To cite the regulations in this volume use title, part and section number. Thus, 7 CFR 900.1 refers to title 7, part 900, section 1.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16 as of January 1
- Title 17 through Title 27 as of April 1
- Title 28 through Title 41 as of July 1
- Title 42 through Title 50 as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, January 1, 1999), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96–511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

**OBSOLETE PROVISIONS**

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 1986, consult either the List of CFR Sections Affected, 1949–1963, 1964–1972, or 1973–1985, published in seven separate volumes. For the period beginning January 1, 1986, a “List of CFR Sections Affected” is published at the end of each CFR volume.

**INCORPORATION BY REFERENCE**

What is incorporation by reference? Incorporation by reference was established by statute and allows Federal agencies to meet the requirement to publish regulations in the Federal Register by referring to materials already published elsewhere. For an incorporation to be valid, the Director of the Federal Register must approve it. The legal effect of incorporation by reference is that the material is treated as if it were published in full in the Federal Register (5 U.S.C. 552(a)). This material, like any other properly issued regulation, has the force of law.

What is a proper incorporation by reference? The Director of the Federal Register will approve an incorporation by reference only when the requirements of 1 CFR part 51 are met. Some of the elements on which approval is based are:

(a) The incorporation will substantially reduce the volume of material published in the Federal Register.

(b) The matter incorporated is in fact available to the extent necessary to afford fairness and uniformity in the administrative process.

(c) The incorporating document is drafted and submitted for publication in accordance with 1 CFR part 51.

Properly approved incorporations by reference in this volume are listed in the Finding Aids at the end of this volume.

What if the material incorporated by reference cannot be found? If you have any problem locating or obtaining a copy of material listed in the Finding Aids of this volume as an approved incorporation by reference, please contact the agency that issued the regulation containing that incorporation. If, after contacting the agency, you find the material is not available, please notify the Director of the Federal Register, National Archives and Records Administration, Washington DC 20408, or call (202) 523–4534.

**CFR INDEXES AND TABULAR GUIDES**

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules (Table I), and Acts Requiring Publication in the Federal Register (Table II). A list of CFR titles, chapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of “Title 3—The President” is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.
A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

(1) The term hearing clerk means the hearing clerk, United States Department of Agriculture, Washington, DC.

§ 900.3 Proposals.

(a) A marketing agreement or a marketing order may be proposed by the Secretary or by any other person. If any person other than the Secretary proposes a marketing agreement or marketing order, he shall file with the Administrator a written application, together with at least four copies of the proposal, requesting the Secretary to hold a hearing upon the proposal. Upon receipt of such proposal, the Administrator shall cause such investigation to be made and such consideration thereof to be given as, in his opinion, are warranted. If the investigation and consideration lead the Administrator to conclude that the proposed marketing agreement or marketing order will not tend to effectuate the declared policy of the act, or that for other proper reasons a hearing should not be held on the proposal, he shall deny the application, and promptly notify the applicant of such denial, which notice shall be accompanied by a brief statement of the grounds for the denial.

(b) If the investigation and consideration lead the Administrator to conclude that the proposed marketing agreement or marketing order will tend to effectuate the declared policy of the act, or that for other proper reasons a hearing should not be held on the proposal, he shall deny the application, and promptly notify the applicant of such denial, which notice shall be accompanied by a brief statement of the grounds for the denial.

(b) Giving notice of hearing and supplemental publicity. (1) The Administrator shall give or cause to be given notice of hearing in the following manner:

(i) By publication of the notice of hearing in the FEDERAL REGISTER;

(ii) By mailing a true copy of the notice of hearing to each of the persons known to the Administrator, to be interested therein;

(iii) By issuing a press release containing the complete text or a summary of the contents of the notice of hearing and making the same available to such newspapers in the area proposed to be subjected to regulation as reasonably will tend to bring the notice to the attention of the persons interested therein;

(iv) By forwarding copies of the notice of hearing addressed to the governors of such of the several States of the United States and to executive heads of such of the Territories and possessions of the United States as the Administrator, having due regard for the subject matter of the proposal and the public interest, shall determine, should be notified.

(2) Legal notice of the hearing shall be deemed to be given if notice is given in the manner provided in paragraph (b)(1)(i) of this section; and failure to give notice in the manner provided in
paragraph (b)(i)(ii), (iii), and (iv) of this section shall not affect the legality of the notice.

(c) Record of notice and supplemental publicity. There shall be filed with the hearing clerk or submitted to the judge at the hearing an affidavit or certificate of the person giving the notice provided in paragraph (b)(i)(iii) and (iv) of this section. In regard to the provisions relating to mailing in paragraph (b)(i)(ii) of this section, a determination by the Administrator that such provisions have been complied with shall be filed with the hearing clerk or submitted to the judge at the hearing. In the alternative, if notice is not given in the manner provided in paragraph (b)(i)(ii), (iii), and (iv) of this section there shall be filed with the hearing clerk or submitted to the judge at the hearing a determination by the Administrator that such notice is impracticable, unnecessary, or contrary to the public interest with a brief statement of the reasons for such determination. Determinations by the Administrator as herein provided shall be final.

§ 900.5 Docket number.

Each proceeding, immediately following its institution, shall be assigned a docket number by the hearing clerk and thereafter the proceeding may be referred to by such number.

§ 900.6 Judges.

(a) Assignment. No judge who has any pecuniary interest in the outcome of a proceeding shall serve as judge in such proceeding.

(b) Powers of judges. Subject to review by the Secretary, as provided elsewhere in this subpart, the judge, in any proceeding, shall have power to:

(1) Rule upon motions and requests;
(2) Change the time and place of hearing, and adjourn the hearing from time to time or from place to place;
(3) Administer oaths and affirmations and take affidavits;
(4) Examine and cross-examine witnesses and receive evidence;
(5) Admit or exclude evidence;
(6) Hear oral argument on facts or law;
(7) Do all acts and take all measures necessary for the maintenance of order at the hearing and the efficient conduct of the proceeding.

(c) Who may act in absence of judge. In case of the absence of the judge or his inability to act, the powers and duties to be performed by him under this part in connection with a proceeding may, without abatement of the proceeding unless otherwise ordered by the Secretary, be assigned to any other judge.

(d) Disqualification of judge. The judge may at any time withdraw as judge in a proceeding if he deems himself to be disqualified. Upon the filing by an interested person in good faith of a timely and sufficient affidavit of personal bias or disqualification of a judge, the Secretary shall determine the matter as a part of the record and decision in the proceeding, after making such investigation or holding such hearings, or both, as he may deem appropriate in the circumstances.

§ 900.7 Motions and requests.

(a) General. All motions and requests shall be filed with the hearing clerk, except that those made during the course of the hearing may be filed with the judge or may be stated orally and made a part of the transcript. Except as provided in §900.15(b) such motions and requests shall be addressed to, and ruled on by, the presiding officer if made prior to his certification of the transcript pursuant to §900.10 or by the Secretary if made thereafter.

(b) Certification to Secretary. The judge may in his discretion submit or certify to the Secretary for decision any motion, request, objection, or other question addressed to the judge.

§ 900.8 Conduct of the hearing.

(a) Time and place. The hearing shall be held at the time and place fixed in the notice of hearing, unless the judge shall have changed the time or place, in which event the judge shall file with the hearing clerk a notice of such change, which notice shall be given in the same manner as provided in §900.4 (relating to the giving of notice of the hearing): Provided, That, if the change in time or place of hearing is made less than 5 days prior to the date previously fixed for the hearing, the judge, either in addition to or in lieu of causing the notice of the change to be given, shall
(b) **Appearances—(1) Right to appear.** At the hearing, any interested person shall be given an opportunity to appear, either in person or through his authorized counsel or representative, and to be heard with respect to matters relevant and material to the proceeding. Any interested person who desires to be heard in person at any hearing under these rules shall, before proceeding to testify, state his name, address, and occupation. If any such person is appearing through a counsel or representative, such person or such counsel or representative shall, before proceeding to testify or otherwise to participate in the hearing, state for the record the authority to act as such counsel or representative, and the names and addresses and occupations of such person and such counsel or representative. Any such person or such counsel or representative shall give such other information respecting his appearance as the judge may request.

(2) **Debarment of counsel or representative.** Wherever, while a proceeding is pending before him, the judge finds that a person, acting as counsel or representative for any person participating in the proceeding, is guilty of unethical or unprofessional conduct, the judge may order that such person be precluded from further acting as counsel or representative in such proceeding. An appeal to the Secretary may be taken from any such order, but the proceeding shall not be delayed or suspended pending disposition of the appeal: Provided, That the judge may suspend the proceeding for a reasonable time for the purpose of enabling the client to obtain other counsel or other representative. In case the judge has ordered that a person be precluded from further acting as counsel or representative in the proceeding, the presiding officer, within a reasonable time thereafter shall submit to the Secretary a report of the facts and circumstances surrounding such order and shall recommend what action the Secretary should take respecting the appearance of such person as counsel or representative in other proceedings before the Secretary. Thereafter the Secretary may, after notice and an opportunity for hearing, issue such order, respecting the appearance of such person as counsel or representative in proceedings before the Secretary, as the Secretary finds to be appropriate.

(3) **Failure to appear.** If any interested person fails to appear at the hearing, he shall be deemed to have waived the right to be heard in the proceeding.

(c) **Order of procedure.** (1) The judge shall, at the opening of the hearing prior to the taking of testimony, have noted as part of the record the notice of hearing as filed with the Office of the Federal Register and the affidavit or certificate of the giving of notice or the determination provided for in §900.4(c).

(2) Evidence shall then be received with respect to the matters specified in the notice of the hearing in such order as the judge shall announce.

(d) **Evidence—(1) In general.** The hearing shall be publicly conducted, and the testimony given at the hearing shall be reported verbatim.

(i) Every witness shall, before proceeding to testify, be sworn or make affirmation. Cross-examination shall be permitted to the extent required for a full and true disclosure of the facts.

(ii) When necessary, in order to prevent undue prolongation of the hearing, the judge may limit the number of times any witness may testify to the same matter or the amount of corroborative or cumulative evidence.

(iii) The judge shall, insofar as practicable, exclude evidence which is immaterial, irrelevant, or unduly repetitious, or which is not of the sort upon which responsible persons are accustomed to rely.

(2) **Objections.** If a party objects to the admission or rejection of any evidence or to any other ruling of the judge during the hearing, he shall state briefly the grounds of such objection, whereupon an automatic exception will follow if the objection is overruled by the judge. The transcript shall not include argument or debate thereon except as ordered by the judge. The ruling of the judge on any objection shall be a part of the transcript. Only objections made before the judge may subsequently be relied upon in the proceeding.
§ 900.9 Oral and written arguments.

(a) Oral argument before judge. Oral argument before the judge shall be in the discretion of the judge. Such argument, when permitted, may be limited by the judge to any extent that he finds necessary for the expeditious disposition of the proceeding and shall be reduced to writing and made part of the transcript.

(b) Briefs, proposed findings and conclusions. The judge shall announce at the hearing a reasonable period of time within which interested persons may file with the hearing clerk proposed findings and conclusions, and written arguments or briefs, based upon the evidence received at the hearing, citing, where practicable, the page or pages of the transcript of the testimony where such evidence appears. Factual material other than that adduced at the hearing or subject to official notice shall not be alluded to therein, and, in any case, shall not be considered in the formulation of the marketing agreement or marketing
order. If the person filing a brief desires the Secretary to consider any objection made by such person to a ruling of the judge, as provided in §900.8(d), he shall include in the brief a concise statement concerning each such objection, referring where practicable, to the pertinent pages of the transcript.

§ 900.10 Certification of the transcript.

The judge shall notify the hearing clerk of the close of a hearing as soon as possible thereafter and of the time for filing written arguments, briefs, proposed findings and proposed conclusions, and shall furnish the hearing clerk with such other information as may be necessary. As soon as possible after the hearing, the judge shall transmit to the hearing clerk an original and three copies of the transcript of the testimony and the original and all copies of the exhibits not already on file in the office of the hearing clerk. He shall attach to the original transcript of testimony his certificate stating that, to the best of his knowledge and belief, the transcript is a true transcript of the testimony given at the hearing except in such particulars as he shall specify; and that the exhibits transmitted are all the exhibits as introduced at the hearing with such exceptions as he shall specify. A copy of such certificate shall be attached to each of the copies of the transcript of testimony. In accordance with such certificate the hearing clerk shall note upon the official record copy, and cause to be noted on other copies, of the transcript each correction detailed therein by adding or crossing out (but without obscuring the text as originally transcribed) at the appropriate place any words necessary to make the same conform to the correct meaning, as certified by the judge. The hearing clerk shall obtain and file certifications to the effect that such corrections have been effectuated in copies other than the official record copy.

§ 900.11 Copies of the transcript.

(a) During the period in which the proceeding has an active status in the Department, a copy of the transcript and exhibits shall be kept on file in the office of the hearing clerk, where it shall be available for examination during official hours of business. Thereafter said transcript and exhibits shall be made available by the hearing clerk for examination during official hours of business after prior request and reasonable notice to the hearing clerk.

(b) If a personal copy of the transcript is desired, such copy may be obtained upon written application filed with the reporter and upon payment of fees at the rate (if any) provided in the contract between the reporter and the Secretary.

§ 900.12 Administrator’s recommended decision.

(a) Preparation. As soon as practicable following the termination of the period allowed for the filing of written arguments or briefs and proposed findings and conclusions the Administrator shall file with the hearing clerk a recommended decision.

(b) Contents. The Administrator’s recommended decision shall include: (1) A preliminary statement containing a description of the history of the proceedings, a brief explanation of the material issues of fact, law, or discretion presented on the record, and proposed findings and conclusions with respect to such issues as well as the reasons or basis therefor; (2) a ruling upon each proposed finding or conclusion submitted by interested persons, and (3) an appropriate proposed marketing agreement or marketing order effectuating his recommendations.

(c) Exceptions to recommended decision. Immediately following the filing of his recommended decision, the Administrator shall give notice thereof, and opportunity to file exceptions thereto by publication in the FEDERAL REGISTER. Within a period of time specified in such notice any interested person may file with the hearing clerk exceptions to the Administrator’s proposed marketing agreement or marketing order, or both, as the case may be, and a brief in support of such exceptions. Such exceptions shall be in writing, shall refer, where practicable, to the related pages of the transcript and may suggest appropriate changes in the proposed marketing agreement or marketing order.

(d) Omission of recommended decision. The procedure provided in this section may be omitted only if the Secretary
finds on the basis of the record that due and timely execution of his functions imperatively and unavoidably requires such omission.

§900.13 Submission to Secretary.
Upon the expiration of the period allowed for filing exceptions or upon request of the Secretary, the hearing clerk shall transmit to the Secretary the record of the proceeding. Such record shall include: All motions and requests filed with the hearing clerk and rulings thereon; the certified transcript; any proposed findings or conclusions or written arguments or briefs that may have been filed; the Administrator's recommended decision, if any, and such exceptions as may have been filed.

§900.13a Decision by Secretary.
After due consideration of the record, the Secretary shall render a decision. Such decision shall become a part of the record and shall include: (a) A statement of his findings and conclusions, as well as the reasons or basis thereof, upon all the material issues of fact, law or discretion presented on the record, (b) a ruling upon each proposed finding and proposed conclusion not previously ruled upon in the record, (c) a ruling upon each exception filed by interested persons and (d) either (1) a denial of the proposal to issue a marketing agreement or marketing order or (2) a marketing agreement and, if the findings upon the record so warrant, a marketing order, the provisions of which shall be set forth directly or by reference, regulating the handling of the commodity or product in the same manner and to the same extent as such marketing agreement, which order shall be complete except for its effective date and any determinations to be made under §900.14(b) or §900.14(c): Provided, That such marketing order shall not become effective less than 30 days after its publication in the FEDERAL REGISTER, unless the Secretary, upon good cause found and published with the agreement, fixes an earlier effective date therefor: Provided, That no marketing agreement shall become effective as to any person signatory thereto before either (1) it has been filed with the Office of the Federal Register, or (2) such person has received actual notice that the Secretary has executed the agreement and the effective date of the marketing agreement.

§900.14 Execution and issuance of marketing agreements and marketing orders.
(a) Execution and issuance of marketing agreement. If the Secretary has approved a marketing agreement, as provided in §900.13a, the Administrator shall cause copies thereof to be distributed for execution by the handlers eligible to become parties thereto. If and when such number of the handlers as the Secretary shall deem sufficient shall have executed the agreement, the Secretary shall execute the agreement. After execution of a marketing agreement, such agreement shall be filed with the hearing clerk, and notice thereof, together with notice of the effective date, shall be given by publication in the FEDERAL REGISTER. The marketing agreement shall not become effective less than 30 days after its publication in the FEDERAL REGISTER, unless the Secretary, upon good cause found and published with the agreement, fixes an earlier effective date therefor.

(b) Issuance of marketing order with marketing agreement. Whenever, as provided in paragraph (a) of this section, the Secretary executes a marketing agreement, and handlers also have executed the same as provided in section 8c(8) of the Act, he shall, if he finds that it will tend to effectuate the purposes of the Act, issue and make effective the marketing order, if any, which was filed as a part of his decision pursuant to §900.13a: Provided, That the issuance of such order shall have been approved or favored by producers as required by section 8c(8) of the act.

(c) Issuance of marketing order without marketing agreement. If, despite the failure or refusal of handlers to sign the marketing agreement, as provided in section 8c(8) of the Act, the Secretary makes the determinations required

under section 8c(9) of the Act, the Secretary shall issue and make effective the marketing order, if any, which was filed as a part of his decision pursuant to §900.13a.

(d) Effective date of marketing order. No marketing order shall become effective less than 30 days after its publication in the Federal Register, unless the Secretary, upon good cause found and published with the order, fixes an earlier effective date therefor: Provided, That no marketing order shall become effective as to any person sought to be charged thereunder before either (1) it has been filed with the Office of the Federal Register, or (2) such person has received actual notice of the issuance and terms of the marketing order.

(e) Notice of issuance. After issuance of a marketing order, such order shall be filed with the hearing clerk, and notice thereof, together with notice of the effective date, shall be given by publication in the Federal Register. (7 U.S.C. 610(c).)

§ 900.16 Ex parte communications.

(a) At no stage of the proceeding following the issuance of a notice of hearing and prior to the issuance of the Secretary’s decision therein shall an employee of the Department who is or may reasonably be expected to be involved in the decisional process of the proceeding discuss ex parte the merits of the proceeding with any person having an interest in the proceeding or with any representative of such person: Provided, That procedural matters and status reports shall not be included within this limitation; and Provided further, That an employee of the Department who is or may reasonably be expected to be involved in the decisional process of the proceeding may discuss the merits of the proceeding with such a person if all parties known to be interested in the proceeding have been given notice and an opportunity to participate. A memorandum of any such discussion shall be included in the record of the proceeding.

(b) No person interested in the proceeding shall make or knowingly cause to be made to an employee of the Department who is or may reasonably be expected to be involved in the decisional process of the proceeding an ex parte communication relevant to

§ 900.15 Filing; extensions of time; effective date of filing; and computation of time.

(a) Filing, number of copies. Except as is otherwise provided otherwise in this subpart, all documents or papers required or authorized by the foregoing provisions of this subpart to be filed shall be filed in quadruplicate. Any document or paper, so required or authorized to be filed with the hearing clerk, shall, during the course of an oral hearing, be filed with the presiding officer. The provisions of this subpart concerning filing with the hearing clerk of hearing notices, recommended and final decisions, marketing agreements and orders, and all documents described in §900.17 shall be met by filing a true copy thereof with the hearing clerk.

(b) Extensions of time. The time for the filing of any document or paper required or authorized by the foregoing provisions of this subpart to be filed may be extended by the judge before the record is transmitted to the Secretary, or by the Secretary after the record is transmitted to the Secretary upon request filed, and if, in the judgment of the judge, Administrator, or the Secretary, as the case may be, there is good reason for the extension. All rulings made pursuant to this paragraph shall be filed with the hearing clerk.

(c) Effective date of filing. Any document or paper required or authorized by the foregoing provisions of this subpart to be filed shall be deemed to be filed when it is postmarked or when it is received by the hearing clerk.

(d) Computation of time. Sundays and Federal holidays shall be included in computing the time allowed for the filing of any document or paper: Provided, That, when such time expires on a Sunday or legal holiday, such period shall be extended to include the next following business day.

(1) All such written communications;

(2) Memoranda stating the substance of all such oral communications; and

(3) All written responses, and memoranda stating the substance of all oral responses thereto.

(d) Upon receipt of a communication knowingly made or knowingly caused to be made by a party in violation of this section, the Department may, to the extent consistent with the interest of justice and the policy of the underlying statute, take whatever steps are deemed necessary to nullify the effect of such communication.

(e) For the purposes of this section, ex parte communication means an oral or written communication not on the public record with respect to which reasonable prior notice to all interested parties is not given, but which shall not include requests for status reports (including requests on procedural matters) on any proceeding.

The Secretary may act in the place and stead of a judge in any proceeding under this subpart. When he so acts the hearing clerk shall transmit the record to the Secretary at the expiration of the period provided for the filing of proposed findings of fact, conclusions and orders, and the Secretary shall thereupon, after due consideration of the record, issue his final decision in the proceeding: Provided, That he may issue a tentative decision in which event the parties shall be afforded an opportunity to file exceptions before the issuance of the final decision.

§ 900.52 Institution of proceeding.

(a) Filing and service of petition. Any handler desiring to complain that any marketing order or any provision of any such order or any obligation imposed in connection therewith is not in accordance with law, shall file with the hearing clerk, in quadruplicate, a petition in writing addressed to the Secretary. Promptly upon receipt of the petition, the hearing clerk shall transmit a true copy thereof to the Administrator and the General Counsel, respectively.

(b) Contents of petition. A petition shall contain:

(1) The correct name, address, and principal place of business of the petitioner. If petitioner is a corporation, such fact shall be stated, together with the name of the State of incorporation, the date of incorporation, and the names, addresses, and respective positions held by its officers; if an unincorporated association, the names and addresses of its officers, and the respective positions held by them; if a partnership, the name and address of each partner;

(2) Reference to the specific terms or provisions of the order, or the interpretation or application thereof, which are complained of;

(3) A full statement of the facts (avoiding a mere repetition of detailed evidence) upon which the petition is based, and which it is desired that the Secretary consider, setting forth clearly and concisely the nature of the petitioner’s business and the manner in which petitioner claims to be affected by the terms or provisions of the order, or the interpretation or application thereof, which are complained of;

(4) A statement of the grounds on which the terms or provisions of the order, or the interpretation or application thereof, which are complained of, are challenged as not in accordance with law;

(5) Prayers for the specific relief which the petitioner desires the Secretary to grant;

(6) An affidavit by the petitioner, or, if the petitioner is not an individual, by an officer of the petitioner having knowledge of the facts stated in the petition, verifying the petition and stating that it is filed in good faith and not for purposes of delay.

(c) Motion to dismiss petition—(1) Filing, contents, and responses thereto. If the Administrator is of the opinion that the petition, or any portion thereof, does not substantially comply, in form or content, with the act or with the requirements of paragraph (b) of this section, or is not filed in good faith, or is filed for purposes of delay, he may, within thirty days after the filing of the petition, file with the Hearing Clerk a motion to dismiss the petition, or any portion thereof, on one
or more of the grounds stated in this paragraph. Such motion shall specify the grounds of objection to the petition and if based, in whole or in part, on an allegation of fact not appearing on the face of the petition, shall be accompanied by appropriate affidavits or documentary evidence substantiating such allegations of fact. The motion may be accompanied by a memorandum of law. Upon receipt of such motion, the Hearing Clerk shall cause a copy thereof to be served upon the petitioner. The Hearing Clerk shall cause a notice stating that all papers to be submitted in opposition to such motion including any memorandum of law, must be filed by the petitioner with the hearing clerk not later than 20 days after the service of such notice upon the petitioner. Upon the expiration of the time specified in such notice, or upon receipt of such papers from the petitioner, the hearing clerk shall transmit all papers which have been filed in connection with the motion to the Judge for his consideration.

(2) **Decision by Administrative Law Judge.** The Judge, after due consideration, shall render a decision upon the motion stating the reasons for his action. Such decision shall be in the form of an order and shall be filed with the hearing clerk who shall cause a copy thereof to be served promptly upon the petitioner. The Judge may, in his discretion, upon the expiration of the time specified in such notice, or upon receipt of such papers from the petitioner, the hearing clerk shall transmit all papers which have been filed in connection with the motion to the Judge for his consideration.

§ 900.52b **Amended pleadings.**

At any time before the close of the hearing the petition or answer may be amended, but the hearing shall, at the request of the adverse party, be adjourned or recessed for such reasonable time as the judge may determine to be necessary to protect the interests of the parties. Amendments subsequent to the first amendment or subsequent to the filing of an answer may be made only with leave of the judge or with the written consent of the adverse party.

§ 900.53 **Withdrawal of petition.**

If, at any time after the petition is filed, the petitioner desires to withdraw the same, he shall file with the hearing clerk (or, if filed during the course of a hearing, with the judge) a written request for permission to withdraw. The judge may, in his discretion, thereupon dismiss the petition without further procedure; **Provided,** That, if the request to withdraw is filed after a hearing has been opened, permission to withdraw shall be granted only in exceptional circumstances.
Agricultural Marketing Service, USDA  § 900.58

§ 900.54 Docket number.

Each proceeding, immediately following its institution, shall be assigned a docket number by the hearing clerk and thereafter the proceeding may be referred to by such number.

§ 900.55 Judges.

(a) Assignment. No judge who has any pecuniary interest in the outcome of the proceeding, or who has participated in any investigation preceding the institution of the proceeding, shall serve as judge in such proceeding.

(b) Conduct. The judge shall conduct the proceeding in a fair and impartial manner and shall not discuss ex parte the merits of the proceeding with any person who is or who has been connected in any manner with the proceeding in an advocative or investigatory capacity.

(c) Powers of judges. Subject to review by the Secretary, as provided elsewhere in this subpart, the judge shall have power to:

(1) Rule upon motions and requests;
(2) Adjourn the hearing from time to time, and change the time and place of hearing;
(3) Administer oaths and affirmations and take affidavits;
(4) Issue subpenas, under the facsimile signature of the Secretary, requiring the attendance and testimony of witnesses and the production of books, records, contracts, papers, and other documentary evidence;
(5) Examine witnesses and receive evidence;
(6) Take or order, under the facsimile signature of the Secretary, the taking of depositions;
(7) Admit or exclude evidence;
(8) Hear oral argument on facts or law;
(9) Consolidate hearings upon two or more petitions pertaining to the same order;
(10) Do all acts and take all measures necessary for the maintenance of order at the hearing and the efficient conduct of the proceeding;

(d) Who may act in absence of judge. In case of the absence of the judge or his inability to act, the powers and duties to be performed by him under these rules of practice in connection with a proceeding may, without abatement of the proceeding unless otherwise ordered by the Secretary, be assigned to any other judge.

(e) Disqualification of judge. The judge may at any time withdraw as judge in a proceeding if he deems himself to be disqualified. Upon the filing by an interested person in good faith of a timely and sufficient affidavit of personal bias or disqualification of a judge, the Secretary shall determine the matter as a part of the record and decision in the proceeding, after making such investigation or holding such hearings, or both, as he may deem appropriate in the circumstances.

§ 900.56 Consolidated hearings.

At the discretion of the judge, hearings upon two or more petitions pertaining to the same order may be consolidated, and the evidence taken at such consolidated hearing may be embodied in a single record.

§ 900.57 Intervention.

Intervention in proceedings subject to this subpart shall not be allowed, except that, in the discretion of the Secretary or the judge, any person (other than the petitioner) showing a substantial interest in the outcome of a proceeding shall be permitted to participate in the oral argument and to file a brief.

§ 900.58 Prehearing conferences.

In any proceeding in which it appears that such procedure will expedite the proceeding, the judge, at any time prior to the commencement of or during the course of the hearing, may request the parties or their counsel to appear at a conference before him to consider (a) the simplification of issues; (b) the possibility of obtaining stipulations of fact and of documents which will avoid unnecessary proof; (c) the limitation of the number of expert or other witnesses; and (d) such other matters as may expedite and aid in the disposition of the proceeding. No transcript of such conference shall be made, but the judge shall prepare and file for the record a written summary of the action taken at the conference, which shall incorporate any written stipulations or agreements made by
§ 900.59 Motions and requests.
(a) General. (1) All motions and requests shall be filed with the hearing clerk, except that those made during the course of an oral hearing may be filed with the judge or may be stated orally and made a part of the transcript.
(2) The judge is authorized to rule upon all motions and requests filed or made prior to the transmittal by the hearing clerk to the Secretary of the record as provided in this subpart. The Secretary shall rule upon all motions and requests filed after that time.
(b) Certification of motions. The submission or certification of any motion, request, objection, or other question to the Secretary, as provided in this subpart, shall be in the discretion of the judge.

§ 900.60 Oral hearings before judge.
(a) Time and place. The judge shall set a time and place for hearing and shall file with the hearing clerk a notice stating the time and place of hearing. If any change in the time or place of hearing becomes necessary, it shall be made by the judge, who, in such event, shall file with the hearing clerk a notice of the change. Such notice shall be served upon the parties, unless it is made during the course of an oral hearing and made a part of the transcript.
(b) Appearances—(1) Representation. In any proceeding under the act, the parties may appear in person or by counsel or other representative. The Department, if represented by counsel, shall be represented by an attorney assigned by the General Counsel of the Department, and such attorney shall present or supervise the presentation of the position of the Department.

(2) Debarment of counsel or representative. Whenever, while a proceeding is pending before him, the judge finds that a person acting as counsel or representative for any party to the proceeding is guilty of unethical or unprofessional conduct, the judge may order that such person be precluded from further acting as counsel or representative in such proceeding. An appeal to the Secretary may be taken from any such order, but the proceeding shall not be delayed or suspended pending disposition of the appeal: Provided, That the judge may suspend the proceeding for a reasonable time for the purpose of enabling the client to obtain other counsel or representative. In case the judge has issued an order precluding a person from further acting as counsel or representative in the proceeding, the judge, within a reasonable time thereafter, shall submit to the Secretary a report of the facts and circumstances surrounding the issuance of the order and shall recommend what action the Secretary should take respecting the appearance of such person as counsel or representative in other proceedings before the Secretary. Thereafter, the Secretary may, after notice and an opportunity for hearing, issue such order respecting the appearance of such person as counsel or representative in proceedings before the Secretary as the Secretary finds to be appropriate.
(3) Failure to appear. If the petitioner, after being duly notified, fails to appear at the hearing, he shall be deemed to have authorized the dismissal of the proceeding, without further procedure, and with or without prejudice as the judge may determine. In the event that the petitioner appears at the hearing and no representative of the Department appears, the judge shall proceed ex parte to hear the evidence of the petitioner. Provided, That failure on the part of such representative of the Department to appear at a hearing shall not be deemed to be waiver of the Department’s right to file suggested findings of fact, conclusions and order; to
be served with a copy of the judge’s initial decision and to appeal to the Secretary with respect thereto.

(c) Order of proceeding. Except as may be determined otherwise by the judge, the petitioner shall proceed first at the hearing.

(d) Evidence—(1) In general. The hearing shall be publicly conducted, and the testimony given at the hearing shall be reported verbatim.

(ii) The testimony of witnesses at a hearing shall be upon oath or affirmation and subject to cross-examination.

(iii) Any witness may, in the discretion of the judge, be examined separately and apart from all other witnesses except those who may be parties to the proceeding.

(i) The judge shall exclude, insofar as practicable, evidence which is immaterial, irrelevant, or unduly repetitious, or which is not of the sort upon which responsible persons are accustomed to rely.

(2) Objections. If a party objects to the admission or rejection of any evidence or to the limitation of the scope of any examination or cross-examination, or any other ruling of the judge, he shall state briefly the grounds of such objection, whereupon an automatic exception will follow which may be pursued in an appeal pursuant to §900.65 by the party adversely affected by the judge’s ruling.

(3) Depositions. The deposition of any witness shall be admitted, in the manner hereinafter provided in and subject to the provisions of §900.61.

(4) Affidavits. Except as is otherwise provided in this subpart, affidavits may be admitted only if the evidence is otherwise admissible and the parties agree (which may be determined by their failure to make timely objections) that affidavits may be used.

(5) Proof and authentication of official records or documents. An official record or document, when admissible in evidence without the production of the person who made or prepared the same. Such record or document shall, in the discretion of the judge, be evidenced by an official publication thereof or by a copy attested by the person having legal custody thereof and accompanied by a certificate that such person has the custody.

(6) Exhibits. All written statements, charts, tabulations, or similar data offered in evidence at the hearing shall, after identification by the proponent and upon a satisfactory showing of the admissibility of the contents thereof, be numbered as exhibits and received in evidence and made a part of the record. Except where the judge finds that the furnishing of copies is impracticable, a copy of each exhibit, in addition to the original, shall be filed with the judge for the use of each other party to the proceeding. The judge shall advise the parties as to the exact number of copies which will be required to be filed and shall make and have noted on the record the proper distribution of the copies. If the testimony of a witness refers to a statute, or to a report, document, or transcript, the judge, after inquiry relating to the identification of such statute, report, document, or transcript, shall determine whether the same shall be produced at the hearing and physically be made a part of the evidence as an exhibit, or whether it shall be incorporated into the evidence by reference. If relevant and material matter offered in evidence is embraced in a report, document, or transcript containing immaterial or irrelevant matter, such immaterial or irrelevant matter shall be excluded and shall be segregated insofar as practicable, subject to the direction of the judge.

(7) Official notice. Official notice will be taken of such matters as are judicially noticed by the courts of the United States and of any other matter of technical, scientific, or commercial fact of established character: Provided, That the parties shall be given adequate notice, at the hearing or by reference in the judge’s report or the tentative order or otherwise, of matters so noticed, and (except where official notice is taken, for the first time in the proceeding, in the final order) shall be given adequate opportunity to show that such facts are erroneously noticed.

(8) Offer of proof. Whenever evidence is excluded from the record, the party offering such evidence may make an offer of proof, which shall be included
in the transcript. The offer of proof shall consist of a brief statement describing the evidence to be offered. If the evidence consists of a brief oral statement or of an exhibit, it shall be inserted into the transcript in toto. In such event, it shall be considered a part of the transcript if the Secretary decides that the judge’s ruling in excluding the evidence was erroneous. The judge shall not allow the insertion of such evidence in toto if the taking of such evidence will consume a considerable length of time at the hearing. In the latter event, if on appeal the Secretary decides that the judge erred in excluding the evidence, and that such error was substantial, the hearing shall be reopened to permit the taking of such evidence.

(e) [Reserved]

(f) Transcript. (1) During the period in which the proceeding has an active status the transcript and exhibits shall be kept on file in the office of the hearing clerk, where it shall be available for examination during official hours of business. Thereafter said transcript and exhibits shall be made available by the hearing clerk for examination during official hours of business after prior request and reasonable notice to the hearing clerk.

(2) If a personal copy of the transcript is desired, such copy may be obtained upon written application filed with the reporter, and upon payment of fees at the rate (if any) provided in the contract between the reporter and the Secretary.

§ 900.61 Depositions.

(a) Procedure in lieu of deposition. Before any party may have testimony taken by deposition, said party shall, if practicable, submit to the other party an affidavit which shall set forth the facts to which the witness would testify, if the deposition should be taken. If, after examination of such affidavit, the other party agrees, or (within 10 days after submission of the affidavit) fails to object, that the affidavit may be used in lieu of the deposition, the judge shall admit the affidavit in evidence and shall not order the deposition to be taken.

(b) Application for taking deposition. Upon the application of a party to the proceeding, the judge may, at any time after the filing of the moving paper, order, under the facsimile signature of the Secretary, the taking of testimony by deposition. The application shall be in writing and shall be filed with the hearing clerk and shall set forth: (1) The name and address of the proposed deponent; (2) the name and address of the person (referred to hereinafter in this section as the judge), qualified under the rules in this part to take depositions, before whom the proposed examination is to be made; (3) the proposed time and place of the examination, which shall be at least 15 days after the date of the mailing of the application; and (4) the reasons why such deposition should be taken.

(c) Judge’s order for taking deposition. If, after the examination of the application, the judge is of the opinion that the deposition should be taken, he shall order its taking. The order shall be filed with the hearing clerk and shall be served upon the parties and shall state: (1) The time and place of the examination (which shall not be less than 10 days after the filing of the order); (2) the name of the judge before whom the examination is to be made; (3) the name of the deponent. The judge and the time and place need not be the same as those suggested in the application.

(d) Qualifications of judge. The deposition shall be taken before the judge, or before a judge authorized by the law of the United States or by the law of the place of the examination to administer oaths, or before a judge authorized by the Secretary to administer oaths.

(e) Procedure on examination. (1) The deponent shall be examined under oath or affirmation and shall be subject to cross-examination. The testimony of the deponent shall be recorded by the judge or by some person under his direction and in his presence. In lieu of oral examination, parties may transmit written interrogatories to the judge prior to the examination and the judge shall propound such interrogatories to the deponent.

(2) The applicant must arrange for the examination of the witness either
by oral examination or by written interrogatories. If it is found by the judge, upon the protest of a party to the proceeding, that such party has his residence and his place of business more than 100 miles from the place of the examination and that it would constitute an undue hardship upon such party to be represented at the examination, the applicant will be required to conduct the examination by means of interrogatories. When the examination is conducted by means of interrogatories, copies of the interrogatories shall be served upon the other parties to the proceeding at least five days prior to the date set for the examination, and the other parties shall be afforded an opportunity to file with the judge cross-interrogatories at any time prior to the time of the examination.

(f) Certification by judge. The judge shall certify on the deposition that the deponent was duly sworn by him and that the deposition is a true record of the deponent’s testimony. He shall then securely seal the deposition, together with two copies thereof, in an envelope and mail the same by registered mail to the hearing clerk.

(2) As soon as practicable after the filing of proposed findings of fact, conclusions and order, or briefs, as the case may be, the judge shall file with the hearing clerk his certificate indicating any corrections to be made in the transcript, and stating that, to the best of his knowledge and belief, the transcript, as corrected, is a true, correct, and complete transcript of the testimony given at the hearing, and that the exhibits are all the exhibits properly a part of the hearing record. The original of such certificate shall be attached to the original transcript and a copy of such certificate shall be served upon each of the parties by the hearing clerk who shall also enter onto the transcript (without obscuring the text) any correction noted in the certification.

(b) Proposed findings of fact, conclusions, and orders. Within 10 days (unless the judge shall have announced at the hearing a shorter or longer period of time) after the transcript has been filed with the hearing clerk, as provided in paragraph (a) of this section, each party may file with the hearing clerk proposed findings of fact, conclusions, and order, based solely upon the evidence of record, and briefs in support thereof.

(c) Administrative Law Judge's Decision. The judge, within a reasonable time after the termination of the period allowed for the filing of proposed findings of fact, conclusions, and orders, and briefs in support thereof, shall prepare upon the basis of the record, and shall file with the hearing clerk, his initial decision, a copy of which shall be served by the hearing clerk, upon each of the parties. Such decision shall become final without further proceedings 35 days after the date of service thereof, unless there is an appeal to the Secretary by a party to the proceeding: Provided, however, That no decision shall be final for the purpose of judicial review except a final decision issued by the Secretary pursuant to an appeal by a party to the proceeding.

§ 900.65 Appeals to Secretary: Transmittal of record.

(a) Filing of appeal. Any party who disagrees with a judge’s decision or any part thereof, may appeal the decision to the Secretary by transmitting an appeal petition to the hearing clerk within 30 days after service of said decision upon said party. Each issue set forth in the appeal, and the arguments thereon, shall be separately numbered; shall be plainly and concisely stated; and shall contain detailed citations of the record, statutes, regulations and authorities being relied upon in support thereof. The appeal petition shall be served upon the other party to the proceeding by the hearing clerk.

The Secretary, in his discretion, may grant, refuse or limit any request for oral argument on appeal.
(2) **Scope of argument.** Argument to be heard on appeal, whether oral or in a written brief, shall be limited to the issues raised by the appeal, except that if the Secretary determines that additional issues should be argued, the parties shall be given reasonable notice of such determination, so as to permit preparation of adequate arguments on all the issues to be argued.

(c) **Response.** Within 20 days after service of an appeal brought by a party to the proceeding, any other party may file a response in support of or in opposition to such appeal.

(d) **Transmittal of record.** Whenever an appeal is filed by a party to the proceeding, the hearing clerk shall transmit to the Secretary the record of the proceeding. (a) **Consideration of appeal.** As soon as practicable after the receipt of the record from the hearing clerk, or, in case oral argument was had, as soon as practicable thereafter, the Secretary, upon the basis of and after due consideration of the record, shall rule on the appeal. If the Secretary decides that no change or modification of the judge’s decision is warranted, he may adopt the Judge’s decision as the final order of the Secretary, preserving any right of the party bringing the appeal to seek judicial review of such decision in the proper forum. At no stage of the proceeding between its institution and the issuance of the order shall the Secretary discuss ex parte the merits of the proceeding with any person who is connected with the proceeding in an advocative or an investigative capacity, or with any representative of such person: Provided, however, That the Secretary may discuss the merits of the proceeding with such a person if all parties to the proceeding, or their representatives, have been given an opportunity to be present. If, notwithstanding the foregoing provisions of this section, a memorandum or other communication from any party, or from any person acting on behalf of any party, which relates to the merits of the proceeding, receives the personal attention of the Secretary (or, if an official other than the Secretary is to issue the order, then of such other official) during the pendency of the proceeding, such memorandum or communication shall be regarded as argument made in the proceeding and shall be filed with the hearing clerk, who shall serve a copy thereof upon the opposite party to file a reply thereto.

(b) **Issuance of final order.** A final order issued by the Secretary shall be filed with the hearing clerk, who shall serve it upon the parties: Provided, That, if the terms of the order differ substantially from those proposed in the decision of the judge, the Secretary shall, if he deems it advisable to do so, direct that a copy of the order be served upon the parties as a tentative order; and, in such event, opportunity shall be given the parties to file exceptions thereto and written arguments or briefs in support of such exceptions. In such case, if exceptions are filed within a period of time (to be fixed by the Secretary but not to exceed 20 days) following the service of the tentative order, the Secretary shall give consideration, to and shall make such changes in the tentative order as he deems to be appropriate; otherwise, the tentative order shall become final, as of the day following the date of expiration of the period fixed for the filing of exceptions.

§ 900.305 Duties of referendum agent.

The referendum agent shall also:

(a) For purposes of mailing, prepare a record of producers which will disclose the name of each such person, his address, the name of the handler who received the producer’s milk during the representative period, and the name of the cooperative association, if any, which claims the right to vote for the producer. Such record may be compiled from readily available sources, including the following:

(1) Records of the Department;
(2) Producer records supplied by handlers;
(3) Health authority records;

(4) Certifications signed by dairy farmers who claim to be producers;

(5) Any other reliable sources of information which may be available to the referendum agent.

(b) Apply, as a guide, the following criteria in preparing a record of producers:

(1) When the order requires approval by an appropriate health authority before a person meets the definition of producer, only those persons having such approval and who otherwise meet the definition may be regarded as producers. When the definition of producer requires the shipment of milk to a handler or a plant as well as health authority approval, only those persons having such approval and whose milk was received by a handler or at a plant may be regarded as producers.

(2) When the order requires shipment to a handler or to a plant, without regard to health authority approval, a person may not be regarded as a producer, except as provided in paragraph (b)(6) of this section, unless his name appears on the handler’s producer records.

(3) In the case of a producer that is other than an individual, the business unit shall be regarded as the producer.

(4) No person may be included in the record more than once although he may operate more than one farm, hold more than one health authority approval, or appear on more than one handler’s producer records.

(5) In the event the health authority records are not available, are inaccurate, or are incomplete, the appearance of the producer’s name on a handler’s records as an approved producer may be regarded as prima facie evidence of health authority approval.

(6) In the event any handler refuses or fails to make his records available to the referendum agent, a certification signed by the producer shall be regarded by the referendum agent as prima facie evidence that such person is eligible to vote.

(c) Verify the information supplied by each cooperative association which wishes to vote on behalf of producers, as follows:

(1) Examine the records of the cooperative association for the purpose of ascertaining whether each producer
claimed by the cooperative association is a member of, stockholder in, or under contract with the cooperative association.

(2) Identify the persons ascertained to be members of, stockholders in, or under contract with a cooperative association which wishes to vote on behalf of its producers with the names of producers which appear on the record compiled pursuant to paragraph (a) of this section.

(3) In determining whether a cooperative association may vote on behalf of a producer the following criteria shall be used:

(i) The cooperative association may vote for each producer who is a member of, stockholder in, or under contract with such cooperative association on the date of the order directing that the referendum be conducted.

(ii) The cooperative association may cast only one ballot for all such producers.

(iii) Whenever more than one cooperative association claims the right to vote on behalf of a producer the following criteria shall be used:

The cooperative association which furnished evidence satisfactory to the referendum agent that such association was in fact marketing the milk of the producer on the date of the referendum order may vote for such producer.

§ 900.306 Notice of the referendum.

(a) The referendum agent shall at least 5 days prior to the final date for balloting:

(1) Mail to each cooperative association which has elected to cast a ballot on behalf of its producers and to each of all other known producers, a notice of the referendum which will include instructions for completing the ballot, a statement as to the time within which the ballot must be mailed to, and received by, the referendum agent, a copy of the final decision, and a ballot containing a description of the terms and conditions of the order.

(2) Give public notice of the referendum:

(i) By furnishing press releases and other information to available media of public information (including but not limited to press, radio, and television facilities) serving the area, announcing the time within which ballots must be completed and mailed to and received by the referendum agent, eligibility requirements, where additional information may be procured, and other pertinent information; and

(ii) By such other means as said agent may deem advisable.

(b) [Reserved]

§ 900.307 Time for voting.

There shall be no voting except within the time specified by the referendum agent as stated in the notice of the referendum.

§ 900.308 Tabulation of ballots.

(a) General. The referendum agent shall verify the information supplied with each ballot. If he ascertains that the person who cast the ballot was eligible to do so, that the ballot is complete and was mailed and received within the prescribed time, the ballot shall be eligible to be counted. If the referendum agent ascertains that the person who cast the ballot was not eligible to do so, or if the producer who cast the ballot was a member of, stockholder in, or under contract with a cooperative association which cast a valid ballot, or if the ballot is not completed or cast in accordance with instructions, or if the ballot was not mailed to or received by the referendum agent within the prescribed time, the ballot shall be marked “disqualified” with a notation on the ballot as to the reason for the disqualification. The total number of ballots cast, including the disqualified ballots, shall be ascertained. The number of eligible ballots cast approving and the number of eligible ballots cast disapproving the issuance of the order shall also be ascertained. The ballots marked “disqualified” shall not be considered as approving or disapproving the issuance of the order, and the persons who cast such ballots shall not be regarded as participating in the referendum.

(b) Individual-handler pool provisions. Whenever separate approval of the pooling provisions of the order is required by section 608c(5)(B)(i) of the act, any ballot which approves the pooling provisions of the order and disapproves the pooling provisions, or approves the pooling provisions and disapproves the
issuance of the order, shall be disqualified; and the referendum agent shall mark the ballot accordingly.

(c) Record of results of the referendum. The referendum agent shall notify the Administrator of the number of eligible ballots cast, the count of the votes, the number of disqualified ballots and the number of producers who were eligible to cast ballots. The referendum agent shall seal the ballots, including those marked “disqualified”, the list of eligible voters and tabulation of ballots, and shall transmit to the Administrator a complete detailed report of all action taken in connection with the referendum together with all the ballots cast and all other information furnished to or compiled by the referendum agent.

(d) Announcement of the results of the referendum. Announcement of the results of the referendum will be made only at the direction of the Secretary. The referendum agent, or others who assist in the referendum, shall not disclose the results of the referendum or the total number of ballots cast.

§ 900.309 Confidential information. The ballots cast, the identity of any person who voted, or the manner in which any person voted and all information furnished to, compiled by, or in the possession of the referendum agent, shall be regarded as confidential.

§ 900.310 Supplementary instructions. The Administrator is authorized to issue instructions and to prescribe forms and ballots, not inconsistent with the provisions of this subpart, to govern the conduct of referenda by referendum agents.

§ 900.311 Submittals or requests. Interested persons may secure information or make submittals or requests to the Administrator with respect to the provisions contained in this subpart.

Subpart—Procedure for Determining the Qualification of Cooperative Milk Marketing Associations

Source: 32 FR 9821, July 6, 1967, unless otherwise noted.

§ 900.350 General statement. Cooperative marketing associations apply for qualification by the Secretary under the Federal milk order program for certain privileges and exemptions. These privileges and exemptions are expressed in the Agricultural Marketing Agreement Act of 1937 (50 Stat. 246) as amended, and the milk marketing orders issued pursuant to its provisions.

§ 900.351 Applications for qualification. Any association of producers may apply for determinations as to whether it is a qualified cooperative association with authority to represent producers in order referendums; has authorization to collect payment from handlers for members’ milk; and is rendering specified marketing services to producers. Applicant associations should supply information for these determinations, using as a guide Application Form DA–25. The application form may be obtained from the Dairy Division, Agricultural Marketing Service, United States Department of Agriculture, Washington, DC 20250. Determinations required of the Secretary of Agriculture, or the Administrator of the Agricultural Marketing Service, by delegation are made by the Director of the Dairy Division. Once issued they are valid until amended, suspended or terminated.

§ 900.352 Confidential information. The documents and other information submitted by an applicant association and otherwise obtained by investigation, examination of books, documents, papers, records, files and facilities, and in reports filed subsequent to initial determinations of qualification, shall be regarded as confidential and shall be governed by §900.210.

§ 900.353 Qualification standards. Statutory requirements for qualification of cooperative associations are provided in subsections (5) and (12) of section 608c of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). The association
must: (a) Be a cooperative marketing association of producers, qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the “Capper-Volstead Act,” (7 U.S.C. 291, 292); (b) have its entire organization and all of its activities under the control of its members; (c) have full authority in the sale of its members’ milk; and (d) be engaged in making collective sales or marketing of milk or milk products for the producers thereof. Qualification for exemption from deductions for marketing service payments under specific marketing orders and payment for milk of members under specific orders shall be determined in accordance with the terms of the respective marketing orders.

§ 900.354 Inspection and investigation.

The Secretary of Agriculture, or his duly authorized representative, shall have the right, at any time after an application is received, to examine all books, documents, papers, records, files and facilities of the association, to verify any of the information submitted and to procure such other information as may be required to determine whether the association is qualified in accordance with its application.

§ 900.355 Annual reporting.

Determinations of qualification for privileges and exemptions are subject to amendment, termination or suspension if the association does not currently meet the qualification standards. An association found to be qualified pursuant to the Act is required to file an annual report after its annual meeting has been held following the close of its fiscal year. Form DA–24 is used for this purpose. The report form is available at the Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, DC 20250. The association is required to file a copy of its report with the Dairy Division at Washington and with the market administrator of each order under which it operates.

§ 900.356 Listing of qualified associations.

A copy of each determination of qualification is furnished to the respective association. Copies are also filed in the Dairy Division, Agricultural Marketing Service, and with the Hearing Clerk, Office of the Secretary, U.S. Department of Agriculture, Washington, DC 20250, where they are available for public inspection. A list of qualified associations engaged in marketing milk under a particular milk marketing order is maintained at the office of the market administrator of the order.

§ 900.357 Denial of application; suspension or revocation of determination of qualification.

Any cooperative association whose application has been wholly or partially denied, or whose determination of qualification has been wholly or partly revoked or suspended, may petition the Secretary for a review of such action. Such petition shall state facts relevant to the matter for which review is sought. After due notice to such cooperative association, the Director of the Dairy Division, or in his absence the Acting Director, shall hold, in the manner hereinafter specified, an informal hearing.

(a) Notice. Notice shall be given in writing and shall be mailed to the last known address of the association, or of an officer thereof, at least 3 days before the date set for a hearing. Such notice shall contain: A statement of the time and place of the hearing, said place to be as convenient to the association as can reasonably be arranged, and may contain a statement of the reason for calling the hearing and the nature of the questions upon which evidence is desired or upon which argument may be presented.

(b) Parties. Hearings are not to be public and are to be attended only by representatives of the association and of the Government, and such other persons as either the association or the Government desires to have appear for purposes of submitting information or as counsel.

(c) Conduct of hearing. The Director or Acting Director of the Dairy Division, or a person designated by him, shall preside at the hearing. The hearing shall be conducted in such manner as will be most conducive to the proper disposition of the matter. Written statements or briefs may be filed by
the association within the time specified by the presiding officer.

(d) Preliminary report. The presiding officer shall prepare a preliminary report setting forth a recommendation as to what action shall be taken and the basis for such action. A copy of said report shall be served upon the association by mail or in person. The association may file exceptions to said report within 10 days after service thereof.

(e) Final report. After due consideration of all the facts and the exceptions, if any, the Director of the Dairy Division shall issue a final report setting forth the action to be taken and the basis for such action.

§900.401 Definitions.

(h) Producer means any person defined as a producer in the order who: (1) Owns and farms land, resulting in his ownership of the commodity produced thereon; (2) Rents and farms land, resulting in his ownership of all or a portion of the commodity produced thereon; or (3) Owns land which he does not farm and, as rental for such land, obtains the ownership of a portion of the commodity produced thereon. Ownership of, or leasehold interest in, land and the acquisition, in any manner other than as hereinafter set forth, of legal title to the commodity grown thereon shall not be deemed to result
§ 900.402 Voting.

(a) Each person who is a producer, as defined in this subpart, at the time of the referendum and who also was a producer during the representative period, shall be entitled to only one vote in the referendum, except that: (1) In a landlord-tenant relationship, where in each of the parties is a producer, each such producer shall be entitled to one vote in the referendum; and (2) a cooperative association of producers, bona fide engaged in marketing the commodity or product thereof proposed to be regulated, or in rendering services for or advancing the interest of the producers of such commodity or product, may, if it elects to do so, vote, both by number and total volume, for the producers who are members of, stockholders in, or under contract with such association.

(b) Whenever, as required by the act, processors vote on the issuance of an order, each processor who is engaged in canning or freezing within the production area of the commodity covered by the order shall be entitled to vote in the referendum the quantity of such commodity canned or frozen for market during the representative period determined by the Secretary.

(c) Proxy voting is not authorized but an officer or employee of a corporate producer, processor or cooperative association, or an administrator, executor or trustee of a producing estate may cast a ballot on behalf of such producer, processor, estate, or cooperative association. Any individual so voting in a referendum shall certify that he is an officer or employee of the producer, processor, or cooperative association, or an administrator, executor, or trustee of a producing estate, and that he has the authority to take such action. Upon request of the referendum agent, the individual shall submit adequate evidence of such authority.

(d) Each producer, cooperative association of producers, and processor entitled to vote in a referendum shall be entitled to cast one ballot in the referendum. Each producer, cooperative association of producers, and processor casting more than one ballot with conflicting votes shall thereby invalidate all ballots cast by such producer, cooperative association of producers, or processor in such referendum.

§ 900.403 Instructions.

The referendum agent shall conduct the referendum, in the manner herein provided, under supervision of the Administrator. The Administrator may prescribe additional instructions, not inconsistent with the provisions hereof, to govern the procedure to be followed by the referendum agent. Such agent shall:

(d) Give reasonable advance notice of the referendum (1) by utilizing without advertising expense available media of public information (including, but not being limited to, press and radio facilities) serving the production area, announcing the dates, places, or methods of voting, eligibility requirements, and other pertinent information, and (2) by such other means as said agent may deem advisable.

(e) Make available to producers and the aforesaid cooperative associations which indicate to the agent their intentions to vote, and to processors when required, instructions on voting, appropriate ballot and certification forms, and, except in the case of a referendum on the termination or continuance of an order, the text of the proposed order and a summary of its terms and conditions: Provided, That
§ 900.500 General.

(g) If ballots are to be cast at polling places or meetings, determine the necessary number of polling or meeting places, designate them, announce the time of each meeting or the hours during which each polling place will be open, provide the material specified in paragraph (e) of this section, and provide for appropriate custody of ballot forms and delivery to the referendum agent of ballots cast.

(h) At the conclusion of the referendum, canvass the ballots, tabulate the results, and, except as otherwise directed, report the outcome to the Administrator and promptly thereafter submit the following:

(a) Give public notice of the referendum in the manner specified herein;

(b) Preside at a meeting where ballots are to be cast or as poll officer at a polling place;

(c) Distribute ballots and the aforesaid texts to producers (and to processors when required) and receive any ballots which are cast; and

(d) Record the name and address of each person receiving a ballot from, or casting a ballot with, said subagent and inquire into the eligibility of such person to vote in the referendum.

§ 900.405 Ballots.

The referendum agent and his appointees shall accept all ballots cast; but, should they, or any of them, deem that a ballot should be challenged for any reason, said agent or appointee shall endorse above his signature, on said ballot, a statement to the effect that such ballot was challenged, by whom challenged, the reasons therefor, the results of any investigations made with respect thereto, and the disposition thereof. Invalid ballots shall not be counted.

§ 900.406 Referendum report.

Except as otherwise directed, the Administrator shall prepare and submit to the Secretary a report on results of the referendum, the manner in which it was conducted, the extent and kind of public notice given, and other information pertinent to analysis of the referendum and its results.

§ 900.407 Confidential information.

All ballots cast and the contents thereof (whether or not relating to the identity of any person who voted or the manner in which any person voted) and all information furnished to, compiled by, or in possession of, the referendum agent shall be treated as confidential.

§ 905.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred to carry out the functions of the committee under this subpart during each fiscal period. The funds to cover such expenses shall be acquired by the levying of assessments upon handlers as provided in § 905.41.

§ 905.41 Assessments.

(a) Each handler who first handles fruit shall pay to committee, upon demand, such handler’s pro rata share of the expenses which the Secretary finds will be incurred by the committee for the maintenance and functioning, during each fiscal period, of the committee established under this subpart. Each such handler’s share of such expenses shall be that proportion thereof which the total quantity of fruit shipped by such handler as the first handler thereof during the applicable fiscal period is of the total quantity of fruit so shipped by all handlers during the same fiscal period. The Secretary shall fix the rate of assessment per standard packed carton of fruit to be paid by each such handler. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) At any time during or after the fiscal period, the Secretary may increase the rate of assessment so that the sum of money collected pursuant to the provisions of this section shall be adequate to cover the said expenses. Such increase shall be applicable to all fruit shipped during the given fiscal period. In order to provide funds to carry out the functions of the committee established under § 905.19, the committee may borrow money on a short term basis to provide funds for the administration of this part. Any such borrowed money shall only be used to meet the committee’s current financial obligations, and the committee shall repay all such borrowed money by the end of the next fiscal period from assessment income.

(b) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, the committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve do not exceed approximately one-half of one fiscal period’s expenses. Such reserve funds may be used (1) to cover any expenses authorized by this part and (2) to cover necessary expenses of liquidation in the event of termination of this part. If any such excess is not retained in a reserve, each handler entitled to a proportionate refund shall be credited with such refund against the operations of the following fiscal period unless he demands payment of the sum due him, in which case such sum shall be paid to him. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.
§ 905.50 Marketing policy.

(a) Before making any recommendations pursuant to §905.51 for any variety of fruit, the committee shall, with respect to the regulations permitted by §905.52, submit to the Secretary a detailed report setting forth an advisable marketing policy for such variety for the then current shipping season. Such report shall set forth the proportion of the remainder of the total crop of such variety of fruit (determined by the committee to be available for shipment during the remainder of the shipping season of such variety) deemed advisable by the committee to be shipped during such season.

(b) In determining each such marketing policy and advisable proportion, the committee shall give due consideration to the following factors relating to citrus fruit produced in Florida and in other States: (1) The available crop of each variety of citrus fruit in Florida, and in other States, including the grades and sizes thereof, which grades and sizes in Florida shall be determined by the committee pursuant to §905.31; (2) the probable shipments of citrus fruit from other States; (3) the level and trend in consumer income; (4) the prospective supplies of competitive commodities; and (5) other pertinent factors bearing on the marketing of fruit.

(c) In addition to the foregoing, the committees shall set forth a schedule of proposed regulations for the remainder of the shipping season for each variety of fruit for which recommendations to the Secretary pursuant to §905.51 are contemplated and to each producer and handler who files a request therefor. Copies of all such reports shall be maintained in the office of the committee where they shall be available for examination by producers and handlers.

§ 905.51 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate any variety in the manner provided in §905.52, it shall give due consideration to the following factors relating to the citrus fruit produced in Florida and in other States: (1) Market prices, including prices by grades and sizes of the fruit for which regulation is recommended; (2) maturity, condition, and available supply, including the grade and size thereof in the producing areas; (3) other pertinent market information; and (4) the level and trend in consumer income. The committee shall submit to the Secretary its recommendations and supporting information respecting the factors enumerated in this section.

(b) The committee shall give notice of any meeting to consider the recommendation of regulations pursuant to §905.52 by mailing a notice of meeting to each handler who has filed his address with committee for this purpose. The committee shall give the same notice of any such recommendation before the time it is recommended that such regulation become effective.

§ 905.52 Issuance of regulations.

(a) Whenever the Secretary shall find from the recommendations and reports of the committee, or from other available information, that to limit the shipment of any variety would tend to effectuate the declared policy of the act, he shall so limit the shipment of such variety during a specified period or periods. Such regulations may:

(1) Limit the shipments of any grade or size, or both, of any variety, in any manner as may be prescribed, and any such limitation may provide that shipments of any variety grown in Regulation Area II shall be limited to grades...
§ 905.53 Inspection and certification.

(a) Whenever the handling of a variety of a type of fruit is regulated pursuant to §905.52, each handler who handles any variety of such type of fruit shall, prior to the handling of any lot of such variety, cause such lot to be inspected by the Federal-State Inspection Service and certified by it as meeting all applicable requirements of such regulation: Provided, That such inspection and certification shall not be required if the particular lot of fruit previously had been so inspected and certified unless such prior inspection was not performed within such time limitations as may be prescribed pursuant to paragraph (b) of this section. Each handler shall promptly submit, or cause to be submitted, to the committee a copy of each certificate of inspection issued to him covering varieties so handled.

(2) Limit the shipment of any variety by establishing and maintaining, only in terms of grades or sizes, or both, minimum standards of quality and maturity.

(3) Limit the shipment of the total quantity of any variety by prohibiting the shipment thereof: Provided, that no such prohibition shall apply to exports or be effective during any fiscal period with respect to any variety other than for one period not exceeding five days during the week in which Thanksgiving Day occurs, and for not more than two periods not exceeding a total of 14 days during the period December 20 to January 20, both dates inclusive.

(4) Provide that exports of any variety shall be limited to grades and sizes different from the grade and size limitations applicable to shipments of such variety in the 48 contiguous States and the District of Columbia of the United States, and specify condition requirements for such variety; and

(5) Fix the size, capacity, weight, dimensions, marking, or pack of the container or containers which may be used in the shipment of fruit for export: Provided, that such regulation shall not authorize the use of any container which is prohibited for use for fruit under the provisions of Chapter 601 of the Florida Statutes and regulations effective thereunder.

(b) Prior to the beginning of any such regulations, the Secretary shall notify the committee of the regulation issued by him, and the committee shall notify all handlers by mailing a copy thereof to each handler who has filed his address with said committee for this purpose.

(c) Whenever the Secretary finds from the recommendations and reports of the committee, or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of fruit in order to effectuate the declared policy of the act, he shall so modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis, and in like manner, the Secretary may terminate any such modification or suspension.

(d) Whenever any variety is regulated pursuant to paragraph (a)(3) of this section, no such regulation shall be deemed to limit the right of any person to sell, contract to sell, or export such variety but no handler shall otherwise ship any fruit of such variety which was prepared for market during the effective period of such regulation.

(b) With respect to any variety regulated pursuant to §905.52(a)(4), the committee may prescribe, with the approval of the Secretary, such requirements with respect to time of inspection as it may deem necessary to ensure satisfactory condition of the fruit at time of export.

HANDLERS' REPORTS

§ 905.70 Manifest report.

The committee may request information from each handler regarding the variety, grade, and size of each standard packed carton of fruit shipped by him and may require such information to be mailed or delivered to the committee or its duly authorized representative, within 24 hours after such shipment is made, in a manner or by such method as the said committee may prescribe, and upon such forms as may be prepared by it.

[42 FR 59371, Nov. 17, 1977]

§ 905.71 Other information.

Whenever a regulation pursuant to §905.52 restricts the shipment of a portion of a specified grade or size of a variety, each handler shipping such variety during the regulation period shall, with respect to each such shipment, certify to the U.S. Department of Agriculture and the committee the quantity of the partially restricted grade or size, or both, contained in such shipment. Such certification shall accompany the manifest of such shipment.
which the handler furnishes to the Federal-State Inspection Service.

§ 905.146 Special purpose shipments.

(a) A Special Purpose Shipper is one who handles Florida citrus fruit that is certified by a Florida Department of Agriculture and Consumer Services licensed certifying agent as organically grown under Florida law. In addition, the shipper shall certify that shipments will be limited to outlets handling organically grown fruits. Any such shipments shall be subject to a Certificate of Privilege issued by the committee.

(b) To qualify for a Certificate of Privilege, each such shipper must notify the committee prior to the first shipment of certified organically grown Florida citrus fruit in the fiscal period of the shipper’s intent to ship such citrus, submit an application on forms supplied by the committee, and agree to other requirements as set forth in §§905.147 and 905.148 inclusive, with respect to such shipments. [59 FR 26928, May 25, 1994]

§ 905.147 Certificate of privilege.

(a) Application. Application for Certificate of Privilege by a Special Purpose Shipper shall be made on forms furnished by the committee. Each application may contain, but need not be limited to, the name and address of each handler; a list of certified organic citrus fruit growers, including addresses; a list of receivers; the quantity and variety of citrus to be shipped; a certification to the Secretary of Agriculture and to the committee as to the truthfulness of the information shown thereon; and any other appropriate information or documents deemed necessary by the committee or its duly authorized agents for the purposes stated in §905.146.

(b) Approval. The committee or its duly authorized agents shall give prompt consideration to each application for a Certificate of Privilege. Approval of an application based upon a determination as to whether the information contained therein and other information available to the committee supports approval, shall be evidenced by the issuance of a Certificate of Privilege to the applicant. Each certificate shall expire at the end of the fiscal period.

(c) Suspension or Denial of Certificate of Privilege. The committee may investigate the handling of special purpose shipments under Certificates of Privilege to determine whether Special Purpose Shippers are complying with the requirements and regulations applicable to such certificates. Whenever the committee finds that a Special Purpose Shipper or consignee is failing to comply with the requirements and regulations applicable to such certificates, the Certificate of Privilege issued to such Special Purpose Shipper may be suspended or, in the case of an application for the issuance of an initial Certificate of Privilege, may be denied. Such suspension of a certificate shall be for a reasonable period of time as determined by the committee, but in no event shall it extend beyond the end of the current fiscal period. In the case
of the denial of an application for the issuance of an initial certificate, such certificate shall be denied until the applicant comes into compliance with the requirements and regulations applicable to such certificates. Prior to suspending or denying an application for a Certificate of Privilege, the committee shall give the shipper or applicant reasonable advance notice in writing of its intention and the facts and reasons therefore, and afford the shipper or applicant an opportunity, either orally or in writing, to present opposing facts and reasons. The shipper or applicant shall be informed of the committee’s determination in writing and in a timely manner.

§ 905.148 Reports of special purpose shipments under certificates of privilege.

(a) Each handler of citrus shipping under Certificates of Privilege shall supply the committee with reports on each shipment as requested by the committee, on forms supplied by the committee, showing the name and address of the shipper or shippers; name and address of the certified organic Florida citrus fruit grower or growers supplying fruit for such shipment; truck or other conveyance identification; the loading point; destination, consignee; the inspection certificate number; and any other information deemed necessary by the committee. (b) One copy of the report on each shipment shall be forwarded by the shipper to the committee within 10 days after such shipment, and two copies of the report shall accompany each shipment to the receiver. Upon the receipt of each shipment, the receiver shall complete the applicable portion of the form and return one copy to the committee within 10 days and one copy shall be retained by the shipper. Such completion shall contain a certification to the Secretary and the committee that the citrus described shall be distributed in the outlets described. Failure to complete and return such forms will be cause to remove that receiver’s name from the committee’s list of eligible receivers.

§ 905.150 Eligibility requirements for public member and alternate member.

(a) The public member shall be neither a producer nor a handler of Florida citrus fruit and shall have no direct financial interest in the production or marketing of citrus fruit (except as a consumer of agricultural products). (b) The public member should be able to devote sufficient time and express a willingness to attend Committee activities regularly and become familiar with the background and economics of the industry. (c) The public member must be a resident of the production area. (d) The public member should be nominated by the Citrus Administrative Committee and should serve a 1-year term which coincides with the term of office of producer and handler members of the Committee.

§ 905.152 Procedure for determining handlers’ permitted quantities of Robinson, Dancy and similar tangerine varieties when a portion of the 210 size of such varieties is restricted.

(a) For the purposes of this section the prior period specified in §905.52 is hereby established as a average week within the immediately preceding three seasons, together with the current season. When used in the regulation of Dancy tangerines the term season means the twenty weeks beginning with the first full week in October, and the term current season means the elapsed weeks beginning with the first full week in October, and the term current season means the fifteen weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginning with the first full week in September, and the term current season means the elapsed weeks beginni
week that certified shipping records are available for all shippers.

(b) When a size limitation restricts the shipment of a portion of the 210 size Dancy or Robinson tangerines during a particular week as provided in §905.52, the committee shall compute the quantity of the 210 size of such variety that may be shipped by each handler by multiplying the handler’s volume of shipments of such variety in the applicable prior period by the percentage established by regulation for such variety for that week.

(c) The committee shall notify each handler of the quantity of 210 size Dancy or Robinson tangerines such handler may handle during the particular week.

(d) Any handler may transfer any or all of his or her shipping allowance of 210 size Dancy or Robinson tangerines to another handler. Each handler party to such transfer shall promptly notify the committee so the proper adjustment of records may be made. The committee shall confirm all such transfers immediately after completion thereof by memorandum to the handlers involved.

[46 FR 47057, Sept. 24, 1981]

§ 905.153 Procedure for determining handlers’ permitted quantities of red seedless grapefruit when a portion of sizes 48 and 56 of such variety is restricted.

(a) For the purposes of this section, the prior period specified in §905.52 is hereby established as an average week within the immediately preceding five seasons. Each handler’s average week shall be computed by adding the total volume of red seedless grapefruit handled in the immediately preceding five seasons and dividing the total by 165. The average week for handlers with less than five previous seasons of shipments shall be calculated by adding the total volume of shipments for the seasons they did ship red seedless grapefruit, divide by the number of seasons, divide further by 33. New handlers with no record of shipments could ship size 48 and 56 red seedless grapefruit as a percentage of total shipments equal to the percentage applied to other handlers’ average week; once such handlers have recorded shipments, their average week shall be calculated as an average of total shipments for the weeks they have shipped red seedless grapefruit during the current season. When used in the regulation of red seedless grapefruit, the term season means the weeks beginning the third Monday in September and ending the first Sunday in the following May. The term regulation period means the 11 week period beginning the third Monday in September of the current season.

(b) When a size limitation restricts the shipment of a portion of sizes 48 and 56 red seedless grapefruit during a particular week as provided in §905.52, the committee shall compute the quantity of sizes 48 and 56 red seedless grapefruit that may be shipped by each handler by multiplying the handler’s calculated average week shipments of such grapefruit by the percentage established by regulation for red seedless grapefruit for that week. Such set percentage may vary from week to week but shall not be less than 25 percent in any week.

(c) The committee shall notify each handler of the quantity of size 48 and 56 red seedless grapefruit such handler may handle during a particular week.

(d) During any regulation week for which the Secretary has fixed the percentage of sizes 48 and 56 red seedless grapefruit, any person who has received an allotment may handle, in addition to their total allotment available, an amount of size 48 and 56 red seedless grapefruit up to 10 percent greater than their allotment. The quantity of the overshipment shall be deducted from the handler’s allotment for the following week. Overshipments will not be allowed during week 11. If the handler fails to use his or her entire allotment, the under shipment is not carried forward to the following week.

(e) Any handler may transfer or loan any or all of their shipping allotment (excluding the overshipment allowance) of size 48 and 56 red seedless grapefruit to any other handler. Each handler party to such transfer or loan shall promptly notify the committee so the proper adjustment of records may be made. In each case, the committee shall confirm in writing all such transactions, prior to the following week, to
§ 905.161 Repacking shipper.

(a) A repacking shipper is a person who repacks and ships citrus fruit grown in the production area in Florida which has been previously inspected and certified as meeting the requirements specified under §905.52 of the order, and who has obtained a currently valid repacking certificate of privilege issued to him or her by the committee as specified in §905.162.

(b) Each repacking shipper, to qualify for a repacking certificate of privilege, must notify the committee 10 days prior to his or her first shipment of repacked citrus fruit during a particular fiscal period of his or her intent to ship such citrus fruit, submit an Application for a Repacking Certificate of Privilege form supplied by the committee, and agree to other requirements as set forth in §§905.162 and 905.163 inclusive, with respect to such shipments. The repacking shipper shall certify that he or she will only handle previously inspected and certified citrus fruit.

(c) Any repacking shipper who handles citrus fruit shipped under a repacking certificate of privilege must, other order provisions notwithstanding, meet the following requirements:

1. All such citrus fruit must be positive lot identified by the Federal or Federal/State Inspection Service and certified as meeting the applicable requirements for citrus fruit shipped to the domestic market (fruit shipped from the production area to any point outside thereof in the 48 contiguous States and the District of Columbia of the United States), prior to being repacked and shipped by the repacking shipper. Each such citrus fruit shipment shall be accompanied by a Federal-State manifest that certifies the grade and amount of each load of citrus fruit received, which shall be retained by the repacking shipper.

2. Be reported as required in §905.163.

3. The repacking facility used to repack previously inspected and certified citrus fruit by the repacking shipper shall not have operable equipment to wash, brush, wax, or dry citrus fruit.

4. All citrus fruit handled by a repacking shipper shall be packed in approved Florida Department of Citrus fruit containers.

5. Each container shipped with such citrus fruit shall be marked with the repacking shipper’s repacking certificate of privilege number.

[59 FR 48782, Sept. 23, 1994]

§ 905.162 Repacking certificate of privilege.

(a) Application. Application for a repacking certificate of privilege by a repacking shipper shall be made on an Application for a Repacking Certificate of Privilege form supplied by the committee. Each such application shall contain, but need not be limited to, the name, address and Florida citrus fruit dealer license number of the applicant; approximate number of boxes to be handled during the season; the various types of containers to be used to ship the repacked citrus fruit; a certification to the Secretary of Agriculture and to the committee as to the truthfulness of the information shown thereon; and any other appropriate information or documents deemed necessary by the committee or duly authorized agents for the purposes stated in §905.161.

(b) Approval. The committee or its duly authorized agents shall give prompt consideration to each application for a repacking certificate of privilege. Approval of an application based upon a determination as to whether the information contained therein and other information available to the committee supports approval, shall be evidenced by the issuance of a repacking certificate of privilege to the applicant. Each such certificate shall expire at the end of the fiscal period.

(c) Suspension or denial of certificate of privilege. The committee may investigate the handling of repacked fresh citrus fruit shipments under certificates of privilege to determine whether repacking shippers are complying with the requirements and regulations applicable to such certificates. Whenever the committee finds that a repacking
shipper is failing to comply with the requirements and regulations applicable to such certificates, the certificate of privilege issued to such repacking shipper may be suspended or, in the case of an application for the issuance of an initial certificate of privilege, may be denied. Such suspension of a certificate shall be for a reasonable period of time as determined by the committee, but in no event shall it extend beyond the end of the then current fiscal period. In the case of the denial of an application for the issuance of an initial certificate, such certificate shall be denied until the applicant comes into compliance with the requirements and regulations applicable to such certificates. Prior to suspending or denying an application for a certificate of privilege, the committee shall give the shipper or applicant an opportunity, either orally or in writing, to present opposing facts and reasons. The shipper or applicant shall be informed of the committee’s determination in writing and in a timely manner.

§ 905.163 Reports of shipments under repacking certificate of privilege.

(a) Each repacking shipper who handles citrus fruit under a repacking certificate of privilege shall supply the committee with reports on each shipment as requested by the committee, on a Report of Shipments Under Certificate of Privilege form supplied by the committee, showing the name and address of the repacking shipper; name and address of the handler supplying the inspected and certified citrus fruit for such shipment; number of packages; size and containers; brand; grade; certificate number; and any other information deemed necessary by the committee. Each repacking shipper of citrus fruit shall maintain on file a copy of the Federal-State manifest that certifies the grade and amount of each load of citrus fruit received. These manifests shall be readily available to the committee upon request.

(b) One copy of the Report of Shipments Under Certificate of Privilege form on each shipment shall be forwarded to the committee promptly, one copy of such form shall be retained by the repacking shipper, and one copy of such form shall accompany the shipment. Failure to complete and return such form shall be cause for suspension of the repacking shippers repacking certificate of privilege.

(d) To keep minutes, books, and records which will reflect all of the acts and transactions of the committee and which shall be subject to examination by the Secretary;
(e) To prepare periodic statements of the financial operations of the committee and to make copies of each such statement available to growers and handlers for examination at the office of the committee;
(f) To cause its books to be audited by a certified public accountant at least once each fiscal year, and at such other times as the Secretary may request;
(g) To act as intermediary between the Secretary and any grower or handler;
(h) To investigate and assemble data on the growing, handling, and marketing conditions with respect to limes;
(i) To submit to the Secretary such available information as he may request;
(j) To notify, as provided in this part, producers and handlers of all meetings...
§ 911.30 Procedure.

(a) Except as provided in paragraphs (c) and (d) of this section, six members of the committee, including alternates acting for members, shall constitute a quorum and any decision, recommendation or other action of the committee shall require not less than seven concurring votes, including one by a handler, or an alternate acting as such: Provided, That if the committee is increased by one, the quorum requirement shall be increased to seven and any decision, recommendation or other action of the committee shall require not less than six concurring votes, including one by a handler or an alternate acting as such.

(b) The committee may provide for simultaneous meetings of groups of its members assembled at two or more designated places: Provided, That such meetings shall be subject to the establishment of telephone communication between all such groups and the availability of loud speaker receivers for each group so that each member may participate in the discussions and other actions the same as if the committee were assembled in one place.

(c) For any recommendation of the committee pursuant to § 911.53 as to the total quantity of limes deemed advisable to be handled during any week immediately following two or more continuous weeks of regulation pursuant to § 911.54 nine members of the committee, including alternates acting for members, shall constitute a quorum and nine concurring votes shall be required. The quorum and voting requirements specified in this paragraph shall not apply to recommendations pursuant to § 911.53 to increase the quantity that may be handled during the applicable week or pursuant to § 911.54 to terminate or suspend a regulation.

(d) For any recommendation of the committee for an assessment rate exceeding $0.20 per bushel to be applied pursuant to § 911.41, the quorum requirement shall be eight members or alternates acting for members and eight concurring votes shall be required.

§ 911.31 Expenses.

The members of the committee and their respective alternates when performing duties at the direction of the committee, shall be reimbursed for expenses necessarily incurred by them in the performance of their duties under this part.

[43 FR 39320, Sept. 5, 1978]

§ 911.32 Annual report.

The committee shall, as soon as practicable after the close of each fiscal year, prepare and mail an annual report to the Secretary and to each handler and grower who requests a copy of the report. This annual report shall contain at least: (a) A complete review of the regulatory operations during the fiscal year; (b) an appraisal of the effect of such regulatory operations upon the lime industry; and (c) any recommendations for changes in the program.

§ 911.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred to enable the committee to exercise its powers and perform its duties in accordance with the provisions of this part during each fiscal year. The funds to cover such expenses shall be acquired by the levying of assessments as provided for in § 911.41.

§ 911.41 Assessments.

(a) Each person who first handles limes shall, with respect to limes so handled by him, pay to the committee upon demand such person’s pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred by the committee during each fiscal year. Each such person’s share of such expenses shall be equal to the ratio between the total quantity of limes handled by him as the first handler thereof during the applicable fiscal year and the total quantity of limes so handled by all persons during the same fiscal year. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative. If a handler does not pay his assessment within the time prescribed by the committee, the unpaid assessment may be subject to an interest charge at rates prescribed by the committee with the approval of the Secretary.

(b) The Secretary shall fix the rate of assessment per 55-pounds of fruit or equivalent in any container or in bulk, to be paid by each such handler. At any time during or after a fiscal year, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all fruit handled during the applicable fiscal year. In order to provide funds for the administration of the provisions of this part, the committee may accept the payment of assessments in advance.

§ 911.42 Accounting.

(a) If, at the end of a fiscal year, the assessments collected are in excess of expenses incurred, such excess shall be accounted for as follows:

(1) Except as provided in paragraph (a)(2) of this section, each person entitled to a proportionate refund of the excess assessment shall be credited with such refund against the operation of the following fiscal year unless such person demands repayment thereof, in which event it shall be paid to him: Provided, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal year may be applied by the committee at the end of such fiscal year to any outstanding obligations due the committee from such person.

(2) The Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that the funds remaining at the end of a fiscal year which are in excess of the expenses necessary for committee operations during such year may be carried over into following years as a reserve. Such reserve may be established at an amount not to exceed approximately 3 fiscal years’ operational expenses. Funds in the reserve may also be used to cover the necessary expenses of liquidation, in the event of termination of this part to cover the expenses incurred for the maintenance and functioning of the committee during any fiscal year when there is a crop failure, or during any period of suspension of any or all the provisions of this part. Such reserve may also be used by the committee to finance its operations during any fiscal year prior to the time that assessment income is sufficient to cover such expenses and to cover deficits incurred during any fiscal year when income is less than expenses. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the committee determines.
Agricultural Marketing Service, USDA § 911.47

Secretary may determine to be appropriate: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part, and shall be accounted for in the manner provided in this part. The Secretary may, at any time, require the committee and its members to account for all receipts and disbursements.

RESEARCH

§ 911.45 Production research, marketing research and development.

The committee may, with the approval of the Secretary, establish or provide for the establishment of production research, marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of limes. Such projects may provide for any form of marketing promotion, including paid advertising. The expenses of such projects shall be paid from funds collected pursuant to the applicable provisions of § 911.41.

REGULATIONS

§ 911.46 Marketing policy.

Each fiscal year prior to making any recommendation pursuant to § 911.47 or § 911.53, the committee shall submit to the Secretary a report setting forth its marketing policy for such fiscal year. Such marketing policy report shall contain information relative to (a) the estimated total production of limes within the production area; (b) the expected general quality and size of limes in the production area and in other areas, including foreign competing areas; (c) the expected demand conditions for limes in different market outlets; (d) the expected shipments of limes produced in the production area and in other areas including foreign competing areas, together with a schedule of estimated weekly shipments of limes during such fiscal year; (e) supplies of competing commodities; (f) trend and level of consumer income; (g) other factors having a bearing on the marketing of limes; and (h) the type of regulations expected to be recommended during the season. In the event it becomes advisable, because of changes in the supply and demand situation for limes, to modify substantially such marketing policy, the committee shall submit to the Secretary a revised marketing policy report setting forth the information prescribed in this section. The committee shall publicly announce the contents of each marketing policy report and copies thereof shall be maintained in the offices of the committee where they shall be available for examination by growers and handlers.

§ 911.47 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate the handling of any variety or varieties of limes in the manner provided in § 911.48, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for limes during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated, and such other available information as the Secretary may request.

(c) All meetings of the committee held for the purpose of formulating recommendations for regulations shall be open to growers and handlers. The committee shall give notice of such meetings to growers and handlers by mailing such notice to each grower and handler who has filed his address with
§ 911.48 Issuance of regulations.
(a) The Secretary shall regulate, in the manner specified in this section, the handling of limes whenever he finds, from the recommendations and information submitted by the committee or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(1) Prohibit, during any specified period or periods, the handling of any variety or varieties of limes which do not meet such grade, size, and quality (including internal quality and juice content) standards as shall be prescribed; Provided, That such regulations may require that limes not meeting minimum size requirements established under this section be marked with a Food and Drug Administration approved food dye as a necessary and incidental safeguard to prevent such limes from entering fresh marketing channels for regulated limes.

(2) Prescribe minimum standards of quality for any variety or varieties of limes and limit the handling thereof to those meeting such minimum standards;

(3) Limit the shipment of the total quantity of limes by prohibiting the shipment thereof: Provided, That no such prohibition shall be effective during any fiscal period other than for four periods not exceeding six days each immediately prior to, including, or following July 4, Labor Day, Thanksgiving Day, and Christmas Day.

(4) Fix the size, capacity, weight, dimensions, or pack of the container or containers which may be used in the packaging, and the transportation, sale, shipment, or other handling of limes; and

(5) Establish and prescribe pack specifications for the grading and packing of any variety or varieties of limes and require that all limes handled shall be packed in accordance with such pack specifications, and shall be identified by appropriate labels, seals, stamps, or tags, affixed to the containers by the handler under the supervision of the committee or an inspector of the Federal-State Inspection Service, showing the particular pack specifications of the lot.

(6) Provide that any or all requirements effective pursuant to paragraphs (a)(1), (3), and (4) of this section applicable to the handling of limes shall be different for the handling of limes within the production area and for the handling of limes between the production area and any point outside thereof.

(7) Prescribe requirements, as provided in this paragraph, applicable to exports of any variety of limes which are different from those applicable to the handling of the same variety to other destinations.

(b) The committee shall be informed immediately of any such regulations issued by the Secretary and the committee shall promptly give notice thereof to growers and handlers.

§ 911.49 Modification, suspension, or termination of regulations.
(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §911.48 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of limes in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the
same basis and in like manner the Secretary may terminate any such modification or suspension.

§ 911.50 Exemption certificate.

In the event the handling of limes is regulated pursuant to §911.48, the committee shall issue one or more exemption certificates to any person who furnishes evidence satisfactory to the committee that, by reason of conditions beyond his control, he will be prevented, because of such regulation, from having as large a proportion of a particular variety of his limes handled as the average proportion of all such limes which may be handled. Such exemption certificates shall authorize the person to whom the certificates are issued to handle, or have handled, a percentage of his crop of the particular variety of limes equal to the percentage determined as aforesaid. The committee shall adopt, with the approval of the Secretary, procedural rules by which such exemption certificates will be issued and the limes covered thereunder may be handled. Exemption certificates shall be transferred to the handler of the limes covered by such certificates at the time the limes are delivered to such handler.

§ 911.51 Inspection and certification.

Whenever the handling of any variety of limes is regulated pursuant to §911.48, each handler who handles limes shall, prior thereto, cause each lot of limes handled to be inspected by the Federal-State Inspection Service and certified by it as meeting the applicable requirements of such regulation: Provided, That such inspection and certification shall be required when the limes previously have been so inspected and certified only if such limes have been regraded, resorted, or repackaged after the prior inspection and certification. Promptly thereafter, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection with respect to such handling.

§ 911.52 Limes not subject to regulations.

Except as otherwise provided in this section, any person may, without regard to the provisions of §§911.41, 911.48, 911.51, and 911.54 through 911.58, and the regulations issued thereunder, handle limes (a) for consumption by charitable institutions; (b) for distribution by relief agencies; (c) for commercial processing into products; or (d) in such minimum quantities or types of shipments, or for such specified purposes as the committee, with the approval of the Secretary, may prescribe. The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent limes handled under the provisions of this section from entering channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications with the committee for authorization to handle limes pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the limes will not be used for any purpose not authorized by this section.

§ 911.53 Recommendation for volume regulation.

(a) The committee may, during any week, recommend to the Secretary the total quantity of limes which it deems advisable to be handled to destinations within the forty-eight contiguous States of the United States, the District of Columbia and Canada during the next succeeding week: Provided, That such volume regulation shall not be recommended for any week except during the 18-week regulatory period beginning with the week preceding the
§ 911.54 Issuance of volume regulations.

Whenever the Secretary finds from the recommendation and information submitted by the committee, or from other available information, that to limit the quantity of limes which may be handled to destinations within the 48 contiguous States of the United States, the District of Columbia and Canada during a specified week of a regulatory period will tend to effectuate the declared policy of the act, he shall fix such quantity: Provided, That such regulations during a regulatory period shall not in the aggregate limit the volume of lime shipments for more than eight (8) weeks. The quantity so fixed for any week may be increased by the Secretary at any time during such week. Such regulations may, as authorized by the act, be made effective irrespective of whether the season average price of limes is in excess of the parity price. The Secretary may, upon the recommendation of the committee, or upon other available information, terminate or suspend any regulation pursuant to this section at any time.

Effective Date Note: At 61 FR 17552, Apr. 22, 1996, § 911.54 was suspended indefinitely.

§ 911.55 Prorate bases.

(a) Each person who desires to handle limes shall submit to the committee, at such time and in such manner as may be designated by the committee, and upon forms made available by it, a written application for a prorate base and for allotments as provided in this section and § 911.56.

(b) Such application shall be substantiated in such manner and shall be supported by such information as the committee may require.

(c) The committee shall determine the accuracy of the information submitted pursuant to this section. Whenever the committee finds that there is an error, omission, or inaccuracy in any such information, it shall correct the same and shall give the person who submitted the information a reasonable opportunity to discuss with the committee the factors considered in making the correction.

(d) Each week during the regulatory period when volume regulation is likely to be recommended for the following week, the committee shall compute a prorate base for each handler who has made application in accordance with the provisions of this section. The prorate base for each such handler shall be computed by adding together the handler’s shipments of limes in the current season and his shipments in the immediately preceding seasons, if any, within the representative period, in which he shipped limes and dividing such total by a divisor computed by adding together the number of weeks elapsed in the current season and eighteen weeks for each of such immediately preceding seasons within the representative period in which the handler shipped limes. For purposes of this section shipments shall include only those

§ 911.56 Allotments.

Whenever the Secretary has fixed the quantity of limes which may be handled during any week, the committee shall calculate the quantity of limes which may be handled during such week by each person who has applied for a prorate base and for whom such a base was computed by the committee. Such quantity shall be the allotment of such person and shall be that portion of the total quantity fixed by the Secretary which, expressed in terms of percent, is equal to the percentage that such applicant’s prorate base is of the aggregate of the prorate bases of all such applicants. The committee shall give reasonable notice in writing to each person of the allotment computed for him pursuant to this section.

§ 911.57 Overshipments.

During any week for which the Secretary has fixed the total quantity of limes which may be handled, any person who has received an allotment including any handler who received zero allotment computed pursuant to §§911.55 and 911.56 may handle, in addition to the total allotment available to him, an amount of limes equal to 50 bushels or two percent of such total allotment, whichever is the greater, except that during two weeks of each regulatory period any handler may overship his total allotment by more than such amount: Provided, That such overshipment shall not exceed an amount equal to 10 percent of such total allotment: And provided, further, That each handler who intends to so overship notifies the committee of his intended overshipment no later than the close of business on Thursday during the week of such intended overshipment.

§ 911.58 Undershipments.

If any person handles during any week a quantity of limes, covered by a regulation issued pursuant to §911.54, in an amount less than the total allotment available to him for such week, he may handle, during the next week, only, a quantity of limes, in addition to that permitted by the allotment available to him for such week, equivalent to such undershipment or 50 percent of the allotment issued to him for the week during which the undershipment was made, whichever is the lesser: Provided, That the committee, with the approval of the Secretary, may increase or decrease such percentage.

(b) Loaned or transferred allotment may be used only during the particular week for which issued.

(c) Each party to any loan or transfer, shall, prior to the handling of any limes covered by a loan or transferred allotment, notify the committee of the loan or transfer including the applicable dates, if any, of repayment.
§ 911.60 Reports.

(b) Upon request of the committee, made with the approval of the Secretary, each handler shall furnish to the committee, in such manner and at such times as it may prescribe, such other information as may be necessary to enable the committee to perform its duties under this part.

(c) Each handler shall maintain for at least two succeeding fiscal years, such records of the limes received and disposed of by him as may be necessary to verify the reports he submits to the committee pursuant to this section.

(d) All reports and records submitted by handlers pursuant to the provisions of this section shall be received by, and at all times be in custody of, one or more designated employees of the committee. No such employee shall disclose to any person, other than the Secretary upon request therefor, data or information obtained or extracted from such reports and records which might affect the trade position, financial condition, or business operation of the particular handler from whom received: Provided, That such data and information may be combined, and made available to any person, in the form of general reports in which the identities of the individual handler furnishing the information is not disclosed and may be revealed to any extent necessary to effect compliance with the provisions of this part and the regulations issued thereunder.

§ 915.51 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of avocados whenever he finds, from the recommendations and information submitted by the committee or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(2) Prohibit the handling of any variety or varieties of avocados grown in District 1 or District 2 which do not meet such quality and maturity standards as shall be prescribed.

(3) Limit the shipment of the total quantity of avocados by prohibiting the shipment thereof. Provided, That no such prohibition shall be effective during any fiscal period, other than for four periods not exceeding six days each immediately prior to, including, or following July 4, Labor Day, Thanksgiving Day, and Christmas Day.

(4) Fix the size, capacity, weight, dimensions, or pack of the container or containers which may be used in the packaging, and the transportation, sale, shipment or other handling of avocados.

(5) Establish and prescribe pack specifications for the grading and packing of any variety or varieties of avocados and require that all avocados handled shall be packed in accordance with such pack specifications, and shall be identified by appropriate labels, seals, stamps, or tags, affixed to the containers by the handler under the supervision of the committee or an inspector of the Federal-State Inspection Service, showing the particular pack specifications of the lot.

(6) Provide that any or all requirements effective pursuant to paragraphs

On the same basis and in like manner the Secretary may terminate any such modification or suspension.

§ 915.53 Exemption certificates.

Whenever a regulation is in effect pursuant to § 915.51(a)(1), the committee shall issue one or more exemption certificates to any person who furnishes proof, satisfactory to the committee, that his avocados of a particular variety are mature prior to the time such variety may be handled under such regulation. Such exemption certificates shall authorize the person to whom the certificates are issued to handle, or have handled, only that portion of his avocados of the particular variety which the committee has determined to be mature. The committee shall adopt, with the approval of the Secretary, procedural rules by which such exemption certificates will be issued and the avocados covered thereunder may be handled. Promptly thereafter, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection with respect to such handling.

§ 915.55 Avocados not subject to regulations.

Except as otherwise provided in this section, any person may, without regard to the provisions of §§ 915.41, 915.51, and 915.54, and the regulations issued thereunder, handle avocados (a) for consumption by charitable institutions; (b) for distribution by relief agencies; (c) for commercial processing into products; or (d) in such minimum quantities or types of shipments as the committee, with the approval of the Secretary, may prescribe. The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent avocados handled under the provisions of this section from entering channels of trade for other than the specific purposes authorized by this section. Such rules,
regulations, and safeguards may include the requirements that handlers shall file applications with the committee for authorization to handle avocados pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the avocados will not be used for any purpose not authorized by this section.

(d) If it is determined by the committee from the available information that the applicant is not entitled to such listing he shall be so informed by written notice stating why his application was denied.

(e) Any such listing pursuant to paragraphs (b) and (c) of this section may be canceled by the committee under circumstances which would have justified denial of this application.

[31 FR 8177, June 10, 1966]
incurred in attendance of meetings of the Nectarine Administrative Committee.

§ 916.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in paragraph (a)(2) of this section, it shall be refunded proportionately to the persons from whom it was collected: Provided, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve do not equal approximately one fiscal period’s expenses. Such reserve funds may be used (i) to defray expenses, during any fiscal period, prior to the time assessment income is sufficient to cover such expenses, (ii) to cover deficits incurred during any fiscal year when assessment income is less than expenses, (iii) to defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative, (iv) to cover necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. [36 FR 9290, May 22, 1971]

§ 916.50 Marketing policy.

(a) Each season prior to making any recommendations pursuant to § 916.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the ensuing marketing season. Such marketing policy report shall contain information relative to:

2. The expected general quality and size of nectarines in the production area and in other areas;
3. The expected demand conditions for nectarines in different market outlets;
4. The expected shipments of nectarines produced in the production area and in areas outside the production area;
5. Supplies of competing commodities;
6. Trend and level of consumer income;
7. Other factors having a bearing on the marketing of nectarines; and
8. The type of regulations expected to be recommended during the marketing season.

(b) [Reserved]

§ 916.51 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate the handling of any variety or varieties of nectarines in the manner provided in § 916.52, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for nectarines during the period or periods when it is proposed that such regulations should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 916.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of nectarines whenever he finds, from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

1. Limit, during any period or periods, the shipment of any particular grade, size, quality, maturity, or pack, or any combination thereof, of any variety or varieties of nectarines grown in the production area;
2. Limit the shipment of nectarines by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level;
3. Fix the size, capacity, weight, dimensions, markings, or pack of the container, or containers, which may be used in the packaging or handling of nectarines.
(b) The committee shall be informed immediately of any such regulation issued by the Secretary and the committee shall promptly give notice thereof to handlers.

§ 916.53 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §916.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of nectarines in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension.

§ 916.54 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§916.41, 916.52, 916.53, and 916.55, and the regulations issued thereunder, handle nectarines (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to §§916.41, 916.52, 916.53, or 916.55, the handling of nectarines (1) to designated market areas within the State of California; or (2) for such specified purposes (including shipments to facilitate the conduct of marketing research and development projects established pursuant to §916.45), or in such minimum quantities or types of shipments, as may be prescribed.

(c) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent nectarines handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the committee for authorization to handle nectarines pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the nectarines will not be used for any purpose not authorized by this section.

§ 916.55 Inspection and certification.

(a) Whenever the handling of any variety of nectarines is regulated pursuant to §916.52, or §916.53, each handler who handles nectarines shall, prior thereto, cause such nectarines to be inspected by the Federal or Federal-State Inspection Service and certified as meeting the applicable requirements of such regulation: Provided, That inspection and certification shall not be required for nectarines which previously have been so inspected and certified if such prior inspection was performed within such period as may be established pursuant to paragraph (b) of this section. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection issued with respect to such nectarines. The committee may, with the approval of the Secretary, prescribe rules and regulations waiving the inspection requirements of this section where it is determined that inspection is not available: Provided, That all shipments made under such waiver shall comply with all regulations in effect.

(b) The committee may, with the approval of the Secretary, establish a period prior to shipment during which the inspection required by this section must be performed.
§ 916.60 Reports.

(a) Each handler shall furnish to the committee, at such times and for such periods as the committee may designate, certified reports covering, to the extent necessary for the committee to perform its functions, each shipment of nectarines as follows:

(1) The name of the shipper and the shipping point;

(2) The car or truck license number (or name of the trucker), and identification of the carrier;

(3) The date and time of departure;

(4) The number and type of containers in the shipment;

(5) The quantities shipped, showing separately the variety, grade, and size of the fruit;

(6) The destination;

(7) Identification of the inspection certificate or waiver pursuant to which the fruit was handled.

(b) Upon request of the committee, made with the approval of the Secretary, each handler shall furnish to the committee, in such manner and at such times as it may prescribe, such other information as may be necessary to enable the committee to perform its duties under this part.

(c) Each handler shall maintain for at least two succeeding fiscal years, such records of the nectarines received and disposed of by him as may be necessary to verify the reports he submits to the committee pursuant to this section.

(d) All reports and records submitted by handlers pursuant to the provisions of this section shall be received by, and at all times be in custody of, one or more designated employees of the committee. No such employee shall disclose to any person, other than the Secretary upon request therefor, data or information obtained or extracted from such reports and records which might affect the trade position, financial condition, or business operation of the particular handler from whom received: Provided, That such data and information may be combined, and made available to any person, in the form of general reports in which the identities of the individual handler furnishing the information is not disclosed and may be revealed to any extent necessary to effect compliance with the provisions of this part and the regulations issued thereunder.

MISCELLANEOUS PROVISIONS

§ 916.61 Compliance.

Except as provided in this part, no person shall handle nectarines, the shipment of which has been prohibited by the Secretary in accordance with the provisions of this part; and no person shall handle nectarines except in conformity with the provisions of this part and the regulations issued under this part.

§ 916.62 Right of the Secretary.

The members of the committee (including successors and alternates), and any agents, employees, or representatives thereof, shall be subject to removal or suspension by the Secretary at any time. Each and every regulation, decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the committee shall be deemed null and void, except as to acts done in reliance thereon or in accordance therewith prior to such disapproval by the Secretary.

§ 916.63 Effective time.

The provisions of this part, and of any amendment thereto, shall become effective at such time as the Secretary may declare above his signature and shall continue in force until terminated in one of the ways specified in § 916.64.

§ 916.64 Termination.

(a) The Secretary may at any time terminate the provisions of this part by giving at least one day’s notice by means of a press release or in any other manner in which he may determine.
(b) The Secretary shall terminate or suspend the operation of any and all of the provisions of this part whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this part whenever he finds by referendum or otherwise that such termination is favored by a majority of the growers: Provided, That such majority has, during the current marketing season, produced more than 50 percent of the volume of the nectarines which were produced within the production area for shipment in fresh form. Such termination shall become effective on the first day of March subsequent to the announcement thereof by the Secretary.

(d) The committee shall consider all petitions from growers submitted to it for termination of this part provided such petitions are received by the committee prior to October 1 of the current fiscal period. Upon recommendation of the committee received not later than December 1 of the then current fiscal period, the Secretary shall conduct a referendum among the growers prior to February 15 of such fiscal period to ascertain whether continuance of this part is favored by producers.

(e) The Secretary shall conduct a referendum within the period beginning December 1, 1974, and ending February 15, 1975, to ascertain whether continuance of this part is favored by the growers. The Secretary shall conduct such referendum within the same period of every fourth fiscal period thereafter.

(f) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 916.65 Proceedings after termination.

(a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustee of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such persons as the Secretary may direct; and (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person, full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered, pursuant to this section, shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 916.66 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued under this part, or (b) release or extinguish any violation of this part or of any regulation issued under this part, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 916.67 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this part shall cease upon its termination, except with respect to acts done under and during the existence of this part.

§ 916.68 Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States, or name any agency or division in the United States Department of Agriculture, to act as
his agent or representative in connection with any of the provisions of this part.

§ 916.69 Derogation.

Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 916.70 Personal liability.

No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistaken, or other acts, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 916.71 Separability.

If any provision of this part is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

One growers’ nomination meeting shall be held in each district. The shippers’ nomination meeting shall be held in the district which, during the preceding year, produced the most nectarines. So far as possible, these meetings shall be held jointly with nomination meetings scheduled by the Control Committee, established under Order No. 917, as amended (7 CFR part 917), known as the California Tree Fruit Agreement. Each such meeting shall be attended by one or more employees of the Nectarine Administrative Committee. Members of the Agricultural Extension Service of the University of California may be authorized by the Manager to assist in publicizing such meetings.

§ 916.160 Reporting procedure.

(a) Report of daily packout. When requested by the Nectarine Administrative Committee, each shipper who ships nectarines shall furnish to the manager of the Nectarine Administrative Committee or its designee a report of the number of packages by container type, by variety and by district of origin, which the shipper packed during the preceding day.

(b) Recapitulation of shipments. Each shipper of nectarines shall furnish to the manager of the Nectarine Administrative Committee not later than November 15 of each year a recapitulation of shipments of each variety shipped during the just-completed season. The recapitulation shall show: The name of the shipper, the shipping point, the district of origin, the variety, and the number of packages, by size, for each container type.

Subpart—Container and Pack Regulation

§ 916.350 California Nectarine Container and Pack Regulation.

(a) During the period beginning April 1 and ending October 31, no handler shall ship any package or container of any variety of nectarines except in accordance with the following terms and conditions:

(1) Such nectarines when packed in any closed package or container, except master containers of consumer packages and individual consumer packages, shall conform to the requirements of standard pack: Provided, That nectarines in any such volume-filled container need only be filled to within one inch of the top of the container.

(2) Each package or container of nectarines shall bear, on one outside end in plain sight and in plain letters, the word nectarines and, except for consumer packages in master containers and consumer packages mailed directly to consumers, the name of the variety, if known or, when the variety is not known, the words unknown variety.

(3) Each package or container of nectarines, except for consumer packages in master containers and consumer packages mailed directly to consumers, shall bear on one outside end in plain sight and in plain letters the words U.S. Mature or US MAT if such nectarines are mature as defined in the United States Standards for Grades of Nectarines (7 CFR 51.3145 through 51.3160); or may instead bear on one outside end in plain sight and in plain letters the words California Well Matured or CA WELL MAT if such nectarines are well matured as defined in §916.356.

(4) Each package or container of nectarines, except consumer packages mailed directly to consumers, shall bear, on one outside end in plain sight and in plain letters, the following count and/or size description of the nectarines as applicable:

(i) The size of nectarines packed in molded forms (tray-packs) in the No.
22D and the No. 32 standard boxes, cartons, or consumer packages; No. 22G standard lug boxes; or the No. 12B fruit (peach) boxes or flats; and the size of wrapped nectarines packed in rows in No. 12B fruit (peach) boxes shall be indicated in accordance with the number of nectarines in each container, such as “80 count,” “88 count,” etc.

(ii) The size of nectarines in molded forms (tray-packs) in the No. 22G standard lug boxes shall be indicated according to the number of such nectarines when packed in molded forms in the No. 22D standard lug box or the No. 32 standard box in accordance with the requirements of standard pack, such as “80 size,” “88 size,” etc., along with count requirements in paragraph (a)(4)(i) of this section.

(iii) The size of nectarines loose-filled or tight-filled in any container shall be indicated according to the number of such nectarines when packed in molded forms in the No. 22D standard lug box in accordance with the requirements of standard pack, such “80 size,” “88 size,” etc.

(iv) The size of nectarines, when packed in loose-filled or tight-filled containers, shall be marked in accordance with the following table 1 and table 2 which specify the tray-pack size designation in Column A with the corresponding maximum number of nectarines in a 16-pound sample of each size of the fruit in Column B: Provided, That the following procedure shall be used in determining whether nectarines meet the minimum size requirements specified for each size category in this section applying the 16-pound sample. A sample consisting of one-half of the specified number of fruit for a particular size category shall be used, provided such sample weighs at least eight pounds. When one-half the specified number of fruit in a sample results in a number ending with one-half a fruit, the smaller full number of fruit shall be used to determine the sample weight. If a sample fails with respect to minimum size requirements on the basis of an 8-pound sample, a 16-pound sample shall be used to determine if the fruit meets the minimum size requirements.

NOTE: Consult with the Federal or Federal-State Inspection Service Supervisor for the maturity guides applicable to the varieties not listed above.

(ii) Free from serious damage due to skin breaks, cuts, growth cracks, bruises, or other causes. Damage to any nectarine is serious when it causes a waste of 10 percent or more, by volume, of the individual nectarine.

(iii) Tolerances. Not more than 10 percent, by count, of the nectarines in any one container may be below the requirements which are prescribed by this paragraph, including not more than 5 percent, by count, for any one defect, except split pits. An additional tolerance of 10 percent, by count, of the nectarines in any one container or bulk lot may contain nectarines affected with split pits. This means a total tolerance of 20 percent is allowed for all defects, including split pits, but not to exceed 15 percent for split pits alone.

