§ 900.3 Proposals.

(a) A marketing agreement or a marketing order may be proposed by the Secretary or by any other person. If any person other than the Secretary proposes a marketing agreement or marketing order, he shall file with the Administrator a written application, together with at least four copies of the proposal, requesting the Secretary to hold a

hearing upon the proposal. Upon receipt of such proposal, the Administrator shall cause such investigation to be made and such consideration thereof to be given as, in his opinion, are warranted. If the investigation and consideration lead the Administrator to conclude that the proposed marketing agreement or marketing order will not tend to effectuate the declared policy of the Act, or that for other proper reasons a hearing should not be held on the proposal, he shall deny the application, and promptly notify the applicant of such denial, which notice shall be accompanied by a brief statement of the grounds for the denial.

(b) If the investigation and consideration lead the Administrator to conclude that the proposed marketing agreement or marketing order will tend to effectuate the declared policy of the Act, or if the Secretary desires to propose a marketing agreement or marketing order, he shall sign and cause to be served a notice of hearing, as provided in this subpart.

§ 900.4 Institution of proceeding.

(a) *Filing and contents of the notice of hearing.* The proceeding shall be instituted by filing the notice of hearing with the hearing clerk. The notice of hearing shall contain a reference to the authority under which the marketing agreement or marketing order is proposed; shall define the scope of the hearing as specifically as may be practicable; shall contain either the terms or substance of the proposed marketing agreement or marketing order or a description of the subjects and issues involved and shall state the industry, area, and class of persons to be regulated, the time and place of such hearing, and the place where copies of such proposed marketing agreement or marketing order may be obtained or examined. The time of the hearing shall not be less than 15 days after the date of publication of the notice in the FEDERAL REGISTER, as provided in this subpart, unless the Administrator shall determine that an emergency exists which requires a shorter period of notice, in which case the period of notice shall be that which the Administrator may determine to be reasonable in the circumstances: *Provided*, That, in the case of hearings on amendments to marketing agreements or marketing orders, the time of the hearing may be less than 15 days but shall not be less than 3 days after the date of publication of the notice in the FEDERAL REGISTER.

(b) *Giving notice of hearing and supplemental publicity.* (1) The Administrator shall give or cause to be given notice of hearing in the following manner:

(i) By publication of the notice of hearing in the FEDERAL REGISTER;

(ii) By mailing a true copy of the notice of hearing to each of the persons known to the Administrator, to be interested therein;

(iii) By issuing a press release containing the complete text or a summary of the contents of the notice of hearing and making the same available to such newspapers in the area proposed to be subjected to regulation as reasonably will tend to bring the notice to the attention of the persons interested therein;

(iv) By forwarding copies of the notice of hearing addressed to the governors of such of the several States of the United States and to executive heads of such of the Territories and possessions of the United States as the Administrator, having due regard for the subject matter of the proposal and the public interest, shall determine, should be notified.

(2) Legal notice of the hearing shall be deemed to be given if notice is given in the manner provided by paragraph (b)(1)(i) of this section; and failure to give notice in the manner provided in paragraph (b)(1)(ii), (iii), and (iv) of this section shall not affect the legality of the notice.

(c) *Record of notice and supplemental publicity.* There shall be filed with the hearing clerk or submitted to the judge at the hearing an affidavit or certificate of the person giving the notice provided in (b)(1)(iii) and (iv) of this section. In regard to the provisions relating to mailing in (b)(1)(ii) of this section, a determination by the Administrator that such provisions have been complied with shall be filed with the hearing clerk or submitted to the judge at the hearing. In the alternative, if notice is not given in the manner provided in (b)(1)(ii), (iii), and (iv) of this section there shall be filed with the hearing clerk or submitted to the judge at the hearing a determination by the Administrator that such notice is impracticable, unnecessary, or contrary to the public interest with a brief statement of the reasons for such determination. Determinations by the Administrator as herein provided shall be final.

§ 900.5 Docket number.

Each proceeding, immediately following its institution, shall be assigned a docket number by the hearing clerk and thereafter the proceeding may be referred to by such number.

§ 900.6 Judges.

(a) *Assignment.* No judge who has any pecuniary interest in the outcome of a proceeding shall serve as judge in such proceeding.

(b) *Powers of judges.* Subject to review by the Secretary, as provided elsewhere in this subpart, the judge, in any proceeding, shall have power to:

(1) Rule upon motions and requests;

(2) Change the time and place of hearing, and adjourn the hearing from time to time or from place to place;

(3) Administer oaths and affirmations and take affidavits;

(4) Examine and cross-examine witnesses and receive evidence;

(5) Admit or exclude evidence;

(6) Hear oral argument on facts or law;

(7) Do all acts and take all measures necessary for the maintenance of order at the hearing and the efficient conduct of the proceeding.

(c) *Who may act in absence of judge.* In case of the absence of the judge or his inability to act, the powers and duties to be performed by him under this part in connection with a proceeding may, without abatement of the proceeding unless otherwise ordered by the Secretary, be assigned to any other judge.

(d) *Disqualification of judge.* The judge may at any time withdraw as judge in a proceeding if he deems himself to be disqualified. Upon the filing by an interested person in good faith of a timely and sufficient affidavit of personal bias or disqualification of a judge, the Secretary shall determine the matter as a part of the record and decision in the proceeding, after making such investigation or holding such hearings, or both, as he may deem appropriate in the circumstances.

§ 900.7 Motions and requests.

(a) *General.* All motions and requests shall be filed with the hearing clerk, except that those made during the course of the hearing may be filed with the judge or may be stated orally and made a part of the transcript.

Except as provided in § 900.15(b) such motions and requests shall be addressed to, and ruled on by, the judge if made prior to his certification of the transcript pursuant to § 900.10 or by the Secretary if made thereafter.

(b) *Certification to Secretary.* The judge may in his discretion submit or certify to the Secretary for decision any motion, request, objection, or other question addressed to the judge.

§ 900.8 Conduct of the hearing.

(a) *Time and place.* The hearing shall be held at the time and place fixed in the notice of hearing, unless the judge shall have changed the time or place, in which event the judge shall file with the hearing clerk a notice of such change, which notice shall be given in the same manner as provided in § 900.4 (relating to the giving of notice of the hearing): *Provided*, That, if the change in time or place of hearing is made less than 5 days prior to the date previously fixed for the hearing, the judge, either in addition to or in lieu of causing the notice of the change to be given, shall announce, or cause to be announced, the change at the time and place previously fixed for the hearing.

(b) *Appearances—(1) Right to appear.* At the hearing, any interested person shall be given an opportunity to appear, either in person or through his authorized counsel or representative, and to be heard with respect to mat-

ters relevant and material to the proceeding. Any interested person who desires to be heard in person at any hearing under these rules shall, before proceeding to testify, state his name, address, and occupation. If any such person is appearing through a counsel or representative, such person or such counsel or representative shall, before proceeding to testify or otherwise to participate in the hearing, state for the record the authority to act as such counsel or representative, and the names and addresses and occupations of such person and such counsel or representative. Any such person or such counsel or representative shall give such other information respecting his appearance as the judge may request.

(2) *Debarment of counsel or representative.* Wherever, while a proceeding is pending before him, the judge finds that a person, acting as counsel or representative for any person participating in the proceeding, is guilty of unethical or unprofessional conduct, the judge may order that such person be precluded from further acting as counsel or representative in such proceeding. An appeal to the Secretary may be taken from any such order, but the proceeding shall not be delayed or suspended pending disposition of the appeal: *Provided*, That the judge may suspend the proceeding for a reasonable time for the purpose of enabling the client to obtain other counsel or other representative.

In case the judge has ordered that a person be precluded from further acting as counsel or representative in the proceeding, the judge, within a reasonable time thereafter shall submit to the Secretary a report of the facts and circumstances surrounding such order and shall recommend what action the Secretary should take respecting the appearance of such person as counsel or representative in other proceedings before the Secretary. Thereafter the Secretary may, after notice and an opportunity for hearing, issue such order, respecting the appearance of such person as counsel or representative in proceedings before the Secretary, as the Secretary finds to be appropriate.

(3) *Failure to appear.* If any interested person fails to appear at the hearing, he shall be deemed to have waived the right to be heard in the proceeding.

(c) *Order of procedure.* (1) The judge shall, at the opening of the hearing prior to the taking of testimony, have noted as part of the record the notice of hearing as filed with the Office of the Federal Register and the affidavit or certificate of the giving of notice or the determination provided for in § 900.4(c).

(2) Evidence shall then be received with respect to the matters specified in the notice of the hearing in such order as the judge shall announce.

(d) *Evidence*—(1) *In general.* The hearing shall be publicly conducted, and the testimony given at the hearing shall be reported verbatim.

Every witness shall, before proceeding to testify, be sworn or make affirmation. Cross-examination shall be permitted to the extent required for a full and true disclosure of the facts.

When necessary, in order to prevent undue prolongation of the hearing, the judge may limit the number of times any witness may testify to the same matter or the amount of corroborative or cumulative evidence.

The judge shall, insofar as practicable, exclude evidence which is immaterial, irrelevant, or unduly repetitious, or which is not of the sort upon which responsible persons are accustomed to rely.

(2) *Objections.* If a party objects to the admission or rejection of any evidence or to any other ruling of the judge during the hearing, he shall state briefly the grounds of such objection, whereupon an automatic exception will follow if the objection is overruled by the judge. The transcript shall not include argument or debate thereon except as ordered by the judge. The ruling of the judge on any objection shall be a part of the transcript.

Only objections made before the judge may subsequently be relied upon in the proceeding.

(3) *Proof and authentication of official records or documents.* An official record or document, when admissible for any purpose, shall be admissible as evidence without the production of the person who made or prepared the same. Such record or document shall, in the discretion of the judge, be evidenced by an official publication thereof or by a copy attested by the person having legal custody thereof and accompanied by a certificate that such person has the custody.

(4) *Exhibits.* All written statements, charts, tabulations, or similar data offered in evidence at the hearing shall, after identification by the proponent and upon satisfactory showing of the authenticity, relevancy, and materiality of the contents thereof, be numbered as exhibits and received in evidence and made a part of the record. Such exhibits shall be submitted in quadruplicate and in documentary form. In case the required number of copies is not made available, the judge shall exercise his discretion as to whether said exhibits shall, when practicable, be read in evidence or whether additional copies shall be required to be submitted within a time to be specified by the judge. If the testimony of a witness refers to a statute, or to a report or document (including the record of any previous hearing) the judge, after inquiry relating to the identification of such statute, report, or document, shall determine whether the same shall be produced at the hearing and physically be

made a part of the evidence as an exhibit, or whether it shall be incorporated into the evidence by reference. If relevant and material matter offered in evidence is embraced in a report or document (including the record of any previous hearing) containing immaterial or irrelevant matter, such immaterial or irrelevant matter shall be excluded and shall be segregated insofar as practicable, subject to the direction of the judge.

(5) *Official notice.* Official notice may be taken of such matters as are judicially noticed by the courts of the United States and of any other matter of technical, scientific or commercial fact of established character: *Provided,* That interested persons shall be given adequate notice, at the hearing or subsequent thereto, of matters so noticed and shall be given adequate opportunity to show that such facts are inaccurate or are erroneously noticed.

(6) *Offer of proof.* Whenever evidence is excluded from the record, the party offering such evidence may make an offer of proof, which shall be included in the transcript. The offer of proof shall consist of a brief statement describing the evidence to be offered. If the evidence consists of a brief oral statement or of an exhibit, it shall be inserted into the transcript in toto. In such event, it shall be considered a part of the transcript if the Secretary decides that the judge's ruling in excluding the evidence was erroneous. The judge shall not allow the insertion of such evidence in toto if the taking of such evidence will consume a considerable length of time at the hearing. In the latter event, if the Secretary decides that the judge erred in excluding the evidence, and that such error was substantial, the hearing shall be reopened to permit the taking of such evidence.

[25 FR 5907, June 28, 1960, as amended at 37 FR 1103, Jan. 25, 1972]

§ 900.9 Oral and written arguments.

(a) *Oral argument before judge.* Oral argument before the judge shall be in the discretion of the judge. Such argument, when permitted, may be limited by the judge to any extent that he finds necessary for the expeditious disposition of the proceeding and shall be reduced to writing and made part of the transcript.

(b) *Briefs, proposed findings and conclusions.* The judge shall announce at the hearing a reasonable period of time within which interested persons may file with the hearing clerk proposed findings and conclusions, and written arguments or briefs, based upon the evidence received at the hearing, citing, where practicable, the page or pages of the transcript of the testimony where such evidence appears. Factual material other than that adduced at the hearing or subject to official notice shall not be alluded to therein,

and, in any case, shall not be considered in the formulation of the marketing agreement or marketing order. If the person filing a brief desires the Secretary to consider any objection made by such person to a ruling of the judge, as provided in §900.8(d), he shall include in the brief a concise statement concerning each such objection, referring where practicable, to the pertinent pages of the transcript.

§900.10 Certification of the transcript.

The judge shall notify the hearing clerk of the close of a hearing as soon as possible thereafter and of the time for filing written arguments, briefs, proposed findings and proposed conclusions, and shall furnish the hearing clerk with such other information as may be necessary. As soon as possible after the hearing, the judge shall transmit to the hearing clerk an original and three copies of the transcript of the testimony and the original and all copies of the exhibits not already on file in the office of the hearing clerk. He shall attach to the original transcript of testimony his certificate stating that to the best of his knowledge and belief, the transcript is a true transcript of the testimony given at the hearing except in such particulars as he shall specify; and that the exhibits transmitted are all the exhibits as introduced at the hearing with such exceptions as he shall specify. A copy of such certificate shall be attached to each of the copies of the transcript of testimony. In accordance with such certificate the hearing clerk shall note upon the official record copy, and cause to be noted on other copies, of the transcript each correction detailed therein by adding or crossing out (but without obscuring the text as originally transcribed) at the appropriate place any words necessary to make the same conform to the correct meaning, as certified by the judge. The hearing clerk shall obtain and file certifications to the effect that such corrections have been effected in copies other than the official record copy.

§900.11 Copies of the transcript.

(a) During the period in which the proceeding has an active status in the Department, a copy of the transcript and exhibits shall be kept on file in the office of the hearing clerk, where it shall be available for examination during official hours of business. Thereafter said transcript and exhibits shall be made available by the hearing clerk for examination during official hours of business after prior request and reasonable notice to the hearing clerk.

(b) If a personal copy of the transcript is desired, such copy may be obtained upon written application filed with the reporter and upon payment of fees at the rate (if any) provided in the contract between the reporter and the Secretary.

§900.12 Administrator's recommended decision.

(a) *Preparation.* As soon as practicable following the termination of the period allowed for the filing of written arguments or briefs and proposed findings and conclusions the Administrator shall file with the hearing clerk a recommended decision.

(b) *Contents.* The Administrator's recommended decision shall include: (1) A preliminary statement containing a description of the history of the proceedings, a brief explanation of the material issues of fact, law, or discretion presented on the record, and proposed findings and conclusions with respect to such issues as well as the reasons or basis therefor; (2) A ruling upon each proposed finding or conclusion submitted by interested persons; and (3) An appropriate proposed marketing agreement or marketing order effectuating his recommendations.

(c) *Exceptions to recommended decision.* Immediately following the filing of his recommended decision, the Administrator shall give notice thereof, and opportunity to file exceptions thereto by publication in the FEDERAL REGISTER. Within a period of time specified in such notice any interested person may file with the hearing clerk exceptions to the Administrator's proposed marketing agreement or marketing order, or both, as the case may be, and a brief in support of such exceptions. Such exceptions shall be in writing, shall refer, where practicable, to the related pages of the transcript and may suggest appropriate changes in the proposed marketing agreement or marketing order.

(d) *Omission of recommended decision.* The procedure provided in this section may be omitted only if the Secretary finds on the basis of the record that due and timely execution of his functions imperatively and unavoidably requires such omission.

§900.13 Submission to Secretary.

Upon the expiration of the period allowed for filing exceptions or upon request of the Secretary, the hearing clerk shall transmit to the Secretary the record of the proceeding. Such record shall include: all motions and requests filed with the hearing clerk and rulings thereon; the certified transcripts; any proposed findings or conclusions or written arguments or briefs that may have been filed; the Administrator's recommended decision, if any, and such exceptions as may have been filed.

§900.13a Decision by Secretary.

After due consideration of the record, the Secretary shall render a decision. Such decision shall become a part of the record and shall include (a) a statement of his findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law or discretion presented on the

Pt. 900 (Note)

record, (b) a ruling upon each proposed finding and proposed conclusion not previously ruled upon in the record, (c) a ruling upon each exception filed by interested persons and (d) either (1) a denial of the proposal to issue a marketing agreement or marketing order or (2) a marketing agreement and, if the findings upon the record so warrant, a marketing order, the provisions of which shall be set forth directly or by reference, regulating the handling of the commodity or product in the same manner and to the same extent as such marketing agreement, which order shall be complete except for its effective date and any determinations to be made under § 900.14(b) or § 900.14(c): *Provided*, That such marketing order shall not be executed, issued, or made effective until and unless the Secretary determines that the requirements of § 900.14(b) or § 900.14(c) have been met.

§ 900.14 Execution and issuance of marketing agreements and marketing orders.

(a) *Execution and issuance of marketing agreement.* If the Secretary has approved a marketing agreement, as provided in § 900.13a, the Administrator shall cause copies thereof to be distributed for execution by the handlers eligible to become parties thereto. If and when such number of the handlers as the Secretary shall deem sufficient shall have executed the agreement, the Secretary shall execute the agreement. After execution of a marketing agreement, such agreement shall be filed with the hearing clerk, and notice thereof, together with notice of the effective date, shall be given by publication in the FEDERAL REGISTER. The marketing agreement shall not become effective less than 30 days after its publication in the FEDERAL REGISTER, unless the Secretary, upon good cause found and published with the agreement, fixes an earlier effective date therefor: *Provided*, That no marketing agreement shall become effective as to any person signatory thereto before either (1) it has been filed with the Office of the Federal Register, or (2) such person has received actual notice that the Secretary has executed the agreement and the effective date of the marketing agreement.

(b) *Issuance of marketing order with marketing agreement.* Whenever, as provided in paragraph (a) of this section, the Secretary executes a marketing agreement, and handlers also have executed the same as provided in section 8c(8) of the Act, he shall, if he finds that it will tend to effectuate the purposes of the Act, issue and make effective the marketing order, if any, which was filed as a part of his decision pursuant to § 900.13a: *Provided*, That the issuance of such order shall have been approved or favored by producers as required by section 8c(8) of the act.

(c) *Issuance of marketing order without marketing agreement.* If, despite the failure or refusal of handlers to sign the marketing

agreement, as provided in section 8c(8) of the Act, the Secretary makes the determinations required under section 8c(9) of the Act, the Secretary shall issue and make effective the marketing order, if any, which was filed as a part of his decision pursuant to § 900.13a.

(d) *Effective date of marketing order.* No marketing order shall become effective less than 30 days after its publication in the FEDERAL REGISTER, unless the Secretary, upon good cause found and published with the order, fixes an earlier effective date therefor: *Provided*, That no marketing order shall become effective as to any person sought to be charged thereunder before either (1) it has been filed with the Office of the Federal Register, or (2) such person has received actual notice of the issuance and terms of the marketing order.

(e) *Notice of issuance.* After issuance of a marketing order, such order shall be filed with the hearing clerk, and notice thereof, together with notice of the effective date, shall be given by publication in the FEDERAL REGISTER. (7 U.S.C. 610(c).)

§ 900.52 Institution of proceeding.

(a) *Filing and service of petition.* Any handler desiring to complain that any marketing order or any provision of any such order or any obligation imposed in connection therewith is not in accordance with law, shall file with the hearing clerk, in quadruplicate, a petition in writing addressed to the Secretary. Promptly upon receipt of the petition, the hearing clerk shall transmit a true copy thereof to the Administrator and the General Counsel, respectively.

(c) *Motion to dismiss petition*—(1) *Filing, contents, and responses thereto.* If the Administrator is of the opinion that the petition, or any portion thereof, does not substantially comply, in form or content, with the act or with the requirements of paragraph (b) of this section, or is not filed in good faith, or is filed for purposes of delay, he may, within thirty days after the filing of the petition, file with the Hearing Clerk a motion to dismiss the petition, or any portion thereof, on one or more of the grounds stated in this paragraph. Such motion shall specify the grounds of objection to the petition and if based, in whole or in part, on an allegations of fact not appearing on the face of the petition, shall be accompanied by appropriate affidavits or documentary evidence substantiating such allegations of fact. The motion may be accompanied by a memorandum of law. Upon receipt of such motion, the Hearing Clerk shall cause a copy thereof to be served upon the petitioner, together with a notice stating that all papers to be submitted in opposition to such motion including any memorandum of law, must be filed by the petitioner with the Hearing Clerk not later than 20 days after the service of such notice upon the petitioner. papers which have been filed in connection with the motion to the Judge for his consideration.

(2) *Decision by Administrative Law Judge.* The Judge, after due consideration, shall render a decision upon the motion stating the reasons for his action. (3) *Oral argument.* Unless a written application for oral argument is filed by a party with the hearing clerk not later than the time fixed for filing papers in opposition to the motion, it shall be considered that the party does not desire oral argument. [25 FR 5907, June 28, 1960, as amended at 38 FR 29798, Oct. 29, 1973]

§ 900.52a Answer to petition.

(a) *Time of filing.* Within 30 days after the filing of the petition, the Administrator shall file an answer thereto: *Provided*, That if a motion to dismiss the petition, in whole or in part, is made pursuant to §900.52(c), the answer shall be filed within 15 days after the filing of an order of the administrative law judge denying the motion or granting the motion with respect to only a portion of the petition. The answer shall be filed with the hearing clerk who shall cause a copy thereof to be served promptly upon the petitioner.

(b) *Contents.* The answer shall specify which of the material allegations of fact or of law in the petition are controverted and which are not controverted. The answer also may contain affirmative allegations of fact constituting separate defenses and statements of objections to the sufficiency of the whole or any part of the petition.

[25 FR 5907, June 28, 1960]

§ 900.52b Amended pleadings.

At any time before the close of the hearing the petition or answer may be amended, but the hearing shall, at the request of the adverse party, be adjourned or recessed for such reasonable time as the judge may determine to be necessary to protect the interests of the parties. Amendments subsequent to the first amendment or subsequent to the filing of an answer may be made only with

leave of the judge or with the written consent of the adverse party.

§ 900.53 Withdrawal of petition.

If, at any time after the petition is filed, the petitioner desires to withdraw the same, he shall file with the hearing clerk (or, if filed during the course of a hearing, with the judge) a written request for permission to withdraw. The judge may, in his discretion, thereupon dismiss the petition without further procedure: *Provided*, That, if the request to withdraw is filed after a hearing has been opened, permission to withdraw shall be granted only in exceptional circumstances.

§ 900.54 Docket number.

Each proceeding, immediately following its institution, shall be assigned a docket number by the hearing clerk and thereafter the proceeding may be referred to by such number.

§ 900.55 Judges.

(a) *Assignment.* No judge who has any pecuniary interest in the outcome of the proceeding, or who has participated in any investigation preceding the institution of the proceeding, shall serve as judge in such proceeding.

(b) *Conduct.* The judge shall conduct the proceeding in a fair and impartial manner and shall not discuss ex parte the merits of the proceeding with any person who is or who has been connected in any manner with the proceeding in an advocative or investigative capacity.

(c) *Powers of judges.* Subject to review by the Secretary, as provided elsewhere in this subpart, the judge shall have power to:

- (1) Rule upon motions and requests;
- (2) Adjourn the hearing from time to time, and change the time and place of hearing;
- (3) Administer oaths and affirmations and take affidavits;
- (4) Issue subpoenas, under the facsimile signature of the Secretary, requiring the attendance and testimony of witnesses and the production of books, records, contracts, papers, and other documentary evidence;
- (5) Examine witnesses and receive evidence;
- (6) Take or order, under the facsimile signature of the Secretary, the taking of depositions;
- (7) Admit or exclude evidence;
- (8) Hear oral argument on facts or law;
- (9) Consolidate hearings upon two or more petitions pertaining to the same order;
- (10) Do all acts and take all measures necessary for the maintenance of order at the hearing and the efficient conduct of the proceeding.

(d) *Who may act in absence of judge.* In case of the absence of the judge or his inability to act, the powers and duties to be performed

by him under these rules of practice in connection with a proceeding may, without abatement of the proceeding unless otherwise ordered by the Secretary, be assigned to any other judge.

(e) *Disqualification of judge.* The judge may at any time withdraw as judge in a proceeding if he deems himself to be disqualified. Upon the filing by an interested person in good faith of a timely and sufficient affidavit of personal bias or disqualification of a judge, the Secretary shall determine the matter as a part of the record and decision in the proceeding, after making such investigation or holding such hearings, or both, as he may deem appropriate in the circumstances.

§ 900.56 Consolidated hearings.

At the discretion of the judge, hearings upon two or more petitions pertaining to the same order may be consolidated, and the evidence taken at such consolidated hearing may be embodied in a single record.

§ 900.57 Intervention.

Intervention in proceedings subject to this subpart shall not be allowed, except that, in the discretion of the Secretary or the judge, any person (other than the petitioner) showing a substantial interest in the outcome of a proceeding shall be permitted to participate in the oral argument and to file a brief.

§ 900.58 Prehearing conferences.

In any proceeding in which it appears that such procedure will expedite the proceeding, the judge, at any time prior to the commencement of or during the course of the hearing, may request the parties or their counsel to appear at a conference before him to consider (a) the simplification of issues; (b) the possibility of obtaining stipulations of fact and of documents which will avoid unnecessary proof; (c) the limitation of the number of expert or other witnesses; and (d) such other matters as may expedite and aid in the disposition of the proceeding. No transcript of such conference shall be made, but the judge shall prepare and file for the record a written summary of the action taken at the conference, which shall incorporate any written stipulations or agreements made by the parties at the conference or as a result of the conference. If the circumstances are such that a conference is impracticable, the judge may request the parties to correspond with him for the purpose of accomplishing any of the objects set forth in this section. The judge shall forward copies of letters and documents to the parties as the circumstances require. Correspondence in such negotiations shall not be a part of the record, but the judge shall submit a written summary for the record if any action is taken.

§ 900.59 Motions and requests.

(a) *General.* All motions and requests shall be filed with the hearing clerk, except that those made during the course of an oral hearing may be filed with the judge or may be stated orally and made a part of the transcript.

The judge is authorized to rule upon all motions and requests filed or made prior to the transmittal by the hearing clerk to the Secretary of the record as provided in this subpart. The Secretary shall rule upon all motions and requests filed after that time.

(b) *Certification of motions.* The submission or certification of any motion, request, objection, or other question to the Secretary shall be in the discretion of the judge.

[25 FR 5907, June 28, 1960, as amended at 38 FR 29798, Oct. 29, 1973]

§ 900.60 Oral hearings before judge.

(a) *Time and place.* The judge shall set a time and place for hearing and shall file with the hearing clerk a notice stating the time and place of hearing. If any change in the time or place of hearing becomes necessary, it shall be made by the judge, who, in such event, shall file with the hearing clerk a notice of the change. Such notice shall be served upon the parties, unless it is made during the course of an oral hearing and made a part of the transcript.

(b) *Appearances—(1) Representation.* In any proceeding under the act, the parties may appear in person or by counsel or other representative. The Department, if represented by counsel, shall be represented by an attorney assigned by the General Counsel of the Department, and such attorney shall present or supervise the presentation of the position of the Department.

(2) *Debarment of counsel or representative.* Whenever, while a proceeding is pending before him, the judge finds that a person acting as counsel or representative for any party to the proceeding is guilty of unethical or unprofessional conduct, the judge may order that such person be precluded from further acting as counsel or representative in such proceeding. An appeal to the Secretary may be taken from any such order, but the proceeding shall not be delayed or suspended pending disposition of the appeal: *Provided,* That the judge may suspend the proceeding for a reasonable time for the purpose of enabling the client to obtain other counsel or representative.

In case the judge has issued an order precluding a person from further acting as counsel or representative in the proceeding, the judge, within a reasonable time thereafter, shall submit to the Secretary a report of the facts and circumstances surrounding the issuance of the order and shall recommend what action the Secretary should take respecting the appearance of such person as

counsel or representative in other proceedings before the Secretary. Thereafter, the Secretary may, after notice and an opportunity for hearing, issue such order respecting the appearance of such person as counsel or representative in proceedings before the Secretary as the Secretary finds to be appropriate.

(3) *Failure to appear.* If the petitioner, after being duly notified, fails to appear at the hearing, he shall be deemed to have authorized the dismissal of the proceeding, without further procedure, and with or without prejudice as the judge may determine. In the event that the petitioner appears at the hearing and no representative of the Department appears, the judge shall proceed *ex parte* to hear the evidence of the petitioner. *Provided,* That failure on the part of such representative of the Department to appear at a hearing shall not be deemed to be waiver of the Department's right to file suggested findings of fact, conclusions and order; to be served with a copy of the judge's initial decision and to appeal to the Secretary with respect thereto.

(c) *Order of proceeding.* Except as may be determined otherwise by the judge, the petitioner shall proceed first at the hearing.

(d) *Evidence—(1) In general.* The hearing shall be publicly conducted, and the testimony given at the hearing shall be reported verbatim.

The testimony of witnesses at a hearing shall be upon oath or affirmation and subject to cross-examination.

Any witness may, in the discretion of the judge, be examined separately and apart from all other witnesses except those who may be parties to the proceeding.

The judge shall exclude, insofar as practicable, evidence which is immaterial, irrelevant, or unduly repetitious, or which is not of the sort upon which responsible persons are accustomed to rely.

(2) *Objections.* If a party objects to the admission or rejection of any evidence or to the limitation of the scope of any examination or cross-examination, or any other ruling of the judge, he shall state briefly the grounds of such objection, whereupon an automatic exception will follow which may be pursued in an appeal pursuant to §900.65 by the party adversely affected by the judge's ruling.

(3) *Depositions.* The deposition of any witness shall be admitted, in the manner hereinafter provided in and subject to the provisions of §900.61.

(4) *Affidavits.* Except as is otherwise provided in this subpart, affidavits may be admitted only if the evidence is otherwise admissible and the parties agree (which may be determined by their failure to make timely objections) that affidavits may be used.

(5) *Proof and authentication of official records or documents.* An official record or

document, when admissible for any purpose, shall be admissible in evidence without the production of the person who made or prepared the same. Such record or document shall, in the discretion of the judge, be evidenced by an official publication thereof or by a copy attested by the person having legal custody thereof and accompanied by a certificate that such person has the custody.

(6) *Exhibits.* All written statements, charts, tabulations, or similar data offered in evidence at the hearing shall, after identification by the proponent and upon a satisfactory showing of the admissibility of the contents thereof, be numbered as exhibits and received in evidence and made a part of the record. Except where the judge finds that the furnishing of copies is impracticable, a copy of each exhibit, in addition to the original, shall be filed with the judge for the use of each other party to the proceeding. The judge shall advise the parties as to the exact number of copies which will be required to be filed and shall make and have noted on the record the proper distribution of the copies.

If the testimony of a witness refers to a statute, or to a report, document, or transcript, the judge, after inquiry relating to the identification of such statute, report, document, or transcript, shall determine whether the same shall be produced at the hearing and physically be made a part of the evidence as an exhibit, or whether it shall be incorporated into the evidence by reference. If relevant and material matter offered in evidence is embraced in a report, document, or transcript containing immaterial or irrelevant matter, such immaterial or irrelevant matter shall be excluded and shall be segregated insofar as practicable, subject to the direction of the judge.

(7) *Official notice.* Official notice will be taken of such matters as are judicially noticed by the courts of the United States and of any other matter of technical, scientific, or commercial fact of established character: *Provided,* That the parties shall be given adequate notice, at the hearing or by reference in the judge's report or the tentative order or otherwise, of matters so noticed, and (except where official notice is taken, for the first time in the proceeding, in the final order) shall be given adequate opportunity to show that such facts are erroneously noticed.

(8) *Offer of proof.* Whenever evidence is excluded from the record, the party offering such evidence may make an offer of proof, which shall be included in the transcript. The offer of proof shall consist of a brief statement describing the evidence to be offered. If the evidence consists of a brief oral statement or of an exhibit, it shall be inserted into the transcript in toto. In such event, it shall be considered a part of the transcript if the Secretary decides that the judge's ruling in excluding the evidence was

erroneous. The judge shall not allow the insertion of such evidence in toto if the taking of such evidence will consume a considerable length of time at the hearing. In the latter event, if on appeal the Secretary decides that the judge erred in excluding the evidence, and that such error was substantial, the hearing shall be reopened to permit the taking of such evidence.

(e) [Reserved]

(f) *Transcript.* (1) During the period in which the proceeding has an active status the transcript and exhibits shall be kept on file in the office of the hearing clerk, where it shall be available for examination during official hours of business. Thereafter said transcript and exhibits shall be made available by the hearing clerk for examination during official hours of business after prior request and reasonable notice to the hearing clerk.

(2) If a personal copy of the transcript is desired, such copy may be obtained upon written application filed with the reporter, and upon payment of fees at the rate (if any) provided in the contract between the reporter and the Secretary.

[25 FR 5907, June 28, 1960, as amended at 38 FR 29798, Oct. 29, 1973]

§ 900.61 Depositions.

(a) *Procedure in lieu of deposition.* Before any party may have testimony taken by deposition, said party shall, if practicable, submit to the other party an affidavit which shall set forth the facts to which the witness would testify, if the deposition should be taken. If, after examination of such affidavit, the other party agrees, or (within 10 days after submission of the affidavit) fails to object, that the affidavit may be used in lieu of the deposition, the judge shall admit the affidavit in evidence and shall not order the deposition to be taken.

(b) *Application for taking deposition.* Upon the application of a party to the proceeding, the judge may, at any time after the filing of the moving paper, order, under the facsimile signature of the Secretary, the taking of testimony by deposition. The application shall be in writing and shall be filed with the hearing clerk and shall set forth: (1) The name and address of the proposed deponent; (2) the name and address of the person (referred to hereinafter in this section as the "officer"), qualified under the rules in this part to take depositions, before whom the proposed examination is to be made; (3) the proposed time and place of the examination, which shall be at least 15 days after the date of the mailing of the application; and (4) the reasons why such deposition should be taken.

(c) *Judge's order for taking deposition.* If, after the examination of the application, the judge is of the opinion that the deposition should be taken, he shall order its taking.

The order shall be filed with the hearing clerk and shall be served upon the parties and shall state: (1) The time and place of the examination (which shall not be less than 10 days after the filing of the order); (2) the name of the officer before whom the examination is to be made; (3) the name of the deponent. The officer and the time and place need not be the same as those suggested in the application.

(d) *Qualifications of officer.* The deposition shall be taken before the judge or before an officer authorized by the law of the United States or by the law of the place of the examination to administer oaths, or before an officer authorized by the Secretary to administer oaths.

(e) *Procedure on examination.* The deponent shall be examined under oath or affirmation and shall be subject to cross-examination. The testimony of the deponent shall be recorded by the officer or by some person under his direction and in his presence. In lieu of oral examination, parties may transmit written interrogatories to the officer prior to the examination and the officer shall propound such interrogatories to the deponent.

The applicant must arrange for the examination of the witness either by oral examination or by written interrogatories. If it is found by the judge, upon the protest of a party to the proceeding, that such party has his residence and his place of business more than 100 miles from the place of the examination and that it would constitute an undue hardship upon such party to be represented at the examination, the applicant will be required to conduct the examination by means of interrogatories. When the examination is conducted by means of interrogatories, copies of the interrogatories shall be served upon the other parties to the proceeding at least five days prior to the date set for the examination, and the other parties shall be afforded an opportunity to file with the officer cross-interrogatories at any time prior to the time of the examination.

(f) *Certification by officer.* The officer shall certify on the deposition that the deponent was duly sworn by him and that the deposition is a true record of the deponent's testimony. He shall then securely seal the deposition, together with two copies thereof, in an envelope and mail the same by registered mail to the hearing clerk.

(g) *Use of depositions.* A deposition ordered and taken in accord with the provisions of this section may be used in a proceeding under the act if the judge finds that the evidence is otherwise admissible and (1) that the witness is dead; or (2) that the witness is at a distance greater than 100 miles from the place of hearing, unless it appears that the absence of the witness was procured by the party offering the deposition; or (3) that the witness is unable to attend or testify because

of age, sickness, infirmity or imprisonment; or (4) that the party offering the deposition has endeavored to procure the attendance of the witness by subpoena but has been unable to do so; or (5) that such exceptional circumstances exist as to make it desirable, in the interests of justice, to allow the deposition to be used. If a deposition has been taken, and the party upon whose application it was taken refuses to offer it in evidence, the other party may offer the deposition, or any part thereof, in evidence.

§ 900.62 Subpenas.

(a) *Issuance of subpoenas.* The attendance of witnesses and the production of documentary evidence from any place in the United States on behalf of any party to the proceeding may, by subpoena, be required at any designated place of hearing. Subpenas may be issued by the Secretary or by the judge, under the facsimile signature of the Secretary, upon a reasonable showing by the applicant of the grounds, necessity, and reasonable scope thereof.

(b) *Application for subpoena duces tecum.* Subpenas for the production of documentary evidence, unless issued by the judge upon his own motion, shall be issued only upon a verified written application. Such application shall specify, as exactly as possible, the documents desired and shall show their competency, relevancy, and materiality and the necessity for their production.

(c) *Service of subpoenas.* Subpenas may be served (1) by a United States Marshal or his deputy, or (2) by any other person who is not less than 18 years of age, or (3) by registering and mailing a copy of the subpoena addressed to the person to be served at his or its last known residence or principal place of business or residence. Proof of service may be made by the return of service on the subpoena by the United States Marshal or his deputy; or, if served by an individual other than a United States Marshal or his deputy, by an affidavit of such person stating that he personally served a copy of the subpoena upon the person named therein; or, if service was by registered mail, by an affidavit made by the person mailing the subpoena that it was mailed as provided in this paragraph and by the signed return post-office receipt: *Provided*, That, if the subpoena is issued on behalf of the Department, the return receipt without an affidavit of mailing shall be sufficient proof of service. In making personal service, the person making service shall leave a copy of the subpoena with the person subpoenaed; the original, bearing or accompanied by the required proof of service shall be returned to the official who issued the same.

§ 900.63 Fees and mileage.

Witnesses who are subpoenaed and who appear in such proceeding, including witnesses whose depositions are taken, shall be paid

the same fees and mileage that are paid witnesses in the courts of the United States, and persons taking depositions shall be entitled to the same fees as are paid for like services in the courts of the United States, to be paid by the party at whose request the deposition is taken. Witness fees and mileage shall be paid by the party at whose instance the witnesses appear, and claims therefor, as to witnesses subpoenaed on behalf of the Department, shall be proved before the person issuing the subpoena, and, as to witnesses subpoenaed on behalf of any other party, shall be presented to such party.

§ 900.64 The Administrative Law Judge's decision.

(a) *Corrections to and certification of transcript.* (1) At such time as the judge may specify, but not later than the time fixed for filing proposed findings of fact, conclusions and order, or briefs, as the case may be, the parties may file with the judge proposed corrections to the transcript. (2) As soon as practicable after the filing of proposed findings of fact, conclusions and order, or briefs, as the case may be, the judge shall file with the hearing clerk his certificate indicating any corrections to be made in the transcript, and stating that, to the best of his knowledge and belief, the transcript, as corrected, is a true, correct, and complete transcript of the testimony given at the hearing, and that the exhibits are all the exhibits properly a part of the hearing record. The original of such certificate shall be attached to the original transcript and a copy of such certificate shall be served upon each of the parties by the hearing clerk who shall also enter onto the transcript (without obscuring the text) any correction noted in the certification.

(b) *Proposed findings of fact, conclusions, and orders.* Within 10 days (unless the judge shall have announced at the hearing a shorter or longer period of time) after the transcript has been filed with the hearing clerk, as provided in paragraph (a) of this section, each party may file with the hearing clerk proposed findings of fact, conclusions, and order, based solely upon the evidence of record, and briefs in support thereof.

(c) *Administrative Law Judge's decision.* The judge, within a reasonable time after the termination of the period allowed for the filing of proposed findings of fact, conclusions, and orders, and briefs in support thereof, shall prepare upon the basis of the record, and shall file with the hearing clerk, his initial decision, a copy of which shall be served by the hearing clerk, upon each of the parties. Such decision shall become final without further proceedings 35 days after the date of service thereof, unless there is an appeal to the Secretary by a party to the proceeding: *Provided, however*, That no decision shall be

[25 FR 5907, June 28, 1960, as amended at 38 FR 29799, Oct. 29, 1973]

§ 900.65 Appeals to Secretary: Transmittal of record.

(a) *Filing of appeal.* Any party who disagrees with a judge's decision or any part thereof, may appeal the decision to the Secretary by transmitting an appeal petition to the hearing clerk within 30 days after service of said decision upon said party. Each issue set forth in the appeal, and the arguments thereon, shall be separately numbered; shall be plainly and concisely stated; and shall contain detailed citations of the record, statutes, regulations and authorities being relied upon in support thereof. The appeal petition shall be served upon the other party to the proceeding by the hearing clerk.

(b) *Argument before Secretary*—(1) *Oral argument.* A party bringing an appeal may request within the prescribed time period for filing such appeal, an opportunity for oral argument before the Secretary. Failure to make such request in writing, within the prescribed time period, shall be deemed a waiver of oral argument. The Secretary, in his discretion, may grant, refuse or limit any request for oral argument on appeal.

(2) *Scope of argument.* Argument to be heard on appeal, whether oral or in a written brief, shall be limited to the issues raised by the appeal, except that if the Secretary determines that additional issues should be argued, the parties shall be given reasonable notice of such determination, so as to permit preparation of adequate arguments on all the issues to be argued.

(c) *Response.* Within 20 days after service of an appeal brought by a party to the proceeding, any other party may file a response in support of or in opposition to such appeal.

(d) *Transmittal of record.* Whenever an appeal is filed by a party to the proceeding, the hearing clerk shall transmit to the Secretary the record of the proceeding. [38 FR 29799, Oct. 29, 1973]

§ 900.66 Consideration of appeal by the Secretary and issuance of final order.

(a) *Consideration of appeal.* As soon as practicable after the receipt of the record from the hearing clerk, or, in case oral argument was had, as soon as practicable thereafter, the Secretary, upon the basis of and after due consideration of the record, shall rule on the appeal. If the Secretary decides that no change or modification of the judge's decision is warranted, he may adopt the Judge's decision as the final order of the Secretary, preserving any right of the party bringing the appeal to seek judicial review of such decision in the proper forum. At no stage of the proceeding between its institution and the issuance of the order shall the Secretary discuss ex parte the merits of the proceeding with any person who is connected with the proceeding in an advocative or an investigative capacity, or with any representative of such person: *Provided, however,* That the Secretary may discuss the merits of the proceeding with such a person if all parties to the proceeding, or their representatives, have been given an opportunity to be present. If, notwithstanding the foregoing provisions of this section, a memorandum or other communication from any party, or from any person acting on behalf of any party, which relates to the merits of the proceeding, receives the personal attention of the Secretary (or, if an official other than the Secretary is to issue the order, then of such other official) during the pendency of the proceeding, such memorandum or communication shall be regarded as argument made in the proceeding and shall be filed with the hearing clerk, who shall serve a copy thereof upon the opposite party to file a reply thereto.

(b) *Issuance of final order.* A final order issued by the Secretary shall be filed with the hearing clerk, who shall serve it upon the parties: *Provided,* That, if the terms of the order differ substantially from those proposed in the decision of the judge, the Secretary shall, if he deems it advisable to do so, direct that a copy of the order be served upon the parties as a tentative order; and, in such event, opportunity shall be given the parties to file exceptions thereto and written arguments or briefs in support of such exceptions. In such case, if exceptions are filed within a period of time (to be fixed by the Secretary but not to exceed 20 days) following the service of the tentative order, the Secretary shall give consideration, to and shall make such changes in the tentative order as he deems to be appropriate; otherwise, the tentative order shall become final, as of the day following the date of expiration of the period fixed for the filing of exceptions.

(b) *Procedure for disposition of petitions.* Within 10 days following the service of any petition provided for in this section, the other party to the proceeding shall file with the hearing clerk an answer thereto. As soon as practicable thereafter, the Secretary shall announce the decision granting or denying the petition. Unless the Secretary shall determine otherwise, the issuance or operation of the order shall not be stayed pending the decision of the Secretary upon the petition. (a) *Filing; number of copies.* Except as provided otherwise herein, all documents or papers required or authorized in this subpart to be filed with the hearing clerk shall be filed in quadruplicate: *Provided*, That, if there are more than two parties to the proceeding, a sufficient number of additional copies shall be filed so as to provide for service upon all the parties to the proceeding. Any document or paper, required or authorized in this subpart to be filed with the hearing clerk, shall,

during the course of an oral hearing, be filed with the judge.

(b) *Service; proof of service.* Copies of all such papers shall be served upon the parties by the hearing clerk, by the judge, or by some other employee of the Department or by a United States Marshal or his deputy. The affidavit contemplated herein shall be filed with the hearing clerk, and the fact of filing thereof shall be noted on the docket of the proceeding.

