Cite this Code: CFR

To cite the regulations in this volume use title, part and section number. Thus, 36 CFR 200.1 refers to title 36, part 200, section 1.
Explanation

The Code of Federal Regulations is a codification of the general and permanent rules published in the Federal Register by the Executive departments and agencies of the Federal Government. The Code is divided into 50 titles which represent broad areas subject to Federal regulation. Each title is divided into chapters which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas.

Each volume of the Code is revised at least once each calendar year and issued on a quarterly basis approximately as follows:

- Title 1 through Title 16 .............................................................. as of January 1
- Title 17 through Title 27 ................................................................. as of April 1
- Title 28 through Title 41 ................................................................. as of July 1
- Title 42 through Title 50 ............................................................. as of October 1

The appropriate revision date is printed on the cover of each volume.

LEGAL STATUS

The contents of the Federal Register are required to be judicially noticed (44 U.S.C. 1507). The Code of Federal Regulations is prima facie evidence of the text of the original documents (44 U.S.C. 1510).

HOW TO USE THE CODE OF FEDERAL REGULATIONS

The Code of Federal Regulations is kept up to date by the individual issues of the Federal Register. These two publications must be used together to determine the latest version of any given rule.

To determine whether a Code volume has been amended since its revision date (in this case, July 1, 2001), consult the “List of CFR Sections Affected (LSA),” which is issued monthly, and the “Cumulative List of Parts Affected,” which appears in the Reader Aids section of the daily Federal Register. These two lists will identify the Federal Register page number of the latest amendment of any given rule.

EFFECTIVE AND EXPIRATION DATES

Each volume of the Code contains amendments published in the Federal Register since the last revision of that volume of the Code. Source citations for the regulations are referred to by volume number and page number of the Federal Register and date of publication. Publication dates and effective dates are usually not the same and care must be exercised by the user in determining the actual effective date. In instances where the effective date is beyond the cutoff date for the Code a note has been inserted to reflect the future effective date. In those instances where a regulation published in the Federal Register states a date certain for expiration, an appropriate note will be inserted following the text.

OMB CONTROL NUMBERS

The Paperwork Reduction Act of 1980 (Pub. L. 96–511) requires Federal agencies to display an OMB control number with their information collection request.
Many agencies have begun publishing numerous OMB control numbers as amendments to existing regulations in the CFR. These OMB numbers are placed as close as possible to the applicable recordkeeping or reporting requirements.

OBSOLETE PROVISIONS

Provisions that become obsolete before the revision date stated on the cover of each volume are not carried. Code users may find the text of provisions in effect on a given date in the past by using the appropriate numerical list of sections affected. For the period before January 1, 1986, consult either the List of CFR Sections Affected, 1949–1963, 1964–1972, or 1973–1985, published in seven separate volumes. For the period beginning January 1, 1986, a “List of CFR Sections Affected” is published at the end of each CFR volume.

CFR INDEXES AND TABULAR GUIDES

A subject index to the Code of Federal Regulations is contained in a separate volume, revised annually as of January 1, entitled CFR INDEX AND FINDING AIDS. This volume contains the Parallel Table of Statutory Authorities and Agency Rules (Table 1). A list of CFR titles, chapters, and parts and an alphabetical list of agencies publishing in the CFR are also included in this volume.

An index to the text of “Title 3—The President” is carried within that volume.

The Federal Register Index is issued monthly in cumulative form. This index is based on a consolidation of the “Contents” entries in the daily Federal Register.

A List of CFR Sections Affected (LSA) is published monthly, keyed to the revision dates of the 50 CFR titles.

REPUBLICATION OF MATERIAL

There are no restrictions on the republication of material appearing in the Code of Federal Regulations.

INQUIRIES

For a legal interpretation or explanation of any regulation in this volume, contact the issuing agency. The issuing agency’s name appears at the top of odd-numbered pages.

For inquiries concerning CFR reference assistance, call 202-523–5227 or write to the Director, Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408 or e-mail info@fedreg.nara.gov.

SALES

The Government Printing Office (GPO) processes all sales and distribution of the CFR. For payment by credit card, call 202–512–1800, M–F 8 a.m. to 4 p.m. e.s.t. or fax your order to 202–512–2250, 24 hours a day. For payment by check, write to the Superintendent of Documents, Attn: New Orders, P.O. Box 371954, Pittsburgh, PA 15250–7954. For GPO Customer Service call 202–512–1803.

ELECTRONIC SERVICES

The Office of the Federal Register also offers a free service on the National Archives and Records Administration’s (NARA) World Wide Web site for public law numbers, Federal Register finding aids, and related information. Connect to NARA’s web site at www.nara.gov/fedreg. The NARA site also contains links to GPO Access.

RAYMOND A. MOSLEY,
Director,
Office of the Federal Register.

July 1, 2001.
THIS TITLE

Title 36—PARKS, FORESTS, AND PUBLIC PROPERTY is composed of three volumes. The parts in these volumes are arranged in the following order: parts 1 to 199, parts 200 to 299, and part 300 to End. The contents of these volumes represent all current regulations codified under this title of the CFR as of July 1, 2001.

Redesignation tables appear in the Finding Aids section of the third volume.
Would you like to know... 

if any changes have been made to the Code of Federal Regulations or what documents have been published in the Federal Register without reading the Federal Register every day? If so, you may wish to subscribe to the LSA (List of CFR Sections Affected), the Federal Register Index, or both.

LSA
The LSA (List of CFR Sections Affected) is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. The LSA is issued monthly in cumulative form. Entries indicate the nature of the changes—such as revised, removed, or corrected. $31 per year.

Federal Register Index
The index, covering the contents of the daily Federal Register, is issued monthly in cumulative form. Entries are carried primarily under the names of the issuing agencies. Significant subjects are carried as cross-references. $28 per year.

A finding aid is included in each publication which lists Federal Register page numbers with the date of publication in the Federal Register.

Superintendent of Documents Subscription Order Form

Order Processing Code  □ YES, send me the following indicated subscriptions for one year:
                  LSA (List of CFR Sections Affected), (LCS) for $31 per year.
                  Federal Register Index (FRSU) $28 per year.

The total cost of my order is $ .

For privacy check box below:
□ Do not make my name available to other mailers

Check method of payment:
□ Check payable to Superintendent of Documents
□ GPO Deposit Account □  □
□ VISA □ MasterCard □  □ (expiration date)

Credit card No. (must be 20 digits)

Thank you for your order!

Fax your orders (202) 512–2250
Phone your orders (202) 512–1800

PART 200—ORGANIZATION, FUNCTIONS, AND PROCEDURES

Subpart A—Organization

Sec.
200.1 Central organization
200.2 Field organization.

Subpart B—Functions and Procedures

200.3 Forest Service functions.
200.4 Administrative issuances.
200.5 Indexes.
200.6 Information available; inspection, copying, and charges.
200.7 Request for records.
200.8 Appeals.
200.12 Land status and title records.

Subpart A—Organization

§ 200.1 Central organization.

(a) Central office. The national office of the Forest Service, U.S. Department of Agriculture, is located in the Auditor’s Building, 14th and Independence Avenue, SW, Washington, DC. It consists of the Office of the Chief and Associate Chief, and a Deputy Chief for each of the following five activities: Programs and Legislation, National Forest System, Research, State and Private Forestry, and Administration. All communications should be addressed to the Forest Service, Department of Agriculture, P.O. Box 96090, Washington, DC 20090–6090.

(b) Chief of the Forest Service. The Chief of the Forest Service, under the direction of the Secretary of Agriculture, administers the formulation, direction, and execution of Forest Service policies, programs, and activities.

(c) Deputy Chiefs. The major activities of the Forest Service at the headquarters level are divided into five Deputy Chief areas with each further divided into staff units. The programs and functions of staff units are directed by staff directors and may be subdivided into groups headed by group leaders. A description of the major activities of each Deputy Chief follows:

(1) Programs and legislation. Overall planning of Forest Service programs, policy formulation and analysis, budgeting, legislative development, report-
§ 200.2  Forest Service participation in rural development and environmental concern, including civil defense and other emergency activities.

(5) Administration. Provide support for Forest Service programs through management improvement, fiscal and accounting, administrative services, personnel management, manpower and youth conservation, antipoverty programs, communication and electronics, internal review system, external audits, coordination of civil rights activities, public information, and Service-wide management of systems and computer applications.

§ 200.2 Field organization.

The field organization of the Forest Service consists of regions, stations, and areas as described below:

(a) Regions of the National Forest System. For the purpose of managing the lands administered by the Forest Service, the United States is divided into nine geographic regions of the National Forest System. Each region has a headquarters office and is supervised by a Regional Forester who is responsible to the Chief for the activities assigned to that region. Within each region are located national forests and other lands of the Forest Service.

(1) National Forests. Each Forest has a headquarters office and is supervised by a Forest Supervisor who is responsible to the Regional Forester. Two or more proclaimed or designated National Forests, or all of the Forests in a State, may be combined into one Forest Service Administrative Unit headed by one Forest Supervisor. Each Forest is divided into Ranger Districts. The Alaska Region is composed of two National Forests without Ranger Districts; with one Forest divided into three areas, each administered by a Forest Supervisor.

(2) Ranger districts. Each district may include a portion of a national forest, a national grassland or portion thereof, a national recreation area, a wilderness or primitive area, and other lands administered by the Forest Service. Each district has a headquarters office and is supervised by a District Ranger (or Area Ranger in some cases) who is responsible to the Forest Supervisor.

(b) Forest and rangeland research coordination. The field research program is coordinated by six research stations, the national Forest Products Laboratory, and the International Institute of Tropical Forestry. Each has a headquarters office and a Director who is responsible to the Chief for all research activities within a geographical area of the United States or its territories.

Scientists are based at Research Work Units with laboratories located in 36 lower States, Hawaii, Alaska, and Puerto Rico. Scientists primarily conduct their work within a given geographical area, but due to the integrated and cooperative nature of the research program, they make work nationwide and internationally.

(c) State and private forestry cooperation. Field level cooperation between the Forest Service, States, and the private sector on forestry activities is accomplished by the Northeastern Area State and Private Forestry for the Northeastern States; and by the National Forest Regional Offices in the Southeastern and Western States. The Northeastern Area is supervised by an Area Director who is responsible to the Chief for State and private forestry activities within the Area. Regional Foresters in Regions 1 through 8 and Region 10 are responsible for State and private forestry activities within those regions.

(d) International Institute of Tropical Forestry. The Institute is managed by a Director who is the senior Forest Service official in Puerto Rico. The Director is responsible to the Chief for planning and directing research, science and technology exchange, technical assistance to the Commonwealth of Puerto Rico, and international cooperation on natural resources concerning tropical forestry.

(e) Field addresses. The addresses of Regional Foresters, Station Directors, and Area Directors are given below. Under each Regional Office address is a list of National Forest Administrative Units by States with locations of Forest Supervisor headquarters. Headquarters locations for Ranger Districts, National Grasslands, and National
Recreation Areas are not listed but may be obtained from Forest Supervisors or Regional Foresters.

Subpart B—Functions and Procedures

§ 200.3 Forest Service functions.

(a) Legislative authority. The basic laws authorizing activities of the Forest Service are set forth in the U.S.C. in title 7 (Agriculture), chapters 14, 17, 33, 35, 59, and 61; title 16 (Conservation), chapters 2, 3, 4, 5c, 6, 12, 16, 23, 27, 29, 30, 33, and 37; title 20 (Labor), chapter 17; and title 43 (Public Lands), chapters 22 and 35.

(b) Work of the Forest Service. Under delegated authority from the Secretary of Agriculture, the broad responsibilities of the Forest Service are:

1. Leadership in forestry. The Forest Service provides overall leadership in forest and forest-range conservation, development, and use. This involves determination of forestry conditions and requirements, and recommendations of policies and programs needed to keep the Nation's private and public lands fully productive.

§ 200.4

(i) The National Forest System comprises about 188 million acres of land in the National Forests, National Grasslands, and other areas which have been transferred to the Forest Service for administration. On these public lands:

(A) Forestry methods are applied in growing and harvesting timber,

(B) Forage is scientifically managed for the use of domestic livestock whose numbers are kept in balance with the carrying capacity of the range,

(C) Wildlife habitat and species are managed,

(D) Watersheds are managed to safeguard the water supply and stabilize streamflow,

(E) Recreation resources are managed for public enjoyment and benefit,

(F) Many forms of land and resource use are granted under permit or lease, and

(G) Physical and resource improvements needed to develop, protect, and use all resources are built and maintained.

(3) Cooperative forestry. The Forest Service carries out cooperative forestry programs for public benefit through programs initiated by State, county, and other Federal agencies in accordance with the Cooperative Forestry Assistance Act of July 1, 1978 (16 U.S.C. 2101–2111). These programs are directed at the protection, development, and sustained production of all forestry resources, both public and private.

(4) Forest research. The Forest Service conducts research on problems involving protection, development, management, renewal, and continuous use of all resources, products, values, and services of forest lands in accordance with the Forest and Rangeland Renewable Resources Research Act of June 30, 1978 (16 U.S.C. 1641–1647). Research is conducted on:

(i) Forest and range management, including the five basic resources of timber, forest soil and water, range forage, wildlife and fish habitat, and forest recreation,

(ii) Forest protection from fire, insects, and disease,

(iii) Forest products and engineering, and

(iv) Forest resource economics including forest survey, forest economics, and forest products marketing.

[44 FR 37505, June 27, 1979]

§ 200.4 Administrative issuances.

(a) The regulations of the Secretary of Agriculture governing the protection and administration of National Forest System lands and other programs of the Forest Service are set forth in Chapter 2 of Title 36 of the Code of Federal Regulations.

(b) Administrative policy, procedure, and guidance to Forest Service employees for the conduct of Forest Service activities are issued as directives, or through correspondence, by the office of the Chief of the Forest Service and by the field officers listed in §200.2.

(1) Directives are issued through the Forest Service Directive System, which is comprised of the Forest Service Manual and related Forest Service Handbooks. The Directive System codifies the agency’s policy, practice, and procedure affecting more than one unit and the delegations of continuing authority and assignment of continuing responsibilities; serves as the primary administrative basis for the internal management and control of all programs; and is the primary source of administrative direction to Forest Service employees.

(2) In contrast to direction issued through the Directive System, guidance issued to one or more organizational units through letters and memoranda relate to decisions or interpretations on specific activities, cases, or incidents or to other matters of agency business, especially those matters of short-term duration or immediate interest.

(c) Forest Service Directive System issuances are published under delegated authority as follows:

(1) The Forest Service Manual and Forest Service Handbook issuances to all Forest Service units are published by the Office of the Chief.

(2) Forest Service Manual and Forest Service Handbook issuances may be supplemented as needed for field office use by a Regional Forester, a Regional
Forest Service, USDA

§ 200.6 Information available; inspection, copying, and charges.

(a) In accordance with 5 U.S.C. 552(a) and 7 CFR 1.2, the Forest Service shall make available for public inspection and copying all published or unpublished directives, forms, records, and final opinions, including concurring or dissenting opinions and orders made in the adjudication of cases. Charges for information requested from the Forest Service are set out in paragraph (d) of this section and vary according to the type of information requested.

(b) Information made available pursuant to paragraph (a) of this section may be obtained at the Office of the Chief, or the office of any Regional Forester, Research Station Director, Area Director, Institute Director, Forest Supervisor, or District Ranger. The addresses of these offices are set forth in §§ 200.1 and 200.2. Forest Service personnel at these offices will assist members of the public seeking Forest Service records. However, Research Station and Institute Directors and District Rangers may not have all volumes of the Forest Service Manual and Handbooks. When the information requested is not available at a given location, the personnel where the request is received will direct the requester to another office where the information may be obtained.

(c) Inspection and copying availability is as follows:

(1) Facilities for inspection and copying are available at the offices listed in §§ 200.1 and 200.2, during established office hours for the particular location, usually 8 a.m. to 5 p.m., Monday through Friday. Copying facilities may not be available at all Forest Service offices.

(2) Requesters for information may make copies of available information without charge if they elect to bring their own copy equipment to the appropriate offices listed in §§ 200.1 and 200.2.

(3) Requesters should make prior arrangements for using agency copying facilities or for bringing in copying equipment and, in the later case, should get advance approval from the office.

(d) Any request for information pursuant to the provisions of the Freedom of Information Act must be submitted in accordance with §§ 200.7 and 200.8. The Forest Service charges a fee for copies of records not generally made available to the public but released pursuant to a FOIA request in accordance with a schedule of fees established by the Department of Agriculture at 7 CFR Part 1, Subpart A, Appendix A.
§ 200.7 Request for records.

Requests for records and the processing of those records are governed by the rules at 7 CFR 1.6. Agency officials are authorized to receive and act on requests for records as follows:

(a) The Regional Forester, Regional Special Agent in charge, Research Station Director, Area Director, and Institute Director at the field locations and addresses listed in § 200.2; the Director of Law Enforcement and Investigations, other Staff Directors, or other officials whom the Chief may authorize, located in the Washington Office, are authorized to receive requests for such records, to make determinations regarding whether records exist, and to grant or deny requests for records exempt from disclosure under the provisions of 5 U.S.C. 552(b).

(b) Each of the officials listed in paragraph (a) of this section also is authorized to take the following actions:

1. Extend the 10-day administrative deadline for reply pursuant to 7 CFR 1.14;
2. Make discretionary releases pursuant to 7 CFR 1.17(b) of records exempt from mandatory disclosure;
3. Deny records pursuant to 5 U.S.C. 552(b); and
4. Make determinations regarding the charges of fees pursuant to 7 CFR 1.8(a).

§ 200.8 Appeals.

(a) Appeals from denials of requests submitted under § 200.7 shall be submitted in accordance with U.S. Department of Agriculture rules at 7 CFR part 1, subpart A, and the appendix to subpart A to the Chief, Forest Service, U.S. Department of Agriculture, Auditors Building, 14th and Independence Avenue, S.W., P.O. Box 96090, Washington, DC 20090-6090.

(b) The Chief, or other official to whom such authority is delegated, shall determine whether to grant or deny the appeal and make all necessary determinations relating to an extension of the 20-day administrative deadline for reply, discretionary release of records exempt from mandatory disclosure under 5 U.S.C. 552(b), and charging the appropriate fees, pursuant to U.S. Department of Agriculture rules at 7 CFR part 1, subpart A, and the appendix to subpart A.

(c) The Forest Service Freedom of Information Act/Privacy Act Officer must review all proposed responses to appeals prior to signature.

[63 FR 53812, Oct. 7, 1998, as amended at 63 FR 66049, Nov. 6, 1998]

§ 200.12 Land status and title records.

(a) Land Status Records System. The Land Status Records System is the official, permanent repository for all agency realty records and land title documents for National Forest System lands. It includes an automated database which contains an accurate account of acreage, condition of title, administrative jurisdiction, rights held by the United States, administrative and legal use restrictions, encumbrances, and access rights on land or interests in land in the National Forest System.

(i) Components. The system shall include, but is not limited to, the following components:

1. A current and accurate Land Status Atlas for each National Forest, National Grassland, and other proclaimed or designated administrative unit, which shall graphically portray on maps keyed to a tabular summary the following categories of information:
(A) Jurisdiction of and condition of title to lands administered as part of the National Forest System.
(B) All encumbrances on National Forest System lands.
(C) All partial interests administered by the Forest Service on other lands.
(D) All use restrictions, withdrawals, and special designated areas on National Forest System lands.
(E) The acreage of National Forest System lands, including riparian lands.

(ii) A master Land Status File, from which the agency data for the Atlas is derived and which includes the following:
(A) Discrete title files of each landownership adjustment.
(B) The original authorizing documents establishing or adjusting National Forest System lands and interests therein.
(C) Withdrawals, use restrictions, and special designated areas on National Forest System lands.
(D) Other information as deemed necessary.

(iii) Such reporting systems as are needed to provide title or status reports.

(2) Display of Information. Information in the system may be collected and maintained in narrative, graphic, tabular, or other form and may be entered into and maintained in automated systems as well as produced in paper form in accordance with such administrative direction as the Chief of the Forest Service or Regional Foresters may establish.

(b) Availability. A Land Status Atlas shall be maintained at each National Forest administrative unit or subunit, such as Ranger Districts or National Recreation Area offices. Each Regional Office shall maintain copies of the Atlas for all National Forests within that Region. Related land title and realty records as are held at an administrative unit shall be available for public inspection.

PART 211—ADMINISTRATION

§ 211.4 Cooperation

Subpart A—Cooperation

Sec.
211.1–211.2 [Reserved]
211.3 Cooperation with State officers.
211.4 Cooperation for fire prevention and control.
211.5 Emergency fire suppression assistance.

Subpart B—Appeal of Decisions Concerning the National Forest System

211.16 Appeal of resource recovery and rehabilitation decisions resulting from natural catastrophes.
211.17 Appeal of decisions to reoffer returned or defaulted timber sales on National Forests.
211.18 Appeal of decisions of forest officers.

Subpart A—Cooperation

§§ 211.1–211.2 [Reserved]

§ 211.3 Cooperation with State officers.

All forest officers will cooperate with State officials, insofar as practicable, to enforce State fire, game, and health laws. They are authorized to accept appointments, without compensation, as deputy State fire wardens, game wardens, and/or health officers whenever in the judgment of the Chief of the Forest Service the performance of the duties required by these offices will not interfere with their duties as Federal forest officers.

[1 FR 1261, Aug. 15, 1936]

§ 211.4 Cooperation for fire prevention and control.

The Forest Service shall, whenever possible, and is hereby authorized to enter into such agreements with private owners of timber, with railroads, and with other industrial concerns operating in or near the national forests as will result in mutual benefit in the prevention and suppression of forest fires: Provided, That the service required of each party by such agreements shall be in proportion to the benefits conferred.

[1 FR 1261, Aug. 15, 1936]
§ 211.5 Emergency fire suppression assistance.

(a) Definitions. For the purpose of this subpart these definitions apply:

(1) Prescribed fire means a fire burning under a set of specified conditions which will accomplish certain planned resource management objectives.

(2) Escaped prescribed fire means a prescribed fire which has either exceeded the prescription or has rekindled after it has been declared to be out.

(b) In the absence of a written reciprocal agreement with any fire organization or in situations outside the scope of an agreement, the Forest Service is authorized to render emergency assistance in suppressing fires and in preserving life and property from the threat of fire within the vicinity of Forest Service fire protection facilities under the following conditions:

(1) If a prescribed fire initiated on lands administered by the Forest Service escapes onto lands not administered by the Forest Service, the Forest Service may commit personnel, materials, and equipment without reimbursement or consideration of the fire's continuing threat to National Forest System lands or resources.

(2) When requested, the Forest Service may commit personnel, materials, and equipment on a reimbursable basis on lands not administered by the Forest Service without regard to the fire's threat to National Forest System lands or resources.

[48 FR 44537, Sept. 29, 1983]

§ 211.6 Cooperation in forest investigations or the protection, management, and improvement of the National Forest System.

(a) Purpose and scope. Forest Service officers, when engaged in cooperative activities otherwise authorized, may receive monies from cooperators only for cooperative work in forest investigations or for the protection, management, and improvement of the National Forest System and only in accordance with written cooperative agreements. Management of the National Forest System may include such work as planning, analysis, and related studies, as well as resource activities.

(b) Reimbursements. Agency expenditures for work undertaken in accordance with this section may be made from Forest Service appropriations available for such work, with subsequent reimbursement from the cooperator, in accordance with established written agreements. Forest Service officers shall issue written bills for collection for cooperator reimbursement payments within the same fiscal year as Forest Service expenditures.

(c) Bonding. Each written agreement involving a non-Government cooperator's total contribution of $25,000 or more to the Forest Service on a reimbursable basis, must include a provision requiring a payment bond to guarantee the cooperator's reimbursement payment. Acceptable security for a payment bond includes Department of the Treasury approved corporate sureties, Federal Government obligations, and irrevocable letters of credit. For the purposes of this section, a non-Government cooperator is an entity that is not a member, division, or affiliate of a Federal, State, or local government.

(d) Avoiding conflict of interest. Forest Service officers shall avoid acceptance of contributions from cooperators when such contributions would reflect unfavorably upon the ability of the Forest Service to carry out its responsibilities and duties. Forest Service officers shall be guided by the provisions of 18 U.S.C. parts 201-209, 5 CFR part 2635, and applicable Department of Agriculture regulations, in determining if a conflict of interest or potential conflict of interest exists in a proposed cooperative effort. Forest Service ethics officials or the designated Department of Agriculture ethics official should be consulted on conflict of interest issues.

[64 FR 60678, Nov. 8, 1999]
§ 211.16 Lands and resources damaged in natural catastrophes.

(b) Matters subject to appeal. The procedures established in this section apply only to initial written decisions concerning resource removal, recovery, and rehabilitation activities resulting from natural catastrophes, such as forest fires, insect and disease epidemics, floods, winds, and earthquakes, that result from documentation required by the National Environmental Policy Act and its implementing regulations, policies, and procedures. Notice of the decisions appealable under this section and made after the effective date of this regulation shall be published in a local newspaper of general circulation immediately following the documentation referenced above. Subsequent implementing decisions, such as advertising timber salvage sales and/or awarding contracts, are not appealable under this section or 36 CFR 211.18.

(c) Who may appeal. The process set forth in this section is available to any individual or organization wishing to appeal a decision arising from resource removal, recovery, and rehabilitation activities resulting from natural catastrophe.

(d) Who may comment. Any person or organization interested in an appeal of a decision under this subpart may submit written comments to the Reviewing Officer for inclusion in the record.

(e) Levels of appeal. One level of administrative appeal is available.

(f) Filing procedures. (1) To appeal a decision under this section, an appellant must file a written notice of appeal with the Reviewing Officer. If an appellant wishes to request a stay of implementation of the decision, the request must accompany the notice of appeal and be made in accordance with paragraph (i) of this section. The appellant must simultaneously provide a copy of the notice of appeal and any stay request to the Forest officer making the initial decision.

(2) All notices of appeal must be filed within 30 days of publication of the notice of decision.

(g) Extensions of time. There shall be no extension of the time periods specified in this section for either an appellant or the Forest Service.

(h) Content of notice of appeal. Parties appealing a decision under this section must include the following information in the written notice of appeal:

(1) The specific activity being appealed;

(2) The date notice of the decision was published;

(3) The Forest Officer who made the decision;

(4) How the appellant is affected by the decision; and

(5) The relief desired.

(i) Stays. (1) To request a stay, the appellant must:

(i) File a written request with the Reviewing Officer at the time the appeal is filed, simultaneously providing a copy to the Forest officer who made the initial decision in question.

(ii) Provide a written justification of the need for a stay, which includes a description of the specific activities to be stayed, and specific reasons why the stay should be granted, including:

(A) Harmful site-specific impacts or effects on resources in the area affected by the activity; and

(B) How the cited effects and impacts would prevent a meaningful decision on the merits.

(2) The Reviewing Officer shall rule on a stay request no later than 10 calendar days from receipt.

(i) If a stay is granted, the stay shall specify the activities to be stopped, duration of the stay, and reasons for granting the stay.

(ii) If a stay is denied in whole or in part, the decision shall specify the reasons for the denial.

(iii) A copy of the stay decision shall be sent to the appellant and the Forest Officer who made the initial decision.

(iv) A Reviewing Officer’s decision on a stay is not subject to further appeal or review.

(j) Review procedures. (1) The Reviewing Officer shall determine if the notice of appeal has been timely filed. In the event of question, legible postmarks will be considered evidence of
§211.17 Appeal of decisions to reoffer returned or defaulted timber sales on National Forests.

(a) Purpose. These rules provide an expedited and streamlined administrative appeal process for decisions to reoffer sales of timber that were returned to the Government under the provisions of the Federal Timber Contract Modification Payment Act of 1984 (16 U.S.C. 618) or that were defaulted by the purchaser.

(b) Matters subject to appeal. The procedures established in this section by the Forest Officer making the initial decision.

(3) The Reviewing Officer’s decision is the final administrative decision of the Department of Agriculture and that decision is not subject to further review under this section or any other appeal regulation.

(m) Dismissal. (1) A Reviewing Officer shall dismiss an appeal without decision on the merits when:

(i) The appeal is not received within the time specified in paragraph (f) of this section;

(ii) The requested relief cannot be granted under existing facts, law or regulation;

(iii) The notice of appeal does not meet the requirements of paragraph (h) of this section;

(iv) The appellant withdraws the appeal;

(v) The Forest Officer making the initial decision withdraws that decision.

(2) A Reviewing Officer’s decision to dismiss is not subject to further appeal or review.

(3) A Reviewing Officer shall give written notice of a dismissal to the appellant and Forest Officer whose initial decision or appeal decision is being appealed.

(n) Continuance. Provisions of 36 CFR 211.18 will remain in effect for appeals of decisions concerning activities that result from natural catastrophes filed prior to May 13, 1988.

(o) Applicability and effective date. The procedures of this section shall not apply to any appeal received after February 22, 1989.

[53 FR 17032, May 13, 1988, as amended at 54 FR 3357, Jan. 23, 1989]
apply only to decisions to reoffer timber sales resulting from returned or defaulted timber sale contracts. Implementing decisions, such as advertising and/or awarding a reoffered sale, made subsequent to the initial decision to reoffer a returned or defaulted sale are not appealable under this section or 36 CFR 211.18.

(c) Notice requirements. (1) Notice of decisions appealable under this section and made after April 22, 1988, shall be published in a local newspaper of general circulation and also shall be provided in writing to parties to written instruments issued by the Forest Service who are known to be affected by the decision, as well as to any other interested persons or organizations who have requested notification of the specific decision.

(2) If the sale that is the subject of an appeal has been bid upon or awarded, the Reviewing Officer shall immediately notify the apparent high bidder or sale awardee of the appeal and the opportunity to comment as provided for in paragraph (f) of this section.

(d) Who may appeal. The process set forth in this section is available to:

(1) Any individual or organization who, following publication of the interim rule at 36 CFR 211.17 on January 28, 1988, submitted a timely Notice of Appeal on a decision to reoffer a sale of returned or defaulted timber.

(2) Any other individual or organization wishing to appeal a decision made prior to January 28, 1988, to reoffer a sale of returned or defaulted timber.

(3) Except as provided in paragraph (e) of this section, any individual or organization may appeal a decision made after January 28, 1988, to reoffer timber resulting from returned or defaulted timber sales.

(e) Who may not appeal. The process set forth in this section is not available to the defaulting purchaser of the original timber sale that is being or has been reoffered.

(f) Who may comment. Any person or organization interested in an appeal of a decision under this subpart may submit written comments to the Reviewing Officer for inclusion in the record.

(g) Levels of appeal. For decisions to reoffer timber sales made after October 30, 1986, one level of administrative appeal is available. For decisions to reoffer timber sales made prior to October 30, 1986, two levels of administrative appeal are available; the second level being to the next higher administrative level.

(1) Appeals of decisions to reoffer timber sales made by a District Ranger shall be filed with the Forest Supervisor.

(2) Appeals of decisions to reoffer timber sales made by a Forest Supervisor shall be filed with the Regional Forester.

(h) Filing procedures. To appeal a decision under this section, an appellant must file a written notice of appeal with the Reviewing Officer. If an appellant wishes to request a stay of implementation of the decision, the request must accompany the notice of appeal and be made in accordance with paragraph (j) of this section. The appellant must simultaneously provide a copy of the notice of appeal and any stay request to the Forest officer making the initial decision to reoffer.

(1) For appeals filed pursuant to paragraph (d)(1) of this section, the notice of appeal must have been submitted by February 29, 1988.

(2) All notices of appeal pursuant to paragraph (d)(2) of this section must be submitted by May 23, 1988.

(3) All notices of appeal pursuant to paragraph (d)(3) of this section must be filed within 30 days of publication of the notice of decision, or from the date of the written decision for those parties pursuant to paragraph (c)(1) of this section entitled to receive written decision.

(1) Extensions of time. There shall be no extension of the time periods specified in this section for either an appellant or the Forest Service.

(j) Content of notice of appeal. Parties appealing a decision to reoffer a sale must include the following information in the written notice of appeal:

(1) The timber sale being appealed;

(2) Either the decision date or the date notice of the decision was published;

(3) The Forest Officer who made the decision;

(4) How the appellant is affected by the decision;

(5) The relief desired; and
§211.17

(6) A description of environmentally significant modifications or changed circumstances which are alleged to have occurred between when the initial timber sale was offered and sold and the date of the appeal on the decision to reoffer the sale.

(k) Second level appeals. For appeals to the second level filed pursuant to paragraph (g) of this section, a notice of appeal must be filed with the next higher administrative level within 15 days from the date of the first level Reviewing Officer’s appeal decision. If the first level Reviewing Officer is the Forest Supervisor, the appeal is to the Regional Forester. If the first level Reviewing Officer is the Regional Forester, the appeal is to the Chief. The notice need only include the documents submitted at the previous level, the first level decision letter, and a statement addressing why the appellant believes the Reviewing Officer’s decision is erroneous. A copy of that statement must be provided to the first level Reviewing Officer also. The first level Reviewing Officer may provide a response to the notice of appeal to the second level Reviewing Officer; and must send a copy to the appellant. The review will be based on the existing record from the first level appeal, the second level notice of appeal, and any response by the first level Reviewing Officer. A decision shall be issued within 45 days after receiving the notice of appeal.

(l) Stays. (1) To request a stay, the appellant must:

(i) File a written request with the Reviewing Officer at the time the appeal is filed, simultaneously providing a copy to the Forest officer who made the initial decision to reoffer the timber sale in question.

(ii) Provide a written justification of the need for a stay, which includes a description of the specific activities to be stayed, and specific reasons why the stay should be granted, including:

(A) Harmful site-specific impacts or effects on resources in the area affected by the reoffered timber sale; and

(B) How the cited effects and impacts would prevent a meaningful decision on the merits.

(2) The Reviewing Officer shall rule on a stay request no later than 10 calendar days from receipt.

(i) If a stay is granted, the stay shall specify the activities to be stopped, duration of the stay, and reasons for granting the stay.

(ii) If a stay is denied in whole or in part, the decision shall specify the reasons for the denial.

(iv) A Reviewing Officer’s decision on a stay is not subject to further appeal or review.

(m) Review procedures. (1) The Reviewing Officer shall determine if the notice of appeal has been timely filed. In the event of question, legible postmarks will be considered evidence of timely filing. Where postmarks are illegible, the Reviewing Officer shall rule on the timely receipt of the notice of appeal. If the appeal is untimely, the Reviewing Officer will immediately dismiss the appeal and notify the Forest officer making the initial decision and the appellant.

(2) Upon receipt of a copy of the notice of appeal, the Forest Officer making the decision to reoffer a sale shall assemble the relevant decision documents and pertinent records and transmit them to the Reviewing Officer within 15 calendar days.

(3) In transmitting the decision documentation to the Reviewing Officer, the Forest Officer shall indicate how and specifically where the appellant’s issues are addressed. Where time permits, the Forest Officer may also respond briefly to issues raised in the notice of appeal. A copy of the transmittal letter shall be provided to the appellant(s).

(4) The record on which the Reviewing Officer shall conduct a review consists of the notice of appeal, any other written comments received, the official documentation prepared by the Forest Officer making the initial decision to reoffer, and any related correspondence, including additional information requested by the Reviewing Officer.

(5) The review record is open to public inspection.

(n) Requests for additional information. At any time during the review, the Reviewing Officer may request additional information from an appellant, the
Forest Service, USDA

§211.18 Appeal of decisions of forest officers.

(a) Matters subject to appeal. (1) Decisions of Forest Officers concerning the National Forest System and not excluded in paragraph (b) of this section are subject to appeal.

(b) Matters excluded from appeal under this section. (1) Decisions appealable to the Agriculture Board of Contract Appeals, USDA, under 7 CFR part 24.

(2) Decisions involving Freedom of Information Act denials under 7 CFR part 1 or Privacy Act determinations under 7 CFR 1.118.

(3) Decisions in which the jurisdiction of another Government agency, the Comptroller General, or a court supersedes that of the Department of Agriculture, or decisions to provide advisory, non-binding recommendations to other agencies which have the final authority to implement the recommendations in question.

Forest officer making the initial decision to reoffer, or anyone who has submitted written comments. In addition, the Reviewing Officer may discuss issues related to the appeal with the Forest officer making the initial decision to reoffer, appellants, or those receiving notice pursuant to paragraph (c) of this section, as needed to clarify information submitted or to seek resolution of the issues in question.

(o) Decision. (1) The Reviewing Officer shall issue a final decision on the appeal, in writing, within 90 days of the Reviewing Officer’s receipt of the notice of appeal, with a copy to any person submitting comments.

(2) The Reviewing Officer’s decision shall either affirm or reverse the original decision in whole or in part and include the reason(s) for the decision. The Reviewing Officer’s decision may include instructions for further action by the Forest Officer making the initial decision.

(3) The Reviewing Officer’s decision is the final administrative decision of the Department of Agriculture and that decision is not subject to further review under this section or any other appeal regulation, except for appeals to the second level filed pursuant to paragraph (g) of this section.

(p) Dismissal. (1) A Reviewing Officer shall dismiss an appeal without decision on the merits when:

(i) The appeal is not received within the time specified in paragraph (h) of this section;

(ii) The requested relief cannot be granted under existing facts, law or regulation;

(iii) The notice of appeal does not meet the requirements of paragraph (j) or (k) of this section;

(iv) The appellant withdraws the appeal; or

(v) The Forest Officer making the initial decision to reoffer a sale withdraws that decision.

(2) An appeal may be dismissed in whole or in part if an appellant challenges a Decision Notice or Record of Decision without referring to (i) changed circumstances or (ii) environmentally significant modifications which are alleged to have occurred after the initial timber sale was offered and the decision made to sell the timber.

(3) A Reviewing Officer’s decision to dismiss is not subject to further appeal or review.

(4) A Reviewing Officer shall give written notice of dismissal to the appellant and Forest Officer whose initial decision or appeal decision is being appealed.

(q) Applicability and effective date. The procedures of this section shall not apply to any decision signed on or after September 13, 1991.

CFR 223.117 (Administration of Cooperative or Federal Sustained Yield Units); 7 CFR 21.104 (Eligibility for Relocation Payment or Amount); and 4 CFR part 21 (Bid Protests).

(5) Decisions pursuant to OMB Circular A-76.

(6) Decisions concerning contracts under the Federal Property and Administrative Services Act of 1949, as amended.

(7) Decisions covered by the Contract Disputes Act.

(8) Decisions involving personnel matters.

(9) Decisions where relief sought is reformation of a contract or award of monetary damages.

(10) Procedural decisions made under this subpart, except those involving stays and dismissals.

(11) Preliminary planning process decisions made prior to completion of final plans and guides prepared pursuant to 36 CFR part 219 and 40 CFR parts 1500–1508.

(12) Decisions resulting from review of previous decisions to terminate a recreation residence permit.

(13) Decisions to reoffer timber from returned or defaulted timber sales appealable under §211.17.

(14) Subsequent actions to advertise and/or award a reoffered sale.

(15) Initial decisions arising from recovery and rehabilitation activities resulting from natural catastrophes appealable under §211.16 of this subpart and subsequent implementing decisions, such as advertising timber salvage sales and/or awarding contracts made pursuant to such decisions.

(c) Filing procedures and timeliness. (1) A notice of appeal of any initial decision must be filed with the Forest Officer who made the decision, known as the Deciding Officer, within 45 days of the date of the decision. A statement of reasons to support the appeal, and any request for an oral presentation must also be filed within the 45-day period for filing a notice of appeal unless an extension is granted.

(2) A notice of appeal at the second level must be filed within 30 days of written decision. A statement of reasons to support the appeal and any request for an oral presentation must accompany any notice of appeal at the second level.

(3) The period to appeal a decision made according to 40 CFR 1505.2 shall not end prior to the 30-day period provided for in 40 CFR 1506.10.

