# Table of Contents

Explanation ................................................................................................ v

Title 50:

- Chapter II—National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce ........................................... 3
- Chapter III—International Fishing and Related Activities .................. 275
- Chapter IV—Joint Regulations (United States Fish and Wildlife Service, Department of the Interior and National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce); Endangered Species Committee Regulations ............................................................. 331
- Chapter V—Marine Mammal Commission ........................................ 373

Finding Aids:

- Material Approved for Incorporation by Reference .......................... 399
- Table of CFR Titles and Chapters ......................................................... 401
- Alphabetical List of Agencies Appearing in the CFR ...................... 419
- List of CFR Sections Affected ............................................................. 429
Cite this Code: CFR

To cite the regulations in this volume use title, part and section number. Thus, 50 CFR 216.1 refers to title 50, part 216, section 1.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

Title 1 through Title 16 ..............................................................as of January 1
Title 17 through Title 27 .................................................................as of April 1
Title 28 through Title 41 .................................................................as of July 1
Title 42 through Title 50 .............................................................as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, October 1, 1999), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96-511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

**OBSOLETE PROVISIONS**

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 1986, consult either the List of CFR Sections Affected, 1949-1963, 1964-1972, or 1973-1985, published in seven separate volumes. For the period beginning January 1, 1986, a “List of CFR Sections Affected” is published at the end of each CFR volume.

**INCORPORATION BY REFERENCE**

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

Properly approved incorporations by reference in this volume are listed in the Finding Aids at the end of this volume.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed in the Finding Aids of this volume as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, Washington DC 20408, or call (202) 523-4534.

**CFR INDEXES AND TABULAR GUIDES**

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules. A list of CFR titles, chapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of “Title 3—The President” is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.
REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency’s name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202-523-5227 or write to the Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408.

SALES

The Government Printing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call 202-512-1800, M-F, 8 a.m. to 4 p.m. e.s.t. or fax your order to 202-512-2233, 24 hours a day. For payment by check, write to the Superintendent of Documents, Attn: New Orders, P.O. Box 371954, Pittsburgh, PA 15250-7954. For GPO Customer Service call 202-512-1803.

ELECTRONIC SERVICES

The Office of the Federal Register also offers a free service on the National Archives and Records Administration’s (NARA) World Wide Web site for public law numbers, Federal Register finding aids, and related information. Connect to NARA’s web site at www.nara.gov/fedreg. The NARA site also contains links to GPO Access.

RAYMOND A. MOSLEY,
Director,
Office of the Federal Register.

October 1, 1999.
THIS TITLE

Title 50—Fish and Wildlife is composed of three volumes. The parts in these volumes are arranged in the following order: Parts 1-199, parts 200-599 and part 600 to end. The first volume (parts 1-199) contains the current regulations issued under chapter I—United States Fish and Wildlife Service, Department of the Interior. The second volume (parts 200-599) contains the current regulations issued under chapter II—National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce; chapter III—International Fishing and Related Activities, chapter IV—Joint Regulations (United States Fish and Wildlife Service, Department of the Interior and National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce); Endangered Species Committee regulations; and chapter V—Marine Mammal Commission. The third volume (part 600 to end) contains the current regulations issued under chapter VI—Fishery Conservation and Management, National Oceanic and Atmospheric Administration, Department of Commerce. The contents of these volumes represent all current regulations codified under this title of the CFR as of October 1, 1999.

Alphabetical listings of endangered and threatened wildlife and plants appear in part 17.

For this volume, Melanie L. Marcec was Chief Editor. The Code of Federal Regulations publication program is under the direction of Frances D. McDonald, assisted by Alomha S. Morris.
Would you like to know... if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the LSA (List of CFR Sections Affected), the Federal Register Index, or both.

LSA
The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected. $27 per year.

Federal Register Index
The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references. $25 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Superintendent of Documents Subscription Order Form

PART 216—REGULATIONS GOVERNING THE TAKING AND IMPORTING OF MARINE MAMMALS

Subpart A—Introduction

Sec. 216.1 Purpose of regulations.
216.2 Scope of regulations.
216.3 Definitions.
216.4 Other laws and regulations.
216.5 Payment of penalty.
216.6 Forfeiture and return of seized property.
216.7 Holding and bonding.
216.8 Enforcement officers.

Subpart B—Prohibitions

216.11 Prohibited taking.
216.12 Prohibited importation.
216.13 Prohibited uses, possession, transportation, sales, and permits.
216.14 Marine mammals taken before the MMPA.
216.15 Depleted species.
216.16 Prohibitions under the General Authorization for Level B harassment for scientific research.

Subpart C—General Exceptions

216.21 Actions permitted by international treaty, convention, or agreement.
216.22 Taking by State or local government officials.
216.23 Native exceptions.
216.24 Taking and related acts incidental to commercial fishing operations.
216.25 Exempted marine mammals and marine mammal products.
216.26 Collection of certain marine mammals parts without prior authorization.
216.27 Release, non-releasability, and disposition under special exception permits for rehabilitated marine mammals.

Subpart D—Special Exceptions

216.30 [Reserved]
216.31 Definitions.
216.32 Scope.
216.33 Permit application submission, review, and decision procedures.
216.34 Issuance criteria.
216.35 Permit restrictions.
216.36 Permit conditions.
216.37 Marine mammal parts.
216.38 Reporting.
216.39 Permit amendments.
216.40 Penalties and permit sanctions.
216.41 Permits for scientific research and enhancement.
216.42 Photography. [Reserved]
216.43 Public display. [Reserved]
216.44 Applicability/transition.
216.45 General Authorization for Level B harassment for scientific research.
216.46-216.49 [Reserved]

Subpart E—Designated Ports

216.50 Importation at designated ports.

Subpart F—Pribilof Islands, Taking for Subsistence Purposes

216.71 Allowable take of fur seals.
216.72 Restrictions on taking.
216.73 Disposition of fur seal parts.
216.74 Cooperation with Federal officials.

Subpart G—Pribilof Islands Administration

216.81 Visits to fur seal rookeries.
216.82 Dogs prohibited.
216.83 Importation of birds or mammals.
216.84 [Reserved]
216.85 Walrus and Otter Islands.
216.86 Local regulations.
216.87 Wildlife research.

Subpart H—Dolphin Safe Tuna Labeling

216.90 Purpose.
216.91 Labeling requirements.
216.92 Purse seine vessels greater than 400 short tons (362.8 metric tons).
216.93 Submission of documentation.
216.94 Requests to review documents.
216.95 False statements or endorsements.

Subpart I—General Regulations Governing Small Takes of Marine Mammals Incidental to Specified Activities

216.101 Purpose.
216.102 Scope.
216.103 Definitions.
216.104 Submission of requests.
216.105 Specific regulations.
216.107 Incidental harassment authorization for Arctic waters.
216.108 Requirements for monitoring and reporting under incidental harassment authorizations for Arctic waters.
§ 216.1  Purpose of regulations.

The regulations in this part implement the Marine Mammal Protection Act of 1972, 86 Stat. 1027, 16 U.S.C. 1361-1407, Pub. L. 92-522, which, among other things, restricts the taking, possession, transportation, selling, offering for
§ 216.2 Scope of regulations.

This part 216 applies solely to marine mammals and marine mammal products as defined in §216.3. For regulations under the MMPA, with respect to other marine mammals and marine mammal products, see 50 CFR part 18.

§ 216.3 Definitions.

In addition to definitions contained in the MMPA, and unless the context otherwise requires, in this part 216:

ABI means Automated Broker Interface, the electronic product-entry filing system under the control of the U.S. Customs Service, Department of the Treasury.

Active sportfishing means paying passengers have their terminal fishing gear (lures, hooks, etc.) in the water in an attempt to catch fish or, in the case of fishing involving chumming, fishing is considered to be in progress from the instant fish have been sighted taking bait (boiling) during that chumming process.

Administrator, Southeast Region means Administrator, Southeast Region, National Marine Fisheries Service, 9721 Executive Center Drive, St. Petersburg, FL 33702-2432.

Administrator, Northeast Region means Administrator, Northeast Region, National Marine Fisheries Service, One Blackburn Drive, Gloucester, MA 01930-2298.

Alaskan Native means a person defined in the Alaska Native Claims Settlement Act (43 U.S.C. 1602(b)) (85 Stat. 588) as a citizen of the United States who is of one-fourth degree or more Alaska Indian (including Tsimshian Indians enrolled or not enrolled in the Metlaktla Indian Community), Eskimo, or Aleut blood or combination thereof. The term includes any Native, as so defined, either or both of whose adoptive parents are not Natives. It also includes, in the absence of proof of a minimum blood quantum, any citizen of the United States who is regarded as an Alaska Native by the Native village or group, of which he claims to be a member and whose father or mother is (or, if deceased, was) regarded as Native by any Native village or Native group. Any such citizen enrolled by the Secretary of the Interior pursuant to section 5 of the Alaska Native Claims Settlement Act shall be conclusively presumed to be an Alaskan Native for purposes of this part.

Article of handicraft means items made by an Indian, Aleut or Eskimo from the nondible byproducts of fur seals taken for personal or family consumption which—

1. Were commonly produced by Alaskan Natives on or before October 14, 1963;
2. Are composed wholly or in some significant respect of natural materials; and,
3. Are significantly altered from their natural form and which are produced, decorated, or fashioned in the exercise of traditional native handicrafts without the use of pantographs, multiple carvers, or similar mass copying devices. Improved methods of production utilizing modern implements such as sewing machines or modern tanning techniques at a tannery registered pursuant to §216.23(c) may be used so long as no large scale mass production industry results. Traditional native handicrafts include, but are not limited to, weaving, carving, stitching, sewing, lacing, beading, drawing, and painting. The formation of traditional native groups, such as a cooperative, is permitted so long as no large scale mass production results.

Assistant Administrator means the Assistant Administrator for Fisheries, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Silver Spring, MD 20910, or his/her designee.

Authentic native articles of handicrafts and clothing means items made by an Indian, Aleut or Eskimo which (a) were commonly produced on or before December 21, 1972, and (b) are composed wholly or in some significant respect of
§ 216.3  

50 CFR Ch. II (10-1-99 Edition)  

natural materials, and (c) are significantly altered from their natural form and which are produced, decorated, or fashioned in the exercise of traditional native handicrafts without the use of pantographs, multiple carvers, or similar mass copying devices. Improved methods of production utilizing modern implements such as sewing machines or modern tanning techniques at a tannery registered pursuant to §216.23(c) may be used so long as no large scale mass production industry results. Traditional native handicrafts include, but are not limited to, weaving, carving, stitching, sewing, lacing, beading, drawing, and painting. The formation of traditional native groups, such as a cooperative, is permitted so long as no large scale mass production results.

Bona fide scientific research: (1) Means scientific research on marine mammals conducted by qualified personnel, the results of which:

(i) Likely would be accepted for publication in a refereed scientific journal;

(ii) Are likely to contribute to the basic knowledge of marine mammal biology or ecology. (Note: This includes, for example, marine mammal parts in a properly curated, professionally accredited scientific collection); or

(iii) Are likely to identify, evaluate, or resolve conservation problems.

(2) Research that is not on marine mammals, but that may incidentally take marine mammals, is not included in this definition (see sections 101(a)(3)(A), 101(a)(5)(A), and 101(a)(5)(D) of the MMPA, and sections 7(b)(4) and 10(a)(1)(B) of the ESA).

Carrying capacity means the Regional Director's determination of the maximum amount of fish that a vessel can carry in short tons based on the greater of the amount indicated by the builder of the vessel, a marine surveyor's report, or the highest amount reported landed from any one trip.

Certified charter vessel means a fishing vessel of a non-U.S. flag nation, which is operating under the jurisdiction of the marine mammal laws and regulations of another, harvesting, nation by a formal declaration entered into by mutual agreement of the nations.

Co-investigator means the on-site representative of a principal investigator.

Commercial fishing operation means the lawful harvesting of fish from the marine environment for profit as part of an ongoing business enterprise. Such terms may include licensed commercial passenger fishing vessel (as defined) activities, but no other sportfishing activities, whether or not the fish so caught are subsequently sold.

Commercial passenger fishing vessel means any vessel licensed for commercial passenger fishing purposes within the State out of which it is operating and from which, while under charter or hire, persons are legally permitted to conduct sportfishing activities.

Custody means holding a live marine mammal pursuant to the conditional authority granted under the MMPA, and the responsibility therein for captive maintenance of the marine mammal.

Director, Office of Protected Resources means Director, Office of Protected Resources, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910.

Director, Southwest Region means the Director, Southwest Region, NMFS, 501 W. Ocean Blvd., Long Beach, CA 90802, or his/her designee.

Dolphin Mortality Limit (DML) means the maximum allowable number of incidental dolphin mortalities per calendar year assigned to a vessel, unless a shorter time period is specified.

ETP means the eastern tropical Pacific Ocean which includes the Pacific Ocean area bounded by 40° N. latitude, 40° S. latitude, 160° W. longitude and the coastlines of North, Central and South America.

ETP Fishing Area 1 means the northern coastal portion of the ETP east of 117° W. longitude, north of 5° N. latitude, and west of 86° W. longitude.

ETP Fishing Area 2 means the offshore area south of 14° N. latitude, north of 6° N. latitude, east of 130° W. longitude, and west of 123° W. longitude.
ETP Fishing Area 3 means all other areas within the ETP not included in Fishing Areas 1 and 2.

Facility means, in the context specific to captive marine mammals: (1) One or more permanent primary enclosures used to hold marine mammals captive (i.e., pools, lagoons) and associated infrastructure (i.e., equipment and supplies necessary for the care and maintenance of marine mammals) where these enclosures are either located within the boundaries of a single contiguous parcel of land and water, or are grouped together within the same general area within which enclosure-to-enclosure transport is expected to be completed in less than one hour; or (2) A traveling display/exhibit, where the enclosure(s) and associated infrastructure is transported together with the marine mammals.

Feeding is offering, giving, or attempting to give food or non-food items to marine mammals in the wild. It includes operating a vessel or providing other platforms from which feeding is conducted or supported. It does not include the routine discard of bycatch during fishing operations or the routine discharge of waste or fish byproducts from fish processing plants or other platforms if the discharge is otherwise legal and is incidental to operation of the activity.

First exporter means the person or company that first exports the fish or fish product, or, in the case of shipments that are subject to the labeling requirements of 50 CFR part 247 and that only contain fish harvested by vessels of the United States, the first seller of the fish or fish product.

Fisheries Certificate of Origin means NOAA Form 370, as described in 50 CFR 216.24(e)(3)(iii).

Fishing season means, for the purposes of §216.24(e), those sets made on trips that are completed between October 1 and September 30 of the following calendar year.

Fur seal means North Pacific fur seal, scientifically known as Callorhinus ursinus.

Hard part means any bone, tooth, baleen, treated pelt, or other part of a marine mammal that is relatively solid or durable.

Harvesting nation means the country under whose flag one or more fishing vessels are documented, or which has by formal declaration agreed to assert jurisdiction over one or more certified charter vessels, from which vessel(s) fish are caught that are a part of any cargo or shipment of fish to be imported into the United States, regardless of any intervening transshipments.

Humane means the method of taking, import, export, or other activity which involves the least possible degree of pain and suffering practicable to the animal involved.

Import means to land on, bring into, or introduce into, or attempt to land on, bring into, or introduce into, any place subject to the jurisdiction of the United States, whether or not such landing, bringing, or introduction constitutes an importation within the Customs laws of the United States; except that, for the purpose of any ban issued under 16 U.S.C. 1371(a)(2) on the importation of fish or fish products, the definition of “import” in §216.24(e)(1)(ii) shall apply.

Incidental catch means the taking of a marine mammal (1) because it is directly interfering with commercial fishing operations, or (2) as a consequence of the steps used to secure the fish in connection with commercial fishing operations: Provided, That a marine mammal so taken must immediately be returned to the sea with a minimum of injury and further, that the taking of a marine mammal, which otherwise meets the requirements of this definition shall not be considered an incidental catch of that mammal if it is used subsequently to assist in commercial fishing operations.

Intentional purse seine set means that a tuna purse seine vessel or associated vessels chase marine mammals and subsequently make a purse seine set.

Intrusive research means a procedure conducted for bona fide scientific research involving: A break in or cutting of the skin or equivalent, insertion of an instrument or material into an orifice, introduction of a substance or object into the animal’s immediate environment that is likely either to be ingested or to contact and directly affect
animal tissues (i.e., chemical substances), or a stimulus directed at animals that may involve a risk to health or welfare or that may have an impact on normal function or behavior (i.e., audio broadcasts directed at animals that may affect behavior). For captive animals, this definition does not include:

(1) A procedure conducted by the professional staff of the holding facility or an attending veterinarian for purposes of animal husbandry, care, maintenance, or treatment, or a routine medical procedure that, in the reasonable judgment of the attending veterinarian, would not constitute a risk to the health or welfare of the captive animal; or

(2) A procedure involving either the introduction of a substance or object (i.e., as described in this definition) or a stimulus directed at animals that, in the reasonable judgment of the attending veterinarian, would not involve a risk to the health or welfare of the captive animal.

Kill-per-set means the number of small, toothed cetaceans (marine mammals) killed per purse seine set made involving marine mammals.

Kill-per-ton means the number of small toothed cetacean marine mammals killed per ton of yellowfin tuna caught in sets made on marine mammals.

Label means a display of written, printed, or graphic matter on or affixed to the immediate container of any article.

Land or landing means to begin offloading any fish, to arrive in port with the intention of offloading fish, or to cause any fish to be offloaded.

Large-scale driftnet means a gillnet that is composed of a panel or panels of webbing, or a series of such gillnets, with a total length of 2.5 kilometers or more that is used on the high seas and allowed to drift with the currents and winds for the purpose of harvesting fish by entangling the fish in the webbing of the net.

Level A Harassment means any act of pursuit, torment, or annoyance which has the potential to injure a marine mammal or marine mammal stock in the wild.

Level B Harassment means any act of pursuit, torment, or annoyance which has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering, but which does not have the potential to injure a marine mammal or marine mammal stock in the wild.

Marine environment means the oceans and the seas, including estuarine and brackish waters.

Marine mammal means those specimens of the following orders, which are morphologically adapted to the marine environment, whether alive or dead, and any part thereof, including but not limited to, any raw, dressed or dyed fur or skin: Cetacea (whales and porpoises), Pinnipedia, other than walrus (seals and sea lions).

Native village or town means any community, association, tribe, band, clan or group.

Optimum sustainable population is a population size which falls within a range from the population level of a given species or stock which is the largest supportable within the ecosystem to the population level that results in maximum net productivity. Maximum net productivity is the greatest net annual increment in population numbers or biomass resulting from additions to the population due to reproduction and/or growth less losses due to natural mortality.

Pregnant means pregnant near term.

Pribilovians means Indians, Aleuts, and Eskimos who live on the Pribilof Islands.

Principal investigator means the individual primarily responsible for the taking, importation, export, and any related activities conducted under a permit issued for scientific research or enhancement purposes.

Public display means an activity that provides opportunities for the public to view living marine mammals at a facility holding marine mammals captive.

Purse seine set on common dolphins means a purse seine set in which more
than 50 percent of the marine mammals killed are common dolphins or, in sets with no dolphins killed, more than 50 percent of the dolphins captured are common dolphins.

Regional Director means the Director, Southwest Region, NMFS, 501 W. Ocean Blvd., Long Beach, CA 90802, or his/her designee.

Rehabilitation means treatment of beached and stranded marine mammals taken under section 109(h)(1) of the MMPA or imported under section 109(h)(2) of the MMPA, with the intent of restoring the marine mammal’s health and, if necessary, behavioral patterns.

Secretary shall mean the Secretary of Commerce or his authorized representative.

Sexual harassment means any unwelcome sexual advance, request for sexual favors, or other verbal and physical conduct of a sexual nature which has the purpose or effect of substantially interfering with an individual’s work performance or creating an intimidating, hostile, or offensive working environment.

Soft part means any marine mammal part that is not a hard part. Soft parts do not include urine or fecal material.

South Pacific Ocean means any waters of the Pacific Ocean that lie south of the equator.

Stranded or stranded marine mammal means a marine mammal specimen under the jurisdiction of the Secretary:

(1) If the specimen is dead, and is on a beach or shore, or is in the water within the Exclusive Economic Zone of the United States; or

(2) If the specimen is alive, and is on a beach or shore and is unable to return to the water, or is in the water within the Exclusive Economic Zone of the United States where the water is so shallow that the specimen is unable to return to its natural habitat under its own power.

Subsistence means the use of marine mammals taken by Alaskan Natives for food, clothing, shelter, heating, transportation, and other uses necessary to maintain the life of the taker or those who depend upon the taker to provide them with such subsistence.

Subsistence uses means the customary and traditional uses of fur seals taken by Pribilovians for direct personal or family consumption as food, shelter, fuel, clothing, tools or transportation; for the making and selling of handicraft articles out of nonedible byproducts of fur seals taken for personal or family consumption; and for barter, or sharing for personal or family consumption. As used in this definition—

(1) Family means all persons related by blood, marriage, or adoption, or any person living within a household on a permanent basis.

(2) Barter means the exchange of fur seals or their parts, taken for subsistence uses—

(i) For other wildlife or fish or their parts, or

(ii) For other food or for nonedible items other than money if the exchange is of a limited and noncommercial nature.

Take means to harass, hunt, capture, collect, or kill, or attempt to harass, hunt, capture, collect, or kill any marine mammal. This includes, without limitation, any of the following: The collection of dead animals, or parts thereof; the restraint or detention of a marine mammal, no matter how temporary; tagging a marine mammal; the negligent or intentional operation of an aircraft or vessel, or the doing of any other negligent or intentional act which results in disturbing or molesting a marine mammal; and feeding or attempting to feed a marine mammal in the wild.

Trip means a voyage starting when a vessel leaves port with all fish wells empty of fish and ending when a vessel unloads all of its fish.

Tuna product means any food product processed for retail sale and intended for human or animal consumption that contains an item listed in §216.24(e)(2)(i) or (ii), but does not include perishable items with a shelf life of less than 3 days.

Wasteful manner means any taking or method of taking which is likely to result in the killing of marine mammals beyond those needed for subsistence, subsistence uses, or for the making of authentic native articles of handicrafts.
§ 216.4 Other laws and regulations.

(a) Federal. Nothing in this part, nor any permit issued under authority of this part, shall be construed to relieve a person from any other requirements imposed by a statute or regulation of the United States, including any applicable statutes or regulations relating to wildlife and fisheries, health, quarantine, agriculture, or customs.

(b) State laws or regulations. See part 403 of this chapter.

§ 216.5 Payment of penalty.

The respondent shall have 30 days from receipt of the final assessment decision within which to pay the penalty assessed. Upon a failure to pay the penalty, the Secretary may request the Attorney General to institute a civil action in the appropriate United States District Court to compel forfeiture of such seized property or the monetary value thereof to the Secretary for disposition by him in such manner as he deems appropriate. If no judicial action to compel forfeiture is commenced within 30 days after final decision-making assessment of a civil penalty, pursuant to §216.60, such seized property shall immediately be returned to the respondent.

(e) If the final decision of the Secretary under these regulations is that respondent has committed no violation of the MMPA or of any permit or regulations issued thereunder, any marine mammal, marine mammal product, or other cargo seized from respondent in connection with the proceedings under these regulations, or the bond or other monetary value substituted therefor, shall immediately be returned to the respondent.

(f) If any seized property is to be returned to the respondent, the Regional
Director shall issue a letter authorizing such return. This letter shall be dispatched to the respondent by registered mail, return receipt requested, and shall identify the respondent, the seized property, and, if appropriate, the bailee of the seized property. It shall also provide that upon presentation of the letter and proper identification, the seized property is authorized to be released. All charges for storage, care, or handling of the seized property accruing 5 days or more after the date of the return receipt shall be for the account of the respondent: Provided, That if it is the final decision of the Secretary under these regulations that the respondent has committed the alleged violation, all charges which have accrued for the storage, care, or handling of the seized property shall be for the account of the respondent.

§ 216.7 Holding and bonding.

(a) Any marine mammal, marine mammal product, or other cargo seized pursuant to section 107 of the MMPA shall be delivered to the appropriate Regional Director of the National Marine Fisheries Service (see § 201.2 of this title) or his designee, who shall either hold such seized property or arrange for the proper handling and care of such property.

(b) Any arrangement for the handling and care of seized property shall be in writing and shall state the compensation to be paid. Subpart F of 15 CFR part 904 contains additional procedures that govern seized property that is subject to forfeiture or has been forfeited under the MMPA.

§ 216.12 Prohibited importation.

(a) Except as otherwise provided in subparts C and D of this part 216, it is unlawful for any person to import any marine mammal or marine mammal product into the United States.

(b) Regardless of whether an importation is otherwise authorized pursuant to subparts C and D of this part 216, it is unlawful for any person to import into the United States any:

(i) Marine mammal:

(ii) Taken in violation of the MMPA,

(ii) Taken in another country in violation of the laws of that country;

(2) Any marine mammal product if

(i) The importation into the United States of the marine mammal from which such product is made would be unlawful under paragraph (b)(1) of this section, or

(ii) The sale in commerce of such product in the country of origin if the product is illegal.
§ 216.13

(c) Except in accordance with an exception referred to in subpart C and §§216.31 (regarding scientific research permits only) and 216.32 of this part 216, it is unlawful to import into the United States any:

(1) Marine mammal which was pregnant at the time of taking.

(2) Marine mammal which was nursing at the time of taking, or less than 8 months old, whichever occurs later.

(3) Specimen of an endangered or threatened species of marine mammal.

(4) Specimen taken from a depleted species or stock of marine mammals, or

(5) Marine mammal taken in an inhumane manner.

(d) It is unlawful to import into the United States any fish, whether fresh, frozen, or otherwise prepared, if such fish was caught in a manner proscribed by the Secretary of Commerce for persons subject to the jurisdiction of the United States, whether or not any marine mammals were in fact taken incident to the catching of the fish.

§ 216.14 Marine mammals taken before the MMPA.

(a) Section 102(e) of the MMPA provides, in effect, that the MMPA shall not apply to any marine mammal taken prior to December 21, 1972, or to any marine mammal product, consisting of or composed in whole or in part of, any marine mammal taken before that date. This prior status of any marine mammal or marine mammal product may be established by submitting to the Director, National Marine Fisheries Service prior to, or at the time of importation, an affidavit containing the following:

(1) The Affiant’s name and address;

(2) Identification of the Affiant;

(3) A description of the marine mammals or marine mammal products which the Affiant desires to import;

(4) A statement by the Affiant that, to the best of his knowledge and belief, the marine mammals involved in the application were taken prior to December 21, 1972;

(5) A statement by the Affiant in the following language:

The foregoing is principally based on the attached exhibits which, to the best of my knowledge and belief, are complete, true and correct. I understand that this affidavit is being submitted for the purpose of inducing the Federal Government to permit the importation of—under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 through 1407) and regulations promulgated thereunder, and that any false statements may subject me to the criminal penalties of 13 U.S.C. 1001, or to penalties under the Marine Mammal Protection Act of 1972.

(b) Either one of two exhibits shall be attached to such affidavit, and will contain either:

(1) Records or other available evidence showing that the product consists of or is composed in whole or in part of marine mammals taken prior to the effective date of the MMPA. Such records or other evidentiary material must include information on how, when, where, and by whom the animals...
Subpart C—General Exceptions

§ 216.21 Actions permitted by international treaty, convention, or agreement.

The MMPA and these regulations shall not apply to the extent that they are inconsistent with the provisions of any international treaty, convention or agreement, or any statute implementing the same relating to the taking or importation of marine mammals or marine mammal products, which was existing and in force prior to December 21, 1972, and to which the United States was a party. Specifically, the regulations in subpart B of this part and the provisions of the MMPA shall not apply to activities carried out pursuant to the Interim Convention on the Conservation of North Pacific Fur Seals signed at Washington on February 9, 1957, and the Fur Seal Act of 1966, 16 U.S.C. 1151 through 1187, as in each case, from time to time amended.

§ 216.22 Taking by State or local government officials.

(a) A State or local government official or employee may take a marine mammal in the normal course of his duties as an official or employee, and no permit shall be required, if such taking:

(1) Is accomplished in a humane manner;

(2) Is for the protection or welfare of such mammal or for the protection of the public health or welfare; and

(3) Includes steps designed to insure return of such mammal, if not killed in the course of such taking, to its natural habitat. In addition, any such official or employee may, incidental to such taking, possess and transport, but not sell or offer for sale, such mammal and use any port, harbor, or other place under the jurisdiction of the United States. All steps reasonably practicable under the circumstances shall be taken by any such employee or official to prevent injury or death to the marine mammal as the result of such taking. Where the marine mammal in question is injured or sick, it shall be permissible to place it in temporary

[59 FR 50376, Oct. 3, 1994]
§ 216.22

50 CFR Ch. II (10-1-99 Edition)

captivity until such time as it is able to be returned to its natural habitat. It shall be permissible to dispose of a carcass of a marine mammal taken in accordance with this subsection whether the animal is dead at the time of taking or dies subsequent thereto.

(b) Each taking permitted under this section shall be included in a written report to be submitted to the Secretary every six months beginning December 31, 1973. Unless otherwise permitted by the Secretary, the report shall contain a description of:

(i) The animal involved;
(ii) The circumstances requiring the taking;
(iii) The method of taking;
(iv) The name and official position of the State official or employee involved;
(v) The disposition of the animal, including in cases where the animal has been retained in captivity, a description of the place and means of confinement and the measures taken for its maintenance and care; and
(vi) Such other information as the Secretary may require.

(c) Salvage of dead stranded marine mammals or parts therefrom and subsequent transfer.

(1) Salvage. In the performance of official duties, a state or local government employee; an employee of the National Marine Fisheries Service, the U.S. Fish and Wildlife Service, or any other Federal agency with jurisdiction and conservation responsibilities in marine shoreline areas; or a person authorized under 16 U.S.C. 1362(c) may take and salvage a marine mammal specimen if it is stranded and dead or it was stranded or rescued and died during treatment, transport, captivity or other rehabilitation subsequent to that stranding or distress if salvage is for the purpose of utilization in scientific research or for the purpose of maintenance in a properly curated, professionally accredited scientific collection.

(2) Registration. A person salvaging a dead marine mammal specimen under this section must register the salvage of the specimen with the appropriate Regional Office of the National Marine Fisheries Service within 30 days after the taking or death occurs. The registration must include:

(i) The name, address, and any official position of the individual engaged in the taking and salvage;
(ii) A description of the marine mammal specimen salvaged including the scientific and common names of the species;
(iii) A description of the parts salvaged;
(iv) The date and the location of the taking;
(v) Such other information as deemed necessary by the Assistant Administrator.

(3) Identification and curation. The Regional Director will assign a single unique number to each carcass, and the parts thereof, that are salvaged under the provisions of this section. The person who salvaged the specimen may designate the number to be assigned. After this number is assigned, the person who salvaged the specimen must permanently mark that number on each separate hard part of that specimen and must affix that number with tags or labels to each soft part of that specimen or the containers in which that soft part is kept. Each specimen salvaged under this section must be curated in accordance with professional standards.

(4) No sale or commercial trade. No person may sell or trade for commercial purposes any marine mammal specimen salvaged under this section.

(5) Transfer without prior authorization. A person who salvages a marine mammal specimen under this section may transfer that specimen to another person if:

(i) The person transferring the marine mammal specimen does not receive remuneration for the specimen;
(ii) The person receiving the marine mammal specimen is an employee of the National Marine Fisheries Service, the U.S. Fish and Wildlife Service, or any other Federal agency with jurisdiction and conservation responsibilities in marine shoreline areas; is a person authorized under 16 U.S.C. 1362(c); or is a person who has received prior authorization under paragraph (c)(6) of this section;
(iii) The marine mammal specimen is transferred for the purpose of scientific
research, for the purpose of maintenance in a properly curated, professionally accredited scientific collection, or for educational purposes;

(iv) The unique number assigned by the National Marine Fisheries Service is on, marked on, or affixed to the marine mammal specimen or container; and

(v) Except as provided under paragraph (c)(8) of this section, the person transferring the marine mammal specimen notifies the appropriate Regional Office of the National Marine Fisheries Service of the transfer, including notification of the number of the specimen transferred and the person to whom the specimen was transferred, within 30 days after the transfer occurs.

(6) Other transfers within the United States. Except as provided under paragraphs (c)(5) and (c)(8) of this section, a person who salvages a marine mammal specimen, or who has received a marine mammal specimen, or who has received a marine mammal specimen under the provisions of this section, may not transfer that specimen to another person within the United States unless the Regional Director of the appropriate Regional Office of the National Marine Fisheries Service grants prior written authorization for the transfer. The Regional Director may grant authorization for the transfer if there is evidence that the conditions listed under paragraphs (c)(5)(i), (c)(5)(iii), and (c)(5)(iv) of this section are met.

(7) Transfers outside of the United States. A person who salvages a marine mammal specimen, or a person who has received a marine mammal specimen under the provisions of this section, may not transfer that specimen to a person outside of the United States unless the Assistant Administrator grants prior written authorization for the transfer. The Assistant Administrator may grant authorization for the transfer if there is evidence that the conditions listed under paragraphs (c)(5)(i), (c)(5)(iii), and (c)(5)(iv) of this section are met.

(8) Exceptions to requirements for notification or prior authorization. A person may transfer a marine mammal specimen salvaged under this section without the notification required in paragraph (c)(5)(v) of this section or the prior authorization required in paragraph (c)(6) of this section if:

(i) The transfer is a temporary transfer to a laboratory or research facility within the United States so that analyses can be performed for the person salvaging the specimen; or

(ii) The transfer is a loan of not more than 1 year to another professionally accredited scientific collection within the United States.

§ 216.23 Native exceptions.

(a) Taking. Notwithstanding the prohibitions of subpart B of this part 216, but subject to the restrictions contained in this section, any Indian, Aleut, or Eskimo who resides on the coast of the North Pacific Ocean or the Arctic Ocean may take any marine mammal without a permit, if such taking is:

(1) By Alaskan Natives who reside in Alaska for subsistence, or

(2) For purposes of creating and selling authentic native articles of handicraft and clothing, and

(3) In each case, not accomplished in a wasteful manner.

(b) Restrictions. (1) No marine mammal taken for subsistence may be sold or otherwise transferred to any person other than an Alaskan Native or delivered, carried, transported, or shipped in interstate or foreign commerce, unless:

(i) It is being sent by an Alaskan Native directly or through a registered tannery to a tannery registered under paragraph (c) of this section for the purpose of processing, and will be returned directly or through a registered tannery to the Alaskan Native; or

(ii) It is sold or transferred to a registered agent in Alaska for resale or transfer to an Alaskan Native; or

(iii) It is an edible portion and it is sold in an Alaskan Native village or town.

(2) No marine mammal taken for purposes of creating and selling authentic native articles of handicraft and clothing may be sold or otherwise transferred to any person other than an Indian, Aleut or Eskimo, or delivered, carried, transported or shipped in interstate or foreign commerce, unless:

§ 216.23  

(i) It is being sent by an Indian, Aleut or Eskimo directly or through a registered agent to a tannery registered under paragraph (c) of this section for the purpose of processing, and will be returned directly or through a registered agent to the Indian, Aleut or Eskimo; or

(ii) It is sold or transferred to a registered agent for resale or transfer to an Indian, Aleut, or Eskimo; or

(iii) It has first been transformed into an authentic native article of handicraft or clothing; or

(iv) It is an edible portion and sold (A) in an Alaskan Native village or town, or (B) to an Alaskan Native for his consumption.

(c) Any tannery, or person who wishes to act as an agent, within the jurisdiction of the United States may apply to the Director, National Marine Fisheries Service, U.S. Department of Commerce, Washington, DC 20235, for registration as a tannery or an agent which may possess and process marine mammal products for Indians, Aleuts, or Eskimos. The application shall include the following information:

(i) The name and address of the applicant;

(ii) A description of the applicant's procedures for receiving, storing, processing, and shipping materials;

(iii) A proposal for a system of bookkeeping and/or inventory segregation by which the applicant could maintain accurate records of marine mammals received from Indians, Aleuts, or Eskimos pursuant to this section;

(iv) Such other information as the Secretary may request;

(v) A certification in the following language:

I hereby certify that the foregoing information is complete, true and correct to the best of my knowledge and belief. I understand that this information is submitted for the purpose of obtaining the benefit of an exception under the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 through 1407) and regulations promulgated thereunder, and that any false statement may subject me to the criminal penalties of 18 U.S.C. 1001, or to penalties under the Marine Mammal Protection Act of 1972.

(vi) The signature of the applicant.

The sufficiency of the application shall be determined by the Secretary, and in that connection, he may waive any requirement for information, or require any elaboration or further information deemed necessary. The registration of a tannery or other agent shall be subject to such conditions as the Secretary prescribes, which may include, but are not limited to, provisions regarding records, inventory segregation, reports, and inspection. The Secretary may charge a reasonable fee for processing such applications, including an appropriate apportionment of overhead and administrative expenses of the Department of Commerce.

(d) Notwithstanding the preceding provisions of this section, whenever, under the MMPA, the Secretary determines any species of stock of marine mammals to be depleted, he may prescribe regulations pursuant to section 103 of the MMPA upon the taking of such marine animals by any Indian, Aleut, or Eskimo and, after promulgation of such regulations, all takings of such marine mammals shall conform to such regulations.

(e) Marking and reporting of Cook Inlet Beluga Whales. (1) Definitions. In addition to definitions contained in the MMPA and the regulations in this part:

(i) Reporting means the collection and delivery of biological data, harvest data, and other information regarding the effect of taking a beluga whale (Delphinapterus leucas) from Cook Inlet, as required by NMFS.

(ii) Whaling captain or vessel operator means the individual who is identified by Alaskan Natives as the leader of each hunting team (usually the other crew on the boat) and who is the whaling captain; or the individual operating the boat at the time the whale is harvested or transported to the place of processing.

(iii) Cook Inlet means all waters of Cook Inlet north of 59° North latitude, including, but not limited to, waters of Kachemak Bay, Kamishak Bay, Chinitna Bay, and Tuxedni Bay.

(2) Marking. Each whaling captain or vessel operator, upon killing and landing a beluga whale (Delphinapterus leucas) from Cook Inlet, Alaska, must remove the lower left jawbone, leaving the teeth intact and in place. When multiple whales are harvested during one hunting trip, the jawbones will be
marked for identification in the field to ensure correct reporting of harvest information by placing a label marked with the date, time, and location of harvest within the container in which the jawbone is placed. The jawbone(s) must be retained by the whaling captain or vessel operator and delivered to NMFS at the Anchorage Field Office, 222 West 7th Avenue, Anchorage, Alaska 99513 within 72 hours of returning from the hunt.

(3) Reporting. Upon delivery to NMFS of a jawbone, the whaling captain or vessel operator must complete and mail a reporting form, available from NMFS, to the NMFS Anchorage Field Office within 30 days. A separate form is required for each whale harvested.

(i) To be complete, the form must contain the following information: the date and location of kill, the method of harvest, and the coloration of the whale. The respondent will also be invited to report on any other observations concerning the animal or circumstance of the harvest.

(ii) Data collected pursuant to paragraph (e) of this section will be reported on forms obtained from the Anchorage Field Office. These data will be maintained in the NMFS Alaska Regional Office in Juneau, Alaska, where such data will be available for public review.

(4) No person may falsify any information required to be set forth on the reporting form as required by paragraph (e) of this section.

(5) The Anchorage Field Office of NMFS is located in room 517 of the Federal Office Building, 222 West 7th Avenue; its mailing address is: NMFS, Box 43, Anchorage, AK 99513.

§ 216.24 Taking and related acts incidental to commercial fishing operations.

NOTE TO § 216.24: The provisions of 50 CFR part 229, rather than § 216.24, will govern the incidental taking of marine mammals in the course of commercial fishing operations by persons using vessels of the United States, other than vessels used in the eastern tropical Pacific yellowfin tuna purse seine fishery, and vessels which have valid fishing permits issued in accordance with section 204(b) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1824(b)). Other commercial fisheries remain subject to regulations under § 216.24.

(a)(1) No marine mammals may be taken in the course of a commercial fishing operation unless: The taking constitutes an incidental catch as defined in § 216.3, a general permit and certificate(s) of inclusion have been obtained in accordance with these regulations and such taking is not in violation of such permit, certificate(s), and regulations.

(2)(i) It is unlawful for any person using a Class I (400 short tons (362.8 metric tons) carrying capacity or less) or Class II (greater than 400 short tons (362.8 metric tons) carrying capacity, built before 1961) U.S. purse seine fishing vessel on a fishing involving the utilization of purse seines to capture yellowfin tuna, that is not operating under a Category 2 general permit and certificate(s) of inclusion, to carry more than two speedboats if any part of its fishing trip is in the Pacific Ocean area described in the General Permit for gear Category 2 operations.

(ii) It is unlawful for any person using a Class III (greater than 400 short tons (362.8 metric tons) carrying capacity, built after 1960) U.S. purse seine fishing vessel that does not have and operate under a valid operator and vessel certificate of inclusion, to catch, possess, or land tuna from a fishing trip that includes the Pacific Ocean area described in the General Permit for gear Category 2 operations.

(iii) It is unlawful for any person subject to the jurisdiction of the United States to receive, purchase, or possess tuna caught, possessed, or landed in violation of paragraph (a)(2)(ii) of this section.

(iv) It is unlawful for a person subject to the jurisdiction of the United States intentionally to deploy a purse seine net on, or to encircle, dolphins from a vessel operating in the ETP when the DML assigned to that vessel has been reached, or when there is not a DML assigned to that vessel.

(3) Upon written request in advance of entering the General Permit area, the limitation in (a)(2) may be waived by the Director, Southwest Region for the purpose of allowing transit through
§ 216.24

the General Permit area. The waiver will provide in writing the terms and conditions under which the vessel must operate, including a requirement to report by radio to the Director, Southwest Region the vessel's date of exit from or subsequent entry to the permit area, in order to transit the area with more than two speedboats.

(b) [Reserved]

(c) Certificates of inclusion—(1) Vessel certificates of inclusion. The owner or managing owner of a vessel that participates in commercial fishing operations under the ATA permit must hold a valid vessel certificate of inclusion. Such certificates are not transferable and must be renewed annually. If a vessel certificate holder surrenders his/her certificate to the Director, Southwest Region, the certificate shall not be returned nor shall a new certificate be issued before the end of the calendar year. This provision does not apply when a change of vessel ownership occurs.

(2) Operator's certificate of inclusion. The person in charge of and actually controlling fishing operations (hereinafter referred to as the operator) on a vessel engaged in commercial fishing operations under the ATA permit, must hold a valid operator's certificate of inclusion. Such certificates are not transferable, and must be renewed annually. In order to receive a certificate of inclusion, the operator must have satisfactorily completed all required training.

(3) A vessel certificate issued pursuant to paragraph (c)(1) of this section must be on board the vessel while it is engaged in fishing operations and the operator's certificate issued pursuant to paragraph (c)(2) of this section must be in the possession of the operator to whom it was issued. Certificates must be shown upon request to an enforcement agent or other National Marine Fisheries Service (NMFS) designated agent. Vessels and operators at sea on a fishing trip on the expiration date of their certificate of inclusion, to whom or to which a certificate of inclusion for the next year has been issued, may take marine mammals under the terms of the new certificate. A vessel owner or operator is obligated to obtain or place the new certificate on board, as appropriate, when the vessel next returns to port.

(4) Applications. Owners or managing owners of purse seine vessels should make application for vessel certificates of inclusion to the Director, Southwest Region. Applications for vessel certificates of inclusion must contain:

(i) The name of the vessel that is to appear on the certificate(s) of inclusion;

(ii) The category of the general permit under which the applicant wishes to be included;

(iii) The species of fish sought and general area of operations;

(iv) The identity of state and local commercial fishing licenses, if applicable, under which vessel operations are conducted, and dates of expiration;

(v) The name of the operator and date of training, if applicable; and

(vi) The name and signature of the applicant, whether owner or managing owner, address, and if applicable, the organization acting on behalf of the vessel.

(5) Fees. (i) Applications for certificates of inclusion under paragraph (c)(1) of this section must include a fee of $200.00 for each vessel named in the application, unless the applicant's income is below Federal poverty guidelines and the applicant shows in the application that his/her income is below such guidelines, in which case a fee of $20.00 must be included.

(ii) The Assistant Administrator may change the amount of the fee required at any time a different fee is determined to be reasonable, and notification of such change shall be published in the FEDERAL REGISTER.

(6) The Director, Southwest Region shall determine the adequacy and completeness of applications, and upon said determination that such applications are adequate and complete, shall approve such applications and issue the certificate(s).

(7) Failure to comply with provisions of the ATA permit, certificates of inclusion, or these regulations may lead to suspension, revocation, modification, or denial of a certificate of inclusion. It may also subject the certificate holder, vessel, vessel owner, operator, or master to the penalties provided.
under the MMPA. Procedures governing permit sanctions and denials are found at subpart D of 15 CFR part 904.

(8) By using an operator or vessel certificate of inclusion under the ATA permit, the certificate holder authorizes the release to NMFS of all data collected by observers aboard purse seine vessels during fishing trips under the Inter-American Tropical Tuna Commission observer program or any other international observer program in which the United States may participate. The certificate holder must furnish the international observer program all release forms required to provide the observer data to NMFS. Data obtained under such releases will be used for the same purposes as data collected directly by observers placed by the NMFS and will be subject to the same standards of confidentiality.

(d) Terms and conditions of certificates under general permits shall include, but are not limited to the following:

(1) [Reserved]

(2) Encircling gear, purse seining involving the intentional taking of marine mammals—(i) Quotas:

(A) A certificated vessel may take marine mammals only if the taking is an incidental occurrence in the course of normal commercial tuna purse seine fishing operations, and the fishing operations are under the immediate direction of a person who is the holder of a valid operator’s certificate of inclusion, subject to the following conditions:

(1) [(Reserved)

(2) [Reserved]

(3) No purse seine net may be deployed on or used to encircle any school of dolphins in which any eastern spinner dolphin (Stenella longirostris), coastal spotted dolphin (Stenella attenuata), or, in the area from 40° N. lat. to 5° N. lat. and from 120° W. long. to the coastline of Central and South America, any offshore spotted dolphin (Stenella attenuata), are observed in the school prior to the release of the net skiff.

(B) The incidental mortality of marine mammals permitted under the general permit for each category will be monitored according to the methodology published in the Federal Register. The Assistant Administrator shall determine on the basis of the evidence available to him the date upon which the allowable quotas will be reached or exceeded. Notice of the Assistant Administrator’s determination shall be published in the Federal Register not less than seven days prior to the effective date.

(C) Except for the coastal spotted dolphin stock and the eastern spinner dolphin stock, if at the time the net skiff attached to the net is released from the vessel at the start of a set, and species or stocks that are prohibited from being taken are not reasonably observable, the fact that individuals of that species or stock are subsequently taken will not be cause for issuance of a notice of violation provided that all procedures required by the applicable regulations have been followed.

(D) The general permit is valid until surrendered by the permit holder or suspended or terminated by the Assistant Administrator provided the permittee and certificate holders under this part continue to use the best marine mammal safety techniques and equipment that are economically and technologically practicable. The Assistant Administrator may, upon receipt of new information which in his opinion is sufficient to require modification of the general permit or regulations, propose to modify such after consultation with the Marine Mammal Commission. These modifications must be consistent with and necessary to carry out the purposes of the MMPA. Any modifications proposed by the Assistant Administrator involving changes in the quotas will include the statements required by section 103(d) of the MMPA. Modifications will be proposed in the Federal Register and a public comment period will be allowed. At the request of any interested person within 15 days after publication of the proposed modification in the Federal Register, the Assistant Administrator may hold a public hearing to receive and evaluate evidence in those circumstances where he has determined it to be consistent with and necessary to carry out the purposes of the MMPA. Such request may be for a formal hearing on the record before an Administrative Law Judge. Within 10 days after
§ 216.24

receipt of the request for a public hearing, the Assistant Administrator will provide the requesting party or parties with his decision. If a request is denied, the Assistant Administrator will state the reasons for the denial. Within 10 days after receipt of a decision denying a request for a formal hearing, the requesting person may file a written notice of appeal with the Administrator. Based upon the evidence presented in the notice, the Administrator will render a decision within 20 days from receipt of the notice.

(ii) General conditions:
(A) Marine mammals incidentally taken must be immediately returned to the environment where captured without further injury. The operators of purse seine vessels must take every precaution to refrain from causing or permitting incidental mortality or serious injury of marine mammals. Live marine mammals must not be brailed or hoisted onto the deck during ortza retrieval.

(B) Operators may take such steps as are necessary to protect their gear or person from damage or threat of personal injury. However, all marine mammals taken in the course of commercial fishing operations shall be subject to the definition of “incidental catch” in §216.3 of this part and may not be retained except where a specific permit has been obtained authorizing the retention.

(C) The vessel certificate holder shall notify the Director, Southwest Region of any change of vessel operator within at least 48 hours prior to departing on the next scheduled trip.

(iii) Reporting requirements: In accordance with §216.24(f) of these regulations, the following specific reporting procedures shall be required:

(A) The vessel certificate holder of each certificated vessel, who has been notified via certified letter from NMFS that his/her vessel is required to carry an observer, shall notify the Director, Southwest Region at least 5 days in advance of the vessel’s departure on a fishing voyage to allow for observer placement. After a fishing voyage is initiated, the vessel is obligated to carry an observer until the vessel returns to port and one of the following conditions is met:

1. Unloads more than 400 tons of any species of tuna; or
2. Unloads any amount of any species of tuna equivalent to one half of the vessel’s carrying capacity; or
3. Unloads its tuna catch after 40 days or more at sea from the date of departure.

Further, the Director, Southwest Region, may consider special circumstances for exemptions to this definition, provided written requests clearly describing the circumstances are received prior to the termination of a fishing voyage. A response to the written request will be made by the Director, Southwest Region within five (5) days after receipt of the request. A vessel whose vessel certificate holder has failed to comply with the provisions of this section may not engage in fishing operations for which a general permit is required.

(B) [Reserved]

(C) The Director, Southwest Region, will provide to the public, periodic quota status reports summarizing the estimated incidental porpoise mortality by U.S. vessels of individual species and stock.

(iv) A vessel having a vessel certificate issued under paragraph (c)(1) may not engage in fishing operations for which a general permit is required unless it is equipped with a porpoise safety panel in its purse seine, and has and uses the other required gear, equipment, and procedures.

(A) Class I and II Vessels: For Class I purse seiners (400 short tons carrying capacity or less) and for Class II purse seiners (greater than 400 short tons carrying capacity, built before 1961), the porpoise safety panel must be a minimum of 100 fathoms in length (as measured before installation), except that the minimum length of the panel in nets deeper than 10 strips must be determined at a ratio of 10 fathoms in length for each strip that the net is deep. It must be installed so as to protect the perimeter of the backdown area. The perimeter of the backdown area is the length of the corkline which begins at the outboard end of the last bow bunch pulled and continues to at least two-thirds the distance from the backdown channel apex to the stern tiedown point. The porpoise safety
panel must consist of small mesh webbing not to exceed 1 1/4" stretch mesh, extending from the corkline downward to a minimum depth equivalent to one strip of 100 meshes of 4 1/2" stretch mesh webbing. In addition, at least a 20-fathom length of corkline must be free from bunchlines at the apex of the backdown channel.

(B) Class III Vessels: For Class III purse seiners (greater than 400 short tons carrying capacity, built after 1960), the porpoise safety panel must be a minimum of 180 fathoms in length (as measured before installation), except that the minimum length of the panel in nets deeper than 18 strips must be determined in a ratio of 10 fathoms in length for each strip of net depth. It must be installed so as to protect the perimeter of the backdown area. The perimeter of the backdown area is the length of corkline which begins at the outboard end of the last bowbunch pulled and continues to at least two-thirds the distance from the backdown channel apex to the stern tiedown point. The porpoise safety panel must consist of small mesh webbing not to exceed 1 1/4" stretch mesh extending downward from the corkline and, if present, the base of the porpoise apron to a minimum depth equivalent to two strips of 100 meshes of 4 1/2" stretch mesh webbing. In addition, at least a 20-fathom length of corkline must be free from bunchlines at the apex of the backdown channel.

(C) Porpoise safety panel markers: Each end of the porpoise safety panel and porpoise apron shall be identified with an easily distinguishable marker.

(D) Porpoise safety panel hand holds: Throughout the length of the corkline under which the porpoise safety panel and porpoise apron are located, hand hold openings are to be secured so that the insertion of a 1 1/8" diameter cylindrical-shaped object meets resistance.

(E) Porpoise safety panel corkline hangings: Throughout the length of the corkline under which the porpoise safety panel and porpoise apron are located, corkline hangings shall be inspected by the vessel operator following each trip. Hangings found to have loosened to the extent that a cylindrical object with a 1 1/8" diameter cannot meet resistance when inserted between the cork and corkline hangings, must be tightened so that a cylindrical object with a 1 1/8" diameter cannot be inserted.

(F) Speedboats: Certificated vessels engaged in fishing operations involving setting on marine mammals shall carry a minimum of two speedboats in operating condition. All speedboats carried aboard purse seine vessels and in operating condition shall be rigged with towing bridles and towlines. Speedboat hoisting bridles shall not be substituted for towing bridles.

(G) Raft: A raft suitable to be used as a porpoise observation-and-rescue platform shall be carried on all certificated vessels.

(H) Facedmask and snorkel, or viewbox: At least two facemasks and snorkels, or viewboxes, must be carried on all certificated vessels.

(I) Lights: All certificated vessels shall be equipped by July 1, 1986, with lights capable of producing a minimum of 140,000 lumens of output for use in darkness to ensure sufficient light to observe that procedures for porpoise release are carried out and to monitor incidental porpoise mortality.

(v) Vessel inspection: (A) Annual: At least once during each calendar year, purse seine nets and other gear and equipment required by these regulations shall be made available for inspection by an authorized National Marine Fisheries Service Inspector as specified by the Director, Southwest Region.

(B) Reinspection: Purse seine nets and other gear and equipment required by these regulations shall be made available for reinspection by an authorized National Marine Fisheries Service Inspector as specified by the Director, Southwest Region. The vessel certificate holder shall notify the Director, Southwest Region of any net modification at least 5 days prior to departure of the vessel in order to determine whether a reinspection or trial set is required.

(C) Upon failure to pass an inspection or reinspection, a vessel having a vessel certificate of inclusion issued under paragraph (c)(1) may not engage in fishing operations for which a general
permit is required until the deficiencies in gear or equipment are corrected as required by an authorized National Marine Fisheries Service inspector.

(vi) Operator training requirements. All operators shall maintain proficiency sufficient to perform the procedures required herein, and must attend and satisfactorily complete a formal training session conducted under the auspices of the National Marine Fisheries Service in order to obtain their certificate of inclusion. At the training session an attendee shall be instructed concerning the provisions of the Marine Mammal Protection Act of 1972, the regulations promulgated pursuant to the MMPA, and the fishing gear and techniques which are required or will contribute to reducing serious injury and mortality of porpoise incidental to purse seining for tuna. Operators who have received a written certificate of satisfactory completion of training and who possess a current or previous calendar year certificate of inclusion will not be required to attend additional formal training sessions unless there are substantial changes in the MMPA, the regulations, or the required fishing gear and techniques. Additional training may be required for any operator who is found by the Director, Southwest Region, to lack proficiency in the procedures required.

(vii) Marine mammal release requirements: All operators shall use the following procedures during all sets involving the incidental taking of marine mammals in association with the capture and landing of tuna.

(A) Backdown procedure: Backdown shall be performed following a purse seine set in which marine mammals are captured in the course of catching and landing tuna, and shall be continued until it is no longer possible to remove live marine mammals from the net by this procedure. Thereafter, other release procedures required shall be continued until all live animals have been released from the net.

(B) Prohibited use of sharp or pointed instrument: The use of a sharp or pointed instrument to remove any marine mammal from the net is prohibited.

(C) Sundown sets prohibited. On every set encircling porpoise, the backdown procedure must be completed and rolling of the net to sack-up must be begun before one-half hour after sundown, except as provided below. For the purpose of this section, sundown is defined as the time at which the upper edge of the sun disappears below the horizon or, if view of the sun is obscured, the local time of sunset calculated from tables developed by the U.S. Naval Observatory. A sundown set is a set in which the backdown procedure has not been completed and rolling the net to sack-up has not begun within one-half hour after sundown. Should a set extend beyond one-half hour after sundown, the operator must use the required marine mammal release procedures including the use of the high intensity lighting system.

(1) A certificated operator may obtain an initial waiver from this prohibition, for trips with an observer, by establishing to the satisfaction of the Director, Southwest Region, NMFS, based upon NMFS and Inter-American Tropical Tuna Commission (IATTC) observer records, that the operator’s average kill of marine mammals per set in sundown sets involving marine mammals was 3.01 marine mammals or fewer.

(i) The application must include the following:

(A) Name of the operator as it appears on the certificate of inclusion;

(B) The dates of all observed trips any part of which occurred since July 1, 1986 and observed trips before that date, if necessary to include a minimum of three observed sundown sets;

(C) Names of the vessels operated during those trips;

(D) The number of marine mammals killed in sundown sets and the number of sundown sets involving marine mammals;

(E) Detailed description of the circumstances that support any request that the mortality associated with a particular sundown set be excluded from consideration; and

(F) The operator’s signature or the signature of an individual authorized by the operator to make the application in the operator’s absence.
(ii) All sundown sets since July 1, 1986 will be considered for this determination, except that the Director, Southwest Region will exclude one sundown set from each twelve month period from the calculations of average kill if the operator establishes to the satisfaction of the Director, Southwest Region that the kill in that sundown set was due to an unforeseeable equipment malfunction that could not have been avoided by reasonable diligence in operating or maintaining the vessel.

(ii) An operator must have a minimum of five observed sundown sets for the Director, Southwest Region to consider in determining whether or not the operator qualifies for an exemption. If an operator does not have five observed sundown sets since July 1, 1986, the Director, Southwest Region will consider records from observed trips before that date, starting with the most recent observed trip during which a sundown set was made and reviewing as many trips as necessary to obtain at least five sundown sets for consideration.

(2) An operator fishing under an exemption from the sundown set prohibition must follow the marine mammal release requirements, including the use of high intensity lights for sets that continue one-half hour past sundown.

(3) An operator exemption is valid for one calendar year only on trips carrying a NMFS or IATTC observer and expires on December 31, unless renewed by the Director, Southwest Region.

(4) An exemption will be reviewed annually between November 1 and December 15 and the exemption will not be renewed if the operator’s average mortality in sundown sets during trips completed in the previous twelve month period ending November 1 exceeds the United States fleet’s average mortality rate in daylight sets for all of the observed trips completed in the same period.

(5) An operator who is notified that his or her exemption will not be renewed, or who anticipates not getting renewed, may petition the Director, Southwest Region in writing to reinstate the exemption based on excluding from the calculations one set where an unforeseeable equipment malfunction caused mortality in a sundown set that could not have been avoided by reasonable diligence in operating or maintaining the vessel. The Director, Southwest Region will reinstate the exemption if the evidence supports excluding the set and if the resulting re-calculation of the operator’s performance meets the standard required by these regulations.

(D) Porpoise Safety Panel: During backdown, the porpoise safety panel must be positioned so that it protects the perimeter of the backdown area. The perimeter of the backdown area is the length of corkline which begins at the outboard end of the last bow bunch pulled and continues to at least two-thirds the distance from the backdown channel apex to the stern tiedown point. Any super apron must be positioned at the apex of the backdown channel.

(E) Use of explosive devices: The use of explosive devices is prohibited in all tuna purse seine operations that involve marine mammals.

(viii) Experimental fishing operations: The Assistant Administrator may authorize experimental fishing operations and may waive, as appropriate, any requirements within §216.24(d)(2), except quotas on the incidental kill of marine mammals and the prohibition on setting nets on pure schools of certain porpoise species.

(A) A vessel certificate holder may apply for an experimental fishing operation waiver by submitting the following information to the Assistant Administrator no less than 90 days before the intended date the proposed operation is intended to begin:

(1) Name(s) of the vessel(s) and the vessel certificate holder(s) to participate;

(2) A statement of the specific vessel gear and equipment or procedural requirement to be exempted and why such an exemption is necessary to conduct the experiment;

(3) A description of how the proposed modification to the gear or procedures is expected to reduce incidental mortalities or serious injury of marine mammals;

(4) A description of the applicability of this modification to other purse seine vessels;
§ 216.24

(5) Planned design, time, duration, and general area of the experimental operation;

(6) Name(s) of the certificated operator(s) of the vessel(s) during the experiment;

(7) A statement of the qualifications of the individual or company doing the analysis of the research.

(B) The Assistant Administrator will acknowledge receipt of the application and, upon determining that it is complete, publish notice in the Federal Register summarizing the application, making the full application available for inspection and inviting comments for a minimum period of thirty days from the date of publication.

(C) The Assistant Administrator, after considering the information identified in paragraph (d)(2)(viii)(A) of this section and the comments received, will deny the application giving the reasons for denial or issue a permit to conduct the experiment including restrictions and conditions as deemed appropriate.

(D) The permit for an experimental fishing operation will be valid only for the vessels and operators named in the permit, for the time period and areas specified, for trips carrying an observer assigned by the NMFS, and when all the terms and conditions of the permit are met.

(E) The Assistant Administrator may suspend or revoke an experimental fishing permit by written notice to the permit holder if the terms and conditions of the permit or the provisions of the regulations are not followed, after providing an opportunity for the permit holder to discuss the proposed suspension or revocation.

(ix) Operator Certificate of Inclusion Holder Performance Requirements. (A) The certificate of inclusion of any operator who makes one or more purse seine sets on marine mammals resulting in an average kill-per-set for a fishing trip which exceeds 26.30 marine mammals is suspended. Such suspension shall be effective upon notification by the Director, Southwest Region and shall be for a period of one year. If the operator's average mortality rate exceeds 26.30 marine mammals kill-per-set on a subsequent trip within five years of the second reinstatement, the certificate is revoked. The revocation shall be effective upon notification by the Director, Southwest Region and shall be permanent. An operator who is subject to a suspension or revocation under this paragraph may petition the Director, Southwest Region to review the operator's marine mammal mortality history. The Director, Southwest Region may reinstate the operator's certificate if the operator demonstrates that the operator has not exceeded a kill-per-set of 3.89 marine mammals during any of the eight consecutive observed trips immediately preceding the trip which caused the suspension. However, that trip will be considered as a single trip exceeding a kill-per-set of 3.89 marine mammals and subject to the conditions described in paragraph (d)(2)(ix)(F) of this section. The Director, Southwest Region may exclude from the mortality calculation for a trip, those purse seine sets in which marine mammal mortality resulted from an unavoidable and unforeseeable equipment breakdown. The mortality rate calculated after exclusion of a set or sets under this paragraph will determine the action taken under this performance evaluation system.

(B) Fishing trips with five or fewer sets on marine mammals and an average kill-per-set less than or equal to 26.30 marine mammals are not subject to further action under the operator performance system. Such trips neither count as trips meeting the performance standard nor count as trips failing to meet the performance standard for the purpose of determining actions based on performance in consecutive fishing trips.

(C) Fishing trips with more than five sets on marine mammals resulting in an average kill-per-set less than or equal to 26.30 marine mammals are subject to review under the operator performance system as follows:

(1) The operator's kill of marine mammals in purse seine sets on marine
mammals will be determined from observer records.

(2) The kill-per-set will be determined by dividing the total kill of marine mammals by the number of sets involving marine mammals during the fishing trip.

(3) If the calculated kill-per-set for the trip is equal to or less than 3.89 marine mammals, the operator has met the performance standard and is not subject to further action under the performance system.

(4) If the calculated kill-per-set for the trip exceeds 3.89 marine mammals, the operator failed to meet the mortality performance standard and is subject to further action under the performance system.

(D) The Director, Southwest Region may exclude from the mortality calculation for a trip, those purse seine sets in which marine mammal mortality resulted from an unavoidable and unforeseeable equipment breakdown. Should exclusion of a set or sets cause the operator’s performance to fall within the standard performance, that trip will not be counted as a trip for the purposes of the performance evaluation system.

(E) An operator shall not serve as a certificated operator until the Director, Southwest Region has determined under this subpart and notified the operator that the operator’s marine mammal mortality rate performance met or failed to meet the applicable performance standard on the previous observed trip. The Director, Southwest Region will make the determination within five days (excluding Saturdays, Sundays and Federal holidays) after receiving the observer data from the trip.

(F) An operator whose average marine mammal mortality rate exceeds 3.89 kill-per-set for a trip must have observer data and other pertinent records reviewed by the Director, Southwest Region and the Porpoise Rescue Foundation for the purpose of determining the causes of higher than acceptable mortality, must participate in supplemental marine mammal safety training as ordered by the Director, Southwest Region and must comply with actions for reducing marine mammal mortality which may be ordered by the Director, Southwest Region. The operator must carry an observer on the next trip for which he serves as the certificated operator. If the Director, Southwest Region determines that the required training or other ordered action has not been completed satisfactorily or is refused, the Director, Southwest Region will suspend the operator’s certificate of inclusion for one year.

(G) An operator whose average marine mammal mortality rate exceeds 3.89 marine mammals killed per set on two consecutive trips or on three trips ending within a period of twenty-four months or on three trips within eight consecutive trips must have observer data and other pertinent records reviewed by the Director, Southwest Region and the Porpoise Rescue Foundation for the purpose of determining the causes of higher than acceptable mortality, must participate in supplemental marine mammal safety training as ordered by the Director, Southwest Region and must comply with actions for reducing marine mammal mortality which may be ordered by the Director, Southwest Region. The operator must carry an expert fisherman (i.e., an experienced vessel operator with a history of low dolphin mortality), if required to do so by the Director, Southwest Region, to assist in perfecting marine mammal safety techniques, and must also carry an observer on the next trip for which he serves as the certificated operator. The selection of the expert fisherman will be provided by the General Permit holder or the Porpoise Rescue Foundation and subject to the approval of the Director, Southwest Region. If the Director, Southwest Region determines that the required training or other ordered action has not been completed satisfactorily or is refused, the Director, Southwest Region will suspend the operator’s certificate of inclusion for one year.

(H) The operator certificate of inclusion or an operator whose average marine mammal mortality rate exceeds 3.89 kill-per-set on three consecutive trips, or on any four trips (of which no more than two are consecutives) completed within a period of twenty-four months or on four trips (of which no
more than two are consecutive) within eight consecutively observed trips, is suspended upon notification to the operator from the Director, Southwest Region.

(I) Following a suspension and a reinstatement of a certification of inclusion, the operator certificate of inclusion is suspended for any operator whose average marine mammal mortality rate exceeds 3.89 marine mammals killed per set on any subsequent trip as required under the criteria for a suspension established in paragraph (d)(2)(ix)(H) of this section. Under this paragraph, trips completed by the operator prior to suspension will be carried over and counted along with trips completed subsequent to the suspension. Such suspension shall be effective upon notification from the Director, Southwest Region and shall be for a period of one year. For purposes of this paragraph only, each suspension under paragraph (d)(2)(ix)(A) of this section will be considered equivalent to and counted as three consecutive trips exceeding the trip kill rate of 3.89 marine mammals killed per set.

(J) An operator may appeal suspension of revocation of a certificate of inclusion under paragraphs (d)(2)(ix)(A), (d)(2)(ix)(H), or (d)(2)(ix)(I) of this section to the Assistant Administrator. Appeals must be filed in writing within 30 days of suspension or revocation and must contain a statement setting forth the basis for the appeal. Appeals must be filed with the Director, Southwest Region. The appeal may be presented at the option of the operator at a hearing before a person appointed by the Assistant Administrator. The appeal must determine, based upon the record, including any record developed at a hearing, if the suspension or revocation is supported under the criteria set forth in these regulations. The decision of the Assistant Administrator will be the final decision of the Department of Commerce.

(K) An operator must carry an observer on the operator’s first trip after a suspension under this performance system has expired. An operator must also participate in supplemental marine mammal safety training and comply with actions for reducing marine mammal mortality as ordered by the Director, Southwest Region before making another trip as a certified operator.

(L) A person obtaining an operator certificate of inclusion for the first time must carry an observer on the operator’s first trip.

(x) Vessel Certificate of Inclusion Holder Performance Requirements—(A) Vessel certificate of inclusion holder desiring a DML for the following year must provide to the Director, Southwest Region, NMFS, 501 W. Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213, by September 1, the name of the purse seine vessel(s) of carrying capacity greater than 400 short tons (362.8 mt) that the owner thinks will intentionally deploy purse seine fishing nets in the ETP to encircle dolphins in an effort to capture tuna during that year. NMFS will forward the list of purse seine vessels to the Director of the IATTC on or before October 1, or as required by the IATTC, for assignment of a DML for the following year.

(B) Each vessel certificate of inclusion holder that desires a DML for the period July 1 to December 31 for a vessel that has not previously had a DML assigned for the year, must provide to the Director, Southwest Region, NMFS, 501 W. Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213, by March 15, the name of the purse seine vessel(s) of carrying capacity greater than 400 short tons (362.8 mt) that the owner thinks will intentionally deploy purse seine fishing nets in the ETP to encircle dolphins in an effort to capture tuna during the period. NMFS will forward the list of purse seine vessels to the Director of the IATTC on or before October 1, or as required by the IATTC, for assignment of a DML for the following year.

Under the Agreement adopted at the Annual Meeting of the IATTC June 16-18, 1992, the DML shall be assigned from the unutilized pool of DMLs described under paragraph (d)(2)(ix)(D) of this section, divided among the applicants for the 6-month period, and shall not exceed 50 percent of the DML assigned to a vessel in the fishery with a DML for the entire year.

(C)(1) NMFS will notify vessel owners of the DML assigned for each vessel for
the following year as determined by the IATTC.

(2) NMFS may adjust the DMLs, either upward or downward with 15 percent of the original DML, except that the adjusted DMLs for the U.S. fleet will not exceed the original total of the DMLs for the U.S. fleet as assigned by the IATTC. All adjustments shall be made prior to December 1, and NMFS shall notify the IATTC prior to December 15. DMLs as assigned on December 1 will be applicable to the following year.

(3) NMFS may make an adjustment of a vessel’s DMLs if it will further scientific or technological advancement in the protection of marine mammals in the fishery, or if the past performance of the vessel indicates that the protection or use of the yellowfin tuna stocks or marine mammals is best served by the adjustment, within the mandates of the MMPA. Experimental fishing operation waivers or scientific research permits shall be considered a basis for adjustments.

(D)(1) Any vessel assigned a DML that does not participate by June 1 in this fishery by operating under valid certificates of inclusion, or that leaves the fishery, shall lose its right to utilize its DML for the remainder of the year.

(2) NMFS will determine, based on the available information, whether a vessel has left the fishery. A vessel lost at sea, undergoing extensive repairs, operating in an ocean area other than the ETP, or for which other information indicates will no longer be conducting purse seine operations in the ETP for the remainder of the period, shall be determined to have left the fishery. NMFS will make all reasonable efforts to determine the intentions of the vessel owner, and the owner of any vessel that has been preliminarily determined to have left the fishery will be provided notice of such preliminary determination and the opportunity to provide information on whether the vessel has left the fishery before NMFS makes a final determination and notifies the IATTC of this determination. The vessel owner will receive written notification of NMFS’ final determination.

(E) Any unused DML for a vessel that has been determined to have left the fishery will be returned to the IATTC, to be added to the pool of unutilized DMLs.

(F)(1) Any vessel that exceeds its assigned DML, after any applicable adjustment under paragraph (d)(2)(x)(C)(2) of this section, shall have its DML for the subsequent year reduced by the amount of overage.

(G)(1) Sanctions recommended by the Review Panel for any violation of these rules shall be considered by NMFS in its enforcement of these regulations.

(2) Intentionally deploying a purse seine net on or to encircle dolphins after the vessel’s DML is reached will disqualify the vessel from consideration for a DML for the following year. If already assigned, the DMLs for the following year will be withdrawn, and the IATTC notified by NMFS that the DML assigned to that vessel will be unutilized. The vessel owner will be provided an opportunity to provide information and comments on this issue before a final determination is made by NMFS.

3 Encircling gear, purse seining not involving the intentional taking of marine mammals. (i) A certificate holder may take marine mammals so long as such taking is an incidental occurrence in the course of normal commercial fishing operations. Marine mammals taken incidental to commercial fishing operations shall be immediately returned to the environment where captured without further injury.

(ii) A certificate holder may take such steps as are necessary to protect
§ 216.24

his catch, gear, or person from depredation, damage or personal injury without inflicting death or injury to any marine mammal.

(iii) Only after all means permitted by paragraph (d)(3)(ii) of this section have been taken to deter a marine mammal from depredating the catch, damaging the gear, or causing personal injury, may the certificate holder injure or kill the animal causing the depredation or immediate damage, or about to cause immediate personal injury; however, in no event shall a certificate holder kill or injure an Atlantic bottlenosed dolphin, Tursiops truncatus, under the provisions of this paragraph. A certificate holder shall not injure or kill any animal permitted to be killed or injured under this paragraph unless the infliction of such damage is substantial and immediate and is actually being caused at the time such steps are taken. In all cases, the burden is on the certificate holder to report fully and demonstrate that the animal was causing substantial and immediate damage or about to cause personal injury and that all possible steps to protect against such damage or injury as permitted by paragraph (d)(3)(ii) of this section were taken and that such attempts failed.

(iv) Marine mammals taken in the course of commercial fishing operations shall be subject to the provisions of §216.3 with respect to “Incidental catch,” and may be retained except where a specific permit has been obtained authorizing the retention.

(v) All certificate holders shall maintain logs of incidental take of marine mammals in such form as prescribed by the Assistant Administrator. All deaths or injuries to marine mammals occurring in the course of commercial fishing operations under the conditions of a general permit shall be immediately recorded in the log and reported in writing to the Director, Southwest Region, where a certificate application was made, or to an enforcement agent or other designated agent of the National Marine Fisheries Service, at the earliest opportunity but no later than five days after such occurrence, except that if a vessel at sea returns to port later than five days after such occurrence, then it shall be reported within forty-eight hours after arrival in port. Reports must include:

(A) The location, time, and date of the death or injury;

(B) The identity and number of marine mammals killed or injured; and

(C) A description of the circumstances which led up to and caused the death or injury.

(iv) Stationary gear. (i) A certificate holder may take marine mammals so long as such taking is an incidental occurrence in the course of normal commercial fishing operations. Marine mammals taken incidental to commercial fishing operations shall be immediately returned to the environment where captured without further injury.

(ii) A certificate holder may take such steps as are necessary to protect his catch, gear, or person from depredation, damage or personal injury without inflicting death or injury to any marine mammal.

(iii) Only after all means permitted by paragraph (d)(4)(ii) of this section have been taken to deter a marine mammal from depredating the catch, damaging the gear, or causing personal injury, may the certificate holder injure or kill the animal causing the depredation or immediate damage, or about to cause immediate personal injury; however, in no event shall a certificate holder kill or injure an Atlantic bottlenosed dolphin, Tursiops truncatus, under the provisions of this paragraph. A certificate holder shall not injure or kill any animal permitted to be killed or injured under this paragraph unless the infliction of such damage is substantial and immediate and is actually being caused at the time such steps are taken. In all cases, the burden is on the certificate holder to report fully and demonstrate that the animal was causing substantial and immediate damage or about to cause personal injury and that all possible steps to protect against such damage or injury as permitted by paragraph (ii) were taken and that such attempts failed.

(iv) Marine mammals taken in the course of commercial fishing operations shall be subject to the provisions of §216.3 with respect to “Incidental catch,” and may not be retained.
National Marine Fisheries Service/NOAA, Commerce § 216.24

except where a specific permit has been obtained authorizing the retention.

(v) All certificate holders shall maintain logs of incidental take of marine mammals in such form as prescribed by the Assistant Administrator. All deaths or injuries to marine mammals occurring in the course of commercial fishing operations under the conditions of a general permit shall be immediately recorded in the log and reported in writing to the Director, Southwest Region, where a certificate application was made, or to an enforcement agent or other designated agent of the National Marine Fisheries Service, at the earliest opportunity but no later than five days after such occurrence, except that if a vessel at sea returns to port later than five days after such occurrence, then it shall be reported within forty-eight hours after arrival in port. Reports must include:

(A) The location, time, and date of the death or injury;
(B) The identity and number of marine mammals killed or injured; and
(C) A description of the circumstances which led up to and caused the death or injury.

(5) Other gear. (i) A certificate holder may take marine mammals so long as such taking is an incidental occurrence in the course of normal commercial fishing operations. Marine mammals taken incidental to commercial fishing operations shall be immediately returned to the environment where captured without further injury.

(ii) A certificate holder may take such steps as are necessary to protect his catch, gear, or person from depredation, damage or personal injury without inflicting death or injury to any marine mammal.

(iii) Only after all means permitted by paragraph (d)(5)(ii) of this section have been taken to deter a marine mammal from depredating the catch, damaging the gear, or causing personal injury, may the certificate holder injure or kill the animal causing the depredation or immediate damage, or about to cause immediate personal injury; however, in no event shall a certificate holder kill or injure an Atlantic bottlenosed dolphin, *Tursiops truncatus*, under the provisions of this paragraph. A certificate holder shall not injure or kill any animal permitted to be killed or injured under this paragraph unless the infliction of such damage is substantial and immediate and is actually being caused at the time such steps are taken. In all cases, the burden is on the certificate holder to report fully and demonstrate that the animal was causing substantial and immediate damage or about to cause personal injury and that all possible steps to protect against such damage or injury as permitted by paragraph (d)(5)(ii) of this section were taken and that such attempts failed.

(iv) Marine mammals taken in the course of commercial fishing operations shall be subject to the provisions of § 216.3 with respect to "Incidental catch," and may not be retained except where a specific permit has been obtained authorizing the retention.

(v) All certificate holders shall maintain logs of incidental take of marine mammals in such form as prescribed by the Assistant Administrator. All deaths or injuries to marine mammals occurring in the course of commercial fishing operations under the conditions of a general permit shall be immediately recorded in the log and reported in writing to the Director, Southwest Region, where a certificate application was made, or to an enforcement agent, or other designated agent of the National Marine Fisheries Service, at the earliest opportunity but no later than five days after such occurrence, except that if a vessel at sea returns to port later than five days after such occurrence, then it shall be reported within forty-eight hours after arrival in port. Reports must include:

(A) The location, time, and date of the death or injury;
(B) The identity and number of marine mammals killed or injured; and
(C) A description of the circumstances which led up to and caused the death or injury.

(vi) [Reserved]

(vii) The number of Dall's porpoise (*Phocoenoides dalli*) killed or injured by Japanese vessels operating in the U.S. EEZ is limited to an aggregate of 789 in the Bering Sea and 5250 in the North Pacific Ocean over the period 1987 to 1989, of which no more than 448 may be taken from the Bering Sea and no more
than 2494 may be taken from the North Pacific Ocean in any single calendar year. The incidental take levels authorized by this subpart are reduced proportionately in the event that the Soviet Union reduces salmon quotas for 1988 or 1989 by more than 10 percent from the 1987 quota. Any permit issued under this part must indicate the measures by which the permit holder must comply with the conditions attached to the permit, and the reporting requirements of paragraph (d)(5)(v) of this section. Any permit issued under this part may allow retention of marine mammals for scientific purposes and will not require a separate permit under paragraph (d)(5)(iv) of this section.

(6) Commercial passenger fishing vessels (CPFV). (i) A certificate holder aboard the vessel may take marine mammals so long as the taking is limited to harassment and is an incidental occurrence in the course of the active sportfishing subject to the following restrictions (paragraphs (d)(6) (ii) through (vi) of this section).

(ii) Takings are prohibited within 500 yards of a pinniped rookery or haul-out site.

(iii) A certificate holder aboard the CPFV must use only those non-lethal, non-injurious methods not including capture as approved in advance by the Assistant Administrator for Fisheries through publication in the FEDERAL REGISTER and stipulated in the General Permit for taking marine mammals.

(iv) Takings are allowed only while engaged in active sportfishing to prevent imminent marine mammal approaches to the vessel or to protect a passenger’s catch or gear from depredation or damage, without inflicting death or injury to any marine mammal.

(v) All operators must ensure the safe use of the approved methods for preventing marine mammal sportfishing interaction and must satisfactorily complete such training as may be required by the Assistant Administrator for Fisheries.

(vi) All certificate holders must maintain records of incidental take of marine mammals in such form as prescribed by the Assistant Administrator for Fisheries. All incidents involving harassment of marine mammals must be immediately recorded and reported in writing to the Director, Southwest Region to whom the certificate application was made, or to an enforcement agent or other designated agent of the National Marine Fisheries Service, at the earliest opportunity, but no later than five days after such occurrence. At a minimum, reports must include:

(A) The time, date, and location of the taking;

(B) The type of harassment device used, and the number used at each occurrence;

(C) The number and species of affected marine mammals; and

(D) A description of any behavioral changes noted that may be due to using the harassment device.

(e) Importation, purchase, shipment, sale and transport.

(1)(i) It is illegal to import into the United States any fish, whether fresh, frozen, or otherwise prepared, if the fish have been caught with commercial fishing technology that results in the incidental kill or incidental serious injury of marine mammals in excess of what is specified in subsection (e)(5) in the case of fishing for yellowfin tuna.

(ii) For purposes of this paragraph (e), and in applying the definition of an “intermediary nation”, an import occurs when the fish or fish product is released from a nation’s Customs’ custody and enters into the territory of the nation. For other purposes, “import” is defined in §216.3.

(2) The following fish and categories of fish, which the Assistant Administrator has determined may be involved with commercial fishing operations which cause the death or injury of marine mammals, are subject to the requirements of this section:

(i) Tuna: yellowfin. The following U.S. Harmonized Tariff Schedule Item Numbers identify the categories of yellowfin tuna and yellowfin tuna products that are harvested in the ETP purse seine fishery (some of which are also harvested with large-scale driftnet), are imported into the United States, and are subject to the restrictions of paragraphs (e)(3) and (e)(5) of this section:

32
(A) Tuna, frozen whole or in the round:
0303.42.00.20.0 Tuna, yellowfin, whole frozen.
0303.42.00.6 Tuna, yellowfin, eviscerated head-on, frozen.
0303.42.00.60.1 Tuna, yellowfin, eviscerated head-off, frozen.
0303.40.00.40.9 Tuna, non-specific, frozen.

(B) Tuna, canned:
1604.14.10.00.0 Tuna, non-specific, canned in oil.
1604.14.20.40.0 Tuna, non-specific, canned, not in oil, not over 7kg in quota.
1604.14.30.40.8 Tuna, non-specific, canned, not in oil, not over 7kg over quota.

(C) Tuna, loins:
1604.14.40.00.4 Tuna, non-specific, not in air-tight container, not in oil, over 6.8kg.
1604.14.50.00.1 Tuna, non-specific, not in air-tight container, not in oil, not over 6.8kg.

(ii) Tuna: non-yellowfin. The following U.S. Harmonized Tariff Schedule Item Numbers identify the categories of tuna and tuna products that are harvested with large-scale driftnet and imported into the United States and are subject to the restrictions of paragraph (e)(3) of this section:

(A) Tuna, frozen whole or in the round:
0303.41.00.05.5 Tuna, albacore, frozen.
0303.43.00.00.3 Tuna, skipjack, frozen.
0303.40.00.20.3 Tuna, bluefin, frozen.

(B) Tuna, canned:
1604.14.20.20.4 Tuna, albacore, canned, not in oil, not over 7kg in quota.
1604.14.30.20.2 Tuna, albacore, canned, not in oil, not over 7kg over quota.

(iii) Fish, other than tuna. The following U.S. Harmonized Tariff Schedule Item Numbers identify the categories of fish and fish products that are imported into the United States and are subject to the restrictions of paragraph (e)(3) of this section:

(A) Salmon:
(1) Salmon, frozen whole or in the round:
0303.10.00.12.8 Salmon, chinook, frozen.
0303.10.00.22.6 Salmon, chum, frozen.
0303.10.00.32.4 Salmon, pink, frozen.
0303.10.00.42.2 Salmon, sockeye, frozen.
0303.10.00.52.9 Salmon, coho, frozen.
0303.10.00.62.7 Salmon, Pacific, non-specific, frozen.
0303.21.00.00.9 Trout, frozen.
0303.22.00.00.8 Salmon, Atlantic, Danube, frozen.
0303.29.00.00.1 Salmonidae, non-specific, frozen.
0304.20.60.07.9 Salmonidae, salmon fillet, frozen.
0305.69.40.00.2 Salmon, non-specific, salted.

(2) Salmon, canned:
1604.11.20.20.7 Salmon, pink, canned in oil.
1604.11.20.30.5 Salmon, sockeye, canned in oil.
1604.11.20.90.2 Salmon, non-specific, canned in oil.
1604.11.40.10.5 Salmon, chum, canned, not in oil.
1604.11.40.20.3 Salmon, pink, canned, not in oil.
1604.11.40.30.1 Salmon, sockeye, canned, not in oil.
1604.11.40.40.9 Salmon, non-specific, canned, not in oil.
1604.11.40.50.6 Salmon, non-specific, other.

(B) Squid:
0307.49.00.10.1 Squid, non-specific, fillet, frozen.
0307.49.00.50.2 Squid, non-specific, frozen/dried/salted/brine.
0307.49.00.60.0 Squid, non-specific, & cuttlefish frozen/dried/salted/brine.
1605.90.60.55.9 Squid, non-specific, prepared/preserved.

(C) Shark:
0303.75.00.00.4 Shark, dogfish and other sharks, frozen.
0305.59.20.00.8 Shark fins.

(D) Swordfish:
0303.79.20.40.8 Swordfish, frozen.

(E) Species not specifically identified:
0303.79.40.90.3 Marine fish, non-specific, frozen.
0304.20.66.6 Marine fish, non-specific, fillet blocks frozen over 4.5kg.
0304.20.60.85.4 Marine fish, non-specific, fillet, frozen.
0305.30.60.00.6 Fish, non-specific, fillet dried/salted/brine over 6.8kg.
0305.49.40.40.9 Fish, non-specific, smoked.
0305.59.40.00.4 Fish, non-specific, dried.
0305.69.50.00.9 Fish, non-specific, salted, not over 6.8kg.
0305.69.60.00.7 Fish, non-specific, salted, over 6.8kg.
1604.19.20.00.3 Fish, non-specific, in airtight containers, not in oil.
1604.19.30.00.1 Fish, non-specific, in airtight containers, in oil.

(3)(i) Tuna—(A) All nations. No shipment containing an item listed in paragraphs (e)(2)(i) or (e)(2)(ii) of this section, from any nation, may be imported into the United States unless:
§ 216.24

(1) Accompanied by a completed Fisheries Certificate of Origin described in paragraph (e)(3)(iii) of this section, or, for points of entry where the ABI system is available, the information required for the Certificate may be filed electronically by the ABI system in lieu of the paper form, provided that the electronic filing is made no later than at the time of entry and all documentation in support of the ABI entry is maintained by the importer or broker for not less than 5 years and is kept available for inspection by NMFS personnel upon request;

(2) The tuna or tuna product was not harvested with a large-scale driftnet after July 1, 1991; and

(3) An original invoice accompanies the shipment at the time of importation, or is made available within 30 days of a request by the Secretary to produce the invoice.

(B) Harvesting nations. No shipment containing an item listed in paragraph (e)(2)(i) of this section may be imported into the United States from a harvesting nation subject to paragraph (e)(5)(i) of this section unless a finding required for importation has been made.

(C) Intermediary nations. No shipment containing an item listed in paragraph (e)(2)(ii) of this section may be imported into the United States from an intermediary nation subject to paragraph (e)(5)(xiv) of this section if a ban is currently in force prohibiting the importation.

(D) Harvesting and intermediary nations. No shipment containing an item in paragraph (e)(2)(i) of this section may be imported into the United States from a harvesting nation subject to paragraph (e)(5)(i) of this section unless the necessary findings have been made under both provisions and a ban is not currently in force.

(E) Ocean area where the fish was harvested (ETP, Western Pacific Ocean, South Pacific Ocean, Atlantic Ocean, Caribbean Sea, Indian Ocean, or other);

(F) Type of fishing gear used to harvest the fish (purse seine, longline, bait boat, large-scale driftnet, other type of gillnet, trawl, pole and line, other);

(G) Dates on which the fishing trip began and ended;

(H) If shipment is tuna or products from tuna that were harvested in the

1Copies of the form are available from the Director, Southwest Region (see §216.3).
ETP with a purse seine net, the name of the harvesting vessel; and

(I) For shipments harvested by vessels of a nation known to use large-scale driftnets, as determined by the Secretary pursuant to paragraph (e)(4) of this section, a statement must be included on the Fisheries Certificate of Origin, or by separate attachment, that is dated and signed by a responsible government official of the harvesting nation, certifying that the fish or fish product was harvested by a method other than large-scale driftnet, if the shipment includes:

(1) Tuna or tuna products described in paragraph (e)(2)(i) or (ii) of this section that were harvested on the high seas after July 1, 1991; or

(2) Fish or fish products other than tuna described in paragraph (e)(2)(iii) of this section that were harvested in the South Pacific Ocean after July 1, 1991, or that were harvested anywhere on the high seas after July 1, 1992.

(4) Large-scale driftnet nations. Based upon the best information available, the Assistant Administrator will determine which nations have registered vessels that engage in fishing with large-scale driftnets. Such determinations shall be published in the Federal Register. A responsible government official of any such nation may certify to the Assistant Administrator that none of the nation’s vessels use large-scale driftnets. Upon receipt of the certification, the Assistant Administrator, that none of the nation’s vessels engage in fishing with large-scale driftnets.

(5) Yellowfin tuna. (i) Any tuna or tuna products in the classifications listed in paragraph (e)(2)(i) of this section, from harvesting nations whose vessels of greater than 400 short tons (362.8 mt) carrying capacity operate in the ETP tuna purse seine fishery as determined by the Assistant Administrator may not be imported into the United States unless the Assistant Administrator finds, and publishes such finding in the Federal Register, that:

(A) The government of the harvesting nation has adopted a regulatory program governing the incidental taking of marine mammals in the course of such harvesting that is comparable to the regulatory program of the United States; and

(B) The average rate of incidental mortality by the vessels of the harvesting nation is comparable to the average rate of incidental mortality of marine mammals by U.S. vessels in the course of such harvesting as specified in paragraphs (e)(5)(v)(E) and (e)(5)(v)(F) of this section.

(ii) A harvesting nation which desires an initial finding under these regulations that will allow it to import into the United States those products listed in paragraph (e)(2)(ii) of this section must provide the Assistant Administrator with the following information:

(A) A detailed description of the nation’s regulatory and enforcement program governing incidental taking of marine mammals in the purse seine fishery for yellowfin tuna, including:

(i) A description, with copies of relevant laws, implementing regulations and guidelines, of the gear and procedures required in the fishery to protect marine mammals, including but not limited to the following:

(1) A description of the methods used to identify problems and to take corrective actions to improve the performance of individual fishermen in reducing incidental mortality and serious injury. By 1990 the methods must identify individual operators with marine mammal mortality rates which are consistently and substantially higher than the majority of the nation’s fleet, and provide for corrective training and, ultimately, suspension and removal from the fishery if the operator’s performance does not improve to at least the performance of the majority of the fleet in a reasonable time period;

(ii) By 1990, a description of a regulatory system in operation which ensures that all marine mammal sets are completed through backdown to rolling the net to sack-up no later than one-half hour after sundown, except that individual operators may be exempted, if they have maintained consistently a rate of kill during their observed sun-down sets which is not higher than that of the nation’s fleet average during daylight sets made during the time...
§ 216.24

period used for their comparability finding; and

(iii) By 1990, a description of its restrictions on the use of explosive devices in the purse seine fishery which are comparable to those of the United States.

(2) A detailed description of the method (e.g., Inter-American Tropical Tuna Commission (IATTC) or other international program observer records) and level of observer coverage by which the incidental mortality and serious injury of marine mammals will be monitored.

(B) A list of its vessels and any certified charter vessels of greater than 400 short tons carrying capacity which purse seined for yellowfin tuna at any time during the preceding year in the ETP, indicating the status of each such vessel during that period (i.e., actively fishing in ETP, fishing in other waters; in port for repairs; inactive) and the status of each vessel expected to operate in the ETP in the year in which the submission is made.

(C) A compilation of the best available data for each calendar year on the performance of any of its purse seine vessels (including certified charter vessels) fishing at any time for tuna associated with marine mammals within the ETP including the following:

(1) Total number of tons of yellowfin tuna observed caught in each fishing area by purse seine sets on:
   (i) Common dolphin and
   (ii) All other marine mammal species;

(2) Total number of marine mammals observed killed and the total number of marine mammals observed seriously injured in each fishing area by species/stock by purse seine sets on:
   (i) Common dolphin and
   (ii) All other marine mammal species;

(3) Total number of observed trips and total number of observed purse seine sets on marine mammals in each fishing area by the nation’s purse seine fleet during the year;

(4) Total number of vessel trips and total number of purse seine sets on marine mammals in each fishing area by the nation’s purse seine fleet during the year; and

(5) The total number of observed purse seine sets in each fishing area in which more than 15 marine mammals were killed.

(D) Data required by paragraph (e)(5)(ii)(C)(2) presented individually for the following marine mammal species/stocks: offshore spotted dolphin, coastal spotted dolphin, eastern spinner dolphin, whitebelly spinner dolphin, common dolphin, striped dolphin, and “other marine mammals”.

(E) A description of the source of the data provided in accordance with paragraph (e)(5)(ii)(C) of this section. The observer program from which these data are provided must be operated by the IATTC or another international program in which the United States participates and must sample at least the same percentage of the fishing trips as the United States achieves over the same time period, unless the Assistant Administrator determines that an alternative observer program, including a lesser level of observer coverage, will provide a sufficiently reliable average rate of incidental taking of marine mammals for the nation.

(iii) A nation applying for its initial finding of comparability should apply at least 120 days before the desired effective date. The Assistant Administrator’s determination on a nation’s application for its initial finding will be announced and published in the FEDERAL REGISTER within 120 days of receipt of the information required in paragraph (e)(5)(ii) of this section.

(iv) A harvesting nation that has in effect a positive finding under this section may request renewal of its finding for the following calendar year by providing the Assistant Administrator, by December 1 of the current calendar year, an update of the information listed in §216.24(e)(5)(ii) summarizing all fishing trips completed during the 12-month period from October 1 of the previous calendar year through September 30 of the current year.

(v) The Assistant Administrator’s determination of a nation’s timely submitted request for renewal of an affirmative finding will be announced by December 31. A finding will be valid for the calendar year following the fishing season for which observer data was submitted for obtaining a finding. The
Assistant Administrator will make an affirmative finding or renew an affirmative finding if:

(A) The harvesting nation has provided all information required by paragraphs (e)(5)(ii) and (e)(5)(iv) of this section;

(B) The nation's regulatory program is comparable to the regulatory program of the United States as described in paragraphs (a), (c), (d)(2), and (f) of this section and the nation has incorporated into its regulatory program such additional prohibitions as the United States may apply to its own vessels within 180 days after the prohibition applies to U.S. vessels;

(C) The data on marine mammal mortality and serious injury submitted by the harvesting nation are determined to be accurate;

(D) The observer coverage of fishing trips was equal to that achieved by the United States during the same time period or, if less, was determined by the Assistant Administrator to provide a sufficiently accurate sample of the nation's fleet mortality rate;

(E) For findings using data collected after 1988, the average kill-per-set rate for the longest period of time for which data are available, up to 5 consecutive years, or for the most recent year, whichever is lower, is no more than 25 percent greater than the U.S. average for the same time period, after the U.S. mortality rate is weighted to account for dissimilar amounts of fishing effort between the two nations in the three ETP fishing areas and for common dolphin and other marine mammal species, except as provided in paragraph (e)(5)(v)(G) of this section for findings made in 1990;

(F) For determining comparability where there are fewer than five sets (including no effort) on dolphin by the U.S. fleet in a fishing area on a species grouping that has fishing effort by the foreign nation requesting a comparability test, the mortality rates used for comparability will be the overall (i.e., unweighted) kill-per-set rate of the U.S. fleet and of the foreign nation's fleet.

(G) For the 1989 fishing year and subsequent years, the nation's observed kill of eastern spinner dolphin (Stenella longirostris) and coastal spotted dolphin (Stenella attenuata) is no greater than 15 percent and 2 percent, respectively, of the nation's total annual observed dolphin mortality; and

(H) The nation has complied with all reasonable requests by the Assistant Administrator for cooperation in carrying out dolphin population assessments in the ETP.

(vi) Period of validity. A finding is valid only for the period for which it was issued and may be terminated before the end of the year if the Assistant Administrator finds that the nation no longer has a comparable regulatory program or kill rate.

(vii) Reconsideration of finding. The Assistant Administrator may reconsider a finding upon a request from and the submission of additional information by the harvesting nation, if the information indicates that the nation has met the requirements under paragraph (e)(5)(v) of this section. For a harvesting nation whose marine mammal mortality rate was found to exceed the acceptable levels prescribed in paragraphs (e)(5)(v)(E), (e)(5)(v)(F), or (e)(5)(v)(G) of this section, the additional information must include data collected by an acceptable observer program, which must demonstrate that the nation's fleet marine mammal mortality rate improved to the acceptable level during the period submitted for comparison, which must include, at a minimum, the most recent:

(A) Twelve months of observer data if the species composition rate prescribed by paragraph (e)(5)(v)(G) of this section was not acceptable; or

(B) Six months of observer data if the average kill-per-set rate prescribed by paragraph (e)(5)(v)(E) of this section was not acceptable.

(viii) Application for finding for non-marine-mammal intentional sets. The Assistant Administrator’s determination on a nation’s application for a finding will be announced and published in the Federal Register. A harvesting nation which has implemented a regulatory program that prohibits the intentional setting of any purse seine net to encircle marine mammals and desires an initial finding under these regulations that will allow it to import into the United States those products...
listed in paragraph (e)(2)(i) of this section must provide the Assistant Administrator with the following:

(A) Documentary evidence establishing that its regulatory program includes:

(1) A law prohibiting the intentional setting of purse seine nets on marine mammals (a copy of the law must be submitted);

(2) A requirement that a certificate from an observer be obtained within 30 days of the completion of each and every trip of the nation’s purse seine vessels greater than 400 short tons (362.8 mt) carrying capacity, stating that the observer was aboard the vessel during the entire trip and that there were no intentional purse seine sets on marine mammals; and

(B) A complete list of the nation’s vessels and any certified charter vessels of greater than 400 short tons (362.8 mt) carrying capacity which purse seine for yellowfin tuna in the ETP, indicating the status of each vessel (i.e., actively fishing in the ETP, in port for repairs, etc.), and a list of changes to this fleet within 30 days when changes occur.

(ix) Application for renewal of finding for non-marine-mammal intentional sets. A harvesting nation, which has in effect an affirmative finding under this section, may request a renewal of its finding for the subsequent calendar year by providing the Assistant Administrator with an annual report by November 1, covering the previous October 1 to September 30 period, which includes the following:

(A) Vessel summary data, to include:

(1) The total number of observed trips;

(2) The percentage of all purse seine fishing trips that carried observers under a program approved by the Assistant Administrator;

(3) The total number, if any, of observed purse seine sets on marine mammals;

(4) A summary of the number and species, if any, of all marine mammals killed or seriously injured in intentional purse seine sets on marine mammals;

(5) A complete list of the nation’s vessels and any certified charter vessels of greater than 400 short tons (362.8 mt) carrying capacity which purse seine for yellowfin tuna in the ETP, indicating the status of each vessel as of October 1;

(B) A summary, which copies of relevant laws, of any changes in the nation’s laws or regulatory program regarding marine mammals for the purse seine fishery in the ETP; and

(C) A summary of any enforcement actions taken to ensure compliance with the nation’s marine mammal protection laws.

(x) Review of finding for non-marine-mammal intentional sets. The Assistant Administrator will renew an affirmative finding obtained under paragraph (e)(5)(ix) of this section if:

(A) The harvesting nation has provided all of the information required by paragraph (e)(5)(ix) of this section and the conditions under which the original finding was made under paragraph (e)(5)(viii) of this section continue to exist; and

(B) Either 100-percent observer coverage is provided for all purse seine vessels as required by paragraph (e)(5)(viii)(A)(2) of this section; or the harvesting nation is in a probationary status in accordance with paragraph (e)(5)(xi)(B)(1) of this section; and

(C) The harvesting nation meets the criteria of paragraphs (e)(5)(v)(E), and (e)(5)(v)(G) of this section; and

(D) Certificates have been provided to the Assistant Administrator within 30 days of the completion of each and every trip of the nation’s purse seine vessels greater than 400 short tons (362.8 mt) carrying capacity from an observer approved by the Assistant Administrator or under the direction of the Inter-American Tropical Tuna Commission, and verified by the Inter-American Tropical Tuna Commission, stating that the observer was aboard the vessel during the entire trip and that there were no intentional purse seine sets on marine mammals or the nation received a positive reconsideration for an affirmative finding under paragraph (e)(5)(xii)(A) of this section.

(xi) Probation and revocation. (A)(1) If it is determined that, during any trip, a purse seine was intentionally set on marine mammals, the nation will enter into a probationary status for 180 days,
effective upon the date the vessel returns to port to unload.

(2) If, during the probationary period of 180 days, there are any additional intentional purse seine sets made on marine mammals, the Assistant Administrator will immediately revoke the affirmative finding.

(B)(1) If it is determined that, during any trip, an observer was not aboard a nation’s purse seine vessel greater than 400 short tons (362.8 mt) carrying capacity fishing in the ETP, that nation will enter into a probationary status for 1 year, effective upon the date the vessel returns to port to unload.

(2) If, during the 1-year probationary period, a nation’s purse seine vessel returns to port to unload, and it is determined that an observer was not aboard the vessel during a trip in the ETP, the Assistant Administrator will immediately revoke an affirmative finding made under paragraphs (e)(5)(viii) or (e)(5)(x) of this section.

(xii) Reconsideration. (A) The Assistant Administrator will reconsider a revocation of an affirmative finding upon request from a harvesting nation which had its affirmative finding revoked under paragraph (e)(5)(xi)(A) of this section if:

(1) The number of marine mammals taken in purse seine nets that were intentionally set on marine mammals does not exceed the comparability standards established in paragraphs (e)(5)(v)(E) and (e)(5)(v)(G) of this section; and

(2) That nation provides documentary evidence that no additional purse seines were intentionally set on marine mammals during the 90-day period immediately preceding the request for reconsideration.

(B) A harvesting nation which has its affirmative finding revoked under paragraph (e)(5)(xi)(B) of this section or its reconsideration under paragraph (e)(5)(xii)(A) of this section denied, may request reconsideration for an affirmative finding under paragraph (e)(5)(vii) of this section.

(xiii) Verification. The Assistant Administrator may require verification of statements made in connection with requests to allow importations.

(xiv) Intermediary nation. Any yellowfin tuna or yellowfin tuna products in the classifications listed in paragraph (e)(2)(i) of this section, from any intermediary nation, as that term is defined in section 3 of the MMPA, may not be imported into the United States unless the Assistant Administrator determines and publishes in the FEDERAL REGISTER that the intermediary nation has provided reasonable proof and has certified to the United States that it has not imported, in the preceding 6 months, yellowfin tuna or yellowfin tuna products that are subject to a ban on direct importation into the United States under section 101(a)(2)(B) of the MMPA. A prohibition on imports under this paragraph may be lifted by the Assistant Administrator upon a determination announced in the FEDERAL REGISTER, based upon new information supplied by the government of the intermediary nation, that the nation has not imported, in the preceding 6 months, yellowfin tuna or yellowfin tuna products subject to a ban on direct imports under section 101(a)(2)(B) of the MMPA. Shipments of yellowfin tuna or yellowfin tuna products through a nation on a through bill of lading or in another manner that does not enter the shipments into that nation as an importation do not make that nation an intermediary nation. The Assistant Administrator shall act on any request to review decisions under this paragraph (e)(5)(xiv) that are accompanied by specific and detailed supporting information or documentation, within 30 days of receipt of such request. For purposes of this paragraph (e)(5)(xiv), certification and reasonable proof means the submission by a responsible government official from the nation of a document reflecting the nation’s customs records for the preceding 6 months, together with a certificate attesting that the document is accurate.

(xv) Pelly certification. After 6 months on an embargo being in place against a nation under this section, that fact shall be certified to the President for purposes of certification under section 8(a) of the Fishermen’s Protective Act of 1967 (22 U.S.C. 1978(a)) for as long as the embargo is in effect.

(xvi) Coordination. The Assistant Administrator will promptly advise the
§ 216.24

Department of State of embargo decisions, actions and finding determinations.

(6) Fish refused entry. If fish is denied entry under the provisions of §216.24(e)(3), the District Director of Customs shall refuse to release the fish for entry into the United States and shall issue a notice of such refusal to the importer or consignee.

(7) [Reserved]

(8) Disposition of fish refused entry into the United States; redelivered fish. Fish which is denied entry under §216.24(e)(3) or which is delivered in accordance with §216.24(e)(7) and which is not exported under Customs supervision within 90 days from the date of notice of refusal of admission or date of redelivery shall be disposed of under Customs laws and regulations. Provided however, That any disposition shall not result in an introduction into the United States of fish caught in violation of the Marine Mammal Protection Act of 1972.

(9) Dolphin safe requirements. (i) It is unlawful for any person to sell, purchase, offer for sale, transport, or ship in the United States, any tuna or tuna product that is not dolphin safe.

