**§ 967.34 Expenses.**

Members and alternates of the committee shall serve without compensation, but may be reimbursed for expenses necessarily incurred by them in attending committee and subcommittee meetings and in the performance of their duties under this part.

**VOLUME LIMITATIONS**

**§ 967.35 Marketing policy.**

(a) The committee shall meet, consider and adopt a marketing policy for each season. Committee considerations shall include probable celery production within the production area and in competing areas, the grade, size, quality, and quantity of celery which should be made available to market during such season to meet market requirements and establish orderly marketing conditions, and other pertinent information. On the basis of these considerations the committee shall adopt a marketing policy for such season as follows:

(1) Annual Marketable Quantity—A meeting to adopt a policy regarding the annual Marketable Quantity of celery to be marketed shall be held not later than June 15 of each year. Prior to November 1 of each year, the committee shall review such marketing policy and as changes are indicated, the committee may adopt appropriate revision.

(2) Other regulations—Prior to or at the same time initial recommendations in any season are made pursuant to §967.40(a) the committee shall prepare a marketing policy statement concerning the necessity for such regulations.

(b) Notice of and recommendations from, the initial marketing policy for a marketing season or any later changes shall be submitted promptly to the Secretary and notice of such marketing policy shall be given to handlers, producers and other interested parties by bulletins or other appropriate media.

[33 FR 17846, Nov. 30, 1968]

**§ 967.36 Marketable Quantity.**

(a) Whenever the committee recommends and the Secretary finds on the basis of such recommendations or other information, that limiting the total quantity of celery to be handled during a marketing season, or revising a Marketable Quantity previously established, would tend to effectuate the declared policy of the act, he shall establish the Marketable Quantity which handlers may handle as first handlers for such season, or revise a previously established Marketable Quantity.

(b) When a Marketable Quantity is established for any season, no handler may handle any harvested celery during such season unless (1) it is within the Marketable Allotment of a producer who has a Base Quantity pursuant to §967.38, and (2) such producer authorized the first handler thereof to purchase or otherwise handle it.

**§ 967.37 Base Quantities.**

(a)(1) Base Quantities for producers with a history of production and order participation for the period 1965-66 through 1976-77 shall be Base Quantities in effect for the 1976-77 season, as recorded by the Florida Celery Com-

mittee on December 15, 1976, subject to modifications relating to current production and marketing experience specified in (b) through (e) of this section, or to transfers pursuant to §967.39.

(2) Base Quantities for other producers shall be established pursuant to Base Quantity reserve as specified in paragraph (d) of this section, subject to modifications relating to current production and marketing experience specified in (b) through (e) of this section, or to transfer pursuant to §967.39.

(b) Periodically, but at least once each five years, the committee shall review Base Quantities and recommend any changed in the formula, to be prescribed by the Secretary, for determining Base Quantities which may be deemed appropriate.

(c) The committee may recommend rules pertaining to producers who wish to obtain, hold, or transfer Base Quantities or Marketable Allotments. Such rules shall be subject to approval of the Secretary and may require producers to file reports and information with respect thereto, including but not limited to quantities marketed in the representative period, their qualifications as producers, as well as particulars on sale and handling of celery as a result of any Base Quantities or Marketable Allotments that may be issued to them.

(d)(1) Beginning with the 1978-79 season, a reserve in the amount of six percent of the total Base Quantities shall be established annually. Such reserve shall be used for the issuance of Base Quantities to new producers and adjustments in Base Quantities for producers with existing Base Quantities, with 50 percent being made available for new producers and 50 percent available for adjustments for producers with existing Base Quantities.

(2) Base Quantities issued to new producers shall be permanent, subject to requirements of §967.37(e). Base Quantities issued to new producers shall not be transferable within three years after issuance. Any adjustments in Base Quantities issued to producers with existing Base Quantities shall be effective for one season only and a new request by such producers for adjustment

**§ 967.38**

**7 CFR Ch. IX (1-1-00 Edition)**

in Base Quantity shall be submitted each season.

