

Bureau of Land Management, Interior

§ 2741.3

Federal Land Policy and Management Act are contained in subpart 2742 of this chapter.

(d) Requirements and procedures for conveyance of land under the Recreation and Public Purposes Act for the purpose of solid waste disposal or for any other purpose that the authorized officer determines may result in or include the disposal, placement, or release of any hazardous substance are contained in subpart 2743 of this chapter.

[44 FR 43471, July 25, 1979, as amended at 57 FR 32732, July 23, 1992]

§ 2740.0-9 Information collection.

The collection of information contained in part 2740 of Group 2700 has been approved by the Office of Management and Budget under 44 U.S.C. 3501 *et seq.* and assigned clearance number 1004-0012. This information will be used to determine the suitability of public lands for lease and/or disposal to States or their political subdivisions, and to nonprofit corporations and associations, for recreational and public purposes. Responses are required to obtain benefits in accordance with the Recreation and Public Purposes Act.

Public reporting burden for this information is estimated to average 47 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, should be sent to the Division of Information Resources Management (770), Bureau of Land Management, 1849 C Street NW., Washington, DC 20240; and the Paperwork Reduction Project (1004-0012), Office of Management and Budget, Washington, DC 20503.

[57 FR 32732, July 23, 1992]

Subpart 2741—Recreation and Public Purposes Act: Requirements

§ 2741.1 Lands subject to disposition.

(a) The act is applicable to any public lands except (1) lands withdrawn or reserved for national forests, national

parks and monuments, and national wildlife refuges, (2) Indian lands and lands set aside or held for use by or for the benefit of Indians, Aleuts and Eskimos, and (3) lands which have been acquired for specific purposes.

(b) Revested Oregon and California Railroad grant lands and reconveyed Coos Bay Wagon Road grant lands may only be leased to States and counties and to State and Federal instrumentalities and political subdivisions and to municipal corporations.

(c) Section 211 of the Federal Land Policy and Management Act of 1976 does not apply to public lands within the National Forest System, defined in the Act of August 17, 1974 (16 U.S.C. 1601), the National Park System, the National Wildlife Refuge System and the National Wild and Scenic Rivers System.

[44 FR 43472, July 25, 1979]

§ 2741.2 Qualified applicants.

Applications for any recreational or public purpose may be filed by States, Federal and State instrumentalities and political subdivisions, including counties and municipalities, and nonprofit associations and nonprofit corporations that, by their articles of incorporation or other authority, are authorized to acquire land.

[44 FR 43472, July 25, 1979]

§ 2741.3 Preapplication consultation.

(a) Potential applicants should contact the appropriate District Office of the Bureau of Land Management well in advance of the anticipated submission of an application. Early consultation is needed to familiarize a potential applicant with management responsibilities and terms and conditions which may be required in a lease or patent.

(b) Any information furnished by the applicant in connection with preapplication activity or use, which he/she requests not be disclosed, shall be protected to the extent consistent with the Freedom of Information Act (5 U.S.C. 552).

(c) Dependent upon the magnitude and/or public interest associated with

§ 2741.4

the proposed use, various investigations, studies, analyses, public meetings and negotiations may be required of the applicant prior to the submission of the application. Where a determination is made that studies and analyses are required, the authorized officer shall inform the potential applicant of these requirements.

(d) The potential applicant may be permitted to go upon the public lands to perform casual acts related to data collection necessary for development of an acceptable plan of development as required in § 2741.4(b) of this title. These casual acts include, but are not limited to:

- (1) Vehicle use on existing roads;
- (2) Sampling;
- (3) Surveys required for siting of structures or other improvements; and
- (4) Other activities which do not unduly disturb surface resources. If, however, the authorized officer determines that appreciable impacts to surface resources may occur, he/she may require the potential applicant to obtain a land use authorization permit with appropriate terms and conditions under the provision of part 2920 of this title.

[50 FR 50300, Dec. 10, 1985]

§ 2741.4 Applications.

(a) Applications shall be submitted on forms approved by the Director, Bureau of Land Management.

(b) Each application shall be accompanied by three copies of a statement describing the proposed use of the land. The statement shall show that there is an established or definitely proposed project for such use of the land, present detailed plan and schedule for development of the project and a management plan which includes a description of how any revenues will be used. The provisions of § 1821.2 of this title apply to filings pursuant to this section.

(c) Each application shall be accompanied by a nonrefundable filing fee of \$100. The filing fee shall be required for new applications as well as for applications for change of use or transfer of title filed under § 2741.6 of this title.

[44 FR 43472, July 25, 1979. Redesignated and amended at 50 FR 50300, Dec. 10, 1985]

43 CFR Ch. II (10-1-99 Edition)

§ 2741.5 Guidelines for conveyances and leases under the act.

(a) Public lands shall be conveyed or leased under the act only for an established or definitely proposed project for which there is a reasonable timetable of development and satisfactory development and management plans.

(b) No public lands having national significance shall be conveyed pursuant to the act.

(c) No more public lands than are reasonably necessary for the proposed use shall be conveyed pursuant to the act.

(d) For proposals involving over 640 acres, public lands shall not be sold or leased pursuant to this act until:

(1) Comprehensive land use plans and zoning regulations for the area in which the lands are located have been adopted by the appropriate State or local authorities.

(2) The authorized officer has held at least one public meeting on the proposal.

(e) Applications shall not be approved unless and until it has been determined that disposal under the act would serve the national interest following the planning requirements of section 202 of the Federal Land Policy and Management Act (43 U.S.C. 1712).

(f) Public lands may be determined to be suitable for lease or sale under the act by the authorized officer on his own motion as a result of demonstrated public needs for public lands for recreational or public purposes during the planning process described in section 202 of the Federal Land Policy and Management Act.

(g) Lands under the jurisdiction of another agency shall not be determined to be suitable for lease or sale without that agency's approval.

(h)(1) A notice of realty action which shall serve as a classification of public lands as suitable or unsuitable for conveyance or lease under the act shall be issued, published and sent to parties of interest by the authorized officer not less than 60 days prior to the proposed effective date of the classification action. Notices specifying public lands classified as suitable shall include: the use proposed; whether the lands are to be conveyed or leased; and the terms, covenants, conditions and reservations

Bureau of Land Management, Interior

§ 2741.7

which shall be included in the conveyance or lease document. The notice shall provide at least 45 days from the date of issuance for submission of public comments.

(2) If the notice of realty action states that the lands are classified as suitable for conveyance or lease under the act, it shall segregate the public lands described in the notice from appropriation under any other public land law, including locations under the mining laws, except as provided in the notice or any amendments or revisions to the notice. If, after 18 months following the issuance of the notice, an application has not been filed for the purpose for which the public lands have been classified, the segregative effect of the classification shall automatically expire and the public lands classified in the notice shall return to their former status without further action by the authorized officer.

(3) The notice of realty action shall be published once in the FEDERAL REGISTER and once a week for 3 weeks thereafter in a newspaper of general circulation in the vicinity of the public lands covered by the notice.

(4) The notice published under § 1610.5-5 of this title, if designated in the notice, shall serve as the notice of realty action required by this section and shall segregate the public lands as stated in the notice. Any such notice given under § 1610.5-5 of this title shall be published and distributed under the provisions of this section.

(i) The Act shall not be used to provide sites for the disposal of permanent or long-term hazardous wastes.

[44 FR 43472, July 25, 1979. Redesignated at 51 FR 50300, Dec. 10, 1985, and amended at 50 FR 50301, Dec. 10, 1985; 51 FR 1795, Jan. 15, 1986; 57 FR 32733, July 23, 1992]

§ 2741.6 Applications for transfer or change of use.

(a) Applications under the act for permission to add to or change the use specified in a patent or applications to transfer title to a third party shall be filed as prescribed in § 2741.4 of this title.

(b) Applications for transfer of title are subject to the acreage limitations as prescribed in § 2741.7(a) of this title.

(c) Prior to approval of an application filed under this section, the public lands may be reappraised in accordance with § 2741.8 of this title and the beneficiary required to make such payments as are found justified by the reappraisal.

[44 FR 43472, July 25, 1979. Redesignated at 51 FR 50300, Dec. 10, 1985, and amended at 50 FR 50301, Dec. 10, 1985]

§ 2741.7 Acreage limitations and general conditions.

(a) Conveyances under the Act to any applicant in any one calendar year shall be limited as follows:

(1) Any State or State agency having jurisdiction over the State park system may acquire not more than 6,400 acres for recreational purposes and such additional acreage as may be needed for small roadside parks and rest sites of 10 acres or less each.

(2) Any State or agency or instrumentality of such State may acquire not more than 640 acres for each of its programs involving public purposes other than recreation.

(3) Any political subdivision of a State may acquire for recreational purposes not more than 6,400 acres, and for public purposes other than recreation an additional 640 acres. In addition, any political subdivision of a State may acquire such additional acreage as may be needed for roadside parks and rest sites of not more than 10 acres each.

(4) If a State or political subdivision has failed in any one calendar year to receive 6,400 acres (not counting public lands for small roadside parks and rest sites) and had an application on file on the last day of that year, the State, State park agency or political subdivision may receive additional public lands to the extent that the conveyances would not have exceeded the limitations for that year.

(5) Any nonprofit corporation or nonprofit association may acquire for recreational purposes not more than 640 acres and for public purposes other than recreation an additional 640 acres.

(6) Acreage limitations described in this section do not apply to conveyances made under section 211 of the Federal Land Policy and Management Act of 1976.

§ 2741.8

(b) Conveyances within any State shall not exceed 25,600 acres for recreational purposes per calendar year, except that should any State park agency or political subdivision fail in one calendar year to receive 6,400 acres other than small roadside parks and rest sites, additional conveyances may be made thereafter to that State park agency or political subdivision pursuant to any application on file on the last day of said year to the extent that the conveyances would not have exceeded the limitations of said year.

(c) No patents shall be issued under the act unless and until the public lands are officially surveyed. This requirement does not apply to islands patented under the authority of section 211(a) of the Federal Land Policy and Management Act of 1976.

(d) All leases and patents issued under the act shall reserve to the United States all minerals together with the right to mine and remove the same under applicable laws and regulations to be established by the Secretary of the Interior. Where such reserved minerals are subject to disposition under the provisions of the Mineral Leasing Act of 1920, as amended, and supplemented (30 U.S.C. 181 *et seq.*), the Materials Act of July 31, 1947, as amended (30 U.S.C. 601 *et seq.*) and the Geothermal Steam Act of 1970 (30 U.S.C. 1001 *et seq.*), the regulations contained in Subchapter C of this title shall be utilized.

[44 FR 43472, July 25, 1979. Redesignated at 51 FR 50300, Dec. 10, 1985, and amended at 50 FR 50301, Dec. 10, 1985]

§ 2741.8 Price.

(a) Conveyances for recreational or historic-monument purposes to a State, county, or other State or Federal instrumentality or political subdivision shall be issued without monetary consideration.

(b) All other conveyances shall be made at prices established by the Secretary of the Interior through appraisal or otherwise, taking into consideration the purpose for which the land is to be used.

43 CFR Ch. II (10–1–99 Edition)

(c) Patents shall be issued only after payment of the full purchase price by a patent applicant.

[44 FR 43472, July 25, 1979. Redesignated at 50 FR 50300, Dec. 10, 1985]

§ 2741.9 Patent provisions.

(a) All patents under the act shall provide that title shall revert upon a finding, after notice and opportunity for a hearing, that, without the approval of the authorized officer:

(1) The patentee or its approved successor attempts to transfer title to or control over the lands to another;

(2) The lands have been devoted to a use other than that for which the lands were conveyed;

(3) The lands have not been used for the purpose for which they were conveyed for a 5-year period; or

(4) The patentee has failed to follow the approved development plan or management plan.

(b) Patents shall also provide that the Secretary of the Interior may take action to revest title in the United States if the patentee directly or indirectly permits his agents, employees, contractors, or subcontractors (including without limitation lessees, sublessees, and permittees) to prohibit or restrict the use of any part of the patented lands or any of the facilities thereon by any person because of such person's race, creed, color, sex or national origin.

Subpart 2742—Recreation and Public Purposes Act: Omitted Lands and Unsurveyed Islands

SOURCE: 44 FR 41794, July 18, 1979, unless otherwise noted. Redesignated at 50 FR 50301, Dec. 10, 1985.

§ 2742.1 Lands subject to disposition.

Omitted lands and unsurveyed islands may be conveyed to States and their local political subdivisions under the provisions of section 211 of the Federal Land Policy and Management Act (43 U.S.C. 1721).

[50 FR 50301, Dec. 10, 1985]

Bureau of Land Management, Interior

§ 2743.2

§ 2742.2 Qualifications of applicants.

States and their political subdivisions are qualified applicants.

§ 2742.3 Survey requirement.

(a) Islands. (1) Survey is not necessary. However, unsurveyed islands shall be determined by the Secretary to be public lands of the United States.

(2) Islands shall be surveyed at the request of the applicant, as provided in part 9185 of this chapter.

(b) Determination as to whether lands, other than islands, are public lands of the United States erroneously or fraudulently omitted from the original surveys shall be by survey. Surveys shall be in accordance with the requirements of part 9185 of this title.

§ 2742.4 Conveyance limitations.

(a) No conveyances shall be made under this section until the relevant State government, local government, and areawide planning agency have notified the Secretary as to the consistency of such conveyance with applicable State and local government land use plans and programs.

(b) At least 60 days prior to offering for sale or otherwise conveying public lands under this section, the Secretary shall notify the Governor of the State within which such lands are located and the head of the governing body of any political subdivision of the State having zoning or other land-use regulatory jurisdiction in the geographical area within which such lands are located in order to afford the appropriate body the opportunity to zone or otherwise regulate change or amend existing zoning or other regulations concerning the use of such lands prior to such conveyance.

(c) Conveyances under this section may be made without regard to acreage limitations contained in the Recreation and Public Purposes Act.

§ 2742.5 Consistency with other laws.

The provision of the Recreation and Public Purposes Act prohibiting disposal for any use authorized under any other law does not apply to conveyances under this subpart.

Subpart 2743—Recreation and Public Purposes Act: Solid Waste Disposal

SOURCE: 57 FR 32733, July 23, 1992, unless otherwise noted.

§ 2743.1 Applicable regulations.

Unless the requested action falls within the provision of § 2743.2(b), applications filed or actions taken under this subpart shall be subject to all the requirements set forth in subpart 2741 of this chapter except §§ 2741.6 and 2741.9.

§ 2743.2 New disposal sites.

(a) Public lands may be conveyed for the purpose of solid waste disposal or for any other purpose that the authorized officer determines may include the disposal, placement, or release of any hazardous substance subject to the following provisions:

(1) The applicant shall furnish a copy of the application, plan of development, and any other information concerning the proposed use to all Federal and State agencies with responsibility for enforcement of laws applicable to lands used for the disposal, placement, or release of solid waste or any hazardous substance. The applicant shall include proof of this notification in the application filed with the authorized officer;

(2) The proposed use covered by an application shall be consistent with the land use planning provisions contained in part 1600 of this title, and in compliance with the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4371) and any other Federal and State laws and regulations applicable to the disposal of solid wastes and hazardous substances;

(3) Conveyance shall be made only of lands classified for sale pursuant to the procedures and criteria in part 2400 of this title;

(4) The applicant shall warrant that it will indemnify and hold the United States harmless against any liability that may arise out of any violation of Federal or State law in connection with the use of the lands;

§ 2743.2-1

43 CFR Ch. II (10-1-99 Edition)

(5) The authorized officer shall investigate the lands covered by an application to determine whether or not any hazardous substance is present. The authorized officer will require full reimbursement from the applicant for the costs of the investigation. The authorized officer may, in his or her discretion, make an exception to the requirement of full reimbursement if the applicant demonstrates that such costs would result in undue hardship. The investigation shall include but not be limited to:

(i) A review of available records related to the history and use of the land;

(ii) A visual inspection of the property; and

(iii) An appropriate analysis of the soil, water and air associated with the area;

(6) The investigation conducted under paragraph (a)(5) of this section must disclose no hazardous substances and there is a reasonable basis to believe that no such substances are present; and

(7) The applicant shall present certification from the State agency or agencies responsible for environmental protection and enforcement that they have reviewed all records, inspection reports, studies, and other materials produced or considered in the course of the investigation and that based on these documents, such agency or agencies agree with the authorized officer that no hazardous substances are present on the property.

(b) The authorized officer shall not convey public lands covered by an application if hazardous substances are known to be present.

(c) The authorized officer shall retain as permanent records all environmental analyses and appropriate documentation, investigation reports, State certifications, and other materials produced or considered in determining the suitability of public lands for conveyance under this section.

§ 2743.2-1 Patent provisions for new disposal sites.

For new disposal sites, each patent will provide that:

(a) The patentee shall comply with all Federal and State laws applicable

to the disposal, placement, or release of hazardous substances;

(b) The patentee shall indemnify and hold harmless the United States against any legal liability or future costs that may arise out of any violation of such laws;

(c) Except as provided in paragraph (e) of this section, the land conveyed under § 2743.2 of this part shall revert to the United States unless substantially used in accordance with an approved plan and schedule of development on or before the date five years after the date of conveyance;

(d) If, at any time, the patentee transfers to another party ownership of any portion of the land not used for the purpose(s) specified in the application and the approved plan of development, the patentee shall pay the Bureau of Land Management the fair market value, as determined by the authorized officer, of the transferred portion as of the date of transfer, including the value of any improvements thereon; and

(e) No portion of the land covered by such patent shall under any circumstance revert to the United States if such portion has been used for solid waste disposal or for any other purpose that the authorized officer determines may result in the disposal, placement, or release of any hazardous substance.

§ 2743.3 Leased disposal sites.

(a) Upon request by or with the concurrence of the lessee, and only with the express approval of the Director, Bureau of Land Management, the authorized officer may issue a patent for those lands covered by a lease, or portion thereof, issued on or before November 9, 1988, that have been or will be used, as specified in the plan of development, for solid waste disposal or for any other purpose that the authorized officer determines may result in or include the disposal, placement, or release of any hazardous substance, subject to the following provisions:

(1) All conveyances shall be consistent with the land use planning provisions contained in part 1600 of this title, and in compliance with the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4371) and any other Federal and State

Bureau of Land Management, Interior

§ 2743.4

laws and regulations applicable to the disposal of solid wastes and hazardous substances;

(2) Conveyances shall be made only of lands classified for sale pursuant to the procedures and criteria in part 2400 of this title.

(3) The authorized officer shall investigate the lands to be included in the patent to determine whether they are contaminated with hazardous substances. The authorized officer will require full reimbursement from the lessee for the costs of the investigation. The authorized officer may, in his or her discretion, make an exception to the requirement of full reimbursement if the applicant demonstrates that such costs would result in undue hardship. The investigation shall include but not be limited to the following:

(i) A review of all records and inspection reports on file with the Bureau of Land Management, State, and local agencies relating to the history and use of the lands covered by a lease and any violations and enforcement problems that occurred during the term of the lease;

(ii) Consultation with the lessee and users of the landfill concerning site management and a review of all reports and logs pertaining to the type and amount of solid waste deposited at the landfill;

(iii) A visual inspection of the leased site; and

(iv) An appropriate analysis of the soil, water and air associated with the area;

(4) The investigation conducted under paragraph (a)(3) of this section must establish that the involved lands contain only those quantities and types of hazardous substances consistent with household wastes, or wastes from conditionally exempt small quantity generators (40 CFR 261.5), and there is a reasonable basis to believe that the contents of the leased disposal site do not threaten human health and the environment; and

(5) The applicant shall present certification from the State agency or agencies responsible for environmental protection and enforcement that they have reviewed all records, inspection reports, studies, and other materials produced or considered in the course of

the investigation and that based on these documents, such agency or agencies agree with the authorized officer that the contents of the leased disposal site in question do not threaten human health and the environment.

(b) The authorized officer shall not convey lands identified in paragraph (a) of this section if the investigation concludes that the lands contain hazardous substances at concentrations that threaten human health and the environment.

(c) The authorized officer shall retain as permanent records all environmental analyses and appropriate documentation, investigation reports, State certifications, and other materials produced or considered in determining the suitability of public lands for conveyance under this section.

§ 2743.3-1 Patent provisions for leased disposal sites.

Each patent for a leased disposal site will provide that:

(a) The patentee shall comply with all Federal and State laws applicable to the disposal, placement, or release of hazardous substances;

(b) The patentee shall indemnify and hold harmless the United States against any legal liability or future costs that may arise out of any violation of such laws; and

(c) No portion of the land covered by such patent shall under any circumstance revert to the United States.

§ 2743.4 Patented disposal sites.

(a) Upon request by or with the concurrence of the patentee, the authorized officer may renounce the reversionary interests of the United States in land conveyed on or before November 9, 1988, and rescind any portion of any patent or other instrument of conveyance inconsistent with the renunciation upon a determination that such land has been used for solid waste disposal or for any other purpose that the authorized officer determines may result in the disposal, placement, or release of any hazardous substance.

(b) If the patentee elects not to accept the renunciation of the reversionary interests, the provisions contained in §§ 2741.6 and 2741.9 shall continue to apply.

**Subpart 2800—Rights-of-Way:
General**

§ 2800.0-1 Purpose.

The purpose of the regulations in this part is to establish procedures for the orderly and timely processing of applications, grants, permits, amendments, assignments and terminations for rights-of-way and permits over, upon, under or through public lands pursuant to title V, Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761-1771) and for the administration, assignment, monitoring and termination of right-of-way grants issued on or before October 21, 1976, pursuant to then existing statutory authority.

[45 FR 44526, July 1, 1980, as amended at 51 FR 6543, Feb. 25, 1986]

Bureau of Land Management, Interior

§ 2800.0-5

§ 2800.0-2 Objectives.

It is the objective of the Secretary of the Interior to grant rights-of-way and temporary use permits, covered by the regulations in this part, to any qualified individual, business entity, or governmental entity and to regulate, control and direct the use of said rights-of-way on public land so as to:

(a) Protect the natural resources associated with the public lands and adjacent private or other lands administered by a government agency.

(b) Prevent unnecessary or undue environmental damage to the lands and resources.

(c) Promote the utilization of rights-of-way in common with respect to engineering and technological compatibility, national security and land use plans.

(d) Coordinate, to the fullest extent possible, all actions taken pursuant to this part with State and local governments, interested individuals and appropriate quasi-public entities.

§ 2800.0-3 Authority.

Sections 303, 310, and 501-511 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1733, 1761-1771) authorize the Secretary of the Interior to issue regulations providing for the use, occupancy, and development of the public lands through permits, easements, and rights-of-way.

[54 FR 25854, June 20, 1989]

§ 2800.0-5 Definitions.

As used in this part, the term:

(a) *Act* means the Federal Land Policy and Management Act of October 21, 1976 (43 U.S.C. 1701 *et seq.*).

(b) *Secretary* means the Secretary of the Interior.

(c) *Authorized officer* means any employee of the Bureau of Land Management to whom has been delegated the authority to perform the duties described in this part.