(4) When determining time of filing, Reviewing Officers shall give precedence to United States Postal Service (USPS) postmarks over other evidence of timely filing. Filing is defined as either mailing or delivery of the appropriate documents. If documents are delivered by means other than the USPS, date of receipt determines time of filing. If the date of mailing cannot be determined from a legible USPS postmark, the Reviewing Officer may accept other evidence of timely filing. Weekends or Federal holidays are included in computing the time allowed for filing, but when the filing time would expire on a weekend or holiday, the filing time is extended to the end of the next business day.

(5) Questions on timeliness will be decided by the Reviewing Officer.

(6) Decisions may be implemented unless a stay is granted.

(d) Extensions. (1) Time for filing notice of appeal may not be extended.

(2) Written requests for extensions to request an oral presentation, to prepare a statement of reasons, to provide comments on the responsive statement, and to submit comments following an oral presentation may be granted by the Reviewing Officer for good cause shown by the Applicant. A decision will be made within 10 days of receipt and written notification will be provided.

(e) Notice of appeal content. The notice must specifically identify the decision being appealed, the decision date, the Forest Officer who made the decision, how the Appellant is affected by the decision, and the relief desired.

(f) Levels of appeal. (1) The available levels of appeal are in sequence according to the National Forest System line officer relationship. A decision made within delegated authority by any officer who serves as staff to a line officer listed below is considered a decision made by the line officer. A procedural decision cannot be appealed to a level
higher than that available for the initial substantive decision from which the procedural matter arises.

(i) Initial decisions of a District Ranger may be appealed to the Forest Supervisor, with second level appeal to the Regional Forester.

(ii) Initial decisions of a Forest Supervisor may be appealed to the Regional Forester, with second level appeal to the Chief.

(iii) Initial decisions of a Regional Forester may be appealed to the Chief.

(iv) Initial decisions of the Chief may be appealed to the Secretary of Agriculture.

(2) Appeal decisions made by the Chief will be sent to the Secretary within one business day: The Secretary may exercise discretion to review such decisions, but will accept a notice of appeal or petition only for initial decisions made by the Chief.

(3) A notice of appeal of any initial decision made by the Chief shall, within 5 days of its receipt by the Chief, be sent along with the relevant decision to the Secretary for review at the Secretary’s discretion. The appeal is deemed denied if the Secretary takes no action within 10 days of receiving the appeal.

(4) Appeal decisions made by the Chief may be implemented if the Secretary, within 10 days of receipt, does not exercise discretionary review.

(5) If the Secretary elects to review a decision made by the Chief, the review may be conducted based on the record before the Chief, or under other procedures the Secretary may deem appropriate, including the preparation of a responsive statement.

(6) Decisions at the final level of review constitute the final administrative determination of the Department of Agriculture.

(g) Responsive statement. At each level of appeal except for decisions of the Chief, the Deciding Officer will, within 30 days of receiving a statement of reasons, prepare a responsive statement and send it to the parties to the appeal. The responsive statement will respond to Appellant’s reasons, and by specific reference may incorporate documents submitted by parties to the appeal. Appellants may, within 30 days from the mailing date of the responsive statement, provide a concise reply. Upon receipt of such reply, or at the end of the 20-day period, whichever comes first, the appeal record will be sent to the Reviewing Officer.

(h) Stay of decision pending appeal. (1) An appellant or intervenor may request a stay of decision at any time while an appeal is pending.

(2) When a request to intervene is accompanied by a stay request, the Reviewing Officer shall first decide whether to grant intervention. The 21-day period for ruling on the stay request begins on the date intervention is granted. The Reviewing Officer will not rule on the stay request if intervention is denied.

(3) In making a request for stay of decision, an appellant or intervenor must:

(i) File the request for stay and accompanying documents with the Reviewing Officer and simultaneously provide a copy to the Deciding Officer.

(ii) Enclose a copy of the Notice of Appeal or request for intervention, unless already submitted and acknowledged.

(iii) As part of the request, provide a written description of the specific project(s), activity(ies), or other action(s) to be stopped. The request must state the specific reason(s) why the stay should be granted in detail sufficient to permit the Reviewing Officer to evaluate and rule upon the stay request. Requesters’ description shall include:

(A) Specific effect(s) upon the requestor in site-specific terms of the project(s), activity(ies), or other action(s) to be stopped; (B) impacts or affects to resources in the area affected by the project(s), activity(ies), or action(s) to be stopped; and (C) how the effects in paragraphs (h)(3)(iii) (A) and (B) of this section would prevent a meaningful appeal on the merits while the appeal decision is pending.

(4) The Reviewing Officer may rule on a stay request or petition to change or lift a stay at any time, but, must rule no later than 21 calendar days from receipt.

(i) If a stay is granted, the stay shall specify: Specific activities to be stopped; duration of the stay; and reasons for granting the stay. A stay shall
§ 211.18  
remain in effect for 10 days after a decision on the merits, unless a different period is specified in the stay decision document, or a Reviewing Officer changes a stay decision pursuant to paragraph (h)(7) of this section.

(ii) If a stay is denied, in whole or in part, the decision document shall specify the reasons for the denial and any subsequent appeal rights.

(5) In deciding a stay request, a Reviewing Officer shall consider the following:

(i) Information provided by the requester pursuant to paragraph (h)(3)(iii) of this section including the validity of any claims of injury to the requester or the public interest.

(ii) The effect a stay decision would have on the preservation of a meaningful appeal on the merits.

(iii) Any other factors the Reviewing Officer may consider relevant.

(6) Deciding Officers may provide Reviewing Officers with a response to stay requests. A copy of any response provided shall be sent to all parties to the appeal.

(7) A Reviewing Officer may change a stay decision, according to any terms established in the stay decision itself, or at any time during pendancy of an appeal that circumstances support a change of the stay.

(i) A Reviewing Officer may change a stay decision upon petition by any party to the appeal (including the Deciding Officer) at any time that circumstances support such action. A decision not to change a stay decision is not appealable.

(ii) In making any change to a stay decision, the Reviewing Officer must consider the criteria outlined in paragraph (h)(5) of this section.

(iii) Petitions to change an existing stay decision must contain an explanation of how circumstances have changed.

(8) Levels of appeal for any decision on a stay request or change thereof are those specified in paragraphs (f), (l), and (o) of this section. Appellants may choose to file a procedural appeal of a stay decision pursuant to paragraph (o)(4) of this section or to request a change in a stay decision pursuant to paragraph (h)(7) of this section, but may not elect to pursue both options.

In appeals with multiple parties (appellants and/or intervenors), once any party invokes a procedural appeal of a stay decision or a request to change a stay decision, whichever occurs first, all other parties shall be bound by that action and cannot then pursue the alternative course of action.

(9) The provisions of paragraphs (h)(1) through (h)(8) of this section apply to all appeals pending on July 20, 1987.

(i) Dismissal. (1) An Appellant may withdraw an appeal at any time by notifying the Deciding Officer and other parties to the appeal in writing.

(ii) A Reviewing Officer may dismiss an appeal when:

(i) Appellant has failed to submit a timely statement of reasons and the notice of appeal provides an insufficient basis upon which to base a decision.

(ii) Relief desired by the Appellant cannot be granted under existing facts or laws.

(iii) Dismissals are appealable, if a level is available as set forth in paragraph (f) of this section.

(j) Scope of appeal. Throughout all levels of appeal, an Appellant and any Intervenor shall be confined to the issues originally raised in the appeal. New information on the original issues may be introduced at any level.

(k) Provision for comments. Any person or organization may submit written comments for the record. Such comments will be considered as provided for in paragraph (p) of this section.

(1) Intervenors. (1) At the discretion of the Reviewing Officer, any person or organization having an immediate interest in the subject of an appeal may intervene by submitting written information at any level of the appeal process. Such intervention shall not act to elevate the appeal to levels higher than available to the original Appellant.

(2) In appeals involving Intervenors, the Reviewing Officer may prescribe special procedures to expedite the process. The parties to the appeal will be notified of these procedures.

(3) Appellants and Intervenors must concurrently furnish copies of all submissions to each other; otherwise, such submissions may be removed from the appeal record. At the discretion of the
Reviewing Officer. Appellants may be given time to review and comment on initial submissions by intervenors and vice versa.

(4) Appellants or Intervenors appealing a decision to a higher level must furnish copies of their notice of appeal to all other named parties to the appeal.

(m) Oral presentation. Within the appeal time limits established herein, parties to an appeal may ask to give an oral presentation. The Reviewing Officer will respond in writing to the request no later than 10 days after receiving the appeal record. If the request is granted, the Reviewing Officer will advise the parties of who will hear the presentation, and of the place, time, and date. Participants may provide documentary material at the presentation and, within 10 days after the presentation, may also submit a brief summary of their remarks.

(n) Consolidation of appeals. Multiple appeals of the same decision, or of similar decisions involving common issues, facts, or law, may be consolidated by the Reviewing Officer who may then issue one appeal decision. At the discretion of the Reviewing Officer, the Deciding Officer may prepare one responsive statement to multiple appeals.

(o) Procedural matters. (1) Decisions on stays and dismissals are the only appealable procedural decisions. Such appeals must be filed with the Deciding Officer within 30 days of the procedural decision. A statement of the Appellant’s reasons must be included.

(2) Within 10 days of receipt, the Deciding Officer shall send appeals on stays and dismissals and a response to the Reviewing Officer for decision.

(3) Decisions on procedural matters will be made by the Reviewing Officer within 10 days of receipt and all parties will be notified of the decision in writing.

(4) Appeal of decisions on procedural matters cannot exceed the highest level available for the initial substantive decision appealed.

(p) Appeal record. The record consists of a distinct set of identifiable documents directly concerning the appeal, including, but not limited to, notices of appeal, comments, statements of reasons, responsive statements, procedural determinations, correspondence, summaries of oral presentations and related documents, appeal decisions, and other information the Reviewing Officer may consider necessary to reach a decision. For a period not to exceed 10 days following the date the record is received by the Reviewing Officer or from the date of the oral presentation, whichever is the later date, parties may submit additional information to the Reviewing Officer for the record. They must concurrently send copies to all other parties who may within 20 days of the date they receive such material, provide a concise response to the Reviewing Officer. Upon receipt of such response, the record will be closed. The record is open for public inspection.

(q) Request for additional information or remand for further action. If the appeal record is considered inadequate to affirm or reverse a decision, the Reviewing Officer may suspend the appeal process and request additional information, or remand the case with instructions for further action.

(r) Appeal decision. An appeal decision will be based only on the record and should be made within 30 days of the date the record is closed. The Appellant will be notified if more time is needed.

(s) Continuance of appeals. Provisions of 36 CFR 211.18 will remain in effect for appeals initially filed between June 28, 1977, and the effective date of 36 CFR 211.18. The procedures of this section shall not apply to any decision of a forest officer made after February 21, 1989.
§ 212.3 Cooperative work.

§ 212.4 Construction and maintenance.

§ 212.5 Road system management.

§ 212.6 Ingress and egress.

§ 212.7 Access procurement by the United States.

§ 212.8 Permission to cross lands and easements owned by the United States and administered by the Forest Service.

§ 212.9 Principles for sharing use of roads.

§ 212.10 Maximum economy National Forest System roads.

§ 212.11 – 212.19 [Reserved]

§ 212.20 National forest trail system operation.

§ 212.21 Pacific Crest National Scenic Trail.

§ 212.1 Definitions.

For the purpose of this part the following terms, respectively, shall mean:

Chief. The Chief, Forest Service, Department of Agriculture.

Construction engineering. All work and expense of setting out, controlling, inspecting, and measuring the construction or reconstruction of a forest transportation facility including:

1. Construction surveys to establish line and grade for the work, to control the work, and to measure quantities;
2. Redesigning, adjusting, and changing the plans, specifications, and materials to meet conditions;
3. Inspecting, directing, and controlling operations for compliance with plans and specifications;
4. Inspecting, testing, and accepting materials and equipment to be installed in the work; and
5. Inspecting, measuring, and accepting completed work.

Forest road and trail funds. Funds authorized or appropriated for the purpose of carrying out the provisions of section 205 of the Act of August 27, 1958 (72 Stat. 907), as amended; 23 U.S.C. 205.

Forest Transportation Atlas. An inventory, description, display, and other associated information for those roads, trails, and airfields that are important to the management and use of National Forest System lands or to the development and use of resources upon which communities within or adjacent to the National Forests depend.

Forest Transportation Facility. A classified road, designated trail, or designated airfield, including bridges, culverts, parking lots, log transfer facilities, safety devices and other transportation network appurtenances under Forest Service jurisdiction that is wholly or partially within or adjacent to National Forest System lands.

Maintenance. The upkeep of the entire forest transportation facility including surface and shoulders, parking and side areas, structures, and such traffic-control devices as are necessary for its safe and efficient utilization.

National Forest System. As defined in the Forest Rangeland Renewable Resources Planning Act, the “National Forest System” includes all National Forest lands reserved or withdrawn from the public domain of the United States, all National Forest lands acquired through purchase, exchange, donation, or other means, the National Grasslands and land utilization projects administered under title III of the Bankhead-Jones Farm Tennant Act (50 Stat. 525, 7 U.S.C. 1010–1012), and other lands, waters or interests therein which are administered by the Forest Service or are designated for administration through the Forest Service as a part of the system.

New Road Construction. Activity that results in the addition of forest classified or temporary road miles.

Preconstruction engineering. All work and expense of preparing for construction or reconstruction of a forest transportation facility including:

1. Engineering and economic investigations, studies, and reports;
2. Reconnaissance surveys;
3. Preliminary surveys;
4. Preliminary location surveys;
5. Soils, foundations, and materials investigations, surveys, and tests;
6. Preliminary and final designs;
7. Preliminary and final plans, drawings, specifications, and estimates of quantities and cost;
8. Final location surveys staked on the ground; and

Regional forester. A regional forester of the Forest Service.
Road. A motor vehicle travelway over 50 inches wide, unless designated and managed as a trail. A road may be classified, unclassified, or temporary.

(1) **Classified Roads.** Roads wholly or partially within or adjacent to National Forest System lands that are determined to be needed for long-term motor vehicle access, including State roads, county roads, privately owned roads, National Forest System roads, and other roads authorized by the Forest Service.

(2) **Temporary Roads.** Roads authorized by contract, permit, lease, other written authorization, or emergency operation not intended to be part of the forest transportation system and not necessary for long-term resource management.

(3) **Unclassified Roads.** Roads on National Forest System lands that are not managed as part of the forest transportation system, such as unplanned roads, abandoned travelways, and off-road vehicle tracks that have not been designated and managed as a trail; and those roads that were once under permit or other authorization and were not decommissioned upon the termination of the authorization.

**Road and trail 10 percent funds.** Funds available from the permanent appropriation “Roads and Trails for States” under the Act of March 4, 1913 (37 Stat. 843), as amended; 16 U.S.C. 501.

**Road Decommissioning.** Activities that result in the stabilization and restoration of unneeded roads to a more natural state.

**Road Reconstruction.** Activity that results in improvement or realignment of an existing classified road as defined below:

(1) **Road Improvement:** Activity that results in an increase of an existing road’s traffic service level, expands its capacity, or changes its original design function.

(2) **Road Realignment:** Activity that results in a new location of an existing road or portions of an existing road and treatment of the old roadway.

§ 212.2 Forest transportation program.

(a) For each national forest, national grassland, experimental forest, and any other unit of the National Forest System as defined in §212.1 and listed in 36 CFR part 200, subpart A, the Forest Supervisor or other responsible official must develop and maintain a forest transportation atlas, which is to be available to the public at administrative headquarters units. The purpose of the atlas is to display the system of roads, trails, and airfields of the unit. The atlas consists of the geo-spatial, tabular, and other data to support analysis needs and resource management objectives identified in land management plans. The atlas is a dynamic document that changes in response to new information on the existence and condition of roads, trails, and airfields of the unit. The atlas does not contain inventories of temporary roads, which are tracked by the project or activity authorizing the temporary road. The content and maintenance requirements for the atlas are identified in the Forest Service directive system (36 CFR 200.1).

(b) A program of work for the forest transportation system shall be developed each fiscal year in accordance with procedures prescribed by the Chief.

§ 212.3 Cooperative work.

(a) Cooperative agreements for all projects which involve financial contributions from cooperators shall be negotiated, approved, and executed in accordance with procedures prescribed by the Chief.

(b) Cooperative funds contributed in advance shall be deposited in the United States Treasury to the credit of the Forest Service Cooperative Fund authorized by the Act of June 30, 1914 (38 Stat. 430), as amended; 16 U.S.C. 498, or the Act of March 3, 1925 (43 Stat. 1132), as amended; 16 U.S.C. 572, which deposits will be made available for expenditure from the appropriation “Cooperative Work, Forest Service.” If a State, county or other governmental agency is unable to contribute funds under the Act of March 3, 1925, as amended, in advance but is able to pay its share subsequent to performance of the work, the subsequent payment of such funds will be deposited to the credit of the Forest Service appropriation from which the expenditures were made or to appropriations for similar purposes currently available at the time of deposit.

§ 212.4 Construction and maintenance.

(a) Construction and maintenance work on forest transportation facilities with appropriated funds shall be directed to what is necessary and economically justified for protection, administration, development, and multiple-use management of the federally owned lands and resources served.

(b) Preliminary engineering and the construction and maintenance of forest transportation facilities shall be performed by force account or let to contract, unless otherwise approved by the Chief. The contract method shall be employed for roads and trails in accordance with section 205(c) of the Act of August 27, 1958 (72 Stat. 907); 23 U.S.C. 205, and for all other facilities when it is advantageous and in the interest of the Government.

(c) No construction work shall be started by force account or let to contract until all necessary rights of way have been secured, and approved by the Attorney General, if required, and cooperative agreements, if any, approved and executed.

§ 212.5 Road system management.

(a) Traffic rules. Rules set forth under 36 CFR part 261 and this section shall apply to all National Forest System roads under the jurisdiction of the Forest Service except when in conflict with written agreement.

(1) General. Traffic on roads is subject to State traffic laws where applicable except when in conflict with the rules established under 36 CFR part 261.

(2) Specific. The following specific traffic rules shall apply unless different rules are established in 36 CFR part 261.

(i) The load, weight, length, height, and width limitations of vehicles shall be in accordance with the laws of the States wherein the road is located. Greater or lesser limits may be imposed and these greater or lesser limits shall be established as provided in 36 CFR part 261.

(ii) Roads, or segments thereof, may be restricted to use by certain classes of vehicles or types of traffic as provided in 36 CFR part 261.

(iii) Roads, or segments thereof, may be closed to all vehicle use as provided in 36 CFR part 261.

(iv) Additional rules may be imposed as provided in 36 CFR part 261.

(b) Road system—(1) Identification of road system. For each national forest, national grassland, experimental forest, and any other units of the National Forest System (§212.1), the responsible official must identify the minimum road system needed for safe and efficient travel and for administration, utilization, and protection of National Forest System lands. In determining
§ 212.5

the minimum road system, the responsible official must incorporate a science-based roads analysis at the appropriate scale and, to the degree practicable, involve a broad spectrum of interested and affected citizens, other state and federal agencies, and tribal governments. The minimum system is the road system determined to be needed to meet resource and other management objectives adopted in the relevant land and resource management plan (36 CFR part 219), to meet applicable statutory and regulatory requirements, to reflect long-term funding expectations, to ensure that the identified system minimizes adverse environmental impacts associated with road construction, reconstruction, decommissioning, and maintenance.

(2) Identification of unneeded roads. Responsible officials must review the road system on each National Forest and Grassland and identify the roads on lands under Forest Service jurisdiction that are no longer needed to meet forest resource management objectives and that, therefore, should be decommissioned or considered for other uses, such as for trails. Decommissioning roads involves restoring roads to a more natural state. Activities used to decommission a road include, but are not limited to, the following: reestablishing former drainage patterns, stabilizing slopes, restoring vegetation, blocking the entrance to the road, installing water bars, removing culverts, reestablishing drainage-ways, removing unstable fills, pulling back road shoulders, scattering slash on the roadbed, completely eliminating the roadbed by restoring natural contours and slopes, or other methods designed to meet the specific conditions associated with the unneeded road. Forest officials should give priority to decommissioning those unneeded roads that pose the greatest risk to public safety or to environmental degradation.

(c) Cost recovery on forest service roads. The Chief may determine that a share of the cost of acquisition, construction, reconstruction, improvement, or maintenance of a road, or segment thereof, used or to be used for commercial hauling of non-Federal forests products and other non-Federal products, commodities and materials, should be borne by the owners or haulers thereof. The Chief may condition the permission to use a road, or segment thereof, upon payment to the United States of the proportionate share of the cost and bearing proportionate maintenance as determined to be attributable to the owner’s or hauler’s use in accordance with §212.9. This condition to use roads would apply where the owners or haulers:

(1) Have not shared in the cost of acquisition, construction, reconstruction, or improvements, and

(2) Have not made contributions to pay their proportionate share of the costs.

(d) Maintenance and reconstruction of forest service roads by users—(1) Maintenance. The Chief may require, but not in conflict with an existing permit, easement, contract, or other agreement, the user or users of a road, including purchasers of Government timber and other products, to maintain the roads in a satisfactory condition commensurate with the particular use requirements of each. The maintenance to be borne by each user shall be proportionate to total use and no individual user shall be required to perform or bear the costs of maintenance other than that commensurate with his use.

(2) Reconstruction. The Chief may require, but not in conflict with an existing permit, easement, contract, or other agreement, the user or users of a road to reconstruct it when, at the time the use is requested, reconstruction is determined to be necessary to accommodate his use.

(3) Deposits in lieu of performance. If the maintenance or reconstruction cannot be so provided or if the Chief determines that maintenance or reconstruction by a user would not be practical, the Chief may require that sufficient funds be deposited by the user to provide his portion of the total maintenance or reconstruction costs. Deposits made to cover maintenance or reconstruction of roads shall be used for the purposes deposited, except that:

(i) Deposits received for work on adjacent and overlapping areas may be combined when it is the most practicable and efficient manner of performing the work, and cost thereof may be determined by estimates, and
§ 212.6

(ii) Unexpended balances upon accomplishment of the purposes for which deposited shall be transferred to miscellaneous receipts or refunded.

(e) Deposits for making delayed payments to cooperator. Any fees or other collections received by the Chief under the terms of an agreement or other document providing for delayed payments to the Government’s cooperator for use of a road shall be placed in a fund available for making these payments.

§ 212.6 Ingress and egress.

(a) Policy in acquiring and granting access. To assure effective protection, management, and utilization of lands administered by the Forest Service and intermingled and adjacent private and public lands, and for the use and development of the resources upon which communities within or adjacent to the National Forests are dependent, the Chief shall as promptly as is feasible obtain needed access thereto and shall grant appropriate access across National Forest and other lands and easements administered by the Forest Service to intermingled or adjacent landowners. Construction, reconstruction or maintenance of a road or highway requires written authorization.

(b) Actual settlers and other persons residing within the National Forests and other areas administered by the Forest Service. Actual settlers and other persons residing within the National Forests and other areas administered by the Forest Service shall be permitted ingress and egress over the same and use of existing National Forest System roads and trails in order to reach their homes and to utilize their property: Provided, such ingress and egress or use shall conform to rules and regulations governing the protection and administration of the lands and the roads or trails to be used.

(c) Others. Entering upon the National Forests and other lands administered by the Forest Service and use of existing National Forest System roads and trails shall be permitted for all proper and lawful purposes subject to compliance with rules and regulations governing the lands and the roads or trails to be used.

§ 212.7 Access procurement by the United States.

(a) Existing or proposed forest development roads which are or will be parts of a system of a State, county, or other local subdivision. National Forest System roads which are or will be parts of a road system of a State, county, or other local subdivision and are on rights-of-way held in the name of the State, county, or other local subdivision may be constructed, reconstructed, improved or maintained by the Forest Service when there is an appropriate agreement with the State, county, or other local subdivision under authority of 23 U.S.C. 205: Provided, Such construction, reconstruction, improvement, or maintenance is essential to provide safe and economical access to the National Forests and other lands administered by the Forest Service.

(b) Acquisition of easements and rights of use. Except as otherwise provided in the regulations of this part, easements for road and trail construction across non-Federal lands and easements or rights of use over non-Federal roads and trails will be acquired in the name of the United States of America and its assigns. The easements or rights of use may be acquired by purchase, condemnation, donation, or as a reciprocal for permits or easements for roads or trails to be constructed or for easements over or permits to use existing roads or trails.

(c) Methods of compensation for easements and rights of use acquired by the United States. Compensation in negotiated acquisitions may be:
§ 212.8 Permission to cross lands and easements owned by the United States and administered by the Forest Service.

(a) Permission to construct or use roads across lands and assignable easements owned by the United States and administered by the Forest Service. If a reciprocal benefit is needed by the United States, permission to construct or use a road across lands and across assignable easements owned by the United States and administered by the Forest Service will be conditioned, except as provided in this section, for any applicant who seeks a permit to construct or use a road across the same, upon the grant to the United States of a reciprocal benefit. Such benefit shall bear:

(1) A reasonable relation to the management of lands administered by the Forest Service; and

(2) A value substantially similar to the value of the estate or interest in lands or easements applied for. In those instances where the values of the interests needed by the United States exceed those applied for by the applicant, the additional interests required by the United States will be acquired as provided in §212.7(b) and (c). Where values needed by the applicant exceed those needed by the United States, the difference in values will be determined under principles set forth below and in §§212.5(c) and 212.9. If a reciprocal benefit is not needed by the United States, or the applicant shows good cause why the reciprocal benefit needed by the United States cannot or should not be granted by him, or the applicant declines to grant the reciprocal benefit requested by the United States or if a bona fide emergency exists, permission...
to construct or use a road across lands owned by the United States may be conditioned for any applicant upon reasonable charges and all other terms and conditions required by the Chief to protect the interests of the United States. Permits for such road construction or use will be non-exclusive and will be conditioned upon compliance with their terms and conditions and with the rules and regulations governing the protection and administration of the lands and those applicable to such roads.

(b) [Reserved]

(c) Replacement of prior grants. (1) Upon application to the Chief, an easement under the Act of March 3, 1899 (30 Stat. 1233, 16 U.S.C. 525), shall be replaced by an easement under paragraph (d) of this section.

(2) Upon application to the Chief, an easement shall be granted under paragraph (d) of this section as a replacement for any stipulations for ingress and egress issued under the Act of June 4, 1897 or permit or other document evidencing the applicant’s right to use a road: Provided, The applicant has met the requirements for obtaining such easement as set forth in paragraph (d) of this section.

(d) Easements for roads crossing lands or easements administered by the Forest Service. (1) Applications for permanent or temporary easements for specified periods or otherwise to be granted under the Act of October 13, 1964 (78 Stat. 1039, 16 U.S.C. 533), over lands or easements administered by the Forest Service, or over roads thereon will be approved by the Chief for those applicants who have conveyed or provided appropriate easements over roads, assignable easements and lands owned or controlled by them to the United States of America and its assigns and who have already constructed, or will, as scheduled by agreement, construct their proportionate share of the road or road system of which the segments described in the application are parts. The Chief, after approval of the application and the grant of the easement, will cause the same to be entered in the records of the Forest Service, and delivered to the applicant.

(2) Notwithstanding paragraph (d)(1) of this section, the Chief may grant to the applicant a permanent or temporary easement for specified periods or otherwise upon such exchange of easements or share-cost arrangement or other reasonable consideration as he may deem appropriate.

(3) The Chief may grant to a State or local subdivision thereof; easements for roads over lands or easements administered by the Forest Service and over roads thereon, when the roads thereon or roads to be constructed thereon will serve said lands and are, or will become a part of the road system maintained by such State or local subdivision for general public use: Provided, That easements shall not be granted under authority of this act (78 Stat. 1089), 16 U.S.C. 533 which may be granted under the Highway Act (72 Stat. 916, 23 U.S.C. 317), as amended. The easements shall contain such provisions, terms, and conditions as the Chief may determine are necessary to retain and protect the interests needed by the United States.

(4) All instruments affecting permanent interests in land executed pursuant to this paragraph (d) of this section shall be recorded in each county where the lands are located. Copies of all instruments affecting interests in lands reserved from public domain shall be furnished by the Chief to the Secretary of the Interior.

(i) By consent of the owner of the easement,

(ii) By condemnation, or

(iii) Upon abandonment after nonuse by the owner of the easement for a period of 5 years. Before any easement is terminated for nonuse or abandonment, the owner of the easement must be given notice and, upon his request made within 60 days after receipt of the notice, a hearing in accordance with
§ 212.9 Principles for sharing use of roads.

The use of roads under arrangements for sharing costs or performance shall be in accordance with the following:

(a) Road improvement. Use of a road for commercial hauling, except occasional or minor amounts, will be conditioned upon improvement or supplemental construction of the road to safety and economically serve the contemplated use, unless the Chief determines that the safety and economy of the established and foreseeable use by the United States, its users and cooperators will not be impaired by the use for which application is being made. With the consent of the Chief the applicant may deposit funds in the estimated amount required for the improvements or supplemental construction in lieu of performance. Such funds will be used by the Forest Service to do the planned work. The cost of the improvements or supplemental construction will be taken into account in determining any otherwise required contribution to cover the proportionate share of the cost of road acquisition, construction, reconstruction or improvement attributable to the use.

(b) Corresponding benefits. Corresponding benefits which may be accepted by the Chief for sharing road use will be those which bear a reasonable relation to the management of lands administered by the Forest Service. They may be in the form of:

(1) Deposit of funds with the Forest Service for use in paying the cost of road construction, reconstruction, or improvement to be borne by the user;

(2) The grant of a reciprocal right of substantially similar value to the road use sought;

(3) Construction, reconstruction, or improvement by applicant of a road needed for access to and use of lands administered by the Forest Service; or

(4) any combination of these.

(c) Cost determinations for roads cooperatively constructed under agreements. When roads are constructed under cooperative agreements to meet mutual needs of the United States and others for access, determinations of the shares of costs to be borne by the United States and the cooperating parties will include consideration of:

(1) The standard of road required for the planned hauling;

(2) The share of planned use;

(3) The location and volume of tributary timber owned by each party and expected to be hauled over the road or roads;

(4) The tributary areas owned or controlled by each party;

(5) Expected use by the public; and

(6) Other appropriate considerations.

(d) Cost recovery by the United States from others. When roads are used under permit for commercial hauling instead of under cooperative agreement, any cost to be recovered by the United States will be calculated in proportion to the planned use of the road. The road cost used in such calculation will be the amount or estimated amount expended in the acquisition, construction, reconstruction, and improvement of that capacity of the road required to serve the use needs of all parties that are or reasonably can be expected to use the road. The road costs shall not exceed the replacement value of the road. Such road share-cost payments will be through deposits in advance of use unless the user provides a payment bond satisfactory to the Chief guaranteeing that payments will be made promptly upon billing by the Forest Service.

(e) Cost sharing with a cooperator. The costs to achieve the agreed upon road or road system may be met by:

(1) Use of appropriated funds;

(2) Construction, reconstruction, or improvement of roads or segments of roads by purchasers of products from
lands administered by the Forest Service or other users;

(3) Use of deposits made by cooperator with the Forest Service to cover cooperator’s agreed share;

(4) Agreement with cooperator pursuant to which cooperator does more than his agreed share of constructing, reconstructing, or improving a road and recovers costs incurred in excess of his agreed share by charging purchasers of products from lands administered by the Forest Service an equitable amount within the limits and to the total amount specified in the agreement; or

(5) A combination of the aforementioned methods.

(f) Road maintenance and resurfacing. Cooperators will share the road maintenance and resurfacing costs under suitable agreements to perform, arrange for performance by others, or by making deposits with the Forest Service which will be used to pay the cost of work necessary to keep such roads in satisfactory condition commensurate with use requirements of each cooperator. No cooperator shall be required to perform or bear such costs other than those occasioned by its individual use. Other users will bear costs in accordance with §212.5(d).

(g) Interests to be acquired by the United States in roads or easements therefor. Where the United States is to bear or share the cost of constructing or improving, or acquiring a road system, a road, or a segment thereof, or acquires an easement therefor, the interest acquired will:

(1) Be for perpetual use unless the road use falls within the limited classes where temporary roads or roads for limited periods are acceptable;

(2) Provide adequately for foreseeable management, protection, and utilization needs of lands administered by the Forest Service and intermingled and adjacent private and public lands and for the use and development of the resources upon which communities within or adjacent to the National Forest are dependent; and

(3) not be subject to conditions, reservations, or covenants unrelated to the road use, or which seek or might tend to direct or limit policies and procedures for management of lands administered by the Forest Service.

§212.10 Maximum economy National Forest System roads.

The Chief may acquire, construct, reconstruct, improve, and maintain National Forest System roads within and near the National Forests and other lands administered by the Forest Service in locations and according to specifications which will permit maximum economy in harvesting timber from such lands tributary to such roads and at the same time meet the requirements for protection, development, and management thereof and for utilization of the other resources thereof. Financing of such roads may be accomplished—

(a) By the Chief utilizing appropriated funds,

(b) By requirements on purchasers of National Forest timber and other products, including provisions for amortization of road costs in contracts,

(c) By cooperative financing with other public agencies and with private agencies or persons, or

(d) By a combination of these methods: Provided, That where roads of a higher standard than that needed in the harvesting and removal of the timber and other products covered by the particular sale are to be constructed, the purchaser of the National Forest timber and other products shall not be required to bear that part of the costs necessary to meet such higher standard, and the Chief may make such arrangements to this end as may be appropriate, including arrangements for performance of purchaser’s road development work under the Act of March 3,
§ 213.1 Designation, administration, and development of National Grasslands.

(a) The land utilization projects administered by Department of Agriculture designated in paragraph (e) of this section hereafter shall be named and referred to as National Grasslands.

(b) The National Grasslands shall be a part of the National Forest system and permanently held by the Department of Agriculture for administration under the provisions and purposes of title III of the Bankhead-Jones Farm Tenant Act.

(c) The National Grasslands shall be administered under sound and progressive principles of land conservation and multiple use, and to promote development of grassland agriculture and sustained-yield management of the forage, fish and wildlife, timber, water and recreational resources in the areas of which the National Grasslands are a part.

(d) In the administration of the National Grasslands the resources shall be managed so as to maintain and improve soil and vegetative cover, and to demonstrate sound and practical principles of land use for the areas in which they are located. The Chief of the Forest Service shall, to the extent such action is feasible provide that policies for management of the Federally-owned lands exert a favorable influence for securing sound land conservation practices on associated private lands.

(e) National Grasslands in the following States and counties are hereby grouped and designated as indicated:

<table>
<thead>
<tr>
<th>State in which grassland is located</th>
<th>National grassland</th>
<th>Counties where located</th>
</tr>
</thead>
<tbody>
<tr>
<td>California</td>
<td>Butte Valley</td>
<td>Siskiyou, Weid.</td>
</tr>
<tr>
<td>Colorado</td>
<td>Pawnee</td>
<td>Baca, Los Animas, Otero.</td>

<tr>
<td>Idaho</td>
<td>Comanche</td>
<td>Oneida, Power.</td>
</tr>
<tr>
<td>Kansas</td>
<td>Cimarron</td>
<td>Morton, Stevens.</td>
</tr>
<tr>
<td>Nebraska</td>
<td>Ogala</td>
<td>Dawes, Sioux.</td>
</tr>
</tbody>
</table>

§ 213.2 Authority for Chief, Forest Service, to group, define, and name national grasslands.

§ 213.3 Protection, occupancy, use, administration, and exercise of reservations.

§ 213.4 Prior rules and regulations superseded.
§ 213.2 Authority for Chief, Forest Service, to group, define, and name national grasslands.

The Chief, Forest Service, is authorized to group the national grasslands into administrative units, define, change or modify their boundaries, and to provide such specific designations therefor as he finds necessary and desirable for effective and economical administration thereof and for public and official reference thereeto.

[33 FR 12370, Sept. 4, 1968]

§ 213.3 Protection, occupancy, use, administration, and exercise of reservations.

(a) The rules and regulations applicable to the national forests as set forth in title 36, Code of Federal Regulations, or as hereafter amended, supplemented, or promulgated, are hereby adopted as the rules and regulations to govern the exercise of reservations in conveyances to the United States and to prevent trespasses on and otherwise regulate the protection, use, occupancy, and administration of the National Grasslands and all other lands administered

by the Forest Service under the provisions of title III of the Bankhead-Jones Farm Tenant Act insofar as is practical and consistent with said act: Provided, That Forest Service officers may continue under delegated authority to acquire lands, to make exchanges, to grant easements and enter into leases, permits, agreements, contracts and memoranda of understanding involving such lands under such terms and conditions and for such consideration, fees or rentals as authorized by title III of the said Act.

(b) Existing valid rights, reservations, easements, leases, permits, agreements, contracts and memoranda of understanding affecting these lands shall continue in full force and effect so long as they remain valid in accordance with the terms thereof.

[27 FR 9217, Sept. 18, 1962]

§ 213.4 Prior rules and regulations superseded.

Except as provided in § 213.3, the rules and regulations heretofore issued for the land utilization projects are hereby superseded as to all such projects administered by the Forest Service, but not as to such project lands administered by other agencies.

[27 FR 9217, Sept. 18, 1962]
§ 215.17 Formal disposition.
§ 215.18 Appeal deciding officer authority.
§ 215.19 Appeal reviewing officer authority.
§ 215.20 Policy in event of judicial proceedings.
§ 215.21 Applicability and effective date.

SOURCE: 58 FR 58910, Nov. 4, 1993, unless otherwise noted.

§ 215.2 Definitions.

For the purpose of this part—
Appeal is the written document filed with an Appeal Deciding Officer by one who objects to a decision covered by this part.

Appeal Deciding Officer is the Forest Service line officer having the delegated authority and responsible to render a decision on an appeal filed under this part.

Appeal Period is the 45 calendar-day period during which an appeal may be filed with the Appeal Deciding Officer.
Appeal Record is the information assembled and/or created during the course of an appeal and upon which review of an appeal is conducted. It consists of the decision documentation, the appeal, the Responsible Official’s documentation of the informal disposition meeting, the public notice of decision document, and written comments submitted by interested parties.

Appeal Reviewing Officer is an agency official who reviews an appeal and makes a written recommendation to the Appeal Deciding Officer on the disposition of the appeal.

Appellant is a person or organization filing an appeal under this part.

Categorical Exclusion refers to a category of actions which do not individually or cumulatively have a significant effect on the human environment and for which neither an environmental impact statement (EIS) nor an environmental assessment (EA) is required (40 CFR 1508.4; Forest Service Handbook 1909.15, Chapter 30).

Comment Period is the 30 calendar day period, following publication of the notice for public comment, available to interested persons to provide comments to a Responsible Official on a proposed action subject to this part.

Decision Document is the document that records the decisions for actions implementing land and resource management plans. (See also, Record of Decision, Decision Notice, and Decision Memo.)

Decision documentation refers to the decision document and all relevant environmental and other analysis documentation and records on which the Responsible Official based a decision that is at issue under an appeal filed pursuant to this part. Decision documentation may include, but is not limited to, a project or case file, Record of Decision, Decision Notice, Decision Memo, environmental assessment, finding of no significant impact, draft
§215.3 Proposed actions subject to notice and comment.

The notice and comment procedures of §215.5 apply only to the following actions:

(a) Proposed actions implementing national forest land and resource management plans (36 CFR 219.11) for which an environmental assessment is prepared.

(b) Proposed timber harvest as described in Paragraph 4, section 31.2 of Forest Service Handbook 1909.12.
Forest Service Handbook 1905.15 for which a project or case file and Decision Memo are required.

(c) Nonsignificant amendments (36 CFR part 219) to land and resource management plans that are included as part of a decision on a proposed action as specified in paragraph (a) of this section.

(d) Proposed actions on those National Forests which do not yet have approved land and resource management plans prepared pursuant to 36 CFR part 219 as follows:

(1) Proposed actions for which an environmental assessment is prepared; or

(2) Proposed timber harvest as described in Paragraph 4, section 31.2 of Forest Service Handbook 1905.15 for which a project or case file and Decision Memo are required.