(3) The committee may recommend rules for establishing such reserve and for procedures whereby persons may apply for Base Quantities thereunder. Such rules shall be subject to approval by the Secretary. Rules may provide for open informal hearings by the committee on applicants' requests and may establish guides or standards for equitable and thorough consideration of pertinent factors relating to each case, including but not limited to past production of celery by applicant, acreage planted, average yields, the production capacity of the farm or land the applicant expects to use, land, labor, and equipment available to applicant for celery production, economic and marketing factors, and other factors deemed pertinent.

(4) Each person filing an application hereunder for a new Base Quantity or adjustment in an established Base Quantity shall be notified by the committee of its determination thereon. Such determination and considerations appertaining thereto shall be subject to review by the Secretary. If a Base Quantity is issued to an applicant hereunder, the requirements of § 967.38(c) shall then apply.

(e) A condition for the continuing validity of a Base Quantity is production of celery thereunder. If no bona fide effort is made to produce and sell celery thereunder for two consecutive seasons commencing with the 1977-78 season, the Base Quantity may be declared invalid due to lack of use and cancelled at the end of the second season of non-production. The committee shall determine criteria, subject to approval by the Secretary, as to whether a bona fide effort has been made to produce and sell celery, including one requirement that the producer must have sold at least 50 percent of each of his seasonal Marketable Allotments, unless prevented from doing so by acts of God or other circumstances beyond his control.

(f) Annual registration of Base Quantity holders will be required no later than May 1 or such other date as may be approved pursuant to regulations. For the 1977-78 season Base Quantity holders shall register within 30 days

following the effective date of this part but no later than July 31, 1977. Any Base Quantity holder who does not register or who has not made firm and substantial commitments to produce celery for the forthcoming season shall have his Base Quantity eliminated from the calculations in determining the Uniform Percentage. However, such procedure will not cause the Base Quantity holder to lose his Base Quantity.

[30 FR 14266, Nov. 13, 1965, as amended at 42 FR 32763, June 28, 1977]

**§ 967.38 Marketable Allotments.**

(a) When the Secretary establishes a season's Marketable Quantity, a percentage shall be determined by dividing the amount fixed as the season's Marketable Quantity by the total Base Quantities of producers who have registered with the committee pursuant to § 967.37(f).

(b) The Marketable Allotment for each producer shall be established by the committee by multiplying his Base Quantity by the appropriate Uniform Percentage. The resulting amount shall be his Marketable Allotment for a season. The committee shall notify each producer of his allotment.

(c) After a producer has been notified of his Marketable Allotment, he shall, in turn, notify the committee, on forms furnished by it, the handler or handlers who will first handle all or a portion of his Marketable Allotment for the ensuing season, as well as the number of crates each such handler will so handle. This information shall be sent by the committee to the respective handlers.

(d) If the committee recommends and the Secretary approves, that no season's Marketable Quantity be established, the Marketable Allotment of each producer shall be unlimited.

(e) When the Marketable Quantity is equal to or smaller than total Base Quantities, the first 37,500 crates of each producer's Base Quantity shall be subtracted from both the Marketable Quantity and total Base Quantities when the Uniform Percentage is calculated in this section (§ 967.38(a)), and the Uniform Percentage for the first 37,500 crates will be 100 percent. In the event the Marketable Quantity exceeds

## Agricultural Marketing Service, USDA

## § 967.40

total Base Quantities, there shall be no exemption for the first 37,500 crates and the Uniform Percentage shall be applied to each producer's total Base Quantity.

(f) Marketable allotments shall be issued only to producers who have registered by May 1, or such other date prescribed by the Secretary, and indicated firm and substantial commitments for the production of celery for the forthcoming season.

[30 FR 14266, Nov. 13, 1965, as amended at 42 FR 32764, June 28, 1977]

### § 967.39 Transfers.

(a) Producers' Base Quantities or Marketable Allotments, or both, may be transferred upon appropriate requests therefor, pursuant to § 967.37 and upon approval of the committee.

(b) Any producer with a Base Quantity may request a transfer of all or a portion of his Base Quantity for a specified period of time.

(c) Any producer with a Marketable Allotment may request a transfer of all or a portion of his Marketable Allotment during a current season.