(d) *Public lands* means any lands or interest in land owned by the United States and administered by the Secretary through the Bureau of Land Management, without regard to how the United States acquired ownership, except: (1) Lands located on the Outer

Continental Shelf; and (2) lands held for the benefit of Indians, Aleuts and Eskimos.

(e) *Applicant* means any qualified individual, partnership, corporation, association or other business entity, and any Federal, State or local governmental entity including municipal corporations which applies for a right-of-way grant or a temporary use permit.

(f) *Holder* means any applicant who has received a right-of-way grant or temporary use permit.

(g) *Right-of-way* means the public lands authorized to be used or occupied pursuant to a right-of-way grant.

(h) *Right-of-way grant* means an instrument issued pursuant to title V of the act, or issued on or before October 21, 1976, pursuant to then existing statutory authority, authorizing the use of a right-of-way over, upon, under or through public lands for construction, operation, maintenance and termination of a project.

(i) *Temporary use permit* means a revocable non-possessory, non-exclusive privilege, authorizing temporary use of public lands in connection with construction, operation, maintenance, or termination of a project.

(j) *Facility* means an improvement constructed or to be constructed or used within a right-of-way pursuant to a right-of-way grant. For purposes of communication site rights-of-way, facility means the building, tower, and/or other related incidental improvements authorized under terms of the right-of-way grant.

(k) *Project* means the transportation or other system for which the right-of-way is authorized.

(l) *Designated right-of-way corridor* means a parcel of land either linear or areal in character that has been identified by law, by Secretarial Order, through the land use planning process or by other management decision as being a preferred location for existing and future right-of-way grants and suitable to accommodate more than 1 type of right-of-way or 1 or more rights-of-way which are similar, identical or compatible; and

(m) *Casual use* means activities that involve practices which do not ordinarily cause any appreciable disturbance or damage to the public lands, resources or improvements and, therefore, do not require a right-of-way grant or temporary use permit under this title.

(n) *Transportation and utility corridor* means a parcel of land, without fixed limits or boundaries, that is being used as the location for 1 or more transportation or utility right-of-way.

(o) *Actual costs* means the financial measure of resources expended or used by the Bureau of Land Management in processing a right-of-way application or monitoring the construction, operation and termination of a facility authorized by a grant or permit. *Actual costs* includes both direct and indirect costs, exclusive of management overhead.

(p) *Monetary value of the rights and privileges sought* means the objective value of the right-of-way or permit or what the right-of-way grant or temporary use permit is worth in financial terms to the applicant.

(q) *Cost incurred for the benefit of the general public interest* (public benefit) means funds expended by the United States in connection with the processing of an application for studies and data collection determined to have value or utility to the United States or the general public separate and apart from application processing.

(r) *Public service provided* means tangible improvements, such as roads, trails, recreation facilities, etc., with significant public value that are expected in connection with the construction and operation of the project for which a right-of-way grant is sought.

(s) *Efficiency to the Government processing* means the ability of the United States to process an application with a minimum of waste, expense and effort.

(t) *Management overhead costs* means costs associated with the Bureau directorate, including all State Directors and the entire Washington Office staff, except where a member of such staffs is required to perform work on a specific right-of-way or temporary use permit case.

(u) *Trespass* means any use, occupancy or development of the public lands or their resources without authorization to do so from the United States where authorization is required, or which exceeds such authorization or which causes unnecessary or undue degradation of the land or resources.

(v) *Willful trespass* means the voluntary or conscious trespass as defined at subpart 2801 of this title. The term does not include an act made by mistake or inadvertence. The term includes actions taken with criminal or malicious intent. A consistent pattern of trespass may be sufficient to establish the knowing or willful nature of the conduct, where such consistent pattern is neither the result of mistake or inadvertence. Conduct which is otherwise regarded as being knowing or willful does not become innocent through the belief that the conduct is reasonable or legal.

(w) *Nonwillful trespass* means a trespass, as defined at §2801.3(a) of this title, committed by mistake or inadvertence.

(x) *Unnecessary or undue degradation* means surface disturbance greater than that which would normally result when the same or a similar activity is being accomplished by a prudent person in a usual, customary, and proficient manner that takes into consideration the effects of the activity on other resources and land uses, including those resources and uses outside the area of activity. This disturbance may be either nonwillful or willful as described in §2800.0-5(v) through (w), depending upon the *circumstances*.

(y) *Written demand* means a request in writing for payment and/or rehabilitation in the form of a billing delivered by certified mail, return receipt requested or personally served.

(z) *Road use, amortization and maintenance charges* means the fees charged for commercial use of a road owned or controlled by the Bureau of Land Management. These fees normally include use fees, amortization fees and maintenance fees.

(aa) *Base rent* means the amount required to be paid by the holder of a right-of-way on public lands for the communication use with the highest assigned schedule rent in the facility,

Bureau of Land Management, Interior

§ 2800.0-9

in accordance with terms of the right-of-way grant.

(bb) Tenant means an occupant who rents space in a facility and operates communication equipment in the facility to resell the communication service to others for a profit. For purposes of calculating rent, the term "tenant" does not include private mobile radio or those uses included in the category of Other Communication Uses.

(cc) Customer means a person who is paying the facility owner or tenant for communication services, and is not reselling communication services to others. Persons or entities benefiting from private or internal communication uses located in a CMRS facility are considered customers for purposes of calculating rent.

[45 FR 44526, July 1, 1980, as amended at 47 FR 38805, Sept. 2, 1982; 51 FR 6543, Feb. 25, 1986; 52 FR 25808, July 8, 1987; 54 FR 25854, June 20, 1989; 60 FR 57070, Nov. 13, 1995]

§ 2800.0-7 Scope.

This part sets forth regulations governing:

(a) Issuing, amending or renewing right-of-way grants for necessary transportation or other systems or facilities which are in the public interest and which require rights-of-way over, upon, under or through public lands, including but not limited to:

(1) Reservoirs, canals, ditches, flumes, laterals, pipes, pipelines, tunnels and other facilities and systems for the impoundment, storage, transportation or distribution of water;

(2) Pipelines and other systems for the transportation or distribution of liquids and gases, other than water and other than oil, natural gas, synthetic liquid or gaseous fuels, or any refined product produced therefrom, and for storage and terminal facilities in connection therewith;

(3) Pipelines, slurry and emulsion systems, and conveyor belts for transportation and distribution of solid materials, and facilities for the storage of such materials in connection therewith;

(4) Systems for generation, transmission and distribution of electric energy, except that the applicant shall also comply with all applicable requirements of the Federal Energy Reg-

ulatory Commission under the Federal Power Act of 1935 (16 U.S.C. 791);

(5) Systems for transmission or reception of radio, television, telephone, telegraph and other electronic signals, and other means of communication;

(6) Roads, trails, highways, railroads, canals, tunnels, tramways, airways, livestock driveways or other means of transportation except where such facilities are constructed and maintained in connection with commercial recreation facilities on lands in the National Forest System;

(7) Such other necessary transportation or other systems or facilities which are in the public interest and which require rights-of-way over, upon, under or through such lands; or

(8) Rights-of-way to any Federal department or agency for pipeline purposes for the transportation of oil, natural gas, synthetic liquid or gaseous fuels, or any product produced therefrom.

(b) Temporary use of additional public lands for such purposes as the Secretary determines to be reasonably necessary for construction, operation, maintenance or termination of rights-of-way, or for access to the project or a portion of the project.

(c) However, the regulations contained in this part do not cover right-of-way grants for: Federal Aid Highways, roads constructed or used pursuant to cost share or reciprocal road use agreements, wilderness areas, and oil, gas and petroleum products pipelines except as provided for in § 2800.0-7(a)(8) of this title.

§ 2800.0-9 Information collection.

(a) The information collection requirements contained in part 2800 of Group 2800 have been approved by the Office of Management and Budget under 44 U.S.C. 3507 and assigned clearance numbers 1004-0102 and 1004-0107. The information is being collected to permit the authorized officer to determine if use of the public lands should be granted for rights-of-way grants or temporary use permits. The information will be used to make this determination. A response is required to obtain a benefit.

(b) Public reporting burden for this information is estimated to average

§ 2801.1

43 CFR Ch. II (10–1–99 Edition)

41.8 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to the Information Collection Clearance Officer (873), Bureau of Land Management, Washington, DC 20240, and the Office of Management and Budget, Paperwork Reduction Project, 1004-0102 or 1004-0107, Washington, DC 20503.

[60 FR 57070, Nov. 13, 1995]

Subpart 2801—Terms and Conditions of Rights-of-Way Grants and Temporary Use Permits

§ 2801.1 Nature of interest.

§ 2801.1-1 Nature of right-of-way interest.

(a) All rights in public lands subject to a right-of-way grant or temporary use permit not expressly granted are retained and may be exercised by the United States. These rights include, but are not limited to:

(1) A continuing right of access onto the public lands covered by the right-of-way grant or temporary use permit, and upon reasonable notice to the holder, access and entry to any facility constructed on the right-of-way or permit area:

(2) The right to require common use of the right-of-way, and the right to authorize use of the right-of-way for compatible uses (including the subsurface and air space).

(b) A right-of-way grant or temporary use permit may be used only for the purposes authorized. The holder may allow others to use the land as his/her agent in exercising the rights granted.

(c) All right-of-way grants and temporary use permits shall be issued subject to valid existing rights.

(d) A right-of-way grant or temporary use permit shall not give or authorize the holder to take from the public lands any mineral or vegetative material, including timber, without securing authorization under the Mate-

rials Act (30 U.S.C. 601 *et seq.*), and paying in advance the fair market value of the material cut, removed, used, or destroyed. However, common varieties of stone and soil necessarily removed in the construction of a project may be used elsewhere along the same right-of-way or permit area in the construction of the project without additional authorization and payment. The holder shall be allowed in the performance of normal maintenance to do minor trimming, pruning and clearing of vegetative material within the right-of-way or permit area and around facilities constructed thereon without additional authorization and payments. At his discretion and when it is in the public interest, the authorized officer may in lieu of requiring an advance payment for any mineral or vegetative materials, including timber, cut or excavated, require the holder to stockpile or stack the material as designated locations for later disposal by the United States.

(e) A holder of a right-of-way grant or temporary use permit may assign a grant or permit to another, provided the holder obtains the written approval of the authorized officer.

(f) The holder of a right-of-way grant may authorize other parties to use a facility constructed, except for roads, on the right-of-way with the prior written consent of the authorized officer and charge for such use. In any such arrangement, the holder shall continue to be responsible for compliance with all conditions of the grant. This paragraph does not limit in any way the authority of the authorized officer to issue additional right-of-way grants or temporary use permits for compatible uses on or adjacent to the right-of-way, nor does it authorize the holder to impose charges for the use of lands made subject to such additional right-of-way grants or temporary use permits. However, the holder of a right-of-way grant for communication purposes may authorize other parties to use a facility, without prior written consent of the authorized officer, if so provided by terms and conditions of the grant.

(g) Each right-of-way grant or temporary use permit shall describe the public lands to be used or occupied and the grant or permit shall be limited to

Bureau of Land Management, Interior

§ 2801.2

those lands which the authorized officer determines:

(1) Will be occupied by the facilities authorized;

(2) To be necessary for the construction, operation, maintenance, and termination of the authorized facilities;

(3) To be necessary to protect the public health and safety; and

(4) Will do no unnecessary damage to the environment.

(h) Each grant or permit shall specify its term. The term of the grant shall be limited to a reasonable period. A reasonable period for a right-of-way grant may range from a month to a year or a term of years to perpetuity. The term for a temporary use shall not exceed 3 years. In determining the period for any specific grant or permit, the authorized officer shall provide for a term necessary to accomplish the purpose of the authorization. Factors to be considered by the authorized officer for the purpose of establishing an equitable term pertaining to the use include, but are not limited to:

(1) Public purpose served;

(2) Cost and useful life of the facility; and

(3) Time limitations imposed by required licenses or permits that the holder is required to secure from other Federal or State agencies.

(i) Each grant issued for a term of 20 years or more shall contain a provision requiring periodic review of the grant at the end of the twentieth year and at regular intervals thereafter not to exceed 10 years.

(j) Each grant shall have a provision stating whether it is renewable or not and if renewable, the terms and conditions applicable to the renewal.

(k) Each grant shall not only comply with the regulations of this part, but also, comply with the provisions of any other applicable law and implementing regulations as appropriate.

[45 FR 44526, July 1, 1980, as amended at 47 FR 38805, Sept. 2, 1982; 60 FR 57070, Nov. 13, 1995]

§ 2801.1-2 Reciprocal grants.

When the authorized officer determines from an analysis of land use plans or other management decisions that a right-of-way for an access road

is or shall be needed by the United States across lands directly or indirectly owned or controlled by an applicant for a right-of-way grant, he or she shall, if it is determined to be in the public interest, require the applicant, as a condition to receiving a right-of-way grant, to grant the United States an equivalent right-of-way that is adequate in duration and rights.

§ 2801.2 Terms and conditions of interest granted.

(a) An applicant by accepting a right-of-way grant, temporary use permit, assignment, amendment or renewal agrees and consents to comply with and be bound by the following terms and conditions, excepting those which the Secretary may waive in a particular case:

(1) To the extent practicable, all State and Federal laws applicable to the authorized use and such additional State and Federal laws, along with the implementing regulations, that may be enacted and issued during the term of the grant or permit.

(2) That in the construction, operation, maintenance and termination of the authorized use, there shall be no discrimination against any employee or applicant for employment because of race, creed, color, sex or national origin and all subcontracts shall include an identical provision.

(3) To rebuild and repair roads, fences, and established trails that may be destroyed or damaged by construction, operation or maintenance of the project and to build and maintain suitable crossings for existing roads and significant trails that intersect the project.

(4) To do everything reasonably within his or her power, both independently and upon request of the authorized officer, to prevent and suppress fires on or in the immediate vicinity of the right-of-way or permit area. This includes making available such construction and maintenance forces as may be reasonably obtained for the suppression of fires.

(b) All right-of-way grants and temporary use permits issued, renewed,

§ 2801.3

amended or assigned under these regulations shall contain such terms, conditions, and stipulations as may be required by the authorized officer regarding extent, duration, survey, location, construction, operation, maintenance, use and termination. The authorized officer shall impose stipulations which shall include, but shall not be limited to:

(1) Requirements for restoration, revegetation and curtailment of erosion of the surface of the land, or any other rehabilitation measure determined necessary;

(2) Requirements to ensure that activities in connection with the grant or permit shall not violate applicable air and water quality standards or related facility siting standards established by or pursuant to applicable Federal or State law;

(3) Requirements designed to control or prevent damage to scenic, esthetic, cultural and environmental values (including damage to fish and wildlife habitat), damage to Federal property and hazards to public health and safety;

(4) Requirements to protect the interests of individuals living in the general area who rely on the fish, wildlife and biotic resources of the area for subsistence purposes;

(5) Requirements to ensure that the facilities to be constructed, used and operated on the prescribed location are maintained and operated in a manner consistent with the grant or permit; and

(6) Requirements for compliance with State standards for public health and safety, environmental protection and siting, construction, operation and maintenance when those standards are more stringent than Federal standards.

§ 2801.3 Unauthorized use, occupancy, or development.

(a) Any use, occupancy, or development of the public lands that requires a right-of-way, temporary use permit, or other authorization pursuant to the regulations of that part and that has not been so authorized, or that is beyond the scope and specific limitations of such an authorization, or that causes unnecessary or undue degrada-

43 CFR Ch. II (10–1–99 Edition)

tion, is prohibited and shall constitute a trespass as defined in § 2800.0–5.

(b) Anyone determined by the authorized officer to be in violation of paragraph (a) of this section shall be notified in writing of such trespass and shall be liable to the United States for:

(1) Reimbursement of all costs incurred by the United States in the investigation and termination of such trespass;

(2) The rental value of the lands, as provided for in § 2803.1–2 of this title, for the current year and past years of trespass, or where applicable, the cumulative value of the current use fee, amortization fee, and maintenance fee as determined by the authorized officer for unauthorized use of any road administered by the BLM; and

(3) Rehabilitating and stabilizing any lands that were harmed by such trespass. If the trespasser does not rehabilitate and stabilize the lands within the time set by the authorized officer in the notice, he/she shall be liable for the costs incurred by the United States in rehabilitating and stabilizing such lands.

(c) In addition to amounts due under the provisions of paragraph (b) of this section, the following penalties shall be assessed by the authorized officer:

(1) For all nonwillful trespass which is not resolved by meeting one of the conditions identified in § 9239.7–1 within 30 days of receipt of a written demand under paragraph (b) of this section—an amount equal to the rental value and for roads, an amount equal to the charges for road use, amortization and maintenance which have accrued since the inception of the trespass;

(2) For repeated nonwillful or willful trespass—an amount that is 2 times the rental value and for roads, an amount 2 times the charges for road use, amortization and maintenance which have accrued since the inception of the trespass.

(d) In no event shall settlement for trespass computed pursuant to paragraphs (b) and (c) of this section be less than the processing fee for a Category I application for provided for in § 2808.3–1 of this title for nonwillful trespass or less than 3 times this value for repeated nonwillful or knowing and

Bureau of Land Management, Interior

§ 2802.1

willfull trespass. In all cases the trespasser shall pay whichever is the higher of the computed penalty or minimum penalty amount.

(e) Failure to satisfy the requirements of § 2801.3(b) of this title shall result in the denial of any right-of-way, temporary land use, road use application or other lands use request filed by not yet granted until there has been compliance with the provisions of § 9239.7-1 of this title.

(f) Any person adversely affected by a decision of the authorized officer issued under this section may appeal that decision under the provisions of part 4 of this title.

(g) In addition to the civil penalties provided for in this part, any person who knowingly and willfully violates the provisions of § 2801.3(a) of this title may be tried before a United States magistrate and fined no more than \$1,000 or imprisoned for no more than 12 months, or both, as provided by section 303(a) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1733(a)) and § 9262.1 of this title.

[54 FR 25854, June 20, 1989]

§ 2801.4 Right-of-way grants issued on or before October 21, 1976.

A right-of-way grant issued on or before October 21, 1976, pursuant to then existing statutory authority is covered by the provisions of this part unless administration under this part diminishes or reduces any rights conferred by the grant or the statute under which it was issued, in which event the provisions of the grant or the then existing statute shall apply.

[51 FR 6543, Feb. 25, 1986]

Subpart 2802—Applications

§ 2802.1 Preapplication activity.

(a) Anyone interested in obtaining a right-of-way grant or temporary use permit involving use of public lands is encouraged to establish early contact with the Bureau of Land Management office responsible for management of the affected public lands so that potential constraints may be identified, the proposal may be considered in land use plans, and processing of an application may be tentatively scheduled. The ap-

propriate officer shall furnish the proponent with guidance and information about:

(1) Possible land use conflicts as identified by review of land use plans, land ownership records and other available information sources;

(2) Application procedures and probable time requirements;

(3) Applicant qualifications;

(4) Cost reimbursement requirements;

(5) Associated clearances, permits and licenses which may be required in addition to, but not in place of the grants or permits required under these regulations;

(6) Environmental and management considerations;

(7) Any other special conditions that can be identified;

(8) Identification of on-the-ground investigations which may be required in order to complete the application; and

(9) Coordination with Federal, State and local government agencies.

(b) Any information furnished by the proponent in connection with a preapplication activity or use which he/she requests not be disclosed, shall be protected to the extent consistent with the Freedom of Information Act (5 U.S.C. 552).

(c) No right-of-way applications processing work, other than that incurred in the processing of applications for permits for temporary use of public lands in furtherance of the filing of an application and pre-application guidance under paragraph (a) of this section, shall be undertaken by the authorized officer prior to the filing of an application together with advance payment as required by subpart 2808 of this title. Such processing work includes, but is not limited to, special studies such as environmental analyses, environmental statements, engineering surveys, resource inventories and detailed land use or record analyses.

(d) The prospective applicant is authorized to go upon the public lands to perform casual acts related to data collection necessary for the filing of an acceptable application. If, however, the authorized officer determines that appreciable surface or vegetative disturbance will occur or is a real possibility he shall issue a temporary use permit

§ 2802.2

with appropriate terms, conditions, and special stipulations pursuant to § 2801.2 of this title.

(e) When, during pre-application discussions with the prospective applicant, the authorized officer supplies the prospective applicant with information set out in paragraph (a) of this section, the authorized officer shall also inform appropriate Federal, State and local government agencies that preapplication discussions have begun in order to assure that effective coordination between the prospective applicant and all responsible government agencies is initiated as soon as possible.

[45 FR 44526, July 1, 1980, as amended at 47 FR 38805, Sept. 2, 1982; 52 FR 25808, July 8, 1987]

§ 2802.2 Application filing activity.

§ 2802.2-1 Application filing.

Applications for a right-of-way grant or temporary use permit shall be filed with either the Area Manager, the District Manager or the State Director having jurisdiction over the affected public lands except:

(a) Applications for Federal Aid Highways shall be filed pursuant to 23 U.S.C. 107, 317, as set out in 43 CFR 2821;

(b) Applications for cost-share roads shall be filed pursuant to 43 CFR 2812;

(c) Applications for oil and gas pipelines shall be filed pursuant to 43 CFR 2880; and

(d) Applications for projects on lands under the jurisdiction of 2 or more administrative units of the Bureau of Land Management may be filed at any of the Bureau of Land Management offices having jurisdiction over part of the project, and the applicant shall be notified where subsequent communications shall be directed.

§ 2802.2-2 Coordination of applications.

Applicants filing with any other Federal department or agency for a license, certificate of public convenience and necessity or any other authorization for a project involving a right-of-way on public lands, shall simultaneously file an application under this part with the Bureau of Land Manage-

43 CFR Ch. II (10-1-99 Edition)

ment for a right-of-way grant. To minimize duplication, pertinent information from the application to such department or agency may be appended or referenced in the application for the right-of-way grant.

§ 2802.3 Application content.

(a) Applications for right-of-way grants or temporary use permits shall be filed on a form approved by the Director. The application form shall contain instructions for the completion of the form and shall require the following information:

(1) The name and address of the applicant and the applicant's authorized agent, if appropriate;

(2) A description of the applicant's proposal;

(3) A map, USGS quadrangle, aerial photo or equivalent, showing the approximate location of the proposed right-of-way and facilities on public lands and existing improvements adjacent to the proposal, shall be attached to the application. Only the existing adjacent improvements which the proposal may directly affect need be shown on the map;

(4) A statement of the applicant's technical and financial capability to construct, operate, maintain and terminate the proposal;

(5) Certification by the applicant that he/she is of legal age, authorized to do business in the State and that the information submitted is correct to the best of the applicant's knowledge.

(b) The applicant may submit additional information to assist the authorized officer in processing the application. Such information may include, but is not limited to, the following:

(1) Federal or State approvals required for the proposal;

(2) A description of the alternative route(s) and mode(s) considered by the applicant when developing the proposal;

(3) Copies of or reference to similar applications or grants the applicant has submitted or holds;

(4) A statement of need and economic feasibility or the proposal;

(5) A statement of the environmental, social and economic effects of the proposal.

[47 FR 12569, Mar. 23, 1982]

Bureau of Land Management, Interior

§ 2802.4

§ 2802.4 Application processing.

