

## Department of Justice

## § 63.2

contain documentation from independent parties with expertise in the particular environmental matter when deemed appropriate. The coordinator shall return assessments that are found to be inadequate.

(b) Reviewing the environmental assessments and determining whether an Environmental Impact Statement is required or preparing a "Finding of No Significant Impact."

(c) Coordinating the efforts for the preparation of an Environmental Impact Statement consistent with the requirements of 40 CFR part 1502.

(d) Cooperating and coordinating efforts with other Federal agencies.

(e) Providing for agency training on environmental matters.

### 6. COMPLIANCE WITH OTHER ENVIRONMENTAL STATUTES

To the extent possible an environmental assessment, as well as an environmental impact statement, shall include information necessary to assure compliance with the following:

Fish and Wildlife Coordination Act, 16 U.S.C. 661, *et seq.*; the National Historic Preservation Act of 1966, 16 U.S.C. 470, *et seq.*; Flood Disaster Protection Act of 1973, 42 U.S.C. 400, *et seq.*; Clean Air Act and Federal Water Pollution Control Act, 42 U.S.C. 1857, *et seq.*; 33 U.S.C. 1251, *et seq.*; Safe Drinking Water Act, 42 U.S.C. 300, *et seq.*; Wild and Scenic Rivers Act, 16 U.S.C. 1271, *et seq.*; the Coastal Zone Management Act of 1972, 16 U.S.C. 1451, *et seq.*; and other environmental review laws and executive orders.

### 7. ACTIONS PLANNED BY PRIVATE APPLICANTS OR OTHER NON-FEDERAL ENTITIES

Where actions are planned by private applicants or other non-Federal entities before Federal involvement:

(a) The Policy and Management Planning Staff, Office of Criminal Justice Programs, LEAA, Room 1158B, 633 Indiana Ave., Washington, DC 20531, Telephone: 202/724-7659, will be available to advise potential applicants of studies or other information foreseeably required for later Federal action;

(b) OJARS will consult early with appropriate State and local agencies and with interested private persons and organizations when its own involvement is reasonably foreseeable;

(c) OJARS will commence its NEPA process at the earliest possible time (Ref. § 1501.2(d) CEQ Regulations).

### 8. SUPPLEMENTING AN EIS

If it is necessary to prepare a supplement to a draft or a final EIS, the supplement shall be introduced into the administrative record pertaining to the project. (Ref. § 1502.9(c)(3) CEQ Regulations).

### 9. AVAILABILITY OF INFORMATION

Information regarding status reports on EIS's and other elements of the NEPA process and policies of the agencies can be obtained from: Policy and Management Planning Staff, Office of Criminal Justice Programs, LEAA, Room 1158B, 633 Indiana Avenue, Washington, DC 20531, Telephone: 202/724-7659.

## PART 63—FLOODPLAIN MANAGEMENT AND WETLAND PROTECTION PROCEDURES

Sec.

- 63.1 Purpose.
- 63.2 Policy.
- 63.3 References.
- 63.4 Definitions.
- 63.5 Responsibilities.
- 63.6 Procedures.
- 63.7 Determination of location.
- 63.8 Implementation.
- 63.9 Exception.

AUTHORITY: 5 U.S.C. 301, Executive Order No. 11988 of May 24, 1977, and Executive Order No. 11990 of May 24, 1977.

SOURCE: Order No. 902-80, 45 FR 50565, July 30, 1980, unless otherwise noted.

### § 63.1 Purpose.

These guidelines set forth procedures to be followed by the Department of Justice to implement Executive Order 11988 (Floodplain Management) and Executive Order 11990 (Protection of Wetlands). (The Orders.)

### § 63.2 Policy.

(a) It is the Department of Justice's policy to avoid to the extent possible the long and short term adverse impacts associated with the destruction or modification of wetlands and floodplains and to avoid direct or indirect support of new construction in floodplains and wetlands whenever there is a practicable alternative. The Department will provide leadership and take affirmative action to carry out the Orders.

