauses in contracts for construction projects of sufficient size to offer reasonable opportunities for cost reductions. Value engineering is a systematic and creative analysis of each contract item or task to ensure that its essential function is provided at the overall lower cost.

(8) Grantees and subgrantees will make awards only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.

(9) Grantees and subgrantees will maintain records sufficient to detail the significant history of a procurement. These records will include, but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price.
(10) Grantees and subgrantees will use time and material type contracts only—
   (i) After a determination that no other contract is suitable, and
   (ii) If the contract includes a ceiling price that the contractor exceeds at its own risk.

(11) Grantees and subgrantees alone will be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to source evaluation, protests, disputes, and claims. These standards do not relieve the grantee or subgrantee of any contractual responsibilities under its contracts. Federal agencies will not substitute their judgment for that of the grantee or subgrantee unless the matter is primarily a Federal concern. Violations of law will be referred to the local, State, or Federal authority having proper jurisdiction.

(12) Grantees and subgrantees will have protest procedures to handle and resolve disputes relating to their procurements and shall in all instances disclose information regarding the protest to the awarding agency. A protestor must exhaust all administrative remedies with the grantee and subgrantee before pursuing a protest with the Federal agency. Reviews of protests by the Federal agency will be limited to:
   (i) Violations of Federal law or regulations and the standards of this section (violations of State or local law will be under the jurisdiction of State or local authorities) and
   (ii) Violations of the grantee's or subgrantee's protest procedures for failure to review a complaint or protest. Protests received by the Federal agency other than those specified above will be referred to the grantee or subgrantee.

(c) Competition. (1) All procurement transactions will be conducted in a manner providing full and open competition consistent with the standards of §3016.36. Some of the situations considered to be restrictive of competition include but are not limited to:
   (i) Placing unreasonable requirements on firms in order for them to qualify to do business,
   (ii) Requiring unnecessary experience and excessive bonding,
   (iii) Noncompetitive pricing practices between firms or between affiliated companies,
   (iv) Noncompetitive awards to consultants that are on retainer contracts,
   (v) Organizational conflicts of interest,
   (vi) Specifying only a “brand name” product instead of allowing “an equal” product to be offered and describing the performance of other relevant requirements of the procurement, and
   (vii) Any arbitrary action in the procurement process.

(2) Grantees and subgrantees will conduct procurements in a manner that prohibits the use of statutorily or administratively imposed in-State or local geographical preferences in the evaluation of bids or proposals, except in those cases where applicable Federal statutes expressly mandate or encourage geographic preference. Nothing in this section preempts State licensing laws. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criteria provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

(3) Grantees will have written selection procedures for procurement transactions. These procedures will ensure that all solicitations:
   (i) Incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured, and when necessary, shall set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible. When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a “brand name or equal” description may be used as a means to define the performance or
other salient requirements of a procurement. The specific features of the named brand which must be met by offerors shall be clearly stated; and
(ii) Identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals.

(4) Grantees and subgrantees will ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, grantees and subgrantees will not preclude potential bidders from qualifying during the solicitation period.

(d) Methods of procurement to be followed. (1) Procurement by small purchase procedures. Small purchase procedures are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than the simplified acquisition threshold fixed at 41 U.S.C. 403(11) (currently set at $100,000). If small purchase procedures are used, price or rate quotations shall be obtained from an adequate number of qualified sources.

(2) Procurement by sealed bids (formal advertising). Bids are publicly solicited and a firm-fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction, if the conditions in §3016.36(d)(2)(i) apply.

(i) In order for sealed bidding to be feasible, the following conditions should be present:
(A) A complete, adequate, and realistic specification or purchase description is available;
(B) Two or more responsible bidders are willing and able to compete effectively for the business; and
(C) The procurement lends itself to a firm fixed-price contract and the selection of the successful bidder can be made principally on the basis of price.

(ii) If sealed bids are used, the following requirements apply:
(A) The invitation for bids will be publicly advertised and bids shall be solicited from an adequate number of known suppliers, providing them sufficient time prior to the date set for opening the bids;
(B) The invitation for bids, which will include any specifications and pertinent attachments, shall define the items or services in order for the bidder to properly respond;
(C) All bids will be publicly opened at the time and place prescribed in the invitation for bids;
(D) A firm fixed-price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of; and
(E) Any or all bids may be rejected if there is a sound documented reason.

(3) Procurement by competitive proposals. The technique of competitive proposals is normally conducted with more than one source submitting an offer, and either a fixed-price or cost-reimbursement type contract is awarded. It is generally used when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements apply:

(i) Requests for proposals will be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals shall be honored to the maximum extent practical.

(ii) Proposals will be solicited from an adequate number of qualified sources;

(iii) Grantees and subgrantees will have a method for conducting technical evaluations of the proposals received and for selecting awardees;

(iv) Awards will be made to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered; and

(v) Grantees and subgrantees may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the...
most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

(4) Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source, or after solicitation of a number of sources, competition is determined inadequate.

(i) Procurement by noncompetitive proposals may be used only when the award of a contract is infeasible under small purchase procedures, sealed bids or competitive proposals and one of the following circumstances applies:

(A) The item is available only from a single source;
(B) The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;
(C) The awarding agency authorizes noncompetitive proposals;
(D) After solicitation of a number of sources, competition is determined inadequate.

(ii) Cost analysis, i.e., verifying the proposed cost data, the projections of the data, and the evaluation of the specific elements of costs and profits, is required.

(iii) Grantees and subgrantees may be required to submit the proposed procurement to the awarding agency for pre-award review in accordance with paragraph (g) of this section.

(e) Contracting with small and minority firms, women’s business enterprise and labor surplus area firms. (1) The grantee and subgrantee will take all necessary affirmative steps to assure that minority firms, women’s business enterprises, and labor surplus area firms are used when possible.

(2) Affirmative steps shall include:

(i) Placing qualified small and minority businesses and women’s business enterprises on solicitation lists;
(ii) Assuring that small and minority businesses, and women’s business enterprises are solicited whenever they are potential sources;
(iii) Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority business, and women’s business enterprises;
(iv) Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority business, and women’s business enterprises;
(v) Using the services and assistance of the Small Business Administration, and the Minority Business Development Agency of the Department of Commerce; and
(vi) Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (e)(2) (i) through (v) of this section.

(f) Contract cost and price. (1) Grantees and subgrantees must perform a cost or price analysis in connection with every procurement action including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation, but as a starting point, grantees must make independent estimates before receiving bids or proposals. A cost analysis must be performed when the offeror is required to submit the elements of his estimated cost, e.g., under professional, consulting, and architectural engineering services contracts. A cost analysis will be necessary when adequate price competition is lacking, and for sole source procurements, including contract modifications or change orders, unless price reasonableness can be established on the basis of a catalog or market price of a commercial product sold in substantial quantities to the general public or based on prices set by law or regulation. A price analysis will be used in all other instances to determine the reasonableness of the proposed contract price.

(2) Grantees and subgrantees will negotiate profit as a separate element of the price for each contract in which there is no price competition and in all cases where cost analysis is performed. To establish a fair and reasonable profit, consideration will be given to the
complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

(3) Costs or prices based on estimated costs for contracts under grants will be allowable only to the extent that costs incurred or cost estimates included in negotiated prices are consistent with Federal cost principles (see §3016.22). Grantees may reference their own cost principles that comply with the applicable Federal cost principles.

(4) The cost plus a percentage of cost and percentage of construction cost methods of contracting shall not be used.

(g) Awarding agency review. (1) Grantees and subgrantees must make available, upon request of the awarding agency, technical specifications on proposed procurements where the awarding agency believes such review is needed to ensure that the item and/or service specified is the one being proposed for purchase. This review generally will take place prior to the time the specification is incorporated into a solicitation document. However, if the grantee or subgrantee desires to have the review accomplished after a solicitation has been developed, the awarding agency may still review the specifications, with such review usually limited to the technical aspects of the proposed purchase.

(2) Grantees and subgrantees must on request make available for awarding agency pre-award review procurement documents, such as requests for proposals or invitations for bids, independent cost estimates, etc. when:

(i) A grantee's or subgrantee's procurement procedures or operation fails to comply with the procurement standards in this section; or

(ii) The procurement is expected to exceed the simplified acquisition threshold and is to be awarded without competition or only one bid or offer is received in response to a solicitation; or

(iii) The procurement, which is expected to exceed the simplified acquisition threshold, specifies a "brand name" product; or

(iv) The proposed award is more than the simplified acquisition threshold and is to be awarded to other than the apparent low bidder under a sealed bid procurement; or

(v) A proposed contract modification changes the scope of a contract or increases the contract amount by more than the simplified acquisition threshold.

(3) A grantee or subgrantee will be exempt from the pre-award review in paragraph (g)(2) of this section if the awarding agency determines that its procurement systems comply with the standards of this section.

(i) A grantee or subgrantee may request that its procurement system be reviewed by the awarding agency to determine whether its system meets these standards in order for its system to be certified. Generally, these reviews shall occur where there is a continuous high-dollar funding, and third-party contracts are awarded on a regular basis.

(ii) A grantee or subgrantee may self-certify its procurement system. Such self-certification shall not limit the awarding agency's right to survey the system. Under a self-certification procedure, awarding agencies may wish to rely on written assurances from the grantee or subgrantee that it is complying with these standards. A grantee or subgrantee will cite specific procedures, regulations, standards, etc., as being in compliance with these requirements and have its system available for review.

(h) Bonding requirements. For construction or facility improvement contracts or subcontracts exceeding the simplified acquisition threshold, the awarding agency may accept the bonding policy and requirements of the grantee or subgrantee provided the awarding agency has made a determination that the awarding agency's interest is adequately protected. If such a determination has not been made, the minimum requirements shall be as follows:

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. The "bid guarantee" shall consist of a firm commitment such as a bid bond,
§ 3016.36

(1) Administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate.

(2) Termination for cause and for convenience by the grantee or subgrantee including the manner by which it will be effected and the basis for settlement. (All contracts in excess of $10,000)

(3) Compliance with Executive Order 11246 of September 24, 1965, entitled "Equal Employment Opportunity," as amended by Executive Order 11375 of October 13, 1967, and as supplemented in Department of Labor regulations (41 CFR chapter 60). (All construction contracts awarded in excess of $10,000 by grantees and their contractors or subgrantees)

(4) Compliance with the Copeland "Anti-Kickback" Act (18 U.S.C. 874) as supplemented in Department of Labor regulations (29 CFR Part 3). (All contracts and subgrants for construction or repair)

(5) Compliance with the Davis-Bacon Act (40 U.S.C. 276a to 276a-7) as supplemented by Department of Labor regulations (29 CFR Part 5). (Construction contracts in excess of $2000 awarded by grantees and subgrantees when required by Federal grant program legislation)

(6) Compliance with Sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-330) as supplemented by Department of Labor regulations (29 CFR Part 5). (Construction contracts awarded by grantees and subgrantees in excess of $2000, and in excess of $2500 for other contracts which involve the employment of mechanics or laborers)

(7) Notice of awarding agency requirements and regulations pertaining to reporting.

(8) Notice of awarding agency requirements and regulations pertaining to patent rights with respect to any discovery or invention which arises or is developed in the course of or under such contract.

(9) Awarding agency requirements and regulations pertaining to copyrights and rights in data.

(10) Access by the grantee, the subgrantee, the Federal grantor agency, the Comptroller General of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the contractor which are directly pertinent to that specific contract for the purpose of making audit, examination, excerpts, and transcriptions.

(11) Retention of all required records for three years after grantees or subgrantees make final payments and all other pending matters are closed.

(12) Compliance with all applicable standards, orders, or requirements issued under section 306 of the Clean Air Act (42 U.S.C. 1857(h)), section 508 of the Clean Water Act (33 U.S.C. 1368), Executive Order 11738, and Environmental Protection Agency regulations (40 CFR part 15). (Contracts, subcontracts, and subgrants of amounts in excess of $100,000)

(13) Mandatory standards and policies relating to energy efficiency which are contained in the state energy conservation plan issued in compliance with the
Subgrants.

(a) States. States shall follow state law and procedures when awarding and administering subgrants (whether on a cost reimbursement or fixed amount basis) of financial assistance to local and Indian tribal governments. States shall:

(1) Ensure that every subgrant includes any clauses required by Federal statute and executive orders and their implementing regulations;
(2) Ensure that subgrantees are aware of requirements imposed upon them by Federal statute and regulation;
(3) Ensure that a provision for compliance with §3016.42 is placed in every cost reimbursement subgrant; and
(4) Conform any advances of grant funds to subgrantees substantially to the same standards of timing and amount that apply to cash advances by Federal agencies.

(b) All other grantees. All other grantees shall follow the provisions of this part which are applicable to awarding agencies when awarding and administering subgrants (whether on a cost reimbursement or fixed amount basis) of financial assistance to local and Indian tribal governments. Grantees shall:

(1) Ensure that every subgrant includes a provision for compliance with this part;
(2) Ensure that every subgrant includes any clauses required by Federal statute and executive orders and their implementing regulations; and
(3) Ensure that subgrantees are aware of requirements imposed upon them by Federal statutes and regulations.

(c) Exceptions. By their own terms, certain provisions of this part do not apply to the award and administration of subgrants:

(1) Section 3016.10;
(2) Section 3016.11;
(3) The letter-of-credit procedures specified in Treasury Regulations at 31 CFR part 205, cited in §3016.21; and
(4) Section 3016.50.

Monitoring and reporting program performance.

(a) Monitoring by grantees. Grantees are responsible for managing the day-to-day operations of grant and subgrant supported activities. Grantees must monitor grant and subgrant supported activities to assure compliance with applicable Federal requirements and that performance goals are being achieved. Grantee monitoring must cover each program, function or activity.

(b) Nonconstruction performance reports. The Federal agency may, if it decides that performance information available from subsequent applications contains sufficient information to meet its programmatic needs, require the grantee to submit a performance report only upon expiration or termination of grant support. Unless waived by the Federal agency, this report will be due on the same date as the final Financial Status Report.

(1) Grantees shall submit annual performance reports unless the awarding agency requires quarterly or semi-annual reports. However, performance reports will not be required more frequently than quarterly. Annual reports shall be due 90 days after the grant year, quarterly or semi-annual reports shall be due 30 days after the reporting period. The final performance report will be due 90 days after the expiration or termination of grant support. If a justified request is submitted by a grantee, the Federal agency may extend the due date for any performance report. Additionally, requirements for unnecessary performance reports may be waived by the Federal agency.

(2) Performance reports will contain, for each grant, brief information on the following:

(i) A comparison of actual accomplishments to the objectives established for the period. Where the output of the project can be quantified, a computation of the cost per unit of output may be required if that information will be useful.
(ii) The reasons for slippage if established objectives were not met.
§ 3016.41  Financial reporting.

(a) General. (1) Except as provided in paragraphs (a) (2) and (5) of this section, grantees will use only the forms specified in paragraphs (a) through (e) of this section, and such supplementary or other forms as may from time to time be authorized by OMB, for:
   (i) Submitting financial reports to Federal agencies, or
   (ii) Requesting advances or reimbursements when letters of credit are not used.

(2) Grantees need not apply the forms prescribed in this section in dealing with their subgrantees. However, grantees shall not impose more burdensome requirements on subgrantees.

(3) Grantees shall follow all applicable standard and supplemental Federal agency instructions approved by OMB to the extent required under the Paperwork Reduction Act of 1980 for use in connection with forms specified in paragraphs (b) through (e) of this section. Federal agencies may issue substantive supplementary instructions only with the approval of OMB. Federal agencies may shade out or instruct the grantee to disregard any line item that the Federal agency finds unnecessary for its decisionmaking purposes.

(4) Grantees will not be required to submit more than the original and two copies of forms required under this part.

(5) Federal agencies may provide computer outputs to grantees to expedite or contribute to the accuracy of reporting. Federal agencies may accept the required information from grantees in machine usable format or computer printouts instead of prescribed forms.

(6) Federal agencies may waive any report required by this section if not needed.

(7) Federal agencies may extend the due date of any financial report upon receiving a justified request from a grantee.

(b) Financial Status Report—(1) Form. Grantees will use Standard Form 269 or 269A, Financial Status Report, to report the status of funds for all nonconstruction grants and for construction grants when required in accordance with paragraph § 3016.41(e)(2)(iii) of this section.
(2) Accounting basis. Each grantee will report program outlays and program income on a cash or accrual basis as prescribed by the awarding agency. If the Federal agency requires accrual information and the grantee's accounting records are not normally kept on the accrual basis, the grantee shall not be required to convert its accounting system but shall develop such accrual information through and analysis of the documentation on hand.

(3) Frequency. The Federal agency may prescribe the frequency of the report for each project or program. However, the report will not be required more frequently than quarterly. If the Federal agency does not specify the frequency of the report, it will be submitted annually. A final report will be required upon expiration or termination of grant support.

(4) Due date. When reports are required on a quarterly or semiannual basis, they will be due 30 days after the reporting period. When required on an annual basis, they will be due 90 days after the grant year. Final reports will be due 90 days after the expiration or termination of grant support.

(c) Federal Cash Transactions Report—
(i) Form. (i) For grants paid by letter or credit, Treasury check advances or electronic transfer of funds, the grantee will submit the Standard Form 272, Federal Cash Transactions Report, and when necessary, its continuation sheet, Standard Form 272a, unless the terms of the award exempt the grantee from this requirement.

(ii) These reports will be used by the Federal agency to monitor cash advances to grantees and to obtain disbursement or outlay information for each grant from grantees. The format of the report may be adapted as appropriate when reporting is to be accomplished with the assistance of automatic data processing equipment provided that the information to be submitted is not changed in substance.

(2) Forecasts of Federal cash requirements. Forecasts of Federal cash requirements may be required in the “Remarks” section of the report.

(3) Cash in hands of subgrantees. When considered necessary and feasible by the Federal agency, grantees may be required to report the amount of cash advances in excess of three days’ needs in the hands of their subgrantees or contractors and to provide short narrative explanations of actions taken by the grantee to reduce the excess balances.

(4) Frequency and due date. Grantees must submit the report no later than 15 working days following the end of each quarter. However, where an advance either by letter of credit or electronic transfer of funds is authorized at an annualized rate of one million dollars or more, the Federal agency may require the report to be submitted within 15 working days following the end of each month.

(d) Request for advance or reimbursement—(1) Advance payments. Requests for Treasury check advance payments will be submitted on Standard Form 270, Request for Advance or Reimbursement. (This form will not be used for drawdowns under a letter of credit, electronic funds transfer or when Treasury check advance payments are made to the grantee automatically on a predetermined basis.)

(2) Reimbursements. Requests for reimbursement under nonconstruction grants will also be submitted on Standard Form 270. (For reimbursement requests under construction grants, see paragraph (e)(2) of this section.)

(3) The frequency for submitting payment requests is treated in §3016.41(b)(3).

(e) Outlay report and request for reimbursement for construction programs. (1) Grants that support construction activities paid by reimbursement method.

(i) Requests for reimbursement under construction grants will be submitted on Standard Form 271, Outlay Report and Request for Reimbursement for Construction Programs. Federal agencies may, however, prescribe the Request for Advance or Reimbursement form, specified in §3016.41(d), instead of this form.

(ii) The frequency for submitting reimbursement requests is treated in §3016.41(b)(3).

(2) Grants that support construction activities paid by letter of credit, electronic funds transfer or Treasury check advance.
§ 3016.42 Retention and access requirements for records.

(a) Applicability. (1) This section applies to all financial and programmatic records, supporting documents, statistical records, and other records of grantees or subgrantees which are:

(i) Required to be maintained by the terms of this part, program regulations or the grant agreement, or

(ii) Otherwise reasonably considered as pertinent to program regulations or the grant agreement.

(2) This section does not apply to records maintained by contractors or subcontractors. For a requirement to place a provision concerning records in certain kinds of contracts, see § 3016.36(i)(10).

(b) Length of retention period. (1) Except as otherwise provided, records must be retained for three years from the starting date specified in paragraph (c) of this section.

(2) If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

(3) To avoid duplicate recordkeeping, awarding agencies may make special arrangements with grantees and subgrantees to retain any records which are continuously needed for joint use. The awarding agency will request transfer of records to its custody when it determines that the records possess long-term retention value. When the records are transferred to or maintained by the Federal agency, the 3-year retention requirement is not applicable to the grantees or subgrantees.

(c) Starting date of retention period—(1) General. When grant support is continued or renewed at annual or other intervals, the retention period for the records of each funding period starts on the day the grantees or subgrantees submit to the awarding agency its single or last expenditure report for that period. However, if grant support is continued or renewed quarterly, the retention period for each year's records starts on the day the grantee submits its expenditure report for the last quarter of the Federal fiscal year. In all other cases, the retention period starts on the day the report would have been due.

(2) Real property and equipment records. The retention period for real property and equipment records starts from the date of the disposition or replacement or transfer at the direction of the awarding agency.

(3) Records for income transactions after grant or subgrant support. In some cases grantees must report income after the period of grant support. Where there is such a requirement, the retention period for the records pertains to the earning of the income starts from the end of the grantee's fiscal year in which the income is earned.

(4) Indirect cost rate proposals, cost allocations plans, etc. This paragraph applies to the following types of documents, and their supporting records: indirect cost rate computations or proposals, cost allocation plans, and any similar accounting computations of the rate at which a particular group of costs is chargeable (such as computer...
usage chargeback rates or composite fringe benefit rates).

(i) If submitted for negotiation. If the proposal, plan, or other computation is required to be submitted to the Federal Government (or to the grantee) to form the basis for negotiation of the rate, then the 3-year retention period for its supporting records starts from the date of such submission.

(ii) If not submitted for negotiation. If the proposal, plan, or other computation is not required to be submitted to the Federal Government (or to the grantee) for negotiation purposes, then the 3-year retention period for the proposal plan, or other computation and its supporting records starts from the end of the fiscal year (or other accounting period) covered by the proposal, plan, or other computation.

(d) Substitution of microfilm. Copies made by microfilming, photocopying, or similar methods may be substituted for the original records.

(e) Access to records—(1) Records of grantees and subgrantees. The awarding agency and the Comptroller General of the United States, or any of their authorized representatives, shall have the right of access to any pertinent books, documents, papers, or other records of grantees and subgrantees which are pertinent to the grant, in order to make audits, examinations, excerpts, and transcripts.

(2) Expiration of right of access. The rights of access in this section must not be limited to the required retention period but shall last as long as the records are retained.

(f) Restrictions on public access. The Federal Freedom of Information Act (5 U.S.C. 552) does not apply to records unless required by Federal, State, or local law, grantees and subgrantees are not required to permit public access to their records.

§ 3016.43 Enforcement.

(a) Remedies for noncompliance. If a grantee or subgrantee materially fails to comply with any term of an award, whether stated in a Federal statute or regulation, an assurance, in a State plan or application, a notice of award, or elsewhere, the awarding agency may take one or more of the following actions, as appropriate in the circumstances:

(1) Temporarily withhold cash payments pending correction of the deficiency by the grantee or subgrantee or more severe enforcement action by the awarding agency.

(2) Disallow (that is, deny both use of funds and matching credit for) all or part of the cost of the activity or action not in compliance.

(3) Wholly or partly suspend or terminate the current award for the grantee's or subgrantee's program.

(4) Withhold further awards for the program, or

(5) Take other remedies that may be legally available.

(b) Hearings, appeals. In taking an enforcement action, the awarding agency will provide the grantee or subgrantee an opportunity for such hearing, appeal, or other administrative proceeding to which the grantee or subgrantee is entitled under any statute or regulation applicable to the action involved.

(c) Effects of suspension and termination. Costs of grantee or subgrantee resulting from obligations incurred by the grantee or subgrantee during a suspension or after termination of an award are not allowable unless the awarding agency expressly authorizes them in the notice of suspension or termination or subsequently. Other grantee or subgrantee costs during suspension or after termination which are necessary and not reasonably avoidable are allowable if:

(1) The costs result from obligations which were properly incurred by the grantee or subgrantee before the effective date of suspension or termination, are not in anticipation of it, and, in the case of a termination, are noncancellable, and

(2) The costs would be allowable if the award were not suspended or expired normally at the end of the funding period in which the termination takes effect.

(d) Relationship to Debarment and Suspension. The enforcement remedies identified in this section, including suspension and termination, do not preclude grantee or subgrantee from being subject to “Debarment and Suspension” under E.O. 12549 (see § 3016.35).
§ 3016.44 Termination for convenience.

Except as provided in §3016.43 awards may be terminated in whole or in part only as follows:

(a) By the awarding agency with the consent of the grantee or subgrantee in which case the two parties shall agree upon the termination conditions, including the effective date and in the case of partial termination, the portion to be terminated, or

(b) By the grantee or subgrantee upon written notification to the awarding agency, setting forth the reasons for such termination, the effective date, and in the case of partial termination, the portion to be terminated. However, if, in the case of a partial termination, the awarding agency determines that the remaining portion of the award will not accomplish the purposes for which the award was made, the awarding agency may terminate the award in its entirety under either §3016.43 or paragraph (a) of this section.

Subpart D—After-the-Grant Requirements

§ 3016.50 Closeout.

(a) General. The Federal agency will close out the award when it determines that all applicable administrative actions and all required work of the grant has been completed.

(b) Reports. Within 90 days after the expiration or termination of the grant, the grantee must submit all financial, performance, and other reports required as a condition of the grant. Upon request by the grantee, Federal agencies may extend this timeframe. These may include but are not limited to:

(1) Final performance or progress report.

(2) Financial Status Report (SF 269) or Outlay Report and Request for Reimbursement for Construction Programs (SF-271) (as applicable.)

(3) Final request for payment (SF-270) (if applicable).

(4) Invention disclosure (if applicable).

(5) Federally-owned property report: In accordance with §3016.32(f), a grantee must submit an inventory of all federally owned property (as distinct from property acquired with grant funds) for which it is accountable and request disposition instructions from the Federal agency of property no longer needed.

(c) Cost adjustment. The Federal agency will, within 90 days after receipt of reports in paragraph (b) of this section, make upward or downward adjustments to the allowable costs.

(d) Cash adjustments. (1) The Federal agency will make prompt payment to the grantee for allowable reimbursable costs.

(2) The grantee must immediately refund to the Federal agency any balance of unobligated (unencumbered) cash advanced that is not authorized to be retained for use on other grants.

§ 3016.51 Later disallowances and adjustments.

The closeout of a grant does not affect:

(a) The Federal agency’s right to disallow costs and recover funds on the basis of a later audit or other review;

(b) The grantee’s obligation to return any funds due as a result of later refunds, corrections, or other transactions;

(c) Records retention as required in §3016.42;

(d) Property management requirements in §§3016.31 and 3016.32; and

(e) Audit requirements in §3016.26.

§ 3016.52 Collection of amounts due.

(a) Any funds paid to a grantee in excess of the amount to which the grantee is finally determined to be entitled under the terms of the award constitute a debt to the Federal Government. If not paid within a reasonable period after demand, the Federal agency may reduce the debt by:

(1) Making an administrative offset against other requests for reimbursements.

(2) Withholding advance payments otherwise due to the grantee, or

(3) Other action permitted by law.

(b) Except where otherwise provided by statutes or regulations, the Federal agency will charge interest on an overdue debt in accordance with the Federal Claims Collection Standards (4
Office of Chief Financial Officer, USDA

CFR Ch. II). The date from which interest is computed is not extended by litigation or the filing of any form of appeal.

Subpart E—Entitlement

PART 3017—GOVERNMENTWIDE DEBARMENT AND SUSPENSION (NONPROCUREMENT) AND GOVERNMENTWIDE REQUIREMENTS FOR DRUG-FREE WORKPLACE (GRANTS)

Subpart A—General

Sec.
3017.100 Purpose.
3017.105 Definitions.
3017.110 Coverage.
3017.115 Policy.

Subpart B—Effect of Action

3017.200 Debarment or suspension.
3017.205 Ineligible persons.
3017.210 Voluntary exclusion.
3017.215 Exception provision.
3017.220 Continuation of covered transactions.
3017.225 Failure to adhere to restrictions.

Subpart C—Debarment

3017.300 General.
3017.305 Causes for debarment.
3017.310 Procedures.
3017.311 Investigation and referral.
3017.312 Notice of proposed debarment.
3017.313 Opportunity to contest proposed debarment.
3017.314 Debarring official’s decision.
3017.315 Settlement and voluntary exclusion.
3017.320 Period of debarment.
3017.325 Scope of debarment.

Subpart D—Suspension

3017.400 General.
3017.405 Causes for suspension.
3017.410 Procedures.
3017.411 Notice of suspension.
3017.412 Opportunity to contest suspension.
3017.413 Suspending official’s decision.
3017.415 Period of suspension.
3017.420 Scope of suspension.

Subpart E—Responsibilities of GSA, Agency and Participants

3017.500 GSA responsibilities.
3017.505 USDA responsibilities.
3017.510 Participants’ responsibilities.

3017.515 Appeal of debarment or suspension decisions.

Subpart F—Drug-Free Workplace Requirements (Grants)

3017.600 Purpose.
3017.605 Definitions.
3017.610 Coverage.
3017.615 Grounds for suspension of payments, suspension or termination of grants, or suspension or debarment.
3017.620 Effect of violation.
3017.625 Exception provision.
3017.630 Certification requirements and procedures.
3017.635 Reporting of and employee sanctions for convictions of criminal drug offenses.

APPENDIX B TO PART 3017—CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION—LOWER TIER COVERED TRANSACTIONS

APPENDIX C TO PART 3017—CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS

SOURCE: 54 FR 4731, Jan. 30, 1989, unless otherwise noted.

§ 3017.105 7 CFR Ch. XXX (1-1-98 Edition)

(1) Prescribing the programs and activities that are covered by the governmentwide system;

(2) Prescribing the governmentwide criteria and governmentwide minimum due process procedures that each agency shall use;

(3) Providing for the listing of debarred and suspended participants, participants declared ineligible (see definition of "ineligible" in § 3017.105), and participants who have voluntarily excluded themselves from participation in covered transactions;

(4) Setting forth the consequences of a debarment, suspension, determination of ineligibility, or voluntary exclusion; and

(5) Offering such other guidance as necessary for the effective implementation and administration of the governmentwide system.

(c) These regulations also implement Executive Order 12689 (3 CFR, 1989 Comp., p. 235) and 31 U.S.C. 6101 note (Public Law 103-355, sec. 2455, 108 Stat. 3327) by—

(1) Providing for the inclusion in the List of Parties Excluded from Federal Procurement and Nonprocurement Programs all persons proposed for debarment, debarred or suspended under the Federal Acquisition Regulation, 48 CFR part 9, persons against which governmentwide exclusions have been entered under this part; and persons determined to be ineligible; and

(2) Setting forth the consequences of a debarment, suspension, determination of ineligibility, or voluntary exclusion.

(d) Although these regulations cover the listing of ineligible participants and the effect of such listing, they do not prescribe policies and procedures governing declarations of ineligibility.

[60 FR 33040, 33043, June 26, 1995]

§ 3017.105 Definitions.

The following definitions apply to this part:

Adequate evidence. Information sufficient to support the reasonable belief that a particular act or omission has occurred.

Affiliate. Persons are affiliates of each other if, directly or indirectly, either one controls or has the power to control the other, or, a third person controls or has the power to control both. Indicia of control include, but are not limited to: interlocking management or ownership, identity of interests among family members, shared facilities and equipment, common use of employees, or a business entity organized following the suspension or debarment of a person which has the same or similar management, ownership, or principal employees as the suspended, debarred, ineligible, or voluntarily excluded person.

Agency. Any executive department, military department or defense agency or other agency of the executive branch, excluding the independent regulatory agencies.

(1) A USDA agency, when used in the context of USDA internal procedures or requirements, is any organizational unit of the U.S. Department of Agriculture with authority delegated in 7 CFR part 2 to carry out primary covered transactions under USDA programs.

(2) [Reserved]

Appeals officer. Any administrative law judge of the Office of Administrative Law Judges, Department of Agriculture.

Civil judgment. The disposition of a civil action by any court of competent jurisdiction, whether entered by verdict, decision, settlement, stipulation, or otherwise creating a civil liability for the wrongful acts complained of; or a final determination of liability under the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801-12).

Conviction. A judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, including a plea of nolo contendere.

Debarment. An action taken by a debarring official in accordance with these regulations to exclude a person from participating in covered transactions. A person so excluded is "debarred."

Debarring official. An official authorized to impose debarment. The debarring official is either:

(1) The agency head, or

(2) An official designated by the agency head.
In USDA, the authority to act as a debarring official is not delegated below the agency head level.

(3) In USDA, each Under Secretary, Assistant Secretary, or agency head who has been delegated authority in part 2 of this title to carry out a covered transaction is authorized to act as a debarring official in connection with such covered transaction.

Indictment. Indictment for a criminal offense. An information or other filing by competent authority charging a criminal offense shall be given the same effect as an indictment.

Ineligible. Excluded from participation in Federal nonprocurement programs pursuant to a determination of ineligibility under statutory, executive order, or regulatory authority, other than Executive Order 12549 and its agency implementing regulations; for example, excluded pursuant to the Davis-Bacon Act and its implementing regulations, the equal employment opportunity acts and executive orders, or the environmental protection acts and executive orders. A person is ineligible where the determination of ineligibility affects such person's eligibility to participate in more than one covered transaction.

Legal proceedings. Any criminal proceeding or any civil judicial proceeding to which the Federal Government or a State or local government or quasi-governmental authority is a party. The term includes appeals from such proceedings.

List of Parties Excluded from Federal Procurement and Nonprocurement Programs. A list compiled, maintained and distributed by the General Services Administration (GSA) containing the names and other information about persons who have been debarred, suspended, or voluntarily excluded under Executive Orders 12549 and 12689 and these regulations or 48 CFR part 9, subpart 9.4, persons who have been proposed for debarment under 48 CFR part 9, subpart 9.4, and those persons who have been determined to be ineligible.

Notice. A written communication served in person or sent by certified mail, return receipt requested, or its equivalent, to the last known address of a party, its identified counsel, its agent for service of process, or any partner, officer, director, owner, or joint venturer of the party. Notice, if undeliverable, shall be considered to have been received by the addressee five days after being properly sent to the last address known by the agency.

Participant. Any person who submits a proposal for, enters into, or reasonably may be expected to enter into a covered transaction. This term also includes any person who acts on behalf of or is authorized to commit a participant in a covered transaction as an agent or representative of another participant.

Preponderance of the evidence. Proof by information that, compared with that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

Principal. Officer, director, owner, partner, key employee, or other person within a participant with primary management or supervisory responsibilities; or a person who has a critical influence on or substantive control over a covered transaction, whether or not employed by the participant. Persons who have a critical influence on or substantive control over a covered transaction are:

(1) Principal investigators.
(2) [Reserved]

Proposal. A solicited or unsolicited bid, application, request, invitation to consider or similar communication by or on behalf of a person seeking to participate or to receive a benefit, directly or indirectly, in or under a covered transaction.

Respondent. A person against whom a debarment or suspension action has been initiated.

State. Any of the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United
§ 3017.110 Coverage.

(a) These regulations apply to all persons who have participated, are currently participating or may reasonably be expected to participate in transactions under Federal nonprocurement programs. For purposes of these regulations such transactions will be referred to as "covered transactions."

(i) Covered transaction. For purposes of these regulations, a covered transaction is a primary covered transaction or a lower tier covered transaction. Covered transactions at any tier need not involve the transfer of Federal funds.

(ii) Primary covered transaction. Except as noted in paragraph (a)(2) of this section, a primary covered transaction is any nonprocurement transaction between an agency and a person, regardless of type, including: Grants, cooperative agreements, scholarships, fellowships, contracts of assistance, loans, loan guarantees, subsidies, insurance, payments for specified use, donation agreements and any other nonprocurement transactions between a Federal agency and a person. Primary covered transactions also include those transactions specially designated by the U.S. Department of Housing and Urban Development in such agency's regulations governing debarment and suspension.

(iii) Lower tier covered transaction. A lower tier covered transaction is:

(A) Any transaction between a participant and a person other than a procurement contract for goods or services, regardless of type, under a primary covered transaction.

(B) Any procurement contract for goods or services under a covered action, regardless of amount, under which that person will have a critical influence on or substantive control over that covered transaction. Such persons are:

(1) Principal investigators.

(2) Providers of federally-required audit services.

(2) Exceptions. The following transactions are not covered:

(i) Statutory entitlements or mandatory awards (but not subtier awards thereunder which are not themselves mandatory), including deposited funds insured by the Federal Government;
Office of Chief Financial Officer, USDA  § 3017.110

(ii) Direct awards to foreign governments or public international organizations, or transactions with foreign governments or foreign governmental entities, public international organizations, foreign government owned (in whole or in part) or controlled entities, entities consisting wholly or partially of foreign governments or foreign governmental entities;

(iii) Benefits to an individual as a personal entitlement without regard to the individual’s present responsibility (but benefits received in an individual’s business capacity are not excepted);

(iv) Federal employment;

(v) Transactions pursuant to national or agency-recognized emergencies or disasters;

(vi) Incidental benefits derived from ordinary governmental operations; and

(vii) Other transactions where the application of these regulations would be prohibited by law.

(3) Department of Agriculture covered transactions.

(i) With respect to paragraph (a)(1) of this section, for USDA’s export and foreign assistance programs, covered transactions will include only primary covered transactions. Any lower tier transactions with respect to USDA’s export and foreign assistance programs will not be considered lower tier covered transactions for the purposes of this part. The export or substitution of Federal timber governed by the Forest Resources Conservation and Shortage Relief Act of 1990, 16 U.S.C. 620 et seq. (the “Export Act”), is specifically excluded from the coverage of this rule. The Export Act provides separate statutory authority to debar persons engaged in both primary covered transactions and lower tier transactions.

(ii) With respect to paragraph (a)(1)(iii)(B) of this section, for USDA’s domestic food assistance programs, only the initial such procurement contract and the first tier subcontract under that procurement contract shall be considered lower tier covered transactions.

(iii) With respect to paragraph (a)(2) of this section, the following USDA transactions also are not covered: transactions under programs which provide statutory entitlements and make available loans to individuals and entities in their capacity as producers of agricultural commodities; transactions under conservation programs; transactions under warehouse licensing programs; the receipt of licenses, permits, certificates, and indemnification under regulatory programs conducted in the interest of public health and safety and animal and plant health and safety; the receipt of official grading and inspection services, animal damage control services, public health and safety inspection services, and animal and plant health and safety inspection services; if the person is a State or local government, the provision of official grading and inspection services, animal damage control services, public health and safety inspection services, and animal and plant health and safety inspection services; and permits, licenses, exchanges and other acquisitions of real property, rights of way, and easements under natural resource management programs.

(b) Relationship to other sections. This section describes the types of transactions to which a debarment or suspension under the regulations will apply. Subpart B, “Effect of Action,” § 3017.200, “Debarment or suspension,” sets forth the consequences of a debarment or suspension. Those consequences would obtain only with respect to participants and principals in the covered transactions and activities described in § 3017.110(a). Sections 3017.325, “Scope of debarment,” and 3017.420, “Scope of suspension,” govern the extent to which a specific participant or organizational elements of a participant would be automatically included within a debarment or suspension action, and the conditions under which affiliates or persons associated with a participant may also be brought within the scope of the action.

(c) Relationship to Federal procurement activities. In accordance with E.O. 12689 and section 2455 of Public Law 103-355, any debarment, suspension, proposed debarment or other governmentwide exclusion initiated under the Federal Acquisition Regulation (FAR) on or after August 25, 1995 shall be recognized by and effective for Executive Branch agencies and participants as an
§ 3017.115 Policy.

(a) In order to protect the public interest, it is the policy of the Federal Government to conduct business only with responsible persons. Debarment and suspension are discretionary actions that, taken in accordance with Executive Order 12549 and these regulations, are appropriate means to implement this policy.

(b) Debarment and suspension are serious actions which shall be used only in the public interest and for the Federal Government's protection and not for purposes of punishment. Agencies may impose debarment or suspension for the causes and in accordance with the procedures set forth in these regulations.

(c) When more than one agency has an interest in the proposed debarment or suspension of a person, consideration shall be given to designating one agency as the lead agency for making the decision. Agencies are encouraged to establish methods and procedures for coordinating their debarment or suspension actions.

(d) In any case in which an administrative exclusion is considered under an authority other than this part, USDA will initiate, where appropriate, a debarment or suspension action under this part for the protection of the entire Federal Government.

§ 3017.200 Debarment or suspension.

(a) Primary covered transactions. Except to the extent prohibited by law, persons who are debarred or suspended shall be excluded from primary covered transactions as either participants or principals throughout the Executive Branch of the Federal Government for the period of their debarment, suspension, or the period they are proposed for debarment under 48 CFR part 9, subpart 9.4. Accordingly, no agency shall enter into primary covered transactions with such excluded persons during such period, except as permitted pursuant to § 3017.215.

(b) Lower tier covered transactions. Except to the extent prohibited by law, persons who have been proposed for debarment under 48 CFR part 9, subpart 9.4, debarred or suspended shall be excluded from participating as either participants or principals in all lower tier covered transactions (see §3017.110(a)(1)(ii)) for the period of their exclusion.

(c) Exceptions. Debarment or suspension does not affect a person's eligibility for—

1. Statutory entitlements or mandatory awards (but not subtier awards thereunder which are not themselves mandatory), including deposits funds insured by the Federal Government;

2. Direct awards to foreign governments or public international organizations, or transactions with foreign governments or foreign governmental entities, public international organizations, foreign government owned (in whole or in part) or controlled entities, and entities consisting wholly or partially of foreign governments or foreign governmental entities;

3. Benefits to an individual as a personal entitlement without regard to the individual's present responsibility (but benefits received in an individual's business capacity are not excepted);

4. Federal employment;

5. Transactions pursuant to national or agency-recognized emergencies or disasters;

6. Incidental benefits derived from ordinary governmental operations; and

7. Other transactions where the application of these regulations would be prohibited by law.

(d) Department of Agriculture excepted transactions. With respect to paragraph (c) of this section, the following USDA transactions also are excepted: transactions under programs which provide statutory entitlements and make available loans to individuals and entities in their capacity as producers of...
agricultural commodities; transactions under conservation programs; transactions under warehouse licensing programs; the receipt of licenses, permits, certificates, and indemnification under regulatory programs conducted in the interest of public health and safety and animal and plant health and safety; the receipt of official grading and inspection services, animal damage control services, public health and safety inspection services, and animal and plant health and safety inspection services; if the person is a State or local government, the provision of official grading and inspection services, animal damage control services, public health and safety inspection services, and animal and plant health and safety inspection services; and permits, licenses, exchanges, and other acquisitions of real property, rights of way, and easements under natural resource management programs.

[60 FR 33041, 33043, June 26, 1995, as amended at 61 FR 251, Jan. 4, 1996]

§ 3017.205 Ineligible persons.

Persons who are ineligible, as defined in §3017.105(i), are excluded in accordance with the applicable statutory, executive order, or regulatory authority.

§ 3017.210 Voluntary exclusion.

Persons who accept voluntary exclusions under §3017.315 are excluded in accordance with the terms of their settlements. USDA shall, and participants may, contact the original action agency to ascertain the extent of the exclusion.

§ 3017.215 Exception provision.

USDA may grant an exception permitting a debarred, suspended, or voluntarily excluded person, or a person proposed for debarment under 48 CFR part 9, subpart 9.4, to participate in a particular covered transaction upon a written determination by the agency head or an authorized designee stating the reason(s) for deviating from the Presidential policy established by Executive Order 12549 and §3017.200. However, in accordance with the President’s stated intention in the Executive Order, exceptions shall be granted only infrequently. Exceptions shall be reported in accordance with §3017.505(a).

[60 FR 33041, 33043, June 26, 1995]

§ 3017.220 Continuation of covered transactions.

(a) Notwithstanding the debarment, suspension, proposed debarment under 48 CFR part 9, subpart 9.4, determination of ineligibility, or voluntary exclusion of any person by an agency, agencies and participants may continue covered transactions in existence at the time the person was debarred, suspended, proposed for debarment under 48 CFR part 9, subpart 9.4, declared ineligible, or voluntarily excluded. A decision as to the type of termination action, if any, to be taken should be made only after thorough review to ensure the propriety of the proposed action.

(b) Agencies and participants shall not renew or extend covered transactions (other than no-cost time extensions) with any person who is debarred, suspended, proposed for debarment under 48 CFR part 9, subpart 9.4, ineligible or voluntarily excluded, except as provided in §3017.215.

[60 FR 33041, 33043, June 26, 1995]

§ 3017.225 Failure to adhere to restrictions.

(a) Except as permitted under §3017.215 or §3017.220, a participant shall not knowingly do business under a covered transaction with a person who is—

(1) Debarred or suspended;

(2) Proposed for debarment under 48 CFR part 9, subpart 9.4; or

(3) Ineligible or voluntarily excluded from the covered transaction.

(b) Violation of the restriction under paragraph (a) of this section may result in disallowance of costs, annulment or termination of award, issuance of a stop work order, debarment or suspension, or other remedies as appropriate.

(c) A participant may rely upon the certification of a prospective participant in a lower tier covered transaction that it and its principals are not debarred, suspended, proposed for debarment under 48 CFR part 9, subpart 9.4, ineligible, or voluntarily excluded.
§ 3017.300

Subpart C—Debarment

§ 3017.300 General.

The debarring official may debar a person for any of the causes in §3017.305, using procedures established in §§3017.310 through §3017.314. The existence of a cause for debarment, however, does not necessarily require that the person be debarred; the seriousness of the person’s acts or omissions and any mitigating factors shall be considered in making any debarment decision.

§ 3017.305 Causes for debarment.

Debarment may be imposed in accordance with the provisions of §§3017.300 through §3017.314 for:

(a) Conviction of or civil judgment for:

(1) Commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public or private agreement or transaction;

(2) Violation of Federal or State antitrust statutes, including those prescribing price fixing between competitors, allocation of customers between competitors, and bid rigging;

(3) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, receiving stolen property, making false claims, or obstruction of justice; or

(4) Commission of any other offense indicating a lack of business integrity or business honesty that seriously and directly affects the present responsibility of a person.

(b) Violation of the terms of a public agreement or transaction so serious as to affect the integrity of an agency program, such as:

(1) A willful failure to perform in accordance with the terms of one or more public agreements or transactions; (2) A history of failure to perform or of unsatisfactory performance of one or more public agreements or transactions; or

(3) A willful violation of a statutory or regulatory provision or requirement applicable to a public agreement or transaction.

(c) Any of the following causes:

(1) A nonprocurement debarment by any Federal agency taken before March 1, 1989, the effective date of these regulations or a procurement debarment by any Federal agency taken pursuant to 48 CFR Subpart 9.4;

(2) Knowingly doing business with a debarred, suspended, ineligible, or voluntarily excluded person, in connection with a covered transaction, except as permitted in §3017.215 or §3017.220;

(3) Failure to pay a single substantial debt, or a number of outstanding debts (including disallowed costs and overpayments, but not including sums owed the Federal Government under the Internal Revenue Code) owed to any Federal agency or instrumentality, provided the debt is uncontested by the debtor or, if contested, provided that the debtor’s legal and administrative remedies have been exhausted;

(4) Violation of a material provision of a voluntary exclusion agreement entered into under §3017.315 or of any settlement of a debarment or suspension action; or

(5) Violation of any requirement of Subpart F of this part, relating to providing a drug-free workplace, as set forth in §3017.615 of this part.

(d) Any other cause of so serious or compelling a nature that it affects the present responsibility of a person.

§ 3017.310 Procedures.

USDA shall process debarment actions as informally as practicable, consistent with the principles of fundamental fairness, using the procedures in §§3017.311 through 3017.314.

§ 3017.311 Investigation and referral.

Information concerning the existence of a cause for debarment from any
source shall be promptly reported, investigated, and referred, when appropriate, to the debarring official for consideration. After consideration, the debarring official may issue a notice of proposed debarment.

(a) The decision to utilize agency personnel, the Office of Inspector General (OIG), or other appropriate resources to conduct the investigation and develop the documentation required by paragraph (b) of this section is the responsibility of the agency possessing the information.

(b) Basic documentation shall be developed that includes but is not limited to:

(1) The name of the specific respondent(s) against whom the action is being proposed or taken;
(2) The reason(s) for proposing the debarment;
(3) The specific cause(s) for debarment from §3017.305;
(4) A short narrative stating the facts and/or describing other evidence supporting the reason(s) for the need to debar;
(5) The recommended time period for the debarment;
(6) The potential effect and/or consequences that the debarment will have on the respondent(s);
(7) Copies of any relevant support documentation identified under this section.

(c) The debarring official shall be responsible for deciding whether or not to proceed with the action.

(d) The Office of the General Counsel (OGC) is responsible for:

(1) Reviewing the documentation and notices for legal sufficiency, and
(2) Providing any necessary coordination with the Department of Justice (DOJ).

(b) Of the reasons for the proposed debarment in terms sufficient to put the respondent on notice of the conduct or transaction(s) upon which it is based;

(c) Of the cause(s) relied upon under §3017.305 for proposing debarment;

(d) Of the provisions of §§3017.311 through 3017.314, and any other USDA procedures, if applicable, governing debarment decisionmaking; and

(e) Of the potential effect of a debarment.

In USDA, the notice to the respondent shall be signed by the debarring official and transmitted by certified mail, return receipt requested. OGC will be consulted on all proposed debarment actions prior to the notice being sent to the respondent.

§3017.312 Notice of proposed debarment.

(a) Submission in opposition. Within 30 days after receipt of the notice of proposed debarment, the respondent may submit, in person, in writing, or through a representative, information and argument in opposition to the proposed debarment.

(b) Additional proceedings as to disputed material facts. (1) In actions not based upon a conviction or civil judgment, if the debarring official finds that the respondent’s submission in opposition raises a genuine dispute over facts material to the proposed debarment, respondent(s) shall be afforded an opportunity to appear with a representative, submit documentary evidence, present witnesses, and confront any witness the agency presents.

(2) A transcribed record of any additional proceedings shall be made available at cost to the respondent, upon request, unless the respondent and the agency, by mutual agreement, waive the requirement for a transcript.

§3017.314 Debarring official’s decision.

(a) No additional proceedings necessary. In actions based upon a conviction or civil judgment, or in which there is no genuine dispute over material facts,
§ 3017.315 Settlement and voluntary exclusion.

(a) When in the best interest of the Government, USDA may, at any time, settle a debarment or suspension action.

(b) If a participant and the agency agree to a voluntary exclusion of the participant, such voluntary exclusion shall be entered on the Nonprocurement List (see Subpart E).

§ 3017.320 Period of debarment.

(a) Debarment shall be for a period commensurate with the seriousness of the cause(s). If a suspension precedes a debarment, the suspension period shall be considered in determining the debarment period.

(1) Debarment for causes other than those related to a violation of the requirements of Subpart F of this part generally should not exceed three years. Where circumstances warrant, a longer period of debarment may be imposed.

(2) In the case of a debarment for a violation of the requirements of Subpart F of this part (see 3017.305(c)(5)), the period of debarment shall not exceed five years.

(b) The debarring official may extend an existing debarment for an additional period, if that official determines that an extension is necessary to protect the public interest. However, a debarment may not be extended solely on the basis of the facts.
and circumstances upon which the initial debarment action was based. If debarment for an additional period is determined to be necessary, the procedures of §§3017.311 through 3017.314 shall be followed to extend the debarment.

(c) The respondent may request the debarring official to reverse the debarment decision or to reduce the period or scope of debarment. Such a request shall be in writing and supported by documentation. The debarring official may grant such a request for reasons including, but not limited to:

(1) Newly discovered material evidence;

(2) Reversal of the conviction or civil judgment upon which the debarment was based;

(3) Bona fide change in ownership or management;

(4) Elimination or other causes for which the debarment was imposed; or

(5) Other reasons the debarring official deems appropriate.

Subpart D—Suspension

§ 3017.400 General.

(a) The suspending official may suspend a person from any of the causes in §3017.405 using procedures established in §§3017.410 through 3017.413.

(b) Suspension is a serious action to be imposed only when:

(1) There exists adequate evidence of one or more of the causes set out in §3017.405, and

(2) Immediate action is necessary to protect the public interest.

(c) In assessing the adequacy of the evidence, the agency should consider how much information is available, how credible it is given the circumstances, whether or not important allegations are corroborated, and what inferences can reasonably be drawn as a result. This assessment should include an examination of basic documents such as grants, cooperative agreements, loan authorizations, and contracts.

§ 3017.405 Causes for suspension.

(a) Suspension may be imposed in accordance with the provisions of
§ 3017.410  Upon adequate evidence:

(1) To suspect the commission of an offense listed in § 3017.305(a); or
(2) That a cause for debarment under § 3017.305 may exist.

(b) Indictment shall constitute adequate evidence for purposes of suspension actions.

§ 3017.410  Procedures.

(a) Investigation and referral. Information concerning the existence of a cause for suspension from any source shall be promptly reported, investigated, and referred, when appropriate, to the suspending official for consideration. After consideration, the suspending official may issue a notice of suspension.

(1) The decision to utilize agency personnel, OIG or other appropriate resources to conduct the investigation and develop the documentation required by paragraph (a)(2) of this section is the responsibility of the agency possessing the information.

(2) Basic documentation shall be developed that includes but is not limited to:
   (i) The name of the specific respondent(s) against whom the suspension is to be taken;
   (ii) The reason(s) for proposing the suspension;
   (iii) The specific cause(s) for suspension from § 3017.405;
   (iv) A short narrative stating the facts and/or describing other evidence supporting the reason(s) for the suspension;
   (v) The recommended time period for the suspension;
   (vi) The potential effect and/or consequences that the suspension will have on the respondent(s);
   (vii) Copies of any relevant support documentation identified under this section.

(3) The suspending official shall be responsible for deciding whether or not to proceed with the suspension.

(b) OGC is responsible for:
   (i) Reviewing the documentation and notice for legal sufficiency, and
   (ii) Providing any necessary coordination with DOJ.

(b) Decisionmaking process. USDA shall process suspension actions as informally as practicable, consistent with principles of fundamental fairness, using the procedures in § 3017.411 through § 3017.413.

§ 3017.411  Notice of suspension.

When a respondent is suspended, notice shall immediately be given:

(a) That suspension has been imposed;
(b) That the suspension is based on an indictment, conviction, or other adequate evidence that the respondent has committed irregularities seriously reflecting on the propriety of further Federal Government dealings with the respondent;
(c) Describing any such irregularities in terms sufficient to put the respondent on notice without disclosing the Federal Government's evidence;
(d) Of the cause(s) relied upon under § 3017.405 for imposing suspension;
(e) That the suspension is for a temporary period pending the completion of an investigation or ensuing legal, debarment, or Program Fraud Civil Remedies Act proceedings;
(f) Of the provisions of § 3017.411 through § 3017.413 and any other USDA procedures, if applicable, governing suspension decisionmaking; and
(g) Of the effect of the suspension.

In USDA, the notice to the respondent shall be signed by the suspending official and transmitted by certified mail, return receipt requested. OGC will be consulted on all proposed suspension actions prior to the notice being sent to the respondent.

§ 3017.412  Opportunity to contest suspension.

(a) Submission in opposition. Within 30 days after receipt of the notice of suspension, the respondent may submit, in person, in writing, or through a representative, information and argument in opposition to the suspension.

(b) Additional proceedings as to disputed material facts. (1) If the suspending official finds that the respondent's submission in opposition raises a genuine dispute over facts material to the
suspension, respondent(s) shall be afforded an opportunity to appear with a representative, submit documentary evidence, present witnesses, and confront any witness the agency presents, unless:

(i) The action is based on an indictment, conviction or civil judgment, or
(ii) A determination is made, on the basis of Department of Justice advice, that the substantial interests of the Federal Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced.

(A) In USDA, such determination shall be made by the suspending official, after coordination with OGC.

(B) In USDA, the suspending official shall continue the suspension only if he/she determines, after consultation with OGC, that there is enough evidence to proceed without using the facts that DOJ has advised would prejudice the contemplated legal proceedings. If there is not such evidence, the suspension shall be terminated immediately without prejudice.

(2) A transcribed record of any additional proceedings shall be prepared and made available at cost to the respondent, upon request, unless the respondent and the agency, by mutual agreement, waive the requirement for a transcript.

§ 3017.413 Suspending official's decision.

The suspending official may modify or terminate the suspension (for example, see §3017.320(c) for reasons for reducing the period or scope of debarment) or may leave it in force. However, a decision to modify or terminate the suspension shall be without prejudice to the subsequent imposition of suspension by any other agency or debarment by any agency. The decision shall be rendered in accordance with the following provisions:

(a) No additional proceedings necessary. In actions: based on an indictment, conviction, or civil judgment; in which there is no genuine dispute over material facts; or in which additional proceedings to determine disputed material facts have been denied on the basis of Department of Justice advice, the suspending official shall make a decision on the basis of all the information in the administrative record, including any submission made by the respondent. The decision shall be made within 45 days after receipt of any information and argument submitted by the respondent, unless the suspending official extends this period for good cause.

(1) In USDA, the suspending official shall terminate the suspension immediately when additional proceedings to determine disputed facts have been denied on the basis of DOJ advice. The agency, however, reserves the right to proceed with the suspension when DOJ completes its legal proceedings or is satisfied that the suspension no longer will prejudice DOJ's proceedings.

(2) In USDA suspension actions, where the respondent(s) fail(s) to timely provide any submission in opposition, the action will be considered decided.

(b) Additional proceedings necessary.

(1) In actions in which additional proceedings are necessary to determine disputed material facts, written findings of fact shall be prepared. The suspending official shall base the decision on the facts as found, together with any information and argument submitted by the respondent and any other information in the administrative record.

(2) The suspending official may refer matters involving disputed material facts to another official for findings of fact. The suspending official may reject any such findings, in whole or in part, only after specifically determining them to be arbitrary or capricious or clearly erroneous.

(c) Notice of suspending official's decision. Prompt written notice of the suspending official's decision shall be sent to the respondent.

(1) In USDA, the notice to the respondent shall be signed by the suspending official and transmitted by certified mail, return receipt requested. OGC will be consulted on all proposed suspension actions prior to the notice being sent to the respondent. The notice shall include the following:

(i) Reference to the previously issued notice of suspension;
§ 3017.415

(ii) The reason(s) for the action taken in this notice.
(iii) The effective date(s) of the suspension taken in this notice and, where appropriate, the period of the suspension;
(iv) Advice that the suspension is effective for covered transactions throughout the executive branch of the Federal Government unless an agency head or a designee authorized by an agency head makes a determination referred to in § 3017.215.

§ 3017.415 Period of suspension.

(a) Suspension shall be for a temporary period pending the completion of an investigation or ensuring legal, debarment, or Program Fraud Civil Remedies Act proceedings, unless terminated sooner by the suspending official or as provided in paragraph (b) of this section.

(b) If legal or administrative proceedings are not initiated within 12 months after the date of the suspension notice, the suspension shall be terminated unless an Assistant Attorney General or United States Attorney requests its extension in writing, in which case it may be extended for an additional six months. In no event may a suspension extend beyond 18 months, unless such proceedings have been initiated within that period.

(c) The suspending official shall notify the Department of Justice of an impending termination of a suspension, at least 30 days before the 12-month period expires, to give that Department an opportunity to request an extension.

(1) The suspending official shall notify OGC which will notify DOJ of the impending termination of a suspension.

§ 3017.420 Scope of suspension.

The scope of a suspension is the same as the scope of a debarment (see § 3017.325), except that the procedures of §§ 3017.410 through 3017.413 shall be used in imposing a suspension.
§ 3017.515 Appeal of debarment or suspension decisions.

(a) If a decision to debar or suspend is made by a debarring or suspending official under §3017.314 or §3017.413, the respondent may appeal the decision to the Office of Administrative Law Judges (OALJ) by filing the appeal, in writing, to the Hearing Clerk, OALJ, United States Department of Agriculture, Washington, DC 20250. The appeal must be filed within 30 days of receiving the decision and it must specify the basis of the appeal. The decision of a debarring or suspending official under §3017.314 or §3017.413 may be vacated by the assigned appeals officer if the officer determines that the decision is:

(1) Not in accordance with law;

(2) Not based on the applicable standard of evidence; or

(3) Arbitrary and capricious and an abuse of discretion.

(b) The appeals officer will base his/her decision solely upon the administrative record.

(c) Within 90 days of the date the appeal is filed with USDA's OALJ Hearing Clerk, the appeals officer will notify, in writing, the respondent(s) and the debarring or suspending official.
who took the action being appealed, of his/her decision in the appeal. The notice must specify the reason(s) for the decision made by the appeals officer.

(d) The appeals officer’s decision is final and is not appealable within USDA.

[54 FR 4733, Jan. 30, 1989]

Subpart F—Drug-Free Workplace Requirements (Grants)

SOURCE: 55 FR 21688, 21691, May 25, 1990, unless otherwise noted.

§ 3017.600 Purpose.

(a) The purpose of this subpart is to carry out the Drug-Free Workplace Act of 1988 by requiring that—

(1) A grantee, other than an individual, shall certify to the agency that it will provide a drug-free workplace;

(2) A grantee who is an individual shall certify to the agency that, as a condition of the grant, he or she will not engage in the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance in conducting any activity with the grant.

(b) Requirements implementing the Drug-Free Workplace Act of 1988 for contractors with the agency are found at 48 CFR subparts 9.4, 23.5, and 52.2.

§ 3017.605 Definitions.

(a) Except as amended in this section, the definitions of § 3017.105 apply to this subpart.

(b) For purposes of this subpart—

(1) Controlled substance means a controlled substance in schedules I through V of the Controlled Substances Act (21 U.S.C. 812), and as further defined by regulation at 21 CFR 1308.11 through 1308.15;

(2) Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

(3) Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

(4) Drug-free workplace means a site for the performance of work done in connection with a specific grant at which employees of the grantee are prohibited from engaging in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance;

(5) Employee means the employee of a grantee directly engaged in the performance of work under the grant, including:

(i) All direct charge employees;

(ii) All indirect charge employees, unless their impact or involvement is insignificant to the performance of the grant; and,

(iii) Temporary personnel and consultants who are directly engaged in the performance of work under the grant and who are on the grantee’s payroll.

This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the payroll; or employees of subrecipients or subcontractors in covered workplaces);

(6) Federal agency or agency means any United States executive department, military department, government corporation, government controlled corporation, any other establishment in the executive branch (including the Executive Office of the President), or any independent regulatory agency;

(7) Grant means an award of financial assistance, including a cooperative agreement, in the form of money, or property in lieu of money, by a Federal agency directly to a grantee. The term grant includes block grant and entitlement grant programs, whether or not exempted from coverage under the grants management government-wide common rule on uniform administrative requirements for grants and cooperative agreements. The term does not include technical assistance that provides services instead of money, or other assistance in the form of loans, loan guarantees, interest subsidies, insurance, or direct appropriations; or any veterans’ benefits to individuals,
i.e., any benefit to veterans, their families, or survivors by virtue of the service of a veteran in the Armed Forces of the United States;  

(b) With respect to a grantee other than an individual—  
   (1) The grantee has violated the certification by failing to carry out the requirements of paragraphs (A)(a)-(g) and/or (B) of the certification (Alternate I to Appendix C), or  
   (2) Such a number of employees of the grantee have been convicted of violations of criminal drug statutes for violations occurring in the workplace as to indicate that the grantee has failed to make a good faith effort to provide a drug-free workplace.  

(c) With respect to a grantee who is an individual—  
   (1) The grantee has violated the certification by failing to carry out its requirements (Alternate II to Appendix C); or  
   (2) The grantee is convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity.

§ 3017.620 Effect of violation.  

(a) In the event of a violation of this subpart as provided in §3017.615, and in accordance with applicable law, the grantee shall be subject to one or more of the following actions:  
   (1) Suspension of payments under the grant;  
   (2) Suspension or termination of the grant; and  
   (3) Suspension or debarment of the grantee under the provisions of this part.  

(b) Upon issuance of any final decision under this part requiring debarment of a grantee, the debarred grantee shall be ineligible for award of any grant from any Federal agency for a period specified in the decision, not to exceed five years (see §3017.320(a)(2) of this part).

§ 3017.625 Exception provision.  

The agency head may waive with respect to a particular grant, in writing, a suspension of payments under a grant, suspension or termination of a grant, or suspension or debarment of a grantee if the agency head determines that such a waiver would be in the public interest. This exception authority cannot be delegated to any other official.
§ 3017.630 Certification requirements and procedures.

(a)(1) As a prior condition of being awarded a grant, each grantee shall make the appropriate certification to the Federal agency providing the grant, as provided in Appendix C to this part.

(2) Grantees are not required to make a certification in order to continue receiving funds under a grant awarded before March 18, 1989, or under a no-cost time extension of such a grant. However, the grantee shall make a one-time drug-free workplace certification for a non-automatic continuation of such a grant made on or after March 18, 1989.

(b) Except as provided in this section, all grantees shall make the required certification for each grant. For mandatory formula grants and entitlements that have no application process, grantees shall submit a one-time certification in order to continue receiving awards.

(c) A grantee that is a State may elect to make one certification in each Federal fiscal year. States that previously submitted an annual certification are not required to make a certification for Fiscal Year 1990 until June 30, 1990. The State agency shall retain the original of this State agency-wide certification in its central office and, prior to grant award, shall ensure that a copy is submitted individually with respect to each grant, unless the Federal agency designates a central location for submission.

(3) When the work of a grant is done by more than one State agency, the certification of the State agency directly receiving the grant shall be deemed to certify compliance for all workplaces, including those located in other State agencies.

(e)(1) For a grant of less than 30 days performance duration, grantees shall have this policy statement and program in place as soon as possible, but in any case by a date prior to the date on which performance is expected to be completed.

(2) For a grant of 30 days or more performance duration, grantees shall have this policy statement and program in place within 30 days after award.

(3) Where extraordinary circumstances warrant for a specific grant, the grant officer may determine a different date on which the policy statement and program shall be in place.

§ 3017.635 Reporting of and employee sanctions for convictions of criminal drug offenses.

(a) When a grantee other than an individual is notified that an employee has been convicted for a violation of a criminal drug statute occurring in the workplace, it shall take the following actions:

(1) Within 10 calendar days of receiving notice of the conviction, the grantee shall provide written notice, including the convicted employee's position title, to every grant officer, or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notifications. Notification shall include the identification number(s) for each of the Federal agency's affected grants.

(2) Within 30 calendar days of receiving notice of the conviction, the grantee shall do the following with respect to the employee who was convicted.
Office of Chief Financial Officer, USDA

(i) Take appropriate personnel action against the employee, up to and including termination, consistent with requirements of the Rehabilitation Act of 1973, as amended; or

(ii) Require the employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency.

(b) A grantee who is an individual who is convicted for a violation of a criminal drug statute occurring during the conduct of any grant activity shall report the conviction, in writing, within 10 calendar days, to his or her Federal agency grant officer, or other designee, unless the Federal agency has designated a central point for the receipt of such notices. Notification shall include the identification number(s) for each of the Federal agency's affected grants.

(Approved by the Office of Management and Budget under control number 0991-0002)

APPENDIX A TO PART 3017—
CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS—PRIMARY COVERED TRANSACTIONS

Instructions for Certification

1. By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.

6. The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled “Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction,” provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
APPENDIX B TO PART 3017—
CERTIFICATION REGARDING DEBARMMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION—LOWER TIER COVERED TRANSACTIONS

Instructions for Certification

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.

2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government the department or agency with which this transaction originated may pursue available remedies, including suspension and debarment.

3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.

4. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the person to which this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible, and voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

6. The prospective lower tier participant further agrees by submitting this proposal that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," without modification, in all lower tier covered transactions in all solicitations for lower tier covered transactions.

7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a...
Office of Chief Financial Officer, USDA

participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

5. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transactions

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

3. For grantees other than individuals, Alternate I applies.

4. For grantees who are individuals, Alternate II applies.

5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 801) and as further defined by regulation (21 CFR 1308.1 through 1308.15);

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

Certification Regarding Drug-Free Workplace Requirements

Alternate I. (GRANTEES OTHER THAN INDIVIDUALS)

A. The grantee certifies that it will or will continue to provide a drug-free workplace by:

APPENDIX C TO PART 3017—
CERTIFICATION REGARDING DRUG-FREE WORKPLACE REQUIREMENTS

Instructions for Certification

1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.

2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.

3. For grantees other than individuals, Alternate I applies.

4. For grantees who are individuals, Alternate II applies.

5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.

6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).

7. If the workplace identified to the agency changes during the performance of the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).

8. Definitions of terms in the Nonprocurement Suspension and Debarment common rule and Drug-Free Workplace common rule apply to this certification. Grantees' attention is called, in particular, to the following definitions from these rules:

Controlled substance means a controlled substance in Schedules I through V of the Controlled Substances Act (21 U.S.C. 801) and as further defined by regulation (21 CFR 1308.1 through 1308.15);

Conviction means a finding of guilt (including a plea of nolo contendere) or imposition of sentence, or both, by any judicial body charged with the responsibility to determine violations of the Federal or State criminal drug statutes;

Criminal drug statute means a Federal or non-Federal criminal statute involving the manufacture, distribution, dispensing, use, or possession of any controlled substance;

Employee means the employee of a grantee directly engaged in the performance of work under the grant and who are on the grantee's payroll. This definition does not include workers not on the payroll of the grantee (e.g., volunteers, even if used to meet a matching requirement; consultants or independent contractors not on the grantee's payroll; or employees of subrecipients or subcontractors in covered workplaces).

Certification Regarding Drug-Free Workplace Requirements

Alternate I. (GRANTEES OTHER THAN INDIVIDUALS)

A. The grantee certifies that it will or will continue to provide a drug-free workplace by:
Pt. 3018

(a) Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the grantee’s workplace and specifying the actions that will be taken against employees for violation of such prohibition;

(b) Establishing an ongoing drug-free awareness program to inform employees about—
   (1) The dangers of drug abuse in the workplace;
   (2) The grantee’s policy of maintaining a drug-free workplace;
   (3) Any available drug counseling, rehabilitation, and employee assistance programs; and
   (4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

(c) Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (a);

(d) Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant,
   (1) Abide by the terms of the statement; and
   (2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

(e) Notifying the agency in writing, within ten calendar days after receiving notice under paragraph (d)(2), from an employee otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federal agency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

(f) Taking one of the following actions, within 30 calendar days of receiving notice under paragraph (d)(2), with respect to any employee who is so convicted—
   (1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or
   (2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

(g) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e) and (f).

B. The grantee may insert in the space provided below the site(s) for the performance of work done in connection with the specific grant:

Place of Performance (Street address, city, county, state, zip code)

Check [ ] if there are workplaces on file that are not identified here.

Alternate II. (Grantees Who Are Individuals)

(a) The grantee certifies that, as a condition of the grant, he or she will not engage in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance in conducting any activity with the grant;

(b) If convicted of a criminal drug offense resulting from a violation occurring during the conduct of any grant activity, he or she will report the conviction, in writing, within 10 calendar days of the conviction, to every grant officer or other designee, unless the Federal agency designates a central point for the receipt of such notices. When notice is made to such a central point, it shall include the identification number(s) of each affected grant.

APPENDIX A TO PART 3018—CERTIFICATION REGARDING LOBBYING
APPENDIX B TO PART 3018—DISCLOSURE FORM TO REPORT LOBBYING

Subpart A—General

§ 3018.100 Conditions on use of funds.

(a) No appropriated funds may be expended by the recipient of a Federal contract, grant, loan, or cooperative agreement to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any of the following covered Federal actions: the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuance, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(b) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a certification, set forth in Appendix A, that the person has not made, and will not make, any payment prohibited by paragraph (a) of this section.

(c) Each person who requests or receives from an agency a Federal contract, grant, loan, or cooperative agreement shall file with that agency a disclosure form, set forth in Appendix B, if that person has made or has agreed to make any payment to influence or attempt to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with that loan insurance or guarantee.

(d) Each person who requests or receives from an agency a commitment providing for the United States to insure or guarantee a loan shall file with that agency a statement, set forth in Appendix A, whether that person has made or has agreed to make any payment to influence or attempt to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with that loan insurance or guarantee.

(e) Each person who requests or receives from an agency a commitment providing for the United States to insure or guarantee a loan shall file with that agency a disclosure form, set forth in Appendix B, if that person has made or has agreed to make any payment to influence or attempt to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with that loan insurance or guarantee.

§ 3018.105 Definitions.

For purposes of this part:

(a) Agency, as defined in 5 U.S.C. 552(f), includes Federal executive departments and agencies as well as independent regulatory commissions and Government corporations, as defined in 31 U.S.C. 9101(1).

(b) Covered Federal action means any of the following Federal actions:

(1) The awarding of any Federal contract;
(2) The making of any Federal grant;
(3) The making of any Federal loan;
(4) The entering into of any cooperative agreement; and,
(5) The extension, continuance, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

Covered Federal action does not include receiving from an agency a commitment providing for the United States to insure or guarantee a loan. Loan guarantees and loan insurance are addressed independently within this part.

(c) Federal contract means an acquisition contract awarded by an agency, including those subject to the Federal Acquisition Regulation (FAR), and any other acquisition contract for real or personal property or services not subject to the FAR.
§ 3018.105

(d) Federal cooperative agreement means a cooperative agreement entered into by an agency.

(e) Federal grant means an award of financial assistance in the form of money, or property in lieu of money, by the Federal Government or a direct appropriation made by law to any person. The term does not include technical assistance which provides services instead of money, or other assistance in the form of revenue sharing, loans, loan guarantees, loan insurance, interest subsidies, insurance, or direct United States cash assistance to an individual.

(f) Federal loan means a loan made by an agency. The term does not include loan guarantee or loan insurance.

(g) Indian tribe and tribal organization have the meaning provided in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450B). Alaskan Natives are included under the definitions of Indian tribes in that Act.

(h) Influencing or attempting to influence means making, with the intent to influence, any communication to or appearance before an officer or employee or any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with any covered Federal action.

(i) Loan guarantee and loan insurance means an agency’s guarantee or insurance of a loan made by a person.

(j) Local government means a unit of government in a State and, if chartered, established, or otherwise recognized by a State for the performance of a governmental duty, including a local public authority, a special district, an intrastate district, a council of governments, a sponsor group representative organization, and any other instrumentality of a local government.

(k) Officer or employee of an agency includes the following individuals who are employed by an agency:

(1) An individual who is appointed to a position in the Government under title 5, U.S. Code, including a position under a temporary appointment;

(2) A member of the uniformed services as defined in section 101(3), title 37, U.S. Code;

(3) A special Government employee as defined in section 202, title 18, U.S. Code; and,

(4) An individual who is a member of a Federal advisory committee, as defined by the Federal Advisory Committee Act, title 5, U.S. Code appendix 2.

(l) Person means an individual, corporation, company, association, authority, firm, partnership, society, State, and local government, regardless of whether such entity is operated for profit or not for profit. This term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

(m) Reasonable compensation means, with respect to a regularly employed officer or employee of any person, compensation that is consistent with the normal compensation for such officer or employee for work that is not furnished to, not funded by, or not furnished in cooperation with the Federal Government.

(n) Reasonable payment means, with respect to professional and other technical services, a payment in an amount that is consistent with the amount normally paid for such services in the private sector.

(o) Recipient includes all contractors, subcontractors at any tier, and subgrantees at any tier of the recipient of funds received in connection with a Federal contract, grant, loan, or cooperative agreement. The term excludes an Indian tribe, tribal organization, or any other Indian organization with respect to expenditures specifically permitted by other Federal law.

(p) Regularly employed means, with respect to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement or a commitment providing for the United States to insure or guarantee a loan, an officer or employee who is employed by such person for at least 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person for receipt of such contract, grant, loan, cooperative agreement, loan insurance commitment, or loan guarantee commitment. An officer or employee who is
employed by such person for less than 130 working days within one year immediately preceding the date of the submission that initiates agency consideration of such person shall be considered to be regularly employed as soon as he or she is employed by such person for 130 working days.

(q) State means a State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, a territory or possession of the United States, an agency or instrumentality of a State, a multi-State, regional, or interstate entity having governmental duties and powers.

§ 3018.110 Certification and disclosure.

(a) Each person shall file a certification, and a disclosure form, if required, with each submission that initiates agency consideration of such person for:

(1) Award of a Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) An award of a Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000.

(b) Each person shall file a certification, and a disclosure form, if required, upon receipt by such person of:

(1) A Federal contract, grant, or cooperative agreement exceeding $100,000; or

(2) A Federal loan or a commitment providing for the United States to insure or guarantee a loan exceeding $150,000.

Unless such person previously filed a certification, and a disclosure form, if required, under paragraph (a) of this section.

(c) Each person shall file a disclosure form at the end of each calendar quarter in which there occurs any event that requires disclosure or that materially affects the accuracy of the information contained in any disclosure form previously filed by such person under paragraphs (a) or (b) of this section. An event that materially affects the accuracy of the information reported includes:

(1) A cumulative increase of $25,000 or more in the amount paid or expected to be paid for influencing or attempting to influence a covered Federal action; or

(2) A change in the person(s) or individual(s) influencing or attempting to influence a covered Federal action; or

(3) A change in the officer(s), employee(s), or Member(s) contacted to influence or attempt to influence a covered Federal action.

(d) Any person who requests or receives from a person referred to in paragraphs (a) or (b) of this section:

(1) A subcontract exceeding $100,000 at any tier under a Federal contract;

(2) A subgrant, contract, or subcontract exceeding $100,000 at any tier under a Federal grant;

(3) A contract or subcontract exceeding $100,000 at any tier under a Federal loan exceeding $150,000; or

(4) A contract or subcontract exceeding $100,000 at any tier under a Federal cooperative agreement,

Shall file a certification, and a disclosure form, if required, to the next tier above.

(e) All disclosure forms, but not certifications, shall be forwarded from tier to tier until received by the person referred to in paragraphs (a) or (b) of this section. That person shall forward all disclosure forms to the agency.

(f) Any certification or disclosure form filed under paragraph (e) of this section shall be treated as a material representation of fact upon which all receiving tiers shall rely. All liability arising from an erroneous representation shall be borne solely by the tier filing that representation and shall not be shared by any tier to which the erroneous representation is forwarded. Submitting an erroneous certification or disclosure constitutes a failure to file the required certification or disclosure, respectively. If a person fails to file a required certification or disclosure, the United States may pursue all available remedies, including those authorized by section 1352, title 31, U.S. Code.

(g) For awards and commitments in process prior to December 23, 1989, but not made before that date, certifications shall be required at award or commitment, covering activities occurring between December 23, 1989, and the date of award or commitment. However, for awards and commitments
Section 3018.200 Agency and Legislative Liaison.

(a) The prohibition on the use of appropriated funds, in §3018.100 (a), does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement if the payment is for agency and legislative liaison activities not directly related to a covered Federal action.

(b) For purposes of paragraph (a) of this section, providing any information specifically requested by an agency or Congress is allowable at any time.

(c) For purposes of paragraph (a) of this section, the following agency and legislative liaison activities are allowable at any time only where they are not related to a specific solicitation for any covered Federal action:

1. Discussing with an agency (including individual demonstrations) the qualities and characteristics of the person's products or services, conditions or terms of sale, and service capabilities; and,

2. Technical discussions and other activities regarding the application or adaptation of the person's products or services for an agency's use.

(d) For purposes of paragraph (a) of this section, the following agencies and legislative liaison activities are allowable only where they are prior to formal solicitation of any covered Federal action:

1. Providing any information not specifically requested but necessary for an agency to make an informed decision about initiation of a covered Federal action;

2. Technical discussions regarding the preparation of an unsolicited proposal prior to its official submission; and,

3. Capability presentations by persons seeking awards from an agency pursuant to the provisions of the Small Business Act, as amended by Public Law 95-507 and other subsequent amendments.

(e) Only those activities expressly authorized by this section are allowable under this section.

Section 3018.205 Professional and Technical Services.

(a) The prohibition on the use of appropriated funds, in §3018.100 (a), does not apply in the case of a payment of reasonable compensation made to an officer or employee of a person requesting or receiving a Federal contract, grant, loan, or cooperative agreement or an extension, continuation, renewal, amendment, or modification of a Federal contract, grant, loan, or cooperative agreement if payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal contract, grant, loan, or cooperative agreement.

(b) For purposes of paragraph (a) of this section, "professional and technical services" shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting of a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly.
and solely in the preparation, submission or negotiation of a covered Federal action. Thus, for example, communications with the intent to influence made by a lawyer that do not provide legal advice or analysis directly and solely related to the legal aspects of his or her client’s proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services. Similarly, communications with the intent to influence made by an engineer providing an engineering analysis prior to the preparation or submission of a bid or proposal are not allowable under this section since the engineer is providing technical services but not directly in the preparation, submission or negotiation of a covered Federal action.

(c) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation, or reasonably expected to be required by law or regulation, and any other requirements in the actual award documents.

(d) Only those services expressly authorized by this section are allowable under this section.

§ 3018.210 Reporting.

No reporting is required with respect to payments of reasonable compensation made to regularly employed officers or employees of a person.

Subpart C—Activities by Other Than Own Employees

§ 3018.300 Professional and technical services.

(a) The prohibition on the use of appropriated funds, in §3018.100 (a), does not apply in the case of any reasonable payment to a person, other than an officer or employee of a person requesting or receiving a covered Federal action, if the payment is for professional or technical services rendered directly in the preparation, submission, or negotiation of any bid, proposal, or application for that Federal contract, grant, loan, or cooperative agreement or for meeting requirements imposed by or pursuant to law as a condition for receiving that Federal contract, grant, loan, or cooperative agreement.

(b) The reporting requirements in §3018.110 (a) and (b) regarding filing a disclosure form by each person, if required, shall not apply with respect to professional or technical services rendered directly in the preparation, submission, or negotiation of any commitment providing for the United States to insure or guarantee a loan.

(c) For purposes of paragraph (a) of this section, “professional and technical services” shall be limited to advice and analysis directly applying any professional or technical discipline. For example, drafting or a legal document accompanying a bid or proposal by a lawyer is allowable. Similarly, technical advice provided by an engineer on the performance or operational capability of a piece of equipment rendered directly in the negotiation of a contract is allowable. However, communications with the intent to influence made by a professional (such as a licensed lawyer) or a technical person (such as a licensed accountant) are not allowable under this section unless they provide advice and analysis directly applying their professional or technical expertise and unless the advice or analysis is rendered directly and solely related to the legal aspects of his or her client’s proposal, but generally advocate one proposal over another are not allowable under this section because the lawyer is not providing professional legal services.

(d) Requirements imposed by or pursuant to law as a condition for receiving a covered Federal award include those required by law or regulation, or
§ 3018.400 Penalties.

(a) Any person who makes an expenditure prohibited herein shall be subject to a civil penalty of not less than $10,000 and no more than $100,000 for each such expenditure.

(b) Any person who fails to file or amend the disclosure form (see Appendix B) to be filed or amended if required herein, shall be subject to a civil penalty of not less than $10,000 and no more than $100,000 for each such failure.

(c) A filing or amended filing on or after the date on which an administrative action for the imposition of a civil penalty is commenced does not prevent the imposition of such civil penalty for a failure occurring before that date. An administrative action is commenced with respect to a failure when an investigating official determines in writing to commence an investigation of an allegation of such failure.

(d) In determining whether to impose a civil penalty, and the amount of any such penalty, by reason of a violation by any person, the agency shall consider the nature, circumstances, extent, and gravity of the violation, effect on the ability of such person to continue in business, any prior violations by such person, the degree of culpability of such person, the ability of the person to pay the penalty, and such other matters as may be appropriate.

(e) First offenders under paragraphs (a) or (b) of this section shall be subject to a civil penalty of $10,000, absent aggravating circumstances. Second and subsequent offenses by persons shall be subject to an appropriate civil penalty between $10,000 and $100,000, as determined by the agency head or his or her designee.

(f) An imposition of a civil penalty under this section does not prevent the United States from seeking any other remedy that may apply to the same conduct that is the basis for the imposition of such civil penalty.

§ 3018.405 Penalty procedures.

Agencies shall impose and collect civil penalties pursuant to the provisions of the Program Fraud and Civil Remedies Act, 31 U.S.C. sections 3803 (except subsection (c)), 3804, 3805, 3806, 3807, 3808, and 3812, insofar as these provisions are not inconsistent with the requirements herein.

§ 3018.410 Enforcement.

The head of each agency shall take such actions as are necessary to ensure that the provisions herein are vigorously implemented and enforced in that agency.
(b) The report, including the compilation, shall be available for public inspection 30 days after receipt of the report by the Secretary and the Clerk.
(c) Information that involves intelligence matters shall be reported only to the Select Committee on Intelligence of the Senate, the Permanent Select Committee on Intelligence of the House of Representatives, and the Committees on Appropriations of the Senate and the House of Representatives in accordance with procedures agreed to by such committees. Such information shall not be available for public inspection.
(d) Information that is classified under Executive Order 12356 or any successor order shall be reported only to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives or the Committees on Armed Services of the Senate and the House of Representatives (whichever such committees have jurisdiction of matters involving such information) and to the Committees on Appropriations of the Senate and the House of Representatives in accordance with procedures agreed to by such committees. Such information shall not be available for public inspection.
(e) The first semi-annual compilation shall be submitted on May 31, 1990, and shall contain a compilation of the disclosure reports received from December 23, 1989 to March 31, 1990.
(f) Major agencies, designated by the Office of Management and Budget (OMB), are required to provide machine-readable compilations to the Secretary of the Senate and the Clerk of the House of Representatives no later than with the compilations due on May 31, 1991. OMB shall provide detailed specifications in a memorandum to these agencies.
(g) Non-major agencies are requested to provide machine-readable compilations to the Secretary of the Senate and the Clerk of the House of Representatives.
(h) Agencies shall keep the originals of all disclosure reports in the official files of the agency.

§ 3018.605 Inspector General report.
(a) The Inspector General, or other official as specified in paragraph (b) of this section, of each agency shall prepare and submit to Congress each year, commencing with submission of the President's Budget in 1991, an evaluation of the compliance of that agency with, and the effectiveness of, the requirements herein. The evaluation may include any recommended changes that may be necessary to strengthen or improve the requirements.
(b) In the case of an agency that does not have an Inspector General, the agency official comparable to an Inspector General shall prepare and submit the annual report, or, if there is no such comparable official, the head of the agency shall prepare and submit the annual report.
(c) The annual report shall be submitted at the same time the agency submits its annual budget justifications to Congress.
(d) The annual report shall include the following: All alleged violations relating to the agency's covered Federal actions during the year covered by the report, the actions taken by the head of the agency in the year covered by the report with respect to those alleged violations and alleged violations in previous years, and the amounts of civil penalties imposed by the agency in the year covered by the report.

APPENDIX A TO PART 3018—CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:
(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting
to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

If any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.
## DISCLOSURE OF LOBBYING ACTIVITIES

Complete this form to disclose lobbying activities pursuant to 31 U.S.C. 1352
(See reverse for public disclosure.)

### 1. Type of Federal Action:
- [ ] contract
- [ ] grant
- [ ] cooperative agreement
- [ ] loan
- [ ] loan guarantee
- [ ] loan insurance

### 2. Status of Federal Action:
- [ ] bid/proposal/application
- [ ] initial award
- [ ] post-award

### 3. Report Type:
- [ ] initial filing
- [ ] material change

For Material Change Only:
- Year
- Quarter
- Date of last report

### 4. Name and Address of Reporting Entity:
- [ ] Prime
- [ ] Subcontractor

### 5. If Reporting Entity in No. 4 is Subcontractor, Enter Name and Address of Prime:
- Congressional District, if known:

### 6. Federal Department/Agency:

### 7. Federal Program Name/Description:
- CFDA Number, if applicable:

### 8. Federal Action Number, if known:

### 9. Award Amount, if known:

### 10. a. Name and Address of Lobbying Entity:
- Individual, last name, first name, M.D.

### 11. Amount of Payment (check all that apply): $_____
- [ ] actual
- [ ] planned

### 12. Form of Payment (check all that apply):
- [ ] cash
- [ ] in-kind; specify: nature ___________

### 13. Type of Payment (check all that apply):
- [ ] retainer
- [ ] one-time fee
- [ ] commission
- [ ] contingent fee
- [ ] deferred
- [ ] other; specify: ___________

### 14. Brief Description of Services Performed or to be Performed and Date(s) of Service, including officer(s), employee(s), or Member(s) contacted, for Payment Indicated in Item 11:

### 15. Continuation Sheet(s) SF-LLL-A attached:
- [ ] Yes
- [ ] No

### 16. Information required through this form is authorized by Title 31 U.S.C. section 3152. The disclosure of lobbying activities is a material representation of fact upon which adverse was placed by the tax agency when this transaction was made or entered into. This disclosure is required pursuant to 29 U.S.C. 1352. This information will be required to the Congress semi-annually and will be available for public inspection. Any person who fails to file the required disclosure shall be subject to a civil penalty of not less than $50,000 and not more than $100,000 for each such failure.

- Standard Form - LLL
INSTRUCTIONS FOR COMPLETION OF SF-LLL DISCLOSURE OF LOBBYING ACTIVITIES

This disclosure form shall be completed by the reporting entity, whether subcontractor or prime Federal recipient, at the initiation or receipt of a covered Federal action, or a material change to a previous filing, pursuant to title 31 U.S.C. section 1352. The filing of a form is required for each payment or agreement to make payment to any lobbying entity for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with a covered Federal action. Use the SF-LLL-A Continuation Sheet for additional information if the space on the form is inadequate. Complete all items that apply for both the initial filing and material change report. Refer to the implementing guidance published by the Office of Management and Budget for additional information.

1. Identify the type of covered Federal action for which lobbying activity is and/or has been secured to influence the outcome of a covered Federal action.
2. Identify the status of the covered Federal action.
3. Identify the appropriate classification of this report. If this is a followup report caused by a material change to the information previously reported, enter the year and quarter in which the change occurred. Enter the date of the last previously submitted report by this reporting entity for this covered Federal action.
4. Enter the full name, address, city, state and zip code of the reporting entity. Include Congressional District, if known. Check the appropriate classification of the reporting entity that designates if it is, or expects to be, a prime or subcontract recipient. Identify the tier of the subcontractor, e.g., the first subcontractor of the prime is the 1st tier. Subawards include but are not limited to subcontracts, subgrants and contract awards under grants.
5. If the organization filing the report in item 4 checks "Subawardee", then enter the full name, address, city, state and zip code of the prime Federal recipient. Include Congressional District, if known.
6. Enter the name of the Federal agency making the award or loan commitment. Include at least one organizational level below agency name, if known. For example, Department of Transportation, United States Coast Guard.
7. Enter the Federal program name or description for the covered Federal action (item 1). If known, enter the full Catalog of Federal Domestic Assistance (CFDA) number for grants, cooperative agreements, loans, and loan commitments.
8. Enter the most appropriate Federal identifying number available for the Federal action identified in item 1 (e.g., Request for Proposal (RFP) number; Invitation for Bid (IFB) number; grant announcement number; the contract, grant, or loan award number; the application/proposal control number assigned by the Federal agency). Include prefixes, e.g., "RFP-DE-00-001."
9. For a covered Federal action where there has been an award or loan commitment by the Federal agency, enter the Federal amount of the award/loan commitment for the prime entity identified in item 4 or 5.
10. (a) Enter the full name, address, city, state and zip code of the lobbying entity engaged by the reporting entity identified in item 4 to influence the covered Federal action.
(b) Enter the full names of the individual(s) performing services, and include full address if different from 10 (a).
11. Enter the amount of compensation paid or reasonably expected to be paid by the reporting entity (item 4) to the lobbying entity (item 10). Indicate whether the payment has been made (actual) or will be made (planned). Check all boxes that apply. If this is a material change report, enter the cumulative amount of payment made or planned to be made.
12. Check the appropriate box(es). Check all boxes that apply. If payment is made through an in-kind contribution, specify the nature and value of the in-kind payment.
13. Check the appropriate box(es). Check all boxes that apply. If other, specify nature.
14. Provide a specific and detailed description of the services that the lobbyist has performed, or will be expected to perform, and the dates of any services rendered. Include all preparatory and related activity, not just time spent in actual contact with Federal officials. Identify the Federal official(s) or employee(s) contacted or the officer(s), employee(s), or Member(s) of Congress that were contacted.
15. Check whether or not a SF-LLL-A Continuation Sheet(s) is attached.
16. The certifying official shall sign and date the form, print his/her name, title, and telephone number.

Public reporting burden for this collection of information is estimated to average 30 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0807-0046), Washington, D.C. 20503.
PART 3019—UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND AGREEMENTS WITH INSTITUTIONS OF HIGHER EDUCATION, HOSPITALS, AND OTHER NON-PROFIT ORGANIZATIONS

Subpart A—General

§ 3019.1 Purpose.
This part establishes uniform administrative requirements for Federal grants and agreements awarded to institutions of higher education, hospitals, and other non-profit organizations. Federal awarding agencies shall not impose additional or inconsistent requirements, except as provided in §§3019.4, and 3019.14 or unless specifically required by Federal statute or executive order. Non-profit organizations that implement Federal programs for the States are also subject to State requirements.

§ 3019.2 Definitions.
(a) Accrued expenditures means the charges incurred by the recipient during a given period requiring the provision of funds for:
(1) Goods and other tangible property received;
(2) Services performed by employees, contractors, subrecipients, and other payees; and

FINANCIAL AND PROGRAM MANAGEMENT

§ 3019.20 Purpose of financial and program management.

PROPERTY STANDARDS

§ 3019.30 Purpose of property standards.

PROCUREMENT STANDARDS

§ 3019.40 Purpose of procurement standards.
(3) Other amounts becoming owed under programs for which no current services or performance is required.

(b) Accrued income means the sum of:

(1) Earnings during a given period from:

(i) Services performed by the recipient, and

(ii) Goods and other tangible property delivered to purchasers, and

(2) Amounts becoming owed to the recipient for which no current services or performance is required by the recipient.

(c) Acquisition cost of equipment means the net invoice price of the equipment, including the cost of modifications, attachments, accessories, or auxiliary apparatus necessary to make the property usable for the purpose for which it was acquired. Other charges, such as the cost of installation, transportation, taxes, duty or protective in-transit insurance, shall be included or excluded from the unit acquisition cost in accordance with the recipient’s regular accounting practices.

(d) Advance means a payment made by Treasury check or other appropriate payment mechanism to a recipient upon its request either before outlays are made by the recipient or through the use of predetermined payment schedules.

(e) Award means financial assistance that provides support or stimulation to accomplish a public purpose. Awards include grants and other agreements in the form of money or property in lieu of money, by the Federal Government to an eligible recipient. The term does not include: technical assistance, which provides services instead of money; other assistance in the form of loans, loan guarantees, interest subsidies, or insurance; direct payments of any kind to individuals; contracts which are required to be entered into and administered under procurement laws and regulations; and those agreements that are entered into under the authorities provided by sections 1472(b), 1473A, and 1473C of the National Research Extension, and Teaching Policy Act of 1977 (as amended by the Food Security Act (7 U.S.C. 3318, 3319a and 3319c.), and subsequent authorizations. The term also does not include entitlement grants and subgrants under the National School Lunch Act:

(1) School Lunch (section 4 of the Act),

(2) Commodity Assistance (section 6 of the Act),

(3) Special Meal Assistance (section 11 of the Act),

(4) Summer Food Service for Children (section 13 of the Act), and,

(5) Child and Adult Care Food Program (section 17 of the Act), and entitlement grants and subgrants under the following programs of the Child Nutrition Act of 1966:

(i) Special Milk (section 3 of the Act), and,

(ii) School Breakfast (section 4 of the Act).

(f) Cash contributions means the recipient’s cash outlay, including the outlay of money contributed to the recipient by third parties.

(g) Closeout means the process by which a Federal awarding agency determines that all applicable administrative actions and all required work of the award have been completed by the recipient and Federal awarding agency.

(h) Contract means a procurement contract under an award or subaward, and a procurement subcontract under a recipient’s or subrecipient’s contract.

(i) Cost sharing or matching means that portion of project or program costs not borne by the Federal Government.

(j) Date of completion means the date on which all work under an award is completed or the date on the award document, or any supplement or amendment thereto, on which Federal sponsorship ends.

(k) Disallowed costs means those charges to an award that the Federal awarding agency determines to be unallowable, in accordance with the applicable Federal cost principles or other terms and conditions contained in the award.

(l) Equipment means tangible non-expendable personal property including exempt property charged directly to the award having a useful life of more than one year and an acquisition cost of $5000 or more per unit. However, consistent with recipient policy, lower limits may be established.
(m) Excess property means property under the control of any Federal awarding agency that, as determined by the head thereof, is no longer required for its needs or the discharge of its responsibilities.

(n) Exempt property means tangible personal property acquired in whole or in part with Federal funds, where the Federal awarding agency has statutory authority to vest title in the recipient without further obligation to the Federal Government. An example of exempt property authority is contained in the Federal Grant and Cooperative Agreement Act (31 U.S.C. 6306), for property acquired under an award to conduct basic or applied research by a non-profit institution of higher education or non-profit organization whose principal purpose is conducting scientific research.

(o) Federal awarding agency means the U.S. Department of Agriculture (USDA) or any subagency of the U.S. Department of Agriculture that provides an award to the recipient.

(p) Federal funds authorized means the total amount of Federal funds obligated by the Federal Government for use by the recipient. This amount may include any authorized carryover of unobligated funds from prior funding periods when permitted by agency regulations or agency implementing instructions.

(q) Federal share of real property, equipment, or supplies means that percentage of the property’s acquisition costs and any improvement expenditures paid with Federal funds.

(r) Funding period means the period of time when Federal funding is available for obligation by the recipient.

(s) Intangible property and debt instruments means, but is not limited to, trademarks, copyrights, patents and patent applications and such property as loans, notes and other debt instruments, lease agreements, stock and other instruments of property ownership, whether considered tangible or intangible.

(t) Obligations means the amounts of orders placed, contracts and grants awarded, services received and similar transactions during a given period that require payment by the recipient during the same or a future period.

(u) Outlays or expenditures means charges made to the project or program. They may be reported on a cash or accrual basis. For reports prepared on a cash basis, outlays are the sum of cash disbursements for direct charges for goods and services, the amount of indirect expense charged, the value of third party in-kind contributions applied and the amount of cash advances and payments made to subrecipients. For reports prepared on an accrual basis, outlays are the sum of cash disbursements for direct charges for goods and services, the amount of indirect expense incurred, the value of in-kind contributions applied, and the net increase (or decrease) in the amounts owed by the recipient for goods and other property received, for services performed by employees, contractors, subrecipients and other payees and other amounts becoming owed under programs for which no current services or performance are required.

(v) Personal property means property of any kind except real property. It may be tangible, having physical existence, or intangible, having no physical existence, such as copyrights, patents, or securities.

(w) Prior approval means written approval by an authorized official evidencing prior consent.

(x) Program income means gross income earned by the recipient that is directly generated by a supported activity or earned as a result of the award (see exclusions in §§ 3019.24 (e) and (h)). Program income includes, but is not limited to, income from fees for services performed, the use or rental of real or personal property acquired under federally-funded projects, the sale of commodities or items fabricated under an award, license fees and royalties on patents and copyrights, and interest on loans made with award funds. Interest earned on advances of Federal funds is not program income. Except as otherwise provided in Federal awarding agency regulations or the terms and conditions of the award, program income does not include the receipt of principal on loans, rebates, credits, discounts, etc., or interest earned on any of them.

(y) Project costs means all allowable costs, as set forth in the applicable...
Federal cost principles, incurred by a recipient and the value of the contributions made by third parties in accomplishing the objectives of the award during the project period.

(2) Project period means the period established in the award document during which Federal sponsorship begins and ends.

(aa) Property means, unless otherwise stated, real property, equipment, intangible property and debt instruments.

(bb) Real property means land, including land improvements, structures and appurtenances thereto, but excludes movable machinery and equipment.

(cc) Recipient means an organization receiving financial assistance directly from Federal awarding agencies to carry out a project or program. The term includes public and private institutions of higher education, public and private hospitals, and other quasi-public and private non-profit organizations such as, but not limited to, community action agencies, research institutes, educational associations, and health centers. The term may include commercial organizations, foreign or international organizations (such as agencies of the United Nations) which are recipients, subrecipients, or contractors or subcontractors of recipients or subrecipients at the discretion of the Federal awarding agency. The term does not include government-owned contractor-operated facilities or research centers providing continued support for mission-oriented, large-scale programs that are government-owned or controlled, or are designated as federally-funded research and development centers.

(dd) Research and development means all research activities, both basic and applied, and all development activities that are supported at universities, colleges, and other non-profit institutions. “Research” is defined as a systematic study directed toward fuller scientific knowledge or understanding of the subject studied. “Development” is the systematic use of knowledge and understanding gained from research directed toward the production of useful materials, devices, systems, or methods, including design and development of prototypes and processes. The term research also includes activities involving the training of individuals in research techniques where such activities utilize the same facilities as other research and development activities and where such activities are not included in the instruction function.

(ee) Small awards means a grant or cooperative agreement not exceeding the small purchase threshold fixed at 41 U.S.C. 403(11) (currently $25,000).

(ff) Subaward means an award of financial assistance in the form of money, or property in lieu of money, made under an award by a recipient to an eligible subrecipient or by a subrecipient to a lower tier subrecipient. The term includes financial assistance when provided by any legal agreement, even if the agreement is called a contract, but does not include procurement of goods and services nor does it include any form of assistance which is excluded from the definition of “award” in paragraph (e) of this section.

(gg) Subrecipient means the legal entity to which a subaward is made and which is accountable to the recipient for the use of the funds provided. The term may include foreign or international organizations (such as agencies of the United Nations) at the discretion of the Federal awarding agency.

(hh) Supplies means all personal property excluding equipment, intangible property, and debt instruments as defined in this section, and inventions of a contractor conceived or first actually reduced to practice in the performance of work under a funding agreement (“subject inventions”), as defined in 37 CFR part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts, and Cooperative Agreements.”

(ii) Suspension means an action by a Federal awarding agency that temporarily withdraws Federal sponsorship under an award, pending corrective action by the recipient or pending a decision to terminate the award by the Federal awarding agency. Suspension of an award is a separate action from suspension under Federal agency regulations implementing E.O.s 12690, 12549, and 12689, “Debarment and Suspension.”
(jj) Termination means the cancellation of Federal sponsorship, in whole or in part, under an agreement at any time prior to the date of completion.

(kk) Third party in-kind contributions means the value of non-cash contributions provided by non-Federal third parties. Third party in-kind contributions may be in the form of real property, equipment, supplies and other expendable property, and the value of goods and services directly benefiting and specifically identifiable to the project or program.

(ll) Unliquidated obligations, for financial reports prepared on a cash basis, means the amount of obligations incurred by the recipient that have not been paid. For reports prepared on an accrued expenditure basis, they represent the amount of obligations incurred by the recipient for which an outlay has not been recorded.

(mm) Unobligated balance means the portion of the funds authorized by the Federal awarding agency that has not been obligated by the recipient and is determined by deducting the cumulative obligations from the cumulative funds authorized.

(nn) Unrecovered indirect cost means the difference between the amount awarded and the amount which could have been awarded under the recipient's approved negotiated indirect cost rate.

(oo) Working capital advance means a procedure where by funds are advanced to the recipient to cover its estimated disbursement needs for a given initial period.

§ 3019.3 Effect on other issuances.

For awards subject to this part, all administrative requirements of codified program regulations, program manuals, handbooks and other non-regulatory materials which are inconsistent with the requirements of this part shall be superseded, except to the extent they are required by statute, or authorized in accordance with the deviations provision in § 3019.4.

§ 3019.4 Deviations.

The Office of Management and Budget (OMB) may grant exceptions for classes of grants or recipients subject to the requirements of this part when exceptions are not prohibited by statute. However, in the interest of maximum uniformity, exceptions from the requirements of this part shall be permitted only in unusual circumstances. Federal awarding agencies may apply more restrictive requirements to a class of recipients when approved by OMB. Federal awarding agencies may apply less restrictive requirements when awarding small awards, except for those requirements which are statutory. Exceptions on a case-by-case basis may also be made by Federal awarding agencies.

§ 3019.5 Subawards.

Unless sections of this part specifically exclude subrecipients from coverage, the provisions of this part shall be applied to subrecipients performing work under awards if such subrecipients are institutions of higher education, hospitals or other non-profit organizations. State and local government subrecipients are subject to the provisions of regulations implementing the grants management common rule, “Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Government,” codified at 7 CFR part 3016.

Subpart B—Pre-Award Requirements

§ 3019.10 Purpose.

Sections 3019.11 through 3019.17 prescribe forms and instructions and other pre-award matters to be used in applying for Federal awards.

§ 3019.11 Pre-award policies.

(a) Use of grants and cooperative agreements, and contracts. In each instance, the Federal awarding agency shall decide on the appropriate award instrument (i.e., grant, cooperative agreement, or contract). The Federal Grant and Cooperative Agreement Act (31 U.S.C. 6301-08) governs the use of grants, cooperative agreements and contracts. A grant or cooperative agreement shall be used only when the principal purpose of a transaction is to accomplish a public purpose of support or stimulation authorized by Federal statute. The statutory criterion for
choosing between grants and cooperative agreements is that for the latter, "substantial involvement is expected between the executive agency and the State, local government, or other recipient when carrying out the activity contemplated in the agreement." Contracts shall be used when the principal purpose is acquisition of property or services for the direct benefit or use of the Federal Government.

(b) Public notice and priority setting. Federal awarding agencies shall notify the public of its intended funding priorities for discretionary grant programs, unless funding priorities are established by Federal statute.

§ 3019.12 Forms for applying for Federal assistance.

(a) Federal awarding agencies shall comply with the applicable report clearance requirements of 5 CFR part 1320, "Controlling Paperwork Burdens on the Public," with regard to all forms used by the Federal awarding agency in place of or as a supplement to the Standard Form 424 (SF-424) series.

(b) Applicants shall use the SF-424 series or those forms and instructions prescribed by the Federal awarding agency.

(c) For Federal programs covered by E.O. 12372, "Intergovernmental Review of Federal Programs," the applicant shall complete the appropriate sections of the SF-424 (Application for Federal Assistance) indicating whether the application was subject to review by the State Single Point of Contact (SPOC). The name and address of the SPOC for a particular State can be obtained from the Federal awarding agency or the Catalog of Federal Domestic Assistance. The SPOC shall advise the applicant whether the program for which application is made has been selected by that State for review. The U.S. Department of Agriculture procedures implementing E.O. 12372 are found at CFR part 3015.

(d) Federal awarding agencies that do not use the SF-424 form should indicate whether the application is subject to review by the State under E.O. 12372.

§ 3019.13 Debarment and suspension.

Federal awarding agencies and recipients shall comply with the non-procurement debarment and suspension common rule implementing E.O.s 12549 and 12669, "Debarment and Suspension," codified at 7 CFR 3017. This common rule restricts subawards and contracts with certain parties that are debarred, suspended or otherwise excluded from or ineligible for participation in Federal assistance programs or activities.

§ 3019.14 Special award conditions.

If an applicant or recipient:

(a) Has a history of poor performance,

(b) Is not financially stable,

(c) Has a management system that does not meet the standards prescribed in this part,

(d) Has not conformed to the terms and conditions of a previous award, or

(e) Is not otherwise responsible,

Federal awarding agencies may impose additional requirements as needed, provided that such applicant or recipient is notified in writing as to: the nature of the additional requirements, the reason why the additional requirements are being imposed, the nature of the corrective action needed, the time allowed for completing the corrective actions, and the method for requesting reconsideration of the additional requirements imposed. Any special conditions shall be promptly removed once the conditions that prompted them have been corrected.

§ 3019.15 Metric system of measurement.

The Metric Conversion Act, as amended by the Omnibus Trade and Competitiveness Act (15 U.S.C. 205) declares that the metric system is the preferred measurement system for U.S. trade and commerce. The Act requires each Federal agency to establish a date or dates in consultation with the Secretary of Commerce, when the metric system of measurement will be used in the agency’s procurements, grants, and other business-related activities. Metric implementation may take longer where the use of the system is initially
impractical or likely to cause significant inefficiencies in the accomplishment of federally-funded activities. Federal awarding agencies shall follow the provisions of E.O. 12770, "Metric Usage in Federal Government Programs."

§ 3019.16 Resource Conservation and Recovery Act.

Under the Resource Conservation and Recovery Act (RCRA) (Pub. L. 94-580 codified at 42 U.S.C. 6962), any State agency or agency of a political subdivision of a State which is using appropriated Federal funds must comply with section 6002. Section 6002 requires that preference be given in procurement programs to the purchase of specific products containing recycled materials identified in guidelines developed by the Environmental Protection Agency (EPA) (40 CFR parts 247-254). Accordingly, State and local institutions of higher education, hospitals, and non-profit organizations that receive direct Federal awards or other Federal funds shall give preference in their procurement programs funded with Federal funds to the purchase of recycled products pursuant to the EPA guidelines.

§ 3019.17 Certifications and representations.