(iv) The Federal or Federal-State Inspection Service shall make final determinations on maturity through the use of color guides or such other tests as determined appropriate by the inspection agency. The Federal or Federal-State Inspection Service will use the maturity guides listed in table 1 to paragraph (a)(1)(iv) in making maturity determinations for the specified varieties when inspecting to the “well matured” level of maturity. For these varieties, not less than 90 percent of any lot shall meet the color guide established for the variety, and an aggregate area of not less than 85 percent of the fruit surface shall meet the color guide established for the variety, except that for the Tom Grand variety of nectarines, not less than an aggregate area of 80 percent of the fruit surface shall meet the color guide established for the variety. For varieties not listed, the Federal or Federal-State Inspection Service will use such tests as it deems proper. A variance for any variety from the application of the maturity guides specified in table 1 to paragraph (a)(1)(iv) may be granted during the season to reflect changes in crop, weather, or other conditions that would make the specified guides an inappropriate measure of “well matured.”

All committee members shall serve without compensation, but said members, and their respective alternates, shall be reimbursed for expenses necessarily incurred in the performance of their duties. At its discretion any committee may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members, and may pay expenses as aforesaid.

§ 917.32 Funds and other property.

§917.35 Powers and duties of each commodity committee.

Each commodity committee shall have the following powers and duties:

(a) With regard to the respective fruit for which it was established, to establish production research and marketing research and development projects as authorized under §917.30, to recommend to the Secretary regulation of shipments pursuant to the provisions of this part, and to possess such other powers and exercise such other duties as will properly effectuate the purpose of this part: Provided, however, That the Peach and Pear Commodity Committee shall each approve actions under §917.30 and make said recommendations pursuant to §§917.40 through 917.43 only upon the affirmative vote of not less than nine members of each said committee.

(b) To make such rules and regulations with respect to fruit for which it was established as may be necessary to effectuate the terms and provisions of this part.

(c) To forward to the Control Committee and to the Secretary a record of the minutes of each meeting of the commodity committee.

(d) To establish such other committees to aid the commodity committee in the performance of its duties under this part as may be deemed advisable.

(e) Each season prior to any recommendation to the Secretary for a regulation of shipments pursuant to §§917.40 through 917.43 to determine the marketing policy to be followed for the respective commodity during the ensuing fiscal period and to submit such policy to the Secretary, said policy report to contain, among other provisions, information relative to the estimated total production and shipments of the fruit by districts, information as to the expected general quality and size of fruit, possible or expected demand conditions of different market outlets, supplies of competitive commodities, such analysis of the foregoing factors and conditions as the committee deems appropriate, and the type of regulations of shipments expected to be recommended for the respective fruit.

(f) To submit as soon as practicable after the beginning of each fiscal year to the Secretary, for his approval, a budget of its expenses for such fiscal period, including its proportional share of the expenses of the Control Committee and an explanation of the items therein, and a recommendation as to the rate of assessment for the respective fruit for which the commodity committee was established.
§ 917.36 Expenses.

Each commodity committee is authorized to incur such expenses as the Secretary finds are reasonable and are likely to be incurred by the said commodity committee during each fiscal period for the maintenance and functioning of such committee, including its proportionate share of the expenses of the Control Committee; and for such research and service activities relating to handling of the fruit for which the commodity committee was established as the Secretary may determine to be appropriate. The funds to cover such expenses shall be acquired by the levying of assessments as provided in §917.37.

§ 917.37 Assessments.

(a) As his pro rata share of the expenses which the Secretary finds are reasonable and are likely to be incurred by the commodity committees during a fiscal period, each handler shall pay to the Control Committee, upon demand, assessments on all fruit handled by him. The payment of assessments for the maintenance and functioning of the committees may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the respective rate of assessment which handlers shall pay with respect to each fruit during each fiscal period in an amount designed to secure sufficient funds to cover the respective expenses which may be incurred during such period. At any time during or after the fiscal period, the Secretary may increase the rates of assessment in order to secure funds to cover any later findings by the Secretary relative to such expenses, and such increase shall apply to all fruit shipped during the fiscal period.

(c) In order to provide funds to carry out the functions of the commodity committee prior to commencement of shipments in any season, shippers may make advance payments of assessments, which advance payments shall be credited to such shippers and the assessments of such shippers shall be adjusted so that such assessments are based upon the quantity of fruit shipped by such shippers during such season. Any shipper who ships fruit for the account of a grower may deduct, from the account of sale covering such shipment or shipments, the amount of assessments levied on said fruit shipped for the account of such grower.

§ 917.38 Accounting.

If, at the end of a fiscal period the assessments collected are in excess of expenses incurred, each commodity committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve do not exceed approximately one fiscal period’s expenses. Such reserve funds may be used (1) to cover any expenses authorized by this part and (2) to cover necessary expenses of liquidation in the event of termination of this part. If any such excess is not retained in a reserve, each handler entitled to a proportionate refund shall be credited with such refund against the operations of the following fiscal period or be paid such refund. Upon termination
of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate. Provided, That, to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

RESEARCH
§ 917.39 Production research, market research and development.

The committees, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research, and development projects designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of fruit. The expenses of such projects shall be paid from funds collected pursuant to §917.37.

REGULATIONS
§ 917.40 Recommendations for regulations.

(a) Whenever a commodity committee deems it advisable to regulate the handling of any variety or varieties of fruit in the manner provided in §917.41, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the commodity committee shall give consideration to current information with respect to the factors affecting the supply and demand for such fruit during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the commodity committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 917.41 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of any variety or varieties of fruit whenever he finds, from the recommendations and information submitted by the commodity committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

1. Limit, during any period or periods, the total quantity of any grade, size, quality, maturity, or pack, or any combination thereof, of any variety or varieties of fruit;

2. Limit the shipment of any variety or varieties of fruit by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level;

3. Fix the size, capacity, weight, dimensions, markings, or pack of the container, or containers, which may be used in the packaging or handling of any fruit.

(b) The commodity committee shall be informed immediately of any such regulation issued by the Secretary, and the commodity committee shall promptly give notice thereof to handlers.

§ 917.42 Modification, suspension, or termination of regulations.

(a) In the event the commodity committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §917.41 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the commodity committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of fruit in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension.
§ 917.43 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§917.37, 917.41, and 917.42, and the regulations issued thereunder, handle fruit (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the commodity committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to §917.41, §917.42, §917.45, or §917.37, the handling of fruit; (1) To designated market areas outside the continental United States; (2) for such specified purposes (including shipments to facilitate the conduct of marketing research and development projects established pursuant to §917.39); or (3) in such minimum quantities or types of shipments, as may be prescribed.

(c) The commodity committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent fruit handled under the provisions of this section from entering the channels of trade for other than the specified purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the commodity committee for authorization to handle fruit pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the fruit will not be used for any purpose not authorized by this section.

§ 917.45 Inspection and certification.

(a) Whenever the handling of any variety of a particular fruit is regulated pursuant to §917.41 or §917.42, each handler who handles such fruit shall, prior thereto, cause such fruit to be inspected by the Federal or Federal-State Inspection Service: Provided, That inspection and certification shall not be required if such fruit has previously been so inspected and certified. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the commodity committee a copy of the certificate of inspection issued with respect to such fruit. The commodity committees may, with the approval of the Secretary, prescribe rules and regulations waiving the inspection requirements of this section where it is determined that inspection is not available: Provided, That all shipments made under such waiver shall comply with all regulations in effect.

(b) The Control Committee may enter into an agreement with the Federal and Federal-State Inspection Services with respect to the costs of the inspection required by paragraph (a) of this section, for any or all fruits, and may collect from handlers their respective pro rata shares of such costs.

§ 917.50 Reports.

(b) Upon request of any committee, made with the approval of the Secretary, each handler shall furnish to the Manager of the Control Committee, in such manner and at such times as it may prescribe, such other information...
as may be necessary to enable the committee to perform its duties under this part.

(c) Each handler shall maintain for at least two succeeding fiscal years, such records of the fruits received and disposed of by him as may be necessary to verify the reports he submits to the committee pursuant to this section.

(d) All reports and records submitted by handlers pursuant to the provisions of this section shall be received by, and at all times be in custody of, one or more designated employees of the Control Committee. No such employee shall disclose to any person, other than the Secretary upon request therefor, data or information obtained or extracted from such reports and records which might affect the trade position, financial condition, or business operation of the particular handler from whom received: Provided, That such data and information may be combined, and made available to any person, in the form of general reports in which the identities of the individual handlers furnishing the information are not disclosed and may be revealed to any extent necessary to effect compliance with the provisions of this part and the regulations issued thereunder.

[61 FR 37813, July 22, 1996]
§ 917.442 California Peach Container and Pack Regulation.

(a) During the period beginning April 1 and ending November 23, no handler shall ship any package or container of any variety of peaches except in accordance with the following terms and conditions:

(1) Such peaches when packed in any closed package or container, except master containers of consumer packages and individual consumer packages, shall conform to the requirements of standard pack: Provided, That peaches in any such volume-filled container need only be filled to within one inch of the top of the container.

(2) Each package or container of peaches shall bear, on one outside end in plain sight and in plain letters, the word peaches and, except for consumer packages in master containers and consumer packages mailed directly to consumers, the name of the variety, if known or, when the variety is not known, the words unknown variety.

(3) Each package or container of peaches, except for consumer packages in master containers and consumer packages mailed directly to consumers, shall bear on one outside end in plain sight and in plain letters the words U.S. Mature or US MAT if such peaches are mature as defined in the United States Standards for Grades of Peaches (7 CFR 51.1210 through 51.1223); or may instead bear on one outside end in plain sight and in plain letters the words California Well Matured or CA WELL MAT if such peaches are well matured as defined in §917.459 of this part.

(4) Each package or container of peaches, except consumer packages mailed directly to consumers, shall bear on one outside end in plain sight and in plain letters, the following count and/or size description of the peaches as applicable:

(i) The size of peaches packed in molded forms (tray-packs) in the No. 22D and No. 32 standard boxes, cartons, or consumer packages; No. 22G standard lug boxes or experimental containers; or No. 12B fruit (peach) boxes shall be indicated in accordance with the number of peaches in each container, such as “80 count,” “88 count,” etc.

(ii) The size of peaches in molded forms in experimental containers shall be indicated according to the number of such peaches when packed in molded forms in the No. 22D standard lug box or the No. 32 standard box in accordance with the requirements of standard pack, such as “80 size,” “88 size,” etc., along with the count requirements in paragraph (a)(4)(i) of this section.

(iii) The size of peaches loose-filled or tight-filled in any container shall be indicated according to the number of such peaches when packed in molded forms in No. 22D or No. 32 standard boxes, in accordance with the requirements of standard pack, such as “80 size,” “88 size,” etc.

(iv) The size of peaches, when packed in loose-filled or tight-filled containers, shall be marked in accordance with the following table 1 and table 2 which specify the tray-pack size designation in Column A with the corresponding maximum number of peaches in a 16-pound sample of each size of the fruit in Column B: Provided, That the following procedure shall be used in determining whether peaches meet the minimum size requirements specified for each size category in this section applying the 16-pound sample. A sample consisting of one-half of the specified number of fruit for a particular size category shall be used, provided such sample weighs at least eight pounds. When one-half the specified number of fruit in a sample results in a number ending with one-half a fruit, the smaller full number of fruit shall be used to determine the sample weight. If a sample fails with respect to minimum size requirements on the basis of an 8-pound sample, a 16-pound sample shall be used to determine if the fruit meets the minimum size requirements.

(iv) The Federal or Federal-State Inspection Service shall make final determinations on maturity through the use of color chips or such other tests as determined appropriate by the inspection agency. The Federal or Federal-State Inspection Service will use the maturity guides listed in table 1 to paragraph (a)(1)(iv) in making maturity determinations for the specified varieties when inspecting to the "well matured" level of maturity. For these varieties, not less than 90 percent of any lot shall meet the color guide established for the variety, and an aggregate area of not less than 90 percent of the fruit surface shall meet the color guide established for the variety. For varieties not listed, the Federal or Federal-State Inspection Service will use such tests as it deems proper. A variance for any variety from the application of the maturity guides specified in table 1 to paragraph (a)(1)(iv) may be granted during the season to reflect changes in crop, weather, or other conditions that would make the specified inappropriate measure of "well matured."

(b) The Secretary shall fix the rate of assessment to be paid by each such person during a fiscal period in an amount designed to secure sufficient funds to cover the expenses which may be incurred during such period and to accumulate and maintain a reserve fund equal to approximately one fiscal period’s expenses. The Secretary may increase this maximum rate in each succeeding year after the initial year of order operation by the Consumer Price Index (cost of living) for California as published by the Bureau of Labor Statistics. Such increase shall be applied to all kiwifruit handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year’s shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purposes. (b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for kiwifruit during the period or periods when it is proposed that such regulations should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.
§ 920.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of kiwifruit whenever the Secretary finds, from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(1) Limit, during any period or periods, the shipment of any particular grade, size, quality, maturity, or pack, or any combination thereof, of any variety or varieties of kiwifruit grown in the production area;

(2) Limit the shipment of kiwifruit by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level;

(3) Fix the size, capacity, weight, dimensions, markings, or pack of the container, or containers, which may be used in the packaging or handling of kiwifruit.

(b) The committee shall be informed immediately of any such regulation issued by the Secretary and the committee shall promptly give notice thereof to handlers.

§ 920.53 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §920.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of kiwifruit in order to effectuate the declared policy of the act, the Secretary shall modify, suspend, or terminate such regulation. § 920.54 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§920.41, 920.52, 920.53 and 920.55 and the regulations issued thereunder, handle kiwifruit: (1) For consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to §920.41, §920.52, §920.53 or §920.55, the handling of kiwifruit: (1) To designated market areas; (2) for such specified purposes (including shipments to facilitate the conduct of marketing research and development projects); or, (3) in such minimum quantities or types of shipments, as may be prescribed.

(c) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent kiwifruit handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the committee for authorization to handle kiwifruit pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the kiwifruit will not be used for any purpose not authorized by this section.

§ 920.55 Inspection and certification.

(a) Whenever the handling of any variety of kiwifruit is regulated pursuant to §920.52, or §920.53, each handler who handles kiwifruit shall, prior thereto, cause such kiwifruit to be inspected by the Federal or Federal-State Inspection Service and certified as meeting the applicable requirements of such regulation: Provided, That inspection and certification shall not be required for kiwifruit which previously have been so inspected and certified if such prior inspection was performed within
such period as may be established pursuant to paragraph (b) of this section. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection issued with respect to such kiwifruit. The committee may, with the approval of the Secretary, prescribe rules and regulations waiving the inspection requirements of this section where it is determined that inspection is not available: Provided, That all shipments made under such waiver shall comply with all regulations in effect.

(b) The committee may, with the approval of the Secretary, establish a period prior to shipment during which the inspection required by this section must be performed.

(c) The committee may enter into an agreement with the Federal and Federal-State Inspection Services with respect to the costs of the inspection required by paragraph (a) of this section, and may collect from handlers their respective pro rata shares of such costs.

§ 922.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds necessary to carry out the purposes of this part.

§ 922.33 Expenses and compensation.

The members of the committee, and alternates when acting as members, shall be reimbursed for expenses necessarily incurred by them in the performance of their duties under this part and may also receive compensation, as determined by the committee, which shall not exceed $10 per day or portion thereof spent in performing such duties: Provided, That at its discretion the committee may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members, and may pay expenses and compensation, as aforesaid.

§ 922.34 Annual report.

The committee shall, prior to the last day of each fiscal period, prepare and mail an annual report to the Secretary and make a copy available to each handler and grower who requests a copy of the report. This annual report shall contain at least: (a) A complete review of the regulatory operations during the fiscal period; (b) an appraisal of the effect of such regulatory operations upon the apricot industry; and (c) any recommendations for changes in the program.

EXPENSES AND ASSESSMENTS

§ 922.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds necessary to carry out the purposes of this part.
§ 922.41 Assessments.
(a) Each person who first handles apricots shall, with respect to the apricots so handled by him, pay to the committee upon demand such person's pro rata share of the expenses which the Secretary finds will be incurred by the committee during each fiscal period. Each such person's share of such expenses shall be equal to the ratio between the total quantity of apricots handled by him as the first handler thereof during the applicable fiscal period and the total quantity of apricots so handled by all persons during the same fiscal period. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all apricots handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year's shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purpose.

§ 922.42 Accounting.
(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for as follows:

(1) Except as provided in paragraph (a)(2) of this section each person entitled to a proportionate refund of any excess assessment shall be credited with such refund against the operation of the following fiscal period unless such person demands repayment thereof, in which event it shall be paid to him: Provided, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that the funds remaining at the end of a fiscal period which are in excess of the expenses necessary for committee operations during such period may be carried over into following periods as a reserve. Such reserve may be established at an amount not to exceed approximately one fiscal period's operational expenses; and such reserve may be used to cover the necessary expenses of liquidation, in the event of termination of this part, and to cover the expenses incurred for the maintenance and functioning of the committee during any fiscal period when there is a crop failure, or during any period of suspension of any or all of the provisions of this part. Such reserve may also be used by the committee to finance its operations, during any fiscal period, prior to the time that assessment income is sufficient to cover such expenses; but any of the reserve funds so used shall be returned to the reserve as soon as assessment income is available for this purpose. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its
members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to his successor in office, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor full title to all of the property, funds, and claims vested in such member pursuant to this part.

RESEARCH

§ 922.45 Marketing research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of apricots. The expense of such projects shall be paid from funds collected pursuant to §922.41.

REGULATIONS

§ 922.50 Marketing policy.

1. The estimated total production of apricots within the production area;
2. The expected general quality and size of apricots in the production area and in other areas;
3. The expected demand conditions for apricots in different market outlets;
4. The expected shipments of apricots produced in the production area and in areas outside the production area;
5. Supplies of competing commodities;
6. Trend and level of consumer income;
7. Other factors having a bearing on the marketing of apricots; and
8. The type of regulations expected to be recommended during the season.

(b) In the event it becomes advisable, because of changes in the supply and demand situation for apricots, to modify substantially such marketing policy, the committee shall submit to the Secretary a revised marketing policy report setting forth the information prescribed in this section. The committee shall publicly announce the contents of each marketing policy report, including each revised marketing policy report, and copies thereof shall be maintained in the office of the committee where they shall be available for examination by growers and handlers.

§ 922.51 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate the handling of any variety or varieties of apricots in the manner provided in §922.52, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for apricots during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 922.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of apricots whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

1. Limit, during any period or periods, the shipment of any particular grade, size, quality, maturity, or pack, or any combination thereof, of any variety or varieties of apricots grown in any district or districts of the production area;
2. Limit the shipment of apricots by establishing, in terms of grades, sizes,
§ 922.53 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to § 922.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of apricots in order to effectuate the declared policy of the act, he shall modify, suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such suspension.

§ 922.54 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§ 922.41, 922.52, 922.53, and 922.55, and the regulations issued thereunder, handle apricots (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to § 922.41, § 922.52, § 922.53, or § 922.55, the handling of apricots in such minimum quantities, or types of shipments, or for such specified purposes (including shipments to facilitate the conduct of marketing research and development projects established pursuant to § 922.45), as the committee, with approval of the Secretary, may prescribe.

(c) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent apricots handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the committee for authorization to handle apricots pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the apricots will not be used for any purpose not authorized by this section.

§ 922.55 Inspection and certification.

Whenever the handling of any variety of apricots is regulated pursuant to § 922.52 or § 922.53, each handler who handles apricots shall, prior thereto, cause such apricots to be inspected by the Federal-State Inspection Service and certified by it as meeting the applicable requirements of such regulation: Provided, That inspection and certification shall be required for apricots which previously have been inspected and certified only if such apricots have been regraded, resorted, repackaged, or in any other way further prepared for market. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection issued with respect to such apricots. The committee may, with the approval of the Secretary, prescribe rules and regulations modifying the inspection requirements of this section as to time and place such inspection shall be performed whenever it is determined it
would not be practical to perform the required inspection at a particular location: Provided, That all such shipments shall comply with all regulations in effect.

only if announced on or before March 31 of the then current fiscal period.

(d) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 922.65 Proceedings after termination.

(a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person, full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant hereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered pursuant to this section shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 922.66 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulation issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 922.70 Personal liability.

No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other act, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 922.71 Separability.

If any provision of this part is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

The committee shall, prior to the last day of each fiscal period, prepare and mail an annual report to the Secretary and make a copy available to each handler and grower who requests a copy of the report. This annual report shall contain at least: (a) A complete review of the regulatory operations during the fiscal period; (b) an appraisal of the effect of such regulatory operations upon the cherry industry; and (c) any recommendations for changes in the program.

EXPENSES AND ASSESSMENTS

§ 923.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee to enable it to exercise its powers and perform its duties in accordance with the provisions of this part during each fiscal period. The funds to cover such expenses shall be acquired by the levying of assessments as prescribed in §923.41.

§ 923.41 Assessments.

(a) Each person who first handles cherries shall, with respect to the cherries so handled by him, pay to the committee upon demand such person’s pro rata share of the expenses which the Secretary finds will be incurred by the committee during each fiscal period. Each such person’s share of such expenses shall be equal to the ratio between the total quantity of cherries handled by him as the first handler thereof during the applicable fiscal period and the total quantity of cherries so handled by all persons during the same fiscal period. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all cherries handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year’s shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purpose.

§ 923.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for as follows:

(1) Except as provided in paragraph (a)(2) of this section, each person entitled to a proportionate refund of any excess assessment shall be credited with such refund against the operation of the following fiscal period unless such person demands repayment thereof, in which event it shall be paid to him: Provided, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal period
may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The Secretary, upon recommendation of the committee, may determine that it is appropriate for the maintenance and functioning of the committee that the funds remaining at the end of a fiscal period which are in excess of the expenses necessary for committee operations during such period may be carried over into following periods as a reserve. Such reserve may be established at an amount not to exceed approximately one fiscal period's operational expenses; and such reserve may be used to cover the necessary expenses of liquidation, in the event of termination of this part, and to cover the expenses incurred for the maintenance and functioning of the committee during any fiscal period when there is a crop failure, or during any period of suspension of any or all of the provisions of this part. Such reserve may also be used by the committee to finance its operations, during any fiscal period, prior to the time that assessment income is sufficient to cover such expenses; but any of the reserve funds so used shall be returned to the reserve as soon as assessment income is available for this purpose. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to his successor in office, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor full title to all of the property, funds, and claims vested in such member pursuant to this part.

RESEARCH

§ 923.45 Marketing research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of cherries. The expense of such projects shall be paid from funds collected pursuant to §923.41.

REGULATIONS

§ 923.50 Marketing policy.

(a) Each season prior to making any recommendations pursuant to §923.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the ensuing season. Such marketing policy report shall contain information relative to:

1. The estimated total production of cherries within the production area;
2. The expected general quality and size of cherries in the production area and in other areas;
3. The expected demand conditions for cherries in different market outlets;
4. The expected shipments of cherries produced in the production area and in areas outside the production area;
5. Supplies of competing commodities;
6. Trend and level of consumer income;
7. Other factors having a bearing on the marketing of cherries;
8. The type of regulations expected to be recommended during the season.

(b) In the event it becomes advisable, because of changes in the supply and demand situation for cherries, to modify substantially such marketing policy, the committee shall submit to the Secretary a revised marketing policy report setting forth the information prescribed in this section. The committee shall publicly announce the contents of each marketing policy report.
including each revised marketing policy report, and copies thereof shall be maintained in the office of the committee where they shall be available for examination by growers and handlers.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for cherries during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 923.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of cherries whenever he finds, from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

(1) Limit, during any period or periods, the shipment of any particular grade, size, quality, maturity, or pack, or any combination thereof, of any variety or varieties of cherries grown in any district or districts of the production area;

(2) Limit the shipment of cherries by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level;

(3) Fix the size, capacity, weight, dimensions, or pack of the container, or containers, which may be used in the packaging or handling of cherries;

(b) The committee shall be informed immediately of any such regulation issued by the Secretary, and the committee shall promptly give notice thereof to growers and handlers.

§ 923.53 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §923.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of cherries in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such suspension.

§ 923.54 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§923.41, 923.52, 923.53, and 923.55, and the regulations issued thereunder, handle cherries (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to §923.41, §923.52, §923.53, or §923.55, the handling of cherries in such minimum quantities, or types of shipments, or for such specified purposes (including shipments to facilitate the conduct of marketing research and development projects established pursuant to §923.45), as the committee, with approval of the Secretary, may prescribe.
§ 923.63 **Effective time.**

The provisions of this part, and of any amendment thereto, shall become effective at such time as the Secretary

(b) The Secretary shall terminate or suspend the operation of any and all of the provisions of this part whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this part at the end of any fiscal period whenever he finds that continuance is not favored by the majority of producers who, during a representative period, determined by the Secretary, were engaged in the production area in the production of cherries for market: Provided, That such majority has produced for market during such period more than 50 percent of the volume of cherries produced for market in the production area; but such termination shall be effective only if announced on or before March 31 of the then current fiscal period.

(d) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 923.65 Proceedings after termination.

(a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person, full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant hereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered pursuant to this section shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 923.66 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulation issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 923.70 Personal liability.

No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission, or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 923.71 Separability.

If any provision of this part is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

(m) With the approval of the Secretary, to redefine the districts into which the production area is divided, and to reapportion the representation of any district on the committee: Provided, That any such changes shall reflect, insofar as practicable, shifts in prune production within the districts and the production area.

§ 924.32 Procedure.

(a) Six members of the committee, including alternates acting for members, shall constitute a quorum; and any action of the committee shall require the concurring vote of at least 6 members: Provided, That any action relating to regulations authorized by §§924.52 and 924.53 which would be effective in District 2 shall require the concurring vote of at least 2 members from District 2.

(b) The committee may provide for simultaneous meetings of groups of its members assembled at two or more designated places: Provided, That such meetings shall be subject to the establishment of communication between all such groups and the availability of loud speaker receivers for each group so that each member may participate in the discussions and other actions the same as if the committee were assembled in one place. Any such meeting shall be considered as an assembled meeting.

(c) The committee may vote by telegraph, telephone, or other means of communication, and any votes so cast shall be confirmed promptly in writing: Provided, That if an assembled meeting is held, all votes shall be cast in person.

§ 924.33 Expenses and compensation.

The members of the committee, and alternates when acting as members, shall be reimbursed for expenses necessarily incurred by them in the performance of their duties under this part and may also receive compensation, as determined by the committee, which shall not exceed $10 per day or portion thereof spent in performing such duties: Provided, That at its discretion the committee may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members, and may pay expenses and compensation, as aforesaid.

This annual report shall contain at least: (a) A complete review of the regulatory operations during the fiscal period; (b) an appraisal of the effect of such regulatory operations upon the prune industry; and (c) any recommendations for changes in the program.

EXPENSES AND ASSESSMENTS

§ 924.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds
are reasonable and likely to be incurred by the committee for its maintenance and functioning and to enable it to exercise its powers and perform its duties in accordance with the provisions of this part during each fiscal period. The funds to cover such expenses shall be acquired by the levying of assessments as prescribed in §924.41.

§924.41 Assessments.

(a) Each person who first handles prunes shall, with respect to the prunes so handled by him, pay to the committee upon demand such person’s pro rata share of the expenses which the Secretary finds will be incurred by the committee during each fiscal period. Each such person’s share of such expenses shall be equal to the ratio between the total quantity of prunes handled by him as the first handler thereof during the applicable fiscal period and the total quantity of prunes so handled by all persons during the same fiscal period. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all prunes handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year’s shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purpose.

§924.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for as follows:

(1) Except as provided in paragraphs (a) (2) and (3) of this section, each person entitled to a proportionate refund of any excess assessment shall be credited with such refund against the operation of the following fiscal period unless such person demands repayment thereof, in which event it shall be paid to him: Provided, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The committee, with the approval of the Secretary, may establish and maintain during one or more fiscal years an operating monetary reserve in an amount not to exceed approximately one fiscal year’s operational expenses. Funds in such reserve shall be available for use by the committee for all expenses authorized pursuant to §924.40.

(3) Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to his successor in office, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor full title to all of the property, funds, and claims vested in such member pursuant to this part.
§ 924.45 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of production research, and marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of fresh prunes. The expense of such projects shall be paid from funds collected pursuant to § 924.41.

[39 FR 33306, Sept. 17, 1974]

§ 924.50 Marketing policy.

(a) Each season prior to making any recommendations pursuant to § 924.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the ensuing season. Such marketing policy report shall contain information relative to:

1. The estimated total production of prunes within the production area;
2. The expected general quality and size of prunes in the production area and in other areas;
3. The expected demand conditions for prunes in different market outlets;
4. The expected shipments of prunes produced in the production area and in areas outside the production area;
5. Supplies of competing commodities;
6. Trend and level of consumer income;
7. Other factors having a bearing on the marketing of prunes; and
8. The type of regulations expected to be recommended during the season.

(b) In the event it becomes advisable, because of changes in the supply and demand situation for prunes, to modify substantially such marketing policy, the committee shall submit to the Secretary a revised marketing policy report setting forth the information prescribed in this section. The committee shall publicly announce the contents of each marketing policy report, including each revised marketing policy report, and copies thereof shall be maintained in the office of the committee where they shall be available for examination by growers and handlers.

§ 924.51 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate the handling of any variety or varieties of prunes in the manner provided in § 924.52, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply and demand for prunes during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 924.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of prunes whenever he finds, from the recommendations and information submitted by the committee, or from other available information, that such regulations will tend to effectuate the declared policy of the act. Such regulations may:

1. Limit, during any period or periods, the shipment of any particular grade, size, quality, maturity, or pack or any combination thereof, of any variety or varieties of prunes grown in any district or districts: Provided, That whenever any regulation under this paragraph prescribes a specific maturity requirement applicable to the handling of any variety of prunes, such maturity requirement shall apply uniformly to all prunes of such variety grown in both districts;

2. Limit the shipment of prunes by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level;

3. Fix the size, capacity, weight, dimensions, markings, or pack of the container, or containers, which may be used in the packaging or handling of prunes;
§ 924.53 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §924.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of prunes in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such suspension.

§ 924.54 Special purpose shipments.

(a) Except as otherwise provided in this section, any person may, without regard to the provisions of §§924.41, 924.52, 924.53, and 924.55, and the regulations issued thereunder, handle prunes (1) for consumption by charitable institutions; (2) for distribution by relief agencies; or (3) for commercial processing into products.

(b) Upon the basis of recommendations and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements, under or established pursuant to §924.41, §924.52, §924.53, or §924.55, the handling of prunes in such minimum quantities, or types of shipments, or for such specified purposes (including shipments to facilitate the conduct of marketing research and development projects established pursuant to §924.45) as the committee, with approval of the Secretary, may prescribe.

(c) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent prunes handled under the provisions of this section from entering the channels of trade for other than the specific purposes authorized by this section. Such rules, regulations, and safeguards may include the requirements that handlers shall file applications and receive approval from the committee for authorization to handle prunes pursuant to this section, and that such applications be accompanied by a certification by the intended purchaser or receiver that the prunes will not be used for any purpose not authorized by this section.

§ 924.55 Inspection and certification.

Whenever the handling of any variety of prunes is regulated pursuant to §924.52 or §924.53, each handler who handles prunes shall, prior thereto, cause such prunes to be inspected by the Federal or Federal-State Inspection Service, and certified by it as meeting the applicable requirements of such regulation: Provided, That inspection and certification shall be required for prunes which previously have been so inspected and certified only if such prunes have been regraded, resortied, repackaged, or in any other way further prepared for market. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection issued with respect to such prunes. The committee may, with the approval of the Secretary, prescribe rules and regulations modifying the inspection requirements of this section as to time and place such inspection shall be performed whenever it is determined it would not be practical to perform the required inspection at a particular location: Provided, That all such shipments shall comply with all regulations in effect.
REPORTS

§ 924.60 Reports.

(a) Upon request of the committee made with the approval of the Secretary, each handler shall furnish to the committee, in such manner and at such time as it may prescribe, such reports and other information as may be necessary for the committee to perform its duties under this part. Such reports may include, but are not necessarily limited to, the following: (1) The quantities of each variety of prunes received by a handler; (2) the quantities disposed of by him, segregated as to the respective quantities subject to regulation and not subject to regulation; (3) the date of each such disposition and the identification of the carrier transporting such prunes; and (4) the destination of each shipment of such prunes.

(b) All such reports shall be held under appropriate protective classification and custody by the committee, or duly appointed employees thereof, so that the information contained therein which may adversely affect the competitive position of any handler in relation to other handlers will not be disclosed. Compilations of general reports from data submitted by handlers are authorized, subject to the prohibition of disclosure of individual handler’s identities or operations.

(c) Each handler shall maintain for at least two succeeding years such records of the prunes received, and of prunes disposed of, by such handler as may be necessary to verify reports pursuant to this section.

MISCELLANEOUS PROVISIONS

(c) The Secretary shall terminate the provisions of this part at the end of any fiscal period whenever he finds that continuance is not favored by the majority of producers who, during a representative period determined by the Secretary, were engaged in the production area in the production of prunes for market in fresh form: Provided, That such majority has produced for market during such period more than 50 percent of the volume of prunes produced for fresh market in the production area; but such termination shall be effective only if announced on or before March 31 of the then current fiscal period.

(d) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.
§ 924.65 Proceedings after termination.

(a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such persons as the Secretary may direct; and (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person, full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant hereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered, pursuant to this section, shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 924.66 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued under this part, or (b) release or extinguish any violation of this part or of any regulation issued under this part, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

Nothing contained in the provisions of this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 924.70 Personal liability.

No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

(b) To receive, investigate, and report to the Secretary complaints of violations of the provisions of this part;

(c) To make and adopt rules and regulations to effectuate the terms and provisions of this part; and

(d) To recommend to the Secretary amendments to this part.
§ 925.29 Duties.

The committees shall have, among others, the following duties:

(a) To select a chairman and such other officers as may be necessary, and to define the duties of such officers;

(b) To appoint such employees, agents, and representatives as it may deem necessary, and to determine compensation and to define the duties of each;

(c) To submit to the Secretary as soon as practicable after the beginning of each fiscal period a budget for such period, including a report in explanation of the items appearing therein and a recommendation as to the rate of assessment for such period;

(d) To keep minutes, books, and records, which will reflect all of the acts and transactions of the committee and which shall be subject to examination by the Secretary;

(e) To prepare periodic statements of the financial operations of the committee and to make copies of each such statement available to growers and handlers for examination at the office of the committee;

(f) To cause its books to be audited by a competent public accountant at least once each fiscal period and at such times as the Secretary may request;

(g) To act as intermediary between the Secretary and any grower or handler;

(h) To investigate and assemble data on the growing, handling, and marketing conditions with respect to grapes;

(i) To submit to the Secretary the same notice of meetings of the committee as is given to its members;

(j) To submit to the Secretary such available information as may be requested; and

(k) To investigate compliance with the provisions of this part.

§ 925.30 Procedure.

(a) Eight members of the committee shall constitute a quorum and any action of the committee shall require at least eight concurring votes;

(b) The committee may vote by telephone, telegraph, or other means of communication; and any votes so cast shall be confirmed promptly in writing:

Provided, That if an assembled meeting is held, all votes shall be cast in person.

§ 925.31 Compensation and expenses.

The members of the committee, and alternates when acting as members, shall serve without compensation but may be reimbursed for expenses necessarily incurred by them in the performance of their duties under this part: Provided, That the committee at its discretion may request the attendance of one or more alternates at any or all meetings notwithstanding the expected or actual presence of the respective members and may pay expenses as aforesaid.

§ 925.32 Annual report.

The committee should, as soon as practicable, after the close of each fiscal period, prepare and mail an annual report to the Secretary and make a copy available to each grower and handler who requests a copy of the report.

EXPENSES AND ASSESSMENTS

§ 925.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee for its maintenance and functioning and to enable it to exercise its powers and perform its duties in accordance with the provisions of this part. The funds to cover such expenses shall be acquired in the manner prescribed in § 925.41.

§ 925.41 Assessments.

(a) Each person who first handles grapes shall pay to the committee, upon demand, such handler's pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred by the committee during a fiscal period. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person during a fiscal period in an amount designed to secure sufficient funds to
Agricultural Marketing Service, USDA

§ 925.45

cover the expenses which may be incurred during such period and to accumulate and maintain a reserve fund equal to approximately one fiscal period's expenses. At any time during or after a fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later findings by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all grapes handled during the applicable fiscal period. In order to provide funds for the administration of such provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments in the current period's shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purpose.

(c) Any assessment not paid by a handler within a period of time prescribed by the committee may be subject to an interest or late payment charge, or both. The period of time, rate of interest, and late payment charge shall be recommended by the committee and approved by the Secretary. Subsequent to such approval, all assessments not paid within the prescribed time shall be subject to the interest or late payment charge, or both.

§ 925.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in paragraph (d)(2) of this section, it shall be refunded proportionately to the persons from whom it was collected: Provided, That any sum paid by a person in excess of that person's pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: Provided, That funds in the reserve shall not exceed approximately one fiscal period's expenses. Such reserve funds may be used: (i) To defray expenses, during any fiscal period, prior to the time the assessment income is sufficient to cover such expenses; (ii) to cover deficits incurred during any fiscal period when assessment income is less than expenses; (iii) to defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative; or (iv) to cover necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practicable such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee under this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in such member's possession to the committee, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in the committee full title to all of the property, funds, and claims vested in such member pursuant to this part.

RESEARCH AND MARKET DEVELOPMENT

§ 925.45 Production research and market research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research and development projects designed to assist, improve or promote the marketing, distribution and consumption or the efficient production of grapes. The expense of such projects shall be paid from funds collected pursuant to this part.
§ 925.50 Marketing policy.

Each season prior to making any recommendation pursuant to §925.51 the committee shall submit to the Secretary a report setting forth its marketing policy for the ensuing marketing season. Such marketing policy report shall contain information relative to:

(a) The estimated total shipments of grapes produced within the production area;
(b) The expected general quality of grapes in the production area;
(c) The expected demand conditions for grapes;
(d) The probable prices for grapes;
(e) Supplies of competing commodities, including foreign produced grapes;
(f) Trend and level of consumer income;
(g) Other factors having a bearing on the marketing of grapes; and
(h) The type of regulations expected to be recommended during the marketing season.

§ 925.51 Recommendation for regulation.

Upon complying with the requirements of §925.50 the committee may recommend regulations to the Secretary whenever the committee deems that such regulations as are provided in §925.52 will tend to effectuate the declared policy of the act.

§ 925.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of grapes upon finding from the recommendations and information submitted by the committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such regulation may: (1) Limit the handling of any grade, size, quality, maturity, or pack, or any combination thereof, of any or all varieties of grapes during any period or periods; (2) limit the handling of any grade, size, quality, maturity, or pack of grapes differently for different varieties, or any combination of the foregoing during any period or periods; (3) limit the handling of grapes by establishing in terms of grades, sizes, or both, minimum standards of quality and maturity during any period when season average prices are expected to exceed the parity level; (4) fix the size, capacity, weight, dimensions, markings, materials, or pack of the container which may be used in handling of grapes; (5) establish holidays by prohibiting the packing of all varieties of grapes during a specified period or periods.

(b) No handler shall handle grapes that were packed during any period when such packing was prohibited by any regulation issued under paragraph (a)(5) of this section unless such grapes are handled under §925.54.

§ 925.53 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §925.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds from the recommendations and information submitted by the committee or from other available information that a regulation should be modified, suspended, or terminated with respect to any or all shipments of grapes in order to effectuate the declared policy of the act, the Secretary shall modify, suspend, or terminate such regulation. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, the Secretary shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate any such modification or suspension.

§ 925.54 Special purpose shipments.

(a) Regulations in effect pursuant to §925.41, §925.52, or §925.55 may be modified, suspended, or terminated to facilitate handling of grapes for purposes which may be recommended by the committee and approved by the Secretary.

(b) The committee shall, with the approval of the Secretary, prescribe such rules, regulations, and safeguards as it may deem necessary to prevent grapes handled under the provisions of this
Agricultural Marketing Service, USDA § 925.62

section from entering the channels of trade for other than the specific purposes authorized by this section.

INSPECTION AND CERTIFICATION

§ 925.55 Inspection and certification.

(a) Whenever the handling of any variety of grapes is regulated pursuant to § 925.52, each handler who handles grapes shall, prior thereto, cause such grapes to be inspected by the Federal or Federal-State Inspection Service and certified as meeting the applicable requirements of such regulation: Provided, That inspection and certification shall not be required for grapes which previously have been so inspected and certified if such prior inspection was performed within such period as may be established pursuant to paragraph (b) of this section. Promptly after the inspection and certification each such handler shall submit, or cause to be submitted, to the committee a copy of the certificate of inspection issued with respect to such grapes.

(b) The committee may, with the approval of the Secretary, establish a period prior to shipment during which the inspection required by this section must be performed.

(c) The committee may enter into an agreement with the Federal and Federal-State Inspection Services with respect to the inspection required by paragraph (a) of this section, and may collect from handlers their respective pro rata share of such costs.

REPORTS

§ 925.60 Reports.

(a) Each handler shall furnish to the committee, at such times and for such periods as the committee may designate, certified reports covering, to the extent necessary for the committee to perform its functions, each shipment of grapes as follows: (1) The name of the shipper and the shipping point; (2) the car or truck license number (or name of the trucker), and identification of the carrier; (3) the date and time of departure; (4) the variety; (5) the number and type of containers in the shipment; (6) the destination; and (7) identification of the inspection certificate pursuant to which the grapes were handled.

(b) Upon request of the committee, made with the approval of the Secretary, each handler shall furnish to the committee, in such manner and at such times as it may prescribe, such other information as may be necessary to enable the committee to perform its duties under this part.

(c) Each handler shall maintain for at least two succeeding fiscal periods after the end of the fiscal period in which the transactions occurred, such records of the grapes received and disposed of by such handler as may be necessary to verify the reports such handler submits to the committee pursuant to this section.

(d) All reports and records submitted by handlers pursuant to the provisions of this section shall be received by, and at all times be in custody of one or more designated employees of the committee. No such employee shall disclose to any person, other than the Secretary upon request therefor, data or information obtained or extracted from such reports and records which might affect the trade position, financial condition, or business operation of the particular handler from whom received: Provided, That such data and information may be combined, and made available to any person, in the form of general reports in which the identities of the individual handlers furnishing the information are not disclosed and may be revealed to any extent necessary to effect compliance with the provisions of this part and the regulations issued thereunder.

MISCELLANEOUS PROVISIONS

§ 925.61 Compliance.

Except as provided in this part, no handler shall handle grapes except in conformity with the provisions of this part and the regulations issued thereunder.

§ 925.62 Right of the Secretary.

§ 925.63 Termination.

(a) The Secretary shall terminate or suspend the operation of any and all of the provisions of this part whenever the Secretary finds that such provisions do not tend to effectuate the declared policy of the act.

(b) The Secretary shall terminate the provisions of this part whenever it is found by referendum or otherwise that such termination is favored by a majority of the growers: Provided, That such majority has during the current marketing season produced more than 50 percent of the volume of grapes which were produced within the production area for shipment in fresh form. Such termination shall become effective on the first day of December subsequent to the announcement thereof by the Secretary.

(c) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 925.64 Proceedings after termination.

(a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unclaimed or property not delivered at the time of such termination. Any action by said trustees shall require the concurrence of a majority of the trustees.

(b) The said trustees shall: (1) Continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such persons as the Secretary may direct; (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person, full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered, pursuant to this section, shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 925.65 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this part or any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not: (a) Affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued under this part; or (b) release or extinguish any violation of this part or any regulation issued under this part; or (c) affect or impair any rights or remedies of the Secretary or any other person with respect to any such violation.

§ 925.66 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this part shall cease upon its termination, except with respect to acts done under and during the existence of this part.

§ 925.67 Derogation.

Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States: (a) To exercise any powers granted by the act or otherwise; or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 925.68 Personal liability.

No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in
Agricultural Marketing Service, USDA

judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 925.69 Separability.

If any provision of this part is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

[52 FR 27538, July 22, 1987]

§ 925.141 Late payments.

(a) The committee shall impose a late payment charge of 5 percent on the unpaid balance on any handler whose assessment has not been received in the committee’s office, or the envelope containing the payment legibly postmarked by the U.S. Postal Service, within 45 days of the invoice date shown on the handler’s assessment statement.

(b) In addition to that specified in paragraph (a) of this section, the committee shall impose an interest charge on any handler whose assessment payment has not been received in the committee’s office, or the envelope containing the payment legibly postmarked by the U.S. Postal Service, within 45 days of the invoice date shown on the handler’s assessment statement.

(c) The committee, upon receipt of a late payment, shall promptly notify the handler (by registered mail) of any late payment charge and/or interest charge due as provided in paragraphs (a) and (b) of this section. If such charges are not paid, or the envelope containing payment is not legibly postmarked by the U.S. Postal Service, within 45 days of the date of such notification, late payment and interest charges as provided in paragraphs (a) and (b) of this section will accrue on the unpaid amount.

[57 FR 24352, June 9, 1992]

Subpart—Assessment Rates

§ 925.215 Assessment rate.

On and after January 1, 1997, an assessment rate of $0.01 per lug is established for grapes grown in a designated area of southeastern California.

§ 925.304 California Desert Grape Regulation 6.

During the period April 20 through August 15 each year, no person shall pack or repack any variety of grapes except Emperor, Almeria, Calmeria, and Ribier varieties, on any Saturday, Sunday, Memorial Day, or the observed Independence Day holiday, unless approved in accordance with paragraph (e) of this section, nor handle any variety of grapes except Emperor, Calmeria, Almeria, and Ribier varieties, unless such grapes meet the requirements specified in this section.

(a) Grade, size, and maturity. Except as provided in paragraphs (a)(1) and (a)(2) of this section, such grapes shall meet the minimum grade and size requirements of U.S. No. 1 table, as set forth in the United States Standards for Grades of Table Grapes (European or Vinifera Type 7 CFR 51.880 through 51.914), or shall meet all the requirements of U.S. No. 1 Institutional with the exception of the tolerance percentage for bunch size. Such tolerance shall be 33 percent instead of 4 percent as is required to meet U.S. No. 1 Institutional grade. Grapes meeting these quality requirements may be marked “DGAC No. 1 Institutional” but shall not be marked “Institutional Pack.” In addition, during the period June 1, 1998, through August 15, 1998, grapes may be handled that meet all the requirements of U.S. No. 1 Institutional, except that
§ 925.304  7 CFR Ch. IX (1–1–99 Edition)

clusters/bunches must consist of at least a 2 berry cluster ranging to clusters and/or bunches of grapes not greater than 19 ounces in weight. Such grapes must be marked “DGAC Consumer No. 1 Institutional” and meet the container requirements in paragraph (b)(1)(iii) of this section.

(1) Grapes of the Perlette variety shall meet the minimum berry size requirement of ten-sixteenths of an inch;

(2) Grapes of the Flame Seedless variety shall meet the minimum berry size requirement of ten-sixteenths of an inch; shall be considered mature if the juice contains not less than 15 percent soluble solids and the soluble solids are equal to or in excess of 20 parts to every part acid contained in the juice in accordance with applicable sampling and testing procedures specified in sections 1436.3, 1436.5, 1436.6, 1436.7, 1436.12, and 1436.17 of Article 25 of the California Administrative Code [Title 3].

(b) Container and pack. (1) Such grapes shall be packed in one of the following containers, which are new and clean, and which otherwise meet the requirements of sections 1380.14, and 1380.19(n), 1436.37, and 1436.38 of the Title 3: California Code of Regulations:

(ii) Containers with a net weight of 5 kilograms (approximately 11 pounds) shall be for export only.

(iii) Such other types and sizes of containers as may be approved by the Committee for experimental or research purposes: Provided, That for the period June 1, 1998, through August 15, 1998, master containers may be used if they are packed with individual consumer packs of grapes that weigh 1½ pounds or less, net weight, and meet the requirements of the “DGAC Consumer No. 1 Institutional.” Provided further, That grapes meeting the requirements of “DGAC Consumer No. 1 Institutional” shall be packed only in this container, and this master container shall be marked “DGAC Consumer No. 1 Institutional.”

2 The minimum net weight of grapes in any such containers, except for containers containing grapes packed in sawdust, cork, excelsior or similar packing material, or packed in bags or wrapped in plastic or paper, and containers authorized in paragraph (b)(1)(iii) of this section, shall be 20 pounds based on the average net weight of grapes in a representative sample of containers. Containers of grapes packed in bags or wrapped in plastic or paper prior to being placed in these containers shall meet a minimum net weight requirement of 18 pounds.

(3) Such containers of grapes shall be plainly marked with the lot stamp number corresponding to the lot inspection conducted by an authorized inspector, except that such requirement shall not apply to containers in the center tier of a lot palletized in a 3 box by a 3 box pallet configuration.

(c) Organically grown grapes. Organically grown grapes (defined to mean grapes which have been grown for market as natural grapes by performing all the normal cultural practices, but not using any inorganic fertilizers or agricultural chemicals including insecticides, herbicides, and growth regulators, except sulfur) need not meet the
minimum individual berry size requirements of this section if the following conditions and safeguards are met: (1) The handler of such grapes has registered and certified with the committee on a date specified by the committee the location of the vineyard, the acreage and variety of grapes, and such other information as may be needed by the committee to carry out these provisions; (2) each container of organically grown grapes bears the words “organically grown” on one outside end of the container in plain letters in addition to requirements specified under paragraph (b)(3) of this section.

(d) By-product grapes. The handling of grapes for processing (raisins, crushing and other by-products) is exempt from requirements specified in paragraphs (a), (b), and (c) of this section if the committee determines that the person handling such grapes has secured the appropriate permit or order from the County Agricultural Commissioner, and the by-product plant or packing plant to which the grapes are shipped has adequate facilities for commercial processing, grading, packing or manufacturing of by-products for resale.

(e) Suspension of packing holidays. Upon approval of the committee, the prohibition against packing or repacking grapes on any Saturday or Sunday, or on the Memorial Day or Independence Day holidays of each year, may be modified or suspended to permit the handling of grapes provided such handling complies with procedures and safeguards specified by the committee.

(f) Certain maturity, container, and pack requirements cited in this regulation are specified in the Title 3: California Code of Regulations and are incorporated by reference. Copies of such requirements are available from Ronald L. Cioffi, Chief, Marketing Order Administration Branch, F&V, AMS, USDA, Washington, DC 20090–6456, telephone (202) 720–2491. They are also available for inspection at the office of the Federal Register Information Center, 800 North Capitol Street, NW., suite 700, Washington, DC 20408. This incorporation by reference was approved by the Director of the Federal Register. These materials are incorporated as they existed on the date of the approval and a notice of any change in these materials will be published in the Federal Register.

(g) The Federal or Federal-State Inspection Service, F&V, AMS, USDA, is the governmental inspection service for certifying the grade, size, quality, and maturity of table grapes grown in the production area. The inspection and certification services will be available upon application in accordance with the rules and regulations governing inspections and certification of fresh fruits, vegetables, and other products (7 CFR part 51); except that all persons who request such inspection and certification must provide adequate facilities in which the inspections may be conducted and also provide the necessary equipment and incidental supplies that are considered as standard requirements for providing fresh inspection under Federal or Federal-State inspection procedures.

EDITORIAL NOTE: After January 1, 1979 “Budget of Expenses and Rate of Assessment” regulations (e.g. sections .200 through .299) and “Handling” regulations (e.g. sections .300 through .399) which are in effect for a year or less, will not be carried in the Code of Federal Regulations. The Control Committee is authorized to incur such expenses as the Secretary finds may be necessary to carry out its functions under this subpart. The funds to cover such expenses shall be acquired by the levying of assessments as provided in §927.41.
§ 927.41 Assessments.

(a) Assessments will be levied only upon handlers who first handle pears. Each handler shall pay assessments on all pears handled by such handler as the pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred by the Control Committee during a fiscal period. The payment of assessments for the maintenance and functioning of the Control Committee may be required under this part throughout the period such assessments are payable irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) Based upon a recommendation of the Control Committee or other available data, the Secretary shall fix the rate of assessment that handlers shall pay on all pears handled during each fiscal period, and may also fix supplemental rates of assessment on individual varieties or subvarieties to secure sufficient funds to provide for projects authorized under § 927.47. At any time during the fiscal period when it is determined on the basis of a committee recommendation or other information that a different rate is necessary for all pears or for any varieties or subvarieties, the Secretary may modify a rate of assessment and such new rate shall apply to any or all varieties or subvarieties that are shipped during the fiscal period.

(c) The Control Committee may impose a late payment charge on any handler who fails to pay any assessment within the time prescribed by the committee. In the event the handler thereafter fails to pay the amount outstanding, including the late payment charge, within the prescribed time, the Control Committee may impose an additional charge in the form of interest on such outstanding amount. The amount of such late payment charge and rate of interest, shall be prescribed by the Control Committee, with the approval of the Secretary.

(d) In order to provide funds to carry out the functions of the Control Committee prior to commencement of shipments in any season, handlers may make advance payments of assessments, which advance payments shall be credited to such handlers and the assessments of such handlers shall be adjusted so that such assessments are based upon the quantity of each variety of pears handled by such handlers during such season. Further, payment discounts may be authorized by the Control Committee upon the approval of the Secretary to handlers making such advance assessment payments.

§ 927.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, the committee, with the approval of the Secretary, may carryover such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve do not exceed approximately one fiscal period’s expenses. Such reserve may be used (1) to cover any expense authorized under this part and (2) to cover necessary expenses of liquidation in the event of termination of this part. Any such excess not retained in a reserve or applied to any outstanding obligation of the person from whom it was collected shall be refunded proportionately to the persons from whom it was collected. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

§ 927.44 Collection of unpaid assessments.

The Control Committee, with the approval of the Secretary, may institute and maintain, in its own name or in the names of its members, legal proceedings against any handler assessed for the collection of such handler's pro rata share of the aforesaid expenses.

§ 927.45 Contributions.

The Control Committee may accept voluntary contributions but these shall only be used to pay expenses incurred pursuant to section 927.47. Furthermore, such contributions shall be free from any encumbrances by the donor and the Control Committee shall retain complete control of their use.

Such projects may provide for any form of marketing promotion, including paid advertising. The expense of such projects shall be paid from funds collected pursuant to §§ 927.41 and 927.45. (a) It shall be the duty of the Control Committee to investigate, from time to time, supply and demand conditions relative to pears and each grade, size, and quality thereof; (2) prospective supplies and prices of Bartlett pears and other fruits, both in fresh and processed form, which are competitive to the marketing of pears; (3) prospective exports of pears and imports of pears from other producing areas; (4) probable harvesting period for each variety of pears; (5) the trend and level of consumer income; (6) general economic conditions; and (7) other relevant factors.

(b) On or before August 1 of each year, the Control Committee shall recommend regulations to the Secretary if it finds, on the basis of the foregoing investigations, that such regulation as is provided in §927.51 will tend to effectuate the declared policy of the act.

(c) In the event the Control Committee at any time finds that by reason of changed conditions any regulation issued pursuant to §927.51 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

§ 927.51 Issuance of regulations; and modification, suspension, or termination thereof.

(a) Whenever the Secretary finds, from the recommendations and information submitted by the Control Committee, or from other available information, that regulation, in the manner specified in this section, of the shipment of pears would tend to effectuate the declared policy of the act, he shall so limit the shipment of pears during a specified period or periods. Such regulation: (1) May limit the total quantity of any grade, size, quality, or combinations thereof, of any variety of pears grown in any district and may prescribe different requirements applicable to shipments to different export markets; or (2) may prescribe minimum standards of quality for any variety of pears and limit the shipment thereof to those meeting such minimum standards.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the Control Committee, or from other available information, that a regulation should be modified, suspended, or terminated with respect to any or all shipments of pears grown in any district in order to effectuate the declared policy of the
act, he shall so modify, suspend, or terminate such regulation. If the Secretary finds, from the recommendations and information submitted by the Control Committee, or from other available information, that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation. On the same basis and in like manner the Secretary may terminate such modification or suspension.

§ 927.52 Prerequisites to Control Committee recommendations.

(a) Decisions of the Control Committee with respect to any recommendations to the Secretary pursuant to the establishment or modification of a supplemental rate of assessment for an individual variety of pears shall be made by affirmative vote of not less than 75 percent of the applicable total number of votes, computed in the manner hereinafter described in this section, of all committee members. Decisions of the Control Committee pursuant to the provisions of § 927.50 shall be made by an affirmative vote of not less than 80 percent of the applicable total number of votes, computed in the manner hereinafter prescribed in this section, of all committee members.

(b) With respect to a particular variety of pears, the applicable total number of votes shall be the aggregate of the votes allotted to the members of the committee in accordance with the following: Each member shall have one vote as an individual and, in addition, shall have an equal share of the vote of the district represented by such member; and such district vote shall be computed by the Control Committee as soon as practical after the beginning of each fiscal period on either—

(1) The basis of one vote for each 25,000 boxes (except 2,500 boxes for Forelle and Seckel varieties) of the average quantity of such variety produced in the particular district and shipped therefrom during the immediately preceding three fiscal periods; or

(2) Such other basis as the Control Committee may recommend and the Secretary may approve.

§ 927.54 Exemption certificates.

(a) As soon as practicable after the beginning of each fiscal period the Control Committee shall adopt and announce the procedural rules by which exemption certificates may be issued to growers. The Control Committee shall determine the percentage which the grades and sizes of each variety of pears permitted to be shipped from each district under the regulation bears to the total quantity of each variety of pears which could be shipped from that district in the absence of regulation. An exemption certificate may thereafter be granted to any grower who furnishes proof that he will be prevented, because of the regulation in effect, from shipping a percentage of a particular variety of his pears equal to the percentage of pears of that particular variety permitted to be shipped from his district as determined by the Control Committee. Such exemption certificate shall permit the growers to ship that quantity of the particular variety of pears of the regulated grades and sizes of such variety as will enable him to ship as large a percentage of such variety of his pears as the average percentage of that particular variety of pears that is permitted to be shipped by all growers in his district.

(b) In the event the Control Committee shall determine and report to the Secretary that, by reason of general crop failure or other extraordinary conditions within a particular district,

Promptly after shipment of any pears, the handler shall submit, or cause to be submitted, to the Control Committee a copy of the inspection certificate issued on such shipment.

(b) Any handler may ship pears, on any one conveyance and in such quantity as the committee, with the approval of the Secretary, may prescribe, exempt from the inspection and certification requirements of paragraph (a) of this section.

§ 927.65 Exemption from regulation.

(a) Nothing contained in this subpart shall limit or authorize the limitation of shipment of pears for consumption by charitable institutions or distribution by relief agencies or conversion into by-products, nor shall any assessment be computed on pears so shipped. The Control Committee may prescribe regulations to prevent pears shipped for either of such purposes from entering commercial fresh-fruit channels of trade contrary to the provisions of this subpart.

(b) The Control Committee may prescribe rules and regulations, to become effective upon the approval of the Secretary, whereby quantities of pears or types of pear shipments may be exempted from any or all provisions of this subpart: Provided, That pears so shipped shall not thereafter be handled contrary to the provisions of this subpart.

(c) The Control Committee may, with the approval of the Secretary, designate storage warehouses within the area and prescribe rules and regulations whereby pears may be shipped to such storage warehouses exempt from the provisions of this subpart.

§ 927.75 Liability of Control Committee members.

No member or alternate for a member of the Control Committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any party under this subpart or to any other person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate for a member, or employee, except for acts of dishonesty.

The provisions of this subpart shall become effective August 26, 1939, and shall continue in force until terminated in one of the ways specified in §927.78.

§ 927.78 Termination.

(a) The Secretary may at any time terminate this subpart.

(b) The Secretary shall terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such operation obstructs or does not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever the Secretary finds that such termination is favored by a majority of the growers of pears who, during such fiscal period, have been engaged in the area in the production of pears for market: Provided, That such majority have produced for market during such period more than 50 percent of the volume of pears produced for market in the area. Such termination shall be effective only if announced on or before the last day of the then current fiscal period.

(d) The Secretary shall conduct a referendum within every six-year period beginning on the date this section becomes effective, to ascertain whether continuance of this subpart is favored by producers. The Secretary may terminate the provisions of this subpart at the end of any fiscal period in which the Secretary has found that continuance of this subpart is not favored by producers who, during a representative period determined by the Secretary, have been engaged in the production for market of pears in the production area: Provided, That termination of the order shall be effective only if announced on or before the last day of the then current fiscal period.

(e) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 927.79 Proceedings after termination.

(a) Upon the termination of this subpart, the members of the Control Committee then functioning shall continue as joint trustees for the purpose of liquidating all funds and property then in the possession or under the control of the Control Committee, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The joint trustees shall continue in such capacity until discharged by the Secretary; from time to time account for all receipts and disbursements; deliver all funds and property on hand, together with all books and records of the Control Committee and of the joint trustees, to such person as the Secretary shall direct; and, upon
the request of the Secretary, execute such assignments or other instruments necessary and appropriate to vest in such person full title to all of the funds or claims vested in the Control Committee or in said joint trustees.

(c) Any funds collected pursuant to this subpart and held by such joint trustees or such person over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the joint trustees or such other person in the performance of their duties under this subpart, as soon as practicable after the termination hereof, shall be returned to the handlers pro rata in proportion to their contributions thereto.

(d) Any person to whom funds, property, or claims have been delivered by the Control Committee or its members, upon direction of the Secretary, as provided in this section, shall be subject to the same obligations and duties with respect to said funds, property, or claims as are imposed upon the members of said Committee or upon said joint trustees.

§ 927.80 Amendments.

Amendments to this subpart may be proposed from time to time by the Control Committee or by the Secretary.

§ 927.81 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart or the issuance of any amendment to either, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued hereunder, or (b) release or extinguish any violation of this subpart or of any regulation issued hereunder, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

As a part, and in support, of the application for an exemption certificate, the applicant shall submit one or more inspection certificates (or copies thereof) issued by a duly authorized

The said exemption committee shall have the right to make or cause to be made such additional investigation as may be necessary to determine whether the portion of the applicant’s production covered by the inspection certificates adequately represents the applicant’s total production of such variety. The cost of such inspection shall be borne by the applicant. The application to be submitted shall be “Form E–1 Growers Application for Exemption Certificate” and shall contain the following information:

(f) The quantity of such variety which meets the requirements of the aforesaid effective grade, size, or quality regulations (such quantity shall be determined by applying the applicable percentage prescribed in paragraph (e) of this section to be the estimated quantity pursuant to paragraph (d) of this section);

(g) The total crop of such variety and the quantity shipped during the preceding marketing season;

(h) The names of the shippers who shipped all or any portion of the applicant’s aforesaid crop during the preceding marketing season;

(i) The reasons why the quantity of the particular variety of pears, for which exemption is requested, does not meet the aforesaid effective grade, size, or quality regulations; and

§ 927.111 Exemption committee.

The members and alternate members of the Control Committee residing in the district in which the applicant grower’s orchard is located shall act as an exemption committee for that district and shall make or cause to be made such investigation as may be necessary to determine whether and to what extent such applicant will be prevented, because of the aforesaid grade, size, or quality regulations in effect, from shipping as large a percentage of the particular variety of his pears as the percentage of all pears of that particular variety permitted to be shipped from his district as determined by the Control Committee. In the event any member or alternate member of the Control Committee shall himself apply for an exemption certificate he shall be disqualified to serve as a member of the exemption committee to act upon the application.

§ 927.112 Issuance of exemption certificate.

§ 927.113 Appeal to Control Committee.
Any grower, whose application is denied in whole or in part by the appropriate exemption committee or by the secretary of the Control Committee, may file a written appeal with the Control Committee within fifteen (15) days after the date of the notice to such grower of the decision involved. Upon receipt of such appeal, the secretary of the Control Committee shall submit the same, together with all applicable information and data, including the report of the exemption committee on that grower’s application to the members of the Control Committee, who thereafter shall review the same and shall determine whether and to what extent the applicant is entitled to an exemption certificate. Thereupon the secretary of the Control Committee shall issue to that grower such exemption certificate as the Control Committee shall determine to be proper.

§ 927.114 Appeal to Secretary.
Any grower who is dissatisfied with the Control Committee’s determination with respect to any appeal by that grower from a decision by an exemption committee or by the Secretary of the Control Committee with respect to that grower’s application for an exemption certificate, may appeal from such determination by the Control Committee to the Secretary of Agriculture. Any such appeal shall be made by filing with the secretary of the Control Committee a written notice of appeal within fifteen (15) days after notice to that grower of the aforesaid determination by the Control Committee. Promptly upon receipt of notice of an appeal signed by the applicant, the secretary of the Control Committee shall forward to the Secretary of Agriculture, or to his designated representative, a true and correct copy of all information pertaining to that grower’s application for an exemption certificate and the action taken thereon by the Control Committee, together with such written information and proof as was submitted to or obtained by the Control Committee with regard to said application, and a true copy of the appellant grower’s notice of appeal.

(k) To investigate compliance with the provisions of this part.

§ 929.32 Procedure.

(a) Five members of the committee, or alternates acting for members, shall constitute a quorum and any action of the committee shall require at least five concurring votes: Provided, That if the committee is increased by the addition of a public member and such public member or alternate is present at a meeting, 6 members shall constitute a quorum and any action of the committee on which the public member votes shall require 6 concurring votes. If the public member abstains from voting on any particular matter, 5 concurring votes shall be required for an action of the committee.

(b) The committee may vote by telephone, telegraph, or other means of communication, and any votes so cast shall be confirmed promptly in writing: Provided, That if an assembled meeting is held, all votes shall be cast in person.

(c) All assembled meetings of the committee shall be open to growers and handlers. The committee shall publish notice of such meetings in such newspapers as it deems appropriate and shall mail notice of such meetings to each grower and handler who has filed his name and address with the committee for such purpose.

§ 929.33 Expenses and compensation.

The members of the committee, and alternates when acting as members, shall serve without compensation but shall be reimbursed for necessary expenses, as approved by the committee, incurred by them in the performance of their duties under this part. The committee at its discretion may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members, and may pay expenses, as aforesaid.
EXPENSES AND ASSESSMENTS

§ 929.40 Expenses.
The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee for its maintenance and functioning and to enable it to exercise its powers and perform its duties in accordance with the provisions hereof. The funds to cover such expenses shall be paid to the committee by handlers in the manner prescribed in §929.41.

§ 929.41 Assessments.
(a) As a handler’s pro rate share of the expenses which the Secretary finds are reasonable and likely to be incurred by the committee during a fiscal period, a handler shall pay to the committee assessments on all cranberries acquired as the first handler thereof during such period, except as provided in §929.55: Provided, That no handler shall pay assessments on excess cranberries as provided in §929.57. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect, irrespective of whether particular provisions thereof are suspended or become inoperative.
(b) The Secretary shall fix the rate of assessment to be paid by each handler during a fiscal period in an amount designated to secure funds sufficient to cover the expenses which may be incurred during such period and to accumulate and maintain a reserve fund equal to approximately one fiscal period's expenses. At any time during or after the fiscal period, the Secretary may increase the assessment rate in order to secure funds sufficient to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all cranberries acquired during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal year, before sufficient operating income is available from assessments, the committee may accept the payment of assessments in advance and may also borrow money for such purposes.

(c) If a handler does not pay such assessment within the period of time prescribed by the committee, the assessment may be increased by either a late payment charge, or an interest charge, or both, at rates prescribed by the committee, with the approval of the Secretary.

[57 FR 38748, Aug. 27, 1992]

§ 929.42 Accounting.
(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, the committee, with the approval of the Secretary, may carryover such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve do not exceed approximately one fiscal period's expenses. Such reserve funds may be used (1) to cover any expenses authorized by this part and (2) to cover necessary expenses of liquidation in the event of termination of this part. If any such excess is not retained in a reserve, it shall be refunded proportionately to the handlers from whom the excess was collected. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate; Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.
(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

RESEARCH

§ 929.45 Research and development.
(a) The committee, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research, and market development projects designed to assist, improve, or promote the marketing, distribution, consumption, or efficient production of cranberries. The expense of such projects shall be paid
§ 929.46 Marketing policy.

(a) Each year prior to May 1 the committee shall estimate the marketable quantity for the following crop year.

(b) As soon as practicable after August 1 of each crop-year and prior to making any recommendations pursuant to paragraphs (b) (7) and (8) of this section or to §929.51, the committee shall submit to the Secretary a report setting forth its marketing policy for the crop-year. Such marketing policy shall contain the basis therefor and information relating to:

1. The estimated total production of cranberries;
2. The expected general quality of such cranberry production;
3. The estimated carryover, as of September 1, of frozen cranberries and other cranberry products;
4. The expected demand conditions for cranberries in different market outlets;
5. Supplies of competing commodities;
6. Trend and level of consumer income;
7. The recommended desirable total marketable quantity of cranberries including a recommended adequate carryover into the following crop year of frozen cranberries and other cranberry products;
8. Regulation pursuant to §929.52 expected to be recommended by the committee during the crop year together with its recommendation of the free and restricted percentages and beginning with the 1974–75 crop year, the recommended allotment percentages, if any, for the crop year; and
9. Other factors having a bearing on the marketing of cranberries.

§ 929.47 Preliminary regulation.

(a) Beginning with the 1968–69 crop year, and continuing for each crop year thereafter through August 31, 1974, no handler shall handle, as the first handler thereof, cranberries purchased by him from a grower or acquired by him for handling for the account of a grower until he has determined the identity of the grower and the quantity of cranberries attributed to such grower. The handler shall furnish such information to the committee at such times and in such forms as the committee, with the approval of the Secretary, may request.

(b) So that each producer may qualify for a base quantity, pursuant to §929.48, the committee shall furnish each producer early in each calendar year beginning in 1969, and as soon as practicable after the effective date of the amendment for the 1968 calendar year, a form to be filed with the committee whereon the producer reports the location of his bog(s), the acreage of cranberries he intends to harvest, and such other information as the committee needs to establish a base quantity for such producer.

[33 FR 11641, Aug. 16, 1968]

§ 929.48 Sales history.

(a) Determination of sales history.

1. The initial sales history shall be computed by the committee for each grower using the best four out of six years of such grower’s sales history, which shall include all commercial sales from the first complete crop year following adoption of this amendment, plus the prior five years’ history of commercial sales, except as otherwise provided in paragraph (a)(5) of this section. For a grower with four years or less of commercial sales history, the initial sales history shall be computed by the committee using all available years of such grower’s commercial sales history.

2. A new sales history shall be computed for each grower after each crop year during which no volume regulation was established, in the same manner as for the initial sales history, except that the most recent crop year shall be used instead of the earliest.
Agricultural Marketing Service, USDA § 929.49

§ 929.49 Marketable quantity, allotment percentage, and annual allotment.

(a) Marketable quantity and allotment percentage. If the Secretary finds, from the recommendation of the committee or from other available information, that limiting the quantity of cranberries purchased from or handled on behalf of growers during a crop year would tend to effectuate the declared policy of the Act, the Secretary shall determine and establish a marketable quantity for that crop year.

(b) The marketable quantity shall be apportioned among growers by applying the allotment percentage to each grower’s sales history, established pursuant to §929.48. Such allotment percentage shall be established by the Secretary and shall equal the marketable quantity divided by the total of all growers’ sales histories. Except as provided in paragraph (f) of this section, no handler shall purchase or handle on behalf of any grower cranberries not within such grower’s annual allotment.

(c) In any crop year in which the production of cranberries is estimated by the committee to be equal to or less than its recommended marketable quantity, the committee may recommend and the Secretary may increase or suspend the allotment percentage applicable to that year. In the event it is found that market demand is greater than the marketable quantity previously set, the committee may recommend and the Secretary may increase such quantity.

(d) Issuance of annual allotments. The committee shall require all growers to qualify for that allotment by filing with the committee, on or before April 15 of each year, a form wherein growers include the following information: The location of their cranberry producing acreage from which their annual allotment will be produced; the amount of acreage which will be harvested; changes in location, if any, of annual allotment; and such other information,
§ 929.50 Transfers.

(a) Transfers to another grower. A grower who owns cranberry acreage on which a sales history has been established may transfer the acreage and sales history to another grower. When transfers of acreage occur, transfers of sales history will be made under the following conditions:

(1) A lease agreement between the owner of the cranberry producing acreage and a lessee: Terms of such lease agreement shall be filed with the committee prior to the committee recognizing such transfer. The lease agreement filed with the committee shall include the following information:

(i) Name of owner and lessee;
(ii) Starting and ending dates of the lease;
(iii) Amount of acreage transferred; and
(iv) The amount of sales history transferred.

(2) Total sale of cranberry acreage. When there is a sale of a grower’s total cranberry producing acreage, the seller and buyer shall file a completed transfer form with the committee and the buyer will have immediate access to the sales history computation process.

(3) Partial sale or lease of cranberry acreage. When less than the total cranberry producing acreage is sold or leased, sales history associated with the portion of the acreage being sold or leased shall be transferred to the committee pursuant to paragraph (g) of this section.

(g) Handlers who receive cranberries more than the sum of their growers’ annual allotments have “excess cranberries,” pursuant to §929.59, and shall so notify the committee. Handlers who have remaining unused allotment pursuant to paragraph (f) of this section are “deficient” and shall so notify the committee. The committee shall equitably distribute unused allotment to all handlers having excess cranberries.

(h) The committee may establish, with the approval of the Secretary, rules and regulations necessary for the implementation and operation of this section.

[33 FR 11641, Aug. 16, 1968, as amended at 57 FR 38749, Aug. 27, 1992]
§ 929.51 Recommendations for regulation.

(a) Whenever the committee deems it advisable to regulate the handling of cranberries in the manner provided in §929.52, it shall so recommend to the Secretary.

(b) In arriving at its recommendations for regulation pursuant to paragraph (a) of this section, the committee shall give consideration to current information with respect to the factors affecting the supply of and demand for cranberries during the period or periods when it is proposed that such regulation should be made effective. With each such recommendation for regulation, the committee shall submit to the Secretary the data and information on which such recommendation is predicated and such other available information as the Secretary may request.

§ 929.52 Issuance of regulations.

(a) The Secretary shall regulate, in the manner specified in this section, the handling of cranberries whenever the Secretary finds, from the recommendations and information submitted by the committee, or from other available information, that such regulation will tend to effectuate the declared policy of the Act. Such regulation shall limit the total quantity of cranberries which may be handled during any fiscal period either by fixing the free and restricted percentages, which percentages shall be applied to cranberries acquired by handlers during such fiscal period in accordance with §929.54, or by establishing an allotment percentage in accordance with §929.49.

(b) The committee shall be informed immediately of any such regulation issued by the Secretary, and the committee shall promptly give notice thereof to handlers.

[27 FR 8101, Aug. 15, 1962, as amended at 57 FR 38750, Aug. 27, 1992]

§ 929.53 Modification, suspension, or termination of regulations.

(a) In the event the committee at any time finds that, by reason of changed conditions, any regulations issued pursuant to §929.52 should be modified, suspended, or terminated, it shall so recommend to the Secretary.

(b) Whenever the Secretary finds, from the recommendations and information submitted by the committee or from other available information, that a regulation should be modified, suspended, or terminated in order to effectuate the declared policy of the act, he shall modify, suspend, or terminate such regulation: Provided, That no such modification shall increase the restricted percentage previously established for the then current fiscal year. If the Secretary finds that a regulation obstructs or does not tend to effectuate the declared policy of the act, he shall suspend or terminate such regulation.

§ 929.54 Withholding.

(a) Whenever the Secretary has fixed the free and restricted percentages for any fiscal period, as provided for in §929.52(a), each handler shall withhold from handling a portion of the cranberries he acquires during such period: Provided, That such withholding requirements shall not apply to any lot of cranberries for which such withholding requirement previously has been met by another handler in accordance with §929.55. The withheld portion shall be equal to the sum of the products obtained by multiplying each of the following quantities, as applicable, by the restricted percentage:

(1) The quantity of screened cranberries acquired:

(2) The quantity of screened cranberries obtained at the time unscreened lots of cranberries are screened: Provided, That, if the cranberries have not been screened by a date specified by the committee, with the approval of the Secretary, as the date by which each handler shall have met the withholding requirement, the quantity of screened cranberries shall
§ 929.55 Interhandler transfer.

(a) Transfer of cranberries from one handler to another may be made without prior notice to the committee, except during a period when a volume regulation has been established. If such transfer is made between handlers who have packing or processing facilities located within the production area, the assessment and withholding obligations provided under this part shall be met by the handler residing within the production area.

(b) All handlers shall report all such transfers to the committee on a form provided by the committee four times a year or at other such times as may be recommended by the committee and approved by the Secretary.

(c) The committee may establish, with the approval of the Secretary, rules and regulations necessary for the implementation and operation of this section.

§ 929.56 Special provisions relating to withheld (restricted) cranberries.

(a) Except as otherwise directed by the Secretary, as near as practicable to the beginning of the marketing season of each fiscal period with respect to which the marketing policy proposes regulation pursuant to §929.52(a), the committee shall determine the amount per barrel each handler shall deposit with the committee for it to release to him, in accordance with paragraph (b) of this section, all or part of the cranberries he is withholding; and the committee shall give notice of such amount of deposit to handlers. Such notice shall state the period during which such amount of deposit shall be in effect. Whenever the committee determines that, by reason of changed

conditions or otherwise, a different amount should thereafter be deposited for the release of withheld cranberries, it shall give notice to handlers of the new amount and the effective period thereof. Each determination as to the amount of deposit shall be on the basis of the committee's evaluation of the following factors:

(1) The prices at which growers are selling cranberries to handlers,

(2) The prices at which handlers are selling fresh market cranberries to dealers,

(3) The prices at which cranberries are being sold for processing into products, and

(4) The prices the committee has paid to purchase cranberries to replace released cranberries in accordance with this section.

(b) Any handler may make a written request to the committee for the release of all or part of the cranberries he is withholding from handling pursuant to §929.54(a). Each such request shall state, in addition to all other information as may be prescribed by the committee, the quantity of cranberries for which release is requested and shall be accompanied by a deposit (in cash, or a cashier's or certified check made payable to the Cranberry Marketing Committee) in an amount equal to the product of the number of barrels stated in the request multiplied by the then effective amount per barrel to be deposited. If the committee determines such request is properly filled out, is accompanied by the required deposit, and contains a certification that the handler is withholding such cranberries, it shall release to such handler the quantity of cranberries specified in his request. Such determination shall be made not later than 72 hours after the request is received by the committee.

(c) Funds deposited for the release of withheld cranberries, pursuant to paragraph (a) of this section, shall be used by the committee to purchase from handlers unrestricted (free percentage) cranberries in an aggregate amount as nearly equal to, but not in excess of, the total quantity of the released cranberries as it is possible to purchase to replace the released cranberries. All handlers shall be given an opportunity to participate in such purchase. If a larger quantity is offered than can be purchased, the purchases shall be made at the lowest prices possible. If two or more handlers offer at the same price, purchases from such handlers shall be in proportion to the quantity of their respective offerings insofar as such division is practicable. The cranberries so purchased shall be disposed of by the committee as restricted cranberries in accordance with §929.57. Any funds received by the committee for cranberries so disposed of, which are in excess of the costs incurred by the committee in making such disposition, shall be paid or credited proportionately to handlers on the basis of the volume of cranberries withheld by each handler.

(d) In the event any portion of the funds deposited with the committee pursuant to paragraph (a) of this section cannot, for reasons beyond the committee's control, be expended to purchase unrestricted (free percentage) cranberries to replace those released, such unexpended funds shall, after deducting expenses incurred by the committee in connection with the purchase and disposition of cranberries pursuant to paragraph (c) of this section, be offered and paid or credited proportionately to handlers on the basis of the volume of cranberries withheld by each handler. In the event that the offer is not accepted or directions given by a handler to credit the funds within 90 days, the funds will accrue to the committee's general account.

(e) Cranberries purchased by the committee to replace released cranberries shall be inspected and shall meet such standards as are prescribed for withheld cranberries.

(f) Inspection of withheld cranberries released to a handler is not required.

§ 929.57 Outlets for restricted cranberries.

(a) Except as provided in this section and in §929.56, cranberries withheld from handling may be disposed of only through diversion to such outlets as the committee, with the approval of
§ 929.58 Exemption.

(a) Upon the basis of the recommendation and information submitted by the committee, or from other available information, the Secretary may relieve from any or all requirements pursuant to this part the handling of cranberries in such minimum quantities as the committee, with the approval of the Secretary, may prescribe.

(b) The committee, with the approval of the Secretary, shall prescribe such rules, regulations, and safeguards as it may deem necessary to ensure that cranberries handled under the provisions of this section are handled only as authorized.

§ 929.59 Excess cranberries.

(a) Whenever the Secretary establishes an allotment percentage pursuant to §929.52, handlers shall be notified by the committee of such allotment percentage and shall withhold from handling such cranberries in excess of the total of their growers' annual allotments obtained during such period. Such withheld cranberries shall be defined as "excess cranberries" after all unused allotment has been allocated.

(1) Excess cranberries received by a handler shall be made available for inspection by the committee or its representatives from the time they are received until final disposition is completed. Such excess cranberries shall be identified in such manner as the committee may specify in its rules and regulations with the approval of the Secretary.

(2) All matters dealing with handler-held excess cranberries shall be in accordance with such rules and regulations established by the committee, with the approval of the Secretary.

(b) Prior to January 1, or such other date as recommended by the committee and approved by the Secretary, handlers holding excess cranberries shall submit to the committee a written plan outlining procedures for the systematic disposal of such cranberries in the outlets prescribed in §929.61.

(c) Prior to March 1, or such other date as recommended by the committee and approved by the Secretary, all excess cranberries shall be disposed of pursuant to §929.61.

[57 FR 38750, Aug. 27, 1992]

(a) Charitable institutions;

(b) Research and development projects described pursuant to §929.61;

(c) Any nonhuman food use;

(d) Foreign markets, except Canada; and

(e) Other purposes which may be recommended by the committee and approved by the Secretary.

§ 929.61 Outlets for excess cranberries.

(a) Noncommercial outlets. Excess cranberries may be disposed of only in the following noncommercial outlets that the committee finds, with the approval of the Secretary, meet the requirements outlined in paragraph (c) of this section:

(1) Charitable institutions; and

(2) Research and development projects approved by the U.S. Department of Agriculture for the development of foreign and domestic markets, including, but not limited to, dehydration, radiation, freeze drying, or freezing of cranberries.

(b) Noncompetitive outlets. Excess cranberries may be sold to outlets that the committee finds, with the approval of the Secretary, are noncompetitive with established markets for regulated cranberries and meet the requirements outlined in paragraph (c) of this section. These outlets include:

(1) Any nonhuman food use; and

(2) Foreign markets, except Canada.
(c) Requirements for diversion. The following requirements, as applicable, shall be met by the handler diverting excess cranberries into noncompetitive or noncommercial outlets:

1. Diversion to charitable institutions.
   A statement from the charitable institution shall be submitted to the committee showing the quantity of cranberries received and certifying that the cranberries will be utilized by the institution;

2. Diversion to research and development projects.
   A report shall be given to the committee describing the project, quantity of cranberries diverted, and date of disposition;

3. Diversion to a nonhuman food use.
   Notification shall be given to the committee at least 48 hours prior to such disposition; and

4. Diversion to foreign markets, except Canada.
   A copy of the on-board bill of lading shall be submitted to the committee showing the amount of cranberries loaded for export.

(d) The storage and disposition of all excess cranberries withheld from handling shall be subject to the supervision and accounting control of the committee.

(e) The committee, with the approval of the Secretary, may establish as needed rules and regulations for the implementation and operation of this section.

§ 929.62 Reports.

(a) Inventory. Each handler shall, upon request of the committee, file promptly with the committee a certified report, showing such information as the committee shall specify with respect to any cranberries and cranberry products which were held by him on such date as the committee may designate.

(b) Receipts. Each handler shall, upon request of the committee, file promptly with the committee a certified report as to each quantity of cranberries acquired during such period as may be specified, and the place of production.

(c) Handling reports. Each handler shall, upon request of the committee, file promptly with the committee a certified report as to the quantity of cranberries handled by him during any designated period or periods.

(d) Withholding. Each handler shall, upon request of the committee, file promptly with the committee a certified report showing, for such period as the committee may specify, the total quantity of cranberries withheld from handling, in accordance with §929.54, the portion of such withheld cranberries on hand, and the quantity and manner of disposition of any such withheld cranberries disposed of.

(e) Other reports. Upon the request of the committee, with the approval of the Secretary, each handler shall furnish to the committee such other information with respect to the cranberries acquired and disposed of by such handler as may be necessary to enable the committee to exercise its powers and perform its duties under this part.

§ 929.63 Records.

Each handler shall maintain such records of all cranberries acquired, withheld from handling, handled, and otherwise disposed of as will substantiate the required reports and as may be prescribed by the committee. All such records shall be maintained for not less than three years after the termination of the crop year in which the transactions occurred or for such lesser period as the committee may direct.

§ 929.64 Verification of reports and records.

For the purpose of assuring compliance and checking and verifying records and the reports filed by handlers, the committee, through its duly authorized agents, shall have access to any premises where applicable records are maintained, where cranberries are received, stored, handled, and otherwise disposed of, and at any time during reasonable business hours, shall be permitted to inspect such handler premises and any and all records of such handlers with respect to matters within the purview of this part.

§ 929.65 Confidential information.

All reports and records furnished or submitted by handlers to the committee and its authorized agents which include data or information constituting a trade secret or disclosing the trade position, financial condition, or business operations of the particular handler from whom received, shall be received by and at all times kept in the custody and under the control of one or more employees of the committee, who shall disclose such information to no person other than the Secretary.

MISCELLANEOUS PROVISIONS

§ 929.66 Compliance.

(c) The Secretary shall terminate the provisions of this part whenever he finds by referendum or otherwise that such termination is favored by a majority of the growers: Provided, That such majority has, during the current fiscal year, produced more than 50 percent of the volume of the cranberries which were produced within the production area. Such termination shall become effective on the last day of July subsequent to the announcement thereof by the Secretary.

(d) The Secretary shall conduct a referendum during the month of May 1975 to ascertain whether continuance of this part is favored by the growers as set forth in paragraph (c) of this section. The Secretary shall conduct such a referendum during the month of May of every fourth year thereafter.

(e) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be effective.

§ 929.70 Proceedings after termination.

(a) Upon the termination of the provisions of this part, the committee shall, for the purpose of liquidating the affairs of the committee, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall (1) continue in such capacity until discharged...
by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such persons as the Secretary may direct; and (3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.

(c) Any person to whom funds, property, or claims have been transferred or delivered, pursuant to this section, shall be subject to the same obligation imposed upon the committee and upon the trustees.

§ 929.71 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued hereunder, or (b) release or extinguish any violation of this part or any regulation issued hereunder, or (c) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

§ 929.74 Derogation.

Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States (a) to exercise any powers granted by the act or otherwise, or (b) in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 929.75 Personal liability.

No member or alternate member of the committee and no employee or agent of the committee shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 929.76 Separability.

If any provision of this part is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

Subpart—Rules and Regulations

§ 929.101 Minimum exemption.

The requirements of §929.41 Assessments and §929.54 Withholding shall not apply to any handler in a fiscal year during which the handler handles
§ 929.102 Procedure to determine quantity of screened cranberries in unscreened lots.

The determination pursuant to §929.54 of the quantity of screened cranberries contained in an unscreened lot shall be made in accordance with the following procedure and on the basis of a sample of representative boxes comprising no less than 2 percent of the cranberries in the lot:

(a) The cranberries in the sample are cleaned to remove chaff, and the boxes of cleaned berries are weighed. The weight of the boxes themselves is then deducted to determine the weight of the cleaned berries. The weight of the cleaned berries is divided by the number of boxes in the sample to obtain the net weight of cleaned cranberries per box. The net weight is multiplied by the number of boxes in the lot to obtain the net weight of the berries in the unscreened lot.

(b) The cleaned berries are run through a separator, having a 9⁄32 inch screen, and with the bounce boards in the lowest position.

(c) The berries from the lower three bounce boards are rerun through the separator.

(d) The berries from the upper four bounce boards are thoroughly mixed and a random cupful (approximately 1 pint) is used to determine, from a count of the sound and unsound berries, the percentage of sound berries in the lot.

(e) Such percentage is adjusted by increasing it by 5 percentage points but not to exceed a total of 100 percent. (This increase makes the sample comparable to lots of screened cranberries, as such lots generally contain an average of 5 percent unsound berries.)

(f) The net weight, as determined in accordance with paragraph (a) of this section, of the berries in the unscreened lot, is multiplied by the adjusted percentage to obtain the quantity of screened cranberries in the unscreened lot.

§ 929.107 Basis for determining cranberry acreage.

(a) To be classified as cranberry acreage pursuant to section 929.48, all such acreage must be producing cranberries on a commercial basis or planted, in accordance with order provisions, so as to produce cranberries on a commercial basis. Commercial crop is synonymous with commercial basis and shall mean acreage that has a sufficient density of growing vines to show that such acreage can produce a commercial crop of at least 15 barrels per acre without replanting or renovation of any kind.

(b) So that the committee may properly identify cranberry acreage, the grower shall furnish, upon request, on forms furnished by the committee, information sufficient for the committee to establish that such grower is the grower for the acreage involved. It shall be the responsibility of the committee to determine by physical inspection or other means whether there is sufficient vine density as to qualify as “cranberry acreage” in accordance with paragraph (a) of this section. In making such determination, the committee shall be guided by standards of comparison between the potential bog and existing bogs in the same area.

(c) If the determination were that all or part of the acreage eligible under paragraph (a) of this section does not have sufficient vine coverage to produce 15 barrels per acre, that portion without sufficient vine coverage will not qualify as cranberry acreage under this section. In the event only a portion of an acreage has sufficient

The fiscal period specified in §929.6 of this part which began September 1, 1968, and ends on August 31, 1969, is changed to include the period of August 1, through August 31, 1968. Thereafter, the fiscal period will begin on September 1 and end on August 31 of the following year.

[33 FR 16492, Nov. 13, 1968]
vine population and density to produce 15 barrels of cranberries per acre, such portion will qualify as cranberry acreage pursuant to this section. Since such qualified portion of the acreage would be eligible for a sales history, it must be definitely and permanently delineated.

(d) It shall be the responsibility of the grower to maintain adequate sales records to show actual sales from their cranberry acreage and submit such records to the committee separately from sales records pertaining to any other acreage. The report of sales must be filed by the grower no later than January 15 of the calendar year succeeding the crop year to which such sales pertain.

[59 FR 36023, July 15, 1994]

§ 929.109 Unusual circumstances as used in determining base quantities.

Unusual circumstances, as used in §929.48(a)(3), shall include but not necessarily be limited to the taking of property under the power of eminent domain and also “Acts of God,” such as an earthquake, seashore erosion, encroachment of sand dunes, saline contamination due to prolonged inundation, a forest fire, and any other circumstances which are beyond the grower’s control and destroy the ability of a cranberry bog to produce cranberries to such an extent that the bog is found, in the judgment of the committee, to be permanently lost for commercial purposes. When a grower believes he has lost cranberry acreage due to “unusual circumstances” under the provisions of §929.48, he shall apply and furnish information to the committee to sufficiently establish that “unusual circumstances” exist.

[34 FR 1304, Jan. 28, 1969]

§ 929.110 Transfers or sales of cranberry acreage.

(a) Sales or transfers of cranberry acreage shall be reported by the transferor and transferee to the committee, in writing, on forms provided by the committee. Completed forms shall be sent to the committee office not later than 30 days after the transaction has occurred.

(b) Upon transfer of all or a portion of a grower’s acreage, the committee shall be provided with certain information on the forms it will provide to the parties. The transferor and transferee must provide the following information:

1. Crop records for the acreage involved;
2. Annual production and sales for each crop year on the acreage involved, either in total, or for each individual parcel; and
3. Such other information as the committee deems necessary.

(c) Cranberry acreage sold or transferred shall be recognized in connection with the issuance of sales history as follows:

1. If a grower sells all of the acreage comprising the entity, all prior sales history shall accrue to the purchaser;
2. If a grower sells only a portion of the acreage comprising the entity from which prior sales have been made, the purchaser and the seller must agree as to the amount of sales history attributed to each portion and shall provide, on a form provided by the committee, sufficient information so that sales are shown separately by crop year. However, the sales history attributed to each portion shall not exceed the total sales history, as determined by the committee, for such acreage at the time of transfer.

[59 FR 36023, July 15, 1994]

§ 929.125 Committee review procedures.

Pursuant to §929.48(c), growers may request, and the committee shall grant, a review of determinations made by the committee pursuant to §929.48 (a) and (b), in accordance with the following procedures:

(a) If a grower is dissatisfied with a determination made by the committee which affects him, he may submit to the committee within 30 days after he is notified of the determination, a request for a review by the committee of that determination, along with any materials which he feels are pertinent and a written argument if he so desires.

(b) The committee shall review its determination within a reasonable length of time taking into account all

270
materials submitted by the grower in accordance with paragraph (a) of this section, and any other material which it deems pertinent. Thereupon, the committee shall make a redetermination, and notify the grower of its conclusions, accompanied by the reasons for its decision.

(c) If the grower is not satisfied with the subsequent decision of the committee, he may appeal, through the committee, to the Secretary, within 30 days after he is notified of the committee’s findings. The committee shall promptly forward the entire file on the matter to the Secretary.

(d) The Secretary shall promptly review the decision of the committee as a result of its redetermination, and in doing so shall consider at least the following information:

1. The complete file on the issue which was submitted by the committee in accordance with paragraph (c) of this section;
2. Additional pertinent information submitted to the Secretary by the grower; and
3. Additional pertinent information submitted to the Secretary by the committee.

(e) Upon completion of his review, the Secretary shall reach a decision with respect to the matter before him. He shall promptly notify all interested persons of his decision, and such decision shall be final.

§ 929.142 Reserve.

(a) It is necessary and appropriate to establish and maintain a reserve in an amount not to exceed approximately one fiscal period’s operational expenses to be used in accordance with the provisions of §929.42 of the marketing agreement and this part, and

(b) Assessments collected for each of the fiscal periods ended July 31, 1963; July 31, 1965; July 31, 1966; and July 31, 1967, were in excess of expenses for such periods. The committee is hereby authorized to place excess funds in said reserve.

§ 929.151 Allotment transfers and disposition of the growers annual allotment certificate.

(a) Growers who transfer or receive the transfer of cranberries or allotment to fill deficiencies pursuant to §929.49(c) shall report the details of such transfer to the committee on CMC forms T3 through T6, as applicable.

(b) Growers may enter into an agreement with a handler or handlers as to the disposition of the grower’s annual allotment. The terms of the agreement shall be contained on CMC form T7 or a similarly executed agreement acceptable to the committee, and shall include the following:

1. The quantity of allotment available to the handler for transfer;
2. The effective date of the agreement; and
3. The signature of the grower and the handler or their authorized representatives.

Any transfer effected by the handler pursuant to this agreement shall be documented on committee forms and submitted to the committee.

§ 929.152 Delinquent assessments.

There shall be a late payment charge of five percent and an interest charge of 1½ percent per month applied to any assessment not received at the committee’s office before the end of the month in which such assessment was first invoiced to the handler: Provided, That if an assessment is first invoiced later than the 15th of the month, no late payment or interest charge shall be levied if such assessment is received at the committee office by the end of the following month in which the assessment was first invoiced to the handler.

§ 929.160 Public member eligibility requirements and nomination procedures.

(a) Public member and alternate member candidates shall not represent an agricultural interest and shall not have a financial interest in, or be associated with the production, processing, financing, or marketing of cranberries.

(b) Public member and alternate member candidates should be able to devote sufficient time to attend committee activities regularly and to familiarize themselves with the background and economies of the cranberry industry.

(c) Names of candidates together with evidence of qualification for public membership on the Cranberry Marketing Committee shall be submitted to the committee at its business office.

(d) Questionnaires shall be sent by the committee to those persons submitted as candidates to determine their eligibility and interest in becoming a public member.

(e) The names of persons nominated by the committee for the public member and alternate positions shall be submitted to the Secretary with such information as deemed pertinent by the committee or as requested by the Secretary.

ADMINISTRATIVE BODY

§ 930.20 Establishment and membership.

(a) There is hereby established a Cherry Industry Administrative Board (Board) consisting of 18 members. Seventeen of these members shall be qualified growers and handlers selected pursuant to this part, each of whom shall have an alternate having the same qualifications as the member for whom the person is an alternate. The remaining member of the Board shall be a public member who, along with his or her alternate, shall be elected by the Board from the general public.

(b) District representation on the Board shall be as follows:

(c) Upon the adoption of this part, the production area shall be divided into the following described subdivisions for purposes of this section:

District 1—Northern Michigan: that portion of the State of Michigan which is north of a line drawn along the northern boundary of Mason County and extended east to Lake Huron.

District 2—Central Michigan: that portion of the State of Michigan which is south of District 1 and north of a line drawn along the northern boundary of Allegan County and extended east to Lake St. Clair.

District 3—Southern Michigan: That portion of the State of Michigan not included in Districts 1 and 2.

District 4—The State of New York.

District 5—The State of Oregon.

District 6—The State of Pennsylvania.

District 7—The State of Utah.

District 8—The State of Washington.

District 9—The State of Wisconsin.

(d) The ratio of grower to handler representation in District 2 shall alternate each time the term of a Board member from the representative group having two seats expires. During the initial period of the order, the ratio shall be as designated in paragraph (b) of this section.

(e) Board members from Districts 5, 6, 8 and 9 may be either grower or handler members and will be nominated and elected as outlined in §930.23. If District 5, 6, 8, and/or 9 becomes subject to volume regulation under §§930.52(a), then the Board shall be re-established by the Secretary to provide such District(s) with at least one grower and one handler seat on the Board and such seats shall be filled according to the provisions of §930.23.

(f) In order to achieve a fair and balanced representation on the Board, and to prevent any one sales constituency from gaining control of the Board, not more than one board member may be from, or affiliated with, a single sales constituency in those districts having more than one seat on the Board. There is, however, no prohibition on
the number of Board members from differing districts that may be elected from a single sales constituency which may have operations in more than one district. However, as provided in §930.23, a handler or grower may only nominate Board members and vote in one district.

(g) Subject to the approval of the Secretary, the Board shall at its first meeting and annually thereafter elect from among any of its members a chairperson and a vice-chairperson and may elect other appropriate officers.

§ 930.21 Reestablishment.

Districts, subdivisions of districts, and the distribution of representation among growers and handlers within a respective district or subdivision thereof, or among the subdivision of districts, may be reestablished by the Secretary, subject to the provisions of §930.23, based upon recommendations by the Board. In recommending any such changes, the Board shall consider:

(a) the relative importance of producing areas;
(b) relative production;
(c) the geographic locations of producing areas as they would affect the efficiency of administration of this part;
(d) shifts in cherry production within the districts and the production area;

Members and alternate members shall serve in such capacity for the portion of the term of office for which they are selected and have qualified until their respective successors are selected, have qualified and are appointed. The consecutive terms of office of grower, handler and public members and alternate members shall be limited to two 3-year terms, excluding any initial term lasting less than 3 years. The term of office of a member and alternate member for the same seat shall be the same. If this part becomes effective on a date such that the initial fiscal period is less than six months in duration, then the tolling of time for purposes of this subsection shall not begin until the beginning of the first 12-month fiscal period.

§ 930.23 Nomination and election.

(a) Forms and ballots. Nomination and election of initial and successor members and alternate members of the Board shall be conducted through petition forms and election ballots distributed to all eligible growers and handlers via the U.S. Postal Service or other means, as determined by the Secretary. Similar petition forms and election ballots shall be used for both members and alternate members and any requirements for election of a member shall apply to the election of an alternate.

(b) Nomination:

(1) In order for the name of a grower nominee to appear on an election ballot, the nominee’s name must be submitted with a petition form, to be supplied by the Secretary or the Board, which, except in District 8, contains at least five signatures of growers, other than the nominee, from the nominee’s district who are eligible to vote in the referendum. Grower petition forms in District 8 must be signed by only two growers, other than the nominee, from the nominee’s district who is
eligible to vote in the referendum. The requirement that the petition form be signed by a handler other than the nominee shall not apply in any District where less than two handlers are eligible to vote.

(3) Only growers, including duly authorized officers or employees of growers, who are eligible to serve as grower members of the Board shall participate in the nomination of grower members and alternate grower members of the Board. No grower shall participate in the submission of nominees in more than one district during any fiscal period. If a grower produces cherries in more than one district, that grower may select in which district he or she wishes to participate in the nominations and election process in a second district in the same election cycle.

(4) Only handlers, including duly authorized officers or employees of handlers, who are eligible to serve as handler members of the Board shall participate in the nomination of handler members and alternate handler members of the Board. No handler shall participate in the selection of nominees in more than one district during any fiscal period. If a handler handles cherries in more than one district, that handler may select in which district he or she wishes to participate in the nominations and election process in a second district in the same election cycle. If a person is a grower and a grower-handler only because some or all of his or her cherries were custom packed, but he or she does not own or lease and operate a processing facility, such person may vote only as a grower.

(5) In Districts 5, 6, 8 and 9, both growers and handlers may be nominated for the district’s Board seat. Grower and handler nominations must follow the petition procedures outlined in paragraphs (b)(1) and (b)(2) of this section.

(6) All eligible growers and handlers in all districts may submit the names of the nominees for the public member and alternate public member of the Board.

(7) After the appointment of the initial Board, the Secretary or the Board shall announce at least 180 days in advance when a Board member’s term is expiring and shall solicit nominations for that position in the manner described in this section. Nominations for such position should be submitted to the Secretary or the Board not less than 120 days prior to the expiration of such term.

(c) Election:

(1) After receiving nominations, the Secretary or the Board shall distribute ballots via the U.S. Postal Service or other means, as determined by the Secretary, to all eligible growers and handlers containing the names of the nominees by district for the respective seats on the Board, excluding the public voting member seat. The ballots will clearly indicate that growers and handlers may only rank or otherwise vote for nominees in their own district.

(2) Except as provided in paragraph (c)(4) of this section, only growers, including duly authorized officers or employees of growers, who are eligible to serve as grower members of the Board shall participate in the election of grower members and alternate grower members of the Board. No grower shall participate in the election of Board members in more than one district during any fiscal period. If a grower produces cherries in more than one district, the grower must vote in the same district in which he or she chose to participate in the nominations process under paragraph (b)(3) of this section. However, if the grower did not participate in the nomination process, he or she may select in which district he or she wishes to vote and shall notify the Secretary or the Board of such selection.

(3) Except as provided in paragraph (c)(4) of this section, only handlers, including duly authorized officers or employees of handlers, who are eligible to serve as handler members of the Board shall participate in the election of handler members and alternate handler members of the Board. No handler shall

The Board will establish, with the approval of the Secretary, a means of advanced notification to growers and handlers of Board meetings.

§ 930.33 Expenses and compensation.

Except for the public member and alternate public member who shall receive such compensation as the Board may establish and the Secretary may approve, the members of the Board, and alternates when acting as members, shall serve without compensation but shall be reimbursed for necessary and reasonable expenses, as approved by the Board, incurred by them in the performance of their duties under this part. The Board at its discretion may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual.
presence of the respective member(s), and may pay the expenses of such alternates.

EXPENSES AND ASSESSMENTS

§ 930.40 Expenses.

The Board is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred for its maintenance and functioning and to enable it to exercise its powers and perform its duties in accordance with the provisions of this part. The funds to cover such expenses shall be acquired by the levying of assessments as provided in §930.41.

§ 930.41 Assessments.

(a) An assessment may be levied upon handlers annually under this part to cover the administrative costs of the Board, costs of inspection, and any research, development and promotion activities initiated by the Board under §930.48.

(b) Each part of an assessment intended to cover the costs of each activity in paragraph (a) of this section, must be identified and approved by the Board and the Secretary, and any notification or other statement regarding assessments provided to handlers must contain such information.

(c) As a pro rata share of the administrative, inspection, research, development, and promotion expenses which the Secretary finds reasonable and likely to be incurred by the Board during a fiscal period, each handler shall pay to the Board assessments on all cherries handled, as the handler thereof, during such period: Provided, That the formula adopted by the Board and approved by the Secretary for determining the rate of assessment will compensate for differences in the number of pounds of cherries utilized for various cherry products and the relative market values of such cherry products.

(g) The Board, with the approval of the Secretary, may establish rules and regulations necessary and incidental to the administration of this section.

§ 930.42 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, the Board, with the approval of the Secretary, may carry over all or any portion of such excess into subsequent fiscal periods as a reserve. Such reserve funds may be used to cover any expenses authorized by this part, and to cover necessary expenses of liquidation in the event of termination of this part. If any such excess is not retained in a reserve, it shall be refunded proportionately to
the handlers from whom the excess was collected. Without an additional reserve level approved by the Secretary, the amount held in reserve may not exceed approximately one year's operational expenses. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such a manner as the Secretary may determine to be appropriate: Provided, That to the extent practicable, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the Board pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the Board and its members to account for all receipts and disbursements.

QUALITY CONTROL

§ 930.44 Quality control.

(a) Quality standards. The Board may establish, with the approval of the Secretary, such minimum quality and inspection requirements applicable to cherries as will contribute to orderly marketing or be in the public interest. If such requirements are adopted, no handler shall process cherries into manufactured products or sell manufactured products in the current of commerce unless such cherries and/or such cherries used in the manufacture of products meet the applicable requirements as evidenced by certification acceptable to the Board. The Board, with the approval of the Secretary, may establish rules and regulations necessary and incidental to the administration of this section.

(b) Inspection and certification. Whenever the handling of any cherries requires inspection pursuant to this part, each handler who handles cherries shall cause such cherries to be inspected by the appropriate division of USDA, and certified by it as meeting the applicable requirements of such regulation: Provided, That inspection and certification shall be required for cherries which previously have been so inspected and certified only if such cherries have been regraded, repackaged, or in any other way further prepared for market. Promptly after inspection and certification, each such handler shall submit, or cause to be submitted, to the Board a copy of the certificate of inspection issued with respect to such cherries.

RESEARCH, MARKET DEVELOPMENT AND PROMOTION

§ 930.48 Research, market development and promotion.

The Board, with the approval of the Secretary, may establish or provide for the establishment of production and processing research, market research and development, and/or promotional activities, including paid advertising, designed to assist, improve or promote the efficient production and processing, marketing, distribution, and consumption of cherries subject to this part. The expense of such projects shall be paid from funds collected pursuant to this part and the income from such funds.

REGULATIONS

§ 930.50 Marketing policy.

(a) Optimum Supply. On or about July 1 of each crop year, the Board shall hold a meeting to review sales data, inventory data, current crop forecasts and market conditions in order to establish an optimum supply level for the crop year. The optimum supply volume shall be calculated as 100 percent of the average sales of the prior three years to which shall be added a desirable carryout inventory not to exceed 20 million pounds or such other amount as the Board, with the approval of the Secretary may establish. This optimum supply volume shall be announced by the Board in accordance with paragraph (h) of this section.

(b) Preliminary percentages. On or about July 1 of each crop year, the Board shall establish a preliminary free market tonnage percentage which shall be calculated as follows: From the optimum supply computed in paragraph (a) of this section, the Board shall deduct the carryin inventory to determine the tonnage requirements (adjusted to a raw fruit equivalent) for the current crop year which will be subtracted by the current year USDA
crop forecast. If the resulting number is positive, this would represent the estimated over-production which would need to be the restricted percentage tonnage. This restricted percentage tonnage would then be divided by the sum of the USDA crop forecast for the regulated districts to obtain the percentages for the regulated districts. The Board shall establish a preliminary restricted percentage equal to the quotient, rounded to the nearest whole number, with the compliment being the preliminary free tonnage percentage. If subtracting the current crop year requirement, computed in the first sentence from the current USDA crop forecast, results in a negative number, the Board shall establish a preliminary free tonnage of 100 percent with a preliminary restricted percentage of zero. The Board shall announce these preliminary percentages in accordance with paragraph (h) of this section.