(e) Proposed forestry research activities to be conducted on National Forest Systems lands for which an environmental assessment has been prepared.

§ 215.4 Actions not subject to notice and comment.

The following proposed actions are not subject to notice and comment procedures of § 215.5:

(a) Actions described in a draft environmental impact statement, for which notice and comment procedures are governed by 40 CFR parts 1500–1508;

(b) Actions categorically excluded from documentation in an environmental impact statement or environmental assessment pursuant to 7 CFR 1b.3 or FSH 1909.15, sections 31.1 and 31.2, except timber harvest actions as specified in § 215.3(b) and (d)(2);

(c) Any action or policy not subject to the provisions of the National Environmental Policy Act and the implementing regulations at 40 CFR parts 1500–1508;

(d) Rules promulgated in accordance with the Administrative Procedure Act (5 U.S.C. 551 et seq.) or policies and procedures issued in Forest Service Manuals and Handbooks (36 CFR parts 200, 216);

(e) A nonsignificant amendment to a land and resource management plan which is made separately from a proposed action specified in § 215.3(c) and which, therefore, is subject to appeal under part 217 of this chapter.

§ 215.5 Notice and comment on proposed actions.

(a) Annual notice of newspapers. Annually, each Regional Forester shall, through notice published in the Federal Register, advise the public of the principal newspapers to be utilized for publishing notices required by this section.

(b) Manner of giving notice. (1) The Responsible Official shall publish notice of proposed actions as specified in § 215.3 in a newspaper of general circulation identified pursuant to the requirements of paragraph (a) of this section.

(2) The Responsible Official also shall give the public notice of the opportunity to comment on proposed actions subject to this part as follows:

(i) For proposed actions requiring an environmental assessment, the Responsible Official shall promptly mail the environmental assessment along with a letter identifying the proposed action to any person who has requested it and to persons who are known to have participated in the environmental analysis process.

(ii) For proposed timber harvest actions categorically excluded from documentation under Forest Service Handbook 1909.15, section 31.2, paragraph 4, the Responsible Official shall promptly mail a letter briefly describing the proposed to any person who has requested notice, to persons who are on a mailing list to receive notice of this type of decision, or to persons who are known to have participated in the decision-making process.

(c) Content of the public notice for comment on proposed actions. All notices provided or published pursuant to this section shall include the following:

(1) The title and brief description of the proposed action;

(2) A general description of the proposed action location;

(3) Instructions on how to obtain additional information on the proposed action;

(4) The name, title, address, and telephone number of the Responsible Official to whom comments should be addressed; and

(5) The date the comment period ends (§ 215.6(a)).
§ 215.6 Response to comments received on proposed actions.

(a) Comment period. The Responsible Official shall accept comments on an proposed action subject to §215.3 for 30 days following the date of publication of the notice for public comment. Both oral and written comments shall be accepted. The 30-day period for comment begins on the first day after publication of notice; Saturdays, Sundays, and Federal holidays are included in computing all time periods in this section; however, when the comment period ends on a Saturday, Sunday, or Federal holiday, the comment period shall be extended to the close of business of the next Federal working day.

(b) Submission. Persons expressing an interest or submitting comments to the Responsible Official in response to a notice published or provided pursuant to §215.5 shall provide the following information, which will become a matter of public record:

1. Name, address, and (if possible) telephone number;
2. Title of the document(s) on which comment is being submitted; and
3. Specific facts or comments along with supporting reasons that the person believes the Responsible Official should consider in reaching a decision.

(c) Timeliness. It is the responsibility of persons providing comments to submit them by the close of the comment period.

1. When comments are received, the Responsible Official shall clearly identify the date of receipt.
2. The Responsible Official must consider all written comments postmarked or facsimile imprinted by the close of business on the 30th day following publication of the notice (§215.5) and all oral comments received by the close of business on the 30th day following publication of the notice.

(d) The Responsible Official shall address comments received from the public during the comment period in an appendix to the environmental assessment. For proposed timber harvest actions to be categorically excluded from documentation in an environmental assessment or environmental impact statement in FSH 1909.15, section 31.1 and 31.2, except as noted in §215.7(b).

(e) Notes of oral comments received in response to a notice for public comment pursuant to §215.5 shall be placed in the files and addressed pursuant to paragraph (d) of this section.

§ 215.7 Decisions subject to appeal.

Only the following decisions are subject to appeal under this part:

(a) Project and activity decisions documented in a Record of Decision or Decision Notice, including those which, as a part of the project approval decision, contain a nonsignificant amendment to a National Forest Land and Resource Management Plan (36 CFR 219.10).

(b) Timber harvest project and activity decisions as described in paragraph 4, Section 31.2 of Forest Service Handbook 1909.15 which are documented in a decision memo.

§ 215.8 Decisions not subject to appeal.

(a) The following decisions are not subject to appeal under this part:

1. Project or activity decisions included in a Record of Decision for significant amendment, revision, or approval of a land and resource management plan, appeal of which is governed by 36 CFR part 217;
2. Preliminary findings made during planning and/or analysis processes. Such findings are appealable only upon issuance of a decision document;
3. Actions for which notice and opportunity to comment have been published and on which no expression of interest has been received during the comment period (§215.6), and on which the Responsible Official’s decision does not modify the proposed action; and
4. Decisions for actions that have been categorically excluded from documentation in an environmental assessment or environmental impact statement in FSH 1909.15, Section 31.1 and 31.2, except as noted in §215.7(b).

(b) In addition to decisions excluded from appeal by paragraph (a) of this section, the Appeal Deciding Officer shall dismiss any appeal filed on subsequent implementing actions that result from the initial project decision subject to appeal under §215.7. For example, an initial decision to offer a timber
sale is appealable under this part; sub-
sequent implementing actions to ad-
vertise or award that sales are not ap-
pealable under this part.

(c) Decisions solely affecting the
business relationship between the For-
est Service and holders of written in-
struments regarding occupancy and use
of National Forest System lands can be
appealed by permit holders under ei-
ther 36 CFR part 251, subpart C, or this
part, but cannot be appealed under
both regulations.

§ 215.9 Notice of decisions.

(a) Publication of public notice. The
Responsible Official shall publish a no-
tice of any decision which is subject to
notice and comment under § 215.3 in a
newspaper of general circulation iden-
tified pursuant to the requirements of
§ 215.5(a).

(b) Publication of notice of a decision.
A notice of a decision published pursu-
ant to this section shall:

(1) Include the decision title and a
concise description of the action(s) to
be taken, the name and title of the Re-
 sponsible Official, and instructions for
obtaining a copy of the decision docu-
ment;

(2) Except for decisions on which no
expression of interest was received dur-
ing the comment period § 215.8(4), state
that the decision is subject to appeal
pursuant this part and include the fol-
lowing:

(i) State the name and address of the
Appeal Deciding Officer with whom an
appeal should be filed;

(ii) Specify that an appeal must be
postmarked and submitted to the Ap-
peal Deciding Officer within 45 days of
the date of publication in accordance
with § 215.13;

(3) For those decisions on which no
comment was received, state that the
decision is not subject to appeal pursu-
ant to § 215.8(a)(4);

(c) Mailing decision documents. The
Responsible Official shall promptly
mail the decision document to those
who request the specific document and
to those who submitted comments on
the proposed action either before or
during the comment period provided
pursuant to § 215.6.

§ 215.10 Implementation of decisions.

(a) If no appeal is filed, implementa-
tion of decisions subject to appeal pur-
suant to this part may occur on, but
not before, 5 business days from the
close of the appeal filing period.

(b) If an appeal is filed, implementa-
tion may not occur for 15 days fol-
loowing the date of appeal disposition.
In the event of multiple appeals of the
same decision, the date of the disposi-
tion of the last appeal controls the im-
plementation date.

(c) If a project is not appealable be-
cause, pursuant to § 215.8(a)(4), no ex-
pression of interest has been received
and there is no change from the pro-
posed action, implementation may
occur immediately upon publication of
the notice of the decision as provided
in § 215.9.

(d) A project decision is not subject
to a stay if the Chief of the Forest
Service determines that an emergency
situation exists with respect to the de-
cision in accordance with the following
provisions of this paragraph:

(1) An emergency, as defined here, is
an unexpected event, or a serious oc-
currence or a situation requiring ur-
gent action. Examples of an emergency
include, but are not limited to, the fol-
lowing:

(i) Vegetation loss which presents an
immediate threat of flooding or lands-
lide.

(ii) Hazardous or unsafe situations as
a result of wildfire or other cir-
cumstances.

(iii) Damage to water quality caused
by siltation due to fire or flooding.

(iv) Potential loss of fish and wildlife
habitat due to windstorms and
blowdowns.

(v) Sudden outbreaks of forest pests
and diseases.

(2) The Responsible Official shall no-
tify the public that the Forest Service
intends to handle this project as an
emergency in the public notice on pro-
posed actions as provided in
§ 215.5(c)(1). Actions responding to
emergency situations may be accom-
plished with force account (Forest
Service crews), service contracts or
timber sale contracts.
§ 215.11 Who may participate in appeals.

(a) Except as provided for in paragraph (c) of this section, an appeal pursuant to this part may be filed by any person who, or any non-Federal organization or entity that has met either of the following criteria:

1. Submitted written comment in response to a project draft Environmental Impact Statement; or

2. Provided comment or otherwise expressed interest in a particular proposed action by the close of the comment period specified in § 215.6.

(b) Persons interested in or potentially affected by an appeal may participate as an interested party, as provided in § 215.13(e).

(c) Federal agencies may not participate as appellants or interested parties.

(d) Federal employees filing appeals under this part shall comply with Federal conflict of interest statutes at 18 U.S.C. 202–209 and with employee ethics requirements at 5 CFR part 2635. Specifically, employees shall not be on official duty or use government property or equipment in the preparation or transmittal of an appeal. Employees also shall not use official information not yet released to the public.

§ 215.12 Where to file appeals.

The Appeal Deciding Officer with whom appeals must be filed are as follows:

<table>
<thead>
<tr>
<th>If the responsible official who made the decision is:</th>
<th>Then the appeal deciding officer is:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Regional Forester ........................................</td>
<td>Chief of the Forest Service.</td>
</tr>
<tr>
<td>Forest Supervisor or District Ranger ...................</td>
<td>Regional Forester.</td>
</tr>
<tr>
<td>Do. ..........................................................</td>
<td>Do.</td>
</tr>
</tbody>
</table>

§ 215.13 Appeal time periods and process.

(a) Filing procedures. To appeal a decision under this part, a person must submit a written appeal to the Appeal Deciding Officer within the 45 day appeal filing period specified in the public notice published pursuant to § 215.9.

(b) Computation of time periods. (1) The day after the publication of the public notice published pursuant to § 215.9 is the first day of the appeal filing period.

(2) All time periods in this section are to be computed using calendar days. Saturdays, Sundays, and Federal holidays are included in computing the time period for filing an appeal. However, when the filing period would expire on a Saturday, Sunday, or Federal holiday, the filing time is extended to the end of the next Federal working day.

(c) Evidence of timely filing. The appellant is responsible for submitting an appeal on or before the last day of the appeal filing period. Where there is a question about timelines of an appeal, the U.S. Postal Service postmark on a mailed appeal or the time and date imprint on a facsimile appeal will be used to determine timeliness.

(d) Time extensions. Time extensions are not permitted.

(e) Interested party comments. Interested parties must submit written comments to the Appeal Reviewing Officer within 15 days after close of the appeal filing period and are encouraged to provide a copy to the appellants at the same time. An interested party can obtain the address of the Appeal Reviewing Officer and appellants by contacting the Appeal Deciding Officer.

(f) Time period for formal disposition. Unless an appeal is resolved through the informal disposition process provided for in § 215.16, the following timeframe and process shall apply:

1. Transmittal of decision documentation. Within 15 days of the close of the appeal filing period, the Responsible Official shall transmit the appeal record to the Appeal Reviewing Officer.

2. Review recommendation. Within 30 days of the close of the appeal filing period, the Appeal Reviewing Officer shall review the appeal record and forward it to the Appeal Deciding Officer with a written recommendation on the disposition of the appeal(s). The Appeal Reviewing Officer’s recommendation shall be released upon issuance of an appeal decision.

3. Appeal decision. Within 45 days following the end of the appeal filing period, the Appeal Deciding Officer shall issue a written decision or otherwise give notice to appellant(s) concerning the disposition of the appeal. The decision or notice shall briefly explain why
the Responsible Official’s original decision was affirmed or reversed, in whole or in part.

§ 215.14 Content of an appeal.
(a) It is the appellant’s responsibility to provide sufficient written evidence and rationale to show why the Responsible Official’s decision should be remanded or reversed.
(b) An appeal submitted to the Appeal Deciding Officer becomes a part of the appeal record. An appeal must meet the following requirements:
   (1) State that the document is an appeal filed pursuant to 36 CFR part 215;
   (2) List the name and address of the appellant and, if possible, a telephone number;
   (3) Identify the decision document by title and subject, date of the decision, and name and title of the Responsible Official;
   (4) Identify the specific change(s) in the decision that the appellant seeks or portion of the decision to which the appellant objects;
   (5) State how the Responsible Official’s decision fails to consider comments previously provided, either before or during the comment period specified in § 215.6 and, if applicable, how the appellant believes the decision violates law, regulation, or policy.

§ 215.15 Dismissal of appeal without review.
(a) An Appeal Deciding Officer shall dismiss an appeal without review when:
   (1) The appeal is not postmarked or the facsimile is not date imprinted within the 45-day appeal filing period in accordance with § 215.13;
   (2) The requested relief or change cannot be granted under law, fact, or regulation;
   (3) The decision at issue is being appealed by the appellant under another administrative proceeding;
   (4) The decision is excluded from appeal pursuant to § 215.8;
   (5) The appellant did not express an interest in the specific proposal at any time prior to the close of the comment period specified in § 215.6;
   (6) The Responsible Official has withdrawn the decision being appealed;
   (7) The appellant has filed for Federal judicial review of the decision and the Chief has waived the argument in § 215.20.
(b) The Appeal Deciding Officer shall give written notice to the appellant, interested parties, and Responsible Official that an appeal is dismissed and state the reasons for dismissal.

§ 215.16 Informal disposition.
(a) Offer to meet. When a decision is appealed under this part, the Responsible Official must contact the appellant(s) and offer to meet and discuss resolution of the issues raised in the appeal. This contact shall be made as soon as practicable after an appeal has been filed.
(b) Time and location of meeting. If one or more appellants agree to meet, the meeting(s) must take place not later than 15 days after the closing date for filing an appeal. The location of the meeting shall be in the vicinity of the lands affected by the decision. When the District Ranger is the Responsible Official, meetings will generally be located on or near that Ranger District. When the Forest Supervisor or Regional Forester is the Responsible Official, meetings will generally take place at a location within or near the National Forest.
(c) Type of meeting. Generally, participants shall be physically present at informal disposition meetings. Where an appellant cannot attend a meeting in person because of schedule conflicts or travel distances, alternative types of meetings (such as telephone conferences or video conferences) may be arranged. This alternative type meeting also must take place not later than 15 days after the closing date for filing an appeal. The informal disposition meeting must be open to interested parties and the public.
(d) Agreement on disposition. The Responsible Official must notify the Appeal Deciding Officer of the names of meeting participants and the outcome of the informal disposition meeting.
   (1) If the appellant(s) and Responsible Official reach agreement on disposition of the appeal, the Responsible Official shall so notify the Appeal Deciding Officer and the appellant shall withdraw the appeal by letter to the Appeal Deciding Officer no later than 15 days after the meeting. Upon notice from
§ 215.17 Formal disposition.

(a) Formal disposition period. The Appeal Deciding Officer shall issue an appeal decision not later than 45 days after the end of the appeal filing period.

(b) Appeal decision. The Appeal Deciding Officer shall complete a review based on the appeal record as defined in §215.5 and the Reviewing Officer’s recommendation. The Appeal Deciding Officer shall issue a written appeal decision either affirming or reversing the Responsible Official’s decision, in whole or in part, and may include instructions for further action. The Appeal Deciding Officer shall send a copy of the appeal decision to the appellant, interested parties, the Appeal Reviewing Officer, and the Responsible Official. If a formal decision is not issued, the Appeal Deciding Officer shall notify the appellant(s) of the disposition of their appeal.

§ 215.18 Appeal deciding officer authority.

(a) Consolidation of appeal decisions. In cases involving multiple appeals of a decision subject to this part, the Appeal Deciding Officer shall determine whether to issue one appeal decision or separate appeal decisions.

(b) Procedural decisions. The Appeal Deciding Officer shall make all procedural determinations in this part. Such determinations are not subject to further administrative review.

(c) Appeal decisions. The Appeal Deciding Officer’s decision constitutes the final administrative determination of the Department of Agriculture.

§ 215.19 Appeal reviewing officer authority.

(a) Identification of Appeal Reviewing Officer. An agency official at the Regional Office level designated by the Chief is the Appeal Reviewing Officer for appeals of District Ranger and Forest Supervisor decisions. An agency official at the Washington Office level designated by the Chief is the Appeal Reviewing Officer for appeals of Regional Forester Decisions. The Appeal Reviewing Officer shall be an officer at least at the level of the agency official who made the initial decision on the project or activity that is under appeal and has not participated in the initial decision and will not be responsible for implementing the initial decision after the appeal is decided.

(b) Scope of review. The Appeal Reviewing Officer’s review of decisions under this part focuses on decision documentation developed by the Responsible Official in reaching the decision, issues raised in the appeal, and comments submitted by interested parties.

(c) Consolidation of recommendations. In cases involving multiple appeals of a decision subject to this part, the Appeal Reviewing Officer shall determine whether to issue one recommendation or separate recommendations.

§ 215.20 Policy in event of judicial proceedings.

Unless waived in a specific case, it is the position of the Department of Agriculture that any filing for Federal judicial review of a decision subject to review under this part is premature and inappropriate unless the plaintiff has first sought to invoke and exhaust the procedures available under this part.

§ 215.21 Applicability and effective date.

(a) The requirements of §215.5 of this part to provide notice and opportunity
to comment on proposed actions described in §215.3 is effective January 3, 1994.

(b) Decisions for which notice has been given pursuant to 36 CFR 217.5 prior to January 3, 1994, remain subject to the appeal procedures of 36 CFR part 217.

PART 216—IN Volving the Public in the Formulation of Forest Service Directives

Sec. 216.1 Purpose.

This part establishes procedures to ensure that Federal, State, and local governments and the public have adequate notice and opportunity to comment upon the formulation of standards, criteria, and guidelines applicable to Forest Service programs.

§216.2 Definitions.

(a) The Forest Service Manual consists of numerous volumes organized by numerically coded subject matter. The volumes contain legal authorities, responsibilities, delegations, and general instruction and direction needed on a continuous basis by Forest Service officers at more than one unit to plan and execute programs. The parent text is issued by the national headquarters and sets forth the policies, and other guidance applicable Service-wide. National directives are supplemented, as necessary, by Forest Service field offices. Supplements to the Forest Service Manual are applicable only within the Forest Service organizational jurisdiction for which they are issued. The Forest Service Manual is revised to conform to changing law, orders, regulations, or management needs.

(b) Public participation activities are actions initiated by the Forest Service to facilitate an exchange of information with the public. These actions include, but are not limited to, oral and written measures such as public notices, letters, discussion papers, and gatherings such as meetings, workshops, and hearings.

(c) Standards, criteria, and guidelines means those written policies, instructions, and orders, originated by the Forest Service and issued in the Forest Service Manual which establish the general framework for the management and conduct of Forest Service programs.

§216.3 Applicability; Relationship to Other Public Participation Opportunities.

(a) The requirements described in this part do not apply to:

(1) Rules or regulations promulgated according to the requirements of the Administrative Procedure Act, 5 U.S.C. 553;

(2) Instructions, procedures, and other material issued in Forest Service Handbooks; and

(3) Proposed Manual directives which provide guidance and procedures on administrative support activities such as personnel matters, procurement, service contracting, and other routine business operations of the agency.

(b) This part does not supersede or replace the requirements of the National Environmental Policy Act as set forth in 40 CFR part 1500 and chapter 1950 of the Forest Service Manual. The requirements described in this part do not apply where equivalent public notice and opportunity for comment on the contents of a proposed Manual directive are provided during compliance with NEPA procedures.

(c) The direction for management of many Forest Service programs is developed with public participation during land and resource management planning part 219, and other activities.
§ 216.4 The relevant results of such public participation shall be used in formulation of Forest Service Manual directives to avoid duplicating public participation efforts.

(d) In addition to the opportunity for formal public review and comment offered in this part, the public may informally review and comment on Manual material at other times.

(e) These regulations do not prevent informal consultation with selected Federal, State, and local governments and the public when such consultation is deemed appropriate in formulating Manual material.

§ 216.5 Documentation.

The responsible Forest Service official shall document the results of the determination made pursuant to §216.4(b), and the reasons therefor, in a concise written summary. The summary may be combined with documentation required by NEPA procedures or other applicable law or policy. The summary shall be prepared and filed at the same location as the Forest Service official responsible for developing the Manual directive.

§ 216.6 Notice and comment procedures for proposed Manual directives identified for formal public review.

(a) Where it is determined that substantial public interest or controversy concerning a proposed Manual directive can be expected, the following minimum requirements for notifying the public and giving opportunity to comment on the proposal apply:

(1) National Forest and Ranger District Proposals. The responsible official shall determine appropriate means of notifying the public. This may include, but is not limited to, legal notice in a newspaper of general circulation or press release. The public shall have a minimum of 30 calendar days to review and comment on the proposal.

(2) Regional, Station, and Area Proposals. The responsible official shall determine appropriate means of notifying the public. This may include, but is not limited to, notice and summary of the proposal in the FEDERAL REGISTER, legal notice in one or more newspapers of general circulation, or press release. The public shall have a minimum of 30 calendar days to review and comment on the proposal.

(3) National Proposals. The responsible official shall publish a notice and summary of the proposal in the FEDERAL REGISTER, followed by a minimum of 60 calendar days for public review and comment.

(b) Agency officials will give direct notice to Federal, State, and local governments and to the public known to be interested in the proposal. Along with the notice, the responsible official shall also provide either a complete proposal or a summary of the proposal for review.

(c) The responsible Forest Service official may conduct additional public participation activities related to the proposed Manual directive as are deemed appropriate and necessary.

(d) Comments received from the public shall be analyzed and considered in the formulation and preparation of the final Manual directive.

(e) The final Manual directive or a summary shall be sent to those who offered comments on the proposed directive and further publicized as deemed appropriate by the responsible official.
§ 216.7 Exemption of proposed Manual directives from normal procedures.

When it is found for good cause that an exigency exists, an interim Manual directive that is determined to be of substantial public interest or expected controversy may be issued in advance of providing opportunity for public comment. However, as soon as practicable after issuance, the interim Manual directive will be made available for public review and comment as described in §216.6. In making the Manual directive available, the responsible official shall state why the interim directive was issued prior to obtaining public comments.

§ 216.8 Availability of proposed Manual directives identified for formal public review.

As a minimum, review copies of proposed Manual directives determined to be of substantial public interest or expected controversy shall be available in the Forest Supervisor’s Office and District Rangers’ Offices when National Forest proposals are involved; in the Regional Office and Forest Supervisors’ Offices when regional proposals are involved; and in Regional Offices and National Headquarters when national proposals are involved. When Manual directives involve Forest Service Research or State and Private Forestry programs, review copies shall be available at comparable administrative offices.

PART 219—PLANNING

Subpart A—National Forest System Land and Resource Management Planning

PURPOSE AND PRINCIPLES

Sec.
219.1 Purpose.
219.2 Principles.

THE FRAMEWORK FOR PLANNING

219.3 Overview.
219.4 Identification and consideration of issues.
219.5 Information development and interpretation.
219.6 Proposed actions.
219.7 Plan decisions.
219.8 Amendment.
219.9 Revision.

219.10 Site-specific decisions.
219.11 Monitoring and evaluation for adaptive management.

COLLABORATIVE PLANNING FOR SUSTAINABILITY

219.12 Collaboration and cooperatively developed landscape goals.
219.13 Coordination among federal agencies.
219.14 Involvement of state and local governments.
219.15 Interaction with American Indian tribes and Alaska Natives.
219.16 Relationships with interested individuals and organizations.
219.17 Interaction with private landowners.
219.18 Role of advisory committees.

ECOLOGICAL, SOCIAL, AND ECONOMIC SUSTAINABILITY

219.19 Ecological, social, and economic sustainability.
219.20 Ecological sustainability.
219.21 Social and economic sustainability.

THE CONTRIBUTION OF SCIENCE

219.22 The overall role of science in planning.
219.23 The role of science in assessments, analyses, and monitoring.
219.24 Science consistency evaluations.
219.25 Science advisory boards.

SPECIAL CONSIDERATIONS

219.26 Identifying and designating suitable uses.
219.27 Special designations.
219.28 Determination of land suitable for timber harvest.
219.29 Limitation on timber harvest.

PLANNING DOCUMENTATION

219.30 Plan documentation.
219.31 Maintenance of the plan and planning records.

OBJECTIONS AND APPEALS

219.32 Objections to amendments or revisions.
219.33 Appeals of site-specific decisions.

APPLICABILITY AND TRANSITION

219.34 Applicability.
219.35 Transition.

DEFINITIONS

219.36 Definitions.

Subpart B [Reserved]
§ 219.1 Purpose.

(b) The National Forest System constitutes an extraordinary national legacy created by people of vision and preserved for future generations by diligent and far-sighted public servants and citizens. These are the peoples’ lands, emblems of the nation’s democratic traditions.

(1) The national forests and grasslands provide a wide variety of uses, values, products, and services that are important to many people, including outdoor recreation, forage, timber, wildlife and fish, biological diversity, productive soils, clean air and water, and minerals. They also afford intangible benefits such as beauty, inspiration, and wonder.

(2) To assure the continuation of this array of benefits this regulation affirms sustainability as the overall goal for stewardship of the natural resources of each national forest and grassland consistent with the laws that guide management of these lands.

(3) Sustainability, composed of interdependent ecological, social, and economic elements, embodies the principles of multiple-use and sustained-yield without impairment to the productivity of the land. Sustainability means meeting needs of the present generation without compromising the ability of future generations to meet their needs. Planning contributes to social and economic sustainability without compromising the basic composition, structure, and functioning of ecological systems. The progress toward achievement of sustainability is assessed through monitoring and evaluation.

§ 219.2 Principles.

The planning regulations in this subpart are based on the following principles:

(a) The first priority for planning to guide management of the National Forest System is to maintain or restore ecological sustainability of national forests and grasslands to provide for a wide variety of uses, values, products, and services. The benefits sought from these lands depend upon long-term ecological sustainability. Considering increased human uses, it is essential that uses of today do not impair the functioning of ecological processes and the ability of these natural resources to contribute to sustainability in the future.
(1) Planning provides the guidance for maintaining or restoring the diversity of plant and animal communities and the productive capacity of ecological systems, the core elements of ecological sustainability.

(2) Planning is based on science and other knowledge, including the use of scientifically based strategies for sustainability and benefits from independent scientific peer review.

(3) Planning is based on the temporal and spatial scales necessary for sustainability.

(4) Planning includes the monitoring and evaluation of the achievement of goals.

(b) Planning contributes to social and economic sustainability by providing for a wide variety of uses, values, products, and services without compromising the basic composition, structure, and function of ecological systems.

(1) Planning recognizes and fosters a broad-based understanding of the interdependence of national forests and grasslands with economies and communities.

(2) Planning fosters strategies and actions that provide for human use in ways that contribute to long-term sustainability.

(c) Planning is efficiently integrated into the broader geographic, legal, and social landscape within which national forests and grasslands exist. Other agencies, governments, corporations, and citizens manage land in and around the national forests and grasslands. Planning, therefore, is outward looking with the goal of understanding the broader landscape in which the national forests and grasslands lie.

(1) Planning fosters coordination among all affected federal agencies.

(2) Planning proceeds in close cooperation with state, tribal, and local governments.

(3) Planning recognizes the rights of American Indian tribes and Alaska Natives.

(4) Planning is interdisciplinary, providing analyses and options that are responsive to a broad range of ecological, social, and economic.

(5) Planning acknowledges the limits and variability of likely budgets.

(d) Planning meaningfully engages the American people in the stewardship of their national forests and grasslands. Just as the Forest Service can help the American people learn about the limits and capabilities of the national forests and grasslands, managers also should be guided by the knowledge and values of the American people.

(1) Planning encourages extensive collaborative citizen participation and builds upon the human resources in local communities and throughout the nation.

(2) Planning actively seeks and addresses key issues and promotes a shared vision of desired conditions.

(3) Planning and plans are understandable.

(4) Planning restores and maintains the trust of the American people in the management of the national forests and grasslands.

(e) Planning is an ongoing process, where decisions are adapted, as necessary, to address new issues, new information, and unforeseen events.

(1) Planning is innovative and practical.

(2) Planning is expeditious and efficient in achieving goals.

(f) Planning seeks to manage National Forest System resources in a combination that best serves the public interest without impairment of the productivity of the land consistent with the Multiple-Use Sustained-Yield Act of 1960.

THE FRAMEWORK FOR PLANNING

§219.3 Overview.

(a) The planning framework. Land and resource management planning is a flexible process for fitting solutions to the scope and scale of needed action. Planning, conducted according to the planning framework outlined in §§219.3-219.11, involves engaging the public (§§219.12-219.18) and applying the best available science (§§219.22-219.25) to contribute to sustainability (§§219.19-219.21) in the use and enjoyment of National Forest System lands.

(b) Levels of planning. Planning may be undertaken at the national, regional, national forest or grassland, and/or ranger district administrative
§ 219.4 Identification and consideration of issues.

(2) The Forest or Grassland Supervisor is the responsible official for a plan amendment or revision, except to the extent the Regional Forester or Chief decides to act as the responsible official.

(3) When appropriate, two or more Forest or Grassland Supervisors, one or more Regional Foresters, or the Chief of the Forest Service may undertake planning which may amend or revise one or more plans.

(4) The Chief of the Forest Service, Regional Foresters, National Forest and Grassland Supervisors, or District Rangers may authorize and implement site-specific actions.

(c) An interdisciplinary, collaborative approach to planning. An interdisciplinary, collaborative approach to planning may be achieved by engaging the skills and interests of appropriate combinations of Forest Service staff, consultants, contractors, other federal agencies, states, American Indian tribes, Alaska Natives, or local government personnel, or other interested or affected people consistent with applicable laws.

(d) Key elements. The planning cycle begins with the identification and consideration of issues and concludes with the monitoring and evaluation of results. Based upon the scope and scale of issues, planning includes one or more of the following key elements:

(1) Identification and consideration of issues (§219.4);

(2) Information development and interpretation (§219.5);

(3) Proposed actions (§219.6);

(4) Plan decisions (§219.7);

(5) Amendment (§219.8);

(6) Revision (§219.9);

(7) Site-specific decisions (§219.10); and

(8) Monitoring and evaluation for adaptive management (§219.11).
(i) Opportunities to contribute to the achievement of cooperatively developed landscape goals;

(ii) Opportunities for the national forests and grasslands to contribute to the restoration or maintenance of ecological sustainability, including maintenance or restoration of watershed function, such as water flow regimes to benefit aquatic resources, groundwater recharge, municipal water supply, or other uses, and maintaining or restoring ecological conditions needed for ecosystem and species diversity;

(iii) Opportunities for the national forests or grasslands to contribute to social and economic sustainability;

(iv) Opportunities to recover threatened or endangered species and maintain or restore their habitat;

(v) The potential for negative environmental effects, including human health, economic and social effects, upon minority and low income communities;

(vi) Opportunities to maintain or restore ecological conditions that are similar to the biological and physical range of expected variability ($\S$ 219.20(b)(1)); and

(vii) Opportunities to contribute to knowledge about and preservation of historic and cultural resources.

§ 219.5 Information development and interpretation.

If the responsible official determines an issue should receive consideration, the responsible official should review relevant information such as inventories, broad-scale assessments, local analyses, or monitoring results to determine if additional information is desirable and if it can be obtained at a reasonable cost and in a timely manner. The responsible official, at his or her discretion, may choose the methods and determine the scope of information development and interpretation for an issue under consideration. A broad-scale assessment or a local analysis may be developed or supplemented if appropriate to the scope and scale of an issue. Broad-scale assessments, local analyses, monitoring results, and other studies are not site-specific or plan decisions or proposals for agency action ($\S$219.6(a)), subject to Forest Service NEPA procedures.

(a) Broad-scale assessments. Broad-scale assessments provide information regarding ecological, economic, or social issues that are broad in geographic scale, sometimes crossing Forest Service regional administrative boundaries. Ecological information and analyses that may be provided in an assessment are addressed in $\S$219.20(a). Social and economic information and analyses that may be provided in an assessment are addressed in $\S$219.21(a).

(1) Broad-scale assessment should provide the following as appropriate:

(i) Findings and conclusions that describe historic conditions, current status, and future trends of ecological, social, and/or economic conditions, their relationship to sustainability, and the principal factors contributing to those conditions and trends. The responsible official may use these findings and conclusions to identify other issues ($\S$219.4), develop proposals for action ($\S$219.6), or for other purposes.

(ii) Identification of needs for additional research to develop new information or address conflicting interpretations of existing information.

(b) Local analyses. Local analyses provide ecological, social, or economic information as deemed appropriate by the responsible official. Local analyses may cover watersheds, ecological units, and social and economic units, and may tier to or provide information to update a broad-scale assessment. Local analyses should provide the following, as appropriate:

(1) Characterization of the area of analysis;

(2) Description of issues within the analysis area;

(3) Description of current conditions;

(4) Description of likely future conditions;

(5) Synthesis and interpretation of information; and
§ 219.6 Proposed actions.

(a) Proposal. The responsible official may propose to amend or revise a plan, propose a site-specific action, or both.

(b) NEPA requirements. Unless otherwise provided by law, the responsible official must analyze the effects of the proposal and alternative(s) in conformance with Forest Service NEPA procedures. The responsible official may use issues identified and information reviewed pursuant to §§219.4-219.5 for scoping required in Forest Service NEPA procedures.

§ 219.7 Plan decisions.

Plan decisions guide or limit uses of National Forest System resources and provide the basis for future agency action. Plan decisions link the requirements of laws, regulations, Executive Orders, policies, and the Forest Service national strategic plan to specific national forests and grasslands. While plan decisions generally do not commit resources to a site-specific action, plan decisions provide a framework for authorizing site-specific actions that may commit resources. In making decisions, the responsible official should seek to manage National Forest System resources in a combination that best serves the public interest without impairment of the productivity of the land consistent with the Multiple-Use Sustained-Yield Act of 1960. Plan decisions may apply to all or part of a plan area. Paragraphs (a) through (e) of this section describe the decisions in a plan.

(a) Desired resource conditions. These plan decisions define the resource conditions sought within all or portions of the plan area. Desired resource conditions may include, but are not limited to, the desired watershed and ecological conditions and aquatic and terrestrial habitat characteristics.

(b) Objectives. These plan decisions are concise statements describing measurable results intended to contribute to sustainability (§219.19), including a desired level of uses, values, products, and services, assuming current or likely budgets and considering other spending levels as appropriate. Objectives include an estimate of the time and resources needed for their completion.

(c) Standards. These plan decisions are the requirements and limitations for land uses and management actions necessary for the achievement of desired conditions and objectives and compliance with applicable laws, regulations, Executive Orders, and policies. Standards include, but are not limited to:

(1) Limitations on even-aged timber harvest methods;
(2) Maximum size openings from timber harvest;
(3) Methods for achieving aesthetic objectives by blending the boundaries of vegetation treatments; and
(4) Other requirements to achieve multiple-use of the national forests and grasslands.

(d) Designation of suitable land uses. These plan decisions identify lands within the National Forest System that are or are not suitable for specific uses (§219.26), including, but not limited to: the transportation system; livestock grazing; special designations as described in §219.27; and lands where timber production is an objective (§219.28).

(e) Monitoring strategy. A monitoring strategy is required by each plan as described in §219.11(a).

§ 219.8 Amendment.

(a) Amending plans. A plan amendment may add, modify, or rescind one or more of the decisions of a plan (§219.7). An amendment decision must be based on the identification and consideration of issues (§219.4), applicable information (§219.5), and an analysis of the effects of the proposed amendment (§219.6). In developing an amendment, the responsible official must provide opportunities for collaboration consistent with §219.12 through §219.18.

(b) Environmental review of a proposed plan amendment. For each proposal for a plan amendment, the responsible official must complete appropriate environmental analyses and public involvement in accordance with Forest Service NEPA procedures. A proposed amendment that may create a significant environmental effect and thus require preparation of an environmental...
impact statement is considered to be a significant change in the plan. If a proposal for amendment requires the preparation of an environmental impact statement, the responsible official must give public notice and an opportunity to comment on the draft environmental impact statement for at least 90 calendar days.

§ 219.9 Revision.

(a) Application of the revision process. Revision of a plan is required by 16 U.S.C. 1604(f)(5). The revision process is a review of the overall management of a unit of the National Forest System and an opportunity to consider the likely results if plan decisions were to remain in effect.

(b) Initiating revision. To begin the revision process, the responsible official must:

(1) Provide opportunities for collaboration consistent with § 219.12 through § 219.18;

(2) Summarize those issues the responsible official determines to be appropriate for consideration (§ 219.4), any relevant inventories, new data, findings and conclusions from appropriate broad-scale assessments and local analyses, monitoring and evaluation results, new or revised Forest Service policies, relevant portions of the Forest Service national strategic plan, and changes in circumstances affecting the entire or significant portions of the plan area;

(3) Develop the information and complete the analyses described in §§ 219.20(a) and (b) and § 219.21(a);

(4) Evaluate the effectiveness of the current plan in contributing to sustainability (§ 219.19–219.21) based on the information, analyses, and requirements described in §§ 219.20(a) and (b) and § 219.21(a) and (b), and provide for an independent scientific peer review (§ 219.22) of the evaluation;

(5) Identify new proposals for special areas, special designation, or for recommendation as wilderness (§ 219.27);

(6) Identify specific watersheds in need of protective or restoration measures;

(7) Identify lands classified as not suitable for timber production (§ 219.28);

(8) Identify and evaluate inventoried roadless areas and unroaded areas based on the information, analyses, and requirements in §§ 219.20(a) and §219.21(a). During the plan revision process or at other times as deemed appropriate, the responsible official must determine which inventoried roadless areas and unroaded areas warrant additional protection and the level of protection to be afforded; and

(9) Develop an estimate of outcomes that would be anticipated, including uses, values, products, or services, for a 15-year period following initiation of the revision process, if the plan decisions in effect at the time the revision process began remain in effect.

(c) Public notice of revision process and review of information. After the responsible official has compiled the information required under paragraph (b) of this section, the responsible official must give public notice of the plan revision process and make the information compiled under paragraph (b) of this section available for public comment for at least 45 calendar days.

(d) Notice of Intent. Based upon the information compiled under paragraph (b) of this section and any comments received during the comment period required under paragraph (c) of this section, the responsible official must publish a Notice of Intent to prepare an environmental impact statement to add, modify, remove, or continue in effect the decisions embodied in a plan. The responsible official must give the public notice and an opportunity to comment on the draft environmental impact statement for at least 90 calendar days. Following public comment, the responsible official must oversee preparation of a final environmental impact statement in accordance with Forest Service NEPA procedures.

(e) Final decision on plan revision. The revision process is completed when the responsible official signs a record of decision for a plan revision.

§ 219.10 Site-specific decisions.

To the extent appropriate and practicable and subject to valid existing rights and appropriate statutes, the responsible official must provide opportunities for collaboration consistent with §§ 219.12 through § 219.18, follow the planning framework described in §§ 219.4–219.6 and comply with § 219.11 to
make site-specific decisions. All site-specific decisions, including authorized uses of land, must be consistent with the applicable plan. If a proposed site-specific decision is not consistent with the applicable plan, the responsible official may modify the proposed decision to make it consistent with the plan, reject the proposal; or amend the plan to authorize the action.