Unless prohibited by statute or codified regulation, each Federal awarding agency is authorized and encouraged to allow recipients to submit certifications and representations required by statute, executive order, or regulation on an annual basis, if the recipients have ongoing and continuing relationships with the agency. Annual certifications and representations shall be signed by responsible officials with the authority to ensure recipients’ compliance with the pertinent requirements.

Subpart C—Post-Award Requirements

Financial and Program Management

§ 3019.20 Purpose of financial and program management.

Sections 3019.21 through 3019.28 prescribe standards for financial management systems, methods for making payments and rules for: satisfying cost sharing and matching requirements, accounting for program income, budget revision approvals, making audits, determining allowability of cost, and establishing fund availability.

§ 3019.21 Standards for financial management systems.

(a) Federal awarding agencies shall require recipients to relate financial data to performance data and develop unit cost information whenever practical.

(b) Recipients’ financial management systems shall provide for the following.

(1) Accurate, current and complete disclosure of the financial results of each federally-sponsored project or program in accordance with the reporting requirements set forth in §3019.52.

(2) Records that identify adequately the source and application of funds for federally-sponsored activities. These records shall contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, outlays, income and interest.

(3) Effective control over and accountability for all funds, property and other assets. Recipients shall adequately safeguard all such assets and assure they are used solely for authorized purposes.

(4) Comparison of outlays with budget amounts for each award. Whenever appropriate, financial information should be related to performance and unit cost data.

(5) Written procedures to minimize the time elapsing between the transfer of funds to the recipient from the U.S. Treasury and the issuance or redemption of checks, warrants or payments by other means for program purposes by the recipient. To the extent that the provisions of the Cash Management Improvement Act (CMIA) (Pub. L. 101-453) govern, payment methods of State
agencies, instrumentalities, and fiscal agents shall be consistent with CMIA Treasury-State Agreements or the CMIA default procedures codified at 31 CFR part 205, “Withdrawal of Cash From the Treasury for Advances Under Federal Grant and Other Programs.”

(c) Written procedures for determining the reasonableness, allocability and allowability of costs in accordance with the provisions of the applicable Federal cost principles and the terms and conditions of the award.

(d) Accounting records including cost accounting records that are supported by source documentation.

(1) Where the Federal Government guarantees or insures the repayment of money borrowed by the recipient, the Federal USDA awarding agency, at its discretion, may require adequate bonding and insurance if the bonding and insurance requirements of the recipient are not deemed adequate to protect the interest of the Federal Government.

(2) The Federal awarding agency may require adequate fidelity bond coverage where the recipient lacks sufficient coverage to protect the Federal Government's interest.

(e) Where bonds are required in the situations described in paragraphs (c) and (d) of this section, the bonds shall be obtained from companies holding certificates of authority as acceptable sureties, as prescribed in 31 CFR part 223, “Surety Companies Doing Business With the United States.”

§ 3019.22 Payment.

(a) Payment methods shall minimize the time elapsing between the transfer of funds from the United States Treasury and the issuance or redemption of checks, warrants, or payment by other means by the recipients. Payment methods of State agencies or instrumentalities shall be consistent with Treasury-State CMIA agreements or default procedures codified at 31 CFR part 205.

(b) Recipients are to be paid in advance, provided they maintain or demonstrate the willingness to maintain: written procedures that minimize the time elapsing between the transfer of funds and disbursement by the recipient, and financial management systems that meet the standards for fund control and accountability as established in §3019.21. Cash advances to a recipient organization shall be limited to the minimum amounts needed and be timed to be in accordance with the actual, immediate cash requirements of the recipient organization in carrying out the purpose of the approved program or project. The timing and amount of cash advances shall be as close as is administratively feasible to the actual disbursements by the recipient organization for direct program or project costs and the proportionate share of any allowable indirect costs.

(c) Whenever possible, advances shall be consolidated to cover anticipated cash needs for all awards made by the Federal awarding agency to the recipient.

(1) Advance payment mechanisms include, but are not limited to, Treasury check and electronic funds transfer.

(2) Advance payment mechanisms are subject to 31 CFR part 205.

(3) Recipients shall be authorized to submit requests for advances and reimbursements at least monthly when electronic fund transfers are not used.

(d) Requests for Treasury check advance payment shall be submitted on SF-270, “Request for Advance or Reimbursement,” or other forms as may be authorized by OMB. This form is not to be used when Treasury check advance payments are made to the recipient automatically through the use of a predetermined payment schedule or if precluded by special Federal awarding agency instructions for electronic funds transfer.

(e) Reimbursement is the preferred method when the requirements in paragraph (b) of this section cannot be met. Federal awarding agencies may also use this method on any construction agreement, or if the major portion of the construction project is accomplished through private market financing or Federal loans, and the Federal assistance constitutes a minor portion of the project.

(1) When the reimbursement method is used, the Federal awarding agency shall make payment within 30 days after receipt of the billing, unless the billing is improper.
§ 3019.22  7 CFR Ch. XXX (1-1-98 Edition)

(2) Recipients shall be authorized to submit request for reimbursement at least monthly when electronic funds transfers are not used.

(f) If a recipient cannot meet the criteria for advance payments and the Federal awarding agency has determined that reimbursement is not feasible because the recipient lacks sufficient working capital, the Federal awarding agency may provide cash on a working capital advance basis. Under this procedure, the Federal awarding agency shall advance cash to the recipient to cover its estimated disbursement needs for an initial period generally geared to the awardee’s disbursing cycle. Thereafter, the Federal awarding agency shall reimburse the recipient for its actual cash disbursements. The working capital advance method of payment shall not be used for recipients unwilling or unable to provide timely advances to their subrecipient to meet the subrecipient’s actual cash disbursements.

(g) To the extent available, recipients shall disburse funds from repayments to and interest earned on a revolving fund, program income, rebates, refunds, contract settlements, audit recoveries and interest earned on such funds before requesting additional cash payments.

(h) Unless otherwise required by statute, Federal awarding agencies shall not withhold payments for proper charges made by recipients at any time during the project period unless paragraphs (h)(1) and (h)(2) of this section apply.

(1) A recipient has failed to comply with the project objectives, the terms and conditions of the award, or Federal reporting requirements.

(2) The recipient or subrecipient is delinquent in a debt to the United States as defined in OMB Circular A-129, “Managing Federal Credit Programs.”

(3) Under such conditions, the Federal awarding agency may, upon reasonable notice, inform the recipient that payments shall not be made for obligations incurred after a specified date until the conditions are corrected or the indebtedness to the Federal Government is liquidated.

(i) Standards governing the use of banks and other institutions as depositories of funds advanced under awards are as follows.

(1) Except for situations described in paragraph (i)(2) of this section, Federal awarding agencies shall not require separate depository accounts for funds provided to a recipient or establish any eligibility requirements for depositories for funds provided to a recipient. However, recipients must be able to account for the receipt, obligation and expenditure of funds.

(2) Advances of Federal funds shall be deposited and maintained in insured accounts whenever possible.

(j) Consistent with the national goal of expanding the opportunities for women-owned and minority-owned business enterprises, recipients shall be encouraged to use women-owned and minority-owned banks (a bank which is owned at least 50 percent by women or minority group members).

(k) Recipients shall maintain advances of Federal funds in interest bearing accounts, unless paragraphs (k)(1), (k)(2) or (k)(3) of this section apply.

(1) The recipient receives less than $120,000 in Federal awards per year.

(2) The best reasonably available interest bearing account would not be expected to earn interest in excess of $250 per year on Federal cash balances.

(3) The depository would require an average or minimum balance so high that it would not be feasible within the expected Federal and non-Federal cash resources.

(l) For those entities where CMIA and its implementing regulations do not apply, interest earned on Federal advances deposited in interest bearing accounts shall be remitted annually to Department of Health and Human Services, Payment Management System, P.O. Box 6021, Rockville, MD 20852. Interest amounts up to $250 per year may be retained by the recipient for administrative expense. In keeping with the Electronic Funds Transfer rules, (31 CFR Part 206), interest should be remitted to the HHS Payment Management System through an electronic medium such as the FEDWIRE Deposit system. Recipients which do not have this capability should use a check.
State universities and hospitals shall comply with CMIA, as it pertains to interest. If an entity subject to CMIA uses its own funds to pay pre-award costs for discretionary awards without prior written approval from the Federal awarding agency, it waives its right to recover the interest under CMIA.

(m) Except as noted elsewhere in this part, only the following forms shall be authorized for the recipients in requesting advances and reimbursements. Federal agencies shall not require more than an original and two copies of these forms.

1. SF-270, Request for Advance or Reimbursement. Each Federal awarding agency shall adopt the SF-270 as a standard form for all nonconstruction programs when electronic funds transfer or predetermined advance methods are not used. Federal awarding agencies, however, have the option of using this form for construction programs in lieu of the SF-271, “Outlay Report and Request for Reimbursement for Construction Programs.”

2. SF-271, Outlay Report and Request for Reimbursement for Construction Programs. Each Federal awarding agency shall adopt the SF-271 as the standard form to be used for requesting reimbursement for construction programs. However, a Federal awarding agency may substitute the SF-270 when the Federal awarding agency determines that it provides adequate information to meet Federal needs.

§ 3019.23 Cost sharing or matching.

(a) All contributions, including cash and third party in-kind, shall be accepted as part of the recipient’s cost sharing or matching when such contributions meet all of the following criteria.

1. Are verifiable from the recipient’s records.

2. Are not included as contributions for any other federally-assisted project or program.

3. Are necessary and reasonable for proper and efficient accomplishment of project or program objectives.

4. Are allowable under the applicable costs principles.

5. Are not paid by the Federal Government under another award, except where authorized by Federal statute to be used for cost sharing or matching.

6. Are provided for in the approved budget when required by the Federal awarding agency.

7. Conform to other provisions of this part, as applicable.

(b) Unrecovered indirect costs may be included as part of cost sharing or matching only with the prior approval of the Federal awarding agency.

(c) Values for recipient contributions of services and property shall be established in accordance with the applicable cost principles. If a Federal awarding agency authorizes recipients to donate buildings or land for construction/ facilities acquisition projects or long-term use, the value of the donated property for cost sharing or matching shall be the lesser of paragraphs (c)(1) or (c)(2) of this section.

1. The certified value of the remaining life of the property recorded in the recipient’s accounting records at the time of donation.

2. The current fair market value. However, when there is sufficient justification, the Federal awarding agency may approve the use of the current fair market value of the donated property, even if it exceeds the certified value at the time of donation to the project.

(d) Volunteer services furnished by professional and technical personnel, consultants, and other skilled and unskilled labor may be counted as cost sharing or matching if the service is an integral and necessary part of an approved project or program. Rates for volunteer services shall be consistent with those paid for similar work in the recipient’s organization. In instances in which the required skills are not found in the recipient organization, rates shall be consistent with those paid for similar work in the labor market in which the recipient competes for the kind of services involved. In either case, paid fringe benefits that are reasonable, allowable, and allocable may be included in the valuation.

(e) When an employer other than the recipient furnishes the services of an employee, these services shall be valued at the employee’s regular rate of pay (plus an amount of fringe benefits
§ 3019.24 Program income.

(a) Federal awarding agencies shall apply the standards set forth in this section in requiring recipient organizations to account for program income related to projects financed in whole or in part with Federal funds.

(b) Except as provided in paragraph (h) of this section, program income earned during the project period shall be retained by the recipient and, in accordance with Federal awarding agency regulations or the terms and conditions of the award, shall be used in one or more of the ways listed in the following:

(1) Added to funds committed to the project by the Federal awarding agency and recipient and used to further eligible project or program objectives.

(2) Used to finance the non-Federal share of the project or program.

(3) Deducted from the total project or program allowable cost in determining the net allowable costs on which the Federal share of costs is based.

(c) When an agency authorizes the disposition of program income as described in paragraphs (b)(1) or (b)(2) of this section, program income in excess of any limits stipulated shall be used in accordance with paragraph (b)(3) of this section.

(d) In the event that the Federal awarding agency does not specify in its regulations or the terms and conditions of the award how program income is to be used, paragraph (b)(3) of this section shall apply automatically to all projects or programs except research. For awards that support research, paragraph (b)(1) of this section

that are reasonable, allowable, and allocable, but exclusive of overhead costs), provided these services are in the same skill for which the employee is normally paid.

(f) Donated supplies may include such items as expendable equipment, office supplies, laboratory supplies or workshop and classroom supplies. Value assessed to donated supplies included in the cost sharing or matching share shall be reasonable and shall not exceed the fair market value of the property at the time of the donation.

(g) The method used for determining cost sharing or matching for donated equipment, buildings and land for which title passes to the recipient may differ according to the purpose of the award, if paragraphs (g)(1) or (g)(2) of this section apply.

(1) If the purpose of the award is to assist the recipient in the acquisition of equipment, buildings or land, the total value of the donated property may be claimed as cost sharing or matching.

(2) If the purpose of the award is to support activities that require the use of equipment, buildings or land, normally only depreciation or use charges for equipment and buildings may be made. However, the full value of equipment or other capital assets and fair rental charges for land may be allowed, provided that the Federal awarding agency has approved the charges.

(h) The value of donated property shall be determined in accordance with the usual accounting policies of the recipient, with the following qualifications.

(1) The value of donated land and buildings shall not exceed its fair market value at the time of donation to the recipient as established by an independent appraiser (e.g., certified real property appraiser or General Services Administration representative) and certified by a responsible official of the recipient.

(2) The value of donated equipment shall not exceed the fair market value of equipment of the same age and condition at the time of donation.

(3) The value of donated space shall not exceed the fair rental value of comparable space as established by an independent appraisal of comparable space and facilities in a privately-owned building in the same locality.

(4) The value of loaned equipment shall not exceed its fair rental value.

(5) The following requirements pertain to the recipient’s supporting records for in-kind contributions from third parties.

(i) Volunteer services shall be documented and, to the extent feasible, supported by the same methods used by the recipient for its own employees.

(ii) The basis for determining the valuation of personal service, material, equipment, buildings and land shall be documented.
shall apply automatically unless the awarding agency indicates in the terms and conditions another alternative on the award or the recipient is subject to special award conditions, as indicated in §3019.14.

(e) Unless Federal awarding agency regulations or the terms and conditions of the award provide otherwise, recipients shall have no obligation to the Federal Government regarding program income earned after the end of the project period.

(f) If authorized by Federal awarding agency regulations or the terms and conditions of the award, costs incident to the generation of program income may be deducted from gross income to determine program income, provided these costs have not been charged to the award.

(g) Proceeds from the sale of property shall be handled in accordance with the requirements of the Property Standards (See §§3019.30 through 3019.37).

§3019.25 Revision of budget and program plans.

(a) The budget plan is the financial expression of the project or program as approved during the award process. It may include either the Federal and non-Federal share, or only the Federal share, depending upon Federal awarding agency requirements. It shall be related to performance for program evaluation purposes whenever appropriate.

(b) Recipients are required to report deviations from budget and program plans, and request prior approvals for budget and program plan revisions, in accordance with this section.

(c) For nonconstruction awards, recipients shall request prior approvals from Federal awarding agencies for one or more of the following program or budget related reasons.

(1) Change in the scope or the objective of the project or program (even if there is no associated budget revision requiring prior written approval).

(2) Change in a key person specified in the application or award document.

(3) The absence for more than three months, or a 25 percent reduction in time devoted to the project, by the approved project director or principal investigator.

(4) The need for additional Federal funding.

(5) The transfer of amounts budgeted for indirect costs to absorb increases in direct costs, or vice versa, if approval is required by the Federal awarding agency.

(7) The transfer of funds allotted for training allowances (direct payment to trainees) to other categories of expense.

(8) Unless described in the application and funded in the approved awards, the subaward, transfer or contracting out of any work under an award. This provision does not apply to the purchase of supplies, material, equipment or general support services.

(d) No other prior approval requirements for specific items may be imposed unless a deviation has been approved by OMB.

(e) Except for requirements listed in paragraphs (c)(1) and (c)(4) of this section, Federal awarding agencies are authorized, at their option, to waive cost-related and administrative prior written approvals required by this part and OMB Circulars A-21 and A-122. Such waivers may include authorizing recipients to do any one or more of the following.
§ 3019.25  

(1) Incurs pre-award costs 90 calendar days prior to award or more than 90 calendar days with the prior approval of the Federal awarding agency. All pre-award costs are incurred at the recipient’s risk (i.e., the Federal awarding agency is under no obligation to reimburse such costs if for any reason the recipient does not receive an award or if the award is less than anticipated and inadequate to cover such costs).

(2) Initiates a one-time extension of the expiration date of the award of up to 12 months unless one or more of the following conditions apply. For one-time extensions, the recipient must notify the Federal awarding agency in writing with the supporting reasons and revised expiration date at least 10 days before the expiration date specified in the award. This one-time extension may not be exercised merely for the purpose of using unobligated balances.

(i) The terms and conditions of award prohibit the extension.

(ii) The extension requires additional Federal funds.

(iii) The extension involves any change in the approved objectives or scope of the project.

(3) Carries forward unobligated balances to subsequent funding periods.

(4) For awards that support research, unless the Federal awarding agency provides otherwise in the award or in the agency’s regulations, the prior approval requirements described in this paragraph (e) are automatically waived (i.e., recipients need not obtain such prior approvals) unless one of the conditions included in paragraph (e)(2) of this section applies.

(i) The Federal awarding agency may, at its discretion, restrict the transfer of funds among direct cost categories or programs, functions and activities for awards in which the Federal share of the project exceeds $100,000 and the cumulative amount of such transfers exceeds or is expected to exceed 10 percent of the total budget as last approved by the Federal awarding agency. No Federal awarding agency shall permit a transfer that would cause any Federal appropriation or part thereof to be used for purposes other than those consistent with the original intent of the appropriation.

(g) All other changes to nonconstruction budgets, except for the changes described in paragraph (j) of this section, do not require prior approval.

(h) For construction awards, recipients shall request prior written approval promptly from the Federal awarding agencies for budget revisions whenever paragraphs (h)(1), (h)(2) or (h)(3) of this section apply.

(1) The revision results from changes in the scope or the objective of the project or program.

(2) The need arises for additional Federal funds to complete the project.

(3) A revision is desired which involves specific costs for which prior written approval requirements may be imposed consistent with applicable OMB cost principles listed in §3019.27.

(i) No other prior approval requirements for specific items may be imposed unless a deviation has been approved by OMB.

(j) When a Federal awarding agency makes an award that provides support for both construction and nonconstruction work, the Federal awarding agency may require the recipient to request prior approval from the Federal awarding agency before making any fund or budget transfers between the two types of work supported.

(k) For both construction and nonconstruction awards, Federal awarding agencies shall require recipients to notify the Federal awarding agency in writing promptly whenever the amount of Federal authorized funds is expected to exceed the needs of the recipient for the project period by more than $5000 or five percent of the Federal award, whichever is greater. This notification shall not be required if an application for additional funding is submitted for a continuation award.

(l) When requesting approval for budget revisions, recipients shall use the budget forms that were used in the application unless the Federal awarding agency indicates a letter of request suffices.

(m) Within 30 calendar days from the date of receipt of the request for budget revisions, Federal awarding agencies shall review the request and notify the recipient whether the budget revisions have been approved. If the revision is still under consideration at the end of
30 calendar days, the Federal awarding agency shall inform the recipient in writing of the date when the recipient may expect the decision.

§ 3019.26 Non-Federal audits.

(a) Recipients and subrecipients that are institutions of higher education or other non-profit organizations (including hospitals) shall be subject to the audit requirements contained in the Single Audit Act Amendments of 1996 (31 U.S.C. 7501-7507) and revised OMB Circular A–133, “Audits of States, Local Governments, and Non-Profit Organizations.”

(b) State and local governments shall be subject to the audit requirements contained in the Single Audit Act Amendments of 1996 (31 U.S.C. 7501-7507) and revised OMB Circular A–133, “Audits of States, Local Governments, and Non-Profit Organizations.”

(c) For-profit hospitals not covered by the audit provisions of revised OMB Circular A–133 shall be subject to the audit requirements of the Federal awarding agencies.

(d) Commercial organizations shall be subject to the audit requirements of the Federal awarding agency or the prime recipient as incorporated into the award document.

(e) In USDA, revised OMB Circular A–133 is implemented in 7 CFR part 3052, “Audits of States, Local Governments, and Non-Profit Organizations.”

§ 3019.27 Allowable costs.

For each kind of recipient, there is a set of Federal principles for determining allowable costs. Allowability of costs shall be determined in accordance with the cost principles applicable to the entity incurring the costs. Thus, allowability of costs incurred by State, local or federally-recognized Indian tribal governments is determined in accordance with the provisions of OMB Circular A–87, “Cost Principles for State and Local Governments.” The allowability of costs incurred by non-profit organizations is determined in accordance with the provisions of OMB Circular A–122, “Cost Principles for Non-Profit Organizations.” The allowability of costs incurred by institutions of higher education is determined in accordance with the provisions of OMB Circular A–21, “Cost Principles for Educational Institutions.” The allowability of costs incurred by hospitals is determined in accordance with the provisions of Appendix E of 45 CFR part 74, “Principles for Determining Costs Applicable to Research and Development Under Grants and Contracts with Hospitals.” The allowability of costs incurred by commercial organizations and those non-profit organizations listed in Attachment C to Circular A–122 is determined in accordance with the provisions of the Federal Acquisition Regulation (FAR) at 48 CFR part 31.

§ 3019.28 Period of availability of funds.

Where a funding period is specified, a recipient may charge to the grant only allowable costs resulting from obligations incurred during the funding period and any pre-award costs authorized by the Federal awarding agency.

§ 3019.30 Purpose of property standards.

Sections 3019.31 through 3019.37 set forth uniform standards governing management and disposition of property furnished by the Federal Government whose cost was charged to a project supported by a Federal award. Federal awarding agencies shall require recipients to observe these standards under awards and shall not impose additional requirements, unless specifically required by Federal statute. The recipient may use its own property management standards and procedures provided it observes the provisions of §§ 3019.31 through 3019.37.

§ 3019.31 Insurance coverage.

Recipients shall, at a minimum, provide the equivalent insurance coverage for real property and equipment acquired with Federal funds as provided to property owned by the recipient. Federally-owned property need not be insured unless required by the terms and conditions of the award.
§ 3019.32 Real property.

Each Federal awarding agency shall prescribe requirements for recipients concerning the use and disposition of real property acquired in whole or in part under awards. Unless otherwise provided by statute, such requirements, at a minimum, shall contain the following.

(a) Title to real property shall vest in the recipient subject to the condition that the recipient shall use the real property for the authorized purpose of the project as long as it is needed and shall not encumber the property without approval of the Federal awarding agency.

(b) The recipient shall obtain written approval by the Federal awarding agency for the use of real property in other federally-sponsored projects when the recipient determines that the property is no longer needed for the purpose of the original project. Use in other projects shall be limited to those under federally-sponsored projects (i.e., awards) or programs that have purposes consistent with those authorized for support by the Federal awarding agency.

(c) When the real property is no longer needed as provided in paragraphs (a) and (b), the recipient shall request disposition instructions from the Federal awarding agency or its successor Federal awarding agency. The Federal awarding agency shall observe one or more of the following disposition instructions.

(1) The recipient may be permitted to retain title without further obligation to the Federal Government after it compensates the Federal Government for that percentage of the current fair market value of the property attributable to the Federal participation in the project.

(2) The recipient may be directed to sell the property under guidelines provided by the Federal awarding agency and pay the Federal Government for that percentage of the current fair market value of the property attributable to the Federal participation in the project (after deducting actual and reasonable selling and fix-up expenses, if any, from the sales proceeds). When the recipient is authorized or required to sell the property, proper sales procedures shall be established that provide for competition to the extent practicable and result in the highest possible return.

(3) The recipient may be directed to transfer title to the property to the Federal Government or to an eligible third party provided that, in such cases, the recipient shall be entitled to compensation for its attributable percentage of the current fair market value of the property.

§ 3019.33 Federally-owned and exempt property.

(a) Federally-owned property.

(1) Title to federally-owned property remains vested in the Federal Government. Recipients shall submit annually an inventory listing of federally-owned property in their custody to the Federal awarding agency. Upon completion of the award or when the property is no longer needed, the recipient shall report the property to the Federal awarding agency for further Federal agency utilization.

(2) If the Federal awarding agency has no further need for the property, it shall be declared excess and reported to the General Services Administration, unless the Federal awarding agency has statutory authority to dispose of the property by alternative methods (e.g., the authority provided by the Federal Technology Transfer Act (15 U.S.C. 3710(I)) to donate research equipment to educational and non-profit organizations in accordance with E.O. 12821, “Improving Mathematics and Science Education in Support of the National Education Goals”). Appropriate instructions shall be issued to the recipient by the Federal awarding agency.

(b) Exempt property. When statutory authority exists, the Federal awarding agency has the option to vest title to property acquired with Federal funds in the recipient without further obligation to the Federal Government and under conditions the Federal awarding agency considers appropriate. Such property is “exempt property.” Should a Federal awarding agency not establish conditions, title to exempt property upon acquisition shall vest in the recipient without further obligation to the Federal Government.
§ 3019.34 Equipment.

(a) Title to equipment acquired by a recipient with Federal funds shall vest in the recipient, subject to conditions of this section.

(b) The recipient shall not use equipment acquired with Federal funds to provide services to non-Federal outside organizations for a fee that is less than private companies charge for equivalent services, unless specifically authorized by Federal statute, for as long as the Federal Government retains an interest in the equipment.

(c) The recipient shall use the equipment in the project or program for which it was acquired as long as needed, whether or not the project or program continues to be supported by Federal funds and shall not encumber the property without approval of the Federal awarding agency. When no longer needed for the original project or program, the recipient shall use the equipment in connection with its other federally-sponsored activities, in the following order of priority:

1. Activities sponsored by the Federal awarding agency which funded the original project, then
2. Activities sponsored by other Federal awarding agencies.

(d) During the time that equipment is used on the project or program for which it was acquired, the recipient shall make it available for use on other projects or programs if such other use will not interfere with the work on the project or program for which the equipment was originally acquired. First preference shall be given to other projects or programs sponsored by the Federal awarding agency that financed the equipment; second preference shall be given to projects or programs sponsored by other Federal awarding agencies. If the equipment is owned by the Federal Government, use on other activities not sponsored by the Federal Government shall be permissible if authorized by the Federal awarding agency. User charges shall be treated as program income.

(e) When acquiring replacement equipment, the recipient may use the equipment to be replaced as trade-in or sell the equipment and use the proceeds to offset the costs of the replacement equipment subject to the approval of the Federal awarding agency.

(f) The recipient's property management standards for equipment acquired with Federal funds and federally-owned equipment shall include all of the following:

1. Equipment records shall be maintained accurately and shall include the following information:
   i. A description of the equipment.
   ii. Manufacturer's serial number, model number, Federal stock number, national stock number, or other identification number.
   iii. Source of the equipment, including the award number.
   iv. Whether title vests in the recipient or the Federal Government.
   v. Whether the equipment was furnished by the Federal Government and cost.
   vi. Information from which one can calculate the percentage of Federal participation in the cost of the equipment (not applicable to equipment furnished by the Federal Government).
   vii. Location and condition of the equipment and the date the information was reported.
   viii. Unit acquisition cost.
   ix. Ultimate disposition data, including date of disposal and sales price or the method used to determine current fair market value where a recipient compensates the Federal awarding agency for its share.

2. Equipment owned by the Federal Government shall be identified to indicate Federal ownership.

3. A physical inventory of equipment shall be taken and the results reconciled with the equipment records at least once every two years. Any differences between quantities determined by the physical inspection and those shown in the accounting records shall be investigated to determine the causes of the difference. The recipient shall, in connection with the inventory, verify the existence, current utilization, and continued need for the equipment.

4. A control system shall be in effect to ensure adequate safeguards to prevent loss, damage, or theft of the equipment. Any loss, damage, or theft of equipment shall be investigated and fully documented; if the equipment was furnished by the Federal Government, use on other activities not sponsored by the Federal Government shall be permissible if authorized by the Federal awarding agency.
owned by the Federal Government, the recipient shall promptly notify the Federal awarding agency.

(5) Adequate maintenance procedures shall be implemented to keep the equipment in good condition.

(6) Where the recipient is authorized or required to sell the equipment, proper sales procedures shall be established which provide for competition to the extent practicable and result in the highest possible return.

(g) When the recipient no longer needs the equipment, the equipment may be used for other activities in accordance with the following standards. For equipment with a current per unit fair market value of $5000 or more, the recipient may retain the equipment for other uses provided that compensation is made to the original Federal awarding agency or its successor. The amount of compensation shall be computed by applying the percentage of Federal participation in the cost of the original project or program to the current fair market value of the equipment. If the recipient has no need for the equipment, the recipient shall request disposition instructions from the Federal awarding agency. The Federal awarding agency shall determine whether the equipment can be used to meet the agency's requirements. If no requirement exists within that agency, the availability of the equipment shall be reported to the General Services Administration by the Federal awarding agency to determine whether a requirement for the equipment exists in other Federal agencies. The Federal awarding agency shall issue instructions to the recipient no later than 120 calendar days after the recipient's request and the following procedures shall govern.

(1) If so instructed or if disposition instructions are not issued within 120 calendar days after the recipient's request, the recipient shall sell the equipment and reimburse the Federal awarding agency an amount computed by applying to the sales proceeds the percentage of Federal participation in the cost of the original project or program. However, the recipient shall be permitted to deduct and retain from the Federal share $500 or ten percent of the proceeds, whichever is less, for the recipient's selling and handling expenses.

(2) If the recipient is instructed to ship the equipment elsewhere, the recipient shall be reimbursed by the Federal Government by an amount which is computed by applying the percentage of the recipient's participation in the cost of the original project or program to the current fair market value of the equipment, plus any reasonable shipping or interim storage costs incurred.

(3) If the recipient is instructed to otherwise dispose of the equipment, the recipient shall be reimbursed by the Federal awarding agency for such costs incurred in its disposition.

(4) The Federal awarding agency may reserve the right to transfer the title to the Federal Government or to a third party named by the Federal Government when such third party is otherwise eligible under existing statutes. Such transfer shall be subject to the following standards:

(i) The equipment shall be appropriately identified in the award or otherwise made known to the recipient in writing.

(ii) The Federal awarding agency shall issue disposition instructions within 120 calendar days after receipt of a final inventory. The final inventory shall list all equipment acquired with grant funds and federally-owned equipment. If the Federal awarding agency fails to issue disposition instructions within the 120 calendar day period, the recipient shall apply the standards of this section, as appropriate.

(iii) When the Federal awarding agency exercises its right to take title, the equipment shall be subject to the provisions for federally-owned equipment.

§ 3019.35 Supplies and other expendable property.

(a) Title to supplies and other expendable property shall vest in the recipient upon acquisition. If there is a residual inventory of unused supplies exceeding $5000 in total aggregate value upon termination or completion of the project or program and the supplies are not needed for any other federally-sponsored project or program,
the recipient shall retain the supplies
for use on non-Federal sponsored ac-
tivities or sell them, but shall, in ei-
ther case, compensate the Federal Gov-
ernment for its share. The amount of
compensation shall be computed in the
same manner as for equipment.
(b) The recipient shall not use sup-
plies acquired with Federal funds to
provide services to non-Federal outside
organizations for a fee that is less than
private companies charge for equiva-
 lent services, unless specifically au-
thorized by federal statute as long as
the Federal Government retains an in-
terest in the supplies.
§ 3019.36 Intangible property.
(a) The recipient may copyright any
work that is subject to copyright and
was developed, or for which ownership
was purchased, under an award. The
Federal awarding agency(ies) reserve a
royalty-free, nonexclusive and irrev-
ocable right to reproduce, publish, or
otherwise use the work for Federal pur-
poses, and to authorize others to do so.
(b) Recipients are subject to applica-
ble regulations governing patents and
inventions, including government-wide
regulations issued by the Department
of Commerce at 37 CFR part 401,
"Rights to Inventions Made by Non-
profit Organizations and Small Busi-
ness Firms Under Government Grants,
Contracts and Cooperative Agree-
ments."
(c) Unless waived by the Federal
awarding agency, the Federal Govern-
ment has the right to:
(1) Obtain, reproduce, publish or oth-
ervise use the date first produced
under an award, and
(2) Authorize others to receive, repro-
duce, publish, or otherwise use such
data for Federal purposes.
(d) Title to intangible property and
debt instruments acquired under an
award or subaward vests upon acquisi-
tion in the recipient. The recipient
shall use that property for the origi-
nally-authorized purpose, and the re-
cipient shall not encumber the prop-
erty without approval of the Federal
awarding agency. When no longer need-
ed for the originally authorized pur-
pose, disposition of the intangible prop-
erty shall occur in accordance with the
provisions of § 3019.34(g).

§ 3019.37 Property trust relationship.
Real property, equipment, intangible
property and debt instruments that are
acquired or improved with Federal
funds shall be held in trust by the re-
cipient as trustee for the beneficiaries
of the project or program under which
the property was acquired or improved.
Agencies may require recipients to
record liens or other appropriate no-
tices of record to indicate that per-
sonal or real property has been ac-
quired or improved with Federal funds
and that use and disposition conditions
apply to the property.

PROCUREMENT STANDARDS

§ 3019.40 Purpose of procurement
standards.
Sections 3019.41 through 3019.48 set
forth standards for use by recipients in
establishing procedures for the pro-
curement of supplies and other expend-
able property, equipment, real property
and other services with Federal funds.
These standards are furnished to en-
sure that such materials and services
are obtained in an effective manner
and in compliance with the provisions
of applicable Federal statutes and ex-
cecutive orders. No additional procure-
ment standards or requirements shall
be imposed by the Federal awarding
agencies upon recipients, unless spe-
cifically required by Federal statute or
executive order or approved by OMB.

§ 3019.41 Recipient responsibilities.
The standards contained in this sec-
don do not relieve the recipient of the
contractual responsibilities arising
under its contract(s). The recipient is
the responsible authority, without re-
course to the Federal awarding agency,
regarding the settlement and satisfac-
tion of all contractual and administra-
tional issues arising out of procurements
entered into in support of an award or
other agreement. This includes dis-
putes, claims, protests of award, source
evaluation or other matters of a con-
tractual nature. Matters concerning
violation of statute are to be referred
to such Federal, State or local author-
ity as may have proper jurisdiction.
§ 3019.42 Codes of conduct.

The recipient shall maintain written standards of conduct governing the performance of its employees engaged in the award and administration of contracts. No employee, officer, or agent shall participate in the selection, award, or administration of a contract supported by Federal funds if a real or apparent conflict of interest would be involved. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in the firm selected for an award. The officers, employees, and agents of the recipient shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors, or parties to subagreements. However, recipients may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value. The standards of conduct shall provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the recipient.

§ 3019.43 Competition.

All procurement transactions shall be conducted in a manner to provide, to the maximum extent practical, open and free competition. The recipient shall be alert to organizational conflicts of interests as well as non-competitive practices among contractors that may restrict or eliminate competition or otherwise restrain trade. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specificitations, requirements, statements of work, invitations for bids and/or requests for proposals shall be excluded from competing for such procurements. Awards shall be made to the bidder or offeror whose bid or offer is responsive to the solicitation and is most advantageous to the recipient, price, quality and other factors considered. Solicitations shall clearly set forth all requirements that the bidder or offeror shall fulfill in order for the bid or offer to be evaluated by the recipient. Any and all bids or offers may be rejected when it is in the recipient’s interest to do so.

§ 3019.44 Procurement procedures.

(a) All recipients shall establish written procurement procedures. These procedures shall provide for, at a minimum, that paragraphs (a)(1), (a)(2), and (a)(3) of this section apply.

(1) Recipients avoid purchasing unnecessary items.

(2) Where appropriate, an analysis is made of lease and purchase alternatives to determine which would be the most economical and practical procurement for the Federal Government.

(3) Solicitations for goods and services provide for all of the following:

(i) A clear and accurate description of the technical requirements for the material, product or service to be procured. In competitive procurements, such a description shall not contain features which unduly restrict competition.

(ii) Requirements which the bidder/offeror must fulfill and all other factors to be used in evaluating bids or proposals.

(iii) A description, whenever practicable, of technical requirements in terms of functions to be performed or performance required, including the range of acceptable characteristics or minimum acceptable standards.

(iv) The specific features of “brand name or equal” descriptions that bidders are required to meet when such items are included in the solicitation.

(v) The acceptance, to the extent practicable and economically feasible, of products and services dimensioned in the metric system of measurement.

(vi) Preference, to the extent practicable and economically feasible, for products and services that conserve natural resources and protect the environment and are energy efficient.

(b) Positive efforts shall be made by recipients to utilize small businesses, minority-owned firms, and women’s business enterprises, whenever possible. Recipients of Federal awards shall take all of the following steps to further this goal.
(1) Ensure that small businesses, minority-owned firms, and women's business enterprises are used to the fullest extent practicable.

(2) Make information on forthcoming opportunities available and arrange time frames for purchases and contracts to encourage and facilitate participation by small businesses, minority-owned firms, and women's business enterprises.

(3) Consider in the contract process whether firms competing for larger contracts intend to subcontract with small businesses, minority-owned firms, and women's business enterprises.

(4) Encourage contracting with consortiums of small businesses, minority-owned firms and women's business enterprises when a contract is too large for one of these firms to handle individually.

(5) Use the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Department of Commerce's Minority Business Development Agency in the solicitation and utilization of small businesses, minority-owned firms and women's business enterprises.

(c) The type of procuring instruments used (e.g., fixed price contracts, cost reimbursable contracts, purchase orders, and incentive contracts) shall be determined by the recipient but shall be appropriate for the particular procurement and for promoting the best interest of the program or project involved. The "cost-plus-a-percentage-of-cost" or "percentage of construction cost" methods of contracting shall not be used.

(d) Contracts shall be made only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of the proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and technical resources or accessibility to other necessary resources. In certain circumstances, contracts with certain parties are restricted by agencies' implementation of E.O.s 12549 and 12689, "Debarment and Suspension."

(e) Recipients shall, on request, make available for the Federal awarding agency, pre-award review and procurement documents, such as request for proposals or invitations for bids, independent cost estimates, etc., when any of the following conditions apply.

(1) A recipient's procurement procedures or operation fails to comply with the procurement standards in the Federal awarding agency's implementation of this part.

(2) The procurement is expected to exceed the small purchase threshold fixed at 41 U.S.C. 403(11) (currently $25,000) and is to be awarded without competition or only one bid or offer is received in response to a solicitation.

(3) The procurement, which is expected to exceed the small purchase threshold, specifies a "brand name" product.

(4) The proposed award over the small purchase threshold is to be awarded to other than the apparent low bidder under a sealed bid procurement.

(5) A proposed contract modification changes the scope of a contract or increases the contract amount by more than the amount of the small purchase threshold.

§ 3019.45 Cost and price analysis.

Some form of cost or price analysis shall be made and documented in the procurement files in connection with every procurement action. Price analysis may be accomplished in various ways, including the comparison of price quotations submitted, market prices and similar indicia, together with discounts. Cost analysis is the review and evaluation of each element of cost to determine reasonableness, allocability and allowability.

§ 3019.46 Procurement records.

Procurement records and files for purchases in excess of the small purchase threshold shall include the following at a minimum:

(a) Basis for contractor selection,

(b) Justification for lack of competition bids or offers are not obtained, and

(c) Basis for award cost or price.
§ 3019.47 Contract administration.

A system for contract administration shall be maintained to ensure contractor conformance with the terms, conditions and specifications of the contract and to ensure adequate and timely follow up of all purchases. Recipients shall evaluate contractor performance and document, as appropriate, whether contractors have met the terms, conditions and specifications of the contract.

§ 3019.48 Contract provisions.

The recipient shall include, in addition to provisions to define a sound and complete agreement, the following provisions in all contracts. The following provisions shall also be applied to subcontracts.

(a) Contracts in excess of the small purchase threshold shall contain contractual provisions or conditions that allow for administrative, contractual, or legal remedies in instances in which a contractor violates or breaches the contract terms, and provide for such remedial actions as may be appropriate.

(b) All contracts in excess of the small purchase threshold shall contain suitable provisions for termination by the recipient, including the manner by which termination shall be effected and the basis for settlement. In addition, such contracts shall describe conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor.

(c) Except as otherwise required by statute, an award that requires the contracting (or subcontracting) for construction or facility improvements shall provide for the recipient to follow its own requirements relating to bid guarantees, performance bonds, and payment bonds unless the construction contract or subcontract exceeds $100,00. For those contracts or subcontracts exceeding $200,000, the Federal awarding agency may accept the bonding policy and requirements of the recipient, provided the Federal awarding agency has made a determination that the Federal Government’s interest is adequately protected. If such a determination has not been made, the minimum requirements shall be as follows.

(1) A bid guarantee from each bidder equivalent to five percent of the bid price. The “bid guarantee” shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder shall, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(2) A performance bond on the part of the contractor for 100 percent of the contract price. A “performance bond” is one executed in connection with a contract to secure fulfillment of all the contractor’s obligations under such contract.

(3) A payment bond on the part of the contractor for 100 percent of the contract price. A “payment bond” is one executed in connection with a contract to assure payment as required by statute of all persons supplying labor and material in the execution of the work provided for in the contract.

(4) Where bonds are required in the situations described herein, the bonds shall be obtained from companies holding certificates of authority as acceptable sureties pursuant to 31 CFR part 223, “Surety Companies Doing Business with the United States.”

(d) All negotiated contracts (except those for less than the small purchase threshold) awarded by recipients shall include a provision to the effect that the recipient, the Federal awarding agency, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers and records of the contractor which are directly pertinent to a specific program for the purpose of making audits, examinations, excerpts and transcriptions.

(e) All contracts, including small purchases, awarded by recipients and their contractors shall contain the procurement provisions of Appendix A to this part, as applicable.
§ 3019.50 Purpose of reports and records.

Sections 3019.51 through 3019.53 set forth the procedures for monitoring and reporting on the recipient's financial and program performance and the necessary standard reporting forms. They also set forth record retention requirements.

§ 3019.51 Monitoring and reporting program performance.

(a) Recipients are responsible for managing and monitoring each project, program, subaward, function or activity supported by the award. Recipients shall monitor subawards to ensure sub-recipients have met the audit requirements as delineated in Section 3019.26.

(b) The Federal awarding agency shall prescribe the frequency with which the performance reports shall be submitted. Except as provided in paragraph (f) of this section, performance reports shall not be required more frequently than quarterly or, less frequently than annually. Annual reports shall be due 90 calendar days after the grant year; quarterly or semi-annual reports shall be due 30 days after the reporting period. The Federal awarding agency may require annual reports before the anniversary dates of multiple years awards in lieu of these requirements. The final performance reports are due 90 calendar days after the expiration or termination of the award.

(c) If inappropriate, a final technical or performance report shall not be required after completion of the project.

(d) When required, performance reports shall generally contain, for each award, brief information on each of the following.

(1) A comparison of actual accomplishments with the goals and objectives established for the period, the findings of the investigator, or both. Whenever appropriate and the output of programs or projects can be readily quantified, such quantitative data should be related to cost data for computation of unit costs.

(2) Reasons why established goals were not met, if appropriate.

(3) Other pertinent information including, when appropriate, analysis and explanation of cost overruns or high unit costs.

(e) Recipients shall not be required to submit more than the original and two copies of performance reports.

(f) Recipients shall immediately notify the Federal awarding agency of developments that have a significant impact on the award-supported activities. Also, notification shall be given in the case of problems, delays, or adverse conditions which materially impair the ability to meet the objectives of the award. This notification shall include a statement of the action taken or contemplated, and any assistance needed to resolve the situation.

(g) Federal awarding agencies may make site visits, as needed.

(h) Federal awarding agencies shall comply with clearance requirements of 5 CFR part 1320 when requesting performance data from recipients.

§ 3019.52 Financial reporting.

(a) The following forms or such other forms as may be approved by OMB are authorized for obtaining financial information from recipients.

(i) SF-269 or SF-269A, Financial Status Report.

(ii) Each Federal awarding agency shall require recipients to use the SF-269 or SF-269A to report the status of funds for all nonconstruction projects or programs. A Federal awarding agency may, however, have the option of not requiring the SF-269 or SF-269A when the SF-270, Request for Advance or Reimbursement, or SF-272, Report of Federal Cash Transactions, is determined to provide adequate information to meet its needs, except that a final SF-269 or SF-269A shall be required at the completion of the project when the SF-270 is used only for advances.

(ii) The Federal awarding agency shall prescribe whether the report shall be on a cash or accrual basis. If the Federal awarding agency requires an accrual basis, the recipient's accounting records are not normally kept on the accrual basis, the recipient shall not be required to convert its accounting system, but shall develop such accrual information through best estimates based on an analysis of the documentation on hand.
(iii) The Federal awarding agency shall determine the frequency of the Financial Status Report for each project or program, considering the size and complexity of the particular project or program. However, the report shall not be required more frequently than quarterly or less frequently than annually. A final report shall be required at the completion of the agreement.

(iv) The Federal awarding agency shall require recipients to submit the SF-269 or SF-269A (an original and no more than two copies no later than 30 days after the end of each specified reporting period for quarterly and semiannual reports, and 90 calendar days for annual and final reports. Extensions of reporting due dates may be approved by the Federal awarding agency upon request of the recipient.

(i) When funds are advanced to recipients the Federal awarding agency shall require each recipient to submit the SF-272 and, when necessary, its continuation sheet, SF-272a. The Federal awarding agency shall use this report to monitor cash advanced to recipients and to obtain disbursement information for each agreement with the recipients.

(ii) Federal awarding agencies may require forecasts of Federal cash requirements in the “Remarks” section of the report.

(iii) When practical and deemed necessary, Federal awarding agencies may require recipients to report in the “Remarks” section the amount of cash advances received in excess of three days. Recipients shall provide narrative explanations of actions taken to reduce the excess balances.

(iv) Recipients shall be required to submit not more than the original and two copies of the SF-272 15 calendar days following the end of each quarter. The Federal awarding agencies may require a monthly report from those recipients receiving advances totaling $1 million or more per year.

(v) Federal awarding agencies may waive the requirement for submission of the SF-272 for any one of the following reasons:

(A) When monthly advances do not exceed $25,000 per recipient, provided that such advances are monitored through other forms contained in this section;

(B) If, in the Federal awarding agency’s opinion, the recipient’s accounting controls are adequate to minimize excessive Federal advances; or

(C) When the electronic payment mechanisms provide adequate data.

(b) When the Federal awarding agency needs additional information or more frequent reports, the following shall be observed.

(1) When additional information is needed to comply with legislative requirements, Federal awarding agencies shall issue instructions to require recipients to submit such information under the “Remarks” section of the reports.

(2) When a Federal awarding agency determines that a recipient’s accounting system does not meet the standards in §3019.21, additional pertinent information to further monitor awards may be obtained upon written notice to the recipient until such time as the system is brought up to standard. The Federal awarding agency, in obtaining this information, shall comply with report clearance requirements of 5 CFR part 1320.

(3) Federal awarding agencies are encouraged to shade out any line item on any report if not necessary.

(4) Federal awarding agencies may accept the identical information from the recipients in machine readable format or computer printouts or electronic outputs in lieu of prescribed formats.

(5) Federal awarding agencies may provide computer or electronic outputs to recipients when such expedites or contributes to the accuracy of reporting.

§3019.53 Retention and access requirements for records.

(a) This section sets forth requirements for record retention and access to records for awards to recipients. Federal awarding agencies shall not impose any other record retention or access requirements upon recipients.

(b) Financial records, supporting documents, statistical records, and all
other records pertinent to an award shall be retained for a period of three years from the date of submission of the final expenditure report or, for awards that are renewed quarterly or annually, from the date of the submission of the quarterly or annual financial report, as authorized by the Federal awarding agency. The only exceptions are the following:

(1) If any litigation, claim, or audit is started before the expiration of the 3-year period, the records shall be retained until all litigation, claims or audit findings involving the records have been resolved and final action taken.

(2) Records for real property and equipment acquired with Federal funds shall be retained for 3 years after final disposition.

(3) When records are transferred to or maintained by the Federal awarding agency, the 3-year retention requirement is not applicable to the recipient.

(4) Indirect cost rate proposals, cost allocations plans, etc. as specified in paragraph (g) of this section.

(c) Copies of original records may be substituted for the original records if authorized by the Federal awarding agency.

(d) The Federal awarding agency shall request transfer of certain records to its custody from recipients when it determines that the records possess long term retention value. However, in order to avoid duplicate recordkeeping, a Federal awarding agency may make arrangements for recipients to retain any records that are continuously needed for joint use.

(e) The Federal awarding agency, the Inspector General, Comptroller General of the United States, or any of their duly authorized representatives, have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to the awards, in order to make audits, examinations, excerpts, transcripts and copies of such documents. This right also includes timely and reasonable access to a recipient’s personnel for the purpose of interview and discussion related to such documents. The rights of access in this paragraph are not limited to the required retention period, but shall last as long as records are retained.

(f) Unless required by statute, no Federal awarding agency shall place restrictions on receipts that limit public access to the records of recipients that are pertinent to an award, except when the Federal awarding agency can demonstrate that such records shall be kept confidential and would have been exempted from disclosure pursuant to the Freedom of Information Act (5 U.S.C. 552) if the records had belonged to the Federal awarding agency.

(g) Indirect cost rate proposals, cost allocations plans, etc. Paragraphs (g)(1) and (g)(2) of this section apply to the following types of documents, and their supporting records: indirect cost rate computations or proposals, cost allocations plans, and any similar accounting computations of the rate at which a particular group of costs is chargeable (such as computer usage chargeback rates or composite fringe benefit rates).

(1) If submitted for negotiation. If the recipient submits to the Federal awarding agency or the subrecipient submits to the recipient the proposal, plan, or other computation to form the basis for negotiation of the rate, then the 3-year retention period for its supporting records starts on the date of such submission.

(2) If not submitted for negotiation. If the recipient is not required to submit to the Federal awarding agency or the subrecipient is not required to submit to the recipient the proposal, plan, or other computation for negotiation purposes, then the 3-year retention period for the proposal, plan, or other computation and its supporting records starts at the end of the fiscal year (or other accounting period) covered by the proposal, plan, or other computation.

§ 3019.60 Purpose of termination and enforcement.

Sections 3019.61 and 3019.62 set forth uniform suspension, termination and enforcement procedures.
§ 3019.61 Termination.

(a) Awards may be terminated in whole or in part only if paragraphs (a)(1), (a)(2) or (a)(3) of this section apply.

(1) By the Federal awarding agency, if a recipient materially fails to comply with the terms and conditions of an award.

(2) By the Federal awarding agency with the consent of the recipient, in which case the two parties shall agree upon the termination conditions, including the effective date and, in the case of partial termination, the portion to be terminated.

(3) By the recipient upon sending to the Federal awarding agency written notification setting forth the reasons for such termination, the effective date, and, in the case of partial termination, the portion to be terminated.

However, if the Federal awarding agency determines in the case of partial termination that the reduced or modified portion of the grant will not accomplish the purposes for which the grant was made, it may terminate the grant in its entirety under either paragraphs (a)(1) or (2) of this section.

(b) If costs are allowed under an award, the responsibilities of the recipient referred to in § 3019.71(a), including those for property management as applicable, shall be considered in the termination of the award, and provision shall be made for continuing responsibilities of the recipient after termination, as appropriate.

§ 3019.62 Enforcement.

(a) Remedies for noncompliance. If a recipient materially fails to comply with the terms and conditions of an award, whether stated in a Federal statute, regulation, assurance, application, or notice of award, the Federal awarding agency may, in addition to imposing any of the special conditions outlined in § 3019.14, take one or more of the following actions, as appropriate in the circumstances.

(1) Temporarily withhold cash payments pending correction of the deficiency by the recipient or more severe enforcement action by the Federal awarding agency.

(2) Disallow (that is, deny both use of funds and any applicable matching credit for) all or part of the cost of the activity or action not in compliance.

(3) Wholly or partly suspend or terminate the current award.

(4) Withhold further awards for the project or program.

(5) Take other remedies that may be legally available.

(b) Hearings and appeals. In taking an enforcement action, the awarding agency shall provide the recipient an opportunity for hearing, appeal, or other administrative proceeding to which the recipient is entitled under any statute or regulation applicable to the action involved.

(c) Effects of suspension and termination. Costs of a recipient resulting from obligations incurred by the recipient during a suspension or after termination of an award are not allowable unless the awarding agency expressly authorizes them in the notice of suspension of termination or subsequently. Other recipient costs during suspension or after termination which are necessary and not reasonably avoidable are allowable if paragraphs (c)(1) and (c)(2) of this section apply.

(1) The costs result from obligations which were properly incurred by the recipient before the effective date of suspension or termination, are not in anticipation of it, and in the case of a termination, are noncancellable.

(2) The costs would be allowable if the award were not suspended or expired normally at the end of the funding period in which the termination takes effect.

(d) Relationship to debarment and suspension. The enforcement remedies identified in this section, including suspension and termination, do not preclude a recipient from being subject to debarment and suspension under E.O.s 12549 and 12689 and the Federal awarding agency implementing regulations (see § 3019.13).

Subpart D—After-the-Award Requirements

§ 3019.70 Purpose.

Sections 3019.71 through 3019.73 contain closeout procedures and other procedures for subsequent disallowances and adjustments.
§ 3019.71 Closeout procedures.

(a) Recipients shall submit, within 90 calendar days after the date of completion of the award, all financial, performance, and other reports as required by the terms and conditions of the award. The Federal awarding agency may approve extensions when requested by the recipient.

(b) Unless the Federal awarding agency authorizes an extension, a recipient shall liquidate all obligations incurred under the award not later than 90 calendar days after the funding period or the date of completion as specified in the terms and conditions of the award or in agency implementing instructions.

(c) The Federal awarding agency shall make prompt payments to a recipient for allowable reimbursable costs under the award being closed out.

(d) The recipient shall promptly refund any balances of unobligated cash that the Federal awarding agency has advanced or paid and that is not authorized to be retained by the recipient for use in other projects. OMB Circular A-129 governs unreturned amounts that become delinquent debts.

(e) When authorized by the terms and conditions of the award, the Federal awarding agency shall make a settlement for any upward or downward adjustments to the federal share of costs after closeout reports are received.

(f) The recipient shall account for any real and personal property acquired with Federal funds or received from the Federal Government in accordance with §§ 3019.31 through 3019.37.

(g) In the event a final audit has not been performed prior to the closeout of an award, the Federal awarding agency shall retain the right to recover an appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

§ 3019.72 Subsequent adjustments and continuing responsibilities.

(a) The closeout of an award does not affect any of the following:

§ 3019.73 Collection of amounts due.

(a) Any funds paid to a recipient in excess of the amount to which the recipient is finally determined to be entitled under the terms and conditions of the award constitute a debt to the Federal Government. If not paid within a reasonable period after the demand for payment, the Federal awarding agency may reduce the debt by:

1. Making an administrative offset against other requests for reimbursements.

2. Withholding advance payments otherwise due to the recipient.

3. Taking other action permitted by statute.

(b) Except as otherwise provided by law, the Federal awarding agency shall charge interest on an overdue debt in accordance with 4 CFR Chapter II, “Federal Claims Collection Standards.”

APPENDIX A TO PART 3019—CONTRACT PROVISIONS

All contracts, awarded by a recipient including small purchases, shall contain the following provisions as applicable:

repair awarded by recipients and subrecipients shall include a provision for compliance with the Copeland "Anti-Kickback" Act (18 U.S.C. 674), as supplemented by Department of Labor regulations (29 CFR part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States and the Act provides that each contractor or subrecipient shall be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he is otherwise entitled. The recipient shall report all suspected or reported violations to the Federal awarding agency.

3. Davis-Bacon Act, as amended (40 U.S.C. 276a to a-7)—When required by Federal program legislation, all construction contracts awarded by the recipients and subrecipients of more than $2000 shall include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 276a to a-7). The recipient shall place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation and the award of a contract shall be conditioned upon the acceptance of the wage determination. The recipient shall report all suspected or reported violations to the Federal awarding agency.

4. Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333)—Where applicable, all contracts awarded by recipients in excess of $2000 for construction contracts and in excess of $2500 for other contracts that involve the employment of mechanics or laborers shall include a provision for compliance with Sections 102 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333), as supplemented by Department of Labor regulations (29 CFR part 5). Under Section 102 of the Act, each contractor shall be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the weekly work week is 60 hours in the work week. Section 107 of the Act is applicable to construction work and provides that no laborer or mechanic shall be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchase of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

5. Rights to Inventions Made Under a Contract or Agreement—Contracts or agreements for the performance of experimental, developmental, or research work shall provide for the rights of the Federal Government and the recipient in any resulting invention in accordance with 37 CFR part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

6. Clean Air Act (42 U.S.C. 7401 et seq.) and the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.), as amended—Contracts and subgrants of amounts in excess of $100,000 shall contain a provision that requires the recipient to agree with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401 et seq.) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251 et seq.). Violations shall be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

8. Debarment and Suspension (E.O. 12549 and 12689)—All parties doing business with the Department of Agriculture should consult the Department's regulations for debarment and suspension. Each contract or Agreement (E.O. 12549 and 12689). "Debarment and Suspension." This list contains the names of parties debarred, suspended, or otherwise excluded by agencies, and contractors shall be barred as defined under statutory or regulatory authority other than E.O. 12549. Contractors with awards that exceed the small purchase threshold shall provide the required certification regarding its exclusion status and that of its principal employees.
Office of Chief Financial Officer, USDA § 3052.105

PART 3052—AUDITS OF STATES, LOCAL GOVERNMENTS, AND NON-PROFIT ORGANIZATIONS

Subpart A—General

Sec. 3052.100 Purpose.
3052.105 Definitions.

Subpart B—Audits

3052.200 Audit requirements.
3052.205 Basis for determining Federal awards expended.
3052.210 Subrecipient and vendor determinations.
3052.215 Relation to other audit requirements.
3052.220 Frequency of audits.
3052.225 Sanctions.
3052.230 Audit costs.
3052.235 Program-specific audits.

Subpart C—Auditees

3052.300 Auditee responsibilities.
3052.305 Auditor selection.
3052.310 Financial statements.
3052.315 Audit findings follow-up.
3052.320 Report submission.

Subpart D—Federal Agencies and Pass-Through Entities

3052.400 Responsibilities.
3052.405 Management decision.

Subpart E—Auditors

3052.500 Scope of audit.
3052.505 Audit reporting.
3052.510 Audit findings.
3052.515 Audit working papers.
3052.520 Major program determination.
3052.525 Criteria for Federal program risk.
3052.530 Criteria for a low-risk auditee.

Authority: 5 U.S.C. 301.

Source: 62 FR 45949, Aug. 29, 1997, unless otherwise noted.

Subpart A—General

§ 3052.100 Purpose.

This part sets forth standards for obtaining consistency and uniformity among Federal agencies for the audit of non-Federal entities expending Federal awards.

§ 3052.105 Definitions.

Audit finding means deficiencies which the auditor is required by § 3052.510(a) to report in the schedule of findings and questioned costs.

Auditee means any non-Federal entity that expends Federal awards which must be audited under this part.

Auditor means an auditor, that is a public accountant or a Federal, State or local government audit organization, which meets the general standards specified in generally accepted government auditing standards (GAGAS). The term auditor does not include internal auditors of non-profit organizations.

CFDA number means the number assigned to a Federal program in the Catalog of Federal Domestic Assistance (CFDA).

Cluster of programs means a grouping of closely related programs that share common compliance requirements. The types of clusters of programs are research and development (R&D), student financial aid (SFA), and other clusters. ‘‘Other clusters’’ are as defined by the Office of Management and Budget (OMB) in the compliance supplement or as designated by a State for Federal awards the State provides to its sub-recipients that meet the definition of a cluster of programs. When designating an ‘‘other cluster,’’ a State shall identify the Federal awards included in the cluster and advise the sub-recipients of compliance requirements applicable to the cluster, consistent with § 3052.400(d)(1) and § 3052.400(d)(2), respectively. A cluster of programs shall be considered as one program for determining major programs, as described in § 3052.520, and, with the exception of R&D as described in § 3052.200(c), whether a program-specific audit may be elected.

Cognizant agency for audit means the Federal agency designated to carry out the responsibilities described in § 3052.400(a).

Compliance supplement refers to the Circular A–133 Compliance Supplement, included as Appendix B to Circular A–133, or such documents as OMB or its designee may issue to replace it. This document is available from the Government Printing Office, Superintendent of Documents, Washington, DC 20402–9325.

Corrective action means action taken by the auditee that:
§ 3052.105

(1) Corrects identified deficiencies; 
(2) Produces recommended improvements; or 
(3) Demonstrates that audit findings are either invalid or do not warrant auditee action.

Federal agency has the same meaning as the term agency in Section 551(1) of title 5, United States Code.

Federal award means Federal financial assistance and Federal cost-reimbursement contracts that non-Federal entities receive directly from Federal awarding agencies or indirectly from pass-through entities. It does not include procurement contracts, under grants or contracts, used to buy goods or services from vendors. Any audits of such vendors shall be covered by the terms and conditions of the contract. Contracts to operate Federal Government owned, contractor operated facilities (GOCOs) are excluded from the requirements of this part.

Federal awarding agency means the Federal agency that provides an award directly to the recipient.

Federal financial assistance means assistance that non-Federal entities receive or administer in the form of grants, loans, loan guarantees, property (including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include amounts received as reimbursement for services rendered to individuals as described in §3052.205(h) and §3052.205(i).

Federal program means:
(1) All Federal awards to a non-Federal entity assigned a single number in the CFDA,
(2) When no CFDA number is assigned, all Federal awards from the same agency made for the same purpose should be combined and considered one program.
(3) Notwithstanding paragraphs (1) and (2) of this definition, a cluster of programs. The types of clusters of programs are:
   (i) Research and development (R&D);
   (ii) Student financial aid (SFA); and
   (iii) “Other clusters,” as described in the definition of cluster of programs in this section.

GAGAS means generally accepted government auditing standards issued by the Comptroller General of the United States, which are applicable to financial audits.

Generally accepted accounting principles has the meaning specified in generally accepted auditing standards issued by the American Institute of Certified Public Accountants (AICPA).

Indian tribe means any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native village or regional or village corporation (as defined in, or established under, the Alaskan Native Claims Settlement Act) that is recognized by the United States as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

Internal control means a process, effected by an entity's management and other personnel, designed to provide reasonable assurance regarding the achievement of objectives in the following categories:
(1) Effectiveness and efficiency of operations;
(2) Reliability of financial reporting; and
(3) Compliance with applicable laws and regulations.

Internal control pertaining to the compliance requirements for Federal programs (Internal control over Federal programs) means a process—effected by an entity's management and other personnel—designed to provide reasonable assurance regarding the achievement of the following objectives for Federal programs:
(1) Transactions are properly recorded and accounted for to:
   (i) Permit the preparation of reliable financial statements and Federal reports;
   (ii) Maintain accountability over assets; and
   (iii) Demonstrate compliance with laws, regulations, and other compliance requirements;
(2) Transactions are executed in compliance with:
   (i) Laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on a Federal program; and
   (ii) Any other laws and regulations that are identified in the compliance supplement; and
(3) Funds, property, and other assets are safeguarded against loss from unauthorized use or disposition.

Loan means a Federal loan or loan guarantee received or administered by a non-Federal entity.

Local government means any unit of local government within a State, including a county, borough, municipality, city, town, township, parish, local public authority, special district, school district, intrastate district, council of governments, and any other instrumentality of local government.

Major program means a Federal program determined by the auditor to be a major program in accordance with § 3052.520 or a program identified as a major program by a Federal agency or pass-through entity in accordance with §3052.215(c).

Management decision means the evaluation by the Federal awarding agency or pass-through entity of the audit findings and corrective action plan and the issuance of a written decision as to what corrective action is necessary.

Non-Federal entity means a State, local government, or non-profit organization.

Non-profit organization means:

(1) any corporation, trust, association, cooperative, or other organization that:
   (i) is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;
   (ii) is not organized primarily for profit; and
   (iii) uses its net proceeds to maintain, improve, or expand its operations; and
(2) The term non-profit organization includes non-profit institutions of higher education and hospitals.

OMB means the Executive Office of the President, Office of Management and Budget.

Oversight agency for audit means the Federal awarding agency that provides the predominant amount of direct funding to a recipient not assigned a cognizant agency for audit. When there is no direct funding, the Federal agency with the predominant indirect funding shall assume the oversight responsibilities. The duties of the oversight agency for audit are described in §3052.400(b).

Pass-through entity means a non-Federal entity that provides a Federal award to a subrecipient to carry out a Federal program.

Program-specific audit means an audit of one Federal program as provided for in §3052.200(c) and §3052.235.

Questioned cost means a cost that is questioned by the auditor because of an audit finding:

(1) Which resulted from a violation or possible violation of a provision of a law, regulation, contract, grant, cooperative agreement, or other agreement or document governing the use of Federal funds, including funds used to match Federal funds;
(2) Where the costs, at the time of the audit, are not supported by adequate documentation; or
(3) Where the costs incurred appear unreasonable and do not reflect the actions a prudent person would take in the circumstances.

Recipient means a non-Federal entity that expends Federal awards received directly from a Federal awarding agency to carry out a Federal program.

Research and development (R&D) means all research activities, both basic and applied, and all development activities that are performed by a non-Federal entity. Research is defined as a systematic study directed toward fuller scientific knowledge or understanding of the subject studied. The term research also includes activities involving the training of individuals in research techniques where such activities utilize the same facilities as other research and development activities and where such activities are not included in the instruction function. Development is the systematic use of knowledge and understanding gained from research directed toward the production of useful materials, devices, systems, or methods, including design and development of prototypes and processes.

Single audit means an audit which includes both the entity’s financial statements and the Federal awards as described in §3052.500.

State means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American
§ 3052.200 Audit requirements.

(a) Audit required. Non-Federal entities that expend $300,000 or more in a year in Federal awards shall have a single audit conducted in accordance with §3052.500 except when they elect to have a program-specific audit conducted in accordance with paragraph (c) of this section.

(b) Single audit. Non-Federal entities that expend $300,000 or more in a year in Federal awards shall have a single audit conducted in accordance with §3052.500 except when they elect to have a program-specific audit conducted in accordance with paragraph (c) of this section.

(c) Program-specific audit election. When an auditee expends Federal awards under only one Federal program (excluding R&D) and the Federal program’s laws, regulations, or grant agreements do not require a financial statement audit of the auditee, the auditee may elect to have a program-specific audit conducted in accordance with §3052.235. A program-specific audit may not be elected for R&D unless all of the Federal awards expended were received from the same Federal agency, or the same Federal agency and the same pass-through entity, and that Federal agency, or pass-through entity in the case of a subrecipient, approves in advance a program-specific audit.

(d) Exemption when Federal awards expended are less than $300,000. Non-Federal entities that expend less than $300,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in §3052.215(a), but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and General Accounting Office (GAO).

(e) Federally Funded Research and Development Centers (FFRDC). Management of an auditee that owns or operates a FFRDC may elect to treat the FFRDC as a separate entity for purposes of this part.

§ 3052.205 Basis for determining Federal awards expended.

(a) Determining Federal awards expended. The determination of whether an award is expended should be based on when the activity related to the award occurs. Generally, the activity pertains to events that require the non-Federal entity to comply with laws, regulations, and the provisions of contracts or grant agreements, such as expenditure/expense transactions associated with the provisions of this part. Guidance on determining Federal awards expended is provided in §3052.205.

(b) Single audit. Non-Federal entities that expend $300,000 or more in a year in Federal awards shall have a single audit conducted in accordance with §3052.500 except when they elect to have a program-specific audit conducted in accordance with paragraph (c) of this section.

(c) Program-specific audit election. When an auditee expends Federal awards under only one Federal program (excluding R&D) and the Federal program’s laws, regulations, or grant agreements do not require a financial statement audit of the auditee, the auditee may elect to have a program-specific audit conducted in accordance with §3052.235. A program-specific audit may not be elected for R&D unless all of the Federal awards expended were received from the same Federal agency, or the same Federal agency and the same pass-through entity, and that Federal agency, or pass-through entity in the case of a subrecipient, approves in advance a program-specific audit.

(d) Exemption when Federal awards expended are less than $300,000. Non-Federal entities that expend less than $300,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in §3052.215(a), but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and General Accounting Office (GAO).

(e) Federally Funded Research and Development Centers (FFRDC). Management of an auditee that owns or operates a FFRDC may elect to treat the FFRDC as a separate entity for purposes of this part.
with grants, cost-reimbursement contracts, cooperative agreements, and direct appropriations; the disbursement of funds passed through to subrecipients; the use of loan proceeds under loan and loan guarantee programs; the receipt of property; the receipt of surplus property; the receipt or use of program income; the distribution or consumption of food commodities; the disbursement of amounts entitling the non-Federal entity to an interest subsidy; and, the period when insurance is in force.

(b) Loan and loan guarantees (loans). Since the Federal Government is at risk for loans until the debt is repaid, the following guidelines shall be used to calculate the value of Federal awards expended under loan programs, except as noted in paragraphs (c) and (d) of this section:

(1) Value of new loans made or received during the fiscal year; plus
(2) Balance of loans from previous years for which the Federal Government imposes continuing compliance requirements; plus
(3) Any interest subsidy, cash, or administrative cost allowance received.

(c) Loan and loan guarantees (loans) at institutions of higher education. When loans are made to students of an institution of higher education but the institution does not make the loans, then only the value of loans made during the year shall be considered Federal awards expended in that year. The balance of loans for previous years is not included as Federal awards expended because the lender accounts for the prior balances.

(d) Prior loan and loan guarantees (loans). Loans, the proceeds of which were received and expended in prior years, are not considered Federal awards expended under this part when the laws, regulations, and the provisions of contracts or grant agreements pertaining to such loans impose no continuing compliance requirements other than to repay the loans.

(e) Endowment funds. The cumulative balance of Federal awards for endowment funds which are federally restricted are considered awards expended in each year in which the funds are still restricted.

(f) Free rent. Free rent received by itself is not considered a Federal award expended under this part. However, free rent received as part of an award to carry out a Federal program shall be included in determining Federal awards expended and subject to audit under this part.

(g) Valuing non-cash assistance. Federal non-cash assistance, such as free rent, food stamps, food commodities, donated property, or donated surplus property, shall be valued at fair market value at the time of receipt or the assessed value provided by the Federal agency.

(h) Medicare. Medicare payments to a non-Federal entity for providing patient care services to Medicare eligible individuals are not considered Federal awards expended under this part.

(i) Medicaid. Medicaid payments to a subrecipient for providing patient care services to Medicaid eligible individuals are not considered Federal awards expended under this part unless a State requires the funds to be treated as Federal awards expended because reimbursement is on a cost-reimbursement basis.

(j) Certain loans provided by the National Credit Union Administration. For purposes of this part, loans made from the National Credit Union Share Insurance Fund and the Central Liquidity Facility that are funded by contributions from insured institutions are not considered Federal awards expended.

§ 3052.210 Subrecipient and vendor determinations.

(a) General. An auditee may be a recipient, a subrecipient, and a vendor. Federal awards expended as a recipient or a subrecipient would be subject to audit under this part. The payments received for goods or services provided as a vendor would not be considered Federal awards. The guidance in paragraphs (b) and (c) of this section should be considered in determining whether payments constitute a Federal award or a payment for goods and services.

(b) Federal award. Characteristics indicative of a Federal award received by a subrecipient are when the organization:
§ 3052.215

(1) Determines who is eligible to receive what Federal financial assistance;
(2) Has its performance measured against whether the objectives of the Federal program are met;
(3) Has responsibility for programmatic decision making;
(4) Has responsibility for adherence to applicable Federal program compliance requirements; and
(5) Uses the Federal funds to carry out a program of the organization as compared to providing goods or services for a program of the pass-through entity.

(c) Payment for goods and services. Characteristics indicative of a payment for goods and services received by a vendor are when the organization:
(1) Provides the goods and services within normal business operations;
(2) Provides similar goods or services to many different purchasers;
(3) Operates in a competitive environment;
(4) Provides goods or services that are ancillary to the operation of the Federal program; and
(5) Is not subject to compliance requirements of the Federal program.

(d) Use of judgment in making determination. There may be unusual circumstances or exceptions to the listed characteristics. In making the determination of whether a subrecipient or vendor relationship exists, the substance of the relationship is more important than the form of the agreement. It is not expected that all of the characteristics will be present and judgment should be used in determining whether an entity is a subrecipient or vendor.

(e) For-profit subrecipient. Since this part does not apply to for-profit subrecipients, the pass-through entity is responsible for establishing requirements, as necessary, to ensure compliance by for-profit subrecipients. The contract with the for-profit subrecipient should describe applicable compliance requirements and the for-profit subrecipient’s compliance responsibility. Methods to ensure compliance for Federal awards made to for-profit subrecipients may include pre-award audits, monitoring during the contract, and post-award audits.

(f) Compliance responsibility for vendors. In most cases, the auditee’s compliance responsibility for vendors is only to ensure that the procurement, receipt, and payment for goods and services comply with laws, regulations, and the provisions of contracts or grant agreements. Program compliance requirements normally do not pass through to vendors. However, the auditee is responsible for ensuring compliance for vendor transactions which are structured such that the vendor is responsible for program compliance or the vendor’s records must be reviewed to determine program compliance. Also, when these vendor transactions relate to a major program, the scope of the audit shall include determining whether these transactions are in compliance with laws, regulations, and the provisions of contracts or grant agreements.

§ 3052.215 Relation to other audit requirements.

(a) Audit under this part in lieu of other audits. An audit made in accordance with this part shall be in lieu of any financial audit required under individual Federal awards. To the extent this audit meets a Federal agency’s needs, it shall rely upon and use such audits. The provisions of this part neither limit the authority of Federal agencies, including their Inspectors General, or GAO to conduct or arrange for additional audits (e.g., financial audits, performance audits, evaluations, inspections, or reviews) nor authorize any auditee to constrain Federal agencies from carrying out additional audits. Any additional audits shall be planned and performed in such a way as to build upon work performed by other auditors.

(b) Federal agency to pay for additional audits. A Federal agency that conducts or contracts for additional audits shall, consistent with other applicable laws and regulations, arrange for funding the full cost of such additional audits.

(c) Request for a program to be audited as a major program. A Federal agency may request an auditee to have a particular Federal program audited as a major program in lieu of the Federal agency conducting or arranging for the
additional audits. To allow for planning, such requests should be made at least 180 days prior to the end of the fiscal year to be audited. The auditee, after consultation with its auditor, should promptly respond to such request by informing the Federal agency whether the program would otherwise be audited as a major program using the risk-based audit approach described in §3052.235, and, if not, the estimated incremental cost. The Federal agency shall then promptly confirm to the auditee whether it wants the program audited as a major program. If the program is to be audited as a major program based upon this Federal agency request, and the Federal agency agrees to pay the full incremental costs, then the auditee shall have the program audited as a major program. A pass-through entity may use the provisions of this paragraph for a subrecipient.

§ 3052.220 Frequency of audits.

Except for the provisions for biennial audits provided in paragraphs (a) and (b) of this section, audits required by this part shall be performed annually. Any biennial audit shall cover both years within the biennial period.

(a) A State or local government that is required by constitution or statute, in effect on January 1, 1987, to undergo its audits less frequently than annually, is permitted to undergo its audits pursuant to this part biennially. This requirement must still be in effect for the biennial period under audit.

(b) Any non-profit organization that had biennial audits for all biennial periods ending between July 1, 1992, and January 1, 1995, is permitted to undergo its audits pursuant to this part biennially.

§ 3052.225 Sanctions.

No audit costs may be charged to Federal awards when audits required by this part have not been made or have been made but not in accordance with this part. In cases of continued inability or unwillingness to have an audit conducted in accordance with this part, Federal agencies and pass-through entities shall take appropriate action using sanctions such as:

(a) Withholding a percentage of Federal awards until the audit is completed satisfactorily;
(b) Withholding or disallowing overhead costs;
(c) Suspending Federal awards until the audit is conducted; or
(d) Terminating the Federal award.

§ 3052.230 Audit costs.

(a) Allowable costs. Unless prohibited by law, the cost of audits made in accordance with the provisions of this part are allowable charges to Federal awards. The charges may be considered a direct cost or an allocated indirect cost, as determined in accordance with the provisions of applicable OMB cost principles circulars, the Federal Acquisition Regulation (FAR) (48 CFR parts 30 and 31), or other applicable cost principles or regulations.

(b) Unallowable costs. A non-Federal entity shall not charge the following to a Federal award:
(1) The cost of any audit under the Single Audit Act Amendments of 1996 (31 U.S.C. 7501 et seq.) not conducted in accordance with this part.
(2) The cost of auditing a non-Federal entity which has Federal awards expended of less than $300,000 per year and is thereby exempted under §3052.200(d) from having an audit conducted under this part. However, this does not prohibit a pass-through entity from charging Federal awards for the cost of limited scope audits to monitor its subrecipients in accordance with §3052.400(d)(3), provided the subrecipient does not have a single audit. For purposes of this part, limited scope audits only include agreed-upon procedures engagements conducted in accordance with either the AICPA's generally accepted auditing standards or attestation standards, that are paid for and arranged by a pass-through entity and address only one or more of the following types of compliance requirements: activities allowed or unallowed; allowable costs/cost principles; eligibility; matching, level of effort, earmarking; and, reporting.

§ 3052.235 Program-specific audits.

(a) Program-specific audit guide available. In many cases, a program-specific audit guide will be available to provide
specific guidance to the auditor with respect to internal control, compliance requirements, suggested audit procedures, and audit reporting requirements. The auditor should contact the Office of Inspector General of the Federal agency to determine whether such a guide is available. When a current program-specific audit guide is available, the auditor shall follow GAGAS and the guide when performing a program-specific audit.

(b) Program-specific audit guide not available. (1) When a program-specific audit guide is not available, the auditee and auditor shall have basically the same responsibilities for the Federal program as they would have for an audit of a major program in a single audit.

(2) The auditee shall prepare the financial statement(s) for the Federal program that includes, at a minimum, a schedule of expenditures of Federal awards for the program and notes that describe the significant accounting policies used in preparing the schedule, a summary schedule of prior audit findings consistent with the requirements of §3052.315(b), and a corrective action plan consistent with the requirements of §3052.315(c).

(3) The auditor shall:
   (i) Perform an audit of the financial statement(s) for the Federal program in accordance with GAGAS;
   (ii) Obtain an understanding of internal control and perform tests of internal control over the Federal program consistent with the requirements of §3052.500(c) for a major program;
   (iii) Perform procedures to determine whether the auditee has complied with laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on the Federal program consistent with the requirements of §3052.500(d) for a major program; and
   (iv) Follow up on prior audit findings, perform procedures to assess the reasonableness of the summary schedule of prior audit findings prepared by the auditee, and report, as a current year audit finding, when the auditor concludes that the summary schedule of prior audit findings materially misrepresents the status of any prior audit finding in accordance with the requirements of §3052.500(e).

(4) The auditor's report(s) may be in the form of either combined or separate reports and may be organized differently from the manner presented in this section. The auditor's report(s) shall state that the audit was conducted in accordance with this part and include the following:
   (i) An opinion (or disclaimer of opinion) as to whether the financial statement(s) of the Federal program is presented fairly in all material respects in conformity with the stated accounting policies;
   (ii) A report on internal control related to the Federal program, which shall describe the scope of testing of internal control and the results of the tests;
   (iii) A report on compliance which includes an opinion (or disclaimer of opinion) as to whether the auditee complied with laws, regulations, and the provisions of contracts or grant agreements which could have a direct and material effect on the Federal program; and
   (iv) A schedule of findings and questioned costs for the Federal program that includes a summary of the auditor's results relative to the Federal program in a format consistent with §3052.505(d)(1) and findings and questioned costs consistent with the requirements of §3052.505(d)(3).

(c) Report submission for program-specific audits. (1) The audit shall be completed and the reporting required by paragraph (c)(2) or (c)(3) of this section submitted within the earlier of 30 days after receipt of the auditor's report(s), or nine months after the end of the audit period, unless a longer period is agreed to in advance by the Federal agency that provided the funding or a different period is specified in a program-specific audit guide. (However, for fiscal years beginning on or before June 30, 1988, the audit shall be completed and the required reporting shall be submitted within the earlier of 30 days after receipt of the auditor's report(s), or 13 months after the end of the audit period, unless a different period is specified in a program-specific audit guide.) Unless restricted by law or regulation, the auditee shall make
Office of Chief Financial Officer, USDA § 3052.305

report copies available for public inspection.
(2) When a program-specific audit guide is available, the auditee shall submit to the Federal clearinghouse designated by OMB the data collection form prepared in accordance with § 3052.320(b), as applicable to a program-specific audit, and the reporting required by the program-specific audit guide to be retained as an archival copy. Also, the auditee shall submit to the Federal awarding agency or pass-through entity the reporting required by the program-specific audit guide.

(3) When a program-specific audit guide is not available, the reporting package for a program-specific audit shall consist of the financial statement(s) of the Federal program, a summary schedule of prior audit findings, and a corrective action plan as described in paragraph (b)(2) of this section, and the auditor’s report(s) described in paragraph (b)(4) of this section. The data collection form prepared in accordance with § 3052.320(b), as applicable to a program-specific audit, and one copy of this reporting package shall be submitted to the Federal clearinghouse designated by OMB to be retained as an archival copy. Also, when the schedule of findings and questioned costs disclosed audit findings or the summary schedule of prior audit findings reported the status of any audit findings, the auditee shall submit one copy of the reporting package to the Federal clearinghouse on behalf of the Federal awarding agency, or directly to the pass-through entity in the case of a subrecipient. Instead of submitting the reporting package to the pass-through entity, the subrecipient shall provide written notification to the pass-through entity, consistent with the requirements of § 3052.320(e)(2). A subrecipient may submit a copy of the reporting package to the pass-through entity to comply with this notification requirement.

(d) Other sections of this part may apply. Program-specific audits are subject to § 3052.100 through § 3052.215(b), § 3052.220 through § 3052.305, § 3052.315, § 3052.320 through § 3052.320(j), § 3052.320(l), § 3052.400 through § 3052.405, § 3052.410 through § 3052.515, and other referenced provisions of this part unless contrary to the provisions of this section, a program-specific audit guide, or program laws and regulations.

Subpart C—Auditees

§ 3052.300 Auditee responsibilities.

The auditee shall:
(a) Identify, in its accounts, all Federal awards received and expended and the Federal programs under which they were received. Federal program and award identification shall include, as applicable, the CFDA title and number, award number and year, name of the Federal agency, and name of the pass-through entity.
(b) Maintain internal control over Federal programs that provides reasonable assurance that the auditee is managing Federal awards in compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a material effect on each of its Federal programs.
(c) Comply with laws, regulations, and the provisions of contracts or grant agreements related to each of its Federal programs.
(d) Prepare appropriate financial statements, including the schedule of expenditures of Federal awards in accordance with § 3052.310.
(e) Ensure that the audits required by this part are properly performed and submitted when due. When extensions to the report submission due date required by § 3052.320(a) are granted by the cognizant or oversight agency for audit, promptly notify the Federal clearinghouse designated by OMB and each pass-through entity providing Federal awards of the extension.
(f) Follow up and take corrective action on audit findings, including preparation of a summary schedule of prior audit findings and a corrective action plan in accordance with § 3052.315(b) and § 3052.315(c), respectively.

§ 3052.305 Auditor selection.

(a) Auditor procurement. In procuring audit services, auditees shall follow the procedures prescribed by the Grants Management Common Rule
(hereinafter referred to as the "A-102 Common Rule") 7 CFR Part 3016, Circular A-110, "Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations," or the FAR (48 CFR part 42), as applicable (OMB Circulars are available from the Office of Administration, Publications Office, Room 2200, New Executive Office Building, Washington, DC 20503). Whenever possible, auditees shall make positive efforts to utilize small businesses, minority-owned firms, and women's business enterprises, in procuring audit services as stated in the A-102 Common Rule, OMB Circular A-110, or the FAR (48 CFR part 42), as applicable. In requesting proposals for audit services, the objectives and scope of the audit should be made clear. Factors to be considered in evaluating each proposal for audit services include the responsiveness to the request for proposal, relevant experience, availability of staff with professional qualifications and technical abilities, the results of external quality control reviews, and price.

(b) Restriction on auditor preparing indirect cost proposals. An auditor who prepares the indirect cost proposal or cost allocation plan may not also be selected to perform the audit required by this part when the indirect costs recovered by the auditee during the prior year exceeded $1 million. This restriction applies to the base year used in the preparation of the indirect cost proposal or cost allocation plan and any subsequent years in which the resulting indirect cost agreement or cost allocation plan is used to recover costs. To minimize any disruption in existing contracts for audit services, this paragraph applies to audits of fiscal years beginning after June 30, 1998.

(c) Use of Federal auditors. Federal auditors may perform all or part of the work required under this part if they comply fully with the requirements of this part.

§ 3052.310 Financial statements.

(a) Financial statements. The auditee shall prepare financial statements that reflect its financial position, results of operations, or changes in net assets, and, where appropriate, cash flows for the fiscal year audited. The financial statements shall be for the same organizational unit and fiscal year that is chosen to meet the requirements of this part. However, organization-wide financial statements may also include departments, agencies, and other organizational units that have separate audits in accordance with § 3052.500(a) and prepare separate financial statements.

(b) Schedule of expenditures of Federal awards. The auditee shall also prepare a schedule of expenditures of Federal awards for the period covered by the auditee's financial statements. While not required, the auditee may choose to provide information requested by Federal awarding agencies and pass-through entities to make the schedule easier to use. For example, when a Federal program has multiple award years, the auditee may list the amount of Federal awards expended for each award year separately. At a minimum, the schedule shall:

1. List individual Federal programs by Federal agency. For Federal programs included in a cluster of programs, list individual Federal programs within a cluster of programs. For R&D, total Federal awards expended shall be shown either by individual award or by Federal agency and major subdivision within the Federal agency. For example, the National Institutes of Health is a major subdivision in the Department of Health and Human Services.

2. For Federal awards received as a subrecipient, the name of the pass-through entity and identifying number assigned by the pass-through entity shall be included.

3. Provide total Federal awards expended for each individual Federal program and the CFDA number or other identifying number when the CFDA information is not available.

4. Include notes that describe the significant accounting policies used in preparing the schedule.

5. To the extent practical, pass-through entities should identify in the schedule the total amount provided to subrecipients from each Federal program.

6. Include, in either the schedule or a note to the schedule, the value of the Federal awards expended in the form of
Office of Chief Financial Officer, USDA § 3052.320

non-cash assistance, the amount of insurance in effect during the year, and loans or loan guarantees outstanding at year end. While not required, it is preferable to present this information in the schedule.

§ 3052.315 Audit findings follow-up.

(a) General. The auditee is responsible for follow-up and corrective action on all audit findings. As part of this responsibility, the auditee shall prepare a summary schedule of prior audit findings. The auditee shall also prepare a corrective action plan for current year audit findings. The summary schedule of prior audit findings and the corrective action plan shall include the reference numbers the auditor assigns to audit findings under § 3052.510(c). Since the summary schedule may include audit findings from multiple years, it shall include the fiscal year in which the finding initially occurred.

(b) Summary schedule of prior audit findings. The summary schedule of prior audit findings shall report the status of all audit findings included in the prior audit’s schedule of findings and questioned costs relative to Federal awards. The summary schedule shall also include audit findings reported in the prior audit’s summary schedule of prior audit findings except audit findings listed as corrected in accordance with paragraph (b)(1) of this section, or no longer valid or not warranting further action in accordance with paragraph (b)(4) of this section.

(1) When audit findings were fully corrected, the summary schedule need only list the audit findings and state that corrective action was taken.

(2) When audit findings were not corrected or were only partially corrected, the summary schedule shall describe the planned corrective action as well as any partial corrective action taken.

(3) When corrective action taken is significantly different from corrective action previously reported in a corrective action plan or in the Federal agency’s or pass-through entity’s management decision, the summary schedule shall provide an explanation.

(4) When the auditee believes the audit findings are no longer valid or do not warrant further action, the reasons for this position shall be described in the summary schedule. A valid reason for considering an audit finding as not warranting further action is that all of the following have occurred:

(i) Two years have passed since the audit report in which the finding occurred was submitted to the Federal clearinghouse;

(ii) The Federal agency or pass-through entity is not currently following up with the auditee on the audit finding; and

(iii) A management decision was not issued.

(c) Corrective action plan. At the completion of the audit, the auditee shall prepare a corrective action plan to address each audit finding included in the current year auditor’s reports. The corrective action plan shall provide the name(s) of the contact person(s) responsible for corrective action, the corrective action planned, and the anticipated completion date. If the auditee does not agree with the audit findings or believes corrective action is not required, then the corrective action plan shall include an explanation and specific reasons.

§ 3052.320 Report submission.

(a) General. The audit shall be completed and the data collection form described in paragraph (b) of this section and reporting package described in paragraph (c) of this section shall be submitted within the earlier of 30 days after receipt of the auditor’s report(s), or nine months after the end of the audit period, unless a longer period is agreed to in advance by the cognizant or oversight agency for audit. (However, for fiscal years beginning on or before June 30, 1998, the audit shall be completed and the data collection form and reporting package shall be submitted within the earlier of 30 days after receipt of the auditor’s report(s), or 13 months after the end of the audit period.) Unless restricted by law or regulation, the auditee shall make copies available for public inspection.

(b) Data collection. (1) The auditee shall submit a data collection form which states whether the audit was completed in accordance with this part and provides information about the auditee, its Federal programs, and the results of the audit. The form shall be
approved by OMB, available from the Federal clearinghouse designated by OMB, and include data elements similar to those presented in this paragraph. A senior level representative of the auditee (e.g., State controller, director of finance, chief executive officer, or chief financial officer) shall sign a statement to be included as part of the form certifying that: the auditee complied with the requirements of this part, the form was prepared in accordance with this part (and the instructions accompanying the form), and the information included in the form, in its entirety, are accurate and complete.

(2) The data collection form shall include the following data elements:

(i) The type of report the auditor issued on the financial statements of the auditee (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion).

(ii) Where applicable, a statement that reportable conditions in internal control were disclosed by the audit of the financial statements and whether any such conditions were material weaknesses.

(iii) A statement as to whether the audit disclosed any noncompliance which is material to the financial statements of the auditee.

(iv) Where applicable, a statement that reportable conditions in internal control over major programs were disclosed by the audit and whether any such conditions were material weaknesses.

(v) The type of report the auditor issued on compliance for major programs (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion).

(vi) A list of the Federal awarding agencies which will receive a copy of the reporting package pursuant to §3052.320(d)(2) of OMB Circular A–133.

(vii) A yes or no statement as to whether the auditee qualified as a low-risk auditee under §3052.530 of OMB Circular A–133.

(viii) The dollar threshold used to distinguish between Type A and Type B programs as defined in §3052.520(b) of OMB Circular A–133.

(ix) The Catalog of Federal Domestic Assistance (CFDA) number for each Federal program, as applicable.

(x) The name of each Federal program and identification of each major program. Individual programs within a cluster of programs should be listed in the same level of detail as they are listed in the schedule of expenditures of Federal awards.

(xi) The amount of expenditures in the schedule of expenditures of Federal awards associated with each Federal program.

(xii) For each Federal program, a yes or no statement as to whether there are audit findings in each of the following types of compliance requirements and the total amount of any questioned costs:

(A) Activities allowed or unallowed.

(B) Allowable costs/cost principles.

(C) Cash management.

(D) Davis-Bacon Act.

(E) Eligibility.

(F) Equipment and real property management.

(G) Matching, level of effort, earmarking.

(H) Period of availability of Federal funds.

(I) Procurement and suspension and debarment.

(J) Program income.

(K) Real property acquisition and re-location assistance.

(L) Reporting.

(M) Subrecipient monitoring.

(N) Special tests and provisions.

(xiii) Auditee Name, Employer Identification Number(s), Name and Title of Certifying Official, Telephone Number, Signature, and Date.

(xiv) Auditor Name, Name and Title of Contact Person, Auditor Address, Auditor Telephone Number, Signature, and Date.

(xv) Whether the auditee has either a cognizant or oversight agency for audit.

(xvi) The name of the cognizant or oversight agency for audit determined in accordance with §3052.400(a) and §3052.400(b), respectively.

(3) Using the information included in the reporting package described in paragraph (c) of this section, the auditor shall complete the applicable sections of the form. The auditor shall sign a statement to be included as part of the data collection form that indicates, at a minimum, the source of the
information included in the form, the auditor's responsibility for the information, that the form is not a substitute for the reporting package described in paragraph (c) of this section, and that the content of the form is limited to the data elements prescribed by OMB.

(c) Reporting package. The reporting package shall include the:

(1) Financial statements and schedule of expenditures of Federal awards discussed in §3052.310(a) and §3052.310(b), respectively;
(2) Summary schedule of prior audit findings discussed in §3052.315(b);
(3) Auditor's report(s) discussed in §3052.505; and
(4) Corrective action plan discussed in §3052.315(c).

(d) Submission to clearinghouse. All auditees shall submit to the Federal clearinghouse designated by OMB the data collection form described in paragraph (b) of this section and one copy of the reporting package described in paragraph (c) of this section for:

(1) The Federal clearinghouse to retain as an archival copy; and
(2) Each Federal awarding agency when the schedule of findings and questioned costs disclosed audit findings relating to Federal awards that the Federal awarding agency provided directly or the summary schedule of prior audit findings reported the status of any audit findings relating to Federal awards that the Federal awarding agency provided directly.

(e) Additional submission by subrecipients. (1) In addition to the requirements discussed in paragraph (d) of this section, auditees that are also subrecipients shall submit to each pass-through entity one copy of the reporting package described in paragraph (c) of this section for each pass-through entity when the schedule of findings and questioned costs disclosed audit findings relating to Federal awards that the pass-through entity provided or the summary schedule of prior audit findings reported the status of any audit findings relating to Federal awards that the pass-through entity provided.

(2) Instead of submitting the reporting package to a pass-through entity pursuant to paragraph (e)(1) of this section, the subrecipient shall provide written notification to the pass-through entity that: an audit of the subrecipient was conducted in accordance with this part (including the period covered by the audit and the name, amount, and CFDA number of the Federal award(s) provided by the pass-through entity); the schedule of findings and questioned costs disclosed no audit findings relating to the Federal award(s) that the pass-through entity provided; and, the summary schedule of prior audit findings did not report on the status of any audit findings relating to the Federal award(s) that the pass-through entity provided. A subrecipient may submit a copy of the reporting package described in paragraph (c) of this section to a pass-through entity to comply with this notification requirement.

(f) Requests for report copies. In response to requests by a Federal agency or pass-through entity, auditees shall submit the appropriate copies of the reporting package described in paragraph (c) of this section and, if requested, a copy of any management letters issued by the auditor.

(g) Report retention requirements. Auditees shall keep one copy of the data collection form described in paragraph (b) of this section and one copy of the reporting package described in paragraph (c) of this section on file for three years from the date of submission to the Federal clearinghouse designated by OMB. Pass-through entities shall keep subrecipients' submissions on file for three years from date of receipt.

(h) Clearinghouse responsibilities. The Federal clearinghouse designated by OMB shall distribute the reporting packages received in accordance with paragraph (d)(2) of this section and §3052.235(c)(3) to applicable Federal awarding agencies, maintain a data base of completed audits, provide appropriate information to Federal agencies, and follow up with known auditees which have not submitted the required data collection forms and reporting packages.

(i) Clearinghouse address. The address of the Federal clearinghouse currently
designated by OMB is Federal Audit Clearinghouse, Bureau of the Census, 1201 E. 10th Street, Jeffersonville, IN 47132.

(j) Electronic filing. Nothing in this part shall preclude electronic submissions to the Federal clearinghouse in such manner as may be approved by OMB. With OMB approval, the Federal clearinghouse may pilot test methods of electronic submissions.

Subpart D—Federal Agencies and Pass-Through Entities

§ 3052.400 Responsibilities.

(a) Cognizant agency for audit responsibilities. Recipients expending more than $25 million a year in Federal awards shall have a cognizant agency for audit. The designated cognizant agency for audit shall be the Federal awarding agency that provides the predominant amount of direct funding to a recipient unless OMB makes a specific cognizant agency for audit assignment. To provide for continuity of cognizance, the determination of the predominant amount of direct funding shall be based upon direct Federal awards expended in the recipient's fiscal years ending in 1995, 2000, 2005, and every fifth year thereafter. For example, audit cognizance for periods ending in 1997 through 2000 will be determined based on Federal awards expended in 1995. (However, for States and local governments that expend more than $25 million a year in Federal awards and have previously assigned cognizant agencies for audit, the requirements of this paragraph are not effective until fiscal years beginning after June 30, 2000.) Notwithstanding the manner in which audit cognizance is determined, a Federal awarding agency with cognizance for audit for an auditee may reassign cognizance to another Federal awarding agency which provides substantial direct funding and agrees to be the cognizant agency for audit. Within 30 days after any reassignment, both the old and the new cognizant agency for audit shall notify the auditee, and, if known, the auditor of the reassignment. The cognizant agency for audit shall:

1. Provide technical audit advice and liaison to auditees and auditors.

2. Consider auditee requests for extensions to the report submission due date required by §3052.320(a). The cognizant agency for audit may grant extensions for good cause.

3. Obtain or conduct quality control reviews of selected audits made by non-Federal auditors, and provide the results, when appropriate, to other interested organizations.

4. Promptly inform other affected Federal agencies and appropriate Federal law enforcement officials of any direct reporting by the auditee or its auditor of irregularities or illegal acts, as required by GAGAS or laws and regulations.

5. Advise the auditor and, where appropriate, the auditee of any deficiencies found in the audits when the deficiencies require corrective action by the auditor. When advised of deficiencies, the auditee shall work with the auditor to take corrective action. If corrective action is not taken, the cognizant agency for audit shall notify the auditor, the auditee, and applicable Federal awarding agencies and pass-through entities of the facts and make recommendations for follow-up action. Major inadequacies or repetitive sub-standard performance by auditors shall be referred to appropriate State licensing agencies and professional bodies for disciplinary action.

6. Coordinate, to the extent practical, audits or reviews made by or for Federal agencies that are in addition to the audits made pursuant to this part, so that the additional audits or reviews build upon audits performed in accordance with this part.

7. Coordinate a management decision for audit findings that affect the Federal programs of more than one agency.

8. Coordinate the audit work and reporting responsibilities among auditors to achieve the most cost-effective audit.

9. For biennial audits permitted under §3052.220, consider auditee requests to qualify as a low-risk auditee under §3052.530(a).

(b) Oversight agency for audit responsibilities. An auditee which does not have a designated cognizant agency for audit will be under the general oversight of the Federal agency determined.
in accordance with §3052.105. The oversight agency for audit:

(1) Shall provide technical advice to auditees and auditors as requested.

(2) May assume all or some of the responsibilities normally performed by a cognizant agency for audit.

(c) Federal awarding agency responsibilities. The Federal awarding agency shall perform the following for the Federal awards it makes:

(1) Identify Federal awards made by informing each recipient of the CFDA title and number, award name and number, award year, and if the award is for R&D. When some of this information is not available, the Federal agency shall provide information necessary to clearly describe the Federal award.

(2) Advise recipients of requirements imposed on them by Federal laws, regulations, and the provisions of contracts or grant agreements.

(3) Ensure that audits are completed and reports are received in a timely manner and in accordance with the requirements of this part.

(4) Provide technical advice and counsel to auditees and auditors as requested.

(5) Issue a management decision on audit findings within six months after receipt of the audit report and ensure that the recipient takes appropriate and timely corrective action.

(6) Assign a person responsible for providing annual updates of the compliance supplement to OMB.

(d) Pass-through entity responsibilities.

A pass-through entity shall perform the following for the Federal awards it makes:

(1) Identify Federal awards made by informing each subrecipient of CFDA title and number, award name and number, award year, if the award is R&D, and name of Federal agency. When some of this information is not available, the pass-through entity shall provide the best information available to describe the Federal award.

(2) Advise subrecipients of requirements imposed on them by Federal laws, regulations, and the provisions of contracts or grant agreements as well as any supplemental requirements imposed by the pass-through entity.

(3) Monitor the activities of subrecipients as necessary to ensure that Federal awards are used for authorized purposes in compliance with laws, regulations, and the provisions of contracts or grant agreements and that performance goals are achieved.

(4) Ensure that subrecipients expending $300,000 or more in Federal awards during the subrecipient's fiscal year have met the audit requirements of this part for that fiscal year.

(5) Issue a management decision on audit findings within six months after receipt of the subrecipient's audit report and ensure that the subrecipient takes appropriate and timely corrective action.

(6) Consider whether subrecipient audits necessitate adjustment of the pass-through entity's own records.

(7) Require each subrecipient to permit the pass-through entity and auditors to have access to the records and financial statements as necessary for the pass-through entity to comply with this part.

§ 3052.405 Management decision.

(a) General. The management decision shall clearly state whether or not the audit finding is sustained, the reasons for the decision, and the expected auditee action to repay disallowed costs, make financial adjustments, or take other action. If the auditee has not completed corrective action, a timetable for follow-up should be given. Prior to issuing the management decision, the Federal agency or pass-through entity may request additional information or documentation from the auditee, including a request for auditor assurance related to the documentation, as a way of mitigating disallowed costs. The management decision should describe any appeal process available to the auditee.

(b) Federal agency. As provided in §3052.400(a)(7), the cognizant agency for audit shall be responsible for coordinating a management decision for audit findings that affect the programs of more than one Federal agency. As provided in §3052.400(c)(5), a Federal awarding agency is responsible for issuing a management decision for findings that relate to Federal awards it makes to recipients. Alternate arrangements may be made on a case-by-
§ 3052.500 Scope of audit.

(a) General. The audit shall be conducted in accordance with GAGAS. The audit shall cover the entire operations of the auditee; or, at the option of the auditee, such audit shall include a series of audits that cover departments, agencies, and other organizational units which expended or otherwise administered Federal awards during such fiscal year, provided that each such audit shall encompass the financial statements and schedule of expenditures of Federal awards for each such department, agency, and other organizational unit, which shall be considered to be a non-Federal entity. The financial statements and schedule of expenditures of Federal awards shall be for the same fiscal year.

(b) Financial statements. The auditor shall determine whether the financial statements of the auditee are presented fairly in all material respects in conformity with generally accepted accounting principles. The auditor shall also determine whether the schedule of expenditures of Federal awards is presented fairly in all material respects in relation to the auditee's financial statements taken as a whole.

(c) Internal control. (1) In addition to the requirements of GAGAS, the auditor shall perform procedures to obtain an understanding of internal control over Federal programs sufficient to plan the audit to support a low assessed level of control risk for major programs.

(2) Except as provided in paragraph (c)(3) of this section, the auditor shall:

(i) Plan the testing of internal control over major programs to support a low assessed level of control risk for the assertions relevant to the compliance requirements for each major program; and

(ii) Perform testing of internal control as planned in paragraph (c)(2)(i) of this section.

(3) When internal control over some or all of the compliance requirements for a major program are likely to be ineffective in preventing or detecting noncompliance, the planning and performing of testing described in paragraph (c)(2) of this section are not required for those compliance requirements. However, the auditor shall report a reportable condition (including whether any such condition is a material weakness) in accordance with §3052.510, assess the related control risk at the maximum, and consider whether additional compliance tests are required because of ineffective internal control.

(d) Compliance. (1) In addition to the requirements of GAGAS, the auditor shall determine whether the auditee has complied with laws, regulations, and the provisions of contracts or grant agreements that may have a direct and material effect on each of its major programs.

(2) The principal compliance requirements applicable to most Federal programs and the compliance requirements of the largest Federal programs are included in the compliance supplement.

(3) For the compliance requirements related to Federal programs contained in the compliance supplement, an audit of these compliance requirements will meet the requirements of this part. Where there have been changes to the compliance requirements and the changes are not reflected in the compliance supplement, the auditor shall determine the current compliance requirements and modify the audit procedures accordingly. For those Federal
programs not covered in the compliance supplement, the auditor should use the types of compliance requirements contained in the compliance supplement as guidance for identifying the types of compliance requirements to test, and determine the requirements governing the Federal program by reviewing the provisions of contracts and grant agreements and the laws and regulations referred to in such contracts and grant agreements.

(4) The compliance testing shall include tests of transactions and such other auditing procedures necessary to provide the auditor sufficient evidence to support an opinion on compliance.

(e) Audit follow-up. The auditor shall follow-up on prior audit findings, perform procedures to assess the reasonableness of the summary schedule of prior audit findings prepared by the auditee in accordance with §3052.315(b), and report, as a current year audit finding, when the auditor concludes that the summary schedule of prior audit findings materially misrepresents the status of any prior audit finding. The auditor shall perform audit follow-up procedures regardless of whether a prior audit finding relates to a major program in the current year.

(f) Data collection form. As required in §3052.320(b)(3), the auditor shall complete and sign specified sections of the data collection form.

§3052.505 Audit reporting.

The auditor’s report(s) may be in the form of either combined or separate reports and may be organized differently from the manner presented in this section. The auditor’s report(s) shall state that the audit was conducted in accordance with this part and include the following:

(a) An opinion (or disclaimer of opinion) as to whether the financial statements are presented fairly in all material respects in conformity with generally accepted accounting principles and an opinion (or disclaimer of opinion) as to whether the schedule of expenditures of Federal awards is presented fairly in all material respects in relation to the financial statements taken as a whole.

(b) A report on internal control related to the financial statements and major programs. This report shall describe the scope of testing of internal control and the results of the tests, and, where applicable, refer to the separate schedule of findings and questioned costs described in paragraph (d) of this section.

(c) A report on compliance with laws, regulations, and the provisions of contracts or grant agreements, noncompliance with which could have a material effect on the financial statements. This report shall also include an opinion (or disclaimer of opinion) as to whether the auditee complied with laws, regulations, and the provisions of contracts or grant agreements which could have a direct and material effect on each major program, and, where applicable, refer to the separate schedule of findings and questioned costs described in paragraph (d) of this section.

(d) A schedule of findings and questioned costs which shall include the following three components:

(i) A summary of the auditor’s results which shall include:

(1) The type of report the auditor issued on the financial statements of the auditee (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion);

(ii) Where applicable, a statement that reportable conditions in internal control were disclosed by the audit of the financial statements and whether any such conditions were material weaknesses;

(iii) A statement as to whether the audit disclosed any noncompliance which is material to the financial statements of the auditee;

(iv) Where applicable, a statement that reportable conditions in internal control over major programs were disclosed by the audit and whether any such conditions were material weaknesses;

(v) The type of report the auditor issued on compliance for major programs (i.e., unqualified opinion, qualified opinion, adverse opinion, or disclaimer of opinion);

(vi) A statement as to whether the audit disclosed any audit findings which the auditor is required to report under §3052.510(a);

(vii) An identification of major programs;
§ 3052.510 Audit findings.

(a) Audit findings reported. The auditor shall report the following as audit findings in a schedule of findings and questioned costs:

(1) Reportable conditions in internal control over major programs. The auditor’s determination of whether a deficiency in internal control is a reportable condition for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the compliance supplement. The auditor shall also report known questioned costs when likely questioned costs are greater than $10,000 for a Federal program which is not audited as a major program. However, if the auditor does not become aware of questioned costs for a program which is not audited as a major program, except for audit follow-up, the auditor will normally not find questioned costs for such a Federal program; therefore, the auditor will not report this as an audit finding.

(2) Material noncompliance with the provisions of laws, regulations, contracts, or grant agreements related to a major program. The auditor’s determination of whether a noncompliance with the provisions of laws, regulations, contracts, or grant agreements is material for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the compliance supplement.

(b) Findings relating to the financial statements which are required to be reported in accordance with GAGAS.

(c) Findings and questioned costs for Federal awards which shall include audit findings as defined in § 3052.510(a).

(d) (1) Audit findings (e.g., internal control findings, compliance findings, questioned costs, or fraud) which relate to the same issue should be presented as a single audit finding. Where practical, audit findings should be organized by Federal agency or pass-through entity.

(ii) Audit findings which relate to both the financial statements and Federal awards, as reported under paragraphs (d)(2) and (d)(3) of this section, respectively, should be reported in both sections of the schedule. However, the reporting in one section of the schedule may be in summary form with a reference to a detailed reporting in the other section of the schedule.

§ 3052.510 Audit findings.

(a) Audit findings reported. The auditor shall report the following as audit findings in a schedule of findings and questioned costs:

(1) Reportable conditions in internal control over major programs. The auditor’s determination of whether a deficiency in internal control is a reportable condition for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the compliance supplement. The auditor shall also report known questioned costs when likely questioned costs are greater than $10,000 for a Federal program which is not audited as a major program. However, if the auditor does not become aware of questioned costs for a program which is not audited as a major program, except for audit follow-up, the auditor will normally not find questioned costs for such a Federal program; therefore, the auditor will not report this as an audit finding.

(2) Material noncompliance with the provisions of laws, regulations, contracts, or grant agreements related to a major program. The auditor’s determination of whether a noncompliance with the provisions of laws, regulations, contracts, or grant agreements is material for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the compliance supplement.

(b) Findings relating to the financial statements which are required to be reported in accordance with GAGAS.

(c) Findings and questioned costs for Federal awards which shall include audit findings as defined in § 3052.510(a).