(c) *Extensions of time.* The time for the filing of any documents or papers required or authorized in this subpart to be filed may be extended upon (1) a written stipulation between the parties, or (2) upon the request of a party, by the judge before the transmittal of the record to the Secretary, or by the Secretary at any other time if, in the judgment of the Secretary or the judge, as the case may be, there is good reason for the extension.

(d) *Effective date of filing.* Any document or paper, except a petition filed pursuant to § 900.52, required or authorized under these rules to be filed shall be deemed to have been filed when it is postmarked, or when it is received by the hearing clerk. Any petition filed under § 900.52 shall be deemed to be filed when it is received by the hearing clerk.

(e) *Computation of time.* Sundays and Federal holidays shall be included in computing the time allowed for the filing of any document or paper: *Provided*, That, when such time expires on a Sunday or legal holiday, such time shall be extended to include the next following business day.

(f) *Hearing and oral argument.* The Secretary may, in his discretion, permit oral argument or the taking of testimony in connection with such application. However, unless written request therefor is filed with the hearing clerk prior to the transmittal of the papers to the Secretary, the parties shall be deemed to have waived oral argument and the taking of testimony.

(g) *Decision by Secretary.* The Secretary may grant or deny the application. Any action taken by the Secretary shall be in the form of an order filed with the hearing clerk and shall contain a brief statement of the reasons for the action taken. The hearing clerk shall cause copies of the order to be served upon the parties.

§ 900.71 Hearing before Secretary.

[30 FR 15412, Dec. 5, 1965, as amended at 37 FR 8059, Apr. 25, 1972]

§ 900.302 Associations eligible to vote.

(a) Any association of producers, not previously determined to be a cooperative association may file an application for a determination as to whether it is a cooperative association and thus eligible to vote in a referendum. Such application shall be filed with the Administrator at least 60 days prior to the holding of the referendum: *Provided, however,* That the Administrator may permit the filing of an application in less than 60 days when, in the opinion of the Administrator, such filing would not delay the conduct of the referendum.

(b) Within a time fixed by the referendum agent, but not later than 5 days prior to the final date for balloting, each cooperative association electing to vote shall, upon the request of the referendum agent, furnish to him a certified list showing the name and address of each producer for whom it claims the right to vote and the plant at which such person's milk was received during the representative period.

§ 900.303 Conduct of referendum.

The referendum shall be conducted by mail in the manner prescribed in this subpart. The referendum agent may utilize such personnel or agencies of the Department as are deemed necessary by the Administrator.

Agricultural Marketing Service, USDA

Pt. 900 (Note)

§ 900.304 Who may vote.

(a) Each producer shall be entitled to only one vote and to cast one ballot in each referendum; and no person who may claim to be a producer shall be refused a ballot. Each producer casting more than one ballot with conflicting votes shall thereby invalidate all ballots cast by such producer in such referendum. Each ballot cast shall contain a certification by the person casting the ballot that he is a producer.

(b) Except as provided in section 8c(5)(B) of the Act, as amended, any cooperative association eligible under § 900.302 may, if it elects to do so, vote and cast one ballot for producers who are members of, stockholders in, or under contract with, such cooperative association. A cooperative association shall submit with its ballot, a certified copy of the resolution authorizing the casting of the ballot. Each such cooperative association entitled to vote in a referendum casting more than one ballot with conflicting votes shall thereby invalidate all ballots cast by such voter in such referendum.

(c) Voting by proxy or agent, or in any manner, except by the producer or cooperative association will not be permitted; however, a producer which is other than an individual may cast its ballot by a person who is duly authorized and such ballot shall contain a certification by such person that the person on whose behalf the ballot is cast is a producer.

§ 900.305 Duties of referendum agent.

The referendum agent shall also:

(a) For purposes of mailing, prepare a record of producers which will disclose the name of each such person, his address, the name of the handler who received the producer's milk during the representative period, and the name of the cooperative association, if any, which claims the right to vote for the producer. Such record may be compiled from readily available sources, including the following:

- (1) Records of the Department;
- (2) Producer records supplied by handlers;
- (3) Health authority records;
- (4) Certifications signed by dairy farmers who claim to be producers;
- (5) Any other reliable sources of information which may be available to the referendum agent.

(b) Apply, as a guide, the following criteria in preparing a record of producers:

(1) When the order requires approval by an appropriate health authority before a person meets the definition of producer, only those persons having such approval and who otherwise meet the definition may be regarded as producers. When the definition of producer requires the shipment of milk to a handler or a plant as well as health authority approval, only those persons having such approval and

whose milk was received by a handler or at a plant may be regarded as producers.

(2) When the order requires shipment to a handler or to a plant, without regard to health authority approval, a person may not be regarded as a producer, except as provided in paragraph (b)(6) of this section, unless his name appears on the handler's producer records.

(3) In the case of a producer that is other than an individual, the business unit shall be regarded as the producer.

(4) No person may be included in the record more than once although he may operate more than one farm, hold more than one health authority approval, or appear on more than one handler's producer records.

(5) In the event the health authority records are not available, are inaccurate, or are incomplete, the appearance of the producer's name on a handler's records as an approved producer shall be prima facie evidence of health authority approval.

(6) In the event any handler refuses or fails to make his records available to the referendum agent, a certification signed by the producer shall be regarded by the referendum agent as prima facie evidence that such person is eligible to vote.

(c) Verify the information supplied by each cooperative association which wishes to vote on behalf of producers, as follows:

(1) Examine the records of the cooperative association for the purpose of ascertaining whether each producer claimed by the cooperative association is a member of, stockholder in, or under contract with the cooperative association.

(2) Identify the persons ascertained to be members of, stockholders in, or under contract with a cooperative association which wishes to vote on behalf of its producers with the names of producers which appear on the record compiled pursuant to paragraph (a) of this section.

(3) In determining whether a cooperative association may vote on behalf of a producer the following criteria shall be used:

(i) The cooperative association may vote for each producer who is a member of, stockholder in, or under contract with such cooperative association on the date of the order directing that the referendum be conducted.

(ii) The cooperative association may cast only one ballot for all such producers.

(iii) Whenever more than one cooperative association claims the right to vote for a producer only the cooperative association which furnished evidence satisfactory to the referendum agent that such association was in fact marketing the milk of the producer on the date of the referendum order may vote for such producer.

§ 900.306 Notice of the referendum.

(a) The referendum agent shall at least 5 days prior to the final date for balloting:

(1) Mail to each cooperative association which has elected to cast a ballot on behalf of its producers and to each of all other known producers, a notice of the referendum which will include instructions for completing the ballot, a statement as to the time within which the ballot must be mailed to, and received by, the referendum agent, a copy of the final decision, and a ballot containing a description of the terms and conditions of the order.

(2) Give public notice of the referendum:

(i) By furnishing press releases and other information to available media of public information (including but not limited to press, radio, and television facilities) serving the area, announcing the time within which ballots must be completed and mailed to and received by the referendum agent, eligibility requirements, where additional information may be procured, and other pertinent information; and

(ii) By such other means as said agent may deem advisable.

§ 900.307 Time for voting.

There shall be no voting except within the time specified by the referendum agent as stated in the notice of the referendum.

§ 900.308 Tabulation of ballots.

(a) *General.* The referendum agent shall verify the information supplied with each ballot. If he ascertains that the person who cast the ballot was eligible to do so, that the ballot is complete and was mailed and received within the prescribed time, the ballot shall be eligible to be counted. If the referendum agent ascertains that the person who cast the ballot was not eligible to do so, or if the producer who cast the ballot was a member of, stockholder in, or under contract with a cooperative association which cast a valid ballot, or if the ballot is not completed or cast in accordance with instructions, or if the ballot was not mailed to or received by the referendum agent within the prescribed time, the ballot shall be marked "disqualified" with a notation on the ballot as to the reason for the disqualification. The total number of ballots cast, including the disqualified ballots, shall be ascertained. The number of eligible ballots cast approving and the number of eligible ballots cast disapproving the issuance of the order shall also be ascertained. The ballots marked "disqualified" shall not be considered as approving or disapproving the issuance of the order, and the persons who cast such ballots shall not be regarded as participating in the referendum.

(b) *Individual-handler pool provisions.* Whenever separate approval of the pooling provisions of the order is required by section 608c(5)(B)(i) of the Act, any ballot which approves the issuance of the order and disapproves the pooling provisions, or approves

the pooling provisions and disapproves the issuance of the order, shall be disqualified; and the referendum agent shall mark the ballot accordingly.

(c) *Record of results of the referendum.* The referendum agent shall notify the Administrator of the number of eligible ballots cast, the count of the votes, the number of disqualified ballots and the number of producers who were eligible to cast ballots. The referendum agent shall seal the ballots, including those marked "disqualified", the list of eligible voters and tabulation of ballots, and shall transmit to the Administrator a complete detailed report of all action taken in connection with the referendum together with all the ballots cast and all other information furnished to or compiled by the referendum agent.

(d) *Announcement of the results of the referendum.* Announcement of the results of the referendum will be made only at the direction of the Secretary. The referendum agent, or others who assist in the referendum, shall not disclose the results of the referendum or the total number of ballots cast.

§ 900.309 Confidential information.

The ballots cast, the identity of any person who voted, or the manner in which any person voted and all information furnished to, compiled by, or in the possession of the referendum agent, shall be regarded as confidential.

§ 900.310 Supplementary instructions.

The Administrator is authorized to issue instructions and to prescribe forms and ballots, not inconsistent with the provisions of this subpart, to govern the conduct of referenda by referendum agents.

§ 900.311 Submittals or requests.

Interested persons may secure information or make submittals or requests to the Administrator with respect to the provisions contained in this subpart.

Subpart—Procedure for Determining the Qualification of Cooperative Milk Marketing Associations

AUTHORITY: Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674.

SOURCE: 32 FR 9821, July 6, 1967, unless otherwise noted.

§ 900.350 General statement.

Cooperative marketing associations apply for qualification by the Secretary under the Federal milk order program for certain privileges and exemptions. These privileges and exemptions are expressed in the Agricultural Marketing Agreement Act of 1937 (50

Agricultural Marketing Service, USDA

Pt. 900 (Note)

Stat. 246) as amended, and the milk marketing orders issued pursuant to its provisions.

§ 900.351 Applications for qualification.

Any association of producers may apply for determinations as to whether it is a qualified cooperative association with authority to represent producers in order referendums; has authorization to collect payment from handlers for members' milk; and is rendering specified marketing services to producers. Applicant associations should supply information for these determinations, using as a guide Application Form DA-25. The application form may be obtained from the Dairy Division, Agricultural Marketing Service, United States Department of Agriculture, Washington, DC 20250. Determinations required of the Secretary of Agriculture, or the Administrator of the Agricultural Marketing Service, by delegation are made by the Director of the Dairy Division. Once issued they are valid until amended, suspended or terminated.

§ 900.352 Confidential information.

The documents and other information submitted by an applicant association and otherwise obtained by investigation, examination of books, documents, papers, records, files and facilities, and in reports filed subsequent to initial determinations of qualification, shall be regarded as confidential and shall be governed by § 900.210.

§ 900.353 Qualification standards.

Statutory requirements for qualification of cooperative associations are provided in subsections (5) and (12) of section 608c of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*). The association must: (a) Be a cooperative marketing association of producers, qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," (7 U.S.C. 291, 292); (b) have its entire organization and all of its activities under the control of its members; (c) have full authority in the sale of its members' milk; and (d) be engaged in making collective sales or marketing of milk or milk products for the producers thereof. Qualification for exemption from deductions for marketing service payments under specific marketing orders and payment for milk of members under specific orders shall be determined in accordance with the terms of the respective marketing orders.

§ 900.354 Inspection and investigation.

The Secretary of Agriculture, or his duly authorized representative, shall have the right, at any time after an application is received, to examine all books, documents, papers, records, files and facilities of the association, to verify any of the information sub-

mitted and to procure such other information as may be required to determine whether the association is qualified in accordance with its application.

§ 900.355 Annual reporting.

Determinations of qualification for privileges and exemptions are subject to amendment, termination or suspension if the association does not currently meet the qualification standards. An association found to be qualified pursuant to the Act is required to file an annual report after its annual meeting has been held following the close of its fiscal year. Form DA-24 is used for this purpose. The report form is available at the Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, DC 20250. The association is required to file a copy of its report with the Dairy Division at Washington and with the market administrator of each order under which it operates.

§ 900.356 Listing of qualified associations.

A copy of each determination of qualification is furnished to the respective association. Copies are also filed in the Dairy Division, Agricultural Marketing Service, and with the Hearing Clerk, Office of the Secretary, U.S. Department of Agriculture, Washington, DC 20250, where they are available for public inspection. A list of qualified associations engaged in marketing milk under a particular milk marketing order is maintained at the office of the market administrator of the order.

§ 900.357 Denial of application; suspension or revocation of determination of qualification.

Any cooperative association whose application has been wholly or partially denied, or whose determination of qualification has been wholly or partly revoked or suspended, may petition the Secretary for a review of such action. Such petition shall state facts relevant to the matter for which review is sought. After due notice to such cooperative association, the Director of the Dairy Division, or in his absence the Acting Director, shall hold, in the manner hereinafter specified, an informal hearing.

(a) *Notice.* Notice shall be given in writing and shall be mailed to the last known address of the association, or of an officer thereof, at least 3 days before the date set for a hearing. Such notice shall contain: A statement of the time and place of the hearing, said place to be as convenient to the association as can reasonably be arranged, and may contain a statement of the reason for calling the hearing and the nature of the questions upon which evidence is desired or upon which argument may be presented.

(b) *Parties.* Hearings are not to be public and are to be attended only by representatives of the association and of the Government, and such other persons as either the association or the Government desires to have appear for purposes of submitting information or as counsel.

(c) *Conduct of hearing.* The Director or Acting Director of the Dairy Division, or a person designated by him, shall preside at the hearing. The hearing shall be conducted in such manner as will be most conducive to the proper disposition of the matter. Written statements or briefs may be filed by the association within the time specified by the presiding officer.

(d) *Preliminary report.* The presiding officer shall prepare a preliminary report setting forth a recommendation as to what action shall be taken and the basis for such action. A copy of said report shall be served upon the association by mail or in person. The association may file exceptions to said report within 10 days after service thereof.

(e) *Final report.* After due consideration of all the facts and the exceptions, if any, the Director of the Dairy Division shall issue a final report setting forth the action to be taken and the basis for such action.

(d) Give reasonable advance notice of the referendum (1) by utilizing without advertising expense available media of public information (including, but not being limited to, press and radio facilities) serving the production area, announcing the dates, places, or methods of voting, eligibility requirements, and other pertinent information, and (2) by such other means as said agent may deem advisable.

(e) Make available to producers and the aforesaid cooperative associations which indicate to the agent their intentions to vote, and to processors when required, instructions on voting, appropriate ballot and certification forms, and, except in the case of a referendum on the termination or continuance of an order, the text of the proposed order and a summary of its terms and conditions: *Provided*, That no person who claims to be qualified to vote shall be refused a ballot.

§ 1000.3

(e) *Person* means any individual, partnership, corporation, association, or other business unit.

§ 1000.3 Route disposition.

§ 1000.4 Plant.

(a) Except as provided in paragraph (b) of this section, *plant* means the land, buildings, facilities, and equipment constituting a single operating unit or establishment at which milk or milk products are received, processed, or packaged, including a facility described in paragraph (b)(2) of this section if the facility receives the milk of more than one dairy farmer.

(b) Plant shall not include:

(1) A separate building without stationary storage tanks that is used only as a reload point for transferring bulk milk from one tank truck to another or a separate building used only as a distribution point for storing packaged fluid milk products in transit for route disposition; or

(2) An on-farm facility operated as part of a single dairy farm entity for the separation of cream and skim or the removal of water from milk.

§ 1000.5 Distributing plant.

Distributing plant means a plant that is approved by a duly constituted regulatory agency for the handling of Grade A milk at which fluid milk products are processed or packaged and from which there is route disposition or transfers of packaged fluid milk products to other plants.

7 CFR Ch. X (1-1-00 Edition)

§ 1000.8 Nonpool plant.

Nonpool plant means any milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) *A plant fully regulated under another Federal order* means a plant that is fully subject to the pricing and pooling provisions of another Federal order.

(b) *Producer-handler plant* means a plant operated by a producer-handler as defined under any Federal order.

(c) *Partially regulated distributing plant* means a nonpool plant that is not a plant fully regulated under another Federal order, a producer-handler plant, or an exempt plant, from which there is route disposition in the marketing area during the month.

(d) *Unregulated supply plant* means a supply plant that does not qualify as a pool supply plant and is not a plant fully regulated under another Federal order, a producer-handler plant, or an exempt plant.

(e) *An exempt plant* means a plant described in this paragraph that is exempt from the pricing and pooling provisions of any order provided that the operator of the plant files reports as prescribed by the market administrator of any marketing area in which the plant distributes packaged fluid milk products to enable determination of the handler's exempt status:

(1) A plant that is operated by a governmental agency that has no route disposition in commercial channels;

(2) A plant that is operated by a duly accredited college or university disposing of fluid milk products only through the operation of its own facilities with no route disposition in commercial channels;

(b) Any person who receives packaged fluid milk products from a plant for resale and distribution to retail or wholesale outlets, any person who as a broker negotiates a purchase or sale of fluid milk products or fluid cream products from or to any pool or nonpool plant, and any person who by purchase or direction causes milk of producers to be picked up at the farm and/or moved to a plant. Persons who qualify as handlers only under this paragraph under any Federal milk order are not subject to the payment provisions of §§ _____.70, _____.71, _____.72, _____.73, _____.76, and _____.85 of that order.

(c) Any cooperative association with respect to milk that it receives for its account from the farm of a producer and delivers to pool plants or diverts to nonpool plants pursuant to § _____.13 of the order. The operator of a pool plant receiving milk from a cooperative association may be the handler for such milk if both parties notify the market administrator of this agreement prior to the time that the milk is delivered to the pool plant and the plant operator purchases the milk on the basis of farm bulk tank weights and samples.

§ 1000.14 Other source milk.

Other source milk means all skim milk and butterfat contained in or represented by:

to exercise the powers and perform the duties of the office;

- (ii) Made payments required by the order; or
- (iii) Made available records and facilities as required pursuant to § 1000.27;

(6) Prescribe reports required of each handler under the order. Verify such reports and the payments required by the order by examining records (including such papers as copies of income tax reports, fiscal and product accounts, correspondence, contracts, documents or memoranda of the handler, and the records of any other persons that are relevant to the handler's obligation under the order), by examining such handler's milk handling facilities, and by such other investigation as the market administrator deems necessary for the purpose of ascertaining the correctness of any report or any obligation under the order. (8) Prepare and disseminate publicly for the benefit of producers, handlers, and consumers such statistics and other information concerning operation of the order and facts relevant to the provisions thereof (or proposed provisions) as do not reveal confidential information.

Subpart D—Rules Governing Order Provisions

(a) *Effective time.* The provisions of the order or any amendment to the order shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

(b) *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions of the order whenever he/she finds that such provision(s) obstructs or does not tend to effectuate the declared policy of the Act. The order shall terminate whenever the provisions of the Act authorizing it cease to be in effect.

(c) *Continuing obligations.* If upon the suspension or termination of any or all of the provisions of the order there are any obligations arising under the order, the final accrual or ascertainment of which requires acts by any handler, by the market administrator or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination.

(d) *Liquidation.* (1) Upon the suspension or termination of any or all provisions of the order the market administrator, or such other liquidating agent designated by the Secretary, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his/her possession or control, including accounts receivable, and execute and deliver all assignments or other instru-

ments necessary or appropriate to effectuate any such disposition; and

(2) If a liquidating agent is so designated, all assets and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

(e) *Separability of provisions.* If any provision of the order or its application to any person or circumstances is held invalid, the application of such provision and of the remaining provisions of the order to other persons or circumstances shall not be affected thereby.

Subpart E—Rules of Practice and Procedure Governing Handlers

§ 1000.27 Handler responsibility for records and facilities.

Each handler shall maintain and retain records of its operations and make such records and its facilities available to the market administrator. If adequate records of a handler, or of any other persons, that are relevant to the obligation of such handler are not maintained and made available, any skim milk and butterfat required to be reported by such handler for which adequate records are not available shall be considered as used in the highest-priced class.

(a) *Records to be maintained.* (1) Each handler shall maintain records of its operations (including, but not limited to, records of purchases, sales, processing, packaging, and disposition) as are necessary to verify whether such handler has any obligation under the order and if so, the amount of such obligation. Such records shall be such as to establish for each plant or other receiving point for each month:

(i) The quantities of skim milk and butterfat contained in, or represented by, products received in any form, including inventories on hand at the beginning of the month, according to form, time, and source of each receipt;

§ 1000.28

7 CFR Ch. X (1-1-00 Edition)

(ii) The utilization of all skim milk and butterfat showing the respective quantities of such skim milk and butterfat in each form disposed of or on hand at the end of the month; and

(iii) Payments to producers, dairy farmers, and cooperative associations, including the amount and nature of any deductions and the disbursement of money so deducted.

(2) Each handler shall keep such other specific records as the market administrator deems necessary to verify or establish such handler's obligation under the order.

(b) *Availability of records and facilities.* Each handler shall make available all records pertaining to such handler's operations and all facilities the market administrator finds are necessary to verify the information required to be reported by the order and/or to ascertain such handler's reporting, monetary, or other obligation under the order. Each handler shall permit the market administrator to weigh, sample, and test milk and milk products and observe plant operations and equipment and make available to the market administrator such facilities as are necessary to carry out his/her duties.

(c) *Retention of records.* All records required under the order to be made available to the market administrator shall be retained by the handler for a period of 3 years to begin at the end of the month to which such records pertain. If, within such 3-year period, the market administrator notifies the handler in writing that the retention of such records, or of specified records, is necessary in connection with a proceeding under section 8c(15)(A) of the Act or a court action specified in such notice, the handler shall retain such records, or specified records, until further written notification from the market administrator. The market administrator shall give further written notification to the handler promptly upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 1000.28 Termination of obligations.

(a) Except as provided in paragraphs (b) and (c) of this section, the obligation of any handler to pay money re-

quired to be paid under the terms of the order shall terminate 2 years after the last day of the month during which the market administrator receives the handler's report of receipts and utilization on which such obligation is based, unless within such 2-year period, the market administrator notifies the handler in writing that such money is due and payable. Service of such written notice shall be complete upon mailing to the handler's last known address and it shall contain, but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) on which such obligation is based; and

(3) If the obligation is payable to one or more producers or to a cooperative association, the name of such producer(s) or such cooperative association, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under the order, to make available to the market administrator all records required by the order to be made available, the market administrator may notify the handler in writing, within the 2-year period provided for in paragraph (a) of this section, of such failure or refusal. If the market administrator so notifies a handler, the said 2-year period with respect to such obligation shall not begin to run until the first day of the month following the month during which all such records pertaining to such obligation are made available to the market administrator.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under the order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Unless the handler files a petition pursuant to section 8c(15)(A) of the Act and the applicable rules and regulations (7 CFR 900.50 through 900.71) within the applicable 2-year period indicated below, the obligation of the market administrator:

(1) To pay a handler any money which such handler claims is due under

the terms of the order shall terminate 2 years after the end of the month during which the skim milk and butterfat involved in the claim were received; or

(2) To refund any payment made by a handler (including a deduction or offset by the market administrator) shall terminate 2 years after the end of the month during which payment was made by the handler.

(4) In shrinkage assigned pursuant to §1000.43(b).

(e) *Other uses.* Other uses include skim milk and butterfat used in any product described in this section that

§ 1000.41

7 CFR Ch. X (1-1-00 Edition)

is dumped, used for animal feed, destroyed, or lost by a handler in a vehicular accident, flood, fire, or similar occurrence beyond the handler's control. Such uses of skim milk and butterfat shall be assigned to the lowest priced class for the month to the extent that the quantities destroyed or lost can be verified from records satisfactory to the market administrator.

§ 1000.41 [Reserved]

§ 1000.42 Classification of transfers and diversions.

(a) *Transfers and diversions to pool plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or transferred in the form of a bulk fluid cream product from a pool plant or a handler described in §1135.11 of this chapter to another pool plant shall be classified as Class I milk unless the handlers both request the same classification in another class. In either case, the classification shall be subject to the following conditions:

(1) The skim milk and butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the receiving plant after the computations pursuant to §1000.44(a)(9) and the corresponding step of §1000.44(b);

(2) If the transferring plant received during the month other source milk to be allocated pursuant to §1000.44(a)(3) or the corresponding step of §1000.44(b), the skim milk or butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferring handler received during the month other source milk to be allocated pursuant to §1000.44(a)(8) or (9) or the corresponding steps of §1000.44(b), the skim milk or butterfat so transferred, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the receiving plant.

(b) *Transfers and diversions to a plant regulated under another Federal order.* Skim milk or butterfat transferred or diverted in the form of a fluid milk

product or transferred in the form of a bulk fluid cream product from a pool plant to a plant regulated under another Federal order shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from a plant regulated under another Federal order of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b)(1) or (2) of this section:

(1) As Class I milk, if transferred as packaged fluid milk products;

(2) If transferred or diverted in bulk form, classification shall be in the classes to which allocated under the other order:

(i) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers in bulk form shall be classified as other than Class I to the extent that such utilization is available for such classification pursuant to the allocation provisions of the other order;

(ii) If diverted, the diverting handler must request a classification other than Class I. If the plant receiving the diverted milk does not have sufficient utilization available for the requested classification and some of the diverted milk is consequently assigned to Class I use, the diverting handler shall be given the option of designating the entire load of diverted milk as producer milk at the plant physically receiving the milk. Alternatively, if the diverting handler so chooses, it may designate which dairy farmers whose milk was diverted during the month will be designated as producers under the order physically receiving the milk. If the diverting handler declines to accept either of these options, the market administrator will prorate the portion of diverted milk in excess of Class II, III, and IV use among all the dairy farmers whose milk was received from the diverting handler on the last day of the month, then the second-to-last day, and continuing in that fashion until the excess diverted milk has been assigned as producer milk under the receiving order; and

(iii) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be Class I, subject to adjustment when such information is available.

(c) *Transfers and diversions to producer-handlers and to exempt plants.* Skim milk or butterfat that is transferred or diverted from a pool plant to a producer-handler under any Federal order or to an exempt plant shall be classified:

(1) As Class I milk if transferred or diverted to a producer-handler;

(2) As Class I milk if transferred to an exempt plant in the form of a packaged fluid milk product; and

(3) In accordance with the utilization assigned to it by the market administrator if transferred or diverted in the form of a bulk fluid milk product or transferred in the form of a bulk fluid cream product to an exempt plant. For this purpose, the receiving handler's utilization of skim milk and butterfat in each class, in series beginning with Class IV, shall be assigned to the extent possible to its receipts of skim milk and butterfat, in bulk fluid cream products, and bulk fluid milk products, respectively, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not a plant regulated under another order, an exempt plant, or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or transferred in the form of a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraphs (d)(2)(i)(A) and (B) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization, excluding the milk equivalent of both nonfat milk solids and concentrated milk used in the

plant during the month, to its receipts as set forth in paragraphs (d)(2)(ii) through (viii) of this section:

(A) The transferring handler or diverting handler claims such classification in such handler's report of receipts and utilization filed pursuant to § ____.30 of each Federal milk order for the month within which such transaction occurred; and

(B) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(A) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(B) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from plants regulated under other Federal orders;

(C) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(D) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from plants regulated under other Federal orders;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and plants regulated under other Federal orders;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant regulated under any Federal order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the receiving plant, shall be assigned to the extent possible in the following sequence:

§ 1000.43

7 CFR Ch. X (1-1-00 Edition)

(A) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(B) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from plants regulated under other Federal orders;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(A) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(B) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and plants regulated under other Federal orders shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization and then to all other utilization, in sequence beginning with Class IV at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and plants regulated under other Federal orders shall be assigned, pro rata among such plants, to the extent possible to any remaining utilization, in sequence beginning with Class IV at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this paragraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this paragraph.

§ 1000.43 General classification rules.

In determining the classification of producer milk pursuant to § 1000.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports

filed pursuant to § ____ .30 of each Federal milk order and shall compute separately for each pool plant, for each handler described in § 1000.9(c) and § 1135.11 of this chapter, the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1000.40 and 1000.42, and paragraph (b) of this section.

(b) *Shrinkage and Overage.* For purposes of classifying all milk reported by a handler pursuant to § ____ .30 of each Federal milk order the market administrator shall determine the shrinkage or overage of skim milk and butterfat for each pool plant and each handler described in § 1000.9(c) and § 1135.11 of this chapter by subtracting total utilization from total receipts. Any positive difference shall be shrinkage, and any negative difference shall be overage.

(1) Shrinkage incurred by pool plants qualified pursuant to § ____ .7 of any Federal milk order shall be assigned to the lowest-priced class to the extent that such shrinkage does not exceed:

(i) Two percent of the total quantity of milk physically received at the plant directly from producers' farms on the basis of farm weights and tests;

(ii) Plus 1.5 percent of the quantity of bulk milk physically received on a basis other than farm weights and tests, excluding concentrated milk received by agreement for other than Class I use;

(iii) Plus .5 percent of the quantity of milk diverted by the plant operator to another plant on a basis other than farm weights and tests; and

(iv) Minus 1.5 percent of the quantity of bulk milk transferred to other plants, excluding concentrated milk transferred by agreement for other than Class I use.

(2) A handler described in § 1000.9(c) or § 1135.11 of this chapter that delivers milk to plants on a basis other than farm weights and tests shall receive a lowest-priced-class shrinkage allowance of .5 percent of the total quantity of such milk picked up at producers' farms.

(3) Shrinkage in excess of the amounts provided in paragraphs (b)(1) and (2) of this section shall be assigned

to existing utilization in series starting with Class I. The shrinkage assigned pursuant to this paragraph shall be added to the handler's reported utilization and the result shall be known as the *gross utilization in each class*.

(c) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by the handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids.

(d) Skim milk and butterfat contained in receipts of bulk concentrated fluid milk and nonfluid milk products that are reconstituted for fluid use shall be assigned to Class I use, up to the reconstituted portion of labeled reconstituted fluid milk products, on a pro rata basis (except for any Class I use of specific concentrated receipts that is established by the handler) prior to any assignments under §1000.44. Any remaining skim milk and butterfat in concentrated receipts shall be assigned to uses under §1000.44 on a pro rata basis, unless a specific use of such receipts is established by the handler.

§ 1000.44 Classification of producer milk.

For each month the market administrator shall determine for each handler described in §1000.9(a) for each pool plant of the handler separately and for each handler described in §1000.9(c) and §1135.11 of this chapter the classification of producer milk by allocating the handler's receipts of skim milk and butterfat to the handler's gross utilization of such receipts pursuant to §1000.43(b)(3) as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the pounds of skim milk in Class I the pounds of skim milk in:

(i) Receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal order is classified

and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(ii) Packaged fluid milk products in inventory at the beginning of the month. This paragraph shall apply only if the pool plant was subject to the provisions of this paragraph or comparable provisions of another Federal order in the immediately preceding month;

(iii) Fluid milk products received in packaged form from plants regulated under other Federal orders; and

(iv) To the extent that the receipts described in paragraphs (a)(1)(i) through (iii) of this section exceed the gross Class I utilization of skim milk, the excess receipts shall be subtracted pursuant to paragraph (a)(3)(vi) of this section.

(2) Subtract from the pounds of skim milk in Class II the pounds of skim milk in the receipts of skim milk in bulk concentrated fluid milk products and in other source milk (except other source milk received in the form of an unconcentrated fluid milk product or a fluid cream product) that is used to produce, or added to, any product in Class II (excluding the quantity of such skim milk that was classified as Class IV milk pursuant to §1000.40(d)(3)). To the extent that the receipts described in this paragraph exceed the gross Class II utilization of skim milk, the excess receipts shall be subtracted pursuant to paragraph (a)(3)(vi) of this section.

(3) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class IV, the pounds of skim milk in:

(i) Receipts of bulk concentrated fluid milk products and other source milk (except other source milk received in the form of an unconcentrated fluid milk product);

(ii) Receipts of fluid milk products and bulk fluid cream products for which appropriate health approval is not established and from unidentified sources;

(iii) Receipts of fluid milk products and bulk fluid cream products from an exempt plant;

(iv) Fluid milk products and bulk fluid cream products received from a producer-handler as defined under the

§ 1000.44

7 CFR Ch. X (1-1-00 Edition)

order in this part, or any other Federal order;

(v) Receipts of fluid milk products from dairy farmers for other markets; and

(vi) The excess receipts specified in paragraphs (a)(1)(iv) and (a)(2) of this section.

(4) Subtract from the pounds of skim milk remaining in all classes other than Class I, in sequence beginning with Class IV, the receipts of fluid milk products from an unregulated supply plant that were not previously subtracted in this section for which the handler requests classification other than Class I, but not in excess of the pounds of skim milk remaining in these other classes combined.

(5) Subtract from the pounds of skim milk remaining in all classes other than Class I, in sequence beginning with Class IV, receipts of fluid milk products from an unregulated supply plant that were not previously subtracted in this section, and which are in excess of the pounds of skim milk determined pursuant to paragraphs (a)(5)(i) and (ii) of this section;

(i) Multiply by 1.25 the pounds of skim milk remaining in Class I at this allocation step; and

(ii) Subtract from the result in paragraph (a)(5)(i) the pounds of skim milk in receipts of producer milk and fluid milk products from other pool plants.

(6) Subtract from the pounds of skim milk remaining in all classes other than Class I, in sequence beginning with Class IV, the pounds of skim milk in receipts of bulk fluid milk products from a handler regulated under another Federal order that are in excess of bulk fluid milk products transferred or diverted to such handler, if other than Class I classification is requested, but not in excess of the pounds of skim milk remaining in these classes combined.

(7) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class IV, the pounds of skim milk in fluid milk products and bulk fluid cream products in inventory at the beginning of the month that were not previously subtracted in this section.

(8) Subtract from the pounds of skim milk remaining in each class at the

plant receipts of skim milk in fluid milk products from an unregulated supply plant that were not previously subtracted in this section and that were not offset by transfers or diversions of fluid milk products to the unregulated supply plant from which fluid milk products to be allocated at this step were received. Such subtraction shall be pro rata to the pounds of skim milk in Class I and in Classes II, III, and IV combined, with the quantity prorated to Classes II, III, and IV combined being subtracted in sequence beginning with Class IV.

(9) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from a handler regulated under another Federal order that are in excess of bulk fluid milk products transferred or diverted to such handler that were not subtracted in paragraph (a)(6) of this section. Such subtraction shall be pro rata to the pounds of skim milk in Class I and in Classes II, III, and IV combined, with the quantity prorated to Classes II, III, and IV combined being subtracted in sequence beginning with Class IV, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(i) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to §1000.45(a); or

(ii) The total pounds of skim milk remaining in each class at this allocation step.

(10) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant and from a handler described in §1135.11 of this chapter according to the classification of such products pursuant to §1000.42(a).

(11) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class IV.

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section.

Agricultural Marketing Service, USDA

§ 1000.50

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraphs (a) and (b) of this section.

§ 1000.45 Market administrator's reports and announcements concerning classification.

(a) Whenever required for the purpose of allocating receipts from plants regulated under other Federal orders pursuant to § 1000.44(a)(9) and the corresponding step of § 1000.44(b), the market administrator shall estimate and publicly announce the utilization (to the nearest whole percentage) in Class I during the month of skim milk and butterfat, respectively, in producer milk of all handlers. The estimate shall be based upon the most current available data and shall be final for such purpose.

(b) The market administrator shall report to the market administrators of other Federal orders as soon as possible after the handlers' reports of receipts and utilization are received, the class to which receipts from plants regulated under other Federal orders are allocated pursuant to §§ 1000.43(d) and 1000.44 (including any reclassification of inventories of bulk concentrated fluid milk products), and thereafter any change in allocation required to correct errors disclosed on the verification of such report.

(c) The market administrator shall furnish each handler operating a pool plant and each handler described in § 1135.11 of this chapter who has shipped fluid milk products or bulk fluid cream products to a plant fully regulated under another Federal order the class to which the shipments were allocated by the market administrator of the other Federal order on the basis of the report by the receiving handler and, as necessary, any changes in the allocation arising from the verification of such report.

(d) The market administrator shall report to each cooperative association which so requests, the percentage of producer milk delivered by members of the association that was used in each class by each handler receiving the milk. For the purpose of this report,

the milk so received shall be prorated to each class in accordance with the total utilization of producer milk by the handler.

Subpart G—Class Prices

§ 1000.50 Class prices, component prices, and advanced pricing factors.

Class prices per hundredweight of milk containing 3.5 percent butterfat, component prices, and advanced pricing factors shall be as follows. The prices and pricing factors described in paragraphs (a), (b), (c), (e), (f), and (q) of this section shall be based on a weighted average of the most recent 2 weekly prices announced by the National Agricultural Statistical Service (NASS) before the 24th day of the month. These prices shall be announced on or before the 23rd day of the month and shall apply to milk received during the following month. The prices described in paragraphs (g) through (p) of this section shall be based on a weighted average for the preceding month of weekly prices announced by NASS on or before the 5th day of the month and shall apply to milk received during the preceding month. The price described in paragraph (d) of this section shall be derived from the Class II skim milk price announced on or before the 23rd day of the month preceding the month to which it applies and the butterfat price announced on or before the 5th day of the month following the month to which it applies.

(a) *Class I price.* The Class I price per hundredweight, rounded to the nearest cent, shall be .965 times the Class I skim milk price plus 3.5 times the Class I butterfat price.

(b) *Class I skim milk price.* The Class I skim milk price per hundredweight shall be the adjusted Class I differential specified in § 1000.52 plus the higher of the advanced pricing factors computed in paragraph (q)(1) or (2) of this section.

(c) *Class I butterfat price.* The Class I butterfat price per pound shall be the adjusted Class I differential specified in § 1000.52 divided by 100, plus the advanced butterfat price computed in paragraph (q)(3) of this section.

(d) *The Class II price* per hundredweight, rounded to the nearest cent, shall be .965 times the Class II skim milk price plus 3.5 times the Class II butterfat price.

(e) *Class II skim milk price.* The Class II skim milk price per hundredweight shall be the advanced Class IV skim milk price computed in paragraph (q)(2) of this section plus 70 cents.

(f) *Class II nonfat solids price.* The Class II nonfat solids price per pound, rounded to the nearest one-hundredth cent, shall be the Class II skim milk price divided by 9.

(g) *Class II butterfat price.* The Class II butterfat price per pound shall be the butterfat price plus \$.007.

(h) *Class III price.* The Class III price per hundredweight, rounded to the nearest cent, shall be .965 times the Class III skim milk price plus 3.5 times the butterfat price.

(i) *Class III skim milk price.* The Class III skim milk price per hundredweight, rounded to the nearest cent, shall be the protein price per pound times 3.1 plus the other solids price per pound times 5.9.

(j) *Class IV price.* The Class IV price per hundredweight, rounded to the nearest cent, shall be .965 times the Class IV skim milk price plus 3.5 times the butterfat price.

(k) *Class IV skim milk price.* The Class IV skim milk price per hundredweight, rounded to the nearest cent, shall be the nonfat solids price per pound times 9.

(l) *Butterfat price.* The butterfat price per pound, rounded to the nearest one-hundredth cent, shall be the U.S. average NASS AA Butter survey price reported by the Department for the month less 11.4 cents, with the result divided by 0.82.

(m) *Nonfat solids price.* The nonfat solids price per pound, rounded to the nearest one-hundredth cent, shall be the U.S. average NASS nonfat dry milk survey price reported by the Department for the month less 13.7 cents, with the result divided by 1.02.

(n) *Protein price.* The protein price per pound, rounded to the nearest one-hundredth cent, shall be computed as follows:

(1) Compute a weighted average of the amounts described in paragraphs (n)(1)(i) and (ii) of this section:

(i) The U.S. average NASS survey price for 40-lb. block cheese reported by the Department for the month; and

(ii) The U.S. average NASS survey price for 500-pound barrel cheddar cheese (39 percent moisture) reported by the Department for the month plus 3 cents;

(2) Subtract 17.02 cents from the price computed pursuant to paragraph (n)(1) of this section and multiply the result by 1.405;

(3) Add to the amount computed pursuant to paragraph (n)(2) of this section an amount computed as follows:

(i) Subtract 17.02 cents from the price computed pursuant to paragraph (n)(1) of this section and multiply the result by 1.582;

(ii) Subtract the butterfat price computed pursuant to paragraph (l) of this section from the amount computed pursuant to paragraph (n)(3)(i) of this section; and

(iii) Multiply the amount computed pursuant to paragraph (n)(3)(ii) of this section by 1.28.

(o) *Other solids price.* The other solids price per pound, rounded to the nearest one-hundredth cent, shall be the U.S. average NASS dry whey survey price reported by the Department for the month minus 13.7 cents, with the result divided by 0.968.

(p) *Somatic cell adjustment.* The somatic cell adjustment per hundredweight of milk shall be determined as follows:

(1) Multiply .0005 by the weighted average price computed pursuant to paragraph (n)(1) of this section and round to the 5th decimal place;

(2) Subtract the somatic cell count of the milk (reported in thousands) from 350; and

(3) Multiply the amount computed in paragraph (p)(1) of this section by the amount computed in paragraph (p)(2) of this section and round to the nearest full cent.

(q) *Advanced pricing factors.* For the purpose of computing the Class I skim milk price, the Class II skim milk price, the Class II nonfat solids price, and the Class I butterfat price for the following month, the following pricing

Agricultural Marketing Service, USDA

§ 1000.52

factors shall be computed using the weighted average of the 2 most recent NASS U.S. average weekly survey prices announced before the 24th day of the month:

(1) An advanced Class III skim milk price per hundredweight, rounded to the nearest cent, shall be computed as follows:

(i) Following the procedure set forth in paragraphs (n) and (o) of this section, but using the weighted average of the 2 most recent NASS U.S. average weekly survey prices announced before the 24th day of the month, compute a protein price and an other solids price;

(ii) Multiply the protein price computed in paragraph (q)(1)(i) of this section by 3.1;

(iii) Multiply the other solids price per pound computed in paragraph (q)(1)(i) of this section by 5.9; and

(iv) Add the amounts computed in paragraphs (q)(1)(ii) and (iii) of this section.

(2) An advanced Class IV skim milk price per hundredweight, rounded to

the nearest cent, shall be computed as follows:

(i) Following the procedure set forth in paragraph (m) of this section, but using the weighted average of the 2 most recent NASS U.S. average weekly survey prices announced before the 24th day of the month, compute a nonfat solids price; and

(ii) Multiply the nonfat solids price computed in paragraph (q)(2)(i) of this section by 9.

(3) An advanced butterfat price per pound, rounded to the nearest one-hundredth cent, shall be calculated by computing a weighted average of the 2 most recent U.S. average NASS AA Butter survey prices announced before the 24th day of the month, subtracting 11.4 cents from this average, and dividing the result by 0.82.

Agricultural Marketing Service, USDA

§ 1000.76

§ 1000.53 Announcement of class prices, component prices, and advanced pricing factors.

(a) On or before the 5th day of the month, the market administrator for each Federal milk marketing order shall announce the following prices (as applicable to that order) for the preceding month:

- (1) The Class II price;
- (2) The Class II butterfat price;
- (3) The Class III price;
- (4) The Class III skim milk price;
- (5) The Class IV price;
- (6) The Class IV skim milk price;
- (7) The butterfat price;
- (8) The nonfat solids price;
- (9) The protein price;
- (10) The other solids price; and
- (11) The somatic cell adjustment rate.

(b) On or before the 23rd day of the month, the market administrator for each Federal milk marketing order shall announce the following prices and pricing factors for the following month:

- (1) The Class I price;
- (2) The Class I skim milk price;
- (3) The Class I butterfat price;
- (4) The Class II skim milk price;
- (5) The Class II nonfat solids price; and
- (6) The advanced pricing factors described in § 1000.50(q).

§ 1000.54 Equivalent price.

If for any reason a price or pricing constituent required for computing the prices described in § 1000.50 is not available, the market administrator shall use a price or pricing constituent determined by the Deputy Administrator, Dairy Programs, Agricultural Marketing Service, to be equivalent to the price or pricing constituent that is required.

Subpart H—Payments for Milk

§ 1000.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the producer-settlement fund into which the market administrator shall deposit all payments made by handlers pursuant to §§ _____.71, _____.76, and _____.77 of each Federal milk order and out of which the mar-

ket administrator shall make all payments pursuant to §§ _____.72 and _____.77 of each Federal milk order. Payments due any handler shall be offset by any payments due from that handler.

§ 1000.76 Payments by a handler operating a partially regulated distributing plant.

On or before the 25th day after the end of the month (except as provided in § 1000.90), the operator of a partially regulated distributing plant, other than a plant that is subject to marketwide pooling of producer returns under a State government's milk classification and pricing program, shall pay to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section or, if the handler submits the information specified in §§ _____.30(b) and _____.31(b) of the order, the handler may elect to pay the amount computed pursuant to paragraph (b) of this section. A partially regulated distributing plant that is subject to marketwide pooling of producer returns under a State government's milk classification and pricing program shall pay the amount computed pursuant to paragraph (c) of this section.

