

PARTS 1108–1120 [RESERVED]

PART 1124—MILK IN THE PACIFIC NORTHWEST MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Sec.

1124.1 General provisions.

DEFINITIONS

- 1124.2 Pacific Northwest marketing area.
- 1124.3 Route disposition.
- 1124.4 Plant.
- 1124.5 Distributing plant.
- 1124.6 Supply plant.
- 1124.7 Pool plant.
- 1124.8 Nonpool plant.
- 1124.9 Handler.
- 1124.10 Producer-handler.
- 1124.11 Cooperative reserve supply unit.
- 1124.12 Producer.
- 1124.13 Producer milk.
- 1124.14 Other source milk.
- 1124.15 Fluid milk product.
- 1124.16 Fluid cream product.
- 1124.17 Filled milk.
- 1124.18 Cooperative association.
- 1124.19 [Reserved]
- 1124.20 Commercial food processing establishment.

HANDLER REPORTS

- 1124.30 Reports of receipts and utilization.
- 1124.31 Payroll reports.
- 1124.32 Other reports.

CLASSIFICATION OF MILK

- 1124.40 Classes of utilization.
- 1124.41 Shrinkage.
- 1124.42 Classification of transfers and diversions.
- 1124.43 General classification rules.
- 1124.44 Classification of producer milk.
- 1124.45 Market administrator's reports and announcements concerning classification.

CLASS AND COMPONENT PRICES

- 1124.50 Class and component prices.
- 1124.51 Basic formula price.
- 1124.52 Plant location adjustments for handlers.
- 1124.53 Announcement of class and component prices.
- 1124.54 Equivalent price.

PRODUCER PRICE DIFFERENTIAL

- 1124.60 Handlers' value of milk.
- 1124.61 Producer price differential.
- 1124.62 Announcement of the producer price differential and a statistical uniform price.

PAYMENTS FOR MILK

- 1124.70 Producer-settlement fund.
- 1124.71 Payments to the producer-settlement fund.
- 1124.72 Payments from the producer-settlement fund.
- 1124.73 Payments to producers and to cooperative associations.
- 1124.74 Plant location adjustments for producers and on nonpool milk.
- 1124.75 Payments by a handler operating a partially regulated distributing plant.
- 1124.76 Adjustment of accounts.
- 1124.77 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

- 1124.85 Assessment for order administration.
- 1124.86 Deduction for marketing services.

AUTHORITY: 7 U.S.C. 601-674.

SOURCE: 53 FR 52976, Dec. 30, 1988, unless otherwise noted.

Subpart—Order Regulating Handling

GENERAL PROVISIONS

§ 1124.1 General provisions.

The terms, definitions, and provisions in part 1000 of this chapter are hereby referenced and made a part of this order.

DEFINITIONS

§ 1124.2 Pacific Northwest marketing area.

Pacific Northwest Marketing Area (hereinafter called the "Marketing Area") means all territory geographically within the places listed below, including all territory fully or partly therein occupied by government (municipal, state or federal) reservations, facilities, installations, or institutions:

Idaho Counties:

Benewah, Bonner, Boundary, Kootenai, Latah, and Shoshone.

Washington counties:

Adams, Asotin, Benton, Chelan, Clallam, Clark, Columbia, Cowlitz, Douglas, Ferry, Franklin, Garfield, Grant, Grays Harbor, Island, Jefferson, King, Kitsap, Kittitas, Klickitat, Lewis, Lincoln, Mason, Okanogan, Pacific, Pend Oreille, Pierce, San Juan, Skagit, Skamania, Snohomish, Spokane, Stevens, Thurston, Wahkiakum,

§ 1124.3

Walla Walla, Whatcom, Whitman and Yakima.

Oregon Counties:

Benton, Clackamas, Clatsop, Columbia, Coos, Crook, Deschutes, Douglas, Gilliam, Hood River, Jackson, Jefferson, Josephine, Klamath, Lake, Lane, Lincoln, Linn, Marion, Morrow, Multnomah, Polk, Sherman, Tillamook, Umatilla, Wasco, Washington, Wheeler, and Yamhill.

[53 FR 52976, Dec. 30, 1988; 54 FR 3557, Jan. 24, 1989; as amended at 62 FR 2, Jan. 2, 1997]

**§ 1124.3 Route disposition.**

*Route disposition* means any delivery of a fluid milk product classified as Class I milk from a plant to a retail or wholesale outlet (including any delivery through a distribution point as provided by this section, by a vendor, from a plant store or through a vending machine). The term "route disposition" does not include:

(a) A delivery to a plant. However, packaged fluid milk products that are transferred to a pool distributing plant from another pool distributing plant, and classified as Class I under § 1124.42(a), shall be considered route disposition from the transferor-plant for the sole purpose of qualifying it as a pool distributing plant under § 1124.7(a), and the transferor-plant shall be assigned in-area dispositions but not in excess of the in-area dispositions of the transferee plant;

(b) A delivery in bulk to a commercial food processing establishment pursuant to § 1124.40(b)(3); or

(c) A delivery to a military or other ocean transport vessel leaving the marketing area, of fluid milk products which originated at a plant located outside the marketing area and were not received or processed at any pool plant.

**§ 1124.4 Plant.**

*Plant* means the buildings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment, which is maintained and operated primarily for the receiving, handling and/or processing of milk or milk products (including filled milk). Separate facilities used only as a distribu-

7 CFR Ch. X (1-1-98 Edition)

tion point for storing packaged fluid milk products in transit for route disposition or separate facilities used only as a reload point for transferring bulk milk from one tank truck to another shall not be a "plant" under this definition.

**§ 1124.5 Distributing plant.**

*Distributing plant* means a plant in which a fluid milk product approved by a duly constituted regulatory agency for fluid consumption, or filled milk, is processed or packaged and that has route disposition in the marketing area during the month.

**§ 1124.6 Supply plant.**

*Supply plant* means a plant from which a fluid milk product approved by a duly constituted regulatory agency for fluid consumption or filled milk, is transferred during the month to a pool distributing plant.

**§ 1124.7 Pool plant.**

Except as provided in paragraph (d) of this section, *pool plant* means:

(a) A distributing plant from which there is route disposition (except filled milk) in the marketing area during the month equal to not less than 10 percent of receipts of Grade A milk at such plant (exclusive of transfers of packaged fluid milk products from plants qualifying as pool plants pursuant to this paragraph, filled milk, and milk received at such plant as diverted milk from another plant, which milk is classified in Class III under this order and is subject to the pricing and pooling provisions of this or another order issued pursuant to the Act) or diverted therefrom pursuant to § 1124.13;

(b) A supply plant from which during any month not less than 20 percent of the total quantity of milk that is physically received at such plant from dairy farmers eligible to be producers pursuant to § 1124.12 (excluding milk received at such plant as diverted milk from another plant, which milk is classified in Class III under this order and is subject to the pricing and pooling provisions of this or another order issued pursuant to the Act) or diverted as producer milk to another plant pursuant to § 1124.13, is shipped in the form of a fluid milk product (except as filled

milk) to a pool distributing plant or is a route disposition in the marketing area of fluid milk products (except filled milk) processed and packaged at such plant; *Provided*, That:

(1) With respect to a supply plant operated by a cooperative association, the producer milk of its members which it caused to be delivered directly from their farms to pool distributing plants, shall for the purpose of this paragraph, be considered as a receipt at the cooperative's supply plant and a shipment from the supply plant to pool distributing plants;

(2) A plant which qualified as a pool plant pursuant to this paragraph in each month of September through February shall be a pool plant in each of the following months of March through August unless a written application is filed with the Market Administrator prior to the first day of any such month requesting that the plant be designated a nonpool plant for such month and each subsequent month through August during which it would not otherwise qualify as a pool plant; and

(3) For the purpose of this paragraph, the operations of two or more supply plants may be combined and considered as the operation of one plant if so requested in writing to the Market Administrator by the handler(s) operating such plants prior to the first day of the month for which such consideration is requested.

(c) The Director of the Dairy Division may reduce or increase up to 10 percentage points from the levels set forth therein the pool plant performance standards in paragraphs (a) or (b) of this section, if the Director finds such revision is necessary to obtain needed shipments or to prevent uneconomic shipments. Before making such a finding, the Director shall investigate the need for revision either at the Director's own initiative or at the request of interested persons. If the investigation shows that a revision might be appropriate, the Director shall issue a notice stating that the revision is being considered and invite data, views, and arguments.

(d) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) A plant qualified pursuant to paragraph (a) of this section which also meets the pooling requirements of another Federal Order and from which, the Secretary determines, there is a greater quantity of route disposition during the month in such other Federal Order marketing area than in this marketing area, except that if such plant was subject to all the provisions of this part in the immediately preceding month it shall continue to be subject to all the provisions of this part until the fourth consecutive month in which a greater proportion of its route disposition is made in such other marketing area unless, notwithstanding the provisions of this paragraph, it is regulated under such other order;

(3) A plant qualified pursuant to paragraph (a) of this section which also meets the pooling requirements of another Federal Order on the basis of route disposition in such other marketing area and from which, the Secretary determines, there is a greater quantity of route disposition in this marketing area than in such other marketing area but which plant maintains pooling status for the month under such other Federal Order;

(4) A plant qualified pursuant to paragraph (b) of this section which also meets the pool plant requirements of another Federal Order and from which greater shipments are made during the month to plants regulated under such other order than are made to plants regulated under this order;

(5) A distributing plant from which total route disposition (except filled milk) in the marketing area during the month averages 300 pounds or less per day; or

(6) That portion of a plant that is physically separated from the Grade A portion of such plant, is operated separately, and is not approved by any regulatory agency for the receiving, processing, or packaging of any fluid milk products for Grade A disposition.

