(a) Distribution points (separate premises used primarily for the transfer to vehicles of packaged fluid milk products moved there from processing and packaging plants); or

(b) Bulk reload points (separate premises used for the purpose of transferring bulk milk from one tank truck to another tank truck while en route from dairy farmers' farms to a plant). If stationary storage tanks are used for transferring milk at the premises, the operator of the facility shall make an advance written request to the market administrator that the facility be treated as a reload point; otherwise it shall be a plant. The cooling of milk, collection or testing of samples, and washing and sanitizing of tank trucks at the premises shall not disqualify it as a bulk reload point.

§ 1001.7 Pool plant.

Except as provided in paragraph (d) of this section, *pool plant* means:

(a) A distributing plant from which:

(1) Not less than 40 percent of its total receipts of fluid milk products (except filled milk) in any month, or in either of the 2 preceding months, are disposed of as Class I (except filled milk); and

(2) Route disposition (except filled milk) in the marketing area in the month:

(i) Is not less than 10 percent of its total receipts of fluid milk products (except filled milk);

(ii) Exceeds its route disposition in any other Federal marketing area; and

(iii) Exceeds 700 quarts on any day or a daily average of 300 quarts.

(b) A supply plant which meets the conditions specified in paragraphs (a)(1), (2), or (3) of this section. Receipts and disposition of filled milk shall be excluded in determining whether a plant has met these conditions. For the purposes of this paragraph, milk received at a plant from a cooperative association in its capacity as a handler under § 1001.9(d) shall be considered as having been received at that plant from dairy farmers' farms.

(1) It is a plant from which in any month of August and December at least 15 percent, and in any month of September through November at least 25 percent, of its total receipts of milk from dairy farmers' farms is shipped as fluid milk products, other than as diverted milk, to pool distributing plants.

(2) For any month of August through December, it is one of a group of plants that meets the conditions specified in this paragraph.

(i) The handler's written request for continuation of pool supply plant status, which the plant held under the handler's operation in the preceding month, is received by the market administrator on or before the 16th day of the month.

(ii) The group of plants, considered as a unit, meets the shipping requirements specified in paragraph (b)(1) of this section.

(iii) To qualify as a pool supply plant under this paragraph in December of any year, the plant, considered individually, shall have shipped at least 5 percent of its total receipts of milk from dairy farmers' farms as fluid milk products, other than as diverted milk, to pool distributing plants in one of the months of August through December of that year.

(iv) In the event of the failure of a group of plants to meet fully the requirements of paragraph (b)(2)(ii) of this section, termination of pool supply plant status shall be limited to the