(c) Interim percentages. Between July 1 and September 15 of each crop year, the Board may modify the preliminary free market tonnage and restricted percentages to adjust to the actual pack occurring in the industry. The Board shall announce any interim percentages in accordance with paragraph (h) of this section.

(d) Final percentages. No later than September 15 of each crop year, the Board shall review actual production during the current crop year and make such adjustments as are necessary between free and restricted tonnage to achieve the optimum supply and recommend such final free market tonnage and restricted percentages to the Secretary and announce them in accordance with paragraph (h) of this section. The difference between any final free market tonnage percentage designated by the Secretary and 100 percent shall be the final restricted percentage. With its recommendation, the Board shall report on its consideration of the factors in paragraph (e) of this section.

(e) Factors. When computing preliminary and interim percentages, or determining final percentages for recommendation to the Secretary, the Board shall give consideration to the following factors:

(1) The estimated total production of cherries;
(2) The estimated size of the crop to be handled;
(3) The expected general quality of such cherry production;
(4) The expected carryover as of July 1 of canned and frozen cherries and other cherry products;
(5) The expected demand conditions for cherries in different market segments;
(6) Supplies of competing commodities;
(7) An analysis of economic factors having a bearing on the marketing of cherries;
(8) The estimated tonnage held by handlers in primary or secondary inventory reserves; and
(9) Any estimated release of primary or secondary inventory reserve cherries during the crop year.

(f) Modification. In the event the Board subsequently deems it advisable to modify its marketing policy, because of national emergency, crop failure, or other major change in economic conditions, it shall hold a meeting for that purpose, and file a report thereof with the Secretary within 5 days (exclusive of Saturdays, Sundays, and holidays) after the holding of such meeting, which report shall show the Board’s recommended modification and the basis therefor.

(g) Reserve tonnage to sell as free tonnage. In addition, the Board shall make available tonnage equivalent to an additional 10 percent, if available, of the average sales of the prior 3 years for market expansion. Handlers can determine if they need the additional tonnage and inform the Board so that reserve cherries may be released to them. Handlers not desiring the additional tonnage would not have it released to them.

(h) Publicity. The Board shall promptly give reasonable publicity to growers and handlers of each meeting to consider a marketing policy or any modification thereof, and each such meeting shall be open to them and to the public. Similar publicity shall be given to growers and handlers of each marketing policy report or modification thereof, filed with the Secretary and of the Secretary’s action thereon. Copies of
§ 930.51 Issuance of volume regulations.

(a) Whenever the Secretary finds, from the recommendation and supporting information supplied by the Board, that to designate final free market tonnage and restricted percentages for any cherries acquired by handlers during the crop year will tend to effectuate the declared policy of the Act, the Secretary shall designate such percentages. Such regulation designating such percentage shall fix the free market tonnage and restricted percentages, totaling 100 percent, which shall be applied in accordance with this section. §§ 930.55, 930.57 and 930.59 to cherries grown in regulated districts, as determined under § 930.52, and handled during such fiscal period.

(b) The Board shall be informed immediately of any such regulation issued by the Secretary, and the Board shall promptly give notice thereof to handlers.

(c) That portion of a handler's cherries that are restricted percentage cherries is the product of the restricted percentage imposed under paragraph (a) of this section multiplied by the tonnage of cherries, originating in a regulated district, handled, including those diverted according to § 930.59, by that handler in that fiscal year. Therefore, while diverted cherries, including those represented by grower diversion certificates, may be exempt from assessment under § 930.41, they must be counted when computing restricted percentage requirements.

(d) The Board, with the approval of the Secretary, shall develop rules and regulations which shall provide guidelines for handlers in complying with any restricted tonnage requirements, including, but not limited to, a grace period of at least 30 days to segregate and appropriately document any tonnage they wish to place in the inventory reserve and to assemble any applicable diversion certificates.

§ 930.52 Establishment of districts subject to volume regulations.

(a) Upon adoption of this part, the districts in which handlers shall be subject to any volume regulations implemented in accordance with this part shall be those districts in which the average annual production of cherries over the prior three years has exceeded 15 million pounds. Handlers in districts
Agricultural Marketing Service, USDA

§ 930.55

not meeting the 15 million pound requirement at the time of order promulgation shall become subject to volume regulation implemented in accordance with this part in the crop year that follows any three-year period in which the 15 million pound average production requirement is exceeded in that district.

(b) Handlers in districts which are not subject to volume regulation would only be so regulated to the extent that they handled cherries which were grown in a district subject to regulation as specified in paragraph (a) of this section. In such a case, the handler must place in inventory reserve pursuant to §930.55 or §930.57 or divert pursuant to §930.59 a required restricted percentage of the crop originating in the regulated district.

(c) Handlers in districts not meeting the production requirement described in paragraph (a) of this section in a given year would not be subject to volume regulation in the next crop year.

(d) Any district producing a crop which is less than 50 percent of the average annual processed production in that district in the previous five years would be exempt from any volume regulation if, in that year, a restricted percentage is established.

(e) The Board, with the approval of the Secretary, may establish rules and regulations necessary and incidental to the administration of this section.

§ 930.54 Prohibition on the use or disposition of inventory reserve cherries.

(a) Release of primary and secondary inventory reserve cherries. Except as provided in §930.50 and paragraph (b) of this section, cherries that are placed in inventory reserve pursuant to the requirements of §§930.50, §930.51, §930.55, or §930.57 shall not be used or disposed of by any handler or any other person: Provided, That if the Board determines that the total available supplies for use in normal commercial outlets do not at least equal the amount, as estimated by the Board, needed to meet the demand in such outlets, the Board shall recommend to the Secretary and provide such justification that, during such period as may be recommended by the Board and approved by the Secretary, a portion or all of the primary and/or secondary inventory reserve cherries shall be released for such use.

(b) Reserved.

§ 930.55 Primary inventory reserves.

(a) Whenever the Secretary has fixed the free market tonnage and restricted percentages for any fiscal period, as provided for in §930.51(a), each handler in a regulated district shall place in his or her primary inventory reserve for such period, at such time, and in such manner, as the Board may prescribe, or otherwise divert, according to §930.59, a portion of the cherries acquired during such period.

(b) The form of the cherries, frozen, canned in any form, dried, or concentrated juice, placed in the primary inventory reserve is at the option of the handler. Except as may be limited by §930.50(i) or as may be permitted pursuant to §§930.59 and 930.62, such inventory reserve portion shall be equal to the sum of the products obtained by multiplying the weight or volume of the cherries in each lot of cherries by the then effective restricted percentage fixed by the Secretary: Provided, That in converting cherries in each lot to the form chosen by the handler, the inventory reserve obligations shall be adjusted in accordance with uniform rules adopted by the Board in terms of raw fruit equivalent.
§ 930.56 Off-premise inventory reserve.

Any handler may, upon notification to the Board, arrange to hold inventory reserve, of his or her own production or which was purchased, on the premises of another handler or in an approved commercial storage facility in the same manner as though the inventory reserve were on the handler’s own premises.

§ 930.57 Secondary inventory reserve.

(a) In the event the inventory reserve established under §930.55 of this part is at its maximum volume, and the Board has announced, in accordance with §930.50, that volume regulation will be necessary to maintain an orderly supply of quality cherries for the market, handlers in a regulated district may elect to place in a secondary inventory reserve all or a portion of the cherries the volume regulation would otherwise require them to divert in accordance with §930.59.

(b) Should any handler in a regulated district exercise his or her right to establish a secondary inventory reserve under paragraph (a) of this section, all costs of maintaining that reserve, as well as inspection costs, will be the responsibility of the individual handler.

(c) The secondary inventory reserve shall be established in accordance with §§930.55 (b) and (c) and such other rules and regulations which the Board, with the approval of the Secretary, may establish.

(d) The Board shall retain control over the release of any cherries from the secondary inventory reserve. No cherries may be released from the secondary reserve until all cherries in any primary inventory reserve established under §930.55 have been released. Any release of the secondary inventory reserve shall be in accordance with the annual marketing policy and with §930.54.

§ 930.58 Grower diversion privilege.

(a) In general. Any grower may voluntarily elect to divert, in accordance with the provisions of this section, all or a portion of the cherries which otherwise, upon delivery to a handler, would become restricted percentage cherries. Upon such diversion and compliance with the provisions of this section, the Board shall issue to the diverting grower a grower diversion certificate which such grower may deliver to a handler, as though there were actual harvested cherries.

(b) Eligible diversion. Grower diversion certificates shall be issued to growers only if the cherries are diverted in accordance with the following terms and conditions or such other terms and conditions that the Board, with the approval of the Secretary, may establish. Diversion may take such of the following forms which the Board, with the
approval of the Secretary, may designate: uses exempt under §930.62; nonhuman food uses; or other uses, including diversion by leaving such cherries unharvested.

(c) Application/mapping. The Board, with the approval of the Secretary, shall develop rules and regulations providing for the diversion of cherries by growers. Such regulations may include, among other things:

(1) The form and content of applications and agreements relating to the diversion, including provisions for supervision and compensation; and

(2) Provisions for mapping areas in which cherries will be left unharvested.

(d) Diversion certificate. If the Board approves the application it shall so notify the applicant and conduct such supervision of the applicant’s diversion of cherries as may be necessary to assure that the cherries have been diverted. After the diversion has been accomplished, the Board shall issue to the diverting grower a diversion certificate stating the weight of cherries diverted. Where diversion is carried out by leaving the cherries unharvested, the Board shall estimate the weight of cherries diverted on the basis of such uniform rule prescribed in rules and regulations as the Board, with the approval of the Secretary, may recommend to implement this section.

§ 930.59 Handler diversion privilege.

(a) In general. Handlers handling cherries harvested in a regulated district may fulfill any restricted percentage requirement in full or in part by voluntarily diverting cherries or cherry products in a program approved by the Board, rather than placing cherries in an inventory reserve. Upon such diversion and compliance with the provisions of this section, the Board shall issue to the diverting handler a handler diversion certificate which shall satisfy any restricted percentage diversion requirement to the extent of the Board or Department inspected weight of the cherries diverted.

(b) Eligible diversion. Handler diversion certificates shall be issued to handlers only if the cherries are diverted in accordance with the following terms and conditions or such other terms and conditions that the Board, with the approval of the Secretary, may establish. Such diversion may take place in any of the following forms which the Board, with the approval of the Secretary, may designate: uses exempt under §930.62; contribution to a Board approved food bank or other approved charitable organization; acquisition of grower diversion certificates that have been issued in accordance with §930.58; or other uses, including diversion by destruction of the cherries at the handler’s facilities: Provided, That diversion may not be accomplished by converting cherries into juice or juice concentrate.

(c) Notification. The handler electing to divert cherries through means specified in this section or other approved means (not including uses exempt under §930.62), shall first notify the Board of such election. Such notification shall describe in detail the manner in which the handler proposes to divert cherries including, if the diversion is to be by means of destruction of the cherries, a detailed description of the means of destruction and ultimate disposition of the cherries. It shall also contain an agreement that the proposed diversion is to be carried out under the supervision of the Board and that the cost of such supervision is to be paid by the handler. Uniform fees for such supervision shall be established by the Board, pursuant to rules and regulations approved by the Secretary.

(d) Application. The handler electing to divert cherries by utilizing an exemption under §930.62 shall first apply to the Board for approval of such diversion; no diversion should take place prior to such approval. Such application shall describe in detail the uses to which the diverted cherries will be put. It shall also contain an agreement that the proposed diversion is to be carried out under the supervision of the Board and that the cost of such supervision is to be paid by the applicant. The Board shall notify the applicant of the Board’s approval or disapproval of the submitted application.

(e) Diversion certificate. The Board shall conduct such supervision of the handler’s diversion of cherries under paragraph (c) or under paragraph (d) of
this section as may be necessary to assure that the cherries are diverted. After the diversion has been accomplished, the Board shall issue to the diverting handler a handler diversion certificate indicating the weight of cherries which may be used to offset any restricted percentage requirement.

§ 930.60 Equity holders.

(a) Inventory reserve ownership. The inventory reserve shall be the sole responsibility of the handlers who place products into the inventory reserve. A handler’s equity in the primary inventory reserve may be transferred to another person upon notification to the Board.

(b) Agreements with growers. Individual handlers are encouraged to have written agreements with growers who deliver their cherries to the handler as to how any restricted percentage cherries delivered to the handler will be handled and what share, if any, the grower will have in the eventual sale of any inventory reserve cherries.

(c) Rulemaking authority. The Board, with the approval of the Secretary, may adopt rules and regulations necessary and incidental to the administration of this section.

930.61 Handler compensation.

Each handler handling cherries from a regulated district that is subject to volume regulations shall be compensated by the Board for inspection relating to the primary inventory reserve as the Board may deem to be appropriate. The Board, with the approval of the Secretary, may establish such rules and regulations as are necessary and incidental to the administration of this section.

§ 930.62 Exemptions.

The Board, with the approval of the Secretary, may exempt from the provisions of §§930.41, 940.44, 930.51, 930.53, and 930.55 through 930.57 cherries: Diverted in accordance with §930.59; used for new product and new market development; used for experimental purposes or for any other use designated by the Board, including cherries processed into products for markets for which less than 5 percent of the preceding 5-year average production of cherries were utilized. The Board, with the approval of the Secretary, shall prescribe such rules, regulations, and safeguards as it may deem necessary to ensure that cherries handled under the provisions of this section are handled only as authorized.

§ 930.63 Deferment of restricted obligation.

(a) Bonding. The Board, with the approval of the Secretary, may require handlers to secure bonds on deferred inventory reserve tonnage. Handlers may, in order to comply with the requirements of §§930.50 and 930.51 and regulations issued thereunder, secure bonds on restricted percentage cherries to temporarily defer the date that inventory reserve cherries must be held to any date requested by the handler. This date shall be not later than 60 days prior to the end of that crop year. Such deferment shall be conditioned upon the voluntary execution and delivery by the handler to the Board of a written undertaking within thirty (30) days after the Secretary announces the final restricted percentage under §930.51. Such written undertaking shall be secured by a bond or bonds with a surety or sureties acceptable to the Board that on or prior to the acceptable deferred date the handler will have fully satisfied the restricted percentage amount required by §930.51.

(b) Rulemaking authority. The Board, with the approval of the Secretary, may adopt rules and regulations necessary and incidental to the administration of this section.

REPORTS AND RECORDS

§ 930.70 Reports.

(a) Weekly production, monthly sales, and inventory data. Each handler shall, upon request of the Board, file promptly with the Board, reports showing weekly production data; monthly sales and inventory data; and such other information, including the volume of any cherries placed in or released from a primary or secondary inventory reserve or diverted, as the Board shall specify with respect to any cherries handled by the handler. Such information may be provided to the Board members in summary or aggregated
form only without any reference to the individual sources of the information.

(b) Other reports. Upon the request of the Board, with the approval of the Secretary, each handler shall furnish to the Board such other information with respect to the cherries acquired, handled, stored and disposed of by such handler as may be necessary to enable the Board to exercise its powers and perform its duties under this part.

(c) Protection of proprietary information. Under no circumstances shall any information or reports be made available to the Board members, or to any person designated by the Board or by the Secretary, which will reveal the proprietary information of an individual handler.

§ 930.71 Records.
Each handler shall maintain such records of all cherries acquired, handled, stored or sold, or otherwise disposed of as will substantiate the required reports and as may be prescribed by the Board. All such records shall be maintained for not less than two years after the termination of the fiscal year in which the transactions occurred or for such lesser period as the Board may direct with the approval of the Secretary.

§ 930.72 Verification of reports and records.
For the purpose of assuring compliance and checking and verifying the reports filed by handlers, the Secretary and the Board, through its duly authorized agents, shall have access to any premises where applicable records are maintained, where cherries are received, stored, or handled, and, at any time during reasonable business hours, shall be permitted to inspect such handlers premises and any and all records of such handlers with respect to matters within the purview of this part.

§ 930.73 Confidential information.
All reports and records furnished or submitted by handlers to the Board and its authorized agents which include data or information constituting a trade secret or disclosing trade position, financial condition, or business operations of the particular handler from whom received, shall be received by and at all times kept in the custody and under the control of one or more employees of the Board or its agent, who shall disclose such information to no person other than the Secretary.

MISCELLANEOUS PROVISIONS

§ 930.80 Compliance.
Except as provided in this part, no person may handle cherries, the handling of which has been prohibited by the Secretary under this part, and no person shall handle cherries except in conformity with the provisions of this part and the regulations issued hereunder. No person may handle any cherries for which a diversion certificate has been issued other than as provided in §§930.58(b) and 930.59(b).

§ 930.81 Right of the Secretary.
Members of the Board (including successors and alternates), and any agents, employees, or representatives thereof, shall be subject to removal or suspension by the Secretary at any time. Each regulation, decision, determination, or other act of the Board shall be subject to the Secretary's disapproval at any time. Upon such disapproval, the disapproved action of the Board shall be deemed null and void, except as to acts done in reliance thereon or in accordance therewith prior to such disapproval by the Secretary.

§ 930.82 Effective time.
The provisions of this part, and of any amendment thereto, shall become effective at such time as the Secretary may declare, and shall continue in force until terminated, or suspended.

§ 930.83 Termination.
(a) The Secretary may, at any time, terminate any or all of the provisions of this part by giving at least 1 day’s notice by means of a press notice or in any other manner in which the Secretary may determine.

(b) The Secretary shall terminate or suspend the operation of any or all of the provisions of this part whenever the Secretary finds that such provisions do not tend to effectuate the declared policy of the Act.
§ 930.84  Proceedings after termination.

(a) Upon the termination of the provisions of this part, the then functioning members of the Board shall, for the purpose of liquidating the affairs of the Board, continue as trustees of all the funds and property then in its possession, or under its control, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees shall:
(1) continue in such capacity until discharged by the Secretary;
(2) from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the Board and of the trustees, to such person as the Secretary may direct; and
(3) upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the Board or in the trustees pursuant to this part.

(c) Any person to whom funds, property, and claims have been transferred or delivered, pursuant to this section, shall be subject to the same obligations imposed upon the Board and upon the trustees.

§ 930.85  Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not:

(a) Affect or waive any right, duty, obligation, or liability which shall have risen or which may thereafter arise in connection with any provision of this part or any regulation issued thereunder;
(b) Release or extinguish any violation of this part or any regulation issued thereunder;
(c) Affect or impair any rights or remedies of the Secretary or any other person with respect to any such violation.

§ 930.86  Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this part shall cease upon its termination, except with respect to acts done under and during the existence of this part.

§ 930.87  Agents.

The Secretary may, by designation in writing, name any officer or employee of the United States, or name any agency or division in the U.S. Department of Agriculture, to act as the Secretary’s agent or representative in connection with any provisions of this part.

§ 930.88  Derogation.

Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the Act or otherwise, or, in accordance with such powers, to act in the premises.
whenever such action is deemed advisable.

§ 930.89 Personal liability.

No member or alternate member of the Board and no employee or agent of the Board shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate member, employee, or agent, except for acts of dishonesty, willful misconduct, or gross negligence.

§ 930.90 Separability.

If any provision of this part is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 930.91 Amendments.

Amendments to this subpart may be proposed, from time to time, by the Board or by the Secretary.

§ 930.100 Grower diversion certificates.

(a) In accordance with paragraph (b) of this section, the Board may, for the 1997 crop year, issue diversion certificates to growers, in districts subject to volume regulation (Northwest Michigan, Central Michigan, New York, and Utah) who have voluntarily elected to divert in the orchard all or a portion of their 1997 tart cherry production which otherwise, upon delivery to handlers, would become restricted percentage cherries. Growers may offer the diversion certificate to handlers in lieu of delivering cherries.

(b) Terms and conditions. To be eligible to receive diversion credit, growers voluntarily choosing to divert cherries must meet the following terms and conditions:

(1) In order to receive a certificate, a grower must demonstrate, to the satisfaction of the Board, that rows or trees which were selected for diversion were not harvested. Trees six years old or younger do not qualify for diversion.

(2) The grower must furnish the Board with a total harvested production amount so the Board can calculate the amount of grower diversion tonnage to be placed on the diversion certificate. The Board will confirm the grower’s production amount with information provided by handlers (to which the grower delivers cherries) on Board Form Number Two.

(3) The grower must agree to allow a Board compliance officer to visit the grower’s orchard to confirm that diversion has actually taken place.

(c) Calculation of diversion amounts.

The weight of cherries diverted and left unharvested shall be calculated by the Board after growers furnish the Board with the necessary information concerning their production. After verification of the volume of cherries diverted, the Board shall calculate the amounts of grower diversion tonnage to be placed on the diversion certificates and issue such certificates to growers. Such amounts shall be determined as follows:

(1) For whole block diversion, the weight of a harvested sample of 5 percent of each diverted block, provided by the grower, will be used to calculate the total volume of diverted cherries to be credited on the diversion certificate. For example, a grower farms 1,000 acres and elects to whole block divert a 200 acre block. If 5 percent of the harvested trees in the block diverted yield 80,000 pounds of cherries, the grower would receive a diversion certificate for 1,600,000 pounds (80,000 pounds divided by 5 percent (.05) yields 1,600,000 pounds). The rest of the block would remain unharvested.

(2) For random row diversion, such estimated volume would be calculated by applying the percentage of the grower’s production diverted to the actual average volume per acre of cherries produced and harvested. For example, a grower farms 1,000 acres and elects to divert 20 percent of the harvestable acreage (200 acres). The grower harvests the remaining 800 acres and obtains 6,400,000 pounds of cherries, which represents a yield per acre of 8,000 pounds. Such grower would receive a diversion certificate for 1,600,000 pounds of cherries (8,000 lbs multiplied by the 20 percent of the
§ 930.133 Compensation rate.

A compensation rate of $250 per meeting shall be paid to the public member and to the alternate public member when attending Board meetings. Such compensation is a per meeting rate. For example, if a Board meeting is convened and lasts one or two days or only four hours, the public member and/or alternate public member attending the meeting would receive $250 each.

§ 930.141 Delinquent assessments.

(a) Pursuant to §930.41, the Board shall impose an interest charge on any handler whose assessment payment has not been received by October 1 of each crop year. The interest rate shall be a rate of one percent per month and shall be applied to the unpaid assessment balance not paid by the October 1 due date. In addition to the interest charge, the Board shall impose a late payment charge on any handler whose assessment payment has not been received within 90 days from the due date of October 1. The late payment charge shall be 10 percent of the unpaid balance.

(b) Application and mapping for diversion. Any grower desiring to divert cherries using methods other than random row or in-orchard tank shall submit a map of the orchard or orchards to be diverted, along with a completed Grower Diversion Application, to the Board by June 24, 1998, for the 1998–99 crop year (July 1, 1998 through June 30, 1999) and April 1 for subsequent crop years. The application includes a statement which must be signed by the grower which states that the grower agrees to comply with the regulations established for a tart cherry diversion program. Each map shall contain the grower’s name and number assigned by the Board, the grower’s address, block name or number when appropriate, location of orchard or orchards and other information which may be necessary to accomplish the desired diversion. On or before July 1, the grower should inform the Board of such grower’s intention to divert in-orchard and what type of diversion will be used. The four types of diversion are random row diversion, whole block diversion, partial block diversion and in-orchard tank diversion. A grower who informs the Board about the type of diversion he or she wishes to use by July 1 can elect to use any diversion method or a combination of diversion methods. Only random row or in-orchard tank diversion methods may be used if the Board is not so informed by July 1. Trees that are four years or younger do not qualify for diversion.

(1) Random row diversion. Using the orchard map furnished by the grower, the Board will randomly select rows of trees within the orchard to be diverted. The amount of cherries to be diverted will be based on the preliminary restricted percentage amount established pursuant to §930.50. A grower may elect...
a different percentage amount; however, the grower needs to inform the Board as soon as possible after the preliminary percentages are announced of this other amount, but in no event shall this be less than seven days in advance of harvest. The designated rows indicated by the map must not be harvested. After completing harvest of the remaining rows in the orchard, the grower must notify the Board and/or the Board’s compliance officer. A compliance officer will then be allowed to observe the grower’s orchard to assure that the selected rows have not been harvested. The grower must inform the Board of the total production of the orchard to calculate the tonnage that was diverted.

(2) **Whole block diversion.** Based on maps supplied by the grower, a sampling procedure will be used to determine the amount of cherries in the orchard to be diverted. A block is defined as rows that run the same direction, are similar in age, and have definable boundaries. The Board would require a number of trees to be sampled depending on the size of the block. For example, if a block has 5 rows or less, 3 rows would be randomly chosen to be sampled, if a block has 6 to 15 rows, 4 rows would be randomly chosen to be sampled, and if a block has 16 or more rows, 5 rows would be randomly chosen to be sampled. From each of the rows to be sampled ten contiguous originally planted tree sites will be sampled within the rows. Only trees more than five years old will be harvested for the sample. For example, if it is determined that five rows are to be sampled and 10 trees in the five rows are to be sampled, then a total of 50 trees are to be sampled ((10 original tree sites) x (5 rows) = 50 trees). A total of 4900 pounds will be harvested from the sample trees which is divided by 50 trees to obtain a yield of 92 pounds per tree. To find the yield for the block, 92 pounds is multiplied by 880 trees that were mapped in the block to yield 80,960 pounds per block. The harvested tonnage will be converted to a volume that represents the entire block of cherries. The grower should inform the Board when the samples are being taken so a compliance officer can observe the sampling. The compliance officer would be allowed to confirm that the block has been diverted.

(3) **Partial block diversion.** Partial block diversion will also be accomplished using maps supplied by the grower. Sampling will be done as in whole block diversion except that only partial blocks would be selected and sampled. Growers may divert one partial block per year. Such block must be mapped and would be sampled as described under whole block diversion. Rows used in partial block diversion must be contiguous.

(4) **In-orchard tank diversion.** Growers wishing to in-orchard tank divert must pick the cherries to be diverted and place them in harvesting tanks. A compliance officer would then probe the tanks for volume measurement and observe the destruction of the cherries on the grower’s premises. Growers wishing to take advantage of this option must have at least 10 tanks ready for diversion. The compliance officer has up to five days to come to the grower’s premises to observe the diversion after being contacted.

(c) **Compliance.** Growers who voluntarily participate in the grower diversion program must sign and file with the Board a Grower Diversion Application. By signing the application, a grower agrees to the terms and conditions of the grower diversion program as contained in these regulations. To be eligible to receive diversion credit, growers voluntarily choosing to divert cherries must meet the following terms and conditions:

(1) In order to receive a certificate, a grower must demonstrate, to the satisfaction of the Board, that rows or trees which were selected for diversion were not harvested. Trees four years old or younger do not qualify for diversion.

(2) The grower must furnish the Board with a total harvested production amount so the Board can calculate the amount of grower diversion tonnage to be placed on the diversion certificate. The Board will confirm the grower’s production amount with information provided by handlers (to which the grower delivers cherries) on Board form Number Two.

(3) The grower must agree to allow a Board compliance officer to visit the
grower’s orchard to confirm that diversion has actually taken place. If the terms and conditions for whole block, partial block or in-orchard tank diversion are not completed, the Board shall not issue the grower a diversion certificate. If a grower who chooses random row diversion harvests rows that were designated not to be harvested, the grower should inform the Board immediately of the error. The grower will then be required to divert twice the amount (rows or trees) incorrectly harvested to correct the mistake. The grower will still receive a diversion certificate equal to the original requested amount. However, in instances where a grower is at the end of harvesting the orchard and fails to divert a complete block or specified rows, the Board shall multiply by two the difference between the original diversion amount and the actual diverted amount. The Board shall subtract that amount from the diversion application amount. Thus, the grower would receive a grower diversion certificate equal to a portion of the originally requested amount. If the grower does not inform the Board of such errors, the grower will not receive a diversion certificate.

§ 930.159 Handler diversion.

(a) Methods of diversion. Handlers may divert cherries by redeeming grower diversion certificates, by destroying cherries at handlers’ facilities (at-plant), by donating cherries or cherry products to Board approved charitable organizations, or by using cherries or cherry products for exempt purposes under § 930.162, including export to countries other than Canada, Mexico and Japan. Once diversion is satisfactorily accomplished, handlers will receive diversion certificates stating the weight of cherries diverted. Diversion credit may be used to fulfill any restricted percentage requirement in full or in part. Any information received of a confidential and/or proprietary nature pursuant to this section will be protected from disclosure pursuant to § 930.73 of the order.

(b) Board notification and handler plan. Any handler intending to divert cherries or cherry products pursuant to § 930.59 of the order (except through exempt uses under § 930.62 of the order) must notify the Board of such intent and provide a plan by November 1 which shows how the handler intends to meet the restricted percentage obligation, except that, for the 1997–98 season only, the deadline is February 5, 1998. The Board may extend this date in individual cases pursuant to a written request showing good cause why the plan cannot be provided by the due date. A handler will have one year to fulfill such plan. The details of the plan shall include, but not be limited to, the name and address of the handler, the total product processed at-plant, product diverted at-plant, in-orchard diversion certificates redeemed, anticipated donations to charitable outlets, disposition to exempt outlets or uses and detailed plans for how and where such disposition will be made, and inventory reserve amount. It shall also contain an agreement that the proposed diversion is to be carried out under the supervision of the Board and that the cost of such supervision is to be paid by the handler. Supervision of diversion by means other than destruction of the cherries at a handler’s facility will be subject to supervision as found necessary by the Board. USDA inspectors or Board employees will supervise diversion of cherry products at the current hourly rate under USDA’s inspection fee schedule (7 CFR 52.42). Any cherries not diverted in accordance with the handler’s plan will be placed into the secondary inventory reserve or the primary inventory reserve if a secondary inventory reserve has not been established.

(c) At-plant diversion. Diversion by disposal at-plant will take place prior to placing the cherries into the processing line. Such diversion will take place under the supervision of USDA Inspection Service or Board employee inspectors. USDA inspectors or Board employees will supervise diversion of cherry products at-plant at the current hourly rate under USDA’s inspection fee schedule (7 CFR 52.42).

(d) Contributions to approved charitable organizations. When diverting by donating cherries or cherry products to charitable organizations, handlers should
Agricultural Marketing Service, USDA

§ 930.162

follow the requirements specified here-
in. For contributions to qualify for di-
version credit, the contributed product
should be marked clearly “NOT FOR
RESALE”. The receiving organization
must be approved by the Board as a
qualified recipient of contributions of
tart cherry products. Such organiza-
tions must be tax-exempt, must not
sell the donated products and must be
noncompetitive with other tart cherry
industry sales outlets. Once products
are donated to an organization, the
Board must receive satisfactory docu-
mentation of the transaction. Handlers
should provide the Board with informa-
tion on how the product was used and
the volume of product used.

(e) Grower diversion certificates. To
satisfy restricted percentage obliga-
tions by redeeming grower diversion
certificates handlers must present to
the Board grower diversion certificates
obtained from growers who have di-
verted cherries by non-harvest, and
who have been issued diversion certifi-
cates by the Board in accordance with
the applicable rules and regulations
governing the issuance of grower diver-
sion certificates. For this crop year
July 1, 1997, through June 30, 1998,
grower diversion certificates will be
valid until February 5, 1998.

(f) Exempt uses. To receive diversion
credit for cherries used for exempt pur-
poses, handlers must meet the terms
and conditions specified in §930.162.
Each handler may receive diversion
credit for up to one million pounds of
exempted products each crop year, ex-
cept that, for the 1997 season only, the
one million pound exemption limita-
tion for diversion credit does not apply
to handlers exporting tart cherry prod-
ucts.

§ 930.162 Exemptions.

(a) General. Tart cherries which are
used for the purpose of new product de-
development, for new market develop-
ment, for experimental purposes, for ex-
port (including juice, juice concentrate
or puree, for the 1997–98 crop year only)
to countries other than Canada, Mexico,
and Japan, or which are donated to
charitable organizations may be grant-
ed an exemption by the Board and will
be exempt from §§930.41, 930.44, 930.51,
930.53, and §§930.55 through 930.57, sub-
ject to the following terms and condi-
tions. Any information received of a
confidential and/or proprietary nature
included in this application will be pro-
tected from disclosure pursuant to
§930.73 of the order.

(b) Definitions. The terms in para-
graph (a) of this section shall have the
following meaning:

(1) New product development. The de-
velopment of new tart cherry products
or of foods or other products in which
tart cherries or tart cherry products
are incorporated which are not pres-
ently being produced on a commercial
basis. New product development can
also include the production or proc-
essing of a tart cherry product using a
technique not presently being utilized
commercially in the tart cherry indus-
try. Once total industry utilization for
a new product exceeds 2 percent of the
five year average production of tart
cherries, the product shall no longer be
considered under development and not
eligible for a new product development
exemption.

(2) New market development. The de-
velopment of markets for tart cherry
products which are not commercially
established markets and which are not
competitive with commercial outlets
presently utilized by the tart cherry
industry (including the development of
new export markets). A new market be-
comes commercially established, when
total industry utilization in the mar-
ket exceeds 2 percent of the five year
average production of tart cherries.

(3) Development of export markets. The
sale of cherries or cherry products, in-
cluding the development of sales for
new or different tart cherry products
or the expansion of sales for existing
tart cherry products, to countries
other than Canada, Mexico, and Japan:

Provided, That such cherry products
cannot include juice or juice con-
centrate: Provided further, That the ex-
clusion of juice or juice concentrate
shall not apply for the 1997 season only
(through June 30, 1998).

(4) Experimental purposes. The use of
cherries or cherry products in prelimi-
nary and/or developmental activities
intended to result in new products, new
applications and/or new markets for tart cherry products. Any exemption for experimental work shall be limited in scope, duration and volume based on information supplied by the applicant at the time a request for exemption is made. In no case shall an individual exemption for experimental purposes last longer than five years or exceed 100,000 pounds raw product equivalent of tart cherries.

(c) Obtaining approval for exempt uses.
In order to receive exemptions for cherries or cherry products utilized for exempt purposes, handlers must apply to the Board for a new exemption or for renewal of an existing exemption by November 1 for the next succeeding year; except for the 1997 year only, handlers may apply through February 5, 1998. A handler shall have one crop year to dispose of cherries or cherry products to exempt outlets approved by the Board, unless granted a renewal. Handlers applying to the Board for a new exemption or for renewal of an existing exemption are subject to the following conditions:

(1) When applying to the Board for an exemption for new product development, handlers must detail the nature of their new product, how it differs from current, existing products and the anticipated short and long term sales volume for the exemption. It will be the Board staff's responsibility to analyze and investigate any request and upon completion of that analysis authorize or deny the exemption.

(2) When applying to the Board for an exemption for new market development, handlers must detail the nature of their new market, how it differs from current, existing markets and the anticipated short and long term sales volume for the exemption. It will be the Board staff's responsibility to analyze and investigate any request and upon completion of that analysis authorize or deny the exemption.

(3) When applying to the Board for an exemption for the development of export markets for tart cherries or cherry products (including juice and juice concentrate through June 30, 1998 only) in countries other than Canada, Mexico and Japan, including the expansion of sales in existing export markets, handlers must detail the nature of their product, specify whether such product differs from current products being sold in export markets, and estimate the anticipated short and long term sales volumes for the requested exemption.

(4) When applying to the Board for an exemption for experimental purposes, handlers must indicate the preliminary and/or developmental experimental activity. Such experimental purposes should be intended to result in new products, new applications and/or new markets for existing tart cherry products. Any exemption for experimental work shall be limited in scope, duration and volume which the proposing party shall specify at the time a request for exemption is made. In no case shall an exemption for experimental purposes last longer than five years or exceed 100,000 pounds raw product equivalent per handler of tart cherries during the duration of the experiment.

(d) Review of applications. A Board appointed subcommittee of three persons which shall include the manager (or a Board member acting in the Manager's stead), the public member and one industry person who is not on the Board, shall review applications for exemption or renewal of an existing exemption and either approve or deny the exemption. Any denial of an application for exemption or renewal of an existing exemption shall be served on the applicant by certified mail and shall state the reasons for the denial. Within 10 days after the receipt of a denial, the applicant may file an appeal, in writing, with the Deputy Administrator, Fruit and Vegetable Programs, supported by any arguments and evidence the applicant may wish to offer as to why the application for exemption or renewal of exemption should have been approved. The Deputy Administrator upon consideration of such appeal will take such action as deemed appropriate with respect to the application for exemption or renewal of exemption.

(e) Progress report. Each handler that is granted an exemption must submit to the Board an annual progress report, due May 1 of each crop year. The
Agricultural Marketing Service, USDA

progress report shall include the results of the exemption activity (comparison of intended activity with actual activity) for the year in its entirety, the volume of exempted fruit, an analysis of the success of the exemption program, and such other information as the Board may request.

(f) Diversion credit; failure to meet terms and conditions of exemption. Handler diversion certificates for exempt uses shall be issued to handlers provided that terms and conditions applicable to exempt uses are satisfied. Diversion certificates will not be issued to handlers for any volume of tart cherry products for which such terms and conditions are not satisfied and such cherries would be subject to all of the terms and conditions of §§ 930.41, 930.44, 930.51, 930.53, and §§ 930.55 through 930.57.

(g) Failure to meet terms and conditions for exemption. Upon termination of an exemption, any volume of tart cherry products that were granted an exemption but were not utilized for the authorized exempt purpose would be subject to all of the terms and conditions of §§ 930.41, 930.44, 930.51, 930.53, and §§ 930.55 through 930.57.

Wenatchee District shall end June 30, 1966. Members and alternate members shall serve in such capacities for the portion of the term of office for which they are selected and have qualified and until their respective successors are selected and have qualified.

§ 931.22 Nomination.

(a) Initial members. Nominations for each of the initial members of the committee, together with nominations for the initial alternate members for each position, may be submitted to the Secretary by individual growers and handlers. Such nominations may be made by means of separate group meetings of the growers and handlers concerned in each district, which shall be publicized and open to all growers and handlers. Such nominations, if made, shall be filed with the Secretary no later than the effective date of this part. In the event nominations for initial members and alternate members of the committee are not filed pursuant to, and within the time specified in this section, the Secretary may select such initial members and alternate members without regard to nominations, but selections shall be on the basis of the representation provided for in §931.20.

(b) Successor members. (1) The committee shall hold or cause to be held, not later than June 1 of each year, separate meetings of growers and handlers in each district for the purpose of designating nominees for successor members and alternate members of the committee, which shall be publicized and open to all growers and handlers. At each such meeting, a chairman and a secretary shall be designated by the growers and handlers eligible to participate therein. The chairman shall announce at the meeting the results of nominations for member or alternate member and shall submit promptly to the committee a complete report concerning such meeting. The committee shall, in turn, promptly submit a copy of each such report to the Secretary.

(2) Only growers, including duly authorized officers or employees of growers, who are present at such nomination meetings may participate in the nomination and election of nominees for successor members and their alternates. (m) With the approval of the Secretary to redefine the districts into which the production area is divided, and to reapportion the representation of any district on the committee: Provided, That any such changes shall reflect, insofar as practicable, shifts in pear production within the districts and the production area.

§ 931.32 Procedure.
(a) Twelve members of the committee, including alternates acting for members, shall constitute a quorum, and any action of the committee shall require the concurring vote of all except two of the members present.
(b) The committee may provide for simultaneous meetings of groups of its members assembled at two or more designated places: Provided, That such meetings shall be subject to the establishment of communication between all such groups and the availability of loud speaker receivers for each group so that each member may participate in the discussions and other actions the same as if the committee were assembled in one place. Any such meeting shall be considered as an assembled meeting.

(c) The committee may vote by telegraph, telephone, or other means of communication, and any votes so cast shall be confirmed promptly in writing: Provided, That if an assembled meeting is held, all votes shall be cast in person.

§ 931.33 Expenses.

The members of the committee and alternates when acting as members, shall be reimbursed for expenses necessarily incurred by them in the performance of their duties under this part: Provided, That at its discretion the committee may request the attendance of one or more alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members, and may pay expenses as aforesaid.

§ 931.34 Annual report.

The committee shall, as soon as is practicable after the close of each fiscal period, prepare and mail an annual report to the Secretary and make a copy available to each handler and grower who requests a copy of the report. § 931.41 Assessments.

Each such person’s share of such expenses shall be equal to the ratio between the total quantity of pears handled by him as the first handler thereof during the applicable fiscal period and the total quantity of pears so handled by all persons during the same fiscal period. The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such person. At any time during or after the fiscal period, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all pears handled during the applicable fiscal period. In order to provide funds for the administration of the provisions of this part during the first part of a fiscal period before sufficient operating income is available from assessments on the current year’s shipments, the committee may accept the payment of assessments in advance, and may also borrow money for such purpose.

of any excess assessment shall be credited with such refund against the operation of the following fiscal period unless such person demands repayment thereof, in which event it shall be paid to him: Provided, That any sum paid by a person in excess of his pro rata share of the expenses during any fiscal period may be applied by the committee at the end of such fiscal period to any outstanding obligations due the committee from such person.

(2) The committee, with the approval of the Secretary, may establish and maintain during one or more fiscal years an operating monetary reserve in an amount not to exceed approximately one fiscal year’s operational expenses. Upon approval by the Secretary, funds in such reserve shall be available for use by the committee for all expenses authorized pursuant to §931.40.

(3) Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practical, such funds will be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(k) With the approval of the Secretary, to redefine the districts into which the area has been divided in §932.21 and to reapportion the membership in accordance therewith: Provided, That any such changes reflect insofar as practicable shifts in olive acreage within the districts and area, the numbers of growers in the districts, the tonnage produced, and are equitable as to producers; and

(l) To investigate compliance with the provisions of this part.

§ 932.36 Procedure.

Decisions of the committee shall be by majority vote of the members present and voting, and a quorum must be present: Provided, That decisions requiring a recommendation to the Secretary on matters pertaining to grade and size regulations shall require at least 10 affirmative votes, at least 5 of which must be from producer members and at least 5 of which must be from handler members. A quorum shall consist of at least 10 members of whom at least 5 shall be producer members and at least 5 shall be handler members and, if the committee is increased by the addition of a public member, a quorum shall consist of at least 11 members of which at least 5 shall be producer members and at least 5 shall be handler members. When voted on by such method, at least 14 affirmative votes, of which seven shall be producer member votes and seven shall be handler member votes, shall be required for adoption and, if the committee is increased by the addition of a public member, votes by mail or telegram shall require at least 15 affirmative votes, of which at least 7 shall be producer member votes and at least 7 shall be handler member votes. The committee may recommend for the Secretary’s approval changes in the number of affirmative votes required for adoption of any proposition voted upon by means of a mail or telegram ballot: Provided, That the number of affirmative votes required for adoption shall not be less than ten, and in any case an equal number of producer member and handler member votes shall be required for adoption and, if the committee is increased by the addition of a public member, the number of affirmative votes required for adoption shall be increased by one.

§ 932.37 Compensation and expenses.

The members of the committee and alternates when acting as members or at the request of the committee or its
chairman shall serve without compensation, but shall be reimbursed for necessary expenses, as approved by the committee, incurred by them in the performance of their duties under this part.

[47 FR 32908, July 30, 1982]

§ 932.38 Expenses. The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by the committee for its maintenance and functioning and to enable it to exercise its powers and perform its duties in accordance with the provisions of this part. The funds to cover such expenses shall be acquired in the manner prescribed in §932.39.

§ 932.39 Assessments. (a) As each handler’s pro rata share of the expenses which the Secretary finds are reasonable and likely to be incurred by the committee during a fiscal year, each handler who first handles olives during the current crop year shall pay to the committee, upon demand, assessments less any amounts which may be credited pursuant to §932.45, on all olives to be used in the production of packaged olives, including olives to be used in canned ripe olives of the “tree-ripened” type or green olives when such are regulated as packaged olives pursuant to §932.52. The payment of assessments for maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) The Secretary shall fix the rate of assessment to be paid by each such handler during a fiscal year in an amount designed to secure sufficient funds to cover the expenses which may be incurred during such period. At any time during or after the fiscal year, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses which may be incurred. Such increase shall be applied to all olives handled during the applicable crop year.

In order to provide funds for the administration of the provisions of this part during the first part of a fiscal year before sufficient operation income is available from assessments, the committee may accept the payment of assessments in advance, and may also borrow money for such purpose.

(c) Any assessment not paid by a handler within a period of time prescribed by the committee may be subject to an interest or late payment charge, or both. The period of time, rate of interest and late payment charge shall be as recommended by the committee and approved by the Secretary. Subsequent to such approval, all assessments not paid within the prescribed period of time shall be subject to an interest or late payment charge or both.

§ 932.40 Accounting. (a) If, at the end of a fiscal year, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve as provided in paragraph (a)(2) of this section, the committee shall refund or credit to handler accounts the aforesaid excess. Each handler’s share of such excess funds shall be the amount of assessments such handler has paid in excess of such handler’s pro rata share of the actual net expenses of the committee for such fiscal year. Excess funds may be used temporarily by the committee to defray expenses of the subsequent fiscal year: Provided, That each handler’s share of such excess shall be made available to the handler by the committee within five months after the end of the fiscal year.

(2) The committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal years as a reserve: Provided, That funds already in the reserve do not exceed approximately one fiscal year’s expenses. Such reserve funds may be used for any expenses authorized pursuant to §932.38 and for necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary
expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practicable, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to the committee, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in the committee full title to all of the property, funds, and claims vested in such member pursuant to this part.

Such projects may provide for any marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of California olives. Such projects may provide for any form of marketing promotion including paid advertising. The expenses of such research and projects shall be paid from funds collected pursuant to § 932.39 or from voluntary contributions. Voluntary contributions may be accepted by the committee only to pay the expenses of such projects: Provided, That the committee shall retain complete control over the use of such contributions which shall be free from any encumbrances.

(2) The committee, with the approval of the Secretary, may provide for crediting a portion of a handler’s direct expenditures for paid brand advertising for olives. Such expenditures may include, but are not limited to, money spent for advertising space in magazines, newspapers, outdoor media and transit or time charges for radio and television. No handler shall receive credit in excess of such handler’s pro rata share of the total monies allotted by the committee for brand advertising credit. Each advertisement must be published, broadcast or displayed during the fiscal year for which credit is requested. Before any creditable brand advertising may be undertaken pursuant to this paragraph (a)(2) of this section, the Secretary, upon recommendation by the committee, shall prescribe appropriate rules and regulations as are necessary to effectively regulate such activity.

(b) In recommending marketing research and development projects pursuant to this section, the committee shall give consideration to the following factors:

(1) The expected supply of olives in relation to market requirements;

(2) The supply situation among competing areas and commodities; and

(3) The need for marketing research with respect to any marketing development activity and the need for a coordinated effort with USDA’s Plentiful Food Program.

(c) In recommending production research projects pursuant to this section, the committee shall give consideration to the extent and need for assistance to, and improvement of California olive production.

(d) If the committee should conclude that a program of production research, marketing research, or development should be undertaken or continued pursuant to this section in any fiscal year, it shall submit the following for the approval of the Secretary:

**Provided,** That for whole and whole pitted styles of olives an additional size grading is required after processing, prior to canning, and those olives that fail to meet the requirements in §932.52 may be used in limited use styles. **Provided further,** That the varietal groupings, average count ranges, and/or other size requirements may be changed or modified as recommended by the committee and approved by the Secretary;

(iii) The committee may recommend, subject to approval by the Secretary, size certification procedures for olives used in the production of canned whole or pitted styles of olives: **Provided,** That if size certification for canned whole or pitted styles is implemented, marketing order sizes shall be adopted and size requirements in the U.S. Grade Standards shall not apply. Size certification of such styles shall be applicable to any or all sizes of olives recommended by the committee and approved by the Secretary pursuant to §932.52(a)(2). Size certification procedures recommended to the Secretary may include but are not limited to the establishment of average count ranges, acceptable count ranges, and approximate counts (midpoints) for each variety or variety group.

(3) Each handler shall, under the supervision of any such inspection service, dispose of into noncanning use an aggregate quantity of olives, comparable in size and characteristics and equal to the quantities shown on the certification for each lot to be:

(i) Variety Group 1 olives, except the Ascolano, Barouni, and St. Agostino varieties, of a size which individually weigh less than 1⁄90 pound;

(vi) Olives classified as culls.

(4) Notwithstanding the provisions of paragraph (a)(3) of this section, a handler may (i) meet any deficit in such handler’s undersize obligation in one variety by disposing of, under supervision of the inspection service, as other than canned ripe olives, an equal quantity of undersize olives, of any other variety, or by so disposing of an equal quantity of olives of that or any other variety of sizes larger than undersize of a quality better than culls, and (ii) meet any deficit in such handler’s cull obligation in one variety by so disposing of an equal quantity of cull olives of any other variety, or by so disposing of an equal quantity of olives of any variety of sizes larger than undersize of a quality better than culls.

(5) Each handler shall hold at all times a quantity of olives equal to the quantities required in paragraph (a)(3) of this section, less any quantity previously disposed of as specified in such subparagraph.

(b) Whenever a handler receives a lot of natural condition olives, or makes a separation resulting in a sublot, solely for use in the production of green olives or canned ripe olives of the “tree-ripened” type, he may handle such lot or sublot without regard to the provisions of this section and §932.52 only if (1) he notifies the committee upon receiving such a lot or making such a separation; (2) the identity of all such lots and sublots of olives is maintained by keeping them separate and apart from other olives he receives; (3) the packaged olives produced from such lots and sublots after processing are canned ripe olives of the “tree-ripened” type or green olives; and (4) there are no outgoing regulations pursuant to §932.52 then applicable to packaged olives that are canned ripe olives of the “tree-ripened” type or green olives.

Upon such disapproval, such disapproved action shall be deemed null and void except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 932.67 Effective time.

The provisions of this subpart, as well as any amendments to this subpart, shall become effective at such time as the Secretary may declare, above his signature, and shall continue in force until terminated in one of the ways specified in §932.68.

(b) The Secretary shall terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any crop year whenever the Secretary finds that such termination is favored by a majority of producers who, during a representative period determined by the Secretary, have been engaged in the area in the production of olives for market as packaged olives: Provided, That such majority have during such representative period produced for market more than 50 percent of the volume of such olives produced for market, but such termination shall be effective only if announced on or before July 15 of the then current crop year.

§ 932.69 Proceedings after termination.

(a) Upon the termination of the provisions of this subpart, the members of the committee then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the committee, of all funds and property then in the possession or under the control of the committee including claims for any funds unpaid or property not delivered at the time of such termination. Action by such trustee shall require the concurrence of a majority of the trustees.

(b) Said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements, and deliver all property on hand, together with all books and records of the committee and the joint trustees, to such person as the Secretary may direct; and shall, upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the joint trustees.

(c) Any person to whom funds, property, or claims have been transferred or delivered by the committee or the joint trustees, pursuant to this section, shall be subject to the same obligations imposed upon the members of the said committee and upon said joint trustees.

§ 932.70 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or any regulation issued pursuant thereto, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen, or which may thereafter arise, in connection with any provision of this subpart, or any regulation issued thereunder; (b) release or extinguish any violation of this subpart or of any regulation issued thereunder; or (c) affect or impair any rights or remedies of the Secretary or any other person with respect to any such violation.

§ 932.71 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.
§ 932.72 Agents.

The Secretary may, by a designation in writing, name any person, including any officer or employee of the U.S. Government or name any service or division in the U.S. Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 932.73 Derogation.

Nothing contained in this subpart is or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 932.74 Personal liability.

No member or alternate member of the committee or any employee or agent thereof shall be held personally responsible, either individually or jointly with others, in any way whatsoever, for errors in judgment, mistakes, or other acts either of commission or omission, as such member, alternate member, employee, or agent, except for acts of dishonesty.

§ 932.75 Separability.

If any provision of this subpart is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

(1) Range in color from pinkish red, with some greenish cast, to black; and

§ 932.129

section as the Committee may determine.

(a) Mail ballot voting. (1) The Committee shall schedule a meeting, prior to March 1 of each odd-numbered year, in each producing district for the purpose of selecting candidates for member and alternate member nominations. A notice of such meetings will be mailed to each producer of record in each district. The nomination process is as follows:

(i) Any person who produces olives in a particular district may offer the name of any producer from that district as a candidate for either a member or alternate member position in said district.

(ii) A producer, who produces olives in more than one district, can be selected as a candidate for a member or alternate member position in only one district.

(iii) The Committee will notify by mail producers who are selected as candidates but are not in attendance at such meetings. Such producers have the right to decline such listing on the ballot within 7 days of mailing such notice.

(iv) In the event a producer cannot attend a meeting but wishes to be included on the ballot, that producer may notify the Committee office in writing no later than 7 days after the date of the nomination meeting for the producer's district and request that the producer's name be included on the ballot.

(v) In the event that no candidates or an insufficient number of candidates are selected at such meetings for the producer members and alternates in the respective districts, the Committee will give written notice to producers in said district that additional names may be submitted for the specified position(s).

(2) Following such meetings, and no later than March 15 of each odd-numbered year, the Committee shall prepare and mail a ballot to each producer that delivered olives during that crop year in each district.

(i) A producer who produces olives in more than one district must choose the district in which the producer will vote and notify the Committee of that choice. If the Committee is not notified and more than one ballot is received from such a producer, the first ballot received will be counted. Candidates may only vote in the district in which they are seeking nomination.

(ii) Each ballot will list separately the names of candidates for the member positions and the names of candidates for the alternate member positions for said district.

(iii) A ballot will be mailed to producers of record to give them an opportunity to vote. Committee records will be used to determine the list of producers eligible to cast ballots. However, any producer who is not identified in such records may receive a ballot if the Committee determines that such producer is eligible to participate in nominations in that district.

(iv) A producer may cast a vote for as many candidates as there are member or alternate positions in said district.

(v) The candidate on each list, as prescribed in paragraph (a)(2)(ii) of this section, who receives the most votes will be the nominee for the first position, and until all positions for that district are filled, the candidates receiving the second, third and fourth highest number of votes will be the nominees for the second, third and fourth position respectively.

(vi) In the event of a tie which would result in elimination of a tied candidate, a second ballot with the names of those tied candidates will be mailed to producers in said district for another vote.

(b) Nomination meetings. In lieu of the mail ballot nomination procedure specified in paragraph (a) of this section, the Committee may schedule nomination meetings. In such an event, the following procedure will apply:

(1) Prior to March 15 of each odd-numbered year, the Committee shall schedule a nomination meeting to be held in each district for the purpose of obtaining nominees for producer members and alternate members for such district.

(2) Nominations for members and balloting thereon shall precede nominations and balloting for alternate members.

(3) The candidate for each position who receives the highest number of
votes shall be the nominee for the position: Provided, That such candidate receives a majority of the ballots cast. If no candidate receives such a majority, the two candidates who received the highest number of votes shall participate in a run-off balloting to determine which is the nominee.

(c) For the purposes of this section, a producer is a person engaged in a proprietary capacity as a single business unit in the production of olives for market as packaged olives and includes an individual (owner-operated), partnership, corporation, association, institution, or other legal business unit.

(d) Determination of producer eligibility. (1) Only producers (including duly authorized officers or employees of producers) who produced olives within the district shall participate in the nomination and election of producer members and alternates.

(2) Each producer (as defined in paragraph (c) of this section) shall be entitled to cast only one vote for each position.

(3) A producer having olive acreage in more than one district may participate in nominations and elections in only one district. The district in which the producer wishes to participate shall be the producer's choice.

(4) Any member of a producer's family (husband, wife, son or daughter) may vote on behalf of an owner-operated, landlord-tenant, family enterprise, or other farming unit.

(5) Any authorized officer or employee of a corporation which is a producer may vote.

(6) Any authorized member of a partnership which is a producer may vote.

(7) Power of attorney (proxies) for voting purposes are not accepted.

§ 932.139 Late payment and interest charges.

(a) The committee shall impose a late payment charge on any handler whose assessment has not been received in the committee’s office, or the envelope containing the payment legibly postmarked by the U.S. Postal Service, within 30 days of the invoice date shown on the handler’s assessment statement. The late payment charge shall be five percent of the unpaid balance.

(b) In addition to that specified in paragraph (a) of this section, the committee shall impose an interest charge on any handler whose assessment has not been received in the committee’s office, or the envelope containing the payment legibly postmarked by the U.S. Postal Service, within 30 days of the invoice date. The interest charge shall be the current commercial prime rate of the committee’s bank plus two percent which shall
be applied to the unpaid balance and late payment charge for the number of days all or any part of the assessment specified in the handler’s assessment statement is delinquent beyond the 30 day payment period.

(c) The committee, upon receipt of a late payment equal to or greater than the assessment specified on the handler’s assessment statement, shall promptly notify the handler (by registered mail) of any late payment and/or interest due as provided in paragraphs (a) and (b) of this section. If such charges are not paid, or the envelope containing payment is not legibly postmarked by the U.S. Postal Service, within 30 days of the date on such notification, late payment and interest charges as provided in paragraphs (a) and (b) of this section will accrue on the unpaid amount.

§ 932.150 Modified minimum quality requirements for canned green ripe olives.

The minimum quality requirements prescribed in §932.52 (a)(1) of this part are hereby modified with respect to canned green ripe olives so that no requirements shall be applicable with respect to color and blemishes of such olives.

§ 932.151 Incoming regulations.

(a) Inspection stations. Natural condition olives shall be sampled and size-graded only at inspection stations which shall be a plant of a handler or other place having facilities for sampling and size-grading such olives: Provided, That such location and facilities are satisfactory to the Inspection Serv-
weight of sample, if size-graded by sample; and (xiii) the quantity of olives in each size designation. The completed Form COC-3A or 3C shall be furnished to the Inspection Service which shall certify thereon that the lot was size-graded as required by §932.51 if in accordance with the facts.

(e) Disposition of noncanning olives—

(1) Notification and inspection of noncanning olives. Prior to disposition of noncanning olives the handler shall complete Form COC-5, report of limited and undersize and cull olives inspection and disposition, which shall contain the following: (i) Type and number of containers; (ii) type of olives (undersize or culls); (iii) net weight; (iv) variety; (v) outlet (green olives, olive oil, etc.); and (vi) consignee. Before disposition of such olives, the completed Form COC-5 shall be furnished to the Inspection Service which shall inspect the olives for conformance with the information contained thereon, and, if correct, so certify in the space provided thereon.

(2) Control and surveillance. Noncanning olives that have been reported on Form COC-5 and inspected by the Inspection Service shall, unless such olives are disposed of immediately after being inspected under supervision of the inspector, be identified by fixing to each bin or pallet of boxes an COC control card which may be obtained from the committee. Such olives shall be kept separate and apart from other olives in the handler’s possession and shall be disposed of only in the outlet shown on Form COC-5 and under the supervision of an inspector of the Inspection Service.

(3) Time period for disposition. All required disposition of noncanning olives shall be completed not later than September 30 of the crop year following the one in which the obligation is incurred or such later date that a handler may specify in a notice filed with the committee at least 15 days prior to September 15 of such subsequent crop year: Provided, That such notice shows that such handler has a sufficient quantity of olives held in storage to meet his obligation and such later date is not later than the date when he will have completed his disposition of olives of the crop year of obligation.

(4) Olives not subject to incoming inspection. Except as otherwise prescribed in §932.51(b), any lot of olives to be used solely in the production of green olives or canned ripe olives of the “tree ripened” type shall not be subject to incoming inspection: Provided, That the applicable requirements of §932.51(b) are met and the handler notifies the Inspection Service, in writing, that such lot is to be so used. Notice may be given by writing on the weight certificate “Lot to be used solely for use in the production of green olives or tree ripened olives” and a copy of such weight certificate given to the Inspection Service.

(f) Partially exempted lots. (1) Pursuant to §932.55, any handler may process any lot of natural condition olives for use in the production of packaged olives which has not first been weighed and size-graded as an individual lot as required by §932.51(a) (i) and (ii), but was combined with any other lot or lots of natural condition olives, only if (i) all the olives in the combined lot are delivered to the handler in the same day, (ii) the total net weight of the olives delivered to the handler by any person in such day does not exceed 500 pounds, (iii) each such person had authorized combination of his lot with other lots, and (iv) the combined lot of the natural condition olives is weighed and size-graded as required by §932.51(a) (i) and (ii) prior to processing the olives.

(2) Whenever the natural condition olives in partially exempt individual lots are combined with other such olives as provided in paragraph (f)(1) of this section, the provision of the section applicable on individual lots shall apply instead to a combined lot.

(3) Each such handler shall file with the committee a weekly report showing for each day of the week the respective quantity in combined lots together with each person’s authorization for combining lots. The report shall be filed upon a form supplied by the committee.

(g) Additional Marketing Order Size Designations. Pursuant to the authority in §932.51(a)(1)(ii), the following additional size designations are established:
§ 932.152 Outgoing regulations.

(a) Inspection stations. Processed olives shall be sampled and inspected only at an inspection station which shall be any olive processing plant having facilities for in-line or lot inspection which are satisfactory to the Inspection Service and the Committee; or an olive processing plant which has an approved Quality Assurance Program in effect.

(b) Inspection—General. Inspection of packaged olives for conformance with §932.52 shall be by a Quality Assurance Program approved by the Processed Products Branch (PPB), USDA; or by in-line or lot inspection. A PPB approved Quality Assurance Program shall be pursuant to a Quality Assurance contract as referred to in §52.2.

For each member of the committee, there shall be an alternate who shall have the same qualifications as the member. The number of producer and/or handler members and alternates on the committee may be increased and the composition of the committee between producers and handlers may be changed as provided in §945.23.

(b) Each person selected as a committee member or alternate to represent producers shall be an individual who is a producer in the district for which selected or an officer or employee of a producer in such district, and shall be a resident thereof. (5) other relevant factors.

(b) Membership of the committee shall be apportioned among the districts of the production area so as to provide the following representation or such other representation as recommended by the committee and approved by the Secretary:

(b) In arranging for such meetings, the committee may, if it deems it to be desirable, utilize the services and facilities of existing organizations and agencies, and may combine its meetings with others.

(c) At least one nominee shall be designated for each position as member and for each position as alternate member on the committee.

(d) Only producers may participate in designating nominees for producer members and alternates, and only handlers may participate in designating nominees for handler members and alternates.

(f) Regardless of the number of districts in which a person produces or handles potatoes, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives, in designating nominees for committee members and alternates. In the event a person is engaged in producing or handling potatoes in more than one district, such person shall elect the district within which he may participate, as aforesaid, in designating nominees. An eligible voter’s privilege of casting only one vote, as aforesaid, shall be construed to permit a voter to cast one vote for each position to be filled in the district in which he elects to vote.

(g) Nominations shall be supplied to the Secretary in such manner and form as the Secretary may prescribe, not later than May 1 of each year, or such other date as the Secretary may specify.

§ 945.26 Failure to nominate.

If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of the representation provided for in §945.24.

§ 945.29 Alternate members.

An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate during such member’s absence and may perform such other duties as may be assigned or requested by the committee. The committee may request the attendance of one or more alternates at any or all
§ 945.30 Procedure.

(b) The committee may provide for meetings by telephone, telegraph or other means of communication and any vote cast at such meeting shall be confirmed promptly in writing.

§ 945.31 Expenses.

Committee members and alternates shall be reimbursed for reasonable expenses necessarily incurred by them in the performance of their duties and in the exercise of their powers under this subpart, and may receive compensation at a rate determined by the committee, and approved by the Secretary, for each day or portion thereof, spent in conducting committee business.

[53 FR 3189, Feb. 4, 1988]

§ 945.32 Powers.

The committee shall have the following powers:

(a) To administer the provisions of this subpart in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

§ 945.33 Duties.

It shall be the duty of the committee:

(a) To act as intermediary between the Secretary and any producer or handler;

(b) To select a chairman and such other officers as may be necessary, to select subcommittees of committee members, and to adopt such rules and regulations for the conduct of its business as it may deem advisable;

(c) To appoint such employees, agents, and representatives as it may deem necessary and to determine the salaries and define the duties of each such person;

(d) To investigate, from time to time, and to assemble data on the growing, harvesting, shipping and marketing conditions with respect to potatoes, and to engage in such research and service activities which relate to the handling or marketing of potatoes as may be approved by the Secretary;

(e) To furnish to the Secretary such available information as he may request;

(f) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books, and records shall be subject to examination at any time by the Secretary or his authorized agent or representative;

(g) To make available to producers and handlers the committee voting record on recommended regulations and on other matters of policy;

(h) At the beginning of each fiscal period to submit to the Secretary a budget of its expenses for such fiscal period, together with a report thereon:

(i) To cause the books of the committee to be audited by a competent accountant at least once each fiscal period, and at such other time as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this subpart; a copy of each such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of the committee for inspection by producers and handlers; and

(j) To consult, cooperate and exchange information when deemed desirable by the committee with other potato marketing committees and
other individuals or agencies in connection with all proper committee activities and objectives under this subpart.

§ 945.40 Expenses.

The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share such expenses upon the basis of a fiscal period. Each handler's share of such expense shall be proportionate to the ratio between the total quantity of potatoes handled by him as the first handler thereof during a fiscal period and the total quantity of potatoes handled by all handlers as first handlers thereof during the same period.

§ 945.41 Budget.

At the beginning of each fiscal period, and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenses as authorized in §945.40. The committee shall present such budget promptly to the Secretary with an accompanying report showing the basis for its calculations.

§ 945.42 Assessments.

(a) The funds to cover the committee's expenses pursuant to §945.40 shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who ships potatoes as the first handler thereof shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler's pro rata share of such expenses.

(b) Assessments shall be levied upon handlers at a rate per hundredweight of potatoes or equivalent established by the Secretary. Such rate may be established upon the basis of the committee's budget recommendations, and other available information.

(c) At any time during or subsequent to a given fiscal period, the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendation, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all potatoes assessable under this part and handled by the first handler thereof during such fiscal period.

(d) The committee may impose a late payment charge or an interest charge, or both, on any handler who fails to pay, on or before the due date established by the Secretary, the total assessment for which such handler is liable. Such due date and the late payment fee and interest rate shall be recommended by the committee and approved by the Secretary.

(e) In order to provide funds to carry out its function, after the effective date of this subpart the committee may accept advance assessments from handlers. Advance assessments received from a handler shall be credited toward assessments levied against that handler during that fiscal period. In the case of an extreme emergency, the committee may also borrow money on a short term basis to provide funds for the administration of this part. Any such borrowed money shall only be used to meet the committee's current financial obligations, and the committee shall repay all borrowed money by the end of the next fiscal period from assessment income.

§ 945.43 Accounting.

(a) All funds received by the committee pursuant to the provisions of this subpart shall be used solely for the purposes specified in this part.

(b) The Secretary may at any time require the committee, its members and alternates, employees, agents, and all other persons to account for all receipts and disbursements, funds, property, and records for which they are responsible. Whenever any person ceases ...
§ 945.44 Excess funds.

(a) The funds remaining at the end of a fiscal period which are in excess of the expenses necessary for committee operations during such period may be carried over, with the approval of the Secretary, into following periods as a reserve. Such reserve shall be established at an amount not to exceed approximately one fiscal period’s budgeted expenses. Funds in such reserve shall be available for use by the committee for expenses authorized under § 945.40.

(b) Funds in excess of those placed in the operating reserve shall be credited proportionately against a handler’s operations of the following fiscal period, except that if the handler demands payment, such proportionate refund shall be paid to such handler.

(c) Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate. To the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

REGULATIONS

§ 945.50 Marketing policy.

(a) Preparation. Prior to or at the same time as recommendations are made pursuant to § 945.51, the committee shall consider, and prepare, a proposed policy for the marketing of potatoes. In developing its marketing policy the committee shall investigate relevant supply and demand conditions for potatoes. In such investigations the committee shall give appropriate consideration to the following:

1. Market prices for potatoes, including prices by grade, size, and quality, in different packs, and in different containers;

2. Supplies of potatoes by grade, size, and quality in the production area and in other potato producing areas;

3. The trend and level of consumer income;

4. Establishing and maintaining orderly marketing conditions for potatoes;

5. Orderly marketing of potatoes as will be in the public interest; and

6. Other relevant factors.

(b) Reports. (1) The committee shall promptly submit a report to the Secretary setting forth the aforesaid marketing policy and shall notify producers and handlers of the contents of such report.

(2) In the event it becomes advisable to deviate from such marketing policy because of changed supply and demand conditions, the committee shall formulate a new or revised marketing policy in the manner set forth in this section. The committee shall promptly submit a report thereon to the Secretary and notify producers and handlers of the contents of such report on the new or revised marketing policy.

## Inspection and Certification

### § 945.65 Inspection and certification.

(a) During any period in which regulations are in effect pursuant to §945.42, §945.52, or §945.53, or any combination thereof, no handler shall handle potatoes unless such potatoes are inspected by an authorized representative of the Federal-State Inspection Service, and are covered by a valid inspection certificate, except when relieved from such requirements pursuant to recommendations by the committee and approved by the Secretary.

(b) Regrading, resorting, or repacking any lot of potatoes shall invalidate any prior inspection certificates covering such potatoes insofar as the requirements of this section are concerned. During any period in which shipments of potatoes are regulated, as aforesaid, no handler shall handle potatoes after they have been regraded, resorted, repacked, or in any way further prepared for market, unless such potatoes are inspected and covered by a valid inspection certificate as required in paragraph (a) of this section.

(c) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate shall be valid may be established by the committee with the approval of the Secretary; and such length of time may be different for shipments for different purposes.

(d) When potatoes are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available promptly to the committee by the inspection service.

### § 945.70 Compliance.

Except as provided in this part, no handler shall ship potatoes, the shipment of which has been prohibited by the Secretary in accordance with provisions of this subpart, and no handler shall ship potatoes except in conformity to the provisions of this subpart.

### Miscellaneous Provisions

### § 945.80 Reports.

(a) Upon the request of the committee, with approval of the Secretary, every handler shall furnish to the committee, in such manner and at such time as may be prescribed, such information as will enable the committee to exercise its powers and perform its duties under this subpart. The Secretary shall have the right to modify, change, or rescind any requests for reports pursuant to this section.

(b) All data or other information constituting a trade secret, or disclosing a trade position or business condition of a particular handler shall be treated as confidential and shall at all times be received by and kept in the custody and under the control of one or more designated employees of the committee. Information which would reveal the circumstances of a single handler shall be disclosed to no person other than the Secretary.

(c) Each handler shall maintain for at least two succeeding fiscal periods such records of potatoes received and of potatoes disposed of by such handler as may be necessary to verify reports required pursuant to this section. The committee, with the approval of the Secretary, may prescribe rules and regulations issued pursuant to this section specifying handler records and reports which the committee may need to perform its functions.

(d) For the purpose of assuring compliance and checking and verifying reports filed by handlers, the Secretary and the committee, through its duly authorized agents, shall have access to any premises where applicable records are maintained, where potatoes are held, and, at any time during reasonable business hours, shall be permitted
to inspect such handlers' premises and any and all records of such handlers with respect to matters within the purview of this part.

§ 945.81 Right of the Secretary.
The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 945.82 Effective time.
The provisions of this subpart shall become effective at such time as the Secretary may declare above his signature attached to this subpart, and shall continue in force until terminated in one of the ways specified in this subpart.

§ 945.83 Termination.
(a) The Secretary may, at any time, terminate the provision of this subpart by giving at least one day's notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operation of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal period whenever he finds that such termination is favored by a majority of producers who, during the preceding fiscal period, have been engaged in the production for market of potatoes: Provided, That such majority has, during such period, produced for market more than fifty percent of the volume of such potatoes produced for market; but such termination shall be effective only if announced on or before April 30 of the then current fiscal period.

(d) The Secretary shall conduct a referendum as soon as practicable after July 31, 1992, and at such time every sixth year thereafter, to ascertain whether continuance of this order is favored by potato producers. The Secretary may terminate the provisions of this order at the end of any fiscal period in which the Secretary has found that continuance of this order is not favored by producers who, during a representative period determined by the Secretary, have been engaged in the production for market of potatoes in the production area. Termination of the order shall be effective only if announced on or before July 1 of the then current fiscal period.

(e) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 945.84 Proceedings after termination.
(a) Upon the termination of the provisions of this subpart, the then functioning members of the committee shall continue as trustees, for the purpose of liquidating the affairs of the committee, of all the funds and property then in its possession or under its control, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall upon request of the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant thereto.
§ 945.85 Effect of termination or amendments.

(a) Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendments to either thereof, shall not (1) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (2) release or extinguish any violation of this subpart or of any regulation issued under this subpart, or (3) affect or impair any rights or remedies of the Secretary or of any other person with respect to any such violation.

(b) The persons who are committee members and alternates on the effective date of this subpart shall continue in office until their successors have been selected and have qualified. All rules and regulations issued or approved by the Secretary pursuant to this part (Order No. 945, as amended) and not in conflict herewith, which are in effect immediately prior to the date of this amendment shall continue in effect under this subpart as originally issued, or subsequently modified, until such rules and regulations are changed, modified, or suspended in accordance with this subpart.

§ 945.86 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart, except with respect to acts done under and during the existence of this subpart.

§ 945.87 Agents.

The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 945.88 Derogation.

Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers, granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 945.89 Personal liability.

No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, or employee, except for acts of dishonesty.

§ 945.90 Separability.

If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 945.91 Amendments.

Amendments to this subpart may be proposed, from time to time, by the committee or by the Secretary.

§ 945.112 Terms.
Terms used in this subpart shall have the same meaning as when used in the marketing agreement and order, both as amended.

CERTIFICATES OF PRIVILEGE

§ 945.120 General.
Whenever shipments of potatoes for special purposes pursuant to §945.53 are relieved in whole or in part from grade and size regulations issued under §945.52 the committee shall require information and evidence as to the manner, methods, and timing of such shipments as safeguards against the entry of any such potatoes into trade channels other than those for which intended. Such information and evidence shall include the requirements set forth below with respect to Certificates of Privilege.

§ 945.121 Qualification.
Before handling potatoes for special purposes which do not meet regulations issued pursuant to §945.52 a handler must qualify with the committee to handle shipments for special purposes. To qualify he must (a) apply for and receive a Certificate of Privilege indicating his intent to so handle potatoes; (b) agree to comply with reporting and other requirements set forth in §§945.121 to 945.125, inclusive, with respect to such shipments; and (c) receive approval of the committee, or its duly authorized agents, to so handle potatoes. Such approval will be based upon evidence furnished in his application for a Certificate of Privilege, and other information available to the committee.

§ 945.122 Application.
(a) Application for a Certificate of Privilege shall be made on forms furnished by the committee. Each application may contain, but need not be limited to, the name and address of the handler; the quantity by grade, size, quality and variety of the potatoes to be shipped; the mode of transportation; the consignee; the destination; the purpose for which the potatoes are to be used; a certification to the United States Department of Agriculture and to the committee as to the truthfulness of the information shown thereon; and any other appropriate information or documents deemed necessary by the committee or its duly authorized agents for the purpose stated in §945.120.

(b) The committee may require each handler making shipments of potatoes for export to include with his application a copy of the Department of Commerce Shipper’s Export Declaration Form No. 7525-V applicable to such shipment.

§ 945.123 Approval.
The committee or its duly authorized agents shall give prompt consideration to each application for a Certificate of Privilege. Approval of an application, based upon a determination as to whether the information contained therein and other information available to the committee supports approval, shall be evidenced by the issuance of a Certificate of Privilege to the applicant. Each certificate shall cover a specified period, and specified qualities and quantities of potatoes to be sold or transported to the designated consignee for the purposes declared.

§ 945.124 Reports.
Each handler of potatoes shipping under Certificates of Privilege shall supply the committee with reports as requested by the committee or its duly
§ 945.125 Disqualification.

The committee from time to time may conduct surveys of handling of potatoes for special purposes requiring Certificates of Privilege to determine whether handlers are complying with the requirements and regulations applicable to such certificates. Whenever the committee finds that a handler or consignee is failing to comply with requirements and regulations applicable to handling of potatoes in special outlets, and requiring such certificates, a Certificate or Certificates of Privilege issued such handler may be rescinded and further certificates denied. Such disqualification shall apply to, and not exceed, a reasonable period of time as determined by the committee but in no event shall it extend beyond the end of the succeeding fiscal period. Any handler who has a certificate rescinded or denied may appeal to the committee in writing for reconsideration of his disqualification.

§ 945.130 Reestablishment of districts and reapportionment of committee membership.

   (i) Three producer members and one handler member from District No. 1;
   (ii) One producer member and one handler member from District No. 2; and
   (iii) One producer member and one handler member from District No. 3.

The respective alternates shall be selected on the same basis of representation as the members.

(b) The new districts are hereby established in the current fiscal year only for the purpose of making nominations of committee members for the coming fiscal year. The new districts are to be established as operating entities beginning on June 1, 1972.

The following tolerances by weight, are provided for potatoes in any lot which fail to meet the weight range for the designated count:

(i) Not to exceed 5 percent for undersize; and

(ii) Not to exceed 10 percent for oversize.

(2) Potatoes packed in cartons (except when used as a master container) shall be U.S. No. 1 grade or better. However, potatoes of U.S. Extra No. 1 Grade shall be no smaller that 110 size nor larger than 60 size.

(3) Size shall be conspicuously marked on all cartons (except when used as a master container) consistent with §51.1540 of the United States Standards for Grades of Potatoes (7 CFR 51.1540–51.1566).

(d) Inspection. Except when relieved of such requirement pursuant to paragraphs (e) and (f), or (g) of this section:

(1) No handler shall handle potatoes unless such potatoes are inspected by either the Idaho Federal-State Inspection Service or Oregon Federal-State Inspection Service and are covered and accompanied by a valid inspection certificate, numbered notesheet, or shipping clearance report: Provided, That a valid inspection certificate, numbered notesheet, or shipping clearance report is not required to accompany positive lot identified potatoes.

(2) Each lot shipped shall be accompanied by a copy of a valid inspection certificate, a numbered notesheet, shipping clearance report, or the lot must meet PLI requirements established by the Fresh Products Branch, Fruit and Vegetable Division, Agricultural Marketing Service of the U.S. Department of Agriculture.

(3) Inspection certificates, numbered notesheets or shipping clearance reports for potatoes to be shipped must be issued within four days of such shipment. Otherwise, such potatoes, including lots that are positive lot identified, can only be shipped if a new inspection is performed to verify that the potatoes meet the requirements specified in paragraphs (a), (b), and (c) of this section. If the subsequent inspection verifies that the lot meets the requirements of paragraphs (a), (b), and (c) of this section, a new certificate, a new numbered notesheet, or a new shipping
clearance report shall be issued and, if positive lot identified, shall reference the original PLI number, and a new PLI number need not be applied to the lot. However, if upon subsequent inspection, the lot does not meet the requirements specified in either paragraphs (a), (b), or (c) of this section, the lot shall be reconditioned in the presence of an authorized representative of the Idaho Federal-State Inspection Service or Oregon Federal-State Inspection Service prior to the close of the business day. If the lot is reconditioned prior to the close of the business day, a new certificate, a new numbered notesheet, or a new shipping clearance report must be issued, and either a new PLI number must be applied to the lot or the original PLI number must be modified. If the PLI numbered lot is not reconditioned prior to the close of the business day, all PLI numbers must be obliterated. Any inspection certificate, numbered notesheet, or shipping clearance report issued upon a subsequent inspection, including when a lot is reconditioned, must be issued within four days of shipment of the potatoes.

(4) Handlers shall provide the Committee with the destination zip codes of all potatoes handled by permitting the Idaho Federal-State Inspection Service or Oregon Federal-State Inspection Service to review the bills of lading upon inspection to determine the destination zip codes. The destination zip codes shall be included on the inspection certificates. The destination zip codes and the quantity shall be provided by the handler to the Committee on lots which are positive lot identified, either orally or in writing. Whenever potatoes are diverted to a different destination, the handler shall notify the Committee of the new destination zip code and quantity orally or in writing as soon as practicable.

(e) Special purpose shipments. (1) The minimum grade, size, cleanliness, maturity, and pack requirements set forth in paragraphs (a), (b), (c) and (d) of this section shall not be applicable to shipments of prepeeled potatoes as defined in paragraph (h) of this section or potatoes for any of the following purposes:

(i) Charity;
(ii) Certified seed;
(iii) Experimentation; and

(iv) Canning, freezing and "other processing" as hereinafter defined. Also, shipments of potatoes for the purpose specified in this subdivision shall be exempt from inspection requirements specified in §945.65 and paragraph (d) of this section and from assessment requirements specified in §945.42.

(2) The minimum grade, size, cleanliness, maturity and pack requirements set forth in paragraphs (a), (b), (c) and (d) of this section shall be applicable to shipment of potatoes for each of the following purposes:

(i) Export: Except potatoes of a size not smaller than 1 1/2 inches in diameter may be shipped if the potatoes grade not less than U.S. No. 2; and

(ii) Prepeeling: Except potatoes of a size not smaller than 1 1/2 inches in diameter may be shipped if the potatoes grade not less than Idaho Utility or Oregon Utility grade.

(f) Safeguards. (1) Each handler making shipments of potatoes for charity, experimentation, or export pursuant to paragraph (e) of this section shall:

(i) First, apply to the committee for and obtain a Certificate of Privilege to make shipments for each purpose;

(ii) Upon request by the committee, furnish reports of each shipment pursuant to the applicable Certificate of Privilege;

(iii) At the time of applying to the committee for a Certificate of Privilege, or promptly thereafter, furnish the committee with a receiver’s or buyer’s certification that the potatoes so handled are to be used only for the purpose stated in the application and that such receiver will complete and return to the committee such periodic receiver’s reports that the committee may require.

(iv) Mail to the office of the committee a copy of the bill of lading for each Certificate of Privilege shipment promptly after the date of shipment, unless other arrangements are made with the committee office;

(v) Bill each shipment directly to the applicable receiver.

(2) Each handler making shipments of potatoes for canning, freezing, or "other processing" pursuant to paragraph (e) of this section shall:
§945.341

(ii) Make shipments only to those firms whose names appear on the committee’s current list of manufacturers of potato products;  

(iii) Upon request by the committee, furnish reports of each shipment pursuant to the applicable Certificate of Privilege;

(iii) Report on shipments received as the committee may require and the Secretary approve.  

(4) Each handler making shipments of certified seed potatoes pursuant to paragraph (e) of this section shall furnish, at the request of the committee, reports on the total volume of seed potatoes handled.  

(g) Minimum quantity exemption. Each handler may ship up to, but not to exceed, five hundredweight of potatoes, except yellow fleshed Finnish-type potatoes, any day without regard to the inspection and assessment requirements of this part, but this exception shall not apply to any shipment that exceeds five hundredweight of potatoes. Handlers of potatoes commonly known as yellow fleshed Finnish potatoe may handle up to 200 hundredweight of such potatoes any day without regard to the inspection and assessment requirements of this part.  

(h) Definitions. The terms U.S. Extra No. 1, U.S. No. 1, U.S. No. 2, Size B, fairly clean, moderately skinned, and slightly skinned shall have the same meaning as when used in the United States Standards for Potatoes (7 CFR 51.1540–51.1566), including the tolerances set forth therein. The term prepeeling means the commercial preparation in a prepeeling plant of clean, sound, fresh potatoes by washing, peeling, or otherwise removing the outer skin, trimming, sorting, and properly treating to prevent discoloration preparatory to sale in one or more of the styles of peeled potatoes described in §52.2422 of the United States Standards for Peeled Potatoes (7 CFR 52.2421–52.2433). The term other processing has the same meaning as the term appearing in the act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, starch, and flour. It includes only that preparation of potatoes for market which involves the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, dicing, or applying material to prevent oxidation does not constitute “other processing.” The terms Idaho Utility grade and Oregon Utility grade shall have the same meaning as when used in the standards for potatoes for the respective State. Other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 98 and Order No. 945, both as amended.

(b) For each shipment to a person whose name is not on the committee’s list, the handler must provide evidence to the committee prior to shipment that the potatoes will be used only for processing into products. e Safeguards. (1) Handlers desiring to make shipments of potatoes for prepeeling shall:

(i) Notify the committee of intent to ship potatoes by applying on forms furnished by the committee for a certificate applicable to such special purpose shipments;

(ii) Prepare on forms furnished by the committee a special purpose shipment report on each such shipment, a copy of which must also accompany each shipment. The handler shall forward copies of each such special purpose shipment report to the committee office and to the receiver with instructions to the receiver to sign and return a copy to the committee office. Failure of the handler or receiver to report such shipments by promptly signing and returning the applicable special purpose shipment report to the committee office shall be cause for cancellation of such handler’s certificate applicable to such special purpose shipments.

(iii) Before diverting any such special purpose shipment from the receiver of record as previously furnished to the committee by the handler such handler shall submit to the committee a revised special purpose shipment report.

(2) Handlers desiring to ship potatoes for grading or storing to any specified location in Morrow or Umatilla Counties in the State of Oregon, to District No. 5, or to Spokane County in District No. 1 shall:

(i) Notify the committee of intent to ship potatoes by applying on forms furnished by the committee for a certificate applicable to such special purpose shipment. Upon receiving such application, the committee shall supply to the handler the appropriate certificate after it has determined that adequate facilities exist to accommodate such shipments and that such potatoes will be used only for authorized purposes;

(ii) If reshipment is for any purpose other than as specified in paragraph (d) of this section, each handler desiring to make reshipment of potatoes which have been graded or stored shall, prior to reshipment, cause each such shipment to be inspected by an authorized representative of the Federal-State Inspection Service. Such shipments must comply with the minimum grade, size, cleanness, maturity, and pack requirements specified in paragraphs (a), (b), and (c) of this section;

(iii) If reshipment is for any of the purposes specified in paragraph (d) of this section, each handler making reshipment of potatoes which have been graded or stored shall do so in accordance with the applicable safeguard requirements specified in paragraph (e) of this section.

(3) Each handler making shipments of potatoes for canning, freezing, or “other processing” pursuant to paragraph (d) of this section shall:

(i) First apply to the committee for and obtain a Certificate of Privilege to make shipments for processing;

(ii) Make shipments only to those firms whose names appear on the committee’s list of canners, freezers, or other processors of potato products maintained by the committee, or to persons not on the list provided the handler furnishes the committee, prior to such shipment, evidence that the receiver may reasonably be expected to use the potatoes only for canning, freezing, or other processing;

(iii) Upon request by the committee, furnish reports of each shipment pursuant to the applicable Certificate of Privilege;

(iv) Mail to the office of the committee a copy of the bill of lading for each Certificate of Privilege shipment promptly after the date of shipment unless other arrangements are made;

(v) Bill each shipment directly to the applicable processor.
(4) Each receiver of potatoes for processing pursuant to paragraph (d) of this section shall:

(i) Complete and return an application form for consideration of approval as a canner, freezer, or other processor of potato products;

(ii) Certify to the committee and to the Secretary that potatoes received from the production area for processing will be used for such purpose and will not be placed in fresh market channels;

(iii) Report on shipments received as the committee may require and the Secretary approve.

(5) Each handler desiring to make shipments of potatoes for export shall:

(i) Notify the committee of intent to so ship potatoes by applying on forms furnished by the committee for a certificate applicable to such special purpose shipment. Such information shall include the quantity of potatoes to be shipped and the name and address of the exporter;

(ii) After the certificate is approved and the shipment is made, furnish the committee with a copy of the on-board bill of lading applicable to such shipment unless other arrangements are made;

(iii) Before diverting any such special purpose shipment from the receiver of record as previously furnished to the committee by the handler such handler shall submit to the committee a revised special purpose shipment report.

(f) Minimum quantity exemption. Each handler may ship up to, but not to exceed 5 hundredweight of potatoes per day without regard to the inspection and assessment requirements of this part, but this exception shall not apply to any shipment over 5 hundredweight of potatoes.

(g) Inspection. (1) Except when relieved by paragraphs (d) or (f) of this section, no person may handle any potatoes unless a Federal-State Inspection Notesheet or certificate covering them has been issued by an authorized representative of the Federal-State Inspection Service and the document is valid at the time of shipment. Further, any bulk load shipments of potatoes not relieved in paragraphs (d) or (f) of this section must also be accompanied by a Shipping Clearance Report issued by the Federal-State Inspection Service and valid at the time of shipment.

(2) U.S. No. 1 grade or better potatoes in the State of Washington which are resorted or repacked within 72 hours of being inspected and certified are exempt from reinspection.

(h) Definitions. The terms U.S. No. 1, U.S. No. 2, not seriously damaged by dirt, fairly clean, slightly skinned, and moderately skinned shall have the same meaning as when used in the United States Standards for Grades of Potatoes (7 CFR 51.1540–51.1566), including the tolerances set forth in it. The term prepeeling means the commercial preparation in the prepeeling plant of clean, sound, fresh tubers by washing, peeling or otherwise removing the outer skin, trimming, sorting, and properly treating to prevent discoloration preparatory to sale in one or more of the styles of peeled potatoes described in §52.2422 United States Standards for Grades of Peeled Potatoes (7 CFR 52.2421–52.2433). The term other processing has the same meaning as the term appearing in the Act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, starch, and flour. It includes the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, dicing, or applying material to prevent oxidation does not constitute “other processing.” Other terms used in this section have the same meaning as when used in the marketing agreement, as amended, and this part.

EDITORIAL NOTE: After January 1, 1979, “Budget of Expenses and Rate of Assessment” regulations (e.g. sections .200 through .299) and “Handling” regulations (e.g. sections .300 through .399) which are in effect for a year or less, will not be carried in the Code of Federal Regulations. For Federal Register citations affecting these regulations, see the “List of CFR Sections Affected” in the Finding Aids section of this volume.

§ 948.20 Marketing policy.

(a) General cull regulation. (2) Upon recommendation of the Colorado Potato Committee, or on other available information, the general cull regulation may be suspended or modified by the Secretary during a specified period with respect to any or all varieties of potatoes.

(b) Area marketing policies. Each season prior to or at the same time as initial recommendations are made pursuant to § 948.21, each area committee shall submit to the Secretary a report setting forth the marketing policy it deems desirable for the industry to follow in handling the respective area’s potatoes during the ensuing season. Additional reports shall be submitted from time to time if it is deemed advisable by an area committee to adopt a new marketing policy because of changes in the demand and supply situation with respect to potatoes. The committee shall publicly announce the submission of each such marketing policy report and copies thereof shall be available at the committee’s office for inspection by any producer or any handler. In determining each such marketing policy the committee shall give due consideration to the following:

(1) Supply of potatoes by grade, size, quality, and maturity in the respective area, in the production area, and in other areas;

(2) Market prices for fresh potatoes, including grower, shipping point, and terminal market prices by grade, size, and quality in different packs or in different containers;

(3) Market prices for potatoes in other outlets, including growers’ and other market price levels by grade, size, and quality;

§ 948.22 Issuance of regulations.

(a) The Secretary shall limit by regulation the handling of potatoes whenever he finds from recommendations and information submitted by an area committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such regulation may:

(1) Limit the handling of particular grades, sizes, qualities, or maturities of any or all varieties of potatoes, or any combination of the foregoing during any period.

(2) Limit the handling of particular grades, sizes, qualities, or maturities of potatoes differently, for different varieties, for different containers, for different packs, for different portions of the production area, for different purposes under § 948.23, or for any combination of the foregoing, during any period.

(2) Minimum quantities which should be relieved of regulatory or administrative obligations; or

(3) Relief from regulations no longer tending to effectuate the declared policies of the Act.

(c) The Secretary shall notify each committee of each regulation recommended by it and issued pursuant to this section. The respective committee shall give reasonable notice thereof to handlers. No regulation, except when relieving limitations, shall become effective less than two days after issuance thereof.

§ 948.23 Handling for special purposes.

Upon the basis of recommendations and information submitted by an area committee, or other available information, the Secretary, whenever he finds that it will tend to effectuate the declared purposes of the Act, shall modify, suspend, or terminate requirements in effect pursuant to §§ 948.20 to 948.22, inclusive, or §§ 948.40 or 948.77, or any combination thereof, to facilitate handling of potatoes for

§ 948.24 Safeguards.

(a) Each area committee, with the approval of the Secretary, shall prescribe adequate safeguards for potatoes handled pursuant to § 948.23 from entering trade channels other than those authorized by regulations and by such rules as may be necessary and incidental thereto.

(b) Such safeguards may include requirements that handlers or processors desiring to handle potatoes pursuant to § 948.23 shall:

(1) Apply for and obtain Certificates of Privilege from the area committee for handling potatoes affected or to be affected under the provisions of § 948.23;

(d) The committee shall make reports to the Secretary, as requested, showing the number of applications for such certificates, the quantity of potatoes covered by such applications, the number of such applications denied and certificates granted, the quantity of potatoes handled under duly issued certificates, and such other information as may be requested.

EXEMPTIONS

§ 948.28 Policy.
Any producer whose potatoes have been adversely affected by acts beyond the control or reasonable expectation of a prudent grower and who, by reason of any regulation issued pursuant to this part, is or will be prevented from shipping or having shipped during the then current marketing season, or a specific portion thereof, as large a proportion of his potato crop as the average proportion shipped or to be shipped during comparable portions of the season by all producers in his immediate area of production, may apply to the committee for exemptions from such regulations for the purpose of obtaining equitable treatment under such regulations.

§ 948.29 Procedure.
Rules and procedures for granting exemptions may be issued by the Secretary, upon recommendation of area committees. Such rules and procedures may provide for methods of determinations by area committees of average proportions of crops shipped or being shipped in respective areas or subdivisions thereof during any or all portions of a season, for processing applications for exemption, for issuing or denying certificates of exemption, for administrative compliance with certificates issued, for reports by handlers thereon, and for such other procedures as may be necessary to administration hereof.

§ 948.30 Granting exemptions.
An area committee may issue certificates of exemption to any qualified applicant who furnishes adequate evidence to such committee:

(a) That the grade, size, or quality of the applicant’s potatoes have been adversely affected by acts beyond his control or reasonable expectations;

(b) That by reason of regulations issued pursuant to §948.20 or §948.22, the applicant will be prevented as a producer from shipping or having shipped as large a proportion of his production as the average proportion of production shipped by all producers in said applicant’s immediate area of production during the season, or a specific portion thereof.

(c) Each such certificate issued shall permit the person identified therein to ship or have shipped the potatoes described thereon, and evidence of such certificates shall be made available to subsequent handlers thereof.

§ 948.31 Investigation.
An area committee shall be permitted at any time to make a thorough investigation of any applicant’s claim pertaining to exemptions.

§ 948.32 Appeal.
If any applicant for exemption certificates is dissatisfied with the determination by an area committee with respect to his application, he may file an appeal with the committee. Any applicant filing an appeal shall furnish evidence satisfactory to the committee for a determination on the appeal.

RESEARCH AND DEVELOPMENT

§ 948.35 Research and development.
The committee, with the approval of the Secretary, may provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of potatoes and may make available committee information and data to any person, or to any employee of an agency or its agent, authorized by the committee as its agent with the approval of the Secretary, to conduct such projects.
§ 948.40 Inspection and certification.

(a) During any period in which the handling of potatoes is regulated pursuant to §948.20 through §948.24, inclusive, no handler shall handle potatoes unless such potatoes are inspected by an authorized representative of the Federal or a Federal-State Inspection Service and are covered by a valid inspection certificate, except when relieved of such requirements by §948.22(b), §948.23, or §948.40(b).

(b) Rules may be issued by the Secretary, upon recommendation of the Colorado Potato Committee requiring inspection on regraded, resorted or repacked lots, or providing for special inspection requirements or relief therefrom. Such rules may provide distinctions, insofar as practical, between handling at shipping point and handling in receiving markets within the production area.

(c) Upon recommendation of an area committee and approval by the Secretary, any or all potatoes so inspected and certified shall be identified by appropriate seals, stamps, or tags to be affixed to the containers by the handler under the direction and supervision of a Federal or Federal-State Inspector or the committee. Master containers may bear the identification instead of the individual containers within said master container.

(d) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(e) When potatoes are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the committee by the inspection service.

(f) Area committees with the approval of the Colorado Potato Committee may recommend and the Secretary may require that no handler shall transport or cause the transportation of potatoes by motor vehicle or by other means unless such shipment is accompanied by a copy of the inspection certificate issued thereon, or other document authorized by the committee to indicate that such inspection has been performed. Such certificate or document shall be surrendered to such authority as may be designated.

(b) The compensation and expenses of members and alternates of the Colorado Potato Committee shall be paid by the respective area committee they represent.

§ 948.59 Qualification.

Each person selected as a member or as an alternate shall qualify by promptly filing a written acceptance with the Secretary.

§ 948.58 Vacancies.

To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate to qualify, or in the event of the death, removal, resignation, or disqualification of a member or alternate, a successor for his unexpired term may be selected by the Secretary from nominations made pursuant to §948.56, from previously unselected nominees on the current nominee list, or from other eligible persons.

§ 948.57 Failure to nominate.

If nominations are not made pursuant to the provisions of §948.56 by the date provided therein, the Secretary may, without regard to nominations, select members and alternates on the basis of the representation provided for in this part.
*§ 948.75 Expenses.*  
Each area committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for purposes determined to be appropriate for administration of this part. Handlers shall share expenses upon the basis of a fiscal period. Each handler's share of such expenses shall be proportionate to the ratio between the total quantity of potatoes handled by him as the first handler thereof during a fiscal period and the total quantity of potatoes handled by all handlers as first handlers thereof during such fiscal period.

*§ 948.76 Budget.*  
As soon as practicable after the beginning of each fiscal period and as may be necessary thereafter, each area committee shall prepare an estimated budget of income and expenditures necessary for its administration of this part. Each area committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. Each area committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

*§ 948.77 Assessments.*  
(a) The funds to cover each area committee's expenses shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who first handles potatoes under this part, shall pay assessments to his respective area committee upon demand, which assessments shall be in payment of such handler's pro rata share of the area committee's expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of each area committee's budget, recommendations, and other available information. Such rates may be applied to specified containers used in the production area.

(c) At any time during, or subsequent to, a given fiscal period each area committee may recommend the approval of
an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all potatoes grown within the particular area where an area committee recommends such increase and which were handled by the first handler thereof during such fiscal period.

(d) The payment of assessments for the maintenance and functioning of each area committee may be required under this part throughout the period it is in effect irrespective to whether particular provisions thereof are suspended or become inoperative.

c) In order to provide funds to enable each area committee to perform its functions under this part, handlers may make advance payment of assessments.

§ 948.78 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in paragraph (a)(2) of this section, it shall be refunded proportionately to the persons from whom it was collected.

(2) An area committee, with the approval of the Secretary, may carry over such excess into subsequent fiscal periods as a reserve: Provided, That funds already in the reserve are less than approximately two fiscal period's expenses. Such reserve funds may be used (i) to defray expenses, during any fiscal period, prior to the time assessment income is sufficient to cover such expenses; (ii) to cover deficits incurred during any fiscal period when assessment income is less than expenses; (iii) to defray expenses incurred during any period when any or all provisions of this subpart are suspended or are inoperative; (iv) to cover necessary expenses of liquidation in the event of termination of this subpart. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate. To the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by an area committee pursuant to the provisions of this part shall be used solely for the purposes specified herein. The Secretary may at any time require an area committee and its members to account for all receipts and disbursements.

(b) Persons selected as members or alternates of the committee shall be individuals who are producers or handlers, respectively, in the respective district for which selected, or officers or employees of a corporate producer or handler, respectively, in such district: Provided, That no person, if he handles potatoes, shall be eligible for selection as a producer member on said committee unless 51 percent or more of the potatoes handled by him during the then current fiscal year were of his own production, or unless such person is an officer or employee of a producer’s cooperative marketing association.

[19 FR 8683, Dec. 18, 1954, as amended at 33 FR 8503, June 8, 1968]

§ 953.16 Term of office.

(a) The term of office for committee members and alternates shall, except
as otherwise specified, be for 1 year. The dates on which such term of office shall begin and end shall be established by the Secretary pursuant to the committee’s recommendations, and the term of office may be extended or shortened, including that of the then current membership, to accord therewith.

(b) Committee members and alternates shall serve during the term of office for which they are selected and have qualified, or during that portion thereof, beginning on the date on which they qualify during such term of office and continuing until the end thereof, and until their successors are selected and have qualified.

§ 953.18 Nominations.

The Secretary may select members of the committee and alternates from nominations which may be made in the following manner:

(a) A meeting or meetings of producers and handlers shall be held by the committee for each district to designate nominees for members and alternates to the committee;

(b) At least one nominee shall be designated for each position as member and for each position as alternate member on the committee;

(c) The names of nominees shall be supplied to the Secretary in such manner and form as he may prescribe, not later than September 15 of each year, or by such other date as may be specified by the Secretary;

(d) Only producers may participate in designating producer nominees and only handlers may participate in designating handler nominees. Any person who operates in more than one district or is engaged in producing and handling potatoes, shall elect the classification (i.e., producer or handler), and the district within which he desires to participate in designating nominees;

(e) Regardless of the number of districts in which a person produces or handles potatoes, each such person is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives in designating nominees for committee members and alternates. An eligible voter’s privilege of casting only one vote as aforesaid shall be construed to permit a voter to cast one vote for each position to be filled in the district in which he elects to vote.

§ 953.19 Selection.

(a) The Secretary shall select one producer member in and for each of Districts 1, 2, and 3, and two producer members in and for each of Districts 4 and 5 from nominees submitted pursuant to § 953.18 or from other eligible persons. In addition, he shall similarly select one handler member from each district. The respective alternates shall be selected on the same basis of representation as the members.

(b) The term of office of the committee members and alternates for District No. 6 shall be terminated upon deletion of such district from the production area.

(c) For the 1968–69 term of office the second producer member and his alternate for each of Districts No. 4 and 5 shall be selected as soon as practicable after deletion of District No. 6 from the production area. Nomination meetings shall be held for these positions pursuant to § 953.18 and the selections shall be made pursuant to this section for the remainder of the 1968–69 term of office.

§ 953.20 Failure to nominate.

If nominations are not made within the time and in the manner specified by the Secretary pursuant to § 953.18, the Secretary may, without regard to nominations, select the members and alternate members of the committee, which selection shall be on the basis of the representation provided for in § 953.19.

§ 953.21 Acceptance.

Any person selected by the Secretary as a member or as an alternate member of the committee shall qualify by filing a written acceptance with the Secretary within the time specified by the Secretary.
§ 953.22 Vacancies.

To fill any vacancy occasioned by the failure of any person selected as a member or as an alternate member of the committee to qualify, or in the event of the death, removal, resignation, or disqualification of any qualified member or alternate member, a successor for his unexpired term may be selected by the Secretary from nominations made in the manner specified in § 953.18, or the Secretary may select such member or alternate member from previously unselected nominees on the current nominee list from the district involved. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, which selection shall be made on the basis of the representation provided for in § 953.19.

§ 953.23 Alternate members.

An alternate member of the committee shall act in the place and stead of the member for whom he is alternate during such member’s absence. In the event of death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor for the unexpired term of such member is selected and has qualified.

§ 953.24 Procedure.

(a) Nine members shall constitute a quorum of the committee and any action of the committee shall require nine concurring votes.

(b) The committee may provide procedure for meeting by telephone, telegraph, or other means of communications, and any vote cast at such a meeting shall be confirmed promptly in writing: Provided, That if an assembled meeting of the committee is held all votes shall be cast in person.

§ 953.25 Expenses and compensation.

Committee members and alternates when acting on committee business shall be reimbursed for reasonable expenses necessarily incurred by them in the performance of their duties and in the exercise of committee powers under this subpart. In addition, they may receive reasonable compensation at a rate recommended by the committee and approved by the Secretary.

[33 FR 8504, June 8, 1968]

§ 953.26 Powers.

The committee shall have the following powers:

(a) To administer the provisions of this subpart in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this subpart; and

(d) To recommend to the Secretary amendments to this subpart.

§ 953.27 Duties.

It shall be the duty of the committee:

(a) To act as intermediary between the Secretary and any producer or handler;

(b) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books, and records shall be subject to examination at any time by the Secretary or his authorized agent or representative;

(c) To investigate, from time to time, and to assemble data on the growing, harvesting, shipping, and marketing conditions with respect to potatoes, and to engage in such research and service activities which relate to the handling or marketing of potatoes as may be approved by the Secretary;

(e) To select subcommittees of committee members, a chairman and such other officers as may be necessary, and to adopt such rules and regulations for conduct of its business as it may deem advisable;

(f) At the beginning of each fiscal year, to submit to the Secretary a budget of its expenses for such fiscal year, together with a report thereon;

(g) To cause the books of the committee to be audited by a competent accountant at least once each fiscal year and at such other time as the committee may deem necessary or as
§ 953.34 Assessments.

(a) Each handler who first handles potatoes shall, with respect to the potatoes so handled by him, pay to the committee such handler’s pro rata share of the expenses which the Secretary finds will be necessarily incurred by the committee for its maintenance and functioning during each fiscal year. Such handler’s pro rata share of such expenses shall be equal to the ratio between the total quantity of potatoes handled by him as the first handler thereof, during the applicable fiscal year, and the total quantity of potatoes handled by all handlers as the first handlers thereof, during the same fiscal year. The Secretary shall fix the rate of assessment to be paid by such handlers: Provided, That the rate of assessment during each fiscal year shall not exceed 1 cent per hundred-weight.

(b) At any time during or after a fiscal year, the Secretary may increase the rate of assessment in order to secure sufficient funds to cover any later finding by the Secretary relative to the expenses of the committee. Such increase shall be applicable to all potatoes handled during the given fiscal year. In order to provide funds to carry out the functions of the committee, handlers may make advance payment of assessments.
§ 953.35 Accounting.

(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:

(1) If such excess is not retained in a reserve, as provided in paragraph (a)(2) of this section, it shall be refunded proportionately and to the extent practical to the persons from whom it was collected: Provided, That each handler may be credited with such refund, for the operations of the following fiscal period, unless he demands payment thereof, in which event such proportionate refund shall be paid to him.

Provided, That each handler may be credited with such refund, for the operations of the following fiscal period, unless he demands payment thereof, in which event such proportionate refund shall be paid to him.

(2) The committee, with the approval of the Secretary, may establish an operating monetary reserve, and may carry over into subsequent fiscal periods such excess in a reserve so established: Provided, That funds in the reserve shall not exceed approximately one fiscal period's expenses. Such reserve funds may be used by the committee (i) to defray expenses authorized pursuant to §953.33, (ii) to defray expenses during any fiscal period, prior to the time assessment income is sufficient to cover such expenses, (iii) to cover deficits incurred during any fiscal period when assessment income is less than expenses, (iv) to defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative, and (v) to cover necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary expenses of liquidation and after reasonable effort by the committee it is found impracticable to return such remaining funds to handlers from whom it was collected, such funds shall be disposed of in such manner as the Secretary may determine to be appropriate.

(b) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person or persons to act as trustee or trustees for holding records, funds, or any other committee property during periods of suspension of this part, or during any period or periods when regulations are not in effect; and, if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

[33 FR 8504, June 8, 1968]

§ 953.36 Funds.

All funds received by the committee pursuant to any provision of this subpart shall be used solely for the purposes specified in this subpart and shall be accounted for in the following manner:

(a) The Secretary may, at any time, require the committee and its members to account for all receipts and disbursements; and

(b) Whenever any person ceases to be a member of the committee, he shall account for all receipts and disbursements and deliver all property and funds in his hands, together with all books and records in his possession, to his successor in office or to such person as the Secretary may designate, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor or in such designated person the right to all the property, funds, or claims vested in such member.

