[57 FR 33631, July 30, 1992, as amended at 59 FR 21921, Apr. 28, 1994; 59 FR 67613, Dec. 30, 1994]

**§ 79.3 Designation of scrapie-positive animals, source flocks, and infected flocks; notice to owners; publication.**

(a) An APHIS representative or State representative will determine an animal to be a scrapie-positive animal after determining that the animal has been diagnosed with scrapie in accordance with the definition of a scrapie-positive animal in § 79.1 of this part. An APHIS representative or State representative will determine a flock to be a source flock after reviewing sale, movement, and breeding records that indicate the flock meets the definition of a source flock. An APHIS representative or State representative will determine a flock to be an infected flock after determining that a scrapie-positive animal is in the flock.

(b) As soon as possible after making such a determination, an APHIS representative or State representative will attempt to notify the owner of the flock in writing that the flock contained a scrapie-positive animal, or is an infected flock, or source flock.<sup>2</sup> The notice will include a description of the interstate movement restrictions and identification requirements contained in this part.