[53 FR 52976, Dec. 30, 1988; 54 FR 3557, Jan. 24, 1989; 59 FR 15319, Apr. 1, 1994]

#### § 1124.8 Nonpool plant.

*Nonpool plant* means any plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

§ 1124.9

(a) *Other order plant* means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) *Producer-handler plant* means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) *Partially regulated distributing plant* means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which during the month an average of more than 300 pounds daily of fluid milk products is disposed of as route disposition in the marketing area.

(d) *Unregulated supply plant* means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products are moved to a pool plant during the month.

(e) *Exempt distributing plant* means a plant, other than a pool supply plant or a regulated plant under another Federal Order that meets all the requirements for status as a pool distributing plant except that its route disposition (exclusive of filled milk) in the marketing area in the month does not exceed an average of 300 pounds daily. For purposes of this paragraph, route disposition shall not include receipts from a transferor-plant pursuant to the proviso of § 1124.3(a).

**§ 1124.9 Handler.**

*Handler* means:

(a) The operator of one or more pool plants;

(b) Any cooperative association with respect to producer milk which it caused to be diverted for the account of such cooperative association to another plant or pursuant to § 1124.40(b)(3);

(c) Any cooperative association with respect to milk that it receives for its account from the farm of a producer for delivery to a pool plant of another handler in a tank truck owned and operated by, or under the control of, such cooperative association, unless both the cooperative association and the operator of the pool plant notify the market administrator prior to the time that such milk is delivered to the pool plant that the plant operator will be the handler for such milk and will pur-

7 CFR Ch. X (1-1-98 Edition)

chase such milk on the basis of weights determined from its measurement at the farm and butterfat and nonfat milk solids tests determined from farm bulk tank samples. Milk for which the cooperative association is the handler pursuant to this paragraph shall be deemed to have been received by the cooperative association at the location of the pool plant to which such milk is delivered;

(d) Any person who operates a plant defined in § 1124.8 (a) through (e).

[53 FR 52976, Dec. 30, 1988, as amended at 59 FR 15319, Apr. 1, 1994]

**§ 1124.10 Producer-handler.**

*Producer-handler* means a person who is engaged in the production of milk and also operates a plant from which during the month an average of more than 300 pounds daily of fluid milk products, except filled milk, is disposed of as route disposition within the marketing area and who has been so designated by the market administrator upon determination that all of the requirements of this section have been met, and that none of the conditions therein for cancellation of such designation exists. All designations shall remain in effect until canceled pursuant to paragraph (c) of this section. Any state institution shall be a producer-handler exempt from the provisions of this section and §§ 1124.30 and 1124.32 with respect to milk of its own production and receipts from pool plants processed or received for consumption in State institutions and with respect to movements of milk to or from a pool plant.

(a) *Requirements for designation.* (1) The producer-handler has and exercises (in its capacity as a handler) complete and exclusive control over the operation and management of a plant at which it handles and processes milk received from its milk production resources and facilities (designated as such pursuant to paragraph (b)(1) of this section), the operation and management of which are under the complete and exclusive control of the producer-handler (in its capacity as a dairy farmer).

(2) The producer-handler neither receives at its designated milk production resources and facilities nor receives, handles, processes or distributes at or through any of its milk handling, processing or distributing resources and facilities (designated as such pursuant to paragraph (b)(2) of this section) milk products for reconstitution into fluid milk products, or fluid milk products derived from any source other than (i) its designated milk production resources and facilities, (ii) pool plants within the limitation specified in paragraph (c)(2) of this section, or (iii) non-fat milk solids which are used to fortify fluid milk products.

(3) The producer-handler is neither directly nor indirectly associated with the business control or management of, nor has a financial interest in, another handler's operation; nor is any other handler so associated with the producer-handler's operation.

(4) Designation of any person as a producer-handler following a cancellation of its prior designation shall be preceded by performance in accordance with paragraph (a) (1), (2), and (3) of this section for a period of 1 month.

(b) *Resources and facilities.* Designation of a person as a producer-handler shall include the determination and designation of the milk production, handling, processing and distributing resources and facilities, all of which shall be deemed to constitute an integrated operation, as follows:

(1) As milk production resources and facilities: All resources and facilities (milking herd(s), buildings housing such herd(s), and the land on which such buildings are located) used for the production of milk:

(i) Which are directly, indirectly or partially owned, operated or controlled by the producer-handler;

(ii) In which the producer-handler in any way has an interest including any contractual arrangement; and

(iii) Which are directly, indirectly or partially owned, operated or controlled by any partner or stockholder of the producer-handler. However, for purposes of this paragraph any such milk production resources and facilities which the producer-handler proves to the satisfaction of the market administrator do not constitute an actual or

potential source of milk supply for the producer-handler's operation as such shall not be considered a part of the producer-handler's milk production resources and facilities; and

(2) As milk handling, processing and distributing resources and facilities: All resources and facilities (including store outlets) used for handling, processing and distributing any fluid milk product:

(i) Which are directly, indirectly or partially owned, operated or controlled by the producer-handler; or

(ii) In which the producer-handler in any way has an interest, including any contractual arrangement, or with respect to which the producer-handler directly or indirectly exercises any degree of management or control.

(c) *Cancellation.* The designation as a producer-handler shall be canceled under any of the conditions set forth in paragraph (c) (1) and (2) of this section or upon determination by the market administrator that any of the requirements of paragraph (a) (1), (2), and (3) of this section are not continuing to be met, such cancellation to be effective on the first day of the month following the month in which the requirements were not met, or the conditions for cancellation occurred.

(1) Milk from the designated milk production resources and facilities of the producer-handler is delivered in the name of another person as producer milk to another handler.

(2) The producer-handler handles fluid milk products from sources other than the milk production facilities and resources specified in paragraph (b) of this section, except as specified as follows:

(i) A producer-handler, other than a State institution, may receive fluid milk products from pool plants if such receipts do not exceed a daily average of 100 pounds during the month; and

(ii) A State institution that otherwise qualifies as a producer-handler, but which processes or receives milk for consumption outside of a State institution, may receive fluid milk products from pool plants if such receipts do not exceed a daily average of 1,000 pounds per day during the month.

(d) *Public announcement.* The market administrator shall publicly announce

the name, plant location and farm location(s) of persons designated as producer-handlers, of those whose designations have been canceled and the effective dates of producer-handler status or loss of producer-handler status for each. Such announcements shall be controlling with respect to the accounting at plants of other handlers for fluid milk products received from any producer-handler.

(e) *Burden of establishing and maintaining producer-handler status.* The burden rests upon the handler who is designated as a producer-handler to establish through records required pursuant to §1000.5 of this chapter that the requirements set forth in paragraph (a) of this section have been and are continuing to be met, and that the conditions set forth in paragraph (c) of this section for cancellation of designation do not exist.

[53 FR 52976, Dec. 30, 1988, as amended at 59 FR 15319, Apr. 1, 1994]

**§1124.11 Cooperative reserve supply unit.**

*Cooperative reserve supply unit* means any cooperative association or its agent that is a handler pursuant to §1124.9 (b) or (c) that does not own or operate a plant, if such cooperative has been qualified to receive payments pursuant to §1124.73 and has been a handler of producer milk under this or its predecessor order(s) during each of the 12 previous months, and if a majority of the cooperative's member producers are located within 125 miles of a pool distributing plant. A cooperative reserve supply unit shall be subject to the following conditions:

(a) The cooperative shall file a request with the market administrator for cooperative reserve supply unit status at least 15 days prior to the first day of the month in which such status is desired to be effective. Once qualified as a cooperative reserve supply unit pursuant to this paragraph, such status shall continue to be effective unless the cooperative requests termination prior to the first day of the month that change of status is requested, or the cooperative fails to meet all of the conditions of this section;

(b) The cooperative reserve supply unit supplies fluid milk products to pool distributing plants located within 125 miles of a majority of the cooperative's member producers in compliance with any announcement by the market administrator requesting a minimum level of shipments as further provided below:

(1) The market administrator may require such supplies of bulk fluid milk from cooperative reserve supply units whenever the market administrator finds that milk supplies for Class I use at pool distributing plants are needed for plants defined in §1124.7(a). Before making such a finding, the market administrator shall investigate the need for such shipments either on the market administrator's own initiative or at the request of interested persons. If the market administrator's investigation shows that such shipments might be appropriate, the market administrator shall issue a notice stating that a shipping announcement is being considered and inviting data, views and arguments with respect to the proposed shipping announcement.

(2) Failure of a cooperative reserve supply unit to comply with any announced shipping requirements, including making any significant change in the unit's marketing operation that the market administrator determines has the impact of evading or forcing such an announcement, shall result in immediate loss of cooperative reserve supply unit status until such time as the unit has been a handler pursuant to §1124.9 (b) and (c) for at least 12 consecutive months.