§ 953.40 Marketing policy.

Prior to or at the same time initial recommendations in any fiscal period are made pursuant to §953.41, the committee shall prepare a marketing policy, and promptly submit a copy thereof to the Secretary, setting forth its proposed policy for the marketing of potatoes during such fiscal period. In the event it becomes advisable to deviate from such marketing policy, because of changed demand and supply conditions, or as the Secretary may request, the committee shall formulate a revised marketing policy and shall submit a report thereon to the Secretary. Notice of each such marketing policy and revision thereof shall be given to producers, handlers, and other interested parties by bulletins, newspapers, or other appropriate media, and copies thereof shall be available for examination at the committee office to all interested parties.

[33 FR 8504, June 8, 1968]
Agricultural Marketing Service, USDA § 953.41

Recommendations for regulations.

(a) It shall be the duty of the committee to investigate supply and demand conditions for grades, sizes, and qualities of all potatoes. Whenever the committee finds that such conditions make it advisable to regulate the shipment of particular grades, sizes, or qualities of potatoes during any period in any or all portions of the production area, it shall recommend to the Secretary the particular grades, sizes, and qualities, or any combination thereof, of such potatoes deemed advisable to be shipped during such period: Provided, That the committee shall not recommend to the Secretary any regulation limiting the shipment of U.S. No. 1 grade or better, as such grades are defined in United States Standards for Potatoes in effect at the time of recommendation.

(b) In determining the grades, sizes, and qualities of potatoes or any and all combinations thereof deemed advisable to be regulated in view of the prospective demand thereof, the committee shall give due consideration to the following factors:

(1) Market prices, including prices by grades and sizes, of potatoes for which regulation is recommended;

(2) Potatoes on hand in the market areas as manifested by supplies en route and on track at the principal markets;

(3) Available supply, quality, and condition of potatoes in the production area and other production areas;

(4) Supplies from competing areas and regions producing potatoes;

(5) The trend and level of consumer income; and

(6) Other relevant factors.

§ 953.42 Issuance of regulations.

Whenever the Secretary shall find, from the recommendations, information and evidence submitted by the committee, or from other available information, that to limit the shipment of potatoes to particular grades, sizes, or qualities thereof in any or all portions of the production area would tend to effectuate the declared policy of the act, he shall so limit by appropriate regulations thereon the shipments of such potatoes during a specified period.

The Secretary shall notify the committee of any such regulation and the committee shall give reasonable notice thereof to handlers: Provided, That no regulations shall be issued under this subpart limiting the shipment of U.S. No. 1 grade or better, as such grades are defined in United States Standards for Potatoes in effect at the time such regulations are issued.

§ 953.43 Minimum standards of quality.

(a) Recommendation. Whenever the committee deems it advisable to establish and maintain minimum standards of quality governing the shipment of potatoes, it shall recommend to the Secretary such minimum standards of quality in terms of grades, sizes, or both, below which shipments are to be prohibited. At the time of submitting each such recommendation, the committee shall also submit to the Secretary the supporting data and information upon which it acted in making such recommendation. The committee shall submit in support of its recommendations such other data and information as may be requested by the Secretary, and shall promptly give adequate notice to the Secretary, and shall promptly give adequate notice to all handlers and growers of each such recommendation.

(b) Establishment. Whenever the Secretary finds, from the recommendations and information submitted by the committee, or from other available information, that to prohibit the shipment of potatoes below certain specified minimum grades, or smaller than certain specified minimum sizes, or both, would be in the public interest and would tend to effectuate the declared policy of the act, he shall so prohibit the shipment of such potatoes. The Secretary shall immediately notify the committee of the issuance of each such regulation, and the committee shall promptly give adequate notice thereof to handlers and growers.

(c) Modification or suspension. (1) The committee may recommend to the Secretary the modification, suspension, or termination of orders relating to minimum standards provided for or established pursuant to this subpart. If the Secretary finds, upon the basis of other available information, that to modify, suspend, or
terminate such orders relating to minimum standards of quality will tend to effectuate the declared policy of the act, he shall so modify or suspend such standards for (i) a specified period of time, or (ii) for an indefinite period of time.

(2) The Secretary shall immediately notify the committee and the committee shall promptly give notice to growers and handlers, of any order issued by the Secretary modifying, suspending, or terminating any orders relating to minimum standards of quality established pursuant to, or provided for, in this subpart.

§ 953.44 Limitation of regulations.

(a) Nothing contained in this subpart shall authorize any limitation of the shipment of potatoes for any of the following purposes:

(1) Potatoes shipped for consumption by charitable institutions or for distribution by relief agencies;

(2) Potatoes shipped for manufacturing or conversion into byproducts, except for manufacturing or conversion into specified products recommended by the committee for regulation and approved by the Secretary therefor; and

(3) Upon recommendation of the committee and approval of the Secretary, potatoes shipped for livestock feed, export, or for other specified purposes.

(b) The Secretary shall give prompt notice to the committee of any approval issued by him under the provisions of this section. The committee may prescribe adequate safeguards to prevent potatoes shipped for the purposes stated above from entering the current of interstate commerce or directly burdening, obstructing, or affecting such commerce contrary to the provisions of this subpart, which safeguards may include (1) a requirement by the committee that growers and handlers who ship potatoes pursuant to this section shall file applications to do so with the committee and (2) Federal-State inspection provided by §953.50 and the payment of a pro rata share of expenses provided by §953.34: Provided, That such inspection and payment of expenses may be required at different times than otherwise specified by the aforesaid sections. The committee may issue certificates of privilege for shipments of potatoes affected or to be affected under the provisions of this section and shall make a weekly report to the Secretary showing the number of certificates applied for, the number of bushels of potatoes shipped under duly issued certificates, and such other information as may be requested by the Secretary. The Secretary shall have the right to modify, change, alter, or rescind any safeguards prescribed and any certificates issued by the committee pursuant to the provisions of this section.

§ 953.45 Minimum quantities.

The committee, with the approval of the Secretary, may establish, for any or all portions of the production area, quantities below which shipments shall be free from regulations issued pursuant to: §953.42, Regulations, §953.50, Inspection and certification, and §953.34, Assessments.

§ 953.50 Inspection and certification.

The Southeastern Potato Committee shall require, with approval of the Secretary, that whenever regulations are in effect pursuant to this subpart, each first handler shall, prior to making each shipment of potatoes cause each shipment to be inspected by an authorized representative of the Federal-State Inspection Service. Each handler shall make arrangements with the inspecting agency to forward promptly to the committee a copy of each inspection certificate, issued as aforesaid.

§ 953.65 Effective time.

The provisions of this subpart shall become effective at such time as the Secretary may declare above his signature attached to this subpart, and shall continue in force until terminated in one of the ways specified in §953.66.
§ 953.66 Termination.

(a) The Secretary may, at any time, terminate the provisions of this subpart by giving at least one day’s notice by means of a press release or in any other manner which he may determine.

(b) The Secretary may terminate or suspend the operations of any or all of the provisions of this subpart whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this subpart at the end of any fiscal year whenever he finds that such termination is favored by a majority of producers who, during the preceding fiscal year have been engaged in the production for market of potatoes: Provided, That such majority has, during such year, produced for market more than fifty percent of the volume of such potatoes produced for market; but such termination shall be effected only if announced on or before October 31, of the then current fiscal year.

(d) The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them, cease to be in effect.

§ 953.67 Proceedings after termination.

(a) Upon the termination of the provisions of this subpart, the then functioning members of the committee shall continue as trustees, for the purpose of liquidating the affairs of the committee, of all funds and the property then in the possession of, or under control of, the committee, including claims for any funds unpaid, or property not delivered at the time of such termination. Action by said trustees shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant to this subpart.

(c) Any person to whom funds, property, or claims have been transferred, or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the committee and upon the said trustees.

§ 953.68 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart, or of any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen, or which may thereafter arise in connection with any provision, of this subpart, or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart, or of any regulation issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary, or of any other person with respect to any such violation.

MISCELLANEOUS PROVISIONS

§ 953.75 Reports and records.

(a) Upon the request of the committee, with the approval of the Secretary, every handler shall furnish to the committee, in such manner and at such time as may be prescribed, such information as will enable the committee to exercise its duties under this subpart. The Secretary shall have the right to modify, change, or rescind requests for any reports pursuant to this section.

(b) Each handler shall establish and maintain for at least two succeeding years such records and documents with respect to potatoes received and potatoes disposed of by him as will substantiate the required reports.

(c) For the purpose of assuring compliance with the recordkeeping requirements and verifying reports filed by handlers, the Secretary, and the committee through its duly authorized employees, shall have access to such records.
§ 953.76 Compliance.

Except as provided in this subpart, no handler shall ship potatoes, the shipment of which has been prohibited by the Secretary in accordance with provisions of this subpart, and no handler shall ship potatoes except in conformity to the provisions of this subpart.

§ 953.77 Right of the Secretary.

The members of the committee (including successors and alternates), and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination, or other act of the committee, shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the said committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 953.78 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon the termination of this subpart except with respect to acts done under and during the existence of this subpart.

§ 953.79 Agents.

The Secretary may, by designation in writing, name any person, including any officer or employee of the Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this subpart.

§ 953.80 Derogation.

Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 953.81 Personal liability.

No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any handler or to any person for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate, or employee, except for acts of dishonesty.

§ 953.82 Separability.

If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this subpart, or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 953.83 Amendments.

Amendments to this subpart may be proposed from time to time by the committee or by the Secretary.

Subpart—Rules and Regulations

General

§ 953.100 General.

(a) Marketing agreement means Marketing Agreement No. 104.
§ 953.322 Handling regulation.

During the period beginning June 5 and ending July 31 each season, no person shall ship any lot of potatoes produced in the production area unless such potatoes meet the requirements of paragraphs (a) and (b) of this section or unless such potatoes are handled in accordance with paragraphs (c) and (d) or (e) of this section.

(a) Minimum grade and size requirements. All round white varieties of potatoes shall be U.S. No. 2 or better grade, 1 1/2 inches (38.1 mm) minimum diameter.

(b) Inspection. Except as provided in paragraphs (c) and (e), no handler shall ship any round white potatoes unless an appropriate inspection certificate covering them has been issued by the Federal-State Inspection Service and the certificate is valid at the time of shipment.

(c) Special purpose shipments. The grade, size, and inspection requirements set forth in paragraphs (a) and (b) of this section shall not apply to potatoes shipped for canning, freezing, “other processing,” as hereinafter defined, livestock feed, charity or to shipments of round red, long white or Russet variety potatoes. However, the handler of any potatoes shipped for such special purposes shall comply with the safeguard requirements of paragraph (d) of this section.

(d) Safeguards. Each handler making shipments of potatoes for canning, freezing, “other processing,” livestock feed or charity, or making shipments of round red, long white or Russet variety potatoes in accordance with paragraph (c) of this section shall:
(1) Notify the committee of the handler’s intent to ship potatoes pursuant to paragraph (c) of this section by applying forms furnished by the committee for a Certificate of Privilege applicable to such special purpose shipments.

(2) Obtain an approved Certificate of Privilege;

(3) Prepare on forms furnished by the committee a special purpose shipment report for each such individual shipment; and

(4) Forward copies of such special purpose shipment report to the committee office and to the receiver with instructions to sign and return a copy to the committee’s office. Failure of the handler or receiver to report such shipments by promptly signing and returning the applicable special purpose shipment report to the committee office shall be cause for suspension of such handler’s Certificate of Privilege applicable to such special purpose shipments.

(e) Minimum quantity exemption. Each handler may ship up to, but not to exceed five hundredweight of potatoes any day without regard to the inspection and assessment requirements of this part, but this exception shall not apply to any portion of a shipment that exceeds five hundredweight of potatoes.

(f) Definitions. The term U.S. No. 2 shall have the same meaning as when used in the U.S. Standards for Grades of Potatoes as amended (7 CFR 2851.1540–2851.1566), including the tolerances set forth in it. The term other processing has the same meaning as the term appearing in the act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, starch, and flour. It includes only that preparation of potatoes for market which involves the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a substantial change. The act of peeling, cooling, slicing, dicing, or applying material to prevent oxidation does not constitute “other processing.” All other terms used in this section shall have the same meaning as when used in Marketing Agreement No. 104 and this part, both as amended.

(g) Applicability to imports. Pursuant to section 8e of the act and §980.1 “Import regulations” (7 CFR 980.1), Irish potatoes of the round white type imported during the effective period of this section shall meet the grade, size, quality, and maturity requirements specified in paragraph (a) of this section.

EDITORIAL NOTE: After January 1, 1979, “Budget of Expenses and Rate of Assessment” regulations (e.g. sections .200 through .299) and “Handling” regulations (e.g. sections .300 through .399) which are in effect for a year or less, will not be carried in the Code of Federal Regulations. For Federal Register citations affecting these regulations, see the “List of CFR Sections Affected” in the Finding Aids section of this volume.

(2) In the event it becomes advisable to shift from such marketing policy because of changed supply and demand conditions, the committee shall prepare an amended or revised marketing policy in accordance with the manner previously outlined. The committee shall submit a report thereon to the Secretary and notify producers and handlers of the contents of such report on the revised or amended marketing policy.

§ 958.51

Recommendations for regulations.
The committee shall recommend regulations to the Secretary whenever it finds that such regulations as provided in § 958.52 will tend to effectuate the declared policy of the act. The committee also may recommend modification, suspension, or termination of any regulation, or amendments thereto, in order to facilitate the handling of onions for the purposes authorized in § 958.53. The committee may also recommend amendment, modification, termination, or suspension of any regulation issued under this part.

§ 958.52

Issuance of regulations.
(a) Except as otherwise provided in this part, the Secretary shall limit the shipment of onions by any one or more of the methods hereinafter set forth whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulation would tend to effectuate the declared policy of the act. Such limitation may:
(1) Regulate in any or all portions of the production area, the handling of particular grades, sizes, or qualities of any or all varieties of onions, or combinations thereof, during any period or periods;
(2) Regulate the handling of particular grades, sizes, or qualities, of onions differently, for different varieties, for different portions of the production area, for different packs, or for any combination of the foregoing, during any period or periods;
(3) Provide a method, through rules and regulations issued pursuant to this part, for fixing the size, capacity, weight, dimensions, or pack of the container, or containers, which may be used in the packaging or handling of onions, including appropriate container markings to identify the contents thereof;
(4) Regulate the handling of onions by establishing, in terms of grades, sizes, or both, minimum standards of quality and maturity; or

(6) Regulate the handling of onions by establishing, in terms of total weight or total number of layers of containers of onions, the maximum load in railcars, taking into account types of containers and sizes of railcars used, potential resulting damage, and other relevant factors.

(b) In the event the handling of onions is regulated pursuant to paragraph (a)(5) of this section, no handler shall handle any onions which were prepared for market or loaded during the effective period of such regulation. However, during any such period, no such regulation shall be deemed to limit the right of any person to sell or contract to sell onions for future shipment or delivery.

(c) The Secretary may amend any regulation issued under this part whenever he finds that such amendment would tend to effectuate the declared policy of the act. The Secretary may also terminate or suspend any regulation or amendment thereof whenever he finds that such regulation or amendment obstructs or no longer tends to effectuate the declared policy of the act.

§ 958.54 Minimum quantities.

The committee, with the approval of the Secretary, may establish minimum quantities below which onion shipments will be free from the requirements in, or pursuant to, §§ 958.42, 958.52, 958.53, 958.60, or any combination thereof.

(d) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(e) When onions are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the committee by the inspection service.

§ 958.65 Reports.

Action by said trustees shall require the concurrence of a majority of the said trustees.

(b) The said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and of the trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the trustees pursuant to this subpart.

[39 FR 1601, Jan. 11, 1974]

Subpart—Handling Regulations

§ 958.328 Handling regulation.

No person shall handle any lot of onions, except braided red onions, unless such onions are at least "moderately cured," as defined in paragraph (b) of this section, and meet the requirements of paragraphs (a), (b), and (c) of this section, or unless such onions are handled in accordance with paragraphs (d), (e) and (f) or (g) of this section.

(a) Grade and size requirements—(1) White varieties. Shall be either:

(i) U.S. No. 1, 1 inch minimum to 2 inches maximum diameter; or

(ii) U.S. No. 1, at least 1 1/2 inches minimum diameter.

However, neither of these two categories of onions may be commingled in the same bag or other container.

(2) Red varieties. U.S. No. 2 or better grade, at least 1 1/2 inches minimum diameter.

(3) All other varieties. Shall be either:

(i) U.S. No. 2 or U.S. Commercial grade, at least 3 inches minimum diameter, but not more than 30 percent of the lot shall be comprised of onions of U.S. No. 1 quality when packed in containers weighing less than 60 pounds; or

(ii) U.S. No. 1, 1 3/4 inches minimum to 2 3/4 maximum diameter; or

(iii) U.S. No. 1, at least 2 1/4 inches minimum diameter.

However, none of these three categories of onions may be commingled in the same bag or other container.

(b) Pack. Onions packed as U.S. Commercial grade in containers weighing less than 60 pounds shall have the grade marked permanently and conspicuously on the container.

(c) Inspection. No handler may handle any onions regulated hereunder unless such onions are inspected by the Federal-State Inspection Service and are covered by a valid applicable inspection certificate, except when relieved of such requirement pursuant to paragraph (d), (e) or (g) of this section.

(d) Onions for peeling, chopping or slicing. Onions that have been inspected...
§ 958.328  
and certified as meeting the requirements of paragraphs (a) and (b) of this section and that are subsequently peeled, chopped, or sliced for fresh market within the production area may be handled without reinspection. Each handler making shipments of onions for such purposes shall provide the committee with a copy of the original inspection certificate verifying that minimum marketing order requirements have been met. Such handlers shall also document on forms provided by the committee, in quadruplicate, the intended use and destination of the onions, referencing the inspection certificate number. Two copies of such forms shall be sent on shipment to the handler altering the onions destined for fresh market, and one copy will be mailed to the committee. Upon receipt, the handler responsible for altering such onions will document the weight of the finished product and promptly return one signed copy to the committee. Failure of the handler or processor to report such shipments by promptly signing and returning the applicable report to the committee office may be cause for cancellation of such handler’s Certificate of Privilege and/or the processor’s eligibility to receive further shipments pursuant to such Certificate of Privilege. Upon cancellation of any such Certificate of Privilege the handler may appeal to the committee for reconsideration.

(e) Special purpose shipments. The minimum grade, size, maturity, assessment, and inspection requirements of this section shall not be applicable to shipments of onions for any of the following purposes: (1) planting, (2) livestock feed, (3) charity, (4) dehydration, (5) canning, (6) freezing, (7) extraction, and (8) pickling. In addition, the minimum grade, size, and maturity requirements set forth in paragraph (a) of this section shall not be applicable to shipments of pearl onions, but the maximum size requirements in paragraph (h) of this section and the assessment and inspection requirements shall be applicable to shipments of pearl onions.

(f) Safeguards. Each handler making shipments of onions for dehydration, planting, canning, freezing, extraction or pickling pursuant to paragraph (e) of this section shall:
   (1) First apply to the committee for and obtain a Certificate of Privilege to make such shipments;
   (2) Prepare, on forms furnished by the committee, a report in quadruplicate on each individual shipment to such outlets authorized in paragraph (c) of this section;
   (3) Bill or consign each shipment directly to the applicable processor; and
   (4) Forward one copy of such report to the committee office and two copies to the processor for signing and returning one copy to the committee office. Failure of the handler or processor to report such shipments by promptly signing and returning the applicable report to the committee office may be cause for cancellation of such handler’s Certificate of Privilege and/or the processor’s eligibility to receive further shipments pursuant to such Certificate of Privilege. Upon cancellation of any such Certificate of Privilege the handler may appeal to the committee for reconsideration.

(g) Minimum quantity exemption. Each handler may ship up to, but not to exceed, one ton of onions each day without regard to the inspection and assessment requirements of this part, if such onions meet minimum grade, size and maturity requirements of this section. This exception shall not apply to any portion of a shipment that exceeds one ton of onions.

(h) Definitions. The terms “U.S. No. 1,” “U.S. Commercial,” and “U.S. No. 2” have the same meaning as defined in the United States Standards for Grades of Onions (Other than Bermuda-Granex-Grano and Creole Types), as amended (7 CFR 51.2830 through .2854), or the United States Standards for Grades of Bermuda-Granex-Grano Type Onions (7 CFR 51.3195 through .3209), as amended, whichever is applicable to the particular variety, or variations thereof specified in this section. The term “braided red onions” means onions of red varieties with tops braided (interlaced). “Pearl onions” means onions produced using specific cultural practices that limit growth to the same general size as boilers and picklers, and that have been inspected and certified as measuring 1 3/4 inches in diameter or less. The term “moderately cured” means the onions are mature and are more nearly well cured than fairly well cured. Other terms used in this section have the same
Agricultural Marketing Service, USDA

meaning as when used in Marketing Agreement No. 130 and this part.

EDITORIAL NOTE: After January 1, 1979, “Budget of Expenses and Rate of Assessment” regulations (e.g., sections .200 through .299) and “Handling” regulations (e.g., sections .300 through .399) which are in effect for a year or less, will not be carried in the Code of Federal Regulations. § 959.31 Alternate members.

An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member’s absence or when designated to do so by the member for whom he is an alternate. § 959.32 Procedure.

(a) Eleven members of the committee shall be necessary to constitute a quorum. Nine concurring votes, or two-thirds of the votes cast, whichever is greater, shall be required to pass any motion or approve any committee action. At assembled meetings all votes shall be cast in person.

   (i) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee, and such minutes, books and records shall be subject to examination at any time by the Secretary or by his authorized agent or representative. Minutes of each committee meeting shall be reported promptly to the Secretary;
(j) At the beginning of each fiscal period, to prepare a budget of its expenses for such fiscal period, together with a report thereon;
(k) To cause the books of the committee to be audited by a competent accountant at least once each fiscal period, and at such other time as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this part. A copy of each such report shall be made available at the principal office of the committee for inspection by producers and handlers, and a copy of each such report shall be furnished the Secretary;
(l) To consult, cooperate, and exchange information with other marketing agreement committees and other individuals or agencies in connection with all proper committee activities and objectives under this part.

EXPENSES AND ASSESSMENTS

§ 959.40 Expenses.

The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses on the basis of a fiscal period. Each handler’s share of such expenses shall be proportionate to the ratio between the total quantity of onions handled by him as the first handler thereof during a fiscal period and the quantity of onions handled by all handlers as first handlers thereof during such fiscal period.

§ 959.41 Budget.

As soon as practicable after the beginning of each fiscal period and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate funds to defray its proposed expenditures. The committee shall present such budget to the Secretary with an accompanying report showing the basis for its calculations.

§ 959.42 Assessments.

(a) The funds to cover the committee’s expenses shall be acquired by the levying of assessments upon handlers as provided in this subpart. Each handler who first handles onions, which are regulated under this part, shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler’s pro rata share of the committee’s expenses.

(b) Assessments shall be levied upon handlers at rates established by the Secretary. Such rates may be established upon the basis of the committee’s recommendations and other available information. Such rates may be applied to specified containers used in the production area.

(c) At any time during, or subsequent to, a given fiscal period the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all onions which were regulated under this part and which were handled by the first handlers thereof during such fiscal period.

(d) The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.
§ 959.43 Accounting.

(a) Assessments collected in excess of expenses incurred shall be accounted for in accordance with one of the following:

(1) Excess funds not retained in a reserve, as provided in paragraph (a)(2) of this section shall be refunded proportionately to the persons from whom they were collected.

(2) The committee, with the approval of the Secretary, may carry over excess funds into subsequent fiscal periods as reserves: Provided, That funds already in reserves do not equal approximately two fiscal periods’ expenses. Such reserve funds may be used (i) to defray expenses during any fiscal period prior to the time assessment income is sufficient to cover such expenses, (ii) to cover deficits incurred during any fiscal period when assessment income is less than expenses, (iii) to defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative, (iv) to cover necessary expenses of liquidation in the event of termination of this part. Upon such termination, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate. To the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

(b) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purpose specified in this part and shall be accounted for in the manner provided for in this part. The Secretary may at any time require the committee and its members to account for all receipts and disbursements.

(c) Upon the removal or expiration of the term of office of any member of the committee, such member shall account for all receipts and disbursements and deliver all property and funds in his possession to the committee, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in the committee full title to all of the property, funds, and claims vested in such member pursuant to this part.

(d) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this subpart, or during any period or periods when regulations are not in effect and if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

RESEARCH AND DEVELOPMENT

§ 959.48 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research, and development projects designed to assist, improve, or promote the marketing, distribution, consumption or efficient production of onions. The expenses of such projects shall be paid from funds collected pursuant to §959.42.

[38 FR 31516, Nov. 15, 1973]

REGULATIONS

§ 959.50 Marketing policy.

(a) At the beginning of each season, and as the Secretary may require, the committee shall prepare a marketing policy. Such policy shall indicate the data on onion supplies and demand on which the committee bases its judgments and recommendations. It shall indicate also the kind or types of regulations contemplated during the ensuing season, and, to the extent practical, shall include recommendations for specific regulations. Notice of such marketing policy shall be given to producers, handlers, and other interested parties by bulletins, newspapers, or other appropriate media, and copies thereof shall be submitted to the Secretary and shall be available generally.

For purposes of this part any person who operates an established packing house within the production area with commonly accepted adequate facilities for grading and packing onions for market, and who customarily buys onions from producers for grading, packing, and marketing shall be recorded by the committee as a registered handler. Any other person who wishes to be listed as a registered handler may make application for registration on forms furnished by the committee. If such applicant has facilities available to him that are determined by the committee to be adequate for grading and packing onions for market, and he assumes responsibility for inspection of onions handled by him, and for assessments thereon, he may be approved and recorded as a registered handler. If the committee determines from the available information that the applicant is not entitled to be registered with the committee, he shall be so informed by written notice stating the reason for denial of his application. Any registration of a handler pursuant to this section may be canceled by the committee under circumstances which would have justified denial of his application. Any handler whose registration has been canceled shall be so informed by written notice thereof stating the reason therefor. The committee shall also notify producers of each such cancellation of handler registration through committee bulletins or published notice in local newspapers of general distribution, or both.

§ 959.104 Fiscal period.

The fiscal period which extends from February 1, 1963, through January 31, 1964 (28 FR 3652), shall end July 31, 1963. Beginning August 1, 1963, and thereafter, the fiscal period shall begin August 1 of each year and end July 31 of the following year, both dates inclusive.

[29 FR 600, Jan. 24, 1964]
§ 959.121 Qualification.

Before handling onions for special purposes which do not meet regulations issued pursuant to § 959.52, a handler, when required by such regulations, must qualify with the committee to handle shipments for special purposes. To qualify he must (a) apply for and receive a Certificate of Privilege indicating his intent to so handle onions, (b) agree to comply with reporting and other requirements set forth in §§ 959.120 to 959.125, inclusive, with respect to such shipments, and (c) receive approval of the committee, or its duly authorized agents, to so handle onions. Such approval will be based upon evidence furnished in his application for Certificate of Privilege and other information available to the committee.

§ 959.122 Application.

(a) Applications for a Certificate of Privilege shall be made on forms furnished by the committee. Each application may contain, but need not be limited to, the name and address of the handler; the quantity by grade, size, and quality of the onions to be shipped; the mode of transportation; the consignee; the destination; the purpose for which the onions are to be used; and certification to the United States Department of Agriculture and to the committee as to the truthfulness of the information shown thereon, and any other appropriate information or documents deemed necessary by the committee or its duly authorized agents for the purposes stated in § 959.120.

(b) The committee may require each handler making shipments of onions for export to include with his application a copy of the Department of Commerce Shippers Export Declaration Form No. 7525-V applicable to such shipment.

§ 959.123 Approval.

The committee or its duly authorized agents shall give prompt consideration to each application for a Certificate of Privilege. Approval of an application, based upon the determination as to whether the information contained therein and other information available to the committee supports approval, shall be evidenced by the issuance of a Certificate of Privilege to the applicant. Each certificate shall cover a specified period and specified qualities and quantities of onions to be sold or transported to a designated consignee for the purpose declared.

§ 959.124 Reports.

Each handler of onions shipping under Certificates of Privilege shall supply the committee with reports as requested by the committee, or its duly authorized agents, showing the name and address of the shipper; the car or truck identification; the loading point; destination; consignee; the inspection certificate number when inspection is required; and any other information deemed necessary by the committee.

§ 959.125 Disqualification.

The committee from time to time may conduct surveys of handling of onions for special purposes requiring Certificates of Privilege to determine whether handlers are complying with the requirements and regulations applicable to such certificates. Whenever the committee finds that the handler or consignee is failing to comply with requirements and regulations applicable to handling of onions in special outlets and requiring such certificates, a Certificate or Certificates of Privilege issued such handler may be rescinded and subsequent certificates denied. Such disqualification shall apply to, and not exceed, a reasonable period of time as determined by the committee, but in no event shall it extend beyond the date of the succeeding fiscal period. Any handler who has a Certificate rescinded or denied may appeal to the committee in writing for reconsideration of his disqualification.

If nominations are not made within the time and in the manner specified in §966.27, the Secretary may, without regard to nominations, select the committee members and alternates, which selection shall be on the basis of the representation provided for in §§966.24 through 966.26 inclusive.

The committee is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred during each fiscal period for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Handlers shall share expenses upon the basis of a fiscal period. Each handler’s share of such expense shall be proportionate to the ratio between the total quantity of tomatoes handled by him as the first handler thereof during a fiscal period and the total quantity of tomatoes handled by all handlers as first handlers thereof during such fiscal period.
§ 966.41 Budget.
At the beginning of each fiscal period and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. (c) At any time during, or subsequent to, a given fiscal period the committee may recommend the approval of an amended budget and an increase in the rate of assessment. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the rate of assessment. Such increase shall be applicable to all tomatoes which were regulated under this part and which were shipped by the first handler thereof during such fiscal period.
(d) The payment of assessments for the maintenance and functioning of the committee may be required under this part throughout the period it is in effect irrespective whether particular provisions thereof are suspended or become inoperative.
(e) In order to provide funds for the administration of the provisions of this part, the committee may accept the payment of assessments in advance, or may borrow money on a short-term basis not to exceed one full-year coinciding with the existing committee’s term of office. The authority of the committee to borrow money may be used only to meet financial obligations as they occur and to allow the committee a season to adjust its reserve funds to meet any additional obligations.

§ 966.43 Accounting.
(a) All funds received by the committee pursuant to the provisions of this subpart shall be used solely for the purposes specified in this part.
(b) The Secretary may at any time require the committee, its members and alternates, employees, agents and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. Whenever any person ceases to be a member of the committee or alternate, he shall account to his successor, the committee, or to the person designated by the Secretary, for all receipts, disbursements, funds and property (including but not being limited to books and other records) pertaining to the committee’s activities for which he is responsible, and shall execute such assignments and other instruments as may be necessary or appropriate to vest in such successor, committee, or designated person, the right to all of such property and funds and all claims vested in such person.
(c) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person, to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this subpart, or during any period or periods when regulations are not in effect and, if the Secretary determines such action appropriate, he may direct that such person or persons shall act as trustee or trustees for the committee.

§ 966.44 Excess funds.
(a) If, at the end of a fiscal period, the assessments collected are in excess of expenses incurred, such excess shall be accounted for in accordance with one of the following:
(1) If such excess is not retained in a reserve, as provided in paragraph (a)(2) of this section, to the extent practical it shall be refunded proportionately to the persons from whom it was collected.

(2) The committee, with the approval of the Secretary, may establish an operating monetary reserve and may carry over to subsequent fiscal periods excess funds in a reserve so established: Provided, That funds in the reserve shall not exceed approximately one fiscal period’s expenses. Such reserve funds may be used (i) to defray any expenses authorized under this part, (ii) to defray expenses during any fiscal period prior to the time assessment income is sufficient to cover such expenses, (iii) to cover deficits incurred during any fiscal period when assessment income is less than expenses, (iv) to defray expenses incurred during any period when any or all provisions of this part are suspended or are inoperative, and (v) to cover necessary expenses of liquidation in the event of termination of this part. § 966.110 Order.
Order means Order No. 966 (§§ 966.1 to 966.92) regulating the handling of tomatoes grown in Florida.

§ 966.111 Marketing Agreement.
Marketing Agreement means Marketing Agreement No. 125.

§ 966.112 Terms.
Terms used in this subpart shall have the same meaning as when used in the marketing agreement and order.

§ 966.113 Registered handler certification.
Each handler who handles tomatoes grown in the production area must be certified as a registered handler by the committee in order to ship such tomatoes outside of the regulated area. (a) Based on the criteria specified in this section, the committee shall determine eligibility for certification as a registered handler. The committee or its authorized agent shall inspect a handler’s facilities to determine if the facilities are adequate for preparing tomatoes for market. In order to be adequate for such purposes, the facilities must be permanent, nonportable buildings located in the production area with equipment that is nonportable for the proper washing, grading, sizing and packing of tomatoes grown in the production area.
(b) Application for certification shall be executed by the handler and filed with the committee on a form, prescribed by and available at the principal office of the committee, containing the following information:

the committee. If certification is denied, such denial shall be made by the committee in writing, stating the reasons for denial.

(d) A registered handler’s certification shall be cancelled by the committee, with the approval of the Secretary, if the handler fails to pay assessments within 45 days of the end of the assessment billing period, fails to provide reports, or no longer has adequate facilities as described in this section. Cancellation of a handler’s registration shall be made in writing to the handler and shall specify the reason(s) for and effective date of such cancellation. The committee shall recertify a handler’s registration at such time as the handler corrects the deficiencies which resulted in the cancellation. (e) During any period in which the handling of tomatoes is regulated pursuant to this part, no handler shall obtain an inspection certifying that said handler’s tomatoes meet the requirements of the marketing order unless said handler has been certified as a registered handler. INTERPRETATIVE RULES

§ 966.150 Meaning of “producer”.

The term “producer” is defined in § 966.8 as being any person engaged in a proprietary capacity in the production of tomatoes for market. Under the definition of “tomatoes” in § 966.5, such production must have been in the production area. Section 966.22 provides that each person selected as a committee member or alternate must be a producer, or an officer or an employee of a corporate producer. Section 966.27 provides that producers may vote for nominees for members and alternates on the Florida Tomato Committee, the administrative agency established pursuant to said marketing agreement and order. Section 966.3 defines a person as an individual, partnership, corporation, association, or other business unit. The term “person” is construed to mean the business unit which produces the tomatoes for market.

(a) The prevailing principle which shall apply to the determination of “producer” is who or which interest as a unit, whether an individual, partnership, corporation, association, or any other business unit, has the authority to pass title to the tomatoes grown and made a part of the marketable supply of tomatoes. In other words, the terms shall be limited to those who have an ownership in tomatoes produced in the production area.

(b) Producer means any person, as defined in this section: (1) Who or which owns and farms land resulting in his or its ownership of the tomatoes produced thereon; (2) who or which rents or farms land, resulting in his or its ownership of all or a portion of the tomatoes produced thereon; or (3) who or which owns land which he or it does not farm and, as rental for such land,
obtains the ownership of a portion of the tomatoes produced thereon.

(c) The term “partnership” shall be deemed to include a husband and wife with respect to land, the title to which, or leasehold interest in which, is vested in them as tenants in common, joint tenants, tenants by entirety, or, under community property laws, as community property. The term “partnership” shall also be deemed to include individuals, partnerships or corporations which join together by agreement, informal or otherwise, for the purpose of growing tomatoes and which, as a unit, have authority to transfer title to such tomatoes at the time they are harvested or subsequent thereto. The term “partnership” shall also include so-called “joint ventures,” wherein one or more parties to the arrangement contributes capital and others contribute labor, management, equipment, or other services, or any variation of such contributions by two or more parties, so that it results in the growing of tomatoes and the authority to transfer title to the tomatoes so produced from that business unit to some other parties in the marketing chain.

(d) Each legal entity, whether an individual, a partnership, a “joint venture,” or a corporation, so engaged in the production of tomatoes for market shall have one vote for each position which is to be filled for the district for which he or it is eligible to vote. In the case of a partnership or a “joint venture,” such vote shall not be accepted in the absence of unanimous agreement of the respective members. In the case of a corporation, such vote shall be cast pursuant to the authorization of its board of directors. In the case of a person who owns land which he or it does not farm but, as rental for such land, obtains the ownership of a portion of the tomatoes produced thereon, such person shall be regarded as the producer of that portion and entitled to one vote, and the tenant on such land shall be regarded as the producer of the remaining portion produced on such land and also entitled to one vote.

(e) A producer eligible to vote is a person who produced tomatoes for market in a proprietary capacity in the production area during the then current fiscal period, i.e., between August 1, of the previous year and July 31 of the then current year. If a person who would otherwise qualify as a producer in a proprietary capacity in the production area planted tomatoes for market as fresh tomatoes during the current fiscal period, but (1) did not market any tomatoes in the fresh market during the current fiscal period due to adverse weather conditions, or (2) has tomatoes in production for fresh market during the current fiscal period, although still unharvested, he shall, nevertheless, be eligible as a producer to vote for committee nominees, if he produced and marketed tomatoes grown in the production area in the next preceding fiscal period.

(b) District No. 2: The counties of Brevard, Glades, Indian River, Martin, Osceola, Okeechobee, Palm Beach, St. Lucie, and Broward in the State of Florida.

(c) Terms used in this section have the same meaning as when used in said marketing agreement and this part.

§ 966.161 Reapportionment of Committee Membership.

Pursuant to § 966.25, industry membership on the Florida Tomato Committee shall be reapportioned as follows:

(a) District 1—two members and their alternates.

(c) District 3—four members and their alternates.

(b) Special purpose shipments. The requirements of paragraph (a) of this section shall not be applicable to shipments of tomatoes for pickling, processing, experimental purposes, relief, charity, export, or other outlets recommended by the committee and approved by the Secretary, if the handler...

tion. Shipments for processing are also
exempt from the assessment require-

(c) Safeguards. Each handler making
shipments of tomatoes for pickling,

(a)(3)(ii) of this section, but must meet
the other requirements of this section.

(2) For minimum quantity. For pur-
poses of this regulation each person
subject thereto may handle up to but
not to exceed 50 pounds of tomatoes per
day without regard to the require-
ments of this regulation, but this ex-
emption shall not apply to any ship-
ment or any portion thereof of over 50
pounds of tomatoes.

(3) For special packed tomatoes. Tom-
atoes which met the inspection require-
ments of paragraph (a)(4) of this sec-
tion which are resorted, regraded, and

from:

(i) The tomato grade classifications

§ 967.36 Marketable Quantity.

(a) Whenever the committee recommends and the Secretary finds on the basis of such recommendations or other information, that limiting the total quantity of celery to be handled during a marketing season, or revising a Marketable Quantity previously established, would tend to effectuate the declared policy of the act, he shall establish the Marketable Quantity which handlers may handle as first handlers for such season, or revise a previously established Marketable Quantity.

(b) When a Marketable Quantity is established for any season, no handler may handle any harvested celery during such season unless (1) it is within the Marketable Allotment of a producer who has a Base Quantity pursuant to §967.38, and (2) such producer authorized the first handler thereof to purchase or otherwise handle it.

(b) Periodically, but at least once each five years, the committee shall review Base Quantities and recommend any change in the formula, to be prescribed by the Secretary, for determining Base Quantities which may be deemed appropriate.

(c) The committee may recommend rules pertaining to producers who wish to obtain, hold, or transfer Base Quantities or Marketable Allotments. Such rules shall be subject to approval of the Secretary and may require producers to file reports and information with respect thereto, including but not limited to quantities marketed in the representative period, their qualifications as producers, as well as particulars on sale and handling of celery as a result of any Base Quantities or Marketable Allotments that may be issued to them.

(d)(1) Beginning with the 1978-79 season, a reserve in the amount of six percent of the total Base Quantities shall be established annually. Such reserve shall be used for the issuance of Base Quantities to new producers and adjustments in Base Quantities for producers with existing Base Quantities, with 50 percent being made available for new producers and 50 percent available for adjustments for producers with existing Base Quantities.

(2) Base Quantities issued to new producers shall be permanent, subject to requirements of § 967.37(e). Base Quantities issued to new producers shall not be transferable within three years after issuance. Any adjustments in Base Quantities issued to producers with existing Base Quantities shall be effective for one season only and a new request by such producers for adjustment in Base Quantity shall be submitted each season.

(3) The committee may recommend rules for establishing such reserve and for procedures whereby persons may apply for Base Quantities thereunder. Such rules shall be subject to approval by the Secretary. Rules may provide for open informal hearings by the committee on applicants' requests and may establish guides or standards for equitable and thorough consideration of pertinent factors relating to each case, including but not limited to past production of celery by applicant, acreage planted, average yields, the production capacity of the farm or land the applicant expects to use, land, labor, and equipment available to the applicant for celery production, economic and marketing factors, and other factors deemed pertinent.

(4) Each person filing an application hereunder for a new Base Quantity or adjustment in an established Base Quantity shall be notified by the committee of its determination thereon. Such determination and considerations appertaining thereto shall be subject to review by the Secretary. If a Base Quantity is issued to an applicant hereunder, the requirements of § 967.38(c) shall then apply.

(e) A condition for the continuing validity of a Base Quantity is production of celery thereunder. If no bona fide effort is made to produce and sell celery thereunder for two consecutive seasons commencing with the 1977-78 season, the Base Quantity may be declared invalid due to lack of use and cancelled at the end of the second season of non-production. The committee shall determine criteria, subject to approval by the Secretary, as to whether a bona fide effort has been made to produce and sell celery, including one requirement that the producer must have sold at least 50 percent of each of his seasonal Marketable Allotments, unless prevented from doing so by acts of God or other circumstances beyond his control.
§ 967.38 Marketable Allotments.

(a) When the Secretary establishes a season’s Marketable Quantity, a percentage shall be determined by dividing the amount fixed as the season’s Marketable Quantity by the total Base Quantities of producers who have registered with the committee pursuant to § 967.37(f).

(b) The Marketable Allotment for each producer shall be established by the committee by multiplying his Base Quantity by the appropriate Uniform Percentage. The resulting amount shall be his Marketable Allotment for a season. The committee shall notify each producer of his allotment.

(c) After a producer has been notified of his Marketable Allotment, he shall, in turn, notify the committee, on forms furnished by it, the handler or handlers who will first handle all or a portion of his Marketable Allotment for the ensuing season, as well as the number of crates each such handler will so handle. This information shall be sent by the committee to the respective handlers.

(d) If the committee recommends and the Secretary approves, that no season’s Marketable Quantity be established, the Marketable Allotment of each producer shall be unlimited.

(e) When the Marketable Quantity is equal to or smaller than total Base Quantities, the first 37,500 crates of each producer’s Base Quantity shall be subtracted from both the Marketable Quantity and total Base Quantities when the Uniform Percentage is calculated in this section (§ 967.38(a)), and the Uniform Percentage for the first 37,500 crates will be 100 percent. In the event the Marketable Quantity exceeds total Base Quantities, there shall be no exemption for the first 37,500 crates and the Uniform Percentage shall be applied to each producer’s total Base Quantity.

(f) Marketable allotments shall be issued only to producers who have registered by May 1, or such other date prescribed by the Secretary, and indicated firm and substantial commitments for the production of celery for the forthcoming season.

§ 967.39 Transfers.

(a) Producers’ Base Quantities or Marketable Allotments, or both, may be transferred upon appropriate requests therefor, pursuant to § 967.37 and upon approval of the committee.

(b) Any producer with a Base Quantity may request a transfer of all or a portion of his Base Quantity for a specified period of time.

(c) Any producer with a Marketable Allotment may request a transfer of all or a portion of his Marketable Allotment during a current season.

(d) Producers must advise the committee, prior to final approval of a transfer, that a different amount will be handled by a handler or handlers due to any transfer authorized in paragraph (c) of this section. The committee, upon receipt of such notification, shall advise the handler or handlers involved of the adjustments in the amount they may handle as first handlers thereof for the current season, based upon the number of crates involved in the transfer, as well as issue revised Marketable Allotments to the producers involved.

OTHER REGULATIONS

§ 967.40 Issuance of other regulations.

(a) The Secretary may limit the handling of celery whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such
regulations would tend to effectuate the declared policy of the act.

(b) Such regulations may:
(1) Establish specific Flow-to-Market periods and limit the total quantity of celery which may be handled therein;
(i) The committee may recommend and the Secretary may issue such rules as are necessary to effectuate the Flow-to-Market procedures and regulations.
(ii) The committee may recommend to the Secretary and the Secretary may limit in conformity with paragraph (a) of this section the total quantity of celery which is deemed advisable to be handled during any specified Flow-to-Market period or periods.
(iii) In making its recommendations, the committee shall give due consideration to the following factors:
(a) Market prices for celery; (b) supply of celery on hand at shipping point, on track at, and en route to, the principal markets; (c) supply, maturity, and condition of celery in the production area; (d) market prices and supplies of celery from competitive producing areas, and supplies of other competitive vegetables; (e) trend and level in consumer income; and (f) other relevant factors as specified by the committee in its recommendation.
(iv) At any time during a Flow-to-Market period for which the Secretary has fixed the quantity of celery which may be handled, the committee may recommend to the Secretary that such quantity be increased for such period.
Each such recommendation, together with the committee’s reason for such recommendation, shall be submitted promptly to the Secretary.
(v) Whenever the Secretary finds, from the recommendations and information submitted by the committee, or from other available information, that to limit the quantity of celery which may be handled during a specified Flow-to-Market period will tend to effectuate the declared policy of the Act, he shall fix such quantity. The quantity so fixed for any such period may be increased by the Secretary at any time during such period. The Secretary may upon the recommendation of the committee, or upon other available information, terminate or suspend any regulation at any time.

(vi)(a) At the times specified by the committee, each handler of celery shall submit to the committee, on forms to be supplied by the committee, a report setting forth the number of crates each producer or farm operation will make available to him for handling during the applicable period; and in the case of a farm operation, shall specify the number of total crates available which are to be attributed to each holder of a Marketable Allotment who is involved in the farm operation so that each holder of a Marketable Allotment is treated as an individual producer for the purposes of the Flow-to-Market regulation.
(b) Such written request and report shall be submitted at such time and in such manner and contain such other information as the committee may recommend and the Secretary approve.
(c) The committee shall determine the accuracy of the information submitted pursuant to this section. Whenever the committee finds that there is an error, omission, or inaccuracy in any such information, it shall correct the same and shall give the person who submitted the information a reasonable opportunity to discuss with the committee the factors considered in making the correction.
(vii)(a) Whenever the Secretary has fixed the total quantity of celery that may be handled during a regulated Flow-to-Market period, the committee shall compute under a uniform rule, for each producer entitled thereto, the quantity of celery which may be handled for or purchased from him by handlers during such period. The amount to be handled under these regulations will be in addition to that quantity of harvested celery a handler has on hand at the commencement of the specified Flow-to-Market period, as reflected in required reports approved for committee use by the Secretary.
(b) The percentage obtained by dividing the quantity of crates set by the Secretary for such Flow-to-Market period by the total crates stated to be available by all handlers for such period shall be applied uniformly to the amount available for handling for each producer to determine the maximum number of crates that may be handled.
§ 967.41 Handling for special purposes.

Regulations in effect pursuant to §967.38 or §967.40 may be modified, suspended, or terminated to facilitate handling of celery for:

(a) Exports;
(b) Relief or charity;
(c) Experimental purposes; and
(d) Other purposes which may be recommended by the committee and approved by the Secretary.

§ 967.42 Safeguards.

The committee, with the approval of the Secretary, may establish through rules such requirements as may be necessary to insure that shipments made pursuant to §967.41 were handled and used for the purpose stated.
§ 967.43 Inspection and certification.

(a) Whenever the handling of celery is regulated pursuant to §967.40(b)(3) through (5), or at other times when recommended by the committee and approved by the Secretary, no handler shall handle celery unless such celery is inspected by an authorized representative of the Federal or Federal-State Inspection Service and is covered by a valid inspection certificate, except when relieved from such requirements pursuant to §967.40(c) or paragraph (b) of this section.

(b) Regrading, resorting, or repacking any lot of celery shall invalidate any prior inspection certificate insofar as the requirements of this section are concerned. No handler shall handle celery after it has been regraded, rerouted, repacked or in any way additionally prepared for market, unless such celery is inspected by an authorized representative of the Federal or Federal-State Inspection Service. Such inspection requirements on regraded, rerouted, or repacked celery may be modified, suspended, or terminated upon recommendation by the committee, and approval of the Secretary.

(c) Upon recommendation of the committee and approval by the Secretary, any or all celery so inspected and certified shall be identified by appropriate seals, stamps, or tags to be affixed to the containers by the handler under the direction and supervision of a Federal or Federal-State Inspector or the committee.

(d) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(e) When celery is inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the committee by the inspection service.

(f) The committee may recommend and the Secretary may require that no handler shall transport or cause the transportation of celery by motor vehicle or by other means unless such shipment is accompanied by a copy of the inspection certificate issued thereon, or other document authorized by the committee to indicate that such inspection has been performed. Such certificate or document shall be surrendered to such authority as may be designated by the committee.

[33 FR 17847, Nov. 30, 1968]

§ 967.44 Research and development.

The committee may, with the approval of the Secretary, establish or provide for the establishment of projects involving production research, marketing research and development projects, and marketing promotion including paid advertising, designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of celery. The expenses of such projects shall be paid by funds collected pursuant to §967.61 or §967.63. Upon conclusion of each program, but at least annually, the committee shall summarize and report on the program status and accomplishments to its members and the Secretary. A similar report to the committee shall be required of any contracting party on any paid advertising or major program. Also, for each advertising or major program the contracting party shall be required to maintain records of money received and expenditures and such shall be available to the committee and the Secretary. The committee shall, with the approval of the Secretary, establish criteria which will serve as a guide for it to determine what constitutes a major program.

§ 967.60 Expenses.

The committee may incur such expenses as the Secretary finds reasonable and likely to be incurred by it during each fiscal year for its maintenance and functioning, and for such other purposes as the Secretary determines appropriate under this part. To assist the Secretary, the committee shall submit a budget of expenses and prospective revenue to him for each
§ 967.61 Assessment and requirements for payment.

Each first handler shall pay to the committee upon demand, his pro rata share of the expenses authorized by the Secretary for each marketing year. Each handler’s pro rata share shall be the rate of assessment per unit fixed by the Secretary times the total assessable units of celery which he handles. At any time during or after a marketing year, the Secretary may increase the rate of assessment as necessary to cover authorized expenses. The payment of expenses and assessments for the maintenance and functioning of the committee may be required during periods when no regulations are in effect.

§ 967.62 Accounting.

At the end of a fiscal year, funds in excess of such year’s expenses may be placed in an operating reserve not to exceed approximately one marketing year’s operational expenses or such lower limits as the committee, with the approval of the Secretary, may establish. Funds in such reserve shall be available for use by the committee for expenses authorized pursuant to § 967.40. Funds in excess of those necessary to pay expenses and those placed in the operating reserve shall be refunded pro rata to handlers from whom such funds were collected.

§ 967.63 Contributions.

The committee may accept voluntary contributions but these shall only be used to pay expenses incurred pursuant to § 967.44. Furthermore, such contributions shall be free from any encumbrances by the donor and the committee shall retain complete control of their use.

§ 967.70 Reports.

Upon request of the committee, with the approval of the Secretary, each producer and handler shall furnish to the committee such reports and information as may be necessary to enable it to exercise its powers and perform its duties under this part. All such records shall be maintained for not less than one year after the termination of the marketing season to which such records relate.

§ 967.72 Verification of reports and records.

For the purpose of assuring compliance with record keeping requirements and verifying reports of producers and handlers, the Secretary and the committee, through its duly authorized employees, shall have access to any premises where applicable records are maintained, where celery is handled, and at any time during reasonable business hours shall be permitted to inspect such producer and handler premises and any and all records of such
§ 967.73 Confidential information.

All reports, data, or information obtained by the committee constituting a trade secret or disclosing the trade position, financial condition, or business operations of particular producers or handlers shall be kept in the custody and under the control of one or more committee employees and shall be treated as confidential. Compilations of general reports from data submitted by producers or handlers are authorized, subject to prohibition of disclosure of individual producers’ or handlers’ identities or operations.

Upon such disapproval, the disapproved action of the committee shall be deemed null and void, except as to acts done in reliance thereon or in compliance therewith prior to such disapproval by the Secretary.

§ 967.82 Derogation.

Nothing in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary, or of the United States (a) To exercise any powers granted by the act or otherwise, or (b) In accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 967.83 Agents.

§ 967.85 Termination.

(a) The Secretary may at any time terminate the provisions of this part by giving at least one day’s notice by means of a press release or in any other manner which he may determine.

(b) The Secretary shall terminate the provisions of this part at the end of any fiscal year whenever he finds that such termination is favored by a majority of producers who, during the preceding fiscal year, have been engaged in the production of celery for market; provided, that such majority have, during such period produced for market more than 50 percent of the volume of such celery produced for market, but such termination shall be effective only if announced on or before August 1 of the then current fiscal year.

(c) The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.
§ 967.86 Proceedings after termination.

(a) Upon the termination of the provisions of this part, the then functioning members of the committee shall continue as joint trustees, for the purpose of liquidating the affairs of the same committee, of all the funds and property then in possession of, or under control of such committee, including claims for any funds unpaid or property not delivered at the time of such termination.

(b) The said trustees (1) shall continue in such capacity until discharged by the Secretary; (2) shall, from time to time, account for all receipts and disbursements, or deliver all property on hand, together with all books and records of the committee and of the joint trustees, to such person as the Secretary may direct; and (3) shall, upon the request of the Secretary, execute such assignments or other instruments necessary and appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee, or the joint trustees pursuant to this part.

(c) Any funds collected pursuant to § 967.41 over and above the amounts necessary to meet outstanding obligations and expenses necessarily incurred during the operation of this part and during the liquidation period, shall be returned to handlers as soon as practicable after the termination of this part. The refund to each handler shall be represented by the excess of the amount paid by him over and above his pro rata share of the expenses.

(d) Any person to whom funds or claims have been transferred or delivered by the committee, or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of said committee and upon the said joint trustees.

§ 967.87 Effect of termination or amendments.

Unless otherwise expressly provided by the Secretary, the termination of this part or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued hereunder, or (b) release or extinguish any violation of this part or any regulation issued hereunder, or (c) affect or impair any rights or remedies of the Secretary or any other person with respect to any such violation.

§ 967.88 Personal liability.

No member or alternate of the committee, nor any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler, or to any other person for errors in judgment, mistakes, or other acts, either of commission or omission as such member, alternate, employee, or agent except for acts of dishonesty.

§ 967.89 Duration of immunities.

The benefits, privileges and immunities conferred upon any person by virtue of this part shall cease upon its termination, except with respect to acts done under and during the existence of this part.

§ 967.90 Separability.

If any provision of this part is declared invalid or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

By October 1 of each season, each producer shall notify the committee, by certification to it on committee forms, the number of crates of harvested celery to be handled by each such handler; and if there are subsequent changes in arrangements, the committee shall similarly be notified.

fertilizer dealers, management agencies and others for the production and marketing of celery, including reference to land, equipment, occupation, crops produced, and past experience in farming. Applicants for increases in Base Quantity also should provide substantial evidence of a capability to produce and market additional celery including specific references to celery sales relative to Marketable Allotments, production facilities and marketing facilities.

(b) Upon receipt of the completed application forms the committee shall consider and make determinations of the allocation of annual reserve Base Quantities among eligible applicants. Up to 50 percent of the total reserve shall be allocated among new producers. Such producers shall be those applicants who have no Base Quantity under the order, and any reserve Base Quantity distributed to such applicants shall be for the purpose of establishing new production and marketing of celery. Up to 50 percent of the total reserve shall be allocated among producer applicants with existing bases. In the event total applications in either category (new producers or producers with existing bases) exceed the amount of reserve Base Quantity authorized, the reserve in each category shall be apportioned among eligible applicants on a uniform basis. Any balance of the reserve which has not been allocated during a season shall not carry forward into the following season.

(c) As provided in §967.37, the committee may provide for informal review in open meeting of the committee, or subcommittee thereof, of applicants’ request for increases in Base Quantities or for Base Quantities. Such meeting shall be so conducted that an accurate record shall be made of relevant evidence presented. The record of such informal review, with references to relevant data and information presented, shall be retained by the committee and shall be subject to review by the Secretary.

(d) Each completed application form submitted to the committee shall be considered and determinations shall be made thereon. The committee shall notify each individual in writing of the action taken on the applications submitted. If the committee has not advised an individual of its decision by July 15, the individual may appeal to the Secretary for appropriate consideration thereof.

(e) To administer this part in accordance with its terms and provisions, a record of each Base Quantity and each Marketable Allotment shall be maintained by the committee.

(1) Whenever any Base Quantity or any Marketable Allotment is established for a producer, the committee shall so record and advise such producer on forms designated by it.

(2) No producer may transfer any Base Quantity or Marketable Allotment or obtain the same without first submitting a report containing all the details of the proposed transfer to the committee for record keeping and verification. Such reports shall be on forms prescribed by the committee and shall include, but not necessarily be limited to, and as applicable, Base Quantity or Marketable Allotment held, number of crates to be transferred and the specific period of time the transfer will be in effect, name and address of the producer to whom such Base Quantity or Marketable Allotment is being transferred, number of crates marketed in the representative period, qualifications as a producer and particulars on the sale and handling of the celery referable to the transferred Base Quantity or Marketable Allotment. The committee will only give consideration to requests for transfers of Base Quantity prior to the time the Marketable Quantity is recommended to the Secretary for a particular season, after which time requests for transfers of Marketable Allotments may be made to, and considered by the committee: Provided, That, (i) pursuant to §967.36(b), transfers of Marketable Allotments may only be made to holders of Base Quantity; and (ii) requests for transfers of Base Quantities for any future season may be made at any time, except, pursuant to §967.37, no Base Quantity or portion thereof issued to a new producer may be transferred within 3 years of the date of issuance.

(3) No handler may purchase harvested celery from, or handle harvested celery on behalf of, any producer under a Base Quantity or Marketable Allotment.

515
§ 967.152 Reserve for Base Quantities.

(a) Each season for which it recommends establishment of a Marketable Quantity under the provisions of § 967.36, the committee shall consider the need for a reserve for Base Quantities. Such consideration shall be directed to factors related to reserve needs, such as, but not necessarily limited to, the equitable apportionment of Base Quantities of celery among producers; and the need to meet additional demand for celery.

(b) The committee shall recommend to the Secretary, with its considerations and judgments thereon, the amount, if any, of harvested celery, in terms of crates, which should be established in a reserve for Base Quantities for the ensuing season. Such reserve may be calculated as a percentage of the total Marketable Quantity for a season or the then current Base Quantities, or shipments for a previous season or the average of shipments for two or more seasons, or on other similar basis to be determined by the committee with the Secretary’s approval.

(c) The reserve, if any, for a particular season shall, for any season after the initial season, be established by the Secretary, pursuant to the committee recommendations or other available information, no later than the date of the establishment of Marketable Quantity.

(d) Applicants for Base Quantities or increases of Base Quantities, who have registered under § 967.151(a), may apply to the committee for a portion of such reserve within such time and on forms prescribed by it. COMMITTEE

§ 979.22 Establishment and membership.

(a) There is hereby established a South Texas Melon Committee, consisting of ten (10) members, to administer the terms and provisions of this part. Six members shall be growers, three members shall be handlers, and one shall be a public member. Each shall have an alternate who shall have the same qualifications as the member. (b) Each member, other than the public member, shall be an individual who is, prior to his selection and during his term of office, a resident of the production area, and (2) a grower or handler, or an officer or employee of a grower or handler, or of growers’ cooperative marketing organization.

(c) Five members shall be growers from District No. 1 and one member shall be a grower from District No. 2. No person, if he handles melons, shall be eligible for selection as a grower member on the committee unless all of the melons handled by him during the fiscal period immediately preceding his proposed selection to the committee were his own production or unless such person is an officer or employee of a growers’ cooperative marketing association. Three members shall be handlers from District No. 1.

(d) The public member and alternate shall be a resident of the production area and be neither a grower nor a handler and shall have no direct financial interest in the commercial production, financing, buying, packing or marketing of melons, except as a consumer, nor shall such person be a director, officer or employee of any firm so engaged.

§ 979.23 Term of office.

(a) Except as otherwise provided in paragraph (b) of this section, the term of office of committee members and their respective alternates shall be for two years and shall begin as of March 1 and end the last day of February or for such other two year period as the committee may recommend and the Secretary approve. The terms shall be so determined that approximately one-half of the total committee membership shall terminate each year. Members and alternates shall serve in such capacity for the portion of the term of office for which they are selected and have qualified, and until their respective successors are selected and have qualified;

(b) The term of office of the initial members and alternates shall begin on the effective date of this subpart. Approximately one-half the initial committee members and alternates shall serve for a 1 year term.

§ 979.24 Districts.

To determine a basis for selecting committee members, the following districts of the production area are hereby initially established:

District No. 1: (Valley) the counties of Cameron, Hidalgo, Starr, Brooks, Kleberg, Jim Hogg, Kenedy, and Willacy in the State of Texas.

District No. 2: (Laredo-Coastal Bend) the counties of Zapata, Webb, Duval, Jim Wells, Nueces, San Patricio, La Salle, McMullen, Live Oak, Bee, and Refugio in the State of Texas.

§ 979.25 Redistricting.

The committee may recommend, and the Secretary may approve, the reapportionment of members among districts, and the reestablishment of districts within the production area. In
recommending any such changes, the committee shall give consideration to:

(a) Shifts in melon acreage within the districts and within the production area during recent years;

(b) The importance of new production in its relation to existing districts;

(c) The equitable relationship of committee membership and districts; and

(d) Other relevant factors. No change in districting or in apportionment of members within districts may become effective less than 30 days prior to the date on which terms of office begin each year and no recommendations for such redistricting or reapportionment may be made less than 6 months prior to such date.

§ 979.26 Nominations.

(a) Initial members. For nominations to the initial committee, the meeting or meetings may be sponsored by the U.S. Department of Agriculture or by any agency or group requested to do so by the Department. The nominations, resulting from these meetings, for each of the six initial grower and three initial handler members of the committee, together with nomination for the initial alternate members for each position shall be submitted to the Secretary prior to the effective date of this subpart.

(b) Successor members. (1) The committee shall hold or cause to be held not later than January 15 of each year, or such other date as may be specified by the Secretary, a meeting or meetings of growers and handlers in each district for the purpose of designating at least one nominee for each position as member and for each position as alternate member of the committee which is vacant, or which is about to become vacant;

(2) The names of nominees shall be supplied to the Secretary at such time and in such manner and form as he may prescribe;

(3) Only growers may participate in designating grower nominees and only handlers may participate in designating handler nominees to the committee;

(4) Only growers and handlers who are present at such nomination meetings, or represented at such meetings by a duly authorized employee, may participate in the nomination and election of nominees for members and their alternates.

(c) Each person, whether grower or handler, is entitled to cast only one vote on behalf of himself, his agents, subsidiaries, affiliates, and representatives in designating nominees for committee members and alternates. An eligible voter’s privilege of casting only one vote shall be construed to permit a voter to cast one vote for each position to be filled;

(d) The public member and alternate member shall be nominated by the members of the committee. The public member and alternate member shall not be growers or handlers, or employees of growers or handlers. The committee shall recommend rules for receiving names of persons to be considered for nomination to the public member and alternate positions. Rules shall also be recommended for establishing eligibility of persons nominated to the public member and alternate positions. The persons nominated for the public member and alternate positions shall be submitted by the incumbent committee to the Secretary by January 15, or such other date recommended by the committee and approved by the Secretary, of the years the terms expire together with information deemed pertinent by the committee or as requested by the Secretary. The names of the nominees for the initial public member and alternate shall be submitted to the Secretary not later than 90 days after the first regular meeting of the initial South Texas Melon Committee.

§ 979.27 Selection.

Committee members and alternates shall be selected by the Secretary on the basis of representation provided for in §979.22 from nominations made pursuant to §979.26.

§ 979.28 Failure to nominate.

If nominations, including initial nominations, are not made within the time and manner prescribed in §979.26, the Secretary may, without regard to nominations, select the members and alternates on the basis of the representation provided for in §979.22.
§ 979.29 Acceptance.
Any person selected by the Secretary as member or as an alternate member of the committee shall, prior to serving as such, qualify by filing a written acceptance with the Secretary within the time period specified by the Secretary.

§ 979.30 Vacancies.
To fill committee vacancies, the Secretary may select members or alternates from nominees on the latest nomination reports or from nominations made in the manner specified in §979.26 or from other eligible persons. If the names of nominees to fill any such vacancy are not made available to the Secretary within 30 days after such vacancy occurs, the vacancy may be filled without regard to nomination, but such selection shall be made on the basis of representation provided for in §979.22.

§ 979.31 Alternate member.
An alternate member of the committee shall act in the place and stead of the member for whom he is an alternate, during such member’s absence or when designated to do so by such member. In the event both a member of the committee and his alternate are unable to attend a committee meeting, the member or his alternate or the committee, in that order, may designate another alternate from the same district and the same group (handler or grower) to serve in such member’s stead. In the event of the death, removal, resignation, or disqualification of a member, his alternate shall act for him until a successor of such member is selected and has qualified. The committee may request the attendance of alternates at any or all meetings, notwithstanding the expected or actual presence of the respective members.

§ 979.32 Procedure.
(a) Seven members of the committee shall be necessary to constitute a quorum and the same number of concurring votes shall be required to pass any motion or approve any committee actions.
(b) In assembled meetings all votes shall be cast in person. However, the committee may provide for meetings by telephone, telegraph, or other means of communication and any vote cast at such meetings shall be promptly confirmed in writing and recorded in the minutes of each meeting so as to reflect how each member voted.

§ 979.33 Expenses.
Members and alternates, when serving as members of the committee, shall serve without compensation but shall be reimbursed for such expenses authorized by the committee and necessarily incurred by them in attending committee meetings and in the performance of their duties under this part: Provided, That the committee at its discretion may request the attendance of one or more alternates at any or all meetings notwithstanding the expected or actual presence of the respective members and may pay expenses as aforesaid.

(c) To receive, investigate, and report to the Secretary complaints of violation of the provisions of this part; and
(d) To recommend to the Secretary amendments to this part.

The committee shall have, among others, the following duties:
(a) As soon as practicable after the beginning of each term of office, to meet and organize, to select a chairman and such other officers as may be necessary, to select subcommittees, and to adopt such rules, regulations, and bylaws for the conduct of its business as it deems necessary, and to recommend nominees for the public member and alternate;

h) To give the Secretary the same notice of meetings of the committee and its subcommittee as is given to its members;

i) To prepare a marketing policy;

j) To recommend marketing regulations to the Secretary;

k) To recommend rules and procedures for, and to make determination in connection with appropriate safeguards;

l) To keep minutes, books, and records which clearly reflect all of the acts and transactions of the committee and such minutes, books, and records shall be subject to examination at any time by the Secretary or his authorized agent or representative. Minutes of each committee meeting shall be reported promptly to the Secretary;

m) Prior to or at the beginning of each fiscal period, to prepare a budget of anticipated expenses for such fiscal period, together with a report thereon;

n) To prepare periodic statements of the financial operations of the committee and to make copies of each such statement available to producers and handlers for examination at the office of the committee;

o) To prepare and forward to the Secretary, prior to the last day of each fiscal period, an annual report, and make a copy available to each handler and grower who requests it. This annual report shall contain at least:

1) A complete review of the regulatory operations during the fiscal period;

2) An appraisal of the effect of such regulatory operations upon the melon industry; and

3) Any recommendations for changes in the program.

p) To cause the books of the committee to be audited by a competent accountant at least once each fiscal period and at such other times as the committee may deem necessary or as the Secretary may request. The report of such audit shall show the receipt and expenditure of funds collected pursuant to this part. Two copies of such report shall be furnished to the Secretary and a copy of each such report shall be made available at the principal office of the committee for inspection by growers and handlers; and

q) To consult, cooperate, and exchange information with other marketing order committees and other individuals or agencies in connection with all proper activities and objectives under this part.

EXPENSES AND ASSESSMENTS

§ 979.40 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred during each fiscal period by the committee for its maintenance and functioning, and for such purposes as the Secretary, pursuant to this subpart, determines to be appropriate. Each first handler’s pro rata share of such expenses shall be proportionate to the ratio between the total quantity of melons handled by him as the first handler thereof during a fiscal period and the total quantity of melons so handled by all handlers as first handlers thereof during such fiscal period.

§ 979.41 Budget.

Prior to or at the beginning of each fiscal period and as may be necessary thereafter, the committee shall prepare an estimated budget of income and expenditures necessary for the administration of this part. The committee may recommend a rate of assessment calculated to provide adequate
§ 979.42 Assessments.

(a) The funds to cover the committee’s expenses shall be acquired by the levying of assessments upon handlers as provided for in this subpart. Each handler who first handles melons shall pay assessments to the committee upon demand, which assessments shall be in payment of such handler’s pro rata share of the committee’s expenses;

(b) Assessments shall be levied during each fiscal period upon handlers at a rate per unit established by the Secretary. Such rates may be established upon the basis of the committee’s recommendations and other available information;

(c) At any time during or after a given fiscal period the committee may recommend the approval of an amended budget and an increase in the rate of assessment in conformance with §979.41. Upon the basis of such recommendations, or other available information, the Secretary may approve an amended budget and increase the assessment rate. Such increase shall be applicable to all melons which were handled by each first handler thereof during such fiscal period;

(d) The payment of assessments for the maintenance and functioning of the committee may be required irrespective of whether particular provisions of this part are suspended or become inoperative;

(e) To provide funds for the administration of the provisions of this part the committee may accept the payment of assessments in advance;

(f) If a handler does not pay his assessment within the time prescribed by the committee, the assessment may be increased by a late payment charge or an interest charge at rates prescribed by the committee with the approval of the Secretary.

§ 979.43 Accounting.

(a) All funds received by the committee pursuant to the provisions of this part shall be used solely for the purposes specified in this part. At the end of the fiscal period an annual financial audit shall be conducted by a competent accountant and two copies sent to the Secretary;

(b) The Secretary may at any time require the committee, its members and alternates, employees, agents, and all other persons to account for all receipts and disbursements, funds, property, or records for which they are responsible. (c) The committee may make recommendations to the Secretary for one or more of the members thereof, or any other person to act as a trustee for holding records, funds, or any other committee property during periods of suspension of this part, or during any period or periods when regulations under this part are not in effect, and, if the Secretary determines such action appropriate, he may direct that such person or persons may act as such trustee or trustees.

§ 979.44 Excess funds.

(a) If, at the end of a fiscal period the assessments collected are in excess of expenses incurred, each handler entitled to a proportionate refund of any such assessments which represent payments by the handler in excess of his pro rata share, shall be credited with such refund against his operations of the following fiscal period or such excess shall be accounted for in accordance with one of the following:

(1) The committee, with the approval of the Secretary, may establish an operating monetary reserve and may carry over to subsequent fiscal periods excess funds in a reserve so established, except funds in the reserve shall not
§ 979.52 Issuance of regulations.

(a) The Secretary shall limit by regulation the handling of melons when he finds from the recommendations and information submitted by the committee, or from other available information, that such regulations would tend to effectuate the declared policy of the act.

(b) Such regulations may:

(1) Limit the handling of particular grades, sizes, maturities, qualities, or packs, or any combination thereof, of any or all varieties of melons during any period;

(2) Limit the handling of particular grades, sizes, maturities, qualities, or packs of melons differently for different varieties, for different markets,
for different containers, or any combination of the foregoing, during any period;
(3) Fix the size, capacity, weight, dimension, or pack of the container, or containers, which may be used in the packaging or handling of melons, including appropriate container markings to identify the contents thereof.

(c) The regulations or any portions of such regulations issued hereunder may be amended, modified, suspended, or terminated by the Secretary whenever it is determined:
(1) That such action is warranted upon recommendation of the committee or other available information;
(2) That such action is essential to provide relief from inspection, assessment, or regulations under paragraph (b) of this section for minimum quantities less than customary commercial transactions; or
(3) That regulations issued hereunder obstruct or no longer tend to effectuate the declared policy of the act.

§ 979.54 Handling for special purposes.

Regulations in effect pursuant to §§ 979.42, 979.52, or 979.60 may be modified, suspended, or terminated by the Secretary, upon recommendation of the committee, to facilitate handling of melons for: (a) Relief or charity, (b) experimental purposes, (c) exports, and (d) other special purposes, which may be recommended by the committee and approved by the Secretary.

§ 979.55 Safeguards.

The committee, with the approval of the Secretary, may establish through rules and regulations, the requirements with respect to proof that shipments made pursuant to §979.54 were handled and used for the purpose stated.

§ 979.56 Notification of regulations.

The Secretary shall promptly notify the committee of regulations issued and of any modification, suspension, or termination thereof. The committee shall give notice thereof to all handlers of melons in the production area. In addition, the committee shall make the information available to growers through appropriate news releases or such other means as may be available.

§ 979.60 Inspection and certification.

(a) Whenever the handling of melons is regulated pursuant to §979.52 or at other times when recommended by the committee and approved by the Secretary, no handler shall handle melons unless they are inspected by an authorized representative of the Federal-State Inspection Service and are covered by a valid inspection certificate, except when relieved from such requirements pursuant to §979.52(c), or §979.54, or paragraph (b) of this section. The cost of such inspection shall be borne by the applicant.

(b) Regrading, resorting, repacking any lot of melons, or breaking any lot (without continuing identification of applicable inspection or subcertification thereof) shall invalidate any applicable inspection certificate insofar as the requirements of this section are concerned. No handler shall handle melons after a lot has been broken, regraded, repacked, or resorted, or in any other way additionally prepared for market, unless such melons are inspected by an authorized representative of the Federal or Federal-State Inspection Service. Such inspection requirements on regraded, resorted, re-packed, or broken lots of melons may be modified, suspended or terminated upon recommendation by the committee, and approval of the Secretary.

(c) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(d) When melons are inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the committee by the Inspection Service.

(e) The committee may recommend and the Secretary may require that no handler shall transport or cause the transportation of melons by motor vehicle or by other means unless such shipment is accompanied by a copy of the inspection certificate issued thereon, or such other documents as may be

[44 FR 28781, May 17, 1979]

§ 979.155 Safeguards.

(a) Policy. Whenever shipments of melons for special purposes pursuant to § 979.54 are relieved in whole or in part from regulations issued under § 979.52, the committee may require information and evidence on the manner, methods, and timing of such shipments as safeguards against the entry of any such melons in trade channels other than those for which intended. Such information and evidence shall include requirements set forth below with respect to Certificates of Privilege.

(b) Qualification. Before handling melons for special purposes which do not meet regulations issued pursuant to § 979.52, a handler, when required by such regulations, must qualify with the committee to handle shipments for special purposes. To qualify one must (1) apply for and receive a Certificate of Privilege indicating the intent to so handle melons, (2) agree to comply with reporting and other requirements set forth in § 979.155 with respect to such shipments, and (3) receive approval of the committee, or its duly authorized agents, to so handle melons. Such approval will be based upon evidence furnished in the application for Certificate of Privilege and other information available to the committee.
(c) Application. (1) Applications for a Certificate of Privilege shall be made on forms furnished by the committee. Each application may contain, but need not be limited to, the name and address of the handler; the quantity by grade, size, quality and container of the melons to be shipped; the mode of transportation; the consignee; the destination; the purpose for which the melons are to be used; and certification to the United States Department of Agriculture and to the committee as to the truthfulness of the information shown thereon, and any other appropriate information or documents deemed necessary by the committee or its duly authorized agents for the purposes stated in §979.155.

(2) The committee may require each handler making shipments of melons for export to include with his application a copy of the Department of Commerce Shippers Export Declaration Form No. 7525–V applicable to such shipment.

(d) Approval. The committee or its duly authorized agents shall give prompt consideration to each application for a Certificate of Privilege. Approval of an application, based upon the determination as to whether the information contained therein and other information available to the committee supports approval, shall be evidenced by the issuance of a Certificate of Privilege to the applicant. Each certificate shall cover a specified period and specified qualities and quantities of melons to be sold or transported to a designated consignee for the purpose declared.

(e) Reports. Each handler of melons shipping under Certificates of Privilege shall supply the committee with reports as requested by the committee, or its duly authorized agents, showing the name and address of the shipper; the car or truck identification; the loading point; destination; consignee; the inspection certificate number when inspection is required; and any other information deemed necessary by the committee.

(f) Disqualification. The committee from time to time may conduct surveys of handling of melons for special purposes requiring Certificates of Privilege to determine whether handlers are complying with the requirements and regulations applicable to such certificates. Whenever the committee finds that the handler or consignee is failing to comply with requirements and regulations applicable to handling of melons in special outlets and requiring such certificates, a Certificate or Certificates of Privilege issued such handler may be rescinded and subsequent certificates denied. Such disqualification shall apply to, and not exceed, a reasonable period of time as determined by the committee, but in no event shall it extend beyond the date of the succeeding fiscal period. Any handler who has a certificate rescinded or denied may appeal to the committee in writing for reconsideration of his disqualification.

§ 979.180 Reports.

Each handler shall furnish every two weeks during the planting season to the committee on a form provided by the committee the number of acres of cantaloups and honeydew melons planted by the handler or growers for whom the handler packs melons during such period and the location of such plantings. City and State destinations shall be listed on inspection certificates and release forms.

(2) No handler may transport by motor vehicle or cause such transportation of any shipment of melons for which an inspection certificate is required unless each such shipment is accompanied by a copy of the inspection certificate applicable thereto or the shipment release form furnished by the inspection service identifying truck lots to which a valid inspection certificate is applicable. A copy of such inspection certificate or shipment release form shall be surrendered upon request to Texas Department of Agriculture personnel designated by the committee.

§ 980.1 Import regulations; Irish potatoes.

(a) Findings and determinations with respect to imports of Irish potatoes. (1) Pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), it is hereby found that:

(i) Grade, size, quality, and maturity regulations have been issued from time to time pursuant to the following marketing orders: No. 949 (part 949 of this chapter), No. 945 (part 945 of this chapter), No. 948 (part 948 of this chapter), No. 947 (part 947 of this chapter), No. 950 (part 950 of this chapter), No. 946 (part 946 of this chapter), and No. 953 (part 953 of this chapter);

(ii) During the past several years, grade, size, quality, and maturity regulations have been in effect pursuant to two or more of such orders during each month of the year;

(iii) The marketing of Irish potatoes can be reasonably distinguished by the several seasonal categories, i.e., winter, early spring, late spring, early summer, late summer, and fall. The bulk of the fall crop is harvested and placed in storage in the fall and marketed over a period of several months extending into the following summer. But potatoes harvested from the other seasonal crops are generally marketed as the potatoes are harvested. The marketing seasons for these crops overlap.

(iv) Concurrent grade, size, quality, and maturity regulations under two or more of the aforesaid marketing orders are expected in the ensuing and future seasons, as in the past.

(2) Therefore it is hereby determined that:

(i) Imports of red-skinned, round type potatoes during the months of October through the following June of each marketing year are in most direct competition with potatoes of the same type produced in the area covered by Order No. 946 (part 946 of this chapter).

(ii) Imports of all other round type potatoes during the period June 5 through July 31 are in most direct competition with the marketing of the same type potatoes produced in the Southeastern States covered by Order No. 953 (part 953 of this chapter); and during the period August 1 through June 4 of the following year they are in most direct competition with all other round type potatoes produced in Area No. 3, Colorado (Northern Colorado) covered by Marketing Order No. 948, as amended (part 948 of this chapter): Provided, That for the period March 6 through June 14, 1968, imports of all other round type potatoes are in most direct competition with the marketing of the same type potatoes produced in the State of Maine covered by Order No. 950 (part 950 of this chapter): Provided further, That for the period June 1 through June 4, 1970, imports of all other round type potatoes are in most direct competition with the marketing of the same type potatoes produced in the Southeastern States covered by Order No. 953 (part 953 of this chapter): Provided further, That for the period June 1 through June 4, 1971, imports of all other round type potatoes are in most direct competition with the marketing of the same type potatoes produced in the Southeastern States covered by Order No. 953 (part 953 of this chapter).

(iii) Imports of long type potatoes during each month of the marketing year are in most direct competition with potatoes of the same type produced in the area covered by Order No. 945 (part 945 of this chapter).

(b) Grade, size, quality, and maturity requirements. On and after the effective date hereof importation of Irish potatoes, except certified seed potatoes, shall be prohibited unless they comply with the following requirements:

(1) For the period October 1 through the following June of each marketing year, the grade, size, quality, and maturity requirements of Area No. 2, Colorado (San Luis Valley) covered by Marketing Order No. 948, as amended (part 948 of this chapter) applicable to potatoes of the red-skinned round type; and from July 1 through September 30
Agricultural Marketing Service, USDA § 980.1

Each marketing year the grade, size, quality, and maturity requirements of Marketing Order No. 946 (part 946 of this chapter) shall be the respective grade, size, quality, and maturity requirements for imported red-skinned round type potatoes, except there shall be no size requirements for imported red-skinned round type of potatoes that are imported in containers containing a net weight of 3 pounds or less, if the potatoes are U.S. No.1 grade or better.

(2) During the period June 5 through July 31 of each marketing year, the grade, size, quality, and maturity requirements of Marketing Order No. 953 (part 953 of this chapter) applicable to potatoes of the round type shall be the respective grade, size, quality, and maturity requirements for imports of other round type potatoes; and during the period August 1 through the following June 4 of each year the grade, size, quality, and maturity requirements of Area No. 3, Colorado (northern Colorado) covered by Marketing Order No. 948, as amended (part 948 of this chapter) shall be the respective grade, size, quality, and maturity requirements for imports of all other round type potatoes. Provided, That for the period March 6 through June 14, 1968, the grade, size, quality, and maturity requirements of Marketing Order No. 950, as amended (part 950 of this chapter) applicable to potatoes of the round type shall be the respective grade, size, quality, and maturity requirements for imports of all other round type potatoes:\nProvided further, That for the period June 1 through June 4, 1970, the grade, size, quality, and maturity requirements of Marketing Order No. 953, as amended (part 953 of this chapter) applicable to potatoes of the round types shall be the respective grade, size, quality, and maturity for imports of other round type potatoes:\nProvided further, That for the period June 1 through 4, 1971, the grade, size, quality, and maturity requirements of Marketing Order No. 953, as amended (part 953 of this chapter) applicable to potatoes of the round types shall be the respective grade, size, quality, and maturity for imports of other round type potatoes.

(3) Through the entire year the grade, size, quality, and maturity requirements of Marketing Order 945, as amended (part 945 of this chapter) applicable to potatoes of all long types shall be the respective grade, size, quality, and maturity requirements for imported potatoes of all long types.

(4) The grade, size, quality, and maturity requirements as provided for in this paragraph shall apply to imports of similar types of potatoes, unless otherwise ordered, on and after the effective date of the applicable domestic regulation or amendment thereto, as provided in this paragraph or 3 days following publication of such regulation or amendment in the Federal Register, whichever is later.

(c) Minimum quantities. Any importation which, in the aggregate, does not exceed 500 pounds may be imported without regard to the provisions of this section.

(d) Plant quarantine. No provisions of this section shall supersede the restrictions or prohibitions of potatoes under the Plant Quarantine Act of 1912.

(e) Certified seed. Certified seed potatoes shall include only those potatoes which are officially certified and tagged as seed potatoes by the Plant Health Directorate, Food Production and Inspection Branch, Agriculture Canada, and which are subsequently used as seed.

(f) Designation of governmental inspection services. The Federal or Federal-State Inspection Service, Fruit and Vegetable Division, Agricultural Marketing Service, U.S. Department of Agriculture and the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, are hereby designated as governmental inspection services for the purpose of certifying the grade, size, quality, and maturity of Irish potatoes that are imported, or to be imported, into the United States under the provisions of section 8e of the Act.

(g) Inspection and official inspection certificates. An official inspection certificate certifying the potatoes meet the United States import requirements for Irish potatoes under section 8e (7 U.S.C. 608e) issued by a designated governmental inspection service applicable to a particular shipment of potatoes is required on all imports of potatoes other than certified seed.
(1) (i) Inspection and certification by the Federal or Federal-State Inspection Service will be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables, and other products (part 51 of this title), and each lot shall be made available and accessible for inspection as provided therein. Cost of inspection and certification shall be borne by the applicant.

(ii) Since inspectors may not be stationed in the immediate vicinity of a port, or point of entry, an importer of uninspected and uncertified Irish potatoes should make advance arrangements for inspection. Each importer should give at least the specified advance notice to one of the following applicable inspection offices prior to the time the Irish potatoes would be imported.

(2) In the event the required inspection is performed prior to the arrival of the potatoes at the port of entry, the inspection certificate that is issued must show that the inspection was performed at the time of loading onto the vessel.

(3) Inspection certificates shall cover only the quantity of potatoes that is being imported at a particular port of entry by particular importers.

(4) Each inspection certificate issued with respect to any Irish potatoes to be imported into the United States shall set forth, among other things:

(i) The date and place of inspection;

(ii) The name of the shipper, or applicant;

(iii) The commodity inspected;

(iv) The quantity of the commodity covered by the Certificate;

(v) The principal identifying marks of the containers;

(vi) The railroad car initials and number, the truck and trailer number, the name of the vessel, or other identification of the shipment; and

(vii) The following statement if the facts warrant: Meets U.S. Import requirements under section 8e of the Agricultural Marketing Agreement Act of 1937.

(h) Reconditioning prior to importation. Nothing contained in this part shall be deemed to preclude any importer from reconditioning prior to importation any shipment of Irish potatoes for the purpose of making it eligible for importation under the Act.

(1) Definitions. (i) For the purpose of this part potatoes meeting the requirements of Canada No. 1 grade and Canada No. 2 grade shall be deemed to comply with the requirements of the U.S. No. 1 grade and U.S. No. 2 grade, respectively, and the tolerances for size, as set forth in the U.S. Standards for Potatoes (§§51.1540 to 51.1556, inclusive of this title) may be used.

(ii) Importation means release from custody of the U.S. Bureau of Customs.

(i) Exemptions. The grade, size, quality and maturity requirements of this section shall not be applicable to potatoes imported for canning, freezing, other processing, livestock feed, charity, or relief, but such potatoes shall be subject to the safeguard provisions contained in §980.501. Processing includes canning, freezing, dehydration, chips, shoestrings, starch and flour. Processing does not include potatoes.
§ 980.117 Import regulations; onions.

(a) Findings and determinations with respect to onions. (1) Under section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), it is hereby found that:

(i) Grade, size, quality, and maturity regulations have been issued regularly under Marketing Orders No. 958 and 959, both as amended;

(ii) Since December 9, 1985, grade, size, quality, and maturity regulations have been in effect pursuant to these orders during the period August through July;

(iii) The marketing of onions can be reasonably distinguished by the seasonal categories, i.e., late summer and early spring. The bulk of the late summer crop is harvested and placed in storage in late summer and early fall and marketed over a period of several months extending into the following spring. But the onions harvested from the early spring crop are generally marketed as soon as the onions are harvested. The marketing seasons for these crops overlap;

(iv) Concurrent grade, size, quality, and maturity regulations under the two marketing orders are expected in future seasons, as in the past.

(2) Therefore, it is hereby determined that: Imports of onions during the June 5 through March 9 period are in most direct competition with the marketing of onions produced in designated counties in Idaho and Malheur County, Oregon, covered by Marketing Order No. 958, as amended (7 CFR part 958), and during the March 10 through June 4 period the marketing of imported onions is in most direct competition with onions produced in designated counties in South Texas covered by Marketing Order No. 959, as amended (7 CFR part 959).

(b) Grade, size, quality, and maturity requirements. On and after the effective date hereof no person may import onions as defined herein unless they are inspected and meet the following requirements:

(1) During the period June 5 through March 9 of each marketing year, whenever onions grown in designated counties in Idaho and Malheur County, Oregon, are regulated under Marketing Order No. 958, imported onions shall comply with the grade, size, quality, and maturity requirements imposed under that order.

(2) During the period March 10 through June 4 of each marketing year, whenever onions grown in designated counties in South Texas are regulated under Marketing Order No. 959, imported onions shall comply with the grade, size, quality, and maturity requirements imposed under that order.

(c) Minimum quantity exemption. Any importation which in the aggregate does not exceed 110 pounds (50 kilograms) may be imported without regard to the provisions of this section.

(d) Plant quarantine. Provisions of this section shall not supersede the restrictions or prohibitions on onions under the Plant Quarantine Act of 1912.

(e) Designation of governmental inspection service. The Federal or the Federal-State Inspection Service, Food Safety and Quality Service, U.S. Department of Agriculture, and the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, are designated as governmental inspection services for certifying the grade, size, quality, and maturity of onions that are imported into the United States under the provisions of section 8e of the act.

(f) Inspection and official inspection certificates. (1) An official inspection certificate certifying the onions meet the U.S. import requirements for onions under section 8e (7 U.S.C. 608e–1), issued by a designated governmental inspection service and applicable to a specified lot is required on all imports of onions.

(2) Inspection and certification by the Federal or Federal-State Inspection Service will be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables and other products (7 CFR part 2851). Each lot shall be made available and accessible.
for inspection as provided therein. Cost of inspection and certification shall be borne by the applicant.

(3) Since inspectors may not be stationed in the immediate vicinity of some smaller ports of entry, importers should make advance arrangements for inspection by ascertaining whether or not there is an inspector located at their particular port of entry. For all ports of entry where an inspection office is not located, each importer must give the specified advance notice to the applicable office listed below prior to the time the onions will be imported.

(5) Each inspection certificate issued with respect to any onions to be imported into the United States shall set forth, among other things:

(i) The date and place of inspection;
(ii) The name of the shipper, or applicant;
(iii) The commodity inspected;
(iv) The quantity of the commodity covered by the certificate;

(g) Reconditioning prior to importation.

Nothing contained in this part shall be deemed to preclude any importer from reconditioning prior to importation any shipment of onions for the purpose of making it eligible for importation.

(h) Definitions. For the purpose of this section, Onions means all varieties of Allium cepa marketed dry, except dehydrated, canned, or frozen onions, pickling onions in brine, onion sets, green onions or braided red onions. The term U.S. No. 2 shall have the same meaning as set forth in the U.S. Standards for Grades of Bermuda-Granex-Grano Type Onions (7 CFR 2851.3195 through 2851.3209), U.S. Standards for Grades of Creole Onions (7 CFR 2851.3955 through 2851.3970), or in the U.S. Standards for Grades of Onions Other Than Bermuda-Granex-Grano and Creole Types (7 CFR 2851.3855 through 2851.3854), whichever is applicable to the particular variety, and variations thereof specified in this section.

The term moderately cured means the onions are mature and are more nearly well cured than fairly well cured. Importation means release from custody of the U.S. Bureau of Customs. The term pearl onions means onions produced using specific cultural practices that limit growth to 1¾ inches in diameter or less.
§ 980.212 Import regulations; tomatoes.

(a) Findings and determinations with respect to fresh tomatoes. (1) Under Section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), it is hereby found that:

(i) Grade, size, quality and maturity regulations have been issued from time to time under Marketing Order No. 966, as amended;

(ii) The marketing of fresh tomatoes from Florida covered by Marketing Order No. 966, as amended, can reasonably be expected to occur during the months of October through June;

(2) Therefore, it is hereby determined that imports of fresh tomatoes during the months of October through June are in most direct competition with the marketing of fresh tomatoes produced in Florida covered by Marketing Order No. 966, as amended.

(b) Grade, size, quality and maturity requirements. On and after the effective date hereof no person may import fresh tomatoes except pear shaped, cherry, hydroponic and greenhouse tomatoes as defined herein, or tomatoes to be used in noncommercial outlets for experimental purposes, unless they are inspected and meet the following requirements:

(1) From October 10 through June 15 of each season, tomatoes offered for importation shall be at least 2%2 inches in diameter. Not more than 10 percent, by count, in any lot may be smaller than the minimum specified diameter. All lots of tomatoes shall be at least U.S. No. 2 grade.

(2) Prior to importation of tomatoes to be used in noncommercial outlets for experimental purposes, the importer shall apply for and obtain from the Vegetable Branch, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, DC 20250, an approved Certificate for Special Purpose Shipment, complete Part I and comply with all procedures specified thereon. A separate certificate is required for each shipment. Three copies of the certificate shall accompany shipment, of which one copy shall be surrendered to the Federal or Federal-State Inspector of the U.S. Department of Agriculture at the port of entry.

(3) Upon completion of shipment receiver making final disposition of the tomatoes shall complete Part II of the Certificate. Importer shall be responsible for the return, within 10 days, of a signed copy of the certificate to the Chief, Vegetable Branch, Fruit and Vegetable Division, AMS, U.S. Department of Agriculture, Washington, DC 20250, certifying that the tomatoes were used for the purpose specified thereon.

(c) Minimum quantity exemption. Any importation which in the aggregate does not exceed 60 pounds may be imported without regard to the provisions of this section.

(d) Plant quarantine. Provisions of this section shall not supersede the restrictions or prohibitions on tomatoes under the Plant Quarantine Act of 1912.

(e) Designation of Governmental inspection service. The Federal or the Federal-State Inspection Service, Food Safety and Quality Service, United States Department of Agriculture, and the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, are designated as governmental inspection services for certifying the grade, size, quality and maturity of tomatoes that are imported into the United States under the provisions of Section 8e of the act.

(f) Inspection and official inspection certificates. (1) An official inspection certificate certifying the tomatoes
meet the United States import requirements for tomatoes under Section 8e (7 U.S.C. 608e–1), issued by a designated governmental inspection service and applicable to a specified lot is required on all imports of fresh tomatoes.

(2) Inspection and certification by the Federal or Federal-State Inspection Service will be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables and other products (7 CFR part 2851). Each lot shall be made available and accessible for inspection as provided therein. Cost of inspection and certification shall be borne by the applicant.

(3) Since the inspectors may not be stationed in the immediate vicinity of some smaller ports of entry, importers should make advance arrangements for inspection by ascertaining whether or not there is an inspector located at their particular port of entry. For all ports of entry where an inspection office is not located, each importer must give the specified advance notice to the applicable office listed below prior to the time the tomatoes will be imported.

§ 981.19 Crop year.

Crop year means the twelve month period from August 1 to the following July 31, inclusive. Any new crop almonds harvested or received prior to August 1 will be applied to the next crop year for marketing order purposes. The first crop year after the implementation of this amendment shall be a 13-month period.

§ 981.20 Handler carryover.

Handler carryover as of any given date means all almonds, wherever located, then held by handlers for their own accounts (whether or not sold) but not including any almond products.

§ 981.21 Trade demand.

Trade demand means the quantity of almonds (kernelweight basis) which commercial distributors and users such as the wholesale, chain store, confectionery, bakery, ice cream, and nut salting trades will acquire from all handlers during a crop year for distribution worldwide.

§ 981.21a Salable almonds.

Salable almonds means those almonds which are free to be handled pursuant to any salable percentage established by the Secretary pursuant to § 981.47 or § 981.48 and, in the absence of a reserve percentage being established for a crop year, all almonds received by handlers for their own accounts during that crop year.

§ 981.21b Reserve almonds.

Reserve almonds means those almonds which must be withheld from handling in satisfaction of a reserve obligation arising from application of a reserve percentage established by the Secretary pursuant to § 981.47 or § 981.48.

§ 981.22 Board.

Board means the Almond Board of California which is the administrative agency established by this subpart.
§ 981.23 Part and subpart.

Part means the order regulating the handling of almonds grown in the State of California, and all rules, regulations, and supplementary orders issued thereunder, and the aforesaid order shall be a subpart of such part.

[61 FR 32920, June 26, 1996]

§ 981.32 Nominations.

(a) Method. (1) Each year the terms of office of three of the members elected pursuant to Section 981.31 (a) and (b) shall expire, except every third year when the term of office for two of those members shall expire. Nominees for each respective member and alternate member shall be chosen by ballot delivered to the Board. Nominees chosen by the Board in this manner shall be submitted by the Board to the Secretary on or before February 20 of each year together with such information as the Secretary may require. If a nomination for any Board member or alternate is not received by the Secretary on or before February 20, the Secretary may select such member or alternate from persons belonging to the group to be represented without nomination. The Board shall mail to all handlers and growers, other than the cooperative(s) of record, the required ballots with all necessary voting information including the names of incumbents willing to accept renomination, and, to such growers, the name of any person proposed for nomination in a petition signed by at least 15 such growers and filed with the Board on or before January 20. Distribution of ballots shall be announced by press release, furnishing pertinent information on balloting, issued by the Board through newspapers and other publications having general circulation in the almond producing areas.

(2) Nominees for the positions described in Section 981.31(c) shall be handled in the same manner as described in paragraph (a)(1) of this section except that those terms of office shall expire annually.

(b) Voting. (1) Nominees for each member and alternate member position shall be voted upon separately by the group proposing them. The handler or grower group which is determined to be eligible for additional representation pursuant to § 981.31 (e) and (f), respectively, shall nominate such representatives in the same manner prescribed for choosing other nominees.

(2) Each handler may vote for a nominee for each position representing
§ 981.33 Selection and term of office.

(a) Members and their respective alternates for positions open on the Board shall be selected by the Secretary from persons nominated pursuant to §981.32, or, at the discretion of the Secretary, from other qualified persons, for a term of office beginning March 1. Members and alternates shall continue to serve until their respective successors are selected and qualified.

(b) The term of office of members of the Board shall be for a period of three years beginning on March 1 of the years selected except where otherwise provided. However, for the initial eight members of the Board selected pursuant to this section and to paragraphs (a) and (b) of §981.31, two members shall serve for a term of one year; three members shall serve for a term of two years; and three members shall serve for a term of three years. For the initial terms of office, at the time of nomination under §981.32, the Board shall make this designation by lot. The term of office for the two members selected under paragraph (c) of §981.31 shall always be for a period of one year.

(c) Board members may serve for a total of six consecutive years. Members who have served for six consecutive years must leave the Board for at least one year before becoming eligible to serve again. A person who has served less than six consecutive years on the Board may not be nominated to a new three year term if his or her total consecutive years on the Board at the end of that new term would exceed six years. This limitation on tenure shall not include service on the Board prior to implementation of this amendment and shall not apply to alternate members.

Grower members and alternates shall be growers or employees of growers, and handler members and alternates shall be handlers or employees of handlers. In the event any member or alternate ceases to be qualified for the position for which selected, that position shall be deemed vacant.

(b) The Board, with approval of the Secretary, may establish additional eligibility requirements for grower members on the Board.

§ 981.35 Alternates.

An alternate for a member for the Board shall act in the place and stead of such member (a) in his absence, or (b) in the event of his death, removal, resignation or disqualification, until a successor for his unexpired term has been selected and has qualified.

§ 981.36 Vacancy.

To fill any vacancy occasioned by the death, removal, resignation, or disqualification of any member or alternate of the Board, a successor for his unexpired term shall be selected by the
§ 981.37 Expenses.

The members of the Board shall serve without compensation, but shall be allowed their necessary expenses.

The Board shall have the following powers:

(a) To administer the provisions of this part in accordance with its terms;
(b) To make rules and regulations to effectuate the terms and provisions of this part;
(c) To receive, investigate and report to the Secretary complaints of violations of this part; and
(d) To recommend to the Secretary amendments to this part.

§ 981.39 Duties.

The Board shall have, among other things, the following duties:

(d) To furnish to the Secretary such available information as may be deemed pertinent or as he may request;
(e) To appoint such employees as it may deem necessary and to determine the salaries, define the duties and fix the bonds of such employees; and
(f) To cause the books of the Board to be audited by one or more competent certified public accountants at least once for each crop year, and at such other times as the Board may deem necessary or as the Secretary may request; and the report of each such audit shall show, among other things, the receipt and expenditure of funds pursuant hereto: and to file with the Secretary three copies of all audit reports made.

§ 981.40 Procedure.

(a) Organization and rules. The members of the Board shall select a chairman from their membership. The Board shall select such other officers and adopt such rules for the conduct of its business as it may deem advisable. The Board shall give to the Secretary or his designated agent and representatives the same notice of meetings of the Board as is given to members of the Board.

(b) Quorum. All decisions of the Board, except where otherwise specifically provided, shall be by a majority vote of the members present. The presence of six members shall be required to constitute a quorum.

(c) Voting by mail, telegram, fax or other electronic means. The Board may vote by mail, telegram, fax or other electronic means upon written notice to all members, or alternates acting in their place, including in the notice a statement of a reasonable time, not to exceed 10 days, in which a vote by mail, telegram, fax or other electronic means must be received by the Board for counting. Voting by mail, telegram, fax or other electronic means shall not be permitted at any assembled meeting of the Board. When a proposition is submitted for vote by mail, telegram, fax or other electronic means, at least eight members of the Board must vote in favor of its passage or the proposition shall be defeated.

(d) Right of the Secretary. The members of the Board (including successors or alternates), and any agent or employee appointed or employed by the Board, shall be subject to removal or suspension by the Secretary at any time. Each and every order, regulation, decision, determination, or other act of the Board shall be subject to the continuing right of the Secretary to disapprove of the same at any time, and, upon such disapproval, shall be deemed null and void except as to acts done in reliance thereon or in compliance therewith.

(e) Additional voting requirements. Adoption of recommendations by the
§ 981.41  Research and development.

(a) General. The Board, with the approval of the Secretary, may establish or provide for the establishment of projects involving production research, marketing research and development projects, and marketing promotion including paid advertising and crediting the pro rata expense assessment obligation of handlers with such portion of their direct expenditures for marketing promotion including paid advertising, which portion of their assessments is attributable to that portion of promotion designated for marketing promotion including paid advertising. Such expenditures may include, but are not limited to, money spent for advertising space or time in newspaper, magazines, radio, television, transit, and outdoor media, including the actual standard agency commission costs not to exceed 15 percent.

(d) Promotion guidelines. All marketing promotion activity engaged in by the Board, including paid advertising, shall be subject to the following terms and conditions:

(1) No marketing promotion, including paid advertising shall refer to any private brand, private trademark or private trade name;

(2) No promotion or advertising shall disparage the quality, use, value, or sale of like or any other agricultural commodity or product, and no false or unwarranted claims shall be made in connection with the product;

(3) No promotion or advertising shall be undertaken without reason to believe that returns to producers will be improved by such activity; and

(4) Upon conclusion of each activity, but at least annually, the Board shall summarize and report the results of such activity to its members and to the Secretary.

(e) Rules and regulations. Before any project involving marketing promotion, including paid advertising and the crediting of the pro rata expense assessment obligation of handlers is undertaken pursuant to this section, the Secretary, after recommendation by the Board, shall provide rules and regulations as are necessary to effectively regulate such activity.

§ 981.42  Quality control.

(a) Incoming. Except as provided in this paragraph, each handler shall cause to be determined, through the inspection agency, and at handler expense, the percent of inedible kernels in each variety received by him and shall report the determination to the
§ 981.48 Increase of salable percentage.

Upon request filed prior to May 15 by the Board or, if the Board should fail to request, by two or more handlers who have handled at least 15 percent of all almonds handled in the preceding crop year, and after findings of fact (based upon a revision of the estimates required under §981.49 and other pertinent information) that the quantity of salable almonds is not sufficient to satisfy trade demand and desirable carryover requirements for the crop year, the Secretary may increase the salable percentage. Such findings shall be made in the manner specified in §981.47.

§ 981.47 Method of establishing salable and reserve percentages.

Whenever the Secretary finds, from the recommendations and supporting information supplied by the Board or from any other available information, that to designate the percentages of almonds during any crop year which shall be salable almonds and reserve almonds would tend to effectuate the declared policy of the act, he shall designate such percentages. Ed provided in §981.50 the salable and reserve percentages shall each be applied to the kernel weight of almonds received by a handler for his own account during the crop year. In establishing such salable and reserve percentages, the Secretary shall give consideration to the ratio of estimated trade demand (domestic plus export, less the handler carryover available to satisfy trade demand plus the desirable handler carryover at the end of the crop year) to the estimated production of marketable almonds (all expressed in terms of kernel weight) or the allocation quantity (marketable production plus almonds diverted to oil or feed when eligible for reserve satisfaction) whichever is applicable; the recommendation submitted to him by the Board; and such other information as he deems appropriate. The total of the salable and reserve percentages established each crop year shall equal 100 percent.

[41 FR 26853, June 30, 1976, as amended at 61 FR 32921, June 26, 1996]
§ 981.49 Board estimates and recommendations.

To aid the Secretary in fixing the salable and reserve percentages, the Board shall furnish to the Secretary, not later than August 1, the following estimates (kernel weight basis) and recommendations for the crop year, each of which, or any later revisions thereof, shall be adopted by the affirmative vote of at least six members:

(a) The quantity of marketable almonds to be produced;

(b) The estimated handler carryover and the estimated reserve inventory as of July 31;

(c) The desirable handler carryover and the probable reserve inventory at the end of the crop year;

(d) The trade demand, taking into consideration anticipated imports, economic conditions and the anticipated market price (within the limitations of the act); and

(e) The recommended salable and reserve percentages to be established.

The Board shall also furnish to the Secretary a complete report of the proceedings of the Board meeting at which the recommended salable and reserve percentages were considered. If, for any reason, the Board fails to make these estimates or to recommend to the Secretary salable and reserve percentages as required hereby, reports representing the views of members with respect to such matters may be submitted to the Secretary who may act on the basis of such reports or other information available to him.

§ 981.50 Reserve obligation.

Whenever salable and reserve percentages are in effect for a crop year, each handler shall withhold from handling a quantity of almonds having a kernel weight equal to the reserve percentage of the kernel weight of all almonds such handler receives for his own account during the crop year: Provided, That, any quantity of almonds delivered to outlets such as poultry or animal feed or crushing into oil, in a manner permitting accountability to the Board, shall not be included in such receipts. The quantity of almonds hereby required to be withheld from handling shall constitute, and may be referred to as the “reserve” or “reserve obligation” of a handler. The almonds handled as salable almonds by any handler, in accordance with the provisions of this part, shall be deemed to be that handler’s quota fixed by the Secretary within the meaning of section 8a(5) of the act.

[41 FR 26853, June 30, 1976]

§ 981.51 Requirements for reserve.

Each handler may satisfy his reserve obligation with such almonds specified in the terms of the agency agreement authorized in §981.67, including all applicable inspection and certification requirements. Any handler who does not become an agent may receive credit by similarly delivering almonds to the Board or its designees. These requirements may be established by the Board, with the approval of the Secretary, and from time to time so modified, and may include grade requirements for reserve almonds delivered to human consumption outlets.

[41 FR 26853, June 30, 1976]

§ 981.52 Holding requirement and delivery.

Each handler shall, at all times, hold in his possession or under his control, in proper storage for the account of the Board, the quantity of almonds necessary to meet his reserve obligation less: (a) Any quantity which was disposed of by him pursuant to §981.67; and (b) any quantity for which he is otherwise relieved by the Board of responsibility to so hold almonds. Upon demand of the Board reserve almonds shall be delivered to the Board f.o.b. handler’s warehouse or point of storage, except that the Board shall not make such demand upon a handler with respect to reserve almonds for which he has agreed to undertake disposition pursuant to §981.67. Any handler who does not act as agent for the Board in the disposition of reserve almonds shall be subject to the applicable inspection and certification requirements prescribed by the Board pursuant to §981.67.