(ii) For purposes of this section, tuna or a tuna product is dolphin safe if:

(A) It does not contain tuna that was harvested on the high seas by a vessel engaged in large-scale driftnet fishing;

(B) In the case of tuna or tuna product that contains tuna harvested in the ETP by a purse seine vessel, either the purse seine vessel is of less than 400 short tons (362.8 metric tons (mt)) carrying capacity or, if the purse seine vessel is of 400 short tons (362.8 mt) carrying capacity or greater, the tuna or tuna product is accompanied by:

1. A completed Fisheries Certificate of Origin;

2. A written statement by the captain of each vessel that harvested the tuna, certifying that the vessel did not intentionally deploy a purse seine net on, or to encircle, dolphins at any time during the trip; and

3. An endorsement on the Fisheries Certificate of Origin by each exporter, importer, and processor certifying that, to the best of his or her knowledge and belief, the Fisheries Certificate of Origin and attached documents, and the statements required by this paragraph (e)(9)(ii) accurately describe the tuna products;

(C) In the case of tuna or a tuna product containing tuna harvested outside the eastern tropical Pacific Ocean by a purse seine vessel, it is accompanied by a written statement, executed by the captain of the vessel, certifying that no purse seine net was intentionally deployed on, or to encircle, dolphins during the particular voyage on which the tuna was harvested; and

(D) In the case of tuna or a tuna product containing tuna harvested outside the ETP by a purse seine vessel in a fishery in which the Secretary has determined that a regular and significant association occurs between marine mammals and tuna, and in which tuna is harvested through the use of purse seine nets deployed on, or to encircle, marine mammals, it is accompanied by a written statement, executed by the captain of the vessel and by an observer, certifying that no purse seine net was intentionally deployed on, or to encircle, marine mammals during the particular voyage on which the tuna was harvested.

(iii) Submission of documentation—

(A) Imported tuna or tuna product. The documents required by paragraph (e)(9)(ii) of this section must accompany the imported tuna or tuna product until no further endorsements are required on the documentation and the documents have been submitted to officials of the U.S. Customs Service at the time of importation.

(B) U.S. domestic shipments. The documents required by paragraph (e)(9)(ii) of this section must accompany tuna or tuna product, other than imported, until no further endorsements are required on the documentation and the documents have been submitted to the Director, Southwest Region, National...
(f) Observers. (1) The vessel certificate holder of any certificated vessel shall, upon the proper notification by the National Marine Fisheries Service, allow an observer duly authorized by the Secretary to accompany the vessel on any or all regular fishing trips for the purpose of conducting research and observing operations, including collecting information which may be used in civil or criminal penalty proceedings, forfeiture actions, or permit or certificate sanctions.

(2) Research and observation duties shall be carried out in such a manner as to minimize interference with commercial fishing operations. The navigator shall provide true vessel locations by latitude and longitude, accurate to the nearest minute, upon request by the observer. No owner, master, operator, or crew member of a certificated vessel shall impair or in any way interfere with the research or observations being carried out.

(3) Marine mammals killed during fishing operations which are accessible to crewmen and requested from the certificate holder or master by the observer shall be brought aboard the vessel and retained for biological processing, until released by the observer for return to the ocean. Whole marine mammals designated as biological specimens by the observer shall be retained in cold storage aboard the vessel until retrieved by authorized personnel of the National Marine Fisheries Service when the vessel returns to port for unloading.

(4) The Secretary shall provide for the payment of all reasonable costs directly related to the quartering and maintaining of such observers on board such vessels. A vessel certificate holder who has been notified that the vessel is required to carry an observer, via certified letter from the National Marine Fisheries Service, shall notify the office from which the letter was received at least five days in advance of the fishing voyage to facilitate observer placement. A vessel certificate holder who has failed to comply with the provisions of this section may not engage in fishing operations for which a general permit is required.

(5) It is unlawful for any person to forcibly assault, impede, intimidate, interfere with, or to influence or attempt to influence an observer, or to harass (including sexual harassment) an observer by conduct which has the purpose or effect of unreasonably interfering with the observer’s work performance, or which creates an intimidating, hostile, or offensive environment. In determining whether conduct constitutes harassment, the totality of the circumstances, including the nature of the conduct and the context in which it occurred, will be considered. The determination of the legality of a particular action will be made from the facts on a case-by-case basis.

(6)(i) All observers must be provided sleeping, toilet and eating accommodations at least equal to that provided to a full crew member. A mattress or futon on the floor or a cot is not acceptable in place of a regular bunk. Meal and other galley privileges must be the same for the observer as for other crew members.

(ii) Female observers on a vessel with an all-male crew must be accommodated either in a single-person cabin or, if reasonable privacy can be ensured by installing a curtain or other temporary divider, in a two-person cabin shared with a licensed officer of the vessel. If the cabin assigned to a female observer does not have its own toilet and shower facilities that can be provided for the exclusive use of the observer, then a schedule for time-sharing common facilities must be established before the placement meeting and approved by NMFS and must be followed during the entire trip.

(iii) In the event there are one or more female crew members, the female observer may be provided a bunk in a cabin shared solely with female crew members, and provided toilet and shower facilities that can be provided for these female crew members.

(7)(i) A vessel certificate of inclusion holder (or vessel owner in the case of a new application) may seek an exemption from carrying a female observer on a vessel by applying to the Director, Southwest Region when applying for the vessel certificate of inclusion until
§ 216.25 Exempted marine mammals and marine mammal products.

(a) The provisions of the MMPA and these regulations shall not apply:
   (1) To any marine mammal taken before December 21, 1972; or
   (2) To any marine mammal product if the marine mammal portion of such product consists solely of a marine mammal taken before such date.

(b) The prohibitions contained in §216.12(c) (3) and (4) shall not apply to marine mammals or marine mammal products imported into the United States before the date on which a notice is published in the Federal Register with respect to the designation of the species or stock concerned as depleted or endangered.

(c) Section 216.12(b) shall not apply to articles imported into the United States before the effective date of the foreign law making the taking or sale, as the case may be, of such marine mammals or marine mammal products unlawful.

§ 216.26 Collection of certain marine mammal parts without prior authorization.

Notwithstanding any other provision of this subpart:

(a) Any bones, teeth or ivory of any dead marine mammal may be collected from a beach or from land within ¼ of a mile of the ocean. The term ocean includes bays and estuaries.

(b) Notwithstanding the provisions of subpart D, soft parts that are sloughed, excreted, or discharged naturally by a living marine mammal in the wild may

---

1In the context of captive maintenance of marine mammals, the only marine mammals exempted under this section are those that were actually captured or otherwise in captivity before December 21, 1972.
be collected or imported for bona fide scientific research and enhancement, provided that collection does not involve the taking of a living marine mammal in the wild.

(c) Any marine mammal part collected under paragraph (a) of this section or any marine mammal part collected and imported under paragraph (b) of this section must be registered and identified, and may be transferred or otherwise possessed, in accordance with §216.22(c). In registering a marine mammal part collected or imported under paragraph (b) of this section, the person who collected or imported the part must also state the scientific research or enhancement purpose for which the part was collected or imported.

(d) No person may purchase, sell or trade for commercial purposes any marine mammal part collected or imported under this section.

(e) The export of parts collected without prior authorization under paragraph (b) of this section may occur if consistent with the provisions at §216.37(d) under subpart D.

§ 216.27 Release, non-releasability, and disposition under special exception permits for rehabilitated marine mammals.

(a) Release requirements. (1) Any marine mammal held for rehabilitation must be released within six months of capture or import unless the attending veterinarian determines that:

(i) The marine mammal might adversely affect marine mammals in the wild;

(ii) Release of the marine mammal to the wild will not likely be successful given the physical condition and behavior of the marine mammal; or

(iii) More time is needed to determine whether the release of the marine mammal to the wild will likely be successful. Releasability must be reevaluated at intervals of no less than six months until 24 months from capture or import, at which time there will be a rebuttable presumption that release into the wild is not feasible.

(2) The custodian of the rehabilitated marine mammal shall provide written notification prior to any release into the wild.

(i) Notification shall be provided to:

(A) The NMFS Regional Director at least 15 days in advance of releasing any beached or stranded marine mammal, unless advance notice is waived in writing by the Regional Director; or

(B) The Office Director at least 30 days in advance of releasing any imported marine mammal.

(ii) Notification shall include the following:

(A) A description of the marine mammal, including its physical condition and estimated age;

(B) The method and duration of transport prior to release.

(3) The Regional Director, or the Office Director as appropriate, may:

(i) Require additional information prior to any release;

(ii) Change the date or location of release, or the method or duration of transport prior to release;

(iii) Impose additional conditions to improve the likelihood of success or to monitor the success of the release; or

(iv) Require other disposition of the marine mammal.

(4) All marine mammals must be released near wild populations of the same species, and stock if known, unless a waiver is granted by the Regional Director or the Office Director.

(b) Non-releasability and postponed determinations. (1) The attending veterinarian shall provide the Regional Director or Office Director with a written report setting forth the basis of any determination under paragraphs (a)(1)(i) through (iii) of this section.

(2) Upon receipt of a report under paragraph (b)(1) of this section, the Regional Director or Office Director, in their sole discretion, may:

(i) Order the release of the marine mammal;
(ii) Order continued rehabilitation for an additional 6 months; or
(iii) Order other disposition as authorized.

(3) No later than 30 days after a marine mammal is determined unreleasable in accordance with paragraphs (a)(1)(i) through (iii) of this section, the person with authorized custody must:

(i) Request authorization to retain or transfer custody of the marine mammal in accordance with paragraph (c) of this section; or
(ii) Humanely euthanize the marine mammal or arrange any other disposition of the marine mammal authorized by the Regional Director or Office Director.

(4) Notwithstanding any of the provisions of this section, the Office Director may require use of a rehabilitated marine mammal for any activity authorized under subpart D in lieu of animals taken from the wild.

(5) Any rehabilitated beached or stranded marine mammal placed on public display following a non-releasability determination under paragraph (a)(1) of this section and pending disposition under paragraph (c) of this section, or any marine mammal imported for medical treatment otherwise unavailable and placed on public display pending disposition after such medical treatment is concluded, must be held in captive maintenance consistent with all requirements for public display.

(c) Disposition for a special exception purpose.

(1) Upon receipt of an authorization request made under paragraph (b)(3)(i) of this section, or release notification under (a)(2), the Office Director may authorize the retention or transfer of custody of the marine mammal for a special exception purpose authorized under subpart D.

(2) The Office Director will first consider requests from a person authorized to hold the marine mammal for rehabilitation. The Office Director may authorize such person to retain or transfer custody of the marine mammal for scientific research, enhancement, or public display purposes.

(3) The Office Director may authorize retention or transfer of custody of the marine mammal only if:

(i) Documentation has been submitted to the Office Director that the person retaining the subject animal or the person receiving custody of the subject animal by transfer, hereinafter referred to as the recipient, complies with public display requirements of 16 U.S.C. 1374(c)(2)(A) or, for purposes of scientific research and enhancement, holds an applicable permit, or an application for such a special exception permit under §216.33 or a request for a major amendment under §216.39 has been submitted to the Office Director and has been found complete;

(ii) The recipient agrees to hold the marine mammal in conformance with all applicable requirements and standards; and

(iii) The recipient acknowledges that the marine mammal is subject to seizure by the Office Director:

(A) If, at any time pending issuance of the major amendment or permit, the Office Director determines that seizure is necessary in the interest of the health or welfare of the marine mammal;

(B) If the major amendment or permit is denied; or

(C) If the recipient is issued a notice of violation and assessment, or is subject to permit sanctions, in accordance with 15 CFR part 904.

(4) There shall be no remuneration associated with any transfer, provided that, the transferee may reimburse the transferor for any and all costs associated with the rehabilitation and transport of the marine mammal.

(5) Marine mammals undergoing rehabilitation or pending disposition under this section shall not be subject to public display, unless such activities are specifically authorized by the Regional Director or the Office Director, and conducted consistent with the requirements applicable to public display. Such marine mammals shall not be trained for performance or be included in any aspect of a program involving interaction with the public; and

(6) Marine mammals undergoing rehabilitation shall not be subject to intrusive research, unless such activities are specifically authorized by the Office Director in consultation with the Marine Mammal Commission and its
Committee of Scientific Advisors on Marine Mammals, and are conducted pursuant to a scientific research permit.

(d) Reporting. In addition to the report required under §216.22(b), the person authorized to hold marine mammals for rehabilitation must submit reports to the Regional Director or Office Director regarding release or other disposition. These reports must be provided in the form and frequency specified by the Regional Director or Office Director.

[61 FR 21933, May 10, 1996]

Subpart D—Special Exceptions

§ 216.30 [Reserved]

§ 216.31 Definitions.

For the purpose of this subpart, the definitions set forth in 50 CFR part 217 shall apply to all threatened and endangered marine mammals, unless a more restrictive definition exists under the MMPA or part 216.

[61 FR 21935, May 10, 1996]

§ 216.32 Scope.

The regulations of this subpart apply to:

(a) All marine mammals and marine mammal parts taken or born in captivity after December 20, 1972; and

(b) All marine mammals and marine mammal parts that are listed as threatened or endangered under the ESA.

[61 FR 21935, May 10, 1996]

§ 216.33 Permit application submission, review, and decision procedures.

(a) Application submission. Persons seeking a special exemption permit to export living marine mammals, the application must:

1. Be submitted through the Convention on International Trade in Endangered Fauna and Flora management authority of the foreign government or, if different, the appropriate agency or agencies of the foreign government that exercises oversight over marine mammals.

2. Include a certification from the foreign government that:
   (i) The information set forth in the application is accurate;
   (ii) The laws and regulations of the foreign government involved allow enforcement of the terms and conditions of the permit, and that the foreign government will enforce all terms and conditions; and
   (iii) The foreign government involved will afford comity to any permit amendment, modification, suspension or revocation decision.

(c) Initial review. (1) NMFS will notify the applicant of receipt of the application.

(2) During the initial review, the Office Director will determine:

(i) Whether the application is complete.

(ii) Whether the proposed activity is for purposes authorized under this subpart.

(iii) If the proposed activity is for enhancement purposes, whether the species or stock identified in the application is in need of enhancement for its survival or recovery and whether the proposed activity will likely succeed in its objectives.

(iv) Whether the activities proposed are to be conducted consistent with the permit restrictions and permit specific conditions as described in §216.35 and §216.36(a).

(v) Whether sufficient information is included regarding the environmental impact of the proposed activity to enable the Office Director:

(A) To make an initial determination under the National Environmental Policy Act (NEPA) as to whether the proposed activity is categorically excluded from preparation of further environmental documentation, or whether the
§ 216.33

preparation of an environmental assessment (EA) or environmental impact statement (EIS) is appropriate or necessary; and

(B) To prepare an EA or EIS if an initial determination is made by the Office Director that the activity proposed is not categorically excluded from such requirements.

(3) The Office Director may consult with the Marine Mammal Commission (Commission) and its Committee of Scientific Advisors on Marine Mammals (Committee) in making these initial, and any subsequent, determinations.

(4) Incomplete applications will be returned with explanation. If the applicant fails to resubmit a complete application or correct the identified deficiencies within 60 days, the application will be deemed withdrawn. Applications that propose activities inconsistent with this subpart will be returned with explanation, and will not be considered further.

(d) Notice of receipt and application review. (1) Upon receipt of a valid, complete application, and the preparation of any NEPA documentation that has been determined initially to be required, the Office Director will publish a notice of receipt in the FEDERAL REGISTER. The notice will:

(i) Summarize the application, including:

(A) The purpose of the request;
(B) The species and number of marine mammals;
(C) The type and manner of special exception activity proposed;
(D) The location(s) in which the marine mammals will be taken, from which they will be imported, or to which they will be exported; and
(E) The requested period of the permit.

(ii) List where the application is available for review.

(iii) Invite interested parties to submit written comments concerning the application within 30 days of the date of the notice.

(iv) Include a NEPA statement that an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an EA or EIS, that an EA was prepared resulting in a finding of no significant impact, or that a final EIS has been prepared and is available for review.

(2) The Office Director will forward a copy of the complete application to the Commission for comment. If no comments are received within 45 days (or such longer time as the Office Director may establish) the Office Director will consider the Commission to have no objection to issuing a permit.

(3) The Office Director may consult with any other person, institution, or agency concerning the application.

(4) Within 30 days of publication of the notice of receipt in the FEDERAL REGISTER, any interested party may request a public hearing on the application.

(5) If the Office Director deems it advisable, the Office Director may hold a public hearing within 60 days of publication of the notice of receipt in the FEDERAL REGISTER. Notice of the date, time, and place of the public hearing will be published in the FEDERAL REGISTER not less than 15 days in advance of the public hearing. Any interested person may appear in person or through representatives and may submit any relevant material, data, views, or comments. A summary record of the hearing will be kept.

(6) The Office Director may extend the period during which any interested party may submit written comments. Notice of the extension must be published in the FEDERAL REGISTER within 60 days of publication of the notice of receipt in the FEDERAL REGISTER.

(7) If, after publishing a notice of receipt, the Office Director determines on the basis of new information that an EA or EIS must be prepared, the Office Director must deny the permit unless an EA is prepared with a finding of no significant impact. If a permit is denied under these circumstances the application may be resubmitted with information sufficient to prepare an EA or EIS, and will be processed as a new application.

(e) Issuance or denial procedures. (1) Within 30 days of the close of the public hearing or, if no public hearing is held, within 30 days of the close of the
public comment period, the Office Director will issue or deny a special exception permit.

(2) The decision to issue or deny a permit will be based upon:

(i) All relevant issuance criteria set forth at §216.34;

(ii) All purpose-specific issuance criteria as appropriate set forth at §216.41, §216.42, and §216.43;

(iii) All comments received or views solicited on the permit application; and

(iv) Any other information or data that the Office Director deems relevant.

(3) If the permit is issued, upon receipt, the holder must date and sign the permit, and return a copy of the original to the Office Director. The permit shall be effective upon the permit holder’s signing of the permit. In signing the permit, the holder:

(i) Agrees to abide by all terms and conditions set forth in the permit, and all restrictions and relevant regulations under this subpart; and

(ii) Acknowledges that the authority to conduct certain activities specified in the permit is conditional and subject to authorization by the Office Director.

(4) Notice of the decision of the Office Director shall be published in the Federal Register within 10 days after the date of permit issuance or denial and shall indicate where copies of the permit, if issued, may be reviewed or obtained. If the permit issued involves marine mammals listed as endangered or threatened under the ESA, the notice shall include a finding by the Office Director that the permit:

(i) Was applied for in good faith;

(ii) If exercised, will not operate to the disadvantage of such endangered or threatened species; and

(iii) Is consistent with the purposes and policy set forth in section 2 of the ESA.

(5) If the permit is denied, the Office Director also may waive the 30-day comment period required under the ESA in an emergency situation where the health or life of an endangered or threatened marine mammal is threatened and no reasonable alternative is available. If a permit is issued under these circumstances, notice of such issuance before the end of the comment period shall be published in the Federal Register within 10 days of issuance.

(6) The applicant or any party opposed to a permit may seek judicial review of the terms and conditions of such permit or of a decision to deny such permit. Review may be obtained by filing a petition for review with the appropriate U.S. District Court as provided for by law.

[61 FR 21935, May 10, 1996]

§ 216.34 Issuance criteria.

(a) For the Office Director to issue any permit under this subpart, the applicant must demonstrate that:

(1) The proposed activity is humane and does not present any unnecessary risks to the health and welfare of marine mammals;

(2) The proposed activity is consistent with all restrictions set forth at §216.35 and any purpose-specific restrictions as appropriate set forth at §216.41, §216.42, and §216.43;

(3) The proposed activity, if it involves endangered or threatened marine mammals, will be conducted consistent with the purposes and policies set forth in section 2 of the ESA;

(4) The proposed activity by itself or in combination with other activities, will not likely have a significant adverse impact on the species or stock; and

(5) Whether the applicant’s expertise, facilities, and resources are adequate to accomplish successfully the objectives and activities stated in the application;

(6) If a live animal will be held captive or transported, the applicant’s qualifications, facilities, and resources are adequate for the proper care and maintenance of the marine mammal; and

(7) Any requested import or export will not likely result in the taking of marine mammals or marine mammal
§ 216.35 Permit restrictions.

The following restrictions shall apply to all permits issued under this subpart:

(a) The taking, importation, export, or other permitted activity involving marine mammals and marine mammal parts shall comply with the regulations of this subpart.

(b) The maximum period of any special exception permit issued, or any major amendment granted, is five years from the effective date of the permit or major amendment. In accordance with the provisions of §216.39, the period of a permit may be extended by a minor amendment up to 12 months beyond that established in the original permit.

(c) Except as provided for in §216.41(c)(1)(v), marine mammals or marine mammal parts imported under the authority of a permit must be taken or imported in a humane manner, and in compliance with the Acts and any applicable foreign law. Importation of marine mammals and marine mammal parts is subject to the provisions of 50 CFR part 14.

(d) The permit holder shall not take from the wild any marine mammal which at the time of taking is either unweaned or less than eight months old, or is a part of a mother-calf/pup pair, unless such take is specifically authorized in the conditions of the special exception permit. Additionally, the permit holder shall not import any marine mammal that is pregnant or lactating at the time of taking or import, or is unweaned or less than eight months old unless such import is specifically authorized in the conditions of the special exception permit.

(e) Captive marine mammals shall not be released into the wild unless specifically authorized by the Office Director under a scientific research or enhancement permit.

(f) The permit holder is responsible for all activities of any individual who is operating under the authority of the permit;

(g) Individuals conducting activities authorized under the permit must possess qualifications commensurate with their duties and responsibilities, or must be under the direct supervision of a person with such qualifications;

(h) Persons who require state or Federal licenses to conduct activities authorized under the permit must be duly licensed when undertaking such activities;

(i) Special exception permits are not transferable or assignable to any other person, and a permit holder may not require any direct or indirect compensation from another person in return for requesting authorization for such person to conduct the taking, import, or export activities authorized under the subject permit;

(j) The permit holder or designated agent shall possess a copy of the permit when engaged in a permitted activity, when the marine mammal is in transit incidental to such activity, and whenever marine mammals or marine mammal parts are in the possession of the permit holder or agent. A copy of the permit shall be affixed to any container, package, enclosure, or other means of containment, in which the marine mammals or marine mammal parts are placed for purposes of transit, supervision, or care. For marine mammals held captive and marine mammal parts in storage, a copy of the permit shall be kept on file in the holding or storage facility.

[61 FR 21936, May 10, 1996]

§ 216.36 Permit conditions.

(a) Specific conditions. (1) Permits issued under this subpart shall contain specific terms and conditions deemed appropriate by the Office Director, including, but not limited to:

(i) The number and species of marine mammals that are authorized to be taken, imported, exported, or otherwise affected;

(ii) The manner in which marine mammals may be taken according to type of take;

(iii) The location(s) in which the marine mammals may be taken, from
which they may be imported, or to
which they may be exported, as appli-
cable, and, for endangered or threat-
ened marine mammal species to be im-
ported or exported, the port of entry or
export;
(iv) The period during which the per-
mit is valid.
(2) [Reserved]
(b) Other conditions. In addition to
the specific conditions imposed pursu-
ant to paragraph (a) of this section, the
Office Director shall specify any other
permit conditions deemed appropriate.
[61 FR 21937, May 10, 1996]
§ 216.37 Marine mammal parts.
With respect to marine mammal
parts acquired by take or import au-
thorized under a permit issued under this subpart:
(a) Marine mammal parts are
transferrable if:
(1) The person transferring the part
receives no remuneration of any kind
for the marine mammal part;
(2) The person receiving the marine
mammal part is:
(i) An employee of NMFS, the U.S.
Fish and Wildlife Service, or any other
governmental agency with conserva-
tion and management responsibilities,
who receives the part in the course of
their official duties;
(ii) A holder of a special exception
permit which authorizes the take, im-
port, or other activity involving the
possession of a marine mammal part of
the same species as the subject part; or
(iii) In the case of marine mammal
parts from a species that is not de-
pleted, endangered or threatened, a
person who is authorized under section
112(c) of the MMPA and subpart C of
this part to take or import marine
mammals or marine mammal parts;
(iv) Any other person specifically au-
thorized by the Regional Director, con-
sistent with the requirements of para-
graphs (a)(1) and (a)(3) through (6) of
this section.
(3) The marine mammal part is trans-
ferred for the purpose of scientific re-
search, maintenance in a properly
curated, professionally accredited sci-
entific collection, or education, pro-
vided that, for transfers for edu-
cational purposes, the recipient is a
museum, educational institution or
equivalent that will ensure that the
part is available to the public as part of
an educational program;
(4) A unique number assigned by the
permit holder is marked on or affixed
to the marine mammal part or con-
tainer;
(5) The person receiving the marine
mammal part agrees that, as a condi-
tion of receipt, subsequent transfers
may only occur subject to the provi-
sions of paragraph (a) of this section;
and
(6) Within 30 days after the transfer,
the person transferring the marine
mammal part notifies the Regional Di-
rector of the transfer, including a de-
scription of the part, the person to
whom the part was transferred, the
purpose of the transfer, certification
that the recipient has agreed to comply
with the requirements of paragraph (a)
of this section for subsequent transfers,
and, if applicable, the recipient’s per-
mit number.
(b) Marine mammal parts may be
loaned to another person for a purpose
described in paragraph (a)(3) of this
section and without the agreement and
notification required under paragraphs
(a)(5) and (6) of this section, if:
(1) A record of the loan is main-
tained; and
(2) The loan is for not more than one
year. Loans for a period greater than 12
months, including loan extensions or
renewals, require notification of the
Regional Director under paragraph
(a)(6).
(c) Unless other disposition is speci-
fied in the permit, a holder of a special
exception permit may retain marine
mammal parts not destroyed or other-
wise disposed of during or after a sci-
entific research or enhancement activ-
ity, if such marine mammal parts are:
(1) Maintained as part of a properly
curated, professionally accredited col-
lection; or
(2) Made available for purposes of sci-
cientific research or enhancement at the
request of the Office Director.
(d) Marine mammal parts may be ex-
ported and subsequently reimported by
a permit holder or subsequent author-
ized recipient, for the purpose of sci-
cientific research, maintenance in a
§ 216.38 Reporting.

All permit holders must submit annual, final, and special reports in accordance with the requirements established in the permit, and any reporting format established by the Office Director.

[61 FR 21937, May 10, 1996]

§ 216.39 Permit amendments.

(a) General. Special exception permits may be amended by the Office Director. Major and minor amendments may be made to permits in response to, or independent of, a request from the permit holder. Amendments must be consistent with the Acts and comply with the applicable provisions of this subpart.

(i) A major amendment means any change to the permit specific conditions under §216.36(a) regarding:

   (i) The number and species of marine mammals that are authorized to be taken, imported, exported, or otherwise affected;
   (ii) The manner in which these marine mammals may be taken, imported, exported, or otherwise affected, if the proposed change may result in an increased level of take or risk of adverse impact;
   (iii) The location(s) in which the marine mammals may be taken, from which they may be imported, and to which they may be exported, as applicable; and
   (iv) The duration of the permit, if the proposed extension would extend the duration of the permit more than 12 months beyond that established in the original permit.

(ii) A minor amendment means any amendment that does not constitute a major amendment.

(b) Amendment requests and proposals. (1) Requests by a permit holder for an amendment must be submitted in writing and include the following:

   (i) The purpose and nature of the amendment;
   (ii) Information, not previously submitted as part of the permit application or subsequent reports, necessary to determine whether the amendment satisfies all issuance criteria set forth at §216.34, and, as appropriate, §216.41, §216.42, and §216.43.
   (iii) Any additional information required by the Office Director for purposes of reviewing the proposed amendment.

(ii) If an amendment is proposed by the Office Director, the permit holder will be notified of the proposed amendment, together with an explanation.

(c) Review of proposed amendments. (1) Major amendments. The provisions of §216.33(d) and (e) governing notice of receipt, review and decision shall apply to all proposed major amendments.

(ii) Minor amendments. (i) After reviewing all appropriate information, the Office Director will provide the permit holder with written notice of the decision on a proposed or requested amendment, together with an explanation for the decision.

(ii) If the minor amendment extends the duration of the permit 12 months or less from that established in the original permit, notice of the minor amendment will be published in the Federal Register within 10 days from the date of the Office Director’s decision.

(iii) A minor amendment will be effective upon a final decision by the Office Director.

[61 FR 21937, May 10, 1996]
§ 216.40 Penalties and permit sanctions.
(a) Any person who violates any provision of this subpart or permit issued thereunder is subject to civil and criminal penalties, permit sanctions and forfeiture as authorized under the Acts, and 15 CFR part 904.
(b) All special exception permits are subject to suspension, revocation, modification and denial in accordance with the provisions of subpart D of 15 CFR part 904.
[61 FR 21938, May 10, 1996]

§ 216.41 Permits for scientific research and enhancement.
In addition to the requirements under §§ 216.33 through 216.38, permits for scientific research and enhancement are governed by the following requirements:
(a) Applicant. (1) For each application submitted under this section, the applicant shall be the principal investigator responsible for the overall research or enhancement activity. If the research or enhancement activity will involve a periodic change in the principal investigator or is otherwise controlled by and dependent upon another entity, the applicant may be the institution, governmental entity, or corporation responsible for supervision of the principal investigator.
(2) For any scientific research involving captive maintenance, the application must include supporting documentation from the person responsible for the facility or other temporary enclosure.
(b) Issuance Criteria. For the Office Director to issue any scientific research or enhancement permit, the applicant must demonstrate that:
(1) The proposed activity furtherers a bona fide scientific or enhancement purpose;
(2) If the lethal taking of marine mammals is proposed:
   (i) Non-lethal methods for conducting the research are not feasible; and
   (ii) For depleted, endangered, or threatened species, the results will directly benefit that species or stock, or will fulfill a critically important research need.
(3) Any permanent removal of a marine mammal from the wild is consistent with any applicable quota established by the Office Director.
(4) The proposed research will not likely have significant adverse effects on any other component of the marine ecosystem of which the affected species or stock is a part.
(5) For species or stocks designated or proposed to be designated as depleted, or listed or proposed to be listed as endangered or threatened:
   (i) The proposed research cannot be accomplished using a species or stock that is not designated or proposed to be designated as depleted, or listed or proposed to be listed as threatened or endangered;
   (ii) The proposed research, by itself or in combination with other activities will not likely have a long-term direct or indirect adverse impact on the species or stock;
   (iii) The proposed research will either:
      (A) Contribute to fulfilling a research need or objective identified in a species recovery or conservation plan, or if there is no conservation or recovery plan in place, a research need or objective identified by the Office Director in stock assessments established under section 117 of the MMPA;
      (B) Contribute significantly to understanding the basic biology or ecology of the species or stock, or to identifying, evaluating, or resolving conservation problems for the species or stock; or
      (C) Contribute significantly to fulfilling a critically important research need.
(6) For proposed enhancement activities:
   (i) Only living marine mammals and marine mammal parts necessary for enhancement of the survival, recovery, or propagation of the affected species or stock may be taken, imported, exported, or otherwise affected under the authority of an enhancement permit. Marine mammal parts would include in this regard clinical specimens or other biological samples required for the conduct of breeding programs or the diagnosis or treatment of disease.
   (ii) The activity will likely contribute significantly to maintaining or increasing distribution or abundance, enhancing the health or welfare of the
species or stock, or ensuring the survival or recovery of the affected species or stock in the wild.

(iii) The activity is consistent with:

(A) An approved conservation plan developed under section 115(b) of the MMPA or recovery plan developed under section 4(f) of the ESA for the species or stock; or

(B) If there is no conservation or recovery plan, with the Office Director’s evaluation of the actions required to enhance the survival or recovery of the species or stock in light of the factors that would be addressed in a conservation or recovery plan.

(iv) An enhancement permit may authorize the captive maintenance of a marine mammal from a threatened, endangered, or depleted species or stock only if the Office Director determines that:

(A) The proposed captive maintenance will likely contribute directly to the survival or recovery of the species or stock by maintaining a viable gene pool, increasing productivity, providing necessary biological information, or establishing animal reserves required to support directly these objectives; and

(B) The expected benefit to the species or stock outweighs the expected benefits of alternatives that do not require removal of marine mammals from the wild.

(v) The Office Director may authorize the public display of marine mammals held under the authority of an enhancement permit only if:

(A) The public display is incidental to the authorized captive maintenance;

(B) The public display will not interfere with the attainment of the survival or recovery objectives;

(C) The marine mammals will be held consistent with all requirements and standards that are applicable to marine mammals held under the authority of the Acts and the Animal Welfare Act, unless the Office Director determines that an exception is necessary to implement an essential enhancement activity; and

(D) The marine mammals will be excluded from any interactive program and will not be trained for performance.

(vi) The Office Director may authorize non-intrusive scientific research to be conducted while a marine mammal is held under the authority of an enhancement permit, only if such scientific research:

(A) Is incidental to the permitted enhancement activities; and

(B) Will not interfere with the attainment of the survival or recovery objectives.

(c) Restrictions. (1) The following restrictions apply to all scientific research permits issued under this subpart:

(i) Research activities must be conducted in the manner authorized in the permit.

(ii) Research results shall be published or otherwise made available to the scientific community in a reasonable period of time.

(iii) Research activities must be conducted under the direct supervision of the principal investigator or a co-investigator identified in the permit.

(iv) Personnel involved in research activities shall be reasonable in number and limited to:

(A) Individuals who perform a function directly supportive of and necessary to the permitted research activity; and

(B) Support personnel included for the purpose of training or as backup personnel for persons described in paragraph (c)(1)(iv)(A).

(v) Any marine mammal part imported under the authority of a scientific research permit must not have been obtained as the result of a lethal taking that would be inconsistent with the Acts, unless authorized by the Office Director.

(vi) Marine mammals held under a permit for scientific research shall not be placed on public display, included in an interactive program or activity, or trained for performance unless such activities:

(A) Are necessary to address scientific research objectives and have been specifically authorized by the Office Director under the scientific research permit; and

(B) Are conducted incidental to and do not in any way interfere with the permitted scientific research; and
§ 216.45 General Authorization for Level B harassment for scientific research.

(a) General Authorization. (1) Persons are authorized under section 104(c)(3)(C) of the MMPA to take marine mammals in the wild by Level B harassment, as defined in § 216.3, for purposes of bona fide scientific research, Provided, That:

(i) They submit a letter of intent in accordance with the requirements of paragraph (b) of this section, receive confirmation that the General Authorization applies in accordance with paragraph (c) of this section, and comply with the terms and conditions of paragraph (d) of this section; or

(ii) If such marine mammals are listed as endangered or threatened under the ESA, they have been issued a permit under Section 10(a)(1)(A) of the ESA and implementing regulations at 50 CFR parts 217-227, particularly at § 222.23 through § 222.28, to take marine mammals in the wild for the purpose of scientific research, the taking authorized under the permit involves such Level B harassment of marine mammals or marine mammal stocks, and they comply with the terms and conditions of that permit.

(2) Except as provided under paragraph (a)(1)(ii) of this section, no taking, including harassment, of marine mammals listed as threatened or endangered under the ESA is authorized under the General Authorization. Marine mammals listed as endangered or threatened under the ESA may be taken for purposes of scientific research only after issuance of a permit for such activities pursuant to the ESA.

(3) The following types of research activities will likely qualify for inclusion under the General Authorization: Photo-identification studies, behavioral observations, and vessel and aerial population surveys (except aerial surveys over pinniped rookeries at altitudes of less than 1,000 ft).

(b) Letter of intent. Except as provided under paragraph (a)(1)(iii) of this section, any person intending to take marine mammals in the wild by Level B harassment for purposes of bona fide scientific research under the General Authorization must submit, at least 60
§ 216.45

days before commencement of such re-
search, a letter of intent by certified
return/receipt mail to the Chief, Per-
mits Division, F/PR1, Office of Pro-
tected Resources, NMFS, 1335 East-
West Highway, Silver Spring, MD
20910–3226.

(1) The letter of intent must be sub-
mited by the principal investigator
(who shall be deemed the applicant).
For purposes of this section, the prin-
cipal investigator is the individual who
is responsible for the overall research
project, or the institution, govern-
mental entity, or corporation respon-
sible for supervision of the principal in-
vestigator.

(2) The letter of intent must include
the following information:
(i) The name, address, telephone
number, qualifications and experience
of the applicant and any co-investi-
gator(s) to be conducting the proposed
research, and a curriculum vitae for
each, including a list of publications by
each such investigator relevant to the
objectives, methodology, or other as-
pects of the proposed research;
(ii) The species or stocks of marine
mammals (common and scientific
names) that are the subject of the sci-
entific research and any other species
or stock of marine mammals that may
be harassed during the conduct of the
research;
(iii) The geographic location(s) in
which the research is to be conducted,
e.g., geographic name or lat./long.;
(iv) The period(s) of time over which
the research will be conducted (up to
two years), including the field sea-
son(s) for the research, if applicable;
(v) The purpose of the research, in-
cluding a description of how the pro-
posed research qualifies as bona fide re-
search as defined in §216.3; and
(vi) The methods to be used to con-
duct the research.

(3) The letter of intent must be
signed, dated, and certified by the ap-
plicant as follows:

In accordance with section 104(c)(3) of
the Marine Mammal Protection Act of 1972,
as amended (16 U.S.C. 1361 et seq.) and im-
plementing regulations (50 CFR part 216), I
hereby notify the National Marine Fisheries
Service of my intent to conduct research in-
volving only Level B harassment on marine
mammals in the wild, and request confirma-
tion that the General Authorization for
Level B Harassment for Scientific Research
applies to the proposed research as described
herein. I certify that the information in this
letter of intent is complete, true, and correct
to the best of my knowledge and belief, and
I understand that any false statement may
subject me to the criminal penalties of 18
U.S.C. 1001, or penalties under the MMPA
and implementing regulations. I acknowl-
edge and accept that authority to conduct
scientific research on marine mammals in
the wild under the General Authorization is
a limited conditional authority restricted to
Level B harassment only, and that any other
take of marine mammals, including the con-
duct of any activity that has the potential to
injure marine mammals (i.e., Level A harass-
ment), may subject me to penalties under
the MMPA and implementing regulations.

(c) Confirmation that the General Au-
thorization applies or notification of per-
mit requirement.

(1) Not later than 30 days after re-
ceipt of a letter of intent as described
in paragraph (b) of this section, the
Chief, Permits Division, NMFS will
issue a letter to the applicant either:
(i) Confirming that the General Au-
thorization applies to the proposed sci-
entific research as described in the let-
ter of intent;
(ii) Notifying the applicant that all
or part of the research described in the
letter of intent is likely to result in a
taking of a marine mammal in the wild
involving other than Level B harass-
ment and, as a result, cannot be con-
ducted under the General Authoriza-
tion, and that a scientific research per-
mit is required to conduct all or part of
the subject research; or
(iii) Notifying the applicant that the
letter of intent fails to provide suffi-
cient information and providing a de-
scription of the deficiencies, or noti-
fying the applicant that the proposed
research as described in the letter of
intent is not bona fide research as de-
fining in §216.3.

(2) A copy of each letter of intent and
letter confirming that the General Au-
thorization applies or notifying the ap-
plicant that it does not apply will be
forwarded to the Marine Mammal Com-
mission.

(3) Periodically, NMFS will publish a
summary document in the Federal Re-
gister notifying the public of let-
ters of confirmation issued.
§ 216.45  Terms and conditions

Persons issued letters of confirmation in accordance with paragraph (c) of this section are responsible for complying with the following terms and conditions:

(1) Activities are limited to those conducted for the purposes, by the means, in the locations, and during the periods of time described in the letter of intent and acknowledged as authorized under the General Authorization in the confirmation letter sent pursuant to paragraph (c) of this section;

(2) Annual reports of activities conducted under the General Authorization must be submitted to the Chief, Permits Division (address listed in paragraph (b) of this section) within 90 days of completion of the last field season(s) during the calendar year or, if the research is not conducted during a defined field season, no later than 90 days after the anniversary date of the letter of confirmation issued under paragraph (c) of this section. Annual reports must include:

(i) A summary of research activities conducted;

(ii) Identification of the species and number of each species taken by Level B harassment;

(iii) An evaluation of the progress made in meeting the objectives of the research as described in the letter of intent; and

(iv) Any incidental scientific, educational, or commercial uses of photographs, videotape, and film obtained as a result of or incidental to the research and if so, names of all photographers.

(3) Authorization to conduct research under the General Authorization is for the period(s) of time identified in the letter of intent or for a period of 5 years from the date of the letter of confirmation issued under paragraph (c) of this section, whichever is less, unless extended by the Director or modified, suspended, or revoked in accordance with paragraph (e) of this section.

(4) Activities conducted under the General Authorization may only be conducted under the on-site supervision of the principal investigator or co-investigator(s) named in the letter of intent. All personnel involved in the conduct of activities under the General Authorization must perform a function directly supportive of and necessary for the research being conducted, or be one of a reasonable number of support personnel included for the purpose of training or as back-up personnel.

(5) The principal investigator must notify the appropriate Regional Director, NMFS, (Regional Director) in writing at least 2 weeks before initiation of on-site activities. The Regional Director shall consider this information in efforts to coordinate field research activities to minimize adverse impacts on marine mammals in the wild. The principal investigator must cooperate with coordination efforts by the Regional Director in this regard;

(6) If research activities result in a taking which exceeds Level B harassment, the applicant shall:

(i) Report the taking within 12 hours to the Director, Office of Protected Resources, or his designee as set forth in the letter authorizing research; and

(ii) Temporarily discontinue for 72 hours all field research activities that resulted in the taking. During this time period, the applicant shall consult with NMFS as to the circumstances surrounding the taking and any precautions necessary to prevent future taking, and may agree to amend the research protocol, as deemed necessary by NMFS.

(7) NMFS may review scientific research conducted pursuant to the General Authorization. If requested by NMFS, the applicant must cooperate with any such review and shall:

(i) Allow any employee of NOAA or any other person designated by the Director, Office of Protected Resources to observe research activities; and

(ii) Provide any documents or other information relating to the scientific research;

(8) Any photographs, videotape, or film obtained during the conduct of research under the General Authorization must be identified by a statement that refers to the General Authorization or ESA permit number, and includes the file number provided by NMFS in the confirmation letter, the name of the photographer, and the date the image was taken. This statement must accompany the image(s) in all subsequent uses or sales. The annual report must note incidental scientific research.
§§ 216.46–216.49

educational, or commercial uses of the images, and if there are any such uses, the names of all photographers; and

(9) Persons conducting scientific research under authority of the General Authorization may not transfer or assign any authority granted thereunder to any other person.

(e) Suspension, revocation, or modification. (1) NMFS may suspend, revoke, or modify the authority to conduct scientific research under the General Authorization if:

(i) The letter of intent included false information or statements of a material nature;
(ii) The research does not constitute bona fide scientific research;
(iii) Research activities result in takings of marine mammals other than by Level B harassment;
(iv) Research activities differ from those described in the letter of intent submitted by the applicant and letter of confirmation issued by NMFS; or
(v) The applicant violates any term or condition set forth in this section.

(2) Any suspension, revocation, or modification is subject to the requirements of 15 CFR part 904.

[59 FR 50376, Oct. 3, 1994]

§§ 216.46–216.49 [Reserved]

Subpart E—Designated Ports

§ 216.50 Importation at designated ports.

(a) Any marine mammal or marine mammal product which is subject to the jurisdiction of the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce and is intended for importation into the United States shall be subject to the requirements of 50 CFR part 14.

(b) The harvests of seals on St. Paul and St. George Islands shall be treated independently for the purposes of this section. Any suspension, termination, or extension of the harvest is applicable only to the island for which it is issued.

(c) By April 1 of every third year, beginning April 1, 1994, the Assistant Administrator will publish in the Federal Register a summary of the preceding 3 years of harvesting and a discussion of the number of seals expected to be taken annually over the next 3 years to satisfy the subsistence requirements of each island. This discussion will include an assessment of factors and conditions on St. Paul and St. George Islands that influence the need by Pribilof Aleuts to take seals for subsistence uses and an assessment of any changes to those conditions indicating that the number of seals that may be taken for subsistence each year should be made higher or lower. Following a

[59 FR 50376, Oct. 3, 1994]

§ 216.73 Disposition of fur seal parts.

Except for transfers to other Alaskan Natives for barter or sharing for personal or family consumption, no part of a fur seal taken for subsistence use may be sold or otherwise transferred to any person unless it is a nonedible by-product which:

(a) Has been transformed into an article of handicraft, or

(b) Is being sent by an Alaskan Native directly, or through a registered agent, to a tannery registered under 50 CFR 216.23(c) for the purpose of processing, and will be returned directly to the Alaskan Native for conversion into an article of handicraft, or

§ 216.73 Disposition of fur seal parts.

30-day public comment period, a final notification of the expected annual harvest levels for the next 3 years will be published.

(c)(1) No fur seal may be taken on the Pribilof Islands before June 23 of each year.

(2) No fur seal may be taken except by experienced sealers using the traditional harvesting methods, including stunning followed immediately by exsanguination. The harvesting method shall include organized drives of subadult male to killing fields unless it is determined by the NMFS representatives, in consultation with the Pribilovians conducting the harvest, that alternative methods will not result in increased disturbance to the rookery or the increased accidental take of female seals.

(3) Any taking of adult fur seals or pups, or the intentional taking of subadult female fur seals is prohibited.

(4) Only subadult male fur seals 124.5 centimeters or less in length may be taken.

(5) Seals with tags and/or entangling debris may only be taken if so directed by NMFS scientists.

(d) The scheduling of the harvest is at the discretion of the Pribilovians, but must be such as to minimize stress to the harvested seals. The Pribilovians must give adequate advance notice of their harvest schedules to the NMFS representatives to allow for necessary monitoring activities. Scheduling must be consistent with the following restrictions:

(1) St. Paul Island—Seals may only be harvested from the following haulout areas: Zapadni, English Bay, Northeast Point, Polovina, Lukanan, Kitovik, and Reef. No haulout area may be harvested more than once per week.

(2) St. George Island—Seals may only be harvested from the following haulout areas: Northeast and Zapadni. Neither haulout area may be harvested more than twice per week.

(e)(1) The Assistant Administrator is required to suspend the take provided for in § 215.31 when:

(i) He determines, after reasonable notice by NMFS representatives to the Pribilovians on the island, that the subsistence needs of the Pribilovians on the island have been satisfied;

(ii) He determines that the harvest is otherwise being conducted in a wasteful manner; or

(iii) The lower end of the range of the estimated subsistence level provided in the notice issued under paragraph (b) of this section is reached.

(2) A suspension based on a determination under paragraph (e)(1)(ii) of this section may be lifted by the Assistant Administrator if he finds that the conditions which led to the determination that the harvest was being conducted in a wasteful manner have been remedied.

(3) A suspension issued in accordance with paragraph (e)(1)(iii) of this section may not exceed 48 hours in duration and shall be followed immediately by a review of the harvest data to determine if a finding under paragraph (e)(1)(i) of this section is warranted. If a the harvest is not suspended under paragraph (e)(1)(i) of this section, the Assistant Administrator must provide a revised estimate of the number of seals required to satisfy the Pribilovians' subsistence needs.

(f) The Assistant Administrator shall terminate the take provided for in § 215.31 on August 8 of each year or when it is determined under paragraph (e)(1)(i) of this section that the subsistence needs of the Pribilovians on the island have been satisfied, whichever occurs first.

§ 216.74  Cooperation with Federal officials.

Pribilovians who engage in the harvest of seals are required to cooperate with scientists engaged in fur seal research on the Pribilof Islands who may need assistance in recording tag or other data and collecting tissue or other fur seal samples for research purposes. In addition, Pribilovians who take fur seals for subsistence uses must, consistent with 5 CFR 1320.7(k)(3), cooperate with the NMFS representatives on the Pribilof Islands who are responsible for compiling the following information on a daily basis:

(a) The number of seals taken each day in the subsistence harvest,
(b) The extent of the utilization of fur seals taken, and
(c) Other information determined by the Assistant Administrator to be necessary for determining the subsistence needs of the Pribilovians or for making determinations under § 215.32(e).

Subpart G—Pribilof Islands Administration

§ 216.81  Visits to fur seal rookeries.

From June 1 to October 15 of each year, no person, except those authorized by a representative of the National Marine Fisheries Service, or accompanied by an authorized employee of the National Marine Fisheries Service, shall approach any fur seal rookery or hauling grounds nor pass beyond any posted sign forbidding passage.

[41 FR 49488, Nov. 9, 1976. Redesignated at 61 FR 11750, Mar. 22, 1996]

§ 216.82  Dogs prohibited.

In order to prevent molestation of fur seal herds, the landing of any dogs at Pribilof Islands is prohibited.

[41 FR 49488, Nov. 9, 1976. Redesignated at 61 FR 11750, Mar. 22, 1996]

§ 216.83  Importation of birds or mammals.

No mammals or birds, except household cats, canaries and parakeets, shall be imported to the Pribilof Islands without the permission of an authorized representative of the National Marine Fisheries Service.

[41 FR 49488, Nov. 9, 1976. Redesignated at 61 FR 11750, Mar. 22, 1996]

§ 216.84  [Reserved]

§ 216.85  Walrus and Otter Islands.

By Executive Order 1044, dated February 27, 1909, Walrus and Otter Islands were set aside as bird reservations. All persons are prohibited to land on these islands except those authorized by the appropriate representative of the National Marine Fisheries Service.

[41 FR 49488, Nov. 9, 1976. Redesignated at 61 FR 11750, Mar. 22, 1996]

§ 216.86  Local regulations.

Local regulations will be published from time to time and will be brought to the attention of local residents and persons assigned to duty on the Islands by posting in public places and brought to the attention of tourists by personal notice.

[41 FR 49488, Nov. 9, 1976. Redesignated at 61 FR 11750, Mar. 22, 1996]

§ 216.87  Wildlife research.

(a) Wildlife research, other than research on North Pacific fur seals, including specimen collection, may be permitted on the Pribilof Islands subject to the following conditions:

(1) Any person or agency, seeking to conduct such research shall first obtain any Federal or State of Alaska permit required for the type of research involved.
§ 216.92 Purse seine vessels greater than 400 short tons (362.8 metric tons).

For purposes of §216.91(b), any tuna product containing tuna that were harvested in the ETP by a purse seine vessel 400 short tons (362.8 metric tons) carrying capacity or greater and is labeled in a manner that violates the standards set forth in §216.92 or §216.93.

§216.92 Purse seine vessels greater than 400 short tons (362.8 metric tons).

For purposes of §216.91(b), any tuna product containing tuna that were harvested in the ETP by a purse seine vessel 400 short tons (362.8 metric tons) carrying capacity or greater, must be accompanied by:

(a) A completed Fisheries Certificate of Origin;

(b) A written statement by the captain of each vessel that harvested the tuna, certifying that the vessel did not intentionally deploy a purse seine net on or to encircle dolphins at any time during the trip;

(c) A written statement certifying that an observer, employed by or working under contract with the Inter-American Tropical Tuna Commission or the Secretary, was on board the vessel during the entire trip and that the vessel did not intentionally deploy a purse seine net on or to encircle dolphins at any time during the trip. The statement must be signed by either:

(1) The Secretary; or

(2) A representative of the Inter-American Tropical Tuna Commission; and

(d) An endorsement on the Fisheries Certificate of Origin by each exporter, importer, and processor certifying that, to the best of his or her knowledge and belief, the Fisheries Certificate of Origin and attached documentation, accurately describe the tuna products.

(2) Any person seeking to conduct such research shall obtain prior approval of the Director, Pribilof Islands Program, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, 1700 Westlake Avenue North, Seattle, WA 98109, by filing with the Director an application which shall include:

(i) Copies of the required Federal and State of Alaska permits; and

(ii) A resume of the intended research program.

(3) All approved research shall be subject to all regulations and administrative procedures in effect on the Pribilof Islands, and such research shall not commence until approval from the Director is received.

(4) Any approved research program shall be subject to such terms and conditions as the Director, Pribilof Islands Program deems appropriate.

(5) Permission to utilize the Pribilof Islands to conduct an approved research program may be revoked by the Director, Pribilof Islands Program at any time for noncompliance with any terms and conditions, or for violations of any regulation or administrative procedure in effect on the Pribilof Islands.

§ 216.93 Submission of documentation.

The documents required by § 216.92 must accompany the tuna product whenever it is offered for sale or export, except that these documents need not accompany the product when offered for sale if:

(a) The documents do not require further endorsement by any importer or processor, and are submitted to officials of the U.S. Customs Service at the time of import; or

(b) The documents are endorsed as required by § 216.92(d) and delivered to the Director, Southwest Region, or to the U.S. Customs Service at the time of exportation.

§ 216.94 Requests to review documents.

At any time, the Assistant Administrator may request, in writing, any exporter, importer, processor, distributor, or seller of any tuna or tuna product labeled in a manner subject to the requirements of § 216.91, to produce, within a specified time period, all documentary evidence concerning the origin of any product that is offered for sale as “dolphin safe,” including the original invoice.

§ 216.95 False statements or endorsements.

Any person who knowingly and willfully makes a false statement or false endorsement required by § 216.92 is liable for a civil penalty not to exceed $100,000, that may be assessed in an action brought in any appropriate District Court of the United States on behalf of the Secretary.

Subpart I—General Regulations Governing Small Takes of Marine Mammals Incidental to Specified Activities

Source: 51 FR 15887, Apr. 10, 1996, unless otherwise noted.

§ 216.101 Purpose.

The regulations in this subpart implement section 101(a)(5) (A) through (D) of the Marine Mammal Protection Act of 1972, as amended, 16 U.S.C. 1371(a)(5), which provides a mechanism for allowing, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographic region.

§ 216.102 Scope.

The taking of small numbers of marine mammals under section 101(a)(5) (A) through (D) of the Marine Mammal Protection Act may be allowed only if the National Marine Fisheries Service:

(a) Finds, based on the best scientific evidence available, that the total taking by the specified activity during the specified time period will have a negligible impact on species or stock of marine mammal(s) and will not have an unmitigable adverse impact on the availability of those species or stocks of marine mammals intended for subsistence uses;

(b) Prescribes either regulations under § 216.106, or requirements and conditions contained within an incidental harassment authorization issued under § 216.107, setting forth permissible methods of taking and other means of effecting the least practicable adverse impact on the species or stock of marine mammal and its habitat and on the availability of the species or stock of marine mammal for subsistence uses, paying particular attention to rookeries, mating grounds, and areas of similar significance; and

(c) Prescribes either regulations or requirements and conditions contained within an incidental harassment authorization, as appropriate, pertaining to the monitoring and reporting of such taking. The specific regulations governing certain specified activities are contained in subsequent subparts of this part.

§ 216.103 Definitions.

In addition to definitions contained in the MMPA, and in § 216.3, and unless the context otherwise requires, in subsequent subparts to this part:

Arctic waters means the marine and estuarine waters north of 60° N. lat.

Citizens of the United States and U.S. citizens mean individual U.S. citizens or any corporation or similar entity if it is organized under the laws of the United States or any governmental
unit defined in 16 U.S.C. 1362(13). U.S. Federal, state and local government agencies shall also constitute citizens of the United States for purposes of this part.

Incidental harassment, incidental taking and incidental, but not intentional, taking all mean an accidental taking. This does not mean that the taking is unexpected, but rather it includes those takings that are infrequent, unavoidable or accidental. (A complete definition of “take” is contained in §216.3).

Negligible impact is an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival.

Small numbers means a portion of a marine mammal species or stock whose taking would have a negligible impact on that species or stock.

Specified activity means any activity, other than commercial fishing, that takes place in a specified geographical region and potentially involves the taking of small numbers of marine mammals.

Specified geographical region means an area within which a specified activity is conducted and that has certain biogeographic characteristics.

Unmitigable adverse impact means an impact resulting from the specified activity:

1. That is likely to reduce the availability of the species to a level insufficient for a harvest to meet subsistence needs by:
   (i) Causing the marine mammals to abandon or avoid hunting areas;
   (ii) Directly displacing subsistence users; or
   (iii) Placing physical barriers between the marine mammals and the subsistence hunters; and

2. That cannot be sufficiently mitigated by other measures to increase the availability of marine mammals to allow subsistence needs to be met.

§ 216.104 Submission of requests.

(a) In order for the National Marine Fisheries Service to consider authorizing the taking by U.S. citizens of small numbers of marine mammals incidental to a specified activity (other than commercial fishing), or to make a finding that an incidental take is unlikely to occur, a written request must be submitted to the Assistant Administrator. All requests must include the following information for their activity:

1. A detailed description of the specific activity or class of activities that can be expected to result in incidental taking of marine mammals;

2. The date(s) and duration of such activity and the specific geographical region where it will occur;

3. The species and numbers of marine mammals likely to be found within the activity area;

4. A description of the status, distribution, and seasonal distribution (when applicable) of the affected species or stocks of marine mammals likely to be affected by such activities;

5. The type of incidental taking authorization that is being requested (i.e., takes by harassment only; takes by harassment, injury and/or death) and the method of incidental taking;

6. By age, sex, and reproductive condition (if possible), the number of marine mammals (by species) that may be taken by each type of taking identified in paragraph (a)(5) of this section, and the number of times such takings by each type of taking are likely to occur;

7. The anticipated impact of the activity upon the species or stock of marine mammal;

8. The anticipated impact of the activity on the availability of the species or stocks of marine mammals for subsistence uses;

9. The anticipated impact of the activity upon the habitat of the marine mammal populations, and the likelihood of restoration of the affected habitat;

10. The anticipated impact of the loss or modification of the habitat on the marine mammal populations involved;

11. The availability and feasibility (economic and technological) of equipment, methods, and manner of conducting such activity or other means of effecting the least practicable adverse impact upon the affected species or stocks, their habitat, and on their
availability for subsistence uses, paying particular attention to rookeries, mating grounds, and areas of similar significance;

(12) Where the proposed activity would take place in or near a traditional Arctic subsistence hunting area and/or may affect the availability of a species or stock of marine mammal for Arctic subsistence uses, the applicant must submit either a plan of cooperation or information that identifies what measures have been taken and/or will be taken to minimize any adverse effects on the availability of marine mammals for subsistence uses. A plan must include the following:

(i) A statement that the applicant has notified and provided the affected subsistence community with a draft plan of cooperation;

(ii) A schedule for meeting with the affected subsistence communities to discuss proposed activities and to resolve potential conflicts regarding any aspects of either the operation or the plan of cooperation;

(iii) A description of what measures the applicant has taken and/or will take to ensure that proposed activities will not interfere with subsistence whaling or sealing; and

(iv) What plans the applicant has to continue to meet with the affected communities, both prior to and while conducting the activity, to resolve conflicts and to notify the communities of any changes in the operation;

(13) The suggested means of accomplishing the necessary monitoring and reporting that will result in increased knowledge of the species, the level of taking or impacts on populations of marine mammals that are expected to be present while conducting activities and suggested means of minimizing burdens by coordinating such reporting requirements with other schemes already applicable to persons conducting such activity. Monitoring plans should include a description of the survey techniques that would be used to determine the movement and activity of marine mammals near the activity site(s) including migration and other habitat uses, such as feeding. Guidelines for developing a site-specific monitoring plan may be obtained by writing to the Director, Office of Protected Resources; and

(14) Suggested means of learning of, encouraging, and coordinating research opportunities, plans, and activities relating to reducing such incidental taking and evaluating its effects.

(b)(1) The Assistant Administrator shall determine the adequacy and completeness of a request and, if determined to be adequate and complete, will begin the public review process by publishing in the Federal Register either:

(i) A proposed incidental harassment authorization; or

(ii) A notice of receipt of a request for the implementation or reimplementation of regulations governing the incidental taking.

(2) Through notice in the Federal Register, newspapers of general circulation, and appropriate electronic media in the coastal areas that may be affected by such activity, NMFS will invite information, suggestions, and comments for a period not to exceed 30 days from the date of publication in the Federal Register. All information and suggestions will be considered by the National Marine Fisheries Service in developing, if appropriate, the most effective regulations governing the issuance of letters of authorization or conditions governing the issuance of an incidental harassment authorization.

(3) Applications that are determined to be incomplete or inappropriate for the type of taking requested, will be returned to the applicant with an explanation of why the application is being returned.

(c) The Assistant Administrator shall evaluate each request to determine, based upon the best available scientific evidence, whether the taking by the specified activity within the specified geographic region will have a negligible impact on the species or stock and, where appropriate, will not have an unmitigable adverse impact on the availability of such species or stock for subsistence uses. If the Assistant Administrator finds that the mitigating measures would render the impact of the specified activity negligible when
it would not otherwise satisfy that requirement, the Assistant Administrator may make a finding of negligible impact subject to such mitigating measures being successfully implemented. Any preliminary findings of "negligible impact" and "no unmitigable adverse impact" shall be proposed for public comment along with either the proposed incidental harassment authorization or the proposed regulations for the specific activity.

(d) If, subsequent to the public review period, the Assistant Administrator finds that the taking by the specified activity would have more than a negligible impact on the species or stock of marine mammal or would have an unmitigable adverse impact on the availability of such species or stock for subsistence uses, the Assistant Administrator shall publish in the FEDERAL REGISTER the negative finding along with the basis for denying the request.

§ 216.105 Specific regulations.

(a) For all petitions for regulations under this paragraph, applicants must provide the information requested in §216.104(a) on their activity as a whole, which includes, but is not necessarily limited to, an assessment of total impacts by all persons conducting the activity.

(b) For allowed activities that may result in incidental takings of small numbers of marine mammals by harassment, serious injury, death or a combination thereof, specific regulations shall be established for each allowed activity that set forth:

(1) Permissible methods of taking;

(2) Means of effecting the least practicable adverse impact on the species and its habitat and on the availability of the species for subsistence uses; and

(3) Requirements for monitoring and reporting, including requirements for the independent peer-review of proposed monitoring plans where the proposed activity may affect the availability of a species or stock for taking for subsistence uses.

(c) Regulations will be established based on the best available information. As new information is developed, through monitoring, reporting, or research, the regulations may be modified, in whole or in part, after notice and opportunity for public review.

(a) A Letter of Authorization, which may be issued only to U.S. citizens, is required to conduct activities pursuant to any regulations established under §216.105. Requests for Letters of Authorization shall be submitted to the Director, Office of Protected Resources. The information to be submitted in a request for an authorization will be specified in the appropriate subpart to this part or may be obtained by writing to the above named person.

(b) Issuance of a Letter of Authorization will be based on a determination that the level of taking will be consistent with the findings made for the total taking allowable under the specific regulations.

(c) Letters of Authorization will specify the period of validity and any additional terms and conditions appropriate for the specific request.

(d) Notice of issuance of all Letters of Authorization will be published in the FEDERAL REGISTER within 30 days of issuance.

(e) Letters of Authorization shall be withdrawn or suspended, either on an individual or class basis, as appropriate, if, after notice and opportunity for public comment, the Assistant Administrator determines that:

(1) The regulations prescribed are not being substantially complied with; or

(2) The taking allowed is having, or may have, more than a negligible impact on the species or stock or, where relevant, an unmitigable adverse impact on the availability of the species or stock for subsistence uses.

(f) The requirement for notice and opportunity for public review in §216.106(e) shall not apply if the Assistant Administrator determines that an emergency exists that poses a significant risk to the wellbeing of the species or stocks of marine mammals concerned.

(g) A violation of any of the terms and conditions of a Letter of Authorization or of the specific regulations
§ 216.107 Incidental harassment authorization for Arctic waters.

(a) Except for activities that have the potential to result in serious injury or mortality, which must be authorized under §216.105, incidental harassment authorizations may be issued, following a 30-day public review period, to allowed activities that may result in only the incidental harassment of a small number of marine mammals. Each such incidental harassment authorization shall set forth:

(1) Permissible methods of taking by harassment;

(2) Means of effecting the least practicable adverse impact on the species, its habitat, and on the availability of the species for subsistence uses; and

(3) Requirements for monitoring and reporting, including requirements for the independent peer-review of proposed monitoring plans where the proposed activity may affect the availability of a species or stock for taking for subsistence uses.

(b) Issuance of an incidental harassment authorization will be based on a determination that the number of marine mammals taken by harassment will be small, will have a negligible impact on the species or stock of marine mammal(s), and will not have an unmitigable adverse impact on the availability of species or stocks for taking for subsistence uses.

(c) An incidental harassment authorization will be either issued or denied within 45 days after the close of the public review period.

(d) Notice of issuance or denial of an incidental harassment authorization will be published in the Federal Register within 30 days of issuance of a determination.

(e) Incidental harassment authorizations will be valid for a period of time not to exceed 1 year but may be renewed for additional periods of time not to exceed 1 year for each reauthorization.

(f) An incidental harassment authorization shall be modified, withdrawn, or suspended if, after notice and opportunity for public comment, the Assistant Administrator determines that:

(1) The conditions and requirements prescribed in the authorization are not being substantially complied with; or

(2) The authorized taking, either individually or in combination with other authorizations, is having, or may have, more than a negligible impact on the species or stock or, where relevant, an unmitigable adverse impact on the availability of the species or stock for subsistence uses.

(g) The requirement for notice and opportunity for public review in paragraph (f) of this section shall not apply if the Assistant Administrator determines that an emergency exists that poses a significant risk to the well-being of the species or stocks of marine mammals concerned.

(h) A violation of any of the terms and conditions of an incidental harassment authorization shall subject the holder and/or any individual who is operating under the authority of the holder's incidental harassment authorization to penalties provided in the MMPA.

§ 216.108 Requirements for monitoring and reporting under incidental harassment authorizations for Arctic waters.

(a) Holders of an incidental harassment authorization in Arctic waters and their employees, agents, and designees must cooperate with the National Marine Fisheries Service and other designated Federal, state, or local agencies to monitor the impacts of their activity on marine mammals. Unless stated otherwise within an incidental harassment authorization, the holder of an incidental harassment authorization effective in Arctic waters must notify the Alaska Regional Director, National Marine Fisheries Service, of any activities that may involve a take by incidental harassment in Arctic waters at least 14 calendar days prior to commencement of the activity.
(b) Holders of incidental harassment authorizations effective in Arctic waters may be required by their authorization to designate at least one qualified biological observer or another appropriately experienced individual to observe and record the effects of activities on marine mammals. The number of observers required for monitoring the impact of the activity on marine mammals will be specified in the incidental harassment authorization. If observers are required as a condition of the authorization, the observer(s) must be approved in advance by the National Marine Fisheries Service.

(c) The monitoring program must, if appropriate, document the effects (including acoustical) on marine mammals and document or estimate the actual level of take. The requirements for monitoring plans, as specified in the incidental harassment authorization, may vary depending on the activity, the location, and the time.

(d) Where the proposed activity may affect the availability of a species or stock of marine mammal for taking for subsistence purposes, proposed monitoring plans or other research proposals must be independently peer-reviewed prior to issuance of an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart. In order to complete the peer-review process within the time frames mandated by the MMPA for an incidental harassment authorization, a proposed monitoring plan submitted under this paragraph must be submitted to the Assistant Administrator no later than the date of submission of the application for an incidental harassment authorization under this subpart.

(f)(1) As specified in the incidental harassment authorization, the holder of an incidental harassment authorization for Arctic waters must submit reports to the Assistant Administrator within 90 days of completion of any individual components of the activity (if any), within 90 days of completion of the activity, but no later than 120 days prior to expiration of the incidental harassment authorization, whichever is earlier. This report must include the following information:

(i) Dates and type(s) of activity;
(ii) Dates and location(s) of any activities related to monitoring the effects on marine mammals; and
(iii) Results of the monitoring activities, including an estimate of the actual level and type of take, species name and numbers of each species observed, direction of movement of species, and any observed changes or modifications in behavior.

(2) Monitoring reports will be reviewed by the Assistant Administrator and, if determined to be incomplete or inaccurate, will be returned to the holder of the authorization with an explanation of why the report is being returned. If the authorization holder disagrees with the findings of the Assistant Administrator, the holder may request an independent peer review of the report. Failure to submit a complete and accurate report may result in a delay in processing future authorization requests.

(g) Results of any behavioral, feeding, or population studies, that are conducted supplemental to the monitoring program, should be made available to the National Marine Fisheries Service before applying for an incidental harassment authorization for the following year.

Subpart J—Taking of Ringed Seals Incidental to On-Ice Seismic Activities

SOURCE: 63 FR 5283, Feb. 2, 1998, unless otherwise noted.

§ 216.111 Specified activity and specified geographical region.

Regulations in this subpart apply only to the incidental taking of ringed seals (Phoca hispida) and bearded seals (Ergnathus barbatus) by U.S. citizens engaged in on-ice seismic exploratory and associated activities over the Outer Continental Shelf of the Beaufort Sea of Alaska, from the shore outward to 45 mi (72 km) and from Point Barrow east to Demarcation Point, from January 1 through May 31 of any calendar year.

§ 216.112 Effective dates.

Regulations in this subpart are effective from February 2, 1998 through December 31, 2002.

§ 216.113 Permissible methods.

The incidental, but not intentional, taking of ringed and bearded seals from January 1 through May 31 by U.S. citizens holding a Letter of Authorization, issued under § 216.106, is permitted during the course of the following activities:

(a) On-ice geophysical seismic activities involving vibrator-type, airgun, or other energy source equipment shown to have similar or lesser effects.
(b) Operation of transportation and camp facilities associated with seismic activities.

§ 216.114 Mitigation.

(a) All activities identified in § 216.113 must be conducted in a manner that minimizes to the greatest extent practicable adverse effects on ringed and bearded seals and their habitat.
(b) All activities identified in § 216.113 must be conducted as far as practicable from any observed ringed or bearded seal or ringed seal lair. No energy source must be placed over an observed ringed seal lair, whether or not any seal is present.

§ 216.115 Requirements for monitoring and reporting.

(a) Holders of Letters of Authorization must designate qualified on-site individuals, as specified in the Letter of Authorization, to observe and record the presence of ringed or bearded seals and ringed seal lairs along shot lines and around camps, and the information required in paragraph (d) of this section.
(b) Holders of Letters of Authorization must conduct additional monitoring as required under an annual Letter of Authorization.
(d) An annual report must be submitted to the Assistant Administrator for Fisheries within 90 days after completing each year’s activities and must include the following information:
(1) Location(s) of survey activities.
(2) Level of effort (e.g., duration, area surveyed, number of surveys), methods used, and a description of habitat (e.g., ice thickness, surface topography) for each location.
(3) Numbers of ringed seals, bearded seals, or other marine mammals observed, proximity to seismic or associated activities, and any seal reactions observed for each location.
(4) Numbers of ringed seal lairs observed and proximity to seismic or associated activities for each location.
(5) Other information as required in a Letter of Authorization.

(a) To incidentally take ringed and bearded seals pursuant to these regulations, each company conducting seismic operations between January 1 and May 31 in the geographical area described in § 216.111, must apply for and obtain a Letter of Authorization in accordance with § 216.106.
(b) The application must be submitted to the National Marine Fisheries Service at least 90 days before the activity is scheduled to begin.
(c) Applications for Letters of Authorization and for renewals of Letters of Authorization must include the following:
(1) Name of company requesting the authorization;
(2) A description of the activity including method to be used (vibroseis,
 § 216.120 Specified activity and specified geographical region.

(a) Regulations in this subpart apply only to the incidental taking of those marine mammals specified in paragraph (b) of this section by U.S. citizens engaged in:

(1) Launching up to 10 Minuteman and Peacekeeper missiles each year from Vandenberg Air Force Base, for a total of up to 50 missiles over the 5-year authorization period,

(2) Launching up to 20 rockets each year from Vandenberg Air Force Base, for a total of up to 100 rocket launches over the 5-year authorization period,

(3) Aircraft flight test operations, and

(4) Helicopter operations from Vandenberg Air Force Base.

(b) The incidental take of marine mammals on Vandenberg Air Force Base and in waters off southern California, under the activity identified in paragraph (a) of this section, is limited to the following species: Harbor seals (Phoca vitulina), California sea lions (Zalophus californianus), northern elephant seals (Mirounga angustirostris), northern fur seals (Callorhinus ursinus),
§ 216.121 Guadalupe fur seals (Arctocephalus townsendi), and Steller sea lions (Eumetopias jubatus).

§ 216.122 Permissible methods of taking.

(a) Under Letters of Authorization issued pursuant to §216.106, the 30th Space Wing, U.S. Air Force, its contractors, and clients, may incidentally, but not intentionally, take marine mammals by harassment, within the area described in §216.120, provided all terms, conditions, and requirements of these regulations and such Letter(s) of Authorization are complied with.

(b) [Reserved]

§ 216.123 Prohibitions.

Notwithstanding takings authorized by §216.120 and by a Letter of Authorization issued under §216.106, no person in connection with the activities described in §216.120 shall:

(a) Take any marine mammal not specified in §216.120(b);

(b) Take any marine mammal specified in §216.120(b) other than by incidental, unintentional harassment;

(c) Take a marine mammal specified in §216.120(b) if such take results in more than a negligible impact on the species or stocks of such marine mammal; or

(d) Violate, or fail to comply with, the terms, conditions, and requirements of these regulations or a Letter of Authorization issued under §216.106.

§ 216.124 Mitigation.

(a) The activity identified in §216.120(a) must be conducted in a manner that minimizes, to the greatest extent possible, adverse impacts on marine mammals and their habitats. When conducting operations identified in §216.120, the following mitigation measures must be utilized:

(1) All aircraft and helicopter flight paths must maintain a minimum distance of 1,000 ft (305 m) from recognized seal haulouts and rookeries (e.g., Point Sal, Purisima Point, Rocky Point), except in emergencies or for real-time security incidents (e.g., search-and-rescue, firefighting) which may require approaching pinniped rookeries closer than 1,000 ft (305 m).

(2) For missile and rocket launches, unless constrained by other factors including, but not limited to, human safety, national security or launch trajectories, in order to ensure minimum negligible impacts of launches on harbor seals and other pinnipeds, holders of Letters of Authorization must avoid, whenever possible, launches during the harbor seal pupping season of February through May.

(3) For Titan IV launches only, the holder of that Letter of Authorization must avoid launches, whenever possible, which predict a sonic boom on the Northern Channel Islands during harbor seal, elephant seal, and California sea lion pupping seasons.

(4) If post-launch surveys determine that an injurious or lethal take of a marine mammal has occurred, the launch procedure and the monitoring methods must be reviewed, in cooperation with NMFS, and appropriate changes must be made through modification to a Letter of Authorization, prior to conducting the next launch under that Letter of Authorization.

(5) Additional mitigation measures as contained in a Letter of Authorization.

(b) [Reserved]

§ 216.125 Requirements for monitoring and reporting.

(a) Holders of Letters of Authorization issued pursuant to §216.106 for activities described in §216.120(a) are required to cooperate with the National Marine Fisheries Service, and any other Federal, state or local agency monitoring the impacts of the activity on marine mammals. Unless specified otherwise in the Letter of Authorization, the Holder of the Letter of Authorization must notify the Administrator, Southwest Region, National Marine Fisheries Service, by letter or telephone, at least 2 weeks prior to activities possibly involving the taking of marine mammals.

(b) Holders of Letters of Authorization must designate qualified on-site individuals, as specified in the Letter of Authorization, to:
§ 216.126 Applications for Letters of Authorization.

(a) To incidentally take harbor seals and other marine mammals pursuant to these regulations, either the U.S. citizen (see definition at § 216.103) conducting the activity or the 30th Space Wing on behalf of the U.S. citizen conducting the activity, must apply for and obtain a Letter of Authorization in accordance with § 216.106.

(b) The application must be submitted to the National Marine Fisheries Service at least 30 days before the activity is scheduled to begin.

(c) Applications for Letters of Authorization and for renewals of Letters of Authorization must include the following:

(1) Name of the U.S. citizen requesting the authorization,

(2) A description of the activity, the dates of the activity, and the specific location of the activity, and

(3) Plans to monitor the behavior and effects of the activity on marine mammals.

(d) A copy of the Letter of Authorization must be in the possession of the persons conducting activities that may
§ 216.127 Renewal of Letters of Authorization.

A Letter of Authorization issued under §216.126 for the activity identified in §216.120(a) will be renewed annually upon:
(a) Timely receipt of the reports required under §216.125(d), which have been reviewed by the Assistant Administrator and determined to be acceptable;
(b) A determination that the mitigation measures required under §216.124 and the Letter of Authorization have been undertaken; and
(c) A notice of issuance of a Letter of Authorization or a renewal of a Letter of Authorization will be published in the FEDERAL REGISTER within 30 days of issuance.

§ 216.128 Modifications of Letters of Authorization.

(a) In addition to complying with the provisions of §216.106, except as provided in paragraph (b) of this section, no substantive modification, including withdrawal or suspension, to the Letter of Authorization issued pursuant to §216.106 and subject to the provisions of this subpart shall be made until after notice and an opportunity for public comment.
(b) If the Assistant Administrator determines that an emergency exists that poses a significant risk to the well-being of the species or stocks of marine mammals specified in §216.106(b) or that significantly and detrimentally alters the scheduling of launches, a Letter of Authorization issued pursuant to §216.106 may be substantively modified without a prior notice and an opportunity for public comment. A notice will be published in the FEDERAL REGISTER subsequent to the action.

Subpart L—Taking of Marine Mammals Incidental to Power Plant Operations

SOURCE: 64 FR 28120, May 25, 1999, unless otherwise noted.

EFFECTIVE DATE NOTE: At 64 FR 28120, May 25, 1999, subpart L was added, effective July 1, 1999 through June 30, 2004.

§ 216.130 Specified activity, specified geographical region, and incidental take levels.

(a) Regulations in this subpart apply only to the incidental taking of harbor seals (Phoca vitulina), gray seals (Halichoerus grypus), harp seals (Phoca groenlandica), and hooded seals (Cystophora cristata) by U.S. citizens engaged in power plant operations at the Seabrook Station nuclear power plant, Seabrook, NH.
(b) The incidental take of harbor, gray, harp, and hooded seals under the activity identified in this section is limited to 20 harbor seals and 4 of any combination of gray, harp, and hooded seals for each year of the authorization.

§ 216.131 Effective dates.

Regulations in this subpart are effective from July 1, 1999 through June 30, 2004.

§ 216.132 Permissible methods of taking.

Under a Letter of Authorization issued to North Atlantic Energy Services Corporation for Seabrook Station, the North Atlantic Energy Services Corporation may incidentally, but not intentionally, take marine mammals specified in §216.130 in the course of operating the station's intake cooling water system.

§ 216.133 Prohibitions.

Notwithstanding takings authorized by §216.130(a) and by the Letter of Authorization, issued under §216.106, the following activities are prohibited:
(a) The taking of harbor seals, gray seals, harp seals, and hooded seals that is other than incidental.
(b) The taking of any marine mammal not authorized in this applicable subpart or by any other law or regulation.
(c) The violation of, or failure to comply with, the terms, conditions, and requirements of this part or a Letter of Authorization issued under §216.106.

§ 216.134 Mitigation requirements.

The holder of the Letter of Authorization is required to report, within 6 months from the issuance of a final
rule, to the Administrator, Northeast Region, NMFS, on possible mitigation measures effecting the least practicable adverse impact on the seals specified in §216.130. The report shall also include a recommendation of which measures, if any, the holder could feasibly implement. A description of any mitigation measures that Seabrook Station has considered, but determined would not be feasible, must be included as well. After submission of such report, NMFS shall determine whether the holder of the Letter of Authorization must implement measures to effect the least practicable adverse impact on the seals. If NMFS determines that such measures must be implemented then NMFS shall specify, after consultation with the holder of the Letter of Authorization, the schedule and other conditions for implementation of the measures. Implementation of such measures must be completed no later than 42 months after the date of issuance of the final rule. Failure of the holder of the Letter of Authorization to implement such measures in accordance with the NMFS specifications may be grounds to invalidate the Letter of Authorization.

§ 216.135 Monitoring and reporting.

(a) The holder of the Letter of Authorization is required to cooperate with NMFS and any other Federal, state, or local agency monitoring the impacts of the activity on harbor, gray, harp, or hooded seals.

(b) The holder of the Letter of Authorization must designate a qualified individual or individuals capable of identifying any seal or seal parts or marine mammal or marine mammal parts, that occur in the intake circulating system, including the intake transition structure, both forebays, and any marine mammal or marine mammal parts observed as a result of screen washings conducted.

(c) The holder of the Letter of Authorization must conduct at least two daily visual inspections of the circulating water and service water forebays during the period specified in the Letter of Authorization.

(d) The holder of the Letter of Authorization must conduct at least daily inspections of the intake transition structure from April 1 through December, unless weather conditions prevent safe access to the structure.

(e) The holder of the Letter of Authorization must conduct screen washings at least daily during the months of higher incidents of observed takes and this period will be specified in the Letter of Authorization. During the months not specified in the LOA, screen washings will be conducted twice a week. Examination of the debris must be conducted to determine if any seal remains are present.

(f) The holder of the Letter of Authorization must report orally to the Northeast Regional Administrator, NMFS, by telephone or other acceptable means, any marine mammals or marine mammal parts found in the locations specified in §216.135(b) through (e). Such oral reports must be made by the close of the next business day following the finding of any marine mammal or marine mammal parts.

(g) The holder of the Letter of Authorization must arrange to have a necropsy examination performed by qualified individuals on any marine mammal or marine mammal parts recovered through monitoring as specified under §216.135(b) through (e).

(h) The holder of the Letter of Authorization must provide written notification to the Administrator, Northeast Region, NMFS, of such marine mammal or marine mammal parts found within 30 days from the time of the discovery. This report must contain the results of any examinations or necropsies of the marine mammals in addition to any other information relating to the circumstances of the take.

(i) An annual report, identifying mitigation measures implemented to effect the least practicable adverse impact on the seals and/or are being considered for implementation pursuant to the requirements specified at §216.134, must be submitted to the Administrator, Northeast Region, NMFS, within 30 days prior to the expiration date of the issuance of the Letter of Authorization.

(a) A Letter of Authorization issued under §216.106 for the activity identified in §216.130(a) may be renewed annually provided the following conditions and requirements are satisfied:

(1) Timely receipt of the reports required under §216.135, which have been reviewed by the Administrator, Northeast Region, NMFS, and determined to be acceptable;

(2) A determination that the maximum incidental take authorizations in §216.130(b) will not be exceeded; and

(3) A determination that research on mitigation measures required under §216.134(a) and the Letter of Authorization have been undertaken.

(b) If a species’ annual incidental take authorization is exceeded, NMFS will review the documentation submitted under §216.135, to determine whether or not the taking is having more than a negligible impact on the species or stock involved. The Letter of Authorization may be renewed provided a negligible impact determination is made and other conditions and requirements specified in §216.136(a) are satisfied, and provided that any modifications of the Letter of Authorization that may be required are done pursuant to §216.137.

(c) Notice of issuance of a renewal of the Letter of Authorization will be published in the Federal Register within 30 days of issuance.

§ 216.137 Modifications to the Letter of Authorization.

(a) In addition to complying with the provisions of §216.106, except as provided in paragraph (b) of this section, no substantive modification, including withdrawal or suspension, to the Letter of Authorization issued pursuant to §216.106 and subject to the provisions of this subpart shall be made until after notice and an opportunity for public comment. For purposes of this paragraph, renewal of a Letter of Authorization under §216.136, without modification, is not considered a substantive modification.

(b) If NMFS determines that an emergency exists that poses a significant risk to the well-being of the species or stocks of marine mammals specified in §216.130, the Letter of Authorization issued pursuant to this section may be substantively modified without prior notice and an opportunity for public comment. Notification will be published in the Federal Register subsequent to the action.

§§ 216.138–216.140 [Reserved]

Subpart M—Taking of Bottlenose Dolphins and Spotted Dolphins Incidental to Oil and Gas Structure Removal Activities

EFFECTIVE DATE NOTE: At 60 FR 53145, Oct. 12, 1995, subpart E to part 228 was added, effective Nov. 13, 1995 through Nov. 13, 2000. At 61 FR 15887, Apr. 10, 1996, subpart E to part 228 was redesignated as subpart M to part 216.

§ 216.141 Specified activity and specified geographical region.

(a) Regulations in this subpart apply only to the incidental taking of marine mammals by U.S. citizens engaged in removing oil and gas drilling and production structures in state waters and on the Outer Continental Shelf in the Gulf of Mexico adjacent to the coasts of Texas, Louisiana, Alabama, Mississippi, and Florida. The incidental, but not intentional, taking of marine mammals by U.S. citizens holding a Letter of Authorization is permitted during the course of severing pilings, well conductors, and related supporting structures, and other activities related to the removal of the oil well structure.

(b) The incidental take of marine mammals under the activity identified in paragraph (a) of this section is limited annually to a combined total of no more than 200 takings by harassment of bottlenose dolphins (Tursiops truncatus) and spotted dolphins (Stenella frontalis and S. attenuata).

§ 216.142 Effective dates.

Regulations in this subpart are effective from November 13, 1995 through November 13, 2000.
§ 216.143 Permissible methods of taking; mitigation.

(a) The use of the following means in conducting the activities identified in § 216.141 is permissible: Bulk explosives, shaped explosive charges, mechanical or abrasive cutters, and underwater arc cutters.

(b) All activities identified in § 216.141 must be conducted in a manner that minimizes, to the greatest extent practicable, adverse effects on bottlenose dolphins, spotted dolphins, and their habitat. When using explosives, the following mitigation measures must be utilized:

(1)(i) If bottlenose or spotted dolphins are observed within 3,000 ft (910 m) of the platform prior to detonating charges, detonation must be delayed until either the marine mammal(s) are more than 3,000 ft (910 m) from the platform or actions (e.g., operating a vessel in the vicinity of the dolphins to stimulate bow riding, then steering the vessel away from the structure to be removed) are successful in removing them at least 3,000 ft (910 m) from the detonation site;

(ii) Whenever the conditions described in paragraph (b)(1)(i) of this section occur, the aerial survey required under § 216.145(b)(1) must be repeated prior to detonation of charges if the timing requirements of § 216.145(b)(1) cannot be met.

(2) Detonation of explosives must occur no earlier than 1 hour after sunrise and no later than 1 hour before sunset;

(3) If weather and/or sea conditions preclude adequate aerial, shipboard or subsurface surveillance, detonations must be delayed until conditions improve sufficiently for surveillance to be undertaken; and

(4) Detonations must be staggered by a minimum of 0.9 seconds for each group of charges.

§ 216.144 Prohibitions.

Notwithstanding takings authorized by § 216.143 or by a Letter of Authorization issued under § 216.106, the following activities are prohibited:

(a) The taking of a marine mammal that is other than unintentional, except that the intentional passive herding of dolphins from the vicinity of the platform may be authorized under section 109(h) of the Act as described in a Letter of Authorization;

(b) The violation of, or failure to comply with, the terms, conditions, and requirements of this part or a Letter of Authorization issued or renewed under § 216.106 or § 216.146;

(c) The incidental taking of any marine mammal of a species either not specified in this subpart or whenever the incidental taking authorization for authorized species has been reached; and

(d) The use of single explosive charges having an impulse and pressure greater than that generated by a 50-lb (22.7 kg) explosive charge detonated outside the rig piling.

§ 216.145 Requirements for monitoring and reporting.

(a) Observer(s) approved by the National Marine Fisheries Service in advance of the detonation must be used to monitor the area around the site prior to, during, and after detonation of charges.

(b)(1) Both before and after each detonation episode, an aerial survey by NMFS-approved observers must be conducted for a period not less than 30 minutes within 1 hour of the detonation episode. To ensure that no marine mammals are within the designated 3,000 ft (1,000 yd, 914 m) safety zone nor are likely to enter the designated safety zone prior to or at the time of detonation, the pre-detonation survey must encompass all waters within one nautical mile of the structure.

(2) A second post-detonation aerial or vessel survey of the detonation site must be conducted no earlier than 48 hours and no later than 1 week after the oil and gas structure is removed, unless a systematic underwater survey, either by divers or remotely-operated vehicles, dedicated to marine mammals and sea turtles, of the site has been successfully conducted within 24 hours of the detonation event. The aerial or vessel survey must be systematic and
§ 216.146
Concentrate down-current from the structure.

(3) The NMFS observer may waive post-detonation monitoring described in paragraph (b)(2) of this section provided no marine mammals were sighted by the observer during either the required 48 hour pre-detonation monitoring period or during the pre-detonation aerial survey.

(c) During all diving operations (working dives as required in the course of the removals), divers must be instructed to scan the subsurface areas surrounding the platform (detonation) sites for bottlenose or spotted dolphins and if marine mammals are sighted to inform either the U.S. government observer or the agent of the holder of the Letter of Authorization immediately upon surfacing.

(d) (1) A report summarizing the results of structure removal activities, mitigation measures, monitoring efforts, and other information as required by a Letter of Authorization, must be submitted to the Director, NMFS, Southeast Region, 9721 Executive Center Drive N, St. Petersburg, FL 33702 within 30 calendar days of completion of the removal of the rig.

(2) NMFS will accept the U.S. Government observer report as the activity report if all requirements for reporting contained in the Letter of Authorization are provided to that observer before the observer’s report is complete.

§ 216.147
Renewal of Letters of Authorization.

(a) A Letter of Authorization issued under §216.106 for the activity identified in §216.141 will be renewed annually upon:

(1) Timely receipt of the reports required under §216.145(d), which have been reviewed by the Assistant Administrator and determined to be acceptable;

(2) A determination that the maximum incidental take authorizations in §216.141(b) will not be exceeded; and

(3) A determination that the mitigation measures required under §216.143(b) and the Letter of Authorization have been undertaken.

(b) If a species’ annual authorization is exceeded, the Assistant Administrator will review the documentation submitted with the annual reports required under §216.145(d), to determine that the taking is not having more than a negligible impact on the species or stock involved.

(c) Notice of issuance of a renewal of the Letter of Authorization will be published in the Federal Register.

§ 216.148
Modifications to Letters of Authorization.

(a) In addition to complying with the provisions of §216.106, except as provided in paragraph (b) of this section, no substantive modification, including withdrawal or suspension, to the Letter of Authorization issued pursuant to §216.106 and subject to the provisions of this subpart shall be made until after notice and an opportunity for public comment. For purposes of this paragraph, renewal of a Letter of Authorization under §216.147, without modification, is not considered a substantive modification.

(b) If the Assistant Administrator determines that an emergency exists that poses a significant risk to the well-being of the species or stocks of marine mammals specified in §216.141(b), the Letter of Authorization issued pursuant to §216.106, or renewed pursuant to this section may be substantively modified without prior notice and an
Subpart N—Taking of Marine Mammals Incidental to Underwater Detonation of Conventional Explosives by the Department of Defense

§ 216.151 Specified activity, geographical region, and incidental take levels.

(a) Regulations in this subpart apply only to the incidental taking of marine mammals specified in paragraph (b) of this section by U.S. citizens engaged in the detonation of conventional military explosives within the waters of the Outer Sea Test Range of the Naval Air Warfare Center, Pt. Mugu, Ventura County, CA.

(b) The incidental take of marine mammals under the activity identified in paragraph (a) of this section is limited annually to the following species and species groups:

§ 216.152 Effective dates.

Regulations in this subpart are effective from March 3, 1994, through March 3, 1999.

§ 216.153 Permissible methods of taking; mitigation.

(a) U.S. citizens holding a Letter of Authorization issued pursuant to §216.106 may incidentally, but not intentionally, take marine mammals by harassment, injury or killing in the course of the detonation of conventional explosives up to the following maximum annual level within the area described in §216.151(a):

1. 12 detonations of 10,000 lbs (4,536 kg);
2. 2 detonations of 1,200 lbs (544 kg);
3. 10 detonations of 100 lbs (45 kg);
4. 10 detonations of 10 lbs (4.5 kg);

(b) The activity identified in paragraph (a) of this section must be conducted in a manner that minimizes, to the greatest extent possible, adverse impacts on marine mammals and their habitat. When detonating explosives, the following mitigation measures must be utilized:

1. If marine mammals are observed within the designated safety zone prescribed in the Letter of Authorization, or on a course that will put them within the safety zone prior to detonation, detonation must be delayed until the marine mammals are no longer within the safety zone.

2. If weather and/or sea conditions preclude adequate aerial surveillance, detonation must be delayed until conditions improve sufficiently for aerial surveillance to be undertaken.

3. If post-test surveys determine that an injurious or lethal take of a marine mammal has occurred, the test procedure and the monitoring methods must be reviewed and appropriate changes must be made prior to conducting the next project.

§ 216.154 Prohibitions.

Notwithstanding takings authorized by §216.153 or by a Letter of Authorization issued under §216.106, the following activities are prohibited:

(a) The taking of a marine mammal that is other than unintentional;
(b) The violation of, or failure to comply with, the terms, conditions, and requirements of this part or a Letter of Authorization issued or renewed under §216.106 or §216.156; and
(c) The incidental taking of any marine mammal of a species either not specified in this subpart or whose taking authorization for the year has been reached.

§216.155 Requirements for monitoring and reporting.

(a) The holder of the Letter of Authorization is required to cooperate with the National Marine Fisheries Service and any other Federal, state or local agency monitoring the impacts of the activity on marine mammals. The holder must notify the Director, Southwest Region, National Marine Fisheries Service, 501 West Ocean Boulevard, suite 4200, Long Beach, CA (Telephone: (310) 980-4001), at least 2 weeks prior to activities involving the detonation of explosives in order to satisfy paragraph (f) of this section.

(b) The holder of the Letter of Authorization must designate a qualified on-site individual(s) to record the effects of explosives detonation on marine mammals that inhabit the Outer Sea Test Range.

(c) The primary test area, and if necessary, secondary and tertiary test areas, in the Outer Sea Test Range, must be surveyed by marine mammal biologists and other trained individuals, and the marine mammal populations monitored, approximately 48 hours prior to a scheduled detonation, on the day of detonation, and for a period of time specified in the Letter of Authorization after each test or project. Monitoring shall include, but not necessarily be limited to, aerial surveillance sufficient to ensure that no marine mammals are within the designated safety zone nor are likely to enter the designated safety zone prior to or at the time of detonation.

(d)(1) Under the direction of a certified marine mammal veterinarian, examination and recovery of any dead or injured marine mammals will be conducted. Necropsies will be performed and tissue samples taken from any dead animals. Upon completion of the necropsy, animals not retained for shoreside examination, will be tagged and returned to the sea. The occurrence of live marine mammals will also be documented.

(2) Activities related to the monitoring described in paragraph (d)(1) of this section or the Letter of Authorization issued under this part may include the retention of marine mammals without the need for a separate scientific research permit. The use of such marine mammals in other scientific research may be authorized pursuant to 50 CFR parts 216 and 220.

(e) At its discretion, the National Marine Fisheries Service may place an observer on either the towing vessel, target vessel, or both, and on any ship or aircraft involved in marine mammal reconnaissance, or monitoring either prior to, during, or after explosives detonation in order to monitor the impact on marine mammals.

(f) A summary report must be submitted to the Assistant Administrator for Fisheries, NOAA, within 90 days after the conclusion of any explosives detonation project. This report must include the following information:

(1) Date and time of the test(s);
(2) A summary of the pre-test and post-test activities related to mitigating and monitoring the effects of explosives detonation on marine mammal populations; and
(3) Results of the monitoring program, including numbers by species/stock of any marine mammals noted injured or killed as a result of the detonation and numbers that may have been harassed due to presence within the safety zone.

(g) An annual report must be submitted to the Assistant Administrator for Fisheries, NOAA, no later than 120 days prior to the date of expiration of the annual Letter of Authorization in order for issuance of a Letter of Authorization for the following year. This annual report must contain the following information:

(1) Date and time of all tests conducted under the expiring Letter of Authorization;
(2) A description of all pre-test and post-test activities related to mitigating and monitoring the effects of explosives detonation on marine mammal populations;

(3) Results of the monitoring program, including numbers by species/stock of any marine mammals noted injured or killed as a result of the detonation and numbers that may have been harassed due to presence within the designated safety zone;

(4) If one or more species’ take levels have been reached or exceeded during the previous year, additional documentation must be provided on the taking and a description of any measures that will be taken in the following year to prevent exceeding the authorized incidental take level.

(5) Results of any population assessment studies made on marine mammals in the Outer Sea Test Range during the previous year.

§ 216.156 Renewal of Letter of Authorization.

(a) A Letter of Authorization issued under § 216.106 for the activity identified in § 216.151(a) will be renewed annually upon:

1. Timely receipt of the reports required under § 216.155(f) and (g), which have been reviewed by the Assistant Administrator for Fisheries, NOAA, and determined to be acceptable;

2. A determination that the maximum incidental take authorizations in § 216.151(b) will not be exceeded; and

3. A determination that the mitigation measures required under § 216.153(b) and the Letter of Authorization have been undertaken.

(b) If a species’ annual authorization is exceeded, the National Marine Fisheries Service will review the documentation submitted with the annual report required under § 216.155(g), to determine that the taking is not having more than a negligible impact on the species or stock involved.

(c) Notice of issuance of a renewal of the Letter of Authorization will be published in the Federal Register.

Subpart O—Taking of Marine Mammals Incidental to Shock Testing the USS SEAWOLF by Detonation of Conventional Explosives in the Offshore Waters of the U.S. Atlantic Coast

SOURCE: 63 FR 66076, Dec. 1, 1998, unless otherwise noted.

§ 216.161 Specified activity, geographical region, and incidental take levels.

(a) Regulations in this subpart apply only to the incidental taking of marine mammals specified in paragraph (b) of this section by U.S. citizens engaged in the detonation of conventional military explosives within the waters of the U.S. Atlantic Coast offshore.
§ 216.162

Mayport, FL for the purpose of shock testing the USS SEAWOLF.

(b) The incidental take of marine mammals under the activity identified in paragraph (a) of this section is limited to the following species: Blue whale (Balaenoptera musculus); fin whale (B. physalus); sei whale (B. borealis); Bryde's whale (B. edeni); minke whale (B. acutorostrata); humpback whale (Megaptera novaeangliae); northern right whale (Eubalaena glacialis); sperm whale (Physeter macrocephalus); dwarf sperm whale (Kogia simus); pygmy sperm whale (K. breviceps); pilot whales (Globicephala melas, G. macrorhynchus); Atlantic spotted dolphin (Stenella frontalis); Pantropical spotted dolphin (S. attenuata); striped dolphin (Stenella coeruleoalba); spinner dolphin (S. longirostris); Clymene dolphin (S. clamydus); bottlenose dolphin (Tursiops truncatus); Risso's dolphin (Grampus griseus); rough-toothed dolphin (Steno bredanensis); killer whale (Orcinus orca); false killer whale (Pseudorca crassidens); pygmy killer whale (Feresa attenuata); Fraser's dolphin (Lagenodelphis hosei); harbor porpoise (Phocoena phocoena); melon-headed whale (Peponocephala electra); northern bottlenose whale (Hyperoodon ampullatus); Cuvier's beaked whale (Ziphius cavirostris), Blainville's beaked whale (Mesoplodon densirostris); Gervais' beaked whale (M. europaeus); Sowerby's beaked whale (M. bidens); True's beaked whale (M. mirus); common dolphin (Delphinus delphis); and Atlantic white-sided dolphin (Lagenorhynchus acutus).

(c) The incidental take of marine mammals identified in paragraph (b) of this section is limited to a total of 1 mortality, 5 injuries and 1,788 harassment.

§ 216.163

Permissible methods of taking; mitigation.

(a) Under a Letter of Authorization issued pursuant to §216.106, the U.S. Navy may incidentally, but not intentionally, take marine mammals by harassment, injury or mortality in the course detonating five 4,536 kg (10,000 lb) conventional explosive charges within the area described in §216.161(a), provided all terms, conditions, and requirements of these regulations and such Letter of Authorization are complied with.

(b) The activity identified in paragraph (a) of this section must be conducted in a manner that minimizes, to the greatest extent possible, adverse impacts on marine mammals and their habitat. When detonating explosives, the following mitigation measures must be utilized:

1. If marine mammals are observed within the designated safety zone prescribed in the Letter of Authorization and on a course that will put them within the safety zone prior to detonation, detonation must be delayed until marine mammals are either no longer within the safety zone or are on a course within the buffer zone that is taking them away from the safety zone, except that no detonation will occur if a marine mammal listed as threatened or endangered under §17.11 of this title is detected within the buffer zone and subsequently cannot be detected until such time as sighting and acoustic teams have searched the area for 2.5 hours (approximately 3 times the typical large whale dive duration). If a northern right whale is seen within the safety or buffer zone, detonation must not occur until the animal is positively reacquired outside the buffer zone and at least one additional aerial monitoring of the safety range and buffer zone shows that no other right whales are present.

2. If weather and/or sea conditions as described in the Letter of Authorization preclude adequate aerial surveillance, detonation must be delayed until conditions improve sufficiently for aerial surveillance to be undertaken.
§ 216.165 Requirements for monitoring and reporting.

(a) The holder of the Letter of Authorization is required to cooperate with the National Marine Fisheries Service and any other Federal, state or local agency monitoring the impacts of the activity on marine mammals. The holder must notify the Administrator, Southeast Region at least 2 weeks prior to activities involving the detonation of explosives in order to satisfy paragraph (g) of this section.

(b) The holder of the Letter of Authorization must designate qualified on-site individuals, as specified in the Letter of Authorization, to record the effects of explosives detonation on marine mammals that inhabit the Atlantic Ocean test area.

(c) The Atlantic Ocean test area must be surveyed by marine mammal biologists and other trained individuals, and the marine mammal populations monitored, approximately 3 weeks prior to detonation, 48-72 hours prior to a scheduled detonation, on the day of detonation, and for a period of time specified in the Letter of Authorization after each detonation. Monitoring shall include, but not necessarily be limited to, aerial, shipboard, and acoustic surveillance sufficient to ensure that no marine mammals are within the designated safety zone nor are likely to enter the designated safety zone immediately prior to, or at the time of, detonation.

(d) Under the direction of a certified marine mammal veterinarian, examination and recovery of any dead or injured marine mammals will be conducted. Necropsies will be performed and tissue samples taken from any dead animals. After completion of the necropsy, animals not retained for shoreside examination will be tagged and returned to the sea. The occurrence of live marine mammals will also be documented.

(e) The holder of the Letter of Authorization is required to measure during the first detonation, and provide a report on, prior to the second detonation, the attenuation of the sound pressure levels of the HBX1 explosive charge. Measurements must be made at a number of distances from the detonation sufficient to verify the model predictions for the 3.7 km (2 nm) safety zone. Based upon the results of this test, the monitoring and safety zones described in the Letter of Authorization, may be modified accordingly.

(f) Activities related to the monitoring described in paragraphs (c) and (d) of this section, or in the Letter of Authorization issued under §216.106, including the retention of marine mammals, may be conducted without the need for a separate scientific research permit. The use of retained marine mammals for scientific research other than shoreside examination must be authorized pursuant to subpart D of this part.

(g) In coordination and compliance with appropriate Navy regulations, at its discretion, the National Marine Fisheries Service may place observer(s) on any ship or aircraft involved in marine mammal reconnaissance, or monitoring either prior to, during, or after explosives detonation in order to monitor the impact on marine mammals.

(h) A final report must be submitted to the Administrator, Southeast Region, no later than 120 days after completion of shock testing the USS
§ 216.166

SEAWOLF. This report must contain the following information:

(1) Date and time of all detonations conducted under the Letter of Authorization.

(2) A description of all pre-detonation and post-detonation activities related to mitigating and monitoring the effects of explosives detonation on marine mammal populations.

(3) Results of the monitoring program, including numbers by species/stock of any marine mammals noted injured or killed as a result of the detonation and numbers that may have been harassed due to presence within the designated safety zone.

(4) Results of coordination with coastal marine mammal/sea turtle stranding networks.

(i) A final report on results of necropsies of stranded marine mammals funded by the U.S. Navy must be submitted to the Director, Office of Protected Resources, no later than 18 months after completion of shock testing the USS SEAWOLF.

§ 216.166 Modifications to the Letter of Authorization.

(a) In addition to complying with the provisions of §216.106, except as provided in paragraph (b) of this section, no substantive modification, including withdrawal or suspension, to the Letter of Authorization issued pursuant to §216.106 and subject to the provisions of this subpart shall be made until after notice and an opportunity for public comment.

(b) If the Assistant Administrator determines that an emergency exists that poses a significant risk to the well-being of the species or stocks of marine mammals specified in §216.161(b), or that significantly and detrimentally alters the scheduling of explosives detonation within the area specified in §216.161(a), the Letter of Authorization issued pursuant to §216.106 may be substantively modified without prior notice and an opportunity for public comment. A notice will be published in the FEDERAL REGISTER subsequent to the action.

§§ 216.167-216.169 [Reserved]
Subparts P-Q [Reserved]
§ 222.102 Definitions.

Accelerator funnel means a device used to accelerate the flow of water through a shrimp trawl net.

Adequately covered means, with respect to species listed pursuant to section 4 of the Act, that a proposed conservation plan has satisfied the permit issuance criteria under section 10(a)(2)(B) of the Act for the species covered by the plan and, with respect to unlisted species, that a proposed conservation plan has satisfied the permit issuance criteria under section 10(a)(2)(B) of the Act that would otherwise apply if the unlisted species covered by the plan were actually listed. For the Services to cover a species under a conservation plan, it must be listed on the section 10(a)(1)(B) permit.

Alaska Regional Administrator means the Regional Administrator for the Alaska Region of the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, or their authorized representative. Mail sent to the Alaska Regional Administrator should be addressed: Alaska Regional Administrator, F/AK, Alaska Regional Office, National Marine Fisheries Service, NOAA, P.O. Box 21668 Juneau, AK 99802-1668.

Approved turtle excluder device (TED) means a device designed to be installed in a trawl net forward of the cod end for the purpose of excluding sea turtles from the net, as described in 50 CFR 223.207.

Assistant Administrator means the Assistant Administrator for Fisheries of the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, or his authorized representative. Mail sent to the Assistant Administrator should be addressed: Assistant Administrator for Fisheries, National Marine Fisheries Service, NOAA, 1315 East-West Highway, Silver Spring, MD 20910.

Atlantic Area means all waters of the Atlantic Ocean south of 36°33'00.8" N.
§ 222.102 50 CFR Ch. II (10-1-99 Edition)

lat. (the line of the North Carolina/Virginia border) and adjacent seas, other than waters of the Gulf Area, and all waters shoreward thereof (including ports).

Atlantic Shrimp Fishery—Sea Turtle Conservation Area (Atlantic SFSTCA) means the inshore and offshore waters extending to 10 nautical miles (18.5 km) offshore along the coast of the States of Georgia and South Carolina from the Georgia-Florida border (defined as the line along 30°42'45.6″ N. lat.) to the North Carolina-South Carolina border (defined as the line extending in a direction of 135°34'55″ from true north from the North Carolina-South Carolina land boundary, as marked by the border station on Bird Island at 33°51'07.9″ N. lat., 078°32'32.6″ W. long.).