(a) The authorized officer shall acknowledge, in writing, receipt of the application and initial cost reimbursement payment required by subpart 2808 of this title. An application may be denied if the authorized officer determines that:

(1) The proposed right-of-way or permit would be inconsistent with the purpose for which the public lands are managed;

(2) That the proposed right-of-way or permit would not be in the public interest;

(3) The applicant is not qualified;

(4) The right-of-way or permit would otherwise be inconsistent with the act or other applicable laws; or

(5) The applicant does not or cannot demonstrate that he/she has the technical or financial capacity.

(b) Upon receipt of the acknowledgment, the applicant may continue his or her occupancy of the public land pursuant to §2802.1(d) of this title to continue to gather data necessary to perfect the application. However, if the applicant finds or the authorized officer determines that surface disturbing activities will occur in gathering the necessary data to perfect the application, the applicant shall file an application for a temporary use permit prior to entering into such activities on the public land.

(c) The authorized officer may require the applicant for a right-of-way grant to submit such additional information as he deems necessary for review of the application. All requests for additional information shall be in writing. Where the authorized officer determines that the information supplied by the applicant is incomplete or does not conform to the act or these regulations, the authorized officer shall notify the applicant of these deficiencies and afford the applicant an opportunity to file a correction. Where a deficiency notice has not been adequately complied with, the authorized officer may reject the application or notify the applicant of the continuing deficiency and afford the applicant an opportunity to file a correction.

(d) Prior to issuing a right-of-way grant or temporary use permit, the authorized officer shall:

(1) Complete an environmental analysis in accordance with the National Environmental Policy Act of 1969;

(2) Determine compliance of the applicant's proposed plans with applicable Federal and State laws;

(3) Consult with all other Federal, State, and local agencies having an interest, as appropriate; and

(4) Take any other action necessary to fully evaluate and make a decision to approve or deny the application and prescribe suitable terms and conditions for the grant or permit.

(e) The authorized officer may hold public meetings on an application for a right-of-way grant or temporary use permit if he determines that such meetings are appropriate and that sufficient public interest exists to warrant the time and expense of such meetings. Notice of public meetings shall be published in the FEDERAL REGISTER or in local newspapers or in both.

(f) A right-of-way grant or temporary use permit need not conform to the applicant's proposal, but may contain such modifications, terms, stipulations or conditions, including changes in route or site location on public lands, as the authorized officer determines to be appropriate.

(g) No right-of-way grant or temporary use permit shall be in effect until the applicant has accepted, in writing, the terms and conditions of the grant or permit. Written acceptance shall constitute an agreement between the applicant and the United States that, in consideration of the right to use public lands, the applicant shall comply with all terms and conditions contained in the authorization and the provisions of applicable laws and regulations.

(h) The authorized officer may include in his/her decision to issue a grant a provision that shall be included in a right-of-way grant requiring that no construction on or use of the right-of-way shall occur until a detailed construction, operation, rehabilitation and environmental protection plan has been submitted to and approved by the authorized officer. This requirement

§ 2802.5

43 CFR Ch. II (10–1–99 Edition)

may be imposed for all or any part of the right-of-way.

[45 FR 44526, July 1, 1980, as amended at 47 FR 12570, Mar. 23, 1982; 52 FR 25808, July 8, 1987]

§ 2802.5 Special application procedures.

(a) An applicant filing for a right-of-way within 4 years from the effective date of this subpart for an unauthorized right-of-way that existed on public land prior to October 21, 1976, is not:

(1) Required to reimburse the United States for the processing, monitoring or other costs provided for in subpart 2808 of this title.

(2) Required to pay rental fees for the period of unauthorized land use.

(b) In order to facilitate management of the public lands, any person or State or local government which has constructed public highways under the authority of R. S. 2477 (43 U.S.C. 932, repealed October 21, 1976) may file a map showing the location of such public highways with the authorized officer. Maps filed under this paragraph shall be in sufficient detail to show the location of the R. S. 2477 highway(s) on public lands in relation to State or county highway(s) or road(s) in the vicinity. The submission of such maps showing the location of R. S. 2477 highway(s) on public lands shall not be conclusive evidence as to their existence. Similarly, a failure to show the location of R. S. 2477 highway(s) on any map shall not preclude a later finding as to their existence.

[45 FR 44526, July 1, 1980, as amended at 47 FR 12570, Mar. 23, 1982; 47 FR 38806, Sept. 2, 1982; 52 FR 25808, July 8, 1987]

Subpart 2803—Administration of Rights Granted

§ 2803.1 General requirements.

§ 2803.1–2 Rental.

(a) The holder of a right-of-way grant or temporary use permit shall pay annually, in advance, except as provided in paragraph (b) of this section, the fair market rental value as determined by the authorized officer applying sound business management principles and, so far as practicable and feasible, using

comparable commercial practices. Annual rent billing periods shall be set or adjusted to coincide with the calendar year (January 1 through December 31) by proration on the basis of 12 months; the initial month shall not be counted for right-of-way grants or temporary use permits having an anniversary date of the 15th or later in the month and the terminal month shall not be counted if the termination date is the 14th or earlier in the month. Rental shall be determined in accordance with the provisions of paragraph (c) of this section; *Provided, however,* That in those instances where the annual payment is \$100 or less, the authorized officer may require an advance lump sum payment for 5 years.

(b)(1) No rental shall be collected where:

(i) The holder is a Federal, State, or local government, or agency or instrumentality thereof, except parties who are using the space for commercial purposes, and municipal utilities and cooperatives whose principal source of revenue is customer charges;

(ii) The right-of-way was issued pursuant to a statute that did not or does not require the payment of rental; or

(iii) The facilities constructed on a site or linear right-of-way are or were financed in whole or in part under the Rural Electrification Act of 1936, as amended, or are extensions from such Rural Electrification Act financed facilities.

(2) The authorized officer may reduce or waive the rental payment under the following instances:

(i) The holder is a nonprofit corporation or association which is not controlled by or is not a subsidiary of a profit making corporation or business enterprise;

(ii) The holder provides without charge, or at reduced rates, a valuable benefit to the public or to the programs of the Secretary;

(iii) The holder holds an outstanding permit, lease, license or contract for which the United States is already receiving compensation, except under an oil and gas lease where the lessee is required to secure a right-of-way grant or temporary use permit under part 2880 of this title; and:

Bureau of Land Management, Interior

§ 2803.1-2

(A) Needs a right-of-way grant or temporary use permit within the exterior boundaries of the permit, lease, license or contract area; or

(B) Needs a right-of-way across the public lands outside the permit, lease, license or contract area in order to reach said area;

(iv) With the concurrence of the State Director, the authorized officer, after consultation with an applicant/holder, determines that the requirement to pay the full rental will cause undue hardship on the holder/applicant and that it is in the public interest to reduce or waive said rental. In order to complete such consultation, the State Director may require the applicant/holder to submit data, information and other written material in support of a proposed finding that the right-of-way grant or temporary use permit qualifies for a reduction or waiver of rental; and

(v) A right-of-way involves a cost share road or reciprocal right-of-way agreement not subject to part 2812 of this title. Any fair market value rental required to be paid under this paragraph (b)(2)(v) shall be determined by the proportion of use.

(c)(1)(i) Except for those linear right-of-way grants or temporary use permits that the authorized officer determines under paragraph (c)(1)(v) of this section to require an individual appraisal, an applicant shall, prior to the issuance of a linear right-of-way grant or temporary use permit, submit an annual rental payment in advance for such right-of-way grant or temporary use permit in accordance with the following schedule:

PER ACRE RENTAL FEE ZONE VALUE

Zone value	Oil and gas and other energy related pipelines, roads, ditches and canals	Electric transmission lines, telephone electric distribution, non-energy related pipelines, and other linear rights-of-way
\$50	\$2.56	\$2.24
100	5.13	4.49
200	10.26	8.97
300	15.38	13.46
400	20.51	17.95
500	25.64	22.44

PER ACRE RENTAL FEE ZONE VALUE—
Continued

Zone value	Oil and gas and other energy related pipelines, roads, ditches and canals	Electric transmission lines, telephone electric distribution, non-energy related pipelines, and other linear rights-of-way
600	30.77	26.92
1,000	51.28	44.87

(The values are based on zone value × impact adjustment × interest rate (6.41—1-year Treasury Securities “Constant Maturity” rate for June 30, 1986. The rate will remain constant except as provided in paragraphs (c)(1)(ii) and (iii) of this section.)

A per acre rental schedule by State, County, and type of linear right-of-way use, which will be updated annually, is available from any Bureau State or District office or may be obtained by writing: Director (330), Bureau of Land Management, Room 3660, Main Interior Bldg., 1800 C Street NW., Washington, DC 20240.

(ii) The schedule will be adjusted annually by multiplying the current year’s rental per acre by the annual change, second quarter to the second quarter (June 30 to June 30), in the Gross National Product Implicit Price Deflator Index as published in the *Survey of Current Business* of the Department of Commerce, Bureau of Economic Analysis.

(iii) At such times as the cumulative change in the index used in paragraph (c)(1)(ii) of this section exceeds 30 percent or the change in the 3-year average of the 1-year interest rate exceeds plus or minus 50 percent, the zones and rental per acre figures shall be reviewed to determine whether market and business practices have differed sufficiently from the index to warrant a revision in the base zones and rental per acre figures. Measurements shall be taken at the end of the second quarter (June 30) of the year beginning with calendar year 1986. The initial bases (June 30, 1986) for these two indexes are: Gross National Product Price Implicit Price Deflator Index was 114.0 and the 3-year average of the 1-year Treasury interest rate was 8.86%.

(iv) Rental for the ensuing calendar year for any single right-of-way grant

or temporary use permit is the rental per acre from the current schedule multiplied by the number of acres embraced in the grant or permit, unless such rental is reduced or waived as provided in paragraph (b)(2) of this section.

(v) The authorized officer will use the linear rental schedule unless the authorized officer determines:

(A) A substantial segment or area within the right-of-way exceeds the zone(s) value by a factor of 10; and

(B) In the judgment of the authorized officer, the expected valuation is sufficient to warrant a separate appraisal.

Once the rental for a right-of-way grant has been determined by use of the rental schedule, the provisions of this subparagraph shall not be used as a basis for removing it from the schedule.

(2)(i) Existing linear right-of-way grants and temporary use permits may be made subject to the schedule provided by this paragraph upon reasonable notice to the holder.

(ii) Where the new annual rental for linear rights-of-way exceeds \$100 and is more than a 100 percent increase over the current rental, the amount of increase in excess of the 100 percent increase shall be phased in by equal increments, plus the annual adjustment, over a 3 year period.

(d) The annual rental payment for communication uses listed in paragraph (d)(1) of this section is based on rental payment schedules. The rental schedules apply to right-of-way holders and tenants authorized to operate and maintain communication facilities on public lands. They do not apply to holders who are public telecommunications service operators providing public television or radio broadcast services granted a waiver under § 2803.1-2(b)(2)(i). Nor do they apply to communication site uses, facilities, or devices located exclusively within the exterior boundaries of an oil and gas lease and directly associated with the operations of the oil and gas lease (subpart 2880).

(1) The schedules are applicable to communication uses that provide the following services:

(i) Television broadcast includes right-of-way holders that operate FCC-

licensed facilities used to broadcast UHF and VHF audio and video signals for general public reception, and communication equipment directly related to the operation, maintenance, and monitoring of the use. This category does not include holders licensed by the FCC to operate Low Power Television (LPTV) or rebroadcast devices such as translators, or transmitting devices such as microwave relays serving broadcast translators.

(ii) AM and FM radio broadcast includes rights-of-way that contain FCC-licensed facilities primarily used to broadcast amplitude modulation (AM) or frequency modulation (FM) audio signals for general public reception, and communication equipment directly related to the operation, maintenance, and monitoring of the use. This category is not applicable to holders licensed by the FCC as a low-power FM radio. This category also does not include rebroadcast devices such as translators, boosters, or microwave relays serving broadcast translators.

(iii) The broadcast translator and low power television category includes FCC-licensed translators and low power television, low power FM radio, and communication equipment directly related to the operation, maintenance, or monitoring of the use. Microwave facilities used in conjunction with LPTV and broadcast translators are included in this category.

(iv) Cable television includes FCC-licensed facilities that transmit video programming to multiple subscribers in a community over a wired or wireless network, and communication equipment directly related to the operation, maintenance, or monitoring of the use. This category does not include rebroadcast devices that retransmit television signals of one or more television broadcast stations, personal or internal antenna systems such as private systems serving hotels or residences.

(v) Commercial mobile radio service/facility manager includes FCC-licensed commercial mobile radio facilities or their holders providing mobile communication service to individual customers, and communication equipment directly related to the operation, maintenance, or monitoring of the use. Such

services generally include two-way voice and paging services such as community repeaters, trunked radio (specialized mobile radio), two-way radio dispatch, public switched network (telephone/data) interconnect service, microwave communications link equipment. Some holders in this category may not hold FCC licenses or operate communication equipment, but may lease building, tower, and related facility space to a variety of tenants as a part of their business enterprise, and may act as facility managers.

(vi) Private Mobile Radio includes FCC-licensed private mobile radio systems primarily used by a single entity for mobile internal communications, and communication equipment directly related to the operation, maintenance, or monitoring of the use. This use is not sold and is exclusively limited to the user in support of business, community activities, or other organizational communication needs. Services generally include private local radio dispatch, private paging services, and ancillary microwave communications equipment for the control of the mobile facilities.

(vii) Cellular telephone includes FCC-licensed systems and related technologies used for mobile communications using a combination of radio and telephone switching technology, and providing public switched network services to fixed and mobile users within a defined geographic area. The system consists of cell sites containing transmitting and receiving antennas, cellular base station radio, telephone equipment, and often microwave communications link equipment, and communication equipment directly related to the maintenance and monitoring of the use.

(viii) Microwave includes FCC-licensed facilities used for long-line intrastate and interstate public telephone, television, information, and data transmissions, or used by pipeline and power companies, railroads, and land resource management companies in support of the holder's primary business. Also included is communication equipment directly related to the operation, maintenance, or monitoring of the use.

(ix) Other communication uses include holders of FCC-licensed private communication uses such as amateur radio, personal/private receive-only antennas, passive reflectors, natural resource and environmental monitoring equipment, and other small, low-power devices used to monitor or control remote activities.

(2)(i) The rental schedules will be adjusted annually based on the U.S. Department of Labor Consumer Price Index for All Urban Consumers (CPI-U, U.S. City Average, published in July of each year), and Rannally Metro Area population rankings. Annual adjustments based on the CPI-U will be limited to no more than 5 percent. The rental schedule will be reviewed for possible update no later than 10 years after December 13, 1995, and at least every 10 years thereafter, to ensure that the schedule reflects fair market value.

(ii) Rights-of-way may be reviewed on a case-by-case basis 10 years after issuance or beginning [10 years and 30 days after the date of publication], whichever is later, and no more often than every 5 years thereafter, on holder request, to determine whether rents are appropriate.

(3) Rent is based on the actual users in the facility. For a facility with a single user, the base rent is the schedule rent for the use. Base rent for authorizations that include more than one user will be based on the use in the facility with the highest rent as shown on the schedule. An additional amount will be assessed based on 25 percent of the schedule rent for all other users. (A facility manager is not considered a separate use for purposes of calculating the additional amount for tenants in the facility.)

(4) Increases in base rental payments over 1996 levels in excess of \$1,000 will be phased in over a 5-year period. In 1997, the rental payment will be the 1996 rental, plus \$1,000. The amount exceeding \$1,000 will be divided into 4 equal installments, and beginning in 1998 the installment, plus the annual adjustment in the total rent, will be added to the previous year's rent.

(5) Annual rental payments will be calculated and provided to the holder

§ 2803.1-3

43 CFR Ch. II (10-1-99 Edition)

by December 31 for each ensuing calendar year based on the schedules published from time to time as necessary in the FEDERAL REGISTER.

(6) Also, the right-of-way holder must submit a certified statement by October 15 of each year listing tenants in the facility and the category of use for each tenant as of September 30 of that year, and pay 25 percent of the schedule rent for the category of use. Tenants occupying space in the facility under terms of the holder's right-of-way authorization will not be required to have a separate BLM authorization.

(7) Other methods may be used to set rental payments for communication uses when the authorized officer determines one of the following:

(i) The holder is eligible for a waiver or reduction in rent in accordance with § 2803.1-2(b)(2);

(ii) Payment of the rent will cause undue hardship under § 2803.1-2(b)(2)(iv);

(iii) The original right-of-way authorization has been or will be issued pursuant to a competitive bidding process;

(iv) The State Director concurs in a determination made by the authorized officer that the expected rent exceeds the schedule rent by 5 times, or the communication site serves a population of 1 million or more and the expected rent for the communication use is more than \$10,000 above the schedule rent; or

(v) The communication facilities are ancillary to and authorized under a right-of-way grant for a linear facility. In such cases, rent for the associated communication facilities is to be determined in accordance with the linear fee schedule.

(e)(1) The rental for right-of-way grants and temporary use permits not covered by the right-of-way schedule in § 2803.1-2(d)(5) will be determined by the authorized officer and paid annually in advance. Rental for communication site rights-of-way not covered by the schedule, except those issued pursuant to Section 28 of the Mineral Leasing Act (30 U.S.C. 185), will be based on comparative market surveys, appraisals, or other reasonable methods. All such rental determinations shall be documented, supported, and approved

by the authorized officer. Where the authorized officer determines that a competitive interest exists for site type right-of-way grants such as for wind farms, communication sites, etc., rental may be determined through competitive bidding procedures set out in § 2803.1-3.

(2) To expedite the processing of any grant or permit covered by paragraph (e)(1) of this section, the authorized officer may estimate rental and collect a deposit in advance with the agreement that upon completion of a rental value determination, the advance deposit will be adjusted according to the final fair market rental value determination.

(f) Decisions on rental determinations are subject to appeal under subpart 2804 of this title.

(g) Upon the holder's written request, rentals may be prepaid for 5 years in advance.

(h) If the rental required by this section is not paid when due, and such default for nonpayment continues for 30 days after notice, action may be taken to terminate the right-of-way grant or temporary use permit. After default has occurred, no structures, buildings or other equipment may be removed from the subservient lands except upon written permission from the authorized officer.

[52 FR 25818, July 8, 1987; 52 FR 36576, Sept. 30, 1987, as amended at 60 FR 57070, Nov. 13, 1995]

§ 2803.1-3 Competitive bidding.

(a) The authorized officer may identify and offer public lands for competitive right-of-way use either on his/her own motion or as a result of nomination by the public. Competitive bidding shall be used only for site-type right-of-way grants such as wind farms and communication sites. The authorized officer shall give public notice of such decision through publication of a notice of realty action as provided in paragraph (c)(1) of this section. The decision to offer public lands for competitive right-of-way use shall conform to the requirements of the Bureau's land use planning process. The authorized officer shall not offer public lands for competitive right-of-way use where equities such as prior or related use of

said lands warrant issuance of a non-competitive right-of-way grant(s).

(b) A right-of-way grant issued pursuant to a competitive offer shall be awarded on the basis of the public benefit to be provided, the financial and technical capability of the bidder to undertake the project and the bid offer. Each bid shall be accompanied by the information required by the notice of realty action and a statement over the signature of the bidder or anyone authorized to sign for the bidder that he/she is in compliance with the requirements of the law and these regulations. A bid of less than the fair market rental value of the lands offered shall not be considered.

(c) The offering of public lands for right-of-way use under competitive bidding procedures shall be conducted in accordance with the following:

(1)(i) A notice of realty action indicating the availability of public lands for competitive right-of-way offering shall be published in the FEDERAL REGISTER and at least once a week for 3 consecutive weeks in a newspaper of general circulation in the area where the public lands are situated or in such other publication as the authorized officer may determine. The successful qualified bidder shall, prior to the issuance of the right-of-way grant, pay his/her proportionate share of the total cost of publication.

(ii) The notice of realty action shall include the use proposed for the public lands and the time, date and place of the offering, including a description of the lands being offered, terms and conditions of the grant(s), rates, bidding requirements, payment required, where bid forms may be obtained, the form in which the bids shall be submitted and any other information or requirements determined appropriate by the authorized officer.

(2) Bids may be made either by a principal or duly qualified agent.

(3) All sealed bids shall be opened at the time and date specified in the notice of realty action, but no bids shall be accepted or rejected at that time. The right to reject any and all bids is reserved. Only those bids received by the close of business on the day prior to the bid opening or at such other time stated in the notice of realty ac-

tion and made for at least the minimum acceptable bid shall be considered. Each bid shall be accompanied by U.S. currency or certified check, postal money order, bank draft or cashier's check payable in U.S. currency and made payable to the Department of the Interior—Bureau of Land Management for not less than one-fifth of the amount of the bid, and shall be enclosed in a sealed envelope which shall be marked as prescribed in the notice of realty action. If 2 or more envelopes containing valid bids of the same amount are received, the determination of which is to be considered the highest bid shall be by drawing unless another method is specified in the notice of realty action. The drawing shall be held by the authorized officer immediately following the opening of the sealed bids.

(4) In the event the authorized officer rejects the highest qualified bid or releases the bidder from such bid, the authorized officer shall determine whether the public lands involved in the offering shall be offered to the next highest bidder, withdrawn from the market or reoffered.

(5) If the highest qualified bid is accepted by the authorized officer, the grant form(s) shall be forwarded to the qualifying bidder for signing. The signed grant form(s) with the payment of the balance of the first year's rental and the publication costs shall be returned within 30 days of its receipt by the highest qualified bidder and shall qualify as acceptance of the right-of-way grant(s).

(6) If the successful qualified bidder fails to execute the grant form(s) and pay the balance of the rental payment and the costs of publication within the allowed time, or otherwise fails to comply with the regulations of this subpart, the one-fifth remittance accompanying the bid shall be forfeited.

[52 FR 25820, July 8, 1987]

§ 2803.1-4 Bonding.

The authorized officer may require the holder of a right-of-way grant or temporary use permit to furnish a bond or other security satisfactory to him, to secure the obligations imposed by

§ 2803.1-5

the grant or permit and applicable laws and regulations.

[45 FR 44526, July 1, 1980. Redesignated at 52 FR 25820, July 8, 1987]

§ 2803.1-5 Liability.

(a) Except as provided in paragraph (f) of this section, each holder shall be fully liable to the United States for any damage or injury incurred by the United States in connection with the use and occupancy of the right-of-way or permit area by the holder.

(b) Except as provided in paragraph (f) of this section, holders shall be held to a standard of strict liability for any activity or facility within a right-of-way or permit area which the authorized officer determines, in his discretion, presents a foreseeable hazard or risk of damage or injury to the United States. The activities and facilities to which such standards shall apply shall be specified in the right-of-way grant or temporary use permit. Strict liability shall not be imposed for damage or injury resulting primarily from an act of war, an Act of God or the negligence of the United States. To the extent consistent with other laws, strict liability shall extend to costs incurred by the United States for control and abatement of conditions, such as fire or oil spills, which threaten lives, property or the environment, regardless of whether the threat occurs on areas that are under Federal jurisdiction. Stipulations in right-of-way grants and temporary use permits imposing strict liability shall specify a maximum limitation on damages which, in the judgment of the authorized officer, is commensurate with the foreseeable risks or hazards presented. The maximum limitation shall not exceed \$1,000,000 for any one event, and any liability in excess of such amount shall be determined by the ordinary rules of negligence of the jurisdiction in which the damage or injury occurred.