**§1124.12 Producer.**

(a) Except as provided in paragraph (b) of this section, *producer* means any person who produces milk approved by a duly constituted regulatory agency for disposition as Grade A milk and whose milk is:

(1) Received at a pool plant directly from such person;

(2) Received by a handler described in §1124.9(c); or

(3) Diverted in accordance with §1124.13;

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by such person that is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to §1124.44(a)(9)(iii) and the corresponding step of §1124.44(b);

(3) Any person with respect to milk produced by such person that is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such order;

(4) Any person who during the month has disposed of as route disposition or to consumers at the farm an average of more than 110 pounds daily of fluid milk or fluid cream products; and

(5) Any person (known as a dairy farmer for other markets) whose milk was received at a nonpool plant or a commercial food processing establishment during the month as other than producer milk under this or any other Federal milk order.

**§ 1124.13 Producer milk.**

*Producer milk* means the skim milk and butterfat in milk of a producer that is:

(a) Received or diverted by a handler defined in §1124.9(a) under one of the following conditions:

(1) Received at such handler's pool plant directly from the farm of such producer;

(2) Received at such handler's plant from a handler defined in §1124.9(c) for all purposes other than those specified in paragraph (b)(2)(i) of this section; and

(3) Diverted for the account of the operator of the pool plant, subject to the conditions set forth in paragraph (c) of this section.

(b) Received or diverted by a cooperative defined in §1124.9 (b) or (c) under one of the following conditions:

(1) Milk diverted for the account of the cooperative association. Except for milk moved by a cooperative reserve supply unit defined in §1124.11, such diversions shall be subject to the condi-

tions set forth in paragraph (c) of this section;

(2) Milk for which the cooperative association is a handler pursuant to §1124.9(c) to the following extent:

(i) For purposes of reporting pursuant to §§1124.30(c) and 1124.31(a) and making payments to producers pursuant to §1124.73(a); and

(ii) For all purposes, with respect to any such milk which is not delivered to the pool plant of another handler.

(c) The following conditions shall apply to diverted producer milk:

(1) A cooperative association or its agent may divert for its account the milk of any producer. The total quantity of milk diverted may not exceed 80 percent during the months of September through April of the total quantity of producer milk which the association or its agent causes to be delivered to pool distributing plants or diverted. No percentage limit shall apply during the months of May through August. The percentage limits on diversions specified in this paragraph shall not apply to a cooperative reserve supply unit defined in §1124.11;

(2) A handler other than a cooperative association that operates a pool plant may divert milk for its account to other plants or pursuant to §1124.40(b)(3). The total quantity of milk so diverted may not exceed 80 percent during the months of September through April of the milk received at such handler's pool plant or diverted by such handler from any producer other than a member of a cooperative association which markets milk under paragraph (c)(1) of this section and for which the operator of such plant is the handler during the month. No percentage limit shall apply during the months of May through August;

(3) Milk diverted in excess of the limits specified shall not be considered producer milk, except for milk diverted by a cooperative reserve supply unit. The diverting handler shall specify the producers whose milk is ineligible as producer milk. If a handler fails to designate such producers, producer milk status shall be forfeited with respect to all milk diverted by the handler during the month;

(4) Two or more cooperative associations may have their allowable diversions computed on the basis of their combined deliveries of producer milk which the associations cause to be delivered to pool plants or diverted during the month if each association has filed a request in writing with the market administrator on or before the first day of the month the agreement is to be effective. This request shall specify the basis for assigning overdiverted milk to the producer deliveries of each cooperative according to a method approved by the market administrator;

(5) Diverted milk shall be priced at the location of the plant or commercial food processing establishment to which diverted; and

(d) In the case of any bulk tank load of milk originating at farms and subsequently divided among plants, the proportion of the load received at each plant shall be prorated among the individual producers involved on the basis of their respective percentage of the total load.

**§ 1124.14 Other source milk.**

*Other source milk* means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1124.40(b)(1) from any source other than producers, handlers described in § 1124.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1124.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1124.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1124.40(b)(1)) for which the handler fails to establish a disposition.

**§ 1124.15 Fluid milk product.**

(a) Except as provided in paragraph (b) of this section *fluid milk product* means any milk products in fluid or frozen form containing less than 9 per-

cent butterfat, that are in bulk or are packaged, distributed and intended to be used as beverages. Such products include, but are not limited to: Milk, skim milk, lowfat milk, milk drinks, buttermilk, and filled milk, including any such beverage products that are flavored, cultured, modified with added nonfat milk solids, sterilized, concentrated (to not more than 50 percent total milk solids), or reconstituted.

(b) The term *fluid milk product* shall not include:

(1) Plain or sweetened evaporated milk, plain or sweetened evaporated skim milk, sweetened condensed milk or skim milk, formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

[58 FR 27885, May 11, 1993]

**§ 1124.16 Fluid cream product.**

*Fluid cream product* means cream (other than plastic cream or frozen cream), including sterilized cream, or a mixture of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

[58 FR 27885, May 11, 1993]

**§ 1124.17 Filled milk.**

*Filled milk* means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product; and contains less than 6 percent nonmilk fat (or oil).

[53 FR 52976, Dec. 30, 1988; 54 FR 3557, Jan. 24, 1989]

**§ 1124.18 Cooperative association.**

*Cooperative association* means any cooperative marketing association of

producers, which the Secretary determines, after application by the cooperative association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, known as the "Capper-Volstead Act", and any amendments thereto;

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk for its members; and

(c) To have its entire activities under the control of its members.

**§ 1124.19 [Reserved]**

**§ 1124.20 Commercial food processing establishment.**

*Commercial food processing establishment* means any facility other than a milk or filled milk plant, to which bulk fluid milk products and bulk fluid cream products are disposed of, or producer milk is diverted, that uses such receipts as ingredients in food products and has no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages. Producer milk diverted to commercial food processing establishments shall be subject to the same provisions relating to diversions to plants, including but not limited to, provisions in §§ 1124.13, 1124.41 and 1124.52.

[58 FR 27885, May 11, 1993]

HANDLER REPORTS

**§ 1124.30 Reports of receipts and utilization.**

On or before the 9th day of each month each handler shall report to the market administrator, in the detail and on forms prescribed by the market administrator, the following information for the preceding month:

(a) Each handler operating a pool plant(s) shall report separately for each pool plant:

(1) The quantities of skim milk and butterfat contained in:

(i) Milk received directly from producers (including such handler's own production), and the pounds of protein and pounds of solids-not-fat other than protein (other solids) contained therein;

(ii) Milk received from a cooperative association pursuant to § 1124.9(c), and the pounds of protein and pounds of solids-not-fat other than protein (other solids) contained therein;

(iii) Fluid milk products and bulk fluid cream products received from other pool plants showing filled milk separately;

(iv) Other source milk showing filled milk separately; and

(v) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1124.40(b)(1).

(2) The utilization of all skim milk and butterfat required to be reported, including separate statements of quantities in route disposition inside and outside the marketing area.

(b) Each producer-handler shall report:

(1) The quantities of skim milk and butterfat contained in:

(i) Milk of own-farm production;

(ii) Receipts of fluid milk products and fluid cream products from pool plants, showing separately receipts in packaged form and in bulk; and

(iii) Other source milk, showing separately any receipts from another dairy farmer.

(2) As specified in paragraph (a)(2) of this section.

(c) Each cooperative association shall report with respect to milk for which it is the handler pursuant to either § 1124.9(b) or (c):

(1) The pounds of skim milk, butterfat, protein and solids-not-fat other than protein (other solids) received from producers;

(2) The utilization of skim milk, butterfat, protein and solids-not-fat other than protein (other solids) for which it is the handler pursuant to § 1124.9(b); and

(3) The quantities of skim milk, butterfat, protein and solids-not-fat other than protein (other solids) delivered to each pool plant pursuant to § 1124.9(c).

(d) Each handler who operates a partially regulated distributing plant shall report as specified in paragraph (a)(1) and (2) of this section except that receipts from dairy farmers in Grade A milk shall be reported in lieu of those in producer milk. Such report shall include separate statements, respectively, showing the respective amounts

§ 1124.31

7 CFR Ch. X (1-1-98 Edition)

of skim milk and butterfat disposed of as route disposition in the marketing area as Class I milk and the quantity of reconstituted skim milk in fluid milk products disposed of as route disposition in the marketing area.

(e) Each handler who operates an other order plant with route disposition of fluid milk products in the marketing area shall report the quantities of skim milk and butterfat in such disposition.

(f) Each handler who operates an exempt plant or an unregulated supply plant shall report as specified in paragraph (a)(1) and (2) of this section except that receipts from dairy farmers in Grade A milk shall be reported in lieu of those in producer milk.

[53 FR 52976, Dec. 30, 1988, as amended at 59 FR 15319, Apr. 1, 1994; 62 FR 2, Jan. 2, 1997]

§ 1124.31 Payroll reports.

On or before the 22nd day of each month handlers shall report to the market administrator as follows:

(a) Each handler with respect to each of its pool plants and each cooperative association which is a handler pursuant to § 1124.9(b) or (c) shall submit its producer payroll for deliveries (other than own-farm production) in the preceding month which shall show:

(1) The total pounds of milk received from each producer, the pounds of butterfat, protein and solids-not-fat other than protein (other solids) contained in such milk, and the number of days on which milk was delivered by the producer during the month;

(2) The amount of payment to each producer and cooperative association; and

(3) The nature and amount of any deductions or charges involved in such payments; and

(b) Each handler operating a partially regulated distributing plant who wishes computations pursuant to § 1124.75(a) to be considered in the computation of its obligation pursuant to § 1124.75 shall submit its payroll for deliveries of Grade A milk by dairy farmers which shall show:

(1) The total pounds of milk received from each producer and the pounds of butterfat, protein and solids-not-fat other than protein (other solids) contained in such milk;

(2) The amount of payment to each dairy farmer (or to a cooperative association on behalf of such dairy farmer); and

(3) The nature and amount of any deductions or charges involved in such payments.