Authorized officer means:
(1) Any commissioned, warrant, or petty officer of the U.S. Coast Guard;
(2) Any special agent or enforcement officer of the National Marine Fisheries Service;
(3) Any officer designated by the head of a Federal or state agency that has entered into an agreement with the Secretary or the Commandant of the Coast Guard to enforce the provisions of the Act; or
(4) Any Coast Guard personnel accompanying and acting under the direction of any person described in paragraph (1) of this definition.

Bait shrimper means a shrimp trawler that fishes for and retains its shrimp catch alive for the purpose of selling it for use as bait.

Beam trawl means a trawl with a rigid frame surrounding the mouth that is towed from a vessel by means of one or more cables or ropes.

Certificate of exemption means any document so designated by the National Marine Fisheries Service and signed by an authorized official of the National Marine Fisheries Service, including any document which modifies, amends, extends or renews any certificate of exemption.

Footrope means a weighted rope or cable attached to the lower lip (bottom edge) of the mouth of a trawl net along the forward most webbing.

Footrope length means the distance between the points at which the ends of the footrope are attached to the trawl net, measured along the forward-most webbing.

Foreign commerce includes, among other things, any transaction between persons within one foreign country, or

natural catastrophic event in areas prone to such events).

Commercial activity means all activities of industry and trade, including, but not limited to, the buying or selling of commodities and activities conducted for the purpose of facilitating such buying and selling. Provided, however, that it does not include the exhibition of commodities by museums or similar cultural or historical organizations.

Conservation plan means the plan required by section 10(a)(2)(A) of the Act that an applicant must submit when applying for an incidental take permit. Conservation plans also are known as “habitat conservation plans” or “HCPs.”

Conserved habitat areas means areas explicitly designated for habitat restoration, acquisition, protection, or other conservation purposes under a conservation plan.

Cooperative Agreement means an agreement between a state(s) and the National Marine Fisheries Service, NOAA, Department of Commerce, which establishes and maintains an active and adequate program for the conservation of resident species listed as endangered or threatened pursuant to section 6(c)(1) of the Endangered Species Act.

Fishing, or to fish, means:
(1) The catching, taking, or harvesting of fish or wildlife;
(2) The attempted catching, taking, or harvesting of fish or wildlife;
(3) Any other activity that can reasonably be expected to result in the catching, taking, or harvesting of fish or wildlife; or
(4) Any operations on any waters in support of, or in preparation for, any activity described in paragraphs (1) through (3) of this definition.

Footrope length means the distance between the points at which the ends of the footrope are attached to the trawl net, measured along the forward-most webbing.

Foreign commerce includes, among other things, any transaction between persons within one foreign country, or

natural catastrophic event in areas prone to such events).

Commercial activity means all activities of industry and trade, including, but not limited to, the buying or selling of commodities and activities conducted for the purpose of facilitating such buying and selling. Provided, however, that it does not include the exhibition of commodities by museums or similar cultural or historical organizations.

Conservation plan means the plan required by section 10(a)(2)(A) of the Act that an applicant must submit when applying for an incidental take permit. Conservation plans also are known as “habitat conservation plans” or “HCPs.”

Conserved habitat areas means areas explicitly designated for habitat restoration, acquisition, protection, or other conservation purposes under a conservation plan.

Cooperative Agreement means an agreement between a state(s) and the National Marine Fisheries Service, NOAA, Department of Commerce, which establishes and maintains an active and adequate program for the conservation of resident species listed as endangered or threatened pursuant to section 6(c)(1) of the Endangered Species Act.

Fishing, or to fish, means:
(1) The catching, taking, or harvesting of fish or wildlife;
(2) The attempted catching, taking, or harvesting of fish or wildlife;
(3) Any other activity that can reasonably be expected to result in the catching, taking, or harvesting of fish or wildlife; or
(4) Any operations on any waters in support of, or in preparation for, any activity described in paragraphs (1) through (3) of this definition.

Footrope means a weighted rope or cable attached to the lower lip (bottom edge) of the mouth of a trawl net along the forward most webbing.

Footrope length means the distance between the points at which the ends of the footrope are attached to the trawl net, measured along the forward-most webbing.

Foreign commerce includes, among other things, any transaction between persons within one foreign country, or
between persons in two or more foreign countries, or between a person within the United States and a person in one or more foreign countries, or between persons within the United States, where the fish or wildlife in question are moving in any country or countries outside the United States.

Four-seam, straight-wing trawl means a design of shrimp trawl in which the main body of the trawl is formed from a top panel, a bottom panel, and two side panels of webbing. The upper and lower edges of the side panels of webbing are parallel over the entire length.

Four-seam, tapered-wing trawl means a design of shrimp trawl in which the main body of the trawl is formed from a top panel, a bottom panel, and two side panels of webbing. The upper and lower edges of the side panels of webbing converge toward the rear of the trawl.

Gulf Area means all waters of the Gulf of Mexico west of 81° W. long. (the line at which the Gulf Area meets the Atlantic Area) and all waters shoreward thereof (including ports).

Gulf Shrimp Fishery-Sea Turtle Conservation Area (Gulf SFSTCA) means the offshore waters extending to 10 nautical miles (18.5 km) offshore along the coast of the States of Texas and Louisiana from the South Pass of the Mississippi River (west of 89°08′5″ W. long.) to the U.S.-Mexican border.

Habitat restoration activity means an activity that has the sole objective of restoring natural aquatic or riparian habitat conditions or processes.

Headrope means a rope that is attached to the upper lip (top edge) of the mouth of a trawl net along the forward-most webbing.

Headrope length means the distance between the points at which the ends of the headrope are attached to the trawl net, measured along the forward-most webbing.

Import means to land on, bring into, or introduce into, or attempt to land on, bring into, or introduce into any place subject to the jurisdiction of the United States, whether or not such landing, bringing, or introduction constitutes an importation within the meaning of the tariff laws of the United States.

Inshore means marine and tidal waters landward of the 72 COLREGS demarcation line (International Regulations for Preventing Collisions at Sea, 1972), as depicted or noted on nautical charts published by the National Oceanic and Atmospheric Administration (Coast Charts, 1:80,000 scale) and as described in 33 CFR part 80.

Leatherback conservation zone means that portion of the Atlantic Area lying north of a line along 28°24.6′ N. lat. (Cape Canaveral, FL).

Northeast Regional Administrator means the Regional Administrator for the Northeast Region of the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, or their authorized representative. Mail sent to the Northeast Regional Administrator should be addressed: Northeast Regional Administrator, F/NE, Northeast Regional Office, National Marine Fisheries Service, NOAA, One Blackburn Drive, Gloucester, MA 01930-2298.

Northwest Regional Administrator means the Regional Administrator for the Northwest Region of the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, or their authorized representative. Mail sent to the Northwest Regional Administrator should be addressed: Northwest Regional Administrator, F/NW, Northwest Regional Office, National Marine Fisheries Service, NOAA, 7600 Sand Point Way NE, Seattle, WA 98115-0070.

Office of Enforcement means the national fisheries enforcement office of the National Marine Fisheries Service. Mail sent to the Office of Enforcement should be addressed: Office of Enforcement, F/EN, National Marine Fisheries Service, NOAA, 8484 Suite 415, Georgia Ave., Silver Spring, MD 20910.

Office of Protected Resources means the national program office of the endangered species and marine mammal programs of the National Marine Fisheries Service. Mail sent to the Office of Protected Resources should be addressed: Office of Protected Resources, F/PR, National Marine Fisheries Service, NOAA, 1315 East West Highway, Silver Spring, MD 20910.
§ 222.102  Offshore means marine and tidal waters seaward of the 72 COLREGS demarcation line (International Regulations for Preventing Collisions at Sea, 1972), as depicted or noted on nautical charts published by the National Oceanic and Atmospheric Administration (Coast Charts, 1:80,000 scale) and as described in 33 CFR part 80.

Operating conservation program means those conservation management activities which are expressly agreed upon and described in a Conservation Plan or its Implementing Agreement. These activities are to be undertaken for the affected species when implementing an approved Conservation Plan, including measures to respond to changed circumstances.

Permit means any document so designated by the National Marine Fisheries Service and signed by an authorized official of the National Marine Fisheries Service, including any document which modifies, amends, extends, or renews any permit.

Person means an individual, corporation, partnership, trust, association, or any other private entity, or any officer, employee, agent, department, or instrumentality of the Federal government of any state or political subdivision thereof or of any foreign government.

Possession means the detention and control, or the manual or ideal custody of anything that may be the subject of property, for one's use and enjoyment, either as owner or as the proprietor of a qualified right in it, and either held personally or by another who exercises it in one's place and name. Possession includes the act or state of possessing and that condition of facts under which persons can exercise their power over a corporeal thing at their pleasure to the exclusion of all other persons. Possession includes constructive possession that which means not an actual but an assumed existence one claims to hold by virtue of some title, without having actual custody.

Pre-Act endangered species part means any sperm whale oil, including derivatives and products thereof, which was lawfully held within the United States on December 28, 1973, in the course of a commercial activity.

Properly implemented conservation plan means any conservation plan, implementing agreement, or permit whose commitments and provisions have been or are being fully implemented by the permittee.

Pusher-head trawl (chopsticks) means a trawl that is spread by two poles suspended from the bow of the trawler in an inverted "V" configuration.

Resident species means, for purposes of entering into cooperative agreements with any state pursuant to section 6(c) of the Act, a species that exists in the wild in that state during any part of its life.

Right whale means, as used in part 224 of this chapter, any whale that is a member of the western North Atlantic population of the northern right whale species (Eubalaena glacialis).

Roller trawl means a variety of beam trawl that is used, usually by small vessels, for fishing over uneven or vegetated sea bottoms.

Scrimshaw product means any art form which involves the substantial etching or engraving of designs upon, or the substantial carving of figures, patterns, or designs from any bone or tooth of any marine mammal of the order Cetacea. For purposes of this part, polishing or the adding of minor superficial markings does not constitute substantial etching, engraving, or carving.

Secretary means the Secretary of Commerce or an authorized representative.

Shrimp means any species of marine shrimp (Order Crustacea) found in the Atlantic Area or the Gulf Area, including, but not limited to:

2. White shrimp (Peneaus setiferus).
3. Pink shrimp (Peneaus duorarum).
4. Rock shrimp (Sicyonia brevirostris).
5. Royal red shrimp (Hymenopenaeus robustus).
6. Seabob shrimp (Xiphopenaeus kroyeri).

Shrimp trawler means any vessel that is equipped with one or more trawl nets and that is capable of, or used for, fishing for shrimp, or whose on-board or
landed catch of shrimp is more than 1 percent, by weight, of all fish comprising its on-board or landed catch.

Skimmer trawl means a trawl that is fished along the side of the vessel and is held open by a rigid frame and a lead weight. On its outboard side, the trawl is held open by one side of the frame extending downward and, on its inboard side, by a lead weight attached by cable or rope to the bow of the vessel.

Southeast Regional Administrator means the Regional Administrator for the Southeast Region of the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, or their authorized representative. Mail sent to the Southeast Regional Administrator should be addressed: Southeast Regional Administrator, F/SE, Southeast Regional Office, National Marine Fisheries Service, NOAA, 9721 Executive Center Drive N., St. Petersburg, FL 33702-2432.

Southwest Regional Administrator means the Regional Administrator for the Southwest Region of the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, or their authorized representative. Mail sent to the Southwest Regional Administrator should be addressed: Southwest Regional Administrator, F/SW, Southwest Regional Office, National Marine Fisheries Service, NOAA, 501 West Ocean Blvd, Suite 4200, Long Beach, CA 90802-4213.

Stretched mesh size means the distance between the centers of the two opposite knots in the same mesh when pulled taut.

Summer flounder means the species Paralichthys dentatus.

Summer flounder fishery-sea turtle protection area means all offshore waters, bounded on the north by a line along 37°05′ N. lat. (Cape Charles, VA) and bounded on the south by a line extending in a direction of 135°34′55″ from true north from the North Carolina-South Carolina land boundary, as marked by the border station on Bird Island at 33°51′07.9″ N. lat., 078°32′32.6″ W. long. (the North Carolina-South Carolina border). Summer flounder trawler means any vessel that is equipped with one or more bottom trawl nets and that is capable of, or used for, fishing for flounder or whose on-board or landed catch of flounder is more than 100 lb (45.4 kg).

Take means to harass, harm, pursue, shoot, wound, kill, trap, capture, or collect, or to attempt to harass, harm, pursue, shoot, wound, kill, trap, capture, or collect.

Taper, in reference to the webbing used in trawls, means the angle of a cut used to shape the webbing, expressed as the ratio between the cuts that reduce the width of the webbing by cutting into the panel of webbing through one row of twine (bar cuts) and the cuts that extend the length of the panel of webbing by cutting straight aft through two adjoining rows of twine (point cuts). For example, sequentially cutting through the lengths of twine on opposite sides of a mesh, leaving an uncut edge of twines all lying in the same line, produces a relatively strong taper called "all-bars"; making a sequence of 4-bar cuts followed by 1-point cut produces a more gradual taper called "4 bars to 1 point" or "4b1p"; similarly, making a sequence of 2-bar cuts followed by 1-point cut produces a still more gradual taper called "2b1p"; and making a sequence of cuts straight aft does not reduce the width of the panel and is called a "straight" or "all-points" cut.

Taut means a condition in which there is no slack in the net webbing.

Test net, or try net, means a net pulled for brief periods of time just before, or during, deployment of the primary net(s) in order to test for shrimp concentrations or determine fishing conditions (e.g., presence or absence of bottom debris, jellyfish, bycatch, seagrasses, etc.).

Tongue means any piece of webbing along the top, center, leading edge of a trawl, whether lying behind or ahead of the headrope, to which a towing bridle can be attached for purposes of pulling the trawl net and/or adjusting the shape of the trawl.

Transportation means to ship, convey, carry or transport by any means whatever, and deliver or receive for such shipment, conveyance, carriage, or transportation.
§ 222.103 Federal/state cooperation in the conservation of endangered and threatened species.

(a) Application for and renewal of cooperative agreements. (1) The Assistant Administrator may enter into a Cooperative Agreement with any state that establishes and maintains an active and adequate program for the conservation of resident species listed as endangered or threatened. In order for a state program to be deemed an adequate and active program, the Assistant Administrator must find, and annually reconfirm that the criteria of either sections 6(c)(1) (A) through (E) or sections 6(c)(1) (i) and (ii) of the Act have been satisfied.

(2) Following receipt of an application by a state for a Cooperative Agreement with a copy of a proposed state program, and a determination by the Assistant Administrator that the state program is adequate and active, the Assistant Administrator shall enter into an Agreement with the state.

(3) The Cooperative Agreement, as well as the Assistant Administrator's finding upon which it is based, must be reconfirmed annually to ensure that it reflects new laws, species lists, rules or regulations, and programs and to demonstrate that it is still adequate and active.

(b) Allocation and availability of funds. (1) The Assistant Administrator shall allocate funds, appropriated for the purpose of carrying out section 6 of the Act, to various states using the following as the basis for the determination:

(i) The international commitments of the United States to protect endangered or threatened species;

(ii) The readiness of a state to proceed with a conservation program consistent with the objectives and purposes of the Act;

(iii) The number of federally listed endangered and threatened species within a state;

(iv) The potential for restoring endangered and threatened species within a state; and

(v) The relative urgency to initiate a program to restore and protect an endangered or threatened species in terms of survival of the species.

(2) Funds allocated to a state are available for obligation during the fiscal year for which they are allocated and until the close of the succeeding fiscal year. Obligation of allocated funds occurs when an award or contract is signed by the Assistant Administrator.
(c) Financial assistance and payments.
(1) A state must enter into a Cooperative Agreement before financial assistance is approved by the Assistant Administrator for endangered or threatened species projects. Specifically, the Agreement must contain the actions that are to be taken by the Assistant Administrator and/or by the state, the benefits to listed species expected to be derived from these actions, and the estimated cost of these actions.
(2) Subsequent to such Agreement, the Assistant Administrator may further agree with a state to provide financial assistance in the development and implementation of acceptable projects for the conservation of endangered and threatened species. Documents to provide financial assistance will consist of an application for Federal assistance and an award or a contract. The availability of Federal funds shall be contingent upon the continued existence of the Cooperative Agreement and compliance with all applicable Federal regulations for grant administration and cost accounting principles.
(3)(i) The payment of the Federal share of costs incurred when conducting activities included under a contract or award shall not exceed 75 percent of the program costs as stated in the agreement. However, the Federal share may be increased to 90 percent when two or more states having a common interest in one or more endangered or threatened resident species, the conservation of which may be enhanced by cooperation of such states, jointly enter into an agreement with the Assistant Administrator.
(ii) The state share of program costs may be in the form of cash or in-kind contributions, including real property, subject to applicable Federal regulations.
(4) Payments of funds, including payment of such preliminary costs and expenses as may be incurred in connection with projects, shall not be made unless all necessary or required documents are first submitted to and approved by the Assistant Administrator. Payments shall only be made for expenditures reported and certified by the state agency. Payments shall be made only to the state office or official designated by the state agency and authorized under the laws of the state to receive public funds for the state.

Subpart B—Certificates of Exemption for Pre-Act Endangered Species Parts

§ 222.201 General requirements.

(a) The Assistant Administrator may exempt any pre-Act endangered species part from the prohibitions of sections 9(a)(1)(A), 9(a)(1)(E), or 9(a)(1)(F) of the Act.
(1) No person shall engage in any activities identified in such sections of the Act that involve any pre-Act endangered species part without a valid Certificate of Exemption issued pursuant to this subpart B.
(2) No person may export, deliver, receive, carry, transport or ship in interstate or foreign commerce in the course of a commercial activity; or sell or offer for sale in interstate or foreign commerce any pre-Act finished scrimshaw product unless that person has been issued a valid Certificate of Exemption and the product or the raw material for such product was held by such certificate holder on October 13, 1982.
(3) Any person engaged in activities otherwise prohibited under the Act or regulations shall bear the burden of proving that the exemption or certificate is applicable, was granted, and was valid and in force at the time of the otherwise prohibited activity.
(b) Certificates of Exemption issued under this subpart are no longer available to new applicants. However, the Assistant Administrator may renew or modify existing Certificates of Exemption as authorized by the provisions set forth in this subpart.
(c) Any person granted a Certificate of Exemption, including a renewal, under this subpart, upon a sale of any exempted pre-Act endangered species part, must provide the purchaser in writing with a description (including full identification number) of the part sold and must inform the purchaser in writing of the purchaser’s obligation under paragraph (b) of this section, including the address given in the certificate to which the purchaser’s report is to be sent.
(d) Any purchaser of pre-Act endangered species parts included in a valid Certificate of Exemption, unless an ultimate user, within 30 days after the receipt of such parts, must submit a written report to the address given in the certificate. The report must specify the quantity of such parts or products received, the name and address of the seller, a copy of the invoice or other document showing the serial numbers, weight, and descriptions of the parts or products received, the date on which such parts or products were received, and the intended use of such parts by the purchaser. The term “ultimate user”, for purposes of this paragraph, means any person who acquired such endangered species part or product for his or her own consumption or for other personal use (including gifts) and not for resale.

§ 222.202 Certificate renewal.

(a) Any person to whom a Certificate of Exemption has been issued by the National Marine Fisheries Service may apply to the Assistant Administrator for renewal of such certificate. Any person holding a valid Certificate of Exemption which was renewed after October 13, 1982, and was in effect on March 31, 1988, may apply to the Secretary for one renewal for a period not to exceed 5 years.

(b) The sufficiency of the application shall be determined by the Assistant Administrator in accordance with the requirements of paragraph (c) of this section. At least 15 days should be allowed for processing. When an application for a renewal has been received and deemed sufficient, the Assistant Administrator shall issue a Certificate of Renewal to the applicant as soon as practicable.

(c) The following information will be used as the basis for determining whether an application for renewal of a Certificate of Exemption is complete:

(1) Title: Application for Renewal of Certificate of Exemption.

(2) The date of application.

(3) The identity of the applicant, including complete name, original Certificate of Exemption number, current address, and telephone number. If the applicant is a corporation, partnership, or association, set forth the details.

(4) The period of time for which a renewal of the Certificate of Exemption is requested. However, no renewal of Certificate of Exemption, or right claimed thereunder, shall be effective after the close of the 5-year period beginning on the date of the expiration of the previous renewal of the certificate of exemption.

(5)(i) A complete and detailed updated inventory of all pre-Act endangered species parts for which the applicant seeks exemption. Each item on the inventory must be identified by the following information: A unique serial number; the weight of the item to the nearest whole gram; and a detailed description sufficient to permit ready identification of the item. Small lots, not exceeding five pounds (2,270 grams), of scraps or raw material, which may include or consist of one or more whole raw whale teeth, may be identified by a single serial number and total weight. All finished scrimshaw items subsequently made from a given lot of scrap may be identified by the lot serial number plus additional digits to signify the piece number of the individual finished item. Identification numbers will be in the following format: 00-000000-0000. The first two digits will be the last two digits of the appropriate certificate of exemption number; the next six digits, the serial number of the individual piece or lot of scrap or raw material; and the last four digits, where applicable, the piece number of an item made from a lot of scrap or raw material. The serial numbers for each certificate holder’s inventory must begin with 000001, and piece numbers, where applicable, must begin with 0001 for each separate lot.

(ii) Identification numbers may be affixed to inventory items by any means, including, but not limited to, etching the number into the item, attaching a label or tag bearing the number to the item, or sealing the item in a plastic bag, wrapper or other container bearing the number. The number must remain affixed to the item until the item is sold to an ultimate user, as defined in §222.201(d).

(iii) No renewals will be issued for scrimshaw products in excess of any
§ 222.204 Administration of certificates.

(a) The Certificate of Exemption covers the business or activity specified in the Certificate of Exemption at the address described therein. No Certificate of Exemption is required to cover a separate warehouse facility used by the certificate holder solely for storage of pre-Act endangered species parts, if the records required by this subpart are maintained at the address specified in the Certificate of Exemption served by the warehouse or storage facility.

(b) Certificates of Exemption issued under this subpart are not transferable. However, in the event of the lease, sale, or other transfer of the operations or activity authorized by the Certificate of Exemption, the successor is not required to obtain a new Certificate of Exemption prior to commencing such operations or activity. In such case, the successor will be treated as a purchaser and must comply with the record and reporting requirements set forth in § 222.201(d).

(c) Any violation of the applicable provisions of parts 222, 223, or 224 of this chapter, or of the Act, or of a condition of the certificate may subject the certificate holder to penalties provided in part 904 of this chapter, or of the Act, or of a condition of the certificate may subject the certificate holder to penalties provided in the Act and to suspension, revocation, or modification of the Certificate of Exemption, as provided in subpart D of 15 CFR part 904.
including places of storage, for the purpose of inspecting or of examining any records or documents and any endangered species parts.

(f) The records pertaining to pre-Act endangered species parts prescribed by this subpart shall be in permanent form and shall be retained at the address shown on the Certificate of Exemption or at the principal address of a purchaser in the manner prescribed by this subpart.

(g)(1) Holders of Certificates of Exemption must maintain records of all pre-Act endangered species parts they receive, sell, transfer, distribute or dispose of otherwise. Purchasers of pre-Act endangered species parts, unless ultimate users, as defined in §222.201(d), must similarly maintain records of all such parts or products they receive.

(2) Such records referred to in paragraph (g)(1) of this section may consist of invoices or other commercial records, which must be filed in an orderly manner separate from other commercial records maintained and be readily available for inspection. Such records must show the name and address of the purchaser, seller, or other transferor; show the type, quantity, and identity of the part or product; show the date of such sale or transfer; and be retained, in accordance with the requirements of this subpart, for a period of not less than 3 years following the date of sale or transfer. Each pre-Act endangered species part will be identified by its number on the updated inventory required to renew a Certificate of Exemption.

(i) Each Certificate of Exemption holder must submit a quarterly report (to the address given in the certificate) containing all required information required by paragraph (g)(2) of this section, on all transfers of pre-Act endangered species parts made in the previous calendar quarter, or such other record information the Assistant Administrator may specify from time to time.

(ii) Quarterly reports are due on January 15, April 15, July 15, and October 15.

(iii) The Assistant Administrator may authorize the record information to be submitted in a manner other than that prescribed in paragraph (g)(2) of this section when the record holder demonstrates that an alternate method of reporting is reasonably necessary and will not hinder the effective administration or enforcement of this subpart.

§ 222.205 Import and export requirements.

(a) Any fish and wildlife subject to the jurisdiction of the National Marine Fisheries Service and is intended for importation into or exportation from the United States, shall not be imported or exported except at a port(s) designated by the Secretary of the Interior. Shellfish and fishery products that are neither endangered nor threatened species and that are imported for purposes of human or animal consumption or taken in waters under the jurisdiction of the United States or on the high seas for recreational purposes are excluded from this requirement. The Secretary of the Interior may permit the importation or exportation at non-designated ports in the interest of the health or safety of the species for other reasons if the Secretary deems it appropriate and consistent with the purpose of facilitating enforcement of the Act and reducing the costs thereof. Importers and exporters are advised to see 50 CFR part 14 for importation and exportation requirements and information.

(b) No pre-Act endangered species part shall be imported into the United States. A Certificate of Exemption issued in accordance with the provisions of this subpart confers no right or privilege to import into the United States any such part.

(c)(1) Any person exporting from the United States any pre-Act endangered species part must possess a valid Certificate of Exemption issued in accordance with the provisions of this subpart. In addition, the exporter must provide to the Assistant Administrator, in writing, not less than 10 days prior to shipment, the following information: The name and address of the foreign consignee, the intended port of exportation, and a complete description of the parts to be exported. No shipment may be made until these requirements are met by the exporter.
(2) The exporter must send a copy of the Certificate of Exemption, and any endorsements thereto, to the District Director of Customs at the port of exportation, which must precede or accompany the shipment in order to permit the appropriate inspection prior to lading. Upon receipt, the District Director may order such inspection, as deemed necessary; the District will clear the merchandise for export, prior to the lading of the merchandise. If they are satisfied that the shipment is proper and complies with the information contained in the certificate and any endorsement thereto. The certificate, and any endorsements, will be forwarded to the Chief of the Office of Enforcement for NMFS.

(3) No pre-Act endangered species part in compliance with the requirements of this subpart may be exported except at a port or ports designated by the Secretary of the Interior, pursuant to §222.103.

(4) Notwithstanding any provision of this subpart, it shall not be required that the Assistant Administrator authorizes the transportation in interstate or foreign commerce of pre-Act endangered species parts.

EFFECTIVE DATE NOTE: At 64 FR 14054, Mar. 23, 1999, part 222 was revised effective Mar. 23, 1999, with the exception of §222.205 paragraphs (c)(1) and (c)(2) which contain information collection requirements and will not be effective until approval has been given by the Office of Management and Budget.

Subpart C—General Permit Procedures

§222.301 General requirements.

(a)(1) The regulations in this subpart C provide uniform rules and procedures for application, issuance, renewal, conditions, and general administration of permits issuable pursuant to parts 222, 223, and 224 of this chapter. While this section provides generic rules and procedures applicable to all permits, other sections may provide more specific rules and procedures with respect to certain types of permits. In such cases, the requirements in all applicable sections must be satisfied.

(2) Notwithstanding paragraph (a)(1) of this section, the Assistant Administrator may approve variations from the requirements of parts 222, 223, and 224 of this chapter when the Assistant Administrator finds that an emergency exists and that the proposed variations will not hinder effective administration of those parts and will not be unlawful. Other sections within parts 222, 223, and 224 of this chapter may allow for a waiver or variation of specific requirements for emergency situations, upon certain conditions. In such cases, those conditions must be satisfied in order for the waiver or variation to be lawful.

(b) No person shall take, import, export or engage in any other prohibited activity involving any species of fish or wildlife under the jurisdiction of the Secretary of Commerce that has been determined to be endangered under the Act, or that has been determined to be threatened and for which the prohibitions of section 9(a)(1) of the Act have been applied by regulation, without a valid permit issued pursuant to these regulations. The permit shall entitle the person to whom it is issued to engage in the activity specified in the permit, subject to the limitations of the Act and the regulations in parts 222, 223, and 224 of this chapter, for the period stated on the permit, unless sooner modified, suspended or revoked.

(c) Each person intending to engage in an activity for which a permit is required by parts 222, 223, and 224 of this chapter or by the Act shall, before commencing such activity, obtain a valid permit authorizing such activity. Any person who desires to obtain permit privileges authorized by parts 222, 223, and 224 of this chapter must apply for such permit in accordance with the requirements of these sections. If the information required for each specific, permitted activity is included, one application may be accepted for all permits required, and a single permit may be issued.

(d)(1) Any permit issued under these regulations must be in the possession of the person to whom it is issued (or of an agent of such person) while any animal subject to the permit is in the possession of such person or agent. Specifically, a person or his/her agent must be in possession of a permit during the time of the authorized taking, importation, exportation, or of any

§222.301 General requirements.
§ 222.302 Procedure for obtaining permits.

(a) Applications must be submitted to the Assistant Administrator, by letter containing all necessary information, attachments, certification, and signature, as specified by the regulations in parts 222, 223, and 224 of this chapter, or by the Act. In no case, other than for emergencies pursuant to §222.301(a)(2), will applications be accepted either orally or by telephone.

(b) Applications must be received by the Assistant Administrator at least 90 calendar days prior to the date on which the applicant desires to have the permit made effective, unless otherwise specified in the regulations or guidelines pertaining to a particular permit. The National Marine Fisheries Service will attempt to process applications deemed sufficient in the shortest possible time, but does not guarantee that the permit will be issued 90 days after notice of receipt of the application is published in the Federal Register.

(c)(1) Upon receipt of an insufficiently or improperly executed application, the applicant shall be notified of the deficiency in the application. If the applicant fails to supply the deficient information or otherwise fails to correct the deficiency within 60 days following the date of notification, the application shall be considered abandoned.

(2) The sufficiency of the application shall be determined by the Assistant Administrator in accordance with the requirements of this part. The Assistant Administrator, however, may...
§ 222.303 Issuance of permits.

(a)(1) No permit may be issued prior to the receipt of a written application unless an emergency pursuant to §222.301(a)(2) exists, and a written variation from the requirements is recorded by the National Marine Fisheries Service.

(2) No representation of an employee or agent of the United States shall be construed as a permit unless it meets the requirements of a permit defined in §222.102.

(3) Each permit shall bear a serial number. Upon renewal, such a number may be reassigned to the permittee to whom issued so long as the permittee maintains continuity of renewal.

(b) When an application for a permit received by the Assistant Administrator is deemed sufficient, the Assistant Administrator shall, as soon as practicable, publish a notice in the FEDERAL REGISTER. Information received by the Assistant Administrator as a part of the application shall be available to the public as a matter of public record at every stage of the proceeding. An interested party, within 30 days after the date of publication of such notice, may submit to the Assistant Administrator written data, views, or arguments with respect to the taking, importation, or to other action proposed in the application, and may request a hearing in connection with the action to be taken thereon.

(c) If a request for a hearing is made within the 30-day period referred to in paragraph (b) of this section, or if the Assistant Administrator determines that a hearing would otherwise be advisable, the Assistant Administrator may, within 60 days after the date of publication of the notice referred to in paragraph (b) of this section, afford to such requesting party or parties an opportunity for a hearing. Such hearing shall also be open to participation by any interested members of the public. Notice of the date, time, and place of such hearing shall be published in the FEDERAL REGISTER not less than 15 days in advance of such hearing. Any interested person may appear at the hearing in person or through a representative and may submit any relevant material, data, views, comments, arguments, or exhibits. A summary record of the hearing shall be kept.

(d) Except as provided in subpart D to 15 CFR part 904, as soon as practicable but not later than 30 days after the close of the hearing. If no hearing is held, as soon as practicable but not later than 30 days from the publication of the notice in the FEDERAL REGISTER, the Assistant Administrator shall issue or deny issuance of the permit. Notice of the decision of the Assistant Administrator shall be published in the FEDERAL REGISTER within 10 days after the date of the issuance or denial and indicate where copies of the permit, if issued, may be obtained.

(e)(1) The Assistant Administrator shall issue the permit unless:

(i) Denial of the permit has been made pursuant to subpart D to 15 CFR part 904;

(ii) The applicant has failed to disclose material or information required, or has made false statements as to any material fact, in connection with the application;

(iii) The applicant has failed to demonstrate a valid justification for the permit or a showing of responsibility;

(iv) The authorization requested potentially threatens a fish or wildlife population; or

(v) The Assistant Administrator finds through further inquiry or investigation, or otherwise, that the applicant is not qualified.

(2) The applicant shall be notified in writing of the denial of any permit request, and the reasons thereof. If authorized in the notice of denial, the applicant may submit further information or reasons why the permit should not be denied. Such further information shall not be considered a new application. The final action by the Assistant Administrator shall be considered the final administrative decision of the Department of Commerce.

(f) If a permit is issued under §222.308, the Assistant Administrator shall publish notice thereof in the FEDERAL REGISTER, including the Assistant Administrator’s finding that such permit—

(1) Was applied for in good faith;
§ 222.304  Renewal of permits.
When the permit is renewable and a permittee intends to continue the activity described in the permit during any portion of the year ensuing its expiration, the permittee shall, unless otherwise notified in writing by the Assistant Administrator, file a request for permit renewal, together with a certified statement, verifying that the information in the original application is still currently correct. If the information is incorrect the permittee shall file a statement of all changes in the original application, accompanied by any required fee at least 30 days prior to the expiration of the permit. Any person holding a valid renewable permit, who has complied with the foregoing provision of this section, may continue such activities as were authorized by the expired permit until the renewal application is acted upon.

§ 222.305 Rights of succession and transfer of permits.

(a) (1) Permits issued pursuant to parts 222, 223, and 224 of this chapter are not transferable or assignable. In the event that a permit authorizes certain activities in connection with a business or commercial enterprise, which is then subject to any subsequent lease, sale or transfer, the successor to that enterprise must obtain a permit prior to continuing the permitted activity, with the exceptions provided in paragraph (a)(2) of this section.

(2) Certain persons, other than the permittee, are granted the right to carry on a permitted activity for the remainder of the term of a current permit, provided that they furnish the permit to the issuing officer for endorsement within 90 days from the date the successor begins to carry on the activity. Such persons are the following:

(i) The surviving spouse, child, executor, administrator, or other legal representative of a deceased permittee, and

(ii) The receiver or trustee in bankruptcy or a court designated assignee for the benefit of creditors.

(b) Except as otherwise stated on the face of the permit, any person who is under the direct control of the permittee, or who is employed by or under contract to the permittee for purposes authorized by the permit, may carry out the activity authorized by the permit.

EFFECTIVE DATE NOTE: At 64 FR 14054, Mar. 23, 1999, part 222 was revised effective Mar. 23, 1999, with the exception of §222.305 paragraph (a) which contains information collection requirements and will not be effective until approval has been given by the Office of Management and Budget.

§ 222.306 Modification, amendment, suspension, cancellation, and revocation of permits.

(a) When circumstances have changed so that an applicant or a permittee desires to have any term or condition of the application or permit modified, the applicant or permittee must submit in writing full justification and supporting information in conformance with the provisions of this part and the part under which the permit has been issued or requested. Such applications for modification are subject to the same issuance criteria as original applications.

(b) Notwithstanding the requirements of paragraph (a) of this section, a permittee may change the mailing address or trade name under which business is conducted without obtaining a new permit or being subject to the same issuance criteria as original permits. The permittee must notify the Assistant Administrator, in writing within 30 days, of any change in address or of any change in the trade name for the business or activity specified in the permit. The permit with the change of address or in trade name must be endorsed by the Assistant Administrator, who shall provide an
amended permit to the person to whom it was issued.

(c) All permits are issued subject to the condition that the National Marine Fisheries Service reserves the right to amend the provisions of a permit for just cause at any time during its term. Such amendments take effect on the date of notification, unless otherwise specified.

d) When any permittee discontinues the permitted activity, the permittee shall, within 30 days thereof, mail the permit and a request for cancellation to the issuing officer, and the permit shall be deemed void upon receipt. No refund of any part of an amount paid as a permit fee shall be made when the operations of the permittee are, for any reason, discontinued during the tenure of an issued permit.

(e) Any violation of the applicable provisions of parts 222, 223, or 224 of this chapter, or of the Act, or of a term or condition of the permit may subject the permittee to both the penalties provided in the Act and suspension, revocation, or amendment of the permit, as provided in subpart D to 15 CFR part 904.

§ 222.307 Permits for incidental taking of species.

(a) Scope. (1) The Assistant Administrator may issue permits to take endangered and threatened species incidentally to an otherwise lawful activity under section 10(a)(1)(B) of the Act. The regulations in this section apply to all endangered species, and those threatened species for which the prohibitions of section 9(a)(1) of the Act, under the jurisdiction of the Secretary of Commerce, apply.

(2) If the applicant represents an individual or a single entity, such as a corporation, the Assistant Administrator will issue an individual incidental take permit. If the applicant represents a group or organization whose members conduct the same or a similar activity in the same geographical area with similar impacts on listed species for which a permit is required, the Assistant Administrator will issue a general incidental take permit. To be covered by a general incidental take permit, each individual conducting the activity must have a certificate of inclusion issued under paragraph (f) of this section.

(b) Permit application procedures. Applications should be sent to the Assistant Administrator. The Assistant Administrator shall determine the sufficiency of the application in accordance with the requirements of this section. At least 120 days should be allowed for processing. Each application must be signed and dated and must include the following:

(1) The type of application, either:

   (i) Application for an Individual Incidental Take Permit under the Act; or

   (ii) Application for a General Incidental Take Permit under the Act;

(2) The name, address, and telephone number of the applicant. If the applicant is a partnership or a corporate entity or is representing a group or an organization, the applicable details;

(3) The species or stocks, by common and scientific name, and a description of the status, distribution, seasonal distribution, habitat needs, feeding habits and other biological requirements of the affected species or stocks;

(4) A detailed description of the proposed activity, including the anticipated dates, duration, and specific location. If the request is for a general incidental take permit, an estimate of the total level of activity expected to be conducted;

(5) A conservation plan, based on the best scientific and commercial data available, which specifies the following:

   (i) The anticipated impact (i.e., amount, extent, and type of anticipated taking) of the proposed activity on the species or stocks;

   (ii) The anticipated impact of the proposed activity on the habitat of the species or stocks and the likelihood of restoration of the affected habitat;

   (iii) The steps (specialized equipment, methods of conducting activities, or other means) that will be taken to monitor, minimize, and mitigate such impacts, and the funding available to implement such measures;

   (iv) The alternative actions to such taking that were considered and the reasons why those alternatives are not being used; and

   (v) A list of all sources of data used in preparation of the plan, including
reference reports, environmental assessments and impact statements, and personal communications with recognized experts on the species or activity who may have access to data not published in current literature.

(c) Issuance criteria. (1) In determining whether to issue a permit, the Assistant Administrator will consider the following:
   (i) The status of the affected species or stocks;
   (ii) The potential severity of direct, indirect, and cumulative impacts on the species or stocks and habitat as a result of the proposed activity;
   (iii) The availability of effective monitoring techniques;
   (iv) The use of the best available technology for minimizing or mitigating impacts; and
   (v) The views of the public, scientists, and other interested parties knowledgeable of the species or stocks or other matters related to the application.

(2) To issue the permit, the Assistant Administrator must find that—
   (i) The taking will be incidental;
   (ii) The applicant will, to the maximum extent practicable, monitor, minimize, and mitigate the impacts of such taking;
   (iii) The taking will not appreciably reduce the likelihood of the survival and recovery of the species in the wild;
   (iv) The applicant has amended the conservation plan to include any measures (not originally proposed by the applicant) that the Assistant Administrator determines are necessary or appropriate; and
   (v) There are adequate assurances that the conservation plan will be funded and implemented, including any measures required by the Assistant Administrator.

(d) Permit conditions. In addition to the general conditions set forth in this part, every permit issued under this section will contain such terms and conditions as the Assistant Administrator deems necessary and appropriate, including, but not limited to the following:
   (1) Reporting requirements or rights of inspection for determining whether the terms and conditions are being complied with;
   (2) The species and number of animals covered;
   (3) The authorized method of taking;
   (4) The procedures to be used to handle or dispose of any animals taken; and
   (5) The payment of an adequate fee to the National Marine Fisheries Service to process the application.

(e) Duration of permits. The duration of permits issued under this section will be such as to provide adequate assurances to the permit holder to commit funding necessary for the activities authorized by the permit, including conservation activities. In determining the duration of a permit, the Assistant Administrator will consider the duration of the proposed activities, as well as the possible positive and negative effects on listed species associated with issuing a permit of the proposed duration, including the extent to which the conservation plan is likely to enhance the habitat of the endangered species or to increase the long-term survivability of the species.

(f) Certificates of inclusion. (1) Any individual who wishes to conduct an activity covered by a general incidental take permit must apply to the Assistant Administrator for a Certificate of Inclusion. Each application must be signed and dated and must include the following:
   (i) The general incidental take permit under which the applicant wants coverage;
   (ii) The name, address, and telephone number of the applicant. If the applicant is a partnership or a corporate entity, the applicable details;
   (iii) A description of the activity the applicant seeks to have covered under the general incidental take permit, including the anticipated dates, duration, and specific location; and
   (iv) A signed certification that the applicant has read and understands the general incidental take permit and the conservation plan, will comply with their terms and conditions, and will fund and implement applicable measures of the conservation plan.

(2) To issue a Certificate of Inclusion, the Assistant Administrator must find that:
(i) The applicant will be engaged in the activity covered by the general permit, and
(ii) The applicant has made adequate assurances that the applicable measures of the conservation plan will be funded and implemented.

(g) Assurances provided to permittee in case of changed or unforeseen circumstances. The assurances in this paragraph (g) apply only to incidental take permits issued in accordance with paragraph (c) of this section where the conservation plan is being properly implemented, and apply only with respect to species adequately covered by the conservation plan. These assurances cannot be provided to Federal agencies. This rule does not apply to incidental take permits issued prior to March 25, 1998. The assurances provided in incidental take permits issued prior to March 25, 1998, remain in effect, and those permits will not be revised as a result of this rulemaking.

(1) Changed circumstances provided for in the plan. If additional conservation and mitigation measures are deemed necessary to respond to changed circumstances and were provided for in the plan's operating conservation program, the permittee will implement the measures specified in the plan.

(2) Changed circumstances not provided for in the plan. If additional conservation and mitigation measures are deemed necessary to respond to changed circumstances and such measures were not provided for in the plan's operating conservation program, NMFS will not require any conservation and mitigation measures in addition to those provided for in the plan without the consent of the permittee. The original terms of the conservation plan will be maintained to the maximum extent possible. Additional conservation and mitigation measures will not involve the commitment of additional land, water, or financial compensation or additional restrictions on the use of land, water, or other natural resources otherwise available for development or use under the original terms of the conservation plan without the consent of the permittee.

(iii) NMFS has the burden of demonstrating that unforeseen circumstances exist, using the best scientific and commercial data available. These findings must be clearly documented and based upon reliable technical information regarding the status and habitat requirements of the affected species. NMFS will consider, but not be limited to, the following factors:

(A) Size of the current range of the affected species;
(B) Percentage of range adversely affected by the conservation plan;
(C) Percentage of range conserved by the conservation plan;
(D) Ecological significance of that portion of the range affected by the conservation plan;
(E) Level of knowledge about the affected species and the degree of specificity of the species' conservation program under the conservation plan; and
(F) Whether failure to adopt additional conservation measures would appreciably reduce the likelihood of survival and recovery of the affected species in the wild.

(h) Nothing in this rule will be construed to limit or constrain the Assistant Administrator, any Federal, State, local, or Tribal government agency, or a private entity, from taking additional actions at his or her own expense to protect or conserve a species included in a conservation plan.
§ 222.308 Permits for scientific purposes or for the enhancement of propagation or survival of species.

(a) Scope. The Assistant Administrator may issue permits for scientific purposes or for the enhancement of the propagation or survival of the affected endangered or threatened species in accordance with the regulations in parts 222, 223, and 224 of this chapter and under such terms and conditions as the Assistant Administrator may prescribe, authorizing the taking, importation, or other acts otherwise prohibited by section 9 of the Act. Within the jurisdiction of a State, more restrictive state laws or regulations in regard to endangered species shall prevail in regard to taking. Proof of compliance with applicable state laws will be required before a permit will be issued.

(b) Application procedures. Any person desiring to obtain such a permit may make application therefor to the Assistant Administrator. Permits for marine mammals shall be issued in accordance with the provisions of part 216, subpart D of this chapter. Permits relating to sea turtles may involve the Fish and Wildlife Service, in which case the applicant shall follow the procedures set out in §222.309. The following information will be used as the basis for determining whether an application is complete and whether a permit for scientific purposes or for enhancement of propagation or survival of the affected species should be issued by the Assistant Administrator. An application for a permit shall provide the following information and such other information that the Assistant Administrator may require:

(1) Title, as applicable, either—
(i) Application for permit for scientific purposes under the Act; or
(ii) Application for permit for the enhancement of the propagation or survival of the endangered species Under the Act.

(2) The date of the application.

(3) The identity of the applicant including complete name, address, and telephone number. If the applicant is a partnership or a corporate entity, set forth the details. If the endangered species is to be utilized by a person other than the applicant, set forth the name of that person and such other information as would be required if such person were an applicant.

(4) A description of the purpose of the proposed acts, including the following:
(i) A detailed justification of the need for the endangered species, including a discussion of possible alternatives, whether or not under the control of the applicant; and
(ii) A detailed description of how the species will be used.

(5) A detailed description of the project, or program, in which the endangered species is to be used, including the following:
(i) The period of time over which the project or program will be conducted;
(ii) A list of the names and addresses of the sponsors or cooperating institutions and the scientists involved;
(iii) A copy of the formal research proposal or contract if one has been prepared;
(iv) A statement of whether the proposed project or program has broader significance than the individual researcher’s goals. For example, does the proposed project or program respond directly or indirectly to recommendation of any national or international scientific body charged with research or management of the endangered species? If so, how?; and
(v) A description of the arrangements, if any, for the disposition of any dead specimen or its skeleton or other remains in a museum or other institutional collection for the continued benefit to science.

(6) A description of the endangered species which is the subject of the application, including the following:
(i) A list of each species and the number of each, including the common and scientific name, the subspecies (if applicable), population group, and range;
(ii) A physical description of each animal, including the age, size, and sex;
(iii) A list of the probable dates of capture or other taking, importation, exportation, and other acts which require a permit for each animal and the location of capture or other taking, importation, exportation, and other acts which require a permit, as specifically as possible;
(iv) A description of the status of the stock of each species related insofar as
possible to the location or area of tak-
ing;
(v) A description of the manner of
taking for each animal, including the
gear to be used;
(vi) The name and qualifications of
the persons or entity which will cap-
ture or otherwise take the animals; and
(vii) If the capture or other taking is
to be done by a contractor, a statement
as to whether a qualified member of
your staff (include name(s) and quali-
fications) will supervise or observe the
capture or other taking. Accompanying
such statement shall be a copy of the
proposed contract or a letter from the
contractor indicating agreement to
capture or otherwise take the animals,
should a permit be granted.
(7) A description of the manner of
transportation for any live animal
taken, imported, exported, or shipped
in interstate commerce, including the
following:
(i) Mode of transportation;
(ii) Name of transportation company;
(iii) Length of time in transit for the
transfer of the animal(s) from the cap-
ture site to the holding facility;
(iv) Length of time in transit for any
planned future move or transfer of the
animals;
(v) The qualifications of the common
carrier or agent used for transpor-
tation of the animals;
(vi) A description of the pen, tank,
container, cage, cradle, or other de-
vices used to hold the animal at both
the capture site and during transpor-
tation;
(vii) Special care before and during
transportation, such as salves, anti-
biotics, moisture; and
(viii) A statement as to whether the
animals will be accompanied by a vet-
erinarian or by another similarly
qualified person, and the qualifications
of such person.
(8) Describe the contemplated care
and maintenance of any live animals
sought, including a complete descrip-
tion of the facilities where any such
animals will be maintained including:
(i) The dimensions of the pools or
other holding facilities and the num-
ber, sex, and age of animals by species
to be held in each;
(ii) The water supply, amount, and
quality;
(iii) The diet, amount and type, for
all animals;
(iv) Sanitation practices used;
(v) Qualifications and experience of
the staff;
(vi) A written certification from a li-
censed veterinarian or from a recog-
nized expert who are knowledgeable on
the species (or related species) or group
covered in the application. The certifi-
cate shall verify that the veterinarian
has personally reviewed the amend-
ments for transporting and maintain-
ing the animal(s) and that, in the vet-
erinarian’s opinion, they are adequate
to provide for the well-being of the ani-
amal; and
(vii) The availability in the future of
a consulting expert or veterinarian
meeting paragraph requirements of
(b)(8)(vi) in this section.
(9) A statement of willingness to par-
ticipate in a cooperative breeding pro-
gram and maintain or contribute data
to a stud book.
(10) A statement of how the appli-
cant’s proposed project or program will
enhance or benefit the wild population.
(11) For the 5 years preceding the
date of application, the applicant shall
provide a detailed description of all
mortalities involving species under the
control of or utilized by the applicant
and are either presently listed as en-
dangered species or are taxonomically
related within the Order to the species
which is the subject of this application,
including:
(i) A list of all endangered species
and related species that are the subject
of this application that have been cap-
tured, transported, maintained, or uti-
lized by the applicant for scientific
purposes or for the enhancement of
propagation or survival of the affected
species, and/or of related species that
are captured, transported, maintained,
or utilized by the applicant for sci-
entific purposes or for enhancement of
propagation or survival of the affected
species;
(ii) The numbers of mortalities
among such animals by species, by
date, by location of capture, i.e., from
which population, and the location of
such mortalities;
(iii) The cause(s) of any such mortality; and
(iv) The steps which have been taken by applicant to avoid or decrease any such mortality.
(12) A certification in the following language: I hereby certify that the foregoing information is complete, true, and correct to the best of my knowledge and belief. I understand that this information is submitted for the purpose of obtaining a permit under the Endangered Species Act, as amended, and regulations promulgated thereunder, and that any false statement may subject me to the criminal penalties of 18 U.S.C. 1001, or to penalties under the Act.
(13) The applicant and/or an officer thereof must sign the application.
(14) Assistance in completing this application may be obtained by writing Chief, Endangered Species Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910 or calling the Office of Protected Resources at 301-713-1401. Allow at least 90 days for processing.
(c) Issuance criteria. In determining whether to issue a permit for scientific purposes or to enhance the propagation or survival of the affected endangered species, the Assistant Administrator shall specifically consider, among other application criteria, the following:
(1) Whether the permit was applied for in good faith;
(2) Whether the permit, if granted and exercised, will not operate to the disadvantage of the endangered species;
(3) Whether the permit would be consistent with the purposes and policy set forth in section 2 of the Act;
(4) Whether the permit would further a bona fide and necessary or desirable scientific purpose or enhance the propagation or survival of the endangered species, taking into account the benefits anticipated to be derived on behalf of the endangered species;
(5) The status of the population of the requested species and the effect of the proposed action on the population, both direct and indirect;
(6) If a live animal is to be taken, transported, or held in captivity, the applicant's qualifications for the proper care and maintenance of the species and the adequacy of the applicant's facilities;
(7) Whether alternative non-endangered species or population stocks can and should be used;
(8) Whether the animal was born in captivity or was (or will be) taken from the wild;
(9) Provision for disposition of the species if and when the applicant's project or program terminates;
(10) How the applicant's needs, program, and facilities compare and relate to proposed and ongoing projects and programs;
(11) Whether the expertise, facilities, or other resources available to the applicant appear adequate to successfully accomplish the objectives stated in the application; and
(12) Opinions or views of scientists or other persons or organizations knowledgeable about the species which is the subject of the application or of other matters germane to the application.
(d) Terms and conditions. Permits applied for under this section shall contain terms and conditions as the Assistant Administrator may deem appropriate, including but not limited to the following:
(1) The number and kind of species covered;
(2) The location and manner of taking;
(3) Port of entry or export;
(4) The methods of transportation, care, and maintenance to be used with live species;
(5) Any requirements for reports or rights of inspections with respect to any activities carried out pursuant to the permit;
(6) The transferability or assignability of the permit;
(7) The sale or other disposition of the species, its progeny, or the species product; and
(8) A reasonable fee covering the costs of issuance of such permit, including reasonable inspections and an appropriate apportionment of overhead and administrative expenses of the Department of Commerce. All such fees will be deposited in the Treasury to the credit of the appropriation which is current and chargeable for the cost of furnishing the service.
§ 222.309 Permits for listed species of sea turtles involving the Fish and Wildlife Service.

(a) This section establishes specific procedures for issuance of the following permits: scientific purposes or to enhance the propagation or survival of endangered or threatened species of sea turtles; zoological exhibition or educational purposes for threatened species of sea turtles; and permits that require coordination with the Fish and Wildlife Service. The National Marine Fisheries Service maintains jurisdiction for such species in the marine environment. The Fish and Wildlife Service maintains jurisdiction for such species of sea turtles in the land environment.

(b) For permits relating to any activity in the marine environment exclusively, permit applicants and permittees must comply with the regulations in parts 222, 223, and 224 of this chapter.

(c) For permits relating to any activity in the land environment exclusively, permit applicants must submit applications to the Wildlife Permit Office (WPO) of the U.S. Fish and Wildlife Service in accordance with either 50 CFR 17.22(a), if the species is endangered, or 50 CFR 17.32(a), if the species is threatened.

(d) For permits relating to any activity in both the land and marine environments, applicants must submit applications to the WPO. WPO will forward the application to NMFS for review and processing of those activities under its jurisdiction. Based on this review and processing, WPO will issue either a permit or a letter of denial in accordance with its own regulations.

(e) For permits relating to any activity in a marine environment and that also requires a permit under the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) (TIAS 8249, July 1, 1975) (50 CFR part 23), applicants must submit applications to the WPO. WPO will forward the application to NMFS for review and processing, after which WPO will issue a combination ESA/CITES permit or a letter of denial.
§ 223.101 Purpose and scope.

(a) The regulations contained in this part identify the species under the jurisdiction of the Secretary of Commerce that have been determined to be threatened species pursuant to section 4(a) of the Act, and provide for the conservation of such species by establishing rules and procedures to governing activities involving the species.

(b) The regulations contained in this part apply only to the threatened species enumerated in §223.102.

(c) The provisions of this part are in addition to, and not in lieu of, other regulations of parts 222 through 226 of this chapter which prescribe additional restrictions or conditions governing threatened species.

[64 FR 14068, Mar. 23, 1999]

§ 223.102 Enumeration of threatened marine and anadromous species.

The species determined by the Secretary of Commerce to be threatened pursuant to section 4(a) of the Act, as well as species listed under the Endangered Species Conservation Act of 1969 by the Secretary of the Interior and currently under the jurisdiction of the Secretary of Commerce, are the following:

(a) Marine and anadromous fish. (1) Snake River spring/summer chinook salmon (Oncorhynchus tshawytscha). Includes all natural population(s) of spring/summer chinook salmon in the mainstem Snake River and any of the following subbasins: Tucannon River, Grande Ronde River, Imnaha River, and Salmon River.

(2) Snake River fall chinook salmon (Oncorhynchus tshawytscha). Includes all natural population(s) of fall chinook in the mainstem Snake River and any of the following subbasins: Tucannon River, Grande Ronde River, Imnaha River, Salmon River, and Clearwater River.

(3) Central California Coast Coho Salmon (Oncorhynchus kisutch). Includes all coho salmon naturally reproduced in streams between Punta Gorda in Humboldt County, CA, and the San Lorenzo River in Santa Cruz County, CA.

(4) Southern Oregon/Northern California Coast coho salmon (Oncorhynchus kisutch). Includes all coho salmon naturally reproduced in streams between Cape Blanco in Curry County, OR, and Punta Gorda in Humboldt County, CA.

(5) Central California Coast steelhead (Oncorhynchus mykiss). Includes all naturally spawned populations of steelhead (and their progeny) in streams from the Russian River to Aptos Creek, Santa Cruz County, California (inclusive), and the drainages of San Francisco and San Pablo Bays eastward to the Napa River (inclusive), Napa County, California. Excludes the Sacramento-San Joaquin River Basin of the Central Valley of California.

(6) South-Central California Coast steelhead (Oncorhynchus mykiss). Includes all naturally spawned populations of steelhead (and their progeny) in streams from the Pajaro River (inclusive), located in Santa Cruz County, California, to (but not including) the Santa Maria River.

(7) Snake River Basin steelhead (Oncorhynchus mykiss). Includes all naturally spawned populations of steelhead (and their progeny) in streams in the Snake River Basin of southeast Washington, northeast Oregon, and Idaho.

(8) Lower Columbia River steelhead (Oncorhynchus mykiss). Includes all naturally spawned populations of steelhead (and their progeny) in streams and tributaries to the Columbia River between the Cowlitz and Wind Rivers, Washington, inclusive, and the Willamette and Hood Rivers, Oregon, inclusive. Excluded are steelhead in the upper Willamette River Basin above Willamette Falls and steelhead from the Little and Big White Salmon Rivers in Washington.

(9) Central Valley, California steelhead (Oncorhynchus mykiss). Includes all naturally spawned populations of steelhead (and their progeny) in the Sacramento and San Joaquin Rivers and their tributaries. Excluded are steelhead from San Francisco and San Pablo Bays and their tributaries.

(10) Oregon Coast coho salmon (Oncorhynchus kisutch). Includes all naturally spawned populations of coho...
salmon in streams south of the Columbia River and north of Cape Blanco in Curry County, OR.

(11) Gulf sturgeon (Acipenser oxyrinchus desotoi).

(12) Hood Canal summer-run chum salmon (Oncorhynchus keta). Includes all naturally spawned populations of summer-run chum salmon in Hood Canal and its tributaries as well as populations in Olympic Peninsula rivers between Hood Canal and Dungeness Bay, Washington;

(13) Columbia River chum salmon (Oncorhynchus keta). Includes all naturally spawned populations of chum salmon in the Columbia River and its tributaries in Washington and Oregon.

(14) Upper Willamette River steelhead (Oncorhynchus mykiss). Includes all naturally spawned populations of winter-run steelhead in the Willamette River, Oregon, and its tributaries upstream from Willamette Falls to the Calapooia River, inclusive;

(15) Middle Columbia River steelhead (Oncorhynchus mykiss). Includes all naturally spawned populations of steelhead in streams from above the Wind River, Washington, and the Hood River, Oregon (exclusive), upstream to, and including, the Yakima River, Washington. Excluded are steelhead from the Snake River Basin.

(16) Puget sound chinook salmon (Oncorhynchus tshawytscha). Includes all naturally spawned populations of chinook salmon from rivers and streams flowing into Puget Sound including the Straits of Juan De Fuca from the Elwha River eastward, including rivers and streams flowing into Hood Canal, South Sound, North Sound and the Strait of Georgia in Washington.

(17) Lower Columbia River chinook salmon (Oncorhynchus tshawytscha). Includes all naturally spawned populations of chinook salmon from the Columbia River and its tributaries from its mouth at the Pacific Ocean upstream to a transitional point between Washington and Oregon east of the Hood River and the White Salmon River, and includes the Willamette River to Willamette Falls, Oregon, exclusive of spring-run chinook salmon in the Clackamas River.

(18) Upper Willamette River chinook salmon (Oncorhynchus tshawytscha). Includes all naturally spawned populations of spring-run chinook salmon in the Clackamas River and in the Willamette River, and its tributaries, above Willamette Falls, Oregon.

(19) Ozette Lake sockeye salmon (Oncorhynchus nerka). Includes all naturally spawned populations of sockeye salmon in Ozette Lake and streams and tributaries flowing into Ozette Lake, Washington.

(20) Central Valley spring-run chinook salmon (Oncorhynchus tshawytscha). Includes all naturally spawned populations of spring-run chinook salmon in the Sacramento River Basin, and its tributaries, California.

(21) California coastal chinook salmon (Oncorhynchus tshawytscha). Includes all naturally spawned populations of chinook salmon from Redwood Creek (Humboldt County, California) through the Russian River (Sonoma County, California).

(b) Marine plants. Johnson's seagrass (Halophila johnsonii).

(c) Marine mammals. Guadalupe fur seal (Arctocephalus townsendi); Steller sea lion, eastern population (Eumetopias jubatus), which consists of all Steller sea lions from breeding colonies located east of 114° W. longitude.

(d) Sea turtles. Green turtle (Chelonia mydas) except for those populations listed under §224.101(c) of this chapter; Loggerhead turtle (Caretta caretta); Olive ridley turtle (Lepidochelys olivacea) except for those populations listed under §224.101(c) of this chapter.

NOTE TO §223.201(D): Jurisdiction for sea turtles by the Department of Commerce, National Oceanic and Atmospheric Administration, National Marine Fisheries Service, is limited to turtles while in the water.

Effective Date Note: At 64 FR 50415, Sept. 16, 1999, §223.102 was amended by adding paragraphs (a)(20) and (a)(21), effective Nov. 15, 1999.
§ 223.201 Guadalupe fur seal.

(a) Prohibitions. The prohibitions of section 9 of the Act (16 U.S.C. 1538) relating to endangered species apply to the Guadalupe fur seal except as provided in paragraph (b) of this section.

(b) Exceptions. (1) The Assistant Administrator may issue permits authorizing activities which would otherwise be prohibited under paragraph (a) of this section in accordance with the procedures of part 222 subpart C—General Permit Procedures.

(2) Any Federal, State or local government official, employee, or designated agent may, in the course of official duties, take a stranded Guadalupe fur seal without a permit if such taking:

(i) Is accomplished in a humane manner;

(ii) Is for the protection of the animal’s health or welfare, or is for the disposal of a dead specimen;

(iii) Includes steps designed to ensure the return of the animal to its natural habitat, if feasible; and

(iv) Is reported within 30 days to the Regional Administrator, Southwest Region, National Marine Fisheries Service, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802.

(3) Any animal or specimen taken under paragraph (b)(2) of this section may only be retained, disposed of, or salvaged in accordance with directions from the Director, Southwest Region.

§ 223.202 Steller sea lion.

(a) General prohibitions. The prohibitions of section 9 of the Act (16 U.S.C. 1538) and the following regulatory provisions shall apply to the eastern population of Steller sea lions:

(1) No discharge of firearms. Except as provided in paragraph (b) of this section, no person subject to the jurisdiction of the United States may discharge a firearm at or within 100 yards (91.4 meters) of a Steller sea lion. A firearm is any weapon, such as a pistol or rifle, capable of firing a missile using an explosive charge as a propellant.

(2) No approach in buffer areas. Except as provided in paragraph (b) of this section:

(i) No owner or operator of a vessel may allow the vessel to approach within 3 nautical miles (5.5 kilometers) of a Steller sea lion rookery site listed in paragraph (a)(3) of this section;

(ii) No person may approach on land not privately owned within one-half statutory miles (0.8 kilometers) or within sight of a Steller sea lion rookery site listed in paragraph (a)(3) of this section, whichever is greater, except on Marmot Island; and

(iii) No person may approach on land not privately owned within one and one-half statutory miles (2.4 kilometers) or within sight of the eastern shore of Marmot Island, including the Steller sea lion rookery site listed in paragraph (a)(3) of this section, whichever is greater.

(3) Listed sea lion rookery sites. Listed Steller sea lion rookery sites consist of the rookeries in the Aleutian Islands and the Gulf of Alaska listed in Table 1.

</table>

1 Each site extends in a clockwise direction from the first set of geographic coordinates along the shoreline at mean lower low water to the second set of coordinates; or, if only one set of geographic coordinates is listed, the site extends around the entire shoreline of the island at mean lower low water.
(4) Commercial Fishing Operations. The incidental mortality and serious injury of endangered and threatened Steller sea lions in commercial fisheries can be authorized in compliance with sections 101(a)(5) and 118 of the Marine Mammal Protection Act.

(b) Exceptions—(1) Permits. The Assistant Administrator may issue permits authorizing activities that would otherwise be prohibited under paragraph (a) of this section in accordance with and subject to the provisions of part 222, subpart C—General Permit Procedures.

(2) Official activities. The taking of Steller sea lions must be reported within 30 days to the Regional Administrator, Alaska Region. Paragraph (a) of this section does not prohibit or restrict a Federal, state or local government official, or his or her designee, who is acting in the course of official duties from:

(i) Taking a Steller sea lion in a humane manner, if the taking is for the protection or welfare of the animal, the protection of the public health and welfare, or the nonlethal removal of nuisance animals; or

(ii) Entering the buffer areas to perform activities that are necessary for national defense, or the performance of other legitimate governmental activities.

(3) Subsistence takings by Alaska natives. Paragraph (a) of this section does not apply to the taking of Steller sea lions for subsistence purposes under section 10(e) of the Act.

(4) Emergency situations. Paragraph (a)(2) of this section does not apply to an emergency situation in which compliance with that provision presents a threat to the health, safety, or life of a person or presents a significant threat to the vessel or property.

(5) Exemptions. Paragraph (a)(2) of this section does not apply to any activity authorized by a prior written exemption from the Director, Alaska Region, National Marine Fisheries Service. Concurrently with the issuance of any exemption, the Assistant Administrator will publish notice of the exemption in the Federal Register. An exemption may be granted only if the activity has been conducted historically or traditionally in the buffer zones, and there is no readily available and acceptable alternative to or site for the activity.

(6) Navigational transit. Paragraph (a)(2) of this section does not prohibit a vessel in transit from passing through a strait, narrows, or passageway listed in this paragraph if the vessel proceeds in continuous transit and maintains a minimum of 1 nautical mile from the rookery site. The listing of a strait, narrows, or passageway does not indicate that the area is safe for navigation. The listed straits, narrows, or passageways include the following:

<table>

(c) Penalties. (1) Any person who violates this section or the Act is subject to the penalties specified in section 11 of the Act, and any other penalties provided by law.

(2) Any vessel used in violation of this section or the Endangered Species Act is subject to forfeiture under section 11(e)(4)(B) of the Act.

§ 223.203 Anadromous fish.

(a) Prohibitions. The prohibitions of section 9 of the ESA (16 U.S.C. 1538) relating to endangered species apply to the threatened species of salmon listed in §223.102(a)(1) through (a)(4), except as provided in paragraph (b) of this section.

(b) Exceptions. (1) The exceptions of section 10 of the ESA (16 U.S.C. 1539) and other exceptions under the Act relating to endangered species, including regulations in part 222 of this chapter implementing such exceptions, also apply to the threatened species of salmon listed in §223.102(a)(1) through (a)(4).
§ 223.204 Exceptions to prohibitions relating to anadromous fish.

(a) The following exceptions to the prohibitions of §223.203(a) of this part apply to the Southern Oregon/Northern California Coast (SONCC) coho salmon.

(1) Take of SONCC coho salmon within 3 miles (approximately 5 km) of the coast, and in the bay, estuarine or freshwater fisheries regulated under the sole authority of the State of Oregon is not prohibited, if the take results from a fisheries harvest program conducted in accordance with the Oregon Coastal Salmon Restoration Initiative of March 1997 (OCSRI). NMFS must have issued a written concurrence stating that the fisheries regulations are consistent with the OCSRI, and the take is counted against the total allocation of harvest-related mortality as specified in the OCSRI. NMFS must have also issued a written concurrence stating that the hatchery program is consistent with the OCSRI including the hatchery and genetic management plan adopted pursuant to the OCSRI, using information provided through the MOA.

(2) Take of SONCC coho salmon in fisheries research and monitoring activities conducted in California and Oregon is not prohibited provided that:

(i) Research and monitoring involving directed take of coho salmon is conducted by CDFG personnel (in California) and ODFW personnel (in Oregon);

(ii) The CDFG and ODFW, respectively, provide NMFS with a list of all research and monitoring activities involving coho salmon directed take planned for the coming year for NMFS' review and approval. This report shall include an estimate of the total directed take that is anticipated, a description of the study design, including a justification for taking the species and a description of the techniques to be used, and a point of contact;

(iii) The CDFG and ODFW, respectively, provide NMFS annually with the results of research and monitoring.
studies directed at SONCC coho salmon, including a report of the directed take resulting from the studies;

(iv) The CDFG and ODFW, provide NMFS annually with a list of all research and monitoring studies permitted that may allow incidental take of listed coho salmon from the previous year’s research and monitoring activities, for NMFS’ review and approval.

(v) The research and monitoring activities do not include the use of electrofishing in any body of water known or suspected to contain coho salmon.

(5) Incidental take of the SONCC coho salmon in Oregon resulting from a habitat restoration activity is not prohibited, provided that:

(i) The activity is conducted pursuant to a watershed action or restoration plan that has been affirmed by the state in writing as consistent with NMFS’ approved state watershed plan guidelines set forth in §222.307(c) of this chapter. NMFS shall also concur in writing that the plan is consistent with the state watershed plan guidelines;

(ii) Until a watershed action or restoration plan is approved by both Oregon and NMFS as described in paragraph (a)(6)(i) of this section, or until August 18, 1999, whichever occurs first, the ODFW has made a written finding that the activity is consistent with state restoration activity guidelines that NMFS has agreed, in writing, to meet the standards set forth in §222.307(c) of this chapter by NMFS.

[64 FR 14069, Mar. 23, 1999]

§ 223.205 Sea turtles.

(a) The prohibitions of section 9 of the Act (16 U.S.C. 1538) relating to endangered species apply to threatened species of sea turtle, except as provided in §223.206.

(b) Except as provided in §223.206, it is unlawful for any person subject to the jurisdiction of the United States to do any of the following:

(1) Own, operate, or be on board a vessel, except if that vessel is in compliance with all applicable provisions of §223.206;

(2) Fish for, catch, take, harvest, or possess, fish or wildlife while on board a vessel, except if that vessel is in compliance with all applicable provisions of §223.206;

(3) Fish for, catch, take, harvest, or possess, fish or wildlife contrary to any notice of tow-time or other restriction specified in, or issued under, §223.206(d)(3) or (d)(4);

(4) Possess fish or wildlife taken in violation of paragraph (b) of this section;

(5) Fail to follow any of the sea turtle handling and resuscitation requirements specified in §223.206(d)(1);

(6) Possess a sea turtle in any manner contrary to the handling and resuscitation requirements of §223.206(d)(1);

(7) Fail to comply immediately, in the manner specified at §600.730 (b) through (d) of this Title, with instructions and signals specified therein issued by an authorized officer, including instructions and signals to haul back a net for inspection;
§ 223.205 Prohibitions relating to sea turtles.

(a) In connection with any action alleging a violation of this section, any person claiming the benefit of any exemption, exception, or permit under this subpart B has the burden of proving that the exemption, exception, or permit is applicable, was granted, and was valid and in force at the time of the alleged violation. Further, any person claiming that a modification made to a TED that is the subject of such an action complies with the requirements of §223.207 (c) or (d) has the burden of proving such claim.

§ 223.206 Exceptions to prohibitions relating to sea turtles.

(a) Permits—

(1) Scientific research, education, zoological exhibition, or species enhancement permits. The Assistant Administrator may issue permits authorizing activities which would otherwise be prohibited under §223.205(a) for scientific or educational purposes, for zoological exhibition, or to enhance the propagation or survival of threatened species of sea turtles, in accordance with and subject to the conditions of part 222, subpart C—General Permit Procedures.

(2) Incidental-take permits. The Assistant Administrator may issue permits authorizing activities that would otherwise be prohibited under §223.205(a) in accordance with section 10(a)(1)(B) of the Act (16 U.S.C. 1539(a)(1)(B)), and in accordance with, and subject to, the implementing regulations in part 222 of this chapter. Such permits may be issued for the incidental taking of threatened and endangered species of sea turtles.

(b) Exception for injured, dead, or stranded specimens. If any member of any threatened species of sea turtle is found injured, dead, or stranded, any agent or employee of the National Marine Fisheries Service, the Fish and Wildlife Service, the U.S. Coast Guard, or any other Federal land or water management agency, or any agent or employee of a state agency responsible for fish and wildlife who is designated by his or her agency for such purposes, may, when acting in the course of his or her official duties, take such specimens without a permit if such taking is necessary to aid a sick, injured, or stranded specimen or dispose of a dead specimen or salvage a dead specimen which may be useful for scientific study. Whenever possible, live specimens shall be returned to their aquatic environment as soon as possible. Every action shall be reported in writing to the Assistant Administrator within 30 days, and reports of further occurrence shall be made as deemed appropriate by the Assistant Administrator until the specimen is either returned to its
environment or disposed of. Reports shall be mailed by registered or certified mail, return receipt requested, to the Assistant Administrator and shall contain the following information:

1. Name and position of the official or employee involved;
2. Description of the specimen(s) involved;
3. Date and location of disposal;
4. Circumstances requiring the action;
5. Method of disposal;
6. Disposition of the specimen(s), including, where the specimen(s) has been retained in captivity, a description of the place and means of confinement, and the measures taken for its maintenance and care; and
7. Such other information as the Assistant Administrator may require.

(c) Exception for research or conservation. Any employee or agent of the National Marine Fisheries Service, the Fish and Wildlife Service, or a state fish and wildlife agency operating a conservation program pursuant to the terms of a Cooperative Agreement with the National Marine Fisheries Service or the Fish and Wildlife Service in accordance with section 6(c) of the Act, designated by his or her agency for such purposes, may, when acting in the course of his or her official duties, take any threatened species to carry out scientific research or conservation programs. All such takings shall be reported within 30 days of the taking to the Assistant Administrator who may request additional reports of the taking and research at the Assistant Administrator’s discretion.

(d) Exception for incidental taking. The prohibitions against taking in §223.205(a) do not apply to the incidental take of any member of a threatened species of sea turtle (i.e., a take not directed toward such member) during fishing or scientific research activities, to the extent that those involved are in compliance with all applicable requirements of paragraphs (d)(1) through (d)(5) of this section, or in compliance with the terms and conditions of an incidental take permit issued pursuant to paragraph (a)(2) of this section.

1. Handling and resuscitation requirements. (i) Any specimen taken incidentally during the course of fishing or scientific research activities must be handled with due care to prevent injury to live specimens, observed for activity, and returned to the water according to the following procedures:

(A) Sea turtles that are dead or actively moving must be released over the stern of the boat. In addition, they must be released only when trawls are not in use, when the engine gears are in neutral position, and in areas where they are unlikely to be recaptured or injured by vessels.

(B) Resuscitation must be attempted on sea turtles that are comatose or inactive but not dead by:

(1) Placing the turtle on its back (carapace) and pumping its breastplate (plastron) with hand or foot; or

(2) Placing the turtle on its breastplate (plastron) and elevating its hindquarter several inches for a period of 1 up to 24 hours. The amount of the elevation depends on the size of the turtle; greater elevations are needed for larger turtles. Sea turtles being resuscitated must be shaded and kept wet or moist. Those that revive and become active must be released over the stern of the boat only when trawls are not in use, when the engine gears are in neutral position, and in areas where they are unlikely to be recaptured or injured by vessels. Similarly, sea turtles that fail to move within several hours (up to 24, if possible) must be returned to the water in the same manner.

(ii) Any specimen taken incidentally during the course of fishing or scientific research activities must not be consumed, sold, landed, offloaded, transshipped, or kept below deck.

2. Gear requirements—(i) TED requirement for shrimp trawlers. Any shrimp trawler that is in the Atlantic Area or Gulf Area must have an approved TED installed in each net that is rigged for fishing. A net is rigged for fishing if it is in the water, or if it is shackled, tied, or otherwise connected to any trawl door or board, or to any tow rope, cable, pole or extension, either on board or attached in any manner to the shrimp trawler. Exceptions to the TED requirement for shrimp trawlers are provided in paragraph (d)(2)(ii) of this section.
§ 223.206  

(ii) Exemptions from the TED requirement—(A) Alternative tow-time restrictions. A shrimp trawler is exempt from the TED requirements of paragraph (d)(2)(i) of this section if it complies with the alternative tow-time restrictions in paragraph (d)(3)(i) of this section and if it:

1. Has on board no power or mechanical-advantage trawl retrieval system (i.e., any device used to haul any part of the net aboard);

2. Is a bait shrimper that retains all live shrimp on board in a container with a circulating seawater system, if it does not possess more than 32 pounds (14.5 kg) of dead shrimp on board, and if it has on board a valid original state bait-shrimp license (if in a state that requires such a license);

3. Has only a pusher-head trawl, skimmer trawl, or wing net rigged for fishing; and

4. Is in an area during a period for which tow-time restrictions apply under paragraphs (d)(3)(ii) or (iii) of this section, if it complies with all applicable provisions imposed under those paragraphs.

(B) Exempted gear or activities. The following fishing gear or activities are exempted from the TED requirements of paragraph (d)(2)(i) of this section:

1. A single test net (try net) with a headrope length of 12 ft (3.6 m) or less and with a footrope length of 15 ft (4.6 m) or less, if it is either pulled immediately in front of another net or is not connected to another net in any way, if no more than one test net is used at a time, and if it is not towed as a primary net;

2. A beam or roller trawl, if the frame is outfitted with rigid vertical bars, and if none of the spaces between the bars, or between the bars and the frame, exceeds 4 inches (10.2 cm); and

3. A shrimp trawler fishing for, or possessing, royal red shrimp, if royal red shrimp constitutes at least 90 percent (by weight) of all shrimp either found on board, or offloaded from that shrimp trawler.

(iii) Gear requirement—summer flounder trawlers—(A) TED requirement. Any summer flounder trawler in the summer flounder fishery-sea turtle protection area must have an approved TED installed in each net that is rigged for fishing. A net is rigged for fishing if it is in the water, or if it is shackled, tied, or otherwise connected to any trawl door or board, or to any tow rope, cable, pole or extension, either on board or attached in any manner to the summer flounder trawler. Exceptions to the TED requirement for summer flounder trawlers are provided in paragraph (d)(2)(iii)(B) of this section.

(B) Exemptions from the TED requirement. Any summer flounder trawler north of 35°46.1′ N. lat. (Oregon Inlet, NC) from January 15 through March 15 annually is exempt from the TED requirement of paragraph (d)(2)(iii)(A) of this section, unless the Assistant Administrator determines that TED use is necessary to protect sea turtles or ensure compliance, pursuant to the procedures of paragraph (d)(4) of this section.

(C) Monitoring. Summer flounder trawlers must carry onboard a NMFS-approved observer if requested by the Southeast Regional Administrator or the Northeast Regional Administrator. A written notification will be sent to the address specified for the vessel in either the NMFS or state fishing permit application, or to the address specified for registration or documentation purposes, or upon written notification otherwise served on the owner or operator of the vessel. Owners and operators must comply with the terms and conditions specified in such written notification. All NMFS-approved observers will report any violations of this section, or other applicable regulations and laws. Information collected by observers may be used for enforcement purposes.

(D) Additional sea turtle conservation measures. The Assistant Administrator may impose other such restrictions upon summer flounder trawlers as the Assistant Administrator deems necessary or appropriate to protect sea turtles and ensure compliance, pursuant to the procedures of paragraph (d)(4) of this section. Such measures may include, but are not limited to, a requirement to use TED in areas other than summer flounder fishery-sea turtle protection area, a requirement to use limited tow-times, and closure of the fishery.
Gear requirement—leatherback conservation zone—(A) Leatherback surveys.

From January 1 through June 30 of each year, weekly aerial surveys will be conducted in the leatherback conservation zone by NMFS or state agents, contingent upon weather conditions. If sighting rates of greater than 10 leatherback turtles per 50 nautical miles (92.6 km) of trackline are observed, the aerial surveys of that area will be replicated within 24 hours, or as soon as practicable thereafter.

(B) TED requirements and registration. If surveys pursuant to paragraph (d)(2)(iv)(A) of this section indicate a sighting rate within the leatherback conservation zone of greater than 10 leatherback sea turtles per 50 nautical miles (92.6 km) of trackline, NMFS will close an area of the leatherback conservation zone encompassing all, or a portion of, inshore waters and offshore waters 10 nautical miles (18.5 km) seaward of the COLREGS demarcation line, bounded by 1° lat. coinciding with the trackline, within the leatherback conservation zone. This closure will be for a 2-week period. Within such closed area, fishing by any shrimp trawler required to have a NMFS-approved TED installed in each net rigged for fishing is prohibited, unless the TED installed is one described at § 223.207(a)(7)(ii)(B) or, prior to October 13, 1999, § 223.207(c)(1)(iv)(B), and the owner or operator of the shrimp trawler has notified the Southeast Regional Administrator of his or her intention to fish in that area, in accordance with the procedure provided in paragraph (d)(5) of this section. If requested in writing from the Southeast Regional Administrator, owners and operators of shrimp trawlers in the leatherback conservation zone must carry NMFS-approved observers aboard such vessel(s). A shrimp trawler in the leatherback conservation zone must comply with the terms and conditions specified in such written request, as well as provide information on trawling hours, gear modifications, and turtle captures.

(C) Notification. NMFS will immediately announce specific area closures on the NOAA weather radio channel, in newspapers, and other media. Specific area closures will be effective upon filing for public inspection at the Office of the Federal Register. Owners and operators of shrimp trawl vessels in the leatherback conservation zone are responsible for monitoring the NOAA weather radio channel for closure announcements. Shrimp trawlers may also call the Southeast Regional Office at (813) 570-5312 to receive updated area closure information.

(3) Tow-time restrictions—(i) Duration of tows. If tow-time restrictions are utilized pursuant to paragraph (d)(2)(ii), (d)(3)(ii), or (d)(3)(iii) of this section, a shrimp trawler must limit tow times. The tow time is measured from the time that the trawl door enters the water until it is removed from the water. For a trawl that is not attached to a door, the tow time is measured from the time the codend enters the water until it is removed from the water. Tow times may not exceed:

(A) 55 minutes from April 1 through October 31; and

(B) 75 minutes from November 1 through March 31.

(ii) Alternative—special environmental conditions. The Assistant Administrator may allow compliance with tow-time restrictions, as an alternative to the TED requirement of paragraph (d)(2)(i) of this section, if the Assistant Administrator determines that the presence of algae, seaweed, debris or other special environmental conditions in a particular area makes trawling with TED-equipped nets impracticable.

(iii) Substitute—ineffectiveness of TEDs. The Assistant Administrator may require compliance with tow-time restrictions, as a substitute for the TED requirement of paragraph (d)(2)(i) of this section, if the Assistant Administrator determines that TEDs are ineffective in protecting sea turtles.

(iv) Notice; applicability; conditions. The Assistant Administrator will publish notification concerning any tow-time restriction imposed under paragraph (d)(3)(ii) or (iii) of this section in the Federal Register and will announce it in summary form on channel 16 of the marine VHF radio. A notification of tow-time restrictions will include findings in support of these restrictions as an alternative to, or as substitute for, the TED requirements. The notification will specify the effective dates, the geographic area where
tow-time restrictions apply, and any applicable conditions or restrictions that the Assistant Administrator determines are necessary or appropriate to protect sea turtles and ensure compliance, including, but not limited to, a requirement to carry observers, to register vessels in accordance with procedures at paragraph (d)(5) of this section, or for all shrimp trawlers in the area to synchronize their tow times so that all trawl gear remains out of the water during certain times. A notification withdrawing tow-time restrictions will include findings in support of that action.

(v) Procedures. The Assistant Administrator will consult with the appropriate fishery officials (state or Federal) where the affected shrimp fishery is located in issuing a notification concerning tow-time restrictions. An emergency notification can be effective for a period of up to 30 days and may be renewed for additional periods of up to 30 days each if the Assistant Administrator finds that the conditions necessitating the imposition of tow-time restrictions continue to exist. The Assistant Administrator may invite comments on such an action, and may withdraw or modify the action by following procedures similar to those for implementation. The Assistant Administrator will implement any permanent tow-time restriction through rulemaking.

(4) Limitations on incidental takings during fishing activities—(i) Limitations. The exemption for incidental takings of sea turtles in paragraph (d) of this section does not authorize incidental takings during fishing activities if the takings:

(A) Would violate the restrictions, terms, or conditions of an incidental take statement or biological opinion;

(B) Would violate the restrictions, terms, or conditions of an incidental take permit; or

(C) May be likely to jeopardize the continued existence of a species listed under the Act.

(ii) Determination; restrictions on fishing activities. The Assistant Administrator may issue a determination that incidental takings during fishing activities are unauthorized. Pursuant thereto, the Assistant Administrator may restrict fishing activities in order to conserve a species listed under the Act, including, but not limited to, restrictions on the fishing activities of vessels subject to paragraph (d)(2) of this section. The Assistant Administrator will take such action if the Assistant Administrator determines that restrictions are necessary to avoid unauthorized takings that may be likely to jeopardize the continued existence of a listed species. The Assistant Administrator may withdraw or modify a determination concerning unauthorized takings or any restriction on fishing activities if the Assistant Administrator determines that such action is warranted.

(iii) Notice; applicability; conditions. The Assistant Administrator will publish a notification of a determination concerning unauthorized takings or a notification concerning the restriction of fishing activities in the Federal Register. The Assistant Administrator will provide as much advance notice as possible, consistent with the requirements of the Act, and will announce the notification in summary form on channel 16 of the marine VHF radio. Notification of a determination concerning unauthorized takings will include findings in support of that determination; specify the fishery, including the target species and gear used by the fishery, the area, and the times, for which incidental takings are not authorized; and include such other conditions and restrictions as the Assistant Administrator determines are necessary or appropriate to protect sea turtles and ensure compliance. Notification of restriction of fishing activities will include findings in support of the restriction, will specify the time and area where the restriction is applicable, and will specify any applicable conditions or restrictions that the Assistant Administrator determines are necessary or appropriate to protect sea turtles and ensure compliance. Such conditions and restrictions may include, but are not limited to, limitations on the types of fishing gear that may be used, tow-time restrictions, alteration or extension of the periods of time during which particular tow-time requirements apply, requirements to
use TEDs, registration of vessels in accordance with procedures at paragraph (d)(5) of this section, and requirements to provide observers. Notification of withdrawal or modification will include findings in support of that action.

(iv) Procedures. The Assistant Administrator will consult with the appropriate fisheries officials (state or Federal) where the fishing activities are located in issuing notification of a determination concerning unauthorized takings or notification concerning the restriction of fishing activities. An emergency notification will be effective for a period of up to 30 days and may be renewed for additional periods of up to 30 days each. The Assistant Administrator may invite comments on such action, and may withdraw or modify the action by following procedures similar to those for implementation. The Assistant Administrator will implement any permanent determination or restriction through rulemaking.

(5) Registration. If the Assistant Administrator imposes restrictions under paragraph (d)(2)(iv), (d)(3)(ii), (d)(3)(iii), or (d)(4)(ii) of this section, the Assistant Administrator may require the owner and operator of a vessel to register before entering an area where, and during the time when, the restrictions apply. If registration is required, the vessel's owner and operator must submit the following information to the NMFS Regional Office:

(i) The name and official number (or registration number) of the vessel;

(ii) The names, mailing and street addresses, and telephone numbers of the vessel owner and operator;

(iii) The permit number or other identification of relevant state or Federal fishing permit(s);

(iv) Where and when the vessel intends to fish;

(v) Where and when the vessel will depart on any fishing trip, with sufficient specificity to allow for an observer to embark on the trip; and

(vi) Any changes in the information submitted under paragraphs (d)(5)(i) through (d)(5)(v) of this section. Failure to do so immediately will void the registration and rendering unlawful any subsequent entry of the fishing vessel into the area where and during the time when the restrictions apply.

[64 FR 14070, Mar. 23, 1999]

Effective Date Note: At 64 FR 14070, Mar. 23, 1999, newly redesignated §223.206 was revised. Paragraph (d)(5) contains information collection requirements and will not become effective until approval has been given by the Office of Management and Budget.

§ 223.207 Approved TEDs.

Any netting, webbing, or mesh that may be measured to determine compliance with this section is subject to measurement, regardless of whether it is wet or dry. Any such measurement will be of the stretched mesh size.

(a) Hard TEDs. Hard TEDs are TEDs with rigid deflector grids and are categorized as “hooped hard TEDs,” such as the NMFS and Cameron TEDs (Figures 1 & 2 to this part), or “single-grid hard TEDs,” such as the Matagorda and Georgia TEDs (Figures 3 & 4 to this part). Hard TEDs complying with the following generic design criteria are approved TEDs:

(1) Construction materials. A hard TED must be constructed of one or a combination of the following materials, with minimum dimensions as follows:

(i) Solid steel rod with a minimum outside diameter of 1/4 inch (0.64 cm);

(ii) Fiberglass or aluminum rod with a minimum outside diameter of 1/2 inch (1.27 cm); or

(iii) Steel or aluminum tubing with a minimum outside diameter of 1/2 inch (1.27 cm) and a minimum wall thickness of 1/8 inch (0.32 cm) (also known as schedule 40 tubing).

(2) Method of attachment. A hard TED must be sewn into the trawl around the entire circumference of the TED with heavy twine.

(3) Angle of deflector bars. (i) The angle of the deflector bars must be between 30° and 55° from the normal, horizontal flow through the interior of the trawl, except as provided in paragraph (a)(3)(i) of this section.

(ii) For any shrimp trawler fishing in the Gulf SFSTCA or the Atlantic SFSTCA, a hard TED with the position of the escape opening at the bottom of the net when the net is in its deployed position, the angle of the deflector bars from the normal, horizontal flow...
§ 223.207

through the interior of the trawl, at any point, must not exceed 55°, and:

(A) If the deflector bars that run from top to bottom are attached to the bottom frame of the TED, the angle of the bottom-most 4 inches (10.2 cm) of each deflector bar, measured along the bars, must not exceed 45° (Figures 14a and 14b to this part);

(B) If the deflector bars that run from top to bottom are not attached to the bottom frame of the TED, the angle of the imaginary lines connecting the bottom frame of the TED to the bottom end of each deflector bar which runs from top to bottom must not exceed 45° (Figure 15 to this part).

(4) Space between bars. The space between deflector bars and between the deflector bars and the frame must not exceed 4 inches (10.2 cm).

(5) Direction of bars. The deflector bars must run from top to bottom of the TED, as the TED is positioned in the net, except that up to four of the bottom bars and two of the top bars, including the frame, may run from side to side of the TED.

(6) Position of escape opening. The entire width of the escape opening from the trawl must be centered on and immediately forward of the frame at either the top or bottom of the net when the net is in its deployed position. The escape opening must be at the top of the net when the slope of the deflector bars from forward to aft is upward, and must be at the bottom when such slope is downward. For a single-grid TED, the escape opening must be cut horizontally along the same plane as the TED, and may not be cut in a fore-and-aft direction.

(7) Size of escape opening—(i) Hooped hard TED. On a hooped hard TED, the escape opening must not be smaller than 25 inches by 25 inches (63.5 cm by 63.5 cm) in the Gulf Area, or 30 inches by 30 inches (76.2 cm by 76.2 cm) in the Atlantic Area. A door frame may not be used over the escape opening; however, a webbing flap may be used as provided in paragraph (e)(4)(iv)(C) of this section.

(ii) Single-grid hard TED. On a single-grid hard TED, the cut in the trawl webbing for the escape opening cannot be narrower than the outside width of the grid minus 4 inches (10.2 cm) on both sides of the grid, when measured as a straight line width. (Figure 13 to this part illustrates the dimensions of this cut.) The resulting escape opening in the net webbing must measure at least 32 inches (81.3 cm) in horizontal taut length and, simultaneously, 10 inches (25.4 cm) in vertical taut height in the Gulf Area; or 35 inches (88.9 cm) in horizontal taut length and, simultaneously, 12 inches (30.5 cm) in vertical taut height in the Atlantic Area. The vertical measurement must be taken at the midpoint of the horizontal measurement.

(B) Escape opening for leatherback turtles. A single-grid hard TED escape opening shall be enlarged to allow leatherback turtles to escape by cutting an exit hole in the extension forward of the TED frame 26 inches (66 cm) deep, on each side, by 83 inches (211 cm) across (Figures 12a and 12b to this part). Excess webbing is removed by cutting across ½ mesh forward of the TED frame. The exit hole cover is made by cutting a 133-inch (338-cm) by 58-inch (148 cm) piece of webbing no smaller than 1⅛ inch (4 cm) stretch mesh and no larger than 1½ inch (4.2 cm) stretch mesh. The 133-inch (338 cm) edge of the cover is attached to the forward edge of the opening (83-inch (211-cm) edge) with a sewing sequence of 3:2. The cover should overlap 5 inches (13 cm) of the exit hole on each side. The side of the cover is attached, maintaining the 5-inch (13-cm) overlap, to the side of the opening by sewing 28 inches (71 cm) of the cover to 26 inches (66 cm) of the opening forward of the TED frame and by sewing 15 inches (38 cm) of the cover to 15 inches (38 cm) of the extension behind the TED frame. The cover may extend no more than 24 inches (61 cm) behind the posterior edge of the TED frame. The circumference of the exit opening must be 142 inches (361 cm) when stretched. If an accelerator funnel is used with a single-grid hard TED, modified as above, it must also have a minimum circumference of 142 inches (361 cm).

(8) Size of hoop or grid—(i) Hooped hard TED. (A) An oval front hoop on a hard TED must have an inside horizontal measurement of at least 32
National Marine Fisheries Service/NOAA, Commerce  § 223.207

inches (81.3 cm) and an inside vertical measurement of at least 20 inches (50.8 cm) in the Gulf Area, or an inside horizontal measurement of at least 35 inches (88.9 cm) and an inside vertical measurement of at least 30 inches (76.2 cm) in the Atlantic Area.

(B) A circular front hoop on a hard TED must have an inside diameter of at least 32 inches (81.3 cm) in the Gulf Area or 35 inches (88.9 cm) in the Atlantic Area.

(ii) Single-grid hard TED. A single-grid hard TED must have an inside horizontal and vertical measurement of at least 28 inches (71.1 cm) in the Gulf Area or 30 inches (76.2 cm) in the Atlantic Area. The required inside measurements must be at the mid-point of the deflector grid.

(9) Flotation. Floats must be attached to the top one-half of all hard TEDs with bottom escape openings. The floats may be attached either outside or inside the net, but not to a flap. Floats attached inside the net must be behind the rear surface of the TED. Floats must be attached with heavy twine or rope. Floats must be constructed of aluminum, hard plastic, expanded polyvinyl chloride, or expanded ethylene vinyl acetate unless otherwise specified. The requirements of this paragraph may be satisfied by compliance with either the dimension requirements of paragraph (a)(9)(i) of this section, or the buoyancy requirements of paragraph (a)(9)(ii) of this section, or the buoyancy-dimension requirements of paragraph (a)(9)(iii) of this section. If roller gear is used pursuant to paragraph (d)(5) of this section, the roller gear must be included in the circumference measurement of the TED or the total weight of the TED.

(i) Float dimension requirements. (A) For hard TEDs with a circumference of 120 inches (304.8 cm) or more, a minimum of either one round, aluminum or hard plastic float, no smaller than 9.8 inches (25.0 cm) in diameter, or one expanded polyvinyl chloride or expanded ethylene vinyl acetate float, no smaller than 6.75 inches (17.2 cm) in diameter by 8.75 inches (22.2 cm) in length, must be attached.

(B) For hard TEDs with a circumference of less than 120 inches (304.8 cm), a minimum of either one round, aluminum or hard plastic float, no smaller than 9.8 inches (25.0 cm) in diameter, or one expanded polyvinyl chloride or expanded ethylene vinyl acetate float, no smaller than 6.75 inches (17.2 cm) in diameter by 8.75 inches (22.2 cm) in length, must be attached.

(ii) Float buoyancy requirements. Floats of any size and in any combination must be attached such that the combined buoyancy of the floats, as marked on the floats, equals or exceeds the weight of the hard TED, as marked on the TED. The buoyancy of the floats and the weight of the TED must be clearly marked on the floats and the TED as follows:

(A) Float buoyancy markings. Markings on floats must be made in clearly legible raised or recessed lettering by the original manufacturer. The marking must identify the buoyancy of the float in water, expressed in grams or kilograms, and must include the metric unit of measure. The marking may additionally include the buoyancy in English units. The marking must identify the nominal buoyancy for the manufactured float.

(B) TED weight markings. The marking must be made by the original TED manufacturer and must be permanent and clearly legible. The marking must identify the in-air, dry weight of the TED, expressed in grams or kilograms, and must include the metric unit of measure. The marking may additionally include the weight in English units. The marked weight must represent the actual weight of the individual TED as manufactured. Previously manufactured TEDs may be marked upon return to the original manufacturer. Where a TED is comprised of multiple detachable components, the weight of each component must be separately marked.

(iii) Buoyancy-dimension requirements. Floats of any size and in any combination, provided that they are marked pursuant to paragraph (a)(9)(ii)(A) of this section, must be attached such that the combined buoyancy of the floats equals or exceeds the following values:

(A) For floats constructed of aluminum or hard plastic, regardless of the size of the TED grid, the combined
buoyancy must equal or exceed 14 lb (6.4 kg);

(B) For floats constructed of expanded polyvinyl chloride or expanded ethylene vinyl acetate, where the circumference of the TED is 120 inches (304.8 cm) or more, the combined buoyancy must equal or exceed 20 lb (9.1 kg); or

(C) For floats constructed of expanded polyvinyl chloride or expanded ethylene vinyl acetate, where the circumference of the TED is less than 120 inches (304.8 cm), the combined buoyancy must equal or exceed 10 lb (4.5 kg).

(b) Special Hard TEDs. Special hard TEDs are hard TEDs which do not meet all of the design and construction criteria of the generic standards specified in paragraph (a) of this section. The following special hard TEDs are approved TEDs:

(1) Flounder TED (Figure 10 to this part). The Flounder TED is approved for use only in the Atlantic summer flounder bottom trawl fishery. The Flounder TED is not an approved TED for use by shrimp trawlers. The Flounder TED must be constructed of at least 1¼ inch (3.2 cm) outside diameter aluminum or steel pipe, and the pipe must have a wall thickness of at least ¼ inch (0.3 cm). It must have a rectangular frame with outside dimensions which can be no less than 51 inches (129.5 cm) in length and 32 inches (81.3 cm) in width. It must have at least five vertical deflector bars, with bar spacings of no more than 4 inches (10.2 cm). The vertical bars must be connected to the top of the frame and to a single horizontal bar near the bottom. The horizontal bar must be connected at both ends to the sides of the frame and parallel to the bottom bar of the frame. There must be a space no larger than 10 inches (25.4 cm) between the horizontal bar and the bottom bar of the frame. One or more additional vertical bars running from the bottom bar to the horizontal bar must divide the opening at the bottom into two or more rectangles, each with a maximum height of 10 inches (25.4 cm) and a maximum width of 14½ inches (36.8 cm). This TED must comply with paragraphs (a)(2), (a)(3), (a)(6), (a)(7)(iii), (a)(8)(ii), and (a)(9) of this section with respect to the method of attachment, the angle of the deflector bars, the position of the escape opening, and the size of the escape opening, except that the deflector bars must be positioned in the net to deflect turtles to the escape opening in the top of the trawl. This TED may not be configured with a bottom escape opening. Installation of an accelerator funnel is not permitted with this TED.

(2) Jones TED (Figure 11 to this part). The Jones TED must be constructed of at least 1¼ inch (3.2 cm) outside diameter aluminum or steel pipe, and the pipe must have a wall thickness of at least ¼ inch (0.3 cm). It must be generally oval in shape with a flattened bottom. The deflector bars must be attached to the frame at a 45° angle from the horizontal positioning downward and each bar must be attached at only one end to the frame. The deflector bars must be attached and lie in the same plane as the frame. The space between the ends of the bottom deflector bars and the bottom frame bar must be no more than 3 inches (7.6 cm). The spacing between the bottom three deflector bars on each side must be no greater than 2½ inches (6.4 cm). The spacing between all other deflector bars must not exceed 3½ inches (8.9 cm) and spacing between ends of opposing deflector bars also must not exceed 3½ inches (8.9 cm). This TED must comply with paragraphs (a)(2), (a)(3), (a)(6), (a)(7)(iii), (a)(8)(ii), and (a)(9) of this section with respect to the method of attachment, the angle of the deflector bars, the position of the escape opening, the size of the escape opening, the size of the grid, and flotation.

(c) Soft TEDs. Soft TEDs are TEDs with deflector panels made from polypropylene or polyethylene netting. Prior to October 13, 1999, the following soft TEDs are approved TEDs:

(1) Parker TED. The Parker TED is a soft TED, consisting of a single triangular panel, composed of webbing of two different mesh sizes, that forms a complete barrier inside a trawl and that angles toward an escape opening in the top of the trawl.

(i) Excluder Panel. (Figure 5 to this part) The excluder panel of the Parker TED must be constructed of a single triangular piece of 8-inch (20.3 cm)
stretched mesh webbing and two trapezoidal pieces of 4-inch (10.2-cm) stretched mesh webbing. The webbing must consist of number 48 (3-mm thick) or larger polypropylene or polyethylene webbing that is heat-set knotted or braided. The leading edge of the 8-inch (20.3-cm) mesh panel must be 36 meshes wide. The 8-inch (20.3-cm) mesh panel must be tapered on each side with all-bar cuts to converge on an apex, such that the length of each side is 36 bars. The leading edges of the 4-inch (10.2-cm) mesh panels must be 8 meshes wide. The edges of the 4-inch (10.2-cm) mesh panels must be cut with all-bar cuts running parallel to each other, such that the length of the inner edge is 72 bars and the resulting fore-and-aft edge is 8 meshes deep. The two 4-inch (10.2-cm) mesh panels must be sewn to the 8-inch (20.3-cm) mesh panel to create a single triangular excluder panel. The 72-bar edge of each 4-inch (10.2-cm) mesh panel must be securely joined with twine to one of the 36-bar edges of the 8-inch (20.3-cm) mesh panel, tied with knots at each knot of the 4-inch (10.2-cm) webbing and at least two wraps of twine around each bar of 4-inch (10.2-cm) mesh and the adjoining bar of the 8-inch (20.3-cm) mesh. The adjoining fore-and-aft edges of the two 4-inch (10.2-cm) mesh panels must be sewn together evenly.

(ii) Limitations on which trawls may have a Parker TED installed. The Parker TED must not be installed or used in a two-seam trawl with a tongue, nor in a triple-wing trawl (a trawl with a tongue along the headrope and a second tongue along the footrope). The Parker TED may be installed and used in any other trawl if the taper of the body panels of the trawl does not exceed 45° and if it can be properly installed in compliance with paragraph (c)(1)(iii) of this section.

(iii) Panel installation—(A) Leading edge attachment. The leading edge of the excluder panel must be attached to the inside of the bottom of the trawl across a straight row of meshes. For a two-seam trawl or a four-seam, tapered-wing trawl, the row of meshes for attachment to the trawl must run the entire width of the bottom body panel, from seam to seam. For a four-seam, straight-wing trawl, the row of meshes for attachment to the trawl must run the entire width of the bottom body panel and half the height of each wing panel of the trawl. Every mesh of the leading edge of the excluder panel must be evenly sewn to this row of meshes; meshes may not be laced to the trawl. The row of meshes for attachment to the trawl must contain the following number of meshes, depending on the stretched mesh size used in the trawl:

- For a mesh size of 2¼ inches (5.7 cm), 152-168 meshes;
- For a mesh size of 2½ inches (5.4 cm), 161-178 meshes;
- For a mesh size of 2 inches (5.1 cm), 171-189 meshes;
- For a mesh size of 1½ inches (4.8 cm), 182-202 meshes;
- For a mesh size of 1¾ inches (4.4 cm), 196-216 meshes;
- For a mesh size of 1¾ inches (4.1 cm), 211-233 meshes;
- For a mesh size of 1½ inches (3.8 cm), 228-252 meshes;
- For a mesh size of 1¾ inches (3.5 cm), 249-275 meshes; and
- For a mesh size of 1¼ inches (3.2 cm), 274-302 meshes.

(B) Apex attachment. The apex of the triangular excluder panel must be attached to the inside of the top body panel of the trawl at the centerline of the trawl. The distance, measured aft along the centerline of the top body panel from the same row of meshes for attachment of the excluder panel to the bottom body panel of the trawl, to the apex attachment point must contain the following number of meshes, depending on the stretched mesh size used in the trawl:

- For a mesh size of 2¼ inches (5.7 cm), 78-83 meshes;
- For a mesh size of 2½ inches (5.4 cm), 83-88 meshes;
- For a mesh size of 2 inches (5.1 cm), 87-93 meshes;
- For a mesh size of 1½ inches (4.8 cm), 93-99 meshes;
- For a mesh size of 1¾ inches (4.4 cm), 100-106 meshes;
- For a mesh size of 1¾ inches (4.1 cm), 107-114 meshes;
- For a mesh size of 1½ inches (3.8 cm), 114-124 meshes;
- For a mesh size of 1¾ inches (3.5 cm), 127-135 meshes; and
§ 223.207

(9) For a mesh size of 1¼ inches (3.2 cm), 137–146 meshes.

(C) Side attachment. The sides of the excluder panel must be attached evenly to the inside of the trawl from the outside attachment points of the excluder panel’s leading edge to the apex of the excluder panel. Each side must be sewn with the same sewing sequence, and, if the sides of the excluder panel cross rows of bars in the trawl, the crossings must be distributed evenly over the length of the side attachment.

(iv) Escape opening. The escape opening for the Parker soft TED must match one of the following specifications:

(A) Longitudinal cut. A slit at least 56 inches (1.4 m) in taut length must be cut along the centerline of the top body panel of the trawl net immediately forward of the apex of the panel webbing. The slit must not be covered or closed in any manner. The edges and end points of the slit must not be reinforced in any way; for example, by attaching additional rope or webbing or by changing the orientation of the webbing.

(B) Leatherback escape opening. A horizontal cut extending from the attachment of one side of the deflector panel to the trawl to the attachment of the other side of the deflector panel to the trawl must be made in a single row of meshes across the top of the trawl and measure at least 96 inches (244 cm) in taut width. All trawl webbing above the deflector panel between the 96-inch (244-cm) cut and edges of the deflector panel must be removed. A rectangular flap of nylon webbing not larger than 2-inch (5.1-cm) stretched mesh may be sewn to the forward edge of the escape opening. The flap must not be larger than the width of the forward edge of the escape opening. The flap must not extend more than 12 inches (30.4 cm) beyond the rear point of the escape opening. The sides of the flap may be attached to the top of the trawl but must not be attached farther aft than the row of meshes through the rear point of the escape opening. One row of steel chain not larger than ¾-inch (4.76 mm) may be sewn evenly to the back edge of the flap. The stretched length of the chain must not exceed 96 inches (244 cm). A Parker TED using the escape opening described in this paragraph meets the requirements of §223.206(d)(2)(iv)(B).