(c) In any case where strict liability is imposed and the damage or injury was caused by a third party, the rules of subrogation shall apply in accordance with the law of the jurisdiction in which the damage or injury occurred.

(d) Except as provided in paragraph (f) of this section, holders shall be fully liable for injuries or damages to third

43 CFR Ch. II (10-1-99 Edition)

parties resulting from activities or facilities on lands under Federal jurisdiction in which the damage or injury occurred.

(e) Except as provided in paragraph (f) of this section, holders shall fully indemnify or hold harmless the United States for liability, damage or claims arising in connection with the holder's use and occupancy of rights-of-way or permit areas.

(f) If a holder is a State or local government, or agency or instrumentality thereof, it shall be liable to the fullest extent its laws allow at the time it is granted a right-of-way grant or temporary use permit. To the extent such a holder does not have the power to assume liability, it shall be required to repair damages or make restitution to the fullest extent of its powers at the time of any damage or injury.

(g) All owners of any interest in, and all affiliates or subsidiaries of any holder of a right-of-way grant or temporary use permit, except for corporate stockholders, shall be jointly and severally liable to the United States in the event that a claim cannot be satisfied by the holder.

(h) Except as otherwise expressly provided in this section, the provision in this section for a remedy is not intended to limit or exclude any other remedy.

(i) If the right-of-way grant or temporary use permit is issued to more than one holder, each shall be jointly and severally liable under this section.

[45 FR 44526, July 1, 1980. Redesignated at 52 FR 25820, July 8, 1987]

§ 2803.2 Holder activity.

(a) If a notice to proceed requirement has been included in the grant or permit, the holder shall not initiate construction, occupancy or use until the authorized officer issues a notice to proceed.

(b) Any substantial deviation in location or authorized use by the holder during construction, operation or maintenance shall be made only with prior approval of the authorized officer under § 2803.6-1 of this title for the purposes of this paragraph, substantial deviation means:

Bureau of Land Management, Interior

§ 2803.4

(1) With respect to location, the holder has constructed the authorized facility outside the prescribed boundaries of the right-of-way authorized by the instant grant or permit.

(2) With respect to use, the holder has changed or modified the authorized use by adding equipment, overhead or underground lines, pipelines, structures or other facilities not authorized in the instant grant or permit.

(c) The holder shall notify the authorized officer of any change in status subsequent to the application or issuance of the right-of-way grant or temporary use permit. Such changes include, but are not limited to, legal mailing address, financial condition, business or corporate status. When requested by the authorized officer, the holder shall update and/or attest to the accuracy of any information previously submitted.

(d) If required by the terms of the right-of-way grant or temporary use permit, the holder shall, subsequent to construction and prior to commencing operations, submit to the authorized officer a certification of construction, verifying that the facility has been constructed and tested in accordance with terms of the right-of-way grant or temporary use permit, and in compliance with any required plans and specifications, and applicable Federal and State laws and regulations.

§ 2803.3 Immediate temporary suspension of activities.

(a) If the authorized officer determines that an immediate temporary suspension of activities within a right-of-way or permit area for violation of the terms and conditions of the right-of-way authorization is necessary to protect public health or safety or the environment, he/she may promptly abate such activities prior to an administrative proceeding.

(b) The authorized officer may give an immediate temporary suspension order orally or in writing at the site of the activity to the holder or a contractor or subcontractor of the holder, or to any representative, agent, employee or contractor of the holder, and the suspended activity shall cease at that time. As soon as practicable, the authorized officer shall confirm an oral

order by a written notice to the holder addressed to the holder or the holder's designated agent.

(c) An order of immediate temporary suspension of activities shall remain effective until the authorized officer issues an order permitting resumption of activities.

(d) Any time after an order of immediate temporary suspension has been issued, the holder may file with the authorized officer a request for permission to resume. The request shall be in writing and shall contain a statement of the facts supporting the request.

(e) The authorized officer may render an order to either grant or deny the request to resume within 5 working days of the date the request is filed. If the authorized officer does not render an order on the request within 5 working days, the request shall be considered denied, and the holder shall have the same right to appeal the denial as if a final order denying the request had been issued by the authorized officer.

§ 2803.4 Suspension and termination of right-of-way authorizations.

(a) If the right-of-way grant or temporary use permit provides by its terms that it shall terminate on the occurrence of a fixed or agreed-upon condition, event, or time, the right-of-way authorization shall thereupon automatically terminate by operation of law, unless some other procedure is specified in the right-of-way grant or temporary use permit. The authorized officer may terminate a right-of-way grant or temporary use permit when the holder requests or consents to its termination in writing.

(b) The authorized officer may suspend or terminate a right-of-way grant or temporary use permit if he determines that the holder has failed to comply with applicable laws or regulations, or any terms, conditions or stipulations of the right-of-way grant or temporary use permit or has abandoned the right-of-way.

(c) Failure of the holder of a right-of-way grant to use the right-of-way for the purpose for which the authorization was issued for any continuous five-year period shall constitute a presumption of abandonment. The holder may rebut the presumption by proving

§ 2803.4-1

that his failure to use the right-of-way was due to circumstances not within the holder's control.

(d) Before suspending or terminating a right-of-way grant pursuant to paragraph (b) of this section, the authorized officer shall give the holder written notice that such action is contemplated and the grounds therefor and shall allow the holder a reasonable opportunity to cure such noncompliance.

(e) In the case of a right-of-way grant that is under its terms an easement, the authorized officer shall give written notice to the holder of the suspension or termination and shall refer the matter to the Office of Hearings and Appeals for a hearing before an Administrative Law Judge pursuant to 43 CFR part 4. If the Administrative Law Judge determines that grounds for suspension or termination exist and such action is justified, the authorized officer shall suspend or terminate the right-of-way grant.

[45 FR 44526, July 1, 1980, as amended at 47 FR 38806, Sept. 2, 1982]

§ 2803.4-1 Disposition of improvements upon terminations.

Within a reasonable time after termination, revocation or cancellation of a right-of-way grant, the holder shall, unless directed otherwise in writing by the authorized officer, remove such structures and improvements and shall restore the site to a condition satisfactory to the authorized officer. If the holder fails to remove all such structures or improvements within a reasonable period, as determined by the authorized officer, they shall become the property of the United States, but the holder shall remain liable for the cost of removal of the structures and improvements and for restoration of the site.

§ 2803.5 Change in Federal jurisdiction or disposal of lands.

(a) Where a right-of-way grant or temporary use permit administered under these regulations traverses public lands that are transferred to another Federal agency, administration of the right-of-way shall, at the discretion of the authorized officer, be assigned to the acquiring agency unless

43 CFR Ch. II (10-1-99 Edition)

such assignment would diminish the rights of the holder.

(b) Where a right-of-way grant or temporary use permit traverses public lands that are transferred out of Federal ownership, the transfer of the land shall, at the discretion of the authorized officer, include an assignment of the right-of-way, be made subject to the right-of-way, or the United States may reserve unto itself the land encumbered by the right-of-way.

§ 2803.6 Amendments, assignments and renewals.

§ 2803.6-1 Amendments.

(a) Any substantial deviation in location or use as set forth in §2803.2(b) of this title shall require the holder of a grant or permit to file an amended application. The requirements for the amended application and the filing are the same and shall be accomplished in the manner as set forth in subpart 2802 of this title.

(b) Holders of right-of-way grants issued before October 21, 1976, who find it necessary to amend their grants shall comply with paragraph (a) of this section in filing their applications. Upon acceptance of the amended application by the authorized officer an amended right-of-way grant shall be issued. To the fullest extent possible, and when in the public interest as determined from current land use plans and other management decisions, the amended grant shall contain the same terms and conditions set forth in the original grant with respect to annual rent, duration and nature of interest.

[45 FR 44526, July 1, 1980, as amended at 47 FR 38806, Sept. 2, 1982]

§ 2803.6-2 Amendments to existing railroad grants.

(a) An amended application required under §2803.6-1(a) or (b), as appropriate, shall be filed with the authorized officer for any realignment of a railroad and appurtenant communication facilities which are required to be relocated due to the realignment. Upon acceptance of the amended application by the authorized officer, an amended right-of-way grant shall be issued within 6 months of date of acceptance of the application. The date of acceptance of the

Bureau of Land Management, Interior

§ 2804.1

application for the purpose of this paragraph shall be determined in accordance with § 2802.4(a) of this title.

(b) Notwithstanding the regulations of this part, the authorized officer may include in the amended grant the same terms and conditions of the original grant with respect to the payment of annual rental, duration, and nature of interest if he/she finds them to be in the public interest and the lands involved are not within an incorporated community and are of approximately equal value.

§ 2803.6-3 Assignments.

Any proposed assignment in whole or in part of any right or interest in a right-of-way grant or temporary use permit acquired pursuant to the regulations of this part shall be filed in accordance with §§ 2802.1-1 and 2802.3 of this title. The application for assignment shall be accompanied by the same showing of qualifications of the assignee as if the assignee were filing an application for a right-of-way grant or temporary use permit under the regulations of this part. In addition, the assignment shall be supported by a stipulation that the assignee agrees to comply with and to be bound by the terms and conditions of the grant to be assigned. No assignment shall be recognized unless and until it is approved in writing by the authorized officer. The authorized officer may, at the time of approval of the assignment, modify or add bonding requirements.

[45 FR 44526, July 1, 1980, as amended at 52 FR 25820, July 8, 1987]

§ 2803.6-4 Reimbursement of costs for assignments.

(a) All filings for assignments, except as provided in paragraph (b) of this section, made pursuant to this section shall be accompanied by a non-refundable payment of \$50 from the assignor. Exceptions for a nonrefundable payment for an assignment are the same as in § 2803.1 of this title.

(b) Where a holder assigns more than 1 right-of-way grant as a single action, the authorized officer may, due to economies of scale, set a nonrefundable fee of less than \$50 per assignment.

[52 FR 25820, July 8, 1987]

§ 2803.6-5 Renewals of right-of-way grants and temporary use permits.

(a) When a grant provides that it may be renewed, the authorized officer shall renew the grant so long as the project or facility is still being used for purposes authorized in the original grant and is being operated and maintained in accordance with all the provisions of the grant and pursuant to the regulations of this title.

(b) When a grant does not contain a provision for renewal, the authorized officer, upon request from the holder and prior to the expiration of the grant, may renew the grant at his discretion. A renewal pursuant to this section shall comply with the same provisions contained in paragraph (a) of this section.

(c) Temporary use permits issued pursuant to the regulations of this part may be renewed at the discretion of the authorized officer. The holder of a permit desiring a renewal shall notify the authorized officer in writing of the need for renewal prior to its expiration date. Upon receipt of the notice, the authorized officer shall either renew the permit or reject the request.

(d) Renewals of grants and permits pursuant to paragraphs (a), (b) and (c) of this section are not subject to subpart 2808 of this title.

(e) Denial of any request for renewal by the authorized officer under paragraphs (b) and (c) of this section shall be final with no right of review or appeal.

[45 FR 44526, July 1, 1980, as amended at 47 FR 38806, Sept. 2, 1982; 52 FR 25808, July 8, 1987]

Subpart 2804—Appeals

§ 2804.1 Appeals procedure.

(a) All appeals under this part shall be taken under 43 CFR part 4 from any final decision of the authorized officer to the Office of the Secretary, Board of Land Appeals.

(b) All decisions of the authorized officer under this part shall remain effective pending appeal unless the Secretary rules otherwise. Petitions for the stay of a decision shall be filed

§ 2806.1

with the Office of Hearings and Appeals, Department of the Interior.

[45 FR 44526, July 1, 1980, as amended at 53 FR 17702, May 18, 1988]

Subpart 2806—Designation of Right-of-Way Corridors

§ 2806.1 Corridor designation.

(a) The authorized officer may, based upon his/her motion or receipt of an application, designate right-of-way corridors across any public lands in order to minimize adverse environmental impacts and the proliferation of separate rights-of-way. The designation of corridors shall not preclude the granting of separate rights-of-way over, upon, under or through the public lands where the authorized officer determines that confinement to a corridor is not appropriate.

(b) Any existing transportation and utility corridor that is capable of accommodating an additional compatible right-of-way may be designated as a right-of-way corridor by the authorized officer without further review as required in § 2806.2 of this title. Subsequent right-of-way grants shall, to the extent practical and as determined by the authorized officer, be confined to designated corridors, however, the designation of a right-of-way corridor is not a commitment by the authorized officer to issue right-of-way grants within the corridor. All applications for right-of-way grants, including those within designated corridors, are subject to the procedure for approval set forth in subpart 2802 of this title.

[45 FR 44526, July 1, 1980, as amended at 47 FR 3806, Sept. 2, 1982]

§ 2806.2 Designation criteria.

The locations and boundary of designated right-of-way corridors shall be determined by the authorized officer after a thorough review of:

(a) Federal, State and local land-use plans and applicable Federal and State laws.

(b) Environmental impacts on natural resources including soil, air, water, fish, wildlife, vegetation and on cultural resources.

(c) Physical effects and constraints on corridor placement or rights-of-way

43 CFR Ch. II (10–1–99 Edition)

placed therein due to geology, hydrology, meteorology, soil or land forms.

(d) Economic efficiency of placing a right-of-way within a corridor, taking into consideration costs of construction, operation and maintenance, and costs of modifying or relocating existing facilities in a proposed corridor.

(e) National security risks.

(f) Potential health and safety hazards to the public lands users and the general public due to materials or activities within the right-of-way corridor.

(g) Engineering and technological compatibility of proposed and existing facilities.

(h) Social and economic impacts of the facilities on public lands users, adjacent landowners and other groups or individuals.

[45 FR 44526, July 1, 1980, as amended at 47 FR 38806, Sept. 2, 1982]

§ 2806.2–1 Procedures for designation.

(a) The designation of a right-of-way corridor shall be by decision of the authorized officer. A land use plan or plan amendment which contains the designation of a right-of-way corridor(s) meets the notification requirements of this section; and

(b) The authorized officer shall take appropriate measures to inform the public of designated corridors, so that existing and potential right-of-way applicants, governmental agencies and the general public will be aware of such corridor locations and any restrictions applicable thereto. Public notice of such designations may be given through publication in local newspapers or through distribution of planning documents, environmental impact statements or other appropriate documents.

[45 FR 44526, July 1, 1980, as amended at 47 FR 38806, Sept. 2, 1982]

Subpart 2807—Reservation to Federal Agencies

§ 2807.1 Application filing.

A Federal agency desiring a right-of-way or temporary use permit over, upon, under or through the public lands pursuant to this part, shall apply to the authorized officer and comply

Bureau of Land Management, Interior

§ 2808.2-1

with the provisions of subpart 2802 of this title to the extent that the requirements of subpart 2802 of this title are appropriate for Federal agencies.

§ 2807.1-1 Document preparation.

(a) The right-of-way reservation need not conform to the agency's proposal, but may contain such modifications, terms, conditions or stipulations, including changes in route or site location, as the authorized officer determines appropriate.

(b) All provisions of the regulations contained in this part shall, to the extent possible, apply and be incorporated into the reservation to the Federal agency.

§ 2807.1-2 Reservation termination and suspension.

The authorized officer may suspend or terminate the reservation only in accordance with the terms and conditions of the reservation, or with the consent of the head of the department or agency holding the reservation.

Subpart 2808—Reimbursement of Costs

SOURCE: 52 FR 25808, July 8, 1987, unless otherwise noted.

§ 2808.1 General.

(a) An applicant for a right-of-way grant or temporary use permit under this part shall reimburse the United States in advance for the expected reasonable administrative and other costs incurred by the United States in processing the application, including the preparation of any reports or statements pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), prior to the United States having incurred such costs.

(b) The regulations in this subpart do not apply to the following:

- (1) Federal agencies;
- (2) State and local governments or agencies or instrumentalities thereof when a right-of-way grant or temporary use permit is granted for governmental purposes benefiting the general public. However, if the principal source of revenue results from charges being levied on customers for services similar to those rendered by a profit-

making corporation or business, they shall not be exempt; or

(3) Cost share roads or reciprocal right-of-way agreements.

[52 FR 25808, July 8, 1987; 52 FR 34456, Sept. 11, 1987]

§ 2808.2 Cost recovery categories.

§ 2808.2-1 Application categories.

(a) The following categories shall be used to establish the appropriate non-refundable fee for each application pursuant to the fee schedule in § 2808.3-1 of this title:

(1) *Category I.* An application for a right-of-way grant or temporary use permit to authorize a use of public lands for which the data necessary to comply with the National Environmental Policy Act and other statutes are available in the office of the authorized officer or from data furnished by the applicant; and no field examination is required.

(2) *Category II.* An application for a right-of-way grant or temporary use permit to authorize a use of public lands for which the data necessary to comply with the National Environmental Policy Act and other statutes are available in the office of the authorized officer or from data furnished by the applicant; and 1 field examination to verify existing data is required.

(3) *Category III.* An application for a right-of-way grant or temporary use permit to authorize a use of public lands for which the data necessary to comply with the National Environmental Policy Act and other statutes are available in the office of the authorized officer or from data furnished by the applicant; and 2 field examinations to verify existing data are required.

(4) *Category IV.* An application for a right-of-way grant or temporary use permit to authorize a use of public lands for which some original data are required to be gathered to comply with the National Environmental Policy Act and other statutes; and 2 or 3 field examinations are required.

(5) *Category V.* An application for a right-of-way grant or temporary use permit to authorize a use of public lands for which the gathering of original data are required to comply with

§ 2808.2-2

the National Environmental Policy Act and other statutes; and 3 or more field examinations are required.

§ 2808.2-2 Category determination.

(a) The authorized officer shall determine the appropriate category and collect the required application processing fee pursuant to §§ 2808.3-1 and 2808.5 of this title before processing an application. A record of the authorized officer's category determination shall be made and given to the applicant. This determination is a final decision for purposes of appeal under § 2804.1 of this title. Where an appeal is filed, actions pending decision on appeal shall be in accordance with § 2808.6 of this title.

(b) During the processing of an application, the authorized officer may change a category determination to place an application in Category V at any time it is determined that the application requires the preparation of an environmental impact statement. A record of change in category determination under this paragraph shall be made and furnished to the applicant. The revised determination is appealable in the same manner as an original category determination under paragraph (a) of this section. No other changes of category determination shall be permitted.

§ 2808.3 Fees and payments.

§ 2808.3-1 Application fees.

(a) The fee by category for processing an application for a right-of-way or temporary use permit is:

Category	Fee
I	\$125
II	300
III	550
IV	925
V	¹

¹ As required.

(b) Where the amount submitted by the applicant under paragraph (a) of this section exceeds the amount of the required fee determined by the authorized officer, the excess shall be refunded. If requested in writing by the applicant, the authorized officer may apply all or part of any such refund to the grant monitoring fee required

under § 2808.4 of this title or to the rental payment required by § 2803.1-2 of this title.

(c) Upon a determination that an application falls under Category V:

- (1) The authorized officer shall:
 - (i) Complete a preliminary scoping of the issues involved;
 - (ii) Prepare a preliminary work plan;
 - (iii) Develop a preliminary financial plan, estimating the actual costs to be incurred by the United States in the processing of the application; and
 - (iv) Discuss funding availability, options for cost reimbursement (i.e., a determination of actual costs under section 304(b) of the Act, paying all actual costs, or selecting the 1 percent ceiling), and information to be submitted by the applicant, including construction costs and other financial information.

(2) An applicant/holder may submit a written analysis of the estimated actual cost showing specific monetary value considerations, public benefits, public services, or other data or information which would support a finding that an application for a right-of-way grant or temporary use permit qualified for a reduction or waiver of cost reimbursement under section 303(b) of the Act or § 2808.5 of this title. If the applicant elects a cost analysis under this paragraph, the provisions of paragraph (f) of this section shall not apply.

(d) The authorized officer shall discuss the preliminary plans and data and verify the information that may be submitted under paragraph (c) of this section by the applicant. The applicant is encouraged to do all or part of any special study or analysis required in connection with the processing of the application to standards established by the authorized officer.

(e) After coordination with the applicant as required by paragraph (d) of this section, the authorized officer shall develop final scoping, work and financial plans which reflect any work the applicant agrees to do and complete a final estimate of the amount of the actual costs to be reimbursed by the applicant, giving consideration to the factors set forth in section 304(b) of the Act.

(f) An applicant may elect to waive consideration of reasonable costs under

paragraph (e) of this section and either: (1) Agree to pay all actual costs incurred by the United States in processing the application and monitoring the grant or temporary use permit; or (2) pay the actual costs of processing the application and monitoring the right-of-way grant up to the amount estimated by the authorized officer to equal 1 percent of the applicant's planned costs of construction of the project on the public lands for which a right-of-way grant is sought. Under this alternative, the applicant shall not be responsible for actual costs exceeding 1 percent of the estimated cost of constructing the proposed facilities on public lands. The request for a waiver shall be in writing and filed with the authorized officer.

(g) The applicant shall reimburse the United States for the applicant's share of costs, as determined under paragraphs (e) and (f) of this section, before the grant or permit shall issue.

(h) Where a State Director grants a reduction or waiver of cost reimbursement under the provisions of paragraph (e) of this section and/or §2808.5 of this title or where the reimbursable costs of processing an application are determined to exceed 1 percent of the cost of construction of the facilities under paragraph (f) of this section, the necessary funding shall be available either through the Bureau's appropriation process or otherwise made available for the processing of the application or such processing shall not proceed.

(i) The authorized officer shall provide the applicant with a written determination of the reasonable costs to be reimbursed by the applicant or holder and those that will be funded by the United States under paragraphs (e) and (f) of this section and §2808.5 of this title. This determination is a final decision for purposes of appeal under §2804.1 of this title. Where an appeal is filed, actions pending decision on appeal shall be in accordance with §2808.6 of this title.

§ 2808.3-2 Periodic advance payments.

(a) The authorized officer may periodically estimate the reasonable costs expected to be incurred by the United States for specific work periods in processing an application determined

to be in Category V or monitoring the right-of-way grant or temporary use permit under the provisions of §2808.3-1 (e) through (f) of this title and shall notify the applicant of the estimated amount to be reimbursed for the period and the applicant shall make payment of such estimated reimbursable costs prior to the incurring of such costs by the United States.

(b) If the payments required by paragraph (a) of this section exceed the actual costs incurred by the United States, the authorized officer shall adjust the next billing to reflect the overpayment, or make a refund from applicable funds under the authority of 43 U.S.C. 1734. An applicant shall not set off or otherwise deduct any debt due it or any sum claimed to be owed it by the United States without the prior written approval of the authorized officer.

(c) The authorized officer may re-estimate the actual costs determined under §2808.3-1 (e) through (g) of this title at any time it is determined that a change warranting a re-estimate occurs. An appeal of a re-estimate shall be treated in the same manner as an original estimate made under §2808.3-1(e) of this title.