(a) The payment under this paragraph shall be an amount resulting from the following computations:

(1) From the plant's route disposition in the marketing area:

(i) Subtract receipts of fluid milk products classified as Class I milk from pool plants, plants fully regulated under other Federal orders, and handlers described in § 1000.9(c) and § 1135.11 of this chapter, except those receipts subtracted under a similar provision of another Federal milk order;

(ii) Subtract receipts of fluid milk products from another nonpool plant that is not a plant fully regulated under another Federal order to the extent that an equivalent amount of fluid milk products disposed of to the nonpool plant by handlers fully regulated under any Federal order is classified and priced as Class I milk and is not used as an offset for any payment obligation under any order; and

(iii) Subtract the pounds of reconstituted milk made from nonfluid milk products which are disposed of as route disposition in the marketing area;

(2) For orders with multiple component pricing, compute a Class I differential price by subtracting Class III price from the current month's Class I price. Multiply the pounds remaining after the computation in paragraph (a)(1)(iii) of this section by the amount by which the Class I differential price exceeds the producer price differential, both prices to be applicable at the location of the partially regulated distributing plant except that neither the adjusted Class I differential price nor the adjusted producer price differential shall be less than zero;

(3) For orders with skim milk and butterfat pricing, multiply the remaining pounds by the amount by which the Class I price exceeds the uniform price, both prices to be applicable at the location of the partially regulated distributing plant except that neither the adjusted Class I price nor the adjusted uniform price differential shall be less than the lowest announced class price; and

(4) Unless the payment option described in paragraph (d) is selected, add the amount obtained from multiplying the pounds of labeled reconstituted milk included in paragraph (a)(1)(iii) of this section by any positive difference between the Class I price applicable at the location of the partially regulated distributing plant (less \$1.00 if the reconstituted milk is labeled as such) and the Class IV price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § _____.60 of the order for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the plant from a pool plant, a plant fully regulated under another Federal order, and handlers described in §1000.9(c) and §1135.11 of this chapter shall be allocated at the partially regulated distributing plant to the same class in which

such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or a plant fully regulated under another Federal order shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from the pool plant and plants fully regulated under other Federal orders that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are in Class I and for which a value is computed pursuant to § _____.60 of the order for the partially regulated distributing plant shall be priced at the statistical uniform price or uniform price, whichever is applicable, of the respective order regulating the handling of milk at the receiving plant, with such statistical uniform price or uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest announced class price of the respective order); and

(iii) If the operator of the partially regulated distributing plant so requests, the handler's value of milk determined pursuant to § _____.60 of the order shall include a value of milk determined for each nonpool plant that is not a plant fully regulated under another Federal order which serves as a supply plant for the partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § _____. 7(c) of the order subject to the following conditions:

(A) The operator of the partially regulated distributing plant submits with its reports filed pursuant to §§ _____.30(b) and _____.31(b) of the order similar reports for each such nonpool supply plant;

(B) The operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat received at the plant which are made available if requested by the

market administrator for verification purposes; and

(C) The value of milk determined pursuant to § _____.60 for the unregulated supply plant shall be determined in the same manner prescribed for computing the obligation of the partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments that were made for milk that would have been producer milk had the plant been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of the nonpool supply plant for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another Federal order under which the plant is also a partially regulated distributing plant and, if paragraph (b)(1)(iii) of this section applies, payments made by the operator of the nonpool supply plant to the producer-settlement fund of any order.

(c) The operator of a partially regulated distributing plant that is subject to marketwide pooling of returns under a milk classification and pricing program that is imposed under the authority of a State government shall pay on or before the 25th day after the end of the month (except as provided in §1000.90) to the market administrator for the producer-settlement fund an amount computed as follows:

After completing the computations described in paragraphs (a)(1)(i) and (ii) of this section, determine the value of the remaining pounds of fluid milk products disposed of as route disposition in the marketing area by multiplying the hundredweight of such pounds by the amount, if greater than zero, that remains after subtracting the State program's class prices applicable to such products at the plant's location from the Federal order Class I price applicable at the location of the plant.

(d) Any handler may elect partially regulated distributing plant status for any plant with respect to receipts of nonfluid milk ingredients that are reconstituted for fluid use. Payments may be made to the producer-settlement fund of the order regulating the producer milk used to produce the nonfluid milk ingredients at the positive difference between the Class I price applicable under the other order at the location of the plant where the nonfluid milk ingredients were processed and the Class IV price. This payment option shall apply only if a majority of the total milk received at the plant that processed the nonfluid milk ingredients is regulated under one or more Federal orders and payment may only be made to the producer-settlement fund of the order pricing a plurality of the milk used to produce the nonfluid milk ingredients. This payment option shall not apply if the source of the nonfluid ingredients used in reconstituted fluid milk products cannot be determined by the market administrator.

§ 1000.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts, or other verification discloses errors resulting in money due the market administrator from a handler, or due a handler from the market administrator, or due a producer or cooperative association from a handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments as set forth in the provisions under which the error(s) occurred.

§ 1000.78 Charges on overdue accounts.

Any unpaid obligation due the market administrator, producers, or cooperative associations from a handler pursuant to the provisions of the order shall be increased 1.0 percent each month beginning with the day following the date such obligation was due under the order. Any remaining amount due shall be increased at the same rate on the corresponding day of each succeeding month until paid. The

§ 1000.85

amounts payable pursuant to this section shall be computed monthly on each unpaid obligation and shall include any unpaid charges previously computed pursuant to this section. The late charges shall accrue to the administrative assessment fund. For the purpose of this section, any obligation that was determined at a date later than prescribed by the order because of a handler's failure to submit a report to the market administrator when due shall be considered to have been payable by the date it would have been due if the report had been filed when due.

Subpart I—Administrative Assessment and Marketing Service Deduction

§ 1000.85 Assessment for order administration.

On or before the payment receipt date specified under § _____.71 of each Federal milk order each handler shall pay to the market administrator its pro rata share of the expense of administration of the order at a rate specified by the market administrator that is no more than 5 cents per hundredweight with respect to:

(a) Receipts of producer milk (including the handler's own production) other than such receipts by a handler described in § 1000.9(c) that were delivered to pool plants of other handlers;

(b) Receipts from a handler described in § 1000.9(c);

(c) Receipts of concentrated fluid milk products from unregulated supply plants and receipts of nonfluid milk products assigned to Class I use pursuant to § 1000.43(d) and other source milk allocated to Class I pursuant to § 1000.44(a) (3) and (8) and the corresponding steps of § 1000.44(b), except other source milk that is excluded from the computations pursuant to § _____.60 (d) and (e) of parts 1005, 1006, and 1007 of this chapter or § _____.60 (h) and (i) of parts 1001, 1030, 1032, 1033, 1124, 1126, 1131, and 1135 of this chapter; and

(d) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1000.76(a)(1) (i) and (ii).

7 CFR Ch. X (1-1-00 Edition)

§ 1000.86 Deduction for marketing services.

(a) Except as provided in paragraph (b) of this section, each handler in making payments to producers for milk (other than milk of such handler's own production) pursuant to § _____.73 of each Federal milk order shall deduct an amount specified by the market administrator that is no more than 7 cents per hundredweight and shall pay the amount deducted to the market administrator not later than the payment receipt date specified under § _____.71 of each Federal milk order. The money shall be used by the market administrator to verify or establish weights, samples and tests of producer milk and provide market information for producers who are not receiving such services from a cooperative association. The services shall be performed in whole or in part by the market administrator or an agent engaged by and responsible to the market administrator.

(b) In the case of producers for whom the market administrator has determined that a cooperative association is actually performing the services set forth in paragraph (a) of this section, each handler shall make deductions from the payments to be made to producers as may be authorized by the membership agreement or marketing contract between the cooperative association and the producers. On or before the 15th day after the end of the month (except as provided in § 1000.90), such deductions shall be paid to the cooperative association rendering the services accompanied by a statement showing the amount of any deductions and the amount of milk for which the deduction was computed for each producer. These deductions shall be made in lieu of the deduction specified in paragraph (a) of this section.

(a) Except as provided in paragraph (b) of this section, plant means the land, buildings, facilities, and equipment constituting a single operating unit or establishment at which milk or milk products are received, processed, or packaged, including a facility described in paragraph (b)(2) of this section if the facility receives the milk of more than one dairy farmer.

(b) Plant shall not include:

7 CFR Ch. X (1-1-00 Edition)

(1) A separate building without stationary storage tanks that is used only as a reload point for transferring bulk milk from one tank truck to another or a separate building used only as a distribution point for storing packaged fluid milk products in transit for route disposition;

(2) An on-farm facility operated as part of a single dairy farm entity for the separation of cream and skim milk or the removal of water from milk; or

(3) Bulk reload points where milk is transferred from one tank truck to another while en route from dairy farmers' farms to a plant. If stationary storage tanks are used for transferring milk at the premises, the operator of the facility shall make an advance written request to the market administrator that the facility shall be treated as a reload point. The cooling of milk, collection of samples, and washing and sanitizing of tank trucks at the premises shall not disqualify it as a bulk reload point.

§ 1001.5 Distributing plant.

See § 1000.5.

§ 1001.6 Supply plant.

See § 1000.6.

§ 1001.7 Pool plant.

Pool plant means a plant, unit of plants, or system of plants as specified in paragraphs (a) through (f) of this section, but excluding a plant described in paragraph (h) of this section. The pooling standards described in paragraphs (c) and (f) of this section are subject to modification pursuant to paragraph (g) of this section.

(a) A distributing plant, other than a plant qualified as a pool plant pursuant to paragraph (b) of this section or § _____.7(b) of any other Federal milk order, from which during the month 25 percent or more of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) are disposed of as route disposition or are transferred in the form of packaged fluid milk products to other distributing plants. At least 25 percent of such route disposition and

transfers must be to outlets in the marketing area.

(b) Any distributing plant located in the marketing area which during the month processed at least 25 percent of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) into ultra-pasteurized or aseptically-processed fluid milk products.

(c) A supply plant from which fluid milk products are transferred or diverted to plants described in paragraph (a) or (b) of this section subject to the additional conditions described in this paragraph. In the case of a supply plant operated by a cooperative association handler described in §1000.9(c), fluid milk products that the cooperative delivers to pool plants directly from producers' farms shall be treated as if transferred from the cooperative association's plant for the purpose of meeting the shipping requirements of this paragraph.

(1) During the months of August and December, such shipments must equal not less than 10 percent of the total quantity of milk that is received at the plant or diverted from it pursuant to §1001.13 during the month;

(2) During the months of September through November, such shipments must equal not less than 20 percent of the total quantity of milk that is received at the plant or diverted from it pursuant to §1001.13 during the month;

(3) A plant which meets the shipping requirements of this paragraph during each of the months of August through December shall be a pool plant during the following months of January through July unless the milk received at the plant fails to meet the requirements of a duly constituted regulatory agency, the plant fails to meet a shipping requirement instituted pursuant to paragraph (f) of this section, or the plant operator requests nonpool status for the plant. The shipping requirement for any plant which has not met the requirements of paragraphs (c)(1) and (c)(2) of this section must equal not less than 10 percent of the total quantity of milk that is received at the plant or diverted from it pursuant to §1001.13 during each of the months of

January through July in order for the plant to be a pool plant in each of those months;

(4) If milk is delivered directly from producers' farms that are located outside of the states included in the marketing area or outside Maine or West Virginia, such producers must be grouped by state into reporting units and each reporting unit must independently meet the shipping requirements of this paragraph; and

(5) Concentrated milk transferred from the supply plant to a distributing plant for an agreed-upon use other than Class I shall be excluded from the supply plant's shipments in computing the percentages in paragraphs (c)(1) and (2) of this section.

(d) [Reserved]

(e) Two or more plants that are located in the marketing area and operated by the same handler may qualify as a unit by meeting the total and in-area route distribution requirements specified in paragraph (a) of this section subject to the following additional requirements:

(1) At least one of the plants in the unit qualifies as a pool plant pursuant to paragraph (a) of this section;

(2) Other plants in the unit must process only Class I or Class II products and must be located in a pricing zone providing the same or a lower Class I price than the price applicable at the distributing plant included in the unit; and

(3) A written request to form a unit, or to add or remove plants from a unit, or to cancel a unit, must be filed with the market administrator prior to the first day of the month for which unit formation is to be effective.

(f) Two or more supply plants operated by the same handler, or by one or more cooperative associations, may qualify for pooling as a system of plants by meeting the applicable percentage requirements of paragraph (c) of this section in the same manner as a single plant subject to the following additional requirements:

(1) A supply plant system will be effective for the period of August 1 through July 31 of the following year. Written notification must be given to the market administrator listing the plants to be included in the system

§ 1001.7

7 CFR Ch. X (1-1-00 Edition)

prior to the first day of July preceding the effective date of the system. The plants included in the system shall be listed in the sequence in which they shall qualify for pool plant status based on the minimum deliveries required. If the deliveries made are insufficient to qualify the entire system for pooling, the last listed plant shall be excluded from the system, followed by the plant next-to-last on the list, and continuing in this sequence until remaining listed plants have met the minimum shipping requirements; and

(2) Each plant that qualifies as a pool plant within a system shall continue each month as a plant in the system through the following July unless the plant subsequently fails to qualify for pooling, the handler submits a written notification to the market administrator prior to the first day of the month that the plant be deleted from the system, or that the system be discontinued. Any plant that has been so deleted from the system, or that has failed to qualify as a pool plant in any month, will not be part of the system for the remaining months through July. For any system that qualifies in August, no plant may be added in any subsequent month through the following July unless the plant replaces another plant in the system that has ceased operations and the market administrator is notified of such replacement prior to the first day of the month for which it is to be effective.

(g) The applicable shipping percentages of paragraphs (c) and (f) of this section may be increased or decreased by the market administrator if the market administrator finds that such adjustment is necessary to encourage needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator shall investigate the need for adjustment either on the market administrator's own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be appropriate, the market administrator shall issue a notice stating that an adjustment is being considered and invite

data, views and arguments. Any decision to revise an applicable shipping percentage must be issued in writing at least one day before the effective date.

(h) The term pool plant shall not apply to the following plants:

(1) A producer-handler plant;

(2) An exempt plant as defined in §1000.8(e);

(3) A plant qualified pursuant to paragraph (a) of this section that is located within the marketing area if the plant also meets the pooling requirements of another Federal order and more than 50 percent of its route distribution has been in such other Federal order marketing area for 3 consecutive months;

(4) A plant qualified pursuant to paragraph (a) of this section which is not located within any Federal order marketing area that meets the pooling requirements of another Federal order and has had greater route disposition in such other Federal order's marketing area for 3 consecutive months;

(5) A plant qualified pursuant to paragraph (a) of this section that is located in another Federal order marketing area if the plant meets the pooling requirements of such other Federal order and does not have a majority of its route distribution in this marketing area for 3 consecutive months or if the plant is required to be regulated under such other Federal order without regard to its route disposition in any other Federal order marketing area;

(6) A plant qualified pursuant to paragraph (c) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated under the other Federal order than are made to plants regulated under the order in this part, or the plant has automatic pooling status under the other Federal order; and

(7) That portion of a pool plant designated as a "nonpool plant" that is physically separate and operated separately from the pool portion of such plant. The designation of a portion of a regulated plant as a nonpool plant must be requested in writing by the handler and must be approved by the market administrator.

§ 1001.10 Producer-handler.

Producer-handler means a person who:

(a) Operates a dairy farm and a distributing plant from which there is monthly route disposition in the marketing area during the month;

(b) Receives milk solely from own farm production or receives milk that is fully subject to the pricing and pooling provisions of this or any other Federal order;

(c) Receives at its plant or acquires for route disposition no more than 150,000 pounds of fluid milk products from handlers fully regulated under any Federal order. This limitation shall not apply if the producer-handler's own farm production is less than 150,000 pounds during the month;

(d) Disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products; and

(e) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary to produce all Class I milk handled (excluding receipts from handlers fully regulated under any Federal order) and the processing and packaging operations are the producer-handler's own enterprise and at its own risk.

§ 1001.11 [Reserved]

§ 1001.12 Producer.

(a) Except as provided in paragraph (b) of this section, *producer* means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk (or components of milk) is:

(1) Received at a pool plant directly from the producer or diverted by the plant operator in accordance with § 1001.13; or

(2) Received by a handler described in § 1000.9(c).

(b) Producer shall not include a dairy farmer described in paragraphs (b)(1) through (6) of this section. A dairy

farmer described in paragraphs (b)(5) or (6) of this section shall be known as a *dairy farmer for other markets*.

(1) A producer-handler as defined in any Federal order;

(2) A dairy farmer whose milk is received at an exempt plant, excluding producer milk diverted to the exempt plant pursuant to § 1001.13(d);

(3) A dairy farmer whose milk is received by diversion at a pool plant from a handler regulated under another Federal order if the other Federal order designates the dairy farmer as a producer under that order and that milk is allocated by request to a utilization other than Class I;

(4) A dairy farmer whose milk is reported as diverted to a plant fully regulated under another Federal order with respect to that portion of the milk so diverted that is assigned to Class I under the provisions of such other order;

(5) For any month of December through June, any dairy farmer whose milk is received at a pool plant or by a cooperative association handler described in § 1000.9(c) if the pool plant operator or the cooperative association caused milk from the same farm to be delivered to any plant as other than producer milk, as defined under the order in this part or any other Federal milk order, during the same month, either of the 2 preceding months, or during any of the preceding months of July through November; and

(6) For any month of July through November, any dairy farmer whose milk is received at a pool plant or by a cooperative association handler described in § 1000.9(c) if the pool plant operator or the cooperative association caused milk from the same farm to be delivered to any plant as other than producer milk, as defined under the order in this part or any other Federal milk order, during the same month.

§ 1001.13 Producer milk.

Producer milk means the skim milk (or the skim equivalent of components of skim milk) and butterfat contained in milk of a producer that is:

(a) Received by the operator of a pool plant directly from a producer or from a handler described in § 1000.9(c). Any

§ 1001.14

milk which is picked up from the producer's farm in a tank truck under the control of the operator of a pool plant or a handler described in §1000.9(c) but which is not received at a plant until the following month shall be considered as having been received by the handler during the month in which it is picked up at the farm. All milk received pursuant to this paragraph shall be priced at the location of the plant where it is first physically received;

(b) Received by the operator of a pool plant or a handler described in §1000.9(c) in excess of the quantity delivered to pool plants subject to the following conditions:

(1) The producers whose farms are outside of the states included in the marketing area and outside the states of Maine or West Virginia shall be organized into state units and each such unit shall be reported separately; and

(2) For pooling purposes, each reporting unit must satisfy the shipping standards specified for a supply plant pursuant to §1001.7(c);

(c) Diverted by a proprietary pool plant operator to another pool plant. Milk so diverted shall be priced at the location of the plant to which diverted; or

(d) Diverted by the operator of a pool plant or by a handler described in §1000.9(c) to a nonpool plant, subject to the following conditions:

(1) Milk of a dairy farmer shall not be eligible for diversion unless milk of such dairy farmer was physically received as producer milk at a pool plant and the dairy farmer has continuously retained producer status since that time. If a dairy farmer loses producer status under the order in this part (except as a result of a temporary loss of Grade A approval), the dairy farmer's milk shall not be eligible for diversion until milk of the dairy farmer has been physically received as producer milk at a pool plant; and

(2) Diverted milk shall be priced at the location of the plant to which diverted.

HANDLER REPORTS

§ 1001.30 Reports of receipts and utilization.

Each handler shall report monthly so that the market administrator's office receives the report on or before the 9th day after the end of the month, in the detail and on prescribed forms, as follows:

(a) Each pool plant operator shall report for each of its operations the following information:

(1) Product pounds, pounds of butterfat, pounds of protein, and pounds of nonfat solids other than protein (other solids) contained in or represented by:

(i) Receipts of producer milk, including producer milk diverted by the reporting handler, from sources other than handlers described in §1000.9(c); and

(ii) Receipts of milk from handlers described in §1000.9(c);

(2) Product pounds and pounds of butterfat contained in:

(i) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(ii) Receipts of other source milk; and

(iii) Inventories at the beginning and end of the month of fluid milk products and bulk fluid cream products;

(3) The utilization or disposition of all milk and milk products required to be reported pursuant to this paragraph; and

(4) Such other information with respect to the receipts and utilization of skim milk, butterfat, milk protein, and other nonfat solids as the market administrator may prescribe.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for

Agricultural Marketing Service, USDA

§ 1001.60

reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. The report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in §1000.9(c) shall report:

(1) The product pounds, pounds of butterfat, pounds of protein, and the pounds of solids-not-fat other than protein (other solids) contained in receipts of milk from producers; and

(2) The utilization or disposition of such receipts.

(d) Each handler not specified in paragraph (a) or (b) of this section shall report with respect to its receipts and utilization of milk and milk products in such manner as the market administrator may prescribe.

§ 1001.31 Payroll reports.

(a) On or before the 22nd day after the end of each month, each handler that operates a pool plant pursuant to §1001.7 and each handler described in §1000.9(c) shall report to the market administrator its producer payroll for the month, in detail prescribed by the market administrator, showing for each producer the information specified in §1001.73(e).

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to §1000.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1001.32 Other reports.

In addition to the reports required pursuant to §§1001.30 and 1001.31, each handler shall report any information the market administrator deems necessary to verify or establish each handler's obligation under the order.

PRODUCER PRICE DIFFERENTIAL

§ 1001.60 Handler's value of milk.

For the purpose of computing a handler's obligation for producer milk, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants and of each handler described in §1000.9(c) with respect to milk that was not received at a pool plant by adding the amounts computed in paragraphs (a) through (h) of this section and subtracting from

that total amount the value computed in paragraph (i) of this section. Unless otherwise specified, the skim milk, butterfat, and the combined pounds of skim milk and butterfat referred to in this section shall result from the steps set forth in §1000.44(a), (b), and (c), respectively, and the nonfat components of producer milk in each class shall be based upon the proportion of such components in producer skim milk. Receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another Federal order under §1000.76(a)(4) or (d) shall be excluded from pricing under this section.

(a) Class I value. (1) Multiply the pounds of skim milk in Class I by the Class I skim milk price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class I by the Class I butterfat price.

(b) Class II value. (1) Multiply the pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class II times the Class II butterfat price.

(c) Class III value. (1) Multiply the pounds of protein in Class III skim milk by the protein price;

(2) Add an amount obtained by multiplying the pounds of other solids in Class III skim milk by the other solids price; and

(3) Add an amount obtained by multiplying the pounds of butterfat in Class III by the butterfat price.

(d) Class IV value. (1) Multiply the pounds of nonfat solids in Class IV skim milk by the nonfat solids price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class IV by the butterfat price.

(e) Multiply the pounds of skim milk and butterfat overage assigned to each class pursuant to §1000.44(a)(11) and the corresponding step of §1000.44(b) by the skim milk prices and butterfat prices applicable to each class.

(f) Multiply the difference between the current month's Class I, II, or III price, as the case may be, and the Class IV price for the preceding month by the hundredweight of skim milk and

butterfat subtracted from Class I, II, or III, respectively, pursuant to §1000.44(a)(7) and the corresponding step of §1000.44(b);

(g) Multiply the difference between the Class I price applicable at the location of the pool plant and the Class IV price by the hundredweight of skim milk and butterfat assigned to Class I pursuant to §1000.43(d) and the hundredweight of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(3)(i) through (vi) and the corresponding step of §1000.44(b), excluding receipts of bulk fluid cream products from a plant regulated under other Federal orders and bulk concentrated fluid milk products from pool plants, plants regulated under other Federal orders, and unregulated supply plants.

(h) Multiply the difference between the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received and the Class III price by the pounds of skim milk and butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to §1000.43(d) and §1000.44(a)(3)(i) and the corresponding step of §1000.44(b) and the pounds of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(8) and the corresponding step of §1000.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

(i) For reconstituted milk made from receipts of nonfluid milk products, multiply \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class IV price) by the hundredweight of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to §1000.43(d).

Agricultural Marketing Service, USDA

§ 1001.71

§ 1001.61 Computation of producer price differential.

For each month, the market administrator shall compute a producer price differential per hundredweight. The report of any handler who has not made payments required pursuant to § 1001.71 for the preceding month shall not be included in the computation of the producer price differential, and such handler's report shall not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations. Subject to the conditions in this paragraph, the market administrator shall compute the producer price differential in the following manner:

(a) Combine into one total the values computed pursuant to § 1001.60 for all handlers required to file reports prescribed in § 1001.30;

(b) Subtract the total of the values obtained by multiplying each handler's total pounds of protein, other solids, and butterfat contained in the milk for which an obligation was computed pursuant to § 1001.60 by the protein price, other solids price, and the butterfat price, respectively;

(c) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to § 1001.75;

(d) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(e) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1001.60(h); and

(f) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (e) of this section. The result, rounded to the nearest cent, shall be known as the *producer price differential* for the month.

§ 1001.62 Announcement of producer prices.

On or before the 13th day after the end of the month, the market adminis-

trator shall announce the following prices and information:

(a) The producer price differential;

(b) The protein price;

(c) The nonfat solids price;

(d) The other solids price;

(e) The butterfat price;

(f) The average butterfat, protein, nonfat solids, and other solids content of producer milk; and

(g) The statistical uniform price for milk containing 3.5 percent butterfat computed by combining the Class III price and the producer price differential.

PAYMENTS FOR MILK

§ 1001.70 Producer-settlement fund.

See § 1000.70.

§ 1001.71 Payments to the producer-settlement fund.

Each handler shall make payment to the producer-settlement fund in a manner that provides receipt of the funds by the market administrator no later than the 15th day after the end of the month (except as provided in § 1000.90). Payment shall be the amount, if any, by which the amount specified in paragraph (a) of this section exceeds the amount specified in paragraph (b) of this section:

(a) The total value of milk to the handler for the month as determined pursuant to § 1001.60.

(b) The sum of:

(1) An amount obtained by multiplying the total hundredweight of producer milk as determined pursuant to § 1000.44(c) by the producer price differential as adjusted pursuant to § 1001.75;

(2) An amount obtained by multiplying the total pounds of protein, other solids, and butterfat contained in producer milk by the protein, other solids, and butterfat prices respectively; and

(3) An amount obtained by multiplying the pounds of skim milk and butterfat for which a value was computed pursuant to § 1001.60(h) by the producer price differential as adjusted pursuant to § 1001.75 for the location of the plant from which received.

§ 1001.72

7 CFR Ch. X (1-1-00 Edition)

§ 1001.72 Payments from the producer-settlement fund.

No later than the 16th day after the end of each month (except as provided in §1000.90), the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to §1001.71(b) exceeds the amount computed pursuant to §1001.71(a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete the payments as soon as the funds are available.

§ 1001.73 Payments to producers and to cooperative associations.

(a) Each pool plant operator that is not paying a cooperative association for producer milk shall pay each producer as follows:

(1) *Partial payment.* For each producer who has not discontinued shipments as of the 23rd day of the month, payment shall be made so that it is received by the producer on or before the 26th day of the month (except as provided in §1000.90) for milk received during the first 15 days of the month at not less than the lowest announced class price for the preceding month, less proper deductions authorized in writing by the producer.

(2) *Final payment.* For milk received during the month, payment shall be made so that it is received by each producer no later than the day after the payment date required in §1001.72 in an amount computed as follows:

(i) Multiply the hundredweight of producer milk received by the producer price differential for the month as adjusted pursuant to §1001.75;

(ii) Multiply the pounds of butterfat received by the butterfat price for the month;

(iii) Multiply the pounds of protein received by the protein price for the month;

(iv) Multiply the pounds of other solids received by the other solids price for the month; and

(v) Add the amounts computed in paragraphs (a)(2)(i) through (iv) of this section, and from that sum:

(A) Subtract the partial payment made pursuant to paragraph (a)(1) of this section;

(B) Subtract the deduction for marketing services pursuant to §1000.86;

(C) Add or subtract for errors made in previous payments to the producer; and

(D) Subtract proper deductions authorized in writing by the producer.

(b) One day before partial and final payments are due pursuant to paragraph (a) of this section, each pool plant operator shall pay a cooperative association for milk received as follows:

(1) *Partial payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk (including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk) received during the first 15 days of the month from a cooperative association in any capacity, except as the operator of a pool plant, the payment shall be equal to the hundredweight of milk received multiplied by the lowest announced class price for the preceding month.

(2) *Partial payment to a cooperative association for milk transferred from its pool plant.* For bulk milk/skimmed milk products received during the first 15 days of the month from a cooperative association in its capacity as the operator of a pool plant, the partial payment shall be at the pool plant operator's estimated use value of the milk using the most recent class prices available at the receiving plant's location.

(3) *Final payment to a cooperative association for milk transferred from its pool plant.* Following the classification of bulk fluid milk products and bulk fluid cream products received during the month from a cooperative association in its capacity as the operator of a pool plant, the final payment for such receipts shall be determined as follows:

(i) Multiply the hundredweight of Class I skim milk by the Class I skim milk price for the month at the receiving plant;

(ii) Multiply the pounds of Class I butterfat by the Class I butterfat price for the month at the receiving plant;

(iii) Multiply the pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price;

(iv) Multiply the pounds of butterfat in Class II times the Class II butterfat price;

(v) Multiply the pounds of nonfat solids in Class IV milk by the nonfat solids price for the month;

(vi) Multiply the pounds of butterfat in Class III and IV milk by the butterfat price for the month;

(vii) Multiply the pounds of protein in Class III milk by the protein price for the month;

(viii) Multiply the pounds of other solids in Class III milk by the other solids price for the month; and

(ix) Add together the amounts computed in paragraphs (b)(3)(i) through (viii) of this section and from that sum deduct any payment made pursuant to paragraph (b)(2) of this section.

(4) *Final payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk received from a cooperative association during the month, including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk, the final payment for such milk shall be an amount equal to the sum of the individual payments otherwise payable for such milk pursuant to paragraph (a)(2) of this section.

(c) If a handler has not received full payment from the market administrator pursuant to §1001.72 by the payment date specified in paragraph (a) or (b) of this section, the handler may reduce payments pursuant to paragraphs (a) and (b) of this section, but by not more than the amount of the underpayment. The payments shall be completed on the next scheduled payment date after receipt of the balance due from the market administrator.

(d) If a handler claims that a required payment to a producer cannot be made because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in exist-

ence, the payment shall be made to the producer-settlement fund, and in the event that the handler subsequently locates and pays the producer or a lawful claimant, or in the event that the handler no longer exists and a lawful claim is later established, the market administrator shall make the required payment from the producer-settlement fund to the handler or to the lawful claimant as the case may be.

(e) In making payments to producers pursuant to this section, each pool plant operator shall furnish each producer, except a producer whose milk was received from a cooperative association handler described in §1000.9(a) or (c), a supporting statement in such form that it may be retained by the recipient which shall show:

(1) The name, address, Grade A identifier assigned by a duly constituted regulatory agency, and the payroll number of the producer;

(2) The month and dates that milk was received from the producer, including the daily and total pounds of milk received;

(3) The total pounds of butterfat, protein, and other solids contained in the producer's milk;

(4) The minimum rate or rates at which payment to the producer is required pursuant to the order in this part;

(5) The rate used in making payment if the rate is other than the applicable minimum rate;

(6) The amount, or rate per hundred-weight, or rate per pound of component, and the nature of each deduction claimed by the handler; and

(7) The net amount of payment to the producer or cooperative association.

§ 1001.74 [Reserved]

§ 1001.75 Plant location adjustments for producer milk and nonpool milk.

For purposes of making payments for producer milk and nonpool milk, a plant location adjustment shall be determined by subtracting the Class I price specified in §1001.51 from the Class I price at the plant's location. The difference, plus or minus as the case may be, shall be used to adjust the payments required pursuant to §§1001.73 and 1000.76.

§ 1005.7 Pool plant.

Pool plant means a plant specified in paragraphs (a) through (d) of this section, or a unit of plants as specified in paragraph (e) of this section, but excluding a plant specified in paragraph (g) of this section. The pooling standards described in paragraphs (c) and (d) of this section are subject to modification pursuant to paragraph (f) of this section:

(a) A distributing plant, other than a plant qualified as a pool plant pursuant to paragraph (b) of this section or § _____.7(b) of any other Federal milk order, from which during the month 50 percent or more of the fluid milk products physically received at such plant (excluding concentrated milk received from another plant by agreement for other than Class I use) are disposed of as route disposition or are transferred in the form of packaged fluid milk products to other distributing plants. At least 25 percent of such route disposition and transfers must be to outlets in the marketing area.

(b) Any distributing plant located in the marketing area which during the month processed at least 50 percent of

the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) into ultra-pasteurized or aseptically-processed fluid milk products.

(c) A supply plant from which 50 percent or more of the total quantity of milk that is physically received during the month from dairy farmers and handlers described in §1000.9(c), including milk that is diverted from the plant, is transferred to pool distributing plants. Concentrated milk transferred from the supply plant to a distributing plant for an agreed-upon use other than Class I shall be excluded from the supply plant's shipments in computing the plant's shipping percentage.

(d) A plant located within the marketing area or in the State of Virginia that is operated by a cooperative association if pool plant status under this paragraph is requested for such plant by the cooperative association and during the month at least 60 percent of the producer milk of members of such cooperative association is delivered directly from farms to pool distributing plants or is transferred to such plants as a fluid milk product (excluding concentrated milk transferred to a distributing plant for an agreed-upon use other than Class I) from the cooperative's plant.

(e) Two or more plants operated by the same handler and that are located within the marketing area may qualify for pool status as a unit by meeting the total and in-area route disposition requirements specified in paragraph (a) of this section and the following additional requirements:

(1) At least one of the plants in the unit must qualify as a pool plant pursuant to paragraph (a) of this section;

(2) Other plants in the unit must process only Class I or Class II products and must be located in a pricing zone providing the same or a lower Class I price than the price applicable at the distributing plant included in the unit pursuant to paragraph (e)(1) of this section; and

(3) A written request to form a unit, or to add or remove plants from a unit, must be filed with the market adminis-

trator prior to the first day of the month for which it is to be effective.

(f) The applicable shipping percentages of paragraphs (c) and (d) of this section may be increased or decreased by the market administrator if the market administrator finds that such adjustment is necessary to encourage needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator shall investigate the need for adjustment either on the market administrator's own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the date for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be appropriate, the market administrator shall issue a notice stating that an adjustment is being considered and invite data, views and arguments. Any decision to revise an applicable shipping percentage must be issued in writing at least one day before the effective date.

(g) The term pool plant shall not apply to the following plants:

(1) A producer-handler plant;

(2) An exempt plant as defined in §1000.8(e);

(3) A plant qualified pursuant to paragraph (a) of this section which is not located within any Federal order marketing area, meets the pooling requirements of another Federal order, and has had greater route disposition in such other Federal order marketing area for 3 consecutive months;

(4) A plant qualified pursuant to paragraph (a) of this section which is located in another Federal order marketing area, meets the pooling standards of the other Federal order, and has not had a majority of its route disposition in this marketing area for 3 consecutive months or is locked into pool status under such other Federal order without regard to its route disposition in any other Federal order marketing area;

(5) A plant qualified pursuant to paragraph (c) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated under such other

Agricultural Marketing Service, USDA

§ 1005.13

order than are made to plants regulated under the order in this part, or such plant has automatic pooling status under such other order; and

(6) That portion of a pool plant designated as a "nonpool plant" that is physically separate and operated separately from the pool portion of such plant. The designation of a portion of a regulated plant as a nonpool plant must be requested in writing by the handler and must be approved by the market administrator.

§ 1005.8 Nonpool plant.

See § 1000.8.

§ 1005.9 Handler.

See § 1000.9.

§ 1005.10 Producer-handler.

Producer-handler means a person who:

(a) Operates a dairy farm and a distributing plant from which there is monthly route disposition in the marketing area;

(b) Receives no fluid milk products, and acquires no fluid milk products for route disposition, from sources other than own farm production;

(c) Disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products received from own farm production; and

(d) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary to produce all Class I milk handled, and the processing and packaging operations are the producer-handler's own enterprise and are operated at the producer-handler's own risk.

§ 1005.11 [Reserved]

§ 1005.12 Producer.

(a) Except as provided in paragraph (b) of this section, *producer* means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk (or components of milk) is:

(1) Received at a pool plant directly from the producer or diverted by the plant operator in accordance with § 1005.13; or

(2) Received by a handler described in § 1000.9(c).

(b) Producer shall not include:

(1) A producer-handler as defined in any Federal order;

(2) A dairy farmer whose milk is received at an exempt plant, excluding producer milk diverted to the exempt plant pursuant to § 1005.13(d);

(3) A dairy farmer whose milk is received by diversion at a pool plant from a handler regulated under another Federal order if the other Federal order designates the dairy farmer as a producer under that order and that milk is allocated by request to a utilization other than Class I; and

(4) A dairy farmer whose milk is reported as diverted to a plant fully regulated under another order with respect to that portion of the milk so diverted that is assigned to Class I under the provisions of such other order.

§ 1005.13 Producer milk.

Producer milk means the skim milk (or the skim equivalent of components of skim milk) and butterfat contained in milk of a producer that is:

(a) Received by the operator of a pool plant directly from a producer or a handler described in § 1000.9(c). All milk received pursuant to this paragraph shall be priced at the location of the plant where it is first physically received;

(b) Received by a handler described in § 1000.9(c) in excess of the quantity delivered to pool plants;

(c) Diverted by a pool plant operator to another pool plant. Milk so diverted shall be priced at the location of the plant to which diverted; or

(d) Diverted by the operator of a pool plant or a handler described in § 1000.9(c) to a nonpool plant, subject to the following conditions:

(1) In any month of July through December, not less than 6 days' production of the producer whose milk is diverted is physically received at a pool plant during the month;

(2) In any month of January through June, not less than 2 days' production of the producer whose milk is diverted is physically received at a pool plant during the month;

§ 1005.14

7 CFR Ch. X (1-1-00 Edition)

(3) The total quantity of milk so diverted during the month by a cooperative association shall not exceed 25 percent during the months of July through November, January, and February, and 40 percent during the months of December and March through June, of the producer milk that the cooperative association caused to be delivered to, and physically received at, pool plants during the month;

(4) The operator of a pool plant that is not a cooperative association may divert any milk that is not under the control of a cooperative association that diverts milk during the month pursuant to paragraph (d) of this section. The total quantity of milk so diverted during the month shall not exceed 25 percent during the months of July through November, January, and February, and 40 percent during the months of December and March through June, of the producer milk physically received at such plant (or such unit of plants in the case of plants that pool as a unit pursuant to §1005.7(d)) during the month, excluding the quantity of producer milk received from a handler described in §1000.9(c);

(5) Any milk diverted in excess of the limits prescribed in paragraphs (d)(3) and (4) of this section shall not be producer milk. If the diverting handler or cooperative association fails to designate the dairy farmers' deliveries that will not be producer milk, no milk diverted by the handler or cooperative association shall be producer milk;

(6) Diverted milk shall be priced at the location of the plant to which diverted; and

(7) The delivery day requirements and the diversion percentages in paragraphs (d)(1) through (4) of this section may be increased or decreased by the market administrator if the market administrator finds that such revision is necessary to assure orderly marketing and efficient handling of milk in the marketing area. Before making such a finding, the market administrator shall investigate the need for the revision either on the market administrator's own initiative or at the request of interested persons. If the investigation shows that a revision might be appropriate, the market ad-

ministrator shall issue a notice stating that the revision is being considered and inviting written data, views, and arguments. Any decision to revise an applicable percentage must be issued in writing at least one day before the effective date.

The report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in §1000.9(c) shall report:

UNIFORM PRICES

§ 1005.60 Handler's value of milk.

For the purpose of computing a handler's obligation for producer milk, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants and of each handler described in §1000.9(c) with respect to milk that was not received at a pool plant by adding the amounts computed in paragraphs (a) through (e) of this section and subtracting from that total amount the value computed in paragraph (f) of this section. Receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another Federal order under §1000.76(a)(4) or (d) shall be excluded from pricing under this section.

(a) Multiply the pounds of skim milk and butterfat in producer milk that were classified in each class pursuant to §1000.44(c) by the applicable skim milk and butterfat prices, and add the resulting amounts;

(b) Multiply the pounds of skim milk and butterfat overage assigned to each class pursuant to §1000.44(a)(11) by the respective skim milk and butterfat prices applicable at the location of the pool plant;

(c) Multiply the difference between the Class IV price for the preceding month and the current month's Class I, II, or III price, as the case may be, by the hundredweight of skim milk and butterfat subtracted from Class I, II, or III, respectively, pursuant to §1000.44(a)(7) and the corresponding step of §1000.44(b);

7 CFR Ch. X (1-1-00 Edition)

(d) Multiply the difference between the Class I price applicable at the location of the pool plant and the Class IV price by the hundredweight of skim milk and butterfat assigned to Class I pursuant to §1000.43(d) and the hundredweight of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(3)(i) through (vi) and the corresponding step of §1000.44(b), excluding receipts of bulk fluid cream products from a plant regulated under other Federal orders and bulk concentrated fluid milk products from pool plants, plants regulated under other Federal orders, and unregulated supply plants;

(e) Multiply the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to §1000.43(d) and §1000.44(a)(3)(i) and the pounds of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(8) and the corresponding step of §1000.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order; and

(f) For reconstituted milk made from receipts of nonfluid milk products, multiply \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class IV price) by the hundredweight of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to §1000.43(d).

§ 1005.61 Computation of uniform prices.

On or before the 11th day of each month, the market administrator shall compute a uniform butterfat price, a uniform skim milk price, and a uniform price for producer milk receipts reported for the prior month. The report of any handler who has not made

Agricultural Marketing Service, USDA

§ 1005.72

payments required pursuant to §1005.71 for the preceding month shall not be included in the computation of these prices, and such handler's report shall not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations.

(a) *Uniform butterfat price.* The uniform butterfat price per pound, rounded to the nearest one-hundredth cent, shall be computed by multiplying the pounds of butterfat in producer milk allocated to each class pursuant to §1000.44(b) by the respective class butterfat prices and dividing the sum of such values by the total pounds of such butterfat.

(b) *Uniform skim milk price.* The uniform skim milk price per hundredweight, rounded to the nearest cent, shall be computed as follows:

(1) Combine into one total the values computed pursuant to §1005.60 for all handlers;

(2) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to §1005.75;

(3) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(4) Subtract the value of the total pounds of butterfat for all handlers. The butterfat value shall be computed by multiplying the pounds of butterfat by the butterfat price computed in paragraph (a) of this section;

(5) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(i) The total skim pounds of producer milk; and

(ii) The total skim pounds for which a value is computed pursuant to §1005.60(e); and

(6) Subtract not less than 4 cents and not more than 5 cents.

(c) *Uniform price.* The uniform price per hundredweight, rounded to the nearest cent, shall be the sum of the following:

(1) Multiply the uniform butterfat price for the month pursuant to paragraph (a) of this section times 3.5 pounds of butterfat; and

(2) Multiply the uniform skim milk price for the month pursuant to para-

graph (b) of this section times 96.5 pounds of skim milk.

§1005.62 Announcement of uniform prices.

On or before the 11th day after the end of the month, the market administrator shall announce the uniform prices for the month computed pursuant to §1005.61.

PAYMENTS FOR MILK

§1005.70 Producer-settlement fund.

See §1000.70.

§1005.71 Payments to the producer-settlement fund.

Each handler shall make a payment to the producer-settlement fund in a manner that provides receipt of the funds by the market administrator no later than the 12th day after the end of the month (except as provided in §1000.90). Payment shall be the amount, if any, by which the amount specified in paragraph (a) of this section exceeds the amount specified in paragraph (b) of this section:

(a) The total value of milk of the handler for the month as determined pursuant to §1005.60; and

(b) The sum of the value at the uniform prices for skim milk and butterfat, adjusted for plant location, of the handler's receipts of producer milk; and the value at the uniform price, as adjusted pursuant to §1005.75, applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to §1005.60(e).

§1005.72 Payments from the producer-settlement fund.

No later than one day after the date of payment receipt required under §1005.71, the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to §1005.71(b) exceeds the amount computed pursuant to §1005.71(a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such

§ 1005.73

7 CFR Ch. X (1-1-00 Edition)

payments and shall complete the payments as soon as the funds are available.

§ 1005.73 Payments to producers and to cooperative associations.

(a) Each pool plant operator that is not paying a cooperative association for producer milk shall pay each producer as follows:

(1) *Partial payment.* For each producer who has not discontinued shipments as of the 23rd day of the month, payment shall be made so that it is received by the producer on or before the 26th day of the month (except as provided in § 1000.90) for milk received during the first 15 days of the month at not less than 90 percent of the preceding month's uniform price, adjusted for plant location pursuant to § 1005.75 and proper deductions authorized in writing by the producer.

