§ 95.4 Bone meal, blood meal, meat meal, offal, fat, glands, and serum from ruminants that have been in regions in which bovine spongiform encephalopathy exists.

(a) Except as provided in paragraphs (c) and (d) of this section, the importation of bone meal, blood meal, meat meal or tankage, offal, fat, and glands from ruminants that have been in any region listed in § 94.18 of this chapter, is prohibited.

(b) Except as provided in paragraphs (c) and (d) of this section, the importation of serum from ruminants that have been in any region listed in § 94.18 of this chapter is prohibited, except that serum from ruminants may be imported for scientific, educational, or research purposes if the Administrator determines that the importation can be made under conditions that will prevent the introduction of bovine spongiform encephalopathy into the United States. Serum from ruminants imported in accordance with this paragraph must be accompanied by a permit issued by the Animal and Plant Health Inspection Service in accordance with § 104.4 of this chapter, and must be moved and handled as specified on the permit.

(c) *Articles for cosmetics.* The importation of collagen, collagen products, amniotic liquids or extracts, placental liquids or extracts, serum albumin, and serocolostrum, derived from ruminants that have been in any region listed in § 94.18 of this chapter is prohibited unless the following conditions have been met:

(1) The article must be imported for use as an ingredient in cosmetics.

(2) The person importing the article must obtain a United States Veterinary Permit for Importation and Transportation of Controlled Materials and Organisms and Vectors by filing a permit application on VS form 16-3.¹

(3) The permit application must state the intended use of the article and the