(d) Before issuance of a right-of-way grant or temporary use permit, an applicant shall pay such additional amounts as are necessary to reimburse the United States in full for any costs incurred, but not yet paid under §2808.3-1(h) of this title.

§ 2808.3-3 Costs incurred for a withdrawn or denied application.

(a) An applicant whose application is denied is liable for any costs incurred by the United States in processing the application. Those amounts that have not been paid are due within 30 days of the receipt of a bill from the authorized officer identifying the amount due.

(b) An applicant who withdraws an application before a grant or temporary use permit is issued is liable for all costs incurred by the United States in processing the application up to the date the authorized officer receives the written notice of withdrawal, and for

§ 2808.3-4

costs subsequently incurred in terminating the processing of said application. Those amounts that have not been paid are due within 30 days of receipt of a bill from the authorized officer identifying the amount due.

§ 2808.3-4 Joint liability for payments.

(a) When 2 or more applications for a right-of-way grant are filed which the authorized officer determines to be in competition with each other, each applicant shall reimburse the United States as required by §2808.3 of this title, subject however, to the provisions of §2808.1(b) of this title. Each applicant shall be responsible for the reimbursement of the reasonable costs identified with his/her application. Costs that are not readily identifiable with either of the applications, such as costs for portions of an environmental impact statement that relate to all of the applications, generally, shall be paid by each applicant in equal shares or such other proportion as may be agreed to in writing by the applicants and the authorized officer prior to the United States incurring such costs.

(b) When, through partnership, joint venture or other business arrangements, more than 1 person, partnership, corporation, association or other entity apply together for a right-of-way grant or temporary use permit, each such applicant shall be jointly and severally liable for costs under §2808.3 of this title for the entire system, subject however, to the provision of §2808.1(b) of this title.

§ 2808.4 Reimbursement of costs for monitoring.

(a) A holder of a right-of-way grant or temporary use permit for which a fee was assessed under §2808.3 of this title shall, prior to the United States incurring such costs, reimburse the United States for costs to be incurred by the United States in monitoring the construction, operation, maintenance and termination of authorized facilities on the right-of-way grant or temporary use permit area, and for protection and rehabilitation of the lands involved, under the following schedule:

(1) The same category as determined under §2808.2-2 of this title for processing of an application for a right-of-

way grant or temporary use permit shall be used for monitoring. The one-time fee for monitoring a right-of-way grant or temporary use permit determined to be in Categories I through IV is as follows:

Category	Fee
I	\$50
II	75
III	100
IV	200

(2) The monitoring fee for a right-of-way grant or temporary use permit determined to be in Category V shall be included with the costs determined under §§2808.3-1 through 2808.3-4 of this title.

(b) The holder shall submit the payment for the cost of monitoring required by paragraph (a)(1) of this section or the first periodic advance payment required under §2808.3-2 of this title, as appropriate, along with the written acceptance of the terms and conditions of the grant or permit. No right-of-way grant or temporary use permit shall be issued until the required payment is made.

[52 FR 25808, July 8, 1987; 52 FR 36576, Sept. 30, 1987]

§ 2808.5 Other cost considerations.

(a) The State Director, after consultation with an applicant or holder making a request for a reduction or waiver of reimbursable costs under §2808.3-1 of this title, may reduce or waive reimbursement required under §§2808.3-1 through 2808.3-4 of this title. In reaching a decision, the State Director may require the applicant/holder to submit in writing any information or data in addition to that required by §2808.3-1(c) of this title that he/she determines to be needed to support a proposed finding that an application, grant or temporary use permit qualifies for a reduction or waiver of cost reimbursement. Action on a Category V application shall be suspended pending the State Director's decision.

(b) The State Director may base the decision to reduce or waive reimbursable costs on any of the following factors:

(1) The applicant's/holder's financial condition is such that payment of the

Bureau of Land Management, Interior

§ 2808.6

fee would result in undue financial hardship;

(2) The application processing or grant monitoring costs are determined to be grossly excessive in relation to the costs of constructing the facilities or project requiring the right-of-way grant or temporary use permit on the public lands;

(3) A major portion of the application processing or grant monitoring costs are the result of issues not related to the actual right-of-way grant or temporary use permit;

(4) The applicant/holder is a non-profit organization, corporation or association which is not controlled by or a subsidiary of a profitmaking enterprise;

(5) The studies undertaken in connection with the processing of the application have a public benefit;

(6) The facility or project requiring the right-of-way grant will provide a special service to the public or to a program of the Secretary;

(7) A right-of-way grant is needed to construct a facility to prevent or mitigate damages to any lands or improvements or mitigate hazards or danger to public health and safety resulting from an Act of God, an act of war or negligence of the United States;

(8) The holder of a valid existing right-of-way grant is required to secure a new right-of-way grant in order to relocate facilities which are required to be moved because the lands are needed for a Federal or federally funded project, if such relocation is not funded by the United States;

(9) Relocation of a facility on a valid existing right-of-way grant requires a new or amended right-of-way grant in order to comply with the law, regulations or standards of public health and safety and environmental protection which were not in effect at the time the original right-of-way grant or temporary use permit was issued; or

(10) It is demonstrated that because of compelling public benefits or public services provided, or for other causes, collection of reimbursable costs by the United States for processing an application, for a grant or permit would be

inconsistent with prudent and appropriate management of the public lands and the equitable interest of the applicant/holder or of the United States.

(c) The State Director may consider a reduction or waiver of fees under this section in determining reimbursable costs made under §2808.3 of this title. Said determination is a final decision for purposes of appeal under §2804.1 of this title. Where an appeal is filed, actions pending decision on appeal shall be in accordance with §2808.6 of this title.

(d) Notwithstanding a finding by the State Director that there is a basis for reduction of the costs required to be reimbursed under this subpart, the State Director may not reduce such costs if funds to process the application(s) or to monitor the grant(s) or permit(s) are not otherwise available or may delay such decision pending the availability of funds.

[52 FR 25808, July 8, 1987; 52 FR 34456, Sept. 11, 1987]

§ 2808.6 Action pending decision on appeal.

(a) Where an appeal is filed on an application determined under §2808.2-2(a) of this title to be in Categories I through IV, an application shall not be accepted for processing without payment of the fee for such application according to the category determined by the authorized officer; however, when payment is made, the application may be processed and, if proper, the grant or temporary use permit issued. The authorized officer shall make any refund or other adjustment directed as a result of an appeal.

(b) Where an appeal is filed for an application determined under §2808.2-2(a) of this title to be in Category V or for a related cost reimbursement determination under §2808.3-1 (e) through (g) or §2808.5(c) of this title, processing of the application shall be suspended pending the outcome of the appeal.

§ 2812.0-3 Authority.

Sections 303 and 310 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1732, 1733, and 1740), and the Act of August 28, 1937 (43 U.S.C. 1181a and 1181b), provide for the conservation and management of the Oregon and California Railroad lands and the Coos Bay Wagon Road lands and authorize the Secretary of the Interior to issue regulations providing for the use, occupancy, and development of the public lands through permits and rights-of-way.

[54 FR 25855, June 20, 1989]

§ 2812.0-5 Definitions.

Except as the context may otherwise indicate, as the terms are used in this paragraph:

(a) *Bureau* means Bureau of Land Management.

(b) *Timber of the United States or federal timber* means timber owned by the United States or managed by any agency thereof, including timber on allotted and tribal Indian lands in the O. and C. area.

(c) *State Director* means the State Director, Bureau of Land Management, or his authorized representative.

(d) *Authorized Officer* means an employee of the Bureau of Land Management to whom has been delegated the authority to take action.

(e) *O. and C. lands* means the Revested Oregon and California Railroad and Reconveyed Coos Bay Wagon Road Grant Lands, other lands administered by the Bureau under the provisions of the act approved August 28, 1937, and the public lands administered by the Bureau of Land Management which are in Oregon and in and west of Range 8 E., Willamette Meridian, Oregon.

Bureau of Land Management, Interior

§ 2812.0-6

(f) *Tramroads* include tramways, and wagon or motor-truck roads to be used in connection with logging, and the manufacturing of lumber; it also includes railroads to be used principally for the transportation, in connection with such activities, of the property of the owner of such railroad.

(g) *Management* means police protection, fire presuppression and suppression, inspection, cruising, reforestation, thinning, stand improvement, inventorying, surveying, construction and maintenance of improvements, disposal of land, the eradication of forest insects, pests and disease, and other activities of a similar nature.

(h) *Licensee* of the United States is, with respect to any road or right-of-way, any person who is authorized to remove timber or forest products from lands of the United States, or to remove timber or forest products from other lands committed by a cooperative agreement to coordinated administration with the timber of the United States over such road or right-of-way while it is covered by an outstanding permit, or while a former permittee is entitled to receive compensation for such use under the provisions of these regulations. A licensee is not an agent of the United States.

(i) *Direct control* of a road, right-of-way, or land, by an applicant for a permit hereunder means that such applicant has authority to permit the United States and its licensees to use such road, right-of-way of land in accordance with this paragraph.

(j) *Indirect control* of a road, right-of-way, or land, by an applicant hereunder means that such road, right-of-way, or land, is not directly controlled by him but is subject to use by him or by:

(1) A principal, disclosed or undisclosed, of the applicant; or

(2) A beneficiary of any trust or estate administered or established by the applicant; or

(3) Any person having or exercising the right to designate the immediate destination of the timber to be transported over the right-of-way for which application is made; or

(4) Any person who at any time has owned, or controlled the disposition of the timber to be transported over the

right-of-way applied for, and during the 24 months preceding the filing of the application has disposed of such ownership or control to the applicant or his predecessor, under an agreement reserving or conferring upon the grantor the right to share directly or indirectly in the proceeds realized upon the grantee's disposal to third persons of the timber or products derived therefrom or the right to reacquire ownership or control of all or any part of the timber prior to the time when it undergoes its first mechanical alteration from the form of logs; or

(5) Any person who stands in such relation to the applicant that there is liable to be absence of arm's length bargaining in transactions between them relating to such road, rights-of-way, or lands.

§ 2812.0-6 Statement of policy.

(a) The intermingled character of the O. and C. lands presents peculiar problems of management which require for their solution the cooperation between the Federal Government and the owners of the intermingled lands, particularly with respect to timber roads.

(b) It is well established that the value of standing timber is determined in significant part by the cost of transporting the logs to the mill. Where there is an existing road which is adequate or can readily be made adequate for the removal of timber in the area, the failure to make such road available for access to all the mature and over-mature timber it could tap leads to economic waste. Blocks of timber which are insufficient in volume or value to support the construction of a duplicating road may be left in the woods for lack of access over the existing road. Moreover, the duplication of an existing road reduces the value of the federal and other timber which is tapped by the existing road.

(c) It is also clear that the Department of the Interior, which is responsible for the conservation of the resources of the O. and C. lands and is charged specifically with operating the timber lands on a sustained-yield basis, must have access to these lands for the purpose of managing them and their resources. In addition, where the public interest requires the disposition of

Federal timber by competitive bidding, prospective bidders must have an opportunity to reach the timber to be sold. Likewise, where other timber is committed by cooperative agreement to coordinated administration with timber of the United States, there must be access to both.

(d) Accordingly, to the extent that in the judgment of the authorized officer it appears necessary to accomplish these purposes, when the United States, acting through the Bureau of Land Management, grants a right-of-way across O. and C. lands to a private operator, the private operator will be required to grant to the United States for use by it and its licensees:

(1) Rights-of-way across lands controlled directly or indirectly by him;

(2) The right to use, to the extent indicated in §§ 2812.3-5 and 2812.3-6, any portions of the road system or rights-of-way controlled directly or indirectly by the private operator which is adequate or can economically be made adequate to accommodate the probable normal requirements of both the operator and of the United States and its licensees, and which form an integral part of or may be added to the road system with which the requested right-of-way will connect;

(3) The right to extend such road system across the operator's lands to reach federal roads or timber; and

(4) In addition, in the limited circumstances set forth in § 2812.3-2 of this subpart the right to use certain other roads and rights-of-way. The permit will describe by legal subdivisions the lands of the operator as to which the United States receives rights. In addition, the extent and duration of the rights received by the United States will be specifically stated in the permit and ordinarily will embrace only those portions of such road system, rights-of-way and lands as may be actually needed for the management and removal of federal timber, or other timber committed by a cooperative agreement to coordinated administration with timber of the United States.

(e) When the United States or a licensee of the United States uses any portion of a permittee's road system for the removal of forest products, the permittee will be entitled to receive

just compensation, including a fair share of the maintenance and amortization charges attributable to such road, and to prescribe reasonable road operating rules, in accordance with §§ 2812.3-7 to 2812.4-4.

(f) As some examples of how this policy would be applied in particular instances, the United States may issue a permit under subpart 2812 without requesting any rights with respect to roads, rights-of-way or lands which the authorized officer finds will not be required for management of or access to Federal timber, or timber included in a cooperative agreement. Where, however, the authorized officer finds that there is a road controlled directly or indirectly by the applicant, which will be needed for such purposes and which he finds either has capacity to accommodate the probable normal requirements both of the applicant and of the Government and its licensees, or such additional capacity can be most economically provided by an investment in such road system by the Government rather than by the construction of a duplicate road, he may require, for the period of time during which the United States and its licensees will have need for the road, the rights to use the road for the marketing and management of its timber and of timber included in a cooperative agreement in return for the granting of rights-of-way across O. and C. lands, and an agreement that the road builder will be paid a fair share of the cost of the road and its maintenance. Where it appears to the authorized officer that such a road will not be adequate or cannot economically be enlarged to handle the probable normal requirements both of the private operator and of the United States and its licensees, or even where the authorized officer has reasonable doubt as to such capacity, he will not request rights over such a road. Instead, the Bureau will make provision for its own road system either by providing in its timber sale contracts that in return for the road cost allowance made in fixing the appraised value of the timber, timber purchasers will construct or extend a different road system, or by expending for such construction or by extension monies appropriated for such purposes

Bureau of Land Management, Interior

§ 2812.0-9

by the Congress, or, where feasible, by using an existing duplicating road over which the Government has obtained road rights. In such circumstances, however, road cost and maintenance allowances made in the stumpage price of O. and C. timber will be required to be applied to the road which the Bureau has the right to use, and thereafter will not in any circumstances be available for amortization or maintenance costs of the applicant's road.

(g) When a right-of-way permit is issued for a road or road system over which the United States obtains rights of use for itself and its licensees, the authorized officer will seek to agree with the applicant respecting such matters as the time, route, and specifications for the future development of the road system involved; the portion of the capital and maintenance costs of the road system to be borne by the timber to be transported over the road system by the United States and its licensees; a formula for determining the proportion of the capacity of the road system which is to be available to the United States and its licensees for the transportation of forest products; and other similar matters respecting the use of the road by the United States and its licensees and the compensation payable therefor. To the extent that any such matter is not embraced in such an agreement, it will be settled by negotiation between the permittee and the individual licensees of the United States who use the road, and, in the event of their disagreement, by private arbitration between them in accordance with the laws of the State of Oregon.

(h) The authorized officer may in his discretion, issue short term right-of-way permits for periods not exceeding three years, subject to one-year extensions in his discretion. Such permits shall specify the volume of timber which may be carried over the right-of-way and the area from which such timber may be logged. The permits shall be revocable by the authorized officer, the State Director, or the Secretary for violation of their terms and conditions or of these regulations or if hazardous conditions result from the construction, maintenance or use of the rights-of-way by the permittees or those act-

ing under their authority. As a condition for the granting of such permits, the applicant must comply with §§ 2812.3-1 and 2812.3-3 of this subpart to the extent that rights-of-way and road use rights are needed to remove government timber offered for sale in the same general area during the period for which the short term right-of-way is granted.

(i) The authorized officer may, in his discretion, issue to private operators rights-of-way across O. and C. lands, needed for the conduct of salvage operations, for a period not to exceed five years. A salvage operation as used in this paragraph means the removal of trees injured or killed by windstorms, insect infestation, disease, or fire, together with any adjacent green timber needed to make an economic logging show. As a condition of the granting of such rights-of-way, the operator will be required, when the authorized officer deems it necessary, to grant to the United States and its licensees for the conduct of salvage operations on O. and C. lands for a period not to exceed five years, rights-of-way across lands controlled directly or indirectly by him and to grant the right to use to the extent indicated in §§ 2812.3-5 and 2812.3-6 any portions of the road system controlled directly or indirectly by the private operator which is adequate or can economically be made adequate to accommodate the requirements of both the operator and of the United States and its licensees.

§ 2812.0-7 Cross reference.

For disposal of timber or material to a trespasser, see § 9239.0-9 of this chapter.

§ 2812.0-9 Information collection.

The information collection requirements contained in part 2810 of Group 2800 have been approved by the Office of Management and Budget under 44 U.S.C. 3507 and assigned clearance numbers 1004-0102 and 1004-0107. The information is being collected to permit the authorized officer to determine if use of the public lands should be granted for rights-of-way grants or temporary use permits. The information

§ 2812.1

will be used to make this determination. A response is required to obtain a benefit.

[60 FR 57072, Nov. 13, 1995]

§ 2812.1 Application procedures.

§ 2812.1-1 Filing.

(a) An application for a permit for a right-of-way over the O. and C. lands must be submitted in duplicate on a form prescribed by the Director and filed in the appropriate district office. Application forms will be furnished upon request.

(b) Any application filed hereunder, including each agreement submitted by the applicant as a part thereof or as a condition precedent to the issuance of a permit, may be withdrawn by the applicant by written notice delivered to the authorized officer prior to the time the permit applied for has been issued to, and accepted by, the applicant.

[35 FR 9637, June 13, 1970, as amended at 41 FR 21642, May 27, 1976]

§ 2812.1-2 Contents.

(a) An individual applicant and each member of any unincorporated association which is an applicant must state in the application whether he is a native born or a naturalized citizen of the United States. Naturalized citizens will be required to furnish evidence of naturalization pursuant to the provisions of § 2802.1-4.

(b) An application by a private corporation must be accompanied by two copies of its articles of incorporation, one of which must be certified by the proper official of the company under its corporate seal, or by the secretary of the State where organized. A corporation organized in a State other than Oregon must submit a certificate issued by the State of Oregon attesting that the corporation is authorized to transact business within that State. The requirements of this paragraph shall be deemed satisfied if the corporation, having once filed the required documents, makes specific reference to the date and case number of such previous applications, states what changes, if any, have been made since the prior filings, and includes a statement that the right of the company to

43 CFR Ch. II (10-1-99 Edition)

do business in the State of Oregon has not lapsed or terminated.

(c) Where the application is for a right-of-way on any portion of which the applicant proposes to construct a road, it must be accompanied by two copies of a map prepared on a scale of 4 inches or 8 inches to the mile. Showing the survey of the right-of-way so that it may be accurately located on the ground. The map should comply with the following requirements, except as the authorized officer may waive in any particular instance all or any of such requirements:

Courses and distances of the center line of the right-of-way should be given; the courses referred to the true meridian and the distance in feet and decimals thereof. The initial and terminal points of the survey must be accurately connected by course and distance to the nearest readily identifiable corner of the public land surveys, or, if there be no such corner within two miles, then connected to two permanent and prominent monuments or natural objects. All subdivisions of the public lands surveys, any part of which is within the limits of the survey, should be shown in their entirety, based upon the official subsisting plat with subdivisions, section, township, and range clearly marked. The width of the right-of-way should be given; and if not of uniform width, the locations and amount of change must be definitely shown. There shall also be a statement on the face of or appended to the map indicating the grade and usable width of the road to be constructed, the type of material which will be used for the surface, the type and extent of the drainage facilities, and the type of construction and estimated capacity of any bridges. The map should bear upon its face the statement of the person who made the survey, if any, and the certificate of the applicant; such statement and certificate should be as set out in Forms as approved by the Director.

(d) Where the application is for the use of an existing road, a map adequate to show the location thereof will be required, together with a statement of the specific nature and location of any proposed improvements to such road. A blank map suitable for most cases may be procured from the appropriate district forester.

(e) Every application for a right-of-way must also be accompanied by a diagram indicating the roads and rights-of-way which form an integral part of the road system with which the

requested right-of-way will connect, the portions of such road system which the applicant directly controls within the meaning of §2812.0-5(i), the portions thereof which the applicant indirectly controls within the meaning of §2812.0-5(j), and the portions thereof as to which the applicant has no control within the meaning of such sections. As to the portions over which the applicant has no control, he must furnish a statement showing for the two years preceding the date of the filing of the application, all periods of time that he had direct or indirect control thereof, and the date and nature of any changes in such control. The diagram shall also contain the name of the person whom the applicant believes directly controls any portion of such road system which the applicant does not directly control. Where a right-of-way for a railroad is involved, the applicant must indicate which portions of the right-of-way will be available for use as truck roads upon the removal of the rails and ties and the probable date of such removal. Blank diagram forms, suitable for most cases, may be obtained from the appropriate district forester.

§2812.1-3 Unauthorized use, occupancy, or development.

Any use, occupancy, or development of the Revested Oregon and California Railroad and Reconveyed Coos Bay Wagon Road Grant Lands (O & C) lands (as is defined in 43 CFR 2812.0-5(e)), for tramroads without an authorization pursuant to this subpart, or which is beyond the scope and specific limitations of such an authorization, or that cause unnecessary or undue degradation, is prohibited and shall constitute a trespass as defined in §2800.0-5. Anyone determined by the authorized officer to be in violation of this section shall be notified of such trespass in writing and shall be liable to the United States for all costs and payments determined in the same manner as set forth at §2801.3, part 2800 of this title.

[54 FR 25855, June 20, 1989]

§2812.2 Nature of permit.

§2812.2-1 Nonexclusive license.

Permits for rights-of-way for tramroads, do not constitute easements, and do not confer any rights on the permittee to any material for construction or other purposes except, in accordance with the provisions of §§2812.6-2 and 2812.8-3, such materials as may have been placed on such lands by a permittee. The permits are merely nonexclusive licenses to transport forest products owned by the permittee. Such permits may be canceled pursuant to §2812.8.

§2812.2-2 Right of permittee to authorize use by third parties.

A permittee may not authorize other persons to use the right-of-way for the transportation of forest products which are not owned by the permittee. Any person, other than the permittee or a licensee of the United States who desires to use the right-of-way for such purposes, is required to make application therefor and to comply with all the provisions of these regulations relating to applications and applicants: *Provided, however,* That upon the request of a permittee the authorized officer may, with respect to an independent contractor who desires to use such right-of-way for the transportation of forest products owned by such independent contractor and derived from timber or logs acquired by him from such permittee, waive the requirements of this sentence. Where the right-of-way involved has been substantially improved by the holder of an outstanding permit, any subsequent permit issued for the same right-of-way will be conditioned upon the subsequent permittee's agreement while the prior permit is outstanding, to be bound by the road rules of and to pay fair compensation to, the prior permittee, such rules and compensation to be agreed upon by the prior and subsequent permittee in accordance with the procedures and standards established by the regulations in §§2812.4-1, 2812.4-3, and 2812.4-4 of this subpart.

§ 2812.2-3

§ 2812.2-3 Construction in advance of permit.