(2) *Final payment.* For milk received during the month, a payment computed as follows shall be made so that it is received by each producer one day after the payment date required in § 1005.72:

(i) Multiply the hundredweight of producer skim milk received times the uniform skim milk price for the month;

(ii) Multiply the pounds of butterfat received times the uniform butterfat price for the month;

(iii) Multiply the hundredweight of producer milk received times the plant location adjustment pursuant to § 1005.75; and

(iv) Add the amounts computed in paragraph (a)(2)(i), (ii), and (iii) of this section, and from that sum:

(A) Subtract the partial payment made pursuant to paragraph (a)(1) of this section;

(B) Subtract the deduction for marketing services pursuant to § 1000.86;

(C) Add or subtract for errors made in previous payments to the producer; and

(D) Subtract proper deductions authorized in writing by the producer.

(b) One day before partial and final payments are due pursuant to paragraph (a) of this section, each pool plant operator shall pay a cooperative association for milk received as follows:

(1) *Partial payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk (including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk) received during the first 15 days of the month from a cooperative association in any capacity, except as the operator of a pool plant, the payment shall be equal to the hundredweight of milk received multiplied by 90 percent of the preceding month's uniform price, adjusted for plant location pursuant to § 1005.75.

(2) *Partial payment to a cooperative association for milk transferred from its pool plant.* For bulk fluid milk products and bulk fluid cream products received during the first 15 days of the month from a cooperative association in its capacity as the operator of a pool plant, the partial payment shall be at the pool plant operator's estimated use value of the milk using the most recent class prices available for skim milk and butterfat at the receiving plant's location.

(3) *Final payment to a cooperative association for milk transferred from its pool plant.* For bulk fluid milk products and bulk fluid cream products received during the month from a cooperative association in its capacity as the operator of a pool plant, the final payment shall be the classified value of such milk as determined by multiplying the pounds of skim milk and butterfat assigned to each class pursuant to § 1000.44 by the class prices for the month at the receiving plant's location, and subtracting from this sum the partial payment made pursuant to paragraph (b)(2) of this section.

(4) *Final payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk received from a cooperative association during the month, including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk, the final payment for such milk shall be an amount equal to the sum of the individual payments otherwise payable for

Agricultural Marketing Service, USDA

§ 1005.81

such milk pursuant to paragraph (a)(2) of this section.

(c) If a handler has not received full payment from the market administrator pursuant to §1005.72 by the payment date specified in paragraph (a) or (b) of this section, the handler may reduce payments pursuant to paragraphs (a) and (b) of this section, but by not more than the amount of the underpayment. The payments shall be completed on the next scheduled payment date after receipt of the balance due from the market administrator.

(d) If a handler claims that a required payment to a producer cannot be made because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in existence, the payment shall be made to the producer-settlement fund, and in the event that the handler subsequently locates and pays the producer or a lawful claimant, or in the event that the handler no longer exists and a lawful claim is later established, the market administrator shall make the required payment from the producer-settlement fund to the handler or to the lawful claimant as the case may be.

(e) In making payments to producers pursuant to this section, each pool plant operator shall furnish each producer, except a producer whose milk was received from a cooperative association described in §1000.9(a) or (c), a supporting statement in such form that it may be retained by the recipient which shall show:

(1) The name, address, Grade A identifier assigned by a duly constituted regulatory agency, and the payroll number of the producer;

(2) The month and dates that milk was received from the producer, including the daily and total pounds of milk received;

(3) The total pounds of butterfat in the producer's milk;

(4) The minimum rate or rates at which payment to the producer is required pursuant to the order in this part;

(5) The rate used in making payment if the rate is other than the applicable minimum rate;

(6) The amount, or rate per hundred-weight, and nature of each deduction claimed by the handler; and

(7) The net amount of payment to the producer or cooperative association.

§ 1005.74 [Reserved]

§ 1005.75 Plant location adjustments for producer milk and nonpool milk.

For purposes of making payments for producer milk and nonpool milk, a plant location adjustment shall be determined by subtracting the Class I price specified in §1005.51 from the Class I price at the plant's location. The difference, plus or minus as the case may be, shall be used to adjust the payments required pursuant to §§1005.73 and 1000.76.

MARKETWIDE SERVICE PAYMENTS

§ 1005.80 Transportation credit balancing fund.

The market administrator shall maintain a separate fund known as the *Transportation Credit Balancing Fund* into which shall be deposited the payments made by handlers pursuant to §1005.81 and out of which shall be made the payments due handlers pursuant to §1005.82. Payments due a handler shall be offset against payments due from the handler.

§ 1005.81 Payments to the transportation credit balancing fund.

(a) On or before the 12th day after the end of the month (except as provided in §1000.90), each handler operating a pool plant and each handler specified in §1000.9(c) shall pay to the market administrator a transportation credit balancing fund assessment determined by multiplying the pounds of Class I producer milk assigned pursuant to

§ 1005.82

7 CFR Ch. X (1-1-00 Edition)

§ 1005.44 by \$0.065 per hundredweight or such lesser amount as the market administrator deems necessary to maintain a balance in the fund equal to the total transportation credits disbursed during the prior June-January period. In the event that during any month of the June-January period the fund balance is insufficient to cover the amount of credits that are due, the assessment should be based upon the amount of credits that would have been disbursed had the fund balance been sufficient.

(b) The market administrator shall announce publicly on or before the 5th day of the month (except as provided in § 1000.90) the assessment pursuant to paragraph (a) of this section for the following month.

§ 1005.82 Payments from the transportation credit balancing fund.

(a) Payments from the transportation credit balancing fund to handlers and cooperative associations requesting transportation credits shall be made as follows:

(1) On or before the 13th day (except as provided in § 1000.90) after the end of each of the months of July through December and any other month in which transportation credits are in effect pursuant to paragraph (b) of this section, the market administrator shall pay to each handler that received, and reported pursuant to § 1005.30(a)(5), bulk milk transferred from a plant fully regulated under another Federal order as described in paragraph (c)(1) of this section or that received, and reported pursuant to § 1005.30(a)(6), milk directly from producers' farms as specified in paragraph (c)(2) of this section, a preliminary amount determined pursuant to paragraph (d) of this section to the extent that funds are available in the transportation credit balancing fund. If an insufficient balance exists to pay all of the credits computed pursuant to this section, the market administrator shall distribute the balance available in the transportation credit balancing fund by reducing payments prorata using the percentage derived by dividing the balance in the fund by the total credits that are due for the month. The amount of credits resulting from this initial proration shall be subject to

audit adjustment pursuant to paragraph (a)(2) of this section.

(2) The market administrator shall accept adjusted requests for transportation credits on or before the 20th day of the month following the month for which such credits were requested pursuant to § 1005.32(a). After such date, a preliminary audit will be conducted by the market administrator, who will recalculate any necessary proration of transportation credit payments for the preceding month pursuant to paragraph (a) of this section. Handlers will be promptly notified of an overpayment of credits based upon this final computation and remedial payments to or from the transportation credit balancing fund will be made on or before the next payment date for the following month.

(3) Transportation credits paid pursuant to paragraphs (a)(1) and (2) of this section shall be subject to final verification by the market administrator pursuant to § 1000.77. Adjusted payments to or from the transportation credit balancing fund will remain subject to the final proration established pursuant to paragraph (a)(2) of this section.

(4) In the event that a qualified cooperative association is the responsible party for whose account such milk is received and written documentation of this fact is provided to the market administrator pursuant to § 1005.30(c)(3) prior to the date payment is due, the transportation credits for such milk computed pursuant to this section shall be made to such cooperative association rather than to the operator of the pool plant at which the milk was received.

(b) The market administrator may extend the period during which transportation credits are in effect (i.e., the transportation credit period) to the months of January and June if a written request to do so is received 15 days prior to the beginning of the month for which the request is made and, after conducting an independent investigation, finds that such extension is necessary to assure the market of an adequate supply of milk for fluid use. Before making such a finding, the market administrator shall notify the Director of the Dairy Division and all handlers

in the market that an extension is being considered and invite written data, views, and arguments. Any decision to extend the transportation credit period must be issued in writing prior to the first day of the month for which the extension is to be effective.

(c) Transportation credits shall apply to the following milk:

(1) Bulk milk received from a plant regulated under another Federal order, except Federal Order 1007, and allocated to Class I milk pursuant to § 1000.44(a)(9); and

(2) Bulk milk received directly from the farms of dairy farmers at pool distributing plants subject to the following conditions:

(i) The quantity of such milk that shall be eligible for the transportation credit shall be determined by multiplying the total pounds of milk received from producers meeting the conditions of this paragraph by the lower of:

(A) The marketwide estimated Class I utilization of all handlers for the month pursuant to § 1000.45(a); or

(B) The Class I utilization of all producer milk of the pool plant operator receiving the milk after the computations described in § 1000.44;

(ii) The dairy farmer was not a “producer” under this order during more than 2 of the immediately preceding months of February through May and not more than 50 percent of the production of the dairy farmer during those 2 months, in aggregate, was received as producer milk under this order during those 2 months; and

(iii) The farm on which the milk was produced is not located within the specified marketing area of the order in this part or the marketing area of Federal Order 1007 (7 CFR part 1007).

(d) Transportation credits shall be computed as follows:

(1) The market administrator shall subtract from the pounds of milk described in paragraphs (c)(1) and (2) of this section the pounds of bulk milk transferred from the pool plant receiving the supplemental milk if milk was transferred to a nonpool plant on the same calendar day that the supplemental milk was received. For this purpose, the transferred milk shall be subtracted from the most distant load

of supplemental milk received, and then in sequence with the next most distant load until all of the transfers have been offset.

(2) With respect to the pounds of milk described in paragraph (c)(1) of this section that remain after the computations described in paragraph (d)(1) of this section, the market administrator shall:

(i) Determine the shortest hard-surface highway distance between the shipping plant and the receiving plant;

(ii) Multiply the number of miles so determined by 0.35 cent;

(iii) Subtract the applicable Class I differential in § 1000.52 for the county in which the shipping plant is located from the Class I differential applicable for the county in which the receiving plant is located;

(iv) Subtract any positive difference computed in paragraph (d)(2)(iii) of this section from the amount computed in paragraph (d)(2)(ii) of this section; and

(v) Multiply the remainder computed in paragraph (d)(2)(iv) of this section by the hundredweight of milk described in paragraph (d)(2) of this section.

(3) For the remaining milk described in paragraph (c)(2) of this section after computations described in paragraph (d)(1) of this section, the market administrator shall:

(i) Determine an origination point for each load of milk by locating the nearest city to the last producer’s farm from which milk was picked up for delivery to the receiving pool plant;

(ii) Determine the shortest hard-surface highway distance between the receiving pool plant and the origination point;

(iii) Subtract 85 miles from the mileage so determined;

(iv) Multiply the remaining miles so computed by 0.35 cent;

(v) Subtract the Class I differential specified in § 1000.52 applicable for the county in which the origination point is located from the Class I differential applicable at the receiving pool plant’s location;

(vi) Subtract any positive difference computed in paragraph (d)(3)(v) of this section from the amount computed in paragraph (d)(3)(iv) of this section; and

§ 1005.85

(vii) Multiply the remainder computed in paragraph (d)(3)(vi) of this section by the hundredweight of milk described in paragraph (d)(3) of this section.

DEFINITIONS

§ 1006.2 Florida marketing area.

The marketing area means all the territory within the State of Florida, except the counties of Escambia, Okaloosa, Santa Rosa, and Walton, including all piers, docks and wharves connected therewith and all craft

moored thereat, and all territory occupied by government (municipal, State or Federal) reservations, installations, institutions, or other similar establishments if any part thereof is within any of the listed states or political subdivisions.

See § 1000.3.

§ 1006.4 Plant.

See § 1000.4.

§ 1006.5 Distributing plant.

See § 1000.5.

§ 1006.6 Supply plant.

See § 1000.6.

§ 1006.7 Pool plant.

Pool plant means a plant specified in paragraphs (a) through (d) of this section, or a unit of plants as specified in paragraph (e) of this section, but excluding a plant specified in paragraph (g) of this section. The pooling standards described in paragraphs (c) and (d) of this section are subject to modification pursuant to paragraph (f) of this section:

(a) A distributing plant, other than a plant qualified as a pool plant pursuant to paragraph (b) of this section or § _____.7(b) of any other Federal milk order, from which during the month 50 percent or more of the fluid milk products physically received at such plant (excluding concentrated milk received from another plant by agreement for other than Class I use) are disposed of as route disposition or are transferred in the form of packaged fluid milk products to other distributing plants. At least 25 percent of such route disposition and transfers must be to outlets in the marketing area.

(b) Any distributing plant located in the marketing area which during the month processed at least 50 percent of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) into ultra-pasteurized or aseptically-processed fluid milk products.

(c) A supply plant from which 60 percent or more of the total quantity of

milk that is physically received during the month from dairy farmers and handlers described in § 1000.9(c), including milk that is diverted from the plant, is transferred to pool distributing plants. Concentrated milk transferred from the supply plant to a distributing plant for an agreed-upon use other than Class I shall be excluded from the supply plant's shipments in computing the plant's shipping percentage.

(d) A plant located within the marketing area that is operated by a cooperative association if pool plant status under this paragraph is requested for such plant by the cooperative association and during the month 60 percent of the producer milk of members of such cooperative association is delivered directly from farms to pool distributing plants or is transferred to such plants as a fluid milk product (excluding concentrated milk transferred to a distributing plant for an agreed-upon use other than Class I) from the cooperative's plant.

(e) Two or more plants operated by the same handler and that are located within the marketing area may qualify for pool status as a unit by meeting the total and in-area route disposition requirements specified in paragraph (a) of this section and the following additional requirements:

(1) At least one of the plants in the unit must qualify as a pool plant pursuant to paragraph (a) of this section;

(2) Other plants in the unit must process only Class I or Class II products and must be located in a pricing zone providing the same or a lower Class I price than the price applicable at the distributing plant included in the unit pursuant to paragraph (e)(1) of this section; and

(3) A written request to form a unit, or to add or remove plants from a unit, must be filed with the market administrator prior to the first day of the month for which it is to be effective.

(f) The applicable shipping percentages of paragraphs (c) and (d) of this section may be increased or decreased by the market administrator if the market administrator finds that such adjustment is necessary to encourage needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator

§ 1006.8

shall investigate the need for adjustment either on the market administrator's own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the date for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be appropriate, the market administrator shall issue a notice stating that an adjustment is being considered and invite data, views and arguments. Any decision to revise an applicable shipping percentage must be issued in writing at least one day before the effective date.

(g) The term pool plant shall not apply to the following plants:

(1) A producer-handler plant;

(2) An exempt plant as defined in §1000.8(e);

(3) A plant qualified pursuant to paragraph (a) of this section which is not located within any Federal order marketing area, meets the pooling requirements of another Federal order, and has had greater route disposition in such other Federal order marketing area for 3 consecutive months;

(4) A plant qualified pursuant to paragraph (a) of this section which is located in another Federal order marketing area, meets the pooling standards of the other Federal order, and has not had a majority of its route disposition in this marketing area for 3 consecutive months or is locked into pool status under such other Federal order without regard to its route disposition in any other Federal order marketing area; and

(5) A plant qualified pursuant to paragraph (c) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated under such other order than are made to plants regulated under the order in this part, or such plant has automatic pooling status under such other order.

§ 1006.8 Nonpool plant.

See § 1000.8.

§ 1006.9 Handler.

See § 1000.9.

7 CFR Ch. X (1-1-00 Edition)

§ 1006.10 Producer-handler.

Producer-handler means a person who:

(a) Operates a dairy farm and a distributing plant from which there is monthly route disposition in the marketing area;

(b) Receives no fluid milk products, and acquires no fluid milk products for route disposition, from sources other than own farm production;

(c) Disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products received from own farm production; and

(d) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary to produce all Class I milk handled, and the processing and packaging operations, are the producer-handler's own enterprise and are operated at the producer-handler's own risk.

§ 1006.11 [Reserved]

§ 1006.12 Producer.

(a) Except as provided in paragraph (b) of this section, *producer* means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk (or components of milk) is:

(1) Received at a pool plant directly from the producer or diverted by the plant operator in accordance with § 1006.13; or

(2) Received by a handler described in § 1000.9(c).

(b) Producer shall not include:

(1) A producer-handler as defined in any Federal order;

(2) A dairy farmer whose milk is received at an exempt plant, excluding producer milk diverted to the exempt plant pursuant to § 1006.13(d);

(3) A dairy farmer whose milk is received by diversion at a pool plant from a handler regulated under another Federal order if the other Federal order designates the dairy farmer as a producer under that order and that milk is allocated by request to a utilization other than Class I; and

(4) A dairy farmer whose milk is reported as diverted to a plant fully regulated under another Federal order with

Agricultural Marketing Service, USDA

§ 1006.19

respect to that portion of the milk so diverted that is assigned to Class I under the provisions of such other order.

§ 1006.13 Producer milk.

Producer milk means the skim milk (or the skim equivalent of components of skim milk) and butterfat contained in milk of a producer that is:

(a) Received by the operator of a pool plant directly from a producer or a handler described in § 1000.9(c). All milk received pursuant to this paragraph shall be priced at the location of the plant where it is first physically received;

(b) Received by a handler described in § 1000.9(c) in excess of the quantity delivered to pool plants;

(c) Diverted by a pool plant operator to another pool plant. Milk so diverted shall be priced at the location of the plant to which diverted; or

(d) Diverted by the operator of a pool plant or a handler described in § 1000.9(c) to a nonpool plant, subject to the following conditions:

(1) In any month, not less than 10 days' production of the producer whose milk is diverted is physically received at a pool plant during the month;

(2) The total quantity of milk so diverted during the month by a cooperative association shall not exceed 20 percent during the months of July through November, 25 percent during the months of December through February, and 40 percent during all other months, of the producer milk that the cooperative association caused to be delivered to, and physically received at, pool plants during the month;

(3) The operator of a pool plant that is not a cooperative association may divert any milk that is not under the control of a cooperative association that diverts milk during the month pursuant to paragraph (d) of this section. The total quantity of milk so diverted during the month shall not exceed 20 percent during the months of July through November, 25 percent during the months of December through February, and 40 percent during all other months, of the producer milk physically received at such plant (or such unit of plants in the case of plants that pool as a unit pursuant to

§ 1006.7(d)) during the month, excluding the quantity of producer milk received from a handler described in § 1000.9(c);

(4) Any milk diverted in excess of the limits prescribed in paragraphs (d) (3) and (4) of this section shall not be producer milk. If the diverting handler or cooperative association fails to designate the dairy farmers' deliveries that will not be producer milk, no milk diverted by the handler or cooperative association shall be producer milk;

(5) Diverted milk shall be priced at the location of the plant to which diverted; and

(6) The delivery day requirements and the diversion percentages in paragraphs (d) (1) through (3) of this section may be increased or decreased by the market administrator if the market administrator finds that such revision is necessary to assure orderly marketing and efficient handling of milk in the marketing area. Before making such a finding, the market administrator shall investigate the need for the revision either on the market administrator's own initiative or at the request of interested persons. If the investigation shows that a revision might be appropriate, the market administrator shall issue a notice stating that the revision is being considered and inviting written data, views, and arguments. Any decision to revise an applicable percentage must be issued in writing at least one day before the effective date.

(a) With respect to each of its pool plants, the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the reporting handler, from sources other than handlers described in §1000.9(c);

The report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in §1000.9(c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to §1000.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1006.32 Other reports.

In addition to the reports required pursuant to §§1006.30 and 1006.31, each handler shall report any information the market administrator deems necessary to verify or establish each handler's obligation under the order.

UNIFORM PRICES

§ 1006.60 Handler's value of milk.

For the purpose of computing a handler's obligation for producer milk, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants and of each handler described in §1000.9(c) with respect to milk that was not received at a pool plant by adding the amounts computed in paragraphs (a) through (e) of this section and subtracting from that total amount the value computed in paragraph (f) of this section. Receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another Federal order under §1000.76(a)(4) or (d) shall be excluded from pricing under this section.

(a) Multiply the pounds of skim milk and butterfat in producer milk that were classified in each class pursuant to §1000.44(c) by the applicable skim milk and butterfat prices, and add the resulting amounts;

(b) Multiply the pounds of skim milk and butterfat overage assigned to each class pursuant to §1000.44(a)(11) by the respective skim milk and butterfat prices applicable at the location of the pool plant;

(c) Multiply the difference between the Class IV price for the preceding month and the current month's Class I, II, or III price, as the case may be, by the hundredweight of skim milk and butterfat subtracted from Class I, II, or III, respectively, pursuant to

§1000.44(a)(7) and the corresponding step of §1000.44(b);

(d) Multiply the difference between the Class I price applicable at the location of the pool plant and the Class IV price by the hundredweight of skim milk and butterfat assigned to Class I pursuant to §1000.43(d) and the hundredweight of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(3)(i) through (vi) and the corresponding step of §1000.44(b), excluding receipts of bulk fluid cream products from a plant regulated under other Federal orders and bulk concentrated fluid milk products from pool plants, plants regulated under other Federal orders, and unregulated supply plants;

(e) Multiply the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to §1000.43(d) and §1000.44(a)(3)(i) and the pounds of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(8) and the corresponding step of §1000.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order; and

(f) For reconstituted milk made from receipts of nonfluid milk products, multiply \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class IV price) by the hundredweight of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to §1000.43(d).

§ 1006.61 Computation of uniform prices.

On or before the 11th day of each month, the market administrator shall compute a uniform butterfat price, a uniform skim milk price, and a uniform price for producer milk receipts

§ 1006.62

7 CFR Ch. X (1-1-00 Edition)

reported for the prior month. The report of any handler who has not made payments required pursuant to §1006.71 for the preceding month shall not be included in the computation of these prices, and such handler's report shall not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations.

(a) *Uniform butterfat price.* The uniform butterfat price per pound, rounded to the nearest one-hundredth cent, shall be computed by multiplying the pounds of butterfat in producer milk allocated to each class pursuant to §1000.44(b) by the respective class butterfat prices and dividing the sum of such values by the total pounds of such butterfat.

(b) *Uniform skim milk price.* The uniform skim milk price per hundredweight, rounded to the nearest cent, shall be computed as follows:

(1) Combine into one total the values computed pursuant to §1006.60 for all handlers;

(2) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to §1006.75;

(3) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(4) Subtract the value of the total pounds of butterfat for all handlers. The butterfat value shall be computed by multiplying the pounds of butterfat by the butterfat price computed in paragraph (a) of this section;

(5) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(i) The total skim pounds of producer milk; and

(ii) The total skim pounds for which a value is computed pursuant to §1006.60(e); and

(6) Subtract not less than 4 cents and not more than 5 cents.

(c) *Uniform price.* The uniform price per hundredweight, rounded to the nearest cent, shall be the sum of the following:

(1) Multiply the uniform butterfat price for the month pursuant to paragraph (a) of this section times 3.5 pounds of butterfat; and

(2) Multiply the uniform skim milk price for the month pursuant to paragraph (b) of this section times 96.5 pounds of skim milk.

§ 1006.62 Announcement of uniform prices.

On or before the 11th day after the end of the month, the market administrator shall announce the uniform prices for the month computed pursuant to §1006.61.

PAYMENTS FOR MILK

§ 1006.70 Producer-settlement fund.

See §1000.70.

§ 1006.71 Payments to the producer-settlement fund.

Each handler shall make a payment to the producer-settlement fund in a manner that provides receipt of the funds by the market administrator no later than the 12th day after the end of the month (except as provided in §1000.90). Payment shall be the amount, if any, by which the amount specified in paragraph (a) of this section exceeds the amount specified in paragraph (b) of this section:

(a) The total value of milk of the handler for the month as determined pursuant to §1006.60; and

(b) The sum of the value at the uniform prices for skim milk and butterfat, adjusted for plant location, of the handler's receipts of producer milk; and the value at the uniform price, as adjusted pursuant to §1006.75, applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to §1006.60(e).

§ 1006.72 Payments from the producer-settlement fund.

No later than one day after the date of payment receipt required under §1006.71, the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to §1006.71(b) exceeds the amount computed pursuant to §1006.71(a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such

payments and shall complete the payments as soon as the funds are available.

§ 1006.73 Payments to producers and to cooperative associations.

(a) Each pool plant operator that is not paying a cooperative association for producer milk shall pay each producer as follows:

(1) *Partial payments.* (i) For each producer who has not discontinued shipments as of the 15th day of the month, payment shall be made so that it is received by the producer on or before the 20th day of the month (except as provided in § 1000.90) for milk received during the first 15 days of the month at not less than 85 percent of the preceding month's uniform price, adjusted for plant location pursuant to § 1006.75 and proper deductions authorized in writing by the producer; and

(ii) For each producer who has not discontinued shipments as of the last day of the month, payment shall be made so that it is received by the producer on or before the 5th day of the following month (except as provided in § 1000.90) for milk received from the 16th to the last day of the month at not less than 85 percent of the preceding month's uniform price, adjusted for plant location pursuant to § 1006.75 and proper deductions authorized in writing by the producer.

(2) *Final payment.* For milk received during the month, a payment computed as follows shall be made so that it is received by each producer one day after the payment date required in § 1006.72:

(i) Multiply the hundredweight of producer skim milk received times the uniform skim milk price for the month;

(ii) Multiply the pounds of butterfat received times the uniform butterfat price for the month;

(iii) Multiply the hundredweight of producer milk received times the plant location adjustment pursuant to § 1006.75; and

(iv) Add the amounts computed in paragraphs (a)(2)(i), (ii), and (iii) of this section, and from that sum:

(A) Subtract the partial payments made pursuant to paragraph (a)(1) of this section;

(B) Subtract the deduction for marketing services pursuant to § 1000.86;

(C) Add or subtract for errors made in previous payments to the producer; and

(D) Subtract proper deductions authorized in writing by the producer.

(b) One day before partial and final payments are due pursuant to paragraph (a) of this section, each pool plant operator shall pay a cooperative association for milk received as follows:

(1) *Partial payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk (including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk) received from a cooperative association in any capacity, except as the operator of a pool plant, the payment shall be equal to the hundredweight of milk received multiplied by 90 percent of the preceding month's uniform price, adjusted for plant location pursuant to § 1006.75.

(2) *Partial payment to a cooperative association for milk transferred from its pool plant.* For bulk fluid milk products and bulk fluid cream products received during the first 15 days of the month from a cooperative association in its capacity as the operator of a pool plant, the partial payment shall be at the pool plant operator's estimated use value of the milk using the most recent class prices available for skim milk and butterfat at the receiving plant's location.

(3) *Final payment to a cooperative association for milk transferred from its pool plant.* For bulk fluid milk products and bulk fluid cream products received during the month from a cooperative association in its capacity as the operator of a pool plant, the final payment shall be the classified value of such milk as determined by multiplying the pounds of skim milk and butterfat assigned to each class pursuant to § 1000.44 by the class prices for the month at the receiving plant's location, and subtracting from this sum the partial payment made pursuant to paragraph (b)(2) of this section.

(4) *Final payment to a cooperative association for bulk milk received directly*

§ 1006.74

7 CFR Ch. X (1-1-00 Edition)

from producers' farms. For bulk milk received from a cooperative association during the month, including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk, the final payment for such milk shall be an amount equal to the sum of the individual payments otherwise payable for such milk pursuant to paragraph (a)(2) of this section.

(c) If a handler has not received full payment from the market administrator pursuant to § 1006.72 by the payment date specified in paragraph (a) or (b) of this section, the handler may reduce payments pursuant to paragraphs (a) and (b) of this section, but by not more than the amount of the underpayment. The payments shall be completed on the next scheduled payment date after receipt of the balance due from the market administrator.

(d) If a handler claims that a required payment to a producer cannot be made because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in existence, the payment shall be made to the producer-settlement fund, and in the event that the handler subsequently locates and pays the producer or a lawful claimant, or in the event that the handler no longer exists and a lawful claim is later established, the market administrator shall make the required payment from the producer-settlement fund to the handler or to the lawful claimant as the case may be.

(e) In making payments to producers pursuant to this section, each pool plant operator shall furnish each producer, except a producer whose milk was received from a cooperative association described in § 1000.9(a) or (c), a supporting statement in such form that it may be retained by the recipient which shall show:

(1) The name, address, Grade A identifier assigned by a duly constituted regulatory agency, and the payroll number of the producer;

(2) The month and dates that milk was received from the producer, includ-

ing the daily and total pounds of milk received;

(3) The total pounds of butterfat in the producer's milk;

(4) The minimum rate or rates at which payment to the producer is required pursuant to the order in this part;

(5) The rate used in making payment if the rate is other than the applicable minimum rate;

(6) The amount, or rate per hundred-weight, and nature of each deduction claimed by the handler; and

(7) The net amount of payment to the producer or cooperative association.

§ 1006.74 [Reserved]

§ 1006.75 Plant location adjustments for producer milk and nonpool milk.

For purposes of making payments for producer milk and nonpool milk, a plant location adjustment shall be determined by subtracting the Class I price specified in § 1006.51 from the Class I price at the plant's location. The difference, plus or minus as the case may be, shall be used to adjust the payments required pursuant to §§ 1006.73 and 1000.76.

§ 1007.7 Pool plant.

Pool plant means a plant specified in paragraphs (a) through (d) of this section, or a unit of plants as specified in paragraph (e) of this section, but excluding a plant specified in paragraph (g) of this section. The pooling standards described in paragraphs (c) and (d) of this section are subject to modification pursuant to paragraph (f) of this section:

(a) A distributing plant, other than a plant qualified as a pool plant pursuant to paragraph (b) of this section or § _____.7(b) of any other Federal milk order, from which during the month 50 percent or more of the fluid milk products physically received at such plant (excluding concentrated milk received from another plant by agreement for other than Class I use) are disposed of as route disposition or are transferred in the form of packaged fluid milk products to other distributing plants. At least 25 percent of such route disposition and transfers must be to outlets in the marketing area.

(b) Any distributing plant located in the marketing area which during the month processed at least 50 percent of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) into ultra-pasteurized or aseptically-processed fluid milk products.

(c) A supply plant from which 50 percent or more of the total quantity of milk that is physically received during the month from dairy farmers and handlers described in § 1000.9(c), including milk that is diverted percentage.

(d) A plant located within the marketing area that is operated by a cooperative association if pool plant status under this paragraph is requested for such plant by the cooperative association and during the month at least 60 percent of the producer milk of members of such cooperative association is delivered directly from farms to pool distributing plants or is transferred to such plants as a fluid milk product (excluding concentrated milk transferred to a distributing plant for an agreed-upon use other than Class I) from the cooperative's plant.

(e) Two or more plants operated by the same handler and located within the marketing area may qualify for pool status as a unit by meeting the total and in-area route disposition requirements specified in paragraph (a) of this section and the following additional requirements:

(1) At least one of the plants in the unit must qualify as a pool plant pursuant to paragraph (a) of this section;

(2) Other plants in the unit must process only Class I or Class II products and must be located in a pricing zone providing the same or a lower Class I price than the price applicable at the distributing plant included in the unit pursuant to paragraph (e)(1) of this section; and

(3) A written request to form a unit, or to add or remove plants from a unit, must be filed with the market administrator prior to the first day of the month for which it is to be effective.

(f) The applicable shipping percentages of paragraphs (c) and (d) of this section may be increased or decreased by the market administrator if the market administrator finds that such adjustment is necessary to encourage needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator shall investigate the need for adjustment either on the market administrator's own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the date for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be appropriate, the market administrator shall issue a notice stating that an adjustment is being considered and invite data, views and arguments. Any decision to revise an applicable shipping percentage must be issued in writing at least one day before the effective date.

(g) The term pool plant shall not apply to the following plants:

(1) A producer-handler plant;

(2) An exempt plant as defined in §1000.8(e);

(3) A plant qualified pursuant to paragraph (a) of this section which is not located within any Federal order marketing area, meets the pooling requirements of another Federal order, and has had greater route disposition in such other Federal order marketing area for 3 consecutive months;

(4) A plant qualified pursuant to paragraph (a) of this section which is located in another Federal order marketing area, meets the pooling standards of the other Federal order, and has not had a majority of its route disposition in this marketing area for 3 consecutive months or is locked into pool

status under such other Federal order without regard to its route disposition in any other Federal order marketing area; and

(5) A plant qualified pursuant to paragraph (c) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated under such other order than are made to plants regulated under the order in this part, or such plant has automatic pooling status under such other order.

§ 1007.8 Nonpool plant.

See § 1000.8.

§ 1007.9 Handler.

See § 1000.9.

§ 1007.10 Producer-handler.

Producer-handler means a person who:

(a) Operates a dairy farm and a distributing plant from which there is monthly route disposition in the marketing area;

(b) Receives no fluid milk products, and acquires no fluid milk products for route disposition, from sources other than own farm production;

(c) Disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products received from own farm production; and

(d) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary to produce all Class I milk handled, and the processing and packaging operations, are the producer-handler's own enterprise and are operated at the producer-handler's own risk.

§ 1007.11 [Reserved]

§ 1007.12 Producer.

(a) Except as provided in paragraph (b) of this section, *producer* means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk (or components of milk) is:

(1) Received at a pool plant directly from the producer or diverted by the

§ 1007.13

plant operator in accordance with § 1007.13; or

(2) Received by a handler described in § 1000.9(c).

(b) Producer shall not include:

(1) A producer-handler as defined in any Federal order;

(2) A dairy farmer whose milk is received at an exempt plant, excluding producer milk diverted to the exempt plant pursuant to § 1007.13(d);

(3) A dairy farmer whose milk is received by diversion at a pool plant from a handler regulated under another Federal order if the other Federal order designates the dairy farmer as a producer under that order and that milk is allocated by request to a utilization other than Class I; and

(4) A dairy farmer whose milk is reported as diverted to a plant fully regulated under another Federal order with respect to that portion of the milk so diverted that is assigned to Class I under the provisions of such other order.

§ 1007.13 Producer milk.

Producer milk means the skim milk (or the skim equivalent of components of skim milk) and butterfat contained in milk of a producer that is:

(a) Received by the operator of a pool plant directly from a producer or a handler described in § 1000.9(c). All milk received pursuant to this paragraph shall be priced at the location of the plant where it is first physically received;

(b) Received by a handler described in § 1000.9(c) in excess of the quantity delivered to pool plants;

(c) Diverted by a pool plant operator to another pool plant. Milk so diverted shall be priced at the location of the plant to which diverted; or

(d) Diverted by the operator of a pool plant or a handler described in § 1000.9(c) to a nonpool plant, subject to the following conditions:

(1) In any month of January through June, not less than 4 days' production of the producer whose milk is diverted is physically received at a pool plant during the month;

(2) In any month of July through December, not less than 10 days' production of the producer whose milk is di-

verted is physically received at a pool plant during the month;

(3) The total quantity of milk so diverted during the month by a cooperative association shall not exceed 33 percent during the months of July through December, and 50 percent during the months of January through June, of the producer milk that the cooperative association caused to be delivered to, and physically received at, pool plants during the month;

(4) The operator of a pool plant that is not a cooperative association may divert any milk that is not under the control of a cooperative association that diverts milk during the month pursuant to paragraph (d) of this section. The total quantity of milk so diverted during the month shall not exceed 33 percent during the months of July through December, or 50 percent during the months of January through June, of the producer milk physically received at such plant (or such unit of plants in the case of plants that pool as a unit pursuant to § 1007.7(e)) during the month, excluding the quantity of producer milk received from a handler described in § 1000.9(c);

(5) Any milk diverted in excess of the limits prescribed in paragraphs (d)(3) and (4) of this section shall not be producer milk. If the diverting handler or cooperative association fails to designate the dairy farmers' deliveries that will not be producer milk, no milk diverted by the handler or cooperative association shall be producer milk;

(6) Diverted milk shall be priced at the location of the plant to which diverted; and

(7) The delivery day requirements and the diversion percentages in paragraphs (d)(1) through (4) of this section may be increased or decreased by the market administrator if the market administrator finds that such revision is necessary to assure orderly marketing and efficient handling of milk in the marketing area. Before making such a finding, the market administrator shall investigate the need for the revision either on the market administrator's own initiative or at the request of interested persons. If the investigation shows that a revision might be appropriate, the market administrator shall issue a notice stating

UNIFORM PRICES

§ 1007.60 Handler's value of milk.

For the purpose of computing a handler's obligation for producer milk, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants and of each handler described in §1000.9(c) with respect to milk that was not received at a pool plant by adding the amounts computed in paragraphs (a) through (e) of this section and subtracting from that total amount the value computed in paragraph (f) of this section. Receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another Federal order under §1000.76(a)(4) or (d) shall be excluded from pricing under this section.

(a) Multiply the pounds of skim milk and butterfat in producer milk that were classified in each class pursuant to §1000.44(c) by the applicable skim milk and butterfat prices, and add the resulting amounts;

(b) Multiply the pounds of skim milk and butterfat overage assigned to each class pursuant to §1000.44(a)(11) by the respective skim milk and butterfat prices applicable at the location of the pool plant;

(c) Multiply the difference between the Class IV price for the preceding month and the current month's Class I, II, or III price, as the case may be, by the hundredweight of skim milk and butterfat subtracted from Class I, II, or III, respectively, pursuant to §1000.44(a)(7) and the corresponding step of §1000.44(b);

(d) Multiply the difference between the Class I price applicable at the location of the pool plant and the Class IV price by the hundredweight of skim

milk and butterfat assigned to Class I pursuant to §1000.43(d) and the hundredweight of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(3)(i) through (vi) and the corresponding step of §1000.44(b), excluding receipts of bulk fluid cream products from a plant regulated under other Federal orders and bulk concentrated fluid milk products from pool plants, plants regulated under other Federal orders, and unregulated supply plants;

(e) Multiply the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to §1000.43(d) and §1000.44(a)(3)(i) and the pounds of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(8) and the corresponding step of §1000.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order; and

(f) For reconstituted milk made from receipts of nonfluid milk products, multiply \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class IV price) by the hundredweight of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to §1000.43(d).

§1007.61 Computation of uniform prices.

On or before the 11th day of each month, the market administrator shall compute a uniform butterfat price, a uniform skim milk price, and a uniform price for producer milk receipts reported for the prior month. The report of any handler who has not made payments required pursuant to §1007.71 for the preceding month shall not be included in the computation of these prices, and such handler's report shall

not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations.

(a) *Uniform butterfat price.* The uniform butterfat price per pound, rounded to the nearest one-hundredth cent, shall be computed by multiplying the pounds of butterfat in producer milk allocated to each class pursuant to §1000.44(b) by the respective class butterfat prices and dividing the sum of such values by the total pounds of such butterfat.

(b) *Uniform skim milk price.* The uniform skim milk price per hundredweight, rounded to the nearest cent, shall be computed as follows:

(1) Combine into one total the values computed pursuant to §1007.60 for all handlers;

(2) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to §1007.75;

(3) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(4) Subtract the value of the total pounds of butterfat for all handlers. The butterfat value shall be computed by multiplying the pounds of butterfat by the butterfat price computed in paragraph (a) of this section;

(5) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(i) The total skim pounds of producer milk; and

(ii) The total skim pounds for which a value is computed pursuant to §1007.60(e); and

(6) Subtract not less than 4 cents and not more than 5 cents.

(c) *Uniform price.* The uniform price per hundredweight, rounded to the nearest cent, shall be the sum of the following:

(1) Multiply the uniform butterfat price for the month pursuant to paragraph (a) of this section times 3.5 pounds of butterfat; and

(2) Multiply the uniform skim milk price for the month pursuant to paragraph (b) of this section times 96.5 pounds of skim milk.

§ 1007.62 Announcement of uniform prices.

On or before the 11th day after the end of the month, the market administrator shall announce the uniform prices for the month computed pursuant to § 1007.61.

PAYMENTS FOR MILK

§ 1007.70 Producer-settlement fund.

See § 1000.70.

§ 1007.71 Payments to the producer-settlement fund.

Each handler shall make a payment to the producer-settlement fund in a manner that provides receipt of the funds by the market administrator no later than the 12th day after the end of the month (except as provided in § 1000.90). Payment shall be the amount, if any, by which the amount specified in paragraph (a) of this section exceeds the amount specified in paragraph (b) of this section:

(a) The total value of milk of the handler for the month as determined pursuant to § 1007.60; and

(b) The sum of the value at the uniform prices for skim milk and butterfat, adjusted for plant location, of the handler's receipts of producer milk; and the value at the uniform price, as adjusted pursuant to § 1007.75, applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1007.60(e).

§ 1007.72 Payments from the producer-settlement fund.

No later than one day after the date of payment receipt required under § 1007.71, the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1007.71(b) exceeds the amount computed pursuant to § 1007.71(a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete the payments as soon as the funds are available.

§ 1007.73 Payments to producers and to cooperative associations.

(a) Each pool plant operator that is not paying a cooperative association for producer milk shall pay each producer as follows:

(1) *Partial payment.* For each producer who has not discontinued shipments as of the 23rd day of the month, payment shall be made so that it is received by the producer on or before the 26th day of the month (except as provided in § 1000.90) for milk received during the first 15 days of the month at not less than 90 percent of the preceding month's uniform price, adjusted for plant location pursuant to § 1007.75 and proper deductions authorized in writing by the producer.

(2) *Final payment.* For milk received during the month, a payment computed as follows shall be made so that it is received by each producer one day after the payment date required in § 1007.72:

(i) Multiply the hundredweight of producer skim milk received times the uniform skim milk price for the month;

(ii) Multiply the pounds of butterfat received times the uniform butterfat price for the month;

(iii) Multiply the hundredweight of producer milk received times the plant location adjustment pursuant to § 1007.75; and

(iv) Add the amounts computed in paragraph (a)(2)(i), (ii), and (iii) of this section, and from that sum:

(A) Subtract the partial payment made pursuant to paragraph (a)(1) of this section;

(B) Subtract the deduction for marketing services pursuant to § 1000.86;

(C) Add or subtract for errors made in previous payments to the producer; and

(D) Subtract proper deductions authorized in writing by the producer.

(b) One day before partial and final payments are due pursuant to paragraph (a) of this section, each pool plant operator shall pay a cooperative association for milk received as follows:

(1) *Partial payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk (including the milk of producers who

are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk) received during the first 15 days of the month from a cooperative association in any capacity, except as the operator of a pool plant, the payment shall be equal to the hundred-weight of milk received multiplied by 90 percent of the preceding month's uniform price, adjusted for plant location pursuant to § 1007.75.

(2) *Partial payment to a cooperative association for milk transferred from its pool plant.* For bulk fluid milk products and bulk fluid cream products received during the first 15 days of the month from a cooperative association in its capacity as the operator of a pool plant, the partial payment shall be at the pool plant operator's estimated use value of the milk using the most recent class prices available for skim milk and butterfat at the receiving plant's location.

(3) *Final payment to a cooperative association for milk transferred from its pool plant.* For bulk fluid milk products and bulk fluid cream products received during the month from a cooperative association in its capacity as the operator of a pool plant, the final payment shall be the classified value of such milk as determined by multiplying the pounds of skim milk and butterfat assigned to each class pursuant to § 1000.44 by the class prices for the month at the receiving plant's location, and subtracting from this sum the partial payment made pursuant to paragraph (b)(2) of this section.

(4) *Final payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk received from a cooperative association during the month, including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk, the final payment for such milk shall be an amount equal to the sum of the individual payments otherwise payable for such milk pursuant to paragraph (a)(2) of this section.

(c) If a handler has not received full payment from the market administrator pursuant to § 1007.72 by the pay-

ment date specified in paragraph (a) or (b) of this section, the handler may reduce payments pursuant to paragraphs (a) and (b) of this section, but by not more than the amount of the underpayment. The payments shall be completed on the next scheduled payment date after receipt of the balance due from the market administrator.

(d) If a handler claims that a required payment to a producer cannot be made because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in existence, the payment shall be made to the producer-settlement fund, and in the event that the handler subsequently locates and pays the producer or a lawful claimant, or in the event that the handler no longer exists and a lawful claim is later established, the market administrator shall make the required payment from the producer-settlement fund to the handler or to the lawful claimant as the case may be.

(e) In making payments to producers pursuant to this section, each pool plant operator shall furnish each producer, except a producer whose milk was received from a cooperative association described in § 1000.9(a) or (c), a supporting statement in such form that it may be retained by the recipient which shall show:

(1) The name, address, Grade A identifier assigned by a duly constituted regulatory agency, and the payroll number of the producer;

(2) The month and dates that milk was received from the producer, including the daily and total pounds of milk received;

(3) The total pounds of butterfat in the producer's milk;

(4) The minimum rate or rates at which payment to the producer is required pursuant to this order;

(5) The rate used in making payment if the rate is other than the applicable minimum rate;

(6) The amount, or rate per hundred-weight, and nature of each deduction claimed by the handler; and

(7) The net amount of payment to the producer or cooperative association.

§ 1007.74 [Reserved]

§ 1007.75 Plant location adjustments for producer milk and nonpool milk.

For purposes of making payments for producer milk and nonpool milk, a plant location adjustment shall be determined by subtracting the Class I price specified in §1007.51 from the Class I price at the plant's location. The difference, plus or minus as the case may be, shall be used to adjust the payments required pursuant to §§ 1007.73 and 1000.76.

MARKETWIDE SERVICE PAYMENTS

§ 1007.80 Transportation credit balancing fund.