[53 FR 52976, Dec. 30, 1988, as amended at 59 FR 15320, Apr. 1, 1994; 62 FR 2, Jan. 2, 1997]

§ 1124.32 Other reports.

In addition to the reports required pursuant to §§ 1124.30 and 1124.31, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligations under the order.

[59 FR 15320, Apr. 1, 1994]

CLASSIFICATION OF MILK

§ 1124.40 Classes of utilization.

Except as provided in § 1124.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1124.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section;

(2) In packaged fluid milk products in inventory at the end of the month; and

(3) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product or any product containing artificial fat, fat substitutes, or 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section and in bulk concentrated fluid milk products in inventory at the end of the month;

(3) In bulk fluid milk products and bulk fluid cream products disposed of or diverted to a commercial food processor if the market administrator is permitted to audit the records of the

commercial food processing establishment for the purpose of verification. Otherwise, such uses shall be Class I;

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, dry curd cottage cheese, ricotta cheese, pot cheese, Creole cheese, and any similar soft, high-moisture cheese resembling cottage cheese in form or use;

(ii) Milkshake and ice milk mixes (or bases), frozen desserts, and frozen dessert mixes distributed in one-quart containers or larger and intended to be used in soft or semi-solid form;

(iii) Aerated cream, frozen cream, sour cream and sour half-and-half, sour cream mixtures containing nonmilk items, yogurt and any other semi-solid product resembling a Class II product;

(iv) Eggnog, custards, puddings, pancake mixes, buttermilk biscuit mixes, coatings, batter, and similar products;

(v) Formulas especially prepared for infant feeding or dietary use (meal replacement) that are packaged in hermetically sealed containers;

(vi) Candy, soup, bakery products and other prepared foods which are processed for general distribution to the public, and intermediate products, including sweetened condensed milk, to be used in processing such prepared food products; and

(vii) Any product not otherwise specified in this section.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cream cheese and other spreadable cheeses, and hard cheeses of types that may be shredded, grated, or crumbled, and are not included in paragraph (b)(4)(i) of this section;

(ii) Butter, plastic cream, anhydrous milkfat and butteroil;

(iii) Any milk product in dry form, except nonfat dry milk;

(iv) Evaporated or sweetened condensed milk in a consumer-type package and evaporated or sweetened condensed skim milk in a consumer-type package; and

(2) In inventory at the end of the month of unconcentrated fluid milk products in bulk form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products, products specified in paragraph (b)(1) of this section, and products processed by the disposing handler that are specified in paragraphs (b)(4) (i) through (iv) of this section, that are disposed of by a handler for animal feed;

(4) In fluid milk products, products specified in paragraph (b)(1) of this section, and products processed by the disposing handler that are specified in paragraphs (b)(4) (i) through (iv) of this section, that are dumped by a handler. The market administrator may require notification by the handler of such dumping in advance for the purpose of having the opportunity to verify such disposition. In any case, classification under this paragraph requires a handler to maintain adequate records of such use. If advance notification of such dumping is not possible, or if the market administrator so requires, the handler must notify the market administrator on the next business day following such use;

(5) In fluid milk products and products specified in paragraph (b)(1) of this section that are destroyed or lost by a handler in a vehicular accident, flood, fire, or in a similar occurrence beyond the handler's control, to the extent that the quantities destroyed or lost can be verified from records satisfactory to the market administrator;

(6) In skim milk in any modified fluid milk product or in any product specified in paragraph (b)(1) of this section that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1124.15 and the fluid cream product definition pursuant to § 1124.16; and

(7) In shrinkage assigned pursuant to § 1124.41(a) to the receipts specified in § 1124.41(a)(2) and in shrinkage specified in § 1124.41 (b) and (c).

(d) *Class III-A milk.* Class III-A milk shall be all skim milk and butterfat used to produce nonfat dry milk.

[53 FR 52976, Dec. 30, 1988; 54 FR 5587, Feb. 6, 1989; 57 FR 175, Jan. 3, 1992; 58 FR 27886, May 11, 1993]

#### § 1124.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a

handler pursuant to §1124.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b) (1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b) (1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product.

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant or pursuant to §1124.40(b)(3) and milk received from a handler described in §1124.9(c));

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in §1124.9(c) and in milk diverted to such plant by the operator of another pool plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted by the plant operator to another plant or pursuant to §1124.40(b)(3), except that if the operator of the plant or establishment to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk

fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operator of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b) (1), (2), (4), (5), and (6) of this section.

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to §1124.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of a plant or a commercial food processing establishment pursuant to §1124.20 purchases such milk on the basis of weights determined from its measurement at the farm, and butterfat tests and nonfat milk solids determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

[53 FR 52976, Dec. 30, 1988, as amended at 59 FR 15320, Apr. 1, 1994]

**§1124.42 Classification of transfers and diversions.**

(a) *Transfers and diversions to pool plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. The classification of such transfers and diversions shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to

the amount of skim milk and butterfat, respectively, remaining in such class at the receiving handler's plant after the computation pursuant to § 1124.44(a)(13) and the corresponding step of § 1124.44(b). The amount of skim milk or butterfat classified in each class shall include the assigned utilization of skim milk or butterfat in transfers of concentrated fluid milk products;

(2) If the transferor-plant or divertor-plant received during the month other source milk to be allocated pursuant to § 1124.44(a)(8) or the corresponding step of § 1124.44(b), the skim milk or butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler or divertor-handler received during the month other source milk to be allocated pursuant to § 1124.44(a)(12) or (13) or the corresponding steps of § 1124.44(b), the skim milk or butterfat so transferred or diverted up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant or divertee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set

forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustments when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1124.40.

(c) *Transferor and diversions to producer-handlers.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk if transferred or diverted in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the transferee's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to the transferee's receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i) (a) and (b) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2) (ii) through (viii) of this section:

(A) The transferor-handler or diverter-handler claims such classification in its report of receipts and utilization filed pursuant to §1124.30 for the month within which such transaction occurred; and

(B) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(A) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(B) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(C) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(D) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(A) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(B) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(A) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(B) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class II utilization, and then to Class III utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class II utilization, then to any remaining Class III utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this paragraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this paragraph.

[53 FR 52976, Dec. 30, 1988, as amended at 58 FR 27886, May 11, 1993]

**§ 1124.43 General classification rules.**

In determining the classification of producer milk pursuant to § 1124.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1124.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1124.9 (b) or (c) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1124.40, 1124.41, and 1124.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids;

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1124.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association; and

(d) For classification purposes, pursuant to §§ 1124.40 through 1124.45, butterfat in skim milk, either disposed of to others or used in the manufacture of milk products shall be accounted for at a butterfat content of 0.060 percent unless the handler has adequate records of the actual butterfat content of such skim milk.

(e) Class III-A milk shall be allocated in combination with Class III milk and the quantity of producer milk eligible

to be priced in Class III-A shall be determined by prorating receipts from pool sources to Class III-A use on the basis of the quantity of total receipts of bulk fluid milk products allocated to Class III use at the plant.

(f) Skim milk and butterfat contained in receipts of bulk concentrated fluid milk and nonfluid milk products that are reconstituted for fluid use shall be assigned to Class I use, up to the reconstituted portion of labeled reconstituted fluid milk products, on a pro rata basis (except for any Class I use of specific concentrated receipts that is established by the handler) prior to any assignments under § 1124.44. Any remaining skim milk and butterfat in concentrated receipts shall be assigned to uses under § 1124.44 on a pro rata basis, unless a specific use of such receipts is established by the handler.

[53 FR 52976, Dec. 30, 1988; 54 FR 3557, Jan. 24, 1989, as amended at 57 FR 175, Jan. 3, 1992; 58 FR 27886, May 11, 1993]

**§ 1124.44 Classification of producer milk.**

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1124.9(a) for each of the handler's pool plants separately and of each handler described in § 1124.9 (b) or (c) by allocating the handler's receipts of skim milk and butterfat to its utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1124.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the

pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(8)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the remaining pounds of skim milk in Class I the pounds of skim milk in packaged fluid milk products in inventory at the beginning of the month. This paragraph shall apply only if the pool plant was subject to the provisions of this paragraph or comparable provisions of another Federal milk order in the immediately preceding month;

(5) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in §1124.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in §1124.40(b)(1) in packaged form and in bulk concentrated fluid milk products that were in inventory at the beginning of the month, but not in excess of the pounds of skim milk remaining in Class II. This paragraph shall apply only if the pool plant was subject to the provisions of this paragraph or comparable provisions of another Federal milk order in the immediately preceding month;

(7) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in bulk concentrated fluid milk products and in other source milk (except other source milk received in the form of an unconcentrated fluid milk product or a fluid cream product) that is used to produce, or added to any product specified in §1124.40(b) (excluding the quantity of such skim milk that was classified as Class III milk pursuant to §1124.40(c)(6)), but not in excess of the pounds of skim milk remaining in Class II.