The authorized officer may grant an applicant authority to construct improvements on a proposed right-of-way prior to a determination whether the permit should issue. Such advance authority shall not be construed as any representation or commitment that a permit will issue. Upon demand by the authorized officer, the applicant will fully and promptly comply with all the requirements imposed under and by this paragraph. Advance construction will not be authorized unless and until applicant has complied with §§ 2812.1-1, 2812.1-2, 2812.3-1 and 2812.5-1.

§ 2812.3 Right-of-way and road use agreement.

§ 2812.3-1 Rights over lands controlled by applicant.

Where, in the judgment of the authorized officer, it appears necessary in order to carry out the policy set forth in § 2812.0-6, he may require the applicant, as a condition precedent to the issuance of the permit:

(a) To grant to the United States, for use by it and its licensees and permittees, rights-of-way across lands in the O. and C. area directly controlled by the applicant; and as to lands in such area which are indirectly controlled by him, either to obtain such rights for the United States or to make a showing satisfactory to the authorized officer that he has negotiated therefor in good faith and to waive as to the United States, its licensees and permittees any exclusive or restricted right he may have to such lands as are indirectly controlled by him.

(b) In addition, to agree to permit the United States and its licensees, upon the payment of fair compensation as hereinafter provided, to use under the terms and conditions of this paragraph such portion as the applicant directly controls of the road system and rights-of-way which are an integral part of or may be added to the road system with which the right-of-way applied for will connect, and as to the portions of such road system or rights-of-way as the applicant indirectly controls, either to obtain such rights for the United

States and its licensees or to make a showing satisfactory to the authorized officer that he has negotiated therefor in good faith and, in such latter circumstance, to waive as to the United States and its licensees any exclusive or restricted right he may have in such portion of the road system and rights-of-way.

§ 2812.3-2 Other roads and rights-of-way controlled by applicant.

In addition to the private road systems and rights-of-way described in § 2812.3-1 in the event the applicant controls directly or indirectly other roads or rights-of-way in any O. and C. area where the authorized officer of the Bureau finds that, as of the time of filing or during the pendency of the application, the United States is unreasonably denied access to its timber for management purposes or where, as of such time, competitive bidding by all prospective purchasers of timber managed by the Bureau in the O. and C. area, or of other Federal timber intermingled with or adjacent to such timber, is substantially precluded by reason of the applicant's control, direct or indirect, of such roads or rights-of-way, the authorized officer may require the applicant to negotiate an agreement granting to the United States and its licensees the right to use, in accordance with the terms and conditions of this paragraph such portion of such roads or rights-of-way as may be necessary to accommodate such management or competitive bidding.

§ 2812.3-3 Form of grant to the United States, recordation.

Any grant of rights to the United States under this section shall be executed on a form prescribed by the Director which shall constitute and form a part of any permit issued upon the application involved. The applicant shall record such agreement in the office of land records of the county or counties in which the roads, rights-of-way, or lands, subject to the agreement are located, and submit evidence of such recordation to the appropriate district manager.

Bureau of Land Management, Interior

§ 2812.3-7

§ 2812.3-4 Where no road use agreement is required.

Where, in the judgment of the authorized officer, it is consistent with the policy set forth in subpart 2811 he may issue a permit without requesting the applicant to grant any rights to the United States under this paragraph.

§ 2812.3-5 Use by the United States and its licensees of rights received from a permittee.

The use by the United States and its licensees of any of the rights received from a permittee hereunder shall be limited to that which is necessary for management purposes, or to reach, by the most reasonably direct route, involving the shortest practicable use of the permittee's road system, a road or highway which is suitable for the transportation of forest products in the type and size of vehicle customarily used for such purposes and which is legally available for public use for ingress to and the removal of forest products from Government lands or from other lands during such periods of time as the timber thereon may be committed by a cooperative agreement to coordinated administration with timber of the United States. However, the type and size of vehicle which may be used by the licensee on the permittee's road shall be governed by §§ 2812.3-7 and 2812.4-3.

§ 2812.3-6 Duration and location of rights granted or received by the United States.

The rights-of-way granted by the United States under any permit issued under § 2812.6, subject to the provisions of § 2812.7, will be for a stated term or terms which may vary for each portion of the right-of-way granted; such term or terms will normally be coincident with the probable period of use for the removal of forest products by the permittee and any successor in interest of the various portions of the right-of-way requested. In the same manner the permit will also state the duration of the rights of the United States to use and to permit its licensees to use, and the location by legal subdivisions of, each of the various portions, if any, of the roads, rights-of-way, and lands which a permittee hereunder author-

izes the United States and its licensees to use; and, similarly, the duration of such rights received by the United States will normally be coincident with the probable period of use for the removal of forest products, by the United States and its existing and prospective licensees, of such roads, rights-of-way, and lands.

§ 2812.3-7 Permittee's agreement with United States respecting compensation and adjustment of road use.

(a) Where the United States receives rights over any road, right-of-way, or lands, controlled directly or indirectly by a permittee, the authorized officer will seek to arrive at an advance agreement with the permittee respecting any or all of such matters as the time, route, and specifications for the development of the road system in the area; the total volume of timber to be moved over such road system, and the proportion of such timber which belongs to the United States or is embraced in a cooperative agreement for coordinated management with timber of the United States managed by the Bureau; the consequent proportion of the capital costs of the road system to be borne by such timber of the United States or embraced in such cooperative agreement; the period of time over, or rate at which, the United States or its licensees shall be required to amortise such capital cost; provisions for road maintenance; the use in addition to the uses set forth in § 2812.3-5 which the United States and its licensees may make of the road system involved, a formula for determining the proportionate capacity of the road system or portions thereof which shall be available to the United States and its licensees for the transportation of forest products; the amount and type of insurance to be carried, and the type of security to be furnished by licensees of the United States who use such road; and such other similar matters as the authorized officer may deem appropriate. To the extent necessary to fulfill the obligations of the United States under any such advance agreement, subsequent contracts for the sale of timber managed by the Bureau and tapped by such road system, and subsequent cooperative agreements for the

§ 2812.4

coordinated management of such timber with other timber, will contain such provisions as may be necessary or appropriate to require such licensees to comply with the terms of the advance agreement. Where such an advance agreement between the United States and the permittee includes provisions relating to the route and specifications for extensions of the road system involved, the authorized officer may agree that upon the filing of proper applications in the future the applicant or his successor in interest shall receive the necessary permits for such road extensions as may cross lands managed by the Bureau: *Provided, however*, That the applicant shall have substantially complied with the terms of such advance agreement and of the outstanding permits theretofore issued to him.

(b) The provisions of § 2812.4 shall not be applicable to any matters embraced in an agreement made pursuant to this section.

§ 2812.4 Arbitration and agreements.

§ 2812.4-1 Agreements and arbitration between permittee and licensee respecting compensation payable by licensee to permittee for use of road.

(a) In the event the United States exercises the rights received from a permittee hereunder to license a person to remove forest products over any road, right-of-way, or lands of the permittee or of his successor in interest, to the extent that such matters are not covered by an agreement under § 2812.3-7 of this subpart, such licensee will be required to pay the permittee or his successor in interest such compensation and to furnish him such security, and to carry such liability insurance as the permittee or his successor in interest and the licensee may agree upon. If the parties do not agree, then upon the written request of either party delivered to the other party, the matter shall be referred to and finally determined by arbitration in accordance with the procedures established by § 2812.4-4. During the pendency of such arbitration proceedings the licensee shall be entitled to use the road, right-of-way, or lands involved upon payment, or tender thereof validly main-

43 CFR Ch. II (10-1-99 Edition)

tained, to the permittee of an amount to be determined by the authorized officer and upon the furnishing to the permittee of a corporate surety bond in an amount equal to the difference between the amount fixed by the authorized officer and the amount sought by the permittee. The licensee shall also, as a condition of use in such circumstances, maintain such liability insurance in such amounts covering any additional hazard and risk which might accrue by reason of the licensee's use of the road, as the authorized officer may prescribe.

(b) The arbitrators shall base their award as to the compensation to be paid by the licensee to the permittee or his successor in interest upon the amortization of the replacement costs for a road of the type involved, including in such replacement costs an extraordinary cost peculiar to the construction of the particular road involved and subtracting therefrom any capital investment made by the United States or its licensees in the particular road involved or in improvements thereto used by and useful to the permittee or his successor in interest plus a reasonable interest allowance on the resulting cost figure, taking into account the risk involved, plus costs of maintenance if furnished by the permittee or his successor, including costs of gates and gateman. In arriving at the amortization item, the arbitrators shall take into account the probable period of time, past and present, during which such road may be in existence, and the volume of timber which has been moved and the volume of timber currently merchantable, which probably will be moved from all sources over such road. The arbitrators shall also take into account the extent to which the use which the licensee might otherwise economically make of the road system is limited by § 2812.3-5. In addition, the arbitrators may fix the rate at which payments shall be made by the licensee during his use of the road. The arbitrators shall require the licensee to provide adequate bond, cash deposit, or other security to indemnify the permittee or his successor in interest against failure of the licensee to comply with the terms of the award

Bureau of Land Management, Interior

§ 2812.4-3

and against damage to the road not incident to normal usage and for any other reasonable purpose, and also to carry appropriate liability insurance covering any additional hazard and risks which may accrue by reason of the licensee's use of the road.

(c) Where improvements or additions are required to enable a licensee to use a road or right-of-way to remove timber or forest products, the cost of such improvements will be allowable to the licensee.

(d) The full value at current stumpage prices will be allocable against a licensee for all timber to be cut, removed, or destroyed by the licensee on a permittee's land in the construction or improvement of the road involved.

§ 2812.4-2 Compensation payable by United States to permittee for use of road.

In the event the United States itself removes forest products over any road or right-of-way of the permittee or his successor in interest, the United States, if there has been no agreement under § 2812.3-7 covering the matter, shall pay to the permittee or his successor in interest reasonable compensation as determined by the State Director, who shall base his determination upon the same standards established by this paragraph for arbitrators in the determination of the compensation to be paid by a licensee to a permittee: *Provided, however,* That no bond or other security or liability insurance is to be required of the United States. When the United States constructs or improves a road on a permittee's land or right-of-way it shall pay to the permittee the full value at current stumpage prices of all timber of the permittee cut, removed, or destroyed in the construction or maintenance of such road or road improvements. Current stumpage prices shall be determined by the application of the standard appraisal formula, used in appraising O. and C. timber for sale, to the volume and grade of timber. Such volume and grade shall be determined by a cruise made by the permittee or, at his request, by the authorized officer. If either the permittee or the authorized officer does not accept the cruise made by the other, the volume and

grade shall be determined by a person or persons acceptable both to the permittee and the State Director.

§ 2812.4-3 Agreements and arbitration between permittee and licensee respecting adjustment of road use.

(a) When the United States exercises the right received under this paragraph to use or to license any person to use a road of a permittee, the permittee or his successor in interest shall not unreasonably obstruct the United States or such licensee in such use. If there has been no agreement under § 2812.3-7 covering such matters, the permittee shall have the right to prescribe reasonable operating regulations, to apply uniformly as between the permittee and such licensee, covering the use of such road for such matters as speed and load limits, scheduling of hauls during period of use by more than one timber operator, coordination of peak periods of use, and such other matters as are reasonably related to safe operations and protection of the road; if the capacity of such road should be inadequate to accommodate the use thereof which such licensee and permittee desire to make concurrently, they shall endeavor to adjust their respective uses by agreement.

(b) If the permittee and such licensee are unable to agree as to the reasonableness of such operating regulations or on the adjustment of their respective uses where the capacity of the road is inadequate to accommodate their concurrent use, then upon the written request of either party delivered to the other party, the matter shall be referred to and finally determined by arbitration in accordance with the procedures established by § 2812.4-4.

(c) The arbitrators may make such disposition of a dispute involving the reasonableness of such operating regulations as appears equitable to them, taking into account the capacity and the construction of the road and the volume of use to which it will be subjected. In the determination of a dispute arising out of the inadequacy of the capacity of a road to accommodate the concurrent use by a permittee and a licensee, the arbitrators may make

§ 2812.4-4

such disposition thereof as appears equitable to them, taking into account, among other pertinent facts, the commitments of the permittee and the licensee with respect to the cutting and removal of the timber involved and the disposition of the products derived therefrom; the extent to which each of the parties may practicably satisfy any of the aforesaid commitments from other timber currently controlled by him; the past normal use of such road by the permittee; the extent to which federal timber has contributed to the amortization of the capital costs of such road; and the extent to which the United States or its licensees have enlarged the road capacity.

§ 2812.4-4 Arbitration procedure.

(a) Within 10 days after the delivery of a written request for arbitration under § 2812.4-1 or § 2812.4-3 of this subpart each of the parties to the disagreement shall appoint an arbitrator and the two arbitrators thus appointed shall select a third arbitrator. If either party fails to appoint an arbitrator as provided herein, the other party may apply to a court of record of the State of Oregon for the appointment of such an arbitrator, as provided by the laws of such State. If within ten days of the appointment of the second of them, the original two arbitrators are unable to agree upon a third arbitrator who will accept the appointment, either party may petition such a court of record of the State of Oregon for the appointment of a third arbitrator. Should any vacancy occur by reason of the resignation, death or inability of one or more of the arbitrators to serve, the vacancy shall be filled according to the procedures applicable to the appointment of the arbitrator whose death, disability, or other inability to serve, created the vacancy.

(b) By mutual agreement, the parties may submit to a single arbitration proceeding controversies arising under both §§ 2812.4-1 and 2812.4-3.

(c) The arbitrators shall hear and determine the controversy and make, file, and serve their award in accordance with the substantive standards prescribed in §§ 2812.4-1 and 2812.4-3, for the type of controversy involved and in accordance with the procedures estab-

43 CFR Ch. II (10-1-99 Edition)

lished by the laws of the State of Oregon pertaining to arbitration proceedings. A copy of the award shall also be served at the same time upon the authorized officer or the State Director, either personally or by registered mail.

(d) Costs of the arbitration proceedings shall be assessed by the arbitrators against either or both of the parties, as may appear equitable to the arbitrators, taking into account the original contentions of the parties, the ultimate decision of the arbitrators and such other matter as may appear relevant to the arbitrators.

[35 FR 9638, June 13, 1970, as amended at 41 FR 21642, May 27, 1976]

§ 2812.5 Payment to the United States, bond.

§ 2812.5-1 Payment required for O. and C. timber.

An applicant will be required to pay to the Bureau of Land Management, in advance of the issuance of the permit, the full stumpage value as determined by the authorized officer of the estimated volume of all timber to be cut, removed, or destroyed, on O. and C. lands in the construction or operation of the road.

§ 2812.5-2 Payment to the United States for road use.

(a) A permittee shall pay a basic fee of \$5 per year per mile or fraction thereof for the use of any existing road or of any road constructed by the permittee upon the right-of-way. If the term of the permit is for 5 years or less, the entire basic fee must be paid in advance of the issuance of the permit. If the term of the permit is longer than 5 years, the basic fee for each 5-year period or for the remainder of the last period, if less than 5 years, must be paid in advance at 5-year intervals: *Provided, however,* That in those cases where the permittee has executed under §§ 2812.3-1 to 2812.3-5 an agreement respecting the use of roads, rights-of-way or lands, no such basic fee shall be paid: *Provided further,* This paragraph shall not apply where payment for road use is required under § 2812.3-1(b).

(b) Where the permittee receives a right to use a road constructed or acquired by the United States, which road is under the administrative jurisdiction of the Bureau of Land Management, the permittee will be required to pay to the United States a fee to be determined by the authorized officer who may also fix the rate at which payments shall be made by the permittee during his use of the road. The authorized officer shall base his determination upon the amortization of the replacement costs for a road of the type involved, together with a reasonable interest allowance on such costs plus costs of maintenance if furnished by the United States and any extraordinary costs peculiar to the construction or acquisition of the particular road. In the case of federally acquired or constructed access roads, an allowance representing a reasonable allocation for recreational or other authorized uses shall be deducted from the replacement costs of the road before the amortization item is computed. A similar allowance and deduction shall be made in cases involving roads constructed as a part of a timber sale contract when, and if, subsequent to completion of such contract any such road becomes subject to recreational or other authorized uses. In arriving at the amortization item, the authorized officer shall take into account the probable period of time, past and present, during which such road may be in existence, and the volume of timber which has been moved, and the volume of timber currently merchantable which probably will be moved from all sources over such road: *Provided, however,* That this subdivision shall not apply where the permittee transports forest products purchased from the United States through the Bureau of Land Management, or where payment for such road use to another permittee is required under this subpart 2812: *Provided further,* That where the United States is entitled to charge a fee for the use of a road, the authorized officer may waive such fee if the permittee grants to the United States and its licensees the right to use, without charge, permittee's roads of approximately equal value as determined under the methods provided in this

subdivision and §2812.4-1(b), as may be applicable.

(c) If an application is filed to use a road built on O. and C. lands by the applicant or his predecessor in interest under a permit which has expired, the authorized officer may issue a new permit which provides that as to such road the applicant's road use payments shall be determined in accordance with paragraph (b) of this section except that he shall be required to pay a road use fee which is adequate to amortize only his proportionate share of any capital improvements which have been or may be placed on the road by the United States or its licensees together with a reasonable interest allowance thereon plus cost of maintenance if furnished by the United States: *Provided, however,* That if the application is for use of a road which has been built by a predecessor in interest the permit shall provide that the applicant may use the road only for the purpose of reaching the lands of the predecessor in interest that were served by the road. As a condition for the granting of such a permit, the applicant must comply with §§2812.3-1 to 2812.3-5 to the extent that rights-of-way and road use rights are needed to manage lands of the United States or to remove timber therefrom.

§2812.5-3 Bonds in connection with existing roads.

An applicant for permit or a permittee desiring to use an existing road owned or controlled by the United States, shall prior to such use post a bond on a form prescribed by the Director. The amount of the bond shall be determined by the authorized officer but in no event less than five hundred dollars (\$500) per mile or fraction thereof. The bond shall be executed by an approved corporate surety, or the permittee may deposit an equivalent amount in cash or negotiable securities of the United States and the bond shall be conditioned upon compliance with subpart 2812 and the terms and conditions of the permit.

§2812.6 Approval and terms of permit.

§2812.6-1 Approval.

(a) Upon the applicant's compliance with the appropriate provisions of this

§ 2812.6-2

paragraph and if it is determined that the approval of the application will be in the public interest, the authorized officer may, in his discretion, issue an appropriate permit, upon a form prescribed by the Director.

(b) The authorized officer may waive the requirements of §§ 2812.1-2 (c) and (e) and 2812.5-3 in the case of a natural person who applies for a right-of-way for not to exceed a period of twelve weeks. Not more than one such waiver shall be allowed in each consecutive twelve calendar months on behalf of or for the benefit of the same person.

§ 2812.6-2 Terms and conditions of permit.

(a) As to all permits: Every permittee shall agree:

(1) To comply with the applicable regulations in effect as of the time when the permit is issued and, as to the permittee's roads as to which the United States has received rights under §§ 2812.3-1 to 2812.3-5 with such additional regulations as may be issued from time to time relating to the use of roads for the purpose of access by properly licensed hunters and fishermen and by other recreationalists to lands of the United States in the O. and C. area which are suitable for such recreational purposes, where such use will not unreasonably interfere with the use of the road by the permittee for the transportation of forest products or unduly enhance the risk of fire, collision, or other hazards on such road and on lands in the vicinity thereof. If, notwithstanding the request of the authorized officer that the permittee allow use of a road in conformity with such additional regulations the permittee shall unreasonably withhold his assent, the authorized officer shall refer the disagreement through the proper channels to the Director of the Bureau for his consideration, and, if the Director concurs in the conclusion of the authorized officer and if the matter is still in dispute, he shall refer the matter to the Secretary of the Interior for his consideration. In the event of the Secretary's concurrence in the conclusions of the authorized officer, and if the permittee nevertheless unreasonably withholds such assent, the United States may institute such judicial pro-

ceedings as may be appropriate to enforce said regulations.

(2) Not to cut, remove, or destroy any timber not previously purchased on the right-of-way without having first obtained specific authority from the authorized officer and making payment therefor.

(3) To take adequate precaution to prevent forest, brush, and grass fires; to endeavor with all available personnel to suppress any fire originating on or threatening the right-of-way on which a road is being used or constructed by the permittee or any fire caused by the permittee; to do no burning on or near the right-of-way without State permit during the seasons that permits are required and in no event to set fire on or near the right-of-way that will result in damage to any natural resource or improvement.

(4) To submit to arbitration proceedings and to be bound by the resulting arbitral awards, pursuant to §§ 2812.4-1, 2812.4-3, and 2812.4-4.

(5) In the event that the United States acquires by purchase or eminent domain the land or any interest therein, over which there passes a road which the United States has acquired the right to use under §§ 2812.3-1 to 2812.3-5 of this subpart to waive compensation for the value of the road, equivalent to the proportion that the amount the United States has contributed bears to the total actual cost of construction of the road. Such contribution shall include any investment in or amortization of the cost of such road, or both, as the case may be, made by the United States or a licensee either by way of direct expenditures upon such road, or by way of payment by the United States or a licensee to the permittee, or by way of allowance made by the United States to the permittee in any timber sales contract for such amortization or capital investment.

(6) To construct all roads and other improvements as described in the application for the permit, except as the authorized officer may authorize modification or abandonment of any such proposed construction.

(7) To use the permit and right-of-way afforded subject to all valid existing rights, to such additional rights-of-

Bureau of Land Management, Interior

§ 2812.8-1

way as may be granted under this paragraph to a reservation of rights-of-way for ditches and canals constructed under authority of the United States.

(8) Not to discriminate against any employee or applicant for employment because of race, creed, color, or national origin, and to require an identical provision to be included in all subcontracts.

(9) Except as the authorized officer may otherwise permit or direct to clean up and remove from the road and right-of-way within six months after the expiration or other termination of the permit, all debris, refuse, and waste material which may have resulted from his operations and use of said road; to repair all damage to said road resulting directly or indirectly from his use thereof; and to remove therefrom all structures, timbers, and other objects that may have been installed or placed thereon by him in connection with said operations or use; *Provided, however*, That the road and all usable road improvements shall be left in place.

(10) Upon request of an authorized officer, to submit to the Bureau within 30 days with permission to publish, the detailed terms and conditions, including the fee which the permittee will ask as a condition of such licensee's use for the removal of forest products over any road or right-of-way which the United States and its licensees have acquired a right to use under §§ 2812.1-3 to 2812.1-5.

(11) To grant to the United States, upon request of an authorized officer in lieu of the rights-of-way across legal subdivisions granted pursuant to §§ 2812.1-3 to 2812.1-5, such permanent easements on specifically described locations as may be necessary to permit the Bureau to construct roads on such legal subdivisions with appropriated funds: *Provided*, That at the time of the grant of such permanent easements the Bureau shall release, except for necessary connecting spur roads, the rights-of-way across such legal subdivisions previously granted: *Provided further*, That if the United States builds a road on such permanent easements it shall pay for any timber of the permittee which is cut, removed, or destroyed in accordance with § 2812.4-2. The authorized officer shall waive the

requirement under this paragraph, however, if the permittee makes a satisfactory showing to the authorized officer that he does not own a sufficient interest in the land to grant a permanent easement, and that he has negotiated therefor in good faith without success.