(2) [Reserved]

(d) Allowable modifications to hard TEDs and special hard TEDs. Unless otherwise prohibited in paragraph (b) of this section, only the following modifications may be made to an approved hard TED or an approved special hard TED:

(1) Floats. In addition to floats required pursuant to paragraph (a)(9) of this section, floats may be attached to the top one-half of the TED, either outside or inside the net, but not to a flap. Floats attached inside the net must be behind the rear surface at the top of the TED.

(2) Accelerator funnel. An accelerator funnel may be installed in the trawl, if it is made of net webbing material with a stretched mesh size not greater than 1½ inches (4.1 cm), if it has an inside horizontal opening of at least 39 inches (99.1 cm) when measured in a taut position, if it is inserted in the net immediately forward of the TED, and if its rear edge does not extend past the bars of the TED. The trailing edge of the accelerator funnel may be attached to the TED on the side opposite the escape opening if not more than ⅔ of the circumference of the funnel is attached, and if the inside horizontal opening of at least 39 inches (99.1 cm) is maintained. In a bottom-opening TED, only the top ⅔ of the circumference of the funnel may be attached to the TED. In a top-opening TED, only the bottom ⅔ of the circumference of the funnel may be attached to the TED.

(3) Webbing flap. A webbing flap may be used to cover the escape opening under the following conditions: No device holds it closed or otherwise restricts the opening; it is constructed of webbing with a stretched mesh size no larger than 1½ inches (4.1 cm); it lies on the outside of the trawl; it is attached along its entire forward edge forward of the escape opening; it is not attached on the sides beyond the row of meshes that lies 6 inches (15.2 cm) behind the posterior edge of the grid; and it does not extend more than 24 inches (61.0 cm) beyond the posterior edge of the grid, except for trawlers fishing in the Gulf SFSTCA or Atlantic SFSTCA.
with a hard TED with the position of the escape opening at the bottom of the net when the net is in its deployed position, in which case the webbing flap must not extend beyond the posterior edge of the grid.

(4) Chafing webbing. A single piece of nylon webbing, with a twine size no smaller than size 36 (2.46 mm in diameter), may be attached outside of the escape opening webbing flap to prevent chafing on bottom opening TEDs. This webbing may be attached along its leading edge only. This webbing may not extend beyond the trailing edge or sides of the existing escape opening webbing flap, and it must not interfere or otherwise restrict the turtle escape opening.

(5) Roller gear. Roller gear may be attached to the bottom of a TED to prevent chafing on the bottom of the TED and the trawl net. When a webbing flap is used in conjunction with roller gear, the webbing flap must be of a length such that no part of the webbing flap can touch or come in contact with any part of the roller gear assembly or the means of attachment of the roller gear assembly to the TED, when the trawl net is in its normal, horizontal position. Roller gear must be constructed according to one of the following design criteria:

(i) A single roller consisting of hard plastic shall be mounted on an axle rod, so that the roller can roll freely about the axle. The maximum diameter of the roller shall be 6 inches (15.24 cm), and the maximum width of the axle rod shall be 12 inches (30.4 cm). The axle rod must be attached to the TED by two support rods. The maximum clearance between the roller and the TED shall not exceed 1 inch (2.5 cm) at the center of the roller. The support rods and axle rod must be made from solid steel or solid aluminum rod no larger than ½ inch (1.28 cm) in diameter. The attachment of the support rods to the TED shall be such that there are no protrusions (lips, sharp edges, burrs, etc.) on the front face of the grid. The axle rod and support rods must lie entirely behind the plane of the face of the TED grid.

(ii) A single roller consisting of hard plastic tubing shall be tightly tied to the back face of the TED grid with rope or heavy twine passed through the center of the roller tubing. The roller shall lie flush against the TED. The maximum outside diameter of the roller shall be 3½ inches (8.0 cm), the minimum outside diameter of the roller shall be 2 inches (5.1 cm), and the maximum length of the roller shall be 12 inches (30.4 cm). The roller must lie entirely behind the plane of the face of the grid.

(e) Revision of generic design criteria, and approval of TEDs, of allowable modifications of hard TEDs, and of special hard TEDs. (1) The Assistant Administrator may revise the generic design criteria for hard TEDs set forth in paragraph (a) of this section, may approve special hard TEDs in addition to those listed in paragraph (b) of this section, may approve allowable modifications to hard TEDs in addition to those authorized in paragraph (d) of this section, or may approve other TEDs, by regulatory amendment, if, according to a NMFS-approved scientific protocol, the TED demonstrates a sea turtle exclusion rate of 97 percent or greater (or an equivalent exclusion rate). Two such protocols have been published by NMFS (52 FR 24262, June 29, 1987; and 55 FR 41092, October 9, 1990) and will be used only for testing relating to hard TED designs. Testing under any protocol must be conducted under the supervision of the Assistant Administrator, and shall be subject to all such conditions and restrictions as the Assistant Administrator deems appropriate. Any person wishing to participate in such testing should contact the Director, Southeast Fisheries Science Center, NMFS, 75 Virginia Beach Dr., Miami, FL 33149-1003.

(2) Upon application, the Assistant Administrator may issue permits, subject to such conditions and restrictions as the Assistant Administrator deems appropriate, authorizing public or private experimentation aimed at improving shrimp retention efficiency of existing approved TEDs and at developing additional TEDs, or conducting fishery research, that would otherwise be subject to §223.206(d)(2). Applications should be made to the Southeast Regional Administrator (see §222.102.
§ 223.207

definition of “Southeast Regional Administrator”).

[64 FR 14073, Mar. 23, 1999]

EFFECTIVE DATE NOTE: At 64 FR 14073, Mar. 23, 1999, §223.207 was added. Paragraphs (a)(9)(ii)(A) and (B) contain information and collection requirements and will not become effective until approved by the Office of Management and Budget.

PART 224—ENDANGERED MARINE AND ANADROMOUS SPECIES

Sec.
224.101 Enumeration of endangered marine and anadromous species.
224.102 Permits for endangered marine and anadromous species.
224.103 Special prohibitions for endangered marine mammals.
224.104 Incidental capture of endangered sea turtles.

SOURCE: 64 FR 14066, Mar. 23, 1999, unless otherwise noted.

§ 224.101 Enumeration of endangered marine and anadromous species.

The marine and anadromous species determined by the Secretary of Commerce to be endangered pursuant to section 4(a) of the Act, as well as species listed under the Endangered Species Conservation Act of 1969 by the Secretary of the Interior and currently under the jurisdiction of the Secretary of Commerce, are the following:

(a) Marine and anadromous fish. Shortnose sturgeon (Acipenser brevirostrum); Totoaba (Cynoscion macdonaldi), Snake River sockeye salmon (Oncorhynchus nerka), Umpqua River cutthroat trout (Oncorhynchus clarki clarki); Southern California steelhead (Oncorhynchus mykiss), including all naturally spawned populations of steelhead (and their progeny) in streams from the Santa Maria River, San Luis Obispo County, California (inclusive) to Malibu Creek, Los Angeles County, California (inclusive); Upper Columbia River steelhead (Oncorhynchus mykiss), including the Wells Hatchery stock and all naturally spawned populations of steelhead (and
their progeny) in streams in the Columbia River Basin upstream from the Yakima River, Washington, to the United States—Canada Border; Upper Columbia River spring-run chinook salmon (Oncorhynchus tshawytscha), including all naturally spawned populations of chinook salmon in Columbia River tributaries upstream of the Rock Island Dam and downstream of Chief Joseph Dam in Washington (excluding the Okanogan River), the Columbia River from a straight line connecting the west end of the Clatsop jetty (south jetty, Oregon side) and the west end of the Peacock jetty (north jetty, Washington side) upstream to Chief Joseph Dam in Washington, and the Chwawa River (spring run), Methow River (spring run), and Nason Creek (spring run) hatchery stocks (and their progeny); Sacramento River winter-run chinook salmon (Oncorhynchus tshawytscha).

(b) Marine mammals. Blue whale (Balaenoptera musculus); Bowhead whale (Balaena mysticetus); Caribbean monk seal (Monachus tropicalis); Chinese river dolphin (Lipotes vexillifer); Cochito (Phocoena sinus); Fin or finback whale (Balaenoptera physalus); Hawaiian monk seal (Monachus schauinslandi); Humpback whale (Megaptera novaeangliae); Indus River dolphin (Platanista minor); Mediterranean monk seal (Monachus monachus); Right whales (Eubalaena spp.); Saimaa seal (Phoca hispida saimensis); Sei whale (Balaenoptera borealis); Sperm whale (Physeter catodon); Western North Pacific (Korean) gray whale (Eschrichtius robustus); Steller sea lion, western population, (Eumetopias jubatus), which consists of Stellar sea lions from breeding colonies located west of 144° W. longitude.

(c) Sea turtles. Green turtle (Chelonia mydas) breeding colony populations in Florida and on the Pacific coast of Mexico; Hawksbill turtle (Eretmochelys imbricata); Kemp’s ridley turtle (Lepidochelys kempii); Leatherback turtle (Dermochelys coriacea); Olive ridley turtle (Lepidochelys olivacea) breeding colony population on the Pacific coast of Mexico.

NOTE TO §224.101(C): Jurisdiction for sea turtles by the Department of Commerce, National Oceanic and Atmospheric Administration, National Marine Fisheries Service, is limited to turtles while in the water.

[64 FR 14066, Mar. 23, 1999, as amended 64 FR 14328, Mar. 24, 1999]

§ 224.102 Permits for endangered marine and anadromous species.

No person shall take, import, export, or engage in any activity prohibited by section 9 of the Act involving any marine species that has been determined to be endangered under the Endangered Species Conservation Act of 1969 or the Act, and that is under the jurisdiction of the Secretary, without a valid permit issued pursuant to part 222, subpart C of this chapter.

§ 224.103 Special prohibitions for endangered marine mammals.

(a) Approaching humpback whales in Hawaii. Except as provided in part 222, subpart C, of this chapter (General Permit Procedures), it is unlawful for any person subject to the jurisdiction of the United States to commit, to attempt to commit, to solicit another to commit, or to cause to be committed, within 200 nautical miles (370.4 km) of the Islands of Hawaii, any of the following acts with respect to humpback whales (Megaptera novaeangliae):

(1) Operate any aircraft within 1,000 feet (300 m) of any humpback whale;
(2) Approach, by any means, within 100 yard (90 m) of any humpback whale;
(3) Cause a vessel or other object to approach within 100 yd (90 m) of a humpback whale; or
(4) Disrupt the normal behavior or prior activity of a whale by any other act or omission. A disruption of normal behavior may be manifested by, among other actions on the part of the whale, a rapid change in direction or speed; escape tactics such as prolonged diving, underwater course changes, underwater exhalation, or evasive swimming patterns; interruptions of breeding, nursing, or resting activities, attempts by a whale to shield a calf from a vessel or human observer by tail swishing or by other protective movement; or the abandonment of a previously frequented area.

[64 FR 14066, Mar. 23, 1999, as amended 64 FR 14328, Mar. 24, 1999]
§ 224.104

(b) Approaching North Atlantic right whales—(1) Prohibitions. Except as provided under paragraph (b)(3) of this section, it is unlawful for any person subject to the jurisdiction of the United States to commit, attempt to commit, to solicit another to commit, or cause to be committed any of the following acts:

(i) Approach (including by interception) within 500 yards (460 m) of a right whale by vessel, aircraft, or any other means;

(ii) Fail to undertake required right whale avoidance measures specified under paragraph (b)(2) of this section.

(2) Right whale avoidance measures. Except as provided under paragraph (b)(3) of this section, the following avoidance measures must be taken if within 500 yards (460 m) of a right whale:

(i) If underway, a vessel must steer a course away from the right whale and immediately leave the area at a slow safe speed.

(ii) An aircraft must take a course away from the right whale and immediately leave the area at a constant airspeed.

(3) Exceptions. The following exceptions apply to this section, but any person who claims the applicability of an exception has the burden of proving that the exception applies:

(i) Paragraphs (b)(1) and (b)(2) of this section do not apply if a right whale approach is authorized by the National Marine Fisheries Service through a permit issued under part 222, subpart C, of this chapter (General Permit Procedures) or through a similar authorization.

(ii) Paragraphs (b)(1) and (b)(2) of this section do not apply when the attempt to investigate a right whale entanglement or injury, or to assist in the disentanglement or rescue of a right whale, provided that permission is received from the National Marine Fisheries Service or designee prior to the approach.

(iv) Paragraphs (b)(1) and (b)(2) of this section do not apply to an aircraft unless the aircraft is conducting whale watch activities.

(v) Paragraph (b)(2) of this section does not apply to the extent that a vessel is restricted in her ability to maneuver and, because of the restriction, cannot comply with paragraph (b)(2) of this section.

(c) Special prohibitions relating to endangered Steller sea lion protection. The regulatory provisions set forth in part 223 of this chapter, which govern threatened Steller sea lions, shall also apply to the western population of Steller sea lions, which consists of all Steller sea lions from breeding colonies located west of 144° W. long.

§ 224.104 Incidental capture of endangered sea turtles.

(a) Shrimp fishermen in the southeastern United States and the Gulf of Mexico who comply with rules for threatened sea turtles specified in § 223.206 of this chapter will not be subject to civil penalties under the Act for incidental captures of endangered sea turtles by shrimp trawl gear.

(b) Summer flounder fishermen in the Summer flounder fishery-sea turtle protection area who comply with rules for threatened sea turtles specified in § 223.206 of this chapter will not be subject to civil penalties under the Act for incidental captures of endangered sea turtles by summer flounder gear.

(c) Special prohibitions relating to leatherback sea turtles are provided at § 223.206(d)(2)(iv) of this chapter.

PART 225 [RESERVED]

PART 226—DESIGNATED CRITICAL HABITAT

Sec. 226.101 Purpose and scope.
226.201 Critical habitat for Hawaiian monk seals.
226.203 Critical habitat for Northern right whales.
226.204 Critical habitat for Sacramento winter-run chinook salmon.
226.205 Critical habitat for Snake River sockeye salmon, Snake River fall chinook salmon, and Snake River spring/summer chinook salmon.
226.206 Critical habitat for Umpqua River cutthroat trout.
§ 226.201 Critical habitat for Hawaiian monk seals.

**HAWAIIAN MONK SEAL**

*(Monachus schauinslandi)*

All beach areas, sand spits and islets, including all beach crest vegetation to its deepest extent inland, lagoon waters, inner reef waters, and ocean waters out to a depth of 20 fathoms around the following:

- Kure Atoll (28°24' N, 178°20' W)
- Midway Islands, except Sand Island and its harbor (28°14' N, 177°22' W)
- Pearl and Hermes Reef (27°55' N, 175° W)
- Lisianski Island (28°46' N, 173°58' W)
- Laysan Island (29°46' N, 171°44' W)
- Maro Reef (29°25' N, 170°35' W)
- Gardner Pinnacles (25°00' N, 168°00' W)
- French Frigate Shoals (23°45' N, 166°00' W)
- Necker Island (23°34' N, 164°42' W)
- Nihoa Island (23°03.5' N, 161°55.5' W).
NIHOA ISLAND

[from NOS chart 19016]

Steller Sea Lion (Eumetopias jubatus)

(a) Alaska rookeries, haulouts, and associated areas. In Alaska, all major Steller sea lion rookeries identified in Table 1 and major haulouts identified in Table 2 and associated terrestrial, air, and aquatic zones. Critical habitat includes a terrestrial zone that extends 3,000 feet (0.9 km) landward from the baseline or basepoint of each major rookery and major haulout in Alaska. Critical habitat includes an aquatic zone that extends 3,000 feet (0.9 km) above the terrestrial zone of each major rookery and major haulout in Alaska, measured vertically from sea level. Critical habitat includes an aquatic zone that extends 3,000 feet (0.9 km) seaward in State and Federally managed waters from the baseline or basepoint of each major rookery and major haulout in Alaska that is east of 144° W. longitude. Critical habitat includes an air zone that extends 20 nm (37 km) seaward in State and Federally managed waters from the baseline or basepoint of each major rookery and major haulout in Alaska that is west of 144° W. longitude.

(b) California and Oregon rookeries and associated areas. In California and Oregon, all major Steller sea lion rookeries identified in Table 1 and associated air and aquatic zones. Critical habitat includes an air zone that extends 3,000 feet (0.9 km) above areas historically occupied by sea lions at each major rookery in California and Oregon, measured vertically from sea level. Critical habitat includes an aquatic zone that extends 3,000 feet (0.9 km) seaward in State and Federally managed waters from the baseline or basepoint of each major rookery in California and Oregon.

(c) Three special aquatic foraging areas in Alaska. Three special aquatic foraging areas in Alaska, including the Shelikof Strait area, the Bogoslof area, and the Seguam Pass area.

(1) Critical habitat includes the Shelikof Strait area in the Gulf of Alaska and consists of the area between the Alaska Peninsula and Tugidak, Sitkinak, Adaktiilik, Kodiak, Raspberry, Afognak and Shuyak Islands (connected by the shortest lines); bounded on the west by a line connecting Cape Kumlik (56°38'15"W) and the southwestern tip of Tugidak Island (56°24'N/154°41'W) and bounded in the east by a line connecting Cape Douglas (58°51'15"W) and the northernmost tip of Shuyak Island (58°37'N/152°22'W).

(2) Critical habitat includes the Bogoslof area in the Bering Sea shelf and consists of the area between 170°00'W and 164°00'W, south of straight lines connecting 55°00'N/170°00'W and 55°00'N/168°00'W; 55°30'N/168°00'W and 55°30'N/166°00'W; 56°00'N/166°00'W and 56°00'N/164°00'W and north of the Aleutian Islands and straight lines between the islands connecting the following coordinates in the order listed:

- 52°40.2'N/169°40.4'W
- 52°40.8'N/169°06.3'W
- 53°23.8'N/167°50.1'W
- 53°18.7'N/167°51.4'W
- 53°50.0'N/166°17.2'W
- 54°02.9'N/166°03.0'W
- 54°07.7'N/165°40.6'W
- 54°06.9'N/165°38.8'W
- 54°11.9'N/165°23.3'W
- 54°23.9'N/164°44.0'W

(3) Critical habitat includes the Seguam Pass area and consists of the area between 52°00'N and 53°00'N and between 172°30'W and 172°30'W.

[58 FR 45278, Aug. 27, 1993. Redesignated and amended at 64 FR 14067, Mar. 23, 1999]

§ 226.203 Critical habitat for Northern right whales.

Northern Right Whale (Eubalaena glacialis)

(a) Great South Channel. The area bounded by 41°40' N/69°45' W; 41°00' N/69°05' W; 41°36' N/68°13' W; and 42°10' N/68°31' W.

(b) Cape Cod Bay, Massachusetts. The area bounded by 42°04.8'N/70°10'W; 42°12'N/70°15'W; 42°12'N/70°30'W; 41°46.8'N/70°30'W and on the south and east by the interior shore line of Cape Cod, Massachusetts.

(c) Southeastern United States. The coastal waters between 31°15' N and 30°15' N from the coast out 15 nautical miles; and the coastal waters between
§ 226.204 Critical habitat for Sacramento winter-run chinook salmon.

The following waterways, bottom and water of the waterways and adjacent riparian zones: The Sacramento River from Keswick Dam, Shasta County (River Mile 302) to Chippis Island (River Mile 0) at the westward margin of the Sacramento-San Joaquin Delta, all waters from Chippis Island westward to Carquinez Bridge, including Honker Bay, Grizzly Bay, Suisun Bay, and Carquinez Strait, all waters of San Pablo Bay westward of the Carquinez Bridge, and all waters of San Francisco Bay (north of the San Francisco/Oakland Bay Bridge) from San Pablo Bay to the Golden Gate Bridge.

[58 FR 32128, June 16, 1993. Redesignated and amended at 64 FR 14067, Mar. 23, 1999]

§ 226.205 Critical habitat for Snake River sockeye salmon, Snake River fall chinook salmon, and Snake River spring/summer chinook salmon.

The following areas consisting of the water, waterway bottom, and adjacent riparian zone of specified lakes and river reaches in hydrologic units presently or historically accessible to listed Snake River salmon (except reaches above impassable natural falls, and Dworshak and Hells Canyon Dams). Adjacent riparian zones are defined as those areas within a horizontal distance of 300 feet (91.4 m) from the normal line of high water of a stream channel (600 feet or 182.8 m, when both sides of the stream channel are included) or from the shoreline of a standing body of water. The complete text delineating critical habitat for each species follows. Hydrologic units (table 3) are those defined by the Department of the Interior (DOI), U.S. Geological Survey (USGS) publication, “Hydrologic Unit Maps, United States Geological Survey Water Supply Paper 2294, 1987”, and the following DOI, USGS, 1,500,000 scale hydrologic unit maps: State of Oregon, 1974; State of Washington, 1974; State of Idaho, 1974, which are incorporated by reference. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies of the USGS publication and maps may be obtained from the USGS, Map Sales, Box 25286, Denver, CO 80225. Copies may be inspected at NMFS, Endangered Species Branch, Environmental and Technical Services Division, 911 NE. 11th Avenue, room 620, Portland, OR 97232, NMFS, Office of Protected Resources, 1335 East-West Highway, Silver Spring, MD 20910, or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(a) Snake River Sockeye Salmon (Oncorhynchus nerka). The Columbia River from a straight line connecting the west end of the Clatsop jetty (south jetty, Oregon side) and the west end of the Peacock jetty (north jetty, Washington side) and including all Columbia River estuarine areas and river reaches upstream to the confluence of the Columbia and Snake Rivers; all Snake River reaches from the confluence of the Columbia River upstream to the confluence of the Salmon River; all Salmon River reaches from the confluence of the Snake River upstream to Alturas Lake Creek; Stanley, Redfish, Yellow Belly, Pettit, and Alturas Lakes (including their inlet and outlet creeks); Alturas Lake Creek, and that portion of Valley Creek between Stanley Lake Creek and the Salmon River. Critical habitat is comprised of all river lakes and reaches presently or historically accessible (except reaches above impassable natural falls, and Dworshak and Hells Canyon Dams) to Snake River sockeye salmon in the following hydrologic units: Lower Salmon, Lower Snake, Lower Snake-Asotin, Lower Snake-Tucannon, Middle Salmon-Chamberlain, Middle Salmon-Panther, and Upper Salmon. Critical habitat borders on or passes through the following counties in Oregon: Clatsop, Columbia, Gillium, Hood River, Morrow, Multnomah, Sherman, Umatilla, Wallowa, Wasco; the following counties in Washington: Asotin, Benton, Clark, Columbia, Cowlitz, Franklin, Garfield, Klickitat, Pacific, Skamania, Wahkiakum, Walla, Whitman; and the following counties in Idaho: Blaine,
§ 226.206 Critical habitat for Umpqua River cutthroat trout.

(a) The following areas consisting of the water, waterway bottom, and adjacent riparian zone of specified lakes and river reaches in hydrologic units presently accessible to listed Umpqua River cutthroat trout. Adjacent riparian zones are defined as those areas within a slope distance of 300 ft. (91.4 m) from the normal line of high water of a stream channel (600 ft. or 182.8 m, when both sides of the stream channel are included) or from the shoreline of a standing body of water. The complete text delineating the critical habitat for the species follows. Hydrologic units are those defined by the Department of the Interior (DOI), U.S. Geological Survey (USGS) publication, “Hydrologic Unit Maps, Water Supply Paper 2294, 1987, and the following DOI, USGS, 1:500,000 scale hydrologic unit map:

Custer, Idaho, Lemhi, Lewis, Nez Perce.

(b) Snake River Spring/Summer Chinook Salmon (Oncorhynchus tshawytscha). The Columbia River from a straight line connecting the west end of the Clatsop jetty (south jetty, Oregon side) and the west end of the Peacock jetty (north jetty, Washington side) and including all Columbia River estuarine areas and river reaches proceeding upstream to the confluence of the Columbia and Snake Rivers; all Snake River reaches from the confluence of the Columbia River upstream to Hells Canyon Dam. Critical habitat also includes river reaches presently or historically accessible (except reaches above impassable natural falls, and Dworshak and Hells Canyon Dams) to Snake River fall chinook salmon in the following hydrologic units: Clearwater, Hells Canyon, Imnaha, Lower Grande Ronde, Lower Middle Fork Salmon, Lower Salmon, Lower Snake, Lower Snake-Asotin, Lower Snake-Tucannon, Palouse. Critical habitat borders on or passes through the following counties in Oregon: Baker, Clatsop, Columbia, Gilliam, Hood River, Morrow, Multnomah, Sherman, Umatilla, Walla, Wasco; the following counties in Washington: Adams, Asotin, Benton, Clark, Columbia, Cowlitz, Franklin, Garfield, Klickitat, Lincoln, Pacific, Skamania, Spokane, Wahkiakum, Walla, Whitman; and the following counties in Idaho: Adams, Benewah, Clearwater, Idaho, Latah, Lewis, Nez Perce, Shoshone, Valley.

§ 226.210 Central California Coast Coho Salmon (Oncorhynchus kisutch), Southern Oregon/Northern California Coasts Coho Salmon (Oncorhynchus kisutch).

Critical habitat is designated to include all river reaches accessible to listed coho within the range of the ESUs listed, except for reaches on Indian lands defined in Tables 5 and 6 to this part. Critical habitat consists of the water, substrate, and adjacent riparian zone of estuarine and riverine reaches in hydrologic units and counties identified in Tables 5 and 6 to this part for all of the coho ESUs listed in the Range of Endangered Species (1995). Critical habitat includes all river reaches below longstanding, naturally impassable barriers (i.e., waterfalls in existence for several hundred years) in the following hydrologic units: North Umpqua, South Umpqua, and Umpqua. Critical habitat borders on or passes through the following counties in Oregon: Douglas, Lane, Coos, Jackson, and Klamath counties. Perennial rivers and creeks within the defined areas are also included in the critical habitat designation (but are not specifically named), unless otherwise noted. Critical habitat maps are available upon request from NMFS, Protected Resources Division, 525 NE Oregon St., Suite 500, Portland, OR 97232-2737, telephone (503/230-5422).

§ 226.207 Critical habitat for leatherback turtle.

LEATHERBACK SEA TURTLE (DERMOCHELYS CORIACEA)

The waters adjacent to Sandy Point, St. Croix, U.S. Virgin Islands, up to and inclusive of the waters from the hundred fathom curve shoreward to the level of mean high tide with boundaries at 17°42′12″ North and 64°50′00″ West.

§ 226.208 Critical habitat for green turtle.

(a) Culebra Island, Puerto Rico—Waters surrounding the island of Culebra from the mean high water line seaward to 3 nautical miles (5.6 km). These waters include Culebra’s outlying Keys including Cayo Norte, Cayo Ballena, Cayos Geniqui, Isla Culebrita, Arrecife Culebrita, Cayo de Luis Pena, Las Hermanas, El Mono, Cayo Lobo, Cayo Lobito, Cayo Botijuela, Alcarraza, Los Gemelos, and Piedra Steven.

(b) [Reserved]

§ 226.209 Critical habitat for hawksbill turtle.

(a) Mona and Monito Islands, Puerto Rico—Waters surrounding the islands of Mona and Monito, from the mean high water line seaward to 3 nautical miles (5.6 km).

(b) [Reserved]

this section. Accessible reaches are those within the historical range of the ESUs that can still be occupied by any life stage of coho salmon. Inaccessible reaches are those above longstanding, naturally impassable barriers (i.e., natural waterfalls in existence for at least several hundred years) and specific dams within the historical range of each ESU identified in Tables 5 and 6 to this part. Hydrologic units are those defined by the Department of the Interior (DOI), U.S. Geological Survey (USGS) publication, “Hydrologic Unit Maps,” Water Supply Paper 2294, 1987, and the following DOI, USGS, 1:500,000 scale hydrologic unit maps: State of Oregon, 1974 and State of California, 1978 which are incorporated by reference. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies of the USGS publication and maps may be obtained at the USGS, Map Sales, Box 25286, Denver, CO 80225. Copies may be inspected at NMFS, Protected Resources Division, 525 NE Oregon Street—Suite 500, Portland, OR 97232-2737, or NMFS, Office of Protected Resources, 1315 East-West Highway, Silver Spring, MD 20910, or at the Office of the Federal Register, 800 North Capitol Street, NW., Suite 700, Washington, DC.

(a) Central California Coast Coho Salmon (Oncorhynchus kisutch). Critical habitat is designated to include all river reaches accessible to listed coho salmon from Punta Gorda in northern California south to the San Lorenzo River in central California, including Arroyo Corte Madera Del Presidio and Corte Madera Creek, tributaries to San Francisco Bay. Critical habitat consists of the water, substrate, and adjacent riparian zone of estuarine and riverine reaches (including off-channel habitats) in hydrologic units and counties identified in Table 5 of this part. Accessible reaches are those within the historical range of the ESU that can still be occupied by any life stage of coho salmon. Inaccessible reaches are those above specific dams identified in Table 5 of this part or above longstanding, naturally impassable barriers (i.e., natural waterfalls in existence for at least several hundred years).

(b) Southern Oregon/Northern California Coasts Coho Salmon (Oncorhynchus kisutch). Critical habitat is designated to include all river reaches accessible to listed coho salmon on between Cape Blanco, Oregon, and Punta Gorda, California. Critical habitat consists of the water, substrate, and adjacent riparian zone of estuarine and riverine reaches (including off-channel habitats) in hydrologic units and counties identified in Table 6 of this part. Accessible reaches are those within the historical range of the ESU that can still be occupied by any life stage of coho salmon. Inaccessible reaches are those above specific dams identified in Table 6 of this part or above longstanding, naturally impassable barriers (i.e., natural waterfalls in existence for at least several hundred years).

TABLE 2 TO PART 226—MAJOR STELLAR SEA LION HAULOUT SITES IN ALASKA

Major Stellar sea lion haulout sites in Alaska are identified in the following table. Where two sets of coordinates are given, the baseline extends in a clockwise direction from the first set of geographic coordinates along the shoreline at mean lower-low water to the second set of coordinates. Where only one set of coordinates is listed, that location is the basepoint.

1 Some counties have very limited overlap with estuarine, riverine, or riparian habitats identified as critical habitat for this ESU. Consult USGS hydrologic unit maps (available from USGS) to determine specific county and basin boundaries.

2 Tribal lands are specifically excluded from critical habitat for this ESU.

[64 FR 24061, May 5, 1999]
PART 229—AUTHORIZATION FOR COMMERCIAL FISHERIES UNDER THE MARINE MAMMAL PROTECTION ACT OF 1972

Subpart A—General Provisions

§ 229.1 Purpose and scope.

(a) The regulations in this part implement sections 101(a)(5)(E) and 118 of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1371(a)(5)(E) and 1387) that provide for exceptions for the taking of marine mammals incidental to certain commercial fishing operations from the Act's general moratorium on the taking of marine mammals.

(b) Section 118 of the Act, rather than sections 103 and 104, governs the incidental taking of marine mammals in the course of commercial fishing operations by persons using vessels of the United States, other than vessels fishing for yellowfin tuna in the eastern tropical Pacific Ocean purse seine fishery, and vessels that have valid fishing permits issued in accordance with section 204(b) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1824(b)).

(c) The regulations of Subpart B also govern the incidental taking by commercial fishers of marine mammals from species or stocks designated under the Act as depleted on the basis of their listing as threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).

(d) The regulations of this part do not apply to the incidental taking of California sea otters or to Northwest treaty Indian tribal members exercising treaty fishing rights.

(e) Authorizations under subpart A of this part are exemptions only from the taking prohibitions under the Act and not those under the Endangered Species Act of 1973. To be exempt from the taking prohibitions under the Endangered Species Act, specific authorization under subpart B of this part is required.

(f) Authorizations under this part do not apply to the intentional lethal taking of marine mammals in the course of commercial fishing operations except as provided for under §§229.4(k) and 229.5(f).

(g) The purposes of the regulations in this part are to:

1. Reduce the incidental mortality or serious injury of marine mammals occurring in the course of commercial fishing operations below the potential biological removal level for a particular stock, and

2. Reduce the incidental mortality or serious injury of marine mammals occurring in the course of commercial fishing operations to insignificant levels approaching a zero mortality and serious injury rate by the statutory deadline of April 30, 2001.

Figure 1 to Part 229—Drift Gillnet Pinger Configuration and Extender Requirements

Authority: 16 U.S.C. 1361 et seq.

Source: 60 FR 45100, Aug. 30, 1995, unless otherwise noted.
§ 229.2 Definitions.

In addition to the definitions contained in the Act and § 216.3 of this chapter, and unless the context otherwise requires, in this part 229:

Act or MMPA means the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 et seq.).

American lobster or lobster means Homarus americanus.

Anchored gillnet means any gillnet gear, including a sink gillnet or stab net, that is set anywhere in the water column and which is anchored, secured or weighted to the bottom of the sea. Also called a set gillnet.

Assistant Administrator means the Assistant Administrator for Fisheries of the National Oceanic and Atmospheric Administration.

Authorization Certificate means a document issued by the Assistant Administrator, or designee, under the authority of section 118 of the Act that authorizes the incidental, but not intentional, taking of marine mammals in Category I or II fisheries.

Breaking strength means the highest tensile force which an object can withstand before breaking.

Bridle means the lines connecting a gillnet to an anchor or buoy line.

Buoy line means a line connecting fishing gear in the water to a buoy at the surface of the water.

Category I fishery means a commercial fishery determined by the Assistant Administrator to have frequent incidental mortality and serious injury of marine mammals. A commercial fishery that frequently causes mortality or serious injury of marine mammals is one that is by itself responsible for the annual removal of 50 percent or more of any stock’s potential biological removal level.

Category II fishery means a commercial fishery determined by the Assistant Administrator to have occasional incidental mortality and serious injury of marine mammals. A commercial fishery that occasionally causes mortality or serious injury of marine mammals is one that, collectively with other fisheries, is responsible for the annual removal of between 1 and 50 percent, exclusive, of any stock’s potential biological removal level. In the absence of reliable information indicating the frequency of incidental mortality and serious injury of marine mammals by a commercial fishery, the Assistant Administrator will determine whether the incidental serious injury or mortality is “occasional” by evaluating other factors such as fishing techniques, gear used, methods used to deter marine mammals, target species, seasons and areas fished, qualitative data from logbooks or fisher reports, stranding data, and the species and distribution of marine mammals in the area, or at the discretion of the Assistant Administrator. Eligible commercial fisheries not specifically identified in the list of fisheries are deemed to be Category II fisheries until the next list of fisheries is published.

Category III fishery means a commercial fishery determined by the Assistant Administrator to have a remote likelihood of, or no known incidental mortality and serious injury of marine mammals. A commercial fishery that has a remote likelihood of causing incidental mortality and serious injury of marine mammals is one that collectively with other fisheries is responsible for the annual removal of:

1. Ten percent or less of any marine mammal stock’s potential biological removal level, or
2. More than 10 percent of any marine mammal stock’s potential biological removal level, yet that fishery by itself is responsible for the annual removal of 1 percent or less of that stock’s potential biological removal level. In the absence of reliable information indicating the frequency of incidental mortality and serious injury of marine mammals by a commercial fishery, the Assistant Administrator will determine whether the incidental serious injury or mortality is “remote” by evaluating other factors such as fishing techniques, gear used, methods used to deter marine mammals, target species, seasons and areas fished, qualitative data from logbooks or fisher reports, stranding data, and the species and distribution of marine mammals in the area or at the discretion of the Assistant Administrator.
§ 229.2

Commercial fishing operation means the catching, taking, or harvesting of fish from the marine environment (or other areas where marine mammals occur) that results in the sale or barter of all or part of the fish harvested. The term includes licensed commercial passenger fishing vessel (as defined in §216.3 of this chapter) activities and aquaculture activities.

Depleted species means any species or population that has been designated as depleted under the Act and is listed in §216.15 of this chapter or part 18, subpart E of this title, or any endangered or threatened species of marine mammal.

Driftnet, drift gillnet, or drift entanglement gear means a gillnet or gillnets that is/are unattached to the ocean bottom and not anchored, secured or weighted to the bottom, regardless of whether attached to a vessel.

Fisher or fisherman means the vessel owner or operator, or the owner or operator of gear in a nonvessel fishery.

Fishery has the same meaning as in section 3 of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1802).

Fishing trip means any time spent away from port actively engaged in commercial fishing operations. The end of a fishing trip will be the time of a fishing vessel’s return to port or the return of a fisher from tending gear in a nonvessel fishery.

Fishing vessel or vessel means any vessel, boat, ship, or other craft that is used for, equipped to be used for, or of a type normally used for, fishing.

Float-line means the rope at the top of a gillnet from which the mesh portion of the net is hung.

Gillnet means fishing gear consisting of a wall of webbing (meshes) or nets, designed or configured so that the webbing (meshes) or nets are placed in the water column, usually held approximately vertically, and are designed to capture fish by entanglement, gilling, or wedging. The term “gillnet” includes gillnets of all types, including but not limited to sink gillnets, other anchored gillnets (e.g. stab and set nets), and drift gillnets. Gillnets may or may not be attached to a vessel.

Groundline, with reference to lobster trap gear, means a line connecting lobster traps in a lobster trap trawl, and, with reference to gillnet gear, means a line connecting a gillnet or gillnet bridle to an anchor or buoy line.

Incidental means, with respect to an act, a non-intentional or accidental act that results from, but is not the purpose of, carrying out an otherwise lawful action.

Injury means a wound or other physical harm. Signs of injury to a marine mammal include, but are not limited to, visible blood flow, loss of or damage to an appendage or jaw, inability to use one or more appendages, asymmetry in the shape of the body or body position, noticeable swelling or hemorrhage, laceration, puncture or rupture of eyeball, listless appearance or inability to defend itself, inability to swim or dive upon release from fishing gear, or signs of equilibrium imbalance. Any animal that ingests fishing gear, or any animal that is released with fishing gear entangling, trailing or perforating any part of the body will be considered injured regardless of the absence of any wound or other evidence of an injury.

Inshore Lobster waters means all state and Federal waters between 36°33′00.8″ N lat. (the Virginia/North Carolina border) and the U.S./Canada border that is shoreward of the area designated below as “offshore lobster waters.”

Integrated fishery means a fishery for which the granting and the administration of Authorization Certificates have been integrated and coordinated with existing fishery license, registration, or permit systems and related programs.

Interaction means coming in contact with fishing gear or catch. An interaction may be characterized by a marine mammal entangled, hooked, or otherwise trapped in fishing gear, regardless of whether injury or mortality occurs, or situations where marine mammals are preying on catch. Catch means fish or shellfish that has been hooked, entangled, snagged, trapped or otherwise captured by commercial fishing gear.

Large mesh gillnet means a gillnet constructed with a mesh size of 7 inches (17.78 cm) to 18 inches (45.72 cm).

Lead-line means the rope, weighted or otherwise, to which the bottom edge of a gillnet is attached.
List of Fisheries means the most recent final list of commercial fisheries published in the Federal Register by the Assistant Administrator, categorized according to the likelihood of incidental mortality and serious injury of marine mammals during commercial fishing operations.

Lobster trap means any trap, pot or other similar type of enclosure that is placed on the ocean bottom and is designed to or is capable of catching lobsters. This definition includes but is not limited to lobster pots, black sea bass pots and scup pots.

Lobster trap trawl means two or more lobster traps attached to a single groundline.

Mesh size means the distance between inside knot to inside knot. Mesh size is measured as described in §648.80(f)(1) of this title.

Mid-Atlantic coastal waters means waters bounded by the line defined by the following points: The southern shoreline of Long Island, New York at 72°30’W, then due south to 33°51’N lat. then west to the North Carolina/South Carolina border.

Minimum population estimate means an estimate of the number of animals in a stock that:

(1) Is based on the best available scientific information on abundance, incorporating the precision and variability associated with such information; and

(2) Provides reasonable assurance that the stock size is equal to or greater than the estimate.

Mudhole means waters off New Jersey bounded as follows: From the point 40°30’ N. latitude where it intersects with the shoreline of New Jersey east to its intersection with 73°20’ W. longitude, then south to its intersection with 40°05’ N. latitude, then west to its intersection with the shoreline of New Jersey.

Negligible impact has the same meaning as in §228.3 of this chapter.

Net productivity rate means the annual per capita rate of increase in a stock resulting from additions due to reproduction, less losses due to mortality.

Night means any time between one half hour before sunset and one half hour after sunrise.

NMFS means the National Marine Fisheries Service.

Nonvessel fishery means a commercial fishing operation that uses fixed or other gear without a vessel, such as gear used in set gillnet, trap, beach seine, weir, ranch, and pen fisheries.

Northeast waters means those U.S. waters east of 72°30’W and north of 36°30’00.8”N lat. (the Virginia-North Carolina border).

Observer means an individual authorized by NMFS, or a designated contractor, to record information on marine mammal interactions, fishing operations, marine mammal life history information, and other scientific data, and collect biological specimens during commercial fishing activities.

Offshore lobster waters comprises entirely federal waters as defined by the area bounded by straight lines connecting the following points, in the order stated, except for waters in the Great South Channel critical right whale habitat:

From point “ZA” east to the EEZ boundary and thence along the seaward EEZ boundary to point “A”.

Operator, with respect to any vessel, means the master, captain, or other individual in charge of that vessel.

Potential biological removal level means the maximum number of animals, not including natural mortalities, that may be removed from a marine mammal stock while allowing that stock to reach or maintain its optimum sustainable population. The potential biological removal level is the product of the following factors:

(1) The minimum population estimate of the stock;
§ 229.2

(2) One-half the maximum theoretical or estimated net productivity rate of the stock at a small population size; and

(3) A recovery factor of between 0.1 and 1.0.

Regional Fishery Management Council means a regional fishery management council established under section 302 of the Magnuson Fishery Conservation and Management Act.

Serious injury means any injury that will likely result in mortality.

Shark gillnetting means to fish a gillnet in waters south of the South Carolina/Georgia border with webbing of 5 inches or greater stretched mesh.

Sink gillnet or stab net means any gillnet, anchored or otherwise, that is designed to be, or is fished on or near the bottom in the lower third of the water column.

Sinking line means rope that sinks and does not float at any point in the water column. Polypropylene rope is not sinking line unless it contains a lead core.

Small mesh gillnet means a gillnet constructed with a mesh size of greater than 5 inches (12.7 cm) to less than 7 inches (17.78 cm).

Southeast waters means waters south of a line extending due eastward from the North Carolina/South Carolina border.

Southern Mid-Atlantic waters means all state and Federal waters off the States of Delaware, Maryland, Virginia, and North Carolina, bounded on the north by a line extending eastward from the northern shoreline of Delaware at 38°47' N. latitude (the latitude that corresponds with Cape Henlopen, DE), east to its intersection with 72°30' W. longitude, south to the 33°51' N. latitude (the latitude that corresponds with the North Carolina/South Carolina border), and then west to its intersection with the shoreline of the North Carolina/South Carolina border.

Stellite gillnet means a plane that is deployed for the purpose of locating schools of target fish for a fishing vessel that intends to set fishing gear on them.

Stellwagen Bank/Jeffreys Ledge area means all Federal waters in the Gulf of Maine, except those designated as right whale critical habitat, that lie south of the 43°15'N lat. line and west of the 70° W. long. line.

Stowed means nets that are unavailable for use and that are stored in accordance with the regulations found in § 648.81(e) of this title.

Strategic stock means a marine mammal stock:

1. For which the level of direct human-caused mortality exceeds the potential biological removal level;
2. Which, based on the best available scientific information, is declining and is likely to be listed as a threatened species under the Endangered Species Act of 1973 within the foreseeable future;
3. Which is listed as a threatened or endangered species under the Endangered Species Act of 1973; or
4. Which is designated as depleted under the Marine Mammal Protection Act of 1972, as amended.

Strikenet or to fish with strikenet gear means a gillnet that is designed so that, when it is deployed, it encircles or encloses an area of water either with the net or by utilizing the shoreline to complete encirclement, or to fish with such a net and method.

Take Reduction Plan means a plan developed to reduce the incidental mortality and serious injury of marine mammals during commercial fishing operations in accordance with section 118 of the Marine Mammal Protection Act of 1972, as amended.

Take Reduction Team means a team established to recommend methods of reducing the incidental mortality and serious injury of marine mammals due to commercial fishing operations, in accordance with section 118 of the Marine Mammal Protection Act of 1972, as amended.

Tended gear or tend means fishing gear that is physically attached to a vessel in a way that is capable of harvesting fish, or to fish with gear attached to the vessel.

Tie-down refers to twine used between the floatline and the lead line as a way to create a pocket or bag of netting to trap fish alive.

To strikenet for sharks means to fish with strikenet gear in waters south of the South Carolina/Georgia border with webbing of 5 inches or greater stretched mesh.
§ 229.3 Prohibitions.

(a) It is prohibited to take any marine mammal incidental to commercial fishing operations except as otherwise provided in part 216 of this chapter or in this part 229.

(b) It is prohibited to assault, harm, harass (including sexually harass), oppose, impede, intimidate, impair, or in any way influence or interfere with an observer, or attempt the same. This prohibition includes, but is not limited to, any action that interferes with an observer's responsibilities, or that creates an intimidating, hostile, or offensive environment.

(c) It is prohibited to provide false information when registering for an Authorization Certificate, applying for renewal of the Authorization Certificate, reporting the injury or mortality of any marine mammal, or providing information to any observer.

(d) It is prohibited to tamper with or destroy observer equipment in any way.

(e) It is prohibited to retain any marine mammal incidentally taken in commercial fishing operations unless authorized by NMFS personnel, by designated contractors or an official observer, or by a scientific research permit that is in the possession of the vessel operator.

(f) It is prohibited to intentionally lethally take any marine mammal in the course of commercial fishing operations unless imminently necessary in self-defense or to save the life of a person in immediate danger, and such taking is reported in accordance with the requirements of § 229.6.

(g) It is prohibited to violate any regulation in this part or any provision of section 118 of the Act.

(h) It is prohibited to fish with lobster trap gear in the areas and for the times specified in § 229.32(c)(3) through (c)(9) unless the lobster trap gear complies with the closures, marking requirements, modifications, and restrictions specified in § 229.32(c)(1) through (c)(10).

(i) It is prohibited to fish with anchored gillnet gear in the areas and for the times specified in § 229.32(d)(2) through (d)(7) unless that gillnet gear complies with the closures, marking requirements, modifications, and restrictions specified in § 229.32(d)(1) through (d)(8).

(j) It is prohibited to fish with drift gillnets in the areas and for the times specified in § 229.32(e)(1) unless the drift gillnet gear complies with the restrictions specified in § 229.32(e)(1).

(k) It is prohibited to fish with shark gillnet gear in the areas and for the times specified in § 229.32(f)(1) and (3) unless the gear meets the marking requirements specified in § 229.32(f)(2) and complies with the restrictions and requirements specified in § 229.32(f)(1) and (f)(3).

(l) It is prohibited to fish with, set, haul back, possess on board a vessel unless stowed, or fail to remove sink gillnet gear or gillnet gear capable of catching multispecies, from the areas and for the times specified in § 229.33.
(a)(1) through (a)(6), except with the
use of pingers as provided in § 229.33
(d)(1) through (d)(4). This prohibition
does not apply to the use of a single pe-
lagic gillnet (as described and used as

(m) It is prohibited to fish with, set,
haul back, possess on board a vessel
unless stowed, or fail to remove any
gillnet gear from the areas and for the
times as specified in § 229.34 (b)(1) (ii) or
(iii) or (b)(2)(ii).

(n) It is prohibited to fish with, set,
haul back, possess on board a vessel
unless stowed, or fail to remove any
large mesh or small mesh gillnet gear
from the areas and for the times speci-
fied in § 229.34 (c)(1) through (c)(4) un-
less the gear complies with the speci-
fied gear restrictions set forth in those
provisions.

(o) Beginning on January 1, 1999, it is
prohibited to fish with, set, or haul
back sink gillnets or gillnet gear, or
leave such gear in closed areas where
pingers are required, as specified under
§ 229.33 (c)(1) through (c)(4), unless a
person on board the vessel during fish-
ing operations possesses a valid pinger
certification training certificate issued
by NMFS.

(p) Beginning on January 1, 2000, it is
prohibited to fish with, set, haul back,
or possess any large mesh or small
mesh gillnet gear in Mid-Atlantic wa-
ters in the areas and during the times
specified under § 229.34(d), unless the
gear is properly tagged in compliance
with that provision and unless a net
tag certificate is on board the vessel. It
is prohibited to refuse to produce a net
tag certificate or net tags upon the re-
quest of an authorized officer.

(q) Net tag requirement. Beginning on
January 1, 2000, all gillnets fished,
hauled, possessed, or deployed during
the times and areas specified below
must have one tag per net, with one
tag secured to every other bridle of
every net and with one tag secured to
every other bridle of every net within a
string of nets. This applies to small
mesh and large mesh gillnet gear in
New Jersey waters from January 1
through April 30 or in southern Mid-At-
lantic waters from February 1 through
April 30. The owner or operator of fish-
ing vessels must indicate to NMFS the
number of gillnet tags that they are re-
questing up to the maximum number of
nets allowed in those paragraphs and
must include a check for the cost of the
tags. Vessel owners and operators
will be given notice with instructions
informing them of the costs associated
with this tagging requirement and di-
rections for obtaining tags. Tag num-
bbers will be unique for each vessel and
recorded on a certificate. The vessel
operator must produce the certificate
and all net tags upon request by an au-
thorized officer.

[60 FR 45100, Aug. 30, 1995, as amended at 62
F.R. 30184, July 22, 1997; 63 FR 66487, Dec. 2,
24, 1999]

§ 229.4 Requirements for Category I
and II fisheries.

(a) General. (1) For a vessel owner or
crew members to lawfully incidentally
take marine mammals in the course of
a commercial fishing operation in a
Category I or II fishery, the owner or
authorized representative of a fishing
vessel or nonvessel fishing gear must
have in possession a valid Certificate of
Authorization. The owner of a fishing
vessel or nonvessel fishing gear is re-
sponsible for obtaining a Certificate of
Authorization.

(b) Registration. (1) The granting and administration
of Authorization Certificates under
this part will be integrated and coordi-
nated with existing fishery license, reg-
istration, or permit systems and re-
lated programs wherever possible.
These programs may include, but are
not limited to, state or interjurisdic-
tional fisheries programs. If the admin-
istration of Authorization Certificates
is integrated into a program, NMFS
will publish a notice in the FEDERAL
REGISTER announcing the integrated
program and summarizing how an
owner or authorized representative of a
fishing vessel or nonfishing gear may
register under that program or how
registration will be achieved if no ac-
tion is required on the part of the af-
fected fisher. NMFS will make addi-
tional efforts to contact participants in
the affected fishery via other appro-
priate means of notification.

(b) Registration. (1) The owner of a
vessel, or for nonvessel gear fisheries,
the owner of gear, who participates in
a Category I or II fishery is required to
be registered for a Certificate of Authorization.

(2) Unless a notice is published in the Federal Register announcing an integrated registration program, the owner of a vessel, or for nonvessel fishery, the owner of the gear must register for and receive an Authorization Certificate. To register, owners must submit the following information using the format specified by NMFS:

(i) Name, address, and phone number of owner.

(ii) Name, address, and phone number of operator, if different from owner, unless the name of the operator is not known or has not been established at the time the registration is submitted.

(iii) For a vessel fishery, vessel name, length, home port; U.S. Coast Guard documentation number or state registration number, and if applicable; state commercial vessel license number and for a nonvessel fishery, a description of the gear and state commercial license number, if applicable.

(iv) A list of all Category I and II fisheries in which the fisher may actively engage during the calendar year.

(v) A certification signed and dated by the owner of an authorized representative of the owner as follows: "I hereby certify that I am the owner of the vessel, that I have reviewed all information contained on this document, and that it is true and complete to the best of my knowledge."

(vi) A check or money order made payable to NMFS in the amount specified in the notice of the final List of Fisheries must accompany each registration submitted to NMFS. The amount of this fee will be based on recovering the administrative costs incurred in granting an authorization. The Assistant Administrator may waive the fee requirement for good cause upon the recommendation of the Regional Director.

(3) If a notice is published in the Federal Register announcing an integrated registration program, the owner of a vessel, or for nonvessel fishery, the owner of the gear may register by following the directions provided in that notice. If a person receives a registration to which he or she is not entitled or if the registration contains incorrect, inaccurate or incomplete information, the person shall notify NMFS within 10 days following receipt. If a fisher participating in a Category I or II fishery who expects to receive automatic registration does not receive that registration within the time specified in the notice announcing the integrated registration program, the person shall notify NMFS as directed in the notice or may apply for registration by submitting the information required under paragraph (b)(1)(i) through (b)(1)(vi) of this section.

(c) Address. Unless the granting and administration of authorizations under this part 229 is integrated and coordinated with existing fishery licenses, registrations, or related programs pursuant to paragraph (a) of this section, requests for registration forms and completed registration and renewal forms should be sent to the NMFS Regional Offices as follows:

(1) Alaska Region, NMFS, P.O. Box 21688, 709 West 9th Street, Juneau, AK 99802; telephone: 907-586-7235;

(2) Northwest Region, NMFS, 7600 Sand Point Way NE., Seattle, WA 98115-0070; telephone: 206-526-4353;

(3) Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802-4213; telephone: 562-980-4001;

(4) Northeast Region, NMFS, 1 Blackburn Drive, Gloucester, MA 01930; telephone: 978-281-9254; or

(5) Southeast Region, NMFS, 9721 Executive Center Drive North, St. Petersburg, FL 33702; telephone: 727-570-5312.

(d) Issuance. (1) For integrated fisheries, an Authorization Certificate or other proof of registration will be issued annually to each fisher registered for that fishery.

(2) For all other fisheries (i.e., nonintegrated fisheries), NMFS will issue an Authorization Certificate and, if necessary, decals to an owner or authorized representative who:

(i) Submits a completed registration form and the required fee.

(ii) Has complied with the requirements of this section and §§229.6 and 229.7

(iii) Has submitted updated registration or renewal registration which includes a statement (yes/no) whether
§ 229.5 Requirements for Category III fisheries.

(a) General. Vessel owners and crew members of such vessels engaged only in Category III fisheries may incidentally take marine mammals without registering for or receiving an Authorization Certificate.

(b) Reporting. Vessel owners engaged in a Category III fishery must comply with the reporting requirements specified in §229.6.

(c) Disposition of marine mammals. Any marine mammal incidentally taken must be immediately returned to the sea with a minimum of further injury, unless directed otherwise by NMFS personnel, a designated contractor, or an official observer, or authorized otherwise by a scientific research permit that is in the possession of the operator.

(d) Monitoring. Authorization Certificate holders must comply with the observer or other monitoring requirements specified under §229.7.

(e) Deterrence. When necessary to deter a marine mammal from damaging fishing gear, catch, or other private property, or from endangering personal safety, vessel owners and crew members engaged in a Category I or II fishery must comply with all deterrence provisions set forth in the Act and all guidelines and prohibitions published thereunder.

(f) Self defense. When imminently necessary in self-defense or to save the life of a person in immediate danger, a marine mammal may be lethally taken if such taking is reported to NMFS in accordance with the requirements of §229.6.

(g) Take reduction plans and emergency regulations. Authorization Certificate holders must comply with any applicable take reduction plans and emergency regulations.

(h) Expiration. Authorization Certificates expire at the end of each calendar year.

an official observer, or authorized otherwise by a scientific research permit in the possession of the operator.

(d) Monitoring. Vessel owners engaged in a Category III fishery must comply with the observer requirements specified under §229.7(d).

(e) Deterrence. When necessary to deter a marine mammal from damaging fishing gear, catch, or other private property, or from endangering personal safety, vessel owners and crew members engaged in commercial fishing operations must comply with all deterrence provisions set forth in the Act and all guidelines and prohibitions published thereunder.

(f) Self-defense. When imminently necessary in self-defense or to save the life of a person in immediate danger, a marine mammal may be lethally taken if such taking is reported to NMFS in accordance with the requirements of §229.6.

(g) Emergency regulations. Vessel owners engaged in a Category III fishery must comply with any applicable emergency regulations.

§ 229.6 Reporting requirements.

(a) Vessel owners or operators engaged in any commercial fishery must report all incidental mortality and injury of marine mammals in the course of commercial fishing operations to the Assistant Administrator, or appropriate Regional Office, by mail or other means, such as fax or overnight mail specified by the Assistant Administrator. Reports must be sent within 48 hours after the end of each fishing trip during which the incidental mortality or injury occurred, or, for nonvessel fisheries, within 48 hours of occurrence of an incidental mortality or injury. Reports must be submitted on a standard postage-paid form as provided by the Assistant Administrator. The vessel owner or operator must provide the following information on this form:

1. The vessel name, and Federal, state, or tribal registration numbers of the registered vessel;
2. The name and address of the vessel owner or operator;
3. The name and description of the fishery, including gear type and target species; and
4. The species and number of each marine mammal incidentally killed or injured, and the date, time, and approximate geographic location of such occurrence. A description of the animal(s) killed or injured must be provided if the species is unknown.

(b) Participants in nonvessel fisheries must provide all of the information in paragraphs (a)(1) through (a)(4) of this section except, instead of providing the vessel name and vessel registration number, participants in nonvessel fisheries must provide the gear permit number.

§ 229.7 Monitoring of incidental mortalities and serious injuries.

(a) Purpose. The Assistant Administrator will establish a program to monitor incidental mortality and serious injury of marine mammals during the course of commercial fishing operations in order to:

1. Obtain statistically reliable estimates of incidental mortality and serious injury;
2. Determine the reliability of reports of incidental mortality and injury under §229.6; and
3. Identify changes in fishing methods or technology that may increase or decrease incidental mortality and serious injury.

(b) Observer program. Pursuant to paragraph (a) of this section, the Assistant Administrator may observe Category I and II vessels as necessary. Observers may, among other tasks:

1. Record incidental mortality and injury, and bycatch of other nontarget species;
2. Record numbers of marine mammals sighted; and
3. Perform other scientific investigations, which may include, but are not limited to, sampling and photographing incidental mortalities and serious injuries.

(c) Observer requirements for participants in Category I and II fisheries. If requested by NMFS or by a designated contractor providing observer services to NMFS, a vessel owner/operator must
take aboard an observer to accompany the vessel on fishing trips.

(2) After being notified by NMFS, or by a designated contractor providing observer services to NMFS, that the vessel is required to carry an observer, the vessel owner/operator must comply with the notification by providing Information requested within the specified time on scheduled or anticipated fishing trips.

(3) NMFS, or a designated contractor providing observer services to NMFS, may waive the observer requirement based on a finding that the facilities for housing the observer or for carrying out observer functions are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized.

(4) The vessel owner/operator and crew must cooperate with the observer in the performance of the observer’s duties including:

(i) Providing, at no cost to the observer, the United States government, or the designated observer provider, food, toilet, bathing, sleeping accommodations, and other amenities that are equivalent to those provided to the crew, unless other arrangements are approved in advance by the Regional Administrator;

(ii) Allowing for the embarking and debarking of the observer as specified by NMFS personnel or designated contractors. The operator of a vessel must ensure that transfers of observers at sea are accomplished in a safe manner, via small boat or raft, during daylight hours if feasible, as weather and sea conditions allow, and with the agreement of the observer involved;

(iii) Allowing the observer access to all areas of the vessel necessary to conduct observer duties;

(iv) Allowing the observer access to communications equipment and navigation equipment, when available on the vessel, as necessary to perform observer duties;

(v) Providing true vessel locations by latitude and longitude, accurate to the minute, or by loran coordinates, upon request by the observer;

(vi) Sampling, retaining, and storing of marine mammal specimens, other protected species specimens, or target or non-target catch specimens, upon request by NMFS personnel, designated contractors, or the observer, if adequate facilities are available and if feasible;

(vii) Notifying the observer in a timely fashion of when all commercial fishing operations are to begin and end;

(viii) Not impairing or in any way interfering with the research or observations being carried out; and

(ix) Complying with other guidelines or regulations that NMFS may develop to ensure the effective deployment and use of observers.

(5) Marine mammals or other specimens identified in paragraph (c)(4)(vi) of this section, which are readily accessible to crew members, must be brought on board the vessel and retained for the purposes of scientific research if feasible and requested by NMFS personnel, designated contractors, or the observer. Specimens so collected and retained must, upon request by NMFS personnel, designated contractors, or the observer, be retained in cold storage on board the vessel, if feasible, until removed at the request of NMFS personnel, designated contractors, or the observer, retrieved by authorized personnel of NMFS, or released by the observer for return to the ocean. These biological specimens may be transported on board the vessel during the fishing trip and back to port under this authorization.

(d) Observer requirements for participants in Category III fisheries. (1) The Assistant Administrator may place observers on Category III vessels if the Assistant Administrator:

(i) Believes that the incidental mortality and serious injury of marine mammals from such fishery may be contributing to the immediate and significant adverse impact on a species or stock listed as a threatened species or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.); and

(ii) Has complied with §229.9(a)(3)(i) and (ii); or

(iii) Has the consent of the vessel owner.

(2) If an observer is placed on a Category III vessel, the vessel owner and/ or operator must comply with the requirements of §229.7(c).
(e) Alternative observer program. The Assistant Administrator may establish an alternative observer program to provide statistically reliable information on the species and number of marine mammals incidentally taken in the course of commercial fishing operations. The alternative observer program may include direct observation of fishing activities from vessels, airplanes, or points on shore.

§ 229.8 Publication of List of Fisheries.

(a) The Assistant Administrator will publish in the Federal Register a proposed revised List of Fisheries on or about July 1 of each year for the purpose of receiving public comment. Each year, on or about October 1, the Assistant Administrator will publish a final revised List of Fisheries, which will become effective January 1 of the next calendar year.

(b) The proposed and final revised List of Fisheries will:

(1) Categorize each commercial fishery based on the definitions of Category I, II, and III fisheries set forth in § 229.2; and

(2) List the marine mammals that have been incidentally injured or killed by commercial fishing operations and the estimated number of vessels or persons involved in each commercial fishery.

(c) The Assistant Administrator may publish a revised List of Fisheries at other times, after notification and opportunity for public comment.

(d) The revised final List of Fisheries will become effective no sooner than 30 days after publication in the Federal Register.

§ 229.9 Emergency regulations.

(a) If the Assistant Administrator finds that the incidental mortality or serious injury of marine mammals from commercial fisheries is having, or is likely to have, an immediate and significant adverse impact on a stock or species, the Assistant Administrator will:

(1) In the case of a stock or species for which a take reduction plan is in effect—

   (i) Prescribe emergency regulations that, consistent with such plan to the maximum extent practicable, reduce incidental mortality and serious injury in that fishery; and

   (ii) Approve and implement on an expedited basis, any amendments to such plan that are recommended by the Take Reduction Team to address such adverse impact;

(2) In the case of a stock or species for which a take reduction plan is being developed—

   (i) Prescribe emergency regulations to reduce such incidental mortality and serious injury in that fishery; and

   (ii) Approve and implement, on an expedited basis, such plan, which will provide methods to address such adverse impact if still necessary;

(3) In the case of a stock or species for which a take reduction plan does not exist and is not being developed, or in the case of a Category III fishery that the Assistant Administrator believes may be contributing to such adverse impact,

   (i) Prescribe emergency regulations to reduce such incidental mortality and serious injury in that fishery; and

   (ii) Approve and implement, on an expedited basis, such plan, which will provide methods to address such adverse impact if still necessary;

   (iii) Where necessary to address such adverse impact on a species or stock listed as a threatened species or endangered species under the Endangered Species Act (16 U.S.C. 1531 et seq.), place observers on vessels in a Category III fishery if the Assistant Administrator has reason to believe such vessels may be causing the incidental mortality and serious injury to marine mammals from such stock.

(b) Prior to taking any action under § 229.9(a)(1) through (3), the Assistant Administrator will consult with the Marine Mammal Commission, all appropriate Regional Fishery Management Councils, state fishery managers,
§ 229.10 Penalties.

(a) Except as provided for in paragraphs (b) and (c) of this section, any person who violates any regulation under this part or any provision of section 118 of the MMPA shall be subject to all penalties set forth in the Act.

(b) The owner or master of a vessel that fails to comply with a take reduction plan shall be subject to the penalties of sections 105 and 107 of the Act, and may be subject to the penalties of section 106 of the Act.

(c) The owner of a vessel engaged in a Category I or II fishery who fails to ensure that a decal, or other physical evidence of such authorization issued by NMFS, is displayed on the vessel or is in possession of the operator of the vessel shall be subject to a penalty of not more than $100.

(d) Failure to comply with take reduction plans or emergency regulations issued under this part may result in suspension or revocation of an Authorization Certificate, and failure to comply with a take reduction plan or emergency regulation is also subject to the penalties of sections 105 and 107 of the Act, and may be subject to the penalties of section 106 of the Act.

(e) For fishers operating in Category I or II fisheries, failure to report all incidental injuries and mortalities within 48 hours of the end of each fishing trip, or failure to comply with requirements to carry an observer, will subject such persons to the penalties of sections 105 and 107, and may subject them to the penalties of section 106 of the Act, which will result in suspension, revocation, or denial of an Authorization Certificate until such requirements have been fulfilled.

(f) For fishers operating in Category III fisheries, failure to report all incidental injuries and mortalities within 48 hours of the end of each fishing trip will subject such persons to the penalties of sections 105 and 107, and may subject them to section 106, of the Act.

(g) Suspension, revocation or denial of Authorization Certificates. (1) Until the Authorization Certificate holder complies with the regulations under this part, the Assistant Administrator shall suspend or revoke an Authorization Certificate or deny an annual renewal of an Authorization Certificate in accordance with the provisions in 15 CFR part 904 if the Authorization Certificate holder fails to report all incidental mortality and injury of marine mammals as required under § 229.6; or fails to take aboard an observer if requested by NMFS or its designated contractors.

(2) The Assistant Administrator may suspend or revoke an Authorization Certificate or deny an annual renewal of an Authorization Certificate in accordance with the provisions in 15 CFR part 904 if the Authorization Certificate holder fails to comply with any applicable take reduction plan, take reduction regulations, or emergency regulations developed under this subpart or subparts B and C of this part or if the Authorization Certificate holder fails to comply with other requirements of these regulations.

(3) A suspended Authorization Certificate may be reinstated at any time at the discretion of the Assistant Administrator provided the Assistant Administrator has determined that the reasons for the suspension no longer exist.
§ 229.11 Confidential fisheries data.

(a) Proprietary information collected under this part is confidential and includes information, the unauthorized disclosure of which could be prejudicial or harmful, such as information or data that are identifiable with an individual fisher. Proprietary information obtained under part 229 will not be disclosed, in accordance with NOAA Administrative Order 216-100, except:

(1) To Federal employees whose duties require access to such information;

(2) To state employees under an agreement with NMFS that prevents public disclosure of the identity or business of any person;

(3) When required by court order; or

(4) In the case of scientific information involving fisheries, to employees of Regional Fishery Management Councils who are responsible for fishery management plan development and monitoring.

(5) To other individuals or organizations authorized by the Assistant Administrator to analyze this information, so long as the confidentiality of individual fishers is not revealed.

(b) Information will be made available to the public in aggregate, summary, or other such form that does not disclose the identity or business of any person in accordance with NOAA Administrative Order 216-100. Aggregate or summary form means data structured so that the identity of the submitter cannot be determined either from the present release of the data or in combination with other releases.

§ 229.12 Consultation with the Secretary of the Interior.

The Assistant Administrator will consult with the Secretary of the Interior prior to taking actions or making determinations under this part that affect or relate to species or population stocks of marine mammals for which the Secretary of the Interior is responsible under the Act.

Subpart B—Takes of Endangered and Threatened Marine Mammals

§ 229.20 Issuance of permits.

(a) Determinations. During a period of up to 3 consecutive years, NMFS will allow the incidental, but not the intentional, taking by persons using vessels of the United States or foreign vessels that have valid fishing permits issued by the Assistant Administrator in accordance with section 204(b) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1824(b)), while engaging in commercial fishing operations, of marine mammals from a species or stock designated as depleted because of its listing as an endangered species or threatened species under the Endangered Species Act of 1973 if the Assistant Administrator determines that:

(1) The incidental mortality and serious injury from commercial fisheries will have a negligible impact on such species or stock;

(2) A recovery plan has been developed or is being developed for such species or stock pursuant to the Endangered Species Act of 1973; and

(3) Where required under regulations in subpart A of this part:

(i) A monitoring program has been established under § 229.7;

(ii) Vessels engaged in such fisheries are registered in accordance with § 229.4; and

(iii) A take reduction plan has been developed or is being developed for such species or stock in accordance with regulations at subpart C of this part.

(b) Procedures for making determinations. In making any of the determinations listed in paragraph (a) of this section, the Assistant Administrator will publish an announcement in the Federal Register of fisheries having takes of marine mammals listed under the Endangered Species Act, including a summary of available information regarding the fisheries interactions with listed species. Any interested party may, within 45 days of such publication, submit to the Assistant Administrator written data or views with respect to the listed fisheries. As soon as practicable after the end of the 45 days...
§ 229.30 Basis.

Section 118(f)(9) of the Act authorizes the Director, NMFS, to impose regulations governing commercial fishing operations, when necessary, to implement a take reduction plan in order to protect or restore a marine mammal stock or species covered by such a plan.

Subpart C—Take Reduction Plan Regulations and Emergency Regulations

§ 229.31 Pacific Offshore Cetacean Take Reduction Plan.

(a) Purpose and scope. The purpose of this section is to implement the Pacific Offshore Cetacean Take Reduction Plan. Paragraphs (b) through (d) of this section apply to all U.S. drift gillnet fishing vessels operating in waters seaward of the coast of California or Oregon, including adjacent high seas waters. For purposes of this section, the fishing season is defined as beginning May 1 and ending on January 31 of the following year.

(b) Extenders. An extender is a line that attaches a buoy (float) to a drift gillnet's floatline. The floatline is attached to the top of the drift gillnet. All extenders (buoy lines) must be at least 6 fathoms (36 ft; 10.9 m) in length during all sets. Accordingly, all floatlines must be fished at a minimum of 36 feet (10.9 m) below the surface of the water.

(c) Pingers. (1) For the purposes of this paragraph (c), a pinger is an acoustic deterrent device which, when immersed in water, broadcasts a 10 kHz (± 2 kHz) sound at 132 dB (± 4 dB) re 1 micropascal at 1 m, lasting 300 milliseconds (+ 15 milliseconds), and repeating every 4 seconds (+ .2 seconds); and remains operational to a water depth of at least 100 fathoms (600 ft or 182.88 m).
§ 229.32 Atlantic large whale take regulations.
(a)(1) Regulated waters. The regulations in this section apply to all U.S. waters in the Atlantic except for the areas exempted in paragraph (a)(2) of this section.

(a)(2) Exempted waters. The regulations in this section do not apply to waters landward of the first bridge over any embayment, harbor, or inlet and to waters landward of the following lines:

Rhode Island
41° 27.99' N 71° 11.75' W TO 41° 28.49' N 71° 14.63' W
(Sakonnet River)
41° 26.96' N 71° 21.34' W TO 41° 26.96' N 71° 25.92' W
(Narragansett Bay)
41° 22.41' N 71° 30.80' W TO 41° 22.41' N 71° 30.85' W
(Pt. Judith Pond Inlet)
41° 21.31' N 38.30' W TO 41° 21.30' N 71° 38.33' W
(Ninigret Pond Inlet)
41° 19.90' N 71° 43.08' W TO 41° 19.90' N 71° 43.10' W
(Quonochontaug Pond Inlet)
41° 19.66' N 71° 45.75' W TO 41° 19.66' N 71° 45.78' W
(Weekapaug Pond Inlet)

New York
West of the line from the Northern fork of the eastern end of Long Island, NY (Orient Pt.) to Plum Island to Fisher’s Island to Watch Hill, RI. (Long Island Sound)
41° 11.40' N 72° 09.70' W TO 41° 04.50' N 71° 51.60' W
(Gardiners Bay)
40° 50.30' N 72° 28.50' W TO 40° 50.36' N 72° 28.67' W
(Shinnecock Bay Inlet)
40° 34.40' N 73° 34.55' W TO 40° 35.08' N 73° 35.22' W
(Iones Inlet)

New Jersey
39° 45.90' N 74° 05.90' W TO 39° 45.15' N 74° 06.20' W
(Barnegat Inlet)
39° 30.70' N 74° 16.70' W TO 39° 26.30' N 74° 19.75' W
(Beach Haven to Brigantine Inlet)
38° 56.20' N 74° 51.70' W TO 38° 56.20' N 74° 51.90' W
(Cape May Inlet)
39° 16.70' N 75° 14.60' W TO 39° 11.25' N 75° 23.90' W
(Delaware Bay)
§ 229.32

Maryland/Virginia
38° 19.48' N 75° 05.10' W TO 38° 19.35' N 75° 05.25' W
(Ocean City Inlet)
37° 52.50' N 75° 24.30' W TO 37° 11.90' N 75° 48.30' W
(Chincoteague to Ship Shoal Inlet)
37° 11.10' N 75° 05.65' W TO 37° 10.65' N 75° 49.60' W
(Little Inlet)
37° 07.00' N 75° 53.75' W TO 37° 05.30' N 75° 56.50' W
(Smith Island Inlet)

North Carolina to Florida

All marine and tidal waters landward of the 72 COLREGS demarcation line (International Regulations for Preventing Collisions at Sea, 1972), as depicted or noted on nautical charts published by the National Oceanic and Atmospheric Administration (Coast Charts 1:80,000 scale), and as described in 33 CFR part 80.

(b) Gear marking provisions—(1)(i) Specified gear. Specified fishing gear consists of lobster trap gear and gillnet gear set in specified areas.

(ii) Specified areas. Specified areas are: Southeast U.S. Observer Area, Great South Channel Restricted Areas (including the Great South Channel Sliver Restricted Area), Cape Cod Bay Restricted Area, and the Stellwagen Bank/Jeffreys Ledge Restricted Area.

(iii) Requirement. From January 1, 1999, and as otherwise required in paragraphs (c)(3)(ii), (c)(4)(ii), (c)(5)(ii), (d)(2)(ii), (d)(3)(ii), (d)(4)(ii), (d)(5)(ii), and (f)(2) of this section, any person who owns or fishes with specified fishing gear in specified areas must mark that gear as specified in paragraphs (b)(2) and (b)(3) of this section, unless otherwise required by the Assistant Administrator under paragraph (g) of this section.

(2) Color code. Specified gear must be marked with the appropriate colors to designate gear-types and areas as follows:

Lobster trap gear—red
Gillnet gear—green
Southeast U.S. Observer Area—blue
Great South Channel Restricted Areas—yellow
Cape Cod Bay Restricted Area—orange
Stellwagen Bank/Jeffreys Ledge Area—black

(3) Markings. All specified gear in specified areas must be marked with two color codes, one designating the gear type, the other indicating the area where the gear is set. Each color of the color codes must be permanently marked on or along the line or lines specified under paragraphs (c)(3)(ii), (c)(4)(ii), (c)(5)(ii), (d)(2)(ii), (d)(3)(ii), (d)(4)(ii), (d)(5)(ii), and (f)(2) of this section. Each color mark of the color codes must be clearly visible when the gear is hauled or removed from the water. Each mark must be at least 4 inches (10.2 cm) long. The two color marks must be placed within 6 inches (15.2 cm) of each other. If the color of the rope is the same as or similar to a color code, a white mark may be substituted for that color code. For example, buoy lines of gillnet gear set in the Great South Channel Sliver Restricted Area must have a yellow mark and a green mark, each at least 4 inches (10.2 cm) long, with the yellow and green marks placed within 6 inches (15.2 cm) of each other. If the buoy line is yellow, the gear must have white and green marks.) In marking or affixing the color code, the line may be dyed, painted, or marked with thin colored whipping line, thin colored plastic or heat shrink tubing, or other material, or a thin line may be woven into or through the line, or the line may be marked as approved in writing by the Assistant Administrator.

(4) Changes to requirements. If the Assistant Administrator revises the gear marking requirements under paragraph (g) of this section, the gear must be marked in compliance with those requirements.

(c) Restrictions applicable to lobster trap gear in regulated waters—(1) No line floating at the surface. No person may fish with lobster trap gear that has any portion of the buoy line floating at the surface at any time, except that, if more than one buoy is attached to a single buoy line or if a high flyer and a buoy are used together on a single buoy line, floating line may be used between these objects.

(2) No wet storage of gear. Lobster traps must be hauled out of the water at least once in 30 days.
(3) Cape Cod Bay Restricted Area—(i) Area. The Cape Cod Bay restricted area consists of the Cape Cod Bay Critical Habitat area specified under 50 CFR 216.13(b), unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section.

(ii) Gear marking requirements. No person may fish with lobster trap gear in the Cape Cod Bay Restricted Area unless that gear is marked according to the gear marking code specified under paragraph (b) of this section. All buoy lines used in connection with lobster trap gear must be marked within 2 ft (0.6 m) of the top of the buoy line (or 2 ft (0.6 m) below a weak link) and midway along the length of the buoy line.

(iii) Winter restricted period. The winter restricted period for this area is from January 1 through May 15 of each year. During the winter restricted period, no person may fish with lobster trap gear in the Cape Cod Bay Restricted Area unless that person's gear complies with the following requirements:

(A) Weak links—All buoy lines are attached to the buoy with a weak link. The breaking strength of this weak link must be no more than 500 lb (226.7 kg).

(B) Multiple trap trawls—All traps are set in either a two-trap string or in a trawl of four or more traps. Single traps and three trap trawls are not allowed. A two-trap string must have only one buoy line.

(C) Sinking buoy lines—All buoy lines are comprised of sinking line except the bottom portion of the line, which may be a section of floating line not to exceed one-third the overall length of the buoy line.

(D) Sinking ground line—All ground lines are made entirely of sinking line.

(iv) Other restricted period. From May 16 through December 31 of each year, no person may fish with lobster trap gear in the Cape Cod Bay Restricted Area unless that person's gear complies with at least two of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(10) of this section. The Assistant Administrator may revise this restricted period in accordance with paragraph (g) of this section.

(4) Great South Channel Restricted Lobster Area—(i) Area. The Great South Channel restricted area consists of the Great South Channel Critical Habitat area specified under 50 CFR 216.13(a), unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section.

(ii) Gear marking requirements. No person may fish with lobster trap gear in the Great South Channel Restricted Area unless that gear is marked according to the gear marking code specified under paragraph (b) of this section. All buoy lines used in connection with lobster trap gear must be marked within 2 ft (0.6 m) of the top of the buoy line (or 2 ft (0.6 m) below a weak link) and midway along the length of the buoy line.

(iii) Spring closed period. The spring closed period for this area is from April 1 through June 30 of each year unless the Assistant Administrator revises the closed period in accordance with paragraph (g) of this section. During the spring closed period, no person may fish with or set lobster trap gear in the Great South Channel restricted lobster area unless the Assistant Administrator specifies gear modifications or alternative fishing practices in accordance with paragraph (g) of this section. The Assistant Administrator may revise this restricted period in accordance with paragraph (g) of this section.

(iv) Other restricted period. From July 1 through March 31 of each year, no person may fish with lobster trap gear in the Great South Channel Restricted Lobster Area unless that person's gear complies with at least two of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(10) of this section. The Assistant Administrator may revise this restricted period in accordance with paragraph (g) of this section.

(5) Stellwagen Bank/Jeffreys Ledge Restricted Area—(i) Area. The Stellwagen Bank/Jeffreys Ledge restricted area consists of all Federal waters of the Gulf of Maine that lie to the south of the 43°15' N lat. line and west of the 70°W long. line, except for right whale critical habitat, unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section.
(ii) Gear marking requirements. No person may fish with lobster trap gear in the Stellwagen Bank/Jeffreys Ledge Restricted Area unless that gear is marked according to the gear marking code specified under paragraph (b) of this section. All buoy lines used in connection with lobster trap gear must be marked within 2 ft (0.6 m) of the top of the buoy line (or 2 ft (0.6 m) below a weak link) and midway along the length of the buoy line.

(iii) Gear requirements. No person may fish with lobster trap gear in the Stellwagen Bank/Jeffreys Ledge Restricted Area unless that gear is marked according to the gear marking code specified under paragraph (b) of this section. All buoy lines used in connection with lobster trap gear must be marked within 2 ft (0.6 m) of the top of the buoy line (or 2 ft (0.6 m) below a weak link) and midway along the length of the buoy line.

(iii) Gear requirements. No person may fish with lobster trap gear in the Stellwagen Bank/Jeffreys Ledge Restricted Area unless that gear complies with at least two of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(10) of this section. The Assistant Administrator may revise this requirement in accordance with paragraph (g) of this section.

(6) Northern offshore lobster waters—(i) Area. The northern offshore lobster waters area includes all offshore lobster waters (as defined in §229.2) north of 41°30' N lat., except for areas included in the Great South Channel Critical Habitat.

(ii) Gear requirements. No person may fish with lobster trap gear in the northern offshore lobster waters area unless that person's gear complies with at least one of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(10) of this section. The Assistant Administrator may revise this requirement in accordance with paragraph (g) of this section.

(7) Southern offshore lobster waters—(i) Area. The southern offshore lobster waters area includes all offshore lobster waters (as defined in §229.2) south of 41°30' N lat., except for areas included in the Great South Channel Critical Habitat.

(ii) Gear requirements. From December 1 through March 31, no person may fish with lobster trap gear in the southern offshore lobster waters area unless that person's gear complies with at least one of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(10) of this section. The Assistant Administrator may revise this requirement in accordance with paragraph (g) of this section.

(8) Northern inshore lobster waters—(i) Area. Northern inshore lobster waters consist of all inshore lobster waters (as defined in §229.2) north of 41°30' N lat., except the Cape Cod Bay restricted area, Great South Channel restricted area and the Stellwagen Bank/Jeffreys Ledge restricted area.

(ii) Gear requirements. No person may fish with lobster trap gear in the northern inshore lobster waters area unless that person's gear complies with at least one of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(10) of this section. The Assistant Administrator may revise this requirement in accordance with paragraph (g) of this section.

(9) Southern inshore lobster waters—(i) Area. The southern inshore lobster waters consist of all inshore lobster waters (as defined in §229.2) south of 41°30' N lat., except the Great South Channel restricted area.

(ii) Gear requirements. From December 1 through March 31, no person may fish with lobster trap gear in the southern inshore lobster waters area unless that person's gear complies with at least one of the characteristics of the Lobster Take Reduction Technology List in paragraph (c)(10) of this section. The Assistant Administrator may revise this requirement in accordance with paragraph (g) of this section.

(10) Lobster Take Reduction Technology List. The following gear characteristics comprise the Lobster Take Reduction Technology List:

(i) All buoy lines are 7/8 inches (1.11 cm) in diameter or less.

(ii) All buoys are attached to the buoy line with a weak link having a maximum breaking strength of up to 1100 lb (498.8 kg). Weak links may include swivels, plastic weak links, rope of appropriate diameter, hog rings, rope stapled to a buoy stick, or other materials or devices approved in writing by the Assistant Administrator.

(iii) For gear set in offshore lobster waters only, all buoys are attached to the buoy line with a weak link having a maximum breaking strength of up to 3780 lb (1714.3 kg).

(iv) For gear set in offshore lobster waters only, all buoys are attached to the buoy line by a section of rope no
(v) All buoy lines are composed entirely of sinking line.
(vi) All buoy lines are made of sinking line.
(d) Restrictions applicable to anchored gillnet gear—(1) No line floating at the surface. No person may fish with anchored gillnet gear that has any portion of the buoy line floating at the surface at any time, except that, if more than one buoy is attached to a single buoy line or if a high flyer and a buoy are used together on a single buoy line, floating line may be used between these objects.
(2) Cape Cod Bay Restricted Area—(i) Area. The Cape Cod Bay Restricted Area consists of the Cape Cod Bay Critical Habitat area specified under 50 CFR 216.13(b), unless the Assistant Administrator changes that area under paragraph (g) of this section.
(ii) Gear marking requirements. No person may fish with anchored gillnet gear in the Cape Cod Bay Restricted Area unless that gear is marked according to the gear marking code specified under paragraph (b) of this section. All buoy lines used in connection with anchored gillnets must be marked within 2 ft (0.6 m) of the top of the buoy line (or 2 ft (0.6 m) below a weak link) and midway along the length of the buoy line.
(iii) Winter restricted period. The winter restricted period for this area is from January 1 through May 15 of each year, unless the Assistant Administrator revises the restricted period under paragraph (g) of this section. During the winter restricted period, no person may fish with anchored gillnet gear in the Cape Cod Bay Restricted Area unless the Assistant Administrator specifies gear modifications or alternative fishing practices under paragraph (g) of this section and the gear or practices comply with those specifications. The Assistant Administrator may waive this closure for the remaining portion of any year through a notification in the Federal Register if NMFS determines that right whales have left the critical habitat and are unlikely to return for the remainder of the season.
(iv) Other restricted period. From May 16 through December 31 of each year, no person may fish with anchored gillnet gear in the Cape Cod Bay Restricted Area unless that person's gear complies with at least two of the characteristics of the Gillnet Take Reduction Technology List in paragraph (d)(8) of this section. The Assistant Administrator may revise this restricted period in accordance with paragraph (g) of this section.
(3) Great South Channel Restricted Gillnet Area—(i) Area. The Great South Channel Restricted Gillnet Area consists of the area bounded by lines connecting the following four points: 41°02.2’ N/69°02’ W, 41°43.5’ N/69°36.3’ W, 42°10’ N/68°31’ W, and 41°38’ N/68°13’ W, unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section. This area includes the Great South Channel critical habitat area specified under 50 CFR 216.13(a), except for the ‘sliver area’ identified in paragraph (d)(4) of this section.
(ii) Gear marking requirements. No person may fish with anchored gillnet gear in the Great South Channel Restricted Gillnet Area unless that gear is marked according to the gear marking code specified under paragraph (b) of this section. All buoy lines used in connection with anchored gillnets must be marked within 2 ft (0.6 m) of the top of the buoy line (or 2 ft (0.6 m) below a weak link) and midway along the length of the buoy line.
(iii) Spring closed period. The spring closed period for this area is from April 1 through June 30 of each year unless the Assistant Administrator revises the closed period in accordance with paragraph (g) of this section. During the spring closed period, no person may set or fish with anchored gillnet gear in the Great South Channel Restricted Gillnet Area unless the Assistant Administrator specifies gear modifications or alternative fishing practices in accordance with paragraph (g) of this section and the gear or practices comply with those specifications.
(iv) Other restricted period. From July 1 through March 31 of each year no person may fish with anchored gillnet gear in the Great South Channel Restricted Gillnet Area unless that person’s gear complies with
at least two of the characteristics of the Gillnet Take Reduction Technology List in paragraph (d)(8) of this section. The Assistant Administrator may revise this restricted period in accordance with paragraph (g) of this section.

(4) Great South Channel Silver Restricted Area—(i) Area. The Great South Channel Silver Restricted Area consists of the area bounded by lines connecting the following points: 41°02.2′ N/69°02′ W, 41°43.5′ N/69°36.3′ W, 41°40′ N/69°45′ W, and 41°00′ N/69°05′ W, unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section.

(ii) Gear marking requirements. No person may fish with anchored gillnet gear in the Great South Channel Silver Restricted Area unless that person’s gear complies with at least two of the characteristics of the Gillnet Take Reduction Technology List in paragraph (d)(8) of this section. The Assistant Administrator may revise these requirements in accordance with paragraph (g) of this section.

(iii) Gear requirements. No person may fish with anchored gillnet gear in the Great South Channel Silver Restricted Area unless that person’s gear complies with at least two of the characteristics of the Gillnet Take Reduction Technology List in paragraph (d)(8) of this section. The Assistant Administrator may revise these requirements in accordance with paragraph (g) of this section.

(6) Other Northeast Waters Area—(i) Area. The “Other Northeast Waters Area” consists of all northeast waters (as defined in §229.2) except for the Cape Cod Bay Restricted Area, the Great South Channel Restricted Gillnet Area, Great South Channel Sliver Restricted Area and the Stellwagen Bank/Jeffreys Ledge Restricted Area.

(ii) Gear requirements. No person may fish with anchored gillnet gear in the Other Northeast Waters Area unless that person’s gear complies with at least one of the characteristics of the Gillnet Take Reduction Technology List in paragraph (d)(8) of this section. The Assistant Administrator may revise these requirements in accordance with paragraph (g) of this section.

(7) Mid-Atlantic Coastal Waters Area—(i) Area. The mid-Atlantic Coastal Waters Area is defined in §229.2.

(ii) Gear requirements. From December 1 through March 31, no person may fish with anchored gillnets in the Mid-Atlantic Coastal Waters Area unless that person’s gear complies with at least one of the characteristics of the Gillnet Take Reduction Technology List in paragraph (d)(8) of this section. The Assistant Administrator may revise these requirements in accordance with paragraph (g) of this section.

(8) Gillnet Take Reduction Technology List. The following gear characteristics comprise the Gillnet Take Reduction Technology List:

(i) All buoy lines are $\frac{9}{16}$ inches (1.11 cm) in diameter or less.

(ii) All buoys are attached to the buoy line with a weak link having a maximum breaking strength of up to
1100 lb (498.8 kg). Weak links may include swivels, plastic weak links, rope of appropriate diameter, hog rings, rope stapled to a buoy stick, or other materials or devices approved in writing by the Assistant Administrator.

(iii) Weak links with a breaking strength of up to 1100 lb (498.8 kg) are installed in the float rope between net panels.

(iv) All buoy lines are composed entirely of sinking line.

(e) Restrictions applicable to mid-Atlantic driftnet gear

(1) Restrictions. From December 1 through March 31 of the following year, no person may fish with driftnet gear at night in the mid-Atlantic coastal waters area unless that gear is tended. During that time, all driftnet gear set by that vessel in the mid-Atlantic coastal waters area must be removed from the water and stowed on board the vessel before a vessel returns to port. The Assistant Administrator may revise these requirements in accordance with paragraph (g) of this section.

(f) Restrictions applicable to shark gillnet gear

(1) Management areas—(i) Southeast U.S. restricted area. The southeast U.S. restricted area consists of the area from 32°00′ N lat. (near Savannah, GA) south to 27°51′ N lat. (near Sebastian Inlet, FL), extending from the shore eastward to 80°00′ W long., unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section.

(ii) Southeast U.S. observer area. The southeast U.S. observer area consists of the southeast U.S. restricted area and an additional area along the coast south to 26°46.5′ N lat. (near West Palm Beach, FL) and extending from the shore eastward out to 80°00′ W long., unless the Assistant Administrator changes that area in accordance with paragraph (g) of this section.

(ii) Gear marking requirements. From November 15 through March 31 of the following year, no person may fish with gillnet gear in the southeast U.S. observer area unless that gear is marked according to the gear marking code specified under paragraph (b) of this section. All buoy lines must be marked within 2 ft (0.6 m) of the top of the buoy and midway along the length of the buoy line. From November 15, 1999, each net panel must be marked along both the float line and the lead line at least once every 100 yards (92.4 m).

(3) Restrictions—(i) Observer requirement. No person may fish with shark gillnet gear in the southeast U.S. observer area from November 15 through March 31 of the following year unless the operator of the vessel calls the SE Regional Office in St. Petersburg, FL, not less than 48 hours prior to departing on any fishing trip in order to arrange for observer coverage. If the Regional Office requests that an observer be taken on board a vessel during a fishing trip at any time from November 15 through March 31 of the following year, no person may fish with shark gillnet gear aboard that vessel in the southeast U.S. observer area unless an observer is on board that vessel during the trip.

(ii) Closure. Except as provided under paragraph (f)(3)(iii) of this section, no person may fish with shark gillnet gear in the southeast U.S. restricted area during the closed period. The closed period for this area is from November 15 through March 31 of the following year, unless the Assistant Administrator changes that closed period in accordance with paragraph (g) of this section.

(iii) Special provision for strikenets. Fishing for sharks with strikenet gear is exempt from the restriction under paragraph (f)(3)(ii) of this section if:

(A) No nets are set at night or when visibility is less than 500 yards (460 m).

(B) Each set is made under the observation of a spotter plane.

(C) No net is set within 3 nautical miles of a right, humpback, fin or minke whale.

(D) If a right, humpback, fin or minke whale moves within 3 nautical miles of the set gear, the gear is removed immediately from the water.

(g) Other provisions. In addition to any other emergency authority under the Marine Mammal Protection Act, the Endangered Species Act, the Magnuson-Stevens Fishery Conservation and Management Act, or other appropriate authority, the Assistant Administrator may take action under this section in the following situations:

(1) Entanglements in critical habitat. If a serious injury or mortality of a right

§ 229.33 Harbor Porpoise Take Reduction Plan Implementing Regulations—Gulf of Maine.

(a) Restrictions—(1) Northeast Closure Area. From August 15 through September 13 of each fishing year, it is prohibited to fish with, set, haul back, possess on board a vessel unless stowed, or fail to remove sink gillnet gear or gillnet gear capable of catching multispecies, from Northeast Closure Area. This prohibition does not apply to a single pelagic gillnet (as described and used as set forth in §648.81(f)(2)(ii) of this title). The Northeast Closure Area is the area bounded by straight lines connecting the following points in the order stated:

(4) Cape Cod South Closure Area. From December 1 through May 31, it is prohibited to fish with, set, haul back, possess on board a vessel unless stowed, or fail to remove sink gillnet gear or gillnet gear capable of catching multispecies from Cape Cod South Closure Area, except with the use of pingers as provided in paragraph (d)(3) of this section. This prohibition does not apply to a single pelagic gillnet (as described in §648.81(f)(2)(ii) of this title) and at the bridle of every net within a string of nets. An operating and functional pinger must be attached at the end of each string of the gillnets and at the bridle of every net within a string of nets.

(b) Pingers—(1) Pinger specifications. For the purposes of this subpart, a pinger is an acoustic deterrent device which, when immersed in water, broadcasts a 10 kHz (±2 kHz) sound at 132 dB (±4 dB) re 1 micropascal at 1 m, lasting 300 milliseconds (±15 milliseconds), and repeating every 4 seconds (±.2 seconds).

(2) Pinger attachment. An operating and functional pinger must be attached at the end of each string of the gillnets and at the bridle of every net within a string of nets.

(c) Pinger training and certification. Beginning on January 1, 1999, the operator of a vessel may not fish with, set or haul back sink gillnets or gillnet gear, or allow such gear to be in closed areas where pingers are required as specified under paragraph (b) of this section, unless the operator has satisfactorily completed the pinger certification training program and possesses on board the vessel a valid pinger training certificate issued by NMFS. Notice will be given announcing the times and locations of pinger certification training programs.
§ 229.34 Harbor Porpoise Take Reduction Plan—Mid-Atlantic.

(a)(1) Regulated waters. The regulations in this section apply to all waters in the Mid-Atlantic bounded on the east by 72°30' W. longitude and on the south by the North Carolina/South Carolina border (33°51' N. latitude), except for the areas exempted in paragraph (a)(2) of this section.

(b) Exempted waters. All waters landward of the first bridge over any embayment, harbor, or inlet will be exempted. The regulations in this section do not apply to waters landward of the following lines:

New York
40°45.70 N 72°45.15 W TO 40°45.72 N 72°45.30 W (Moriches Bay Inlet)
40°37.32 N 73°18.40 W TO 40°38.00 N 73°18.56 W (Fire Island Inlet)
40°34.40 N 73°34.55 W TO 40°35.08 N 73°35.22 W (Jones Inlet)

New Jersey
39°45.90 N 74°05.90 W TO 39°45.15 N 74°06.20 W (Barnegat Inlet)
39°30.70 N 74°16.70 W TO 39°30.26 N 74°19.75 W (Beach Haven to Brigantine Inlet)
38°56.20 N 74°51.70 W TO 38°56.20 N 74°51.90 W (Cape May Inlet)
39°16.70 N 75°14.60 W TO 39°11.25 N 75°23.90 W (Delaware Bay)

Maryland/Virginia
38°19.48 N 75°05.10 W TO 38°19.35 N 75°05.25 W (Ocean City Inlet)
37°52.1 N 75°24.30 W TO 37°52.10 N 75°24.30 W (Chincoteague to Ship Shoal Inlet)
37°11.90 N 75°49.30 W TO 37°10.65 N 75°49.60 W (Little Inlet)
37°07.00 N 75°53.75 W TO 37°05.30 N 75°56.1 W (Smith Island Inlet)

North Carolina
All marine and tidal waters landward of the 72 COLREGS demarcation line (International Regulations for Preventing Collisions at Sea, 1972), as depicted or noted on nautical charts published by NOAA (Coast...
Charts 1:80,000 scale), and as described in 33 CFR part 80.

(b) Closures—(1) New Jersey waters. From April 1 through April 20, it is prohibited to fish with, set, haul back, possess on board a vessel unless stowed, or fail to remove any large mesh gillnet gear from the waters off New Jersey.

(2) Mudhole. From February 15 through March 15, it is prohibited to fish with, set, haul back, possess on board a vessel unless stowed, or fail to remove any large mesh or small mesh gillnet gear from the waters off New Jersey known as the Mudhole.

(3) Southern Mid-Atlantic waters. From February 15 through March 15, it is prohibited to fish with, set, haul back, possess on board a vessel unless stowed, or fail to remove any large mesh gillnet gear from the southern Mid-Atlantic waters.

(c) Gear requirements and limitations—(1) Waters off New Jersey—large mesh gear requirements and limitations. From January 1 through April 30 of each year, no person may fish with, set, haul back, possess on board a vessel unless stowed, or fail to remove any large mesh gillnet gear in waters off New Jersey, unless the gear complies with the specified gear characteristics. During this period, no person who owns or operates the vessel may allow the vessel to enter or remain in waters off New Jersey, unless the gear complies with the specified gear characteristics. During this period, no person who owns or operates the vessel may allow the vessel to enter or remain in waters off New Jersey with large mesh gillnet gear on board, unless the gear complies with the specified gear characteristics or unless the gear is stowed. In order to comply with these specified gear characteristics, the gear must have all the following characteristics:

(i) Floatline length. The floatline is no longer than 4,800 ft (1,463.0 m), and, if the gear is used in the Mudhole, the floatline is no longer than 3,900 ft (1,188.7 m).

(ii) Twine size. The twine is at least 0.04 inches (0.090 cm) in diameter.

(iii) Size of nets. Individual nets or net panels are not more than 300 ft (91.4 m, or 50 fathoms) in length.

(iv) Number of nets. The total number of individual nets or net panels for a vessel, including all nets on board the vessel, hauled by the vessel or deployed by the vessel, does not exceed 80.

(v) Tie-down system. The gillnet is equipped with tie-downs spaced not more than 15 ft (4.6 m) apart along the floatline, and each tie-down is not more than 48 inches (18.90 cm) in length from the point where it connects to the floatline to the point where it connects to the lead line.

(vi) Tagging requirements. Beginning January 1, 2000, the gillnet is equipped with one tag per net, with one tag secured to each bridle of every net within a string of nets.

(2) Waters off New Jersey—small mesh gillnet gear requirements and limitations. From January 1 through April 30 of each year, no person may fish with, set, haul back, possess on board a vessel unless stowed, or fail to remove any large mesh gillnet gear in waters off New Jersey, unless the gear complies with the specified gear characteristics. During this period, no person who owns or operates the vessel may allow the vessel to enter or remain in waters off New Jersey with small mesh gillnet gear on board, unless the gear complies with the specified gear characteristics or unless the gear is stowed. In order to comply with these specified gear characteristics, the gear must have all the following characteristics:

(i) Floatline length. The floatline is less than 3,000 ft (914.4 m).

(ii) Twine size. The twine is at least 0.031 inches (0.081 cm) in diameter.

(iii) Size of nets. Individual nets or net panels are not more than 300 ft (91.4 m or 50 fathoms) in length.

(iv) Number of nets. The total number of individual nets or net panels for a vessel, including all nets on board the vessel, hauled by the vessel or deployed by the vessel, does not exceed 45.

(v) Tie-down system. Tie-downs are prohibited.

(vi) Tagging requirements. Beginning January 1, 2000, the gillnet is equipped with one tag per net, with one tag secured to each bridle of every net within a string of nets.

(3) Southern Mid-Atlantic waters—large mesh gear requirements and limitations. From February 1 through April 30 of each year, no person may fish with, set, haul back, possess on board a vessel unless stowed, or fail to remove any large mesh gillnet gear in Southern Mid-Atlantic waters, unless the gear
complies with the specified gear characteristics. During this period, no person who owns or operates the vessel may allow the vessel to enter or remain in Southern Mid-Atlantic waters with large mesh sink gillnet gear on board, unless the gear complies with the specified gear characteristics or unless the gear is stowed. In order to comply with these specified gear characteristics, the gear must have all the following characteristics:

(i) **Floatline length.** The floatline is no longer than 3,900 ft (1,188.7 m).

(ii) **Twine size.** The twine is at least 0.04 inches (0.090 cm) in diameter.

(iii) **Size of nets.** Individual nets or net panels are not more than 300 ft (91.4 m or 50 fathoms) in length.

(iv) **Number of nets.** The total number of individual nets or net panels for a vessel, including all nets on board the vessel, hauled by the vessel or deployed by the vessel, does not exceed 80.

(v) **Tie-down system.** The gillnet is equipped with tie-downs spaced not more than 15 ft (4.6 m) apart along the floatline, and each tie-down is not more than 48 inches (18.90 cm) in length from the point where it connects to the floatline to the point where it connects to the lead line.

(vi) **Tagging requirements.** Beginning January 1, 2000, the gillnet is equipped with one tag per net, with one tag secured to each bridle of every net within a string of nets.

(4) **Southern Mid-Atlantic waters—small mesh gillnet gear requirements and limitations.** From February 1 through April 30 of each year, no person may fish with, set, haul back, possess on board a vessel unless stowed, or fail to remove any small mesh gillnet gear in waters off New Jersey, unless the gear complies with the specified gear characteristics. During this period, no person who owns or operates the vessel may allow the vessel to enter or remain in Southern Mid-Atlantic waters with small mesh gillnet gear on board, unless the gear complies with the specified gear characteristics or unless the gear is stowed. In order to comply with these specified gear characteristics, the gear must have all the following characteristics:

(i) **Floatline length.** The floatline is no longer than 2118 ft (645.6 m).

(ii) **Twine size.** The twine is at least 0.03 inches (0.080 cm) in diameter.

(iii) **Size of nets.** Individual nets or net panels are not more than 300 ft (91.4 m or 50 fathoms) in length.

(iv) **Number of nets.** The total number of individual nets or net panels for a vessel, including all nets on board the vessel, hauled by the vessel or deployed by the vessel, does not exceed 45.

(v) **Tie-down system.** Tie-downs are prohibited.

(vi) **Tagging requirements.** Beginning January 1, 2000, the gillnet is equipped with one tag per net, with one tag secured to each bridle of every net within a string of nets.

(d) **Other special measures.** The Assistant Administrator may revise the requirements of this section through notification published in the Federal Register if:

(1) After plan implementation, NMFS determines that pinger operating effectiveness in the commercial fishery is inadequate to reduce bycatch to the PBR level with the current plan.

(2) NMFS determines that the boundary or timing of a closed area is inappropriate, or that gear modifications (including pingers) are not reducing bycatch to below the PBR level.

PART 230—WHALING PROVISIONS

§ 230.1 Purpose and scope.

§ 230.2 Definitions.

Aboriginal subsistence whaling means whaling authorized by paragraph 13 of the Schedule annexed to and constituting a part of the Convention.

Assistant Administrator means the Assistant Administrator for Fisheries of the National Oceanic and Atmospheric Administration.

Authorized officer means:
(1) Any commissioned, warrant, or petty officer of the U.S. Coast Guard;
(2) Any special agent or enforcement officer of the National Marine Fisheries Service;
(3) Any officer designated by the head of a Federal or state agency that has entered into an agreement with the Secretary of Commerce or the Commandant of the Coast Guard to enforce the provisions of the Whaling Convention Act; or
(4) Any Coast Guard personnel accompanying and acting under the direction of any person described in paragraph (1) of this definition.

Calf means any whale less than 1 year old or having milk in its stomach.

Commission means the International Whaling Commission established by article III of the Convention.

Convention means the International Convention for the Regulation of Whaling signed at Washington on December 2, 1946.

Cooperative agreement means a written agreement between the National Oceanic and Atmospheric Administration and a Native American whaling organization for the cooperative management of aboriginal subsistence whaling operations.

Landing means bringing a whale or any parts thereof onto the ice or land in the course of whaling operations.

Native American whaling organization means an entity recognized by the National Oceanic and Atmospheric Administration as representing and governing Native American whalers for the purposes of cooperative management of aboriginal subsistence whaling.

Regulations of the Commission means the regulations in the Schedule annexed to and constituting a part of the Convention, as modified, revised, or amended by the Commission from time to time.

Stinker means a dead, unclaimed whale found upon a beach, stranded in shallow water, or floating at sea.

Strike means hitting a whale with a harpoon, lance, or explosive device.

Wasteful manner means a method of whaling that is not likely to result in the landing of a struck whale or that does not include all reasonable efforts to retrieve the whale.

Whale products means any unprocessed part of a whale and blubber, meat, bones, whale oil, sperm oil, spermaceti, meal, and baleen.

Whaling means the scouting for, hunting, striking, killing, flensing, or landing of a whale, and the processing of whales or whale products.
Whaling captain or captain means any Native American who is authorized by a Native American whaling organization to be in charge of a vessel and whaling crew.

Whaling crew means those Native Americans under the control of a captain.

Whaling village means any U.S. village recognized by the Commission as having a cultural and/or subsistence need for whaling.

§ 230.3 General prohibitions.

(a) No person shall engage in whaling in a manner that violates the Convention, any regulation of the Commission, or this part.

(b) No person shall engage in whaling without first having obtained a license or scientific research permit issued by the Assistant Administrator.

(c) No person shall ship, transport, purchase, sell, offer for sale, import, export, or possess any whale or whale products taken or processed in violation of the Convention, any regulation of the Commission, or this part, except as specified in § 230.4(f).