(8) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series begin-

ning with Class III, the pounds of skim milk in each of the following:

(i) Bulk concentrated fluid milk products and other source milk (except other source milk received in the form of an unconcentrated fluid milk product) and, if paragraph (a)(6) of this section applies, packaged inventory at the beginning of the month of products specified in §1124.40(b)(1) that was not subtracted pursuant to paragraphs (a)(5), (a)(6) and (a)(7) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products received or acquired for distribution from a producer-handler as defined under this or any other Federal Order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section;

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant; and

(vii) Receipts of fluid milk products from a person described in §1124.12(b)(5);

(9) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (8)(v) of this section for which the handler requests a classification other than Class I, but not in excess of pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (8)(v), and (9)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(9)(ii) (A) through (C) of this section. Should the pounds of skim milk to be subtracted from Class II and

Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(A) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(B) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(8)(vi) of this section; and

(C) Multiply any plus quantity resulting above by the percentages that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant are of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(8)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(10) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the

pounds of skim milk in fluid milk products and products specified in § 1124.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraphs (a)(4), (a)(6) and (a)(8)(i) of this section;

(11) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(12) Subject to the provisions of paragraph (a)(12) (i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity pro rated, to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraphs (a)(2), (8)(v), (9) (i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received;

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this paragraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this paragraph exceed the pounds of

skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(13) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraphs (a)(8)(vi) and (9)(iii) of this section:

(i) Subject to the provisions of paragraphs (a)(13)(ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportions of Class I milk:

(A) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1124.45(a); or

(B) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(13)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool

plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(13)(ii) of this section, should the computations pursuant to paragraph (a)(13)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plant(s) shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(13)(ii) of this section, should the computations pursuant to paragraph (a)(13)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(14) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1124.42(a); and

(15) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds

of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(15) of this section and the corresponding step of paragraph (b) of this section.

[53 FR 52976, Dec. 30, 1988; 54 FR 3557, Jan. 24, 1989; 54 FR 5587, Feb. 6, 1989; 58 FR 27887, May 11, 1993]

**§1124.45 Market administrator's reports and announcements concerning classification.**

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to §1124.44(a)(13) and the corresponding step of §1124.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to §1124.43(f) and §1124.44 on the basis of such report, (including any reclassification of inventories of bulk concentrated fluid milk products), and thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the

other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 14th day after the end of each month, report to each cooperative association which so requests the amount and class utilization of producer milk delivered by members of such cooperative association to each handler receiving such milk. For the purpose of this report the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by such handler.

[53 FR 52976, Dec. 30, 1988, as amended at 58 FR 27887, May 11, 1993]

CLASS AND COMPONENT PRICES

**§1124.50 Class and component prices.**

The class and component prices for the month, per hundredweight or per pound, shall be as follows:

(a) The Class I price, subject to the provisions of §1124.52, shall be the basic formula price defined in §1124.51 for the second preceding month plus \$1.90.

(b) *Class II price.* The Class II price shall be the basic formula price for the second preceding month plus \$0.30.

(c) The Class III price shall be the basic formula price for the month.

(d) The Class III-A price for the month shall be the average Western States nonfat dry milk price for the month, as reported by the Department, less 12.5 cents, times an amount computed by subtracting from 9 an amount calculated by dividing .4 by such nonfat dry milk price, plus the butterfat differential times 35 and rounded to the nearest cent.

(e) The skim milk price per hundredweight shall be the basic formula price for the month pursuant to §1124.51(a) less an amount computed by multiplying the butterfat differential computed pursuant to paragraph (f)(3) of this section by 35.

(f) The butterfat price per pound, rounded to the nearest one-hundredth cent, shall be the total of:

(1) The skim price computed in paragraph (e) of this section divided by 100; and

(2) The butterfat differential computed pursuant to paragraph (f)(3) of this section multiplied by 10.

(3) Compute a butterfat differential rounded to the nearest one-tenth cent, by multiplying the current month's butter price by 0.138, and subtract from the result an amount determined by multiplying 0.0028 by the preceding month's average pay price per hundred-weight, at test, for manufacturing grade milk in Minnesota and Wisconsin, using the "base month" series, adjusted pursuant to § 1124.51 (a) through (e), as reported by the Department. The butter price means the simple average for the month of the Chicago Mercantile Exchange, Grade A butter price as reported by the Department.

(g) The protein price per pound, rounded to the nearest one-hundredth cent, shall be 1.32 times the average monthly price per pound for 40-pound block Cheddar cheese on the National Cheese Exchange as reported by the Department.

(h) The other solids price per pound, rounded to the nearest one-hundredth cent, shall be the basic formula price at test less the average butterfat test of the basic formula price as reported by the Department times the butterfat price, less the average protein test of the basic formula price as reported by the Department for the month times the protein price, and dividing the resulting amount by the average other solids test of producer milk pooled under Part 1124 for the month, as determined by the Market Administrator. If the resulting price is less than zero, then the protein price will be reduced so that the other solids price equals zero.

[59 FR 15320, Apr. 1, 1994, as amended at 60 FR 6611, Feb. 2, 1995; 60 FR 18975, Apr. 14, 1995; 62 FR 3, Jan. 2, 1997]

#### § 1124.51 Basic formula price.

The basic formula price shall be the preceding month's average pay price for manufacturing grade milk in Minnesota and Wisconsin using the "base month" series, as reported by the Department, adjusted to a 3.5 percent butterfat basis using the butterfat differential for the preceding month computed pursuant to § 1124.50(f)(3) and rounded to the nearest cent, plus or

minus the change in gross value yielded by the butter-nonfat dry milk and Cheddar cheese product price formula computed pursuant to paragraphs (a) through (e) of this section.

(a) The gross values of per hundred-weight of milk used to manufacture butter-nonfat dry milk and Cheddar cheese shall be computed, using price data determined pursuant to paragraph (b) of this section and annual yield factors, for the preceding month and separately for the current month as follows:

(1) The gross value of milk used to manufacture butter-nonfat dry milk shall be the sum of the following computations:

(i) Multiply the Grade AA butter price by 4.27;

(ii) Multiply the nonfat dry milk price by 8.07; and

(iii) Multiply the dry buttermilk price by 0.42.

(2) The gross value of milk used to manufacture Cheddar cheese shall be the sum of the following computations:

(i) Multiply the Cheddar cheese price by 9.87; and

(ii) Multiply the Grade A butter price by 0.238.

(b) The following product prices shall be used pursuant to paragraph (a) of this section:

(1) *Grade AA butter price.* Grade AA butter price means the simple average for the month of the Chicago Mercantile Exchange Grade AA butter price, as reported by the Department.

(2) *Nonfat dry milk price.* Nonfat dry milk price means the simple average for the month of the Western Nonfat Dry Milk Low/Medium Heat price, as reported by the Department.

(3) *Dry buttermilk price.* Dry buttermilk price means the simple average for the month of the Western Dry Buttermilk price, as reported by the Department.

(4) *Cheddar cheese price.* Cheddar cheese price means the simple average for the month of the National Cheese Exchange 40-pound block Cheddar cheese price, as reported by the Department.

(5) *Grade A butter price.* Grade A butter price means the simple average for the month of the Chicago Mercantile

Exchange Grade A butter price, as reported by the Department.

(c) Determine the amounts by which the gross value per hundredweight of milk used to manufacture butter-nonfat dry milk and the gross value per hundredweight of milk used to manufacture Cheddar cheese for the current month exceed or are less than the respective gross values for the preceding month.

(d) Compute weighting factors to be applied to the changes in gross values determined pursuant to paragraph (c) of this section by determining the relative proportion that the data included in each of the following paragraphs is of the total of the data represented in paragraphs (d)(1) and (d)(2) of this section:

(1) Combine the total nonfat dry milk production for the States of Minnesota and Wisconsin, as reported by the Department, for the most recent preceding period, and divide by the annual yield factor for nonfat dry milk, 8.07, to determine the quantity (in hundredweights) of milk used in the production of butter-nonfat dry milk; and

(2) Combine the total American cheese production for the States of Minnesota and Wisconsin, as reported by the Department for the most recent preceding period, and divide by the annual yield factor for Cheddar cheese, 9.87, to determine the quantity (in hundredweights) of milk used in the production of American cheese.

(e) Compute a weighted average of the changes in gross values per hundredweight of milk determined pursuant to paragraph (c) of this section in accordance with the relative proportions of milk determined pursuant to paragraph (d) of this section.

[60 FR 18975, Apr. 14, 1995]

**§ 1124.52 Plant location adjustments for handlers.**

(a) The following zones are defined for the purpose of determining location adjustments:

(1) Zone 1 shall include:

(i) The Idaho counties of Benewah, Bonner, Boundary, Kootenai, Latah, and Shoshone;

(ii) The Oregon counties of Benton, Clackamas, Clatsop, Columbia, Doug-

las, Hood River, Lane, Lincoln, Linn, Marion, Multnomah, Polk, Tillamook, Washington, and Yamhill;

(iii) The Washington counties of Clark, Cowlitz, Ferry, Grays Harbor, Island, King, Kitsap, Lewis, Lincoln, Mason, Pacific, Pend Oreille, Pierce, Skagit, Snohomish, Skamania, Spokane, Stevens, Thurston, Wahkiakum, and Whitman.