§ 219.11 Monitoring and evaluation for adaptive management.

(a) Plan monitoring strategy. Each plan must contain a practicable, effective, and efficient monitoring strategy to evaluate sustainability in the plan area (§§219.19–219.21). The strategy must require monitoring of appropriate plan decisions and characteristics of sustainability.

(1) Monitoring and evaluation of ecological sustainability. The plan monitoring strategy for the monitoring and evaluation of ecological sustainability must require monitoring of:

(i) Ecosystem diversity. Monitoring must be used to evaluate the status and trend of selected physical and biological characteristics of ecosystem diversity (§219.20(a)(1)). The plan monitoring strategy must document the reasons for selection of characteristics to be monitored, monitoring objectives, methodology, and designate critical values that will prompt reviews of plan decisions.

(ii) Species diversity. Monitoring must be used to evaluate focal species and species-at-risk as follows:

(A) The status and trends of ecological conditions known or suspected to support focal species and selected species-at-risk must be monitored. The plan monitoring strategy must document the reasons for the selection of species-at-risk for which ecological conditions are to be monitored, including the degree of risk to the species, the factors that put the species at risk, and the strength of association between ecological conditions and population dynamics.

(B) In addition to monitoring of ecological conditions, the plan monitoring strategy may require population monitoring for some focal species and some species-at-risk. This monitoring may be accomplished by a variety of methods including population occurrence and presence/absence data, sampling population characteristics, using population indices to track relative population trends, or inferring population status from ecological conditions.

(C) A decision by the responsible official to monitor populations and the responsible official’s choice of methodologies for monitoring selected focal species and selected species-at-risk may be based upon factors that include, but are not limited to, the degree of risk to the species, the degree to which a species’ life history characteristics lend themselves to monitoring, the reasons that a species is included in the list of focal species or species-at-risk, and the strength of association between ecological conditions and population dynamics. Monitoring of population trend is often appropriate in those cases where risk to species viability is high and population characteristics cannot be reliably inferred from ecological conditions. The reasons for selection of species, monitoring objectives, and methodologies must be documented as part of the plan monitoring strategy. Critical values that will prompt reviews of plan decisions must be designated in the monitoring strategy.

(iii) Monitoring effectiveness. As a part of the plan monitoring strategy, the responsible official must evaluate the effectiveness of selected characteristics of ecosystem diversity and species diversity in providing reliable information regarding ecological sustainability.

(2) Monitoring and evaluation of social and economic sustainability. The plan monitoring strategy for the monitoring and evaluation of social and economic sustainability should provide for periodic review of national, regional, and local supply and demand for products, services, and values. Special consideration should be given to those uses, values, products, and services that the National Forest System is uniquely poised to provide. Monitoring should improve the understanding of the National Forest System contributions to social and economic sustainability. The plan monitoring strategy must require the responsible official to evaluate the effectiveness of information.
§ 219.12 Collaboration and cooperatively developed landscape goals.

(a) Collaboration. To promote sustainability, the responsible official must actively engage the American public, interested organizations, private landowners, state, local, and Tribal governments, federal agencies, and others in the stewardship of National Forest System lands. To engage people in the stewardship of National Forest System lands, the responsible official may assume many roles, such as leader, organizer, facilitator, or participant. The responsible official must provide early and frequent opportunities for people to participate openly and meaningfully in planning taking into account the diverse roles, jurisdictions, and responsibilities of interested and affected organizations, groups, and individuals. The responsible official has the discretion to determine how to provide these opportunities in the planning process.

(b) Cooperatively developed landscape goals. (1) The responsible official and other Forest Service employees involved in planning must invite and encourage others to engage in the collaborative development of landscape goals. Using information from broad-scale assessments or other available information, and subject to applicable laws, the responsible official may initiate or join ongoing collaborative efforts to develop or propose landscape goals for areas that include National Forest System lands.

(2) During collaborative efforts, responsible officials and other Forest Service employees, must communicate and foster understanding of the nation’s declaration of environmental goals.

§ 219.12 Collaboration and cooperatively developed landscape goals.

(a) Collaboration. To promote sustainability, the responsible official must actively engage the American public, interested organizations, private landowners, state, local, and Tribal governments, federal agencies, and others in the stewardship of National Forest System lands. To engage people in the stewardship of National Forest System lands, the responsible official may assume many roles, such as leader, organizer, facilitator, or participant. The responsible official must provide early and frequent opportunities for people to participate openly and meaningfully in planning taking into account the diverse roles, jurisdictions, and responsibilities of interested and affected organizations, groups, and individuals. The responsible official has the discretion to determine how to provide these opportunities in the planning process.

(b) Cooperatively developed landscape goals. (1) The responsible official and other Forest Service employees involved in planning must invite and encourage others to engage in the collaborative development of landscape goals. Using information from broad-scale assessments or other available information, and subject to applicable laws, the responsible official may initiate or join ongoing collaborative efforts to develop or propose landscape goals for areas that include National Forest System lands.

(2) During collaborative efforts, responsible officials and other Forest Service employees, must communicate and foster understanding of the nation’s declaration of environmental goals.

§ 219.12 Collaboration and cooperatively developed landscape goals.

(a) Collaboration. To promote sustainability, the responsible official must actively engage the American public, interested organizations, private landowners, state, local, and Tribal governments, federal agencies, and others in the stewardship of National Forest System lands. To engage people in the stewardship of National Forest System lands, the responsible official may assume many roles, such as leader, organizer, facilitator, or participant. The responsible official must provide early and frequent opportunities for people to participate openly and meaningfully in planning taking into account the diverse roles, jurisdictions, and responsibilities of interested and affected organizations, groups, and individuals. The responsible official has the discretion to determine how to provide these opportunities in the planning process.

(b) Cooperatively developed landscape goals. (1) The responsible official and other Forest Service employees involved in planning must invite and encourage others to engage in the collaborative development of landscape goals. Using information from broad-scale assessments or other available information, and subject to applicable laws, the responsible official may initiate or join ongoing collaborative efforts to develop or propose landscape goals for areas that include National Forest System lands.

(2) During collaborative efforts, responsible officials and other Forest Service employees, must communicate and foster understanding of the nation’s declaration of environmental goals.

§ 219.12 Collaboration and cooperatively developed landscape goals.

(a) Collaboration. To promote sustainability, the responsible official must actively engage the American public, interested organizations, private landowners, state, local, and Tribal governments, federal agencies, and others in the stewardship of National Forest System lands. To engage people in the stewardship of National Forest System lands, the responsible official may assume many roles, such as leader, organizer, facilitator, or participant. The responsible official must provide early and frequent opportunities for people to participate openly and meaningfully in planning taking into account the diverse roles, jurisdictions, and responsibilities of interested and affected organizations, groups, and individuals. The responsible official has the discretion to determine how to provide these opportunities in the planning process.

(b) Cooperatively developed landscape goals. (1) The responsible official and other Forest Service employees involved in planning must invite and encourage others to engage in the collaborative development of landscape goals. Using information from broad-scale assessments or other available information, and subject to applicable laws, the responsible official may initiate or join ongoing collaborative efforts to develop or propose landscape goals for areas that include National Forest System lands.

(2) During collaborative efforts, responsible officials and other Forest Service employees, must communicate and foster understanding of the nation’s declaration of environmental goals.
§ 219.13 Coordination among federal agencies.

The responsible official must provide early and frequent coordination with appropriate federal agencies and may provide opportunities:

(a) For interested or affected federal agencies to participate in the identification of issues and formulation of proposed actions;

(b) For the streamlined coordination of federal agency policies, resource management plans, or programs; and

(c) The development, where appropriate and practicable, of joint resource management plans.

§ 219.14 Involvement of state and local governments.

The responsible official must provide early and frequent opportunities for state and local governments to:

(a) Participate in the planning process, including the identification of issues; and

(b) Contribute to the streamlined coordination of resource management plans or programs.

§ 219.15 Interaction with American Indian tribes and Alaska Natives.

(a) The Forest Service shares in the federal government’s overall trust responsibility for federally recognized American Indian tribes and Alaska Natives.

(b) During planning, the responsible official must consider the government-to-government relationship between American Indian or Alaska Native tribal governments and the federal government.

(c) The responsible official must consult with and invite American Indian tribes and Alaska Natives to participate in the planning process to assist in:

(1) The early identification of treaty rights, treaty-protected resources, and American Indian tribe trust resources;

(2) The consideration of tribal data and resource knowledge provided by tribal representatives; and

(3) The consideration of tribal concerns and suggestions during decision-making.

§ 219.16 Relationships with interested individuals and organizations.

The responsible official must:

(a) Make planning information available to the extent allowed by law;

(b) Conduct planning processes that are fair, meaningful, and open to persons with diverse opinions;

(c) Provide early and frequent opportunities for participation in the identification of issues;

(d) Encourage interested individuals and organizations to work collaboratively with one another to improve understanding and develop cooperative landscape and other goals;

(e) Consult with individuals and organizations who can provide information about current and historic public uses.
within an assessment or plan area, about the location of unique and sensitive resources and values and cultural practices related to issues in the plan area; and

(f) Consult with scientific experts and other knowledgeable persons, as appropriate, during consideration of collaboratively developed landscape goals and other activities.

§ 219.17 Interaction with private landowners.

The responsible official must seek to collaborate with those who have control or authority over lands adjacent to or within the external boundaries of national forests or grasslands to identify:

(a) Local knowledge;
(b) Potential actions and partnership activities;
(c) Potential conditions and activities on the adjacent lands that may affect management of National Forest System lands, or vice versa; and
(d) Issues (§219.4).

§ 219.18 Role of advisory committees.

(a) Advisory committees. Advisory committees can provide an immediate, representative, and predictable structure within which public dialogue can occur and the Forest Service can develop relationships with diverse communities of interests. The responsible official may seek the assistance or advice from a committee, consistent with the requirements of the Federal Advisory Committee Act (5 U.S.C. app.) in determining whether there is a reasonable basis to propose an action to address an issue. Each Forest or Grassland Supervisor must have access to an advisory committee with knowledge of local conditions and issues, although an advisory committee is not required for each national forest or grassland. Responsible officials may request establishment of advisory committees and recommend members to the Secretary of Agriculture. Advisory committees used by other agencies may be utilized through proper agreements.

(b) Participation in other types of community-based groups. When appropriate, the responsible official should consider participating in community-based groups organized for a variety of public purposes, particularly those groups organized to develop landscape goals (§219.12(b)).

ECOLOGICAL, SOCIAL, AND ECONOMIC SUSTAINABILITY

§ 219.19 Ecological, social, and economic sustainability.

Sustainability, composed of interdependent ecological, social, and economic elements, embodies the Multiple-Use Sustained-Yield Act of 1960 (16 U.S.C. 528 et seq.) without impairment to the productivity of the land and is the overall goal of management of the National Forest System. The first priority for stewardship of the national forests and grasslands is to maintain or restore ecological sustainability to provide a sustainable flow of uses, values, products, and services from these lands.

§ 219.20 Ecological sustainability.

To achieve ecological sustainability, the responsible official must ensure that plans provide for maintenance or restoration of ecosystems at appropriate spatial and temporal scales determined by the responsible official.

(a) Ecological information and analyses. Ecosystem diversity and species diversity are components of ecological sustainability. The planning process must include the development and analysis of information regarding these components at a variety of spatial and temporal scales. These scales include geographic areas such as bioregions and watersheds, scales of biological organization such as communities and species, and scales of time ranging from months to centuries. Information and analyses regarding the components of ecological sustainability may be identified, obtained, or developed through a variety of methods, including broad-scale assessments and local analyses (§219.5), and monitoring results (§219.11). For plan revisions, and to the extent the responsible official considers appropriate for plan amendments or site-specific decisions, the responsible official must develop or supplement the following information and analyses related to ecosystem and species diversity:
§ 219.20  

(1) Characteristics of ecosystem and species diversity. Characteristics of ecosystem and species diversity must be identified for assessing and monitoring ecological sustainability. In general, these identified characteristics should be consistent at various scales of analysis.

(i) Ecosystem diversity. Characteristics of ecosystem diversity include, but are not limited to:

(A) Major vegetation types. The composition, distribution, and abundance of the major vegetation types and successional stages of forest and grassland systems; the prevalence of invasive or noxious plant or animal species.

(B) Water resources. The diversity, abundance, and distribution of aquatic and riparian systems including streams, stream banks, coastal waters, estuaries, groundwater, lakes, wetlands, shorelines, riparian areas, and floodplains; stream channel morphology and condition, and flow regimes.

(C) Soil resources. Soil productivity; physical, chemical and biological properties; soil loss; and compaction.

(D) Air resources. Air quality, visibility, and other air resource values.

(E) Focal species. Focal species that provide insights to the larger ecological systems with which they are associated.

(ii) Species diversity. Characteristics of species diversity include, but are not limited to, the number, distribution, and geographic ranges of plant and animal species, including focal species and species-at-risk that serve as surrogate measures of species diversity. Species-at-risk and focal species must be identified for the plan area.

(2) Evaluation of ecological sustainability. Evaluations of ecological sustainability must be conducted at the scope and scale determined by the responsible official to be appropriate to the planning decision. These evaluations must describe the current status of ecosystem diversity and species diversity, risks to ecological sustainability, cumulative effects of human and natural disturbances, and the contribution of National Forest System lands to the ecological sustainability of all lands within the area of analysis.

(i) Evaluation of ecosystem diversity. Evaluations of ecosystem diversity must include, as appropriate, the following:

(A) Information about focal species that provide insights to the integrity of the larger ecological system to which they belong.

(B) A description of the biological and physical properties of the ecosystem using the characteristics identified in paragraph (a)(1)(i) of this section.

(C) A description of the principal ecological processes occurring at the spatial and temporal scales that influence the characteristic structure and composition of ecosystems in the assessment or analysis area. These descriptions must include the distribution, intensity, frequency, and magnitude of natural disturbance regimes of the current climatic period, and should include other ecological processes important to ecological sustainability, such as nutrient cycling, migration, dispersal, food web dynamics, water flows, and the identification of the risks to maintaining these processes. These descriptions may also include an evaluation of the feasibility of maintaining natural ecological processes as a tool to contribute to ecological sustainability.

(D) A description of the effects of human activities on ecosystem diversity. These descriptions must distinguish activities that had an integral role in the landscape’s ecosystem diversity for a long period of time from activities that are of a type, size, or rate that were not typical of disturbances under which native plant and animal species and ecosystems developed.

(E) An estimation of the range of variability of the characteristics of ecosystem diversity, identified in paragraph (a)(1)(i) of this section, that would be expected under the natural disturbance regimes of the current climatic period. The current values of these characteristics should be compared to the expected range of variability to develop insights about the current status of ecosystem diversity.

(F) An evaluation of the effects of air quality on ecological systems including water.
(G) An estimation of current and foreseeable future Forest Service consumptive and non-consumptive water uses and the quantity and quality of water needed to support those uses and contribute to ecological sustainability.

(H) An identification of reference landscapes to provide for evaluation of the effects of actions.

(ii) **Evaluations of species diversity.** Evaluations of species diversity must include, as appropriate, assessments of the risks to species viability and the identification of ecological conditions needed to maintain species viability over time based on the following:

(A) The viability of each species listed under the Endangered Species Act as threatened, endangered, candidate, and proposed species must be assessed. Individual species assessments must be used for these species.

(B) For all other species, including other species-at-risk and those species for which there is little information, a variety of approaches may be used, including individual species assessments and assessments of focal species or other indicators used as surrogates in the evaluation of ecological conditions needed to maintain species viability.

(C) Except as provided in paragraph (a)(2)(ii)(A) of this section, for species groups that contain many species, assessments of functional, taxonomic, or habitat groups rather than individual species may be appropriate.

(D) In analyzing viability, the extent of information available about species, their habitats, the dynamic nature of ecosystems and the ecological conditions needed to support them must be identified. Species assessments may rely on general conservation principles and expert opinion. When detailed information on species habitat relationships, demographics, genetics, and risk factors is available, that information should be considered.

(b) **Plan decisions.** When making plan decisions that will affect ecological sustainability, the responsible official must use the information developed under paragraph (a) of this section. The following requirements must apply at the spatial and temporal scales that the responsible official determines to be appropriate to the plan decision:

(1) **Ecosystem diversity.** Plan decisions affecting ecosystem diversity must provide for maintenance or restoration of the characteristics of ecosystem composition and structure within the range of variability that would be expected to occur under natural disturbance regimes of the current climatic period in accordance with paragraphs (b)(1)(i) through (v) of this section.

(i) Except as provided in paragraph (b)(1)(iv) of this section, in situations where ecosystem composition and structure are currently within the expected range of variability, plan decisions must maintain the composition and structure within the range.

(ii) Except as provided in paragraph (b)(1)(v) of this section, where current ecosystem composition and structure are outside the expected range of variability, plan decisions must provide for measurable progress toward ecological conditions within the expected range of variability.

(iii) Where the range of variability cannot be practically defined, plan decisions must provide for measurable progress toward maintaining or restoring ecosystem diversity. The responsible official must use independently peer-reviewed scientific methods other than the expected range of variability to maintain or restore ecosystem diversity. The scientific basis for such alternative methods must be documented in accordance with §§219.22–219.25.

(iv) Where the responsible official determines that ecological conditions are within the expected range of variability and that maintaining ecosystem composition and structure within that range is ecologically, socially or economically unacceptable, plan decisions may provide for ecosystem composition and structure outside the expected range of variability. In such circumstances, the responsible official must use independently peer-reviewed scientific methods other than the expected range of variability to provide for the maintenance or restoration of ecosystem diversity. The scientific basis for such alternative methods must be documented in accordance with §§219.22–219.25.

(v) Where the responsible official determines that ecological conditions are
outside the expected range of variability and that it is not practicable to make measurable progress toward conditions within the expected range of variability, or that restoration would result in conditions that are ecologically, socially or economically unacceptable, plan decisions may provide for ecosystem composition and structure outside the expected range of variability. In such circumstances, the responsible official must use independently peer-reviewed scientific methods other than the expected range of variability to provide for the maintenance or restoration of ecosystem diversity. The scientific basis for such alternative methods must be documented (§§219.22–219.25).

(2) Species diversity. (i) Plan decisions affecting species diversity must provide for ecological conditions that the responsible official determines provide a high likelihood that those conditions are capable of supporting over time the viability of native and desired non-native species well distributed throughout their ranges within the plan area, except as provided in paragraphs (b)(2)(ii)–(iv) of this section. Methods described in paragraph (a)(2)(i) of this section may be used to make the determinations of ecological conditions needed to maintain viability. A species is well distributed when individuals can interact with each other in the portion of the species range that occurs within the plan area. When a plan area occupies the entire range of a species, these decisions must provide for ecological conditions capable of supporting viability of the species and its component populations throughout that range. When a plan area encompasses one or more naturally disjunct and self-sustaining populations of a species, these decisions must provide ecological conditions capable of supporting viability of that population well distributed throughout its range within the plan area.

(ii) When conditions outside the authority of the agency prevent the agency from providing ecological conditions that provide a high likelihood of supporting over time the viability of native and desired non-native species well distributed throughout their ranges within the plan area, plan decisions must provide for ecological conditions well distributed throughout the species range within the plan area to contribute to viability of that species.

(iii) Where species are inherently rare or not naturally well distributed in the plan area, plan decisions should not contribute to the extirpation of the species from the plan area and must provide for ecological conditions to maintain these species considering their natural distribution and abundance.

(iv) Where environmental conditions needed to support a species have been so degraded that it is technically infeasible to restore ecological conditions that would provide a high likelihood of supporting viability, plan decisions must provide for ecological conditions to contribute to supporting over time viability to the degree practicable.

(3) Federally listed threatened and endangered species. (i) Plan decisions must provide for implementing actions in conservation agreements with the U.S. Fish and Wildlife Service or the National Marine Fisheries Service that provide a basis for not needing to list a species. In some situations, conditions or events beyond the control or authority of the agency may limit the Forest Service’s ability to prevent the need for federal listing. Plan decisions should reflect the unique opportunities that National Forest System lands provide to contribute to recovery of listed species.

(ii) Plan decisions involving species listed under the Endangered Species Act must include, at the scale determined by the responsible official to be appropriate to the plan decision, reasonable and prudent measures and associated terms and conditions contained in final biological opinions issued under 50 CFR part 402. The plan decision documents must provide a rationale for adoption or rejection of discretionary conservation recommendations contained in final biological opinions.
§ 219.21 Social and economic sustainability.

To contribute to economic and social sustainability, the responsible official involves interested and affected people in planning for National Forest System lands (§§219.12–219.18), provides for the development and consideration of relevant social and economic information and analyses, and a range of uses, values, products, and services.

(a) Social and economic information and analyses. To understand the contribution national forests and grasslands make to the economic and social sustainability of local communities, regions, and the nation, the planning process must include the analysis of economic and social information at variable scales, including national, regional, and local scales. Social analyses address human life-styles, cultures, attitudes, beliefs, values, demographics, and land-use patterns, and the capacity of human communities to adapt to changing conditions. Economic analyses address economic trends, the effect of national forest and grassland management on the well-being of communities and regions, and the net benefit of uses, values, products, or services provided by national forests and grasslands. Social and economic analyses should recognize that the uses, values, products, and services from national forests and grasslands change with time and the capacity of communities to accommodate shifts in land uses change. Social and economic analyses may rely on quantitative, qualitative, and participatory methods for gathering and analyzing data. Social and economic information may be developed and analyzed through broadscale assessments and local analyses (§219.5), monitoring results (§219.11), or other means. For plan revisions, and to the extent the responsible official considers to be appropriate for plan amendments or site-specific decisions, the responsible official must develop or supplement the information and analyses related to the following:

(1) Describe and analyze, as appropriate, the following:

(i) Demographic trends; life-style preferences; public values; land-use patterns; related conservation and land use policies at the state and local level; cultural and American Indian tribe and Alaska Native land settlement patterns; social and cultural history; social and cultural opportunities provided by national forest system lands; the organization and leadership of local communities; community assistance needs; community health; and other appropriate social and cultural information;

(ii) Employment, income, and other economic trends; the range and estimated long-term value of market and non-market goods, uses, services, and amenities that can be provided by national forest system lands consistent with the requirements of ecological sustainability, the estimated cost of providing them, and the estimated effect of providing them on regional and community well-being, employment, and wages; and other appropriate economic information. Special attention should be paid to the uses, values, products, or services that the Forest Service is uniquely poised to provide;

(iii) Opportunities to provide social and economic benefits to communities through natural resource restoration strategies;

(iv) Other social or economic information, if appropriate, to address issues being considered by the responsible official (§219.4).

(2) Analyze community or region risk and vulnerability. Risk and vulnerability analyses assess the vulnerability of communities from changes in ecological systems as a result of natural succession or potential management actions. Risk may be considered for geographic, relevant occupational, or other related communities of interest. Resiliency and community capacity should be considered in a risk and vulnerability analysis. Risk and vulnerability analysis may also address potential consequences to communities and regions from land management changes in terms of capital availability, employment opportunities, wage levels, local tax bases, federal revenue sharing, the ability to support public infrastructure and social services, human health and safety, and other factors as necessary and appropriate.
§ 219.22 Plan decisions. When making plan decisions that will affect social or economic sustainability, the responsible official must use the information analyses developed in paragraph (a) of this section. Plan decisions contribute to social and economic sustainability by providing for a range of uses, values, products, and services, consistent with ecological sustainability.

THE CONTRIBUTION OF SCIENCE

§ 219.22 The overall role of science in planning.

(a) The responsible official must ensure that the best available science is considered in planning. The responsible official, when appropriate, should acknowledge incomplete or unavailable information, scientific uncertainty, and the variability inherent in complex systems.

(b) When appropriate and practicable and consistent with applicable law, the responsible official should provide for independent, scientific peer reviews of the use of science in planning. Independent, scientific peer reviews are conducted using generally accepted scientific practices that do not allow individuals to participate in the peer reviews of documents they authored or co-authored.

§ 219.23 The role of science in assessments, analyses, and monitoring.

(a) Broad-scale assessments. If the Forest Service is leading a broad-scale assessment, the assessment must be led by a Chief Scientist selected by the Deputy Chief of Research and Development. When appropriate and practicable, a responsible official may provide for independent, scientific peer review of the findings and conclusions originating from a broad-scale assessment. Independent, scientific peer review may be provided by scientists from the Forest Service, other federal, state, or tribal agencies, or other institutions.

(b) Local analyses. Though not required, a responsible official may include scientists in the development or technical reviews of local analyses and field reviews of the design and selection of subsequent site-specific actions.

(c) Monitoring. (1) The responsible official must include scientists in the design and evaluation of monitoring strategies. Additionally, the responsible official must provide for an independent, scientific peer review of plan monitoring on at least a biennial basis to validate adherence to appropriate protocols and methods in collecting and processing of monitoring samples and to validate that data are summarized and interpreted properly.

(2) When appropriate and practicable, the responsible official should include scientists in the review of monitoring data and analytical results to determine trends relative to ecological, economic, or social sustainability.

§ 219.24 Science consistency evaluations.

(a) The responsible official must ensure that plan amendments and revisions are consistent with the best available science. The responsible official may use a science advisory board (§ 219.25) to assist in determining whether information gathered, evaluations conducted, or analyses and conclusions reached in the planning process are consistent with the best available science. If the responsible official decides to use a science advisory board, the board and the responsible official are to jointly establish criteria for the science advisory board and the responsible official to use in reviewing the consistency of proposed plan amendments and revisions with the best available science.

(b) The science advisory board is responsible for organizing and conducting a scientific consistency evaluation to determine the following:

(1) If relevant scientific (ecological, social, or economic) information has been considered by the responsible official in a manner consistent with current scientific understanding at the appropriate scales;

(2) If uncertainty of knowledge has been recognized, acknowledged, and adequately documented; and

(3) If the level of risk in achievement of sustainability is acknowledged and adequately documented by the responsible official.
§ 219.25 Science advisory boards.

(a) National science advisory board. The Forest Service Deputy Chief for Research and Development must establish, convene, and chair a science advisory board to provide scientific advice on issues identified by the Chief of the Forest Service. Board membership must represent a broad range of scientific disciplines including, but not limited to, the physical, biological, economic, and social sciences.

(b) Regional science advisory boards. Based upon needs identified by Regional Forester(s) or Research Station Director(s), the Forest Service Research Station Director(s), should establish and convene science advisory boards consistent with the Federal Advisory Committee Act (5 U.S.C. app.) to provide advice to one or more Regional Foresters regarding the application of science in planning and decision-making for National Forest System lands. At least one regional science advisory board must be available for each national forest and grassland. The Station Director(s) must chair the board or appoint a chair of such boards. The geographical boundaries of the boards need not align with National Forest System Regional boundaries. Board membership must represent a broad range of science disciplines including, but not limited to, the physical, biological, economic, and social sciences. Regional science advisory board tasks may include, but are not limited to:

(1) Evaluating significance and relevance of new information related to current plan decisions, including the results of monitoring and evaluation; and

(2) Evaluating science consistency as described in § 219.24.

(c) Work groups. With the concurrence of the appropriate chair and subject to available funding, the national or regional science advisory boards may convene work groups to study issues and provide recommendations.

§ 219.26 Identifying and designating suitable uses.

International forests and grasslands are suitable for a wide variety of public uses, such as outdoor recreation, livestock grazing, timber harvest, off-road vehicle travel, or other uses except where lands are determined to be unsuited for a particular use. Lands are not suited for a particular use if that use: is prohibited by law, regulation, or Executive Order; is incompatible with the mission or policies of the National Forest System; or would result in substantial and permanent impairment of the productivity of the land. Through a plan amendment or revision, the responsible official may determine whether specific uses may begin, continue, or terminate within the plan area. Planning documents should describe or display lands suitable for various uses in areas large enough to provide sufficient latitude for periodic adjustments in use to conform to changing needs and conditions.

§ 219.27 Special designations.

The Forest Service may recommend special designations to higher authorities or, to the extent permitted by law, adopt special designations through plan amendment or revision. Special designations are areas within the National Forest System that are identified for their unique or special characteristics and include the following:

(a) Congressionally designated areas. Congressionally designated areas may include, but are not limited to, wilderness, wild and scenic rivers, national trails, scenic areas, recreation areas, and monuments. These nationally significant areas must be managed as required by Congress and may have specific requirements for their management.

(b) Wilderness area reviews. Unless federal statute directs otherwise, all undeveloped areas that are of sufficient size...
as to make practicable their preservation and use in an unimpaired condition must be evaluated for recommended wilderness designation during the plan revision process. These areas may be evaluated at other times as determined by the responsible official.

(c) Administratively designated areas. Administratively designated areas may include, but are not limited to, critical watersheds, research natural areas, national monuments, geological areas, inventoried roadless areas, unroaded areas, motorized and non-motorized recreation areas, botanical areas, and scenic byways.

§ 219.28 Determination of land suitable for timber harvest.

(a) Lands where timber may not be harvested. The plan must identify lands within the plan area where timber may not be harvested. These lands include:

(1) Lands where timber harvest would violate statute, Executive Order, or regulation and those lands that have been withdrawn from timber harvest by the Secretary of Agriculture or the Chief of the Forest Service;

(2) Lands where technology is not available for conducting timber harvesting without causing irreversible damage to soil, slope, or other watershed conditions or produce substantial and permanent impairment of the productivity of the land; and

(3) Lands where there are no assurances that such lands can be adequately restocked within 5 years after harvest;

(b) Lands where timber may be harvested for timber production. The responsible official may establish timber production as a multiple-use plan objective for lands not identified in paragraph (a) of this section if the costs of timber production are justified by the ecological, social, or economic benefits considering physical, economic, and other pertinent factors to the extent feasible. Lands where timber production is not established as a plan objective are deemed not suited for timber production. These lands must be reviewed by the responsible official at least once every 10 years, or as prescribed by law, to determine their suitability for timber production considering physical, economic, and other pertinent factors to the extent feasible. Based on this review, timber production may be established as a plan objective for these lands through amendment or revision of the plan.

(c) Lands where timber may be harvested for other multiple-use values. Except for lands identified in paragraph (a) of this section, timber may be harvested from land where timber production is not established as a plan objective if, based on a site-specific analysis, the responsible official determines and documents that such timber harvest would contribute to achievement of desired conditions and ecological sustainability, and is necessary to protect multiple-use values other than timber production.

§ 219.29 Limitation on timber harvest.

(a) Estimate of the limitation of timber harvest. The responsible official must estimate the amount of timber that can be sold annually in perpetuity on a sustained-yield basis from National Forest System lands other than those identified in §219.28(a). This estimate must be based on the yield of timber that can be removed consistent with achievement of objectives or desired conditions in the applicable plan. In those cases where a national forest has less than 200,000 acres of forested land identified in lands other than those identified in §219.28(a), two or more national forests may be combined for the purpose of estimating amount of timber that can be sold annually on a sustained-yield basis. Estimations for lands where timber production is established as a plan objective §219.28(b) and estimations for lands identified in §219.28(c) cannot be combined.

(b) Limitation of timber harvest. The responsible official must limit the sale of timber from the lands where timber production is an objective and from other lands to a quantity equal to or less than that estimated in paragraph (a) of this section.

(c) Exceptions to limitations of timber harvest. For purposes of limiting the sale of timber, the responsible official may sell timber from areas that are substantially affected by fire, wind, or other events, or for which there is an
§ 219.30  Plan documentation.

A plan is a repository of documents that integrates and displays the desired conditions, objectives, standards, and other plan decisions that apply to a unit of the National Forest System. The plan also contains maps, monitoring and evaluation results, the annual monitoring and evaluation report, and other information relevant to how the plan area is to be managed. Planning documents should be clear, understandable, and readily available for public review. Plan documents should be updated through amendments, revision, and routine maintenance (§219.31). Plan documents include, at a minimum, the following:

(a) A summary of the plan. The summary is a concise description of the plan that includes a summary of the plan decisions and a description of the plan area and appropriate planning units. The summary should include a brief description of the ecological, social, and economic environments within the plan area and the overall strategy for maintenance or restoration of sustainability, including desired conditions and objectives for their achievement. The summary also includes appropriate maps, a description of the transportation system, utility corridors, land ownership patterns and proposed land ownership adjustments, charts, figures, photographs, and other information to enhance understanding.

(b) Display of public uses. The plan documents must identify the suitability of the plan area for various uses (§219.26) such as recreation uses, livestock grazing, timber harvest, and mineral developments. The plan documents must identify land where timber may not be harvested and where timber production is an objective (§219.28). The plan documents also must describe the limitations on the removal of timber (§219.29) and the standards for timber harvest and regeneration methods (§219.7(c)).

(c) Plan decisions. The plan documents must display or describe the plan decisions (§219.7).

(d) Display of actions and outcomes. The plan documents must also contain:

(1) An annually updated list or other display of proposed, authorized, and completed actions to achieve desired conditions and objectives within the plan area;

(2) A 2-year schedule, updated annually, of anticipated outcomes which may include anticipated uses, values, products, or services based on an estimate of Forest Service budget and capacity to perform the identified program of work. The estimate of Forest Service budget and capacity should be based on recent funding levels;

(3) A 2-year summary, updated annually, of the actual outcomes which may include specific uses, values, products, or services provided as a result of completed site-specific actions;

(4) A projected range of outcomes which may include anticipated uses, values, products, and services for the next 15 years, assuming current or likely budgets while considering other spending levels as appropriate. These projections are estimates and as such often contain a high degree of uncertainty; they are intended to describe expected progress in achieving desired conditions and objectives within the plan area. The projections are to be updated during revision of each plan;

(5) A description of the monitoring strategy to occur in the plan area and the annual monitoring and evaluation report; and

(6) A summary of the projected program of work, updated annually, including costs for inventories, assessments, proposed and authorized actions, and monitoring. The projected program of work must be based on reasonably anticipated funding levels. Reasonably anticipated funding levels
§ 219.31 Maintenance of the plan and planning records.

(a) Each National Forest or Grassland Supervisor must maintain a complete set of the planning documents required under §219.30 that constitute the plan for the unit. The set of documents must be readily available to the public using appropriate and relevant technology.

(b) The following administrative corrections and additions may be made at any time, are not plan amendments or revisions, and do not require public notice or the preparation of an environmental document under Forest Service NEPA procedures:

1. Corrections and updates of data and maps;
2. Updates to activity lists and schedules as required by §219.30(d)(1)–(6);
3. Corrections of typographical errors or other non-substantive changes; and
4. Changes in monitoring methods other than those required in a monitoring strategy (§219.11(c)).

§ 219.32 Objections and appeals.

(a) Any person may object to a proposed amendment or revision prepared under the provisions of this subpart, except for an amendment or revision proposed by the Chief. The objection must be filed within 30 calendar days from the date that the Environmental Protection Agency publishes the notice of availability of a final environmental impact statement regarding a proposed amendment or revision in the Federal Register, or within 30 calendar days of the publication of a public notice of a proposed amendment not requiring preparation of an environmental impact statement. Within ten days after the close of the objection period, the Responsible Official shall publish notice of all objections in the local newspaper of record. An objection must be filed with the reviewing officer identified in the notice and contain:

1. The name, mailing address, and telephone number of the person filing the objection;
2. A specific statement of the basis for each objection; and
3. A description of the objector’s participation in the planning process for the proposed amendment or revision, including a copy of any relevant documents submitted during the planning process.

(b) Objectors may request meetings with the reviewing officer and the responsible official to discuss the objection, to narrow the issues, agree on facts, and explore opportunities for resolution. The reviewing officer must allow other interested persons to participate in such meetings. An interested person must file a request to participate in an objection within ten days after publication of the notice of objection as described in paragraph (a) of this section.

(c) The reviewing officer must respond, in writing, to an objection within a reasonable period of time and may respond to all objections in one response. The reviewing officer’s response regarding an objection is the final decision of the Department of Agriculture.

(d) The responsible official may not approve a proposed amendment or revision until the reviewing officer has responded to all objections. A decision by the responsible official approving an amendment or revision must be consistent with the reviewing officer’s response to objections to the proposed amendment or revision.

(e) Where the Forest Service is a participant in a multi-agency decision
subject to objection under this subpart, the responsible official and reviewing officer may waive the objection procedures of this subpart to adopt the administrative review procedure of another participating federal agency, if the responsible official and the responsible official of the other agencies agree to provide a joint response to those who have filed for administrative review of the multi-agency decision.

(f) The information collection requirements of this section have been approved by the Office of Management and Budget and assigned control number 0596–0158.

§219.33 Appeals of site-specific decisions.

If a site-specific decision is proposed in conjunction with a plan amendment or revision, a person may object to the proposed plan amendment or revision as described in ($219.32). If a decision is made to authorize a site-specific action, a person may request administrative review of that decision as described in 36 CFR part 215.

APPLICABILITY AND TRANSITION

§219.34 Applicability.

The provisions of this subpart are applicable to all units of the National Forest System as defined by 16 U.S.C. 1609.

§219.35 Transition.

(a) The transition period begins on November 9, 2000 and ends upon the completion of the revision process ($219.9) for each unit of the National Forest System. During the transition period, the responsible official must consider the best available science in implementing and, if appropriate, amending the current plan.

(b) Until May 9, 2002, a responsible official may elect to continue or to initiate new plan amendments or revisions under the 1982 planning regulations in effect prior to November 9, 2000 (See 36 CFR parts 200 to 299, Revised as of July 1, 2000), or the responsible official may conduct the amendment or revision process in conformance with the provisions of this subpart. For the purposes of this paragraph, the reference to a plan amendment or revision initiated before May 9, 2002, means that the agency has issued a Notice of Intent or other public notification announcing the commencement of a plan amendment or revision as provided for in the Council on Environmental Quality regulations at 40 CFR 1501.7 or in Forest Service Handbook 1909.15, Environmental Policy and Procedures Handbook, section 11.

(c) If a review of lands not suited for timber production is required before the completion of the revision process, the review must take place as described by the provisions of §219.28, except as provided in paragraph (b) of this section.

(d) Site-specific decisions made by the responsible official 3 years from November 9, 2000 and afterward must be in conformance with the provisions of this subpart.

(e) Within 1 year of November 9, 2000, the Regional Forester must withdraw the regional guide. When a regional guide is withdrawn, the Regional Forester must identify the decisions in the regional guide that are to be transferred to a regional supplement of the Forest Service directive system (36 CFR 200.4) or to one or more plans and give notice in the Federal Register of these actions. The transfer of direction from a regional guide to a regional supplement of the Forest Service directive system or to one or more plans does not constitute an amendment, revision, or site-specific action subject to Forest Service NEPA procedures.

(f) Within 3 years after completion of the revision process for a unit, the responsible official must complete the first monitoring and evaluation report as required in §219.11(f).

(g) Within 1 year of November 9, 2000, the Chief of the Forest Service must establish a schedule for completion of the revision process for each unit of the National Forest System.

APPENDIX A TO §219.35

INTERPRETIVE RULE RELATED TO PARAGRAPH 219.35(b)

The Department is making explicit its pre-existing understanding of paragraph (b) of this section with regard to the appeal or objection procedures that may be applied to
amendments or revisions of land and resource management plans during the transition from the appeal procedures of 36 CFR part 217 in effect prior to November 9, 2000 (See CFR 36 parts 200 to 299. Revised as of July 1, 2000), to the objection procedures of §219.32 as follows:

1. The option to proceed under the 1982 regulations or under the provisions of this subpart specifically includes the option to select either the administrative appeal and review procedures of 36 CFR part 217 in effect prior to November 9, 2000, or the objection procedures of 36 CFR 219.32.

2. The Department interprets the term “initiated,” as used in paragraph (b) of this section, to indicate that the agency has issued a Notice of Intent or other public notification announcing the commencement of a plan revision or amendment as provided for in the Council on Environmental Quality regulations at 40 CFR 1501.7 or in Forest Service Handbook 1909.15, Environmental Policy and Procedures Handbook, section 11.