(d) No person shall fail to make, keep, submit, or furnish any record or report required of him/her by the Convention, any regulation of the Commission, or this part.

(e) No person shall refuse to permit any authorized officer to enforce the Convention, any regulation of the Commission, or this part.

§ 230.4 Aboriginal subsistence whaling.

(a) No person shall engage in aboriginal subsistence whaling, except a whaling captain licensed pursuant to § 230.5 or a member of a whaling crew under the control of a licensed captain.

(b) No whaling captain shall engage in whaling that is not in accordance with the regulations of the Commission, this part, and the relevant cooperative agreement.

(c) No whaling captain shall engage in whaling for any calf or any whale accompanied by a calf.

(d) No whaling captain shall engage in whaling without an adequate crew or without adequate supplies and equipment.

(e) No person may receive money for participation in aboriginal subsistence whaling.

(f) No person may sell or offer for sale whale products from whales taken in an aboriginal subsistence hunt, except that authentic articles of Native handicrafts may be sold or offered for sale.

(g) No whaling captain shall continue to whale after:

(1) The quota set for his/her village by the relevant Native American whaling organization is reached;

(2) The license under which he/she is whaling is suspended as provided in § 230.5(b); or

(3) The whaling season for that species has been closed pursuant to § 230.6.

(h) No whaling captain shall claim domicile in more than one whaling village.

(i) No person may salvage a stinker without complying with the provisions of § 230.7.

(j) No whaling captain shall engage in whaling with a harpoon, lance, or explosive dart that does not bear a permanent distinctive mark identifying the captain as the owner thereof.

(k) No whaling captain shall engage in whaling in a wasteful manner.

§ 230.5 Licenses for aboriginal subsistence whaling.

(a) A license is hereby issued to whaling captains identified by the relevant Native American whaling organization.

(b) The Assistant Administrator may suspend the license of any whaling captain who fails to comply with the regulations in this part.

§ 230.6 Quotas and other restrictions.

(a) Quotas for aboriginal subsistence whaling shall be set in accordance with the regulations of the Commission. Quotas shall be allocated to each whaling village or captain by the appropriate Native American whaling organization. The Assistant Administrator shall publish in the Federal Register, at least annually, aboriginal subsistence whaling quotas and any other limitations on aboriginal subsistence whaling deriving from regulations of the Commission. These quotas and restrictions shall also be incorporated in the relevant cooperative agreements.
§ 230.7

(b) The relevant Native American whaling organization shall monitor the whale hunt and keep tally of the number of whales landed and struck. When a quota is reached, the organization shall declare the whaling season closed, and there shall be no further whaling under that quota during the calendar year. If the organization fails to close the whaling season after the quota has been reached, the Assistant Administrator may close it by filing notification in the Federal Register.

§ 230.7 Salvage of stinkers.

(a) Any person salvaging a stinker shall submit to the Assistant Administrator or his/her representative an oral or written report describing the circumstances of the salvage within 12 hours of such salvage. He/she shall provide promptly to the Assistant Administrator or his/her representative each harpoon, lance, or explosive dart found in or attached to the stinker. The device shall be returned to the owner thereof promptly, unless it is retained as evidence of a possible violation.

(b) There shall be a rebuttable presumption that a stinker has been struck by the captain whose mark appears on the harpoon, lance, or explosive dart found in or attached thereto, and, if no strike has been reported by such captain, such strike shall be deemed to have occurred at the time of recovery of the device.

§ 230.8 Reporting by whaling captains.

(a) The relevant Native American whaling organization shall require each whaling captain licensed pursuant to §230.5 to provide a written statement of his/her name and village of domicile and a description of the distinctive marking to be placed on each harpoon, lance, and explosive dart.

(b) Each whaling captain shall provide to the relevant Native American whaling organization an oral or written report of whaling activities including but not limited to the striking, attempted striking, or landing of a whale and, where possible, specimens from landed whales. The Assistant Administrator is authorized to provide technological assistance to facilitate prompt reporting and collection of specimens from landed whales, including but not limited to ovaries, ear plugs, and baleen plates. The report shall include at least the following information:

1. The number, dates, and locations of each strike, attempted strike, or landing.

2. The length (taken as the straight-line measurement from the tip of the upper jaw to the notch between the tail flukes) and the sex of the whales landed.

3. The length and sex of a fetus, if present in a landed whale.

4. An explanation of circumstances associated with the striking or attempted striking of any whale not landed.

(c) If the relevant Native American whaling organization fails to provide the National Marine Fisheries Service the required reports, the Assistant Administrator may require the reports to be submitted by the whaling captains directly to the National Marine Fisheries Service.
PART 253—FISHERIES ASSISTANCE PROGRAMS

Subpart A—General

Sec. 253.1 Purpose.

Subpart B—Fisheries Obligation Guarantee Program

253.10 Definitions.
253.11 Guarantee policy.
253.13 Ability and experience requirements.
253.14 Economic and financial requirements.
253.15 Miscellaneous.
253.16 Fees.
253.17 Demand and payment.
253.18 Program operating guidelines.
253.19 Default and liquidation.

Subpart C—Interjurisdictional Fisheries

253.20 Definitions.
253.21 Apportionment.
253.22 State projects.
253.23 Other funds.
253.24 Administrative requirements.

Source: 61 FR 19172, May 1, 1996, unless otherwise noted.

Subpart A—General

§ 253.1 Purpose.

(a) The regulations in this part pertain to fisheries assistance programs. Subpart B of these rules governs the Fisheries Obligation Guarantee Program, which guarantees the repayment of certain long-term fisheries and aquacultural debts. This allows those debts to be placed in the same private investment market that buys U.S. Treasury securities, where interest rates are lower and maturities are longer. The Program does all credit work and holds and services all credit collateral. The Program's guarantee fee makes it self-supporting.

(b) Subpart C implements Title III of Public Law 99-659 (16 U.S.C. 4100 et seq.), which has two objectives:

1. To promote and encourage State activities in support of the management of interjurisdictional fishery resources identified in interstate or Federal fishery management plans; and

2. To promote and encourage management of interjurisdictional fishery resources throughout their range.

(3) The scope of this part includes guidance on making financial assistance awards to States or Interstate Commissions to undertake projects in support of management of interjurisdictional fishery resources in both the exclusive economic zone (EEZ) and State waters, and to encourage States to enter into enforcement agreements with either the Department of Commerce or the Department of the Interior.

Subpart B—Fisheries Obligation Guarantee Program

§ 253.10 Definitions.

The terms used in this subpart have the following meanings:

Act means Title XI of the Merchant Marine Act, 1936, as amended.
Actual cost means project cost (less a 10-percent salvage value), depreciated (excluding land) on a straightline basis at 1-year intervals over the project property's useful life including architectural, engineering, inspection, delivery, outfitting, and interest costs, as well as the cost of any consulting contract the Division requires.
Applicant means the one applying for a guarantee (the prospective notemaker).
Application means an application for a guarantee.
Application fee means 0.5 percent of the dollar amount of an application.
Aquacultural facility means land, land structures, water structures, water craft built in the U.S., and equipment for hatching, caring for, or growing fish under controlled circumstances.
and for its unloading, receiving, holding, processing, or distribution for commercial purposes.

CCF means Capital Construction Fund.

Citizen means a citizen or national of the U.S. who is otherwise also a citizen for the purpose of documenting a vessel in the coastwise trade under section 2 of the Shipping Act, 1916, as amended.

Contributory project means any project that contributes to developing the U.S. fishing industry by: Causing any vessel to catch less overutilized species than before; applying new technology; improving safety or fuel efficiency; making project property more efficient, productive, or competitive; potentially increasing fisheries exports; helping develop an underutilized fishery or enhancing financial stability, financial performance, growth, productivity, or any other business attribute.

Demand means a noteholder’s request that the guarantor pay a guaranteed note’s full principal and interest balance.

Dual Use CCF means a CCF agreement whose qualified vessel is project property and whose deposits are pledged to repayment of the U.S. note.

Facility means a fisheries facility or aquacultural facility.

Financing means the first permanent debt placed on project property for financing its project cost.

Fish means all forms of aquatic animal and plant life, except marine mammals and birds.

Fishery facility means land, land structures, water craft that do not fish, and equipment used for transporting, unloading, receiving, holding, processing, or distributing fish for commercial purposes (including any fishery facility for passenger fishing).

Fishing means catching wild fish for commercial purposes (including passenger fishing).

Guarantee means the guarantor’s contractual promise, backed by the full faith and credit of the United States, to repay a guaranteed note if a notemaker fails to repay it as agreed.

Guarantee fee means 1 percent of a guaranteed note’s average annual unpaid principal balance.

Guaranteed note means a promissory note from a notemaker to a noteholder whose repayment the guarantor guarantees.

Guarantor means the U.S., acting, under the Act, by and through the Secretary of Commerce.

Industry means the fisheries and/or aquacultural industry.

Noteholder means a guaranteed note payee.

Notemaker means a guaranteed note payor.

Passenger fishing means carrying in vessels for commercial purposes passengers who catch fish.

Program means the Fisheries Obligation Guarantee Program.

Project means the construction of new project property or the refurbishing or purchase of used project property including architectural, engineering, inspection, delivery, outfitting, and interest costs, as well as the cost of any consulting contract the Division requires.

Project property means the vessel or facility involved in a project whose actual cost is eligible under the Act for guarantee and controls the dollar amount of a guaranteed note.

Property means the project property and all other property pledged as security for a U.S. note.

Qualified means acceptable, in the Division’s credit risk judgment, and otherwise meeting the Division’s requirements for guarantee.

Refinancing means newer debt that either replaces older debt or reimburses applicants for previous expenditures.

Refinancing/assumption fee means 0.25 percent of the principal amount of a guaranteed note to be refinanced or assumed.

Refurbishing means any reconstruction, reconditioning, or other improvement of used project property involving more than routine repair or maintenance.

Security documents mean all collateral securing the U.S. note’s repayment and all other assurances, undertakings, and
contractual arrangements associated with the U.S. note.

Underutilized fishery means:

(1) For a vessel, any fish species harvested below its sustainable yield.

(2) For a fisheries facility, any facility using that species or any for which aggregate facilities are inadequate to best use harvests of that or any other species.

U.S. means the United States of America and, for citizenship purposes, includes the Commonwealth of Puerto Rico; American Samoa; the U.S. Virgin Islands; Guam; the Republic of the Marshall Islands; the Federated States of Micronesia; the Commonwealth of the Northern Mariana Islands; any other commonwealth, territory, or possession of the United States; or any political subdivision of any of them.

U.S. note means a promissory note payable by the notemaker to the guarantor.

Useful life means the period during which project property will, as determined by the Division, remain economically productive.

Vessel means any vessel documented under U.S. law and used for fishing.

Wise use means the wise use of fisheries resources and their development, advancement, management, conservation, and protection.

(a) Guaranteed note—

(1) Principal. This may not exceed 80 percent of actual cost, but may, in the Division’s credit judgment, be less.

(2) Maturity. This may not exceed 25 years, but shall not exceed the project property’s useful life and may, in the Division’s credit judgment, be less.

(3) Interest rate. This may not exceed the amount the Division deems reasonable.

(4) Prepayment penalty. The Division will allow a reasonable prepayment penalty, but the guarantor will not guarantee a notemaker’s payment of it.

(5) Form. This will be the simple promissory note (with the guarantee attached) the Division prescribes, promising only to pay principal, interest, and prepayment penalty.

(6) Sole security. The guaranteed note and the guarantee will be the noteholder’s sole security.

(b) U.S. note and security documents—

(1) Form. The U.S. note and security documents will be in the form the Division prescribes.

(2) U.S. note. This exists to evidence the notemaker’s actual and contingent liability to the guarantor (contingent if the guarantor does not pay the guaranteed note (including any portion of it), on the notemaker’s behalf or if the guarantor does not advance any other amounts or incur any other expenses on the notemaker’s behalf to protect
§ 253.13 Ability and experience requirements.

A notemaker and the majority of its principals must generally have the ability, experience, resources, character, reputation, and other qualifications the Division deems necessary for successfully operating the project property and protecting the U.S. The Program will ordinarily not provide guarantees: For venture capital purposes; to a notemaker whose principals are all from outside the industry; or for a notemaker the majority of whose principals cannot document successful industry ability and experience of a duration, degree, and nature consistent with protecting the U.S.

§ 253.14 Economic and financial requirements.

(a) Income and expense projections. The Division's conservative income and expense projections for the project property's operation must prospectively indicate net earnings that can service all debt, properly maintain the project property, and protect the U.S. against the industry's cyclical economics and other risks of loss.

(b) Working capital. The Division's conservative assessment of an applicant's financial condition must indicate initial working capital prospectively sufficient to provide for the project property to achieve net earnings projections, fund all foreseeable contingencies, and protect the U.S. At the Division's discretion, some portion of projected working capital needs may be met by something other than current assets minus current liabilities (i.e., by a line or letter of credit, non-current assets readily capable of generating working capital, a guarantor with sufficient financial resources, etc.).

(c) Dual-use CCF. For a vessel, the Division may require annually depositing some portion of the project property's net income into a dual-use CCF. A dual-use CCF provides the normal CCF tax-deferral benefits, but also gives the Program control of CCF withdrawals and recourse against CCF deposits and ensures an emergency refurbishing reserve (tax-deferred) for project property.

(1) the U.S. or accommodate the notemaker; actual if, and to the same monetary extent that, the guarantor does. Payment of the guaranteed note by anyone but the guarantor will amortize the original principal balance (and interest accruing on it) of the U.S. note to the same extent that it amortizes the guaranteed note. The U.S. note will, among other things, contain provisions for adding to its principal balance all amounts the Program advances, or expenses it incurs, to protect the U.S. or accommodate the notemaker.

(3) Security documents. The Division will, at a minimum, require a pledge of all project property (or adequate substitute collateral). The Division will require such other security as it deems the circumstances of each notemaker and project require to protect the U.S. All security documents will secure the U.S. note. The security documents will, among other things, contain provisions for adding to the U.S. note all Program advances, expenditures, and expenses required to protect the U.S. or accommodate the notemaker.

(4) Recourse. Significant Program reliance, as a secondary means of repayment, on the net worths of parties other than the notemaker will ordinarily require secured recourse against those net worths. Recourse may be by a repayment guarantee or irrevocable letter of credit. Ordinarily, the Division will require recourse against: All major shareholders of a closely-held corporate notemaker, the parent corporation of a subsidiary corporate notemaker without substantial pledged assets other than the project property, and all major limited partners. The Division may also require recourse against others it deems necessary to protect the U.S. The principal parties in interest, who ultimately stand most to benefit from the project, should ordinarily be held financially accountable for the project's performance. Where otherwise appropriate recourse is unavailable, the conservatively projected net liquidating value of the notemaker's assets pledged to the Program must, in the Division's credit judgment, substantially exceed all projected Program exposure.
(c) Audited financial statements. These will ordinarily be required for any notemaker with large or financially extensive operations whose financial condition the Division believes it cannot otherwise assess with reasonable certainty.

(d) Consultant services. Infrequently, expert consulting services may be necessary to help the Division assess a project's economic, technical, or financial feasibility. The Division will select and employ the necessary consultant, but require the applicant to reimburse the Division. A subsequently approved application will not be closed until the applicant reimburses the Division. This cost may, at the Division's discretion, be included in a guaranteed note's amount. For a declined application, the Division may reimburse itself from the remaining 25 percent of the application fee.

§ 253.15 Miscellaneous.

(a) Applicant. Only the legal title holder of project property (or the lessee of an appropriate long-term financing lease) may apply for a guarantee. Applicants must submit an “Application for Fisheries Obligation Program Guarantee” to the appropriate NMFS Regional Financial Services Branch to be considered for a guaranteed loan.

(b) Investigation and approval. The Division shall do a due diligence investigation of every application it accepts and determine if, in the Division's sole judgment, the application is eligible and qualified. Applications the Division deems ineligible or unqualified will be declined. The Division will approve eligible and qualified applications based on the applicability of the information obtained during the application and investigation process to the programmatic goals and financial requirements of the program and under terms and conditions that, in the Division's sole discretion, protect the U.S. The Division will state these terms and conditions in its approval in principal letter.

(c) Insurance. All property and other risks shall be continuously insured during the term of the U.S. note. Insurers must be acceptable to the Division. Insurance must be in such forms and amounts and against such risks as the Division deems necessary to protect the U.S. Insurance must be endorsed to include the requirements the U.S., as respects its interest only, deems necessary to protect the U.S. (e.g., the Program will ordinarily be an additional insured as well as the sole loss payee for the amount of its interest; cancellation will require 20 days' advance written notice; vessel seaworthiness will be admitted, and the Program will be adequately protected against other insureds' breaches of policy warranties, negligence, omission, etc.)

(d) Property inspections. The Division will require adequate condition and valuation inspection of all property as the basis for assessing the property's worth and suitability for guarantee. The Division may also require these at specified periods during guarantee life. These must be conducted by competent and impartial inspectors acceptable to the Division. Inspection cost will be at an applicant's expense. Those occurring before application approval may be included in actual cost.

(e) Guarantee terms and conditions. The Division's approval in principle letter shall specify the terms and conditions of the guarantor's willingness to guarantee. These shall be incorporated in closing documents that the Division prepares. Terms and conditions are at the Division's sole discretion. An applicant's nonacceptance will result in disqualification for guarantee.

(f) Noteholder. The Division will, as a gratuitous service, request parties interested in investing in guaranteed notes to submit offers to fund each prospective guaranteed note. The Division and the applicant will, by mutual consent, choose the responsive bidder, which ordinarily will be the prospective noteholder whose bid represents the lowest net effective annual cost of capital. Until the Division has closed the guarantee, arrangements between an applicant and a prospective noteholder are a matter of private contract between them, and the Program is not responsible to either for non-performance by the other.

(g) Closing—(1) Approval in principle letters. Every closing will be in strict accordance with a final approval in principle letter.
(2) Contracts. The guaranteed note, U.S. note, and security documents will ordinarily be on standard Program forms that may not be altered without Divisional approval. The Division will ordinarily prepare all contracts, except certain pledges involving real property, which will be prepared by each notemaker's attorney at the direction and approval of the Division's attorney.

(3) Closing schedules. The Division will ordinarily close guarantee transactions with minimal services from applicants' attorneys, except where real property pledges or other matters appropriate for private counsel are involved. Real property services required from an applicant's attorney may include: Title search, mortgage and other document preparation, execution and recording, escrow and disbursement, and a legal opinion and other assurances. An applicant's attorney's expense, and that of any other private contractor required, is for applicant's account. Attorneys and other contractors must be satisfactory to the Division. The Division will attempt to meet reasonable closing schedules, but will not be liable for adverse interest-rate fluctuations, loss of commitments, or other consequences of being unable to meet an applicant's and a prospective noteholder's closing schedule. These parties should work closely with the Division to ensure a closing schedule the Division can meet.

§ 253.16 Fees.

(a) Application fee. The Division will not accept an application without the application fee. Fifty percent of the application fee is fully earned at application acceptance, and is not refundable. The rest is fully earned when the Division issues an approval in principal letter, and it is refundable only if the Division declines an application or an applicant requests refund before the Division issues an approval in principal letter.

(b) Guarantee fee. Each guarantee fee will be due in advance and will be based on the guaranteed note's repayment provisions for the prospective year. The first annual guarantee fee is due at guarantee closing. Each subsequent one is due and payable on the guarantee closing's anniversary date. Each is fully earned when due, and shall not subsequently be refunded for any reason.

(c) Refinancing or assumption fee. This fee applies only to refinancing or assuming existing guaranteed notes. It is due upon application for refinancing or assuming a guaranteed note. It is fully earned when due and shall be non-refundable. The Division may waive a refinancing or assumption fee's payment when the refinancing or assumption's primary purpose is to protect the U.S.

(d) Where payable. Fees are payable by check made payable to "NMFS/FSFF." Other than those collected at application or closing, fees are payable by mailing checks to: U.S. Department of Commerce, National Oceanic and Atmospheric Administration, National Marine Fisheries Service, P.O. Box 73004, Chicago, Ill. 60673. To ensure proper crediting, each check must include the official case number the Division assigns to each guarantee.

§ 253.17 Demand and payment.

Every demand must be delivered in writing to the Division. Each must include the noteholder's certified record of the date and amount of each payment made on the guaranteed note and the manner of its application. Should the Division not acknowledge receipt of a timely demand, the noteholder must possess evidence of the demand's timely delivery.

§ 253.18 Program operating guidelines.

The Division may issue Program operating guidelines, as the need arises, governing national Program policy and administrative issues not addressed by these rules.

§ 253.19 Default and liquidation.

Upon default of the security documents, the Division shall take such remedial action (including, where appropriate, liquidation) as it deems best able to protect the U.S.' interest.
Subpart C—Interjurisdictional Fisheries

§ 253.20 Definitions.
The terms used in this subpart have the following meanings:

Adopt means to implement an interstate fishery management plan by State action or regulation.

Commercial fishery failure means a serious disruption of a fishery resource affecting present or future productivity due to natural or undetermined causes. It does not include either:

(1) The inability to harvest or sell raw fish or manufactured and processed fishery merchandise; or

(2) Compensation for economic loss suffered by any segment of the fishing industry as the result of a resource disaster.

Enforcement agreement means a written agreement, signed and dated, between a state agency and either the Secretary of the Interior or Secretary of Commerce, or both, to enforce Federal and state laws pertaining to the protection of interjurisdictional fishery resources.

Federal fishery management plan means a plan developed and approved under the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.).

Fisheries management means all activities concerned with conservation, restoration, enhancement, or utilization of fisheries resources, including research, data collection and analysis, monitoring, assessment, information dissemination, regulation, and enforcement.

Fishery resource means finfish, mollusks, and crustaceans, and any form of marine or Great Lakes animal or plant life, including habitat, other than marine mammals and birds.

Interjurisdictional fishery resource means:

(1) A fishery resource for which a fishery occurs in waters under the jurisdiction of one or more states and the U.S. Exclusive Economic Zone; or

(2) A fishery resource for which an interstate or a Federal fishery management plan exists; or

(3) A fishery resource which migrates between the waters under the jurisdiction of two or more States bordering on the Great Lakes.

Interstate Commission means a commission or other administrative body established by an interstate compact.

Interstate compact means a compact that has been entered into by two or more states, established for purposes of conserving and managing fishery resources throughout their range, and consented to and approved by Congress.

Interstate Fisheries Research Program means research conducted by two or more state agencies under a formal interstate agreement.

Interstate fishery management plan means a plan for managing a fishery resource developed and adopted by the member states of an Interstate Marine Fisheries Commission, and contains information regarding the status of the fishery resource and fisheries, and recommends actions to be taken by the States to conserve and manage the fishery resource.

Landed means the first point of off-loading fishery resources.

NMFS Regional Director means the Director of any one of the five National Marine Fisheries Service regions.

Project means an undertaking or a proposal for research in support of management of an interjurisdictional fishery resource or an interstate fishery management plan.

Research means work or investigative study, designed to acquire knowledge of fisheries resources and their habitat.

Secretary means the Secretary of Commerce or his/her designee.

State means each of the several states, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, Guam, or the Commonwealth of the Northern Mariana Islands.

State Agency means any department, agency, commission, or official of a state authorized under the laws of the State to regulate commercial fisheries or enforce laws relating to commercial fisheries.

Value means the monetary worth of fishery resources used in developing the apportionment formula, which is equal to the price paid at the first point of landing.
§ 253.21  
Volume means the weight of the fishery resource as landed, at the first point of landing.

§ 253.21 Apportionment.
(a) Apportionment formula. The amount of funds apportioned to each state is to be determined by the Secretary as the ratio which the equally weighted average of the volume and value of fishery resources harvested by domestic commercial fishermen and landed within such state during the 3 most recent calendar years for which data satisfactory to the Secretary are available bears to the total equally weighted average of the volume and value of all fishery resources harvested by domestic commercial fishermen and landed within all of the states during those calendar years.

(1) The equally weighted average value is determined by the following formula:

\[
\frac{\text{Volume of } X \text{ State}}{\text{Volume of all States}} = A \text{ percent} \\
\frac{\text{Value of } X \text{ State}}{\text{Value of all States}} = B \text{ percent} \\
\frac{[A\% + B\%]}{2} = \text{State percentage used to determine state’s share of the total available funds}
\]

(2) Upon appropriation of funds by Congress, the Secretary will take the following actions:
(i) Determine each state’s share according to the apportionment formula.
(ii) Certify the funds to the respective NMFS Regional Director.
(iii) Instruct NMFS Regional Directors to promptly notify states of funds’ availability.

(b) No state, under the apportionment formula in paragraph (a) of this section, that has a ratio of one-third of 1 percent or higher may receive an apportionment for any fiscal year that is more than 6 percent of the total amount of funds available for apportionment for such fiscal year.

(1) Is signatory to an interstate fishery compact;
(2) Has entered into an enforcement agreement with the Secretary and/or the Secretary of the Interior for a fishery that is managed under an interstate fishery management plan;
(3) Borders one or more of the Great Lakes;
(4) Has entered into an interstate cooperative fishery management agreement and has in effect an interstate fisheries management plan or an interstate fisheries research program; or
(5) Has adopted a Federal fishery management plan for an interjurisdictional fishery resource.

(d) Any state that has a ratio of less than one-third of 1 percent and meets any of the requirements set forth in paragraphs (c) (1) through (5) of this section may receive an apportionment for any fiscal year that is not less than 0.5 percent of the total amount of funds available for apportionment for such fiscal year.

(e) No state may receive an apportionment under this section for any fiscal year that is more than 6 percent of the total amount of funds available for apportionment for such fiscal year.

(f) Unused apportionments. Any part of an apportionment for any fiscal year to any state:
(1) That is not obligated during that year;
(2) With respect to which the state notifies the Secretary that it does not wish to receive that part; or
(3) That is returned to the Secretary by the state, may not be considered to be appropriated to that state and must be added to such funds as are appropriated for the next fiscal year. Any notification or return of funds by a state referred to in this section is irrevocable.

§ 253.22 State projects.
(a) General—(1) Designation of state agency. The Governor of each state shall notify the Secretary of which agency of the state government is authorized under its laws to regulate commercial fisheries and is, therefore, designated receive financial assistance awards. An official of such agency shall certify which official(s) is authorized
in accordance with state law to commit the state to participation under the Act, to sign project documents, and to receive payments.

(2) States that choose to submit proposals in any fiscal year must so notify the NMFS Regional Director before the end of the third quarter of that fiscal year.

(3) Any state may, through its state agency, submit to the NMFS Regional Director a completed NOAA Grants and Cooperative Agreement Application Package with its proposal for a project, which may be multiyear. Proposals must describe the full scope of work, specifications, and cost estimates for such project.

(4) States may submit a proposal for a project through, and request payment to be made to, an Interstate Fisheries Commission. Any payment so made shall be charged against the apportionment of the appropriate state(s). Submitting a project through one of the Commissions does not remove the matching funds requirement for any state, as provided in paragraph (c) of this section.

(b) Evaluation of projects. The Secretary, before approving any proposal for a project, will evaluate the proposal as to its applicability, in accordance with 16 U.S.C. 4104(a)(2).

(c) State matching requirements. The Federal share of the costs of any project conducted under this subpart, including a project submitted through an Interstate Commission, cannot exceed 75 percent of the total estimated cost of the project, unless:

(1) The state has adopted an interstate fishery management plan for the fishery resource to which the project applies; or

(2) The state has adopted fishery regulations that the Secretary has determined are consistent with any Federal fishery management plan for the species to which the project applies, in which case the Federal share cannot exceed 90 percent of the total estimated cost of the project.

(d) Financial assistance award. If the Secretary approves or disapproves a proposal for a project, he or she will promptly give written notification, including, if disapproved, a detailed explanation of the reason(s) for the disapproval.

(e) Restrictions. (1) The total cost of all items included for engineering, planning, inspection, and unforeseen contingencies in connection with any works to be constructed as part of such a proposed project shall not exceed 10 percent of the total cost of such works, and shall be paid by the state as a part of its contribution to the total cost of the project.

(2) The expenditure of funds under this subpart may be applied only to projects for which a proposal has been evaluated under paragraph (b) of this section and approved by the Secretary, except that up to $25,000 each fiscal year may be awarded to a state out of the state's regular apportionment to carry out an "enforcement agreement." An enforcement agreement does not require state matching funds.

(f) Prosecution of work. All work must be performed in accordance with applicable state laws or regulations, except when such laws or regulations are in conflict with Federal laws or regulations such that the Federal law or regulation prevails.

§ 253.23 Other funds.

(a) Funds for disaster assistance. (1) The Secretary shall retain sole authority in distributing any disaster assistance funds made available under section 308(b) of the Act. The Secretary may distribute these funds after he or she has made a thorough evaluation of the scientific information submitted, and has determined that a commercial fishery failure of a fishery resource arising from natural or undetermined causes has occurred. Funds may only be used to restore the resource affected by the disaster, and only by existing methods and technology. Any fishery resource used in computing the states' amount under the apportionment formula in §253.21(a) will qualify for funding under this section. The Federal share of the cost of any activity conducted under the disaster provision of the Act shall be limited to 75 percent of the total cost.
§ 253.24 Administrative requirements.

Federal assistance awards made as a result of this Act are subject to all Federal laws, Executive Orders, Office of Management and Budget Circulars as incorporated by the award; Department of Commerce and NOAA regulations; policies and procedures applicable to Federal financial assistance awards; and terms and conditions of the awards.

PART 259—CAPITAL CONSTRUCTION FUND

J O I N T T A X R E G U L A T I O N S

Sec.

259.1 Execution of agreements and deposits made in a Capital Construction Fund.

CAPITAL CONSTRUCTION FUND AGREEMENT

259.30 Application for Interim Capital Construction Fund Agreement ("Interim CCF Agreement").

259.31 Acquisition, construction, or reconstruction.

259.32 Conditional fisheries.

259.33 Constructive deposits and withdrawals; ratification of withdrawals (as qualified) made without first having obtained Secretary's consent; first tax year for which Interim CCF Agreement is effective.

259.34 Minimum and maximum deposits; maximum time to deposit.

259.35 Annual deposit and withdrawal reports required.

259.36 CCF accounts.

259.37 Conditional consents to withdrawal qualification.

259.38 Miscellaneous.

J O I N T T A X R E G U L A T I O N S

§ 259.1 Execution of agreements and deposits made in a Capital Construction Fund.

In the case of a taxable year of a taxpayer beginning after December 31, 1969, and before January 1, 1972, the rules governing the execution of agreements and deposits under such agreements shall be as follows:

(a) A capital construction fund agreement executed and entered into by the taxpayer on or prior to the due date, with extensions, for the filing of his Federal income tax return for such taxable year or years will be deemed to be effective on the date of the execution of such agreement or as of the close of business of the last regular business day of each such taxable year or years to which such deposit relates, whichever day is earlier.

(b) Notwithstanding the provisions of paragraph (a) of this section, where:

(1) For taxable years beginning after December 31, 1969, and prior to January 1, 1971, an application for a capital construction fund agreement is filed by a taxpayer prior to January 1, 1972, and a capital construction fund agreement is executed and entered into by the taxpayer prior to March 1, 1972, and

(2) For taxable years beginning after December 31, 1970, and prior to January 1, 1972, an application for a capital construction fund agreement is filed by a taxpayer prior to January 1, 1972, and a capital construction fund agreement is executed and entered into by the taxpayer prior to March 1, 1972, and

(3) For taxable years beginning after December 31, 1970, and prior to January 1, 1973, an application for a capital construction fund agreement is filed by a taxpayer prior to January 1, 1973, and a capital construction fund agreement is executed and entered into by the taxpayer prior to March 1, 1973 (or, if earlier, 60 days after the publication of final joint regulations under section 607 of the Merchant Marine Act, 1936, as amended); then such a capital construction fund agreement will be deemed to be effective as of the close of business of the last regular business day of each such taxable year or years to which such deposit relates.
§ 259.30 Application for Interim Capital Construction Fund Agreement ("Interim CCF Agreement").

(a) General qualifications. To be eligible to enter into an Interim CCF Agreement an applicant must:

1. Be a citizen of the United States (citizenship requirements are those for documenting vessels in the coastwise trade within the meaning of section 2 of the Shipping Act, 1916, as amended);

2. Own or lease one or more eligible vessels (as defined in section 607(k)(1) of the Act) operating in the foreign or domestic commerce of the United States.

3. Have an acceptable program for the acquisition, construction, or reconstruction of one or more qualified vessels (as defined in section 607(k)(2) of the Act). Qualified vessels must be for commercial operation in the fisheries of the United States. If the qualified vessel is 5 net tons or over, it must be documented in the fisheries of the United States. Dual documentation in both the fisheries and the coastwise trade of the United States is permissible. Any vessel which will carry fishing parties for hire must be inspected and certified (under 46 CFR part 176) by the U.S. Coast Guard as qualified to carry more than six passengers or demonstrate to the Secretary’s satisfaction that the carrying of fishing parties for hire will constitute its primary activity. The program must be a firm representation of the applicant’s actual intentions. Vague or contingent objectives will not be acceptable.

(b) Content of application. Applicants seeking an Interim CCF Agreement may make application by letter providing the following information:

1. Proof of U.S. citizenship;

2. The first taxable year for which the Interim CCF Agreement is to apply (see § 259.33 for the latest time at which applications for an Interim CCF Agreement relating to a previous taxable year may be received);

3. The following information regarding each “eligible vessel” which is to be incorporated in Schedule A of the Interim CCF Agreement for purposes of making deposits into a CCF pursuant to section 607 of the Act:

   i. Name of vessel,

   ii. Net吨age, 

   iii. Home port, 

   iv. Nature of business, 

   v. Fishing area, 

   vi. Vessel identification number, 

   vii. Vessel description, 

   viii. Owner or lessee's name, 

   ix. Address, 

   x. Telephone number, 

   xi. Certification of vessel.

   (c) Deposits made in a capital construction fund pursuant to such an agreement within 60 days after the date of execution of the agreement, or on or prior to the due date, with extensions, for the filing of his Federal income tax return for such taxable year or years, whichever date shall be later, shall be deemed to have been made on the date of the actual deposit or as of the close of business of the last regular business day of each such taxable year or years to which such deposit relates, whichever day is earlier.

(2) Notwithstanding paragraph (c)(1) of this section, for taxable years beginning after December 31, 1970, and ending prior to January 1, 1972, deposits made later than the last date permitted under paragraph (c)(1) of this section but on or before January 9, 1973, in a capital construction fund pursuant to an agreement with the Secretary of Commerce, acting by and through the Administrator of the National Oceanic and Atmospheric Administration, shall be deemed to have been made on the date of the actual deposit or as of the close of business of the last regular business day of such taxable year, whichever is earlier.

(d) Nothing in this section shall alter the rules and regulations governing the timing of deposits with respect to existing capital and special reserve funds or with respect to the treatment of deposits for any taxable year or years other than a taxable year or years beginning after December 31, 1969, and before January 1, 1972.1

1 The phrase “existing capital and special reserve funds” does not refer to the Capital Construction Fund program but rather to funds established with the Maritime Administration prior to the amendment of the Merchant Marine Act, 1936, which authorized the Capital Construction Fund program.
§ 259.31 Acquisition, construction, or reconstruction.

(a) Acquisition. No vessel having previously been operated in a fishery of the United States prior to its acquisition by the party seeking CCF withdrawal therefor shall be a qualified vessel for the purpose of acquisition, except in the cases specified in paragraphs (a)(1) and (2) of this section:

(1) A vessel not more than 5 years old, at the time of its acquisition by the party seeking CCF withdrawal therefor may be a qualified vessel for the purpose of acquisition, but only if each acquisition in this category becomes a Schedule A vessel and there must be submitted as soon as available, together with sufficient additional evidence to establish that full proceeds of the indebtedness to be paid from a CCF under an Interim CCF Agreement, were used solely for the purpose of the construction, acquisition, or reconstruction of Schedule B vessels.

(b) Construction. The specific objectives to be achieved by the accumulation of assets in a Capital Construction Fund (to be incorporated in Schedule B of the Interim CCF Agreement) including:

(i) Number of vessels,
(ii) Type of vessel (i.e., catching, processing, transporting, or passenger carrying fishing vessel),
(iii) General characteristics (i.e., net tonnage, fish-carrying capacity, age, length, type of fishing gear, number of passengers carried),
(iv) Cost of projects,
(v) Amount of indebtedness to be paid for vessels to be constructed, acquired, or reconstructed (all notes, mortgages, or other evidences of the indebtedness must be submitted as soon as available, together with sufficient additional evidence to establish that full proceeds of the indebtedness to be paid from a CCF under an Interim CCF Agreement, were used solely for the purpose of the construction, acquisition, or reconstruction of Schedule B vessels),
(vi) Date of construction, acquisition, or reconstruction,
(vii) Fishery of operation (which in this section means each species or group of species—each species must be specifically identified by acceptable common name—of fish, shellfish, or other living marine resources),
(viii) Area of operation (which in this section means the general geographic areas in which each vessel will operate for each species or group of species of fish, shellfish, or other living marine resources).

(c) Filing. The application must be signed and submitted in duplicate to the Regional Office of the National Marine Fisheries Service’s Financial Assistance Division corresponding to the region in which the party conducts its business. As a general rule, the Interim CCF Agreement must be executed and entered into by the taxpayer on or prior to the due date, with extensions, for the filing of the Federal tax return in order to be effective for the tax year to which that return relates. It is manifestly in the Applicant’s best interest to file at least 45 days in advance of such date.

exists for each acquisition in this category (on a one-for-one basis) an additional Schedule B construction or reconstruction. The sole consideration for permitting an acquisition in this category is that it will enable the party (but the Secretary will not attempt to predetermine such an ability) to accelerate accomplishment of the additional Schedule B construction or reconstruction. Should this consideration materially fail, the Secretary shall, at his discretion, disqualify previously qualified withdrawals in this category, seek liquidated damages as provided for in paragraph (a)(4) of this section and/or terminate the Interim CCF Agreement.

(2) A vessel more than 5 years old, but not more than 25 years old (special showing required if more than 25 years old, see paragraph (b) of this section), at the time of acquisition by the party seeking CCF withdrawal therefor may be a qualified vessel for the purpose of acquisition, but only if that same vessel becomes a Schedule A vessel and (in addition to being a Schedule B vessel for the purpose of its acquisition) becomes a Schedule B vessel for the purpose of that same vessel's reconstruction to be accomplished ordinarily within 7 years from the date of acquisition. The sole consideration for permitting an acquisition in this category is that it will enable the party (but the Secretary will not attempt to predetermine such an ability) to accelerate accomplishment of the Schedule B reconstruction of the vessel so acquired. Should this consideration materially fail, the same penalty prescribed in paragraph (a)(1) of this section applies.

(3) Reserved for minimum deposits under this section.

(4) Reserved for liquidated damages.

(b) Reconstruction. No reconstruction project costing less than $100,000 shall qualify a vessel for reconstruction, unless the reconstruction project costs, or will cost, 20 percent or more of the reconstructed vessel's acquisition cost (in its unreconstructed state) to the party seeking CCF withdrawal therefor. If the reconstruction project meets the $100,000 test, then the 20 percent test does not apply. Conversely, if the reconstruction project does not meet the $100,000 test, then the 20 percent test applies.

(1) Reconstruction may include rebuilding, replacing, reconditioning, converting and/or improving any portion of a vessel. A reconstruction project must, however, substantially prolong the useful life of the reconstructed vessel, increase its value, or adapt it to a different commercial use in the fishing trade or industry.

(2) All, or the major portion (ordinarily, not less than 80 percent), of a reconstruction project's actual cost (for the purpose of meeting the above dollar or percentage tests) being classifiable as a capital expenditure for Internal Revenue Service (IRS) purposes. That otherwise allowable (i.e., for the purpose of meeting the above dollar or percentage tests) portion of a reconstruction project's actual cost which is not classifiable as a capital expenditure shall, however, be excluded from the amount qualified for withdrawal as a result of the reconstruction project.

(3) No vessel more than 25 years old at the time of withdrawal or request for withdrawal shall be a qualified vessel for the purpose of reconstruction unless a special showing is made, to the Secretary's discretionary satisfaction, that the type and degree of reconstruction intended will result in an efficient and productive vessel with an economically useful life at least 10 years beyond the date reconstruction is completed.

(c) Time permitted for construction or reconstruction. Construction or reconstruction must be completed within 18 months from the date construction or reconstruction first commences, unless otherwise consented to by the Secretary.

(d) Energy saving improvements. An improvement made to a vessel to conserve energy shall, regardless of cost, be treated as a reconstruction for the purpose of qualifying a CCF withdrawal for such expenditure and shall be exempted from having to meet conditional fishery requirements for reconstruction as set forth in §259.32 and from all qualifying tests for reconstruction set forth in paragraph (b) of this section with the following exceptions:
§ 259.32  Conditional fisheries.

(a) The Secretary may from time-to-time establish certain fisheries in which CCF benefits will be restricted. The regulatory mechanism for so doing is part 251 of this chapter. Each fishery so restricted is termed a "conditional fishery". Subpart A of part 251 of this chapter establishes the procedure to be used by the Secretary in proposing and adopting a fishery as a conditional fishery. Subpart B of part 251 of this chapter enumerates each fishery actually adopted as a conditional fishery (part 251 of this chapter should be referred to for details). The purpose of this § 259.32 is to establish the effect of conditional fishery adoption upon Interim CCF Agreements.

(b) If a written request for an otherwise permissible action under an Interim CCF Agreement is submitted prior to the date upon which conditional fishery adoption occurs, then the Secretary will act, in an otherwise normal manner, upon so much of the action then applied for as is then permissible without regard to the subsequent adoption of a conditional fishery (even, if that adoption occurs before the Secretary gives his consent or issues an Interim CCF Agreement or amendment thereto, all as the case may be). Nevertheless, the conditions as set forth in paragraph (d) of this section shall apply.

(c) If a written request for an otherwise permissible action under an Interim CCF Agreement, or an application for an Interim CCF Agreement, is submitted after the date upon which conditional fishery adoption occurs, then the Secretary will act, in an otherwise normal manner, upon so much of the action then applied for as is then permissible without regard to the previous adoption of a conditional fishery.
provided, however, that this paragraph shall apply only to construction or reconstruction for which a binding contract has been reduced to writing prior to the date upon which conditional fishery adoption occurred. Nevertheless, the conditions as set forth in paragraph (d) of this section shall apply.

(d) Conditional fishery adoption shall have no effect whatsoever upon a Schedule B objective whose qualification for withdrawal (which may be in an amount equal to the total cost over time of a Schedule B objective, i.e., a series of withdrawals) has been, prior to the date of conditional fishery adoption, either consented to by the Secretary or requested in accordance with paragraph (b) or (c) of this section. This extends to past, present, and future withdrawals in an amount representing up to 100 percent of the cost of a Schedule B objective. Commencement of any project in these categories shall, however, be started not later than 6 months from the date of conditional fishery adoption and shall be completed within 24 months from the date of conditional fishery adoption, unless for good and sufficient cause shown the Secretary, at his discretion, consents to a longer period for either project commencement or completion. Consent to the qualification of withdrawal for any project in these categories not commenced or completed within the periods allowed shall be revoked at the end of the periods allowed.

(e) Conditional fishery adoption shall have no effect whatsoever upon Schedule B objectives which will not result in significantly increasing harvesting capacity in a fishery adopted as a conditional fishery.

(1) Construction of a new vessel (“Y”) for operation in an adopted conditional fishery shall be deemed to significantly increase harvesting capacity in that fishery unless the party causing the “Y” vessel to be constructed causes (within 1 year after the delivery of vessel “Y”) to be permanently removed from all fishing, or placed permanently in a fishery not then adopted as a conditional fishery, under such conditions as the Secretary may deem necessary or desirable, a vessel (vessel “Z”) which has during the previous 18 months operated substantially in the same fishery as the “Y” vessel and which has a fishing capacity substantially equivalent to the “Y” vessel. Failure to remove a vessel could subject all withdrawals to be treated as nongranted and may be cause for termination of the CCF. What constitutes substantially equivalent fishing capacity shall be a matter for the Secretary's discretion. Ordinarily, in exercising his discretion about what does or does not constitute substantially equivalent fishing capacity, the Secretary will take into consideration (i) the average size of vessels constructed for the adopted conditional fishery in question at the time vessel “Z” was constructed (or, if constructed for a different fishery, the average size of vessels in the adopted conditional fishery at the time vessel “Z” entered it), (ii) the average size of vessels constructed for the adopted conditional fishery at the time vessel “Y” was or will be constructed, and (iii) such other factors as the Secretary may deem material and equitable, including the length of time the party had owned or leased vessel “Z” and the length of time the vessel has operated in the conditional fishery. The Secretary will consider these factors, and exercise his discretion, in such a way as to encourage use of this program by established fishermen who have owned or leased for substantial periods vessels which need to be replaced, even though a “Z” vessel may have been constructed at a time which dictated a lesser fishing capacity than dictated for a “Y” vessel at the time of its construction.

(2) Acquisition and/or reconstruction of a used vessel for operation in an adopted conditional fishery shall be deemed to significantly increase harvesting capacity in that fishery unless the vessel to be acquired and/or reconstructed had during the previous 3 years operated substantially in the same fishery as the adopted conditional fishery in which it will operate after acquisition and/or reconstruction. If less than 3 years, then acquisition and/or reconstruction of a used vessel for operation in an adopted conditional fishery shall be deemed to significantly increase harvesting capacity in that
§ 259.32  

50 CFR Ch. II (10-1-99 Edition)

Fishery unless there occurs vessel removal or permanent placement elsewhere under the same conditions specified for construction in paragraph (e)(1) of this section.

(3) Construction of a new vessel or the acquisition and/or reconstruction of a used vessel for operation in an adopted conditional fishery shall not be deemed to significantly increase the harvesting capacity where the vessel constructed, acquired and/or reconstructed replaces another vessel which was lost or destroyed and which had, immediately prior to the loss or destruction, operated in the same fishery as the adopted conditional fishery, provided, however, that the fishing capacity of the replacement vessel has a fishing capacity substantially equivalent to the vessel lost or destroyed and that the construction, acquisition and/or reconstruction is completed within 2 years after the close of the taxable year in which the loss or destruction occurred. The Secretary may, at his discretion, and for good and sufficient cause shown, extend the replacement period, provided that the request for extension of time to replace is timely filed with the Secretary.

(f) Conditional fishery adoption shall have the following effect on all Schedule B objectives (whether for acquisition, construction, or reconstruction) which the Secretary deems to significantly increase harvesting capacity in that fishery, excluding those circumstances specifically exempted by paragraphs (b) through (e) of this section (which shall be governed by the provisions of paragraphs (b) through (e) of this section).

(1) The Secretary may nevertheless consent to the qualification of withdrawal, but only up to an amount not exceeding the total of eligible ceilings actually deposited during tax years other than the taxable year in which conditional fishery adoption occurs plus a pro-rata portion of eligible ceilings generated in the tax year in which conditional fishery adoption occurs. Pro-ration shall be according to the number of months or any part thereof in a party's tax year which elapse before the adoption of the conditional fishery occurs. For example, if a party's tax year runs from January 1, 1974, to December 31, 1974, and conditional fishery adoption occurs on August 15, 1974, (i.e., during the 8th month of the party's tax year), then the pro-rata portion for that year is eight-twelfths of the total eligible ceilings generated during that year.

(2) Qualified withdrawals in excess of the amount specified in paragraph (f)(1) of this section shall not, during the continuance of the adopted conditional fishery, be consented to. Parties at this point shall have the following option:

(i) Make, with the Secretary's consent, a nonqualified withdrawal of the excess and discontinue the future deposit of eligible ceilings (which may effect termination of the Interim CCF Agreement).

(ii) Reserve the excess, as well as the future deposit of eligible ceilings, for a Schedule B objective not then involving an adopted conditional fishery. If amendment of an Interim CCF Agreement is necessary in order to include a Schedule B objective not then involving an adopted conditional fishery, the party may, with the Secretary's consent, make the necessary amendment.

(iii) Reserve the excess, as well as the future deposit of eligible ceilings, for a Schedule B objective involving a then adopted conditional fishery in anticipation that the then adopted conditional fishery will eventually be disadopted, in which case all deposits of eligible ceilings will once again be eligible for the Secretary's consent as qualified withdrawals. If the adoption of a conditional fishery continues for a substantial length of time and there is no foreseeable prospect of disadoption, then the Secretary, in his discretion, may require paragraph (f)(2)(i) or (ii) of this section to be effected.

(g) The Secretary shall neither enter into a new Interim CCF Agreement, nor permit amendment of an existing one, which involves a Schedule B objective in a then adopted conditional fishery unless paragraph (b), (c) or (d) of this §259.32 applies or unless the Schedule B objective is expressly conditioned upon acquisition construction, or reconstruction of the type permitted under paragraph (e) of this §259.32. Such an express condition would not survive beyond the time at which conditional fishery status is removed.
§ 259.33 Constructive deposits and withdrawals; ratification of withdrawals (as qualified) made without first having obtained Secretary’s consent; first tax year for which Interim CCF Agreement is effective.

(a) Periods controlling permissibility. For the purpose of this §259.33, the period between the beginning and the end of a party’s tax year is designated “Period (aa)”; the period between the end of a party’s tax year and the party’s tax due date for that tax year is designated “Period (bb)”; the period between the party’s tax due date and the date on which ends the party’s last extension (if any) of that tax due date is designated “Period (cc)”.

(b) Constructive deposits and withdrawals (before Interim CCF Agreement effectiveness date). Constructive deposits and withdrawals shall be permissible only during the Period (aa) during which a written application for an Interim CCF Agreement is submitted to the Secretary and so much of the next succeeding Period (aa), if any, which occurs before the Secretary executes the Interim CCF Agreement previously applied for. All otherwise qualified expenditures of eligible ceilings during Period (aa) may be consented to by the Secretary as constructive deposits and withdrawals. Provided, The applicant’s application for an Interim CCF Agreement and for consent to constructive deposit and withdrawal qualification (together with sufficient supporting data to enable the Secretary’s execution or issuance of consent) is submitted to the Secretary either before the end of Period (aa) or, if extension was requested and received, before the end of Period (aa), if any, which occurs before the Secretary executes the Interim CCF Agreement previously applied for. All otherwise qualified expenditures of eligible ceilings during Period (aa) may be consented to by the Secretary as constructive deposits and withdrawals. Provided, The applicant’s application for an Interim CCF Agreement and for consent to constructive deposit and withdrawal qualification (together with sufficient supporting data to enable the Secretary’s execution or issuance of consent) is submitted to the Secretary either before the end of Period (aa) or, if extension was requested and received, before the end of Period (aa). If, however, the Secretary receives the request in proper form so close to the latest permissible period that the Interim CCF Agreement cannot be executed and/or the consent given before the end of Period (aa) or Period (cc), whichever applies, then the burden is entirely upon the party to negotiate with the Internal Revenue Service (IRS) for such relief as may be available (e.g., filing an amended tax return, if appropriate). The Secretary will nevertheless issue his consent however long past the party’s Period (bb) or Period (cc), whichever applies, the Secretary’s administrative workload requires. Should IRS relief be, for any reason, unavailable, the Secretary shall regard the same as merely due to the party’s having failed to apply in a more timely fashion.

(c) Constructive deposits (after Interim CCF Agreement effectiveness date). The Secretary shall not permit constructive deposits or withdrawals after the effective date of an Interim CCF Agreement. Eligible ceilings must, after the effective date of an interim CCF Agreement, be physically deposited in money or kind in scheduled depositories before the last date eligible ceilings for any Period (aa) of any party become ineligible for deposit (the last date being Period (bb) or Period (cc), whichever applies).

(d) Ratification of withdrawals (as qualified) made without first having obtained Secretary’s consent. The Secretary may ratify as qualified any withdrawal made without first having obtained the Secretary’s consent therefor, provided the withdrawal was such as would have resulted in the Secretary’s consent had it been requested before withdrawal, and provided further that the party’s request for consent (together with sufficient supporting data to enable issuance of the Secretary’s consent) is submitted to the Secretary either before the end of Period (bb) or, if extension was requested and received, before the end of Period (cc). If, however, the Secretary receives the request in proper form so close to the latest permissible period that the Interim CCF Agreement cannot be executed and/or the consent given before the end of Period (bb) or Period (cc), whichever applies, then the burden is entirely upon the party to negotiate with the Internal Revenue Service (IRS) for such relief as may be available (e.g., filing an amended tax return, if appropriate). The Secretary will nevertheless issue his consent however long past the party’s Period (bb) or Period (cc), whichever applies, the Secretary’s administrative workload requires. Should IRS relief be, for any reason, unavailable, the Secretary shall regard the same as merely due to the party’s having failed to apply in a more timely fashion.
(2) All parties shall be counseled that it is manifestly in their best interest to request the Secretary's consent 45 days in advance of the expected date of withdrawal. Withdrawals made without the Secretary's consent, in reliance on obtaining the Secretary's consent, are made purely at a party's own risk. Should any withdrawal made without the Secretary's consent prove, for any reason, to be one to which the Secretary will not or cannot consent by ratification, then the result will be either, at the Secretary's discretion, an unqualified withdrawal or an involuntary termination of the Interim CCF Agreement.

(3) Should the withdrawal made without having first obtained the Secretary's consent be made in pursuance of a project not then an eligible Schedule B objective, then the Secretary may entertain an application to amend the Interim CCF Agreement's Schedule B objectives as the prerequisite to consenting to the withdrawal, all under the same time constraints and conditions as otherwise specified herein.

(4) Any withdrawals made, after the effective date of an Interim CCF Agreement, without the Secretary's consent are automatically non-qualified withdrawals unless the Secretary subsequently consents to them by ratification as otherwise specified herein.

(5) Redeposit of that portion of the ceiling withdrawn without the Secretary's consent, and for which such consent is not subsequently given (either by ratification or otherwise), shall not be permitted. If such a non-qualified withdrawal adversely affects the Interim CCF Agreement's general status in any wise deemed by the Secretary, at his discretion, to be significant and material, the Secretary may involuntarily terminate the Interim CCF Agreement.

(e) First tax year for which Interim CCF Agreement is effective. An Agreement, to be effective for any party's Period (aa), must be executed and entered into by the party, and submitted to the Secretary, before the end of Period (bb) or Period (cc), whichever applies, for such Period (aa). If executed and entered into by the party, and/or received by the Secretary, after the end of Period (bb) or Period (cc), whichever applies, then the Agreement will be first effective for the next succeeding Period (aa).

(1) If, however, the Secretary receives an Agreement executed and entered into by the party in proper form so close to the latest permissible period that the Secretary cannot execute the Agreement before expiration of Period (bb) or Period (cc), whichever applies, then the burden is entirely upon the party to negotiate with IRS for such relief as may be available (e.g., filing an amended tax return, if appropriate). The Secretary will nevertheless execute the Agreement however long past the party's Period (bb) or Period (cc), whichever applies, the Secretary's administrative workload requires. Should IRS relief be, for any reason, unavailable, the Secretary shall regard the same as merely due to the party's having failed to apply in a more timely manner.

(2) All parties shall be counseled that it is manifestly in their best interest to enter into and execute an Agreement, and submit the same to the Secretary, at least 45 days in advance of the party's Period (bb) or Period (cc), whichever applies, for the Period (aa) for which the Agreement is first intended to be effective.

§ 259.34 Minimum and maximum deposits; maximum time to deposit.

(a) Minimum annual deposit. The minimum annual (based on each party's taxable year) deposit required by the Secretary in order to maintain an Interim CCF Agreement shall be an amount equal to 2 percent of the total anticipated cost of all Schedule B objectives unless such 2 percent exceeds during any tax year 50 percent of a party's Schedule A taxable income, in which case the minimum deposit for that year shall be 50 percent of the party's Schedule A taxable income.

(1) Minimum annual deposit compliance shall be audited at the end of each party's taxable year unless any one or more of the Schedule B objectives is scheduled for commencement more than 3 taxable years in advance of the taxable year in which the agreement is
effected, in which case minimum annual deposit compliance shall be audited at the end of each 3 year taxable period. In any taxable year, a Party may apply any eligible amount in excess of the 2 percent minimum annual deposit toward meeting the party’s minimum annual deposit requirement in past or future years: Provided, however, At the end of each 3 year period, the aggregate amount in the fund must be in compliance with 2 percent minimum annual deposit rule (unless the 50 percent of taxable income situation applies).

(2) The Secretary may, at his discretion and for good and sufficient cause shown, consent to minimum annual deposits in any given tax year or combination of tax years in an amount lower than prescribed herein: Provided, the party demonstrates to the Secretary’s satisfaction the availability of sufficient funds from any combination of sources to accomplish Schedule B objectives at the time they are scheduled for accomplishment.

(b) Maximum deposits. Other than the maximum annual ceilings established by the Act, the Secretary shall not establish a maximum annual ceiling: Provided, however, That deposits can no longer be made once a party has deposited 100 percent of the anticipated cost of all Schedule B objectives, unless the Interim CCF Agreement is then amended to establish additional Schedule B objectives.

(c) Maximum time to deposit. Ten years shall ordinarily be the maximum time the Secretary shall permit in which to accumulate deposits prior to commencement of any given Schedule B objective. A time longer than 10 years, either by original scheduling or by subsequent extension through amendment, may, however, be permitted at the Secretary’s discretion and for good and sufficient cause shown.

§ 259.35 Annual deposit and withdrawal reports required.

(a) The Secretary will require from each Interim CCF Agreement holder (Party) the following annual deposit and withdrawal reports. Failure to submit such reports may be cause for involuntary termination of CCF Agreements.

(1) A preliminary deposit and withdrawal report at the end of each calendar year, which must be submitted not later than 45 days after the close of the calendar year. The report must give the amounts withdrawn from and deposited into the party’s CCF during the subject year, and be in letter form showing the agreement holder’s name, FVCCF identification number, and taxpayer identification number. Each report must bear certification that the deposit and withdrawal information given includes all deposit and withdrawal activity for the year and the account reported. Negative reports must be submitted in those cases where there is no deposit and/or withdrawal activity. If the party’s tax year is the same as the calendar year, and if the final deposit and withdrawal report required under paragraph (a)(2) of this section is submitted before the due date for this preliminary report, then this report is not required.

(2) A final deposit and withdrawal report at the end of the tax year, which shall be submitted not later than 30 days after expiration of the due date, with extensions (if any), for filing the party’s Federal income tax return. The report must be made on a form prescribed by the Secretary using a separate form for each FVCCF depository. Each report must bear certification that the deposit and withdrawal information given includes all deposit and withdrawal activity for the year and account reported. Negative reports must be submitted in those cases where there is no deposit and/or withdrawal activity.

(b) Failure to submit the required annual deposit and withdrawal reports shall be cause after due notice for either, or both, disqualification of withdrawals or involuntary termination of the Interim CCF Agreement, at the Secretary’s discretion.

(c) Additionally, the Secretary shall require from each Interim CCF Agreement holder, not later than 30 days after expiration of the party’s tax due date, with extensions (if any), a copy of the party’s Federal Income Tax Return filed with IRS for the preceding tax year. Failure to submit shall after due notice be cause for the same adverse
§ 259.36 CCF accounts.

(a) General: Each CCF account in each scheduled depository shall have an account number, which must be reflected on the reports required by § 259.35. All CCF accounts shall be reserved only for CCF transactions. There shall be no intermingling of CCF and non-CCF transactions and there shall be no pooling of 2 or more CCF accounts without prior consent of the Secretary. Safe deposit boxes, safes, or the like shall not be eligible CCF depositories without the Secretary's consent and then only under such conditions as the Secretary, in his discretion, prescribes.

(b) Assignment: The use of Fund assets for transactions in the nature of a countervailing balance, compensating balance, pledge, assignment, or similar security arrangement shall constitute a material breach of the Agreement unless prior written consent of the Secretary is obtained.

(c) Depositories: (1) Section 607(c) of the Act provides that amounts in a CCF must be kept in the depository or depositories specified in the Agreement and be subject to such trustee or other fiduciary requirements as the Secretary may specify.

(2) Unless otherwise specified in the Agreement, the party may select the type or types of accounts in which the assets of the Fund may be deposited.

(3) Non-cash deposits or investments of the Fund should be placed in control of a trustee under the following conditions:

(i) The trustee should be specified in the Agreement;

(ii) The trust instrument should provide that all investment restrictions stated in section 607(c) of the Act will be observed;

(iii) The trust instrument should provide that the trustee will give consideration to the party's withdrawal requirements under the Agreement when investing the Fund;

(iv) The trustee must agree to be bound by all rules and regulations which have been or will be promulgated governing the investment or management of the Fund.

§ 259.37 Conditional consents to withdrawal qualification.

The Secretary may conditionally consent to the qualification of withdrawal, such consent being conditional upon the timely submission to the Secretary of such further proofs, assurances, and advice as the Secretary, in his discretion, may require. Failure of a party to comply with the conditions of such a consent within a reasonable time and after due notice shall, at the Secretary's discretion, be cause for either, or both, nonqualification of withdrawal or involuntary Interim CCF Agreement termination.

§ 259.38 Miscellaneous.

(a) Wherever the Secretary prescribes time constraints herein for the submission of any CCF transactions, the postmark date shall control if mailed or, if personally delivered, the actual date of submission. All required materials may be submitted to any Financial Assistance Division office of the National Marine Fisheries Service.

(b) All CCF information received by the Secretary shall be held strictly confidential, except that it may be published or disclosed in statistical form provided such publication does not disclose, directly or indirectly, the identity of any fundholder.

(c) While recognizing that precise regulations are necessary in order to treat similarly situated parties similarly, the Secretary also realizes that precision in regulations can often cause inequitable effects to result from unavoidable, unintended, or minor discrepancies between the regulations and the circumstances they attempt to govern. The Secretary will, consequently, at his discretion, as a matter of privilege and not as a matter of right, attempt to afford relief to parties where literal application of the purely procedural, as opposed to substantive, aspects of these regulations would otherwise work an inequitable hardship. This privilege will be sparingly granted and no party should before the fact attempt to act in reliance on its being granted after the fact.
(d) These §§ 259.30 through 259.38 are applicable absolutely to all Interim CCF Agreements first entered into (or the amendment of all then existing Interim CCF Agreements, which amendment is first entered into) on or after the date these §§ 259.30 through 259.38 are adopted. These §§ 259.30 through 259.38 are applicable to all Interim CCF Agreements entered into before the date these §§ 259.30 through 259.38 are adopted, with the following exceptions only:

(1) The vessel age limitations imposed by § 259.31 shall not apply to already scheduled Schedule B objectives.

(2) The minimum deposits imposed by § 259.34 shall not apply to any party's tax year before that party's tax year next following the one in which these §§ 259.30 through 259.38 are adopted.

(e) These §§ 259.30 through 259.38 are specifically incorporated in all past, present, and future Interim CCF Agreements by reference thereto made in Whereas Clause number 2 of all such Interim CCF Agreements.
SUBCHAPTER G—PROCESSED FISHERY PRODUCTS, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

PART 260—INSPECTION AND CERTIFICATION

Subpart A—Inspection and Certification of Establishments and Fishery Products for Human Consumption

Sec. 260.1 Administration of regulations.

DEFINITIONS

260.6 Terms defined.
260.7 Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.

INSPECTION SERVICE

260.12 Where inspection service is offered.
260.13 Who may obtain inspection service.
260.14 How to make application.
260.15 Information required in connection with application.
260.16 Filing of application.
260.17 Record of filing time.
260.18 When application may be rejected.
260.19 When application may be withdrawn.
260.20 Disposition of inspected sample.
260.21 Basis of inspection and grade or compliance determination.
260.22 Order of inspection service.
260.23 Postponing inspection service.
260.24 Financial interest of inspector.
260.25 Forms of certificates.
260.26 Issuance of certificates.
260.27 Issuance of corrected certificates.
260.28 Issuance of an inspection report in lieu of an inspection certificate.
260.29 Disposition of inspection certificates.
260.30 Report of inspection results prior to issuance of formal report.

APPEAL INSPECTION

260.36 When appeal inspection may be requested.
260.37 Where to file for an appeal inspection and information required.
260.38 When an application for an appeal inspection may be withdrawn.
260.39 When appeal inspection may be refused.
260.40 Who shall perform appeal inspection.
260.41 Appeal inspection certificate.

LICENSES OF SAMPLERS AND INSPECTORS

260.47 Who may become licensed sampler.
260.48 Application to become a licensed sampler.
260.49 Inspectors.
260.50 Suspension or revocation of license of licensed sampler or licensed inspector.
260.51 Surrender of license.

SAMPLING

260.57 How samples are drawn by inspectors or licensed samplers.
260.58 Accessibility for sampling.
260.59 How officially drawn samples are to be identified.
260.60 How samples are to be shipped.
260.61 Sampling plans and procedures for determining lot compliance.
260.62 Issuance of certificate of sampling.
260.63 Identification of lots sampled.

FEES AND CHARGES

260.69 Payment fees and charges.
260.70 Schedule of fees.
260.71 [Reserved]
260.72 Fees for inspection service performed under cooperative agreement.
260.73 Disposition of fees for inspections made under cooperative agreement.
260.74 Fee for appeal inspection.
260.76 [Reserved]
260.77 Fees for score sheets.
260.78 Fees for additional copies of inspection certificates.
260.79 Travel and other expenses.
260.80 Charges for inspection service on a contract basis.
260.81 Readjustment and increase in hourly rates of fees.

MISCELLANEOUS

260.84 Policies and procedures.
260.86 Approved identification.
260.88 Political activity.
260.90 Compliance with other laws.
260.91 Identification.
260.93 Debarment and suspension.

REQUIREMENTS FOR PLANTS OPERATING UNDER CONTINUOUS INSPECTION ON A CONTRACT BASIS

260.96 Application for fishery products inspection service on a contract basis at official establishments.
260.97 Conditions for providing fishery products inspection service at official establishments.
260.98 Premises.
260.99 Buildings and structures.
260.100 Facilities.
260.101 Lavatory accommodations.
260.102 Equipment.
Operations and operating procedures shall be in accordance with an effective sanitation program.

Personnel.

LABELING REQUIREMENTS

All functions of the Department of Agriculture which pertain to fish, shellfish, and any products thereof, now performed under the authority of title II of the Act of August 14, 1946, popularly known as the Agricultural Marketing Act of 1946, as amended, 7 U.S.C. 1621 et seq., and 1624, Reorganization Plan No. 4 of 1970 (84 Stat. 2090), including but not limited to the development and promulgation of grade standards, the inspection and certification, and improvement of transportation facilities and rates for fish and shellfish and any products thereof, were transferred to the Department of the Interior by the Director of the Budget (23 FR 2304) pursuant to section 6(a) of the Act of Aug. 8, 1956, popularly known as the Fish and Wildlife Act of 1956 (84 Stat. 1087 et seq.), as amended; 7 U.S.C. 1621 et seq.).

Operations and operating procedures shall be in accordance with an effective sanitation program.

Personnel.

DEFINITIONS

Words in the regulations in this part in the singular form shall be deemed to import the plural and vice versa, as the case may demand. For the purposes of the regulations in this part, unless the context otherwise requires, the following terms shall have the following meanings:

Acceptance number. "Acceptance number" means the number in a sampling plan that indicates the maximum number of deviants permitted in a sample of a lot that meets a specific requirement.

Applicant. "Applicant" means any interested party who requests inspection service under the regulations in this part.

Case. "Case" means the number of containers (cased or uncased) which, by the particular industry are ordinarily packed in a shipping container.

Certificate of loading. "Certificate of loading" means a statement, either written or printed, issued pursuant to the regulations in this part, relative to check-loading of a processed product subsequent to inspection thereof.

Certificate of sampling. "Certificate of sampling" means a statement, either written or printed issued pursuant to the regulations in this part, identifying officially drawn samples and may include a description of condition of containers and the condition under which the processed product is stored.

Class. "Class" means a grade or rank of quality.

Condition. "Condition" means the degree of soundness of the product which may affect its merchantability and includes, but is not limited to those factors which are subject to change as a result of age, improper preparation and processing, improper packaging, improper storage, or improper handling.

Department. "Department" means the U.S. Department of Commerce.

Deviant. "Deviant" means a sample unit affected by one or more deviations or a sample unit that varies in a specifically defined manner from the requirements of a standard, specification, or other inspection document.

Deviation. "Deviation" means any specifically defined variation from a particular requirement.

Director. "Director" means the Director of the National Marine Fisheries Service.

260.6 Terms defined.

[36 FR 21037, Nov. 3, 1971]
§ 260.6  

Establishment. “Establishment” means any premises, buildings, structures, facilities, and equipment (including vehicles) used in the processing, handling, transporting, and storage of fish and fishery products.

Inspection certificate. “Inspection certificate” means a statement, either written or printed, issued pursuant to the regulations in this part, setting forth in addition to appropriate descriptive information relative to a processed product, and the container thereof, the quality and condition, or any part thereof, of the product and may include a description of the conditions under which the product is stored.

Inspection service. “Inspection service” means:

(1) The sampling pursuant to the regulations in this part;

(2) The determination pursuant to the regulations in this part of:

(i) Essential characteristics such as style, type, size, or identity of any processed product which differentiates between major groups of the same kind;

(ii) The class, quality, and condition of any processed product, including the condition of the container thereof by the examination of appropriate samples;

(3) The issuance of any certificate of sampling, inspection certificates, or certificates of loading of a processed product, or any report relative to any of the foregoing; or

(4) Performance by an inspector of any related services such as to observe the preparation of the product from its raw state through each step in the entire process; or observe conditions under which the product is being harvested, prepared, handled, stored, processed, packed, preserved, transported, or held; or observe sanitation as a prerequisite to the inspection of the processed product, either on a contract basis or periodic basis; or checkload the inspected processed product in connection with the marketing of the product, or any other type of service of a consultative or advisory nature related herewith.

Inspector. “Inspector” means any employee of the Department authorized by the Secretary to investigate, sample, inspect, and certify in accordance with the regulations in this part to any interested party the class, quality and condition of processed products covered in this part and to perform related duties in connection with the inspection service.

Interested party. “Interested party” means any person who has a financial interest in the commodity involved.

Licensed sampler. “Licensed sampler” means any person who is authorized by the Secretary to draw samples of processed products for inspection service, to inspect for identification and condition of containers in a lot, and may, when authorized by the Secretary, perform related services under the act and the regulations in this part.

Lot. “Lot” has the following meanings:

(1) For the purpose of charging fees and issuing certificates, “Lot” means any number of containers of the same size and type which contain a processed product of the same type and style located in the same or adjacent warehouses and which are available for inspection at any one time: Provided, That:

(i) Processed products in separate piles which differ from each other as to grade or other factors may be deemed to be separate lots;

(ii) Containers in a pile bearing an identification mark different from other containers of such processed product in that pile, if determined to be of lower grade or deficient in other factors, may be deemed to be a separate lot; and

(iii) If the applicant requests more than one inspection certificate covering different portions of such processed product, the quantity of the product covered by each certificate shall be deemed to be a separate lot.

(2) For the purpose of sampling and determining the grade or compliance with a specification, “Lot” means each pile of containers of the same size and type containing a processed product of the same type and style which is separated from other piles in the same warehouse, but containers in the same pile bearing an identification mark different from other containers in that
Sample. “Sample” means any number of sample units to be used for inspection.

Sample unit. “Sample unit” means a container and/or its entire contents, a portion of the contents of a container or other unit of commodity, or a composite mixture of a product to be used for inspection.

Sampling. “Sampling” means the act of selecting samples of processed products for the purpose of inspection under the regulations in this part.

Secretary. “Secretary” means the Secretary of the Department or any other officer or employee of the Department authorized to exercise the powers and to perform the duties of the Secretary in respect to the matters covered by the regulations in this part.

Wholesome. “Wholesome” means the minimum basis of acceptability for human food purposes, of any fish or fishery product as defined in section 402 of the Federal Food, Drug, and Cosmetic Act, as amended.

Subsection 203(h) of the Agricultural Marketing Act of 1946 provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks or other identifications, and devices for purposes of the Agricultural Marketing Act.
§ 260.12

Official certificate. "Official certificate" means any form of certification, either written or printed, including those defined in § 260.6, used under this part to certify with respect to the inspection, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).

Official device. "Official device" means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Director for the purpose of applying any official mark or other identification to any product or the packaging material thereof.

Official identification. "Official identification" means any United States (U.S.) standard designation of class, grade, quality, size, quantity, or condition specified in this part or any symbol, stamp, label, or seal indicating that the product has been graded or inspected and/or indicating the class, grade, quality, size, quantity, or condition of the product approved by the Director and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product.

Official mark. "Official mark" means the grade mark, inspection mark, combined form of inspection and grade mark, and any other mark, or any variations in such marks, including those prescribed in § 260.86, approved by the Secretary and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded or inspected or both, or indicating the appropriate U.S. Grade or condition of the product, or for the purpose of maintaining the identity of products graded or inspected or both under this part.

Official memorandum. "Official memorandum" means any initial record of findings made by an authorized person in the process of grading, inspecting, or sampling pursuant to this part, any processing or plant-operation report made by an authorized person in connection with grading, inspecting, or sampling under this part, and any report made by an authorized person of services performed pursuant to this part.

§ 260.13

Who may obtain inspection service.

An application for inspection service may be made by any interested party, including, but not limited to, the United States and any instrumentality or agency thereof, any State, county, municipality, or common carrier, and any authorized agent in behalf of the foregoing.

§ 260.14

How to make application.

An application for inspection service may be made to the officer of inspection or to any inspector, at or nearest the place where the service is desired. An up-to-date list of the Inspection Field Offices of the Department may be obtained upon request to the Director. Satisfactory proof that the applicant is an interested party shall be furnished.

§ 260.15

Information required in connection with application.

Application for inspection service shall be made in the English language and may be made orally (in person or by telephone), in writing, or by telegraph. If an application for inspection service is made orally, such application shall be confirmed promptly in writing. In connection with each application for inspection service, there shall be furnished such information as may be necessary to perform an inspection on the processed product for which application for inspection is made, including but not limited to, the name of the product, name and address of the packer or plant where such product was packed, the location of the product, its lot or car number, codes or other identification marks, the number of containers, the type and size of the containers, the interest of the applicant in the product, whether the lot has been inspected previously to the application by any Federal agency and the purpose for which inspection is desired.
§ 260.16 Filing of application.
An application for inspection service shall be regarded as filed only when made in accordance with the regulations in this part.

§ 260.17 Record of filing time.
A record showing the date and hour when each application for inspection or for an appeal inspection is received shall be maintained.

§ 260.18 When application may be rejected.
An application for inspection service may be rejected by the Secretary (a) for noncompliance by the applicant with the regulations in this part, (b) for nonpayment for previous inspection services rendered, (c) when the product is not properly identifiable by code or other marks, or (d) when it appears that to perform the inspection service would not be to the best interests of the Government. Such applicant shall be promptly notified of the reason for such rejection.

§ 260.19 When application may be withdrawn.
An application for inspection service may be withdrawn by the applicant at any time before the inspection is performed: Provided, That, the applicant shall pay at the hourly rate prescribed in § 260.70 for the time incurred by the inspector in connection with such application, any travel expenses, telephone, telegraph or other expenses which have been incurred by the inspection service in connection with such application.

§ 260.20 Disposition of inspected sample.
Any sample of a processed product that has been used for inspection may be returned to the applicant, at his request and expense; otherwise it shall be destroyed, or disposed of to a charitable institution.

§ 260.21 Basis of inspection and grade or compliance determination.
(a) Inspection service shall be performed on the basis of the appropriate U.S. standards for grades of processed products, Federal, Military, Veterans Administration or other government agency specifications, written contract specification, or any written specification or instruction which is approved by the Secretary.

(b) Unless otherwise approved by the Director compliance with such grade standards, specifications, or instructions shall be determined by evaluating the product, or sample, in accordance with the requirements of such standards, specifications, or instructions: Provided, That when inspection for quality is based on any U.S. grade standard which contains a scoring system the grade to be assigned to a lot is the grade indicated by the average of the total scores of the sample units:

(1) Such sample complies with the applicable standards of quality promulgated under the Federal Food, Drug, and Cosmetic Act;

(2) Such sample complies with the product description;

(3) Such sample meets the indicated grade with respect to factors of quality which are not rated by score points; and

(4) With respect to those factors of quality which are rated by score points, each of the following requirements is met:

(i) None of the sample units falls more than one grade below the indicated grade because of any quality factor to which a limiting rule applies;

(ii) None of the sample units falls more than 4 score points below the minimum total score for the indicated grade; and

(iii) The number of sample units classed as deviants does not exceed the applicable acceptance number indicated in the sampling plans contained in § 260.61. A “deviant,” as used in this paragraph, means a sample unit that falls into the next grade below the indicated grade but does not score more than 4 points below the minimum total score for the indicated grade.

(5) If any of the provisions contained in paragraphs (b)(3) and (4) of this section are not met the grade is determined by considering such provisions in connection with succeedingly lower grades.
§ 260.22 Order of inspection service.

Inspection service shall be performed, insofar as practicable, in the order in which applications therefor are made except that precedence may be given to any such applications which are made by the United States (including, but not being limited to, any instrumentality or agency thereof) and to any application for an appeal inspection.

§ 260.23 Postponing inspection service.

If the inspector determines that it is not possible to accurately ascertain the quality or condition of a processed product immediately after processing because the product has not reached equilibrium in color, or drained weight, or for any other substantial reason, he may postpone inspection service for such period as may be necessary.

§ 260.24 Financial interest of inspector.

No inspector shall inspect any processed product in which he is directly or indirectly financially interested.

§ 260.25 Forms of certificates.

Inspection certificates, certificates of sampling or loading, and other memoranda concerning inspection service shall be issued on forms approved by the Secretary.

§ 260.26 Issuance of certificates.

(a) An inspection certificate may be issued only by an inspector: Provided, That, another employee of the inspection service may sign any such certificate covering any processed product inspected by an inspector when given power of attorney by such inspector and authorized by the Secretary, to affix the inspector's signature to a certificate of loading which has been prepared in accordance with the facts set forth in the notes made by the inspector or licensed sampler in connection with the checking of a specific lot of processed products.

§ 260.27 Issuance of corrected certificates.

A corrected inspection certificate may be issued by the inspector who issued the original certificate after distribution of a certificate if errors, such as incorrect dates, code marks, grade statements, lot or car numbers, container sizes, net or drained weights, quantities, or errors in any other pertinent information require the issuance of a corrected certificate. Whenever a corrected certificate is issued, such certificate shall supersede the inspection certificate which was issued in error and the superseded certificate shall become null and void after the issuance of the corrected certificate.

§ 260.28 Issuance of an inspection report in lieu of an inspection certificate.

A letter report in lieu of an inspection certificate may be issued by an inspector when such action appears to be more suitable than an inspection certificate: Provided, That, the issuance of such report is approved by the Secretary.

§ 260.29 Disposition of inspection certificates.

The original of any inspection certificate, issued under the regulations in this part, and not to exceed four copies thereof, if requested prior to issuance, shall be delivered or mailed promptly to the applicant, or person designated by the applicant. All other copies shall
be filed in such manner as the Secretary may designate. Additional copies of any such certificates may be supplied to any interested party as provided in §260.78.

§260.30 Report of inspection results prior to issuance of formal report.

Upon request of any interested party, the results of an inspection may be telegraphed or telephoned to him, or to any other person designated by him, at his expense.

Appeal Inspection

§260.36 When appeal inspection may be requested.

An application for an appeal inspection may be made by any interested party who is dissatisfied with the results of an inspection as stated in an inspection certificate, if the lot of processed products can be positively identified by the inspection service as the lot from which officially drawn samples were previously inspected. Such application shall be made within thirty (30) days following the day on which the previous inspection was performed, except upon approval by the Secretary the time within which an application for appeal inspection may be made, may be extended.

§260.37 Where to file for an appeal inspection and information required.

(a) Application for an appeal inspection may be filed with:

1. The inspector who issued the inspection certificate on which the appeal covering the processed product is requested; or
2. The inspector in charge of the office of inspection at or nearest the place where the processed product is located.

(b) The application for appeal inspection shall state the location of the lot of processed products and the reasons for the appeal; and date and serial number of the certificate covering inspection of the processed product on which the appeal is requested, and such application may be accompanied by a copy of the previous inspection certificate and any other information that may facilitate inspection. Such application may be made orally (in person or by telephone), in writing, or by telegraph. If made orally, written confirmation shall be made promptly.

§260.38 When an application for an appeal inspection may be withdrawn.

An application for appeal inspection may be withdrawn by the applicant at any time before the appeal inspection is performed: Provided, That the applicant shall pay at the hourly rate prescribed in §260.70, for the time incurred by the inspector in connection with such application, any travel expenses, telephone, telegraph, or other expenses which have been incurred by the inspection service in connection with such application.

§260.39 When appeal inspection may be refused.

An application for an appeal inspection may be refused if:

(a) The reasons for the appeal inspection are frivolous or not substantial;
(b) The quality or condition of the processed product has undergone a material change since the inspection covering the processed product on which the appeal inspection is requested;
(c) The lot in question is not, or cannot be made accessible for the selection of officially drawn samples;
(d) The lot relative to which appeal inspection is requested cannot be positively identified by the inspector as the lot from which officially drawn samples were previously inspected; or
(e) There is noncompliance with the regulations in this part. Such applicant shall be notified promptly of the reason for such refusal.

§260.40 Who shall perform appeal inspection.

An appeal inspection shall be performed by an inspector or inspectors (other than the one from whose inspection the appeal is requested) authorized for this purpose by the Secretary and, whenever practical, such appeal inspection shall be conducted jointly by two such inspectors: Provided, That the inspector who made the inspection on which the appeal is requested may be authorized to draw the samples when
§ 260.41 Another inspector or licensed sampler is not available in the area where the product is located.

§ 260.41 Appeal inspection certificate.

After an appeal inspection has been completed, an appeal inspection certificate shall be issued showing the results of such appeal inspection; and such certificate shall supersede the inspection certificate previously issued for the processed product involved. Each appeal inspection certificate shall clearly identify the number and date of the inspection certificate which it supersedes. The superseded certificate shall become null and void upon the issuance of the appeal inspection certificate and shall no longer represent the quality or condition of the processed product described therein. The inspector or inspectors issuing an appeal inspection certificate shall forward notice of such issuance to such persons as he considers necessary to prevent misuse of the superseded certificate if the original and all copies of such superseded certificate have not previously been delivered to the inspector or inspectors issuing the appeal inspection certificate. The provisions in the regulations in this part concerning forms of certificates, issuance of certificates, and disposition of certificates shall apply to appeal inspection certificates, except that copies of such appeal inspection certificates shall be furnished all interested parties who received copies of the superseded certificate.

§ 260.47 Who may become licensed sampler.

Any person deemed to have the necessary qualifications may be licensed as a licensed sampler to draw samples for the purpose of inspection under the regulations in this part. Such a license shall bear the printed signature of the Secretary, and shall be countersigned by an authorized employee of the Department. Licensed samplers shall have no authority to inspect processed products under the regulations in this part except as to identification and condition of the containers in a lot. A licensed sampler shall perform his duties pursuant to the regulations in this part as directed by the Director.

§ 260.48 Application to become a licensed sampler.

Application to become a licensed sampler shall be made to the Secretary on forms furnished for that purpose. Each such application shall be signed by the applicant in his own handwriting, and the information contained therein shall be certified by him to be true, complete, and correct to the best of his knowledge and belief, and the application shall contain or be accompanied by:

(a) A statement showing his present and previous occupations, together with names of all employers for whom he has worked, with periods of service, during the 10 years previous to the date of his application;
(b) A statement that, in his capacity as a licensed sampler, he will not draw samples from any lot of processed products with respect to which he or his employer is an interested party;
(c) A statement that he agrees to comply with all terms and conditions of the regulations in this part relating to duties of licensed samplers; and
(d) Such other information as may be requested.

§ 260.49 Inspectors.

Inspections will ordinarily be performed by employees under the Secretary who are employed as Federal Government employees for that purpose. However, any person employed under any joint Federal-State inspection service arrangement may be licensed, if otherwise qualified, by the Secretary to make inspections in accordance with this part on such processed products as may be specified in his license. Such license shall be issued only in a case where the Secretary is satisfied that the particular person is qualified to perform adequately the inspection service for which such person is to be licensed. Each such license shall bear the printed signature of the Secretary and shall be countersigned by an authorized employee of the Department. An inspector shall perform his duties pursuant to the regulations in this part as directed by the Director.
§ 260.50 Suspension or revocation of license of licensed sampler or licensed inspector.

Pending final action by the Secretary, the Director may, whenever he deems such action necessary, suspend the license of any licensed sampler, or licensed inspector, issued pursuant to the regulations in this part, by giving notice of such suspension to the respective licensee, accompanied by a statement of the reasons therefor. Within 7 days after the receipt of the aforesaid notice and statement of reasons by such licensee, he may file an appeal, in writing, with the Secretary supported by any argument or evidence that he may wish to offer as to why his license should not be suspended or revoked. After the expiration of the aforesaid 7 day period and consideration of such argument and evidence, the Secretary shall take such action as he deems appropriate with respect to such suspension or revocation.

§ 260.51 Surrender of license.

Upon termination of his services as a licensed sampler or licensed inspector, or suspension or revocation of his license, such licensee shall surrender his license immediately to the office of inspection serving the area in which he is located. These same provisions shall apply in a case of an expired license.

§ 260.57 How samples are drawn by inspectors or licensed samplers.

An inspector or a licensed sampler shall select samples, upon request, from designated lots of processed products which are so placed as to permit thorough and proper sampling in accordance with the regulations in this part. Such person shall, unless otherwise directed by the Secretary, select sample units of such products at random, and from various locations in each lot in such manner and number, not inconsistent with the regulations in this part, as to secure a representative sample of the lot. Samples drawn for inspection shall be furnished by the applicant at no cost to the Department.

§ 260.58 Accessibility for sampling.

Each applicant shall cause the processed products for which inspection is requested to be made accessible for proper sampling. Failure to make any lot accessible for proper sampling shall be sufficient cause for postponing inspection service until such time as such lot is made accessible for proper sampling.

§ 260.59 How officially drawn samples are to be identified.

Officially drawn samples shall be marked by the inspector or licensed sampler so such samples can be properly identified for inspection.

§ 260.60 How samples are to be shipped.

Unless otherwise directed by the Secretary, samples which are to be shipped to any office of inspection shall be forwarded to the office of inspection serving the area in which the processed products from which the samples were drawn is located. Such samples shall be shipped in a manner to avoid, if possible, any material change in the quality or condition of the sample of the processed product. All transportation charges in connection with such shipments of samples shall be at the expense of the applicant and wherever practicable, such charges shall be prepaid by him.

§ 260.61 Sampling plans and procedures for determining lot compliance.

(a) Except as otherwise provided for in this section in connection with in-plant inspection and unless otherwise approved by the Secretary, samples shall be selected from each lot in the exact number of sample units indicated for the lot size in the applicable single sampling plan or, at the discretion of the inspection service, any comparable multiple sampling plan: Provided, That at the discretion of the inspection service the number of sample units selected may be increased to the exact number of sample units indicated for any one of the larger sample sizes provided for in the appropriate plans.

(b) Under the single sampling plans with respect to any specified require-
(1) If the number of deviants (as defined in connection with the specific requirements) in the sample does not exceed the acceptance number prescribed for the sample size the lot meets the requirement;

(2) If the number of deviants (as defined in connection with the specific requirement) in the sample exceeds the acceptance number prescribed for the sample size the lot fails the requirement.

(c) Under the multiple sampling plans inspection commences with the smallest sample size indicated under the appropriate plan and with respect to any specified requirement:

(1) If the number of deviants (as defined in connection with the specific requirement) considered does not exceed the acceptance number prescribed for that sample size the lot meets the requirement;

(2) If the number of deviants (as defined in connection with the specific requirement) in the sample being considered equals or exceeds the rejection number prescribed for that sample size the lot fails the requirement; or

(3) If the number of deviants (as defined in connection with the specific requirement) in the sample being considered falls between the acceptance and rejection numbers of the plan, additional sample units are added to the sample so that the sample thus cumulated equals the next larger cumulative sample size in the plan. It may then be determined that the lot meets or fails the specific requirement by considering the cumulative sample and applying the procedures outlined in paragraphs (c)(1) and (2) of this section or by considering successively larger samples cumulated in the same manner until the lot meets or fails the specific requirement.

(d) If in the conduct of any type of in-plant inspection the sample is examined before the lot size is known and the number of sample units exceeds the prescribed sample size for such lot but does not equal any of the prescribed larger sample sizes the lot may be deemed to meet or fail a specific requirement in accordance with the following procedure:

(1) If the number of deviants (as defined in connection with the specific requirement) in the nonprescribed sample does not exceed the acceptance number of the next smaller sample size the lot meets the requirements;

(2) If the number of deviants (as defined in connection with the specific requirement) in the nonprescribed sample equals the acceptance number prescribed for the next larger sample size additional sample units shall be selected to increase the sample to the next larger prescribed sample size;

(3) If the number of deviants (as defined in connection with the specific requirement) in the nonprescribed sample exceeds the acceptance number prescribed for the next larger sample size the lot fails the requirement.

(e) In the event that the lot compliance determination provisions of a standard or specification are based on the number of specified deviations instead of deviants the procedures set forth in this section may be applied by substituting the word “deviation” for the word “deviant” wherever it appears.

(f) Sampling plans referred to in this section are those contained in Tables I, II, III, IV, V, and VI which follow or any other plans which are applicable. For processed products not included in these tables, the minimum sample size shall be the exact number of sample units prescribed in the table, container group, and lot size that, as determined by the inspector, most closely resembles the product, type, container size and amount of product to be samples.

1 These multiple sampling plans may be used in lieu of the single sampling plans listed at the heading of each column.
§ 260.62 Issuance of certificate of sampling.
Each inspector and each licensed sampler shall prepare and sign a certificate of sampling to cover the samples drawn by the respective person, except that an inspector who inspects the samples which he has drawn need not prepare a certificate of sampling. One copy of each certificate of sampling prepared shall be retained by the inspector or licensed sampler (as the case may be) and the original and all other copies thereof shall be disposed of in accordance with the instructions of the Secretary.

§ 260.63 Identification of lots sampled.
Each lot from which officially drawn samples are selected shall be marked in such manner as may be prescribed by the Secretary, if such lots do not otherwise possess suitable identification.

FEES AND CHARGES

§ 260.69 Payment fees and charges.
Fees and charges for any inspection service shall be paid by the interested party making the application for such service, in accordance with the applicable provisions of the regulations in this part, and, if so required by the person in charge of the office of inspection serving the area where the services are to be performed, an advance of funds prior to rendering inspection service in an amount suitable to the Secretary, may be required as a guarantee of payment for the services rendered. All fees and charges for any inspection service, performed pursuant to the regulations in this part shall be paid by check, draft, or money order made payable to the National Marine Fisheries Service. Such check, draft, or money order shall be remitted to the appropriate regional or area office serving the geographical area in which the services are performed, within ten (10) days from the date of billing, unless otherwise specified in a contract between the applicant and the Secretary, in which latter event the contract provisions shall apply.

§ 260.70 Schedule of fees.
(a) Unless otherwise provided in a written agreement between the applicant and the Secretary, the fees to be charged and collected for any inspection service performed under the regulations in this part at the request of the United States, or any other agency or instrumentality thereof, will be published as a notice in the Federal Register and will be in accordance with § 260.81.

(b) Fees are reviewed annually to ascertain that the hourly fees charged are adequate to recover the costs of the services rendered.

(1) The TYPE I (Contract Inspection) hourly fee is determined by dividing the estimated annual costs by the estimated annual billable hours.

(2) The TYPE II (Lot Inspection) hourly fee is determined by adding a factor of 50 percent to the TYPE I fee, to cover additional costs (down-time, etc.) associated with conducting lot inspection services.

(3) The TYPE III (Miscellaneous and Consulting) hourly fee is determined by adding a factor of 25 percent to the TYPE I fee, to cover the additional costs (down-time, etc.) associated with conducting miscellaneous inspection services.

[48 FR 24901, June 3, 1983

§ 260.71 [Reserved]

§ 260.72 Fees for inspection service performed under cooperative agreement.
The fees to be charged and collected for any inspection or similar service performed under cooperative agreement shall be those provided for by such agreement.

§ 260.73 Disposition of fees for inspections made under cooperative agreement.
Fees for inspection under a cooperative agreement with any State or person shall be disposed of in accordance with the terms of such agreement. Such portion of the fees collected under a cooperative agreement as may be due the United States shall be remitted in accordance with § 260.69.

[36 FR 21038, Nov. 3, 1971]
§ 260.74 Fee for appeal inspection.

The fee to be charged for an appeal inspection shall be at the rates prescribed in this part for other inspection services: Provided, That, if the result of any appeal inspection made for any applicant, other than the United States or any agency or instrumentality thereof, discloses that a material error was made in the inspection on which the appeal is made, no inspection fee shall be assessed.

§ 260.76 [Reserved]

§ 260.77 Fees for score sheets.

If the applicant for inspection service requests score sheets showing in detail the inspection of each container or sample inspected and listed thereon, such score sheets may be furnished by the inspector in charge of the office of inspection serving the area where the inspection was performed; and such applicant shall be charged at the rate of $2.75 for each 12 sampled units, or fraction thereof, inspected and listed on such score sheets.

§ 260.78 Fees for additional copies of inspection certificates.

Additional copies of any inspection certificate other than those provided for in § 260.29, may be supplied to any interested party upon payment of a fee of $2.75 for each set of five (5) or fewer copies.

§ 260.79 Travel and other expenses.

Charges may be made to cover the cost of travel and other expenses incurred in connection with the performance of any inspection service, including appeal inspections: Provided, That, if charges for sampling or inspection are based on an hourly rate, an additional hourly charge may be made for travel time including time spent waiting for transportation as well as time spent traveling, but not to exceed 8 hours of travel time for any one person for any one day: And provided further, That, if travel is by common carrier, no hourly charge may be made for travel time outside the employee’s official work hours.

§ 260.80 Charges for inspection service on a contract basis.

Irrespective of fees and charges prescribed in the foregoing sections, the Secretary may enter into a written memorandum of understanding or contract, whichever may be appropriate, with any administrative agency charged with the administration of a marketing order effective pursuant to the Agricultural Marketing Agreement Act of 1937, as revised (16 U.S.C. 661 et seq.) for the making of inspections pursuant to said agreement or order on such basis as will reimburse the National Marine Fisheries Service of the Department for the full cost of rendering such inspection service as may be determined by the Secretary. Likewise, the Secretary may enter into a written memorandum of understanding or contract, whichever may be appropriate, with an administrative agency charged with the administration of a similar program operated pursuant to the laws of any State.

[36 FR 21038, Nov. 3, 1971]

§ 260.81 Readjustment and increase in hourly rates of fees.

(a) When Federal Pay Act increases occur, the hourly rates for inspection fees will automatically be increased on the effective date of the pay act by an amount equal to the increase received by the average GS grade level of fishery product inspectors receiving such pay increases.

(b) The hourly rates of fees to be charged for inspection services will be subject to review and reevaluation for possible readjustment not less than every 3 years: Provided, That, the hourly rates of fees to be charged for inspection services will be immediately reevaluated as to need for readjustment with each Federal Pay Act increase.

[35 FR 15925, Oct. 9, 1970]

MISCELLANEOUS

§ 260.84 Policies and procedures.

The policies and procedures pertaining to any of the inspection services are contained within the NMFS Fishery Products Inspection Manual.
§ 260.86

The policies and procedures are available from the Secretary to any interested party by writing to Document Approval and Supply Services Branch, Inspection Services Division, P.O. Drawer 1207, 3207 Frederic St., Pascagoula, MS 39568-1207.

[61 FR 9369, Mar. 8, 1996]

§ 260.86 Approved identification.

(a) Grade marks: The approved grade mark or identification may be used on containers, labels, or otherwise indicated for any processed product that:

(1) Has been packed under inspection as provided in this part to assure compliance with the requirements for wholesomeness established for the raw product and of sanitation established for the preparation and processing operations, and (2) has been certified by an inspector as meeting the requirements of such grade, quality or classification.

The grade marks approved for use shall be similar in form and design to the examples of Figures 1 to 5 of this section.

Shield using red, white, and blue background or other colors appropriate for label.

(b) Inspection marks: The approved inspection marks may be used on containers, labels, or otherwise indicated for any processed product that:

(1) Has been packed under inspection as provided in this part to assure compliance with the requirements for wholesomeness established for the raw product and of sanitation established for the preparation and processing operations, and (2) has been certified by

(c) Combined grade and inspection
marks: The grade marks set forth in
paragraph (a) of this section, and the
inspection marks, Figures 7 and 8, set
forth in paragraph (b) of this section,
may be combined into a consolidated
grade and inspection mark for use on
processed products that have been
packed under inspection as provided in
this part.

(d) Products not eligible for approved
identification: Processed products which
have not been packed under inspection
as provided in this part shall not be
identified by approved grade or inspec-
tion marks, but such products may be
inspected on a lot inspection basis as
provided in this part and identified by
an authorized representative of the De-
partment by stamping the shipping
cases and inspection certificate(s) cov-
ering such lot(s) as appropriate, with
marks similar in form and design to
the examples in Figures 9 and 10 of this
section.

OFFICIALLY SAMPLED

OCT. 3, 1970

U.S. DEPARTMENT
OF COMMERCE
§ 260.88 Political activity.

All inspectors and licensed samplers are forbidden, during the period of their respective appointments or licenses, to take an active part in political management or in political campaigns. Political activities in city, county, State, or national elections, whether primary or regular, or in behalf of any party or candidate, or any measure to be voted upon, are prohibited. This applies to all appointees or licensees, including, but not limited to, temporary and cooperative employees and employees on leave of absence with or without pay. Willful violation of this section will constitute grounds for dismissal in the case of appointees and revocation of licenses in the case of licensees.

§ 260.90 Compliance with other laws.

None of the requirements in the regulations in this part shall excuse failure to comply with any Federal, State, county, or municipal laws applicable to the operation of food processing establishments and to processed food products.

§ 260.91 Identification.

Each inspector and licensed sampler shall have in his possession at all times and present upon request, while on duty, the means of identification furnished by the Department to such person.

§ 260.93 Debarment and suspension.

(a) Debarment. Any person may be debarred from using or benefiting from the inspection service provided under the regulations of this subchapter or under the terms of any inspection contract, and such debarment may apply to one or more plants under his control, if such person engages in one or more of the following acts or activities:

(1) Misrepresenting, misstating, or withholding any material or relevant facts or information in conjunction with any application or request for an inspection contract, inspection service, inspection appeal, lot inspection, or other service provided for under the regulations of this subchapter.

(2) Using on a processed product any label which displays any official identification mark, when the label is not currently approved for use by the Director or his delegate.
(3) Using on a processed product any label which displays the words "Packed Under Federal Inspection, U.S. Department of Commerce," or which displays any official mark, official device, or official identification, or which displays a facsimile of the foregoing, when such product has not been inspected under the regulations of this subchapter.

(4) Making any statement or reference to the U.S. Grade of any processed product or any inspection service provided under the regulations of this subchapter on the label or in the advertising of any processed product, when such product has not been inspected under the regulations of this subchapter.

(5) Making, using, issuing or attempting to issue or use in conjunction with the sale, shipment, transfer or advertisement of a processed product any certificate of loading, certificate of sampling, inspection certificate, official device, official identification, official mark, official document, or score sheet which has not been issued, approved, or authorized for use with such product by an inspector.

(6) Using any of the terms "United States", "Officially graded", "Officially inspected", "Government inspected", "Federally inspected", "Officially sampled", or words of similar import or meanings, or using any official device, official identification, or official mark on the label, on the shipping container, or in the advertising of any processed product, when such product has not been inspected under the regulations of this subchapter.

(7) Using, attempting to use, altering or reproducing any certificate, certificate form, design, insignia, mark, shield, device, or figure which simulates in whole or in part any official mark, official device, official identification, certificate of loading, certificate of sampling, inspection certificate or other official certificate issued pursuant to the regulations of this subchapter.

(8) Assaulting, harassing, interfering, obstructing or attempting to interfere or obstruct any inspector or sampler in the performance of his duties under the regulations of this subchapter.

(9) Violating any one or more of the terms of any inspection contract or the provisions of the regulations of this subchapter.

(10) Engaging in acts or activities which destroy or interfere with the purposes of the inspection program or which have the effect of undermining the integrity of the inspection program, being a violation of this subchapter.

(b) Temporary suspension. (1) Whenever the Director has reasonable cause to believe that any person has engaged in any act or activity described in paragraph (a) of this section, and in such act or activity, in the judgment of the Director, would cause serious and irreparable injury to the inspection program and services provided under the regulations of this subchapter, the Director may, without a hearing, temporarily suspend, either before or after the institution of a debarment hearing, the inspection service provided under the regulations of this subchapter or under any inspection contract for one or more plants under the control of such person. Notice of suspension shall be served by registered or certified mail, return receipt requested, and the notice shall specifically state those acts or activities of such person which are the bases for the suspension. The suspension shall become effective five days after receipt of the notice.

(2) Once a person has received a notice of a temporary suspension, a debarment hearing will be set for 30 days after the effective date of the suspension. Within 60 days after the completion of the debarment hearing, the Hearing Examiner shall determine, based upon evidence of record, whether the temporary suspension shall be continued or terminated. A temporary suspension shall be terminated by the Hearing Examiner if he determines that the acts or activities, which were the bases for the suspension, did not occur or will not cause serious and irreparable injury to the inspection program and services provided under the regulations of this subchapter. This determination of the Hearing Examiner on the continuation or termination of the temporary suspension shall be final and there shall be no appeal of this determination. The initial decision by the Hearing Examiner on the debarment shall be made in accordance with
paragraph (b)(1), Decisions, of this section.

(3) After a debarment hearing has been instituted against any person by a suspension, such suspension will remain in effect until a final decision is rendered on the debarment in accordance with the regulations of this section or the temporary suspension is terminated by the Hearing Examiner.

(4) When a debarment hearing has been instituted against any person not under suspension, the Director may, in accordance with the regulations of this paragraph (b) temporarily suspend such person, and the suspension will remain in effect until a final decision on the debarment is rendered in accordance with the regulations of this section or the temporary suspension is terminated by the Hearing Examiner.

(c) Hearing Examiner. All hearing shall be held before a Hearing Examiner appointed by the Secretary or the Director.

(d) Hearing. If one or more of the acts or activities described in paragraph (a) of this section have occurred, the Director may institute a hearing to determine the length of time during which the person shall be debarred and those plants to which the debarment shall apply. No person may be debarred unless there is a hearing, as prescribed in this section, and it has been determined by the Hearing Examiner, based on evidence of record, that the one or more of the activities described in paragraph (a) of this section have occurred. Any debarment or suspension must be instituted within two (2) years of the time when such acts or activities described in paragraph (a) of this section have occurred.

(e) Notice of hearing. The Director shall notify such person of the debarment hearing by registered or certified mail, return receipt requested. The notice shall set forth the time and place of the hearing, the specific acts or activities which are the basis for the debarment hearing, the time period of debarment being sought, and those plants to which the debarment shall apply. Except for the debarment hearing provided for in paragraph (b) of this section the hearing will be set for a time not longer than 120 days after receipt of the notice of hearing.

(f) Time and place of hearing. The hearing shall be held at a time and place fixed by the Director. Provided, however, the Hearing Examiner may, upon a proper showing of inconvenience, change the time and place of the hearing. Motions for change of time or place of the hearing must be mailed to or served upon the Hearing Examiner no later than 10 days before the hearing.

(g) Right to counsel. In all proceedings under this section, all persons and the Department of Commerce shall have the right to be represented by counsel, in accordance with the rules and regulations set forth in title 43, Code of Federal Regulations, part 1.

(h) Form, execution, and service of documents. (1) All papers to be filed under the regulations in this section shall be clear and legible and shall be dated, signed in ink, contain the docket description and title of the proceeding, if any, and the address of the signatory. Five copies of all papers are required to be filed. Documents filed shall be executed by:

(i) The person or persons filing same,

(ii) by an authorized officer thereof if it be a corporation or,

(iii) by an attorney or other person having authority with respect thereto.

(2) All documents, when filed, shall show that service has been made upon all parties to the proceeding. Such service shall be made by delivering one copy to each party in person or by mailing by first-class mail, properly addressed with postage prepaid. When a party has appeared by attorney or other representative, service on such attorney or other representative will be deemed service upon the party. The date of service of document shall be the day when the matter served is deposited in the U.S. mail, shown by the postmark thereon, or is delivered in person, as the case may be.

(3) A person is deemed to have appeared in a hearing by the filing with the Director a written notice of his appearance or his authority in writing to appear on behalf of one of the persons to the hearing.

(4) The original of every document filed under this section and required to
be served upon all parties to a proceeding shall be accompanied by a certificate of service signed by the party making service, stating that such service has been made upon each party to the proceeding. Certificates of service may be in substantially the following form:

I hereby certify that I have this day served the foregoing document upon all parties of record in this proceeding by: (1) Mailing postage prepaid, (2) delivering in person, a copy to each party.

Dated at __________ this _______ day of __________________________, 19_________.
Signature __________________________

(i) Procedures and evidence. (1) All parties to a hearing shall be entitled to introduce all relevant evidence on the issues as stated in the notice for hearing or as determined by the Hearing Examiner at the outset of or during the hearing.

(2) Technical rules of evidence shall not apply to hearings conducted pursuant to this section, but rules or principles designed to assure production of the most credible evidence available and to subject testimony to test by cross-examination shall be applied where reasonably necessary.

(j) Duties of Hearing Examiner. The Hearing Examiner shall have the authority and duty to:

(1) Take or cause depositions to be taken.

(2) Regulate the course of the hearings.

(3) Prescribe the order in which evidence shall be presented.

(4) Dispose of procedural requests or similar matters.

(5) Hear and initially rule upon all motions and petitions before him.

(6) Administer oaths and affirmations.

(7) Rule upon offers of proof and receive competent, relevant, material, reliable, and probative evidence.

(8) Control the admission of irrelevant, immaterial, incompetent, unreliable, repetitious, or cumulative evidence.

(9) Hear oral arguments if the Hearing Examiner determined such requirement is necessary.