(2) Zone 2 shall include: the Washington county of Whatcom;

(3) Zone 3 shall include: the Oregon counties of Coos, Jackson, and Josephine;

(4) Zone 4 shall include:

(i) The Idaho counties of Lewis and Nez Perce;

(ii) The Oregon counties of Crook, Deschutes, Gilliam, Jefferson, Klamath, Lake, Morrow, Sherman, Umatilla, Wallowa, Wasco and Wheeler;

(iii) The Washington counties of Adams, Asotin, Benton, Chelan, Clallam, Columbia, Douglas, Franklin, Garfield, Grant, Jefferson, Kittitas, Klickitat, Okanogan, San Juan, Walla Walla and Yakima.

(b) For milk received at a plant from producers and which is classified as Class I milk, the price specified in §1124.50(a) shall be adjusted by the amount stated in paragraphs (b) (1) and (2) of this section for the location of such plant:

(1) For a plant located within one of the zones described in paragraphs (a) (1) through (4) of this section, the adjustment shall be as follows:

	Adjustment per Hundredweight
Zone 1 .....	No adjustment.
Zone 2 .....	Minus 6 cents.
Zone 3 .....	Minus 8 cents.
Zone 4 .....	Minus 15 cents.

(2) For a plant located outside of one of the zones described in paragraphs (a) (1) through (4) of this section, the adjustment shall be minus 1.5 cents per hundredweight for each 10 miles or fraction thereof by shortest hard-surfaced highway distance that the plant is located from the nearer of the county courthouse in Spokane, Washington, the Multnomah County Courthouse in Portland, Oregon, or the city hall in Eugene, Oregon;

§ 1124.53

7 CFR Ch. X (1-1-98 Edition)

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (b) of this section, except that the price when adjusted for location shall not be less than the Class III price.

(d) For fluid milk products transferred in bulk from a pool plant to another pool plant at which a higher Class I price applies and which is classified as Class I, the price shall be the Class I price applicable at the location of the transferee-plant subject to a location adjustment credit for the transferor-plant determined by the market administrator as follows:

(1) Subtract from the pounds of Class I remaining at the transferee-plant after the computations pursuant to §1124.44(a)(13) and (b) plus the pounds of skim milk and butterfat in receipts of concentrated fluid milk products from other pool plants that are assigned to Class I use, the pounds of packaged fluid milk products from other pool plants;

(2) Subtract the pounds of bulk fluid milk products received at the transferee-plant from the following sources:

- (i) Producers;
- (ii) Handlers described in §1124.9(c); and
- (iii) Pool plants at which the same or a higher Class I price applies.

(3) Assign any pounds remaining to transferor-plants in sequence beginning with the plant at which the least adjustment would apply; and

(4) Multiply the pounds so computed for each transferor-plant by the difference in the Class I prices applicable at the transferee-plant and transferor-plant.

[53 FR 52976, Dec. 30, 1988; 54 FR 3557, Jan. 24, 1989; 58 FR 27887, May 11, 1993]

**§ 1124.53 Announcement of class and component prices.**

On or before the 5th day of each month, the market administrator shall announce publicly the following prices:

- (a) The Class I price for the following month;
- (b) The Class II price for the following month;
- (c) The Class III price for the preceding month;
- (d) The Class III-A price for the preceding month;

(e) The skim milk price for the preceding month;

(f) The butterfat price for the preceding month;

(g) The protein price for the preceding month;

(h) The other solids price for the preceding month; and

(i) The butterfat differential for the preceding month.

[62 FR 3, Jan. 2, 1997]

**§ 1124.54 Equivalent price.**

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the pricing constituent that is required.

PRODUCER PRICE DIFFERENTIAL

**§ 1124.60 Handlers' value of milk.**

The market administrator shall compute each month for each handler defined in §1124.9(a) with respect to each of the handler's pool plants, and for each handler described in §1124.9 (b) and (c), an obligation to the pool by combining the amounts computed as follows:

(a) Multiply the pounds of producer milk in Class I pursuant to §1124.44 by the difference between the Class I price, adjusted pursuant to §1124.52, and the Class III price;

(b) Multiply the pounds of producer milk in Class II pursuant to §1124.44 by the difference between the Class II price and Class III price;

(c) Add or subtract, as appropriate, the amount that results from multiplying the pounds of producer milk in Class III-A by the amount that the Class III-A price is more or less, respectively, than the Class III price;

(d) Multiply the pounds of skim milk in Class I producer milk pursuant to §1124.44 by the skim milk price for the month;

(e) Multiply the protein price for the month by the pounds of protein associated with the pounds of producer skim milk in Class II and Class III during the month. The pounds of protein shall

be computed by multiplying the producer skim milk pounds so assigned by the percentage of protein in the handler's receipts of producer skim milk during the month for each report filed separately;

(f) Multiply the other solids price for the month by the pounds of other solids associated with the pounds of producer skim milk in Class II and Class III during the month. The pounds of other solids shall be computed by multiplying the producer skim milk pounds so assigned by the percentage of other solids in the handler's receipts of producer skim milk during the month for each report filed separately;

(g) With respect to skim milk and butterfat overages assigned pursuant to §1124.44(a)(15), (b) and paragraph (g)(6) of this section:

(1) Multiply the total pounds of butterfat by the butterfat price;

(2) Multiply the skim milk pounds assigned to Class I by the skim milk price;

(3) Multiply the pounds of protein and other solids associated with the skim milk pounds assigned to Class II and III by the protein and other solids prices, respectively;

(4) Multiply the combined skim milk and butterfat pounds assigned to Class I by the difference between the Class I price, adjusted for location, and the Class III price;

(5) Multiply the combined skim milk and butterfat pounds assigned to Class II by the difference between the Class II price and the Class III price; and

(6) Overage at a nonpool plant that is located on the same premises as a pool plant shall be prorated between the quantity of skim and butterfat received by transfer from the pool plant and other source milk received at the nonpool plant. The pool plant operator's obligation to the pool with respect to such overage will be computed by adding the prorated pounds of skim milk and butterfat to the amounts assigned pursuant to §1124.44(a)(15) and (b);

(h) With respect to skim milk and butterfat assigned to inventory pursuant to §1124.44(a)(10) and (b):

(1) Multiply the total pounds of butterfat by the butterfat price;

(2) Multiply the skim milk pounds assigned to Class I by the skim milk price;

(3) Multiply the pounds of protein and other solids associated with the skim milk pounds assigned to Class II and III by the protein and other solids prices, respectively;

(4) Multiply the combined skim milk and butterfat pounds assigned to Class I by the difference between the Class I price, adjusted for location, and the Class III price;

(5) Multiply the combined skim milk and butterfat pounds assigned to Class II by the difference between the Class II price and the Class III price; and

(6) Subtract the Class III value of the milk at the previous month's protein, other milk solids, and butterfat prices;

(i) Multiply the difference between the Class I price, adjusted for the location of the pool plant, and the Class III price by the combined pounds of skim milk and butterfat assigned to Class I pursuant to §1124.43(f) and subtracted from Class I pursuant to §1124.44(a)(8) (i) through (iv), (vii), and §1124.44(b), excluding:

(1) Receipts of bulk fluid cream products from another order plant;

(2) Receipts of bulk concentrated fluid milk products from pool plants, other order plants, and unregulated supply plants; and

(3) Receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another order under §1124.75(b)(4) or (c);

(j) Multiply the combined pounds of skim milk and butterfat subtracted from Class I pursuant to §1124.44(a)(8) (v) and (vi) and §1124.44(b) by the difference between the Class I price at the transferor plant and the Class III price;

(k) Multiply the difference between the Class I and Class III prices, applicable at the location of the nearest nonpool plant(s) from which an equivalent volume was received, with respect to skim milk and butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to §1124.43(f) and §1124.44(a)(8)(v) and the combined pounds of skim milk and butterfat in receipts from an unregulated supply plant assigned pursuant to

§ 1124.61

7 CFR Ch. X (1-1-98 Edition)

§ 1124.44(a)(12) and (b), excluding such skim milk or butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent quantity disposed of to such plant by handlers fully regulated by any Federal order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(l) Subtract, for reconstituted milk made from receipts of nonfluid milk products, an amount computed by multiplying \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class III price) by the combined pounds of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to § 1124.43(f);

(m) Add or subtract, as appropriate, the amount necessary to correct errors disclosed by the verification of the handler's receipts and utilization of skim milk and butterfat as reported for previous months; and

(n) For pool plants that transfer bulk concentrated fluid milk products to other pool plants and other order plants, add or subtract the amount per hundredweight of any class price change from the previous month that results from any inventory reclassification of bulk concentrated fluid milk products that occurs at the transferee plant. Any applicable class price change shall be applied to the plant that used the concentrated milk in the event that the concentrated fluid milk products were made from bulk unconcentrated fluid milk products received at the plant during the prior month.