DEFINITIONS

§219.36 Definitions.

Definitions of the special terms used in this subpart are set out in alphabetical order in this section as follows:

Adaptive management: An approach to natural resource management wherein the effects of policies, plans, and actions are monitored for the purpose of learning and adjusting future management actions. Successive iteration of the adaptive process is essential in contributing to sustainability.

Assessment or analysis area: The geographic area included within the scope of a broad-scale assessment or local analysis.

Candidate species: Species identified by the United States Fish and Wildlife Service (USFWS) or the National Marine Fisheries Service (NMFS), which are considered to be candidates for listing under the Endangered Species Act as published in the FEDERAL REGISTER.

Conservation agreement: A formal agreement between the Forest Service and the USFWS and/or NMFS identifying management actions necessary to prevent the need to list species under the Endangered Species Act.

Current climatic period: The period of time since establishment of the modern major vegetation types, which typically encompass the late Holocene Epoch including the present, including likely climatic conditions within the planning period. The climatic period is typically centuries to millennia in length, a period of time that is long enough to encompass the variability that species and ecosystems have experienced.

Desired condition: A statement describing a common vision for a specific area of land or type of land within the plan area. Statements of desired conditions should include the estimated time required for their achievement.

Desired non-native species: Those species of plants or animals which are not indigenous to an area but valued for their contribution to species diversity or their high social, cultural or economic value.

Disturbance regime: Actions, functions, or events that influence or maintain the structure, composition, or function of terrestrial or aquatic ecosystems. Natural disturbances include, among others, drought, floods, wind, fires, insects, and pathogens. Human-caused disturbances include actions such as recreational use, livestock grazing, mining, road construction, timber harvest, and the introduction of exotic species.

Diversity of plant and animal communities: The distribution and relative abundance of plant and animal communities and their component species occurring within an area.

Ecological conditions: Components of the biological and physical environment that can affect the diversity of plant and animal communities, including species viability, and the productive capacity of ecological systems. These could include the abundance and distribution of aquatic and terrestrial habitats, roads and other structural developments, human uses, and invasive and exotic species.

Ecological sustainability: The maintenance or restoration of the composition, structure, and processes of ecosystems including the diversity of plant and animal communities and the productive capacity of ecological systems.

Ecosystem composition: The plant and animal species and communities in the plan area.
Ecosystem processes: Ecological functions such as photosynthesis, energy flow, nutrient cycling, water movement, disturbance, and succession.

Ecosystem structure: The biological and physical attributes that characterize ecological systems.

Focal species: Focal species are surrogate measures used in the evaluation of ecological sustainability, including species and ecosystem diversity. The key characteristic of a focal species is that its status and trend provide insights to the integrity of the larger ecological system to which it belongs. Individual species, or groups of species that use habitat in similar ways or which perform similar ecological functions, may be identified as focal species. Focal species serve an umbrella function in terms of encompassing habitats needed for many other species, play a key role in maintaining community structure or processes, are sensitive to the changes likely to occur in the area, or otherwise serve as an indicator of ecological sustainability. Certain focal species may be used as surrogates to represent ecological conditions that provide for viability of some other species, rather than directly representing the population dynamics of those other species.

Inherently rare species: A species is inherently rare if it occurs in only a limited number of locations, has low population numbers, or has both limited occurrences and low population numbers, and those conditions are natural characteristics of the life history and ecology of the species and not primarily the result of human disturbance.

Inventoried roadless areas: Areas are identified in a set of inventoried roadless area maps, contained in Forest Service Roadless Area Conservation, Draft Environmental Impact Statement, Volume 2, dated May 2000, which are held at the National headquarters office of the Forest Service, or any subsequent update or revision of those maps.

Major vegetation types: Plant communities, which are typically named after dominant plant species that are characteristic of the macroclimate and geology of the region or sub-region.

Native species: Species of the plant and animal kingdom indigenous to the plan area or assessment area.

Plan area: The geographic area of National Forest System lands covered by an individual land and resource management plan. The area may include one or more administrative units.

Productive capacity of ecological systems: The ability of an ecosystem to maintain primary productivity including its ability to sustain desirable conditions such as clean water, fertile soil, riparian habitat, and the diversity of plant and animal species; to sustain desirable human uses; and to renew itself following disturbance.

Range of variability: The expected range of variation in ecosystem composition, and structure that would be expected under natural disturbance regimes in the current climatic period. These regimes include the type, frequency, severity, and magnitude of disturbance in the absence of fire suppression and extensive commodity extraction.

Reference landscapes: Places identified in the plan area where the conditions and trends of ecosystem composition, structure, and processes are deemed useful for setting objectives for desired conditions and for judging the effectiveness of plan decisions.

Responsible official: The officer with the authority and responsibility to oversee the planning process and make decisions on proposed actions.

Reviewing officer: The supervisor of the responsible official.

Social and economic sustainability: Meeting the economic, social, aesthetic, and cultural needs and desires of current generations without reducing the capacity of the environment to provide for the needs and desires of future generations, considering both local communities and the nation as a whole. It also involves the capacity of citizens to communicate effectively.
with each other and to make sound choices about their environment.

Species: Any member of the animal or plant kingdom that is described as a species in a peer-reviewed scientific publication and is identified as a species by the responsible official pursuant to a plan decision, and must include all species listed under the Endangered Species Act as threatened, endangered, candidate, or proposed for listing by the U.S. Fish and Wildlife Service or National Marine Fisheries Service.

Species-at-risk: Federally listed endangered, threatened, candidate, and proposed species and other species for which loss of viability, including reduction in distribution or abundance, is a concern within the plan area. Other species-at-risk may include sensitive species and state listed species. A species-at-risk also may be selected as a focal species.

Species viability: A species consisting of self-sustaining and interacting populations that are well distributed through the species' range. Self-sustaining populations are those that are sufficiently abundant and have sufficient diversity to display the array of life history strategies and forms to provide for their long-term persistence and adaptability over time.

Successional stages: The different structural and compositional phases of vegetation development of forests and grasslands that occur over time following disturbances that kill, remove, or reduce vegetation and include the major developmental or seral stages that occur within a particular environment.

Timber production: The sustained long-term and periodic harvest of wood fiber from National Forest System lands undertaken in support of social and economic objectives identified in one or more land and resource management plans. For purposes of this regulation, the term timber production includes fuel wood.

Undeveloped areas: Areas, including but not limited to inventoried roadless areas and unroaded areas, within national forests or grasslands that are of sufficient size and generally untrammeled by human activities such that they are appropriate for consideration for wilderness designation in the planning process.

Unroaded areas: Any area, without the presence of a classified road, of a size and configuration sufficient to protect the inherent characteristics associated with its roadless condition. Unroaded areas do not overlap with inventoried roadless areas.

Subpart B  [Reserved]

PART 221—TIMBER MANAGEMENT PLANNING

§221.3 Disposal of national forest timber according to management plans.

(a) Management plans for national forest timber resources shall be prepared and revised, as needed, for working circles or other practicable units of national forest. Such plans shall:

(1) Be designed to aid in providing a continuous supply of national forest timber for the use and necessities of the citizens of the United States.

(2) Be based on the principle of sustained yield, with due consideration to the condition of the area and the timber stands covered by the plan.

(3) Provide, so far as feasible, an even flow of national forest timber in order to facilitate the stabilization of communities and of opportunities for employment.

(4) Provide for coordination of timber production and harvesting with other uses of national forest land in accordance with the principles of multiple use management.

(5) Establish the allowable cutting rate which is the maximum amount of timber which may be cut from the national forest lands within the unit by years or other periods.

(6) Be approved by the Chief, Forest Service, unless authority for such approval shall be delegated to subordinates by the Chief.

(b) When necessary to promote better utilization of national forest timber or to facilitate protection and management of the national forests, a management plan may include provisions for
requirements of purchasers for processing the timber to at least a stated degree within the working circle, or within a stated area, and, when appropriate, by machinery of a stated type; and agreements for cutting in accordance with the plan may so require.

PART 222—RANGE MANAGEMENT

Subpart A—Grazing and Livestock Use on the National Forest System

Sec. 222.1 Authority and definitions.

(a) Authority.
The Chief, Forest Service, shall develop, administer and protect the range resources and permit and regulate the grazing use of all kinds and classes of livestock on all National Forest System lands and on other lands under Forest Service control. He may redelegate this authority.

(b) Definitions.
(1) Allotment is a designated area of land available for livestock grazing.

(2) Allotment management plan is a document that specifies the program of action designated to reach a given set of objectives. It is prepared in consultation with the permittee(s) involved and:

(i) Prescribes the manner in and extent to which livestock operations will be conducted in order to meet the multiple-use, sustained yield, economic, and other needs and objectives as determined for the lands, involved; and

(ii) Describes the type, location, ownership, and general specifications for the range improvements in place or to be installed and maintained on the lands to meet the livestock grazing and other objectives of land management; and

(3) Base property is land and improvements owned and used by the permittee

Subpart B—Management of Wild Free-Roaming Horses and Burros

Sec. 222.20 Authority and definitions.

222.21 Administration of wild free-roaming horses and burros and their environment.

222.22 Ownership claims.

222.23 Removal of other horses and burros.

222.24 Use of helicopters, fixed-wing aircraft and motor vehicles.

222.25 Protection of wild free-roaming horses and burros when they are upon other than the National Forest System or public lands.

222.26 Removal of wild free-roaming horses and burros from private lands.

222.27 Maintenance of wild free-roaming horses and burros on privately-owned lands.

222.28 Agreements.

222.29 Relocation and disposal of animals.

222.30 Disposal of carcasses.

222.31 Loss of status.

222.32 Use of non-Forest Service personnel.

222.33 Management coordination.

222.34 National Advisory Board.

222.35 Studies.

222.36 Arrest.

Subpart C—Grazing Fees

Sec. 222.50 General procedures.

222.51 National Forests in 16 Western States.

222.52 National Grasslands.

222.53 Grazing fees in the East—non-competitive procedures.

222.54 Grazing fees in the East—competitive bidding.

Subpart A—Grazing and Livestock Use on the National Forest System

SOURCE: 42 FR 56732, Oct. 28, 1977, unless otherwise noted.

§ 222.1 Authority and definitions.

(a) Authority. The Chief, Forest Service, shall develop, administer and protect the range resources and permit and regulate the grazing use of all kinds and classes of livestock on all National Forest System lands and on other lands under Forest Service control. He may redelegate this authority.

(b) Definitions. (1) An allotment is a designated area of land available for livestock grazing.

(2) An allotment management plan is a document that specifies the program of action designated to reach a given set of objectives. It is prepared in consultation with the permittee(s) involved and:

(i) Prescribes the manner in and extent to which livestock operations will be conducted in order to meet the multiple-use, sustained yield, economic, and other needs and objectives as determined for the lands, involved; and

(ii) Describes the type, location, ownership, and general specifications for the range improvements in place or to be installed and maintained on the lands to meet the livestock grazing and other objectives of land management; and

(iii) Contains such other provisions relating to livestock grazing and other objectives as may be prescribed by the Chief, Forest Service, consistent with applicable law.

(3) Base property is land and improvements owned and used by the permittee
§ 222.1

for a farm or ranch operation and specifically designated by him to qualify for a term grazing permit.

(4) Cancel means action taken to permanently invalidate a term grazing permit in whole or in part.

(5) A grazing permit is any document authorizing livestock to use National Forest System or other lands under Forest Service control for the purpose of livestock production including:

(i) Temporary grazing permits for grazing livestock temporarily and without priority for reissuance.

(ii) Term permits for up to 10 years with priority for renewal at the end of the term.

(6) Land subject to commercial livestock grazing means National Forest System lands within established allotments.

(7) Lands within National Forest in the 16 contiguous western States means lands designated as National Forest within the boundaries of Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Utah, Washington, and Wyoming (National Grasslands are excluded).

(8) Livestock means animals of any kind kept or raised for use or pleasure.

(9) Livestock use permit means a permit issued for not to exceed one year where the primary use is for other than grazing livestock.

(10) Modify means to revise the terms and conditions of an issued permit.

(11) National Forest System lands, are the National Forests, National Grasslands, Land Utilization Projects, and other Federal lands for which the Forest Service has administrative jurisdiction.

(12) On-and-off grazing permits are permits with specific provisions on range only part of which is National Forest System lands or other lands under Forest Service control.

(13) On-the-ground expenditure means payment of direct project costs of implementing an improvement or development, such as survey and design, equipment, labor and material (or contract) costs, and on-the-ground supervision.

(14) Other lands under Forest Service control are non-Federal public and private lands over which the Forest Serv-
§ 222.2 Management of the range environment.

(a) Allotments will be designated on the National Forest System and on other lands under Forest Service control where the land is available for grazing. Associated private and other public lands should, but only with the consent of the landowner, lessee, or agency, be considered in such designations to form logical range management units.

(b) Each allotment will be analyzed and with careful and considered consultation and cooperation with the affected permittees, landowners, and grazing advisory boards involved, as well as the State having land within the area covered, and an allotment management plan developed. The plan will then be approved and implemented. The analysis and plan will be updated as needed.

(c) Forage producing National Forest System lands will be managed for livestock grazing and the allotment management plans will be prepared consistent with land management plans.

§ 222.3 Issuance of grazing and livestock use permits.

(a) Unless otherwise specified by the Chief, Forest Service, all grazing and livestock use on National Forest System lands and on other lands under Forest Service control must be authorized by a grazing or livestock use permit.

(b) Grazing permits and livestock use permits convey no right, title, or interest held by the United States in any lands or resources.

(c) The Chief, Forest Service, is authorized to issue permits for livestock grazing and other use by livestock of the National Forest System and on other lands under Forest Service control as follows:

(1) Grazing permits with priority for renewal may be issued as follows: On National Forests in the 16 contiguous western States 10-year term permits will be issued unless the land is pending disposal, or will be devoted to other uses prior to the end of ten years, or it will be in the best interest of sound land management to specify a shorter term. On National Forest System lands other than National Forests in the 16 contiguous western States, the permit term shall be for periods of 10 years or less. Term grazing permits for periods of 10 years or less in the form of grazing agreements may be issued to cooperative grazing associations or similar organizations incorporated or otherwise established pursuant to State law. Such an agreement will make National Forest System lands and improvements available to the association for grazing in accordance with provisions of the grazing agreement and Forest Service policies. Term permits authorized in this paragraph may be in the form of private land or on-and-off grazing permits where the person is qualified to hold such permits under provisions the Chief may require. Permits issued under this paragraph are subject to the following:

(i) Except as provided for by the Chief, Forest Service, paid term permits will be issued to persons who own livestock to be grazed and such base property as may be required, provided the land is determined to be available...
§ 222.3 for grazing purposes by the Chief, Forest Service, and the capacity exists to graze specified numbers of animals.

(ii) A term permit holder has first priority for receipt of a new permit at the end of the term period provided he has fully complied with the terms and conditions of the expiring permit.

(iii) In order to update terms and conditions, term permits may be cancelled at the end of the calendar year of the midyear of the decade (1985, 1995, etc.), provided they are reissued to the existing permit holder for a new term of 10 years.

(iv) New term permits may be issued to the purchaser of a permittee’s permitted livestock and/or base property, provided the permittee waives his term permit to the United States and provided the purchaser is otherwise eligible and qualified.

(v) If the permittee chooses to dispose of all or part of his base property or permitted livestock (not under approved nonuse) but does not choose to waive his term permit, the Forest Supervisor will give written notice that he no longer is qualified to hold a permit, provided he is given up to one year to reestablish his qualifications before cancellation action is final.

(vi) The Chief, Forest Service, shall prescribe provisions and requirements under which term permits will be issued, renewed, and administered, including:

(A) The amount and character of base property and livestock the permit holder shall be required to own.

(B) Specifying the period of the year the base property shall be capable of supporting permitted livestock.

(C) Acquisition of base property and/or permitted livestock.

(D) Conditions for the approval of nonuse of permit for specified periods.

(E) Upper and special limits governing the total number of livestock for which a person is entitled to hold a permit.

(F) Conditions whereby waiver of grazing privileges may be confirmed and new applicants recognized.

(2) Permits with no priority for reissuance, subject to terms and conditions as the Chief, Forest Service, may prescribe, are authorized as follows:

(i) Temporary grazing permits for periods not to exceed one year, and on a charge basis, may be issued:

(A) To allow for use of range while a term grazing permit is held in suspension.

(B) To use forage created by unusually favorable climatic conditions.

(C) To use the forage available when the permit of the normal user's livestock is in nonuse status for reasons of personal convenience.

(D) To allow a person to continue to graze livestock for the remainder of the grazing season where base property has been sold, the permit waived, and a new term permit issued.

(E) To allow grazing use in the event of drought or other emergency of National or Regional scope where such use would not result in permanent resource damage.

(ii) Livestock use permits for not to exceed one year may be issued under terms and conditions prescribed by the Chief, Forest Service, as follows:

(A) Paid permits for transportation livestock to persons engaged in commercial packing, dude ranching, or other commercial enterprises which involve transportation livestock including mining, ranching, and logging activities.

(B) Paid or free permits for research purposes and administrative studies.

(C) Paid or free permits to trail livestock across National Forest System lands.

(D) Free permits to persons who reside on ranch or agricultural lands within or contiguous to National Forest System lands for not to exceed 10 head of livestock owned or kept and whose products are consumed or whose services are used directly by the family of the resident, and who distinctly need such National Forest System lands to support such animals.

(E) Free permits to campers and travelers for the livestock actually used during the period of occupancy. This may be authorized without written permit.

(F) Paid or free permits for horses, mules, or burros to persons who clearly need National Forest System land to support the management of permitted livestock.
§ 222.6 Compensation for permittees' interest in authorized permanent improvements.

(a) Whenever a term permit for grazing livestock on National Forest land in any of the 16 contiguous western States is canceled in whole or in part to devote the lands covered by the permit to another public purpose, the permittee shall receive from the United States a reasonable compensation for the adjusted value of his interest in authorized permanent improvements placed or constructed by him on the lands covered by the canceled permit. The adjusted value is to be determined by the Chief, Forest Service. Compensation received shall not exceed the fair market value of the terminated portion of the permittee's interest therein.

(b) In the event a permittee waives his grazing permit in connection with sale of his base property or permitted...
livestock, he is not entitled to compensation.

§ 222.7 Cooperation in management.

(a) Cooperation with local livestock associations—(1) Authority. The Chief, Forest Service, is authorized to recognize, cooperate with, and assist local livestock associations in the management of the livestock and range resources on a single range allotment, associated groups of allotments, or other association-controlled lands on which the members’ livestock are permitted to graze.

(2) Purposes. These associations will provide the means for the members to:
   (i) Manage their permitted livestock and the range resources.
   (ii) Meet jointly with Forest officers to discuss and formulate programs for management of their livestock and the range resources.
   (iii) Express their wishes through their designated officers or committees.
   (iv) Share costs for handling of livestock, construction and maintenance of range improvements or other accepted programs deemed needed for proper range management of the permitted livestock and range resources.
   (v) Formulate association special rules needed to ensure proper resource management.

(3) Requirements for recognition. The requirements for receiving recognition by the Forest Supervisor are:
   (i) The members of the association must constitute a majority of the grazing permittees on the range allotment or allotments involved.
   (ii) The officers of the association must be elected by a majority of the association members or of a quorum as specified by the association’s constitution and bylaws.
   (iii) The officers other than the Secretary and Treasurer must be grazing permittees on the range allotment or allotments involved.

(b) Cooperation with national, State, and county livestock organizations. The policies and programs of national, State, and county livestock organizations give direction to, and reflect in, the practices of their members. Good working relationships with these groups is conducive to the betterment of range management on both public and private lands. The Chief, Forest Service, will endeavor to establish and maintain close working relationships with National livestock organizations who have an interest in the administration of National Forest System lands, and direct Forest officers to work cooperatively with State and county livestock organizations having similar interests.

(c) Interagency cooperation. The Chief, Forest Service, will cooperate with other Federal agencies which have interest in improving range management on public and private lands.

(d) Cooperation with others. The Chief, Forest Service, will cooperate with other agencies, institutions, organizations, and individuals who have interest in improving range management on public and private lands.

§ 222.8 Cooperation in control of estray or unbranded livestock, animal diseases, noxious farm weeds, and use of pesticides.

(a) Insofar as it involves National Forest System lands and other lands under Forest Service control or the livestock which graze thereupon, the Chief, Forest Service, will cooperate with:
   (i) State, county, and Federal agencies in the application and enforcement of all laws and regulations relating to
§ 222.10 Range betterment fund.

In addition to range development which is accomplished through funds from the rangeland management budget line item and the Granger-Thye Act, and deposited and nondeposited cooperative funds, range development may also be accomplished through use of the range betterment fund as follows:

(a) On National Forest land within the 16 contiguous western States, the Chief, Forest Service, shall implement range improvement programs where necessary to arrest range deterioration and improve forage conditions with resulting benefits to wildlife, watershed protection, and livestock production. One-half of the available funds will be expended on the National Forest where derived. The remaining one-half of the fund will be allocated for range rehabilitation, protection and improvements on National Forest lands within the Forest Service Regions where they were derived. During the planning process there will be consultation with grazing permittees who will be affected by the range rehabilitation, protection and improvements, and other interested persons or organizations.

(b) Range betterment funds shall be utilized only for on-the-ground expenditure for range land betterment, including, but not limited to, seeding and reseeding, fence construction, water development, weed and other plant...
§ 222.11 Grazing advisory boards.

(a) Establishment. Persons holding term permits to graze livestock on National Forest System lands with headquarters office in the 16 contiguous western States having jurisdiction over more than 500,000 acres of land subject to commercial livestock grazing may petition the Forest Supervisor for establishment of a statutory grazing advisory board in accordance with provisions of the Federal Land Policy and Management Act of 1976.

(1) Upon being properly petitioned by a simple majority (more than 50 percent) of term grazing permittees under the jurisdiction of such headquarters office, the Secretary shall establish and maintain at least one grazing advisory board.

(2) The Chief, Forest Service, shall determine the number of such boards, the area to be covered, and the number of advisers on each board.

(3) Processing Petitions. Upon receiving a proper petition from the grazing permittees, the Forest Supervisor will request the Chief, Forest Service, through the Regional Forester, to initiate action to establish grazing advisory boards in accordance with provisions of the Secretary of Agriculture. Grazing advisory boards will comply with the provisions of the Federal Advisory Committee Act.

(b) Membership. Grazing advisory boards established under this authority shall consist of members who are National Forest System term permittees under the jurisdiction of a National Forest headquarters office in the 16 contiguous western States, provided board members shall be elected by term grazing permittees in the area covered by the board.

(c) Elections. The Forest Supervisor of the headquarters office shall prescribe and oversee the manner in which permittees are nominated and board members are elected. Nominations will be made by petition with all term grazing permittees under the jurisdiction of such headquarters office being eligible for membership on the board. All members of the board will be elected by secret ballot with each term grazing permittee in the area covered by the board being qualified to vote. No person shall be denied the opportunity to serve as a grazing advisory board member because of race, color, sex, religion, or national origin. No board member shall concurrently serve on another USDA advisory committee. The Forest Supervisor shall determine and announce the results of the election of the members of the board and shall recognize the duly elected board as representing National Forest System term grazing permittees in the areas for which it is established. Board members will be elected to terms not to exceed 2 years.

(d) Charter and bylaws. (1) The Forest Supervisor will prepare a charter to be filed with the Department and the Congress as required by Section 9(c) of the Federal Advisory Committee Act.

(2) A duly recognized grazing advisory board may, with the concurrence of a majority of its members and the Forest Supervisor, adopt bylaws to govern its proceedings.

(e) Function. The function of grazing advisory boards will be to offer advice and make recommendations concerning the development of allotment management plans and the utilization of range betterment funds.

(f) Meetings. The Forest Supervisor shall call at least one meeting of each board annually, and call additional meetings as needed to meet the needs of the permittees and the Forest Service. Each meeting shall be conducted in accordance with an agenda approved by the Forest Supervisor and in the presence of a Forest officer.

(g) Termination. (1) Grazing advisory boards established under the Federal Land Policy and Management Act of 1976 shall continue until December 31, 1985, unless terminated earlier.

(2) The Forest Supervisor may withdraw recognition of any board whenever:

(i) A majority of the term grazing permittees for the area which the
board represents requests that the board be dissolved.

(ii) The board becomes inactive and does not meet at least once each calendar year.

Subpart B—Management of Wild Free-Roaming Horses and Burros

SOURCE: 45 FR 24135, Apr. 9, 1980, unless otherwise noted.

§ 222.20 Authority and definitions.

(a) Authority. The Chief, Forest Service, shall protect, manage, and control wild free-roaming horses and burros on lands of the National Forest System and shall maintain vigilance for the welfare of wild free-roaming horses and burros that wander or migrate from the National Forest System. If these animals also use lands administered by the Bureau of Land Management as a part of their habitat, the Chief, Forest Service, shall cooperate to the fullest extent with the Department of the Interior through the Bureau of Land Management in administering the animals.

(b) Definitions.

(2) Captured animal means a wild free-roaming horse or burro taken and held in the custody of an authorized officer, his delegate, or agent. This term does not apply to an animal after it is placed in private custody through a Private Maintenance and Care agreement.

(3) Excess animals means wild free-roaming horses and burros which have been removed by authorized personnel pursuant to applicable law or which must be removed from an area in order to preserve and maintain a thriving natural ecological balance in coordination with other resources and activities.

(4) Herd means one or more stallions and their mares, or jacks and their jennies.

(5) Humane treatment means kind and merciful treatment, without causing unnecessary stress or suffering to the animal.

(6) Inhumane treatment means causing physical stress to an animal through any harmful action or omission that is not compatible with standard animal husbandry practices; causing or allowing an animal to suffer from a lack of necessary food, water, or shelter; using any equipment, apparatus, or technique during transportation, domestication, or handling that causes undue injury to an animal; or failing to treat or care for a sick or injured animal.

(7) Lame means a wild free-roaming horse or burro with malfunctioning muscles, ligaments or limbs that impair freedom of movement.

(8) Malicious harassment means any intentional act demonstrating deliberate disregard for the well-being of wild free-roaming horses and burros and which creates a likelihood of injury or is detrimental to normal behavior pattern of wild free-roaming horses or burros including feeding, watering, resting, and breeding. Such acts include, but are not limited to, unauthorized chasing, pursuing, herding, roping, or attempting to gather wild free-roaming horses or burros. It does not apply to activities conducted by or on behalf of the Forest Service or the Bureau of Land Management in implementation or performance of duties and responsibilities under the Act.

(9) National Advisory Board means the Advisory Board as established jointly by the Secretary of Agriculture and the Secretary of the Interior under the provisions of the Act.

(10) National Forest System includes the National Forests, National Grasslands, and other Federal lands for which the Forest Service has administrative jurisdiction.
§ 222.21 Administration of wild free-roaming horses and burros and their environment.

(a) The Chief, Forest Service, shall:

(1) Administer wild free-roaming horses and burros and their progeny on the National Forest System in the areas where they now occur (wild horse and burro territory) to maintain a thriving ecological balance considering them an integral component of the multiple use resources, and regulating their population and accompanying need for forage and habitat in correlation with uses recognized under the Multiple-Use Sustained Yield Act of 1960 (70 Stat. 215; 16 U.S.C. 528–531);

(2) Provide direct administration for the welfare of wild free-roaming horses and burros that are located on the National Forest System by use of the Forest Service organization rather than by the granting of leases and permits for maintenance of these animals to individuals and organizations;

(3) Establish wild horse and burro territories in accordance with the Act and continue recognition of such territories where it is determined that horses and/or burros will be recognized as part of the natural system, and designate areas within these territories as a specific wild horse and burro range in those situations where he determines such designation as especially fitting to meet the purposes of the Act and the Multiple Use Sustained-Yield Act, after consultation with the appropriate State agencies where such range is proposed and with the National Advisory Board;

(4) Analyze each wild horse or burro territory and, based on the analysis, develop and implement a management plan, which analysis and plans will be updated, whenever needed, as determined by conditions on each territory;

(5) Maintain a current inventory of wild free-roaming horses and burros on each territory to determine whether and where excess animals exists;

(6) Based on paragraphs (a) (4) and (5) of this section, determine appropriate management levels, whether action should be taken to remove excess animals and what actions are appropriate to achieve the removal or destruction of excess animals; and

(7) In making determinations cited in this section, the authorized officer shall consult with the U.S. Fish and Wildlife Service, wildlife agencies in the State, individuals and organizations independent of Federal or State Government recommended by the National Academy of Sciences, and any other individual or organizations determined to have scientific expertise or special knowledge of wild horse and burro protection, wildlife management...
and animal husbandry as related to range management.

§ 222.22 Ownership claims.

(a) Any person claiming ownership under State branding and estray laws of branded or unbranded horses or burros within a wild horse or burro territory or range on the National Forest System where such animals are not authorized must present evidence of ownership to justify a roundup before permission will be granted to gather such animals. Claims of ownership with supporting evidence were required to be filed during a claiming period which expired November 15, 1973. Unauthorized privately owned horses or burros entering the National Forest System after November 15, 1973, which become intermingled with wild horses or burros, may be claimed by filing an application with the District Ranger. All authorizations to gather claimed animals shall be in writing in accordance with instructions as the Chief, Forest Service, may prescribe. After such public notice as an authorized officer deems appropriate to inform interested parties, gathering operations may be authorized. The authorization shall provide that the gathering or roundup be consistent with regulations, and will (1) establish a specific reasonable period of time to allow the gathering of claimed animals and (2) stipulate other conditions, including visual observation by Forest Service personnel deemed necessary to ensure humane treatment of associated wild free-roaming horses and burros and to protect other resources involved.

(b) Prior to removal of claimed animals which have been captured from the National Forest System, claimants shall substantiate their claim of ownership in accordance with whatever criteria are cooperatively agreed to between the Forest Service and the State agency administering the State estray laws. In the absence of an agreement, ownership claims shall be substantiated in accordance with State law and subject to approval of the Forest Service.

§ 222.23 Removal of other horses and burros.

Horses and burros not within the definition in §222.20(b)(13) which are introduced onto Wild Horse and Burro Territories or ranges after December 15, 1971, by accident, negligence, or willful disregard of private ownership, and which do not become intermingled with wild free-roaming horses or burros shall be considered as unauthorized livestock and treated in accordance with provisions in 36 CFR 261.7 and 262.10.

[61 FR 35959, July 9, 1996]

§ 222.24 Use of helicopters, fixed-wing aircraft and motor vehicles.

The Chief, Forest Service, is authorized to use helicopters, fixed-wing aircraft, and motor vehicles in a manner that will ensure humane treatment of wild free-roaming horses and burros as provided by the following paragraphs:

(a) Prior to using helicopters in capture operations and/or using motor vehicles for the purpose of transporting captured animals, a public meeting will be held in the proximity of the territory where the capture operation is proposed.

(b) Helicopters may be used in all phases of the administration of the Act including, but not limited to, inventory, observation, surveillance, and capture operations. In capture operations, helicopters may be used to locate the animals involved to assist ground crews in moving the animals and for related purposes, such as, to transport personnel and equipment. The condition of the animals shall be continuously observed by the authorized officer and, should signs of harmful stress be noted, the source of stress shall be removed so as to allow recovery. Helicopters may be used in roundups or other capture operations subject to the following procedures.

(1) Helicopters shall be used in such a manner that bands or herds will tend to remain together.

(2) Horses or burros will not be moved at a rate which exceeds limitations set by the authorized officer who
§ 222.25 Protection of wild free-roaming horses and burros when they are upon other than the National Forest System or public lands.

Individual animals and herds of wild free-roaming horses and burros will be under the protection of the Chief, Forest Service, even though they may thereafter move to lands of other ownership or jurisdiction as a part of their annual territorial habitat pattern or for other reasons. The Chief will exercise surveillance of these animals through the use of cooperative agreements and as otherwise authorized by law and act immediately through appropriate administrative or criminal and civil judicial procedures to provide them the protective measures of the Act at any time he has cause to believe its provisions are being violated.

§ 222.26 Removal of wild free-roaming horses and burros from private lands.

Owners of land upon which wild free-roaming horses and burros have strayed from the National Forest System may request their removal by calling the nearest office of either the Forest Service or Federal Marshall.

§ 222.27 Maintenance of wild free-roaming horses and burros on privately-owned lands.

Owners of land who wish to maintain wild free-roaming horses and burros which have strayed onto their lands from the National Forest System may do so by notifying the nearest office of the Forest Service in a timely fashion and providing such information on a continuing basis as the Chief, Forest Service, may require. Such owners shall protect the wild free-roaming horses and burros on their lands. They may not, in so maintaining these animals, impede their return to National Forest System lands unless authorized by agreement with the Forest Service.
§ 222.28 Agreements.

The Chief, Forest Service, may enter into agreements as he deems necessary to further the protection, management, and control of wild free-roaming horses and burros.

§ 222.29 Relocation and disposal of animals.

(a) The Chief, Forest Service, shall, when he determines over-population of wild horses and burros exists and removal is required, take immediate necessary action to remove excess animals from that particular territory. Such action shall be taken until all excess animals have been removed so as to restore a thriving natural ecological balance to the range, and protect the range from deterioration associated with over-population.

(b) No person except an authorized Forest Service officer or his agent shall destroy, remove, or relocate any wild free-roaming horse or burro located on the National Forest System.

(c) Wild horses and burros shall be relocated or removed in the following order of priority:

   (1) In the most humane manner possible, sick, lame, or old animals shall be destroyed;

   (2) Relocate animals to other National Forest System lands which were identified as 1971 wild horse or burro territory, providing suitable habitat exists and relocation of animals will not jeopardize vegetation condition;

   (3) Relocate animals to other federally-owned lands which were identified as 1971 wild horse or burro occupied lands, providing suitable habitat exists and relocation of animals will not jeopardize vegetation condition and animals are requested by the appropriate land manager having jurisdiction;

   (4) Place animals under private maintenance and care agreements where there is an adoption demand by qualified individuals, groups, or Government agency, and for which there is assurance of humane treatment and care, provided not more than four animals are placed under private maintenance and care agreements per year to any individual, organization, or government agency unless there is a determination expressed otherwise in writing, by an authorized Forest Service Officer; and

   (5) Excess animals, for which an adoption demand by qualified applicants does not exist, shall be destroyed in the most humane manner possible, and if several methods are equally humane, select the most cost efficient.

(d) Where excess animals have been placed under private maintenance and care agreements after December 15, 1971, as provided for in paragraph (c)(4) of this section, and animals have been provided humane conditions, treatment, and care, for a period of one year, the Chief, Forest Service, may grant title to not more than four animals per year to each individual, organization, or government agency.

(e) The applicants must make written application for title and/or adoption, must be of legal age in the State in which they reside, and must pay fees for adoption and transportation as follows:

   (1) The application must be accompanied by a nonrefundable advance payment of $25 by guaranteed remittance. If custody of a wild, free-roaming horse or burro is granted by the authorized Forest Service officer, the advance payment shall be applied against the adoption fee required to be paid at the time the maintenance and care agreement § 222.28(c)(4) is executed.

   (2) The Forest Service shall charge an adoption fee of $125 for each horse and $75 for each burro, except that there shall be no adoption fee for an unweaned offspring under 6 months of age accompanying its mother.

   (3) Any transportation costs incurred for the transportation of the animal(s) to the point of pickup must be paid before an approved individual, group, or government agency takes custody of the animal(s).

   (f) Humane conditions, treatment, and care must have been provided for no less than one year preceding the filing of the application for title. The conveyance of title shall include a written statement by an authorized officer attesting that the animal is in good condition.

§ 222.30 Disposal of carcasses.

Carcasses of animals that have lost their status as wild free-roaming horses or burros may be disposed of in any customary manner acceptable under applicable State sanitary statutes including disposal through a rendering plant.

§ 222.31 Loss of status.

Wild free-roaming horses and burros or their remains shall lose their status under the 1971 Wild Horses and Burros Act.

(a) Upon passage of title pursuant to § 222.29 (d) and (e).

(b) Upon transfer to private maintenance and care pursuant to § 222.29(c)(4) and die of natural causes before passage of title;

(c) Upon destruction by an authorized Forest officer pursuant to § 222.29(c)(5).

(d) Upon death by natural causes or accident on the National Forest System or on private lands where maintained thereon pursuant to § 222.27 and disposal is authorized by a Forest officer; and

(e) Upon destruction or death for purposes of or incident to the program authorized in § 222.20(a).

§ 222.32 Use of non-Forest Service personnel.

The Chief, Forest Service, may authorize the use of non-Forest Service personnel to assist in specific situations of short duration.

§ 222.33 Management coordination.

All management activities by the Chief, Forest Service, shall be carried out in consultation with the appropriate agencies of the State involved. The expert advice of qualified scientists in the fields of biology and ecology shall also be sought in administering wild free-roaming horses and burros. The advice and suggestions of agencies, qualified scientists, and other qualified interest groups shall be made available to the National Advisory Board for their use and consideration. Actions taken in connection with private ownership claims shall be coordinated to the fullest extent possible with the State agency responsible for livestock estray law administration.

§ 222.34 National Advisory Board.

The Chief, Forest Service, shall appoint a representative to attend meetings of the National Advisory Board for Wild Free-Roaming Horses and Burros and to function as prescribed by the Memorandum of Agreement between the Department of the Interior and the Department of Agriculture and the Joint Charter issued by the Secretary of the Interior and the Secretary of Agriculture. Policies and guidelines relative to proposals for the establishment of ranges, adjustments in number, relocation and disposal of animals, and other matters relating generally to the protection, management, and control of wild free-roaming horses and burros shall be presented to the National Advisory Board for recommendations.

§ 222.35 Studies.

The Chief, Forest Service, is authorized and directed to undertake those studies of the habits and habitat of wild free-roaming horses and burros that he may deem necessary. In doing so, he shall consult with the appropriate agencies of the State(s) involved and the National Academy of Sciences.

§ 222.36 Arrest.

Any employee designated by the Chief, Forest Service, shall have the power to arrest without warrant, any person committing in the presence of the employee a violation of the Act and to take such person immediately for examination or trial before an officer or court of competent jurisdiction. Any employee so designated shall have power to execute any warrant or other process issued by an officer or court of competent jurisdiction to enforce the provisions of the Act.

Subpart C—Grazing Fees

§ 222.50 General procedures.

(a) Fees shall be charged for all livestock grazing or livestock use of National Forest system lands, or other lands under Forest Service control. An
exception is livestock authorized free of charge under provisions of § 222.3(c)(2)(II) (B) through (G).

(b) Guiding establishment of fees are the law and general governmental policy as established by Bureau of the Budget (now, Office of Management and Budget) Circular A-25 of September 23, 1959, which directs that a fair market value be obtained for all services and resources provided the public through establishment of a system of reasonable fee charges, and that the users be afforded equitable treatment. This policy precludes a monetary consideration in the fee structure for any permit value that may be capitalized into the permit holder’s private ranching operation.

(c) A grazing fee shall be charged for each head month of livestock grazing or use. A head month is a month’s use and occupancy of range by one animal, except for sheep or goats. A full head month’s fee is charged for a month of grazing by adult animals; if the grazing animal is weaned or 6 months of age or older at the time of entering National Forest System lands; or will become 12 months of age during the permitted period of use. For fee purposes 5 sheep or goats, weaned or adult, are equivalent to one cow, bull, steer, heifer, horse, or mule.

(d) No additional charge will be made for the privilege of lambing upon National Forest System lands, or other lands under Forest Service control.

(e) Transportation livestock may be charged for at a special rate, and at a minimum established for such use. Fees for horses, mules, or burros associated with management of permitted livestock on an allotment, or for research purposes and administrative studies, and authorized on a charge basis, are determined under provisions of paragraph (b) of this section.

(f) The fees for trailing livestock across National Forest System lands will conform with the rates established for other livestock. Where practicable, fees for trailing permitted livestock will be covered in the regular grazing fee and the crossing period covered in the regular grazing period.