(d) (1) Audit findings (e.g., internal control findings, compliance findings, questioned costs, or fraud) which relate to the same issue should be presented as a single audit finding. Where practical, audit findings should be organized by Federal agency or pass-through entity.

(ii) Audit findings which relate to both the financial statements and Federal awards, as reported under paragraphs (d)(2) and (d)(3) of this section, respectively, should be reported in both sections of the schedule. However, the reporting in one section of the schedule may be in summary form with a reference to a detailed reporting in the other section of the schedule.

§ 3052.510 Audit findings.

(a) Audit findings reported. The auditor shall report the following as audit findings in a schedule of findings and questioned costs:

(1) Reportable conditions in internal control over major programs. The auditor’s determination of whether a deficiency in internal control is a reportable condition for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the compliance supplement. The auditor shall also report known questioned costs when likely questioned costs are greater than $10,000 for a Federal program which is not audited as a major program. However, if the auditor does not become aware of questioned costs for a program which is not audited as a major program, except for audit follow-up, the auditor will normally not find questioned costs for such a Federal program; therefore, the auditor will not report this as an audit finding.

(2) Material noncompliance with the provisions of laws, regulations, contracts, or grant agreements related to a major program. The auditor’s determination of whether a noncompliance with the provisions of laws, regulations, contracts, or grant agreements is material for the purpose of reporting an audit finding is in relation to a type of compliance requirement for a major program or an audit objective identified in the compliance supplement.

(b) Findings relating to the financial statements which are required to be reported in accordance with GAGAS.

(c) Findings and questioned costs for Federal awards which shall include audit findings as defined in § 3052.510(a).

(d) (1) Audit findings (e.g., internal control findings, compliance findings, questioned costs, or fraud) which relate to the same issue should be presented as a single audit finding. Where practical, audit findings should be organized by Federal agency or pass-through entity.

(ii) Audit findings which relate to both the financial statements and Federal awards, as reported under paragraphs (d)(2) and (d)(3) of this section, respectively, should be reported in both sections of the schedule. However, the reporting in one section of the schedule may be in summary form with a reference to a detailed reporting in the other section of the schedule.
Office of Chief Financial Officer, USDA § 3052.520

(7) Instances where the results of audit follow-up procedures disclosed that the summary schedule of prior audit findings prepared by the auditee in accordance with §3052.315(b) materially misrepresents the status of any prior audit finding.

(b) Audit finding detail. Audit findings shall be presented in sufficient detail for the auditee to prepare a corrective action plan and take corrective action and for Federal agencies and pass-through entities to arrive at a management decision. The following specific information shall be included, as applicable, in audit findings:

(1) Federal program and specific Federal award identification including the CFDA title and number, Federal award number and year, name of Federal agency, and name of the applicable pass-through entity. When information, such as the CFDA title and number or Federal award number, is not available, the auditor shall provide the best information available to describe the Federal award.

(2) The criteria or specific requirement upon which the audit finding is based, including statutory, regulatory, or other citation.

(3) The condition found, including facts that support the deficiency identified in the audit finding.

(4) Identification of questioned costs and how they were computed.

(5) Information to provide proper perspective for judging the prevalence and consequences of the audit findings, such as whether the audit findings represent an isolated instance or a systemic problem. Where appropriate, instances identified shall be related to the universe and the number of cases examined and be quantified in terms of dollar value.

(6) The possible asserted effect to provide sufficient information to the auditee and Federal agency, or pass-through entity in the case of a subrecipient, to permit them to determine the cause and effect to facilitate prompt and proper corrective action.

(7) Recommendations to prevent future occurrences of the deficiency identified in the audit finding.

(8) Views of responsible officials of the auditee when there is disagreement with the audit findings, to the extent practical.

(c) Reference numbers. Each audit finding in the schedule of findings and questioned costs shall include a reference number to allow for easy referencing of the audit findings during follow-up.

§3052.515 Audit working papers.

(a) Retention of working papers. The auditor shall retain working papers and reports for a minimum of three years after the date of issuance of the auditor’s report(s) to the auditee, unless the auditor is notified in writing by the cognizant agency for audit, oversight agency for audit, or pass-through entity to extend the retention period. When the auditor is aware that the Federal awarding agency, pass-through entity, or auditee is contesting an audit finding, the auditor shall contact the parties contesting the audit finding for guidance prior to destruction of the working papers and reports.

(b) Access to working papers. Audit working papers shall be made available upon request to the cognizant or oversight agency for audit or its designee, a Federal agency providing direct or indirect funding, or GAO at the completion of the audit, as part of a quality review, to resolve audit findings, or to carry out oversight responsibilities consistent with the purposes of this part. Access to working papers includes the right of Federal agencies to obtain copies of working papers, as is reasonable and necessary.

§3052.520 Major program determination.

(a) General. The auditor shall use a risk-based approach to determine which Federal programs are major programs. This risk-based approach shall include consideration of: Current and prior audit experience, oversight by Federal agencies and pass-through entities, and the inherent risk of the Federal program. The process in paragraphs (b) through (I) of this section shall be followed.

(b) Step 1. (1) The auditor shall identify the larger Federal programs, which
shall be labeled Type A programs. Type A programs are defined as Federal pro-
grams with Federal awards expended during the audit period exceeding the larger of:

(i) $300,000 or three percent (.03) of total Federal awards expended in the case of an auditee for which total Federal awards expended equal or exceed $300,000 but are less than or equal to $10 million.

(ii) $3 million or three-tenths of one percent (.003) of total Federal awards expended in the case of an auditee for which total Federal awards expended exceed $10 million but are less than or equal to $10 billion.

(iii) $30 million or 15 hundredths of one percent (.0015) of total Federal awards expended in the case of an auditee for which total Federal awards expended exceed $10 billion.

(2) Federal programs not labeled Type A under paragraph (b)(1) of this section shall be labeled Type B programs.

(3) The inclusion of large loan and loan guarantees (loans) should not result in the exclusion of other programs as Type A programs. When a Federal program providing loans significantly affects the number or size of Type A programs, the auditor shall consider this Federal program as a Type A program and exclude its values in determining other Type A programs.

(4) For biennial audits permitted under §3052.220, the determination of Type A and Type B programs shall be based upon the Federal awards expended during the two-year period.

(c) Step 2. (1) The auditor shall identify Type A programs which are low-risk. For a Type A program to be considered low-risk, it shall have been audited as a major program in at least one of the two most recent audit periods (in the most recent audit period in the case of a biennial audit), and, in the most recent audit period, it shall have had no audit findings under §3052.510(a). However, the auditor may use judgment and consider that audit findings from questioned costs under §3052.510(a)(3) and §3052.510(a)(4), fraud under §3052.510(a)(6), and audit follow-up for the summary schedule of prior audit findings under §3052.510(a)(7) do not preclude the Type A program from being low-risk. The auditor shall consider: the criteria in §3052.525(c), §3052.525(d)(1), §3052.525(d)(2), and §3052.525(d)(3); the results of audit follow-up; whether any changes in personnel or systems affecting a Type A program have significantly increased risk; and apply professional judgment in determining whether a Type A program is low-risk.

(2) Notwithstanding paragraph (c)(1) of this section, OMB may approve a Federal awarding agency’s request that a Type A program at certain recipients may not be considered low-risk. For example, it may be necessary for a large Type A program to be audited as major each year at particular recipients to allow the Federal agency to comply with the Government Management Reform Act of 1994 (31 U.S.C. 3515). The Federal agency shall notify the recipient and, if known, the auditor at least 180 days prior to the end of the fiscal year to be audited of OMB’s approval.

(d) Step 3. (1) The auditor shall identify Type B programs which are high-risk using professional judgment and the criteria in §3052.525. However, should the auditor select Option 2 under Step 4 (paragraph (e)(2)(i)(B) of this section), the auditor is not required to identify more high-risk Type B programs than the number of low-risk Type A programs. Except for known reportable conditions in internal control or compliance problems as discussed in §3052.525(b)(1), §3052.525(b)(2), and §3052.525(c)(1), a single criteria in §3052.525 would seldom cause a Type B program to be considered high-risk.

(2) The auditor is not expected to perform risk assessments on relatively small Federal programs. Therefore, the auditor is only required to perform risk assessments on Type B programs that exceed the larger of:

(i) $100,000 or three-tenths of one percent (.003) of total Federal awards expended when the auditee has less than or equal to $10 million in total Federal awards expended.

(ii) $300,000 or three-hundredths of one percent (.003) of total Federal awards expended when the auditee has more than $10 million in total Federal awards expended.
(e) Step 4. At a minimum, the auditor shall audit all of the following as major programs:

(1) All Type A programs, except the auditor may exclude any Type A programs identified as low-risk under Step 2 (paragraph (c)(1) of this section).

(2)(i) High-risk Type B programs as identified under either of the following two options:

(A) Option 1. At least one half of the Type B programs identified as high-risk under Step 3 (paragraph (d) of this section), except this paragraph (e)(2)(i)(A) does not require the auditor to audit more high-risk Type B programs than the number of low-risk Type A programs identified as low-risk under Step 2.

(B) Option 2. One high-risk Type B program for each Type A program identified as low-risk under Step 2.

(ii) When identifying which high-risk Type B programs to audit as major under either Option 1 or 2 in paragraph (e)(2)(i) (A) or (B), the auditor is encouraged to use an approach which provides an opportunity for different high-risk Type B programs to be audited as major over a period of time.

(3) Such additional programs as may be necessary to comply with the percentage of coverage rule discussed in paragraph (f) of this section. This paragraph (e)(3) may require the auditor to audit more programs as major than the number of Type A programs.

(f) Percentage of coverage rule. The auditor shall audit as major programs Federal programs with Federal awards expended that, in the aggregate, encompass at least 50 percent of total Federal awards expended. If the auditee meets the criteria in §3052.530 for a low-risk auditee, the auditor need only audit as major programs Federal programs with Federal awards expended that, in the aggregate, encompass at least 25 percent of total Federal awards expended.

(g) Documentation of risk. The auditor shall document in the working papers the risk analysis process used in determining major programs.

(h) Auditor’s judgment. When the major program determination was performed and documented in accordance with this part, the auditor’s judgment in applying the risk-based approach to determine major programs shall be presumed correct. Challenges by Federal agencies and pass-through entities shall only be for clearly improper use of the guidance in this part. However, Federal agencies and pass-through entities may provide auditors guidance about the risk of a particular Federal program and the auditor shall consider this guidance in determining major programs in audits not yet completed.

(i) Deviation from use of risk criteria. For first-year audits, the auditor may elect to determine major programs as all Type A programs plus any Type B programs as necessary to meet the percentage of coverage rule discussed in paragraph (f) of this section. Under this option, the auditor would not be required to perform the procedures discussed in paragraphs (c), (d), and (e) of this section.

(1) A first-year audit is the first year the entity is audited under this part or the first year of a change of auditors.

(2) To ensure that a frequent change of auditors would not preclude audit of high-risk Type B programs, this election for first-year audits may not be used by an auditee more than once in every three years.

§3052.525 Criteria for Federal program risk.

(a) General. The auditor’s determination should be based on an overall evaluation of the risk of noncompliance occurring which could be material to the Federal program. The auditor shall use auditor judgment and consider criteria, such as described in paragraphs (b), (c), and (d) of this section, to identify risk in Federal programs. Also, as part of the risk analysis, the auditor may wish to discuss a particular Federal program with auditee management and the Federal agency or pass-through entity.

(b) Current and prior audit experience. (1) Weaknesses in internal control over Federal programs would indicate higher risk. Consideration should be given to the control environment over Federal programs and such factors as the expectation of management’s adherence to applicable laws and regulations and the provisions of contracts and grant agreements and the competence and experience of personnel who administer the Federal programs.
§ 3052.530 Criteria for a low-risk auditee.

A low-risk auditee is one which meets all of the following conditions for each of the preceding two years (or, in the case of biennial audits, preceding two audit periods) and which has been identified as such by OMB in the compliance supplement:

(a) Single audits were performed on an annual basis in accordance with §3052.520.

(b) The auditor’s opinions on the financial statements and the schedule of expenditures of Federal awards were unqualified. However, the cognizant or oversight agency for audit may judge that an unqualified opinion does not affect the management of Federal awards and provide a waiver.

(c) There were no deficiencies in internal control which were identified as material weaknesses under the requirements of OMB.

(d) The phase of a Federal program in its life cycle at the Federal agency may indicate risk. For example, a new Federal program with new or intermediate regulations may have higher risk than an established program with time-tested regulations. Also, significant changes in Federal programs, laws, regulations, or the provisions of contracts or grants may increase risk.

(e) The phase of a Federal program in its life cycle at the auditee may indicate risk. For example, during the first and last years that an auditee participates in a Federal program, the risk may be higher due to start-up or close-out of program activities and staff.

(f) Federal awards expended would be of higher risk than programs with substantially smaller Federal awards expended.

§ 3052.530 Criteria for a low-risk auditee.

(i) A Federal program administered under multiple internal control structures may have higher risk. When assessing risk in a large single audit, the auditor shall consider whether weaknesses are isolated in a single operating unit (e.g., one college campus) or pervasive throughout the entity.

(ii) When significant parts of a Federal program are passed through to subrecipients, a weak system for monitoring subrecipients would indicate higher risk.

(iii) The extent to which computer processing is used to administer Federal programs, as well as the complexity of that processing, should be considered by the auditor in assessing risk. New and recently modified computer systems may also indicate risk.

(2) Prior audit findings would indicate higher risk, particularly when the situations identified in the audit findings could have a significant impact on a Federal program or have not been corrected.

(3) Federal programs not recently audited as major programs may be of higher risk than Federal programs recently audited as major programs without audit findings.

(c) Oversight exercised by Federal agencies and pass-through entities. (1) Oversight exercised by Federal agencies or pass-through entities may also indicate risk.

(2) Prior audit findings would indicate higher risk, particularly when the situations identified in the audit findings could have a significant impact on a Federal program or have not been corrected.

(3) Federal programs not recently audited as major programs may be of higher risk than Federal programs recently audited as major programs without audit findings.

(2) Federal agencies, with the concurrence of OMB, may identify Federal programs which are higher risk. OMB plans to provide this identification in the compliance supplement.

(3) Inherent risk of the Federal program. (1) The nature of a Federal program may indicate risk. Consideration should be given to the complexity of the program and the extent to which the Federal program contracts for goods and services. For example, Federal programs that disburse funds through third party contracts or have eligibility criteria may be of higher risk. Federal programs primarily involving staff payroll costs may have a high-risk for time and effort reporting, but otherwise be at low-risk.

(2) The phase of a Federal program in its life cycle at the Federal agency may indicate risk. For example, a new Federal program with new or interim regulations may have higher risk than an established program with time-tested regulations. Also, significant changes in Federal programs, laws, regulations, or the provisions of contracts or grants may increase risk.

(3) The phase of a Federal program in its life cycle at the auditee may indicate risk. For example, during the first and last years that an auditee participates in a Federal program, the risk may be higher due to start-up or close-out of program activities and staff.

(4) Type B programs with larger Federal awards expended would be of higher risk than programs with substantially smaller Federal awards expended.
Office of Chief Financial Officer, USDA

§ 3052.530

(d) None of the Federal programs had audit findings from any of the following in either of the preceding two years (or, in the case of biennial audits, preceding two audit periods) in which they were classified as Type A programs:

1. Internal control deficiencies which were identified as material weaknesses;

2. Noncompliance with the provisions of laws, regulations, contracts, or grant agreements which have a material effect on the Type A program; or

3. Known or likely questioned costs that exceed five percent of the total Federal awards expended for a Type A program during the year.
CHAPTER XXXI—OFFICE OF ENVIRONMENTAL QUALITY, DEPARTMENT OF AGRICULTURE

Part 3100 Cultural and environmental quality .................  Page 212
PART 3100—CULTURAL AND ENVIRONMENTAL QUALITY

Subparts A-B [Reserved]

Subpart C—Enhancement, Protection, and Management of the Cultural Environment

Sec.
3100.40 Purpose.
3100.41 Authorities.
3100.42 Definitions.
3100.43 Policy.
3100.44 Implementation.
3100.45 Direction to agencies.
3100.46 Responsibilities of the Department of Agriculture.

Subparts A-B [Reserved]

Subpart C—Enhancement, Protection, and Management of the Cultural Environment

SOURCE: 44 FR 66181, Nov. 19, 1979, unless otherwise noted.

§ 3100.40 Purpose.

(a) This subpart establishes USDA policy regarding the enhancement, protection, and management of the cultural environment.

(b) This subpart establishes procedures for implementing Executive Order 11593 and regulations promulgated by the Advisory Council on Historic Preservation (ACHP) “Protection of Historical and Cultural Properties” in 36 CFR part 800 as required by §800.10 of those regulations.

(c) Direction is provided to the agencies of USDA for protection of the cultural environment.

§ 3100.41 Authorities.

These regulations are based upon and implement the following laws, regulations, and Presidential directives:

(a) Antiquities Act of 1906 (Pub. L. 34 Stat. 225; 16 U.S.C. 431 et seq.), which provides for the protection of historic or prehistoric remnants or any object of antiquity on Federal lands; establishes criminal sanctions for unauthorized destruction or appropriation of antiquities; and authorizes scientific investigation of antiquities on Federal lands, subject to permit and regulations. Paleontological resources also are considered to fall within the authority of this Act.

(b) Historic Sites Act of 1935 (Pub. L. 74–292; 49 Stat. 666; 16 U.S.C. 461 et seq.) which authorizes the establishment of National Historic Sites and otherwise authorizes the preservation of properties of national historical or archeological significance; authorizes the designation of National Historic Landmarks; establishes criminal sanctions for violation of regulations pursuant to the Act; authorizes interagency, intergovernmental, and interdisciplinary efforts for the preservation of cultural resources; and other provisions.

(c) Reservoir Salvage Act of 1960 (Pub. L. 86–521; 74 Stat. 220; 16 U.S.C. 469–469c.) which provides for the recovery and preservation of historical and archeological data, including relics and specimens, that might be lost or destroyed as a result of the construction of dams, reservoirs, and attendant facilities and activities.

(d) The National Historic Preservation Act of 1966 as amended (16 U.S.C. 470), which establishes positive national policy for the preservation of the cultural environment, and sets forth a mandate for protection in section 106. The purpose of section 106 is to protect properties on or eligible for the National Register of Historic Places through review and comment by the ACHP of Federal undertakings that affect such properties. Properties are listed on the National Register or declared eligible for listing by the Secretary of the Interior. As developed through the ACHP’s regulations, section 106 establishes a public interest process in which the Federal agency proposing an undertaking, the State Historic Preservation Officer, the ACHP, interested organizations and individuals participate. The process is designed to insure that properties, impacts on them, and effects to them are identified, and that alternatives to avoid or mitigate an adverse effect on property eligible for the National Register are adequately considered in the planning process.

(e) The National Environmental Policy Act of 1969 (NEPA) (Pub. L. 91–190; 83
Stat. 852; 42 U.S.C. 4321 et seq.) which declares that it is the policy of the Federal Government to preserve important historic, cultural, and natural aspects of our national heritage. Compliance with NEPA requires consideration of all environmental concerns during project planning and execution.

(f) Executive Order 11593, “Protection and Enhancement of the Cultural Environment”, which gives the Federal Government the responsibility for stewardship of our nation’s heritage resources and charges Federal agencies with the task of inventorying historic and prehistoric sites on their lands. E.O. 11593 also charges agencies with the task of identifying and nominating all historic properties under their jurisdiction, and exercising caution to insure that they are not transferred, sold, demolished, or substantially altered.

(g) Historical and Archeological Data Preservation Act of 1974. (Pub. L. 93-291; 88 Stat. 174.) which amends the Reservoir Salvage Act of 1960 to extend its provisions beyond the construction of dams to any alteration of the terrain caused as a result of any Federal construction project or federally licensed activity or program. In addition, the Act provides a mechanism for funding the protection of historical and archeological data.

(h) Presidential memorandum of July 12, 1978, “Environmental Quality and Water Resource Management” which directs the ACHP to publish final regulations, implementing section 106 of the National Historic Preservation Act (NHPA), and further directs each agency with water and related land resource responsibilities to publish procedures implementing those regulations.

(i) 36 CFR part 800, “Protection of Historic and Cultural Properties” which establishes procedures for the implementation of section 106 of the NHPA, and directs publication of agency implementing procedures.

(j) Land use policy of the USDA (Secretary’s Memorandum No. 1827 Revised, with Supplement) which establishes a commitment by the Department to the preservation of farms, rural communities, and rural landscapes.

(k) Public Buildings Cooperative Use Act of 1976 (40 U.S.C. 611) and Executive Order 12072 (Federal Space Management). The Act encourages adaptive use of historic buildings as administrative facilities for Federal agencies and activities; the Executive Order directs Federal agencies to locate administrative and other facilities in central business districts.

(l) American Indian Religious Freedom Act of 1978 (42 U.S.C. 1996) which declares it to be the policy of the United States to protect and preserve for American Indians their inherent right of freedom to believe, express, and exercise the traditional religions of the American Indian, Eskimo, Aleut, and Native Hawaiians.

§ 3100.42 Definitions.

All definitions are those which appear in 36 CFR part 800. In addition, the following apply in this rule:

Cultural resources (heritage resources) are the remains or records of districts, sites, structures, buildings, networks, neighborhoods, objects, and events from the past. They may be historic, prehistoric, archeological, or architectural in nature. Cultural resources are an irreplaceable and nonrenewable aspect of our national heritage.

Cultural environment is that portion of the environment which includes reminders of the rich historic and prehistoric past of our nation.

§ 3100.43 Policy.

(a) The nonrenewable cultural environment of our country constitutes a valuable and treasured portion of the national heritage of the American people. The Department of Agriculture is committed to the management—identification, protection, preservation, interpretation, evaluation and nomination—of our prehistoric and historic cultural resources for the benefit of all people of this and future generations.

(b) The Department supports the cultural resource goals expressed in Federal legislation, Executive orders, and regulations.

(c) The Department supports the preservation and protection of farms, rural landscapes, and rural communities.

(d) The Department is committed to consideration of the needs of American
§ 3100.44 Implementation.

(a) It is the intent of the Department to carry out its program of management of the cultural environment in the most effective and efficient manner possible. Implementation must consider natural resource utilization, must exemplify good government, and must constitute a noninflationary approach which makes the best use of tax dollars.

(b) The commitment to cultural resource protection is vital. That commitment will be balanced with the multiple departmental goals of food and fiber production, environmental protection, natural resource and energy conservation, and rural development. It is essential that all of these be managed to reduce conflicts between programs. Positive management of the cultural environment can contribute to achieving better land use, protection of rural communities and farm lands, conservation of energy, and more efficient use of resources.

(c) In reaching decisions, the long-term needs of society and the irreversible nature of an action must be considered. The Department must act to preserve future options; loss of important cultural resources must be avoided except in the face of overriding national interest where there are no reasonable alternatives.

(d) To assure the protection of Native American religious practices, traditional religious leaders and other native leaders (or their representatives) should be consulted about potential conflict areas in the management of the cultural environment and the means to reduce or eliminate such conflicts.

§ 3100.45 Direction to agencies.

(a) Each agency of the Department shall consult with OEQ to determine whether its programs and activities may affect the cultural environment. Then, if needed, the agency, in consultation with the OEQ, shall develop its own specific procedures for implementing section 106 of the National Historic Preservation Act, Executive Order 11593, the regulations of the ACHP (36 CFR part 800), the American Indian Religious Freedom Act of 1978 and other relevant legislation and regulations in accordance with the agency’s programs, mission and authorities. Such implementing procedures shall be published as proposed and final procedures in the Federal Register, and must be consistent with the requirements of 36 CFR part 800 and this subpart. Where applicable, each agency’s procedures must contain mechanisms to insure:

(1) Compliance with section 106 of NHPA and mitigation of adverse effects to cultural properties on or eligible for the National Register of Historic Places;

(2) Clear definition of the kind and variety of sites and properties which should be managed;

(3) Development of a long-term program of management of the cultural environment on lands administered by USDA as well as direction for project-specific protection;

(4) Identification of all properties listed on or eligible for listing in the National Register that may be affected directly or indirectly by a proposed activity;

(5) Location, identification and nomination to the Register of all sites, buildings, objects, districts, neighborhoods, and networks under its management which appear to qualify (in compliance with E.O. 11593);

(6) The exercise of caution to assure that properties managed by USDA which may qualify for nomination are not transferred, sold, demolished, or substantially altered;

(7) Early consultation with, and involvement of, the State Historic Preservation Officer(s), the ACHP, Native American traditional religious leaders and appropriate tribal leaders, and others with appropriate interests or expertise;

(8) Early notification to insure substantive and meaningful involvement by the public in the agency’s decision-making process as it relates to the cultural environment;
(9) Identification and consideration of alternatives to a proposed undertaking that would mitigate or minimize adverse effects to a property identified under paragraph (a)(4) of this section;

(10) Funding of mitigation measures where required to minimize the potential for adverse effects on the cultural environment. Funds for mitigation shall be available and shall be spent when needed during the life of the project to mitigate the expected loss; and

(11) Development of plans to provide for the management, protection, maintenance and/or restoration of Register sites under its management.

(b) Each agency of the Department which conducts programs or activities that may have an effect on the cultural environment shall recruit, place, develop, or otherwise have available, professional expertise in anthropology, archeology, history, historic preservation, historic architecture, and/or cultural resource management (depending upon specific need). Such arrangements may include internal hiring, Intergovernmental Personnel Act assignments, memoranda of agreement with other agencies or Departments, or other mechanisms which insure a professionally directed program. Agencies should use Department of the Interior professional standards (36 CFR 61.5) as guidelines to insure Departmentwide competence and consistency.

(c) Compliance with cultural resource legislation is the responsibility of each individual agency. Consideration of cultural resource values must begin during the earliest planning stages of any undertaking.

(d) Agency heads shall insure that cultural resource management activities meet professional standards as promulgated by the Department of the Interior (e.g., 36 CFR parts 60, 63, 66, 1208).

(e) Cultural resource review requirements and compliance with section 106 of NHPA and Executive Order 11593 shall be integrated and run concurrently, rather than consecutively, with the other environmental considerations under NEPA regulations. As such, direct and indirect impacts on cultural resources must be addressed in the environmental assessment for every agency undertaking. In meeting these requirements, agencies shall be guided by regulations implementing the procedural provisions of NEPA (40 CFR parts 1500-1508) and Department of Agriculture regulations (7 CFR part 3100, subpart B).

(f) Each agency shall work closely with the appropriate State Historic Preservation Officer(s) in their preparation of State plans, determination of inventory needs, and collection of data relevant to general plans or specific undertakings in carrying out mutual cultural resource responsibilities.

(g) Each agency shall, to the maximum extent possible, use existing historic structures for administrative purposes in compliance with Public Buildings Cooperative Use Act of 1976 and Executive Order 12072, “Federal Space Management”.

(h) Each agency should consult with Native American traditional religious leaders or their representatives and other native leaders in the development and implementation of cultural resource programs which may affect their religious customs and practices.

§ 3100.46 Responsibilities of the Department of Agriculture.

(a) Within the Department, the responsibility for the protection of the cultural environment is assigned to the Office of Environmental Quality (OEQ). The Office is responsible for reviewing the development and implementation of agency procedures and insuring Departmental commitment to cultural resource goals.

(b) The Director of the OEQ is the Secretary’s Designee to the ACHP.

(c) In order to carry out cultural resource responsibilities, there will be professional expertise within the OEQ to advise agencies, aid the Department in meeting its cultural resource management goals, and to insure that all Departmental and agency undertakings comply with applicable cultural resource protection legislation and regulations.

(d) The OEQ will be involved in individual compliance cases only where resolution cannot be reached at the agency level. Prior to the decision to refer a matter to the full Council of the ACHP, the OEQ will review the case
§ 3100.46

and make recommendations to the Secretary regarding the position of the Department. The agency also will consult with the OEQ before reaching a final decision in response to the Council's comments. Copies of correspondence relevant to compliance with Section 106 shall be made available to OEQ.

Subpart A—Introduction

§ 3300.1 Scope of authority and purpose.

The International Carriage of Perishable Foodstuffs Act assigns to the Secretary of Agriculture the responsibility for implementation of the Agreement on the International Carriage of Perishable Foodstuffs and on the Special Equipment to be Used for Such Carriage (ATP). The purpose of this rule is to establish procedures for the inspection, testing, and certification of insulated, refrigerated, mechanically refrigerated, and heated transport equipment in accordance with the Act and the standards specified in the Agreement. In the process, the intent is to utilize existing industry organizations and facilities for testing and inspection of equipment. The Secretary is the sole authority to issue certificates of compliance.

§ 3300.4 Definitions.

Administrator means the Administrator, Office of Transportation, U.S.
A copy of the agreement can be obtained by request to the ATP Manager, Office of Transportation, U.S. Department of Agriculture, 1405 Auditors Building, 201 14th Street, SW., Washington, DC 20250.

ATP means the Agreement on the International Carriage of Perishable Foodstuffs and on the Special Equipment to be Used for Such Carriage (ATP), and the annexes and appendices thereto, done at Geneva, September 1, 1970, under the auspices of the Economic Commission for Europe, and any subsequent amendments thereto.1

A foreign country is a country to which this rule applies, and which is a signatory to the ATP.

ATP manager means the person designated by the Administrator to manage the program established by this rule, whose address is: ATP Manager, Office of Transportation, U.S. Department of Agriculture, 1405 Auditors Building, 201 14th Street, SW., Washington, DC 20250.

Contracting party means a country which is a signatory to the ATP.

Domestic owner means an organization incorporated or chartered under the laws of, and with principal office in, the United States, and to which one of the following applies:

(a) The organization owns and operates the equipment directly.

(b) The organization owns and operates the equipment through a wholly owned subsidiary in a foreign country.

(c) The organization is a lessee or bailee of the equipment, and a written lease or bailment provides that the organization is responsible for any inspection, testing, and certification of the equipment with respect to the ATP rule.

Equipment means the special transport equipment that meets the definitions and standards set forth in ATP, Annex 1, including, but not limited to, railcars, trucks, trailers, semitrailers, and intermodal freight containers that have an insulated body only, or an insulated body equipped with a refrigerating, mechanically refrigerating, or heating appliance.

Equipment manufacturer means an organization which produces or assembles the complete unit of equipment, that is, the insulated body with the thermal appliance installed.

Foreign owner means an organization registered under the laws of, or with principal office in, a country outside the United States, and which owns or operates the equipment.

Foreign-ATP certificate means a certificate issued by a foreign country which is a contracting party to the ATP, attesting that the equipment listed in the certificate complies with pertinent standards in the ATP.

Identical mechanical refrigerating appliance means an appliance which is of the same model number and design as the reference mechanical refrigerating appliance.

Insulated body means the six-sided structural component of equipment, consisting of insulated doors, sidewalls, roof, floor, and endwall, inside which perishable foodstuffs are carried.

International carriage means transportation of perishable foodstuffs if such foodstuffs are loaded in equipment or the equipment containing them is loaded onto a rail or road vehicle, in the territory of any country and such foodstuffs are, or the equipment containing them is, unloaded in the territory of another country that is a contracting party, where such transportation is by:

(a) Rail,

(b) Road,

(c) Any combination of rail and road,

(d) Any sea crossing of less than one hundred and fifty kilometers, if preceded or followed by one or more land journeys as referred to in clauses (a), (b), and (c) of this definition, and the perishable foodstuffs are shipped in the same equipment used for such land journeys without transloading of such foodstuffs.

In the case of any transportation that involves one or more sea crossings other than as specified in clause (d) of this definition, each land journey shall be considered separately.

New equipment means equipment produced or assembled on or after the effective date of this rule.

Perishable foodstuffs means the quick deep-frozen and frozen food products listed in Annex 2, and the chilled food products listed in Annex 3 to the ATP.

Reference equipment means a unit of equipment which has passed a test in an approved testing station, and can

1A copy of the agreement can be obtained by request to the ATP Manager, Office of Transportation, U.S. Department of Agriculture, 1405 Auditors Building, 201 14th Street, SW., Washington, DC 20250.
thereby serve as a basis for certification of related serially-produced equipment.

Reference insulated body means an insulated body which has passed a test in an approved testing station for measurement of the K-coefficient of the body, and can thereby serve as the basis for approval of serially-produced bodies in the case in which the body and the mechanical refrigerating appliance of the equipment are tested separately.

Reference mechanical refrigerating appliance means an appliance which has passed a test in an approved testing laboratory, and can thereby serve as the basis for approval of identical mechanical refrigerating appliances in the case in which the appliance and the insulated body of the equipment are tested separately.

Serially-produced bodies means insulated bodies which meet the definition in ATP, Annex 1 Appendix 1, paragraph 2c(ii).

Serially-produced equipment means equipment of a specific type (container, semi-trailer, trailer, truck, or container), which meets the definition in ATP, Annex 1, Appendix 1, paragraphs 2c(i), (ii), (iii), and (iv).

Thermal appliance means the refrigerating, mechanical refrigerating, or heating appliance which is installed in the insulated body of the equipment.

United States means the fifty States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands of the United States, the Commonwealth of the Northern Mariana Islands, and any other territory or possession of the United States.

U.S. ATP certificate means a certificate issued by the U.S. Department of Agriculture, attesting that the equipment listed in the certificate complies with pertinent standards in the ATP.

U.S. ATP testing laboratory means a facility in the United States which has been approved by the Administrator to conduct tests of equipment.

U.S. ATP testing station means a facility in the United States which has been approved by the Administrator to conduct tests of equipment.

Subpart B—Procedures for Testing of Equipment

§ 3300.7 General.

Testing of equipment according to the ATP is basically done in two phases:

(a) Measurement of the insulating capacity, that is, the K-coefficient, of the insulated body.

(b) Determination of the efficiency of the thermal appliance as installed in the insulated body. In the case of mechanically refrigerated equipment, the mechanical refrigerating appliance may be tested separate from the body.

§ 3300.10 Measurement of the K-coefficient of an insulated body.

The K-coefficient shall be measured according to the procedures in ATP, Annex 1, Appendix 2, paragraphs 1-28, and the following shall apply:

(a) The internal heating method shall be used.

(b) In ATP, Annex 1, Appendix 2, paragraph 8 last line, “about +20° C for the mean temperature of the walls of the body shall be interpreted to mean between +19° C (+66° F) and 21° C (+70° F).

(c) A report of each test shall be completed on a form corresponding to the pertinent test report model prescribed in ATP, Annex 1, Appendix 2. Report forms may be obtained by a request to the ATP manager.

§ 3300.13 Determination of the efficiency of the thermal appliances as installed in the insulated body.

In determining the efficiency of a thermal appliance with respect to maintaining a prescribed temperature inside the body, the procedures in ATP, Annex 1, Appendix 2, paragraphs 31-40 and 43-47 shall be used. A report of each test shall be completed on a form corresponding to the pertinent test report model prescribed in ATP, Annex 1, Appendix 2. Report forms may be obtained by a request to the ATP manager.
Subpart C—Approval of Testing Stations

§ 3300.16 General.
Any public or private organization incorporated or chartered under the laws of, and with principal office in, the United States may apply to have one or more of its facilities in the United States designated as a U.S. ATP testing station.

§ 3300.19 Application for approval.
An application by an officer of the organization shall be submitted to the Administrator for each facility for which approval is sought. Copies of the Form, Application for Approval as a U.S. ATP Testing Station, may be obtained by a request to the ATP manager. The following information must be supplied in the application:

(a) A statement that the organization is incorporated or chartered under the laws of, and that it has its principal office in, the United States, including the name, address, and telephone number of the principal office.

(b) The address and telephone number of the testing station, and name and title of person in charge of the station.

(c) A summary of experience at the facility which would indicate the capability to conduct tests of equipment according to Supart B of this rule.

(d) A general description of the station, including drawings on letter size (8 1/2 × 11 inches) paper to show the floor plan and cross-sections of the test chamber, basic dimensions, location of heat exchangers and instruments, and any other pertinent information.

(e) An indication of which of the following types of equipment, as defined in ATP, Annex 1, that the station is capable of testing: intermodal freight containers, semi-trailers, trailers, railcars, and trucks.

(f) A statement that the ATP manager or other representative of the Administrator may, before a decision is made concerning the application, observe a test at the station of a Class “C” mechanically refrigerated container or semi-trailer, with Class “C” being defined as in ATP, Annex 1, paragraph 3.

(g) A statement that the station will be open to public use, that is, to manufacturers and owners of equipment which may apply to have equipment tested.

(h) A statement that the fees to be charged by the organization for testing will be reasonable with respect to costs involved, and that such fees will be payable directly to the organization by those who seek testing of their equipment.

(i) A statement that the station will maintain records of basic data developed in each test conducted under this rule, such records to be available for review by the ATP manager or other representative of the Administrator upon request. The record for each test shall be maintained for a period of three years.

(j) A statement that the organization will advise the ATP manager as soon as practicable of its intent to conduct a test under this rule and that it will, as soon as possible, advise when a firm test date has been set so that the ATP manager or other representative of the Administrator may observe the test.

(k) A statement that the organization will send to the ATP manager a copy of each test report for equipment tested at the station according to this rule, within 30 days after completion of the test.

(l) A statement that, should any significant change occur in the facility with respect to structure or test equipment as a result of redesign or other cause during the period of approval, the organization will so advise the ATP manager within 30 days after such change.

(m) Any other pertinent information.

§ 3300.22 Response to application for approval.
The Administrator will, within 30 days of receipt of the application and any relevant information required, advise the applicant whether or not the facility is approved as a testing station. Approval is for a 5-year period.

§ 3300.25 Application for renewal of approval.
If an organization wishes to have an approval renewed at the end of a 5-year
§ 3300.28 Response to application for renewal of approval.

The Administrator will, within 30 days of receipt of application and any relevant information required, advise the applicant whether or not approval is renewed. A renewal is good for 5 years.

§ 3300.31 Termination of approval.

An approved testing station may at any time withdraw as an approved testing station by written notice to the Administrator. Similarly, the Administrator may suspend or terminate for cause the approved status of a testing station by written notice to the organization, setting forth the reasons for such action. Examples of causes for suspension or termination of approval of a testing station would be a change in equipment or operations at the station which would render the station incapable of performing tests according to the standards in the ATP, or non-compliance of the station with pertinent portions of this rule.

Subpart D—Procedures for Separate Testing of Mechanical Refrigerating Appliances

§ 3300.34 General.

ATP, Annex 1, Appendix 2, paragraph 41, provides that approval of mechanically refrigerated equipment may be done on the basis of separate testing of the mechanical refrigerating appliance.

§ 3300.37 Testing of a mechanical refrigerating appliance.

For separate testing of a mechanical refrigerating appliance, the following shall pertain:

(a) The calibrated-box method shall be used, as set forth in ARI Standard 1110, Standard for Mechanical Refrigeration Units of the Air-Conditioning and Refrigeration Institute.

(b) The appliance shall be rated according to the class, or classes, of service for which the appliance is intended, with classes being defined as in ATP, Annex 1, paragraph 3.

(c) A report of each test shall be completed on a form corresponding to the pertinent test report model prescribed in ATP, Annex 1, Appendix 2. Report forms may be obtained by a request to the ATP manager.

Subpart E—Approval of Testing Laboratories

§ 3300.40 General.

Any public or private organization incorporated or chartered under the laws of, and with principal office in, the United States may apply to have one or more of its facilities in the United States designated as a U.S. ATP testing laboratory.

§ 3300.43 Application for approval.

An application by an officer of the organization shall be submitted to the Administrator for each facility for which approval is sought. Copies of the Form, Application for Approval as a U.S. ATP Testing Laboratory, may be obtained by a request to the ATP manager. The following information must be supplied in the application:

(a) A statement that the organization is incorporated or chartered under the laws of, and that it has its principal office in, the United States, including the address and telephone number of the principal office.

(b) The address and telephone number of the testing laboratory, and name and title of person in charge of the laboratory.

(c) A summary of the experience at the facility which would indicate a capability to conduct tests of mechanical refrigerating appliances according to subpart D of this rule.

(d) A general description of the laboratory, including drawings on letter size (8½ x 11 inches) paper to show the floor plan and cross-section of the test chamber, basic dimensions, location of heat exchangers and instruments, and any other pertinent information.

(e) A statement that the ATP manager or other representative of the Administrator may, before a decision is
§ 3300.58 General.

The following shall apply for certification of new equipment:

(a) Domestic owners are eligible to receive U.S. ATP certificates for equipment produced or assembled in the United States or in a foreign country.

(b) Foreign owners are eligible to receive U.S. ATP certificates only for equipment produced or assembled in the United States.

(c) For equipment manufactured (i.e., produced or assembled) in the United States:

(1) When the complete unit of equipment is tested, the test shall be performed in a U.S. ATP testing station.

(2) When the mechanical refrigerating appliance and the insulated body are tested separately, such tests shall be performed in approved testing facilities located in, and approved by, a foreign country which is a Contracting Party.

§ 3300.59 Application for renewal of approval.

If an organization wishes to have an approval renewed at the end of a 5-year period, it shall submit a request for renewal to the Administrator 90 days before expiration of the existing approval. The request for renewal shall contain the same type of information as required in the original application, that is, the information called for in §3300.43 of subpart E.

§ 3300.52 Response to application for renewal of approval.

The Administrator will, within 30 days of receipt of application and any relevant information required, advise the applicant whether or not approval is renewed. A renewal extends the period of approval for 5 years.

§ 3300.55 Termination of approval.

An approved testing laboratory may at any time withdraw as an approved testing laboratory by written notice to the Administrator. Similarly, the Administrator may suspend or terminate for cause the approved status of a testing laboratory by written notice to the organization, setting forth the reasons for such action. Examples of causes for suspension or termination of approval would be a change in equipment or operations at the laboratory which would render it incapable of performing tests according to the standards in the ATP, or noncompliance of the laboratory with pertinent portions of this rule.
§ 3300.61 Testing and verification requirements.

In accordance with ATP, Annex 1, Appendix 1, paragraphs 1, 1(a), 2(a), 2(b), 2(c) and 3, and Appendix 2, paragraph 41, certification of new equipment is based upon the following:

(a) For a unit of equipment, a test of the equipment in an approved testing station.

(b) For serially-produced equipment:
(1) A test of one unit of equipment in an approved testing station, such unit to serve as the reference equipment.
(2) Verification that production of other units of equipment is in conformity with the reference equipment.

(c) For mechanically refrigerated equipment, certification may be based upon a separate test of the mechanical refrigerating appliance and a separate test of the insulated body.

§ 3300.64 Application for certificate for new equipment produced or assembled in the United States or in a foreign country which is not a Contracting party to the ATP.

Application for certification shall be submitted to the ATP manager by an officer in the organization of the owner of the equipment. In the case of equipment manufactured in the United States, application may be made by an officer in the organization of the equipment manufacturer, acting on behalf of the owner. Copies of the Form, Application for U.S. ATP Certificate for New Equipment Produced or Assembled in the United States or in a Foreign Country Which is not a Contracting Party to the ATP, may be obtained by a request to the ATP manager. The following information must be supplied in the application:

(a) A statement whether the owner is a domestic owner or a foreign owner, with the name, address and telephone number of the owner, and the name, address and telephone number of the equipment manufacturer, with a request for a U.S. ATP certificate.

(b) The date of application for a U.S. ATP certificate, and the date of the test report for the reference equipment.

(c) A statement that the equipment is manufactured in the United States or in a foreign country which is not a Contracting Party to the ATP.

(d) A statement that the equipment is produced or assembled in the United States or in a foreign country which is not a Contracting Party to the ATP.

(e) A statement that the equipment is serially-produced.

(f) A statement that the equipment is identically mechanical refrigerated equipment.

(2) A statement that the equipment is serially-produced bodies.

(g) A statement that the equipment is serially-produced bodies.

(h) A statement that the equipment is serially-produced bodies.

(i) A statement that the equipment is serially-produced bodies.

(j) A statement that the equipment is serially-produced bodies.

(k) A statement that the equipment is serially-produced bodies.

(l) A statement that the equipment is serially-produced bodies.

(m) A statement that the equipment is serially-produced bodies.

(n) A statement that the equipment is serially-produced bodies.

(o) A statement that the equipment is serially-produced bodies.

(p) A statement that the equipment is serially-produced bodies.

(q) A statement that the equipment is serially-produced bodies.

(r) A statement that the equipment is serially-produced bodies.

(s) A statement that the equipment is serially-produced bodies.

(t) A statement that the equipment is serially-produced bodies.

(u) A statement that the equipment is serially-produced bodies.

(v) A statement that the equipment is serially-produced bodies.

(w) A statement that the equipment is serially-produced bodies.

(x) A statement that the equipment is serially-produced bodies.

(y) A statement that the equipment is serially-produced bodies.

(z) A statement that the equipment is serially-produced bodies.
number of its principal office, and the name and title of person to contact.

(b) If the operator of the equipment is different from the owner, the name and address of the operator.

(c) Type of equipment (intermodal freight container, semi-trailer, trailer, railcar, or truck).

(d) Total number of units of equipment.

(e) Definition and distinguishing mark of the equipment for which certification is sought, referring to ATP, Annex 1, paragraph 3 and Appendix 4.

(f) Name, address, and telephone number of the principal office of the equipment manufacturer, and name and title of the person to contact.

(g) Name and address of the plant at which the equipment was manufactured.

(h) In the case of a unit of equipment (i.e., the insulated body with its mechanical refrigerating appliance installed) that has been tested to serve as the reference equipment for serially-produced equipment:

(1) The original or certified true copy of the test report for the reference equipment.

(2) For the serially-produced equipment:

(i) The manufacturer's make and model number for the equipment, including a brief description of the equipment and enclosure of any brochure on the equipment which might be available.

(ii) The basis upon which the equipment meets the definition of serially-produced equipment, with respect to the reference equipment.

(iii) A statement that the equipment was manufactured at the same plant at which the reference equipment was manufactured.

(iv) A statement that production of the equipment was in conformity with the reference equipment.

(i) In the case where the mechanical refrigerating appliance and the insulated body have been tested separately:

(1) For the reference mechanical refrigerating appliance:

(i) The original or certified true copy of the test report.

(ii) From the test report, the effective refrigerating capacity, \( W \), in watts, of the appliance at an outside temperature of +30°C and the inside temperature (see ATP, Annex 1, paragraph 3 and Appendix 4) for the class of equipment for which certification is sought. \( W \) must be equal to, or greater than, the increased heat transfer rate, \( H_i \), for the reference insulated body. See paragraph (3)(iii) below.

(2) For the identical mechanical refrigerating appliances:

(i) Name and address of the plant at which the identical appliances and reference appliance were manufactured.

(ii) The manufacturer's make, model number, and a brief description of the appliances with enclosure of any brochure on the appliances which might be available.

(iii) A statement that the appliances meet the definition of identical mechanical refrigerating appliances.

(3) For the reference insulated body:

(i) The original or certified true copy of the test report.

(ii) The total heat transfer rate of the body, \( H_t = S \times K \times \Delta T \), in watts, where: ``\( S \)'' is the mean surface area of the body, from the test report; ``\( K \)'' is the heat transfer coefficient of the body, from the test report; and, ``\( \Delta T \)'' is the difference in degrees Kelvin between an outside temperature of +30°C and the inside temperature for the class of equipment for which certification is sought.

(iii) The increased heat transfer rate, \( H_{it} \), obtained by multiplying the total heat transfer rate \( H_t \) by the factor of 1.75.

(4) For the serially-produced insulated bodies:

(i) Name and address of the plant at which the serially-produced bodies and reference body were manufactured.

(ii) The manufacturer's make, model number, and a brief description of the bodies, with any brochure on the bodies which might be available.

(iii) The basis upon which the bodies meet the definition of serially-produced bodies, with respect to the reference insulated body.

(iv) A statement that production of the bodies was in conformity with the reference insulated body.

(j) Information on the equipment after manufacture:
§ 3300.67 Application for certificate for new equipment produced or assembled in a foreign country which is a contracting party to the ATP.

An application for certification of equipment shall be submitted to the ATP manager by an officer in the organization of the owner of the equipment. Copies of the Form, Application for U.S. ATP Certificate for New Equipment Produced or Assembled in a Foreign Country Which is a Contracting Party, may be obtained by a request to the ATP manager. The following information must be submitted in the application:

(a) A statement that the owner is a domestic owner, with the name, address and telephone number of its principal office, and the name and title of the person to contact.

(b) If the operator of the equipment is different from the owner, the name and address of the operator.

(c) The type of equipment (inter-modal freight container, trailer, semi-trailer, railcar, or truck.)

(d) Total number of units of equipment.

(e) Definition of the equipment for which certification is sought, referring to ATP, Annex 1, paragraph 3, and Appendix 4.

(f) Name, address, and telephone number of the manufacturer of the equipment, and the name and title of the person to contact.

(g) The manufacturer’s make and model number for the equipment, including a brief description of the equipment and any brochure on the equipment which might be available.

(h) The original or certified true copy of the test report for the reference equipment.

(i) The original or certified true copy of the Foreign-ATP certificate issued for the equipment.

(j) A statement that each unit of equipment, before it is put into service, will have affixed to it a certification plate and distinguishing mark as specified in ATP, Annex 1, Appendix 1, paragraphs 4 and 5, and Appendices 3 and 4.

(k) A list showing, for each unit of equipment, the serial number of the body and the corresponding owner’s equipment identification number.

§ 3300.70 Issuance of certificate.

The ATP manager will evaluate the documents received and, for equipment deemed qualified, will issue a U.S. ATP certificate to the applicant within 30 days of the receipt of an application and any relevant information required. The certificate will be in the format prescribed in ATP, Annex 1, Appendix 3. For equipment deemed not qualified, the applicant will be advised of the reasons for non-qualification within 30 days of the receipt of an application and any relevant information required.

§ 3300.73 Period of validity of certificates.

In accordance with ATP, Annex 1, Appendix 1, paragraphs 1(a) and 1(b), certificates issued for new equipment are valid for a period of 6 years from date of issue.

Subpart G—Certification of Equipment in Service

§ 3300.76 General.

Only domestic owners are eligible to receive U.S. ATP certificates for equipment in service, with certification based upon the following:

(a) For equipment which has not previously been certified:

(1) For each unit of equipment, a test in a U.S. ATP testing station or in a testing station located in and approved by a country which is a Contracting
Office of Transportation, USDA

§ 3300.79 Application for certificate.

An application shall be submitted to the ATP manager by an officer in the organization of the owner of the equipment. Copies of the Form, Application for U.S. ATP Certificate for Equipment in Service, may be obtained by a request to the ATP manager. The following information is requested in the application:

(a) A statement that the owner is a domestic owner, with the name, address, and telephone number of its principal office, and name and title of person to contact.

(b) If the operator of the equipment is different from the owner, the name and address of the operator.

(c) The type of equipment (intermodal freight container, trailer, semi-trailer, railcar, or truck).

(d) The total number of units of equipment.
§ 3300.82

(e) The definition of the equipment for which certification is sought, referring to ATP, Annex 1, paragraph 3 and Appendix 4.

(f) For equipment which has not been previously certified, one of the following:

(1) For each unit of equipment, the original or certified true copy of the test report, or;

(2) If the equipment is serially-produced by one manufacturer:

(i) Name of manufacturer.

(ii) The original or certified true copy of the test report(s) of 1 percent of the equipment which was tested to serve as reference equipment.

(iii) A report of inspection for each unit of equipment.

(g) For renewal of a U.S. ATP Certificate which is nearing its expiration date:

(1) The original or certified true copy of that certificate, and;

(2) One of the following, (i) (ii), or (iii):

(i) For each unit of equipment, the original or certified true copy of the test report.

(ii) If the equipment is serially-produced by one manufacturer:

(A) Name of manufacturer.

(B) The original or certified true copy of the test report(s) of 1 percent of the equipment which was tested to serve as reference equipment.

(C) A report of inspection from each unit of equipment.

(h) For equipment which is currently certified according to a U.S. ATP certificate and which has been transferred from one domestic owner to another:

(1) The original or certified true copy of that certificate.

(2) A report of inspection for each unit of equipment.

(i) For equipment which is currently certified according to a Foreign-ATP certificate, and which has been transferred from a foreign owner to a domestic owner:

(1) The original or certified true copy of the test report for the reference equipment.

(2) The original or certified true copy of the Foreign-ATP certificate.

(3) A report of inspection for each unit of equipment.

(j) A statement that each unit of equipment has, or will have, affixed to it a certification plate and distinguishing mark as prescribed in ATP, Annex 1, Appendix 1, paragraphs 4 and 5, and Appendices 3 and 4.

(k) A list showing, for each unit of equipment, the serial number of the body and the corresponding owner's equipment identification number.

§ 3300.82 Issuance of certificate.

The ATP manager will evaluate documents received and, for equipment deemed qualified, will issue a U.S. ATP certificate to the applicant within 30 days of receipt of the application and any relevant information required. The certificate will be in the format prescribed in ATP, Annex 1, Appendix 3. For equipment deemed not qualified, the applicant will be advised of reasons for non-qualification within 30 days of receipt of an application and any relevant information required.

§ 3300.85 Period of validity of certificates.

In accordance with ATP, Annex 1, Appendix 1, paragraphs 1(b), and Appendix 2, paragraphs 29(c) and 49(b) and (d), considered in combination, certificates will be valid for periods as follows:

(a) For equipment which passes a test, 6 years.

(b) For serially-produced equipment of which 1 percent have passed a test, and all units have been inspected and passed such inspection, 6 years.

(c) For renewal of a U.S. ATP certificate which is nearing its expiration date, where the equipment has passed an inspection but has not been tested, 3 years.

(d) For equipment currently certified according to a U.S. ATP certificate, where the equipment has been transferred from one domestic owner to another and the equipment has passed an inspection, 3 years or the date of expiration of the current U.S. ATP certificate, whichever gives the later expiration date on the new U.S. ATP certificate.
Office of Transportation, USDA

(e) For equipment currently certified according to a Foreign-ATP certificate, where the equipment has been transferred from a foreign owner to a domestic owner and the equipment has passed an inspection, 3 years or the date of expiration of the foreign certificate, whichever gives the later expiration date on the newly issued U.S. ATP certificate.

Subpart H—Other Provisions

§ 3300.88 Fees for U.S. ATP certificates.

The fee schedule for issuance of U.S. ATP certificates by the U.S. Department of Agriculture will be calculated according to the criteria in Circular A-25, issued by the Office of Management and Budget. Fees may be revised as required on an annual basis.

§ 3300.91 List of approved testing stations, approved testing laboratories, and fees for certificates.

A current list of U.S. ATP testing stations, U.S. ATP testing laboratories, and fees for issuance of U.S. ATP certificates may be obtained by request to the ATP manager.

§ 3300.94 Appeals.

Any organization aggrieved by an action in connection with this rule may obtain a review of such action by submitting pertinent information by letter to the Administrator. The decision of the Administrator is the final agency action.

PART 3400—SPECIAL RESEARCH
GRANTS PROGRAM

Subpart A—General

§ 3400.1 Applicability of regulations.
(a) The regulations of this part apply to special research grants awarded under the authority of section 2(c)(1)(A) of the Act of August 4, 1965, as amended (7 U.S.C. 450(c)(1)(A)), to facilitate or expand promising breakthroughs in areas of the food and agricultural sciences of importance to the United States. Each year the Administrator of CSREES shall determine and announce, through publication of a Notice in such publications as the Federal Register, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means, research program areas for which proposals will be solicited, to the extent that funds are available.

(b) The regulations of this part do not apply to research grants awarded by the Department of Agriculture under any other authority.

§ 3400.2 Definitions.
As used in this part:
(a) Administrator means the Administrator of the Cooperative State Research, Education, and Extension Service (CSREES) and any other officer or employee of the Department of Agriculture to whom the authority involved may be delegated.
(b) Department means the Department of Agriculture.
(c) Principal investigator means a single individual designated by the grantee in the grant application and approved by the Administrator who is responsible for the scientific and technical direction of the project.
(d) Grantee means the entity designated in the grant award document as the responsible legal entity to whom a grant is awarded under this part.
(e) Research project grant means the award by the Administrator of funds to a grantee to assist in meeting the costs of conducting, for the benefit of the public, an identified project which is intended and designed to establish, discover, elucidate, or confirm information or the underlying mechanisms relating to a research program area identified in the annual solicitation of applications.
(f) Project means the particular activity within the scope of one or more of the research program areas identified in the annual solicitation of applications, which is supported by a grant award under this part.
(g) Project period means the total length of time that is approved by the Administrator for conducting the research project as outlined in an approved grant application.
(h) Budget period means the interval of time (usually 12 months) into which the project period is divided for budgetary and reporting purposes.
(i) Awarding official means the Administrator and any other officer or employee of the Department to whom the authority to issue or modify research project grant instruments has been delegated.
(j) Peer review group means an assembled group of experts or consultants qualified by training and experience in particular scientific or technical fields to give expert advice, in accordance with the provisions of this part, on the
Coop. State Research, Education, and Extension Ser., USDA § 3400.4

scientific and technical merit of grant applications in those fields.

(k) Ad hoc reviewers means experts or consultants qualified by training and experience in particular scientific or technical fields to render special expert advice, whose written evaluations of grant applications are designed to complement the expertise of the peer review group, in accordance with the provisions of this part, on the scientific or technical merit of grant applications in those fields.

(l) Research means any systematic study directed toward new or fuller knowledge and understanding of the subject studied.

(m) Methodology means the project approach to be followed and the resources needed to carry out the project.

§ 3400.3 Eligibility requirements.

(a) Except where otherwise prohibited by law, any State agricultural experiment station, all colleges and universities, other research institutions and organizations, Federal agencies, private organizations or corporations, and individuals, shall be eligible to apply for and to receive a special research project grant under this part, provided that the applicant qualifies as a responsible grantee under the criteria set forth in paragraph (b) of this section.

(b) To qualify as responsible, an applicant must meet the following standards as they relate to a particular project:

(1) Have adequate financial resources for performance, the necessary experience, organizational and technical qualifications, and facilities, or a firm commitment, arrangement, or ability to obtain such (including proposed sub-agreements);

(2) Be able to comply with the proposed or required completion schedule for the project;

(3) Have a satisfactory record of integrity, judgment, and performance, including, in particular, any prior performance under grants and contracts from the Federal Government;

(4) Have an adequate financial management system and audit procedure which provides efficient and effective accountability and control of all property, funds, and other assets; and

(5) Be otherwise qualified and eligible to receive a research project grant under applicable laws and regulations.

(c) Any applicant who is determined to be not responsible will be notified in writing of such findings and the basis therefor.

§ 3400.4 How to apply for a grant.

(a) A request for proposals will be prepared and announced through publications such as the Federal Register, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means of solicitation, as early as practicable each fiscal year. It will contain information sufficient to enable all eligible applicants to prepare special research grant proposals and will be as complete as possible with respect to:

(1) Descriptions of specific research program areas which the Department proposes to support during the fiscal year involved, including anticipated funds to be awarded;

(2) Deadline dates for having proposal packages postmarked;

(3) Name and address where proposals should be mailed;

(4) Number of copies to be submitted;

(5) Forms required to be used when submitting proposals; and

(6) Special requirements.

(b) Grant Application Kit. A Grant Application Kit will be made available to any potential grant applicant who requests a copy. This kit contains required forms, certifications, and instructions applicable to the submission of grant proposals.

(c) Format for research grant proposals. Unless otherwise stated in the specific program solicitation, the following applies:

(1) Grant Application. All research grant proposals submitted by eligible applicants should contain a Grant Application form, which must be signed by the proposing principal investigator(s) and endorsed by the cognizant authorized organizational representative who possesses the necessary authority to commit the applicant’s time and other relevant resources.
§ 3400.4 7 CFR Ch. XXXIV (1-1-98 Edition)

(2) Title of Project. The title of the project must be brief (80-character maximum), yet represent the major thrust of the research. This title will be used to provide information to the Congress and other interested parties who may be unfamiliar with scientific terms; therefore, highly technical words or phraseology should be avoided where possible. In addition, phrases such as “investigation of” or “research on” should not be used.

(3) Objectives. Clear, concise, complete, enumerated, and logically arranged statement(s) of the specific aims of the research must be included in all proposals.

(4) Procedures. The procedures or methodology to be applied to the proposed research plan should be explicitly stated. This section should include but not necessarily be limited to:

(i) A description of the proposed investigations and/or experiments in the sequence in which it is planned to carry them out;

(ii) Techniques to be employed, including their feasibility;

(iii) Kinds of results expected;

(iv) Means by which data will be analyzed or interpreted;

(v) Pitfalls which might be encountered; and

(vi) Limitations to proposed procedures.

(5) Justification. This section should describe:

(i) The importance of the problem to the needs of the Department and to the Nation, including estimates of the magnitude of the problem.

(ii) The importance of starting the work during the current fiscal year, and

(iii) Reasons for having the work performed by the proposing organization.

(6) Literature review. A summary of pertinent publications with emphasis on their relationship to the research should be provided and should include all important and recent publications. The citations should be accurate, complete, written in acceptable journal format, and be appended to the proposal.

(7) Current research. The relevancy of the proposed research to ongoing and, as yet, unpublished research of both the applicant and any other institutions should be described.

(8) Facilities and equipment. All facilities, including laboratories, which are available for use or assignment to the proposed research project during the requested period of support, should be reported and described. Any materials, procedures, situations, or activities, whether or not directly related to a particular phase of the proposed research, and which may be hazardous to personnel, must be fully explained, along with an outline of precautions to be exercised. All items of major instrumentation available for use or assignment to the proposed research project during the requested period of support should be itemized. In addition, items of nonexpendable equipment needed to conduct and bring the proposed project to a successful conclusion should be listed.

(9) Collaborative arrangements. If the proposed project requires collaboration with other research scientists, corporations, organizations, agencies, or entities, such collaboration must be fully explained and justified. Evidence should be provided to assure peer reviewers that the collaborators involved agree with the arrangements. It should be specifically indicated whether or not such collaborative arrangements have the potential for any conflict(s) of interest. Proposals which indicate collaborative involvement must state which proposer is to receive any resulting grant award, since only one eligible applicant, as provided in § 3400.3 of this part, may be the recipient of a research project grant under one proposal.

(10) Research timetable. The applicant should outline all important research phases as a function of time, year by year.

(11) Personnel support. All personnel who will be involved in the research effort must be clearly identified. For each scientist involved, the following should be included:

(i) An estimate of the time commitments necessary;

(ii) Vitae of the principal investigator(s), senior associate(s), and other professional personnel to assist reviewers in evaluating the competence and experience of the project staff. This section should include curricula vitae
of all key persons who will work on the proposed research project, whether or not Federal funds are sought for their support. The vitae are to be no more than two pages each in length, excluding publications listings; and

(iii) A chronological listing of the most representative publications during the past five years shall be provided for each professional project member for whom a curriculum vitae appears under this section. Authors should be listed in the same order as they appear on each paper cited, along with the title and complete reference as these usually appear in journals.

(12) Budget. A detailed budget is required for each year of requested support. In addition, a summary budget is required detailing requested support for the overall project period. A copy of the form which must be used for this purpose, along with instructions for completion, is included in the Grant Application Kit identified under §3400.4(b) of this part and may be reproduced as needed by applicants. Funds may be requested under any of the categories listed, provided that the item or service for which support is requested is allowable under applicable Federal cost principles and can be identified as necessary for successful conduct of the proposed research project. No funds will be awarded for the renovation or refurbishment of research spaces; purchases or installation of fixed equipment in such spaces; or for the planning, repair, rehabilitation, acquisition, or construction of a building or facility. All research project grants awarded under this part shall be issued without regard to matching funds or cost sharing.

(13) Research involving special considerations. A number of situations encountered in the conduct of research require special information and supporting documentation before funding can be approved for the project. If such situations are anticipated, the proposal must so indicate. It is expected that a significant number of special research grant proposals will involve the following:

(i) Recombinant DNA molecules. All key personnel identified in a proposal and all endorsing officials of a proposed performing entity are required to comply with the guidelines established by the National Institutes of Health entitled, “Guidelines for Research Involving Recombinant DNA Molecules,” as revised. The Grant Application Kit, identified above in §3400.4(b), contains forms which are suitable for such certification of compliance.

(ii) Human subjects at risk. Responsibility for safeguarding the rights and welfare of human subjects used in any research project supported with grant funds provided by the Department rests with the performing entity. Regulations have been issued by the Department under 7 CFR Part 1c, Protection of Human Subjects. In the event that a project involving human subjects at risk is recommended for award, the applicant will be required to submit a statement certifying that the research plan has been reviewed and approved by the Institutional Review Board at the proposing organization or institution. The Grant Application Kit, identified above in §3400.4(b), contains forms which are suitable for such certification.

(iii) Laboratory animal care. The responsibility for the humane care and treatment of any laboratory animal, which has the same meaning as “animal” in section 2(g) of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2132(g)), used in any research project supported with Special Research Grants Program funds rests with the performing organization. In this regard, all key personnel identified in a proposal and all endorsing officials of the proposed performing entity are required to comply with applicable provisions of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2131 et. seq.) and the regulation promulgated thereunder by the Secretary of Agriculture in 9 CFR parts 1, 2, 3, and 4. In the event that a project involving the use of a laboratory animal is recommended for award, the applicant will be required to submit a statement certifying such compliance. The Grant Application Kit, identified above in §3400.4(b), contains forms which are suitable of such certification.

(14) Current and pending support. All proposals must list any other current public or private research support, in addition to the proposed project, to
which key personnel listed in the proposal under consideration have committed portions of their time, whether or not salary support for the person(s) involved is included in the budgets of the various projects. This section must also contain analogous information for all projects underway and for pending research proposals which are currently being considered by, or which will be submitted in the near future to, other possible sponsors, including other Departmental programs or agencies. Concurrent submission of identical or similar projects to other possible sponsors will not prejudice its review or evaluation by the Administrator or experts or consultants engaged by the Administrator for this purpose. The Grant Application Kit, identified above in § 3400.4(b), contains a form which is suitable for listing current and pending support.

(15) Additions to project description. Each project description is expected by the Administrator, members of peer review groups, and the relevant program staff to be complete in itself. However, in those instances in which the inclusion of additional information is necessary, the number of copies submitted should match the number of copies of the application requested in the annual solicitation of proposals as indicated in § 3400.4(a)(4). Each set of such materials must be identified with the title of the research project as it appears in the Grant Application and the name(s) of the principal investigator(s). Examples of additional materials may include photographs which do not reproduce well, reprints, and other pertinent materials which are deemed to be unsuitable for inclusion in the proposal.

(16) Organizational management information. Specific management information relating to an applicant shall be submitted on a one-time basis prior to the award of a research project grant identified under this part if such information has not been provided previously under this or another program for which the sponsoring agency is responsible. Copies of forms recommended for use in fulfilling the requirements contained in this section will be provided by the agency specified in this part once a research project grant has been recommended for funding.

§ 3400.5 Evaluation and disposition of applications.

(a) Evaluation. All proposals received from eligible applicants in accordance with eligible research problem or program areas and deadlines established in the applicable request for proposals shall be evaluated by the Administrator through such officers, employees, and others as the Administrator determines are uniquely qualified in the areas of research represented by particular projects. To assist in equitably and objectively evaluating proposals and to obtain the best possible balance of viewpoints, the Administrator shall solicit the advice of peer scientists, ad hoc reviewers, or others who are recognized specialists in the research program areas covered by the applications received and whose general roles are defined in §§ 3400.2(j) and 3400.2(k). Specific evaluations will be based upon the criteria established in subpart B § 3400.15, unless CSREES determines that different criteria are necessary for the proper evaluation of proposals in one or more specific program areas, and announces such criteria and their relative importance in the annual program solicitation. The overriding purpose of such evaluations is to provide information upon which the Administrator can make informed judgments in selecting proposals for ultimate support. Incomplete, unclear, or poorly organized applications will work to the detriment of applicants during the peer evaluation process. To ensure a comprehensive evaluation, all applications should be written with the care and thoroughness accorded papers for publication.

(b) Disposition. On the basis of the Administrator’s evaluation of an application in accordance with paragraph (a) of this section, the Administrator will:

(1) Approve support using currently available funds,

(2) Defer support due to lack of funds or a need for further evaluations, or

(3) Disapprove support for the proposed project in whole or in part.

With respect to approved projects, the Administrator will determine the project period (subject to extension as
§ 3400.6 Grant awards.

(a) General. Within the limit of funds available for such purpose, the awarding official shall make research project grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced program areas under the evaluation criteria and procedures set forth in this part. The date specified by the Administrator as the beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. All funds granted under this part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department’s “Uniform Federal Assistance Regulations” (part 3015 of this title).

(b) Grant award document and notice of grant award—(1) Grant award document. The grant award document shall include at a minimum the following:

(i) Legal name and address of performing organization or institution to whom the Administrator has awarded a special research project grant under the terms of this part;
(ii) Title of project;
(iii) Name(s) and address(es) of principal investigator(s) chosen to direct and control approved activities;
(iv) Identifying grant number assigned by the Department;
(v) Project period, which specifies how long the Department intends to support the effort without requiring recompetition for funds;
(vi) Total amount of Departmental financial assistance approved by the Administrator during the project period;
(vii) Legal authority(ies) under which the research project grant is awarded to accomplish the purpose of the law;
(viii) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the research project grant award; and
(ix) Other information or provisions deemed necessary by the Department to carry out its granting activities or to accomplish the purpose of a particular research project grant.

(2) Notice of grant award. The notice of grant award, in the form of a letter, will be prepared and will provide pertinent instructions or information to the grantee that is not included in the grant award document.

(c) Categories of grant instruments. The major categories of grant instruments shall be as follows:

(1) Standard grant. This is a grant instrument by which the Department agrees to support a specified level of research effort for a predetermined project period without the announced intention of providing additional support at a future date. This type of research project grant is approved on the basis of peer review and recommendation and is funded for the entire project period at the time of award.

(2) Renewal grant. This is a document by which the Department agrees to provide additional funding under a standard grant as specified in paragraph (c)(1) of this section for a project period beyond that approved in an original or amended award, provided that the cumulative period does not exceed the statutory limitation. When a renewal application is submitted, it should include a summary of progress to date under the previous grant instrument. Such a renewal shall be based upon new application, de novo peer review and staff evaluation, new recommendation and approval, and a new award instrument.

(3) Continuation grant. This is a grant instrument by which the Department agrees to support a specified level of effort for a predetermined period of time with a statement of intention to provide additional support at a future date, provided that performance has been satisfactory, appropriations are available for this purpose, and continued support would be in the best interests of the Federal Government and the public. It involves a long-term research...
project that is considered by peer reviewers and Departmental officers to have an unusually high degree of scientific merit, the results of which are expected to have a significant impact on the food and agricultural sciences, and it supports the efforts of experienced scientists with records of outstanding research accomplishments. This kind of document will normally be awarded for an initial one-year period and any subsequent continuation research project grants will also be awarded in one-year increments. The award of a continuation research project grant to fund an initial or succeeding budget period does not constitute an obligation to fund any subsequent budget period. A grantee must submit a separate application for continued support for each subsequent fiscal year. Requests for such continued support must be submitted in duplicate at least three months prior to the expiration date of the budget period currently being funded. Such requests must include: an interim progress report detailing all work performed to date; a Grant Application; a proposed budget for the ensuing period, including an estimate of funds anticipated to remain unobligated at the end of the current budget period; and current information regarding other extramural support for senior personnel. Decisions regarding continued support and the actual funding levels of such support in future years will usually be made administratively with consideration of such factors as the grantee's progress and management practices and within the context of available funds. Since initial peer reviews were based upon the full term and scope of the original special research grant application, additional evaluations of this type generally are not required prior to successive years' support. However, in unusual cases (e.g., when the nature of the project or key personnel change or when the amount of future support requested substantially exceeds the grant application originally reviewed and approved), additional reviews may be required prior to approving continued funding.

(4) Supplemental grant. This is an instrument by which the Department agrees to provide small amounts of additional funding under a standard, renewal, or continuation grant as specified in paragraphs (c)(1), (c)(2), and (c)(3) of this section and may involve a short-term (usually six months or less) extension of the project period beyond that approved in an original or amended award, but in no case may the cumulative period of the project, including short term extensions, exceed the statutory time limitation. A supplement is awarded only if required to assure adequate completion of the original scope of work and if there is sufficient justification of need to warrant such action. A request of this nature normally does not require additional peer review.

(d) Obligation of the Federal Government. Neither the approval of any application nor the award of any research project grant shall commit or obligate the United States in any way to make any renewal, supplemental, continuation, or other award with respect to any approved application or portion of an approved application.

§ 3400.7 Use of funds; changes.

(a) Delegation of fiscal responsibility. The grantee may not delegate or transfer in whole or in part, to another person, institution, or organization the responsibility for use or expenditure of grant funds.

(b) Change in project plans. (1) The permissible changes by the grantee, principal investigator(s), or other key project personnel in the approved research project grant application, additional evaluations of this type generally are not required prior to successive years’ support. However, in unusual cases (e.g., when the nature of the project or key personnel change or when the amount of future support requested substantially exceeds the grant application originally reviewed and approved), additional reviews may be required prior to approving continued funding.

(2) Changes in approved goals, or objectives, shall be requested by the grantee and approved in writing by the Department prior to effecting such changes. In no event shall requests for such changes be approved which are outside the scope of the original approved project.
(3) Changes in approved project leadership or the replacement or reassignment of other key project personnel shall be requested by the grantee and approved in writing by the Department prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the grantee and approved in writing by the Department prior to effecting such changes, except as may be allowed in the terms and conditions of the grant award.

(c) Changes in project period. The project period determined pursuant to §3400.5(b) may be extended by the Administrator without additional financial support, for such additional period(s) as the Administrator determines may be necessary to complete, or fulfill the purposes of, an approved project. Any extension, when combined with the originally approved or amended project period, shall not exceed five (5) years (the limitation established by statute) and shall be further conditioned upon prior request by the grantee and approval in writing by the Department, unless prescribed otherwise in the terms and conditions of a grant award.

(d) Changes in approved budget. The terms and conditions of a grant will prescribe circumstances under which written Departmental approval will be requested and obtained prior to instituting changes in an approved budget.

§ 3400.8 Other Federal statutes and regulations that apply.

Several other Federal statutes and/or regulations apply to grant proposals considered for review or to research project grants awarded under this part. These include but are not limited to:

- 7 CFR Part 3—USDA implementation of OMB Circular A-120 regarding debt collection.
- 7, CFR Part 15, Subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964.
- 7 CFR Part 3016—USDA Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments, implementing OMB directives (i.e., Circular Nos. A-102 and A-87).
- 7 CFR Part 3017, as amended—USDA implementation of Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants).
- 7 CFR Part 3018—USDA implementation of New Restrictions on Lobbying. Imposes new prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans.
- 7 CFR Part 3017—CSREES procedures to implement the National Environmental Policy Act.
- 29 U.S.C. 794, section 504—Rehabilitation Act of 1973, and 7 CFR part 15B (USDA implementation of statute), prohibiting discrimination based upon physical or mental handicap in Federally assisted programs.
- 35 U.S.C. 200 et seq.—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR part 401).

§ 3400.9 Other conditions.

The Administrator may, with respect to any research project grant or to any class of awards, impose additional conditions prior to or at the time of any award when, in the Administrator's judgment, such conditions are necessary to assure or protect advancement of the approved project, the interests of the public, or the conservation of grant funds.

Subpart B—Scientific Peer Review of Research Grant Applications

§ 3400.10 Establishment and operation of peer review groups.

Subject to §3400.5, the Administrator will adopt procedures for the conduct of peer reviews and the formulation of recommendations under §3400.14.
§ 3400.11 Composition of peer review groups.

(a) Peer review group members will be selected based upon their training and experience in relevant scientific or technical fields, taking into account the following factors:

(1) The level of formal scientific or technical education by the individual;
(2) The extent to which the individual has engaged in relevant research, the capacities in which the individual has done so (e.g., principal investigator, assistant), and the quality of such research;
(3) Professional recognition as reflected by awards and other honors received from scientific and professional organizations outside of the Department;
(4) The need of the group to include within its membership experts from various areas of specialization within relevant scientific or technical fields;
(5) The need of the group to include within its membership experts from a variety of organizational types (e.g., universities, industry, private consultant(s)) and geographic locations; and
(6) The need of the group to maintain a balanced membership, e.g., minority and female representation and an equitable age distribution.

§ 3400.12 Conflicts of interest.

Members of peer review groups covered by this part are subject to relevant provisions contained in Title 18 of the United States Code relating to criminal activity. Department regulations governing employee responsibilities and conduct (part O of this title), and Executive Order 11222, as amended.

§ 3400.13 Availability of information.

Information regarding the peer review process will be made available to the extent permitted under the Freedom of Information Act (5 U.S.C. 552), the Privacy Act (5 U.S.C. 552a), and implementing Departmental regulations (part 1 of this title).

§ 3400.14 Proposal review.

(a) All research grant applications will be acknowledged. Prior to technical examination, a preliminary review will be made for responsiveness to the request for proposals (e.g., relationship of application to research program area). Proposals which do not fall within the guidelines as stated in the annual request for proposals will be eliminated from competition and will be returned to the applicant. Proposals whose budgets exceed the maximum allowable amount for a particular program area as announced in the request for proposals may be considered as lying outside the guidelines.

(b) All applications will be carefully reviewed by the Administrator, qualified officers or employees of the Department, the respective peer review group, and ad hoc reviewers, as required. Written comments will be solicited from ad hoc reviewers when required, and individual written comments and in-depth discussions will be provided by peer review group members prior to recommending applications for funding. Applications will be ranked and support levels recommended within the limitation of total available funding for each research program area as announced in the applicable request for proposals.

(c) No awarding official will make a research project grant based upon an application covered by this part unless the application has been reviewed by a peer review group and/or ad hoc reviewers in accordance with the provisions of this part and said reviewers have made recommendations concerning the scientific merit of such application.

(d) Except to the extent otherwise provided by law, such recommendations are advisory only and are not binding on program officers or on the awarding official.

§ 3400.15 Review criteria.

(a) Subject to the varying conditions and needs of States, Federal funded agricultural research supported under these provisions shall be designed to, among other things, accomplish one or more of the following purposes:

(1) Continue to satisfy human food and fiber needs;
(2) Enhance the long-term viability and competitiveness of the food production and agricultural system of the United States within the global economy;
(3) Expand economic opportunities in rural America and enhance the quality
of life for farmers, rural citizens, and society as a whole;
(4) Improve the productivity of the American agricultural system and develop new agricultural crops and new uses for agricultural commodities;
(5) Develop information and systems to enhance the environment and the natural resource base upon which a sustainable agricultural economy depends; or
(6) Enhance human health.
In carrying out its review under §3400.14, the peer review group will use the following form upon which the evaluation criteria to be used are enumerated, unless pursuant to §3400.5(a), different evaluation criteria are specified in the annual solicitation of proposals for a particular program.

Peer Panel Scoring Form
Proposal Identification No. ————
Institution and Project Title ————

I. Basic Requirement:
Proposal falls within guidelines?
Yes ___ Yes No, if no, explain why proposal does not meet guidelines under comment section of this form.

II. Selection Criteria:

<table>
<thead>
<tr>
<th>Score X Weight Factor</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>Score 1-10</td>
<td>Weight factor</td>
</tr>
<tr>
<td>1. Overall scientific and technical quality of proposal</td>
<td>10</td>
</tr>
<tr>
<td>2. Scientific and technical quality of the approach</td>
<td>10</td>
</tr>
<tr>
<td>3. Relevance and importance of proposed research to solution of specific areas of inquiry</td>
<td>6</td>
</tr>
<tr>
<td>4. Feasibility of attaining objectives, adequacy of professional training and experience, facilities and equipment</td>
<td>5</td>
</tr>
</tbody>
</table>

Score ———————————————————
Summary Comments ————————————

(b) Proposals satisfactorily meeting the guidelines will be evaluated and scored by the peer review panel for each criterion utilizing a scale of 1 through 10. A score of one (1) will be considered low and a score of ten (10) will be considered high for each selection criterion. A weighted factor is used for each criterion.

PART 3401—RANGELAND RESEARCH GRANTS PROGRAM

Subpart A—General

Sec. 3401.1 Applicability of regulations of this part.
3401.2 Definitions.
3401.3 Eligibility requirements.
3401.4 Matching funds requirement.
3401.5 Indirect costs and tuition remission costs.
3401.6 How to apply for a grant.
3401.7 Evaluation and disposition of applications.
3401.8 Grant awards.
3401.9 Use of funds; changes.
3401.10 Other Federal statutes and regulations that apply.
3401.11 Other conditions.

Subpart B—Scientific Peer Review of Research Applications for Funding

3401.12 Establishment and operation of peer review groups.
3401.13 Composition of peer review groups.
3401.14 Conflicts of interest.
3401.15 Availability of information.
3401.16 Proposal review.
3401.17 Review criteria.

S OURCE: 61 FR 27753, May 31, 1996, unless otherwise noted.

Subpart A—General

§ 3401.1 Applicability of regulations of this part.

(a) The regulations of this part apply to rangeland research grants awarded under the authority of section 1480 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3333) to land-grant colleges and universities, State agricultural experiment stations, and colleges, universities, and Federal laboratories having a demonstrable capacity in rangeland research, as determined by the Secretary, to carry out rangeland research. The Administrator of the Cooperative State Research, Education, and Extension Service (CSREES) shall determine and announce, through publication each year.
§ 3401.2

of a Notice in the Federal Register, professional trade journals, agency or program handbooks, the catalog of Federal Domestic Assistance or any other appropriate means, research program areas for which proposals will be solicited, to the extent that funds are available.

(b) The regulations of this part do not apply to research grants awarded by the Department of Agriculture under any other authority.

§ 3401.2 Definitions.

As used in this part:

(a) Administrator means the Administrator of CSREES and any other officer or employee of the Department of Agriculture to whom the authority involved may be delegated.

(b) Department means the Department of Agriculture.

(c) Principal investigator means a single individual designated by the grantee in the application for funding and approved by the Administrator who is responsible for the scientific and technical direction of the project.

(d) Grantee means the entity designated in the grant award document as the responsible legal entity to whom a grant is awarded under this part.

(e) Research project grant means the award by the Administrator of funds to a grantee to assist in meeting the costs of conducting, for the benefit of the public, an identified project which is intended and designed to establish, discover, elucidate, or confirm information or the underlying mechanisms relating to a research program area identified in the annual solicitation of applications.

(f) Project means the particular activity within the scope of one or more of the research program areas identified in the annual solicitation of applications, which is supported by a grant award under this part.

(g) Project period means the total length of time that is approved by the Administrator for conducting the research project as outlined in an approved application for funding.

(h) Budget period means the interval of time (usually 12 months) into which the project period is divided for budgetary and reporting purposes.

(i) Awarding official means the Administrator and any other officer or employee of the Department to whom the authority to issue or modify research project grant instruments has been delegated.

(j) Peer review group means an assembled group of experts or consultants qualified by training or experience in particular scientific or technical fields to give expert advice, in accordance with the provisions of this part, on the scientific and technical merit of applications for funding in those fields.

(k) Ad hoc reviewers means experts or consultants qualified by training or experience in particular scientific or technical fields to render special expert advice, whose written evaluations of applications for funding are designed to complement the expertise of the peer review group, in accordance with the provisions of this part, on the scientific or technical merit of applications for funding in those fields.

(l) Research means any systematic study directed toward new or fuller knowledge and understanding of the subject studied.

(m) Methodology means the project approach to be followed and the resources needed to carry out the project.

§ 3401.3 Eligibility requirements.

(a) Except where otherwise prohibited by law, any land-grant college and university, State agricultural experiment station, and college, university, and Federal laboratory having a demonstrable capacity in rangeland research, as determined by the Secretary, shall be eligible to apply for and to receive a project grant under this part, provided that the applicant qualifies as a responsible grantee under the criteria set forth in paragraph (b) of this section.

(b) To qualify as responsible, an applicant must meet the following standards as they relate to a particular project:

(I) Have adequate financial resources for performance, the necessary experience, organizational and technical qualifications, and facilities, or a firm commitment, arrangement, or ability to obtain such (including proposed sub-agreements);
(2) Be able to comply with the proposed or required completion schedule for the project;
(3) Have a satisfactory record of integrity, judgment, and performance, including, in particular, any prior performance under grants and contracts from the Federal government;
(4) Have an adequate financial management system and audit procedure which provides efficient and effective accountability and control of all property, funds, and other assets; and
(5) Be otherwise qualified and eligible to receive a research project grant under applicable laws and regulations.

(c) Any applicant who is determined to be not responsible will be notified in writing of such findings and the basis therefor.

§ 3401.4 Matching funds requirement.
In accordance with section 1480 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3333), except in the case of Federal laboratories, each grant recipient must match the Federal funds expended on a research project based on a formula of 50 percent Federal and 50 percent non-Federal funding.

§ 3401.5 Indirect costs and tuition remission costs.
Pursuant to section 1473 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3319), funds made available under this program to recipients other than Federal laboratories shall not be subject to reduction for indirect costs or tuition remission costs. Since indirect costs and tuition remission costs, except in the case of Federal laboratories, are not allowable costs for purposes of this program, such costs may not be used to satisfy the matching requirement set forth in § 3401.4.

§ 3401.6 How to apply for a grant.
(a) General. After consultation with the Rangeland Research Advisory Board, established pursuant to section 1482 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3333), a request for proposals will be prepared and announced through publications such as the Federal Register, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means of solicitation, as early as practicable each fiscal year. It will contain information sufficient to enable all eligible applicants to prepare rangeland research grant proposals and will be as complete as possible with respect to:
(1) Descriptions of specific research program areas which the Department proposes to support during the fiscal year involved, including anticipated funds to be awarded;
(2) Deadline dates for having proposal packages postmarked;
(3) Name and address where proposals should be mailed;
(4) Number of copies to be submitted;
(5) Forms required to be used when submitting proposals; and
(6) Special requirements.

(b) Application kit. An Application Kit will be made available to any potential grant applicant who requests a copy. This kit contains required forms, certifications, and instructions applicable to the submission of grant proposals.

(c) Format for research grant proposals. Unless otherwise stated in the specific program solicitation, the following format applies:
(1) Application for funding. All research grant proposals submitted by eligible applicants should contain an Application for Funding form, which must be signed by the proposing principal investigator(s) and endorsed by the cognizant authorized organizational representative who possesses the necessary authority to commit the applicant’s time and other relevant resources.
(2) Title of project. The title of the project must be brief (80-character maximum), yet represent the major thrust of the research. This title will be used to provide information to the Congress and other interested parties who may be unfamiliar with scientific terms; therefore, highly technical words or phraseology should be avoided where possible. In addition, phrases such as “investigation of” or “research on” should not be used.
(3) Objectives. Clear, concise, complete, enumerated, and logically arranged statement(s) of the specific aims of the research must be included in all proposals.

(4) Procedures. The procedures of methodology to be applied to the proposed research plan should be stated explicitly. This section should include but not necessarily be limited to:

(i) A description of the proposed investigations and/or experiments in the sequence in which it is planned to carry them out;

(ii) Techniques to be employed, including their feasibility;

(iii) Kinds of results expected;

(iv) Means by which data will be analyzed or interpreted;

(v) Pitfalls which might be encountered; and

(vi) Limitations to proposed procedures.

(5) Justification. This section of the grant proposal should describe:

(i) The importance of the problem to the needs of the Department and to the Nation, including estimates of the magnitude of the problem;

(ii) The importance of starting the work during the current fiscal year; and

(iii) Reasons for having the work performed by the proposing organization.

(6) Literature review. A summary of pertinent publications with emphasis on their relationship to the research should be provided and should include all important and recent publications. The citations should be accurate, complete, written in acceptable journal format, and be appended to the proposal.

(7) Current research. The relevancy of the proposed research to ongoing and, as yet, unpublished research of both the applicant and any other institutions should be described.

(8) Facilities and equipment. All facilities, including laboratories, that are available for use or assignment to the proposed research project during the requested period of support, should be reported and described. Any materials, procedures, situations, or activities, whether or not directly related to a particular phase of the proposed research, and which may be hazardous to personnel, must be explained fully, along with an outline of precautions to be exercised. All items of major instrumentation available for use or assignment to the proposed research project during the requested period of support should be itemized. In addition, items of nonexpendable equipment needed to conduct and bring the proposed project to a successful conclusion should be listed.

(9) Collaborative arrangements. If the proposed project requires collaboration with other research scientists, corporations, organizations, agencies, or entities, such collaboration must be explained fully and justified. Evidence should be provided to assure peer reviewers that the collaborators involved agree with the arrangements. It should be specifically indicated whether or not such collaborative arrangements have the potential for any conflict(s) of interest. Proposals which indicate collaborative involvements must state which applicant is to receive any resulting grant award, since only one eligible applicant, as provided in §3401.3 may be the recipient of a research project grant under one proposal.

(10) Research timetable. The applicant should outline all important research phases as a function of time, year by year.

(11) Personnel support. All personnel who will be involved in the research effort must be identified clearly. For each scientist involved, the following should be included:

(ii) Vitae of the principal investigator(s), senior associate(s), and other professional personnel to assist reviewers in evaluating the competence and experience of the project staff. This section should include curricula vitae of all key persons who will work on the proposed research project, whether or not Federal funds are sought for their support. The vitae are to be no more than two pages each in length, excluding publication listings; and

(iii) A chronological listing of the most representative publications during the past five years shall be provided for each professional project member of whom a curriculum vitae appears under this section. Authors should be listed in the same order as
(12) Budget. A detailed budget is required for each year of requested support. In addition, a summary budget is required detailing requested support for the overall project period. A copy of the form which must be used for this purpose, along with instructions for completion, is included in the Application Kit identified under §3401.6(b) and may be reproduced as needed by applicants. Funds may be requested under any of the categories listed, provided that the item or service for which support is requested is allowable under applicable Federal cost principles and can be identified as necessary for successful conduct of the proposed research project. As stated in §3401.4 each grant recipient must match the Federal funds expended on a research project based on a formula of 50 percent Federal and 50 percent non-Federal funding. As stated in §3401.5, indirect costs and tuition remission costs are not allowable costs for purposes of this program and, thus, may not be used to satisfy the matching requirement set forth in §3401.4.

(13) Research involving special considerations. A number of situations encountered in the conduct of research require special information and supporting documentation before funding can be approved for the project. If such situations are anticipated, the proposal must so indicate. It is expected that a significant number of rangeland grant proposals will involve the following:

(i) Recombinant DNA molecules. All key personnel identified in a proposal and all endorsing officials of a proposed performing entity are required to comply with the guidelines established by the National Institutes of Health entitled, "Guidelines for Research Involving Recombinant DNA Molecules," as revised. The Application Kit, identified above in §3401.6(b), contains a form which is suitable for such certification of compliance. In the event a project involving recombinant DNA and RNA molecules results in a grant award, the Institutional Biosafety Committee must approve the research before CSREES funds will be released.

(ii) Human subjects at risk. Responsibility for safeguarding the rights and welfare of human subjects used in any research project supported with grant funds provided by the Department rests with the performing entity. Regulations have been issued by the Department under 7 CFR part 1c, Protection of Human Subjects. In the event that a project involving human subjects at risk is recommended for award, the applicant will be required to submit a statement certifying that the research plan has been reviewed and approved by the Institutional Review Board at the proposing organization or institution. The Application Kit, identified above in §3401.6(b), contains a form which is suitable for such certification. In the event a project involving human subjects results in a grant award, funds will be released only after the Institutional Committee has approved the project.

(iii) Laboratory animal care. The responsibility for the humane care and treatment of any laboratory animal, which has the same meaning as "animal" in section 2(g) of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2132(g)), used in any research project supported with Rangeland Research Grant Program funds rests with the performing organization. In this regard, all key personnel identified in a proposal and all endorsing officials of the proposed performing entity are required to comply with the applicable provisions of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2131 et seq.) and the regulations promulgated thereunder by the Secretary of Agriculture in 9 CFR parts 1, 2, 3, and 4. In the event that a project involving the use of a laboratory animal is recommended for award, the applicant will be required to submit a statement certifying such compliance. The Application Kit, identified above in §3401.6(b), contains a form which is suitable for such certification. In the event a project involving the use of living vertebrate animals results in a grant award, funds will be released only after the Institutional Animal Care and Use Committee has approved the project.

(14) Current and pending support. All proposals must list any other current public or private research support, in
addition to the proposed project, to
which key personnel listed in the pro-
posal under consideration have com-
mitted portions of their time, whether
or not salary support for the person(s)
involved is included in the budgets of
the various projects. This section must
also contain analogous information for
all projects underway and for pending
research proposals which are currently
being considered by, or which will be
submitted in the near future to, other
possible sponsors, including other De-
partmental programs or agencies. Con-
current submission of identical or
similar projects to other possible spon-
sors will not prejudice its review or
evaluation by the Administrator or ex-
erts or consultants engaged by the
Administrator for this purpose. The
Application Kit, identified above in
§3401.6(b), contains a form which is
suitable for listing current and pending
support.

(15) Additions to project description.
Each project description is expected by
the Administrator, members of peer re-
view groups, and the relevant program
staff to be complete in itself. However,
in those instances in which the inclu-
sion of additional information is nec-
essary, the number of copies submitted
should match the number of copies of
the application requested in the annual
solicitation of proposals as indicated in
§3401.6(a)(4). Each set of such materials
must be identified with the title of the
research project as it appears in the
Application for Funding and the
name(s) of the principal investiga-
tor(s). Examples of additional mate-
rials may include photographs which
do not reproduce well, reprints, and
other pertinent materials which are
described to be unsuitable for inclusion
in the proposal.

As outlined in CSREES’s implementing
regulations of the National Environ-
mental Policy Act of 1969 (NEPA) at 7
CFR part 3407, environmental data or
documentation for the proposed project
is to be provided to CSREES in order
to assist CSREES in carrying out its
responsibilities under NEPA. These re-
sponsibilities include determining
whether the project requires an Envi-
ronmental Assessment or an Environ-
mental Impact Statement or whether
it can be excluded from this require-
ment on the basis of several categori-
cal exclusions listed in 7 CFR part
3407. In this regard, the applicant
should review the categories defined
for exclusion to ascertain whether the
proposed project may fall within one or
more of the exclusions, and should in-
dicate if it does so on the National En-
vironmental Policy Act Exclusions
Form (Form CSREES-1234) provided
in the Application Kit. Even though
the applicant considers that a proposed
project may fall within a categorical
exclusion, CSREES may determine
that an Environmental Assessment or
an Environmental Impact Statement is
necessary for a proposed project should
substantial controversy on environ-
mental grounds exist or if other ex-
traordinary conditions or cir-
cumstances are present that may cause
such activity to have a significant en-
vironmental effect.

(17) Organizational management infor-
mation. Specific management informa-
tion relating to an applicant shall be
submitted on an one-time basis prior to
the award of a research project grant
identified under this part if such infor-
mation has not been provided pre-
viously under this or another program
for which the sponsoring agency is re-
sponsible. Copies of forms rec-
ommended for use in fulfilling the re-
quirements contained in this section
will be provided by the agency speci-
fied in this part once a research project
grant has been recommended for fund-
ing.

§3401.7 Evaluation and disposition of
applications.

(a) Evaluation. All proposals received
from eligible applicants in accordance
with eligible research problem or pro-
gram areas and deadlines established in
the applicable request for proposals
shall be evaluated by the Adminis-
trator through such officers, employ-
es, and others as the Administrator
determines are particularly qualified
in the areas of research represented by
particular projects. To assist in equi-
tably and objectively evaluating pro-
posals and to obtain the best possible
balance of viewpoints, the Adminis-
trator may solicit the advice of peer
scientists, ad hoc reviewers, or others
who are recognized specialists in the research program areas covered by the applications received. Specific evaluations will be based upon the criteria established in subpart B of this part, §3401.17, unless CSREES determines that different criteria are necessary for the proper evaluation of proposals in one or more specific program areas, and announces such criteria and their relative importance in the annual program solicitation. The overriding purpose of such evaluations is to provide information upon which the Administrator can make informed judgments in selecting proposals for ultimate support. Incomplete, unclear, or poorly organized applications will work to the detriment of applicants during the peer evaluation process. To ensure a comprehensive evaluation, all applications should be written with the care and thoroughness accorded papers for publication.

(b) Disposition. On the basis of the Administrator's evaluation of an application in accordance with paragraph (a) of this section, the Administrator will approve using currently available funds, defer support due to lack of funds or a need for further evaluations, or disapprove support for the proposed project in whole or in part. With respect to approved projects, the Administrator will determine the project period (subject to extension as provided in §3401.9(c)) during which the project may be supported. Any deferral or disapproval of an application will not preclude its reconsideration or a reapplication during subsequent fiscal years.

§3401.8 Grant awards.

(a) General. Within the limit of funds available for such purpose, the awarding official shall make research project grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced program areas under the evaluation criteria and procedures set forth in this part. The date specified by the Administrator as the beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. All funds granted under this part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department's "Uniform Federal Assistance Regulations" (parts 3015 and 3019 of this title).

(b) Grant award document and notice of grant award.—(1) Grant award documents. The grant award document shall include at a minimum the following:

(i) Legal name and address of performing organization or institution to whom the Administrator has awarded a rangeland research project grant under the terms of this part;

(ii) Title of project;

(iii) Name(s) and address(es) of principal investigator(s) chosen to direct and control approved activities;

(iv) Identifying grant number assigned by the Department;

(v) Project period, which specifies how long the Department intends to support the effort without requiring recompetition for funds;

(vi) Total amount of Departmental financial assistance approved by the Administrator during the project period;

(vii) Legal authority(ies) under which the research project grant is awarded to accomplish the purpose of the law;

(viii) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the research project grant award; and

(ix) Other information or provisions deemed necessary by the Department to carry out its granting activities or to accomplish the purpose of a particular research project grant.

(2) Notice of grant award. The notice of grant award, in the form of a letter, will be prepared and will provide pertinent instructions or information to the grantee that is not included in the grant award document.

(c) Categories of grant instruments. The major categories of grant instruments by which the Department may provide support are as follows:

(1) Standard grant. This is a grant instrument by which the Department agrees to support a specified level of research effort for a predetermined
(2) Renewal grant. This is a document by which the Department agrees to provide additional funding under a standard grant as specified in paragraph (c)(1) of this section for a project period beyond that approved in an original or amended award, provided that the cumulative period does not exceed the statutory limitation. When a renewal application is submitted, it should include a summary of progress to date under the previous grant instrument. Such a renewal shall be based upon new application, de novo peer review and staff evaluation, new recommendation and approval, and a new award instrument.

(3) Continuation grant. This is a grant instrument by which the Department agrees to support a specified level of effort for a predetermined period of time with a statement of intention to provide additional support at a future date, provided that performance has been satisfactory, appropriations are available for this purpose, and continued support would be in the best interests of the Federal government and the public. It involves a long-term research project that is considered by peer reviewers and Departmental officers to have an unusually high degree of scientific merit, the results of which are expected to have a significant impact on the productivity of the Nation’s rangelands, and it supports the efforts of experienced scientists with records of outstanding research accomplishments. This kind of document normally will be awarded for an initial one-year period and any subsequent continuation research project grants also will be awarded in one-year increments, but in no case may the cumulative period of the project exceed the statutory limit. The award of a continuation research project grant to fund an initial or succeeding budget period does not constitute an obligation to fund any subsequent budget period. A grantee must submit a separate application for continued support for each subsequent fiscal year. Requests for such continued support must be submitted in duplicate at least three months prior to the expiration date of the budget period currently being funded. Such requests must include: an interim progress report detailing all work performed to date; an Application for Funding; a proposed budget for the ensuing period; including an estimate of funds anticipated to remain unobligated at the end of the current budget period; and current information regarding other extramural support for senior personnel. Decisions regarding continued support and the actual funding levels of such support in future years usually will be made administratively after consideration of such factors as the grantee’s progress and management practices and within the context of available funds. Since initial peer reviews were based upon the full term and scope of the original rangeland research application for funding, additional evaluations of this type generally are not required prior to successive years’ support. However, in unusual cases (e.g., when the nature of the project or key personnel change or when the amount of future support requested substantially exceeds the application for funding originally reviewed and approved), additional reviews may be required prior to approval of continued funding.

(4) Supplemental grant. This is an instrument by which the Department agrees to provide small amounts of additional funding under a standard, renewal, or continuation grant as specified in paragraphs (c)(1), (c)(2), and (c)(3) of this section and may involve a short-term (usually six months or less) extension of the project period beyond that approved in an original or amended award, but in no case may the cumulative period of the project, including short term extensions, exceed the statutory time limitation. A supplement is awarded only if required to assure adequate completion of the original scope of work and if there is sufficient justification of need to warrant such action. A request of this nature normally does not require additional peer review.
(d) Obligation of the Federal government. Neither the approval of any application nor the award of any research project grant shall commit or obligate the United States in any way to make any renewal, supplemental, continuation, or other award with respect to any approved application or portion of an approved application.

§ 3401.10 Other Federal statutes and regulations that apply.

Several other Federal statutes and/or regulations apply to grant proposals considered for review or to research project grants awarded under this part. These include but are not limited to:

7 CFR Part 1c—USDA implementation of the Federal Policy for the Protection of Human Subjects;
7 CFR Part 1.1—USDA implementation of Freedom of Information Act;
7 CFR Part 3—USDA implementation of OMB Circular A-129 regarding debt collection;
7 CFR Part 15, Subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964;
7 CFR Part 3015—USDA Uniform Federal Assistance Regulations, implementing OMB directives (i.e., Circular Nos. A-110, A-21, and A-122) and incorporating provisions of 31 U.S.C. 6301-6308 (formerly, the Federal Grant and Cooperative Agreement Act of 1977), as well as general policy requirements applicable to recipients of Departmental financial assistance;
7 CFR Part 3017, as amended—USDA implementation of Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants);
7 CFR Part 3018—USDA implementation of New Restrictions on Lobbying. Imposes new prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans;
7 CFR Part 3019—USDA Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-profit Organizations;
§ 3401.11 Other conditions.

The Administrator may, with respect to any research project grant or to any class of awards, impose additional conditions prior to or at the time of any award when, in the Administrator's judgment, such conditions are necessary to assure or protect advancement of the approved project, the interests of the public, or the conservation of grant funds.

Subpart B—Scientific Peer Review of Research Applications for Funding

§ 3401.12 Establishment and operation of peer review groups.

Subject to §3401.7, the Administrator will adopt procedures for the conduct of peer reviews and the formulation of recommendations under §3401.16.

§ 3401.13 Composition of peer review groups.

Peer review group members will be selected based upon their training or experience in relevant scientific or technical fields, taking into account the following factors:

(a) The level of formal scientific or technical education by the individual;
(b) The extent to which the individual has engaged in relevant research, the capacities in which the individual has done so (e.g., principal investigator, assistant), and the quality of such research;
(c) Professional recognition as reflected by awards and other honors received from scientific and professional organizations outside of the Department;
(d) The need of the group to include within its membership experts from various areas of specialization within relevant scientific or technical fields;
(e) The need of the group to include within its membership experts from a variety of organizational types (e.g., universities, industry, private consultant(s)) and geographic locations; and
(f) The need of the group to maintain a balanced membership, e.g., minority and female representation and an equitable age distribution.

§ 3401.14 Conflicts of interest.

Members of peer review groups covered by this part are subject to relevant provisions contained in Title 18 of the United States Code relating to criminal activity, Department regulations governing employee responsibilities and conduct (part 0 of this title), and Executive Order 11222 (3 CFR, 1964-1965 Comp., p. 306), as amended.

§ 3401.15 Availability of information.

Information regarding the peer review process will be made available to the extent permitted under the Freedom of Information Act (5 U.S.C. 552), the Privacy Act (5 U.S.C. 552a.), and implementing Departmental regulations (part 1 of this title).

§ 3401.16 Proposal review.

(a) All research Applications for Funding will be acknowledged. Prior to technical examination, a preliminary review will be made for responsiveness to the request for proposals (e.g., relationship of application to research program area). Proposals that do not fall within the guidelines as stated in the annual request for proposals will be eliminated from competition and will be returned to the applicant. Proposals whose budgets exceed the maximum allowable amount for a particular program area as announced in the request for proposals may be considered as lying outside the guidelines.

(b) All applications will be reviewed carefully by the Administrator, qualified officers or employees of the Department, the respective merit review
panel, and ad hoc reviewers, as required. Written comments will be solicited from ad hoc reviewers, when required, and individual written comments and in-depth discussions will be provided by peer review group members prior to recommending applications for funding. Applications will be ranked and support levels recommended within the limitation of total available funding for each research program area as announced in the applicable request for proposals.

(c) Except to the extent otherwise provided by law, such recommendations are advisory only and are not binding on program officers or on the awarding official.

§ 3401.17 Review criteria.

(a) Federally funded research supported under these provisions shall be designed to, among other things, accomplish one or more of the following purposes:

1. Improve management of rangelands as an integrated system and/or watershed;
2. Remedy unstable or unsatisfactory rangeland conditions;
3. Increase revegetation and/or rehabilitation of rangelands;
4. Examine the health of rangelands; and
5. Define economic parameters associated with rangelands.

(b) In carrying out its review under § 3401.16, the peer review panel will use the following form upon which the evaluation criteria to be used are enumerated, unless, pursuant to § 3401.7(a), different evaluation criteria are specified in the annual solicitation of proposals for a particular program:

Peer Panel Scoring Form
Proposal Identification No. ————
Institution and Project Title ————
I. Basic Requirement:
Proposal falls within guidelines?
Yes ______ No. If no, explain why proposal does not meet guidelines under comment section of this form.

II. Selection Criteria:

<table>
<thead>
<tr>
<th>Score X weight factor</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Overall scientific and technical quality of proposal</td>
<td>10</td>
</tr>
<tr>
<td>2. Scientific and technical quality of the approach</td>
<td>10</td>
</tr>
<tr>
<td>3. Relevance and importance of proposed research to solution of specific areas of inquiry</td>
<td>6</td>
</tr>
<tr>
<td>4. Feasibility of attaining objectives; adequacy of professional training and experience, facilities and equipment</td>
<td>5</td>
</tr>
</tbody>
</table>

Score ——————————————————
Summary Comments ——————————————————

(c) Proposals satisfactorily meeting the guidelines will be evaluated and scored by the peer review panel for each criterion utilizing a scale of 1 through 10. A score of one (1) will be considered low and a score of ten (10) will be considered high for each selection criterion. A weighted factor is used for each criterion.

PART 3402—FOOD AND AGRICULTURAL SCIENCES NATIONAL NEEDS GRADUATE FELLOWSHIP GRANTS PROGRAM

Subpart A—General Introduction
Sec.
3402.1 Applicability of regulations.
3402.2 Definitions.
3402.3 Institutional eligibility.

Subpart B—Program Description
3402.4 Food and agricultural sciences areas targeted for national needs graduate fellowship grants support.
3402.5 Overview of National Needs Graduate Fellowship Grants Program.
3402.6 Fellowship appointments.
3402.7 Fellowship activities.
3402.8 Financial provisions.

Subpart C—Preparation of a Proposal
3402.9 Application package.
3402.10 Proposal cover page.
3402.11 National need summary.
§ 3402.1 Applicability of regulations.

(a) The regulations of this part apply to competitive grants awarded under the provisions of section 1417(b)(6) of the National Agricultural Research, Extension and Teaching Policy Act of 1977, as amended, 7 U.S.C. 3152(b)(6). This statute designates the U.S. Department of Agriculture (USDA) as the lead Federal agency for agricultural research, extension, and teaching in the food and agricultural sciences. It authorizes the Secretary of Agriculture, who has delegated the authority to the Cooperative State Research, Education, and Extension Service (CSREES), to make competitive grants to land-grant colleges and universities, colleges and universities having significant minority enrollments and a demonstrable capacity to carry out the teaching of food and agricultural sciences, and to other colleges and universities having a demonstrable capacity to carry out the teaching of food and agricultural sciences, to administer and conduct graduate fellowship programs to help meet the Nation's needs for development of scientific and professional expertise in the food and agricultural sciences. The fellowships are intended to encourage outstanding students to pursue and complete graduate degrees in the areas of food and agricultural sciences designated by CSREES through the Office of Higher Education Programs (HEP) as national needs.

(b) The regulations of this part do not apply to grants awarded by the Department of Agriculture under any other authority.

§ 3402.2 Definitions.

As used in this part:

Citizen or national of the United States means
(1) A citizen or native resident of a State; or,
(2) A person defined in the Immigration and Nationality Act, 8 U.S.C. 1101(a)(22), who, though not a citizen of the United States, owes permanent allegiance to the United States.

College and university means an educational institution in any State which
(1) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate,
(2) Is legally authorized within such State to provide a program of education beyond secondary education,
(3) Provides an educational program for which a bachelor's degree or any other higher degree is awarded,
(4) Is a public or other nonprofit institution, and
(5) Is accredited by a nationally recognized accrediting agency or association.

College and university means an educational institution in any State which
(1) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate,
(2) Is legally authorized within such State to provide a program of education beyond secondary education,
(3) Provides an educational program for which a bachelor's degree or any other higher degree is awarded,
(4) Is a public or other nonprofit institution, and
(5) Is accredited by a nationally recognized accrediting agency or association.