[41 FR 26853, June 30, 1976]
§ 981.54 Payment to handlers for services rendered.

The Board may pay handlers for necessary services rendered by them in connection with almonds eventually disposed of directly by the Board as reserve including but not limited to storing, shelling, sorting, bleaching, grading, packaging, fumigating, and other services in accordance with such schedule of payments and under such conditions as may be established by the Secretary after recommendation of the Board.

§ 981.55 Interhandler transfers.

(a) Any handler may, upon notice to and under the supervision and direction of the Board, transfer almonds or reserve credits to another handler. Any such transfers shall be accounted for in such manner that the reserve obligation and assessments on the combined transactions of the participating handlers shall be fully met and such reserve withholding obligation and assessments may be divided between such handlers in accordance with their arrangements subject to approval of the Board.

(b) When salable and reserve percentages are in effect, any handler may transfer reserve withholding obligation to other handlers. Terms and conditions implementing this provision must be recommended by the Board and approved by the Secretary.

§ 981.56 Assistance of Board in accounting for reserve.

The Board, on written request, may assist handlers in accounting for their reserve obligations and may aid any handler in acquiring almonds to meet any deficiency in his reserve.

§ 981.57 Application of salable and reserve percentages after end of crop year.

The salable and reserve percentages established for any crop year shall continue in effect with respect to all almonds for which the reserve obligation has not been previously met, which are received for his own account or handled by any handler after the end of such crop year and before salable and reserve percentages are established for the succeeding crop year. After such percentages are established for the new crop year, the withholding requirements for all such almonds theretofore received for his own account or handled during that crop year shall be adjusted to the newly established percentages.

§ 981.59 Adjustment upon increase of salable percentage.

(a) Upon any increase in the salable percentage and corresponding decrease in the reserve percentage, the reserve obligation of each handler for the entire crop year to the effective date of such action shall be computed in accordance with such revised salable and reserve percentages. From the reserve almonds that may have been withheld by him and not yet disposed of, any handler authorized to act and acting as agent of the Board in disposing of reserve pursuant to §981.66 shall be permitted to select, under the supervision and direction of the Control Board, the particular reserve almonds to be restored to his salable percentage, and such restoration shall be deemed to fulfill the obligation of the Board with respect to such increase.

(b) In the case of handlers who have not been authorized to dispose of their own reserves, and handlers who have terminated their agencies to dispose of their own reserves, prior to an increase in the salable percentage, insofar as practicable each such handler shall be permitted to select almonds from his own reserve to be restored to his salable quantity. In the event there are not sufficient reserve almonds held by the Board at the time the salable percentage is increased, to make full restoration, as represented by the increase in the salable percentage, to all such handlers, the restoration to the salable quantities of the respective handlers shall be pro rata on the basis of certified kernel weight poundage of reserve contributed by said handlers during the crop year to the date of increase of the salable percentage: Provided, That restoration shall be made in a manner that will result, to the extent practicable, in a comparable percentage of reserve disposition for each such handler and that no handler shall
§ 981.60 Determination of kernel weight.

(a) Almonds for which settlement is made on kernel weight. All lots of almonds, whether shelled or unshelled, for which settlement is made on the basis of kernel weight shall be included in the total kernel weight for any handler at the settlement weight.

(b) Almonds for which settlement is made on unshelled weight. The settlement weight for unshelled almonds shall be determined on the basis of representative samples of unshelled almonds reduced to shelled weight.

§ 981.61 Redetermination of kernel weight.

The Board, on the basis of reports by handlers, shall redetermine the kernel weight of almonds received by each handler for his own account during each crop year through each of the following dates: December 31, March 31, and June 30. Such redetermined kernel weight for each handler shall be the basis for computing his reserve obligation for the crop year through such dates, except that adjustment shall be made for almonds on which the obligation has been assumed by another handler. The redetermined kernel weight of each handler’s receipts, as of any date during the crop year, shall be his carryover as of that date plus the weight of almonds delivered or used in products minus the carryover at the beginning of the crop year, the weight on which another handler has assumed the obligations, and the weight delivered to exempt outlets. Weights used in such computations for various classifications of almonds shall be:

(a) For unshelled almonds, the kernel weight based on representative samples reduced to shelled weight;
(b) For shelled almonds, the net weight; and
(c) For shelled almonds used in production of almond products, the net weight of such almonds.

[41 FR 26853, June 30, 1976, as amended at 61 FR 32921, June 26, 1996]

DISPOSITION OF RESERVE

§ 981.65 Prohibition on the use or disposition of reserve almonds.

Except as provided in §§ 981.66 and 981.67, almonds that are withheld as reserve pursuant to the requirements of § 981.50 or are creditable in satisfaction of a reserve withholding obligation thereunder, shall not be used or disposed of by any handler or any other person.

§ 981.66 Conditions governing disposition of reserve.

(a) General. The Board shall have power and authority to sell or dispose of any and all reserve almonds withheld upon the best terms and at the highest return obtainable consistent with the ultimate complete disposition of reserve, subject to all conditions of this section.

(b) Exclusion from salable normal trade channels. No reserve almonds shall be sold in the United States, Puerto Rico, and the Canal Zone other than to governmental agencies or to charitable institutions for charitable purposes, except for diversion into almond oil, almond butter, poultry or animal feed, or into other channels which the Board finds are noncompetitive with existing normal markets for almonds, and with proper safeguards in each case to prevent such almonds thereafter entering the channels of trade in such normal markets.

(c) Disposition after December 31. Any reserve almonds remaining unsold as of December 31 shall be disposed of by the Board as soon as practicable through the most readily available reserve outlets. The date of December 31 herein specified may be extended to a later date by the Secretary, upon recommendation of the Board or other information.

(d) Expenses. Direct expenses incurred by the Board in the maintenance and disposition of reserve almonds shall be charged against the proceeds of sales of such almonds.
§ 981.70 Distribution of proceeds. Net proceeds from the disposition of reserve almonds by the Board shall be distributed to each handler in proportion to his relative share of such disposition in terms of creditable reserve kernel weight pursuant to §981.51 or such other basis as the Board may adopt with the approval of the Secretary.

§ 981.67 Disposition by handler.

Upon request of a handler, made prior to the delivery by him of any reserve to the Board in any crop year, the Board shall authorize such handler to act as agent of the Board, upon such reasonable terms and conditions, including inspection and certification requirements, as the Board may specify and subject to the conditions of §981.66 in disposing of the reserve withheld from handling by such handler for that crop year. Any handler who is authorized to dispose of his reserve may, through arrangement with another handler dispose of such reserve through such other handler or, in lieu of disposition, may acquire credits for reserve disposition from another handler. In the first instance, the second handler shall also be subject to the conditions of §981.66. It shall be the obligation of any handler authorized to dispose of such reserve to effect disposition thereof in accordance with all applicable requirements and conditions. The proceeds of such disposition shall be retained by the handler making the disposition, except that, in case he disposes of the reserve of another handler, the proceeds from that disposition shall be divided between the two handlers on the basis of a mutual agreement. Such authorization shall expire as of December 31 of the next crop year, and any reserve then remaining undisposed of by the handler shall be returned to the Board. If the date of December 31 specified in §981.66(e) is extended, the date of December 31 shall be extended correspondingly. Any handler who has been authorized to act as agent of the Board in disposing of his reserve may terminate such agency as of April 1 of the particular crop year by giving written notice to the Board to that effect not later than the previous March 20, in which event such handler shall return to the Board, for disposition by it, all reserve almonds remaining in his possession. In case a handler does not terminate his agency as of April 1, he shall be required to continue to serve as such agent until December 31 of the next crop year. The Board shall not terminate such an agency prior to December 31 unless the agent violates the terms and conditions specified by the Board or other provisions of the order. During the period of such agency the Board, as principal, shall not dispose of the reserve withheld from handling by said agent. The Board, with the approval of the Secretary may prescribe such rules and regulations as are necessary to regulate disposition of reserve almonds including methods for crediting as reserve any salable almonds sold and delivered to reserve outlets.

§ 981.70 Records and verification.

Each handler shall keep records which will clearly show the details of his or her receipts of almonds, withholdings, sales, shipments, inventories, reserve disposition, advertising and promotion activities, as well as other pertinent information regarding his or her operation pursuant to the provisions of this part: Provided, that, such records shall be kept in the State of California. Such records shall be retained by the handler for 2 years after the end of the crop year to which they apply. Each handler’s premises shall be accessible to authorized representatives of the Board and the Secretary for examination and audit of the aforesaid records and for inspection and observation of almonds. The Board shall make such checks of almonds or audits of each handler’s records as it deems appropriate or are requested by the Secretary to insure that accurate information as required in this part is being furnished by handlers.

§ 981.71 Record of receipts.

For the purpose of establishing the reserve obligation and furnishing statistical information to the Board necessary for the conduct of its operations, each handler, on receiving almonds for his own account, shall issue to the person from whom so received a receipt therefor. At least two duplicates thereof shall be made at the time of issuance, one of which shall be retained by the handler as a part of his records and the other submitted to the Board as hereinafter provided. Such receipts shall be serially numbered and shall accurately show for each lot received, the identity of the handler, the name and address of the person from whom received, the number of containers in the lot, the variety, whether shelled or unshelled, and the settlement weight for each such variety. The character and amount of all adjustments deducted from the gross weight shall be shown with the gross weight on the receipt issued by the handler.

EFFECTIVE DATE NOTE: At 40 FR 4416, Jan. 30, 1975, § 981.71 was suspended indefinitely.

§ 981.72 Reports of receipts.

Each handler receiving almonds for his own account shall tabulate such receipts by varieties and shall submit reports thereof to the Board in such form and at such intervals as the Board may prescribe for all receipts issued by him. Such reports shall be accompanied by duplicate copies of the receipts issued pursuant to the provisions of § 981.71 for all almonds included in such report. The Board, after checking such reports in such manner as it deems desirable, shall determine in the manner specified in § 981.60 the kernel weight of the almonds so received.

EFFECTIVE DATE NOTE: At 40 FR 4416, Jan. 30, 1975, in § 981.72, the second sentence was suspended indefinitely.

§ 981.73 Periodic reports.

On or before January 15, and April 15, and August 15 of each crop year, each handler shall file with the Board a written report, certified to the Board and to the Secretary by such handler as to its completeness and correctness, showing as of the close of business on December 31, March 31, and July 31, respectively, such information as may be prescribed by the Board for use in redetermination of kernel weight and marketing policy considerations.

§ 981.74 Other reports.

Upon the request of the Board, made with the approval of the Secretary, every handler shall furnish to the Board in such manner and at such times as it prescribes (in addition to such other reports as are specifically provided for in this part) such other information as will enable the Board to perform its duties and exercise its powers hereunder.

§ 981.75 Confidential nature of records and reports.

All information contained in handler records made available to the Board or the Secretary, or in reports to the Board, constituting a trade secret or disclosing the trade position, financial condition, or business operations of any handler shall be considered as confidential information. Such information received by the Board, shall be kept in the custody and under the control of one or more employees of the Board, who shall disclose such information to no person except the Secretary.

§ 981.76 Handler list of growers.

No later than December 31 of each crop year, each handler other than a cooperative handler (hereinafter, referred to as independent handler) governed by this subpart shall, upon request, submit to the Board a complete list of growers who have delivered almonds to such independent handler during that crop year.

[61 FR 32921, June 26, 1996]

EXPENSES AND ASSESSMENTS

§ 981.80 Expenses.

The Board is authorized to incur such expenses as the Secretary may find are reasonable and likely to be incurred by it during each crop year, for the maintenance and functioning of the Board, including the accumulation and maintenance of an operating reserve fund, and for such purposes as the Secretary
Agricultural Marketing Service, USDA

§ 981.81 Assessment.

(a) Requirement for payment. Each handler shall pay to the Board on demand by the Board, from time to time, such sum less any amounts credited pursuant to §981.41, based on such rate per pound of almonds, kernel weight basis, received by him for his own account (except as to receipts from other handlers on which assessments have been paid) as the Secretary finds is necessary to provide funds to meet the authorized board expenses and the operating reserve requirements, and establishes for the crop year. Upon redetermination of the kernel weight of almonds received by handlers for their own account as provided in §981.61, such redetermined kernel weight for each handler, adjusted for receipts on which assessments have been paid, shall be the basis upon which he shall pay assessments. At any time during or after a crop year, the Secretary may increase the rate of assessments to apply to all such almonds during such crop year to secure sufficient funds to cover the expenses authorized by §981.80 or by any later finding by the Secretary relative to the expenses of the Board, and such additional assessments shall be paid to the Board by each handler on demand. The payment of assessments for the maintenance and functioning of the Board may be required under this part throughout the period it is in effect irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) Refunds. Any money collected as assessments for either the administrative (maintenance and functioning) or research activities of the Board and not used for the expenses of the applicable crop year, may be used in paying the Board's expenses of the first four months of the succeeding crop year. No later than the fifth month the amount not expended from assessments collected for administrative-research in the previous crop year shall be retained in the operating reserve fund. Any amounts, not credited pursuant to §981.41 for a crop year may be used by the Board for its marketing promotion expenses of the succeeding crop year, and any unexpended portion of those amounts at the end of that crop year shall be retained in the marketing promotion portion of the operating reserve fund. Any funds in each portion of the operating reserve fund in excess of the level authorized pursuant to paragraph (c) of this section shall be refunded to handlers or used to reduce the assessment rate of the subsequent crop year, as the Board may determine. Each handler's share of a refund shall be the amount by which his payment of assessments exceeds his pro rata share of the two major classifications of Board expenses. For the purpose of computing any refund from the marketing promotion portion, each handler's payment of assessments shall include any amount credited to the handler pursuant to §981.41. In lieu of a refund, each handler may have the amount due him credited to his assessment obligation of the crop year in which the amount would be refunded.

(c) Reserves. The Board may maintain an operating reserve fund consisting of an administrative-research portion and a marketing promotion portion. The amount in each portion shall not exceed approximately six-months' budget for the activity area or such lower amount as the Board may establish with the approval of the Secretary: Provided, That this limitation shall not restrict the temporary retention of excess funds for the purpose of stabilizing or reducing the assessment rate of a crop year. To the extent that funds from current crop year assessments are inadequate, funds in the operating reserve may be used for the authorized activities of the crop year. Funds so used, and not exceeding the six-month limitation, shall be replaced to the extent practicable from assessments subsequently collected for the crop year.
§ 981.85 Disposition of funds upon termination. Any money collected from assessments hereunder and remaining unexpended in possession of the Board upon the termination of this part shall be distributed in such manner as the Secretary may direct.

(e) Any assessment not paid by a handler within a period of time prescribed by the Board may be subject to an interest or late payment charge or both. The period of time, rate of interest and late payment charge shall be as recommended by the Board and approved by the Secretary. Subsequent to such approval, all assessments not paid within the prescribed period of time shall be subject to an interest or late payment charge or both.

§ 981.86 Separability.

If any provision of this subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder hereof or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 981.87 Derogation.

Nothing contained in this subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.
but such termination shall be effected only if announced on or before July 1 of the then current crop year.

(4) If enabling legislation is terminated. The provisions of this subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

(c) Proceedings after termination—(1) Designation of trustees. Upon the termination of the provisions of this subpart, the members of the Board then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the Board, of all funds and property then in the possession or under the control of the Board, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(2) Duties of trustees. Said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the Board and the joint trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the Board or the joint trustees pursuant thereto.

(3) Obligations of persons other than board members and trustees. Any person to whom funds, property, or claims have been transferred or delivered by the Board or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the said Board and upon the said joint trustees.

§ 981.91 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this subpart or of any regulation issued pursuant to this subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this subpart or any regulation issued under this subpart, or (b) release or extinguish any violation of this subpart or of any regulation issued under this subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person, with respect to any such violation.

§ 981.92 Amendments.

Amendments to this subpart may be proposed, from time to time, by any person or by the Board.

EDITORIAL NOTE: After January 1, 1979, “Budget of Expenses and Rate of Assessment” regulations (e.g., sections .300 through .309) and “Marketing percentage” regulations (e.g., sections .200 through .299) which are in effect for a year or less, will not be carried in the Code of Federal Regulations. Subpart—Administrative Rules and Regulations

§ 981.401 Adjusted kernel weight.

(a) Definition. Adjusted kernel weight shall mean the actual gross weight of any lot of almonds: Less weight of containers; less moisture of kernels in excess of five percent; less shells, if applicable; less processing loss of one percent for deliveries with less than 95 percent kernels; less trash or other foreign material. The adjusted kernel weight shall be determined by sampling certified by the inspection agency.

(b) Computation. The computation of adjusted kernel weight shall be in the manner shown in the following examples. The examples are based on the analysis of a 1,000 gram sample taken
§ 981.408 Inedible kernel.

Pursuant to § 981.8, the definition of inedible kernel is modified to mean a kernel, piece, or particle of almond kernel with any defect scored as serious damage, or damage due to mold, gum, shrivel, or brown spot, as defined in the United States Standards for Shelled Almonds, or which has embedded dirt or other foreign material not easily removed by washing: Provided, That the presence of web or frass shall not be considered serious damage for the purposes of determining inedible kernels, pieces, or particles of almond kernels.

§ 981.413 Roadside stand exemption.

The term at retail at a roadside stand as used in § 981.13 shall be defined to mean sales for home use and not for resale which are not in excess of 100 pounds net kernel weight to any one customer per day. § 981.441 Credit for market promotion activities, including paid advertising.

(a) In order for a handler to receive credit for his/her own promotional activities from his/her pro rata portion of advertising assessment payments, pursuant to § 981.41(c), the Board must determine that such expenditures meet the applicable requirements of this section. Credit will be granted either in the form of a payment from the Board, or as an offset to the advertising assessment if activities are conducted and documented to the satisfaction of the Board at least two weeks prior to assessment billings. Credit, hereinafter termed “Credit-Back”, will be granted in an amount not to exceed 66 2/3 percent of a handler’s proven expenditures for qualified activities.
Agricultural Marketing Service, USDA § 981.441

(b) The portion of the handler assessment for which credit may be received under this section will be billed, and is due and payable, at the same time as the portion of the handler assessment used for the Board’s administrative expenses, unless the handler(s) conduct and document activities at least two weeks prior to assessment billings. In the latter case, handlers’ advertising assessment obligations will be reduced according to the amount of proven activities approved by the Board.

c) The Board shall grant Credit-Back for qualifying activities only to the handler who performed such activities and who filed a claim for Credit-Back in accordance with this section.

d) Credit-Back shall be granted only for qualified promotional activities which are conducted and completed during the crop year for which Credit-Back is requested.

e) The following requirements shall apply to Credit-Back for all promotional activities:

1) Credit-Back granted by the Board shall be that which is appropriate when compared to accepted professional practices and rates for the type of activity conducted. In the case of claims for Credit-Back activities not covered by specific and established criteria, the Board shall grant the claim if it is consistent with practices and rates for similar activities. To this end, the Board may issue guidelines for qualifying activities from time to time as warranted. For activities in markets other than the United States and Canada, paragraph (e)(5) of this section shall also apply.

2) The clear and evident purpose of each activity shall be to promote the sale, consumption or use of California almonds, and nothing therein shall detract from this purpose.

3) No Credit-Back will be given for advertising placed in publications that target the farming or grower trade. No Credit-Back shall be given for any outdoor advertising or sponsorships in the California almond growing counties of Butte, Colusa, Fresno, Glenn, Kern, Madera, Merced, Sacramento, San Joaquin, Stanislaus, and Tulare counties, except that, outdoor advertising in these counties which specifically directs consumers to a handler-operated outlet offering direct purchase of almonds will be eligible for Credit-Back.

4) Credit-Back shall be granted for those qualified activities specified below, except that Credit-Back for travel expenses will not be allowed in any case.

i) Paid advertising directed to end-users, trade or industrial users. Credit-Back shall be granted for money spent on paid advertising space or time including, but not limited to, newspapers, magazines, radio, television, transit and outdoor media, and including the standard agency commission costs not to exceed 15 percent of gross.

ii) Other market promotion activities. Credit-Back shall be granted for market promotion other than paid advertising, for the following activities:

A) Marketing research (except pre-testing and test-marketing of paid advertising);

B) Trade and consumer product publicity;

C) Printing costs for promotional material;

D) Direct mail printing and distribution;

E) Retail in-store demonstrations;

F) Point-of-sale materials (not including packaging);

G) Sales and marketing presentation kits;

H) Trade fairs and exhibits;

J) Trade seminars;

K) 50/50 advertising with retailers;

L) Couponing (printing, distribution and handling costs only);

M) Purchase of Board produced promotional materials; and

N) Sponsorships

(iii) For any qualified activity involving joint participation by a handler and a manufacturer or seller of a complementary product(s), or a handler selling multiple complementary products, including other nuts, with such activity including the handler’s name or brand, or the words “California Almonds”, the amount allowed for Credit-Back claim shall reflect that portion of the activity represented by almonds, or the handler’s actual payment, whichever is less.

(iv) When products containing almonds are promoted, the amount allowed for Credit-Back shall reflect that
portion of the product weight represented by almonds, or the handler’s actual payment, whichever is less. In addition, the product must display the handler’s name or brand, or the words “California Almonds” on the primary face label.

(5) Credit-Back for promotional activities in a foreign market shall be granted at 662/3 percent of a handler’s unreimbursed expenditures for qualified activities in any foreign market, if the handler is promoting pursuant to a contract with the Foreign Agricultural Service, USDA (FAS) and/or the California Department of Food and Agriculture (CDFA). Such activities must also meet the requirements of paragraphs (e)(1), (2), (3), (4), and (6) of this section. Unless the Board is administering the foreign marketing program, such activities shall not be eligible for Credit-Back unless the handler certifies that he/she was not and will not be reimbursed by either FAS or the CDFA for the amount claimed for Credit-Back, and has on record with the Board all claims for reimbursement made to FAS and/or the CDFA. Foreign market expenses paid by third parties as part of a handler’s contract with FAS or CDFA will not be eligible for Credit-Back.

(6) A handler must file claims with the Board to obtain Credit-Back for promotional expenditures, as follows:

(i) All claims submitted to the Board for any qualified activity must include:

(A) A description of the activity and when and where it was conducted;
(B) Copies of all invoices from suppliers or agencies;
(C) Copies of all canceled checks issued by the handler in payment of these invoices; and
(D) An actual sample, picture or other physical evidence of the activity.

(ii) Handlers may receive credit against their assessment obligation up to the advertising amount of the assessment installment due. Provided: That the handler submits the required documentation for a qualified activity at least two weeks prior to the mailing of assessment notices from the Board. In all other instances, handlers must remit the advertising assessment to the Board when billed, and a refund will be issued to the extent of proven, qualified activities.

(iii) Checks from the Board in payment of approved Credit-Back claims will be mailed to handlers on February 15, April 15, June 15, and 30 days after submission of final claims for the crop year pursuant to paragraph (e)(6)(iv) of this section. To receive payment on these dates, handler claims must be submitted, with all required elements, at least one month prior to the payment date. A handler can receive Credit-Back for his/her allowable direct expenditures only up to the amount of that portion of the handler’s assessment designated for marketing promotion, including paid advertising.

(iv) A statement of the Credit-Back commitments outstanding as of the close of a crop year must be submitted in full to the Board within 15 days after close of that crop year. Final claims must be submitted within 105 days after the close of that crop year.

(f) Appeals. If a determination is made by the Board staff that a particular promotional activity is not eligible for Credit-Back because it does not meet the criteria specified herein, or for any other reason, the affected handler may request the Public Relations and Advertising Committee to review the Board staff’s decision. If the affected handler disagrees with the decision of the Board, the handler, through the Board, may request that the Secretary review the Board’s decision. Handlers have the right to request anonymity in the review of their appeal. The Secretary maintains the right to review any decisions made by the aforementioned bodies.

§ 981.442 Quality control.

(a) Incoming. Pursuant to §981.42(a), the quantity of inedible kernels in each variety of almonds received by a handler, including almonds of his own production, shall be determined and disposed of in accordance with the provisions of this paragraph.
Each handler shall cause a representative sample of almonds to be drawn from each lot of any variety received. The sample shall be drawn before inedible kernels are removed from the lot, or the lot is processed or stored by the handler. For receipts at premises with mechanical sampling equipment and under contracts providing for payment by the handler to the producer for sound meat content, samples shall be drawn by the handler in a manner acceptable to the Board and the inspection agency. The inspection agency shall make periodic checks of the mechanical sampling procedures. For all other receipts, including but not limited to field examination and purchase receipts, accumulations purchased for cash at the handler’s door or from an accumulator, or almonds of the handler’s own production, sampling shall be conducted or monitored by the inspection agency in a manner acceptable to the Board. All samples shall be bagged and identified in a manner acceptable to the Board and the inspection agency.

(2) Variety. For the purpose of classifying receipts by variety to determine a handler’s disposition obligation, “variety” shall mean that variety of almonds which constitutes at least 90 percent of a lot. If no variety constitutes at least 90 percent of the almonds in a lot, the lot shall be designated “mixed”. If the variety which constitutes at least 90 percent of the almonds in the lot is unknown, the lot shall be designated “unknown”.

(3) Analysis of sample. Each sample shall be analyzed by or under the surveillance of the inspection agency to determine the kernel content and the proportion of inedible kernels in the sample. The inspection agency shall prepare a report for each handler showing, by variety, the total adjusted kernel weight received by handler, the inedible kernel weight and any other information as the Board may prescribe. The report shall cover the handler’s daily receipt or the handler’s total receipts during a period not exceeding one month, and shall be submitted by the inspection agency to the Board and the handler.

(4) Disposition obligation. (i) The weight of inedible kernels in excess of 1 percent of kernel weight reported to the Board of any variety received by a handler shall constitute that handler’s disposition obligation. For any almonds sold inshell, the weight may be reported to the Board and the disposition obligation for that variety reduced proportionately.

(ii) If a sufficient sample is not available for any lot of almonds, the handler may establish and substantiate, to the satisfaction of the Board, the received weight, the edible and inedible kernel weights, and the adjusted kernel weight by providing sufficient information as the Board may prescribe. If the handler is only able to establish and substantiate the approximate received weight, an inedible disposition obligation of 10 percent of such received weight may be applied, upon agreement between the Board and the handler.

(5) Meeting the disposition obligation. Each handler shall meet its disposition obligation by delivering packer pickouts, kernels rejected in blanching, pieces of kernels, meal accumulated in manufacturing, or other material, to crushers, feed manufacturers, feeders, or dealers in nut wastes on record with the Board as accepted users. Handlers shall notify the Board at least 72 hours prior to delivery. Provided, That the Board or its employees may lessen this notification time whenever it determines that the 72 hour requirement is impracticable. The Board may supervise deliveries at its option. In the case of a handler having an annual total obligation of less than 1,000 pounds, delivery may be to the Board in lieu of an accepted user, in which case the Board would certify the disposition lot and report the results to the USDA. For dispositions by handlers with mechanical sampling equipment, samples may be drawn by the handler in a manner acceptable to the Board and the inspection agency. For all other dispositions, samples shall be drawn by or under the supervision of the inspection agency. Upon approval by the Board and the inspection agency, sampling may be accomplished at the accepted user’s destination. The almond meat content of each delivery shall be determined by the inspection agency and reported by the inspection agency to the Board and the handler.
§ 981.450 Exempt dispositions.

As provided in §981.50 any handler disposing of almonds for crushing into oil, or for poultry or animal feed, may have the kernel weight of these almonds excluded from his receipts, and exempt from program obligations so long as the handler qualifies as, or delivers such almonds to, a crusher, a feeder, or dealer in nut waste; the crusher, feeder, or dealer are acceptable to the Board; each delivery is made directly to the crusher, feeder, or dealer, by June 30 of the crop year; and each delivery is certified to the Board by the handler on ABC Form 8.

§ 981.455 Interhandler transfers.

(a) Transfers of almonds. Interhandler transfers of almonds pursuant to §981.55 shall be reported to the Board on ABC Form 7. The report shall contain the following information: (1) Date of transfer; (2) the names, and plant locations of both the transferring and receiving handlers; (3) the variety of almonds transferred; (4) whether the almonds are shelled or unshelled; and (5) the name of the handler assuming reserve and assessment obligations on the almonds transferred. ABC Form 7 shall be signed by the transferring handler and by the receiving handler if the latter is assuming the obligation(s).

(b) Transfers of reserve credits. A handler may transfer reserve credits to another handler after having filed with the Board, in accordance with §981.474, a completed ABC Form 13/14 covering the almonds to be diverted to a non-competitive outlet and all the documentation applicable thereto. Such a transfer does not relieve the transferring handler of any reserve obligations.
Agricultural Marketing Service, USDA

§ 981.467 Disposition in reserve outlets by handlers.

(a) Agents of Board. Beginning with August 1 of any crop year, a handler may become an agent of the Board pursuant to §981.67 for the purpose of disposing of reserve almonds of such crop year, in the authorized outlets. The agency shall be established upon a handler executing a reserve agreement (ABC Form 12) ABC, applicable to diversion, containing terms and conditions specified by the Board.

(b) Reserve credit. Credit in satisfaction of a reserve obligation shall not exceed the accrued reserve obligation derived by applying the reserve percentage to the quantity of almonds received by a handler for his own account during the crop year. Disposition by an agent of the Board in eligible reserve outlets within a crop year in excess of his reserve obligation shall be held to be a disposition of salable almonds. Whenever such disposition has been inspected and certified, if required, and has complied with the terms, conditions, and documentation applicable to disposition of reserve almonds as determined by the Board, the disposition may be credited against any reserve obligation subsequently incurred by the handler during that crop year, or the disposition may be credited pursuant to §981.455(b) against the reserve obligation of another handler.

(c) Minimum prices. Minimum prices shall apply to 1990–91 crop year reserve almonds diverted to almond butter, natural almond paste, foil packets for sales to airlines, and sales to government agencies, including federal and state school lunch programs. Prices are F.O.B. handlers plant. The prices may contain a maximum of two percent brokerage commission. No cash discounts are allowed. The prices are as follows for various grades or categories of almonds:

§ 981.466 Almond butter.

Almond butter as used in §981.66(c) is hereby defined as a comminuted food product prepared by grinding shelled or blanched almonds into a homogeneous plastic or semiplastic mass or liquid having very few particles larger than \(\frac{5}{16}\) inch in any dimension. To produce chunky style almond butter, the size of the almond pieces used to make chunky style almond butter may not exceed \(\frac{5}{8}\) inch in any dimension.

(d) For the 1990–91 crop year only, the reserve disposition obligation date is extended until September 1, 1992, and the date for submitting documentation verifying reserve dispositions is extended to December 1, 1992.

Such information shall be reported within the applicable times specified in §981.73 on forms provided by the Board.

§ 981.474 Other reports.

(a) Report of shipments and commitments. Each handler shall report on ABC Form 25–1 all shipments of almonds, inshell, shelled, and products by classification (domestic and export by countries of destination); and on ABC Form 25–2 all commitments (almonds not shipped, but sold or otherwise obligated) whether domestic contract, export contract, or non-contract. If the destination of any export is unknown to the handler, such handler shall have the broker/exporter furnish this information to the Board. In support of this report, the handler shall keep invoices on the shipments, or such other documentation as may be acceptable to the Board. The reports shall be received by the Board within five calendar days after the close of each month of the crop year.

(b) Reserve reports. In any crop year when reserve almonds are diverted to noncompetitive outlets, such handler shall report such handler’s intentions to divert on ABC Form 13 and the completion of diversion on ABC Form 14. Upon notice to all handlers, the Board may waive the requirements to file ABC Form 13 for diversion of almonds to noncompetitive outlets which are acceptable to the Board.

(c) Handler information reports. Each handler shall file no later than September 1 of each year ABC Form 42, a Handler Information Sheet, listing the

§ 981.481 Interest and late payment charges.

(a) Pursuant to § 981.481, the Board shall impose an interest charge on any handler whose assessment payment has not been received in the Board’s office, or the envelope containing the payment legibly postmarked by the U.S. Postal Service, within 30 days of the invoice date shown on the handler’s statement. The interest charge shall be a rate of one and one half percent per month and shall be applied to the unpaid assessment balance for the number of days all or any part of the unpaid balance is delinquent beyond the 30 day payment period.

(b) In addition to the interest charge specified in paragraph (a) of this section, the Board shall impose a late payment charge on any handler whose payment has not been received in the Board’s office, or the envelope containing the payment legibly postmarked by the U.S. Postal Service, within 60 days of the invoice date. The late payment charge shall be 10 percent of the unpaid balance.

§ 982.18 Board.

Board means the Hazelnut Marketing Board established pursuant to § 982.30.

§ 982.19 Disappearance.

Disappearance means the difference between orchard-run production and the available supply of merchantable hazelnuts and merchantable equivalent of shelled hazelnuts.

§ 982.20 Part and subpart.

Part means the order, as amended, regulating the handling of hazelnuts grown in Oregon and Washington, and all rules, regulations, and supplementary orders issued thereunder. This order, as amended, regulating the handling of hazelnuts grown in Oregon and Washington shall be a subpart of such part.

HAZELNUT CONTROL BOARD

§ 982.30 Establishment and membership.

(a) There is hereby established a Hazelnut Marketing Board consisting of 10 members, each of whom shall have an alternate member, to administer the terms and provisions of this part. Each member and alternate shall meet the same eligibility qualifications. The 10 member positions shall be allocated as follows:

(b) Four of the members shall represent handlers, as follows: (1) One member shall be nominated by the handler who handled the largest volume of hazelnuts during the two marketing years preceding the marketing year in which nominations are made;

(2) One member shall be nominated by the handler who handled the second largest volume of hazelnuts during the two marketing years preceding the marketing year in which nominations are made;

(3) One member shall be nominated by the handler who handled the third largest volume of hazelnuts during the two marketing years preceding the marketing year in which nominations are made;

(4) The fourth handler member shall be nominated by and represent all other handlers.

(c) Five members shall represent growers and shall be nominated for the districts designated in or established pursuant to § 982.31. One grower member shall represent each of the five
§ 982.31 Grower districts.

(a) For the purpose of nominating grower members and alternate members, the following districts within the production area are hereby established:

1. District 1—The State of Washington, and Clackamas and Multnomah Counties in Oregon.
2. District 2—Marion and Polk Counties in Oregon.
3. District 3—Linn, Lane, and Benton Counties in Oregon.
4. District 4—Yamhill County in Oregon.
5. District 5—All other Oregon counties within the production area.

(b) The Secretary, upon the recommendation of the Board, may reestablish districts within the production area and may reapportion grower membership among the various districts: Provided, That in recommending any such changes, the Board shall give consideration to (1) the relative importance of production in each district and the number of growers in each district; (2) the geographic location of districts as they would affect the efficiency of administering this part; and (3) other relevant factors.

§ 982.32 Initial members and nomination of successor members.

(a) Members and alternate members of the Board serving immediately prior to the effective date of this amended subpart shall continue to serve on the Board until their respective successors have been selected.

(b) Nominations for successor handler members and alternate members specified in §982.30(b) (1) through (3) shall be made by the largest, second largest, and third largest handler determined according to the tonnage of certified merchantable hazelnuts and, when shelled hazelnut grade and size regulations are in effect, the inshell equivalent of certified shelled hazelnuts (computed to the nearest whole ton) recorded by the Board as handled by each handler during the two marketing years preceding the marketing year in which nominations are made.

(c) Nominations for successor grower member and alternate grower member positions specified in §982.30(b)(4) shall be made by the handlers in that category by mail ballot. All votes cast shall be weighted according to the tonnage of certified merchantable hazelnuts and, when shelled hazelnut grade and size regulations are in effect, the inshell equivalent of certified shelled hazelnuts (computed to the nearest whole ton) recorded by the Board as handled by each handler during the two marketing years preceding the marketing year in which nominations are made. If less than one ton is recorded for any such handler, the vote shall be weighted as one ton. Voting will be by position, and each eligible handler can vote for a member and an alternate member. The person receiving the highest number of weighted votes for each position shall be the nominee for that respective position.

(d) For the purpose of nominating and voting for handler members and alternates, the tonnage of hazelnuts shall be credited to the handler responsible under the order for the payment of assessments of those hazelnuts.

(e) Nominees to successor grower member and alternate member positions shall be submitted to the Secretary after the Board conducts balloting of growers, or officers or employees of growers, in the grower districts according to the following procedure: Names of the candidates to be shown on the ballot for a particular district may be submitted to the Board on petitions signed by not less than 10 growers on record with the Board in that district; each grower may sign only as many petitions as there are persons to be nominated within that district. If such petitions fail to result in submission of at least two
names for a district, the Board shall request County Agricultural Extension Agents in that district to recommend one or more eligible growers to be included on the ballot. Ballots, accompanied by the names of all such candidates, with spaces to indicate voters' choices and spaces for write-in candidates, together with voting instructions, shall be mailed to all growers who are on record with the Board. The person receiving the highest number of votes shall be the member nominee for that district, and the person receiving the second highest number of votes shall be the alternate member. The Board shall recommend one candidate in case of a tie vote.

(f) Nominations received in the foregoing manner by the Board for all handler and grower member and alternate member positions shall be certified and sent to the Secretary at least 60 days prior to the beginning of each two-year term of office, together with all necessary data and other information deemed by the Board to be pertinent or requested by the Secretary. If nominations are not made within the time and manner specified in this subpart, the Secretary may, without regard to nominations, select the Board members and alternates on the basis of the representation provided for in this subpart.

(g) The members of the Board shall nominate the public member and alternate public member at the first meeting following the selection of members for a new term of office.

(h) The Board with the approval of the Secretary shall issue rules and regulations necessary to carry out the provisions of this section or to change the procedures in this section in the event they are no longer practical.

§ 982.34 Qualification.

(a) Any person prior to selection as a member or an alternate member of the Board shall qualify by filing with the Secretary a written acceptance of willingness to serve on the Board.

(b) Each grower member and alternate shall be, at the time of selection and during the term of office, a grower or an officer, employee, or agent of a grower in the district for which nominated.

(c) Each handler member and alternate shall be, at the time of selection and during the term of office, a handler or an officer.

(d) Any member or alternate member who at the time of selection was a member (or employed by or an agent of a member) of the group which nominated that person shall, upon ceasing to be such, become disqualified to serve further and that position shall be deemed vacant. In the event any grower member or alternate member of the Board handles hazelnuts produced by other growers or becomes an employee or agent of a handler, that person shall be disqualified to continue to serve on the Board in that capacity.

(e) No person nominated to serve as a public member or alternate member shall have a financial interest in any hazelnut growing or handling operation.
§ 982.35 Vacancy.

To fill any vacancy occasioned by the death, removal, resignation, or disqualification of any member or alternate of the Board, a successor for his unexpired term shall be nominated and selected in the manner provided in §§982.32 and 982.33, so far as applicable, unless selection is deemed unnecessary by the Secretary.

§ 982.36 Alternates.

An alternate for a member of the Board shall act in the place of the member during such member’s absence or, upon the member’s death, removal, resignation, or disqualification, until a successor for that member’s term has been selected and has qualified.

§ 982.37 Procedure.

(a) Seven members of the Board shall constitute a quorum at an assembled meeting of the Board, and any action of the Board shall require the concurring vote of at least six members. At any assembled meeting, all votes shall be cast in person.

(b) The Board may vote by mail, telephone, telegraph, or other means of communication: Provided, That any votes (except mail votes) so cast shall be confirmed at the next regularly scheduled meeting. When any proposition is submitted for voting by any such method, its adoption shall require 10 concurring votes.

(c) The members of the Board and their alternates shall serve without compensation, but members and alternates acting as members shall be allowed their necessary expenses: Provided, That the Board may request the attendance of one or more alternates not acting as members at any meeting of the Board, and such alternates may be allowed their necessary expenses.

§ 982.38 Powers.

The Board shall have the following powers:

(a) To administer the provisions of this subpart in accordance with its terms;

(b) To make rules and regulations to effectuate the terms and provisions of this subpart;

(c) To receive, investigate, and report to the Secretary complaints of violations of this subpart;

(d) To recommend to the Secretary amendments to this subpart.

§ 982.39 Duties.

The Board shall have among others the following duties:

(a) To select from among its members such officers and adopt rules or bylaws for the conduct of its meetings as it deems advisable;

(b) To act as intermediary between the Secretary and any handler or grower;

(c) To keep minute books and records which will clearly reflect all of its acts and transactions, and such books and records shall be available for examination by the Secretary at any time;

(d) To furnish to the Secretary such available information as he may request;

(e) To appoint such employees as it deems necessary and determine the salaries, define the duties and fix the bonds of such employees;

(f) To cause the books of the Board to be audited by one or more public accountants approved by the Board at least once for each marketing year and at such other times as the Board deems necessary or as the Secretary may request, and to file with the Secretary reports of all audits made;

(g) To investigate the growing, shipping and marketing conditions with respect to hazelnuts, and assemble data in connection therewith;

(h) To give the Secretary the same notice of the meetings of the Board as is given to its members; and

(i) To furnish to the Secretary a report of the proceedings of each meeting of the Board held for the purpose of
Agricultural Marketing Service, USDA

§ 982.40 Marketing policy and volume regulation.

(a) General. As provided in this section, prior to September 20 of each marketing year, the Board may hold meetings for the purpose of computing its marketing policy for that year and shall do so for the purpose of submitting any recommendations on its policy to the Secretary. The Board may designate one of its employees to compute and announce the preliminary computed free and restricted percentages.

(b) Inshell trade demand. If the Board determines that volume regulation would tend to effectuate the declared policy of the act, it shall compute and announce an inshell trade demand for that year prior to September 20. The inshell trade demand shall equal the average of the preceding three years’ trade acquisitions of inshell hazelnuts: Provided, That the Board may increase such average by no more than 25 percent if market conditions justify such an increase. If the trade acquisitions during any or all of these years were abnormal because of crop or marketing conditions, the Board may use a prior year or years in determining the three-year average.

(c) Inshell allocation. (1) Preliminary computed percentages. Prior to September 20 of a marketing year, the Board shall compute and announce preliminary computed free and restricted percentages for that year, to release 80 percent of the inshell trade demand for that year. The preliminary computed free percentage shall be computed by multiplying that trade demand, adjusted by the declared carryin, by 80 percent, and by dividing that amount by the Board’s estimate of orchard-run production less the average disappearance during the preceding three years, plus the undeclared carryin. The difference between 100 percent and the preliminary free percentage shall be the preliminary computed restricted percentage. At the same time, the Board may announce the portion of the restricted supply that may be shelled or exported, and the remainder of that supply to be disposed of in outlets approved by the Board pursuant to §982.52.

(2) Interim final and final percentages. On or before November 15, the Board shall meet to recommend to the Secretary the interim final and final free and restricted percentages, including the portion of the restricted supply that may be shelled or exported. The interim final percentages shall release 100 percent of the inshell trade demand previously computed by the Board for the marketing year. The final free and restricted percentages may release an additional 15 percent of the average of the preceding three years’ trade acquisitions of inshell hazelnuts for desirable carryout. If the trade acquisitions during any or all of these years were abnormal, the Board may use a prior year or years in determining this three-year average. The final free and restricted percentages shall become effective 30 days prior to the end of the marketing year, or earlier as may be recommended by the Board and approved by the Secretary. The recommendations to the Secretary shall include the following:

(i) The estimated tonnage of merchantable hazelnuts expected to be produced during the marketing year.

(ii) The estimated tonnage of inshell hazelnut held by handlers on the first day of the marketing year which may be available for handling as inshell hazelnuts thereafter.

(iii) Any other pertinent factors bearing on the marketing of hazelnuts during the marketing year.

Whenever the Secretary finds, on the basis of the recommendation of the Board or other available information that, to establish the interim final and final free and restricted percentages would tend to effectuate the declared policy of the act, the Secretary shall establish such percentages.

(d) Grade and size regulations. Prior to September 20, the Board may consider grade and size regulations in effect and may recommend modifications thereof to the Secretary.

(e) Revision of marketing policy. At any time prior to February 15 of the
marketing year, the Board may recommend to the Secretary revisions in the marketing policy for that year: Provided, That in no event shall any such recommendation provide for free and restricted percentages based on an inshell trade demand which is more than 125 percent of the average of the preceding three years’ trade acquisitions computed pursuant to paragraph (b) of this section for that marketing year. At any time during the period December 1 through February 10 at the request of two or more handlers, who during the preceding marketing year handled at least 10 percent of all hazelnuts handled, the Board shall meet to determine whether the marketing policy should be revised.

§ 982.41 Free and restricted percentages.
The free and restricted percentages computed by the Board or established by the Secretary pursuant to §982.40 shall apply to all merchantable hazelnuts handled during the current marketing year. Until the preliminary computed free and restricted percentages are computed by the Board for the current marketing year, the percentages in effect at the end of the previous marketing year shall be applicable.

GRADE AND SIZE REGULATION

§ 982.45 Establishment of grade and size regulations.

(a) Minimum standards. No handler shall handle any inshell or shelled hazelnuts unless such inshell hazelnuts meet requirements of Oregon No. 1 grade and medium size (as defined in the Oregon Grade Standards Hazelnuts In Shell), and such shelled hazelnuts meet such requirements as are established by the Secretary on the basis of a recommendation of the Board, except as may be otherwise provided in §982.57. These minimum standards may be modified by the Secretary on the basis of a recommendation of the Board or other information whenever he finds that such modification would tend to effectuate the declared policy of the act. Such minimum standards and the provisions of this part relating to the administration thereof shall continue in effect irrespective of whether the season average price of hazelnuts is above the parity level specified in section 2(1) of the act.

(b) Additional grade and size regulations. When the season average price of hazelnuts is not determined to be above parity, the Secretary may establish additional grade and size regulations for inshell hazelnuts in the form of a more restrictive minimum standard than that specified in paragraph (a) of this section, or pack specifications as to grades and sizes that may be handled, if he finds, on the basis of a recommendation of the Board or other information, that such regulations would tend to effectuate the declared policy of the act.

§ 982.46 Inspection and certification.

(a) Before or upon handling any hazelnuts, or before any inshell or shelled hazelnuts are credited (under §§982.50 or 982.51) in satisfaction of a restricted obligation, each handler shall, at his own expense, cause such hazelnuts to be inspected and certified by the Federal-State Inspection Service as meeting the then effective grade and size regulations or, if inshell or shelled hazelnuts are withheld under §982.51, the applicable requirements specified in that section. The handler obtaining such inspection of hazelnuts shall cause a copy of the certificate issued by such inspection service applicable to such hazelnuts to be furnished to the Board.

(b) All hazelnuts so inspected and certified shall be identified as prescribed by the Board. Such identification shall be affixed to the hazelnut containers by the handler under direction and supervision of the Board or the Federal-State Inspection Service, and shall not be removed or altered by any person except as directed by the Board.

(c) Whenever the Board determines that the length of time in storage and conditions of storage of any lot of certified merchantable hazelnuts have been or are such as to normally cause
deterioration, it may require that such lot of hazelnuts be reinspected at the handler's expense prior to handling.

[40 FR 53227, Nov. 17, 1975, as amended at 61 FR 17560, Apr. 22, 1996]

CONTROL OF DISTRIBUTION

§ 982.50 Restricted obligation.

(a) No handler shall handle inshell hazelnuts unless prior to or upon shipment thereof, he: (1) Has withheld from handling a quantity, by weight, of certified merchantable hazelnuts determined by dividing the quantity handled, or to be handled, by the applicable free percentage and multiplying the quotient by the restricted percentage; (2) has withheld from handling an equivalent quantity of creditable ungraded inshell hazelnuts under §982.51(a); or (3) has under §982.51(b), declared in lieu of a quantity of certified merchantable hazelnuts, under paragraph (a)(1) of this section, the equivalent quantity, by weight as determined under that section, of shelled hazelnuts certified as meeting the standards in effect for Oregon No. 1 grade for shelled hazelnuts as contained in Oregon Grade Standards for Hazelnut Kernels or such other standards as may be recommended by the Board and established by the Secretary. Any handler who intends to withhold shelled hazelnuts in satisfaction of a restricted obligation must make such declaration to the Board prior to shelling any such hazelnuts. Withholding may be temporarily deferred under the bonding provisions in §982.54. The quantity of hazelnuts required to be withheld shall be the restricted obligation. Certified merchantable hazelnuts handled in accordance with this subpart shall be deemed to be the handler's quota fixed by the Secretary within the meaning of section 8a(5) of the Act.

(b) Inshell hazelnuts withheld by a handler in satisfaction of his restricted obligation shall not be handled and shall be held by him subject to examination by and accounting control of, the Board until disposed of pursuant to this part.

(c) A handler having certified merchantable hazelnuts which have not been handled at the end of a marketing year may elect to have those hazelnuts bear the restricted and assessment obligations of that year or of the marketing year in which handled. The Board shall establish such procedures as are necessary to facilitate the administration of this option among handlers.

(d) Whenever the restricted percentage for a marketing year is reduced, each handler's restricted obligation shall be reduced to conform with the new restricted percentage. Any handler who, upon such reduction, is withholding restricted hazelnuts in excess of his new restricted obligation may have the excess freed from withholding by complying with such procedures as the Board may require to insure identification of the remaining hazelnuts withheld.

[40 FR 53227, Nov. 17, 1975, as amended at 46 FR 26039, May 11, 1981]

§ 982.51 Restricted credit for ungraded inshell hazelnuts and for shelled hazelnuts.

(a) A handler may withhold ungraded inshell hazelnuts in lieu of certified merchantable hazelnuts in satisfaction of that handler's restricted obligations, and the weight on which credit may be received shall be the shelled hazelnut equivalent weight as inspected by the Federal-State Inspection Service multiplied by 2.5. Any lot of ungraded hazelnuts not meeting the moisture requirements for certified merchantable hazelnuts shall not be eligible for credit. All determinations as to the shelled hazelnut equivalent weight shall be made by the Federal-State Inspection Service at the handler's expense. Hazelnuts so withheld shall be subject to the applicable requirements of §982.50. The weight of all such lots for which a handler has received credit shall be adjusted by the Board when the lots are handled or disposed of so that the creditable weight is equal to the amount of certified merchantable inshell hazelnuts or certified shelled hazelnuts that are subsequently handled or disposed of from those lots. If this adjustment causes the handler to no longer be in satisfaction of that handler's restricted obligation as required by §982.50, the deficiency shall be satisfied in the subsequent marketing year. If this adjustment results in a handler disposing of,
in restricted outlets, a quantity in excess of that handler's restricted obligation, such excess shall not be credited to such handler's restricted obligation during the subsequent marketing year.

(b) A handler may withhold, in accordance with §982.50(a), certified shelled hazelnuts in lieu of merchantable hazelnuts in satisfaction of such handler's restricted obligation, subject to such terms and conditions as are recommended by the Board and established by the Secretary. The inshell equivalent of such hazelnuts shall be determined by multiplying the weight of the shelled hazelnuts by 2.5.

(c) The Secretary upon recommendation of the Board and other available data may modify these procedures, change the conversion factors, and specify factors for conversion for different varieties of hazelnuts.

§ 982.52 Disposition of restricted hazelnuts.

Hazelnuts withheld from handling as inshell hazelnuts pursuant to §§982.50 and 982.51 may be disposed of as follows:

(a) Shelling. Any handler may dispose of such hazelnuts by shelling them under the direction or supervision of the Board or by delivering them to an authorized sheller. Any person who desires to become an authorized sheller in any marketing year may submit written application during such year to the Board. Such application shall be granted only upon condition that the applicant agrees:

1. To use such restricted hazelnuts as he may receive for no purpose other than shelling;
2. To dispose of or deliver such restricted hazelnuts, as inshell hazelnuts, to no one other than another authorized sheller;
3. To comply fully with all laws and regulations applicable to shelling of hazelnuts; and
4. To make such reports, certified to the Board and to the Secretary as to their correctness, as the Board may require.

(b) Export. Sales of certified merchantable restricted hazelnuts for shipment to destinations outside the continental United States and such other distribution areas as may be recommended by the Board and established by the Secretary shall be made only by the Board. Any handler desiring to export any part or all of that handler's certified merchantable restricted hazelnuts shall deliver to the Board the certified merchantable restricted hazelnuts to be exported, but the Board shall be obligated to sell in export only such quantities for which it may be able to find satisfactory export outlets. Any hazelnuts so delivered for export which the Board is unable to export shall be returned to the handler delivering them. Sales for export shall be made by the Board only on execution of an agreement to prevent exportation into the area designated in §982.16. A handler may be permitted to act as an agent of the Board, upon such terms and conditions as the Board may specify, in negotiating export sales, and when so acting shall be entitled to receive a selling commission as authorized by the Board. The proceeds of all export sales, after deducting all expenses actually and necessarily incurred, shall be paid to the handler whose certified merchantable restricted hazelnuts are so sold by the Board.

(c) Other outlets. In addition to the dispositions authorized in paragraphs (a) and (b) of this section, the Board may designate such other outlets into which such hazelnuts may be disposed which it determines are noncompetitive with normal market outlets for inshell hazelnuts. Such dispositions shall be made under the direction or supervision of the Board.

(d) Restricted credits. During any marketing year, handlers who dispose of a quantity of eligible hazelnuts in restricted outlets in excess of their restricted obligations, may transfer such excess credits to another handler or handlers. Upon a handler’s written request to the Board during a marketing year, the Board shall transfer any or all of such excess restricted credits to such other handler or handlers that the handler may designate. The Board, with the approval of the Secretary, shall establish rules and regulations
§ 982.53 Substandard hazelnuts.

The Board shall, with the approval of the Secretary, establish such reporting and disposition procedures as it deems necessary to insure that hazelnuts which do not meet the effective inshell or shelled hazelnut minimum standards do not enter normal market outlets for certified hazelnuts.

§ 982.54 Deferment of restricted obligation.

(a) Bonding. Compliance by any handler with the requirements of §982.50 when restricted hazelnuts may be withheld shall be temporarily deferred to any date requested by the handler, but not later than 60 days prior to the end of the marketing year. Such deferment shall be conditioned upon the voluntary execution and delivery by the handler to the Board of a written undertaking before beginning to handle merchantable hazelnuts during the marketing year. Such written undertaking shall be secured by a bond or bonds with a surety or sureties acceptable to the Board that on or prior to such date the handler will have fully satisfied the restricted obligation required by §982.50, subject to any adjustment pursuant to §982.51.

(b) Bonding requirement. Such bond or bonds shall, at all times during their effective period, be in such amounts that the aggregate thereof shall be no less than the total bonding value of the handler’s deferred restricted obligation. The bonding value shall be the deferred restricted obligation poundage multiplied by the applicable bonding rate. The cost of such bond or bonds shall be borne by the handler filing same.

(c) Bonding rate. Said bonding rate shall be an amount per pound as established by the Board. Such bonding rate shall be based on the estimated value of restricted credits for the current marketing year. Until bonding rates for a marketing year are fixed, the rates in effect for the preceding marketing year shall continue in effect.

The Board should make any necessary adjustments once such new rates are fixed.

(d) Restricted credit purchases. Any sums collected through default of a handler on the handler’s bond shall be used by the Board to purchase restricted credits from handlers, who have such restricted credits in excess of their needs, and are willing to part with them. The Board shall at all times purchase the lowest priced restricted credits offered, and the purchases shall be made from the various handlers as nearly as practicable in proportion to the quantity of their respective offerings of the restricted credits to be purchased.

(e) Unexpended sums. Any unexpended sums which have been collected by the Board through default of a handler on the handler’s bond, remaining in the possession of the Board at the end of a marketing year, shall be used to reimburse the Board for its expenses, including administrative and other costs incurred in the collection of such sums, and in the purchase of restricted credits as provided in paragraph (d) of this section.

(f) Transfer of restricted credit purchases. Restricted credits purchased as provided for in this section shall be turned over to those handlers who have defaulted on their bonds for liquidation of their restricted obligation. The quantity delivered to each handler shall be that quantity represented by sums collected through default.

(g) Collection upon bonds. Collection upon any defaulted bond shall be deemed a satisfaction of the restricted obligation represented by the collection.

§ 982.55 Exchange of certified merchantable hazelnuts withheld.

Any handler who has withheld from handling certified merchantable hazelnuts pursuant to the requirements of §982.50 may exchange therefor an equal quantity, by weight, of other certified merchantable hazelnuts. Any such exchange shall be made under the direction or supervision of the Board.
§ 982.56 Interhandler transfers.

Within the area of production, interhandler transfers of hazelnuts may be made as follows:

(a) Uncertified inshell hazelnuts may be sold or delivered by one handler to another for packing or shelling, and the receiving handler shall be responsible for compliance with the regulations effective pursuant to this part with respect to such hazelnuts.

(b) Restricted hazelnuts withheld by a handler may be sold or delivered to another handler for shelling, export, or other authorized outlet subject to the disposition requirements set forth in § 982.52.

(c) Certified hazelnuts other than restricted hazelnuts may be sold or delivered by one handler to another and the transferring handler shall be responsible for compliance with the requirements effective pursuant to this part, unless specified and agreed upon in writing by both handlers that the receiving handler shall be responsible for such compliance and a copy of such agreement is furnished to the Board.

(d) The Board, with the approval of the Secretary, shall establish procedures, including necessary reports, for such transfers.

§ 982.57 Exemptions.

(a) General. The Board, with the approval of the Secretary, may establish such rules, regulations, and safeguards that exempt from any or all requirements pursuant to this part such quantities of hazelnuts or types of shipments as do not interfere with the volume and quality control objectives of this part, and shall require such reports, certifications, or other conditions as are necessary to ensure that such hazelnuts are handled or used only as authorized.

(b) Sales by growers direct to consumers. Any hazelnut grower may sell hazelnuts of such grower’s own production free of the regulatory and assessment provisions of this part if such grower sells such hazelnuts in the area of production directly to end users at such grower’s ranch or orchard or at roadside stands and farmers’ markets. The Board, with the approval of the Secretary, may establish such rules, regulations, and safeguards and require such reports, certifications, and other conditions, as are necessary to ensure that such hazelnuts are disposed of only as authorized. Mail order sales are not exempt sales under this part.

MARKET DEVELOPMENT

§ 982.58 Research, promotion, and market development.

(a) General. The Board, with the approval of the Secretary, may establish or provide for the establishment of projects involving production research, marketing research and development, and marketing promotion, including paid advertising, designed to assist, improve, or promote the marketing, distribution, consumption, or efficient production of hazelnuts. The Board may also provide for crediting the pro rata expense assessment obligations of a handler with such portion of such handler’s direct expenditures for such marketing promotion including paid advertising as may be authorized. The expenses of such projects shall be paid from funds collected pursuant to § 982.61, § 982.63, or credited pursuant to paragraph (b) of this section.

(b) Creditable expenditures. The Board, with the approval of the Secretary, may provide for crediting all or any portion of a handler’s direct expenditures for marketing promotion including paid advertising, that promotes the sale of hazelnuts, hazelnut products, or their uses. No handler shall receive credit for any allowable direct expenditures that would exceed the total of the handler’s assessment obligation which is attributable to that portion of the handler’s assessment designated for marketing promotion including paid advertising.

(c) Rules and regulations. Before any projects involving marketing promotion, including paid advertising and the crediting of the pro rata expense assessment obligation of handlers is undertaken pursuant to this section, the Secretary, after recommendation
by the Board, shall prescribe appropriate rules and regulations as are necessary to effectively administer such projects.

EXPENSES AND ASSESSMENTS

§ 982.60 Expenses.

The Board is authorized to incur such expenses including maintenance of an operating reserve fund as the Secretary may find are reasonable and likely to be incurred by it during each marketing year, for the maintenance and functioning of the Board and for such purposes as the Secretary may, pursuant to the provisions of this subpart, determine to be appropriate. The recommendation of the Board as to the expenses and size of the operating reserve for each such marketing year, together with all data supporting such recommendations, shall be submitted to the Secretary at the beginning of the fiscal year in connection with which such recommendation is made. The funds to cover such expenses shall be acquired by levying assessments as provided in §982.61.

§ 982.61 Assessments.

(a) For each marketing year, the Secretary shall fix an assessment rate per pound of hazelnuts handled and withheld, including the creditable weight of ungraded restricted hazelnuts withheld pursuant to §982.51 and, when subject to regulation pursuant to §982.45, the inshell equivalent of shelled hazelnuts certified which are produced from other than restricted hazelnuts that will provide sufficient funds to meet the authorized expenses and reserve requirements of the Board. At any time during or after a marketing year when he determines, on the basis of a Board recommendation or other information, that a different rate is necessary, the Secretary may modify the assessment rate and the new rate shall be applicable to all such hazelnuts. Each handler shall pay to the Board on demand, assessments on all such assessable hazelnuts at the rate fixed by the Secretary, less any amounts credited pursuant to §982.58. The Board shall impose a late payment charge on any handler who fails to pay his assessment within the time prescribed by the Board. 1. Well dried and clean;
2. Free from foreign material, mold, rancidity, decay or insect injury; and
3. Free from serious damage caused by serious shriveling, or other means.

Tolerances

In order to allow for variations incident to proper grading and handling the following tolerances, by weight, are permitted as specified:

1. For Foreign Material: 0.02 of one percent, for foreign material.
2. For Defects: Five percent for kernels or portions of kernels which are below the requirements of this grade, including not more than the following: Two percent for mold, rancidity, decay or insect injury; Provided, That not more than one percent shall be for mold, rancidity, or insect injury.

2. Clean means practically free from plainly visible adhering dirt or other foreign material.
3. Foreign material means any substance other than the hazelnut kernels, or portions of kernels. (Loose skins, pellicles or corky tissue which have become separated from the kernels shall not be considered as foreign material, provided that this material does not exceed 0.2 of one percent by weight.)
4. § 982.450 Application of restricted obligation.

(a) Each handler required to withhold restricted hazelnuts pursuant to §982.50 or §982.51 shall hold such hazelnuts separate from all other hazelnuts and shall maintain the identity of each lot so withheld. The restricted product withheld must be reported to the Board on F/H Form 1d, Restricted Inshell Certified.

(b) Each handler making the election pursuant to §982.50(c) in connection with certified merchantable hazelnuts which have not been handled, shall thereupon give written notification to the Board on F/H Form 4 of the particular election and of the weight and identity of the hazelnuts involved.

(c) Pursuant to §982.50(d), a handler may withdraw from withholding restricted hazelnuts in excess of such handler’s restricted obligation upon advising the Board of the weight and lot identity of the hazelnuts to be withdrawn. When the quantity of restricted hazelnuts to be withdrawn consists of a part of a lot of ungraded hazelnuts, no part of such lot shall be withdrawn unless the remainder of such lot is reinspected and meets the requirements of §982.51. Handlers will use F/H Form 1d prior to the end of the marketing year or F/H Form 7 after the end of the marketing year, when reporting the withdrawal of restricted hazelnuts from withholding status.

[54 FR 46720, Nov. 7, 1989]

§ 982.452 Disposition of restricted hazelnuts.

(a) Shelling. (1) Any person desiring to shell restricted hazelnuts during a fiscal year may do so upon being designated by the Board as an authorized sheller for such year. Application for such designation shall be made in duplicate on F/H Form B and include, in addition to the conditions specified in §982.52(a), the following: (i) The location of the applicant’s shelling operation; (ii) the number of years such person has operated a hazelnut shelling plant; and (iii) the daily (8-hour) shelling capacity of the plant. Designation of an authorized sheller shall be effected by the board manager signing the application form and returning a signed copy of the form to the applicant. Each such designation shall continue in effect during the particular fiscal year so long as the authorized sheller is in compliance with the requirements and conditions pursuant to §982.52 applicable to authorized shellers.

(2) When an authorized sheller completes the shelling of a lot of restricted hazelnuts, the sheller shall submit a report thereon to the Board on F/H Form 7 showing: (i) The date shelling was completed; (ii) the inspection certificate or lot number; (iii) the quantity shelled; (iv) the weight of the kernels produced; and (v) the location where restricted hazelnuts were held immediately prior to shelling.

(b) Exports. Any handler who desires to act as agent of the Board in negotiating export sales of certified merchantable restricted hazelnuts may do so upon the execution of an “Export Agreement”, F/H Form A, wherein the handler agrees, among other things, to negotiate such export sales at not less than such price as the Board may prescribe, and in conformity to and compliance with the other terms and conditions of the Export Agreement including those set forth in §982.52(b).

(c) Other authorized outlets. Under the direction or supervision of the Board, a handler may dispose of restricted hazelnuts for charitable purposes and for promoting the consumption of hazelnuts on behalf of the hazelnut industry in general. § 982.453 Disposition of substandard hazelnuts.

The Board shall maintain a list of approved users who are crushers, livestock feed manufacturers, or livestock feeders, and of the locations of the facilities to which substandard hazelnuts may be shipped. Users interested in purchasing substandard hazelnuts or hazelnut waste must make prior application to the Board on F/H Form D to be included on the approved list of such users. Each handler who disposes of substandard hazelnuts to an approved user shall, upon shipment, report to the Board on F/H Form D1 the quantities disposed of or shipped. Substandard hazelnuts disposed of to an approved user may only be shipped directly to an approved location where the crushing, feed manufacture, or feeding is to take place. The Board may deny approval to any user application, or may remove any user from the approved list when such denial or removal is deemed necessary to ensure control over disposition of substandard hazelnuts. This may occur if the Board determines that substandard hazelnuts are not properly shipped to, or utilized at, approved facilities, in compliance with this requirement. F/H Form D includes the location and description of the disposal facilities to be used as well as a certification to the Board and the Secretary of Agriculture that the applicant will:

(a) Crush, manufacture feed, or feed to livestock such hazelnuts at the location;

(b) Use such hazelnuts for no other purpose than for crushing into oil, manufacturing into livestock feed, or livestock feeding;

(c) Permit such inspection of premises and of hazelnuts received and held, and such examination of books and records covering hazelnut transactions as the Board may require;

(d) Keep a record of receipts, holdings, and use of substandard hazelnuts available for examination by authorized representatives of the Board and the U.S. Department of Agriculture for a period of two years after the end of the marketing year in which the recorded transactions are completed; and

As a condition of accepting any surety, the Board may require such financial statements or other information relating to the ability of such surety to guarantee a handler’s bond as it deems necessary. Handlers are also required to submit F/H Form C to the Board to document the handler’s execution of a bond.

All reports shall be submitted to include transactions through the end of each month, or other reporting periods established by the Board, and are due in the Board office on the tenth day following the end of the reporting period. The quantities of inshell hazelnuts handled shall be reported by size. The Board may deny approval to any applicant or remove any approved crusher, feed manufacturer, or feeder from the list when such denial or removal is deemed necessary to insure control of substandard walnut disposition or the Board determines that substandard walnuts are not shipped to such facilities. Substandard walnuts disposed of to an approved crusher, livestock feed manufacturer, or livestock feeder, may only be shipped directly to an approved location where the crushing, feed manufacture, or feeding is to take place. Applications for approval to crush, manufacture livestock feed, or feed substandard walnuts shall be submitted to the Board on a form prescribed by the Board and which includes the location and a description of the disposal facilities to be used and a certification to the Board and the Secretary of Agriculture that the applicant will:

(1) Crush, manufacture feed, or feed such walnuts at the location;
(2) Use such walnuts for no other purpose than for crushing into oil, manufacturing into livestock feed, or livestock feeding;
(3) Permit such inspection of his premises and of walnuts received and held by him, and such examination of his books and records covering walnut transactions as the Board may require;
(4) Keep a record of his receipts, holdings, and use of substandard walnuts available for examination by authorized representatives of the Board and the U.S. Department of Agriculture for a period of two years after the end of the marketing year in which the recorded transactions are completed; and
(5) Make such reports, certified to the Board and the Secretary as to their correctness, as the Board may require.

(c) Each handler who disposes of substandard walnuts to an approved crusher, livestock feed manufacturer or livestock feeder shall upon shipment report to the Board on WMB Form No. 20, the quantities disposed of or shipped.

RESEARCH

§ 985.31 Research and development projects.

The Committee, with the approval of the Secretary, may establish or provide for the establishment of production research, marketing research and development projects designed to assist, improve, or promote the marketing, distribution and consumption or efficient production of oil. The Committee shall consider ongoing research, by industry and grower organizations, in making its recommendations. The expense of such projects shall be paid from funds collected pursuant to §985.41.

EXPENSES AND ASSESSMENTS

§ 985.40 Expenses.

The Committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it for such purposes as the Secretary may, pursuant to this subpart, determine to be appropriate, and for the maintenance and functioning of the Committee during each marketing year. The Committee shall submit to the Secretary a budget for each marketing year, including an explanation of the items appearing therein, and a recommendation as to the rate of assessment for such year.

§ 985.41 Assessments.

(a) Requirements for payment. Each person who first handles salable oil shall pay to the Committee, upon demand, that handler’s pro rata share of the expenses authorized by the Secretary for each marketing year. Each handler’s pro rata share shall be the rate of assessment fixed by the Secretary times the quantity of oil which
the handler handles as the first handler thereof. The payment of assessments for the maintenance and functioning of the Committee and for such purposes as the Secretary may, pursuant to this subpart, determine to be appropriate, may be required under this part throughout the period it is in effect, irrespective of whether particular provisions thereof are suspended or become inoperative.

(b) Rate of assessment. The Secretary shall fix the rate of assessment to be paid by each handler. At any time during or after the marketing year, the Secretary may increase the rate of assessment as necessary to cover authorized expenses. Such increase shall be applied to all oil handled during the applicable marketing year. In order to provide funds for the administration of this part before sufficient operating income is available from assessments, the Committee may accept advance assessments and may also borrow money for such purpose. Advance assessments received from a handler shall be credited toward assessments levied against the handler during the marketing year.

§ 985.42 Accounting.

(a) Excess funds. At the end of a marketing year, funds in excess of the year’s expenses may be placed in an operating reserve not to exceed approximately one marketing year’s operational expenses or such lower limits as the Committee, with the approval of the Secretary, may establish. Funds in such reserve shall be available for use by the Committee for expenses authorized pursuant to §985.40. Funds in excess of those placed in the operating reserve shall be refunded to handlers: Provided, That any sum paid by a first handler in excess of that handler’s pro rata share of the expenses during any marketing year may be applied by the Committee at the end of such marketing year to any outstanding obligations due the Committee from such person. Each handler’s share of such excess funds shall be the amount of assessments paid in excess of that handler’s pro rata share.

(b) Disposition of funds upon termination of order. Upon termination of this part, any funds not required to defray the necessary expenses of liquidation shall be disposed of in such manner as the Secretary may determine to be appropriate: Provided, That to the extent practicable, such funds will be returned pro rata to the first handler from whom such funds were collected.

VOLUME LIMITATIONS

§ 985.50 Marketing policy.

(a) The Committee shall meet on or before January 15 of each year to adopt a marketing policy for the ensuing marketing year or years. As soon as is practical following the meeting or meetings, the Committee shall submit to the Secretary recommendations for volume regulations deemed necessary to meet market requirements and establish orderly marketing conditions. Additional reports shall be submitted to the Secretary of the Committee subsequently adopts a new or revised policy because of changes in the demand and supply situation with respect to the various classes of oil.

(b) In determining such marketing policy, Committee consideration shall include but not be limited to:

(1) The estimated quantity of salable oil of each class held by producers and handlers;

(2) The estimated demand for each class of oil;

(3) Prospective production of each class of oil;

(4) Total of allotment bases of each class of oil for the current marketing year and the estimated total of allotment bases of each class for the ensuing marketing year;

(5) The quantity of reserve oil, by class, in storage;

(6) Producer prices of oil, including prices for each class of oil;

(7) General market conditions for each class of oil, including whether the estimated season average price to producers is likely to exceed parity.

(c) Notice of the marketing policy recommendations for a marketing year and any later changes shall be announced publicly by the Committee, and be submitted promptly to the Secretary and all producers and handlers. The Committee shall publicly announce its marketing policy or revision thereof and notice thereof shall be submitted to producers and
handlers by bulletins or through appropriate media.

(d) As soon as practicable following the effective date of this subpart and the organization of the Committee, the Committee may adopt a marketing policy for the 1980-81 marketing year.

§ 985.51 Recommendations for volume regulation.

(a) If the Committee’s marketing policy considerations indicate a need for limiting the quantity of oil of each class marketed, the Committee shall recommend to the Secretary a salable quantity and allotment percentage for the ensuing marketing year. Such recommendations shall be made prior to February 15, or such other date as the Committee, with the approval of the Secretary, may establish.

(b) At any time during the marketing year for which the Secretary, pursuant to §985.52(a), has established a salable quantity and an allotment percentage for each class of oil, the Committee may recommend to the Secretary that such quantity be increased with an appropriate increase in the allotment percentage. Each such recommendation, together with the Committee’s reason for such recommendation, shall be submitted promptly to the Secretary.

(c) As soon as practical following the effective date of this subpart and the organization of the Committee, the Committee may recommend a salable quantity for the 1980-81 marketing year.

§ 985.52 Issuance of volume regulation.

(a) Whenever the Secretary finds, on the basis of the Committee’s recommendation or other information, that limiting the total quantity of a class of oil of any crop that handlers may purchase from or handle on behalf of producers during a marketing year, would tend to effectuate the declared policy of the act, the Secretary shall establish the salable quantity for that oil.

The salable quantity shall be prorated among producers by applying an allotment percentage to each producer’s allotment base for that class of oil. The allotment percentage shall be established for each class of oil by dividing the salable quantity by the total of all producers’ allotment bases for the same class of oil.

(b) When an allotment percentage for a class of oil is established for any marketing year, no handler shall purchase from or handle on behalf of producers any oil of that class during such year unless:

(1) It is, at the time of handling, within the unused portion of a producer’s annual allotment, and

(2) Such handler notifies the Committee of the handling in such manner as it may prescribe.

§ 985.53 Allotment base.

(a) Initial issuance. Each producer desiring an allotment base for one or more classes of oil shall register with the Committee and furnish to it, on forms provided by the Committee, a report of the number of pounds of each class of oil sold during each of the marketing years of 1977, of 1978, and of 1979, which is the representative base period, and the number of pounds of each class of oil currently available for sale and the location of such oil, the name and address of each handler, the quantity of oil by class sold to each handler, the acreage and location of each year’s production of spearmint, and any additional information requested by the Committee. A producer who has changed or changes identity from an individual producer to a partnership or corporate producer, or from a partnership to a corporate or individual producer, or from a corporate to a partnership or individual producer, may for the purpose of establishing the initial and subsequent allotment base, register with the Committee as one and the same person.

(b)(1) Initially, the allotment base for each class of oil shall be established by the Committee for each registered producer, at the option of such producer, as follows:

(i) The average annual number of pounds of oil of that class sold during any two marketing years of the representative base period; or

(ii) The average annual number of pounds of that class of oil sold during the representative period plus 331/3 percent of oil of that class currently available for sale; or
(iii) The quantity of that class of oil sold during the 1979 marketing year, plus the quantity of that class of oil currently available for sale.

(2) If a producer has spearmint planted by February 27, 1979, but has no sales history during the representative period, the producer’s allotment base shall be established by multiplying its acreage to be harvested for spearmint oil by the average amount of oil per acre sold in the allotment base of other producers in the state or area, whichever is more representative, in which the acreage is located. Provided, That, the Committee shall review and adjust these allotment bases in accordance with paragraph (c) of this section on the basis of the producer’s sales of spearmint oil.

(c) Periodically, but at least once every five years, the Committee shall review and adjust each producer’s allotment base to recognize changes and trends in production and demand. Any such adjustment shall be made in accordance with a formula prescribed by the Committee with the approval of the Secretary.

(d)(1) Beginning with the 1982–83 marketing year, the Committee annually shall make additional allotment bases available for each class of oil in the amount of no more than 1 percent of the total allotment base for that class of oil. Fifty percent of these additional allotment bases shall be made available for new producers and 50 percent made available for existing producers.

(2) Any person may apply for an additional allotment base for any class of oil by filing an application with the Committee on or before December 1 of the marketing year preceding the marketing year for which the additional allotment bases will be made available.

(3) The Committee shall, with the approval of the Secretary, establish rules and regulations to be used for determining the distribution of additional allotment bases. In establishing such rules, the Committee shall take into account, among other things, the minimum economic enterprise requirements for oil production, the applicant’s ability to produce oil, the area where the oil will be produced and other economic and marketing factors.

(e) The right to each producer receiving an allotment base, or any legal successor in interest, to retain all or part of an allotment base, shall be dependent on continuance to make a bona fide effort to produce the annual allotment referable thereto and failing to do so, such allotment base shall be reduced by an amount equivalent to such unproduced portions.

Effective Date Note: At 50 FR 41480, Oct. 11, 1985, in §985.53, paragraph (d)(2) was suspended indefinitely.

§985.54 Issuance of annual allotments.

(a) Whenever the Secretary establishes a salable quantity and allotment percentage for a class of oil that may be freely marketed during a marketing year, the Committee shall issue an annual allotment to each producer holding an allotment base for that class of oil. Each producer’s annual allotment for a class of oil shall be determined by multiplying the producer’s allotment base for that class of oil by the applicable allotment percentage.

(b) On or before December 1, the Committee shall furnish each registered holder of an allotment base a form for the producer to apply for an annual allotment for the ensuing marketing year. The Committee, with the approval of the Secretary, shall establish rules and regulations prescribing the information to be submitted on this form. The Committee shall notify each producer of the producer’s annual allotment for each class of oil within 10 days after the Secretary establishes the salable quantity and allotment percentage.

(c) Through 1981, a handler may acquire oil of a producer’s own production to fulfill a written contract entered into by these two persons prior to February 27, 1979. The terms of this contract shall require the producer to deliver to that handler a specified quantity of a class of oil from that producer’s production at a specific price from a specified acreage and produced prior to 1982. The quantity of oil acquired by the handler pursuant to that contract during the 1980-81 or 1981-82 marketing year may exceed the producer’s annual allotment for the applicable marketing year, but shall be
charged against the producer’s annual allotment for that year.

§ 985.55 Identification.
(a) Each producer shall, under supervision of the Committee, identify each class of oil within 15 days following its production, or such other period of time as is recommended by the Committee with the approval of the Secretary. Identification of oil shall be accomplished before its delivery either to a handler for handling as salable oil, or to the Committee or its designees for storage as excess oil.
(b) Identification shall indicate whether the oil is salable or excess oil and include the name of the producer, the class of oil, the net weight, the container number and such other information as may be required by the Committee.
(c) Identification shall be accomplished in accordance with rules and regulations established by the Committee with the approval of the Secretary.
(d) No handler shall handle as salable oil, and the Committee shall not receive as excess oil, any oil that has not been identified as provided in this section, and no person shall alter or remove any identification except when incidental to final disposition.

§ 985.56 Excess oil.
Oil of any class in excess of a producer’s applicable annual allotment shall be identified as excess oil and shall be disposed of as follows:
(a) Before October 15, or such date as the Committee, with the approval of the Secretary, may establish, a producer, following notification of the Committee, may transfer excess oil to another producer to enable that producer to fill a deficiency in that producer’s annual allotment, or
(b) Before November 1, or such other date as the Committee, with the approval of the Secretary, may establish, a producer may notify the Committee of a possible deficiency in the producer’s ensuing year’s production of oil and wishes to use reserve oil from own production to fill the ensuing year’s annual allotment. The Committee shall approve the producer’s request if the oil is still available at the time of the request.
(3) Under supervision of the Committee, a producer may exchange salable oil for the same class and quantity of reserve oil from own production so long as the oil is properly identified.
(4) When the Committee finds that additional oil is needed to fill the normal market demand, it shall offer all or a portion of the reserve oil for sale to handlers. Offers to sell, extension of offers and withdrawal of offers shall be subject to disapproval by the Secretary. The Committee may establish

§ 985.57 Reserve pool requirements.
(a) On November 1, or such other date as the Committee, with the approval of the Secretary may establish, the Committee shall pool identified excess oil as reserve oil in such manner as to accurately account for its receipt, storage, and disposition. The Committee shall store reserve oil for the account of the producer and maintain the identity of the reserve oil by producer’s name, the year produced, the class of oil, and such other identification as may be used in normal commercial trade practices. The Committee shall designate a Committee employee as reserve pool manager.
(b) Disposition.
(1) When, in any marketing year, a producer has produced less than the annual allotment of a class of oil, the producer may, upon notification of the Committee, fill the deficiency with the same class of reserve oil from the producer’s prior production.
(2) Prior to March 15 of any year, or such other date as recommended by the Committee and approved by the Secretary, a producer may notify the Committee of a possible deficiency in the producer’s ensuing year’s production of oil and wishes to use reserve oil from own production to fill the ensuing year’s annual allotment. The Committee shall approve the producer’s request if the oil is still available at the time of the request.
(3) Under supervision of the Committee, a producer may exchange salable oil for the same class and quantity of reserve oil from own production so long as the oil is properly identified.
(4) When the Committee finds that additional oil is needed to fill the normal market demand, it shall offer all or a portion of the reserve oil for sale to handlers. Offers to sell, extension of offers and withdrawal of offers shall be subject to disapproval by the Secretary. The Committee may establish
§ 985.58 Exempt oil.

Oil held by a producer or handler on the effective date of this subpart shall not be regulated under this subpart if reported and identified to the Committee not later than 60 days after that date. Any such oil not reported and identified to the Committee shall be subject to all regulation under this subpart.

§ 985.59 Transfers.

(a) Nothing contained in this part shall prevent a producer from transferring the location where that producer’s annual allotment is produced to another location except that the producer shall report the transfer to the Committee within 30 days after the transfer.

(b) A producer may transfer all or part of an allotment base to another producer under rules and regulations established by the Committee, with the approval of the Secretary: Provided, That the allotment base obtained by transfer from another producer or issued pursuant to §985.53(d)(1) shall not be transferred for at least 2 years following transfer or issuance, and that the person receiving the allotment base submits to the Committee, evidence of an ability to produce and sell oil from such allotment base in the first marketing year following the transfer or issuance of the allotment base.

§ 985.60 Reports.

(a) Inventory. Each handler shall file with the Committee a certified report showing such information as the Committee may specify with respect to any oil which was held by the handler at such times as the Committee may designate.

§ 987.8a  Repacker.

[43 FR 4251, Feb. 1, 1978]
is hereby established to administer the terms and conditions of this part. For each member there shall be an alternate member, and the provisions of this part applicable to the number, nomination, qualification and selection of members shall apply in like manner to alternate members. Three of the members, referred to in this part as “producer members”, shall be producers or officers or employees of producers, and shall not be handlers, or directors, officers, or employees exercising a supervisory or managerial function of a handler. The six remaining members, referred to in this part as “producer-handlers”, shall be selected from (a) handlers, or directors, officers or employees of a handler, or (b) producers who are also handlers or directors, officers or employees exercising a supervisory or managerial function of a handler. The Committee, with the approval of the Secretary, may issue rules and regulations covering matters of eligibility for producer members, or revising the composition of the Committee prescribed in this section if it no longer is representative following a substantial change in the industry.

§ 987.23 Term of office.

The term of office for members and alternate members shall be 2 years beginning August 1, except such term may be shorter if the Committee composition is changed in the interim pursuant to §987.21. Each member and alternate member shall, unless otherwise ordered by the Secretary, continue to serve until his successor has been selected and has qualified.

§ 987.24 Nomination and selection.

(a) Nomination for members and alternate members of the Committee shall be made not later than June 15 of every other year.

(b) Opportunity shall be provided producers and handlers to nominate individuals to serve on the Committee by establishing a day for polling and also for casting absentee ballots. Persons will only be able to vote in nominations for the group in which they would be qualified to serve on the Committee, and shall nominate the applicable number of individuals for the positions prescribed pursuant to §987.21. Each producer, regardless of the number and locations of his date gardens, voting in the nominations for producer members and producer alternate members, shall be entitled to one vote for each member and alternate member position to be filled. The individual receiving the highest number of votes for a position shall be the nominee. Each person voting in the nominations for producer-handler members and producer-handler alternate members, shall be given the opportunity to vote for one member and one alternate member position. His ballot shall be weighted by the pounds of dates he had certified as marketable dates, from the beginning of the then current crop year through April which he produced in his own gardens or acquired from other producers. The individual receiving the highest weighted vote for a producer-handler position shall be the nominee. The Committee, with the approval of the Secretary, may issue rules and regulations on the manner in which nominees for a position may be obtained, polling, balloting, absentee ballots, and the weighting of votes for producer-handler positions when the Committee is restructured during a term of office.

§ 987.25 Qualification.

Each person selected as a member or alternate member of the Committee shall, prior to serving on the Committee, qualify by filing with the Secretary a written acceptance after receiving notice of his selection. Any member or alternate who, at the time of his selection, was a member of or employed by a member of the group which nominated him shall, upon ceasing to be such member or employee, become disqualified to serve further and his position on the Committee shall be deemed vacant.

§ 987.26 Vacancies.

In the event of any vacancy occasioned by the failure to qualify, declination to serve, removal, resignation, disqualification, or death of any person nominated to serve on the Committee, or any member or alternate member
selected by the Secretary, the Committee shall promptly submit its recommendation to the Secretary of a nominee eligible to serve in accordance with the requirements specified for the group in §987.21. If the vacancy is for a member position, the Committee shall recommend appointment of the alternate member if that person is willing to serve in that position. If the Committee’s recommendation is not submitted within 30 calendar days after such vacancy occurs, the Secretary may fill such vacancy without regard to nominations, and the selection shall be made on the basis of representation provided in §987.21.

§ 987.27 Alternates.

An alternate for a member of the Committee shall act in the place and stead of such member during his absence or in the event of his removal, resignation, disqualification, or death, until a successor for such member’s unexpired term has been selected and has qualified. In the event a member and his alternate are unable to attend a meeting of the Committee, such member or alternate, in that order, may designate an alternate from the group he represents to act in his place. If neither a member nor his alternate has designated an alternate as his replacement, or such designated alternate is unable to serve as the replacement, the chairman may, with the concurrence of a majority of the members including alternates acting as members, designate an alternate from such group to act in the place and stead of the absent member.

§ 987.30 Duties.

The Committee shall have, among other things, the following duties:

(d) To recommend to the Secretary amendments to this subpart.

§ 987.28 Expenses.

The members of the Committee shall serve without compensation but shall be allowed their necessary expenses.

§ 987.29 Powers.

The Committee shall have the following powers:

(a) To administer the terms and provisions of this subpart.
(b) To make rules and regulations to effectuate the terms and provisions of this subpart.
(c) To receive, investigate, and report to the Secretary complaints of violations of this subpart, and
(d) To recommend to the Secretary amendments to this subpart.

§ 987.27 Alternates.

An alternate for a member of the Committee shall act in the place and stead of such member during his absence or in the event of his removal, resignation, disqualification, or death, until a successor for such member’s unexpired term has been selected and has qualified. In the event a member and his alternate are unable to attend a meeting of the Committee, such member or alternate, in that order, may designate an alternate from the group he represents to act in his place. If neither a member nor his alternate has designated an alternate as his replacement, or such designated alternate is unable to serve as the replacement, the chairman may, with the concurrence of a majority of the members including alternates acting as members, designate an alternate from such group to act in the place and stead of the absent member.

§ 987.28 Expenses.

The members of the Committee shall serve without compensation but shall be allowed their necessary expenses.

§ 987.29 Powers.

The Committee shall have the following powers:
§ 987.31 Procedure.

(e) The Committee may vote upon any proposition by mail, or telephone when confirmed in writing within 2 weeks, or telegram, upon due notice and full and identical explanation to all members, including alternates acting as members, but any such action shall not be considered valid unless unanimously approved.

(f) If the total number of members of the Committee is changed pursuant to §987.21, the minimum voting requirements shall be in the same ratio to the revised total number of members, as nearly as practicable, as the minimum voting requirements prescribed in paragraph (c) of this section are to nine.

§ 987.39 The establishment of minimum standards.

In order to effectuate the declared policy of the act, all dates handled as marketable dates shall meet the requirements of U.S. Grade C, or if for further processing, U.S. Grade C (Dry) of the effective U.S. Standards for Grades of Dates, 7 CFR 52.1001: Provided, That the Secretary, may upon recommendation of the Committee, prescribe other minimum standards of grades and sizes for marketable dates of any variety to be handled in any designated outlet. To aid the Secretary in prescribing such other minimum standards, the Committee shall furnish to the Secretary the data upon which it acted in recommending such standards. The provisions hereof relating to minimum standards of grades and sizes for marketable dates and inspection requirements, within the meaning of section 2(3) of the act, and any other provisions relating to the administration and enforcement thereof shall continue in effect irrespective of whether the season average price to producers for dates is or is not in excess of the parity level specified in section 2(1) of the act. Notice of the minimum standard regulation shall be sent by the Committee to all handlers of record. On and after the effective date of such regulations no handler shall handle dates except in accordance with such minimum standard.

§ 987.38 Handlers of record.

Each crop year but no later than October 10 for continuing handlers and prior to handling dates in the case of new handlers, any person desiring to handle dates shall submit a report to the Committee on a form prescribed by it containing the following information with respect to all dates which such person expects to handle:

(a) The name and address of each producer;
(b) The location of each date garden;
and
(c) The acreage and estimated current season’s production thereon.

Those reports required to be filed by October 10 shall reflect producers who are signed up with the handlers as of October 1 of the then current crop year. The Committee, with the approval of the Secretary, may issue rules and regulations to carry out the provisions of this section.

[43 FR 4252, Feb. 1, 1978]

§ 987.36 Notice.

The Committee shall give notice through newspapers having general circulation in the area of production or by other means of communication to producers and handlers of the contents of each marketing policy report submitted to the Secretary and of each report modifying such marketing policy. Copies of all such reports shall be maintained in the office of the Committee where they shall be available for examination by producers and handlers.

§ 987.35 Modifications.

In the event the Committee subsequently determines that the marketing policy should be modified due to changing supply or demand conditions, it shall formulate and submit to the Secretary its modified marketing policy along with the data which it considered in connection with such modification.

§ 987.37 Notice of the minimum standard regulation shall be sent by the Committee to all handlers of record. On and after the effective date of such regulations no handler shall handle dates except in accordance with such minimum standard.

§ 987.39 The establishment of minimum standards.

In order to effectuate the declared policy of the act, all dates handled as marketable dates shall meet the requirements of U.S. Grade C, or if for further processing, U.S. Grade C (Dry) of the effective U.S. Standards for Grades of Dates, 7 CFR 52.1001: Provided, That the Secretary, may upon recommendation of the Committee, prescribe other minimum standards of grades and sizes for marketable dates of any variety to be handled in any designated outlet. To aid the Secretary in prescribing such other minimum standards, the Committee shall furnish to the Secretary the data upon which it acted in recommending such standards. The provisions hereof relating to minimum standards of grades and sizes for marketable dates and inspection requirements, within the meaning of section 2(3) of the act, and any other provisions relating to the administration and enforcement thereof shall continue in effect irrespective of whether the season average price to producers for dates is or is not in excess of the parity level specified in section 2(1) of the act. Notice of the minimum standard regulation shall be sent by the Committee to all handlers of record. On and after the effective date of such regulations no handler shall handle dates except in accordance with such minimum standard.

§ 987.40 Additional grade or size regulations.

Whenever the Committee deems it advisable to establish grade or size requirements for any variety of dates, in addition to the minimum standard provided pursuant to § 987.39, to govern dates of such variety to be handled in any designated outlet or to be withheld to meet withholding obligation, or both, it shall recommend to the Secretary requirements as to grade based on the effective United States Standards for Grades of Dates or any modification thereof, and such size requirements as it may deem appropriate. If the Secretary finds, upon the basis of such recommendation or other information available to him, that such additional grade or size regulation, or both such regulations, will tend to effectuate the declared policy of the act, he shall establish such regulations. Notice thereof, showing the effective date, shall be sent by the Committee to all handlers of record. On and after the effective date no handler shall handle dates of such variety in any designated outlet or withhold such dates to meet withholding obligation except in accordance with such regulations.

§ 987.41 Inspection.

(a) Packed dates. Prior to handling any dates packed for handling each handler shall, at his own expense, cause: (1) An inspection to be made of such dates in order to ascertain if such dates meet the applicable grade and size regulations prescribed or provided for in this part; and (2) a certification for handling to be made of all such dates as meet such grade and size regulations.

(b) Dates for further processing. Prior to handling any dates for further processing each handler shall, at his own expense, cause: (1) An inspection to be made to ascertain if such dates meet the applicable grade and size requirements effective pursuant to § 987.39 or § 987.40, except for character associated with moisture; and (2) a certification for further processing to be made of all such dates as meet such grade and size requirements: Provided, That such inspection and certification requirements shall not apply to inter-handler transfers within the area of production of field-run dates or graded dates.

(c) Identification and service. All dates handled shall be identified by seals, stamps, or other means prescribed by the Committee and affixed to the containers by the handlers under the supervision of the Committee or the designated inspectors. Inspection shall be performed by inspectors of the United States Department of Agriculture’s Processed Products Standardization and Inspection Branch or such other inspection service as may be recommended by the committee and approved by the Secretary. Handlers shall cause a copy of each inspection certificate to be furnished to the Committee.

VOLUME REGULATION

§ 987.43 Outlets and specifications for marketable dates.

Marketable dates shall not be handled or otherwise disposed of except as provided in this subpart. This shall not preclude dates of better grades or sizes being handled or otherwise disposed of in any outlet established for dates of lesser grades or sizes. The Committee, with the approval of the Secretary, may modify the designations specified in § 987.12 to reflect new major outlets and regulatory requirements needed because of changes in marketing conditions. Marketable dates shall include but not be limited to the following: DAC dates, Dates for further processing, Export dates, and Product dates.

[43 FR 4252, Feb. 1, 1978]

§ 987.44 Free and restricted percentages.

(a) Whenever the Committee finds that the available supply of marketable dates of applicable grade and size available to supply the trade demand for free dates of any variety is likely to be excessive, and that limiting the volume of marketable dates to be handled as free dates through establishment of free and restricted percentages applicable to such variety of such dates would tend to effectuate the declared policy of the act, it shall recommend such percentages to the Secretary. If the Secretary finds, upon the basis of the

§ 987.45

Withholding restricted dates.

(a) Whenever free and restricted percentages for any variety of dates have been established for a crop year by the Secretary in accordance with §987.44, each handler shall, at the time of having dates of such variety certified for handling as free dates (including those for further processing that are to be handled as free dates), withhold from handling a quantity of marketable dates of such variety having a weight equal to the restricted percentage for such variety referable to the dates so far certified. The withholding requirement shall not apply to dates certified for delivery directly to an excess supply removal program of the Secretary. The weight required to be withheld shall be determined by dividing the restricted percentage by the free percentage and applying the resultant withholding factor, rounded to the nearest one-tenth of one percent, to the weight of dates so certified. The withholding factor, computed as aforesaid, shall be established by the Secretary. When pitted dates are certified, the weight to be withheld shall be determined by dividing the weight of the pitted dates certified for handling or further processing by a divisor established by the Committee with the approval of the Secretary and applying the withholding factor.

(b) Compliance by any handler with the withholding of restricted dates may be deferred to any date not later than January 31 of any crop year, upon request to the Committee and when accompanied by a written undertaking that on or prior to such date, he will have fully satisfied his withholding obligation. Such undertaking shall be secured by a bond or bonds to be filed with, and acceptable to, the Committee and with a surety or sureties acceptable to the Committee, running in favor of the Committee and the Secretary in an amount conditioned upon full compliance with such undertaking. The amount shall be determined by multiplying the poundage of the deferred restricted obligation by a bonding rate per pound which would provide funds estimated to be sufficient for the Committee to purchase on the open market a volume of dates equivalent to the deferred obligation. Such bonding rate shall be established annually, and modified as necessary, by the Committee. Any sums collected through default by a handler on his bond shall be used by the Committee to purchase dates to meet the violated restricted obligation, reimburse the Committee for expenses relative to the default, and any excess money remaining shall be refunded to the defaulting handler. The dates so purchased by the Committee shall be turned over to the defaulting handler. The dates so purchased by the Committee shall be turned over to the defaulting handler for disposition as restricted dates. In the event the Committee is unable to purchase a poundage of dates equal to the defaulted volume, the sums collected shall, after reimbursement of Committee expenses in connection with the default, be distributed among all handlers other than the defaulting handler in proportion to the volume of certified dates handled as free dates (including those for further processing that were handled as free dates), during the crop year in which the default occurred.

(c) At any time during the crop year free dates may be inspected and certified for handling or for further processing as provided in §987.41. Dates so certified shall, at the time of certification, be identified by appropriate seals, stamps, or tags to be furnished by the Committee and to be affixed to the containers by the handler under the direction and supervision of the Committee or its designated inspectors. The assessment requirements in §987.72 as well as the withholding obligation prescribed in paragraph (a) of this section shall be met at the time of
certification. However, a handler who has had more free dates certified for handling or further processing than he subsequently shipped or otherwise handled may, upon request to the Committee and with its approval, have any of such excess quantity of the certified dates suspended from certification of record or, if damaged or the outlet changed, removed from certification, and his withholding and assessment obligations adjusted accordingly. A handler, who has had dates certified for handling or further processing and has not had them so suspended from certification, may carry such certified free dates over into the new crop year and need not pay the assessment nor meet the requirements of any withholding percentages established for such year.

(d) Dates withheld to meet the withholding obligation shall be stored at the expense of the handler, in storage of his own choosing and disposed of in accordance with §987.55. All such dates shall be inspected and identified by appropriate seals, stamps, or tags to be furnished by the Committee and to be affixed to the containers by the handler under the direction and supervision of the Committee or its designated inspectors. All withholding and movement of restricted dates, shall be subject to the supervision and accounting control of the Committee and reports shall be filed as required by this part. Any handler who during a crop year disposes in restricted outlets of a quantity of marketable dates in excess of his withholding obligation of such year may: (1) On written request delivered to the Committee not later than September 30 of such crop year have a part or all of such excess transferred, by the Committee, to other handlers as he may name, for crediting such other handlers' withholding obligations incurred in that crop year; and in addition (2) have a part or all of the remainder of such excess credited to his restricted obligation of the subsequent crop year: Provided, That the amount of any such credit shall not exceed that established by the Committee, with the approval of the Secretary, as the percentage of such withholding obligation.

(e) On request to the Committee and with its approval, a handler may, in accordance with the provisions of this paragraph and any applicable rules and regulations which the Committee may prescribe with the approval of the Secretary, defer until any date not later than September 30 of the crop year the meeting of any portion of his obligation to withhold restricted dates by setting aside such amount of graded dates as will assure a quantity of marketable dates equal at least to the quantity needed to be withheld to meet his withholding obligation. With respect to any such dates the handler may set aside in connection with such a deferment, the Committee may require, if it deems it necessary, the handler to have made, at his own expense, such inspection as may be necessary for a determination as to whether such dates conform to the applicable requirements for dates that may be set aside under this paragraph. As a condition to the Committee approving the deferment, the handler shall agree in writing that: (1) He will adequately mark and identify the set-aside graded dates as such and hold them separate and apart from other dates; (2) the graded dates will not be removed from the stacks in which so set aside without the prior written permission of the Committee; (3) inspection of the dates by the Committee will be permitted at any reasonable time; and (4) if the quantity, quality, or size of the set-aside dates is found by the Committee at any time to be deficient, the handler will promptly set aside such additional or substitute quantity of graded dates as is necessary to correct the deficiency.

(f) Upon the Committee prescribing, with the approval of the Secretary, minimum standards for inspection of field-run dates and appropriate administrative rules and regulations, a handler may, in accordance therewith and the provisions of this paragraph, satisfy all or any part of his obligation to withhold restricted dates by setting aside field-run dates or by disposing of field-run dates in outlets prescribed in, or pursuant to, §987.56. The field-run dates shall be of such quality or size as shall be prescribed in such rules and regulations. The setting aside, direct
disposal, and disposal of any field-run dates set aside shall occur prior to September 30 of the crop year in which the withholding obligation occurs. Prior to the disposal or setting aside of the field run dates, the handler shall have had them inspected to determine the weight of dates eligible to satisfy withholding obligation. Upon such disposal or setting aside of the field-run dates, the handler shall be credited with satisfaction of his restricted obligation to the extent of the eligible weight of dates. In permitting the handler to so satisfy his withholding obligation the Committee shall require the handler to agree in writing that: (1) Any field-run dates set aside will be held separate and apart from other dates and appropriately marked; (2) such dates will not be removed from the stacks in which so set aside for substitution of other dates, disposition, or for any other reason without prior written permission of the Committee; and (3) inspection of said dates by the Committee will be permitted at any reasonable time. In order to satisfy a withholding obligation by direct disposal of field-run dates into cull outlets, the disposal shall be under the supervision of the Committee and through persons on a Committee approved list of feeders and manufacturers. The handler may, upon giving prior notice to the Committee of any of the following proposed actions with respect to field-run dates withheld and obtaining its approval, (i) dispose of any such set-aside, field-run dates in the same manner as provided for direct disposal (ii) grade such dates and have the graded dates certified as marketable dates as restricted dates, or (iii) substitute for the set-aside, field-run dates an equivalent quantity of marketable dates which he shall withhold or dispose of as restricted dates.

§ 987.46 Revisions of percentages.

The Secretary may, on recommendation of the Committee submitted prior to January 31 of the crop year, or on the basis of other information available to him, increase the free percentage to conform with such new relation as may be found to exist between trade demand for free dates and available supply of marketable dates of applicable grade and size. Upon any revision in the free and restricted percentages the control obligation of each handler with respect to free dates handled or certified for handling or for further processing by him for the entire crop year shall be recomputed in accordance with such revised control percentages. The handler shall be permitted to select, insofar as practicable, under the supervision and direction of the Committee, the particular dates to be removed from any dates withheld.

§ 987.47 Surplus.

All cull dates and all substandard dates, including such dates blended with varieties within the generic term dates not regulated by this part, except any utility dates released to human consumption outlets pursuant to §987.56, are surplus dates of any crop year. No handler shall ship or deliver such surplus dates to other than the Committee or its designee(s) for disposition in eligible outlets for such dates, except that any producer or handler may dispose of any such surplus dates of his own production within his own livestock feeding operations. Surplus dates delivered to the Committee shall be disposed of by it, in those outlets specified in §987.56, at the best prices attainable and the proceeds returned pro rata, after deduction of Committee costs, to equity holders. The Committee may assist handlers with the cleaning, storage, or delivery of surplus dates and may, with the approval of the Secretary, establish rules and regulations necessary and incidental to administration of this regulation.

CONTAINER REGULATION

§ 987.48 Container regulation.

Whenever the Committee deems it advisable to establish a container regulation for any variety of dates, it shall recommend to the Secretary the size,
§ 987.50 Application after end of crop year.

Unless otherwise specified the regulations and the bonding rates established for any crop year shall continue in effect with respect to all free dates for which control obligations have not been previously met, until regulations and bonding rates are established for the new crop year. Thereupon the withholding obligations for all free dates handled or certified for handling or for further processing during such crop year shall be adjusted to the newly established percentages and a similar adjustment shall be made in any bond or bonds already given for that crop year.

§ 987.51 Interhandler transfers.

Transfers of dates may be made from one handler to another, and each handler who so transfers any such dates shall immediately upon the completion of the particular transfer notify the Committee of the transfer, specifying the date of the transfer, the quantity and variety of dates involved, and the name of the receiving handler. If such transfer is wholly within the area of production, the assessment and withholding obligations shall be placed on the handler agreeing to assume them: Provided, That in the absence of the Committee receiving notice of a specific agreement on such obligations, the buying handler shall be held accountable. If such transfer is from within the area of production to any point outside thereof, the assessment and withholding obligations shall be met by the handler within the area of production. Except for packed dates inspected and certified for handling prior to transfer and which are not repacked, any receiving handler (other than a repacker not otherwise a handler, who shall comply with §987.53) shall comply with the requirements of §987.41 on all dates, but this shall apply to repacked dates previously inspected and certified for handling only if the handler also packs dates received as field-run dates.

[32 FR 12596, Aug. 31, 1967]

§ 987.52 Exemption.

The Committee may exempt from regulation, upon written request of any producer or handler, the dates he sells to consumers through roadside stands, local date shops, mail order or specialty outlets, if it determines that the particular request is not likely to materially interfere with the objectives of this part. All dates handled pursuant to exemptions under this section shall be reported to the Committee in such manner and in such form as the Committee may prescribe. The Committee shall issue, with the approval of the Secretary, appropriate rules and regulations establishing the bases on which exemptions may be granted.

[32 FR 12596, Aug. 31, 1967]

§ 987.53 Application of regulations to repackers.

Repackers shall be exempt from those requirements of this part, including reporting requirements, with respect to packed dates which had been certified for handling, pursuant to §987.41(a), prior to receipt, except that: (a) A repacker who processes such dates by machine pitting shall comply with the grade, size, inspection, certification, and identification requirements, and (b) a repacker who repackages such dates in containers other than those in which received, shall comply with the then effective container regulations established pursuant to §987.48.

Agricultural Marketing Service, USDA  § 987.58

§ 987.55 Outlets for restricted dates.

Restricted dates may be disposed of only through exportation to such countries as the Committee may approve or by diversion in product outlets described in §987.43 which the Committee concludes to be appropriate and which will result in dates moving into consumption in a form other than that of whole or pitted dates. To facilitate sales and promote orderly marketing of any variety of restricted dates handled in export, the Committee may participate in or negotiate for handlers, the sale of such dates to meet all or a substantial part of the needs of the particular country, and, in connection with each such sale, the Committee shall extend to all handlers an opportunity to participate therein and shall distribute the returns therefrom to participating handlers according to their respective contributions of dates. The Committee, with the approval of the Secretary, may prescribe rules and regulations governing the opportunity to participate in such sales. The provisions of this section shall not preclude restricted dates being disposed of in outlets for utility and cull dates prescribed in §987.56.

[43 FR 4253, Feb. 1, 1978]

§ 987.56 Outlets for utility and cull dates.

Subject to the provisions of §987.47, utility dates and cull dates may be disposed of without inspection, but only in feed, non-table syrup, alcohol, or brandy outlets, or in such other outlets for non-human food products as the Committee with the approval of the Secretary may specify: Provided, That whenever the Committee concludes and the Secretary finds that the use of utility dates of any variety in certain products for human consumption would tend to effectuate the declared policy of the act, the Secretary shall specify such product outlets, and dates of such variety that are inspected and certified as meeting such grade, size, container, and identification requirements as may be prescribed by the Committee with the approval of the Secretary for such outlet may be so exported.

§ 987.57 Approved manufacturers or feeders.

(a) Diversion of dates, pursuant to §987.55 or §987.56, shall be accomplished only by such persons (which may include handlers) as are approved manufacturers or feeders. Any person may become an approved manufacturer or feeder if he (1) submits an application to the Committee in which he agrees, as a condition to approval of his application, to furnish to the Committee such information as it may require and to comply with the requirements and restrictions relative to the use and disposition of such dates, as set forth in this part, and (2) receives from the Committee written approval of his application. The application and approval shall be in accordance with such rules, regulations and safeguards as may be prescribed pursuant to §987.59.

(b) [Reserved]

§ 987.58 Terminal date.

Dates covered by §§987.55 and 987.56 shall, by September 30 of the subsequent crop year (a) in accordance with the applicable requirements of such sections, be disposed of, or be converted from their whole or pitted form; or (b) be set aside and marked for disposition pursuant to the applicable requirements of such sections. The Committee may prescribe, with the approval of the Secretary, such rules, regulations and safeguards, pursuant to §987.59, as may be necessary to prevent dates covered by §§987.55 and 987.56 from interfering with the objectives of this part.
§ 987.59 Safeguards.

