§ 1308.12

Synthetic equivalents of the substances contained in the plant, or in the resinous extractives of Cannabis, sp. and/or synthetic substances, derivatives, and their isomers with similar chemical structure and pharmacological activity such as the following:

\( \Delta 1 \) cis or trans tetrahydrocannabinol, and their optical isomers
\( \Delta 3 \) cis or trans tetrahydrocannabinol, and their optical isomers
\( \Delta 3,4 \) cis or trans tetrahydrocannabinol, and its optical isomers.

(Since nomenclature of these substances is not internationally standardized, compounds of these structures, regardless of numerical designation of atomic positions covered.)

(28) Ethylamine analog of phencyclidine ................. 7455
Some trade or other names: N-ethyl-1-phenylcyclohexylamine, 1-phenylcyclohexyl(ethyl)amine, N-phenylcyclohexyl(ethyl)amine, cyclohexamine, PCE

(29) Pyrrolidine analog of phencyclidine ............... 7458
Some trade or other names: 1-(1-phenylcyclohexyl)-pyrrolidine, PCPy, PHP

(30) Thiophene analog of phencyclidine ................. 7470
Some trade or other names: 1-(1-2-thienyl)cyclohexyl)piperidine, 2-thienylanalog of phencyclidine, TCP, TCP

(31) 1-[1-(2-thienyl)cyclohexyl]pyrrolidine ........... 7473
Some other names: TCPy

(e) Depressants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Methaqualone .................................................. 2572
(2) Methaqualone .................................................. 2565

(f) Stimulants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system, including its salts, isomers, and salts of isomers:

(1) Aminorex (Some other names: aminoxaphen; 2-amino-5-phenyl-2-oxazolamine; or 4,5-dihydro-4-methyl-5-phenyl-2-oxazolamine) .................................................. 1585
(2) Cathinone .......................................................... 1235
Some trade or other names: 2-amino-1-phenyl-1-propanone, alpha-amino propiophenone, 2-amino propiophenone, and norephedrine

(3) Fenethylone .......................................................... 1503

(4) Methcathionic (Some other names: 2-(methylaminomethyl)propiophenone, alpha-methylaminomethylpropiophenone, 2-(methylaminomethyl)-1-phenylpropan-1-one; alpha-N-methylaminopropiophenone; monomethylpropion; ephedrine; N-methylcathinone; methylecathinone; AL-464; AL-422; AL-463 and UR1432), its salts, optical isomers and salts of optical isomers ................. 1237

(5) ( cis)-cis-4-methylaminorex (( cis)-cis-4,5-dihydro-4-methyl-5-phenyl-2-oxazolamine) ................................................................. 1590
(6) N-ethylamphetamine ........................................... 1475
(7) N,N-dimethylamphetamine (also known as N,N-alpha-trimethyl-benzeneethanamine; N,N-alpha-trimethylphenethylamine) .................................................. 1480

(g) Temporary listing of substances subject to emergency scheduling: Any material, compound, mixture or preparation which contains any quantity of the following substances:

(1) N-[1-benzyl-4-piperidyl] N-phenylpropanamide (benzylfentanyl), its optical isomers, salts and salts of isomers ..... 9818

(2) N-[1-(2-thienyl)methyl-4-piperidyl]-N-phenylpropanamide (thienylfentanyl), its optical isomers, salts and salts of isomers ...... 9834

[39 FR 22141, June 20, 1974]

EDITORIAL NOTE: For FEDERAL REGISTER citations affecting § 1308.11, see the List of CFR Sections Affected in the Finding Aids section of this volume.

§ 1308.12 Schedule II.

(a) Schedule II shall consist of the drugs and other substances, by whatever official name, common or usual name, chemical name, or brand name designated, listed in this section. Each drug or substance has been assigned the Controlled Substances Code Number set forth opposite it.

(b) Substances, vegetable origin or chemical synthesis. Unless specifically excepted or unless listed in another schedule, any of the following substances whether produced directly or indirectly by extraction from substances of vegetable origin, or independently by means of chemical synthesis, or by a combination of extraction and chemical synthesis:

(1) Opium and opiate, and any salt, compound, derivative, or preparation of opium or opiate excluding apomorphine, thebaine-derived butorphan, dextrophan, nalbuphine, nalmefene, naloxone, and naltrexone, and their respective salts, but including the following:

(1) Raw opium .......................................................... 9600
(2) Opium extracts .................................................. 9610
(3) Opium fluid ....................................................... 9620
(4) Powdered opium .................................................. 9639
(5) Granulated opium ................................................. 9640

(6) Tincture of opium ............................................... 9630
(7) Codeine ............................................................ 9050
(8) Ethylmorphine ..................................................... 9190
(9) Etorphine hydrochloride ........................................ 9059
(10) Hydrocodone ...................................................... 9193
(11) Hydromorphone .................................................. 9150
(12) Metopen ............................................................ 9260
(13) Morphine .......................................................... 9300

82
(2) Any salt, compound, derivative, or preparation thereof which is chemically equivalent or identical with any of the substances referred to in paragraph (b) (1) of this section, except that these substances shall not include the isoquinoline alkaloids of opium.

(3) Opium poppy and poppy straw.

(4) Coca leaves (9040) and any salt, compound, derivative or preparation of coca leaves (including cocaine (9041) and ecgonine (9180) and their salts, isomers, derivatives and salts of isomers and derivatives), and any salt, compound, derivative, or preparation thereof which is chemically equivalent or identical with any of these substances, except that the substances shall not include decocainized coca leaves or extraction of coca leaves, which extractions do not contain cocaine or ecgonine.