Food and agricultural sciences means basic, applied, and developmental research, extension, and teaching activities in the food, agricultural, renewable natural resources, forestry, and physical and social sciences in the broadest sense of these terms including but not limited to research, extension and teaching activities concerned with the production, processing, marketing, distribution, conservation, consumption, research, and development of food and agriculturally related products and
services, inclusive of programs in agriculture, natural resources, aquaculture, forestry, veterinary medicine, home economics, rural development, and closely allied fields.

Graduate degree means a Master’s or doctoral degree.

State means any one of the fifty States, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Trust Territory of the Pacific Islands, the Virgin Islands of the United States, and the District of Columbia.

Teaching activities means formal classroom instruction, laboratory instruction, and practicum experience specific to the food and agricultural sciences and matters relating thereto conducted by colleges and universities offering baccalaureate or higher degrees.

§ 3402.3 Institutional eligibility.

Proposals may be submitted by land-grant colleges and universities, by colleges and universities having significant minority enrollments and a demonstrable capacity to carry out the teaching of food and agricultural sciences, and by other colleges and universities having a demonstrable capacity to carry out the teaching of food and agricultural sciences. All applicants should be institutions that confer a graduate degree in at least one area of the food and agricultural sciences targeted for national needs fellowships, that have a significant ongoing commitment to the food and agricultural sciences generally, and that have a significant ongoing commitment to the specific subject area for which a grant application is made. It is the objective to award grants to colleges and universities which have notable teaching and research competencies in the food and agricultural sciences. The grants are specifically intended to support fellowship programs that encourage outstanding students to pursue and complete a graduate degree at such institutions in an area of the food and agricultural sciences for which there is a national need for the development of scientific and professional expertise. Therefore, institutions which currently have excellent programs of graduate study and research in the food and agricultural sciences dealing with targeted national needs are particularly encouraged to apply.

Subpart B—Program Description

§ 3402.4 Food and agricultural sciences areas targeted for national needs graduate fellowship grants support.

Areas of the food and agricultural sciences appropriate for fellowship grant applications are those in which developing shortages of expertise have been determined and targeted by HEP for national needs fellowship grant support. When funds are available and HEP determines that a new competition is warranted, the specific areas and funds per area will be identified in a Federal Register notice announcing the program and soliciting program applications.

§ 3402.5 Overview of National Needs Graduate Fellowship Grants Program.

(a) The program will provide funds for a limited number of grants to support fixed graduate student stipends and fixed cost-of-education institutional allowances. These grants will be awarded competitively to eligible institutions. In order to encourage the development of special activities that are expected to contribute to Fellows’ advanced degree objectives, the program will also provide competitive, special international study or thesis/dissertation research travel allowances for a limited number of USDA Graduate Fellows.

(b) Based on the amount of funds appropriated in any fiscal year, HEP will determine:

(1) Whether new competitions for graduate fellowships and/or special international study or thesis/dissertation research travel allowances will be held during that fiscal year;

(2) The graduate degree level(s) to be supported—Master’s and/or doctoral;

(3) The proportion of appropriations to be targeted for the fellowship stipends for each respective graduate degree level supported;

(4) The proportion of appropriations to be targeted for the cost-of-education
§ 3402.5

institutional allowances for each respective graduate degree level supported;

(5) The proportion of appropriations to be targeted for the special international study or thesis/dissertation research travel allowances for each respective graduate degree level supported;

(6) The allowable stipend amount for each respective graduate degree level supported, the cost-of-education institutional allowance for each respective graduate degree level supported, and the maximum funds available for each special international study or thesis/dissertation research travel allowance for each respective graduate degree level supported; and

(7) The maximum total funds that may be awarded to an institution under the program in a given fiscal year.

(c) HEP will also determine:

(1) The maximum number of national needs areas for which funding may be requested in a single proposal;

(2) The degree levels for which funding may be requested in a single proposal;

(3) The minimum and maximum number of fellowships for which an institution may apply in a single proposal;

(4) The limits on the total number of proposals that can be submitted by an institution, college, school, or other administrative unit.

(d) All of these determinations will be published as a part of the program announcement in the Federal Register.

(e) For each USDA Graduate Fellow who desires to be considered for a special international study or thesis/dissertation research travel allowance, the project director must apply to HEP for a supplemental grant in accordance with instructions published in the program announcement in the Federal Register. Each application must include an “Application for Funding” (Form CSRS–661) and a “Budget” (Form CSRS–55).

(1) To provide HEP with sufficient information upon which to evaluate the merits of the requests for a special international study or thesis/dissertation research travel allowance, each application for a supplemental grant must contain a narrative which provides the following:

(i) The specific destination(s) and duration of the travel;

(ii) The specific study or thesis/dissertation research activities in which the Fellow will be engaged;

(iii) How the international experience will contribute to the Fellow’s program of study;

(iv) A budget narrative specifying and justifying the dollar amount requested for the travel;

(v) Summary credentials of the faculty or other professionals with whom the Fellow will be working during the international experience (summary credentials must not exceed three pages per person; “Summary Vita—Teaching Proposal” (Form CSRS–708) may be used for this purpose);

(vi) A letter from the dean of the Fellow’s college or equivalent administrative unit supporting the Fellow’s travel request and certifying that the travel experience will not jeopardize the Fellow’s satisfactory programs toward degree completion; and

(vii) A letter from the fellowship grant project director certifying the Fellow’s eligibility, the accuracy of the Fellow’s travel request, and the relevance of the travel to the Fellow’s advanced degree objectives.

(2) The narrative portion of the application must not exceed 10 pages, excluding the summary vita/vitae.

(f) All complete requests will be evaluated by professional staff from USDA or other Federal agencies, as appropriate. Evaluation criteria will be published in the program announcement in the Federal Register. Awards will be made to the extent possible based on availability of funds.

(g) Any current fellow with sufficient time to complete the international experience before the termination date of the grant under which he/she is supported is eligible for a special international study or thesis/dissertation research travel allowance. Before the international study or thesis/dissertation research travel may commence, a Fellow must have completed one academic year of full-time study, as defined by the institution, under the fellowship appointment and arrangements

256
must have been formalized for the Fellow to study and/or conduct research in the foreign location(s).

§ 3402.6 Fellowship appointments.

(a)(1) Fellows must be identified and fellowships must be awarded within 15 months of the effective date of a grant. Institutions failing to meet this deadline will be required to refund monies associated with any unawarded fellowship(s). Fellowship appointments may be held only by persons who enroll and pursue full-time study in a graduate degree program in the national need area and at the degree level supported by the grant.

(2) In addition, fellows:

(i) must be newly recruited;

(ii) must not have been enrolled previously in the academic program at the same degree level;

(iii) must be citizens of nationals of the United States as determined in accordance with Federal law; and

(iv) must have strong interest, as judged by the institution, in pursuing a degree in a targeted national need area and in preparing for a career as a food or agricultural scientist or professional.

(3) It will be the responsibility of the grantee institution to award fellowships to students of superior academic ability.

(4) A doctoral Fellow who maintains satisfactory progress in his or her course of study is eligible for support for a maximum of 36 months within a 45-month period. Master’s level Fellows, maintaining satisfactory progress, are eligible for support for a maximum of 24 months during a 33-month period. However, it is the intent of this program that Fellows pursue full-time uninterrupted study or thesis/dissertation research, including time spent pursuing USDA-funded special international study or thesis/dissertation research activities. For Fellows requiring additional time to complete a degree, it is expected that the institution will endeavor to continue supporting individuals originally appointed to fellowships through such other institutional means as teaching assistantships and research assistantships. For Fellows who complete the program of study early (less than 24 hours for Master’s degree or 36 months for doctoral degree), the institution must refund any unexpended monies to the granting agency.

(b) Within the framework of the regulations in this part, all decisions with respect to the appointment of Fellows will be made by the institution. However, institutions are urged to take maximum advantage of opportunities for awarding fellowships to members of underrepresented groups at the graduate level in the food and agricultural sciences, particularly minorities and women. Throughout a Fellow’s tenure, the institution should satisfy itself that the Fellow is making satisfactory academic progress, and carrying out, or planning to carry out, national needs related research. If an institution finds it necessary to terminate support of a Fellow for insufficient academic progress or by decision on the part of the Fellow, the Fellow becomes ineligible for future assistance under the program. If a Fellow finds it necessary to interrupt his or her program of study because of health, personal reasons, outside employment, or acceptance of an assistantship, the institution must reserve the funds for the purpose of allowing the Fellow to resume funded study any time within a 9-month period. However, a Fellow who finds it necessary to interrupt his or her program of study more than one time cannot exceed a total of 9 months’ cumulative leave status without forfeiting eligibility. For fellowships terminated because of insufficient academic progress, a decision on the part of the Fellow, or reserved due to an interrupted program of study but not resumed within the required time period, unexpended monies must be refunded. Institutions may not use unexpended monies associated with a terminated fellowship to recruit and support a “replacement” Fellow.

(c) Only Fellows enrolled in Master’s programs of study may be supported under a Master’s fellowship grant. Only Fellows enrolled in doctoral programs of study may be supported under a doctoral fellowship grant.

§ 3402.7 Fellowship activities.

A Fellow must be enrolled as a full-time graduate student, as defined by
§ 3402.8 Financial provisions.

The basis fellowship stipend, cost-of-education institutional allowance, and special international study or thesis/dissertation research travel allowance that may be paid from grant funds will be determined by HEP contingent upon appropriations. The amount of the stipend, cost-of-education institutional allowance, and special international study or thesis/dissertation research travel allowance will be cited in the program announcement in the FEDERAL REGISTER. An institution may elect to apply the cost-of-education institutional allowance to a Fellow’s tuition and fees; however, such is not required. The allowance also may be used by an institution to defray other program expenses (e.g., recruitment, travel, publications, or salaries of project personnel). Tuition and fees are the responsibility of the Fellow unless an institution elects to use its cost-of-education institutional allowance for this purpose or elects to pay such costs out of other non-USDA monies. No dependency allowances are provided for Fellows. Stipend payments and special international study or thesis/dissertation research travel allowances will be made to Fellows by the institution, according to standard institutional procedures for fellowships and assistantships.

Subpart C—Preparation of a Proposal

§ 3402.9 Application package.

An application package will be made available to any potential grant applicant upon request. This package will include all necessary forms and instructions to apply for a grant under this program. The package also includes the regulatory provisions applicable to the program.

§ 3402.10 Proposal cover page.

The Proposal Cover Page, Form CSRS-701, must be completed in its entirety including all authorizing signatures. One copy of each grant application must contain the original pen-and-ink signature of:

(a) The Project Director(s);
(b) The Authorized Certifying Representative for the college or equivalent administrative unit; and
(c) The Authorized Certifying Representative for the institution.

§ 3402.11 National need summary.

Using the National Need Summary, Form CSRS-702, applicants must summarize the proposed graduate program of study and the academic and research strengths of the institution in the national need area for which funding is requested. To the extent possible, applicants should emphasize the uniqueness of the proposed graduate program of study. The summary should not include any reference to the specific number of fellowships requested. The information on the summary page will be used in assigning the most appropriate panelists to review a proposal. If a proposal is supported, this page may be used in program publications.
§ 3402.12 National need narrative.

A narrative for the national need area should be written in five sections limited to no more than 20 pages, and preceded by a table of contents. The table of contents is not considered part of the 20-page limitation. The narrative should be typed on one side of the page only, using a font no smaller than 12 point, and double-spaced. The five sections to be included in the narrative are as follows:

Sec. 1. In this section, applicants should establish clearly that the proposed program of study and research will result in the development of outstanding expertise in the national need area for which funding is requested and will do so in a reasonable period of time. Applicants should present a detailed description of the proposed graduate program of study and research. This section of the narrative should contain, but need not be limited to, the following components:

(a) The plan should specifically address the course work which Fellows will be required to take rather than the overall spectrum of departmental offerings. Identify courses, summarize content, and discuss sequencing. Explain how course work will relate to Fellows’ research.

(b) Identify and describe areas of research that Fellows will be encouraged to engage in via a thesis or dissertation.

(c) Discuss graduate program examination requirements, such as a proficiency or qualifying examination, a comprehensive examination, and an oral examination.

(d) Include a projected timetable for completing the proposed graduate program of study and research.

(e) If admission to a proposed doctoral program does not require a Master’s degree, discuss how institutional procedures allow for the bypass of a Master’s degree.

Sec. 2. In this section, applicants should highlight thoroughly any special features of the graduate program such as the extent to which it will involve an inter-disciplinary, multi-disciplinary, or cross-disciplinary approach resulting in the development of expertise transcending a single discipline. Applicants should also discuss any other special features such as development of an unusual collateral specialization in a related discipline, experiential learning opportunities such as practicums or internships, unique mentoring programs, seminars, or a multi-university collaborative approach.

Sec. 3. In this section, applicants should substantiate clearly the institution’s position that it presently provides a major, productive, and recognized program of graduate study and research at the level(s) of study in the area of national need in which selected Fellows would be engaged. Applicants should include evidence of the quality of existing academic attributes and resources of the institution such as teaching and research faculty, instructional and research instrumentation and facilities, library resources, computing resources, and other such indicators of academic quality. Also, applicants should discuss the extent to which graduate students have access to such institutional resources.

Sec. 4. In this section, applicants should document thoroughly the institution’s plans and procedures for managing fellowship appointments. Applicants should explain in-depth the plan for recruiting academically outstanding Fellows and procedures for selecting Fellows of superior quality who appear to be highly motivated to prepare for and pursue a career as a food or agricultural scientist or professional. In addition, applicants should cite specific plans for advising and guiding Fellows through a program of study, as well as any special programs or activities that will be offered to enrich the Fellows’ graduate study. Particular attention should be given to the plans and procedures for recruiting and retaining members of underrepresented groups.

Sec. 5. In this section, applicants should include important supplementary summary data for the institution relevant to the national need area for which funding is requested. Examples of appropriate data are indices of student quality, enrollments and degrees awarded for recent years, placement of graduates, facilities, faculty research support, and publications of previous graduate students. To the extent possible, applicants should present the supplementary summary data in tabular form.

§ 3402.13 Budget.

Applicants must prepare the Proposal Budget, Form CSRS-703, identifying all costs associated with the proposal. Instructions for completing the “Proposal Budget” are provided on the form. Pagination for the budget page should be continuous following the national need narrative and so indicated in the table of contents.

§ 3402.14 Faculty vitae.

This section should include a Summary Vita, Form CSRS-708, for each faculty member contributing significantly to institutional competence at the level of graduate study for the national area addressed in the proposal. Applicants should arrange the faculty vitae with the project director(s) first, followed by the remaining faculty, in alphabetical order. Pagination for the
faculty vitae should be continuous following the budget page and so indicated in the table of contents.

§ 3402.15 Appendix.

Any additional supporting information deemed essential for clarifying and/or strengthening the proposal should be included in an Appendix and referenced in the national need narrative. To the extent possible, applicants should present supporting information included in the Appendix in tabular form. Pagination for the Appendix should be continuous following the faculty vitae and so indicated in the table of contents.

Subpart D—Submission of a Proposal

§ 3402.16 Intent to submit a proposal.

To assist HEP in preparing for review of fellowship proposals, institutions planning to submit proposals for fellowships may be requested to complete and return an Intent to Submit a Proposal form (Form CSRS-706). When required, applicants should complete and return one form for each proposal they anticipate submitting. Sending this form does not commit an institution to any course of action. The program announcement published in the FEDERAL REGISTER will delineate if, when, and where the Intent to Submit a Proposal Forms should be sent.

Subpart E—Proposal Review and Evaluation

§ 3402.17 Where to submit a proposal.

The program announcement published in the FEDERAL REGISTER will delineate the date for submission of proposals and the number of proposal copies required to apply for a grant. In addition, the program announcement will provide the address to which the proposal, its accompanying duplicate copies, and the institution's latest graduate catalog should be mailed.

§ 3402.18 Proposal review.

The proposal evaluation process includes both USDA internal staff review and merit evaluation by panels of scientists, educators, industrialists, and Government officials who are highly qualified to render expert advice in the targeted areas. The goal of the process of selection and structuring of evaluation panels is to provide optimum expertise and objective judgment in the evaluation of proposals specific to a particular area of national need.

§ 3402.19 Evaluation criteria.

Proposals addressing a particular national need area at a particular degree level will be evaluated in competition with other proposals addressing the same national need area at the same degree level. Both USDA internal staff and the panelists will evaluate proposals primarily on the basis of the following criteria:

<table>
<thead>
<tr>
<th>Evaluation criterion</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. The degree to which the proposal establishes clearly that the proposed program of graduate study will result in the development of outstanding scientific/professional expertise related to the national need area and will do so in a reasonable period of time.</td>
<td>30 points.</td>
</tr>
<tr>
<td>b. The degree to which the proposal highlights thoroughly any special features such as an inter-disciplinary, multi-disciplinary, or cross-disciplinary approach, an unusual collateral specialization in a related discipline, experiential learning opportunities, unique mentoring programs, seminars, or a multi-university collaborative approach.</td>
<td>10 points.</td>
</tr>
<tr>
<td>c. The degree to which the proposal substantiates clearly that the institution’s faculty, facilities and equipment, instructional support resources, and other academic attributes are excellent for providing outstanding graduate study and research at the forefront of science and technology related to the chosen area of national need.</td>
<td>20 points.</td>
</tr>
<tr>
<td>d. The degree to which the institution’s plans and procedures for recruiting and selecting academically outstanding Fellows and for advising and guiding Fellows through a program of study reflect excellence as documented in the proposal.</td>
<td>20 points.</td>
</tr>
<tr>
<td>e. The degree to which supplementary summary data substantiate program quality in the targeted national need area.</td>
<td>10 points.</td>
</tr>
<tr>
<td>f. The quality of the proposal as reflected by its substantive content, organization, clarity, and accuracy.</td>
<td>10 points.</td>
</tr>
</tbody>
</table>
Additional or amended evaluation criteria and new point weightings may be cited in the program announcement published in the Federal Register.

Subpart F—Supplementary Information

§ 3402.20 Terms and conditions of grant awards.

Within the limit of funds available for such purpose, the awarding official shall make project grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced program areas under the evaluation criteria and procedures set forth in this part. The beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved for support. All funds granted under this part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department’s Uniform Federal Assistance Regulations (7 CFR Part 3015).

§ 3402.21 Grant awards.

(a) The grant award document shall include, at a minimum, the following:

(1) Legal name and address of performing organization.

(2) Title of project.

(3) Name(s) and address(es) of Project Director(s).

(4) Identifying grant number assigned by the Department.

(5) Project period, which specifies how long the Department intends to support the effort without requiring reapplication for funds.

(6) Total amount of Federal financial assistance approved during the project period.

(7) Legal authority under which the grant is awarded.

(8) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the grant award.

(9) Other information or provisions deemed necessary by the Department to carry out its granting activities or to accomplish the purpose of this particular project grant.

(b) The notice of grant award, in the form of a letter, will provide pertinent instructions and information to the grantee that are not included in the grant award document described above.

(c) The major types of grant instruments shall be as follows:

(1) New grant. This is a grant instrument by which HEP agrees to support a specified number of graduate Fellows at a specific institution via funds for fixed graduate student stipends and fixed cost-of-education institutional allowances. This type of grant is approved on the basis of peer review recommendation.

(2) Supplemental grant. This is an instrument by which HEP agrees to provide additional funding under a new grant as specified in paragraph (c)(1) of this section to provide special international study or thesis/dissertation research travel allowances for graduate Fellows. This type of grant will not require additional peer review.

§ 3402.22 Other Federal statutes and regulations that apply.

Several other Federal regulations or statutes apply to project grants awarded under this part. These include but are not limited to:

7 CFR Part 15, Subpart A—USDA implementation of Title IV of the Civil Rights Act of 1964.

7 CFR Part 3015—USDA Uniform Federal Assistance Regulations, as amended, implementing OMB directives (i.e., Circular Nos. A-110 and A-21), as well as general policy requirements applicable to recipients of Departmental financial assistance.

7 CFR Part 3017, as amended—USDA implementation of Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants), as amended.

7 CFR Part 3018—USDA implementation of New Restrictions on Lobbying. Imposes new prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans.

7 CFR Part 3051—USDA implementation of OMB Circular No. A-133 regarding audits of...
§ 3402.23 Confidential aspects of proposals and awards.

When a proposal results in a grant, it becomes a part of the record of the Agency's transactions, available to the public upon specific request. Information that the Agency and the grantee mutually agree to be of a privileged nature will be held in confidence to the extent permitted by law. Therefore, any information that the applicant wishes to have considered as privileged should be clearly marked as such and sent in a separate statement, two copies of which should accompany the proposal. The original copy of a proposal that does not result in a grant will be retained by the Agency for a period of one year. Other copies will be destroyed. Such a proposal will be released only with the consent of the applicant or to the extent required by law. A proposal may be withdrawn at any time prior to the final action thereon.

§ 3402.24 Access to peer review information.

After final decisions have been announced, HEP will, upon request, inform the project director of the reasons for its decision on a proposal. Verbatim copies of summary reviews, not including the identity of the reviewers, will be made available to respective project directors upon specific request.

§ 3402.25 Documentation of progress on funded projects.

(a) A Fellowship Appointment Documentation form (Form CSRS-707) is included in the application package. Upon request by HEP, project directors awarded grants under the program will be required to complete and submit this form. Follow-up progress reports will focus on assessing continuing progress of Fellows through their graduate programs of study (including activities supported by any special international study or thesis/dissertation research allowance) and on institution adherence to program guidelines.

(b) A Graduate Fellow Exit Report (Form CSRS-709) is included in the application package. This form should be completed and submitted to HEP by the project director for each Fellow supported by a grant as soon as a Fellow either: graduates; is officially terminated from the fellowship or the academic program due to unsatisfactory academic progress; or voluntarily withdraws from the fellowship or the academic program. If a Fellow has not completed all degree requirements at the end of the five-year grant duration, HEP may request a preliminary exit report. In such a case, a final exit report will be required at a later date. When a final exit report for each Fellow supported by a grant has been accepted by USDA, the grantee institution will have satisfied the requirement of a final performance report for the grant. Additional follow-up reports to track the Fellows' career patterns may be requested.

(c) A Final Report must be completed and returned within 90 days after the expiration date of the project. The Final Report must be submitted to the program contact person and must contain proper data and information as specified in the “Special Terms and Conditions” of the award. Generally, the Final Report should include a summary of: recruitment strategies that were effective; successful mentoring procedures or activities; enrichment activities the fellows were afforded; barriers faced in recruiting and graduating fellows; and the impact of the fellowship grant on the overall quality of the educational programs of the institution.

§ 3402.26 Evaluation of program.

Grantees should be aware that HEP may, as a part of its own program evaluation activities, carry out in-depth evaluations of assisted activities through independent third parties.
Thus, grantees should be prepared to cooperate with evaluators retained by HEP to analyze both the institutional context and the impact of any supported project.

PART 3403—SMALL BUSINESS INNOVATION RESEARCH GRANTS PROGRAM

Subpart A—General Information

Sec. 3403.1 Applicability of regulations.
3403.2 Definitions.
3403.3 Eligibility requirements.

Subpart B—Program Description

3403.4 Three-phase program.

3403.10 Proposal review
3403.11 Availability of information.

Subpart E—Supplementary Information

3403.12 Terms and conditions of grant awards
3403.13 Notice of grant awards.
3403.14 Use of funds; changes.
3403.15 Other Federal statutes and regulations that apply.
3403.16 Other conditions.

SOURCE: 62 FR 26168, May 12, 1997, unless otherwise noted.

Subpart A—General Information

§ 3403.2 Definitions.

As used in this part:
Ad hoc reviewers means experts or consultants, qualified by training and experience in particular scientific or technical fields to render expert advice on the scientific or technical merit of grant applications in those fields, who review on an individual basis one or several of the eligible proposals submitted to this program in their area of expertise and who submit to the Department written evaluations of such proposals.

Awarding official means any officer or employee of the Department who has the authority to issue or modify research project grant instruments on behalf of the Department.
§ 3403.2

Budget period means the interval of time into which the project period is divided for budgetary and reporting purposes.

Commercialization means the process of developing markets and producing and delivering products or services for sale (whether by the originating party or by others); as used here, commercialization includes both government and commercial markets.

Department means the Department of Agriculture.

Funding agreement is any contract, grant, or cooperative agreement entered into between any Federal agency and any small business concern for the performance of experimental, developmental, or research work funded in whole or in part by the Federal Government.

Grantee means the small business concern designated in the grant award document as the responsible legal entity to whom a grant is awarded under this part.

Peer review group means experts or consultants, qualified by training and experience in particular scientific or technical fields to give expert advice on the scientific and technical merit of grant applications in those fields, who assemble as a group to discuss and evaluate all of the eligible proposals submitted to this program in their area of expertise.

Principal investigator means a single individual designated by the grantee in the grant application and approved by the Department who is responsible for the scientific or technical direction of the project. Therefore, the individual should have a scientific and technical background.

Program solicitation is a formal request for proposals whereby an agency notifies the small business community of its research or research and development needs and interests in selected areas and invites proposals from small business concerns in response to those needs.

Project means the particular activity within the scope of one of the research topic areas identified in the annual solicitation of applications, which is supported by a grant award under this part.

Project period means the total length of time that is approved by the Department for conducting the research project as outlined in an approved grant application.

Research or research and development (R&D) means any activity which is:

1. A systematic, intensive study directed toward greater knowledge or understanding of the subject studied;
2. A systematic study directed specifically toward applying new knowledge to meet a recognized need; or
3. A systematic application of knowledge toward the production of useful materials, devices, and systems or methods, including design, development, and improvement of prototypes and new processes to meet specific requirements.

Research project grant means the award by the Department of funds to a grantee to assist in meeting the costs of conducting for the benefit of the public an identified project which is intended and designed to establish, discover, elucidate, or confirm information or the underlying mechanisms relating to a research topic area identified in the annual solicitation of applications.

Small business concern means a concern which at the time of award of phase I and phase II funding agreements meets the following criteria:

1. Is organized for profit, independently owned or operated, is not dominant in the field in which it is proposing, has its principal place of business located in the United States, has a number of employees not exceeding 500 (full-time, part-time, temporary, or other) in all affiliated concerns owned or controlled by a single parent concern, and meets the other regulatory requirements outlined in 13 CFR Part 121. Business concerns, other than licensed investment companies, or State development companies qualifying under the Small Business Investment Act of 1958, 15 U.S.C. 661, et seq., are affiliates of one another when directly or indirectly one concern controls or has the power to control the other or third parties (or party) control or have the power to control both. Control can be exercised through common ownership, common management, and contractual relationships. The term “affiliates” is
§ 3403.3 Eligibility requirements.

(a) Eligibility of organization. (1) Each organization submitting a proposal must qualify as a small business concern for research purposes, as defined in §3403.2. Joint ventures and limited partnerships are eligible to apply for and to receive research grants under this program, provided that the entity created qualifies as a small business concern in accordance with section 2(3) of the Small Business Act (15 U.S.C. 632) and as defined in §3403.2. For both phase I and phase II the research must be performed in the United States.

(2) A minimum of two-thirds of the research or analytical work, as determined by budget expenditures, must be conducted by the proposing organization. For phase II, a minimum of one-half of the research or analytical effort must be conducted by the proposing organization. The space used by the SBIR awardee to conduct the research must be space over which it has exclusive control for the period of the grant.

(b) Eligibility of principal investigator. (1) It is strongly suggested that the individual responsible for the scientific or technical direction of the project be designated as the principal investigator. In addition, the primary employment of the principal investigator must be with the proposing small business concern at the time of award and during the conduct of the proposed research. Primary employment means that more than one-half of the principal investigator’s time is spent in the employ of the small business concern. Primary employment with the small business applicant precludes full-time employment with another organization.

(2) If the proposed principal investigator is employed by another organization (e.g., university or another company) at the time of submission of the application, documentation must be submitted with the proposal from the principal investigator’s current employer verifying that, in the event of an SBIR award, he/she will become a
Subpart B—Program Description

§ 3403.4 Three-phase program.

The Small Business Innovation Research Grants Program will be carried out in three separate phases described in this section. The first two phases are designed to assist USDA in meeting its research and development objectives and will be supported with SBIR funds. The purpose of the third phase is to pursue the commercial applications or objectives of the research carried out in phases I and II through the use of private or Federal non-SBIR funds.

(a) Phase I is the initial stage in which the scientific and technical merit and feasibility of an idea related to one of the research areas described in the program solicitation is evaluated, normally for a period not to exceed 6 months. In special cases, however, where a proposed research project requires more than 6 months to complete, a longer grant period may be considered. A proposer of a phase I project with an anticipated duration beyond 6 months should specify the length and duration in the proposal at the time of its submission to USDA in order for it to be considered at the time of award. (See § 3403.14(c) for changes in project period subsequent to award).

(b) Phase II is the principal research or research and development effort in which the results from Phase I are expanded upon and further pursued, normally for a period not to exceed 24 months. Only those small businesses previously receiving phase I awards are eligible to submit phase II proposals. For each phase I project funded the awardee may apply for a phase II award only once. Phase I awardees who for valid reasons cannot apply for phase II support in the next fiscal year funding cycle may apply for support not later than the second fiscal year funding cycle.

(c) Phase III is to stimulate technological innovation and the national return on investment from research through the pursuit of commercial objectives resulting from the work supported by SBIR funding carried out in phases I and II. This portion of the project is performed by the small business concern and privately funded or Federally funded by a non-SBIR source through the use of a follow-on funding commitment. A follow-on funding commitment is an agreement between the small business concern and a provider of follow-on capital for a specified amount of funds to be made available to the small business concern for further development of their effort upon achieving certain mutually agreed upon technical objectives during phase II.

Subpart C—Preparation and Submission of Proposals

§ 3403.5 Requests for proposals.

(a) Phase I. A program solicitation requesting phase I proposals will be prepared each fiscal year in which funds are made available for this purpose. The solicitation will contain information sufficient to enable eligible applicants to prepare grant proposals and will include descriptions of specific research topic areas which the Department will support during the fiscal year involved, forms to be completed and submitted with proposals, and special requirements. A notice will be published in the Federal Register informing the public of the availability of the program solicitation.

(b) Phase II. For each fiscal year in which funds are made available for this purpose, the Department will send a letter requesting phase II proposals from the phase I grantees eligible to apply for phase II funding in that fiscal year. The letter will be accompanied by the solicitation which contains information sufficient to enable eligible applicants to prepare grant proposals and includes forms to be submitted with proposals as well as special requirements.

§ 3403.6 General content of proposals.

(a) The proposed research must be responsive to one of the USDA program interests stated in the research topic descriptions of the program solicitation.
(b) Proposals must cover only scientific/technological research activities. A small business concern must not propose product development, technical assistance, demonstration projects, classified research, or patent applications. Many of the research projects supported by the SBIR program lead to the development of new products based upon the research results obtained during the project. However, projects that seek funding solely for product development where no research is involved, i.e., the funds are needed to permit the development of a project based on previously completed research, will not be accepted. Literature surveys should be conducted prior to preparing proposals for submission and must not be proposed as a part of the SBIR phase I or phase II effort. Proposals principally for the development of proven concepts toward commercialization or for market research should not be submitted since such efforts are considered the responsibility of the private sector and therefore are not supported by USDA.

(c) A proposal must be limited to only one topic. The same proposal may not be submitted under more than one topic. However, an organization may submit separate proposals on the same topic. Where similar research is discussed under more than one topic, the proposer should choose that topic whose description appears most relevant to the proposer’s research concept. Duplicate proposals will be returned to the applicant without review.

(d) The limitation on the length of phase I and phase II proposals, text instructions, and the formatting instructions will be identified in the annual solicitation.

§ 3403.7 Proposal format for phase I applications.

(a) The following items relate to phase I applications. Further instructions or descriptions for these items as well as any additional items to be included will be provided in the annual solicitation, as necessary.

(1) Proposal cover sheet. Photocopy and complete Form CSREES-667 in the program solicitation. The original of the proposal cover sheet must at a minimum contain the pen-and-ink signatures of the proposed principal investigator(s) and the authorized organizational official.

(2) Project summary. Photocopy and complete Form CSREES-668 in the program solicitation. The technical abstract should include a brief description of the problem or opportunity, project objectives, and a description of the effort. Anticipated results and potential commercial applications of the proposed research also should be summarized in the space provided. Key words, to be provided in the last block on the page, should characterize the most important aspects of the project. The project summary of successful proposals may be published by USDA and, therefore, should not contain proprietary information.

(3) Technical content. The main body of the proposal should include:

(i) Identification and significance of the problem or opportunity.
(ii) Background and rationale.
(iii) Relationship with future research or research and development.
(iv) Phase I technical objectives.
(v) Phase I work plan.
(vi) Related research or research and development.

(4) Key personnel and bibliography. Identify key personnel involved in the effort, including information on their directly related education and experience.

(5) Facilities and equipment. Describe the types, location, and availability of instrumentation and physical facilities necessary to carry out the work proposed. Items of equipment to be purchased must be fully justified under this section.

(6) Consultants. Involvement of university or other consultants in the planning and research stages of the project is permitted and may be particularly helpful to small firms which have not previously received Federal research awards. If such involvement is intended, it should be described in detail.

(7) Potential post application. Briefly describe:

(i) Whether and by what means the proposed research appears to have potential commercial application;
(ii) Whether and by what means the proposed research appears to have potential use by the Federal Government; and

(iii) Whether and by what means the proposed research will satisfy the public interest.

(8) Current and pending support. If a proposal, substantially the same as the one being submitted, has been previously funded or is currently funded, pending, or about to be submitted to another Federal agency or to USDA in a separate action, the proposer must provide the following information:

(i) Name and address of the agency(s) to which a proposal was submitted, or will be submitted, or from which an award is expected or has been received.

(ii) Date of actual or anticipated proposal submission or date of award, as appropriate.

(iii) Title of proposal or award, identifying number assigned by the agency involved, and the date of program solicitation under which the proposal was submitted or the award was received.

(iv) Applicable research topic area for each proposal submitted or award received.

(v) Title of research project.

(vi) Name and title of principal investigator for each proposal submitted or award received. USDA will not make awards that duplicate research funded (or to be funded) by other Federal agencies.

(9) Cost breakdown on proposal budget. Photocopy and complete the budget form in the program solicitation only for the phase under which you are currently applying. (An applicant for phase I funding should not submit both phase I and II budgets.)

(10) Research involving special considerations. If the proposed research will involve recombinant DNA molecules, human subjects at risk, or laboratory animal care, the proposal must so indicate and include an assurance statement (Form CSREES-662) as the last page of the proposal. The original of the assurance statement must at a minimum contain the pen-and-ink signature of the authorized organizational official. In order to complete the assurance statement, the proposer may be required to have the research plan reviewed and approved by an appropriate "Institutional Review Board" (IRB) prior to commencing actual substantive work. If an IRB review is required, USDA will not release funds for an award until proper documentation of the IRB approval is submitted to and accepted by USDA. It is suggested that proposers contact local universities, colleges, or nonprofit research organizations which have established such reviewing mechanisms to have this service performed.

(11) Proprietary information. (i) If a proposal contains proprietary information that constitutes a trade secret, proprietary commercial or financial information, confidential personal information, or data affecting the national security, it will be treated in confidence to the extent permitted by law, provided the information is clearly marked by the proposer with the term "confidential proprietary information" and provided the following legend appears in the designated area at the bottom of the proposal cover sheet (Form CSREES-667):

The following pages (specify) contain proprietary information which (name of proposing organization) requests not be released to persons outside the Government, except for purposes of evaluation.

(ii) USDA by law is required to make the final decision as to whether the information is required to be kept in confidence. Information contained in unsuccessful proposals will remain the property of the proposer. However, USDA will retain for one year one file copy of all proposals received; extra copies will be destroyed. Public release of information for any proposal submitted will be subject to existing statutory and regulatory requirements. Any proposal which is funded will be considered an integral part of the award and normally will be made available to the public upon request except for designated proprietary information that is determined by USDA to be proprietary information.

(iii) The inclusion of proprietary information is discouraged unless it is necessary for the proper evaluation of the proposal. If proprietary information is to be included, it should be limited, set apart from other text on a separate page, and keyed to the text by numbers. It should be confined to a few
critical technical items which, if disclosed, could jeopardize the obtaining of foreign or domestic patents. Trade secrets, salaries, or other information which could jeopardize commercial competitiveness should be similarly keyed and presented on a separate page. Proposals or reports which attempt to restrict dissemination of large amounts of information may be found unacceptable by USDA. Any other legend than that listed in paragraph (a)(11)(i) of this section may be unacceptable to USDA and may constitute grounds for return of the proposal without further consideration. Without assuming any liability for inadvertent disclosure, USDA will limit dissemination of such information to its employees and, where necessary for the evaluation of the proposal, to outside reviewers on a confidential basis.

(12) Rights in data developed under SBIR funding agreement. The SBIR legislation provides for "retention of rights in data generated in the performance of the contract by the small business concern."

(i) The legislative history clarifies that the intent of the statute is to provide authority for the participating agency to protect technical data generated under the funding agreement, and to refrain from disclosing such data to competitors of the small business concern or from using the information to produce future technical procurement specifications that could harm the small business concern that discovered and developed the innovation until the small business concern has a reasonable chance to seek patent protection, if appropriate.

(ii) Therefore, except for program evaluation, participating agencies shall protect such technical data for a period of not less than 4 years from the completion of the project from which the data were generated unless the agencies obtain permission to disclose such data from the contractor or grantee. The government shall retain a royalty-free license for government use of any technical data delivered under an SBIR funding agreement whether patented or not.

(13) Organizational management information. Before the award of an SBIR funding agreement, USDA requires the submission of certain organizational management, personnel and financial information to assure the responsibility of the proposer. This information is not required unless a project is recommended for funding, and then it is submitted on a onetime basis only. However, new information should be submitted if a small business concern has undergone significant changes in organization, personnel, finance, or policies including those relating to civil rights.

(b) [Reserved]
§ 3403.9 Submission of proposals.

The program solicitation for phase I proposals and the letter requesting phase II proposals will provide the deadline date for submitting proposals, the number of copies to be submitted, and the address where proposals should be mailed or delivered.

Subpart D—Proposal Review and Evaluation

§ 3403.10 Proposal review.

(a) All research grant applications will be acknowledged.

(b) Phase I and phase II proposals will be judged competitively in a two-stage process, based primarily upon scientific or technical merit. First, each proposal will be screened by USDA scientists to ensure that it is responsive to stated requirements contained in the program solicitation. Proposals found to be responsive will be technically evaluated by peer scientists knowledgeable in the appropriate scientific field using the criteria identified in the annual solicitation, as appropriate. Proposals found to be non-responsive will be returned to the proposing firm without review.

(c) Both internal and external peer reviewers may be used during the technical evaluation stage of this process. Selections will be made from among recognized specialists who are uniquely qualified by training and experience in their respective fields to render expert advice on the merit of proposals received. It is anticipated that such experts will include those located in universities, Government, and non-profit research organizations. If possible, USDA intends that peer review groups shall be balanced with minority and female representation and with an equitable age distribution.

(d) Technical reviewers will base their conclusions and recommendations on information contained in the phase I or phase II proposal. It cannot be assumed that reviewers are acquainted with any experiments referred to within a proposal, with key individuals, or with the firm itself. Therefore, the proposal should be self-contained and written with the care and thoroughness accorded papers for publication.

(e) Final decisions will be made by USDA based upon the ratings assigned by reviewers and consideration of other factors, including the potential commercial application, possible duplication of other research, any critical USDA requirement, and budget limitation. In addition, the follow-on funding commitment will be a consideration for phase II proposals. In the event that two or more phase II proposals are of approximately equal technical merit, the follow-on funding commitment for continued development in phase III will be an important consideration. The value of the commitment will depend upon the degree of commitment made by non-Federal investors, with the maximum value resulting from a signed agreement with reasonable terms for an amount at least equal to the funding requested from USDA in phase II.

§ 3403.11 Availability of information.

Information regarding the peer review process will be made available to the extent permitted under the Freedom of Information Act (5 U.S.C. 552), the Privacy Act (5 U.S.C. 552a), the
SBIR Policy Directive, and implementing Departmental and other Federal regulations. Implementing Departmental regulations are found at 7 CFR part 1.

Subpart E—Supplementary Information

§ 3403.12 Terms and conditions of grant awards.
Within the limit of funds available for such purpose, the awarding official shall make research project grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced program areas under the evaluation criteria and procedures set forth in the annual solicitation. The beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved for support. All funds granted under this part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the Federal Acquisition Regulation (48 CFR part 31), and the Department’s Uniform Federal Assistance Regulations (7 CFR part 3015).

§ 3403.13 Notice of grant awards.
(a) The grant award document shall include, at a minimum, the following:
(1) Legal name and address of performing organization.
(2) Title of project.
(3) Name(s) and address(es) of the Principal Investigator(s).
(4) Identifying grant number assigned by the Department.
(5) Project period, which specifies how long the Department intends to support the effort.
(6) Total amount of Federal financial assistance approved for the project period.
(7) Legal authorities under which the grant is awarded.
(8) Approved budget plan for categorizing project funds to accomplish the stated purpose of the grant award.
(9) Other information or provisions deemed necessary by the Department to carry out its granting activities or to accomplish the purpose of a particular research project grant.

(b) The notice of grant award, in the form of a letter, will provide pertinent instructions and information to the grantee which are not included in the grant award document described in paragraph (a) of this section.

§ 3403.14 Use of funds; changes.
(a) Delegation of fiscal responsibility. The grantee may not in whole or in part delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of grant funds.

(b) Change in project plans. (1) The permissible changes by the grantee, principal investigator(s), or other key project personnel in the approved research project grant shall be limited to changes in methodology, techniques, or other aspects of the project to expedite achievement of the project’s approved goals. If the grantee and/or the principal investigator(s) are uncertain as to whether a change complies with this paragraph, the question must be referred to the Authorized Departmental Officer (ADO) for a final determination.

(2) Changes in approved goals, or objectives, shall be requested by the grantee and approved in writing by the ADO prior to effecting such changes. In no event shall requests for such changes be approved which are outside the scope of the original approved project.

(3) Changes in approved project leadership or the replacement or reassignment of other key project personnel shall be requested by the grantee and approved in writing by the ADO prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the grantee and approved in writing by the ADO prior to effecting such transfers.

(c) Changes in project period. The project period may be extended by the ADO to complete or fulfill the purposes of an approved project provided Federal funds remain. The extension shall be conditioned upon a prior request by
§ 3403.15  Other Federal statutes and regulations that apply.

Several other Federal statutes and/or regulations apply to grant proposals considered for review or to research project grants awarded under this part. These include but are not limited to:

7 CFR Part 15, Subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964, as amended.
7 CFR Part 3017, as amended—USDA implementation of Government-wide Debarment and Suspension (Nonprocurement) and Government-wide Requirements for Drug-free Workplace (Grants), as amended.
7 CFR Part 3018—USDA implementation of New Restrictions on Lobbying. Imposes new prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans.
7 CFR Part 3407—CSREES procedures to implement the National Environmental Policy Act.
9 CFR Parts 1, 2, 3, and 4—USDA implementation of the Act of August 24, 1966, Public Law 89-544, as amended (commonly known as the Laboratory Animal Welfare Act).
29 U.S.C. 794, section 504—Rehabilitation Act of 1973, and 7 CFR Part 15B (USDA implementation of statute), prohibiting discrimination based upon physical or mental handicap in Federally assisted programs.
35 U.S.C. 200 et seq.—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR Part 401).

§ 3403.16  Other conditions.

The Department may, with respect to any research project grant, impose additional conditions prior to or at the time of any award when, in the Department's judgment, such conditions are necessary to assure or protect advancement of the approved project, the interests of the public, or the conservation of grant funds.
§ 3404.2 Public inspection, copying, and indexing.

§ 3404.3 Requests for records.

§ 3404.4 Denials.

§ 3404.5 Appeals.

Authority: 5 U.S.C. 301, 552; 7 CFR part 1, subpart A.

Source: 60 FR 66862, Dec. 27, 1995, unless otherwise noted.

§ 3404.1 General statement.

This part is issued in accordance with the regulations of the Secretary of Agriculture in part 1, subpart A of this title, implementing the Freedom of Information Act (FOIA) (5 U.S.C. 552). The Secretary’s regulations, as implemented by the regulations in this part, govern the availability of records of the Cooperative State Research, Education, and Extension Service to the public.

§ 3404.2 Public inspection, copying, and indexing.

5 U.S.C. 552(a)(2) requires that certain materials be made available for public inspection and copying and that a current index of these materials be published quarterly or otherwise be made available. Members of the public may request access to such materials maintained by CSREES at the following office: Information Staff, Agricultural Research Service, USDA, 6303 Ivy Lane, Room 456, Greenbelt, MD 20770; Telephone (301) 344-2207; Office hours are 8:00 a.m. to 4:30 p.m.

§ 3404.3 Requests for records.

Requests for records of CSREES under 5 U.S.C. 552(a)(3) shall be made in accordance with §1.6 of this title and submitted to the FOIA Coordinator at the following address: Information Staff, Agricultural Research Service, USDA, 6303 Ivy Lane, Room 456, Greenbelt, MD 20770; Telephone (301) 344-2207; Facsimile (301) 344-2325; TDD (301) 344-2435. The FOIA Coordinator is delegated authority to make determinations regarding such requests in accordance with §1.3(a)(3) of this title.

§ 3404.4 Denials.

If the FOIA Coordinator determines that a requested record is exempt from mandatory disclosure and that discretionary release would be improper, the FOIA Coordinator shall give written notice of denial in accordance with §1.8(a) of this title.

§ 3404.5 Appeals.

Any person whose request is denied shall have the right to appeal such denial. Appeals shall be made in accordance with §1.6(e) of this title and should be addressed as follows: Administrator, Cooperative State Research, Education, and Extension Service, U.S. Department of Agriculture, Washington, DC 20250.

3405.22 Evaluation of program.
§ 3405.1

**AUTHORITY:** Sec. 1470, National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3316).

**SOURCE:** 62 FR 39317, July 22, 1997, unless otherwise noted.

**Subpart A—General Information**

§ 3405.1 Applicability of regulations.

(a) The regulations of this part only apply to competitive Higher Education Challenge Grants awarded under the provisions of section 1417(b)(1) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (NARETPA) (7 U.S.C. 3152(b)(1)), to strengthen institutional capacities, including curriculum, faculty, scientific instrumentation, instruction delivery systems, and student recruitment and retention. Section 1405 of NARETPA (7 U.S.C. 3121) designates the U.S. Department of Agriculture (USDA) as the lead Federal agency for agricultural research, extension, and teaching in the food and agricultural sciences. Section 1417 of NARETPA (7 U.S.C. 3152) authorizes the Secretary of Agriculture, who has delegated the authority to the Administrator of the Cooperative State Research, Education, and Extension Service (CSREES), to make competitive grants to land-grant colleges and universities, to colleges and universities having significant minority enrollments and a demonstrable capacity to carry out the teaching of food and agricultural sciences, and to other colleges and universities having a demonstrable capacity to carry out the teaching of food and agricultural sciences, for a period not to exceed 5 years, to administer and conduct programs to respond to identified State, regional, national, or international educational needs in the food and agricultural sciences.

(b) To the extent that funds are available, each year CSREES will publish a Federal Register notice announcing the program and soliciting grant applications.

(c)(1) Based on the amount of funds appropriated in any fiscal year, CSREES will determine and cite in the program announcement:

(i) The targeted need area(s) to be supported; the specific special interest(s) within that targeted need area to be supported;

(ii) The degree level(s) to be supported;

(iii) The maximum project period a proposal may request;

(iv) The maximum amount of funds that may be requested by an institution under a regular, complementary, or joint project proposal; and

(v) The maximum total funds that may be awarded to an institution under the program in a given fiscal year, including how funds awarded for complementary and for joint project proposals will be counted toward the institutional maximum.

(2) The program announcement will also specify the deadline date for proposal submission, the number of copies of each proposal that must be submitted, the address to which a proposal must be submitted, and whether or not Form CSREES-711, “Intent to Submit a Proposal,” is requested.

(d)(1) If it is deemed by CSREES that, for a given fiscal year, additional determinations are necessary, each, as relevant, will be stated in the program announcement. Such determinations may include:

(i) Limits on the subject matter/emphasis areas to be supported;

(ii) The maximum number of proposals that may be submitted on behalf of the same school, college, or equivalent administrative unit within an institution;

(iii) The maximum total number of proposals that may be submitted by an institution;

(iv) The minimum project period a proposal may request;

(v) The minimum amount of funds that may be requested by an institution under a regular, complementary, or joint project proposal;

(vi) The proportion of the appropriation reserved for, or available to, regular, complementary, and joint project proposals;

(vii) The proportion of the appropriation reserved for, or available to, projects in each announced targeted need area;

(viii) The proportion of the appropriation reserved for, or available to, each subject matter/emphasis area;
(ix) The maximum number of grants that may be awarded to an institution under the program in a given fiscal year; and
(x) Limits on the use of grant funds for travel or to purchase equipment, if any.
(2) The program announcement also will contain any other limitations deemed necessary by CSREES for proper conduct of the program in the applicable year.
(e) The regulations of this part do not apply to grants awarded by the Department of Agriculture under any other authority.

§ 3405.2 Definitions.
As used in this part:
(a) Authorized departmental officer means the Secretary or any employee of the Department who has the authority to issue or modify grant instruments on behalf of the Secretary.
(b) Authorized organizational representative means the president of the institution or the official, designated by the president of the institution, who has the authority to commit the resources of the institution.
(c) Budget period means the interval of time (usually 12 months) into which the project period is divided for budgetary and reporting purposes.
(d) Cash contributions means the applicant's cash outlay, including the outlay of money contributed to the applicant by non-Federal third parties.
(e) Citizen or national of the United States means:
(1) A citizen or native resident of a State; or,
(2) A person defined in the Immigration and Nationality Act, 8 U.S.C. 1101(a)(22), who, though not a citizen of the United States, owes permanent allegiance to the United States.
(f) College or University means an educational institution in any State which:
(1) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate;
(2) Is legally authorized within such State to provide a program of education beyond secondary education;
(3) Provides an educational program for which a baccalaureate degree or any other higher degree is awarded;
(4) Is a public or other nonprofit institution; and
(5) Is accredited by a nationally recognized accrediting agency or association.
(g) Complementary project proposal means a proposal for a project which involves coordination with one or more other projects for which funding was awarded under this program in a previous fiscal year, or for which funding is requested under this program in the current fiscal year.
(h) Department or USDA means the United States Department of Agriculture.
(i) Eligible institution means a land-grant or other U.S. college or university offering a baccalaureate or first professional degree in at least one discipline or area of the food and agricultural sciences. The definition includes a research foundation maintained by an eligible college or university.
(j) Eligible participant means, for purposes of §3405.6(b), Faculty Preparation and Enhancement for Teaching, and §3405.6(f), Student Recruitment and Retention, an individual who: Is a citizen or national of the United States, as defined in §3405.2(e); or is a citizen of the Federated States of Micronesia, the Republic of the Marshall Islands, or the Republic of Palau. Where eligibility is claimed under §3405.2(e)(2), documentary evidence from the Immigration and Naturalization Service as to such eligibility must be made available to CSREES upon request.
(k) Food and agricultural sciences means basic, applied, and developmental research, extension, and teaching activities in the food, agricultural, renewable natural resources, forestry, and physical and social sciences, in the broadest sense of these terms, including but not limited to, activities concerned with the production, processing, marketing, distribution, conservation, consumption, research, and development of food and agriculturally related products and services, and inclusive of programs in agriculture, natural resources, aquaculture, forestry, veterinary medicine, home economics, rural
§ 3405.3 Institutional eligibility.

Proposals may be submitted by land-grant and other U.S. colleges and universities offering a baccalaureate or first professional degree in at least one discipline or area of the food and agricultural sciences. Each applicant must have a demonstrable capacity for, and a significant ongoing commitment to, the teaching of food and agricultural sciences generally and to the specific development, and closely allied disciplines.

(I) Grantee means the eligible institution designated in the grant award document as the responsible legal entity to which a grant is awarded.

(m) Joint project proposal means a proposal for a project, which will involve the applicant institution and two or more other colleges, universities, community colleges, junior colleges, or other institutions, each of which will assume a major role in the conduct of the proposed project, and for which the applicant institution will transfer at least one-half of the awarded funds to the other institutions participating in the project. Only the applicant institution must meet the definition of "eligible institution" as specified in §3405.2(i); the other institutions participating in a joint project proposal are not required to meet the definition of "college" or "university" as specified in §3405.2(f).

(n) Land-grant colleges and universities means those institutions eligible to receive funds under the Act of July 2, 1862 (12 Stat. 503-505, as amended; 7 U.S.C. 301-305, 307 and 308), or the Act of August 30, 1890 (26 Stat. 417-419, as amended; 7 U.S.C. 321-326 and 328), including Tuskegee University.

(o) Matching or Cost-sharing means that portion of project costs not borne by the Federal Government, including the value of in-kind contributions.

(p) Peer review panel means a group of experts or consultants, qualified by training and experience in particular fields of science, education, or technology to give expert advice on the merit of grant applications in such fields, who evaluate eligible proposals submitted to this program in their personal area(s) of expertise.

(q) Prior approval means written approval evidencing prior consent by an authorized departmental officer as defined in §3405.2(a) of this part.

(r) Project means the particular activity within the scope of one or more of the targeted areas supported by a grant awarded under this program.

(s) Project director means the single individual designated by the grantee in the grant application and approved by the Secretary who is responsible for the direction and management of the project.

(t) Project period means the period, as stated in the award document and modifications thereto, if any, during which Federal sponsorship begins and ends.

(u) Secretary means the Secretary of Agriculture and any other officer or employee of the Department of Agriculture to whom the authority involved may be delegated.

(v) State means any one of the fifty States, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Virgin Islands of the United States, and the District of Columbia.

(w) Teaching means formal classroom instruction, laboratory instruction, and practicum experience in the food and agricultural sciences and matters related thereto (such as faculty development, student recruitment and services, curriculum development, instructional materials and equipment, and innovative teaching methodologies) conducted by colleges and universities offering baccalaureate or higher degree.

(x) Third party in-kind contributions means non-cash contributions of property or services provided by non-Federal third parties, including real property, equipment, supplies and other expendable property, directly benefiting and specifically identifiable to a funded project or program.

(y) United States means the several States, the territories and possessions of the United States, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Marianas, the Virgin Islands of the United States, and the District of Columbia.

§ 3405.3 Institutional eligibility.

Proposals may be submitted by land-grant and other U.S. colleges and universities offering a baccalaureate or first professional degree in at least one discipline or area of the food and agricultural sciences. Each applicant must have a demonstrable capacity for, and a significant ongoing commitment to, the teaching of food and agricultural sciences generally and to the specific
need and/or subject area(s) for which a grant is requested. Awards may be made only to eligible institutions as defined in §3405.2(i).

Subpart B—Program Description

§ 3405.4 Purpose of the program.

The Department of Agriculture is designated as the lead Federal agency for higher education in the food and agricultural sciences. In this context, CSREES has specific responsibility to initiate and support projects to strengthen college and university teaching programs in the food and agricultural sciences. One national initiative for carrying out this responsibility is the competitive Higher Education Challenge Grants Program. A primary goal of the program is to attract and ensure a continual flow of outstanding students into food and agricultural sciences higher education programs and to provide them with an education of the highest quality available anywhere in the world and which reflects the unique needs of the Nation. It is designed to stimulate and enable colleges and universities to provide the quality of education necessary to produce baccalaureate or higher degree level graduates capable of strengthening the Nation's food and agricultural scientific and professional work force. It is intended that projects supported by the program will:

(a) Address a State, regional, national, or international educational need;

(b) Involve a creative or nontraditional approach toward addressing that need which can serve as a model to others;

(c) Encourage and facilitate better working relationships in the university science and education community, as well as between universities and the private sector, to enhance program quality and supplement available resources; and

(d) Result in benefits which will likely transcend the project duration and USDA support.

§ 3405.5 Matching funds.

Each application must provide for matching support from a non-Federal source. CSREES will cite in the program announcement the required percentage of institutional cost sharing.

§ 3405.6 Scope of program.

This program supports projects related to strengthening undergraduate or graduate teaching programs as specified in the annual program announcement. Only proposals addressing one or more of the specific targeted need areas(1) identified in the program announcement will be funded. Proposals may focus on any subject matter area(s) in the food and agricultural sciences unless limited by determinations as specified in the annual program announcement. A proposal may address a single targeted need area or multiple targeted need areas, and may be focused on a single subject matter area or multiple subject matter areas, in any combination (e.g., curriculum development in horticulture; curriculum development, faculty enhancement, and student experiential learning in animal science; faculty enhancement in food science and agribusiness management; or instruction delivery systems and student experiential learning in plant science, horticulture, and entomology). Targeted need areas will consist of one or more of the following:

(a) Curricula design and materials development. (1) The purpose of this initiative is to promote new and improved curricula and materials to increase the quality of, and continuously renew, the Nation's academic programs in the food and agricultural sciences. The overall objective is to stimulate the development and facilitate the use of exemplary education models and materials that incorporate the most recent advances in subject matter, research on teaching and learning theory, and instructional technology. Proposals may emphasize: the development of courses of study, degree programs, and instructional materials; the use of new approaches to the study of traditional subjects; or the introduction of new subjects, or new applications of knowledge, pertaining to the food and agricultural sciences.

(2) Examples include, but are not limited to, curricula and materials that promote:
(i) Raising the level of scholastic achievement of the Nation’s graduates in the food and agricultural sciences.

(ii) Addressing the special needs of particular groups of students, such as minorities, gifted and talented, or those with educational backgrounds that warrant enrichment.

(iii) Using alternative instructional strategies or methodologies, including computer-assisted instruction or simulation modeling, media programs that reach large audiences efficiently and effectively, activities that provide hands-on learning experiences, and educational programs that extend learning beyond the classroom.

(iv) Using sound pedagogy, particularly with regard to recent research on how to motivate students to learn, retain, apply, and transfer knowledge, skills, and competencies.

(v) Building student competencies to integrate and synthesize knowledge from several disciplines.

(b) Faculty preparation and enhancement for teaching.

(1) The purpose of this initiative is to advance faculty development in the areas of teaching competency, subject matter expertise, or student recruitment and advising skills. Teachers are central to education. They serve as models, motivators, and mentors—the catalysts of the learning process. Moreover, teachers are agents for developing, replicating, and exchanging effective teaching materials and methods. For these reasons, education can be strengthened only when teachers are adequately prepared, highly motivated, and appropriately recognized and rewarded.

(2) Each faculty recipient of support for developmental activities under §3405.6(b) must be an "eligible participant" as defined in §3405.2(j) of this part.

(3) Examples of developmental activities include, but are not limited to:

(i) Gain experience with recent developments or innovative technology relevant to their teaching responsibilities.

(ii) Work under the guidance and direction of experts who have substantial expertise in an area related to the developmental goals of the project.

(iii) Work with scientists or professionals in government, industry, or other colleges or universities to learn new applications in a field.

(iv) Obtain personal experience working with new ideas and techniques.

(v) Expand competence with new methods of information delivery, such as computer-assisted or televised instruction.

(vi) Increase understanding of the special needs of non-traditional students or students from groups that are underrepresented in the food and agricultural sciences workforce.

(c) Instruction delivery systems. (1) The purpose of this initiative is to encourage the use of alternative methods of delivering instruction to enhance the quality, effectiveness, and cost efficiency of teaching programs. The importance of this initiative is evidenced by advances in educational research which have substantiated the theory that differences in the learning styles of students often require alternative instructional methodologies. Also, the rising costs of higher education strongly suggest that colleges and universities undertake more efforts of a collaborative nature in order to deliver instruction which maximizes program quality and reduces unnecessary duplication. At the same time, advances in knowledge and technology continue to introduce new subject matter areas which warrant consideration and implementation of innovative instruction techniques, methodologies, and delivery systems.

(2) Examples include, but are not limited to:

(i) Use of computers.

(ii) Teleconferencing.

(iii) Networking via satellite communications.

(iv) Regionalization of academic programs.

(v) Mobile classrooms and laboratories.

(vi) Individualized learning centers.

(vii) Symposia, forums, regional or national workshops, etc.

(d) Scientific instrumentation for teaching. (1) The purpose of this initiative is to provide students in science-oriented courses the necessary experience with suitable, up-to-date equipment in order...
to involve them in work central to scientific understanding and progress. This program initiative will support the acquisition of instructional laboratory and classroom equipment to assure the achievement and maintenance of outstanding food and agricultural sciences higher education programs. A proposal may request support for acquiring new, state-of-the-art instructional scientific equipment, upgrading existing equipment, or replacing non-functional or clearly obsolete equipment.

(2) Examples include, but are not limited to:
(i) Rental or purchase of modern instruments to improve student learning experiences in courses, laboratories, and field work.
(ii) Development of new ways of using instrumentation to extend instructional capabilities.
(iii) Establishment of equipment-sharing capability via consortia or centers that develop innovative opportunities, such as mobile laboratories or satellite access to industry or government laboratories.

(e) Student experiential learning. (1) The purpose of this initiative is to further the development of student scientific and professional competencies through experiential learning programs which provide students with opportunities to solve complex problems in the context of real-world situations. Effective experiential learning is essential in preparing future graduates to advance knowledge and technology, enhance quality of life, conserve resources, and revitalize the Nation's economic competitiveness. Such experiential learning opportunities are most effective when they serve to advance decision-making and communication skills as well as technological expertise.

(2) Examples include, but are not limited to, projects which:
(i) Provide opportunities for students to participate in research projects, either as a part of an ongoing research project or in a project designed especially for this program.
(ii) Provide opportunities for students to complete apprenticeships, internships, or similar participatory learning experiences.

(iii) Expand and enrich courses which are of a practicum nature.
(iv) Provide career mentoring experiences that link students with outstanding professionals.

(f) Student recruitment and retention.
(1) The purpose of this initiative is to strengthen student recruitment and retention programs in order to promote the future strength of the Nation's scientific and professional work force. The Nation's economic competitiveness and quality of life rest upon the availability of a cadre of outstanding research scientists, university faculty, and other professionals in the food and agricultural sciences. A substantial need exists to supplement efforts to attract increased numbers of academically outstanding students to prepare for careers as food and agricultural scientists and professionals. It is particularly important to augment the racial, ethnic, and gender diversity of the student body in order to promote a robust exchange of ideas and a more effective use of the full breadth of the Nation's intellectual resources.

(2) Each student recipient of monetary support for education costs or developmental purposes under § 3405.6(f) must be enrolled at an eligible institution and meet the requirement of an "eligible participant" as defined in § 3405.2(j) of this part.

(3) Examples include, but are not limited to:
(i) Special outreach programs for elementary and secondary students as well as parents, counselors, and the general public to broaden awareness of the extensive nature and diversity of career opportunities for graduates in the food and agricultural sciences.
(ii) Special activities and materials to establish more effective linkages with high school science classes.

(iii) Unique or innovative student recruitment activities, materials, and personnel.
(iv) Special retention programs to assure student progression through and completion of an educational program.
(v) Development and dissemination of stimulating career information materials.

(vi) Use of regional or national media to promote food and agricultural sciences higher education.
§ 3405.7

(vii) Providing financial incentives to enable and encourage students to pursue and complete an undergraduate or graduate degree in an area of the food and agricultural sciences.

(viii) Special recruitment programs to increase the participation of students from non-traditional or under-represented groups in courses of study in the food and agricultural sciences.

§ 3405.7 Joint project proposals.

Applicants are encouraged to submit joint project proposals as defined in §3405.2(m), which address regional or national problems and which will result overall in strengthening higher education in the food and agricultural sciences. The goals of such joint initiatives should include maximizing the use of limited resources by generating a critical mass of expertise and activity focused on a targeted need area(s), increasing cost-effectiveness through achieving economies of scale, strengthening the scope and quality of a project’s impact, and promoting coalition building likely to transcend the project’s lifetime and lead to future ventures.

§ 3405.8 Complementary project proposals.

Institutions may submit proposals that are complementary in nature as defined in §3405.2(g). Such complementary project proposals may be submitted by the same or by different eligible institutions.

§ 3405.9 Use of funds for facilities.

Under the Higher Education Challenge Grants Program, the use of grant funds to plan, acquire, or construct a building or facility is not allowed. With prior approval, in accordance with the cost principles set forth in OMB Circular No. A-21, some grant funds may be used for minor alterations, renovations, or repairs deemed necessary to retrofit existing teaching spaces in order to carry out a funded project. However, requests to use grant funds for such purposes must demonstrate that the alterations, renovations, or repairs are incidental to the major purpose for which a grant is made.
Coop. State Research, Education, and Extension Ser., USDA § 3405.11

project proposal as defined in § 3405.2(g) and § 3405.2(m), respectively, of this part. If it is not a complementary project proposal or a joint project proposal, identify it as a regular project proposal.

(7) In block 13. of Form CSREES–712, indicate if the proposal is a new, first-time submission or if the proposal is a resubmission of a proposal that has been submitted to, but not funded under, the Higher Education Challenge Grants Program in a previous competition.

(b) Table of contents. For ease in locating information, each proposal must contain a detailed table of contents just after the Proposal Cover Page. The Table of Contents should include page numbers for each component of the proposal. Pagination should begin immediately following the Table of Contents.

(c) Project summary. (1) A Project Summary should immediately follow the Table of Contents. The information provided in the Project Summary may be used by the program staff for a variety of purposes, including the proper assignment of proposals to peer reviewers and providing information to peer reviewers prior to the peer panel meeting. The name of the institution, the targeted need area(s), and the title of the proposal must be identified exactly as shown on the “Higher Education Proposal Cover Page.”

(2) If the proposal is a complementary project proposal, as defined in § 3405.2(g) of this part, indicate such and identify the other complementary project(s) by citing the name of the submitting institution, the project director, and the grant number (if funded in a previous year) exactly as shown on the cover page of the complementary project so that appropriate consideration can be given to the interrelatedness of the proposals in the evaluation process.

(3) If the proposal is a joint project proposal, as defined in § 3405.2(m) of this part, indicate such and identify the other participating institutions and the key faculty member or other individual responsible for coordinating the project at each institution.

(4) The Project Summary should be a concise description of the proposed activity suitable for publication by the Department to inform the general public about awards under the program. The text must not exceed one page, single-spaced. The Project Summary should be a self-contained description of the activity which would result if the proposal is funded by USDA. It should include: The objectives of the project; a synopsis of the plan of operation; a description of how the project will strengthen higher education in the food and agricultural sciences in the United States; and the plans for disseminating project results. The Project Summary should be written so that a technically literate reader can evaluate the use of Federal funds in support of the project.

(d) Resubmission of a proposal—(1) Re-submission of previously unfunded proposals. If a proposal has been submitted previously, but was not funded, such should be indicated in block 13. on Form CSREES–712, “Higher Education Proposal Cover Page,” and the following information should be included in the proposal: The fiscal year(s) in which the proposal was submitted previously; a summary of the peer reviewers’ comments; and how these comments have been addressed in the current proposal, including the page numbers in the current proposal where the peer reviewers’ comments have been addressed. This information may be provided as a section of the proposal following the Project Summary and preceding the proposal narrative or it may be placed in the Appendix (see §3405.11(i)). In either case, the location of this information should be indicated in the Table of Contents. Further, when possible, the information should be presented in tabular format. Applicants who choose to resubmit proposals that were previously submitted, but not funded, should note that resubmitted proposals must compete equally with newly submitted proposals. Submitting a proposal that has been reviewed based on a previous peer review panel’s critique of the proposal does not guarantee the success of the resubmitted proposal.

(2) Resubmission of previously funded proposals. The Higher Education Challenge Grants Program is not designed to support activities that essentially
are repetitive in nature over multiple grant awards. Project directors who have had their projects funded previously are discouraged from resubmitting relatively identical proposals for further funding. Proposals that are sequential continuations or new stages of previously funded Challenge Grants Program projects must compete with first-time proposals. Therefore, project directors should thoroughly demonstrate how the project proposed in the current application expands substantially upon a previously funded project (i.e., demonstrate how the new project will advance the former project to the next level of attainment or will achieve expanded goals). The proposal must also show the degree to which the new phase promotes innovativeness and creativity beyond the scope of the previously funded project.

(e) Narrative of a proposal. The narrative portion of the proposal is limited to 20 pages in length. The one-page Project Summary is not included in the 20-page limitation. The narrative must be typed on one side of the page only, using a font no smaller than 12 point, and double-spaced. All margins must be at least one inch. All pages following the Table of Contents must be paginated. It should be noted that peer reviewers will not be required to read beyond 20 pages of the narrative to evaluate the proposal. The narrative should contain the following sections:

(i) Potential for advancing the quality of education—(1) Impact. (a) Identify the targeted need area(s).
(b) Clearly state the specific instructional problem or opportunity to be addressed.
(c) Describe how and by whom the focus and scope of the project were determined. Summarize the body of knowledge which substantiates the need for the proposed project.
(d) Describe ongoing or recently completed significant activities related to the proposed project for which previous funding was received under this program.
(e) Discuss how the project will be of value at the State, regional, national, or international level(s).
(f) Discuss how the benefits to be derived from the project will transcend the applicant institution or the grant period. Also discuss the probabilities of the project being adapted by other institutions. For example, can the project serve as a model for others?

(ii) Continuation plans. Discuss the likelihood of, or plans for, continuation or expansion of the project beyond USDA support. For example, does the institution’s long-range budget or academic plan provide for the realistic continuation or expansion of the initiative undertaken by this project after the end of the grant period, are plans for eventual self-support built into the project, are plans being made to institutionalize the program if it meets with success, and are there indications of other continuing non-Federal support?

(iii) Innovation. Describe the degree to which the proposal reflects an innovative or non-traditional approach to solving a higher education problem or strengthening the quality of higher education in the food and agricultural sciences.

(iv) Products and results. Explain the expected products and results and their potential impact on strengthening food and agricultural sciences higher education in the United States.

(2) Overall approach and cooperative linkages—(1) Proposed approach—(A) Objectives. Cite and discuss the specific objectives to be accomplished under the project.
(B) Plan of operation. (1) Describe procedures for accomplishing the objectives of the project.
(2) Describe plans for management of the project to ensure its proper and efficient administration.
(3) Describe the way in which resources and personnel will be used to conduct the project.
(C) Timetable. Provide a timetable for conducting the project. Identify all important project milestones and dates as they relate to project start-up, execution, evaluation, dissemination, and close-out.

(ii) Evaluation plans. (A) Provide a plan for evaluating the accomplishment of stated objectives during the conduct of the project. Indicate the criteria, and corresponding weight of each, to be used in the evaluation process, describe any data to be collected...
Coop. State Research, Education, and Extension Ser., USDA § 3405.11

and analyzed, and explain the methodology that will be used to determine the extent to which the needs underlying the project are met.

(B) Provide a plan for evaluating the effectiveness of the end results upon conclusion of the project. Include the same kinds of information requested in § 3405.11(e)(2)(ii)(A).

(iii) Dissemination plans. Discuss plans to disseminate project results and products. Identify target audiences and explain methods of communication.

(iv) Partnerships and collaborative efforts. (A) Explain how the project will maximize partnership ventures and collaborative efforts to strengthen food and agricultural sciences higher education (e.g., involvement of faculty in related disciplines at the same institution, joint projects with other colleges or universities, or cooperative activities with business or industry). Also explain how it will stimulate academia, the States, or the private sector to join with the Federal partner in enhancing food and agricultural sciences higher education.

(B) Provide evidence, via letters from the parties involved, that arrangements necessary for collaborative partnerships or joint initiatives have been discussed and realistically can be expected to come to fruition, or actually have been finalized contingent on an award under this program. Letters must be signed by an official who has the authority to commit the resources of the organization. Such letters should be referenced in the plan of operation, but the actual letters should be included in the Appendix section of the proposal. Any potential conflict(s) of interest that might result from the proposed collaborative arrangements must be discussed in detail.

(3) Institutional commitment and resources—(i) Institutional commitment. Discuss the institution's commitment to the project. For example, substantiate that the institution attributes a high priority to the project, discuss how the project will contribute to the achievement of the institution's long-term (five-to ten-year) goals, explain how the project will help satisfy the institution's high-priority objectives, or show how this project is linked to and supported by the institution's strategic plan.

(ii) Institutional resources. Document the commitment of institutional resources to the project, and show that the institutional resources to be made available to the project, when combined with the support requested from USDA, will be adequate to carry out the activities of the project. Discuss institutional facilities, equipment, computer services, and other appropriate resources available to the project.

(f) Budget and cost-effectiveness—(1) Budget form. (i) Prepare Form CSREES-713, "Higher Education Budget," in accordance with instructions provided with the form. Proposals may request support for a period to be identified in each year's program announcement. A budget form is required for each year of requested support. In addition, a summary budget is required detailing the requested total support for the overall project period. Form CSREES-713 may be reproduced as needed by proposers. Funds may be requested under any of the categories listed on the form, provided that the item or service for which support is requested is allowable under the authorizing legislation, the applicable Federal cost principles, and these administrative provisions, and can be justified as necessary for the successful conduct of the proposed project.

(ii) The approved negotiated instruction rate or the rate allowed by law should be used when computing indirect costs. If a reduced rate of indirect costs is voluntarily requested from USDA, the remaining allowable indirect costs may be used as matching funds.

(2) Matching funds. When documenting matching contributions, use the following guidelines:

(i) When preparing the column of Form CSREES-713 entitled “Applicant Contributions To Matching Funds,” only those costs to be contributed by the applicant for the purposes of matching should be shown. The total amount of this column should be indicated in item M.
(ii) In item N of Form CSREES-713, show a total dollar amount for Cash Contributions from both the applicant and any third parties; also show a total dollar amount (based on current fair market value) for Non-cash Contributions from both the applicant and any third parties.

(iii) To be counted toward the matching requirements stated in §3405.5 of this part, proposals must include written verification of any actual commitments of matching support (including both cash and non-cash contributions) from third parties. Written verification means—

(A) For any third party cash contributions, a separate pledge agreement for each donation, signed by the authorized organizational representative(s) of the donor organization and the applicant institution, which must include:

1. The name, address, and telephone number of the donor;
2. The name of the applicant institution;
3. The title of the project for which the donation is made;
4. The dollar amount of the cash donation; and
5. A statement that the donor will pay the cash contribution during the grant period;

(B) For any third party non-cash contributions, a separate pledge agreement for each contribution, signed by the authorized organizational representative(s) of the donor organization and the applicant institution, which must include:

1. The name, address, and telephone number of the donor;
2. The name of the applicant institution;
3. The title of the project for which the donation is made;
4. A good faith estimate of the current fair market value of the non-cash contribution; and
5. A statement that the donor will make the contribution during the grant period.

(iv) All pledge agreements referenced in §3405.11(g)(2)(iii) (A) and (B) must be placed in the proposal immediately following Form CSREES-713. The sources and amounts of all matching support from outside the applicant institution should be summarized in the Budget Narrative section of the proposal.

(3) Chart on shared budget for joint project proposal. For a joint project proposal, a plan must be provided indicating how funds will be distributed to the participating institutions. The budget section of a joint project proposal should include a chart indicating: the names of the participating institutions; the amount of funds to be disbursed to those institutions; and the way in which such funds will be used in accordance with items A through L of Form CSREES-713, “Higher Education Budget.” If a proposal is not for a joint project, such a chart is not required.

(4) Budget narrative. (i) Discuss how the budget specifically supports the proposed project activities. Explain how such budget items as professional or technical staff, travel, equipment, etc., are essential to achieving project objectives.

(ii) Justify that the total budget, including funds requested from USDA and any matching support provided, will be adequate to carry out the activities of the project. Provide a summary of sources and amounts of all third party matching support.

(iii) Justify the project’s cost-effectiveness. Show how the project maximizes the use of limited resources, optimizes educational value for the dollar, achieves economies of scale, or leverages additional funds. For example, discuss how the project has the potential to generate a critical mass of expertise and activity focused on a targeted need area, or to promote coalition building that could lead to future ventures.

(iv) Include the percentage of time key personnel will work on the project, both during the academic year and summer. When salaries of university personnel will be paid by a combination of USDA and institutional funds,
the total compensation must not exceed the faculty member's regular annual compensation. In addition, the total commitment of time devoted to the project, when combined with time for teaching and research duties, other sponsored agreements, and other employment obligations to the institution, must not exceed 100 percent of the normal workload for which the employee is compensated, in accordance with established university policies and applicable Federal cost principles.

(v) If the proposal addresses more than one targeted need area (e.g., student experiential learning and instruction delivery systems), estimate the proportion of the funds requested from USDA that will support each respective targeted need area.

(h) Current and pending support. Each applicant must complete Form CSREES-663, “Current and Pending Support,” identifying any other current public- or private-sponsored projects, in addition to the proposed project, to which key personnel listed in the proposal under consideration have committed portions of their time, whether or not salary support for the person(s) involved is included in the budgets of the various projects. This information should also be provided for any pending proposals which are currently being considered by, or which will be submitted in the near future to other possible sponsors, including other USDA programs or agencies. Concurrent submission of identical or similar projects to other possible sponsors will not prejudice the review or evaluation of a project under this program.

(i) Appendix. Each project narrative is expected to be complete in itself and to meet the 20-page limitation. Inclusion of material in an Appendix should not be used to circumvent the 20-page limitation of the proposal narrative. However, in those instances where inclusion of supplemental information is necessary to guarantee the peer review panel's complete understanding of a proposal or to illustrate the integrity of the design or a main thesis of the proposal, such information may be included in an Appendix. Examples of supplemental material are photographs, journal reprints, brochures and other pertinent materials which are deemed to be illustrative of major points in the narrative but unsuitable for inclusion in the proposal narrative itself. Information on previously submitted proposals may also be presented in the Appendix (refer to §3405.11(d)). When possible, information in the Appendix should be presented in tabular format. A complete set of the Appendix material must be attached to each copy of the grant application submitted. The Appendix must be identified with the title of the project as it appears on Form CSREES-712 of the proposal and the name(s) of the project director(s). The Appendix must be referenced in the proposal narrative.

Subpart D—Submission of a Proposal

§ 3405.12 Intent to submit a proposal.

To assist CSREES in preparing for the review of proposals, institutions planning to submit proposals may be requested to complete Form CSREES-711, “Intent to Submit a Proposal,” provided in the application package. CSREES will determine each year if Intent to Submit a Proposal forms will be requested and provide such information in the program announcement. If Intent to Submit a Proposal forms are required, one form should be completed and returned for each proposal an institution anticipates submitting. Submitting this form does not commit an institution to any course of action, nor does failure to send this form prohibit an institution from submitting a proposal.

§ 3405.13 When and where to submit a proposal.

The program announcement will provide the deadline date for submitting a proposal, the number of copies of each proposal that must be submitted, and the address to which proposals must be submitted.

Subpart E—Proposal Review and Evaluation

§ 3405.14 Proposal review.

The proposal evaluation process includes both internal staff review and
merit evaluation by peer review panels comprised of scientists, educators, business representatives, and Government officials. Peer review panels will be selected and structured to provide optimum expertise and objective judgment in the evaluation of proposals.

<table>
<thead>
<tr>
<th>Evaluation Criterion</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a) Potential for advancing the quality of education:</td>
<td></td>
</tr>
<tr>
<td>This criterion is used to assess the likelihood that the project will have a substantial impact upon and advance the quality of food and agricultural sciences higher education by strengthening institutional capacities through promoting education reform to meet clearly delineated needs.</td>
<td></td>
</tr>
<tr>
<td>(1) Impact—Does the project address a targeted need area(s)? Is the problem or opportunity clearly documented? Does the project address a State, regional, national, or international problem or opportunity? Will the benefits to be derived from the project transcend the applicant institution and/or the grant period? Is it probable that other institutions will adapt this project for their own use? Can the project serve as a model for others?</td>
<td>20 points.</td>
</tr>
<tr>
<td>(2) Continuation plans—Are there plans for continuation or expansion of the project beyond USDA support? Are there indications of external, non-Federal support? Are there realistic plans for making the project self-supporting?</td>
<td>10 points.</td>
</tr>
<tr>
<td>(3) Innovation—Are significant aspects of the project based on an innovative or a non-traditional approach toward solving a higher education problem or strengthening the quality of higher education in the food and agricultural sciences? If successful, is the project likely to lead to education reform?</td>
<td>20 points.</td>
</tr>
<tr>
<td>(4) Products and results—Are the expected products and results of the project clearly explained? Do they have the potential to strengthen food and agricultural sciences higher education? Are the products likely to be of high quality? Will the project contribute to a better understanding of or improvement in the quality, distribution, effectiveness, or racial, ethnic, or gender diversity of the Nation’s food and agricultural scientific and professional expertise base?</td>
<td>20 points.</td>
</tr>
<tr>
<td>(b) Overall approach and cooperative linkages:</td>
<td></td>
</tr>
<tr>
<td>This criterion relates to the soundness of the proposed approach and the quality of the partnerships likely to evolve as a result of the project.</td>
<td></td>
</tr>
<tr>
<td>(1) Proposed approach—Do the objectives and plan of operation appear to be sound and appropriate relative to the targeted need area(s) and the impact anticipated? Are the procedures managerially, educationally, and/or scientifically sound? Is the overall plan integrated with or does it expand upon other major efforts to improve the quality of food and agricultural sciences higher education? Does the timetable appear to be readily achievable?</td>
<td>20 points.</td>
</tr>
<tr>
<td>(2) Evaluation—Are the evaluation plans adequate and reasonable? Do they allow for continuous and/or frequent feedback during the life of the project? Are the individuals involved in project evaluation skilled in evaluation strategies and procedures? Can they provide an objective evaluation? Do evaluation plans facilitate the measurement of project progress and outcomes?</td>
<td>10 points.</td>
</tr>
<tr>
<td>(3) Dissemination—Does the proposed project include clearly outlined and realistic mechanisms that will lead to widespread dissemination of project results, including national electronic communication systems, publications, presentations at professional conferences, and/or use by faculty development or research/teaching skills workshops.</td>
<td>10 points.</td>
</tr>
<tr>
<td>(4) Partnerships and collaborative efforts—Will the project expand partnership ventures among disciplines at a university, between colleges and universities, or with the private sector? Will the project lead to long-term relationships or cooperative partnerships that are likely to enhance program quality or supplement resources available to food and agricultural sciences higher education?</td>
<td>20 points.</td>
</tr>
<tr>
<td>(c) Institutional commitment and resources:</td>
<td></td>
</tr>
<tr>
<td>This criterion relates to the institution’s commitment to the project and the adequacy of institutional resources available to carry out the project.</td>
<td></td>
</tr>
<tr>
<td>(1) Institutional commitment—Is there evidence to substantiate that the institution attributes a high-priority to the project, that the project is linked to the achievement of the institution’s long-term goals, that it will help satisfy the institution’s high-priority objectives, or that the project is supported by the institution’s strategic plans?</td>
<td>10 points.</td>
</tr>
<tr>
<td>(2) Institutional resources—Will the project have adequate support to carry out the proposed activities? Will the project have reasonable access to needed resources such as instructional instrumentation, facilities, computer services, library and other instruction support resources?</td>
<td>10 points.</td>
</tr>
<tr>
<td>(d) Key personnel:</td>
<td></td>
</tr>
<tr>
<td>This criterion relates to the number and qualifications of the key persons who will carry out the project. Are designated project personnel qualified to carry out a successful project? Are there sufficient numbers of personnel associated with the project to achieve the stated objectives and the anticipated outcomes?</td>
<td>20 points.</td>
</tr>
<tr>
<td>(e) Budget and cost-effectiveness:</td>
<td></td>
</tr>
</tbody>
</table>

The maximum score a proposal can receive is 200 points. Unless otherwise stated in the annual solicitation published in the Federal Register, the peer review panel will consider the following criteria and weights to evaluate proposals submitted:
This criterion relates to the extent to which the total budget adequately supports the project and is cost-effective.

(1) Budget—Is the budget request justifiable? Are costs reasonable and necessary? Will the total budget be adequate to carry out project activities? Are the source(s) and amount(s) of non-Federal matching support clearly identified and appropriately documented? For a joint project proposal, is the shared budget explained clearly and in sufficient detail?

10 points.

(2) Cost-effectiveness—Is the proposed project cost-effective? Does it demonstrate a creative use of limited resources, maximize educational value per dollar of USDA support, achieve economies of scale, leverage additional funds or have the potential to do so, focus expertise and activity on a targeted need area, or promote coalition building for current or future ventures?

10 points.

(f) Overall quality of proposal:

This criterion relates to the degree to which the proposal complies with the application guidelines and is of high quality. Is the proposal enhanced by its adherence to instructions (table of contents, organization, pagination, margin and font size, the 20-page limitation, appendices, etc.); accuracy of forms; clarity of budget narrative; well prepared vitae for all key personnel associated with the project; and presentation (are ideas effectively presented, clearly articulated, and thoroughly explained, etc.)?

10 points.

Subpart F—Supplementary Information

§ 3405.16 Access to peer review information.

After final decisions have been announced, CSREES will, upon request, inform the project director of the reasons for its decision on a proposal. Verbatim copies of summary reviews, not including the identity of the peer reviewers, will be made available to respective project directors upon specific request.

§ 3405.17 Grant awards.

(a) General. Within the limit of funds available for such purpose, the authorized departmental officer shall make project grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced targeted need areas under the evaluation criteria and procedures set forth in this part. The beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved for support. All funds granted under this part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department’s Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (7 CFR part 3019).

(b) Organizational management information. Specific management information relating to a proposing institution shall be submitted on a one-time basis prior to the award of a project grant identified under this part if such information has not been provided previously under this or another program for which the sponsoring agency is responsible. Copies of the forms used to fulfill this requirement will be sent to the proposing institution by the sponsoring agency as part of the pre-award process.

(c) Notice of grant award. The grant award document shall include at a minimum the following:

(1) Legal name and address of performing organization.

(2) Title of project.

(3) Name(s) and address(es) of project director(s).

(4) Identifying grant number assigned by the Department.

(5) Project period, which specifies how long the Department intends to support the effort without requiring re-application for funds.

(6) Total amount of Federal financial assistance approved during the project period.

(7) Legal authority(ies) under which the grant is awarded.

(8) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the grant award.

(9) Other information or provisions deemed necessary by the Department to carry out its granting activities or to accomplish the purpose of this particular project grant.
§ 3405.18 Use of funds; changes.

(a) Delegation of fiscal responsibility. The grantee may not in whole or in part delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of grant funds.

(b) Change in project plans. (1) The permissible changes by the grantee, project director(s), or other key project personnel in the approved project grant shall be limited to changes in methodology, techniques, or other aspects of the project to expedite achievement of the project’s approved goals. If the grantee or the project director(s) are uncertain as to whether a change complies with this provision, the question must be referred to the Department for a final determination.

(2) Changes in approved goals, or objectives, shall be requested by the grantee and approved in writing by the authorized departmental officer prior to effecting such changes. In no event shall requests for such changes be approved that are outside the scope of the approved project.

(3) Changes in approved project leadership or the replacement or reassignment of other key project personnel shall be requested by the grantee and approved in writing by the authorized departmental officer prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the grantee and approved in writing by the authorized departmental officer prior to effecting such transfers.

(c) Changes in project period. The project period may be extended by the authorized departmental officer without additional financial support for such additional period(s) as the authorized departmental officer determines may be necessary to complete or fulfill the purposes of an approved project. However, due to statutory restriction, no grant may be extended beyond five years from the original start date of the grant, or pre-award date, if applicable. Grant extensions shall be conditioned upon prior request by the grantee and approval in writing by the authorized departmental officer, unless prescribed otherwise in the terms and conditions of a grant.

(d) Changes in approved budget. Changes in an approved budget shall be requested by the grantee and approved in writing by the authorized departmental officer prior to instituting such changes if the revision will:

(1) Involve transfers of amounts budgeted for indirect costs to absorb an increase in direct costs;

(2) Involve transfers of amounts budgeted for direct costs to accommodate changes in indirect cost rates negotiated during a budget period and not approved when a grant was awarded; or

(3) Involve transfers or expenditures of amounts requiring prior approval as set forth in the applicable Federal cost principles, Departmental regulations, or in the grant award.

§ 3405.19 Monitoring progress of funded projects.

(a) During the tenure of a grant, project directors must attend at least one national project directors meeting, if offered, in Washington, DC or any other announced location. The purpose of the meeting will be to discuss project and grant management opportunities for collaborative efforts, future directions for education reform, and opportunities to enhance dissemination of exemplary end products/results.

(b) An Annual Performance Report must be submitted to the USDA program contact person within 90 days after the completion of the first year of the project and annually thereafter during the life of the grant. Generally, the Annual Performance Reports should include a summary of the overall progress toward project objectives, current problems or unusual developments, the next year’s activities, and any other information that is pertinent to the ongoing project or which may be
specified in the terms and conditions of the award.

(c) A Final Performance Report must be submitted to the USDA program contact person within 90 days after the expiration date of the project. The expiration date is specified in the award documents and modifications thereto, if any. Generally, the Final Performance Report should be a summary of the completed project, including: A review of project objectives and accomplishments; a description of any products and outcomes resulting from the project; activities undertaken to disseminate products and outcomes; partnerships and collaborative ventures that resulted from the project; future initiatives that are planned as a result of the project; the impact of the project on the project director(s), the institution, and the food and agricultural sciences higher education system; and data on project personnel and beneficiaries. The Final Performance Report should be accompanied by samples or copies of any products or publications resulting from or developed by the project. The Final Performance Report must also contain any other information which may be specified in the terms and conditions of the award.

§ 3405.20 Other Federal statutes and regulations that apply.

Several other Federal statutes and regulations apply to grant proposals considered for review and to project grants awarded under this part. These include but are not limited to:

7 CFR Part 15, Subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964 as amended.
7 CFR Part 3018—Restrictions on Lobbying, prohibiting the use of appropriated funds to influence Congress or a Federal agency in connection with the making of any Federal grant and other Federal contracting and financial transactions.
7 CFR Part 3051—USDA implementation of OMB Circular No. A–133 regarding audits of institutions of higher education and other nonprofit institutions.
29 U.S.C. 794, section 504—Rehabilitation Act of 1973, and 7 CFR part 35B (USDA implementation of statute), prohibiting discrimination based upon physical or mental handicap in Federally assisted programs.
35 U.S.C. 200 et seq.—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR part 401).

§ 3405.21 Confidential aspects of proposals and awards.

When a proposal results in a grant, it becomes a part of the record of the Agency’s transactions, available to the public upon specific request. Information that the Secretary determines to be of a privileged nature will be held in confidence to the extent permitted by law. Therefore, any information that the applicant wishes to have considered as privileged should be clearly marked as such and sent in a separate statement, two copies of which should accompany the proposal. The original copy of a proposal that does not result in a grant will be retained by the Agency for a period of one year. Other copies will be destroyed. A proposal may be withdrawn at any time prior to the final action thereon.

§ 3405.22 Evaluation of program.

Grantees should be aware that CSREES may, as a part of its own program evaluation activities, carry out in-depth evaluations of assisted activities. Thus, grantees should be prepared
to cooperate with CSREES personnel, or persons retained by CSREES, evaluating the institutional context and the impact of any supported project. Grantees may be asked to provide general information on any students and faculty supported, in whole or in part, by a grant awarded under this program; information that may be requested includes, but is not limited to, standardized academic achievement test scores, grade point average, academic standing, career patterns, age, race/ethnicity, gender, citizenship, and disability.

PART 3406—1890 INSTITUTION CAPACITY BUILDING GRANTS PROGRAM

Subpart A—General Information

§ 3406.1 Applicability of regulations.
(a) The regulations of this part apply only to capacity building grants awarded to the 1890 land-grant institutions and Tuskegee University under the provisions of section 1417(b)(4) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3152(b)(4)) and pursuant to annual appropriations made available specifically for an 1890 capacity building program. Section 1417(b)(4) authorizes the Secretary of Agriculture, who has delegated the authority to the Administrator of the Cooperative State Research, Education, and Extension Service (CSREES), to make competitive grants to land-grant colleges and universities, to colleges and universities having significant minority enrollments and a demonstrable capacity to carry out the teaching of food and agricultural sciences, and to other colleges and universities having a demonstrable capacity to carry out the teaching of food and agricultural sciences, for a period not to exceed 5 years, to design and implement food and agricultural...
Coop. State Research, Education, and Extension Ser., USDA § 3406.2

programs to build teaching and research capacity at colleges and universities having significant minority enrollments. Based on and subject to the express provisions of the annual appropriations act, only 1890 land-grant institutions and Tuskegee University are eligible for this grants program.

(b) To the extent that funds are available, each year CSREES will publish a FEDERAL REGISTER notice announcing the program and soliciting grant applications.

(c)(1) Based on the amount of funds appropriated in any fiscal year, CSREES will determine and cite in the program announcement:
   (i) The program area(s) to be supported (teaching, research, or both);
   (ii) The proportion of the appropriation reserved for, or available to, teaching projects and research projects;
   (iii) The targeted need area(s) in teaching and in research to be supported;
   (iv) The degree level(s) to be supported;
   (v) The maximum project period a proposal may request;
   (vi) The maximum amount of funds that may be requested by an institution under a regular, complementary, or joint project proposal; and
   (vii) The maximum total funds that may be awarded to an institution under the program in a given fiscal year, including how funds awarded for complementary and joint projects will be counted toward the institutional maximum.

(2) The program announcement will also specify the deadline date for proposal submission, the number of copies of each proposal that must be submitted, the address to which a proposal must be submitted, and whether or not Form CSREES-711, “Intent to Submit a Proposal,” is requested.

(d)(1) If it is deemed by CSREES that, for a given fiscal year, additional determinations are necessary, each, as relevant, will be stated in the program announcement. Such determinations may include:
   (i) Limits on the subject matter/emphasis areas to be supported;
   (ii) The maximum number of proposals that may be submitted on behalf of the same school, college, or equivalent administrative unit within an institution;
   (iii) The maximum total number of proposals that may be submitted by an institution;
   (iv) The maximum number of proposals that may be submitted by an individual in any one targeted need area;
   (v) The minimum project period a proposal may request;
   (vi) The minimum amount of funds that may be requested by an institution under a regular, complementary, or joint project proposal;
   (vii) The proportion of the appropriation reserved for, or available to, regular, complementary, and joint project proposals;
   (viii) The proportion of the appropriation reserved for, or available to, projects in each announced targeted need area;
   (ix) The proportion of the appropriation reserved for, or available to, each subject matter/emphasis area;
   (x) The maximum number of grants that may be awarded to an institution under the program in a given fiscal year, including how grants awarded for complementary and joint projects will be counted toward the institutional maximum; and
   (xi) Limits on the use of grant funds for travel or to purchase equipment, if any.

(2) The program announcement also will contain any other limitations deemed necessary by CSREES for proper conduct of the program in the applicable year.

(e) The regulations of this part prescribe that this is a competitive program; it is possible that an institution may not receive any grant awards in a particular year.

(f) The regulations of this part do not apply to grants for other purposes awarded by the Department of Agriculture under section 1417 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3152) or any other authority.

§ 3406.2 Definitions.

As used in this part:

Authorized departmental officer means the Secretary or any employee of the
§ 3406.2

Department who has the authority to issue or modify grant instruments on behalf of the Secretary.

Authorized organizational representative means the president of the 1890 Institution or the official, designated by the president of the institution, who has the authority to commit the resources of the institution.

Budget period means the interval of time (usually 12 months) into which the project period is divided for budgetary and reporting purposes.

Cash contributions means the applicant's cash outlay, including the outlay of money contributed to the applicant by non-Federal third parties.

Citizen or national of the United States means:

(1) A citizen or native resident of a State; or

(2) a person defined in the Immigration and Nationality Act, 8 U.S.C. 1101(a)(22), who, though not a citizen of the United States, owes permanent allegiance to the United States.

College or University means an educational institution in any State which:

(1) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate;

(2) is legally authorized within such State to provide a program of education beyond secondary education;

(3) provides an educational program for which a baccalaureate degree or any other higher degree is awarded;

(4) is a public or other nonprofit institution; and

(5) is accredited by a nationally recognized accrediting agency or association.

Complementary project proposal means a proposal for a project which involves coordination with one or more other projects for which funding was awarded under this program in a previous fiscal year, or for which funding is requested under this program in the current fiscal year.

Cost-sharing or Matching means that portion of project costs not borne by the Federal Government, including the value of in-kind contributions.

Department or USDA means the United States Department of Agriculture.

1890 Institution or 1890 land-grant institution or 1890 colleges and universities means one of those institutions eligible to receive funds under the Act of August 30, 1890 (26 Stat. 417–419, as amended; 7 U.S.C. 321–326 and 328), or a research foundation maintained by such institution, that are the intended recipients of funds under programs established in Subtitle G of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3221 et seq.), including Tuskegee University.

Eligible participant means, for purposes of § 3406.11(b), Faculty Preparation and Enhancement for Teaching, and § 3406.11(f), Student Recruitment and Retention, an individual who:

(1) is a citizen or national of the United States, as defined in this section; or

(2) is a citizen of the Federated States of Micronesia, the Republic of the Marshall Islands, or the Republic of Palau. Where eligibility is claimed under paragraph (2) of the definition of "citizen or national of the United States" as specified in this section, documentary evidence from the Immigration and Naturalization Service as to such eligibility must be made available to CSREES upon request.

Food and agricultural sciences means basic, applied, and developmental research, extension, and teaching activities in the food, agricultural, renewable natural resources, forestry, and physical and social sciences, in the broadest sense of these terms, including but not limited to activities concerned with the production, processing, marketing, distribution, conservation, consumption, research, and development of food and agriculturally related products and services, and inclusive of programs in agriculture, natural resources, aquaculture, forestry, veterinary medicine, home economics, rural development, and closely allied disciplines.

Grantee means the 1890 Institution designated in the grant award document as the responsible legal entity to which a grant is awarded.
Joint project proposal means a proposal for a project, which will involve the applicant 1890 Institution and two or more other colleges, universities, community colleges, junior colleges, or other institutions, each of which will assume a major role in the conduct of the proposed project, and for which the applicant institution will transfer at least one-half of the awarded funds to the other institutions participating in the project. Only the applicant institution must meet the definition of “1890 Institution” as specified in this section; the other institutions participating in a joint project proposal are not required to meet the definition of “1890 Institution” as specified in this section, nor required to meet the definition of “college” or “university” as specified in this section.

Peer review panel means a group of experts or consultants, qualified by training and experience in particular fields of science, education, or technology to give expert advice on the merit of grant applications in such fields, who evaluate eligible proposals submitted to this program in their personal area(s) of expertise.

Principal investigator/project director means the single individual designated by the grantee in the grant application and approved by the Secretary who is responsible for the direction and management of the project.

Prior approval means written approval evidencing prior consent by an “authorized departmental officer” as defined in this section.

Project means the particular teaching or research activity within the scope of one or more of the targeted areas supported by a grant awarded under this program.

Project period means the period, as stated in the award document and modifications thereto, if any, during which Federal sponsorship begins and ends.

Research means any systematic inquiry directed toward new or fuller knowledge and understanding of the subject studied.

Research capacity means the quality and depth of an institution’s research infrastructure as evidenced by its: faculty expertise in the natural or social sciences, scientific and technical resources, research environment, library resources, and organizational structures and reward systems for attracting and retaining first-rate research faculty or students at the graduate and post-doctorate levels.

Research project grant means a grant in support of a project that addresses one or more of the targeted need areas or specific subject matter/emphasis areas identified in the annual program announcement related to strengthening research programs including, but not limited to, such initiatives as: Studies and experimentation in food and agricultural sciences, centralized research support systems, technology delivery systems, and other creative projects designed to provide needed enhancement of the Nation’s food and agricultural research system.

Secretary means the Secretary of Agriculture and any other officer or employee of the Department of Agriculture to whom the authority involved may be delegated.

State means any one of the fifty States, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Marianas, the Virgin Islands of the United States, and the District of Columbia.

Teaching means formal classroom instruction, laboratory instruction, and practicum experience in the food and agricultural sciences and matters related thereto (such as faculty development, student recruitment and services, curriculum development, instructional materials and equipment, and innovative teaching methodologies) conducted by colleges and universities offering baccalaureate or higher degrees.

Teaching capacity means the quality and depth of an institution’s academic programs infrastructure as evidenced by its: Curriculum, teaching faculty, instructional delivery systems, student experiential learning opportunities, scientific instrumentation for teaching, library resources, academic standing and racial, ethnic, or gender diversity of its faculty and student body as well as faculty and student recruitment and retention programs provided by a college or university in order to achieve maximum results in the development of scientific and professional
expertise for the Nation's food and agricultural system.
Teaching project grant means a grant in support of a project that addresses one or more of the targeted need areas or specific subject matter/emphasis areas identified in the annual program announcement related to strengthening teaching programs including, but not limited to, such initiatives as: curricula design and materials development, faculty preparation and enhancement for teaching, instruction delivery systems, scientific instrumentation for teaching, student experiential learning, and student recruitment and retention.
Third party in-kind contributions means non-cash contributions of property or services provided by non-Federal third parties, including real property, equipment, supplies and other expendable property, directly benefiting and specifically identifiable to a funded project or program.
USDA agency cooperator means any agency or office of the Department which has reviewed and endorsed an applicant's request for support, and indicates a willingness to make available non-monetary resources or technical assistance throughout the life of a project to ensure the accomplishment of the objectives of a grant awarded under this program.
§ 3406.3 Institutional eligibility.
Proposals may be submitted by any of the 16 historically black 1890 land-grant institutions and Tuskegee University. The 1890 land-grant institutions are: Alabama A&M University; University of Arkansas—Pine Bluff; Delaware State University; Florida A&M University; Fort Valley State College; Kentucky State University; Southern University and A&M College; University of Maryland—Eastern Shore; Alcorn State University; Lincoln University; North Carolina A&T State University; Langston University; South Carolina State University; Tennessee State University; Prairie View A&M University; and Virginia State University. An institution eligible to receive an award under this program includes a research foundation maintained by an 1890 land-grant institution or Tuskegee University.

Subpart B—Program Description
§ 3406.4 Purpose of the program.
(a) The Department of Agriculture and the Nation depend upon sound programs in the food and agricultural sciences at the Nation's colleges and universities to produce well trained professionals for careers in the food and agricultural sciences. The capacity of institutions to offer suitable programs in the food and agricultural sciences to meet the Nation's need for a well trained work force in the food and agricultural sciences is a proper concern for the Department.
(b) Historically, the Department has had a close relationship with the 1890 colleges and universities, including Tuskegee University. Through its role as administrator of the Second Morrill Act, the Department has borne the responsibility for helping these institutions develop to their fullest potential in order to meet the needs of students and the needs of the Nation.
(c) The institutional capacity building grants program is intended to stimulate development of quality education and research programs at these institutions in order that they may better assist the Department, on behalf of the Nation, in its mission of providing a professional work force in the food and agricultural sciences.
(d) This program is designed specifically to build the institutional teaching and research capacities of the 1890 land-grant institutions through cooperative programs with Federal and non-Federal entities. The program is competitive among the 1890 Institutions and encourages matching funds on the part of the States, private organizations, and other non-Federal entities to encourage expanded linkages with 1890 Institutions as performers of research and education, and as developers of scientific and professional talent for the United States food and agricultural system. In addition, through this program, CSREES will strive to increase the overall pool of qualified job applicants from underrepresented groups in order to make significant progress toward achieving the objectives of work force diversity within the Federal Government, particularly the U.S. Department of Agriculture.
§ 3406.5 Matching support.

The Department strongly encourages and may require non-Federal matching support for this program. In the annual program solicitation, CSREES will announce any incentives that may be offered to applicants for committing their own institutional resources or securing third party contributions in support of capacity building projects. CSREES may also announce any required fixed dollar amount or percentage of institutional cost sharing, if applicable.

§ 3406.6 USDA agency cooperator requirement.

(a) Each application must provide documentation that at least one USDA agency or office has agreed to cooperate with the applicant institution on the proposed project. The documentation should describe the expected benefits of the partnership venture for the USDA agency and for the 1890 Institution, and describe the partnership effort between USDA and the 1890 Institution in regard to the proposed project. Such USDA agency cooperation may include, but is not limited to, assisting the applicant institution with proposal development, identifying possible sources of matching funds, securing resources, implementing funded projects, providing technical assistance and expertise throughout the life of the project, participating in project evaluation, and disseminating project results.

(b) The designated CSREES agency contact can provide suggestions to institutions seeking to secure a USDA agency cooperator on a particular proposal.

(c) USDA 1890 Liaison Officers, and other USDA employees serving on the campuses of the 1890 colleges and universities, may assist with proposal development and project execution to satisfy the cooperator requirement, in whole or in part, but may not serve as project directors or principal investigators.

(d) Any USDA office responsible for administering a competitive or formula grants program specifically targeted to 1890 Institutions may not be a cooperator for this program.

§ 3406.7 General scope of program.

This program supports both teaching project grants and research project grants. Such grants are intended to strengthen the teaching and research capabilities of applicant institutions. Each 1890 Institution may submit one or more grant applications for either category of grants (as allowed by the annual program notice). However, each application must be limited to either a teaching project grant proposal or a research project grant proposal.

§ 3406.8 Joint project proposals.

Applicants are encouraged to submit joint project proposals as defined in §3406.2, which address regional or national problems and which will result overall in strengthening the 1890 university system. The goals of such joint initiatives should include maximizing the use of limited resources by generating a critical mass of expertise and activity focused on a targeted need area(s), increasing cost-effectiveness through achieving economies of scale, strengthening the scope and quality of a project's impact, and promoting coalition building likely to transcend the project's lifetime and lead to future ventures.

§ 3406.9 Complementary project proposals.

Institutions may submit proposals that are complementary in nature as defined in §3406.2. Such complementary project proposals may be submitted by the same or by different eligible institutions.

§ 3406.10 Use of funds for facilities.

Under the 1890 Institution Capacity Building Grants Program, the use of grant funds to plan, acquire, or construct a building or facility is not allowed. With prior approval, in accordance with the cost principles set forth in OMB Circular No. A-21, some grant funds may be used for minor alterations, renovations, or repairs deemed necessary to retrofit existing teaching or research spaces in order to carry out a funded project. However, requests to use grant funds for such purposes must demonstrate that the alterations, renovations, or repairs are incidental to
§ 3406.11 Scope of a teaching proposal.

The teaching component of the program will support the targeted need area(s) related to strengthening teaching programs as specified in the annual program announcement. Proposals may focus on any subject matter area(s) in the food and agricultural sciences unless limited by determinations as specified in the annual program announcement. A proposal may address a single targeted need area or multiple targeted need areas, and may be focused on a single subject matter area or multiple subject matter areas, in any combination (e.g., curriculum development in horticulture; curriculum development, faculty enhancement, and student experiential learning in animal science; faculty enhancement in food science and agribusiness management; or instruction delivery systems and student experiential learning in plant science, horticulture, and entomology). Applicants are also encouraged to include a library enhancement component related to the teaching project in their proposals. A proposal may be directed toward the undergraduate or graduate level of study as specified in the annual program announcement. Targeted need areas for teaching programs will consist of one or more of the following:

(a) Curricula design and materials development. (1) The purpose of this need area is to promote new and improved curricula and materials to increase the quality of, and continuously renew, the Nation's academic programs in the food and agricultural sciences. The overall objective is to stimulate the development and facilitate the use of exemplary education models and materials that incorporate the most recent advances in subject matter, research on teaching and learning theory, and instructional technology. Proposals may emphasize: The development of courses of study, degree programs, and instructional materials; the use of new approaches to the study of traditional subjects; or the introduction of new subjects, or new applications of knowledge, pertaining to the food and agricultural sciences.

(2) Examples include, but are not limited to, curricula and materials that promote:

(i) Raising the level of scholastic achievement of the Nation's graduates in the food and agricultural sciences.

(ii) Addressing the special needs of particular groups of students, such as minorities, gifted and talented, or those with educational backgrounds that warrant enrichment.

(iii) Using alternative instructional strategies or methodologies, including computer-assisted instruction or simulation modeling, media programs that reach large audiences efficiently and effectively, activities that provide hands-on learning experiences, and educational programs that extend learning beyond the classroom.

(iv) Using sound pedagogy, particularly with regard to recent research on how to motivate students to learn, retain, apply, and transfer knowledge, skills, and competencies.

(b) Faculty preparation and enhancement for teaching. (1) The purpose of this need area is to advance faculty development in the areas of teaching competency, subject matter expertise, or student recruitment and advising skills. Teachers are central to education. They serve as models, motivators, and mentors—the catalysts of the learning process. Moreover, teachers are agents for developing, replicating, and exchanging effective teaching materials and methods. For these reasons, education can be strengthened only when teachers are adequately prepared, highly motivated, and appropriately recognized and rewarded.

(2) Each faculty recipient of support for developmental activities under § 3406.11(b) must be an "eligible participant" as defined in § 3406.2 of this part.

(3) Examples of developmental activities include, but are not limited to, those which enable teaching faculty to:

(i) Gain experience with recent developments or innovative technology relevant to their teaching responsibilities.
(ii) Work under the guidance and direction of experts who have substantial expertise in an area related to the developmental goals of the project.

