

§ 1126.3

ZONE 11

Brooks, Duval, Jim Wells, Kenedy, Kleberg, Nueces, San Patricio.

ZONE 12

Cameron, Hidalgo, Willacy.

[40 FR 23438, May 30, 1975, as amended at 47 FR 54422, Dec. 3, 1982]

§ 1126.3 Route disposition.

Route disposition means any delivery (including any delivery by a vendor or disposition at a plant store) of a fluid milk product classified as Class I milk, other than a delivery to a plant.

§ 1126.4 Plant.

Plant means the land, buildings, facilities, and equipment constituting a single operating unit or establishment at which milk or milk products (including filled milk) are received, processed, or packaged. Separate facilities without stationary storage tanks which are used only as a reload point for transferring bulk milk from one tank truck to another or separate facilities used only as a distribution point for storing packaged fluid milk products in transit for route disposition shall not be a plant under this definition.

§§ 1126.5—1126.6 [Reserved]

§ 1126.7 Pool plant.

Except as provided in paragraph (f) of this section, pool plant means:

(a) Any plant that is approved by a duly constituted regulatory agency for the processing or packaging of Grade A milk and from which during the month there is:

(1) Route disposition, except filled milk, in the marketing area equal to 10 percent or more of the receipts of Grade A fluid milk products at such plant, including producer milk diverted from the plant; and

(2) Total route disposition, except filled milk, equal to 50 percent or more of the receipts of Grade A fluid milk products at such plant, including producer milk diverted from the plant. If two plants operated by the same handler each meet the performance requirement of paragraph (a)(1) of this section and such handler requests that the two plants be considered together

for the purpose of meeting the total route disposition requirement, each such plant shall be deemed to have met the total disposition requirement of this paragraph if the combined route disposition, except filled milk, of such plants is 50 percent or more of the combined receipts of Grade A fluid milk products at such plants, including producer milk diverted from the plants.

(b) Any plant, other than a plant described in paragraph (a) of this section, that is approved by a duly constituted regulatory agency for the disposition of Grade A milk in the marketing area and from which during the month 50 percent or more of the receipts at such plant of Grade A milk from dairy farmers (including producer milk diverted from the plant but excluding milk received as diverted milk) and handlers described in §1126.9(c) is transferred in the form of a bulk fluid milk product, except filled milk, to pool plants described in paragraph (a) of this section, except that such percentage shall be 15 percent for the months of:

(1) August, if the plant was a pool plant under this paragraph or paragraph (d) of this section during the immediately preceding month of July; and

(2) December, if the plant was a pool plant under this paragraph during the immediately preceding month of November.

(c) Any plant, other than a plant described in paragraph (a) or (b) of this section or that qualifies as a pool plant under another Federal order, from which during the month 50 percent or more of the receipts at such plant of Grade A milk from dairy farmers (including milk diverted from the plant but excluding milk received as diverted milk) and handlers described in §1126.9(c) is transferred in the form of a bulk fluid milk product, except filled milk, to pool plants described in paragraph (a) of this section and distributing plants fully regulated under other Federal orders, if the total quantity so transferred to pool plants exceeds in the case of each other order the total quantity so transferred to other order distributing plants, except that:

(1) For the following months, such percentage shall be 15 percent and shall apply only to transfers to pool plants