(d) Producers must advise the committee, prior to final approval of a transfer, that a different amount will be handled by a handler or handlers due to any transfer authorized in paragraph (c) of this section. The committee, upon receipt of such notification, shall advise the handler or handlers involved of the adjustments in the amount they may handle as first handlers thereof for the current season, based upon the number of crates involved in the transfer, as well as issue revised Marketable Allotments to the producers involved.

### OTHER REGULATIONS

#### § 967.40 Issuance of other regulations.

(a) The Secretary may limit the handling of celery whenever he finds from the recommendations and information submitted by the committee, or from other available information, that such regulations would tend to effectuate the declared policy of the act.

(b) Such regulations may:

(1) Establish specific Flow-to-Market periods and limit the total quantity of celery which may be handled therein;

(i) The committee may recommend and the Secretary may issue such rules as are necessary to effectuate the Flow-to-Market procedures and regulations.

(ii) The committee may recommend to the Secretary and the Secretary may limit in conformity with paragraph (a) of this section the total quantity of celery which is deemed advisable to be handled during any specified Flow-to-Market period or periods.

(iii) In making its recommendations, the committee shall give due consideration to the following factors:

(a) Market prices for celery; (b) supply of celery on hand at shipping point, on track at, and en route to, the principal markets; (c) supply, maturity, and condition of celery in the production area; (d) market prices and supplies of celery from competitive producing areas, and supplies of other competitive vegetables; (e) trend and level in consumer income; and (f) other relevant factors as specified by the committee in its recommendation.

(iv) At any time during a Flow-to-Market period for which the Secretary has fixed the quantity of celery which may be handled, the committee may recommend to the Secretary that such quantity be increased for such period. Each such recommendation, together with the committee's reason for such recommendation, shall be submitted promptly to the Secretary.

(v) Whenever the Secretary finds, from the recommendations and information submitted by the committee, or from other available information, that to limit the quantity of celery which may be handled during a specified Flow-to-Market period will tend to effectuate the declared policy of the Act, he shall fix such quantity. The quantity so fixed for any such period may be increased by the Secretary at any time during such period. The Secretary may upon the recommendation of the committee, or upon other available information, terminate or suspend any regulation at any time.

(vi)(a) At the times specified by the committee, each handler of celery shall submit to the committee, on forms to be supplied by the committee, a report setting forth the number of crates each producer or farm operation will make

available to him for handling during the applicable period; and in the case of a farm operation, shall specify the number of total crates available which are to be attributed to each holder of a Marketable Allotment who is involved in the farm operation so that each holder of a Marketable Allotment is treated as an individual producer for the purposes of the Flow-to-Market regulation.

(b) Such written request and report shall be submitted at such time and in such manner and contain such other information as the committee may recommend and the Secretary approve.

(c) The committee shall determine the accuracy of the information submitted pursuant to this section. Whenever the committee finds that there is an error, omission, or inaccuracy in any such information, it shall correct the same and shall give the person who submitted the information a reasonable opportunity to discuss with the committee the factors considered in making the correction.

(vii)(a) Whenever the Secretary has fixed the total quantity of celery that may be handled during a regulated Flow-to-Market period, the committee shall compute under a uniform rule, for each producer entitled thereto, the quantity of celery which may be handled for or purchased from him by handlers during such period. The amount to be handled under these regulations will be in addition to that quantity of harvested celery a handler has on hand at the commencement of the specified Flow-to-Market period, as reflected in required reports approved for committee use by the Secretary.

(b) The percentage obtained by dividing the quantity of crates set by the Secretary for such Flow-to-Market period by the total crates stated to be available by all handlers for such period shall be applied uniformly to the amount available for handling for each producer to determine the maximum number of crates that may be handled by or for him during that period: *Provided*, That it is within his unused Marketable Allotment pursuant to § 967.38: *And provided further*, That until more than 37,500 crates of his production has been handled on his behalf during the current season, the handler thereof

shall not have the number of crates he handles for or sells on behalf of such producer reduced by the Flow-to-Market regulation; however such handler shall be limited to 100 percent of that which was stated to be marketable in such Flow-to-Market period for that producer.

(c) For the purpose of determining compliance with Flow-to-Market limitations, a tolerance of 1 percent of an allotment holder's allowed Flow-to-Market quantity for such period or 200 crates, whichever is less, is permitted.