(10) Fix the time for filing briefs, motions, and other documents to be filed in connection with hearings.

(11) Issue the initial decision and dispose of any other pertinent matters that normally and properly arise in the course of proceedings.

(12) Do all other things necessary for an orderly and impartial hearing.

(k) The record. (1) The Director will designate an official reporter for all hearings. The official transcript of testimony taken, together with any exhibits and briefs filed therewith, shall be filed with the Director. Transcripts of testimony will be available in any proceeding under the regulations of this section, at rates fixed by the contract between the United States of America and the reporter. If the reporter is an employee of the Department of Commerce, the rate will be fixed by the Director.

(2) The transcript of testimony and exhibits, together with all briefs, papers, and all rulings by the Hearing Examiner shall constitute the record. The initial decision will be predicated on the same record, as will be final decision.

(l) Decisions. (1) The Hearing Examiner shall render the initial decision in all debarment proceedings before him. The same Hearing Examiner who presides at the hearing shall render the initial decision except when such Examiner becomes unavailable to the Department of Commerce. In such case, another Hearing Examiner will be designated by the Secretary or Director to render the initial decision. Briefs, or other documents, to be submitted after the hearing must be received not later than twenty (20) days after the hearing, unless otherwise extended by the Hearing Examiner upon motion by a party. The initial decision shall be made within sixty (60) days after the receipt of all briefs. If no appeals from the initial decision is served upon the Director within ten (10) days of the date of the initial decision, it will become the final decision on the 20th day following the date of the initial decision. If an appeal is received, the appeal will be transmitted to the Secretary who will render the final decision after considering the record and the appeal.

(2) All initial and final decisions shall include a statement of findings and conclusions, as well as the reasons or bases therefore, upon the material
§ 260.96 Application for fishery products inspection service on a contract basis at official establishments.

Any person desiring to process and pack products in an establishment under fishery products inspection service on a contract basis, must receive approval of such buildings and facilities as an official establishment prior to the inauguration of such service. An application for inspection service to be rendered in an establishment shall be approved according to the following procedure:

(a) Initial survey: When application has been filed for inspection service as aforesaid, NMFS inspector(s) shall examine the buildings, premises, and facilities according to the requirements of the fishery products inspection service and shall specify any additional facilities required for the service.

(b) Final survey and establishment approval: Prior to the inauguration of the fishery products inspection service, a final survey of the buildings, premises, and facilities shall be made to verify that the buildings are constructed and facilities are in accordance with the approved drawings and the regulations in this part.

(c) Drawings and specifications of new construction or proposed alterations of existing official establishments shall be furnished to the Director in advance of actual construction for prior approval with regard to compliance with requirements for facilities.

[36 FR 21039, Nov. 3, 1971]

§ 260.97 Conditions for providing fishery products inspection service at official establishments.

(a) The determination as to the inspection effort required to adequately provide inspection service at any establishment will be made by NMFS. The man-hours required may vary at different official establishments due to factors such as, but not limited to, size and complexity of operations, volume and variety of products produced, and adequacy of control systems and cooperation. The inspection effort requirement may be reevaluated when the contracting party or NMFS deems there is sufficient change in production, equipment and change of quality control input to warrant reevaluation. Inspectors will not be available to perform any of employee or management duties, however, they will be available for consultation purposes. NMFS reserves the right to reassign inspectors as it deems necessary.

(b) NMFS shall not be held responsible:

(1) For damages occurring through any act of commission or omission on the part of its inspectors when engaged in performing services; or

(2) For production errors, such as processing temperatures, length of process, or misbranding of products; or

(3) For failure to supply enough inspection effort during any period of service.

(c) The contracting party will:

(1) Use only wholesome raw material which has been handled or stored under sanitary conditions and is suitable for processings; maintain the official establishment(s), designated on the contract in such sanitary condition and to employ such methods of handling raw

---

1 Compliance with the above requirements does not excuse failure to comply with all applicable sanitary rules and regulations of city, county, State, Federal, or other agencies having jurisdiction over such establishments and operations.
materials for processing as may be neces-

sary to conform to the sanitary re-

quirements prescribed or approved by

NMFS;

(2) Adequately code each primary

container and master case of products

sold or otherwise distributed from a

manufacturing, processing, packing, or

repackaging activity to enable positive

lot identification to facilitate, where

necessary, the segregation of specific

food lots that may have become con-
taminated or otherwise unfit for their

intended use;

(3) Not permit any labels on which

reference is made to Federal inspec-
tion, to be used on any product which

is not packed under fishery products

inspection service nor permit any la-

bels on which reference is made to any

U.S. Grade to be used on any product

which has not been officially certified

as meeting the requirements of such

grade; nor supply labels bearing ref-

erence to Federal inspection to another

establishment unless the products to

which such labels are to be applied

have been packed under Federal inspec-
tion at an official establishment;

(4) Not affix any label on which ref-

erence is made to Federal inspection to

any container of processed foods, pro-
duced in any designated official estab-
lishment, with respect to which the

grade of such product is not certified

because of adulteration due to the pres-
ence of contaminants in excess of lim-
its established in accordance with the

regulations or guidelines issued pursu-
ant to the Food, Drug, and Cosmetic
Act, as amended;

(5) Not, with respect to any product

for which U.S. Grade Standards are in

effect, affix any label on which ref-

erence is made to Federal inspection to

any container of processed food which

is substandard: Provided, That such

label may be affixed to any container

of such substandard quality product if

such label bears a statement to indi-
cate the substandard quality;

(6) Not, with respect to any product

for which U.S. Grade Standard are not

in effect, affix any label on which ref-

erence is made to the Federal inspec-
tion to containers of processed foods,

except with the approval of NMFS;

(7) Furnish such reports of proc-

essing, packaging, grading, laboratory

analyses, and output of products in-

spected, processed, and packaged at the

designated official establish-ment(s) as

may be requested by NMFS, subject to

the approval of the Bureau of the Budg-
et in accordance with the Federal Re-
ports Act of 1942;

(8) Make available for use by inspec-
tors, adequate office space in the des-
ignated official establishment(s) and

furnish suitable desks, office equip-
ment, and files for the proper care and

storage of inspection records;

(9) Make laboratory facilities and

necessary equipment available for the

use of inspectors to inspect samples of

processed foods and/or components

thereof;

(10) Furnish stenographic and clerical

assistance as may be necessary in the

typing of certificates and reports and

the handling of official correspondence,

as well as furnish the labor incident to

the drawing and grading of samples and

other work required to facilitate ade-
quate inspection procedures whenever

necessary;

(11) Furnish and provide laundry

service, as required by NMFS, for

coats, trousers, smocks, and towels

used by inspectors during performance

of duty in official establishment(s);

(13) Submit, as required by NMFS,

for approval, proofs prior to printing

and thereafter four (4) copies of any

finished label which may or may not

bear official identification marks,

when such products are packed under

Federal inspection on a contract basis;

(14) Not make deceptive, fraudulent,
or unauthorized use in advertising, or

otherwise, of the fishery products in-
spection service, the inspection certifi-
cates or reports issued, or the con-
tainers on which official identification
marks are embossed or otherwise iden-
tified, in connection with the sale of

any processed products;
§ 260.98 Premises.

(15) Submit to NMFS, four (4) copies of each label which may or may not bear official identification marks, when such labels are to be withdrawn from inspection or when approved labels are disapproved for further use under inspection;

(16) Notify NMFS in advance of the proposed use of any labels which require obliteration of any official identification marks, and all reference to the inspection service on approved labels which have been withdrawn or disapproved for use;

(17) Accord representatives of NMFS at all reasonable times free and immediate access to establishment(s) and official establishment(s) under applicant’s control for the purpose of checking codes, coded products, coding devices, coding procedures, official identification marks obliteration, and use of withdrawn or disapproved labels.

(d) Termination of inspection services:

(1) The fishery products inspection service, including the issuance of inspection reports, shall be rendered from the date of the commencement specified in the contract and continue until suspended or terminated:

(i) By mutual consent;

(ii) by either party giving the other party sixty (60) days’ written notice specifying the date of suspension or termination;

(iii) by one (1) day’s written notice by NMFS in the event the applicant fails to honor any invoice within ten (10) days after date of receipt of such invoice covering the full costs of the inspection service provided, or in the event the applicant fails to maintain its designated plants in a sanitary condition or to use wholesome raw materials for processing as required by NMFS, or in the event the applicant fails to comply with any provisions of the regulations contained in this part;

(iv) by automatic termination in case of bankruptcy, closing out of business, or change in controlling ownership.

(2) In case the contracting party wishes to terminate the fishery products inspection service under the terms of paragraph (d)(1)(i) or (ii) of this section, the contracting party must destroy all unused containers, labels, and advertising material on hand or in possession of his supplier bearing official identification marks, or reference to fishery products inspection service have been used, or said containers, labels, and advertising material must be destroyed, or official identification marks, and all other reference to the fishery products inspection service on said containers, labels, advertising material must be obliterated, or assurance satisfactory to NMFS must be furnished that such containers, labels, and advertising material will not be used in violation of any of the provisions of the regulations in the part.

(3) In case the fishery products inspection service is terminated for cause by NMFS under the terms of paragraph (d)(1)(iii) of this section, or in case of automatic termination under terms of paragraph (d)(1)(iv) of this section, the contracting party must destroy all unused containers, labels, and advertising material on hand bearing official identification marks, or reference to fishery products inspection service, or must obliterate official identification marks, and all reference to the fishery products inspection service on said containers, labels and advertising material.

After termination of the fishery products inspection service, NMFS may, at such time or times as it may determine to be necessary, during regular business hours, enter the establishment(s) or other facilities in order to ascertain that the containers, labels, and advertising material have been altered or disposed of in the manner provided herein, to the satisfaction of NMFS.

[36 FR 21039, Nov. 3, 1971]

§ 260.98 Premises.

The premises about an official establishment shall be free from conditions which may result in the contamination of food including, but not limited to, the following:

(a) Strong offensive odors;

(b) Improperly stored odors, litter, waste, refuse, and uncut weeds or grass within the immediate vicinity of the buildings or structures which may constitute an attractant, breeding place, or harborage for rodents, insects, and other pests;

(c) Excessively dusty roads, yards, or parking lots that may constitute a
source of contamination in areas where food is exposed;
(d) Inadequately drained areas that may contribute contamination to food products through seepage or foot-borne filth and by providing a breeding place for insects or micro-organisms;
If the grounds of an official establishment are bordered by grounds not under the official establishment operator's control of the kind described in paragraphs (b) through (d) of this section, care must be exercised in the official establishment by inspection, extermination, or other means to effect exclusion of pests, dirt, and other filth that may be a source of food contamination.

[36 FR 21040, Nov. 3, 1971]

The buildings and structures shall be properly constructed and maintained in a sanitary condition, including, but not limited to the following requirements:
(a) Lighting. There shall be sufficient light (1) consistent with the use to which the particular portion of the building is devoted, and (2) to provide for efficient cleaning. Belts and tables on which picking, sorting, or trimming operations are carried on shall be provided with sufficient nonglaring light to insure adequacy of the respective operation. Light bulbs, fixtures, skylights, or other glass suspended over exposed food in any step of preparation shall be of the safety type or otherwise protected to prevent food contamination in case of breakage.
(b) Ventilation. There shall be sufficient ventilation in each room and compartment thereof to prevent excessive condensation of moisture and to insure sanitary and suitable processing and operating conditions. If such ventilation does not prevent excessive condensation, the Director may require that suitable facilities be provided to prevent the condensate from coming in contact with equipment used in processing operations and with any ingredient used in the manufacture or production of a processed product.
(c) Drains and gutters. All drains and gutters shall be properly installed with approved traps and vents. The drainage and plumbing system must permit the quick runoff of all water from official establishment buildings, and surface water around buildings and on the premises; and all such water shall be disposed of in such a manner as to prevent a nuisance or health hazard. Tanks or other equipment whose drains are connected to the waste system must have such screens and vacuum breaking devices affixed so as to prevent the entrance of waste water, material, and the entrance of vermin to the processing tanks or equipment.
(d) Water supply. There shall be ample supply of both hot and cold water; and the water shall be of safe and sanitary quality with adequate facilities for its (1) distribution throughout buildings, and (2) protection against contamination and pollution. Sea water of safe suitable and sanitary quality may be used in the processing of various fishery products when approved by NMFS prior to use.
(e) Construction. Roofs shall be weathertight. The walls, ceilings, partitions, posts, doors, and other parts of all buildings and structures shall be of such materials, construction, and finish as to permit their efficient and thorough cleaning. The floors shall be constructed of tile, cement, or other equally impervious material, shall have good surface drainage, and shall be free from openings or rough surfaces which would interfere with maintaining the floors in a clean condition.
(f) Processing rooms. Each room and each compartment in which any processed products are handled, processed, or stored (1) shall be so designed and constructed as to insure processing and operating conditions of a clean and orderly character; (2) shall be free from objectionable odors and vapors; and (3) shall be maintained in a clean and sanitary condition.
(g) Prevention of animals and insects in official establishment(s). Dogs, cats, birds, and other animals (including, but not being limited to rodents and insects) shall be excluded from the rooms from which processed products are being prepared, handled, or stored and from any rooms from which ingredients (including, but not being limited to salt, sugar, spices, flour, batter, breading, and fishery products) are handled and stored. Screens, or other
§ 260.100 Facilities.

Each official establishment shall be equipped with adequate sanitary facilities and accommodations, including, but not being limited to, the following:

(a) Containers approved for use as containers for processed products shall not be used for any other purpose.

(b) No product or material not intended for human food or which creates an objectionable condition shall be processed, handled, or stored in any room, compartment, or place where any fishery product is manufactured, processed, handled, or stored.

(c) Suitable facilities for cleaning and sanitizing equipment (e.g., brooms, brushes, mops, clean cloths, hose, nozzles, soaps, detergent, sprayers) shall be provided at convenient locations throughout the plant.

§ 260.101 Lavatory accommodations.

Modern lavatory accommodations, and properly located facilities for cleaning and sanitizing utensils and hands, shall be provided.

(a) Adequate lavatory and toilet accommodations, including, but not being limited to, running hot water (135°F or more) and cold water, soap, and single service towels, shall be provided. Such accommodations shall be in or near toilet and locker rooms and also at such other places as may be essential to the cleanliness of all personnel handling products.

(b) Sufficient containers with covers shall be provided for used towels and other wastes.

(c) An adequate number of hand washing facilities serving areas where edible products are prepared shall be operated by other than hand-operated controls, or shall be of a continuous flow type which provides an adequate flow of water for washing hands.

(d) Durable signs shall be posted conspicuously in each toilet room and locker room directing employees to wash hands before returning to work.

(e) Toilet facilities shall be provided according to the following formula:

<table>
<thead>
<tr>
<th>Number of persons</th>
<th>Toilet bowls required</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 to 15, inclusive</td>
<td>1</td>
</tr>
<tr>
<td>16 to 35, inclusive</td>
<td>2</td>

<tr>
<td>For each additional 30 persons in excess of 80</td>
<td>1</td>
</tr>
</tbody>
</table>

1 Urinals may be substituted for toilet bowls but only to the extent of one-third of the total number of bowls required.

All toilet equipment shall be kept operative, in good repair, and in a sanitary condition.

§ 260.102 Equipment.

All equipment used for receiving, washing, segregating, picking, processing, packaging, or storing any processed products or any ingredients used in the manufacture or production thereof, shall be of such design, material, and construction as will:

(a) Enable the examination, segregation, preparation, packaging, and other processing operations applicable to
§ 260.103 Operations and operating procedures shall be in accordance with an effective sanitation program.

(a) All operators in the receiving, transporting, holding, segregating, preparing, processing, packaging, and storing of processed products and ingredients, used as aforesaid, shall be strictly in accord with clean and sanitary methods and shall be conducted as rapidly as possible and at temperatures that will inhibit and retard the growth of bacterial and other micro-organisms and prevent any deterioration or contamination of such processed products or ingredients thereof. Mechanical adjustments or practices which may cause contamination of foods by oil, dust, paint, scale, fumes, grinding materials, decomposed food, filth, chemicals, or other foreign materials shall not be conducted during any manufacturing or processing operation.

(b) All processed products, raw materials, ingredients, and components thereof shall be subject to inspection during each manufacturing or processing operation. To assure a safe, wholesome finished product, changes in processing methods and procedures as may be required by the Director shall be effectuated as soon as practicable. All processed products which are not manufactured or prepared in accordance with the requirements contained in §260.96 to §260.104 or are unwholesome or otherwise not fit for human food shall be removed and segregated prior to any further processing operation.

(c) Official establishments operating under Federal inspection should have an effective quality control program as appropriate for the nature of the products and processing operations.

(d) All ingredients used in the manufacture or processing of any processed product shall be wholesome and fit for human food.

(e) The methods and procedures employed in the receiving, segregating, handling, transporting, and processing of ingredients in official establishment(s) shall be adequate to result in a satisfactory processed product. Such methods and procedures include, but are not limited to, the following requirements:

1. Containers, utensils, pans, and buckets used for the storage or transporting of partially processed food ingredients shall not be nested unless re-washed and sanitized before each use;
2. Containers which are used for holding partially processed food ingredients shall not be stacked in such a manner as to permit contamination of the partially processed food ingredients;
3. Packages or containers for processed products shall be clean when being filled with such products; and all reasonable precautions shall be taken to avoid soiling or contaminating the surface of any package or container liner which is, or will be, in direct contact with such products;
4. Retention tags: (1) Any equipment such as, but not limited to, conveyors, tillers, sorters, choppers, and containers which fail to meet appropriate and adequate sanitation requirements will be identified by the inspector in an appropriate and conspicuous manner with the word “RETAI ND.” Following such identification, the equipment shall not be used until the discrepancy has been resolved, the equipment reinspected and approved by the inspector and the “RETAI ND” identification removed by the inspector.
5. Lot(s) of processed products that may be considered to be mislabeled and/or unwholesome by reason of contaminants or which may otherwise be in such condition as to require further evaluation or testing to determine that...
§ 260.104 Personnel.

The establishment management shall be responsible for taking all precautions to assure the following:

(a) Disease control. No person affected by disease in a communicable form, or while a carrier of such disease, or while affected with boils, sores, infected wounds, or other abnormal sources of microbiological contamination, shall work in a food plant in any capacity in which there is a reasonable possibility of food ingredients becoming contaminated by such person, or of disease being transmitted by such person to other individuals.

(b) Cleanliness. All persons, while working in direct contact with food preparation, food ingredients, or surfaces coming into contact therewith shall:

(1) Wear clean outer garments, maintain a high degree of personal cleanliness, and conform to hygienic practices while on duty, to the extent necessary to prevent contamination of food products.

(2) Wash and sanitize their hands thoroughly to prevent contamination by undesirable microorganisms before starting work, after each absence from the work station, and at any other time when the hands may have become soiled or contaminated.

(3) Remove all insecure jewelry and, when food is being manipulated by hand, remove from hands any jewelry that cannot be adequately sanitized.

(4) If gloves are used in food handling, maintain them in an intact, clean, and sanitary condition. Such gloves shall be of an impermeable material except where their usage would be inappropriate or incompatible with the work involved.

(5) Wear hair nets, caps, masks, or other effective hair restraints. Other persons that may incidentally enter the processing areas shall comply with this requirement.

(6) Not store clothing or other personal belongings, eat food, drink beverages, chew gum, or use tobacco in any form in areas where food or food ingredients are exposed or in areas used for washing equipment or utensils.

(7) Take any other necessary precautions to prevent contamination of foods with microorganisms or foreign substances including, but not limited to perspiration, hair, cosmetics, tobacco, chemicals, and medicants.

(c) Education and training. Personnel responsible for identifying sanitation failures or food contamination should have a background of education or experience, or a combination thereof, to provide a level of competency necessary for production of clean wholesome food. Food handlers and supervisors should receive appropriate training in proper food-handling techniques and food-protection principles and should be cognizant of the danger of poor personal hygiene and unsanitary practices, and other vectors of contamination.

§§ 260.200-260.201 [Reserved]
other authorities delegated to the U.S. Department of Commerce.

§ 261.102 Publication and removal of U.S. Grade Standards.

(a) The voluntary U.S. Standards for Grades adopted pursuant to this part shall be issued as Program policies and contained within the NMFS Fishery Products Inspection Manual. Compliance with voluntary standards issued as Program policies within the manual shall satisfy the requirements of this part. Compliance with a voluntary standard issued as a Program policy does not relieve any party from the responsibility to comply with the provisions of the Federal Food, Drug, and Cosmetic Act; or other Federal laws and regulations.

(b) Notification of an application for a new grade standard shall be published in the FEDERAL REGISTER. If adopted, the grade standard shall be issued as a Program policy and contained in the NMFS Fishery Products Inspection Manual.

(c) Revision and revision of a U.S. Standard for Grades will be made a Program policy amendment and contained in the NMFS Fishery Products Inspection Manual.

(d) The NMFS Fishery Products Inspection Manual is available to interested parties.

§ 261.103 Basis for determination of a U.S. Standard for Grades.

(a) To address the inherently distinct and dissimilar attributes found in the fishery product groups, each standard for grades should have a different scope and product description, product forms, sample sizes, definition of defects, etc. The Secretary will make the final determination regarding the content of a U.S. Standard for Grades.

(b) A proposal for a new or revised U.S. grade standard may include the following:

(1) Scope and product description, which describes the products that are eligible for grading using the standard (e.g., fish portion, fish fillet).

(2) Product forms, which describe the types, styles and market forms covered by the standard (e.g., skin-off, tail-on, headless).

(3) Grade and inspection marks, which describe the grades and inspection mark criteria for each grade category (e.g., Grade A ≤ 15 points).

(4) Grade determination, which describes the means by which the grade is determined (i.e., the factors rated by score points and those that are not). Standards may contain defect grouping limiting rules that contain additional provisions that must be met.

(5) Sampling, which describes the method of sampling and sample unit sizes (e.g., 10 portions, 8 ounces, etc.).

(6) Procedures that describe the process used to determine the product grade (e.g., label declarations, sensory evaluation).

(7) Definitions of defects, which outline the defects associated with the products covered by the standard, defines them, and describes the method of counting or measuring the defects. This section may provide associated defect points or reference a defect table (e.g., bruises, blood spots, bones, black spots, coating defects, 1-inch squares, percent by weight, ratios).

(8) Defect point assessment, which describes how to assess points and provides any special guidance that may be necessary to the particular standard (e.g., defect points for certain categories are added together and divided by the weight of the sample unit; the number of instances are counted to determine if it is slight, moderate, or excessive defect).

(9) Tolerances for lot certification, which provide the sections from Title 50 CFR that regulate lot certification.

(10) Hygiene, which specifies the sections of applicable Federal regulations regulating the safe, wholesome production of food for human consumption.

(11) Methods of analysis, which describe the methods of analysis that will be used in the evaluation of the products covered by the standard for grades (e.g., net weight, deglazing, debreading).

(12) Defect table, which is the table of defects and associated points to be assessed for each defect.
Sec. 296.1 Purpose.  
These regulations implement title IV of the Outer Continental Shelf Lands Act Amendments of 1978, as amended (title IV). Title IV establishes a Fishermen's Contingency Fund to compensate commercial fishermen for damage or loss caused by obstructions associated with oil and gas activities on the Outer Continental Shelf.

§ 296.2 Definitions.  
Area affected by Outer Continental Shelf activities means the area within a 3-mile radius of any casualty site which:

1. Includes any portion of a leased block, pipeline, easement, right of way, or other OCS oil and gas exploration, development, or production activity; or
2. Is otherwise associated (as determined by the Chief, Financial Services Division) with OCS oil and gas activities, such as, for example, expired lease areas, relinquished rights-of-way or easements, and areas used extensively by surface vessels supporting OCS oil and gas activities (areas landward of the OCS are included when such areas meet this criterion).

296.1 Purpose.  
296.2 Definitions.  
296.3 Fishermen’s contingency fund.  
296.4 Claims eligible for compensation.  
296.5 Instructions for filing claims.

Source: 47 FR 49600, Nov. 1, 1982, unless otherwise noted.

§ 296.1 Purpose.  
These regulations implement title IV of the Outer Continental Shelf Lands Act Amendments of 1978, as amended (title IV). Title IV establishes a Fishermen's Contingency Fund to compensate commercial fishermen for damage or loss caused by obstructions associated with oil and gas activities on the Outer Continental Shelf.

§ 296.2 Definitions.  
Area affected by Outer Continental Shelf activities means the area within a 3-mile radius of any casualty site which:

1. Includes any portion of a leased block, pipeline, easement, right of way, or other OCS oil and gas exploration, development, or production activity; or
2. Is otherwise associated (as determined by the Chief, Financial Services Division) with OCS oil and gas activities, such as, for example, expired lease areas, relinquished rights-of-way or easements, and areas used extensively by surface vessels supporting OCS oil and gas activities (areas landward of the OCS are included when such areas meet this criterion).

Chief, FSD means Chief, Financial Services Division, National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910; telephone: (301) 713–2396.

Citizen of the United States means any person who is a United States citizen, any State, or any corporation, partnership, or association organized under the laws of any state which meets the requirements for documenting vessels in the U.S. coastwise trade.

Commercial fisherman means any citizen of the United States who owns, operates, or is employed on a commercial fishing vessel.

Commercial fishing vessel means any marine craft which is documented under the laws of the United States or, if under five net tons, registered under the laws of any State, and used for commercial fishing or activities directly related to commercial fishing.

Easement means a right of use or easement granted under 30 CFR 250.18.

Fish means all forms of marine animal and plant life other than marine mammals, birds, and highly migratory species.

Fishing gear means any commercial fishing vessel, and any equipment of such vessel.

Fund means the Fishermen’s Contingency Fund established by title IV of the Outer Continental Shelf Lands Act Amendments of 1978.

Holder means the owner of record of each lease, prelease exploratory drilling permit, easement, or right-of-way or any agent or assignee of an owner.

Lease means any authority under section 8 or section 6 of the OCS Lands Act to develop and produce or explore for oil or gas.

Negligence or fault includes, but is not limited to, failure to:

1. Remain outside of any navigation safety zone established around oil and gas rigs and platforms by any responsible Federal agency;
2. Avoid obstructions recorded on nautical charts or in the Notice to Mariners or marked by a buoy or other surface marker (casualties occurring
within a one-quarter mile radius of obstructions so recorded or marked are presumed to involve negligence or fault of the claimant;

(3) Abide by established rules of the road;

(4) Use proper care; or

(5) Use due care and diligence to mitigate the damage or loss.

Outer Continental Shelf means all submerged lands lying seaward and outside of the area of lands beneath navigable waters as defined in 43 U.S.C. section 1301, and of which the subsoil and seabed appertain to the United States and are subject to its jurisdiction and control. Generally, but not in all cases, this includes all submerged lands lying seaward of the territorial sea (3 miles from a State’s coastline, or 9 miles from the coast of Texas or Florida).

Person means an individual, partnership, corporation, association, public or private organization, government, or other entity.

Resulting Economic Loss means the gross income, as estimated by the Chief, FSD, that a claimant will lose because of not being able to fish, or having to reduce fishing effort, during the period before the damaged or lost fishing gear concerned is repaired or replaced and available for use. This period must be reasonable. This period begins on the date of the casualty and stops on the date the damage could reasonably have been remedied by repair or replacement.

Right-of-way means any right-of-way granted under section 5(e) of the OCS Lands Act or under 43 CFR 3340.0-5. Secretary means the Secretary of Commerce or his designee.

§ 296.3 Fishermen’s contingency fund.

(a) General. There is established in the Treasury of the United States the Fishermen’s Contingency Fund. The Fund is available without fiscal year limitation as a revolving fund to carry out the purposes of title IV of the Outer Continental Shelf Lands Act Amendments of 1978, as amended.

(b) Payments into the fund. Each Holder of an exploration permit, lease, easement, or rights-of-way for the construction of a pipeline, or a prelease exploration drilling permit issued or maintained under the Outer Continental Shelf Lands Act, in effect on or after June 30, 1982, shall pay assessments to the Fund. All pipeline right-of-way and easements are to be included for assessment except those constructed and operated lines within the confines of a single lease or group of contiguous leases under unitized operation or single operator. Payments will not be required for geological or geophysical permits, other than prelease exploratory drilling permits issued under section 11 of the Outer Continental Shelf Lands Act (43 U.S.C. 1340).

(1) Assessments to maintain the fund. When the total amount in the Fund is less than the Chief, FSD, determines is needed to pay Fund claims and expenses, the Chief, FSD, will notify the Secretary of the Interior that additional assessments are needed.

(2) Billing and collections. The Secretary of the Interior will calculate the amounts to be paid by each Holder and shall notify each Holder of the dollar amount and the time and place for all payments. Each assessment shall be paid to the Secretary of the Interior no later than 45 days after the Secretary of the Interior sends notice of the assessment.

(3) Annual assessment limits. No Holder shall be required to pay in excess of $5,000 for any lease, permit, easement or right-of-way in any calendar year.

(c) Moneys recovered through subrogation. Any moneys recovered by the Secretary through the subrogation of a claimant’s rights shall be deposited into the Fund.

(d) Investments of the fund. Excess sums in the Fund will be invested in obligations of, or guaranteed by, the United States. Revenue from such investments shall be deposited in the Fund.

(e) Litigation. The Fund may sue and be sued in its own name.

§ 296.4 Claims eligible for compensation.

(a) Claimants. Damage or loss eligible for Fund compensation must be suffered by a commercial fisherman.

(b) Damage or loss of fishing gear. Damage or loss is eligible for Fund...
§ 296.5 Instructions for filing claims.

(a) Fifteen-day report required to gain presumption of causation—(1) General. Damages or losses are presumed to be caused by materials, equipment, tools, containers, or other items associated with OCS oil and gas exploration, development, or production activities. Damage or loss may be eligible for compensation even though it did not occur in OCS waters if the item causing the damage or loss was associated with oil and gas exploration, development, or production activities in OCS waters.

(c) Exceptions. Damage or loss is not eligible for Fund compensation:

(1) If the damage or loss was caused by the negligence or fault of the claimant;
(2) If the damage or loss occurred prior to September 18, 1978;
(3) To the extent that damage or loss exceeds the replacement value of the fishing gear involved;
(4) For any portion of the damage or loss which can be compensated by insurance;
(5) If the claim is not filed within 90 calendar days of the date the claimant or the claimant’s agent first became aware of the damage or loss (or such longer period as the Secretary may allow under unusual and extenuating circumstances); or
(6) If the damage or loss was caused by an obstruction unrelated to OCS oil and gas exploration, development, or production activities.

the claim was received by the Chief, FSD.

(d) Aggregating claims. If more than one commercial fisherman suffers loss or damage from the same incident (for example, when several members of the crew lost income due to loss of fishing time), all claims should be submitted on their behalf by the owner or operator of the commercial fishing vessel involved.

(e) Contents of claim. Each claim must be signed by the claimant and must accurately and completely provide the following information:

(1) The name, mailing address, telephone number, citizenship, and occupational status (for example, vessel owner, operator, or crew member) of each claimant;

(2) The name and Coast Guard documentation number or State registration number of the commercial fishing vessel involved in the damage or loss;

(3) The home port, type, and size of the vessel involved in the casualty;

(4) A full statement of the circumstances of the damage or loss including:
   (i) The date when the casualty was first discovered by the claimant,
   (ii) The water depth (if known) and visibility at the time and location where the casualty occurred,
   (iii) The direction, speed, and activities of the claimant's vessel immediately before, during, and after the casualty (including a full description of both the deployment of any fishing gear which is the subject of the claim and all attempts at retrieval of the gear),
   (iv) The names and addresses of all witnesses to the casualty,
   (v) The location where the casualty occurred in Loran C coordinates or the next most accurate method of position fixing available to the claimant,
   (vi) A description of the item or obstruction (if sighted or recovered) which caused the casualty, and whether or not any surface markers were attached to or near the obstruction. Submit any available photographs of the item or obstruction. State reasons for believing the obstruction is associated with OCS oil and gas activities.

(5) The amount claimed for property damage or loss and a full statement of the type and extent of damage or loss including:
   (i) An inventory of all components of fishing gear damaged or lost,
   (ii) The date, place, and cost of acquisition of all fishing gear damaged or lost and proof of its purchase (sales receipts, affidavits, or other evidence),
   (iii) One estimate from a commercial fishing gear repair or supply company of the present replacement or repair (whichever applies) cost of the damaged or lost fishing gear. If the gear will be repaired by the claimant himself, a detailed estimate by the claimant identifying the repair cost.

(f) The amount claimed for economic loss and the basis for that amount with supporting documentation, as follows:
   (i) Trip tickets for the three vessel trips immediately before the trip during which the casualty was discovered and for the vessel trip immediately following the trip during which the casualty occurred.
   (ii) A statement of the amount of time involved on each of the vessel trips above (or if the casualty involves fixed gear, a statement of the number of gear units deployed on each of these trips).
   (iii) A statement of the amount of time lost from fishing because of the damage or loss and a full explanation of why this time period is reasonable.
   (iv) Documentation of the date replacement gear was ordered and received or the date gear repair began and ended. This documentation may consist of purchase orders, bills of lading, or statements from sellers or repairers.

(7) The amount claimed for other consequential loss or costs (including fees for claim preparation, etc.) with suitable documentation of the amounts claimed (such as invoices, receipts, etc.).

§ 296.6 NMFS processing of claims.

(a) Action by NMFS. Upon receipt of a claim, the Chief, FSD, will:

(1) Send an abstract of the claim to the Secretary of the Interior;

(2) Send the reported location of any obstruction which was not recovered.
§ 296.7 Burden of proof and presumption of causation.

(a) Burden of proof. The claimant has the burden to establish, by a preponderance of the evidence, all facts necessary to qualify his claim, including:

(1) The identity or nature of the item which caused the damage or loss; and

(2) That the item is associated with OCS energy activity in the vicinity where the damage or loss occurred.

(b) Presumption of causation. Notwithstanding the above, damages or losses are presumed to be caused by items associated with OCS energy activity on the OCS if the claimant establishes that:

(1) The claimant's commercial fishing vessel was being used for commercial fishing and was located in an area affected by OCS activities; and

(2) A report on the location of the obstruction which caused such damage or loss, and the nature of such damage or loss, was made within fifteen days after the date on which the vessel first returned to a port after discovering such damage.

(c) Failure to meet filing requirements. The Chief, FSD, may reject any claim that does not meet the filing requirements. The Chief, FSD, will give a claimant whose claim is rejected written notice of the reasons for rejection within 30 days after the date on which the claim was filed. If the claimant does not refile an acceptable claim within 30 days after the date of this written notice, the claimant is not eligible for Fund compensation unless there are extenuating circumstances.

(d) Proceedings—(1) Location. Any required proceeding will be conducted within such United States judicial district as may be mutually agreeable to the claimant and the Assistant Administrator, NMFS, or his designee, or if no agreement can be reached, within the United States judicial district in which the claimant's home port is located.

(2) Powers. For purposes of any proceeding, the Assistant Administrator, NMFS, or his designee, shall have the power to administer oaths and subpoena witnesses and the production of books, records, and other evidence relevant to the issues involved.

(3) Amendments to claims. A claimant may amend the claim at any time before the Chief, FSD, issues an initial determination.

(4) Criminal penalty for fraudulent claims. Any person who files a fraudulent claim is subject to prosecution under 18 U.S.C. sections 287 and 1001, each of which, upon conviction, imposes a penalty of not more than a $10,000 fine and 5 years' imprisonment, or both.

§ 296.8 Amount of award.

(a) Actual damages. The award for damaged fishing gear will be the lesser of the gear’s repair cost or replacement cost. The award for lost fishing gear will be the gear’s replacement cost.

(b) Consequential damages. An award may also include compensation for any damage or loss (except personal injury) that is incurred as a consequence of the fishing gear damage or loss.

(c) Resulting economic loss. An award may also include 50 percent of the resulting economic loss from damage to or loss of fishing vessels and gear.

(d) Attorney, CPA, consultant fees. An award may also include compensation for reasonable fees paid by the claimant to an attorney, CPA, or other consultant for the preparation or prosecution of a claim.

(e) Negligence of claimant. (1) An award will be reduced to the extent that the loss or damage was caused by the negligence or fault of the claimant. (For example, a claimant who sustained $10,000 in damages and whose negligence or fault was found to be responsible for 40% of the damage would receive $6,000 in compensation. If the same claimant were responsible for 99% of the negligence or fault that caused the damage, the claimant would receive $100 in compensation).

(2) Negligence of the owner or operator of the fishing vessel or gear will reduce crewmember awards to the same extent that it reduces an award to the vessel’s owner or operator.

(f) Insurance proceeds. An award will be reduced by the amount the claimant has, or reasonably would have, received under a commercial policy of full hull and machinery and protection and indemnity insurance, whether or not such insurance was in effect at the time the casualty occurred.

§ 296.9 Initial determination.

The Chief, FSD will make an initial determination on a claim within 60 days after the day on which the claim is accepted for filing. The initial determination will state:

(a) If the claim is disapproved, the reason for disapproval, or

(b) If the claim is approved, the amount of compensation and the basis on which the amount was determined.

§ 296.10 Agency review.

(a) Within 30 days after the Chief, FSD, issues an initial determination, the claimant, or any other interested person who submitted evidence relating to the initial determination, may ask the Assistant Administrator, NMFS, or his designee, for a review of the initial determination.

(b) The petitioner may submit written or oral evidence within 30 days of filing the petition for review.

§ 296.11 Final determination.

(a) If a petition for review of an initial determination is filed within 30 days after the date the Chief, FSD, issues an initial determination, the Assistant Administrator, NMFS, or his designee will conduct a review of the initial determination, and will issue a final determination no later than 60 days after receipt of the request for review of the initial determination.

(b) If a petition for review of an initial determination is not filed within 30 days after the day on which the Chief, FSD, issues an initial determination, the initial determination will become a final determination.
§ 296.12 Payment of costs.

(a) By person denying responsibility for damage. Any person who is notified by the Interior Department and fails to respond or denies responsibility for the damages claimed will pay the costs of the proceedings if such person is subsequently found to be responsible for the damage claimed.

(b) By the claimant. Any claimant who files a claim will pay the cost of the proceedings if such person is subsequently found to be responsible for the damage claimed.

(c) By person denying responsibility for damage and the claimant. If more than one party is found to have responsibility for the damage claimed, then the cost of the proceedings will be apportioned between them.

§ 296.13 Payment of award for claim.

(a) Upon an initial determination, the Chief, Financial Services Division, shall immediately disburse the claim awarded if the claimant signed as part of his/her application a statement agreeing to repay all or any part of the award if the award should for any reason be subsequently reduced.

(b) [Reserved]

[61 FR 6322, Feb. 20, 1996]

§ 296.14 Subrogation.

(a) The claim application will contain a subrogation statement signed by the claimant as a condition of payment of the claim which:

(1) Assigns to the Fund the claimant's rights against third parties; and

(2) Provides that the claimant will assist the Fund in any reasonable way to pursue those rights.

(b) Collection of subrogated rights. If a reasonable chance of successful collection exists, NMFS will refer any subrogated rights to the Justice Department for collection.

(c) Any moneys recovered through subrogation shall be deposited into the Fund.

§ 296.15 Judicial review.

Any claimant or other person who is aggrieved by a final determination may, no later than 30 days after the determination, seek judicial review of the determination in the United States District Court for such judicial district as may be mutually agreeable to the parties concerned or, if no agreement can be reached, in the United States District Court for the judicial district in which the claimant's home port is located.

§ 300.1 Purpose and scope.

The purpose of this part is to implement the fishery conservation and management measures provided for in the international treaties, conventions, or agreements specified in each subpart, as well as certain provisions of the Lacey Act Amendments of 1981. The regulations in this part apply, except where otherwise specified in this part, to all persons and all places subject to the jurisdiction of the United States under the acts implemented under each subpart.

§ 300.2 Definitions.

In addition to the definitions in each act, agreement, convention, or treaty specified in subparts B through K of this part, the terms used in this part have the following meanings:

Authorized officer means:

(1) Any commissioned, warrant, or petty officer of the U.S. Coast Guard; or any U.S. Coast Guard personnel accompanying and acting under the direction of a commissioned, warrant, or petty officer of the U.S. Coast Guard;

(2) Any special agent or fisheries enforcement officer of NMFS; or

(3) Any person designated by the head of any Federal or state agency that has entered into an agreement with the Secretary of Commerce or the Commandant of the U.S. Coast Guard to enforce the provisions of any statute administered by the Secretary.

CCAMLR inspector means a person designated by a member of the Commission for the Conservation of Antarctic Marine Living Resources as an inspector under Article XXIV of the Convention on the Conservation of Antarctic Marine Living Resources to verify compliance with measures in effect under the Convention.

Director, Alaska Region, means Director, Alaska Region, NMFS, 709 West Ninth Street, Suite 401, P.O. Box 21668, Juneau, AK 99802, or a designee.

Director, Northeast Region, means Director, Northeast Region, NMFS, One Blackburn Drive, Gloucester, MA 01930-2298, or a designee.

Director, Northwest Region, means Director, Northwest Region, NMFS, One Blackburn Drive, Gloucester, MA 01930-2298, or a designee.

Director, Southeast Fisheries Science Center, means Director, Science and Research, Southeast Fisheries Science Center, NMFS, 75 Virginia Beach Drive, Miami, FL 33149, or a designee.

Director, Southeast Region, means Director, Southeast Region, NMFS, 9721
§ 300.3 Relation to other laws.

Other laws that may apply to fishing activities addressed herein are set forth in §600.705 of chapter VI of this title.

§ 300.4 General prohibitions.

It is unlawful for any person subject to the jurisdiction of the United States to:

Executive Center Drive, N., St. Petersburg, FL 33702, or a designee.

Director, Southwest Region, means Director, Southwest Region, NMFS, 501 West Ocean Boulevard, Suite 4200, Long Beach, CA 90802-4213, or a designee.

Exclusive Economic Zone or EEZ means the zone established by Presidential Proclamation 5030, dated March 10, 1983, as defined in 16 U.S.C. 1802(6).

Fishing or to fish means:

1. The catching or taking of fish;
2. The attempted catching or taking of fish;
3. Any other activity that can reasonably be expected to result in the catching or taking of fish; or
4. Any operations at sea in support of, or in preparation for, any activity described in paragraphs (1) through (3) of this definition.

Fishing vessel means any vessel, boat, ship, or other craft that is used for, equipped to be used for, or of a type normally used for fishing.

IATTC means the Inter-American Tropical Tuna Commission, established pursuant to the Convention for the Establishment of an Inter-American Tropical Tuna Commission.

Import means to land on, bring into, or introduce into, any vessel, the master or other individual aboard and in charge of that vessel.

Owner means, with respect to any vessel:

1. Any person who owns that vessel in whole or part (whether or not the vessel is leased or chartered);
2. Any charterer of the vessel, whether bareboat, time, or voyage;
3. Any person who acts in the capacity of a charterer, including but not limited to parties to a management agreement, operating agreement, or any similar agreement that bestows control over the destination, function, or operation of the vessel; or
4. Any agent designated as such by a person described in this definition.

Person means any individual (whether or not a citizen or national of the United States), any corporation, partnership, association, or other entity (whether or not organized, or existing under the laws of any state), and any Federal, state, local, or foreign government or any entity of any such government.

Secretary means the Secretary of Commerce or a designee.

USCG means the United States Coast Guard.

Yellowfin tuna means any fish of the species Thunnus albacares (synonomy: Neothunnus macropterus).

NMFS Headquarters means NMFS, 1315 East-West Highway, Silver Spring, MD 20910. Attention: Office of Fisheries Conservation and Management.

Official number means the documentation number issued by the USCG or the certificate number issued by a state or the USCG for an undocumented vessel, or any equivalent number if the vessel is registered in a foreign nation.

Operator means, with respect to any vessel, the master or other individual aboard and in charge of that vessel.

Owner means, with respect to any vessel:

1. Any person who owns that vessel in whole or part (whether or not the vessel is leased or chartered);
2. Any charterer of the vessel, whether bareboat, time, or voyage;
3. Any person who acts in the capacity of a charterer, including but not limited to parties to a management agreement, operating agreement, or any similar agreement that bestows control over the destination, function, or operation of the vessel; or
4. Any agent designated as such by a person described in this definition.

Person means any individual (whether or not a citizen or national of the United States), any corporation, partnership, association, or other entity (whether or not organized, or existing under the laws of any state), and any Federal, state, local, or foreign government or any entity of any such government.

Secretary means the Secretary of Commerce or a designee.

USCG means the United States Coast Guard.

Yellowfin tuna means any fish of the species Thunnus albacares (synonomy: Neothunnus macropterus).

§ 300.3 Relation to other laws.

Other laws that may apply to fishing activities addressed herein are set forth in §600.705 of chapter VI of this title.
(a) Violate the conditions or restrictions of a permit issued under this part.

(b) Fail to submit information, fail to submit information in a timely manner, or submit false or inaccurate information, with respect to any information required to be submitted, reported, communicated, or recorded pursuant to this part.

(c) Make any false statement, oral or written, to an authorized officer concerning the catching, taking, harvesting, possession, landing, purchase, sale, or transfer of fish, or concerning any other matter subject to investigation by that officer under this part.

(d) Conceal any material fact (including by omission), concerning any matter subject to investigation by an authorized officer under this part.

(e) Refuse to allow an authorized officer to inspect any report or record required to be made or kept under this part.

(f) Falsify, cover, or otherwise obscure, the name, home port, official number (if any), or any other similar marking or identification of any fishing vessel subject to this part such that the vessel cannot be readily identified from an enforcement vessel or aircraft.

(g) Fail to comply immediately with any of the enforcement and boarding procedures specified in this part.

(h) Refuse to allow an authorized officer to board a fishing vessel, or enter any other area of custody (i.e., any vessel, building, vehicle, live car, pound, pier, or dock facility where fish might be found) subject to such person’s control, for the purpose of conducting any inspection, search, seizure, investigation, or arrest in connection with the enforcement of this part or any other applicable law.

(i) Destroy, stave, or dispose of in any manner, any fish, gear, cargo, or other matter, upon any communication or signal from an authorized officer of the United States, or upon the approach of such an officer, enforcement vessel, or aircraft, before the officer has had the opportunity to inspect same, or in contravention of directions from such an officer.

(j) Intentionally destroy evidence that could be used to determine if a violation of this part has occurred.

(k) Assault, resist, oppose, impede, intimidate, threaten, obstruct, delay, prevent, or interfere, in any manner, with an authorized officer in the conduct of any boarding, inspection, search, seizure, investigation, or arrest in connection with enforcement of this part.

(l) Resist a lawful arrest or detention for any act prohibited by this part.

(m) Interfere with, delay, or prevent, by any means, the apprehension, arrest, or detection of another person, knowing that such person has committed any act prohibited by this part.

(n) Interfere with, obstruct, delay, or prevent, by any means, an investigation, search, seizure, or disposition of seized property in connection with enforcement of this part.

(o) Ship, transport, offer for sale, sell, purchase, import, export, or have custody, control, or possession of, any living marine resource taken or retained in violation of this part.

(p) Violate any provision of any statute implemented by this part.

(q) Attempt to do any of the foregoing.

§ 300.5 Facilitation of enforcement.

(a) Compliance. The operator of, or any other person aboard, any fishing vessel subject to this part must immediately comply with instructions and signals issued by an authorized officer or CCAMLR inspector to stop the vessel, and with instructions to facilitate safe boarding and inspection of the vessel, its gear, equipment, fishing record (where applicable), and catch for purposes of enforcing this part.

(b) Communications. (1) Upon being approached by a USCG vessel or aircraft, or other vessel or aircraft with an authorized officer or CCAMLR inspector aboard, the operator of a fishing vessel must be alert for communications conveying enforcement instructions.

(2) VHF-FM radiotelephone is the preferred method of communicating between vessels. If the size of the vessel and the wind, sea, and visibility conditions allow, a loudhailer may be used.
instead of the radio. Hand signals, placards, high frequency radiotelephone, voice, flags, whistle or horn may be employed by an authorized officer or CCAMLR inspector, and message blocks may be dropped from an aircraft.

(3) If other communications are not practicable, visual signals may be transmitted by flashing light directed at the vessel signaled. USCG units will normally use the flashing light signal "L" which, in the International Code of Signals, means "you should stop your vessel instantly."

(4) Failure of a vessel's operator promptly to stop the vessel when directed to do so by an authorized officer or CCAMLR inspector, or by an enforcement vessel or aircraft, using loudhailer, radiotelephone, flashing light, flags, whistle, horn or other means constitutes prima facie evidence of the offense of refusal to allow an authorized officer or CCAMLR inspector to board.

(5) A person aboard a vessel who does not understand a signal from an enforcement unit and who is unable to obtain clarification by loudhailer or radiotelephone must consider the signal to be a command to stop the vessel immediately.

(c) Boarding. The operator of a vessel directed to stop must:

(1) Monitor Channel 16, VHF-FM, if so equipped.

(2) Stop immediately and lay to or, if appropriate and/or directed to do so by the authorized officer or CCAMLR inspector, maneuver in such a way as to allow the safe boarding of the vessel by the authorized officer or CCAMLR inspector and the boarding party.

(3) Except for those vessels with a freeboard of 4 ft (1.25 m) or less, provide a safe ladder, if needed, for the authorized officer or CCAMLR inspector and boarding party to come aboard.

(4) When necessary to facilitate the boarding, when requested by an authorized officer or CCAMLR inspector, provide a manrope or safety line, and illumination for the ladder.

(5) Take such other actions as necessary to facilitate boarding and to ensure the safety of the authorized officer or CCAMLR inspector and the boarding party.

(d) Signals. The following signals, extracted from the International Code of Signals, may be sent by flashing light by an enforcement unit when conditions do not allow communications by loudhailer or radiotelephone. Knowledge of these signals by vessel operators is not required. However, knowledge of these signals and appropriate action by a vessel operator may preclude the necessity of sending the signal "L" and the necessity for the vessel to stop instantly.

(1) "AA" repeated (.- .-) is the call to an unknown station. The operator of the signaled vessel should respond by identifying the vessel by radiotelephone or by illuminating the vessel's identification.

(2) "RY-CY" (.-. -.-- -.-. -.--) means "you should proceed at slow speed, a boat is coming to you." This signal is normally employed when conditions allow an enforcement boarding without the necessity of the vessel being boarded coming to a complete stop, or, in some cases, without retrieval of fishing gear that may be in the water.

(3) "SQ3" (... --.- ...--) means "you should stop or heave to; I am going to board you."

Subpart B—High Seas Fisheries

Authority: 16 U.S.C. 5501 et seq.

§ 300.10 Purpose.

This subpart implements the High Seas Fishing Compliance Act of 1995 (Act), which requires the Secretary to license U.S. vessels fishing on the high seas.

§ 300.11 Definitions.

In addition to the terms defined in section 300.2 and those in the Act and the Agreement to Promote Compliance with International Conservation and Management Measures by Fishing Vessels on the High Seas, adopted by the Conference of the Food and Agriculture Organization of the United Nations on November 24, 1993 (Agreement), the terms used in this subpart have the following meanings. If a term is defined differently in §300.2, the Act, or the Agreement, the definition in this section shall apply.
§ 300.12 Issuing offices.

Any Regional Administrator may issue permits required under this subpart. While applicants for permits may submit an application to any Regional Administrator, applicants are encouraged to submit their applications (with envelopes marked “Attn: HSFCA Permits”) to the Regional Administrator with whom they normally interact on fisheries matters.

§ 300.13 Vessel permits.

(a) Eligibility. (1) Any high seas fishing vessel of the United States is eligible to receive a permit under this subpart, unless the vessel was previously authorized to be used for fishing on the high seas by a foreign nation, and—

(i) The foreign nation suspended such authorization, because the vessel undermined the effectiveness of international conservation and management measures, and the suspension has not expired; or

(ii) The foreign nation, within the 3 years preceding application for a permit under this section, withdrew such authorization, because the vessel undermined the effectiveness of international conservation and management measures.

(2) The restrictions in paragraphs (a)(1) (i) and (ii) of this section do not apply if ownership of the vessel has changed since the vessel undermined the effectiveness of international conservation and management measures, and the new owner has provided sufficient evidence to the Regional Administrator demonstrating that the owner and operator at the time the vessel undermined the effectiveness of such measures has no further legal, beneficial, or financial interest in, or control of, the vessel.

(3) The restrictions in paragraphs (a)(1) (i) and (ii) of this section do not apply if it is determined by the Regional Administrator that issuing a permit would not subvert the purposes of the Agreement.

(b) Application forms. The owner or operator of a high seas fishing vessel may apply for a permit under this subpart by completing an application form. Applicants may obtain an application form from a Regional Administrator.

(c) Application information. An applicant must submit a complete and accurate permit application, signed by the owner or operator, to the appropriate Regional Administrator.

(d) Fees. NMFS will charge a fee to recover the administrative expenses of permit issuance. The amount of the fee will be determined in accordance with the procedures of the NOAA Finance Handbook, available from a Regional Administrator, for determining administrative costs of each special product or service. The fee is specified with the application form. The appropriate fee must accompany each application. Failure to pay the fee will preclude issuance of the permit. Payment by a commercial instrument later determined to be insufficiently funded will invalidate any permit.

(e) Issuance. (1) Except as provided in subpart D of 15 CFR part 904, the Regional Administrator will issue a permit, which will include appropriate conditions or restrictions, within 30 days of receipt of a completed application and payment of the appropriate fee.
§ 300.14  Vessel identification.

(a) General. A vessel permitted under this subpart must be marked for identification purposes in accordance with this section.

(b) Marking. Vessels must be marked either:

(1) In accordance with vessel identification requirements specified in Federal fishery regulations issued under the Magnuson-Stevens Act or under other Federal fishery management statutes; or

(2) In accordance with the following identification requirements:

(i) A vessel must be marked with its IRCS, or, if not assigned an IRCS, must be marked (in order of priority) with its Federal, state, or other documentation number appearing on its high seas fishing permit;

(ii) The markings must be displayed at all times on the vessel’s side or superstructure, port and starboard, as well as on a deck;

(iii) The markings must be placed so that they do not extend below the waterline, are not obscured by fishing gear, whether stowed or in use, and are clear of flow from scuppers or overboard discharges that might damage or discolor the markings;

(iv) Block lettering and numbering must be used;

(v) The height of the letters and numbers must be in proportion to the size of the vessel as follows: for vessels 25 meters (m) and over in length, the height of letters and numbers must be no less than 1.0 m; for vessels 20 m but less than 25 m in length, the height of letters and numbers must be no less than 0.8 m; for vessels 15 m but less than 20 m in length, the height of letters and numbers must be no less than 0.6 m; for vessels 12 m but less than 15 m in length, the height of letters and numbers must be no less than 0.4 m; for vessels 5 m but less than 12 m in length, the height of letters and numbers must be no less than 0.3 m; and for vessels under 5 m in length, the height of letters and numbers must be no less than 0.1 m;

(vi) The height of the letters and numbers to be placed on decks must be no less than 0.3 m;

(vii) The length of the hyphen(s), if any, must be half the height (h) of the letters and numbers;

(viii) The width of the stroke for all letters, numbers, and hyphens must be h/6;

(ix) The space between letters and/or numbers must not exceed h/4 nor be less than h/6;

(x) The space between adjacent letters having sloping sides must not exceed h/8 nor be less than h/10;

(xi) The marks must be white on a black background, or black on a white background;

(xii) The background must extend to provide a border around the mark of no less than h/6; and
§ 300.15 Prohibitions.

In addition to the prohibitions in section 300.4, it is unlawful for any person to:

(a) Use a high seas fishing vessel on the high seas in contravention of international conservation and management measures.

(b) Use a high seas fishing vessel on the high seas, unless the vessel has on board a valid permit issued under section 300.13.

(c) Use a high seas fishing vessel on the high seas that is not marked in accordance with § 300.14.

§ 300.16 Penalties.

(a) Any person, any high seas fishing vessel, the owner or operator of such vessel, or any person who has been issued or has applied for a permit, found to be in violation of the Act, this subpart, or any permit issued under this subpart will be subject to the civil and criminal penalty provisions, permit sanctions, and forfeiture provisions prescribed by the Act, 15 CFR part 904 (Civil Procedures), and other applicable laws.

(b) Permits under this subpart may be subject to permit sanctions prescribed by the Act, 15 CFR part 904 (Civil Procedures), and other applicable laws if any amount in settlement of a civil forfeiture imposed on a high seas fishing vessel or other property, or any civil penalty or criminal fine imposed on a high seas fishing vessel or on an owner or operator of such a vessel or on any other person who has been issued or has applied for a permit under any fishery resource statute enforced by the Secretary, has not been paid and is overdue.

§ 300.17 Reporting.

(a) General. The operator of any vessel permitted under this subpart must report high seas catch and effort information to NMFS in a manner set by this section. Reports must include: identification information for vessel and operator; operator signature; crew size; whether an observer is aboard; target species; gear used; dates, times, locations, and conditions under which fishing was conducted; species and amounts of fish retained and discarded; and details of any interactions with sea turtles or birds.

(b) Reporting options. (1) For the following fisheries, a permit holder must maintain and submit the listed reporting forms to the appropriate address and in accordance with the time limits required by the relevant regulations:

(i) Antarctic—CCAMLR Logbook (50 CFR 300.107);
(ii) Atlantic—Fishing Vessel Log Reports (50 CFR 648.7(b));
(iii) Atlantic Pelagic Longline—Longline Logbook (50 CFR 630.5);
(iv) Atlantic Purse Seine—Purse Seine Logbook (50 CFR 285.54);
(v) Pacific Pelagic Longline—Longline Logbook (50 CFR 660.14(a));
(vi) Eastern Pacific Purse Seine—IATTC Logbook (50 CFR 300.22); or
(vii) Western Pacific Purse Seine—South Pacific Tuna Treaty Logbook (50 CFR 300.34).

(2) For the albacore troll fisheries in the North and South Pacific, a permit holder must report high seas catch and effort by maintaining and submitting the log provided by the Regional Administrator, Southwest Region, NMFS.

(3) For other fisheries, a permit holder must report high seas catch and effort by maintaining and submitting records, specific to the fishing gear being used, on forms provided by the Regional Administrator of the NMFS Region which issued the permit holder’s HSFCA permit.

(c) Confidentiality of statistics. Information submitted pursuant to this subpart will be treated in accordance with the provisions of 50 CFR part 600 of this title.
§ 300.20 Purpose and scope.
The regulations in this subpart implement the Tuna Conventions Act of 1950 (Act) and the Atlantic Tunas Convention Act of 1975. The regulations provide a mechanism to carry out the recommendations of the Inter-American Tropical Tuna Commission (IATTC) for the conservation and management of highly migratory fish resources in the Eastern Tropical Pacific Ocean so far as they affect vessels and persons subject to the jurisdiction of the United States. They also carry out the recommendations of the International Commission for the Conservation of Atlantic Tunas for the conservation of bluefin tuna, so far as they affect vessels and persons subject to the jurisdiction of the United States.

[64 FR 44430, Aug. 16, 1999]

§ 300.21 Definitions.
In addition to the terms defined in § 300.2, in the Act, the Convention for the Establishment of an Inter-American Tropical Tuna Commission, and the International Convention for the Conservation of Atlantic Tunas, the terms used in this subpart have the following meanings. If a term is defined differently in § 300.2, the Act, or the Conventions, the definition in this section shall apply.

Bigeye tuna means the species Thunnus obesus.

Bluefin tuna means the fish species Thunnus thynnus that is found in any ocean area.

Commission’s Yellowfin Regulatory Area (CYRA) means the waters bounded by a line extending westward from the mainland of North America along the 40° N. latitude parallel, and connecting the following coordinates:

- 40° N. lat., 125° W. long.;
- 20° N. lat., 125° W. long.;
- 20° N. lat., 120° W. long.;
- 5° N. lat., 120° W. long.;
- 5° N. lat., 110° W. long.;
- 10° S. lat., 110° W. long.;
- 10° S. lat., 90° W. long.;
- 30° S. lat., 90° W. long.; and then eastward along the 30° S. latitude parallel to the coast of South America.

Convention Area means the waters within the area bounded by the mainland of the Americas along the 40° N. lat. and 40° S. lat., and 150° W. long.

Fish aggregating device (FAD) means a manmade raft or other floating object used to attract tuna and make them available to fishing vessels.

Fishing trip means a period of time between landings when fishing is conducted.

Fishing vessel means any vessel, boat, ship, or other craft that is used for, equipped to be used for, or of a type that is normally used for fishing or for assisting or supporting a vessel engaged in fishing, except purse seine skiffs.

Floating object means any natural object or FAD around which fishing vessels may catch tuna.

Incidental catch or incidental species means species caught while fishing with the primary purpose of catching a different species. An incidental catch is expressed as a percentage of the weight of the total fish on board.

Land or Landing means to begin transfer of fish from a fishing vessel. Once transfer begins, all fish on board the vessel are counted as part of the landing.

Observer means an individual placed aboard a fishing vessel under the IATTC observer program or any other international observer program in which the United States may participate.

Pacific bluefin tuna means the subspecies of bluefin tuna Thunnus thynnus orientalis that is found in the Pacific Ocean.

Regional Administrator means the Administrator, Southwest Region, NMFS, or his designee.

Tag means the dealer tag, a flexible self-locking ribbon issued by NMFS for the identification of bluefin tuna under § 300.26, or the BSD tag specified under § 635.42(a)(2) of this title.

Tender vessel means a vessel that does not engage in purse seine fishing but tends to FADs in support of tuna fishing operations.

Transship means to unload fish from a vessel that caught fish to another vessel.

Transshipment receiving vessel means any vessel, boat, ship, or other craft
that is used to receive fish from a fishing vessel.

§ 300.22 Yellowfin tuna—Record-keeping and written reports.

The master or other person in charge of a fishing vessel, or a person authorized in writing to serve as the agent for either person, must keep an accurate log of all operations conducted from the fishing vessel, entering for each day the date, noon position (stated in latitude and longitude or in relation to known physical features), and the tonnage of fish on board, by species. The record and bridge log maintained at the request of the IATTC shall be sufficient to comply with this paragraph, provided the items of information specified are accurately entered in the log.

§ 300.23 Yellowfin tuna—Persons and vessels exempted.

This subpart does not apply to:

(a) Any person or vessel authorized by the IATTC, the Assistant Administrator, or any state of the United States to engage in fishing for research purposes.

(b) Any person or vessel engaged in sport fishing for personal use.

§ 300.24 Pacific bluefin tuna—Dealer permits.

(a) General. A dealer importing Pacific bluefin tuna, or purchasing or receiving for export Pacific bluefin tuna first landed in the United States, must have a valid permit issued under this section.

(b) Application. A dealer must apply for a permit in writing on an appropriate form obtained from NMFS. The application must be signed by the dealer and be submitted to NMFS at least 30 days before the date upon which the dealer desires to have the permit made effective. The application must contain the following information: Company name, principal place of business, owner’s or owners’ names, applicant’s name (if different from owner or owners) and mailing address and telephone number, and any other information required by NMFS.

(c) Issuance. (1) Except as provided in subpart D of 15 CFR part 904, NMFS will issue a permit within 30 days of receipt of a completed application.

(2) NMFS will notify the applicant of any deficiency in the application. If the applicant fails to correct the deficiency within 15 days following the date of notification, the application will be considered abandoned.

(d) Duration. Any permit issued under this section is valid until December 31 of the year for which it is issued, unless suspended or revoked.

(e) Alteration. Any permit that is substantially altered, erased, or mutilated is invalid.

(f) Replacement. NMFS may issue replacement permits. An application for a replacement permit is not considered a new application.

(g) Transfer. A permit issued under this section is not transferable or assignable; it is valid only for the dealer to whom it is issued.

(h) Inspection. The dealer must keep the permit issued under this section at his/her principal place of business. The permit must be displayed for inspection upon request of any authorized officer, or any employee of NMFS designated by NMFS for such purpose.

(i) Sanctions. The Assistant Administrator may suspend, revoke, modify, or deny a permit issued or sought under this section. Procedures governing permit sanctions and denials are found at subpart D of 15 CFR part 904.

(j) Fees. NMFS may charge a fee to recover the administrative expenses of permit issuance. The amount of the fee is calculated, at least annually, in accordance with the procedures of the NOAA Finance Handbook, available from NMFS, for determining administrative costs of each special product or service. The fee may not exceed such costs and is specified on each application form. The appropriate fee must accompany each application. Failure to pay the fee will preclude issuance of the permit. Payment by a commercial instrument later determined to be insufficiently funded shall invalidate any permit.

(k) Change in application information. Within 15 days after any change in the information contained in an application submitted under this section, the
dealer issued a permit must report the change to NMFS in writing. The permit is void if any change in information is not reported within 15 days.

§ 300.25 Pacific bluefin tuna—Dealer recordkeeping and reporting.

Any person issued a dealer permit under § 300.24:

(a) Must submit to NMFS a biweekly report on bluefin imports and exports on forms supplied by NMFS.

(1) The report required to be submitted under this paragraph (a) must be postmarked within 10 days after the end of each 2-week reporting period in which Pacific bluefin tuna were exported. The bi-weekly reporting periods are defined as the first day to the 15th day of each month and the 16th day to the last day of the month.

(2) Each report must specify accurately and completely for each tuna or each shipment of bulk-frozen tuna exported: Date of landing or import; any tag number (if so tagged); weight in kilograms (specify if round or dressed); and any other information required by NMFS. At the top of each form, the company’s name, license number, and the name of the person filling out the report must be specified. In addition, the beginning and ending dates of the 2-week reporting period must be specified by the dealer and noted at the top of the form.

(b) Must allow an authorized officer, or any employee of NMFS designated by NMFS for this purpose, to inspect and copy any records of transfers, purchases, or receipts of Pacific bluefin tuna.

(c) Must retain at his/her principal place of business a copy of each tuna or each shipment of bulk-frozen tuna exported for a period of 2 years from the date on which it was submitted to NMFS.

§ 300.26 Pacific bluefin tuna—Tags.

(a) Issuance. NMFS will issue numbered tags to each person receiving a dealer’s permit under § 300.24.

(b) Transfer. Tail tags issued under this section are not transferable and are usable only by the permitted dealer to whom they are issued.

(c) Affixing tags. At the discretion of dealers permitted under § 300.24, a tag issued under paragraph (a) of this section may be affixed to each Pacific bluefin tuna purchased or received by the dealer. If so tagged, the tag must be affixed to the tuna between the fifth dorsal finlet and the keel and tag numbers must be recorded on NMFS reports required by § 300.25(a) and any documents accompanying the shipment of Pacific bluefin tuna for domestic commercial use or export.

(d) Removal. A NMFS-issued numbered tag affixed to any Pacific bluefin tuna at the option of any permitted dealer under paragraph (c) of this section or any tag affixed to any Pacific bluefin tuna to meet the requirements of § 635.42(a)(2) of this title must remain on the tuna until the tuna is cut into portions. If the tuna or tuna parts subsequently are packaged for transport for domestic commercial use or for export, the number on each tag attached to each tuna or its parts must be written legibly and indelibly on the outside of any package or container.

(e) Reuse. Tags issued under this section are separately numbered and may be used only once, one tail tag per fish, to distinguish the purchase of one Pacific bluefin tuna. Once affixed to a tuna or recorded on any package, container or report, a tail tag and associated number may not be reused.

§ 300.27 Pacific bluefin tuna—Documentation requirements.

Bluefin tuna imported into, or exported or re-exported from the customs territory of the United States is subject to the documentation requirements specified in §§ 635.41 through 635.44 of this title.

§ 300.28 Prohibitions.

In addition to the prohibitions in § 300.4, it is unlawful for any person or vessel subject to the jurisdiction of the United States to:
§ 300.29 Eastern Pacific fisheries management.

(a) Notification of IATTC recommendations. The Regional Administrator will directly notify owners or agents of U.S. tuna vessels of any fishery management recommendations made by the IATTC and approved by the Department of State that will affect fishing or other activities by U.S. parties with fishery interests in the Convention Area. As soon as practicable after such notification, the Regional Administrator will announce approved IATTC recommendations in the Federal Register.

(b) Tuna quotas. (1) Fishing seasons for all tuna species begin on January 1 and end either on December 31 or when NMFS closes the fishery for a specific species.

(2) The Regional Administrator may close the U.S. fishery for yellowfin, bigeye, or skipjack tuna or any other tuna species in the Convention Area or portion of the Convention Area when advised by the Director of Investigations of the IATTC that the associated quota has been or is projected to be reached. Any such closure may include:
   (i) An allowance for an incidental catch that may be landed while fishing for other tuna species;
   (ii) A prohibition on the further setting of specified gear types on floating objects by U.S. vessels in the Convention Area;
   (iii) Provisions for vessels that are at sea during an announced closure to fish unrestricted until the fishing trip is completed;
   (iv) Provisions for vessels at sea with an observer on board during any closure to land fish unrestricted if the landing occurs after December 31; or
   (v) Other measures to ensure that the conservation and management measures of the IATTC are achieved.

(3) The Regional Administrator will announce any such closures directly to the owners or agents of U.S. vessels who are fishing in or are eligible to fish in the Convention Area.

(4) As soon as practicable after being advised of the quota attainment or projection under paragraph (b)(2) of this section, the Regional Administrator will publish an announcement of the closure in the Federal Register.

(c) Use of tender vessels. No person subject to these regulations may use a tender vessel in the Convention Area.

(d) Transshipments at sea. No person subject to these regulations may transship purse seine-caught tuna from one vessel to another vessel at sea within the Convention Area.

[64 FR 44431, Aug. 16, 1999]

Subpart D—South Pacific Tuna Fisheries

Authority: 16 U.S.C. 973-973r.

§ 300.30 Purpose and scope.

This subpart implements the South Pacific Tuna Act of 1988 (Act) and the
Treaty on Fisheries Between the Governments of Certain Pacific Island States and the Government of the United States of America (Treaty) and applies to persons and vessels subject to the jurisdiction of the United States.

§ 300.31 Definitions.
In addition to the terms defined in § 300.2, in the Act, and in the Treaty, and unless the context requires otherwise, the terms used in this subpart have the following meanings. If a term is defined differently in § 300.2, the Act, or the Treaty, the definition in this section shall apply.

Administrator means the individual or organization designated by the Pacific Island Parties to act on their behalf under the Treaty and notified to the United States.

Applicable national law means any provision of law of a Pacific Island Party that is described in paragraph 1(a) of Annex I of the Treaty.

Authorized inspector means any individual authorized by a Pacific Island Party or the Secretary to conduct inspections, to remove samples of fish, and to gather any other information relating to fisheries in the Licensing Area.

Authorized officer means any officer who is authorized by the Secretary, or the Secretary of Transportation, or the head of any Federal or state agency that has entered into an enforcement agreement with the Secretary under section 10(a) of the Act.

Authorized party officer means any officer authorized by a Pacific Island Party to enforce the provisions of the Treaty.

Closed area means any of the closed areas identified in Schedule 2 of Annex I of the Treaty.

Fishing means searching for, catching, taking, or harvesting fish; attempting to search for, catch, take, or harvest fish; engaging in any other activity that can reasonably be expected to result in the locating, catching, taking, or harvesting of fish; placing, searching for, or recovering fish aggregating devices or associated electronic equipment such as radio beacons; any operation at sea directly in support of, or in preparation for, any activity described in this paragraph; or aircraft use, relating to the activities described in this definition, except for flights in emergencies involving the health or safety of crew members or the safety of a vessel.

Fishing arrangement means an arrangement between a Pacific Island Party and the owner of a U.S. fishing vessel that complies with section 6(b) of the Act.

Fishing vessel or vessel means any boat, ship, or other craft that is used for, equipped to be used for, or of a type normally used for commercial fishing, and that is documented under the laws of the United States.

Licensing Area means all waters in the Treaty Area except for:
(1) Those waters subject to the jurisdiction of the United States in accordance with international law.
(2) Those waters within closed areas.
(3) Those waters within limited areas closed to fishing.

Licensing period means the period of validity of licenses issued in accordance with the Treaty.

Limited area(s) means those areas so identified in Schedule 3 of Annex I of the Treaty.

Operator means any person who is in charge of, directs or controls a vessel, including the owner, charterer and master.

Pacific Island Party means a Pacific island nation that is a party to the Treaty.

Regional Administrator means the Director, Southwest Region, or a designee.

Tranship means to unload any or all of the fish on board a licensed vessel either ashore or onto another vessel.

Treaty Area means the area described in paragraph 1(k) of Article I of the Treaty.

§ 300.32 Vessel licenses.

(a) Each vessel fishing in the Licensing Area must have a license issued by the Administrator for the licensing period being fished, unless excepted by § 300.39. Each licensing period begins on June 15 and ends on June 14 of the following year.

(b) Upon receipt, the license or a duly certified copy, facsimile or telex confirmation must be carried on board the
§ 300.33 Compliance with applicable national laws.

The operator of the vessel shall comply with each of the applicable national laws, and the operator of the vessel shall be responsible for the compliance by the vessel and its crew with each of the applicable national laws, and the vessel shall be operated in accordance with those laws.

§ 300.34 Reporting requirements.

(a) License holders shall comply with the reporting requirements of parts 4 and 5 of Annex I to the Treaty.

(b) Information provided by license holders under Schedule 5 of Annex I of the Treaty shall be provided on the designated Forum Fisheries Agency form(s) to the Regional Administrator within 2 days of reaching port.

(c) Information provided by license holders under Schedule 6 of Annex I of the Treaty shall be provided on the designated Forum Fisheries Agency form(s) to the Regional Administrator within 2 days of completing unloading.
(d) Any information required to be recorded, or to be notified, communicated or reported pursuant to a requirement of these regulations, the Act, or the Treaty shall be true, complete and correct. Any change in circumstances that has the effect of rendering any of the information provided false, incomplete or misleading shall be communicated immediately to the Regional Administrator.

§ 300.35 Vessel and gear identification.

While a vessel is in the Licensing Area, a Limited Area closed to fishing, or a Closed Area, a recent and up-to-date copy of the International Code of Signals (INTERCO) shall be on board and accessible at all times. The operator shall comply with the 1989 Food and Agriculture Organization standard specifications for the marking and identification of fishing vessels. The international radio call sign of the vessel shall be painted in white on a black background, or in black on a white background, and be clear, distinct, and uncovered, in the following manner:

(a) On both sides of the vessel’s hull or superstructure, with each letter and number being at least 1 m high and having a stroke width of 16.7 cm, with the background extending to provide a border around the mark of not less than 16.7 cm.

(b) On the vessel’s deck, on the body of any helicopter and on the hull of any skiff, with each letter and number being at least 30 cm high, and having a stroke width of 5 cm with the background extending to provide a border around the mark of not less than 5 cm.

(c) On any other equipment being carried by and intended to be separated from the vessel during normal fishing operations, with each letter and number being at least 10 cm high and having a stroke width of 1.7 cm, with the background extending to provide a border around the mark of not less than 1.7 cm.

§ 300.36 Closed area stowage requirements.

At all times while a vessel is in a Closed Area, the fishing gear of the vessel shall be stowed in a manner as not to be readily available for fishing. In particular, the boom shall be lowered as far as possible so that the vessel cannot be used for fishing, but so that the skiff is accessible for use in emergency situations; the helicopter, if any shall be tied down; and launches shall be secured.

§ 300.37 Radio monitoring.

The international distress frequency, 2.182 mHz, and 156.8 mHz (Channel 16, VHF) shall be monitored continuously from the vessel for the purpose of facilitating communication with the fisheries management, surveillance and enforcement authorities of the Parties.

§ 300.38 Prohibitions.

(a) Except as provided for in §300.39, in addition to the prohibitions in §300.4, it is unlawful for any person subject to the jurisdiction of the United States to do any of the following:

1. To violate the Act or any provision of any regulation or order issued pursuant to Act.

2. To use a vessel for fishing in violation of an applicable national law.

3. To violate the terms and conditions of any fishing arrangement to which that person is a party.

4. To use a vessel for fishing in a Limited Area in violation of the requirements set forth in Schedule 3 of Annex I of the Treaty on “Limited Areas”.

5. To use a vessel for fishing in any Closed Area.

6. To refuse to permit any authorized officer or authorized party officer to board a fishing vessel for purpose of conducting a search or inspection in connection with the enforcement of the Act or the Treaty.

7. To refuse to comply with the instructions of an authorized officer or authorized party officer relating to fishing activities under the Treaty.

8. To refuse to permit an authorized inspector full access to any place where fish taken in the Licensing Area is unloaded.

9. To refuse to allow an authorized inspector to remove samples of fish from a vessel that fished in the Licensing Area.

10. To forcibly assault, resist, oppose, impede, intimidate, or interfere with:
§ 300.39

(i) Any authorized officer, authorized party officer or authorized inspector in the conduct of a search or inspection in connection with the enforcement of these regulations, the Act or the Treaty; or
(ii) An observer in the conduct of observer duties under the Treaty.

(11) To transship fish on board a vessel that fished in the Licensing Area, except in accordance with the conditions set out in parts 3 and 4 of Annex I to the Treaty.

(b) Except as provided for in § 300.39, it is unlawful for any person subject to the jurisdiction of the United States when in the Licensing Area:

(1) To use a vessel to fish unless validly licensed as required by the Administrator.

(2) To use a vessel for directed fishing for southern bluefin tuna or for fishing for any kinds of fish other than tunas, except that fish may be caught as a incidental bycatch.

(3) To use a vessel for fishing by any method, except the purse-seine method.

(4) To use any vessel to engage in fishing after the revocation of its license, or during the period of suspension of an applicable license.

(5) To operate a vessel in such a way as to disrupt or in any other way adversely affect the activities of traditional and locally based fishermen and fishing vessels.

(6) To use a vessel to fish in a manner inconsistent with an order issued by the Secretary under § 300.42 (section 11 of the Act).

(7) Except for circumstances involving force majeure and other emergencies involving the health or safety of crew members or the safety of the vessel, to use aircraft in association with fishing activities of a vessel, unless it is identified on the license application for the vessel, or any amendment thereto.

§ 300.39 Exceptions.

(a) The prohibitions of § 300.38 and the licensing requirements of § 300.32 do not apply to fishing for albacore tuna by vessels using the trolling method outside of the 200 nautical mile fisheries zones of the Pacific Island Parties.

(b) The prohibitions of § 300.38(a)(4), (a)(5), and (b)(3) do not apply to fishing under the terms and conditions of a fishing arrangement.

§ 300.40 Civil penalties.

The procedures of 15 CFR part 904 apply to the assessment of civil penalties, except as modified by the requirements of section 8 of the Act.

§ 300.41 Investigation notification.

Upon commencement of an investigation under section 10(b)(1) of the Act, the operator of any vessel concerned shall have 30 days after receipt of notification of the investigation and the operator’s rights under section 10(b)(1) to submit comments, information, or evidence bearing on the investigation, and to request in writing that the Secretary provide the operator an opportunity to present the comments, information, or evidence orally to the Secretary or the Secretary’s representative.

§ 300.42 Findings leading to removal from fishing area.

(a) Following an investigation conducted under section 10(b) of the Act, the Secretary, with the concurrence of the Secretary of State, and upon the request of the Pacific Island Party concerned, may order a fishing vessel that has not submitted to the jurisdiction of that Pacific Island Party to leave immediately the Licensing Area, all Limited Areas, and all Closed Areas upon making a finding that:

(1) The fishing vessel—

(i) While fishing in the Licensing Area did not have a license under the Treaty to fish in the Licensing Area, and that under paragraph 2 of Article 3 of the Treaty, the fishing is not authorized to be conducted in the Licensing Area without a license;

(ii) Was involved in any incident in which an authorized officer, authorized party officer, or observer was allegedly assaulted with resultant bodily harm, physically threatened, forcibly resisted, refused boarding or subjected to physical intimidation or physical interference in the performance of duties as authorized by the Act or the Treaty;

(iii) Has not made full payment within 60 days of any amount due as a result of a final judgment or other final
§ 300.60 Purpose and scope.

This subpart implements the North Pacific Halibut Act of 1982 (Act) and is intended to supplement, not conflict with, the annual fishery management measures adopted by the International Pacific Halibut Commission (Commission) under the Convention between the United States and Canada for the Preservation of the Halibut Fishery of the Northern Pacific Ocean and Bering Sea (Convention).
§ 300.61 Definitions.

In addition to the terms defined in § 300.2 and those in the Act and the Convention, the terms used in this subpart have the following meanings. If a term is defined differently in § 300.2, the Act, or the Convention, the definition in this section shall apply.

Area 2A includes all waters off the States of California, Oregon, and Washington.

Charter vessel means a vessel used for hire in sport fishing for halibut, but not including a vessel without a hired operator.

Commercial fishing means fishing, the resulting catch of which either is, or is intended to be, sold or bartered.

Fishing means the taking, harvesting, or catching of fish, or any activity that can reasonably be expected to result in the taking, harvesting, or catching of fish, including specifically the deployment of any amount or component part of setline gear anywhere in the maritime area.

Individual Fishing Quota (IFQ), for purposes of this subpart, means the annual catch limit of halibut that may be harvested by a person who is lawfully allocated a harvest privilege for a specific portion of the TAC of halibut.

IFQ fishing trip, for purposes of the subpart, means the period beginning when a vessel operator commences harvesting IFQ halibut and ending when the vessel operator lands any species.

IFQ halibut means any halibut that is harvested with fixed gear in any IFQ regulatory area.

Overall length of a vessel means the horizontal distance, rounded to the nearest ft/meter, between the foremost part of the stem and the aftermost part of the stern (excluding bowsprits, rudders, outboard motor brackets, and similar fittings or attachments).

Person includes an individual, corporation, firm, or association.

Setline gear means one or more stationary, buoyed, and anchored lines with hooks attached.

Sport fishing means all fishing other than commercial fishing and treaty Indian ceremonial and subsistence fishing.

Subarea 2A-1 includes all U.S. waters off the coast of Washington that are north of 46°53′18″ N. lat. and east of 125°44′00″ W. long., and all inland marine waters of Washington.

Treaty Indian tribes means the Hoh, Jamestown S'Klallam, Lower Elwha S'Klallam, Lummi, Makah, Port Gamble S'Klallam, Quileute, Quinault, Skokomish, Suquamish, Swinomish, and Tulalip tribes.

[61 FR 35350, July 5, 1996, as amended at 64 FR 52469, Sept. 29, 1999]

EFFECTIVE DATE NOTE: At 64 FR 52469, Sept. 29, 1999, § 300.61 was amended by adding the definitions for "Charter vessel"; "Fishing"; "Individual Fishing Quota"; "IFQ fishing trip"; "IFQ halibut"; "Overall length"; "Setline gear"; and "Sport fishing", effective Oct. 29, 1999.

§ 300.62 Annual management measures.

Annual management measures may be added and modified through adoption by the Commission and publication in the FEDERAL REGISTER by the Assistant Administrator, with immediate regulatory effect. Such measures may include, inter alia, provisions governing: Licensing of vessels, inseason actions, regulatory areas, fishing periods, closed periods, closed areas, catch limits (quotas), fishing period limits, size limits, careful release of halibut, vessel clearances, logs, receipt and possession of halibut, fishing gear, retention of tagged halibut, supervision of unloading and weighing, and sport fishing for halibut. The Assistant Administrator will publish the Commission's regulations setting forth annual management measures in the FEDERAL REGISTER by March 15 each year. Annual management measures may be adjusted inseason by the Commission.

§ 300.63 Catch sharing plans, local area management plans, and domestic management measures.

Catch sharing plans (CSP) and local area management plans (LAMP) may be developed by the appropriate regional fishery management council, and approved by NMFS, for portions of the fishery. Any approved CSP or LAMP may be obtained from the Administrator, Northwest Region, or the Administrator, Alaska Region.

(a) The catch sharing plan for area 2A provides a framework that shall be
applied to the annual Area 2A total allowable catch (TAC) adopted by the Commission, and shall be implemented through domestic and Commission regulations, which will be published in the Federal Register each year before March 15. The Area 2A CSP allocates halibut among the treaty Indian fishery, segments of the non-Indian commercial fishery, and segments of the recreational fishery.

(1) Each year, before January 1, NMFS will publish a proposal to govern the recreational fishery under the CSP for the following year and will seek public comment. The comment period will extend until after the Commission's annual meeting, so the public will have the opportunity to consider the final area 2A total allowable catch (TAC) before submitting comments. After the Commission's annual meeting and review of public comments, NMFS will publish in the Federal Register the final rule governing sport fishing in area 2A. Annual management measures may be adjusted in season by NMFS.

(2) A portion of the commercial TAC is allocated as incidental catch in the salmon troll fishery in Area 2A. Each year the landing restrictions necessary to keep the fishery within its allocation will be recommended by the Pacific Fishery Management Council at its spring meetings, and will be published in the Federal Register along with the annual salmon management measures.

(3) The commercial longline fishery in area 2A is governed by the annual management measures published pursuant to §300.62.

(i) Provided that no person may sell or barter such halibut.

(d) The LAMP for Sitka Sound provides guidelines for participation in the halibut fishery in Sitka Sound.

(1) For purposes of §300.63(d), Sitka Sound means (See Figure 1) to subpart E of the part:

(i) With respect to §300.63(d)(2), that part of the Commission regulatory area 2C that is enclosed on the north and east by a line from Kruzof Island at 57°20'30" N. lat., 135°45'10" W. long., to Chichagof Island at 57°22'03" N. lat., 135°43'00" W. long., and a line from Chichagof Island at 57°22'35" N. lat., 135°41'18" W. long. to Baranof Island at 57°22'17" N. lat., 135°40'57" W. long.; and is enclosed on the south and west by a line from Cape Edgecumbe at 57°59'54" N. lat., 135°51'27" W. long. to Vasilieff Rock at 56°48'56" N. lat., 135°32'30" W. long., to the green day marker in Dorothy Narrows at 56°49'17" N. lat., 135°22'45" W. long., to Baranof Island at 56°49'17" N. lat., 135°22'36" W. long.

(ii) With respect to §300.63(d)(3) and (4), that part of the Commission regulatory area 2C that is enclosed on the north and east by a line from Kruzof Island at 57°20'30" N. lat., 135°45'10" W. long., to Chichagof Island at 57°22'03" N. lat., 135°43'00" W. long., and a line from Chichagof Island at 57°22'35" N. lat., 135°41'18" W. long. to Baranof Island at 57°22'17" N. lat., 135°40'57" W. lat.; and is enclosed on the south and west by a line running from Sitka Point at 56°59'23" N. lat., 135°49'34" W. long. to Hanus Point at 56°51'55" N. lat., 135°30'30" W. long., to the green day marker in Dorothy Narrows at 56°49'17" N. lat., 135°22'45" W. long. to Baranof Island at 56°49'17" N. lat., 135°22'36" W. long.

(2) A person using a vessel greater than 35 ft (10.7 m) in overall length, as defined in §300.61, is prohibited from fishing for IFQ halibut with setline gear in Sitka Sound, as defined in paragraph (d)(1)(i) of this section.

(3) A person using a vessel less than or equal to 35 ft (10.7 m) in overall length, as defined in §300.61:

(i) Is prohibited from fishing for IFQ halibut with setline gear in Sitka Sound, as defined in paragraph (d)(1)(ii)
§ 300.64 Fishing by U.S. treaty Indian tribes.

(a) Halibut fishing in subarea 2A-1 by members of U.S. treaty Indian tribes located in the State of Washington is governed by this section.

(b) Commercial fishing for halibut by treaty Indians is permitted only in subarea 2A-1 with hook-and-line gear in conformance with the season and quota established annually by the Commission.

(c) Commercial fishing periods and management measures to implement paragraph (b) of this section will be established by treaty Indian tribal regulations.

(d) Commercial fishing for halibut by treaty Indians shall comply with the Commission's management measures governing size limits, careful release of halibut, logs, and fishing gear (published pursuant to § 300.62), except that the 72-hour fishing restriction preceding the opening of a halibut fishing period shall not apply to treaty Indian fishing.

(e) Ceremonial and subsistence fishing for halibut by treaty Indians in subarea 2A-1 is permitted with hook-and-line gear from January 1 to December 31.

(f) No size or bag limits shall apply to the ceremonial and subsistence fishery, except that when commercial halibut fishing is prohibited pursuant to paragraph (b) of this section, treaty Indians may take and retain not more than two halibut per person per day.

(g) Halibut taken for ceremonial and subsistence purposes shall not be offered for sale or sold.

(h) Any member of a U.S. treaty Indian tribe who is engaged in commercial or ceremonial and subsistence fishing under this section must have on his or her person a valid treaty Indian identification card issued pursuant to 25 CFR part 249, subpart A, and must comply with the treaty Indian vessel and gear identification requirements of Final Decision No. 1 and subsequent orders in United States v. Washington 384 F. Supp. 312 (W.D. Wash., 1974).

(i) The following table sets forth the fishing areas of each of the 12 treaty Indian tribes fishing pursuant to this section. Within subarea 2A-1, boundaries of a tribe's fishing area may be revised as ordered by a Federal Court.
### Tribe Boundaries

### § 300.65 Prohibitions.

In addition to the prohibitions in § 300.4, the following prohibitions apply within this subpart. It is unlawful for any person to fish for halibut except in accordance with:

(a) The management measures published under § 300.62.

(b) The catch sharing plans and management measures implemented under § 300.63.
Figure 1 to Subpart E—Sitka Local Area Management Plan

Figure 1. Sitka Local Area Management Plan
a. Map
Subpart F—Fraser River Sockeye and Pink Salmon Fisheries

§ 300.90 Purpose and scope.

This subpart implements the Pacific Salmon Treaty Act of 1985 (16 U.S.C. 3631–3644) (Act) and is intended to supplement, not conflict with, the fishery regimes and Fraser River Panel regulations adopted under the Treaty between the Government of the United States of America and the Government of Canada Concerning Pacific Salmon, signed at Ottawa, January 28, 1985 (Treaty).

§ 300.91 Definitions.

In addition to the terms defined in § 300.2 and those in the Act and the Treaty, the terms used in this subpart have the following meanings. If a term is defined differently in § 300.2, the Act, or the Treaty, the definition in this section shall apply.

All-citizen means any person who is not a treaty Indian fishing in that treaty Indian’s tribal treaty fishing places pursuant to treaty Indian tribal fishing regulations (whether in compliance with such regulations or not).

Authorized officer means, in addition to those individuals identified under authorized officer at § 300.2, any state, Federal, or other officer as may be authorized by the Secretary in writing, including any treaty Indian tribal enforcement officer authorized to enforce tribal fishing regulations.

Commission means the Pacific Salmon Commission established by the Pacific Salmon Treaty.

Consistent regulation or consistent order means any Federal, state, or treaty Indian tribal regulation or order that is in addition to and not in conflict with (at least as restrictive as
any regime of the Commission, Fraser River Panel regulation, inseason order of the Secretary, or these regulations.

Fishing gear—

(1) Gill net means a fishing net of single web construction, not anchored, tied, staked, placed, or weighted in such a manner that it cannot drift.

(2) Purse seine means all types of fishing gear consisting of a lead line, cork line, auxiliary lines, purse line and purse rings and of mesh net webbing fashioned in such a manner that it is used to encircle fish, and in addition prevent their escape under the bottom or lead line of the net by drawing in the bottom of the net by means of the purse line so that it forms a closed bag.

(3) Reef net means a non-self-fishing open bunt square or rectangular section of mesh netting suspended between two anchored boats fashioned in such a manner that to impound salmon passing over the net, the net must be raised to the surface.

(4) Troll fishing gear means one or more lines that drag hooks with bait or lures behind a moving fishing vessel.

(5) Treaty Indian fishing gear means fishing gear defined authorized, and identified under treaty Indian tribal laws and regulations in accordance with the requirements of Final Decision No. 1 and subsequent orders in United States v. Washington, 364 F. Supp. 312 (W.D. Wash., 1974).

Fraser River Panel means the Fraser River Panel established by the Pacific Salmon Treaty.

Fraser River Panel Area (U.S.) means the United States’ portion of the Fraser River Panel Area specified in Annex II of the Treaty as follows:

(1) The territorial water and the high seas westward from the western coast of Canada and the United States of America and from a direct line drawn from Bonilla Point, Vancouver Island, to the lighthouse of Tatoosh Island, Washington—which line marks the entrance of Juan de Fuca Strait—and embraced between 48° and 49° N. lat., excepting therefrom, however, all the waters of Barkley Sound, eastward of a straight line drawn from Amphitrite Point to Cape Beale and all the waters of Nitinat Lake and the entrance thereto.

(2) The waters included within the following boundaries: Beginning at Bonilla Point, Vancouver Island, thence along the aforesaid direct line drawn from Bonilla Point to Tatoosh Lighthouse, Washington, described in paragraph (1) of this definition, thence to the nearest point of Cape Flattery, thence following the southerly shore of Juan de Fuca Strait to Point Wilson, on Whidbey Island, thence following the western shore of the said Whidbey Island, to the entrance to Deception Pass, thence across said entrance to the southern side of Reservation Bay, on Fidalgo Island, thence following the western and northern shore line of the said Fidalgo Island to Swinomish Slough, crossing the said Swinomish Slough, in line with the track of the Great Northern Railway (Burlington Northern Railroad), thence northerly following the shoreline of the mainland to Atkinson Point at the northerly entrance to Burrard Inlet, British Columbia, thence in a straight line to the southern end of Bowen Island, then westerly following the southern shore of Bowen Island to Cape Roger Curtis, thence in a straight line to Gower Point, thence westerly following the shoreline to Welcome Point on Sechelt Peninsula, thence in a straight line to Point Young on Lasqueti Island, thence in a straight line to Dorcas Point on Vancouver Island, thence following the eastern and southern shores of the said Vancouver Island, to the starting point at Bonilla Point, as shown on the British Admiralty Chart Number 579, and on the U.S. Coast and Geodetic Survey Chart Number 6300, as corrected to March 14, 1930, copies of which are annexed to the 1930 Convention between Canada and the United States of America for Protection, Preservation, and Extension of the Sockeye Salmon Fishery in the Fraser River System as amended, signed May 26, 1930. [Note: U.S. Coast and Geodetic Survey Chart Number 6300 has been replaced and updated by NOAA Chart Number 18400.]

(3) The Fraser River and the streams and lakes tributary thereto.

(4) The Fraser River Panel Area (U.S.) includes Puget Sound Management and Catch Reporting Areas 4A, 4B, 5, 6, 6A, 6B, 6C, 6D, 7, 7A, 7B, 7C, 7D, and
7E as defined in the Washington State Administrative Code at Chapter 220-22 as of June 27, 1986.

Fraser River Panel regulations mean regulations applicable to the Fraser River Panel Area that are recommended by the Commission (on the basis of proposals made by the Fraser River Panel) and approved by the Secretary of State.

Mesh size means the distance between the inside of one knot to the outside of the opposite (vertical) knot in one mesh of a net.

Pink salmon means Oncorhynchus gorbuscha.

Sockeye salmon means the anadromous form of Oncorhynchus nerka.

Treaty fishing places (of an Indian tribe) means locations within the Fraser River Panel Area (U.S.) as determined in or in accordance with Final Decision No. 1 and subsequent orders in United States v. Washington, 384 F. Supp. 312 (W.D. Wash. 1974), to be places at which that treaty Indian tribe may take fish under rights secured by treaty with the United States.

Treaty Indian means any member of a treaty Indian tribe whose treaty fishing place is in the Fraser River Panel Area (U.S.) or any assistant to a treaty Indian authorized to assist in accordance with §300.95(d).

Treaty Indian tribe means any of the federally recognized Indian tribes of the State of Washington having fishing rights secured by treaty with the United States to fish for salmon stocks subject to the Pacific Salmon Treaty in treaty fishing places within the Fraser River Panel Area (U.S.). Currently these tribes are the Makah Tribe, Lower Elwha Klallam Tribe, Port Gamble Klallam Tribe, Jamestown Klallam Tribe, Suquamish Tribe, Lummi Tribe, Nooksack Tribe, the Swinomish Indian Tribal Community, and the Tulalip Tribe.

§ 300.92 Relation to other laws.

(a) Insofar as they are consistent with this part, any other applicable Federal law or regulation, or any applicable law and regulations of the State of Washington or of a treaty Indian tribe with treaty fishing rights in the Fraser River Panel Area (U.S.) will continue to have force and effect in the Fraser River Panel Area (U.S.) with respect to fishing activities addressed herein.

(b) Any person fishing subject to this subpart is bound by the international boundaries now recognized by the United States within the Fraser River Panel Area (U.S.) described in §300.91, notwithstanding any dispute or negotiation between the United States and Canada regarding their respective jurisdictions, until such time as different boundaries are published by the United States.

(c) Any person fishing in the Fraser River Panel Area (U.S.) who also fishes for groundfish in the EEZ should consult Federal regulations at part 663 of this title for applicable requirements, including the requirement that vessels engaged in commercial fishing for groundfish (except commercial passenger vessels) have vessel identification in accordance with §663.6. Federal regulations governing salmon fishing in the EEZ, which includes a portion of the Fraser River Panel Area (U.S.), are at part 661 of this title. Annual regulatory modifications are published in the Federal Register.

(d) Except as otherwise provided in this subpart, general provisions governing off-reservation fishing by treaty Indians are found at 25 CFR part 249, subpart A. Additional general and specific provisions governing treaty Indian fisheries are found in regulations and laws promulgated by each treaty Indian tribe for fishermen fishing pursuant to tribal authorization.

(e) Nothing in this subpart relieves a person from any other applicable requirements lawfully imposed by the United States, the State of Washington, or a treaty Indian tribe.

§ 300.93 Reporting requirements.

Any person fishing for sockeye or pink salmon within the Fraser River Panel Area (U.S.) and any person receiving or purchasing fish caught by such persons are subject to State of Washington reporting requirements at Washington Administrative Code, Chapter 220-69. Treaty Indian fishermen are subject also to tribal reporting requirements. No separate Federal reports are required.
§ 300.94 Prohibitions and restrictions.

In addition to the prohibitions in § 300.4, the following prohibitions and restrictions apply.

(a) In addition to the prohibited acts set forth in the Act at 16 U.S.C. 3637(a), the following restrictions apply to sockeye and pink salmon fishing in the Fraser River Panel Area (U.S.).

(1) The Fraser River Panel Area (U.S.) is closed to sockeye and pink salmon fishing, unless opened by Fraser River Panel regulations or by inseason orders of the Secretary issued under § 300.97 that give effect to orders of the Fraser River Panel, unless such orders are determined not to be consistent with domestic legal obligations. Such regulations and inseason orders may be further implemented by regulations promulgated by the United States, the State of Washington, or any treaty Indian tribe, which are also consistent with domestic legal obligations.

(2) It is unlawful for any person or fishing vessel subject to the jurisdiction of the United States to fish for, or take and retain, any sockeye or pink salmon:

(i) Except during times or in areas that are opened by Fraser River Panel regulations or by inseason order, except that this provision will not prohibit the direct transport of legally caught sockeye or pink salmon to off-loading areas.

(ii) By means of gear or methods not authorized by Fraser River Panel regulations, inseason orders, or other applicable Federal, state, or treaty Indian tribal law.

(iii) In violation of any applicable area, season, species, zone, gear, or mesh size restriction.

(b) It is unlawful for any person or fishing vessel subject to the jurisdiction of the United States to—

(1) Remove the head of any sockeye or pink salmon caught in the Fraser River Panel Area (U.S.), or possess a salmon with the head removed, if that salmon has been marked by removal of the adipose fin to indicate that a coded wire tag has been implanted in the head of the fish.

(2) Fail to permit an authorized officer to inspect a record or report required by the State of Washington or treaty Indian tribal authority.

(c) Notwithstanding paragraph (a) of this section, nothing in this subpart will be construed to prohibit the retention of sockeye or pink salmon caught by any person while lawfully engaged in a fishery for subsistence or ceremonial purposes pursuant to treaty Indian tribal regulations, for recreational purposes pursuant to recreational fishing regulations promulgated by the State of Washington, or as otherwise authorized by treaty Indian tribal or State of Washington law or regulation, provided that such treaty Indian tribal or State regulation is consistent with U.S.-approved Commission fishery regimes, Fraser River Panel regulations, or inseason orders of the Secretary applicable to fishing in the Fraser River Panel Area (U.S.).

(d) The following types of fishing gear are authorized, subject to the restrictions set forth in this subpart and according to the times and areas established by Fraser River Panel regulations or inseason orders of the Secretary:

(1) All citizens: Gill net, purse seine, reef net, and troll fishing gear. Specific restrictions on all citizens gear are contained in the Washington State Administrative Code of Chapter 220-47.

(2) Treaty Indians: Treaty Indian fishing gear.

(e) Geographic descriptions of Puget Sound Salmon Management and Catch Reporting Areas, which are referenced in the Commission’s regimes, Fraser River Panel regulations, and in inseason orders of the Secretary, are found in the Washington State Administrative Code at Chapter 220-22.

§ 300.95 Treaty Indian fisheries.

(a) Any treaty Indian must comply with this section when fishing for sockeye and pink salmon at the treaty Indian tribe’s treaty fishing places in the Fraser River Panel Area (U.S.) during the time the Commission or the Secretary exercises jurisdiction over these fisheries. Fishing by a treaty Indian outside the applicable Indian tribe’s treaty fishing places will be subject to the Fraser River Panel regulations and
inseason orders applicable to all citizens, as well as to the restrictions set forth in this section.

(b) Nothing in this section will relieve a treaty Indian from any applicable law or regulation imposed by a treaty Indian tribe, or from requirements lawfully imposed by the United States or the State of Washington in accordance with the requirements of Final Decision No. 1 and subsequent orders in United States v. Washington, 384 F. Supp. 312 (W.D. Wash., 1974).

(c) Identification. (1) Any treaty Indian fishing under the authority of this subpart must have in his or her possession at all times while fishing or engaged in any activity related to fishing the treaty Indian identification required by 25 CFR 249.3 or by applicable tribal law.

(2) Any person assisting a treaty Indian under the authority of paragraph (d) of this section must have in his or her possession at all such times a valid identification card issued by the Bureau of Indian Affairs or by a treaty Indian tribe, identifying the holder as a person qualified to assist a treaty Indian. The identification card must include the name of the issuing tribe, the name, address, date of birth, and photograph of the assistant, and the name and identification number of the treaty Indian whom the assistant is authorized to assist.

(3) Identification described in paragraph (c) (1) or (2) of this section must be shown on demand to an authorized officer by the treaty Indian or authorized assistant.

(4) Any treaty Indian fishing under this subpart must comply with the treaty Indian vessel and gear identification requirements of Final Decision No. 1 and subsequent orders in United States v. Washington, 384 F. Supp. 312 (W.D. Wash., 1974).

(d) Fishing assistance. (1) Any member of a treaty Indian tribe fishing under this subpart may, if authorized by the treaty Indian's tribe, receive fishing assistance from, and only from, the treaty Indian tribal member's spouse, forebears, children, grandchildren, and siblings, as authorized by the U.S. District Court for the Western District of Washington in United States v. Washington, 384 F. Supp. 312 (W.D. Wash., 1974). For purposes of this section, the treaty Indian tribal member whom the assistant is authorized to assist must be present aboard the fishing vessel at all times while engaged in the exercise of treaty Indian fishing rights subject to this subpart.

(2) No treaty Indian may, while fishing at a treaty fishing place in accordance with treaty-secured fishing rights, permit any person 16 years of age or older other than the authorized holder of a currently valid identification card issued in accordance with the requirements of paragraphs (c) (1) and (2) of this section to fish for said treaty Indian, assist said treaty Indian in fishing, or use any gear or fishing location identified as said treaty Indian's gear or location.

(3) Treaty Indians are prohibited from participating in a treaty Indian fishery under this section at any time persons who are not treaty Indians are aboard the fishing vessel or in contact with fishing gear operated from the fishing vessel, unless such persons are authorized employees or officers of a treaty Indian tribe or tribal fisheries management organization, the Northwest Indian Fisheries Commission, the Commission, or a fisheries management agency of the United States or the State of Washington.

§ 300.96 Penalties.

Any treaty Indian who commits any act that is unlawful under this subpart normally will be referred to the applicable tribe for prosecution and punishment. If such tribe fails to prosecute such persons in a diligent manner for the offense(s) referred to the tribe, or if other good cause exists, such treaty Indian may be subject to the penalties and procedures described in the Magnuson Act.

§ 300.97 Inseason orders.

(a) During the fishing season, the Secretary may issue orders that establish fishing times and areas consistent with the annual Commission regime and inseason orders of the Fraser River Panel. Inseason orders will be consistent with domestic legal obligations. Violation of such inseason orders is violation of this subpart.
§ 300.100 Purpose and scope.

(a) This subpart implements the Antarctic Marine Living Resources Convention Act of 1984 (Act).

(b) This subpart regulates—

1. The harvesting of Antarctic marine living resources or other associated activities by any person subject to the jurisdiction of the United States or by any vessel of the United States.

2. The importation into the United States of any Antarctic marine living resource.

§ 300.101 Definitions.

In addition to the terms defined in §300.2, in the Act, and in the Convention on the Conservation of Antarctic Marine Living Resources, done at Canberra, Australia, May 7, 1980 (Convention), the terms used in this subpart have the following meanings. If a term is defined differently in §300.2, such Act, or such Convention, the definition in this section shall apply.

Antarctic convergence means a line joining the following points along the parallels of latitude and meridians of longitude:

<table>
<thead>
<tr>
<th>Lat.</th>
<th>Long.</th>
</tr>
</thead>
<tbody>
<tr>
<td>50°S</td>
<td>0°</td>
</tr>
<tr>
<td>50°S</td>
<td>30°E</td>
</tr>
<tr>
<td>45°S</td>
<td>80°E</td>
</tr>
<tr>
<td>55°S</td>
<td>150°E</td>
</tr>
<tr>
<td>60°S</td>
<td>150°W</td>
</tr>
<tr>
<td>50°S</td>
<td>50°W</td>
</tr>
<tr>
<td>50°S</td>
<td>0°</td>
</tr>
</tbody>
</table>

Antarctic convergence and the definition of "Antarctic marine living resources or AMLR(s)" mean the populations of finfish, mollusks, crustaceans, and all other species of living organisms, including birds, found south of the Antarctic Convergence, and their parts or products.

Commission means the Commission for the Conservation of Antarctic Marine Living Resources established under Article VII of the Convention.

Convention waters means all waters south of the Antarctic Convergence.