[59 FR 15321, Apr. 1, 1994, as amended at 62 FR 3, Jan. 2, 1997]

**§ 1124.61 Producer price differential.**

A producer price differential per hundredweight of milk for each month shall be computed by the market administrator as follows:

(a) Combine into one total for all handlers:

(1) The values computed pursuant to § 1124.60 (a) through (c) and (g) through (n) for all handlers who filed the reports prescribed by § 1124.30 for the month and who made the payments

pursuant to § 1124.71 for the preceding month; and

(2) Add the values computed pursuant to § 1124.60 (d), (e) and (f); and subtract the values obtained by multiplying the handlers' total pounds of protein and total pounds of other solids contained in such milk by their respective prices;

(b) Add an amount equal to the total value of the location adjustments computed pursuant to § 1124.74;

(c) Add an amount equal to not less than one-half of the unobligated balance in the producer settlement fund;

(d) Divide the resulting amount by the sum, for all handlers, of the total hundredweight of producer milk and the total hundredweight for which a value is computed pursuant to § 1124.60(k); and

(e) Subtract not less than 4 cents per hundredweight nor more than 5 cents per hundredweight. The result shall be the producer price differential.

[59 FR 15322, Apr. 1, 1994, as amended at 62 FR 3, Jan. 2, 1997]

**§ 1124.62 Announcement of the producer price differential and a statistical uniform price.**

On or before the 14th day after the end of each month, the market administrator shall announce the following prices and information:

- (a) The producer price differential;
- (b) The protein price;
- (c) The other solids price;
- (d) The butterfat price;
- (e) The average protein and other solids content of producer milk; and

(f) The statistical uniform price for milk containing 3.5 percent butterfat, computed by combining the Class III price and the producer price differential.

[62 FR 3, Jan. 2, 1997]

PAYMENTS FOR MILK

**§ 1124.70 Producer-settlement fund.**

The market administrator shall establish and maintain a separate fund known as the "producer-settlement" fund into which shall be deposited all payments made by handlers pursuant to §§ 1124.71 and 1124.75 and out of which shall be made all payments to handlers pursuant to § 1124.72. Payments due a handler from the fund shall be offset

Agricultural Marketing Service, USDA

§ 1124.73

against payments due from such handler.

[59 FR 15322, Apr. 1, 1994]

**§ 1124.71 Payments to the producer-settlement fund.**

On or before the 16th day after the end of the month, each handler shall pay to the market administrator the amount, if any, which results from subtracting the sum computed pursuant to paragraph (a) of this section from the sum computed pursuant to paragraph (b) of this section:

(a) The sum of:

(1) The total handler's value of milk for such month as determined pursuant to § 1124.60; and

(2) For a cooperative association handler, the amount due from other handlers pursuant to § 1124.73(d).

(b) The sum of:

(1) The value of milk received by the handler from producers at the applicable prices pursuant to § 1124.73(a)(2)(i) through (iv);

(2) The amount to be paid by the handler to cooperative associations pursuant to § 1124.73(d); and

(3) The value at the producer price differential adjusted for the location of the plant(s) from which received (not to be less than zero) with respect to the total hundredweight of skim milk and butterfat in other source milk for which a value was computed or such handler pursuant to § 1124.60(k).

(c) On or before the 25th day after the end of the month, each handler operating a plant specified in § 1124.7(d) (2) and (3), if such plant is subject to the classification and pricing provisions of another order which provides for individual handler pooling, shall pay to the market administrator for the producer-settlement fund an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk disposed of as route disposition in the marketing area which was allocated to Class I at such other order plant. If reconstituted skim milk in filled milk is disposed of from such plant as route disposition in the marketing areas regulated by two or more market pool orders, the reconstituted skim milk assigned to Class I shall be prorated ac-

ording to such disposition in each area.

(2) Compute the value of the quantity assigned in paragraph (c)(1) of this section to Class I disposition in this area, at the Class I price under this part applicable at the location of the other order plant (but not to be less than the Class III price) and subtract its value at the Class III price.

[59 FR 15322, Apr. 1, 1994, as amended at 62 FR 3, Jan. 2, 1997]

**§ 1124.72 Payments from the producer-settlement fund.**

On or before the 18th day after the end of the month, the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1124.71(b) exceeds the amount computed pursuant to § 1124.71(a), less any unpaid obligations of such handler to the market administrator pursuant to §§ 1124.71, 1124.75, 1124.85, and 1124.86. However, if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

[59 FR 15323, Apr. 1, 1994]

**§ 1124.73 Payments to producers and to cooperative associations.**

(a) Each handler shall make payment pursuant to this paragraph or paragraph (b) of this section to each producer from whom milk is received during the month:

(1) On or before the last day of the month, to each producer who did not discontinue shipping milk to such handler before the 18th day of the month at not less than the Class III price for the preceding month per hundredweight of milk received from the producer during the first 15 days of the month, subject to adjustment for proper deductions authorized in writing by the producer;

(2) On or before the 19th day after the end of each month, an amount computed as follows:

(i) Multiply the butterfat price for the month by the total pounds of butterfat in milk received from the producer;

(ii) Add the amount that results from multiplying the protein price for the month by the total pounds of protein in the milk received from the producer;

(iii) Add the amount that results from multiplying the other solids price for the month by the total pounds of other solids in the milk received from the producer;

(iv) Add the amount that results from multiplying the total hundred-weight of milk received from the producer by the producer price differential for the month as adjusted pursuant to § 1124.74(a);

(v) Subtract payments made to the producer pursuant to paragraph (a)(1) of this section;

(vi) Subtract proper deductions authorized in writing by the producer; and

(vii) Subtract any deduction required pursuant to § 1124.86 or by statute; and

(3) If by the 19th day after the end of the month a handler has not received full payment from the market administrator pursuant to § 1124.72, the payments to producers required pursuant to paragraph (a)(2) of this section may be reduced uniformly as a percentage of the amount due each producer by a total sum not in excess of the remainder due from the market administrator. The handler shall pay the balance due producers on or before the date for making payments pursuant to such paragraph next following receipt of the full payment from the market administrator.

(b) The payments required in paragraph (a) of this section shall, upon the request of a cooperative association qualified under § 1124.18, be made to the association or its duly authorized agent for milk received from each producer who has given such association authorization by contract or other written instrument to collect the proceeds from the sale of the producer's milk. All payments required pursuant to this paragraph shall be made on or before the second day prior to the dates specified for such payment in paragraph (a)(2) of this section.

(c) Each handler shall pay to each cooperative association which operates a pool plant, or to the cooperative's duly authorized agent, for butterfat, protein and other solids received from such plant in the form of fluid milk products as follows:

(1) On or before the second day prior to the date specified in paragraph (a)(1) of this section, for butterfat, protein, and other milk solids received during the first 15 days of the month at not less than the butterfat, protein, and other milk solids prices, respectively, for the preceding month; and

(2) On or before the 15th day after the end of the month, an amount of money determined in accordance with computations made on the same basis as those specified in paragraphs (a)(2)(i) through (iv) of this section, minus any payment made pursuant to paragraph (c)(1) of this section.

(d) Each handler pursuant to § 1124.9(a) that received milk from a cooperative association that was a handler pursuant to § 1124.9(c) shall pay the cooperative association for such milk as follows:

(1) On or before the second day prior to the date specified in paragraph (a)(1) of this section, for milk received during the first 15 days of the month at not less than the Class III price for the preceding month; and

(2) On or before the 17th day after the end of each month, for milk received during the month an amount of money determined in accordance with the computations specified in paragraphs (a)(2)(i) through (iv) of this section, minus any payment made pursuant to paragraph (d)(1) of this section.

(e) None of the provisions of this section shall be construed to restrict any cooperative association qualified under section 8c(5)(F) of the Act from making payment for milk to its producers in accordance with such provision of the Act.

(f) In making payments to producers pursuant to this section, each handler shall provide each producer, on or before the 19th day of each month, with a supporting statement for milk received from the producer during the previous month in such form that it may be retained by the producer, which shall show:

Agricultural Marketing Service, USDA

§ 1124.75

(1) The identity of the handler and the producer;

(2) The total pounds of milk delivered by the producer, the pounds of butterfat, protein and other solids contained therein, and, unless previously provided, the pounds of milk in each delivery;

(3) The minimum rates at which payment to the producer is required under the provisions of this section;

(4) The rate and amount of any premiums or of payments made in excess of the minimums required under this order;

(5) The amount or rate of each deduction claimed by the handler, together with an explanation of each such deduction; and

(6) The net amount of payment to the producer.

(g) In making payments to a cooperative association in aggregate pursuant to this section, each handler shall, upon request, provide the cooperative association, with respect to each producer for whom such payment is made, any or all of the information specified in paragraph (f) of this section.

[59 FR 15323, Apr. 1, 1994, as amended at 62 FR 4, Jan. 2, 1997]

**§ 1124.74 Plant location adjustments for producers and on nonpool milk.**

(a) In making payment to producers pursuant to § 1124.73(a) subject to the application of § 1124.13(c)(5) appropriate adjustments shall be made per hundredweight of milk received from producers at respective plant locations at the same rate as specified for Class I milk set forth in § 1124.52.

(b) In making payments to a cooperative association pursuant to § 1124.73(d) appropriate adjustments shall be made at the rates specified for Class I milk in § 1124.52 for the location of the plant at which the milk was received from the cooperative association.

(c) For purposes of the computations pursuant to §§ 1124.71(a) and 1124.72, the producer price differential for all milk shall be adjusted at the rates set forth in § 1124.52 for Class I milk applicable at the location of the nonpool plant from which the milk or filled milk was received, except that the adjusted pro-

ducer price differential shall not be less than zero.