The Committee may prescribe, with the approval of the Secretary, such rules, regulations and safeguards as are necessary to prevent dates covered by §§987.55 and 987.56 from interfering with the objectives of this part.

REPORTS AND RECORDS

§ 987.61 Reports of handler carryover.

Each handler shall file each year with the Committee written reports of his carryover of dates as of March 1, October 1, and at such other times as the Committee may prescribe. Provided, That during those seasons when volume regulations are established by the Secretary, the handler shall file an additional report on his January 1 carryover. Such reports shall be filed within 10 days of the date of the carryover. These reporting dates specified may be changed, upon recommendation of the Committee, together with substantiation of the need therefore, with the approval of the Secretary.

[43 FR 4253, Feb. 1, 1978]

§ 987.62 Reports of dates shipped.

Each handler who ships dates during a crop year shall submit to the Committee, in such form and at such intervals as the Committee may prescribe, reports showing the net weight of dates shipped by him and such other information pertinent thereto as the Committee may specify.

§ 987.63 Reports on restricted dates withheld.

Each handler from time to time, on demand of the Committee, shall file with it a report of the restricted dates withheld by him in satisfaction of his withholding obligation. Such reports shall show such information as the Committee may require and may be in such form as the Committee may prescribe.

§ 987.64 Reports on disposition of restricted, other marketable, utility, and cull dates.

Each handler disposing of any dates pursuant to §§987.55 and 987.56 shall promptly thereafter report such disposition to the Committee in such form as the Committee may prescribe.

[43 FR 4253, Feb. 1, 1978]

§ 987.65 Other reports.

Upon request of the Committee each handler shall furnish to it in such manner and at such times as it prescribes, such other information as will enable the Committee to perform its duties and exercise its powers hereunder.

§ 987.66 Certification of reports.

All reports submitted to the Committee as required in this part shall be certified to the United States Department of Agriculture and to the Committee as to the completeness and correctness of the information therein.

§ 987.67 Confidential information.

All data or other information constituting a trade secret or disclosing a trade position or business condition shall be received by, and kept in the custody of, one or more designated employees of the Committee and information which would reveal the circumstances of a single handler shall be disclosed to no person other than the Secretary.

§ 987.68 Verification of reports and records.

For the purpose of checking compliance with record keeping requirements and verifying reports filed by handlers, the Secretary and the Committee, through its duly authorized employees, shall have access to any premises where dates are held and, at any time during reasonable business hours, shall be permitted to examine any dates held and any and all records with respect to matters within the purview of this part. Handlers shall furnish labor necessary to facilitate such examinations at no expense to the Committee. All handlers shall maintain complete records establish and which accurately show the quantity of dates handled, disposed of, and withheld. The Committee, with the approval of the Secretary, may establish the type of records to be maintained. Such records shall be retained by handlers for not less than
two years subsequent to the termination of each crop year.

EXPENSES AND ASSESSMENTS

§ 987.71 Expenses.

The Committee is authorized to incur such expenses, including maintenance of an operating reserve fund, as the Secretary may find are reasonable and are likely to be incurred by it during each crop year for the maintenance and functioning of the Committee and for such other purposes as he determines to be appropriate. The recommendation of the Committee as to total expenses and allocation thereof for each crop year, together with all data supporting such recommendation, shall be submitted to the Secretary within a reasonable time after the marketing policy for each crop year is recommended.

§ 987.72 Assessments.

(a) Requirement for payment. Each handler shall pay to the Committee upon demand, on all dates he has certified as meeting the requirements for marketable dates and utility dates utilized in product outlets including the eligible portion of any field-run dates certified and set aside or disposed of pursuant to §987.45(f), his pro rata share of all expenses which the Secretary finds are reasonable and likely to be incurred by the Committee during each crop year. Should the condition arise wherein the utility portion of dates handled in certain other outlets should not, in the opinion of the Committee, subject to the payment of assessments on that portion, the Committee may recommend and the Secretary approve by rulemaking, such exclusion. Each handler’s pro rata share shall be the rate of assessment per hundredweight fixed by the Secretary. At any time during or after a crop year the Secretary may increase such assessment rate to secure sufficient funds to cover unanticipated expenses or a deficit in assessable poundage. Any such increase shall apply to all assessable poundage of the crop year. The Committee may accept payments of assessments in advance and may borrow money in any amount not to exceed 10 percent of the estimated expenses set forth in its budget for the then crop year. The assessment weight of pitted dates shall be determined by dividing the weight of such dates by a divisor established by the Committee with the approval of the Secretary.

(b) Surplus expenses. The Committee is authorized to use temporarily funds derived from assessments collected pursuant to paragraph (a) of this section to defray expenses incurred in disposing of surplus dates. All such expenses shall be deducted from the proceeds obtained by the Committee from such disposal.

(c) Operating reserve. The Committee, with the approval of the Secretary, may establish and maintain during one or more crop years an operating monetary reserve in an amount not to exceed 50 percent of the average of expenses incurred during the most recent five preceding crop years, except that an established reserve need not be reduced to conform to any recomputed average. Funds in reserve shall be available for use by the Committee for expenses authorized pursuant to §987.71.

(d) Refunds. Funds held by the Committee at the conclusion of the crop year in excess of the crop year’s expenses, including reserve requirements, may be used to defray expenses for no more than the ensuing four months, and thereafter within a reasonable time the Committee shall credit, or upon demand, refund the aforesaid excess to handlers who contributed to such excess: Provided, That the excess due any handler may be applied, in whole or in part, by the Committee to any outstanding obligation due the Committee from such handler. A handler’s share of the excess funds shall be the amount of assessments he paid in excess of his actual pro rata share of the expenses, including reserve requirements, of the Committee for the preceding crop year. Upon termination of this subpart any money in possession of the Committee shall be distributed in such manner as the Secretary may direct: Provided, That, to the extent
§ 987.76 Compliance.

No handler shall handle any dates (including dates for further processing) except in conformity with, and as authorized by or pursuant to, the applicable provisions of this part, including but not being limited to the regulations relating to grade, size, and volume; and no handler shall use or otherwise dispose of restricted dates or any other dates which have not been certified for handling or for further processing except in conformity with, and as authorized by or pursuant to, the applicable provisions of this part.

§ 987.77 Personal liability.

No member or alternate member of the committee, or any employee or agent thereof, shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or any other person for errors in judgment, mistakes, or other acts either of commission or omission, as such member, alternate member, agent, or employee, except for acts of dishonesty, willful misconduct or gross negligence.

§ 987.78 Separability.

If any provision of this part is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this part or the applicability of this part to any other person, circumstance, or thing shall not be affected thereby.

§ 987.79 Derogation.

Nothing contained in this part is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 987.80 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this subpart shall cease upon its termination except with respect to acts done under and during its existence.

§ 987.81 Agents.

The Secretary may, by a designation in writing, name any person, including any officer or employee of the United States Government, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

§ 987.82 Effective time, suspension, or termination.

(a) Effective time. The provisions of this part, as well as any amendments thereto, shall become effective at such time as the Secretary may declare, and shall continue in force until terminated or suspended in one of the ways hereinafter specified in this section.

(b) Suspension or termination—(1) Failure to effectuate policy of act. The Secretary shall terminate or suspend the operation of any or all of the provisions of this part, whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(2) When favored by growers. The Secretary shall terminate the provisions of this part at the end of any crop year whenever he finds that such termination is favored by a majority of the growers of dates who, during that crop year, have been engaged in the production for market of dates in the area of production: Provided, That such majority have, during such period, produced for market more than 50 percent of the volume of such dates produced for market within said area; but such termination shall be effective only if announced on or before August 1 of the then current crop year.

(3) If enabling legislation is terminated. The provisions of this part shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

(c) Proceedings after termination—(1) Designation of trustees. Upon the termination of the provisions hereof, the
members of the Committee then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the Committee, of all funds and property then in the possession or under the control of the Committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(2) Duties of trustees. Said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of the Committee and the joint trustees, to such person as the Secretary may direct; and shall, upon request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such persons full title and right to all funds, property, and claims vested in the Committee or the joint trustees pursuant hereto.

(3) Obligations of persons other than Committee members and trustees. Any person to whom funds, property, or claims have been transferred or delivered by the Committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the said Committee and upon the said joint trustees.

§ 987.83 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination hereof or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not—

(a) Affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued hereunder, or

(b) Release or extinguish any violation of this part or of any regulation issued hereunder, or

(c) Affect or impair any rights or remedies of the Secretary or of any other person, with respect to any such violation.

§ 987.84 Amendments.

Amendments heretofore may be proposed, from time to time by any person or by the Committee.

§ 987.112 Identification of dates.

(a) General. Prior to applying the markings required by this section, each handler shall remove or delete from each container all former identifying
marks which conflict with those applicable to the dates currently in the container. Dates of each outlet category shall be held, stored, or shipped in a manner to preserve their identity. Except as provided in paragraph (d) of this section, the markings on the containers shall be not less than five-sixteenths (\(\frac{5}{16}\)) inch in height on containers exceeding 5 pounds net weight and not less than one-eighth (\(\frac{1}{8}\)) inch in height on smaller containers. All markings shall be legible.

(b) DAC dates. Each handler shall mark every shipping or storage container (excluding subcontainers) of DAC dates with his name or that of the distributor for whom the handler is packing, and the lot number. Under the supervision of the inspection service every container shall be marked with the date of inspection, the name or insignia of the inspection service, and the letters “DAC”.

(c) FP dates. Each handler shall mark every shipping or storage container (excluding subcontainers) of FP dates with his name or that of the distributor for whom the handler is packing, and the lot number. Under the supervision of the inspection service every container shall be marked with the date of inspection, the name or insignia of the inspection service, and the letters “FP”.

(d) Export dates. Each handler shall mark every shipping or storage container (excluding subcontainers) of Export dates with his name or that of the exporting firm, and the lot number. If the dates, including fieldrun dates with cull dates removed, are certified as meeting the grade and size requirements for export to approved countries other than Mexico, the containers shall be marked “Export”. Dry dates for processing packed for shipment to approved countries shall be marked “Export Dry”. Dates packed for export to Mexico shall be marked “Export Mexico”. However, “Export Mexico” shall be in letters not less than three-fourths (\(\frac{3}{4}\)) inch in height on containers exceeding 5 pounds net weight, and not less than one-eighth (\(\frac{1}{8}\)) inch in height on smaller containers. DAC dates and FP dates, marked pursuant to paragraphs (b) and (c), respectively, of this section, may be exported without change of marking.

(e) Product and utility dates. Each handler shall mark every shipping or storage container (excluding subcontainers) of Product dates, or Utility dates when approved for use in products, with the lot number and, if for shipment outside the area of production, with the word “Product” or “Utility”, as applicable. Whenever a handler, or an approved date product manufacturer, utilizes a procedure that maintains the identity of the lot and assures that the dates will be used in products or exported, the Committee may waive the requirements of this paragraph for that lot.

(f) Unidentified dates. If a handler loses the identity of any lot of dates previously inspected and certified as marketable dates, the certification as to such lot shall be void.

increased to 15 percent. These size requirements are in addition to, and do not supersede, the requirements as to uniformity of size prescribed in the grade standards.

(3) DAC dates of any variety, when packed in plastic containers, other than bags and master shipping containers, shall contain a net weight (i) for whole dates, of either eight ounces, twelve ounces, one pound eight ounces, or two pounds or more, and (ii) for pitted dates, of either seven ounces, ten ounces, one pound, one pound eight ounces, or two pounds or more. DAC dates packed in other than plastic containers may be handled without regard to the net weight content. For the purpose of this subparagraph, plastic container means any containers of any shape made from plastic and in which dates are packed without the use of cardboard boats, trays, or other like stiffening material: Provided, That DAC dates shipped for sale in Canada in plastic containers are exempt from the net weight requirements of this subparagraph.

(4) The California Date Administrative Committee may designate with the approval of the Secretary such other types and sizes of containers for testing in connection with a research project conducted by or in cooperation with the Committee. The time period and the quantity of dates which may be marketed by handlers during that period shall be designated by the Committee for each market research project. The handling of each lot of dates in such test containers shall be subject to the prior approval, and under the supervision, of the Committee.

(c) Dates for further processing. (1) Except as provided in §987.152(b)(1), all varieties of FP dates may be disposed of only (i) to persons in the United States capable of processing and packing the dates and having them certified as DAC dates, or (ii) exported to the countries designated in paragraph (d)(2) of this section.

(2) FP dates of any variety shall at least meet the requirements of U.S. Grade B (dry). Also, with respect to whole dates of the Deglet Noor variety, the individual dates in the sample from the lot shall weigh at least 6.5 grams, but up to 10 percent, by weight, may weigh less than 6.5 grams, except beginning February 21, 1997, and ending October 31, 1997, the 10 percent tolerance shall be increased to 15 percent. These size requirements are in addition to, and do not supersede, the requirements as to uniformity of size prescribed in the grade standards.

(d) Export dates. (1) Dates of any variety identified as “Export” dates and inspected and certified as meeting the requirements of this subparagraph may only be exported to any country except Canada. Such dates shall at least meet the requirements of U.S. Grade C: Provided, That Deglet Noor dates shall score not less than 31 points for character and 24 points for absence of defects but up to 40 percent, by weight, of the dates may be damaged by broken skin.

(2) Export of dry dates. Dates of any variety identified and certified as meeting the requirements of this subparagraph only may be exported to the following designated date producing and processing countries in North Africa: Morocco, Algeria, Tunisia, Libya, Egypt, and Sudan; the following date processing and consuming countries north of the Mediterranean Sea: Spain, France, Belgium, West Germany, Italy, France, Greece, and the Netherlands; and the following date processing and consuming country in Asia: Japan. Such dates shall at least meet U.S. Grade C (dry) except for defects removable by washing: Provided, That Deglet Noor dates shall score not less than 31 points for character and 24 points for absence of defects but up to 40 percent, by weight, of the dates may be damaged by broken skin.

(3) Dates of any variety identified as “Export—Mexico” and inspected and

1Executive Order 12543 of January 7, 1986 (51 FR 875), prohibits trade and certain transactions involving Libya, and is applicable to exports of dates under this marketing order as long as the executive order is in effect. That order, among other things, prohibits the exports to Libya of any goods, technology (including technical data or other information) or services from the United States, except publications and donations of articles intended to relieve human suffering, such as food, clothing, medicine and medical supplies intended strictly for medical purposes.
certified as at least meeting the requirements of U.S. Grade C may be exported only to Mexico. No dates shall be exported to Mexico unless the handler certifies to the Committee and the U.S. Department of Agriculture, on CDAC Form No. 11(a), which shall be submitted to the Committee, that the importing buyer has agreed that such dates will not reenter the United States or be shipped to Canada. The form shall show the identity of the handler, the trucker, the importer, the destination of the dates, the location of the border-crossing station, and such other information as the Committee deems appropriate to perform its duties and exercise its powers under this part.

(4) Whenever field-run dates of any variety are authorized for export to any country, each lot shall consist of at least 85 percent, by weight, of sound dates. Sound dates means individual dates which are at least U.S. Grade C in character and are free of the defects—other than those removable by washing—scored to determine the point requirement applicable to their intended destination.

(5) Dates meeting the grade and size requirements of this paragraph may be disposed of in outlet categories established for dates of lesser grades and sizes.

(e) Product dates. (1) Dates of any variety identified as “Product” dates and inspected and certified as at least meeting the requirements of this paragraph may be disposed of in outlet categories established for dates of lesser grades and sizes.

(g) Deteriorated dates. Any marketable dates which deteriorated in quality so that they are either utility or cull dates may be disposed of only in the applicable outlets for such dates or they may be reconditioned and upon reconditioning, the modified lot may be reinspected and recertified, as applicable.

NOMINATIONS

§987.124 Nomination and polling.

(a) Date producers and producer-handlers shall be provided an opportunity to nominate individuals to serve on the Committee. For this purpose, the Committee shall establish a date and place for polling prior to June 15 of each even-numbered year and establish a procedure for casting absentee ballots. The date and place of polling shall be announced at least 6 weeks prior to the polling date by letters to all known date producers and producer-handlers and by Committee press releases to local newspapers and other news media in the date-producing area. Such letters and press releases shall: (1) Include the names of incumbents who are willing to continue serving on the Committee; (2) inform eligible producers and
producer-handlers of the opportunity to propose additional names to be included on the nomination ballots; and (3) state when and where absentee ballots will be available. Additional names to be included on the nomination ballot must be received by the Committee at least 4 weeks prior to the polling date. Absentee ballots and instructions for completing and returning the ballots will be made available by the Committee at least 3 weeks prior to the polling date. Any person eligible to vote must request the ballot in person at the Committee’s office or must submit a written request to the Committee for an absentee ballot. All ballots shall provide for write-in candidates and must be returned by the close of business on the polling date to be counted.

(b)(1) Producers. Each producer may vote for three producer members and three producer alternate members. No producer may vote more than once for any one person. The three individuals receiving the highest number of votes for the producer member positions shall be the producer member nominees. Individuals nominated for producer member and failing to receive enough votes to become a producer member nominee shall have their names listed with those nominated for producer alternate members and the votes cast for them as member shall be counted with any votes they received for producer-handler alternate member. The six individuals receiving the highest weighted vote for producer-handler alternate member positions shall be the alternate member nominees.

§ 987.138 Handlers of record.

Prior to handling dates, each person shall file CDAC Form No. 18 with the Committee at the times, and containing the information, prescribed in §987.38.

[43 FR 28437, June 30, 1978]

INSPECTION

§ 987.141 Inspection and certification.

Each handler shall furnish, or cause the inspection service to furnish, to the Committee a copy of the inspection certificate issued to him on each lot of dates, and such certificate shall contain at least the following information: (a) The date of inspection; (b) the name of the handler; (c) the lot number and the applicable outlet category set forth in §987.112a; (d) the variety of dates and weight of the lot; (e) the number and type of containers in the lot; and (f) if the dates (1) are other than field-run dates, a certification as to the grade of the dates and whether or not they meet the applicable grade, size, container, and identification requirements, or (2) are field-run dates, a certification showing the percentage by weight, of sound dates in the lot, and whether or not they meet the identification requirements for such dates.

VOLUME REGULATION

§ 987.145 Withholding obligation.

(a) Satisfying the withholding obligation. Any handler may satisfy all or part of his withholding obligation for any variety of dates for which free and restricted percentages have been established by having an adequate quantity of that variety inspected and certified as meeting the applicable grade, size, and container requirements prescribed
§ 987.147 Surplus.

(a) General. Surplus dates delivered to the Committee pursuant to §987.47 shall be pooled for sale to livestock feeders, distillers, or manufacturers of inedible products. Provided, That if any portion of the deliveries differs sufficiently to require separate handling, and earn a different average return, such portion shall be handled as a separate pool. The income from sale of surplus, after deduction of committee expenses, shall be paid to the respective

by the Committee for any approved restricted date outlet.

(b) Credit for excess disposition in restricted outlets. Disposition of marketable dates in restricted outlets in excess of a handler’s withholding obligation may be: (1) Transferred pursuant to §987.45 upon such handler filing a completed CDAC Form No. 14 with the Committee, or (2) credited to the handler’s withholding obligation of the following crop year so long as the excess disposition exceeds 190 pounds. However, the quantity so credited shall never exceed 40 percent of the handler’s withholding obligation of the crop year in which the excess disposition occurred and 100 percent of the withholding obligation incurred by him during October through December of the crop year following the crop year in which such excess disposition occurred. All such crediting or accumulation shall be contingent upon the Committee receiving, in due course, confirmation that the dates were disposed of in eligible restricted outlets. With respect to exports, the withholding credit shall be granted upon the Committee receiving notification from the inspection service, and in due course a copy of the on board bill of lading or other documentary evidence satisfactory to the Committee.

c) FP dates. Withholding obligations on FP dates shall be based on the weight of such dates when they are inspected and certified. However, if such dates are subsequently processed and packed within the area of production, the withholding obligation shall be adjusted to reflect any increase in weight.

d) Dates for deferment of withholding. Any handler may defer his certification and withholding or disposition of restricted dates by pledging a comparable volume of graded or field-run dates as a surety that he will meet his withholding obligation at a later date. Such deferment shall not be effective until: (1) The handler files with the Committee a CDAC Form No. 12 to set aside graded dates or CDAC Form No. 13 to set aside field-run dates; and (2) the pledged dates are set aside as a lot and identified by the handler as “Restricted” and as “Graded” or “Field-Run”, as appropriate, and as to the number of containers, the date of set-aside and whether or not the dates have been inspected. If the handler sets aside field-run dates or disposes of field-run dates in outlets prescribed in or pursuant to §987.56 to obtain withholding credit for the sound date portion in the lot, the field-run dates shall meet the requirements prescribed in paragraph (f) of this section for eligible field-run dates, as determined by the inspection service.

e) Identification of restricted dates. Any lot of restricted dates not immediately disposed of through exportation to countries approved by the Committee or directed to approved product outlets shall be stored as a lot separate from all other dates and in a specified location with a USDA inspection service tag marked “Restricted”.

(f) Field-run dates. Field-run dates set aside for the purpose of deferring or meeting any part or all of a withholding obligation shall consist of at least 70 percent, by weight, of sound dates but may contain 10 percent, by weight, of cull dates of which not more than 5 percent may be hidden culls—i.e., dates with internal defects including souring, mold, fermentation, insect infestation, or foreign material.

g) Substitution. Any handler may, under the direction and supervision of the Committee or the inspection service, substitute for any quantity of restricted dates held by him a like quantity of dates of the same variety and of the same or more recent year’s production which have been certified and identified as meeting the requirements for restricted dates.

§987.152 Exemption from regulations.

(a) Producer exemption. The Committee may permit any producer to sell dates from such producer’s own production free of the requirements of §§987.41, 987.45, 987.48, and 987.72 when sold directly to consumers through a roadside stand or date shop owned or operated by the producer within 25 miles of the city limits of Indio, California, through shipments by parcel post or express, or by certified producers at certified farmers’ markets, as these terms are defined by the State of California. Permission to so sell dates shall be granted only upon the producer filing with the Committee a completed CDAC Form No. 9 wherein the producer describes how the producer plans to sell such dates and agrees to sell only dates of DAC date quality of the producer’s own production in direct sales; and to report such sales to the Committee. If the producer fails to comply with this agreement, the Committee may revoke any or all exemptions granted the producer.

(b) Handler exemptions. (1) Specialty sales. The Committee may permit any handler to sell to health food stores or health food outlets, dates which at least meet the requirements for FP dates. It may permit any handler to sell to a candy manufacturer hand-pitted dates which meet the grade requirements for DAC dates except for size, or damage due to cutting and pitting. Also, it may permit any handler to sell hand-layered dates in tin, wood, plastic, or other type of container exempt from §§987.41(a) and 987.48, or to make shipments by common carrier of up to 150 pounds to any one purchaser in any one day exempt from the provisions of §987.41(a); Provided, That the hand-layered dates or the shipment to a single purchaser in any 1 day have been packed from dates certified as meeting the grade requirements for DAC dates and have not been commingled with other dates. Permission to use these exemptions shall be granted only upon the handler filing with the Committee its CDAC Form No. 10.
§ 987.157 Approved date product manufacturers.

Any date handler or other person with facilities for converting dates into products may apply to the Committee, by filing CDAC Form No. 3, for listing as an approved date product manufacturer. The applicant shall indicate on such form the products he intends to make, the quantity of dates he may use, and the location of his facilities. In addition, as a condition of approval, the applicant shall agree on such form not to use any of the products dates for sale as whole or pitted dates, to file a report of the disposition of each lot on the Committee's Form No. 8, and to file an annual usage and inventory report on CDAC Form No. 4. The Committee shall approve or disapprove each such application on the basis of the information furnished or its own investigation, and may revoke any approval for cause. The name and address of all approved manufacturers shall be placed on a list and made available to interested persons.

§ 987.161 Handler carryover.

Each handler shall file with the Committee a report of his carryover of dates as of March 1 and October 1 and, when volume regulation is established, as of January 1. This report shall be on CDAC Form No. 5 and shall show, by variety, at least: (a) The quantity of DAC dates held within and outside the area, (b) the quantity of FP dates held within the area, (c) the quantity of export dates, and (d) the quantity of dates held graded but not certified, and as field-run, segregated as to outlet category.

§ 987.162 Handler acquisition and disposition.

Handlers shall file CDAC Form No. 6 with the Committee by the 10th of each month, reporting at least the following for the preceding month: (a) Their acquisition of field run dates; (b) their shipments of marketable dates in each outlet category; (c) their shipments of free dates and disposition of restricted dates, whenever applicable, and (d) their purchase from other handlers of DAC, Export, Product, Graded and field run dates. In addition, this report shall include the names and addresses of any producers not previously identified pursuant to § 987.38, the quantity of dates acquired from each producer, the location of such producer's date garden, the acreage of that garden, and the estimated current season's production from that garden.

[46 FR 9917, Jan. 30, 1981]

§ 987.164 Shipments of product dates and disposition of restricted dates in approved product outlets.

Each handler shall file with the Committee a completed CDAC Form No. 8 showing the shipment of each lot of product dates or the disposition of restricted dates in approved product outlets. This report shall be filed promptly after shipment or disposition of those dates and shall identify the lot, the outlet, the number of containers, and the net weight of the dates. If such dates are sold to an approved date product manufacturer, a copy of the completed form shall be signed and dated by the manufacturer and returned to the Committee. If the lot was certified as product dates and is exported to Mexico, the handler shall
submit completed CDAC Form No. 8 together with completed CDAC Form No. 11(a) to the Committee.

§ 987.165 Other reports.

(a) Exempt sales. Each handler shall file with the Committee, a completed CDAC Form No. 2 showing the quantity and variety of dates sold under exemption during the crop year. The report shall be filed upon the completion of such sales or promptly after the end of the crop year.

(b) Products. Each approved date product manufacturer shall file with the Committee a completed CDAC Form No. 4 showing his beginning and ending inventories of product dates, the quantity received during the crop year, the quantity used, the type and quantity of products manufactured, and his year-end inventory of products. This report shall be filed promptly after the end of each crop year.

§ 987.168 Handler records.

Each handler shall establish complete records which accurately show the quantity of dates handled, disposed of, and withheld. These records shall be maintained for at least 2 years after the end of the crop year of record. Records shall show:

(a) For grower deliveries of dates, the name of each grower, the varieties delivered and the net weight of each variety;

(b) For shipments of dates, the variety, type of pack, net weight and destination or name and address of the person to whom each shipment was sent;

(c) If different from shipments, the variety, type of pack, net weight and purchaser of each quantity of dates sold; and

(d) Manifests, invoices, weight certificates, inventory tabulations, or any other documents necessary to prepare, file, or substantiate the reports required to be filed with the Committee.

§ 987.172 Adjustment of assessment obligation.

In accordance with §§ 987.45 and 987.72, the assessment obligation of FP dates shall be based on the weight of the dates at the time of inspection and certification. However, if such dates are subsequently processed and packed within the area of production, the assessment obligation shall be adjusted to reflect any increase in weight and the obligation shall be placed on the handler agreeing to assume it.

(c) Other failing raisins means any raisins received or acquired by a handler, either as standard raisins or off-grade raisins, which are processed to a point where they qualify as packed raisins but fail to meet the applicable minimum grade standards for packed raisins.

(d) Raisin residual material means defective raisins, stemmer waste, sweepings, and other residue accumulated by a handler from reconditioning raisins or from processing standard raisins and other failing raisins.

§ 989.24a Non-normal outlets.
Non-normal outlets means outlets other than those customarily used for commercial disposition of raisins meeting the then applicable minimum standards for natural condition raisins or packed raisins.

RAISIN ADMINISTRATIVE COMMITTEE

§ 989.26 Establishment and membership.
A Raisin Administrative Committee is hereby established consisting of 47 members of whom 35 shall represent producers, 10 shall represent handlers, 1 shall represent the cooperative bargaining association(s) and 1 shall be a public member. The producer members shall be selected as follows:
§ 989.27 Eligibility.

(a) Producer members representing the cooperative marketing association(s) shall be members of such association(s) engaged in the handling of raisins, each of which acquired not less than 10 percent of the total raisin acquisitions during the preceding crop year, and those members shall be equal to the product, rounded to the nearest whole number, obtained by multiplying 35 by the ratio the cooperative marketing association(s) raisin acquisitions are to the acquisitions of all handlers during the preceding crop year.

(b) Producer members representing cooperative bargaining association(s) shall be members of such associations, and the number of those members shall be equal to the product, rounded to the nearest whole number, obtained by multiplying 35 by the ratio the raisins acquired by handlers from bargaining association members are to the total acquisitions of all handlers during the preceding crop year.

(c) All other producer members who shall not be members of a cooperative bargaining association(s), cooperative marketing association(s) engaged in the handling of raisins which acquired 10 percent or more of the total raisin acquisitions during the preceding crop year, nor sold for cash to cooperative marketing association(s), shall represent all producers not defined in paragraph (a) or (b) of this section and shall be selected in the number and, when appropriate, for the districts as designated in the rules and regulations.

(d) The handler members shall be divided into two groups and include the following:

(1) Handler members shall be selected from and represent cooperative marketing association(s) engaged in the handling of raisins each of which acquired not less than 10 percent of the total raisin acquisitions during the preceding crop year, and the number of those members shall be equal to the product, rounded to the nearest whole number, obtained by multiplying 10 by the ratio the cooperative marketing association(s) raisin acquisitions are to the total acquisitions of all handlers during the preceding crop year.

(2) The remaining handler members shall be selected from and represent all other handlers, which would include all independent handlers and small cooperative marketing association(s) who acquired less than 10 percent of the total raisin acquisitions during the preceding crop year. Handler nominees for this group shall be nominated by all handlers in the group in a manner determined by the Committee, with the approval of the Secretary, and specified in the rules and regulations.

(e) The “cooperative” bargaining association(s) member shall be selected from the cooperative bargaining association(s). The public member shall be nominated by the Committee and selected by the Secretary as public member.

(f) For each member of the Committee there shall be an alternate member who shall have the same qualifications as the member for whom he is an alternate.

§ 989.28 Term of office.

The term of office of all representatives serving on the Committee shall be for two years and shall end on April 30 of even numbered calendar years, but each such member and alternate member shall continue to serve until their successor is selected and has qualified.
§ 989.29 Initial members and nomination of successor members.

(a) Initial members. Members and alternate members of the Committee serving immediately prior to the effective date of this amended subpart shall, if thereafter they are eligible, serve on the Committee until April 30, 1984, and until their respective successors have been selected and qualified.

(b) Nominations for successor members. Nominations for successor members and alternate members of the Committee shall be made as follows:

(1) The Committee shall notify the cooperative marketing association(s) engaged in handling not less than 10 percent of the total raisin acquisitions during the preceding crop year, and cooperative bargaining association(s) of the date by which nominations to fill member and alternate member positions shall be made. The Committee shall give reasonable publicity of a meeting or meetings of producers who are not members of cooperative bargaining association(s), or cooperative marketing association(s) which handled 10 percent or more of the total raisin acquisitions during the preceding crop year, and of independent handlers and cooperative marketing association(s) who handled 10 percent or more of the total raisin acquisitions during the preceding crop year, for the purpose of making nominations to fill the member and alternate member positions prescribed in §989.26(c) and (d). Provided, That member and alternate member nominations by independent handlers and cooperative marketing association(s) who acquired less than 10 percent of the total raisin acquisitions during the preceding crop year may be made to the Committee by mail in lieu of meeting, and

(2)(i) Any producer representing independent producer and producers who are affiliated with cooperative marketing association(s) handling less than 10 percent of the total raisin acquisitions during the preceding crop year must have produced grapes which were made into raisins in the particular district for which they are nominated to represent said district as a producer member or alternate producer member on the committee. In the event any such nominee is engaged as a producer in more than one district, such producer may be a nominee for only one district. One or more producers may be nominated for each such producer member or alternate member position.

(ii) Each such producer whose name is offered in nomination shall be given the opportunity to provide the committee a short statement outlining qualifications and desire to represent on the committee independent producers or producers who are affiliated with cooperative marketing association(s) handling less than 10 percent of the total raisin acquisitions during the preceding crop year. These brief statements, together with a ballot and voting instructions, shall be mailed to all independent producers and producers who are affiliated with cooperative marketing associations handling less than 10 percent of the total raisin acquisitions during the preceding crop year of record with the committee in each district. The producer receiving the highest number of votes shall be designated as the first member nominee, the second highest shall be designated as the second member nominee or alternate member nominee, as the case may be, until nominees for all member and alternate member positions have been filled.

(iii) Each independent producers or producers affiliated with cooperative marketing association(s) handling less than 10 percent of the total raisin acquisitions during the preceding crop year shall cast only one vote with respect to each position for which nominations are to be made. Write-in candidates shall be accepted. The person receiving the most votes with respect to each position to be filled, in accordance with paragraph (b)(2)(ii) of this section, shall be the person to be certified to the Secretary as the nominee. The committee may, subject to the approval of the Secretary, establish rules and regulations to effectuate this section.

(3) One or more eligible handlers for each handler position to be filled may be proposed for nomination to represent independent handlers and cooperative marketing association(s) which acquired less than 10 percent of the total raisin acquisitions during the preceding crop year on the Committee.
§ 989.30 Selection.

The Secretary shall select producer, handler, cooperative bargaining association(s), and public members and alternate members in the number specified in §989.26, as applicable, and with the qualifications specified in §989.27. Such selections may be made from nominations certified pursuant to §989.29 or from other eligible producers, handlers, or cooperative bargaining association(s) officers or employees.

§ 989.53 Research and development.

(a) General. The Committee, with the approval of the Secretary, may establish or provide for the establishment of projects involving marketing research and development and marketing promotion including paid advertising, designed to assist, improve, or promote the marketing, distribution, and consumption of raisins in domestic and foreign markets. These projects may include, but need not be limited to those designed to:

(1) Improve through research the accuracy of raisin production estimates;

(2) Improve through research the preparation for market, sanitation, quality, condition, storability, processing, or packaging of raisins;

(3) Ascertain through research the factors affecting acceptance of raisins by manufacturers or consumers;

(4) Promote the marketing, distribution, or consumption of raisins in domestic and foreign markets by collecting data thereon, consulting with members of the trade, and making the information available to producers, handlers, and exporters; and

(5) Promote the marketing, distribution, or consumption of raisins in foreign markets through the use of merchandising programs.

The expense of any such project relating solely to free tonnage raisins shall be paid from funds collected pursuant to §989.80. The expense of any such project relating solely to reserve tonnage raisins shall be paid from the sale proceeds of such raisins. If any such project encompasses both free tonnage and reserve tonnage raisins, such as one which is designed to promote the consumption in export outlets of raisins generally on a long-term basis, the expense of the project may be allocated between the assessment fund and the pool fund.

(b) Creditable expenditures. The Committee, with the approval of the Secretary, may provide for crediting all or any portion of a handler’s direct expenditures for marketing promotion, including paid advertising, that promotes the sale of raisins, raisin products, or their use. No handler shall receive credit for any allowable direct expenditures that would exceed the total of his assessment obligation which is attributable to that portion of his assessment designated for marketing promotion including paid advertising.

(c) Criteria. Before any project involving marketing promotion, including paid advertising, and the crediting of the handler’s pro rata expense assessment obligation of handlers is undertaken pursuant to this section, the Secretary after recommendation by the Committee, shall approve appropriate criteria to effectively regulate such activity.

[48 FR 32976, July 20, 1983]

§ 989.54 Marketing policy.

(a) Trade demand. On or before August 15 of each crop year, the Committee shall hold a meeting to review shipment data, inventory data, and other matters relating to the quantity of raisins of all varietal types. For any varietal type for which a free tonnage percentage may be recommended, the Committee shall compute a trade demand. The trade demand shall be 90 percent of the prior crop year’s shipments (converted to a natural condition weight) of free tonnage and reserve tonnage sold for free use for that varietal type, into all market outlets, adjusted by the carryin on August 1 of the current crop year and the desirable carryout at the end of that crop year. If the prior year’s shipments were limited because of crop conditions, the Committee may select the shipments of one of the three years preceding the prior crop year. The desirable carryout shall be increased from 45,000 to 60,000 tons for Natural (sun-dried) Seedless raisins at a rate of 5,000 tons per year for three crop years following the effective date of this amended subpart. The desirable
carryout for Dipped Seedless raisins shall be 1,500 tons, and for Oleate and Related Seedless raisins, 1,500 tons. The trade demand computed by the Committee shall be announced by the Committee in accordance with paragraph (h) of this section.

(b) Preliminary percentages. On or before October 5 of each crop year (except that the Committee may extend this date not more than five business days if warranted by a late crop), the Committee shall estimate the production of any varietal type of raisins for which it has computed a trade demand. If the Committee determines that volume regulation is desirable during the crop year for that varietal type, it shall compute and announce preliminary free and reserve percentages for that varietal type: Provided, That such production estimate shall include by varietal type the raisins handlers are expected to acquire from producers and the total tonnage of raisins diverted under a raisin diversion program. The Committee shall compute a preliminary free percentage to release 85 percent of the computed trade demand, if it determines that a field price has been established for that varietal type, or 65 percent of the trade demand if no field price has been established. The preliminary free percentage shall be computed by multiplying the trade demand by either 85 percent or 65 percent (as the case may be) and dividing the product by the estimated production of that varietal type and rounding the resulting percentage to the nearest full percent. The difference between 100 percent and the preliminary free percentage shall be the preliminary reserve percentage.

(c) Interim percentages. Prior to February 15, the Committee may modify the preliminary free and reserve percentages to release less than the trade demand.

(d) Final percentages. No later than February 15, the Committee shall recommend to the Secretary, final free and reserve percentages which will tend to release the full trade demand for any varietal type for which preliminary or interim percentages have been computed and announced. The difference between any final free percentage designated by the Secretary and 100 percent shall be the final reserve percentage. With its recommendation, the committee shall report on its consideration of the factors in paragraph (e) of this section.

(e) Factors. When computing preliminary and interim percentages, or determining final percentages for recommendation to the Secretary, the Committee shall give consideration to the following factors:

1. The estimated tonnage held by producers, handlers, and for the account of the Committee at the beginning of the crop year;
2. The expected general quality and any modifications of the minimum grade standards;
3. The estimated tonnage of standard and off-grade raisins which will be produced;
4. If different than the computed trade demand, the estimated trade demand for raisins in free tonnage outlets;
5. If not estimated as provided in paragraph (a) of this section, an estimated desirable carryout at the end of the crop year and, if applicable, for reserve tonnage;
6. The estimated market requirements for raisins outside free tonnage outlets, considering the estimated world raisin supply and demand situation;
7. Current prices being received and the probable general level of prices to be received for raisins by producers and handlers;
8. The trend and level of consumer income;
9. Any prohibition of trade practices, pursuant to §989.62 intended for the crop year; and
10. Any other pertinent factors bearing on the marketing of raisins including the estimated supply of and demand for other varietal types and regulations applicable thereto.

(f) Modification. In the event the Committee subsequently deems it advisable to modify its marketing policy on any crop, because of national emergency, crop failure, or other major change in economic conditions, it shall hold a meeting for that purpose, and file a report thereof with the Secretary within 5 days (exclusive of Saturdays,
§ 989.54

Sundays, and holidays) after the holding of such meeting, which report shall show such modification and the basis therefor.

(g) Reserve tonnage to sell as free tonnage. On or before November 15 of the crop year, the Committee shall make two simultaneous offers of reserve tonnage to handlers to sell as free tonnage for each varietal type for which preliminary percentages have been computed and announced. One offer shall consist of a quantity equal to 10 percent of the prior year's (or the alternative year selected by the Committee pursuant to paragraph (a) of this section) shipments of free tonnage and reserve tonnage sold for free use into all market outlets to equate the current year's supply with the prior year's shipments. This offer shall be allocated to handlers on the basis of their prior year's acquisitions. The second offer, to provide for market expansion, shall consist of a quantity equal to 10 percent of the prior year's (or the alternative year selected by the Committee pursuant to paragraph (a) of this section) shipments of free tonnage and reserve tonnage sold for free use. Each offer shall be open to handlers who purchase 100 percent of their allocation in preceding offers, and shall be on the basis of the quantity each handler purchased, as a percentage of the total quantity purchased by all handlers eligible to participate. At the close of the second reoffer, any remaining tonnage may be offered to handlers who purchased all of their allocations from previous offers on a first-come first-served basis and such offer shall be open to handlers for one business day. Any handler who had no shipments or acquisitions of raisins during the prior crop year will be allocated raisins under these offers on the basis of his acquisition (up to the time the original offer is made) of raisins in the current crop year. If field prices are not established, the offer shall be made not more than fifteen days following such establishment. The price of reserve tonnage raisins offered to handlers to sell as free tonnage, pursuant to this paragraph, shall be the established field price for free tonnage raisins of that varietal type, plus 3 percent of the established field price, plus the estimated costs incurred by the Committee for equity holders.

(h) Publicity. The Committee shall promptly give reasonable publicity to producers, dehydrators, handlers, and the cooperative bargaining association(s) of each meeting to consider a marketing policy or any modification thereof, and each such meeting shall be open to them. Similar publicity shall be given to producers, dehydrators, handlers, and the cooperative bargaining association(s) of each marketing policy report or modification thereof, filed with the Secretary and of the Secretary's action thereon. Copies of all marketing policy reports shall be maintained in the office of the Committee, where they shall be made available for examination by any producer, dehydrator, handler, or cooperative bargaining association representative. The Committee shall notify handlers, dehydrators and the cooperative bargaining association(s), and give reasonable publicity to producers of its computation of the trade demand, preliminary percentages, and interim percentages and shall notify handlers, dehydrators, and the cooperative bargaining association(s) of the Secretary's action on percentages by registered or certified mail.

Whenever the Secretary finds, from the recommendation and supporting information supplied by the Committee or from other available information, that to designate final free and reserve percentages for any varietal type of standard raisins acquired by handlers, during the crop year will tend to effectuate the declared policy of the Act, the Secretary shall designate such percentages. In the event the Secretary finds that suspension or termination of any percentages computed by the Committee or designated by the Secretary tend to effectuate the declared policy of the Act, the Secretary shall suspend or terminate such percentages.

[48 FR 32977, July 20, 1983]

§ 989.56 Raisin diversion program.

(a) Announcement of program. On or before November 30 of each crop year, the committee shall hold a meeting to review production data, supply data, demand data, including anticipated demand to all potential market outlets, desirable carryout inventory, and other matters relating to the quantity of raisins of all varietal types. When the committee determines that raisins exist in the reserve pool in excess of projected market needs for any varietal type, it may announce the amount of such tonnage eligible for diversion during the subsequent crop year. At the same time, the committee shall determine and announce to producers, handlers, and the cooperative bargaining association(s) the allowable harvest cost to be applicable to such diversion tonnage. A production cap of 2.75 tons of raisins per acre shall be established for any production unit approved for participation in a diversion program. The committee, with the approval of the Secretary, may recommend, at the same time that the diversion tonnage for that season is announced, a change in the production cap for that season's diversion program of less than 2.75 tons per acre for any production unit approved for the diversion program.

(b) Voluntary diversion. No producer shall be required to participate in any raisin diversion program.

(c) Issuance of diversion certificates. After the committee announces a raisin diversion program, any producer may divert grapes of the producer's own production and receive from the committee a diversion certificate in accordance with the applicable rules and regulations. Such certificates may only be submitted by producers to handlers in accordance with applicable rules and regulations. Diversion certificates issued by the committee shall apply to a specific production unit and shall be equal to the creditable fruit weight, not to exceed the production cap established pursuant to paragraph (a) of this section, of such raisins produced on such unit during the prior crop year or the last prior crop year eligible for such diversion: Provided, That in the case of a production unit, or partial production unit, removed from production through vine removal or other means established by the committee, the committee may issue a diversion certificate in an amount greater than the creditable fruit weight of the raisins produced therein or the production cap applicable.

(d) Redemption of diversion certificates. Handlers may redeem diversion certificates for reserve pool raisins. To redeem a certificate, a handler must present the diversion certificate to the Committee and pay the Committee an amount equal to the harvest cost it has established, plus an amount equal to the payment for receiving, storing, fumigating, handling, and inspecting reserve tonnage raisins specified in §989.401 for the entire tonnage represented on the certificate. Upon receipt of the diversion certificate, the Committee shall note on the certificate that it is cancelled.

(e) Implementation of the program. The Committee shall establish, with the approval of the Secretary, such rules and regulations as may be necessary for the implementation and operation of a raisin diversion program.

§ 989.58 Natural condition raisins.

(a) Regulation. No handler shall acquire or receive natural condition raisins which fail to meet such minimum grade and condition standards as the committee may establish, with the approval of the Secretary, in applicable rules and regulations: Provided, That a handler may receive raisins for inspection, may receive off-grade raisins for reconditioning and may receive or acquire off-grade raisins for use in eligible non-normal outlets: And provided further. That a handler may acquire natural condition raisins which exceed the tolerance established for maturity under a weight dockage system established pursuant to rules and regulations recommended by the committee and approved by the Secretary. Nothing contained in this paragraph shall apply to the acquisition or receipt of natural condition raisins of a particular varietal type for which minimum grade and condition standards are not applicable or then in effect pursuant to this part.

(b) Changes in minimum grade and condition standards for natural condition raisins. The committee may recommend to the Secretary changes in the minimum grade and condition standards for natural condition raisins of any varietal type and may recommend to the Secretary that minimum grade and condition standards for any varietal type be added to or deleted. The committee shall submit with its recommendation all data and information upon which it acted in making its recommendation, and such other information as the Secretary may request. The Secretary shall approve any such change if he finds, upon the basis of data submitted to him by the committee or from other pertinent information available to him, that to do so would tend to effectuate the declared policy of the act.

(c) Publicity and notice. The committee shall give prompt and reasonable publicity to producer, dehydrators, and handlers of each regulation issued by the Secretary. Notice of such regulation shall be given to all handlers by registered or certified mail.

(d) Inspection and certification. (1) Each handler shall cause an inspection and certification to be made of all natural condition raisins acquired or received by him, except with respect to: (i) An interplant or interhandler transfer of offgrade raisins as described in paragraph (e)(2) of this section, unless such inspection and certification are required by rules and procedures made effective pursuant to this amended subpart; (ii) an interplant or interhandler transfer of free tonnage raisins as described in §989.59(e); (iii) raisins received from a dehydrator which have been previously inspected pursuant to paragraph (d)(2) of this section; (iv) any raisins for which minimum grade and condition standards are not then in effect; (v) raisins received from a cooperative bargaining association which have been inspected and are in compliance with requirements established pursuant to paragraph (d)(3) of this section; and (vi) any raisins, if permitted in accordance with such rules and procedures as the committee may establish with the approval of the Secretary, acquired or received for disposition in eligible nonnormal outlets. The handler shall be reimbursed by the committee for inspection costs incurred by him and applicable to pool tonnage held for the account of the committee. Except as otherwise provided in this section, prior to blending raisins, acquiring raisins, storing raisins, reconditioning raisins, or acquiring raisins which have been reconditioned, each handler shall obtain an inspection certification showing whether or not the raisins meet the applicable grade and condition standards: Provided, That the initial inspection for infestation shall not be required if the raisins are fumigated in accordance with such rules and procedures as the committee shall establish with the approval of the Secretary. The handler shall submit or cause to be submitted to the committee a copy of such certification, together with such other documents or records as the committee may require. Such certification shall be issued by inspectors of the Processed Products Standardization and Inspection Branch of the U.S. Department of Agriculture.
Agricultural Marketing Service, USDA § 989.58

unless the committee determines, and the Secretary concurs in such determination, that inspection by another agency would improve the administration of this amended subpart. The committee may require that raisins held on memorandum receipt be reinspected and certified as a condition for their acquisition by a handler.

(2) The committee may, in accordance with rules and procedures established with the approval of the Secretary, authorize handlers to receive or acquire natural condition raisins which have been produced by any dehydrator by dehydrating grapes by artificial means and have been inspected and certified on his premises. In the event there have been compliance with committee requirements, any handler who receives or acquires such inspected and certificated raisins shall be deemed to have satisfied the requirements contained in paragraph (d)(1) of this section with respect to inspection and certification of natural condition raisins received or acquired by him.

(3) The committee may, in accordance with rules and the procedures established with the approval of the Secretary, authorize handlers to receive or acquire without further inspection and certification, natural condition raisins, standard or offgrade, which have been inspected, certified and held, in compliance with committee requirements, at a receiving station of a cooperative bargaining association.

(e) Off-grade raisins. (1) Any natural condition raisins tendered to a handler which fail to meet the applicable minimum grade and condition standards may: (i) Be received or acquired by the handler for disposition, without further inspection, in eligible non-normal outlets; (ii) be returned unstemmed to the person tendering the raisins; or (iii) be received by the handler for reconditioning. Off-grade raisins received by a handler under any one of the three described categories may be changed to any other of the categories under such rules and procedures as the committee, with the approval of the Secretary, shall establish. No handler shall ship or otherwise dispose of off-grade raisins which he does not return to the tenderer, transfer to another handler as provided in paragraph (e)(2) of this section, or recondition so that they at least meet the minimum standards prescribed in or pursuant to this amended subpart, except into eligible non-normal outlets.

(2) Off-grade raisins may be transferred from the plant of the handler where received to another plant of his or to that of another handler within the State of California under such rules and procedures as the committee, with the approval of the Secretary, shall establish to safeguard the objectives of this part.

(3) Each handler shall, while holding any off-grade raisins, store them separate and apart from other raisins and the off-grade raisins shall be stored in accordance with disposition and reconditioning categories. The committee with the approval of the Secretary may prescribe rules and procedures for the storage of the raisins.

(4) If the handler is to acquire the raisins after they are reconditioned, his obligation with respect to such raisins shall be based on the weight of the raisins (if stemmed, adjusted to natural condition weight) after they have been reconditioned. If, after such reconditioning, such raisins meet the minimum standards but are no longer natural condition raisins, any handler who acquires such raisins shall meet his reserve tonnage obligations from natural condition standard raisins acquired by him.

(5) The committee shall establish, with the approval of the Secretary, such additional rules and procedures as may be necessary to insure adequate control of off-grade raisins, including, but not limited to, the reconditioning of off-grade raisins, the disposition and use of unsuccessfully reconditioned raisins, and the disposition and use of residual matter from reconditioning operations.

(f) Blending. No handler shall blend raisins except: (1) Incidental to reconditioning raisins as permitted under rules and procedures established by the committee, with the approval of the Secretary; (2) blending standard raisins with standard raisins; or (3) blending raisins which meet the minimum grade standards of grade and condition for blending with other grades and conditions.
§ 989.59 Regulation of the handling of raisins subsequent to their acquisition by handlers.

(a) Regulation. Unless otherwise provided in this part, no handler shall: (1) Ship or otherwise make final disposition of natural condition raisins unless they at least meet the effective and applicable minimum grade and condition standards for natural condition raisins; or (2) ship or otherwise make final disposition of packed raisins unless they at least meet such minimum grade standards established by the committee, with the approval of the Secretary, in applicable rules and regulations or as later changed or prescribed pursuant to the provisions of paragraph (b) of this section: Provided, That nothing contained in this paragraph shall prohibit the shipment or final disposition of any raisins of a particular varietal type for which minimum standards are not applicable or then in effect pursuant to this part.

(b) The committee may recommend changes in the minimum grade standards for packed raisins of any varietal type and may recommend to the Secretary that minimum grade standards for any varietal type be added or deleted. The committee shall submit with its recommendation all data and information upon which it acted in making its recommendation, and such other information as the Secretary may request. The Secretary shall approve any such change if he finds, upon the basis of data submitted to him by the committee or from other pertinent information available to him, that to do so would tend to effectuate the declared policy of the act.

(c) Publicity and notice. The committee shall give prompt and reasonable notice to producers, dehydrators, handlers, and the cooperative bar-

gaining association(s) of each recommendation submitted by it to the Secretary and of each regulation issued by the Secretary. Notice of such regulation shall be given to all handlers of record by registered or certified mail.

(d) Inspection and certification. Unless otherwise provided in this section, each handler shall, at his own expense, before shipping or otherwise making final disposition of raisins, cause and inspection to be made of such raisins to determine whether they meet the then applicable minimum grade and condition standards for natural condition raisins or the then applicable minimum grade standards for packed raisins. Such handler shall obtain a certificate that such raisins meet the aforementioned applicable minimum standards and shall submit or cause to be submitted to the committee a copy of such certificate together with such other documents or records as the committee may require. The certificate shall be issued by the Processed Products Standardization and Inspection Branch of the United States Department of Agriculture, unless the committee determines, and the Secretary concurs in such determination, that inspection by another agency will improve the administration of this amended subpart. Any certificate issued pursuant to this paragraph shall be valid only for such period of time as the committee may specify, with the approval of the Secretary, in appropriate rules and regulations.

(e) Inter-plant and inter-handler transfers. Any handler may transfer from his plant to his own or another handler’s plant within the State of California any free tonnage raisins without having had such raisins inspected as provided in paragraph (d) of this section. The transferring handler shall transmit promptly to the committee a report of such transfer, except that transfers between plants owned or operated by the same handler need not be reported. Before shipping or otherwise making final disposition of such raisins, the receiving handler shall comply with the requirements of this section.

(f) Disposition of offgrade raisins, other failing raisins, and raisin residual material in eligible nonnormal outlets. Any
of grade raisins, except those returned unstemmed to the tenderer or successfully reconditioned, and any raisin residual material which may be received or acquired by a handler or accumulated by a handler from reconditioning raisins or from processing standard raisins and other failing raisins, shall be disposed of or marketed by the handler, without further inspection, in eligible nonnormal outlets: Provided, That no packer shall be precluded from recovering raisins from such accumulations or acquisitions: Provided further, That whenever the Secretary concludes, on the basis of a recommendation of the committee, that to specify one or more nonnormal outlets as ineligible for any class of such receipts, acquisitions, or accumulations will tend to effectuate the declared policy of the act, he shall specify such ineligible outlets and prohibit the shipment thereto or final disposition therein of such class by handlers as well as the receipt and use thereof by processors: And provided further, That no processor who is a distiller shall be precluded from receiving or using for distillation (1) the standard raisins which subsequently fail to meet the said applicable standards, (2) the raisin residual material accumulated from processing standard raisins, or (3) the raisin residual material referable to the standard raisin equivalent recovered in reconditioning; and any handler may ship such raisins and raisin residual material to such processor. The Committee shall establish, with the approval of the Secretary, such rules and procedures as may be necessary to insure adequate control over the off-grade raisins, other failing raisins, and raisin residual material subject to this paragraph. Such rules may include a requirement that the disposition and use of all or any class of off-grade raisins, other failing raisins, or raisin residual material be confined to the area. The provisions of this paragraph are not intended to excuse any failure to comply with all applicable food and sanitary rules and regulations of city, county, State, Federal, or other agencies having jurisdiction.

(g) Exemption of experimental and specialty packs. The committee may establish, with the approval of the Secretary, rules and procedures providing for the exemption of raisins in experimental and specialty packs from one or more of the requirements of the minimum grade standards of this section, together with the inspection and certification requirements if applicable.

§ 989.60 Exemption.

(a) Notwithstanding any other provisions of this amended subpart, the committee may establish, with the approval of the Secretary, such rules and procedures as may be necessary to permit the acquisition and disposition of any off-grade or reserve pool raisins, free from any or all regulations, for uses in non-normal outlets.

(b) The committee may establish, with the approval of the Secretary, such rules and procedures as may be necessary to exempt from any or all regulations raisins produced in southern California (i.e., the counties of Riverside, Imperial, San Bernardino, Ventura, Orange, Los Angeles, and San Diego) and disposed of for distillation, livestock feed, or by export in natural condition to Mexico.

(c) The committee may designate such raisins as it deems appropriate for production, processing, and marketing research and development. The period of such designation shall be for not more than five years unless extended by the committee. The volume which may be acquired by all handlers shall not exceed 500 natural condition tons annually for each designated project, unless increased by the Secretary upon recommendation of the committee. Such designated raisins may be acquired and disposed of free from those regulations specified by the committee. In any crop year, when the total industry acquisitions of the designated raisins exceed 500 natural condition tons or a larger quantity approved by the Secretary upon recommendation of the committee, the exemption shall not apply.

§ 989.60 Exemption.

(a) Notwithstanding any other provisions of this amended subpart, the committee may establish, with the approval of the Secretary, such rules and procedures as may be necessary to permit the acquisition and disposition of any off-grade or reserve pool raisins, free from any or all regulations, for uses in non-normal outlets. Provided, That no packer shall be precluded from recovering raisins from such accumulations or acquisitions: Provided further, That whenever the Secretary concludes, on the basis of a recommendation of the committee, that to specify one or more nonnormal outlets as ineligible for any class of such receipts, acquisitions, or accumulations will tend to effectuate the declared policy of the act, he shall specify such ineligible outlets and prohibit the shipment thereto or final disposition therein of such class by handlers as well as the receipt and use thereof by processors: And provided further, That no processor who is a distiller shall be precluded from receiving or using for distillation (1) the standard raisins which subsequently fail to meet the said applicable standards, (2) the raisin residual material accumulated from processing standard raisins, or (3) the raisin residual material referable to the standard raisin equivalent recovered in reconditioning; and any handler may ship such raisins and raisin residual material to such processor. The Committee shall establish, with the approval of the Secretary, such rules and procedures as may be necessary to insure adequate control over the off-grade raisins, other failing raisins, and raisin residual material subject to this paragraph. Such rules may include a requirement that the disposition and use of all or any class of off-grade raisins, other failing raisins, or raisin residual material be confined to the area. The provisions of this paragraph are not intended to excuse any failure to comply with all applicable food and sanitary rules and regulations of city, county, State, Federal, or other agencies having jurisdiction.

(g) Exemption of experimental and specialty packs. The committee may establish, with the approval of the Secretary, rules and procedures providing for the exemption of raisins in experimental and specialty packs from one or more of the requirements of the minimum grade standards of this section, together with the inspection and certification requirements if applicable.
§ 989.61 Above parity situations.

The provisions of this part relating to minimum grade and condition standards and inspection requirements, within the meaning of section 2(3) of the act, and any other provisions pertaining to the administration and enforcement of the order, shall continue in effect irrespective of whether the estimated season average price to producers for raisins is in excess of the parity level specified in section 2(1) of the act.

TRADE PRACTICES

§ 989.62 Authorization for prohibition of trade practices.

Whenever the Secretary finds, upon recommendation of the committee or other information, that continuance of certain practices in trade channels would tend to interfere with the achieving of the objectives of this part, he may prohibit handlers from using such practices, for any crop year or portion thereof, in selling raisins in containers exceeding four pounds net weight. The prohibited practices may include:

(a) Any provision within or added to a sales contract, or action or agreement outside such contract, whereby the handler is obligated to reflect declines in market prices of raisins by charging the buyer a subsequent market price in lieu of the sales price specified in the contract.

(b) Any agreement in an undertaking to hold raisins in reserve for possible future delivery to a buyer, or action or agreement outside such undertaking, whereby the handler is obligated to not reflect increases in market prices by charging the buyer a price specified in the agreement.

Prior to any such practices being prohibited in any crop year, the committee shall recommend, for the approval of the Secretary, such rules and procedures and such record keeping requirements as are necessary to administer these prohibitions and obtain compliance therewith.

[48 FR 32977, July 20, 1983]

§ 989.65 Free and reserve tonnage.

The standard raisins acquired by handlers which are free tonnage, and any reserve tonnage purchased for free use, may be disposed of by him in any marketing channel, subject to the applicable provisions of this part. A handler’s free tonnage of a varietal type of raisin shall be either the free percentage of the standard raisins of the varietal type acquired by him or all of the standard raisins of the varietal type acquired by him if no free percentage is established by the Committee or designated by the Secretary for that varietal type. A handler’s reserve tonnage of a varietal type shall be the reserve percentage of the standard raisins of that varietal type acquired by him.

§ 989.66 Reserve tonnage generally.

(a) The standard raisins acquired by a handler which are designated as reserve tonnage and reserve tonnage transferred to a handler by the committee shall be held by him for the account of the committee and subject to the applicable restrictions of this part.

(b)(1) Each handler shall hold in storage all reserve tonnage acquired by him and all reserve tonnage transferred to him by the committee until he has been relieved of such responsibility by the committee either by delivery to the committee or otherwise. Such handler shall store such reserve tonnage raisins in natural condition without addition of moisture and in such manner as will maintain the raisins in the same condition as when he acquired them, except for normal and natural deterioration and shrinkage, except for loss through fire, acts of God or other conditions beyond the handler’s control.

(2) Reserve tonnage acquired by a handler or transferred to a handler by the committee shall be stored separate and apart from other raisins to such extent and identified in such manner as the committee shall specify in its rules and procedures with the approval of the Secretary.

(3) Each handler may, under the direction and supervision of the committee, substitute for any reserve tonnage
raisins a like quantity of standard raisins of the same varietal type and of the same or more recent year’s production. Each such handler shall give the committee reasonable advance notice of his intention to substitute, the exact location of the raisins for which substitution is to be made, and arrange with the committee a mutually satisfactory time for the substitution.

(4) The committee may, after giving reasonable notice, require a handler to deliver to it, or to anyone designated by it, at such handler’s warehouse or at such other place as the raisins may be stored, part or all of the reserve tonnage raisins held by such handler. Reserve tonnage raisins delivered by any handler to the committee, or to any person designated by it, in the form of natural condition raisins shall in the aggregate be not more than 2 percent less than the average maturity level of all raisins such handler acquired during the applicable crop year. The committee may require that such delivery consist of natural condition raisins, or it may arrange for such delivery to consist of packed raisins.

(c) Each handler shall, at all times, hold in his possession or under his control reserve tonnage referable to his acquisitions of standard raisins and reserve tonnage transferred to him by the committee, less any quantity of such reserve tonnage released to him by a change of percentages, delivered by him pursuant to instructions of the committee or sold to him by the committee.

(d) Reserve tonnage raisins delivered by any handler to the committee, or to any person designated by it, whether in the form of natural condition raisins or packed raisins shall meet the applicable minimum grade or grade and condition standards, except for normal and natural deterioration. The committee shall have the authority to require, in its discretion and at its expense, such reinspection and certification of reserve pool tonnage raisins as it may deem necessary.

(e) In the event the committee offers to handlers reserve tonnage raisins for contract packing or for sale in export, as provided in §989.67, each handler shall be given the opportunity to pack or purchase his share of each offer.

(f) Handlers shall be compensated for receiving, storing, fumigating, handling, and inspection of that tonnage of reserve raisins determined by the reserve percentage of a crop year and held by them for the account of the committee, in accordance with a schedule of payments established by the committee and approved by the Secretary. A box rental shall be paid by the committee to producers or handlers for boxes used in storing reserve tonnage raisins beyond the crop year of acquisition in accordance with a rental schedule established by the committee and approved by the Secretary. The handler compensation shall be reviewed annually and shall be paid, as to the amount determined to be earned and unpaid, as soon as practicable after the end of the second quarter of the crop year and quarterly thereafter.

(g) The committee shall have the authority, in its discretion, to obtain loans, nonrecourse or otherwise, on any part of the reserve tonnage not
subject to release as desirable free tonnage and to pledge or hypothecate the raisins on which such loans are obtained as security therefor: Provided, That in every such case, there shall be included in the loan agreement a provision to the effect that, in case the lender obtains possession or control of such raisins, he will dispose of them in such a manner as will not tend to defeat the objectives of this amended subpart. The net proceeds of any such loan shall be distributed by the committee pursuant to paragraph (h) of this section.

(h) The net proceeds from the disposition of reserve tonnage raisins of any varietal type shall be distributed by the committee to the respective producers, or their successor in interest thereto, on the basis of the volume of their respective contributions to the reserve tonnage of such varietal type. Distribution of the proceeds in connection with the reserve tonnage contributed by a nonprofit cooperative marketing association which has authority to market the raisins of its members and to allocate the proceeds therefrom to such members shall be made to such association. Advance or progress payments may be made by the committee, in conformity with the provisions of this paragraph, as sufficient funds become available.

(b) Reserve tonnage raisins shall be disposed of by the committee: (1) By sale to handlers for sale in specified outlets or for resale to exporters for sale in export outlets; (2) by direct sale to any agency of the U.S. Government for noncompetitive use; (3) by direct sale to foreign government agencies or foreign importers in any country not listed pursuant to paragraph (c) of this section or where the procurement of raisins is so regulated as to preclude purchases from domestic handlers; (4) by gift; and (5) by any other means consistent with the provisions of this section, and in outlets noncompetitive with those for free tonnage raisins.

(c) The committee shall sell reserve raisins to handlers for export sale to countries on a list established by the Secretary, on the basis of the recommendation of the committee or from other available information. The list of countries shall be reviewed by the committee annually when it reviews matters relating to the free tonnage, and shall recommend any changes in the list to the Secretary for approval. No country may be removed from the list for the purpose of permitting direct sale by the committee unless a finding is made by the committee and approved by the Secretary, that such removal and subsequent direct sale by the committee shall not lead to disruption of sale of reserve tonnage raisins by handlers in other countries on the list, and that although handlers have been able to offer reserve tonnage raisins at competitive prices to the country to be so removed, there remains an unfilled demand in such country which has not been supplied by
handlers and which could be supplied by the committee at the same prices by means of direct sale.

(d)(1) Reserve tonnage raisins shall be sold to handlers at prices and in a manner intended to maximum producer returns and achieve maximum disposition of such raisins by the time reserve tonnage raisins from the subsequent crop year are available. The committee may pay the cost of transporting reserve tonnage from one handler to another and in the event a handler has more than one plant, the committee may pay the cost of transporting reserve tonnage to the handler’s plant of its choice. In each offer or reoffer of reserve tonnage raisins for export, the committee may include a quantity of raisins not to exceed 2 percent of the total tonnage offered in such offer or reoffer, which it may sell to handlers whose regular allocation provides insufficient tonnage to fill a containerized freight shipping container. Provided, That such sale may be made only when the remaining portion of a handler’s regular allocation will fill at least 50 percent of such container and shall be made to a handler only one time in each offer or reoffer of reserve tonnage raisins. No offer or reoffer shall be made until 5 days (exclusive of Saturdays, Sundays, and holidays) have elapsed from the time it files with the Secretary complete information as to varietal type, quantity, and price involved in such offer or reoffer, and the Secretary may disapprove the offer or reoffer or any term thereof. Provided, That at any time prior to the expiration of the 5-day period, the offer or reoffer may be made to handlers upon the committee receiving from the Secretary notice that he does not disapprove the making of the offer or reoffer. Subject to the same conditions as are set forth in the preceding sentence with respect to the making of such offer or reoffer, the committee may withdraw an offer or reoffer to sell reserve tonnage raisins to handlers or may extend the offer or reoffer period but not when such extension would deprive one or more handlers of an opportunity to purchase raisins.

(2) Except for the final offer of the reserve tonnage from a crop year, an offer of reserve tonnage raisins for export shall provide for a specific tonnage. Each handler’s share of the reserve tonnage offered prior to November 1 of any crop year shall be determined as the same proportion of the quantity offered that the free tonnage raisins acquired by him during the preceding crop year is of the free tonnage raisins acquired by all handlers during the preceding crop year who remain handlers. If reserve tonnage raisins have been removed by the committee from a handler’s premises pursuant to §989.66(f), such handler’s allocation of reserve pool offers subsequent to such removal and prior to November 1 of the following crop year shall be reduced by the percentage such removed reserve tonnage is of the total reserve tonnage acquired by such handler in the crop year. Subsequent to October 31, each handler’s share shall be determined as the same proportion of the quantity offered that the free tonnage raisins acquired by the handler during the then current crop year is of the total free tonnage raisins acquired by all handlers during the then current crop year. With respect to any offer other than the initial offer, each handler’s share of the total quantity offered as of that date (the then current offer plus all prior offers of that crop year) shall first be determined by the appropriate formula. His share of the current offer shall then be determined by subtracting from his share of the total quantity offered, the total of his share of prior offers from the beginning of the crop year. If any handler did not acquire raisins during the preceding crop year, the basis for his share of any quantity of reserve tonnage raisins offered prior to November 1 shall be his acquisitions of free tonnage raisins during the then current crop year. The current free tonnage acquisitions of all such new handler shall, for the purposes of determining the shares of all handlers prior to November 1, be added to the total acquisitions of free tonnage raisins during the preceding crop year of all handlers in business at the time the offer is made.

(3) With respect to any offer of reserve tonnage for sale to handlers for resale in export, the committee may provide that any such tonnage unpurchased at the end of the share
reservation period will be reoffered to handlers without regard to shares and that approval for handlers' applications for purchase may be made in the same order in which the applications are received by the committee. Such reoffer may be made by the committee at the time it makes a regular offer of reserve tonnage, at any time during the period a regular offer is in effect, or within a reasonable time after a regular offer has expired.

(4) The final offer of the reserve tonnage from a crop year may be offered to handlers without regard to shares and approval of handlers' applications for purchase may be made in the same order in which the applications are received by the committee.

(5) Whenever a handler's share or allocation pursuant to this paragraph is less than or exceeds his holdings of reserve tonnage by a minor quantity, the committee may adjust the handler's share or allocation so as to avoid the cost of the physical transfer. The maximum quantity by which a handler's share or allocation may be so allocated shall be prescribed in rules and procedures which the committee shall establish with the approval of the Secretary.

(e) The committee may sell reserve tonnage raisins as provided in paragraph (b)(3) of this section only when such country is not included in the list of specified countries established pursuant to paragraph (c) of this section and may sell reserve tonnage raisins to foreign government agencies of foreign importers in any country removed from such list. No agreement to sell reserve tonnage raisins shall be entered into by the committee until 5 days (exclusive of Saturdays, Sundays, and holidays) have elapsed from the time it files with the Secretary complete information as to varietal type, quantity, price and foreign country involved in any such proposed sale, and the Secretary may disapprove such sale or any term thereof: Provided, That, at any time prior to the expiration of the 5-day period, the sale may be made upon the committee receiving from the Secretary notice that he does not disapprove the making of the sale.

(f) Whenever the committee concludes that the orderly disposition of reserve tonnage would be promoted by the committee replacing any portion or all of handlers' export shipments of free tonnage raisins, to other than free tonnage outlets, made prior to the committee's first offer to sell reserve tonnage, it may do so and may specify such requirements and conditions as are necessary to carry out the replacement consistent with the objectives of this amended subpart. The committee may establish a price for such replacement tonnage which is higher, the same as, or lower than that for reserve tonnage in the first offer of the crop year. Any such replacement offer by the committee shall be governed by those provisions of paragraph (d)(1) of this section which prescribe prior action by the Secretary on committee offers to sell tonnage to handlers.

(g)(1) The committee may, subject to review by the Secretary, refuse to sell reserve tonnage raisins for export:

(i) To any handler who is in default on any previous purchase of reserve tonnage raisins from the committee;

(ii) To any handler currently not in compliance with the provisions of a sales agreement covering reserve tonnage raisins, executed by such handler with the committee; or

(iii) To any handler who signifies an intention to sell reserve tonnage to or through any person who has previously failed to complete a sale of reserve tonnage raisins to a foreign buyer and such raisins remain to be exported and remain unsold to any foreign buyer in an eligible export market.

(2) Handlers who are in default of timely payment under any purchase agreement are subject to an interest and late payment charge(s) recommended by the committee and approved by the Secretary on the delinquent amount that is owed the committee. The interest charge shall be the current prime rate plus 2 percent established by the bank in which the committee has its administrative assessment funds deposited, on the day the amount owed becomes delinquent; and further, that such rate of interest be added to the bill monthly until the handler's delinquent amount owed plus applicable interest has been paid: Provided, That the committee, with the approval of the Secretary, may recommend changes in the rate of interest.
to another rate of interest. When the committee determines to change the rate of interest or a late payment charge is needed, and such change is approved by the Secretary, the committee shall announce the change in the rate of interest or the rate of late payment charge through a mailing by the committee to handlers.

(3) **Appeals.** If a determination is made by the committee that a handler has not complied with the provisions of this section and any actions allowed under this section are taken against the handler, such handler may request a hearing before an appeals subcommittee established by the committee. If the handler disagrees with the subcommittee’s decisions, the handler may request the committee to review the subcommittee’s decision. The committee may, subject to the approval of the Secretary, establish additional procedures concerning appeals.

(h) Each packer’s share of an offer of reserve tonnage raisins for contract packing shall be determined as the same proportion that the reserve tonnage raisins acquired by him is of the reserve tonnage raisins acquired by all packers. In the event that any packer fails to contract for packing any or all of his share of any offer, the remaining portion thereof shall be reoffered by the committee to all packers who contracted for packing all of their respective shares, in proportion to their respective acquisitions: Provided, That, if such amount which packers fail to contract for packing does not exceed 250 tons, or if it is necessary to deviate from the foregoing in order to meet terms and conditions of shipment, the committee may, in its discretion, allocate such reserve tonnage raisins among packers as it deems appropriate, but the shares of packers in subsequent offers or reoffers shall be adjusted accordingly.

(i) In the event the committee determines that the applicable procedures as specified in paragraphs (d) and (h) of this section will not provide an allocation for handlers which is suitable for a particular situation, the committee, with the approval of the Secretary, may establish such modifications of procedures, consistent with §989.66(e), as will facilitate the disposition of reserve tonnage through the handlers.

(j) The committee shall not sell reserve tonnage raisins of any varietal type to handlers to provide them with raisins to sell as free tonnage, other than as provided in §989.54, unless it files with the Secretary complete information and receives from the Secretary notice that he does not disapprove of such sale and that because of: National emergency, crop failure; change of economic or marketing conditions; free tonnage shipments during the then current crop year exceeding shipments of a comparable period of the prior crop year by more than 5 percent: Provided, That, such sale of reserve tonnage shall be limited to the quantity exceeding 105 percent of shipments for the first 10 months of the prior crop year; and/or an inadequate carryover, the free tonnage outlets cannot be reasonably well supplied by the tonnage released to the industry as a whole by the committee’s marketing policy for that varietal type. Any quantities of reserve raisins offered to handlers for free use, except as provided in §989.54(g), may be offered to them on the basis of handler shipments or acquisitions in the same manner as in paragraph (d)(1) of this section. If offered on the basis of acquisitions, shares shall be determined pursuant to paragraph (d)(2) of this section. If offered on the basis of shipments, the same formula shall be used, except that shipments shall be used as the basis instead of acquisitions in computing handlers’ shares. However, such raisins shall not be sold at a price below that which the committee concludes reflects the average price received by producers for free tonnage of the same varietal type purchased by handlers during the current crop year up to the time of any offer for sale of reserve tonnage by the committee, to which shall be added the costs to the equity holders incurred by the committee on account of receiving, inspecting, storing, fumigating, insuring, and holding of said raisins, and including costs of taxes and interest: Provided, That, where the outlook for the next crop year or other factors have caused a downward trend in the prices received by producers for free tonnage raisins or
in the prices received by handlers for free tonnage packed raisins, reserve tonnage may be sold to handlers at the currently prevailing or the approximate computed field price for free tonnage raisins, as determined by the committee. The committee may sell reserve tonnage raisins of any varietal type to any handler to provide him with raisins to sell as free tonnage if such handler has lost all or part of his free tonnage because of fire or other disaster beyond his control subject to the applicable provisions of this paragraph and in an amount equal to such tonnage so lost.

EFFECTIVE DATE NOTE: At 62 FR 50484, Sept. 26, 1997, in §989.67, at paragraph (j), the words “by more than 5 percent” and “105 percent of” in the first sentence were suspended indefinitely, effective Sept. 29, 1997.

§ 989.70 Storage of raisins held on memorandum receipt and of packer-owned tonnage.

All raisins stored by a handler for another person on memorandum or warehouse receipt, or raisins produced and stored by a handler, shall be stored separate and apart from other raisins and shall be clearly marked or tagged as raisins stored on memorandum or warehouse receipt or as raisins produced by the handler but not acquired by him in his capacity as a handler.

§ 989.71 Disposition of unsold reserve tonnage in above parity situations.

In the event that the Secretary should find, during a crop year when reserve tonnage percentages have been designated and are in effect pursuant to this part, that the estimated season average price for raisins for that crop year will be in excess of the price level contemplated by the provisions of section 2(1) of the act, he shall issue an order providing for the orderly disposition of the unsold reserve tonnage then on hand, in such outlets, at such times, and in accordance with such terms and conditions, as he may determine to be appropriate in the circumstances. In determining the liquidation procedures and terms, the Secretary shall give consideration to the data and recommendations, if any, which may be submitted by the committee.

[32 FR 12164, Aug. 24, 1967]

§ 989.72 Exemption of educational institutions.

The committee may exempt, wholly or in part, from the volume regulation provisions of this part, that volume of raisins received or acquired by public or private educational agencies or institutions incidental to or in connection with teaching, experimental, or research activities.

REPORTS AND RECORDS

§ 989.73 Reports.

(a) Inventory reports. Each handler shall, upon request of the committee, file promptly with the committee a certified report, showing such information as the committee shall specify with respect to any raisins which were held by him on a date designated by the committee, which information as specified may include, but not be limited to: (1) The quantity of any raisins so held, segregated as to varietal type, natural condition, packed, standard quality or off-grade quality; and (2) the locations of the raisins.

(b) Acquisition reports. Each handler shall submit to the committee in accordance with such rules and procedures as are prescribed by the committee, with the approval of the Secretary, certified reports, for such periods as the committee may require, with respect to his acquisitions of each varietal type of raisins during the particular period covered by such report, which report shall include, but not be limited to: (1) The total quantity of standard raisins acquired; (2) the quantity of reserve tonnage referable to his acquisitions of standard raisins; (3) the locations of such reserve tonnages; (4) the total quantity of off-grade raisins acquired pursuant to §989.58(e)(1)(i); and (5) cumulative totals of such acquisitions from the beginning of the then current crop year to and including the end of the period for which the report is made. Upon written application made to the committee, a handler may be relieved of submitting such reports.
after completing his packing operations for the season. Upon request of the committee, each handler shall furnish to the committee, in such manner and at such times as it may require, the name and address of each person from whom he acquired raisins and the quantity of each varietal type of raisins acquired from each such person.

(c) Each handler shall file such reports of creditable promotion including paid advertising as recommended by the Committee and approved by the Secretary.

(d) Other reports. Upon the request of the committee, with the approval of the Secretary, each handler shall furnish to the committee such other information as may be necessary to enable it to exercise its powers and perform its duties under this amended part.

§ 989.76 Records.

Each handler shall maintain such records of all raisins received, and of all raisins acquired, by him as prescribed by the committee. Such records shall include, but not be limited to, the quantity of raisins of each varietal type acquired from each person and the name and address of each such person, total acquisitions, total sales, and total other disposition of each varietal type which he handles, and each handler shall maintain such records for at least two years after the termination of the crop year in which the transactions occurred. The Committee, with the approval of the Secretary, may prescribe rules and regulations to include under this section handler records that detail promotion and advertising activities which the Committee may need to perform its functions under §989.53.

§ 989.77 Verification of reports and records.

For the purpose of checking and verifying reports filed by handlers and records prescribed in or pursuant to this amended subpart, the committee, through its duly authorized representatives, shall have access to any handler’s premises during regular business hours and shall be permitted at any such times to inspect such premises and any raisins held by such handler, and any and all records of the handler with respect to the holding or disposition of raisins by him and promotion and advertising activities conducted by handlers under §989.53. Each handler shall furnish all labor and equipment necessary to make such inspections. Each handler shall store raisins in a manner which will facilitate inspection, and shall maintain storage records which will permit accurate identification of raisins held by him or theretofore disposed of. Insofar as is practicable and consistent with the carrying out of the provisions of this amended subpart, all data and information obtained or received through checking and verification of reports and records shall be treated as confidential information.

the maintenance and functioning of the committee and for such purposes as he may, pursuant to this subpart, determine to be appropriate. The funds to cover such expenses shall be obtained by levying assessments as provided in §989.80. The committee shall file with the Secretary for each crop year a proposed budget of these expenses and a proposal as to the assessment rate to be fixed pursuant to §989.80, together with a report thereon. Such filing shall be not later than October 5 of the crop year, but this date may be extended by the committee not more than 5 days if warranted by a late crop. Also it shall file at the same time a proposed budget of the expenses likely to be incurred during the crop year in connection with reserve raisins held for the account of the committee, exclusive of the receiving, storing, fumigating, and handling expenses which are covered by a schedule of payments to handlers effective pursuant to §989.66(f) or any rules and procedures established by the committee, and exclusive of any expenses it may incur in connection with the disposition of such raisins and which are unknown at the time. The said report shall also cover this proposed budget.

§989.80 Assessments.

(a) Each handler shall, with respect to free tonnage acquired by him, and any reserve tonnage released or sold to him for use in free tonnage outlets, pay to the committee, upon demand, his pro rata share of the expenses (exclusive of expenses for receiving, fumigating, handling, holding or disposing of reserve pool tonnage) which the Secretary finds will be incurred, as aforesaid, by the committee during each crop year less any amounts credited pursuant to §989.53. Such handler’s pro rata share of such expenses shall be equal to the ratio between the total free tonnage acquired by such handler plus any reserve tonnage released or sold to him for use as free tonnage, during the applicable crop year and the total free tonnage acquired by all handlers plus all reserve tonnage released or sold to all handlers for use as free tonnage, during the same crop year:

Provided. That (1) in computing the total free tonnage acquired by a particular handler, there shall be excluded all standard raisins (recovered by the reconditioning of offgrade raisins) acquired by the handler and which comprise the assessable portion of another handler pursuant to paragraph (b) of this section, and (2) the computation of the total free tonnage acquired by all handlers shall not be similarly reduced.

(b) Each handler who reconditions offgrade raisins but does not acquire the standard raisins recovered therefrom shall, with respect to his assessable portion of all such standard raisins, pay to the committee, upon demand, his pro rata share of the expenses which the Secretary finds will be incurred by the committee each crop year. Such handler’s pro rata share of such expenses shall be equal to the ratio between the handler’s assessable portion (which shall be a quantity equal to the free tonnage portions of such handler’s standard raisins which are acquired by some other handler or handlers) during the applicable crop year and the total free tonnage acquired by all handlers, plus all reserve tonnage released or sold to all handlers for use as free tonnage, during the same crop year.

(c) During any crop year or any portion of a crop year for which volume percentages are not effective for a varietal type, all standard raisins of that varietal type acquired by handlers during such period shall be free tonnage for purposes of levying assessments pursuant to this section. The Secretary shall fix the rate of assessment to be paid by all handlers on the basis of a specified rate per ton. At any time during or after a crop year, the Secretary may increase the rate of assessment to obtain sufficient funds to cover any later finding by the Secretary relative to the expenses of the committee. Each handler shall pay such additional assessment to the committee upon demand. In order to provide funds to carry out the functions of the committee, the committee may accept advance payments from any handler to be credited toward such assessments as may be levied pursuant to this section against such handler during the crop year.
Agricultural Marketing Service, USDA

§ 989.85 Payment of assessments

The payment of assessments for the maintenance and functioning of the committee, and for such purposes as the Secretary may pursuant to this subpart determine to be appropriate, may be required under this part throughout the period it is in effect, irrespective of whether particular provisions thereof are suspended or become inoperative.

(d) Each handler shall, with respect to administrative assessments not paid within 30 calendar days of the date of the Committee’s invoice, pay to the Committee interest on the unpaid assessment at the rate of the prime rate established by the bank in which the Committee has its administrative assessment funds deposited, on the day that the administrative assessment becomes delinquent plus 2 percent; and further, that such rate of interest be added to the bill monthly until the delinquent handler’s assessment plus applicable interest has been paid: Provided, That the Committee may, with the approval of the Secretary, modify the interest rate applicable to delinquent handler’s assessment through the establishment of applicable rules and regulations.

§ 989.81 Accounting.

(a) If, at the end of the crop year, the assessments collected for such crop year exceed the expenses incurred with respect to such crop year, each handler’s share of such excess shall be credited to him against, and may be used for, the operations of the following crop year, unless such handler demands payment thereof, in which case his share shall be paid to him.

(b) The committee may, with the approval of the Secretary, maintain in its own name or in the name of its members, a suit against any handler for the collection of such handler’s pro rata share of the expenses.

§ 989.82 Expenses of reserve raisin operations.

The committee is authorized to incur such expenses as are reasonable and are necessary in discharging its obligations, pursuant to this part, with respect to the receiving, fumigating, handling, holding, or disposing of any quantity of reserve pool raisins held for the account of the committee. The committee is authorized to pay any taxes assessed against raisins held by or for the account of the committee on March 1, or such assessment date as later changed and then in effect, in the reserve pool established pursuant to this subpart: Provided, That any equity holder may pay his taxes upon giving notice to the committee on or before May 1 of each year of his intention to do so. All pool expenses shall be deducted from the proceeds obtained by the committee from the sale or other disposal of such reserve raisins held for the account of the committee.

§ 989.83 Funds.

All funds received by the committee pursuant to the provisions of this part, shall be used solely for the purposes authorized, and shall be accounted for in the manner provided, in this part. The Secretary may, at any time, require the committee and its members and alternate members to account for all receipts and disbursements.

§ 989.84 Disposition limitation.

No handler shall dispose of free or reserve tonnage raisins, offgrade raisins, or other failing raisins, except in accordance with the provisions of this subpart or pursuant to regulations issued by the committee.

§ 989.85 Personal liability.

No member or alternate member of the committee or any employee or agent thereof shall be held personally responsible, either individually or jointly with others, in any way whatsoever, to any handler or any person, for errors in judgment, mistakes, or other acts either of commission or omission, as such member, alternate member,
§ 989.86 Separability.

If any provision of this amended subpart is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder of this amended subpart or the applicability thereof to any other person, circumstance, or thing shall not be affected thereby.

§ 989.87 Derogation.

Nothing contained in this amended subpart is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 989.88 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this amended subpart shall cease upon the termination of this amended subpart, except with respect to acts done under and during the existence of this subpart.

The Secretary may, by a designation in writing, name any person, including any officer or employee of the United States Government, or name any bureau or division in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this amended subpart.

§ 989.90 Effective time.

The provisions of this amended subpart, as well as any amendments to this amended subpart shall become effective at such time as the Secretary may declare, and shall continue in force until terminated, or during suspension, in one of the ways specified in § 989.91.

§ 989.91 Suspension or termination.

(a) The Secretary may, at any time, terminate the provisions of this amended subpart by giving at least one day’s notice by means of a press release or in any other manner which he may determine.

(b) The Secretary shall terminate or suspend the operation of any or all of the provisions of this amended subpart, whenever he finds that such provisions do not tend to effectuate the declared policy of the act.

(c) The Secretary shall terminate the provisions of this amended subpart at the end of any crop year whenever he finds that such termination is favored by a majority of the producers who, during a representative period determined by the Secretary, have been engaged in the production for market of grapes used in the production of raisins in the State of California: Provided, That such majority have, during such representative period, produced for market more than 50 percent of the volume of such grapes produced for market within said State; but such termination shall be effective only if announced before July 31 of the then current crop year.

(d) The provisions of this amended subpart shall, in any event, terminate whenever the provisions of the act authorizing them cease to be in effect.

§ 989.92 Proceedings after termination.

(a) Upon the termination of the provisions of this amended subpart, the members of the committee then functioning shall continue as joint trustees for the purpose of liquidating the affairs of the committee, of all funds and property then in the possession or under the control of the committee, including claims for any funds unpaid or property not delivered at the time of such termination. Action by said trusteeship shall require the concurrence of a majority of the said trustees.

(b) Said trustees shall continue in such capacity until discharged by the Secretary; shall, from time to time, account for all receipts and disbursements and deliver all property on hand, together with all books and records of
§ 989.104 Lot.

(a) Natural condition raisins—(1) Basic definition. For the purpose of incoming and outgoing inspection of natural condition raisins, *lot* means, except as otherwise provided in this paragraph, the quantity of such raisins of the same varietal type or of differing varietal types when commingled within their containers (including sweat and picking boxes and bins), which does not exceed a car, truck, or truck-trailer load, and which is submitted for inspection at one time and in the same place.

(2) Separation of large units. If a quantity of raisins in excess of a car, truck, or truck-trailer load is submitted for inspection, the total quantity may, at the discretion of the inspector, be separated into such readily identifiable portions, either prior to or in the course of inspection, as can be conveniently and properly inspected, and each such portion shall constitute a lot.

(3) Resubmission after reconditioning. Raisins which are submitted for inspection after reconditioning (such as sorting or drying) and whose original lot identity is no longer applicable, shall be a new lot.

(4) Meeting and failing portions. Where a portion of a quantity of raisins submitted for inspection meets the minimum grade and condition standards and has been separated from the remainder of the raisins falling to meet such standards:

The committee and the joint trustees, to such person as the Secretary may direct; and shall, upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all of the funds, property, and claims vested in the committee or the joint trustees pursuant to this subpart.

(c) Any person to whom funds, property or claims have been transferred or delivered by the committee or its members, pursuant to this section, shall be subject to the same obligations imposed upon the members of the said committee and upon said joint trustees.

§ 989.93 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this amended subpart or any regulation issued pursuant to this amended subpart, or the issuance of any amendment to either thereof, shall not (a) affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this amended subpart or any regulation issued under this amended subpart, (b) release or extinguish any violation of this amended subpart, or of any regulation issued under this amended subpart, or (c) affect or impair any rights or remedies of the Secretary or of any other person, with respect to any such violation.

Every decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time. Upon such disapproval, the disapproved action of the committee shall be deemed null and void.

(2) Separation of large units. If a quantity of raisins in excess of a car, truck, or truck-trailer load is submitted for inspection, the total quantity may, at the discretion of the inspector, be separated into such readily identifiable portions, either prior to or in the course of inspection, as can be conveniently and properly inspected, and each such portion shall constitute a lot.

(3) Resubmission after reconditioning. Raisins which are submitted for inspection after reconditioning (such as sorting or drying) and whose original lot identity is no longer applicable, shall be a new lot.

(4) Meeting and failing portions. Where a portion of a quantity of raisins submitted for inspection meets the minimum grade and condition standards and has been separated from the remainder of the raisins falling to meet such standards:
(i) The meeting portion shall be one lot; and
(ii) The remainder shall be one or more lots as necessary to cause each lot to contain either (a) a single defect in excess of tolerance or (b) two or more of the same defects in excess of tolerance occurring together within each of the individual containers.

(5) Entire quantity failing. Where the entire quantity of raisins submitted for inspection fails to meet such standards, then, whether such quantity shall be one or more lots shall be determined in the same manner as for the failing remainder referred to in paragraph (a)(4) of this section.

(6) Special condition. Notwithstanding other provisions of this section, any quantity of raisins failing to meet such standards and which are not to be reconditioned may be a single lot.

(b) Packed raisins. For the purpose of outgoing inspection of packed raisins, lot means: (1) For in-line inspection (i.e., where samples are drawn from a flow of raisins prior to packaging), the aggregate quantity of raisins of the same varietal type, subtype, or size (or in their mixed form), processed in any continuous production of one calendar day and packaged in one size and style of package but excluding those rejected by inspection; and (2) for floor inspection (i.e., where samples are drawn from containers of raisins), the aggregate quantity of such raisins in like containers but not necessarily processed in one continuous production or during one calendar day, identifiable and offered for inspection as a lot.

§ 989.129 Voting at nomination meetings.

Any person (defined in § 989.3 as an individual, partnership, corporation, association, or any other business unit) who is engaged, in a proprietary capacity, in the production of grapes which are sun-dried or dehydrated by artificial means to produce raisins and who qualifies under the provisions of § 989.29(b)(2) shall be eligible to cast one vote for a nominee for each producer member position and one vote for a nominee for each producer alternate member position on the committee which is to be filled for his district. Such person must be the one who or which: (a) Owns and farms land resulting in his or its ownership of such grapes produced thereon; (b) rents and farms land, resulting in his or its ownership of all or a portion of such grapes produced thereon; or (c) owns land which he or it does not farm and, as rental for such land, obtains the ownership of a portion of such grapes or the raisins. In this connection, a partnership shall be deemed to include two or more persons (including a husband and wife) with respect to land the title to which, or leasehold interest in which, is vested in them as tenants in common, joint tenants, or under community property laws, as community property. In a landlord-tenant relationship, wherein each of the parties is a producer, each such producer shall be entitled to one vote for a nominee for each producer member position and one vote for a nominee for each producer alternate member position. Hence, where two persons operate land as landlord and tenant on a share-crop basis, each person is entitled to one vote for each such position to be filled. Where land is leased on a cash rental basis, only the person who is the tenant or cash renter (producer) is entitled to vote. A partnership or corporation, when eligible, is entitled to cast only one vote for a nominee for each producer position to be filled in its district.

§ 989.139 Compensation for attendance of alternates at Committee meetings.

Whenever a member of the Raisin Administrative Committee has reason to believe that he will be unable to attend a Committee meeting and has so notified his alternate or the Committee manager, such notification or a request from the manager shall be held to be a request for the alternate to attend and he shall be reimbursed for reasonable expenses subject to the limitations contained in § 989.39.

§ 989.154 Desirable carryout levels.

The desirable carryout levels to be used in computing and announcing a crop year’s marketing policy shall be equal to the total shipments of free tonnage of the prior crop year during August, September, and one-half of October, for each varietal type, converted to a natural condition basis: Provided, That should the prior year’s shipments be limited because of crop conditions, the Committee may select the total shipments during the months of August, September, and one-half of October during one of the three crop years preceding the prior crop year.

§ 989.156 Raisin diversion program.

(a)(1) Quantity to be diverted. On or before November 30 of each crop year, the Committee shall announce the quantity of raisins eligible for a raisin diversion program. On or before January 15 of each crop year, the Committee may announce an increase in the tonnage eligible for a raisin diversion program. The quantity eligible for diversion may be announced for any of the following varietal types of raisins: Natural (sun-dried) Seedless, Muscat (including other raisins with seeds), Sultana, Zante Currant, Monukka, and Other Seedless raisins. At the same
time the Committee shall determine and announce to producers, handlers, and the cooperative bargaining association(s) the allowable harvest cost to be applicable to such diversion tonnage. The factors to be reviewed by the Committee in determining allowable harvest costs shall include but not be limited to: Costs for picking, turning, rolling, boxing, paper trays, vineyard terracing, hauling to the handler, and crop insurance.

(2) The Committee may limit any season’s diversion program to production units on which producers agree to remove the vines. Such restriction shall be announced at the time the tonnage available for that season’s diversion program is announced.

(b) Application for diversion certificates. Any producer desiring to participate in a raisin diversion program shall file with the Committee, by certified mail, prior to December 20 of the crop year; an application on Form RAC–1000, “Application for Raisin Diversion Certificate” together with a copy of any two of the following four documents: Plot Map from County Hall of Records; irrigation tax bill; county property tax bill; or any other document containing an Appraisal Parcel Number. Such application shall include at least the following information:

(1) The name, address, and telephone number of the producer;
(2) The location and size of the production unit to be diverted;
(3) The raisin production by varietal type on such production unit during the prior crop year or the last crop year eligible for such diversion;
(4) The handler to whom such raisins were delivered;
(5) A statement identifying whether the applicant will remove the vines in the production unit under the program;
(6) A statement that all persons with an equity interest in the grapes in the production unit to be diverted consent to the filing of the application; and
(7) A statement that the producer agrees to comply with the regulations established for a raisin diversion program.

The producer applicant shall sign the application certifying that the information contained therein is true and correct.

(c) Handling of applications. After the Committee receives the producer applications, it shall review them to determine whether all the required information has been provided and appears reliable. Any incomplete application shall be returned to the producer applicant for correction together with a statement of the error or omission in the application. The applicant shall have a reasonable opportunity to correct such application. However, such correction must be received by the Committee on or before January 12.

(d) Priority of applications and allocations of tonnage. Those producer applications indicating that the vines of the producing units will be removed shall receive first priority over other applicants when reserve tonnage under the program is to be allocated. Grafting vines of one varietal type to another varietal type does not constitute removal under the program. If the production volume in such applications exceeds the amount of diversion tonnage available under the program, a lottery will be held to allocate such diversion tonnage among the applicants. In conducting any lottery under this section, the Committee may group producer applications on a handler-by-handler basis, and separate lotteries will be held for each such group. The diversion tonnage of raisins available for each such group in each lottery may not exceed the percentage of total handler acquisitions acquired by the group’s handler during the previous crop year. To the extent diversion tonnage exists after such group lotteries, such remaining diversion tonnage may be allocated by one lottery of all remaining producer applications. If reserve tonnage exists under the program after the allocation of diversion tonnage has been made to all eligible producer applicants who remove vines, all other applications shall be considered. If the production volume in such applications exceeds the amount of reserve raisin tonnage remaining under the program, a lottery will be held to allocate the remaining diversion tonnage in the manner described above.

(e) Approval of applications. The Committee shall notify the applicant for diversion, in writing, as to whether or not the application has been approved.
If the application is not approved, the notification shall state the reason(s) for disapproving the application.

(f) Disclosure of information. The applicant, whose application has been approved, agrees that by participating in the raisin diversion program, the information in the application may be disclosed to the Committee, its representatives, or agents. The Committee, its representatives, or agents may not use this information for any personal use and shall comply with all applicable provisions pertaining to the unauthorized disclosure of such information.

(g) Verification. Any applicant whose application has been approved, authorizes Committee representatives and agents to have access to the production unit in the diversion program during reasonable business hours during the crop year to confirm compliance with the program. Notice will be provided to the applicant of such visits.

(h) Compliance. (1) Methods of diversion. An approved applicant shall be required to remove the vines, spur-prune the vines, remove the bunches or take other means to preclude grapes from being produced and harvested on the production unit: Provided, That vine removal may be the only means of diversion in some seasons as determined and announced by the Committee. Bunches which occur on vines in an approved production unit shall be removed and destroyed by the applicant before maturity. If the Committee representatives or agents determine that there is an average of more than four bunches per vine remaining on an approved production unit, the producer shall be notified immediately by certified mail, in writing, and given 2 weeks to remove such bunches. Grafting vines of one varietal type to another varietal type does not constitute removal of vines under the program.

(2) Period of diversion. An approved applicant must remove the grapes, or vines, indicated on the application within the production unit designated in the application not later than June 1 of the crop year in which a raisin diversion program is implemented. Producers who remove the vines on a production unit after August 15 may qualify for a diversion program for that crop year if a diversion program is announced and if diversion on that unit and vine removal after August 15 can be documented and verified.

(3) Failure to divert. Any raisin producer who does not take the necessary measures to remove the grapes on an approved production unit by June 1, or any raisin producer who has indicated the removal of vines or the intent to remove the vines and who does not remove such vines on an approved production unit by June 1, shall not be issued a diversion certificate, may be subject to liquidated damages and interest charges as provided in paragraph (q) of this section, may be subject to an injunctive action under the Act, and may be denied the opportunity to participate in the next diversion program, when implemented: Provided, That any producer who has more than one production unit and fails to divert on an approved production unit may be denied the opportunity to participate on all of that producer’s production units, in the next diversion program. For spur-pruned vines, this date may be extended 2 weeks from the date of the inspection of a producer’s vineyard if more than four bunches on spur-pruned vines are present at the time of inspection.

(i) Issuance of certificates. When preliminary percentages are announced, the Committee shall issue diversion certificates to those approved applicants who have removed grapes in accordance with this section. Such certificates shall represent an amount of reserve tonnage raisins equal to the amount of raisins diverted from the production unit(s) specified in the producer application, or additional quantity granted by the Committee when vines are diverted through vine removal or any other means established by the Committee, as the case may be. If, prior to issuance of a certificate, the Committee is notified by an approved applicant that such applicant’s interest in the production unit(s) involved in the program has been transferred to another person, the Committee may substitute the transferee for the applicant provided the transferee agrees to comply with the provisions of this section.
(j) Submission of diversion certificates from producer to handlers. Diversion certificates may be submitted by producers only to handlers. The handler shall pay the producer for the free tonnage applicable to the diversion certificate minus the established harvest cost for the entire tonnage shown on the certificate.

(k) Redemption of certificates. Any handler holding diversion certificates may redeem such certificates for reserve pool raisins from the Committee. To redeem a certificate, a handler must present the diversion certificate to the Committee and pay the Committee an amount equal to the established harvest costs plus an amount equal to the payment for receiving, storing, fumigating, handling, and inspecting raisins as specified in §989.401 for the entire tonnage shown on the certificate. Handlers who acquire diversion certificates from producers shall report acquisitions of such certificates and submit them for redemption in a manner and for the reporting periods provided in §989.173(b) for the acquisition of raisins acquired from producers. The Committee shall issue a reserve release entitling the handler to an amount equal to the established harvest costs plus an amount equal to the payment for receiving, storing, fumigating, handling, and inspecting raisins as specified in §989.401 for the entire tonnage shown on the certificate. Upon receipt of the diversion certificate, the Committee shall note on the certificate that it is cancelled. Diversion certificates will only be valid and honored if presented to the Committee for redemption on or before December 15 of the crop year for which they were issued.

(l) Lost, damaged, or destroyed certificates. The Committee should be notified of any lost, damaged, or destroyed certificates as quickly as possible by a handler or producer so that appropriate measures such as issuing new certificates may be taken.

(m) Appeals. If a determination is made by the Committee that a producer has not complied with these regulations and is not entitled to a diversion certificate, that a producer is subject to liquidated damages and interest or that a producer is denied the opportunity to participate in the next RDP, such producer may request a hearing before an appeals subcommittee established by the Committee. If a producer disagrees with the subcommittee's decision, the producer may request the Committee to review the subcommittee's decision. If the producer disagrees with the Committee's decision upon review, the producer may, through the Committee, request the Secretary's review of the decision.

(n) Voiding certificates. If, subsequent to a diversion certificate being issued to a producer but before it has been submitted to a handler, the Committee determines that the producer did not comply with these regulations, it shall void the certificate.

(o) Production unit. For the purposes of the raisin diversion program, a production unit is a clearly defined geographic area with permanent boundaries (either natural or man-made). A producer must be able to document to the Committee the previous year's production data for that specific area by means of sales receipts or other delivery or transfer documents which indicate the creditable fruit weight delivered to handlers from that specific area. If the information submitted by producers on the application concerning a unit's production is significantly greater than past production on the unit, production on neighboring units, or the industry norm, or the production is unable to be verified based on submitted documentation, the Committee may request additional documentation such as tray count, payroll records, prior years' production, and insurance records to substantiate the tonnage of raisins produced on all production units that such applicant controls or owns. Producers would not be precluded from submitting other information substantiating production if those producers' desired. A new production unit will not be eligible for the raisin diversion program until at least 1 year's production has been grown and is documented. An existing production unit, transferred to a new or expanding producer, is eligible for the raisin diversion program as soon as the previous year's production can be properly documented.

(p) Handling of reserve pool tonnage released when diversion certificates are redeemed. Handlers shall comply with the applicable provisions of the order and administrative rules and regulations.
§ 989.157 Raisins produced from grapes grown outside of California.

(a) Any raisins produced from grapes grown outside the State of California that are received by a handler shall be observed and marked for identification by an inspector. As provided in §989.157(b)(7), the inspection service for the reserve pool tonnage released under the raisin diversion program in the same manner as raisins acquired from producers. Such provisions shall include, but not be limited to, reporting, satisfying reserve pool obligations, payment of assessments, storing reserve tonnage, and the remedies in the event of failure to deliver reserve tonnage raisins.

(q) Liquidated damages and interest charges. By applying to participate in a raisin diversion program, an applicant agrees that the failure of the approved applicant to timely remove the vines or grapes will cause serious and substantial damage to the program and the raisin industry and that, in consideration of the approval of the application, such applicant will pay liquidated damages and interest to the Committee, in the event of such failure to timely remove vines or grapes. Since it would be difficult, if not impossible, to determine the amount of such liquidated damages, the following amount, which is a fair measure of damages and not a penalty, shall apply:

(1) The amount of the liquidated damages shall be computed by multiplying the tonnage on the approved diversion application (Form RAC–1000) by the harvest cost determined and announced by the Committee.

(2) Each approved applicant shall, with the respect to liquidated damages not paid by July 1, pay to the Committee interest on such unpaid liquidated damages at the rate of the prime rate of the bank in which the Committee has its reserve pool funds deposited, on the day the liquidated damages become delinquent, plus 2 percent, and further such rate of interest shall be added to the unpaid amount, monthly, until the liquidated damages plus applicable interest are paid.

(3) Liquidated damages and interest collected by the Committee pursuant to this subparagraph shall be deposited in the reserve pool fund of the reserve pool applicable to the particular diversion program and be distributed to the equity holders in that pool.

(r) Notification. If any changes are made in the terms and conditions of the diversion program after a producer’s application has been approved, the Committee will notify the producer of such changes and the producer will be given 10 calendar days to agree to the revised terms, or to withdraw from the program. Failure of the producer to notify the Committee in writing of its intention to withdraw from the program within 10 calendar days from the date of the Committee’s notice will constitute agreement to the revised terms and conditions.

(s) Additional opportunity for vine removal. (1) The Committee may announce a date later than that provided in §989.156(b), by which producers, who agree to remove the vines on a production unit may file an application to participate in a raisin diversion program. The announced date shall be not later than May 1. The diversion certificates will be issued only for the production units from which vines are removed. The total tonnage available to such applicants shall not exceed the tonnage determined by deducting the tonnage approved for applications received on or before December 20 from the total tonnage announced as eligible by the Committee for diversion. Applications shall be considered and approved on a first-come, first-served, basis and shall not be given preference over the tonnage approved for applications received on or before December 20. The vines shall be removed from the production units for which such applications are approved not later than June 1.

(2) Producers who agree to remove the vines pursuant to this paragraph shall notify the Committee in advance of the date when such vines will be removed in order to allow a representative of the Committee to observe and verify such vine removal.

Agricultural Marketing Service, USDA § 989.158

may request information needed to properly mark such raisins for identification; it shall be the handler's responsibility to arrange for such identification and furnish required documentation promptly.

(b) In the absence of an inspector to observe and mark such raisins for identification, the handler shall not permit the unloading to occur unless the handler has a written statement from the inspection service that an inspector cannot be furnished within a reasonable time: Provided, That raisins so unloaded shall be observed and marked properly upon an inspector being available.

(c) The handler shall notify the inspection service in writing at least one business day in advance of the time such handler plans to begin receiving raisins produced from grapes grown outside the State of California, unless a shorter period is acceptable to the inspection service.

(d) Raisins produced from grapes grown outside of the State of California and received by a handler shall be marked for identification by the inspector affixing to one container on each pallet or to each bin in each lot a prenumbered RAC control card (to be furnished by the Committee) which shall remain affixed until the raisins are processed and disposed of or disposed of as natural condition raisins. The cards shall be removed only by an inspector of the inspection service or authorized Committee personnel.

(e) Each handler shall store raisins produced from grapes grown outside the State of California separate and apart from all other raisins held by such handler to the satisfaction of the Committee. Storage of such raisins shall be deemed "separate and apart" if the containers are marked as raisins produced from grapes grown outside the State of California and placed so as to be readily and clearly identified.

(f) Any raisins received by a handler produced from grapes grown outside the State of California shall be processed and/or disposed of under the surveilance of the inspection service. The handler shall notify the inspection service in writing at least one business day in advance of the time such processing and/or disposition will occur, unless a shorter period is acceptable to the inspection service.

(g) The handler receiving raisins produced from grapes grown outside of California shall pay fees assessed by the inspection service to identify and maintain surveillance of such raisins.

§ 989.158 Natural condition raisins.