Directed fishing, with respect to any species or stock of fish, means any fishing that results in such fish comprising more than 1 percent by weight, at any time, of the catch on board the vessel.

Fish means finfish, mollusks, and crustaceans.

Fishery means:

1. One or more stocks of fish that can be treated as a unit for purposes of conservation and management and
§ 300.103 Procedure for according protection to CCAMLR Ecosystem Monitoring Program Sites.

(a) General. (1) Any person subject to the jurisdiction of the United States must apply for and be granted an entry permit authorizing specific activities prior to entering a CCAMLR Ecosystem Monitoring Program (CEMP) Protected Site designated in accordance with the CCAMLR Conservation Measure describing the Procedures for According Protection for CEMP Sites.

(2) If a CEMP Protected Site is also a site specially protected under the Antarctic Treaty (or the Protocol on Environmental Protection to the Antarctic Treaty and its Annexes, when it enters into force), an applicant seeking to enter such a Protected Site must apply to the Director of the NSF for a permit under applicable provisions of the ACA or any superseding legislation. The permit granted by NSF shall constitute a joint CEMP/ACA Protected Site permit and any person holding such a permit must comply with the appropriate CEMP Protected Site Management Plan. In all other cases, an applicant seeking a permit to enter a CEMP Protected Site must apply to the Assistant Administrator for a CEMP permit in accordance with the provisions of this section.

(b) Responsibility of CEMP permit holders and persons designated as agents under a CEMP permit. (1) The CEMP permit holder and person designated as agents under a CEMP permit are responsible for the acts of their
§ 300.103 50 CFR Ch. III (10-1-99 Edition)

employees and agents constituting violations, regardless of whether the specific acts were authorized or forbidden by the CEMP permit holder or agents, and regardless of knowledge concerning their occurrence.

(c) Prohibitions regarding the Antarctic Treaty System and other applicable treaties and statutes. Holders of permits to enter CEMP Protected Sites are not permitted to undertake any activities within a CEMP Protected Site that are not in compliance with the provisions of:

1. The Antarctic Treaty, including the Agreed Measures for the Conservation of Antarctic Fauna and Flora (including the Protocol on the Environmental Protection to the Antarctic Treaty and its Annexes when it enters into force), as implemented under by the ACA and any superseding legislation. (Persons interested in conducting activities subject to the Antarctic Treaty or the Protocol should contact the Office of Polar Programs, NSF).

(d) Prohibitions on takings. Permits issued under this section do not authorize any takings as defined in the applicable statutes and implementing regulations governing the activities of persons in Antarctica.

(e) Issuance criteria. Permits designated in this section may be issued by the Assistant Administrator upon a determination that:

1. The specific activities meet the requirements of the Act.

2. There is sufficient reason, established in the permit application, that the scientific purpose for the intended entry cannot be served elsewhere.

3. The actions permitted will not violate any provisions or prohibitions of the Protected Site's Management Plan submitted in compliance with the CCAMLR Conservation Measure describing the Procedures for According Protection to CEMP Sites.

(f) Application process. An applicant seeking a CEMP permit from the Assistant Administrator to enter a CEMP Protected Site shall include the following in the application:

1. A detailed justification that the scientific objectives of the applicant cannot be accomplished elsewhere and a description of how said objectives will be accomplished within the terms of the Protected Site's Management Plan.

2. A statement signed by the applicant that the applicant has read and fully understands the provisions and prohibitions of the Protected Site's Management Plan. Prospective applicants may obtain copies of the relevant Management Plans and the CCAMLR Conservation Measure describing the Procedures for According Protection to CEMP Sites by requesting them from the Assistant Administrator.

(g) Conditions. CEMP permits issued under this section will contain special and general conditions including a condition that the permit holder shall submit a report describing the activities conducted under the permit within 30 days of the expiration of the CEMP permit.

(h) Duration. Permits issued under this section are valid for a period of 1 year. Applicants requesting a permit to reenter a Protected Site must include the report required by the general condition in the previously issued CEMP permit describing the activities conducted under authority of that permit.

(i) Transfer. CEMP permits are not transferable or assignable. A CEMP permit is valid only for the person to whom it is issued.

(j) Modification. (1) CEMP permits can be modified by submitting a request to the Assistant Administrator. Such requests shall specify:

(i) The action proposed to be taken along with a summary of the reasons therefore.

(ii) The steps that the permit holder may take to demonstrate or achieve compliance with all lawful requirements.

(2) If a requested modification is not in compliance with the terms of the Protected Site's Management Plan, the Assistant Administrator will treat the requested modification as an application for a new CEMP permit and so notify the holder. Modifications will be acted upon within 30 days of receipt. The CEMP permit holder must report to the Assistant Administrator any
change in previously submitted information within 10 days of the change.

(3) Additional conditions and restrictions. The Assistant Administrator may revise the CEMP permit effective upon notification of the permit holder, to impose additional conditions and restrictions as necessary to achieve the purposes of the Convention, the Act and the CEMP Management Plan. The CEMP permit holder must, as soon as possible, notify any and all agents operating under the permit of any and all revisions or modifications to the permit.

(k) Revocation or suspension. CEMP permits may be revoked or suspended based upon information received by the Assistant Administrator and such revocation or suspension shall be effective upon notification to the permit holder.

(1) A CEMP permit may be revoked or suspended based on a violation of the permit, the Act, or this subpart.

(2) Failure to report a change in the information submitted in a CEMP permit application within 10 days of the change is a violation of this subpart and voids the application or permit, as applicable. Title 15 CFR part 904 governs permit sanctions under this subpart.

(l) Exceptions. Entry into a Protected Site described in this section is lawful if committed under emergency conditions to prevent the loss of human life, compromise human safety, prevent the loss of vessels or aircraft, or to prevent environmental damage.

(m) Protected sites. (1) Sites protected by the Antarctic Treaty and regulated under the ACA are listed at 45 CFR part 670 subparts G and H.

(2) The following sites have been identified as CEMP Protected Sites subject to the regulatory authority of the Act:

(i) Seal Islands, South Shetland Islands—The Seal Islands are composed of islands and skerries located approximately 7 km north of the northwest corner of Elephant Island, South Shetland Islands. The Seal Islands CEMP Protected Site includes the entire Seal Islands group, which is defined as Seal Island plus any land or rocks exposed at mean low tide within a distance of 5.5 km of the point of highest elevation on Seal Island. Seal Island is situated at 60°59'14" S. lat., 55°23'04" W. long.

(ii) Cape Shirreff and the San Telmo Islands. This designation takes effect on May 1, 1995. Cape Shirreff is a low, ice-free peninsula towards the western end of the north coast of Livingston Island, South Shetland Islands, situated at 62°29' S. lat., 60°47' W. long., between Barclay Bay and Hero Bay. San Telmo Island is the largest of a small group of ice-free rock islets, approximately 2 km west of Cape Shirreff. The boundaries of the Cape Shirreff CEMP Protected Site are identical to the boundaries of the Site of Special Scientific Interest No. 32, as specified by ATCM Recommendation XV-7. No manmade boundary markers indicate the limits of the SSSI or protected site. The boundaries are defined by natural features and include the entire area of the Cape Shirreff peninsula north of the glacier ice tongue margin, and most of the San Telmo Island group. For the purposes of the protected site, the entire area of Cape Shirreff and the San Telmo Island group is defined as any land or rocks exposed at mean low tide within the area delimited by the map of SSSI No. 32 and available from the Assistant Administrator.

§ 300.104 Scientific research.

(a) The management measures issued pursuant to the procedures at §300.111 do not apply to catches of less than 5 tons taken by any vessel for research purposes, unless otherwise indicated.

(b) Catches taken by any vessel for research purposes will be considered as part of any catch limit.

(c) The catch reporting procedure identified in management measures issued pursuant to the procedures at §300.111 applies whenever the catch within any 5-day reporting period exceeds 5 tons, unless more specific reporting requirements apply to the species being fished.

(d) Any person, organization or institution planning to use a vessel for research purposes, when the estimated catch is expected to be less than 50 tons, must provide the following vessel and research notification to the Assistant Administrator at least 2 months in advance of the planned research.
§ 300.105 Initiating a new fishery.

(a) A new fishery, for purposes of this section, is a fishery on a species using a particular method in a statistical subarea for which:

(1) Information on distribution, abundance, demography, potential yield and stock identity from comprehensive research/surveys or exploratory fishing has not been submitted to CCAMLR;

(2) Catch and effort data have never been submitted to CCAMLR; or

(3) Catch and effort data from the two most recent seasons in which fishing occurred have not been submitted to CCAMLR.

(b) An individual subject to these regulations intending to develop a new fishery shall notify the Assistant Administrator no later than July 1 of the year in which he or she intends to initiate the fishery and shall not initiate the fishery pending CCAMLR review.

(c) The notification shall be accompanied by information on:

(1) The nature of the proposed fishery, including target species, methods of fishing, proposed region and any minimum level of catches that would be required to develop a viable fishery.

(2) Biological information from comprehensive research/survey cruises, such as distribution, abundance, demographic data and information on stock identity.

(3) Details of dependent and associated species and the likelihood of them being affected by the proposed fishery.

(4) Information from other fisheries in the region or similar fisheries elsewhere that may assist in the valuation of potential yield.

§ 300.106 Exploratory fisheries.

(a) An exploratory fishery, for purposes of this section, is a fishery that was previously defined as a new fishery under § 300.105.

(b) A fishery will continue to be classified as an exploratory fishery until sufficient information is available to:

(1) Evaluate the distribution, abundance, and demography of the target species, leading to an estimate of the fishery’s potential yield.

(2) Review the fishery’s potential impacts on dependent and related species.

(3) Allow the CCAMLR Scientific Committee to formulate and provide advice to the Commission on appropriate harvest catch levels and fishing gear.

(c) Each vessel participating in an exploratory fishery must carry a scientific observer.
(d) The operator of any vessel engaging in an exploratory fishery must submit, by the date specified in the operator's harvesting permit, catch, effort, and related biological, ecological, and environmental data as required by the data collection plan for the fishery formulated by the CCAMLR Scientific Committee.

(e) In addition to the requirements in §300.112, any individual planning to enter an exploratory fishery must notify the Assistant Administrator no later than 4 months in advance of the annual meeting of CCAMLR. The Assistant Administrator will not issue a permit to enter an exploratory fishery until after the requirements of §300.112 have been met and the meeting of CCAMLR, which receives and considers the notice made to the Assistant Administrator, has been concluded.

§ 300.107 Reporting and recordkeeping requirements.

The operator of any vessel required to have a permit under this subpart must:

(a) Accurately maintain on board the vessel a fishing logbook and all other reports and records required by its permit.

(b) Make such reports and records available for inspection upon the request of an authorized officer or CCAMLR inspector.

(c) Within the time specified in the permit, submit a copy of such reports and records to the Assistant Administrator.

§ 300.108 Vessel and gear identification.

(a) Vessel identification.

(1) The operator of each harvesting vessel assigned an IRCS must display that call sign amidships on both the port and starboard sides of the deckhouse or hull, so that it is visible from an enforcement or inspection vessel, and on an appropriate weather deck so that it is visible from the air.

(2) The operator of each harvesting vessel not assigned an IRCS, such as a small trawler associated with a mothership or one of a pair of trawlers, must display the IRCS of the associated vessel, followed by a numerical suffix specific for the non-assigned vessel.

(3) The vessel identification must be in a color in contrast to the background and must be permanently affixed to the harvesting vessel in block roman alphabet letters and arabic numerals at least 1 m in height for harvesting vessels over 20 m in length, and at least 0.5 m in height for all other harvesting vessels.

(b) Navigational lights and shapes.

Each harvesting vessel must display the lights and shapes prescribed by the International Regulations for Preventing Collisions at Sea, 1972 (TIAS 8587, and 1981 amendment TIAS 10672), for the activity in which the harvesting vessel is engaged (as described at 33 CFR part 81).

(c) Gear identification.

(1) The operator of each harvesting vessel must ensure that all deployed fishing gear that is not physically and continuously attached to a harvesting vessel is clearly marked at the surface with a buoy displaying the vessel identification of the harvesting vessel (see paragraph (a) of this section) to which the gear belongs, a light visible for 2 miles at night in good visibility, and a radio buoy. Trawl codends passed from one vessel to another are considered continuously attached gear and do not have to be marked.

(2) The operator of each harvesting vessel must ensure that deployed longlines, strings of traps or pots, and gillnets are marked at the surface at each terminal end with a buoy displaying the vessel identification of the harvesting vessel to which the gear belongs (see paragraph (a) of this section), a light visible for 2 miles at night in good visibility, and a radio buoy.

(3) Unmarked or incorrectly identified fishing gear may be considered abandoned and may be disposed of in accordance with applicable Federal regulations by any authorized officer or CCAMLR inspector.

(d) Maintenance.

The operator of each harvesting vessel must:

(1) Keep the vessel and gear identification clearly legible and in good repair.

(2) Ensure that nothing on the harvesting vessel obstructs the view of the
§ 300.109 Markings from an enforcement or inspection vessel or aircraft.
(3) Ensure that the proper navigational lights and shapes are displayed for the harvesting vessel's activity and are properly functioning.

§ 300.109 Gear disposal.
(a) The operator of a harvesting vessel may not dump overboard, jettison or otherwise discard any article or substance that may interfere with other fishing vessels or gear, or that may catch fish or cause damage to any marine resource, including marine mammals and birds, except in cases of emergency involving the safety of the ship or crew, or as specifically authorized by communication from the appropriate USCG commander or authorized officer. These articles and substances include, but are not limited to, fishing gear, net scraps, bale straps, plastic bags, oil drums, petroleum containers, oil, toxic chemicals or any manmade items retrieved in a harvesting vessel's gear.
(b) The operator of a harvesting vessel may not abandon fishing gear in Convention waters.
(c) The operator of a harvesting vessel must provide a copy of the CCAMLR information brochure "Marine Debris—A Potential Threat to Antarctic Marine Mammals" to each member of the crew of the harvesting vessel and must display copies of the CCAMLR placard "Avoidance of Incidental Mortality of Antarctic Marine Mammals" in the wheelhouse and crew quarters of the harvesting vessels. Copies of the brochure and placard will be provided to each holder of a harvesting permit by NMFS when issuing the permit.

§ 300.110 Mesh size.
(a) The use of pelagic and bottom trawls having the mesh size in any part of a trawl less than indicated is prohibited for any directed fishing for the following Antarctic finfishes:
(1) Nototthenia rossii and Dissostichus eleginoides—120 mm.
(2) Champsocephalus gunnari—90 mm.
(3) Gobionotothen gibberifrons, Nototthenia kempi and Lepidorhirus squamifrons—80 mm.
(b) Any means or device that would reduce the size or obstruct the opening of the meshes is prohibited.
(c) The following procedure will be used for determining compliance with mesh size requirements.
(1) Description of gauges. (i) Gauges for determining mesh sizes will be 2 mm thick, flat, of durable material and capable of retaining their shape. They may have either a series of parallel-edged sides connected by intermediate tapering edges with a taper of one to eight on each side, or only tapering edges with the taper defined above. They will have a hole at the narrowest extremity.
(ii) Each gauge will be inscribed on its face with the width in millimeters both on the parallel-sided section, if any, and on the tapering section. In the case of the latter, the width will be inscribed every 1 mm interval, but the indication of the width may appear at regular intervals other than 1 mm.
(2) Use of the gauge. (i) The net will be stretched in the direction of the long diagonal of the meshes.
(ii) A gauge as described in paragraph (c)(1) of this section will be inserted into the mesh opening in a direction perpendicular to the plane of the net.
(iii) The gauge may be inserted into the mesh opening either with a manual force or using a weight or dynamometer, until its tapered edges by the resistance of the mesh.
(3) Selection of meshes to be measured. (i) Meshes to be measured will form a series of 20 consecutive meshes chosen in the direction of the long axis of the net, except that the meshes to be measured need not be consecutive if the application of paragraph (c)(3)(ii) of this section prevents it.
(ii) Meshes less than 50 cm from lacings, ropes, or codline will not be measured. This distance will be measured perpendicular to the lacings, ropes or codline with the net stretched in the direction of that measurement. No mesh will be measured which has been mended or broken or has attachments to the net fixed at that mesh.
(iii) Nets will be measured only when wet and unfrozen.
(4) The measurement of each mesh will be the width of the gauge at the
§ 300.112 Harvesting permits.

(a) General. (1) Every vessel subject to the jurisdiction of the United States that attempts to reduce or reduces any point where the gauge is stopped, when using this gauge in accordance with paragraph (c)(2) of this section.

(5) Determination of the mesh size of the net will be the arithmetical mean in millimeters of the measurements of the total number of meshes selected and measured as provided for in paragraphs (c)(3) and (4) of this section, the arithmetical mean being rounded up to the next millimeter.

(6) Inspection procedure. (i) One series of 20 meshes, selected in accordance with paragraph (c)(3) of this section, will be measured by inserting the gauge manually without using a weight or dynamometer. The mesh size of the net will then be determined in accordance with paragraph (c)(5) of this section. If the calculation of the mesh size shows that the mesh size does not appear to comply with the rules in force, then two additional series of 20 meshes selected in accordance with paragraph (c)(3) of this section will be measured. The mesh size will then be recalculated in accordance with paragraph (c)(5) of this section, taking into account the 60 meshes already measured; this recalculation will be the mesh size of the net.

(ii) If the captain of the vessel contests the mesh size determined in accordance with paragraph (c)(6)(i) of this section, such measurement will not be considered for the determination of the mesh size and the net will be remeasured.

(A) A weight or dynamometer attached to the gauge will be used for remeasurement. The choice of weight or dynamometer is at the discretion of the inspectors. The weight will be fixed to the hole in the narrowest extremity of the gauge using a hook. The dynamometer may either be fixed to the hole in the narrowest extremity of the gauge or be applied at the largest extremity of the gauge.

(B) The accuracy of the weight or dynamometer must be certified by the appropriate national authority.

(C) For nets of a mesh size of 35 mm or less as determined in accordance with paragraph (c)(6)(i) of this section, a force of 19.61 newtons (equivalent to a mass of 2 kg) will be applied, and for other nets, a force of 49.03 newtons (equivalent to a mass of 5 kg).

(D) For the purposes of determining the mesh size in accordance with paragraph (c)(5) of this section, when using a weight or dynamometer, one series of 20 meshes only will be measured.

§ 300.111 Framework for annual management measures.

(a) Introduction. New management measures may be added and others modified through publication of a regulatory action in the Federal Register. The following framework process authorizes the implementation of measures that may affect the operation of the commercial or exploratory fisheries, gear, area restrictions, or changes in catch and/or effort.

(b) Preliminary notice. The Secretary of State shall publish preliminary notice in the Federal Register of the management measures adopted by the parties to the Convention.

(c) Procedure. At its annual meeting, usually in October or November, the Commission may recommend new measures and that established measures be modified, removed, or re-instituted. After public notice of those recommendations by the Secretary of State and opportunity for public comment, and after considering the impact of instituting the measures and any public comment received by the Secretary of State, the Assistant Administrator may implement the management measures by notice in the Federal Register, with immediate force and effect. The notification in the Federal Register will summarize new management measures, and respond to any public comments received by the Secretary of State on the preliminary notice.

(d) Types of management measures to be frameworked. Management measures that may be implemented by regulatory notice rather than by codified regulation are those that generally will not remain in effect for more than 12 months and include catch restrictions, time and area closures, and gear restrictions.

§ 300.112 Harvesting permits.

(a) General. (1) Every vessel subject to the jurisdiction of the United States that attempts to reduce or reduces any...
§ 300.112  50 CFR Ch. III (10-1-99 Edition)

AMLRs to possession must have a harvesting permit authorizing the attempt or reduction, unless the attempt or reduction occurs during recreational fishing or is covered by an individual permit. Boats launched from a vessel issued a harvesting permit do not require a separate permit, but are covered by the permit issued the launching vessel. Any enforcement action that results from the activities of a launched boat will be taken against the launching vessel.

(b) Responsibility of owners and operators. (1) The owners and operators of each harvesting vessel are jointly and severally responsible for compliance with the Act, this subpart, and any permit issued under the Act and this subpart.

(2) The owners and operators of each such vessel are responsible for the acts of their employees and agents constituting violations, regardless of whether the specific acts were authorized or forbidden by the owners or operators, and regardless of knowledge concerning their occurrence.

(3) The owner of such vessel must report any sale, change in ownership, or other disposition of the vessel to the Assistant Administrator within 15 days of the occurrence.

(c) Application. Application forms for harvesting permits are available from the Assistant Administrator (Attn: CCAMLR permits). A separate fully completed and accurate application must be submitted for each vessel for which a harvesting permit is requested at least 90 days before the date anticipated for the beginning of harvesting.

(d) Issuance. The Assistant Administrator may issue a harvesting permit to a vessel if the Assistant Administrator determines that the harvesting described in the application will meet the requirements of the Act and will not:

(1) Decrease the size of any harvested population to levels below those that ensure its stable recruitment. For this purpose, the Convention recommends that its size not be allowed to fall below a level close to that which ensures the greatest net annual increment.

(2) Upset the ecological relationships between harvested, dependent, and related populations of AMLRs and the restoration of depleted populations to levels that will ensure stable recruitment.

(3) Cause changes or increase the risk of changes in the marine ecosystem that are not potentially reversible over 2 or 3 decades, taking into account the state of available knowledge of the direct and indirect impact of harvesting, the effect of the introduction of alien species, the effects of associated activities on the marine ecosystem and of the effects of environmental changes, with the aim of making possible the sustained conservation of AMLRs.

(4) Violate the management measures issued pursuant to § 300.111 of this subpart.

(5) Violate any other conservation measures in force with respect to the United States under the Convention or the Act.

(e) Duration. A harvesting permit is valid from its date of issuance to its date of expiration unless it is revoked or suspended.

(f) Transfer. Permits are not transferable or assignable. A permit is valid only for the vessel to which it is issued.

(g) Display. Each harvesting vessel when engaged in harvesting must either have on board an up-to-date copy of its harvesting permit or a fully completed and up-to-date harvesting vessel certificate and the vessel operator must produce it for inspection upon the request of an authorized officer or CCAMLR inspector. In order for the certificate to be considered complete, the vessel owner or operator must enter on it the name and IRCS of the vessel issued the harvesting permit, the number of the harvesting permit and its date of issuance and expiration, the harvesting authorized by the permit, and all conditions and restrictions.
(h) Changes in information submitted by permit applicants or holders—(1) Changes in pending applications. Applicants for a harvesting permit must report to the Assistant Administrator in writing any change in the information contained in the application. The processing period for the application will be extended as necessary to review the change.

(2) Changes occurring after permit issuance—(i) Changes other than in the manner and amount of harvesting. The owner or operator of a vessel that has been issued a harvesting permit must report to the Assistant Administrator in writing any change in previously submitted information other than a proposed change in the location, manner, or amount of harvesting within 15 days of the change. Based on such reported information, the Assistant Administrator may revise the permit effective upon notification to the permit holder. As soon as possible, the vessel owner or operator must revise any harvesting vessel certificate evidencing the permit, accordingly.

(ii) Requested changes in the location, manner, or amount of harvesting. Any changes in the manner or amount of harvesting must be proposed in writing to the Assistant Administrator and may not be undertaken unless authorized by the Assistant Administrator through a permit revision or issuance of a new permit. If a requested change in the location, manner, or amount of harvesting could significantly affect the status of any Antarctic marine living resource, the Assistant Administrator will treat the requested change as an application for a new permit and so notify the holder.

(i) Additional conditions and restrictions. The Assistant Administrator may revise the harvesting permit, effective upon notification to the permit holder, to impose additional conditions and restrictions on the harvesting vessel as necessary to achieve the purposes of the Convention or the Act. The permit holder must, as soon as possible, direct the vessel operator to revise the harvesting vessel certificate, if any, accordingly.

(j) Revision, suspension, or revocation for violations. A harvesting permit may be revised, suspended, or revoked if the harvesting vessel is involved in the commission of any violation of its permit, the Act, or this subpart. Failure to report a change in the information contained in an application within 15 days of the change is a violation of this subpart and voids the application or permit, as applicable. If a change in vessel ownership is not reported, the violation is chargeable to the previous owner. Title 15 CFR part 904 governs permit sanctions under this subpart.

§ 300.113 Import permits.

(a) General. (1) Any AMLR may be imported into the United States if its harvest is authorized by an individual permit or a harvesting permit. The harvesting permit, the harvesting vessel certificate, or the individual permit, or a copy of any thereof, must accompany the import. AMLRs harvested by entities not subject to U.S. jurisdiction and, thus, not harvested under a U.S. issued permit (i.e., a harvesting permit or an individual permit), also may be imported into the United States if such harvesting will meet or met the requirements of the Act and will not or did not violate any conservation measure in force with respect to the United States under the Convention or the Act or violate any of the regulations in this subpart, including resource management measures contained therein. A NMFS issued import permit or copy thereof must accompany such an import as proof that the foreign harvested resources met such requirements. Further, the importer is required to complete and return to the Assistant Administrator, no later than 10 days after the date of the importation, an import ticket reporting the importation. However, in no event may a marine mammal be imported into the United States unless authorized and accompanied by an import permit issued under the Marine Mammal Protection Act and/or the Endangered Species Act.

(2) A permit issued under this section does not authorize the harvest of any AMLRs.

(b) Application. Application forms for import permits are available from the Assistant Administrator.
Assistant Administrator (Attn: CCAMLR permits). A fully completed and accurate application must be submitted for each import permit requested at least 30 days before the anticipated date of the importation.

(c) Issuance. The Assistant Administrator may issue an import permit if the Assistant Administrator determines that the importation meets the requirements of the Act and that the resources were not or will not be harvested in violation of any conservation measure in force with respect to the United States or in violation of any regulation in this subpart. Blank import tickets will be attached to the permit. Additional blank import tickets are available from the Assistant Administrator.

(d) Duration. An import permit is valid from its date of issuance to its date of expiration unless it is revoked or suspended.

(e) Transfer. An import permit is not transferable or assignable.

(f) Changes in information submitted by permit applicants or holders—(1) Changes in pending applications. Applicants for an import permit must report in writing to the Assistant Administrator any change in the information submitted in their import permit application. The processing period for the application will be extended as necessary to review the change.

(2) Changes occurring after permit issuance. Any entity issued an import permit must report in writing to the Assistant Administrator any changes in previously submitted information. Any changes that would not result in a change in the importation authorized by the permit must be reported on the import ticket required to be submitted to the Assistant Administrator no later than 10 days after the date of importation. Any changes that would result in a change in the importation authorized by the permit, such as country of origin, type and quantity of the resource to be imported, and Convention statistical subarea from which the resource was harvested, must be proposed in writing to the Assistant Administrator and may not be undertaken unless authorized by the Assistant Administrator by a permit revision or new permit.

(g) Revision, suspension, or revocation. An import permit may be revised, suspended, or revoked based upon information subsequently reported, effective upon notification to the permit holder.

(h) Disposition of resources not accompanied by required documentation. (1) When AMLRs are imported into the United States unaccompanied by a permit authorizing import, the importer must either:

(i) Abandon the resources;

(ii) Waive claim to the resources; or

(iii) Place the resources into a bonded warehouse and attempt to obtain a permit authorizing their importation.

(2) If, within 60 days of such resources being placed into a bonded warehouse, the District Director of the U.S. Customs Service receives documentation that import of the resources into the United States is authorized by a permit, the resources will be allowed entry. If documentation of a permit is not presented within 60 days, the importer’s claim to the resources will be deemed waived.

(3) When resources are abandoned or claim to them waived, the resources will be delivered to the Administrator of NOAA, or a designee, for storage or disposal as authorized by law.

§ 300.114 Appointment of a designated representative.

(a) All holders of permits authorizing fishing in subarea 48.3 must appoint a designated representative in the United States.

(b) The designated representative will be notified of closures under §300.111 and must transmit this information to the vessel on the grounds.

(c) The designated representative may receive catch reports from the vessel and transmit the reports to NMFS in writing.
§ 300.115 Prohibitions.

In addition to the prohibitions in § 300.4, it is unlawful for any person to:

(a) Reduce to possession or attempt to reduce to possession any AMLRs without a permit for such activity as required by § 300.112.

(b) Import into the United States any AMLRs without either a permit to import those resources as required by § 300.113 or a permit to harvest those resources as required by § 300.112.

(c) Engage in harvesting or other associated activities in violation of the provisions of the Convention or in violation of a conservation measure in force with respect to the United States under Article IX of the Convention.

(d) Ship, transport, offer for sale, sell, purchase, import, export or have custody, control or possession of, any AMLR that he or she knows, or reasonably should have known, was harvested in violation of a conservation measure in force with respect to the United States under article IX of the Convention.

(e) Refuse to allow any CCAMLR inspector to board a vessel of the United States or a vessel subject to the jurisdiction of the United States for the purpose of conducting an inspection authorized by the Act, this subpart, or any permit issued under the Act.

(f) Refuse to provide appropriate assistance, including access as necessary to communications equipment, to CCAMLR inspectors.

(g) Refuse to sign a written notification of alleged violations of Commission measures in effect prepared by a CCAMLR inspector.

(h) Assault, resist, oppose, impede, intimidate, or interfere with a CCAMLR inspector in the conduct of any boarding or inspection authorized by the Act, this subpart, or any permit issued under the Act.

(i) Use any vessel to engage in harvesting after the revocation, or during the period of suspension, of an applicable permit issued under the Act.

(j) Fail to identify, falsely identify, fail to properly maintain, or obscure the identification of a harvesting vessel or its gear as required by this subpart.

(k) Fish in a closed area.

(l) Trawl with a mesh size in any part of the trawl net smaller than that allowed for any directed fishing for Antarctic finfishes as specified in management measures issued pursuant to § 300.111.

(m) Use any means or device that would reduce the size or obstruct the opening of the trawl meshes specified in management measures issued pursuant to § 300.111.

(n) Possess fish in violation of the catch limit specified in management measures issued pursuant to § 300.111.

(o) Discard netting or other substances in the Convention Area in violation of § 300.109.

(p) Violate or attempt to violate any provision of this subpart, the Act, any other regulation promulgated under the Act or any permit issued under the Act.

§ 300.116 Facilitation of enforcement and inspection.

In addition to the facilitation of enforcement provisions of § 300.5, the following requirements apply to this subpart.

(a) Access and records. (1) The owners and operator of each harvesting vessel must provide authorized officers and CCAMLR inspectors access to all spaces where work is conducted or business papers and records are prepared or stored, including but not limited to personal quarters and areas within personal quarters. If inspection of a particular area would interfere with specific on-going scientific research, and if the operator of the harvesting vessel makes such assertion and produces an individual permit that covers that specific research, the authorized officer or CCAMLR inspector will not disturb the area, but will record the information pertaining to the denial of access.

(2) The owner and operator of each harvesting vessel must provide to authorized officers and CCAMLR inspectors all records and documents pertaining to the harvesting activities of the vessel, including but not limited to production records, fishing logs, navigation logs, transfer records, product
§ 300.117 Penalties.

Any person or harvesting vessel found to be in violation of the Act, this subpart, or any permit issued under this subpart will be subject to the civil and criminal penalty provisions and forfeiture provisions prescribed in the Act, 15 CFR part 904, and other applicable laws.
Figure 1 to Subpart G—Boundaries of the Statistical Reporting Area in the Southern Ocean
FIGURE 2 TO SUBPART G—THE USE OF STREAMER LINES TO MINIMIZE THE INCIDENTAL MORTALITY OF SEABIRDS IN THE COURSE OF LONGLINE FISHING OR LONGLINE FISHING RESEARCH OPERATIONS IN THE CONVENTION AREA
§ 300.120 Purpose.

This subpart implements fishery conservation and management measures as provided in fishery agreements pursuant to the Treaty Between the Government of the United States of America and the Government of the Republic of Colombia Concerning the Status of Quita Sueno, Roncador and Serrana (TIAS 10120) (Treaty).

§ 300.121 Definitions.

In addition to the terms defined in § 300.2, the Magnuson Act, and § 600.10 of this title, and in the Treaty, the terms used in this subpart have the following meanings. If a term is defined differently in § 300.2, the Magnuson Act, or the Treaty, the definition in this section shall apply.

Conch means Strombus gigas.

Factory vessel means a vessel that processes, transforms, or packages aquatic biological resources on board.

Lobster means one or both of the following:

(1) Smoothtail lobster, Panulirus laevicauda.

(2) Spiny lobster, Panulirus argus.

Regional Administrator means the Director, Southeast Region, or a designee.

Science and Research Director means the Director, Southeast Fisheries Science Center.

Treaty waters means the waters of one or more of the following:

(1) Quita Sueno, enclosed by latitudes 13°55′N. and 14°43′N. between longitudes 80°55′W. and 81°28′W.

(2) Serrana, enclosed by arcs 12 nautical miles from the low water line of the cays and islands in the general area of 14°22′N. lat., 80°20′W. long.

(3) Roncador, enclosed by arcs 12 nautical miles from the low water line of Roncador Cay, in approximate position 13°35′N. lat., 80°05′W. long.

§ 300.122 Relation to other laws.

(a) The relation of this subpart to other laws is set forth in § 600.705 of this title and paragraph (b) of this section. Particular note should be made to the reference in § 600.705 to the applicability of title 46 U.S.C., under which a Certificate of Documentation is invalid when the vessel is placed under the command of a person who is not a citizen of the United States.

(b) Minimum size limitations for certain species, such as reef fish in the Gulf of Mexico, may apply to vessels transiting the EEZ with such species aboard.

§ 300.123 Certificates and permits.

(a) Applicability. An owner of a vessel of the United States that fishes in treaty waters is required to obtain an annual certificate issued by the Republic of Colombia and an annual vessel permit issued by the Regional Administrator.

(b) Application for certificate/permit. (1) An application for a permit must be submitted and signed by the vessel’s owner. An application may be submitted at any time, but should be submitted to the Regional Administrator not less than 90 days in advance of its need. Applications for the ensuing calendar year should be submitted to the Regional Administrator by October 1.

(2) An applicant must provide the following:

(i) A copy of the vessel’s valid USCG certificate of documentation or, if not documented, a copy of its valid state registration certificate.

(ii) Vessel name and official number.

(iii) Name, address, telephone number, and other identifying information of the vessel owner or, if the owner is a corporation or partnership, of the responsible corporate officer or general partner.

(iv) Principal port of landing of fish taken from treaty waters.

(v) Type of fishing to be conducted in treaty waters.

(vi) Any other information concerning the vessel, gear characteristics, principal fisheries engaged in, or fishing areas, as specified on the application form.

(vii) Any other information that may be necessary for the issuance or administration of the permit, as specified on the application form.
(c) Issuance. (1) The Regional Administrator will request a certificate from the Republic of Colombia if:
   (i) The application is complete.
   (ii) The applicant has complied with all applicable reporting requirements of §300.124 during the year immediately preceding the application.

   (2) Upon receipt of an incomplete application, or an application from a person who has not complied with all applicable reporting requirements of §300.124 during the year immediately preceding the application, the Regional Administrator will notify the applicant of the deficiency. If the applicant fails to correct the deficiency within 30 days of the Regional Administrator’s notification, the application will be considered abandoned.

   (3) The Regional Administrator will issue a permit as soon as the certificate is received from the Republic of Colombia.

(d) Duration. A certificate and permit are valid for the calendar year for which they are issued, unless the permit is revoked, suspended, or modified under subpart D of 15 CFR part 904.

(e) Transfer. A certificate and permit issued under this section are not transferable or assignable. They are valid only for the fishing vessel and owner for which they are issued.

(f) Display. A certificate and permit issued under this section must be carried aboard the fishing vessel while it is in treaty waters. The operator of a fishing vessel must present the certificate and permit for inspection upon request of an authorized officer or an enforcement officer of the Republic of Colombia.

§ 300.124 Recordkeeping and reporting.

(a) Arrival and departure reports. The operator of each vessel of the United States for which a certificate and permit have been issued under §300.123 must report by radio to the Port Captain, San Andres Island, voice radio call sign “Capitania de San Andres,” the vessel’s arrival in and departure from treaty waters. Radio reports must be made on 8222.0 kHz or 8276.5 kHz between 8:00 a.m. and 12 noon, local time (1300-1700, Greenwich mean time) Monday through Friday.

(b) Catch and effort reports. Each vessel of the United States must report its catch and effort on each trip into treaty waters to the Science and Research Director on a form available from the Science and Research Director. These forms must be submitted to the Science and Research Director so as to be received no later than 7 days after the end of each fishing trip.

§ 300.125 Vessel identification.

(a) Official number. A vessel with a permit issued pursuant to §300.123, when in treaty waters, must display its official number on the port and starboard sides of the deckhouse or hull, and on an appropriate weather deck, so as to be clearly visible from an enforcement vessel or aircraft. The official number must be permanently affixed or painted on the vessel and must be in block arabic numerals in contrasting color to the background at least 18 inches (45.7 cm) in height for fishing vessels over 65 ft (19.8 m) in length, and at least 10 inches (25.4 cm) in height for all other vessel.

(b) Duties of operator. The operator of each fishing vessel must—
   (1) Keep the official number clearly legible and in good repair.
   (2) Ensure that no part of the fishing vessel, its rigging, fishing gear, or any other material aboard obstructs the view of the official number from an enforcement vessel or aircraft.
§ 300.126 Prohibitions.
In addition to the general prohibitions specified in §600.725 of this title and the prohibited acts specified in §300.4, it is unlawful for any person to do any of the following:
(a) Fish in treaty waters without the certificate and permit aboard, or fail to display the certificate and permit, as specified in §300.123(a) and (f).
(b) Fail to notify the Regional Administrator of a change in application information, as specified in §300.123(j).
(c) Fail to report a vessel's arrival and departure from treaty waters, as required by §300.124(a).
(d) Falsify or fail to display and maintain vessel identification, as required by §300.125.
(e) Fail to comply immediately with instructions and signals issued by an enforcement officer of the Republic of Colombia, as specified in §300.127.
(f) Operate a factory vessel in treaty waters, as specified in §300.130(a).
(g) Use a monofilament gillnet in treaty waters, as specified in §300.130(b).
(h) Use autonomous or semi-autonomous diving equipment in treaty waters, as specified in §300.130(c).
(i) Use or possess in treaty waters a lobster trap or fish trap without a degradable panel, as specified in §300.130(d).
(j) Possess conch smaller than the minimum size limit, as specified in §300.131(a).
(k) Fish for or possess conch in the closed area or during the closed season, as specified in §300.131(b) and (c).
(l) Retain on board a berried lobster or strip eggs from or otherwise molest a berried lobster, as specified in §300.132(a).
(m) Possess a lobster smaller than the minimum size, as specified in §300.132(b).
(n) Fail to return immediately to the water unharmed a berried or undersized lobster, as specified in §300.132(a) and (b).
§ 300.127 Facilitation of enforcement.
(a) The provisions of §600.730 of this title and paragraph (b) of this section apply to vessels of the United States fishing in treaty waters.
(b) The operator of, or any other person aboard, any vessel of the United States fishing in treaty waters must immediately comply with instructions and signals issued by an enforcement officer of the Republic of Colombia to stop the vessel and with instructions to facilitate safe boarding and inspection of the vessel, its gear, equipment, fishing record, and catch for purposes of enforcing this subpart.
§ 300.128 Penalties.
Any person committing or fishing vessel used in the commission of a violation of the Magnuson Act or any regulation issued under the Magnuson Act, is subject to the civil and criminal penalty provisions and civil forfeiture provisions of the Magnuson Act, to part 600 of this title, to 15 CFR part 904, and to other applicable law. In addition, Colombian authorities may require a vessel involved in a violation of this subpart to leave treaty waters.
§ 300.129 Fishing year.
The fishing year for fishing in treaty waters begins on January 1 and ends on December 31.
§ 300.130 Vessel and gear restrictions.
(a) Factory vessels. Factory vessels are prohibited from operating in treaty waters.
(b) Monofilament gillnets. A monofilament gillnet made from nylon or similar synthetic material are prohibited from being used in treaty waters.
(c) Tanks and air hoses. Autonomous or semiautonomous diving equipment (tanks or air hoses) are prohibited from being used to take aquatic biological resources in treaty waters.
(d) Trap requirements. A lobster trap or fish trap used or possessed in treaty waters that is constructed of material other than wood must have an escape panel located in the upper half of the sides or on top of the trap that, when removed, will leave an opening no smaller than the throat or entrance of the trap. Such escape panel must be constructed of or attached to the trap with wood, cotton, or other degradable material.
(e) Poisons and explosives. [Reserved]
§ 300.131 Conch harvest limitations.

(a) Size limit. The minimum size limit for possession of conch in or from treaty waters is 7.94 oz (225 g) for an uncleaned meat and 3.53 oz (100 g) for a cleaned meat.

(b) Closed area. The treaty waters of Quita Sueno are closed to the harvest or possession of conch.

(c) Closed season. During the period July 1 through September 30 of each year, the treaty waters of Serrana and Roncador are closed to the harvest or possession of conch.

§ 300.132 Lobster harvest limitations.

(a) Berried lobsters. A berried (egg-bearing) lobster in treaty waters may not be retained on board. A berried lobster must be returned immediately to the water unharmed. A berried lobster may not be stripped, scraped, shaved, clipped, or in any other manner molested to remove the eggs.

(b) Size limit. The minimum size limit for possession of lobster in or from treaty waters is 5.5 inches (13.97 cm), tail length. Tail length means the measurement, with the tail in a straight, flat position, from the anterior upper edge of the first abdominal (tail) segment to the tip of the closed tail. A lobster smaller than the minimum size limit must be returned immediately to the water unharmed.

Subpart I—United States-Canada Fisheries Enforcement

Authority: 16 U.S.C. 1801 et seq.

§ 300.140 Purpose and scope.

This subpart implements the Agreement Between the Government of the United States of America and the Government of Canada on Fisheries Enforcement executed at Ottawa, Canada, on September 26, 1990 (Agreement), allowing each party to the Agreement to take appropriate measures, consistent with International law, to prevent its nationals, residents and vessels from violating those national fisheries laws and regulations of the other party. This subpart applies, except where otherwise specified in this subpart, to all persons and all places (on water and on land) subject to the jurisdiction of the United States under the Magnuson Act. This includes, but is not limited to, activities of nationals, residents and vessels of the United States (including the owners and operators of such vessels) within waters subject to the fisheries jurisdiction of Canada as defined in this subpart, as well as on the high seas and in waters subject to the fisheries jurisdiction of the United States.

§ 300.141 Definitions.

In addition to the terms defined in §300.2 and those in the Magnuson Act and the Agreement, the terms used in this subpart have the following meanings. If a term is defined differently in §300.2, the Magnuson Act, or the Agreement, the definition in this section applies.

Applicable Canadian fisheries law means any Canadian law, regulation or similar provision relating in any manner to fishing by any fishing vessel other than a Canadian fishing vessel in waters subject to the fisheries jurisdiction of Canada, including, but not limited to, any provision relating to stowage of fishing gear by vessels passing through such waters, and to obstruction or interference with enforcement of any such law or regulation.

Authorized officer of Canada means any fishery officer, protection officer, officer of the Royal Canadian Mounted Police, or other employee authorized by the appropriate authority of any national or provincial agency of Canada to enforce any applicable Canadian fisheries law.

Canadian fishing vessel means any vessel:

(1) That is registered or licensed in Canada under the Canada Shipping Act and is owned by one or more persons each of whom is a Canadian citizen, a person resident and domiciled in Canada, or a corporation incorporated under the laws of Canada or of a province, having its principal place of business in Canada; or

(2) That is not required by the Canada Shipping Act to be registered or licensed in Canada and is not registered or licensed elsewhere but is owned as described in paragraph (1) of this definition.
Waters subject to the fisheries jurisdiction of Canada means the internal waters, territorial sea, and the zone that Canada has established, extending 200 nautical miles from its coasts, in which it exercises sovereign rights for the purpose of exploration, exploitation, conservation and management of living marine resources, to the extent recognized by the United States.

§ 300.142 Prohibitions.

The prohibitions in this section apply within waters subject to the fisheries jurisdiction of Canada and during hot pursuit thereof by an authorized officer of Canada. It is unlawful for any national or resident of the United States, or any person on board a vessel of the United States, or the owner or operator of any such vessel, to do any of the following:

(a) Engage in fishing in waters subject to the fisheries jurisdiction of Canada without the express authorization of the Government of Canada.

(b) Take or retain fish in waters subject to the fisheries jurisdiction of Canada without the express authorization of the Government of Canada.

(c) Be on board a fishing vessel in waters subject to the fisheries jurisdiction of Canada without stowing all fishing gear on board either:

(1) Below deck, or in an area where it is not normally used, such that the gear is not readily available for fishing; or

(2) If the gear cannot readily be moved, in a secured and covered manner, detached from all towing lines, so that it is rendered unusable for fishing; unless the vessel has been authorized by the Government of Canada to fish in the particular location within waters subject to the fisheries jurisdiction of Canada in which it is operating.

(d) While on board a fishing vessel in waters subject to the fisheries jurisdiction of Canada, fail to respond to any inquiry from an authorized officer of Canada regarding the vessel's name, flag state, location, route or destination, and/or the circumstances under which the vessel entered such waters.

(e) Violate the Agreement, any applicable Canadian fisheries law, or the terms or conditions of any permit, license or any other authorization granted by Canada under any such law.

(f) Fail to comply immediately with any of the enforcement and boarding procedures specified in § 300.143.

(g) Destroy, stave, or dispose of in any manner, any fish, gear, cargo or other matter, upon any communication or signal from an authorized officer of Canada, or upon the approach of such an officer, enforcement vessel or aircraft, before the officer has had the opportunity to inspect same, or in contravention of directions from such an officer.

(h) Refuse to allow an authorized officer of Canada to board a vessel for the purpose of conducting any inspection, search, seizure, investigation or arrest in connection with the enforcement of any applicable Canadian fisheries law.

(i) Assault, resist, oppose, impede, intimidate, threaten, obstruct, delay, prevent, or interfere, in any manner, with an authorized officer of Canada in the conduct of any boarding, inspection, search, seizure, investigation or arrest in connection with the enforcement of any applicable Canadian fisheries law.

(j) Make any false statement, oral or written, to an authorized officer of Canada in response to any inquiry by that officer in connection with enforcement of any applicable Canadian fisheries law.

(k) Falsify, cover, or otherwise obscure, the name, home port, official number (if any), or any other similar marking or identification of any fishing vessel subject to this subpart such that the vessel cannot be readily identified from an enforcement vessel or aircraft.

(l) Attempt to do any of the foregoing.

§ 300.143 Facilitation of enforcement.

(a) General. Persons aboard fishing vessels subject to this subpart must immediately comply with instructions and/or signals issued by an authorized officer of the United States or Canada, or by an enforcement vessel or aircraft, to stop the vessel, and with instructions to facilitate safe boarding and inspection for the purpose of enforcing any applicable Canadian fisheries law, the Agreement, or this subpart.
§ 300.144 Penalties and sanctions.

Any person, any fishing vessel, or the owner or operator of any such vessel, who violates any provision of the Agreement or this subpart, is subject to the civil and criminal fines, penalties, forfeitures, permit sanctions, or other sanctions provided in the Magnuson Act, part 600 of this title, 15 CFR part 904 (Civil Procedures), and any other applicable law or regulation.

Subpart J—U.S. Nationals Fishing in Russian Fisheries

AUTHORITY: 16 U.S.C. 1801 et seq.

§ 300.150 Purpose.

§ 300.151 Definitions.

In addition to the terms defined in § 300.2 and those in the Magnuson Act, the terms used in this subpart have the following meanings. If a term is defined differently in § 300.2 or the Magnuson Act, the definition in this section shall apply.

Affiliates means two persons (including individuals and entities) related in such a way that—

(1) One indirectly or directly controls or has power to control the other; or

(2) A third party controls or has power to control both. Indicia of control include, but are not limited to, interlocking management or ownership, identity of interests among family members, shared facilities and equipment, common use of employees, or a reorganized entity having the same or similar management, ownership, or employees as a former entity.

Embassy of the Russian Federation means the Fisheries Attaché of the embassy located in Washington, D.C.

Fishery resource means any fish, any stock of fish, any species of fish, and any habitat of fish.

Fishing or to fish means any activity that does, is intended to, or can reasonably be expected to result in catching
or removing from the water fishery resources. Fishing also includes the acts of scouting, processing, and support.

Operator, with respect to any vessel, means the master or other individual on board and in charge of either the vessel, the vessel's fishing operation, or both.

Owner, with respect to any vessel, means any person who owns that vessel in whole or in part, whether or not it is leased or chartered to or managed by another person, or any charterer, whether bareboat, time, or voyage, and any person who acts in the capacity of a charterer, or manager, including but not limited to parties to a management agreement, operating agreement, or any similar agreement that bestows control over the destination, function, or operation of the vessel, any officer, director, manager, controlling shareholder of any entity described in this definition, any agent designated as such by any person described in this definition, and any affiliate of any person described in this definition.

Processing means any operation by a vessel to receive fish from a fishing vessel and/or the preparation of fish, including but not limited to cleaning, cooking, canning, smoking, salting, drying, or freezing, either on the vessel's behalf or to assist another vessel.

Scouting means any operation by a vessel exploring (on behalf of the vessel or another vessel) for the presence of fish by any means that do not involve the catching of fish.

Support means any operation by a vessel assisting fishing by another vessel, including—

(1) Transferring or transporting fish or fish products; or
(2) Supplying a fishing vessel with water, fuel, provisions, fishing equipment, fish processing equipment, or other supplies.

§ 300.152 Procedures.

(a) Application for annual permits. U.S. vessel owners and operators must have a valid permit issued by the Russian Federation obtained pursuant to a complete application submitted through NMFS before fishing in the Russian EZ or for Russian fishery resources. Application forms and copies of applicable laws and regulations of the Russian Federation may be obtained from NMFS Headquarters.

(b) Other application information. Applications for motherships, processing or transport vessels must identify the type of fishing gear to be employed or the fishing quotas if the vessel has received or is requesting a quota. To facilitate processing, NMFS requests that permit applications for more than 10 vessels be grouped by type and fishing area, and provide the name, address, telephone, and FAX number(s) of an individual who will be the official point of contact for an application.
§ 300.153 Permit issuance.

(c) Review of Applications. NMFS will review each application, and, if it is complete, forward it to the Department of State for submission to the competent authorities of the Russian Federation. NMFS will notify the permit applicant when the permit is submitted to the Russian Federation. NMFS will return incomplete applications to the applicant.

(d) Direct Communication. U.S. applicants may communicate directly with the Russian Federation with regard to the status of their applications or permits and are encouraged to do so. Owners and operators should make direct contact and work with Russian industry and government authorities.

§ 300.154 Recordkeeping and reporting.

(a) General. The owner and operator of a vessel subject to this subpart are responsible for complying with all recordkeeping and reporting requirements in this part in a timely and accurate manner. Reports and records required by this subpart must be in English, in the formats specified, and unless otherwise specified, based on Greenwich mean time (GMT).

(b) Vessel permit abstract report. (1) The owner and operator of a vessel subject to this subpart must submit to NMFS Headquarters a permit abstract
report containing the following information:

(i) Vessel name.
(ii) Russian Federation permit number.
(iii) Duration of permit (e.g., 1/1/91-12/31/91).
(iv) Authorized areas of fishing operations in geographic coordinates.
(v) Authorized catch quota in tons.
(vi) Authorized fishing gear.
(vii) Type of permit (e.g., catcher).

(2) The report must be telefaxed to (301) 713-0596 within 5 calendar days of receipt of the Russian permit.

(c) Activity reports. The owner and operator of a vessel subject to this subpart must submit to the Regional Administrator by telefax to (907) 586-7313, the following reports:

(1) Depart Report (Action code DEPART). At least 24 hours before the vessel departs from the EEZ for the Russian EZ, NMFS must receive the following information:

(i) The date (month and day), and time (hour and minute GMT), and position (latitude and longitude to the nearest degree and minute), at which the vessel will depart the EEZ for the Russian EZ.

(ii) The weight in metric tons (to the nearest hundredth of a metric ton) of all fish and fish product (listed by species and product codes) on board the vessel at the time it will depart the EEZ.

(2) Return Report (Action code RETURN). At least 24 hours before a vessel that has been in the Russian EZ enters the EEZ, NMFS must receive the following information:

(i) The date (month and day), time (hour and minute GMT), and position (latitude and longitude to the nearest degree and minute), at which the vessel will enter the EEZ.

(ii) The weight in metric tons (to the nearest hundredth of a metric ton) of all fish and fish products (listed by species and product codes) on board the vessel at the time it will enter the EEZ, and the areas (Russian EZ, U.S. EEZ, or other) in which such fish products were harvested or received.

(3) All reports must specify: The appropriate action code ("DEPART" or "RETURN"); the vessel’s name and international radio call sign (IRCS); the sender’s name and telephone number, and FAX, TELEX, and COMSAT numbers; the date (month and day) and time (hour and minute GMT) that the report is submitted to NMFS; and the intended date and U.S. port of landing.

A list of species and product codes may be obtained from the Regional Administrator.

(d) Recordkeeping. The owner and operator of a vessel subject to this subpart must retain all copies of all reports required by this subpart on board the vessel for 1 year after the end of the calendar year in which the report was generated. The owner and operator must retain and make such records available for inspection upon the request of an authorized officer at any time for 3 years after the end of the calendar year in which the report was generated, whether or not such records on board the vessel.

§ 300.155 Requirements.

(a) Compliance with permit requirements. (1) U.S. nationals and vessels subject to this subpart must have a valid permit, as specified in §300.153(c) in order to fish for Russian fishery resources.

(2) U.S. nationals and vessels subject to this subpart that are fishing for Russian fishery resources must comply with all provisions, conditions, and restrictions of any applicable permit.

(b) Compliance with Russian law. U.S. nationals and vessels fishing for Russian fishery resources must comply with the relevant laws and regulations of the Russian Federation.

(c) Protection of marine mammals. U.S. nationals and vessels fishing for Russian fishery resources may not harass, hunt, capture, or kill any marine mammal within the Russian EZ, attempt to do so, except as may be provided for by an international agreement to which both the United States and Russia are parties, or in accordance with specific authorization and controls established by the Russian Federation. The provisions of the Marine Mammal Protection Act (MMPA), 16 U.S.C. 1361 et seq., also apply to any person or vessel subject to the jurisdiction of the United States while in the Russian EZ, and it shall not be a defense to any violation of the MMPA that the person or vessel...
§ 300.156 Prohibited acts.

In addition to the prohibited acts specified at §300.4, it shall be unlawful for any U.S. national or vessel, or the owner or operator of any such vessel:

(a) To fish for Russian fishery resources without a valid permit issued by the competent authorities of the Russian Federation.

(b) To violate the provisions, conditions, and restrictions of an applicable permit.

(c) To violate the relevant laws and regulations of Russia.

(d) To harass, hunt, capture, or kill any marine mammal within the Russian EZ, or while fishing for Russian fishery resources, except as provided in §300.155 (c).

(e) To fail to comply immediately with enforcement and boarding procedures specified in §300.155 (d).

(f) To refuse to allow an authorized officer of the Russian Federation to board and inspect a vessel subject to this subpart for purposes of conducting any search, inspection, arrest, or seizure in connection with the enforcement of the relevant laws and regulations of the Russian Federation.

(g) To assault, resist, oppose, impede, intimidate, threaten, or interfere with, in any manner, any authorized officer of the Russian Federation in the conduct of any search, inspection, seizure, or arrest in connection with enforcement of the relevant laws and regulations of the Russian Federation.

(h) To fail to pay fines or penalties or comply with forfeitures imposed for a violation of the relevant laws and regulations of the Russian Federation.

(i) To refuse or fail to allow a Russian observer to board a vessel subject to this subpart while fishing in the Russian EZ, or for Russian fishery resources.

(j) To fail to provide to a Russian observer aboard a vessel fishing in the Russian EZ or for Russian fishery resources, the courtesies and accommodations provided to ship’s officers.

(k) To assault, resist, oppose, impede, intimidate, threaten, interfere with, harass, or fail to cooperate, in any manner, with a Russian observer placed aboard a vessel subject to this subpart.

(2) The operator of, and any person aboard, any U.S. vessel subject to this subpart, must comply with directions issued by authorized officers of the Russian Federation in connection with the seizure of the vessel for violation of the relevant laws or regulations of the Russian Federation.

(3) U.S. nationals and vessels subject to this subpart must pay all fines and penalties and comply with forfeiture sanctions imposed by the Russian Federation for violations of its relevant laws and regulations.

(4) The operator of, and any person aboard, any U.S. vessel subject to this subpart must immediately comply with instructions and signals issued by an authorized officer of the United States to stop the vessel and with instructions to facilitate safe boarding and inspection of the vessel, its gear, equipment, fishing record, and catch for purposes of enforcing the Magnuson Act, the Agreement, and this subpart.

(e) Compliance with observer requirements. The owner, operator, or any person aboard, any U.S. vessel fishing in the Russian EZ or for Russian fishery resources to which a Russian observer is assigned must—

(1) Allow and facilitate, on request, boarding of a U.S. vessel by the observer.

(2) Provide to the observer, at no cost to the observer or the Russian Federation, the courtesies and accommodations provided to ship’s officers.

(3) Cooperate with the observer in the conduct of his or her official duties.

(4) Reimburse the Russian Federation for the costs of providing an observer aboard the vessel.

was acting in accordance with any permit or authorization issued by the Russian Federation.

(d) Cooperation with enforcement procedures. (1) The operator of, or any person aboard, any U.S. vessel subject to this subpart must immediately comply with instructions and signals issued by an authorized officer of the Russian Federation to stop the vessel and with instructions to facilitate safe boarding and inspection of the vessel, its gear, equipment, fishing record, and catch for purposes of enforcing the relevant laws and regulations of Russia.

(2) The operator of, and any person aboard, any U.S. vessel subject to this subpart, must comply with directions issued by authorized officers of the Russian Federation in connection with the seizure of the vessel for violation of the relevant laws or regulations of the Russian Federation.

(3) U.S. nationals and vessels subject to this subpart must pay all fines and penalties and comply with forfeiture sanctions imposed by the Russian Federation for violations of its relevant laws and regulations.

(4) The operator of, and any person aboard, any U.S. vessel subject to this subpart must immediately comply with instructions and signals issued by an authorized officer of the United States to stop the vessel and with instructions to facilitate safe boarding and inspection of the vessel, its gear, equipment, fishing record, and catch for purposes of enforcing the Magnuson Act, the Agreement, and this subpart.

(e) Compliance with observer requirements. The owner of, operator of, and any person aboard, any U.S. vessel fishing in the Russian EZ or for Russian fishery resources to which a Russian observer is assigned must—

(1) Allow and facilitate, on request, boarding of a U.S. vessel by the observer.

(2) Provide to the observer, at no cost to the observer or the Russian Federation, the courtesies and accommodations provided to ship’s officers.

(3) Cooperate with the observer in the conduct of his or her official duties.

(4) Reimburse the Russian Federation for the costs of providing an observer aboard the vessel.

§ 300.156 Prohibited acts.

In addition to the prohibited acts specified at §300.4, it shall be unlawful for any U.S. national or vessel, or the owner or operator of any such vessel:

(a) To fish for Russian fishery resources without a valid permit issued by the competent authorities of the Russian Federation.

(b) To violate the provisions, conditions, and restrictions of an applicable permit.

(c) To violate the relevant laws and regulations of Russia.

(d) To harass, hunt, capture, or kill any marine mammal within the Russian EZ, or while fishing for Russian fishery resources, except as provided in §300.155 (c).

(e) To fail to comply immediately with enforcement and boarding procedures specified in §300.155 (d).

(f) To refuse to allow an authorized officer of the Russian Federation to board and inspect a vessel subject to this subpart for purposes of conducting any search, inspection, arrest, or seizure in connection with the enforcement of the relevant laws and regulations of the Russian Federation.

(g) To assault, resist, oppose, impede, intimidate, threaten, or interfere with, in any manner, any authorized officer of the Russian Federation in the conduct of any search, inspection, seizure, or arrest in connection with enforcement of the relevant laws and regulations of the Russian Federation.

(h) To fail to pay fines or penalties or comply with forfeitures imposed for a violation of the relevant laws and regulations of the Russian Federation.

(i) To refuse or fail to allow a Russian observer to board a vessel subject to this subpart while fishing in the Russian EZ, or for Russian fishery resources.

(j) To fail to provide to a Russian observer aboard a vessel fishing in the Russian EZ or for Russian fishery resources, the courtesies and accommodations provided to ship’s officers.

(k) To assault, resist, oppose, impede, intimidate, threaten, interfere with, harass, or fail to cooperate, in any manner, with a Russian observer placed aboard a vessel subject to this subpart.
§ 300.161 Alternatives and exceptions.

(a) The requirements of §300.160 may be met by complying with one of the following alternatives to the marking requirement:

(1) (i) Conspicuously marking the outside of each container or package containing fish or wildlife with the word “fish” or “wildlife” as appropriate for its contents, or with the common name of its contents by species, and

(ii) Including an invoice, packing list, bill of lading, or similar document to accompany the shipment that accurately states the name and address of the shipper and consignee, states the total number of packages or containers in the shipment, and for each species in the shipment specifies: The common name that identifies the species (examples include: chinook (or king) salmon; bluefin tuna; and whitetail deer); and the number of that species (or other appropriate measure of quantity such as gross or net weight). The invoice, packing list, bill of lading, or equivalent document must be securely attached to the outside of one container or package in the shipment or otherwise physically accompany the shipment in a manner that makes it readily accessible for inspection; or

(2) Affixing the shipper’s wildlife import/export license number preceded by “FWS” on the outside of each container or package containing fish or wildlife if the shipper has a valid wildlife import/export license issued under authority of part 14 of this title. For each shipment marked in accordance with this paragraph (a)(2), the records maintained under §14.93(d) of this title must include a copy of the invoice, packing list, bill of lading, or other...
§ 300.161

50 CFR Ch. III (10-1-99 Edition)

similar document that accurately states the information required by paragraph (a)(1)(ii) of this section.

(3) In the case of subcontainers or packages within a larger packing container, only the outermost container must be marked in accordance with this section, provided, that for live fish or wildlife that are packed in subcontainers within a larger packing container, if the subcontainers are numbered or labeled, the packing list, invoice, bill of lading, or other similar document, must reflect that number or label.

(4) A conveyance (truck, plane, boat, etc.) is not considered a container for purposes of requiring specific marking of the conveyance itself, provided that:

(i) The fish or wildlife within the conveyance is carried loosely or is readily identifiable, and is accompanied by the document required by paragraph (a)(1)(ii) of this section; or

(ii) The fish or wildlife is otherwise packaged and marked in accordance with this subpart.

(b) The requirements of § 300.160 of chapter III of this title do not apply to containers or packages containing

(1) Fox, nutria, rabbit, mink, chinchilla, marten, fisher, muskrat, and karakul that have been bred and born in captivity, or their products, if a signed statement certifying that the animals were bred and born in captivity accompanies the shipping documents;

(2) Fish or shellfish contained in retail consumer packages labeled pursuant to the Food, Drug and Cosmetic Act, 21 U.S.C. 301 et seq.; or

(3) Fish or shellfish that are landed by, and offloaded from, a fishing vessel (whether or not the catch has been carried by the fishing vessel interstate), as long as the fish or shellfish remain at the place where first offloaded.

§ 401.1 Administration.

The Director of the U.S. Fish and Wildlife Service and the Director of the National Marine Fisheries Service shall jointly administer the Anadromous Fish Conservation Act for the Secretaries.

§ 401.2 Definitions.

As used in this part, terms shall have the meanings ascribed in this section.

(a) Secretary. The Secretary of Commerce, the Secretary of the Interior, or their authorized representatives.

(c) Eligible states. Any coastal State of the United States, the State of Vermont, and the States bordering the Great Lakes. The area within the Columbia River basin is excluded.

(d) State fishery agency. Any department(s), division(s), commission(s), or official(s) of a State empowered under its laws to regulate a commercial or sport fishery.

(e) Non-Federal interest. Any organization, association, institution, business, school, individual, or group of individuals, municipality and others outside the Federal Government, in addition to State fishery agencies, which desire to cooperate within the terms of the Act.

(f) Cooperator. One or more States acting jointly or severally or other non-Federal interests, participating in a project agreement or grant-in-aid award with the Secretary.

(g) Anadromous fish. Aquatic, gill breathing, vertebrate animals bearing paired fins which migrate to and spawn in fresh water, but which spend part of their life in an oceanic environment; also fish in the Great Lakes that ascend streams to spawn.

(h) Application for Federal assistance. A description of work to be accomplished, including objectives and needs, expected results and benefits, approach, cost, location and time required for completion.

(i) Project agreement. The formal document executed between the Secretary of the Interior and the Cooperator, committing the Cooperator to the performance of described activities and the Federal Government to participation in the financing of those activities.

(j) Grant-in-Aid award. The formal document executed between the Secretary of Commerce and the Cooperator, committing the Cooperator to the performance of described activities and the Federal Government to participation in the financing of those activities.

§ 401.3 Submission of documents.

Applications for Federal assistance and other documents for projects relating generally to recreational fisheries shall be submitted to the concerned Regional Office of the U.S. Fish and Wildlife Service, or for projects relating generally to commercial fisheries of the concerned Regional Office of the National Marine Fisheries Service.
§ 401.4 Activities prohibited.

Law enforcement, public relations, harvesting, marketing and processing activities, construction of fisherman use facilities, and activities concerned with landlocked anadromous fish populations (except fish in the Great Lakes that ascend streams to spawn) may not be financed under the Act.

§ 401.5 Coordination with States.

The Secretary will approve an Application For Federal Assistance only after he has coordinated the application with the State office established to review applications under Executive Order 12372 (if the State has established such an office and wishes to review these applications) and other non-Federal entities which have management authority over the resource to be affected.

[48 FR 29137, June 24, 1983]

§ 401.6 Prosecution of work.

(a) Project work shall be carried through to a state of completion acceptable to the Secretary with reasonable promptness. Failure to render satisfactory performance reports or failure to complete the project to the satisfaction of the Secretary shall be cause for suspension of Federal assistance for the project until the project provisions are satisfactorily met. Federal assistance may be terminated upon determination by the Secretary that satisfactory progress has not been maintained. The Secretary shall have the right to inspect and review work at any time.

(b) Research and development work shall be continuously coordinated by the Cooperators with studies conducted by others to avoid unnecessary duplication.

(c) All work shall be performed in accordance with applicable local laws, except when in conflict with Federal laws or regulations, in which case Federal laws or regulations shall prevail.

§ 401.7 General information for the Secretary.

Before any Federal funds may be obligated for any project an applicant shall furnish to the Secretary, upon his request, information regarding the laws affecting anadromous fish and the authority of the applicant to participate in the benefits of the Act.

(a) Document signature. Individuals authorized to sign project documents under the Commercial Fisheries Research and Development Act of 1964 (78 Stat. 197, as amended), 16 U.S.C. 779 through 779f, or the Federal Aid in Sport Fish Restoration Act (64 Stat. 430, as amended), 16 U.S.C. 777 through 777i, may likewise sign project documents contemplated in this part.

(b) Program information. The Secretary may, from time to time, request, and the Cooperators shall furnish, information relating to the administration and maintenance of any project established under the Act.

§ 401.8 Availability of funds.

The period of availability of funds to the States or other non-Federal interests for obligation shall be established by the administering Federal agency.

§ 401.9 Payments to cooperators.

Payments shall be made to Cooperators in accordance with provisions of grant-in-aid awards or project agreements.

§ 401.10 Request for payment.

Request for payment shall be on forms provided by the Secretary, certified as therein prescribed, and submitted to the Regional Director by the Cooperator.

§ 401.11 Property as matching funds.

The non-Federal share of the cost of projects may be in the form of real or personal property. Specific procedures to be used by grantees in placing the value on real or personal property for matching funds are set forth in Attachment F of Federal Management Circular 74-7.

§ 401.12 Ownership of property.

When real property is acquired pursuant to the provisions of the Act, title to such property, or interests therein, shall be vested in the United States, and the conveying instrument shall recite the United States of America as the grantee. However, if the Secretary determines that under the terms of the application for Federal assistance and
grant-in-aid award or project agreement, the intent and purpose of the Act may be better served by other ownership of such property, an appropriate transfer may be made. When real or personal property is utilized as matching funds, title to such property shall be in the Cooperator unless otherwise specified in the grant-in-aid award or project agreement.

§ 401.13 Personnel.

The Cooperator shall maintain an adequate and competent force of employees to initiate and carry approved work to satisfactory completion.

§ 401.14 Inspection.

Cooperator supervision of each project shall include adequate and continuous inspection. The project will be subject at all times to Federal inspection.

§ 401.15 Record retention.

All records of accounts and reports with supporting documentation therefor, as set forth in Attachment C of Federal Management Circular 74-7, will be retained by the Cooperator for a period of 3 years after submission of the final expenditure report on the project. Record retention for a period longer than 3 years is required if audit findings have not been resolved.

§ 401.16 Records and reporting.

Performance reports and other reports shall be furnished as requested by the Secretary. Cost records shall be maintained separately for each project. The accounts and records maintained by the Cooperator, together with all supporting documents, shall be open at all times to the inspection of authorized representatives of the United States, and copies thereof shall be furnished when requested.

(Approved by the Office of Management and Budget under control number 0648-0100)

[40 FR 26678, June 25, 1975, as amended at 48 FR 57302, Dec. 29, 1983]

§ 401.17 Safety and accident prevention.

In the performance of each project, the Cooperator shall comply with all applicable Federal, State, and local laws governing safety, health and sanitation.

§ 401.18 Contracts.

A Cooperate may use its own regulations or guidelines in obtaining services by contract or otherwise, provided that they adhere to applicable Federal laws, regulations, policies, guidelines, and requirements, as set forth in Attachment 0 of Federal Management Circular 74-7. However, the Cooperator is the responsible authority, without recourse to the Federal agency, regarding the settlement of such contractual issues.

§ 401.19 Statements and payrolls.

The regulations of the Secretary of Labor applicable to contractors and subcontractors (29 CFR part 3), made pursuant to the Copeland “Anti-Kickback” Act (10 U.S.C. 874), as amended, are made a part of the regulations in this part by reference. The Cooperate will comply with the regulations in this part and any amendments or modifications thereof, and the Cooperate’s prime contractor will be responsible for the submission of statements required of subcontractors thereunder. The foregoing shall apply except as the Secretary of Labor may specifically provide for reasonable limitation, variations, tolerances, and exemptions.

§ 401.20 Officials not to benefit.

No Member of, or Delegate to, Congress, or resident Commissioner, shall be admitted to any share or any part of any project agreement made under the Act, or to any benefit that may arise therefrom. This provision shall not be construed to extend to this agreement if made with a corporation for its general benefit.

§ 401.21 Patents and inventions.

Determination of the patent rights in any inventions or discoveries resulting from work under project agreements entered into pursuant to the Act shall be consistent with the “Government Patent Policy” (President’s memorandum for Heads of Executive Departments and Agencies, August 23, 1971, and statement of Government Patent Policy as printed in 36 FR 16889).
§ 401.22 Civil rights.

Each application for Federal assistance, grant-in-aid award, or project agreement shall be supported by a statement of assurances executed by the Cooperator providing that the project will be carried out in accordance with title VI, Nondiscrimination in federally Assisted Programs of the Civil Rights Act of 1964 and with the Secretary's regulations promulgated thereunder.

§ 401.23 Audits.

The State is required to conduct an audit at least every two years in accordance with the provisions of Attachment P OMB Circular A-102. Failure to conduct audits as required may result in withholding of grant payments or such other sanctions as the Secretary may deem appropriate.

[49 FR 30074, July 26, 1984]

PART 402—INTERAGENCY CO-OPERATION—ENDANGERED SPECIES ACT OF 1973, AS AMENDED

Subpart A—General

§ 402.01 Scope.

(a) This part interprets and implements sections 7(a)-(d) [16 U.S.C. 1536(a)-(d)] of the Endangered Species Act of 1973, as amended ("Act"). Section 7(a) grants authority to and imposes requirements upon Federal agencies regarding endangered or threatened species of fish, wildlife, or plants ("listed species") and habitat of such species that has been designated as critical ("critical habitat"). Section 7(a)(1) of the Act directs Federal agencies, in consultation with and with the assistance of the Secretary of the Interior or of Commerce, as appropriate, to utilize their authorities to further the purposes of the Act by carrying out conservation programs for listed species. Such affirmative conservation programs must comply with applicable permit requirements (50 CFR parts 17, 220, 222, and 227) for listed species and should be coordinated with the appropriate Secretary. Section 7(a)(2) of the Act requires every Federal agency, in consultation with and with the assistance of the Secretary, to insure that any action it authorizes, funds, or carries out, in the United States or upon the high seas, is not likely to jeopardize the continued existence of any listed species or results in the destruction or adverse modification of critical habitat. Section 7(a)(3) of the Act authorizes a prospective permit or license applicant to request the issuing Federal agency to enter into early consultation with the Service on a proposed action to determine whether such action is likely to jeopardize the continued existence of listed species or result in the destruction of critical habitat. Section 7(a)(4) of the Act requires Federal agencies to confer with the Secretary on any action that is likely to jeopardize the continued existence of proposed species or result in the destruction or adverse modification of proposed critical habitat. Section 7(b) of the Act requires the Secretary, after the conclusion of early or formal consultation, to issue a written statement setting forth the Secretary's opinion detailing how the agency action affects
listed species or critical habitat Biological assessments are required under section 7(c) of the Act if listed species or critical habitat may be present in the area affected by any major construction activity as defined in §404.02. Section 7(d) of the Act prohibits Federal agencies and applicants from making any irreversible or irretrievable commitment of resources which has the effect of foreclosing the formulation or implementation of reasonable and prudent alternatives which would avoid jeopardizing the continued existence of listed species or resulting in the destruction or adverse modification of critical habitat. Section 7(e)-(o)(1) of the Act provide procedures for granting exemptions from the requirements of section 7(a)(2). Regulations governing the submission of exemption applications are found at 50 CFR part 451, and regulations governing the exemption process are found at 50 CFR parts 450, 452, and 453.

(b) The U.S. Fish and Wildlife Service (FWS) and the National Marine Fisheries Service (NMFS) share responsibilities for administering the Act. The Lists of Endangered and Threatened Wildlife and Plants are found in 50 CFR 17.11 and 17.12 and the designated critical habitats are found in 50 CFR 17.95 and 50 CFR part 226. Endangered or threatened species under the jurisdiction of the NMFS are located in 50 CFR 222.23(a) and 227.4. If the subject species is cited in 50 CFR 222.23(a) or 227.4, the Federal agency shall contact the NMFS. For all other listed species the Federal Agency shall contact the FWS.

§ 402.02 Definitions.

Action means all activities or programs of any kind authorized, funded, or carried out, in whole or in part, by Federal agencies in the United States or upon the high seas. Examples include, but are not limited to:

(a) actions intended to conserve listed species or their habitat;

(b) the promulgation of regulations;

(c) the granting of licenses, contracts, leases, easements, rights-of-way, permits, or grants-in-aid; or

(d) actions directly or indirectly causing modifications to the land, water, or air.

Action area means all areas to be affected directly or indirectly by the Federal action and not merely the immediate area involved in the action.

Applicant refers to any person, as defined in section 3(13) of the Act, who requires formal approval or authorization from a Federal agency as a prerequisite to conducting the action.

Biological assessment refers to the information prepared by or under the direction of the Federal agency concerning listed and proposed species and designated and proposed critical habitat that may be present in the action area and the evaluation potential effects of the action on such species and habitat.

Biological opinion is the document that states the opinion of the Service as to whether or not the Federal action is likely to jeopardize the continued existence of listed species or result in the destruction or adverse modification of critical habitat.

Conference is a process which involves informal discussions between a Federal agency and the Service under section 7(a)(4) of the Act regarding the impact of an action on proposed species or proposed critical habitat and recommendations to minimize or avoid the adverse effects.

Conservation recommendations are suggestions of the Service regarding discretionary measures to minimize or avoid adverse effects of a proposed action on listed species or critical habitat or regarding the development of information.

Critical habitat refers to an area designated as critical habitat listed in 50 CFR parts 17 or 226.

Cumulative effects are those effects of future State or private activities, not involving Federal activities, that are reasonably certain to occur within the action area of the Federal action subject to consultation.

Designated non-Federal representative refers to a person designated by the Federal agency as its representative to conduct informal consultation and/or to prepare any biological assessment.

Destruction or adverse modification means a direct or indirect alteration...
that appreciably diminishes the value of critical habitat for both the survival and recovery of a listed species. Such alterations include, but are not limited to, alterations adversely modifying any of those physical or biological features that were the basis for determining the habitat to be critical.

Director refers to the Assistant Administrator for Fisheries for the National Oceanic and Atmospheric Administration, or his authorized representative; or the Fish and Wildlife Service regional director, or his authorized representative, for the region where the action would be carried out.

Early consultation is a process requested by a Federal agency on behalf of a prospective applicant under section 7(a)(3) of the Act.

Effects of the action refers to the direct and indirect effects of an action on the species or critical habitat, together with the effects of other activities that are interrelated or interdependent with that action, that will be added to the environmental baseline. The environmental baseline includes the past and present impacts of all Federal, State, or private actions and other human activities in the action area, the anticipated impacts of all proposed Federal projects in the action area that have already undergone formal or early section 7 consultation, and the impact of State or private actions which are contemporaneous with the consultation in process. Indirect effects are those that are caused by the proposed action and are later in time, but still are reasonably certain to occur. Interrelated actions are those that are part of a larger action and depend on the larger action for their justification. Interdependent actions are those that have no independent utility apart from the action under consideration.

Formal consultation is a process between the Service and the Federal agency that commences with the Federal agency's written request for consultation under section 7(a)(2) of the Act and concludes with the Service's issuance of the biological opinion under section 7(b)(3) of the Act.

Incidental take refers to takings that result from, but are not the purpose of, carrying out an otherwise lawful activity conducted by the Federal agency or applicant.

Informal consultation is an optional process that includes all discussions, correspondence, etc., between the Service and the Federal agency or the designated non-Federal representative prior to formal consultation, if required.

Jeopardize the continued existence of means to engage in an action that reasonably would be expected, directly or indirectly, to reduce appreciably the likelihood of both the survival and recovery of a listed species in the wild by reducing the reproduction, numbers, or distribution of that species.

Listed species means any species of fish, wildlife, or plant which has been determined to be endangered or threatened under section 4 of the Act. Listed species are found in 50 CFR 17.11-17.12.

Major construction activity is a construction project (or other undertaking having similar physical impacts) which is a major Federal action significantly affecting the quality of the human environment as referred to in the National Environmental Policy Act (NEPA, 42 U.S.C. 4332(2)(C)).

Preliminary biological opinion refers to an opinion issued as a result of early consultation.

Proposed critical habitat means habitat proposed in the Federal Register to be designated or revised as critical habitat under section 4 of the Act for any listed or proposed species.

Proposed species means any species of fish, wildlife, or plant that is proposed in the Federal Register to be listed under section 4 of the Act.

Reasonable and prudent alternatives refer to alternative actions identified during formal consultation that can be implemented in a manner consistent with the intended purpose of the action, that can be implemented consistent with the scope of the Federal agency's legal authority and jurisdiction, that is economically and technologically feasible, and that the Director believes would avoid the likelihood of jeopardizing the continued existence of listed species or resulting in the destruction or adverse modification of critical habitat.

Reasonable and prudent measures refer to those actions the Director believes...
necessary or appropriate to minimize the impacts, i.e., amount or extent, of incidental take.

Recovery means improvement in the status of listed species to the point at which listing is no longer appropriate under the criteria set out in section 4(a)(1) of the Act.

Service means the U.S. Fish and Wildlife Service or the National Marine Fisheries Service, as appropriate.

§ 402.03 Applicability.

Section 7 and the requirements of this part apply to all actions in which there is discretionary Federal involvement or control.

§ 402.04 Counterpart regulations.

The consultation procedures set forth in this part may be superseded for a particular Federal agency by joint counterpart regulations among that agency, the Fish and Wildlife Service, and the National Marine Fisheries Service. Such counterpart regulations shall be published in the Federal Register in proposed form and shall be subject to public comment for at least 60 days before final rules are published.

§ 402.05 Emergencies.

(a) Where emergency circumstances mandate the need to consult in an expedited manner, consultation may be conducted informally through alternative procedures that the Director determines to be consistent with the requirements of sections 7(a)–(d) of the Act. This provision applies to situations involving acts of God, disasters, casualties, national defense or security emergencies, etc.

(b) Formal consultation shall be initiated as soon as practicable after the emergency is under control. The Federal agency shall submit information on the nature of the emergency action(s), the justification for the expedited consultation, and the impacts to endangered or threatened species and their habitats. The Service will evaluate such information and issue a biological opinion including the information and recommendations given during the emergency consultation.

§ 402.06 Coordination with other environmental reviews.

(a) Consultation, conference, and biological assessment procedures under section 7 may be consolidated with interagency cooperation procedures required by other statutes, such as the National Environmental Policy Act (NEPA) (42 U.S.C. 4321 et seq., implemented at 40 CFR Parts 1500–1508) or the Fish and Wildlife Coordination Act (FWCA) (16 U.S.C. 661 et seq.). Satisfying the requirements of these other statutes, however, does not in itself relieve a Federal agency of its obligations to comply with the procedures set forth in this part or the substantive requirements of section 7. The Service will attempt to provide a coordinated review and analysis of all environmental requirements.

(b) Where the consultation or conference has been consolidated with the interagency cooperation procedures required by other statutes such as NEPA or FWCA, the results should be included in the documents required by those statutes.

§ 402.07 Designation of lead agency.

When a particular action involves more than one Federal agency, the consultation and conference responsibilities may be fulfilled through a lead agency. Factors relevant in determining an appropriate lead agency include the time sequence in which the agencies would become involved, the magnitude of their respective involvement, and their relative expertise with respect to the environmental effects of the action. The Director shall be notified of the designation in writing by the lead agency.

§ 402.08 Designation of non-Federal representative.

A Federal agency may designate a non-Federal representative to conduct informal consultation or prepare a biological assessment by giving written notice to the Director of such designation. If a permit or license applicant is involved and is not the designated non-Federal representative, then the applicant and Federal agency must agree on the choice of the designated non-Federal representative. If a biological assessment is prepared by the designated
non-Federal representative, the Federal agency shall furnish guidance and supervision and shall independently review and evaluate the scope and contents of the biological assessment. The ultimate responsibility for compliance with section 7 remains with the Federal agency.

§ 402.09 Irreversible or irretrievable commitment of resources.

After initiation or reinitiation of consultation required under section 7(a)(2) of the Act, the Federal agency and any applicant shall make no irreversible or irretrievable commitment of resources with respect to the agency action which has the effect of foreclosing the formulation or implementation of any reasonable and prudent alternatives which would avoid violating section 7(a)(2). This prohibition is in force during the consultation process and continues until the requirements of section 7(a)(2) are satisfied. This provision does not apply to the conference requirement for proposed species or proposed critical habitat under section 7(a)(4) of the Act.

Subpart B—Consultation Procedures

§ 402.10 Conference on proposed species or proposed critical habitat.

(a) Each Federal agency shall confer with the Service on any action which is likely to jeopardize the continued existence of any proposed species or result in the destruction or adverse modification of proposed critical habitat. The conference is designed to assist the Federal agency and any applicant in identifying and resolving potential conflicts at an early stage in the planning process.

(b) The Federal agency shall initiate the conference with the Director. The Service may request a conference if, after a review of available information, it determines that a conference is required for a particular action.

(c) A conference between a Federal agency and the Service shall consist of informal discussions concerning an action that is likely to jeopardize the continued existence of the proposed species or result in the destruction or adverse modification of the proposed critical habitat at issue. Applicants may be involved in these informal discussions to the greatest extent practicable. During the conference, the Service will make advisory recommendations, if any, on ways to minimize or avoid adverse effects. If the proposed species is subsequently listed or the proposed critical habitat is designated prior to completion of the action, the Federal agency must review the action to determine whether formal consultation is required.

(d) If requested by the Federal agency and deemed appropriate by the Service, the conference may be conducted in accordance with the procedures for formal consultation in § 402.14. An opinion issued at the conclusion of the conference may be adopted as the biological opinion when the species is listed or critical habitat is designated, but only if no significant new information is developed (including that developed during the rulemaking process on the proposed listing or critical habitat designation) and no significant changes to the Federal action are made that would alter the content of the opinion. An incidental take statement provided with a conference opinion does not become effective unless the Service adopts the opinion once the listing is final.

(e) The conclusions reached during a conference and any recommendations shall be documented by the Service and provided to the Federal agency and to any applicant. The style and magnitude of this document will vary with the complexity of the conference. If formal consultation also is required for a particular action, then the Service will provide the results of the conference with the biological opinion.

§ 402.11 Early consultation.

(a) Purpose. Early consultation is designed to reduce the likelihood of conflicts between listed species or critical habitat and proposed actions and occurs prior to the filing of an application for a Federal permit or license. Although early consultation is conducted between the Service and the Federal agency, the prospective applicant should be involved throughout the consultation process.

(b) Request by prospective applicant. If a prospective applicant has reason to
believe that the prospective action may affect listed species or critical habitat, it may request the Federal agency to enter into early consultation with the Service. The prospective applicant must certify in writing to the Federal agency that (1) it has a definitive proposal outlining the action and its effects and (2) it intends to implement its proposal, if authorized.

(c) Initiation of early consultation. If the Federal agency receives the prospective applicant's certification in paragraph (b) of this section, then the Federal agency shall initiate early consultation with the Service. This request shall be in writing and contain the information outlined in §402.14(c) and, if the action is a major construction activity, the biological assessment as outlined in §402.12.

(d) Procedures and responsibilities. The procedures and responsibilities for early consultation are the same as outlined in §402.14(c)-(j) for formal consultation, except that all references to the "applicant" shall be treated as the "prospective applicant" and all references to the "biological opinion" or the "opinion" shall be treated as the "preliminary biological opinion" for the purpose of this section.

(e) Preliminary biological opinion. The contents and conclusions of a preliminary biological opinion are the same as for a biological opinion issued after formal consultation except that the incidental take statement provided with a preliminary biological opinion does not constitute authority to take listed species.

(f) Confirmation of preliminary biological opinion as final biological opinion. A preliminary biological opinion may be confirmed as a biological opinion issued after formal consultation if the Service reviews the proposed action and finds that there have been no significant changes in the action as planned or in the information used during the early consultation. A written request for confirmation of the preliminary biological opinion should be submitted after the prospective applicant applies to the Federal agency for a permit or license but prior to the issuance of such permit or license. Within 45 days of receipt of the Federal agency's request, the Service shall either:

1. Confirm that the preliminary biological opinion stands as a final biological opinion; or
2. If the findings noted above cannot be made, request that the Federal agency initiate formal consultation.

§ 402.12 Biological assessments.

(a) Purpose. A biological assessment shall evaluate the potential effects of the action on listed and proposed species and designated and proposed critical habitat and determine whether any such species or habitat are likely to be adversely affected by the action and is used in determining whether formal consultation or a conference is necessary.

(b) Preparation requirement. (1) The procedures of this section are required for Federal actions that are "major construction activities"; provided that a contract for construction was not entered into or actual construction was not begun on or before November 10, 1978. Any person, including those who may wish to apply for an exemption from section 7(a)(2) of the Act, may prepare a biological assessment under the supervision of the Federal agency and in cooperation with the Service consistent with the procedures and requirements of this section. An exemption from the requirements of section 7(a)(2) is not permanent unless a biological assessment has been prepared.

(2) The biological assessment shall be completed before any contract for construction is entered into and before construction is begun.

(c) Request for information. The Federal agency or the designated non-Federal representative shall convey to the Director either (1) a written request for a list of any listed or proposed species or designated or proposed critical habitat that may be present in the action area; or (2) a written notification of the species and critical habitat that are being included in the biological assessment.

(d) Director's response. Within 30 days of receipt of the notification of, or the request for, a species list, the Director shall either concur with or review the list or, in those cases where no list has
§ 402.12  

50 CFR Ch. IV (10-1-99 Edition)

been provided, advise the Federal agency or the designated non-Federal representative in writing whether, based on the best scientific and commercial data available, any listed or proposed species or designated or proposed critical habitat may be present in the action area. In addition to listed and proposed species, the Director will provide a list of candidate species that may be present in the action area. Candidate species refers to any species being considered by the Service for listing as endangered or threatened species but not yet the subject of a proposed rule. Although candidate species have no legal status and are accorded no protection under the Act, their inclusion will alert the Federal agency of potential proposals or listings. 

(1) If the Director advises that no listed species or critical habitat may be present, the Federal agency need not prepare a biological assessment and further consultation is not required. If only proposed species or proposed critical habitat may be present in the action area, then the Federal agency must confer with the Service if required under § 402.10, but preparation of a biological assessment is not required unless the proposed listing and/or designation becomes final. 

(2) If a listed species or critical habitat may be present in the action area, the Director will provide a species list or concur with the species list provided. The Director also will provide available information (or references thereto) regarding these species and critical habitat, and may recommend discretionary studies or surveys that may provide a better information base for the preparation of an assessment. Any recommendation for studies or surveys is not to be construed as the Service’s opinion that the Federal agency has failed to satisfy the information standard of section 7(a)(2) of the Act. 

(g) Verification of current accuracy of species list. If the Federal agency or the designated non-Federal representative does not begin preparation of the biological assessment within 90 days of receipt of (or concurrence with) the species list, the Federal agency or the designated non-Federal representative must verify (formally or informally) with the Service the current accuracy of the species list at the time the preparation of the assessment is begun. 

(f) Contents. The contents of a biological assessment are at the discretion of the Federal agency and will depend on the nature of the Federal action. The following may be considered for inclusion: 

(1) The results of an on-site inspection of the area affected by the action to determine if listed or proposed species are present or occur seasonally. 

(2) The views of recognized experts on the species at issue. 

(3) A review of the literature and other information. 

(4) An analysis of the effects of the action on the species and habitat, including consideration of cumulative effects, and the results of any related studies. 

(5) An analysis of alternate actions considered by the Federal agency for the proposed action. 

(h) Incorporation by reference. If a proposed action requiring the preparation of a biological assessment is identical, or very similar, to a previous action for which a biological assessment was prepared, the Federal agency may fulfill the biological assessment requirement for the proposed action by incorporating by reference the earlier biological assessment, plus any supporting data from other documents that are pertinent to the consultation, into a written certification that: 

(1) The proposed action involves similar impacts to the same species in the same geographic area; 

(2) No new species have been listed or proposed or no new critical habitat designated or proposed for the action area; and 

(3) The biological assessment has been supplemented with any relevant changes in information. 

(h) Permit requirements. If conducting a biological assessment will involve the taking of a listed species, a permit under section 10 of the Act (16 U.S.C. 1539) and part 17 of this title (with respect to species under the jurisdiction of the FWS) or parts 220, 222, and 227 of this title (with respect to species under the jurisdiction of the NMFS) is required.
§ 402.14 Formal consultation.

(a) Requirement for formal consultation. Each Federal agency shall review its actions at the earliest possible time to determine whether any action may affect listed species or critical habitat. If such a determination is made, formal consultation is required, except as noted in paragraph (b) of this section. The Director may request a Federal agency to enter into consultation if he identifies any action of that agency that may affect listed species or critical habitat and for which there has been no consultation. When such a request is made, the Director shall forward to the Federal agency a written explanation of the basis for the request.

(b) Exceptions. (1) A Federal agency need not initiate formal consultation if, as a result of the preparation of a biological assessment under §402.12 or as a result of informal consultation with the Service under §402.13, the Federal agency determines, with the written concurrence of the Director, that the proposed action is not likely to adversely affect any listed species or critical habitat.

(2) A Federal agency need not initiate formal consultation if a preliminary biological opinion, issued after early consultation under §402.11, is confirmed as the final biological opinion.

§ 402.13 Informal consultation.

(a) Informal consultation is an optional process that includes all discussions, correspondence, etc., between the Service and the Federal agency or the designated non-Federal representative, designed to assist the Federal agency in determining whether formal consultation or a conference is required. If during informal consultation it is determined by the Federal agency, with the written concurrence of the Service, that the action is not likely to adversely affect listed species or critical habitat, the consultation process is terminated, and no further action is necessary.

(b) During informal consultation, the Service may suggest modifications to the action that the Federal agency and any applicant could implement to avoid the likelihood of adverse effects to listed species or critical habitat.

§ 402.14 Formal consultation.

(a) Requirement for formal consultation. Each Federal agency shall review its actions at the earliest possible time to determine whether any action may affect listed species or critical habitat. If such a determination is made, formal consultation is required, except as noted in paragraph (b) of this section. The Director may request a Federal agency to enter into consultation if he identifies any action of that agency that may affect listed species or critical habitat and for which there has been no consultation. When such a request is made, the Director shall forward to the Federal agency a written explanation of the basis for the request.

(b) Exceptions. (1) A Federal agency need not initiate formal consultation if, as a result of the preparation of a biological assessment under §402.12 or as a result of informal consultation with the Service under §402.13, the Federal agency determines, with the written concurrence of the Director, that the proposed action is not likely to adversely affect any listed species or critical habitat.

(2) A Federal agency need not initiate formal consultation if a preliminary biological opinion, issued after early consultation under §402.11, is confirmed as the final biological opinion.
§ 402.14 50 CFR Ch. IV (10-1-99 Edition)

(c) Initiation of formal consultation. A written request to initiate formal consultation shall be submitted to the Director and shall include:

1. A description of the action to be considered;
2. A description of the specific area that may be affected by the action;
3. A description of any listed species or critical habitat that may be affected by the action;
4. A description of the manner in which the action may affect any listed species or critical habitat and an analysis of any cumulative effects;
5. Relevant reports, including any environmental impact statement, environmental assessment, or biological assessment prepared; and
6. Any other relevant available information on the action, the affected listed species, or critical habitat.

Formal consultation shall not be initiated by the Federal agency until any required biological assessment has been completed and submitted to the Director in accordance with §402.12. Any request for formal consultation may encompass, subject to the approval of the Director, a number of similar individual actions within a given geographical area or a segment of a comprehensive plan. This does not relieve the Federal agency of the requirements for considering the effects of the action as a whole.

(d) Responsibility to provide best scientific and commercial data available. The Federal agency requesting formal consultation shall provide the Service with the best scientific and commercial data available or which can be obtained during the consultation for an adequate review of the effects that an action may have upon listed species or critical habitat. This information may include the results of studies or surveys conducted by the Federal agency or the designated non-Federal representative. The Federal agency shall provide any applicant with the opportunity to submit information for consideration during the consultation.

(e) Duration and extension of formal consultation. Formal consultation concludes within 90 days after its initiation unless extended as provided below. If an applicant is not involved, the Service and the Federal agency may mutually agree to extend the consultation for a specific time period. If an applicant is involved, the Service and the Federal agency may mutually agree to extend the consultation provided that the Service submits to the applicant, before the close of the 90 days, a written statement setting forth:

1. The reasons why a longer period is required,
2. The information that is required to complete the consultation, and
3. The estimated date on which the consultation will be completed.

A consultation involving an applicant cannot be extended for more than 60 days without the consent of the applicant. Within 45 days after concluding formal consultation, the Service shall deliver a biological opinion to the Federal agency and any applicant.

(f) Additional data. When the Service determines that additional data would provide a better information base from which to formulate a biological opinion, the Service may request an extension of formal consultation and request that the Federal agency obtain additional data to determine how or to what extent the action may affect listed species or critical habitat. If formal consultation is extended by mutual agreement according to §402.14(e), the Federal agency shall obtain, to the extent practicable, that data which can be developed within the scope of the extension. The responsibility for conducting and funding any studies belongs to the Federal agency and the applicant, not the Service. The Service's request for additional data is not to be construed as the Service's opinion that the Federal agency has failed to satisfy the information standard of section 7(a)(2) of the Act. If no extension of formal consultation is agreed to, the Director will issue a biological opinion using the best scientific and commercial data available.

(g) Service responsibilities. Service responsibilities during formal consultation are as follows:

1. Review all relevant information provided by the Federal agency or otherwise available. Such review may include an on-site inspection of the action area with representatives of the Federal agency and the applicant.
(2) Evaluate the current status of the listed species or critical habitat.
(3) Evaluate the effects of the action and cumulative effects on the listed species or critical habitat.
(4) Formulate its biological opinion as to whether the action, taken together with cumulative effects, is likely to jeopardize the continued existence of listed species or result in the destruction or adverse modification of critical habitat.
(5) Discuss with the Federal agency and any applicant the Service's review and evaluation conducted under paragraphs (g)(1) through (3) of this section, the basis for any finding in the biological opinion, and the availability of reasonable and prudent alternatives (if a jeopardy opinion is to be issued) that the agency and the applicant can take to avoid violation of section 7(a)(2). The Service will utilize the expertise of the Federal agency and any applicant in identifying these alternatives. If requested, the Service shall make available to the Federal agency the draft biological opinion for the purpose of analyzing the reasonable and prudent alternatives. The 45-day period in which the biological opinion must be delivered will not be suspended unless the Federal agency secures the written consent of the applicant to an extension to a specific date. The applicant may request a copy of the draft opinion from the Federal agency. All comments on the draft biological opinion must be submitted to the Service through the Federal agency, although the applicant may send a copy of its comments directly to the Service. The Service will not issue its biological opinion prior to the 45-day or extended deadline while the draft is under review by the Federal agency. However, if the Federal agency submits comments to the Service regarding the draft biological opinion within 10 days of the deadline for issuing the opinion, the Service is entitled to an automatic 10-day extension on the deadline.
(6) Formulate discretionary conservation recommendations, if any, which will assist the Federal agency in reducing or eliminating the impacts that its proposed action may have on listed species or critical habitat.
(7) Formulate a statement concerning incidental take, if such take may occur.
(8) In formulating its biological opinion, any reasonable and prudent alternatives, and any reasonable and prudent measures, the Service will use the best scientific and commercial data available and will give appropriate consideration to any beneficial actions taken by the Federal agency or applicant, including any actions taken prior to the initiation of consultation.

(h) Biological opinions. The biological opinion shall include:
(1) A summary of the information on which the opinion is based;
(2) A detailed discussion of the effects of the action on listed species or critical habitat; and
(3) The Service's opinion on whether the action is likely to jeopardize the continued existence of a listed species or result in the destruction or adverse modification of critical habitat (a "jeopardy biological opinion"); or, the action is not likely to jeopardize the continued existence of a listed species or result in the destruction or adverse modification of critical habitat (a "no jeopardy" biological opinion). A "jeopardy" biological opinion shall include reasonable and prudent alternatives, if any. If the Service is unable to develop such alternatives, it will indicate that to the best of its knowledge there are no reasonable and prudent alternatives.

(i) Incidental take. (1) In those cases where the Service concludes that an action (or the implementation of any reasonable and prudent alternatives) and the resultant incidental take of listed species will not violate section 7(a)(2), and, in the case of marine mammals, where the taking is authorized pursuant to section 101(a)(5) of the Marine Mammal Protection Act of 1972, the Service will provide with the biological opinion a statement concerning incidental take that:
(i) Specifies the impact, i.e., the amount or extent, of such incidental taking on the species;
(ii) Specifies those reasonable and prudent measures that the Director considers necessary or appropriate to minimize such impact;
(iii) In the case of marine mammals, specifies those measures that are necessary to comply with section 101(a)(5) of the Marine Mammal Protection Act of 1972 and applicable regulations with regard to such taking;

(iv) Sets forth the terms and conditions (including, but not limited to, reporting requirements) that must be complied with by the Federal agency or any applicant to implement the measures specified under paragraphs (i)(1)(ii) and (i)(1)(iii) of this section; and

(v) Specifies the procedures to be used to handle or dispose of any individuals of a species actually taken.

(2) Reasonable and prudent measures, along with the terms and conditions that implement them, cannot alter the basic design, location, scope, duration, or timing of the action and may involve only minor changes.

(3) In order to monitor the impacts of incidental take, the Federal agency or any applicant must report the progress of the action and its impact on the species to the Service as specified in the incidental take statement. The reporting requirements will be established in accordance with 50 CFR 13.45 and 18.27 for FWS and 50 CFR 220.45 and 228.5 for NMFS.

(4) If during the course of the action the amount or extent of incidental taking, as specified under paragraph (i)(1)(i) of this Section, is exceeded, the Federal agency must reinitiate consultation immediately.

(5) Any taking which is subject to a statement as specified in paragraph (i) of this section and which is in compliance with the terms and conditions of that statement is not a prohibited taking under the Act, and no other authorization or permit under the Act is required.

(j) Conservation recommendations. The Service may provide with the biological opinion a statement containing discretionary conservation recommendations. Conservation recommendations are advisory and are not intended to carry any binding legal force.

(k) Incremental steps. When the action is authorized by a statute that allows the agency to take incremental steps toward the completion of the action, the Service shall, if requested by the Federal agency, issue a biological opinion on the incremental step being considered, including its views on the entire action. Upon the issuance of such a biological opinion, the Federal agency may proceed with or authorize the incremental steps of the action if:

(1) The biological opinion does not conclude that the incremental step would violate section 7(a)(2);

(2) The Federal agency continues consultation with respect to the entire action and obtains biological opinions, as required, for each incremental step;

(3) The Federal agency fulfills its continuing obligation to obtain sufficient data upon which to base the final biological opinion on the entire action;

(4) The incremental step does not violate section 7(d) of the Act concerning irreversible or irretrievable commitment of resources; and

(5) There is a reasonable likelihood that the entire action will not violate section 7(a)(2) of the Act.

(1) Termination of consultation. (1) Formal consultation is terminated with the issuance of the biological opinion.

(2) If during any stage of consultation a Federal agency determines that its proposed action is not likely to occur, the consultation may be terminated by written notice to the Service.

(3) If during any stage of consultation a Federal agency determines, with the concurrence of the Director, that its proposed action is not likely to adversely affect any listed species or critical habitat, the consultation is terminated.

§ 402.15 Responsibilities of Federal agency following issuance of a biological opinion.

(a) Following the issuance of a biological opinion, the Federal agency shall determine whether and in what manner to proceed with the action in light of its section 7 obligations and the Service's biological opinion.

(b) If a jeopardy biological opinion is issued, the Federal agency shall notify the Service of its final decision on the action.
(c) If the Federal agency determines that it cannot comply with the requirements of section 7(a)(2) after consultation with the Service, it may apply for an exemption. Procedures for exemption applications by Federal agencies and others are found in 50 CFR part 451.

§ 402.16 Reinitiation of formal consultation.

Reinitiation of formal consultation is required and shall be requested by the Federal agency or by the Service, where discretionary Federal involvement or control over the action has been retained or is authorized by law and:

(a) If the amount or extent of taking specified in the incidental take statement is exceeded;

(b) If new information reveals effects of the action that may affect listed species or critical habitat in a manner or to an extent not previously considered;

(c) If the identified action is subsequently modified in a manner that causes an effect to the listed species or critical habitat that was not considered in the biological opinion; or

(d) If a new species is listed or critical habitat designated that may be affected by the identified action.

PART 403—TRANSFER OF MARINE MAMMAL MANAGEMENT AUTHORITY TO STATES

Sec.
403.01 Purpose and scope of regulations.
403.02 Definitions.
403.03 Review and approval of State request for management authority.
403.04 Determinations and hearings under section 109(c) of the MMPA.
403.05 State and Federal responsibilities after transfer of management authority.
403.06 Monitoring and review of State management program.
403.07 Revocation and return of State management authority.
403.08 List of States to which management has been transferred.

SOURCE: 48 FR 22456, May 18, 1983, unless otherwise noted.
§ 403.03 Review and approval of State request for management authority.

(a) Any state may request the transfer of management authority for a species of marine mammals by submitting a written request to the Director of the Fish and Wildlife Service (“Director”) for species of marine mammals under the jurisdiction of the FWS, or to the Assistant Administrator for Fisheries of the National Marine Fisheries Service (“Assistant Administrator”) for species of marine mammals under the jurisdiction of the NMFS. The request must include:

(1) Copies of existing and proposed statutes, regulations, policies and other authorities of state law which comprise those aspects of the state management program outlined in paragraph (b) of this section, and, in the case of Alaska, paragraphs (d) (1) through (3) of this section;

(2) A narrative discussion of the statutes, regulations, policies and other authorities which comprise those aspects of the state management program outlined in paragraph (b) of this section, and, in the case of Alaska, paragraph (d) of this section, which explains the program in terms of the requirements of the Act and the regulations of this part; and

(3) Supplementary information as required by paragraph (c) of this section.

(b) A request for transfer of marine mammal management authority will not be approved unless it contains the following:

(1) The scientific and common names and estimated range of the species of marine mammals subject to the state management program.

(2) Provisions of state law concerning the take of marine mammals that—

(i) Require that the taking of marine mammals be humane as defined by section 3(4) of the Act;

(ii) Do not permit the taking of marine mammals until the following have occurred:

(A) The state, pursuant to the requirements of §403.04 of this part, has determined that the species is at its Optimum Sustainable Population (OSP) and determined the maximum number of animals that may be taken without reducing the species below its OSP, and, in the case of Alaska, when a species is below OSP, the maximum numbers that can be taken for subsistence uses while allowing the species to increase toward its OSP;

(B) The determination as to OSP and maximum take are final and implemented under state law; and

(C) A cooperative allocation agreement, if required under §403.05(a) of this part, is implemented;

(iii) Do not permit take in excess of the maximum number of animals that may be taken as determined pursuant to §403.04 of this part; provided that for
Alaska, subsistence take may be allowed in accordance with paragraph (d) of this section, and if the species is below OSP, any level of take allowed for subsistence use shall permit the species to increase toward OSP;

(iv) Do not permit take that is for scientific research or public display purposes except such take by or on behalf of the state, or pursuant to a Federal permit issued under §18.31 or §216.31 of this title; and

(v) Regulate the incidental taking of the species in a manner consistent with section 101(a) (2), (4) and (5) of the Act.

(3) Provisions for annually acquiring and evaluating data and other new evidence relating to OSP of the species and the maximum allowable take, and if warranted on the basis of such evaluation, for requiring reevaluations of OSP and maximum allowable take determinations pursuant to §403.04.