(g) All fees for livestock grazing or livestock use of National Forest System lands or other lands under Forest Service control are payable in advance of the opening date of the grazing period, entry, or livestock use unless otherwise authorized by the Chief, Forest Service.

(h) Unauthorized grazing use rate will be determined by establishing a base value without giving consideration for those contributions normally made by the permittee under terms of the grazing permit. The base will be adjusted annually by the same indexes used to adjust the regular fee. This rate will also apply to excess number of livestock grazing by permittees; to livestock grazed outside the permitted grazing season; or to livestock grazed under an unvalidated permit.

(i) Refunds or credits may be allowed under justifiable conditions and circumstances as the Chief, Forest Service, may specify.

(j) The fee year for the purpose of charging grazing fees will be March 1 through the following February.

(k) The data year for the purpose of collecting beef cattle price data for computing indexes will be November 1 through the following October and apply to the following fee year.

§ 222.51 National Forests in 16 Western States.

(a) Grazing fees are established on lands designated National Forests and Land Utilization Projects in the 16 contiguous Western States of Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Utah, Washington, and Wyoming. (National Grasslands are excluded, see § 222.52.)

(b) Notwithstanding the provisions of § 222.50, paragraph (b), the calculated grazing fee for 1988 and subsequent grazing fee years represents the economic value of the use of the land to the user and is the product of multiplying the base fair market value of $1.23 by the result of the annual Forage Value Index, added to the sum of the Beef Cattle Price Index minus the Prices Paid Index and divided by 100; provided, that the annual increase or decrease in such fee for any given year
§ 222.52 National Grasslands.

Grazing fees for National Grasslands will be established under concepts and principles similar to those in § 222.51(b).

[44 FR 24843, Apr. 27, 1979]

§ 222.53 Grazing fees in the East—non-competitive procedures.

(a) Scope. Except as provided in § 222.54 of this subpart, the fee charged for commercial livestock grazing use and occupancy on National Forest System (NFS) lands in the States of New York, Missouri, Vermont, West Virginia, and in the Southern Region shall be determined through noncompetitive, fair market value procedures. These rules do not apply to grazing fees on National Forest System lands in Oklahoma or National Grasslands in Texas. Grazing permits under the non-competitive fee method in the East are subject to the rules governing grazing permit administration in Subpart A of this part.

(b) Applicability. The rules of this section apply to the establishment of grazing fees for existing permittees in the Eastern and Southern Regions on National Forest System lands, including grazing associations in New York and Missouri as of March 1, 1990, to any livestock on-and-off permits defined in Subpart A of this part; and to any allotments advertised for competitive bidding which were not bid on (§ 222.54(h)). Noncompetitive permits vacated or terminated by an existing permittee and any new allotments created after the effective date of this rule shall be offered on a competitive bid basis as specified in § 222.54 of this subpart. As provided in subpart A of this part, holders of term permits have first priority for receipt of a new permit.

(c) Fee System. The grazing fee charged under this section shall be based on fair market value, as determined by: Using comparable private grazing lease rates, adjusted for the difference in the costs of grazing comparable private leased lands and National Forest System lands, or by reference to prevailing prices in competitive markets for other Federal or State leased grazing lands that are the same or substantially similar to grazing lands offered or administered by the Forest Service in the East with comparability adjustments as appropriate. Comparable grazing lease rates shall be adjusted for the difference between the total costs of operating on leased grazing lands and the total costs (other
than grazing fee costs) of operating on National Forest System lands.

(1) Establishing Base Grazing Value. (i) The Chief of the Forest Service, or an authorized officer to whom such authority has been delegated, shall determine an estimated base market value of grazing use and occupancy on National Forest System lands in the Eastern States for the following designated subregions:

(A) Corn Belt (Illinois, Indiana, Missouri, and Ohio);

(B) Lake States (Michigan, Minnesota, and Wisconsin);

(C) Northeast (Maine, New Hampshire, New York, Pennsylvania, and Vermont);

(D) Appalachia (Kentucky, North Carolina, Tennessee, Virginia, and West Virginia);

(E) Southeast/Delta (Alabama, Arkansas, Georgia, Louisiana, Mississippi, South Carolina, and Texas); and

(F) Florida.

(ii) The Chief or authorized officer shall revise or update estimated market values of grazing use and occupancy, as necessary to respond to significant changes in the agricultural economy in the East, and to ensure that fees represent fair market value.

(iii) The Chief, or an authorized officer to whom authority has been delegated, where sufficient market data exist, may establish the base grazing value for grazing allotments using comparable, local lease rates for private grazing lands.

(2) Annual Adjustment of Base Grazing Value. To maintain currency with the private grazing lease market, the respective base grazing value(s) established for grazing permits under this section shall be annually adjusted through a hay price index, by respective subregion. The hay price index means the weighted average selling price of "other baled hay," computed by the National Agricultural Statistics Service of the U.S. Department of Agriculture, by designated State and subregion. This index shall be based on 3-year average hay prices and annually reflect the percentage change in the cost of alternative livestock feed.

(3) Computation of Annual Grazing Fee—Annual Fee Basis. The annual grazing fee shall equal the base grazing value, adjusted by the current period's hay price index, less the value of any agency required range improvements.

(ii) Grazing Fee Credits for Range Improvements. Any requirements for permittee construction or development of range improvements shall be identified through an agreement and incorporated into the grazing permit, with credits for such improvements to be allowed toward the annual grazing fee. Fee credits shall be allowed only for range improvements which the Forest Service requires an individual permittee to construct or develop on a specific allotment to meet the management direction and prescriptions in the relevant forest land and resource management plan and allotment management plan. These improvements must involve costs which the permittee would not ordinarily incur under the grazing permit, must be of tangible public benefit, and must enhance management of vegetation for resource protection, soil productivity, riparian, watershed, and wetland values, wildlife and fishery habitat, or outdoor recreation values. Maintenance of range improvements specified in allotment management planning documents or the grazing permit, and other costs incurred by the permittee in the ordinary course of permitted livestock grazing, do not qualify for grazing fee credits.

(4) Implementation. The grazing fee formula provided by this section shall be used to calculate fees for the 1990 grazing fee year. Where implementation would raise fees, the increase shall be phased in over a 5-year period. Full fair market value will be reached in 5 years, beginning in 1990.

§ 222.54 Grazing fees in the East—competitive bidding.

(a) General Procedures—Applicability. The rules of this section apply to grazing fees for any allotment established or vacated on National Forest System lands in the Eastern or Southern Regions, as of February 26, 1990 as well as to grazing fees for existing allotments for such lands that have already been established under competitive procedures as of the date of this rule. Permits offered for competitive
§ 222.54  

bidding in the East are subject to the rules governing grazing permit administration in subpart A of this part. The rules of this section do not apply to negotiated livestock use permits or permits with on-and-off grazing provisions as authorized in subpart A of this part. Holders of term permits have first priority for receipt of a new term grazing permit in accordance with subpart A of this part. These rules also do not apply to negotiated livestock use permits or permits with on-and-off grazing provisions as authorized in subpart A of this part; and shall refund the deposit to any applicant who is not qualified or who does not offer the high bid.

(2) Allowable Bidders. Bids for grazing permits shall be accepted from individuals, partnerships, grazing associations (formed after February 26, 1990), joint ventures, corporations, and organizations.

(b) Establishment of Minimum Bid Price. Authorized officers shall establish a minimum bid price for each available allotment as described in § 222.53 of this subpart.

(c) Prospectus. (1) At such time as allotments are vacated, as new allotments are established, or as existing competitively bid permits expire, the authorized officer shall prepare and advertise a prospectus for those allotments on which grazing will be permitted.

(2) The prospectus shall include the terms and conditions of occupancy and use under the grazing permit to be issued, as well as documents existing improvements and their condition. The prospectus shall also disclose the following:

(i) Estimated market value of the forage per head month of grazing use;

(ii) The minimum bid price the agency will accept;

(iii) Any required range improvements; and

(iv) The minimum qualifications that applicants must meet to be eligible for a permit.

(3) Copies of the applicable grazing permit, allotment management planning documents and allotment maintenance requirements, and the latest annual permittee instructions shall be made available to all prospective bidders upon request.

(d) Submission of bid. Each applicant shall submit an application for the grazing permit, along with a sealed bid for the grazing fee, and a bid deposit of 10 percent of the total amount of the bid.

(e) Qualifications and Deposit Refunds. Upon opening applicants bids, the authorized officer shall determine whether each bidder meets the qualifications to hold a permit as set forth in subpart A of this part; and shall refund the deposit to any applicant who is not qualified or who does not offer the high bid.

(f) Permit Issuance. The authorized officer shall issue the grazing permit to the qualified high bidder, except as provided in paragraphs (f)(1) and (2) of this section. The successful bidder receives the privilege of obtaining or renewing a grazing permit and is billed for the occupancy offered and forage sold.

(1) Priority for Reissuance. On allotments where a current permit is expiring and competition has been held on a new grazing permit, the current grazing permittee shall have priority for retaining the permit. Accordingly, an applicant who holds the permit on the allotment under bid, who has a satisfactory record of performance under that permit, and who is not the higher bidder for the future grazing privileges in the specified allotment shall be offered the opportunity to match the high bid and thereby retain the permit. Should there be more than one existing permittee in the allotment under bid, each shall be offered the option of meeting the high bid; if only one current permittee opts to meet the high bid, the remaining allowable grazing use, if any, shall be awarded to the initial high bidder.

(2) Identical Bids. In cases of identical bids, the selection of the successful applicant shall be made through a drawing.

(g) Computation of Successful Bidder’s Annual Fee—(1) Annual Fee Basis. The highest bid received shall establish the base grazing value in the initial year of the grazing permit for each allotment offered. The annual grazing fee shall equal the base grazing value, adjusted by the current period’s hay price index for the relevant subregion as described in § 222.53(c)(1), and (c)(3), less the value of any agency required range improvements. This hay price index shall be based on 3-year average hay prices and
annually reflect the percent change in the cost of alternative livestock feed.

(2) Grazing Fee Credits for Range Improvements. Any requirements for permittee construction or development of range improvements shall be identified through an agreement and incorporated into the grazing permit, with credits for such improvements to be allowed toward the annual grazing fee. Fee credits shall be allowed only for range improvements which the Forest Service requires an individual permittee to construct or develop on a specific allotment to meet the management direction and prescriptions in the relevant forest land and resource management plan and allotment management plan. These improvements must involve costs which the permittee would not ordinarily incur under the grazing permit, must be of tangible public benefit, and must enhance management of vegetation for resource protection, soil productivity, riparian, watershed, and wetland values, wildlife and fishery habitat, or outdoor recreation values. Maintenance of range improvements specified in allotment management planning documents or the grazing permit, and other costs incurred by the permittee in the ordinary course of permitted livestock grazing, do not qualify for grazing fee credits.

(h) No Bids Received. If qualified sealed bids are not received, the authorized officer reserves the right to conduct an oral auction using the minimum bid price established under paragraph (b) of this section or to establish grazing fees through noncompetitive grazing fee procedures specified in §222.53 of this subpart.

[55 FR 2651, Jan. 26, 1990]

PART 223—SALE AND DISPOSAL OF NATIONAL FOREST SYSTEM TIMBER

Subpart A—General Provisions

Sec. 223.1 Authority to sell timber.
223.2 Disposal of timber for administrative use.
223.3 Sale of seized material.
223.4 Exchange of trees or portions of trees.
223.5 Scope of free use granted to individuals.
223.6 Cutting and removal of timber in free-use areas.
223.7 Permission for free use of timber outside free-use areas.
223.8 Delegations of authority to approve free use by individuals.
223.9 Free use to owners of certain mining claims.
223.10 Free use to Alaskan settlers, miners, residents, and prospectors.
223.11 Free use to other Federal agencies.
223.12 Permission to cut, damage, or destroy trees without advertisement.
223.13 Compliance.
223.14 Where timber may be cut.

Subpart B—Timber Sale Contracts

CONTRACT CONDITIONS AND PROVISIONS

223.30 Consistency with plans, environmental standards, and other management requirements.
223.31 Duration of contracts.
223.32 Timber sale operating plan.
223.33 Redetermination of stumpage rates and deposits.
223.34 Advance payment.
223.35 Performance bond.
223.36 Volume determination.
223.37 Revegetation of temporary roads.
223.38 Standards for road design and construction.
223.39 [Reserved]
223.40 Cancellation for environmental protection or inconsistency with plans.
223.41 Payment when purchaser elects government road construction.
223.42 Transfer of effective purchaser credits.
223.43 Limitation on amounts of transferred purchaser credit.
223.44 Collection rights on contracts involved in transfer of purchaser credit.
223.45 Definitions applicable to transfer of purchaser credit.
223.46 Adjustment of contract termination date.
223.47 Date of completion of permanent road construction.
223.48 Restrictions on export and substitution of unprocessed timber.
223.49 Downpayment.
223.50 Periodic payments.
223.51 Bid monitoring.
223.52 Market-related contract term additions.

APPRAISAL AND PRICING

223.60 Determining fair market value.
223.61 Establishing minimum stumpage rates.
223.62 Timber purchaser road construction credit.
223.63 Advertised rates.
223.64 Appraisal on a lump-sum value or rate per unit of measure basis.
223.65 Appraisal of timber for land exchange; right-of-way, or other authorized use.
§ 223.66 [Reserved]

ADVERTISEMENT AND BIDS

223.80 When advertisement is required.
223.81 Shorter advertising periods in emergencies.
223.82 Contents of advertisement.
223.83 Contents of prospectus.
223.84 Small business bid form provisions on sales with purchaser road construction credit.
223.85 Noncompetitive sale of timber.
223.86 Bid restriction on resale of noncompleted contract.
223.87 Requirements of bidders concerning exports.
223.88 Bidding methods.
223.89 Relation to other bidders.

AWARD OF CONTRACTS

223.100 Award to highest bidder.
223.101 Determination of purchaser responsibility.
223.102 Procedures when sale is not awarded to highest bidder.
223.103 Award of small business set-aside sales.

CONTRACT ADMINISTRATION

223.110 Delegation to regional forester.
223.111 Administration of contracts in designated disaster areas.
223.112 Modification of contracts.
223.113 Modification of contracts to prevent environmental damage or to conform to forest plans.
223.114 Acquisition by third party.
223.115 Contract extensions.
223.116 Cancellation.
223.117 Administration of cooperative or Federal sustained yield units.
223.118 Appeal process for small business timber sale set-aside program share recomputation decisions.

Subpart C—Suspension and Debarment of Timber Purchasers

223.130 Scope.
223.131 Applicability.
223.132 Policy.
223.133 Definitions.
223.134 List of debarred and suspended purchasers.
223.135 Effect of listing.
223.136 Debarment.
223.137 Causes for debarment.
223.138 Procedures for debarment.
223.139 Period of debarment.
223.140 Scope of debarment.
223.141 Suspension.
223.142 Causes for suspension.
223.143 Procedures for suspension.
223.144 Period of suspension.
223.145 Scope of suspension.

36 CFR Ch. II (7–1–01 Edition)

Subpart D—Timber Export and Substitution Restrictions

223.159 Scope and applicability.
223.160 Definitions.
223.161 [Reserved]
223.162 Limitations on timber harvested from all other states.
223.163 [Reserved]
223.164 Penalty for falsification.

Subpart E [Reserved]

Subpart F—The Forest Resources Conservation and Shortage Relief Act of 1990 Program

223.185 Scope and applicability.
223.186 Definitions.
223.187 Determination of unprocessed timber.
223.188 Prohibitions against exporting unprocessed Federal timber.
223.189 Prohibitions against substitution.
223.190 Sourcing area application procedures.
223.191 Sourcing area disapproval and review procedures.
223.192 Procedures for a non-manufacturer.
223.193 Procedures for reporting acquisition and disposition of unprocessed Federal timber.
223.194 Procedures for reporting the acquisition and disposition of unprocessed private timber.
223.195 Procedures for identifying and marking unprocessed timber.
223.196 Civil penalties for violation.
223.197 Civil penalty assessment procedures.
223.198 Administrative remedies.
223.199 Procedures for cooperating with other agencies.
223.200 Determinations of surplus species.
223.201 Limitations on unprocessed timber harvested in Alaska.
223.202 Information requirements.
223.203 Indirect substitution exception for National Forest System timber from within Washington State.

Subpart A—General Provisions

§ 223.1 Authority to sell timber.

Trees, portions of trees, and other forest products on National Forest System lands may be sold for the purpose of achieving the policies set forth in the Multiple-Use Sustained-Yield Act

§ 223.2 Disposal of timber for administrative use.

Trees, portions of trees, or other forest products in any amount on National Forest System lands may be disposed of for administrative use, by sale or without charge, as may be most advantageous to the United States, subject to the maximum cut fixed in accordance with established policies for management of the National Forests. Such administrative use shall be limited to the following conditions and purposes:

(a) For construction, maintenance or repair of roads, bridges, trails, telephone lines, fences, recreation areas or other improvements of value for the protection or the administration of Federal lands.

(b) For fuel in Federal camps, buildings and recreation areas.

(c) For research and demonstration projects.

(d) For use in disaster relief work conducted by public agencies.

(e) For disposal when removal is desirable to protect or enhance multiple-use values in a particular area.

§ 223.3 Sale of seized material.

Seized material (trees, portions of trees or other forest products cut in trespass from National Forest System lands) may be sold to the highest bidder under specific authorization from the Regional Forester. If advertisement is impractical, sales of material with an appraised value of less than $10,000 will be made on informal bids.

§ 223.4 Exchange of trees or portions of trees.

Trees or portions of trees may be exchanged for land under laws authorizing the exchange of National Forest timber. Cutting of exchange timber must comply with the purposes cited in §223.1.

§ 223.5 Scope of free use granted to individuals.

(a) Free use may be granted to individuals for firewood for personal use, except that such use may be limited to bona fide settlers, miners, residents and prospectors living within or immediately adjacent to the National Forest when the available supply is insufficient to meet the total demand. Free use may be granted to such bona fide settlers, miners, residents and prospectors for minerals, for fencing, building, mining, prospecting and domestic purposes.

(b) Free use will be granted individuals primarily to aid in the protection and silvicultural improvement of the forests. Except in unusual cases, the material will be restricted to dead, insect-infested, or diseased timber, logging debris, and thinnings. Other material may be granted in unusual cases where its refusal would cause unwarranted hardship. Where limited supply or other conditions justify such action, the free use of green material may be refused.

§ 223.6 Cutting and removal of timber in free-use areas.

Supervisors may designate portions or all of a National Forest as free-use areas where such action is compatible with land management plans and shall give public notice of their action. Within such free-use areas, any dead timber or any green timber previously marked or designated by forest officers may be cut and removed for personal use for domestic purposes. Cutting and removal of timber in free-use areas shall be in accordance with such rules as may be prescribed by the district ranger to prevent fires, minimize damage to uncut trees and other resources, and to avoid confusion among users.

§ 223.7 Permission for free use of timber outside free-use areas.

Similar material may be cut outside of a free-use area without permit in
§ 223.8 Cases of emergency, but the person taking such material shall promptly notify the district ranger. Small quantities of material needed by transients while in the forest may also be taken without permit; subject to such rules as may be prescribed pursuant to §261.70. In all other cases permits will be required for green material.

§ 223.8 Delegations of authority to approve free use by individuals.

(a) Forest officers whom the supervisor may designate are authorized to grant free use of timber to individuals up to $20 in value in any one fiscal year. Supervisors may grant permits for material not exceeding $100 in value. Regional Foresters may approve permits for larger amounts, and in times of emergency may delegate authority to supervisors for not over $500 in value. Prior review by the Chief of the Forest Service will be given if the amount involved exceeds $5,000 in value.

(b) Regional Foresters may authorize supervisors to permit the removal of specific classes of material without scaling or measurement.

§ 223.9 Free use to owners of certain mining claims.

Free use will be granted to an owner of a mining claim located subsequent to July 23, 1955, or of a mining claim which is otherwise subject to Section 4 of the Act of July 23, 1955 (69 Stat. 367), if at any time said claim owner requires more timber for his mining operations, in connection with that claim, than is available on that claim because of Forest Service timber disposal therefrom subsequent to location of that claim. He will be granted, free of charge, timber from the nearest National Forest land which is ready for harvesting under the applicable management plan, substantially equivalent in kind and quantity to that estimated by the Forest Service to have been cut under Forest Service authorization from the claim subsequent to its location. Forest officers may be delegated authority to grant amounts of timber not in excess of those which these officers are authorized to sell in commercial sales.

(Sec. 4, 69 Stat. 368, 16 U.S.C. 612)

§ 223.10 Free use to Alaskan settlers, miners, residents, and prospectors.

Bona fide settlers, miners, residents, and prospectors for minerals in Alaska may take free of charge green or dried timber from the National Forests in Alaska for personal use but not for sale. Permits will be required for green saw timber. Other material may be taken without permit. The amount of material granted to any one person in 1 year shall not exceed 10,000 board feet of saw timber and 25 cords of wood, or an equivalent volume in other forms. Persons obtaining materials shall, on demand, forward to the supervisor a statement of the quantity taken and the location from which it was removed.

(Sec. 1, 30 Stat. 35, 16 U.S.C. 477)

§ 223.11 Free use to other Federal agencies.

(a) National Forest timber will be granted free of charge to other branches of the Federal Government when authorized by law. Permits may be approved by forest officers for amounts not greater than they are otherwise authorized to sell.

(b) Permits for timber issued hereunder shall be in accordance with the conditions prescribed in §223.30. The permittee may be required to furnish scalers for work under the direction of the forest officer in charge or, if authorized, to provide funds for the employment of the employment by the Forest Service of scalers to scale or measure the timber cut. The permittee may be required to dispose of the slash as cutting proceeds, or to employee people to work under the direction of a forest officer in disposing of the slash, or, if authorized, to provide funds for the employment of people for slash disposal under the direction of a forest officer.

(38 Stat. 1100, as amended; 16 U.S.C. 492)

§ 223.12 Permission to cut, damage, or destroy trees without advertisement.

Permission may be granted to cut, damage, or destroy trees, portions of
trees, or other forest products on National Forest System lands without advertisement when necessary for the occupancy of a right-of-way or other authorized use of National Forest System land. Payment for timber of merchantable size and quality will be required at its appraised value, but at not less than applicable minimum prices established by Regional Foresters, and payment will be required for young growth timber below merchantable size at its damage appraisal value. Payment will not be required:

(a) For timber necessarily killed or cut in connection with land uses which are of substantial benefit to the National Forests;
(b) For timber necessarily killed or cut and used by the permittee which would have been granted free under other applicable regulations; or
(c) For timber which will be cut by the permittee which the Forest Service retains for sale in log or other product form.

§ 223.14 Where timber may be cut.

(a) The cutting of trees, portions of trees or other forest products may be authorized on any National Forest System lands, except for:

(1) Timber reserved by a grantor of land, during the life of such reservation.
(2) Timber reserved from cutting under other regulations.
(3) Timber on unpatented mining claims located prior to July 23, 1955, unless the claimant has executed a waiver pursuant to section 6 of the Act of July 23, 1955 (69 Stat. 367), or unless pursuant to a proceeding under Section 5 of that Act, the claimant has failed to file a verified statement or has failed to establish the validity and effectiveness of his asserted rights.

(b) The cutting of timber on mining claims shall be conducted in such manner as not to endanger or materially interfere with prospecting, mining or processing operations.

(c) Timber on an unpatented claim to which the United States does not otherwise have disposal rights may be disposed of with the written consent of the claimant, or, in emergencies without the consent of the claimant.

(d) Timber on an unpatented claim may be cut by the claimant only for the actual development of the claim or for uses consistent with the purposes for which the claim was entered. Any severance or removal of timber, other than severance or removal to provide clearance, shall be in accordance with plan of operations required by Part 252 of this chapter, and with sound principles of forest management.

(e) With prior approval by the Regional Forester, cutting of exchange timber described in §223.4 may be authorized in advance of the acceptance of title to the non-Federal land offered in exchange.
§ 223.31 Duration of contracts.

Sale contracts shall not exceed 10 years in duration, unless there is a finding by the Chief, Forest Service, that better utilization of the various forest resources (consistent with the provisions of the Multiple-Use Sustained-Yield Act of 1960) will result.

§ 223.32 Timber sale operating plan.

Sale contracts with a term of 2 years or more shall provide for the filing of an operating plan as soon as practicable after execution of the contract, such plan shall be a part of the contract. The plan of operation shall be general in nature, outlining the expected timing and order of sale development, including such major operations as road construction, felling and removal of timber, distribution of timber, and contractual requirements for erosion prevention and slash disposal. The plan of operation and revisions thereto shall be subject to concurrence by the Forest Service.

§ 223.33 Redetermination of stumpage rates and deposits.

Sale contracts exceeding 7 years in duration, and those of shorter duration to the extent found desirable by the approving officer, will provide for the redetermination of rates for stumpage and for required deposits at intervals of not more than 5 years, exclusive of any period allowed for the construction of improvements.

§ 223.34 Advance payment.

Sale contracts shall provide that timber and forest products be paid for in advance of cutting, unless the contract authorizes the purchaser to furnish a payment guarantee satisfactory to the Forest Service. Advance payments found to be in excess of amounts due the United States shall be refunded to the current holder of the contract or to successors in interest. (90 Stat. 2959; 16 U.S.C. 472a.)

§ 223.35 Performance bond.

Timber sale contracts may require the purchaser to furnish a performance bond for satisfactory compliance with its terms.

§ 223.36 Volume determination.

(a) Timber sale contracts may provide for volume determination by scaling, measuring, weighing, or counting the logs or other products, or by measuring the trees before cutting. If the contract or permit provides for the determination of volume by tree measurement and the timber has been paid for, the marking or otherwise designating of the tree authorizes cutting and removal. Otherwise no timber cut under any contract shall be removed from the place designated until it has been scaled, measured or counted as provided in the timber sale contract, unless such removal is specifically authorized in the contract.

(b) National Forest timber sold on board foot scale shall be scaled by the Scribner Decimal C Log Rule, or if the advertisement and contract or permit so state, by the International ¼-inch log rule or by the International ¼-inch Decimal log rule. National Forest timber may also be sold by the cubic volume rule or by cords, each as used by the Forest Service.
§ 223.37 Revegetation of temporary roads.

Timber sale contracts, permits and other documents authorizing the cutting or removal of timber or forest products shall require the purchaser to treat temporary roads constructed or used thereunder so as to permit the re-establishment by artificial or natural means, or vegetative cover on the roadway and areas where the vegetative cover was disturbed by the construction or use of the road, as necessary to minimize erosion from the disturbed area. Such treatment shall be designed to reestablish vegetative cover as soon as practicable, but at least within 10 years after the termination of the contract.

§ 223.38 Standards for road design and construction.

Road construction authorized under timber sale contracts, permits and other documents authorizing the cutting or removal of timber or forest products shall be designed to standards appropriate for the intended uses, considering safety, cost of transportation, and impacts on land and resources. If the sale contract provides for road design standards in excess of those needed for the harvest and removal of timber from that sale, including measures to protect adjacent resource values, provision shall be made in the contract for compensating the purchaser for the additional costs, unless the purchaser elects Government construction under section 14(i) of the National Forest Management Act of 1976.

§ 223.39 [Reserved]

§ 223.40 Cancellation for environmental protection or inconsistency with plans.

Timber sale contracts, permits, and other such instruments, authorizing the harvesting of trees or other forest products, with terms of longer than 2 years, shall provide for cancellation in order to prevent serious environmental damage or when they are significantly inconsistent with land management plans adopted or revised in accordance with section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as amended. Such provision shall provide for reasonable compensation to the purchaser for unrecovered costs incurred under the contract and for the difference between the current contract value and the average value of comparable National Forest timber sold during the preceding 6-month period.

§ 223.41 Payment when purchaser elects government road construction.

Each contract having a provision for construction of specified roads with total estimated construction cost in excess of $20,000 will include a provision to ensure that if the purchaser elects Government road construction, he pays for the timber an amount no less than the sum of estimated road construction cost and base rate value, as defined in §223.61.

§ 223.42 Transfer of effective purchaser credits.

The Forest Service may permit transfer of unused effective purchaser credit earned after December 16, 1975, from one timber sale account to another timber sale account of the same purchaser within the same National Forest, provided the sale contracts provide procedures for the use of purchaser credit. Approval for transfer shall not be granted for amounts needed to satisfy unfulfilled payment obligations or claims for damages due the United States. Purchaser credit transferred under this paragraph is subject to such additional restrictions as may be necessary for its orderly use.

§ 223.43 Limitation on amounts of transferred purchaser credit.

(a) The amount of purchaser credit which may be transferred into a given sale shall be limited to the difference between remaining current contract value and the total of:

(1) Remaining base rate value needs,
(2) Salvage sale fund needs plus sale area improvement needs in excess of base rate value needs, and
(3) Total purchaser credit limit on the given sale.
§ 223.44 Collection rights on contracts involved in transfer of purchaser credit.

To assure protection of the United States in connection with the implementation of this regulation, contract provisions shall not prevent the Forest Service from carrying out collection rights, authorized by the Federal Claims Collection Act of 1966 (80 Stat. 309), between contracts involved in the transfer of purchaser credit. Such claims against the contract receiving the transferred purchaser credit shall be limited to the amount transferred.

§ 223.45 Definitions applicable to transfer of purchaser credit.

As used in §§223.42 and 223.43, the term Purchaser includes any single individual, corporation, company, firm, partnership, joint venture, or other business entity or the successor in interest of any of the foregoing business entities having timber sale contracts on the same National Forest. The term National Forest shall be considered as a unit of the National Forest System, regardless of how it was established, which maintains a separate identity with respect to the distribution of receipts earned thereon to the States and counties. The term Effective Purchaser Credit means unused purchaser credit which does not exceed current contract value minus base rate value. The term base rate value is the sum of the products of base rates and estimated remaining unscaled (unreported on tree measurement contracts) volumes by species of timber included in a timber sale contract.

at the request of the purchaser, in accordance with guidelines established by the Chief, Forest Service.

(f) If the purchaser retains responsibility for road construction, the date of completion for permanent roads may be modified to conform to the approved plan of operation.

§ 223.48 Restrictions on export and substitution of unprocessed timber.

(a) Contracts for the sale of unprocessed timber from National Forest System lands located west of the 100th meridian in the contiguous 48 States and Alaska, awarded before August 20, 1990, shall include provisions implementing the Secretary’s timber export and substitution regulations at subpart D of this part in effect prior to that date. Such contracts shall also require purchasers to:

(1) Submit annually, until all unprocessed timber is accounted for, a certified report on the disposition of any unprocessed timber harvested from the sale including a description of unprocessed timber which is sold, exchanged or otherwise disposed of to another person and a description of the relationship with the other person;

(2) Submit annually, until all unprocessed timber from the sale is accounted for, a certified report on the sale of any unprocessed timber from private lands in the tributary area which is exported or sold for export; and

(3) Maintain records of all such transactions involving unprocessed timber and to make such records available for inspection and verification by the Forest Service for up to three (3) years after the sale is terminated.

(b) Contracts for the sale of unprocessed timber from National Forest System lands located west of the 100th meridian in the contiguous 48 States, awarded on or after August 20, 1990, shall include provisions implementing the requirements of the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620 et seq.).

(c) The reporting and recordkeeping procedures in this section constitute information collection requirements as defined in 5 CFR part 1320. These requirements have been approved by the Office of Management and Budget and assigned clearance number 0596-0021.

[56 FR 65842, Dec. 19, 1991]

§ 223.49 Downpayment.

(a) For the purposes of this section, the terms listed in this paragraph shall have the following meaning:

(1) Total bid value is the sum of the products obtained by multiplying the rate the purchaser bid for each species by the estimated volume listed in the contract.

(2) Ineffective purchaser credit is that portion of the credit earned, pursuant to a specific Forest Service timber sale contract for construction of specified roads, or for other purposes in such contract, that exceeds the current contract value, minus base rate value as defined in that contract and, thus, is an amount that cannot be applied toward stumpage charges.

(3) Bid premium is the amount in excess of the advertised value that a purchaser bids for timber offered.

(4) Lump sum timber sales are premeasured sales where the entire value of the sale is paid in one payment at time of release for cutting.

(5) Affiliate. Concerns or individuals are affiliates if directly or indirectly, either one controls or has the power to control the other, or a third party controls or has the power to control both. In determining whether or not affiliation exists, the Forest Service shall consider all appropriate factors, including, but not limited to, common ownership, common management, and contractual relationships.

(b) Timber sale contracts shall include provisions that require purchasers to make a downpayment in cash or by application of earned effective purchaser credit at the time a timber sale contract is executed.

(c) The minimum downpayment shall be equivalent to 10 percent of the total advertised value of each sale, plus 20 percent of the bid premium, except in those geographic areas where the Chief of the Forest Service determines that it is necessary to increase the amount of the downpayment in order to deter speculation. To determine the amount of the downpayment due on a sale where the timber is measured in units...
§ 223.49

other than board feet, the Forest Service shall convert the measure to board feet, using appropriate conversion factors with any necessary adjustment.

(d) On scaled sales, a purchaser cannot apply the amount deposited as a downpayment to cover other obligations due on that sale until stumpage value representing 25 percent of the total bid value of the sale has been charged and paid for. On tree measurement sales, a purchaser cannot apply the amount deposited as a downpayment to cover other obligations due on that sale until stumpage value representing 25 percent of the total bid value of the sale is shown on the timber sale statement of account to have been cut, removed, and paid for. For lump sum sales, the downpayment amount may be applied to payment for release of the single payment unit.

(e) A purchaser or any affiliate of that purchaser, awarded a Forest Service timber sale contract must meet the additional downpayment requirements of paragraph (g) of this section under the following circumstances:

1. The purchaser or its affiliate after September 29, 1988 has failed to perform in accordance with the terms of a Forest Service or Bureau of Land Management timber sale contract which results in notification by a Contracting Officer that a contract has expired uncompleted or is terminated for cause; and

2. The estimated value of the unscaled timber on scaled sales, or the estimated value of the timber outstanding on tree measurement sales, included in those terminated or expired contracts exceeds $100,000, and

3. Unpaid damages claimed by the Government remain outstanding prior to award of the new sale at issue and corrective action has not been taken to avoid future deficient performance.

(f) A subsequent final determination by the Contracting Officer or by a court of competent jurisdiction that a contract was improperly classified under the criteria in paragraph (e) of this section will result in the refund or credit of any unobligated portion of the amount of downpayment exceeding that required by paragraphs (c) and (d) and the limitations of paragraph (h) on application of downpayment shall no longer apply.

(g) Notwithstanding the provisions of paragraphs (c) and (d) of this section, a purchaser meeting the criteria of paragraph (e) of this section must make a minimum downpayment equal to 20 percent of the total advertised value of that sale, plus 40 percent of the total bid premium. This higher downpayment requirement applies throughout the National Forest System, except in those areas where the Chief of the Forest Service determines, before advertisement of the sale, that another downpayment rate is necessary to achieve the management objectives of the National Forest System.

1. In calculating bid premiums for the downpayment requirement, the Forest Service shall not include the portion of the bid premium that offsets ineffective purchaser credit.

2. To determine the amount of the downpayment due on a sale where the timber is measured in units other than board feet, the Forest Service shall convert the measure to board feet, using appropriate conversion factors with any necessary adjustments.

(h) A purchaser subject to the additional downpayment requirements of paragraph (g) of this section cannot apply the amount deposited as a downpayment to other uses until:

1. On scaled sales, the estimated value of the unscaled timber is equal to or less than the amount of the downpayment; or

2. On tree measurement sales, the estimated value remaining to be cut and removed as shown on the timber sale statement of account is equal to or less than the amount of the downpayment.

(i) For the purpose of releasing funds deposited as downpayment by a purchaser subject to paragraph (f) of this section, the Forest Service shall compute the estimated value of timber as follows:

1. On scaled sales, the estimated value of the unscaled timber is the sum of the products obtained by multiplying the current contract rate for each species by the difference between the advertised volume and the volume that has been scaled of that species.

2. On tree measurement sales, the estimated value of the timber outstanding
(that not shown on the timber sale statement of account as cut and removed) is the sum of the products obtained by multiplying the current contract rate for each species by the difference between the advertised volume and the volume that has been shown on the timber sale statement to have been cut and removed of the species. The current contract rate for each species is that specified in each Forest Service timber sale contract.

(j) In order to deter speculation, the Chief of the Forest Service may increase the period for retention of the downpayment for future contracts subject to such criteria as the Chief may adopt after giving the public notice and opportunity to comment.

§ 223.50 Periodic payments.

(a) For the purposes of this section, the following terms have the meaning given:

(1) **Total contract value** is the product of the estimated volume of the sale multiplied by the rates bid by the purchaser. Total contract value excludes required deposits and is determined at bid date.

(2) **Current contract value** is the sum of the products of the current contract rates and, in a scaled sale, estimated remaining unscaled volume or, in a tree measurement sale, the estimated remaining quantities by species of included timber meeting utilization standards.

(3) **Normal operating season** is the period so specified in a timber sale contract.

(4) **Periodic payment(s)** is/are amount(s) specified in a timber sale contract that a purchaser must pay by the periodic payment determination date(s) unless reduced by amounts paid as stumpage for volume removed.

(5) A **periodic payment determination date** is a date specified in a timber sale contract upon which the Forest Service will compare the payments made by the timber sale purchaser for timber charges (stumpage), exclusive of required deposits, with the periodic payment amount required as of that date in the contract.

(b) Except for lump sum sales, each timber sale contract of more than one full normal operating season shall provide for periodic payments. The number of periodic payments required will be dependent upon the number of normal operating seasons within the contract, but shall not exceed two such payments during the course of the contract. Periodic payments must be made by the periodic payment determination date, except that the amount of the periodic payment shall be reduced to the extent that timber has been removed and paid for by the periodic payment determination date. Should the payment fall due on a date other than normal billing dates, the contract shall provide that the payment date will be extended to coincide with the next timber sale statement of account billing date.

(1) At a minimum, each such contract shall require an initial periodic payment at the midpoint between the specified road completion date and the termination date. If there is no road construction requirement, payment shall be due at the midpoint between award date and the termination date.

(2) Contracts exceeding 2 full operating seasons shall require an additional periodic payment to be due no later than the midpoint of the last normal operating season or 12 months from the initial periodic payment whichever date is first.

(c) Each timber sale contract shall require the initial periodic payment to equal 35 percent of the total contract value or 50 percent of the bid premium, whichever is greater. The amount of this periodic payment will be reduced if the payment would result in the purchaser's credit balance for timber charges exceeding the current contract value.

(d) Where an additional periodic payment is required by the timber sale contract, this payment will equal 75 percent of the total contract value. The amount of this periodic payment will be reduced if the payment would result in the purchaser's credit balance for timber charges exceeding the current contract value.

(e) Periodic payment determination dates that have not been reached shall
§ 223.51 Bid monitoring.

Each Regional Forester shall monitor bidding patterns on timber sales to determine if speculative bidding is occurring or if Purchasers are bidding in such a way that they would be unable to perform their obligations under the timber sale contract. A Regional Forester shall propose to the Chief changes in servicewide timber sale procedures, as they appear necessary, to discourage speculative bidding.

[50 FR 41500, Oct. 11, 1985]

§ 223.52 Market-related contract term additions.

(a) Contract provision. (1) Except as provided in paragraph (a)(3) of this section, each timber sale contract exceeding 1 year in length shall contain a provision for the addition of time to the contract term, under the following conditions:

(i) The Chief of the Forest Service has determined that adverse wood products market conditions have resulted in a drastic reduction in wood products prices applicable to the sale; and

(ii) The purchaser makes a written request for additional time to perform the contract.

(2) The contract term addition provision of the contract must specify the index to be applied to each sale. The Forest Supervisor shall determine, and select from paragraph (b) of this section, the index to be used for each sale based on the species and product characteristics, by volume, being harvested on the sale. The index specified shall represent more than one-half of the advertised volume.