(b) It is the Department of Justice's intention to integrate these procedures with those required under statutes protecting the environment, such as the National Environmental Policy Act (NEPA). Whenever possible, the procedures detailed herein should be coordinated with other required documents, such as the environmental impact

### § 63.3

statement (EIS) or environmental assessment required under NEPA, so that unnecessary paperwork can be eliminated.

#### § 63.3 References.

(a) Unified National Program for Floodplain Management, Water Resources Council, which is incorporated in these guidelines.

(b) Water Resources Council Floodplain Management Guidelines, Water Resources Council, 1978 (43 FR 6030).

(c) National Flood Insurance Act of 1968, as amended (42 U.S.C. 4001 *et seq.*) and NFIP criteria (44 CFR part 59 *et seq.*).

(d) Flood Disaster Protection Act of 1973 (Pub. L. 93-234, 87 Stat. 975).

(e) National Environmental Policy Act of 1969, as amended (43 U.S.C. 4321 *et seq.*) (NEPA).

#### § 63.4 Definitions.

Throughout this part, the following basic definitions shall apply:

(a) *Action*—any Federal activity including:

(1) Acquiring, managing and disposing of Federal lands and facilities;

(2) Providing federally undertaken, financed, or assisted construction and improvements; and

(3) Conducting Federal activities and program affecting land use, including but not limited to water and related land resources planning, regulating, and licensing activities.

(b) *Agency*— an executive department, a government corporation, or an independent establishment and includes the military departments.

(c) *Base flood*— that flood which has a one percent chance of occurrence in any given year (also known as a *100-year flood*). (This term is used in the National Flood Insurance Program (NFIP) to indicate the minimum level of flooding to be used by a community in its floodplain management regulations.)

(d) *Base floodplain*— the 100-year floodplain (one percent chance floodplain). Also see definition of floodplain.

(e) *Channel*— a natural or artificial watercourse of perceptible extent, with a definite bed and banks to confine and conduct continuously or periodically flowing water.

### 28 CFR Ch. I (7-1-01 Edition)

(f) *Critical action*—any activity for which even a slight chance of flooding would be too great.

(g) *Facility*— any man-made or man-placed item other than a structure.

(h) *Flood or flooding*— a general and temporary condition of partial or complete inundation of normally dry land areas from the overflow of inland and/or tidal waters, and/or the usual and rapid accumulation or runoff of surface waters from any source.

(i) *Flood fringe*— that portion of the floodplain outside of the regulatory floodway (often referred to as “floodway fringe”).

(j) *Floodplain*— the lowland and relatively flat areas adjoining inland and coastal waters including floodprone areas of offshore islands, including at a minimum, that area subject to a one percent or greater chance of flooding in any given year. The base floodplain shall be used to designate the 100-year floodplain (one percent chance floodplain). The critical action floodplain is defined as the 500-year floodplain (0.2 percent chance floodplain).

(k) *Floodproofing*— the modification of individual structures and facilities, their sites, and their contents to protect against structural failure, to keep water out or to reduce effects of water entry.

(l) *Minimize*— to reduce to the smallest possible amount or degree.

(m) *One percent chance flood*— the flood having one chance in 100 of being exceeded in any one-year period (a large flood). The likelihood of exceeding this magnitude increases in a time period longer than one year. For example, there are two chances in three of a larger flood exceeding the one percent chance flood in a 100-year period.

(n) *Practicable*— capable of being done within existing constraints. The test of what is practicable depends upon the situation and includes consideration of the pertinent factors, such as environment, cost or technology.

(o) *Preserve*— to prevent modification to the natural floodplain environment or to maintain it as closely as possible to its natural state.

(p) *Regulatory floodway*— the area regulated by Federal, State or local requirements; the channel of a river or other watercourse and the adjacent