(4) Procedures for the resolution of differences between the state and the appropriate Service that might arise during the development of a cooperative allocation agreement pursuant to §403.05(a) of this part.

(5) Procedures for the submission of an annual report meeting the requirements of §403.06(b) of this part to the appropriate Service regarding the administration of the state management program during the reporting period.

(6) A description of—

(i) The organization of state offices involved in the administration and enforcement of the state management program;

(ii) Any permit system relating to the marine mammals, the laws that apply to such permits, and the procedures to be used in granting or withholding such permits;

(iii) State laws relating to judicial review of administrative decisions as they relate to the state management program;

(iv) State laws relating to administrative rulemaking as they relate to the state management program;

(c) In addition to the aspects of the state management program required to be submitted by paragraph (b) of this section, the state shall submit information, in summary form, relating to:

(1) The anticipated staffing and funding of state offices involved in the administration and enforcement of the state management program;

(2) Anticipated research and enforcement activities relating to conservation of the species for which management authority is sought; and

(3) Such other materials and information as the Service may request or which the state may deem necessary or advisable to demonstrate the compatibility of the state management program with the policy and purposes of the Act and the rules and regulations issued under the Act.

(d) In addition to the requirements contained in paragraphs (b) and (c) of this section, a request for the transfer of marine mammal management authority by the State of Alaska must contain the following concerning subsistence use of the species—

(1) A statute and regulations concerning the take of marine mammals that ensure that

(i) The taking of marine mammals species for subsistence uses will be the priority consumptive uses of the species;

(ii) If restrictions on subsistence uses of the species are required, such restrictions shall be based upon the customary and direct dependence upon the species as the mainstay of livelihood, local residency, and the availability of alternative resources; and

(iii) The taking of marine mammal species for subsistence uses is accomplished in a non-wasteful manner;

(2) Statutes or regulations that ensure that the appropriate state agency will—

(i) Authorize nonsubsistence consumptive uses of a marine mammal species only if such uses will have no significant adverse impact on subsistence uses of the species;

(ii) Regulate nonsubsistence consumptive uses in a manner which, to the maximum extent practicable, provides economic opportunities, including, but not limited to, licensing of marine mammal hunting guides and the assignment of guiding areas, for residents of rural coastal villages of Alaska who engage in subsistence uses of the species; and

(iii) Make written findings supporting the authorizations and regulations described in this paragraph based
§ 403.04

50 CFR Ch. IV (10-1-99 Edition)

solely on the administrative record before the agency;

(3) A narrative discussion of the statutes or regulations required under paragraph (d)(2) of this section, and any additional policies or procedures concerning the regulation of non-subsistence consumptive uses of marine mammals. This discussion must explain how the State's program satisfies the requirements of section 109(f) of the Act, namely that the regulation of nonsubsistence consumptive uses of marine mammals provides, to the maximum extent practicable, economic opportunities for the residents of rural coastal villages of Alaska who engage in subsistence uses of the species.

(e) To assist states in preparing the state management program for submission, the Service will also, at the written request of any state, make a preliminary review of any aspects of the state management program. This review will be advisory in nature and shall not be binding upon the Service. Notwithstanding preliminary review by the Service, once any proposed aspect of the state management program has been prepared and submitted in final form, it shall be subject to final review and approval under paragraphs (f) through (h) of this section.

(f)(1) After receiving the state's request, for management authority, the Service shall make an initial determination on whether the state's management program meets the requirements of the Act and these regulations.

(2) Within 45 days after receiving the state's request, unless the state and the Service agree to another time period, the Service shall publish a general notice of its initial determination in the FEDERAL REGISTER together with, in the case of a positive determination, the text of a proposed rule to transfer management authority to the state. The general notice shall contain a summary of the major components of the state's management program and shall indicate where the full text of the management program may be inspected or copied. The public shall be allowed to submit written comments and to request an informal public hearing on the Service's initial determination and the state's management program within 60 days of publication of the general notice.

(g) If requested, the Service may conduct an informal public hearing after publishing 30 days' advance notice of the date, location, and time of such hearing in the FEDERAL REGISTER.

(h) After considering all comments and other relevant information, the Service shall publish in the FEDERAL REGISTER its final determination on whether the state has developed and will implement a management program that meets the requirement of the Act and these regulations. In the case of a positive final determination, the Service shall publish with the notice a final regulation transferring management authority for the species to the state after the following requirements are satisfied:

(1) The state's determinations pursuant to §403.04 of this part are final and implemented under state law;

(2) Any cooperative allocation agreement required under §403.05(a) of this part is implemented; and

(3) The state has enacted and submitted to the Service laws and policies that are substantially the same as those provided pursuant to §403.03(a) in proposed form in the state's management program.

§ 403.04 Determinations and hearings under section 109(c) of the MMPA.

(a) Introduction. In order to gain approval of its marine mammal management program the state must provide for a process, consistent with section 109(c) of the Act, to determine the optimum sustainable population of the species and the maximum number of animals that may be taken from populations it manages without reducing the species below OSP. The state process must be completed before the state may exercise any management authority over the subject marine mammals, and it must include the elements set forth below.

(b) Basis, purpose, and scope. The process set forth in this section is applicable to and required for only the determination of the OSP of the species and maximum number that may be taken without reducing it below its OSP and, in the case of Alaska if the species is below OSP, the maximum...
number of animals that may be taken, if any, for subsistence uses without preventing the species from increasing toward its OSP. The state need not allow the maximum take, as determined in accordance with this process, that is biologically permissible. The state may change regulations establishing bag limits, quotas, seasons, areas, manner of take, etc. within the maximum biologically permissible take pursuant to its other rulemaking criteria, authority, and procedures. Compliance with the process set forth in this section would not be required again unless the state proposes to modify its determinations of the status of the species with respect to its OSP or the maximum permissible take from that species.

(c) Initial determination by the State. The state agency with responsibility for managing the species in the event management authority is transferred to the state shall make initial determinations on the basis of the best scientific evidence available of:

(1) Whether or not it is at its OSP; (2) if so, the maximum number of that species that may be taken without reducing it below its OSP; and (3) if not, in the case of Alaska, the maximum number of animals that may be taken, if any, for subsistence uses without preventing the species from increasing toward its OSP.

(d) Notice and review of initial determinations and request for hearing. The state agency shall provide notice of its initial determinations to the Service and the public and shall provide access to or copies of the documentation supporting its determinations to the Service and the public. The state agency shall indicate, in the notice of its initial determinations, the location(s) and hours during which such documentation may be inspected, and the costs, if any, of copies of such documentation. The state agency shall also indicate in the notice that any interested person may request a hearing regarding the initial determinations, and the state shall provide a reasonable time, not less than 30 days, for making the request, taking into account the time required to advise the public of the initial determinations and to make the supporting documentation readily available to interested persons for their consideration. If a request for a hearing is not made within the prescribed time period, the initial determinations shall be treated as final.

(e) Notice of hearing. If a request for a hearing is made within the prescribed time period by any interested person, the state agency shall provide notice of the hearing to the Service and the public not less than 30 days in advance of the scheduled date(s) of the hearing(s). The notice shall include the date(s), location(s), and purpose of the hearing, a recitation of the initial determinations, the name(s) of the person(s) who will preside at the hearing, and the manner and date by which interested persons must notify the state agency or presiding officer(s) of their desire to participate in the hearing. The state shall also make available and distribute upon request a list of witnesses and description of the documentation and other evidence that will be relied upon by the state's witnesses in support of its initial determinations sufficiently in advance of the hearing date so as to allow interested persons to prepare questions and supporting or rebuttal testimony for the hearing.

(f) Conduct of the hearing. (1) The hearing shall be publicly conducted and reported verbatim by an official reporter.

(2) The state shall sponsor all written documentation in support of its determinations with witnesses who are able, by virtue of training and experience, to respond fully to cross-examination regarding the facts and conclusions contained therein provided that, except by agreement of the parties, the state agency may not call any witnesses or introduce any documentation into the record unless the advance notice requirements of paragraph (e) of this section are met with respect to such witnesses or documentation.

(3) Any interested person who has notified the state agency of his desire to participate in the hearing pursuant to paragraph (e) of this section may participate in the hearing by presenting oral or written testimony or cross-examining the witnesses or other parties with respect to matters relevant to the state's initial determinations, provided that any such written
§ 403.05 State and Federal responsibilities after transfer of management authority.

(a) After determinations required by section 403.04 of this part have been made in respect to a species whose range extends beyond the territorial waters of the state, the state shall not exercise management authority until a cooperative allocation agreement with the Secretary has been signed and the Service has transferred management authority pursuant to § 403.03(h). The cooperative allocation agreement shall provide procedures for allocating, on a timely basis, the maximum amount of take as determined by the state pursuant to § 403.04 of this part. Such allocation shall give first priority to incidental take within the zone described in section 3(14)(B) of the Act as provided for under section 101(a) of the Act, except that in the case of Alaska, first priority shall be given to subsistence use.

(b) For those species to which paragraph (a) of this section applies, the state may request the Service to regulate the taking of the species within the zone described in section 3(14)(B) of the Act for subsistence uses and/or hunting in a manner consistent with the regulation by the state of such taking within the state. If such a request is made, the Service shall adopt and enforce within such zone, such of the state's regulatory provisions as the Service considers to be consistent with the administration within such zone of section 101(a) of the Act.

(c) If management authority for a species has been transferred to a state pursuant to this subpart, the Service documentation must be sponsored by a witness who is able, by virtue of training and experience, to respond fully to cross-examination regarding the facts and conclusions contained therein.

(4) The presiding officer(s) shall conduct the hearing in accordance with such other rules of evidence, criteria, and procedures as are necessary and appropriate for the expeditious and effective determination of the issues. The presiding officer(s) may provide for oral argument and/or written briefs at the end of the hearing.

(5) Final determinations on the issues specified in paragraph (c) of this section must be supported by the best available scientific information so as to insure that any taking will be consistent with the maintenance of OSP.

(g) Review of the hearing record and final determinations.

(1) The state agency shall provide for either:

(i) Review and evaluation of the hearing record by the presiding officer(s) and transmittal by the presiding officer(s) of recommended final determinations to the decision-maker(s) in the state agency; or

(ii) Review and evaluation of the hearing record and final determinations by the state agency without benefit of any recommendations by the presiding officer(s). In any event, the final determinations by the state agency must be made solely on the basis of the record developed at the hearing. The state agency in making its final determinations, and/or presiding officer(s) in making his (their) recommended determinations, may not rely on oral or written evidence which was not presented at the hearing and made available to the parties for cross-examination and rebuttal testimony. Any such oral or written information transmitted to the presiding officer(s) or other members of the state agency responsible for the final determinations shall be treated as ex parte communications and may not be considered part of the record for decision.

(2) The state agency shall make final determinations of the issues set forth in paragraph (c) of this section and shall include in its statement of final determinations a statement of findings and conclusions and the reasons or basis therefor.

(h) Judicial review. The state agency's final determinations after a hearing must be supported by substantial evidence in the record of the hearing. Opportunity for judicial review of the state agency's final determinations must be available under state law. The scope of judicial review shall be equivalent to that provided for in 5 U.S.C. 706(2) (A) through (E).
shall provide to the state an opportunity to review all requests for permits to remove live animals from habitat within the state for scientific research or public display purposes. If the state finds that issuance of the permit would not be consistent with its management program for the species:

(1) The state shall so inform the Service, together with the reasons for such finding, within 30 days of its receipt of the application, and the Service shall not issue the permit; and
(2) The Service shall provide to the permit applicant and the state an opportunity to adjust the permit application or otherwise reconcile it with the state management program for the species.

(d) After management of a species has been transferred to the state, state and Federal authorities shall cooperate to the maximum extent practicable in conserving the species of marine mammals.

§ 403.06 Monitoring and review of State management program.

(a) The Service has responsibility to monitor and review implementation of all state management programs approved pursuant to this part.

(b) In order to facilitate such review, each state to which management authority has been transferred shall submit an annual report, not later than 120 days after the close of such state’s first full fiscal or calendar year following the effective date of the Service’s approval of the State management program, and at the same time each following year, or at such other time as may be agreed upon. The report shall contain the following information current for each reporting period:

(1) Any changes in the state laws which comprise those aspects of the state management program submitted pursuant to §403.03(d), of this part;
(2) Pertinent new data on the marine mammal species or the marine ecosystems in question including a summary of the status, trend and general health of the species;
(3) A summary of available information relating to takings under the state management program;
(4) A summary of state actions to protect species’ habitat;
(5) A summary of all state research activity on the species;
(6) Any significant changes in the information provided with the original request for transfer of management authority;
(7) A summary of enforcement activity;
(8) A summary of budget and staffing levels for the marine mammal activities in the categories of research, management and enforcement;
(9) Any other information which the Service may request, consistent with the Act as amended, or which the state deems necessary or advisable to facilitate review by the Service of state management of the species.

(c) Each state having an approved management program shall file a report, in a timely manner, not to exceed 45 days from the occurrence of any of the following:

(1) Any change in a relevant state law (amendments, repeaters, or new legislation or regulations or judicial precedent) as submitted pursuant to paragraphs (b)(2) through (b)(5), and in the case of Alaska, paragraph (d), of §403.03 of this part that may impair the State’s ability to implement the program;
(2) Any significant natural or man-made occurrence or any new scientific information that may warrant reconsideration of the determinations made pursuant to §403.04 of this part.

(d) All components of the state request for transfer of management authority, as well as annual reports submitted under paragraph (b) of this section and any reports submitted under paragraph (c) of this section, shall be available for inspection and copying at the Office of the Chief, Division of Wildlife Management, U.S. Fish and Wildlife Service, Department of the Interior, Washington, DC 20240, or, as appropriate, at the Office of Protected Species and Habitat Conservation, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, DC 20230, and at the appropriate Service’s regional office.
§ 403.07 Revocation and return of State management authority.

(a) Revocation of management. The Service shall have responsibility to review management of a species transferred to a state under this part and to determine whether or not the implementation of the state management program continues to comply with the requirements of the Act, this part and the state's approved management program.

(1) Upon receipt of any substantial factual information suggesting that the state management program is not being implemented or is being implemented in a manner inconsistent with the Act, this part, or the state's approved management program, the Service shall, as soon as practicable but not later than 30 days after receipt, determine whether or not the state continues to comply with the requirements of the Act, this part and the state's approved management program.

(2) Whenever pursuant to a review as specified in paragraph (a)(1) of this section, the Service determines that any substantial aspect of the state management program is not in compliance with the requirements of the Act, this part or the state's approved management program, it shall provide written notice to the state of its intent to revoke management authority, together with a statement, in detail, of those actions or failures to act upon which such intent to revoke is based. The Service shall publish notice of such intent to revoke in the Federal Register and invite public comment thereon, and shall conduct an informal public hearing on the matter if requested by the state or if the Service otherwise determines it to be necessary. The Service shall provide to the state an opportunity for consultation between the Service and the state concerning such actions or failures and necessary remedial actions to be taken by the state.

(3) If within 90 days after notice is provided under paragraph (a)(2) of this section, the state has not taken such remedial measures as are necessary, in the judgment of the Service, to bring the state management program into compliance with the provisions of the Act, this part and the state's approved management program, the Service shall revoke the transfer of management authority by written notice to the state and publication in the Federal Register.

(b) Voluntary return of management authority to the Service. (1) If a state desires to return management of a species of marine mammals to the Service, it shall provide the Service notice of intent to return management. The Service shall accept the return of management, and such return shall become effective, upon publication of a notice in the Federal Register to this effect no sooner than 30 days (except in an emergency as determined by the Service) nor longer than 60 days after the state has provided notice of its intent to return management or unless otherwise agreed upon.

(2) If implementation of any aspect of the state management program is enjoined by court order, the state shall advise the Service of such injunction and its effect on the state management program. If the state determines that the effect of the injunction is to preclude effective conservation and management of the species under the terms of the state management program, it shall so notify the Service and such notification shall be treated as a notice of intent to return management as provided in paragraph (b)(1) of this section. If the state determines that the injunction does not preclude effective conservation and management of marine mammals under the terms of the state management program, it shall so notify the Service together with the basis for the state's determination and such notice shall be treated as a report submitted pursuant to the terms of §403.06(c)(1) of this part. In either case, the state shall provide notice to the Service as soon as practicable but not more than 30 days after issuance of the injunction. Management authority returned to the Service pursuant to this paragraph may be re-transferred to the state, notwithstanding the requirements of §403.03, when, in the judgment of the Service, the cause for return of management authority to the Service has been alleviated in such a way as to allow effective conservation and management of the species consistent with
the requirements of the Act and this part.
(c) When revocation of a management authority pursuant to paragraph (a) of this section becomes final, or when a state returns management pursuant to paragraph (b) of this section, the Service shall resume such management authority and provide for the conservation of the species within the state in accordance with the provisions of the Act.

§ 403.08 List of States to which management has been transferred.
The following states have received management authority pursuant to this part for the species listed and, where appropriate, cooperative allocation agreements pursuant to §403.05(c) are in force: [Reserved]

PART 424—LISTING ENDANGERED AND THREATENED SPECIES AND DESIGNATING CRITICAL HABITAT

Subpart A—General Provisions

Sec.

§ 424.10

(ii) that may require special management considerations or protection, and
(2) specific areas outside the geographical area occupied by a species at the time it is listed upon a determination by the Secretary that such areas are essential for the conservation of the species.

(e) Endangered species means a species that is in danger of extinction throughout all or a significant portion of its range.

(f) List or lists means the Lists of Endangered and Threatened Wildlife and Plants found at 50 CFR 17.11(h) or 17.12(h).

(g) Plant means any member of the plant kingdom, including, without limitation, seeds, roots, and other parts thereof.

(h) Public hearing means an informal hearing to provide the public with the opportunity to give comments and to permit an exchange of information and opinion on a proposed rule.

(i) Secretary means the Secretary of the Interior or the Secretary of Commerce, as appropriate, or their authorized representatives.

(j) Special management considerations or protection means any methods or procedures useful in protecting physical and biological features of the environment for the conservation of listed species.

(k) Species includes any species or subspecies of fish, wildlife, or plant, and any distinct population segment of any vertebrate species that interbreeds when mature. Excluded is any species of the Class Insecta determined by the Secretary to constitute a pest whose protection under the provisions of the Act would present an overwhelming and overriding risk to man.

(l) State agency means any State agency, department, board, commission, or other governmental entity that is responsible for the management and conservation of fish, plant, or wildlife resources within a State.

(m) Threatened species means any species that is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range.

(n) Wildlife or fish and wildlife means any member of the animal kingdom, including without limitation, any vertebrate, mollusk, crustacean, arthropod, or other invertebrate, and includes any part, product, egg, or offspring thereof, or the dead body or parts thereof.

Subpart B—Revision of the Lists

§ 424.10 General.

The Secretary may add a species to the lists or designate critical habitat, delete a species or critical habitat, change the listed status of a species, revise the boundary of an area designated as critical habitat, or adopt or modify special rules (see 50 CFR 17.40-17.48 and parts 222 and 227) applied to a threatened species only in accordance with the procedures of this part.

§ 424.11 Factors for listing, delisting, or reclassifying species.

(a) Any species or taxonomic group of species (e.g., genus, subgenus) as defined in §424.02(k) is eligible for listing under the Act. A taxon of higher rank than species may be listed only if all included species are individually found to be endangered or threatened. In determining whether a particular taxon or population is a species for the purposes of the Act, the Secretary shall rely on standard taxonomic distinctions and the biological expertise of the Department and the scientific community concerning the relevant taxonomic group.

(b) The Secretary shall make any determination required by paragraphs (c) and (d) of this section solely on the basis of the best available scientific and commercial information concerning the species' status, without reference to possible economic or other impacts of such determination.

(c) A species shall be listed or reclassified if the Secretary determines, on the basis of the best scientific and commercial data available after conducting a review of the species' status, that the species is endangered or threatened because of any one or a combination of the following factors:

(1) The present or threatened destruction, modification, or curtailment of its habitat or range;

(2) Over utilization for commercial, recreational, scientific, or educational purposes;
§ 424.12 Criteria for designating critical habitat.

(a) Critical habitat shall be specified to the maximum extent prudent and determinable at the time a species is proposed for listing. If designation of critical habitat is not prudent or if critical habitat is not determinable, the reasons for not designating critical habitat will be stated in the publication of proposed and final rules listing a species. A final designation of critical habitat shall be made on the basis of the best scientific data available, after taking into consideration the probable economic and other impacts of making such a designation in accordance with §424.19.

(b) A designation of critical habitat is not prudent when one or both of the following situations exist:

(i) The species is threatened by taking or other human activity, and identification of critical habitat can be expected to increase the degree of such threat to the species, or

(ii) Such designation of critical habitat would not be beneficial to the species.

(c) Critical habitat is not determinable when one or both of the following situations exist:

(i) Information sufficient to perform required analyses of the impacts of the designation is lacking, or
§ 424.13 Sources of information and relevant data.

When considering any revision of the lists, the Secretary shall consult as appropriate with affected States, interested persons and organizations, other affected Federal agencies, and, in cooperation with the Secretary of State, with the country or countries in which the species concerned are normally found or whose citizens harvest such species from the high seas. Data reviewed by the Secretary may include, but are not limited to scientific or commercial publications, administrative reports, maps or other graphic materials, information received from experts on the subject, and comments from interested parties.

§ 424.14 Petitions.

(a) General. Any interested person may submit a written petition to the Secretary requesting that one of the
§ 424.14

actions described in §424.10 be taken. Such a document must clearly identify itself as a petition and be dated. It must contain the name, signature, address, telephone number, if any, and the association, institution, or business affiliation, if any, of the petitioner. The Secretary shall acknowledge in writing receipt of such a petition within 30 days.

(b) Petitions to list, delist, or reclassify species. (1) To the maximum extent practicable, within 90 days of receiving a petition to list, delist, or reclassify a species, the Secretary shall make a finding as to whether the petition presents substantial scientific or commercial information indicating that the petitioned action may be warranted. For the purposes of this section, “substantial information” is that amount of information that would lead a reasonable person to believe that the measure proposed in the petition may be warranted. The Secretary shall promptly publish such finding in the FEDERAL REGISTER and so notify the petitioner.

   (i) Clearly indicates the administrative measure recommended and gives the scientific and any common name of the species involved;
   (ii) Contains detailed narrative justification for the recommended measure, describing, based on available information, past and present numbers and distribution of the species involved and any threats faced by the species;
   (iii) Provides information regarding the status of the species over all or a significant portion of its range; and
   (iv) Is accompanied by appropriate supporting documentation in the form of bibliographic references, reprints of pertinent publications, copies of reports or letters from authorities, and maps.

The petitioner may provide information that describes any recommended critical habitat as to boundaries and physical features, and indicates any benefits and/or adverse effects on the species that would result from such designation. Such information, however, will not be a basis for the determination of the substantiality of a petition.

   (3) Upon making a positive finding under paragraph (b)(1) of this section, the Secretary shall commence a review of the status of the species concerned and shall make, within 12 months of receipt of such petition, one of the following findings:

      (i) The petitioned action is not warranted, in which case the Secretary shall promptly publish such finding in the FEDERAL REGISTER and so notify the petitioner.
      (ii) The petitioned action is warranted, in which case the Secretary shall promptly publish in the FEDERAL REGISTER a proposed regulation to implement the action pursuant to §424.16 of this part, or
      (iii) The petitioned action is warranted, but that—
         (A) The immediate proposal and timely promulgation of a regulation to implement the petitioned action is precluded because of other pending proposals to list, delist, or reclassify species, and
         (B) Expeditious progress is being made to list, delist, or reclassify qualified species,
         in which case, such finding shall be promptly published in the FEDERAL REGISTER together with a description and evaluation of the reasons and data on which the finding is based.

   (4) If a finding is made under paragraph (b)(3)(iii) of this section with regard to any petition, the Secretary shall, within 12 months of such finding, again make one of the findings described in paragraph (b)(3) with regard to such petition, but no further finding of substantial information will be required.

(c) Petitions to revise critical habitat.

   (1) To the maximum extent practicable, within 90 days of receiving a petition to revise a critical habitat designation, the Secretary shall make a finding as to whether the petition presents substantial scientific information indicating that the revision may be warranted. The Secretary shall promptly publish such finding in the FEDERAL REGISTER and so notify the petitioner.

   (2) In making the finding required by paragraph (c)(1) of this section, the
§ 424.15 Notices of review.

(a) If the Secretary finds that one of the actions described in §424.10 may be warranted, but that the available evidence is not sufficiently definitive to justify proposing the action at that time, a notice of review may be published in the Federal Register. The notice will describe the measure under consideration, briefly explain the reasons for considering the action, and solicit comments and additional information on the action under consideration.

(b) The Secretary from time to time may publish notices of review containing the names of species that are considered to be candidates for listing under the Act and indicating whether sufficient scientific or commercial information is then available to warrant proposing to list such species, the names of species no longer being considered for listing, or the names of listed species being considered for delisting or reclassification. However, none of the substantive or procedural provisions of the Act apply to a species that is designated as a candidate for listing.

(c) Such notices of review will invite comment from all interested parties regarding the status of the species named. At the time of publication of such a notice, notification in writing will be sent to State agencies in any affected States, known affected Federal agencies, and, to the greatest extent practicable, through the Secretary of State, to the governments of any foreign countries in which the subject species normally occur.

§ 424.16 Proposed rules.

(a) General. Based on the information received through §§424.13, 424.14, 424.15, and 424.21, or through other available avenues, the Secretary may propose revising the lists as described in §424.10.

(b) Contents. A notice of a proposed rule to carry out one of the actions described in §424.10 shall contain the complete text of the proposed rule, a summary of the data on which the proposal is based (including, as appropriate, citation of pertinent information sources), and shall show the relationship of such data to the rule proposed. If such a rule designates or revises critical habitat, such summary shall, to the maximum extent practicable, include a brief description and evaluation of those activities (whether public or private) that, in the opinion of the Secretary, if undertaken, may adversely modify such habitat, or may be affected by such designation. Any proposed rule to designate or revise critical habitat shall contain a map of such habitat. Any such notice proposing the listing, delisting, or reclassification of a species or the designation or revision of critical habitat shall also include a summary of factors affecting the species and/or critical habitat.

(c) Procedures—(1) Notifications. In the case of any proposed rule to list, delist, or reclassify a species, or to designate or revise critical habitat, the Secretary shall—

(i) Publish notice of the proposal in the Federal Register;
(ii) Give actual notice of the proposed regulation (including the complete text of the regulation) to the State agency in each State in which the species is believed to occur, and to each county or equivalent jurisdiction wherein in which the species is believed to occur; and invite the comment of each such agency and jurisdiction;

(iii) Give notice of the proposed regulation to any Federal agencies, local authorities, or private individuals or organizations known to be affected by the rule;

(iv) Insofar as practical, and in cooperation with the Secretary of State, give notice of the proposed regulation to list, delist, or reclassify a species to each foreign nation in which the species is believed to occur or whose citizens harvest the species on the high seas, and invite the comment of such nation;

(v) Give notice of the proposed regulation to such professional scientific organizations as the Secretary deems appropriate; and

(vi) Publish a summary of the proposed regulation in a newspaper of general circulation in each area of the United States in which the species is believed to occur.

(2) Period of public comments. At least 60 days shall be allowed for public comment following publication in the Federal Register of a rule proposing the listing, delisting, or reclassification of a species, or the designation or revision of critical habitat. All other proposed rules shall be subject to a comment period of at least 30 days following publication in the Federal Register. The Secretary may extend or reopen the period for public comment on a proposed rule upon a finding that there is good cause to do so. A notice of any such extension or reopening shall be published in the Federal Register, and shall specify the basis for so doing.

(3) Public hearings. The Secretary shall promptly hold at least one public hearing if any person so requests within 45 days of publication of a proposed regulation to list, delist, or reclassify a species, or to designate or revise critical habitat. Notice of the location and time of any such hearing shall be published in the Federal Register not less than 15 days before the hearing is held.

§ 424.17 Time limits and required actions.

(a) General. (1) Within 1 year of the publication of a rule proposing to determine whether a species is an endangered or threatened species, or to designate or revise critical habitat, the Secretary shall publish one of the following in the Federal Register:

(i) A final rule to implement such determination or revision,

(ii) A finding that such revision should not be made,

(iii) A notice withdrawing the proposed rule upon a finding that available evidence does not justify the action proposed by the rule, or

(iv) A notice extending such 1-year period by an additional period of not more than 6 months because there is substantial disagreement among scientists knowledgeable about the species concerned regarding the sufficiency or accuracy of the available data relevant to the determination or revision concerned.

(2) If an extension is made under paragraph (a)(1)(iv) of this section, the Secretary shall, within the extended period, take one of the actions described in paragraphs (a)(1) (i), (ii), or (iii) of this section.

(3) If a proposed rule is withdrawn under paragraph (a)(1)(iii) of this section, the notice of withdrawal shall set forth the basis upon which the proposed rule has been found not to be supported by available evidence. The Secretary shall not again propose a rule withdrawn under such provision except on the basis of sufficient new information that warrants a reproposal.

(b) Critical habitat designations. A final rule designating critical habitat of an endangered or a threatened species shall to the extent permissible under § 424.12 be published concurrently with the final rule listing such species, unless the Secretary deems that—

(1) It is essential to the conservation of such species that it be listed promptly; or

(2) Critical habitat of such species is not then determinable.
§ 424.18 Final rules—general.

(a) Contents. A final rule promulgated to carry out the purposes of the Act will be published in the FEDERAL REGISTER. This publication will contain the complete text of the rule, a summary of the comments and recommendations received in response to the proposal (including applicable public hearings), summaries of the data on which the rule is based and the relationship of such data to the final rule, and a description of any conservation measures available under the rule. Publication of a final rule to list, delist, or reclassify a species or designate or revise critical habitat shall also provide a summary of factors affecting the species. A rule designating or revising critical habitat will also contain a description of the boundaries and a map of such habitat and will, to the maximum extent practicable, be accompanied by a brief description and evaluation of those activities (whether public or private) that might occur in the area and which, in the opinion of the Secretary, may adversely modify such habitat or be affected by such designation.

(b) Effective date. A final rule shall take effect—

(1) Not less than 30 days after it is published in the FEDERAL REGISTER, except as otherwise provided for good cause found and published with the rule; and

(2) Not less than 90 days after (i) publication in the FEDERAL REGISTER of the proposed rule, and (ii) actual notification of any affected State agencies and counties or equivalent jurisdictions in accordance with § 424.16(c)(1)(ii).

(c) Disagreement with State agency. If a State agency, given notice of a proposed rule in accordance with § 424.16(c)(1)(ii), submits comments disagreeing in whole or in part with a proposed rule, and the Secretary issues a final rule that is in conflict with such comments, or if the Secretary fails to adopt a regulation for which a State agency has made a petition in accordance with §424.14, the Secretary shall provide such agency with a written justification for the failure to adopt a rule consistent with the agency’s comments or petition.

§ 424.19 Final rules—impact analysis of critical habitat.

The Secretary shall identify any significant activities that would either affect an area considered for designation as critical habitat or be likely to be affected by the designation, and shall, after proposing designation of such an area, consider the probable economic and other impacts of the designation upon proposed or ongoing activities. The Secretary may exclude any portion of such an area from the critical habitat if the benefits of such exclusion outweigh the benefits of specifying the area as part of the critical habitat. The Secretary shall not exclude any such area if, based on the best scientific and commercial data available, he determines that the failure to designate that area as critical habitat will result in the extinction of the species concerned.

§ 424.20 Emergency rules.

(a) Sections 424.16, 424.17, 424.18, and 424.19 notwithstanding, the Secretary may at any time issue a regulation implementing any action described in §424.10 in regard to any emergency posing a significant risk to the well-being of a species of fish, wildlife, or plant. Such rules shall, at the discretion of the Secretary, take effect immediately on publication in the FEDERAL REGISTER. In the case of any such action that applies to a resident species, the Secretary shall give actual notice of such regulation to the State agency in each State in which such species is believed to occur. Publication in the FEDERAL REGISTER of such an emergency rule shall provide detailed reasons why the rule is necessary. An emergency rule shall cease to have force and effect after 240 days unless the procedures described in §§424.16, 424.17, 424.18, and
§ 424.21 Periodic review.

At least once every 5 years, the Secretary shall conduct a review of each listed species to determine whether it should be delisted or reclassified. Each such determination shall be made in accordance with §§ 424.11, 424.16, and 424.17 of this part, as appropriate. A notice announcing those species under active review will be published in the Federal Register. Notwithstanding this section's provisions, the Secretary may review the status of any species at any time based upon a petition (see §424.14) or upon other data available to the Service.
PART 450—GENERAL PROVISIONS

§ 450.01 Definitions

The following definitions apply to terms used in this subchapter.

Agency action means all actions of any kind authorized, funded or carried out, in whole or in part by Federal agencies, including, in the instance of an application for a permit or license, the underlying activity for which the permit or license is sought.

Alternative courses of action means all reasonable and prudent alternatives, including both no action and alternatives extending beyond original project objectives and acting agency jurisdiction.

Benefits means all benefits of an agency action, both tangible and intangible, including but not limited to economic, environmental and cultural benefits.

Biological assessment means the report prepared pursuant to section 7(c) of the Act, 16 U.S.C. 1536(c).

Biological opinion means the written statement prepared pursuant to section 7(b) of the Act, 16 U.S.C. 1536(b).

Chairman means the Chairman of the Endangered Species Committee, who is the Secretary of the Interior.

Committee means the Endangered Species Committee established pursuant to section 7(e) of the Act, 16 U.S.C. 1536(e).

Critical habitat refers to those areas listed as Critical Habitat in 50 CFR parts 17 and 226.

Destruction or adverse modification is defined at 50 CFR 402.02.

Federal agency means any department, agency or instrumentality of the United States.

Irreversible or irretirevable commitment of resources means any commitment of resources which has the effect of foreclosing the formulation or implementation of any reasonable or prudent alternatives which would not violate section 7(a)(2) of the Act.

Jeopardize the continued existence of is defined at 50 CFR 402.02.

Mitigation and enhancement measures means measures, including live propagation, transplantation, and habitat acquisition and improvement, necessary and appropriate (a) to minimize the adverse effects of a proposed action on listed species or their critical habitats and/or (b) to improve the conservation status of the species beyond that which would occur without the action. The measures must be likely to protect the listed species or the critical habitat, and be reasonable in their cost, the availability of the technology required to make them effective, and other considerations deemed relevant by the Committee.

Permit or license applicant means any person whose application to an agency for a permit or license has been denied primarily because of the application of section 7(a)(2) of the Act, 16 U.S.C. 1536(a)(2).

Person means an individual, corporation, partnership, trust, association, or any other private entity, or any public body or officer, employee, agent, department, or instrumentality of the Federal government, of any State or political subdivision thereof, or of any foreign government.

Proposed action means the action proposed by the Federal agency or by a permit or license applicant, for which exemption is sought.

Secretary means the Secretary of the Interior or the Secretary of Commerce, or his or her delegate, depending upon which Secretary has responsibility for the affected species as determined pursuant to 50 CFR 402.01.

Service means the United States Fish and Wildlife Service or the National Marine Fisheries Service, as appropriate.

To the extent that such information is available to the applicant means all pertinent information the applicant has
PART 451—APPLICATION PROCEDURE

Sec.
451.01 Definitions.
451.02 Applications for exemptions.
451.03 Endangered Species Committee.

SOURCE: 50 FR 8127, Feb. 28, 1985, unless otherwise noted.

§ 451.01 Definitions.

All definitions contained in 50 CFR 450.01 are applicable to this part.

§ 451.02 Applications for exemptions.

(a) Scope. This section prescribes the application procedures for applying for an exemption from the requirements of section 7(a)(2) of the Endangered Species Act, as amended.

(b) Where to apply. Applications should be made to the appropriate Secretary(ies) by writing:

(1) The Secretary, Attention: Endangered Species Committee, Department of the Interior, 18th and C Street, NW., Washington, DC 20240.

(2) The Secretary, Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230.

(c) Who may apply. (1) A Federal agency, (2) the Governor of the State in which an agency action will occur, if any, or (3) a permit or license applicant may apply to the Secretary for an exemption for an agency action if, after consultation under section 7(a)(2) of the Act, the Secretary's opinion indicates that the agency action would violate section 7(a)(2) of the Act.

(d) When to apply. (1) Except in the case of agency action involving a permit or license application, an application for an exemption must be submitted to the Secretary within 90 days following the termination of the consultation process.

(2) In the case of agency action involving a permit or license application, an application for an exemption may be submitted after the Federal agency concerned formally denies the permit or license. An applicant denied a permit or license may not simultaneously seek administrative review within the permitting or licensing agency and apply for an exemption. If administrative review is sought, an application for an exemption may be submitted if that review results in a formal denial of the permit or license. For an exemption application to be considered, it must be submitted within 90 days after the date of a formal denial of a permit or license.

(e) Contents of the application when submitted. Exemption applicants must provide the following information at the time the application is submitted:

(1) Name, mailing address, and phone number, including the name and telephone number of an individual to be contacted regarding the application.

(2) If the applicant is a Federal agency:

(i) A comprehensive description of the proposed agency action and if a license or permit denial is involved, a comprehensive description of the license or permit applicant's proposed action.

(ii) In the case of a denial of a license or permit, a description of the permit or license sought, including a statement of who in the Federal agency denied the permit or license, the grounds for the denial, and a copy of the permit or license denial.

(iii) A description of all permit(s), license(s) or other legal requirements which have been satisfied or obtained, or which must still be satisfied or obtained, before the proposed action can proceed.

(iv) A description of the consultation process carried out pursuant to section 7(a) of the Act.

(v) A copy of the biological assessment, if one was prepared.

(vi) A copy of the biological opinion.

(vii) A description of each alternative to the proposed action considered by the Federal agency, by the licensing or permitting agency, and by the permit or license applicant, to the extent known.
(viii) A statement describing why the proposed agency action cannot be altered or modified to avoid violating section 7(a)(2) of the Act.

(ix) A description of resources committed by the Federal agency, or the permit or license applicant, if any, to the proposed action subsequent to the initiation of consultation.

(3) If the applicant is a permit or license applicant other than a Federal agency:
   (i) A comprehensive description of the applicant’s proposed action.
   (ii) A description of the permit or license sought from the Federal agency, including a statement of who in that agency denied the permit or license and the grounds for the denial.
   (iii) A description of all permit(s), license(s) or other legal requirements which have been satisfied or obtained, or which must still be satisfied or obtained, before it can proceed with the proposed action.
   (iv) A copy of the permit or license denial.
   (v) A copy of the biological assessment, if one was prepared.
   (vi) A copy of the biological opinion.
   (vii) A description of the consultation process carried out pursuant to section 7(a) of the Act, to the extent that such information is available to the applicant.
   (viii) A description of each alternative to the proposed action considered by the applicant, and to the extent that such information is available to the applicant, a description of each alternative to the proposed action considered by the Federal agency.
   (ix) A statement describing why the applicant’s proposed action cannot be altered or modified to avoid violating section 7(a)(2) of the Act.
   (x) A description of resources committed to the proposed action by the Federal agency, including a statement of who in that agency denied the permit or license and the grounds for the denial, to the extent that such information is available to the Governor.
   (xi) A description of all permit(s), license(s) or other legal requirements which have been satisfied or obtained, or which must still be satisfied or obtained before the agency can proceed with the proposed action, to the extent that such information is available to the Governor.
   (xii) A statement describing why the applicant’s proposed action cannot be altered or modified to avoid violating section 7(a)(2) of the Act.
   (xiii) A description of resources committed to the proposed action subsequent to the initiation of consultation, to the extent that such information is available to the Governor.

(4) If the applicant is the Governor of a State in which the proposed agency action may occur:
   (i) A comprehensive description of the proposed agency action and if a license or permit denial is involved, a comprehensive description of the license or permit applicant’s proposed action.
   (ii) A description of the permit or license, if any, sought from the Federal agency, including a statement of who in that agency denied the permit or license and the grounds for the denial.
   (iii) A description of all permit(s), license(s) or other legal requirements which have been satisfied or obtained, or which must still be satisfied or obtained before the agency can proceed with the proposed action, to the extent that such information is available to the Governor.
   (iv) A copy of the biological assessment, if one was prepared.
   (v) A copy of the biological opinion.
   (vi) A description of the consultation process carried out pursuant to section 7(a) of the Act, to the extent that such information is available to the Governor.
   (vii) A description of all alternatives considered by the Federal agency, by the licensing or permitting agency, and by the permit or license applicant, to the extent that such information is available to the Governor.
   (viii) A statement describing why the proposed agency action cannot be altered or modified to avoid violating section 7(a)(2) of the Act.
   (ix) A description of resources committed to the proposed action subsequent to the initiation of consultation, to the extent that such information is available to the Governor.

(5) Each applicant, whether a Federal agency, a permit or license applicant, or a Governor, must also submit the following:
   (i) A complete statement of the nature and the extent of the benefits of the proposed action.
   (ii) A complete discussion of why the benefits of the proposed action clearly outweigh the benefits of each considered alternative course of action.
   (iii) A complete discussion of why none of the considered alternatives are reasonable and prudent.
   (iv) A complete statement explaining why the proposed action is in the public interest.
   (v) A complete explanation of why the action is of regional or national significance.
(vi) A complete discussion of mitigation and enhancement measures proposed to be undertaken if an exemption is granted.

(6) When the exemption applicant is a license or permit applicant or a Governor, a copy of the application shall be provided by the exemption applicant at the time the application is filed, to the Federal agency which denied the license or permit.

(f) Review of the application by the Secretary. (1) Upon receiving the application, the Secretary shall review the contents thereof and consider whether the application complies with the requirements set forth in paragraphs (c), (d) and (e) of this section.

(2) The Secretary shall reject an application within 10 days of receiving it if he determines that it does not comply with paragraphs (c), (d) and (e) of this section. If the Secretary rejects an application because it does not contain the information required by paragraph (e) of this section, the applicant may resubmit a revised application so long as the applicant does so during the 90 day period specified in paragraph (d) of this section.

(3) If the Secretary finds that the application meets the requirements of paragraphs (c), (d), and (e) of this section, he will consider the application in accordance with part 452.

(g) Notification of the Secretary of State. The Secretary will promptly transmit to the Secretary of State a copy of all applications submitted in accordance with §451.02.

(h) Public notification. Upon receipt of an application for exemption, the Secretary shall promptly publish a notice in the FEDERAL REGISTER (1) announcing that an application has been filed, (2) stating the applicant's name, (3) briefly describing the proposed agency action and the result of the consultation process, (4) summarizing the information contained in the application, (5) designating the place where copies of the application can be obtained and (6) specifying the name of the person to contact for further information. The Secretary will promptly notify each member of the Committee upon receipt of an application for exemption.

(i) The information collection requirements contained in part 451 do not require approval by the Office of Management and Budget under 44 U.S.C. 3501 et seq., because it is anticipated there will be fewer than ten respondents annually.

§451.03 Endangered Species Committee.

(a) Scope. This section contains provisions governing the relationship between the Secretary and the Endangered Species Committee.

(b) Appointment of State member. (1) Upon receipt of an application for exemption, the Secretary shall promptly notify the Governors of each affected State, if any, as determined by the Secretary, and request the Governors to recommend individuals to be appointed to the Endangered Species Committee for consideration of the application. Written recommendations of these Governors must be received by the Secretary within 10 days of receipt of notification. The Secretary will transmit the Governors' recommendations to the President and will request that the President appoint a State resident to the Endangered Species Committee from each affected State within 30 days after the application for exemption was submitted.

(2) When no State is affected, the Secretary will submit to the President a list of individuals with expertise relevant to the application and will request the President to appoint, within 30 days after the application for exemption was submitted, an individual to the Endangered Species Committee.

PART 452—CONSIDERATION OF APPLICATION BY THE SECRETARY

Sec. 452.01 Purpose and scope.
452.02 Definitions.
452.03 Threshold review and determinations.
452.04 Secretary's report.
452.05 Hearings.
452.06 Parties and intervenors.
452.07 Separation of functions and ex parte communications.
452.08 Submission of Secretary's report.
452.09 Consolidated and joint proceedings.

SOURCE: 50 FR 8129, Feb. 28, 1985, unless otherwise noted.
§ 452.01 Purpose and scope.

This part prescribes the procedures to be used by the Secretary when examining applications for exemption from section 7(a)(2) of the Endangered Species Act.

§ 452.02 Definitions.

Definitions applicable to this part are contained in 50 CFR 450.01.

§ 452.03 Threshold review and determinations.

(a) Threshold determinations. Within 20 days after receiving an exemption application, or a longer time agreed upon between the exemption applicant and the Secretary, the Secretary shall conclude his review and determine:
   (1) Whether any required biological assessment was conducted;
   (2) To the extent determinable within the time period provided, whether the Federal agency and permit or license applicant, if any, have refrained from making any irreversible or irretrievable commitment of resources; and
   (3) Whether the Federal agency and permit or license applicant, if any, have carried out consultation responsibilities in good faith and have made a reasonable and prudent effort to develop and fairly consider modifications or reasonable and prudent alternatives to the proposed action which would not violate section 7(a)(2) of the Act.

(b) Burden of proof. The exemption applicant has the burden of proving that the requirements of § 452.03(a) have been met.

(c) Negative finding. If the Secretary makes a negative finding on any threshold determination, the Secretary shall deny the application and notify the exemption applicant in writing of his finding and grounds therefor. The exemption process shall terminate when the applicant receives such written notice. The Secretary's denial shall constitute final agency action for purposes of judicial review under chapter 7 of title 5 of the United States Code.

(d) Positive finding. If the Secretary makes a positive finding on each of the threshold determinations, he shall notify the exemption applicant in writing that the application qualifies for consideration by the Endangered Species Committee.

(e) Secretary of State opinion. The Secretary shall terminate the exemption process immediately if the Secretary of State, pursuant to his obligations under section 7(i) of the Act, certifies in writing to the Committee that granting an exemption and carrying out the proposed action would violate an international treaty obligation or other international obligation of the United States.

§ 452.04 Secretary's report.

(a) Contents of the report. If the Secretary has made a positive finding on each of the threshold determinations, he shall proceed to gather information and prepare a report for the Endangered Species Committee:
   (1) Discussing the availability of reasonable and prudent alternatives to the proposed action;
   (2) Discussing the nature and extent of the benefits of the proposed action;
   (3) Discussing the nature and extent of the benefits of alternative courses of action consistent with conserving the species or the critical habitat;
   (4) Summarizing the evidence concerning whether the proposed action is of national or regional significance;
   (5) Summarizing the evidence concerning whether the proposed action is in the public interest;
   (6) Discussing appropriate and reasonable mitigation and enhancement measures which should be considered by the Committee in granting an exemption; and
   (7) Discussing whether the Federal agency and permit or license applicant, if any, have refrained from making any irreversible or irretrievable commitment of resources.

(b) Preparation of the report. The report shall be prepared in accordance with procedures set out in § 452.05 and § 452.09.

§ 452.05 Hearings.

(a) Hearings. (1) To develop the record for the report under § 452.04, the Secretary, in consultation with the members of the Committee, shall hold a hearing in accordance with 5 U.S.C. 554, 555, and 556.
   (2) The Secretary shall designate an Administrative Law Judge to conduct the hearing. The Secretary shall assign
technical staff to assist the Administrator.

(3) When the Secretary designates the Administrator, the Secretary may establish time periods for conducting the hearing and closing the record.

(4) The Secretary may require the applicant to submit further discussions of the information required by §451.02(e)(5). This information will be made part of the record.

(b) Prehearing conferences. (1) The Administrator may, on his own motion or the motion of a party or intervenor, hold a prehearing conference to consider:

(i) The possibility of obtaining stipulations, admissions of fact or law and agreement to the introduction of documents;

(ii) The limitation of the number of witnesses;

(iii) Questions of law which may bear upon the course of the hearings;

(iv) Prehearing motions, including motions for discovery; and

(v) Any other matter which may aid in the disposition of the proceedings.

(2) If time permits and if necessary to materially clarify the issues raised at the prehearing conference, the Administrator shall issue a statement of the actions taken at the conference and the agreements made. Such statement shall control the subsequent course of the hearing unless modified for good cause by a subsequent statement.

(c) Notice of hearings. Hearings and prehearing conferences will be announced by a notice in the Federal Register stating: (1) The time, place and nature of the hearing or prehearing conference; and (2) the matters of fact and law to be considered. The notice shall be published at least 15 days before the scheduled hearing.

(d) Conduct of hearings—(1) Admissibility of evidence. Relevant, material, and reliable evidence shall be admitted. Immaterial, irrelevant, unreliable, or unduly repetitious parts of an admissible document may be segregated and excluded so far as practicable.

(2) Motions, objections, rebuttal and cross-examination. Motions and objections may be filed with the Administrator, rebuttal evidence may be submitted, and cross-examination may be conducted, as required for a full and true disclosure of the facts, by parties, witnesses under subpoena, and their respective counsel.

(i) Objections. Objections to evidence shall be timely, and the party making them may be required to state briefly the grounds relied upon.

(ii) Offers of proof. When an objection is sustained, the examining party may make a specific offer of proof and the Administrator may receive the evidence in full. Such evidence, adequately marked for identification, shall be retained in the record for consideration by any reviewing authority.

(iii) Motions. Motions and petitions shall state the relief sought, the basis for relief and the authority relied upon. If made before or after the hearing itself, these matters shall be in writing and shall be filed and served on all parties. If made at the hearing, they may be stated and responded to orally, but the Administrator may require that they be reduced to writing. Oral argument on motions and deadlines by which to file responses to written motions will be at the discretion of the Administrator.

(e) Applicant responsibility. In proceedings conducted pursuant to this section, the exemption applicant has the burden of going forward with evidence concerning the criteria for exemption.

(f) Open meetings and record. All hearings and all hearing records shall be open to the public.

(g) Requests for information, subpoenas. (1) The Administrator is authorized to exercise the authority of the Committee to request, subject to the Privacy Act of 1974, that any person provide information necessary to enable the Committee to carry out its duties. Any Federal agency or the exemption applicant shall furnish such information to the Administrator.

(2) The Administrator may exercise the authority of the Committee to issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents.
§ 452.06 Parties and intervenors.

(a) Parties. The parties shall consist of the exemption applicant, the Federal agency responsible for the agency action in question, the Service, and intervenors whose motions to intervene have been granted.

(b) Intervenors. (1) The Administrative Law Judge shall provide an opportunity for intervention in the hearing. A motion to intervene must state the petitioner’s name and address, identify its representative, if any, set forth the interest of the petitioner in the proceeding and show that the petitioner’s participation would assist in the determination of the issues in question.

(2) The Administrative Law Judge shall grant leave to intervene if he determines that an intervenor’s participation would contribute to the fair determination of issues. In making this determination, the Administrative Law Judge may consider whether an intervenor represents a point of view not adequately represented by a party or another intervenor.

§ 452.07 Separation of functions and ex parte communications.

(a) Separation of functions. (1) The Administrative Law Judge and the technical staff shall not be responsible for or subject to the supervision or direction of any person who participated in the endangered species consultation at issue;

(2) The Secretary shall not allow an agency employee or agent who participated in the endangered species consultation at issue or a factually related matter to participate or advise in a determination under this part except as a witness or counsel in public proceedings.

(b) Ex parte communications. The provisions of 5 U.S.C. 557(d) apply to the hearing and the preparation of the report.

§ 452.08 Submission of Secretary's report.

(a) Upon closing of the record, the Administrative Law Judge shall certify the record and transmit it to the Secretary for preparation of the Secretary’s report which shall be based on the record. The Secretary may direct the Administrative Law Judge to reopen the record and obtain additional information if he determines that such action is necessary.

(b) The Secretary shall submit his report and the record of the hearing to the Committee within 140 days after making his threshold determinations under §452.03(a) or within such other period of time as is mutually agreeable to the applicant and the Secretary.

§ 452.09 Consolidated and joint proceedings.

(a) When the Secretary is considering two or more related exemption applications, the Secretary may consider them jointly and prepare a joint report if doing so would expedite or simplify consideration of the issues.

(b) When the Secretaries of the Interior and Commerce are considering two or more related exemption applications, they may consider them jointly and prepare a joint report if doing so would expedite or simplify consideration of the issues.

PART 453—ENDANGERED SPECIES COMMITTEE

§ 453.01 Purpose.

This part prescribes the procedures to be used by the Endangered Species Committee when examining applications for exemption from section 7(a)(2) of the Endangered Species Act of 1973, as amended.
§ 453.02 Definitions.
Definitions applicable to this part are contained in 50 CFR 450.01.

§ 453.03 Committee review and final determinations.
(a) Final determinations. Within 30 days of receiving the Secretary’s report and record, the Committee shall grant an exemption from the requirements of section 7(a)(2) of the Act for an agency action if, by a vote in which at least five of its members concur:
(1) It determines that based on the report to the Secretary, the record of the hearing held under § 452.05, and on such other testimony or evidence as it may receive:
(i) There are no reasonable and prudent alternatives to the proposed action;
(ii) The benefits of such action clearly outweigh the benefits of alternative courses of action consistent with conserving the species or its critical habitat, and such action is in the public interest;
(iii) The action is of regional or national significance; and
(iv) Neither the Federal agency concerned nor the exemption applicant made any irreversible or irretrievable commitment of resources prohibited by section 7(d) of the Act; and,
(2) It establishes such reasonable mitigation and enhancement measures, including, but not limited to, live propagation, transplantation, and habitat acquisition and improvement, as are necessary and appropriate to minimize the adverse effects of the proposed action upon the endangered species, threatened species, or critical habitat concerned. Any required mitigation and enhancement measures shall be carried out and paid for by the exemption applicant.

(b) Decision and order. The Committee’s final determinations shall be documented in a written decision. If the Committee determines that an exemption should be granted, the Committee shall issue an order granting the exemption and specifying required mitigation and enhancement measures. The Committee shall publish its decision and order in the FEDERAL REGISTER as soon as practicable.

(c) Permanent exemptions. Under section 7(h)(2) of the Act, an exemption granted by the Committee shall constitute a permanent exemption with respect to all endangered or threatened species for the purposes of completing such agency action—
(1) Regardless of whether the species was identified in the biological assessment, and
(2) Only if a biological assessment has been conducted under section 7(c) of the Act with respect to such agency action. Notwithstanding the foregoing, an exemption shall not be permanent if—
(i) The Secretary finds, based on the best scientific and commercial data available, that such exemption would result in the extinction of a species that was not the subject of consultation under section 7(a)(2) of the Act or was not identified in any biological assessment conducted under section 7(c) of the Act, and
(ii) The Committee determines within 60 days after the date of the Secretary’s finding that the exemption should not be permanent.

If the Secretary makes a finding that the exemption would result in the extinction of a species, as specified above, the Committee shall meet with respect to the matter within 30 days after the date of the finding. During the 60 day period following the Secretary’s determination, the holder of the exemption shall refrain from any action which would result in extinction of the species.

(d) Finding by the Secretary of Defense. If the Secretary of Defense finds in writing that an exemption for the agency action is necessary for reasons of national security, the Committee shall grant the exemption notwithstanding any other provision in this part.

§ 453.04 Committee information gathering.
(a) Written submissions. When the Chairman or four Committee members decide that written submissions are necessary to enable the Committee to make its final determinations, the Chairman shall publish a notice in the FEDERAL REGISTER inviting written submissions from interested persons.
§ 453.05 Committee meetings.

(a) The committee shall meet at the call of the Chairman or five of its members.

(b) Five members of the Committee or their representatives shall constitute a quorum for the transaction of any function of the Committee, except that in no case shall any representative be considered in determining the existence of a quorum for the transaction of a Committee function which involves a vote by the Committee on the Committee’s final determinations.

(c) Only members of the Committee may cast votes. In no case shall any representative cast a vote on behalf of a member.

(d) Committee members appointed from the affected States shall collectively have one vote. They shall determine among themselves how it will be cast.

(e) All meetings and records of the Committee shall be open to the public.

(f) The Chairman shall publish a notice of all Committee meetings in the Federal Register. The notice will ordinarily be published at least 15 days prior to the meeting.

§ 453.06 Additional Committee powers.

(a) Secure information. Subject to the Privacy Act, the Committee may secure information directly from any Federal agency when necessary to enable it to carry out its duties.

(b) Subpoenas. For the purpose of obtaining information necessary for the consideration of an application for an exemption, the Committee may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents.

(c) Rules and orders. The Committee may issue and amend such rules and orders as are necessary to carry out its duties.

(d) Delegate authority. The Committee may delegate its authority under paragraphs (a) and (b) of this section to any member.

PART 501—IMPLEMENTATION OF THE PRIVACY ACT OF 1974

Sec. 501.1 Purpose and scope.
501.2 Definitions.
501.3 Procedure for responding to requests regarding the existence of records pertaining to an individual.
501.4 Requests for access—times, places and requirements for identification of individuals.
501.5 Disclosure of requested information.
501.6 Requests for correction or amendment of a record.
501.7 Agency review of requests for amendment or correction of a record.
501.8 Appeal of initial denial of a request for amendment or correction.
501.9 Fees.

AUTHORITY: Sec. 3, Privacy Act of 1974 (5 U.S.C. 552a(f)).

SOURCE: 40 FR 49276, Oct. 21, 1975, unless otherwise noted.

§ 501.1 Purpose and scope.

(a) Purpose. The purpose of these rules is to fulfill the responsibilities of the Marine Mammal Commission (the “Commission”) under section 3 of the Privacy Act of 1974, 5 U.S.C. 552a(f) (the “Act”) by establishing procedures whereby an individual will be notified if any system of records maintained by the Commission contains a record pertaining to him or her; by defining the times and places at which records will be made available and the identification requirements which must be met by any individual requesting access to them; by establishing procedures for disclosure to an individual, on request, of any record pertaining to him or her; and by establishing procedures for processing, reviewing, and making a final determination on requests of individuals to correct or amend a record pertaining to him or her, including a provision for administrative appeal of initial adverse determinations on such requests. These rules are promulgated with particular attention to the purposes and goals of the Act, and in accordance therewith provide for relative ease of access to records pertaining to an individual, and for maintenance by the Commission of only those records which are current, accurate, necessary, relevant and complete with respect to the purposes for which they were collected.

(b) Scope. These rules apply only to “record” contained in “systems of records,” defined by the Act as follows:

The term “record” means any item, collection, or grouping of information about an individual that is maintained by an agency, including, but not limited to, his education, financial transactions, medical history, and criminal or employment history and that contains his name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a finger or voice print or a photograph;

The term “system of records” means of group of any record under the control of any agency from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual.

Notices with respect to the systems maintained by the Commission have been published in the FEDERAL REGISTER, as required by the Act. These rules pertain only to the systems of records disclosed in such notices, and to any systems that may become the subject of a notice at any time in the future.

(c) Nothing in these rules shall be construed as pertaining to requests made under the Freedom of Information Act, 5 U.S.C. 552.

§ 501.2 Definitions.

(a) As used in this part:

(2) The term Commission means the Marine Mammal Commission.

(3) The term Director means the Executive Director of the Marine Mammal Commission.

(4) The term Privacy Officer means an individual designated by the Director to receive all requests regarding the existence of records, requests for access and requests for correction or amendment; to review and make initial determinations regarding all such requests; and to provide assistance to any individual wishing to exercise his or her rights under the Act.

(b) Other terms shall be used in this part in accordance with the definitions contained in section 3 of the Privacy Act of 1974, 5 U.S.C. 552a(a).
§ 501.3 Procedure for responding to requests regarding the existence of records pertaining to an individual.

Any individual may submit a request to be notified whether a system of records, with respect to which the Commission has published a notice in the Federal Register, contains a record pertaining to him or her. Requests may be made in writing to the Privacy Officer or by appearing in person at the Commission offices located at 1625 I Street, NW., Room 307, Washington, DC 20006 between the hours of 9:00 a.m. and 5:00 p.m. on any working day. Systems of records that are the subject of a request should be identified by reference to the system name designated in the Notice of Systems of Records published in the Federal Register. In the event a system name is not known to the individual, a general request will suffice if it indicates reasons for the belief that a record pertaining to the named individual is maintained by the Commission. Receipt of inquiries submitted by mail will be acknowledged within 10 days of receipt (excluding Saturdays, Sundays, and legal public holidays) unless a response can also be prepared and forwarded to the individual within that time.

§ 501.4 Requests for access—times, places and requirements for identification of individuals.

Requests for access to a system of records pertaining to any individual may be made by that individual by mail addressed to the Privacy Officer, or by submitting a written request in person at the Commission offices located at 1625 I Street, NW., Room 307, Washington, DC 20006 between the hours of 9 a.m. and 5 p.m. on any working day. Assistance in gaining access under this section, securing an amendment or correction under § 501.6, or preparing an appeal directed to the Commission office on request directed to the Commission office. An individual appearing in person at the Commission offices will be granted immediate access to any records to which that individual is entitled under the Act upon satisfactory proof of identity by means of a document bearing the individual’s photograph or signature. For requests made by mail, identification of the individual shall be adequate if established by means of submitting a certificate of a notary public, or equivalent officer empowered to administer oaths, substantially in accord with the following:

City of County of __________: ss (Name of individual) who affixed (his) (her) signature below in my presence, came before me, a (Title), in the aforesaid County and State, this _____ day of ____, 19__, and established (his)(her) identity to my satisfaction.

My Commission expires _________.

The certificate shall not be required, however, for written requests pertaining to non-sensitive information or to information which would be required to be made available under the Freedom of Information Act. The Privacy Officer shall determine the adequacy of any proof of identity offered by an individual.

[41 FR 5, Jan. 2, 1976]

§ 501.5 Disclosure of requested information.

(a) Upon request and satisfactory proof of identity, an individual appearing at the Commission offices shall be given immediate access to and permission to review any record, contained in a system of records, pertaining to him or her, shall be allowed to have a person of his or her choosing accompany him or her, and shall be given a copy of all or any portion of the record. The individual to which access is granted shall be required to sign a written statement authorizing the presence of the person who accompanies him or her, and authorizing discussion of his or her record in the presence of the accompanying person.

(b) Requests made by mail to the Privacy Officer at the Commission offices will be acknowledged within 10 days from date of receipt (excluding Saturdays, Sundays, and legal public holidays). This acknowledgment shall advise the individual whether access to the record will be granted and, if access is granted, copies of such records shall be enclosed.

(c) If the Privacy Officer initially determines to deny access to all or any portion of a record, notice of denial
shall be given to the individual in writing, within 30 days (excluding Saturdays, Sundays and holidays) after acknowledgement is given, and shall include the following:

(1) The precise record to which access is being denied;
(2) The reason for denial, including a citation to the appropriate provisions of the Act and of these Rules;
(3) A statement that the denial may be appealed to the Director;
(4) A statement of what steps must be taken to perfect an appeal to the Director; and,
(5) A statement that the individual has a right to judicial review under 5 U.S.C. 552a(g)(1) of any final denial issued by the Director.

(d) Administrative appeal of an initial denial, in whole or in part, of any request for access to a record, shall be available. An individual may appeal by submitting to the Director a written request for reconsideration stating therein specific reasons for reversal which address directly the reasons for denial stated in the initial notice of denial. If access is denied on appeal, a final notice of denial shall be sent to the individual within 30 days (excluding Saturdays, Sundays and holidays), and shall state with particularity the grounds for rejecting all reasons for reversal submitted by the individual. The denial shall then be deemed final for purposes of obtaining judicial review.

§ 501.7 Agency review of requests for amendment or correction of a record.

(a) Where possible, each request for amendment or correction shall be reviewed, and a determination on the request made, by the Privacy Officer within 10 days of receipt (excluding Saturdays, Sundays and holidays). Requests shall be acknowledged within that period where insufficient information has been provided to enable action to be taken. An acknowledgement shall inform the individual making the request of the estimated time within which a disposition of the request is expected to be made, and shall prescribe such further information as may be necessary to process the request. The request shall be granted, or an initial decision to deny shall be made, within ten days of receipt of all information specified in the acknowledgement (excluding Saturdays, Sundays and holidays).

(b) Within 30 days (excluding Saturdays, Sundays and holidays) after arriving at a decision on a request, the Privacy Officer shall either:
§ 501.8 Appeal of initial denial of a request for amendment or correction.

(a) The initial denial of a request for amendment or correction may be appealed by submitting to the Director the following appeal papers:

1. A copy of the original request for amendment or correction;
2. A copy of the initial denial; and
3. A precise statement of the reasons for the individual's belief that the denial is in error, referring specifically to the criteria contained in §501.7(c)(1) through (8).

The appeal must be signed by the individual. While these papers normally will constitute the entire Record on Appeal, the Director may add additional information, from sources other than the individual, where necessary to facilitate a final determination. Any such additional information added to the record shall promptly be disclosed to the individual to the greatest extent possible, and an opportunity for comment thereon shall be afforded prior to the final determination. Appeals should be submitted to the Director within 90 days after the date of the initial denial.

(b) The Director shall issue a final determination on appeal within thirty days (excluding Saturdays, Sundays, and legal public holidays) from the date on which a completed Record on Appeal (including any additional information deemed necessary) is received. Review, and final determination by the Director, shall be based upon the criteria specified in §501.7(c)(1) through (8).

(c) If the appeal is resolved favorably to the individual, the final determination shall specify the amendments or corrections to be made. Copies of the final determination shall be transmitted promptly to the individual and to the Privacy Officer. The Privacy Officer shall make the requested amendment or correction and advise the individual in writing of such action.

(d) If the appeal is denied, the final determination shall state, with particularity, the reasons for denial, including a citation to an appropriate section of the Act and of these Rules. The final determination shall be forwarded promptly to the individual, together with a notice which shall inform...
the individual of his or her right to submit to the Privacy Officer, for inclusion in the record, a concise statement of grounds for disagreement with the final determination. Receipt of any such statement shall be acknowledged by the Privacy Officer, and all subsequent and prior users of the record shall be provided copies of the statement. The notice shall also inform the individual of his or her right, under 5 U.S.C. 552a(g)(1), to obtain judicial review of the final determination.

§ 501.9 Fees.
A fee of $0.10 shall be charged for each copy of each page of a record made, by photocopy or similar process, at the request of an individual. No fee shall be charged for copies made at the initiative of the Commission incident to granting access to a record. A total copying fee of $2.00 or less may be waived by the Privacy Officer, but fees for all requests made contemporaneously by an individual shall be aggregated to determine the total fee.

[41 FR 5, Jan. 2, 1976]

PART 510—IMPLEMENTATION OF THE FEDERAL ADVISORY COMMITTEE ACT

Sec.
510.1 Purpose.
510.2 Scope.
510.3 Definitions.
510.4 Calling of meetings.
510.5 Notice of meetings.
510.6 Public participation.
510.7 Closed meetings.
510.8 Minutes.
510.9 Uniform pay guidelines.

AUTHORITY: Sec. 8(a), Federal Advisory Committee Act, 5 U.S.C. App. 1.

SOURCE: 41 FR 3306, Jan. 22, 1976, unless otherwise noted.

§ 510.4

The regulations prescribed in this part set forth the administrative guidelines and management controls for advisory committees reporting to the Marine Mammal Commission. These regulations are authorized by section 8(a) of the Federal Advisory Committee Act, 5 U.S.C. appendix I. Guidelines and controls are prescribed for calling of meetings, notice of meetings, public participation, closing of meetings, keeping of minutes, and compensation of committee members, their staff and consultants.

§ 510.2 Scope.
These regulations shall apply to the operation of advisory committees reporting to the agency.

§ 510.3 Definitions.
For the purposes of this part,
(a) The term Act means the Federal Advisory Committee Act, 5 U.S.C. appendix I;
(b) The term Chairperson means each person selected to chair an advisory committee established by the Commission;
(c) The term Commission means the Marine Mammal Commission, established by 16 U.S.C. 1401(a);
(d) The term committee means any advisory committee reporting to the Commission; and
(e) The term Designee means the agency official designated by the Chairman of the Commission (1) to perform those functions specified by sections 10(e) and (f) of the Act, and (2) to perform such other responsibilities as are required by the Act and applicable regulations to be performed by the ‘agency head.’

§ 510.4 Calling of meetings.
(a) No committee shall hold any meeting except with the advance approval of the Designee. Requests for approval may be made, and approval to hold meetings may be given orally or in writing, but if approval is given orally, the fact that approval has been given shall be stated in the public notice published pursuant to §510.5 of these regulations.
(b) An agenda shall be submitted to, and must be approved by, the Designee in advance of each committee meeting, and that meeting shall be conducted in accordance with the approved agenda. The agenda shall list all matters to be considered at the meeting, and shall indicate when any part of the meeting will be closed to the public on the authority of exemptions contained in the
§ 510.5 Notice of meetings.

(a) Notice of each committee meeting shall be timely published in the Federal Register. Publication shall be considered timely if made at least 15 days before the date of the meeting, except that shorter notice may be provided in emergency situations.

(b) The notice shall state the time, place, and purposes of the committee meeting, and shall include, whenever it is available, a summary of the agenda. The notice shall indicate the approximate times at which any portion of the meeting will be closed to the public and shall include an explanation for the closing of any portion of the meeting pursuant to §510.7.

§ 510.6 Public participation.

(a) All committee meetings, or portions of meetings, that are open to the public shall be held at a reasonable time and at a place that is reasonably accessible to the public. A meeting room shall be selected which, within the bounds of the resources and facilities available, affords space to accommodate all members of the public who reasonably could be expected to attend.

(b) Any member of the public shall be permitted to file a written statement with the committee, either by personally delivering a copy to the Chairperson, or by submitting the statement by mail to the Marine Mammal Commission Offices at the address indicated in the notice of meeting. Such statements should be received at least one week in advance of the scheduled meeting at which they are expected to be considered by the committee.

(c) Opportunities will ordinarily be afforded to interested persons to speak to agenda items during that portion of the open meeting during which that item is to be considered by the committee, subject to such reasonable time limits as the committee may establish, and consideration of the extent to which the committee has received the benefit of comments by interested persons, the complexity and the importance of the subject, the time constraints under which the meeting is to be conducted, the number of persons who wish to speak during the meeting, and the extent to which the statement provides the committee with information which has not previously been available and is relevant to its decision or other action on that request. Interested persons may be required to serve reasonable notice of their intentions to speak so that the committee may assess whether procedures and scheduling for the meeting can be adjusted to accommodate large numbers of participants.

§ 510.7 Closed meetings.

(a) Whenever the committee seeks to have all or a portion of a meeting closed to the public on the basis of an exemption provided in 5 U.S.C. 552(b), the Chairperson shall notify the Designee at least 30 days before the scheduled date of the meeting. The notification shall be in writing and shall specify all the reasons for closing any part of the meeting.

(b) If, after consultation with the General Counsel of the Commission, the Designee finds the request to be warranted and in accordance with the policy of the Act, the request shall be granted. The determination of the Designee to grant any such request shall be in writing and shall specify all the reasons for closing any part of the meeting. Copies of the determination shall be made available to the public upon request.

§ 510.8 Minutes.

Detailed minutes shall be kept of each portion of each committee meeting. The minutes shall include: the time and place of the meeting; a list of the committee members and staff in attendance; a complete summary of matters discussed and conclusions reached; copies of all reports received, issued, or approved by the committee; a description of the extent to which the meeting was open to the public; and a description of public participation, including a list of members of the public who presented oral or written statements and an estimate of the number of members of the public who attended the open sessions. The Chairperson
shall certify to the accuracy of the minutes.

§ 510.9 Uniform pay guidelines.
(a) Compensation of members and staff of, and consultants to the Committee of Scientific Advisors on Marine Mammals is fixed in accordance with 16 U.S.C. 1401(e), 1403(b), and 1406.
(b) Compensation for members and staff of, and consultants to all advisory committees reporting to the Commission except the Committee of Scientific Advisors on Marine Mammals shall be fixed in accordance with guidelines established by the Director of the Office of Management and Budget pursuant to section 7(d) of the Act, 5 U.S.C. appendix l.

PART 520—PUBLIC AVAILABILITY OF AGENCY MATERIALS

§ 520.1 Purpose.
These regulations implement the provisions of the "Freedom of Information Act," 5 U.S.C. 552. They establish procedures under which the public may inspect and obtain copies of nonexempt material maintained by the Commission, provide for administrative appeal of initial determinations to deny requests for material, and prescribe uniform fees to be charged by the Commission to recover direct search and duplication costs.

§ 520.2 Scope.
(a) These regulations shall apply to all final opinions, including concurring and dissenting opinions, as well as orders, made by the Commission in the adjudication of cases; to all statements of policy and interpretations which have been adopted by the Commission and are not published in the Federal Register; to the Commission’s administrative staff manuals and instructions to staff that affect a member of the public; and to any other Commission records reasonably described and requested by a person in accordance with these regulations—except to the extent that such material is exempt in accordance with paragraph (b) of this section.

(b) Requests for inspection and copies shall not be granted with respect to materials that are:

(i) Specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy, and

(ii) Are in fact properly classified pursuant to such Executive order;

(2) Related solely to the internal personnel rules and practices of the Commission;

(3) Specifically exempted from disclosure by statute;

(4) Trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) Inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the Commission;

(6) Personnel and medical files and similar files, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would:

(i) Interfere with enforcement proceedings,

(ii) Deprive a person of a right to a fair trial or an impartial adjudication,

(iii) Constitute an unwarranted invasion of personal privacy,

(iv) Disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source,

(v) Disclose investigative techniques and procedures, or

(vi) Endanger the life or physical safety of law enforcement personnel;
§ 520.3 Definitions.
As used in these regulations:
(a) The term Commission means the Marine Mammal Commission;
(b) The term Director means the Executive Director of the Marine Mammal Commission;
(c) The term exempt materials means those materials described in §520.2(b);
(d) The term non-exempt materials refers to all materials described in §520.2(a), but not included in §520.2(b); and
(e) The term General Counsel means the General Counsel of the Marine Mammal Commission.

§ 520.4 Availability of materials.
(a) All non-exempt materials shall be available for inspection during normal business hours at the Commission offices, 1625 I Street, NW., Room 307, Washington, DC. Space shall be made available at that location for the use of any person who is granted permission to inspect such materials.
(b) Requests to inspect, and obtain copies of, any material maintained by the Commission may be made in person at the Commission offices, or submitted in writing to the Executive Director, Marine Mammal Commission, 1625 I St., NW., Room 307, Washington, DC 20006. Each request should include a reasonable description of the material being sought, and should contain sufficient detail to facilitate retrieval of the material without undue delay. The Commission staff shall assist to the extent practicable in identifying material that is imprecisely described by the person requesting such material.
(c) An initial determination whether, and to what extent, to grant each request shall be made by the General Counsel or his delegate within 10 days (excluding Saturdays, Sundays, and legal public holidays) after receipt of that request. The person making the request shall be notified immediately of the determination made. In making such determinations, it shall first be considered whether the material requested is of a type described in §520.2(a); if it is, the request shall be granted unless the material is exempted by §520.2(b). If the material requested is not of a type described in §520.2(a), or is the subject of one or more exemptions, the request shall be denied.
(d) If a determination is made to grant a request, the relevant material shall promptly be made available for inspection at the Commission offices. Copies of the material disclosed shall be furnished within a reasonable time after payment of the fee specified in §520.7. Copies of less than 10 pages of material requested in person ordinarily will be furnished immediately following the determination to grant the request and payment of the fee. Larger numbers of copies may be furnished at the earliest convenience of the Commission staff, but must be furnished within a reasonable time following payment of the fee.
(e) Whenever required to prevent a clearly unwarranted invasion of personal privacy, the General Counsel or his delegate shall determine that identifying details shall be deleted from an opinion, statement of policy, interpretation, or staff manual or instruction to which access is granted or of which copies are furnished. Where portions of the requested material are exempt under §520.2(b), and are reasonably segregable from the remainder of the material, those portions shall be excised from the material disclosed. Whenever details are deleted or portions are excised and not disclosed, the notification shall include the information specified in §520.4(f).
(f) If a determination is made to deny a request, the notification shall include a statement of the reasons for such action, shall set forth the name and position of the person responsible for the denial, and shall advise the requester of the right, and the procedures required under §520.5, to appeal the denial to the Director.
§ 520.5 Administrative appeal.

(a) An appeal to the Director of any denial, in whole or in part, of a request for access to and copies of material may be made by submission of a written request for reconsideration. Such requests must state specific reasons for reconsideration that address directly the grounds upon which the denial was based. Requests should be addressed to the Director at the Commission offices.

(b) The Director shall make a determination with respect to any appeal within 20 days (excepting Saturdays, Sundays, and legal public holidays) after receipt of the request for reconsideration. The person making such a request shall immediately be notified by mail of the determination.

(c) If the initial denial is reversed by the Director, any material with which the reversal is concerned shall be made available for inspection, and copies shall be furnished, in accordance with § 520.4(d).

(d) If the denial is upheld, in whole or in part, the Director shall include in the notification a statement of the requester’s right of judicial review under 5 U.S.C. 552(a)(4), and the names and positions of the persons responsible for the denial.

§ 520.6 Extensions of time.

(a) Whenever unusual circumstances exist, as set forth in § 520.6(b), the times within which determinations must be made by the General Counsel on requests for access (10 working days), and by the Director on requests for reconsideration (20 working days), may be extended by written notice to the requester. The notice shall set forth the reasons for such extension, and the date on which a determination is expected to be made. The maximum extension of time allowed under this section shall be 10 working days, but shall be utilized only to the extent reasonably necessary to the proper processing of the particular request.

(b) As used in this section, “unusual circumstances” shall mean:

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the Commission offices;

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are the subject of a single request; or

(3) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject-matter interest therein.

§ 520.7 Fees.

(a) The following standard charges for document search and duplication, based on the direct costs of such services, must be paid before access to, or copies of material will be granted under these regulations:

(1) Search: $4.00 per person-hour for clerical time; $8.00 per person-hour for professional or supervisory time;

(2) Duplication: 90.10 per page of photocopied material.

(b) The Commission shall furnish without charge, or at a reduced charge, copies of any material disclosed pursuant to these regulations, whenever the General Counsel or the Director determines that waiver or reduction of the fee is in the public interest because furnishing the information can be considered as primarily benefiting the general public.

PART 530—COMPLIANCE WITH THE NATIONAL ENVIRONMENTAL POLICY ACT

Sec.
530.1 Purpose.
530.2 Ensuring that environmental documents are actually considered in agency decision-making.
530.3 Typical classes of action.
530.4 Environmental information.

Source: 44 FR 52837, Sept. 11, 1979, unless otherwise noted.

§ 530.1 Purpose.

The purpose of this part is to establish procedures which supplement the National Environmental Policy Act (NEPA) regulations and provide for the implementation of those provisions
§ 530.2 Ensuring that environmental documents are actually considered in agency decision-making.

Section 1505.1 of the NEPA regulations contains requirements to ensure adequate consideration of environmental documents in agency decision-making. To implement these requirements, Commission officials shall:

(a) Consider all relevant environmental documents in evaluating proposals for agency actions;

(b) Ensure that all relevant environmental documents, comments, and responses accompany the proposal through existing agency review processes;

(c) Consider only those alternatives encompassed by the range of alternatives discussed in the relevant environmental documents when evaluating any proposal for action by the Commission which is likely to significantly affect the quality of the human environment; and

(d) Where an environmental impact statement (EIS) has been prepared, consider the specific alternatives analyzed in the EIS when evaluating the proposal which is the subject of the EIS. All Commission officials directly involved in developing, evaluating, and/or reaching decisions on proposed actions shall consider relevant environmental documents and comply with the applicable provisions of the NEPA process.

§ 530.3 Typical classes of action.

Section 1507.3(b)(2), in conjunction with §1508.4, requires agencies to identify typical classes of action that warrant similar treatment under NEPA with respect to the preparation of EIS's or environmental assessments. As a general matter, the Commission's activities do not include actions for which EIS's or environmental assessments are required. Its activities involve:

(a) Consultation with and recommendations to other Federal agencies for actions relating to marine mammal protection and conservation for which an EIS or environmental assessment is either not required by the NEPA regulations or for which an EIS or environmental assessment is prepared by another Federal agency; and

(b) Research contracts relating to policy issues, biological-ecological data needed to make sound management decisions, and better methods for collecting and analyzing data. These activities are not, by themselves, major Federal actions significantly affecting the quality of the human environment and the Commission's activities are therefore categorically excluded from the requirement to prepare an EIS or environmental assessment except for proposals for legislation which are initiated by the Commission, for which the Commission shall develop environmental assessments or EIS's, as appropriate, in accordance with the NEPA regulations. The Commission shall independently determine whether an EIS or an environmental assessment is required where:

(1) A proposal for agency action is not covered by one of the typical classes of action above; or

(2) For actions which are covered, the presence of extraordinary circumstances indicates that some other level of environmental review may be appropriate.

§ 530.4 Environmental information.

Interested persons may contact the Office of the General Counsel for information regarding the Commission's compliance with NEPA.

PART 540—INFORMATION SECURITY

Sec.
540.1 Policy.
540.2 Program.
540.3 Procedures.

AUTHORITY: Executive Order 12356.

§ 540.1 Policy.

It is the policy of the Marine Mammal Commission to act in accordance with Executive Order 12356 in matters relating to national security information.

[44 FR 55381, Sept. 26, 1979]
§ 540.2 Program.

The Executive Director is designated as the Commission’s official responsible for implementation and oversight of information security programs and procedures. He acts as the recipient of questions, suggestions, and complaints regarding all elements of this program, and is solely responsible for changes to it and for insuring that it is at all times consistent with Executive Order 12356. The Executive Director also serves as the Commission’s official contact for requests for declassification of materials submitted under the provisions of Executive Order 12356, regardless of the point of origin of such requests. He is responsible for assuring that requests submitted under the Freedom of Information Act are handled in accordance with that Act and that declassification requests submitted under the provisions of Executive Order 12356 are acted upon within 60 days of receipt.

[44 FR 55381, Sept. 26, 1979]

§ 540.3 Procedures.

(a) Mandatory declassification review. All requests for mandatory review shall be handled by the Executive Director or his designee. Under no circumstances shall the Executive Director refuse to confirm the existence or non-existence of a document requested under the Freedom of Information Act or the mandatory review provisions of Executive Order 12356, unless the fact of its existence or non-existence would itself be classified under Executive Order 12356. Requests for declassification shall be acted upon promptly providing that the request reasonably describes the information which is the subject of the request for declassification. In light of the fact that the Commission does not have original classification authority and national security information in its custody has been classified by another Federal agency, the Executive Director will refer all requests for national security information in its custody to the Federal agency that classified it or, if the agency that classified it has either ceased to exist or transferred the information in conjunction with a transfer of functions, to the appropriate federal agency exercising original classification authority with respect to the same subject, for review and disposition in accordance with Executive Order 12356 and that agency’s regulations and guidelines.

(b) Exceptional cases. When an employee or contractor of the Commission originates information that is believed to require classification, the Executive Director shall ensure that it is protected in accordance with Executive Order 12356 and shall promptly transmit it under appropriate safeguards to the agency with appropriate subject matter jurisdiction and classification authority for review and action in accordance with the Order and that agency’s regulations and guidelines.

(c) Derivative classification. Derivative classification markings shall be applied to information that is in substance the same as information that is already classified, in accordance with Executive Order 12356, Section 2-1, unless it is determined through inquiries made to the originators of the classified information or other appropriate persons that the paraphrasing, restating, or summarizing of the classified information obviates the need for its classification, in which case the information shall be issued as unclassified or shall be marked appropriately. After verifying the current level of classification so far as practicable, paper copies of such derivatively classified information shall be marked so as to indicate:

(1) The source of the original classification;

(2) The identity of the Commission employee originating the derivatively classified document;

(3) The dates or events for declassification of or review for declassification indicated on the classified source material; and

(4) Any additional authorized markings appearing on the source material.

(d) Handling. All classified documents shall be delivered to the Executive Director or his designee immediately upon receipt. All potential recipients of such documents shall be advised of the names of such designees and updated information as necessary. In the event that the Executive Director or his designee is not available to receive
such documents, they shall be turned over to the Administrative Officer and secured, unopened, in the combination safe located in the Commission offices until the Executive Director or his designee is available. Under no circumstances shall classified materials that cannot be delivered to the Executive Director or his designee be stored other than in the designated safe.

(e) Reproduction. Reproduction of classified material shall take place only in accordance with Executive Order 12356, its implementing directives, and any limitations imposed by the originator. Should copies be made, they are subject to the same controls as the original document. Records showing the number and distribution of copies shall be maintained, where required by the Executive Order, by the Administrative Officer and the log stored with the original documents. These measures shall not restrict reproduction for the purposes of mandatory review.

(f) Storage. All classified documents shall be stored in the combination safe located in the Commission's offices. The combination shall be changed as required by ISOO Directive No. 1, dated June 23, 1982. The combination shall be known only to the Executive Director and his designees with the appropriate security clearance.

(g) Employee education. All employees who have been granted a security clearance and who have occasion to handle classified materials shall be advised of handling, reproduction, and storage procedures and shall be required to review Executive Order 12356 and appropriate ISOO directives. This shall be effected by a memorandum to all affected employees at the time these procedures are implemented. New employees will be instructed in procedures as they enter employment with the Commission.

(h) Agency terminology. The use of the terms Top Secret, Secret, and Confidential shall be limited to materials classified for national security purposes.

skills to have an equal opportunity to participate in, and enjoy the benefits of, programs or activities conducted by the agency. For example, auxiliary aids useful for persons with impaired vision include readers, Braille materials, audio recordings, telecommunications devices and other similar services and devices. Auxiliary aids useful for persons with impaired hearing include telephone handset amplifiers, telephones compatible with hearing aids, telecommunication devices for deaf persons (TDD’s), interpreters, notetakers, written materials, and other similar services and devices.

Complete complaint means a written statement that contains the complainant’s name and address and describes the agency’s alleged discriminatory action in sufficient detail to inform the agency of the nature and date of the alleged violation of section 504. It shall be signed by the complainant or by someone authorized to do so on his or her behalf. Complaints filed on behalf of classes or third parties shall describe or identify (by name, if possible) the alleged victims of discrimination.

Facility means all or any portion of buildings, structures, equipment, roads, walks, parking lots, rolling stock or other conveyances, or other real or personal property.

Handicapped person means any person who has a physical or mental impairment that substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment.

As used in this definition, the phrase:

(1) Physical or mental impairment includes—

(i) Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one of more of the following body systems: Neurological; musculoskeletal; special sense organs; respiratory, including speech organs; cardiovascular; reproductive; digestive; genitourinary; hemic and lymphatic; skin; and endocrine; or

(ii) Any mental or psychological disorder, such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities. The term “physical or mental impairment” includes, but is not limited to, such diseases and conditions as orthopedic, visual, speech, and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, and drug addiction and alcoholism.

(2) Major life activities includes functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

(3) Has a record of such an impairment means has a history of, or has been misclassified as having, a mental or physical impairment that substantially limits one or more major life activities.

(4) Is regarded as having an impairment means—

(i) Has a physical or mental impairment that does not substantially limit major life activities but is treated by the agency as constituting such a limitation;

(ii) Has a physical or mental impairment that substantially limits major life activities only as a result of the attitudes of others toward such impairment;

(iii) Has none of the impairments defined in subparagraph (1) of this definition but is treated by the agency as having such an impairment.

Qualified handicapped person means—

(1) With respect to any agency program or activity under which a person is required to perform services or to achieve a level of accomplishment, a handicapped person who meets the essential eligibility requirements and who can achieve the purpose of the program or activity without modifications in the program or activity that the agency can demonstrate would result in a fundamental alteration in its nature; or

(2) With respect to any other program or activity, a handicapped person who meets the essential eligibility requirements and who can achieve the purpose of the program or activity without modifications in the program or activity that the agency can demonstrate would result in a fundamental alteration in its nature; or

(3) Qualified handicapped person is defined for purposes of employment in 29 CFR 1613.702(f), which is made applicable to this part by §550.140.

§§ 550.104-550.109

amended by the Rehabilitation Act Amendments of 1974 (Pub. L. 93-516, 88 Stat. 1617), and the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978 (Pub. L. 95-602, 92 Stat. 2955). As used in this part, section 504 applies only to programs or activities conducted by Executive agencies and not to federally assisted programs.

[51 FR 4579, Feb. 5, 1986; 51 FR 7543, Mar. 5, 1986]

§§ 550.104-550.109 [Reserved]

§ 550.110 Self-evaluation.

(a) The agency shall, by April 9, 1987, evaluate its current policies and practices, and the effects thereof, that do not or may not meet the requirements of this part, and, to the extent modification of any such policies and practices is required, the agency shall proceed to make the necessary modifications.

(b) The agency shall provide an opportunity to interested persons, including handicapped persons or organizations representing handicapped persons, to participate in the self-evaluation process by submitting comments (both oral and written).

(c) The agency shall, until three years following the completion of the self-evaluation, maintain on file and make available for public inspections:

(1) A description of areas examined and any problems identified, and

(2) A description of any modifications made.

§ 550.111 Notice.

The agency shall make available to employees, applicants, participants, beneficiaries, and other interested persons such information regarding the provisions of this part and its applicability to the programs or activities conducted by the agency, and make such information available to them in such manner as the head of the agency finds necessary to apprise such persons of the protections against discrimination assured them by section 504 and this regulation.

§§ 550.112-550.129 [Reserved]

§ 550.130 General prohibitions against discrimination.

(a) No qualified handicapped person shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity conducted by the agency.

(b)(1) The agency, in providing any aid, benefit, or service, may not, directly or through contractual, licensing, or other arrangements, on the basis of handicap—

(i) Deny a qualified handicapped person the opportunity to participate in or benefit from the aid, benefit, or service;

(ii) Afford a qualified handicapped person an opportunity to participate in or benefit from the aid, benefit, or service that is not equal to that afforded others;

(iii) Provide a qualified handicapped person with an aid, benefit, or service that is not as effective in affording equal opportunity to obtain the same result, to gain the same benefit, or to reach the same level of achievement as that provided to others;

(iv) Provide different or separate aid, benefits, or services to handicapped persons or to any class of handicapped persons than is provided to others unless such action is necessary to provide qualified handicapped persons with aid, benefits, or services that are as effective as those provided to others;

(v) Deny a qualified handicapped person the opportunity to participate as a member of planning or advisory boards; or

(vi) Otherwise limit a qualified handicapped person in the enjoyment of any right, privilege, advantage, or opportunity enjoyed by others receiving the aid, benefit, or service.

(2) The agency may not deny a qualified handicapped person the opportunity to participate in programs or activities that are not separate or different, despite the existence of permissibly separate or different programs or activities.

(3) The agency may not, directly or through contractual or other arrangements, utilize criteria or methods of
administration the purpose or effect of which would—
(i) Subject qualified handicapped persons to discrimination on the basis of handicap; or
(ii) Defeat or substantially impair accomplishment of the objectives of a program or activity with respect to handicapped persons.

(4) The agency may not, in determining the site or location of a facility, make selections the purpose or effect of which would—
(i) Exclude handicapped persons from, deny them the benefits of, or otherwise subject them to discrimination under any program or activity conducted by the agency; or
(ii) Defeat or substantially impair the accomplishment of the objectives of a program or activity with respect to handicapped persons.

(5) The agency, in the selection of procurement contractors, may not use criteria that subject qualified handicapped persons to discrimination on the basis of handicap.

(c) The exclusion of nonhandicapped persons from the benefits of a program limited by Federal statute or Executive order to handicapped persons or the exclusion of a specific class of handicapped persons from a program limited by Federal statute or Executive order to a different class of handicapped persons is not prohibited by this part.

(d) The agency shall administer programs and activities in the most integrated setting appropriate to the needs of qualified handicapped persons.

§§ 550.131-550.139 [Reserved]

§ 550.140 Employment.
No qualified handicapped person shall, on the basis of handicap, be subjected to discrimination in employment under any program or activity conducted by the agency. The definitions, requirements, and procedures of section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791), as established by the Equal Employment Opportunity Commission in 29 CFR part 1613, shall apply to employment in federally conducted programs or activities.

§§ 550.141-550.148 [Reserved]

§ 550.149 Program accessibility: Discrimination prohibited.
Except as otherwise provided in §550.150, no qualified handicapped person shall, because the agency's facilities are inaccessible to or unusable by handicapped persons, be denied the benefits of, be excluded from participation in, or otherwise be subjected to discrimination under any program or activity conducted by the agency.

§ 550.150 Program accessibility: Existing facilities.
(a) General. The agency shall operate each program or activity so that the program or activity, when viewed in its entirety, is readily accessible to and usable by handicapped persons. This paragraph does not—
(1) Necessarily require the agency to make each of its existing facilities accessible to and usable by handicapped persons; or
(2) Require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with §550.150(a) would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action would result in such an alteration or such burdens, the agency shall take any other action that would not result in such an alteration or such burdens but would nevertheless ensure that handicapped persons receive the benefits and services of the program or activity.
(b) Methods. The agency may comply with the requirements of this section...
§ 550.151 Program accessibility: New construction and alterations.

Each building or part of a building that is constructed or altered by, on behalf of, or for the use of the agency shall be designed, constructed, or altered so as to be readily accessible to and usable by handicapped persons. The definitions, requirements, and standards of the Architectural Barriers Act (42 U.S.C. 4151-4157), as established in 41 CFR 101-19.600 to 101-19.607, apply to buildings covered by this section.

§§ 550.152-550.159 [Reserved]

§ 550.160 Communications.

(a) The agency shall take appropriate steps to ensure effective communication with applicants, participants, personnel of other Federal entities, and members of the public.

(1) The agency shall furnish appropriate auxiliary aids where necessary to afford a handicapped person an equal opportunity to participate in, and enjoy the benefits of, a program or activity conducted by the agency.

(ii) The agency need not provide individually prescribed devices, readers for personal use or study, or other devices of a personal nature.

(2) Where the agency communicates with applicants and beneficiaries by telephone, telecommunication devices for deaf persons (TDD’s) or equally effective telecommunication systems shall be used.

(b) The agency shall ensure that interested persons, including persons

through such means as redesign of equipment, reassignment of services to accessible buildings, assignment of aides to beneficiaries, home visits, delivery of services at alternate accessible sites, alteration of existing facilities and construction of new facilities, use of accessible rolling stock, or any other methods that result in making its programs or activities readily accessible to and usable by handicapped persons. The agency is not required to make structural changes in existing facilities where other methods are effective in achieving compliance with this section. The agency, in making alterations to existing buildings, shall meet accessibility requirements to the extent compelled by the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151-4157), and any regulations implementing it. In choosing among available methods for meeting the requirements of this section, the agency shall give priority to those methods that offer programs and activities to qualified handicapped persons in the most integrated setting appropriate.

(c) Time period for compliance. The agency shall comply with the obligations established under this section by June 6, 1986, except that where structural changes in facilities are undertaken, such changes shall be made by April 7, 1989, but in any event as expeditiously as possible.

(d) Transition plan. In the event that structural changes to facilities will be undertaken to achieve program accessibility, the agency shall develop, by October 7, 1986, a transition plan setting forth the steps necessary to complete such changes. The agency shall provide an opportunity to interested persons, including handicapped persons or organizations representing handicapped persons, to participate in the development of the transition plan by submitting comments (both oral and written). A copy of the transition plan shall be made available for public inspection. The plan shall, at a minimum—

(1) Identify physical obstacles in the agency’s facilities that limit the accessibility of its programs or activities to handicapped persons;

(2) Describe in detail the methods that will be used to make the facilities accessible;

(3) Specify the schedule for taking the steps necessary to achieve compliance with this section and, if the time period of the transition plan is longer than one year, identify steps that will be taken during each year of the transition period; and

(4) Indicate the official responsible for implementation of the plan.

[51 FR 4579, Feb. 5, 1986; 51 FR 7543, Mar. 5, 1986]
with impaired vision or hearing, can obtain information as to the existence and location of accessible services, activities, and facilities.

(c) The agency shall provide signage at a primary entrance to each of its inaccessible facilities, directing users to a location at which they can obtain information about accessible facilities. The international symbol for accessibility shall be used at each primary entrance of an accessible facility.

(d) This section does not require the agency to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity or in undue financial and administrative burdens. In those circumstances where agency personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the agency has the burden of proving that compliance with §550.160 would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the agency head or his or her designee after considering all agency resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action required to comply with this section would result in such an alteration or burdens but would nevertheless ensure that, to the maximum extent possible, handicapped persons receive the benefits and services of the program or activity.

§§ 550.161-550.169 [Reserved]

§ 550.170 Compliance procedures.

(a) Except as provided in paragraph (b) of this section, this section applies to all allegations of discrimination on the basis of handicap in programs or activities conducted by the agency.

(b) The agency shall process complaints alleging violations of section 504 with respect to employment according to the procedures established by the Equal Employment Opportunity Commission in 29 CFR part 1613 pursuant to section 501 of the Rehabilitation Act of 1973 (29 U.S.C. 791).

(c) The General Counsel for the Commission shall be responsible for coordinating implementation of this section. Complaints may be sent to the General Counsel for the Commission, Marine Mammal Commission, Room 307, 1625 I Street, NW., Washington, DC 20006.

(d) The agency shall accept and investigate all complete complaints for which it has jurisdiction. All complete complaints must be filed within 180 days of the alleged act of discrimination. The agency may extend this time period for good cause.

(e) If the agency receives a complaint over which it does not have jurisdiction, it shall promptly notify the complainant and shall make reasonable efforts to refer the complaint to the appropriate government entity.

(f) The agency shall notify the Architectural and Transportation Barriers Compliance Board upon receipt of any complaint alleging that a building or facility that is subject to the Architectural Barriers Act of 1968, as amended (42 U.S.C. 4151-4157), or section 502 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 792), is not readily accessible to and usable by handicapped persons.

(g) Within 180 days of the receipt of a complete complaint for which it has jurisdiction, the agency shall notify the complainant of the results of the investigation in a letter containing—

(1) Findings of fact and conclusions of law;

(2) A description of a remedy for each violation found;

(3) A notice of the right to appeal.

(h) Appeals of the findings of fact and conclusions of law or remedies must be filed by the complainant within 90 days of receipt from the agency of the letter required by §550.170(g). The agency may extend this time for good cause.

(i) Timely appeals shall be accepted and processed by the head of the agency.

(j) The head of the agency shall notify the complainant of the results of the appeal within 60 days of the receipt of the request. If the head of the agency determines that additional information is needed from the complainant,
§§ 550.171-550.999

PART 550—IMPLEMENTATION OF THE GOVERNMENT IN THE SUNSHINE ACT

Sec.
550.1 Purpose and scope.
550.2 Definitions.
550.3 Open meetings.
550.4 Notice of meetings.
550.5 Closed meetings.
550.6 Procedures for closing meetings.
550.7 Recordkeeping requirements.
550.8 Public availability of records.

A U T H O R I T Y : 5 U.S.C. 552b(g).

S O U R C E : 50 FR 2571, Jan. 17, 1985, unless otherwise noted.

§ 550.1 Purpose and scope.

This part contains the regulations of the Marine Mammal Commission implementing the Government in the Sunshine Act (5 U.S.C. 552b). Consistent with the Act, it is the policy of the Marine Mammal Commission that the public is entitled to the fullest practicable information regarding its decision making processes. The provisions of this part set forth the basic responsibilities of the Commission with regard to this policy and offer guidance to members of the public who wish to exercise the rights established by the Act. These regulations also fulfill the requirement of 5 U.S.C. 552b(g) that each agency subject to the Act promulgate regulations to implement the open meeting requirements of subsections (b) through (f) of section 552b.
Public participation means the presentation or discussion of information, raising of questions, or other manner of involvement in a meeting of the Commission by one or more members of the public in a manner that contributes to the disposition of Commission business.

§ 560.3 Open meetings.  
(a) Except as otherwise provided in this part, every portion of every meeting of the Commission shall be open to public observation.  
(b) Meetings of the Commission, or portions thereof, shall be open to public participation only when an announcement to that effect is issued under § 560.4(b)(4) of this part. Public participation shall be conducted in an orderly, nondisruptive manner and in accordance with such procedures as the chairperson of the meeting may establish. Public participation may be terminated at any time for any reason.  
(c) When holding open meetings, the Commission shall make a diligent effort to provide ample space, sufficient visibility, and adequate acoustics to accommodate the public attendance anticipated for the meeting.  
(d) Members of the public may record open meetings of the Commission by means of any mechanical or electronic device, unless the chairperson of the meeting determines that such recording would disrupt the orderly conduct of the meeting.

§ 560.4 Notice of meetings.  
(a) Except as otherwise provided in this section, the Commission shall make a public announcement at least 7 days prior to a meeting.  
(b) The public announcement shall include:  
(1) The time and place of the meeting;  
(2) The subject matter of the meeting;  
(3) Whether the meeting is to be open, closed, or portions thereof closed;  
(4) Whether public participation will be allowed; and  
(5) The name and telephone number of the person who will respond to requests for information about the meeting.  
(c) The public announcement requirement shall be implemented by:  
(1) Submitting the announcement for publication in the Federal Register;  
(2) Distributing the announcement to affected governmental entities;  
(3) Mailing the announcement to persons and organizations known to have an interest in the subject matter of the meeting; and  
(4) Other means that the Executive Director deems appropriate to inform interested parties.  
(d) A meeting may be held with less than 7 days notice if a majority of the members of the Commission determine by recorded vote that the business of the Commission so requires. The Commission shall make a public announcement to this effect at the earliest practicable time. The announcement shall include the information required by paragraph (b) of this section and shall be issued in accordance with those procedures set forth in paragraph (c) of this section that are practicable given the available period of time.  
(e) The subject matter of an announced meeting, or the determination of the Commission to open or close a meeting or portions thereof to public observation, may be changed if a majority of the members of the Commission determine by recorded vote that Commission business so requires and that no earlier announcement of the change was possible. The Commission shall make a public announcement of the changes made and the vote of each member on each change at the earliest practicable time. The announcement shall be issued in accordance with those procedures set forth in paragraph (c) of this section that are practicable given the available period of time.  
(f) The time or place of an announced meeting may be changed only if a public announcement of the change is made at the earliest practicable time. The announcement shall be issued in accordance with those procedures set forth in paragraph (c) of this section that are practicable given the available period of time.

§ 560.5 Closed meetings.  
(a) A meeting or portions thereof may be closed, and information pertaining to such meeting or portions
§ 560.6 Procedures for closing meetings.

(a) A meeting or portions thereof may be closed and information pertaining to such meeting or portions thereof may be withheld under §560.5 of this part only when a majority of the members of the Commission vote to take such action.

(b) Before a meeting or portions thereof may be closed to public observation, the Commission shall determine, notwithstanding the exemptions set forth in paragraph (a) of this section, whether or not the public interest requires that the meeting or portions thereof be open. The Commission may open a meeting or portions thereof that could be closed under paragraph (a) of this section if the Commission finds it to be in the public interest to do so.
(b) A separate vote of the members of the Commission shall be taken with respect to each meeting or portion thereof proposed to be closed and with respect to information which is proposed to be withheld. A single vote may be taken with respect to a series of meetings or portions thereof which are proposed to be closed, so long as each meeting or portion thereof in such series involves the same particular matter and is scheduled to be held no more than thirty days after the initial meeting in such series. The vote of each participating Commission member shall be recorded, and no proxies shall be allowed.

(c) A person whose interests may be directly affected by a portion of a meeting may request in writing that the Commission close that portion of the meeting for any of the reasons referred to in §560.5(a) (5), (6) or (7) of this part. Upon the request of a Commissioner, a recorded vote shall be taken whether to close such meeting or a portion thereof.

(d) Before the Commission may hold a meeting that is closed, in whole or part, a certification shall be obtained from the General Counsel that, in his or her opinion, the meeting may properly be closed. The certification shall be in writing and shall state each applicable exemptive provision from §560.5(a) of this part.

(e) Within one day of a vote taken pursuant to this section, the Commission shall make publicly available a written copy of such vote reflecting the vote of each Commissioner.

(f) In the case of the closure of a meeting or portions thereof, the Commission shall make publicly available a written copy of such vote reflecting the vote of each Commissioner.

§ 560.7 Recordkeeping requirements.

(a) Except as otherwise provided in this section, the Commission shall maintain either a complete transcript or electronic recording of the proceedings of each meeting, whether opened or closed.

(b) In the case of either a meeting or portions of a meeting closed to the public pursuant to §560.5(a) (8) or (10) of this part, the Commission shall maintain a complete transcript, an electronic recording, or a set of minutes of the proceedings. If minutes are maintained, they shall fully and clearly describe all matters discussed and shall provide a full and accurate summary of any actions taken and the reasons for which such actions were taken, including a description of the views expressed on any item and a record reflecting the vote of each Commissioner. All documents considered in connection with any action shall be identified in the minutes.

(c) The transcript, electronic recording, or copy of the minutes shall disclose the identity of each speaker.

(d) The Commission shall maintain a complete verbatim copy of the transcript, a complete electronic recording, or a complete copy of the minutes of the proceedings of each meeting for at least two years, or for one year after the conclusion of any Commission proceeding with respect to which the meeting was held, whichever occurs later.

§ 560.8 Public availability of records.

(a) The Commission shall make available to the public the transcript, electronic recording, or minutes of a meeting, except for items of discussion or testimony that relate to matters the Commission has determined to contain information which may be withheld under §560.5 of this part.

(b) The transcript, electronic recordings or minutes of a meeting shall be made available for public review as soon as practicable after each meeting at the Marine Mammal Commission, 1625 I Street NW., Washington, DC 20006.

(c) Copies of the transcript, a transcription of the electronic recording, or the minutes of a meeting shall be furnished at cost to any person upon written request. Written requests should be addressed to the Administrative Officer, Marine Mammal Commission, 1625 I Street NW., Washington, DC 20006.
FINDING AIDS

A list of CFR titles, subtitles, chapters, subchapters and parts and an alphabetical list of agencies publishing in the CFR are included in the CFR Index and Finding Aids volume to the Code of Federal Regulations which is published separately and revised annually.

List of CFR Sections Affected

All changes in this volume of the Code of Federal Regulations which were made by documents published in the Federal Register since January 1, 1986, are enumerated in the following list. Entries indicate the nature of the changes effected. Page numbers refer to Federal Register pages. The user should consult the entries for chapters and parts as well as sections for revisions.

For the period before January 1, 1986, see the “List of CFR Sections Affected, 1973-1985” published in four separate volumes.