(viii) Verification of compliance with allotments: During any season or Flow-to-Market period for which allotment regulations are in effect, all acreage of celery included in applications for allotments shall be subject to field checking by the committee to determine compliance with allotments. Checking procedures, methods for establishing committee determinations, means for notifying handlers and other persons of the extent to which allotments have been used shall be in accordance with rules recommended by the committee and approved by the Secretary.

(2) Establish total holidays by limiting the handling of harvested celery during a specified period or periods. The amount to be handled under these regulations will be that quantity of harvested celery a handler has on hand at the commencement of the holiday, as reflected in required reports approved for committee use by the Secretary;

(3) Limit in any or all portions of the production area the handling of particular grades, sizes, qualities, containers, or packs or any combination thereof, of celery during any period; also, limit the handling of particular grades, sizes, or qualities, or celery differently, for different varieties, for different portions of the production area, for different markets, for different sizes and types of containers, or for any combination of the foregoing, during any period;

(4) Limit the handling of celery when parity prices have been reached by establishing and maintaining minimum standards of quality and maturity in terms of grades or sizes;

## § 967.43

(5) Require uniform inspection, grading and certification of celery and proper labeling of containers for celery to show the grade or size, or both, thereof;

(6) Fix the size, capacity, weight, dimensions, or pack of the container or containers which may be handled.

(c) Regulations issued hereunder may be amended, modified, suspended, or terminated by the Secretary whenever it is determined:

(1) That such action is warranted upon recommendation of the committee or on the basis of other available information;

(2) That such action is essential to provide relief from inspection, or regulations under paragraph (b) of this section, for minimum quantities less than customary commercial transactions as recommended by the committee and approved by the Secretary; or

(3) That regulations issued hereunder no longer tend to effectuate the declared policy of the Act.

(a) Whenever the handling of celery is regulated pursuant to § 967.40(b)(3) through (5), or at other times when recommended by the committee and approved by the Secretary, no handler

shall handle celery unless such celery is inspected by an authorized representative of the Federal or Federal-State Inspection Service and is covered by a valid inspection certificate, except when relieved from such requirements pursuant to § 967.40(c) or paragraph (b) of this section.

(b) Regrading, resorting, or repacking any lot of celery shall invalidate any prior inspection certificate insofar as the requirements of this section are concerned. No handler shall handle celery after it has been regraded, resorted, repacked or in any way additionally prepared for market, unless such celery is inspected by an authorized representative of the Federal or Federal-State Inspection Service. Such inspection requirements on regraded, resorted, or repacked celery may be modified, suspended, or terminated upon recommendation by the committee, and approval of the Secretary.

(c) Upon recommendation of the committee and approval by the Secretary, any or all celery so inspected and certified shall be identified by appropriate seals, stamps, or tags to be affixed to the containers by the handler under the direction and supervision of a Federal or Federal-State Inspector or the committee.

(d) Insofar as the requirements of this section are concerned, the length of time for which an inspection certificate is valid may be established by the committee with the approval of the Secretary.

(e) When celery is inspected in accordance with the requirements of this section, a copy of each inspection certificate issued shall be made available to the committee by the inspection service.

(f) The committee may recommend and the Secretary may require that no handler shall transport or cause the transportation of celery by motor vehicle or by other means unless such shipment is accompanied by a copy of the inspection certificate issued thereon, or other document authorized by the committee to indicate that such inspection has been performed. Such certificate or document shall be surrendered to such authority as may be designated by the committee.

**ADMINISTRATIVE RULES**

**§ 967.150 Marketable Allotment.**

(a) Producers holding Base Quantities shall register with the committee no later than May 1 of each year, on committee forms, to indicate their intentions and commitments to produce and market celery during the forthcoming season.

(b) As provided in §967.38(f), Marketable Allotments shall be issued only to producers who have registered by May 1.

(c) Pursuant to §967.36(b) no handler may handle any harvested celery when a Marketable Quantity is in effect, unless it is within the Marketable Allotment of a producer who has a Base Quantity pursuant to §967.37 and such producer authorized the first handler thereof to purchase or otherwise handle it. By October 1 of each season, each producer shall notify the committee, by certification to it on committee forms, the number of crates of harvested celery to be handled by each such handler; and if there are subsequent changes in arrangements, the committee shall similarly be notified.