[53 FR 52976, Dec. 30, 1988. Redesignated and amended at 59 FR 15324, Apr. 1, 1994; 62 FR 4, Jan. 2, 1997]

**§ 1124.75 Payments by a handler operating a partially regulated distributing plant.**

Each handler who operates a partially regulated distributing plant shall pay to the market administrator for the producer-settlement fund on or before the 25th day after the end of the month either of the amounts (at the handler's election) calculated pursuant to paragraph (a) or (b) of this section. If the handler fails to report pursuant to §§ 1124.30(d) and 1124.31(b) the information necessary to compute the amount specified in paragraph (a) of this section, the handler shall pay the amount computed pursuant to paragraph (b) of this section:

(a) An amount computed as follows:

(1)(i) The obligation that would have been computed pursuant to § 1124.60 at such plant shall be determined as though such plant were a pool plant. For purposes of such computation, receipts at such nonpool plant from a pool plant or an other order plant shall be assigned to the utilization at which classified at the pool plant or other order plant and transfers from such nonpool plant to a pool plant or an other order plant shall be classified as Class II or Class III milk if allocated to such class at the pool plant or other order plant and be valued at the uniform price or estimated uniform price or statistical uniform price of the respective order if so allocated to Class I milk, except that reconstituted skim milk in filled milk shall be valued at the Class III price. No obligation shall apply to Class I milk transferred to a pool plant or another order plant if such Class I utilization is assigned to receipts at the partially regulated distributing plant from pool plants and other order plants at which an equivalent amount of milk was classified and priced as Class I milk. There shall be included in the obligation so computed a charge in the amount specified in § 1124.60(j) and a credit in the amount specified in § 1124.71(b)(3) with respect to receipts from an unregulated supply

plant, except that the credit for receipts of reconstituted skim milk in filled milk shall be at the Class III price, unless an obligation with respect to such plant is computed as specified in paragraph (a)(1)(ii) of this section; and

(ii) If the operator of the partially regulated distributing plant so requests, and provides with reports filed pursuant to §§1124.30(d) and 1124.31(b) similar reports with respect to the operations of any other nonpool plant which serves as a supply plant for such partially regulated distributing plant by shipments to such plant during the month equivalent to the requirements of §1124.7(b), with agreement of the operator of such plant that the market administrator may examine the books and records of such plant for purposes of verification of such reports, there will be added the amount of the obligation computed at such nonpool supply plant in the same manner and subject to the same conditions as for the partially regulated distributing plant.

(2) From this obligation there will be deducted the sum of:

(i) The gross payments made by such handler for Grade A milk received during the month from dairy farmers at such plant adjusted to a 3.5 percent butterfat basis by the butterfat differential pursuant to §1124.50(f)(3), and like payments made by the operator of a supply plant(s) included in the computations pursuant to paragraph (a)(1) of this section; and

(ii) Any payments to the producer-settlement fund of an other order under which such plant is also a partially regulated distributing plant.

(b) An amount computed as follows:

(1) Determine the respective amounts of skim milk and butterfat disposed of as route disposition of Class I milk within the marketing area;

(2) Deduct the respective amount of skim milk and butterfat received at the plant:

(i) As Class I milk from pool plants and other order plants, except that deducted under a similar provision of another order issued pursuant to the Act; and

(ii) From a nonpool plant that is not an other order plant to the extent that an equivalent amount of skim milk or

butterfat disposed of to such nonpool plant by handlers fully regulated under this or any other order issued pursuant to the Act is classified and priced as Class I milk and is not used as an offset on any payment obligation under this or any other order;

(3) Subtract the pounds of reconstituted milk that are made from nonfluid milk products and which are then disposed of as route disposition in the marketing area from the partially regulated distributing plant;

(4) From the value of such milk at the Class I price applicable at the location of the nonpool plant, subtract its value at the statistical uniform price applicable at such location (not to be less than the Class III price), and add the amount obtained from multiplying the pounds of labeled reconstituted milk included in paragraph (b)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant less \$1.00 (but not to be less than the Class III price) and the Class III price. For any reconstituted milk that is not so labeled, the Class I price shall not be reduced by \$1.00. Alternatively, for such disposition, payments may be made to the producer-settlement fund of the order regulating the producer milk used to produce the nonfluid milk ingredients at the difference between the Class I price applicable under the other order at the location of the plant where the nonfluid milk ingredients were processed (but not to be less than the Class III price) and the Class III price. This payment option shall apply only if a majority of the total milk received at the plant that processed the nonfluid milk ingredients is regulated under one or more Federal orders and payment may only be made to the producer-settlement fund of the order pricing a plurality of the milk used to produce the nonfluid milk ingredients. This payment option shall not apply if the source of the nonfluid ingredients used in reconstituted fluid milk products cannot be determined by the market administrator.

(c) Any handler may elect partially regulated distributing plant status for any plant with respect to receipts of nonfluid milk ingredients assigned to Class I use under §1124.43(f). Payments

may be made to the producer-settlement fund of the order regulating the producer milk used to produce the nonfluid milk ingredients at the difference between the Class I price applicable under the other order at the location of the plant where the nonfluid milk ingredients were processed (but not to be less than the Class III price) and the Class III price. This payment option shall apply only if a majority of the total milk received at the plant that processed the nonfluid milk ingredients is regulated under one or more Federal orders and payment may only be made to the producer-settlement fund of the order pricing a plurality of the milk used to produce the nonfluid milk ingredients. This payment option shall not apply if the source of the nonfluid ingredients used in reconstituted fluid milk products cannot be determined by the market administrator.

[53 FR 52976, Dec. 30, 1988, as amended at 58 FR 27887, May 11, 1993. Redesignated and amended at 59 FR 15324, Apr. 1, 1994; 60 FR 6612, Feb. 2, 1995; 60 FR 18976, Apr. 14, 1995; 62 FR 4, Jan. 2, 1997]

#### **§ 1124.76 Adjustment of accounts.**

Whenever verification by the market administrator of reports or payments of any handler discloses errors resulting in money due:

- (a) The market administrator from such handler;
- (b) Such handler from the market administrator; or
- (c) Any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred following the 5th day after such notice.

[53 FR 52976, Dec. 30, 1988. Redesignated at 59 FR 15324, Apr. 1, 1994]

#### **§ 1124.77 Charges on overdue accounts.**

- (a) Any unpaid obligation of a handler pursuant to §§ 1124.71, 1124.76, 1124.75, 1124.85 or 1124.86 shall be increased 1 percent beginning on the first day after the due date, and on each date of subsequent months following the day on which such type of obliga-

tion is normally due, subject to the following conditions:

- (1) The amounts payable pursuant to this section shall be computed monthly on each unpaid obligation, which shall include any unpaid overdue charges previously computed pursuant to this section; and

(2) For the purpose of this section, any obligation that was determined at a date later than that prescribed by the order because of a handler's failure to submit a report to the market administrator when due shall be considered to have been payable by the date it would have been due if the report had been filed when due.

- (b) All charges on overdue accounts shall be paid to the fund to which the account was due immediately after the charge has been collected.

[53 FR 52976, Dec. 30, 1988. Redesignated and amended at 59 FR 15324, Apr. 1, 1994]

#### ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

#### **§ 1124.85 Assessment for order administration.**

A pro rata share of the expense of administration of the order shall be paid to the market administrator by each handler on or before the 16th day after the end of the month 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

- (a) Producer milk (including such handler's own production);
- (b) Receipts of concentrated fluid milk products from unregulated supply plants and receipts of nonfluid milk products assigned to Class I use pursuant to § 1124.43(f) and other source milk allocated to Class I pursuant to § 1124.44 (a)(8) and (a)(12) and the corresponding steps of § 1124.44(b), except such other source milk on which no handler obligation applies pursuant to § 1124.60(i) and (k); and
- (c) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the Class I milk:

- (1) Received during the month at such plant from pool plants and other

§ 1124.86

7 CFR Ch. X (1-1-98 Edition)

order plants that is not used as an off-set under a similar provision of another order issued pursuant to the Act; and

(2) Specified in § 1124.75(b)(2)(ii).

[53 FR 52976, Dec. 30, 1988, as amended at 58 FR 27888, May 11, 1993; 59 FR 15324, Apr. 1, 1994; 62 FR 4, Jan. 2, 1997]

§ 1124.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than with respect to milk of such handler's own production) pursuant to § 1124.73(a)(2), shall make a deduction of 5 cents per hundredweight of milk or such amount not exceeding 5 cents per hundredweight as the Secretary may prescribe, with respect to the following:

(1) All milk received from producers at a plant not operated by a cooperative association.

(2) All milk received at a plant operated by a cooperative association from producers for whom the marketing services set forth below in this paragraph are not being performed by the cooperative association as determined by the market administrator. Such deduction shall be paid by the handler to the market administrator on or before the 16th day after the end of the month. Such moneys shall be expended by the market administrator for the verification of weights, sampling and testing of milk received from producers, and in providing for market information to producers. Such services are to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of each producer;

(1) Who is a member of, or who has given written authorization for the rendering of marketing services and the taking of deductions therefore to, a cooperative association;

(2) Whose milk is received at a plant not operated by such association; and

(3) For whom the market administrator determines that such association is performing the services described in paragraph (a) of this section, each handler shall deduct, in lieu of the deduction specified under paragraph (a)

of this section, from the payments made pursuant to § 1124.73(a)(2) the amount per hundredweight on milk authorized by such producer and shall pay, on or before the 18th day after the end of the month, such deduction to the association entitled to receive it under this paragraph.