(5) Concentrate of poppy straw (the crude extract of poppy straw in either liquid, solid or powder form which contains the phenanthrene alkaloids of the opium poppy), 9670.

(c) Opiates. Unless specifically excepted or unless in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulating effect on the central nervous system:

(1) Amphetamine, its salts, optical isomers, and salts of its optical isomers

(2) Methamphetamine, its salts, isomers, and salts of its isomers

(3) Phenmetrazine and its salts

(4) Dextropropoxyphene

(d) Stimulants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulating effect on the central nervous system:

(1) Thebaine

(2) Oxymorphone

(3) Oxycodone

(e) Depressants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system, including its salts, isomers, and salts of isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Amobarbital

(2) Phenobarbital

(3) Pentobarbital

(f) Hallucinogenic substances.

(1) Dronabinol (synthetic) in sesame oil and encapsulated in a soft gelatin capsule in a U.S. Food and Drug Administration approved drug product

(2) Nabilone

(g) Immediate precursors. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances:

(1) Immediate precursor to amphetamine and methamphetamine:.
§ 1308.13

(2) Immediate precursors to phencyclidine (PCP):
   (i) 1-phenylcyclohexylamine .......................... 7460
   (ii) 1-piperidinocyclohexaneboronitrile (PCC) ... 8603

[39 FR 22142, June 20, 1974]

EDITORIAL NOTE: For Federal Register citations affecting §1308.12, see the List of CFR Sections Affected in this volume.

§ 1308.13 Schedule III.

(a) Schedule III shall consist of the drugs and other substances, by whatever official name, common or usual name, chemical name, or brand name designated, listed in this section. Each drug or substance has been assigned the DEA Controlled Substances Code Number set forth opposite it.

(b) Stimulants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a stimulant effect on the central nervous system, including its salts, isomers (whether optical, positional, or geometric), and salts of such isomers whenever the existence of such salts, isomers, and salts of isomers is possible within the specific chemical designation:

(1) Those compounds, mixtures, or preparations in dosage unit form containing any stimulant substances listed in schedule II which compounds, mixtures, or preparations were listed on August 25, 1971, as excepted compounds under §1308.32, and any other drug of the quantitative composition shown in that list for those drugs which is the same except that it contains a lesser quantity of controlled substances ......................................................... 1405
(2) Benztropine ........................................ 1228
(3) Chlorphentermine .................................. 1645
(4) Clortermine ......................................... 1647
(5) Fluphenazine ........................................ 1615

(c) Depressants. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation which contains any quantity of the following substances having a depressant effect on the central nervous system:

(1) Any compound, mixture or preparation containing:
   (i) Amobarbital ........................................... 2126
   (ii) Secobarbital ........................................... 2316
   (iii) Pentobarbital ........................................... 2271
   or any salt thereof and one or more other active medicinal ingredients which are not listed in any schedule.
   (2) Any suppository dosage form containing:
   (i) Amobarbital ........................................... 2126
   (ii) Secobarbital ........................................... 2316
   (iii) Pentobarbital ........................................... 2271

21 CFR Ch. II (4-1-99 Edition)

(3) Any substance which contains any quantity of a derivative of barbituric acid or any salt thereof ........ 2100
(4) Chlorhexadol ......................................... 2510
(5) Lysergic acid ........................................ 7300
(6) Lysergic acid amide ................................. 7310
(7) Methylphenidate ...................................... 2575
(8) Sulfonethoxymethane ............................... 2600
(9) Sulfonethylmethane .................................. 2605
(10) Sulfonmethane ........................................ 2610
(11) Telazol and zolazepam or any salt thereof ....... 7295

Some trade or other names for telazol:

Telazol...

Some trade or other names for zolazepam:

Zoletil...

(d) Nalorphine 9400.

(e) Narcotic Drugs. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation containing any of the following narcotic drugs, or their salts calculated as the free anhydrous base or alkaloid, in limited quantities as set forth below:

(1) Not more than 1.8 grams of codeine per 100 milliliters or not more than 90 milligrams per dosage unit, with an equal or greater quantity of an isoquinoline alkaloid of opium ............................ 9803
(2) Not more than 1.8 grams of codeine per 100 milliliters or not more than 90 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts ........................................ 9804
(3) Not more than 300 milligrams of dihydrocodeinone (hydrocodeine) per 100 milliliters or not more than 15 milligrams per dosage unit, with a fourfold or greater quantity of an isoquinoline alkaloid of opium .............................................. 9805
(4) Not more than 300 milligrams of dihydrocodeinone (hydrocodeine) per 100 milliliters or not more than 15 milligrams per dosage unit, with one or more active nonnarcotic ingredients in recognized therapeutic amounts ........................................ 9806
(5) Not more than 1.8 grams of dihydrocodeinone per 100 milliliters or not more than 90 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts ........ 9807
(6) Not more than 300 milligrams of ethylmorphine per 100 milliliters or not more than 15 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts .......... 9808
(7) Not more than 500 milligrams of opium per 100 milliliters or per 100 grams or not more than 25 milligrams per dosage unit, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts .......... 9809
(8) Not more than 50 milligrams of morphine per 100 milliliters or per 100 grams, with one or more active, nonnarcotic ingredients in recognized therapeutic amounts .............................. 9810

(2) Immediate precursors to phencyclidine (PCP):

Anabolic steroids. Unless specifically excepted or unless listed in another schedule, any material, compound, mixture, or preparation containing any quantity of the following substances, including its salts, isomers, or any salt of any of these drugs and approved by the Food and Drug Administration for marketing only as a suppository.

Some trade or other names for tiletamine:

Telazol.

Some trade or other names for zolazepam:

Zoletil.