[43 FR 15609, Apr. 14, 1978]

**§ 967.151 Base Quantities.**

(a) Pursuant to §967.37(d)(1) a reserve of Base Quantities shall be established annually beginning with the 1978-79 season. Each annual reserve shall amount to 6 percent of the total of Base Quantities in effect for the previous season.

(1) Applicants for Base Quantities must apply to the committee for a portion of the reserve not later than April 15 each year on such forms as may be prescribed by the committee. Such forms may include, but not necessarily be limited to, details on:

(i) Individual or firm name and address.

(ii) Location and size of farming operation.

(iii) Evidence of any firm and substantial arrangements or commitments, such as contractual arrangements with credit agencies, handlers, fertilizer dealers, management agencies and others for the production and marketing of celery, including reference to land, equipment, occupation, crops produced, and past experience in farming. Applicants for increases in Base Quantity also should provide substantial evidence of a capability to produce and market additional celery including specific references to celery sales relative to Marketable Allotments, production facilities and marketing facilities.

(b) Upon receipt of the completed application forms the committee shall consider and make determinations of the allocation of annual reserve Base Quantities among eligible applicants.

Up to 50 percent of the total reserve shall be allocated among new producers. Such producers shall be those applicants who have no Base Quantity under the order, and any reserve Base Quantity distributed to such applicants shall be for the purpose of establishing new production and marketing of celery. Up to 50 percent of the total reserve shall be allocated among producer applicants with existing bases. In the event total applications in either category (new producers or producers with existing bases) exceed the amount of reserve Base Quantity authorized, the reserve in each category shall be apportioned among eligible applicants on a uniform basis. Any balance of the reserve which has not been allocated during a season shall not carry forward into the following season.

(c) As provided in §967.37, the committee may provide for informal review in open meeting of the committee, or subcommittee thereof, of applicants' request for increases in Base Quantities or for Base Quantities. Such meeting shall be so conducted that an accurate record shall be made of relevant evidence presented. The record of such informal review, with references to relevant data and information presented, shall be retained by the committee and shall be subject to review by the Secretary.

(d) Each completed application form submitted to the committee shall be considered and determinations shall be made thereon. The committee shall notify each individual in writing of the action taken on the applications submitted. If the committee has not advised an individual of its decision by July 15, the individual may appeal to the Secretary for appropriate consideration thereof.

(e) To administer this part in accordance with its terms and provisions, a record of each Base Quantity and each Marketable Allotment shall be maintained by the committee.

(1) Whenever any Base Quantity or any Marketable Allotment is established for a producer, the committee shall so record and advise such producer on forms designated by it.

(2) No producer may transfer any Base Quantity or Marketable Allotment or obtain the same without first

submitting a report containing all the details of the proposed transfer to the committee for record keeping and verification. Such reports shall be on forms prescribed by the committee and shall include, but not necessarily be limited to, and as applicable, Base Quantity or Marketable Allotment held, number of crates to be transferred and the specific period of time the transfer will be in effect, name and address of the producer to whom such Base Quantity or Marketable Allotment is being transferred, number of crates marketed in the representative period, qualifications as a producer and particulars on the sale and handling of the celery referable to the transferred Base Quantity or Marketable Allotment. The committee will only give consideration to requests for transfers of Base Quantity prior to the time the Marketable Quantity is recommended to the Secretary for a particular season, after which time requests for transfers of Marketable Allotments may be made to, and considered by the committee: *Provided*, That, (i) pursuant to §967.36(b), transfers of Marketable Allotment may only be made to holders of Base Quantity; and (ii) requests for transfers of Base Quantities for any future season may be made at any time, except, pursuant to §967.37, no Base Quantity or portion thereof issued to a new producer may be transferred within 3 years of the date of issuance.

(3) No handler may purchase harvested celery from, or handle harvested celery on behalf of, any producer, under a Base Quantity or Marketable Allotment transferred from one producer to another producer, unless such transfer was approved by the committee and recorded by it, or appropriate subcommittee, and the transferee has been so notified by the committee.