The market administrator shall maintain a separate fund known as the *Transportation Credit Balancing Fund* into which shall be deposited the payments made by handlers pursuant to § 1007.81 and out of which shall be made the payments due handlers pursuant to § 1007.82. Payments due a handler shall be offset against payments due from the handler.

§ 1007.81 Payments to the transportation credit balancing fund.

(a) On or before the 12th day after the end of the month (except as provided in § 1000.90), each handler operating a pool plant and each handler specified in § 1000.9(c) shall pay to the market administrator a transportation credit balancing fund assessment determined by multiplying the pounds of Class I producer milk assigned pursuant to § 1000.44 by \$0.07 per hundredweight or such lesser amount as the market administrator deems necessary to maintain a balance in the fund equal to the total transportation credits disbursed

during the prior June–January period. In the event that during any month of the June–January period the fund balance is insufficient to cover the amount of credits that are due, the assessment should be based upon the amount of credits that would have been disbursed had the fund balance been sufficient.

(b) The market administrator shall announce publicly on or before the 5th day of the month (except as provided in § 1000.90) the assessment pursuant to paragraph (a) of this section for the following month.

§ 1007.82 Payments from the transportation credit balancing fund.

(a) Payments from the transportation credit balancing fund to handlers and cooperative associations requesting transportation credits shall be made as follows:

(1) On or before the 13th day (except as provided in § 1000.90) after the end of each of the months of July through December and any other month in which transportation credits are in effect pursuant to paragraph (b) of this section, the market administrator shall pay to each handler that received, and reported pursuant to § 1007.30(a)(5), bulk milk transferred from a plant fully regulated under another Federal order as described in paragraph (c)(1) of this section or that received, and reported pursuant to § 1007.30(a)(6), milk directly from producers' farms as specified in paragraph (c)(2) of this section, a preliminary amount determined pursuant to paragraph (d) of this section to the extent that funds are available in the transportation credit balancing fund. If an insufficient balance exists to pay all of the credits computed pursuant to this section, the market administrator shall distribute the balance available in the transportation credit balancing fund by reducing payments pro rata using the percentage derived by dividing the balance in the fund by the total credits that are due for the month. The amount of credits resulting from this initial proration shall be subject to audit adjustment pursuant to paragraph (a)(2) of this section;

(2) The market administrator shall accept adjusted requests for transportation credits on or before the 20th day

of the month following the month for which such credits were requested pursuant to §1007.32(a). After such date, a preliminary audit will be conducted by the market administrator, who will recalculate any necessary proration of transportation credit payments for the preceding month pursuant to paragraph (a) of this section. Handlers will be promptly notified of an overpayment of credits based upon this final computation and remedial payments to or from the transportation credit balancing fund will be made on or before the next payment date for the following month;

(3) Transportation credits paid pursuant to paragraphs (a)(1) and (2) of this section shall be subject to final verification by the market administrator pursuant to §1000.77. Adjusted payments to or from the transportation credit balancing fund will remain subject to the final proration established pursuant to paragraph (a)(2) of this section; and

(4) In the event that a qualified cooperative association is the responsible party for whose account such milk is received and written documentation of this fact is provided to the market administrator pursuant to §1007.30(c)(3) prior to the date payment is due, the transportation credits for such milk computed pursuant to this section shall be made to such cooperative association rather than to the operator of the pool plant at which the milk was received.

(b) The market administrator may extend the period during which transportation credits are in effect (i.e., the transportation credit period) to the months of January and June if a written request to do so is received 15 days prior to the beginning of the month for which the request is made and, after conducting an independent investigation, finds that such extension is necessary to assure the market of an adequate supply of milk for fluid use. Before making such a finding, the market administrator shall notify the Director of the Dairy Division and all handlers in the market that an extension is being considered and invite written data, views, and arguments. Any decision to extend the transportation credit period must be issued in writing

prior to the first day of the month for which the extension is to be effective.

(c) Transportation credits shall apply to the following milk:

(1) Bulk milk received from a plant regulated under another Federal order, except Federal Order 1005, and allocated to Class I milk pursuant to §1000.44(a)(9); and

(2) Bulk milk received directly from the farms of dairy farmers at pool distributing plants subject to the following conditions:

(i) The quantity of such milk that shall be eligible for the transportation credit shall be determined by multiplying the total pounds of milk received from producers meeting the conditions of this paragraph by the lower of:

(A) The marketwide estimated Class I utilization of all handlers for the month pursuant to §1000.45(a); or

(B) The Class I utilization of all producer milk of the pool plant operator receiving the milk after the computations described in §1000.44;

(ii) The dairy farmer was not a "producer" under the order in this part during more than 2 of the immediately preceding months of February through May and not more than 50 percent of the production of the dairy farmer during those 2 months, in aggregate, was received as producer milk under the order in this part during those 2 months; and

(iii) The farm on which the milk was produced is not located within the specified marketing area of the order in this part or the marketing area of Federal Order 1005 (7 CFR part 1005).

(d) Transportation credits shall be computed as follows:

(1) The market administrator shall subtract from the pounds of milk described in paragraphs (c)(1) and (2) of this section the pounds of bulk milk transferred from the pool plant receiving the supplemental milk if milk was transferred to a nonpool plant on the same calendar day that the supplemental milk was received. For this purpose, the transferred milk shall be subtracted from the most distant load of supplemental milk received, and then in sequence with the next most distant load until all of the transfers have been offset;

§ 1007.85

(2) With respect to the pounds of milk described in paragraph (c)(1) of this section that remain after the computations described in paragraph (d)(1) of this section, the market administrator shall:

(i) Determine the shortest hard-surface highway distance between the shipping plant and the receiving plant;

(ii) Multiply the number of miles so determined by 0.35 cent;

(iii) Subtract the applicable Class I differential in §1000.52 for the county in which the shipping plant is located from the Class I differential applicable for the county in which the receiving plant is located;

(iv) Subtract any positive difference computed in paragraph (d)(2)(iii) of this section from the amount computed in paragraph (d)(2)(ii) of this section; and

(v) Multiply the remainder computed in paragraph (d)(2)(iv) of this section by the hundredweight of milk described in paragraph (d)(2) of this section.

(3) For the remaining milk described in paragraph (c)(2) of this section after computations described in paragraph (d)(1) of this section, the market administrator shall:

(i) Determine an origination point for each load of milk by locating the nearest city to the last producer's farm from which milk was picked up for delivery to the receiving pool plant;

(ii) Determine the shortest hard-surface highway distance between the receiving pool plant and the origination point;

(iii) Subtract 85 miles from the mileage so determined;

(iv) Multiply the remaining miles so computed by 0.35 cent;

(v) Subtract the Class I differential specified in §1000.52 applicable for the county in which the origination point is located from the Class I differential applicable at the receiving pool plant's location;

(vi) Subtract any positive difference computed in paragraph (d)(3)(v) of this section from the amount computed in paragraph (d)(3)(iv) of this section; and

(vii) Multiply the remainder computed in paragraph (d)(3)(vi) of this section by the hundredweight of milk described in paragraph (d)(3) of this section.

§ 1030.7 Pool plant.

Pool plant means a plant, unit of plants, or system of plants as specified in paragraphs (a) through (f) of this section, but excluding a plant specified in paragraph (h) of this section. The pooling standards described in paragraphs (c) and (f) of this section are subject to modification pursuant to paragraph (g) of this section:

(a) A distributing plant, other than a plant qualified as a pool plant pursuant to paragraph (b) of this section or (§ _____.7b) of any other Federal milk order, from which during the month 15 percent or more of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) are disposed of as route disposition or are transferred in the form of packaged fluid milk products to other distributing plants. At least 25 percent of such route disposition and transfers must be to outlets in the marketing area.

(b) Any distributing plant located in the marketing area which during the month processed at least 15 percent of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) into ultra-pasteurized or aseptically-processed fluid milk products.

(c) A supply plant from which the quantity of bulk fluid milk products shipped to (and physically unloaded into) plants described in paragraph (c)(1) of this section is not less than 10 percent of the Grade A milk received from dairy farmers (except dairy farmers described in §1030.12(b)) and handlers described in §1000.9(c), including milk diverted pursuant to § 1030.13, subject to the following conditions:

(1) Qualifying shipments may be made to plants described in paragraphs (c)(1)(i) through (iv) of this section, except that whenever shipping requirements are increased pursuant to paragraph (g) of this section, only shipments to pool plants described in paragraphs (a), (b), and (e) of this section shall count as qualifying shipments for the purpose of meeting the increased shipments:

(i) Pool plants described in §1030.7(a), (b) and (e);

(ii) Plants of producer-handlers;

(iii) Partially regulated distributing plants, except that credit for such shipments shall be limited to the amount of such milk classified as Class I at the transferee plant; and

(iv) Distributing plants fully regulated under other Federal orders, except that credit for shipments to such plants shall be limited to the quantity shipped to pool distributing plants during the month and credits for shipments to other order plants shall not include any such shipments made on the basis of agreed-upon Class II, Class III, or Class IV utilization.

(2) The operator of a supply plant may include as qualifying shipments under this paragraph milk delivered directly from producers' farms pursuant to §§1000.9(c) or 1030.13(c) to plants described in paragraphs (a), (b), and (e) of this section.

(3) Concentrated milk transferred from the supply plant to a distributing plant for an agreed-upon use other than Class I shall be excluded from the supply plant's shipments in computing the supply plant's shipping percentage.

(d) [Reserved]

(e) Two or more plants operated by the same handler and located in the marketing area may qualify for pool status as a unit by meeting the total and in-area route disposition requirements of a pool distributing plant specified in paragraph (a) of this section and subject to the following additional requirements:

(1) At least one of the plants in the unit must qualify as a pool plant pursuant to paragraph (a) of this section;

(2) Other plants in the unit must process Class I or Class II products, using 50 percent or more of the total Grade A fluid milk products received in

bulk form at such plant or diverted therefrom by the plant operator in Class I or Class II products; and

(3) The operator of the unit has filed a written request with the market administrator prior to the first day of the month for which such status is desired to be effective. The unit shall continue from month-to-month thereafter without further notification. The handler shall notify the market administrator in writing prior to the first day of any month for which termination or any change of the unit is desired.

(f) A system of 2 or more supply plants operated by one or more handlers may qualify for pooling by meeting the shipping requirements of paragraph (c) of this section in the same manner as a single plant subject to the following additional requirements:

(1) Each plant in the system is located within the marketing area or was a pool supply plant pursuant to §1030.7(c) for each of the 3 months immediately preceding the applicability date of this paragraph so long as it continues to maintain pool status. Co-operative associations may not use shipments pursuant to §1000.9(c) to qualify plants located outside the marketing area;

(2) The handler(s) establishing the system submits a written request to the market administrator on or before July 15 requesting that such plants qualify as a system for the period of August through July of the following year. Such request will contain a list of the plants participating in the system in the order, beginning with the last plant, in which the plants will be dropped from the system if the system fails to qualify. Each plant that qualifies as a pool plant within a system shall continue each month as a plant in the system through the following July unless the handler(s) establishing the system submits a written request to the market administrator that the plant be deleted from the system or that the system be discontinued. Any plant that has been so deleted from a system, or that has failed to qualify in any month, will not be part of any system for the remaining months through July. The handler(s) that established a system may add a plant operated by such handler(s) to a system if such

plant has been a pool plant each of the 6 prior months and would otherwise be eligible to be in a system, upon written request to the market administrator no later than the 15th day of the prior month. In the event of an ownership change or the business failure of a handler that is a participant in a system, the system may be reorganized to reflect such changes if a written request to file a new marketing agreement is submitted to the market administrator; and

(3) If a system fails to qualify under the requirements of this paragraph, the handler responsible for qualifying the system shall notify the market administrator which plant or plants will be deleted from the system so that the remaining plants may be pooled as a system. If the handler fails to do so, the market administrator shall exclude one or more plants, beginning at the bottom of the list of plants in the system and continuing up the list as necessary until the deliveries are sufficient to qualify the remaining plants in the system.

(g) The applicable shipping percentages of paragraphs (c) and (f) of this section and the diversion limits described in §1030.13(d)(2) may be increased or decreased, for all or part of the marketing area, by the market administrator if the market administrator finds that such adjustment is necessary to encourage needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator shall investigate the need for adjustment either on the market administrator's own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be appropriate, the market administrator shall issue a notice stating that an adjustment is being considered and invite data, views and arguments. Any decision to revise an applicable shipping or diversion percentage must be issued in writing at least one day before the effective date.

(h) The term pool plant shall not apply to the following plants:

§ 1030.8

(1) A producer-handler as defined under any Federal order;

(2) An exempt plant as defined in § 1000.8(e);

(3) A plant located within the marketing area and qualified pursuant to paragraph (a) of this section which meets the pooling requirements of another Federal order, and from which more than 50 percent of its route disposition has been in the other Federal order marketing area for 3 consecutive months;

(4) A plant located outside any Federal order marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of another Federal order and has had greater route disposition in such other Federal order's marketing area for 3 consecutive months;

(5) A plant located in another Federal order marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of such other Federal order and does not have a majority of its route distribution in this marketing area for 3 consecutive months or if the plant is required to be regulated under such other Federal order without regard to its route disposition in any other Federal order marketing area;

(6) A plant qualified pursuant to paragraph (c) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated under the other Federal order than are made to plants regulated under the order in this part, or the plant has automatic pooling status under the other Federal order; and

(7) That portion of a regulated plant designated as a nonpool plant that is physically separate and operated separately from the pool portion of such plant. The designation of a portion of a regulated plant as a nonpool plant must be requested in advance and in writing by the handler and must be approved by the market administrator.

(i) Any plant that qualifies as a pool plant in each of the immediately preceding 3 months pursuant to paragraph (a) of this section or the shipping percentages in paragraph (c) of this section that is unable to meet such performance standards for the current

7 CFR Ch. X (1-1-00 Edition)

month because of unavoidable circumstances determined by the market administrator to be beyond the control of the handler operating the plant, such as a natural disaster (ice storm, wind storm, flood), fire, breakdown of equipment, or work stoppage, shall be considered to have met the minimum performance standards during the period of such unavoidable circumstances, but such relief shall not be granted for more than 2 consecutive months.

§ 1030.8 Nonpool plant.

See § 1000.8.

§ 1030.9 Handler.

See § 1000.9.

§ 1030.10 Producer-handler.

Producer-handler means a person who:

(a) Operates a dairy farm and a distributing plant from which there is route disposition in the marketing area during the month;

(b) Receives fluid milk from own farm production or milk that is fully subject to the pricing and pooling provisions of the order in this part or any other Federal order;

(c) Receives at its plant or acquires for route disposition no more than 150,000 pounds of fluid milk products from handlers fully regulated under any Federal order. This limitation shall not apply if the producer-handler's own farm production is less than 150,000 pounds during the month;

(d) Disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products; and

(e) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary to produce all Class I milk handled (excluding receipts from handlers fully regulated under any Federal order) and the processing and packaging operations are the producer-handler's own enterprise and at its own risk.

§ 1030.11 [Reserved]

§ 1030.12 Producer.

(a) Except as provided in paragraph (b) of this section, *producer* means any

Agricultural Marketing Service, USDA

§ 1030.30

person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk is:

(1) Received at a pool plant directly from the producer or diverted by the plant operator in accordance with § 1030.13; or

(2) Received by a handler described in § 1000.9(c).

(b) Producer shall not include:

(1) A producer-handler as defined in any Federal order;

(2) A dairy farmer whose milk is received at an exempt plant, excluding producer milk diverted to the exempt plant pursuant to § 1030.13(d);

(3) A dairy farmer whose milk is received by diversion at a pool plant from a handler regulated under another Federal order if the other Federal order designates the dairy farmer as a producer under that order and that milk is allocated by request to a utilization other than Class I; and

(4) A dairy farmer whose milk is reported as diverted to a plant fully regulated under another Federal order with respect to that portion of the milk so diverted that is assigned to Class I under the provisions of such other order.

§ 1030.13 Producer milk.

Producer milk means the skim milk (or the skim equivalent of components of skim milk), including nonfat components, and butterfat in milk of a producer that is:

(a) Received by the operator of a pool plant directly from a producer or a handler described in § 1000.9(c). All milk received pursuant to this paragraph shall be priced at the location of the plant where it is first physically received;

(b) Received by a handler described in § 1000.9(c) in excess of the quantity delivered to pool plants;

(c) Diverted by a pool plant operator to another pool plant. Milk so diverted shall be priced at the location of the plant to which diverted; or

(d) Diverted by the operator of a pool plant or a cooperative association described in § 1000.9(c) to a nonpool plant, subject to the following conditions:

(1) Milk of a dairy farmer shall not be eligible for diversion unless at least

one day's production of such dairy farmer is physically received as producer milk at a pool plant during the first month the dairy farmer is a producer. If a dairy farmer loses producer status under the order in this part (except as a result of a temporary loss of Grade A approval or as a result of the handler of the dairy farmer's milk failing to pool the milk under any order), the dairy farmer's milk shall not be eligible for diversion unless at least one day's production of the dairy farmer has been physically received as producer milk at a pool plant during the first month the dairy farmer is re-associated with the market;

(2) The quantity of milk diverted by a handler described in § 1000.9(c) may not exceed 90 percent of the producer milk receipts reported by the handler pursuant to § 1030.30(c) provided that not less than 10 percent of such receipts are delivered to plants described in § 1030.7(c)(1)(i) through (iii). These percentages are subject to any adjustments that may be made pursuant to § 1030.7(g); and

(3) Diverted milk shall be priced at the location of the plant to which diverted.

HANDLER REPORTS

§ 1030.30 Reports of receipts and utilization.

Each handler shall report monthly so that the market administrator's office receives the report on or before the 9th day after the end of the month, in the

§ 1030.31

7 CFR Ch. X (1-1-00 Edition)

detail and on the prescribed forms, as follows:

(a) Each handler that operates a pool plant shall report for each of its operations the following information:

(1) Product pounds, pounds of butterfat, pounds of protein, pounds of solids-not-fat other than protein (other solids), and the value of the somatic cell adjustment pursuant to §1000.50(p), contained in or represented by:

(i) Receipts of producer milk, including producer milk diverted by the reporting handler, from sources other than handlers described in §1000.9(c); and

(ii) Receipts of milk from handlers described in §1000.9(c);

(2) Product pounds and pounds of butterfat contained in:

(i) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(ii) Receipts of other source milk; and

(iii) Inventories at the beginning and end of the month of fluid milk products and bulk fluid cream products;

(3) The utilization or disposition of all milk and milk products required to be reported pursuant to this paragraph; and

(4) Such other information with respect to the receipts and utilization of skim milk, butterfat, milk protein, other nonfat solids, and somatic cell information, as the market administrator may prescribe.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. The report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in §1000.9(c) shall report:

(1) The product pounds, pounds of butterfat, pounds of protein, pounds of solids-not-fat other than protein (other solids), and the value of the somatic cell adjustment pursuant to §1000.50(p), contained in receipts of milk from producers; and

(2) The utilization or disposition of such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to its receipts and utilization of milk and milk products in such manner as the market administrator may prescribe.

§ 1030.31 Payroll reports.

(a) On or before the 22nd day after the end of each month, each handler that operates a pool plant pursuant to §1030.7 and each handler described in §1000.9(c) shall report to the market administrator its producer payroll for the month, in the detail prescribed by the market administrator, showing for each producer the information described in §1030.73(f).

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to §1000.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1030.32 Other reports.

In addition to the reports required pursuant to §§1030.30 and 1030.31, each handler shall report any information the market administrator deems necessary to verify or establish each handler's obligation under the order.

CLASS PRICES

See § 1000.50.

§ 1030.51 Class I differential and price.

The Class I differential shall be the differential established for Cook County, Illinois, which is reported in § 1000.52. The Class I price shall be the price computed pursuant to § 1000.50(a) for Cook County, Illinois.

§ 1030.52 Adjusted Class I differentials.

See § 1000.54.

§ 1030.55 Transportation credits and assembly credits.

(a) Each handler operating a pool distributing plant described in § 1030.7(a), (b), or (e) that receives bulk milk from another pool plant shall receive a transportation credit for such milk computed as follows:

(1) Determine the hundredweight of milk eligible for the credit by completing the steps in paragraph (c) of this section;

(2) Multiply the hundredweight of milk eligible for the credit by .28 cents times the number of miles between the transferor plant and the transferee plant;

(3) Subtract the effective Class I price at the transferor plant from the effective Class I price at the transferee plant;

(4) Multiply any positive amount resulting from the subtraction in paragraph (a)(3) of this section by the hundredweight of milk eligible for the credit; and

(5) Subtract the amount computed in paragraph (a)(4) of this section from

the amount computed in paragraph (a)(2) of this section. If the amount computed in paragraph (a)(4) of this section exceeds the amount computed in paragraph (a)(2) of this section, the transportation credit shall be zero.

(b) Each handler operating a pool distributing plant described in § 1030.7(a), (b), or (e) that receives milk from dairy farmers, each handler that transfers or diverts bulk milk from a pool plant to a pool distributing plant, and each handler described in § 1000.9(c) that delivers producer milk to a pool distributing plant shall receive an assembly credit on the portion of such milk eligible for the credit pursuant to paragraph (c) of this section. The credit shall be computed by multiplying the hundredweight of milk eligible for the credit by 8 cents.

(c) The following procedure shall be used to determine the amount of milk eligible for transportation and assembly credits pursuant to paragraphs (a) and (b) of this section:

(1) At each pool distributing plant, determine the aggregate quantity of Class I milk, excluding beginning inventory of packaged fluid milk products;

(2) Subtract the quantity of packaged fluid milk products received at the pool distributing plant from other pool plants and from nonpool plants if such receipts are assigned to Class I;

(3) Subtract the quantity of bulk milk shipped from the pool distributing plant to other plants to the extent that such milk is classified as Class I milk;

(4) Subtract the quantity of bulk milk received at the pool distributing plant from other order plants and unregulated supply plants that is assigned to Class I pursuant to §§ 1000.43(d) and 1000.44; and

(5) Assign the remaining quantity pro rata to physical receipts during the month from:

(i) Producers;

(ii) Handlers described in § 1000.9(c); and

(iii) Other pool plants.

(d) For purposes of this section, the distances to be computed shall be determined by the market administrator using the shortest available state and/or Federal highway mileage. Mileage

§ 1030.60

7 CFR Ch. X (1-1-00 Edition)

determinations are subject to redetermination at all times. In the event a handler requests a redetermination of the mileage pertaining to any plant, the market administrator shall notify the handler of such redetermination within 30 days after the receipt of such request. Any financial obligations resulting from a change in mileage shall not be retroactive for any periods prior to the redetermination by the market administrator.

PRODUCER PRICE DIFFERENTIAL

§ 1030.60 Handler's value of milk.

For the purpose of computing a handler's obligation for producer milk, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants and of each handler described in §1000.9(c) with respect to milk that was not received at a pool plant by adding the amounts computed in paragraphs (a) through (i) of this section and subtracting from that total amount the values computed in paragraphs (j) and (k) of this section. Unless otherwise specified, the skim milk, butterfat, and the combined pounds of skim milk and butterfat referred to in this section shall result from the steps set forth in §1000.44(a), (b), and (c), respectively, and the nonfat components of producer milk in each class shall be based upon the proportion of such components in producer skim milk. Receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another Federal order under §1000.76(a)(4) or (d) shall be excluded from pricing under this section.

(a) Class I value. (1) Multiply the pounds of skim milk in Class I by the Class I skim milk price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class I by the Class I butterfat price.

(b) Class II value. (1) Multiply the pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class II times the Class II butterfat price.

(c) Class III value. (1) Multiply the pounds of protein in Class III skim milk by the protein price;

(2) Add an amount obtained by multiplying the pounds of other solids in Class III skim milk by the other solids price; and

(3) Add an amount obtained by multiplying the pounds of butterfat in Class III by the butterfat price.

(d) Class IV value. (1) Multiply the pounds of nonfat solids in Class IV skim milk by the nonfat solids price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class IV by the butterfat price.

(e) Compute an adjustment for the somatic cell content of producer milk by multiplying the values reported pursuant to §1030.30(a)(1) and (c)(1) by the percentage of total producer milk allocated to Class II, Class III, and Class IV pursuant to §1000.44(c);

(f) Multiply the pounds of skim milk and butterfat overage assigned to each class pursuant to §1000.44(a)(11) and the corresponding step of §1000.44(b) by the skim milk prices and butterfat prices applicable to each class.

(g) Multiply the difference between the current month's Class I, II, or III price, as the case may be, and the Class IV price for the preceding month and by the hundredweight of skim milk and butterfat subtracted from Class I, II, or III, respectively, pursuant to §1000.44(a)(7) and the corresponding step of §1000.44(b);

(h) Multiply the difference between the Class I price applicable at the location of the pool plant and the Class IV price by the hundredweight of skim milk and butterfat assigned to Class I pursuant to §1000.43(d) and the hundredweight of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(3)(i) through (vi) and the corresponding step of §1000.44(b), excluding receipts of bulk fluid cream products from plants regulated under other Federal orders and bulk concentrated fluid milk products from pool plants, plants regulated under other Federal orders, and unregulated supply plants.

(i) Multiply the difference between the Class I price applicable at the location of the nearest unregulated supply

plants from which an equivalent volume was received and the Class III price by the pounds of skim milk and butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to § 1000.43(d) and § 1000.44(a)(3)(i) and the corresponding step of § 1000.44(b) and the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1000.44(a)(8) and the corresponding step of § 1000.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

(j) For reconstituted milk made from receipts of nonfluid milk products, multiply \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class IV price) by the hundredweight of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to § 1000.43(d).

(k) Compute the amount of credits applicable pursuant to § 1030.55.

§ 1030.61 Computation of producer price differential.

For each month the market administrator shall compute a producer price differential per hundredweight. The report of any handler who has not made payments required pursuant to § 1030.71 for the preceding month shall not be included in the computation of the producer price differential, and such handler's report shall not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations. Subject to the conditions of this paragraph, the market administrator shall compute the producer price differential in the following manner:

(a) Combine into one total the values computed pursuant to § 1030.60 for all handlers required to file reports prescribed in § 1030.30;

(b) Subtract the total values obtained by multiplying each handler's

total pounds of protein, other solids, and butterfat contained in the milk for which an obligation was computed pursuant to § 1030.60 by the protein price, the other solids price, and the butterfat price, respectively, and the total value of the somatic cell adjustment pursuant to § 1030.30 (a)(1) and (c)(1);

(c) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to § 1030.75;

(d) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(e) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1030.60(i); and

(f) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (e) of this section. The result shall be known as the *producer price differential* for the month.

§ 1030.62 Announcement of producer prices.

On or before the 13th day after the end of each month, the market administrator shall announce publicly the following prices and information:

- (a) The producer price differential;
- (b) The protein price;
- (c) The nonfat solids price;
- (d) The other solids price;
- (e) The butterfat price;
- (f) The somatic cell adjustment rate;
- (g) The average butterfat, nonfat solids, protein and other solids content of producer milk; and

(h) The statistical uniform price for milk containing 3.5 percent butterfat, computed by combining the Class III price and the producer price differential.

PAYMENTS FOR MILK

§ 1030.70 Producer-settlement fund.

See § 1000.70.

§ 1030.71

§ 1030.71 Payments to the producer-settlement fund.

Each handler shall make payment to the producer-settlement fund in a manner that provides receipt of the funds by the market administrator no later than the 15th day after the end of the month (except as provided in § 1000.90). Payment shall be the amount, if any, by which the amount specified in paragraph (a) of this section exceeds the amount specified in paragraph (b) of this section:

(a) The total value of milk to the handler for the month as determined pursuant to § 1030.60.

(b) The sum of:

(1) An amount obtained by multiplying the total hundredweight of producer milk as determined pursuant to § 1000.44(c) by the producer price differential as adjusted pursuant to § 1030.75;

(2) An amount obtained by multiplying the total pounds of protein, other solids, and butterfat contained in producer milk by the protein, other solids, and butterfat prices respectively;

(3) The total value of the somatic cell adjustment to producer milk; and

(4) An amount obtained by multiplying the pounds of skim milk and butterfat for which a value was computed pursuant to § 1030.60(i) by the producer price differential as adjusted pursuant to § 1030.75 for the location of the plant from which received.

§ 1030.72 Payments from the producer-settlement fund.

No later than the 16th day after the end of each month (except as provided in § 1000.90), the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1030.71(b) exceeds the amount computed pursuant to § 1030.71(a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete the payments as soon as the funds are available.

7 CFR Ch. X (1-1-00 Edition)

§ 1030.73 Payments to producers and to cooperative associations.

(a) Each handler shall pay each producer for producer milk for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, as follows:

(1) *Partial payment.* For each producer who has not discontinued shipments as of the date of this partial payment, payment shall be made so that it is received by each producer on or before the 26th day of the month (except as provided in § 1000.90) for milk received during the first 15 days of the month from the producer at not less than the lowest announced class price for the preceding month, less proper deductions authorized in writing by the producer.

(2) *Final payment.* For milk received during the month, payment shall be made so that it is received by each producer no later than the 17th day after the end of the month (except as provided in § 1000.90) in an amount equal to not less than the sum of:

(i) The hundredweight of producer milk received times the producer price differential for the month as adjusted pursuant to § 1030.75;

(ii) The pounds of butterfat received times the butterfat price for the month;

(iii) The pounds of protein received times the protein price for the month;

(iv) The pounds of other solids received times the other solids price for the month;

(v) The hundredweight of milk received times the somatic cell adjustment for the month;

(vi) Less any payment made pursuant to paragraph (a)(1) of this section;

(vii) Less proper deductions authorized in writing by such producer, and plus or minus adjustments for errors in previous payments to such producer subject to approval by the market administrator; and

(viii) Less deductions for marketing services pursuant to § 1000.86.

(b) *Payments for milk received from cooperative association members.* On or before the day prior to the dates specified in paragraphs (a)(1) and (a)(2) of this section (except as provided in § 1000.90), each handler shall pay to a cooperative association for milk from producers

who market their milk through the cooperative association and who have authorized the cooperative to collect such payments on their behalf an amount equal to the sum of the individual payments otherwise payable for such producer milk pursuant to paragraphs (a)(1) and (a)(2) of this section.

(c) *Payment for milk received from cooperative association pool plants or from cooperatives as handlers pursuant to §1000.9(c).* On or before the day prior to the dates specified in paragraphs (a)(1) and (a)(2) of this section (except as provided in §1000.90), each handler who receives fluid milk products at its plant from a cooperative association in its capacity as the operator of a pool plant or who receives milk from a cooperative association in its capacity as a handler pursuant to §1000.9(c), including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk, shall pay the cooperative for such milk as follows:

(1) For bulk fluid milk products and bulk fluid cream products received from a cooperative association in its capacity as the operator of a pool plant and for milk received from a cooperative association in its capacity as a handler pursuant to §1000.9(c) during the first 15 days of the month, at not less than the lowest announced class prices per hundredweight for the preceding month;

(2) For the total quantity of bulk fluid milk products and bulk fluid cream products received from a cooperative association in its capacity as the operator of a pool plant, at not less than the total value of such products received from the association's pool plants, as determined by multiplying the respective quantities assigned to each class under §1000.44, as follows:

(i) The hundredweight of Class I skim milk times the Class I skim milk price for the month plus the pounds of Class I butterfat times the Class I butterfat price for the month. The Class I price to be used shall be that price effective at the location of the receiving plant;

(ii) The pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price;

(iii) The pounds of butterfat in Class II times the Class II butterfat price;

(iv) The pounds of nonfat solids in Class IV times the nonfat solids price;

(v) The pounds of butterfat in Class III and Class IV milk times the butterfat price;

(vi) The pounds of protein in Class III milk times the protein price;

(vii) The pounds of other solids in Class III milk times the other solids price;

(viii) The hundredweight of Class II, Class III, and Class IV milk times the somatic cell adjustment; and

(ix) Add together the amounts computed in paragraphs (c)(2)(i) through (viii) of this section and from that sum deduct any payment made pursuant to paragraph (c)(1) of this section; and

(3) For the total quantity of milk received during the month from a cooperative association in its capacity as a handler under §1000.9(c) as follows:

(i) The hundredweight of producer milk received times the producer price differential as adjusted pursuant to §1030.75;

(ii) The pounds of butterfat received times the butterfat price for the month;

(iii) The pounds of protein received times the protein price for the month;

(iv) The pounds of other solids received times the other solids price for the month;

(v) The hundredweight of milk received times the somatic cell adjustment for the month; and

(vi) Add together the amounts computed in paragraphs (c)(3)(i) through (v) of this section and from that sum deduct any payment made pursuant to paragraph (c)(1) of this section.

(d) If a handler has not received full payment from the market administrator pursuant to §1030.72 by the payment date specified in paragraph (a), (b) or (c) of this section, the handler may reduce pro rata its payments to producers or to the cooperative association (with respect to receipts described in paragraph (b) of this section, prorating the underpayment to the volume of milk received from the cooperative association in proportion to the total milk received from producers by the handler), but not by more than the

§ 1030.74

amount of the underpayment. The payments shall be completed on the next scheduled payment date after receipt of the balance due from the market administrator.

(e) If a handler claims that a required payment to a producer cannot be made because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in existence, the payment shall be made to the producer-settlement fund, and in the event that the handler subsequently locates and pays the producer or a lawful claimant, or in the event that the handler no longer exists and a lawful claim is later established, the market administrator shall make the required payment from the producer-settlement fund to the handler or to the lawful claimant, as the case may be.

(f) In making payments to producers pursuant to this section, each handler shall furnish each producer, except a producer whose milk was received from a cooperative association handler described in §1000.9(a) or (c), a supporting statement in a form that may be retained by the recipient which shall show:

- (1) The name, address, Grade A identifier assigned by a duly constituted regulatory agency, and payroll number of the producer;
- (2) The daily and total pounds, and the month and dates such milk was received from that producer;
- (3) The total pounds of butterfat, protein, and other solids contained in the producer's milk;
- (4) The somatic cell count of the producer's milk;
- (5) The minimum rate or rates at which payment to the producer is required pursuant to the order in this part;
- (6) The rate used in making payment if the rate is other than the applicable minimum rate;
- (7) The amount, or rate per hundred-weight, or rate per pound of component, and the nature of each deduction claimed by the handler; and
- (8) The net amount of payment to the producer or cooperative association.

For purposes of making payments for producer milk and nonpool milk, a plant location adjustment shall be determined by subtracting the Class I price specified in §1030.51 from the Class I price at the plant's location. The difference, plus or minus as the case may be, shall be used to adjust the payments required pursuant to §§ 1030.73 and 1000.76.

§ 1032.7 Pool plant.

Pool plant means a plant, unit of plants, or system of plants as specified in paragraphs (a) through (f) of this section, but excluding a plant specified in paragraph (h) of this section. The pooling standards described in paragraphs (c), (d), and (f) of this section are subject to modification pursuant to paragraph (g) of this section:

(a) A distributing plant, other than a plant qualified as a pool plant pursuant to paragraph (b) of this section or _____.7(b) of any other Federal milk order, from which during the month 25 percent or more of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) are disposed of as route disposition or are transferred in the form of packaged fluid milk products to other distributing plants. At least 25 percent of such route disposition and transfers must be to outlets in the marketing area.

(b) Any distributing plant located in the marketing area which during the month processed at least 25 percent of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) into ultra-pasteurized or aseptically-processed fluid milk products.

(c) A supply plant from which the quantity of bulk fluid milk products transferred or diverted to plants described in paragraph (a) or (b) of this section during each of the months of September through November and January is 35 percent or more of the total Grade A milk received at the plant from dairy farmers (except dairy farmers described in § 1032.12(b)) and handlers described in § 1000.9(c), including milk diverted by the plant operator, and 25 percent for all other months, subject to the following conditions:

(1) A supply plant that has qualified as a pool plant during each of the immediately preceding months of August through April shall continue to so qualify in each of the following months

Agricultural Marketing Service, USDA

§ 1032.7

of May through July, unless the plant operator files a written request with the market administrator that such plant not be a pool plant, such nonpool status to be effective the first month following such request and thereafter until the plant qualifies as a pool plant on the basis of milk shipments;

(2) A pool plant operator may include as qualifying shipments milk diverted to pool distributing plants pursuant to § 1032.13(c);

(3) Concentrated milk transferred from the supply plant to a distributing plant for an agreed-upon use other than Class I shall be excluded from the supply plant's shipments in computing the supply plant's shipping percentage;

(4) The operator of a supply plant may include as qualifying shipments transfers of fluid milk products to distributing plants regulated under any other Federal order, except that credit for such transfers shall be limited to the amount of milk, including milk shipped directly from producers' farms, delivered to distributing plants qualified as pool plants pursuant to paragraph (a) or (b) of this section; and

(5) No plant may qualify as a pool plant due to a reduction in the shipping percentage pursuant to paragraph (g) of this section unless it has been a pool supply plant during each of the immediately preceding 3 months.

(d) A plant located in the marketing area and operated by a cooperative association if, during the month or the immediately preceding 12-month period, 35 percent or more of the producer milk of members of the association (and any producer milk of nonmembers and members of another cooperative association which may be marketed by the cooperative association) is physically received in the form of bulk fluid milk products (excluding concentrated milk transferred to a distributing plant for an agreed-upon use other than Class I) at plants specified in paragraph (a) or (b) of this section either directly from farms or by transfer from supply plants operated by the cooperative association and from plants of the cooperative association for which pool plant status has been requested under this paragraph subject to the following conditions:

(1) The plant does not qualify as a pool plant under paragraph (a), (b) or (c) of this section or under comparable provisions of another Federal order; and

(2) The plant is approved by a duly constituted regulatory agency for the handling of milk approved for fluid consumption in the marketing area.

(e) Two or more plants operated by the same handler and located in the marketing area may qualify for pool status as a unit by meeting the total and in-area route disposition requirements of a pool distributing plant specified in paragraph (a) of this section subject to the following additional requirements:

(1) At least one of the plants in the unit must qualify as a pool plant pursuant to paragraph (a) of this section;

(2) Other plants in the unit must process Class I or Class II products, using 50 percent or more of the total Grade A fluid milk products received in bulk form at such plant or diverted therefrom by the plant operator in Class I or Class II products, and must be located in a pricing zone providing the same or a lower Class I price than the price applicable at the distributing plant included in the unit pursuant to paragraph (e)(1) of this section; and

(3) The operator of the unit has filed a written request with the market administrator prior to the first day of the month for which such status is desired to be effective. The unit shall continue from month to month thereafter without further notification. The handler shall notify the market administrator in writing prior to the first day of any month for which termination or any change of the unit is desired.

(f) A system of supply plants may qualify for pooling if 2 or more plants operated by one or more handlers meet the applicable percentage requirements of paragraph (c) of this section in the same manner as a single plant, subject to the following additional requirements:

(1) Each plant in the system is located within the marketing area;

(2) The handler(s) establishing the system submits a written request to the market administrator on or before September 1 requesting that such

plants qualify as a system for the period of September through August of the following year. Such request will contain a list of the plants participating in the system;

(3) Each plant included within a pool supply plant system shall continue each month as a plant in the system through the following August unless the handler(s) establishing the system submits a written request to the market administrator that the plant be deleted from the system or that the system be discontinued. Any plant that has been so deleted from a system, or that has failed to qualify in any month, will not be part of any system for the remaining months through August. No plant may be added in any subsequent month through the following August to a system that qualifies in September; and

(4) If a system fails to qualify under the requirements of this paragraph, the handler responsible for qualifying the system shall notify the market administrator which plant or plants will be deleted from the system so that the remaining plants may be pooled as a system. If the handler fails to do so, the market administrator shall exclude one or more plants, beginning at the bottom of the list of plants in the system and continuing up the list as necessary until the deliveries are sufficient to qualify the remaining plants in the system.

(g) The applicable shipping percentages of paragraphs (c), (d), and (f) of this section may be increased or decreased, for all or part of the marketing area, by the market administrator if the market administrator finds that such adjustment is necessary to encourage needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator shall investigate the need for adjustment either on the market administrator's own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be appropriate, the market administrator shall issue a notice stating that an adjustment is being considered

and invite data, views and arguments. Any decision to revise an applicable shipping percentage must be issued in writing at least one day before the effective date.

(h) The term pool plant shall not apply to the following plants:

(1) A producer-handler as defined under any Federal order;

(2) An exempt plant as defined in §1000.8(e);

(3) A plant located within the marketing area and qualified pursuant to paragraph (a) of this section which meets the pooling requirements of another Federal order, and from which more than 50 percent of its route disposition has been in the other Federal order marketing area for 3 consecutive months. On the basis of a written application made by the plant operator at least 15 days prior to the date for which a determination of the market administrator is to be effective, the market administrator may determine that the route disposition in the respective marketing areas to be used for purposes of this paragraph shall exclude (for a specified period of time) route disposition made under limited term contracts to governmental bases and institutions;

(4) A plant located outside any Federal order marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of another Federal order and has had greater route disposition in such other Federal order's marketing area for 3 consecutive months;

(5) A plant located in another Federal order marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of such other Federal order and does not have a majority of its route distribution in this marketing area for 3 consecutive months or if the plant is required to be regulated under such other Federal order without regard to its route disposition in any other Federal order marketing area;

(6) A plant qualified pursuant to paragraph (c) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated under the other Federal order than are made to plants

regulated under the order in this part, or the plant has automatic pooling status under the other Federal order; and

(7) That portion of a regulated plant designated as a nonpool plant that is physically separate and operated separately from the pool portion of such plant. The designation of a portion of a regulated plant as a nonpool plant must be requested in advance and in writing by the handler and must be approved by the market administrator.

§ 1032.8 Nonpool plant.

See § 1000.8.

§ 1032.9 Handler.

See § 1000.9.

§ 1032.10 Producer-handler.

Producer-handler means a person who:

(a) Operates a dairy farm and a distributing plant from which there is route disposition in the marketing area during the month;

(b) Receives fluid milk from own farm production or milk that is fully subject to the pricing and pooling provisions of the order in this part or any other Federal order;

(c) Receives at its plant or acquires for route disposition no more than 150,000 pounds of fluid milk products from handlers fully regulated under any Federal order. This limitation shall not apply if the producer-handler's own farm production is less than 150,000 pounds during the month;

(d) Disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products; and

(e) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary to produce all Class I milk handled (excluding receipts from handlers fully regulated under any Federal order) and the processing and packaging operations are the producer-handler's own enterprise and at its own risk.

§ 1032.11 [Reserved]

§ 1032.12 Producer.

(a) Except as provided in paragraph (b) of this section, *producer* means any person who produces milk approved by

a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk (or components of milk) is:

(1) Received at a pool plant directly from the producer or diverted by the plant operator in accordance with § 1032.13; or (2) Received by a handler described in § 1000.9(c).

(b) Producer shall not include:

(1) A producer-handler as defined in any Federal order;

(2) A dairy farmer whose milk is received at an exempt plant, excluding producer milk diverted to the exempt plant pursuant to § 1032.13(d);

(3) A dairy farmer whose milk is received by diversion at a pool plant from a handler regulated under another Federal order if the other Federal order designates the dairy farmer as a producer under that order and that milk is allocated by request to a utilization other than Class I; and

(4) A dairy farmer whose milk is reported as diverted to a plant fully regulated under another Federal order with respect to that portion of the milk so diverted that is assigned to Class I under the provisions of such other order.

§ 1032.13 Producer milk.

Producer milk means the skim milk (or the skim equivalent of components of skim milk), including nonfat components, and butterfat in milk of a producer that is:

(a) Received by the operator of a pool plant directly from a producer or a handler described in § 1000.9(c). All milk received pursuant to this paragraph shall be priced at the location of the plant where it is first physically received;

(b) Received by a handler described in § 1000.9(c) in excess of the quantity delivered to pool plants;

(c) Diverted by a pool plant operator to another pool plant. Milk so diverted shall be priced at the location of the plant to which diverted; or

(d) Diverted by the operator of a pool plant or a cooperative association described in § 1000.9(c) to a nonpool plant, subject to the following conditions:

(1) Milk of a dairy farmer shall not be eligible for diversion until at least one day's production of such dairy farmer

§ 1032.14

has been physically received as producer milk at a pool plant and the dairy farmer has continuously retained producer status since that time. If a dairy farmer loses producer status under the order in this part (except as a result of a temporary loss of Grade A approval), the dairy farmer's milk shall not be eligible for diversion until milk of the dairy farmer has been physically received as producer milk at a pool plant;

(2) Of the quantity of producer milk received during the month (including diversions, but excluding the quantity of producer milk received from a handler described in §1000.9(c)) the handler diverts to nonpool plants not more than 65 percent during the months of September through November and January, and not more than 75 percent during the months of February through April and December;

(3) Diverted milk shall be priced at the location of the plant to which diverted;

(4) Any milk diverted in excess of the limits prescribed in paragraph (d)(2) of this section shall not be producer milk. If the diverting handler or cooperative association fails to designate the dairy farmers' deliveries that are not to be producer milk, no milk diverted by the handler or cooperative association during the month to a nonpool plant shall be producer milk; and

(5) The applicable diversion limits in paragraph (d)(2) of this section may be increased or decreased by the market administrator if the market administrator finds that such revision is necessary to assure orderly marketing and efficient handling of milk in the marketing area. Before making such a finding, the market administrator shall investigate the need for the revision either on the market administrator's own initiative or at the request of interested persons if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that a revision might be appropriate, the market administrator shall issue a notice stating that the revision is being considered and inviting written data, views, and arguments. Any decision to revise an applicable percentage must be issued in

(3) The utilization or disposition of all milk and milk products required to be reported pursuant to this paragraph; and

(4) Such other information with respect to the receipts and utilization of skim milk, butterfat, milk protein, other nonfat solids, and somatic cell information, as the market administrator may prescribe.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. The report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in §1000.9(c) shall report:

(1) The product pounds, pounds of butterfat, pounds of protein, pounds of solids-not-fat other than protein (other solids), and the value of the somatic cell adjustment pursuant to §1000.50(p), contained in receipts of milk from producers; and

(2) The utilization or disposition of such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to its receipts and utilization of milk and milk products in such manner as the market administrator may prescribe.