(b) As to permits for the use of an existing road: In addition, every permittee to whom a permit is issued for the use of an existing road is required to agree:

(1) To maintain such a road in an adequate and satisfactory condition or to arrange therefor with the other users of the road. In the absence of satisfactory performance, the authorized officer may have such maintenance work performed as may be necessary in his judgment, determine the proportionate share allocable to each user, and collect the cost thereof from the parties or the sureties on the bonds furnished by said parties.

(2) Upon the expiration or other termination of his right to its use, to leave said road and right-of-way in at least as good a condition as existed prior to the commencement of his use.

§ 2812.7 Assignment of permit.

Any proposed assignment of a permit must be submitted in duplicate, within 90 days after the date of its execution, to the authorized officer for approval, accompanied by the same showing and undertaking by the assignee as is required of an applicant by §§ 2812.1-2 and 2812.3-1 to 2812.3-5, and must be supported by a stipulation that the assignee agrees to comply with and be bound by the terms and conditions of the permit and the applicable regulations of the Department of the Interior in force as of the date of such approval of the assignment.

[35 FR 9638, June 13, 1970, as amended at 41 FR 21642, May 27, 1976]

§ 2812.8 Cause for termination of permittee's rights.

§ 2812.8-1 Notice of termination.

(a) The authorized officer in his discretion may elect upon 30 days' notice to terminate any permit or right-of-way issued under this paragraph if:

§ 2812.8-2

(1) In connection with the application made therefor, the applicant represented any material fact knowing the same to be false or made such representation in reckless disregard of the truth; or

(2) A permittee, subsequent to the issuance of a permit or right-of-way to him, represents any material fact to the Bureau, in accordance with any requirement of such permit or this paragraph, knowing such representation to be false, or makes such representation in reckless disregard of the truth.

(b) The authorized officer in his discretion may elect to terminate any permit or right-of-way issued under this paragraph, if the permittee shall fail to comply with any of the provisions of such regulations or make defaults in the performance or obligation of any of the conditions of the permit, and such failure or default shall continue for 60 days after service of written notice thereof by the authorized officer.

(c) Notice of such termination shall be served personally or by registered mail upon the permittee, shall specify the misrepresentation, failure or default involved, and shall be final, subject, however, to the permittee's right of appeal.

(d) Termination of the permit and of the right-of-way under this section shall not operate to terminate any right granted to the United States pursuant to this paragraph, nor shall it affect the right of the permittee, after the termination of his permit and right-of-way to receive compensation and to establish road operating rules with respect to roads controlled by him which the United States has the right to use and to permit its licensees to use; nor shall it relieve the permittee of his duty under this paragraph, to submit to and be bound by arbitration pursuant to §§ 2812.4-1, 2812.4-3, and 2812.4-4.

§ 2812.8-2 Remedies for violations by licensee.

(a) No licensee of the United States will be authorized to use the roads of a permittee except under the terms of a timber sale contract or a cooperative agreement with the United States which will require the licensee to com-

43 CFR Ch. II (10-1-99 Edition)

ply with all the applicable provisions of this paragraph, and any agreements or awards made pursuant thereto. If a licensee fails to comply with the regulations, agreements, or awards, the authorized officer will take such action as may be appropriate under the provisions of the timber sale contract or cooperative agreement.

(b) A permittee who believes that a licensee is violating the provisions of such a timber sale contract or cooperative agreement pertaining to use of the permittee's roads, rights-of-way, or lands, may petition the authorized officer, setting forth the grounds for his belief, to take such action against the licensee as may be appropriate under the contract or the cooperative agreement. In such event the permittee shall be bound by the decision of the authorized officer, subject, however, to a right of appeal pursuant to § 2812.9 and subject, further, to the general provisions of law respecting review of administrative determinations. In the alternative, a permittee who believes that a licensee has violated the terms of the timber sale contract or cooperative agreement respecting the use of the permittee's roads may proceed against the licensee in any court of competent jurisdiction to obtain such relief as may be appropriate in the premises.

§ 2812.8-3 Disposition of property on termination of permit.

Upon the expiration or other termination of the permittee's rights, in the absence of an agreement to the contrary, the permittee will be allowed 6 months in which to remove or otherwise dispose of all property or improvements, other than the road and usable improvements to the road, placed by him on the right-of-way, but if not removed within this period, all such property and improvements shall become the property of the United States.

§ 2812.9 Appeals.

An appeal pursuant to part 4 of 43 CFR Subtitle A, may be taken from any final decision of the authorized officer, to the Board of Land Appeals, Office of the Secretary.

§ 2880.0-5 Definitions.

As used in this part, the term:

(a) *Act* means section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185).

(b) *Agency head* means the head of any Federal department or independent Federal office or agency, other than the Secretary of the Interior, who has jurisdiction over the surface of Federal lands.

(c) *Applicant* means any individual, partnership, corporation, association, or other business entity, or any State or local governmental entity or agency, which applies for a right-of-way grant or temporary use permit under the Act.

(d) *Authorized officer* means any employee of the department of the Interior to whom has been delegated the authority to perform the duties described in this part.

(e) *Federal lands* means all lands owned by the United States except lands in the National Park System, lands held in trust for an Indian or Indian tribe, and lands on the Outer Continental Shelf.

(f) *Holder* means any individual, partnership, corporation, association, or other business entity, or any State or local governmental entity or agency

 - 2883.6-1 Suspension and termination of right-of-way grants.
 - 2883.6-2 Suspension and termination of temporary permits.
- 2883.7 Change in Federal jurisdiction or disposal of lands.
- 2883.8 Restoration of Federal lands.

§ 2880.0-7

43 CFR Ch. II (10-1-99 Edition)

which has received a right-of-way grant or temporary use permit under the Act.

(g) *Oil or gas* means oil, natural gas, synthetic liquid or gaseous fuels, or any refined product produced therefrom.

(h) *Temporary use permit* means a revocable nonpossessory privilege to use specified Federal lands in the vicinity of a right-of-way in connection with the construction, operation, maintenance, or termination of a pipeline or for the protection of the natural environment or public safety.

(i) *Pipeline* means a line of traversing Federal lands for transportation of oil or gas. The term includes feeder lines, trunk lines, and related facilities, but does not include a lessee's or lease operator's production facilities located on his lease.

(j) *Pipeline system* means all facilities, whether or not located on Federal lands, used by a holder in connection with the construction, operation, maintenance, or termination of a pipeline.

(k) *Production facilities* means a lessee's or lease operator's pipes and equipment used on his lease solely to aid in his extraction, storage, and processing of oil and gas. The term includes storage tanks and processing equipment, and gathering lines upstream from such tanks and equipment, or in the case of gas, upstream from the point of delivery. The term also includes pipes and equipment, such as water and gas injection lines, used in the production process for purposes other than carrying oil and gas downstream from the wellhead.

(l) *Related facilities* means those structures, devices, improvements, and sites, the substantially continuous use of which is necessary for the operation or maintenance of a pipeline, which are located on Federal lands, and which are authorized under the Act, including but not limited to: Supporting structures; airstrips; roads; campsites; pump stations, including associated heliports, structures, yards, and fences; valves, and other control devices; surge and storage tanks; bridges; monitoring and communication devices and structures housing them; terminals, including structures, yards, docks, fences,

and storage tank facilities; retaining walls, berms, dikes, ditches, cuts, and fills; structures and areas for storing supplies and equipment. Related facilities may be connected or nonconnected or contiguous or noncontiguous to the pipe.

(m) *Right-of-way* means the Federal land authorized to be occupied pursuant to a right-of-way grant.

(n) *Right-of-way grant* means a document authorizing a nonpossessory, nonexclusive right to use Federal lands for the limited purpose of construction, operation, maintenance, and termination of a pipeline.

(o) *Secretary* means the Secretary of the Interior.

[44 FR 58129, Oct. 9, 1979, as amended at 45 FR 59880, Sept. 11, 1980]

§ 2880.0-7 Scope.

(a) These regulations apply to any application now on file or hereafter filed with Federal agencies for issuance, modification, or renewal of a right-of-way grant or a temporary use permit, except where the surface of the Federal lands involved in the right-of-way or temporary use permit area is under the jurisdiction of a single Federal agency, including bureaus and agencies within the Department of the Interior, other than the Bureau of Land Management.

(b) In addition, the provisions of § 2883.5 of this title apply to all right-of-way grants and temporary use permits heretofore issued pursuant to section 28 of the Mineral Leasing Act by the Bureau of Land Management, and to permits, grants, and other authorizations heretofore issued by the Secretary or his delegate in connection with the Trans-Alaska Oil Pipeline System (TAPS). Further, the permits, grants and other authorizations heretofore and hereafter issued by the Secretary or his delegate in connection with the Trans-Alaska Pipeline System are subject to § 2883.1-1 of this title.

(c) The regulations of this part do not apply to the reservation of rights-of-way for Federal departments or agencies. Such rights-of-way shall be

Bureau of Land Management, Interior

§ 2881.1-1

reserved in accordance with the regulations in subpart 2800 of this title.

(Sec. 28, Mineral Leasing Act, as amended and supplemented (30 U.S.C. 181 *et seq.*), sec. 203, Trans-Alaska Pipeline Authorization Act (Pub. L. 95-153); Independent Offices Appropriation Act of 1952 (31 U.S.C. 483a))

[44 FR 58129, Oct. 9, 1979, as amended at 49 FR 31209, Aug. 3, 1984; 51 FR 31765, Sept. 5, 1986]

§ 2880.0-9 Information collection.

The information collection requirements contained in part 2880 of Group 2800 have been approved by the Office of Management and Budget under 44 U.S.C. 3507 and assigned clearance numbers 1004-0102 and 1004-0107. The information is being collected to permit the authorized officer to determine if use of the public lands should be granted for rights-of-way grants or temporary use permits. The information will be used to make this determination. A response is required to obtain a benefit.

[60 FR 57072, Nov. 13, 1995]

Subpart 2881—Terms and Conditions of Right-of-Way Grants and Temporary Use Permits

§ 2881.1 Nature of interest.

§ 2881.1-1 Nature of right-of-way interest.

(a) The United States retains a right to use a right-of-way and temporary use permit area or authorize the use of it to others in any manner not inconsistent with pipeline construction, operation, maintenance, and termination. The holder of a right-of-way grant or temporary use permit has no right to any of the products of the land including, but not limited to, timber, forage, mineral, and animal resources. The holder may not allow the use of a right-of-way or temporary use permit area by others except its contractors, subcontractors, employees, agents or servants for purposes of construction, operation, maintenance, or termination of the pipeline.

(b) A holder shall not use a right-of-way and temporary use permit area for any purpose other than for the construction, operation, maintenance, and termination of the pipeline specified in

the holder's right-of-way grant. A holder shall not locate or construct any other pipelines, including looping lines, or other improvements within a right-of-way without first securing appropriate authorization therefor.

(c) The width of a right-of-way shall not exceed 50 feet plus the ground occupied by the pipeline (that is, the pipe and related facilities) unless the authorized officer finds and records the reasons for his finding, that a wider right-of-way is necessary for operation and maintenance after construction, or to protect the environment or public safety.

(d) An applicant may apply to the authorized officer for a wider right-of-way in limited areas, if necessary:

(1) For the operation and maintenance of the project after construction;

(2) To protect the environment; or

(3) To provide for the public safety. If the authorized officer finds that the additional width is necessary for one of the above reasons, he may authorize a wider width. Such authorization shall include a written report recording the reasons why the additional width is necessary.

(e) A right-of-way grant issued or renewed under these regulations shall be limited to a reasonable term, not to exceed 30 years. No term shall be longer than is necessary to accomplish the purpose of the grant. The authorized officer shall determine the duration of each right-of-way grant, taking into consideration, among other things:

(1) The cost of the facility,

(2) Its useful life,

(3) Any public purpose it serves, and

(4) Potentially conflicting uses of the land.

(f) Except where a right-of-way grant has terminated by its terms upon the occurrence of a fixed or agreed upon condition, event, or time, it shall be renewed if the pipeline is being operated and maintained in accordance with all provisions of the right-of-way grant, these regulations and the Act. The authorized officer may modify the terms and conditions of the right-of-way grant at the time of renewal.

(g) No purported transfer of an interest in a right-of-way grant, a right-of-way, or any portion of a pipeline system located within a right-of-way,

§ 2881.1-2

43 CFR Ch. II (10-1-99 Edition)

shall be valid without the prior written approval of the authorized officer. Applications for such approval shall be directed to the authorized officer. A transferee shall meet all the requirements of an original pipeline right-of-way grantee is bound by and shall assume all of the transferor's responsibility to the United States with respect to the transferred interest and shall agree to be bound by all terms of any outstanding right-of-way grant or temporary use permit. Applications for a transfer of interest shall be accompanied by a nonrefundable fee of \$50, except that where a holder assigns more than 1 right-of-way grant as part of a single action, the authorized officer, due to economies of scale, may set a fee of less than \$50 per assignment.

[44 FR 58129, Oct. 9, 1979, as amended at 52 FR 25821, July 8, 1987]

§ 2881.1-2 Nature of temporary use permit interest.

(a) A temporary use permit does not grant any interest in land and is revocable at will by the authorized officer.

(b) The area covered by a temporary use permit shall be no greater than is necessary to accommodate the authorized use or to protect the environment or provide for public safety.

(c) The duration of a temporary use permit shall be determined by the authorized officer in a manner that is consistent with construction activities, and is not to exceed that length of time needed to accomplish the purpose for which the permit is sought. The term of a temporary use permit shall not exceed 3 years subject to the provisions of this section.

(d) A temporary use permit may be renewed at the discretion of the authorized officer, but the permittee has no right of renewal. The authorized officer may modify the terms and conditions of the temporary use permit at the time of renewal.

(e) A temporary use permit may be assigned at the discretion of the authorized officer, provided the use for which the permit was issued continues.

§ 2881.1-3 Reservation of rights to the United States.

All rights in Federal lands subject to a right-of-way grant or temporary use

permit not expressly granted are retained by the United States. These rights include, but are not limited to:

(a) A continuing right of access across right-of-way and temporary use permit areas to all Federal lands (including the subsurface and air space);

(b) A continuing right of physical entry to any part of the pipeline system for inspection, monitoring, or for any other purpose or reason consistent with any right or obligation of the United States under any law or regulation; and

(c) The right to make, issue, or grant right-of-way grants, temporary use permits, easements, leases, licenses, contracts, patents, permits and other authorizations to or with third parties for compatible uses on, under, above, or adjacent to the Federal lands subject to a right-of-way grant or temporary use permit.

§ 2881.2 Terms and conditions of interest granted.

(a) An applicant, by accepting a right-of-way grant or a temporary use permit, agrees and consents to comply with and be bound by the following terms and conditions, excepting those which the Secretary may waive in a particular case:

(1) To the extent practicable, all State and Federal laws applicable to the pipeline system construction, operation and maintenance which is authorized and all such additional State and Federal law, along with the implementing regulations, that may be enacted and issued during the term of the grant or permit;

(2) That in the construction, operation and maintenance of the pipeline and related facilities, there shall be no discrimination against any employee or applicant for employment because of race, creed, color, sex or national origin and all subcontracts shall include an identical provision;

(3) To build and repair roads, fences and trails that may be destroyed or damaged by construction, operation or maintenance of the pipeline and related facilities and to build and maintain suitable crossings for roads and trails that intersect the right-of-way and related facilities; and

Bureau of Land Management, Interior

§ 2882.1

(4) To do everything reasonably within his or her power, both independently and upon request of the authorized officer, to prevent and suppress fires on or near the right-of-way and related facilities. This includes making available such construction and maintenance forces as may be reasonably obtained for the suppression of fires.

(b) All right-of-way grants and temporary use permits issued, renewed, or amended under these regulations shall contain such terms, conditions, and stipulations as may be prescribed by the authorized officer regarding extent, duration, survey, location, construction, operation, maintenance, use, and termination. The authorized officer shall impose stipulations which shall include, but shall not be limited to:

(1) Requirements for restoration, revegetation, and curtailment of erosion of the surface of the land;

(2) Requirements to insure that activities in connection with the right-of-way grant or temporary use permit shall not violate applicable air and water quality standards or related facility siting standards established by or pursuant to applicable Federal and State law;

(3) Requirements designed to control or prevent damage to the environment (including damage to fish and wildlife habitat), damage to public or private property, and hazards to public health and safety; and

(4) Requirements to protect the interests of individuals living in the general vicinity of the right-of-way or temporary use permit area who rely on the fish, wildlife, and biotic resources of the area for subsistence purposes.

(c) Right-of-way grants or temporary use permits issued, renewed, or amended under this title shall include requirements which comply with applicable Federal and State law that will protect the safety and health of pipeline workers and the general public, including, but not limited to, protection against the sudden rupture and slow degradation of the pipeline. Applicants and holders shall design, construct, operate, and maintain all facilities in accordance with applicable Federal and

State law governing pipelines and pipeline construction.

[44 FR 58129, Oct. 9, 1979, as amended at 52 FR 25821, July 8, 1987]

§ 2881.3 Unauthorized use, occupancy or development.

Any use, occupancy, or development of the public lands that requires a right-of-way, temporary use permit, or other authorization pursuant to the regulations in this part, and that has not been so authorized, or that is beyond the scope and specific limitations of such authorization, or that causes unnecessary or undue degradation, is prohibited and shall constitute a trespass as defined in § 2800.0-5. Anyone determined by the authorized officer to be in trespass on the public lands shall be notified in writing of such trespass and shall be liable to the United States for all costs and payments determined in the same manner as set forth at § 2801.3, part 2800 of this title.

[54 FR 25855, June 20, 1989]

Subpart 2882—Applications

§ 2882.1 Preapplication activity.

(a) Upon determining that a proposed pipeline project is contemplated which would cross Federal lands under the jurisdiction of the Department of the Interior, or two or more Federal agencies, the proponent of such project is encouraged to promptly notify the appropriate office identified in § 2882.2-2 of this title or the Secretary.

(b) The authorized officer shall provide guidance to the pipeline project proponent as to:

(1) Routing constraints which exist because of current land status as reflected in land use plans and land status records;

(2) Necessary information to be included in applications for right-of-way grants or temporary use permits;

(3) Qualifications required of applicants; and

(4) Identification of on-the-ground investigations which will require temporary use permits.

(c) No right-of-way applications processing work, other than that incurred in the processing of applications for permits for temporary use of public

§ 2882.2

43 CFR Ch. II (10–1–99 Edition)

lands in furtherance of the filing of an application and preapplication guidance under paragraph (b) of this section, shall be undertaken by the authorized officer prior to the filing of an application together with an advance payment as required by § 2883.1–1 of this title. Such processing work includes, but is not limited to, special studies such as environmental analyses, environmental impact statements, engineering surveys, resource inventories and detailed land use or record analyses.

(d) No activities, other than casual use, such as, but not limited to, vehicle use on existing roads, sampling, marking of routes, searching, or other similar activities that do not disturb the surface of the lands or require the removal of vegetation, shall be conducted on Federal lands prior to the issuance of a right-of-way grant or a temporary use permit.

[44 FR 58129, Oct. 9, 1979, as amended at 47 FR 38807, Sept. 2, 1982; 50 FR 1309, Jan. 10, 1985; 51 FR 31765, Sept. 5, 1986]

§ 2882.2 Requirements for applications for right-of-way grants and temporary use permits.

§ 2882.2–1 Applicant qualifications.

(a) An applicant for a right-of-way grant or temporary use permit shall be a citizen of the United States, an association of such citizens, a corporation organized under the laws of the United States, or of any State thereof, or a State or local government. Aliens may not acquire or hold any direct or indirect interest in rights-of-way, right-of-way grants or temporary use permits, except that they may own or control stock in corporations holding rights-of-way, right-of-way grants or temporary use permits if the laws of their country do not deny similar or like privileges to citizens of the United States.

(b) Each application by a partnership, corporation, association, or other business entity shall disclose the identity of the participants in the entity and shall include where applicable:

(1) The name, address, and citizenship of each participant (partner, associate or other);

(2) Where the applicant is a corporation, the name, address, and citizenship

of each shareholder owning 3-percent or more of each class of shares, together with the number and percentage of any class of voting shares of the entity which each shareholder is authorized to vote; and

(3) The name and address of each affiliate controlled by, or that controls, the entity, either directly or indirectly. Where an affiliate is controlled by the entity, the application shall disclose the number of shares and the percentage of each class of voting stock of that affiliate owned, directly or indirectly, by the entity. If an affiliate controls the entity, the number of shares and the percentage of each class of voting stock of the entity owned, directly or indirectly, by the affiliate shall be included.

(c) Applications filed with Federal agencies, such as the Federal Energy Regulatory Commission, to obtain a license, certificate or other authority for a project involving a right-of-way over, upon, under or through Federal lands for an oil and gas pipeline shall be simultaneously filed with the Bureau of Land Management in accordance with the provisions of § 2882.2–3 of this title.

[44 FR 58129, Oct. 9, 1979, as amended at 47 FR 12571, Mar. 23, 1982]

§ 2882.2–2 Application filing.

(a) Where the Federal lands involved are under the jurisdiction of the Bureau of Land Management, Department of the Interior, application for a right-of-way grant or temporary use permit or for a renewal of either shall be filed with either the Area Manager, the District Manager or the State Director of a Bureau of Land Management office having jurisdiction over the Federal lands involved.

(b) Where the Federal lands involved are under the jurisdiction of two or more agencies of the Department of the Interior, or where the Federal lands involved are under the jurisdiction of one or more agencies of the Department of the Interior and one or more other Federal agencies, or where the Federal lands involved are under the jurisdiction of two or more non-Interior agencies, the initial application for a right-of-way grant or temporary use permit may be filed at the most convenient State Office of the Bureau of Land

Bureau of Land Management, Interior

§ 2882.3

Management, at locations listed in § 1821.2-1 of this title or at the nearest Bureau of Land Management Office that has jurisdiction over a portion of the Federal lands involved. The Director, Bureau of Land Management will, upon notice of the application by field officials, assign a lead official and notify the applicant where all future communications concerning the project should be directed. All applications for temporary use permits that are filed subsequent to the filing of an application for a right-of-way grant shall be filed with the lead official. Applications for renewal of a right-of-way grant or temporary use permit shall be filed with the lead official.

(c) Where the Federal lands involved are under the jurisdiction of but one Federal agency, including bureaus and agencies within the Department of the Interior other than the Bureau of Land Management, applications for a right-of-way grant or temporary use permit or renewal of either shall be directed to that agency.

[44 FR 58129, Oct. 9, 1979, as amended at 45 FR 34887, May 23, 1980; 47 FR 12571, Mar. 23, 1982]

§ 2882.2-3 Application content.