(4) No transfer of all or a portion of a Base Quantity that was originally issued by the committee to a producer in an amount greater than 37,500 crates shall (i) cause the elimination of such Base Quantity from the Marketable Quantity or from the total Base Quantities when the Uniform Percentage is calculated pursuant to §967.38(a), nor (ii) change the applicability of such Uniform Percentage in establishing the

Marketable Allotment with respect to the portion of his Base Quantity that was not transferred, regardless of whether or not such remainder exceeds 37,500 crates. The same Uniform Percentage shall also be applicable to the transferee-producer with respect to all or the portion of the transferred Base Quantity, regardless of whether or not the transferred Base Quantity or portion thereof is 37,500 crates or less, or, when added to the Base Quantity originally issued to such transferee-producer, does not aggregate more than 37,500 crates.

(f) Base Quantities not used for two consecutive seasons shall be declared invalid and cancelled if no bona fide effort is made to produce and sell celery thereunder. In determining what constitutes a "bona fide effort," the committee should require evidence of:

(1) Commitment of all resources necessary for the production and marketing of a celery crop.

(2) Registration with the committee annually, pursuant to §967.37(f), to indicate intentions and commitments to produce and market celery.

(3) Production and sale of at least 50 percent of the producer's seasonal allotment of celery in which he has a proprietary interest, unless prevented from doing so by acts of God or other circumstances beyond his control.

#### §967.152 Reserve for Base Quantities.

(a) Each season for which it recommends establishment of a Marketable Quantity under the provisions of §967.36, the committee shall consider the need for a reserve for Base Quantities. Such consideration shall be directed to factors related to reserve needs, such as, but not necessarily limited to, the equitable apportionment of Base Quantities of celery among producers; and the need to meet additional demand for celery.

(b) The committee shall recommend to the Secretary, with its considerations and judgments thereon, the amount, if any, of harvested celery, in terms of crates, which should be established in a reserve for Base Quantities for the ensuing season. Such reserve may be calculated as a percentage of the total Marketable Quantity for a

season or the then current Base Quantities, or shipments for a previous season or the average of shipments for two or more seasons, or on other similar basis to be determined by the committee with the Secretary's approval.

(c) The reserve, if any, for a particular season shall, for any season after the initial season, be established by the Secretary, pursuant to the committee recommendations or other available information, no later than the date of the establishment of Marketable Quantity.

(d) Applicants for Base Quantities or increases of Base Quantities, who have registered under §967.151(a), may apply to the committee for a portion of such reserve within such time and on forms prescribed by it. The committee shall consider each application in accordance with §967.151(b) and the amount of celery needed to meet the Marketable Quantity or revised Marketable Quantity for the season, the historical supply available, and the decline or increase in volume of celery production by other producers; and, if approved thereunder, determine the Base Quantity for each such applicant.

(e) Any balance of the reserve which has not been distributed during a current season shall not carry forward into the following season.

**§967.155 Revised Base Quantity formula.**

As soon as practicable following the May 1, 1979, registration deadline, Base Quantities for all producers of record with the Florida Celery Committee as of December 15, 1976, shall be revised to be effective for the 1979-80 season as follows and in the order enumerated:

(a) Application of the provisions of §§967.37(e) and 967.39 as it pertains to permanent transfers.

(b) Selection of the highest number of crates of celery produced and shipped by or for each producer during any one of the five seasons, 1974-75 through 1978-79, or his Base Quantity for the 1978-79 season, whichever is greater: *Provided however*, no producer who produced and shipped celery during each of the five seasons, 1974-75 through 1978-79, shall lose all or any portion of his Base Quantity by the application of §967.39 pertaining to speci-

fied period of time transfers, which were approved by the committee prior to the commencement of the 1974-75 season: *And provided further*, any new producer who is issued a Base Quantity by the committee under §967.37(d) or by transfer after December 15, 1976, shall retain his present Base Quantity.

(c) Any producer who transferred, with approval of the committee, all or a portion of his Base Quantity for a specified period of time prior to the commencement of the 1974-75 season shall have the transferred Base Quantity reissued to him upon the expiration date of such transfer.