(3) A market-related contract term addition provision shall not be included in contracts where the sale has a primary objective of harvesting timber subject to rapid deterioration.

(b) Determination of drastic wood product price reductions. (1) The Forest Service shall monitor and use Producer Price Indices, as prepared by the Department of Labor, Bureau of Labor Statistics (BLS), adjusted to a constant dollar base, to determine if market-related contract term additions are warranted.

(i) The Forest Service shall monitor and use only the following indices:

(ii) Preliminary index values will be revised when final index values become available, however, determination of a qualifying quarter will not be revised when final index values become available.

(2) The Chief of the Forest Service shall determine that a drastic reduction in wood product prices has occurred when, for 2 or more consecutive quarters, the applicable adjusted price index is less than 85 percent of the average of such adjusted index for the 4 highest of the 8 calendar quarters immediately prior to the qualifying quarter. A qualifying quarter is a quarter where the applicable adjusted index is more than 15 percent below the average of such index for the 4 highest of the previous 8 calendar quarters. Qualifying quarter determinations will be made using the Producer Price Indices for the months of March, June, September, and December.
§ 223.61

(3) A determination, made pursuant to paragraph (b)(2) of this section, that a drastic reduction in wood product prices has occurred, shall constitute a finding that the substantial overriding public interest justifies the contract term addition.

(c) Granting market-related contract term additions. When the Chief of the Forest Service determines, pursuant to this section, that a drastic reduction in wood product prices has occurred, the Forest Service is to notify affected timber sale purchasers. For any contract which has been awarded and has not been terminated, the Forest Service, upon a purchaser's written request, will add 1 year to the contract’s terms, except as provided in paragraphs (c)(1) through (4) of this section. This 1-year addition includes time outside of the normal operating season.

(1) Additional contract time may not be granted for those portions of the contract which have a required completion date or for those portions of the contract where the Forest Service determines that the timber is in need of urgent removal or that timber deterioration or resource damage will result from delay.

(2) For each additional consecutive quarter, in which a contract qualifies for a market-related contract term addition, the Forest Service will, upon the purchaser’s written request, add an additional 3 months during the normal operating season to the contract.

(3) No more than twice the original contract length or 3 years, whichever is less, shall be added to a contract’s term by market-related contract term addition.

(4) In no event shall a revised contract term exceed 10 years as a result of market-related contract term additions.

(d) Recalculation of periodic payments. Where a contract is lengthened as a result of market conditions, any subsequent periodic payment dates shall be delayed 1 month for each month added to the contract’s term.

[63 FR 24114, May 1, 1998]

§ 223.60 Determining fair market value.

The objective of Forest Service timber appraisals is to determine fair market value. Fair market value is estimated by such methods as are authorized by the Chief, Forest Service, through issuance of agency directives (36 CFR 200.4). Valid methods to determine fair market value include, but are not limited to, transaction evidence appraisals, analytical appraisals, comparison appraisals, and independent estimates based on average investments. Pertinent factors affecting market value also considered include, but are not limited to, prices paid and valuations established for comparable timber, selling value of products produced, estimated operating costs, operating difficulties, and quality of timber. Considerations and valuations may recognize and adjust for factors which are not normal market influences.

[61 FR 5685, Feb. 14, 1996]

§ 223.61 Establishing minimum stumpage rates.

The Chief, Forest Service, shall establish minimum stumpage rates, i.e., “base rates,” for species and products on individual National Forests, or groups of National Forests. Timber shall be sold for appraised value or minimum stumpage rates, whichever is higher. No timber may be sold or cut under timber sale contracts for less than minimum stumpage rates except to provide for the removal of insect-infested, diseased, dead or distressed timber or in accordance with contract provisions specifically providing for catastrophically-affected timber and incidental amounts of material not meeting utilization standards of the timber sale contract. For any timber sale offering where deposits are to be required for reforestation under the Act of June 9, 1930, as amended (46 Stat. 527; 16 U.S.C. 576–576b) which exceed the value of the established minimum stumpage rates, the minimum rates may be increased by the approving officer as necessary to the amount of such required reforestation deposits and a minimum
§ 223.62 Deposit to the Treasury. Minimum rates in timber sale contracts will not be set higher than established minimum rates for purposes other than assuring adequate funds for reforestation.

§ 223.62 Timber purchaser road construction credit.

Appraisal may also establish stumpage value as if unconstructed roads or other developments needed by the purchaser for removal of the timber were in place. When timber is appraised and sold on such basis, purchaser credit for road construction, not to exceed the estimated construction cost of such roads or other developments specified in the timber sale contract, shall, when such construction is accomplished by purchaser, be deducted from stumpage payments made by or due from purchaser under the timber sale contract for other than minimum stumpage rates and required deposits for slash disposal and road maintenance. As used in this section estimated construction costs means the total cost of constructing all permanent roads specified in the timber sale contract, estimated as if construction is to be accomplished by an independent contractor who is not the timber purchaser. In determining the purchaser credit amount applicable against timber payments, the estimated construction cost may be reduced for the effect of differences in applicable wage rates.

§ 223.63 Advertised rates.

Timber shall be advertised for sale at its appraised value, or its appraised value plus specified road costs. In either event, the advertised rates shall be not less than minimum stumpage rates, except that sales of insect-infested, diseased, dead, or distressed timber may be sold at less than minimum rates when harvest of such timber is necessary to protect or improve the forest or prevent waste of useable wood fiber.

§ 223.64 Appraisal on a lump-sum value or rate per unit of measure basis.

Timber may be appraised and sold at a lump-sum value or at a rate per unit of measure which rate may be adjusted during the period of the contract and as therein specified in accordance with formulas or other equivalent specifications for the following reasons:

(a) Variations in lumber or other product value indices between the price index base specified in the contract and the price index actually experienced during the cutting of the timber;

(b) Variance between advertised rates and rates redetermined by appraisal at dates specified in the contract;

(c) Variance between redetermined rates and rates appropriate for changes in costs or selling values subsequent to the rate redetermination which reduce conversion value to less than such re-determined rates; and

(d) Substantial loss of value due to physical deterioration of green timber or other physical damage to the sale area or access to the timber.

§ 223.65 Appraisal of timber for land exchange; right-of-way, or other authorized use.

The value of timber in land exchange or the value of timber required to be cut for occupancy of a right-of-way or other authorized use of National Forest System land for which payment will be made is to be determined by the appraisal methods in § 223.60 of this part.

[61 FR 48625, Sept. 16, 1996]

§ 223.66 [Reserved]

ADVERTISEMENT AND BIDS

§ 223.80 When advertisement is required.

Except as otherwise provided in this part each sale in which the appraised value of the timber or other forest products exceeds $10,000 will be made only after advertisement for a period of 30 days or, if in the opinion of the officer authorizing the sale, the quantity, value or other conditions justify, a longer period; and any sale of smaller appraised value will be advertised or informal bids solicited from potential purchasers if, in the judgment of the officer authorizing the sale, such action is deemed advisable.
§ 223.81  Shorter advertising periods in emergencies.

In emergency situations where prompt removal of timber included in a sale is essential to avoid deterioration or to minimize the likelihood of the spread of insects, the approving officer may authorize shortening the formal advertising period to not less than 7 days. In other emergency situations, or for timber sold under 36 CFR 223.2 the Regional Forester or Chief may authorize shortening the formal advertising period to not less than 7 days.

§ 223.82  Contents of advertisement.

(a) A timber sale advertisement shall include the following information:

(1) The location and estimated quantities of timber or other forest products offered for sale.

(2) The time and place at which sealed bids will be opened in public or at which sealed bids will be opened in public followed by an oral auction.

(3) A provision asserting the agency’s right to reject any and all bids.

(4) The place where complete information on the offering may be obtained.

(5) Notice that a prospectus is available to the public and to interested potential bidders.

(b) For each sale outside of the State of Alaska which includes a provision for purchaser credit for construction of permanent roads with a total estimated construction cost exceeding $20,000, a timber sale advertisement shall also include:

(1) The total estimated construction cost of the permanent roads.

(2) A statement extending to small business concerns qualified for preferential bidding on timber sales, under the Small Business Act, as amended, and the regulations issued thereunder, the option to elect, when submitting a bid, to have all permanent roads constructed by the Forest Service.

(3) Notice that the prospectus referred to in paragraph (a)(5) of this section contains additional information concerning the options to have all permanent roads constructed by the Forest Service.

(c) When timber or other forest products are offered for preferential bidding in accordance with the Small Business Act, as amended, the advertisement shall state that the offering is set-aside for competitive bidding by small business concerns.

[50 FR 32696, Aug. 14, 1985]

§ 223.83  Contents of prospectus.

(a) A timber sale prospectus shall specify, as a minimum:

(1) The minimum acceptable stumpage or other unit prices and the amount or rate of any additional required deposits.

(2) The amount of bid guarantee which must accompany each bid.

(3) The amount of cash deposit or down payment to be made promptly by the successful bidder.

(4) The location and area of the sale, including harvest acreage.

(5) The estimated volumes, quality, size or age class of timber.

(6) A description of special logging requirements for the sale.

(7) The status of marking at time of advertisement.

(8) The method of bidding which will be used.

(9) The contract form to be used.

(10) The estimated deposits for reforestation and stand improvement work.

(11) The contract termination date and normal operating period.

(12) The date and amount of periodic payments which are to be made.

(13) The discount of payment rates for early harvest, if appropriate.

(14) The amount of performance bond required.

(15) The road standards for specified roads to be constructed.

(16) The estimated road construction cost and purchaser credit limit.

(17) For deficit sales:

(1) An estimate of insufficient value at advertised rates to permit the purchaser to apply the full amount of purchaser credit.

(2) The amount of Forest Service funds or materials to be used to offset the deficit.

(18) Status of financial assistance available to small business purchasers.
§ 223.84 Small business bid form provisions on sales with purchaser road construction credits.

For each sale described in §223.82(b), the bid form must include provision for a small business concern:

(a) To elect road construction by the Forest Service and where such election is made;

(b) To certify as to small business status, and

(c) To indicate knowledge—

(1) Of the road construction completion date.

(2) That the Forest Service expects to contract for road construction with a third party,

(3) That the timber sale contract will not be awarded unless a satisfactory road construction bid is received or, if the Forest Service fails to receive such a bid within a maximum period stated in the advertisement, the bidder agrees to perform road construction,

(4) That the Forest Service may extend the maximum award delay time by the amount of time needed to confirm the bidder’s size status or by any time in excess of 40 days from timber sale bid opening needed to begin solicitation of construction bids, and

(5) That if the Forest Service extends the maximum award delay period because solicitation of the road contract is delayed, the bidder may withdraw his bid without penalty.

[50 FR 32696, Aug. 14, 1985]

§ 223.85 Noncompetitive sale of timber.

(a) Forest officers may sell, within their authorization, without further advertisement, at not less than appraised value, any timber previously advertised for competitive bids but not sold because of lack of bids and any timber on uncut areas included in a contract which has been terminated by abandonment, cancellation, contract period expiration, or otherwise if such timber would have been cut under the contract. This authority shall not be utilized if there is evidence of competitive interest in the product.

(b) Extraordinary conditions, as provided for in 16 U.S.C. 472(d), are defined to include the potential harm to natural resources, including fish and wildlife, and related circumstances arising as a result of the award or release of timber sale contracts pursuant to section 2001(k) of Public Law 104–19 (109 Stat. 246). Notwithstanding the provisions of paragraph (a) or any other regulation in this part, for timber sale contracts that have been or will be awarded or released pursuant to section 2001(k) of Public Law 104–19 (109 Stat. 246), the Secretary of Agriculture may allow forest officers to, without advertisement, modify those timber sale contracts by substituting timber from outside the sale area specified in the contract for timber within the timber sale contract area.

[61 FR 14621, Apr. 3, 1996]
§ 223.86 Bid restriction on resale of noncompleted contract.

(a) Except as otherwise provided in this section, no bid will be considered in the resale of timber remaining from any uncompleted timber sale contract from any person, or from an affiliate of such person, who failed to complete the original contract:

(1) Because of termination for purchaser’s branch or;

(2) Through failure to cut designated timber on portions of the sale area by the termination date, unless acceptance of such bid is determined to be in the public interest.

(b) The no bid restriction in the preceding paragraph:

(1) Shall only apply when 50 percent or more of the timber included in the resale is timber remaining from the uncompleted contract and the resale is advertised within 3 years of the date the uncompleted contract terminated;

(2) When imposed because of failure to cut designated timber on portions of the sale area by the termination date, shall not apply to resales of timber for which the original contract was awarded prior to April 30, 1972, unless the contract is extended thereafter; and

(3) Shall not apply to:

(i) Resales of timber within a sustained yield unit unless competition may be invited under the policy statement for the unit,

(ii) Resales of timber on contract which would ordinarily have been awarded prior to April 30, 1972, if award was delayed through no fault of the purchaser, and

(iii) Resales of timber on contracts not extended because of environmental considerations.

(c) Where a third-party agreement has been approved in accordance with §223.14; the original purchaser shall not be affected by this section unless such purchaser is an affiliate of the third party.

(d) As used in this section, person includes any individual, corporation, company, association, firm, partnership, society, joint stock company, or other business entity or the successor in interest of any of the foregoing business entities. A person is an affiliate when either directly or indirectly:

(1) A person controls or has the power to control the other, or

(2) A third person or persons control or has the power to control both.

§ 223.87 Requirements of bidders concerning exports.

In order to have a bid considered responsive for a sale of timber from National Forest System lands, each bidder must certify that the bidder is eligible to purchase timber from National Forest System lands consistent with the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.) and its implementing regulations at 36 CFR part 223, and that the bidder’s timber purchase and export activities are in compliance with the timber export and substitution provisions of the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.) and its implementing regulations at 36 CFR part 223.

[60 FR 46920, Sept. 8, 1995]

§ 223.88 Bidding methods.

(a) Competitive sales of National Forest timber shall be offered through either sealed or oral auction bidding. The method chosen for each sale will:

(1) Insure open and fair competition,

(2) Insure that the Federal Government receives not less than fair market value for the public resource,

(3) Consider the economic stability of communities whose economies are dependent upon National Forest timber, and

(4) Be consistent with the objectives of the National Forest Management Act of 1976, as amended, and other Federal Statutes.

(b) As a prerequisite to participation in an oral auction, bidders shall submit a written sealed bid at least equal to the minimum acceptable bid prices specified in the prospectus. No price subsequently bid at oral auction shall be accepted if it is less than the written sealed bid.

(c) The Chief, Forest Service, shall specify the use of sealed bids or a mix of bidding methods in areas where he has reasonable belief that collusive
§ 223.89 Relation to other bidders.

Any bidder or applicant for a sale may be required to furnish a statement of his relation to other bidders or operators, including, if desired by the supervisor or Regional Forester, a certified statement of stockholders or members of the firm, and the holders of bonds, notes or other evidences of indebtedness, so far as known, so that the statement will show the extent of the interest of each in the bidder or applicant.

(a) Determination is made to reject all bids.
(b) Two or more bidders, all of whom meet the requirements, submit equal bids which are the highest bids, in which case award may be by the drawing of lots.

§ 223.100 Award to highest bidder.

The sale of advertised timber shall be awarded to the responsible bidder submitting the highest bid that conforms to the conditions of the sale as stated in the prospectus unless:

(a) Determination is made to reject all bids.
(b) Two or more bidders, all of whom meet the requirements, submit equal bids which are the highest bids, in which case award may be by the drawing of lots.

36 CFR Ch. II (7–1–01 Edition)
purchaser’s control and were not created through improper actions by the purchaser or affiliate, or that the purchaser has taken appropriate corrective action. Past failure to apply sufficient tenacity and perseverance to perform acceptably under a contract is strong evidence that a purchaser is not a responsible contractor. The Contracting Officer shall consider the number of contracts involved and extent of deficiency of each in making this evaluation:

(4) The purchaser has a satisfactory record of integrity and business ethics;

(5) The purchaser has or is able to obtain equipment and supplies suitable for logging the timber and for meeting the resource protection provisions of the contract;

(6) The purchaser is otherwise qualified and eligible to receive an award under applicable laws and regulations.

(c) If the prospective purchaser is a small business concern and the Contracting Officer determines that the purchaser does not qualify as a responsible purchaser on an otherwise acceptable bid, the Contracting Officer shall refer the matter to the Small Business Administration which will decide whether or not to issue a Certificate of Competency.

(d) Affiliated concerns, as defined in §223.49(a)(5) of this subpart are normally considered separate entities in determining whether the concern that is to perform the contract meets the applicable standards for responsibility. However, the Contracting Officer shall consider an affiliate’s past performance and integrity when they may adversely affect the prospective purchaser’s responsibility.

§ 223.102 Procedures when sale is not awarded to highest bidder.

If the highest bid is not accepted and the sale is still deemed desirable, all bids may be rejected and the timber re-advertised; or, if the highest bidder cannot meet the requirements under which the timber was advertised or the withholding of award to him is based on one or more of paragraphs (c), (d), and (e) of §223.100, award at the highest price bid may be offered to the next highest qualified bidder or to the other qualified bidders in order of their bids until the award is accepted by one or refused by all of the qualified bidders.

§ 223.103 Award of small business set-aside sales.

If timber is advertised as set aside for competitive bidding by small business concerns, award will be made to the highest bidder who qualifies as a small business concern and who has not been determined by the Small Business Administration to be ineligible for preferential award of set-aside sales. If there are no qualified small business bidders any readvertisement shall be without restriction on the size of bidders.

CONTRACT ADMINISTRATION

§ 223.110 Delegation to regional forester.

The Chief, Forest Service, after approval of conditions of sale, may authorize Regional Foresters formally to execute timber sale contracts and related papers in sales exceeding the volume which the Regional Forester has been authorized to sell.

§ 223.111 Administration of contracts in designated disaster areas.

This section is to implement the provisions of section 242 (a), (b), and (c) of the Disaster Relief Act of 1970 (84 Stat. 1956) which relate to contracts for the sale of National Forest timber in connection with areas damaged by major disaster as designated by the President pursuant to the Act.

(a) Where an existing contract for the sale of National Forest timber does not provide relief from major physical change not due to purchaser’s negligence prior to approval of construction of any section of specified road or other specified development facility and, as a result of a major disaster in a designated area a major physical
§ 223.112 Modification of contracts.

Timber sale contracts may be modified only when the modification will apply to unexecuted portions of the contract and will not be injurious to the United States. Modifications may be made by the officer approving the sale, by his successor, or by his superior, except as provided in § 223.110.

§ 223.113 Modification of contracts to prevent environmental damage or to conform to forest plans.

Timber sale contracts, permits, and other such instruments may be modified to prevent environmental damage or to make them consistent with amendments or revisions of land and resource management plans adopted subsequent to award or issuance of a timber sale contract, permit, or other such instrument. Compensation to the purchaser, if any, for modifications to a contract shall be made in accordance with appraisal methods in § 223.60 of this subpart.

[61 FR 66816, Dec. 9, 1996]

§ 223.114 Acquisition by third party.

No agreement permitting a third party to acquire the rights of a purchaser under a timber sale contract may be recognized and approved by the Forest Service except in writing, signed by the officer approving the sale, his successor, or superior officer. Such approval shall not relieve the purchaser of his responsibilities or liabilities under the timber sale contract and may be given only if—

(a) The third party is acceptable to the Forest Service as a purchaser of timber under the conditions and requirements then in effect for similar timber sales and assumes in writing all of the obligations to the Forest Service under the terms of the timber sale contract as to the uncompleted portion thereof, or

(b) The rights are acquired in trust as security and subject to such conditions as may be necessary for the protection of the public interests.

§ 223.115 Contract extensions.

The term of any contract or permit shall not be extended unless the approving officer finds:

(a) That the purchaser has diligently performed in accordance with contract provisions and an approved plan of operation; or

(b) That the substantial overriding public interest justifies the extension.
§ 223.116 Cancellation.

(a) Timber sale contracts and permits may be canceled:

(1) For serious or continued violation of their terms.

(2) Upon application, or with the consent of the purchaser, when such action is of advantage to the United States or not prejudicial to its interests.

(3) Upon application of the purchaser if the value of the timber remaining to be cut is diminished materially because of catastrophic damage caused by forces beyond the control of the purchaser resulting in (i) physical change in the sale area or access to it, or (ii) damage to timber remaining to be cut.

(4) For conviction of violation of criminal statutes or, following final agency or judicial determination, of violation of civil standards, orders, permits, or other regulations for the protection of environmental quality issued by a Federal agency, State agency, or political subdivision thereof, in the conduct of operations thereunder, on National Forest System land, unless compliance with such laws or regulations would preclude performance of other contractual requirements.

(5) Upon determination by the Chief, Forest Service, that operations thereunder would result in serious environmental degradation or resource damage and with reasonable compensation to the purchaser for unrecovered costs incurred under the contract and the difference between the current contract value and the average value of comparable National Forest timber sold during the preceding 6-month period.

(b) Cancellation will be by the Chief, Forest Service. Authority to cancel contracts under paragraph (a)(1) through (4) of this section may be delegated to Regional Foresters for sales within their authorization. All contract cancellations under paragraph (a)(5) of this section shall be by the Chief, Forest Service, whose decision shall be the final agency decision.

§ 223.117 Administration of cooperative or Federal sustained yield units.

With respect to sustained yield units established pursuant to the provisions of the Act of March 29, 1944 (58 Stat. 132; 16 U.S.C. 583–583l), the Chief, Forest Service, with authority to delegate to other officers and employees of the Forest Service:

(a) Shall provide that National Forest timber in any sustained yield unit shall be available in sufficient amounts to meet the needs of bona fide farmers, settlers, miners, residents and prospectors for personal and domestic use as provided by law and by regulation.

(b) May offer for sale to cooperators, without competition but at not less than appraised value, timber on National Forest lands within an approved cooperative sustained yield unit; or, if the approved sustained yield unit consists entirely of federally owned or administered forest land and if necessary for the maintenance of a stable community or communities, may offer National Forest timber for sale to responsible operators within such community or communities, at not less than appraised value but without competition or with competition restricted to responsible operators who will manufacture the timber to at least a stated degree within the community or communities to be maintained. Each such sale which involves more than $500 in stumpage value may be made only after notice has been given in advance by such means as may be deemed effective in informing the public of the proposed action, including in any event, publication, once weekly for four consecutive weeks and with additional insertions if needed, in one or more newspapers of general circulation in the vicinity of the place where the timber is located, of a notice of the proposed sale stating at least:

(1) The location, estimated quantity and appraised value of the timber to be cut;

(2) The name and address of the proposed purchaser or those of the operators among whom bidding is to be restricted;

(3) The time and place of a public advisory hearing on the proposed sale, to
§223.118 Appeal process for small business timber sale set-aside program share recomputation decisions.

(a) Decisions subject to appeal. The rules of this section govern appeal of recomputation decisions related to structural, special, or market changes or the scheduled 5-year recomputations of the small business share of National Forest System timber sales. Certain decisions related to recomputation of shares, such as structural change and carryover volume, may require two decisions, one to determine that a recomputation is needed and the other to recompute the shares. Decisions made both at the earlier stage as well as the later stage are appealable.

(b) Manner of giving notice. (1) Predecisional notice and comment. The Responsible Official shall provide qualifying timber sale purchasers, as defined in paragraph (c)(1) of this section, 30 days for predecisional review and comment on any draft decision to

36 CFR Ch. II (7–1–01 Edition)
reallocate shares, including the data used in making the proposed recomputation decision.

(2) Notice of decision. Upon close of the 30-day predecisional review period, the Responsible Official shall consider any comments received. Within 15 days of the end of the comment period, the Responsible Official shall make a decision on the small business shares and shall give prompt written notice to all parties on the national forest timber sale bidders list for the affected area. The notice of decision must identify the name of the Appeal Deciding Officer, the address, the date by which an appeal must be filed, and a source for obtaining the appeal procedures information.

(c) Who may appeal or file written comments as an interested party. (1) Only timber sale purchasers, or their representatives, who are affected by recomputations of the small business share of timber sales as described in paragraph (a) of this section and who have submitted predecisional comments pursuant to paragraph (b)(1) of this section, may appeal recomputation decisions under this section or may file written comments as an interested party.

(2) Interested parties are defined as the Small Business Administration and those timber sale purchasers, or their representatives, who are affected by recomputations of the small business share of timber sales as described in paragraph (a) of this section and who have individually, or through an association to which they belong, submitted predecisional comments pursuant to paragraph (b)(1) of this section, may appeal recomputation decisions under this section or may file written comments as an interested party.

(d) Level of appeal. Only one level of review is available for appeal of decisions pertaining to recomputations under the Small Business Timber Sale Set-aside Program. The Appeal Deciding Officer is the official one level above the level of the Responsible Official who made the recomputation of shares decision. The Responsible Official is normally the Forest Supervisor; thus, the Appeal Deciding Officer is the Chief or such officer at the National headquarters level as the Chief may designate.

(e) Filing procedures. In order to file an appeal under this section, an appellant must file a notice of appeal, as specified in the notice of decision, with the Appeal Deciding Officer within 20 days of the date on the notice of the decision. This date must be specified in the notice of decision given pursuant to paragraph (b)(2) of this section. Written comments filed by an interested party in response to an appeal must be filed within 15 days after the close of the appeal filing period.

(f) Content of notice of appeal. (1) It is the responsibility of the appellant to provide sufficient narrative evidence and argument to show why a recomputation decision by the Responsible Official should be reversed or changed.

(2) An appellant must include the following information in a notice of appeal:

(i) The appellant’s name, mailing address, and daytime telephone number;

(ii) The title or type of recomputation decision involved, the date of the decision, and the name of the Responsible Official;

(iii) A brief description and date of the decision being appealed;

(iv) A statement of how the appellant is adversely affected by the decision being appealed;

(v) A statement of the facts in dispute regarding the issue(s) raised by the appeal;

(vi) If relevant, any specific references to any law, regulation, or policy that the appellant believes to have
§223.118

been violated and the basis for such an allegation;

(vii) A statement as to whether and how the appellant has tried to resolve with the Responsible Official the issue(s) being appealed, including evidence of submission of written comments at the predecisional stage as provided by paragraph (a) of this section, the date of any discussion, and the outcome of that meeting or contact; and

(viii) A statement of the relief the appellant seeks.

(g) Time periods and timeliness. (1) All time periods applicable to this section will begin on the first day following a decision or action related to the appeal.

(2) Time periods applicable to this section are computed using calendar days. Saturdays, Sundays, or Federal holidays are included in computing the time allowed for filing an appeal; however, when the filing period would expire on a Saturday, Sunday, or Federal holiday, the filing time is automatically extended to the end of the next Federal working day.

(3) It is the responsibility of those filing an appeal to file the notice of appeal by the end of the filing period. In the event of questions, legible postmarks on a mailed appeal or the time and date imprint on a facsimile appeal will be considered evidence of timely filing. Where postmarks or facsimile imprints are illegible, the Appeal Deciding Officer shall rule on the timeliness of the notice of appeal.

(4) The time period for filing a notice of appeal is not extendable.

(h) Dismissal without decision. The Appeal Deciding Officer shall dismiss an appeal and close the record without a decision in any of the following circumstances:

(1) The appellant is not on the timber sale bidders list for the area affected by the recomputation decision;

(2) The appellant’s notice of appeal is not filed within the required time period;

(3) The appellant’s notice of appeal does not contain responses required by paragraphs (f)(2)(i) through (f)(2)(viii) of this section; or

(4) The appellant did not submit written comments on the proposed decision of the new recomputed shares as described in paragraph (c) of this section.

(i) Appeal record. The appeal record consists of the written decision being appealed, any predecisional comments received, any written comments submitted by interested parties, any other supporting data used to make the decision, the notice of appeal, and, if prepared, a responsive statement by the Responsible Official which addresses the issues raised in the notice of appeal. The Responsible Official must forward the record to the Appeal Deciding Officer within 7 days of the date the notice of appeal is received. A copy of the appeal record must be sent to the appellant at the same time.

(j) Appeal decision. (1) Responsive statement for appeal decision. The Appeal Deciding Officer may request the Responsible Official to prepare a responsive statement. However, if the information in the files clearly demonstrates the rationale for the Responsible Official’s decision, then a responsive statement addressing the points of the appeal is not necessary.

(2) Appeal issue clarification. For clarification of issues raised in the appeal, the Appeal Deciding Officer may request additional information from either the Responsible Official, the appellant, or an interested party who has submitted comments on the appeal. At the discretion of the Appeal Deciding Officer, an appellant or interested party may be invited to discuss data relevant to the appeal. Information provided to clarify issues or facts in the appeal must be based upon information previously documented in the file or appeal. Any information provided as a result of the Appeal Deciding Officer’s request for more information must be made available to all parties, that is, to the Responsible Official, the appellant, and interested parties who have submitted comments on the appeal. All parties will have 5 days after the Appeal Deciding Officer receives the additional information to review and comment on the information, and the appeal decision period will be extended 5 additional days.

(3) Issuance of final decision. The Appeal Deciding Officer shall review the decision and appeal record and issue a written appeal decision to the parties
Forest Service, USDA

§ 223.132

within 30 days of the close of the appeal period except that this period must be extended to 35 days when additional information is requested by the Appeal Deciding Officer. The Appeal Officer may affirm or reverse the Responsible Official’s decision, in whole or in part. There is no extension of the time period for rendering an appeal decision.

(k) Implementation of decisions during pendency of appeal. Recomputation of shares arising from a scheduled 5-year recomputation are effective on April 1 following the end of the 5-year period being considered. If an appeal that may affect the shares for the next 5-year period is not resolved by the April 1 date, the share decision announced by the Responsible Official must be implemented. If an appeal decision results in a change in the shares, the revised total share of the Small Business Timber Sale Set-aside Program must be accomplished during the remaining portion of the 5-year period.

(l) Timber sale set-aside policy changes. Timber purchasers shall receive an opportunity, in accordance with all applicable laws and regulations, to review and comment on significant changes in the Small Business Timber Sale Set-aside Program or policy prior to adoption and implementation.

(m) Information collection requirements. The provisions of paragraph (f) of this section specify the information that appellants must provide when appealing decisions pertaining to recomputation of shares. As such, these rules contain information requirements as defined in 5 CFR Part 1320. These information requirements have been approved by the Office of Management and Budget and assigned control number 0596-0141.

[64 FR 411, Jan. 5, 1999]

Subpart C—Suspension and Debarment of Timber Purchasers

SOURCE: 52 FR 43329, Nov. 12, 1987, unless otherwise noted.

§ 223.130 Scope.

(a) This subpart prescribes policies and procedures governing the debarment and suspension of purchasers of National Forest System timber. This subpart further prescribes policies and procedures governing those persons who violate the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.).

(b) It provides for the listing of debarred and suspended purchasers.

(c) It sets forth the causes and procedures for debarment and suspension and for determining the scope, duration, and treatment to be accorded to purchasers listed as debarred or suspended.

[52 FR 43329, Nov. 12, 1987, as amended at 60 FR 46921, Sept. 8, 1995]

§ 223.131 Applicability.

These regulations apply to purchasers of National Forest System timber as well as to those persons who violate the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.). These regulations do not apply to Forest Service procurement contracts which are governed by regulations at 41 CFR 4-1.6.

[60 FR 46921, Sept. 8, 1995]

§ 223.132 Policy.

(a) The Forest Service shall solicit and consider timber sale bids from and award contracts only to responsible business concerns and individuals. Debarment and suspension by the Forest Service are discretionary actions that, taken in accordance with these regulations, are appropriate means to effectuate this policy.

(b) Debarment and suspension shall be imposed only for the causes and in accordance with the procedures set forth in this subpart. The serious nature of debarment and suspension requires that these actions be imposed only in the public interest, for the Government’s protection, and not for the purpose of punishment.

(c) Debarment and suspension actions taken under this subpart shall be based on the administrative record, including any submissions and argument made by the purchaser or named affiliate in accordance with this subpart, and shall be limited in scope and duration to that necessary to protect the Government’s interest.
§ 223.133 Definitions.

As used in this subpart, the following terms shall have the meanings set forth below:

Adequate evidence means information sufficient to support the reasonable belief that a particular act or omission has occurred.

Affiliates are business concerns or persons, whose relationship entails the following:

(a) Either party directly or indirectly controls or has the power to control the other; or
(b) A third party directly or indirectly controls or has the power to control both. In determining whether affiliation exists, the Forest Service shall consider all appropriate factors, including, but not limited to, common ownership, common management, common facilities, and contractual relationships. Further guidelines to be used in determining affiliation are found in the Small Business Administration regulation in 13 CFR 121.401.

Civil judgment means a judgment or finding of a civil offense by any court of competent jurisdiction.

Control means the power to exercise, directly or indirectly, a controlling influence over the management, policies, or activities of an individual or business concern, whether through ownership of voting securities, through one or more intermediary individuals or business concerns, or otherwise.

Conviction means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, and includes a conviction entered upon a plea of nolo contendere.

Debarment means action taken by a debarring official under §§223.136 through 223.140 to exclude a purchaser from Forest Service timber sale contracts for a reasonable, specified period of time. A purchaser so excluded is "debarred." Debarment pursuant to the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.), means action taken by a debarring official under §§223.136–223.140 to exclude persons from entering into any contract for the purchase of unprocessed timber originating from Federal lands and from taking delivery of unprocessed Federal timber purchased by another party for the period of debarment.

Debarring official means the Chief of the Forest Service or the Deputy Chief, National Forest System, or the Associate Deputy Chief, Resources Division, National Forest System.

Federal lands means, for the purposes of the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.), lands that are owned by the United States, but does not include any lands the title to which is:

(a) Held in trust by the United States for the benefit of any Indian tribe or individual.

(b) Held by any Indian tribe or individual subject to a restriction by the United States against alienation, or

(c) Held by any Native Corporation as defined in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602).

Indictment means indictment for a criminal offense. An information or other filing by competent authority charging a criminal offense shall be given the same effect as an indictment.

Legal proceedings means any civil judicial proceeding to which the Government is a party or any criminal proceeding. The term includes appeals from such proceedings.

Notice means a written communication served in person or sent by certified mail, return receipt requested, or its equivalent, to the last known address of a party, its identified counsel, or agent for service of process. In the case of an organization, such notice may be sent to any partner, principal officer, director, owner or co-owner, or joint venturer.

Person means any individual, partnership, corporation, association, or other legal entity, and includes any subsidiary, subcontractor, parent company, and business affiliates.

Preponderance of the evidence means proof by information that, compared with that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

Purchaser means any person, who:

(a) Submits bids for, is awarded, or reasonably may be expected to submit bids for or be awarded, a Forest Service timber sale contract;
§ 223.136 Debarment.

(a) General. In accordance with the procedures in §223.138, the debarring official may in the public interest, debar a purchaser for any of the causes listed in §223.137. However, the existence of a cause for debarment does not necessarily require that the purchaser be debarred. In making any debarment decision, the debarring official shall consider the seriousness of the purchaser’s acts or omissions and any mitigating factors.

(b) Effect of proposed debarment. (1) Upon issuance of a notice of proposed debarment by the debarring official and until the final debarment decision is rendered, the Forest Service shall not solicit or consider bids from, award contracts to, approve a third party agreement with, renew or otherwise extend, except pursuant to the terms of a contract term adjustment, an existing timber sale contract with these purchasers, unless the Chief of the Forest Service or authorized representative determines, in writing, that there is a compelling reason for such action.

(2) In addition to the provisions of paragraph (a) of this section, persons debarred pursuant to §223.137(g) shall be prohibited from entering into any contract to purchase unprocessed timber from Federal lands and shall also be precluded from taking delivery of Federal timber purchased by another person for the period of debarment.

[60 FR 46921, Sept. 8, 1995]
contract term adjustment, any contract with that purchaser. The Chief of the Forest Service or authorized representative may waive this exclusion upon a written determination identifying compelling reasons to continue doing business with that purchaser pending completion of debarment proceedings.

(2) In addition to paragraph (b)(1) of this section, issuance of a notice of proposed debarment under §223.137(g) shall preclude such person from entering into any contract to purchase unprocessed timber originating from Federal lands, and from taking delivery of unprocessed Federal timber from any other party who purchased such timber.

[52 FR 43329, Nov. 12, 1987, as amended at 60 FR 46921, Sept. 8, 1995]

§ 223.137 Causes for debarment.

The debarring official may debar a purchaser for any of the following causes:

(a) Conviction of or civil judgment for:

(1) Theft, forgery, bribery, embezzlement, falsification or destruction of records, making false statements, or receiving stolen property;

(2) Fraud, a criminal offense, or violation of Federal or State antitrust laws, any of which occurred in connection with obtaining, attempting to obtain, or performing a public contract or subcontract.

(3) Any other offense indicating a lack of business integrity or honesty that seriously and directly affects the present responsibility of the purchaser.

(b) A purchaser’s debarment from the purchase of timber by another Federal agency which sells timber.

(c) Cutting and/or removal of more than incidental volumes of timber not designated for the purchaser’s cutting from a national forest.

(d) Substantial violation of the terms of one or more Forest Service timber sale contracts so serious as to justify debarment, such as:

(1) Willful failure to perform in accordance with contract; or

(2) A history of failure to perform contract terms; or of unsatisfactory performance of contract terms.

(e) Among actions the Forest Service regards as so serious as to justify debarment under paragraph (d) of this section are willful violation or repeated failure to perform National Forest System timber sale contract provisions relating to the following:

(1) Fire suppression, fire prevention, and the disposal of slash;

(2) Protection of soil, water, wildlife, range, cultural, and timber resources and protection of improvements when such failure causes significant environmental, resource, or improvements damage;

(3) Removal of designated timber when such failure causes substantial product deterioration or conditions favorable to insect epidemics;

(4) Observance of restrictions on exportation of timber;

(5) Observance of restrictions on the disposal of timber from small business set-aside sales;

(6) Providing access to the Forest Service upon its request to purchaser’s books and accounts;

(7) Payment of monies due under terms of a Forest Service timber sale contract, including payment of damages relating to failure to cut designated timber by the contract termination date;

(8) Performance of contract by the contract termination date.

(f) Any other cause so serious or compelling that it affects the present responsibility of a purchaser of Government timber.

(g) Violation of the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.) (Act) or any regulation or contract issued under the Act.

[52 FR 43329, Nov. 12, 1987, as amended at 60 FR 46921, Sept. 8, 1995]

§ 223.138 Procedures for debarment.

(a) Investigation and referral. Information which may be sufficient cause for debarment of a timber sale purchaser and affiliates shall be reported to the Forest Service Debarring Official. Generally, such information should be referred through the Forest Supervisor and the Regional Forester. The referral shall be accompanied by a complete
statement of the facts supported by appropriate exhibits and a recommendation for action. Where the statement of facts indicates a possible criminal offense, except possible antitrust violations, the debarring official shall notify the Office of Inspector General, USDA. Where the statement of facts indicates a possible antitrust violation, the debarring official shall notify the Antitrust Division, Department of Justice.

(b) Decisionmaking process—(1) Notice of proposal to debar. The debarring official shall initiate debarment by advising the purchaser and any specifically named affiliate, by certified mail, return receipt requested. The notice document shall include the following information:

(i) That debarment is being considered.

(ii) The reasons for the proposed debarment in terms sufficient to put the recipient on notice of the conduct or transaction(s) upon which it is based.

(iii) The cause(s) relied upon under §223.137 for proposing debarment.

(iv) The specific procedures governing debarment decisionmaking in §223.138 (b)(1) through (b)(8).

(v) The effect of the issuance of the notice of proposed debarment pending a final debarment decision (see §223.136(b)).

(vi) The potential effect of a debarment.

(2) Submission in opposition. Within 30 calendar days after receipt of the notice of proposed debarment, the respondent may submit, in person, in writing, or through a representative, information and argument in opposition to and/or in mitigation of the proposed debarment, including any additional specific information that raises a genuine dispute over the material facts.