§ 1032.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler that operates a pool plant pursuant to §1032.7 and each handler described in §1000.9(c) shall report to the market administrator its producer payroll for the month, in the detail prescribed by the market administrator, showing for each producer the information described in §1032.73(f).

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to §1000.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for re-

ports required by paragraph (a) of this section.

§ 1032.32 Other reports.

PRODUCER PRICE DIFFERENTIAL

§ 1032.60 Handler's value of milk.

For the purpose of computing a handler's obligation for producer milk, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants and of each handler described in §1000.9(c) with respect to milk that was not received at a pool plant by adding the amounts computed in paragraphs (a) through (i) of this section and subtracting from that total amount the value computed in paragraph (j) of this section. Unless otherwise specified, the skim milk, butterfat, and the combined pounds of skim milk and butterfat referred to in this section shall result from the steps set forth in §1000.44(a), (b), and (c), respectively, and the nonfat components of producer milk in each class shall be based upon the proportion of such components in producer skim milk. Receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another Federal order under §1000.76(a)(4) or (d) shall be excluded from pricing under this section.

(a) *Class I value.* (1) Multiply the pounds of skim milk in Class I by the Class I skim milk price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class I by the Class I butterfat price.

(b) *Class II value.* (1) Multiply the pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class II times the Class II butterfat price.

(c) *Class III value.* (1) Multiply the pounds of protein in Class III skim milk by the protein price;

(2) Add an amount obtained by multiplying the pounds of other solids in Class III skim milk by the other solids price; and

(3) Add an amount obtained by multiplying the pounds of butterfat in Class III by the butterfat price.

(d) *Class IV value.* (1) Multiply the pounds of nonfat solids in Class IV skim milk by the nonfat solids price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class IV by the butterfat price.

(e) Compute an adjustment for the somatic cell content of producer milk by multiplying the values reported pursuant to §1032.30(a)(1) and (c)(1) by the percentage of total producer milk allocated to Class II, Class III, and Class IV pursuant to §1000.44(c);

(f) Multiply the pounds of skim milk and butterfat overage assigned to each class pursuant to §1000.44(a)(11) and the corresponding step of §1000.44(b) by the skim milk prices and butterfat prices applicable to each class.

(g) Multiply the difference between the current month's Class I, II, or III price, as the case may be, and the Class IV price for the preceding month by the hundredweight of skim milk and butterfat subtracted from Class I, II, or III, respectively, pursuant to §1000.44(a)(7) and the corresponding step of §1000.44(b);

(h) Multiply the difference between the Class I price applicable at the location of the pool plant and the Class IV price by the hundredweight of skim milk and butterfat assigned to Class I pursuant to §1000.43(d) and the hundredweight of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(3)(i) through (vi) and the corresponding step of §1000.44(b), excluding receipts of bulk fluid cream products from a plant regulated under other Federal orders and bulk concentrated fluid milk products from pool plants, plants regulated under other Federal orders, and unregulated supply plants.

(i) Multiply the difference between the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received and the Class III price by the pounds of skim milk and butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to §1000.43(d) and §1000.44(a)(3)(i) and the corresponding step of §1000.44(b) and the pounds of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(8) and the corresponding step of §1000.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply

plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

(j) For reconstituted milk made from receipts of nonfluid milk products, multiply \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class IV price) by the hundredweight of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to § 1000.43(d).

§ 1032.61 Computation of producer price differential.

For each month the market administrator shall compute a producer price differential per hundredweight. The report of any handler who has not made payments required pursuant to § 1032.71 for the preceding month shall not be included in the computation of the producer price differential, and such handler's report shall not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations. Subject to the conditions of this paragraph, the market administrator shall compute the producer price differential in the following manner:

(a) Combine into one total the values computed pursuant to § 1032.60 for all handlers required to file reports prescribed in § 1032.30;

(b) Subtract the total values obtained by multiplying each handler's total pounds of protein, other solids, and butterfat contained in the milk for which an obligation was computed pursuant to § 1032.60 by the protein price, the other solids price, and the butterfat price, respectively, and the total value of the somatic cell adjustment pursuant to § 1032.30(a)(1) and (c)(1);

(c) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to § 1032.75;

(d) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(e) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1032.60(i); and

(f) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (e) of this section. The result shall be known as the *producer price differential* for the month.

§ 1032.62 Announcement of producer prices.

On or before the 11th day after the end of each month, the market administrator shall announce publicly the following prices and information:

- (a) The producer price differential;
- (b) The protein price;
- (c) The nonfat solids price;
- (d) The other solids price;
- (e) The butterfat price;
- (f) The somatic cell adjustment rate;
- (g) The average butterfat, protein, nonfat solids, and other solids content of producer milk; and

(h) The statistical uniform price for milk containing 3.5 percent butterfat, computed by combining the Class III price and the producer price differential.

PAYMENTS FOR MILK

§ 1032.70 Producer-settlement fund.

See § 1000.70.

§ 1032.71 Payments to the producer-settlement fund.

Each handler shall make payment to the producer-settlement fund in a manner that provides receipt of the funds by the market administrator no later than the 14th day after the end of the month (except as provided in § 1000.90). Payment shall be the amount, if any, by which the amount specified in paragraph (a) of this section exceeds the amount specified in paragraph (b) of this section:

(a) The total value of milk to the handler for the month as determined pursuant to § 1032.60.

(b) The sum of:

§ 1032.72

7 CFR Ch. X (1-1-00 Edition)

(1) An amount obtained by multiplying the total hundredweight of producer milk as determined pursuant to § 1000.44(c) by the producer price differential as adjusted pursuant to § 1032.75;

(2) An amount obtained by multiplying the total pounds of protein, other solids, and butterfat contained in producer milk by the protein, other solids, and butterfat prices respectively;

(3) The total value of the somatic cell adjustment to producer milk; and

(4) An amount obtained by multiplying the pounds of skim milk and butterfat for which a value was computed pursuant to § 1032.60(i) by the producer price differential as adjusted pursuant to § 1032.75 for the location of the plant from which received.

§ 1032.72 Payments from the producer-settlement fund.

No later than the 15th day after the end of each month (except as provided in § 1000.90), the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1032.71(b) exceeds the amount computed pursuant to § 1032.71(a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete the payments as soon as the funds are available.

§ 1032.73 Payments to producers and to cooperative associations.

(a) Each handler shall pay each producer for producer milk for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, as follows:

(1) *Partial payment.* For each producer who has not discontinued shipments as of the date of this partial payment, payment shall be made so that it is received by each producer on or before the 26th day of the month (except as provided in § 1000.90) for milk received during the first 15 days of the month from the producer at not less than the lowest announced class price for the preceding month, less proper deduc-

tions authorized in writing by the producer.

(2) *Final payment.* For milk received during the month, payment shall be made so that it is received by each producer no later than the 17th day after the end of the month (except as provided in § 1000.90) in an amount equal to not less than the sum of:

(i) The hundredweight of producer milk received times the producer price differential for the month as adjusted pursuant to § 1032.75;

(ii) The pounds of butterfat received times the butterfat price for the month;

(iii) The pounds of protein received times the protein price for the month;

(iv) The pounds of other solids received times the other solids price for the month;

(v) The hundredweight of milk received times the somatic cell adjustment for the month;

(vi) Less any payment made pursuant to paragraph (a)(1) of this section;

(vii) Less proper deductions authorized in writing by such producer and plus or minus adjustments for errors in previous payments to such producer; and

(viii) Less deductions for marketing services pursuant to § 1000.86.

(b) *Payments for milk received from cooperative association members.* On or before the day prior to the dates specified in paragraphs (a)(1) and (a)(2) of this section (except as provided in § 1000.90), each handler shall pay to a cooperative association for milk from producers who market their milk through the cooperative association and who have authorized the cooperative to collect such payments on their behalf an amount equal to the sum of the individual payments otherwise payable for such producer milk pursuant to paragraphs (a)(1) and (a)(2) of this section.

(c) *Payment for milk received from cooperative association pool plants or from cooperatives as handlers pursuant to § 1000.9(c).* On or before the day prior to the dates specified in paragraphs (a)(1) and (a)(2) of this section (except as provided in § 1000.90), each handler who receives fluid milk products at its plant from a cooperative association in its capacity as the operator of a pool plant

or who receives milk from a cooperative association in its capacity as a handler pursuant to §1000.9(c), including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk, shall pay the cooperative for such milk as follows:

(1) For bulk fluid milk products and bulk fluid cream products received from a cooperative association in its capacity as the operator of a pool plant and for milk received from a cooperative association in its capacity as a handler pursuant to §1000.9(c) during the first 15 days of the month, at not less than the lowest announced class prices per hundredweight for the preceding month;

(2) For the total quantity of bulk fluid milk products and bulk fluid cream products received from a cooperative association in its capacity as the operator of a pool plant, at not less than the total value of such products received from the association's pool plants, as determined by multiplying the respective quantities assigned to each class under §1000.44 as follows:

(i) The hundredweight of Class I skim milk times the Class I skim milk price for the month plus the pounds of Class I butterfat times the Class I butterfat price for the month. The Class I prices to be used shall be the prices effective at the location of the receiving plant;

(ii) The pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price;

(iii) The pounds of butterfat in Class II times the Class II butterfat price;

(iv) The pounds of nonfat solids in Class IV times the nonfat solids price;

(v) The pounds of butterfat in Class III and Class IV milk times the butterfat price;

(vi) The pounds of protein in Class III milk times the protein price;

(vii) The pounds of other solids in Class III milk times the other solids price;

(viii) The hundredweight of Class II, Class III, and Class IV milk times the somatic cell adjustment; and

(ix) Add together the amounts computed in paragraphs (c)(2)(i) through (viii) of this section and from that sum

deduct any payment made pursuant to paragraph (c)(1) of this section; and

(3) For the total quantity of milk received during the month from a cooperative association in its capacity as a handler under §1000.9(c) as follows:

(i) The hundredweight of producer milk received times the producer price differential as adjusted pursuant to §1032.75;

(ii) The pounds of butterfat received times the butterfat price for the month;

(iii) The pounds of protein received times the protein price for the month;

(iv) The pounds of other solids received times the other solids price for the month;

(v) The hundredweight of milk received times the somatic cell adjustment for the month; and

(vi) Add together the amounts computed in paragraphs (c)(3)(i) through (v) of this section and from that sum deduct any payment made pursuant to paragraph (c)(1) of this section.

(d) If a handler has not received full payment from the market administrator pursuant to §1032.72 by the payment date specified in paragraph (a), (b) or (c) of this section, the handler may reduce pro rata its payments to producers or to the cooperative association (with respect to receipts described in paragraph (b) of this section, prorating the underpayment to the volume of milk received from the cooperative association in proportion to the total milk received from producers by the handler), but not by more than the amount of the underpayment. The payments shall be completed on the next scheduled payment date after receipt of the balance due from the market administrator.

(e) If a handler claims that a required payment to a producer cannot be made because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in existence, the payment shall be made to the producer-settlement fund, and in the event that the handler subsequently locates and pays the producer or a lawful claimant, or in the event that the handler no longer exists and a lawful claim

§ 1032.74

is later established, the market administrator shall make the required payment from the producer-settlement fund to the handler or to the lawful claimant, as the case may be.

(f) In making payments to producers pursuant to this section, each handler shall furnish each producer, except a producer whose milk was received from a cooperative association handler described in §1000.9(a) or (c), a supporting statement in a form that may be retained by the recipient which shall show:

(1) The name, address, Grade A identifier assigned by a duly constituted regulatory agency, and payroll number of the producer;

(2) The daily and total pounds, and the month and dates such milk was received from that producer;

(3) The total pounds of butterfat, protein, and other solids contained in the producer's milk;

(4) The somatic cell count of the producer's milk;

(6) The rate used in making payment if the rate is other than the applicable minimum rate;

(7) The amount, or rate per hundred-weight, or rate per pound of component, and the nature of each deduction claimed by the handler; and

(8) The net amount of payment to the producer or cooperative association.

§ 1032.74 [Reserved]

§ 1032.75 Plant location adjustments for producer milk and nonpool milk.

For purposes of making payments for producer milk and nonpool milk, a plant location adjustment shall be determined by subtracting the Class I price specified in §1032.51 from the Class I price at the plant's location. The difference, plus or minus as the case may be, shall be used to adjust the payments required pursuant to §§ 1032.73 and 1000.76.

§ 1033.7 Pool plant.

Pool plant means a plant, unit of plants, or a system of plants as specified in paragraphs (a) through (f) of this section, but excluding a plant specified in paragraph (h) of this section. The pooling standards described in paragraphs (c) through (f) of this section are subject to modification pursuant to paragraph (g) of this section:

(a) A distributing plant, other than a plant qualified as a pool plant pursuant to paragraph (b) of this section or § _____.7(b) of any other Federal milk order, from which during the month 30 percent or more of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) are disposed of as route disposition or are transferred in the form of packaged fluid milk products to other distributing plants. At least 25 percent of such route disposition and transfers must be to outlets in the marketing area.

(b) Any distributing plant located in the marketing area which during the month processed at least 30 percent of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) into ultra-pasteurized or aseptically-processed fluid milk products.

(c) A supply plant from which the quantity of bulk fluid milk products shipped to, received at, and physically unloaded into plants described in paragraph (a) or (b) of this section as a percent of the Grade A milk received at the plant from dairy farmers (except dairy farmers described in §1033.12(b))

and handlers described in §1033.9(c), as reported in §1033.30(a), is not less than 30 percent of the milk received from dairy farmers, including milk diverted pursuant to §1033.13, subject to the following conditions:

(1) Qualifying shipments pursuant to this paragraph may be made to the following plants, except whenever the authority provided in paragraph (g) of this section is applied to increase the shipping requirements specified in this section, only shipments to pool plants described in §1033.7(a) and (b), shall count as qualifying shipments for the purpose of meeting the increased shipments:

(i) Pool plants described in §1033.7(a) and (b);

(ii) Plants of producer-handlers;

(iii) Partially regulated distributing plants, except that credit for such shipments shall be limited to the amount of such milk classified as Class I at the transferee plant; and

(iv) Distributing plants fully regulated under other Federal orders, except that credit for transfers to such plants shall be limited to the quantity shipped to pool distributing plants during the month. Qualifying transfers to other order plants shall not include transfers made on the basis of agreed-upon Class II, Class III, or Class IV utilization.

(2) The operator of a supply plant may include deliveries to pool distributing plants directly from farms of producers pursuant to §1033.13(c) as up to 90 percent of the supply plant's qualifying shipments.

(3) Concentrated milk transferred from the supply plant to a distributing plant for an agreed-upon use other than Class I shall be excluded from the supply plant's shipments in computing the supply plant's shipping percentage.

(4) A supply plant that meets the shipping requirements of this paragraph during each of the immediately preceding months of September through February shall be a pool plant during the following months of March through August unless the milk received at the plant fails to meet the requirements of a duly constituted regulatory agency, the plant fails to meet a shipping requirement instituted pursuant to paragraph (g) of this section, or

the plant operator requests nonpool status for the plant. Such nonpool status shall be effective on the first day of the month following the receipt of such request and thereafter until the plant again qualifies as a pool plant on the basis of its deliveries to a pool distributing plant(s). The automatic pool qualification of a plant can be waived if the handler or cooperative requests in writing to the market administrator the nonpool status of such plant. The request must be made prior to the beginning of any month during the March through August period. The plant shall be a nonpool plant for such month and thereafter until it requalifies under paragraph (c) of this section on the basis of actual shipments therefrom. To requalify as a pool plant under paragraph (d), (e) or (f) of this section, such plant must first have met the percentage shipping requirements of paragraph (c) of this section for 6 consecutive months.

(5) A supply plant that does not meet the minimum delivery requirements specified in this paragraph to qualify for pool status in the current month because a distributing plant to which the supply plant delivered its fluid milk products during such month failed to qualify as a pool plant pursuant to paragraph (a) or (b) of this section shall continue to be a pool plant for the current month if such supply plant qualified as a pool plant in the 3 immediately preceding months.

(d) A plant operated by a cooperative association if, during the month, 30 percent or more of the producer milk of members of the association is delivered to a distributing pool plant(s) or to a nonpool plant(s), and classification other than Class I is not requested. Deliveries for qualification purposes may be made directly from the farm or by transfer from such association's plant, subject to the following conditions:

(1) The cooperative requests pool status for such plant;

(2) The 30-percent delivery requirement may be met for the current month or it may be met on the basis of deliveries during the preceding 12-month period ending with the current month;

(3) The plant is approved by a duly constituted regulatory authority to handle milk for fluid consumption; and

(4) The plant does not qualify as a pool plant under paragraph (a), (b), or (c) of this section or under the similar provisions of another Federal order applicable to a distributing plant or supply plant.

(e) A plant located inside the marketing area which has been a pool plant under this order or its predecessor orders for twelve consecutive months, but is not otherwise qualified under this paragraph, if it has a marketing agreement with a cooperative association and it fulfills the following conditions:

(1) The aggregate monthly quantity supplied by all parties to such an agreement as a percentage of the producer milk receipts included in the unit during the month is not less than 35 percent; and

(2) Shipments for qualification purposes shall include both transfers from supply plants to plants described in paragraph (c)(1) of this section, and deliveries made direct from the farm to plants qualified under paragraph (a) of this section.

(f) A system of supply plants may qualify for pooling if 2 or more plants operated by one or more handlers meet the applicable percentage requirements of paragraph (c) of this section in the same manner as a single plant subject to the following additional requirements:

(1) Each plant in the system is located within the marketing area, or was a pool supply plant for each of the 3 months immediately preceding the effective date of this paragraph so long as it continues to maintain pool status. Cooperative associations may not use shipments pursuant to §1033.9(c) to qualify plants located outside the marketing area;

(2) A written notification to the market administrator listing the plants to be included in the system and the handler that is responsible for meeting the performance requirements of this paragraph under a marketing agreement certified to the market administrator by the designated handler and any others included in the system, and the period during which such consideration

shall apply. Such notice, and notice of any change in designation, shall be furnished on or before the 5th working day following the month to which the notice applies. The listed plants included in the system shall also be in the sequence in which they shall qualify for pool plant status based on the minimum deliveries required. If the deliveries made are insufficient to qualify the entire system for pooling, the last listed plant shall be excluded from the system, followed by the plant next-to-last on the list, and continuing in this sequence until remaining listed plants have met the minimum shipping requirements; and

(3) Each plant that qualifies as a pool plant within a system shall continue each month as a plant in the system unless the plant subsequently fails to qualify for pooling, or the responsible handler submits a written notification to the market administrator prior to the first day of the month that the plant is to be deleted from the system, or that the system is to be discontinued. In any month of March through August, a system shall not contain any plant which was not qualified under this paragraph, either individually or as a member of a system, during the previous September through February.

(g) The applicable shipping percentages of paragraphs (c) through (f) of this section may be increased or decreased by the market administrator if the market administrator finds that such adjustment is necessary to encourage needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator shall investigate the need for adjustment either on the market administrator's own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be appropriate, the market administrator shall issue a notice stating that an adjustment is being considered and invite data, views and arguments. Any decision to revise an applicable shipping percentage must be issued in writing at least one day before the effective date.

(h) The term pool plant shall not apply to the following plants:

(1) A producer-handler as defined under any Federal order;

(2) An exempt plant as defined in § 1000.8(e);

(3) A plant located within the marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of another Federal order, and from which more than 50 percent of its route disposition has been in the other Federal order marketing area for 3 consecutive months;

(4) A plant located outside any Federal order marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of another Federal order and has had greater route disposition in such other Federal order's marketing area for 3 consecutive months;

(5) A plant located in another Federal order marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of such other Federal order and does not have a majority of its route distribution in this marketing area for 3 consecutive months or if the plant is required to be regulated under such other Federal order without regard to its route disposition in any other Federal order marketing area;

(6) A plant qualified pursuant to paragraph (c) of this section that also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated under the other Federal order than are made to plants regulated under the order in this part, or the plant has automatic pooling status under the other Federal order; and

(7) That portion of a regulated plant designated as a nonpool plant that is physically separate and operated separately from the pool portion of such plant. The designation of a portion of a regulated plant as a nonpool plant must be requested in advance and in writing by the handler and must be approved by the market administrator.

(i) Any plant that qualifies as a pool plant in each of the immediately preceding 3 months pursuant to paragraph

(a) of this section or the shipping percentages in paragraph (c) of this section that is unable to meet such performance standards for the current month because of unavoidable circumstances determined by the market administrator to be beyond the control of the handler operating the plant, such as a natural disaster (ice storm, wind storm, flood), fire, breakdown of equipment, or work stoppage, shall be considered to have met the minimum performance standards during the period of such unavoidable circumstances, but such relief shall not be granted for more than 2 consecutive months.

§ 1033.8 Nonpool plant.

See § 1000.8.

§ 1033.9 Handler.

See § 1000.9.

§ 1033.10 Producer-handler.

Producer-handler means a person who:

- (a) Operates a dairy farm and a distributing plant from which there is route disposition in the marketing area during the month;
- (b) Receives fluid milk from own farm production or that is fully subject to the pricing and pooling provisions of the order in this part or any other Federal order;
- (c) Receives at its plant or acquires for route disposition no more than 150,000 pounds of fluid milk products from handlers fully regulated under any Federal order. This limitation shall not apply if the producer-handler's own farm production is less than 150,000 pounds during the month;
- (d) Disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products; and
- (e) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary to produce all Class I milk handled (excluding receipts from handlers fully regulated under any Federal order) and the processing and packaging operations are the producer-handler's own enterprise and at its own risk.

§ 1033.11 [Reserved]

§ 1033.12 Producer.

(a) Except as provided in paragraph (b) of this section, *producer* means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk is:

- (1) Received at a pool plant directly from the producer or diverted by the plant operator in accordance with § 1033.13; or
- (2) Received by a handler described in § 1033.9(c).

(b) Producer shall not include:

- (1) A producer-handler as defined in any Federal order;
- (2) A dairy farmer whose milk is received at an exempt plant, excluding producer milk diverted to the exempt plant pursuant to § 1033.13(d);
- (3) A dairy farmer whose milk is received by diversion at a pool plant from a handler regulated under another Federal order if the other Federal order designates the dairy farmer as a producer under that order and that milk is allocated by request to a utilization other than Class I; and
- (4) A dairy farmer whose milk is reported as diverted to a plant fully regulated under another Federal order with respect to that portion of the milk so diverted that is assigned to Class I under the provisions of such other order.

§ 1033.13 Producer milk.

Producer milk means the skim milk (or the skim equivalent of components of skim milk), including nonfat components, and butterfat in milk of a producer that is:

- (a) Received by the operator of a pool plant directly from a producer or a handler described in § 1000.9(c). All milk received pursuant to this paragraph shall be priced at the location of the plant where it is first physically received;
- (b) Received by a handler described in § 1000.9(c) in excess of the quantity delivered to pool plants;
- (c) Diverted by a pool plant operator to another pool plant. Milk so diverted shall be priced at the location of the plant to which diverted; or

§ 1033.14

(d) Diverted by the operator of a pool plant or by a cooperative association described in §1000.9(c) to a nonpool plant, subject to the following conditions:

(1) Milk of a dairy farmer shall not be eligible for diversion until milk of such dairy farmer has been physically received as producer milk at a pool plant and the dairy farmer has continuously retained producer status since that time. If a dairy farmer loses producer status under the order in this part (except as a result of a temporary loss of Grade A approval), the dairy farmer's milk shall not be eligible for diversion until milk of the dairy farmer has been physically received as producer milk at a pool plant;

(2) The equivalent of at least one day's production is caused by the handler to be physically received at a pool plant in each of the months of September through November;

(3) Of the total quantity of producer milk received during the month (including diversions but excluding the quantity of producer milk received from a handler described in §1000.9(c)), the handler diverted to nonpool plants not more than 60 percent during the months of September through February;

(4) Diverted milk shall be priced at the location of the plant to which diverted;

(5) Any milk diverted in excess of the limits set forth in paragraph (d)(3) of this section shall not be producer milk. The diverting handler shall designate the dairy farmer deliveries that shall not be producer milk. If the handler fails to designate the dairy farmer deliveries which are ineligible, producer milk status shall be forfeited with respect to all milk diverted to nonpool plants by such handler; and

(6) The delivery day requirements and the diversion percentages in paragraphs (d)(2) and (d)(3) of this section may be increased or decreased by the market administrator if the market administrator finds that such revision is necessary to assure orderly marketing and efficient handling of milk in the marketing area. Before making such a finding, the market administrator shall investigate the need for the revision either on the market ad-

ministrator's own initiative or at the request of interested persons if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that a revision might be appropriate, the market administrator shall issue a notice stating that the revision is being considered and inviting written data, views, and arguments. Any decision to revise an applicable percentage must be issued in writing at least one day before the effective date.

(a) Each handler that operates a pool plant pursuant to §1033.7 shall report for each of its operations the following information:

(1) Product pounds, pounds of butterfat, pounds of protein, pounds of solids-not-fat other than protein (other solids), and the value of the somatic cell adjustment pursuant to §1000.50(p), contained in or represented by:

(i) Receipts of producer milk, including producer milk diverted by the reporting handler, from sources other than handlers described in §1000.9(c); and

Agricultural Marketing Service, USDA

§ 1033.51

(ii) Receipts of milk from handlers described in § 1000.9(c);

(2) Product pounds and pounds of butterfat contained in:

(i) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(ii) Receipts of other source milk; and

(iii) Inventories at the beginning and end of the month of fluid milk products and bulk fluid cream products;

(3) The utilization or disposition of all milk and milk products required to be reported pursuant to this paragraph; and

(4) Such other information with respect to the receipts and utilization of skim milk, butterfat, milk protein, other nonfat solids, and somatic cell information as the market administrator may prescribe.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. The report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1000.9(c) shall report:

(1) The product pounds, pounds of butterfat, pounds of protein, pounds of solids-not-fat other than protein (other solids), and the value of the somatic cell adjustment pursuant to § 1000.50(p), contained in receipts of milk from producers; and

(2) The utilization or disposition of such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to its receipts and utilization of milk and milk products in such manner as the market administrator may prescribe.

§ 1033.31 Payroll reports.

(a) On or before the 22nd day after the end of each month, each handler that operates a pool plant pursuant to § 1033.7 and each handler described in § 1000.9(c) shall report to the market administrator its producer payroll for

the month, in the detail prescribed by the market administrator, showing for each producer the information described in § 1033.73(e).

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1000.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1033.32 Other reports.

In addition to the reports required pursuant to §§ 1033.30 and 1033.31, each handler shall report any information the market administrator deems necessary to verify or establish each handler's obligation under the order.

PRODUCER PRICE DIFFERENTIAL

§ 1033.60 Handler's value of milk.

For the purpose of computing a handler's obligation for producer milk, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants and of each handler described in §1000.9(c) with respect to milk that was not received at a pool plant by adding the amounts computed in paragraphs (a) through (i) of this section and subtracting from that total amount the value computed in paragraph (j) of this section. Unless otherwise specified, the skim milk, butterfat, and the combined pounds of skim milk and butterfat referred to in this section shall result from the steps set forth in §1000.44(a), (b), and (c), respectively, and the nonfat components of producer milk in each class shall be based upon the proportion of such components in producer skim milk. Receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another Federal order under §1000.76(a)(4) or (d) shall be excluded from pricing under this section.

(a) Class I value.

(1) Multiply the pounds of skim milk in Class I by the Class I skim milk price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class I by the Class I butterfat price.

(b) Class II value.

(1) Multiply the pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class II times the Class II butterfat price.

(c) Class III value.

(1) Multiply the pounds of protein in Class III skim milk by the protein price;

(2) Add an amount obtained by multiplying the pounds of other solids in Class III skim milk by the other solids price; and

(3) Add an amount obtained by multiplying the pounds of butterfat in Class III by the butterfat price.

(d) Class IV value.

(1) Multiply the pounds of nonfat solids in Class IV skim milk by the nonfat solids price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class IV by the butterfat price.

(e) Compute an adjustment for the somatic cell content of producer milk by multiplying the values reported pursuant to §033.30(a)(1) and (c)(1) by the percentage of total producer milk allocated to Class II, Class III, and Class IV pursuant to §1000.44(c);

(f) Multiply the pounds of skim milk and butterfat overage assigned to each class pursuant to §1000.44(a)(11) and the corresponding step of §1000.44(b) by the skim milk prices and butterfat prices applicable to each class.

(g) Multiply the difference between the current month's Class I, II, or III price, as the case may be, and the Class IV price for the preceding month by the hundredweight of skim milk and butterfat subtracted from Class I, II, or III, respectively, pursuant to §1000.44(a)(7) and the corresponding step of §1000.44(b);

(h) Multiply the difference between the Class I price applicable at the location of the pool plant and the Class IV price by the hundredweight of skim milk and butterfat assigned to Class I pursuant to §1000.43(d) and the hundredweight of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(3)(i) through (vi) and the corresponding step of §1000.44(b), excluding receipts of bulk fluid cream products from a plant regulated under other Federal orders and bulk concentrated fluid milk products from pool plants, plants regulated under other Federal orders, and unregulated supply plants.

(i) Multiply the difference between the Class I price applicable at the location of the nearest unregulated supply

plants from which an equivalent volume was received and the Class III price by the pounds of skim milk and butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to §1000.43(d) and §1000.44(a)(3)(i) and the corresponding step of §1000.44(b) and the pounds of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(8) and the corresponding step of §1000.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

(j) For reconstituted milk made from receipts of nonfluid milk products, multiply \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class IV price) by the hundredweight of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to §1000.43(d).

§ 1033.61 Computation of producer price differential.

For each month the market administrator shall compute a producer price differential per hundredweight. The report of any handler who has not made payments required pursuant to §1033.71 for the preceding month shall not be included in the computation of the producer price differential, and such handler's report shall not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations. Subject to the conditions of this paragraph, the market administrator shall compute the producer price differential in the following manner:

(a) Combine into one total the values computed pursuant to §1033.60 for all handlers required to file reports prescribed in §1033.30;

(b) Subtract the total values obtained by multiplying each handler's total pounds of protein, other solids,

and butterfat contained in the milk for which an obligation was computed pursuant to §1033.60 by the protein price, the other solids price, and the butterfat price, respectively, and the total value of the somatic cell adjustment pursuant to §1033.30(a)(1) and (c)(1);

(c) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to §1033.75;

(d) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(e) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to §1033.60(i); and

(f) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (e) of this section. The result shall be known as the *producer price differential* for the month.

§ 1033.62 Announcement of producer prices.

On or before the 13th day after the end of each month, the market administrator shall announce publicly the following prices and information:

(a) The producer price differential;
 (b) The protein price;
 (c) The nonfat solids price;
 (d) The other solids price;
 (e) The butterfat price;
 (f) The somatic cell adjustment rate;
 (g) The average butterfat, protein, nonfat solids, and other solids content of producer milk; and

(h) The statistical uniform price for milk containing 3.5 percent butterfat, computed by combining the Class III price and the producer price differential.

PAYMENTS FOR MILK

§ 1033.70 Producer-settlement fund.

See §1000.70.

§ 1033.71

§ 1033.71 Payments to the producer-settlement fund.

Each handler shall make payment to the producer-settlement fund in a manner that provides receipt of the funds by the market administrator no later than the 15th day after the end of the month (except as provided in § 1000.90). Payment shall be the amount, if any, by which the amount specified in paragraph (a) of this section exceeds the amount specified in paragraph (b) of this section:

(a) The total value of milk to the handler for the month as determined pursuant to § 1033.60.

(b) The sum of:

(1) An amount obtained by multiplying the total hundredweight of producer milk as determined pursuant to § 1000.44(c) by the producer price differential as adjusted pursuant to § 1033.75;

(2) An amount obtained by multiplying the total pounds of protein, other solids, and butterfat contained in producer milk by the protein, other solids, and butterfat prices, respectively;

(3) The total value of the somatic cell adjustment to producer milk; and

(4) An amount obtained by multiplying the pounds of skim milk and butterfat for which a value was computed pursuant to § 1033.60(i) by the producer price differential as adjusted pursuant to § 1033.75 for the location of the plant from which received.

§ 1033.72 Payments from the producer-settlement fund.

No later than the 16th day after the end of each month (except as provided in § 1000.90), the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1033.71(b) exceeds the amount computed pursuant to § 1033.71(a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete the payments as soon as the funds are available.

7 CFR Ch. X (1-1-00 Edition)

§ 1033.73 Payments to producers and to cooperative associations.

(a) Each handler shall pay each producer for producer milk for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, as follows:

(1) *Partial payment.* For each producer who has not discontinued shipments as of the date of this partial payment, payment shall be made so that it is received by each producer on or before the 26th day of the month (except as provided in § 1000.90) for milk received during the first 15 days of the month from the producer at not less than the lowest announced class price for the preceding month, less proper deductions authorized in writing by the producer.

(2) *Final payment.* For milk received during the month, payment shall be made so that it is received by each producer no later than the 17th day after the end of the month (except as provided in § 1000.90) in an amount equal to not less than the sum of:

(i) The hundredweight of producer milk received times the producer price differential for the month as adjusted pursuant to § 1033.75;

(ii) The pounds of butterfat received times the butterfat price for the month;

(iii) The pounds of protein received times the protein price for the month;

(iv) The pounds of other solids received times the other solids price for the month;

(v) The hundredweight of milk received times the somatic cell adjustment for the month;

(vi) Less any payment made pursuant to paragraph (a)(1) of this section;

(vii) Less proper deductions authorized in writing by such producer and plus or minus adjustments for errors in previous payments to such producer; and

(viii) Less deductions for marketing services pursuant to § 1000.86.

(b) *Payments for milk received from cooperative associations.* On or before the day prior to the dates specified in paragraphs (a)(1) and (a)(2) of this section (except as provided in § 1000.90), each handler shall pay to a cooperative association for milk received as follows:

(1) *Partial payment to a cooperative association.* For bulk fluid milk/skimmed milk received during the first 15 days of the month from a cooperative association in any capacity, except as the operator of a pool plant, the partial payment shall be equal to the hundredweight of milk received multiplied by the lowest announced class price for the preceding month.

(2) *Partial payment to a cooperative association for milk transferred from its pool plant.* For bulk fluid milk/skimmed milk products received during the first 15 days of the month from a cooperative association in its capacity as the operator of a pool plant, the partial payment shall be at the pool plant operator's estimated use value of the milk using the most recent class prices available at the receiving plant's location.

(3) *Final payment to a cooperative association for milk transferred from its pool plant.* Following the classification of bulk fluid milk products and bulk fluid cream products received during the month from a cooperative association in its capacity as the operator of a pool plant, the final payment for such receipts shall be determined as follows:

(i) The hundredweight of Class I skim milk times the Class I skim milk price for the month plus the pounds of Class I butterfat times the Class I butterfat price for the month. The Class I prices to be used shall be the prices effective at the location of the receiving plant;

(ii) The pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price;

(iii) The pounds of butterfat in Class II times the Class II butterfat price;

(iv) The pounds of nonfat solids in Class IV times the nonfat solids price;

(v) The pounds of butterfat in Class III and Class IV milk times the butterfat price;

(vi) The pounds of protein in Class III milk times the protein price;

(vii) The pounds of other solids in Class III milk times the other solids price;

(viii) The hundredweight of Class II, Class III, and Class IV milk times the somatic cell adjustment; and

(ix) Add together the amounts computed in paragraphs (b)(3)(i) through (viii) of this section and from that sum

deduct any payment made pursuant to paragraph (b)(2) of this section; and

(4) *Final payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk received from a cooperative association during the month, including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk, the final payment for such milk shall be an amount equal to the sum of the individual payments otherwise payable for such milk pursuant to paragraph (a)(2) of this section.

(c) If a handler has not received full payment from the market administrator pursuant to § 1033.72 by the payment date specified in paragraph (a) or (b) of this section, the handler may reduce payments pursuant to paragraphs (a) and (b) of this section, but not by more than the amount of the underpayment. The payments shall be completed on the next scheduled payment date after receipt of the balance due from the market administrator.

(d) If a handler claims that a required payment to a producer cannot be made because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in existence, the payment shall be made to the producer-settlement fund, and in the event that the handler subsequently locates and pays the producer or a lawful claimant, or in the event that the handler no longer exists and a lawful claim is later established, the market administrator shall make the required payment from the producer-settlement fund to the handler or to the lawful claimant, as the case may be.

(e) In making payments to producers pursuant to this section, each handler shall furnish each producer, except a producer whose milk was received from a cooperative association handler described in § 1000.9(a) or (c), a supporting statement in a form that may be retained by the recipient which shall show:

(1) The name, address, Grade A identifier assigned by a duly constituted regulatory agency, and payroll number of the producer;

§ 1033.74

(2) The daily and total pounds, and the month and dates such milk was received from that producer;

(3) The total pounds of butterfat, protein, and other solids contained in the producer's milk;

(4) The somatic cell count of the producer's milk;

(5) The minimum rate or rates at which payment to the producer is required pursuant to the order in this part;

(6) The rate used in making payment if the rate is other than the applicable minimum rate;

(7) The amount, or rate per hundred-weight, or rate per pound of component, and the nature of each deduction claimed by the handler; and

(8) The net amount of payment to the producer or cooperative association.

§ 1033.74 [Reserved]

§ 1033.75 Plant location adjustments for producer milk and nonpool milk.

For purposes of making payments for producer milk and nonpool milk, a plant location adjustment shall be determined by subtracting the Class I price specified in §1033.51 from the Class I price at the plant's location. The difference, plus or minus as the case may be, shall be used to adjust the payments required pursuant to §§ 1033.73 and 1000.76.

See § 1000.4.

§ 1124.5 Distributing plant.

See § 1000.5.

§ 1124.7 Pool plant.

Pool plant means a plant, unit of plants, or a system of plants as specified in paragraphs (a) through (f) of this section, but excluding a plant specified in paragraph (h) of this section. The pooling standards described in paragraph (c) of this section are subject to modification pursuant to paragraph (g) of this section:

(a) A distributing plant, other than a plant qualified as a pool plant pursuant to paragraph (b) of this section or § _____.7(b) of any other Federal milk order, from which during the month 25 percent or more of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) are disposed of as route disposition or are transferred in the form of packaged fluid milk products to other distributing plants. At least 25 percent of such route disposition and transfers must be to outlets in the marketing area.

(b) Any distributing plant located in the marketing area which during the month processed at least 25 percent of

§ 1124.7

7 CFR Ch. X (1-1-00 Edition)

the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) into ultra-pasteurized or aseptically-processed fluid milk products.

(c) A supply plant from which during any month not less than 20 percent of the total quantity of milk that is physically received at such plant from dairy farmers eligible to be producers pursuant to § 1124.12 (excluding milk received at such plant as diverted milk from another plant, which milk is classified other than Class I under the order in this part and is subject to the pricing and pooling provisions of this or another order issued pursuant to the Act) or diverted as producer milk to another plant pursuant to § 1124.13, is shipped in the form of a fluid milk product (excluding concentrated milk transferred by agreement for other than Class I use) to a pool distributing plant or is a route disposition in the marketing area of fluid milk products processed and packaged at such plant;

(1) A supply plant that has qualified as a pool plant during each of the immediately preceding months of September through February shall continue to so qualify in each of the following months of March through August, unless the plant operator files a written request with the market administrator that such plant not be a pool plant, such nonpool status to be effective the first month following such request and thereafter until the plant qualifies as a pool plant on the basis of milk shipments;

(2) A cooperative association that operates a supply plant may include as qualifying shipments its deliveries to pool distributing plants directly from farms of producers pursuant to § 1000.9(c);

(3) A pool plant operator may include as qualifying shipments milk diverted to pool distributing plants pursuant to § 1124.13(d);

(4) No plant may qualify as a pool plant due to a reduction in the shipping percentage pursuant to paragraph (g) of this section unless it has been a pool supply plant during each of the immediately preceding 3 months.

(d)-(f) [Reserved]

(g) The applicable shipping percentage of paragraph (c) of this section may be increased or decreased by the market administrator if the market administrator finds that such adjustment is necessary to encourage needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator shall investigate the need for adjustment either on the market administrator's own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be appropriate, the market administrator shall issue a notice stating that an adjustment is being considered and invite data, views and arguments. Any decision to revise an applicable shipping percentage must be issued in writing at least one day before the effective date.

(h) The term pool plant shall not apply to the following plants:

(1) A producer-handler as defined under any Federal order;

(2) An exempt plant as defined in § 1000.8(e);

(3) A plant located within the marketing area and qualified pursuant to paragraph (a) of this section which meets the pooling requirements of another Federal order, and from which more than 50 percent of its route disposition has been in the other Federal order marketing area for 3 consecutive months;

(4) A plant located outside any Federal order marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of another Federal order and has had greater route disposition in such other Federal order's marketing area for 3 consecutive months;

(5) A plant located in another Federal order marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of such other Federal order and does not have a majority of its route distribution in this marketing area for 3 consecutive months or if the plant is required to be regulated under such other Federal order without regard to

its route disposition in any other Federal order marketing area; and

(6) A plant qualified pursuant to paragraph (c) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated under the other Federal order than are made to plants regulated under the order in this part, or the plant has automatic pooling status under the other Federal order.

§ 1124.8 Nonpool plant.

See § 1000.8.

§ 1124.9 Handler.

See § 1000.9.

§ 1124.10 Producer-handler.

Producer-handler means a person who operates a dairy farm and a distributing plant from which there is route disposition within the marketing area during the month and who the market administrator has designated a producer-handler after determining that all of the requirements of this section have been met.

(a) *Requirements for designation.* Designation of any person as a producer-handler by the market administrator shall be contingent upon meeting the conditions set forth in paragraphs (a)(1) through (4) of this section. Following the cancellation of a previous producer-handler designation, a person seeking to have his/her producer-handler designation reinstated must demonstrate that these conditions have been met for the preceding month.

(1) The care and management of the dairy animals and other resources and facilities designated in paragraph (b)(1) of this section necessary to produce all Class I milk handled (excluding receipts from handlers fully regulated under any Federal order) are under the complete and exclusive control and management of the producer-handler and are operated as the producer-handler's own enterprise and at its own risk.

(2) The plant operation designated in paragraph (b)(2) of this section at which the producer-handler processes and packages, and from which it distributes, its own milk production is under the complete and exclusive con-

trol and management of the producer-handler and is operated as the producer-handler's own enterprise and at its sole risk.

(3) The producer-handler neither receives at its designated milk production resources and facilities nor receives, handles, processes, or distributes at or through any of its designated milk handling, processing, or distributing resources and facilities other source milk products for reconstitution into fluid milk products or fluid milk products derived from any source other than:

(i) Its designated milk production resources and facilities (own farm production);

(ii) Pool handlers and plants regulated under any Federal order within the limitation specified in paragraph (c)(2) of this section; or

(iii) Nonfat milk solids which are used to fortify fluid milk products.

(4) The producer-handler is neither directly nor indirectly associated with the business control or management of, nor has a financial interest in, another handler's operation; nor is any other handler so associated with the producer-handler's operation.

(b) *Designation of resources and facilities.* Designation of a person as a producer-handler shall include the determination of what shall constitute the person's milk production, handling, processing, and distribution resources and facilities, all of which shall be considered an integrated operation.

(1) Milk production resources and facilities shall include all resources and facilities (milking herd(s), buildings housing such herd(s), and the land on which such buildings are located) used for the production of milk which are directly or indirectly, solely or partially, owned, operated, or controlled by the producer-handler, in which the producer-handler in any way has an interest, including any contractual arrangement, or which are directly, indirectly, or partially owned, operated, or controlled by any partner or stockholder of the producer-handler. However, for purposes of this paragraph, any such milk production resources and facilities which do not constitute an actual or potential source of milk

§ 1124.11

7 CFR Ch. X (1-1-00 Edition)

supply for the producer-handler's operation shall not be considered a part of the producer-handler's milk production resources and facilities.

(2) Milk handling, processing, and distribution resources and facilities shall include all resources and facilities (including store outlets) used for handling, processing, and distributing fluid milk products which are solely or partially owned by, and directly or indirectly operated or controlled by, the producer-handler or in which the producer-handler in any way has an interest, including any contractual arrangement, or over which the producer-handler directly or indirectly exercises any degree of management or control.