(iii) Work with scientists or professionals in government, industry, or other colleges or universities to learn new applications in a field.

(iv) Obtain personal experience working with new ideas and techniques.

(v) Expand competence with new methods of information delivery, such as computer-assisted or televised instruction.

(c) Instruction delivery systems. (1) The purpose of this need area is to encourage the use of alternative methods of delivering instruction to enhance the quality, effectiveness, and cost efficiency of teaching programs. The importance of this initiative is evidenced by advances in educational research which have substantiated the theory that differences in the learning styles of students often require alternative instructional methodologies. Also, the rising costs of higher education strongly suggest that colleges and universities undertake more efforts of a collaborative nature in order to deliver instruction which maximizes program quality and reduces unnecessary duplication. At the same time, advancements in knowledge and technology continue to introduce new subject areas which warrant consideration and implementation of innovative instruction techniques, methodologies, and delivery systems.

(2) Examples include, but are not limited to:

(i) Use of computers.

(ii) Teleconferencing.

(iii) Networking via satellite communications.

(iv) Regionalization of academic programs.

(v) Mobile classrooms and laboratories.

(vi) Individualized learning centers.

(d) Scientific Instrumentation for teaching. (1) The purpose of this need area is to provide students in science-oriented courses the necessary experience with suitable, up-to-date equipment in order to involve them in work central to scientific understanding and progress.

This program initiative will support the acquisition of instructional laboratory and classroom equipment to assure the achievement and maintenance of outstanding food and agricultural sciences higher education programs. A proposal may request support for acquiring new, state-of-the-art instructional scientific equipment, upgrading existing equipment, or replacing non-functional or clearly obsolete equipment.

(2) Examples include, but are not limited to:

(i) Rental or purchase of modern instruments to improve student learning experiences in courses, laboratories, and field work.

(ii) Development of new ways of using instrumentation to extend instructional capabilities.

(iii) Establishment of equipment-sharing capability via consortia or centers that develop innovative opportunities, such as mobile laboratories or satellite access to industry or government laboratories.

(e) Student experiential learning. (1) The purpose of this need area is to further the development of student scientific and professional competencies through experiential learning programs which provide students with opportunities to solve complex problems in the context of real-world situations. Effective experiential learning is essential in preparing future graduates to advance knowledge and technology, enhance quality of life, conserve resources, and revitalize the Nation’s economic competitiveness. Such experiential learning opportunities are most effective when they serve to advance decision-making and communication skills as well as technological expertise.

(2) Examples include, but are not limited to, projects which:

(i) Provide opportunities for students to participate in research projects, either as a part of an ongoing research project or in a project designed especially for this program.

(ii) Provide opportunities for students to complete apprenticeships, internships, or similar participatory learning experiences.

(iii) Expand and enrich courses which are of a practicum nature.
§ 3406.12 Program application materials—teaching.

Program application materials in an application package will be made available to eligible institutions upon request. These materials include the program announcement, the administrative provisions for the program, and the forms needed to prepare and submit teaching grant applications under the program.

§ 3406.13 Content of a teaching proposal.

(a) Proposal cover page. (1) Form CSREES–712, “Higher Education Proposal Cover Page,” must be completed in its entirety. Note that providing a Social Security Number is voluntary, but is an integral part of the CSREES information system and will assist in the processing of the proposal.

(2) One copy of the Form CSREES–712 must contain the pen-and-ink signatures of the project director(s) and authorized organizational representative for the applicant institution.

(3) The title of the teaching project shown on the “Higher Education Proposal Cover Page” must be brief (80-character maximum) yet represent the major thrust of the project. This information will be used by the Department to provide information to the Congress and other interested parties.

(4) In block 7. of Form CSREES–712, enter “1890 Institution Capacity Building Grants Program.”

(5) In block 8.a. of Form CSREES–712, enter “Teaching.” In block 8.b. identify the code for the targeted need area(s) as found on the reverse of the form. If a proposal focuses on multiple targeted need areas, enter each code associated with the project. In block 8.c. identify the major area(s) of emphasis as found on the reverse of the form. If a proposal focuses on multiple areas of emphasis, enter each code associated with the project; however, limit the selection to three areas. This information will be used by program staff for the proper assignment of proposals to reviewers.
Coop. State Research, Education, and Extension Ser., USDA § 3406.13

(6) In block 9 of Form CSREES-712, indicate if the proposal is a complementary project proposal or a joint project proposal as defined in § 3406.2 of this part. If it is not a complementary project proposal or a joint project proposal, identify it as a regular project proposal.

(7) In block 13 of Form CSREES-712, indicate if the proposal is a new, first-time submission or if the proposal is a resubmission of a proposal that has been submitted to, but not funded under the 1890 Institution Capacity Building Grants Program in a previous competition.

(b) Table of contents. For ease in locating information, each proposal must contain a detailed table of contents just after the Proposal Cover Page. The Table of Contents should include page numbers for each component of the proposal. Pagination should begin immediately following the summary documentation of USDA agency cooperation.

(c) USDA agency cooperator. To be considered for funding, each proposal must include documentation of cooperation with at least one USDA agency or office. If multiple agencies are involved as cooperators, documentation must be included from each agency. When documenting cooperative arrangements, the following guidelines should be used:

(1) A summary of the cooperative arrangements must immediately follow the Table of Contents. This summary should:

(i) Bear the signatures of the Agency Head (or his/her designated authorized representative) and the university project director;

(ii) Indicate the agency's willingness to commit support for the project;

(iii) Identify the person(s) at the USDA agency who will serve as the liaison or technical contact for the project;

(iv) Describe the degree and nature of the USDA agency's involvement in the proposed project, as outlined in § 3406.6(a) of this part, including its role in:

(A) Identifying the need for the project;

(B) Developing a conceptual approach;

(C) Assisting with project design;

(D) Identifying and securing needed agency or other resources (e.g., personnel, grants/contracts; in-kind support, etc.);

(E) Developing the project budget;

(F) Promoting partnerships with other institutions to carry out the project;

(G) Helping the institution launch and manage the project;

(H) Providing technical assistance and expertise;

(I) Providing consultation through site visits, E-mail, conference calls, and faxes;

(j) Participating in project evaluation and dissemination of final project results; and

(K) Seeking other innovative ways to ensure the success of the project and advance the needs of the institution or the agency; and

(v) Describe the expected benefits of the partnership venture for the USDA agency and for the 1890 Institution.

(2) A detailed discussion of these partnership arrangements should be provided in the narrative portion of the proposal, as outlined in paragraph (f)(2)(iv)(C) of this section.

(3) Additional documentation, including letters of support or cooperation, may be provided in the Appendix.

(d) Project summary. (1) A Project Summary should immediately follow the summary documentation of USDA agency cooperation section. The information provided in the Project Summary will be used by the program staff for a variety of purposes, including the proper assignment of proposals to reviewers and providing information to reviewers prior to the peer panel meeting. The name of the institution, the targeted need area(s), and the title of the proposal must be identified exactly as shown on the “Higher Education Proposal Cover Page.”

(2) If the proposal is a complementary project proposal, as defined in § 3406.2 of this part, indicate such and identify the other complementary project(s) by citing the name of the submitting institution, the title of the project, the project director, and the grant number (if funded in a previous year) exactly as shown on the cover page of the complementary project so
§ 3406.13

that appropriate consideration can be given to the interrelatedness of the proposals in the evaluation process.

(3) If the proposal is a joint project proposal, as defined in § 3406.2 of this part, indicate such and identify the other participating institutions and the key faculty member or other individual responsible for coordinating the project at each institution.

(4) The Project Summary should be a concise description of the proposed activity suitable for publication by the Department to inform the general public about awards under the program. The text must not exceed one page, single-spaced. The Project Summary should be a self-contained description of the activity which would result if the proposal is funded by USDA. It should include: The objectives of the project; a synopsis of the plan of operation; a statement of how the project will enhance the teaching capacity of the institution; a description of how the project will strengthen higher education in the food and agricultural sciences in the United States; a description of the partnership efforts between, and the expected benefits for, the USDA agency cooperator(s) and the 1890 Institution; and the plans for disseminating project results. The Project Summary should be written so that a technically literate reader can evaluate the use of Federal funds in support of the project.

(e) Resubmission of a proposal—(1) Resubmission of previously unfunded proposals. (i) If a proposal has been submitted previously, but was not funded, such should be indicated in block 13 on Form CSREES-712, “Higher Education Proposal Cover Page,” and the following information should be included in the proposal:

(A) The fiscal year(s) in which the proposal was submitted previously;

(B) A summary of the peer reviewers’ comments; and

(C) How these comments have been addressed in the current proposal, including the page numbers in the current proposal where the peer reviewers’ comments have been addressed.

(ii) This information may be provided as a section of the proposal following the Project Summary and preceding the proposal narrative or it may be placed in the Appendix (see paragraph (j) of this section). In either case, the location of this information should be indicated in the Table of Contents, and the fact that the proposal is a resubmitted proposal should be stated in the proposal narrative. Further, when possible, the information should be presented in tabular format. Applicants who choose to resubmit proposals that were previously submitted, but not funded, should note that resubmitted proposals must compete equally with newly submitted proposals. Submitting a proposal that has been revised based on a previous peer review panel’s critique of the proposal does not guarantee the success of the resubmitted proposal.

(2) Resubmission of previously funded proposals. Recognizing that capacity building is a long-term ongoing process, the 1890 Institution Capacity Building Grants Program is interested in funding subsequent phases of previously funded projects in order to build institutional capacity, and institutions are encouraged to build on a theme over several grant awards. However, proposals that are sequential continuations or new stages of previously funded Capacity Building Grants must compete with first-time proposals. Therefore, project directors should thoroughly demonstrate how the project proposed in the current application expands substantially upon a previously funded project (i.e., demonstrate how the new project will advance the former project to the next level of attainment or will achieve expanded goals). The proposal must also show the degree to which the new phase promotes innovativeness and creativity beyond the scope of the previously funded project. Please note that the 1890 Institution Capacity Building Grants Program is not designed to support activities that are essentially repetitive in nature over multiple grant awards. Project directors who have had their projects funded previously are discouraged from resubmitting relatively identical proposals for further funding.

(f) Narrative of a teaching proposal. The narrative portion of the proposal is limited to 20 pages in length. The one-page Project Summary is not included

300
in the 20-page limitation. The narrative must be typed on one side of the page only, using a font no smaller than 12 point, and double-spaced. All margins must be at least one inch. All pages following the summary documentation of USDA agency cooperation must be paginated. It should be noted that peer reviewers will not be required to read beyond 20 pages of the narrative to evaluate the proposal. The narrative should contain the following sections:

(1) Potential for advancing the quality of education—(i) Impact. (A) Identify the targeted need area(s).

(B) Clearly state the specific instructional problem or opportunity to be addressed.

(C) Describe how and by whom the focus and scope of the project were determined. Summarize the body of knowledge which substantiates the need for the proposed project.

(D) Describe ongoing or recently completed significant activities related to the proposed project for which previous funding was received under this program.

(E) Discuss how the project will be of value at the State, regional, national, or international level(s).

(F) Discuss how the benefits to be derived from the project will transcend the proposing institution or the grant period. Also discuss the probabilities of its adaptation by other institutions. For example, can the project serve as a model for others?

(ii) Continuation plans. Discuss the likelihood of, or plans for, continuation or expansion of the project beyond USDA support. For example, does the institution's long-range budget or academic plan provide for the realistic continuation or expansion of the initiative undertaken by this project after the end of the grant period, are plans for eventual self-support built into the project, are plans being made to institutionalize the program if it meets with success, and are there indications of other continuing non-Federal support?

(iii) Innovation. Describe the degree to which the proposal reflects an innovative or non-traditional approach to solving a higher education problem or strengthening the quality of higher education in the food and agricultural sciences.

(iv) Products and results. Explain the kinds of results and products expected and their impact on strengthening food and agricultural sciences higher education in the United States, including attracting academically outstanding students and increasing the ethnic, racial, and gender diversity of the Nation's food and agricultural scientific and professional expertise base.

(2) Overall approach and cooperative linkages—(i) Proposed approach—(A) Objectives. Cite and discuss the specific objectives to be accomplished under the project.

(B) Plan of operation. (1) Describe procedures for accomplishing the objectives of the project.

(2) Describe plans for management of the project to enhance its proper and efficient administration.

(3) Describe the way in which resources and personnel will be used to conduct the project.

(C) Timetable. Provide a timetable for conducting the project. Identify all important project milestones and dates as they relate to project start-up, execution, dissemination, evaluation, and close-out.

(ii) Evaluation plans. (A) Provide a plan for evaluating the accomplishment of stated objectives during the conduct of the project. Indicate the criteria, and corresponding weight of each, to be used in the evaluation process, describe any data to be collected and analyzed, and explain the methodology that will be used to determine the extent to which the needs underlying the project are met.

(B) Provide a plan for evaluating the effectiveness of the end results upon conclusion of the project. Include the same kinds of information requested in paragraph (f)(2)(ii)(A) of this section.

(iii) Dissemination plans. Discuss plans to disseminate project results and products. Identify target audiences and explain methods of communication.

(iv) Partnerships and collaborative efforts. (A) Explain how the project will maximize partnership ventures and collaborative efforts to strengthen food and agricultural sciences higher education (e.g., involvement of faculty in
related disciplines at the same institution, joint projects with other colleges or universities, or cooperative activities with business or industry). Also explain how it will stimulate academia, the States, or the private sector to join with the Federal partner in enhancing food and agricultural sciences higher education.

(B) Provide evidence, via letters from the parties involved, that arrangements necessary for collaborative partnerships or joint initiatives have been discussed and realistically can be expected to come to fruition, or actually have been finalized contingent on an award under this program. Letters must be signed by an official who has the authority to commit the resources of the organization. Such letters should be referenced in the plan of operation, but the actual letters should be included in the Appendix section of the proposal. Any potential conflict(s) of interest that might result from the proposed collaborative arrangements must be discussed in detail. Proposals which indicate joint projects with other institutions must state which proposer is to receive any resulting grant award, since only one submitting institution can be the recipient of a project grant under one proposal.

(C) Explain how the project will create a new or enhance an existing partnership between the USDA agency cooperator(s) and the 1890 Institution(s). This section should expand upon the summary information provided in the documentation of USDA agency cooperation section, as outlined in paragraph (c)(1) of this section. This is particularly important because the focal point of attention in the peer review process is the proposal narrative. Therefore, a comprehensive discussion of the partnership effort between USDA and the 1890 Institution should be provided.

(3) Institutional capacity building—(i) Institutional enhancement. Explain how the proposed project will strengthen the teaching capacity, as defined in §3406.2 of this part, of the applicant institution and, if applicable, any other institutions assuming a major role in the conduct of the project. For example, describe how the proposed project is intended to strengthen the institution’s academic infrastructure by expanding the current faculty’s expertise base, advancing the scholarly quality of the institution’s academic programs, enriching the racial, ethnic, or gender diversity of the student body, helping the institution establish itself as a center of excellence in a particular field of education, helping the institution maintain or acquire state-of-the-art scientific instrumentation or library collections for teaching, or enabling the institution to provide more meaningful student experiential learning opportunities.

(ii) Institutional commitment. (A) Discuss the institution’s commitment to the project and its successful completion. Provide, as relevant, appropriate documentation in the Appendix. Substantiate that the institution attributes a high priority to the project.

(B) Discuss how the project will contribute to the achievement of the institution’s long-term (five- to ten-year) goals and how the project will help satisfy the institution’s high-priority objectives. Show how this project is linked to and supported by the institution’s strategic plan.

(C) Discuss the commitment of institutional resources to the project. Show that the institutional resources to be made available to the project will be adequate, when combined with the support requested from USDA, to carry out the activities of the project and represent a sound commitment by the institution. Discuss institutional facilities, equipment, computer services, and other appropriate resources available to the project.

(g) Key personnel. A Form CSREES-708, “Summary Vita—Teaching Proposal,” should be included for each key person associated with the project.

(h) Budget and cost-effectiveness—(1) Budget form. (i) Prepare Form CSREES-713, “Higher Education Budget,” in accordance with instructions provided with the form. Proposals may request support for a period to be identified in each year’s program announcement. A budget form is required for each year of requested support. In addition, a summary budget is required detailing the requested total support for the overall project period. Form CSREES-713 may be reproduced as
needed by proposers. Funds may be requested under any of the categories listed on the form, provided that the item or service for which support is requested is allowable under the authorizing legislation, the applicable Federal cost principles, the administrative provisions in this part, and can be justified as necessary for the successful conduct of the proposed project.

(ii) The approved negotiated instruction rate or the maximum rate allowed by law should be used when computing indirect costs. If a reduced rate of indirect costs is voluntarily requested from USDA, the remaining allowable indirect costs may be used as matching funds.

(2) Matching funds. When documenting matching contributions, use the following guidelines:

(i) When preparing the column entitled “Applicant Contributions To Matching Funds” of Form CSREES-713, only those costs to be contributed by the applicant for the purposes of matching should be shown. The total amount of this column should be indicated in item M.

(ii) In item N of Form CSREES-713, show a total dollar amount for Cash Contributions from both the applicant and any third parties; also show a total dollar amount (based on current fair market value) for Non-cash Contributions from both the applicant and any third parties.

(iii) To qualify for any incentive benefits stemming from matching support or to satisfy any cost sharing requirements, proposals must include written verification of any actual commitments of matching support (including both cash and non-cash contributions) from third parties. Written verification means—

(A) For any third party cash contributions, a separate pledge agreement for each donation, signed by the authorized organizational representative(s) of the donor organization (or by the donor if the gift is from an individual) and the applicant institution, which must include:

(1) The name, address, and telephone number of the donor;
(2) The name of the applicant institution;
(3) The title of the project for which the donation is made;
(4) The dollar amount of the cash donation; and
(5) A statement that the donor will pay the cash contribution during the grant period; and

(B) For any third party non-cash contributions, a separate pledge agreement for each contribution, signed by the authorized organizational representative(s) of the donor organization (or by the donor if the gift is from an individual) and the applicant institution, which must include:

(1) The name, address, and telephone number of the donor;
(2) The name of the applicant institution;
(3) The title of the project for which the donation is made;
(4) A good faith estimate of the current fair market value of the non-cash contribution; and
(5) A statement that the donor will make the contribution during the grant period.

(iv) All pledge agreements must be placed in the proposal immediately following Form CSREES-713. The sources and amounts of all matching support from outside the applicant institution should be summarized in the Budget Narrative section of the proposal.

(3) Chart on shared budget for joint project proposal. (i) For a joint project proposal, a plan must be provided indicating how funds will be distributed to the participating institutions. The budget section of a joint project proposal should include a chart indicating:

(A) The names of the participating institutions;
(B) the amount of funds to be disbursed to those institutions; and
(C) the way in which such funds will be used in accordance with items A through L of Form CSREES-713, “Higher Education Budget.”
(ii) If a proposal is not for a joint project, such a chart is not required.

(4) Budget narrative. (i) Discuss how the budget specifically supports the proposed project activities. Explain how each budget item (such as salaries and wages for professional and technical staff, student stipends/scholarships, travel, equipment, etc.) is essential to achieving project objectives.

(ii) Justify that the total budget, including funds requested from USDA and any third party matching support provided, will be adequate to carry out the activities of the project. Provide a summary of sources and amounts of all third party matching support.

(iii) Justify the project's cost-effectiveness. Show how the project maximizes the use of limited resources, optimizes educational value for the dollar, achieves economies of scale, or leverages additional funds. For example, discuss how the project has the potential to generate a critical mass of expertise and activity focused on a targeted need area or promote coalition building that could lead to future ventures.

(iv) Include the percentage of time key personnel will work on the project, both during the academic year and summer. When salaries of university project personnel will be paid by a combination of USDA and institutional funds, the total compensation must not exceed the faculty member's regular annual compensation. In addition, the total commitment of time devoted to the project, when combined with time for teaching and research duties, other sponsored agreements, and other employment obligations to the institution, must not exceed 100 percent of the normal workload for which the employee is compensated, in accordance with established university policies and applicable Federal cost principles.

(v) If the proposal addresses more than one targeted need area (e.g., student experiential learning and instruction delivery systems), estimate the proportion of the funds requested from USDA that will support each respective targeted need area.

(i) Current and pending support. Each applicant must complete Form CSREES-663, "Current and Pending Support," identifying any other current public- or private-sponsored projects, in addition to the proposed project, to which key personnel listed in the proposal under consideration have committed portions of their time, whether or not salary support for the person(s) involved is included in the budgets of the various projects. This information should also be provided for any pending proposals which are currently being considered by, or which will be submitted in the near future to, other possible sponsors, including other USDA programs or agencies. Concurrent submission of identical or similar projects to other possible sponsors will not prejudice the review or evaluation of a project under this program.

(j) Appendix. Each project narrative is expected to be complete in itself and to meet the 20-page limitation. Inclusion of material in an Appendix should not be used to circumvent the 20-page limitation of the proposal narrative. However, in those instances where inclusion of supplemental information is necessary to guarantee the peer review panel's complete understanding of a proposal or to illustrate the integrity of the design or a main thesis of the proposal, such information may be included in an Appendix. Examples of supplemental material are photographs, journal reprints, brochures and other pertinent materials which are deemed to be illustrative of major points in the narrative but unsuitable for inclusion in the proposal narrative itself. Information on previously submitted proposals may also be presented in the Appendix (refer to paragraph(e) of this section). When possible, information in the Appendix should be presented in tabular format. A complete set of the Appendix material must be attached to each copy of the grant application submitted. The Appendix must be identified with the title of the project as it appears on Form CSREES-712 of the proposal and the name(s) of the project director(s). The Appendix must be referenced in the proposal narrative.
Coop. State Research, Education, and Extension Ser., USDA § 3406.15

Subpart D—Review and Evaluation of a Teaching Proposal

§ 3406.14 Proposal review—teaching.

The proposal evaluation process includes both internal staff review and merit evaluation by peer review panels comprised of scientists, educators, business representatives, and Government officials who are highly qualified to render expert advice in the areas supported. Peer review panels will be selected and structured to provide optimum expertise and objective judgment in the evaluation of proposals.

§ 3406.15 Evaluation criteria for teaching proposals.

The maximum score a teaching proposal can receive is 150 points. Unless otherwise stated in the annual solicitation published in the Federal Register, the peer review panel will consider the following criteria and weights to evaluate proposals submitted:

<table>
<thead>
<tr>
<th>Evaluation criterion</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a) Potential for advancing the quality of education:</td>
<td></td>
</tr>
<tr>
<td>(1) Impact—Does the project address a targeted need area(s)? Is the problem or opportunity clearly documented? Does the project address a State, regional, national, or international problem or opportunity? Will the benefits to be derived from the project transcend the applicant institution or the grant period? Is it probable that other institutions will adapt this project for their own use? Can the project serve as a model for others?</td>
<td>15 points.</td>
</tr>
<tr>
<td>(2) Continuation plans—Are there plans for continuation or expansion of the project beyond USDA support with the use of institutional funds? Are there indications of external, non-Federal support? Are there realistic plans for making the project self-supporting?</td>
<td>10 points.</td>
</tr>
<tr>
<td>(3) Innovation—Are significant aspects of the project based on an innovative or a non-traditional approach toward solving a higher education problem or strengthening the quality of higher education in the food and agricultural sciences? If successful, is the project likely to lead to education reform?</td>
<td>10 points.</td>
</tr>
<tr>
<td>(4) Products and results—Are the expected products and results of the project clearly defined and likely to be of high quality? Will project results be of an unusual or unique nature? Will the project contribute to a better understanding of or an improvement in the quality, distribution, or effectiveness of the Nation’s food and agricultural scientific and professional expertise base, such as increasing the participation of women and minorities?</td>
<td>15 points.</td>
</tr>
<tr>
<td>(b) Overall approach and cooperative linkages:</td>
<td></td>
</tr>
<tr>
<td>(1) Proposed approach—Do the objectives and plan of operation appear to be sound and appropriate relative to the targeted need area(s) and the impact anticipated? Are the procedures managerially, educationally, and scientifically sound? Is the overall plan integrated with or does it expand upon other major efforts to improve the quality of food and agricultural sciences higher education? Does the timetable appear to be readily achievable?</td>
<td>15 points.</td>
</tr>
<tr>
<td>(2) Evaluation—Are the evaluation plans adequate and reasonable? Do they allow for continuous or frequent feedback during the life of the project? Are the individuals involved in project evaluation skilled in evaluation strategies and procedures? Can they provide an objective evaluation? Do evaluation plans facilitate the measurement of project progress and outcomes?</td>
<td>5 points.</td>
</tr>
<tr>
<td>(3) Dissemination—Does the proposed project include clearly outlined and realistic mechanisms that will lead to widespread dissemination of project results, including national electronic communication systems, publications, presentations at professional conferences, or use by faculty development or research/teaching skills workshops?</td>
<td>5 points.</td>
</tr>
<tr>
<td>(4) Partnerships and collaborative efforts—Does the project have significant potential for advancing cooperative ventures between the applicant institution and a USDA agency? Does the project workplan include an effective role for the cooperating USDA agency(s)? Will the project expand partnership ventures among disciplines at a university, between colleges and universities, or with the private sector? Will the project lead to long-term relationships or cooperative partnerships that are likely to enhance program quality or supplement resources available to food and agricultural sciences higher education?</td>
<td>15 points.</td>
</tr>
<tr>
<td>(c) Institutional capacity building:</td>
<td></td>
</tr>
</tbody>
</table>
### § 3406.16 Scope of a research proposal.

The research component of the program will support projects that address high-priority research initiatives in areas such as those illustrated in this section where there is a present or anticipated need for increased knowledge or capabilities or in which it is feasible for applicants to develop programs recognized for their excellence. Applicants are also encouraged to include in their proposals a library enhancement component related to the initiative(s) for which they have prepared their proposals.

(a) Studies and experimentation in food and agricultural sciences. (1) The purpose of this initiative is to advance the body of knowledge in those basic and applied natural and social sciences that comprise the food and agricultural sciences.

(2) Examples include, but are not limited to:
   (i) Conduct plant or animal breeding programs to develop better crops, forests, or livestock (e.g., more disease resistant, more productive, yielding higher quality products).
   (ii) Conceive, design, and evaluate new bioprocessing techniques for eliminating undesirable constituents from or adding desirable ones to food products.
   (iii) Propose and evaluate ways to enhance utilization of the capabilities and resources of food and agricultural institutions to promote rural development (e.g., exploitation of new technologies by small rural businesses).
   (iv) Identify control factors influencing consumer demand for agricultural products.

<table>
<thead>
<tr>
<th>Evaluation criterion</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>This criterion relates to the degree to which the project will strengthen the teaching capacity of the applicant institution and that of any other institution assuming a major role in the conduct of the project.</td>
<td>15 points.</td>
</tr>
<tr>
<td>(1) Institutional enhancement—Will the project help the institution to: Expand the current faculty’s expertise base; attract, hire, and retain outstanding teaching faculty; advance and strengthen the scholarly quality of the institution’s academic programs; enrich the racial, ethnic, or gender diversities of the faculty and student body; recruit students with higher grade point averages, higher standardized test scores, and those who are more committed to graduation; become a center of excellence in a particular field of education and bring it greater academic recognition; attract outside resources for academic programs; maintain or acquire state-of-the-art scientific instrumentation or library collections for teaching; or provide more meaningful student experiential learning opportunities?</td>
<td>15 points.</td>
</tr>
<tr>
<td>(2) Institutional commitment—Is there evidence to substantiate that the institution attributes a high-priority to the project, that the project is linked to the achievement of the institution’s long-term goals, that it will help satisfy the institution’s high-priority objectives, or that the project is supported by the institution’s strategic plans? Will the project have reasonable access to needed resources such as instructional instrumentation, facilities, computer services, library and other instruction support resources?</td>
<td>10 points.</td>
</tr>
<tr>
<td>(d) Personnel Resources: This criterion relates to the number and qualifications of the key persons who will carry out the project. Are designated project personnel qualified to carry out a successful project? Are there sufficient numbers of personnel associated with the project to achieve the stated objectives and the anticipated outcomes?</td>
<td>10 points.</td>
</tr>
<tr>
<td>(e) Budget and cost-effectiveness: This criterion relates to the extent to which the total budget adequately supports the project and is cost-effective.</td>
<td>10 points.</td>
</tr>
<tr>
<td>(1) Budget—Is the budget request justifiable? Are costs reasonable and necessary? Will the total budget be adequate to carry out project activities? Are the source(s) and amount(s) of non-Federal matching support clearly identified and appropriately documented? For a joint project proposal, is the shared budget explained clearly and in sufficient detail?</td>
<td>5 points.</td>
</tr>
<tr>
<td>(2) Cost-effectiveness—Is the proposed project cost-effective? Does it demonstrate a creative use of limited resources, maximize educational value per dollar of USDA support, achieve economies of scale, leverage additional funds or have the potential to do so, focus expertise and activity on a targeted need area, or promote coalition building for current or future ventures?</td>
<td>5 points.</td>
</tr>
<tr>
<td>(f) Overall quality of proposal: This criterion relates to the degree to which the proposal complies with the application guidelines and is of high quality. Is the proposal enhanced by its adherence to instructions (table of contents, organization, pagination, margin and font size, the 20-page limitation, appendices, etc.); accuracy of forms; clarity of budget narrative; well prepared vitae for all key personnel associated with the project; and presentation (are ideas effectively presented, clearly articulated, and thoroughly explained, etc.)?</td>
<td>5 points.</td>
</tr>
</tbody>
</table>
(v) Analyze social, economic, and physiological aspects of nutrition, housing, and life-style choices, and of community strategies for meeting the changing needs of different population groups.

(vi) Other high-priority areas such as human nutrition, sustainable agriculture, biotechnology, agribusiness management and marketing, and aquaculture.

(b) Centralized research support systems. (1) The purpose of this initiative is to establish centralized support systems to meet national needs or serve regions or clientele that cannot otherwise afford or have ready access to the support in question, or to provide such support more economically thereby freeing up resources for other research uses.

(2) Examples include, but are not limited to:
   (i) Storage, maintenance, characterization, evaluation and enhancement of germplasm for use by animal and plant breeders, including those using the techniques of biotechnology.
   (ii) Computerized data banks of important scientific information (e.g., epidemiological, demographic, nutrition, weather, economic, crop yields, etc.).
   (iii) Expert service centers for sophisticated and highly specialized methodologies (e.g., evaluation of organoleptic and nutritional quality of foods, toxicology, taxonomic identifications, consumer preferences, demographics, etc.).

(c) Technology delivery systems. (1) The purpose of this initiative is to promote innovations and improvements in the delivery of benefits of food and agricultural sciences to producers and consumers, particularly those who are currently disproportionately low in receipt of such benefits.

(2) Examples include, but are not limited to:
   (i) Computer-based decision support systems to assist small-scale farmers to take advantage of relevant technologies, programs, policies, etc.
   (ii) Efficacious delivery systems for nutrition information or for resource management assistance for low-income families and individuals.

(d) Other creative proposals. The purpose of this initiative is to encourage other creative proposals, outside the areas previously outlined, that are designed to provide needed enhancement of the Nation's food and agricultural research system.

§ 3406.17 Program application materials—research.

Program application materials in an application package will be made available to eligible institutions upon request. These materials include the program announcement, the administrative provisions for the program, and the forms needed to prepare and submit research grant applications under the program.

§ 3406.18 Content of a research proposal.

(a) Proposal cover page. (1) Form CSREES-712, "Higher Education Proposal Cover Page," must be completed in its entirety. Note that providing a Social Security Number is voluntary, but is an integral part of the CSREES information system and will assist in the processing of the proposal.

(2) One copy of Form CSREES-712 must contain the pen-and-ink signatures of the principal investigator(s) and Authorized Organizational Representative for the applicant institution.

(3) The title of the research project shown on the "Higher Education Proposal Cover Page" must be brief (80-character maximum) yet represent the major thrust of the project. This information will be used by the Department to provide information to the Congress and other interested parties.

(4) In block 7. of Form CSREES-712, enter "Capacity Building Grants Program."

(5) In block 8.a. of Form CSREES-712, enter "Research." In block 8.b. identify the code of the targeted need area(s) as found on the reverse of the form. If a proposal focuses on multiple targeted need areas, enter each code associated with the project. In block 8.c. identify the major area(s) of emphasis as found on the reverse of the form. If a proposal focuses on multiple areas of emphasis, enter each code associated with the project; however, please limit your selection to three areas. This information will be used by the program staff
§ 3406.18

for the proper assignment of proposals to reviewers.

(6) In block 9. of Form CSREES-712, indicate if the proposal is a complementary project proposal or joint project proposal as defined in §3406.2 of this part. If it is not a complementary project proposal or a joint project proposal, identify it as a regular proposal.

(7) In block 13. of Form CSREES-712, indicate if the proposal is a new, first-time submission or if the proposal is a resubmission of a proposal that has been submitted to, but not funded under the 1890 Institution Capacity Building Grants Program in a previous competition.

(b) Table of contents. For ease of locating information, each proposal must contain a detailed table of contents just after the Proposal Cover Page. The Table of Contents should include page numbers for each component of the proposal. Pagination should begin immediately following the summary documentation of USDA agency cooperation.

(c) USDA agency cooperator. To be considered for funding, each proposal must include documentation of cooperation with at least one USDA agency or office. If multiple agencies are involved as cooperators, documentation must be included from each agency. When documenting cooperative arrangements, the following guidelines should be used:

(1) A summary of the cooperative arrangements must immediately follow the Table of Contents. This summary should:

(i) Bear the signatures of the Agency Head (or his/her designated authorized representative) and the university project director;

(ii) Indicate the agency’s willingness to commit support for the project;

(iii) Identify the person(s) at the USDA agency who will serve as the liaison or technical contact for the project;

(iv) Describe the degree and nature of the USDA agency’s involvement in the proposed project, as outlined in §3406.6(a) of this part, including its role in:

(A) Identifying the need for the project;

(B) Developing a conceptual approach;

(C) Assisting with project design;

(D) Identifying and securing needed agency or other resources (e.g., personnel, grants/contracts; in-kind support, etc.);

(E) Developing the project budget;

(F) Promoting partnerships with other institutions to carry out the project;

(G) Helping the institution launch and manage the project;

(H) Providing technical assistance and expertise;

(I) Providing consultation through site visits, E-mail, conference calls, and faxes;

(j) Participating in project evaluation and dissemination of final project results; and

(K) Seeking other innovative ways to ensure the success of the project and advance the needs of the institution or the agency;

(v) Describe the expected benefits of the partnership venture for the USDA agency and for the 1890 Institution.

(2) A detailed discussion of these partnership arrangements should be provided in the narrative portion of the proposal, as outlined in paragraph (f)(2)(iv)(C) of this section.

(3) Additional documentation, including letters of support or cooperation, may be provided in the Appendix.

(d) Project summary. (1) A Project Summary should immediately follow the summary documentation of USDA agency cooperation. The information provided in the Project Summary will be used by the program staff for a variety of purposes, including the proper assignment of proposals to peer reviewers and providing information to peer reviewers prior to the peer panel meeting. The name of the institution, the targeted need area(s), and the title of the proposal must be identified exactly as shown on the “Higher Education Proposal Cover Page.”

(2) If the proposal is a complementary project proposal, as defined in §3406.2 of this part, clearly state this fact and identify the other complementary project(s) by citing the name of the submitting institution, the title of the project, the principal investigator, and the grant number (if funded in a
previous year) exactly as shown on the cover page of the complementary project so that appropriate consideration can be given to the interrelatedness of the proposals in the evaluation process. (3) If the proposal is a joint project proposal, as defined in §3406.2 of this part, indicate such and identify the other participating institutions and the key person responsible for coordinating the project at each institution.

(4) The Project Summary should be a concise description of the proposed activity suitable for publication by the Department to inform the general public about awards under the program. The text should not exceed one page, single-spaced. The Project Summary should be a self-contained description of the activity which would result if the proposal is funded by USDA. It should include: The objective of the project, a synopsis of the plan of operation, a statement of how the project will enhance the research capacity of the institution, a description of how the project will enhance research in the food and agricultural sciences, and a description of the partnership efforts between, and the expected benefits for, the USDA agency cooperator(s) and the 1890 Institution and the plans for disseminating project results. The Project Summary should be written so that a technically literate reader can evaluate the use of Federal funds in support of the project.

(e) Resubmission of a proposal—(1) Resubmission of previously unfunded proposals. (i) If the proposal has been submitted previously, but was not funded, such should be indicated in block 13 on Form CSREES-712, "Higher Education Proposal Cover Page," and the following information should be included in the proposal:

(A) The fiscal year(s) in which the proposal was submitted previously;

(B) A summary of the peer reviewers' comments; and

(C) How these comments have been addressed in the current proposal, including the page numbers in the current proposal where the peer reviewers' comments have been addressed.

(ii) This information may be provided as a section of the proposal following the Project Summary and preceding the proposal narrative or it may be placed in the Appendix (see paragraph (j) of this section). In either case, the location of this information should be indicated in the Table of Contents, and the fact that the proposal is a resubmitted proposal should be stated in the proposal narrative. Further, when possible, the information should be presented in a tabular format. Applicants who choose to resubmit proposals that were previously submitted, but not funded, should note that resubmitted proposals must compete equally with newly submitted proposals. Submitting a proposal that has been revised based on a previous peer review panel's critique of the proposal does not guarantee the success of the resubmitted proposal.

(2) Resubmission of previously funded proposals. Recognizing that capacity building is a long-term ongoing process, the 1890 Institution Capacity Building Grants Program is interested in funding subsequent phases of previously funded projects in order to build institutional capacity, and institutions are encouraged to build on a theme over several grant awards. However, proposals that are sequential continuations or new stages of previously funded Capacity Building Grants must compete with first-time proposals. Therefore, principal investigators should thoroughly demonstrate how the project proposed in the current application expands substantially upon a previously funded project (i.e., demonstrate how the new project will advance the former project to the next level of attainment or will achieve expanded goals). The proposal must also show the degree to which the new phase promotes innovativeness and creativity beyond the scope of the previously funded project. Please note that the 1890 Institution Capacity Building Grants Program is not designed to support activities that are essentially repetitive in nature over multiple grant awards. Principal investigators who have had their projects funded previously are discouraged from resubmitting relatively identical proposals for future funding.

(f) Narrative of a research proposal. The narrative portion of the proposal is limited to 20 pages in length. The one-
§ 3406.18

7 CFR Ch. XXXIV (1-1-98 Edition)

Page Project Summary is not included in the 20-page limitation. The narrative must be typed on one side of the page only, using a font no smaller than 12 point, and double-spaced. All margins must be at least one inch. All pages following the summary documentation of USDA agency cooperation must be paginated. It should be noted that peer reviewers will not be required to read beyond 20 pages of the narrative to evaluate the proposal. The narrative should contain the following sections:

(1) Significance of the problem—(i) Impact—(A) Identification of the problem or opportunity. Clearly identify the specific problem or opportunity to be addressed and present any research questions or hypotheses to be examined.

(B) Rationale. Provide a rationale for the proposed approach to the problem or opportunity and indicate the part that the proposed project will play in advancing food and agricultural research and knowledge. Discuss how the project will be of value and importance at the State, regional, national, or international level(s). Also discuss how the benefits to be derived from the project will transcend the proposing institution or the grant period.

(C) Literature review. Include a comprehensive summary of the pertinent scientific literature. Citations may be footnoted to a bibliography in the Appendix. Citations should be accurate, complete, and adhere to an acceptable journal format. Explain how such knowledge (or previous findings) is related to the proposed project.

(D) Current research and related activities. Describe the relevancy of the proposed project to current research or significant research support activities at the proposing institution and any other institution participating in the project, including research which may be as yet unpublished.

(ii) Continuation plans. Discuss the likelihood or plans for continuation or expansion of the project beyond USDA support. Discuss, as applicable, how the institution's long-range budget, and administrative and academic plans, provide for the realistic continuation or expansion of the line of research or research support activity undertaken by this project after the end of the grant period. For example, are there plans for securing non-Federal support for the project? Is there any potential for income from patents, technology transfer or university-business enterprises resulting from the project? Also discuss the probabilities of the proposed activity or line of inquiry being pursued by researchers at other institutions.

(iii) Innovation. Describe the degree to which the proposal reflects an innovative or non-traditional approach to a food and agricultural research initiative.

(iv) Products and results. Explain the kinds of products and results expected and their impact on strengthening food and agricultural sciences higher education in the United States, including attracting academically outstanding students or increasing the ethnic, racial, and gender diversity of the Nation's food and agricultural scientific and professional expertise base.

(2) Overall approach and cooperative linkages—(i) Approach—(A) Objectives. Cite and discuss the specific objectives to be accomplished under the project.

(B) Plan of operation. The procedures or methodologies to be applied to the proposed project should be explicitly stated. This section should include, but not necessarily be limited to a description of:

(1) The proposed investigations, experiments, or research support enhancements in the sequence in which they will be carried out.

(2) Procedures and techniques to be employed, including their feasibility.

(3) Means by which data will be collected and analyzed.

(4) Pitfalls that might be encountered.

(5) Limitations to proposed procedures.

(C) Timetable. Provide a timetable for execution of the project. Identify all important research milestones and dates as they relate to project start-up, execution, dissemination, evaluation, and close-out.

(ii) Evaluation plans. (A) Provide a plan for evaluating the accomplishment of stated objectives during the conduct of the project. Indicate the criteria, and corresponding weight of
Coop. State Research, Education, and Extension Ser., USDA § 3406.18

each, to be used in the evaluation process, describe any performance data to be collected and analyzed, and explain the methodologies that will be used to determine the extent to which the needs underlying the project are being met.

(B) Provide a plan for evaluating the effectiveness of the end results upon conclusion of the project. Include the same kinds of information requested in paragraph (f)(2)(ii)(A) of this section.

(iii) Dissemination plans. Provide plans for disseminating project results and products including the possibilities for publications. Identify target audiences and explain methods of communication.

(iv) Partnerships and collaborative efforts. (A) Explain how the project will maximize partnership ventures and collaborative efforts to strengthen food and agricultural sciences higher education (e.g., involvement of faculty in related disciplines at the same institution, joint projects with other colleges or universities, or cooperative activities with business or industry). Also explain how it will stimulate academia, the States, or the private sector to join with the Federal partner in enhancing food and agricultural sciences higher education.

(B) Provide evidence, via letters from the parties involved, that arrangements necessary for collaborative partnerships or joint initiatives have been discussed and realistically can be expected to come to fruition, or actually have been finalized contingent on an award under this program. Letters must be signed by an official who has the authority to commit the resources of the organization. Such letters should be included in the Appendix section of the proposal. Any potential conflict(s) of interest that might result from the proposed collaborative arrangements must be discussed in detail. Proposals which indicate joint projects with other institutions must state which proposer is to receive any resulting grant award, since only one submitting institution can be the recipient of a project grant under one proposal.

(C) Explain how the project will create a new or enhance an existing partnership between the USDA agency cooperator(s) and the 1890 Institution(s). This section should expand upon the summary information provided in the documentation of USDA agency cooperation section, as outlined in paragraph (c)(1) of this section. This is particularly important because the focal point of attention in the peer review process is the proposal narrative. Therefore, a comprehensive discussion of the partnership effort between USDA and the 1890 Institution should be provided.

(3) Institutional capacity building—(i) Institutional enhancement. Explain how the proposed project will strengthen the research capacity, as defined in §3406.2 of this part, of the applicant institution and, if applicable, any other institutions assuming a major role in the conduct of the project. For example, describe how the proposed project is intended to strengthen the institution's research infrastructure by advancing the expertise of the current faculty in the natural or social sciences; providing a better research environment, state-of-the-art equipment, or supplies; enhancing library collections; or enabling the institution to provide efficacious organizational structures and reward systems to attract and retain first-rate research faculty and students—particularly those from underrepresented groups.

(ii) Institutional commitment. (A) Discuss the institution’s commitment to the project and its successful completion. Provide, as relevant, appropriate documentation in the Appendix. Substantiate that the institution attributes a high priority to the project.

(B) Discuss how the project will contribute to the achievement of the institution’s long-term (five- to ten-year) goals and how the project will help satisfy the institution’s high-priority objectives. Show how this project is linked to and supported by the institution’s strategic plan.

(C) Discuss the commitment of institutional resources to the project. Show that the institutional resources to be made available to the project will be adequate, when combined with the support requested from USDA, to carry out the activities of the project and represent a sound commitment by the
institution. Discuss institutional facilities, equipment, computer services, and other appropriate resources available to the project.

(g) Key personnel. A Form CSREES-710, “Summary Vita—Research Proposal,” should be included for each key person associated with the project.

(h) Budget and cost-effectiveness—(1) Budget form. (i) Prepare Form CSREES-713, “Higher Education Budget,” in accordance with instructions provided with the form. Proposals may request support for a period to be identified in each year’s program announcement. A budget form is required for each year of requested support. In addition, a summary budget is required detailing the requested total support for the overall project period. Form CSREES-713 may be reproduced as needed by proposers. Funds may be requested under any of the categories listed on the form, provided that the item or service for which support is requested is allowable under the authorizing legislation, the applicable Federal cost principles, the administrative provisions in this part, and can be justified as necessary for the successful conduct of the proposed project.

(ii) The approved negotiated research rate or the maximum rate allowed by law should be used when computing indirect costs. If a reduced rate of indirect costs is voluntarily requested from USDA, the remaining allowable indirect costs may be used as matching funds. In the event that a proposal reflects an incorrect indirect cost rate and is recommended for funding, the correct rate will be applied to the approved budget in the grant award.

(2) Matching funds. When documenting matching contributions, use the following guidelines:

(i) When preparing the column entitled “Applicant Contributions To Matching Funds” of Form CSREES-713, only those costs to be contributed by the applicant for the purposes of matching should be shown. The total amount of this column should be indicated in item M.

(ii) In item N of Form CSREES-713, show a total dollar amount for Cash Contributions from both the applicant and any third parties; also show a total dollar amount (based on current fair market value) for Non-cash Contributions from both the applicant and any third parties.

(iii) To qualify for any incentive benefits stemming from matching support or to satisfy any cost sharing requirements, proposals must include written verification of any actual commitments of matching support (including both cash and non-cash contributions) from third parties. Written verification means—

(A) For any third party cash contributions, a separate pledge agreement for each donation, signed by the authorized organizational representatives of the donor organization (or by the donor if the gift is from an individual) and the applicant institution, which must include:

1. The name, address, and telephone number of the donor;
2. The name of the applicant institution;
3. The title of the project for which the donation is made;
4. The dollar amount of the cash donation; and
5. A statement that the donor will pay the cash contribution during the grant period; and

(B) For any third party non-cash contributions, a separate pledge agreement for each contribution, signed by the authorized organizational representatives of the donor organization (or by the donor if the gift is from an individual) and the applicant institution, which must include:

1. The name, address, and telephone number of the donor;
2. The name of the applicant institution;
3. The title of the project for which the donation is made;
4. A good faith estimate of the current fair market value of the non-cash contribution; and
5. A statement that the donor will make the contribution during the grant period.

(iv) All pledge agreements must be placed in the proposal immediately following Form CSREES-713. The sources and amounts of all matching support from outside the applicant institution should be summarized in the Budget Narrative section of the proposal.
Coop. State Research, Education, and Extension Ser., USDA § 3406.18

(3) Chart on shared budget for joint project proposal. (i) For a joint project proposal, a plan must be provided indicating how funds will be distributed to the participating institutions. The budget section of a joint project proposal should include a chart indicating:
(A) The names of the participating institutions;
(B) the amount of funds to be disbursed to those institutions; and
(C) the way in which such funds will be used in accordance with items A through L of Form CSREES-713, "Higher Education Budget."
(ii) If a proposal is not for a joint project, such a chart is not required.

(4) Budget narrative. (i) Discuss how the budget specifically supports the proposed project activities. Explain how each budget item (such as salaries and wages for professional and technical staff, student workers, travel, equipment, etc.) is essential to achieving project objectives.
(ii) Justify that the total budget, including funds requested from USDA and any matching support provided, will be adequate to carry out the activities of the project. Provide a summary of sources and amounts of all third party matching support.
(iii) Justify the project's cost-effectiveness. Show how the project maximizes the use of limited resources, optimizes research value for the dollar, achieves economies of scale, or leverages additional funds. For example, discuss how the project has the potential to generate a critical mass of expertise, and activity focused on a high-priority research initiative(s) or promote coalition building that could lead to future ventures.
(iv) Include the percentage of time key personnel will work on the project, both during the academic year and summer. When salaries of university project personnel will be paid by a combination of USDA and institutional funds, the total compensation must not exceed the faculty member's regular annual compensation. In addition, the total commitment of time devoted to the project, when combined with time for teaching and research duties, other sponsored agreements, and other employment obligations to the institution, must not exceed 100 percent of the normal workload for which the employee is compensated, in accordance with established university policies and applicable Federal cost principles.
(v) If the proposal addresses more than one targeted need area, estimate the proportion of the funds requested from USDA that will support each respective targeted need area.

(j) Current and pending support. Each applicant must complete Form CSREES-663, "Current and Pending Support," identifying any other current public- or private-sponsored projects, in addition to the proposed project, to which key personnel listed in the proposal under consideration have committed portions of their time, whether or not salary support for the person(s) involved is included in the budgets of the various projects. This information should also be provided for any pending proposals which are currently being considered by, or which will be submitted in the near future to, other possible sponsors, including other USDA programs or agencies. Concurrent submission of identical or similar projects to other possible sponsors will not prejudice the review or evaluation of a project under this program.

(j) Appendix. Each project narrative is expected to be complete in itself and to meet the 20-page limitation. Inclusion of material in the Appendix should not be used to circumvent the 20-page limitation of the proposal narrative. However, in those instances where inclusion of supplemental information is necessary to guarantee the peer review panel's complete understanding of a proposal or to illustrate the integrity of the design or a main thesis of the proposal, such information may be included in the Appendix. Examples of supplemental material are photographs, journal reprints, brochures and other pertinent materials which are
deemed to be illustrative of major points in the narrative but unsuitable for inclusion in the proposal narrative itself. Information on previously submitted proposals may also be presented in the Appendix (refer to paragraph (e) of this section). When possible, information in the Appendix should be presented in tabular format. A complete set of the Appendix material must be attached to each copy of the grant application submitted. The Appendix must be identified with the title of the project as it appears on Form CSREES-712 of the proposal and the name(s) of the principal investigator(s). The Appendix must be referenced in the proposal narrative.

(k) Special considerations. A number of situations encountered in the conduct of research require special information or supporting documentation before funding can be approved for the project. If such situations are anticipated, proposals must so indicate via completion of Form CSREES-662, “Assurance Statement(s).” It is expected that some applications submitted in response to these guidelines will involve the following:

(1) Recombinant DNA research. All key personnel identified in the proposal and all endorsing officials of the proposing organization are required to comply with the guidelines established by the National Institutes of Health entitled “Guidelines for Research Involving Recombinant DNA Molecules,” as revised. All applicants proposing to use recombinant DNA techniques must so indicate by checking the appropriate box on Form CSREES-712, “Higher Education Proposal Cover Page,” and by completing the applicable section of Form CSREES-662. In the event a project involving human subjects results in a grant award, the Institutional Biosafety Committee of the proposing institution must approve the research plan before CSREES will release grant funds.

(2) Protection of human subjects. Responsibility for safeguarding the rights and welfare of human subjects used in any grant project supported with funds provided by CSREES rests with the performing organization. Guidance on this is contained in Department of Agriculture regulations under 7 CFR part 1c. All applicants who propose to use human subjects for experimental purposes must indicate their intention by checking the appropriate block on Form CSREES-712, “Higher Education Proposal Cover Page,” and by completing the appropriate portion of Form CSREES-662. In the event a project involving human subjects results in a grant award, the Institutional Review Board of the proposing institution must approve the research plan before CSREES will release grant funds.

(3) Laboratory animal care. Responsibility for the humane care and treatment of laboratory animals used in any grant project supported with funds provided by CSREES rests with the performing organization. All key project personnel and all endorsing officials of the proposing organization are required to comply with the Animal Welfare Act of 1966, as amended (7 U.S.C. 2131 et seq.), and the regulations promulgated thereunder by the Secretary of Agriculture in 9 CFR parts 1, 2, 3, and 4 pertaining to the care, handling, and treatment of laboratory animals. All applicants proposing a project which involves the use of laboratory animals must indicate their intention by checking the appropriate box on Form CSREES-712, “Higher Education Proposal Cover Page,” and by completing the appropriate portion of Form CSREES-662. In the event a project involving the use of living vertebrate animals results in a grant award, the Institutional Animal Care and Use Committee of the proposing institution must approve the research plan before CSREES will release grant funds.

(l) Compliance with the National Environmental Policy Act (NEPA). As outlined in 7 CFR Part 3407 (the Cooperative State Research, Education, and Extension Service regulations implementing NEPA), the environmental data for any proposed project is to be provided to CSREES so that CSREES may determine whether any further action is needed. In some cases, however, the preparation of environmental data may not be required. Certain categories of actions are excluded from the requirements of NEPA:

(1) NEPA determination. In order for CSREES to determine whether any further action is needed with respect to
NEPA, pertinent information regarding the possible environmental impacts of a particular project is necessary; therefore, Form CSREES-1234, "NEPA Exclusions Form," must be included in the proposal indicating whether the applicant is of the opinion that the project falls within a categorical exclusion and the reasons therefor. If it is the applicant's opinion that the proposed project falls within the categorical exclusions, the specific exclusion must be identified. Form CSREES-1234 and any supporting documentation should be placed at the end of the proposal and identified in the Table of Contents.

(2) Exceptions to categorical exclusions. Even though a project may fall within the categorical exclusions, CSREES may determine that an Environmental Assessment or an Environmental Impact Statement is necessary for an activity, if substantial controversy on environmental grounds exists or if other extraordinary conditions or circumstances are present which may cause such activity to have a significant environmental effect.

Subpart F—Review and Evaluation of a Research Proposal

§ 3406.19 Proposal review—research.

The proposal evaluation process includes both internal staff review and merit evaluation by peer review panels comprised of scientists, educators, business representatives, and Government officials who are highly qualified to render expert advice in the areas supported. Peer review panels will be selected and structured to provide optimum expertise and objective judgment in the evaluation of proposals.

§ 3406.20 Evaluation criteria for research proposals.

The maximum score a research proposal can receive is 150 points. Unless otherwise stated in the annual solicitation published in the FEDERAL REGISTER, the peer review panel will consider the following criteria and weights to evaluate proposals submitted:

<table>
<thead>
<tr>
<th>Evaluation criterion</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>(a) Significance of the problem:</td>
<td></td>
</tr>
<tr>
<td>This criterion is used to assess the likelihood that the project will advance or have a substantial impact upon the body of knowledge constituting the natural and social sciences undergirding the agricultural, natural resources, and food systems.</td>
<td></td>
</tr>
<tr>
<td>(1) Impact—Is the problem or opportunity to be addressed by the proposed project clearly identified, outlined, and delineated? Are research questions or hypotheses precisely stated? Is the project likely to further advance food and agricultural research and knowledge? Does the project have potential for augmenting the food and agricultural scientific knowledge base? Does the project address a State, regional, national, or international problem(s)? Will the benefits to be derived from the project transcend the applicant institution or the grant period?</td>
<td>15 points.</td>
</tr>
<tr>
<td>(2) Continuation plans—Are there plans for continuation or expansion of the project beyond USDA support? Are there plans for continuing this line of research or research support activity with the use of institutional funds after the end of the grant? Are there indications of external, non-Federal support? Are there realistic plans for making the project self-supporting? What is the potential for royalty or patent income, technology transfer or university-business enterprises? What are the probabilities of the proposed activity or line of inquiry being pursued by researchers at other institutions?</td>
<td>10 points.</td>
</tr>
<tr>
<td>(3) Innovation—Are significant aspects of the project based on an innovative or a non-traditional approach? Does the project reflect creative thinking? To what degree does the venture reflect a unique approach that is new to the applicant institution or new to the entire field of study?</td>
<td>10 points.</td>
</tr>
<tr>
<td>(4) Products and results—Are the expected products and results of the project clearly outlined and likely to be of high quality? Will project results be of an unusual or unique nature? Will the project contribute to a better understanding of or an improvement in the quality, distribution, or effectiveness of the Nation’s food and agricultural scientific and professional expertise base, such as increasing the participation of women and minorities?</td>
<td>15 points.</td>
</tr>
<tr>
<td>(b) Overall approach and cooperative linkages:</td>
<td></td>
</tr>
<tr>
<td>This criterion relates to the soundness of the proposed approach and the quality of the partnerships likely to evolve as a result of the project.</td>
<td></td>
</tr>
<tr>
<td>(1) Proposed approach—Do the objectives and plan of operation appear to be sound and appropriate relative to the proposed initiative(s) and the impact anticipated? Is the proposed sequence of work appropriate? Does the proposed approach reflect sound knowledge of current theory and practice and awareness of previous or ongoing related research? If the proposed project is a continuation of a current line of study or currently funded project, does the proposal include sufficient preliminary data from the previous research or research support activity? Does the proposed project flow logically from the findings of the previous stage of study? Are the procedures scientifically and managerially sound? Are potential pitfalls and limitations clearly identified? Are contingency plans delineated? Does the timetable appear to be readily achievable?</td>
<td>5 points.</td>
</tr>
</tbody>
</table>
CSREES will determine each year if the institution anticipates submitting. Submitting this form does not commit an institution to any course of action, nor does failure to send this form prohibit an institution from submitting a proposal.

### Subpart G—Submission of a Teaching or Research Proposal

#### § 3406.21 Intent to submit a proposal.

To assist CSREES in preparing for the review of proposals, institutions planning to submit proposals may be requested to complete Form CSREES-711, “Intent to Submit a Proposal,” provided in the application package. CSREES will determine each year if Intent to Submit a Proposal forms will be requested and provide such information in the program announcement. If Intent to Submit a Proposal forms are required, one form should be completed and returned for each proposal an institution anticipates submitting. Submitting this form does not commit an institution to any course of action, nor does failure to send this form prohibit an institution from submitting a proposal.

<table>
<thead>
<tr>
<th>Evaluation criterion</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>(2) Evaluation—Are the evaluation plans adequate and reasonable? Do they allow for continuous or frequent feedback during the life of the project? Are the individuals involved in project evaluation skilled in evaluation strategies and procedures? Can they provide an objective evaluation? Do evaluation plans facilitate the measurement of project progress and outcomes?</td>
<td>5 points</td>
</tr>
<tr>
<td>(3) Dissemination—Does the proposed project include clearly outlined and realistic mechanisms that will lead to widespread dissemination of project results, including national electronic communication systems, publications and presentations at professional society meetings?</td>
<td>5 points</td>
</tr>
<tr>
<td>(4) Partnerships and collaborative efforts—Does the project have significant potential for advancing cooperative ventures between the applicant institution and a USDA agency? Does the project workplan include an effective role for the cooperating USDA agency(s)? Will the project encourage and facilitate better working relationships in the university science community, as well as between universities and the public or private sector? Does the project encourage appropriate multidisciplinary collaboration? Will the project lead to long-term relationships or cooperative partnerships that are likely to enhance research quality or supplement available resources?</td>
<td>15 points</td>
</tr>
<tr>
<td>(c) Institutional capacity building—This criterion relates to the degree to which the project will strengthen the research capacity of the applicant institution. In the case of a joint project proposal, it relates to the degree to which the project will strengthen the research capacity of the applicant institution and that of any other institution assuming a major role in the conduct of the project.</td>
<td>15 points</td>
</tr>
<tr>
<td>(1) Institutional enhancement—Will the project help the institution to advance the expertise of current faculty in the natural or social sciences; provide a better research environment, state-of-the-art equipment, or supplies; enhance library collections related to the area of research; or enable the institution to provide efficacious organizational structures and reward systems to attract, hire and retain first-rate research faculty and students, particularly those from underrepresented groups?</td>
<td>10 points</td>
</tr>
<tr>
<td>(2) Institutional commitment—Is there evidence to substantiate that the institution attributes a high priority to the project, that the project is linked to the achievement of the institution’s long-term goals, that it will help satisfy the institution’s high-priority objectives, or that the project is supported by the institution’s strategic plans? Will the project have reasonable access to needed resources such as scientific instrumentation, facilities, computer services, library and other research support resources?</td>
<td>5 points</td>
</tr>
<tr>
<td>(d) Personnel Resources—This criterion relates to the number and qualifications of the key persons who will carry out the project. Are designated project personnel qualified to carry out a successful project? Are there sufficient numbers of personnel associated with the project to achieve the stated objectives and the anticipated outcomes? Will the project help develop the expertise of young scientists at the doctoral or post-doctorate level?</td>
<td>10 points</td>
</tr>
<tr>
<td>(e) Budget and cost-effectiveness—This criterion relates to the extent to which the total budget adequately supports the project and is cost-effective.</td>
<td>10 points</td>
</tr>
<tr>
<td>(1) Budget—Is the budget request justifiable? Are costs reasonable and necessary? Will the total budget be adequate to carry out project activities? Are the source(s) and amount(s) of non-Federal matching support clearly identified and appropriately documented? For a joint project proposal, is the shared budget explained clearly and in sufficient detail?</td>
<td>5 points</td>
</tr>
<tr>
<td>(2) Cost-effectiveness—Is the proposed project cost-effective? Does it demonstrate a creative use of limited resources, maximize research value per dollar of USDA support, achieve economies of scale, leverage additional funds or have the potential to do so, focus expertise and activity on a high-priority research initiative(s), or promote coalition building for current or future ventures?</td>
<td>5 points</td>
</tr>
<tr>
<td>(f) Overall quality of proposal—This criterion relates to the degree to which the proposal complies with the application guidelines and is of high quality. Is the proposal enhanced by its adherence to instructions (table of contents, organization, pagination, margin and font size, the 20-page limitation, appendices, etc.); accuracy of forms; clarity of budget narrative; well prepared vitae for all key personnel associated with the project; and presentation (are ideas effectively presented, clearly articulated, thoroughly explained, etc.)?</td>
<td>5 points</td>
</tr>
</tbody>
</table>
§ 3406.22 When and where to submit a proposal.

The program announcement will provide the deadline date for submitting a proposal, the number of copies of each proposal that must be submitted, and the address to which proposals must be submitted.

Subpart H—Supplementary Information

§ 3406.23 Access to peer review information.

After final decisions have been announced, CSREES will, upon request, inform the principal investigator/project director of the reasons for its decision on a proposal. Verbatim copies of summary reviews, not including the identity of the peer reviewers, will be made available to the respective principal investigator/project directors upon specific request.

§ 3406.24 Grant awards.

(a) General. Within the limit of funds available for such purpose, the authorized departmental officer shall make project grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced targeted need areas under the evaluation criteria and procedures set forth in this part. The beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved for support. All funds granted under this part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department's Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (7 CFR part 3019).

(b) Organizational management information. Specific management information relating to a proposing institution shall be submitted on a one-time basis prior to the award of a project grant identified under this part if such information has not been provided previously under this or another program for which the sponsoring agency is responsible. Copies of forms used to fulfill this requirement will be sent to the proposing institution by the sponsoring agency as part of the pre-award process.

(c) Notice of grant award. The grant award document shall include at a minimum the following:

(1) Legal name and address of performing organization.
(2) Title of project.
(3) Name(s) and address(es) of principal investigator(s)/project director(s).
(4) Identifying grant number assigned by the Department.
(5) Project period, which specifies how long the Department intends to support the effort without requiring re-application for funds.
(6) Total amount of Federal financial assistance approved during the project period.
(7) Legal authority(ies) under which the grant is awarded.
(8) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the grant award.
(9) Other information or provisions deemed necessary by the Department to carry out its granting activities or to accomplish the purpose of this particular project grant.

(d) Obligation of the Federal Government. Neither the approval of any application nor the award of any project grant shall legally commit or obligate CSREES or the United States to provide further support of a project or any portion thereof.

§ 3406.25 Use of funds; changes.

(a) Delegation of fiscal responsibility. The grantee may not in whole or in part delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of grant funds.

(b) Change in project plans. (1) The permissible changes by the grantee, principal investigator(s)/project director(s), or other key project personnel in the approved project grant shall be limited to changes in methodology, techniques, or other aspects of the project to expedite achievement of the project's approved goals. If the grantee
or the principal investigator(s)/project director(s) are uncertain as to whether a change complies with this provision, the question must be referred to the Department for a final determination.

(2) Changes in approved goals, or objectives, shall be requested by the grantee and approved in writing by the authorized departmental officer prior to effecting such changes. In no event shall requests for such changes be approved which are outside the scope of the approved project.

(3) Changes in approved project leadership or the replacement of reassignment of other key project personnel shall be requested by the grantee and approved in writing by the authorized departmental officer prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the grantee and approved in writing by the authorized departmental officer prior to effecting such transfers.

(c) Changes in project period. The project period may be extended by the authorized departmental officer without additional financial support for such additional period(s) as the authorized departmental officer determines may be necessary to complete or fulfill the purposes of an approved project. However, due to statutory restriction, no grant may be extended beyond five years from the original start date of the grant. Grant extensions shall be conditioned upon prior request by the grantee and approval in writing by the authorized departmental officer, unless prescribed otherwise in the terms and conditions of a grant.

(d) Changes in approved budget. Changes in an approved budget must be requested by the grantee and approved in writing by the authorized departmental officer prior to instituting such changes if the revision will:

(1) Involve transfers of amounts budgeted for indirect costs to absorb an increase in direct costs;

(2) Involve transfers of amounts budgeted for direct costs to accommodate changes in indirect cost rates negotiated during a budget period and not approved when a grant was awarded; or

(3) Involve transfers or expenditures of amounts requiring prior approval as set forth in the applicable Federal cost principles, Departmental regulations, or in the grant award.

§ 3406.26 Monitoring progress of funded projects.

(a) During the tenure of a grant, principal investigators/project directors must attend at least one national principal investigators/project directors meeting, if offered, in Washington, DC or any other announced location. The purpose of the meeting will be to discuss project and grant management, opportunities for collaborative efforts, future directions for education reform, research project management, advancing a field of science, and opportunities to enhance dissemination of exemplary end products/results.

(b) An Annual Performance Report must be submitted to the USDA program contact person within 90 days after the completion of the first year of the project and annually thereafter during the life of the grant. Generally, the Annual Performance Reports should include a summary of the overall progress toward project objectives, current problems or unusual developments, the next year's planned activities, and any other information that is pertinent to the ongoing project or which may be specified in the terms and conditions of the award. These reports are in addition to the annual Current Research Information System (CRIS) reports required for all research grants under the award's “Special Terms and Conditions.”

(c) A Final Performance Report must be submitted to the USDA program contact person within 90 days after the expiration date of the project. The expiration date is specified in the award documents and modifications thereto, if any. Generally, the Final Performance Report should be a summary of the completed project, including: A review of project objectives and accomplishments; a description of any products and outcomes resulting from the project; activities undertaken to disseminate products and outcomes; partnerships and collaborative ventures.
that resulted from the project; future initiatives that are planned as a result of the project; the impact of the project on the principal investigator(s)/project director(s), the institution, and the food and agricultural sciences higher education system; and data on project personnel and beneficiaries. The Final Performance Report should be accompanied by samples or copies of any products or publications resulting from or developed by the project. The Final Performance Report must also contain any other information which may be specified in the terms and conditions of the award.

§ 3406.27 Other Federal statutes and regulations that apply.

Several other Federal statutes and regulations apply to grant proposals considered for review and to project grants awarded under this part. These include but are not limited to:

7 CFR Part 15, Subpart A—USDA implementation of Title VI of the Civil Rights Act of 1964, as amended.
7 CFR Part 3018—Restrictions on Lobbying, prohibiting the use of appropriated funds to influence Congress or a Federal agency in connection with the making of any Federal grant and other Federal contracting and financial transactions.

29 U.S.C. 794, section 504—Rehabilitation Act of 1973, and 7 CFR Part 15b (USDA implementation of statute), prohibiting discrimination based upon physical or mental handicap in Federally assisted programs.
35 U.S.C. 200 et seq.—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR part 401).

§ 3406.28 Confidential aspects of proposals and awards.

When a proposal results in a grant, it becomes a part of the record of the Agency’s transactions, available to the public upon specific request. Information that the Secretary determines to be of a privileged nature will be held in confidence to the extent permitted by law. Therefore, any information that the applicant wishes to have considered as privileged should be clearly marked as such and sent in a separate statement, two copies of which should accompany the proposal. The original copy of a proposal that does not result in a grant will be retained by the Agency for a period of one year. Other copies will be destroyed. Such a proposal will be released only with the consent of the applicant or to the extent required by law. A proposal may be withdrawn at any time prior to the final action thereon.

§ 3406.29 Evaluation of program.

Grantees should be aware that CSREES may, as a part of its own program evaluation activities, carry out in-depth evaluations of assisted activities. Thus, grantees should be prepared to cooperate with CSREES personnel or persons retained by CSREES, evaluating the institutional context and the impact of any supported project. Grantees may be asked to provide general information on any students and faculty supported, in whole or in part, by a grant awarded under this program; information that may be requested includes, but is not limited to, standardized academic achievement test scores, grade point average, academic standing, career patterns, age, race/ethnicity, gender, citizenship, and disability.
PART 3407—IMPLEMENTATION OF NATIONAL ENVIRONMENTAL POLICY ACT

Sec. 3407.1 Background and purpose.
3407.2 Definitions.
3407.3 Policy.
3407.4 Responsibilities.
3407.5 Classes of action.
3407.6 Categorical exclusions.
3407.7 Actions normally requiring an environmental assessment.
3407.8 Actions normally requiring an environmental impact statement.
3407.9 Use of environmental documents in decisionmaking.
3407.10 Preparation of environmental assessments.
3407.11 Preparation of environmental impact statements.

SOURCE: 56 FR 49245, Sept. 27, 1991, unless otherwise noted.

§ 3407.1 Background and purpose.
(a) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 et seq.) establishes national policies and goals for the protection of the human environment. Section 102(2) of NEPA directs all Federal agencies to give appropriate consideration to the environmental consequences of proposed actions in their decisionmaking and to prepare detailed environmental statements on major Federal actions significantly affecting the quality of the human environment.
(b) The purpose of this regulation is to supplement the regulations for implementation of NEPA established by the Council on Environmental Quality (CEQ) and codified at 40 CFR parts 1500-1508, as adopted by USDA in 7 CFR part 1b.
(c) Unless otherwise noted, parenthetical citations throughout this part refer to the CEQ regulations.

§ 3407.2 Definitions.
(a) Authorized Departmental Officer means the CSREES official, acting within the scope of delegated authority, who is responsible for awarding and administering project grants on behalf of USDA and for carrying out NEPA responsibilities as outlined in §3407.4(d) of this part. The Authorized Departmental Officer's responsibilities do not include the review, approval, management, or similar activity relating to programs or projects funded by CSREES on the basis of statutory formula and also do not include parallel responsibilities relating to the management or administration of cooperative agreements awarded by CSREES.
(b) Other terms used in this regulation have the same meaning as they have in the CEQ regulations.

§ 3407.3 Policy.
(a) It is CSREES policy to comply with the provisions of NEPA and related laws and policies and with the implementing regulations cited in §3407.1(b) of this part.
(b) Environmental documents should be concise, written in plain language, and address the issues pertinent to the decision being made.
(c) Environmental documents may be substituted for or combined with other reports which serve to facilitate decisionmaking (40 CFR 1506.4).
(d) CSREES personnel will cooperate with other Federal and State agencies or units thereof, as well as with grantees, contractors, and other cooperating individuals or entities undertaking activities funded or recommended for funding by CSREES to assure that NEPA considerations are addressed early in the planning process to avoid delays and conflicts (40 CFR 1501.2).
(e) CSREES reserves the right to require project participants outside of CSREES to furnish environmental data or documentation to assist CSREES in carrying out its responsibilities under NEPA. When an applicant, grantee, or other cooperating individual or organization is required to submit environmental data to CSREES, including preparation of an environmental assessment (EA), or when a contractor hired by a grantee or other cooperating party prepares environmental data or documentation, CSREES shall provide advance instructions to the applicant, grantee, or other cooperor relating to the preparation and submission of...
Coop. State Research, Education, and Extension Ser., USDA § 3407.4

the required information. All information supplied by external project participants shall be subject to verification by CSREES (40 CFR 1506.5).

(f) When possible, costs of analyses and development of required environmental documents shall be planned for during the budgetary process relating to the plan or program. Where the nature of particular program agreements (e.g., grants, cooperative agreements, formula projects) are determined by CSREES to require environmental documentation, the cost of preparing such documentation and of reasonable mitigation efforts shall be considered allowable costs and may be charged to the project as a portion of the Federal or the non-Federal share of project costs. However, CSREES funds above those authorized for the program award will not be made available to recipients to cover such costs.

(g) Final environmental documents, decision notices, and records of decision shall be available to the public for review. There shall be an early and open process for determining the scope of issues to be addressed during environmental analysis (40 CFR 1501.7).

(h) The concept of tiering to eliminate repetitive discussions applicable to EISs (40 CFR part 1502) is applicable to EAs also.

(i) CSREES officials may adopt an existing Federal EA or EIS when a proposed action is substantially the same as the action for which an existing EA or EIS was prepared (40 CFR 1506.3), provided that the EA or EIS or portion thereof meets the standards for an adequate EA or EIS under these regulations.

(j) Existing environmental documents may be incorporated by reference to reduce the bulk of an EA or EIS (40 CFR 1502.21).

(k) After prior consultation with the Council on Environmental Quality, CSREES personnel may, in emergency situations, implement alternative arrangements for compliance with these procedures in accordance with 40 CFR 1506.11.

§ 3407.4 Responsibilities.

The CSREES officials identified below are responsible for carrying out the provisions of NEPA as indicated:

(a) Administrator. The Administrator is responsible for providing leadership, formulating agency policies and procedures to implement NEPA, and making available necessary resources to ensure that NEPA goals are met.

(b) Associate Administrators and Deputy Administrators. Associate Administrators and Deputy Administrators are responsible for:

1. Ensuring that eligible institutions under CSREES formula grant programs are notified of agency environmental requirements before projects to be funded with formula funds are submitted to CSREES for approval;

2. Assuring that adequate consideration is given to environmental effects of proposed actions during programmatic planning and decision-making processes for grants, cooperative agreements, and formula projects;

3. Ensuring that environmental information is reviewed and that required documentation is developed in a timely and satisfactory manner for grants, cooperative agreements, and formula projects;

4. Approving courses of action within the range of alternatives presented including, as appropriate, approval or recommendation of EAs and EISs for grants, cooperative agreements, and formula projects;

(c) Program Managers. CSREES Program Managers are responsible for:

1. Preparing EISs when required;

2. Reviewing and making recommendations relating to environmental documentation submitted by project recipients;

3. Recommending and implementing courses of action within the range of alternatives presented; and

(d) Authorized Departmental Officer. The Authorized Departmental Officer is responsible for:

1. Ensuring that eligible applicants under CSREES’ project grant programs are notified of agency environmental requirements in advance of proposal preparation;

2. Providing terms and conditions of grant award for adequate environmental documentation; and

3. Authorizing the commencement of approved project activities.
§ 3407.5 Classes of action.

The following describes typical classes of action associated with CSREES programs and related activities:

(a) Actions which normally do not require the preparation of an EA or an EIS are those actions which ordinarily do not have significant individual or cumulative effect on the quality of the human environment. These include those activities described in §§3407.6(a)(1) and (a)(2) of this part.

(b) Actions normally requiring an EA, but not necessarily an EIS, are those projects in which at least some level of uncertainty exists regarding individual or cumulative effects on the quality of the human environment. Such actions generally include those identified in §§3407.6(b) and 3407.7 of this part.

(c) Actions normally requiring an EIS are projects which are determined to have a significant impact on the quality of the human environment or which will be performed under extraordinary circumstances. These types of actions are identified in §§3407.6(b) and 3407.8 of this part.

§ 3407.6 Categorical exclusions.

(a) All CSREES actions will be analyzed by the appropriate CSREES official specified in §3407.4(c) to determine whether the project under consideration will have a significant environmental effect prior to recommending to the official responsible for approving a formula project in the case of formula grants, or the official responsible for awarding a grant or cooperative agreement that the action be undertaken. Unless otherwise determined to be necessary under the provisions of paragraph (b) of this section, however, the preparation of an EA or EIS is not required for the following categories of actions:

(1) Department of Agriculture Categorical Exclusions (7 CFR 1b.3).

(ii) Activities which deal solely with the functions of programs, such as program budget proposals, disbursement, and transfer or reprogramming of funds;

(iii) Inventories, research activities and studies, such as resource inventories and routine data collection when such actions are clearly limited in context and intensity;

(iv) Educational and informational programs and activities;

(v) Civil and criminal law enforcement and investigative activities;

(vi) Activities which are advisory and consultative to other agencies and public and private entities; and

(vii) Activities related to trade representation and market development activities abroad.

(2) CSREES categorical exclusions. Based on previous experience, the following categories of CSREES actions are excluded because they have been found to have limited scope and intensity and to have no significant individual or cumulative impacts on the quality of the human environment:

(i) The following categories of research programs or projects of limited size and magnitude or with only short-term effects on the environment:

(A) Research conducted within any laboratory, greenhouse, or other contained facility where research practices and safeguards prevent environmental impacts;

(B) Surveys, inventories, and similar studies that have limited context and minimal intensity in terms of changes in the environment; and

(C) Testing outside of the laboratory, such as in small isolated field plots, which involves the routine use of familiar chemicals or biological materials.

(ii) Routine renovation, rehabilitation, or revitalization of physical facilities, including the acquisition and installation of equipment, where such activity is limited in scope and intensity.

(b) Exceptions to categorical exclusions. Notwithstanding paragraph (a)
of this section, an EA or EIS shall be prepared for an activity which is normally within the purview of categorical exclusion where it is determined by CSREES that substantial controversy on environmental grounds exists or that other extraordinary conditions or circumstances are present which may cause such activity to have a significant environmental effect.

§ 3407.7 Actions normally requiring an environmental assessment.

The following actions normally will require an EA:
(a) Programs supported in whole or in part by CSREES which may result in a particular technology's moving from the field evaluation stage to large-scale demonstration or simulated commercial phase.
(b) Field work that is expected to have an effect on the human environment such as large-scale excavations or the use of explosives.
(c) Projects for the construction or renovation of physical facilities, unless categorically excluded under § 3407.6(a)(2)(ii).
(d) Activities specified in § 3407.6(b).

§ 3407.8 Actions normally requiring an environmental impact statement.

An EIS normally will be required for major actions where it is determined by CSREES that such activity will significantly affect the quality of the human environment, including those specified in § 3407.6(b).

§ 3407.9 Use of environmental documents in decisionmaking.

In carrying out agency responsibilities under NEPA, CSREES officials shall:
(a) Consider all relevant environmental documents in evaluating programs, proposals, or projects for final agency action.
(b) Make all relevant final environmental documents, comments, and responses part of the record in rulemaking and adjudicatory proceedings.
(c) Ensure that all relevant final environmental documents, comments, and responses are submitted to CSREES in a timely fashion, subject to normal agency review processes, and are made a part of the official record.
(d) Consider only those alternatives encompassed by the range of alternatives discussed in the relevant environmental documents when evaluating plans, programs, or proposals for agency action.

§ 3407.10 Preparation of environmental assessments.

(a) Format and content. An EA may be prepared in any format provided that it covers, in a logical and succinct fashion, the information necessary for determining whether a proposed CSREES action may have a significant environmental impact and thus warrant preparation of an EIS. The information must include brief discussions on the need for the project, alternatives to the proposed action, environmental impacts of the proposed action and alternatives, and a listing of agencies and persons consulted (40 CFR 1508.9). Where possible, EAs should be limited to 10-15 pages. NOTE: It is the scope and complexity of the environmental issues, rather than the size of the project, that should be used to determine the length of the EA.

(b) Supplements to environmental assessments. Where substantial changes occur in a project or activity for which an EA has been prepared and it is determined by a responsible CSREES official specified in § 3407.4(b) that the changes are pertinent to environmental concerns, a supplement to the EA may be required. Supplements to EAs shall be evaluated and processed as stated in paragraph (c) of this section.

(c) Decision notice. Upon completion of an EA and any supplement thereto, the responsible CSREES official will evaluate the information it contains, determine whether an EIS is required or whether no significant environmental impact is likely to occur, and will document the decision and the reasons upon which it is based (40 CFR 1508.13). The EA shall be available to the public.
§ 3407.11 Preparation of environmental impact statements.

(a) Actions involving more than one agency. If more than one Federal agency participates in a program activity, a lead agency shall be selected in accordance with 40 CFR 1501.5(c). The lead agency, in full cooperation with all participating agencies, shall assume responsibility for involving the public as required in 40 CFR 1501.4(b) and shall prepare the EIS or shall cause the EIS to be prepared as provided in 40 CFR 1501.5.

(b) Notice of intent. If a responsible CSREES official designated in § 3407.4(b) of this part recommends the preparation of an EIS, the public shall be apprised of the decision. This notice shall be prepared according to 40 CFR 1508.2.

(c) Draft and final EIS. The process of preparing the draft and final EIS, as well as the format of the document, shall comply with the provisions of 40 CFR parts 1502-1506.

(d) Supplemental statements. Where substantial changes occur or new information becomes available under a project or activity for which an EIS or draft EIS has been prepared and it is determined by a responsible CSREES official specified in § 3407.4(b) that the changes are pertinent to environmental concerns, a supplement to the EIS or draft EIS may be required. The supplement shall be evaluated and processed in accordance with 40 CFR 1502.9(c).

(e) Decisionmaking and implementation. A responsible CSREES official designated in § 3407.4(b) may make a decision no sooner than thirty days after the notice of availability of the final EIS has been published in the Federal Register by the Environmental Protection Agency (40 CFR 1506.10). The decision will be documented in a record of decision as required by 40 CFR 1505.2, and monitoring and mitigation activities will be implemented as required by 40 CFR 1505.3.
multidisciplinary teams whose research has the eventual goal of technology transfer; institutions for improvement of research, development, technology transfer and education capacity through the acquisition of special research equipment and improvement of teaching and education, including fellowships; single investigators or coinvestigators who are beginning their research careers; and, faculty of small and mid-sized institutions not previously successful in obtaining competitive grants under this subsection. The National Research Initiative Competitive Grants Program (NRICGP) Board of Directors was established by the Assistant Secretary for Science and Education to advise the Assistant Secretary on policy issues concerning NRICGP. The Board is comprised of the Assistant Secretary for Science and Education; the Administrators of the Cooperative State Research Service, the Agricultural Research Service, the Extension Service, and the Economic Research Service; the Deputy Chief for Research of the Forest Service; the Chief Scientist of the NRICGP; and the Director of the National Agricultural Library. Any determinations made by the Joint Council on Food and Agricultural Sciences, including recommendations made by the Agricultural Science and Technology Review Board, and the National Agricultural Research and Extension Users Advisory Board, will be taken into consideration by the Board in recommending policies and priorities for the NRICGP. The advice of other individuals is also encouraged; that advice also is provided to the Board of Directors. The Administrator of CSRS shall determine and announce, through publication of a Notice in such publications as the Federal Register, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means, high-priority research areas and categories to improve research capabilities for which proposals will be solicited and the extent that funds are available therefor.

The regulations of this part do not apply to grants awarded by the Department of Agriculture under any other authority.

§ 3411.2 Definitions.

As used in this part and in annual program solicitations issued pursuant to this part:

(a) Administrator means the Administrator of the Cooperative State Research Service (CSRS) and any other officer or employee of the Department of Agriculture to whom the authority involved may be delegated.

(b) Department means the Department of Agriculture.

(c) Principal investigator means a single individual who is responsible for the scientific and technical direction of the project, as designated by the grantee in the grant application and approved by the Administrator.

(d) Grantee means the entity designated in the grant award document as the responsible legal entity to whom a grant is awarded under this part.

(e) Grant means the award by the Administrator of funds to a grantee to assist in meeting the costs of conducting, for the benefit of the public, an identified project which is intended and designed to establish, discover, elucidate, or confirm information or the underlying mechanisms relating to a research program area identified in the program solicitation; it also means the award by the Administrator of funds to a grantee to strengthen its research capabilities relating to a research program area identified in the program solicitation;

(f) Project means the particular activity within the scope of one or more of the research program areas or the categories to improve research capabilities identified in the program solicitation that is supported by a grant under this part.

(g) Project period means the total time approved by the Administrator for conducting the proposed project as outlined in an approved grant application.

(h) Budget period means the interval of time (usually 12 months) into which the project period is divided for budgetary and reporting purposes.
§ 3411.3 Eligibility requirements.

(i) Awarding official means the Administrator and any other officer or employee of the Department to whom the authority to issue or modify grant instruments has been delegated.

(j) Peer review group means an assembled group of experts or consultants qualified by training and experience to give expert advice on the scientific and technical merit of grant applications or the relevance of those applications to one or more of the research purposes as contained in §3411.15 of this part.

(k) Ad hoc reviewers means experts or consultant qualified by training and experience to render special expert advice, through written evaluations, on the scientific and technical merit of grant applications or the relevance of those applications to one or more of the research purposes contained in §3411.15 of this part.

(l) Research means any systematic study directed toward new or fuller knowledge and understanding of the subject studied.

(1) Fundamental research, as referred to annually in the program solicitation, means research that tests scientific hypotheses and provides basic knowledge which allows advances in applied research and from which major conceptual breakthroughs are expected to occur.

(2) Mission-linked research, as referred to annually in the program solicitation, means research on specifically identified agricultural problems which, through a continuum of efforts, provides information and technology that may be transferred to users and may relate to a product, practice, or process.

(m) Multidisciplinary research, as referred to annually in the program solicitation, means research in which investigators from two or more disciplines are collaborating closely. These collaborations, where appropriate, may integrate the biological, physical, chemical, or social sciences.

(n) Small and mid-sized institution means an academic institution with a total enrollment of 15,000 or less. An institution in this instance is an organization that possesses a significant degree of academic and administrative autonomy, as specified in the annual program solicitation.

(o) USDA-EPSCoR States (Experimental Program for Stimulating Competitive Research) means States which have had a funding level from the USDA NRICGP no higher than the 38th percentile of all States, based on a three-year rolling average, and all United States territories and possessions. A list of eligible States is published annually in the program solicitation. [56 FR 57952, Nov. 14, 1991. Redesignated and amended at 60 FR 63368, 63369, Dec. 8, 1995; 61 FR 45319, Aug. 29, 1996]

§ 3411.13 Eligibility requirements.

(a) Except where otherwise prohibited by law, State agricultural experiment stations, all colleges and universities, other research institutions and organizations, Federal agencies, private organizations or corporations, and individuals, shall be eligible to apply for and to receive a competitive grant award under this part, provided that the applicant qualifies as a responsible grantee under the criteria set forth in paragraph (b) of this section.

(b) To qualify as responsible, an applicant must meet the following standards as they relate to a particular project:

1. Adequate financial resources for performance, the necessary experience, organizational and technical qualifications, and facilities, or a firm commitment, arrangement, or ability to obtain some (including by proposed sub-agreements);

2. Ability to comply with the proposed or required completion schedule for the project;

3. Satisfactory record of integrity, judgment, and performance, including, in particular, any prior performance under grants and contracts from the Federal government;

4. Adequate financial management system and audit procedures that provide efficient and effective accountability and control of all funds, property, and other assets; and

5. Otherwise qualified and eligible to receive a grant under the applicable laws and regulations; eligibility for specific program areas or categories of
competitive grants to improve research capabilities will be outlined in the program solicitation.

(c) Any applicant who is determined to be not responsible will be notified in writing of such finding and the basis therefor.

(d) Agricultural Research Enhancement Awards. In addition to paragraphs (a), (b), and (c) of this section, the following eligibility requirements apply to Agricultural Research Enhancement Awards (Program reserves the right to specify funding limitations and administrative requirements each year in the program solicitation):

(1) Postdoctoral Fellowships. In accordance with Section 2(b)(3)(D) of the Act of August 4, 1965, as amended, individuals who have recently received or will soon received their doctoral degree may submit proposals for postdoctoral fellowships. The following eligibility requirements apply:

(i) The doctoral degree of the applicant must be received not earlier than January 1 of the fiscal year three years prior to the submission of the proposal and not later than June 15 of the fiscal year during which the proposal is submitted;

(ii) The individual must be a citizen of the United States; and

(iii) The proposal must contain:

(A) documentation that arrangements have been made with an established investigator to serve as mentor;

(B) documentation that arrangements have been made for the necessary facilities, space, and materials for conduct of the research; and

(C) documentation from the host institution's authorized organizational representative indicating that the host institution concurs with these arrangements.

(2) New Investigator Awards. Pursuant to Section 2(b)(3)(E) of the Act of August 4, 1965, as amended, investigators or co-investigators who are beginning their research careers, do not have an extensive research publication record, and have less than 5 years of post-graduate, career-track research experience may submit proposals as new investigators. Applicants may not have received competitively-awarded Federal research funds beyond the level of prior postdoctoral research awards.

(3) Strengthening Awards. Applicants that are eligible for any grant under this part may also be eligible for Equipment Grants, Research Career Enhancement Awards, Seed Grants, and Strengthening Standard Research Project Awards pursuant to Sections 2(b)(3)(D) and (F) of the Act of August 4, 1965, as amended, subject to the following limitations on such eligibility:

(i) Equipment Grants. The following organizations are ineligible to apply for Equipment grants:

(A) Institutions which are among the top 100 universities and colleges for receiving Federal funds for science and engineering research as specified in the annual program solicitation; or

(B) non-degree granting institutions.

(A) No investigator listed on the Application For Funding (Form CSRS-661) may have received a USDA NRICGP competitive research grant within the last five years as evidenced by an investigator listing on a prior Form CSRS-661 (an investigator may have received a Seed Grant, Research Career Enhancement Award, Equipment Grant, or Postdoctoral Fellowship and still be eligible to receive a Strengthening Standard Research Project Award);

(B) All investigators listed on the Application For Funding (Form CSRS-661) must be from a small or mid-sized institution that is not among the top 100 universities and colleges for receiving Federal funds for science and engineering research as specified in the annual program solicitation or must be from an institution located in a USDA-EPSCoR state; and

(C) Every investigator listed on the Application For Funding (Form CSRS-661) must have an appointment at a degree granting institution.

§ 3411.4 How to apply for a grant.

(a) A program solicitation will be prepared and announced through publications such as the Federal Register, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means, as early as practicable each fiscal year. It will contain information sufficient to enable all eligible applicants to prepare competitive grant proposals and will be as complete as possible with respect to:

(1) Descriptions of the specific research areas and the categories of competitive grants to improve research capabilities that the Department proposes to support during the fiscal year involved, including anticipated funds to be awarded;
(2) Eligibility requirements;
(3) Obtaining application kits;
(4) Deadline dates for postmarking proposal packages;
(5) Name and mailing address to send proposals;
(6) Number of copies to submit;
(7) Special requirements.

(b) NRICGP Application Kit. A NRICGP Application Kit will be made available to any potential grant applicant who requests a copy. This kit contains required forms, certifications, and instructions applicable to the submission of grant proposals.

(c) Format for grant proposals. Specific instructions regarding page length, type of print, size of paper, and order of assembly, etc., of proposals will be provided in the program solicitation. However, unless otherwise stated in the program solicitation, the following general format applies:

(1) Application for Funding form. All grant proposals submitted by eligible applicants should contain an Application for Funding form, which must be signed by the proposing principal investigator(s) and endorsed by the cognizant authorized organizational representative who possesses the necessary authority to commit the applicant’s time and other relevant resources. Investigators who do not sign the cover sheet will not be listed on the grant document in the event an award is made. The title of the proposal must be brief (80-character maximum), yet represent the major thrust of the project. Because this title will be used to provide information to those who may not be familiar with the proposed project, highly technical words or phraseology should be avoided where possible. In addition, phrases such as ‘‘investigation of’’ or ‘‘research on’’ should not be used.

(2) Project Summary. Each proposal must contain a project summary. This summary is not intended for the general reader; consequently, it may contain technical language comprehensible by persons in disciplines relating to the food and agricultural sciences. The project summary should be a self-contained, specific description of the activity to be undertaken and should focus on:

(i) Overall project goal(s) and supporting objectives;
(ii) Plans to accomplish project goal(s); and
(iii) Relevance of the project to potential long-range improvements in and sustainability of United States agriculture or to one or more of the research purposes contained in § 3411.15 of this part.

(3) Project Description. The specific aims of the project must be included in all proposals. The text of the project description may not exceed 15 single or double-spaced pages and must contain the following components:

(i) Introduction. A clear statement of the long-term goal(s) and supporting objectives of the proposed project should preface the project description. The most significant published work in the field under consideration, including the work of key project personnel on the current application, should be reviewed. The current status of research in the particular field of sciences also should be described. All work cited, including that of key personnel, should be referenced.

(ii) Progress Report. If the proposal is a renewal of an existing project supported under this program (or its predecessor), include a clearly marked performance report describing results to date from the previous award. This section should contain the following information:

(A) A comparison of actual accomplishments with the goals established for the previous award;
(B) The reasons established goals were not met, if applicable; and

(C) A listing of any publications resulting from the award. Copies of reprints or preprints may be appended to the proposal if desired.

(iii) Rationale and Significance. Present concisely the rationale behind the proposed project. The objectives’ specific relationship to potential long-range improvements in and sustainability of United States agriculture or relevance to one or more of the research purposes contained in §3411.15 of this part should be shown clearly. Any novel ideas or contributions that the proposed project offers also should be discussed in this section.

(iv) Experimental Plan. The hypotheses or questions being asked and the methodology to be applied to the proposed project should be stated explicitly. Specifically, this section must include:

(A) A description of the investigations and/or experiments proposed and the sequence in which the investigations or experiments are to be performed;

(B) Techniques to be used in carrying out the proposed project, including the feasibility of the techniques;

(C) Results expected;

(D) Means by which experimental data will be analyzed or interpreted;

(E) Means of applying results or accomplishing technology transfer, where appropriate;

(F) Pitfalls that may be encountered;

(G) Limitations to proposed procedures; and

(H) A tentative schedule for conducting major steps involved in these investigations and/or experiments.

In describing the experimental plan, the applicant must explain fully any materials, procedures, situations, or activities that may be hazardous to personnel (whether or not they are directly related to a particular phase of the proposed project), along with an outline of precautions to be exercised to avoid or mitigate the effects of such hazards.

(4) Facilities and equipment. All facilities and major items of equipment that are available for use or assignment to the proposed project during the requested period of support should be described. In addition, requested items of nonexpendable equipment necessary to conduct and successfully conclude the proposed project should be listed (including dollar amounts), and, if funds are requested for their acquisition, justified on a separate sheet of paper and attached to the budget.

(5) Collaborative arrangements. If the nature of the proposed project requires collaboration or subcontractual arrangements with other research scientists, corporations, organizations, agencies, or entities, the applicant must identify the collaborator(s) and provide a full explanation of the nature of the collaboration. Evidence (i.e., letters of intent) should be provided to assure peer reviewers that the collaborators involved have agreed to render this service. In addition, the proposal must indicate whether or not such collaborative arrangement(s) have the potential for conflicts of interest.

(6) References to Project Descriptions. All references cited should be complete, including titles, and should conform to an accepted journal format.

(7) Personnel support. To assist peer reviewers in assessing the competence and experience of the proposed project staff, all personnel who will be involved in the proposed project must be identified clearly. For each principal investigator involved, and for all senior associates and other professional personnel who expect to work on the project, whether or not funds are sought for their support, the following should be included:

(i) An estimate of the time commitments necessary:

(ii) Curriculum vitae. The curriculum vitae should be limited to a presentation of academic and research credentials, e.g., educational, employment and professional history, and honors and awards. Unless pertinent to the project, to personal status, or to the status of the organization, meetings attended, seminars given, or personal data such as birth date, marital status, or community activities should not be included. The vitae shall be no more than two pages each in length, excluding publications listings; and

(iii) Publication List(s). A chronological list of all publications in refereed journals during the past five
years, including those in press, must be provided for each professional project member for whom a curriculum vitae is provided. Also list other non-refereed technical publications that have relevance to the proposed project. Authors should be listed in the same order as they appear on each paper cited, along with the title and complete reference as these usually appear in journals.

(8) Budget. A detailed budget is required for each year of requested support. In addition, a summary budget is required detailing requested support for the overall project period. A copy of the form which must be used for this purpose, along with instructions for completion, is included in the NRICGP Application Kit identified under §3411.4(b) of the part and may be reproduced as needed by applicants. Funds may be requested under any of the categories listed, provided that the item or service for which support is requested may be identified as necessary for successful conduct of the proposed project, is allowable under applicable Federal cost principles, and is not prohibited under any applicable Federal statute or regulation. It should be noted, for example, that section 2(b)(7) of the Act of August 4, 1965, as amended, prohibits the use of funds under this program for the renovation or refurbishment of research spaces, purchases or installation of fixed equipment in such spaces, or for the planning, repair, rehabilitation, acquisition, or construction of a building or facility. Also, section 2(b)(8) of the Act of August 4, 1965, as amended, prohibits the use of funds under this program for the renovation or refurbishment of research spaces, purchases or installation of fixed equipment in such spaces, or for the planning, repair, rehabilitation, acquisition, or construction of a building or facility.

(i) Recombinant DNA and RNA molecules. All key personnel identified in a proposal and all endorsing officials of a proposed performing entity are required to comply with the guidelines established by the National Institutes of Health entitled, “Guidelines for Research Involving Recombinant DNA Molecules,” as revised. The NRICGP Application Kit, identified above in §3411.4(b), contains forms which are suitable for such certification of compliance. In the event a project involving recombinant DNA and RNA molecules results in a grant award, a qualified Institutional Biosafety Committee must approve the research before CSREES funds will be released.

(ii) Human subjects at risk. Applicable regulations which implement the Federal Policy for the Protection of Human Subjects have been issued by the Department under 7 CFR part 1c, Protection of Human Subjects. Responsibility for safeguarding the rights and welfare of human subjects used in any proposed project supported with grant funds provided by the Department rests with the performing entity. The applicant must submit a statement certifying that the project plan has been reviewed and approved by the Institutional Committee at the proposing organization or institution. The NRICGP Application Kit, identified above in §3411.4(b), contains a form which is suitable for such certification. In the event a project involving human subjects results in a grant award, funds will be released only after a qualified Institutional Committee has approved the project.

(iii) Experimental vertebrate animal care. The responsibility for the humane care and treatment of any experimental vertebrate animal, which has the same meaning as “animal” in section 2(g) of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2132(g)), used in any project supported with NRICGP funds rests with the performing organization. In this regard, all key personnel associated with any supported project

§ 3411.4

7 CFR Ch. XXXIV (1-1-98 Edition)
and all endorsing officials of the proposed performing entity are required to comply with applicable provisions of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2131 et seq.) and the regulations promulgated thereunder by the Secretary of Agriculture in 9 CFR parts 1, 2, 3, and 4. In this regard, the applicant must submit a statement certifying that the proposed project is in compliance with the aforementioned regulations, and that the proposed project is either under review by or has been reviewed and approved by an Institutional Animal Care and Use Committee. The NRICGP Application Kit, identified above in §3411.4(b), contains a form which is suitable for such certification. In the event a project involving the use of living vertebrate animals results in a grant award, funds will be released only after a qualified Institutional Animal Care and Use Committee has approved the project.

(10) Current and pending support. All proposals must list any other current public or private research support (including in-house support) to which key personnel identified in the proposal have committed portions of their time, whether or not salary support for the person(s) involved is included in the budget. Analogous information must be provided for any pending proposals that are being considered by, or that will be submitted in the near future to, other possible sponsors, including other USDA programs or agencies. Concurrent submission of identical or similar proposals to other possible sponsors will not prejudice proposal review or evaluation by the Administrator or experts or consultants engaged by the Administrator for this purpose. However, a proposal that duplicates or overlaps substantially with a proposal already reviewed and funded (or that will be funded) by another organization or agency will not be funded under this program. The Grant Application Kit, identified above in §3411.4(b), contains a form which is suitable for listing current and pending support.

(11) Additions to project description. Each project description is expected by the Administrator, the members of peer review groups, and the relevant program staff to be complete. However, if the inclusion of additional information is necessary to ensure the equitable evaluation of the proposal (e.g., photographs which do not reproduce well, reprints, and other pertinent materials which are deemed to be unsuitable for inclusion in the text of the proposal), the number of copies submitted should match the number of copies of the application requested in the program solicitation. Each set of such materials must be identified with the name of the submitting organization, and the name(s) of the principal investigator(s). Information may not be appended to a proposal to circumvent page limitations prescribed for the project description. Extraneous materials will not be used during the peer review process.

(12) Organizational management information. Specific management information relating to an applicant shall be submitted on a one-time basis prior to the award of a grant identified under this part if such information has not been provided previously under this or another program for which the sponsoring agency is responsible. Copies of forms recommended for use in fulfilling the requirements contained in this section will be provided by the agency specified in this part once a grant has been recommended for funding.

(13) National Environmental Policy Act. As outlined in CSREES's implementing regulations of the National Environmental Policy Act of 1969 (NEPA) at 7 CFR Part 3407, environmental data or documentation for the proposed project is to be provided to CSREES in order to assist CSREES in carrying out its responsibilities under NEPA. These responsibilities include determining whether the project requires an Environmental Assessment or an Environmental Impact Statement or whether it can be excluded from this requirement on the basis of several categorical exclusions listed in 7 CFR Part 3407. In this regard, the applicant should review the categories defined for exclusion to ascertain whether the proposed project may fall within one or more of the exclusions, and should indicate if it does so on the National Environmental Policy Act Exclusions Form (Form CSRS-1234) provided in the NRICGP Application Kit.
§ 3411.5 Evaluation and disposition of applications.

(a) Evaluation. All proposals received from eligible applicants and postmarked in accordance with deadlines established in the annual program solicitation shall be evaluated by the Administrator through such officers, employees, and others as the Administrator determines are uniquely qualified in the areas represented by particular projects. To assist in equitably and objectively evaluating proposals and to obtain the best possible balance of viewpoints, the Administrator shall solicit the advice of peer scientists, ad hoc reviewers, and/or others who are recognized specialists in the areas covered by the applications received and whose general roles are defined in §§3411.2(j) and 3411.2(k). Specific evaluations will be based upon the criteria established in subpart B, § 3411.15, unless CSRS determines that different criteria are necessary for the proper evaluation of proposals in one or more specific program areas, or for specific types of projects to be supported, and announces such criteria and their relative importance in the annual program solicitation. The overriding purpose of these evaluations is to provide information upon which the Administrator may make informed judgments in selecting proposals for ultimate support. Incomplete, unclear, or poorly organized applications will work to the detriment of applicants during the peer evaluation process. To ensure a comprehensive evaluation, all applications should be written with the care and thoroughness accorded papers for publication.

(b) Disposition. On the basis of the Administrator's evaluation of an application in accordance with paragraph (a) of this section, the Administrator will (1) approve support using currently available funds, (2) defer support due to lack of funds or a need for further evaluations, or (3) disapprove support for the proposed project in whole or in part. With respect to approved projects, the Administrator will determine the project period (subject to extension as provided in §3411.7(c)) during which the project may be supported. Any deferral or disapproval of an application will not preclude its reconsideration or a reapplication during subsequent fiscal years.

§ 3411.6 Grant awards.

(a) General. Within the limit of funds available for such purpose, the awarding official shall make grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced program areas under the evaluation criteria and procedures set forth in this part. The date specified by the Administrator as the beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. All funds granted under this part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department's “Uniform Federal Assistance Regulations” (part 3005 of this title) and the Department's “Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments” (part 3016 of this title).

(b) Grant award document and notice of grant award—(1) Grant award document. The grant award document shall include at a minimum the following:
Coop. State Research, Education, and Extension Ser., USDA § 3411.6

(i) Legal name and address of performing organization or institution to whom the Administrator has awarded a competitive grant under the terms of this part;

(ii) Title of project;

(iii) Name(s) and address(es) of principal investigator(s) chosen to direct and control approved activities;

(iv) Identifying grant number assigned by the Department;

(v) Project period, specifying the amount of time the Department intends to support the project without requiring recompetition for funds;

(vi) Total amount of Departmental financial assistance approved by the Administrator during the project period;

(vii) Legal authority(ies) under which the grant is awarded;

(viii) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the grant award; and

(ix) Other information or provisions deemed necessary by the Department to carry out its granting activities or to accomplish the purpose of a particular grant.

2. Notice of grant award. The notice of grant award, in the form of a letter, will be prepared and will provide pertinent instructions or information to the grantee that is not included in the grant award document.

(c) Types of grant instruments. The major types of grant instruments shall be as follows:

(1) New grant. This is a grant instrument by which the Department agrees to support a specified level of effort for a project that generally has not been supported previously under this program. This type of grant is approved on the basis of peer review recommendation.

(2) Renewal grant. This is a grant instrument by which the Department agrees to provide additional funding for a project period beyond that approved in an original or amended award, provided that the cumulative period does not exceed the statutory limitation. When a renewal application is submitted, it should include a summary of progress to date from the previous granting period. A renewal grant shall be based upon new application, de novo peer review and staff evaluation, new recommendation and approval, and a new award instrument.

(3) Supplemental grant. This is an instrument by which the Department agrees to provide small amounts of additional funding under a new or renewal grant as specified in paragraphs (c)(1) and (c)(2) of this section and may involve a short-term (usually six months or less) extension of the project period beyond that approved in an original or amended award, but in no case may the cumulative period for the project exceed the statutory limitation. A supplement is awarded only if required to assure adequate completion of the original scope of work and if there is sufficient justification to warrant such action. A request of this nature normally will not require additional peer review.

(d) Funding mechanisms. The two mechanisms by which new, renewal, and supplemental grants shall be awarded are as follows:

(1) Standard grant. This is a funding mechanism whereby the Department agrees to support a specified level of effort for a predetermined time period without the announced intention of providing additional support at a future date.

(2) Continuation grant. This is a funding mechanism whereby the Department agrees to support a specified level of effort for a predetermined period of time with a statement of intention to provide additional support at a future date, provided that performance has been satisfactory, appropriations are available for this purpose, and continued support would be in the best interests of the Federal government and the public. This kind of mechanism normally will be awarded for an initial one-year period, and any subsequent continuation project grants will also be awarded in one-year increments. The award of a continuation project grant to fund an initial or succeeding budget period does not constitute an obligation to fund any subsequent budget period. Unless prescribed otherwise by CSRS, a grantee must submit a separate application for continued support for each subsequent fiscal year. Requests for such continued support must be submitted in duplicate at least three
months prior to the expiration date of the budget period currently being funded. Decisions regarding continued support and the actual funding levels of such support in future years usually will be made administratively after consideration of such factors as the grantee's progress and management practices and the availability of funds. Since initial peer reviews are based upon the full term and scope of the original special grant application, additional evaluations of this type generally are not required prior to successive years' support. However, in unusual cases (e.g., when the nature of the project or key personnel change or when the amount of future support requested substantially exceeds the grant application originally reviewed and approved), additional reviews may be required prior to approving continued funding.

(e) Obligation of the Federal Government. Neither the approval of any application nor the award of any project grant shall commit or obligate the United States in any way to make any renewal, supplemental, continuation, or other award with respect to any approved application or portion of an approved application.

(f) Current Research Information Service (CRIS). For each project funded, CRIS Form AD-416, "Research Work Unit/Project Description-Research Resume" and CRIS Form AD-417, "Research Work Unit/Project Description-Classification of Research" and specific instructions for their completion will be sent to the grantee for completion and return. Grant funds will not be released until the completed forms are received in CSREES.

§3411.7 Use of funds; changes.

(a) Delegation of fiscal responsibility. The grantee may not, in whole or in part, delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of grant funds.

(b) Change in project plans. (1) The permissible changes by the grantee, principal investigator(s), or other key project personnel in the approved grant shall be limited to changes in methodology, techniques, or other aspects of the project to expedite achievement of the project's approved goals. If the grantee and/or the principal investigator(s) is uncertain whether a particular change complies with this provision, the question must be referred to the Administrator for a final determination.

(2) Changes in approved goals, or objectives, shall be requested by the grantee and approved in writing by the Department prior to effecting such changes. Normally, no requests for such changes that are outside the scope of the original approved project will be approved.

(3) Changes in approved project leadership or the replacement or reassignment of other key project personnel shall be requested by the grantee and approved in writing by the Department prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the grantee and approved in writing by the Department prior to effecting such changes, except as may be allowed in the terms and conditions of a grant award.

(c) Changes in project period. The project period determined pursuant to §3411.5(b) may be extended by the Administrator without additional financial support, for such additional period(s) as the Administrator determines may be necessary to complete, or fulfill the purposes of, an approved project. Any extension, when combined with the originally approved or amended project period, shall not exceed five (5) years (the limitation established by statute) and shall be further conditioned upon prior request by the grantee and approval in writing by the Department, except as may be allowed in the terms and conditions of a grant award.

(d) Changes in approved budget. The terms and conditions of a grant will prescribe circumstances under which written Departmental approval must
be requested and obtained prior to instituting changes in an approved budget.