(a) *Incoming inspection.*

(i) The Committee shall, upon request of a handler who complies with the requirements of this part with respect to inspection points, designate as his inspection point any place (including his plant or receiving station) where the handler receives raisins.

(ii) Each handler shall, at his expense, provide at each of his inspection points reasonably safe and adequate facilities for receiving raisins, drawing samples, and efficient inspection of natural condition raisins. At the time of inspection of any lot, the handler shall, at his expense, provide the inspector with any assistance necessary in the inspection of the raisins, including the movement of individual containers. Each handler, other than a processor, shall maintain with the Committee a current written description, defining the boundaries and other pertinent details, of each of his inspection points. In the event the Committee determines that any inspection point, or any modification thereof, does not comply with the definition or the requirements of this part, it shall notify the handler of the changes necessary for compliance. The handler shall make such changes promptly. In the event any of his inspection points is the same as that of another handler or person receiving raisins or grapes in any form, the handler shall maintain his raisins separate and apart from any other raisins.

(iii) The weight of each lot of raisins tendered for receiving, storage, reconditioning, acquisition, or disposition shall be substantiated by an official "State Certificate of Weights and Measures" issued by a public weighmaster, whether located at the inspection point or otherwise, or such other document approved by the Committee which accurately reflects the weight of each lot tendered. The net...
weight of such raisins for the purposes of this part, shall be determined by deducting the sand tare and box tare from the gross weight of the raisins. The sand tare shall be the weight of the sand and other foreign material removed from the raisins by passing the raisins over a screen (of a type commonly used by the industry for such purpose) having 36 square openings to the square inch, with each opening being one-eighth of an inch square.

(2) No handler, other than a processor, shall receive at points other than at an inspection point, natural condition raisins from a tenderer, either for acquisition, storage, reconditioning, inspection, or for disposition in eligible nonnormal outlets: Provided, That this requirement shall not preclude a handler from dehydrating, free from the provisions of this part, at separate dehydrating facilities recognized in §989.105 and located in California, raisins not delivered to an inspection point. Any handler who accepts raisins at an inspection point for drying or other reconditioning shall be deemed to have received the raisins for reconditioning and shall be subject to the provisions of this part with respect to such raisins.

(3) For each lot of natural condition raisins received by a handler for acquisition, reconditioning, storage, inspection, or for disposition in eligible nonnormal outlets, the handler shall, immediately upon physical receipt and tentative acceptance thereof, issue a prenumbered (numbered serially in advance) door receipt or weight certificate showing the name and address of the tenderer, the weight of the lot, the number and type of containers in the lot, and any other information necessary to identify the lot. For the purposes of identifying incoming lots of raisins, other than dehydrated raisins covered by paragraph (e) of this section, a handler, if it is impracticable for him to issue immediately a door receipt or weight certificate, may issue for temporary use only a prenumbered “Request for USDA Inspection” on a form furnished by the Committee. Any such raisins so received by a handler shall, prior to their acceptance, be inspected at an inspection point during the unloading process, and if certified as standard raisins shall be, unless returned to the tenderer, either promptly acquired by the handler or received for storage on memorandum receipt: Provided, That in the absence of an inspector to perform inspection during unloading, the handler shall not permit unloading to occur unless such absence is during normal business hours and the handler has a written statement from the inspection service to the effect that inspection cannot be furnished within a reasonable time: And provided further, That the raisins so unloaded shall be inspected promptly upon an inspector being available. It shall be the handler’s responsibility in any case to arrange for the inspection, other than with respect to dehydrated raisins covered by paragraph (e) of this section, and furnish weight certificates promptly. Any raisins received by a handler as off-grade for disposition in eligible non-normal outlets or for reconditioning may be accepted uninspected: Provided, That an application for receiving such uninspected raisins shall be submitted by the handler, on a form furnished by the Committee, to the Inspection Service prior to, or upon physical receipt of, such off-grade raisins. Such form shall provide for at least the name and address of the tenderer (equity holder), date, number, and type of containers, net weight of the raisins, and the particular defect(s) the handler indicates would cause the raisins to be off-grade. Handlers shall complete and sign the form. The application for such uninspected raisins shall not be acceptable unless signed by the tenderer. The uninspected raisins shall be subject to surveillance by the Inspection Service. Each lot of raisins accepted by a handler for reconditioning shall be reconditioned separately from any other lot.

(4) If any lot of natural condition raisins tendered to a handler is separated into two or more lots because a portion of the original lot failed to meet minimum grade and condition standards, or because the entire lot failed due to more than one defect, the handler indicates would cause the raisins to be off-grade. Handlers shall complete and sign the form. The application for such uninspected raisins shall not be acceptable unless signed by the tenderer. The uninspected raisins shall be subject to surveillance by the Inspection Service. Each lot of raisins accepted by a handler for reconditioning shall be reconditioned separately from any other lot.
lot, and the number and type of containers in the lot. The weight of any meeting lot shall be determined by weighing it, or by weighing the failing portion of the incoming lot and deducting the weight thereof from the weight of the incoming lot. The weight of each failing lot shall be determined by weighing it, or by deriving such weight by applying the original average container weight to the number of containers.

(5) Any financially interested party may, upon the payment of any fees assessed by the inspection service, obtain an appeal inspection. An appeal inspection shall be applicable only to raisins which have not been removed from their containers, with pallet control cards still affixed, are readily identifiable, and have not been removed from the original inspection point: Provided, That when the condition of a lot of such raisins may have changed subsequent to the original inspection, an additional inspection, rather than an appeal inspection, may be obtained.

(6) Raisins produced by a handler shall be subject to the requirements of paragraph (a)(3) and (4) of this section upon delivery to an inspection point. Raisins produced by a handler by dehydration within an inspection point shall be subject to the requirements of paragraph (a)(3) and (4) of this section immediately upon completion of said dehydration.

(7) The inspection certificate for a mixed lot of natural condition raisins (raisins of different varietal types commingled within their containers) shall show the percentage which the raisins of each varietal type is of the total raisins contained in the lot.

(8) With respect to any lot of natural condition raisins being received and inspected at a handler’s inspection point pursuant to paragraph (a)(3) of this section and notwithstanding separation of the meeting portion of the original lot from the failing portions thereof for the purposes on §989.104 and paragraph (a)(4) of this section, any tenderer may, when permitted by the handler and when notified by the inspector of defects during the inspection and certification process, and in accordance with the provisions of this subparagraph, perform any one or more of the following on an individual box basis: (i) Mix raisins within boxes containing raisins that are wet, or of high moisture content in some areas of the box; (ii) dump raisins from wet boxes into dry boxes; (iii) remove wet raisins; or (iv) remove foreign material such as sandbars, puncture vine seed, Eucalyptus pods or leaves, rocks, and sticks. This authorization to the tenderer shall not extend to raisins in containers larger than sweat boxes; and the number of boxes in the original lot on which the aforementioned actions may be performed during such process shall not exceed ten, or five percent of the total number of containers in the lot, whichever is less.

(9) With respect to any lot (as defined in §989.104(a)(1)) of natural condition raisins being received and inspected at a handler’s inspection point pursuant to paragraph (a)(3) of this section and notwithstanding separation of the meeting portion of the original lot from the failing portions thereof for the purposes on §989.104 and paragraph (a)(4) of this section, any tenderer may, when permitted by the handler and when notified by the inspector of defects during the inspection and certification process, and in accordance with the provisions of this subparagraph, perform any one or more of the following on an individual box basis: (i) Mix raisins within boxes containing raisins that are wet, or of high moisture content in some areas of the box; (ii) dump raisins from wet boxes into dry boxes; (iii) remove wet raisins; or (iv) remove foreign material such as sandbars, puncture vine seed, Eucalyptus pods or leaves, rocks, and sticks. This authorization to the tenderer shall not extend to raisins in containers larger than sweat boxes; and the number of boxes in the original lot on which the aforementioned actions may be performed during such process shall not exceed ten, or five percent of the total number of containers in the lot, whichever is less. Where the percentage computation results in a fraction of a box and is less than ten boxes, it shall be rounded upward to the next number. The entire
§ 989.158
lot of raisins shall remain under surveillance of the inspector during such process. The actions of the tenderer shall be done without delay, take place at the unloading dock in the inspection point, or in the immediate area thereof, and be under observation of the inspector.

(b) Submission of inspection certificates to the Committee. A copy of each inspection certificate which a handler is required to submit to the Committee pursuant to §989.58(d) shall be submitted not later than Wednesday of the week following the week for which such certificate was issued. This may be accomplished by authorizing the inspection service to submit a copy of each such inspection certificate directly to the Committee. A copy of such authorization shall be furnished to the Committee.

(c) Off-grade raisins—(1) Holding and identification. The inspection certificates covering any lot of off-grade raisins shall state whether or not such off-grade raisins are storable. Any raisins which do not meet the applicable grade and condition standards shall be classified in one of the three categories specified in §989.58(e)(1) within 5 business days (excluding Saturdays, Sundays, and holidays) after inspection or 3 such business days after issuance of the inspection certificate, whichever is later: Provided, That these time limits may be extended by the Committee under such conditions as it may deem necessary in the circumstances. The handler shall report to the Committee the information as required and specified in §989.173(b)(5). Any such lot of off-grade raisins shall be identified immediately following inspection by fixing to a container on each pallet a pre-numbered RAC control card (to be furnished by the Committee), and kept separate and apart from any other raisins in the handler’s possession. In the event the handler does not normally use pallets in his operation the RAC control card shall be affixed to one or more of the containers in each lot. The RAC control cards shall remain fixed to the containers until the raisins are (i) disposed of by the handler in eligible nonnormal outlets, (ii) returned unstemmed to the tenderer, or (iii) submitted for reconditioning. The cards shall be removed only by an inspector of the inspection service or authorized Committee personnel, except control cards designating lots held only for fumigation may be removed by the handler after the completion of fumigation to the satisfaction of the inspection service. Each lot of off-grade raisins not returned to the tenderer shall be stored by the handler separate and apart by varietal types from all other raisins and by disposition and conditioning categories which preserve the lot identity and, if for reconditioning, the defect identity. Off-grade raisins shall be stored in such a manner as to be accessible to the Committee.

(2) Change in off-grade categories. After raisins have been classified as to the categories in §989.58(e)(1), any lot of natural condition off-grade raisins held by a handler under paragraph (i) or (iii) of §989.58(e)(1), may be changed to the other category, or to paragraph (ii). Prior to making such change the handler shall notify the inspection service in writing at least one business day in advance of the time he plans to begin such change. Any off-grade lot under paragraph (ii) of §989.58(e)(1) which has not been removed from the handler premises and is identifiable with the original inspection, may be tendered to the handler for the purposes of paragraph (i) or (iii) of §989.58(e)(1) and, if accepted, the handler shall so report to the Committee. It shall be the responsibility of the handler to establish and maintain the identity of the raisins in the changed categories in accordance with the applicable provisions of paragraph (c)(1) of this section. Where the tenderer has a financial interest in the raisins the handler shall, before making any change in category, submit to the Committee evidence of the tenderer’s permission to make any such change, except for changes from paragraph (i) or paragraph (iii) to paragraph (ii) of §989.58(e)(1).

(3) Interplant and interpacker transfer of off-grade raisins. Any packer may, pursuant to §989.58(e)(2) and under the surveillance of the inspection service, transfer to or from another packer’s plant in California, any off-grade raisins for reconditioning. Such transfer may be for the packer’s convenience or
that of a financially interested person. Where a tenderer or other person has a financial interest in the raisins, the handler shall first obtain the tenderer’s or other interested person’s written agreement to the transfer. The handler shall notify the inspection service in advance and in writing on a form to be provided by the Committee, of the time he plans to transfer each lot and shall send a copy of the notification to the Committee. The notification shall be at least 1 business day in advance of the transfer unless a shorter period is acceptable to the inspection service. In the same manner except for the tenderer’s or other person’s written agreement, any packer may transfer off-grade raisins from one of his plants or inspection points to another of his plants in California. In both cases such raisins may be removed directly to the premises of the receiving packer or another plant of the packer under the surveillance of the inspection service. Upon completion of the transfer all applicable provisions of this part shall apply with respect to such raisins and the packer receiving them.

(4) Reconditioning off-grade raisins—reconditioning requirements. (i) The handler shall notify the inspection service in writing at least one business day in advance of the time he plans to begin reconditioning each lot of raisins, unless a shorter period is acceptable to the inspection service. Natural condition raisins which have been reconditioned shall continue to be considered natural condition raisins for purposes of reinspection (inspection pursuant to §989.58(d)) or setaside by a handler to satisfy the handler’s reserve pool obligation, after such reconditioning has been completed, if no water or moisture has been added; otherwise, such raisins shall be considered as packed raisins. The weight of the raisins reconditioned successfully shall be determined by reweighing, except where a lot, before reconditioning, failed due to excess moisture only. The weight of such raisins resulting from reconditioning a lot failing account excess moisture may be determined by deducting 1.2 percent of the weight for each percent of moisture in excess of the allowable tolerance. When necessary due to the presence of sand, as determined by the inspection service, the requirement for deducting sand tare and the manner of its determination, as prescribed in paragraph (a)(1) of this section, shall apply in computing the net weight of any such successfully reconditioned natural condition raisins. If, after reconditioning, such raisins meet the minimum grade standards, but no longer are natural condition raisins as defined in §989.8, any handler who acquires such raisins shall meet his reserve obligation from natural condition standard raisins of the same varietal type acquired by him. The weight of the reconditioned raisins acquired as packed raisins shall be adjusted to natural condition weight by the use of factors applicable to the various degrees of processing accomplished. The applicable factor shall be that selected by the inspector of the reconditioned raisins from among factors established by the Committee with the approval of the Secretary.

(ii) In reconditioning off-grade raisins, a handler shall use methods designed to remove the defects whereby the lot fails to qualify as standard raisins. Lots with identical defects may be reconditioned simultaneously (commingled basis) but lots with differing defects shall be reconditioned as separate lots.

(5) General. Reconditioning of off-grade raisins by a handler shall be done in accordance with such procedures as will enable the inspector to observe the off-grade raisins at any time and to make a proper inspection. A packer may recover raisins from residual raisin material obtained from his reconditioning operations in conformity with the applicable provisions of §989.159(g)(1).

(6) Off-grade raisins which are not reconditioned successfully. (i) Except as provided in paragraph (c)(6)(ii) of this section, no handler shall return to the tenderer any off-grade raisins received for reconditioning which, after his reconditioning of them is complete, have been stemmed and which then fail to meet the applicable minimum grade standards. Any raisins which fail to meet the applicable minimum grade and condition standards or minimum grade standards after reconditioning
and all residual material from reconditioning, held by the handler, shall be identified promptly by affixing to one or more containers in each lot, or to a container in each pallet if pallets are used, a prenumbered RAC control card as prescribed in paragraph (c)(1) of this section: Provided, That such failing raisins and residual material which are placed directly into trucks or trailers for immediate disposition need not be identified by affixing thereto a RAC control card. The handler shall hold the failing raisins and the residual material separate and apart from all other raisins. The control cards shall be removed from the containers only by an inspector of the inspection service or authorized Committee personnel. The handler shall physically dispose of the residual material, and any failing raisins which he does not return unstemmed to the tenderer, only in eligible nonnormal outlets as provided in §989.159(g)(2).

(ii) Any packer may arrange for or permit the tenderer to remove the stemmed raisins (described in paragraph (c)(6)(i) of this section), but not the residual, directly to the premises, within California, of another packer for further reconditioning of the raisins at the latter’s premises. Such removal and transfer shall be made under the surveillance of the inspection service. The packer shall notify the inspection service as required in paragraph (c)(3) of this section and shall obtain from the receiving packer a written statement that he will receive the raisins for reconditioning. The notification shall be on a form provided by the Committee, and a copy thereof and of the receiving packer’s statement shall be forwarded by the transferring packer to the Committee. Such raisins may be received by the other packer without inspection. On and after such receipt of the raisins for further reconditioning, all applicable provisions of this part shall apply with respect to such raisins and the packer so receiving them.

(d) Reinspection of raisins held more than one hundred and twenty days on memorandum receipt. No handler shall acquire raisins held on memorandum receipt for a period longer than one hundred and twenty (120) days unless such raisins have been reinspected and certified immediately prior to acquisition as meeting the minimum requirements for standard raisins: Provided, That the Committee at any other time may require such reinspection and certification of raisins held on memorandum receipt as a prerequisite to acquisition if it has reason to believe that the raisins do not then meet such requirements.

(e) Inspection of raisins on dehydrator’s premises—(1) Application and agreement. (i) Any dehydrator may submit to the Committee for approval, and the Committee may approve, in accordance with the provisions of this paragraph an application and agreement, on a form furnished by the Committee, providing for dehydrator on-premise inspection of natural condition raisins produced by the dehydrator by subjecting grapes to artificial heat. Raisins so produced are referred to in paragraph (a)(3) of this section and in this paragraph as “dehydrated raisins.”

(ii) The provisions of such application and agreement shall include at least the following:

(a) The dehydrator shall request the inspection service to inspect all dehydrated raisins which the dehydrator produces and to issue a related memorandum report of inspection at the time of loading any quantity of such
raisins for delivery to a packer’s inspection point;

(b) The dehydrator will arrange with the inspection service for the necessary inspection service to be performed by the service, and the dehydrator will submit to the Committee a statement from the inspection service that the dehydrator has adequate facilities for the inspection and that such arrangements have been made;

(c) All necessary reconditioning of dehydrated raisins, identification and segregation of raisins, and movement of inspected dehydrated raisins on or from the dehydrator’s premises shall be done in such manner and under such conditions as the inspection service may require;

(d) The dehydrator shall, at the time of the packer’s receipt of such raisins, furnish to the packer to whose inspection point the inspected raisins are delivered the original and one copy of the memorandum report of inspection covering such raisins;

(e) The dehydrator shall maintain such records and furnish such reports and permit access to such records and the dehydrator’s premises as required in the application and agreement or as the Committee may subsequently request; and

(f) The application and agreement may be suspended or terminated as provided therein.

(iii) The Committee will notify raisin packers of each dehydrator whose application and agreement has been approved by the Committee (such dehydrator is referred to in this subpart as “authorized dehydrator”); similarly, the Committee will notify packers of each suspension or termination of a previously approved application and agreement.

(2) Delivery of inspected dehydrated raisins. Any dehydrated raisins which (i) are inspected on an authorized dehydrator’s premises where produced; (ii) are moved promptly and directly to a packer’s inspection point from the premises of the authorized dehydrator; (iii) are accompanied by an applicable memorandum report of inspection to be furnished to the packer; and (iv) are otherwise in compliance with the provisions of such approved application and agreement and this paragraph may be received by the packer without the inspection at time of receipt required by §989.58(d). With respect to such dehydrated raisins, the packer shall comply with all applicable requirements and procedures of this part, including, but not limited to, inspection after any necessary reconditioning and the inspection prescribed in §989.59.

(3) Packer’s obligations. Immediately upon a packer’s receiving any such already inspected dehydrated raisins accompanied by the applicable memorandum report of inspection, the packer shall give to the inspector at the packer’s inspection point where the dehydrated raisins were received, the original and one copy of such memorandum report so that the inspector may enter the net weight and scale ticket number on such memorandum report of inspection and copy thereof. Whenever a packer receives off-grade raisins from an authorized dehydrator he shall so advise the inspector at the packer’s inspection point at the time of such receipt; and such raisins shall not be unloaded except in the presence of the inspector or in accordance with such prior arrangements as may have been made between the packer and the inspection service.

(f) Inspection of raisins at cooperative bargaining association’s receiving station—(1) Application and agreement. (i) In accordance with the provisions of this paragraph, any cooperative bargaining association may submit to the Committee for approval, and the Committee may approve, an application and agreement, on a form furnished by the Committee, providing that where the association receives from individual producers lots of natural condition raisins at any of its receiving points and the raisins are inspected and stored consistent with such application and agreement, such lots shall be eligible for delivery to handlers, pursuant to paragraph (f)(3) of this section, without reinspection. Any raisins which upon inspection by the inspection service do not meet the applicable grade and condition standards shall be identified immediately following inspection and kept separate and apart from any other raisins in the association’s possession.
(2) Terms and conditions. The provisions of such application and agreement shall include at least the following terms and conditions:

(i) That the association shall, prior to delivery of any raisins to handlers, arrange for inspection services at the association’s receiving station(s), and cause to be submitted to the Committee a statement by the inspection service of such arrangement and of the association’s having adequate laboratory and other facilities for such services available at the association’s receiving station(s).

(ii) That the association shall maintain such facilities satisfactory to the inspection service.

(iii) That the association shall request inspection of each lot of raisins immediately upon physical arrival thereof at the association’s receiving station(s), and shall provide the inspector with any assistance necessary in the inspection of such raisins, including the movement of individual containers.

(iv) That the association shall fumigate all raisins received at the association’s receiving station(s) as necessary to assure that the raisins are free from active infestation and maintain them as such while on such premises, and that fumigation shall be performed to the satisfaction of the inspection service.

(v) That the association shall, with respect to all raisins entering its premises which are not returned to the producer as provided in paragraph (f)(2)(vi) of this section, promptly affix to one or more containers in each lot, or to a container in each pallet if pallets are used, a Committee control card showing thereon such information as the Committee requires to maintain the producer identity of each lot and prevent commingling with any other lot. The association shall not move all or any portion of a lot of raisins on the premises of the association’s receiving station(s) or load any such raisins for shipment, except in the presence of an inspector of the inspection service.

(vi) That the association shall store any standard raisins and any off-grade raisins which are held by it after receipt and inspection on the premises of its receiving station(s) under conditions which protect the raisins from rain, infestation and contamination, and which can be expected to maintain their respective conditions except for normal and natural deterioration and shrinkage. Any raisins which after receipt and inspection are not accepted and held by the association shall be returned to the producer within 5 business days after the issuance of the inspection certificate.

(vii) That the association shall furnish the inspection service with a completed Committee form requesting issuance, at the time of loading any lot of inspected raisins for delivery to any handler’s inspection point, of a memorandum report of inspection covering such lot.

(viii) That the association shall deliver to the handler at the time of receipt of any such lot of eligible raisins at the handler’s inspection point the original and one copy of the inspection service’s related memorandum report of inspection; and such original and copy shall accompany the shipment of such lot from the premises of the association’s receiving station(s) to the handler’s inspection point.

(ix) That the association shall maintain complete records of the receipt, holding and disposition of each lot of raisins and retain such records for at least 2 years after the crop year in which such transactions occurred.

(x) That the association shall file promptly with the Committee certified reports showing such information as the Committee may request relative to the association’s receipts, holdings, and dispositions of raisins.

(xi) That the association shall permit the Committee, the inspection service, and the Secretary of Agriculture, through their duly authorized representatives, to have access to the premises of the association’s receiving station(s) to inspect such premises and any raisins thereon and any and all records with respect to the association’s receipts, holdings, and dispositions of raisins.

(xii) That upon approval of the application and agreement the Committee will notify handlers of such approval and that eligible lots of inspected raisins will not require incoming inspection at handler inspection points; will
§ 989.159 Regulation of the handling of raisins subsequent to their acquisition.

(a) Inspection facilities. At each of the premises where packed raisins are to be inspected each handler shall, at his expense provide reasonably safe and adequate space and other facilities necessary for the proper and efficient inspection of such raisins.

(b) Identification of inspected raisins.

(1) Each handler shall mark each shipping container with legible code or other identification, satisfactory to the Committee and the inspection service which shall indicate (i) with respect to packed raisins, the date that the raisins in such shipping containers were packed, and (ii) with respect to shipments of natural condition raisins, the date on which such raisins were inspected.

(2) Each handler shall furnish promptly to the Committee, through the inspection service, a certified report on a form furnished by the Committee showing the handler’s count and weight of the raisins of each pack and varietal type packed each day.

(c) Outgoing inspection.

(1) Outgoing inspection and certification of raisins as required by § 989.59(d) shall be made as set forth in this paragraph.

(2) Such inspection of natural condition raisins (which is subject to exceptions and exemptions provided in this part) shall be made of each individual lot and in each case not more than five days before the date of shipment or other final disposition of the lot. The certificate that the raisins meet the
§ 989.159

applicable minimum grade and condition standards for natural condition raisins, which the handler is required to obtain and submit to the Committee pursuant to §989.59(d), shall be on Form FV 146 labeled “Certificate of Quality and Condition (Processed Foods).” If shipment involves exportation to a foreign country, the handler shall surrender to the United States Customs Service at the port of exit two copies of such inspection certificate. Such an inspection and certification (on Form FV 146) may, if requested by the handler, be made at the time of his receipt or acquisition of the raisins. In such an event, no additional inspection shall be required if the lot remains intact and identifiable, and shipment or other final disposition takes place within five days after the date of the inspection.

(3) Such inspection of packed raisins shall be made prior to shipment or other final disposition, and unless made during the final processing or packing operations so as to facilitate proper sampling, the inspector shall perform the inspection on the basis of representative samples drawn from shipping containers of the packed raisins.

(4) Except as otherwise provided in this part, where there is presented for inspection a lot of packed raisins consisting of raisins of different varietal types or sub-types commingled within their containers, each such type and sub-type shall be inspected separately, except that inspection for moisture shall be performed on the lot as a whole. The inspection certificate shall show the respective percentages which the raisins of the various types and sub-types are of the lot and whether each meets the applicable minimum grade standards. In the event the raisins of any such varietal type or sub-type contained in the lot fail to meet the applicable requirements, other than for moisture, none of the lot shall be certified as meeting minimum grade standards unless it is found to be practicable to separate the raisins into two new lots, one which meets and the other which fails to meet all of the applicable minimum standards, respectively. Any lot of mixed types or sub-types of packed raisins for which minimum grade standards are prescribed for each type or sub-type pursuant to §989.59 (a) and (b) but which in their commingled form cannot be inspected against the standards for the respective varietal types or sub-types and hence are excluded from the category of “Mixed types” as defined in the then effective United States Standards for Grades of Processed Raisins, or any raisins which as a mixed lot contain moisture in excess of 18 percent, shall not be certified as meeting the minimum grade standard for packed raisins.

(d) Submission of inspection certificates to the Committee. A copy of each inspection certificate which a handler is required to submit to the Committee pursuant to §989.59(d) shall be submitted not later than Wednesday of the week following the week in which the certificate was issued. This may be accomplished by authorizing the inspection service in writing to submit a copy of each such inspection certificate directly to the Committee. A copy of such authorization shall be furnished to the Committee.

(e) Term of inspection certificate. Any handler who:

(1) Fails to ship or make other final disposition for human consumption of any lot of packed raisins within 90 calendar days, or of any lot of natural condition raisins within 5 calendar days, after the date of the last inspection of the lot; or

(2) Has any shipment or portion of a shipment returned to his inspection point or storage premises within the area,

shall, before any such shipment or final disposition, or before blending with other raisins, have such raisins inspected for condition and shall furnish promptly to the Committee (which may be through the inspection service as provided in §989.158(b)) a copy of the inspection certificate showing that the raisins meet the respective requirements of this part for shipment, final disposition or blending.

(f) Exemption of experimental and specialty packs—(1) Shipment under exemption. Upon obtaining approval of the Committee as provided in this paragraph, any handler may ship or dispose of raisins in experimental or specialty packs without regard to one or more of

684
the requirements of the minimum grade standards for packed raisins and inspection and certification requirements, prescribed pursuant to §989.59. For the purpose of this exemption, experimental and specialty packs means raisins processed using methods, materials, or techniques that are not normally employed in packing raisins.

(2) Application for exemption. Each application for exemption shall be filed with the Committee in triplicate. The application shall at least contain information as to: (i) The name and address of the handler; (ii) the estimated quantity of each varietal type of raisins for which the exemption is requested; (iii) the specific requirements in the minimum grade standards from which exemption is requested; (iv) the special processing involved; (v) the net weight of each type of container; (vi) whether disposition will be made direct to consumers, wholesalers, retailers, persons, or organizations, and any special uses to be made of such raisins; and (vii) the general quality, style, and condition of the raisins for which the exemption is requested.

(3) Committee action on application. The Committee in its discretion shall approve each application for exemption of raisins, if it concludes that such exemption shall not jeopardize the objectives of the marketing order program. The Committee shall notify the handler promptly in writing of its approval or disapproval of his application and, if the application is approved, the maximum quantity for which approval is granted. If the application is disapproved, the Committee shall inform the handler of the reasons therefor.

(4) Reports. The handler shall report shipments or other dispositions under an approved exemption as required pursuant to §989.173(e).

(g) Off-grade raisins, other failing raisins, and raisin residual material—(1) Recovery of raisins. For the purposes of §§989.59(f) and 989.158(c)(4), a packer may recover raisins from: (i) Residual raisins from his processing of standard raisins; (ii) any raisins acquired as standard raisins which fail to meet the applicable outgoing grade and condition standards; (iii) any raisins rejected on a condition inspection; and (iv) residual raisins from reconditioning of off-grade raisins: Provided, That such recovery under paragraph (g)(1) (ii) and (iii) of this section must occur without blending, if the failure to meet the minimum grade standards for packed raisins is due to a defect or defects affecting the wholesomeness of the raisins: And provided further, That such recovery under paragraph (g)(1)(iv) of this section must occur without blending, except as permitted in §989.158(c)(4)(ii), and the weight of standard raisins in residual from off-grade raisins shall be credited equitably to the same lot or lots from which the residual was obtained. The provisions of this paragraph are not intended to excuse any failure to comply with all applicable food and sanitary rules and regulations of city, county, state, federal, or other agencies having jurisdiction.

(2) Disposition. (1) Except as authorized in this part, no handler shall ship or otherwise dispose of any off-grade raisins, other failing raisins, or raisin residual material. Any handler may ship, transfer, or otherwise dispose of off-grade raisins, other failing raisins, and raisin residual material to or at points within the continental United States (other than Alaska) for use in eligible nonnormal outlets only after filing with the Committee a written application to make such shipment, transfer, or other disposition and receiving its written approval thereof. However, the requirements of prior filing and approval of any such application shall not apply to:

(a) The transfer of any such raisins or residual material by a handler from one of his plants to another of his plants in the State of California, except any transfer of raisins which are for reconditioning shall be in accordance with §989.158(c)(3);

(b) Any interpacker transfer or removal of off-grade raisins made in accordance with §989.158(c)(3) and of unsuccessfully reconditioned off-grade raisins which have been stemmed (other failing raisins) made in accordance with §989.158(c)(6)(ii);

(c) Any return by a handler of unstemmed off-grade raisins to the tenderer in accordance with §989.158(c)(7);
(d) Any shipment or transfer of off-grade raisins, other failing raisins, or raisin residual material by any handler to a processor within the State of California for use, within the State, in eligible nonnormal outlets;

(e) Any shipment or transfer of off-grade raisins, other failing raisins, or raisin residual material by a handler to any person with an effective agreement with the Committee, in which he agrees (1) to use such raisins and raisin residual material only in eligible non-normal outlets, (2) if not so used, to pay to the Committee liquidated damages in the amount and under the conditions specified in paragraph (g)(2)(iii) of this section, and (3) to maintain complete, accurate, and current records regarding his dealings in raisins and raisin residual material, retain the records for at least 2 years, and permit representatives of the Committee and of the Secretary of Agriculture to examine all of his books and records relating to raisins and residual material;

(f) Any direct use by the handler of such raisins or material in eligible nonnormal outlets within the State of California.

(ii) Each such application shall, in addition to the agreement specified in paragraph (g)(2)(iii) of this section, include as a minimum: (a) The names and addresses of the handler, the buyer, the consignee, and the user; (b) the quantity of off-grade and other failing raisins and the quantity of raisins residual material to be shipped or otherwise disposed of; (c) a description of such off-grade raisins and other failing raisins and raisin residual material, as to type or origin; (d) the present location of such raisins and raisin residual material; (e) the particular use to be made of the raisins; and (f) a copy of the sales contract, which may be on a form furnished by the Committee, wherein the buyer agrees:

(I) Not to ship such raisins or raisin residual material to points outside the continental United States or to Alaska;

(2) To dispose of the raisins or raisin residual material only for uses in eligible non-normal outlet(s); and

(3) To maintain complete, accurate, and current records regarding his dealings in raisins, retain the records for at least 2 years, and permit representatives of the Committee and of the Secretary of Agriculture to examine all of his books and records relating to raisins and residual material.

(iii) Each such application shall also include a provision for liquidated damages wherein the handler, in consideration of the Committee approving his application, agrees that in the event any raisins or raisin residual material covered by the approved application should be shipped to points outside of the continental United States or to Alaska, or disposed of in other than eligible non-normal outlets, by any person, it will cause serious and substantial damage to the Committee, to producers, and to handlers of raisins and will be difficult, if not impossible, to prove the extent of such damage. Therefore, the handler shall pay to the Committee a sum equal to the established field price as liquidated damages for each ton so shipped or disposed of, such sum being a fair measure of damages and not a penalty.

(iv) The Committee shall notify the applicant in writing of its approval action. In acting on an application, the Committee may disapprove the application when: (a) The application is incomplete, or any required information has not been submitted; (b) the Committee has cause to believe that the raisins or raisin residual material covered by the application will not be shipped or disposed of in accordance with the application; or (c) the handler, or any of the parties involved in the proposed shipment or disposition, had shipped or made disposition or use of raisins or raisin residual material covered by a previously approved application inconsistent with that application. When the use or the name and address of the user or consignee are not known to the handler, the Committee shall not approve the application until it has been informed as to such use and user and consignee of the raisins or residual material.

(v) The Committee may, for cause, revoke any previously approved application of a handler if the handler, buyer, consignee or user covered by the
application has shipped or made disposition inconsistent with any approved application. The Committee shall notify the handler in writing of such revocation.

(vi) The handler shall furnish the Committee with a copy of the shipping document or other documentary evidence of the disposition as may be satisfactory to the Committee and at such times as the Committee may direct.

(h) **Appeal inspection.** An appeal inspection on an original inspection may be obtained from the inspection service upon the request of any financially interested party and upon the payment of any fees assessed by the inspection service for such appeal inspection.

§ 989.160 Exemptions.

(a) Any processor may receive or acquire any raisins for use in eligible nonnormal outlets, and dispose of them for such use, without having them inspected and certified. Processors receiving or acquiring raisins under such exemption, or otherwise receiving or acquiring raisins which do not meet the applicable minimum grade and condition standards, shall not ship or otherwise dispose of any such raisins except in conformity with the provisions of §989.159(g)(2). Processors shall report receipts and acquisitions and make such other reports as are or may be required pursuant to §§989.73 and 989.173.

(b) **Disposition of raisins produced in Southern California.** Raisins produced from grapes dried on the vine in the counties of Riverside, Imperial, San Bernardino, Ventura, Orange, Los Angeles, and San Diego, which are disposed of for use in distillation or livestock feed, shall be exempt from the provisions of this part.

§ 989.166 Reserve tonnage generally.

(a) **Set-aside obligations**—(1) **Natural (sun-dried) Seedless.** Handlers who acquire any lot of natural condition Natural (sun-dried) Seedless raisins which have been dipped in or sprayed with water, with or without chemicals prior to or during the drying process, for purposes other than to expedite drying, or that have been produced from seedless varieties of grapes other than Thompson Seedless (i.e., Fiesta, Emerald Seedless, Perlette, Delight, and other similar grape varieties), may set aside such raisins to satisfy their reserve pool obligation: Provided, That such raisins shall be identified by the Inspection Service affixing to one container on each pallet or to each bin in each lot a prenumbered RAC control card (to be furnished by the Committee) which shall remain affixed until raisins are processed or disposed of as natural condition raisins: and Provided further, That such raisins shall not be delivered to the Committee or transferred to another handler without approval of the Committee or the receiving handler.

(2) **Mixed varietal types.** A handler who acquired any lot of natural condition raisins of mixed varietal types (commingled within their containers) shall meet the reserve tonnage setaside obligation for each varietal type contained in the mixed lot by setting aside raisins of each such varietal type which have not been mixed or commingled with raisins of any other varietal type. The obligation as to each varietal type shall be computed according to the reserve percentage established by the Secretary, and the percentage of the varietal type contained in the mixed lot as shown by the incoming inspection certificate applicable thereto.

(b) **Storage of reserve tonnage raisins—** (1) **Time limits for setting aside pool tonnage.** Handlers shall be allowed 3 calendar days (exclusive of Saturdays, Sundays, and holidays), after the preliminary or interim percentages have been computed and announced by the Committee, and after the publication in the FEDERAL REGISTER of the applicable final reserve percentages established for the crop year, or after any reserve tonnage raisins are acquired subsequent to the percentages being announced or established, to segregate and properly stack each varietal type of reserve tonnage raisins.
(2) Conditions. Each handler shall store reserve tonnage raisins in storage and under conditions which protect them from rain and which reasonably can be expected to maintain the raisins free of any biological or other infestation or contamination. Each handler shall, pursuant to §989.66(b)(2), store each varietal type of reserve tonnage raisins held by him for the account of the Committee, separate and apart from all other raisins. Storage of such raisins shall be deemed “separate and apart” if the containers are so marked and placed as to be capable of ready and clear identification as to the category in which are held. Reserve tonnage raisins shall be stored in sweat boxes, picking boxes, or other portable containers not exceeding one ton capacity:

(3) Substitution of free tonnage. A handler may, pursuant to §989.66(b)(3), after giving the Committee reasonable advance notice in writing and under its direction and supervision, substitute standard raisins for reserve tonnage raisins.

(c) Remedy in the event of failure to deliver reserve tonnage raisins. A handler who fails to deliver to the Committee, upon request, any reserve tonnage raisins in the quantity and quality for which he has become obligated (after any shrinkage allowances which may then be in effect are applied and allowances for any deterioration due to conditions beyond his control are made) shall compensate the Committee for the amount of the loss resulting from his failure to so deliver. The amount of compensation for any shortage of tonnage shall be determined by multiplying the quantity of reserve raisins not delivered by the latest weighted average price per ton received by producers during the particular crop year for free tonnage raisins of the same varietal type or types, plus any charges already paid or credited to the handler and cost incurred by the Committee on account of the handler’s failure to deliver. The weighted average price shall be determined from those sales made during the particular crop year up to the time such cash payment is requested by the Committee, or up to the end of the particular crop year, whichever date may be earlier. The amount which a handler shall compensate the Committee for any reserve raisins which have deteriorated so as to be off-grade in quality during storage for reasons within his control, shall be the latest weighted average price received by the Committee for the applicable varietal type of reserve pool raisins, less the amount actually received by the Committee in the disposition of the deteriorated raisins delivered by the handler (or the salvage value of such raisins as determined by the Committee). Any amounts paid to the Committee in satisfaction of such deficiencies shall accrue to the earnings of the applicable reserve pool. The remedies provided in this paragraph shall be in addition to, and not exclusive of, any or all of the remedies or penalties prescribed in the act for failure on the part of the handler to comply with the applicable provisions of the act or of this part.

(d) Disposition of reserve tonnage raisins which become off-grade for causes beyond the handler’s control. Any reserve tonnage raisins held by or for the account of the Committee which become off-grade for reasons beyond the handler’s control shall, at the Committee’s discretion, be reconditioned or disposed of by the Committee, or under the Committee’s control, in eligible non-normal outlets. Any monetary loss sustained in the reconditioning or disposition of such raisins, not covered by insurance carried by the Committee, shall be charged to the applicable reserve pool.

(e) Offers of reserve tonnage raisins to handlers for sale in export. Whenever the Committee offers reserve tonnage raisins to handlers for sale in export, it shall specify in addition to the normal contract terms and conditions, the total quantity, the price and period within which each handler will be permitted to purchase his share of the offer. Whenever a handler’s share of an offer is less than, or exceeds, his holding of reserve tonnage raisins by not more than 10 tons, the Committee may adjust his share so as to avoid the cost involved in the physical transfer of raisins. If, prior to the expiration of the offer period, a handler desires to obtain reserve tonnage in an amount greater than that represented by his share of
the offer, he may negotiate with another handler for any unpurchased portion of the other handler’s share of an outstanding offer. No such transaction shall be deemed to reduce the transferring handler’s share or to increase the transferee handler’s share so as to affect either handler’s share privileges in subsequent offers. Transfers to implement such transactions between handlers shall be permitted by the Committee only upon receipt of written authorization, on a form furnished by the Committee, by the transferring handler. All limitations applicable to the transferred tonnage shall continue to apply. Such reserve tonnage raisins will be released by the Committee to the transferee handler upon submission of his completed application and full payment for such raisins, and such transferee handler shall be responsible to the Committee for all documentation required in connection with the transaction. All such transfers shall be made at the expense of the handlers concerned.

§ 989.173 Reports.

(a) Inventory reports. Each handler shall submit to the Committee as of the close of business on July 31 of each crop year, and not later than the following August 6, an inventory report

(2) The quantity of reserve tonnage raisins for the account of the Committee; and

(3) The quantity of off-grade raisins segregated as to those for reconditioning and those for disposition as such. (b) Reports of raisins received or acquired—

(1) General. (ii) For each report required to be submitted pursuant to this paragraph, the required information shall be shown separately for each varietal type. With each report, other than that specified in paragraph (b)(4) of this section, the handler shall submit a copy of the door receipt, weight certificate or such other document approved by the Committee that accurately reflects the weight of each lot tendered, for each lot of raisins received or acquired by him during the reporting period and for each lot of raisins stored on memorandum or warehouse receipt which was returned to the tenderer during such period, which shall show the information to be contained on such receipts or weight certificates as specified in §989.158(a)(3). At the time he submits the reports specified in paragraphs (b) (2) and (3) of this section to the Committee, each handler shall submit a copy of each such report to the Inspection Service.

(ii) The net weight of such standard raisins received during the reporting period;

(iii) The net weight of such standard raisins acquired during such period and included with the acquisitions required to be reported pursuant to paragraph (b)(2) of this section;

Each nonacquiring handler shall report also the weight of standard raisins recovered from reconditioning, their inspection certificate number(s) and the handler or other person to whom the standard raisins were delivered.

(6) Monthly report of raisins received or acquired by processors. Each processor who receives or acquires off-grade raisins, or who avail himself of the exemptions from the grade and inspection requirements provided in §§989.58, 989.59(f), and 989.160 and receives or acquires raisins or raisin residual material, shall submit to the Committee on or before the 7th day of each month a report of such raisins, raisin residual material, and off-grade raisins received or acquired during the preceding month. Each report shall show for each varietal type:

(i) The name and address of each handler, producer, or other person from whom such raisins or raisin residual material was received or acquired; and

(ii) The net weight of such raisins and raisin residual material.

(7) Receipt of raisins produced from grapes grown outside the State of California. This report shall include: The varietal type of raisins received; the net weight (pounds) of raisins categorized as natural condition or packed for the current month as well as a cumulative quantity from August 1; and the State or country where the raisins were produced. With each report, the handler shall submit a copy of the door receipt, weight certificate, or such other document as required by the Committee that includes, but is not limited to, the name of the tenderer (equity holder) from whom such raisins were received, the varietal type(s) of raisins, the net fruit weight, the number and type of containers in the lot, the date of delivery, and the address including State or country where such raisins were produced.

Such required information shall be segregated as to:

(i) Domestic outlets (exclusive of Federal Government purchases) according to the quantity shipped in consumer cartons, the quantity shipped in bags having a net weight content of four pounds or less, and the quantity shipped in bulk packs (including, but not limited to those in bags having a net weight content of more than four pounds);

(d) Reports of interhandler transfers—

(i) The date of transfer;
(ii) The name(s) and address(es) of the handler or handlers and the locations of the plants;

(5) The average weighted f.o.b. sales prices received from sales, during a period specified by the Committee, of raisins in 30 pound fibre cases in domestic markets and the quantity of raisins for which such average was computed.

(g) Certification of report. All reports submitted to the Committee pursuant to this part shall be dated, and certified to the United States Department of Agriculture and to the Raisin Administrative Committee as to the truthfulness, accuracy and completeness of the information shown thereon.

(h) Reporting by non-profit cooperative associations. Non-profit cooperative associations need not submit door tags, door receipts, weight certificates or other similar documents with its report as to raisins received or acquired from its members.

(i) Exemption from filing report. A handler may be relieved by the Committee of submitting any of the reports required pursuant to paragraph (b) of this section which he shall specify in a written application therefor to the Committee stating that no transactions subject to such reports are contemplated for the balance of the crop year: Provided, That any such exemption shall remain in effect only so long as said handler has no such transactions subject to such reports.

§ 989.212 Substandard dockage.

(a) General. Subject to prior agreement between handler and tenderer, Natural (sun-dried) Seedless, Golden Seedless, Dipped Seedless, Oleate and Related Seedless, Monukka, and Other Seedless raisins containing from 5.1 through 17.0 percent, by weight, of substandard raisins may be acquired by a handler under a weight dockage system: Provided, That, for the 1998–99 crop year, such raisins containing from 5.1 through 25.0 percent, by weight, of substandard raisins may be acquired by a handler under a weight dockage system. A handler may also, subject to prior agreement, acquire as standard raisins any lot of Muscat (including other raisins with seeds), Sultana, and Zante Currant raisins containing from 12.1 through 20.0 percent, by weight, of substandard raisins under a weight dockage system: Provided, That, for the 1998–99 crop year, a handler may acquire such raisins containing from 12.1 through 35.0 percent, by weight, of substandard raisins under a weight dockage system. The creditable weight of each lot of raisins acquired under the substandard dockage system shall be obtained by multiplying the net weight of the lot of raisins by the applicable dockage factor from the appropriate dockage table prescribed in paragraph (b) or (c) of this section.

(b) Substandard dockage table applicable to Natural (sun-dried) Seedless, Golden Seedless, Dipped Seedless, Oleate and Related Seedless, Monukka, and Other Seedless raisins.

(b) Free and reserve tonnage percentages. Whenever free and reserve percentages are designated for raisins of the varietal types specified in paragraph (a) of this section for a crop year, such percentages shall be applicable to the creditable weight of any lot of such raisins acquired by a handler pursuant to a weight dockage system.

(c) Reserve tonnage. A handler may hold as reserve tonnage raisins, any lot, or portion thereof, of raisins of the varietal types specified in paragraph (a) of this section acquired pursuant to a weight dockage system: Provided, That only the creditable weight of such lot, or portion thereof, may be applied by the Committee against the handler’s reserve tonnage obligation.

(d) Assessments. Assessments on any lot of raisins of the varietal types specified in paragraph (a) of this section acquired pursuant to a weight dockage system shall be applicable to the free tonnage portion of the creditable weight of such lot.

(e) Payments for services on reserve tonnage. Payment to a handler for services performed by such handler with respect to reserve tonnage raisins of the varietal types specified in paragraph (a) of this section acquired pursuant to a weight dockage system shall be made on the basis of the creditable weight of such lot at the applicable rate specified for such services in § 989.401 of Subpart—Schedule of Payments.

(f) Identification. Any lot of raisins of the varietal types specified in paragraph (a) of this section acquired pursuant to a weight dockage system shall be so identified by the inspection service affixing to one container on each pallet, or to each bin, in such lot, a prenumbered RAC control card (to be furnished by the Committee) which shall remain affixed to the container or bin until the raisins are processed or disposed of as natural condition raisins. The control card shall only be removed by, or under the supervision of an inspector of, the inspection service, or authorized Committee personnel.

(g) Application of dockage factors. A lot of raisins acquired which may be subject to both a substandard and maturity dockage factor shall have only the highest of the two dockage factors applied to determine the creditable weight.

§ 989.213 Maturity dockage.

(a) General. Subject to prior agreement between handler and tenderer, Natural (sun-dried) Seedless, Golden Seedless, Dipped Seedless, Oleate and Related Seedless, Monukka, and Other Seedless raisins containing from 35.0 percent through 49.9 percent by weight, of well-matured or reasonably well-matured raisins may be acquired by a handler under a weight dockage system: Provided, That, for the 1998–99 crop year, such raisins containing from 35.0 through 49.9 percent by weight, of well-matured or reasonably well-matured raisins may be acquired by a handler under a weight dockage system. The creditable weight of each lot of raisins acquired under the maturity dockage system shall be obtained by multiplying the net weight of the lot of raisins by the applicable dockage factor from the dockage table prescribed in paragraphs (b), (c), (d), and (e) of this section.

Subpart—Assessment Rates

§ 989.347 Assessment rate.

On and after August 1, 1996, an assessment rate of $5.00 per ton is established for assessable California raisins.

[61 FR 52686, Oct. 8, 1996]

Subpart—Schedule of Payments

§ 989.401 Payments for services performed with respect to reserve tonnage raisins.

(a) Payment for crop year of acquisition—(1) Receiving, storing, fumigating, and handling. Each handler shall be compensated at a rate of $40.00 per ton (natural condition weight at the time of acquisition) for receiving, storing, fumigating, and handling the reserve tonnage raisins, as determined by the final reserve tonnage percentage, acquired during a particular crop year and held by the handler for the account of the Raisin Administrative Committee during all or any part of the same crop year.

(2) Inspection. Each handler shall be reimbursed by the Committee for inspection costs applicable to the reserve tonnage raisins, as determined by the final reserve tonnage percentage, received and held by him for the account of the Committee. Such payment shall be made at the currently applicable rate per ton paid by such handler to the Inspection Service and on the quantity reported by the handler. The Committee shall pay the cost of any inspection required by it of such reserve tonnage raisins while they are being held for its account: Provided, That the cost of inspection of any raisins substituted, pursuant to § 989.66(b)(3), by a...
handler for such reserve tonnage raisins, or which he received by transfer from another handler by purchasing, as permitted pursuant to §989.166, a portion or all of such other handler’s share of an offer, shall be borne by the handler and shall not be reimbursed to him by the Committee.

(b) Additional payment for reserve tonnage raisins held beyond the crop year of acquisition. Additional payment for reserve tonnage raisins held beyond the crop year of acquisition shall be made in accordance with this paragraph. Each handler holding such raisins for the account of the Committee on August 15 and the following September 1 shall be compensated for storing, handling and fumigating such raisins at the rate of $2.00 per ton per month, or any part thereof, for each month of the three-month period ending November 30, and $1.03 per ton per month, or any part thereof, for each month of the next nine months. Such services shall be completed so that the Committee is assured that the raisins are maintained in good condition.

(c) Payment of rental on boxes and bins containing raisins held beyond the crop year of acquisition. Payment of rental on boxes and bins containing reserve tonnage raisins held beyond the crop year of acquisition shall be made in accordance with this paragraph. Each handler, producer, dehydrator, and other person who furnishes boxes or bins in which such raisins are held for the account of the Committee on August 15 and the following September 1 shall be compensated for the use of such boxes and bins. The rate of compensation shall be: For boxes, two and one-half cents per day, not to exceed a total payment of $1 per box per year, per average net weight of raisins in a sweatbox, with equivalent rates for raisins in boxes other than sweatboxes; and for bins twenty cents per day per bin, not to exceed a total of $10 per bin per year. For purposes of this paragraph, box means any container with a capacity of less than 1,000 pounds and bin means any container with a capacity of 1,000 pounds, or more. The average net weight of raisins in each type of box shall be the industry average as computed by the Committee for the box in which the raisins are so held. No further compensation shall be paid unless the raisins are so held in the boxes on the succeeding September 1.

(d) Payment for other services—(1) General. In addition to the payments provided in paragraphs (a), (b), and (c) of this section, handlers shall be compensated for other services performed with respect to reserve tonnage raisins as set forth in this paragraph.

(2) Transportation. The Committee may arrange with any handler for transporting reserve tonnage raisins. Payment for such transportation shall be based on then prevailing haulage rates within the production area for the type of transportation required.

(3) Packing. A handler who accepts an offer by the Committee to pack reserve tonnage raisins for its account shall be compensated for such packing in an amount determined by or acceptable to the Committee. In considering the amount of compensation to be paid, the Committee shall take into account, among other factors, the particular varietal type of raisins to be packed, the particular pack or package required, and the quantity and quality of the raisins to be packed.

(4) Redelivery. In the event the Committee removes reserve tonnage raisins of a previous crop year from a handler upon the request provided for in §989.66(f) and such handler subsequently desires redelivery to him of reserve tonnage raisins for contract packing, or other purpose, he shall reimburse the Committee in advance of such redelivery for the net costs to it of the removal, storage, and redelivery of such raisins: Provided, That the Committee may waive payment by the handler of part or all of such costs if it determines that such waiver is reasonably necessary to the prompt and favorable disposition of the raisins involved.

Subpart—Conversion Factors

§989.601 Conversion factors for raisin weight.

The following factors for the named varietal types of raisins shall be used
to convert the net weight of reconditioned raisins acquired by handlers as packed raisins to natural condition weight. The net weight of the raisins after the completion of processing shall be divided by the applicable factor to obtain the natural condition weight: Provided, That the adjusted weight does not exceed the original weight of the raisins prior to reconditioning; and Provided further, That, if the adjusted weight exceeds the original weight, the original weight will be used.

Subpart—Quality Control

§ 989.701 Minimum grade and condition standards for natural condition raisins.

Effective pursuant to §989.58, raisins meeting the varietal standards herein-after set forth shall be considered as standard raisins and those failing to meet such standards shall be considered as off-grade raisins. Where the raisins in any lot consist of two or more varietal types commingled within their containers, the lot shall be considered as a mixed lot and as standard raisins if they meet for each defect the most restrictive requirements for the varietal types of raisins comprising the lot.

In the event layered Muscats (including other raisins with seeds) or Cluster Seedless raisins are commingled within their containers with loose Muscats (including other raisins with seeds) or Loose Cluster Seedless raisins respectively, the entire lot shall be considered as loose Muscats (including other raisins with seeds) or Natural (sun-dried) Seedless raisins. The raisins shall be considered as standard raisins if the lot as a whole meets the minimum standards for loose Muscats (including other raisins with seeds) or Natural (sun-dried) Seedless raisins:

Provided, That with respect to the requirements peculiar to a varietal type such as possessing characteristic color, flavor, or odor, the raisins shall be considered as meeting such requirements if they have been properly prepared as raisins. In each category, only those raisins which have been properly dried and cured in original natural condition, are free from active infestation, and are in such condition that they are capable of being received, stored, and packed without undue deterioration or spoilage, shall be considered as storable raisins.

(a) Natural (sun-dried) Seedless, Monukka and Other Seedless raisins. Natural condition Natural (sun-dried) Seedless, Monukka and Other Seedless raisins shall have been prepared from sound, wholesome, matured grapes properly dried and cured, and shall meet the following additional requirements: (1) Shall be fairly free from damage by sugaring, mechanical injury, sunburn, or other similar injury; (2) shall have a normal characteristic color, flavor, and odor of properly prepared raisins; (3) shall contain not more than 5 percent, by weight, of substandard raisins (raisins that show development less than that characteristic of raisins prepared from fairly well-matured grapes), and shall also contain at least 50 percent well-matured or reasonably well-matured raisins; (4) shall not exceed 16 percent moisture as determined by the dried fruit moisture tester method, except that there shall be no maximum moisture content for Cluster Seedless raisins; and (5) shall be of such quality and condition as can be expected to withstand storage as provided in the order and that when processed in accordance with good commercial practice will meet the minimum standards for processed raisins established by the Committee, and that with respect to Cluster Seedless raisins, in addition to the above requirements the raisins shall be fairly free from shattered (or loose end) berries, and be uniformly cured; shall contain 30 percent or more “2 Crown” or larger size berries; and shall be of such quality and condition that when processed in accordance with good commercial practice will, except for moisture...
content, meet the minimum standards for processed raisins established by the Committee.

(b) Dipped Seedless, and Oleate and Related Seedless. Natural condition Dipped Seedless, and Oleate and Related Seedless raisins shall have been prepared from sound, wholesome, matured grapes properly dried and cured, and shall meet the following additional requirements: (1) Shall be fairly free from damage by sugaring, mechanical injury, sunburn, or other similar injury; (2) shall have a normal characteristic flavor and odor of properly prepared raisins; (3) shall contain not more than 5 percent, by weight, of substandard raisins (raisins that show development less than that characteristic of raisins prepared from fairly well-matured grapes), and for the 1985–86 and subsequent crop years also contain at least 50 percent well-matured or reasonably well-matured raisins; (4) shall not exceed 14 percent moisture as determined by the dried fruit moisture tester method; (5) shall be of such quality and condition as can be expected to withstand storage as provided in the order and that when processed in accordance with good commercial practice will meet the minimum standards for processed raisins established by the Committee; and (6) shall possess a color varying from yellowish green to dark amber or dark greenish amber with not more than 15 percent, by weight, of all the raisins being definitely dark berries. Definitely dark berries means raisins which are definitely darker than dark amber and characteristic of “naturally” raised grapes.

(d) Muscats (including other raisins with seeds). Natural condition Muscat raisins (including other raisins with seeds) shall have been prepared from sound, wholesome, matured grapes properly dried and cured, and shall meet the following additional requirements: (1) Shall be fairly free from damage by sugar, mechanical injury, sunburn or other similar injury; (2) shall have a normal characteristic color, flavor, and odor of properly prepared raisins and shall contain not more than 12 percent, by weight, of substandard raisins (raisins that show development less than that characteristic of raisins prepared from fairly well-matured grapes); (3) shall not exceed 16 percent moisture as determined by the dried fruit moisture tester method, except that water dipped, vine sprayed or similarly treated Muscats (including other raisins with seeds) shall not exceed 14 percent moisture, and that there shall be no maximum moisture content for layered Muscats (including other raisins with seeds); (4) the raisins shall be of such quality and condition as can be expected to withstand storage as provided in the marketing agreement and order, and that when processed in accordance with good commercial practice will, except for moisture content, meet the minimum standards for processed raisins established by the Committee, and that with respect to layered Muscats (including other raisins with seeds), in addition to the above requirements the raisins shall be fairly free from shattered (or loose end) berries; uniformly cured; 30 percent or more “3 Crown” or larger size; of such quality and condition that when processed in accordance with good commercial practice will, except for moisture content, meet the minimum standards
§ 989.702 Minimum grade standards for packed raisins.

Effective pursuant to §989.59, the minimum grade standards for packed raisins shall be as follows:

(a) Natural (sun-dried) Seedless, Dipped Seedless, and Oleate and Related Seedless Raisins. Packed Natural (sun-dried) Seedless, Dipped Seedless, and Oleate and Related Seedless raisins shall meet the requirements of U.S. Grade C as defined in the effective United States Standards for Grades of Processed Raisins (§§ 52.1841 through 52.1858 of this title); Provided, That at least 62.5 percent, by weight, of the raisins shall be well-matured or reasonably well-matured grapes; (3) shall not exceed 16 percent moisture as determined by the dried fruit moisture tester method; and (4) the raisins shall be of such quality and condition as can be expected to withstand storage as provided in the marketing agreement and order, and that when processed in accordance with good commercial practice will meet the minimum standards for processed raisins established by the Committee.

(b) Golden Seedless Raisins. Packed Golden Seedless raisins shall at least meet the requirements prescribed in paragraph (a) of this section, and the color requirements for "colored" as defined in said standards.

(c) Monukka and Other Seedless Raisins. Packed Monukka and Other Seedless raisins shall at least meet the requirements prescribed in paragraph (a) of this section, except that the tolerance for moisture shall be 19 percent rather than 18 percent.

(d) Muscat (including other raisins with seeds) Raisins. Packed Muscat (including other raisins with seeds) raisins shall at least meet the requirements of U.S. Grade C of the said standards. Layer Muscat (including other raisins

Agricultural Marketing Service, USDA § 989.702

with seeds) raisins shall at least meet U.S. Grade B as defined for “Layer or Cluster Raisins With Seeds” in said standards, except for the provisions therein relating to moisture content.

(e) Sultana Raisins. Packed Sultana raisins shall at least meet the requirements of U.S. Grade C as defined in said standards.

(f) Zante Currant Raisins. Packed Zante Currant raisins shall at least meet the requirements of U.S. Grade B as defined in said standards.

(g) Cluster Seedless Raisins—(1) Description. Raisins referred to as Cluster Seedless raisins means the raisins have not been detached from the main bunch. Cluster Seedless raisins shall at least meet the requirements of Marketing Order Grade B prescribed in this paragraph. The processed raisins are prepared from clean, sound, dried grapes; are stored or cleaned, or both, and are washed with water to assure a wholesome product.

(2) Grades. (i) Marketing Order Grade A is a quality of Cluster Seedless raisins that have similar varietal characteristics; have a good typical color; have a reasonably good typical flavor; are uniformly cured and show development characteristics of raisins prepared from well-matured grapes; contain not more than 23 percent, by weight, of moisture; that not less than 30 percent, by weight, of the raisins, exclusive of stems and branches, are “2 Crown” size or larger and meet the additional requirements as outlined in the table in paragraph (2)(iv) of this paragraph.

(ii) Marketing Order Grade B is the quality of the Cluster Seedless raisins that have similar varietal characteristics; have a good typical color; have a reasonably good typical flavor; are uniformly cured and show characteristics of raisins prepared from reasonably well-matured grapes; contain not more than 23 percent, by weight, of moisture; that not less than 30 percent, by weight, of raisins, exclusive of stems and branches, are “2 Crown” size or larger and meet the additional requirements as outlined in the table in paragraph (2)(iv) of this paragraph.

(iii) Substandard is the quality of Cluster Seedless raisins that fail to meet the requirements of Marketing Order Grade B.

Subpart—Antitrust Immunity and Liability

§ 989.801 Restrictions applicable to committee personnel.

Members and employees of the Raisin Administrative Committee are immune from prosecution under the United States antitrust laws only insofar as their conduct in administering the Raisin Marketing Order is authorized by the Agricultural Marketing Agreement Act of 1937, 7 U.S.C. 601 et seq., or the provisions of the order. Under the antitrust laws, Committee members and employees may not engage in any unauthorized agreement or concerted action that unreasonably restrains United States domestic or foreign commerce. For example, Committee members and employees have no authority to participate, either directly or indirectly, whether on an informal or formal, written or oral basis, in any bilateral or international undertaking or agreement with any competing foreign producer or seller or with any foreign government, agency, or instrumentality acting on behalf of competing foreign producers or sellers to (a) raise, fix, stabilize, or set a floor for raisin, sultana, or currant prices, or (b) limit the quantity or quality of raisins, sultanas, or currants imported into or exported from the United States. Participation in any such unauthorized agreement or joint undertaking could result in prosecution under the antitrust laws by the United States Department of Justice and/or suit by injured private persons seeking treble damages, and could also result in expulsion of members from the Committee or termination of employment with the Committee.

PRUNE MARKETING COMMITTEE

§ 993.24 Establishment and membership.

A Prune Marketing Committee (herein referred to as the “Committee”), consisting of 22 members with an alternate member for each such member, is hereby established to administer the terms and provisions of this part, of whom with their respective alternates, 14 shall represent producers, 7 shall represent handlers, and 1 shall represent the public. Committee membership shall be allocated in accordance with the following grouping with the alternate positions identically allocated:

(a) Three handler members to represent handlers who are cooperative marketing associations of producers (referred to in this part as “cooperative handlers”);

(b) Three handler members to represent handlers other than cooperative handlers (referred to in this part as “independent handlers”);

(c) One handler member to represent handlers who are cooperative handlers or independent handlers, whichever of such handlers handled as first handlers more than 50 percent of the prunes handled by all handlers during the crop year preceding the year in which nominations are made;

(d) Fourteen producer members to be selected from and to represent producers who are members of cooperative marketing associations (referred to in this part as “cooperative producers”) and producers other than “cooperative producers” (referred to in this part as “independent producers”); the number of the producer members for the cooperative producer group or the independent producer group, as the case may be, shall be in the same proportion, as near as practicable, to the total of 14, as the tonnage of prunes handled by the respective group of cooperative handlers or independent handlers as first handlers during the crop year preceding the year in which nominations are made is to the total tonnage of prunes handled by all handlers as first handlers.

(e) The public member and alternate shall have no financial interest in the prune industry.

§ 993.25 Term of office.

The term of office of members, and their respective alternates, shall be two years, ending on May 31 of even numbered years, and any later date which may be necessary for the selection and qualification of their respective successors.

§ 993.26 Selection.

Selection of members of the committee, and their respective alternates, shall be made in the appropriate number specified in §993.24, by the Secretary from nominees nominated pursuant to this part or, in the discretion of the Secretary, from other eligible persons.

§ 993.27 Eligibility.

Producer members of the Committee shall be at the time of their selection, and during their term of office, producers in the group, for which selected and if to represent a district also producers in the district for which selected, and, except for producer members representing cooperative producers, shall not be engaged in the handling of prunes.
prunes either in a proprietary capacity or as a director, officer, or employee. Handler members of the Committee shall be handlers in the group they represent or directors, officers, or employees of such handlers. These eligibility requirements shall not apply to the public member and alternate member.

§993.28 Nominees.

(a) For the purpose of obtaining nominations for producer members to represent independent producers, the Committee shall, with the approval of the Secretary, divide the area into districts giving, insofar as practicable, equal representation to numbers of independent producers and production of prune tonnage by such producers. The number of districts shall be equal to the number of such producer members or seven, whichever is the lesser. Candidates for nomination by independent producers from the various districts shall be obtained at meetings convened by the committee. Following such meetings, the committee shall prepare a separate ballot for each of the districts, or a joint ballot for two or more districts, containing (1) the names of the candidates for each district involved and (2) provision for write-in candidates. The ballot shall be mailed to each independent producer of record in each district. The voting procedure (including the casting of the ballot by mail addressed to the committee), and tabulation of votes shall be in accordance with rules and regulations prescribed by the committee, with the approval of the Secretary. Each voter shall be entitled to cast only one vote for a member nominee and only one vote for an alternate member nominee in a district in which he is a producer, and no voter shall vote for candidates in more than one district. In case he is a producer in more than one district, he shall elect in which of such districts he will vote and notify the committee as to his choice. Whenever the number of producer members to represent independent producers during the ensuing term of office is to exceed seven, one nominee shall be nominated by independent producers in each of the seven districts and an additional nominee for each member in excess of the seven members shall be nominated, without reference to districts, by such seven nominees. The committee shall recommend the establishment of districts, or any changes therein, to the Secretary prior to January 31 of each year in which nominations are made.

(b) Before April 16 of each even-numbered year nominations of producer members to represent cooperative producers and handler members to represent cooperative handlers shall be submitted to the Secretary by cooperative marketing associations engaged in the handling of prunes. The number of cooperative producer members and handler members to be nominated by each cooperative marketing association shall bear, as near as practicable, the same percentage as each cooperative marketing association’s tonnage of prunes handled as first handler thereof is to the total tonnage handled by all cooperative marketing associations during the preceding crop year.

(c) In any year in which nominations are made following a crop year during which the tonnage of prunes handled by independent handlers as first handlers exceeded the tonnage of prunes handled by cooperative handlers as first handlers, nominees for member positions to represent independent handlers shall be nominated as follows:

(1) Each of the two independent handlers who handled during such preceding crop year, the two largest percentages of the prune tonnage handled by all independent handlers shall nominate from their respective organizations, one nominee for a handler member and one for an alternate member;

(2) Three independent handlers who handled during such preceding crop year the next three largest percentages of the prune tonnage handled by all independent handlers shall nominate from among their organizations, one nominee for a handler member and one for an alternate member;

(3) All other independent handlers who handled the remaining percentage of such prune tonnage shall nominate from their organizations, one nominee for a handler member and one for an alternate member.

In any year in which nominations are made following a crop year during
§ 993.29 Alternates.

An alternate for a member of the committee shall act in the place and stead of such member (a) during his absence, and (b) in the event of his removal, resignation, disqualification, or death, until a successor for such member’s unexpired term has been selected and has qualified. Except as otherwise specifically provided in this subpart the provisions of this part applicable to members also apply to alternate members.
least 4 must be handler members. Except in case of emergency, a minimum of 5 days notice must be given with respect to any meeting of the Committee. In case of an emergency, to be determined within the discretion of the chairman of the Committee, as much notice of a meeting as is practicable in the circumstances shall be given. The Committee may vote by mail or telegram upon due notice to all members, but any proposition to be so voted upon first shall be explained accurately, fully, and identically by mail or telegram to all members. When any proposition is submitted to be voted on by such method, one dissenting vote shall prevent its adoption.

§ 993.34 Expenses.
The members of the committee, and alternates when acting as members, or when alternates’ expenses are authorized by the committee, shall serve without compensation but shall be allowed their expenses.

§ 993.36 Duties.
The committee shall have, among others, the following duties:
(a) To act as intermediary between the Secretary and any producer, dehydrator, or handler;
(b) To keep minutes, books, and other records which shall clearly reflect all of its acts and transactions, and such minutes, books, and other records shall be subject to examination by the Secretary at any time;
(c) To make, subject to the prior approval of the Secretary, scientific and other studies, and assemble data on the producing, handling, shipping, and marketing conditions relative to prunes, which are necessary in connection with the performance of its official duties;
(d) To select, from among its members, a chairman and other appropriate officers, and to adopt such rules and regulations for the conduct of the business of the committee as it may deem advisable;
(e) To appoint or employ such other persons as it may deem necessary, and to determine the salaries and define the duties of such persons;
(f) To submit to the Secretary not later than the fourth Tuesday of July of each year, a budget of its anticipated expenditures and the recommended rate of assessment for the ensuing crop year, and the supporting data therefor;
(g) To submit to the Secretary such available information with respect to prunes as the committee may deem appropriate, or as the Secretary may request;
(h) To prepare and submit to the Secretary quarterly statements of the financial operations of the committee, exclusive of reserve prune operations, and to make such statements, together with the minutes of the meetings of said committee, available for inspection at the offices of the committee by producers, dehydrators, and handlers;
(i) To prepare and submit to the Secretary annually, as soon as practicable after the end of each crop year and at such other times as the committee may deem appropriate or the Secretary may request, a statement of the committee’s financial operations with respect to reserve prunes for such crop year and to make such statement available at the offices of the committee for inspection by producers, dehydrators, and handlers;
(j) To cause the books of the committee to be audited by a certified public accountant at least once each crop year, and at such other times as the committee may deem necessary or as the Secretary may request, and two copies of each such audit report shall be submitted to the Secretary and a
§ 993.37 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of prunes. The expense of such projects shall be paid from funds collected pursuant to § 993.81.

§ 993.41 Marketing policy.

(a) On or before the first Tuesday of each July, the committee shall prepare and submit to the Secretary a report setting forth its recommended marketing policy for the ensuing crop year. If it becomes advisable to modify such policy, because of changed demand, supply, or other conditions, the committee shall formulate a new policy and shall submit a report thereon to the Secretary. Notice of the committee’s marketing policy, and of any modifications thereof, shall be given promptly by reasonable publicity to producers, dehydrators, and handlers.

(b) In formulating its marketing policy for the ensuing crop year, the committee shall consider and shall include in its report to the Secretary, the following estimates (natural condition basis) and recommendations:

1. The carryover of salable prunes as of August 1;
2. The carryover of reserve prunes as of August 1;
3. The grade and size composition of the salable and reserve carryovers;
4. The quantity of prunes to be produced without regard to possible diversions of prune plums by producers;
5. The probable quality and prune sizes in the crop;
6. The domestic trade demand by uses of prunes;
7. The foreign trade demand by countries or groups of countries;
8. The desirable carryout of salable prunes at the end of the ensuing crop year;
9. The quantity of undersized prunes in the crop, itemized as to French prunes and non-French prunes;
10. The quantity of prunes to be withheld as reserve prunes so as to protect against errors of estimation and permit orderly marketing of the supply;
11. The recommended salable and reserve percentages;
12. The quantity of prune plums, dried weight basis, deemed desirable to be diverted pursuant to § 993.62;
13. Any recommended change in regulations pursuant to §§ 993.49 to 993.53, inclusive;
14. The probable assessable tonnage for the purposes of § 993.81; and
15. The current prices for prunes, the trend and level of consumer income, whether producer prices are likely to exceed parity, and such other factors as may have a bearing on the marketing of prunes or the administration of this part.

§ 993.48 Regulation.

No handler shall handle prunes except in accordance with the provisions of this part.

[30 FR 9799, Aug. 6, 1965]
Grade and Size Regulations

§ 993.49 Incoming regulation.

(a) No handler shall receive prunes from producers or dehydrators, other than substandard prunes and undersized prunes, unless such prunes meet the minimum standards for natural condition prunes set forth in §993.97 (Exhibit A), or as such standards may be modified, or the more restrictive grade regulation established pursuant to this section, and then in effect: Provided, That no handler shall receive any prunes (including substandard prunes and undersized prunes) from producers or dehydrators unless such prunes have been properly dried and cured in original natural condition, without the addition of water, and are free from active insect infestation, so that they are capable of being received, stored, and packed without material deterioration or spoilage. Any “high moisture content prunes,” as described in the exception in §993.5(b), in the possession of a handler, shall be held separate and apart from any prunes held by him. If such “high moisture content prunes” are dried or dehydrated to a point where they are capable of being stored, without material deterioration or spoilage, unrefrigerated or not otherwise artificially preserved, they shall be deemed, at that time, to have been received by such handler as prunes, and shall be subject to all of the conditions and restrictions of this subpart.

(b) The Secretary, on the basis of a recommendation of the committee or other information, may establish size regulations, pack specifications, or more restrictive grade regulations with respect to prunes that may be shipped or otherwise disposed of by a handler if such action would tend to effectuate the declared policy of the act. If a more restrictive grade regulation is established in connection with §993.97 (Exhibit A) it shall insofar as practicable apply comparably to both natural condition prunes and processed prunes. When pack specifications are in effect, no handler shall ship prunes in consumer packages, unless such prunes are identified by an appropriate label, seal, stamp, or tag affixed to such container by the handler showing the size of prunes in the lot from which the container was packed. In order to effectuate such orderly marketing of prunes as will be in the public interest, whether prices are above or below parity, no handler shall use descriptive terms in a manner inconsistent with that set forth in this subpart or in any pack specifications or other regulation issued by the Secretary pursuant to this subpart.

(c) In no crop year shall a handler receive from producers or dehydrators prunes, other than as undersized prunes, which pass freely through a round opening with a diameter as follows: For French prunes 23/32 of an inch, and for non-French prunes 28/32 of an inch: Provided, That the Secretary upon a recommendation of the Committee, may establish larger openings whenever it is determined that supply conditions for a crop year warrant such regulation. The quantity of undersized prunes in any lot received by a handler from a producer or dehydrator shall be determined by the inspection service and entered on the applicable inspection certificate.

§ 993.50 Outgoing regulation.

(a) Except as otherwise specifically provided, no handler shall ship or otherwise make final disposition of prunes which fail to meet the applicable minimum standards set forth in §993.97 (Exhibit A), or as such standards may be modified, for standard prunes or standard processed prunes.

(b) The Secretary, on the basis of a recommendation of the committee or other information, may establish size regulations, pack specifications, or more restrictive grade regulations with respect to prunes that may be shipped or otherwise disposed of by a handler if such action would tend to effectuate the declared policy of the act. If a more restrictive grade regulation is established in connection with §993.97 (Exhibit A) it shall insofar as practicable apply comparably to both natural condition prunes and processed prunes. When pack specifications are in effect, no handler shall ship prunes in consumer packages, unless such prunes are identified by an appropriate label, seal, stamp, or tag affixed to such container by the handler showing the size of prunes in the lot from which the container was packed. In order to effectuate such orderly marketing of prunes as will be in the public interest, whether prices are above or below parity, no handler shall use descriptive terms in a manner inconsistent with that set forth in this subpart or in any pack specifications or other regulation issued by the Secretary pursuant to this subpart.

(c) Non-French prunes: No handler shall ship or otherwise make final disposition of any lot of standard prunes or standard processed prunes of the non-French varieties or any lot which includes non-French prunes in excess of a tolerance to be prescribed by the Secretary on recommendation of the Committee, unless the average count of such non-French prunes contained in
any such lot is 40 or less per pound. However, under safeguards to be established by the Committee, any lot containing non-French prunes with an average size count of more than 40 prunes per pound may be shipped to or disposed of in prune product outlets in which they lose their form and character as prunes by conversion prior to consumption. A tolerance as to the permitted deviation of sizes about the average count shall be prescribed by the Secretary, upon recommendation of the Committee.

(d) French prunes: No handler shall ship or otherwise make final disposition of any lot of French prunes for human consumption as prunes, or any lot of mixed dried fruit containing French prunes for human consumption as mixed dried fruit, unless the average count of French prunes contained in any such lot is 100 or less per pound. However, under safeguards to be established by the Committee, any lot containing French prunes with an average size count of more than 100 prunes per pound may be shipped to or disposed of in prune product outlets in which they lose their form and character as prunes by conversion prior to consumption. In determining whether any such lot conforms to this minimum size requirement, the following tolerance shall apply: In a sample of 100 ounces, the count per pound of 10 ounces of the smallest prunes shall not vary from the count per pound of 10 ounces of the largest prunes by more than 45 points. The Secretary may, upon the basis of the recommendation and information submitted by the Committee and other available information, modify this tolerance for uniformity of size.

(e) No handler shall ship or otherwise make final disposition of any lot of substandard prunes except for use as prune products in which the prunes lose their form and character as prunes by conversion prior to consumption, or for use in non-human consumption outlets; Provided, That any such prunes which are shipped or otherwise disposed of for human consumption shall meet the minimum standards prescribed in II C (1), (2), and (3) of §993.97 or as such standards as may pursuant to §993.52 be modified. The committee shall issue any such rules and regulations as may be necessary to insure such uses.

(f) Notwithstanding the restrictions contained in this section, any handler may transfer prunes from one plant owned by him to another plant owned by him within the area without having an inspection made as provided for in §993.51. Any handler may ship prunes from his plant to another handler's plant within the area without having an inspection made as provided for in §993.51, but a report of such inter-handler transfer shall be made promptly by the transferring handler to the committee. The receiving handler shall, before shipping or otherwise making final disposition of such prunes, comply with the requirements of this section and of §993.51.

(g) No handler shall ship or otherwise dispose of, for human consumption, the quantity of prunes determined by the inspection service pursuant to §993.49(c) to be undersized prunes. However, such handler may, at the direction and under the supervision of the Committee, dispose of such quantity of prunes in nonhuman consumption outlets. Prunes so disposed of shall be of the same variety as, and reasonably comparable in size, to such undersized prunes. The handler shall cause the inspection service to make a determination whether the prunes disposed of by the handler in nonhuman consumption outlets meet such requirements. In making the determination with respect to comparability in size, the inspection service shall apply a tolerance permitting a deviation from the size of the applicable opening established pursuant to §993.49(c). Any such tolerance, together with any rules and regulations to insure proper disposition of the prunes and that such prunes are reasonably comparable to the undersized prunes so received, shall be established by the Committee with the approval of the Secretary. The quantity of prunes determined pursuant to §993.49(c) shall not be deemed to be within the handler's quota for salable prunes fixed by the Secretary within the meaning of section 8a(5) of the Act.

§ 993.51 Inspection and certification.

Each handler shall at his own expense, before or upon the receiving, and before the shipping or disposing of prunes, cause an inspection to be made of such prunes to determine whether they meet the applicable grade and size requirements or the pack specifications, including labeling, effective pursuant to this part. Such handler shall obtain a certificate that such prunes meet the aforementioned applicable requirements and shall submit such certificate, or cause it to be submitted, to the committee. Acceptable certificates shall be those issued by inspectors of the Dried Fruit Association of California. The Secretary may designate another inspection service in the event the services of the Association prove unsatisfactory.

§ 993.52 Modification.

Minimum standards, pack specifications or size regulations, including the openings prescribed in § 993.49(c), may be modified by the Secretary, on the basis of a recommendation of the committee or other information, whenever he finds that such modification would tend to effectuate the declared policy of the act.

§ 993.53 Above parity situations.

The minimum standards, the minimum sizes, including the minimum undersized regulation in § 993.49(c), and the provisions of this part relating to administration shall continue in effect irrespective of whether the estimated season average price for prunes is in excess of the parity level specified in section 2(1) of the act.

RESERVE CONTROL

§ 993.54 Establishment of salable and reserve percentages.

Whenever the Secretary finds, from the recommendations and supporting information supplied by the committee, or from any other available information, that to establish the percentages of prunes for any crop year which shall be salable prunes and reserve prunes, respectively, or to modify the previously established percentages, would tend to effectuate the declared policy of the act, he shall establish or modify such percentages. The salable and reserve percentages when applied to the natural condition weight of prunes, excluding the quantity of undersized prunes determined pursuant to § 993.49(c), received during the crop year by a handler from producers and dehydrators, plus that diverted tonnage (dried weight natural condition prune basis) on diversion certificates issued pursuant to § 993.62 and credited to or held by him, shall determine the weight of each handler’s receipts which are salable prunes and reserve prunes. The total of the salable and reserve percentages shall equal 100 percent. A cooperative marketing association may concentrate the prunes of its producer members before applying the salable and reserve percentages.

§ 993.55 Application of salable and reserve percentages after end of crop year.

The salable and reserve percentages established for any crop year shall remain in effect after that crop year until salable and reserve percentages are established for another crop year. After such percentages are established, all reserve obligations shall be adjusted to the newly established percentages.

[46 FR 61637, Dec. 18, 1981]

§ 993.56 Reserve obligation.

Whenever salable and reserve percentages are in effect for any crop year, the reserve obligation of a handler shall approximate the average marketable content of the handler’s receipts and shall be a weight of natural condition prunes equal to the reserve percentage applied to the natural condition weight of prunes, excluding the quantity of undersized prunes determined pursuant to § 993.49(c), such handler receives during the crop year from

§ 993.57 Holding requirement and delivery.

Each handler shall at all times, hold, in his possession or under his control, in proper storage for the account of the committee, free and clear of all liens, the quantity of prunes necessary to meet his reserve obligation, less any quantity: (a) For which he has a temporary deferment pursuant to §993.58(a); (b) of prune plums (dried weight natural condition basis) diverted pursuant to §993.62 as shown on diversion certificates held by him, or credited to him by the committee against his reserve obligation; (c) disposed of by him under a sales contract of the committee; (d) delivered by him to the committee, or to a person designated by it, pursuant to its instructions; and (e) for which he is otherwise relieved by the committee of such responsibility to so hold prunes. No handler may transfer a reserve obligation but any handler may, upon notification to the committee arrange to hold reserve prunes on the premises of another handler or in approved commercial storage, under conditions of proper storage. The committee may, after giving reasonable notice, require a handler to deliver to it, or to a person designated by it, f.o.b. handler’s warehouse or point of storage, reserve prunes held by him. The committee may require that such delivery consist of natural condition prunes or it may arrange for such delivery to consist of processed prunes.

§ 993.58 Deferment of time for withholding.

(a) Compliance by any handler with the requirement of §993.57 for withholding reserve prunes may be temporarily deferred to any date desired by the handler, but not later than November 15 of the crop year, upon the execution and delivery by such handler to the committee of a written undertaking that on or prior to the desired date he will have fully satisfied his holding requirement. Such undertaking shall be secured by a bond or bonds to be filed with and acceptable to the committee in the amount or amounts specified, conditioned upon full compliance with such undertaking.

(b)(1) Each bond shall be provided by and at the handler’s expense, with a surety or sureties acceptable to the committee, and shall be in an amount computed by multiplying the pounds of natural condition prunes for which deferment is desired by the bonding rate. Such bonding rate shall be established by the committee at a level sufficient to achieve the objectives of this part.

(2) In case a handler defaults in meeting his deferred withholding requirement, any funds collected by the committee through such default shall be used by the committee to purchase from handlers a quantity of natural condition prunes, up to but not exceeding the quantity on which default occurred. Purchases shall be made from prunes with respect to which the reserve obligation has been met, and shall be of grades, varieties, or sizes and in such containers as the committee specifies in consideration of available reserve prune outlets. Purchases shall be at prices determined to be appropriate by the committee and if more prunes are offered than required by the committee, it shall make the purchases from various handlers as nearly as practicable in proportion to the quantity of...
their respective offerings at the same price. The committee shall dispose of the prunes acquired as soon as practicable in the most favorable reserve prune outlets and shall deposit the proceeds from such sales, less committee expenses in connection with such transaction, with reserve pool funds for distribution to equity holders.

(3) If for any reason the committee is unable to purchase a quantity of prunes as large as the quantity of reserve prunes in default by the handler, any remaining balance of funds received because of the default less expenses of the committee, shall be deposited with reserve pool funds for distribution to equity holders.

(c) A handler who has defaulted on his bond shall be credited on his reserve obligation with, and his holding requirement reduced by, that quantity of prunes represented by the sums collected but not more than the extent of his default.

§ 993.59 Payment to handlers for services.

The committee shall pay handlers for necessary services rendered by them in connection with reserve prunes including, but not limited to, inspection, receiving, storing, grading, and fumigation, in accordance with a schedule of payments and conditions established by the Secretary after recommendation by the committee.

PRODUCER DIVERSION

§ 993.62 Diversion privileges.

(a) Prune plums. The words prune plums as used in this section mean plums of a variety used in the production of prunes.

(b) Voluntary principle. No producer shall be required to divert all or any portion of the prune plums produced by him.

(c) Authorization. If, on the basis of a committee recommendation for diversion operations, the availability of governing rules and procedures established by the Secretary after recommendation of the committee, and other information, the Secretary concurs that diversion operations should be permitted, he shall authorize such operations.

(d) Diversion certificates. After diversion operations are authorized, and subject to the applicable rules and procedures, any producer may divert prune plums of his own production for eligible purposes and receive from the committee a diversion certificate therefor: Provided, That diversion certificates for prune plums diverted by producer members of a cooperative marketing association shall be issued by the committee to the association if it so requests. To the extent permitted by the rules and procedures, the certificate may be submitted to any handler in lieu of reserve prunes and to the same extent the certificate shall entitle the handler to satisfy his reserve obligation. Only to the extent permitted by the rules and procedures, diversion certificates may be transferable among producers and handlers.

(e) Eligible diversions. Within such restrictions as may be prescribed in rules and procedures, diversion may be authorized for such diversions as are not competitive with the normal marketing of prunes and prune products. Such eligible diversions may include:

1. Disposal of prune plums for nonhuman use;
2. Leaving prune plums unharvested; and
3. Such other methods of diversion as may be authorized.

No diversion certificate shall be issued by the committee for prune plums which would not, under normal producer practices, be dried and delivered to a handler.

(f) Nonparticipation in pool proceeds. Any prune plums diverted pursuant to this section shall not be included in any reserve pool.

(g) Payment of costs. Prior to the issuance of a diversion certificate to a producer or a cooperative marketing association, the producer or association shall pay to the committee fees established to cover costs pertaining to the diversion.

EXPENSES AND ASSESSMENTS

§ 993.80 Expenses.

§ 993.81 Assessments.

(a) Each handler shall pay to the committee, upon demand, with respect to all salable prunes handled by him as the first handler thereof, his pro rata share of all expenses which the Secretary finds are reasonable and likely to be incurred by the committee during each crop year. Each handler's pro rata share shall be the rate of assessment per ton fixed by the Secretary. At any time during or after a crop year the Secretary may increase the rate of assessment to cover unanticipated expenses of the committee or a deficit in assessable tonnage.

(b) In order to provide funds to carry out the functions of the committee, the committee may accept advance payments from any handler to be credited toward such assessments as may be levied pursuant to this section against the respective handler.

(c) Any money collected as assessments during any crop year and not expended in connection with the committee's operations may be used by the committee for a period of five months subsequent to such crop year. At the end of such period the committee shall, from funds on hand, refund or credit to handler accounts the aforesaid excess. Each handler's share of such excess funds shall be the amount of assessments he has paid in excess of his pro rata share of the actual net expenses of the committee for the preceding crop year. Any money collected from assessments hereunder and remaining unexpended in the possession of the committee at the termination of this part, shall be distributed in such manner as the Secretary may direct: Provided, That to the extent practical, such funds shall be returned pro rata to the persons from whom such funds were collected.

signed to independent handlers for the
ensuing term of office, the Committee
shall, prior to April 1 thereof, cause to
be held a meeting of all independent
handlers except those classified in the
group specified in §993.28(c)(1). At such
meeting one member nominee and one
alternate member nominee shall be
elected in accordance with the applica-
ble provisions of §993.28(c).

§ 993.149 Receiving of prunes by handlers.

(a) Receiving stations—(1) General. Prunes shall be received by a handler at any receiving station so designated by the Committee. Receiving station shall mean any plant of a handler or a dehydrator's premises; this term shall also mean any other place where prunes are normally and usually received by a handler in any considerable volume as ranch deliveries, and at which there are adequate facilities to enable the inspection service to determine whether the prunes meet the applicable grade, size, and condition requirements.

(2) Receiving at dehydrator. Any handler may arrange with the committee and the inspection service for the incoming inspection and certification to be based on samples of prunes drawn as prune plums and dehydrated in the same manner as the prunes to which they are referable. Where such arrangement is acceptable to the Committee as permitting the inspection and certification of the prunes to be comparable to an inspection and certification when based on samples drawn as prunes, such certification shall be acceptable for the purposes of this section if the inspector further certifies that the dehydration process of the prunes being certified resulted in prunes eligible to be received under the terms and conditions of this part.

(b) Inspection stations. Prunes shall be inspected only at inspection stations established by the inspection service with the concurrence of the Committee. Inspection station shall mean a centralized station and any receiving station other than a handler's plant or a dehydrator's premises.

(c) Incoming inspection—(1) General. Upon any producer or dehydrator delivering prunes to a handler, the handler shall issue to the inspection service an identification tag showing the name and address of such producer or dehydrator, the date of delivery, the county of production, the number and type of containers, the approximate net weight of the prunes, the place where the prunes are to be inspected, and any other information necessary to identify such prunes to the satisfaction of the inspector and the Committee. For each such delivery, the handler shall issue to the producer or dehydrator a door receipt or weight certificate showing the name and address of the producer or dehydrator, the weight of the delivery, and any other information necessary to identify the delivery. Such information shall be available to the inspector and the Committee. Each lot shall be sampled separately and as soon as practicable following delivery. The handler shall supply any necessary information together with any assistance needed by the inspector in drawing samples including the dumping of containers.

(2) Certification. Following inspection of a lot not returned to the producer or dehydrator, the handler shall require the inspection service to issue, in quintuplicate, a certificate containing at least the following information: (i) The place where samples were drawn and the date and place of inspection; (ii) the name and address of the producer or dehydrator, the handler, and the inspection service; (iii) the variety of the prunes, the county in which such prunes were produced, the number and type of the containers thereof, the net weight of the prunes as shown on the applicable door receipt or weight certificate, together with the number of such receipt or certificate, and the contract or account number under which the prunes were delivered; (iv) whenever applicable, the percentage by weight of undersized prunes; (v) whenever applicable, the percentage by weight of undersized prunes in the lot; (vi) with respect to the balance of the lot, the inspector's computation of the percentage, by screen size of prunes and in the aggregate, of each group or combination of groups of defects for which a maximum tolerance is in effect; (vii) whether the prunes in the lot, exclusive of any undersigned prunes, are standard or substandard; (viii) the inspector's computation of the percentage of weight of each screen size and in the aggregate, of offgrade prunes (those defective pursuant to § 993.97) necessary to be removed therefrom in order for the remainder in each screen size and in the aggregate to be standard prunes, and (ix) the average size count of prunes of each screen size and of the aggregate: Provided, That whenever an
undersized prune regulation is in effect for the crop year, the average size count shall be of all prunes except undersized prunes in the lot, by screen size and in the aggregate. The handlers shall require the inspection service to furnish promptly the producer or dehydrator with one copy of the certificate and the handler with two copies.

(d) Conditional provisions—(1) Wet or slack-dry prunes. Any prunes delivered to a handler by a producer or dehydrator which an inspector determines have not been properly dried and cured in original natural condition, or which show evidence of the addition thereto of water, may be held by the handler for the account of the producer or dehydrator for conditioning by further drying or dehydration: Provided, That such prunes shall be identified and kept separate and apart from any other prunes in the handler’s possession until resubmitted for inspection and certificated as properly dried and cured, or returned to the producer or dehydrator. The certificate shall show, in addition to other inspection requirements, that the conditioning was performed and indicate the net weight after conditioning.

(2) Prunes with active insect infestation. Any prunes delivered to a handler which an inspector determines are not free from active insect infestation, may be returned to the producer or dehydrator or may be held by the handler for the account of the producer or dehydrator for conditioning by fumigation: Provided, That such prunes shall be identified and kept separate and apart from any other prunes in the handler’s possession until resubmitted for inspection and certificated as properly dried and cured, or returned to the producer or dehydrator. The certificate shall show, in addition to other inspection requirements, performance of fumigation and freedom from active infestation.

(3) High moisture content prunes. The delivery of any high moisture content prunes to a handler by a producer or dehydrator shall be reported promptly by the handler to the inspection service. The inspection service shall be requested to submit a report to the committee of each such delivery which shall contain the following information: (i) The date and place of the delivery; (ii) the name and address of the producer or dehydrator, the handler, and the inspection service; and (iii) the variety of the high moisture content prunes, the county in which they were produced, and their net weight as shown on the door receipt or weight certificate, together with the number of such receipt or certificate. Any handler who, subsequent to delivery to him of high moisture content prunes, elects to dry or dehydrate them or any portion thereof to a point where they are capable of being received by such handler shall, prior to proceeding with such drying or dehydration, notify an inspector of the inspection service of his election, and the same procedure shall apply as set forth in paragraph (d)(1) of this section. For each day on which a handler processes and packages high moisture content prunes, he shall furnish promptly to the inspector a signed statement and one copy showing the handler’s name and address and the net weight of the total tonnage of high moisture content prunes processed and packaged by him on that day. The handler shall furnish promptly to the inspector two copies of the shipping or disposition order or other documents which shall show the date of each shipment or disposition, the applicable reference number thereof, and an adequate description of the shipment or disposition. One copy of each document so furnished shall be required to be forwarded to the committee. Upon request of the committee a handler shall, within ten days thereafter, file with the committee a signed report on Form PMC 3.1 “Report of High Moisture Content Prunes” which shall contain the following information: (i) The date and the name and address of the handler; (ii) the total tonnage of high moisture content prunes delivered to the handler during the crop year to the date of the report; (iii) the total tonnage of high moisture content prunes shipped or otherwise disposed of by the handler during such period; (iv) the total tonnage of high moisture content prunes delivered to the handler during such period which were dried or dehydrated and received as prunes by the handler; and (v) the total tonnage of high moisture content prunes in the handler’s possession on the date of the report.
(4) Return of prunes to producers and dehydrators. Any lot of prunes delivered to a handler by a producer or dehydrator may be returned to the producer or dehydrator prior to an inspection thereof. Any lot of prunes so delivered whose identity has been maintained may be so returned following an inspection thereof, except prunes which have been size graded or sorted by the handler, resulting in a segregation of defects. Prunes which have been sorted for the producer or dehydrator, the identity of which have been maintained to the satisfaction of the inspector and the Committee, may be resubmitted for inspection in not more than three new lots, equal in weight to the original lot, and the applicable inspections shall supersede the original inspection.

§ 993.150 Disposition of prunes by handlers.

(a) Inspection stations. An inspection station shall be any plant of a handler, and any other place where he handles prunes.

(b) Outgoing inspection. Except as otherwise specifically provided, no handler shall ship or otherwise make final disposition of natural condition prunes or of processed prunes unless he has, prior to such shipment or final disposition, had them inspected and obtained a certificate showing that such prunes meet the effective minimum standards. Such inspection shall be made during that portion of the final preparation of the prunes for shipment or other final disposition as will permit proper sampling, whether in-line or floor inspection, and no handler shall perform such final preparation unless an inspector is present. The handler shall furnish promptly to the inspector a copy of the shipping or disposition order or other documents, which shall show the date of each shipment or disposition, the applicable reference number thereof, and an adequate description of the shipment or disposition. For the prunes inspected each day which meet the applicable minimum grade and size requirements for standard prunes, or standard processed prunes, the handler shall cause the inspector to issue in triplicate a signed certificate containing the following information: (1) The date and place of inspection; (2) the name and address of the handler and of the inspection service; (3) the number and size of packages or the net weight of prunes; (4) the number of the worksheet or worksheets on which the inspector’s computations and results of tests are recorded; and (5) a statement that the prunes meet the effective minimum standards for standard prunes, or standard processed prunes, as the case may be.

(c) Interhandler transfers. With the exception of those prunes held by a handler pending their disposition pursuant to §993.49(c) and those prunes held by him for the account of the Committee pursuant to §993.57, a handler may transfer prunes to another handler within the area. Any such interhandler transfer may be without the transferring handler having an inspection made as provided for in §993.51. Provided, that before each such transfer the transferring handler shall: (1) Give written notice of the transfer to the inspection service including the proposed date of the transfer, the names of the handlers and, by plant designation, the present location and the destination of the prunes, the number of containers, variety, size designation, and total net weight of the prunes, and the manifest or billing number; and (2) receive from the inspection service a DFA Form P-5 “Shipping Inspection Report and Certificate” marked “Interhandler Transfer Report” on which the inspection service recorded the information furnished by the transferring handler. The transferring handler shall sign the “Interhandler Transfer Report” including all copies thereof that were received from the inspection service, and forward the signed original and one copy to the receiving handler at the time of the interhandler transfer. Upon receipt of the transferred prunes, the receiving handler shall enter on both the original and the copy the date he received the prunes, sign the original, and immediately forward it to the inspection service. The transferring handler shall cause the inspection service
to promptly report the transfer to the Committee. As provided in §993.50(f), the receiving handler shall, before shipping or otherwise making final disposition of such prunes, comply with the requirements of §§993.50 and 993.51.

(d) Tolerances for non-French prunes. Any lot of standard prunes or standard processed prunes containing more than 2 percent by weight of non-French prunes shall be disposed of only in prune product outlets as prescribed in §993.50(c) unless the non-French prunes therein have an average count of 40 or less per pound and unless in a 100-ounce sample of the lot, the count per pound of 10 ounces of the smallest prunes in the sample does not vary from the count per pound of 10 ounces of the largest prunes in the sample by more than 35 points. A lot shall be deemed to exceed the 2 percent tolerance for non-French prunes whenever an inspection shows such prunes exceed 2 percent in any four consecutive sampling units of two tons or less, or, if less than four such units are sampled, in such lesser number of units.

(e) Prunes which fail to meet minimum standards—(1) Committee’s approval of disposition—(i) General. Those defective prunes accumulated by a handler by removing them from standard or sub-standard prunes, and those prunes received or held by a handler which fail to meet the applicable minimum standards and are held for disposition without removal of defective prunes in excess of maximum tolerances, may only be used, if within the tolerances prescribed in §993.97 II. C. (1), (2), and (3), for prune products, or if any such tolerances are exceeded and any live infestation corrected by fumigation, for non-human consumption or be destroyed. In order to insure that all such prunes are shipped or otherwise disposed of in accordance with §993.50(e), no handler shall during any crop year ship or otherwise make final disposition of any such prunes, other than prune waste subject to daily non-human disposition for sanitation purposes, unless prior thereto he had obtained during that crop year (except as otherwise provided in paragraph (e)(1)(iii) of this section) the Committee’s approval of his application to do so.

(ii) Application for approval. The handler’s application to ship or otherwise make final disposition of any such prunes shall be submitted on Form PMC 2.2 “Application for Permission to Dispose of Substandard Prunes”. If the prunes are for shipment, the application shall set forth: (a) The name and address of the handler’s vendee and the name and address of the consignee whether the same as or different from the vendee; (b) the particular use to be made of the prunes; (c) if such use is to be by a person other than the handler’s vendee or the consignee, the name and address of such user; and (d) the crop year or the period within, or the portion of, the crop year during which shipments are to be made. When the use or the name and address of the consignee or user are not known by the handler, the handler shall arrange for the submission of such information to the Committee. If use is to be by the handler, the application shall so indicate and shall set forth all applicable information. Each application for shipment shall be limited to the handler’s vendee and the consignee if different from the vendee, and to a specific user and use, and may be open as to quantity: Provided, That, when the use or name and address of the user are not known by the handler, the application shall include the quantity of prunes to be shipped and be limited to that quantity. Each application for final disposition for a particular use by the handler shall be limited to such handler and use.

(iii) Approval of applications. The Committee’s approval of a handler’s application shall be transmitted to the handler on Form PMC 2.3 “Permission to Dispose of Substandard Prunes”. In approving an application, the Committee shall specify the crop year, or the period within or the portion of the crop year, for which the approval is granted. Provided, That, the Committee may approve in July any such application that is submitted during that month by the handler for shipment or other final disposition of the prunes covered thereby in the succeeding crop year. When the use or the name and address of the user or consignee are not known to the handler, the Committee shall not approve
the application until it has been informed as to such use and user and consignee of the prunes.

(iv) Disapproval of applications; or revocation of approved applications. In acting on an application, the Committee may disapprove the application when: (a) The application does not conform with the requirements of paragraph (e)(1)(ii) of this section; (b) the Committee has cause to believe that the prunes covered by the application will not be shipped or disposed of in accordance with the application; or (c) the handler, or any of the parties involved in the proposed shipment or disposition, had shipped or made other disposition of prunes covered by a previously approved application inconsistent with that application. The Committee may for cause revoke a handler's previously approved application if he ships or makes other disposition inconsistent with such application. The Committee shall notify the handler in writing of each disapproval and each revocation.

(v) Evidence of non-human disposition. Whenever defective or substandard prunes or prune waste are shipped to or otherwise disposed of in non-human consumption outlets, or destroyed, the handler shall furnish the Committee with a copy of the shipping document or other documentary evidence of the disposition as may be satisfactory to the Committee and at such times as the Committee may direct.

(vi) Books and records. Each handler who ships or otherwise disposes of defective or substandard prunes or prune waste shall make available for examination by the Committee, at his business office at any reasonable time during business hours, copies of all applicable purchase orders, sales contracts, or disposition documents, together with any further information which the Committee may deem necessary or desirable to enable it to determine whether such prunes or prune waste have been or will likely be utilized as authorized.

(2) Out of the area shipments. Whenever substandard prunes for human consumption are packed in closed containers, and if for shipment outside the area they shall be so packed, each such container shall be clearly marked “For Manufacturing Purposes Only”. Whenever substandard prunes restricted to non-human usage are shipped in closed containers, each such container shall be clearly marked “For Non-Human Usage”. In each instance, the letters shall be of reasonable prominence and in a conspicuous place on the container.

(3) Inspection of substandard prunes. Each handler shall cause substandard prunes, for use in prune products, to be inspected (prior to disposition or shipment by a handler) by an inspector, and that such inspector issue, in triplicate, a signed clearance certificate (for the preparation of which the handler shall make available to the inspector the necessary data) containing the following information: (i) The date and place of inspection and clearance; (ii) the name and address of the inspection service and of the handler; (iii) the number and kind of packages, the net weight, and the adequacy of the marking; (iv) the lot number or shipping or disposition order number; (v) the committee's approval number; (vi) the designation; and (vii) the actual percentage of off-grade prunes of each group, or combination of groups, of defects in excess of the then current tolerances for standard prunes or standard processed prunes.

(f) Pitted prunes—(1) For human consumption as such. (i) No handler shall ship or otherwise make final disposition of any lot of pitted prunes for human consumption as pitted prunes unless the lot, before pitting, met (A) the applicable minimum standard set forth in §993.97 (Exhibit A), or as such standards may be modified, for standard prunes or standard processed prunes, and (B) the requirements specified in §993.50 (c) and (d).

(ii) No handler shall ship or otherwise make final disposition of any lot of pitted prunes for human consumption as pitted prunes unless these
prunes do not exceed an average of 0.5 percent by count of prunes with whole pits and/or pit fragments 2 mm or longer; and four of ten subsamples examined have no more than 0.5 percent by count of prunes with whole pits and/or pit fragments 2 mm or longer. For the purposes of this paragraph (f)(1)(ii), pitted prunes means prunes with the pit removed that are characterized by a uniform depression and minimal skin break where the pit has been removed. (iii) No handler shall ship or otherwise make final disposition of any lot of macerated prunes for human consumption as pitted prunes unless these prunes do not exceed an average of 2 percent by count of prunes with whole pits and/or pit fragments 2 mm or longer; and four of ten subsamples examined have no more than 2 percent by count with whole pits and/or pit fragments 2 mm or longer. For the purposes of this paragraph (f)(1)(iii), macerated prunes means prunes with the pit removed that are characterized by a flattened appearance with slightly more skin breaks where the pit has been removed than with pitted prunes.

(2) For use in prune products. Any lot of substandard prunes, whether natural condition or processed, if within the applicable tolerances prescribed in §993.97 II C (1), (2), and (3), may be pitted and shipped or disposed of for use and used in prune products for human consumption: Provided, That, such handler has made a bona fide effort to dispose of its undersized prunes as demonstrated by the shipment of at least 65 percent of its undersized obligation by May 31; such handler has a sufficient quantity of undersized prunes held in storage to meet its remaining obligation; and the extension of time requested is not later than 60 days beyond the end of the crop year. Prior to making any such disposition, the handler shall obtain the Committee’s approval of his application to do so. The handler’s application to ship or otherwise make final disposition of any such undersized prunes shall be submitted on Form PMC 2.21 “Application for Permission to Dispose of Undersized Prunes” which shall set forth: (i) The name and address of the handler’s vendee and the name and address of the consignee whether the same as or different from the vendee; (ii) the particular use to be made of the prunes; (iii) if such use is to be by a person other than the handler’s vendee or the consignee, the name and address of such user; and (iv) the crop year or the period within, or portion of, the crop year during which shipment or other disposition is to be made. When the use or the name and address of the consignee or user are not known by the handler, the application shall so indicate and shall set forth all applicable information. Each application for shipment shall be limited to the handler’s vendee and the consignee, if different from the vendee, and to a specific user and use. Each application for final disposition for a particular use by the handler shall be limited to such handler and use. The Committee’s approval of a handler’s application shall be transmitted to the handler on Form PMC 2.31 “Permission to Dispose of Undersized Prunes.” In approving an application, the Committee shall specify the crop year or the period within, or the portion of, the crop year for which the approval is granted. When the use or name and address of the user or consignee are not known to
the handler, the Committee shall not approve the application until it has been informed as to such use and user and consignee of the prunes. The requirements of §993.150(e)(1)(iv) (except item (a) thereof), (v), and (vi) with regard to disapproval of applications or revocation of approved applications, evidence of nonhuman disposition, and the maintenance of books and records, applicable to prunes which fail to meet minimum standards, shall also apply to undersized prunes.

(2) Documentation of disposition of undersized prunes—(i) Inspection and certification. The handler shall cause an inspection to be made of each lot of undersized prunes prior to shipment or other disposition to determine whether such prunes meet the applicable requirements prescribed with respect to undersized prunes. After such determination, the handler shall cause a signed inspection certificate applicable to such prunes to be forwarded promptly to the Committee.

(ii) Documentation of shipment or other disposition. For each quantity of undersized prunes so shipped or otherwise disposed of, the handler shall promptly forward to the Committee one copy of the applicable bill of lading, truck receipt, or related documentation of disposition which shall show: (a) The name of the consignee; (b) the Committee approval number; (c) the destination by name and address of the person designated to receive the prunes; (d) the date of shipment or other disposition; (e) the inspection certificate number; (f) the net weight of the prunes; (g) the weight certificate number; and (h) identification of the prunes as undersized prunes.