(a) Applications for right-of-way grants and temporary use permits shall be filed on a form approved by the Director. The application form shall contain instructions for completion of the form and shall require the following information:

(1) The name and address of the applicant and the applicant's agent, if appropriate;

(2) A description of the applicant's proposal;

(3) A map, USGS quadrangle, aerial photo or equivalent, showing the approximate location of the proposed right-of-way and facilities on public lands and existing improvements adjacent to the proposal, shall be attached to the application. Only the existing adjacent improvements which the proposal may directly affect need be shown on the map;

(4) A statement of the applicant's technical and financial capability to construct, operate, maintain and terminate the proposals;

(5) Certification by the applicant that he/she is of legal age, authorized

to do business in the State and that the information submitted is correct to the best of the applicant's knowledge; and

(6) Disclose, to the extent applicable, the applicant's citizenship and the partnership, corporation, association and other business entity information required by § 2882.2-1 of this title.

(b) The applicant may submit additional information to assist the authorized officer in processing the application. Such information may include, but is not limited to, the following:

(1) Federal or State approvals required for the proposal;

(2) A description of the alternative route(s) and mode(s) considered by the applicant when developing the proposal;

(3) Copies of or reference to similar applications or grants the applicant has submitted or holds;

(4) A statement of need and economic feasibility or other proposal; and

(5) A statement of the environmental, social and economic effects of the proposal.

[47 FR 12571, Mar. 23, 1982]

§ 2882.3 Application processing.

(a) The Secretary shall notify the House Committee on Interior and Insular Affairs and the Senate Committee on Energy and Natural Resources promptly upon receipt of an application for a right-of-way grant for a pipeline 24 inches or more in diameter and no right-of-way grant for such a pipeline shall be issued until 60 days (not counting days on which the House of Representatives or the Senate has adjourned for more than 3 days) after a notice of intention to issue the right-of-way grant, together with the authorized officer's detailed findings as to terms and conditions he proposes to impose, has been submitted to such committees, unless each committee by resolution waives the waiting period.

(b) Upon receipt of an application for a right-of-way grant, the authorized officer shall publish a notice of the application in the FEDERAL REGISTER and an announcement in a newspaper or newspapers having general circulation in the vicinity of the Federal lands affected, or, if in the opinion of the authorized officer, the pipeline impacts

§ 2882.3

43 CFR Ch. II (10–1–99 Edition)

are of a minor nature, the notice of application may be waived or published only in a newspaper having general circulation in the area or areas in the vicinity of the affected Federal lands. The notice shall contain a description of the pipeline systems as required in § 2882.2-3(a) (2) and (3) of this title, together with such other information as the authorized officer considers pertinent. The notice shall state where the application and related documents are available for interested persons to review. Copies of the notice shall be sent to the Governor of each State within which the pipeline system may be located, the head of each local government or jurisdiction within which the pipeline system may be located, and each agency head, for review and comment.

(c) Where an application for a right-of-way grant or temporary use permit is incomplete or not in conformity with the Act or these regulations, the authorized officer may reject the application or notify the applicant of the deficiencies and afford the applicant an opportunity to file corrections. Where deficiency notices have not been adequately complied with, the authorized officer may reject the application or notify the applicant of the continuing deficiencies and afford the applicant an opportunity to file corrections.

(d) The authorized officer may require the applicant for a right-of-way grant or temporary use permit to submit such additional information as he deems necessary for review of the application.

(e) An application for a right-of-way grant or temporary use permit which meets the requirements of the Act and of these regulations entitles the applicant only to full review of the application. Such application may be denied if the authorized officer determines that the right-of-way or use applied for would be inconsistent with the purpose to which the Federal lands involved have been committed, or would otherwise not be in the public interest.

(f) The authorized officer shall hold public meetings or hearings on an application for a right-of-way grant or temporary use permit if he determines that such hearings or meetings are appropriate and sufficient public interest

exists to warrant the time and expense of such meetings or hearings. Notice of any such meetings or hearings shall be published in the FEDERAL REGISTER and in local newspapers.

(g) If the application involves a right-of-way through Federal lands under the jurisdiction of two or more Federal agencies, the authorized officer shall refer the application to the agency heads for consultation and other appropriate actions.

(h) The authorized officer shall consult with other agencies as to any additional information which should be required from the applicant, conditions or stipulations which should be imposed, and whether the right-of-way grant or temporary use permit should be issued.

(i) No right-of-way grant or temporary use permit over Federal lands under the jurisdiction of two or more Federal agencies and not within the jurisdiction of the agency by which the authorized officer is employed shall be issued or renewed by the authorized officer without the concurrence of the head of the agency administering such Federal lands or his authorized representative.

(j) Where the surface of the Federal lands involved is administered by the Secretary or by two or more Federal agencies, the Secretary may, after consultation with the non-Interior agencies involved, grant or renew a right-of-way or temporary use permit through the Federal lands involved, with or without the concurrence of the heads of the agencies administering such Federal lands. A right-of-way through a Federal reservation shall not be granted if the Secretary determines that it would be inconsistent with the purposes of the reservation.

(k) A right-of-way grant or temporary use permit need not conform to the applicant's proposal, but may contain such modifications, terms, stipulations or conditions including changes in route or site location as the authorized officer considers appropriate.

(l) No right-of-way grant or temporary use permit shall be considered as being in effect until the applicant has accepted its terms, in writing. Written acceptance shall constitute an agreement between an applicant and

the United States that, in consideration of the right to use Federal lands, the applicant shall abide by all terms and conditions contained therein and the provisions of applicable laws and regulations.

(m) At the discretion of the authorized officer, a provision may be placed in a right-of-way grant or temporary use permit requiring that no construction or use shall occur until a detailed construction, operation, rehabilitation and environmental protection plan has been submitted to the authorized officer and a notice to proceed has been issued. This requirement may be imposed for all or any part of the right-of-way.

[44 FR 58129, Oct. 9, 1979, as amended at 47 FR 12571, Mar. 23, 1982]

§ 2882.4 Interagency agreements.

The authorized officer may enter into interagency cooperative agreements with the other Federal agencies having jurisdiction over the Federal lands involved in right-of-way grants or temporary use permits applied for and issued under this part.

Subpart 2883—Administration of Rights Granted

§ 2883.1 General requirements.

§ 2883.1-1 Cost reimbursement.

(a) (1) An applicant for a right-of-way grant or a temporary use permit shall reimburse the United States for administrative and other costs incurred by the United States in processing the application, including the preparation of reports and statements pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321-4347), prior to the United States having incurred such costs. All costs shall be paid before the right-of-way grant or temporary use permit shall be issued under the regulations of this title.

(2) The regulations contained in this subpart do not apply to State or local governments or agencies or instrumentalities thereof where the Federal lands are used for governmental purposes and such lands and resources continue to serve the general public, except as to right-of-way grants or temporary use permits issued to State or local govern-

ments or agencies or instrumentalities thereof or a municipal utility or cooperative whose principal source of revenue is derived from charges levied on customers for services rendered that are similar to services rendered by a profit making corporation or business enterprise.

(3) The applicant shall submit with each application a nonrefundable application processing fee in the amount required by a schedule of fees for this purpose contained in paragraph (c) of this section which shall be based on a review of the use of the Federal lands for which the application is made, the resources affected and the complexity and costs to the United States for processing required by an application for a right-of-way grant and shall be established according to the following general categories:

(i) *Category I.* An application for a right-of-way grant or temporary use permit to authorize a use of Federal lands for which the data necessary to comply with the National Environmental Policy Act are available in the office of the authorized officer; and no field examination of the lands affected by the application is required;

(ii) *Category II.* An application for a right-of-way grant or temporary use permit to authorize a use of Federal lands for which the data necessary to comply with the National Environmental Policy Act are available in the office of the authorized officer; and one field examination of the lands affected by the application to verify the existing data is required;

(iii) *Category III.* An application for a right-of-way grant or temporary use permit to authorize a use of Federal lands for which the data necessary to comply with the National Environmental Policy Act are available in the office of the authorized officer; and two field examinations of the lands affected by the application to verify the data are required;

(iv) *Category IV.* An application for a right-of-way grant or temporary use permit to authorize a use of Federal lands for which some original data are required to be gathered to comply with the National Environmental Policy

Act; and two or three field examinations of the lands affected by the application are required;

(v) *Category V.* An application for a right-of-way grant or temporary use permit to authorize a use of Federal lands for which original data are required to be gathered to comply with the National Environmental Policy Act and evaluation of these data require formation of an interdisciplinary team; and three or more field examinations of the lands affected by the application are required;

(vi) *Category VI.* An application for a right-of-way grant or temporary use permit to authorize a use of Federal lands for which the cost of processing activities will be in excess of \$5,000.

(4)(i) The authorized officer may accept an application for the purpose of determining the appropriate category and the nonrefundable application processing fee; however, the authorized officer shall collect the full amount of the nonrefundable application processing fee prior to processing such application. A record of the authorized officer's category determination shall be made and given to the applicant, and the decision is a final decision for purposes of appeal under § 2884.1 of this title. Notwithstanding the pendency of such appeal, an application shall not be processed without payment of the fee determined by the authorized officer, and where such payment is made, the application may be processed and, if proper, the grant or permit issued. The authorized officer shall make any refund directed by the appeal decision. Where the amount of the nonrefundable application processing fee submitted by an applicant exceeds the amount of such fee as determined by the authorized officer, the authorized officer shall refund any excess unless requested in writing by the applicant to apply all or part of any such refund to the grant monitoring fee required by paragraph (b) of this section or to the rental payment for such grant or permit.

(ii) During the processing of an application, the authorized officer may change a category determination to place an application in Category VI at any time that it is determined that the application requires preparation of an

environmental impact statement. A record of change in category determination under this paragraph shall be made, and the decision is appealable in the same manner as an original category determination made under paragraph (a)(4)(i) of this section.

(5) (i) An applicant whose application is determined to be in Category VI shall, in addition to the nonrefundable application processing fee, reimburse the United States for the full actual administrative and other costs of processing the application. The nonrefundable application processing fee required under the fee schedule shall be credited toward the total cost reimbursement obligation of such applicant. When such an application is filed, the authorized officer shall estimate the costs expected to be incurred in processing the application, inform the applicant of the estimated amount to be reimbursed and require the applicant to make periodic payments of such estimated reimbursable costs prior to such costs being incurred by the United States.

(ii) If the payments required by paragraph (a)(5)(i) of this section exceed the actual costs to the United States, the authorized officer may adjust the next billing to reflect the overpayment, or make a refund from applicable funds under the authority of 43 U.S.C. 1734. An applicant may not set off or otherwise deduct any debt due to it or any sum claimed to be owed it by the United States without the prior written approval of the authorized officer.

(iii) Prior to issuance of a right-of-way grant or temporary use permit, an applicant subject to paragraph (a)(5)(i) of this section shall pay such additional amounts as are necessary to reimburse the United States for any costs which exceed the payments required by paragraph (a)(5)(i) of this section.

(iv) An applicant subject to paragraph (a)(5)(i) of this section whose application is denied is responsible for costs incurred by the United States in processing the application, and such amounts as have not been paid in accordance with paragraph (a)(5)(i) of this section are due within 30 days of receipt of a bill from the authorized officer giving the amount due.

(v) An applicant subject to paragraph (a)(5)(i) of this section who withdraws an application before a decision is reached is responsible for costs incurred by the United States in processing the application up to the date the authorized officer receives written notice of the withdrawal, and for costs subsequently incurred in terminating the application review process. Such amounts as have not been paid in accordance with paragraph (a)(5)(i) of this section are due within 30 days of receipt of a bill from the authorized officer giving the amount due.

(6) When 2 or more applications for right-of-way grants are filed which the authorized officer determines to be in competition with each other, each applicant shall reimburse the United States as required by paragraph (a)(3) of this section. If reimbursement of actual costs is required under paragraph (a)(5)(i) of this section, each applicant shall be responsible for the costs identifiable with his/her application. Costs that are not readily identifiable with one of the applications, such as costs for portions of an environmental impact statement that relate to all of the applications generally, shall be paid by each of the applicants in equal shares or such other proration as may be agreed to in writing by the applicants and authorized officer prior to the United States incurring such costs.

(7) When, through partnership joint venture or other business arrangement, more than one person partnership, corporation, association or other entity apply together for a right-of-way grant or temporary use permit, each such applicant shall be jointly and severally liable for costs under this section.

(8) When 2 or more noncompeting applications for right-of-way grants are received for what, in the judgment of the authorized officer, is one right-of-way system, all of the applicants shall be jointly and severally liable for costs under this section for the entire system, subject, however, to the provisions of paragraph (a)(7) of this section.

(b) (1) After issuance of a right-of-way grant or temporary use permit for which a fee was assessed under paragraph (a) of this section, the holder thereof shall, prior to the United States having incurred such costs, re-

imburse the United States for costs incurred by the United States in monitoring the construction, operation, maintenance and termination of authorized facilities on the right-of-way or permit area, and for protection and rehabilitation of the lands involved. The monitoring cost category shall be the same as that for the application processing category for that project.

(2) The holder shall submit a monitoring cost fee along with the written acceptance of the terms and conditions of the grant or permit pursuant to §2882.3(l) of this title. The amount of the required fee shall be determined by the schedule of fees described in paragraph (c) of this section. Acceptance of the terms and conditions of the grant or permit shall not be effective unless the required fee is paid.

(3) A holder whose application was determined to be in Category VI for application processing purposes shall reimburse the United States for the actual administrative costs and other costs of monitoring the grant or permit. When such a grant or permit is issued, the authorized officer shall estimate the costs expected to be incurred in monitoring the grant or permit, inform the holder of the estimated amount to be reimbursed and require the holder to make periodic payment of such estimated reimburseable costs prior to such costs being incurred by the United States.

(4) If the payments required by paragraph (b)(3) of this section exceed the actual costs of the United States, the authorized officer may adjust the next billing to reflect the overpayment, or make a refund from applicable funds under the authority of 43 U.S.C. 1734. A holder may not set off or otherwise deduct any debt due to it or any sum claimed to be owed it by the United States without the prior written approval of the authorized officer.

(5) Following termination of a right-of-way grant or temporary use permit, any grantee or permittee that was determined to be in Category VI shall pay such additional amounts as are necessary to reimburse the United States for any costs which exceed the payments required by paragraph (b)(3) of this section.

§ 2883.1-2

(c) The schedules of nonrefundable fees are as follows:

(1) For processing an application for a right-of-way and/or temporary use permit:

Category	Fee
I	\$125
II	275
III	350
IV	600
V	1,000
VI	15,000

¹ A minimum of—.

(2) For monitoring a right-of-way grant or temporary use permit:

Category	Fee
I	\$25
II	50
III	75
IV	150
V	250
VI	(¹)

¹ As required.

(d) Reimbursement of costs for application processing and administration of right-of-way grants and temporary use permits pertaining to the Trans-Alaska Pipeline System shall be made by payment of such sums as the Secretary determines to be required to reimburse the Department of the Interior for the actual costs of these services. In processing applications and administering right-of-way grants and temporary use permits relating to the Trans-Alaska Pipeline System, the Department of the Interior shall avoid unnecessary employment of personnel and needless expenditure of funds as determined by the Secretary. Reimbursement of costs shall be made for each quarter ending on the last day of March, June, September and December. On or before the 16th day after the close of each quarter, the authorized officer shall submit to the permittee a written statement of costs incurred during that quarter which are reimbursable.

[50 FR 1309, Jan. 10, 1985 and 51 FR 31765, Sept. 5, 1986]

§ 2883.1-2 Rental payments.

Holders of right-of-way grants and temporary use permits issued under this part shall make rental payments in accordance with § 2803.1-2 of this

43 CFR Ch. II (10-1-99 Edition)

title, except that the provisions of § 2803.1-2(b) of this title shall not apply.

[47 FR 38807, Sept. 2, 1982, as amended at 52 FR 25821, July 8, 1987]

§ 2883.1-3 Bonding.

The authorized officer may require a holder of a right-of-way grant or temporary use permit to furnish a bond, or other security satisfactory to him, to secure all or any of the obligations imposed by the right-of-way grant and temporary use permits and applicable laws and regulations.

§ 2883.1-4 Liability.

(a) Except as provided in paragraph (f) of this section holders shall be fully liable to the United States for any damage or injury incurred by the United States in connection with the use and occupancy of the right-of-way or permit area.

(b) Except as provided in paragraph (f) of this section, holders shall be held to a standard of strict liability for any activity within a right-of-way or permit area which the authorized officer determines, in his discretion, presents a foreseeable hazard or risk of damage or injury to the United States. The activities and facilities to which such standard shall apply shall be specified in the right-of-way grant or temporary use permit. Strict liability shall not be imposed for damage or injury resulting primarily from an act of war or the negligence of the United States. To the extent consistent with other laws, strict liability shall extend to costs incurred by the United States for control and abatement of conditions, such as fire or oil spills, which threaten lives, property or the environment, regardless of whether the threat occurs on areas that are under Federal jurisdiction. Stipulations in right-of-way grants and temporary use permits imposing strict liability shall specify a maximum limitation on damages which, in the judgment of the authorized officer, is commensurate with the foreseeable risks or hazards presented. The maximum limitation shall not exceed \$1,000,000 for any one event, and any liability in excess of such amount shall be determined by the ordinary rules of negligence of the jurisdiction

Bureau of Land Management, Interior

§ 2883.1-6

in which the damage or injury occurred.

(c) In any case where strict liability is imposed and the damage or injury was caused by a third party, the rules of subrogation shall apply in accordance with the law of the jurisdiction in which the damage or injury occurred.

(d) Except as provided in paragraph (f) of this section, holders shall be fully liable for injuries or damages to third parties resulting from activities or facilities on lands under Federal jurisdiction, in accordance with the law of the jurisdiction in which the damage or injury occurred.

(e) Except as provided in paragraph (f) of this section, holders shall fully indemnify or hold harmless the United States for liability, damage or claims arising in connection with the use and occupancy of right-of-way or permit areas.

(f) If a holder is a State or local government, or agency or instrumentality thereof, it shall be liable to the fullest extent its laws allow at the time it is granted a right-of-way grant or temporary use permit. To the extent such a holder does not have the power to assume liability, it shall be required to repair damage or make restitution to the fullest extent of its powers at the time of any damage or injury.

(g) All owners of any interest in, and all affiliates or subsidiaries of any holder of a right-of-way grant or temporary use permit, except for corporate stockholders, shall be jointly and severally liable to the United States in the event that a claim cannot be satisfied by a holder.

(h) Except as otherwise expressly provided in this section, the provisions in this section for a remedy is not intended to limit or exclude any other remedy.

(i) If the right-of-way grant or temporary use permit is issued to more than one holder, they shall be jointly and severally liable under this section.

§ 2883.1-5 Common carriers.

(a) Pipelines shall be constructed, operated, and maintained as common carriers. The owners or operators of pipelines shall accept, convey, transport, or purchase without discrimination all oil or gas delivered to the pipeline without

regard to whether such oil or gas was produced on Federal or non-Federal lands. In the case of oil or gas produced from Federal lands or from the resources on the Federal lands in the vicinity of the pipeline, the Secretary may, after a full hearing with due notice thereof to interested parties and a proper finding of facts, determine the proportionate amounts to be accepted, conveyed, transported, or purchased.

(b) The common carrier provisions of this section shall not apply to any natural gas pipeline operated by any person subject to regulation under the Natural Gas Act or by any public utility subject to regulation by a State or municipal regulatory agency having jurisdiction to regulate the rates and charges for the sale of natural gas to consumers within the State or municipality. Where natural gas not subject to State regulatory or conservation laws governing its purchase by pipeline companies is offered for sale, each pipeline company shall purchase, without discrimination, any such natural gas produced in the vicinity of the pipeline.

(c) The authorized officer shall require, prior to issuing or renewing a right-of-way grant, that the applicant submit and disclose all plans, contracts, agreements, or other information or material which the authorized officer considers necessary to determine whether a right-of-way grant shall be issued or renewed and the terms and conditions which should be included in the grant. Such information may include, but is not limited to:

(1) Conditions for, and agreements among, owners or operators regarding the addition of pumping facilities, looping, or otherwise increasing the pipeline or terminal's throughput capacity in response to actual or anticipated increases in demand;

(2) Conditions for adding or abandoning intake, offtake, or storage points or facilities; and

(3) Minimum shipment or purchase tenders.

§ 2883.1-6 Export.

With certain exceptions, domestically produced crude oil transported through a pipeline is subject to the

§ 2883.2

provisions of section 28(u) of the Mineral Leasing Act of 1920 as amended (30 U.S.C. 185), and the Export Administration Act of 1969 as amended (50 U.S.C. 2401), and may not be exported without Presidential and congressional approval.

§ 2883.2 Holder activity.

(a) The actions of holders of right-of-way grants or temporary use permits shall be regulated by the appropriate agency head having jurisdiction over the Federal lands involved, unless other arrangements are agreed to by the authorized officer and agency head.

(b) An applicant shall promptly notify the authorized officer of any changes in its plans, financial condition, or other factors relevant to the application, and shall modify the application promptly to reflect any such changes. If the requirements of this subsection are not complied with in the opinion of the authorized officer, the application may be rejected.

(c) The holder shall at all times keep the authorized officer informed of his or her address, and in the case of a corporation, of the address of its principle place of business and the names and addresses of its principle officers.

(d) Any proposed change in the route of the pipeline or change in the use of Federal lands under the Act will require an amended or new right-of-way grant or temporary use permit from the authorized officer. Any unauthorized activity may be subject to prosecution under applicable laws.

(e) Holders of pipeline right-of-way grants issued before November 16, 1973, must apply under the Act and these regulations for modifications of the route or change in the use of Federal lands in connection with such right-of-way.

(f) The authorized officer may ratify or confirm a right-of-way grant or temporary use permit that was issued under any provision of law if the right-of-way grant or temporary use permit is modified to comply with the provisions of the Act and regulations. Such modifications are subject to the joint approval of the right-of-way holder and the authorized officer.

43 CFR Ch. II (10-1-99 Edition)

§ 2883.3 Construction procedures.

(a) Unless otherwise stated in the right-of-way grant or temporary use permit, construction may proceed immediately after delivery to the authorized officer of the applicant's written acceptance of the right-of-way grant or temporary use permit.

(b) If a notice to proceed requirement has been imposed under § 2882.3(m) of this title, the holder shall initiate no construction, occupancy, or use until the authorized officer issues an appropriate notice to proceed.

§ 2883.4 Operation and maintenance.

Prior to the beginning of pipeline operations, the holder shall submit to the authorized officer a certification of construction, verifying that the pipeline system has been constructed and tested in accordance with the terms of the right-of-way grant, and in compliance with any required plans and specifications, and applicable Federal and State laws and regulations.

§ 2883.5 Immediate temporary suspension of activities.

(a) If the authorized officer determines that any activity being conducted or authorized by a holder within a right-of-way or temporary use permit area is endangering public health or safety or the environment, he may order the immediate suspension of that activity and immediate remedial action.

(b) The authorized officer may order immediate suspension of an activity irrespective of any action that has been or is being taken by another Federal agency or a State agency.

(c) The authorized officer may give an immediate suspension order orally or in writing at the site of the activity to the holder or a contractor or subcontractor of the holder, or to any representative, agent, employee, or contractor of any of them, and the suspended activity shall cease at that time. As soon as practicable, the authorized officer shall confirm the order by a written notice to the holder addressed to the holder or the holder's designated agent.

(d) An order of temporary suspension of activities shall remain effective until the authorized officer issues an