§ 3411.8 Other Federal statutes and regulations that apply.

Several other Federal statutes and/or regulations apply to grant proposals considered for review or to grants awarded under this part. These include but are not limited to:

7 CFR 1.1—USDA implementation of Freedom of Information Act;
7 CFR part 1c—USDA implementation of the Federal Policy for the Protection of Human Subjects;
7 CFR part 15, subpart A—USDA implementation of title VI of the Civil Rights Act of 1964;
7 CFR part 3—USDA implementation of OMB Circular A-129 regarding debt collection;
7 CFR part 3015—USDA Uniform Federal Assistance Regulations, implementing OMB directives (i.e., Circular Nos. A-121, A-21, and A-122) and incorporating provisions of 31 U.S.C. 6301-6308 (formerly, the Federal Grant and Cooperative Agreement Act of 1977, Public Law No. 95-224), as well as general policy requirements applicable to recipients of Departmental financial assistance;
7 CFR part 3016—USDA Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments (i.e., Circular Nos. A-102 and A-87);
7 CFR part 3017—USDA implementation of Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants);
7 CFR part 3018—USDA implementation of New Restrictions on Lobbying, imposes new prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans;
7 CFR part 3031—Audits of Institutions of Higher Education and Other Nonprofit Institutions;
7 CFR part 3407—CSR procedures to implement the National Environmental Policy Act;
29 U.S.C. 794, section 504—Rehabilitation Act of 1973, and 7 CFR part 15B (USDA implementation of statute), prohibiting discrimination based upon physical or mental handicap in Federally assisted programs;
35 U.S.C. 200 et. seq.—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR part 401).

§ 3411.9 Other conditions.

The Administrator may, with respect to any grant or to any class of awards, impose additional conditions prior to or at the time of any award when, in the Administrator’s judgment, such conditions are necessary to assure or protect advancement of the approved project, the interests of the public, or the conservation of grant funds.

Subpart B—Scientific Peer Review of Research Grant Applications

§ 3411.10 Establishment and operation of peer review groups.

Subject to § 3411.5, the Administrator shall adopt procedures for the conduct of peer reviews and the formulation of recommendations under § 3411.14. Peer reviews of all responsive applications will be made by assembled groups of reviewers and/or by written comments solicited from ad hoc reviewers.

§ 3411.11 Composition of peer review groups.

(a) Peer review group members and ad hoc reviewers will be selected based upon their training and experience in relevant scientific or technical fields, taking into account the following factors:

(1) The level of formal scientific or technical education and other relevant experience of the individual and the extent to which an individual is engaged in relevant research and other relevant activities;

(2) The need to include as peer reviewers experts from various areas of specialization within relevant scientific or technical fields;

(3) The need to include as peer reviewers experts from a variety of organizational types (e.g., universities, industry, private consultant(s)) and geographic locations; and
(4) The need to maintain a balanced composition of peer review groups related to minority and female representation and an equitable age distribution.

§ 3411.12 Conflicts of interest.

(a) Members of peer review groups covered by this part are subject to relevant provisions contained in title 18 of the United States Code relating to criminal activity, Departmental regulations governing employee responsibilities and conduct (part 0 of this title), and Executive Order 11222, as amended.

(b) Reviewers may not review proposals submitted by institutions or other entities with which they have an affiliation or in which they have an interest. For the purposes of determining whether such a conflict exists, an institution shall be considered as an organization if it possesses a significant degree of academic and administrative autonomy, as specified in the annual program solicitation.

§ 3411.13 Availability of information.

Information regarding the peer review process will be made available to the extent permitted under the Freedom of Information Act (5 U.S.C. 552), the Privacy Act (5 U.S.C. 552a.), and Departmental implementing regulations (part 1 of this title).

§ 3411.14 Proposal review.

(a) All grant applications will be acknowledged. Prior to technical examination, a preliminary review will be made for responsiveness to the program solicitation (e.g., relationship of application to announced program area). Proposals which do not fall within the guidelines as stated in the program solicitation will be eliminated from competition and will be returned to the applicant.

(b) All applications will be carefully reviewed by the Administrator, qualified officers or employees of the Department, the respective peer review group, and ad hoc reviewers, as required. Written comments will be solicited from ad hoc reviewers when required, and individual written comments and indepth discussions will be provided by peer review group members prior to recommending applications for funding. Applications will be ranked and support levels recommended with the limitation of total available funding for each research program area as announced in the program solicitation.

(c) No awarding official will make a grant based upon an application covered by this part unless the application has been reviewed by a peer review group and/or ad hoc reviewers in accordance with the provisions of this part and said reviewers have made recommendations concerning the merit of such application.

(d) Except to the extent otherwise provided by law, such recommendations are advisory only and are not binding on program officers or on the awarding official.

§ 3411.15 Evaluation factors.

Subject to the varying conditions and needs of States, Federally funded agricultural research supported under this program shall be designed to, among other things, accomplish one or more of the following purposes: Continue to satisfy human food and fiber needs; enhance the long-term viability and competitiveness of the food production and agricultural system of the United States within the global economy; expand economic opportunities in rural America and enhance the quality of life for farmers, rural citizens, and society as a whole; improve the productivity of the American Agricultural system and develop new agricultural crops and new uses for agricultural commodities; develop information and systems to enhance the environment and the natural resource base upon which a sustainable agricultural economy depends; or enhance human health. Therefore, in carrying out its review under §3411.14, the peer review group shall take into account the following factors unless, pursuant to §3411.5(a), different evaluation criteria are specified in the program solicitation:

(a) Scientific merit of the proposal.

(1) Conceptual adequacy of hypothesis;

(2) Clarity and delineation of objectives;
Coop. State Research, Education, and Extension Ser., USDA § 3415.2

(3) Adequacy of the description of the undertaking and suitability and feasibility of methodology;
(4) Demonstration of feasibility through preliminary data;
(5) Probability of success of project; and
(6) Novelty, uniqueness and originality.
(b) Qualifications of proposed project personnel and adequacy of facilities.
(1) Training and demonstrated awareness of previous and alternative approaches to the problem identified in the proposal, and performance record and/or potential for future accomplishments;
(2) Time allocated for systematic attainment of objectives;
(3) Institutional experience and competence in subject area; and
(4) Adequacy of available or obtainable support personnel, facilities, and instrumentation.
(c) Relevance of project to long-range improvements in and sustainability of United States agriculture or to one or more of the research purposes outlined in the first paragraph of this section.
(1) Scientific contribution of research in leading to important discoveries or significant breakthroughs in announced program areas; and
(2) Relevance of the research to agricultural, environmental, or social needs.

PART 3415—BIOTECHNOLOGY RISK ASSESSMENT RESEARCH GRANTS PROGRAM

Subpart A—General

§ 3415.1 Applicability of regulations.
3415.2 Definitions.
3415.3 Eligibility requirements.
3415.4 How to apply for a grant.
3415.5 Evaluation and disposition of applications.
3415.6 Grant awards.
3415.7 Use of funds; changes.
3415.8 Other Federal statutes and regulations that apply.
3415.9 Other conditions.

Subpart B—Scientific Peer Review of Research Grant Applications

3415.10 Establishment and operation of peer review groups.
3415.11 Composition of peer review groups.
3415.12 Conflicts of interest.
3415.13 Availability of information.
3415.14 Proposal review.
3415.15 Evaluation factors.

Source: 58 FR 65647, Dec. 15, 1993, unless otherwise noted.

Subpart A—General

§ 3415.1 Applicability of regulations.

(a) The regulations of this part apply to research grants awarded under the authority of section 1668 of the Food, Agriculture, Conservation, and Trade Act of 1990, (7 U.S.C. 5921). Grants awarded under this section will support biotechnology risk assessment research to help address concerns about the effects of introducing certain biotechnology products into the environment and to help regulators develop policies concerning the introduction of such products. Taking into consideration any determinations made through consultations with such entities as the Animal and Plant Health Inspection Service, the Forest Service, the Environmental Protection Agency, the Office of Agricultural Biotechnology, and the Agricultural Biotechnology Research Advisory Committee, the Administrators of CSREES and ARS shall determine and announce, through publication of a Notice in such publications as the Federal Register, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means, specific areas of research for which preproposals or proposals will be solicited and the extent that funds are available therefor.
(b) The regulations of this part do not apply to grants awarded by the Department of Agriculture under any other authority.

§ 3415.2 Definitions.

As used in this part:
(a) Ad hoc reviewers means experts or consultants qualified by training and
§ 3415.3 Eligibility requirements.

(a) Except where otherwise prohibited by law, any public or private research or educational institution or organization shall be eligible to apply for and to receive a grant award under this part, provided that the applicant qualifies as a responsible grantee under the criteria set forth in paragraph (b) of this section.

(b) To qualify as responsible, an applicant must meet the following standards as they relate to a particular project:

(1) Adequate financial resources for performance, the necessary experience, organizational and technical qualifications, and facilities, or a firm commitment, arrangement, or ability to obtain same (including by proposed sub-agreements);

(2) Ability to comply with the proposed or required completion schedule for the project;

(3) Satisfactory record of integrity, judgment, and performance, including, in particular, any prior performance under grants or contracts from the Federal government;

(4) Adequate financial management system and audit procedures that provide efficient and effective accountability and control of all funds, property, and other assets; and

(5) Otherwise be qualified and eligible to receive a grant under the applicable laws and regulations.
A program solicitation will be prepared and announced through publications such as the Federal Register, professional trade journals, agency or program handbooks, the Catalog of Federal Domestic Assistance, or any other appropriate means, as early as practicable each fiscal year. The Department may elect to solicit preproposals each fiscal year in order to eliminate from consideration proposed research that does not address narrowly focused program objectives. A preproposal will be limited in length (in comparison to a full proposal) to alleviate waste of time and effort by applicants in the preparation of proposals and USDA staff in the review of proposals. If the Department solicits preproposals through publication of the annual program solicitation, the Department does not anticipate publishing a subsequent solicitation for full proposals. Applicants submitting preproposals deemed appropriate to the objectives of this program as set out in the annual solicitation will be requested to submit full proposals; the full proposals will then be evaluated in accordance with §3415.5 through §3415.15 of this part. The annual program solicitation will contain information sufficient to enable applicants to prepare preproposals or full proposals under this program and will be as complete as possible with respect to:

(1) Descriptions of the specific research areas that the Department proposes to support during the fiscal year involved, including anticipated funds to be awarded;
(2) Eligibility requirements;
(3) Obtaining application kits;
(4) Deadline dates for submission of preproposal or proposal packages;
(5) Name and mailing address to send preproposals or proposals;
(6) Number of copies to submit; and
(7) Special requirements.

(b) Application Kit. An Application Kit will be made available to any potential grant applicant who requests a copy. This kit contains required forms, certifications, and instructions applicable to the submission of grant preproposals or proposals.

(c) Format for preproposals. As stated above, the Department may elect to solicit preproposals under this program. Unless otherwise indicated by the Department in the annual program solicitation, the following general format applies for the preparation of preproposals:

(1) “Application for Funding (Form CSREES-661)”. All preproposals submitted by eligible applicants should contain an “Application for Funding”, Form CSREES-661, which must be signed by the proposing principal investigator(s) and endorsed by the cognizant authorized organizational representative who possesses the necessary authority to commit the applicant’s time and other relevant resources. The title of the proposal must be brief (80-character maximum), yet represent the major thrust of the project. Because this title will be used to provide information to those who may not be familiar with the proposed project, highly technical words or phraseology should be avoided where possible. In addition, phrases such as “investigation of” and “research on” should not be used.

(2) Project summary. Each preproposal must contain a project summary, the text of which may not exceed three (3) single- or double-spaced pages. The Department reserves the option of not forwarding for further consideration a preproposal in which the project summary page limit is exceeded. The project summary is not intended for the general reader; consequently, it may contain technical language comprehensible primarily by persons in disciplines relating to the food and agricultural sciences. The project summary should be a self-contained specific description of the activity to be undertaken and should focus on:

(i) Overall project goal(s) and supporting objectives;
(ii) Plans to accomplish project goal(s); and
(iii) Relevance or significance of the project to United States agriculture.

(3) Budget. A budget detailing requested support for the proposed
§ 3415.4  7 CFR Ch. XXXIV (1-1-98 Edition)

Project period must be included in each preproposal. A copy of the form which must be used for this purpose, along with instructions for completion, is included in the Application Kit identified under §3415.4(b) of this part and may be reproduced as needed by applicants. Funds may be requested under any of the categories listed on the budget form, provided that the item or service for which support is requested may be identified as necessary for successful conduct of the proposed project, is allowable under applicable Federal cost principles, and is not prohibited under any applicable Federal statute.

(4) Special requirements.

(i) The annual program solicitation will describe any special preproposal submission requirements, such as paper size or type pitch to be used in the preparation of preproposals. The solicitation will also describe special program requirements, such as conference attendance or electronic project reporting, for which applicants may allocate funds when preparing proposed budgets.

(ii) By signing the “Application for Funding” identified under §3415.4(c)(1) in its submission of a preproposal, the applicant is certifying compliance with the restrictions on the use of appropriated funds for lobbying set out in 7 CFR part 3018.

(5) Evaluation of preproposals. Preproposals shall be evaluated to determine whether the substance of the proposed project is appropriate to the objectives of this program as set out in the annual program solicitation. Subsequently, the Administrator shall request full proposals from those applicants proposing projects deemed appropriate to the objectives of this program as set out in the annual program solicitation. Such proposals shall conform to the format for full proposals set out below and shall be evaluated in accordance with §3415.5 through §3415.15 of this part.

(d) Format for full proposals. Unless otherwise indicated by the Department in the annual program solicitation, the following general format applies for the preparation of full proposals under this program:

(1) “Application for Funding” (Form CSREES-661). All full proposals submitted by eligible applicants should contain an Application for Funding, Form CSREES-661, which must be signed by the proposed principal investigator(s) and endorsed by the cognizant authorized organizational representative who possesses the necessary authority to commit the applicant’s time and other relevant resources. Investigators who do not sign the full proposal cover sheet will not be listed on the grant document in the event an award is made. The title of the proposal must be brief (80-character maximum), yet represent the major emphasis of the project. Because this title will be used to provide information to those who may not be familiar with the proposed project, highly technical words or phraseology should be avoided where possible. In addition, phrases such as “investigation of” or “research on” should not be used.

(2) Project summary. Each full proposal must contain a project summary, the length of which may not exceed three (3) single- or double-spaced pages. This summary is not intended for the general reader; consequently, it may contain technical language comprehensible primarily by persons in disciplines relating to the food and agricultural sciences. The project summary should be a self-contained, specific description of the activity to be undertaken and should focus on:

(i) Overall project goal(s) and supporting objectives;

(ii) Plans to accomplish project goal(s); and

(iii) Relevance or significance of the project to United States agriculture.

(3) Project description. The specific aims of the project must be included in all proposals. The text of the project description may not exceed 15 single- or double-spaced pages. The Department reserves the option of not forwarding for further consideration proposals in which the project description exceeds this page limit. The project description must contain the following components:

(i) Introduction. A clear statement of the long-term goal(s) and supporting objectives of the proposed project should preface the project description. The most significant published work in the field under consideration, including
the work of key project personnel on the current application, should be reviewed. The current status of research in the particular scientific field also should be described. All work cited, including that of key personnel, should be referenced.

(ii) Progress report. If the proposal is a renewal of an existing project supported under this program, include a clearly marked performance report describing results to date from the previous award. This section should contain the following information:

(A) A comparison of actual accomplishments with the goals established for the previous award;

(B) The reasons established goals were not met, if applicable; and

(C) A listing of any publications resulting from the award. Copies of reprints or preprints may be appended to the proposal if desired.

(4) Rationale and significance. Present concisely the rationale behind the proposed project. The objectives' specific relationship and relevance to the area in which an application is submitted and the objectives' specific relationship and relevance to potential regulatory issues of United States biotechnology research should be shown clearly. Any novel ideas or contributions that the proposed project offers also should be discussed in this section.

(5) Experimental plan. The hypotheses or questions being asked and the methodology to be applied to the proposed project should be stated explicitly. Specifically, this section must include:

(i) A description of the investigations and/or experiments proposed and the sequence in which the investigations or experiments are to be performed;

(ii) Techniques to be used in carrying out the proposed project, including the feasibility of the techniques;

(iii) Results expected;

(iv) Means by which experimental data will be analyzed or interpreted;

(v) Pitfalls that may be encountered;

(vi) Limitations to proposed procedures; and

(vii) Tentative schedule for conducting major steps involved in these investigations and/or experiments.

In describing the experimental plan, the applicant must explain fully any materials, procedures, situations, or activities that may be hazardous to personnel (whether or not they are directly related to a particular phase of the proposed project), along with an outline of precautions to be exercised to avoid or mitigate the effects of such hazards.

(6) Facilities and equipment. All facilities and major items of equipment that are available for use or assignment to the proposed research project during the requested period of support should be described. In addition, items of non-expendable equipment necessary to conduct and successfully conclude the proposed project should be listed.

(7) Collaborative arrangements. If the nature of the proposed project requires collaboration or subcontractual arrangements with other research scientists, corporations, organizations, agencies, or entities, the applicant must identify the collaborator(s) and provide a full explanation of the nature of the collaboration. Evidence (i.e., letters of intent) should be provided to assure peer reviewers that the collaborators involved have agreed to render this service. In addition, the proposal must indicate whether or not such a collaborative arrangement(s) has the potential for conflict(s) of interest.

(8) Personnel support. To assist peer reviewers in assessing the competence and experience of the proposed project staff, key personnel who will be involved in the proposed project must be identified clearly. For each principal investigator involved, and for all senior associates and other professional personnel who expect to work on the project, whether or not funds are sought for their support, the following should be included:

(i) An estimate of the time commitments necessary;

(ii) Curriculum vitae. The curriculum vitae should be limited to a presentation of academic and research credentials, e.g., educational, employment and professional history, and honors and awards. Unless pertinent to the project, to personal status, or to the status of the organization, meetings attended, seminars given, or personal data such as birth date, marital status, or community activities should not be included. The vitae shall be no more...
§ 3415.4

than two pages each in length, excluding the publication lists. The Department reserves the option of not forwarding for further consideration a proposal in which each vitae exceeds the two-page limit; and

(iii) Publication List(s). A chronological list of all publications in refereed journals during the past five years, including those in press, must be provided for each professional project member for whom a curriculum vitae is provided. Authors should be listed in the same order as they appear on each paper cited, along with the title and complete reference as these items usually appear in journals.

(9) Budget. A detailed budget is required for each year of requested support. In addition, a summary budget is required detailing requested support for the overall project period. A copy of the form which must be used for this purpose, Form CSREES-55, along with instructions for completion, is included in the Application Kit identified under §3415.4(b) of this part and may be reproduced as needed by applicants. Funds may be requested under any of the categories listed, provided that the item or service for which support is requested may be identified as necessary for successful conduct of the proposed project, is allowable under applicable Federal cost principles, and is not prohibited under any applicable Federal statute.

(10) Research involving special considerations. A number of situations encountered in the conduct of research require special information and supporting documentation before funding can be approved for the project. If any such situation is anticipated, the proposal must so indicate. It is expected that a significant number of proposals will involve the following:

(i) Recombinant DNA and RNA molecules. All key personnel identified in a proposal and all endorsing officials of a proposed performing entity are required to comply with the guidelines established by the National Institutes of Health entitled, “Guidelines for Research Involving Recombinant DNA Molecules,” as revised. The Application Kit, identified above in §3415.4(b), contains a form which is suitable for such certification of compliance (Form CSREES-662).

(ii) Human subjects at risk. Responsibility for safeguarding the rights and welfare of human subjects used in any proposed project supported with grant funds provided by the Department rests with the performing entity. Regulations have been issued by the Department under 7 CFR Part 1c, Protection of Human Subjects. In the event that a project involving human subjects at risk is recommended for award, the applicant will be required to submit a statement certifying that the project plan has been reviewed and approved by the Institutional Review Board at the proposing organization or institution. The Application Kit, identified above in §3415.4(b), contains a form which is suitable for such certification (Form CSREES-662).

(iii) Experimental vertebrate animal care. The responsibility for the humane care and treatment of any experimental vertebrate animal, which has the same meaning as “animal” in section 2(g) of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2132(g)), used in any project supported with grant funds rests with the performing organization. In this regard, all key personnel associated with any supported project and all endorsing officials of the proposed performing entity are required to comply with the applicable provisions of the Animal Welfare Act of 1966, as amended (7 U.S.C. 2131 et seq.) and the regulations promulgated thereunder by the Secretary of Agriculture in 9 CFR parts 1, 2, 3, and 4. The applicant must submit a statement certifying that the proposed project is in compliance with the aforementioned regulations, and that the proposed project is either under review by or has been reviewed and approved by an Institutional Animal Care and Use Committee. The Application Kit, identified above in §3415.4(b), contains a form which is suitable for such certification (Form CSREES-662).

(11) Current and pending support. All proposals must list any other current public or private research support (including in-house support) to which key personnel identified in the proposal have committed portions of their time, whether or not salary support for the
person(s) involved is included in the budget. Analogous information must be provided for any pending proposals that are being considered by, or that will be submitted in the near future to, other possible sponsors, including other USDA programs or agencies. Concurrent submission of identical or similar proposals to other possible sponsors will not prejudice proposal review or evaluation by the Administrator or experts or consultants engaged by the Administrator for this purpose. However, a proposal that duplicates or overlaps substantially with a proposal already reviewed and funded (or that will be funded) by another organization or agency will not be funded under this program. The Application Kit, identified above in §3415.4(b), contains a form which is suitable for listing current and pending support (Form CSREES-663).

(12) Additions to project description. Each project description is expected by the Administrator, the members of peer review groups, and the relevant program staff to be complete while meeting the page limit established in §3415.4(d)(3). However, if the inclusion of additional information is necessary to ensure the equitable evaluation of the proposal (e.g., photographs that do not reproduce well, reprints, and other pertinent materials that are deemed to be unsuitable for inclusion in the text of the proposal), the number of copies submitted should match the number of copies of the application requested in the program solicitation. Each set of such materials must be identified with the name of the submitting organization, and the name(s) of the principal investigator(s). Information may not be appended to a proposal to circumvent page limitations prescribed for the project description. Extraneous materials will not be used during the peer review process.

(13) Organizational management information. Specific management information relating to an applicant shall be submitted on a one-time basis prior to the award of a grant identified under this Part if such information has not been provided previously under this or another program for which the sponsoring agency is responsible. The Department will contact an applicant to request organizational management information once a proposal has been recommended for funding.

§3415.5 Evaluation and disposition of applications.

(a) Evaluation. All proposals received from eligible applicants and submitted in accordance with deadlines established in the annual program solicitation shall be evaluated by the Administrator through such officers, employees, and others as the Administrator determines are uniquely qualified in the areas of research represented by particular projects. To assist in equitably and objectively evaluating proposals and to obtain the best possible balance of viewpoints, the Administrator shall solicit the advice of peer scientists, ad hoc reviewers, or others who are recognized specialists in the areas covered by the applications received and whose general roles are defined in §3415.2. Specific evaluations will be based upon the criteria established in subpart B, §3415.15, unless CSREES and/or ARS determine that different criteria are necessary for the proper evaluation of proposals in one or more specific program areas, or for specific types of projects to be supported, and announces such criteria and their relative importance in the annual program solicitation. The overriding purpose of these evaluations is to provide information upon which the Administrator may make an informed judgment in selecting proposals for support. Incomplete, unclear, or poorly organized applications will work to the detriment of applicants during the peer evaluation process. To ensure a comprehensive evaluation, all applications should be written with the care and thoroughness accorded papers for publication.

(b) Disposition. On the basis of the Administrator’s evaluation of an application in accordance with paragraph (a) of this section, the Administrator will (1) approve support using currently available funds, (2) defer support due to lack of funds or a need for further evaluation, or (3) disapprove support for the proposed project in whole or in part. With respect to approved
projects, the Administrator will determine the project period (subject to extension as provided in §3415.7(c)) during which the project may be supported. Any deferral or disapproval of an application will not preclude its reconsideration or a reapplication during subsequent fiscal years.

§ 3415.6 Grant awards.

(a) General. Within the limit of funds available for such purpose, the awarding official of CSREES or ARS shall make grants to those responsible, eligible applicants whose proposals are judged most meritorious in the announced program areas under the evaluation criteria and procedures set forth in this part. The date specified by the Administrator as the effective date of the grant shall be no later than September 30 of the Federal fiscal year in which the project is approved for support and funds are appropriated for such purpose, unless otherwise permitted by law. It should be noted that the project need not be initiated on the grant effective date, but as soon thereafter as practicable so that project goals may be attained within the funded project period. All funds granted by CSREES or ARS under this Part shall be expended solely for the purpose for which the funds are granted in accordance with the approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department’s assistance regulations (part 3015 and part 3016 of this title).

(b) Grant award document and notice of grant award—(1) Grant award document. The grant award document shall include at a minimum the following:

(i) Legal name and address of performing organization or institution to whom the Administrator has awarded a grant under the terms of this Part;

(ii) Title of project;

(iii) Name(s) and address(es) of principal investigator(s) chosen to direct and control approved activities;

(iv) Identifying grant number assigned by the Department;

(v) Project period, specifying the amount of time the Department intends to support the project without requiring recompetition for funds;

(vi) Total amount of Departmental financial assistance approved by the Administrator during the project period;

(vii) Legal authority(ies) under which the grant is awarded;

(viii) Approved budget plan for categorizing allocable project funds to accomplish the stated purpose of the grant award; and

(ix) Other information or provisions deemed necessary by CSREES or ARS to carry out their respective granting activities or to accomplish the purpose of a particular grant.

(2) Notice of grant award. The notice of grant award, in the form of a letter, will be prepared and will provide pertinent instructions or information to the grantee that is not included in the grant award document.

(c) Types of grant instruments. The major types of grant instruments shall be as follows:

(1) New grant. This is a grant instrument by which CSREES or ARS agrees to support a specified level of effort for a project that generally has not been supported previously under this program. This type of grant is approved on the basis of peer review recommendation.

(2) Renewal grant. This is a grant instrument by which CSREES or ARS agrees to provide additional funding for a project period beyond that approved in an original or amended award. When a renewal application is submitted, it should include a summary of progress to date from the previous granting period. A renewal grant shall be based upon new application, de novo peer review and staff evaluation, new recommendation and approval, and a new award action reflecting that the grant has been renewed.

(3) Supplemental grant. This is an instrument by which CSREES or ARS agrees to provide small amounts of additional funding under a new or renewal grant as specified in paragraphs (c)(1) and (c)(2) of this section and may involve a short-term (usually six months or less) extension of the project period beyond that approved in an
original or amended award. A supplement is awarded only if required to assure adequate completion of the original scope of work and if there is sufficient justification to warrant such action. A request of this nature normally will not require additional peer review.

(d) Funding mechanisms. The two mechanisms by which CSREES or ARS may elect to award new, renewal, and supplemental grants are as follows:

(1) Standard grant. This is a funding mechanism whereby CSREES or ARS agrees to support a specified level of effort for a predetermined time period without the announced intention of providing additional support at a future date.

(2) Continuation grant. This is a funding mechanism whereby CSREES or ARS agrees to support a specified level of effort for a predetermined period of time with a statement of intention to provide additional support at a future date, provided that performance has been satisfactory, appropriations are available for this purpose, and continued support would be in the best interests of the Federal government and the public. This kind of mechanism normally will be awarded for an initial one-year period, and any subsequent continuation project grants also will be awarded in one-year increments. The award of a continuation project grant to fund an initial or succeeding budget period does not constitute an obligation to fund any subsequent budget period. Unless prescribed otherwise by CSREES or ARS, a grantee must submit a separate application for continued support for each subsequent fiscal year. Requests for such continued support must be submitted in duplicate at least three months prior to the expiration date of the budget period currently being funded. Decisions regarding continued support and the actual funding levels of such support in future years usually will be made administratively after consideration of such factors as the grantee's progress and management practices and the availability of funds. Since initial peer reviews are based upon the full term and scope of the original grant application, additional evaluations of this type generally are not required prior to successive years' support. However, in unusual cases (e.g., when the nature of the project or key personnel change or when the amount of future support requested substantially exceeds the grant application originally reviewed and approved), additional reviews may be required prior to approving continued funding.

(e) Obligation of the Federal Government. Neither the approval of any application nor the award of any project grant commits or obligates the United States in any way to make any renewal, supplemental, continuation, or other award with respect to any approved application or portion thereof.

§ 3415.7 Use of funds; changes.

(a) Delegation of fiscal responsibility. The grantee may not in whole or in part delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of grant funds.

(b) Change in project plans. (1) The permissible changes by the grantee, principal investigator(s), or other key project personnel in the approved grant shall be limited to changes in methodology, techniques, or other aspects of the project to expedite achievement of the project's approved goals. If the grantee or the principal investigator(s) is uncertain whether a particular change complies with this provision, the question must be referred to the awarding official of CSREES or ARS, as appropriate, for a final determination.

(2) Changes in approved goals, or objectives, shall be requested by the grantee and approved in writing by the awarding official of CSREES or ARS, as appropriate, prior to effecting such changes. Normally, no requests for such changes that are outside the scope of the original approved project will be approved.

(3) Changes in approved project leadership or the replacement or reassignment of other key project personnel shall be requested by the grantee and approved in writing by the awarding official of CSREES or ARS, as appropriate, prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal
§ 3415.8 Other Federal statutes and regulations that apply.

Several other Federal statutes and regulations apply to grant preproposals or proposals considered for review or to grants awarded under this part. These include but are not limited to:

7 CFR 1.1—USDA implementation of the Freedom of Information Act;
7 CFR Part 1c—USDA implementation of the Federal Policy for the Protection of Human Subjects;
7 CFR Part 3—USDA implementation of OMB Circular A-129 regarding debt collection;
7 CFR Part 15, Subpart A—USDA implementation of title VI of the Civil Rights Act of 1964;
7 CFR Part 520—ARS implementation of the National Environmental Policy Act;

7 CFR Part 3016—USDA Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments;
7 CFR Part 3017, as amended—USDA implementation of Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants);
7 CFR Part 3018—USDA implementation of New Restrictions on Lobbying. Imposes new prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans;
7 CFR Part 3051—Audits of Institutions of Higher Education and Other Nonprofit Institutions;
7 CFR Part 3407—CSREES implementation of the National Environmental Policy Act;
29 U.S.C. 794, section 504—Rehabilitation Act of 1973, and 7 CFR Part 15B (USDA implementation of the statute), prohibiting discrimination based upon physical or mental handicap in Federally assisted programs;
35 U.S.C. 200 et seq.—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR part 401).

§ 3415.9 Other conditions.

The Administrator may elect to use a portion of available funding each fiscal year to support an Annual Conference, the purpose of which will be to bring together scientists and regulatory officials relevant to this program. At the Annual Conference, the participants may offer individual opinions regarding research needs, update information and discuss progress, or may offer individual opinions on areas of risk assessment research appropriate to agricultural biotechnology. The annual program solicitation will indicate whether funds are available to support an Annual Conference and, if so, will include instructions on the preparation and submission of proposals requesting funds from the Department for support of an Annual Conference. The Department may also elect to require principal investigators whose research is funded under this program to attend an Annual Conference and to present data on the results of their research efforts. Should attendance at an Annual Conference be required, the annual program solicitation will so indicate, and
principal investigators may include attendance costs in their proposed budgets.

The Administrator may, with respect to any grant or to any class of awards, impose additional conditions prior to or at the time of any award when, in the Administrator's judgment, such conditions are necessary to ensure or protect advancement of the approved project, the interests of the public, or the conservation of grant funds.

Subpart B—Scientific Peer Review of Research Grant Applications

§ 3415.10 Establishment and operation of peer review groups.

Subject to § 3415.5, the Administrator shall adopt procedures for the conduct of peer reviews and the formulation of recommendations under § 3415.14.

§ 3415.11 Composition of peer review groups.

(a) Peer review group members and ad hoc reviewers will be selected based upon their training and experience in relevant scientific or technical fields, taking into account the following factors:

(1) The level of formal scientific or technical education by the individual and the extent to which an individual is engaged in relevant research activities;

(2) The need to include as peer reviewers experts from various areas of specialization within relevant scientific or technical fields;

(3) The need to include as peer reviewers experts from a variety of organizational types (e.g., universities, Federal laboratories, industry, private consultant(s), Federal and State regulatory agencies, environmental organizations) and geographic locations; and

(4) The need to maintain a balanced composition of peer review groups related to minority and female representation and an equitable age distribution.

§ 3415.12 Conflicts of interest.

Members of peer review groups covered by this part are subject to relevant provisions contained in title 18 of the United States Code relating to criminal activity. Departmental regulations governing employee responsibilities and conduct (part O of this title), and Executive Order No. 11222, as amended.

§ 3415.13 Availability of information.

Information regarding the peer review process will be made available to the extent permitted under the Freedom of Information Act (5 U.S.C. 552), the Privacy Act (5 U.S.C. 552a.), and implementing Departmental regulations (part 1 of this title).

§ 3415.14 Proposal review.

(a) All grant applications will be acknowledged. Prior to technical examination, a preliminary review will be made for responsiveness to the program solicitation (e.g., relationship of application to announced program area). Proposals that do not fall within the guidelines as stated in the program solicitation will be eliminated from competition and will be returned to the applicant.

(b) All applications will be carefully reviewed by the Administrator, qualified officers or employees of the Department, the respective peer review group, and ad hoc reviewers, as required. Written comments will be solicited from ad hoc reviewers when required, and individual written comments and in-depth discussions will be provided by peer review group members prior to recommending applications for funding. Applications will be ranked and support levels recommended within the limitation of total available funding for each research program area as announced in the program solicitation.

(c) No awarding official will make a grant based upon an application covered by this part unless the application has been reviewed in accordance with the provisions of this part and unless said reviewers have made recommendations concerning the scientific merit and relevance to the program of such application.

(d) Except to the extent otherwise provided by law, such recommendations are advisory only and are not binding on program officers or on the awarding officials of CSREES and ARS.
§ 3415.15 Evaluation factors.

In carrying out its review under §3415.14, the peer review group will take into account the following factors unless, pursuant to §3415.5(a), different evaluation criteria are specified in the annual program solicitation:

(a) Scientific merit of the proposal.
(1) Conceptual adequacy of hypothesis;
(2) Clarity and delineation of objectives;
(3) Adequacy of the description of the undertaking and suitability and feasibility of methodology;
(4) Demonstration of feasibility through preliminary data;
(5) Probability of success of project;
(6) Novelty, uniqueness and originality; and
(7) Appropriateness to regulation of biotechnology and risk assessment.

(b) Qualifications of proposed project personnel and adequacy of facilities.

(1) Training and demonstrated awareness of previous and alternative approaches to the problem identified in the proposal, and performance record and/or potential for future accomplishments;
(2) Time allocated for systematic attainment of objectives;
(3) Institutional experience and competence in subject area; and
(4) Adequacy of available or obtainable support personnel, facilities, and instrumentation.

(c) Relevance of project to solving biotechnology regulatory uncertainty for United States agriculture.

(1) Scientific contribution of research in leading to important discoveries or significant breakthroughs in announced program areas; and
(2) Relevance of the risk assessment research to agriculture and environmental regulations.

§ 3550.300 OMB control number.

Source: 61 FR 59779, Nov. 22, 1996, unless otherwise noted.

Subpart A—General

§ 3550.1 Applicability.

This part sets forth policies for the direct single family housing loan programs operated by the Rural Housing Service (RHS) of the U.S. Department of Agriculture (USDA). It addresses the requirements of sections 502 and 504 of the Housing Act of 1949, as amended, and includes policies regarding both
loan and grant origination and servicing. Procedures for implementing these regulations can be found in program handbooks, available in any Rural Development office. Any provision on the expenditure of funds under this part is contingent upon the availability of funds.

§ 3550.2 Purpose.

The purpose of the direct RHS single family housing loan programs is to provide low- and very low-income people who will live in rural areas with an opportunity to own adequate but modest, decent, safe, and sanitary dwellings and related facilities. The section 502 program offers persons who do not currently own adequate housing, and who cannot obtain other credit, the opportunity to acquire, build, rehabilitate, improve, or relocate dwellings in rural areas. The section 504 program offers loans to very low-income homeowners who cannot obtain other credit to repair or rehabilitate their properties. The section 504 program also offers grants to homeowners age 62 or older who cannot obtain a loan to correct health and safety hazards or to make the unit accessible to household members with disabilities.

§ 3550.3 Civil rights.

RHS will administer its programs fairly, and in accordance with both the letter and the spirit of all equal opportunity and fair housing legislation and applicable executive orders. Loans, grants, services, and benefits provided under this part shall not be denied to any person based on race, color, national origin, sex, religion, marital status, familial status, age, physical or mental disability, receipt of income from public assistance, or because the applicant has, in good faith, exercised any right under the Consumer Credit Protection Act (15 U.S.C. 1601 et seq.). All activities under this part shall be accomplished in accordance with the Fair Housing Act (42 U.S.C. 3601-3620), Executive Order 11246, and Executive Order 11063, as amended by Executive Order 12259, as applicable. The civil rights compliance requirements for RHS are in 7 CFR part 1901, subpart E.

§ 3550.4 Reviews and appeals.

Whenever RHS makes a decision that is adverse to a participant, RHS will provide the participant with written notice of such adverse decision and the participant’s rights to a USDA National Appeals Division hearing in accordance with 7 CFR part 11. Any adverse decision, whether appealable or non-appealable may be reviewed by the next-level RHS supervisor.

§ 3550.5 Environmental requirements.

(a) Policy. RHS will consider environmental quality as equal with economic, social, and other relevant factors in program development and decision-making processes. RHS will take into account potential environmental impacts of proposed projects by working with RHS applicants, other federal agencies, Indian tribes, State and local governments, and interested citizens and organizations in order to formulate actions that advance the program’s goals in a manner that will protect, enhance, and restore environmental quality.

(b) Regulatory references. Processing and servicing actions under this part will be done in accordance with the requirements provided in 7 CFR part 1940, subpart G which addresses environmental requirements and 7 CFR part 1924, subpart A, which addresses lead-based paint.

§ 3550.6 State law or State supplement.

State and local laws and regulations, and the laws of federally recognized Indian tribes, may affect RHS implementation of certain provisions of this regulation, for example, with respect to the treatment of liens, construction, or environmental policies. Supplemental guidance may be issued in the case of any conflict or significant differences.

§ 3550.7 Demonstration programs.

From time to time, RHS may authorize limited demonstration programs. The purpose of these demonstration programs is to test new approaches to offering housing under the statutory authority granted to the Secretary. Therefore, such demonstration programs may not be consistent with some of the provisions contained in
§ 3550.8 Exception authority.

An RHS official may request, and the Administrator or designee may make, an exception to any requirement or provision of this part or address any omission of this part that is consistent with the applicable statute if the Administrator determines that application of the requirement or provision, or failure to take action in the case of an omission, would adversely affect the Government’s interest.

§ 3550.9 Conflict of interest.

(a) Objective. It is the objective of RHS to maintain the highest standards of honesty, integrity, and impartiality by employees. To reduce the potential for employee conflict of interest, all processing, approval, servicing, or review activity will be conducted in accordance with 7 CFR part 1900, subpart D by RHS employees who:

(1) Are not themselves the applicant or borrower;
(2) Are not members of the family or close known relatives of the applicant or borrower;
(3) Do not have an immediate working relationship with the applicant or borrower, the employee related to the applicant or borrower, or the employee who would normally conduct the activity; or
(4) Do not have a business or close personal association with the applicant or borrower.

(b) Applicant or borrower responsibility. The applicant or borrower must disclose any known relationship or association with an RHS employee when such information is requested.

(c) RHS employee responsibility. An RHS employee must disclose any known relationship or association with a recipient, regardless of whether the relationship or association is known to others. RHS employees or members of their families may not purchase a Real Estate Owned (REO) property, security property from a borrower, or security property at a foreclosure sale. Loan closing agents who have been involved with a particular property, as well as members of their families, are also precluded from purchasing such properties.

[61 FR 59779, Nov. 22, 1996; 61 FR 65266, Dec. 11, 1996]

§ 3550.10 Definitions.

Acceleration. Demand for immediate repayment of the entire balance of a debt if the security instruments are breached.

Adjusted income. Used to determine whether an applicant is income-eligible. Adjusted income provides for deductions to account for varying household circumstances and expenses. See §3550.54 for a complete description of adjusted income.

Adjustment. An agreement to release a debtor from liability generally upon receipt of an initial lump sum representing the maximum amount the debtor can afford to pay and periodic additional payments over a period of up to 5 years.

Amortized payment. Equal monthly payments under a fully amortized mortgage loan that provides for the scheduled payment of interest and principal over the term of the loan.

Applicant. An adult member of the household who will be responsible for repayment of the loan.

Assumption. The procedure whereby the transferee becomes liable for all or part of the debt of the transferor.

Borrower. A recipient who is indebted under the section 502 or 504 programs.

Cancellation. A decision to cease collection activities and release the debtor or from personal liability for any remaining amounts owed.

Compromise. An agreement to release a debtor from liability upon receipt of a specified lump sum that is less than the total amount due.

Conditional commitment. A determination that a proposed dwelling will qualify as a program-eligible property. The conditional commitment does not reserve funds, nor does it ensure that a program-eligible applicant will be available to buy the dwelling.

Cosigner. An individual or an entity that joins in the execution of a promissory note to compensate for any deficiency in the applicant’s repayment ability. The cosigner becomes jointly
liable to comply with the terms of the promissory note in the event of the borrower’s default, but is not entitled to any interest in the security or borrower rights.

Cross-collateralized loan. A situation in which a single property secures both RHS and Farm Service Agency loans.

Custodial property. Borrower-owned real property that serves as security for a loan that has been taken into possession by the Agency to protect the Government’s interest.

Daily simple interest. A method of establishing borrower payments based on daily interest charged on the outstanding principal balance of the loan. Principal is reduced by the amount of payment in excess of the accrued interest.

Dealer-contractor. A person, firm, partnership, or corporation in the business of selling and servicing manufactured homes and developing sites for manufactured homes. A person, firm, partnership, or corporation not capable of providing the complete service is not eligible to be a dealer-contractor.

Debt instrument. A collective term encompassing obligating documents for a loan, including any applicable promissory note, assumption agreement, or grant agreement.

Deferred mortgage payments. A subsidy available to eligible, very low-income borrowers of up to 25 percent of their principal and interest payments at 1 percent for up to 15 years. The deferred amounts are subject to recapture on sale or nonoccupancy.

Deficient housing. A dwelling that lacks complete plumbing; lacks adequate heating; is dilapidated or structurally unsound; has an overcrowding situation that will be corrected with loan funds; or that is otherwise uninhabitable, unsafe, or poses a health or environmental threat to the occupant or others.

Elderly family. An elderly family consists of one of the following:

(1) A person who is the head, spouse, or sole member of a family and who is 62 years of age or older, or who is disabled, and is an applicant or borrower;

(2) Two or more persons who are living together, at least 1 of whom is age 62 or older, or disabled, and who is an applicant or borrower; or

(3) In the case of a family where the deceased borrower or spouse was at least 62 years old or disabled, the surviving household member shall continue to be classified as an elderly family for the purpose of determining adjusted income, even though the surviving members may not meet the definition of elderly family on their own, provided:

(i) They occupied the dwelling with the deceased family member at the time of the death;

(ii) If one of the surviving family members is the spouse of the deceased family member, the family shall be classified as an elderly family only until the remarriage of the surviving spouse; and

(iii) At the time of the death of the deceased family member, the dwelling was financed under title V of the Housing Act of 1949, as amended.

Escrow account. An account to which the borrower contributes monthly payments to cover the anticipated costs of real estate taxes, hazard and flood insurance premiums, and other related costs.

Existing dwelling or unit. A dwelling that is more than 1 year old, or less than 1 year old and covered by an approved 10-year warranty plan.

False information. Information that the recipient knew was incorrect or should have known was incorrect that was provided or omitted for the purposes of obtaining assistance for which the recipient was not eligible.

Full-time student. A person who carries at least the minimum number of credit hours considered to be full-time by college or vocational school in which the person is enrolled.

Hazard. A condition of the property that jeopardizes the health or safety of the occupants or members of the community, that does not make it unfit for habitation. (See also the definition of major hazard in this section.)

Household. All persons expected to be living in the dwelling, except for live-in aids, foster children, and foster adults.

Housing Act of 1949, as amended. The Act which provides the authority for the direct single family housing programs. It is codified at 42 U.S.C. 1471 et seq.
HUD. The U.S. Department of Housing and Urban Development.

Inaccurate information. Incorrect information inadvertently provided, used, or omitted without the intent to obtain benefits for which the recipient was not eligible.

Indian reservation. All land located within the limits of any Indian reservation under the jurisdiction of the United States notwithstanding the issuance of any patent and including rights-of-way running through the reservation; trust or restricted land located within the boundaries of a former reservation of a federally recognized Indian tribe in the State of Oklahoma; or all Indian allotments, the titles to which have not been extinguished, if such allotments are subject to the jurisdiction of a federally recognized Indian tribe.

Interest credit. A payment subsidy available to certain eligible section 502 borrowers that reduces the effective interest rate of a loan (see 3550.68(d)). Borrowers receiving interest credit will continue to receive it on all current and future loans for as long as they remain eligible for and continue to receive a subsidy. Borrowers who cease to be eligible for interest credit can never receive interest credit again, but may receive payment assistance if they again qualify for a payment subsidy.

Junior lien. A security instrument or a judgment against the security property to which the RHS debt instrument is superior.

Legal alien. For the purposes of this part, legal alien refers to any person lawfully admitted to the country who meets the criteria in section 214 of the Housing and Community Development Act of 1980, 42 U.S.C. 1436a.

Leveraged loan. A loan or grant to an Agency borrower from a non-RHS source for the same property, closed simultaneously with an RHS loan.

Live-in aide. A person who lives with an elderly or disabled person and is essential to that person's care and well-being, not obligated for the person's support, and would not be living in the unit except to provide the support services.

Low income. An adjusted income that is greater than the HUD established very low-income limit, but that does not exceed the HUD established low-income limit (generally 80 percent of median income adjusted for household size) for the county or Metropolitan Statistical Area where the property is or will be located.

Major hazard. A condition so severe that it makes the property unfit for habitation. (See also the definition of hazard in this section.)

Manufactured home. A structure that is built to Federally Manufactured Home Construction and Safety Standards and RHS Thermal Performance Standards. It is transportable in 1 or more sections, which in the traveling mode is 10-body feet (3.048 meters) or more in width, and when erected on site is 400 or more square feet (37.16 square meters), and which is built on a permanent chassis and designed to be used as a dwelling with or without a permanent foundation when connected to the required utilities. It is designed and constructed for permanent occupancy by a single family and contains permanent eating, cooking, sleeping, and sanitary facilities. The plumbing, heating, and electrical systems are contained in the structure. A permanent foundation is required.

Market value. The value of the property as determined by a current appraisal, RHS may authorize the use of a Broker's Price Opinion or similar instrument to determine market value in limited servicing situations.

Mobile home. A manufactured unit often referred to as a "trailer," designed to be used as a dwelling, but built prior to the enactment of the Housing and Community Development Act of 1980 (Pub. L. 96-399) enacted October 8, 1980.

Moderate income. An adjusted income that is greater than the low-income limit, but that does not exceed the HUD established low-income limit by more than $5,500.

Modest housing. A property that is considered modest for the area, with a cost that does not exceed the applicable limit established under section 203(b) of the National Housing Act (12 U.S.C. 1709) (unless an exception is approved by RHS). In addition, the property must not be designed for income-producing activities nor have an inground swimming pool.
Rural Housing Service, USDA § 3550.10

Modular or panelized home. Housing, constructed of one or more factory-built sections or panels, which, when completed, meets or exceeds the requirements of the recognized development standards (model building codes) for site built housing, and which is designed to be permanently connected to a site-built foundation.

Moratorium. A period of up to 2 years during which scheduled payments are not required, but are subject to repayment at a later date.

Mortgage. A form of security instrument or consensual lien on real property including a real estate mortgage or a deed of trust.

Net family assets. The value of assets available to a household that could be used towards housing costs. Net family assets are considered in the calculation of annual income and are used to determine whether the household must make additional cash contributions to improve or purchase the property.

Net recovery value. The market value of the security property minus anticipated expenses of liquidation, acquisition, and sale as determined by RHS.

New dwelling. A dwelling that is to be constructed, or an already-existing dwelling that is less than 1 year old and is not covered by an approved 10-year warranty plan.

Nonprogram (NP) interest rate. The interest rate offered by RHS for loans made on NP terms.

NP property. Property that does not meet the program eligibility requirements outlined in §§ 3550.56 and 3550.57.

NP terms. Credit terms available from RHS when the applicant or property is not program-eligible.

Offset. Deductions to pay a debt owed to RHS from a borrower’s retirement benefits, salary, income tax refund, or payments from other federal agencies to the borrower. Deductions from retirement benefits and salary generally apply only to current and former federal employees.

Participant. For the purpose of reviews and appeals, a participant is any individual or entity who has applied for, or whose right to participate in or receive a payment, loan, or other benefit is affected by an RHS decision.

Payment assistance. A payment subsidy available to eligible section 502 borrowers that reduces the effective interest rate of a loan (see § 3550.68(c)). Borrowers eligible for a payment subsidy receive payment assistance unless they are currently eligible for and receive interest credit.

Payment subsidy. A general term for subsidies which reduce the borrower’s scheduled payment. It refers to either payment assistance or interest credit.

Person with disability. Any person who has a physical or mental impairment that substantially limits one or more major life activities, including functioning such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working, has a record of such an impairment, or is regarded as having such an impairment.

PITI ratio. The amount paid by the borrower for principal, interest, taxes, and insurance (PITI), divided by repayment income.

Principal reduction attributed to subsidy (PRAS). Accelerated principal reduction that can occur when a borrower receives a reduced interest rate through a payment subsidy.

Prior lien. A security instrument or a judgment against the security property that is superior to the RHS debt instrument.

Program-eligible applicant. Any applicant meeting the eligibility requirements described in § 3550.53.

Program-eligible property. A property eligible to be financed under this part, as determined by the criteria listed in §§ 3550.56 through 3550.59.

Program terms. Credit terms that are available only to program-eligible applicants for program-eligible properties.

Property. The land, dwelling, and related facilities for which the applicant will use RHS assistance.

Protective advances. Costs incurred by the Agency to protect the security interest of the Government that are charged to the borrower’s account.

Real estate taxes. Taxes and the annual portion of assessments estimated to be due and payable on the property, reduced by any available tax exemption.

Recapture amount. An amount of subsidy to be repaid by the borrower upon
disposition or nonoccupancy of the property.

Recipient. Any applicant, borrower, or grant recipient who applies for or receives assistance under the section 502 or 504 programs.

REO. The acronym for “Real Estate Owned.” It refers to property for which RHS holds title.

Repayment income. Used to determine whether an applicant has the ability to make monthly loan payments. Repayment income includes amounts excluded for the purpose of determining adjusted income. See §3550.54 for a complete description.

RHS. The Rural Housing Service of the U.S. Department of Agriculture, or its successor agency, formerly the Rural Housing and Community Development Service (RHCD), a successor agency to the Farmers Home Administration (FmHA).

RHS employee. Any employee of RHS, or any employee of the Rural Development mission area who carries out grant or loan origination or servicing functions for the section 502 or 504 programs.

RHS interest rate. The unsubsidized interest rate offered by RHS for loans made on program terms.

Rural area. A rural area is:

(1) Open country which is not part of or associated with an urban area.

(2) Any town, village, city, or place, including the immediate adjacent densely settled area, which is not part of or associated with an urban area and which:

(i) Has a population not in excess of 10,000 if it is rural in character; or

(ii) Has a population in excess of 10,000 but not in excess of 20,000, is not contained within a Metropolitan Statistical Area, and has a serious lack of mortgage credit for low- and moderate-income households as determined by the Secretary of Agriculture and the Secretary of HUD.

(3) An area classified as a rural area prior to October 1, 1990, (even if within a Metropolitan Statistical Area), with a population exceeding 10,000, but not in excess of 25,000, which is rural in character, and has a serious lack of mortgage credit for low- and moderate-income families. This is effective through receipt of census data for the year 2000.

Rural Development. A mission area within USDA which includes RHS, Rural Utilities Service (RUS), and Rural Business-Cooperative Service (RBS).

Scheduled payment. The monthly or annual installment on a promissory note plus escrow (if required), as modified by any payment subsidy agreement, delinquency workout agreement, other documented agreements between RHS and the borrower, or protective advances.

Secured loan. A loan that is collateralized by property so that in the event of a default on the loan, the property may be sold to satisfy the debt.

Security property. All the property that serves as collateral for an RHS loan.

Subsidy. Interest credit, payment assistance, or deferred mortgage assistance received by a borrower under the section 502 or 504 programs.

Total debt ratio. The amount paid by the borrower for PITI and any recurring monthly debt, divided by repayment income.

Unauthorized assistance. Any loan, payment subsidy, deferred mortgage payment, or grant for which there was no regulatory authorization or for which the recipient was not eligible.

U.S. citizen. An individual who resides as a citizen in any of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, the Republic of Palau, or the Republic of the Marshall Islands.

USDA. The United States Department of Agriculture.

Unsecured loan. A loan evidenced only by the borrower’s promissory note.

Value appreciation. The current market value of the property minus: the balance due prior lienholders, the unpaid balance of the RHS debt, unreimbursed closing costs (if any), principal reduction, the original equity (if any) of the borrower, and the value added by capital improvements.
Very low-income. An adjusted income that does not exceed the HUD-established very low-income limit (generally 50 percent of median income adjusted for household size) for the county or the Metropolitan Statistical Area where the property is or will be located.

Veterans preference. A preference extended to any person applying for a loan or grant under this part who served on active duty and has been discharged or released from the active forces on conditions other than dishonorable from the United States Army, Navy, Air Force, Marine Corps, or Coast Guard. The preference applies to the serviceperson, or the family of a deceased serviceperson who died in service before the termination of such war or such period or era. The applicable timeframes are:

(1) During the period of April 6, 1917, through March 31, 1921;
(2) During the period of December 7, 1941, through December 31, 1946;
(3) During the period of June 27, 1950, through January 31, 1955;
(4) For a period of more than 180 days, any part of which occurred after January 31, 1955, but on or before May 7, 1975; or
(5) During the period beginning August 2, 1990, and ending the date prescribed by Presidential Proclamation or law.

§§ 3550.11—3550.49 [Reserved]

§ 3550.50 OMB control number.

The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0575-0166. Public reporting burden for this collection of information is estimated to vary from 5 minutes to 3 hours per response, with an average of 1½ hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Department of Agriculture, Clearance Officer, STOP 7602, 1400 Independence Ave, SW., Washington, DC 20250-7602. You are not required to respond to this collection of information unless it displays a currently valid OMB control number.

Subpart B—Section 502 Origination

§ 3550.51 Program objectives.

Section 502 of the Housing Act of 1949, as amended authorizes the Rural Housing Service (RHS) to provide financing to help low- and very low-income persons who cannot obtain credit from other sources obtain adequate housing in rural areas. Resources for the section 502 program are limited, and therefore, applicants are required to use section 502 funds in conjunction with funding or financing from other sources, if feasible. Sections 3550.52 through 3550.73 set forth the requirements for originating loans on program terms. Section 3550.74 describes the differences for originating loans on non-program (NP) terms.

§ 3550.52 Loan purposes.

Section 502 funds may be used to buy, build, rehabilitate, improve, or relocate an eligible dwelling and provide related facilities for use by the borrower as a permanent residence. In limited circumstances section 502 funds may be used to refinance existing debt.

(a) Purchases from existing RHS borrowers. To purchase a property currently financed by an RHS loan, the new borrower must assume the existing RHS indebtedness. Section 502 funds may be used to provide additional financing or make repairs. Loan funds also may be used to permit a remaining borrower to purchase the equity of a departing co-borrower.

(b) Refinancing non-RHS loans. Debt from an existing non-RHS loan may be refinanced if the existing debt is secured by a lien against the property, RHS will have a first lien position on the security property after refinancing, and:

(1) In the case of loans for existing dwellings, if:
§ 3550.53

(i) Due to circumstances beyond the applicant’s control, the applicant is in danger of losing the property; and
(ii) The debt is over $5,000 and was incurred for eligible program purposes prior to loan application or was a protective advance made by the mortgagee for items covered by the loan to be refinanced, including accrued interest, insurance premiums, real estate tax advances, or preliminary foreclosure costs.

(2) In the case of loans for a building site without a dwelling, if:
(i) The debt to be refinanced was incurred for the sole purpose of purchasing the site;
(ii) The applicant is unable to acquire adequate housing without refinancing; and
(iii) The RHS loan will include funds to construct an appropriate dwelling on the site for the applicant’s use.

(3) Debts incurred after the date of RHS loan application but before closing may be refinanced if the costs are incurred for eligible loan purposes and any construction work conforms to the standards specified in this part.

(c) Refinancing RHS debt. Under limited circumstances, an existing RHS loan may be refinanced in accordance with § 3550.204 to allow the borrower to receive payment assistance.

(d) Eligible costs. Improvements financed with loan funds must be on land which, after closing, is part of the security property. In addition to acquisition, construction, repairs, or the cost of relocating a dwelling, loan funds may be used to pay for:

(1) Reasonable expenses related to obtaining the loan, including legal, architectural and engineering, technical, title clearance, and loan closing fees; and appraisal, surveying, environmental, tax monitoring, and other technical services; and personal liability insurance fees for Mutual Self-Help borrowers.

(2) The cost of providing special design features or equipment when necessary because of a physical disability of the applicant or a member of the household.

(3) Reasonable connection fees, assessments, or the pro rata installment costs for utilities such as water, sewer, electricity, and gas for which the borrower is liable and which are not paid from other funds.

(4) Reasonable and customary lender charges and fees if the RHS loan is being made in combination with a leveraged loan.

(5) Real estate taxes that are due and payable on the property at the time of closing and for the establishment of escrow accounts for real estate taxes, hazard and flood insurance premiums, and related costs.

(6) Fees to public and private nonprofit organizations that are tax exempt under the Internal Revenue Code for the development and packaging of loan applications, except for loans related to the purchase of an RHS Real Estate Owned (REO) property.

(7) Purchasing and installing essential equipment in the dwelling, including ranges, refrigerators, washers or dryers, if these items are normally sold with dwellings in the area and if the purchase of these items is not the primary purpose of the loans.

(8) Purchasing and installing approved energy savings measures and approved furnaces and space heaters that use fuel that is commonly used, economical, and dependably available.

(9) Providing site preparation, including grading, foundation plantings, seeding or sodding, trees, walks, yard fences, and driveways to a building site.

(e) Loan restrictions. Loan funds may not be used to:

(1) Purchase an existing manufactured home, or for any other purposes prohibited in § 3550.73(b).

(2) Purchase or improve income-producing land or buildings to be used principally for income-producing purposes.

(3) Pay fees, commissions, or charges to for-profit entities related to loan packaging or referral of prospective applicants to RHS.

§ 3550.53 Eligibility requirements.

(a) Income eligibility. At the time of loan approval, the household’s adjusted income must not exceed the applicable low-income limit for the area, and at closing, must not exceed the applicable moderate-income limit for the area (see § 3550.544).
(b) Citizenship status. The applicant must be a United States citizen or a noncitizen who qualifies as a legal alien as defined in §3550.10.

(c) Primary residence. Applicants must agree to and have the ability to occupy the dwelling on a permanent basis.

(1) Because of the probability of transfer, loans will not be approved for military personnel on active duty unless the applicant will be discharged within a reasonable period of time.

(2) Because of the probability of moves after graduation, loans will not be approved for a full-time student unless the applicant intends to make the home a permanent residence and there are reasonable prospects that employment will be available in the area after graduation.

(3) If the home is being constructed or renovated an adult member of the household must be available to make inspections and authorize progress payments as the dwelling is being constructed.

(d) Eligibility of current homeowners. Current homeowners are not eligible for initial loans except as follows:

(1) Current homeowners may receive RHS loan funds to:

(i) Refinance an existing loan under the conditions outlined in §3550.52(b);

(ii) Purchase a new dwelling if the current dwelling is deficient housing as defined in §3550.10; or

(iii) Make necessary repairs to the property which is financed with an affordable non-RHS loan.

(2) Current homeowners with an RHS loan may receive a subsequent loan.

(e) Legal capacity. Applicants must have the legal capacity to incur the loan obligation, or have a court appointed guardian or conservator who is empowered to obligate the applicant in real estate matters.

(f) Suspension or debarment. Applications from applicants who have been suspended or debarred from participation in federal programs will be handled in accordance with 7 CFR part 3017.

(g) Repayment ability. Applicants must demonstrate adequate repayment ability.

(1) A very low-income applicant is considered to have repayment ability when the monthly amount required for payment of principal, interest, taxes, and insurance (PITI) does not exceed 29 percent of the applicant's repayment income, and the monthly amount required to pay PITI plus recurring monthly debts does not exceed 41 percent of the applicant's repayment income.

(2) A low-income applicant is considered to have repayment ability when the monthly amount required for payment of PITI does not exceed 33 percent of the applicant's repayment income, and the monthly amount required to pay PITI plus recurring monthly debts does not exceed 41 percent of repayment income.

(3) Repayment ratios may exceed the percentages specified in paragraphs (g)(1) and (g)(2) of this section if the applicant has demonstrated an ability to meet higher debt obligations, or if RHS determines, based on other compensating factors, that the household has a higher repayment ability.

(4) If an applicant does not meet the repayment ability requirements, the applicant can have another party join the application as a co-signer.

(5) If an applicant does not meet the repayment ability requirements, the applicant can have other household members join the application.

(h) Credit qualifications. Applicants must be unable to secure the necessary credit from other sources on terms and conditions that the applicant could reasonably be expected to fulfill. Applicants must have a credit history that indicates reasonable ability and willingness to meet debt obligations. An applicant with an outstanding judgment obtained by the United States in a federal court, other than the United States Tax Court, is not eligible for a loan or grant from RHS.

(1) Indicators of unacceptable credit include:

(i) Incidents of more than 2 debt payments more than 30 days late within the last 12 months.

(ii) A foreclosure which has been completed within the last 36 months.

(iii) An outstanding Internal Revenue Service tax lien or any other outstanding tax liens with no satisfactory arrangement for payment.
(iv) A court-created or court-affirmed obligation or judgment caused by non-payment that is currently outstanding or has been outstanding within the last 12 months, except for those excluded in paragraphs (h)(2)(i) and (h)(2)(ii) of this section.

(v) Two or more rent payments paid 30 or more days late within the last 2 years. If the applicant has experienced no other credit problems in the past 2 years, only 1 year of rent history will be evaluated. Rent payment history requirements may be waived if the RHS loan will reduce shelter costs significantly and contribute to an improved repayment ability.

(vi) Outstanding collection accounts with a record of irregular payment with no satisfactory arrangements for repayment, or collection accounts that were paid in full within the last 6 months.

(vii) Non-agency debts written off within the last 36 months unless paid in full at least 12 months ago.

(viii) Agency debts that were debt settled, or are being considered for debt settlement.

(ix) Delinquency on a federal debt.

(2) The following will not be considered indicators of unacceptable credit:

(i) A bankruptcy in which debts were discharged more than 36 months prior to the date of application or where an applicant successfully completed a bankruptcy restructuring plan and has demonstrated a willingness to meet obligations when due for the 12 months prior to the date of application.

(ii) A judgment satisfied more than 12 months before the date of application.

(iii) When an application is rejected because of unacceptable credit, the applicant will be informed of the reason and source of information.

§ 3550.54 Calculation of income and assets.

(a) Repayment income. Repayment income is the annual amount of income from all sources that are expected to be received by those household members who are parties to the promissory note, except for any student financial aid received by these household members for tuition, fees, books, equipment, materials, and transportation. Repayment income is used to determine the household's ability to repay a loan.

(b) Annual income. Annual income is the income of all household members from all sources except those listed in (b)(1) through (b)(12) of this section:

(1) Earned income of persons under the age of 18 unless they are a borrower or a spouse of a member of the household;

(2) Payments received for the care of foster children or foster adults;

(3) Amounts granted for or in reimbursement of the cost of medical expenses;

(4) Earnings of each full-time student 18 years of age or older, except the head of household or spouse, that are in excess of any amount determined pursuant to section 501(b)(5) of the Housing Act of 1949, as amended;

(5) Temporary, nonrecurring, or sporadic income (including gifts);

(6) Lump sum additions to family assets such as inheritances; capital gains; insurance payments under health, accident, or worker's compensation policies; settlements for personal or property losses; and deferred periodic payments of supplemental security income and Social Security benefits received in a lump sum;

(7) Any earned income tax credit;

(8) Adoption assistance in excess of any amount determined pursuant to section 501(b)(5) of the Housing Act of 1949, as amended;

(9) Amounts paid by a State agency to a family with a developmentally disabled family member living at home to offset the cost of services and equipment needed to keep the developmentally disabled family member at home;

(10) Amounts paid by a State agency to a family with a developmentally disabled family member living at home under State or local law for property taxes paid on the dwelling;

(11) The full amount of any student financial aid; and

(12) Any other revenue exempted by a Federal statute; a list of which is available from any Rural Development office.

(c) Adjusted income. Adjusted income is used to determine program eligibility for sections 502 and 504 and the amount of payment subsidy for which
the household qualifies under section 502. Adjusted income is annual income as defined in paragraph (b) of this section less any of the following deductions for which the household is eligible.

1) For each family member, except the head of household or spouse, who is under 18 years of age, 18 years of age or older with a disability, or a full-time student, the amount determined pursuant to section 501(b)(5) of the Housing Act of 1949, as amended.

2) A deduction of reasonable expenses for the care of minor 12 years of age or under that:
   (i) Enable a family member to work or to further a member’s education;
   (ii) Are not reimbursed or paid by another source; and
   (iii) In the case of expenses to enable a family member to work do not exceed the amount of income earned by the family member enabled to work.

3) Expenses related to the care of household members with disabilities that:
   (i) Enable a family member to work;
   (ii) Are not reimbursed from insurance or another source; and
   (iii) Are in excess of three percent of the household’s annual income.

4) For any elderly family, a deduction in the amount determined pursuant to section 501(b)(5) of the Housing Act of 1949, as amended.

5) For elderly households only, a deduction for household medical expenses that are not reimbursed from insurance or another source and which in combination with any expenses related to the care of household members with disabilities described in paragraph (c)(3) of this section, are in excess of three percent of the household’s annual income.

(d) Net family assets. Income from net family assets must be included in the calculation of annual and repayment income. Net family assets also are considered in determining whether a down payment is required.

1) Net family assets include the cash value of:
   (i) Equity in real property, other than the dwelling or site;
   (ii) Cash on hand and funds in savings or checking accounts;
   (iii) Amounts in trust accounts that are available to the household;
   (iv) Stocks, bonds, and other forms of capital investments including life insurance policies and retirement plans that are accessible to the applicant without retiring or terminating employment;
   (v) Lump sum receipts such as lottery winnings, capital gains, inheritances;
   (vi) Personal property held as an investment; and
   (vii) Any value, in excess of the consideration received, for any business or household assets disposed for less than fair market value during the 2 years preceding the income determination. The value of assets disposed of for less than fair market value shall not be considered if they were disposed of as a result of foreclosure or bankruptcy or a divorce or separation settlement.

2) Net family assets do not include:
   (i) Interest in American Indian trust land;
   (ii) Cash on hand which will be used to reduce the amount of the loan;
   (iii) The value of necessary items of personal property;
   (iv) Assets that are part of the business, trade, or farming operation of any member of the household who is actively engaged in such operation;
   (v) The value of an irrevocable trust fund or any other trust over which no member of the household has control.

§ 3550.55 Applications.

(a) Application submissions. All persons applying for RHS loans must file a complete written application in a format specified by RHS. Applications will be accepted even when funds are not available.

(b) Application processing. (1) Incomplete applications will be returned to the applicant specifying in writing the additional information that is needed to make the application complete.

(2) An applicant may voluntarily withdraw an application at any time.

(3) RHS may periodically request in writing that applicants reconfirm their interest in obtaining a loan. RHS may withdraw the application of any applicant who does not respond within the specified timeframe.
(4) Applicants who are eligible will be notified in writing. If additional information becomes available that indicates that the original eligibility determination may have been incorrect, or that circumstances have changed, RHS may reconsider the application and the applicant may be required to submit additional information.

(5) Applicants who are ineligible will be notified in writing and provided with the specific reasons for the rejection.

(c) Selection for processing. When funding is not sufficient to serve all program-eligible applicants, applications will be selected for processing using the funding priorities specified in this paragraph. Within priority categories, applications will be processed in the order that the completed applications are received. In the case of applications with equivalent priority status that are received on the same day, preference will be extended to applicants qualifying for a veterans preference. After selection for processing, loans are funded on a first-come, first-served basis.

(1) First priority will be given to existing customers who request subsequent loans to correct health and safety hazards.

(2) Second priority will be given to loans related to the sale of an REO property or the transfer of an existing RHS financed property.

(3) Third priority will be given to applicants facing housing related hardships including applicants who have been living in deficient housing for more than 6 months, current homeowners in danger of losing a property through foreclosure, and other circumstances determined by RHS on a case-by-case basis to constitute a hardship.

(4) Fourth priority will be given to applicants seeking loans for the construction of dwellings in an RHS-approved Mutual Self-Help project or loans that will leverage funding or financing from other sources.

(5) Applications from applicants who do not qualify for priority consideration in paragraphs (c)(1), (c)(2), (c)(3), or (c)(4) of this section will be selected for processing after all applications with priority status have been processed.

(d) Applicant timeframe. RHS will specify a reasonable timeframe within which eligible applicants selected for processing must provide the information needed to underwrite the loan.

§ 3550.56 Site requirements.

(a) Rural areas. Loans may be made only in rural areas designated by RHS. If an area designation is changed to non-rural:

1. New conditional commitments will be made and existing conditional commitments will be honored only in conjunction with an applicant for a section 502 loan who applied for assistance before the area designation changed.

2. REO property sales and transfers with assumption may be processed.

3. Subsequent loans may be made either in conjunction with a transfer with assumption of an RHS loan or to repair properties that have RHS loans.

(b) Site standards. Sites must be developed in accordance with 7 CFR part 1924, subpart C and any applicable standards imposed by a State or local government.

1. The site must not be large enough to subdivide into more than one site under existing local zoning ordinances;

2. The site must not include farm service buildings, though small outbuildings such as a storage shed may be included; and

3. The value of the site must not exceed 30 percent of the as improved market value of the property. The State Director may waive the 30 percent requirement in high cost areas where other lenders permit a higher percentage.

§ 3550.57 Dwelling requirements.

(a) Modest dwelling. The property must be one that is considered modest for the area, must not be designed for income providing purposes, must not have an in-ground pool or have a cost in excess of the section 203(b) limit of the National Housing Act unless RHS authorizes an exception:

1. Area-wide exception. Area-wide exceptions may be granted when RHS determines that the section 203(b) limit is
too low to enable applicants to purchase adequate housing.

(2) Individual exceptions. Individual exceptions may be granted to accommodate the specific needs of an applicant, such as to serve exceptionally large households or to provide reasonable accommodation for a household member with a disability. Any additional loan amount approved must not exceed the amount required to address the specific need.

(b) New dwellings. Construction must meet the requirements in 7 CFR part 1924, subpart A.

(c) Existing dwellings. Existing dwellings must be structurally sound; functionally adequate; in good repair, or to be placed in good repair with loan funds; have adequate electrical, heating, plumbing, water, and wastewater disposal systems; be free of termites and other wood damaging pests and organisms; and meet the thermal performance requirements for existing dwellings of 7 CFR part 1924, subpart A.

§ 3550.58 Ownership requirements.

After the loan is closed, the borrower must have an acceptable interest in the property as evidenced by one of the following.

(a) Fee-simple ownership. Acceptable fee-simple ownership is evidenced by a fully marketable title with a deed vesting a fee-simple interest in the property to the borrower.

(b) Secure leasehold interest. A written lease is required. To be acceptable, a leasehold interest must have an unexpired term that is at least 150 percent of the term of the mortgage, unless the loan is guaranteed, in which case the unexpired term of the lease must be at least 2 years longer than the loan term. In no case may the unexpired term be less than 25 years.

(c) Life estate interest. To be acceptable a life estate interest must provide the borrower with rights of present possession, control, and beneficial use of the property. Generally, persons with any remainder interests must be signatories to the mortgage. All of the remainder interests need not be included in the mortgage to the extent that one or more of the persons holding remainder interests are not legally competent (and there is no representative who can legally consent to the mortgage), cannot be located, or if the remainder interests are divided among such a large number of people that it is not practical to obtain the signatures of all of the remainder interests. In such cases, the loan may not exceed the value of the property interests owned by the persons executing the mortgage.

(d) Undivided interest. All legally competent co-owners will be required to sign the mortgage. When one or more of the co-owners are not legally competent (and there is no representative who can legally consent to the mortgage), cannot be located, or the ownership interests are divided among so large a number of co-owners that it is not practical for all of their interests to be mortgaged, their interests not exceeding 50 percent may be excluded from the security requirements. In such cases, the loan may not exceed the value of the property interests owned by the persons executing the mortgage.

(e) Possessory rights. Acceptable forms of ownership include possessory rights on an American Indian reservation or State-owned land and the interest of an American Indian in land held in severalty under trust patents or deeds containing restrictions against alienation, provided that land in trust or restricted status will remain in trust or restricted status.

§ 3550.59 Security requirements.

Before approving any loan, RHS will impose requirements to secure its interests.

(a) Adequate security. A loan will be considered adequately secured only when all of the following requirements are met:

(1) RHS obtains at closing a mortgage on all ownership interests in the security property or the requirements of § 3550.58 are satisfied.

(2) No liens prior to the RHS mortgage exist at the time of closing and no junior liens are likely to be taken immediately subsequent to or at the time of closing, unless the other liens are taken as part of a leveraging strategy or the RHS loan is essential for repairs and the senior lien secures an affordable non-RHS loan. Liens junior to the
§ 3550.60 Escrow account.

RHS may require that customers deposit into an escrow account amounts necessary to ensure that the account will contain sufficient funds to pay real estate taxes, hazard and flood insurance premiums, and other related costs when they are due in accordance with the Real Estate Settlement and Procedures Act of 1974 (RESPA) (12 U.S.C. 2601, et seq.) and section 501(e) of the Housing Act of 1949, as amended.

§ 3550.61 Insurance.

(a) Customer responsibility. Until the loan is paid in full the customer must furnish and continually maintain hazard and flood insurance on property securing RHS loans, with companies, in amounts, and on terms and conditions acceptable to RHS. Customers who are required to have insurance may be required to escrow funds to ensure payment. All policies must have a “loss payable clause” payable to RHS to protect the Government’s interest.

(b) Amount. Essential buildings must be insured in an amount at least equal to the balance of the secured debts.

(c) Flood insurance. Flood insurance must be obtained and maintained for the life of the loan for all property located in a Special Flood Hazard Area (SFHA) as determined by the Federal Emergency Management Agency (FEMA). RHS actions will be consistent with 7 CFR part 1806, subpart B which addressed flood insurance requirements. If flood insurance through FEMA’s National Flood Insurance Program is not available in an SFHA, the property is not eligible for federal financial assistance.

(d) Losses. (1) Loss deductible clauses may not exceed $250 or 1 percent of the insurance coverage, whichever is greater. The deductible for any 1 building may not exceed $750.

(2) Customers must immediately notify RHS of any loss or damage to the property and collect the amount of loss from the insurance company.

(3) Depending on the amount of the loss, RHS may require that loss payments be supervised. All repairs and replacements done by or under the direction of the borrower, or by contract, will be planned, performed, inspected, and paid for in accordance with 7 CFR part 1924, subpart A.

(4) When insurance funds remain after all repairs, replacements, and other authorized disbursements have been made, the funds will be applied in the following order:

(i) Prior liens, including delinquent property taxes.

(ii) Past-due amounts.

(iii) Protective advances due.

(iv) Released to the customer if the RHS debt is adequately secured.

(5) If a loss occurs when insurance is not in force, the borrower is responsible for making the needed repairs or replacements and ensuring that the insurance is reinstated on the property.

(6) If the borrower is not financially able to make the repairs, RHS may take one of the following actions:

(i) Make a subsequent loan for repairs.

(ii) Subordinate the RHS lien to permit the borrower to obtain funds for needed repairs from another source.

(iii) Permit the borrower to obtain funds secured by a junior lien from another source.

(iv) Make a protective advance to protect the Government’s interest.

(v) Accelerate the account.

§ 3550.62 Appraisals.

(a) Requirement. An appraisal is required when the debt to be secured exceeds $15,000 or whenever RHS determines that it is necessary to establish the adequacy of the security. Appraisals must be made in accordance with
the Uniform Standards of Professional Appraisal Practices. When other real estate is taken as additional security, it will be appraised if it represents a substantial portion of the security for the loan.

(b) Fees. RHS will charge a fee for each loan application that requires an appraisal, except the appraisal fee is not required on appraisals done for subsequent loans needed to make minimal, essential repairs or in cases where another party provides an appraisal which is acceptable to RHS. Fees collected in connection with a dwelling constructed under an approved conditional commitment will be paid to the contractor at closing to offset the cost of the real estate appraisal that is included in the conditional commitment fee.

§ 3550.63 Maximum loan amount.

Total secured indebtedness must not exceed the section 203(b) or market value limitations specified in paragraphs (a) and (b) of this section. In addition, the borrower may also finance the amount of the RHS appraisal and tax monitoring fee and the amount required to establish an escrow account for taxes and insurance over and above the limitations specified below. This section does not apply to NP loans.

(a) Section 203(b) limitation. The section 203(b) limitation is the amount established by 203(b) of the National Housing Act, unless RHS authorizes an exception, as described in § 3550.57(a) of this subpart.

(b) Market value limitation. (1) The market value limitation is 100 percent of market value for existing housing and for new dwellings for which RHS will receive adequate documentation of construction quality and the source of such documentation is acceptable to RHS.

(2) The market value limitation is 90 percent of market value for new dwellings for which adequate documentation of construction quality is not available.

(3) The market value limitation can be increased by:

(i) Up to one percent, if RHS makes a subsequent loan for closing costs only, in conjunction with the sale of an REO property or an assumption.

(ii) The amount necessary to make a subsequent loan for repairs necessary to protect the Government's interest, and reasonable closing costs.

(iii) The amount necessary to refinance an existing borrower's RHS loans, plus closing costs associated with the new loan.

[61 FR 59779, Nov. 22, 1996; 61 FR 65266, Dec. 11, 1996]

§ 3550.64 Down payment.

Elderly families must use any net family assets in excess of $10,000 towards a down payment on the property. Non-elderly families must use net family assets in excess of $7,500 towards a down payment on the property. Applicants may contribute assets in addition to the required down payment to further reduce the amount to be financed.

§ 3550.65 [Reserved]

§ 3550.66 Interest rate.

Loans will be written using the applicable RHS or NP interest rate in effect at loan approval or loan closing, whichever is lower. Information about current interest rates is available in any Rural Development office.

§ 3550.67 Repayment period.

Loans will be scheduled for repayment over a period that does not exceed the expected useful life of the property as a dwelling. The loan repayment period will not exceed:

(a) Thirty-three years in all cases except as noted in paragraphs (b), (c), and (d) of this section.

(b) Thirty-eight years:

(1) For initial loans, or subsequent loans made in conjunction with an assumption, if the applicant's adjusted income does not exceed 60 percent of the area adjusted median income and the longer term is necessary to show repayment ability.

(2) For subsequent loans not made in conjunction with an assumption if the applicant's initial loan was for a period of 38 years, the applicant's adjusted income at the time the subsequent loan is approved does not exceed 60 percent of area adjusted median income, and the longer terms is necessary to show repayment ability.
§ 3550.68 Payment subsidies.

RHS administers two types of payment subsidies: payment assistance and interest credit. Payment subsidies are subject to recapture when the borrower transfers title or ceases to occupy the property.

(a) Eligibility for payment subsidy. (1) Applicants or borrowers who receive loans on program terms are eligible to receive payment subsidy if they personally occupy the property and have adjusted income at or below the applicable moderate-income limit.

(b) Determining type of payment subsidy. A borrower currently receiving interest credit will continue to receive it for the initial loan and for any subsequent loan for as long as the borrower is eligible for and remains on interest credit. A borrower who has never received interest credit, or who has stopped receiving interest credit and at a later date again qualifies for a payment subsidy, will receive payment assistance.

(c) Calculation of payment assistance. The amount of payment assistance granted is the difference between the installment due on the promissory note and the greater of the payment amortized at the equivalent interest rate or the payment calculated based on the required floor payment. In leveraging situations, the equivalent interest rate will be used.

(i) The floor payment is a minimum percentage of adjusted income that the borrower must pay for PITI:

(ii) Very low-income borrowers must pay a minimum of 22 percent of adjusted income;

(iii) Low-income borrowers with adjusted income below 65 percent of area adjusted median income must pay a minimum of 24 percent of adjusted income; and

(iv) Low-income borrowers with adjusted incomes between 65 and 80 percent of area adjusted median income must pay a minimum of 26 percent of adjusted income.

(b) Determining interest credit. The amount of interest credit granted is the difference between the sum of the annual installments due at the promissory note interest rate and the greater of:

(i) Twenty percent of the borrower’s adjusted income less the cost of real estate taxes and insurance; or

(ii) The amount the borrower would pay if the loan were amortized at an interest rate of one percent.

(d) Annual review. The borrower’s income will be reviewed annually to determine whether the borrower is eligible for continued payment subsidy. The equivalent interest rate paid by applicants eligible for payment assistance.

1 Or note rate, whichever is less; in no case will the equivalent interest rate be less than one percent.
borrower must notify RHS whenever an adult member of the household changes or obtains employment, there is a change in household composition, or if income increases by at least 10 percent so that RHS can determine whether a review of the borrower’s circumstances is required.

§ 3550.69 Deferred mortgage payments.

For qualified borrowers, RHS may defer up to 25 percent of the monthly principal and interest payment at 1 percent for up to 15 years. This assistance may be granted only at initial loan closing and is reviewed annually. Deferred mortgage payments are subject to recapture when the borrower transfers title or ceases to occupy the property.

(a) Eligibility. In order to qualify for deferred mortgage payments, all of the following must be true:

(1) The applicants adjusted income at the time of initial loan approval does not exceed the applicable very low-income limits.

(2) The loan term is 38 years, or 30 years for a manufactured home.

(3) The applicant’s payments for principal and interest, calculated at a one percent interest rate for the maximum allowable term, plus estimated costs for taxes and insurance exceeds:

(i) For applicants receiving payment assistance, 29 percent of the applicants repayment income by more than $10 per month; or

(ii) For applicants receiving interest credit, 20 percent of adjusted income by more than $10 per month.

(b) Amount and terms. (1) The amount of the mortgage payment to be deferred will be the difference between the applicants payment for principal and interest, calculated at one percent interest for the maximum allowable term, plus estimated costs for taxes and insurance and:

(i) For applicants receiving payment assistance, 29 percent of the applicants repayment income.

(ii) For applicants receiving interest credit, 20 percent of adjusted income.

(2) Deferred mortgage payment agreements will be effective for a 12-month period.

(3) Deferred mortgage assistance may be continued for up to 15 years after loan closing. Once a borrower becomes ineligible for deferred mortgage assistance, the borrower can never again receive deferred mortgage assistance.

(c) Annual review. The borrower’s income, taxes, and insurance will be reviewed annually to determine eligibility for continued deferred mortgage assistance. The borrower must notify RHS whenever an adult member of the household changes or obtains employment or if income increases by at least 10 percent so that RHS can determine whether a review of the borrower’s circumstances is required.

§ 3550.70 Conditional commitments.

A conditional commitment is a determination by RHS that a dwelling be offered for sale will be acceptable for purchase by a qualified RHS loan applicant if it is built or rehabilitated in accordance with RHS-approved plans, specifications, and regulations and priced within the lesser of the property’s appraised value or the applicable HUD section 203(b) limit. The conditional commitment does not reserve funds, does not guarantee funding, and does not ensure that an eligible loan applicant will be available to buy the dwelling.

(a) Eligibility. To be eligible to request a conditional commitment, the builder, dealer-contractor, or seller must:

(1) Have an adequate ownership interest in the property, as defined in §3550.58, prior to the beginning of any planned construction;

(2) Have the experience and ability to complete any proposed work in a competent and professional manner;

(3) Have the legal capacity to enter into the required agreements;

(4) Be financially responsible and have the ability to finance or obtain financing for any proposed construction or rehabilitation; and

(5) Comply with the requirements of 7 CFR part 1901, subpart E and all applicable laws, regulations, and Executive Orders relating to equal opportunity. Anyone who receives 5 or more conditional commitments during a 12-month period must obtain RHS approval of an affirmative marketing plan.
(b) Limitations. Conditional commitments for new or substantially rehabilitated dwellings will not be issued after construction has started. RHS may limit the total number of conditional commitments issued in any locality based on market demand.

(c) Commitment period. A conditional commitment will be valid for 12 months from the date of issuance. The commitment may be extended for up to an additional 6 months if there are unexpected delays in construction caused by such factors as bad weather, materials shortages, or marketing difficulties. Conditional commitments may be canceled if construction does not begin within 60 days after the commitment is issued.

(d) Conditional commitments involving packaging of applications. A conditional commitment may be made to a seller, builder, or dealer-contractor who packages an RHS loan application for a prospective purchaser. In cases where the dwelling is to be constructed for sale to a specific eligible applicant, all of the following conditions must be met:

(1) The conditional commitment will not be approved until the applicant’s loan has been approved;
(2) Construction will not begin until loan funds are obligated for the loan. Exceptions may be made when it appears likely that funding will be forthcoming and as long as the RHS lien priority is not jeopardized. The sales agreement must indicate that the loan price does not exceed the maximum loan limit and increases in costs are due to factors beyond the control of the commitment holder; and
(3) The RHS loan will be closed only after the dwelling is constructed or the required rehabilitation completed and final inspection has been made.

(e) Fees. An application for a conditional commitment must include payment of the conditional commitment fee. The fee will be refunded if for any reason a preliminary inspection of the property or investigation of the conditional commitment applicant indicates that a conditional commitment will not be issued. Application fees will not be refunded for any property on which the required appraisal has been made.

(f) Failure of conditional commitment applicant or dwelling to qualify. The conditional commitment applicant will be informed if the conditional commitment is denied. Conditional commitments will be canceled if the property does not meet program requirements.

(g) Changes in plans, specifications, or commitment price. The holder of the conditional commitment must request approval for changes in plans, specifications, and commitment price. RHS may approve the changes if the following requirements are met:

(1) The property price does not exceed the maximum loan limit and increases in costs are due to factors beyond the control of the commitment holder; and
(2) The requested changes are justifiable and appropriate.

(h) Builder’s warranty. The builder or seller, as appropriate, must execute either an RHS-approved “Builder’s Warranty,” or provide a 10-year insured warranty when construction is completed or the loan is closed.

§ 3550.71 Special requirements for condominiums.

RHS loans may be made for condominium units under the following conditions:

(a) The unit is in a project approved or accepted by U.S. Department of Housing and Urban Development (HUD), the Federal National Mortgage Association (Fannie Mae), or the Federal Home Loan Mortgage Corporation (Freddie Mac).

(b) The condominium project complies with the requirements of the condominium enabling statute and all other applicable laws. Any right of first refusal in the condominium documents will not impair the rights of RHS to:

(1) Foreclose or take title to a condominium unit pursuant to the remedies in the mortgage;
(2) Accept a deed in lieu of foreclosure in the event of default by a mortgagor; and
§ 3550.73 Manufactured homes.

With the exception of the restrictions and additional requirements contained in this section, section 502 loans on manufactured homes are subject to the same conditions as all other section 502 loans.

(a) Eligible costs. In addition to the eligible costs described in §3550.52(d), RHS may finance the following activities related to manufactured homes when a real estate mortgage covers both the unit and the site:

(1) Purchase of an eligible unit, transportation, and set-up costs, and purchase of an eligible site if not already owned by the applicant;

(2) Site development work in accordance with 7 CFR part 1924, subpart A;

(3) Subsequent loans in conjunction with an assumption or sale of an REO property; or

(b) If RHS obtains title to a condominium unit pursuant to the remedies in its mortgage or through foreclosure, RHS will not be liable for more than 6 months of the unit’s unpaid regularly budgeted dues or charges accrued before acquisition of the title to the unit by RHS. The homeowners association’s lien priority may include costs of collecting unpaid dues.

(c) In case of condemnation or substantial loss to the units or common elements of the condominium project, unless at least two-thirds of the first mortgagees or unit owners of the individual condominium units have given their consent, the homeowners association may not:

(1) By act or omission seek to abandon or terminate the condominium project;

(2) Change the pro rata interest or obligations of any condominium unit in order to levy assessments or charges, allocate distribution of hazard insurance proceeds or condemnation awards, or determine the pro rata share of ownership of each condominium unit in the common elements;

(3) Partition or subdivide any condominium unit;

(4) Seek to abandon, partition, subdivide, encumber, sell, or transfer the common elements by act or omission (the granting of easements for public utilities or other public purposes consistent with the intended use of the common elements by the condominium project is not a transfer within the meaning of this clause); or

(5) Use hazard insurance proceeds for losses to any condominium property (whether units or common elements) for other than the repair, replacement, or reconstruction of the condominium property.

(d) All taxes, assessments, and charges that may become liens prior to the first mortgage under local law relate only to the individual condominium units and not to the condominium project as a whole.

(e) No provision of the condominium documents gives a condominium unit owner or any other party priority over any rights of RHS as first or second mortgagee of the condominium unit pursuant to its mortgage in the case of a payment to the unit owner of insurance proceeds or condemnation awards for losses to or taking of condominium units or common elements.

(f) If the condominium project is on a leasehold the underlying lease provides adequate security of tenure as described in §3550.58(b).

(h) At least 70 percent of the units have been sold. Multiple purchases of condominium units by one owner are counted as one sale when determining if the sales requirement has been met.

(i) No more than 15 percent of the unit owners are more than 1 month delinquent in payment of homeowners association dues or assessments at the time the RHS loan is closed.

§ 3550.72 Community land trusts.

Eligible dwellings located on land owned by a community land trust may be financed if:

(a) The loan meets all the requirements of this subpart; and

(b) Any restrictions, imposed by the community land trust on the property or applicant are:

(1) Reviewed and accepted by RHS before loan closing; and

(2) Automatically and permanently terminated upon foreclosure or acceptance by RHS of a deed in lieu of foreclosure.
(4) Subsequent loans for repairs of units financed under section 502.

(b) Loan restrictions. In addition to the loan restrictions described in §3550.52(e), RHS may not use loan funds to finance:

(1) An existing unit and site unless it is already financed with a section 502 loan or is an RHS REO property.

(2) The purchase of a site without also financing the unit.

(3) Alteration or remodeling of the unit when the initial loan is made.

(4) Furniture, including movable articles of personal property such as drapes, beds, bedding, chairs, sofas, divans, lamps, tables, televisions, radios, stereo sets, and other similar items of personal property. Furniture does not include wall-to-wall carpeting, refrigerators, ovens, ranges, washing machines, clothes dryers, heating or cooling equipment, or other similar items.

(c) Dealer-contractors. No loans will be made on a manufactured home sold by any entity that is not an approved dealer-contractor that will provide complete sales, service, and site development services.

(d) Loan term. The maximum term of a loan on a manufactured home is 30 years.

(e) Construction and development. Unit construction, site development and setup must conform to the Federal Manufactured Home Construction and Safety Standards (FMHCSS) and 7 CFR part 1924, subpart A. Development under the Mutual Self-Help and borrower construction methods is not permitted for manufactured homes.

(f) Contract requirements. The dealer-contractor must sign a construction contract, as specified in 7 CFR 1924.6 which will cover both the unit and site development work. The use of multi-contracts is prohibited. A dealer-contractor may use subcontractors if the dealer-contractor is solely responsible for all work under the contract. Payment for all work will be in accordance with 7 CFR part 1924, subpart A, except no payment will be made for materials or property stored on site (e.g., payment for a unit will be made only after it is permanently attached to the foundation).

(g) Lien release requirements. All persons furnishing materials or labor in connection with the contract except the manufacturer of the unit must sign a Release by Claimants document, as specified in 7 CFR part 1924, subpart A. The manufacturer of the unit must furnish an executed manufacturer's certificate of origin to verify that the unit is free and clear of all legal encumbrances.

(h) Warranty requirements. The dealer-contractor must provide a warranty in accordance with the provisions of 7 CFR 1924.12. The warranty must identify the unit by serial number. The dealer-contractor must certify that the unit substantially complies with the plans and specifications and the manufactured home has sustained no hidden damage during transportation and, if manufactured in separate sections, that the sections were properly joined and sealed according to the manufacturer's specifications. The dealer-contractor will also furnish the applicant with a copy of all manufacturer's warranties.

§ 3550.74 Nonprogram loans.

NP terms may be extended to applicants who do not qualify for program credit, or for properties that do not qualify as program properties, when it is in the best interest of the Government. NP loans are originated and serviced according to the requirements for program loans except as indicated in this section.

(a) Purpose. NP terms may be offered to expedite:

(1) Sale of an REO property.

(2) Assumption of an existing program loan on new rates and terms. If additional funds are required to purchase the property, the applicant must obtain them from another source.

(3) Conversion of a program loan that has received unauthorized assistance.

(4) Continuation of a loan on a portion of a security property when the remainder is being transferred and the RHS debt is not paid in full to facilitate the sale, the loan may be amortized
over a period of up to 20 years with payment in full due not later than 10 years from the date of closing.

(iii) An applicant with an NP loan under paragraph (b)(1)(i) of this section who wishes to retain the property and purchase a new property with RHS credit must purchase the second property according to the terms of paragraph (b)(1)(ii) of this section, even if the new property will serve as the applicant’s principal residence.

(2) NP loans are written at the NP interest rate in effect at the time of loan approval.

(3) NP borrowers are not eligible for payment assistance or a moratorium.

(c) Additional requirements. (1) NP applicants other than public bodies and nonprofit organizations must pay a nonrefundable application fee.

(2) NP applicants must make a down payment based upon the purchase price and whether the applicant intends to personally occupy the property or use it for other purposes.

(3) NP applicants cannot finance loan closing costs or escrow, tax service, or appraisal fees.

(d) Reduced restrictions. (1) NP applicants need not be unable to obtain other credit in order to receive an NP loan and are not required to refinance with private credit when they are able to do so.

(2) NP applicants are not required to occupy the property.

(3) NP applicants are not subject to leasing restrictions.

(e) Waiver of costs. When the purpose of the loan is the conversion of a program loan that has received unauthorized assistance or continuation of a loan on a portion of a security property when the remainder is being transferred, the application fee, appraisal fee, and down payment may be waived.

§§ 3550.75—3550.99 [Reserved]

§ 3550.100 OMB control number.

The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0575-0166. Public reporting burden for this collection of information is estimated to vary from 5 minutes to 3 hours per response, with an average of 1 1/2 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comment regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Department of Agriculture, Clearance Officer, STOP 7602, 1400 Independence Avenue, S.W., Washington, DC 20250-0762. You are not required to respond to this collection of information unless it displays a currently valid OMB control number.

Subpart C—Section 504 Origination

§ 3550.101 Program objectives.

This subpart sets forth policies for administering loans and grants under section 504(a) of title V of the Housing Act of 1949, as amended. Section 504 loans and grants are intended to help very low-income owner-occupants in rural areas repair their properties.

§ 3550.102 Grant and loan purposes.

(a) Grant funds. Grant funds may be used only to pay costs for repairs and improvements that will remove identified health and safety hazards or to repair or remodel dwellings to make them accessible and useable for household members with disabilities. Unused grant funds must be returned to the Rural Housing Service (RHS).

(b) Loan funds. Loan funds may be used to make general repairs and improvements to properties or to remove health and safety hazards, as long as the dwelling remains modest in size and design.

(c) Eligibility of mobile and manufactured homes. Repairs necessary to remove health and safety hazards may be made to mobile or manufactured homes provided:

(1) The applicant owns the home and site and has occupied the home prior to filing an application with RHS; and

(2) The mobile or manufactured home is on a permanent foundation or will be put on a permanent foundation with section 504 funds.
(d) Eligible costs. In addition to construction costs to make necessary repairs and improvements, loan and grant funds may be used for:

(1) Reasonable expenses related to obtaining the loan or grant, including legal, architectural and engineering, title clearance, and loan closing fees; and appraisal, surveying, environmental, tax monitoring, and other technical services.

(2) The cost of providing special design features or equipment when necessary because of a physical disability of the applicant or a member of the household.

(3) Reasonable connection fees, assessments, or the pro rata installation costs for utilities such as water, sewer, electricity, and gas for which the borrower is liable and which are not paid from other funds.

(4) Real estate taxes that are due and payable on the property at the time of closing and for the establishment of escrow accounts for real estate taxes, hazard and flood insurance premiums, and related costs.

(5) Fees to public and private non-profit organizations that are tax exempt under the Internal Revenue Code for the development and packaging of applications.

(e) Restrictions on uses of loan or grant funds. Section 504 funds may not be used to:

(1) Assist in the construction of a new dwelling.

(2) Make repairs to a dwelling in such poor condition that when the repairs are completed, the dwelling will continue to have major hazards.

(3) Move a mobile home or manufactured home from one site to another.

(4) Pay for off-site improvements except for the necessary installation and assessment costs for utilities.

(5) Refinance any debt or obligation of the applicant incurred before the date of application, except for the installation and assessment costs of utilities.

(6) Pay fees, commission, or charges to for-profit entities related to loan packaging or referral of prospective applicants to RHS.

§ 3550.103 Eligibility requirements.

To be eligible, applicants must meet the following requirements:

(a) Owner-occupant. Applicants must own, as described in §3550.107, and occupy the dwelling.

(b) Age (grant only). To be eligible for grant assistance, an applicant must be 62 years of age or older at the time of application.

(c) Income eligibility. At the time of loan or grant approval, the household's adjusted income must not exceed the applicable very low-income limit. Section 3550.54 provides a detailed discussion of the calculation of adjusted income.

(d) Citizenship status. The applicant must be a U.S. citizen or a non-citizen who qualifies as a legal alien, as defined in §3550.10.

(e) Need and use of personal resources. Applicants must be unable to obtain financial assistance at reasonable terms and conditions from non-RHS credit or grant sources and lack the personal resources to meet their needs. In cases where the household is experiencing medical expenses in excess of three percent of the household's income, this requirement may be waived or modified. Elderly families must use any net family assets in excess of $10,000 to reduce their section 504 request. Non-elderly families must use any net family assets in excess of $7,500 to reduce their section 504 request. Applicants may contribute assets in excess of the aforementioned amounts to further reduce their request for assistance. The definition of assets for this purpose is net family assets as described in §3550.54 of subpart B of this part, less the value of the dwelling and a minimum adequate site.

(f) Legal capacity. The applicant must have the legal capacity to incur the loan obligation or have a court appointed guardian or conservator who is empowered to obligate the applicant in real estate matters.

(g) Suspension or debarment. Applications from applicants who have been suspended or debarred from participation in federal programs will be handled in accordance with FmHA Instruction 1940-M (available in any Rural Development office).
(h) Repayment ability (loans only). Applicants must demonstrate adequate repayment ability as supported by a budget.

(1) If an applicant does not meet the repayment ability requirements, the applicant can have another party join the application as a cosigner.

(2) If an applicant does not meet the repayment ability requirements, the applicant can have other household members join the application.

(i) Credit qualifications. Applicants must be unable to secure the necessary credit from other sources under terms and conditions that the applicant could reasonably be expected to fulfill. Loan applicants must have a credit history that indicates reasonable ability and willingness to meet debt obligations. An applicant with an outstanding judgment obtained by the United States in a federal court, other than the United States Tax Court, is not eligible for a loan or grant from RHS.

(1) Indicators of unacceptable credit include:

(i) Repeated incidents of 2 debt payments being more than 30 days late within the last 12 months that indicate an unwillingness to meet financial obligations when due.

(ii) Loss of security due to a foreclosure if the foreclosure has been completed within the last 36 months.

(iii) An outstanding internal Revenue Service tax lien or any other outstanding tax lien with no satisfactory arrangement for payment.

(iv) A court-created or court-confirmed obligation or judgment caused by non-payment that is currently outstanding or has been outstanding within the last 12 months, except for those excluded by paragraphs (i)(2)(ii) and (i)(2)(iii) of this section.

(v) Outstanding collection accounts with a record of irregular payment with no satisfactory arrangements for repayment, or collection accounts that were paid in full within the last 6 months.

(vi) Non-agency debts written off within the last 36 months or paid in full at least 12 months ago.

(vii) Agency debts that were debt settled, or are being considered for debt settlement.

(viii) Delinquency on a federal debt.

(2) The following will not be considered indicators of unacceptable credit:

(i) A bankruptcy in which debts were discharged more than 36 months prior to the date of application or where an applicant successfully completed a bankruptcy debt restructuring plan and has demonstrated a willingness to meet obligations when due for the 12 months prior to the date of application.

(ii) A non-foreclosure judgment satisfied more than 12 months before the date of application.

(3) When an application is rejected because of unacceptable credit, the applicant will be informed of the reason and source of information.

§ 3550.104 Applications.

(a) Application submissions. All persons applying for section 504 loans or grants must file a complete written application in a format specified by RHS. Applications will be accepted even when funds are not available.

(b) Application processing. (1) Incomplete applications will be returned to the applicant specifying in writing the additional information that is needed to make the application complete.

(2) An applicant may voluntarily withdraw an application at any time.

(3) RHS may periodically request in writing that applicants reconfirm their interest in obtaining a loan or grant. RHS may withdraw the application of any applicant who does not respond within the specified timeframe.

(4) Applicants who are eligible will be notified in writing. If additional information becomes available that indicates that the original eligibility determination may have been in error or that circumstances have changed, RHS may reconsider the application and the applicant may be required to submit additional information.

(5) Applicants who are ineligible will be notified in writing and provided with the specific reasons for the rejection.

(c) Processing priorities. When funding is not sufficient to serve all eligible applicants, applications for assistance to remove health and safety hazards will receive priority for funding. In the case of applications with equivalent priority status that are received on the same
§ 3550.105 Site requirements.

(a) Rural areas. Loans may be made only in rural areas designated by RHS. If an area designation is changed to nonrural an existing RHS borrower may receive 504 assistance.

(b) Not subdividable. The site must not be large enough to subdivide into more than one site under existing local zoning ordinances.

§ 3550.106 Dwelling requirements.

(a) Modest dwelling. The property must be one that is considered modest for the area, must not be designed for income producing purposes, have an in-ground pool, or have a value in excess of the 203(b) limits of the National Housing Act.

(b) Post-repair condition. Dwellings repaired with section 504 funds need not be brought to the agency development standards or thermal performance standards of 7 CFR part 1924, subpart A, nor must all existing hazards be removed. However, the dwelling may not continue to have major health or safety hazards.

(c) Construction standards. All work must be completed in accordance with local construction codes and standards. When potentially hazardous equipment or materials are being installed, all materials and installations must be in accordance with the applicable standards in 7 CFR part 1924, subpart A.

§ 3550.107 Ownership requirements.

The applicant must have an acceptable ownership interest in the property as evidenced by one of the following:

(a) Full fee ownership. Acceptable full fee ownership is evidenced by a fully marketable title with a deed vesting a fee interest in the property to the applicant.

(b) Secure leasehold interest. A written lease is required. For loans, the unexpired portion of the lease must be less than 2 years beyond the term of the promissory note. For grants, the remaining lease period must be at least 5 years. A leasehold for mutual help housing financed by U.S. Department of Housing and Urban Development (HUD) on Indian lands requires no minimum lease period and constitutes acceptable ownership.

(c) Life estate interest. To be acceptable, a life estate interest must provide the applicant with rights of present possession, control, and beneficial use of the property. For secured loans, generally persons with any remainder interests must be signatories to the mortgage. All of the remainder interests need not be included in the mortgage to the extent that one or more of the persons holding remainder interests are not legally competent (and there is no representative who can legally consent to the mortgage), cannot be located, or if the remainder interests are divided among such a large number of people that it is not practical to obtain the signatures of all of the remainder interests. In such cases, the loan may not exceed the value of the property interests owned by the persons executing the mortgage.

(d) Undivided interest. An undivided interest is acceptable if there is no reason to believe that the applicant’s position as an owner-occupant will be jeopardized as a result of the improvements to be made, and:

(1) In the case of unsecured loans or grants, if any co-owners living or planning to live in the dwelling sign the repayment agreement.

(2) In the case of a secured loan, when one or more of the co-owners are not legally competent (and there is no representative who can legally consent to the mortgage), cannot be located, or the ownership interests are divided among so large a number of co-owners that it is not practical for all of their interests to be mortgaged, their interests not exceeding 50 percent may be excluded from the security requirements. In such cases, the loan may not exceed the value of the property interests owned by the persons executing the mortgage.

(e) Possessory rights. Acceptable forms of ownership include possessory right on an American Indian reservation or State-owned land and the interest of an American Indian in land held severally under trust patents or deeds containing
restrictions against alienation, provided that land in trust or restricted status will remain in trust or restricted status.

(f) Land purchase contract. A land purchase contract is acceptable if the applicant is current on all payments, and there is a reasonable likelihood that the applicant will be able to continue meeting the financial obligations of the contract.

(g) Alternative evidence of ownership. If evidence, as described in paragraphs (a) through (e) of this section, is not available, RHS may accept any of the following as evidence of ownership:

1. Records of the local taxing authority that show the applicant as owner and that demonstrate that real estate taxes for the property are paid by the applicant.
2. Affidavits by others in the community stating that the applicant has occupied the property as the apparent owner for a period of not less than 10 years, and is generally believed to be the owner.
3. Any instrument, whether or not recorded, which is commonly accepted as evidence of ownership.

§ 3550.108 Security requirements (loans only).

When the total section 504 indebtedness is $2,500 or more, the property will be secured by a mortgage on the property, leasehold interest, or land purchase contract.

(a) RHS does not require a first lien position, but the total of all debts on the secured property may not exceed the value of the security, except by the amount of any required contributions to an escrow account for taxes and insurance and any required appraisal fee.

(b) Title clearance and the use of legal services generally must be conducted in accordance with 7 CFR part 1927, subpart B. These requirements need not be followed if:

1. Loans where the total RHS indebtedness is $7,500 or less; or
2. Subsequent loans made for minimal essential repairs necessary to protect the Government's interest.

§ 3550.109 Escrow account (loans only).

RHS may require that borrowers deposit into an escrow account amounts necessary to ensure that the account will contain sufficient funds to pay real estate taxes, hazard and flood insurance premiums, and other related costs when they are due in accordance with the Real Estate Settlement Procedures Act of 1974 (RESPA) and section 501(e) of the Housing Act of 1949, as amended.

§ 3550.110 Insurance (loans only).

(a) Borrower responsibility. Until the loan is paid in full, any borrower with a secured indebtedness in excess of $15,000 must furnish and continually maintain hazard insurance on the security property, with companies, in amounts, and on terms and conditions acceptable to RHS and include a “loss payable clause” payable to RHS to protect the Government's interest.

(b) Amount. Essential buildings must be insured in an amount at least equal to the balance of the secured debts.

(c) Flood insurance. Flood insurance must be obtained and maintained for the life of the loan for all property located in Special Flood Hazard Areas (SFHA) as determined by the Federal Emergency Management Agency (FEMA). RHS actions will be consistent with 7 CFR part 1806, subpart B which addresses flood insurance requirements. If flood insurance through FEMA's National Flood Insurance Program is not available in a SFHA, the property is not eligible for federal financial assistance.

(d) Losses. (1) Loss deductible clauses may not exceed $250 or 1 percent of the insurance coverage, whichever is greater. The deductible for any 1 building may not exceed $750.

2. Borrowers must immediately notify RHS of any loss or damage to insured property and collect the amount of the loss from the insurance company.

3. RHS may require that loss payments be supervised. All repairs and replacements done by or under the direction of the borrower, or by contract, will be planned, performed, inspected, and paid for in accordance with 7 CFR part 1924, subpart A.

4. When insurance funds remain after all repairs, replacements, and other authorized disbursements have
§ 3550.111
been made, the funds will be applied in the following order:
(i) Prior liens, including delinquent property taxes.
(ii) Delinquency on the account.
(iii) Advances due for recoverable cost items.
(iv) Released to the borrower if the RHS debt is adequately secured.
(5) If a loss occurs when insurance is not in force, the borrower is responsible for making the needed repairs or replacements and ensuring that the insurance is reinstated on the property.
(6) If the borrower is not financially able to make the repairs, RHS may take one of the following actions:
(i) Make a subsequent loan for repairs.
(ii) Subordinate the RHS lien to permit the borrower to obtain funds for needed repairs from another source.
(iii) Permit the borrower to obtain funds secured by a junior lien from another source.
(iv) Make a protective advance to protect the Government’s interest.
(v) Accelerate the account and demand payment in full.