(iii) Certification or receipt. The handler shall forward with each quantity of undersized prunes disposed of a certification form in triplicate, Form PMC 4.71 “User’s Receipt of Dried Prunes for Nonhuman Usage” on which the handler shall have entered the following applicable information: (a) The inspection certificate number; (b) the Committee approval number; (c) the shipping or other disposition document number; (d) the name of the carrier; (e) the date of shipment or other disposition; and (f) the license or car number of each carrier unit, if applicable, in the movement of the prunes to the destination of disposition or usage. The handler shall cause, either directly or through the vendee or consignee, the user of the prunes to certify on Form PMC 4.71 the receipt by him of the applicable prunes and to promptly forward the original thereof to the Committee. Such certification shall set forth the location where the prunes were received, the date of such receipt, the name and address of the person who will use or otherwise dispose of the prunes, and the signature and authority of the certificate to act for the user.

(iv) Certification of usage. The handler shall cause, either directly or through the vendee or consignee, the user of the prunes to certify, and forward to the Committee, one copy of Form PMC 4.71, following use or disposition thereof, that the prunes have been used or otherwise disposed of, the date and location at which use or other disposition took place, the name and address of the user, the signature and authority of the certificant to act for the user, and the date of his certification.

(3) Tolerances permitting a deviation in prune sizes from applicable undersized openings—(i) Undersized French prunes. Whenever an undersized regulation specifies an opening of 28/32 of an inch for French prunes, any quantity of French prunes disposed of by a handler in compliance with §993.50(g) shall not contain more than 15 percent by weight of prunes which do not pass freely through a round opening 24/32 of an inch in diameter. Whenever an undersized regulation specifies an opening of 24/32 of an inch in diameter for French prunes, any quantity of French prunes disposed of by a handler in compliance with §993.50(g) shall not contain more than 12 percent by weight of prunes which do not pass freely through a round opening 24/32 of an inch in diameter.

(ii) Undersized non-French prunes. Whenever an undersized regulation specifies an opening of 28/32 of an inch for non-French prunes, any quantity of non-French prunes disposed of by a handler in compliance with §993.50(g) shall not contain more than 10 percent by weight of prunes which do not pass freely through a round opening 24/32 of an inch in diameter.
an inch in diameter. Whenever an undersized regulation specifies an opening of \( \frac{30}{32} \) of an inch in diameter for non-French prunes, any quantity of non-French prunes disposed of by a handler in compliance with §993.50(g) shall not contain more than 12 percent by weight of prunes which do not pass freely through a round opening \( \frac{32}{32} \) of an inch in diameter.

**RESERVE CONTROL**

§993.156 Application of reserve percentage.

The reserve obligation of each handler shall be determined by applying the reserve percentage to the weight of prunes in each lot, after deducting the weight of prunes in such lot shown as necessary to be removed therefrom pursuant to §993.49(c), in such manner as may be prescribed in such reserve control regulation established for the crop year in which such lot is received by a handler from a producer or dehydrator.

[30 FR 13311, Oct. 20, 1965]

§993.157 Holding and delivery of reserve prunes.

(a) Sales and deliveries. Committee sales and deliveries of reserve prunes from the holdings of any handler shall not exceed the quantity of reserve prunes required to be held by him. The reserve prune holding requirement of the handler shall be reduced by the tonnage so sold or delivered.

(b) Assistance to handlers. As assistance to handlers, the committee shall furnish each handler a monthly tabulation, beginning as soon as possible after the start of the crop year, showing his reserve obligation and holding requirement based on records on file with the committee.

(c) Failure to hold and deliver reserve prunes in accordance with reserve obligation. In the event a handler fails to hold for the committee and deliver his total reserve prune obligation in any category and is unable to rectify such a deficiency with salable prunes, he shall compensate the committee in an amount computed by multiplying the pounds of natural condition prunes so deficient by the applicable values established by the committee: Provided, That the remedies prescribed herein shall be in addition to, and not exclusive of, any of the remedies or penalties prescribed in the act with respect to noncompliance. The determination of any such deficiency shall include application of any tolerance allowance for shrinkage in weight, increase in the number of prunes per pound, and normal and natural deterioration and spoilage which may then be in effect.

(d) Excess delivery of prunes to the committee. In the event a handler delivers to the committee as reserve prunes a quantity of prunes in excess of his holding requirement for reserve prunes, the committee shall make such practical adjustments as are consistent with this part and this may include compensating the handler for such excess (nonreserve prunes) by paying to him the proceeds received by the committee for such excess.

(e) Holding reserve prunes on other than a handler's premises. No handler shall hold reserve prunes on the premises of another handler, or in approved commercial storage other than on his own premises, unless prior thereto he notifies the committee in a certified report on Form PMC 5.1 “Notice of Proposed Intent to Store Reserve Prunes” which shall contain at least the following information: (1) The date and the name and address of the handler; (2) the name and address of the person on whose premises the reserve prunes will be stored for the handler; (3) the approximate quantity to be so stored and the exact location and description of the storage facilities; and (4) the proposed date that such storage will begin. The report shall be accompanied by a signed statement by the persons on whose premises the reserve prunes are to be stored agreeing to hold such prunes under conditions of proper storage and further agreeing to permit access to such premises by the
committee at any time during business hours for the purpose of examining or taking delivery of such prunes in accordance with the provisions of this part. No handler shall be permitted to hold reserve prunes on any premises outside the area.

(f) Exchange of salable prunes for reserve prunes. No handler shall exchange salable prunes for reserve prunes unless he has entered into a sales agreement authorized pursuant to §993.65(b) whereby the value of any such exchange, and payment therefor to the committee, shall be determined.

(g) Delivery by nonsignatory handlers. Any handler not signing the sales agreement authorized pursuant to §993.65(b), shall deliver to the Committee, upon demand, the total weight of his reserve obligation by such variety, grade, and size categories, and at the count per pound for each size category as is required by the reserve control regulation of the applicable crop year. Such deliveries of prunes may be either graded prunes or any lot of ungraded prunes, or portion thereof, identifiable to the satisfaction of the committee as being in the same form as when received: Provided, That the percent of standard prunes in each lot shall be taken into account but with respect to any lot of graded prunes, no credit shall be given to the standard obligation of the handler if in a sample of 100 ounces, the count per pound of 10 ounces of the smallest prunes exceeds the count per pound of 10 ounces of the largest prunes by more than 45 prunes per pound.

§993.158 Deferment of reserve withholding.

Any handler who desires to defer withholding pursuant to the provisions of §993.58 shall notify the committee on Form PMC 9.1, “Notification of Desire for Deferment of Reserve Withholding”, containing at least the following information: (a) The date and the name and address of the handler; (b) the total salable prunes acquired or under contract with producers and dehydrators; (c) the period for which deferment is requested; and (d) the tonnage of reserve prunes, by categories, on which deferment is requested. The notification shall be accompanied by the undertaking and bond or bonds required by §993.58. No handler shall defer withholding of reserve prunes until he has filed the required undertaking and bond or bonds with the committee and has received its acceptance.

§993.159 Schedule of payments and conditions.

(a) Rate of payment for necessary services. Each handler shall, with respect to reserve prunes held by him for the account of the committee pursuant to §993.57, be paid at the rate of $25 per ton (natural condition weight) for necessary services rendered by him in connection with such prunes so held during all or any part of the crop year in which the prunes were received from producers or dehydrators. Such amount shall, together with the additional payments, as applicable, provided in this section, be in full payment for the costs incurred in connection with but not being limited to, the following services: Inspection, receiving, storing, grading, and fumigation. The costs include, but are not limited to:

(1) Acquisition costs, which include those for salaries, commission, or brokerage fees, transportation and handling between plants and receiving stations, inspection, and other costs, including container expense, incidental to acquisition or storage;

(2) Direct labor costs, which include those for receiving, grading, preliminary sorting and storing (including that performed by the handler at the receiving station), and loading for shipment or other delivery to the committee or its designee; and

(3) Plant overhead costs, which include those for superintendence, indirect labor, fuel, power and water, taxes and insurance on facilities, depreciation and rent, repairs and maintenance, factory supplies and expense, and employee benefits (payroll taxes, compensation insurance, and other such costs).

(b) Reimbursement for required insurance costs. Each handler holding reserve prunes for the account of the
§ 993.162 Voluntary prune plum diversion.

(a) Quantity to be diverted. The Committee shall indicate the quantity of prune plums that producers may divert pursuant to §993.62 whenever it recommends to the Secretary that diversion operations for a crop year be permitted. The Committee shall compute the dried weight equivalent of prune plums so diverted on a dryaway basis in accordance with the following schedule:

(1) For prune plums of French variety produced in the counties of Del Norte, Humboldt, Lake, Marin, Mendocino, Napa, Siskiyou, Solano, Sonoma, and Trinity, 1 pound of dried prunes for each 2.6 pounds of prune plums diverted;

(2) For prune plums of French varieties produced in the counties of Alameda, Monterey, San Benito, Santa Clara, Santa Cruz, San Francisco, and...
§ 993.162

San Mateo, 1 pound of dried prunes for each 2.75 pounds of prune plums diverted;

(3) For prune plums of French varieties produced in the counties of Amador, Butte, Colusa, Contra Costa, Glenn, Sacramento, Shasta, Sutter, Tehama, Yolo, and Yuba, 1 pound of dried prunes for each 3 pounds of prune plums diverted;

(4) For prune plums of French varieties produced in the counties of Fresno, Merced, San Joaquin, San Luis Obispo, Stanislaus, Tulare, and all of the counties in the area not included in paragraphs (a)(1), (2), and (3) of this section, 1 pound of dried prunes for each 3.25 pounds of prune plums diverted; and

(5) For prune plums of non-French varieties produced in any country in the area, 1 pound of dried prunes for each 3.50 pounds of prune plums diverted.

Whenever diversion operations for a crop year have been authorized by the Secretary, the Committee shall notify producers, dehydrators, and handlers, known to it of such authorization.

(b) Eligible diversions. Eligible diversions shall preclude prune plums from becoming prunes and shall be limited to the following methods: (1) Disposing of harvested prune plums under Committee supervision for nonhuman use at a location and in a manner satisfactory to the Committee; and (2) leaving unharvested the entire production of prune plums from a solid block of bearing trees designated by the producer applying for the diversion. In accordance with § 993.62(c), eligible diversion shall not apply to prune plums which would not, under normal producer practices, be dried and delivered to a handler.

(c) Applications for diversion—(1) By producers. Each producer desiring to divert prune plums of his own production shall, prior to diversion, file with the Committee a certified application on Form PMC 10.1 “Application for Prune Plum Diversion” containing at least the following information: (i) The name and address of the producer; whether the producer is an owner-operator, share-landlord, share-tenant, or cash tenant; and the name and address of any other person or persons sharing a proprietary interest in such prune plums; (ii) the proposed method of diversion and the location where diversion is to take place; (iii) the quantity and variety of prune plums proposed to be diverted; and (iv) the approximate period of diversion. A deposit fee shall accompany each application and shall be the greater of either $100 or the amount obtained by multiplying the quantity, in tons, of prune plums proposed to be diverted by $3.50.

(2) By dehydrator as agent. Any producer, or group of producers, may authorize any dehydrator to act as agent to divert harvested prune plums. Prior to diversion such dehydrator shall submit to the Committee with respect to each producer the certified application on Form PMC 10.1 “Application for Prune Plum Diversion” required by paragraph (c)(1) of this section. A deposit fee shall accompany each application and shall be the greater of either $100 per producer who authorized the dehydrator to act as agent to divert harvested prune plums. Prior to diversion such dehydrator shall submit to the Committee with respect to each producer the certified application on Form PMC 10.1 “Application for Prune Plum Diversion” required by paragraph (c)(1) of this section. A deposit fee shall accompany each application and shall be the greater of either $100 per producer who authorized the dehydrator to act as agent to divert harvested prune plums. Prior to diversion such dehydrator shall submit to the Committee with respect to each producer the certified application on Form PMC 10.1 “Application for Prune Plum Diversion” required by paragraph (c)(1) of this section. A deposit fee shall accompany each application and shall be the greater of either $200 or the amount obtained by multiplying the aggregate quantity in tons of prune plums proposed to be diverted by the group by $3.50.

(3) Receipt of applications. The Committee shall establish, and give prompt notice of, a final date for receipt of applications for diversion: Provided, That with respect to any group of four or more producers that authorized the dehydrator to act as agent for the group and the dehydrator so informs the Committee, the deposit fee shall be the greater of either $200 or the amount obtained by multiplying the aggregate quantity in tons of prune plums proposed to be diverted by the group by $3.50.

(d) Approval of applications. No certificate of diversion shall be issued by the Committee unless it has approved the application covering such diversion.
§ 993.162 7 CFR Ch. IX (1–1–99 Edition)

(1) The Committee’s approval of an application shall be in writing, and include at least the following: (i) The details as to the method of diversion to be followed; (ii) the method of appraisal to be used by the Committee to determine the quantity of prune plums diverted; (iii) the lesser of either the quantity specified in the application for diversion as proposed to be diverted, or any modification of that quantity as a result of any Committee proration of the total quantity proposed to be diverted by all producers; and (iv) such other information as may be necessary to assist the applicant in meeting the requirements of this section, including the conditions of proof of diversion under which diverted prune plums shall receive credit for certification.

(2) If the Committee determines that it cannot approve an application it shall notify the applicant promptly. The Committee shall state the reason for failing to approve the application, and request the applicant to submit, if practicable, an amended application correcting the deficiencies in the original application.

(3) The Committee shall establish, and give prompt notice of a final date by which a producer may modify his approved application including changing the proposed method of diversion and the quantity of prune plums proposed to be diverted: Provided, That any change in the proposed method of diversion shall include information on the location where such diversion is to take place and shall be accompanied by a payment of $50 as a service charge, and any increase in the quantity of prune plums proposed to be diverted shall be accompanied by a payment of $4.50 per ton for such increase, of which $3.50 shall be the deposit fee and $1 shall be a service charge.

(4) Whenever an applicant cancels his approved diversion application prior to diversion, no part of the deposit fee covering actual costs incurred in connection with the application shall be refunded except upon approval by the Committee following review of all circumstances in the matter.

(e) Report of diversion. (1) When diversion of prune plums has been completed, the diverter (whether producer or dehydrator as agent of a producer) shall submit the required proof of such diversion to the Committee. When the Committee concludes that diversion has been completed pursuant to the requirements of this section, it shall furnish the producer whose prune plums were diverted with a listing of the total quantity of prune plums concluded to be so diverted: Provided, That a producer shall be given credit for any quantity of his prune plums diverted in excess of the quantity approved by the Committee pursuant to paragraph (d) of this section but not in excess of 120 percent of such approved quantity and then only to the extent that such creditable excess is already covered by his applicable deposit fee or such fee is increased by an additional deposit to cover such excess.

(2) Upon completion of the computation of dryaway pursuant to paragraph (a) of this section applicable to the diverter’s diversion of prune plums, the Committee shall issue a report of diversion to the producer whose prune plums were diverted for the total quantity, dried weight equivalent, credited for diversion setting forth the computations by which such total quantity was derived.

(f) Transferable certificate of diversion—(1) General. As hereinafter set forth, transferable certificates of diversion shall be issued by the Committee. Any transferable certificate of diversion issued to a handler that is a cooperative marketing association, or submitted to a handler and accepted by him, shall be returned to the Committee by the handler for credit against the handler’s reserve obligation of the crop year in accordance with §993.57. Such credit shall be based on the amount shown on the certificate, and shall be applied to reduce the handler’s holding requirement for such crop year. With respect to such creditable certificate of a handler with a holding requirement prior to issuance or acceptance, as applicable, of the transferable certificate of diversion, such credit shall result in an adjustment downward in the handler’s then applicable holding requirement in an amount equal to that computed by applying the applicable salable percentage to the total quantity on such certificate. Any
Agricultural Marketing Service, USDA

§ 993.162

adjustment in a handler’s holding requirement shall not affect his obligation, if any, to continue to hold reserve prunes that are undersized prunes. The term *undersized prunes* shall have the same meaning as prescribed by the Secretary for the then current crop year. If the Committee determines that effective administration of diversion operations requires establishment of a final date for submission of transferable certificates of diversion by producers to handlers, or a final date for return of such certificates by handlers to the Committee for crediting against their reserve obligations, or both, it shall establish such dates.

(2) Issuance to producers. Except as provided in paragraph (i)(3) of this section, the Committee shall issue transferable certificates of diversion to each producer diverting prune plums and to whom a report of diversion was issued. Prior to issuance of any such transferable certificate of diversion, the producer shall advise the Committee, in writing: (i) Of the name of the handler to whom the transferable certificate of diversion is to be submitted and who is holding reserve prunes referable to prunes received from such producer; and (ii) how much of the quantity shown on his report of diversion he desires to use in lieu of reserve prunes but not in excess of the quantity of reserve prunes referable to prunes received by the handler from such producer. The Committee shall enter on the transferable certificate of diversion the name of the handler and the quantity covered by the certificate. The transferable certificate of diversion shall be endorsed by the producer and the handler prior to its return to the Committee in order to be credited by the Committee against such handler’s reserve obligation. If any portion of the quantity shown on the producer’s report of diversion remains unused and he desires to transfer a transferable certificate of diversion covering all or any part of such unused portion to another producer, he shall advise the Committee, in writing, of the name and address of such producer, together with the applicable quantity desired to be covered by the transfer, and, if known, the name of the handler to whom such a transferable certificate is to be submitted. However, the quantity to be covered by the transfer shall not exceed the quantity of reserve prunes referable to prunes received by the handler from the transferee-producer. The Committee shall enter on the transferable certificate of diversion the names of the transferee-producer and the handler, and the quantity covered by the certificate. Prior to submission of any such transferred diversion certificate to a handler, the transferee-producer shall advise the Committee, in writing, of the name and address of the handler to whom the transferable certificate is to be submitted and who is holding reserve prunes referable to prunes received from such producer. Such transferred diversion certificate shall be endorsed by both producers and the handler in order to be credited by the Committee against such handler’s reserve obligation.

(3) Issuance to a cooperative marketing association. In connection with prune plums diverted by producers who are members of a cooperative marketing association, the Committee shall, when so requested by the association, issue the applicable transferable certificates of diversion to it. The quantity entered on the report of diversion of a cooperative producer shall be entered on or annexed to the applicable transferable certificate of diversion issued to the association. Such transferable certificates of diversion shall be returned to the Committee by the association endorsed by an authorized officer of the association in order to be credited by the Committee against the association’s reserve obligation.

(4) Applicability of certain payments. The provisions of §§ 993.59 and 993.159 governing payments to a handler for necessary services rendered by the handler in connection with reserve prunes shall not be applicable to prunes no longer required to be held as reserve prunes due to a downward adjustment by the Committee in the handler’s holding requirement on the basis of applicable transferable certificates of diversion returned to the Committee.

(g) Costs. Pursuant to §993.62(g), the costs pertaining to diversion are to be defrayed by payment of fees by the producer or cooperative marketing association to whom a diversion certificate...

SPECIFICATIONS AS TO SIZE

§ 993.515 Size categories.

For the purpose of this part, the pack specifications prescribed for the packing of prunes in consumer packages shall, subject to the limitation prescribed in §993.516, be according to those commercially recognized size categories as are listed in paragraph (a) of this section by numerical designation or in paragraph (b) of this section by nomenclature designation.

(a) Numerical designations. Each of the following is a numerical size category described by the range of the size counts of prunes per pounds included in the respective size categories expressed as follows or in an applicable equivalent range expressed in the metric system per 500 grams: 15/20, 15/22, 18/24, 20/30, 25/35, 30/40, 35/45, 40/50, 50/60, 60/70, 70/80, 75/85, 80/90, and 90/100.

(b) Nomenclature designations. Each of the following is a nomenclature size category:

(1) Extra large;
(2) Large;
(3) Medium; and
(4) Small, breakfast, petite, or economy.

(c) Nomenclature designations defined. As used in paragraph (b) of this section:

(1) Extra large means any size count which falls within the range of 25 to 40 prunes, inclusive, per pound;
(2) Large means any size count which falls within the range of 40 to 60 prunes, inclusive, per pound;
(3) Medium means any size count which falls within the range of 60 to 85 prunes, inclusive, per pound; and
(4) Small, breakfast, petite, or economy means any size count which falls within the range of 85 to 100 prunes, inclusive, per pound.

§ 993.516 Tolerances and limitations.

With respect to in-line inspections and floor inspections, prunes in a particular lot shall, subject to the other applicable requirements of this section, be considered as being according to a particular size category prescribed in §993.515 if the average size count of the prunes in such lot falls within the range of the size counts specified for such size category, and the count per pound of 10 ounces of the smallest prunes in a sample of 100 ounces varies from the count per pound of 10 ounces of the largest prunes in such sample by no more than 45 points.

LABELING

§ 993.517 Identification.

The size category of the prunes in any lot shall be clearly marked by the handler on each consumer package of such prunes, on the parts or panels of the package or label which are normally presented in retail display, in terms of the applicable numerical or nomenclature designation prescribed in §993.515, which designation shall not be lacking in prominence and conspicuousness. Any handler may, at his option, clearly mark on such consumer package additional information describing in numerical terms the average size count, or particular range of size counts, of the prunes in such lot so long as such numerical terms fall within the range of the size counts of the applicable numerical or nomenclature designation and do not tend to be deceptive as to the actual average size count, or range of the size counts, of the prunes in such lot. Descriptive terms other than synonyms of the prescribed nomenclature designation or words of like connotation, describing the style of pack, variety of prune, or other item of commercial significance may also be marked on the consumer package. Prunes in any lot of which the maximum size count is less than 25 shall be clearly marked by the handler in terms of the applicable numerical designation prescribed in §993.515(a); and the handler may use nomenclature terms descriptive of size other than the nomenclature designations prescribed in §993.515(b).

§ 993.518  Compliance.

Whenever the season average price to producers for prunes is below the parity level specified in section 2(1) of the act, no handler shall ship consumer packages of prunes unless such prunes are packed and labeled in accordance with the specifications prescribed in this subpart; and whether prices are above or below parity, no handler shall use the nomenclature designations in §993.515(b) to describe size categories other than those prescribed pursuant to §993.515(c).

Subpart—Grade Regulations

§ 993.601  More restrictive grade regulations.

(a) Incoming and outgoing regulation. Whenever the estimated season average price to producers for prunes does not exceed the parity level specified in section 2(1) of the act, the minimum standards which handlers’ receipts of natural condition prunes are required to meet pursuant to §993.49(a) shall be the standards specified in §§993.49(a) and 993.97(1), and the minimum standards which handlers’ shipments or other final dispositions of prunes are required to meet pursuant to §993.50(a) shall be the applicable standards set forth in §993.97 Exhibit A: minimum standards, except that the following revised tolerance allowances shall apply in lieu of the tolerance allowances prescribed in paragraphs I C(2), II C(3), I C(5) and II C(6) of §993.97 as follows:

(1) The combined tolerance allowance for off-color, inferior meat condition, end cracks, fermentation, skin or flesh damage, scab, burned, mold, imbedded dirt, insect infestation, and decay shall not exceed fifteen percent (15%), except that the first eight percent (8%) of end cracks shall be given one-half value and any additional percentage of end cracks shall be given full value.

(2) The combined tolerance allowance for mold, brown rot, imbedded dirt, insect infestation, and decay shall not exceed five percent (5%), and, within such tolerance, brown rot shall not exceed three percent (3%).

(b) Above parity situations. Whenever the estimated season average price to producers for prunes exceeds the parity level specified in section 2(1) of the act, the minimum standards set forth in §993.97 shall apply in their entirety.

§ 993.602  Maximum tolerances.

In lieu of the provision prescribed in I C of §993.97 that the tolerance allowances prescribed therein shall be on a weight basis, the tolerance allowance percentage for each defect or group of defects in I C of §993.97 shall be derived by dividing the number of prunes in the applicable sample affected with the applicable defect(s) by the total number of prunes in such sample.

(2) The term fall through, as used in this paragraph, shall mean sound split and broken kernels and whole kernels which pass through specified screens. Prior to shipment, appropriate samples for pretesting shall be drawn in accordance with paragraph (c) of this section from each lot of peanuts. For the current crop year, “negative” aflatoxin content means 15 parts per billion (ppb) or less for peanuts which have been certified as meeting edible quality grade requirements.

(b) Cleaned inshell peanuts. No handler shall ship, sell, or otherwise dispose of cleaned inshell peanuts for human consumption:

(1) With more than 1.00 percent kernels with mold present unless a sample of such peanuts, drawn by an inspector of the Federal or Federal-State Inspection Service, was analyzed chemically by a U.S. Department of Agriculture laboratory (hereinafter referred to as “USDA laboratory”) or a laboratory listed in paragraph (c) of this section and found to be wholesome relative to aflatoxin;

(2) With more than 2.00 percent peanuts with damaged kernels;

(3) With more than 10.00 percent moisture; or

(4) With more than 0.50 percent foreign material.

(c) Sampling and testing shelled peanuts. (1) Each handler shall cause appropriate samples of each lot of edible quality shelled peanuts to be drawn by an inspector of the Federal or Federal-State Inspection Service. The gross amount of peanuts drawn shall be large enough to provide for a grade analysis, for a grading check-sample, and for three 48-pound samples for aflatoxin assay. The three 48-pound samples shall be designated by the Federal or
Federal-State Inspection Service as “Sample #1N”, “Sample #2N”, and “Sample #3N” and each sample shall be placed in a suitable container and “positive lot identified” by means acceptable to the Inspection Service. Sample #1N may be prepared for immediate testing or Sample #1N, Sample #2N, and Sample #3N may be returned to the handler for testing at a later date.

(2) The handler shall cause Sample #1 to be ground by the Federal or Federal-State Inspection Service, a USDA laboratory or a laboratory listed herein, in a “subsampling mill” approved by the Division. The resultant ground subsample from Sample #1N shall be of a size specified by the Division and shall be designated as “Subsample 1—ABN” and at the handler’s or buyer’s option, a second subsample may also be extracted from Sample #1N. It shall be designated as “Subsample 1—CDN”. Subsample 1—CDN may be sent as requested by the handler or buyer, for aflatoxin assay, to a USDA laboratory or other laboratory that can provide analyses results on such samples in 36 hours. The cost of sampling and testing Subsample 1—CDN shall be for the account of the requester. Subsample 1—ABN shall be analyzed only in a USDA laboratory or a laboratory listed herein. Both Subsamples 1—ABN and 1—CDN shall be accompanied by a notice of sampling. A copy of such notice covering each lot shall be sent to the Division.

(3) The samples designated as Sample #2N and Sample #3N shall be held as aflatoxin check-samples by the Inspection Service or the handler and shall not be included in the shipment to the buyer until the analyses results from Sample #1N are known.

(4) Upon call from the laboratory, the handler shall cause Sample #2N to be ground by the Inspection Service in a “subsampling mill.” The resultant ground subsample from Sample #2N shall be of a size specified by the Division and shall be designated as “Subsample 2—ABN.” Upon call from the laboratory, the handler shall cause Sample #3N to be ground by the Inspection Service in a “subsampling mill.” The resultant ground subsample from Sample #3N shall be of a size specified by the Division and shall be designated as “Subsample 3—CDN”. "Subsamples 2—ABN and 3—CDN" shall be analyzed only in a USDA laboratory or a laboratory listed herein and each shall be accompanied by a notice of sampling. A copy of each such notice shall be sent to the Division. The results of each assay shall be reported by the laboratory to the handler and to the Division.

§ 997.40 Reconditioning and disposition of peanuts failing quality requirements.

(a) Lots of peanuts which have not been certified as meeting the requirements for disposition to human consumption outlets, may be disposed of for non-human consumption uses which are not regulated or limited by the provisions specified in this section: Provided, That each such lot is positive lot identified, using red tags, and certified as to aflatoxin content (actual numerical count). However, on the shipping papers covering the disposition of each such lot of inedible quality peanuts, the handler shall cause the following State Inspection Service to each filled bag in the lot. The tag shall be sewed (machine sewed if shelled peanuts) into the closure of the bag except that in plastic bags the tag shall be inserted prior to sealing so that the official stamp is visible. Any peanuts moved in bulk or bulk bins shall have their lot identity maintained by sealing the conveyance and if in other containers by other means acceptable to the Federal or Federal-State Inspection Service. All lots of shelled or cleaned inshell peanuts shall be handled, stored, and shipped under positive lot identification procedures, except those lots which have been reconstituted and/or commingled at the request of the receiver. All such reconstituted and/or commingled lots will no longer be considered positive lot identified and, therefore, no longer be eligible for appeal inspection. Handler shall keep and maintain records of the quantities involved in each reconstituting and/or commingling procedure, whether in single or multiple lots, and such records shall be available to the Division on request.

(e) Reinspection. Whenever the Division has reason to believe that peanuts may have been damaged or deteriorated while in storage, the Division may reject the then effective inspection certificate and may require the owner of the peanuts to have a reinspection to establish whether or not such peanuts may be disposed of for human consumption.

statement to be shown: "The peanuts covered by this bill of lading (or invoice, etc.) are not to be used for human consumption."

(b) Except for inedible quality peanuts disposed of under the provisions of paragraph (f)(2) of this section and peanuts derived from the milling for seed of Segregation 2 and 3 farmers stock peanuts, peanuts which have not been certified as meeting the standards set forth in paragraphs (a) or (b) of §997.30 shall be disposed of as prescribed hereinafter in this section.

(c) Sheller Oil Stock Residuals—For Crushing or Export. Peanuts, or portions of peanuts which are separated from edible quality peanuts by screening or sorting or other means during the milling process, may be segregated into categories or they may be commingled as sheller oil stock residuals. Such sheller oil stock residuals shall be identified pursuant to paragraph (d) of this section, but using a red tag, and such peanuts may be disposed of domestically or to the export market, in bags or other suitable containers. The movement of such peanuts shall be reported to the Division by the shipping handler and the crusher, as requested by the Division.

1 If the peanuts have not been tested and certified as to aflatoxin content, as prescribed in paragraph (c) of this section, the handler shall cause the following statement to be shown on the shipping papers: "The peanuts covered by this bill of lading (or invoice, etc.) are limited to crushing only and may contain aflatoxin."

2 If the peanuts are certified as 301 ppb or more aflatoxin content, disposition shall be limited to crushing or export.

(d) Blanching peanuts failing quality requirements. Handlers may blanch or cause to have blanched positive lot identified shelled peanuts, which originated from Segregation 1 peanuts, that fail to meet the requirements of paragraph (a) of this section because of excessive damage, minor defects, moisture, or foreign material or are positive as to aflatoxin. Lots of peanuts which are moved under these provisions must be accompanied by a valid grade inspection certificate and the title shall be retained by the handler until the peanuts are blanched and certified by an inspector of the Federal or Federal-State Inspection Service as meeting the requirements for disposal into human consumption outlets. To be eligible for disposal into human consumption outlets, such peanuts after blanching, must meet specifications for unshelled peanuts, damaged kernels, minor defects, moisture, and foreign material as listed in paragraph (a) of this section and be accompanied by a negative aflatoxin certificate. The residual peanuts, excluding skins and hearts, resulting from blanching under these provisions, shall be placed in suitable containers acceptable to AMS and red tagged and disposition shall be that such peanuts are returned to the handler for further disposition; or, in the alternative, such residuals shall be positive lot identified by the Federal or Federal-State Inspection Service, and shall be disposed of, by the blancher to crushers who agree to comply with the terms of paragraph (c) of this section. Handlers may contract with Committee approved blanchers for roasting positive lot identified shelled peanuts, which originated from Segregation 1 peanuts, that meet the grade requirements of paragraph (a) of this section but are positive as to aflatoxin. Lots of peanuts moved under these provisions must be accompanied by a valid grade inspection certificate and a valid aflatoxin certificate. To be eligible for disposal into human consumption outlets, such peanuts after roasting, shall have had the positive lot identity maintained and be accompanied by a negative aflatoxin certificate. The residual peanuts, excluding skins and hearts, resulting from roasting under these provisions, shall be placed in suitable containers acceptable to AMS and red tagged and disposition shall be that such peanuts are returned to the handler for further disposition; or that in the alternative, such residuals shall be positive lot identified by a Federal or Federal-State Inspection Service, and shall be disposed of, by the blancher, to handlers who are crushers, or to crushers who are not handlers under the Agreement only on the condition that they agree to comply with the terms of paragraph (c) of this section and all other applicable requirements.
of this regulation. Roasting under the provisions of this paragraph shall be performed only by blanchers who are approved by the Committee.

(e) Remilling peanuts failing quality requirements. Handlers may remill or cause to have remilled shelled peanuts, which originated from Segregation 1 peanuts, that fail to meet the requirements for disposition to human consumption outlets heretofore specified in paragraph (a) of this section: Provided, That such lots of peanuts contain not in excess of 10 percent fall through. Lots of peanuts moved under these provisions must be accompanied by a valid grade inspection certificate and must be positive lot identified and the title of such peanuts shall be retained by the handler until the peanuts have been remilled and certified by the Federal or Federal-State Inspection Service as meeting the requirements for disposition to human consumption outlets specified in paragraph (a) of this section, and be accompanied by a negative aflatoxin certificate. Remilling under these provisions may include composite remilling of more than one such lot of peanuts owned by the same handler. However, such peanuts owned by one handler shall be held and remilled separate and apart from all other peanuts. The residual peanuts resulting from remilling under these provisions, shall be placed in suitable containers acceptable to AMS and red tagged and disposition shall be that such peanuts are returned to the handler for further disposition; or, in the alternative, such residuals shall be positive lot identified by the Federal or Federal-State Inspection Service, and shall be disposed of, by the remiller, to crushers who agree to comply with the terms of paragraph (c) of this section.

§ 997.50 Inspection, chemical analysis, certification and identification.

Each handler shall, at the handler’s own expense, prior to or upon receiving and before shipping or disposing of peanuts, cause an inspection to be made of any such peanuts not covered by a valid inspection certificate, to determine whether such peanuts meet the applicable grade requirements effective pursuant to this part, and shall comply with such identification requirements prescribed by this part or which the Secretary may prescribe. Each handler shall also cause appropriate samples to be drawn and chemically analyzed by a USDA laboratory, or laboratory listed in § 997.30, for wholesomeness as provided in § 997.30 of this part. Such handler shall obtain grade and aflatoxin certificates stating that such peanuts meet the aforementioned applicable requirements and all such certificates shall be available for examination by the Division. Acceptable certificates shall be those issued by Federal or Federal-State inspectors authorized or licensed by the Secretary and USDA laboratories or those listed in § 997.30 of this part. Each handler shall furnish, or cause the inspection service or the laboratory to furnish, to the Division, a copy of the inspection certificate and a copy of the results of the chemical analyses issued to the handler on each lot of shelled peanuts or cleaned inshell peanuts.

ASSESSMENTS

§ 997.51 Assessments.

(a) Each first handler shall pay to the Secretary, with respect to Segregation 1 peanuts received or acquired by the handler, including the handler’s own production, an administrative assessment as approved by the Secretary. The rate of assessment shall be the same as the administrative assessment approved by the Secretary and applied to signatory handlers under the Peanut Marketing Agreement No. 146. Such administrative assessment shall be applied during the crop year beginning July 1 and ending June 30 of the following year. Each handler’s pro rata share shall be the rate of assessment fixed by the Secretary per net ton of farmers stock peanuts received or acquired, other than those peanuts described in § 997.20(a) (1) and (2). During the crop year, the Secretary may increase the rate of assessment if such an increase is established under the Agreement.

(b) Segregation 2 and Segregation 3 farmers stock peanuts disposed to
crushing or exported are exempt from assessments under this section.

REPORTS, BOOKS AND RECORDS

§ 997.52 Reports of acquisitions and shipments.

Upon the request of the Division, each handler shall furnish such other reports and information as necessary to enable the Division to carry out the provisions of this part. All reports and records furnished or submitted by handlers to the Division which include data or information constituting a trade secret or disclosing the trade position, financial condition, or business operations of the particular handler shall not be disclosed unless such disclosure is determined necessary by the Secretary to enforce the provisions of this part.

[62 FR 1265, Jan. 9, 1997]

§ 997.53 Verification of reports.

For the purpose of checking and verifying reports filed by handlers or the operation of handlers under the provisions of this part, the Secretary, through its duly authorized agents, shall have access to any premises where peanuts may be held by any handler and at any time during reasonable business hours and shall be permitted to inspect any peanuts so held by such handler and any and all records of such handler with respect to the acquisition, movement, holding, processing or disposition of all peanuts which may be held or which may have been disposed of by the handler. Each handler shall maintain such records of peanuts received, held, and disposed of by the handler, that will substantiate any required reports and will show performance under this part. Such records shall be retained for at least two years beyond the crop year of their applicability.

§ 997.54 Agents.

The Secretary may, by a designation in writing, name any person, including any officer or employee of the United States Government, or name any service, division or branch in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this part.

Only persons eligible to serve shall be eligible to vote. Each producer and each handler shall have but one vote, but a handler may vote in each production area in which he is a handler and if engaged in peanut production, may vote in his capacity as a producer. All nominations shall be certified by the committee to the Secretary no later than April 5 preceding the commencement of the term of office.
§ 998.20 Selection.

The Secretary shall select successor producer and handler members and alternate members of the committee in the numbers and with the qualifications specified in this agreement. Such selections may be made from the nominations certified by the committee or from other eligible producers and handlers.

§ 998.21 Failure to nominate.

In the event a nominee for any member or alternate member position is not certified pursuant to and within the time specified, the Secretary may select an eligible person to fill such position without regard to nomination.

§ 998.22 Qualify by acceptance.

Each person selected by the Secretary as a member or as an alternate member shall, prior to serving, qualify by filing with the Secretary a written acceptance as soon as practicable after being notified of such selection.

§ 998.23 Alternate members.

An alternate for a member shall act in the place and stead of such member:

(a) During his absence, or
(b) In the event of his removal, resignation, disqualification, or death, until a successor for such member’s unexpired term has been selected and has qualified.

§ 998.24 Vacancies.

Any vacancy occasioned by the removal, resignation, disqualification, or death of any member or alternate, or any need to select a successor through failure of any person selected as a member or alternate member to qualify, and which is not recognized by the committee certifying to the Secretary a new nominee within 40 calendar days, may be filled pursuant to § 998.21.

§ 998.25 Compensation and expenses.

The members of the committee, and the alternate members when acting as members, shall serve without compensation but shall be allowed their necessary expenses, actual or per diem as approved by the committee.

Meetings, or portions of meetings, concerned with marketing policy or quality regulation shall be open to all members of the peanut industry. All votes in an assembled meeting shall be cast in person and a quorum must be present for a valid decision. A quorum shall consist of not less than 50 percent of the producer members and 50 percent of the handler members. The committee may vote by mail or telegram upon due notice to all members, but any proposition so voted upon first shall be explained accurately, fully, and identically by mail or telegram, to all such members. When any proposition is submitted to be voted on by such method, one dissenting vote shall prevent its adoption. Failure of any member, or alternate acting for a member, to vote within a prescribed time shall be held to be a dissenting vote.

§ 998.27 Powers.

The committee shall have the following powers:

(a) To administer the agreement in accordance with its terms and provisions;
(b) To receive, investigate, and report to the Secretary, complaints of violations of this agreement; and
(c) To recommend to the Secretary amendments to this agreement.

§ 998.28 Duties.

The committee shall have the following duties:

(a) To act as intermediary between the Secretary and any producer or handler;
(b) To keep minutes, books, and other records which shall clearly reflect all of its acts and transactions and these shall be subject to examination by the Secretary at any time;
(c) To investigate and assemble data on the production, handling, and marketing of peanuts;
(d) To submit to the Secretary such available information with respect to peanuts as he may request and such
other information as the committee may deem desirable and pertinent;
(e) To select from among its members a chairman and other officers and to adopt such by-laws for the conduct of its business as it may deem advisable;
(f) To appoint or employ such persons as it may deem necessary and to determine the salaries and define the duties of each such person;
(g) To cause the books of the committee to be audited by a certified public accountant at least once each crop year and at such other times as the committee may deem necessary or as the Secretary may request, to submit two copies of each such audit report to the Secretary, and to make available a copy which does not contain confidential data for inspection at the offices of the committee by producers and handlers;
(h) To prepare and submit to the Secretary quarterly statements of the financial operations of the committee and to make available a copy which does not contain confidential data for inspection at the offices of the committee by producers and handlers;
(i) To give the Secretary the same notice of meetings of the committee as is given to members;
(j) To investigate compliance with and to use means available to the committee to prevent violation of the provisions of this agreement; and
(k) To establish with the approval of the Secretary such rules and regulations as are necessary or incidental to administration of this agreement, as are consistent with its provisions, and as would tend to accomplish the purposes of this agreement and the act.

MARKETING POLICY

§ 998.30 Marketing policy.

Prior to May 31, the committee shall prepare and submit to the Secretary a report setting forth its recommended marketing policy covering quality regulations for the pending crop. In the event it becomes advisable to modify such policy, because of changed conditions, the committee shall formulate a new policy and shall submit a report thereon to the Secretary. In developing the marketing policy, the committee shall give consideration to the production, harvesting and storage conditions, probable quality of crop, grading and treatment methods, inspection capability, demand for peanuts in domestic and foreign markets, the basis of handler indemnification, the probable assessable tonnage for the purposes of §48 and such other factors as may have a bearing on the peanut quality regulation or the administration of this agreement. Notice of the committee’s marketing policy, and of any modifications thereof, shall be given promptly to producers and handlers.

QUALITY REGULATION

§ 998.31 Incoming regulation.

No handler shall receive or acquire peanuts, either from a producer or other person, unless such peanuts were determined pursuant to §998.33 to be Segregation 1 peanuts at time of receipt from the producer or, if received from another person, had not been mixed with peanuts of a lower quality than Segregation 1: Provided, That a handler may:
(a) Receive or acquire and deliver for seed purposes farmers stock peanuts with not more than 3 percent damaged kernels nor more than 10 percent moisture if such peanuts were produced under the auspices of a State agency which regulates or controls the production of seed peanuts;
(b) Acquire shelled peanuts from the Commodity Credit Corporation (CCC) or cleaned inshell or shelled peanuts from handlers subject to this agreement, or from buyers who have purchased such peanuts from such handlers or from CCC, if the lot has been certified as meeting the requirements of §998.32(a) and the identity is maintained;
(c) Perform services for an area association pursuant to a peanut receiving and warehouse contract; and
(d) If a crusher, acquire peanuts of a lower quality than Segregation 1 as oil stock upon such conditions as the committee, with the approval of the Secretary, may prescribe.

Segregation 2 peanuts which are wholesome relative to mold damage may be
acquired from peanuts held by CCC or an area association when released by the Secretary as needed to fill demand. In the situation of §998.35, the Secretary may authorize handlers to acquire Segregation 2 peanuts from producers or intermediaries. The acquisition of loose shelled kernels or their removal from farmers stock peanuts shall be in accordance with such procedures as the committee, with the approval of the Secretary, may establish.

§ 998.32 Outgoing regulation.

(a) No handler shall dispose of for human consumption, peanuts which fail to meet such U.S. grade requirements, or modifications thereof, or requirements as to wholesomeness as the committee, with the approval of the Secretary, may specify including the tolerance for moldy peanuts, time in storage, or other pertinent factors. No inspection certificate issued pursuant to §998.33 shall be effective if unacceptable to the committee or for more than such period of time as the committee, with the approval of the Secretary, may prescribe. Peanuts which fail to meet the requirements specified pursuant to this section shall be disposed of by delivery to the Commodity Credit Corporation or in such manner as may be prescribed by the committee with the approval of the Secretary.

(b) Notwithstanding the restrictions contained in this section, and handler may transfer peanuts from one plant owned by him to another plant owned by him or to commercial storage without having an inspection made as provided for in §998.33. No such transfers shall be made except in accordance with such procedures as the committee, with the approval of the Secretary, may prescribe for movement within each production area, to another production area or to points outside thereof.

§ 998.33 Inspection, certification and identification.

Each handler shall, at his own expense, prior to or upon receiving and before shipping or disposing of peanuts, cause an inspection to be made of any such peanuts not covered by a valid inspection certificate, to determine whether they meet the applicable grade requirements effective pursuant to this agreement and shall comply with such identification requirements as the committee, with the approval of the Secretary, may prescribe. Such handler shall obtain a certificate that such peanuts meet the aforementioned applicable requirements and all such certificates shall be available for examination or use by the committee. Acceptable certificates shall be those issued by Federal or Federal-State inspectors authorized or licensed by the Secretary.

§ 998.34 Modification.

The requirements of §§998.31 and 998.32 and definitions set forth in §998.5, (b), (c), and (d) may be modified by the Secretary, upon recommendation of the committee or other information, whenever he finds that such modification would tend to effectuate the objectives of this agreement.

§ 998.35 Above parity situations.

Minimum standards established under §§998.31 and 998.32, the grading and inspection requirements, and the provisions of this agreement relating to administration and indemnification shall continue in effect irrespective of whether or not the estimated season average price for peanuts is in excess of the parity level specified in section 2(1) of the Act.

§ 998.36 Indemnification.

The committee shall, upon such terms and conditions as it may establish with the approval of the Secretary, indemnify any handler, to the extent specified, for losses incurred by him on peanuts which have been milled for sale for human consumption and which meet the applicable grade and other requirements but which are determined by the committee or the U.S. Food and Drug Administration to be unsuitable for human consumption because of aflatoxin including such peanuts returned, resold or rejected to a handler by a purchaser. Any peanuts for which the handler is indemnified pursuant to this paragraph shall be delivered to the
committee or disposed of as the committee may direct. Funds for such indemnification shall be obtained pursuant to §998.48. The period of indemnification on any crop may extend to December 31 of the calendar year following the year in which the crop was produced.

§ 998.40 Confidential information.

All reports and records furnished or submitted by handlers to the committee which include data or information constituting a trade secret or disclosing the trade position, financial condition, or business operations of the particular handlers or their customers shall be received by, and at all times kept in the custody and under the control of, one or more employees of the committee, who shall disclose such information to no person except the Secretary. Notwithstanding the above provisions of this section, information may be disclosed to the committee when reasonably necessary to enable the committee to carry out its functions under this agreement.

§ 998.41 Reports of acquisitions and shipments.

Each handler shall file such reports of his acquisitions and shipments of peanuts, as may be requested by the committee.

§ 998.42 Other reports.

Upon the request of the committee, with the approval of the Secretary, each handler shall furnish such other reports and information as are needed to enable the committee to perform its functions under this agreement.

§ 998.43 Records.

Each handler shall maintain such records of peanuts received, held and disposed of by him, as will substantiate any required reports and will show performance under this agreement. Such records shall be retained for at least 2 years beyond the crop year of their applicability.

§ 998.44 Verification of reports.

For the purpose of checking and verifying reports filed by handlers or the operation of handlers under the provisions of this agreement, the Secretary and the committee, through its duly authorized agents, shall have access to any premises where peanuts may be held by any handler and at any time during reasonable business hours, shall be permitted to inspect any peanuts so held by such handler and any and all records of such handler with respect to the acquisition, holding, or disposition of all peanuts which may be held or which may have been disposed of by him.

EXPENSES AND ASSESSMENTS

§ 998.47 Expenses.

The committee is authorized to incur such expenses as the Secretary finds are reasonable and likely to be incurred by it during each crop year for the maintenance and functioning of the committee and for such other purposes as the Secretary may, pursuant to the provisions of this agreement, determine to be appropriate.

§ 998.48 Assessments.

(a) Each handler shall pay to the committee, upon demand, with respect to peanuts received by him, including his own production, his pro rata share of all expenses, indemnification and other, which the Secretary finds are reasonable and likely to be incurred by the committee during each crop year. Each handler’s pro rata share shall be the rate of assessment fixed by the Secretary per net ton of farmers stock peanuts received or acquired other than those peanuts described in §998.31 (c) and (d). During a crop year the Secretary may not increase the rate of assessment to cover a deficit in the indemnification fund but may assess for a deficit in a subsequent year. An assessment rate may be increased to cover a deficit in the administrative fund.

(b) In order to provide funds to carry out the functions of the committee, the committee may borrow money or may accept advance payments from any handler to be credited toward such assessments as may be levied pursuant to
this section against the respective handler.

(c) Indemnification reserve. The committee, with the approval of the Secretary, may establish and maintain during one or more crop years a monetary reserve in an amount approximating anticipated expenses for indemnification pursuant to §998.36.

(d) Refunds. Administrative funds held by the committee at the conclusion of the crop year in excess of the crop year's expenses, other than indemnification funds, may be used to defray expenses for no more than the ensuing four months, and thereafter within a reasonable time the committee shall credit the aforesaid administrative excess to handlers who contributed to such excess: Provided, That the excess due any handler shall be applied, in whole or in part, by the committee to any outstanding obligation due the committee from such handler. Should any handler discontinue handling peanuts, such excess shall be refunded to him. A handler’s share of such excess funds shall be the amount of such assessments he paid in excess of his actual pro rata share of the administrative expenses of the committee. Upon termination of this agreement any indemnification money in possession of the committee shall be turned over to any successor committee or disposed of, with the approval of the Secretary, for projects of benefit to the peanut industry and any residual together with any administrative money shall be distributed in such manner as the Secretary may direct: Provided, That, to the extent practicable, such residual funds shall be returned pro rata to the persons from whom collected.

MISCELLANEOUS PROVISIONS

§ 998.50 Rights of the Secretary.

The members of the committee (including successors or alternates) and any agent or employee appointed or employed by the committee, shall be subject to removal or suspension by the Secretary, in his discretion, at any time. Each and every decision, determination, or other act of the committee shall be subject to the continuing right of the Secretary to disapprove of the same at any time, and upon such disapproval, shall be deemed null and void.

§ 998.51 Personal liability.

No member or alternate member of the committee, nor any employee, representative, or agent of the committee shall be held personally responsible to any handler, either individually, or jointly with others, in any way whatsoever, to any person, for errors in judgment, mistakes, or other acts, either of commission or omission, as such member, alternate member, employee, representative, or agent, except for acts of dishonesty.

§ 998.52 Separability.

If any provision of this agreement is declared invalid, or the applicability thereof to any person, circumstance, or thing is held invalid, the validity of the remainder, or the applicability thereof to any other person, circumstance, or thing, shall not be affected thereby.

§ 998.53 Derogation.

Nothing contained in this agreement is, or shall be construed to be, in derogation or in modification of the rights of the Secretary or of the United States to exercise any powers granted by the act or otherwise, or, in accordance with such powers, to act in the premises whenever such action is deemed advisable.

§ 998.54 Duration of immunities.

The benefits, privileges, and immunities conferred upon any person by virtue of this agreement shall cease upon its termination, except with respect to acts done under and during the existence thereof.

§ 998.55 Agents.

The Secretary may, by a designation in writing, name any person, including any officer or employee of the United States Government, or name any service, division or branch in the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions of this agreement.

§ 998.56 Effective time.

The provisions of this agreement, as well as any amendments, shall become
§ 998.57 Suspension or termination.

(a) Failure to effectuate policy of act. The Secretary shall terminate or suspend the operation of any or all of the provisions of this agreement, whenever he finds that such provisions do not tend to effectuate the declared policy of the act. Moreover, if the provisions of the CCC price support program relating to purchases from shellers are discontinued, or change appreciably, consideration shall be given to termination of this agreement.

(b) Referendum. The Secretary shall terminate, in accordance with section 8c(16)(B) of the Act, the provisions of this agreement at the end of any crop year whenever he finds that such termination is favored by a majority of the producers of peanuts who during the crop year have been engaged in the production of peanuts for market: Provided, That such majority have during such period produced for market more than 50 percent of the volume of such peanuts produced for market within the area, but such termination shall be effective only if announced on or before June 1 of the then current crop year.

(c) Termination of Act. The provisions of this agreement shall terminate, in any event, whenever the provisions of the act authorizing them cease to be in effect.

§ 998.58 Procedure upon termination.

Upon the termination of this agreement, the members of the committee then functioning shall continue as joint trustees, for the purpose of liquidating the affairs of the committee. Action by such trustees shall require the concurrence of a majority of said trustees. Such trustees shall continue in such capacity until discharged by the Secretary, and shall account for all receipts and disbursements and deliver all property on hand, together with all books and records of the committee and the joint trustees, to such persons as the Secretary may direct; and shall upon the request of the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title and right to all the funds, properties, and claims vested in the committee or the joint trustees, pursuant to this agreement. Any person to whom funds, property, or claims have been transferred or delivered by the committee or the joint trustees, pursuant to this section, shall be subject to the same obligations imposed upon the members of said committee and upon said joint trustees.

§ 998.59 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination of this agreement or of any regulation issued pursuant thereto, or the issuance of any amendment to either thereof, shall not:

(a) Affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise, in connection with any provisions of this agreement or any regulation issued thereunder, or

(b) Release or extinguish any violation of this agreement or any regulation issued thereunder, or

(c) Affect or impair any rights or remedies of the Secretary, or of any other persons, with respect to such violation.

§ 998.60 Counterparts.

This agreement may be executed in multiple counterparts and, when one counterpart is signed by the Secretary, all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.

§ 998.61 Additional parties.

After the effective date of this agreement, any handler may become a party thereto if a counterpart is signed by the Secretary, all such counterparts shall constitute, when taken together, one and the same instrument as if all signatures were contained in one original.
§ 998.100 Incoming quality regulation for 1997 and subsequent crop peanuts.

The following modify §998.5 of the peanut marketing agreement and modify or are in addition to the restrictions of section 31 on handler receipts or acquisitions of peanuts:
(a) Modification of §998.5, paragraphs (b), (c), and (d). Paragraphs (b), (c), and (d) of §998.5 of the peanut marketing agreement are modified for the purposes of this section as to farmers stock peanuts to read respectively as follows:

(b) Segregation 1. Segregation 1 peanuts means farmers stock peanuts with not more than 2 percent damaged kernels nor more than 1.00 percent concealed damage caused by rancidity, mold, or decay and which are free from visible Aspergillus flavus.

(c) Segregation 2. Segregation 2 peanuts means farmers stock peanuts with more than 2 percent damaged kernels or more than 1.00 percent concealed damage caused by rancidity, mold, or decay and which are free from visible Aspergillus flavus.

(d) Segregation 3. Segregation 3 peanuts means farmers stock peanuts with visible Aspergillus flavus.

(b) Moisture and foreign material—(1) Moisture. Except as provided under paragraph (d) of this section, no handler shall receive or acquire peanuts containing more than 10.49 percent moisture: Provided, That peanuts of a higher moisture content may be received and dried to not more than 10.49 percent moisture prior to storing or milling. On farmers stock, such moisture determinations shall be rounded to the nearest whole number; on shelled peanuts, the determinations shall be carried to the hundredths place and shall not be rounded to the nearest whole number.

(2) Foreign material. No handler shall receive or acquire farmers stock peanuts containing more than 10.49 percent foreign material, except that peanuts having a higher foreign material content may be received or acquired if they are held separately until milled, or moved over a sand-screen before storage, or shipped directly to a plant for prompt shelling. The term sand-screen means any type of farmers stock cleaner which, when in use, removes sand and dirt.

(c) Damage. For the purpose of determining damage, other than concealed damage, on farmers stock peanuts, all percentage determinations shall be rounded to the nearest whole number.

(d) Seed peanuts. A handler may acquire and deliver for seed purposes farmers stock peanuts which meet the requirements of Segregation 1 peanuts. If the seed peanuts are produced under the auspices of a State agency which regulates or controls the production of seed peanuts, they may contain up to 3 percent damaged kernels and have visible Aspergillus flavus, and, in addition, the following moisture content, as applicable:

1. Seed peanuts produced in the Southeastern and Virginia-Carolina areas, may contain up to 10.49 percent moisture except Virginia type peanuts which are not stacked at harvest time may contain up to 11.49 percent moisture; and

2. Seed peanuts produced in the Southwestern area may contain up to 10.49 percent moisture.

Any seed peanuts produced under the auspices of a State agency which contain up to 3 percent damaged kernels and are free from visible Aspergillus flavus, may be stored and shelled with Segregation 1 seed peanuts which are also produced under the auspices of the State agency. Any seed peanuts with visible Aspergillus flavus shall be stored and shelled separate from other peanuts, and any residuals not used for seed shall not be used or disposed of for human consumption unless it is determined to be wholesome by chemical assay for aflatoxin. A handler whose operations include custom shelling may receive, custom shell, and deliver for seed purposes farmers stock peanuts, and such peanuts shall be exempt from the Incoming Quality Regulation requirements, and, therefore, shall not be required to be inspected and certified as meeting the Incoming Quality Regulation requirements, and the handler shall report to the Committee, as requested, the weight of each lot of farmers stock peanuts received on such
basis on a form furnished by the Committee. Handlers who acquire seed peanut residuals from their custom shelling of uninspected (farmers stock) seed peanuts or from another producer or sheller may mill such residuals with other receipts or acquisitions of the handler, and such residuals which meet the Outgoing Quality Regulation requirements, may be disposed of by sale to human consumption outlets.

(e) Oilstock. Handlers may acquire for disposition to domestic crushing or export farmers stock peanuts of a lower quality than Segregation 1 or grades or sizes of shelled peanuts or cleaned inshell peanuts which fail to meet the requirements for human consumption. The provision of §998.31 of the marketing agreement restricting acquisitions of such peanuts to handlers who are crushers is hereby modified pursuant to §998.34, to authorize all handlers to act as accumulators and acquire, from other handlers or non-handlers, Segregation 2 or 3 farmers stock peanuts. Handlers may also acquire for crushing or export from other handlers peanuts originating from Segregation 2 or 3 farmers stock or the entire mill production of shelled peanuts from Segregation 1 farmers stock or lots of peanuts originating from Segregation 1 peanuts and which have been positive lot identified as specified in paragraph (d) of §998.200. Outgoing quality regulation, which failed to meet the requirements for human consumption pursuant to paragraph (a) of §998.200. Outgoing quality regulation: Provided, That all such acquisitions are held separate from Segregation 1 peanuts acquired for milling or from edible grades of shelled or milled peanuts. Handlers may commingle the Segregation 2 and 3 peanuts or keep them separate and apart. Handlers who acquire farmers stock peanuts of a lower quality than Segregation 1 or grades or sizes of shelled peanuts or cleaned inshell peanuts which fail to meet the requirements for human consumption shall report such acquisitions as prescribed by the Committee. To be eligible to receive or acquire Segregation 2 or 3 farmers stock peanuts and shelled peanuts originating therefrom, a handler shall pay to the Area Association a fee for the purpose of covering cost of supervision of the disposition of such peanuts.

(f) Segregation 2 and 3 control. To assure the removal from edible outlets of any lot of peanuts determined by Federal or Federal-State Inspection Service to be Segregation 2 or Segregation 3, each handler shall inform each employee, country buyer, commission buyer, or like person through whom the handler receives peanuts of the need to receive and withhold all lots of Segregation 2 and Segregation 3 peanuts from milling for edible use. If any lot of Segregation 2 or Segregation 3 farmers stock peanuts is not withheld but returned to the producer, the handler shall cause the Inspection Service to forward immediately a copy of the inspection certificate on the lot to the designated office of the handler and a copy to the Committee which shall be used only for information purposes.

(g) Shelled peanuts. Handlers may acquire shelled peanuts, which originated from “Segregation 1 peanuts,” from other handlers, for remilling and subsequent disposition to human consumption outlets.

(h) Segregation 2 and Segregation 3 farmers stock peanuts held separate and apart or commingled, and disposed of to domestic or export crushing are exempt from assessments under this section.

§998.200 Outgoing quality regulation for 1997 and subsequent crop peanuts.

The following modify or in addition to the peanut marketing agreement restrictions of §998.32 on handler disposition of peanuts:

(a) Shelled peanuts. (1) No handler shall dispose of shelled peanuts for human consumption unless such peanuts are positive lot identified, certified “negative” as to aflatoxin, and certified as meeting the following requirements:

(2) The term fall through, as used in this paragraph, shall mean sound split and broken kernels and whole kernels which pass through specified screens.

(b) Cleaned inshell peanuts. No handler shall ship or otherwise dispose of cleaned inshell peanuts for human consumption:

(1) With more than 1.00 percent kernels with mold present unless a sample of such peanuts, drawn by an inspector of the Federal or Federal-State Inspection Service, was analyzed chemically by laboratories approved by the Committee or by a U.S. Department of Agriculture laboratory (hereinafter referred to as “USDA laboratory”) and found to be wholesome relative to aflatoxin;

(2) with more than 2.00 percent peanuts with damaged kernels;

(3) with more than 10.00 percent moisture; or

(4) with more than 0.50 percent foreign material. The lot size of such peanuts in bags or bulk shall not exceed 200,000 pounds.

(c) Sampling and testing shelled peanuts. (1) Prior to shipment, each handler shall cause appropriate samples of each lot of edible quality shelled peanuts to be drawn by an inspector of the Federal or Federal-State Inspection Service. The gross amount of peanuts drawn shall be large enough to provide for a grade analysis, for a grading check-sample, and for three 48-pound samples for aflatoxin assay. The three 48-pound samples shall be designated by the Federal or Federal-State Inspection Service as “Sample #1,” “Sample #2,” and “Sample #3” and each sample shall be placed in a suitable container and “positive lot identified” by means acceptable to the Inspection Service and the Committee. Sample #1 may be prepared for immediate testing or Sample #1, Sample #2, and Sample #3 may be returned to the handler for testing at a later date. However, before
shipment of the lot to the buyer (receiver), the handler shall cause Sample #1 to be ground by the Federal or Federal-State Inspection Service or a USDA or designated laboratory in a "subsampling mill" approved by the Committee. The resultant ground subsample from Sample #1 shall be of a size specified by the Committee and be designated as "Subsample 1-AB" and at the handler’s or buyer’s option, a second subsample may also be extracted from Sample #1. It shall be designated as "Subsample 1-CD." Subsample 1-CD may be sent as requested by the handler or buyer, for aflatoxin assay, to a laboratory listed on the most recent Committee list of approved laboratories that can provide analyses results on such samples in 36 hours. Subsample 1-AB shall be analyzed only in USDA or designated laboratories. Both Subsamples 1-AB and 1-CD shall be accompanied by a notice of sampling signed by the inspector containing, at least, identifying information as to the handler (shipper), the buyer (receiver), if known, and the positive lot identification of the shelled peanuts. A copy of such notice covering each lot shall be sent to the Committee office.

(2) The samples designated as Sample #2 and Sample #3 shall be held as aflatoxin check-samples by the Inspection Service or the handler and shall not be included in the shipment to the buyer until the analyses results from Sample #1 are known. Upon call from the USDA or designated laboratory or the Committee, the handler shall cause Sample #2 to be ground by the Inspection Service in a "subsampling mill." The resultant ground subsample from Sample #2 shall be of the size specified by the Committee and it shall be designated as "Subsample 2-AB." Upon call from the USDA or designated laboratory or the Committee, the handler shall cause Sample #3 to be ground by the Inspection Service in a "subsampling mill." The resultant ground subsample from Sample #3 shall be of the size specified by the Committee and it shall be designated as "Subsample 3-AB." Subsamples 2-AB and 3-AB shall be analyzed only in USDA or designated laboratories and each shall be accompanied by a notice of sampling. A copy of each such notice shall be sent to the Committee office and the cost of delivery of Subsamples 2-AB and 3-AB to the laboratory and the cost of assay on them shall be at the Committee’s expense.

(3) All costs involved in sampling and testing Subsample 1-CD shall be for the account of the buyer of the lot and at the buyer’s expense. However, if the handler elects to pay any portion of these cost the handler shall charge the buyer accordingly. Aflatoxin sampling and testing cost for the AB subsamples shall be included as a separate item in the handler’s invoice to the buyer at the rate of $0.0027 per pound or $0.27 per hundredweight of the peanuts covered by the invoice. When any of the samples or subsamples have been lost, misplaced, or spoiled and replacement samples are needed, the entire cost of drawing the replacement samples shall be for the account of the handler. The results of each assay shall be reported to the buyer listed on the notice of sampling and, if the handler desires, to the handler. If a buyer is not listed on the notice of sampling, the results of the assay shall be reported to the handler, who shall promptly cause notice to be given to the buyer of the contents thereof, and such handler shall not be required to furnish additional samples for assay.

(4) For the current crop year, “negative” aflatoxin content means 15 parts per billion (ppb) or less for peanuts which have been certified as meeting edible quality grade requirements as determined by the Committee’s sampling plan applicable to the respective grade categories.

(d) Identification. Each lot of shelled or cleaned inshell peanuts, in lot sizes not exceeding 200,000 pounds, shall be identified by positive lot identification procedures prior to being shipped or otherwise disposed of. For the purpose of this regulation, “positive lot identification” of a lot of shelled or inshell peanuts is a means of relating the inspection certificate to the lot which has been inspected so that there can be no doubt that the peanuts are the same ones described on the inspection certificate. The crop year that is shown on the positive lot identification tags, or
other means of positive lot identification shall accurately describe the crop year in which the peanuts in the lot were produced. Such procedure on bagged peanuts shall consist of attaching a lot numbered tag bearing the official stamp of the Federal or Federal-State Inspection Service to each filled bag in the lot. The tag shall be sewed (machine sewed if shelled peanuts) into the closure of the bag except that in plastic bags the tag shall be inserted prior to sealing so that the official stamp is visible. Any peanuts moved in bulk or bulk bins shall have their lot identity maintained by sealing the conveyance and if in other containers by other means acceptable to the Federal or Federal-State Inspection Service and to the Committee. All lots of shelled or cleaned inshell peanuts shall be handled, stored, and shipped under positive lot identification procedures, except those lots which have been reconstituted and/or commingled at the request of the receiver. All such reconstituted and/or commingled lots will no longer be considered positive lot identified and, therefore, no longer be eligible for indemnification or for appeal inspection. Handlers shall keep and maintain records of the quantities involved in each reconstituting and/or commingling procedure, whether in single or multiple lots, and such records shall be available to the Committee on request.

(e) Reinspection. Whenever the Committee has reason to believe that peanuts may have been damaged or deteriorated while in storage, the Committee may reject the then effective inspection certificate and may require the owner of the peanuts to have a reinspection to establish whether or not such peanuts may be disposed of for human consumption.

(f) Further modification of §998.32. (1) The provisions of §998.32(a) restricting the disposition of peanuts which fail to meet the requirements specified hereinafter in this section to the Commodity Credit Corporation or in such manner as may be prescribed by the Committee with the approval of the Secretary, is hereby modified to specify that only peanuts which have been certified as meeting the requirements specified in paragraphs (a) or (b) of this section, which have been sampled pursuant to paragraph (c) of this section, and which have been identified pursuant to paragraph (d) of this section are eligible for disposition to human consumption outlets.

(2) Lots of peanuts which have not been certified as meeting the requirements for disposition to human consumption outlets, may be disposed for non-human consumption uses which are not regulated or limited by the provisions specified hereinafter in this section: Provided, That each such lot is positive lot identified, using red tags, and certified as to aflatoxin content (actual numerical count). However, on the shipping papers covering the disposition of each such lot of inedible quality peanuts, the handler shall cause the following statement to be shown: “The peanuts covered by this bill of lading (or invoice, etc.) are not to be used for human consumption.”

(3) Except for inedible quality peanuts disposed of under the provisions of paragraph (f)(2) of this section and peanuts derived from the milling for seed of Segregation 2 and 3 farmers stock peanuts, peanuts which have not been certified as meeting the standards set forth in paragraphs (a) or (b) of this section shall be disposed of as prescribed hereinafter in this section.

(g) Sheller oil stock residuals—for crushing or export. Peanuts and portions of peanuts which are separated from edible quality peanuts by screening or sorting or other means during the milling process, may be segregated into categories or commingled as sheller oil stock residuals. Such sheller oil stock residuals shall be identified pursuant to paragraph (d) of this section, but using a red tag, and such peanuts may be disposed of domestically or to the export market in bulk or bags or other suitable containers. Disposition to crushing may be to handlers who are crushers or to domestic crushers who are not handlers under the Agreement only on the condition that they agree to comply with the terms of this paragraph and all other applicable requirements of the Agreement. The movement of such peanuts shall be reported to the Committee by the shipping handler and the crusher, as requested by the Committee.
§ 998.200  7 CFR Ch. IX (1–1–99 Edition)

(1) If the peanuts have not been tested and certified as to aflatoxin content, as prescribed in paragraph (c) of this section, the handler shall cause the following statement to be shown on the shipping papers: “The peanuts covered by this bill of lading (or invoice, etc.) are limited to crushing only and may contain aflatoxin.”

(2) If the peanuts are certified as 301 ppb or more aflatoxin content, disposition shall be limited to crushing or export.

(b) Blanching and remilling peanuts failing quality requirements. (1) Handlers may blanch or cause to have blanched positive lot identified shelled peanuts, which originated from Segregation 1 peanuts, that fail to meet the requirements of paragraph (a) of this section. Lots of peanuts which are moved under these provisions must be accompanied by a valid grade inspection certificate and the title shall be retained by the handler until the peanuts are blanched and certified by an inspector of the Federal or Federal-State Inspection Service as meeting the requirements for disposal into human consumption outlets. To be eligible for disposal into human consumption outlets, such peanuts after blanching, must meet specifications as listed in paragraph (a) of this section and be accompanied by an aflatoxin certificate determined to be negative by the Committee. Lots of peanuts which have been certified as meeting fall through requirements as specified in paragraph (a) of this section, prior to blanching, shall be exempt from fall through requirements after blanching. The residual peanuts, excluding skins and hearts, resulting from blanching under these provisions, shall be placed in suitable containers acceptable to the Committee and red tagged and disposition shall be that such peanuts are returned to the handler for further disposition; or, in the alternative, such residuals shall be positive lot identified by the Federal or Federal-State Inspection Service, and shall be disposed of, by the blancher, to handlers who are crushers, or to crushers who are not handlers under the Agreement only on the condition that they agree to comply with the terms of paragraph (g) of this section and all other applicable requirements of the Agreement. Blanching under the provisions of this paragraph shall be performed only by those firms who agree to procedures acceptable to the Committee and who are approved by the Committee to do such blanching.

(2) Handlers may contract with Committee approved remillers for remilling shelled peanuts, which originated from Segregation 1 peanuts, that fail to meet the requirements for disposition to human consumption outlets here-tofore specified in paragraph (a) of this section: Provided, That such lots of peanuts contain not in excess of 10 percent fall through. Lots of peanuts moved under these provisions must be accompanied by a valid grade inspection certificate and must be positive lot identified and the title of such peanuts shall be retained by the handler until the peanuts have been remilled and certified by the Federal or Federal-State Inspection Service as meeting the requirements for disposition to human consumption outlets specified in paragraph (a) of this section, and be accompanied by an aflatoxin certificate determined to be negative by the Committee. Remilling under these provisions may include composite remilling of more than one such lot of peanuts owned by the same handler. However, such peanuts owned by one handler shall be held and remilled separate and apart from all other peanuts. The residual peanuts resulting from remilling under these provisions, shall be placed in suitable containers acceptable to the Committee and red tagged and disposition shall be that such peanuts are returned to the handler for further disposition; or, in the alternative, such residuals shall be positive lot identified by the Federal or Federal-State Inspection Service, and shall be disposed of, by the remiller, to handlers who are crushers, or to crushers who are not handlers under the Agreement only on the condition that they agree to comply with the terms of paragraph (g) of this section and all other applicable requirements of the Agreement. Remilling under the provisions of this paragraph shall be performed only by those firms who agree to procedures acceptable to the Committee and who are approved by the Committee to do such remilling.
(3) Handlers may contract with Committee approved blanchers for roasting positive lot identified shelled peanuts, which originated from Segregation 1 peanuts, that meet the grade requirements of paragraph (a) of this section but are positive as to aflatoxin. Lots of peanuts moved under these provisions must be accompanied by a valid grade inspection certificate and a valid aflatoxin certificate. To be eligible for disposal into human consumption outlets, such peanuts after roasting, shall have had the positive lot identity maintained and be accompanied by an aflatoxin certificate determined to be negative by the Committee. The residual peanuts, excluding skins and hearts, resulting from roasting under these provisions, shall be placed in suitable containers acceptable to the Committee and red tagged and disposition shall be that such peanuts are returned to the handler for further disposition; or in the alternative, such residuals shall be positive lot identified by a Federal or Federal-State Inspection Service, and shall be disposed of, by the blancher, to handlers who are crushers, or to crushers who are not handlers under the Agreement only on the condition that they agree to comply with the terms of paragraph (g) of this section and all other applicable requirements of the Agreement. Roasting under the provisions of this paragraph shall be performed only by blanchers who are approved by the Committee.

(i) Documentation of compliance. Each handler shall keep and maintain records of all receipts and acquisitions and all milling, remilling, blanching, use and disposition of peanuts which have not been certified as meeting the requirements for disposition to human consumption, pursuant to paragraph (a) or (b) of this section, as will document and substantiate compliance and performance under this agreement.

§ 998.300 Terms and conditions of indemnification for 1996 and subsequent crop peanuts.

(a) For the purpose of paying indemnities on a uniform basis pursuant to § 998.36 of the peanut marketing agreement, each handler shall promptly notify or arrange for the buyer to notify the Manager, Peanut Administrative Committee, of any lot of cleaned inshell or shelled peanuts, milled into one of the categories listed in paragraph (a) of the Outgoing quality regulation (7 CFR 998.200) or paragraph (i) of this section, on which the buyer, including the user division of a handler, has withheld usage due to a finding as to aflatoxin content as shown by the results of further chemical assay, after shipment.

(b) To be eligible for indemnification, such a lot of peanuts shall have been inspected and certified as meeting the quality requirements for Indemnifiable Grades as specified in paragraph (a) of the Outgoing quality regulation (7 CFR 998.200), shall have met all other applicable regulations issued pursuant thereto, including the pretesting requirements in paragraphs (a) and (c) of the Outgoing quality regulation (7 CFR 998.200) and the lot identification shall have been maintained. If the Committee concludes, based on further assays, that the lot is so high in aflatoxin that it should be handled pursuant to this section, and such is concurred in by the Agricultural Marketing Service, the lot shall be accepted for indemnification.

(c) The indemnification payment shall be transportation expenses (excluding demurrage, loading and unloading charges, custom fees, border reentry fees, etc.) from the handler's plant or storage to the point within the Continental United States or Canada where the rejection occurred and from such point to a delivery point specified by the Committee if the lot is found by the Committee to be unwholesome as to aflatoxin after such lot had been certified negative as to aflatoxin prior to being shipped or otherwise disposed of for human consumption by the handler pursuant to requirements of the Outgoing quality regulation (7 CFR 998.200).

(d) Claims for indemnification may be filed by any handler sustaining a loss as a result of a buyer withholding from human consumption a portion or all of the product made from a lot of peanuts which has been determined to be unwholesome due to aflatoxin. The
Committee shall pay such claims as it determines to be valid, to the extent of the equivalent indemnification value applicable to the peanuts used in the product so withheld. On products manufactured from edible quality grades of peanuts, such claims may be filed with the Committee no later than November 1 of the second year following the year in which the peanuts were produced.

(e) Notice of claims for indemnification on peanuts of the current crop year shall be received by the Committee (by mail or legible facsimile) no later than the close of the business day on November 1, following the end of the crop year. For the purpose of this paragraph, “notice” shall be defined as the covering (executed and signed) Form PAC-5, accompanied by a copy of the applicable valid grade inspection certificate and the lab certificate showing the aflatoxin assay results which caused the request for rejection.

(f) Each handler shall include, directly or by reference, in the handler’s sales contract, the following provisions:

1. Buyer shall give the Peanut Administrative Committee (Committee) office notice of any request made to the Federal or Federal-State Inspection Service for an “appeal” inspection for aflatoxin. Results of the “appeal” inspection will be reported by the Federal or Federal-State Inspection Service or other designated lab to Committee management. If the Committee management determines that the test results of the “appeal” sample show the lot to be high in aflatoxin, Committee management shall inform the buyer and handler of the results. In this case, the buyer may apply to reject the lot and return it to the handler by filing a rejection letter with Committee management. Upon a determination of the Committee, confirmed by the Agricultural Marketing Service, authorizing rejection, such peanuts, and title thereto, if passed to the buyer, shall be returned to the seller. Buyer must return the rejected lot to the seller within 45 days of the date on which Committee management informs buyer of the “appeal” sample test results, otherwise the buyer agrees that he/she forfeits the right to reject the lot and return it to the seller.

2. Seller shall, prior to shipment of a lot of shelled peanuts covered by this sales contract, cause appropriate samples to be drawn by the Federal or Federal-State Inspection Service from such lot, shall cause the sample(s) to be sent to a USDA laboratory or if designated by the buyer, a laboratory listed on the most recent Committee list of approved laboratories to conduct such assay, for an aflatoxin assay and cause the laboratory, if other than the buyer’s to send one copy of the results of the assay to the buyer. A portion of the costs of aflatoxin sampling and testing, as provided in §998.200(c)(3), shall be for the account of the buyer and the buyer agrees to pay such costs.

(g) Any handler who fails to include such provisions in his/her sales contract shall be ineligible for indemnification payments with respect to any claim filed with the Committee on current crop year peanuts covered by the sales contract.

(h)(1) Any handler who fails to conform to the requirements of paragraph (g) of the Incoming quality regulation (7 CFR 998.100) shall be ineligible for any indemnification payments until such condition or conditions are corrected to the satisfaction of the Committee.

(2) Any handler who fails to comply with the requirements of paragraph (h)(1) or (h)(2) of the Outgoing quality regulation (7 CFR 998.200) shall be ineligible for any indemnification payments until such non-compliance is corrected to the satisfaction of the Committee.

(i) Any handler who fails to cause positive lot identification on any lot of peanuts to accurately reflect the crop year in which such peanuts were produced, pursuant to paragraph (d) of the Outgoing quality regulation (7 CFR 998.200), shall be ineligible for any indemnification payments until such non-compliance is corrected to the satisfaction of the Committee.

(j) Categories of cleaned inshell peanuts eligible for indemnification are as follows:

1. Cleaned inshell peanuts ¹

---

¹Eligible lots of cleaned inshell peanuts which are found, after shipment, to contain excessive aflatoxin, may be rejected to the handler. Transportation expenses (excluding demurrage, loading and unloading charges, custom fees, border reentry fees, etc.) are not considered.
Agricultural Marketing Service, USDA § 999.1

the handler’s plant or storage to the point within the Continental United States or Canada where the rejection occurred and from such point to a deliver point specified by the Committee shall be the extent of the indemnification payment.

2 Inshell peanuts with not more than 25 percent having shells damaged by discoloration, which are cracked or broken, or both.

(b) Grade requirements. (1) Except as provided in paragraph (d) of this section, the importation into the United States of any lot of dates for packaging or dates in retail packages is prohibited unless the dates are wholesome and unadulterated and meet the following grade requirements which are determined to be comparable to those imposed upon domestic dates handled pursuant to Order No. 987, as amended (part 987 of this chapter: The whole or pitted dates in the lot are of one variety, and are of such quality and condition that upon inspection on the basis of a representative sample thereof, with hydration (of the sample) in accordance with good commercial practice or without any hydration, the dates possess a reasonably good color, are reasonably uniform in size, are reasonably free from defects, possess a reasonably good character, and score not less than 80 points when scored in accordance with the scoring system applicable to U.S. Grade B dates, as prescribed in the U.S. Standards for Grades of Dates (§§52.1001 through 52.1011 of this chapter: Provided. That not more than 25 percent, by weight, of the dates may possess semidry or dry calyx ends except that not more than 5 percent, by weight, of the dates may possess dry calyx ends: And provided further. (6) Importation of walnuts means the release of walnuts from the custody of the United States Customs Service.

(b) Grade and size regulations. No person may import walnuts (Juglans regia) into the United States unless such walnuts have been inspected and certified by a USDA inspector as meeting the following requirements:

(1) Inshell walnuts. All inshell walnuts shall be of a quality equal to or better than the requirements of U.S. No. 2 and “baby” size as prescribed in the United States Standards for Walnuts (Juglans regia) in the Shell (§§ 51.2945 through 51.2966 of this title); or

(2) Shelled walnuts. All shelled walnuts shall be of a quality equal to or better than the requirements for U.S. Commercial Grade as prescribed in the United States Standards for Shelled Walnuts (Juglans regia) (§§ 51.2275 through 51.2294 of this title excluding §§ 51.2278(b), 51.2284 and 51.2285) effective January 25, 1959, except that the minimum size shall be pieces not more than five percent of which will pass through a round opening 6/64 inch in diameter and no other size requirements shall apply.

(c) Inspection and certification. (1) All inspections and certifications required by paragraph (b) of this section shall be made by USDA inspectors in accordance with the regulations governing the inspection and certification of fresh fruits, vegetables, and other products (Part 51 of this title). The cost of inspection and certification shall be borne by the applicant.

(2) Each inspection certificate shall set forth among other things the following:

(i) The date and place of inspection;

(ii) The name of the applicant;

(iii) The name of the importer;

(iv) The quantity and identifying marks of the container; and

(3) Whenever walnuts are offered for inspection, the applicant shall furnish any labor and pay any costs incurred in moving and opening containers as may be necessary for proper sampling and inspection. The applicant shall also furnish the USDA inspector the entry number and such other identifying information for each lot as he may request.

(4) Inspection must be completed prior to the importation of walnuts. To avoid delay the applicant should make advance arrangements with the USDA inspection office.

(d) Reconditioning prior to importation. Nothing contained in this section shall be deemed to preclude reconditioning walnuts prior to importation, in order that such walnuts may be made eligible to meet the grade and size regulations prescribed in paragraph (b) of this section.

(e)(1) Minimum quantity. Notwithstanding any other provision of this section, the importation of any lot of walnuts which does not exceed, in net weight, 60 pounds of shelled walnuts or 115 pounds of inshell walnuts shall be exempt from the requirements of this section.

(2) Exemptions. The grade, size, quality and maturity requirements of this section shall not apply to walnuts which are: green walnuts (so immature that they cannot be used for drying and sale as dried walnuts); walnuts used in non-competitive outlets such as use by charitable institutions, relief agencies, governmental agencies for school lunch programs, and diversion to animal feed or oil manufacture, but such walnuts shall be subject to the safeguard provisions contained in § 999.500.

upon conviction, a penalty in the amount prescribed in section 608c(14) of said act, or to both such forfeiture and penalty. False representations in any matter within the jurisdiction of any agency of the United States, knowing it to be false, is a violation of 18 U.S.C. 1001 which provides for a fine or imprisonment or both.

(2) Pitted prunes means prunes with the pit removed that are characterized by a uniform depression and minimal skin break where the pit has been removed.

(4) Incoming inspection means the sampling and inspection of farmers stock peanuts to determine Segregation quality.

(5) Segregation 1 peanuts, unless otherwise specified, means farmers stock peanuts with not more than 2.00 percent damaged kernels nor more than 1.00 percent concealed damage caused by rancidity, mold, or decay and which are free from visible Aspergillus flavus mold.

(6) Segregation 2 peanuts, unless otherwise specified, means farmers stock peanuts with more than 2.00 percent damaged kernels or more than 1.00 percent concealed damage caused by rancidity, mold, or decay and which are free from visible Aspergillus flavus mold.

(7) Segregation 3 peanuts, unless otherwise specified, means farmers stock peanuts with visible Aspergillus flavus mold.

(8) Shelled peanuts means the kernels of peanuts after the shells are removed.

(9) Outgoing inspection means the sampling and inspection of either: Shelled peanuts which have been cleaned, sorted, sized, or otherwise prepared for human consumption markets; or, inshell peanuts which have been cleaned, sorted and otherwise prepared for inshell human consumption markets.

(10) Negative aflatoxin content means 15 parts-per-billion (ppb) or less for peanuts which have been certified as meeting edible quality grade requirements.

(11) Person means an individual, partnership, corporation, association, or any other business unit.

(12) Secretary means the Secretary of Agriculture of the United States or any officer or employee of the U.S. Department of Agriculture (Department or USDA) who is, or who may hereafter be, authorized to act on behalf of the Secretary.

(13) Inspection service means the Federal or Federal-State Inspection Service, Fruit and Vegetable Programs, Agricultural Marketing Service, USDA.

(14) USDA laboratory means laboratories of the Science and Technology Programs, Agricultural Marketing Service, USDA, that chemically analyze peanuts for aflatoxin content.

(16) **Conditionally released** means released from U.S. Customs Service custody for further handling, sampling, inspection, chemical analysis, and storage.

(17) **Importation** means the arrival of a peanut shipment at a port-of-entry with the intent to enter the peanuts into channels of commerce of the United States.

(b) **Incoming regulation.** (1) Farmers stock peanuts presented for consumption must undergo incoming inspection. All foreign-produced farmers stock peanuts for human consumption must be sampled and inspected at a buying point or other handling facility capable of performing incoming sampling and inspection. Sampling and inspection shall be conducted by the inspection service. Only Segregation 1 peanuts certified as meeting the following requirements may be used in human consumption markets:

(i) **Moisture.** Except as provided under paragraph (b)(2) of this section, peanuts may not contain more than 10.49 percent moisture. Provided, That peanuts of a higher moisture content may be received and dried to not more than 10.49 percent moisture prior to storage or milling.

(ii) **Foreign material.** Peanuts may not contain more than 10.49 percent foreign material, except that peanuts having a higher foreign material content may be held separately until milled, or moved over a sand-screen before storage, or shipped directly to a plant for prompt shelling. The term “sand-screen” means any type of farmers stock cleaner, which, when in use, removes sand and dirt.

(iii) **Damage.** For the purpose of determining damage, other than concealed damage, on farmers stock peanuts, all percentage determinations shall be rounded to the nearest whole number.

(2) **Seed peanuts.** Farmers stock peanuts determined to be Segregation 1 quality, and shelled peanuts certified negative to aflatoxin (15 ppb or less), may be imported for seed purposes. Residuals from the shelling of Segregation 1 seed peanuts may be milled with other imported peanuts of the importer, and such residuals meeting quality requirements specified in paragraph (c)(1) of this section may be disposed to human consumption channels. Any portion not meeting such quality requirements shall be disposed to non-edible peanut channels pursuant to paragraphs (f) and (g) of this section. All disposition of seed peanuts and residuals from seed peanuts, whether commingled or kept separate and apart, shall be reported to the Secretary pursuant to paragraphs (f)(2) and (f)(3) of this section. The receiving seed outlet must retain records of the transaction, pursuant to paragraph (g)(7) of this section.

(3) **Oilstock and exportation.** Farmers stock peanuts of lower quality than Segregation 1 (Segregation 2 and 3 peanuts) shall be used only in non-edible outlets. Segregation 2 and 3 peanuts may be commingled but shall be kept separate and apart from edible quality peanut lots. Commingled Segregation 2 and 3 peanuts and Segregation 3 peanuts shall be disposed only to oilstock or exported. Shelled peanuts and cleaned-inshell peanuts which fail to meet the requirements for human consumption in paragraphs (c)(1) or (c)(2), respectively, of this section, may be crushed for oil or exported.

(c) **Outgoing regulation.** No person shall import peanuts for human consumption into the United States unless such peanuts are Positive Lot Identified and certified by the inspection service as meeting the following requirements:

(1) **Shelled peanuts.** (i) No importer shall dispose of shelled peanuts to human consumption markets unless such peanuts are Positive Lot Identified pursuant to paragraph (d)(4) of this section, certified as “negative” to aflatoxin, pursuant to paragraph (d)(5)(v)(A) of this section, and meet the requirements specified in the following table:
Agricultural Marketing Service, USDA § 999.600

(ii) The term "fall through," as used in this section, shall mean sound split and broken kernels and whole kernels which pass through specified screens.

Alternatively, peanuts may be conditionally released as cleaned-inshell peanuts but shall not subsequently undergo any cleaning, sorting, sizing or drying process prior to presentation for outgoing inspection as cleaned-inshell peanuts. Cleaned-inshell peanuts which fail outgoing inspection may be reconditioned or re-delivered to the port-of-entry, at the option of the importer. Cleaned-inshell peanuts determined to be unprepared farmers stock peanuts must be inspected against incoming quality requirements and determined to be Segregation 1 peanuts prior to outgoing inspection for cleaned-inshell peanuts. Cleaned-inshell peanuts intended for human consumption may not contain more than:

(i) 1.00 percent kernels with mold present, unless a sample of such peanuts is drawn by the inspection service and analyzed chemically by a USDA or PAC-approved laboratory and certified "negative" as to aflatoxin.

(ii) 2.00 percent peanuts with damaged kernels;

(iii) 10.00 percent moisture (carried to the hundredths place); and

(iv) 0.50 percent foreign material.

(d) Sampling and inspection. (1) All sampling and inspection, quality certification, chemical analysis, and Positive Lot Identification, required under this section, shall be done by the inspection service, a USDA laboratory, or a PAC-approved laboratory, as applicable, in accordance with the procedures specified in this section. The importer shall make arrangements with the inspection service for sampling, inspection, Positive Lot Identification and certification of all peanuts accumulated by the importer. The importer also shall make arrangements for the appropriate disposition of peanuts failing edible quality requirements of this section. All costs of sampling, inspection, certification, identification, and disposition incurred in meeting the requirements of this section shall be paid by the importer. Whenever peanuts are offered for inspection, the importer shall furnish any labor and pay any costs incurred in moving and opening containers as may be necessary for proper sampling and inspection.

(2) For farmers stock inspection, the importer shall cause the inspection service to perform an incoming inspection and to issue a CFSA–1007, "Inspection Certificate and Sales Memorandum," form designating the lot as Segregation 1, 2, or 3 quality peanuts. For shelled and cleaned-inshell peanuts, the importer shall cause the inspection service to perform an outgoing inspection and issue an FV–184–9A, "Milled Peanut Inspection Certificate," reporting quality and size of the shelled or cleaned inshell peanuts, whether the lot meets or fails to meet quality requirements for human consumption of this section, and that the lot originated in a country other than the United States. The importer shall provide to the Secretary copies of all CFSA–1007 and FV–184–9A forms applicable to each peanut lot conditionally released to the importer. Such reports shall be submitted as provided in paragraphs (f)(2) and (f)(3) of this section.

(3) Procedures for sampling and testing peanuts. Sampling and testing of peanuts for incoming and outgoing inspections of peanuts presented for consumption into the United States will be conducted as follows:

(i) Application for sampling. The importer shall request inspection and certification services from one of the following inspection service offices convenient to the location where the peanuts are presented for incoming and/or outgoing inspection. To avoid possible delays, the importer should make arrangements with the inspection service in advance of the inspection date. A copy of the Customs Service entry document specific to the peanuts to be inspected shall be presented to the inspection official at the time of sampling the lot.

(C) Questions regarding inspection services or requests for further assistance may be obtained from: Fresh Products Branch, PO Box 96456, room 2049–S, Fruit and Vegetable Programs, AMS, USDA, Washington, DC, 20090–6456, telephone (202) 690–0604, fax (202) 720–0393.

(ii) **Sampling.** Sampling of bulk farmers stock lots shall be performed at a facility that utilizes a pneumatic sampler or approved automatic sampling device. The maximum lot size of farmers stock peanuts shall be one conveyance, or two or more conveyances not exceeding a combined weight of 50,000 pounds (22,680 kilograms). Shelled peanut lots and cleaned-inshell lots, in bulk or bags, shall not exceed 200,000 pounds. For farmers stock, shelled and cleaned-inshell lots not completely accessible for sampling, the applicant shall be required to have lots made accessible for sampling pursuant to inspection service requirements. The importer shall cause appropriate samples of each lot of edible quality shelled peanuts to be drawn by the inspection service. The amount of such peanuts drawn shall be large enough to provide for a grade and size analysis, for a grading check-sample, and for three 48-pound samples for aflatoxin assay. Because there is no acceptable method of drawing official samples from bulk conveyances of shelled peanuts, the importer shall arrange to have bulk conveyances of shelled peanuts sampled during the unloading process. A bulk lot sampled in this manner must be Positive Lot Identified by the inspection service and held in a sealed bin until the associated inspection and aflatoxin test results have been reported.

(4) Positive Lot Identification (PLI) shall be applied to all shelled and cleaned-in-shell peanut lots during or immediately after first inspection by the inspection service or under the guidance of the inspection service. Positive Lot Identification of a lot may be accomplished by: Wrapping PLI tape around bags or boxes on pallets; shrink wrapping pallets or multiple bags and applying a PLI sticker; stenciling and numbering of individual bags or boxes; affixing PLI seals on shipping container doors; or by other methods acceptable to the inspection service that clearly identifies the lot, is securely affixed to the lot, and prevents peanuts from being removed or added to the lot. Such positive lot identification methods may be dictated by the size and containerization of the lot, by warehouse storage or space requirements, or, by necessary further movement of the lot prior to receipt of certification. All lots forwarded to a reconditioning facility must be accompanied by valid PLI certification. Failing lots that are reconditioned shall be positive lot identified by sewing tags on bags or affixing a seal and taping bulk bin containers after such reconditioning or by other means acceptable to the inspection service that clearly identifies the peanuts in the lot, is securely affixed to the lot, and which prevents peanuts from being removed or added to the lot.

(5) **Aflatoxin assay.** (i) The importer shall cause appropriate samples of each lot of shelled peanuts intended for edible consumption to be drawn by the inspection service. The three 48-pound samples shall be designated by the inspection service as “Sample 1IMP,” “Sample 2IMP,” and “Sample 3IMP” and each sample shall be placed in a
suitable container and lot identified by the inspection service. Sample 1IMP may be prepared for immediate testing or Samples 1IMP, 2IMP and 3IMP may be returned to the importer for testing at a later date, under Positive Lot Identification procedures.

(i) The importer shall cause Sample 1IMP to be ground by the inspection service or a USDA or PAC-approved laboratory in a subsampling mill. The resultant ground subsample shall be of a size specified by the inspection service and shall be designated as “Subsample 1–ABIMP.” At the importer’s option, a second subsample may also be extracted from Sample 1IMP and designated “Subsample 1–CDIMP” which may be sent for aflatoxin assay to a USDA or PAC-approved laboratory. Both subsamples shall be accompanied by a Milled Peanut Inspection Certificate or Notice of Sampling signed by the inspector containing identifying information as to the importer, the lot identification of the shelled peanut lot, and other information deemed necessary by the inspection service. Subsamples 1–ABIMP and 1–CDIMP shall be analyzed only in a USDA or PAC-approved laboratory. The methods prescribed by the Instruction Manual for Aflatoxin Testing, SD Instruction-1, August 1994, shall be used to assay the aflatoxin level. The cost of testing and notification of Subsamples 1–ABIMP and 1–CDIMP shall be borne by the importer.

(ii) The samples designated as Sample 2IMP and Sample 3IMP shall be held as aflatoxin check-samples by the inspection service or the importer until the analyses results from Sample 1IMP are known. Upon call from the USDA or PAC-approved laboratory, the importer shall cause Sample 2IMP to be ground by the inspection service in a subsampling mill. The resultant ground subsample from Sample 2IMP shall be designated as “Subsample 2–ABIMP.” Upon further call from the laboratory, the importer shall cause Sample 3IMP to be ground by the inspection service in a subsampling mill. The resultant ground subsample shall be designated as “Subsample 3–ABIMP.” The importer shall cause Subsamples 2–ABIMP and 3–ABIMP to be sent to and analyzed only in a USDA or PAC-approved laboratory. Each subsample shall be accompanied by a Milled Peanut Inspection Certificate or a Notice of Sampling. All costs involved in the sampling, shipment and assay analysis of subsamples required by this section shall be borne by the importer.

(iv)(A) To arrange for chemical analysis, importers shall contact one of the following USDA or PAC-approved laboratories:

(B) Further information concerning the chemical analyses required pursuant to this section may be obtained from: Science and Technology Programs, AMS, USDA, PO Box 96456, room 3507-S, Washington, DC 20090–6456, Tel (202) 720–5231, or Fax (202) 720–6496.

(v) Reporting aflatoxin assays. A separate aflatoxin assay certificate, Form CSSD–3 “Certificate of Analysis for Official Samples” or equivalent PAC-approved laboratory form, shall be issued by the laboratory performing the analysis for each lot. The assay certificate shall identify the importer, the volume of the peanut lot assayed, date of the assay, and numerical test result of the assay. The importer shall file, or cause to be filed, with the Secretary, all USDA Form CSSD–3, or equivalent chemical assay forms issued on failing peanuts. The importer shall cause the results of all chemical assays issued by PAC-approved laboratories to be filed with the Secretary. The results of the assay shall be reported as follows.

(A) For the current peanut quota year, “negative” aflatoxin content means 15 parts per billion (ppb) or less aflatoxin content for peanuts which have been certified as meeting edible quality grade requirements. Such lots shall be certified as “Meets U.S. import requirements for edible peanuts under § 999.600 with regard to aflatoxin.”

(B) Lots containing more than 15 ppb aflatoxin content shall be certified as “Fails to meet U.S. import requirements for edible peanuts under Section § 999.600 with regard to aflatoxin.” The certificate of any non-edible peanut lot also shall specify the aflatoxin count in ppb.

(g) Appeal inspection. In the event an importer questions the results of a quality and size inspection, an appeal inspection may be requested by the importer and performed by the inspection service. A second sample will be drawn from each container and shall be double the size of the original sample. The results of the appeal sample shall be final and the fee for sampling, grading and aflatoxin analysis shall be charged to the importer. Lots that show evidence of PLI violation or tampering, as determined by the inspection service, are not eligible for appeal inspection.

(e) Disposition of peanuts failing edible quality requirements. Peanuts shelled, sized, and sorted in another country prior to arrival in the U.S. and shelled peanuts which originated from imported Segregation 1 peanuts that fail minimum grade requirements specified in the table in paragraph (c)(1)(i) of this section (excessive damage, minor defects, moisture, or foreign material) or are positive to aflatoxin may be reconditioned by remilling and/or blanching. Peanuts that fail minimum grade requirements because of excessive “fall through” may be blanched. After such reconditioning, peanuts meeting the minimum grade requirements in the table, including minimum “fall through” requirements, and which are negative to aflatoxin (15 ppb or less), may be disposed for edible use. Residual peanuts resulting from milling or reconditioning of such lots shall be disposed of as prescribed as follows:

(1) Failing peanut lots may be disposed for non-human consumption uses (such as livestock feed, wild animal feed, rodent bait, seed, etc.) which are not otherwise regulated by this section; Provided, That each such lot is Positive Lot Identified and certified as to aflatoxin content (actual numerical count). On the shipping papers covering the disposition of each such lot, the importer shall cause the following statement to be shown: “The peanuts covered by this bill of lading (or invoice) are not to be used for human consumption.”

(2) Peanuts, and portions of peanuts which are separated from edible quality peanuts by screening or sorting or other means during the milling process (“sheller oilstock residuals”), may be
sent to non-edible peanut markets pursuant to paragraph (e)(1) of this section, crushed or exported. Such peanuts may be commingled with other milled residuals. Such peanuts shall be positive lot identified, red tagged in bulk or bags or other suitable containers.

(i) If such peanuts have not been certified as to aflatoxin content, as prescribed in paragraph (d) of this section, disposition is limited to crushing and the importer shall cause the following statement to be shown on the shipping papers: "The peanuts covered by this bill of lading (or invoice, etc.) are limited to crushing only and may contain aflatoxin."

(ii) If the peanuts are certified as 301 ppb or more aflatoxin content, disposition shall be limited to crushing or export.

3. Shelled peanuts which originated from Segregation 1 peanuts that fail minimum grade requirements specified in the table in paragraph (c)(1)(i) of this section, peanuts derived from the milling for seed of Segregation 2 and 3 farmers stock peanuts, and peanuts which are positive to aflatoxin, may be remilled or blanched. Residuals of remilled and/or blanched peanuts which continue to fail minimum grade requirements in the table shall be disposed pursuant to paragraphs (e)(1) or (2) of this section.

4. Shelled peanuts that are certified as meeting minimum grade requirements specified in the table in paragraph (c)(1)(i) of this section and which are positive to aflatoxin may be roasted during blanching. After roasting, such peanuts certified as meeting aflatoxin requirements (15 ppb or less), and which are positive lot identified, may be disposed to human consumption outlets without further grade analysis. The residual peanuts, excluding skins and hearts, resulting from roasting process, shall be red tagged and disposed of to non-edible outlets pursuant to paragraphs (e)(1) or (2) of this section.

5. All certifications, lot identifications, and movement to non-edible dispositions, sufficient to account for all peanuts in each consumption entry, shall be reported to the Secretary by the importer pursuant to paragraphs (f)(2) and (f)(3) of this section.

(f) Safeguard procedures. (1) Prior to, or upon, arrival of a foreign-produced peanut lot at a port-of-entry, the importer, or customs broker acting on behalf of the importer, shall mail or send by facsimile transmission (fax) a copy of the Customs Service entry documentation for the peanut lot or lots to the inspection service office that will perform sampling of the peanut shipment. More than one lot may be entered on one entry document. The documentation shall include: The Customs Service entry number; the container number(s) or other identification of the lot(s); the volume of peanuts in each lot being entered; the inland shipment destination where the lot will be in storage or made available for inspection; and a contact name or telephone number at that destination. The inspection office shall sign, stamp, and return the entry document to the importer. The importer shall cause a copy of the relevant entry documentation to accompany each peanut lot and be presented to the inspection service at the time of sampling.

(2) The importer shall file, of cause to have filed, with the Secretary, copies of failing grade and aflatoxin certificates and non-edible disposition documents which identify the importer and the disposition outlet for failing quality peanuts. Such reports shall be sufficient to account for all peanuts failing quality requirements of this section: Provided, That: importers shall cause all certificates of peanuts meeting aflatoxin requirements issued by PAC-approved laboratories to be filed with the Secretary. Proof of non-edible disposition may include bills-of-lading, transfer certificates, and other documentation showing shipment from the importer, blancher, remiller, warehouse, or other entity, to crushing, feed or seed use, burying, or other non-edible disposition. Such documentation must include the weight of peanuts being disposed and the name and telephone number of the disposing entity. Proof of re-export must include U.S. Customs Service documentation showing exportation from the United States. These documents must be sent to the Marketing Order Administration.
Agricultural Marketing Service, USDA § 999.600

Branch, Attn: Report of Imported Peanuts. Facsimile transmissions and overnight mail may be used to ensure timely receipt of inspection certificates and other documentation. Fax reports should be sent to (202) 205-6623. Overnight and express mail deliveries should be addressed to USDA, AMS, FV, Marketing Order Administration Branch, 1400 Independence Avenue, SW, Room: 2525-S, Washington, DC, 20250, Attn: Report of Imported Peanuts. Regular mail should be sent to FV, AMS, USDA, PO Box 96456, Room 2525-S, Washington, DC 20090-6456, Attn: Report of Imported Peanuts.

(3) All peanuts imported into the United States subject to this part shall be conditionally released by the U.S. Customs Service for a period of 180 days following the date of Customs Service release, for the purpose of determining whether such peanuts meet the quality requirements for human consumption or non-edible disposition and reporting such certification or non-edible disposition to the Secretary.

(4) If the Secretary finds during, or upon termination, of the conditional release period that a lot of peanuts is not entitled to admission into the commerce of the United States, the Secretary shall request the Customs Service, within 30 days after close of the conditional release period, to demand return of said lot of peanuts to Customs Service custody. Failure to comply with a redelivery demand within 30 days of the date of the redelivery demand, may result in the assessment against the importer of record and surety, jointly and severally, of liquidated damages equal to the value of the peanuts involved. Failure to fully comply with quality and handling requirements or failure to notify the Secretary of disposition of all foreign-produced peanuts, as required under this section, may result in a compliance investigation by the Secretary. Falsification of reports submitted to the Secretary is a violation of Federal law punishable by fine or imprisonment, or both.

(5) An extension of the 180-day conditional release period may be granted by the Secretary upon request of the importer. Extension shall not exceed an additional 60 calendar days. Requests for extension shall be specific to each peanut lot and shall include the lot’s Customs Service entry number, the positive lot identification, weight or volume, and current storage location. Requests for extension of the conditional release period shall be made in writing pursuant to paragraph (f)(2) of this section.

(6) Peanuts for which an import application is filed with the Customs Service but which are subsequently exported without sampling or inspection by the inspection service, need not be reported to the Secretary.

(7) Reinspection. Whenever the Secretary has reason to believe that peanuts may have been damaged or deteriorated while in storage, the Secretary may reject the then effective inspection and aflatoxin certificates and require the importer to have the peanuts reinspected to establish whether or not such peanuts may be disposed of for human consumption.

(8) Early arrival and storage. Peanut lots sampled and inspected upon arrival in the United States, but placed in storage for more than one month prior to beginning of the quota year for which the peanuts will be entered, must be reported to AMS at the time of inspection. The importer shall file copies of the Customs Service documentation showing the volume of peanuts placed in storage and the storage location, including any identifying number of the storage warehouse. Such peanuts should be stored in clean, dry warehouses and under cold storage conditions consistent with industry standards. Pursuant to paragraph (f)(7) of this section, the Secretary may require reinspection of the lot at the time the lot is declared for entry with the Customs Service.

(g) Additional requirements. (1) Nothing contained in this section shall preclude any importer from milling or reconditioning, prior to importation, any shipment of peanuts for the purpose of making such peanuts eligible for importation into the United States. However, all peanuts intended for human consumption use must be certified as meeting the quality requirements specified in paragraph (c) of this section, prior to such disposition.
(2) Conditionally released peanut lots of like quality and belonging to the same importer may be commingled. Defects in an inspected lot may not be blended out by commingling with other lots of higher quality. Commingling also must be consistent with applicable Customs Service regulations. Commingled lots must be reported and disposed of pursuant to paragraphs (f)(2) and (f)(3) of this section.

(3) Inspection by the Federal or Federal-State Inspection Service shall be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables and other products (7 CFR part 51). The importer shall make each conditionally released lot available and accessible for inspection as provided in this section. Because inspectors may not be stationed in the immediate vicinity of some ports-of-entry, importers must make arrangements for sampling, inspection, and certification through one of the offices and laboratories listed in paragraphs (d)(3) and (d)(5) of this section, respectively.

(4) Imported peanut lots sampled and inspected at the port-of-entry, or at other locations, shall meet the quality requirements of this section in effect on the date of inspection.

(5) A foreign-produced peanut lot entered for consumption or for warehouse may be transferred or sold to another person: Provided, That the original importer shall be the importer of record unless the new owner applies for bond and files Customs Service documents pursuant to 19 CFR 141.20 and 141.113: Provided further, That such peanuts must be certified and reported to the Secretary pursuant to paragraphs (f)(2) and (f)(3) of this section.

(6) Payment of the cost of transportation, sampling, inspection, certification, chemical analysis, and Positive Lot Identification, as well as remilling and blanching, and further inspection of remilled and blanched lots, and disposition of failing peanuts, shall be the responsibility of the importer. Whenever an applicant presents peanuts for inspection, the applicant shall furnish any labor and pay any costs incurred in moving, opening containers for sampling, and the shipment of samples as may be necessary for proper sampling and inspection. The inspection service shall bill the applicant for fees covering quality inspections and other certifications as may be necessary to certify edible quality or non-edible disposition. USDA and PAC-approved laboratories shall bill the applicant separately for aflatoxin assay fees. The importer also shall pay Customs Service costs as required by that agency.

(7) Each person subject to this section shall maintain true and complete records of activities and transactions specified in this section. Such records and documentation accumulated during entry shall be retained for not less than two years after the calendar year of acquisition, except that Customs Service documents shall be retained as required by that agency. The Secretary, through duly authorized representatives, shall have access to any such person’s premises during regular business hours and shall be permitted, at any such time, to inspect such records and any peanuts held by such person.

(8) The provisions of this section do not supersede any restrictions or prohibitions on peanuts under the Federal Plant Quarantine Act of 1912, the Federal Food, Drug and Cosmetic Act, any other applicable laws, or regulations of other Federal agencies, including import regulations and procedures of the Customs Service.