(3) All designations shall remain in effect until canceled pursuant to paragraph (c) of this section.

(c) *Cancellation.* The designation as a producer-handler shall be canceled upon determination by the market administrator that any of the requirements of paragraphs (a)(1) through (4) of this section are not continuing to be met, or under any of the conditions described in paragraphs (c)(1) and (2) of this section. Cancellation of a producer-handler's status pursuant to this paragraph shall be effective on the first day of the month following the month in which the requirements were not met or the conditions for cancellation occurred.

(1) Milk from the milk production resources and facilities of the producer-handler, designated in paragraph (b)(1) of this section, is delivered in the name of another person as producer milk to another handler.

(2) The producer-handler handles fluid milk products derived from sources other than the milk production facilities and resources designated in paragraph (b)(1) of this section, except that it may receive at its plant, or acquire for route disposition, fluid milk products from fully regulated plants and handlers under any Federal order if such receipts do not exceed 150,000 pounds monthly. This limitation shall not apply if the producer-handler's own farm production is less than 150,000 pounds during the month.

(d) *Public announcement.* The market administrator shall publicly announce:

(1) The name, plant location(s), and farm location(s) of persons designated as producer-handlers;

(2) The names of those persons whose designations have been canceled; and

(3) The effective dates of producer-handler status or loss of producer-handler status for each. Such announcements shall be controlling with respect to the accounting at plants of other handlers for fluid milk products received from any producer-handler.

(e) *Burden of establishing and maintaining producer-handler status.* The burden rests upon the handler who is designated as a producer-handler to establish through records required pursuant to §1000.27 that the requirements set forth in paragraph (a) of this section have been and are continuing to be met, and that the conditions set forth in paragraph (c) of this section for cancellation of designation do not exist.

§ 1124.11 Cooperative reserve supply unit.

Cooperative reserve supply unit means any cooperative association or its agent that is a handler pursuant to §1000.9(c) that does not own or operate a plant, if such cooperative has been qualified to receive payments pursuant to §1124.73 and has been a handler of producer milk under the order in this part or its predecessor order during each of the 12 previous months, and if a majority of the cooperative's member producers are located within 125 miles of a plant described in §1124.7(a). A cooperative reserve supply unit shall be subject to the following conditions:

(a) The cooperative shall file a request with the market administrator for cooperative reserve supply unit status at least 15 days prior to the first day of the month in which such status is desired to be effective. Once qualified as a cooperative reserve supply unit pursuant to this paragraph, such status shall continue to be effective unless the cooperative requests termination prior to the first day of the month that change of status is requested, or the cooperative fails to meet all of the conditions of this section.

(b) The cooperative reserve supply unit supplies fluid milk products to pool distributing plants located within

125 miles of a majority of the cooperative's member producers in compliance with any announcement by the market administrator requesting a minimum level of shipments as follows:

(1) The market administrator may require such supplies of bulk fluid milk from cooperative reserve supply units whenever the market administrator finds that milk supplies for Class I use are needed for plants defined in § 1124.7(a) or (b). Before making such a finding, the market administrator shall investigate the need for such shipments either on the market administrator's own initiative or at the request of interested persons if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the market administrator's investigation shows that such shipments might be appropriate, the market administrator shall issue a notice stating that a shipping announcement is being considered and inviting data, views and arguments with respect to the proposed shipping announcement. Any decision on the required shipment of bulk fluid milk from cooperative reserve supply units must be made in writing at least one day before the effective date.

(2) Failure of a cooperative reserve supply unit to comply with any announced shipping requirements, including making any significant change in the unit's marketing operation that the market administrator determines has the impact of evading or forcing such an announcement, shall result in immediate loss of cooperative reserve supply unit status until such time as the unit has been a handler pursuant to § 1000.9(c) for at least 12 consecutive months.

§ 1124.12 Producer.

(a) Except as provided in paragraph (b) of this section, *producer* means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk (or components of milk) is:

(1) Received at a pool plant directly from the producer or diverted by the plant operator in accordance with § 1124.13; or

(2) Received by a handler described in § 1000.9(c).

(b) Producer shall not include:

(1) A producer-handler as defined in any Federal order;

(2) A dairy farmer whose milk is received at an exempt plant, excluding producer milk diverted to the exempt plant pursuant to § 1124.13(e);

(3) A dairy farmer whose milk is received by diversion at a pool plant from a handler regulated under another Federal order if the other Federal order designates the dairy farmer as a producer under that order and that milk is allocated by request to a utilization other than Class I;

(4) A dairy farmer whose milk is reported as diverted to a plant fully regulated under another Federal order with respect to that portion of the milk so diverted that is assigned to Class I under the provisions of such other order; and

(5) A dairy farmer whose milk was received at a nonpool plant during the month from the same farm as other than producer milk under the order in this part or any other Federal order. Such a dairy farmer shall be known as a *dairy farmer for other markets*.

§ 1124.13 Producer milk.

Producer milk means the skim milk (or the skim equivalent of components of skim milk), including nonfat components, and butterfat in milk of a producer that is:

(a) Received by the operator of a pool plant directly from a producer or a handler described in § 1000.9(c). All milk received pursuant to this paragraph shall be priced at the location of the plant where it is first physically received;

(b) Received by a cooperative reserve supply unit described in § 1124.11. All milk received pursuant to this paragraph shall be priced at the location of the plant where it is first physically received and shall not be subject to the conditions specified in paragraph (e) of this section;

(c) Received by a handler described in § 1000.9(c) in excess of the quantity delivered to pool plants;

(d) Diverted by a pool plant operator to another pool plant. Milk so diverted

§ 1124.14

7 CFR Ch. X (1-1-00 Edition)

shall be priced at the location of the plant to which diverted; or

(e) Diverted by the operator of a pool plant or a cooperative association described in §1000.9(c), excluding a cooperative reserve supply unit described in §1124.11, to a nonpool plant, subject to the following conditions:

(1) Of the quantity of producer milk received during the month (including diversions, but excluding the quantity of producer milk received from a handler described in §1000.9(c)) the handler diverts to nonpool plants not more than 80 percent during the months of September through February, and not more than 99 percent during the months of March through August;

(2) Two or more handlers described in §1000.9(c) may have their allowable diversions computed on the basis of their combined deliveries of producer milk which they caused to be delivered to pool plants or diverted during the month if each has filed a request in writing with the market administrator before the first day of the month the agreement is to be effective. The request shall specify the basis for assigning overdiverted milk to the producer deliveries of each according to a method approved by the market administrator.

(3) Diverted milk shall be priced at the location of the plant to which diverted;

(4) Any milk diverted in excess of the limits prescribed in paragraph (e)(1) of this section shall not be producer milk. If the diverting handler or cooperative association fails to designate the dairy farmers' deliveries that are not to be producer milk, no milk diverted by the handler or cooperative association during the month to a nonpool plant shall be producer milk. In the event some of the milk of any producer is determined not to be producer milk pursuant to this paragraph, other milk delivered by such producer as producer milk during the month will not be subject to §1124.12(b)(5); and

(5) The applicable diversion limits in paragraph (e)(1) of this section may be increased or decreased by the market administrator if the market administrator finds that such revision is necessary to assure orderly marketing and efficient handling of milk in the mar-

keting area. Before making such a finding, the market administrator shall investigate the need for the revision either on the market administrator's own initiative or at the request of interested persons if the request is made at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that a revision might be appropriate, the market administrator shall issue a notice stating that the revision is being considered and inviting written data, views, and arguments. Any decision to revise an applicable percentage must be issued in writing at least one day before the effective date.

(a) Each handler that operates a pool plant pursuant to §1124.7 shall report for each of its operations the following information:

(1) Product pounds, pounds of butterfat, pounds of protein, and pounds of solids-not-fat other than protein (other solids) contained in or represented by:

(i) Receipts of producer milk, including producer milk diverted by the reporting handler, from sources other than handlers described in §1000.9(c); and

Agricultural Marketing Service, USDA

§ 1124.51

(ii) Receipts of milk from handlers described in § 1000.9(c);

(2) Product pounds and pounds of butterfat contained in:

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. The report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1000.9(c) shall report:

each producer the information described in § 1124.73(f).

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1000.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1124.32 Other reports.

In addition to the reports required pursuant to §§ 1124.30 and 1124.31, each handler shall report any information the market administrator deems necessary to verify or establish each handler's obligation under the order.

§ 1124.60 Handler's value of milk.

For the purpose of computing a handler's obligation for producer milk, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants and of each handler described in §1000.9(c) with respect to milk that was not received at a pool plant by adding the amounts computed in paragraphs (a) through (h) of this section and subtracting from that total amount the value computed in paragraph (i) of this section. Unless otherwise specified, the skim milk, butterfat, and the combined pounds of skim milk and butterfat referred to in this section shall result from the steps set forth in §1000.44 (a), (b), and (c), respectively, and the nonfat components of producer milk in each class shall be based upon the proportion of such components in producer skim milk. Receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another Federal order under §1000.76 (a)(4) or (d) shall be excluded from pricing under this section.

(a) Class I value.

(1) Multiply the hundredweight of skim milk in Class I by the Class I skim milk price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class I by the Class I butterfat price.

(b) Class II value.

(1) Multiply the pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price; and

7 CFR Ch. X (1-1-00 Edition)

(2) Add an amount obtained by multiplying the pounds of butterfat in Class II times the Class II butterfat price.

(c) Class III value.

(1) Multiply the pounds of protein in Class III skim milk by the protein price;

(2) Add an amount obtained by multiplying the pounds of other solids in Class III skim milk by the other solids price; and

(3) Add an amount obtained by multiplying the pounds of butterfat in Class III by the butterfat price.

(d) Class IV value.

(1) Multiply the pounds of nonfat solids in Class IV skim milk by the nonfat solids price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class IV by the butterfat price.

(e) Multiply the pounds of skim milk and butterfat overage assigned to each class pursuant to §1000.44(a)(11) and the corresponding steps of §1000.44(b) by the skim milk prices and butterfat prices applicable to each class.

(f) Multiply the difference between the current month's Class I, II, or III price, as the case may be, and the Class IV price for the preceding month by the hundredweight of skim milk and butterfat subtracted from Class I, II, or III, respectively, pursuant to §1000.44(a)(7) and the corresponding step of §1000.44(b);

(g) Multiply the difference between the Class I price applicable at the location of the pool plant and the Class IV price by the hundredweight of skim milk and butterfat assigned to Class I pursuant to §1000.43(d) and the hundredweight of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(3) (i) through (vi) and the corresponding step of §1000.44(b), excluding receipts of bulk fluid cream products from plants regulated under other Federal orders and bulk concentrated fluid milk products from pool plants, plants regulated under other Federal orders, and unregulated supply plants.

(h) Multiply the difference between the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received and the Class III price by the pounds of skim milk and

butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to §1000.43(d) and §1000.44(a)(3)(i) and the corresponding step of §1000.44(b) and the pounds of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(8) and the corresponding step of §1000.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

(i) For reconstituted milk made from receipts of nonfluid milk products, multiply \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class IV price) by the hundredweight of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to §1000.43(d).

§ 1124.61 Computation of producer price differential.

For each month the market administrator shall compute a producer price differential per hundredweight. The report of any handler who has not made payments required pursuant to §1124.71 for the preceding month shall not be included in the computation of the producer price differential, and such handler's report shall not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations. Subject to the conditions of this paragraph, the market administrator shall compute the producer price differential in the following manner:

(a) Combine into one total the values computed pursuant to §1124.60 for all handlers required to file reports prescribed in §1124.30;

(b) Subtract the total values obtained by multiplying each handler's total pounds of protein, other solids, and butterfat contained in the milk for which an obligation was computed pursuant to §1124.60 by the protein price,

the other solids price, and the butterfat price, respectively;

(c) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to §1124.75;

(d) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(e) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to §1124.60(h); and

(f) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (e) of this section. The result shall be known as the *producer price differential* for the month.

§ 1124.62 Announcement of producer prices.

On or before the 14th day after the end of each month, the market administrator shall announce publicly the following prices and information:

(a) The producer price differential;

(b) The protein price;

(c) The nonfat solids price;

(d) The other solids price;

(e) The butterfat price;

(f) The average butterfat, protein, nonfat solids, and other solids content of producer milk; and

(g) The statistical uniform price for milk containing 3.5 percent butterfat, computed by combining the Class III price and the producer price differential.

PAYMENTS FOR MILK

§ 1124.70 Producer-settlement fund.

See § 1000.70.

§ 1124.71 Payments to the producer-settlement fund.

Each handler shall make payment to the producer-settlement fund in a manner that provides receipt of the funds by the market administrator no later than the 16th day after the end of the month (except as provided in §1000.90). Payment shall be the amount, if any,

§ 1124.72

by which the amount specified in paragraph (a) of this section exceeds the amount specified in paragraph (b) of this section:

(a) The total value of milk to the handler for the month as determined pursuant to §1124.60.

(b) The sum of:

(1) An amount obtained by multiplying the total hundredweight of producer milk as determined pursuant to §1000.44(c) by the producer price differential as adjusted pursuant to §1124.75;

(2) An amount obtained by multiplying the total pounds of protein, other solids, and butterfat contained in producer milk by the protein, other solids, and butterfat prices, respectively; and

(3) An amount obtained by multiplying the pounds of skim milk and butterfat for which a value was computed pursuant to §1124.60(h) by the producer price differential as adjusted pursuant to §1124.75 for the location of the plant from which received.

§ 1124.72 Payments from the producer-settlement fund.

No later than the 18th day after the end of each month (except as provided in §1000.90), the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to §1124.71(b) exceeds the amount computed pursuant to §1124.71(a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete the payments as soon as the funds are available.

§ 1124.73 Payments to producers and to cooperative associations.

(a) Each handler shall pay each producer for producer milk for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, as follows:

(1) *Partial payment.* For each producer who has not discontinued shipments as of the 18th day of the month, partial payment shall be made so that it is received by each producer on or before the last day of the month (except as

provided in §1000.90) for milk received during the first 15 days of the month from the producer at not less than the lowest announced class price for the preceding month, less proper deductions authorized in writing by the producer.

(2) *Final payment.* For milk received during the month, payment shall be made so that it is received by each producer no later than the 19th day after the end of the month (except as provided in §1000.90) in an amount equal to not less than the sum of:

(i) The hundredweight of producer milk received times the producer price differential for the month as adjusted pursuant to §1124.75;

(ii) The pounds of butterfat received times the butterfat price for the month;

(iii) The pounds of protein received times the protein price for the month;

(iv) The pounds of other solids received times the other solids price for the month;

(v) Less any payment made pursuant to paragraph (a)(1) of this section;

(vi) Less proper deductions authorized in writing by such producer and plus or minus adjustments for errors in previous payments to such producer subject to approval by the market administrator; and

(vii) Less deductions for marketing services pursuant to §1000.86.

(b) *Payments for milk received from cooperative association members.* On or before the 2nd day prior to the dates specified in paragraphs (a)(1) and (a)(2) of this section (except as provided in §1000.90), each handler shall pay to a cooperative association for milk from producers who market their milk through the cooperative association and who have authorized the cooperative to collect such payments on their behalf an amount equal to the sum of the individual payments otherwise payable for such producer milk pursuant to paragraphs (a)(1) and (a)(2) of this section.

(c) *Payment for milk received from cooperative association pool plants or from cooperatives as handlers pursuant to §1000.9(c).* On or before the 2nd day prior to the dates specified in paragraphs (a)(1) and (a)(2) of this section (except as provided in §1000.90), each

handler who receives fluid milk products at its plant from a cooperative association in its capacity as the operator of a pool plant or who receives milk from a cooperative association in its capacity as a handler pursuant to §1000.9(c), including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk, shall pay the cooperative for such milk as follows:

(1) For bulk fluid milk products and bulk fluid cream products received from a cooperative association in its capacity as the operator of a pool plant and for milk received from a cooperative association in its capacity as a handler pursuant to §1000.9(c) during the first 15 days of the month, at not less than the lowest announced class price per hundredweight for the preceding month.

(2) For the total quantity of bulk fluid milk products and bulk fluid cream products received from a cooperative association in its capacity as the operator of a pool plant, at not less than the total value of such products received from the association's pool plants, as determined by multiplying the respective quantities assigned to each class under §1000.44, as follows:

(i) The hundredweight of Class I skim milk times the Class I skim milk price for the month plus the pounds of Class I butterfat times the Class I butterfat price for the month. The Class I prices to be used shall be the prices effective at the location of the receiving plant;

(ii) The pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price;

(iii) The pounds of butterfat in Class II times the Class II butterfat price;

(iv) The pounds of nonfat solids in Class IV times the nonfat solids price;

(v) The pounds of butterfat in Class III and Class IV milk times the butterfat price;

(vi) The pounds of protein in Class III milk times the protein price;

(vii) The pounds of other solids in Class III milk times the other solids price; and

(viii) Add together the amounts computed in paragraphs (c)(2)(i) through (vii) of this section and from that sum

deduct any payment made pursuant to paragraph (c)(1) of this section; and

(3) For the total quantity of milk received during the month from a cooperative association in its capacity as a handler under §1000.9(c) as follows:

(i) The hundredweight of producer milk received times the producer price differential as adjusted pursuant to §1124.75;

(ii) The pounds of butterfat received times the butterfat price for the month;

(iii) The pounds of protein received times the protein price for the month;

(iv) The pounds of other solids received times the other solids price for the month; and

(v) Add together the amounts computed in paragraphs (c)(3)(i) through (iv) of this section and from that sum deduct any payment made pursuant to paragraph (c)(1) of this section.

(d) If a handler has not received full payment from the market administrator pursuant to §1124.72 by the payment date specified in paragraph (a), (b) or (c) of this section, the handler may reduce pro rata its payments to producers or to the cooperative association (with respect to receipts described in paragraph (b) of this section, prorating the underpayment to the volume of milk received from the cooperative association in proportion to the total milk received from producers by the handler), but not by more than the amount of the underpayment. The payments shall be completed on the next scheduled payment date after receipt of the balance due from the market administrator.

(e) If a handler claims that a required payment to a producer cannot be made because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in existence, the payment shall be made to the producer-settlement fund, and in the event that the handler subsequently locates and pays the producer or a lawful claimant, or in the event that the handler no longer exists and a lawful claim is later established, the market administrator shall make the required payment from the producer-settlement fund to the handler or to the lawful claimant, as the case may be.

§ 1124.74

(f) In making payments to producers pursuant to this section, each handler shall furnish each producer, except a producer whose milk was received from a cooperative association handler described in §1000.9(a) or (c), a supporting statement in a form that may be retained by the recipient which shall show:

(1) The name, address, Grade A identifier assigned by a duly constituted regulatory agency, and payroll number of the producer;

(2) The daily and total pounds, and the month and dates such milk was received from that producer;

(3) The total pounds of butterfat, protein, and other solids contained in the producer's milk;

(4) The minimum rate or rates at which payment to the producer is required pursuant to the order in this part;

(5) The rate used in making payment if the rate is other than the applicable minimum rate;

(6) The amount, or rate per hundred-weight, or rate per pound of component, and the nature of each deduction claimed by the handler; and

(7) The net amount of payment to the producer or cooperative association.

§ 1124.74 [Reserved]

§ 1124.75 Plant location adjustments for producer milk and nonpool milk.

For purposes of making payments for producer milk and nonpool milk, a plant location adjustment shall be determined by subtracting the Class I price specified in §1124.51 from the Class I price at the plant's location. The difference, plus or minus as the case may be, shall be used to adjust the payments required pursuant to §§ 1124.73 and 1000.76.

DEFINITIONS

§ 1126.2 Southwest marketing area.

The marketing area means all territory within the bounds of the following states and political subdivisions, including all piers, docks and wharves connected therewith and all craft moored thereat, and all territory occupied by government (municipal, State or Federal) reservations, installations, institutions, or other similar establishments if any part thereof is within any

of the listed states or political subdivisions:

See § 1000.4.

§ 1126.5 Distributing plant.

See § 1000.5.

§ 1126.6 Supply plant.

See § 1000.6.

§ 1126.7 Pool plant.

Pool plant means a plant specified in paragraphs (a) through (d) of this section, or a unit of plants as specified in paragraph (e) of this section, but excluding a plant specified in paragraph (g) of this section. The pooling standards described in paragraphs (c) and (d) of this section are subject to modification pursuant to paragraph (f) of this section:

(a) A distributing plant, other than a plant qualified as a pool plant pursuant to paragraph (b) of this section or § _____.7(b) of any other Federal milk order, from which during the month 25 percent or more of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) are disposed of as route disposition or are transferred in the form of packaged fluid milk products to other distributing plants. At least 25 percent of such route disposition and transfers must be to outlets in the marketing area.

(b) Any distributing plant located in the marketing area which during the month processed at least 25 percent of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) into ultra-pasteurized or aseptically-processed fluid milk products.

(c) A supply plant from which 50 percent or more of the total quantity of milk that is physically received during the month from dairy farmers and handlers described in §1000.9(c), including milk that is diverted as producer milk to other plants, is transferred to pool distributing plants. Concentrated milk transferred from the supply plant to a distributing plant for an agreed-upon use other than Class I shall be excluded from the supply plant's shipments in computing the plant's shipping percentage.

(d) A plant located within the marketing area that is operated by a cooperative association if pool plant status under this paragraph is requested for such plant by the cooperative association and during the month at least 30 percent of the producer milk of members of such cooperative association is delivered directly from farms to pool distributing plants or is transferred to such plants as a fluid milk product (excluding concentrated milk transferred to a distributing plant for an agreed-upon use other than Class I) from the cooperative's plant.

(e) Two or more plants operated by the same handler and located within the marketing area may qualify for pool status as a unit by meeting the total and in-area route disposition requirements specified in paragraph (a) of this section and the following additional requirements:

(1) At least one of the plants in the unit must qualify as a pool plant pursuant to paragraph (a) of this section;

(2) Other plants in the unit must process only Class I or Class II products and must be located in a pricing zone providing the same or a lower Class I price than the price applicable at the distributing plant included in the unit pursuant to paragraph (e)(1) of this section; and

(3) A written request to form a unit, or to add or remove plants from a unit, must be filed with the market administrator prior to the first day of the month for which it is to be effective.

(f) The applicable shipping percentages of paragraphs (c) and (d) of this section may be increased or decreased by the market administrator if the market administrator finds that such adjustment is necessary to encourage

needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator shall investigate the need for adjustment either on the market administrator's own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be appropriate, the market administrator shall issue a notice stating that an adjustment is being considered and invite data, views and arguments. Any decision to revise an applicable shipping percentage must be issued in writing at least one day before the effective date.

(g) The term pool plant shall not apply to the following plants:

(1) A producer-handler plant;

(2) An exempt plant as defined in §1000.8(e);

(3) A plant qualified pursuant to paragraph (a) of this section that is located within the marketing area if the plant also meets the pooling requirements of another Federal order, and more than 50 percent of its route distribution has been in such other Federal order marketing area for 3 consecutive months;

(4) A plant qualified pursuant to paragraph (a) of this section which is not located within any Federal order marketing area that meets the pooling requirements of another Federal order and has had greater route disposition in such other Federal order's marketing area for 3 consecutive months;

(5) A plant qualified pursuant to paragraph (a) of this section that is located in another Federal order marketing area if the plant meets the pooling requirements of such other Federal order and does not have a majority of its route distribution in this marketing area for 3 consecutive months or if the plant is required to be regulated under such other Federal order without regard to its route disposition in any other Federal order marketing area;

(6) A plant qualified pursuant to paragraph (c) or (d) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated

under the other Federal order than are made to plants regulated under the order in this part, or the plant has automatic pooling status under the other Federal order; and

(7) That portion of a pool plant designated as a nonpool plant that is physically separate and operated separately from the pool portion of such plant. The designation of a portion of a regulated plant as a nonpool plant must be requested in writing by the handler and must be approved by the market administrator.

§ 1126.8 Nonpool plant.

See § 1000.8.

§ 1126.9 Handler.

See § 1000.9.

§ 1126.10 Producer-handler.

Producer-handler means a person who:

(a) Operates a dairy farm and a distributing plant from which there is route disposition in the marketing area during the month;

(b) Receives fluid milk products from own farm production or milk that is fully subject to the pricing and pooling provisions of the order in this part or another Federal order;

(c) Receives no more than 150,000 pounds of fluid milk products from handlers fully regulated under any Federal order, including such products received at a location other than the producer-handler's processing plant for distribution on routes. This limitation shall not apply if the producer-handler's own farm production is less than 150,000 pounds during the month;

(d) Disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products; and

(e) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary to produce all Class I milk handled (excluding receipts from handlers fully regulated under any Federal order) and the processing and packaging operations are the producer-handler's own enterprise and at its own risk.

§ 1126.11 [Reserved]

§ 1126.12 Producer.

(a) Except as provided in paragraph (b) of this section, *producer* means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk (or components of milk) is:

(1) Received at a pool plant directly from the producer or diverted by the plant operator in accordance with § 1126.13; or

(2) Received by a handler described in § 1000.9(c).

(b) Producer shall not include:

(1) A producer-handler as defined in any Federal order;

(2) A dairy farmer whose milk is received at an exempt plant, excluding producer milk diverted to the exempt plant pursuant to § 1126.13(d);

(3) A dairy farmer whose milk is received by diversion at a pool plant from a handler regulated under another Federal order if the other Federal order designates the dairy farmer as a producer under that order and the milk is allocated by request to a utilization other than Class I; and

(4) A dairy farmer whose milk is reported as diverted to a plant fully regulated under another Federal order with respect to that portion of the milk so diverted that is assigned to Class I under the provisions of such other order.

§ 1126.13 Producer milk.

Producer milk means the skim milk (or the skim equivalent of components of skim milk), including nonfat components, and butterfat contained in milk of a producer that is:

(a) Received by the operator of a pool plant directly from a producer or a handler described in § 1000.9(c). All milk received pursuant to this paragraph shall be priced at the location of the plant where it is first physically received;

(b) Received by a handler described in § 1000.9(c) in excess of the quantity delivered to pool plants;

(c) Diverted by a pool plant operator for the account of the handler operating such plant to another pool plant. Milk so diverted shall be priced at the

§ 1126.14

7 CFR Ch. X (1-1-00 Edition)

location of the plant to which diverted; or

(d) Diverted by the operator of a pool plant or a handler described in § 1000.9(c) to a nonpool plant, subject to the following conditions:

(1) Milk of a dairy farmer shall not be eligible for diversion unless a delivery of at least 40,000 pounds or one day's milk production, whichever is less, of such dairy farmer has been physically received as producer milk at a pool plant and the dairy farmer has continuously retained producer status since that time;

(2) The total quantity of milk diverted during the month by a cooperative association shall not exceed 50 percent of the total quantity of producer milk that the cooperative association caused to be received at pool plants and diverted;

(3) The operator of a pool plant that is not a cooperative association may divert any milk that is not under the control of a cooperative association that diverts milk during the month pursuant to this paragraph. The total quantity of milk so diverted during the month shall not exceed 50 percent of the total quantity of the producer milk physically received at such plant (or such unit of plants in the case of plants that pool as a unit pursuant to § 1126.7(e)) and diverted;

(4) Any milk diverted in excess of the limits prescribed in paragraphs (d)(2) and (3) of this section shall not be producer milk. If the diverting handler or cooperative association fails to designate the dairy farmers' deliveries that will not be producer milk, no milk diverted by the handler or cooperative association shall be producer milk;

(5) Diverted milk shall be priced at the location of the plant to which diverted; and

(6) The delivery requirement in paragraph (d)(1) and the diversion percentages in paragraphs (d)(2) and (3) of this section may be increased or decreased by the market administrator if there is a finding that such revision is necessary to assure orderly marketing and efficient handling of milk in the marketing area. Before making such a finding, the market administrator shall investigate the need for the revision either on the market administra-

tor's own initiative or at the request of interested persons if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that a revision might be appropriate, the market administrator shall issue a notice stating that the revision is being considered and inviting written data, views, and arguments. Any decision to revise the delivery day requirement or any diversion percentage must be issued in writing at least one day before the effective date.

(c) Each handler described in § 1000.9(c) shall report:

(1) The product pounds, pounds of butterfat, pounds of protein, pounds of solids-not-fat other than protein (other solids), and the value of the somatic cell adjustment pursuant to § 1000.50(p), contained in receipts of milk from producers; and

(2) The utilization or disposition of such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to its receipts and utilization of milk and milk products in such manner as the market administrator may prescribe.

§ 1126.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler that operates a pool plant pursuant to § 1126.7 and each handler described in § 1000.9(c) shall report to the market administrator its producer payroll for

the month, in the detail prescribed by the market administrator, showing for each producer the information specified in § 1126.73(e).

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1000.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1126.32 Other reports.

In addition to the reports required pursuant to §§ 1126.30 and 1126.31, each handler shall report any information the market administrator deems necessary to verify or establish each handler's obligation under the order.

PRODUCER PRICE DIFFERENTIAL

§ 1126.60 Handler's value of milk.

For the purpose of computing a handler's obligation for producer milk, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants and of each handler described in §1000.9(c) with respect to milk that was not received at a pool plant by adding the amounts computed in paragraphs (a) through (i) of this section and subtracting from that total amount the value computed in paragraph (j) of this section. Unless otherwise specified, the skim milk, butterfat, and the combined pounds of skim milk and butterfat referred to in this section shall result from the steps set forth in §1000.44(a), (b), and (c), respectively, and the nonfat components of producer milk in each class shall be based upon the proportion of such components in producer skim milk. Receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another Federal order under §1000.76(a)(4) or (d) shall be excluded from pricing under this section.

(a) Class I value.

(1) Multiply the pounds of skim milk in Class I by the Class I skim milk price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class I by the Class I butterfat price.

(b) Class II value.

(1) Multiply the pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class II times the Class II butterfat price.

(c) Class III value.

(1) Multiply the pounds of protein in Class III skim milk by the protein price;

(2) Add an amount obtained by multiplying the pounds of other solids in Class III skim milk by the other solids price; and

(3) Add an amount obtained by multiplying the pounds of butterfat in Class III by the butterfat price.

(d) Class IV value.

(1) Multiply the pounds of nonfat solids in Class IV skim milk by the nonfat solids price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class IV by the butterfat price.

(e) Compute an adjustment for the somatic cell content of producer milk by multiplying the values reported pursuant to §1126.30(a)(1) and (c)(1) by the percentage of total producer milk allocated to Class II, Class III, and Class IV pursuant to §1000.44(c);

(f) Multiply the pounds of skim milk and butterfat overage assigned to each class pursuant to §1000.44(a)(11) and the corresponding step of §1000.44(b) by the skim milk prices and butterfat prices applicable to each class.

(g) Multiply the difference between the current month's Class I, II, or III price, as the case may be, and the Class IV price for the preceding month by the hundredweight of skim milk and butterfat subtracted from Class I, II, or III, respectively, pursuant to §1000.44(a)(7) and the corresponding step of §1000.44(b);

(h) Multiply the difference between the Class I price applicable at the location of the pool plant and the Class IV price by the hundredweight of skim milk and butterfat assigned to Class I pursuant to §1000.43(d) and the hundredweight of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(3)(i) through (vi) and the corresponding step of §1000.44(b), excluding receipts of bulk fluid cream products from plants regulated under other Federal orders and bulk concentrated fluid milk products from pool plants, plants regulated under other Federal orders, and unregulated supply plants.

(i) Multiply the difference between the Class I price applicable at the location of the nearest unregulated supply

plants from which an equivalent volume was received and the Class III price by the pounds of skim milk and butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to § 1000.43(d) and § 1000.44(a)(3)(i) and the corresponding step of § 1000.44(b) and the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1000.44(a)(8) and the corresponding step of § 1000.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

(j) For reconstituted milk made from receipts of nonfluid milk products, multiply \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class IV price) by the hundredweight of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to § 1000.43(d).

§ 1126.61 Computation of producer price differential.

For each month the market administrator shall compute a producer price differential per hundredweight. The report of any handler who has not made payments required pursuant to § 1126.71 for the preceding month shall not be included in the computation of the producer price differential, and such handler's report shall not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations. Subject to the conditions of this paragraph, the market administrator shall compute the producer price differential in the following manner:

(a) Combine into one total the values computed pursuant to § 1126.60 for all handlers required to file reports prescribed in § 1126.30;

(b) Subtract the total of the values obtained by multiplying each handler's total pounds of protein, other solids,

and butterfat contained in the milk for which an obligation was computed pursuant to § 1126.60 by the protein price, other solids price, and the butterfat price, respectively, and the total value of the somatic cell adjustment pursuant to § 1126.30(a)(1) and (c)(1);

(c) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to § 1126.75;

(d) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(e) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1126.60(i); and

(f) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (e) of this section. The result shall be known as the *producer price differential* for the month.

§ 1126.62 Announcement of producer prices.

On or before the 13th day after the end of each month, the market administrator shall announce the following prices and information:

(a) The producer price differential;

(b) The protein price;

(c) The nonfat solids price;

(d) The other solids price;

(e) The butterfat price;

(f) The somatic cell adjustment rate;

(g) The average butterfat, protein, nonfat solids, and other solids content of producer milk; and

(h) The statistical uniform price for milk containing 3.5 percent butterfat, computed by combining the Class III price and the producer price differential.

PAYMENTS FOR MILK

§ 1126.70 Producer-settlement fund.

See § 1000.70.

§ 1126.71

§ 1126.71 Payments to the producer-settlement fund.

Each handler shall make payment to the producer-settlement fund in a manner that provides receipt of the funds by the market administrator no later than the 16th day after the end of the month (except as provided in § 1000.90). Payment shall be the amount, if any, by which the amount specified in paragraph (a) of this section exceeds the amount specified in paragraph (b) of this section:

(a) The total value of milk to the handler for the month as determined pursuant to § 1126.60.

(b) The sum of:

(1) An amount obtained by multiplying the total hundredweight of producer milk as determined pursuant to § 1000.44(c) by the producer price differential as adjusted pursuant to § 1126.75;

(2) An amount obtained by multiplying the total pounds of protein, other solids, and butterfat contained in producer milk by the protein, other solids, and butterfat prices respectively;

(3) The total value of the somatic cell adjustment to producer milk; and

(4) An amount obtained by multiplying the pounds of skim milk and butterfat for which a value was computed pursuant to § 1126.60(i) by the producer price differential as adjusted pursuant to § 1126.75 for the location of the plant from which received.

§ 1126.72 Payments from the producer-settlement fund.

No later than the 17th day after the end of each month (except as provided in § 1000.90), the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1126.71(b) exceeds the amount computed pursuant to § 1126.71(a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete the payments as soon as the funds are available.

7 CFR Ch. X (1-1-00 Edition)

§ 1126.73 Payments to producers and to cooperative associations.

(a) Each handler shall pay each producer for producer milk for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, as follows:

(1) *Partial payment.* For each producer who has not discontinued shipments as of the 23rd day of the month, payment shall be made so that it is received by the producer on or before the 26th day of the month (except as provided in § 1000.90) for milk received during the first 15 days of the month at not less than the lowest announced class price for the preceding month, less proper deductions authorized in writing by the producer.

(2) *Final payment.* For milk received during the month, payment shall be made so that it is received by each producer no later than the 18th day after the end of the month (except as provided in § 1000.90) in an amount computed as follows:

(i) Multiply the hundredweight of producer milk received times the producer price differential for the month as adjusted pursuant to § 1126.75;

(ii) Multiply the pounds of butterfat received times the butterfat price for the month;

(iii) Multiply the pounds of protein received times the protein price for the month;

(iv) Multiply the pounds of other solids received times the other solids price for the month;

(v) Multiply the hundredweight of milk received times the somatic cell adjustment for the month;

(vi) Add the amounts computed in paragraphs (a)(2)(i) through (v) of this section, and from that sum:

(A) Subtract the partial payment made pursuant to paragraph (a)(1) of this section;

(B) Subtract the deduction for marketing services pursuant to § 1000.86;

(C) Add or subtract for errors made in previous payments to the producer subject to approval by the market administrator; and

(D) Subtract proper deductions authorized in writing by the producer.

(b) On or before the day prior to the dates specified for partial and final payments pursuant to paragraph (a) of

this section (except as provided in § 1000.90), each pool plant operator shall pay a cooperative association for milk received as follows:

(1) *Partial payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk (including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk) received during the first 15 days of the month from a cooperative association in any capacity, except as the operator of a pool plant, the payment shall be equal to the hundredweight of milk received multiplied by the lowest announced class price for the preceding month.

(2) *Partial payment to a cooperative association for milk transferred from its pool plant.* For bulk milk/skimmed milk products received during the first 15 days of the month from a cooperative association in its capacity as the operator of a pool plant, the partial payment shall be at the pool plant operator's estimated use value of the milk using the most recent class prices available at the receiving plant's location.

(3) *Final payment to a cooperative association for milk transferred from its pool plant.* Following the classification of bulk fluid milk products and bulk fluid cream products received during the month from a cooperative association in its capacity as the operator of a pool plant, the final payment for such receipts shall be determined as follows:

(i) The hundredweight of Class I skim milk times the Class I skim milk price for the month plus the pounds of Class I butterfat times the Class I butterfat price for the month. The Class I prices to be used shall be the prices effective at the location of the receiving plant;

(ii) The pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price;

(iii) The pounds of butterfat in Class II times the Class II butterfat price;

(iv) The pounds of nonfat solids in Class IV times the nonfat solids price;

(v) The pounds of butterfat in Class III and Class IV milk times the butterfat price;

(vi) The pounds of protein in Class III milk times the protein price;

(vii) The pounds of other solids in Class III milk times the other solids price;

(viii) The hundredweight of Class II, Class III, and Class IV milk times the somatic cell adjustment; and

(ix) Add together the amounts computed in paragraphs (b)(3)(i) through (viii) of this section and from that sum deduct any payments made pursuant to paragraph (b)(2) of this section.

(4) *Final payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk received from a cooperative association during the month, including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk, the final payment for such milk shall be an amount equal to the sum of the individual payments otherwise payable for such milk pursuant to paragraph (a)(2) of this section.

(c) If a handler has not received full payment from the market administrator pursuant to § 1126.72 by the payment date specified in paragraph (a) or (b) of this section, the handler may reduce pro rata its payments to producers or to cooperative associations pursuant to paragraphs (a) and (b) of this section, but by not more than the amount of the underpayment. The payments shall be completed on the next scheduled payment date after receipt of the balance due from the market administrator.

(d) If a handler claims that a required payment to a producer cannot be made because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in existence, the payment shall be made to the producer-settlement fund, and in the event that the handler subsequently locates and pays the producer or a lawful claimant, or in the event that the handler no longer exists and a lawful claim is later established, the market administrator shall make the required payment from the producer-settlement fund to the handler or to the lawful claimant as the case may be.

§ 1126.74

(e) In making payments to producers pursuant to this section, each pool plant operator shall furnish each producer, except a producer whose milk was received from a cooperative association handler described in §1000.9(a) or (c), a supporting statement in a form that may be retained by the recipient which shall show:

(1) The name, address, Grade A identifier assigned by a duly constituted regulatory agency, and the payroll number of the producer;

(2) The month and dates that milk was received from the producer, including the daily and total pounds of milk received;

(3) The total pounds of butterfat, protein, and other solids contained in the producer's milk;

(4) The somatic cell count of the producer's milk;

(5) The minimum rate or rates at which payment to the producer is required pursuant to the order in this part;

(6) The rate used in making payment if the rate is other than the applicable minimum rate;

(7) The amount, or rate per hundred-weight, or rate per pound of component, and the nature of each deduction claimed by the handler; and

(8) The net amount of payment to the producer or cooperative association.

§ 1126.74 [Reserved]

§ 1126.75 Plant location adjustments for producer milk and nonpool milk.

For purposes of making payments for producer milk and nonpool milk, a plant location adjustment shall be determined by subtracting the Class I price specified in §1126.51 from the Class I price at the plant's location. The difference, plus or minus as the case may be, shall be used to adjust the payments required pursuant to §§ 1126.73 and 1000.76.

§ 1131.4 Plant.

See § 1000.4.

§ 1131.5 Distributing plant.

See § 1000.5.

§ 1131.6 Supply plant.

See § 1000.6.

§ 1131.7 Pool plant.

Pool Plant means a plant or unit of plants specified in paragraphs (a) through (e) of this section, but excluding a plant specified in paragraph (g) of this section. The pooling standards described in paragraphs (c) and (d) of this section are subject to modification pursuant to paragraph (f) of this section.

(a) A distributing plant, other than a plant qualified as a pool plant pursuant to paragraph (b) of this § _____. 7(b) of any other Federal milk order, from which during the month 25 percent or more of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) are disposed of as route disposition or are transferred in the form of packaged fluid milk products to other distributing plants. At least 25 percent of such route disposition and transfers must be to outlets in the marketing area.

(b) Any distributing plant located in the marketing area which during the month processed at least 25 percent of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for

other than Class I use) into ultra-pasteurized or aseptically-processed fluid milk products.

(c) A supply plant from which 50 percent or more of the total quantity of milk that is physically received at such plant from dairy farmers and handlers described in §1000.9(c), including milk that is diverted as producer milk to other plants, is transferred to pool distributing plants. Concentrated milk transferred from the supply plant to a distributing plant for an agreed-upon use other than Class I shall be excluded from the supply plant's shipments in computing the plant's shipping percentage.

(d) A plant located within the marketing area and operated by a cooperative association if, during the month, or the immediately preceding 12-month period ending with the current month, 35 percent or more of the producer milk of members of the association (and any producer milk of nonmembers and members of another cooperative association which may be marketed by the cooperative association) is physically received in the form of bulk fluid milk products (excluding concentrated milk transferred to a distributing plant for an agreed-upon use other than Class I) at plants specified in paragraph (a) or (b) of this section either directly from farms or by transfer from supply plants operated by the cooperative association and from plants of the cooperative association for which pool plant status has been requested under this paragraph subject to the following conditions:

(1) The plant does not qualify as a pool plant under paragraph (a), (b) or (c) of this section or under comparable provisions of another Federal order; and

(2) The plant is approved by a duly constituted regulatory agency for the handling of milk approved for fluid consumption in the marketing area.

(e) Two or more plants operated by the same handler and located in the marketing area may qualify for pool plant status as a unit by together meeting the requirements specified in paragraph (a) of this section and subject to all of the following additional requirements:

(1) At least one of the plants in the unit must qualify as a pool plant pursuant to paragraph (a) of this section;

(2) Other plants in the unit must process Class I or Class II products, using 50 percent or more of the total Grade A fluid milk products received in bulk form at such plant or diverted therefrom by the plant operator in Class I or Class II products, and must be located in a pricing zone providing the same or lower Class I price than the price applicable at the distributing plant included in the unit pursuant to paragraph (e)(1) of this section; and

(3) A written request to form a unit must be filed by the handler with the market administrator prior to the first day of the month for which such status is desired to be effective. The unit shall continue from month to month thereafter without further notification. The handler shall notify the market administrator in writing prior to the first day of any month for which termination or any change of the unit is desired.

(f) The applicable shipping percentages of paragraphs (c) and (d) of this section may be increased or decreased by the market administrator if the market administrator finds that such adjustment is necessary to encourage needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator shall investigate the need for adjustment either on the market administrator's own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be appropriate, the market administrator shall issue a notice stating that an adjustment is being considered and invite data, views and arguments. Any decision to revise an applicable shipping percentage must be issued in writing at least one day before the effective date.

(g) The term pool plant shall not apply to the following plants:

(1) A producer-handler as defined under any Federal order;

(2) An exempt plant as defined in §1000.8(e);

Agricultural Marketing Service, USDA

§ 1131.12

(3) A plant located within the marketing area and qualified pursuant to paragraph (a) of this section which meets the pooling requirements of another Federal order, and from which more than 50 percent of its route disposition has been in the other Federal order marketing area for 3 consecutive months;

(4) A plant located outside any Federal order marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of another Federal order and has had greater route disposition in such other Federal order's marketing area for 3 consecutive months;

(5) A plant located in another Federal order marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of such other Federal order and does not have a majority of its route distribution in this marketing area for 3 consecutive months or if the plant is required to be regulated under such other Federal order without regard to its route disposition in any other Federal order marketing area;

(6) A plant qualified pursuant to paragraph (c) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated under the other Federal order than are made to plants regulated under the order in this part, or the plant has automatic pooling status under the other Federal order; and

(7) That portion of a regulated plant designated as a nonpool plant that is physically separate and operated separately from the pool portion of such plant. The designation of a portion of a regulated plant as a nonpool plant must be requested in advance and in writing by the handler and must be approved by the market administrator.

§ 1131.8 Nonpool plant.

See § 1000.8.

§ 1131.9 Handler.

See § 1000.9.

§ 1131.10 Producer-handler.