§ 3550.1111 Appraisals (loans only).
An appraisal is required when the section 504 debt to be secured exceeds $15,000 or whenever RHS determines that it is necessary to establish the adequacy of the security. RHS may charge an appraisal fee. Appraisals must be made in accordance with the Uniform Standards of Professional Appraisal Practices. When other real estate is taken as additional security it will be appraised if it represents a substantial portion of the security for the loan.

§ 3550.112 Maximum loan and grant.
(a) Maximum loan permitted. The sum of all outstanding section 504 loans to 1 borrower or on 1 dwelling may not exceed $20,000.
(b) Transferees who have assumed a section 504 loan and wish to obtain a subsequent section 504 loan are limited to the difference between the unpaid principal balance of the debt assumed and $20,000.
(c) For a secured loan, the total of all debts on the secured property may not exceed the value of the security, except by the amount of any required appraisal and tax monitoring fees, and the contributions to an escrow account for taxes and insurance.
(b) Maximum loan based upon ability to pay. The maximum loan is limited to the principal balance that can be supported given the amount the applicant has available, as determined by RHS, to repay a loan at 1 percent interest with a 20-year term.
(c) Maximum grant. The lifetime total of the grant assistance to any recipient is $7,500. No grant can be awarded unless the maximum level of loans, as supported by a budget, have been obtained.

§ 3550.113 Rates and terms (loans only).
(a) Interest rate. The interest rate for all section 504 loans will be 1 percent.
(b) Loan term. The repayment period for the loan should generally be as short as possible based on the applicant’s repayment ability, and may never exceed 20 years; however loans made in combination with grants must have a term of 20 years.

§ 3550.114 Repayment agreement (grants only).
Grant recipients are required to sign a repayment agreement which specifies that the full amount of the grant must be repaid if the property is sold in less than 3 years from the date the grant was approved.

§ 3550.115—3550.149 [Reserved]

§ 3550.150 OMB control number.
The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0575-0166. Public reporting burden for this collection of information is estimated to vary from 5 minutes to 3 hours per response, with an average of 1½ hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comment regarding this burden estimate or any other aspect of this collection of information,
including suggestions for reducing this burden to the Department of Agriculture, Clearance Officer, STOP 7602, 1400 Independence Avenue, SW., Washington, DC 20250-0762. You are not required to respond to this collection of information unless it displays a currently valid OMB control number.

Subpart D—Regular Servicing

§ 3550.151 Servicing goals.
This subpart sets forth the Rural Housing Service (RHS) policies for managing the repayment of loans made under sections 502 and 504 of the Housing Act of 1949, as amended.

§ 3550.152 Loan payments.
(a) Payment terms. Unless the loan documents specify other loan repayment terms, borrowers are required to make monthly payments. Borrowers with existing loans specifying annual payments may request conversion to monthly payments, and must convert to a monthly payment schedule before any subsequent loan or new payment assistance is approved. Suitable forms of payment are: check, money order, or bank draft. Borrowers who make cash payments will be assessed a fee to cover the cost of conversion to a money order.

(b) Application of payments. If a borrower makes less than the scheduled payment, the payment is held in suspense and is not applied to the borrower’s account. When subsequent payments are received in an amount sufficient to equal a scheduled payment, the amount will be applied in the following order:

(1) Protective advances charged to the account.
(2) Accrued interest due.
(3) Principal due.
(4) Escrow for taxes and insurance.
(c) Multiple loans. When a borrower with multiple loans for the same property makes less than the scheduled payment on all loans, the payment will be applied to the oldest loan and then in declining order of age. Future remittances will be applied beginning with the oldest unpaid installment.

(d) Application of excess payments. Borrowers can elect to make payments in excess of the scheduled amount to be applied to principal, provided there are no outstanding fees.

§ 3550.153 Fees.
RHS may assess reasonable fees including a tax service fee, fees for late payments, and fees for checks returned for insufficient funds.

§ 3550.154 Inspections.
RHS or its agent may make reasonable entries upon and inspections of any property used as security for an RHS loan as necessary to protect the interest of the Government. RHS will give the borrower notice at the time of or prior to an inspection.

§ 3550.155 Escrow account.
Escrow accounts will be administered in accordance with RESPA and section 501(e) of the Housing Act of 1949, as amended.

(a) Upon creation of the escrow account, RHS may require borrowers to deposit funds sufficient to pay taxes and insurance premiums applicable to the mortgage for the period since the last payments were made and to fund a cushion as permitted by RESPA.

(b) Borrowers may elect to escrow at any time during the terms of the loan if the outstanding RHS loan balance is over $2,500.

(c) RHS may require borrowers to escrow in conjunction with any special servicing action.

§ 3550.156 Borrower obligations.
(a) After receiving a loan from RHS, borrowers are expected to meet a variety of obligations outlined in the loan documents. In addition to making timely payments, these obligations include:

(1) Maintaining the security property; and

(2) Maintaining an adequately funded escrow account, or paying real estate taxes, hazard and flood insurance, and other related costs when due.

(b) If a borrower fails to fulfill these obligations, RHS may obtain the needed service and charge the cost to the borrowers account.
§ 3550.157 Payment subsidy.

(a) Borrowers currently receiving payment subsidy. (1) RHS will review annually each borrower’s eligibility for continued payment subsidy and determine the appropriate level of assistance. To be eligible for payment subsidy renewal, the borrower must also occupy the property.

(2) If the renewal is not completed before the expiration date of the existing agreement, the effective date of the renewal will be either the expiration date of the previous agreement if RHS error caused the delay, or the next due date after the renewal is approved in all other cases.

(3) The borrower must notify RHS whenever an adult member of the household becomes employed or changes employment, there is a change in household composition, or if income increases by at least 10 percent. The household may also report decreases in income. If the change in the household’s income will cause the payment for principal and interest to change by at least 10 percent, the household’s payment subsidy may be adjusted for a new 12-month period. The new agreement will be effective the due date following the date the borrower’s information is verified by RHS.

(b) Borrowers not currently receiving payment subsidy. Payment assistance may be granted to borrowers not currently receiving payment subsidy whose loans were approved on or after August 1, 1968, whose income does not exceed the applicable low-income limit for the area, are personally occupying the RHS financed property, and who meet the requirements of §3550.53(b), (e), and (f). In general, to receive payment assistance the term of the loan at closing must have been at least 25 years. If an account has been reamortized and the initial term of the loan was at least 25 years, payment assistance may be granted even though the term of the reamortized loan is less than 25 years. Payment assistance may be granted on a subsequent loan for repairs with a term of less than 25 years.

(c) Cancellation of payment subsidy. RHS will cancel a payment subsidy if the borrower does not occupy the property, has sold or transferred title to the property, or is no longer eligible for payment subsidy.

§ 3550.158 Active military duty.

The Soldiers and Sailors Relief Act requires that the interest rate charged a borrower who enters full-time active military duty after a loan is closed not exceed six percent. Active military duty does not include participation in a military reserve or the National Guard unless the borrower is called to active duty.

(a) Amount of assistance. If a borrower qualifies for payment subsidy after reduction of the interest rate to six percent, the amount of payment subsidy received during the period of active military duty will be the difference between the amount due at the subsidized rate for principal and interest and the amount due at a six percent interest rate. The six percent interest rate will be effective with the first payment due after RHS confirms the active military status of the borrower.

(b) Change of active military status. The borrower must notify RHS when he or she is no longer on active military duty. RHS will cancel the six percent interest rate and resume use of the promissory note interest rate. A new payment subsidy agreement may be processed if the borrower is eligible.

§ 3550.159 Borrower actions requiring RHS approval.

(a) Mineral leases. Borrowers who wish to lease mineral rights to a security property must request authorization from RHS. RHS may consent to the lease of mineral rights and subordinate its liens to the lessee’s rights and interests in the mineral activity if the security property will remain suitable as a residence and the Government’s security interest will not be adversely affected. Subordination of RHS loans to a mineral lease does not entitle the leaseholder to any proceeds from the sale of the security property.

(1) If the proposed activity is likely to decrease the value of the security property, RHS may consent to the lease only if the borrower assigns 100 percent of the income from the lease to RHS to be applied to reduce principal and the rent to be paid is at least equal
§ 3550.159  

Rural Housing Service, USDA

(2) If the proposed activity is not likely to decrease the value of the security property, RHS may consent to the lease if the borrower agrees to use any damage compensation received from the lessee to repair damage to the site or dwelling, or to assign it to RHS to be applied to reduce principal.

(b) Subordination. RHS may subordinate its interests to permit a borrower to defer recapture amounts and refinance the loan, or to obtain a subsequent loan with private credit.

(1) When it is in the best interest of the Government, subordination will be permitted if:

(i) The other lender will verify that the funds will be used for purposes for which an RHS loan could be made;

(ii) The prior lien debt will be on terms and conditions that the borrower can reasonably be expected to meet without jeopardizing repayment of the RHS indebtedness;

(iii) Any proposed development will be planned and performed in accordance with 7 CFR part 1924, subpart A or directed by the other lender in a manner which is consistent with that subpart; and

(iv) An agreement is obtained in writing from the prior lienholder providing that at least 30 days prior written notice will be given to RHS before action to foreclose on the prior lien is initiated.

(2) The total amount of debt permitted when RHS subordinates its interests depends on whether the borrower pays off the RHS loan.

(i) For situations in which the borrower is obtaining a subsequent loan from another source and will not pay off the RHS debt, the prior lien debt plus the unpaid balance of all RHS loans, exclusive of recapture, will not exceed the market value of the security.

(ii) For situations in which RHS is subordinating only a deferred recapture amount, the prior lien debt plus the deferred recapture amount will not exceed the market value of the security.

(c) Partial release of security. RHS may consent to transactions affecting the security, such as sale or exchange of security property or granting of a right-of-way across the security property, and grant a partial release provided:

(1) The compensation is:

(i) For sale of the security property, cash in an amount equal to the value of the security being disposed of or rights granted.

(ii) For exchange of security property, another parcel of property acquired in exchange with value equal to or greater than that being disposed of.

(iii) For granting an easement or right-of-way, benefits derived that are equal to or greater than the value of the security property being disposed of.

(2) An appraisal must be conducted if the latest appraisal is more than 1 year old or if it does not reflect market value and the amount of consideration exceeds $5,000. The appraisal fee will be charged to the borrower.

(3) The security property, after the transaction is completed, will be an adequate but modest, decent, safe, and sanitary dwelling and related facilities.

(4) Repayment of the RHS debt will not be jeopardized.

(5) If applicable, the environmental requirements of 7 CFR part 1940, subpart G are met.

(6) When exchange of all or part of the security is involved, title clearance is obtained before release of the existing security.

(7) Proceeds from the sale of a portion of the security property, granting an easement or right-of-way, damage compensation, and all similar transactions requiring RHS consent, will be used in the following order:

(i) To pay customary and reasonable costs related to the transaction that must be paid by the borrower.

(ii) To be applied on a prior lien debt, if any.

(iii) To be applied to RHS indebtedness or used for improvements to the security property in keeping with purposes and limitations applicable for use of RHS loan funds. Proposed development will be planned and performed in accordance with 7 CFR part 1924, subpart A and supervised to ensure that the proceeds are used as planned.

(d) Lease of security property. A borrower must notify RHS if they lease the property. If the lease is for a term
§ 3550.160 Refinancing with private credit.

(a) Objective. RHS direct loan programs are not intended to supplant or compete with private credit sources. Therefore, borrowers are required to refinance RHS loans with private credit sources when RHS determines that the borrower meets RHS criteria.

(b) Criteria for refinancing with private credit. Borrowers must refinance with private credit when RHS determines that the borrower has the ability to obtain other credit at reasonable rates and terms based on their income, assets, and credit history. Reasonable rates and terms are those commercial rates and terms that borrowers are expected to meet when borrowing for similar purposes. Differences in interest rates and terms between RHS and other lenders will not be an acceptable reason for a borrower to fail to refinance with private credit if the available rates and terms are within the borrower’s ability to pay.

(c) Notice of requirement to refinance with private credit. The financial status of all borrowers may be reviewed periodically to determine their ability to refinance with private credit. A borrower’s financial status may be reviewed at any time if information becomes available to RHS that indicates that the borrower’s circumstances have changed.

(1) A borrower undergoing review is required to supply, within 30 days of a request from RHS, sufficient financial information to enable RHS to determine the borrower’s ability to refinance with private credit. Foreclosure action may be initiated against any borrower who fails to respond.

(2) When RHS determines that a borrower has the ability to refinance with private credit, the borrower will be required to refinance within 90 days.

(3) Within 30 days after being notified of the requirement to refinance with private credit, a borrower may contest the RHS decision and provide additional financial information to document an inability to refinance with private credit.

(d) Failure to refinance with private credit. (1) If the borrower is unable to secure private credit, the borrower must submit written statements and documentation to RHS showing:

(i) The lenders contacted.

(ii) The amount of the loan requested by the borrower and the amount, if any, offered by the lenders.

(iii) The rates and terms offered by the lenders or the specific reasons why other credit is not available.

(iv) The information provided by the borrower to the lenders regarding the purpose of the loan.

(2) If RHS determines that the borrower’s submission does not demonstrate the borrower’s inability to refinance with private credit, or if the borrower fails to submit the required information, foreclosure may be initiated.

(e) Subordination of recapture amount. RHS may subordinate its interest in any deferred recapture amount to permit a borrower to refinance with private credit. The amount to which the RHS debt will be subordinated may include:

(1) The amount required to repay the RHS debt, exclusive of recapture;

(2) Reasonable closing costs;

(3) Up to one percent of the loan amount for loan servicing costs, if required by the lender; and

(4) The cost of any necessary repairs or improvements to the security property.

(f) Application for additional credit. A borrower who has been asked to refinance with private credit will not be considered for additional credit until the refinancing issue is resolved unless such additional credit is necessary to protect the Government’s interest.

§ 3550.161 Final payment.

(a) Payment in full. Full payment of a borrower’s account includes repayment of principal and outstanding interest, unauthorized assistance, recapture amounts, and charges made to the borrower’s account. Any supervised funds
or funds remaining in a borrower's escrow account will be applied to the borrower's account or returned to the borrower.

(b) Release of security instruments. RHS may release security instruments when full payment of all amounts owed has been received and verified. If RHS and the borrower agree to settle the account for less than the full amount owed, the security instruments may be released when all agreed-upon amounts are received and verified. Security instruments will not be released until any deferred recapture amount has been paid in full.

(c) Payoff statements. At the borrower's request, RHS will provide a written statement indicating the amount required to pay the account in full. RHS may charge a fee for statements for the same account if more than 2 statements are requested in any 30 day period.

(d) Suitable forms of payment. Suitable forms of payment are: check, money order, or bank draft. Borrowers who make cash payments will be assessed a fee to cover conversion to a money order.

(e) Recording costs. Recording costs for the release of the mortgage will be the responsibility of the borrower, except where State law requires the mortgagee to record or file the satisfaction.

§ 3550.162 Recapture.

(a) Recapture policy. Borrowers with loans approved or assumed on or after October 1, 1979, will be required to repay subsidy amounts received through payment subsidy or deferred mortgage assistance. Amounts to be recaptured are due and payable when the borrower transfers title or ceases to occupy the property.

(b) Amount to be recaptured. (1) The maximum amount to be recaptured is the amount of principal reduction attributed to subsidy and the lesser of: (i) The amount of subsidy received; or (ii) 50 percent of the value appreciation.

(2) The value appreciation of a property with a cross-collateralized loan is based on the market value of the dwelling; and if located on a farm, the dwelling and a minimum adequate site.

(3) Interest reduced from the promissory note rate to six percent under the Soldiers and Sailors Relief Act is not subject to recapture.

(c) Option to defer payment of recapture amounts. (1) Borrowers may defer payment of recapture amounts if the loan is repaid, the title does not transfer, and the borrower continues to occupy the property.

(2) The RHS mortgage securing the deferred recapture amount may be subordinated to permit refinancing if the RHS mortgage will be adequately secured.

(3) Borrowers eligible to defer recapture may receive a discount on the recapture amount due if the recapture amount is paid along with the final payment, or in the case of a final installment, within 60 days of the date RHS notifies the borrower that recapture may be due.

(d) Borrower ceases to occupy the property. When a borrower ceases to occupy the property:

(1) The borrower may pay the recapture amount in full or reamortize the existing loan to include the recapture amount.

(2) If the borrower does not pay the recapture amount or consent to reamortization within 30 days, RHS may proceed with foreclosure.

(e) Assumed loans. (1) When a loan subject to recapture is assumed under new rates and terms, the recapture amount may be paid in full by the seller or included in the principal amount assumed by the buyer.

(2) When a loan is assumed under the terms of the promissory note, recapture amounts will not be due. When the new borrower transfers title or ceases to occupy the property, all subsidy subject to recapture before and after the assumption is due.

(3) When a borrower has deferred payment of recapture amounts, the deferred recapture amount may be included in the principal amount of the new loan.
§ 3550.163 Transfer of security and assumption of indebtedness.

(a) General policy. RHS mortgages contain due-on-sale clauses that generally require RHS consent before title to a security property can be transferred with an assumption of the indebtedness. If it is in the best interest of the Government, RHS will approve the transfer of title and assumption of indebtedness on program or nonprogram (NP) terms, depending on the transferee's eligibility and the property's characteristics.

(b) RHS approval of assumptions. (1) A borrower with a loan on program terms who wishes to transfer a security property restricted by a due-on-sale clause to a purchaser who wishes to assume the debt must receive prior authorization from RHS. If RHS authorizes the transfer and assumption, the account will be serviced in the purchaser's name and the purchaser will be liable for the loan under the terms of the security instrument.

(2) If a borrower sells a security property with a due-on-sale clause without obtaining RHS authorization, RHS will not approve assumption of the indebtedness, and the loan will be liquidated unless RHS determines that it is in the Government's best interest to continue the loan. If RHS decides to continue the loan, the account will be serviced in the original borrower's name and the original borrower will remain liable for the loan under the terms of the security instrument.

(c) Exceptions to due-on-sale clauses. (1) Due-on-sale clauses are not triggered by the following types of transfers:

(i) A transfer from the borrower to a spouse or children not resulting from the death of the borrower.

(ii) A transfer to a relative, joint tenant, or tenant by the entirety resulting from the death of the borrower.

(iii) A transfer to a spouse or ex-spouse resulting from a divorce decree, legal separation agreement, or property settlement agreement.

(iv) A transfer to a person other than a deceased borrower's spouse who wishes to assume the loan for the benefit of persons who were dependent on the deceased borrower at the time of death, if the dwelling will be occupied by one or more persons who were dependent on the borrower at the time of death, and there is a reasonable prospect of repayment.

(v) A transfer into an inter vivos trust in which the borrower does not transfer rights of occupancy in the property.

(2) A transferee who obtains property through one of the types of transfer listed in paragraph (c)(1) of this section:

(i) Is not required to assume the loan, and RHS is not permitted to liquidate the loan, if the transferee continues to make scheduled payments and meet all other obligations of the loan. A transferee who does not assume the loan is not eligible for payment assistance or a moratorium.

(ii) May assume the loan on the rates and terms contained in the promissory note, with no down payment. If the account is past due at the time an assumption is executed, the account may be brought current by using any of the servicing methods discussed in subpart E of this part.

(iii) May assume the loan under new rates and terms if the transferee applies and is program-eligible.

(3) Any subsequent transfer of title, except upon death of the inheritor or between inheritors to consolidate title, will be treated as a sale.

(d) Requirements for an assumption. (1) Loans secured by program-eligible properties to be assumed by program-eligible purchasers may be assumed on program terms. Loans secured by nonprogram properties and loans to be assumed by purchasers who are not eligible for program terms may be assumed on NP terms.

(2) The amount the transferee will assume will be either the current market value less any prior liens and any required down payment, or the indebtedness, whichever is less.

(3) For loans assumed on program terms, the interest rate charged by RHS will be the rate in effect at loan approval or loan closing, whichever is lower. For loans assumed on nonprogram terms, the interest rate will be the rate in effect at the time of loan approval.

(4) If additional financing is required to purchase the property or to make
(5) If an appraisal is required for an assumption on new terms, the purchaser is responsible for the appraisal fee.

(6) If all or a portion of the borrower’s account balance is assumed, the borrower and cosigner, if any, will be released from liability on the amount of the indebtedness assumed. If an account balance remains after the assumption, RHS may pursue debt settlement in accordance with subpart F of this part.

(7) Unless it is in the Government’s best interest, RHS will not approve an assumption of a secured loan if the seller fails to repay any unsecured RHS loan.

(8) If a loan is secured by a property with a dwelling situated on more than a minimum adequate site and the excess property cannot be sold separately as a minimum adequate site for another dwelling, RHS may approve a transfer of the entire property. If the excess property can be sold separately as a minimum adequate site, RHS will approve assumption of only the dwelling and the minimum adequate site. If the value of the dwelling on the minimum adequate site is less than the amount of the outstanding RHS debt, the remaining debt will be secured by the excess property. The outstanding debt will be converted to an NP loan and reamortized over a period not to exceed 10 years or the final due date of the original promissory note, whichever is sooner.

§ 3550.164 Unauthorized assistance.

(a) Definition. Unauthorized assistance includes any loan, payment subsidy, deferred mortgage payment, or grant for which the recipient was not eligible.

(b) Unauthorized assistance due to false information. (1) False information includes information that the recipient knew was incorrect or should have known was incorrect that was provided or omitted for the purposes of obtaining assistance for which the recipient was not eligible.

(2) If the recipient receives an unauthorized loan due to false information, RHS will adjust the account using the NP interest rate that was in effect when the loan was approved. The recipient must pay the account in full within 30 days.

(3) If the recipient receives unauthorized subsidy due to false information, RHS will require the recipient to repay it within 30 days. The account cannot be reamortized to include the unauthorized subsidy. If the recipient repays the unauthorized subsidy, the loan may be continued.

(c) Unauthorized assistance due to inaccurate information. (1) Inaccurate information includes incorrect information inadvertently provided, used, or omitted without the intent to obtain benefits for which the recipient was not eligible.

(2) RHS will permit a recipient who receives an unauthorized loan due to inaccurate information to retain the loan under the following conditions.

(i) If the inaccurate information was related to the purpose of the loan or the recipient’s eligibility, with the exception of income, or the income used was incorrect, but the recipient still qualified as income-eligible, RHS will allow the recipient to continue the loan on existing terms.

(ii) If a section 502 recipient’s income was above the moderate-income level, RHS will convert the loan to an NP loan, using the nonprogram interest rate in effect on the date the loan was approved.

(iii) If a section 504 recipient’s income was above the very low-income level, RHS will apply the applicable 502 or nonprogram interest rate in effect on the date the loan was approved.

(iv) If an incorrect interest rate was used, RHS will adjust the account using the correct interest rate.

(3) If the recipient receives unauthorized subsidy due to inaccurate information, RHS will require the recipient to repay it within 30 days. If the recipient cannot repay it within 30 days, the account may be reamortized. If the recipient repays the unauthorized subsidy or reamortizes the loan, the loan may be continued.

(d) Unauthorized grants. Recipients may either repay the unauthorized assistance in a lump sum or execute a promissory note, regardless of whether the unauthorized assistance was due to
false or inaccurate information. RHS may seek a judgment if the recipient refuses to repay the unauthorized assistance.

(e) Account servicing. RHS will adjust all accounts retroactively to establish the amount of unauthorized assistance. If the recipient does not repay the unauthorized assistance within 30 days, RHS may accelerate the loan. If the unauthorized assistance is due to inaccurate information and the recipient is unable to repay within 30 days, RHS may reamortize the loan.

(f) Accounts with no security. If an unauthorized loan or grant is unsecured, RHS may seek the best mortgage obtainable.

§§ 3550.165–3550.199 [Reserved]

§ 3550.200 OMB control number.

The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0575-0166. Public reporting burden for this collection of information is estimated to vary from 5 minutes to 3 hours per response, with an average of 1½ hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Department of Agriculture, Clearance Officer, STOP 7602, 1400 Independence Avenue, SW., Washington, DC 20250–7602. You are not required to respond to this collection of information unless it displays a currently valid OMB control number.

Subpart E—Special Servicing

§ 3550.201 Purpose of special servicing actions.

The Rural Housing Service (RHS) may approve special servicing actions to reduce the number of borrower failures that result in liquidation. Borrowers who have difficulty keeping their accounts current may be eligible for one or more available servicing options including: payment assistance; delinquency workout agreements that temporarily modify payment terms; protective advances of funds for taxes, insurance, and other approved costs; payment moratoriums; and reamortization of the loan.

§ 3550.202 Past due accounts.

An account is past due if the scheduled payment is not received by the due date, or as authorized by State law.

(a) Late fee. A late fee will be assessed if the full scheduled payment is not received by the 15th day after the due date.

(b) Liquidation—(1) For borrowers with monthly payments. The account may be accelerated without further servicing when at least 3 scheduled payments are past due or an amount equal to at least 2 scheduled payments is past due for at least 3 consecutive months. In such cases RHS may pursue voluntary liquidation and foreclosure.

(2) For borrowers with annual payments. The account may be accelerated without further servicing when at least ¾ of 1 scheduled payment has not been received by its due date. In such cases, RHS may pursue voluntary liquidation and foreclosure.

§ 3550.203 General servicing actions.

Whenever any of the servicing actions described in this subpart result in reamortization of the account RHS may:

(a) Require a borrower who currently makes annual payments, but receives a monthly income, to convert to monthly payments.

(b) Require the creation and funding of an escrow account for real estate taxes and insurance, if one does not already exist for any borrower with monthly payments.

(c) Convert the method of calculating interest for any account being charged daily simple interest to an amortized payment schedule.

§ 3550.204 Payment assistance.

Borrowers who are eligible may be offered payment assistance in accordance with subpart B of this part. Borrowers who are not eligible for payment assistance because the loan was approved
before August 1, 1968, or the loan was made on above-moderate or non-program (NP) terms, may refinance the loan in order to obtain payment assistance if:
   (a) The borrower is eligible to receive a loan with payment assistance;
   (b) Due to circumstances beyond the borrower’s control, the borrower is in danger of losing the property; and
   (c) The property is program-eligible.

§ 3550.205 Delinquency workout agreements.

Borrowers with past due accounts may be offered the opportunity to avoid liquidation by entering into a delinquency workout agreement that specifies a plan for bringing the account current. To receive a delinquency workout agreement, the following requirements apply:
   (a) A borrower who is able to do so will be required to pay the past-due amount in a single payment.
   (b) A borrower who is unable to pay the past-due amount in a single payment must pay monthly all scheduled payments plus an agreed upon additional amount that brings the account current within 2 years or the remaining term of the loan, whichever is shorter.
   (c) If a borrower becomes more than 30 days past due under the terms of a delinquency workout agreement, RHS may cancel the agreement.

§ 3550.206 Protective advances.

RHS may pay for fees or services and charge the cost against the borrower’s account to protect the Government’s interest.
   (a) Advances for taxes and insurance. RHS may advance funds to pay real estate taxes, hazard and flood insurance premiums, and other related costs, as well as amounts needed to fund the current escrow cycle.
   (b) Advances for costs other than taxes and insurance. Protective advances for costs other than taxes and insurance, such as emergency repairs, will be made only if the borrower cannot obtain a subsequent loan.
   (c) Repayment arrangements. (1) Advances for borrowers with multiple loans will be charged against the largest loan.

   (2) Amounts advanced will be due with the next scheduled payment. RHS may schedule repayment consistent with the borrower’s ability to repay or reamortize the loan.
   (3) Advances will bear interest at the promissory note rate of the loan to which the advance was charged.

§ 3550.207 Payment moratorium.

RHS may defer a borrower’s scheduled payments for up to 2 years. NP borrowers are not eligible for a payment moratorium.
   (a) Borrower eligibility. For a borrower to be eligible for a moratorium, all of the following conditions must be met:
      (1) Due to circumstances beyond the borrower’s control, the borrower is temporarily unable to continue making scheduled payments because:
         (i) The borrower’s repayment income fell by at least 20 percent within the past 12 months;
         (ii) The borrower must pay unexpected and unreimbursed expenses resulting from the illness, injury, or death of the borrower or a family member; or
         (iii) The borrower must pay unexpected and unreimbursed expenses resulting from damage to the security property in cases where adequate hazard insurance was not available or was prohibitively expensive.
      (2) The borrower occupies the dwelling, unless RHS determines that it is uninhabitable.
      (3) The borrower’s account is not currently accelerated.
   (b) Reviews of borrower eligibility. (1) Periodically RHS may require the borrower to submit financial information to demonstrate that the moratorium should be continued. The moratorium may be canceled if:
      (i) The borrower does not respond to a request for financial information;
      (ii) RHS receives information indicating that the moratorium is no longer required; or
      (iii) In the case of a moratorium granted to pay unexpected or unreimbursed expenses, the borrower cannot show that an amount at least equal to the deferred payments has been applied toward the expenses.
      (2) At least 30 days before the moratorium is scheduled to expire, RHS will...
§ 3550.208 Reamortization using promissory note interest rate.

Reamortization using the promissory note interest rate may be authorized when RHS determines that reamortization is required to enable the borrower to meet scheduled obligations, and only if the Government's lien priority is not adversely affected. The remaining balance will be re-}

§ 3550.209 [Reserved]

§ 3550.210 Offsets.

Any money that is or may become payable from the United States to an RHS borrower may be subject to administrative, salary, or Internal Revenue Service (IRS) offsets for the collection of a debt owed to RHS.

(a) IRS offset. RHS may take action to effect offset of claims due RHS against tax refunds due to RHS debtors under 26 U.S.C. 6402, in accordance with the provisions of 31 U.S.C. 3720A and 26 CFR 301.6402–6.

(b) Salary offset. Offset of claims due to RHS may be collected pursuant to the salary offset provisions in 7 CFR part 3, subpart C for a federal employee or other persons covered in that subpart.

(c) Administrative offset. RHS may take action to effect administrative offset to recover delinquent claims due to it in accordance with the procedures in 7 CFR part 3, subpart B.

(d) Offset by other federal agencies. Escrow funds and loan and grant funds held or payable by RHS are not subject to offset by other federal agencies.

§ 3550.211 Liquidation.

(a) Policy. When RHS determines that a borrower is unable or unwilling to meet loan obligations, RHS may accelerate the loan and, if necessary, acquire the security property. The borrower is responsible for all expenses associated with liquidation and acquisition. If the account is satisfied in full, the borrower will be released from liability. If the account is not satisfied in full, RHS may pursue any deficiency
unless the borrower received a moratorium at any time during the life of the loan and faithfully tried to repay the loan.

(b) Tribal allotted or trust land. Liquidations involving a security interest in tribal allotted or trust land shall only be pursued after offering to transfer the account to an eligible tribal member, the tribe, or the Indian Housing Authority. Forced liquidation of RHS security interests in Indian trust lands or on tribal allotted land will be recommended only after the State Director has determined it is in the best interest of the Government.

(c) Acceleration and foreclosure. If RHS determines that foreclosure is in the best interest of the Government, RHS will send an acceleration notice to each borrower and any cosigner. If the borrower does not pay the full account balance and meet the other terms of the loan within 30 days of acceleration, RHS may foreclose. RHS will not accept partial payment of an accelerated loan unless required to accept the payment by State law.

(d) Voluntary liquidation. Borrowers may voluntarily liquidate through:

(1) Refinancing or sale. The borrower may refinance or sell the security property for at least net recovery value and apply the proceeds to the account.

(2) Deed in lieu of foreclosure. RHS may accept a deed in lieu of foreclosure to convey title to the security property only after the debt has been accelerated and when it is in the Government’s best interest.

(3) Offer by third party. If a junior lienholder or cosigner makes an offer in the amount of at least the net recovery value, RHS may assign the note and mortgage.

(e) Bankruptcy. (1) When a petition in bankruptcy is filed by a borrower after acceleration, collection actions and foreclosure actions are suspended in accordance with the provisions of the Bankruptcy Code.

(2) RHS may accept conveyance of security property by the trustee in bankruptcy if the Bankruptcy Court has approved the transaction, RHS determines the conveyance is in the best interest of the Government, and RHS will acquire title free of all liens and encumbrances except RHS liens.

(3) Whenever possible in a Chapter 7 Bankruptcy, a reaffirmation agreement will be signed by the borrower and approved by the court prior to discharge, if RHS decides to continue with the borrower.

(f) Junior lienholder foreclosure. When a junior lienholder foreclosure does not result in payment in full of the RHS debt but the property is sold subject to the RHS lien, RHS may liquidate the account unless the new owner is eligible to assume the RHS debt and actually assumes the RHS debt.

(g) Payment subsidy. If the borrower is receiving payment subsidy, the payment subsidy agreement will not be canceled when the debt is accelerated, but will not be renewed unless the account is reinstated.

(h) Eligibility for special servicing actions. A borrower is not eligible for special servicing actions once the account has been accelerated.

(i) Reporting. RHS may report to IRS and credit reporting agencies any debt settled through liquidation.

§§ 3550.212—3550.249 [Reserved]

§ 3550.250 OMB control number.

The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0575–0166. Public reporting burden for this collection of information is estimated to vary from 5 minutes to 3 hours per response, with an average of 1½ hours per response, including time for reviewing insurrections, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Department of Agriculture, Clearance Officer, STOP 7602, 1400 Independence Avenue, SW., Washington, DC 20250–7602. You are not required to respond to this collection of information unless it displays a currently valid OMB control number.
Subpart F—Post-Servicing Actions

§ 3550.251 Property management and disposition.

(a) Policy. Rural Housing Service (RHS) will manage custodial property and Real Estate Owned (REO) property to protect the Government's interest, and may dispose of REO property through direct sales, sealed bid, or auction. RHS will follow affirmative fair housing marketing policies.

(b) Custodial property. RHS may take custodial possession of security property that has been abandoned, or for other reasons necessary to protect the Government's security. After taking custodial possession of a security property, RHS may maintain and repair the security property as needed to protect the Government's interest, pay required real estate taxes and assessments, and secure personal property left on the premises. Expenses will be charged to the borrower's account. Custodial property may be leased when it is in the Government's best interest and in such cases the borrower's account will be credited for income from the security property.

(c) REO property.—(1) Classification. When RHS takes title to a security property, it is classified as either program or nonprogram (NP) property. An REO property that is eligible for financing under the section 502 program, or which could reasonably be repaired to be eligible, is classified as program property. An REO property that cannot reasonably be repaired to be eligible as section 502 property, and property that has been improved to a point that it will no longer qualify as modest under section 502, is classified as NP property.

(2) Disclosing decent, safe, and sanitary defects. When RHS determines that an REO property to be sold is not decent, safe, and sanitary, or does not meet cost-effective energy conservation standards, it will disclose the reasons why. The deed by which such an REO property is conveyed will contain a covenant restricting it from residential use until it is decent, safe, and sanitary and meets the RHS cost-effective energy conservation standards. RHS will also notify any potential purchaser of any known lead-based paint hazards.

(3) Property on Indian tribal allotted or trust land. REO property which is located on Indian tribal allotted or trust land, will be sold or otherwise disposed of only to a member of the particular tribe having jurisdiction over the allotted or tribal land, to the tribe, or to an Indian housing authority serving the tribe on a first-come, first-served basis.

(4) Reservation of program REO properties. (i) Program REO properties are reserved for program-eligible applicants and nonprofit organizations or public bodies providing transitional housing during the first 60 days after the date of the first notice of sale, and during the first 30 days following any reduction in price or any other change in credit terms or other sale terms. After the expiration of a reservation period, program REO properties can be bought by any buyer.

(ii) An offer on a program REO property from a buyer who does not qualify for a section 502 program loan may be submitted during a reservation period, but is considered to have been received on the day after the reservation period ends.

(iii) No offer is considered until 3 business days after the date the property is offered for sale. An offer received during the 3-day holding period is not considered until the 4th day, and is evaluated with any other offers actually received on the 4th day.

(iv) Priority of offers received the same day. (i) Offers received on the same business day are selected in the following order:

(A) Offers from program-eligible applicants, with a request for credit on program terms. All offers are evaluated as if they were submitted at the listed price, regardless of the offering price.

(B) Offers from nonprofits or public bodies for conversion to use as transitional housing or for other special purposes as specified in paragraph (d)(4) of this section.

(C) Cash offers, from highest to lowest.

(D) NP credit offers, from highest to lowest.

(ii) Acceptable offers of equal priority received on the same business day are selected by lot.
(iii) REO properties are not held off the market pending the outcome of an appeal of RHS rejection of a request for financing.

(6) Sale by sealed bid or auction. RHS may authorize the sale of an REO property by sealed bid or public auction when it is in the best interest of the Government. RHS will publicly solicit requests for sealed bids and publicize auctions. If a successful bidder is unable to settle the transaction under the terms of the offer, except for the financing contingency, any required bid deposit may be retained by RHS. If the highest bid is lower than the minimum acceptable bid established by RHS, or if no acceptable bids are received, RHS may negotiate a sale without further public notice.

(d) Special purposes. (1) REO property may be purchased for conversion to multiple family housing.

(2) When a nonprofit organization or public body notifies RHS in writing of its intent to buy an REO property to provide transitional housing for the homeless, RHS may withdraw the property from the market for up to 30 days to give the entity an opportunity to execute a purchase contract. The listed price may be discounted for offers on a nonprogram REO property at any time, and on a program REO property after the 60-day reservation period. No down payment is required, and the loan term will be for a maximum of 30 years. Until RHS executes a sales agreement, an offer from a program-eligible applicant will receive priority, regardless of a nonprofit’s interest in purchasing the REO property for use as transitional housing.

(3) NP properties may be leased to a nonprofit organization or public body to provide transitional housing for the homeless at an annual cost of one dollar. When an REO property is to be leased as transitional housing, RHS will make repairs needed to put the property in decent, safe, and sanitary condition. The lessee is responsible for all future repairs and maintenance.

(4) REO property may be sold under special provisions to nonprofit organizations or public bodies for the purpose of providing affordable housing to very low- and low-income families.

§ 3550.252 Debt settlement policies.

(a) Applicability. Debt settlement procedures may be initiated to collect any amounts due to RHS including:

(1) Balances remaining on loan accounts after all liquidation proceeds or credits have been applied;

(2) Subsidy recapture or grant amounts due; and

(3) Unauthorized assistance due.

(b) Judgment. RHS may seek a judgment whenever a judgment might enable RHS to collect all or a significant portion of an amount owed.

(c) Multiple loans. RHS does not settle debts for one loan while other RHS loans on the same security property remain active.

(d) Cosigners and claims against estates. RHS may use any and all remedies available under law to collect from any cosigner and from a deceased borrower’s estate.

(e) Reporting. RHS will report to the Internal Revenue Service and credit reporting agencies any debt settled through cancellation, compromise, or adjustment.

(f) Settlement during legal or investigative action. Cases that are under investigation for fiscal irregularity or have been referred to the Office of the Inspector General, the Office of the General Counsel, or the U.S. Attorney will not be considered for debt settlement until final action by the investigating or prosecuting entity has been taken.

(g) Offsets. RHS may request offsets as described in §3550.210 to collect amounts owed.

(h) Escrow funds. At liquidation all funds held in escrow or unapplied funds will be applied against the debt.

§ 3550.253 Settlement of a debt by compromise or adjustment.

Compromise or adjustment offers may be initiated by the debtor or by RHS. RHS will approve only those compromises and adjustments that are in the best interest of the Government.

(a) Compromise. A compromise is an agreement by RHS to release a debtor from liability upon receipt of a specified lump sum that is less than the total amount due.

(b) Adjustments. An adjustment is an agreement by RHS to release a debtor from liability generally upon receipt of
§§ 3550.254—3550.299

an initial lump sum representing the maximum amount the debtor can afford to pay and periodic additional payments over a period of up to 5 years.

(c) Timing of offers. (1) For a settlement offer to be considered, secured debts must be fully matured under the terms of the debt instrument or must have been accelerated by RHS.

(2) Unsecured debts owed after the sale of the security property may be proposed for compromise or adjustment at any time. Debts that were never secured may be proposed for compromise or adjustment when they are due and payable.

(d) Retention of security property. The debtor may retain the security property if the compromise payment is at least equal to the net recovery value, and it is in the best interest of the Government to allow the debtor to retain the security property.

§§ 3550.254—3550.299 [Reserved]

§ 3550.300 OMB control number.

The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0575-0166. Public reporting burden for this collection of information is estimated to vary from 5 minutes to 3 hours per response, with an average of 1 ½ hours per response, including time for review instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Department of Agriculture, Clearance Officer, STOP 7602, 1400 Independence Avenue, SW., Washington, DC 20250-7602.

§ 3570.52 Purpose.

The purpose of the Community Facilities grant program is to assist in the development of essential community facilities in rural areas. The Agency will authorize grant funds on a graduated basis. Eligible applicants located in small communities with low populations and low median household incomes may receive a higher percentage of grant funds. The amount of grant funds provided for a facility shall not exceed 75 percent of the cost of developing the facility.

§ 3570.53 Definitions.

Agency. The Rural Housing Service (RHS), an agency of the U.S. Department of Agriculture, or a successor agency.

Approval Official. An official who has been delegated loan or grant approval authorities within applicable programs, subject to certain dollar limitations.

Community facility (CF) (essential). The term “facility” refers to both the physical structure financed and the resulting service provided to rural residents. An essential community facility must:

1. Serve a function customarily provided by a local unit of government;
2. Be a public improvement needed for the orderly development of a rural community;
3. Not include private affairs or commercial or business undertakings (except for limited authority for industrial parks);
4. Be within the area of jurisdiction or operation for the public bodies eligible to receive assistance or a similar local rural service area of a not-for-profit corporation; and
5. Be located in a Rural area, county, or multi-county area depending on the type of essential community facility.

Grantee. An entity with whom the Agency has entered into a grant agreement under this program.

Instructions. Agency internal procedure available in any Rural Development Office and variously referred to as Rural Development Instruction, RD Instruction, and FmHA Instruction.

Nonprofit Corporations. Any organization or entity that is eligible for RHS financial assistance in accordance with 7 CFR §1942.17(b)(1)(B)(ii).

Processing office. The office designated by the State program official to accept and process applications for CF projects.

Project cost. The cost of completing the proposed community facility. (Facilities previously constructed will not be considered in determining project costs.) Total project costs will include only those costs eligible for CF assistance.

Poverty line. The level of income for a family of four, as defined in section...
§ 3570.54 Equal opportunity and fair housing.

The Agency will administer the program in accordance with equal opportunity and fair housing legislation and applicable Executive Orders. Federal statutes provide for extending RHS financial assistance without regard to race, color, religion, sex, national origin, age, disability, and marital or familial status. The participant must possess the capacity to enter into legal contracts under State and local statutes. All activities under this subpart shall be accomplished in accordance with title VI of the Civil Rights Act of 1964, the Civil Rights Act of 1968 (Fair Housing Act), the Rehabilitation Act of 1973, and all other Federal laws and Executive Orders prohibiting discrimination in Federal programs. To file a complaint, write the Secretary of Agriculture, U.S. Department of Agriculture, 1400 Independence Avenue SW., Washington, DC 20250, or call 1-800-245-6340 (voice) or (202) 720-1127 (TDD).

§§ 3570.55–3570.59 [Reserved]

§ 3570.60 Processing pre-applications, applications, and completing grant dockets.

(a) Pre-applications and applications for grants will be developed in accordance with applicable portions of §§ 1942.2, 1942.104, 1942.105, and 1980.851 of this title. For combination proposals, only one pre-application package and one application package should be prepared and submitted.

(b) Financial information contained in preliminary engineering and architectural reports will be prepared without considering grant assistance.

(c) The application package will be reviewed by the processing office for eligibility, the maximum amount of grant funds allowable, and scored for selection priority.

§ 3570.61 Eligibility for grant assistance.

The essential community facility must primarily serve rural areas with populations of 25,000 or less, where the median household income in the areas to be served by the proposed facility is below the higher of the poverty line or 80 percent of the State non-metropolitan median household income.

(a) Eligible applicant. An applicant must be:

(1) A public body, such as a municipality, county, district, authority, or other political subdivision of a State;

(2) A nonprofit corporation or an association. Applicants other than utility-type applicants must have significant ties with the local rural community. Such ties are necessary to ensure...
§ 3570.63 Limitations.

(a) Grant funds may not be used to:
(1) Pay any annual recurring costs, including purchases or rentals that are generally considered to be operating and maintenance expenses;
(2) Construct or repair electric generating plants, electric transmission lines, or gas distribution lines to provide services for commercial sale;
(3) Refinance existing indebtedness;
(4) Pay interest;
(5) Pay for facilities located in cities or towns in excess of 25,000, except as noted in §3570.61(b)(1);
(6) Pay any costs of a project when the median household income of the population to be served by the proposed facility is above the higher of the poverty line or 80 percent of the nonmetropolitan median household income of the State;
(7) Pay project costs when other loan funding for the project is not equal to, or less than, the current intermediate interest rate for CF loans (as contained in part 1810, subpart A, Exhibit B of this title, available in any Rural Development office);
(8) Pay an amount greater than 75 percent of the cost to develop the facility;
(9) Pay costs to construct facilities to be used for commercial rental where the applicant has no control over tenants and services offered;

§ 3570.62 Use of grant funds.

Grant funds up to 75 percent of the cost of developing specific essential community facilities in rural areas may be used:
(a) To supplement financial assistance authorized in accordance with part 1942, subparts A and C, and part 1980, subpart I of this title. Funding for the balance of the project shall consist of other CF financial assistance, applicant contribution, or loans and grants from other sources.
(b) To assist in developing essential community facilities in rural areas as contained in §§1942.17(d)(1), 1942.112, and 1980.813 of this title.
§ 3570.64 Determining the maximum grant assistance.

(a) Responsibility. State Directors are responsible for determining the applicant's eligibility for grant assistance. A “Worksheet for Computing Maximum Grant Assistance” (available in any Rural Development office) will be used to record the maximum allowable grant for each Community Facilities project.

(b) Maximum grant assistance. Grant assistance cannot exceed the lower of:

1. Qualifying percentage of eligible project cost determined in accordance with §3570.63(b);
2. Minimum amount sufficient to provide for economic feasibility as determined in accordance with §3570.61(d); or
3. Either 50 percent of the annual State allocation or $50,000, whichever is greater, unless an exception is made by the RHS Administrator in accordance with §3570.90.

§ 3570.65 Project selection priorities.

Applications are scored on a priority basis. Points will be distributed as follows:

(a) Population priorities. The proposed project is located in a rural community having a population of:

1. 5,000 or less—30 points;
2. Between 5,001 and 15,000—20 points;
3. Between 15,001 and 25,000—10 points.

(b) Income priorities. The median household income of the population to be served by the proposed project is:

1. Below the higher of the poverty line or 60 percent of the State nonmetropolitan median household income—30 points;
2. Below the higher of the poverty line or 70 percent of the State nonmetropolitan median household income—20 points;
3. Below the higher of the poverty line or 80 percent of the State nonmetropolitan median household income—10 points.

(c) Other priorities. Points will be assigned for one or more of the following initiatives:

1. Project is identified in the State strategic plan—10 points;
2. Project is for health care—10 points;
3. Project is for public safety—10 points.

(d) Discretionary. (1) The State Director may assign up to 15 points to a project, in addition to those that may
be scored under paragraphs (a) through (c), of this section. These points are to address unforeseen exigencies or emergencies, such as the loss of a community facility due to an accident or natural disaster or the loss of joint financing if Agency funds are not committed in a timely fashion. In addition, the points will award projects benefiting from the leveraging of funds in order to improve compatibility and coordination between the Agency and other agencies’ selection systems and for those projects that are the most cost effective.

(2) In selecting projects for funding at the National Office level, additional points will be awarded based on the priority assigned to the project by the State Office. These points will be awarded in the manner shown below. Only the three highest priority projects for a State will be awarded points. The Administrator may assign up to 30 additional points to account for geographic distribution of funds, emergency conditions caused by economic problems or natural disasters, and leveraging of funds.

§§ 3570.66-3570.69 [Reserved]

§ 3570.70 Other considerations.

Each application must contain the comments, necessary certifications, and recommendations of appropriate regulatory or other agency or institution having expertise in the planning, operation, and management of similar facilities as required by part 1942, subparts A and C, and part 1980, subpart I, of this title. Proposals for facilities financed in whole or in part with Agency funds must be coordinated with appropriate Federal, State, and local agencies as required by the following:

(a) Intergovernmental review.
(b) Civil rights compliance requirements.
(c) Environmental requirements.
(d) Government wide debarment and suspension.
(e) Restrictions on lobbying.
(f) Excess capacity or transfer of employment.
(g) National Historic Preservation Act of 1966.
(h) Uniform Relocation Assistance and Real Property Acquisition.
(i) Floodplains and wetlands.
(j) Flood or mudslide hazard area precautions.
(k) Civil Rights Impact Analysis.

§§ 3570.71-3570.75 [Reserved]

§ 3570.76 Planning and performing development.

Planning and performing development will be handled in accordance with §§ 1942.9, 1942.16, and 1942.126 of this title.

§§ 3570.77-3570.79 [Reserved]

§ 3570.80 Grant closing and delivery of funds.

(a) The Agency’s policy is that grant funds will not be disbursed from the Treasury until they are actually needed by the applicant and all borrower funds and other CF financial assistance are expended.

(1) Agency or other loan funds will be disbursed before the disbursement of any Agency grant funds except when:

(i) Interim financing of the total estimated amount of loan funds needed during construction is arranged;
(ii) All interim funds have been disbursed; and
(iii) Agency grant funds are needed before any other loan can be closed.

(2) If grant funds are available from other agencies and are transferred for disbursement by RHS, these grant funds will be disbursed in accordance with the agreement governing such other agencies’ participation in the project.

(3) Any grant funds remaining will be handled in accordance with §1942.17(p)(6) of this title.

(b) If the grant is made in connection with other CF financial assistance, grant closing must occur simultaneously with loan closing.

(c) Agency grant funds will be disbursed in accordance with §§ 1942.17(p)(2) and 1942.123 of this title.

(d) Payment for construction will be made in accordance with §§ 1942.17(p)(3) and 1942.127 of this title.
§§ 3570.81-3570.82

(e) An “Agreement for Administrative Requirements for Community Facilities Grants” will be signed by the grantee. For grants that supplement Agency loan funds, the grant should be closed simultaneously with the closing of the loan. However, when grant funds will be disbursed before loan closing, as provided in paragraph (a)(1) of this section, the grant will be closed not later than the delivery date of the first advance of grant funds.

§§ 3570.81-3570.82 [Reserved]

§ 3570.83 Audit requirements.

Audits will be conducted in accordance with §1942.17(q)(4) of this title. The audit requirements apply only to the years in which grant funds are received. Audits must be prepared in accordance with Generally Accepted Government Auditing Standards (GAGAS) using the publication, “Standards for Audit of Governmental Organizations, Programs, Activities, and Functions.”

§ 3570.84 Grant servicing.

Grants will be serviced in accordance with part 1951, subparts E and O of this title.

§ 3570.85 Programmatic changes.

The grantee shall obtain prior approval for any change to the objectives of the project. (For construction projects, a material change in approved space utilization or functional layout shall be considered such a change.) Failure to obtain prior approval of changes to the approved project or budget can result in suspension, refund, or termination of grant funds.

§ 3570.86 [Reserved]

§ 3570.87 Grant suspension, termination, and cancellation.

Grants may be suspended or terminated for cause or convenience in accordance with parts 3015, 3016, or 3019 of this title, as applicable.

§ 3570.88 Management assistance.

Grant recipients will be supervised, to the extent necessary, to ensure that facilities are constructed in accordance with approved plans and specifications and to ensure that funds are expended for approved purposes.

§ 3570.89 [Reserved]

§ 3570.90 Exception authority.

The Administrator may, in individual cases, make an exception to any non-statutory requirement or provision of this subpart if the Administrator determines that application of the requirement or provision would adversely affect the Government’s financial interest and shows how the adverse impact will be eliminated or minimized if the exception is made. Requests for exceptions must be made in writing by the approval official.

§ 3570.91 Regulations.

Grants under this part will be in accordance with parts 3015, 3016, or 3019, as applicable, of this title and any conflicts between those parts and this part will be resolved in favor of the applicable parts 3015, 3016, or 3019, as applicable.

§ 3570.92 [Reserved]

§ 3570.93 Regional Commission grants.

(a) Grants are sometimes made by Federal Regional Commissions for projects eligible for RHS assistance. RHS has agreed to administer such funds in a manner similar to administering RHS assistance.

(b) The transfer of funds from a Regional Commission to RHS will be based on specific applications determined to be eligible for an authorized purpose in accordance with the requirements of RHS and the Regional Commission.

(c) The Appalachian Regional Commission (ARC) is authorized under the Appalachian Regional Development Act of 1965, as amended, to serve the Appalachian region. ARC grants are handled in accordance with the ARC Agreement (RUS Bulletin 1700-25) which applies to all ARC grants administered by RHS. Therefore, a separate Project Management Agreement between RHS and ARC is not needed for each ARC grant.

(d) Other Federal Regional Commissions are those authorized under Title V of the Public Works and Economic...
Rural Housing Service, USDA

§ 3570.100

Grants by these commissions are handled in accordance with a separate Project Management Agreement between the respective Regional Commission and RHS for each Commission grant administered by RHS (guide 1 of part 1942, subpart G). The agreement should be prepared by the RHS State Director and the appropriate Commission official when the State Director receives a notice from the Commission of the amount of the grant to be made.

(e) When the Agency has funds in the project, no charge will be made for administering grant funds.

(f) When RHS has no loan or grant funds in the project, an administrative charge will be made pursuant to the Economy Act of 1932, as amended (31 U.S.C. 1535). A fee of 5 percent of the first $50,000 and 1 percent of any amount over $50,000 will be paid RHS by the commission.

§§ 3570.94-3570.99 [Reserved]

§ 3570.100 OMB control number.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0575-0173.

PART 3600—ORGANIZATION AND FUNCTIONS

Sec.
3600.1 General.
3600.2 Organization.
3600.3 Functions.
3600.4 Authority to act for the Administrator.

APPENDIX A TO PART 3600—LIST OF STATE STATISTICAL OFFICES

AUTHORITY: 5 U.S.C. 301 and 552; and 7 CFR 2.85.

SOURCE: 60 FR 57534, Nov. 16, 1995, unless otherwise noted.

§ 3600.1 General.

The National Agricultural Statistics Service (NASS) was established on April 17, 1986, by Secretary’s Memorandum 1020-24, which renamed the Statistical Reporting Service concurrent with an internal restructuring. Primary NASS responsibilities are development and dissemination of national and State agricultural statistics, statistical research, and coordination of Department statistical programs.

§ 3600.2 Organization.

The headquarters organization consists of: The Administrator and Associate Administrator; Deputy Administrator for Field Operations; Four Divisions: Estimates, Survey Management, Research, and Systems and Information; and the Agricultural Statistics Board. In the field, each of the 45 State Statistical Offices, serving the 50 States, is under a State Statistician.

§ 3600.3 Functions.

(a) Administrator. The Administrator is responsible for the formulation of current, intermediate, and long-range policies and plans to carry out a broad statistical program for the agricultural sector and Departmental functions and activities assigned to NASS. Specific functions are:

(1) Administering an agricultural statistics program which includes estimates of production, marketings, inventories, and selected economic characteristics of the U.S. agricultural and rural economy.

(2) Administering a methodological research program to improve agricultural data collection and processing, data management, estimation, and forecasting.

(3) Administering programs to conduct surveys for other agencies, improve statistics through statistical standards for the Department, and coordinate statistical methods and techniques within the Federal Government.

(4) Administering statistical programs jointly developed through cooperative agreements with State agencies, universities, private groups, and other Federal agencies.

(b) Associate Administrator. The Associate Administrator is responsible for advising and counseling the Administrator and high-level policy officials on matters related to programs of NASS. Major functions include:

(1) Chairing Agricultural Statistics Board activities, designating Board membership, presiding at Board sessions, and formulating specific procedures.

(2) Chairing the NASS Strategic Planning Council which coordinates long-range planning, information resources management, and research reviews.

(3) Chairing the Resource Management Council which coordinates NASS hiring, promotion, and training activities.

(c) Deputy Administrator for Field Operations. The Deputy Administrator manages and coordinates data collection and estimating programs carried out by State Statistical Offices. This includes supervision of statistical programs with cooperating State and private groups, universities, and other Federal agencies. Major functions include:

(1) Formulating policies and programs that relate to functions and responsibilities of State Statistical Offices.
National Agricultural Statistics Service, USDA § 3600.4

(2) Directing agricultural statistics programs established through cooperative agreements with State Departments of Agriculture, Land-Grant colleges and universities, or appropriate private organizations.

(3) Establishing and maintaining relationships with respondents, producers, commodity groups, data users, and other interested groups to gain cooperation in providing useful, timely, and reliable information.

(d) Director, Estimates Division. The Director is responsible for NASS estimating and forecasting programs. Major functions include:

(1) Defining input and output requirements, estimators and variances to be utilized, statistical standards, editing and summarization requirements, and analytic procedures.

(2) Collaborating with the Chairperson of the Agricultural Statistics Board to establish the annual programs of statistical reports.

(3) Developing appropriate systems parameters; processing, summarizing, and presenting current survey and related historical data for Agricultural Statistics Board analysis; and preparing official estimates and forecasts.

(e) Director, Survey Management Division. The Director is responsible for application of survey design and data collection methodologies to the agricultural statistics program. Major functions include:

(1) Constructing and maintaining appropriate sampling frames for agricultural and rural surveys.

(2) Designing, testing, and establishing survey techniques and standards, including sample design, sample selection, questionnaires, data collection methods, survey materials, and training methods for NASS.

(3) Reviewing specifications for special data collection activities for programs of other Federal or State agencies.

(f) Director, Research Division. The Director is responsible for researching statistical methodology for survey design, data collection, processing, estimating, and forecasting. Major functions include:

(1) Conducting statistical research to develop new and improved sampling techniques, develop improved data collection methods, and identify methods of controlling sampling and nonsampling errors.

(2) Researching statistical computing methods and developing efficient uses of computer technology including telecommunications, networking, and other applications.

(3) Developing new statistical theory and models and solving statistical problems, including numerical methods involving advanced mathematical statistics.

(g) Director, Systems and Information Division. The Director is responsible for NASS information management system and processing services. Specific functions are:

(1) Designing, maintaining, and providing access to an integrated and standardized information management system containing sampling frames, survey data, estimates, and administrative records utilized by NASS.

(2) Providing appropriate support for assisting users of the information management system through documentation, evaluation, training, and resolution of information management problems.

(3) Designing and issuing all reports releasing official State and national estimates and forecasts from NASS.

(h) Chairperson, Agricultural Statistics Board. The Chairperson reviews, prepares, and issues on specific dates, following approval by the Secretary of Agriculture as provided by law (7 U.S.C. 411a) and Departmental Regulation, the official State and national estimates relating to crop production, livestock and livestock products, dairy and dairy products, poultry and poultry products, stocks of agricultural commodities, value of farm products, farm inputs, and other assigned agricultural aspects.

§ 3600.4 Authority to act for the Administrator.

In the absence of the Administrator, the following officials are designated to serve as Acting Administrator in the order indicated:

Associate Administrator
Deputy Administrator for Field Operations
Director, Estimates Division
Director, Survey Management Division
APPENDIX A TO PART 3600—LIST OF STATE STATISTICAL OFFICES

Section 1. General

Information concerning NASS statistics programs and activities related to individual States may be obtained from the State Statistician, State Statistical Office, NASS, in the locations listed below.

PART 3601—AVAILABILITY OF INFORMATION TO THE PUBLIC

Sec. 3601.1 General.
3601.2 Public inspection, copying, and indexing.
3601.3 Requests for records.
3601.4 Denials.
3601.5 Appeals.
3601.6 Requests for published data and information.

AUTHORITY: 5 U.S.C. 301 and 552; 7 CFR 1.1-1.23 and Appendix A.
§ 3601.1 General.

This part is issued in accordance with the regulations of the Secretary of Agriculture in §§ 1.1 through 1.23 of this title and Appendix A thereto, implementing the Freedom of Information Act (5 U.S.C. 552), and governs the availability of records of the National Agricultural Statistics Service (NASS) to the public.

§ 3601.2 Public inspection, copying, and indexing.

5 U.S.C. 552(a)(2) requires that certain materials be made available for public inspection and copying and that a current index of these materials be published quarterly or otherwise be made available. NASS does not maintain any materials within the scope of these requirements.

§ 3601.3 Requests for records.

Requests for records of NASS shall be made in accordance with § 1.6(a) and (b) of this title and addressed to: FOIA Coordinator, Agricultural Research Service, USDA, 6303 Ivy Lane, Room 456, Greenbelt, MD 20770; Telephone (301) 344-2207, Facsimile (301) 344-2325, TDD (301) 344-2435. The FOIA Coordinator is delegated authority to make determinations regarding such requests in accordance with § 1.3(a)(3) of this title.

§ 3601.4 Denials.

If the FOIA Coordinator determines that a requested record is exempt from mandatory disclosure and that discretionary release would be improper, the FOIA Coordinator shall give written notice of denial in accordance with § 1.8(a) of this title.

§ 3601.5 Appeals.

Any person whose request is denied shall have the right to appeal such denial. Appeals shall be made in accordance with § 1.6(e) of this title and addressed to the Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, Washington, DC 20250.

§ 3601.6 Requests for published data and information.

Information on published data and subscription rates is available from the Secretary, Agricultural Statistics Board, National Agricultural Statistics Service, U.S. Department of Agriculture, Washington, DC 20250. In the field, published data and subscription forms are available from the State Statistician at each State Statistical Office. Addresses of State Statistical Offices are listed in appendix A to part 3600 of this title.

PART 3700—ORGANIZATION AND FUNCTIONS

Sec. 3700.1 General.
3700.2 Organization.
3700.3 Functions.
3700.4 Authority to act for the Administrator.

SOURCE: 61 FR 1827, Jan. 24, 1996, unless otherwise noted.

§ 3700.1 General.

The Economic Research Service (ERS), originally established in 1961 under the authority of the Agricultural Marketing Act of 1946 (7 U.S.C. 1621-1627), was reestablished as an agency of the U.S. Department of Agriculture of September 30, 1981 (46 FR 47747), in response to Secretary's Memorandum 1000-1 of June 17, 1981, entitled "Reorganization of Department." The mission of ERS is to provide economic and other social science information and analysis for public and private decisions on agriculture, food, natural resources, and rural America. Its primary customers are USDA policy officials and program administrators, the Office of the White House, Congress, and environmental, consumer, and rural public interest groups, including farm groups and industry.

§ 3700.2 Organization.

ERS maintains its offices at 1301 New York Avenue, NW., Washington, DC 20005-4788. The organization consists of:
(a) The Administrator;
(b) Associate Administrator;
(c) Five Divisions; Commercial Agriculture Division, Food and Consumer Economics Division, Information Services Division, Natural Resources and Environment Division, and Rural Economy Division; and
(d) Office of Energy and New Uses.

§ 3700.3 Functions.

(a) Administrator and Associate Administrator. The Administrator and Associate Administrator are responsible for developing and implementing policies and plans in support of a program of economic and social science research, analysis, and data dissemination. General functions are: Conducting research and staff analysis, and developing short to long-term outlook analysis and economic indicators.

(b) Director, Commercial Agriculture Division. The Director, Commercial Agriculture Division, is responsible for conducting a program of economic research; economic intelligence gathering, analysis, and reporting; and data development and dissemination on economic conditions, U.S. and foreign policies, and agriculture production, trade, and marketing. General functions are:
(1) Developing and monitoring current intelligence and indicators on domestic and international agricultural markets and related farm and trade developments and short to long-term forecasts of domestic and world agricultural markets.
(2) Assessing the technological, economic, and institutional forces influencing U.S. and world agricultural markets.
(3) Conducting special analyses of U.S. and world agricultural markets for policy officials to assist in policy development and the operation of USDA programs.
(4) Collecting necessary information and performing international, national, and regional macroeconomics analysis to estimate the effects of macro economic trends and events in the global economy on the American farm sector.

(c) Director, Food and Consumer Economic Division. The Director, Food and Consumer Economic Division, is responsible for providing economic research, monitoring and statistical indicators, and staff and the policy analysis of consumer and food marketing issues, including: Consumption determinants and trends; consumer demand for food quality, safety, and nutrition; food security; market competition; vertical coordination; nutrition education and food assistance programs; and food safety regulation. General functions are:
(1) Analyzing consumer behavior and food choices, including research regarding the socio-demographic and economic determinants of food and nutrient consumption; consumer valuation...
of quality, safety, and nutrition characteristics; and the role of information in determining food choices.

(2) Examining food assistance and nutrition programs, nutritional adequacy of diets, and food security, including costs and benefits of food assistance and nutrition programs, program and policy alternatives, the extent and social cost of good insecurity, and the role of food assistance in meeting larger goals of welfare programs.

(3) Analyzing the food processing and distribution sector, including the ability of the sector to meet changing consumer demand; the effect of government market interventions to facilitate that response; and the effect of government interventions and rapid changes in the sector on consumer and producer welfare.

(4) Analyzing food safety issues, including consumer benefits from risk reduction, production tradeoffs in reducing hazards, impact of proposed regulations and international harmonization, and policy alternatives.

(5) Developing and monitoring indicators of individual, household, and market level food consumption, expenditures, and nutrients; food marketing costs, marketing margins, and farm-retail price spreads; and food safety hazards, their effects, and mitigation.

(d) Director, Information Services Division. The Director, Information Services Division, is responsible for managing and directing agencywide information technology, communications, and administrative activities in support of the economic research and analysis mission of ERS. General functions are:

1. Developing and managing information technology infrastructure and training.

2. Developing and managing communications, publication, and dissemination programs, policies, and procedures.

3. Providing operations and management services, including liaison with the ARS’s Administrative and Financial Management unit.

(e) Director, Natural Resources and Environment Division. The Director, Natural Resources and Environment Division, is responsible for providing economic research, monitoring and statistical indicators, and staff and policy analysis of agricultural resource and environment issues including the relationship between agriculture—its practices, technologies, policies, and resource use—and the environment, including effects on the sustainability of the natural resource base, preservation of species and genetic diversity, and environmental quality. General functions are:

1. Developing and disseminating data for assessing the use of agricultural resources and technologies by agricultural producers. These data include use and ownership of land, use of agricultural chemicals and equipment, and water use.

2. Evaluating the implications of alternative agricultural and resource conservation policies and programs on commodity prices, consumer welfare, competitiveness, and long-range maintenance of agricultural land and water resources.

3. Analyzing the costs, benefits, and distributional impacts of alternative policies to reduce environmental and health risk externalities associated with agriculture.

4. Monitoring and analyzing the uses and conditions of the nation’s water resources and the economic consequences of agricultural and environmental policies affecting water supply, use, and quality.

5. Analyzing the impacts of national and global developments and domestic and international policies on the use and value of land, water, capital assets, and other agricultural production decisions.

6. Assessing the possible impacts of proposed or anticipated domestic policy and program changes on agricultural production decisions.

7. Assessing the effects of technology on input use and markets and evaluating the factors affecting input productivity and technology adoption.

(f) Director, Rural Economy Division. The Director, Rural Economy Division, is responsible for conducting a program of economic and social science research
§ 3700.3 and analysis on national rural and agricultural conditions and trends, and identifying and assessing the potential impact of public and private sector actions and policies that affect rural areas and the agricultural sector. General functions are:

(1) Analyzing and reporting on current economic and demographic issues facing rural areas and agricultural, especially how changes in the national and global economies affect rural areas and the agriculture sector.

(2) Determining the effects of economic, social, and governmental events and actions on the demand for and supply of rural local government services, the quality of such services, and the relationships between local services and the viability of rural communities.

(3) Developing and disseminating information on current trends in the non-metropolitan and farm populations, the number, location and characteristics of such people, and the factors associated with these trends.

(4) Developing estimates and analyzing labor force trends in rural labor markets, including analyses of unemployment and employment by industry and occupational groups, including farm labor.

(5) Developing data on the income situation of rural people and evaluating the effectiveness of alternative public policies and programs in improving incomes of rural people, especially people in disadvantaged groups.

(6) Monitoring information on and analyzing the development of rural portions of geographic regions of the United States, including changes in industry mix, impacts of energy costs, credit availability, and other economic activities.

(7) Analyzing and reporting on developments in rural and agricultural financial markets and in Federal tax laws, and their consequences for agriculture and rural economies.

(g) Director, Office of Energy and New Uses. The Director, Office of Energy and New Uses, is responsible for assisting the Secretary in developing Departmental energy policy and coordinating Departmental energy programs and strategies. General functions are:

(1) Providing Department leadership in:

(i) Analyzing and evaluating existing and proposed energy policies and strategies, including those regarding the allocation of scarce resources;

(ii) Developing energy policies and strategies, including those regarding the allocation of scarce resources;

(iii) Reviewing and evaluating Departmental energy and energy-related programs and program progress;

(iv) Developing agricultural and rural components of national energy policy plans;

(v) Preparing reports on energy and energy-related policies and programs required under Act of Congress and Executive Orders, including those involving testimony and reports on legislative proposals.

(2) Providing Departmental oversight and coordination with respect to resources available for energy and energy-related activities, including funds transferred to USDA from departments and agencies of the Federal Government pursuant to interagency agreements.

(3) Representing the Under Secretary for Research, Education, and Economics at conferences, meetings, and other contacts where energy matters are discussed, including liaison with the Department of Energy, the Environmental Protection Agency, and other governmental departments and agencies.

(4) Providing the Under Secretary for Research, Education, and Economics with such assistance as requested to perform the duties delegated to him concerning energy and new uses.

(5) Working with the Office of Congressional Relations to maintain Congressional and public contacts in energy matters, including development of legislative proposals, preparation of reports on legislation pending in Congress, appearances before Congressional committees, and related activities.

(6) These delegations exclude the energy management actions related to
the internal operations of the Department as delegated to the Assistant Secretary for Administration.

(7) Conduct a program of research on the economic feasibility of new uses of agricultural products. Assist agricultural researchers by evaluating the economic and market potential of new agricultural products and techniques in the initial phase of development and contributing to prioritization of the Departmental research agenda.

PART 3701—PUBLIC INFORMATION

§ 3701.1 General statement.

This part is issued in accordance with the regulations of the Secretary of Agriculture in part 1, subpart A of this title, implementing the Freedom of Information Act (FOIA) (5 U.S.C. 552). The Secretary's regulations, as implemented by the regulations in this part, govern the availability of records of the Economic Research Service (ERS) to the public.

§ 3701.2 Public inspection, copying, and indexing.

5 U.S.C. 552(a)(2) requires that certain materials be made available for public inspection and copying and that a current index of these materials be published quarterly or otherwise be made available. Members of the public may request access to such materials maintained by ERS at the following office: Information Staff, Agricultural Research Service, USDA, 6303 Ivy Lane, Room 456, Greenbelt, MD 20770; Telephone (301) 344-2207. Office Hours are 8:00 a.m. to 4:30 p.m.

§ 3701.3 Request for records.

Requests for records of ERS shall be made in accordance with §1.6 (a) and (b) of this title and submitted to the FOIA Coordinator, Agricultural Research Service, USDA, 6303 Ivy Lane, Room 456, Greenbelt, MD 20770; Telephone (301) 344-2207, Facsimile (301) 344-2325, TDD (301) 344-2425. The FOIA Coordinator is delegated authority to make determinations regarding such requests in accordance with §1.3(a)(3) of this title.

§ 3701.4 Denials.

If the FOIA Coordinator determines that a requested record is exempt from mandatory disclosure and that discretionary release would be improper, the FOIA Coordinator shall give written notice of denial in accordance with §1.8(a) of this title.

§ 3701.5 Appeals.

Any person whose request is denied shall have the right to appeal such denial. Appeals shall be made in accordance with Section 1.6(e) of this title and should be addressed as follows: Administrator, Economic Research Service, U.S. Department of Agriculture, Washington, DC 20250.

§ 3701.6 Requests for published data and information.

PART 3800—ORGANIZATION AND FUNCTIONS

Sec.
3800.1 General.
3800.2 Organization.
3800.3 Functions.
3800.4 Authority to act for the Chairperson.

AUTHORITY: 5 U.S.C. 301 and 552, and 7 CFR 2.86, except as otherwise stated.

SOURCE: 53 FR 5358, Feb. 24, 1988, unless otherwise noted.

§ 3800.1 General.
The World Agricultural Outlook Board (WAOB) was established on June 3, 1977, by Secretary’s Memorandum 1920, entitled “World Food and Agricultural Outlook and Situation Board.” The primary responsibility of WAOB is to coordinate and review all commodity and aggregate agricultural and food data and analyses used to develop outlook and situation material within the Department of Agriculture.

§ 3800.2 Organization.
The central and only office of WAOB is located in Washington, DC, and consists of the Chairperson, Deputy Chairperson, and supporting staff.

§ 3800.3 Functions.
The WAOB has four major areas of responsibility:
(a) Agricultural outlook and situation.
(1) Coordinate and review all crop and commodity data used to develop outlook and situation material within the Department of Agriculture.
(2) Oversee and clear for consistency of analytical assumptions and results, all estimates and analyses which significantly relate to international and domestic commodity supply and demand. This includes such estimates and analyses prepared for public distribution by the Foreign Agricultural Service, the Economic Research Service, or by any other agency or office of the Department.
(3) Participate in planning and developing research programs relating to improving the Department’s forecasting and estimating capabilities.
(4) Provide liaison between the Department and Commodity Futures Trading Commission to assure that the futures market serves the best interest of agriculture and the public.
(5) Plan and participate in Departmental, interdepartmental, regional and international outlook conferences and briefings, to maintain an awareness of current and upcoming economic issues significant to the food and agricultural system.
(b) Interagency commodity estimates. (1) Establish Interagency Commodity Estimates Committees to bring together estimates and analyses from supporting agencies and to develop official estimates of supply, utilization, and prices for commodities.
(2) Review for consistency of analytical assumptions and results, all proposed decisions made by the Interagency Commodity Estimates Committee prior to any release outside the Department.
(c) Weather and climate. (1) Serve as a focal point within the Department for coordination of weather, climate, and related crop monitoring activities.
(d) Remote sensing. (1) Provide technical assistance, coordination, and guidance to Department agencies in planning, developing, and carrying out satellite remote sensing activities to assure full consideration and evaluation of advanced technology.
(2) Coordinate administrative, management, and budget information relating to Department’s remote sensing activities.

§ 3800.4 Authority to act for the Chairperson.
When the Chairperson is absent or temporarily unavailable, the Deputy Chairperson is authorized to act for the Chairperson.

PART 3801—AVAILABILITY OF INFORMATION TO THE PUBLIC

Sec.
3801.1 General.
3801.2 Public inspection, copying, and indexing.
3801.3 Requests for records.
3801.4 Denials.
3801.5 Appeals.
3801.6 Requests for published data and information.

AUTHORITY: 5 U.S.C. 301 and 552; 7 CFR 1.1-1.23 and Appendix A.
§ 3801.1 General.
This part is issued in accordance with the regulations of the Secretary of Agriculture in §§ 1.1-1.23 of this title and Appendix A thereto, implementing the Freedom of Information Act (FOIA) (5 U.S.C. 552), and governs the availability of records of the World Agricultural Outlook Board (WAOB) to the public.

§ 3801.2 Public inspection, copying, and indexing.
5 U.S.C. 552(a)(2) requires that certain materials be made available for public inspection and copying and that a current index of these materials be published quarterly or otherwise be made available. WAOB does not maintain any materials within the scope of these requirements.

§ 3801.3 Requests for records.
Requests for records of WAOB shall be made in accordance with §1.6(a) and (b) of this title and addressed to: Economics Agencies FOIA Officer, Economics Management Staff, USDA, Room 4310, South Building, 12th and Independence Avenue SW., Washington, DC 20250. This official is delegated authority to make determinations regarding such requests in accordance with §1.3(a)(3) of this title.

§ 3801.4 Denials.
If the Economics Agencies FOIA Officer determines that a requested record is exempt from mandatory disclosure and that discretionary release would be improper, the Economics Agencies FOIA Officer shall give written notice of denial in accordance with §1.8(a) of this title.

§ 3801.5 Appeals.
Any person whose request is denied shall have the right to appeal such denial. Appeals shall be in accordance with §1.6(e) of this title and addressed to the Chairperson, World Agricultural Outlook Board, U.S. Department of Agriculture, Washington, DC 20250.

§ 3801.6 Requests for published data and information.
Information on published data, subscription rates, and all WAOB programs is available from the Chairperson, World Agricultural Outlook Board, U.S. Department of Agriculture, Washington, DC 20250.

Subpart A—General

§ 4279.1 Purpose.
(a) This subpart contains general regulations for making and servicing Business and Industry (B&I) loans guaranteed by the Agency and applies to lenders, holders, borrowers and other parties involved in making, guaranteeing, holding, servicing, or liquidating such loans.
(b) It is the responsibility of the lender to ascertain that all requirements for making, securing, servicing, and collecting the loan are complied with.
(c) Copies of all forms, regulations, and instructions referenced in this subpart are available in any Agency office. Whenever a form is designated in this subpart, that designation includes predecessor and successor forms, if applicable, as specified by the field or National Office.

§ 4279.2 Definitions and abbreviations.
(a) Definitions.
Agency. The Rural Business-Cooperative Service or successor Agency assigned by the Secretary of Agriculture to administer the B&I program. References to the National Office, Finance Office, State Office or other Agency offices or officials should be read as...
prefaced by Agency or "Rural Development" as applicable.

Arm's-length transaction. The sale, release, or disposition of assets in which the title to the property passes to a ready, willing, and able disinterested third party that is not affiliated with or related to and has no security, monetary or stockholder interest in the borrower or transferee at the time of the transaction.

Assignment Guarantee Agreement (Business and Industry). Form 4279-6, the signed agreement among the Agency, the lender, and the holder containing the terms and conditions of an assignment of a guaranteed portion of a loan, using the single note system.

Borrower. All parties liable for the loan except for guarantors.

Conditional Commitment (Business and Industry). Form 4279-3, the Agency's notice to the lender that the loan guarantee it has requested is approved subject to the completion of all conditions and requirements set forth by the Agency.

Deficiency balance. The balance remaining on a loan after all collateral has been liquidated.

Deficiency judgment. A monetary judgment rendered by a court of competent jurisdiction after foreclosure and liquidation of all collateral securing the loan.

Existing lender debt. A debt not guaranteed by the Agency, but owed by a borrower to the same lender that is applying for or has received the Agency guarantee.

Fair market value. The price that could reasonably be expected for an asset in an arm's-length transaction between a willing buyer and a willing seller under ordinary economic and business conditions.

Farmers Home Administration (FmHA). The former agency of USDA that previously administered the programs of this Agency. Many Instructions and forms of FmHA are still applicable to Agency programs.

Finance office. The office which maintains the Agency financial accounting records located in St. Louis, Missouri.

High-impact business. A business that offers specialized products and services that permit high prices for the products produced, may have a strong presence in international market sales, may provide a market for existing local business products and services, and which is locally owned and managed.

Holder. A person or entity, other than the lender, who owns all or part of the guaranteed portion of the loan with no servicing responsibilities. When the single note option is used and the lender assigns a part of the guaranteed note to an assignee, the assignee becomes a holder only when the Agency receives notice and the transaction is completed through use of Form 4279-6 or predecessor form.

Interim financing. A temporary or short-term loan made with the clear intent that it will be repaid through another loan. Interim financing is frequently used to pay construction and other costs associated with a planned project, with permanent financing to be obtained after project completion.

Lender. The organization making, servicing, and collecting the loan which is guaranteed under the provisions of the appropriate subpart.

Lender's Agreement (Business and Industry). Form 4279-4 or predecessor form between the Agency and the lender setting forth the lender's loan responsibilities when the Loan Note Guarantee is issued.

Loan agreement. The agreement between the borrower and lender containing the terms and conditions of the loan and the responsibilities of the borrower and lender.

Loan Note Guarantee (Business and Industry). Form 4279-5 or predecessor form issued and executed by the Agency containing the terms and conditions of the guarantee.

Loan-to-value. The ratio of the dollar amount of a loan to the dollar value of the collateral pledged as security for the loan.

Natural resource value-added product. Any naturally occurring product that is processed to add value to the product. For example, straw is processed into particle board.

Negligent servicing. The failure to perform those services which a reasonably prudent lender would perform in servicing (including liquidation of) its own portfolio of loans that are not guaranteed. The term includes not only the
§§ 4279.3—4279.14

7 CFR Ch. XLII (1-1-98 Edition)

concept of a failure to act, but also not acting in a timely manner, or acting in a manner contrary to the manner in which a reasonably prudent lender would act.

Parity. A lien position whereby two or more lenders share a security interest of equal priority in collateral. In the event of default, each lender will be affected on a pro rata basis.

Participation. Sale of an interest in a loan by the lender wherein the lender retains the note, collateral securing the note, and all responsibility for loan servicing and liquidation.

Poor. A community or area is considered poor if, based on the most recent decennial census data, either the county, city, or census tract where the community or area is located has a median household income at or below the poverty line for a family of four; has a median household income below the nonmetropolitan median household income for the State; or has a population of which 25 percent or more have income at or below the poverty line.

Promissory note. Evidence of debt. “Note” or “Promissory note” shall also be construed to include “Bond” or other evidence of debt where appropriate.

Rural Development. The Under Secretary for Rural Development has policy and operational oversight responsibilities for RHS, RBS, and RUS.

Spreadsheet. A table containing data from a series of financial statements of a business over a period of time. Financial statement analysis normally contains spreadsheets for balance sheet items and income statements and may include funds flow statement data and commonly used ratios. The spreadsheets enable a reviewer to easily scan the data, spot trends, and make comparisons.

State. Any of the 50 States, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

Subordination. An agreement between the lender and borrower whereby lien priorities on certain assets pledged to secure payment of the guaranteed loan will be reduced to a position junior to, or on parity with, the lien position of another loan in order for the Agency borrower to obtain additional financing, not guaranteed by the Agency, from the lender or a third party.

Veteran. For the purposes of assigning priority points, a veteran is a person who is a veteran of any war, as defined in section 101(12) of title 38, United States Code.

(b) Abbreviations.

B&I—Business and Industry
CF—Community Facilities

USDA—United States Department of Agriculture

§§ 4279.3—4279.14 [Reserved]

§ 4279.15 Exception authority.

The Administrator may, in individual cases, grant an exception to any requirement or provision of this subpart which is not inconsistent with any applicable law provided, the Administrator determines that application of the requirement or provision would adversely affect USDA’s interest.

§ 4279.16 Appeals.

Only the borrower, lender, or holder can appeal an Agency decision made under this subpart. In cases where the Agency has denied or reduced the amount of final loss payment to the lender, the adverse decision may be appealed by the lender only. A decision by a lender adverse to the interest of the borrower is not a decision by the Agency, whether or not concurred in by the Agency. Appeals will be handled in accordance with 7 CFR, part 11. Any party adversely affected by an Agency decision under this subpart may request a determination of
appealability from the Director, National Appeals Division, USDA, within 30 days of the adverse decision.

§§ 4279.17–4279.28 [Reserved]

§ 4279.29 Eligible lenders.

(a) Traditional lenders. An eligible lender is any Federal or State chartered bank, Farm Credit Bank, other Farm Credit System institution with direct lending authority, Bank for Cooperatives, Savings and Loan Association, or mortgage company that is part of a bank-holding company. These entities must be subject to credit examination and supervision by either an agency of the United States or a State. Eligible lenders may also include credit unions provided, they are subject to credit examination and supervision by either the National Credit Union Administration or a State agency, and insurance companies provided they are regulated by a State or National insurance regulatory agency. Eligible lenders include the National Rural Utilities Cooperative Finance Corporation.

(b) Other lenders. Rural Utilities Service borrowers and other lenders not meeting the criteria of paragraph (a) of this section may be considered by the Agency for eligibility to become a guaranteed lender provided, the Agency determines that they have the legal authority to operate a lending program and sufficient lending expertise and financial strength to operate a successful lending program.

(1) Such a lender must:

(i) Have a record of successfully making at least three commercial loans annually for at least the most recent 3 years, with delinquent loans not exceeding 10 percent of loans outstanding and historic losses not exceeding 10 percent of dollars loaned, or when the proposed lender can demonstrate that it has personnel with equivalent previous experience and where the commercial loan portfolio was of a similar quantity and quality; and

(ii) Have tangible balance sheet equity of at least seven percent of tangible assets and sufficient funds available to disburse the guaranteed loans it proposes to approve within the first 6 months of being approved as a guaranteed lender.

(2) A lender not eligible under paragraph (a) of this section that wishes consideration to become a guaranteed lender must submit a request in writing to the State Office for the State where the lender's lending and servicing activity takes place. The National Office will notify the prospective lender, through the State Director, whether the lender's request for eligibility is approved or rejected. If rejected, the reasons for the rejection will be indicated to the prospective lender in writing. The lender's written request must include:

(i) Evidence showing that the lender has the necessary capital and resources to successfully meet its responsibilities.

(ii) Copy of any license, charter, or other evidence of authority to engage in the proposed loanmaking and servicing activities. If licensing by the State is not required, an attorney's opinion to this effect must be submitted.

(iii) Information on lending experience, including length of time in the lending business; range and volume of lending and servicing activity; status of loan portfolio including delinquency rate, loss rate as a percentage of loan amounts, and other measures of success; experience of management and loan officers; audited financial statements not more than 1 year old; sources of funds for the proposed loans; office location and proposed lending area; and proposed rates and fees, including loan origination, loan preparation, and servicing fees. Such fees must not be greater than those charged by similarly located commercial lenders in the ordinary course of business.

(iv) An estimate of the number and size of guaranteed loan applications the lender will develop.

(c) Expertise. Loan guarantees will only be approved for lenders with adequate experience and expertise to make, secure, service, and collect B&I loans.

§ 4279.30 Lenders' functions and responsibilities.

(a) General. (1) Lenders have the primary responsibility for the successful delivery of the B&I loan program. All lenders obtaining or requesting a B&I loan guarantee are responsible for:
(i) Processing applications for guaranteed loans,
(ii) Developing and maintaining adequately documented loan files,
(iii) Recommending only loan proposals that are eligible and financially feasible,
(iv) Obtaining valid evidence of debt and collateral in accordance with sound lending practices,
(v) Supervising construction
(vi) Distribution of loan funds,
(vii) Servicing guaranteed loans in a prudent manner, including liquidation if necessary,
(viii) Following Agency regulations,
(ix) Obtaining Agency approvals or concurrence as required.

(2) This subpart, along with subpart B of this part and subpart B of part 4287 of this chapter, contain the regulations for this program, including the lenders' responsibilities.

(b) Credit evaluation. This is a key function of all lenders during the loan processing phase. The lender must analyze all credit factors associated with each proposed loan and apply its professional judgment to determine that the credit factors, considered in combination, ensure loan repayment. The lender must have an adequate underwriting process to ensure that loans are reviewed by other than the originating officer. There must be good credit documentation procedures.

(c) Environmental responsibilities. Lenders have a responsibility to become familiar with Federal environmental requirements; to consider, in consultation with the prospective borrower, the potential environmental impacts of their proposals at the earliest planning stages; and to develop proposals that minimize the potential to adversely impact the environment. Lenders must alert the Agency to any controversial environmental issues related to a proposed project or items that may require extensive environmental review. Lenders must help the borrower prepare Form FmHA 1940-20, "Request for Environmental Information" (when required by subpart G of part 1940 of this title); assist in the collection of additional data when the Agency needs such data to complete its environmental review of the proposal; and assist in the resolution of environmental problems.

(d) Loan closing. The lender will conduct loan closings.

§§ 4279.31—4279.42 [Reserved]

§ 4279.43 Certified Lender Program.

(a) General. This section provides policies and procedures for the Certified Lender Program (CLP) for loans guaranteed under this part. The objectives are to expedite loan approval, making, and servicing.

(b) CLP eligibility criteria. The lender must meet established eligibility criteria as follows:

(1) Be an "eligible lender" as defined in 4279.29 of this subpart and authorized to do business in the State in which CLP status is desired.

(2) Demonstrate to the Agency's satisfaction that it has a thorough knowledge of commercial lending. The lender will demonstrate such knowledge by providing a summary of its guaranteed and unguaranteed business lending activity. At a minimum, the summary must include the dollar amount and number of loans in the lender's portfolio, unguaranteed and guaranteed by any Federal agency, with information on delinquencies and losses and, if applicable, the performance of the lender as a Small Business Administration (SBA) certified or preferred lender. A certified lender must be recognized throughout the State as a commercial lender and have a track record of successfully making at least five commercial loans per year for at least the most recent 5 years, with delinquent commercial loans outstanding not exceeding 6 percent of commercial loans outstanding and historic losses not exceeding 6 percent of dollars loaned, or it must demonstrate that it has personnel with equivalent previous experience where the commercial loan portfolio was of a similar quantity and quality. The lender will provide a written certification to this effect along with a statistical analysis of its commercial loan portfolio for the last 3 of its fiscal years.

(3) The percentage of guarantee will not exceed 80 percent.

(4) If the lender is a bank or savings and loan, it must have a financial
strength rating in the upper half of possible ratings as reported by a lender rating service selected by the Agency.

(5) Possess loan officers and other appropriate personnel who have received training conducted by the Agency. Additional training may be required if the lender’s contact person changes or if the Agency determines further instruction is needed.

(6) Have committed no action within the most recent 2 years prior to requesting CLP status which would be considered cause for revoking CLP status under paragraph (e) of this section.

(c) CLP approval. The Agency may grant CLP status for a period not to exceed 5 years by executing Form 4279-8, “Certified Lender, Business and Industry Program,” with the lender. CLP status will not apply to branches or suboffices of the lender unless so specified in the agreement. Such branches or suboffices may submit loans as regular lenders or apply for their own CLP status. Any lender who desires CLP status must prepare a written request to the State Director where it desires CLP status. The request must address each of the required criteria outlined in paragraph (b) of this section, except paragraph (b)(3), and should be accompanied by any other information the lender believes will be helpful. The request will also include Form 4279-8 completed and executed by the lender and an executed Lender’s Agreement if it does not already have a valid Lender’s Agreement on file with the Agency. Loans made by the lender and guaranteed by the Agency prior to the lender receiving CLP status shall continue to be governed by the forms and agreements executed between the lender and the Agency for those loans.

(d) Renewal of CLP status. Renewal of CLP status is not automatic. CLP status will lapse upon the expiration date of Form 4279-8 unless the lender obtains a renewal. A lender whose CLP status has lapsed may continue to submit loan guarantee requests as a regular lender. A new Form 4279-8 completed and executed by the lender must be provided, along with a written update of the eligibility criteria required by this section for CLP approval. This information must be supplied at least 60 days prior to the expiration of the existing agreement to be assured of uninterrupted status. The information must address how the lender is complying with each of the required criteria described in paragraph (b) of this section. It must include any proposed changes in the designated persons for processing guaranteed loans or operating methods used in processing and servicing Agency guaranteed loans.

(e) Revocation of CLP status. The lender’s CLP status may be revoked at any time for cause. The debarment of a lender is an additional alternative the Agency may consider. A lender which has lost its CLP status, but has not been debarred and still meets the requirements of §4279.29 of this subpart may continue to submit loan guarantee requests as a regular lender. Cause for revoking CLP status includes:

(1) Failure to maintain status as an eligible lender as set forth in §4279.29 of this subpart;

(2) Knowingly submitting false information when requesting a guarantee or basing a guarantee request on information known to be false or which the lender should have known to be false;

(3) Making a guaranteed loan with deficiencies which may cause losses not to be covered by the Loan Note Guarantee;

(4) Conviction for acts in connection with any loan transaction whether or not the loan was guaranteed by the Agency;

(5) Violation of usury laws in connection with any loan guaranteed by the Agency;

(6) Failure to obtain the required security for any loan guaranteed by the Agency;

(7) Using loan funds guaranteed by the Agency for purposes other than those specifically approved by the Agency in the Conditional Commitment;

(8) Violation of any term of the Lender’s Agreement;

(9) Failure to correct any cited deficiency in loan documents in a timely manner;

(10) Failure to submit reports required by the Agency in a timely manner;

(11) Failure to process Agency guaranteed loans in a reasonably prudent manner;
§ 4279.43

(12) Failure to provide for adequate construction planning and monitoring in connection with any loan to ensure that the project will be completed with the available funds and, once completed, will be suitable for the borrower’s needs;

(13) Repetitive recommendations for guaranteed loans with marginal or substandard credit quality or that do not comply with Agency requirements;

(14) Repetitive recommendations for servicing actions that do not comply with Agency requirements;

(15) Negligent servicing; or

(16) Failure to conduct any approved liquidation of a loan guaranteed by the Agency or its predecessors in a timely and effective manner and in accordance with the approved liquidation plan.

(f) General loan processing and servicing guidelines. All requests for guaranteed loans will be processed and serviced under subparts A and B of this part and subpart B of part 4287 of this chapter except as modified by this section. When determining whether or not to request a guarantee for a proposed loan, lenders must consider the priorities set forth in §279.155 of subpart B of this part.

(1) Prior to processing an application, the CLP lender may give written notice to the State Director of its intention to submit an application. Upon receipt of such written notice, the Agency will notify the CLP lender whether or not there is sufficient guarantee authority for the loan. Such guarantee authority will be held for 30 days pending receipt of the application. If a complete application for which guarantee authority is being held is not received within 30 days of the notice of intent to file or is rejected, the guarantee authority for this application will no longer be held in reserve. Notwithstanding the preceding, no guarantee authority will be held in reserve the last 60 days of the Agency’s fiscal year.

(2) Refinancing of existing lender debt in accordance with §4279.113(g) of subpart B of this part will not be permitted without prior Agency approval.

(3) CLP lenders will process all guaranteed loans as a “complete application” by obtaining and completing all items required by §4279.161(b) of subpart B of this part. The CLP lender must maintain all information required by §4279.161(b) in its loan file and determine that such material complies with all requirements.

(4) CLP lenders will make all material relating to any guarantee application available to the Agency upon request.

(5) At the time of the Agency’s issuance of the Loan Note Guarantee, the CLP lender will provide the Agency with copies of the following documents:

(i) Executed Loan Agreement;

(ii) Executed Promissory Notes; and

(iii) Executed security documents including personal and corporate guarantees.

(g) Unique characteristics of the CLP. A proposed loan by a CLP lender requires a review by the Agency of the information submitted by the lender, plus satisfactory completion of the environmental review process by the Agency. The Agency may rely on the lender’s credit analysis.

(1) The following will constitute a complete application submitted by a CLP lender:

(i) Form 4279-1, “Application for Loan Guarantee (Business and Industry),” (marked with the letters “CLP” at the top) completed in its entirety and executed by the borrower and CLP lender;

(ii) Copy of the proposed Loan Agreement or a list of proposed requirements;

(iii) Form FmHA 1940-20, completed and signed, with attachments;

(iv) The lender’s complete written analysis of the proposal, including spreadsheets of the balance sheets and income statements for the 3 previous years (for existing businesses), pro forma balance sheet at startup, and 2 years projected yearend balance sheets and income statements, with appropriate ratios and comparisons with industry standards (such as Dun & Bradstreet or Robert Morris Associates). All data must be shown in total dollars and also in common size form, obtained by expressing all balance sheet items as a percentage of assets and all income and expense items as a percentage of sales. The lender’s credit analysis must include the borrower’s management, repayment ability including
(v) Intergovernmental consultation comments in accordance with 7 CFR part 3015, subpart V; and

(vi) If the loan will exceed $1 million and will increase direct employment by more than 50 employees, Form 4279-2, “Certification of Non-Relocation and Market Capacity Information Report,” must be completed by the lender. For such loans, the Agency will submit Form 4279-2 to the Department of Labor and obtain clearance before a Conditional Commitment may be issued.

(2) The Agency will make the final credit decision based primarily on a review of the credit analysis submitted by the lender and approval of the Agency’s completed environmental analysis, if required, except that refinancing of existing lender debt in accordance with §4279.113(q) of subpart B of this part will not be approved without a credit analysis by the Agency of the borrower’s complete financial statements; and completion by the Agency of the environmental analysis. The Agency may request such additional information as it determines is needed to make a decision.

(h) Lender loan servicing responsibilities. CLP lenders will be fully responsible for all aspects of loan servicing and, if necessary, liquidation as described in subpart B of part 4287 of this chapter.

§ 4279.44 Access to records.

The lender will permit representatives of the Agency (or other agencies of the United States) to inspect and make copies of any records of the lender pertaining to the Agency guaranteed loans during regular office hours of the lender or at any other time upon agreement between the lender and the Agency.

§§ 4279.45—4279.57 [Reserved]

§ 4279.58 Equal Credit Opportunity Act.

In accordance with title V of Public Law 93-456, the Equal Credit Opportunity Act, with respect to any aspect of a credit transaction, neither the lender nor the Agency will discriminate against any applicant on the basis of race, color, religion, national origin, sex, marital status or age (providing the applicant has the capacity to contract), or because all or part of the applicant’s income derives from a public assistance program, or because the applicant has, in good faith, exercised any right under the Consumer Protection Act. The lender will comply with the requirements of the Equal Credit Opportunity Act as contained in the Federal Reserve Board’s Regulation implementing that Act (see 12 CFR part 202). Such compliance will be accomplished prior to loan closing.

§ 4279.59 [Reserved]

§ 4279.60 Civil Rights Impact Analysis

The Agency is responsible for ensuring that all requirements of FmHA Instruction 2006-P, "Civil Rights Impact Analysis" are met and will complete the appropriate level of review in accordance with that instruction.

§§ 4279.61—4279.70 [Reserved]

§ 4279.71 Public bodies and nonprofit corporations.

Any public body or nonprofit corporation that receives a guaranteed loan that meets the thresholds established by OMB Circulars A-128 or A-133 or successor regulations or circulars must provide an audit in accordance with the applicable circular or regulation for the fiscal year (of the borrower) in which the Loan Note Guarantee is issued. If the loan is for development or purchases made in a previous fiscal year through interim financing, an audit will also be provided for the fiscal year in which the development or purchases occurred. Any audit provided by a public body or nonprofit corporation in compliance with OMB Circulars A-128 or A-133 or their successors will be considered adequate to meet the audit requirements of the B&I program for that year.

§ 4279.72 Conditions of guarantee.

A loan guarantee under this part will be evidenced by a Loan Note Guarantee
issued by the Agency. Each lender will execute a Lender’s Agreement. If a valid Lender’s Agreement already exists, it is not necessary to execute a new Lender’s Agreement with each loan guarantee. The provisions of this part and part 4287 of this chapter will apply to all outstanding guarantees. In the event of a conflict between the guarantee documents and these regulations as they exist at the time the documents are executed, the regulations will control.

(a) Full faith and credit. A guarantee under this part constitutes an obligation supported by the full faith and credit of the United States and is incontestable except for fraud or misrepresentation of which a lender or holder has actual knowledge at the time it becomes such lender or holder or which a lender or holder participates in or condones. The guarantee will be unenforceable to the extent that any loss is occasioned by a provision for interest on interest. In addition, the guarantee will be unenforceable by the lender to the extent any loss is occasioned by the violation of usury laws, negligent servicing, or failure to obtain the required security regardless of the time at which the Agency acquires knowledge thereof. Any losses occasioned will be unenforceable to the extent that loan funds are used for purposes other than those specifically approved by the Agency in its Conditional Commitment. The Agency will guarantee payment as follows:

1. To any holder, 100 percent of any loss sustained by the holder on the guaranteed portion of the loan and on interest due on such portion.

2. To the lender, the lesser of:
   i. Any loss sustained by the lender on the guaranteed portion, including principal and interest evidenced by the notes or assumption agreements and secured advances for protection and preservation of collateral made with the Agency’s authorization; or
   ii. The guaranteed principal advanced to or assumed by the borrower and any interest due thereon.

(b) Rights and liabilities. When a guaranteed portion of a loan is sold to a holder, the holder shall succeed to all rights of the lender under the Loan Note Guarantee to the extent of the portion purchased. The lender will remain bound to all obligations under the Loan Note Guarantee, Lender’s Agreement, and the Agency program regulations. A guarantee and right to require purchase will be directly enforceable by a holder notwithstanding any fraud or misrepresentation by the lender or any unenforceability of the guarantee by the lender, except for fraud or misrepresentation of which the holder had actual knowledge at the time it became the holder or in which the holder participates or condones. In the event of material fraud, negligence or misrepresentation by the lender or the lender’s participation in or condoning of such material fraud, negligence or misrepresentation, the lender will be liable for payments made by the Agency to any holder.

(c) Payments. A lender will receive all payments of principal and interest on account of the entire loan and will promptly remit to the holder its pro rata share thereof, determined according to its respective interest in the loan, less only the lender’s servicing fee.

§§ 4279.73—4279.74 [Reserved]

§ 4279.75 Sale or assignment of guaranteed loan.

The lender may sell all or part of the guaranteed portion of the loan on the secondary market or retain the entire loan. The lender shall not sell or participate any amount of the guaranteed or unguaranteed portion of the loan to the borrower or members of the borrower’s immediate families, officers, directors, stockholders, other owners, or a parent, subsidiary or affiliate. If the lender desires to market all or part of the guaranteed portion of the loan at or subsequent to loan closing, such loan must not be in default. Loans made with the proceeds of any obligation the interest on which is excludable from income under 26 U.S.C. 103 (interest on State and local banks) or any successor section will not be guaranteed.

(a) Single note system. The entire loan is evidenced by one note, and one Loan Note Guarantee is issued. The lender may assign all or part of the guaranteed portion of the loan to one or more
holders by using the Agency's Assignment Guarantee Agreement. The holder, upon written notice to the lender and the Agency, may reassign the unpaid guaranteed portion of the loan sold under the Assignment Guarantee Agreement. Upon notification and completion of the assignment through the use of Form 4279-6, the assignee shall succeed to all rights and obligations of the holder thereunder. If this option is selected, the lender may not at a later date cause any additional notes to be issued.

(b) Multinote system. Under this option the lender may provide one note for the unguaranteed portion of the loan and no more than 10 notes for the guaranteed portion. When this option is selected by the lender, the holder will receive one of the borrower's executed notes and a Loan Note Guarantee. The Agency will issue a Loan Note Guarantee for each note, including the unguaranteed note, to be attached to the note. An Assignment Guarantee Agreement will not be used when the multinote option is utilized.

(c) After loan closing. If a loan is closed using the multinote option and at a later date additional notes are desired, the lender may cause a series of new notes, so that the total number of notes issued does not exceed the total number provided for in paragraph (b) of this section, to be issued as replacement for previously issued guaranteed notes, provided:

1. Written approval of the Agency is obtained;
2. The borrower agrees and executes the new notes;
3. The interest rate does not exceed the interest rate in effect when the loan was closed;
4. The maturity date of the loan is not changed;
5. The Agency will not bear or guarantee any expenses that may be incurred in reference to such reissuances of notes;
6. There is adequate collateral securing the notes;
7. No intervening liens have arisen or have been perfected and the secured lien priority is better or remains the same; and
8. All holders agree.

(d) Termination of lender servicing fee. The lender's servicing fee will stop when the Agency purchases the guaranteed portion of the loan from the secondary market. No such servicing fee may be charged to the Agency and all loan payments and collateral proceeds received will be applied first to the guaranteed loan and, when applied to the guaranteed loan, will be applied on a pro rata basis.

§ 4279.76 Participation.

The lender may obtain participation in the loan under its normal operating procedures; however, the lender must retain title to the notes if any of them are unguaranteed and retain the lender's interest in the collateral.

§ 4279.77 Minimum retention.

The lender is required to hold in its own portfolio a minimum of 5 percent of the total loan amount. The amount required to be maintained must be of the unguaranteed portion of the loan and cannot be participated to another. The lender may sell the remaining amount of the unguaranteed portion of the loan only through participation.

§ 4279.78 Repurchase from holder.

(a) Repurchase by lender. A lender has the option to repurchase the unpaid guaranteed portion of the loan from a holder within 30 days of written demand by the holder when the borrower is in default not less than 60 days on principal or interest due on the loan; or the lender has failed to remit to the holder its pro rata share of any payment made by the borrower within 30 days of the lender's receipt thereof. The repurchase by the lender will be for an amount equal to the unpaid guaranteed portion of principal and accrued interest less the lender's servicing fee. The holder must concurrently send a copy of the demand letter to the Agency. The guarantee will not cover the note interest to the holder on the guaranteed loan accruing after 90 days from the date of the demand letter to the lender requesting the repurchase. The lender will accept an assignment without recourse from the holder upon repurchase. The lender is encouraged to repurchase the loan to facilitate the
accounting of funds, resolve the problem, and prevent default, where and when reasonable. The lender will notify the holder and the Agency of its decision.

(b) Agency purchase. (1) If the lender does not repurchase the unpaid guaranteed portion of the loan as provided in paragraph (a) of this section, the Agency will purchase from the holder the unpaid principal balance of the guaranteed portion together with accrued interest to date of repurchase, less the lender's servicing fee, within 30 days after written demand to the Agency from the holder. (This is in addition to the copy of the written demand on the lender.) The guarantee will not cover the note interest to the holder on the guaranteed loan accruing after 90 days from the date of the original demand letter of the holder to the lender requesting the repurchase.

(2) The holder's demand to the Agency must include a copy of the written demand made upon the lender. The holder must also include evidence of its right to require payment from the Agency. Such evidence will consist of either the original of the Loan Note Guarantee properly endorsed to the Agency or the original of the Assignment Guarantee Agreement properly assigned to the Agency without recourse including all rights, title, and interest in the loan. The holder must include in its demand the amount due including unpaid principal, unpaid interest to date of demand, and interest subsequently accruing from date of demand to proposed payment date. The Agency will be subrogated to all rights of the holder.

(3) The Agency will notify the lender of its receipt of the holder's demand for payment. The lender must promptly provide the Agency with the information necessary for the Agency to determine the appropriate amount due the holder. Upon request by the Agency, the lender will furnish a current statement certified by an appropriate authorized officer of the lender of the unpaid principal and interest then owed by the borrower on the loan and the amount then owed to any holder. Any discrepancy between the amount claimed by the holder and the information submitted by the lender must be resolved between the lender and the holder before payment will be approved. Such conflict will suspend the running of the 30 day payment requirement.

(4) Purchase by the Agency neither changes, alters, nor modifies any of the lender's obligations to the Agency arising from the loan or guarantee nor does it waive any of Agency's rights against the lender. The Agency will have the right to set-off against the lender all rights inuring to the Agency as the holder of the instrument against the Agency's obligation to the lender under the guarantee.

(c) Repurchase for servicing. If, in the opinion of the lender, repurchase of the guaranteed portion of the loan is necessary to adequately service the loan, the holder must sell the guaranteed portion of the loan to the lender for an amount equal to the unpaid principal and interest on such portion less the lender's servicing fee. The guarantee will not cover the note interest to the holder on the guaranteed loan accruing after 90 days from the date of the demand letter of the lender or the Agency to the holder requesting the holder to tender its guaranteed portion. The lender must not repurchase from the holder for arbitrage or other purposes to further its own financial gain. Any repurchase must only be made after the lender obtains the Agency's written approval. If the lender does not repurchase the portion from the holder, the Agency may, at its option, purchase such guaranteed portion for servicing purposes.

§§ 4279.79–4279.83 [Reserved]

§ 4279.84 Replacement of document.

(a) The Agency may issue a replacement Loan Note Guarantee or Assignment Guarantee Agreement which was lost, stolen, destroyed, mutilated, or defaced to the lender or holder upon receipt of an acceptable certificate of loss and an indemnity bond.

(b) When a Loan Note Guarantee or Assignment Guarantee Agreement is lost, stolen, destroyed, mutilated, or defaced while in the custody of the lender or holder, the lender will coordinate the activities of the party who seeks the replacement documents and
§ 4279.100 OMB control number.

The information collection requirements contained in this regulation have been approved by OMB and have been assigned OMB control number 0575-0171. Public reporting burden for this collection of information is estimated to vary from 1 hour to 8 hours per response, with an average of 4 hours per response, including time for reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Department of Agriculture, Clearance Officer, OIRM, Stop 7630, Washington, D.C. 20250. You are not required to respond to this collection of information unless it displays a currently valid OMB control number.
§ 4279.101 Introduction.

(a) Content. This subpart contains loan processing regulations for the Business and Industry (B&I) Guaranteed Loan Program. It is supplemented by subpart A of this part, which contains general guaranteed loan regulations, and subpart B of part 4287 of this chapter, which contains loan servicing regulations.

(b) Purpose. The purpose of the B&I Guaranteed Loan Program is to improve, develop, or finance business, industry, and employment and improve the economic and environmental climate in rural communities. This purpose is achieved by bolstering the existing private credit structure through the guarantee of quality loans which will provide lasting community benefits. It is not intended that the guarantee authority will be used for marginal or substandard loans or for relief of lenders having such loans.

(c) Documents. Copies of all forms, regulations, and instructions referenced in this subpart are available in any Agency office.

§ 4279.102 Definitions.

The definitions and abbreviations in §4279.2 of subpart A of this part are applicable to this subpart.

§§ 4279.103—4279.106 [Reserved]

§ 4279.107 Guarantee fee.