Producer-handler means a person who:

(a) Operates a dairy farm and a distributing plant from which there is route disposition in the marketing area during the month;

(b) Receives fluid milk products from own farm production or milk that is fully subject to the pricing and pooling provisions of the order in this part or another Federal order;

(c) Receives at its plant or acquires for route disposition no more than 150,000 pounds of fluid milk products from handlers fully regulated under any Federal order. This limitation shall not apply if the producer-handler's own farm production is less than 150,000 pounds during the month;

(d) Disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products;

(e) Does not distribute fluid milk products to a wholesale customer who also is serviced by a plant described in § 1131.7(a), (b), or (e), or a handler described in § 1000.8(c) that supplied the same product in the same-sized package with a similar label to the wholesale customer during the month; and

(f) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary to produce all Class I milk handled (excluding receipts from handlers fully regulated under any Federal order) and the operation of the distributing plant are the personal enterprise of, and at the personal risk of, such person in his/her capacity as a producer-handler.

§ 1131.11 [Reserved]

§ 1131.12 Producer.

(a) Except as provided in paragraph (b) of this section, *producer* means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk (or components of milk) is:

(1) Received at a pool plant directly from the producer or diverted by the

§ 1131.13

7 CFR Ch. X (1-1-00 Edition)

plant operator in accordance with § 1131.13; or

(2) Received by a handler described in § 1000.9(c).

(b) Producer shall not include:

(1) A producer-handler as defined in any Federal order;

(2) A dairy farmer whose milk is received at an exempt plant, excluding producer milk diverted to the exempt plant pursuant to § 1131.13(d);

(3) A dairy farmer whose milk is received by diversion at a pool plant from a handler regulated under another Federal order if the other Federal order designates the dairy farmer as a producer under that order and that milk is allocated by request to a utilization other than Class I;

(4) A dairy farmer whose milk is reported as diverted to a plant fully regulated under another Federal order with respect to that portion of the milk so diverted that is assigned to Class I under the provisions of such other order; and

(5) A dairy farmer whose milk is received at a pool plant if during the month milk from the same farm is received at a nonpool plant (except a nonpool plant that has no utilization of milk products in any class other than Class III or Class IV) other than as producer milk under the order in this part or some other Federal order. Such a dairy farmer shall be known as a *dairy farmer for other markets*.

§ 1131.13 Producer milk.

Producer milk means the skim milk (or the skim equivalent of components of skim milk) and butterfat in milk of a producer that is:

(a) Received by the operator of a pool plant directly from a producer or a handler described in § 1000.9(c). All milk received pursuant to this paragraph shall be priced at the location of the plant where it is first physically received;

(b) Received by a handler described in § 1000.9(c) in excess of the quantity delivered to pool plants;

(c) Diverted by a pool plant operator to another pool plant. Milk so diverted shall be priced at the location of the plant to which diverted; or

(d) Diverted by the operator of a pool plant or a cooperative association de-

scribed in § 1000.9(c) to a nonpool plant, subject to the following conditions:

(1) Milk of a dairy farmer shall not be eligible for diversion unless at least one day's production of such dairy farmer is physically received at a pool plant during the month;

(2) The total quantity of milk diverted by a handler in any month shall not exceed 50 percent of the total producer milk caused by the handler to be received at pool plants and diverted;

(3) Diverted milk shall be priced at the location of the plant to which diverted;

(4) Any milk diverted in excess of the limits prescribed in paragraph (d)(2) of this section shall not be producer milk. If the diverting handler or cooperative association fails to designate the dairy farmers' deliveries that are not to be producer milk, no milk diverted by the handler or cooperative association during the month to a nonpool plant shall be producer milk. In the event some of the milk of any producer is determined not to be producer milk pursuant to this paragraph, other milk delivered by such producer as producer milk during the month will not be subject to § 1131.12(b)(5); and

(5) The delivery day requirement in paragraph (d)(1) of this section and diversion percentage in paragraph (d)(2) of this section may be increased or decreased by the market administrator if the market administrator finds that such revision is necessary to assure orderly marketing and efficient handling of milk in the marketing area. Before making such a finding, the market administrator shall investigate the need for the revision either on the market administrator's own initiative or at the request of interested persons if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that a revision might be appropriate, the market administrator shall issue a notice stating that the revision is being considered and inviting written data, views, and arguments. Any decision to revise the delivery day requirement or the diversion percentage must be issued in writing at least one day before the effective date.

UNIFORM PRICES

§ 1131.60 Handler's value of milk.

For the purpose of computing a handler's obligation for producer milk, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants and of each handler described in § 1000.9(c) with respect to milk that was not received at a pool plant by adding the amounts computed in paragraphs (a) through (e) of this section and subtracting from that total amount the value computed in paragraph (f) of this section. Receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another Federal order under § 1000.76(a)(4) or (d) shall be excluded from pricing under this section.

(a) Multiply the pounds of skim milk and butterfat in producer milk that were classified in each class pursuant to § 1000.44(c) by the applicable skim milk and butterfat prices, and add the resulting amounts;

(b) Multiply the pounds of skim milk and butterfat overage assigned to each class pursuant to § 1000.44(a)(11) and the corresponding steps of § 1000.44(b) by the respective skim milk and butterfat prices applicable at the location of the pool plant;

(c) Multiply the difference between the current month's Class I, II, or III price, as the case may be, and the Class IV price for the preceding month by the hundredweight of skim milk and butterfat subtracted from Class I, II, or III, respectively, pursuant to § 1000.44(a)(7) and the corresponding step of § 1000.44(b);

(d) Multiply the difference between the Class I price applicable at the location of the pool plant and the Class IV price by the hundredweight of skim milk and butterfat assigned to Class I

pursuant to §1000.43(d) and the hundredweight of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(3)(i) through (vi) and the corresponding step of §1000.44(b), excluding receipts of bulk fluid cream products from plants regulated under other Federal orders and bulk concentrated fluid milk products from pool plants, plants regulated under other Federal orders, and unregulated supply plants;

(e) Multiply the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to §1000.43(d) and §1000.44(a)(3)(i) and the corresponding steps of §1000.44(b) and the pounds of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(8) and the corresponding step of §1000.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order; and

(f) For reconstituted milk made from receipts of nonfluid milk products, multiply \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class IV price) by the hundredweight of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to §1000.43(d).

§ 1131.61 Computation of uniform prices.

On or before the 11th day of each month, the market administrator shall compute a uniform butterfat price, a uniform skim milk price, and a uniform price for producer milk receipts reported for the prior month. The report of any handler who has not made payments required pursuant to §1131.71 for the preceding month shall not be included in the computation of these prices, and such handler's report shall

not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations.

(a) *Uniform butterfat price.* The uniform butterfat price per pound, rounded to the nearest one-hundredth cent, shall be computed by multiplying the pounds of butterfat in producer milk allocated to each class pursuant to §1000.44(b) by the respective class butterfat prices and dividing the sum of such values by the total pounds of such butterfat.

(b) *Uniform skim milk price.* The uniform skim milk price per hundredweight, rounded to the nearest cent, shall be computed as follows:

(1) Combine into one total the values computed pursuant to §1131.60 for all handlers;

(2) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to §1131.75;

(3) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(4) Subtract the value of the total pounds of butterfat for all handlers. The butterfat value shall be computed by multiplying the pounds of butterfat by the butterfat price computed in paragraph (a) of this section;

(5) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(i) The total skim pounds of producer milk; and

(ii) The total skim pounds for which a value is computed pursuant to §1131.60(e); and

(6) Subtract not less than 4 cents and not more than 5 cents.

(c) *Uniform price.* The uniform price per hundredweight, rounded to the nearest cent, shall be the sum of the following:

(1) Multiply the uniform butterfat price for the month pursuant to paragraph (a) of this section times 3.5 pounds of butterfat; and

(2) Multiply the uniform skim milk price for the month pursuant to paragraph (b) of this section times .965.

7 CFR Ch. X (1-1-00 Edition)

§ 1131.62 Announcement of uniform prices.

On or before the 11th day after the end of the month, the market administrator shall announce the uniform prices for the month computed pursuant to § 1131.61.

PAYMENTS FOR MILK

§ 1131.70 Producer-settlement fund.

See § 1000.70.

§ 1131.71 Payments to the producer-settlement fund.

Each handler shall make payment to the producer-settlement fund in a manner that provides receipt of the funds by the market administrator no later than the 13th day after the end of the month (except as provided in § 1000.90). Payments due the market administrator shall be deemed not to have been made until the money owed has been received at the market administrator's office, or deposited into the market administrator's bank account. Payment shall be the amount, if any, by which the amount specified in paragraph (a) of this section exceeds the amount specified in paragraph (b) of this section:

(a) The total value of milk to the handler for the month as determined pursuant to § 1131.60.

(b) The sum of:

(1) The value at the uniform prices for skim milk and butterfat, adjusted for plant location, of the handler's receipts of producer milk; and

(2) The value at the uniform price as adjusted pursuant to § 1131.75 applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1131.60(e).

§ 1131.72 Payments from the producer-settlement fund.

No later than the 14th day after the end of each month (except as provided in § 1000.90), the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1131.71(b) exceeds the amount computed pursuant to § 1131.71(a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursu-

ant to this section, the market administrator shall reduce uniformly such payments and shall complete the payments as soon as the funds are available.

§ 1131.73 Payments to producers and to cooperative associations.

(a) Except as provided in paragraphs (b) and (c) of this section, each handler shall make payment to each producer from whom milk is received during the month as follows:

(1) *Partial Payment.* For each producer who has not discontinued shipments as of the 25th day of the month, payment shall be made so that it is received by the producer on or before the 27th day of each month (except as provided in § 1000.90) for milk received from such producer during the first 15 days of the month at not less than 1.3 times the lowest class price for the preceding month less proper deductions authorized in writing by the producer.

(2) *Final payment.* For milk received during the month, a payment computed as follows shall be made so that it is received by each producer one day after the payment date required in § 1131.72:

(i) Multiply the hundredweight of producer skim milk received times the uniform skim milk price for the month;

(ii) Multiply the pounds of producer butterfat received times the uniform butterfat price for the month;

(iii) Multiply the hundredweight of producer milk received times the plant location adjustment pursuant to § 1131.75; and

(iv) Add the amounts computed in paragraph (a)(2)(i), (ii), and (iii) of this section, and from that sum:

(A) Subtract the partial payment made pursuant to paragraph (a)(1) of this section;

(B) Subtract the deduction for marketing services pursuant to § 1000.86;

(C) Add or subtract for errors made in previous payments to the producer, subject to approval by the market administrator; and

(D) Subtract proper deductions authorized in writing by the producer.

(b) Two days prior to the dates on which partial and final payments are due pursuant to paragraph (a) of this

section, each pool plant operator shall pay a cooperative association for milk received as follows:

(1) *Partial payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk (including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk) received during the first 15 days of the month from a cooperative association in any capacity except as the operator of a pool plant, the payment shall be an amount not less than 1.3 times the lowest class price for the preceding month multiplied by the hundredweight of milk.

(2) *Partial payment to a cooperative association for milk transferred from its pool plant.* For bulk fluid milk products and bulk fluid cream products received during the first 15 days of the month from a cooperative association in its capacity as the operator of a pool plant, the partial payment shall be at the pool plant operator's estimated use value of the milk using the most recent class prices available for skim milk and butterfat at the receiving plant's location.

(3) *Final payment to a cooperative association for milk transferred from its pool plant.* For bulk fluid milk products and bulk fluid cream products received during the month from a cooperative association in its capacity as the operator of a pool plant, the final payment shall be the classified value of such milk as determined by multiplying the pounds of skim milk and butterfat assigned to each class pursuant to §1000.44 by the class prices for the month at the receiving plant's location, and subtracting from this sum the partial payment made pursuant to paragraph (b)(2) of this section.

(4) *Final payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk received from a cooperative association during the month, including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk, the final payment for such milk shall be an amount equal to the sum of the indi-

vidual payments otherwise payable for such milk pursuant to paragraph (a)(2) of this section.

(c) If a handler has not received full payment from the market administrator pursuant to §1131.72 by the payment date specified in paragraph (a) or (b) of this section, the handler may reduce pro rata his payments pursuant to such paragraphs, but by not more than the amount of such underpayment. Payments to producers shall be completed on the next scheduled payment date after receipt of the balance due from the market administrator.

(d) If a handler claims that a required payment to a producer cannot be made because the producer is deceased or cannot be located, or because the cooperative association or its lawful successor or assignee is no longer in existence, the payment shall be made to the producer-settlement fund. In the event the handler subsequently locates and pays the producer or a lawful claimant, or in the event that the handler no longer exists and a lawful claim is later established, the market administrator shall make the required payment from the producer-settlement fund to the handler or the lawful claimant, as the case may be.

(e) In making payments to producers pursuant to this section, each pool plant operator shall furnish each producer, except a producer whose milk was received from a cooperative association described in §1000.9(a) or (c), a supporting statement in such form that it may be retained by the recipient which shall show:

(1) The month, and identity of the producer;

(2) The daily and total pounds and the total pounds of butterfat content of producer milk;

(3) The minimum rate at which payment to the producer is required pursuant to the order in this part;

(4) The rate used in making payments if the rate is other than the applicable minimum rate;

(5) The amount, rate per hundredweight, and nature of each deduction claimed by the handler; and

(6) The net amount of payment to the producer or cooperative association.

§ 1135.7 Pool plant.

Pool Plant means a plant or unit of plants specified in paragraphs (a) through (e) of this section, but excluding a plant specified in paragraph (g) of this section. The pooling standards described in paragraphs (c) and (d) of this section are subject to modification pursuant to paragraph (f) of this section.

(a) A distributing plant, other than a plant qualified as a pool plant pursuant to paragraph (b) of this section or §____.7(b) of any other Federal milk order, from which during the month 25 percent or more of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) are disposed of as route disposition or are transferred in the form of packaged fluid milk products to other distributing plants. At least 25 percent of such route disposition and transfers must be to outlets in the marketing area.

(b) Any distributing plant located in the marketing area which during the month processed at least 25 percent of the total quantity of fluid milk products physically received at the plant (excluding concentrated milk received from another plant by agreement for other than Class I use) into ultra-pasteurized or aseptically-processed fluid milk products.

(c) A supply plant from which during the month the quantity of bulk fluid milk products transferred or diverted to plants described in paragraph (a) or (b) of this section is 35 percent or more of the total Grade A milk received at the plant from dairy farmers (except dairy farmers described in §1135.12(b)) and handlers described in §1000.9(c) and §1135.11, including milk diverted by the plant operator, subject to the following conditions:

(1) A supply plant that has qualified as a pool plant during each of the immediately preceding months of September through February shall continue to so qualify in each of the following months of March through August unless the plant operator files a

§ 1135.7

written request with the market administrator that such plant not be a pool plant, such nonpool status to be effective the first month following such request. A plant withdrawn from pool supply plant status may not be reinstated for any subsequent month of the March through July period unless it qualifies as a pool plant on the basis of milk shipments;

(2) A pool plant operator may include as qualifying shipments milk diverted to pool distributing plants pursuant to § 1135.13(c);

(3) Concentrated milk transferred from the supply plant to a distributing plant for an agreed-upon use other than Class I shall be excluded from the supply plant's shipments in computing the plant's shipping percentage; and

(4) No plant may qualify as a pool plant due to a reduction in the shipping percentage pursuant to paragraph (f) of this section unless it has been a pool supply plant during each of the immediately preceding 3 months.

(d) A milk manufacturing plant located within the marketing area that is operated by a cooperative association if, during the month or the immediately preceding 12-month period ending with the current month, 35% or more of such cooperative's member producer milk (and any producer milk of nonmembers and members of another cooperative association which may be marketed by the cooperative association) is physically received in the form of bulk fluid milk products (excluding concentrated milk transferred to a distributing plant for an agreed-upon use other than Class I) at plants specified in paragraph (a) or (b) of this section either directly from farms or by transfer from supply plants operated by the cooperative association and from plants of the cooperative association for which pool plant status has been requested under this paragraph subject to the following conditions:

(1) The plant does not qualify as a pool plant under paragraph (a), (b) or (c) of this section or under comparable provisions of another Federal order; and

(2) The plant is approved by a duly constituted regulatory agency for the

handling of milk approved for fluid consumption in the marketing area.

(2) The plant is approved by a duly constituted regulatory agency for the handling of milk approved for fluid consumption in the marketing area.

(e) Two or more plants located in the marketing area and operated by the same handler may qualify for pool plant status as a unit by together meeting the requirements specified in paragraph (a) of this section and subject to the following additional requirements:

(1) At least one of the plants in the unit must individually qualify as a pool plant pursuant to paragraph (a) of this section;

(2) Other plants in the unit must process Class I or Class II products, using 50 percent or more of the total Grade A fluid milk products received in bulk form at such plant or diverted therefrom by the plant operator in Class I or Class II products, and must be located in a pricing zone providing the same or a lower Class I price than the price applicable at the distributing plant included in the unit pursuant to paragraph (e)(1) of this section; and

(3) A written request to form a unit must be filed by the handler with the market administrator prior to the first day of the month for which such status is to be effective. The unit shall continue from month to month thereafter without further notification. The handler shall notify the market administrator in writing prior to the first day of any month for which termination or any change of the unit is desired.

(f) The applicable shipping percentages of paragraphs (c) and (d) of this section may be increased or decreased by the market administrator if the market administrator finds that such adjustment is necessary to encourage needed shipments or to prevent uneconomic shipments. Before making such a finding, the market administrator shall investigate the need for adjustment either on the market administrator's own initiative or at the request of interested parties if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that an adjustment of the shipping percentages might be

appropriate, the market administrator shall issue a notice stating that an adjustment is being considered and invite data, views and arguments. Any decision to revise an applicable shipping percentage must be issued in writing at least one day before the effective date.

(g) The term pool plant shall not apply to the following plants:

(1) A producer-handler as defined under any Federal order;

(2) An exempt plant as defined in 1000.8(e);

(3) A plant located within the marketing area and qualified pursuant to paragraph (a) of this section which meets the pooling requirements of another Federal order, and from which more than 50 percent of its route disposition has been in the other Federal order marketing area for 3 consecutive months;

(4) A plant located outside any Federal order marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of another Federal order and has had greater route disposition in such other Federal order's marketing area for 3 consecutive months;

(5) A plant located in another Federal order marketing area and qualified pursuant to paragraph (a) of this section that meets the pooling requirements of such other Federal order and does not have a majority of its route distribution in this marketing area for 3 consecutive months or if the plant is required to be regulated under such other Federal order without regard to its route disposition in any other Federal order marketing area;

(6) A plant qualified pursuant to paragraph (c) of this section which also meets the pooling requirements of another Federal order and from which greater qualifying shipments are made to plants regulated under the other Federal order than are made to plants regulated under the order in this part, or the plant has automatic pooling status under the other Federal order; and

(7) That portion of a regulated plant designated as a nonpool plant that is physically separate and operated separately from the pool portion of such plant. The designation of a portion of a regulated plant as a nonpool plant must be requested in advance and in

writing by the handler and must be approved by the market administrator.

§ 1135.8 Nonpool plant.

See § 1000.8.

§ 1135.9 Handler.

In addition to the handlers defined in § 1000.9, handler shall include a person meeting the standards set forth in § 1135.11.

§ 1135.10 Producer-handler.

Producer-handler means a person who:

(a) Operates a dairy farm and a distributing plant from which there is route disposition in the marketing area during the month;

(b) Receives fluid milk products from own farm production or milk that is fully subject to the pricing and pooling provisions of the order in this part or another Federal order;

(c) Receives at its plant or acquires for route disposition no more than 150,000 pounds of fluid milk products from handlers fully regulated under any Federal order. This limitation shall not apply if the producer-handler's own farm production is less than 150,000 pounds during the month;

(d) Disposes of no other source milk as Class I milk except by increasing the nonfat milk solids content of the fluid milk products; and

(e) Provides proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary to produce all Class I milk handled (excluding receipts from handlers fully regulated under any Federal order) and the processing and packaging operations are the producer-handler's own enterprise and are operated at its own risk.

§ 1135.11 Proprietary bulk tank handler.

Any person, except a cooperative association, with respect to milk that it receives for its account from the farm of a producer in a tank truck owned and operated by, or under the control of, such person and which is delivered during the month for the account of such person to the pool plant of another handler or diverted pursuant to

§ 1135.12

§ 1135.13, subject to the following conditions:

(a) Such person must operate a plant located in the marketing area at which milk is processed only into Class II, Class III, or Class IV products; and

(b) Prior to operating as a handler pursuant to this paragraph, such person must submit to the marker administrator a statement signed by the applicant and the operator of the pool plant to which the milk will be delivered specifying that the applicant will be the responsible handler for the milk.

§ 1135.12 Producer.

(a) Except as provided in paragraph (b) of this section, *producer* means any person who produces milk approved by a duly constituted regulatory agency for fluid consumption as Grade A milk and whose milk (or components of milk) is:

(1) Received at a pool plant directly from the producer or diverted by the plant operator in accordance with § 1135.13; or

(2) Received by a handler described in § 1000.9(c) or § 1135.11.

(b) Producer shall not include:

(1) A producer-handler as defined in any Federal order;

(2) A dairy farmer whose milk is delivered to an exempt plant, excluding producer milk diverted to the exempt plant pursuant to § 1135.13(d);

(3) A dairy farmer whose milk is diverted to a pool plant by a handler regulated under another Federal order if the other Federal order designates the dairy farmer as a producer under that order and that milk is allocated by request to a utilization other than Class I;

(4) A dairy farmer whose milk is reported as diverted to a plant fully regulated under another Federal order with respect to that portion of the milk so diverted that is assigned to Class I under the provisions of such other order; and

(5) A dairy farmer whose milk was received at a nonpool plant during the month from the same farm (except a nonpool plant that has no utilization of milk products in any Class other than Class III or Class IV) as other than producer milk under the order in this part or any other Federal order. Such a

dairy farmer shall be known as a *dairy farmer for other markets*.

§ 1135.13 Producer milk.

Producer milk means the skim milk (or the skim equivalent of components of skim milk), including nonfat components, and butterfat in milk of a producer that is:

(a) Received by the operator of a pool plant directly from a producer, a handler described in § 1000.9(c), or a handler described in § 1135.11. All milk received pursuant to this paragraph shall be priced at the location of the plant where it is first physically received;

(b) Received by a handler described in § 1000.9(c) or in § 1135.11 in excess of the quantity delivered to pool plants;

(c) Diverted by a pool plant operator to another pool plant. Milk so diverted shall be priced at the location of the plant to which diverted; or

(d) Diverted by the operator of a pool plant, a cooperative association described in § 1000.9(c), or a proprietary bulk tank handler described in § 1135.11, to a nonpool plant, subject to the following conditions:

(1) Milk of a dairy farmer shall not be eligible for diversion unless at least one day's milk production of such dairy farmer has been physically received as producer milk at a pool plant and the dairy farmer has continuously retained producer status since that time. If a dairy farmer loses producer status under the order in this part (except as a result of a temporary loss of Grade A approval), the dairy farmer's milk shall not be eligible for diversion until one day's milk production has been physically received as producer milk at a pool plant;

(2) Of the quantity of producer milk received during the month (including diversions) the handler diverts to nonpool plants not more than 90 percent;

(3) Two or more handlers described in § 1000.9(c) may have their allowable diversions computed on the basis of their combined deliveries of producer milk which they caused to be delivered to pool plants or diverted during the month if each has filed a request in writing with the market administrator before the first day of the month the

Agricultural Marketing Service, USDA

§ 1135.30

agreement is to be effective. The request shall specify the basis for assigning overdiverted milk to the producer deliveries of each according to a method approved by the market administrator.

(4) Diverted milk shall be priced at the location of the plant to which diverted;

(5) Any milk diverted in excess of the limits prescribed in paragraph (d)(2) of this section shall not be producer milk. If the diverting handler, cooperative association, or proprietary bulk tank handler fails to designate the dairy farmers' deliveries that are not to be producer milk, no milk diverted by the handler, cooperative association, or proprietary bulk tank handler during the month to a nonpool plant shall be producer milk. In the event some of the milk of any producer is determined not to be producer milk pursuant to this paragraph, other milk delivered by such producer as producer milk during the month will not be subject to § 1135.12(b)(5); and

(6) The delivery day requirement in paragraph (d)(1) and the diversion percentage in paragraph (d)(2) of this section may be increased or decreased by the market administrator if the market administrator finds that such revision is necessary to assure orderly marketing and efficient handling of milk in the marketing area. Before making such a finding, the market administrator shall investigate the need for the revision either on the market administrator's own initiative or at the request of interested persons if the request is made in writing at least 15 days prior to the month for which the requested revision is desired effective. If the investigation shows that a revision might be appropriate, the market administrator shall issue a notice stating that the revision is being considered and inviting written data, views, and arguments. Any decision to revise the delivery day requirement or the diversion percentage must be issued in writing at least one day before the effective date.

HANDLER REPORTS

§ 1135.30 Reports of receipts and utilization.

Each handler shall report monthly so that the market administrator receives the report on or before the 7th day after the end of each month, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler that operates a pool plant pursuant to § 1135.7 shall report for each of its operations the following information:

(1) Product pounds, pounds of butterfat, pounds of protein, and pounds of solids-not-fat other than protein (other solids), contained in or represented by:

(i) Receipts of producer milk, including producer milk diverted by the reporting handler, from sources other than handlers described in § 1000.9(c) and § 1135.11; and

(ii) Receipts of milk from handlers described in § 1000.9(c) and § 1135.11;

(2) Product pounds and pounds of butterfat contained in:

(i) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(ii) Receipts of other source milk; and

(iii) Inventories at the beginning and end of the month of fluid milk products and bulk fluid cream products;

(3) The utilization or disposition of all milk and milk products required to be reported pursuant to this paragraph; and

(4) Such other information with respect to the receipts and utilization of skim milk, butterfat, milk protein, and other nonfat solids, as the market administrator may prescribe.

§ 1135.31

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. The report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in §§ 1000.9(c) or 1135.11 shall report:

(1) The product pounds, pounds of butterfat, pounds of protein, and the pounds of solids-not-fat other than protein (other solids) contained in receipts of milk from producers; and

(2) The utilization or disposition of such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to its receipts and utilization of milk and milk products in such manner as the market administrator may prescribe.

§ 1135.31 Payroll reports.

(a) On or before the 21st day after the end of each month, each handler that operates a pool plant pursuant to § 1135.7 and each handler described in § 1000.9(c) and in § 1135.11 shall report to the market administrator its producer payroll for the month, in the detail prescribed by the market administrator, showing for each producer the information described in § 1135.73(e).

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1000.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1135.32 Other reports.

In addition to the reports required pursuant to §§ 1135.30 and 1135.31, each handler shall report any information the market administrator deems necessary to verify or establish each handler's obligation under the order.

PRODUCER PRICE DIFFERENTIAL

§ 1135.60 Handler's value of milk.

For the purpose of computing a handler's obligation for producer milk, the market administrator shall determine for each month the value of milk of each handler with respect to each of the handler's pool plants, and of each handler described in § 1000.9(c) and each

handler described in §1135.11, with respect to milk that was not received at a pool plant, by adding the amounts computed in paragraphs (a) through (h) of this section and subtracting from that total amount the value computed in paragraph (i) of this section. Unless otherwise specified, the skim milk, butterfat, and the combined pounds of skim milk and butterfat referred to in this section shall result from the steps set forth in §1000.44 (a), (b), and (c), respectively, and the nonfat components of producer milk in each class shall be based upon the proportion of such nonfat components in producer skim milk. Receipts of nonfluid milk products that are distributed as labeled reconstituted milk for which payments are made to the producer-settlement fund of another Federal order under §1000.76 (a)(4) or (d) shall be excluded from pricing under this section.

(a) Class I value.

(1) Multiply the hundredweight of skim milk in Class I by the Class I skim milk price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class I by the Class I butterfat price.

(b) Class II value.

(1) Multiply the pounds of nonfat solids in Class II skim milk by the Class II nonfat solids price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class II times the Class II butterfat price.

(c) Class III value.

(1) Multiply the pounds of protein in Class III skim milk by the protein price;

(2) Add an amount obtained by multiplying the pounds of other solids in Class III skim milk by the other solids price; and

(3) Add an amount obtained by multiplying the pounds of butterfat in Class III by the butterfat price.

(d) Class IV value.

(1) Multiply the pounds of nonfat solids in Class IV skim milk by the nonfat solids price; and

(2) Add an amount obtained by multiplying the pounds of butterfat in Class IV by the butterfat price.

(e) Multiply the pounds of skim milk and butterfat overage assigned to each class pursuant to §1000.44(a)(11) and the corresponding step of §1000.44(b) by the

skim milk prices and butterfat prices applicable to each class.

(f) Multiply the difference between the current month's Class I, II, or III price, as the case may be, and the Class IV price for the preceding month by the hundredweight of skim milk and butterfat subtracted from Class I, II, or III, respectively, pursuant to §1000.44(a)(7) and the corresponding step of §1000.44(b);

(g) Multiply the difference between the Class I price applicable at the location of the pool plant and the Class IV price by the hundredweight of skim milk and butterfat assigned to Class I pursuant to §1000.43(d) and the hundredweight of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(3) (i) through (vi) and the corresponding step of §1000.44(b), excluding receipts of bulk fluid cream products from plants regulated under other Federal orders and bulk concentrated fluid milk products from pool plants, plants regulated under other Federal orders, and unregulated supply plants.

(h) Multiply the difference between the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received and the Class III price by the pounds of skim milk and butterfat in receipts of concentrated fluid milk products assigned to Class I pursuant to §1000.43(d) and §1000.44(a)(3)(i) and the corresponding step of §1000.44(b) and the pounds of skim milk and butterfat subtracted from Class I pursuant to §1000.44(a)(8) and the corresponding step of §1000.44(b), excluding such skim milk and butterfat in receipts of fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

(i) For reconstituted milk made from receipts of nonfluid milk products, multiply \$1.00 (but not more than the difference between the Class I price applicable at the location of the pool plant and the Class IV price) by the

§ 1135.61

hundredweight of skim milk and butterfat contained in receipts of nonfluid milk products that are allocated to Class I use pursuant to §1000.43(d).

§ 1135.61 Computation of producer price differential.

For each month the market administrator shall compute a producer price differential per hundredweight. The report of any handler who has not made payments required pursuant to §1135.71 for the preceding month shall not be included in the computation of the producer price differential, and such handler's report shall not be included in the computation for succeeding months until the handler has made full payment of outstanding monthly obligations. Subject to the conditions of this paragraph, the market administrator shall compute the producer price differential in the following manner:

(a) Combine into one total the values computed pursuant to §1135.60 for all handlers required to file reports prescribed in §1135.30;

(b) Subtract the total values obtained by multiplying each handler's total pounds of protein, other solids, and butterfat contained in the milk for which an obligation was computed pursuant to §1135.60 by the protein price, the other solids price, and the butterfat price, respectively;

(c) Add an amount equal to the minus location adjustments and subtract an amount equal to the plus location adjustments computed pursuant to §1135.75;

(d) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(e) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to §1135.60(h); and

(f) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (e) of this section. The result shall be known as the *producer price differential* for the month.

§ 1135.62 Announcement of producer prices.

On or before the 12th day after the end of each month, the market administrator shall announce publicly the following prices and information:

- (a) The producer price differential;
- (b) The protein price;
- (c) The nonfat solids price;
- (d) The other solids price;
- (e) The butterfat price;
- (f) [Reserved]
- (g) The average butterfat, protein, nonfat solids, and other solids content of producer milk; and
- (h) The statistical uniform price for milk containing 3.5 percent butterfat, computed by combining the Class III price and the producer price differential.

PAYMENTS FOR MILK

§ 1135.70 Producer-settlement fund.

See §1000.70.

§ 1135.71 Payments to the producer-settlement fund.

Each handler shall make payment to the producer-settlement fund in a manner that provides receipt of the funds by the market administrator no later than the 14th day after the end of the month (except as provided in §1000.90). Payment shall be the amount, if any, by which the amount specified in paragraph (a) of this section exceeds the amount specified in paragraph (b) of this section:

(a) The total value of milk to the handler for the month as determined pursuant to §1135.60.

(b) The sum of:

(1) An amount obtained by multiplying the total hundredweight of producer milk as determined pursuant to §1000.44(c) by the producer price differential as adjusted pursuant to §1135.75;

(2) An amount obtained by multiplying the total pounds of protein, other solids, and butterfat contained in producer milk by the protein, other solids, and butterfat prices respectively;

(3) [Reserved]

(4) An amount obtained by multiplying the pounds of skim milk and

butterfat for which a value was computed pursuant to §1135.60(h) by the producer price differential as adjusted pursuant to §1135.75 for the location of the plant from which received.

§ 1135.72 Payments from the producer-settlement fund.

No later than the 15th day after the end of each month (except as provided in §1000.90), the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to §1135.71(b) exceeds the amount computed pursuant to §1135.71(a). If, at such time, the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete the payments as soon as the funds are available.

§ 1135.73 Payments to producers and to cooperative associations.

(a) Except as provided in paragraph (b) of this section, each handler shall make payment to each producer from whom milk is received during the month as follows:

(1) *Partial payment.* On or before the 25th day of each month (except as provided in §1000.90) to each producer an amount not less than 1.2 times the lowest class price for the preceding month multiplied by the hundredweight of milk received from such producer during the first 15 days of the month, less proper deductions authorized in writing by such producer to be made from payments due pursuant to this paragraph.

(2) *Final payment.* On or before the 17th day of the following month (except as provided in §1000.90), not less than an amount computed by the sum of the following:

(i) The hundredweight of producer milk received times the producer price differential for the month as adjusted pursuant to §1135.75;

(ii) The pounds of butterfat in producer milk received times the butterfat price for the month;

(iii) The pounds of protein in producer milk received times the protein price for the month;

(iv) The pounds of other solids in producer milk received times the other solids price for the month;

(v) [Reserved]

(vi) Less any payments made pursuant to paragraph (a)(1) of this section;

(vii) Less proper deductions authorized in writing by such producer and plus or minus adjustments for errors in previous payments to such producer subject to approval by the market administrator; and

(viii) Less deductions made for marketing service pursuant to §1000.86.

(b) One day prior to the dates on which partial and final payments are due pursuant to paragraph (a) of this section, each pool plant operator shall pay a cooperative association for milk received as follows:

(1) *Partial payment to a cooperative association for bulk milk received directly from producers' farms.* For bulk milk (including the milk of producers who are not members of such association and who the market administrator determines have authorized the cooperative association to collect payment for their milk) received during the first 15 days of the month from a cooperative association in any capacity, except as the operator of a pool plant, the payment shall be an amount not less than 1.2 times the lowest class price for the preceding month multiplied by the hundredweight of milk.

(2) *Partial payment to a cooperative association for milk transferred from its pool plant.* For bulk fluid milk products and bulk fluid cream products received during the first 15 days of the month from a cooperative association in its capacity as the operator of a pool plant, the partial payment shall be at the pool plant operator's estimated use value of the milk using the most recent class prices available at the receiving plant's location.

(3) *Final payment to a cooperative association for milk transferred from its pool plant.* For the total quantity of bulk fluid milk products and bulk fluid cream products received from a cooperative association in its capacity as the operator of a pool plant, the final payment shall be at not less than the total value of such products received from the association's pool plants, as determined by multiplying the respective

§ 1135.74

§ 1150.151 Expenses.

(a) The Board is authorized to incur such expenses (including provision for a reasonable reserve) as the Secretary finds are reasonable and likely to be incurred by the Board for its maintenance and functioning and to enable it to exercise its powers and perform its duties in accordance with the provisions of this subpart. at the rate of 15 cents per hundredweight of milk for commercial use or the equivalent thereof.

(c) In determining the assessment due from each producer pursuant to § 1150.152 (a) and (b), a producer who is participating in a qualified State or regional program(s) shall receive a credit for contributions to such program(s), but not to exceed the following amounts:

(1) In the case of contributions for milk marketed on or before May 31, 1984, up to the actual rate of contribution that was in effect under such program(s) on November 29, 1983, not to exceed 15 cents per hundredweight of milk marketed.

(2) In all other cases, the credit shall not exceed 10 cents per hundredweight of milk marketed.

(d) In order for a producer described in § 1150.152(a) to receive the credit authorized in § 1150.152(c), either the producer or a cooperative association on behalf of the producer must establish to the person responsible for remitting the assessment to the Board that the producer is contributing to a qualified State or regional program. Producers who contribute to a qualified program directly (other than through a payroll deduction) must establish with the person responsible for remitting the assessment to the Board, with validation by the qualified program, that they are making such contributions.

(e) In order for a producer described in § 1150.152(b) to receive the credit authorized in § 1150.152(c), the producer and the applicable qualified State or regional program must establish to the Board that the producer is contributing to a qualified State or regional program.

(f) The collection of assessments pursuant to § 1150.152(a) and (b) shall begin with respect to milk marketed on and after the effective date of this section and shall continue until terminated by the Secretary. If the Board is not constituted by the date the first assessments are to be collected, the Secretary shall have the authority to receive the assessments on behalf of the Board. The Secretary shall remit such assessments to the Board when it is constituted.

(g) Each person responsible for the remittance of the assessment pursuant to § 1150.152(a) and (b) shall remit the assessment to the Board not later than the last day of the month following the month in which the milk was marketed.

§ 1150.153 Qualified State or regional dairy product promotion, research or nutrition education programs.

(a) Any organization which conducts a State or regional dairy product promotion, research or nutrition education program may apply to the Secretary for certification of qualification so that producers may receive credit pursuant to § 1150.152(c) for contributions to such program.

(b) In order to be certified by the Secretary as a qualified program, the program must:

(2) Except for programs operated under the laws of the United States or any State, have been active and ongoing before enactment of the Act;

(3) Be financed primarily by producers, either individually or through cooperative associations;

(4) Not use a private brand or trade name in its advertising and promotion of dairy products unless the Board recommends and the Secretary concurs that such preclusion should not apply;

(5) Certify to the Secretary that any requests from producers for refunds under the program will be honored by forwarding to either the Board or a qualified State or regional program designated by the producer that portion of such refunds equal to the amount of credit that otherwise would be applicable to that program pursuant to § 1150.152(c); and

(6) Not use program funds for the purpose of influencing governmental policy or action.

(c) An application for certification of qualifications of any State or regional dairy product promotion, research or nutrition education program which does not satisfy the requirements specified in paragraph (b) of this section shall be denied. The certification of any qualified program which fails to satisfy the requirements specified in paragraph (b) of this section after certification shall be subject to suspension or termination.

(1) Prior to the denial of an application for certification of qualification, or the suspension or termination of an existing certification, the Director of the Dairy Division shall afford the applicant or the holder of an existing certification an opportunity to achieve compliance with the requirements for certification within a reasonable time, as determined by the Director.

(2) Any State or regional dairy product promotion, research or nutrition education program whose application for certification of qualification is to be denied, or whose certification of qualification is to be suspended or terminated shall be given written notice of such pending action and shall be afforded an opportunity to petition the Secretary for a review of the action. The petition shall be in writing and shall state the facts relevant to the matter for which the review is sought, and whether petitioner desires an informal hearing. If an informal hearing is not requested, the Director of the Dairy Division shall issue a final decision setting forth the action to be taken and the basis for such action. If petitioner requests a hearing, the Director of the Dairy Division, or a person designated by the Director, shall hold an informal hearing in the following manner:

(i) Notice of a hearing shall be given in writing and shall be mailed to the last known address of the petitioner or of the State or regional program, or to an officer thereof, at least 20 days before the date set for the hearing. the State or regional program as can reasonably be arranged.

(ii) Hearings are not to be public and are to be attended only by representatives of the petitioner or the State or regional program and of the U.S. Government, and such other parties as either the State or regional program or the U.S. Government desires to have appear for purposes of submitting information or as counsel.

(iii) The Director of the Dairy Division, or a person designated by the Director, shall be the presiding officer at the hearing. The hearing shall be conducted in such manner as will be most conducive to the proper disposition of the matter. Written statements or briefs may be filed by the petitioner or the State or regional program, or other participating parties, within the time specified by the presiding officer.

(iv) The presiding officer shall prepare preliminary findings setting forth a recommendation as to what action should be taken and the basis for such action. A copy of such findings shall be served upon the petitioner or the State or regional program by mail or in person. Written exceptions to the findings may be filed within 10 days after service thereof.

(v) After due consideration of all the facts and the exceptions, if any, the Director of the Dairy Division shall issue a final decision setting forth the action to be taken and the basis for such action.

(2) The Board shall ensure that the recipients of these funds implement a research and evaluation program to determine the effect of such program on consumption of fluid milk within the region.

(3) The recipient of these funds must provide to the Board data from the research and evaluation programs so that the Board can determine the effect of the program on consumption of fluid milk.

§ 1160.211 Assessments.

(a) (1) Each fluid milk processor shall pay to the Board or its designated agent an assessment of \$.20 per hundredweight of fluid milk products processed and marketed commercially in consumer-type packages in the United States by such fluid milk processor. Producer-handlers required to pay assessments under section 113(g) of the Dairy Production Stabilization Act of 1983 (7 U.S.C. 4504(g)), and not exempt under §1160.108, shall also pay the assessment under this subpart. No assessments are required on fluid milk products exported from the United States. The Secretary shall have the authority to receive assessments on behalf of the Board.

(2) The Secretary shall announce the establishment of the assessment each month in the Class I price announcement in each milk marketing area by adding it to the Class I price for the following month. In the event the assessment is suspended for a given month, the Secretary shall inform all fluid milk processors of the suspension in the Class I price announcement for that month. The Secretary shall also inform fluid milk processors marketing fluid milk in areas not subject to milk marketing orders administered by the Secretary of the establishment or suspension of the assessment.

(3) Each processor responsible for remitting an assessment shall remit it to the Board not later than the last day of the month following the month that the assessed milk was marketed.

(b) Such assessments shall not:

(1) Reduce the prices paid under the Federal milk marketing orders issued under section 8c of the Agricultural Adjustment Act (7 U.S.C. 608c), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937;

(2) Otherwise be deducted from the amounts that handlers must pay to producers for fluid milk products sold to a processor; or

(3) Otherwise be deducted from the price of milk paid to a producer by a handler, as determined by the Secretary.

(c) Money remitted to the Board or the Board's designated agent shall be in the form of a negotiable instrument made payable to the Board or its agent,

No funds collected by the Board under this subpart shall in any manner be used for the purpose of influencing governmental policy or action, except to recommend to the Secretary amendments to this subpart.

§ 1160.213 Adjustment of accounts.

Whenever the Board or the Secretary determines through an audit of a processor's reports, records, books or accounts or through some other means that additional money is due the Board or to such processor from the Board, the Board shall notify that person of the amount due or overpaid. If the processor owes money to the Board, it shall remit that amount by the next date for remitting assessments as provided in § 1160.211. If the processor has overpaid, that amount shall be credited to its account and applied against amounts due in succeeding months.

§ 1160.214 Charges and penalties.

(a) Late-payment charge. Any unpaid assessments shall be increased 1.5 percent each month beginning with the day following the date such assessments were due. Any remaining amount due, which shall include any unpaid charges previously made pursuant to this section, shall be increased at the same rate on the corresponding day of each month thereafter until paid. For the purpose of this section, any assessment determined at a date later than prescribed by this subpart because of the failure of a processor to submit a report to the Board when due shall be considered to have been payable by the date it would have been due if the report had been filed when due. The receipt of a payment by the Board will be based on the earlier of the post-mark date or the actual date of receipt.

(b) Penalties. The Secretary may assess any person who violates any provision of this subpart a civil penalty of

7 CFR Ch. X (1-1-00 Edition)

not less than \$500 nor more than \$5,000 for each such violation. In the case of a willful failure to pay an assessment as required by this subpart, in addition to the amount due, the Secretary may assess an additional penalty of not less than \$10,000 nor more than \$100,000 for each such violation. The amount of any such penalty shall accrue to the United States, which may recover such amount in a civil suit. The remedies provided in this section are in addition to, and not exclusive of, other remedies that may be available by law or in equity.

PROMOTION, CONSUMER EDUCATION AND RESEARCH

§ 1160.301 Promotion, consumer education and research.

(a) The Board shall receive and evaluate, or on its own initiative develop, and submit to the Secretary for approval any plans or projects authorized in §§ 1160.208 and 1160.209. Such plans or projects shall provide for:

(b) The Board shall periodically review or evaluate each plan or project authorized under § 1160.301(a) to ensure that it contributes to an effective program of promotion, consumer education and research. If the Board finds that any such plan or project does not further the purposes of the Act, the Board shall terminate that plan or project.

(c) No plan or project authorized under § 1160.301(a) may employ unfair or deceptive acts or practices with respect to the quality, value or use of any competing product.

(d) No plan or project authorized under § 1160.301(a) may make use of a brand or trade name of a fluid milk product, except that this paragraph does not preclude the Board from offering program material to commercial

Only those persons, as determined by the Secretary, who have a specific need for such information in order to effectively administer the pro-

In addition, they shall disclose only that information the Secretary deems relevant, and then only in a suit or administrative hearing brought at the discretion, or upon the request, of the Secretary, or to which the Secretary or any officer of the United States is a party, and involving this subpart. Nothing in this section, however, shall be deemed to prohibit:

(c) Any person violating this section, on conviction, shall be subject to a fine of not more than \$1,000 or to imprisonment for not more than 1 year, or both, and if such person is an agent of the Board or an officer or employee of the Department shall be removed from office.

(d) Nothing in this subsection authorizes the Secretary to withhold information from a duly authorized committee or subcommittee of Congress.