The guarantee fee will be paid to the Agency by the lender and is nonrefundable. The fee may be passed on to the borrower. Except as provided in this section, the guarantee fee will be 2 percent multiplied by the principal loan amount multiplied by the percent of guarantee and will be paid one time only at the time the Loan Note Guarantee is issued.

(a) The guarantee fee may be reduced to 1 percent if the Agency determines that the business meets the following criteria:

1. High impact business development investment (it is the goal of this program to encourage high impact business investment in rural areas. The weight given to business investments will be in accordance with §4279.155(b)(5) of this subpart); and

2. The business is located in a community that is experiencing long term population decline and job deterioration; or

3. The business is located in a rural community that has remained persistently poor over the last 60 years; or

4. The business is located in a rural community that is experiencing trauma as a result of natural disaster or that is experiencing fundamental structural changes in its economic base.

(b) Each fiscal year, the Agency shall establish a limit on the maximum portion of guarantee authority available for that fiscal year that may be used to guarantee loans with a guarantee fee of 1 percent. The limit will be announced by publishing a notice in the Federal Register. Once the limit has been reached, the guarantee fee for all additional loans obligated during the remainder of that fiscal year will be 2 percent.

§ 4279.108 Eligible borrowers.

(a) Type of entity. A borrower may be a cooperative, corporation, partnership, or other legal entity organized and operated on a profit or nonprofit basis; an Indian tribe on a Federal or State reservation or other Federally recognized tribal group; a public body; or an individual. A borrower must be engaged in or proposing to engage in a business. Business may include manufacturing, wholesaling, retailing, providing services, or other activities that will:

1. Provide employment;

2. Improve the economic or environmental climate;

3. Promote the conservation, development, and use of water for aquaculture; or

4. Reduce reliance on nonrenewable energy resources by encouraging the
development and construction of solar energy systems.

(b) Citizenship. Individual borrowers must be citizens of the United States (U.S.) or reside in the U.S. after being legally admitted for permanent residence. Citizens and residents of the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands shall be considered U.S. citizens. Corporations or other nonpublic body organization-type borrowers must be at least 51 percent owned by persons who are either citizens of the U.S. or reside in the U.S. after being legally admitted for permanent residence.

(c) Rural area. The business financed with a B&I Guaranteed Loan must be located in a rural area. Loans to borrowers with facilities located in both urban and rural areas will be limited to the amount necessary to finance the facility located in the eligible rural area.

(1) Rural areas include all territory of a State that is:
   (i) Not within the outer boundary of any city having a population of 50,000 or more; and
   (ii) Not within an area that is urbanized or urbanizing as defined in this section.

(2) All density determinations will be made on the basis of minor civil divisions or census county divisions as used by the Bureau of the Census in the latest decennial census of the U.S. In making the density calculations, large nonresidential tracts devoted to urban land uses such as railroad yards, airports, industrial sites, parks, golf courses, cemeteries, office parks, shopping malls, or land set aside for such purposes will be excluded.

(3) An urbanized area is an area immediately adjacent to a city with a population of 50,000 or more, that for general social and economic purposes forms a single community with such a city. An urbanizing area is an area immediately adjacent to a city with a population of 50,000 or more with a population density of more than 100 persons per square mile or is an area with a population density of less than 100 persons per square mile which appears likely, based on development and population trends, to become urbanized in the foreseeable future. The corporate status of an urbanized or urbanizing area is not material. An area located in recognizable open country or separated from any city of 50,000 or more population by recognizable open country or by a river, will be assumed to be not urbanized or urbanizing.

(d) Other credit. All applications for assistance will be accepted and processed without regard to the availability of credit from any other source.

§§ 4279.109—4279.112 [Reserved]

§ 4279.113 Eligible loan purposes.

Loan purposes must be consistent with the general purpose contained in §4279.101 of this subpart. They include but are not limited to the following:

(a) Business and industrial acquisitions when the loan will keep the business from closing, prevent the loss of employment opportunities, or provide expanded job opportunities.

(b) Business conversion, enlargement, repair, modernization, or development.

(c) Purchase and development of land, easements, rights-of-way, buildings, or facilities.

(d) Purchase of equipment, leasehold improvements, machinery, supplies, or inventory.

(e) Pollution control and abatement.

(f) Transportation services incidental to industrial development.

(g) Startup costs and working capital.

(h) Agricultural production, when not eligible for Farm Service Agency (FSA) farmer program assistance and when it is part of an integrated business also involved in the processing of agricultural products.

(1) Examples of potentially eligible production include but are not limited to: An apple orchard in conjunction with a food processing plant; poultry buildings linked to a meat processing operation; or sugar beet production coupled with storage and processing. Any agricultural production considered for B&I financing must be owned, operated, and maintained by the business receiving the loan for which a guarantor is provided. Independent agricultural production operations, even if not
eligible for FSA farmer programs assistance, are not eligible for the B&I program.

(2) The agricultural-production portion of any loan will not exceed 50 percent of the total loan or $1 million, whichever is less.

(i) Purchase of membership, stocks, bonds, or debentures necessary to obtain a loan from Farm Credit System institutions and other lenders provided that the purchase is required for all of their borrowers. Purchase of startup cooperative stock for family-sized farms where commodities are produced to be processed by the cooperative.

(j) Aquaculture, including conservation, development, and utilization of water for aquaculture.

(k) Commercial nurseries engaged in the production of ornamental plants and trees and other nursery products such as bulbs, flowers, shrubbery, fertilizer and vegetable seeds, sod, and the growing of plants from seed to the transplant stage.

(m) Forestry, which includes businesses primarily engaged in the operation of timber tracts, tree farms, and forest nurseries and related activities such as reforestation.

(n) The growing of mushrooms or hydroponics.

(o) Interest (including interest on interim financing) during the period before the first principal payment becomes due or when the facility becomes income producing, whichever is earlier.

(p) Feasibility studies.

(q) To refinance outstanding debt when it is determined that the project is viable and refinancing is necessary to improve cash flow and create new or save existing jobs. Existing lender debt may be included provided that, at the time of application, the loan has been current for at least the past 12 months (unless such status is achieved by the lender forgiving the borrower’s debt), the lender is providing better rates or terms, and the refinancing is a secondary part (less than 50 percent) of the overall loan.

(r) Takeout of interim financing. Guaranteeing a loan after project completion to pay off a lender’s interim loan will not be treated as debt refinancing provided that the lender submits a complete preapplication or application which proposes such interim financing prior to completing the interim loan. A lender that is considering an interim loan should be advised that the Agency assumes no responsibility or obligation for interim loans advanced prior to the Conditional Commitment being issued.

(s) Fees and charges for professional services and routine lender fees.

(t) Agency guarantee fee.

(u) Tourist and recreation facilities, including hotels, motels, and bed and breakfast establishments, except as prohibited under ineligible purposes.

(v) Educational or training facilities.

(w) Community facility projects which are not listed as an ineligible loan purpose such as convention centers.

(x) Constructing or equipping facilities for lease to private businesses engaged in commercial or industrial operations.

(y) The financing of housing development sites provided that the community demonstrates a need for additional housing to prevent a loss of jobs in the area or to house families moving to the area as a result of new employment opportunities.

(z) Community antenna television services or facilities.

(aa) Provide loan guarantees to assist industries adjusting to terminated Federal agricultural programs or increased foreign competition.

§ 4279.114 Ineligible purposes.

(a) Distribution or payment to an individual owner, partner, stockholder, or beneficiary of the borrower or a close relative of such an individual when such individual will retain any portion of the ownership of the borrower.

(b) Projects in excess of $1 million that would likely result in the transfer of jobs from one area to another and increase direct employment by more than 50 employees.

(c) Projects in excess of $1 million that would increase direct employment by more than 50 employees, if the project would result in an increase in the production of goods for which there is not sufficient demand, or if the
availability of services or facilities is insufficient to meet the needs of the business.

(d) Charitable institutions, churches, or church-controlled or fraternal organizations.

(e) Lending and investment institutions and insurance companies.

(f) Assistance to Government employees and military personnel who are directors or officers or have a major ownership of 20 percent or more in the business.

(g) Racetracks for the conduct of races by professional drivers, jockeys, etc., where individual prizes are awarded in the amount of $500 or more.

(h) Any business that derives more than 10 percent of annual gross revenue from gambling activity.

(i) Any illegal business activity.

(j) Prostitution.

(k) Any line of credit.

(l) The guarantee of lease payments.

(m) The guarantee of loans made by other Federal agencies.

(n) Owner-occupied housing. Bed and breakfasts, storage facilities, etc., are allowed when the pro rata value of the owner’s living quarters is deleted.

(o) Projects that are eligible for the Rural Rental Housing and Rural Cooperative Housing loans under sections 515, 521, and 538 of the Housing Act of 1949, as amended.

(p) Loans made with the proceeds of any obligation on which is excludable from income under 26 U.S.C. 103 or a successor statute. Funds generated through the issuance of tax-exempt obligations may neither be used to purchase the guaranteed portion of any Agency guaranteed loan nor may an Agency guaranteed loan serve as collateral for a tax-exempt issue. The Agency may guarantee a loan for a project that is separate and distinct from the part which is financed by the tax-exempt obligation, and the guaranteed loan has at least a parity security position with the tax-exempt obligation.

(q) The guarantee of loans where there may be, directly or indirectly, a conflict of interest or an appearance of a conflict of interest involving any action by the Agency.

(r) Golf courses.

§ 4279.115 Prohibition under Agency programs.

No B&I loans guaranteed by the Agency will be conditioned on any requirement that the recipients of such assistance accept or receive electric service from any particular utility, supplier, or cooperative.

§§ 4279.116—4279.118 [Reserved]

§ 4279.119 Loan guarantee limits.

(a) Loan amount. The total amount of Agency loans to one borrower, including the guaranteed and unguaranteed portions, the outstanding principal and interest balance of any existing Agency guaranteed loans, and new loan request, must not exceed $10 million. The Administrator may, at the Administrator’s discretion, grant an exception to the $10 million limit under the following circumstances:

(1) The project to be financed is a high-priority project. Priority will be determined in accordance with the criteria contained in §4279.155 of this subpart;

(2) The lender must document to the satisfaction of the Agency that the loan will not be made and the project will not be completed if the guarantee is not approved; and

(3) Under no circumstances will the total amount of guaranteed loans to one borrower, including the guaranteed and unguaranteed portions, the outstanding principal and interest balance of any existing Agency guaranteed loans, and new loan request, exceed $25 million;

(4) The percentage of guarantee will not exceed 60 percent. No exception to this requirement will be approved under paragraph (b) of this section for loans exceeding $10 million; and

(5) Any request for a guaranteed loan exceeding the $10 million limit must be submitted to the Agency in the form of a preapplication. The preapplication must be submitted to the National Office for review and concurrence before encouraging a full application.

(b) Percent of guarantee. The percentage of guarantee, up to the maximum
allowed by this section, is a matter of negotiation between the lender and the Agency. The maximum percentage of guarantee is 80 percent for loans of $5 million or less, 70 percent for loans between $5 and $10 million, and 60 percent for loans exceeding $10 million. Notwithstanding the preceding, the Administrator may, at the Administrator’s discretion, grant an exception allowing guarantees of up to 90 percent on loans of $10 million or less under the following circumstances:

1. The project to be financed is a high-priority project. Priority will be determined in accordance with the criteria contained in 4279.155 of this subpart;
2. The lender must document to the satisfaction of the Agency that the loan will not be made and the project will not be completed if the higher guarantee percentage is not approved; and
3. The State Director may grant an exception for loans of up to 90 percent on loans of $2 million or less subject to the State Director’s delegated loan authority and meeting all of the conditions as set forth in this section. In cases where the State Director does not have the loan approval authority to approve a loan of $2 million or less or the proposed percentage, the case must be submitted to the National Office for review.

Each fiscal year, the Agency will establish a limit on the maximum portion of guarantee authority available for that fiscal year that may be used to guarantee loans with a guarantee percentage exceeding 80 percent. The limit will be announced by publishing a notice in the Federal Register. Once the limit has been reached, the guarantee percentage for all additional loans guaranteed during the remainder of that fiscal year will not exceed 80 percent.

§ 4279.120 Fees and charges.

(a) Routine lender fees. The lender may establish charges and fees for the loan provided they are similar to those normally charged other applicants for the same type of loan in the ordinary course of business.

(b) Professional services. Professional services are those rendered by entities generally licensed or certified by States or accreditation associations, such as architects, engineers, packagers, accountants, attorneys, or appraisers. The borrower may pay fees for professional services needed for planning and developing a project provided that the amounts are reasonable and customary in the area. Professional fees may be included as an eligible use of loan proceeds.

§§ 4279.121–4279.124 [Reserved]

§ 4279.125 Interest rates.

The interest rate for the guaranteed loan will be negotiated between the lender and the applicant and may be either fixed or variable as long as it is a legal rate. Interest rates will not be more than those rates customarily charged borrowers in similar circumstances in the ordinary course of business and are subject to Agency review and approval. Lenders are encouraged to utilize the secondary market and pass interest-rate savings on to the borrower.

(a) A variable interest rate agreed to by the lender and borrower must be a rate that is tied to a base rate agreed to by the lender and the Agency. The variable interest rate may be adjusted at different intervals during the term of the loan, but the adjustments may not be more often than quarterly and must be specified in the Loan Agreement. The lender must incorporate, within the variable rate Promissory Note at loan closing, the provision for adjustment of payment installments coincident with an interest-rate adjustment. The lender will ensure that the outstanding principal balance is properly amortized within the prescribed loan maturity to eliminate the possibility of a balloon payment at the end of the loan.

(b) Any change in the interest rate between the date of issuance of the Conditional Commitment and before the issuance of the Loan Note Guarantee must be approved in writing by the Agency approval official. Approval of such a change will be shown as an amendment to the Conditional Commitment.

(c) It is permissible to have one interest rate on the guaranteed portion of
the loan and another rate on the unguaranteed portion of the loan provided that the rate on the guaranteed portion does not exceed the rate on the unguaranteed portion.

(d) A combination of fixed and variable rates will be allowed.

§ 4279.126 Loan terms.

(a) The maximum repayment for loans on real estate will not exceed 30 years; machinery and equipment repayment will not exceed the useful life of the machinery and equipment purchased with loan funds or 15 years, whichever is less; and working capital repayment will not exceed 7 years. The term for a loan that is being refinanced may be based on the collateral the lender will take to secure the loan.

(b) The first installment of principal and interest will, if possible, be scheduled for payment after the project is operational and has begun to generate income. However, the first full installment must be due and payable within 3 years from the date of the Promissory Note and be paid at least annually thereafter. Interest-only payments will be paid at least annually from the date of the note.

(c) Only loans which require a periodic payment schedule which will retire the debt over the term of the loan without a balloon payment will be guaranteed.

(d) A loan’s maturity will take into consideration the use of proceeds, the useful life of assets being financed, and the borrower’s ability to repay the loan. The lender may apply the maximum guidelines specified above only when the loan cannot be repaid over a shorter term.

(e) All loans guaranteed through the B&I program must be sound, with reasonably assured repayment.

§§ 4279.127—4279.130 [Reserved]

§ 4279.131 Credit quality.

The lender is primarily responsible for determining credit quality and must address all of the elements of credit quality in a written credit analysis including adequacy of equity, cash flow, collateral, history, management, and the current status of the industry for which credit is to be extended.

(a) Cash flow. All efforts will be made to structure or restructure debt so that the business has adequate debt coverage and the ability to accommodate expansion.

(b) Collateral. (1) Collateral must have documented value sufficient to protect the interest of the lender and the Agency and, except as set forth in paragraph (b)(2) of this section, the discounted collateral value will be at least equal to the loan amount. Lenders will discount collateral consistent with sound loan-to-value policy.

(2) Some businesses are predominantly cash-flow oriented, and where cash flow and profitability are strong, loan-to-value coverage may be discounted accordingly. A loan primarily based on cash flow must be supported by a successful and documented financial history.

(c) Industry. Current status of the industry will be considered and businesses in areas of decline will be required to provide strong business plans which outline how they differ from the current trends. The regulatory environment surrounding the particular business or industry will be considered.

(d) Equity. A minimum of 10 percent tangible balance sheet equity will be required for existing businesses at the time the Loan Note Guarantee is issued. A minimum of 20 percent tangible balance sheet equity will be required for new businesses at the time the Loan Note Guarantee is issued. Tangible balance sheet equity will be determined in accordance with Generally Accepted Accounting Principles. Modifications to the equity requirements may be granted by the Administrator or designee. For the Administrator to consider a reduction in the equity requirement, the borrower must furnish the following:

(1) Collateralized personal and corporate guarantees, including any parent, subsidiary, or affiliated company, when feasible and legally permissible (in accordance with 4279.149 of this subpart), and

(2) Pro forma and historical financial statements which indicate the business to be financed meets or exceeds the median quartile (as identified in Robert Morris Associates Annual Statement Studies or similar publication).
for the current ratio, quick ratio, debt-to-worth ratio, debt coverage ratio, and working capital.

(e) Lien priorities. The entire loan will be secured by the same security with equal lien priority for the guaranteed and unguaranteed portions of the loan. The unguaranteed portion of the loan will neither be paid first nor given any preference or priority over the guaranteed portion. A parity or junior position may be considered provided that discounted collateral values are adequate to secure the loan in accordance with paragraph (b) of this section after considering prior liens.

(f) Management. A thorough review of key management personnel will be completed to ensure that the business has adequately trained and experienced managers.

§§ 4279.132–4279.136 [Reserved]

§ 4279.137 Financial statements.

(a) The lender will determine the type and frequency of submission of financial statements by the borrower. At a minimum, annual financial statements prepared by an accountant in accordance with Generally Accepted Accounting Principles will be required.

(b) If specific circumstances warrant and the proposed guaranteed loan will exceed $3 million, the Agency may require annual audited financial statements. For example, the need for audited financial statements will be carefully considered in connection with loans that depend heavily on inventory and accounts receivable for collateral.

§§ 4279.138–4279.142 [Reserved]

§ 4279.143 Insurance.

(a) Hazard. Hazard insurance with a standard mortgage clause naming the lender as beneficiary will be required on every loan in an amount that is at least the lesser of the depreciated replacement value of the collateral or the amount of the loan. Hazard insurance includes fire, windstorm, lightning, hail, explosion, riot, civil commotion, aircraft, vehicle, marine, smoke, builder’s risk during construction by the business, and property damage.

(b) Life. The lender may require life insurance to insure against the risk of death of persons critical to the success of the business. When required, coverage will be in amounts necessary to provide for management succession or to protect the business. The cost of insurance and its effect on the applicant’s working capital must be considered as well as the amount of existing insurance which could be assigned without requiring additional expense.

(c) Worker compensation. Worker compensation insurance is required in accordance with State law.

(d) Flood. National flood insurance is required in accordance with 7 CFR, part 1806, subpart B (FMHA Instruction 426.2, available in any field office or the National Office).

(e) Other. Public liability, business interruption, malpractice, and other insurance appropriate to the borrower’s particular business and circumstances will be considered and required when needed to protect the interests of the borrower.

§ 4279.144 Appraisals.

Lenders will be responsible for ensuring that appraisal values adequately reflect the actual value of the collateral. All real property appraisals associated with Agency guaranteed loanmaking and servicing transactions will meet the requirements contained in the Financial Institutions Reform, Recovery and Enforcement Act (FIRREA) of 1989 and the appropriate guidelines contained in Standards 1 and 2 of the Uniform Standards of Professional Appraisal Practices (USPAP). All appraisals will include consideration of the potential effects from a release of hazardous substances or petroleum products or other environmental hazards on the market value of the collateral. For additional guidance and information concerning the completion of real property appraisals, refer to subpart A of part 1922 of this title and to “Standard Practices for Environmental Site Assessments: Transaction Screen Questionnaire” and “Phase I Environmental Site Assessment,” both published by the American Society of Testing and Materials. Chattels will be evaluated in accordance with normal banking practices and generally accepted methods of determining value.
§ 4279.149 Personal and corporate guarantees.

(a) Personal and corporate guarantees, when obtained, are part of the collateral for the loan. However, the value of such guarantee is not considered in determining whether a loan is adequately secured for loanmaking purposes.

(b) Personal and corporate guarantees for those owning greater than 20 percent of the borrower will be required where legally permissible, except as provided for in this section. Guarantees of parent, subsidiaries, or affiliated companies and secured guarantees may also be required.

(c) Exceptions to the requirements for personal guarantees must be requested by the lender and concurred in by the Agency approval official on a case-by-case basis. The lender must document that collateral, equity, cash flow, and profitability indicate an above average ability to repay the loan.

§ 4279.150 Feasibility studies.

A feasibility study by a qualified independent consultant may be required by the Agency for start-up businesses or existing businesses when the project will significantly affect the borrower’s operations. An acceptable feasibility study should include, but not be limited to, economic, market, technical, financial, and management feasibility.

§§ 4279.151—4279.154 [Reserved]

§ 4279.155 Loan priorities.

Applications and preapplications received by the Agency will be considered in the order received; however, for the purpose of assigning priorities as described in paragraph (b) of this section, the Agency will compare an application to other pending applications.

(a) When applications on hand otherwise have equal priority, applications for loans from qualified veterans will have preference.

(b) Priorities will be assigned by the Agency to eligible applications on the basis of a point system as contained in this section. The application and supporting information will be used to determine an eligible proposed project’s priority for available guarantee authority. All lenders, including CLP lenders, will consider Agency priorities when choosing projects for guarantee. The lender will provide necessary information related to determining the score, as requested.

(1) Population priority. Projects located in an unincorporated area or in a city with under 25,000 population (10 points).

(2) Community priority. The priority score for community will be the total score for the following categories:

(i) Located in an eligible area of long term population decline and job deterioration based on reliable statistical data (5 points).

(ii) Located in a rural community that has remained persistently poor over the last 60 years (5 points).

(iii) Located in a rural community that is experiencing trauma as a result of natural disaster or experiencing fundamental structural changes in its economic base (5 points).

(3) Located in a city or county with an unemployment rate 125 percent of the statewide rate or greater (5 points).

(4) Loan features. The priority score for loan features will be the total score for the following categories:

(i) Lender will price the loan at the Wall Street Journal published Prime Rate plus 1.5 percent or less (5 points).

(ii) Lender will price the loan at the Wall Street Journal published Prime Rate plus 1 percent or less (5 points).

(iii) The Agency guaranteed loan is less than 50 percent of project cost (5 points).

(iv) Percentage of guarantee is 10 or more percentage points less than the maximum allowable for a loan of its size (5 points).

(5) High impact business investment priorities. The priority score for high impact business investment will be the
§ 4279.156 Planning and performing development.

(a) Design policy. The lender must ensure that all project facilities must be designed utilizing accepted architectural and engineering practices and must conform to applicable Federal, state, and local codes and requirements. The lender will also ensure that the project will be completed using the available funds and, once completed, will be used for its intended purpose and produce products in the quality and quantity proposed in the completed application approved by the Agency.

(b) Project control. The lender will monitor the progress of construction and undertake the reviews and inspections necessary to ensure that construction conforms with applicable Federal, state, and local code requirements; proceeds are used in accordance with the approved plans, specifications, and contract documents; and that funds are used for eligible project costs.

(c) Equal opportunity. For all construction contracts in excess of $10,000, the contractor must comply with Executive Order 11246, entitled “Equal Employment Opportunity,” as amended by Executive Order 11375, and as supplemented by applicable Department of Labor regulations (41 CFR, part 60). The borrower and lender are responsible for ensuring that the contractor complies with these requirements.

(d) Americans with Disabilities Act (ADA). B&I Guaranteed Loans which involve the construction of or addition to facilities that accommodate the public and commercial facilities, as defined by the ADA, must comply with the ADA. The lender and borrower are responsible for compliance.

§§ 4279.157—4279.160 [Reserved]

§ 4279.161 Filing preapplications and applications.

Borrowers and lenders are encouraged to file preapplications and obtain Agency comments before completing an application. However, if they prefer, they may file a complete application as the first contact with the Agency. Neither preapplications nor applications will be accepted or processed unless a
lender has agreed to finance the proposal.

(a) Preapplications. Lenders may file preapplications by submitting the following to the Agency:

(1) A letter signed by the borrower and lender containing the following:

(i) Borrower’s name, organization type, address, contact person, and federal tax identification and telephone numbers.

(ii) Amount of the loan request, percent of guarantee requested, and the proposed rates and terms.

(iii) Name of the proposed lender, address, telephone number, contact person, and lender’s Internal Revenue Service (IRS) identification number.

(iv) Brief description of the project, products, services provided, and availability of raw materials and supplies.

(v) Type and number of jobs created or saved.

(vi) Amount of borrower’s equity and a description of collateral, with estimated values, to be offered as security for the loan.

(vii) If a corporate borrower, the names and addresses of the borrower’s parent, affiliates, and subsidiary firms, if any, and a description of the relationship.

(2) A completed Form 4279-2, “Certification of Non-Relocation and Market Capacity Information Report,” if the proposed loan is in excess of $1 million and will increase direct employment by more than 50 employees.

(3) For existing businesses, a current balance sheet and a profit and loss statement not more than 90 days old and financial statements for the borrower and any parent, affiliates, and subsidiaries for at least the 3 most recent years.

(4) For start-up businesses, a preliminary business plan must be provided.

(b) Applications. Except for CLP lenders, applications will be filed with the Agency by submitting the following information: (CLP applications will be completed in accordance with 4279.43(g)(1) but CLP lenders must have the material listed in this paragraph in their files.)

(1) A completed Form 4279-1, “Application for Loan Guarantee (Business and Industry”).

(2) The information required for filing a preapplication, as listed above, if not previously filed or if the information has changed.

(3) Form FMHA 1940-20, “Request for Environmental Information,” and attachments, unless the project is categorically excluded under Agency environmental regulations.

(4) A personal credit report from an acceptable credit reporting company for a proprietor (owner), each partner, officer, director, key employee, and stockholder owning 20 percent or more interest in the applicant, except for those corporations listed on a major stock exchange. Credit reports are not required for elected and appointed officials when the applicant is a public body.

(5) Intergovernmental consultation comments in accordance with 7 CFR, part 3015, subpart V.

(6) Appraisals, accompanied by a copy of the appropriate environmental site assessment, if available. (Agency approval in the form of a Conditional Commitment may be issued subject to receipt of adequate appraisals.)

(7) For all businesses, a current (not more than 90 days old) balance sheet, a pro forma balance sheet at startup, and projected balance sheets, income and expense statements, and cash flow statements for the next 2 years. Projections should be supported by a list of assumptions showing the basis for the projections.

(8) Lender’s complete written analysis, including spreadsheets of the balance sheets and income statements for the 3 previous years (for existing businesses), pro forma balance sheet at startup, and 2 years projected yearend balance sheets and income statements, with appropriate ratios and comparisons with industrial standards (such as Dun & Bradstreet or Robert Morris Associates). All data must be shown in total dollars and also in common size form, obtained by expressing all balance sheet items as a percentage of assets and all income and expense items as a percentage of sales. The lender’s credit analysis must address the borrower’s management, repayment ability including a cash-flow analysis, history of debt repayment, necessity of
any debt refinancing, and the credit reports of the borrower, its principals, and any parent, affiliate, or subsidiary.

(9) Commercial credit reports obtained by the lender on the borrower and any parent, affiliate, and subsidiary firms.

(10) Current personal and corporate financial statements of any guarantors.

(11) A proposed Loan Agreement or a sample Loan Agreement with an attached list of the proposed Loan Agreement provisions. The Loan Agreement must be executed by the lender and borrower before the Agency issues a Loan Note Guarantee. The following requirements must be addressed in the Loan Agreement:

(i) Prohibition against assuming liabilities or obligations of others.

(ii) Restriction on dividend payments.

(iii) Limitation on the purchase or sale of equipment and fixed assets.

(iv) Limitation on compensation of officers and owners.

(v) Minimum working capital or current ratio requirement.

(vi) Maximum debt-to-net worth ratio.

(vii) Restrictions concerning consolidations, mergers, or other circumstances.

(viii) Limitations on selling the business without the concurrence of the lender.

(ix) Repayment and amortization of the loan.

(x) List of collateral and lien priority for the loan including a list of persons and corporations guaranteeing the loan with a schedule for providing the lender with personal and corporate financial statements. Financial statements on the corporate and personal guarantors must be updated at least annually.

(xi) Type and frequency of financial statements to be required for the duration of the loan.

(xii) The final Loan Agreement between the lender and borrower will contain any additional requirements imposed by the Agency in its Conditional Commitment.

(xiii) A section for the later insertion of any necessary measures by the borrower to avoid or reduce adverse environmental impacts from this proposal's construction or operation. Such measures, if necessary, will be determined by the Agency through the completion of the environmental review process.

(12) A business plan, which includes, at a minimum, a description of the business and project, management experience, products and services, proposed use of funds, availability of labor, raw materials and supplies, and the names of any corporate parent, affiliates, and subsidiaries with a description of the relationship. Any or all of these requirements may be omitted if the information is included in a feasibility study.

(13) Independent feasibility study, if required.

(14) For companies listed on a major stock exchange or subject to the Securities and Exchange Commission (SEC) regulations, a copy of SEC Form 10-K, "Annual Report Pursuant to Section 13 or 15d of the Act of 1934."

(15) For health care facilities, a certificate of need, if required by statute.

(16) A certification by the lender that it has completed a comprehensive analysis of the proposal, the applicant is eligible, the loan is for authorized purposes, and there is reasonable assurance of repayment ability based on the borrower's history, projections and equity, and the collateral to be obtained.

(17) Any additional information required by the Agency.

§§ 4279.162—4279.164 [Reserved]

§ 4279.165 Evaluation of application.

(a) General review. The Agency will evaluate the application and make a determination whether the borrower is eligible, the proposed loan is for an eligible purpose, there is reasonable assurance of repayment ability, there is sufficient collateral and equity, and the proposed loan complies with all applicable statutes and regulations. If the Agency determines it is unable to guarantee the loan, the lender will be informed in writing. Such notification will include the reasons for denial of the guarantee.

(b) Environmental requirements. The environmental review process must be completed, in accordance with subpart G of part 1940 of this title, prior to the
issuance of the Conditional Commit-
ment, loan approval, or obligation of
funds, whichever occurs first.

§ 4279.166—4279.172 [Reserved]

§ 4279.173 Loan approval and obligat-
ing funds.

(a) Upon approval of a loan guaran-
tee, the Agency will issue a Condi-
tional Commitment to the lender con-
taining conditions under which a Loan
Note Guarantee will be issued.

(b) If certain conditions of the Condi-
tional Commitment cannot be met, the
lender and applicant may propose al-
ternate conditions. Within the require-
ments of the applicable regulations and
instructions and prudent lending prac-
tices, the Agency may negotiate with
the lender and the applicant regarding
any proposed changes to the Condi-
tional Commitment.

§ 4279.174 Transfer of lenders.

(a) The loan approval official may ap-
prove the substitution of a new eligible
lender in place of a former lender who
holds an outstanding Conditional Com-
mitment when the Loan Note Guarant-
tee has not yet been issued provided,
that there are no changes in the bor-
rower’s ownership or control, loan pur-
poses, or scope of project and loan con-
ditions in the Conditional Commit-
ment and the Loan Agreement remain
the same.

(b) The new lender’s servicing capa-
bility, eligibility, and experience will
be analyzed by the Agency prior to ap-
proval of the substitution. The original
lender will provide the Agency with a
letter stating the reasons it no longer
desires to be a lender for the project.
The substituted lender must execute a
new part B of Form 4279-1.

§§ 4279.175—4279.179 [Reserved]

§ 4279.180 Changes in borrower.

Any changes in borrower ownership
or organization prior to the issuance of
the Loan Note Guarantee must meet
the eligibility requirements of the pro-
gram and be approved by the Agency
loan approval official.

§ 4279.181 Conditions precedent to
issuance of Loan Note Guarantee.

The Loan Note Guarantee will not be
issued until the lender, including a
CLP lender, certifies to the following:

(a) No major changes have been made
in the lender’s loan conditions and re-
quirements since the issuance of the
Conditional Commitment, unless such
changes have been approved by the
Agency.

(b) All planned property acquisition
has been or will be completed, all de-
velopment has been or will be substanci-
tially completed in accordance with
plans and specifications, conforms with
applicable Federal, state, and local
codes, and costs have not exceeded the
amount approved by the lender and the
Agency.

(c) Required hazard, flood, liability,
worker compensation, and personal life
insurance, when required, are in effect.

(d) Truth-in-lending requirements
have been met.

(e) All equal credit opportunity re-
quirements have been met.

(f) The loan has been properly closed,
and the required security instruments
have been obtained or will be obtained
on any acquired property that cannot
be covered initially under State law.

(g) The borrower has marketable
title to the collateral then owned by
the borrower, subject to the instru-
ment securing the loan to be guaran-
teed and to any other exceptions ap-
poved in writing by the Agency.

(h) When required, the entire amount
of the loan for working capital has
been disbursed except in cases where
the Agency has approved disbursement
over an extended period of time.

(i) When required, personal, partner-
ship, or corporate guarantees have
been obtained.

(j) All other requirements of the Con-
ditional Commitment have been met.

(k) Lien priorities are consistent
with the requirements of the Condi-
tional Commitment. No claims or liens
of laborers, subcontractors, suppliers of
machinery and equipment, or other
parties have been or will be filed
against the collateral and no suits are
pending or threatened that would ad-
versely affect the collateral when the
security instruments are filed.
§ 4279.182—4279.185

(l) The loan proceeds have been or will be disbursed for purposes and in amounts consistent with the Conditional Commitment and Form 4279-1. A copy of the detailed loan settlement of the lender must be attached to support this certification.

(m) There has been neither any material adverse change in the borrower’s financial condition nor any other material adverse change in the borrower, for any reason, during the period of time from the Agency’s issuance of the Conditional Commitment to issuance of the Loan Note Guarantee regardless of the cause or causes of the change and whether or not the change or causes of the change were within the lender’s or borrower’s control. The lender must address any assumptions or reservations in the requirement and must address all adverse changes of the borrower, any parent, affiliate, or subsidiary of the borrower, and guarantors.

(n) None of the lender’s officers, directors, stockholders, or other owners (except stockholders in an institution that has normal stockshare requirements for participation) has a substantial financial interest in the borrower and neither the borrower nor its officers, directors, stockholders, or other owners has a substantial financial interest in the lender. If the borrower is a member of the board of directors or an officer of a Farm Credit System (FCS) institution that is the lender, the lender will certify that an FCS institution on the next highest level will independently process the loan request and act as the lender’s agent in servicing the account.

(o) The Loan Agreement includes all measures identified in the Agency’s environmental impact analysis for this proposal (measures with which the borrower must comply) for the purpose of avoiding or reducing adverse environmental impacts of the proposal’s construction or operation.

§ 4279.182—4279.185 [Reserved]

§ 4279.186 Issuance of the guarantee.

(a) When loan closing plans are established, the lender will provide the following to the Agency:

(1) Lender’s certifications as required by §4279.181.

(2) Executed Lender’s Agreement.

(3) Form FMHA 1980-19, “Guaranteed Loan Closing Report,” and appropriate guarantee fee.

(b) When the Agency is satisfied that all conditions for the guarantee have been met, the Loan Note Guarantee and the following documents, as appropriate, will be issued:

(1) Assignment Guarantee Agreement. In the event the lender uses the single note option and assigns the guaranteed portion of the loan to a holder, the lender, holder, and the Agency will execute the Assignment Guarantee Agreement; and

(2) Certificate of Incumbency. If requested by the lender, the Agency will provide the lender with a certification on Form 4279-7, “Certificate of Incumbency and Signature (Business and Industry),” of the signature and title of the Agency official who signs the Loan Note Guarantee, Lender’s Agreement, and Assignment Guarantee Agreement.

(c) The Agency may, at its discretion, request copies of loan documents for its file.

(d) There may be instances when not all of the working capital has been disbursed, and it appears practical to disburse the balance over a period of time. The State Director, after review of a disbursement plan, may amend the Conditional Commitment in accordance with the disbursement plan and issue the guarantee.

§ 4279.187 Refusal to execute Loan Note Guarantee.

If the Agency determines that it cannot execute the Loan Note Guarantee, the Agency will promptly inform the lender of the reasons and give the lender a reasonable period within which to satisfy the objections. If the lender requests additional time in writing and within the period allowed, the Agency may grant the request. If the lender satisfies the objections within the time allowed, the guarantee will be issued.
PART 4284—GRANTS

Subparts A–E [Reserved]

Subpart F—Rural Cooperative Development Grants

§ 4284.501 Purpose.

(a) This subpart outlines the Rural Business-Cooperative Service’s (RBS) policies and authorizations and contains procedures to provide grants for cooperative development in rural areas.

(b) Grants will be made available to nonprofit corporations and institutions of higher education for the purpose of establishing and operating centers for rural cooperative development.

(c) Copies of all forms and instructions referenced in this subpart are available in the RBS National Office or any Rural Development State Office.

§ 4284.502 Policy.

The grant program will be used to facilitate the creation or retention of jobs in rural areas through the development of new rural cooperatives, value-added processing, and rural businesses.

§ 4284.503 [Reserved]

§ 4284.504 Definitions.

Agency—Rural Business-Cooperative Service (RBS) or a successor agency.

Approval official—Any authorized agency official.

Center—The entity established or operated by the grantee for rural cooperative development.

Cooperative—A user-owned and controlled business from which benefits are derived and distributed equitably on the basis of use.

Cooperative development—The startup, expansion, or operational improvement of a cooperative to promote development in rural areas of services and products, processes that can be used in the production of products, or enterprises that can add value to on-farm production through processing or marketing activities. Development activities may include, but are not limited
to, technical assistance, research services, educational services, and advisory services. Operational improvement includes making the cooperative more efficient or better managed.

Economic development—The growth of an area as evidenced by increases in total income, employment opportunities, decreased outmigration of populations, value of production, increased diversification of industry, higher labor force participation rates, increased duration of employment, higher wage levels, or gains in other measurements of economic activity, such as land values.

Nonprofit institution—Any organization or institution, including an accredited institution of higher education, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

Project—A planned undertaking by a center which utilizes the funds provided to it to promote economic development in rural areas through the creation and enhancement of cooperatives.

Public body—Any state, county, city, township, incorporated town or village, borough, authority, district, economic development authority, or Indian tribe on federal or state reservations or other federally recognized Indian tribe in rural areas.

RBS—The Rural Business-Cooperative Service, an agency of the United States Department of Agriculture, or a successor agency.

Regionally operated—A regionally operated program includes programs that cover or are eligible to cover two or more counties.

Rural and rural area—Includes all territory of a state that is not within the outer boundary of any city having a population of 50,000 or more and its immediately adjacent urbanized and urbanizing areas.

Rural Development—Rural Development mission area.

Servicing office—Any Rural Development State Office.

State—Any of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of Palau, the Federated States of Micronesia, and the Republic of the Marshall Islands.

Subcenter—A unit of a center acting under the same direction as and having a purpose consistent with that of the center.

Urbanized area—An area immediately adjacent to a city having a population of 50,000 or more with a population density of more than 100 persons per square mile, as determined by the Secretary of Agriculture according to the latest decennial census of the United States which, for general social and economic purposes, constitutes a single community and has a boundary contiguous with that of the city. Such community may be incorporated or unincorporated to extend from the contiguous boundaries to recognizable open country, less densely settled areas, or natural boundaries such as forests or water. Minor open spaces such as airports, industrial sites, recreational facilities, or public parks shall be disregarded. Outer boundaries of an incorporated community extend at least to its legal boundaries. Cities which may have a contiguous border with another city, but are located across a river from such city, are recognized as a separate community.

Urbanizing area—A community with a population density of more than 100 persons per square mile, as determined by the Secretary of Agriculture according to the latest decennial census of the United States, which is not now, or within the foreseeable future not likely to be, clearly separate from and independent of a city of 50,000 or more population and its immediately adjacent urbanized areas. A community is considered “separate” when it is separated from the city and its immediately adjacent urbanized area by open country, less densely settled areas, or natural barriers such as forests or water. Minor open spaces such as airports, industrial sites, recreational facilities, or public parks shall not be considered as an area to determine if a community is separate. A community is considered “independent” when its social (e.g., government, educational, health, and recreational facilities) and economic structure (e.g., business, industry, tax
base, and employment opportunities) are not primarily dependent on the city and its immediately adjacent urbanized areas.

§ 4284.505 Applicant eligibility.

(a) Grants may be made to nonprofit corporations and institutions of higher education. Grants may not be made to public bodies.

(b) An outstanding judgment obtained against an applicant by the United States in a Federal Court (other than the United States Tax Court), which has been recorded, shall cause the applicant to be ineligible to receive any grant or loan until the judgment is paid in full or otherwise satisfied. RBS grant funds may not be used to satisfy the judgment.

§§ 4284.506—4284.514 [Reserved]

§ 4284.515 Grant purposes.

Grant funds may be used to pay up to 75 percent of the costs for carrying out relevant projects. Applicant's contribution may be in cash or in-kind contribution in accordance with parts 3015 and 3019 of this title and must be from nonfederal funds except that a loan from another federal source can be used for the applicant's contribution. Grant funds may be used for, but are not limited to, the following purposes:

(a) Applied research, feasibility, environmental and other studies that may be useful to individuals, cooperatives, small businesses, and other similar entities in rural areas served by the center for the purpose of cooperative development.

(b) Collection, interpretation, and dissemination of principles, facts, technical knowledge, or other information that may be useful to individuals, cooperatives, small businesses, and other similar entities in rural areas served by the center for the purpose of cooperative development.

(c) Providing training and instruction for individuals, cooperatives, small businesses, and other similar entities in rural areas served by the center for the purpose of cooperative development.

(d) Providing loans and grants to individuals, cooperatives, small businesses, and other similar entities in rural areas served by the center for the purpose of cooperative development in accordance with this subpart.

(e) Providing technical assistance, research services, and advisory services to individuals, cooperatives, small businesses, and other similar entities in rural areas served by the center for the purpose of cooperative development.

§ 4284.516 Ineligible grant purposes.

Grant funds may not be used to:

(a) Pay more than 75 percent of relevant project or administrative costs;

(b) Duplicate current services or replace or substitute support previously provided;

(c) Pay costs of preparing the grant application package;

(d) Pay costs incurred prior to the effective date of the grant;

(e) Pay for building construction, the purchase of real estate or vehicles, improving or renovating office space, or the repair or maintenance of privately-owned property;

(f) Fund political activities; or

(g) Pay for assistance to any private business enterprise which does not have at least 51 percent ownership by those who are either citizens of the United States or reside in the United States after being legally admitted for permanent residence.

§§ 4284.517—4284.526 [Reserved]

§ 4284.527 Other considerations.

(a) Civil rights compliance requirements. All grants made under this subpart are subject to the requirements of title VI of the Civil Rights Act of 1964, which prohibits discrimination on the basis of race, color, and national origin as outlined in part 1901, subpart E of this title. In addition, the grants made under this subpart are subject to the requirements of section 504 of the Rehabilitation Act of 1973, as amended, which prohibits discrimination on the basis of disability; the requirements of the Age Discrimination Act of 1975, which prohibits discrimination on the basis of age; and title III of the Americans with Disabilities Act, which prohibits discrimination on the basis of disability by private entities in places of public accommodations.
(b) Environmental requirements—

(1) General applicability. Unless specifically modified by this section, the requirements of part 1940, subpart G of this title apply to this subpart. For example, the Agency’s general and specific environmental policies contained in §§1940.303 and 1940.304 of this title must be complied with. Although the purpose of the grant program established by this subpart is to improve business, industry, and employment in rural areas, this purpose is to be achieved, to the extent practicable, without adversely affecting important environmental resources of rural areas such as important farmland and forest lands, prime rangelands, wetland, and flood plains. Prospective recipients of grants, therefore, must consider the potential environmental impacts of their applications at the earliest planning stages and develop plans and projects that minimize the potential to adversely impact on the environment.

(2) Technical assistance. An application for a project exclusively involving technical assistance is generally excluded from the environmental review process by §1940.310(e)(1) of this title. However, as further specified in §1940.333 of this title, the grantee of a technical assistance grant, in the process of providing technical assistance, must consider and generally document within their plans the potential environmental impacts of their applications at the earliest planning stages and develop plans and projects that minimize the potential to adversely impact on the environment.

(3) Applications for grants to provide other than technical assistance to third-party recipients. As part of the preapplication, the applicant must provide a complete “Request for Environmental Information,” for each project specifically identified in its plan to provide other than technical assistance to third parties who will undertake eligible projects with such assistance. The Agency will review the preapplication, supporting materials, and the required “Request for Environmental Information” and assess the impact of the preapplication. This assessment will focus on the potential cumulative impacts of the projects as well as any environmental concerns or problems that are associated with individual projects that can be identified at this time from the information submitted. Because the Agency’s approval of this type of grant application does not constitute a commitment to the use of grant funds for any identified third-party projects (see §4284.541), no public notification requirements will apply to the preapplication. After the grant is approved, each third-party project to be assisted under the grant will undergo the applicable environmental review and public notification requirements in part 1940, subpart G of this title prior to the Agency providing its consent to the grantee to assist the third-party project. If the preapplication reflects only one project which is specifically identified as the third-party recipient for financial assistance, the Agency may proceed directly to the appropriate environmental assessment for the third-party recipient with public notification as required. The applicant must be advised that if the recipient or project changes after the grant is approved, the project to be assisted under the grant will undergo the applicable environmental review and public notification requirements.

(c) Government-wide debarment and suspension (non-procurement) and requirements for drug-free workplace. Persons who are disbarred or suspended are excluded from federal assistance and benefits including grants under this subpart. Grantees must certify that they will provide a drug-free workplace.

(d) Restrictions on lobbying. All grants must comply with the lobbying restrictions contained in part 3018 of this title.

(e) Excess capacity or transfer of employment. If a proposed project has financial assistance from all sources for more than $1 million and will increase direct employment by more than 50 employees, the applicant will be requested to provide written support for an Agency determination that the proposal will not result in a project which is calculated to, or likely to, result in the transfer of any employment or business activity from one area to another. This limitation will not prohibit assistance for the expansion of an existing business entity through the establishment of a new branch, affiliate,
or subsidiary of such entity if the expansion will not result in an increase in the unemployment in the area of original location or in any other area where such entity conducts business operations.

(f) Management assistance. Grant recipients will be supervised, as necessary, to ensure that projects are completed in accordance with approved plans and specifications and that funds are expended for approved purposes. Grants made under this subpart will be administered under, and are subject to, parts 3015, 3017, 3019, and 3051 of this title, as appropriate, and established RBS guidelines.

(g) Uniform Relocation Assistance and Real Property Acquisition Policies Act. All projects must comply with the requirements contained in part 21 of this title.

(h) Flood or mudslide hazard area precautions. If the grantee financed project is in a flood or mudslide area, flood or mudslide insurance must be obtained through the National Flood Insurance Program.

(i) Termination of federal requirements. Once the grantee has provided assistance with project loans in an amount equal to the grant provided by RBS, the requirements imposed on the grantee shall not be applicable to any new projects thereafter financed from the RCDG funds. Such new projects shall not be considered as being derived from federal funds. The purposes of such new projects, however, shall be consistent with these regulations.

(j) Intergovernmental review. Grant projects are subject to the provisions of Executive Order 12372 which requires intergovernmental consultation with state and local officials. A loan fund established in whole, or in part, with grant funds will also be considered a project for the purpose of intergovernmental review as well as the specific projects funded with grant funds from the RCDG funds. For each project to be assisted with a grant under this subpart and which the state has elected to review under their intergovernmental review process, the state point of contact must be notified. Notification, in the form of a project description, can be initiated by the grantee. Any comments from the state must be included with the grantee's request to use RBS grant funds for the specific project. Prior to the RBS decision on the request, compliance with requirements of intergovernmental consultation must be demonstrated for each project. These requirements should be completed in accordance with "Intergovernmental Review of Department of Agriculture Programs and Activities," part 3015, subpart V of this title.

§4284.528 Application processing.

(a) Preapplications. (1) Applicants will file an original and one copy of an "Application for Federal Assistance (For Non-construction)," with the appropriate Rural Development State Office.

(2) All preapplications shall be accompanied by:

(i) evidence of applicant's legal existence and authority to perform the proposed activities under the grant.

(ii) the latest financial information to show the applicant's financial capacity to carry out the project. At a minimum, the information should include a balance sheet and an income statement. A current audited report is preferred where one is reasonably obtainable.

(iii) an estimated breakdown of total costs, including costs to be funded by the applicant or other identified sources. Certification must be provided from the applicant that its matching share to the project is available and will be used for the project. The matching share must meet the requirements of parts 3015 and 3019 of this title as applicable. Certifications from an authorized representative of each source of funds must be provided indicating that funds are available and will be used for the proposed project.

(iv) a budget and description of the accounting system to be used.

(v) the area to be served, identifying within that area each governmental unit (i.e., town, county, etc.) affected by the proposed project. Evidence of support and concurrence from each affected governmental unit must be provided by either a resolution or a written statement from the chief elected local official.

(vi) a listing of cooperative businesses to be assisted or created.
(vii) applicant's experience with similar projects, including experience of key staff members and persons who will be providing the proposed services and managing the project.

(viii) the number of months duration of the project and the estimated time it will take from grant approval to beginning of service.

(ix) the method and rationale used to select the areas or businesses that will receive the service.

(x) a brief description of how the work will be performed and whether organizational staff, consultants or contractors will be used.

(xi) an evaluation method to be used by the applicant to determine if objectives of the proposed activity are being accomplished.

(xii) a brief plan that contains the following provisions and describes how the applicant will meet these provisions:

(A) A provision that substantiates how the applicant will effectively serve rural areas in the United States.

(B) A provision that the primary objective of the applicant will be to improve the economic condition of rural areas by promoting development of new cooperatives or improvement of existing cooperatives.

(C) Supporting data from established official independent sources along with any explanatory documentation.

(D) A description of the activities that the applicant will carry out to accomplish such objective.

(E) A description of the proposed activities to be funded under this subpart.

(F) A description of the contributions that the applicant's proposed activities are likely to make to the improvement of the economic conditions of the rural areas served by the applicant.

(G) Provisions that the applicant, in carrying out its activities, will seek, where appropriate, the advice, participation, expertise, and assistance of representatives of business, industry, educational institutions, the federal, state, and local governments.

(H) Provisions that the applicant will consult with any college or university administering Extension Service programs and cooperate with such college or university in the coordination of the center's activities and programs.

(I) Provisions that the applicant will take all practicable steps to develop continuing sources of financial support for the center, particularly from sources in the private sector.

(J) Provisions for:

(1) monitoring and evaluating its activities; and

(2) accounting for money received and expended by the applicant under this subpart.

(K) Provisions that the applicant will provide for the optimal application of cooperative development in rural areas, especially those areas adversely affected by economic conditions, such that local economic conditions can be improved through cooperative development.

(xiii) the agreement proposed to be used between the applicant and the ultimate recipients, if grant funds are to be used for the purpose of making loans or grants to individuals, cooperatives, small businesses, and other similar entities (ultimate recipients) in rural areas for eligible purposes under this subpart. This agreement should include the following:

(A) An assurance that the responsibilities of the grantee, as a recipient of grant funds under this subpart, are passed on to the ultimate recipient and the ultimate recipient understands its responsibilities to comply with the requirements contained in this subpart and parts 3015 and 3019 of this title, as applicable.

(B) Provisions that the ultimate recipient will comply with debarment and suspension requirements contained in part 3017 of this title and will execute a "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transactions."

(C) Provisions that the ultimate recipient will execute an "Equal Opportunity Agreement," and an "Assurance Agreement."

(D) Documentation that the ultimate recipient understands its responsibilities to the applicant.

(E) Documentation that the applicant understands its responsibilities in
monitoring the ultimate recipient’s activities under the grant and the applicant’s plan for such monitoring.

(F) Documentation, when other references or sources of information are used, along with copies, if possible, that provides dates, addresses, page numbers and explanations of how interpretations are made to substantiate that such things as economically distressed conditions do exist.

(G) Narrative addressing all items in §4284.540(a) of this subpart regarding grant selection criteria.

(b) Applications. Upon notification that the applicant has been selected for funding, the following will be submitted to Rural Development by the applicant:

(1) Proposed scope of work, detailing the proposed activities to be accomplished and timeframes for completion of each activity.

(2) Other information requested by RBS to make a grant award determination.

(c) Applicant response. If the applicant fails to submit the application and related material by the date shown on the invitation for applications, Rural Development may discontinue consideration of the preapplication.

§§ 4284.529—4284.539 [Reserved]

§ 4284.540 Grant selection criteria.

Grants will be awarded under this subpart on a competitive basis. The priorities described in this paragraph will be used by RBS to rate preapplications. RBS review of preapplications will include the complete preapplication package submitted to the Rural Development State Office. Points will be distributed according to ranking as compared with other preapplications on hand. All factors will receive equal weight with points awarded to each factor on a 5, 4, 3, 2, 1 basis depending on the applicant’s ranking compared to other applicants.

(a) Preference will be given to applications that:

(1) demonstrate a proven track record in administering a nationally coordinated, regionally or State-wide operated project;

(2) demonstrate previous expertise in providing technical assistance in rural areas;

(3) demonstrate the ability to assist in the retention of business, facilitate the establishment of cooperatives and new cooperative approaches, and generate employment opportunities that will improve the economic conditions of rural areas;

(4) demonstrate the ability to create horizontal linkages among businesses within and among various sectors in rural areas of the United States and vertical linkages to domestic and international markets;

(5) commit to providing technical assistance and other services to underserved and economically distressed rural areas of the United States;

(6) commit to providing greater than a 25 percent matching contribution with private funds and in-kind contributions;

(7) evidence transferability or demonstration value to assist rural areas outside of project area; and

(8) demonstrate that any cooperative development activity is consistent with positive environmental stewardship.

(b) Each preapplication for assistance will be carefully reviewed in accordance with the priorities established in this section. A priority rating will be assigned to each preapplication. Preapplications selected for funding will be based on the priority rating assigned each preapplication and the total funds available. All preapplications submitted for funding should contain sufficient information to permit RBS to complete a thorough priority rating.

§ 4284.541 Grant approval, fund obligation, grant closing, and third-party financial assistance.

The grantee will execute all documents required by RBS to make a grant under this subpart. By accepting the grant, the grantee agrees to comply with parts 3015 and 3019 of this title.

§§ 4284.542—4284.556 [Reserved]

§ 4284.557 Fund disbursement.

Grants will be disbursed as follows:
§ 4284.558 Reporting.

(a) A “Request for Advance or Reimbursement,” will be completed by the applicant and submitted to Rural Development not more frequently than monthly. Payments will be made by electronic funds transfer pursuant to the Debt Collection Improvement Act of 1996 (Pub. L. 104-134).

(b) The grantee’s share in the cost of the project will be disbursed in advance of grant funds or on a pro-rata distribution basis with grant funds during the disbursement period.

§ 4284.559 Reporting.

A “Financial Status Report,” and a project performance activity report will be required of all grantees on a quarterly calendar basis. A final project performance report will be required with the last “Financial Status Report.” The final report may serve as the last quarterly report. The final report must include a final evaluation of the project. Grantees must constantly monitor performance to ensure that time schedules are being met, projected work by time periods is being accomplished, and other performance objectives are being achieved. Grantees are to submit an original of each report to Rural Development. The project performance reports shall include, but not be limited to, the following:

(a) A comparison of actual accomplishments to the objectives established for that period;

(b) Reasons why established objectives (if any) were not met;

(c) Problems, delays, or adverse conditions which will affect attainment of overall project objectives, prevent meeting time schedules or objectives, or preclude the attainment of particular project work elements during established time periods. This disclosure shall be accompanied by a statement of the action taken or planned to resolve the situation; and

(d) Objectives and timetable established for the next reporting period.

§ 4284.571 Audit requirements.

The grantee will provide an audit report in accordance with §1942.17 of this title. Audits must be prepared in accordance with general accounting principles and standards using the publication, “Standards for Audit of Governmental Organizations, Programs, Activities and Functions.”

§ 4284.572 Grant servicing.

Grants will be serviced in accordance with part 1951, subpart E of this title.

§ 4284.573 Programmatic changes.

The grantee shall obtain prior approval for any change to the scope or objectives of the approved project. Failure to obtain prior approval of changes to the scope or budget can result in suspension or termination of grant funds.

§ 4284.574 Subsequent grants.

Subsequent grants will be processed in accordance with the requirements contained in this subpart. Cooperative development projects receiving assistance under this program will be evaluated one year after assistance is received. If it is determined to be in the best interests of the program, preference may be given to a project or projects for an additional grant in the immediately succeeding year.

§ 4284.575 Grant suspension, termination, and cancellation.

Grants may be canceled by RBS by written notice. Grants may be suspended or terminated for cause or convenience in accordance with parts 3015 and 3019 of this title, as applicable.

§§ 4284.576—4284.600 [Reserved]

§ 4284.587 Exception authority.

The Administrator may, in individual cases, make an exception to any requirement or provision of this subpart, if the Administrator determines that application of the requirement or provision would adversely affect the Government’s interest.

§§ 4284.588—4284.599 [Reserved]

§ 4284.600 OMB control number.

The information collection requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0570-0006. You are not required to
respond to this collection of information unless it displays a valid OMB control number.

PART 4285—COORDERATION AGREEMENTS

Subpart A—Federal-State Research on Cooperatives Program

§ 4285.1 Objective.

This subpart sets forth the policies and procedures and delegates authority for providing Federal-State Research on Cooperatives cooperative agreement funds to finance programs of research on cooperatives as authorized under Section 204 (b) of the Agricultural Marketing Act of 1946 (7 U.S.C. 1623 (b)). The primary purpose of this matching fund program, via cooperative agreements, is to encourage State Department of Agriculture and State Agricultural Experiment Stations in conducting research related to agricultural cooperatives.

§ 4285.2 Cooperative agreement purposes.

Rural Development Administration (RDA) or its successor agency may enter into a cooperative agreement with a State agency to provide funds to the State agency to:

(a) Conduct marketing research related to agricultural cooperatives.

(b) Assist other organizations in conducting marketing research related to agricultural cooperatives.

§ 4285.3 Definitions.

As used in this part:

Agreement period. The total period of time approved by the Assistant Administrator for Cooperative Services for conducting the proposed project as outlined in an approved application. The time period is normally no more than 3 years, renewable for cause not to exceed a total of 4 fiscal years.

Agricultural products. Agricultural products include agricultural, horticultural, viticultural, and dairy products, livestock and poultry, bees, forest products, fish and shellfish, and any products thereof, including processed or manufactured products, and any and all products raised or produced on farms and any processed or manufactured product thereof.

Assistant Administrator for Cooperative Services. The Assistant Administrator for Cooperative Services, Rural Development Administration or its successor agency, USDA or any authorized delegate.

Awarding official. The Assistant Administrator for Cooperative Services or authorized delegate.

Cooperative agreement. A legal instrument reflecting a relationship between the United States Government and a State where:

(1) The principal purpose of the relationship is the transfer of money, property, services, or anything of value to the State agency to carry out research related to cooperatives; and

(2) Substantial involvement is anticipated between RDA or its successor...
agency, acting for the Federal Government, and the State or other recipient during performance of the research in the agreement.

Cooperator. The State agency designated in the cooperative agreement award document as the responsible legal entity to whom a cooperative agreement is awarded under this part.

Department. The U.S. Department of Agriculture.

Methodology. The research approach to be followed to carry out the project.

Principal investigator. A single individual who is responsible for the scientific and technical direction of the project, as designated by the cooperator in the cooperative agreement application and approved by the Assistant Administrator for Cooperative Services.

Project. The particular activity within the scope of one or more of the research program areas identified in the annual program solicitation that is supported by a cooperative agreement under this part.

State agencies. State agencies include, among others, State Agricultural Experiment Stations and State Departments of Agriculture in the 50 States, the Virgin Islands, and Guam, and other appropriate State agencies. Final determination of whether certain 1890 or 1862 Land Grant institutions qualify as state agencies will be determined on a case-by-case basis by the Office of the General Counsel (OGC), USDA.

§§ 4285.4—4285.23 [Reserved]

§ 4285.24 Eligibility.

To enter into a cooperative agreement for these funds, the applicant must:

(a) Be a State Agency as defined in § 4285.3 of this subpart;

(b) Have the financial, legal, administrative, and actual capacity to assume and carry out the responsibilities imposed by the Agreement. To meet the requirement of actual capacity, it must either:

(1) Have necessary background and experience with proven ability to perform responsibly in the field of economic, business management, or other needed research area; or

(2) Have the necessary administrative and supervisory controls in place to assure an agreed upon contracting organization has the proven ability to perform responsibly in the field of economic, business management, or other needed research area;

(c) Legally obligate itself to administer cooperative agreement funds, provide adequate accounting of the expenditure of such funds, and comply with the cooperative agreement;

(d) Provide at least 50 percent of the funds necessary to conduct the research from non-federal funds; and

(e) Agree to conduct proposed research related to cooperatives and agricultural marketing.

§ 4285.25 Authorized use of cooperative agreement funds.

Funds received for research under cooperative agreements in this program shall only be used for:

(a) Payment of salaries and necessary employee benefits of personnel as agreed upon in the Cooperative Agreement. Included are salaries and benefits of State employees assigned full-time to one or more projects, or the percent of the salaries and benefits related to project work for State employees assigned part-time to research on one or more projects. Salaries and benefits include basic salary, other compensation such as holiday pay, sick or annual leave, and personnel benefits (quarters allowance, payments to other funds such as employees’ life insurance, health benefits, retirement, Federal Insurance Contributions Act (FICA), accident compensation, and similar payments). For any of the benefit items when the State usually pays the employer share, Federal funds may be used to pay the proportionate share of such employer contributions.

(b) Payment of necessary and reasonable office expenses such as office rental, office utilities, and office equipment rental. The purchase of office equipment is permissible when the cooperator determines it to be more economical than renting. However, as a general rule, these types of expenses would be classified as indirect costs in multiple funded organizations and would not be an allowable expense. Planned purchases of equipment costing more than
$200 per unit must be approved by RDA or its successor agency. Equipment purchased becomes State property pursuant to the cooperative agreement.

(c) Payment of necessary and reasonable costs of printing publications of research project results. However, all such publications should show the RDA or its successor agency as cooperator in the project and bear the following statement: “State funds for this project (publication) were matched with Federal funds under the Federal-State Research on Cooperatives Program of the U.S. Department of Agriculture, Rural Development Administration or its successor agency, Cooperative Services, as provided by the Agricultural Marketing Act of 1946 and (appropriate) fiscal year appropriations.”

(d) Purchase of office supplies (such as paper, pens, pencils, and trade magazines) and postage needed for project activities.

(e) Payment of necessary and reasonable travel expenses.

§§ 4285.26—4285.45 [Reserved]

§ 4285.46 Prohibited use of cooperative agreement funds.

(a) The Agricultural Marketing Act prohibits the use of Federal funds to pay for newspaper or periodical space and radio and television time, either directly to the media or indirectly through an advertising agency or other firm. County and State fair exhibits, as well as commodity months and weeks, are also excluded as the research on cooperatives program activities.

(b) Federal funds cannot be used to purchase products or samples of products to give away to the public.

(c) Federal program funds cannot be used to purchase:

1. Promotional pieces such as point-of-sale materials, promotional kits, billboard space and signs, streamers, automobile stickers, table tents, and placemats; or

2. Promotion items of a personal gift nature.

(d) Cooperative agreement funds cannot be used to conduct general publicity or information programs designed to build the image of the State's agriculture or of a particular State Department of Agriculture or Agricultural Experiment Station.

(e) Project funds cannot be used to pay for the salary and travel of employees of cooperatives, trade associations, commodity groups, and other industry organizations, or of State personnel while engaged in managing market orders, cooperatives, or other group endeavors.

(f) Commissioners, Directors, and Secretaries of State Departments of Agriculture, Agricultural Experiment Stations, and other State agencies cannot charge their salaries and travel to project funds, with the exception of travel to workshops or conferences devoted to the Federal-State Research On Cooperatives Program.

(g) Funds made available for this program shall not be subject to reduction for indirect costs or for tuition remission.

§ 4285.47 Limitations.

The amount of funds available for the cooperative agreements under this program is limited to the amount appropriated for the fiscal year.

§§ 4285.48—4285.57 [Reserved]

§ 4285.58 How to apply for cooperative agreement funds.

(a) A program solicitation will be prepared and announced through publications such as the Federal Register, professional trade journals, agency or program handbooks, and/or any other appropriate means, as early as practicable each fiscal year in which funds are appropriated for the program.

(b) The annual program solicitation will contain information sufficient to enable all eligible applicants to prepare proposals including:

1. Desired research topics. The FY-94 solicitation will encourage studies:

i. To improve the efficiency and effectiveness of marketing of agricultural cooperatives;

ii. To measure the impact of rural cooperatives on the local economies;

iii. That help identify opportunities to develop cooperatives for new or alternative market uses of agricultural products;
(iv) That help identify ways to develop agricultural marketing cooperatives; and
(v) Addressing other cooperative marketing objectives;
(2) Explanation of eligibility requirements as outlined in § 4285.24 of this subpart;
(3) The notice of availability of application forms and instructions for submission of applications;
(4) The notice of deadline dates for postmarking proposal packages.
(c) Format for proposals. Unless otherwise indicated by the Department in the annual program solicitation, the following information must be submitted for the preparation of proposals under this program:
(1) Form SF-424, "Application for Federal Assistance."
(2) Form SF-424A, "Budget Information—Non-Construction Programs."
(3) Form SF-424B, "Assurances—Non-Construction Programs."
(4) Statement of Work. The application must include a narrative statement describing the nature of the proposed research. The Statement of Work must include at least the following:
(i) Title of the Project. The title of the proposal must be brief, yet represent the major thrust of the project.
(ii) Project Leaders. List the name(s) of the principal investigator(s). Minor collaborators or consultants should be so designated and not listed as principal investigators.
(iii) Need for the Project. A concisely worded rationale behind the proposed research must be presented. The need for the proposed research must be clearly related to marketing and to the needs of agricultural cooperatives.
(iv) Objectives of the project. The specific description of the overall project goal(s) and supporting objectives must be presented.
(v) Procedures for conducting the research. The hypotheses or questions being asked and the methodology being applied to the proposed project must be described. A description of any subcontracting arrangements that will be used for conducting the research must be included. A tentative schedule for conducting major steps involved in the investigation must also be included.
(vi) The expected output of the project. A description of how the results of the research will be disseminated should be presented. Responsibility for publishing any research reports or other types of output should also be identified.
(5) Collaborative arrangements. If the nature of the proposed project requires collaboration or subcontractual arrangements with other research scientists, corporations, organizations, agencies, or entities, the applicant must identify the collaborator(s) and provide a full explanation of the nature of the collaboration. Evidence (i.e., letters of intent) should be provided to assure reviewers that the collaborators involved have agreed to render this service. In addition, the proposal must indicate whether or not such a collaborative arrangement(s) has the potential for conflict(s) of interest.
(6) Personnel support. To assist reviewers in assessing the competence and experience of the proposed project staff, key personnel who will be involved in the proposed project must be identified clearly. For each principal investigator involved, and for all senior associates and other professional personnel who expect to work on the project, whether or not funds are sought for their support, the following must be included:
(i) An estimate of the time commitments necessary;
(ii) Curriculum Vitae. The curriculum vitae should be limited to a presentation of academic and research credentials, e.g., educational, employment and professional history, and honors and awards. Unless pertinent to the project, it should not include meetings attended, seminars given, or personal data such as birth date, marital status, or community activities; and
(iii) Publication List(s). A chronological list of all publications in refereed journals during the past five years, including those in press, must be provided for each professional project member for whom a curriculum vitae is provided. Also list other non-refereed technical publications that have relevance to the proposed project. Authors should be listed in the same order as they appear on each paper cited,
§ 4285.69 Evaluation and disposition of applications.

(a) Evaluation. (1) All proposals received from eligible applicants and postmarked in accordance with deadlines established in the annual program solicitation shall be evaluated by the Assistant Administrator for Cooperative Services through an RDA or its successor agency staff panel. The Assistant Administrator for Cooperative Services will select the evaluation panel from staff determined to be highly qualified in the subject matter areas that were emphasized in the current year's solicitation and from those with no potential conflict of interest with the applicants.

(2) Prior to technical examination, a preliminary review will be made for responsiveness to the program solicitation (e.g., relationship of proposal to research topic(s) listed in solicitation). Proposals that do not fall within the guidelines as stated in the program solicitation will be eliminated from competition and will be returned to the applicant.

(3) Proposals will be ranked based on evaluation criteria established in § 4285.70 of this subpart, and financial support levels will be recommended to the Assistant Administrator for Cooperative Services by the panel within the limitation of the total funding available in the fiscal year. The purpose of these evaluations is to provide information upon which the Assistant Administrator for Cooperative Services may make informed judgments in selecting proposals. Such recommendations are advisory only and are not binding on the awarding official of RDA or its successor agency. To ensure a comprehensive evaluation, all applications should be written with the care and thoroughness accorded papers for publication.

(b) Disposition. (1) On the basis of the Assistant Administrator for Cooperative Services's evaluation of an application in accordance with paragraph (a) of this section, the Assistant Administrator for Cooperative Services will either:

(i) Approve support using currently available funds;

(ii) Defer support due to lack of funds or need for further evaluation; or

(iii) Disapprove support for the proposed project in whole or in part.

(2) With respect to any approved project, the Assistant Administrator for Cooperative Services will determine the project period during which the project may be funded.

(3) Any deferral or disapproval of an application will not preclude its reconsideration or reapplication during subsequent fiscal years. However, applicants must reapply if reconsideration is desired.

(4) The Assistant Administrator for Cooperative Services will not make a cooperative agreement funding award, based upon an application covered by this part, unless the application has been properly reviewed in accordance with the provisions of this part and unless said reviewers have made recommendations concerning the scientific merit and relevance to the program of such application.

§ 4285.70 Evaluation criteria.

(a) In evaluating the proposal, the RDA or its successor agency staff review panel and the awarding official will take into account the degree to which the proposal demonstrates the following:

(1) Focus on a practical solution to a significant problem involving one or more of the following on a cooperative business basis: the preparation for market, processing, packaging, handling, storing, transporting, distributing, or marketing of agricultural products. (35%)

(2) Adequacy, soundness, and appropriateness of the proposed approach to solve the identified problem. (30%)

(3) Feasibility and probability of success of project solving the problem. (10%)

(4) Qualifications, experience in related work, competence, and availability of project personnel to direct and carry out the project. (25%)

(b) In addition, the cost relative to the expected research results will be
§§ 4285.71–4285.80

considered in determining the awarding of the agreements.

§§ 4285.71–4285.80 [Reserved]

§ 4285.81 Cooperative agreement awards.

(a) General. Within the limit of funds available for such purpose, the awarding official shall make awards for cooperative agreements to those applicants whose proposals are judged most meritorious in the announced program areas under the evaluation criteria and procedures set forth in this part. The date specified by the Assistant Administrator for Cooperative Services as the beginning of the project period shall be no later than September 30 of the Federal fiscal year in which the project is approved and funds are appropriated for such purpose, unless otherwise permitted by law. All funds awarded under this part shall be expended solely in accordance with the methods identified in approved application and budget, the regulations of this part, the terms and conditions of the award, the applicable Federal cost principles, and the Department’s “Uniform Federal Assistance Regulations” (part 3015 of this title) and the Department’s “Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments” (part 3016 of this title).

(b) Cooperative agreement award document and notice of award. (1) Cooperative agreement award document. The award document shall include at a minimum the following:

(i) Legal name and address of performing organization or institution to whom the Assistant Administrator for Cooperative Services has competitively awarded funds under the terms of this part;

(ii) Title of project;

(iii) Name(s) and address(es) of principal investigator(s) chosen to direct and control approved activities;

(iv) Identifying cooperative agreement number assigned by RDA or its successor agency;

(v) Project period, specifying the amount of time the Agency intends to support the project without requiring recompetition for funds;

(vi) Total amount of Agency financial assistance approved by the Assistant Administrator for Cooperative Services during the project period;

(vii) Legal authority(ies) under which the cooperative agreement is awarded;

(ix) Other information or provisions deemed necessary by RDA or its successor agency to carry out its agreement activities or to accomplish the purpose of a particular cooperative agreement.

(2) Notice of award. The notice of award of funds for the cooperative agreement will be in the form of a letter providing pertinent instructions or information to the cooperator.

(c) Types of cooperative agreement instruments. The types of cooperative agreements shall be as follows:

(1) New agreement. This is an agreement instrument by which RDA or its successor agency agrees to support a specified level of effort for a project not supported previously under this program. This type of agreement is approved on the basis of an RDA or its successor agency Staff evaluation review and recommendation.

(2) Renewal agreement. This is an agreement instrument by which RDA or its successor agency agrees to provide additional funding for a project beyond the period approved in an original or amended agreement, provided that the cumulative period does not exceed the statutory limitation. When a renewal application is submitted, it must include a summary of progress to date from the previous agreement period. A renewal agreement shall be based upon new application, de novo review and staff evaluation, new recommendation and approval, and a new award instrument.

(3) Supplemental agreement. This is an instrument by which RDA or its successor agency agrees to provide small amounts of additional funding under a new or renewal cooperative agreement as specified in paragraphs (c)(1) and (c)(2) of this section and may involve a short-term (usually one year or less) extension of the project period beyond that approved in an original or
amended award, but in no case may the cumulative period for the project exceed the statutory limitation. A supplement is awarded only if required to assure adequate completion of the original scope of work and if there is sufficient justification to warrant such action. A request of this nature will not require additional review.

(d) Obligation of the Federal Government. The approval of any application or the award of any funds for a cooperative agreement shall not commit nor obligate the United States in any way to make any renewal, supplemental, continuation, or other award with respect to any approved application or portion of an approved application.

(e) Obligation of the cooperator. The cooperator shall be responsible for:

(1) Making a brief quarterly progress reports at the end of each December, March, June and September to the FSROC program staff for the duration of the research project;

(2) Presenting a final administrative report on the project at the end of the research project; and

(3) Preparing and publishing a report(s) of research findings for dissemination to interested producers, cooperatives, and agencies. Include recognition to financial and other assistance received from the FSROC program.

§ 4285.82 Use of funds; changes.

(a) Delegation of fiscal responsibility. The cooperator may not, in whole or in part, delegate or transfer to another person, institution, or organization the responsibility for use or expenditure of cooperative agreement funds.

(b) Change in project plans. (1) The permissible changes by the cooperator, principal investigator(s), or other key project personnel in the approved cooperative agreement shall be limited to changes in methodology, techniques, or other aspects of the project to expedite achievement of the project’s approved goals. If the cooperator and/or the principal investigator(s) is uncertain whether a particular change complies with this provision, the question must be referred to the Assistant Administrator for Cooperative Services for a final determination.

(2) Changes in approved goals, or objectives, shall be requested by cooperator and approved in writing by the Assistant Administrator for Cooperative Services, or authorized delegate, prior to effecting such changes. Normally, no requests for such changes outside the scope of the original approved project will be approved.

(3) Changes in approved project leadership or the replacement or realignment of other key project personnel shall be requested by the cooperator and approved in writing by the Assistant Administrator for Cooperative Services, or authorized delegate, prior to effecting such changes.

(4) Transfers of actual performance of the substantive programmatic work in whole or in part and provisions for payment of funds, whether or not Federal funds are involved, shall be requested by the cooperator and approved in writing by the Assistant Administrator for Cooperative Services, or authorized delegate, prior to effecting such changes. Normally, no requests for such changes outside the scope of the original approved project will be approved.

(c) Changes in project period. The project period determined pursuant to §4285.81(b) of this subpart may be extended by the Assistant Administrator for Cooperative Services without additional financial support, for such additional period(s) as the Assistant Administrator for Cooperative Services determines may be necessary to complete, or fulfill the purposes of, an approved project. Any extension, when combined with the originally approved or amended project period, shall not exceed four (4) years and shall be further conditioned upon prior request by the cooperator and approval in writing by the Assistant Administrator for Cooperative Services, or authorized delegate, except as may be allowed in the terms and conditions of a cooperative agreement award.

(d) Changes in approved budget. The terms and conditions of a cooperative agreement will prescribe circumstances under which a written Agency approval must be requested and obtained prior to instituting changes in an approved budget.
§ 4285.93 Other Federal statutes and regulations that apply.

Several other Federal statutes and regulations apply to cooperative agreement proposals considered for review or to agreements awarded under this part. These include but are not limited to:

(a) 7 CFR Part 1, Subpart A—USDA implementation of the Freedom of Information Act;
(b) 7 CFR Part 3—USDA implementation of OMB Circular A-129 regarding debt collection;
(c) 7 CFR Part 15, Subpart A—USDA implementation of title VI of the Civil Rights Act of 1964 in order to assure nondiscrimination;
(d) 7 CFR Part 1473—National Agricultural, Research, Extension, and Teaching Policy Act Amendments of 1981 if the project involves a college or university;
(e) 7 CFR Part 3015—USDA Uniform Federal Assistance Regulations implementing OMB directives (i.e., Circular Nos. A-110, A-21, and A-122) and incorporating provisions of 31 U.S.C. 6301-6308 (formerly, the Federal Grant and Cooperative Agreement Act of 1977, Pub. L. 95-224, 92 Stat. 3), as well as general policy requirements applicable to recipients of Departmental financial assistance;
(f) 7 CFR Part 3016—USDA Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments;
(g) 7 CFR Part 3017—USDA implementation of Governmentwide Debarment and Suspension (Nonprocurement) and Governmentwide Requirements for Drug-Free Workplace (Grants);
(h) 7 CFR Part 3018—USDA implementation of New Restrictions on Lobbying. Imposes new prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans;
(i) 7 CFR Part 3051—Audits of Institutions of Higher Education and Other Nonprofit Institutions;
(j) 29 U.S.C. 794, section 504—Rehabilitation Act of 1973, and 7 CFR Part 158 prohibiting discrimination based upon physical or mental handicap in Federally assisted programs;
(k) 35 U.S.C. 200 et seq.—Bayh-Dole Act, controlling allocation of rights to inventions made by employees of small business firms and domestic nonprofit organizations, including universities, in Federally assisted programs (implementing regulations are contained in 37 CFR part 401).

§ 4285.94 Other conditions.

Post-award requirements. Upon awarding the cooperative agreement, the post-award requirements of subparts C and D of part 3016 of this title apply.

§§ 4285.95—4285.99 [Reserved]

§ 4285.100 OMB control number.

The reporting and recordkeeping requirements contained in this regulation have been approved by the Office of Management and Budget (OMB) and have been assigned OMB control number 0570-0005. Public reporting burden for this collection of information is estimated to vary from 10 minutes to 36 hours per response with an average of 3.48 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Department of Agriculture, Clearance Officer, OIRM, Ag Box 7630, Washington, DC 20250; and to the Office of Management and Budget, Paperwork Reduction Project (OMB # 0570-0005), Washington, DC 20503.

PART 4287—SERVICING

Subpart A—[Reserved]

Subpart B—Servicing Business and Industry Guaranteed Loans

Sec. 4287.101 Introduction.
4287.102 Definitions.
4287.103 Exception authority.
4287.104—4287.106 [Reserved]
4287.107 Appeals.
4287.108 Routine servicing.
4287.109—4287.111 [Reserved]
4287.112 Interest rate adjustments.
§ 4287.107 Routine servicing.

(a) Lender reports. The lender must report the outstanding principal and interest balance on each guaranteed loan semiannually using Form FmHA 1980-41, “Guaranteed Loan Status Report.”

(b) Loan classification. Within 90 days of receipt of the Loan Note Guarantee, the lender must notify the Agency of the loan’s classification or rating under its regulatory standards. Should the classification be changed at a future time, the Agency must be notified immediately.
(c) Agency and lender conference. At the Agency’s request, the lender will meet with the Agency to ascertain how the guaranteed loan is being serviced and that the conditions and covenants of the Loan Agreement are being enforced.

(d) Financial reports. The lender must obtain and forward to the Agency the financial statements required by the Loan Agreement. The lender must submit annual financial statements to the Agency within 120 days of the end of the borrower’s fiscal year. The lender must analyze the financial statements and provide the Agency with a written summary of the lender’s analysis and conclusions, including trends, strengths, weaknesses, extraordinary transactions, and other indications of the financial condition of the borrower. Spreadsheets of the new financial statements must be included.

(e) Additional expenditures. The lender will not make additional loans to the borrower without first obtaining the prior written approval of the Agency, even though such loans will not be guaranteed.

§ 4287.112 Interest rate adjustments.

(a) Reductions. The borrower, lender, and holder (if any) may collectively initiate a permanent or temporary reduction in the interest rate of the guaranteed loan at any time during the life of the loan upon written agreement among these parties. The Agency must be notified by the lender, in writing, within 10 calendar days of the change. If any of the guaranteed portion has been purchased by the Agency, then the Agency will affirm or reject interest rate change proposals in writing. The Agency will concur in such interest-rate changes only when it is demonstrated to the Agency that the change is a more viable alternative than initiating or proceeding with liquidation of the loan or continuing with the loan in its present state.

(1) Fixed rates can be changed to variable rates to reduce the borrower’s interest rate only when the variable rate has a ceiling which is less than or equal to the original fixed rate.

(2) Variable rates can be changed to a fixed rate which is at or below the current variable rate.

(3) The interest rates, after adjustments, must comply with the requirements for interest rates on new loans as established by §4279.125 of subpart B of part 4279 of this chapter.

(4) The lender is responsible for the legal documentation of interest-rate changes by an endorsement or any other legally effective amendment to the promissory note; however, no new notes may be issued. Copies of all legal documents must be provided to the Agency.

(b) Increases. No increases in interest rates will be permitted except the normal fluctuations in approved variable interest rates unless a temporary interest-rate reduction had occurred.

§ 4287.113 Release of collateral.

(a) All releases of collateral with a value exceeding $100,000 must be supported by a current appraisal on the collateral released. The appraisal will be at the expense of the borrower and must meet the requirements of §4279.144 of subpart B of part 4279 of this chapter. The remaining collateral must be sufficient to provide for repayment of the Agency’s guaranteed loan. The Agency, at its discretion, may require an appraisal of the remaining collateral in cases where it is determined that the Agency may be adversely affected by the release of collateral. Sale or release of collateral must be based on an arm’s-length transaction.

(b) Within the parameters of paragraph (a) of this section, lenders may, over the life of the loan, release collateral (other than personal and corporate guarantees) with a cumulative value of up to 20 percent of the original loan amount without Agency concurrence if the proceeds generated are used to reduce the guaranteed loan or to buy replacement collateral.

(c) Within the parameters of paragraph (a) of this section, release of collateral with a cumulative value in excess of 20 percent of the original loan or when the proceeds will not be used to reduce the guaranteed loan or to buy replacement collateral must be requested in writing by the lender and concurred in by the Agency in writing.
in advance of the release. A written evaluation will be completed by the lender to justify the release.

§§ 4287.114—4287.122 [Reserved]

§ 4287.123 Subordination of lien position.

A subordination of the lender’s lien position must be requested in writing by the lender and concurred in by the Agency in writing in advance of the subordination. The subordination must enhance the borrower’s business and the Agency’s interest. After the subordination, collateral must be adequate to secure the loan. The lien to which the guaranteed loan is subordinated must be for a fixed dollar limit and fixed or limited term, after which the guaranteed loan lien priority will be restored. Subordination to a revolving line of credit will not exceed 1 year. There must be adequate consideration for the subordination.

§ 4287.124 Alterations of loan instruments.

The lender shall neither alter nor approve any alterations of any loan instrument without the prior written approval of the Agency.

§§ 4287.125—4287.133 [Reserved]

§ 4287.134 Transfer and assumption.

(a) Documentation of request. All transfers and assumptions must be approved in writing by the Agency and must be to eligible applicants in accordance with subpart B of part 4279 of this chapter. An individual credit report must be provided for transferee proprietors, partners, officers, directors, and stockholders with 20 percent or more interest in the business, along with such other documentation as the Agency may request to determine eligibility.

(b) Terms. Loan terms must not be changed unless the change is approved in writing by the Agency with the concurrence of any holder and the transferor (including guarantors) if they have not been or will not be released from liability. Any new loan terms must be within the terms authorized by 4279.126 of subpart B of part 4279 of this chapter. The lender’s request for approval of new loan terms will be supported by an explanation of the reasons for the proposed change in loan terms.

(c) Release of liability. The transferor, including any guarantor, may be released from liability only with prior Agency written concurrence and only when the value of the collateral being transferred is at least equal to the amount of the loan being assumed and is supported by a current appraisal and a current financial statement. The Agency will not pay for the appraisal. If the transfer is for less than the debt, the lender must demonstrate to the Agency that the transferor and guarantors have no reasonable debt-paying ability considering their assets and income in the foreseeable future.

(d) Proceeds. Any proceeds received from the sale of collateral before a transfer and assumption will be credited to the transferor’s guaranteed loan debt in inverse order of maturity before the transfer and assumption are closed.

(e) Additional loans. Loans to provide additional funds in connection with a transfer and assumption must be considered as a new loan application under subpart B of part 4279 of this chapter.

(f) Credit quality. The lender must make a complete credit analysis which is subject to Agency review and approval.

(g) Documents. Prior to Agency approval, the lender must advise the Agency, in writing, that the transaction can be properly and legally transferred, and the conveyance instruments will be filed, registered, or recorded as appropriate.

(1) The assumption will be done on the lender’s form of assumption agreement and will contain the Agency case number of the transferor and transferee. The lender will provide the Agency with a copy of the transfer and assumption agreement. The lender must ensure that all transfers and assumptions are noted on all original Loan Note Guarantees.

(2) A new Loan Agreement, consistent in principle with the original Loan Agreement, should be executed to establish the terms and conditions of the loan being assumed. An assumption agreement can be used to establish the loan covenants.
§ 4287.135

(3) The lender will provide to the Agency a written certification that the transfer and assumption is valid, enforceable, and complies with all Agency regulations.

(h) Loss resulting from transfer. If a loss should occur upon consummation of a complete transfer and assumption for less than the full amount of the debt and the transferor (including personal guarantors) is released from liability, the lender, if it holds the guaranteed portion, may file an estimated report of loss to recover its pro rata share of the actual loss. If a holder owns any of the guaranteed portion, such portion must be repurchased by the lender or the Agency in accordance with 4279.78(c) of subpart A of part 4279 of this chapter. In completing the report of loss, the amount of the debt assumed will be entered as net collateral (recovery). Approved protective advances and accrued interest thereon made during the arrangement of a transfer and assumption will be included in the calculations.

(i) Related party. If the transferor and transferee are affiliated or related parties, any transfer and assumption must be for the full amount of the debt.

(j) Payment requests. Requests for a loan guarantee to provide equity for a transfer and assumption must be considered as a new loan under subpart B of part 4279 of this chapter.

(k) Cash downpayment. When the transferee will be making a cash downpayment as part of the transfer and assumption:

(1) The lender must have an appropriate appraiser, acceptable to both the transferee and transferor and currently authorized to perform appraisals, determine the value of the collateral securing the loan. The appraisal fee and any other costs will not be paid by the Agency.

(2) The market value of the collateral, plus any additional property the transferee proposes to offer as collateral, must be adequate to secure the balance of the guaranteed loans.

(3) Cash downpayments may be paid directly to the transferor provided:

(i) The lender recommends that the cash be released, and the Agency concurs prior to the transaction being completed. The lender may wish to require that an amount be retained for a defined period of time as a reserve against future defaults. Interest on such account may be paid periodically to the transferor or transferee as agreed;

(ii) The lender determines that the transferee has the repayment ability to meet the obligations of the assumed guaranteed loan as well as any other indebtedness;

(iii) Any payments by the transferee to the transferor will not suspend the transferee’s obligations to continue to meet the guaranteed loan payments as they come due under the terms of the assumption; and

(iv) The transferor agrees not to take any action against the transferee in connection with the assumption without prior written approval of the lender and the Agency.

§ 4287.135 Substitution of lender.

After the issuance of a Loan Note Guarantee, the lender shall not sell or transfer the entire loan without the prior written approval of the Agency. The Agency will not pay any loss or share in any costs (i.e., appraisal fees, environmental studies, or other costs associated with servicing or liquidating the loan) with a new lender unless a relationship is established through a substitution of lender in accordance with paragraph (a) of this section. This includes cases where the lender has failed and been taken over by a regulatory agency such as the Federal Deposit Insurance Corporation (FDIC) and the loan is subsequently sold to another lender.

(a) The Agency may approve the substitution of a new lender if:

(1) the proposed substitute lender:

(i) is an eligible lender in accordance with 4279.29 of subpart A of part 4279 of this chapter;

(ii) is able to service the loan in accordance with the original loan documents; and

(iii) agrees in writing to acquire title to the unguaranteed portion of the loan held by the original lender and assumes all original loan requirements, including liabilities and servicing responsibilities.

(b) the substitution of the lender is requested in writing by the borrower,
the proposed substitute lender, and the original lender if still in existence.

(b) Where the lender has failed and been taken over by FDIC and the guaranteed loan is liquidated by FDIC rather than being sold to another lender, the Agency will pay losses and share in costs as if FDIC were an approved substitute lender.

§§ 4287.136—4287.144 [Reserved]

§ 4287.145 Default by borrower.

(a) The lender must notify the Agency when a borrower is 30 days past due on a payment or is otherwise in default of the Loan Agreement. Form FmHA 1980-44, “Guaranteed Loan Borrower Default Status,” will be used and the lender will continue to submit this form bimonthly until such time as the loan is no longer in default. If a monetary default exceeds 60 days, the lender will arrange a meeting with the Agency and the borrower to resolve the problem.

(b) In considering options, the prospects for providing a permanent cure without adversely affecting the risk to the Agency and the lender is the paramount objective.

(1) Curative actions include but are not limited to:

(i) deferment of principal (subject to rights of any holder);

(ii) an additional unguaranteed loan by the lender to bring the account current;

(iii) reamortization of or rescheduling the payments on the loan (subject to rights of any holder);

(iv) transfer and assumption of the loan in accordance with §4287.134 of this subpart;

(v) reorganization;

(vi) liquidation;

(vii) subsequent loan guarantees; and

(viii) changes in interest rates with the Agency’s, the lender’s, and holder’s approval, provided that the interest rate is adjusted proportionately between the guaranteed and unguaranteed portion of the loan and the type of rate remains the same.

(2) In the event a deferment, rescheduling, reamortization, or moratorium is accomplished, it will be limited to the remaining life of the collateral or remaining limits as contained in §4279.126 of subpart B of part 4279 of this chapter, whichever is less.

§§ 4287.146—4287.155 [Reserved]

§ 4287.156 Protective advances.

Protective advances are advances made by the lender for the purpose of preserving and protecting the collateral where the debtor has failed to, will not, or cannot meet its obligations. Sound judgment must be exercised in determining that the protective advance preserves collateral and recovery is actually enhanced by making the advance. Protective advances will not be made in lieu of additional loans.

(a) The maximum loss to be paid by the Agency will never exceed the original principal plus accrued interest regardless of any protective advances made.

(b) Protective advances and interest thereon at the note rate will be guaranteed at the same percentage of loss as provided in the Loan Note Guarantee.

(c) Protective advances must constitute an indebtedness of the borrower to the lender and be secured by the security instruments. Agency written authorization is required when cumulative protective advances exceed $5,000.

§ 4287.157 Liquidation.

In the event of one or more incidents of default or third party actions that the borrower cannot or will not cure or eliminate within a reasonable period of time, liquidation may be considered. If the lender concludes that liquidation is necessary, it must request the Agency’s concurrence. The lender will liquidate the loan unless the Agency, at its option, carries out liquidation. When the decision to liquidate is made, if the loan has not already been repurchased, provisions will be made for repurchase in accordance with §4279.78 of subpart A of part 4279 of this chapter.

(a) Decision to liquidate. A decision to liquidate shall be made when it is determined that the default cannot be cured through actions contained in §4287.145 of this subpart or it has been determined that it is in the best interest of the Agency and the lender to liquidate. The decision to liquidate or
continue with the borrower must be made as soon as possible when any of the following exist:

1. A loan has been delinquent 90 days and the lender and borrower have not been able to cure the delinquency through one of the actions contained in §4287.145 of this subpart.

2. It has been determined that delaying liquidation will jeopardize full recovery on the loan.

3. The borrower or lender has been uncooperative in resolving the problem and the Agency or the lender has reason to believe the borrower is not acting in good faith, and it would enhance the position of the guarantee to liquidate immediately.

(b) Liquidation by the Agency. The Agency may require the lender to assign the security instruments to the Agency if the Agency, at its option, decides to liquidate the loan. When the Agency liquidates, reasonable liquidation expenses will be assessed against the proceeds derived from the sale of the collateral. Form FmHA 1980-45, “Notice of Liquidation Responsibility,” will be forwarded to the Finance Office when the Agency liquidates the loan.

(c) Submission of liquidation plan. The lender will, within 30 days after a decision to liquidate, submit to the Agency in writing its proposed detailed method of liquidation. Upon approval by the Agency of the liquidation plan, the lender will commence liquidation.

(d) Lender’s liquidation plan. The liquidation plan must include, but is not limited to, the following:

1. Such proof as the Agency requires to establish the lender’s ownership of the guaranteed loan promissory note and related security instruments and a copy of the payment ledger if available which reflects the current loan balance and accrued interest to date and the method of computing the interest.

2. A full and complete list of all collateral including any personal and corporate guarantees.

3. The recommended liquidation methods for making the maximum collection possible on the indebtedness and the justification for such methods, including recommended action:

   (i) to acquire and disposing of all collateral; and

   (ii) to collect from guarantors.

4. Necessary steps for preservation of the collateral.

5. Copies of the borrower’s latest available financial statements.

6. Copies of the guarantor’s latest available financial statements.

7. An itemized list of estimated liquidation expenses expected to be incurred along with justification for each expense.

8. A schedule to periodically report to the Agency on the progress of liquidation.

9. Estimated protective advance amounts with justification.

10. Proposed protective bid amounts on collateral to be sold at auction and a breakdown to show how the amounts were determined.

11. If a voluntary conveyance is considered, the proposed amount to be credited to the guaranteed debt.

12. Legal opinions, if needed.

13. If the outstanding balance of principal and accrued interest is less than $200,000, the lender will obtain an estimate of fair market and potential liquidation value of the collateral. If the outstanding balance of principal and accrued interest is $200,000 or more, the lender will obtain an independent appraisal report meeting the requirements of §4279.144 of subpart B of part 4279 of this chapter on all collateral securing the loan which will reflect the fair market value and potential liquidation value. In order to formulate a liquidation plan which maximizes recovery, collateral must be evaluated for the release of hazardous substances, petroleum products, or other environmental hazards which may adversely impact the market value of the collateral. The appraisal shall consider this aspect. The independent appraiser’s fee, including the cost of the environmental site assessment, will be shared equally by the Agency and the lender.

(e) Approval of liquidation plan. The Agency will inform the lender in writing whether it concurs in the lender’s liquidation plan. Should the Agency and the lender not agree on the liquidation plan, negotiations will take place between the Agency and the lender to resolve the disagreement. When the liquidation plan is approved by the
RBS and RUS, USDA § 4287.157

Agency, the lender will proceed expeditiously with liquidation.

(1) A transfer and assumption of the borrower’s operation can be accomplished before or after the loan goes into liquidation. However, if the collateral has been purchased through foreclosure or the borrower has conveyed title to the lender, no transfer and assumption is permitted.

(2) A protective bid may be made by the lender, with prior Agency written approval, at a foreclosure sale to protect the lender’s and the Agency’s interest. The protective bid will not exceed the amount of the loan, including expenses of foreclosure, and should be based on the liquidation value considering estimated expenses for holding and reselling the property. These expenses include, but are not limited to, expenses for resale, interest accrual, length of time necessary for resale, maintenance, guard service, weatherization, and prior liens.

(f) Acceleration. The lender, or the Agency if it liquidates, will proceed to accelerate the indebtedness as expeditiously as possible when acceleration is necessary including giving any notices and taking any other legal actions required. A copy of the acceleration notice or other acceleration document will be sent to the Agency (or lender if the Agency liquidates). The guaranteed loan will be considered in liquidation once the loan has been accelerated and a demand for payment has been made upon the borrower.

(g) Filing an estimated loss claim. When the lender is conducting the liquidation and owns any or all of the guaranteed portion of the loan, the lender will file an estimated loss claim once a decision has been made to liquidate if the liquidation will exceed 90 days. The estimated loss payment will be based on the liquidation value of the collateral. For the purpose of reporting and loss claim computation, the lender will discontinue interest accrual on the defaulted loan in accordance with Agency procedures, and the loss claim will be promptly processed in accordance with applicable Agency regulations.

(h) Accounting and reports. When the lender conducts liquidation, it will account for and report the period of liquidation and will provide the Agency with reports at least quarterly on the progress of liquidation including disposition of collateral, resulting costs, and additional procedures necessary for successful completion of the liquidation.

(i) Transferring payments and proceeds to the Agency. When the Agency is the holder of a portion of the guaranteed loan, the lender will transfer to the Agency its pro rata share of any payments received from the borrower; liquidation; or other proceeds using Form FmHA 1980–43, “Lender’s Guaranteed Loan Payment to FmHA.”

(j) Abandonment of collateral. There may be instances when the cost of liquidation would exceed the potential recovery value of the collection. The lender, with proper documentation and concurrence of the Agency, may abandon the collateral in lieu of liquidation. A proposed abandonment will be considered a servicing action requiring the appropriate environmental review by the Agency in accordance with subpart G of part 1940 of this title. Examples where abandonment may be considered include, but are not limited to:

(1) The cost of liquidation is increased or the value of the collateral is decreased by environmental issues;

(2) The collateral is functionally or economically obsolete;

(3) There are superior liens held by other parties in excess of the value of the collateral;

(4) The collateral has deteriorated; or

(5) The collateral is specialized and there is little or no demand for it.

(k) Disposition of personal or corporate guarantees. The lender should take action to maximize recovery from all collateral, including personal and corporate guarantees. The lender will seek a deficiency judgment when there is a reasonable chance of future collection of the judgment. The lender must make a decision whether or not to seek a deficiency judgment when:

(1) a borrower voluntarily liquidates the collateral, but the sale fails to pay the guaranteed indebtedness;

(2) the collateral is voluntarily conveyed to the lender, but the borrower and personal and corporate guarantors are not released from liability; or

(3) a liquidation plan is being developed for forced liquidation.
§ 4287.158

(1) Compromise settlement. A compromise settlement may be considered at any time.

(2) The lender and the Agency must receive complete financial information on all parties obligated for the loan and must be satisfied that the statements reflect the true and correct financial position of the debtor including all assets. Adequate consideration must be received before a release from liability is issued. Adequate consideration includes money, additional security, or other benefit to the goals and objectives of the Agency.

(3) Before a personal guarantor can be released from liability, the following factors must be considered:

(i) Cash, either lump sum or over a period of time, or other consideration offered by the guarantor;

(ii) Age and health of the guarantor;

(iii) Potential income of the guarantor;

(iv) Inheritance prospects of the guarantor;

(v) Availability of the guarantor’s assets;

(vi) Possibility that the guarantor’s assets have been concealed or improperly transferred; and

(vii) Effect of other guarantors on the loan.

(4) Once the Agency and the lender agree on a reasonable amount that is fair and adequate, the lender can proceed to effect the settlement compromise.

(5) A compromise will only be accepted if it is in the best interest of the Agency.

§ 4287.158 Determination of loss and payment.

In all liquidation cases, final settlement will be made with the lender after the collateral is liquidated, unless otherwise designated as a future recovery or after settlement and compromise of all parties has been completed. The Agency will have the right to recover losses paid under the guarantee from any party which may be liable.

(a) Report of loss form. Form FMHA 449-30, “Loan Note Guarantee Report of Loss,” will be used for calculations of all estimated and final loss determinations. Estimated loss payments may only be approved by the Agency after the Agency has approved a liquidation plan.

(b) Estimated loss. In accordance with the requirements of §4287.157(g) of this subpart, an estimated loss claim based on liquidation appraisal value will be prepared and submitted by the lender.

(c) Final loss. Within 30 days after liquidation of all collateral, except for certain unsecured personal or corporate guarantees as provided for in this section, is completed, a final report of loss must be prepared and submitted by the lender to the Agency. The Agency will guarantee interest beyond this 30-day period other than for the period of time it takes the Agency to process the loss claim. Before approval by the Agency of any final loss report, the lender must account for all funds during the period of liquidation, disposition of the collateral, all costs incurred, and any other information necessary for the successful completion of liquidation. Upon receipt of the final accounting and report of loss, the Agency may audit all applicable documentation to determine the final loss. The lender will make its records available and otherwise assist the Agency in making any investigation. The documentation accompanying the report of loss must support the amounts shown on Form FMHA 449-30.

(1) A determination must be made regarding the collectibility of unsecured personal and corporate guarantees. If reasonably possible, such guarantees
should be promptly collected or otherwise disposed of in accordance with §4287.157(k) of this subpart prior to completion of the final loss report. However, in the event that collection from the guarantors appears unlikely or will require a prolonged period of time, the report of loss will be filed when all other collateral has been liquidated, and unsecured personal or corporate guarantees will be treated as a future recovery with the net proceeds to be shared on a pro rata basis by the lender and the Agency.

(2) The lender must document that all of the collateral has been accounted for and properly liquidated and that liquidation proceeds have been properly accounted for and applied correctly to the loan.

(3) The lender will show a breakdown of any protective advance amount as to the payee, purpose of the expenditure, date paid, and evidence that the amount expended was proper and that payment was actually made.

(4) The lender will show a breakdown of liquidation expenses as to the payee, purpose of the expenditure, date paid, and evidence that the amount expended was proper and that payment was actually made. Liquidation expenses are recoverable only from collateral proceeds. Attorney fees may be approved as liquidation expenses provided the fees are reasonable and cover legal issues pertaining to the liquidation that could not be properly handled by the lender and its in-house counsel.

(5) Accrued interest will be supported by documentation as to how the amount was accrued. If the interest rate was a variable rate, the lender will include documentation of changes in both the selected base rate and the loan rate.

(6) Loss payments will be paid by the Agency within 60 days after the review of the final loss report and accounting of the collateral.

(d) Loss limit. The amount payable by the Agency to the lender cannot exceed the limits set forth in the Loan Note Guarantee.

(e) Rent. Any net rental or other income that has been received by the lender from the collateral will be applied on the guaranteed loan debt.

(f) Liquidation costs. Liquidation costs will be deducted from the proceeds of the disposition of primary collateral. If changed circumstances after submission of the liquidation plan require a substantial revision of liquidation costs, the lender will procure the Agency's written concurrence prior to proceeding with the proposed changes. No in-house expenses of the lender will be allowed. In-house expenses include, but are not limited to, employee's salaries, staff lawyers, travel, and overhead.

(g) Payment. When the Agency finds the final report of loss to be proper in all respects, it will approve Form FmHA 449-30 and proceed as follows:

(1) If the loss is greater than any estimated loss payment, the Agency will pay the additional amount owed by the Agency to the lender.

(2) If the loss is less than the estimated loss payment, the lender will reimburse the Agency for the overpayment plus interest at the note rate from the date of payment.

(3) If the Agency has conducted the liquidation, it will pay the lender in accordance with the Loan Note Guarantee.

§§ 4287.159—4287.168 [Reserved]

§ 4287.169 Future recovery.

After a loan has been liquidated and a final loss has been paid by the Agency, any future funds which may be recovered by the lender will be pro rated between the Agency and the lender based on the original percentage of guarantee.

§ 4287.170 Bankruptcy.

The lender is responsible for protecting the guaranteed loan and all collateral securing the loan in bankruptcy proceedings.

(a) Lender's responsibilities. It is the lender's responsibility to protect the guaranteed loan debt and all of the collateral securing it in bankruptcy proceedings. These responsibilities include but are not limited to the following:

(1) The lender will file a proof of claim where necessary and all the necessary papers and pleadings concerning the case.
§ 4287.170

(2) The lender will attend and, where necessary, participate in meetings of the creditors and all court proceedings.
(3) When permitted by the Bankruptcy Code, the lender will request modification of any plan of reorganization whenever it appears that additional recoveries are likely.
(4) The Agency will be kept adequately and regularly informed in writing of all aspects of the proceedings.
(5) In a Chapter 11 reorganization, if an independent appraisal of collateral is necessary in the Agency’s opinion, the Agency and the lender will share such appraisal fee equally.

(b) Reports of loss during bankruptcy.
When the loan is involved in reorganization proceedings, payment of loss claims may be made as provided in this section. For a liquidation proceeding, only paragraphs (b)(3) and (5) of this section are applicable.
(1) Estimated loss payments.
(i) If a borrower has filed for protection under Chapter 11 of the United States Code for a reorganization (but not Chapter 13) and all or a portion of the debt has been discharged, the lender will request an estimated loss payment of the guaranteed portion of the accrued interest and principal discharged by the court. Only one estimated loss payment is allowed during the reorganization. All subsequent claims of the lender during reorganization will be considered revisions to the initial estimated loss. A revised estimated loss payment may be processed by the Agency, at its option, in accordance with any court-approved changes in the reorganization plan. Once the reorganization plan has been completed, the lender is responsible for submitting the documentation necessary for the Agency to review and adjust the estimated loss claim to reflect any actual discharge of principal and interest and to reimburse the lender for any court-ordered interest-rate reduction under the terms of the reorganization plan.
(ii) The lender will use Form FmHA 449-30 to request an estimated loss payment and to revise any estimated loss payments during the course of the reorganization plan. The estimated loss claim, as well as any revisions to this claim, will be accompanied by documentation to support the claim.
(iii) Upon completion of a reorganization plan, the lender will complete a Form FmHA 1900-44 and forward this form to the Finance Office.
(2) Interest loss payments.
(i) Interest losses sustained during the period of the reorganization plan will be processed in accordance with paragraph (b)(1) of this section.
(ii) Interest losses sustained after the reorganization plan is completed will be processed annually when the lender sustains a loss as a result of a permanent interest rate reduction which extends beyond the period of the reorganization plan.
(iii) If an estimated loss claim is paid during the operation of the Chapter 11 reorganization plan and the borrower repays in full the remaining balance without an additional loss sustained by the lender, a final report of loss is not necessary.
(3) Final loss payments. Final loss payments will be processed when the loan is liquidated.
(4) Payment application. The lender must apply estimated loss payments first to the unsecured principal of the guaranteed portion of the debt and then to the unsecured interest of the guaranteed portion of the debt. In the event a bankruptcy court attempts to direct the payments to be applied in a different manner, the lender will immediately notify the Agency servicing office.
(5) Overpayments. Upon completion of the reorganization plan, the lender will provide the Agency with the documentation necessary to determine whether the estimated loss paid equals the actual loss sustained. If the actual loss sustained as a result of the reorganization is less than the estimated loss, the lender will reimburse the Agency for the overpayment plus interest at the note rate from the date of payment of the estimated loss. If the actual loss is greater than the estimated loss payment, the lender will submit a revised estimated loss in order to obtain payment of the additional amount owed by the Agency to the lender.
(6) Protective advances. If approved protective advances were made prior to the borrower having filed bankruptcy, these protective advances and accrued
interest will be considered in the loss calculations.

(c) Legal expenses during bankruptcy proceedings. (1) When a bankruptcy proceeding results in a liquidation of the borrower by a trustee, legal expenses will be handled as directed by the court.

(2) Chapter 11 pertains to a reorganization of a business contemplating an ongoing business rather than a termination and dissolution of the business where legal protection is afforded to the business as defined under Chapter 11 of the Bankruptcy Code. Consequently, expenses incurred by the lender in a Chapter 11 reorganization can never be liquidation expenses unless the proceeding becomes a Chapter 11 liquidation. If the proceeding should become a Liquidating 11, reasonable and customary liquidation expenses may be deducted from proceeds of collateral as provided in the Lender's Agreement. Chapter 7 pertains to a liquidation of the borrower's assets. If, and when, liquidation of the borrower's assets under Chapter 7 is conducted by the bankruptcy trustee, then the lender cannot claim expenses.

§§ 4287.171–4287.179 [Reserved]

§ 4287.180 Termination of guarantee.

A guarantee under this part will terminate automatically:

(a) Upon full payment of the guaranteed loan;
(b) Upon full payment of any loss obligation; or
(c) Upon written notice from the lender to the Agency that the guarantee will terminate 30 days after the date of notice, provided that the lender holds all of the guaranteed portion and the Loan Note Guarantee is returned to the Agency to be canceled.

§§ 4287.181–4287.199 [Reserved]

§ 4287.200 OMB control number.

The information collection requirements contained in this regulation have been approved by OMB and have been assigned OMB control number 0575–0168. Public reporting burden for this collection of information is estimated to vary from 15 minutes to 8 hours per response, with an average of 4 hours per response, including time for reviewing the collection of information. Send comments regarding this burden, estimate or any other aspect of this collection of information, including suggestions for reducing this burden to the Department of Agriculture, Clearance Officer, OIRM, Stop 7630, Washington, DC 20250. You are not required to respond to this collection of information unless it displays a currently valid OMB control number.