(3) Informal hearing. Pursuant to paragraph (b)(2) of this section, a respondent may request an informal hearing with the debarring official. The informal hearing shall be held within 20 calendar days from the date the request is received. The debarring official may postpone the date of the hearing if the respondent requests a postponement in writing. At the hearing, the respondent, appearing personally or through an attorney or other authorized representative, may informally present and explain evidence that causes for debarment do not exist, evidence of any mitigating factors, and arguments concerning the imposition, scope, duration or effects of proposed debarment or debarment. A transcript of the informal hearing shall not be required.

(4) Additional proceedings as to disputed material facts. In actions not based upon a conviction or civil judgment, if the debarring official finds that and gives notice that the submission in opposition raises a genuine dispute over facts material to the proposed debarment, respondent(s) may request a fact-finding conference on those disputed material facts. Such a conference shall be held within 20 calendar days from the date the request is received unless mutually agreed otherwise. The fact-finding conference shall conform with the following requirements:

(i) At least 10 days before the fact-finding conference, the debarring official shall send the respondent a copy of all documents in the administrative record as of the date of transmittal and not objected to by the Department of Justice.

(ii) At the conference, the respondent shall have the opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront any person the Forest Service presents.

(iii) A transcribed record of any additional proceedings shall be made available at cost to the respondent upon request, unless the respondent and the Forest Service, by mutual agreement, waive the requirement for a transcript.

(5) Debarring official’s decision—(i) No additional proceedings necessary. In actions based upon a conviction or civil judgement or in which there is no genuine dispute over material facts, the debarring official shall make a decision on the basis of all the information in the administrative record, including any submission made by the purchaser or any specifically named affiliate. The decision shall be made within 30 working days after receipt of any information and argument submitted, unless the debarring official extends this period for good cause.
§ 223.139 Period of debarment.

(a) Debarment shall be for a period commensurate with the seriousness of the cause(s):

1. The debarring official shall consider any suspension period or period since issuance of the notice of proposed debarment in determining the debarment period.

2. Generally, a debarment for those causes listed at §223.137(a)–(f) of this subpart should not exceed three (3) years, except as otherwise provided by law.

3. A debarment for the causes listed at §223.137(g) shall not exceed five (5) years.

(b) The debarring official may extend the debarment for those causes listed at §223.137(a)–(f) of this subpart for an additional period if that official determines that an extension is necessary to protect the Government’s interest. However:

1. A debarment may not be extended solely on the basis of the facts and circumstances upon which the initial debarment action was based;

2. If debarment for an additional period is necessary, the debarring official shall initiate and follow the procedures in §223.138 to extend the debarment.

(c) The debarring official may consider terminating the debarment or reducing the period or extent of debarment, upon the purchaser’s request, supported by documentation, for reasons such as:

1. Newly discovered material evidence;

2. Reversal of the conviction or judgment upon which the debarment was based;

3. Notice of debarring official’s decision.

(i) Additional proceedings necessary.

(A) In actions in which additional proceedings are necessary to determine disputed material facts, the debarring official shall promptly prepare written findings of fact. The debarring official shall base the decision on the facts as found, together with any information and argument submitted by the purchaser or any specifically named affiliate and any other information in the administrative record.

(B) The debarring official may refer matters involving disputed material facts to another official for findings of fact. The debarring official may reject any such findings, in whole or in part, only after specifically determining them to be arbitrary and capricious or clearly erroneous.

(C) The debarring official’s decision shall be made after the conclusion of the proceedings with respect to disputed facts.

(6) Standard of evidence. In any action in which the proposed debarment is not based upon a conviction or civil judgment, the cause for debarment must be established by a preponderance of the evidence. In any action in which the proposed debarment is based upon a conviction or civil judgment, the standard shall be deemed to have been met.

(7) Notice of debarring official’s decision. (i) The purchaser and any affiliates involved shall be given prompt notice of the debarring official’s decision by certified mail, return receipt requested. If the debarring official decides to impose debarment, the notice shall:

(A) Refer to the notice of proposed debarment;

(B) Specify the reasons for debarment;

(C) State the period of debarment, including effective dates (see §223.139);

(D) Specify any limitations on the terms of the debarment; and

(E) State that any decision to debar is appealable to the Agriculture Board of Contract Appeals pursuant to paragraph (b)(8) of this section.

(ii) The debarring official shall also promptly notify Regional Foresters and Forest Supervisors of the decision.

(b) Review of debarring official’s decision. The purchaser and any affiliates involved may appeal a Forest Service debarring official’s decision to debar within 30 days from receipt of the decision. To appeal, a purchaser and any affiliates involved must furnish a written notice to the U.S. Department of Agriculture Board of Contract Appeals, Washington, DC 20250, and a copy of the appeal to the debarring official from whose decision the appeal is taken. The rules and procedures of the U.S. Department of Agriculture Board of Contract Appeals set forth in 7 CFR part 24, govern debarment appeals.
§ 223.140 Scope of debarment.

(a) Scope in general. (1) Debarment of a purchaser constitutes debarment of all divisions or other organizational elements of the purchaser, unless the debarment decision is limited by its terms to specific divisions, organizational elements, or classes of sales.

(2) The debarring official may extend a debarment decision to include any affiliates of the purchaser, if they are—

(i) Specifically named and

(ii) Given written notice of the proposed debarment and provided an opportunity to respond (see §223.138(b)).

(b) Imputing conduct. For purposes of determining the scope of debarment, conduct may be imputed as follows:

(1) The fraudulent, criminal, or other seriously improper conduct of any officer, director, shareholder, partner, employee, or other individual associated with a purchaser may be imputed to a purchaser when the conduct occurred in connection with the individual’s performance of duties for or on behalf of the purchaser, or with the purchaser’s knowledge, approval, or acquiescence. The purchaser’s acceptance of the benefits derived from the conduct shall be evidence of such knowledge, approval, or acquiescence.

(2) The fraudulent, criminal, or other seriously improper conduct of a purchaser may be imputed to any officer, director, shareholder, partner, employee, or other individual associated with the purchaser who participated in, knew of, or has reason to know of the purchaser’s conduct.

(3) The fraudulent, criminal, or other seriously improper conduct of one purchaser participating in a joint venture or similar arrangement may be imputed to other participating purchasers if the conduct occurred for or on behalf of the joint venture or similar arrangement or with the knowledge, approval, or acquiescence of those purchasers. Acceptance of the benefits derived from the conduct shall be evidence of such knowledge, approval or acquiescence.

§ 223.141 Suspension.

(a) The suspending official may, in the public interest, suspend a purchaser on the basis of adequate evidence for any of the causes in §223.142, using the procedures in §223.143. However, the existence of a cause for suspension does not necessarily require that the purchaser be suspended. In making any suspension decision, the suspending official shall consider the seriousness of the purchaser’s acts or omissions and any mitigating factors.

(b) Suspension is a serious action to be imposed, pending the completion of investigation or legal proceedings, when it has been determined that immediate action is necessary to protect the Government’s interest. In assessing the adequacy of the evidence, consideration shall be given to how much information is available, how credible it is given the circumstances, whether or not important allegations are corroborated and what inferences can reasonably be drawn as a result. This assessment shall include an examination of basic documents such as contracts, bids, awards, inspection reports, and correspondence, as appropriate.

§ 223.142 Causes for suspension.

(a) The suspending official may suspend a purchaser suspected, upon adequate evidence, of the following:

(1) Commission of:

(i) Theft, forgery, bribery, embezzlement, falsification or destruction of records, making false statements, or receiving stolen property;

(ii) Fraud, a criminal offense, or violation of Federal or State antitrust...
§ 223.143 Procedures for suspension.

(a) Investigation and referral. Information which may be sufficient cause for suspension under §223.142 shall be reported to the Forest Service Suspending Official. Generally, such information should be referred through the Forest Supervisor and the Regional Forester. The referral shall be accompanied by a complete statement of the facts supported by appropriate exhibits and a recommendation for action. Where the statement of facts indicates a possible criminal offense, except possible antitrust violations, the suspending official shall notify the Office of Inspector General, USDA. Where the statement of facts indicates a possible antitrust violation, the suspending official shall notify the Antitrust Division, Department of Justice.

(b) Decisionmaking process—(1) Notice of suspension. When a purchaser and any specifically named affiliates are suspended, the suspending official shall so advise the purchaser and any specifically named affiliate immediately by certified mail, return receipt requested. Such notice shall specify:

(i) That they have been suspended as of the date of the notice;

(ii) That the suspension is based on an indictment or other adequate evidence that the purchaser has committed irregularities,

(A) Of a serious nature in business dealings with the Government, or

(B) Seriously reflecting on the propriety of further Government dealings with the recipient;

(iii) Any such irregularities shall be described in terms sufficient to place the recipient on notice without disclosing the Government's evidence;

(iv) That the suspension is for a temporary period of time pending the completion of an investigation and such legal proceedings as may ensue;

(v) The cause(s) relied upon under §223.142 for imposing suspension;

(vi) The effect of the suspension (see §223.135);

(vii) The specific procedures governing suspension decisionmaking in §223.143 (b)(1) through (b)(6).

(2) Submission in opposition. Within 30 calendar days after receipt of the notice of suspension, the purchaser or any specifically named affiliate may submit, in person, in writing, or through a representative, information and argument in opposition to the suspension, including any additional specific information that raises a genuine dispute over material facts.

(3) Informal hearing. Pursuant to paragraph (b)(2) of this section, respondent may request an informal hearing with the suspending official. The informal hearing shall be held within 20 calendar days from the date the request is received. The suspending official may postpone the date of the hearing if the respondent requests a postponement in writing. At the hearing, the respondent, appearing personally or through an attorney or other authorized representative, may informally present and explain evidence that causes for suspension do not exist, evidence of any mitigating factors, and arguments concerning the imposition, scope, duration or effects of suspension. A transcript of the informal hearing shall not be required.

(4) Additional proceedings as to disputed material facts. (i) If the suspending official finds that there exists a genuine dispute over facts material to the suspension, respondent(s) shall be afforded an opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront
any person the Forest Service presents, unless—

(A) The action is based on an indictment; or

(B) A determination is made, on the basis of Department of Justice advice, that the substantial interests of the Government in pending or contemplated legal proceedings based on the same facts as the suspension would be prejudiced.

(ii) If appropriate, the respondent may request a fact-finding conference on disputed material facts. Such a conference shall be held within 20 calendar days from the date the request is received unless mutually agreed otherwise. The fact-finding conference shall conform with the following requirements:

(A) At least 10 days before the fact-finding conference, the suspending official shall send the respondent a copy of all documents in the administrative record as of the date of transmittal and not objected to by the Department of Justice.

(B) At the conference, the respondent shall have the opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront any person the Forest Service presents.

(iii) A transcribed record of any additional proceedings shall be prepared and made available at cost to the respondent upon request, unless the respondent and the Forest Service, by mutual agreement, waive the requirement for a transcript.

(5) Suspending official’s decision. The suspending official may modify or terminate the suspension or leave it in force for the same reasons as for terminating or reducing the period or extent of debarment (see §223.139(c)). The decision shall be made in accordance with the following provisions:

(i) No additional proceedings necessary. In actions based on an indictment, in which the respondent’s submission does not raise a genuine dispute over material facts; or in which additional proceedings to determine disputed material facts have been denied on the basis of Department of Justice advice, the suspending official’s decision shall be based on all the information in the administrative record, including any submissions and argument made by the respondent. The decision shall be made within 30 working days after receipt of any information and argument submitted by the respondent, unless the suspending official extends this period for good cause.

(ii) Additional proceedings necessary. (A) In actions in which additional proceedings are necessary as to disputed material facts, written findings of fact shall be promptly prepared. The suspending official shall base the decision on the facts as found, together with any information and argument submitted by the respondent and any other information in the administrative record.

(B) The suspending official may refer matters involving disputed material facts to another official for findings of fact. The suspending official may reject any such findings, in whole or in part, only after specifically determining them to be arbitrary and capricious or clearly erroneous.

(C) The suspending official’s decision shall be made only after the conclusion of any proceedings with respect to disputed facts.

(6) Notice of suspending official’s decision. The purchaser and any affiliates involved shall be given prompt written notice of the suspending officer’s decision to continue or not continue the suspension by certified mail, return receipt requested.

§223.144 Period of suspension.

(a) Suspension shall be for a temporary period pending the completion of investigation and any ensuing legal proceedings unless sooner terminated by the suspending official or as provided in paragraph (b) of this section.

(b) If legal proceedings are not initiated within 12 months after the date of the suspension notice, the suspension shall be terminated unless an Assistant Attorney General requests its extension, in which case it may be extended for an additional 6 months. In no event may a suspension extend beyond 18 months, unless legal proceedings have been initiated within that period.

(c) The suspending official shall notify the Department of Justice of the proposed termination of any suspension, at least 30 days before the 12-
§ 223.145 Scope of suspension.

The scope of suspension shall be the same as that for debarment (see § 223.140), except that the procedures in § 223.143 shall be used in imposing suspension.

Subpart D—Timber Export and Substitution Restrictions

§ 223.159 Scope and applicability.

The rules of this subpart apply to all timber sale contracts awarded before August 20, 1990, the date of enactment of the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.). The rules at § 223.162 shall remain in effect for all contracts awarded on or after August 20, 1990, until September 8, 1995. Contracts awarded on or after August 20, 1990 are subject to the rules of subpart F of this part, unless otherwise noted. Contracts awarded on or after September 8, 1995 are governed in full by subpart F.

§ 223.160 Definitions.

The following definitions apply to the provisions of this section:

(a) Export means either direct or indirect export to a foreign country and occurs on the date that a person enters into a contract or other binding transaction for the export of unprocessed timber or, if that date cannot be established, when unprocessed timber is found in an export yard or pond, bundled or otherwise prepared for shipment, or aboard an ocean-going vessel. An export yard or pond is an area where sorting and/or bundling of logs for shipment outside the United States is accomplished. Unprocessed timber, whether from National Forest System or private lands, is exported directly when exported by the National Forest timber purchaser. Timber is exported indirectly when export occurs as a result of a sale to another person or as a consequence of any subsequent transaction.

(b) Historic level means the average annual volume of unprocessed timber purchased or exported in calendar years 1971, 1972, and 1973.

(c) Private lands mean lands held or owned by a private person. Nonprivate lands include, but are not limited to, lands held or owned by the United States, a State or political subdivision thereof, or any other public agency, or lands held in trust by the United States for Indians.

(d) Substitution means the purchase of unprocessed timber from National Forest System lands to be used as replacement for unprocessed timber from private lands which is exported by the purchaser. Substitution occurs when (1) a person increases purchases of National Forest timber in any Calendar year more than 10 percent above their historic level and in the same calendar year exports unprocessed timber from private land in the tributary area; or (2) a person increases exports of unprocessed timber from private land in any tributary area more than 10 percent above their historic level in any calendar year while they have National Forest timber under contract.

(e) Tributary area means the geographic area from which unprocessed timber is delivered to a specific processing facility or complex. A tributary area is expanded when timber outside an established tributary area is hauled to the processing facility or complex.

(f) Unprocessed timber, except western red cedar in the contiguous 48 States, means trees or portions of trees having a net scale content not less than 331⁄3 percent of the gross volume, or the minimum piece specification set forth in the timber sale contract, in material meeting the peeler and sawmill log grade requirements published in the January 1, 1980—Official Log Scaling and Grading Rules used by Log Scaling and Grading Bureaus on the West Coast; cants to be subsequently remanufactured exceeding 8¼ inches in thickness; cants of any thickness reassembled into logs; and split or round bolts, except for aspen, or other roundwood not processed to standards and specifications suitable for end-product use. Unprocessed timber shall not mean pulp (utility) grade logs and Douglas-fir special cull logs or timber processed into the following:
(1) Lumber and construction timbers, regardless of size, sawn on four sides;
(2) Chips, pulp, and pulp products;
(3) Green veneer and plywood;
(4) Poles, posts, or piling cut or treated for use as such;
(5) Cants cut for remanufacture, 8\(\frac{3}{4}\) inches in thickness or less;
(6) Aspen bolts, not exceeding 4 feet in length.

(g) Unprocessed western red cedar timber in the contiguous 48 States means trees or portions of trees of that species which have not been processed into—

(1) Lumber of American Lumber Standards Grades of Number 3 dimension or better, or Pacific Lumber Inspection Bureau Export R-List Grades of Number 3 Common or better;
(2) Chips, pulp, and pulp products;
(3) Veneer and plywood;
(4) Poles, posts, or piling cut or treated with preservatives for use as such and not intended to be further processed; or
(5) Shakes and shingles; provided that lumber from private lands manufactured to the standards established in the lumber grading rules of the American Lumber Standards Association or the Pacific Lumber Inspection Bureau and manufactured lumber authorized to be exported under license by the Department of Commerce shall be considered processed.

(h) Person means an individual, partnership, corporation, association, or other legal entity and includes any subsidiary, subcontractor, parent company, or other affiliate. Business entities are considered affiliates for the entire calendar year when one controls or has the power to control the other or when both are controlled directly or indirectly by a third person during any part of the calendar year.

(i) Purchase occurs when a person is awarded a contract to cut National Forest timber or through the approval of a third party agreement by the Forest Service.

(j) Purchaser means a person that has purchased a National Forest timber sale.

§ 223.161 [Reserved]

§ 223.162 Limitations on timber harvested from all other states.

Unprocessed timber from National Forest System lands west of the 100th Meridian in the contiguous 48 States may not:

(a) Be exported from the United States;
(b) Be used in substitution for unprocessed timber from private lands which is exported by the purchaser; or
(c) Be sold, traded, exchanged, or otherwise given to any person who does not agree to manufacture it to meet the processing requirements of this section and/or require such a processing agreement in any subsequent resale or other transaction. This limitation on export or substitution does not apply to species of timber previously found to be surplus to domestic needs or to any additional species, grades, or quantities of timber which may be found by the Secretary to be surplus to domestic needs.

§ 223.163 [Reserved]

§ 223.164 Penalty for falsification.

For false certification of documents relating to export or substitution and/
or other violations of export and substitution requirements by the purchaser of timber from National Forest System lands, the Forest Service may cancel the subject contract, debar the involved person or persons from bidding on National Forest timber, or initiate other action as may be provided by law or regulation.

Subpart E (Reserved)

Subpart F—The Forest Resources Conservation and Shortage Relief Act of 1990 Program

SOURCE: 60 FR 46922, Sept. 8, 1995, unless otherwise noted.

§ 223.185 Scope and applicability.

This subpart implements provisions of the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.) that became effective upon enactment or as otherwise specified in the Act. As of September 8, 1995, this subpart applies to unprocessed timber originating from private lands west of the 100th meridian in the contiguous 48 States that requires domestic processing. Except as provided later in this paragraph, this subpart applies to all unprocessed timber originating from National Forest System lands west of the 100th meridian in the contiguous 48 States acquired from timber sale contracts awarded on or after August 20, 1990. The rules regarding substitution at §223.162 of subpart D apply to unprocessed timber acquired from timber sale contracts awarded on or after August 20, 1990, as provided in §490(a)(2)(A) of the Act. The rules regarding reporting the acquisition and disposition of unprocessed Federal timber at §223.193 of this subpart apply to all transfers of unprocessed Federal timber originating from National Forest System lands west of the 100th meridian in the contiguous 48 States regardless of timber sale contract award date.

§ 223.186 Definitions.

The following definitions apply to the provisions of this subpart:

Acquire means to come into possession of, whether directly or indirectly, through a sale, trade, exchange, or other transaction. The term “acquisition” means the act of acquiring. The terms “acquire” and “purchase” are synonymous and are used interchangeably.

Area of operations refers to the geographic area within which logs from any origin have neither been exported nor transported to an area where export occurs. The area of operations will be determined for individual Forest Service Administrative Units or groups of Administrative Units by the Regional Foresters of Regions 1, 2, 3, and 4 on an as-needed basis, and used as part of the criteria for evaluating requests to waive the identifying and marking requirements for unprocessed Federal logs.

Cants or Flitches are synonymous, and mean trees or portions of trees, sawn on one or more sides, intended for remanufacture into other products elsewhere.

Civil penalties: Willful disregard means a person knew or showed reckless disregard for the matter of whether the person’s conduct is prohibited by the Forest Resources Conservation and Shortage Relief Act of 1990, 16 U.S.C. 620, et seq., with regard to the prohibition against exporting unprocessed Federal logs.

Willfully means a person knew or showed reckless disregard for the matter of whether the person’s conduct is prohibited by the Forest Resources Conservation and Shortage Relief Act of 1990, 16 U.S.C. 620, et seq., or regulations issued under the Act, even though such violation may not have caused the export of unprocessed Federal timber in violation of the Act.
Disregard means to ignore, overlook, or fail to observe any provision of the Act or a regulation issued under this Act, even though such violation may not have caused the export of unprocessed Federal timber in violation of the Act.

Should have known means committing an act that a reasonable person in the timber industry would have known violates a provision of the Act or regulations issued under the Act, even though the violation may not have caused the export of unprocessed Federal timber in violation of the Act.

Each violation refers to any violation under the Act or its implementing regulations with regard to a single act, which includes but is not limited to a single marking (or lack thereof) on a single log, the export of a single log, or a single entry on a document.

Export means transporting, or causing to be transported, either directly or through another party, unprocessed timber to a foreign country. Export occurs:

1. On the date that a person enters into an agreement to sell, trade, exchange or otherwise convey such timber to a person for delivery to a foreign country;
2. When unprocessed timber is placed in an export facility in preparation (sorting, bundling, container loading etc.) for shipment outside the United States; or,
3. When unprocessed timber is placed on board an ocean-going vessel, rail car, or other conveyance destined for a foreign country.

Federal lands means lands that are owned by the United States west of the 100th meridian in the contiguous 48 States, but do not include any land the title to which is:

1. Held in trust by the United States for the benefit of any Indian tribe or individual;
2. Held by any Indian tribe or individual subject to a restriction by the United States against alienation; or

Finished products means products from trees, portions of trees or other roundwood products processed to standards and specifications intended for end product use.

Fiscal year means the Federal fiscal year beginning October 1, and ending the following September 30.

Gross value means the total value a person received from the transfer of unprocessed Federal timber involved in a violation, before production, delivery, agent fees, overhead, or other costs are removed.

Hammer brand refers to an identifying mark or brand composed of numbers, letters, characters, or a combination of numbers, letters, or characters permanently attached to a hammer, or other similar striking tool. The hammer brand must make a legible imprint of the brand in the end of a log when struck.

Highway yellow paint refers to an oil base or equivalent yellow paint of lasting quality comparable to the yellow paint used to mark highways.

Log refers to an unprocessed portion of a tree that is transported to a manufacturing facility or other location for processing, transferring to another person, or exporting. "Logs" is synonymous with "timber".

Manufacturing facility means a permanently located processing plant used to convert unprocessed timber into products.

Non-manufacturer means a person who does not own or operate a manufacturing facility.

Person means any individual, partnership, corporation, association, or other legal entity and includes any subsidiary, subcontractor, parent company, and business affiliates. Persons are affiliates of each other when either directly or indirectly, one person controls or has the power to control the other or a third party or parties control or have the power to control both. In determining whether or not affiliation exists, consideration shall be given to all appropriate factors, including but not limited to common ownership, common management, common facilities, and contractual relationships.

Private lands means lands, located west of the 100th meridian in the contiguous 48 States held or owned by a person. Such term does not include...
Federal lands or public lands, or any land the title to which is:
(1) Held in trust by the United States for the benefit of any Indian tribe or individual;
(2) Held by any Indian tribe or individual subject to a restriction by the United States against alienation; or
(3) Held by any Native Corporation as defined in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602).

Processed means timber processed into products listed in §223.187 of these regulations.

Purchase has the same meaning as acquire. The terms are used interchangeably.

Same geographic and economic area means the land within the boundaries of an approved sourcing area.

Sourcing area means the geographic area approved by the Secretary which includes a person’s timber manufacturing facility and the private and Federal lands from which the person acquires or intends to acquire unprocessed timber to supply such manufacturing facility; a sourcing area must be geographically and economically separate from any area from which that person harvests for export any unprocessed timber originating from private lands.

Substitution occurs when:
(1) A person acquires, directly or indirectly, unprocessed timber from Federal lands west of the 100th meridian in the contiguous 48 States and engages in exporting or selling for export, unprocessed timber originating from private lands within the same geographic and economic area; or
(2) A person acquires, directly or indirectly, unprocessed timber from Federal lands west of the 100th meridian in the contiguous 48 States and, during the preceding 24-month period, exported unprocessed timber originating from private lands; or
(3) A person exports or sells for export, unprocessed timber originating from private lands within the same geographic and economic area in the same calendar year that the person has unprocessed timber originating from Federal lands in the person’s possession or under contract; or
(4) A person purchases, directly or indirectly, unprocessed timber originating from Federal lands if such person sells or otherwise transfers unprocessed timber that originates from private lands west of the 100th meridian in the contiguous 48 States and that requires domestic processing, to a third party if that third party or successive parties export that unprocessed private timber. A third party or successive parties who acquire such unprocessed timber that originates from private lands west of the 100th meridian in the contiguous 48 States and that requires domestic processing may not export such timber.

Transaction means an arrangement involving the transfer of unprocessed timber.

Transaction statement is a signed copy of one of the transaction reporting forms in 36 CFR 223.193 and 223.194.

Transfer means to pass title, sell, trade, exchange, or otherwise convey unprocessed timber to another person.

Unprocessed timber means trees or portions of trees or other roundwood not processed to standards and specifications suitable for end product use and intended for remanufacture. Unprocessed timber does not include products intended for remanufacture that meet the criteria listed in §223.187(a)(2) or (3). For the purposes of reporting and identifying under §§223.193, 223.194 and 223.195, unprocessed timber also means timber products listed in §223.187 of these regulations, and other timber products including house logs that are part of a structure kit, that are indistinguishable from other unprocessed timber.

§223.187 Determinations of unprocessed timber.

(a) All species except western red cedar. Unprocessed timber, as defined in §223.186 of this Subpart, does not include timber processed into any one of the following:
(1) Lumber or construction timbers, except western red cedar, meeting current American Lumber Standards Grades or Pacific Lumber Inspection Bureau Export R or N list grades, sawn on 4 sides, not intended for remanufacture. To determine whether such lumber or construction timbers meet this...
grade and intended use standard, the shipper of record must have in its possession for each shipment or order, and available for inspection upon the request of the Forest Service:

(1) A legible copy of a lumber inspection certificate certified by a lumber inspection/grading organization generally recognized by the industry as setting a selling standard; and,

(ii) A statement by the manufacturer certifying under the penalties provided in section 492 of the Act (16 U.S.C. 620d) and the False Statements Act (18 U.S.C. 1001) that the products in the shipment or order are intended to be used as shipped, are manufactured into products, or processed into pulp, and are not to be manufactured into other products. The certification statements shall be made in accordance with paragraph (b) of this section. The certification statements in paragraph (b) of this section are not required if the lumber or construction timbers described in paragraph (a)(1) of this section or the pulpwood bolts described in paragraph (a)(8) of this section otherwise may be exported without regard to an intent to remanufacture or process into pulp. For instance, because the timber originates from private land from which timber may be exported,

(2) Lumber, construction timbers, or cants for remanufacture, except western red cedar, meeting current American Lumber Standards Grades or Pacific Lumber Inspection Bureau Export R or N list clear grades, sawn on 4 sides, not to exceed 12 inches (30.5 cm) thick. To determine whether such lumber, timbers, or cants meet this grading standard, the shipper of record must have in its possession for each shipment or order and available for inspection, upon the request of the Forest Service, a legible copy of a lumber inspection certificate certified by a lumber inspection/grading organization generally recognized by the industry as setting a selling standard.

(3) Lumber, construction timbers, or cants for remanufacture, except western red cedar, that do not meet the grades referred to in paragraph (a)(2) of this section and are sawn on 4 sides, with wane less than ¼ of any face, not exceeding 8¾ inches (22.2 cm) thick.

(4) Chips, pulp, or pulp products.

(5) Veneer or plywood.

(6) Poles, posts, or piling cut or treated with preservatives for use as such.

(7) Shakes or shingles.

(8) Aspen or other pulpwood bolts, not exceeding 100 inches in length, exported for processing into pulp. Shippers of record of such pulpwood bolts must have in their possession, and available for inspection upon request of the Forest Service, in accordance with paragraph (b) of this section, a manufacturer’s certificate that such bolts are intended for processing into pulp.

(9) Pulp logs or cull logs processed at domestic pulp mills, domestic chip plants, or other domestic operations for the purpose of conversion of logs into chips.

(b) Export product certifications. (1) Manufacturers of lumber or construction timbers described in paragraph (a)(1) of this section and pulpwood bolts described in paragraph (a)(8) of this section, shall certify to the following statements:

(2) Lumber or construction timbers; “I certify that the products in the shipment identified by my shipping order number _______ dated _______, are manufactured in accordance with the attached order from (buyer) of (address), numbered _______ and dated _______, are intended to be used as shipped and are not to be remanufactured into other products. I make this certification with full knowledge and understanding of the export and substitution restrictions of the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620 et seq.) (Act) and its implementing regulations. I fully understand that exporting unprocessed timber originating from Federal lands or unprocessed timber from private lands which is required to be processed domestically is a violation of this Act, its implementing regulations, and the False Statements Act (18 U.S.C. 1001), and may subject me to the penalties and remedies provided for such violations.”

(3) Pulpwood bolts. “I certify that the pulpwood bolts in the shipment identified by my shipping order number _______ dated _______, are manufactured in accordance with the attached order from (buyer) of (address), numbered _______ and dated _______, are
intended to be processed into pulp and are not to be remanufactured into other products. I make this certification with full knowledge and understanding of the export and substitution restrictions of the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.) (Act) and its implementing regulations. I fully understand that exporting unprocessed timber originating from Federal lands or unprocessed timber from private lands which is required to be processed domestically is a violation of this Act, its implementing regulations, and the False Statements Act (18 U.S.C. 1001), and may subject me to the penalties and remedies provided for such violations.

(4) **Signatory procedures.** Certificates shall be on company letterhead, and signed by the person manufacturing the shipment. In the case of a corporation, the certificates must be signed by a person authorized, in writing, by the Chief Executive Officer pursuant to 36 CFR 223.187(b)(4), to sign the certificates in 36 CFR 223.187(b) on behalf of the corporation.

(5) **Chief Executive Officer Authorization.** The authorization by the Chief Executive Officer shall be on company letterhead, shall be notarized, and shall read as follows:

"I authorize to sign the certificates in 36 CFR 223.187(b) on behalf of (name of corporation). I make this authorization with full knowledge and understanding of the export and substitution restrictions of the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620 et seq.) (Act) and its implementing regulations. I fully understand that exporting unprocessed timber originating from Federal lands or unprocessed timber originating from private lands which is required to be processed domestically is a violation of this Act, its implementing regulations, and the False Statements Act (18 U.S.C. 1001), and may subject me to the penalties and remedies provided for such violation."

(6) Exporters of other timber products originating from Federal lands not specifically listed in §223.187 which may develop export markets in the future may also require similar certification statements. Such statements will be provided by the Forest Service.

(c) **Western red cedar.** Unprocessed western red cedar timber does not include manufactured lumber authorized for export under license by the Department of Commerce, and lumber from private lands processed to standards established in the lumber grading rules of the American Lumber Standards Association or the Pacific Lumber Inspection Bureau, or timber processed into any of the following products:

1. Lumber of American Lumber Standards Grades of Number 3 dimension or better, or Pacific Lumber Inspection Bureau Export R-List Grades of Number 3 common or better, with a maximum cross section of 2,000 square centimeters (310 square inches) for any individual piece of processed western red cedar, regardless of grade. To determine whether such lumber meets these standards, grades and size restrictions, the shipper of record must have in its possession for each shipment, and available for inspection upon request of the Forest Service, a legible copy of a lumber inspection certificate certified by a lumber inspection/grading organization generally recognized by the industry as setting a selling standard. Export restrictions governing western red cedar timber harvested from Federal, State or other public lands are found in 7(i) of the Export Administration Act of 1979 as amended (50 U.S.C. appendix 2406(i)), and implementing regulations at 15 CFR 777.7.

2. Chips, pulp, and pulp products;

3. Veneer and plywood;

4. Poles, posts, pilings cut or treated with preservatives for use as such and not intended to be further processed; and

5. Shakes and shingles.

(d) **Finished Products.** Shippers of record of products manufactured from unprocessed western red cedar originating from Federal lands, acquired by the manufacturer under the exemption from the prohibition against indirect substitution at §223.186(c)(1), must have in their possession for each shipment a certificate from the manufacturer that such products are finished products as defined in §223.186 of this subpart. The certification statement shall read as follows:

1. "I certify that the products in the shipment identified by my shipping order number _____, dated _____, are
§ 223.188 Prohibitions against exporting unprocessed Federal timber.

No person who acquires unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States may export such timber from the United States, or sell, trade, exchange, or otherwise convey such timber to any other person for the purpose of exporting such timber from the United States. This prohibition does not apply to specific quantities of grades and species of such unprocessed Federal timber that the Secretary of Agriculture determines to be surplus to domestic manufacturing needs.

§ 223.189 Prohibitions against substitution.

(a) Direct substitution prohibition. Except as otherwise provided by this section:

(i) No person may purchase directly from any department or agency of the United States unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States if:

(A) Such person acquires unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States and engages in exporting or selling for export, unprocessed timber originating from private lands within the same geographic and economic area; or

(B) Such person has, during the preceding 24-month period, exported unprocessed timber originating from private lands.

(ii) No person may export or sell for export, unprocessed timber originating from private lands within the same geographic and economic area in the same calendar year that the person has unprocessed timber originating from Federal lands in the person’s possession or under contract.

(b) No person may purchase unprocessed timber originating from Federal lands if such person sells or otherwise transfers unprocessed timber that originates from private lands west of the 100th meridian in the contiguous 48 States and that requires domestic processing, to a third party if that third party or successive parties export that unprocessed private timber. A third party or successive parties who acquire
such unprocessed timber that originates from private lands west of the 100th meridian in the contiguous 48 States and that requires domestic processing may not export such timber.

(4) The prohibitions in paragraphs (a) (1)-(3) of this section shall not apply to specific quantities of grades and species of unprocessed timber which the Secretary of Agriculture has determined to be surplus to domestic manufacturing needs.

(b) Exemptions. (1) Pursuant to section 490(c) of the Act (16 U.S.C. 620b), all persons who applied for a sourcing area by December 20, 1990, in accordance with §223.190 of this subpart, were exempt from the prohibitions against substitution, in accordance with §223.189(a)(1) of this subpart, until such time that the approving official approved or disapproved the application.

(2) Pursuant to Section 490(a) of the Act (16 U.S.C. 620b), an exemption to the prohibition in §223.189(a)(1) of this subpart is provided to:

(i) A person with a historic export quota who submitted a certification in accordance with §223.189 (c) and (d) of this subpart; and

(ii) A non-manufacturer who submitted a certification in accordance with §223.192 of this subpart.

(3) Pursuant to §490(c) of the Act (16 U.S.C. 620b), the prohibitions against direct substitution in §223.189(a) (1) and (2) of this subpart do not apply to a person who acquires unprocessed timber originating from Federal lands within an approved sourcing area, does not export unprocessed timber originating from private lands within the approved sourcing area while the approval is in effect, and, if applicable, received a waiver of the prohibition against exporting unprocessed timber originating from private lands within the sourcing area during the preceding 24 months, in accordance with §223.189 (f) and (g) of this subpart.

(c) Historic export quota exemption. The prohibition against the purchase of Federal timber for a person who has exported unprocessed timber originating from private lands, within the preceding 24-month period, shall not apply to a person with a historic export quota approved by the Secretary and who has been exporting unprocessed private timber in accordance with the log export and substitution regulations of the Secretary of Agriculture at 36 CFR part 223, subpart D, in effect before August 20, 1990, if:

(1) That person certified in writing to the Regional Forester of the Region administering the historic export quota, on or before November 20, 1990, that the person would cease exporting unprocessed timber originating from private lands on or before February 20, 1991, and

(2) The exporting ceased in accordance with such certification.

(d) Application for historic export quota exemption. To obtain an exemption from the prohibition against export of unprocessed timber originating from private or Federal lands within the area(s) involved in the certification, for a period of three (3) years beginning November 20, 1990, and to make such records available for inspection upon the request of the Regional Forester, or other official to whom such authority has been delegated.

(2) A signed certification which reads as follows:

"I have purchased, under an historic export quota approved by the Secretary of Agriculture, unprocessed timber originating from Federal lands located west of the 100th meridian in the contiguous 48 States during the preceding 24 months in direct substitution for exported unprocessed timber originating from private lands. I desire to purchase directly from a Department or agency of the United States, unprocessed timber originating from Federal lands located in such area of the United States. I make this certification for the exemption from the prohibition against export of unprocessed timber originating from private lands within the area(s) involved in the certification, for a period of three (3) years beginning November 20, 1990, and to make such records available for inspection upon the request of the Regional Forester, or other official to whom such authority has been delegated."

36 CFR Ch. II (7–1–01 Edition)
Forest Service, USDA

§ 223.189

620, et seq.) (Act). I hereby certify that I will cease all exporting of such unprocessed private timber from lands west of the 100th meridian in the 48 contiguous States of the United States by February 20, 1991. I make this certification with full knowledge and understanding of the requirements of this Act and do fully understand that failure to cease such exporting as certified will be a violation of this Act (16 U.S.C. 620d) and the False Statements Act (18 U.S.C. 1001), and may subject me to the penalties and remedies provided from such violation."

(3) The certification must have been signed by the person making such certification or, in the case of a corporation, by its Chief Executive Officer.

(e) Indirect substitution prohibition. No person may purchase from any other person unprocessed timber originating from Federal lands west of the 100th meridian in the contiguous 48 States if such person would be prohibited by paragraph (a) of this section from purchasing such timber directly from a Department or agency of the United States, pursuant to § 490(b) of the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.). The prohibition in this paragraph does not apply to the following:

(1) To the acquisition of western red cedar, which is domestically processed into finished products.

(2) To a person who acquires unprocessed timber originating from Federal lands within an approved sourcing area, does not export unprocessed timber originating from private lands within the approved sourcing area while the approval is in effect, and, if applicable, receives a waiver of the prohibition against export within the preceding 24-month period for purchasing Federal timber described in paragraph (f) of this section, a person must have submitted a request for waiver, in writing, to the Regional Forester of the region in which the manufacturing facility being sourced is located, which must have been received by the Regional Forester on or before November 20, 1990. The request for waiver must be notarized and, in the case of a corporation, with its corporate seal affixed.
§ 223.190 Sourcing area application procedures.

(a) Subject to the restrictions described in §223.189 of this subpart and, except as provided in paragraph (b) of this section, a person who owns or operates a manufacturing facility and who exports unprocessed timber originating from private lands may apply for a sourcing area in accordance with the procedures of this section. However, an owner/operator of a manufacturing facility who exports unprocessed timber originating from Federal lands may not possess or acquire unprocessed timber originating from Federal lands unless the acquisition is within an approved sourcing area. A person who intends to acquire or become affiliated with a manufacturing facility that processes Federal timber and who is an exporter may apply for a sourcing area. Written proof of the intent to acquire or affiliate must be included in the sourcing area application, signed by the applicant and the person or, in the case of a corporation, the Chief Executive Officer, whose company the applicant intends to acquire or affiliate with. This certification must be on letterhead and must be notarized. A sourcing area application that the Secretary determines would be approved will be granted tentative approval pending final notification by the applicant of acquisition of or affiliation with the manufacturing facility. The tentative approval of the sourcing area will lapse unless the acquisition or affiliation occurs within 30 days of the tentative approval of the sourcing area. A sourcing area is not valid until final approval of the sourcing area.

(b) As provided in the Act, a person who has requested an exemption or waiver of the prohibition against export within the preceding 24-month period for purchasing Federal timber required by the forest Resources Conservation and Shortage Relief Act of 1990 (Pub. L. No. 101–382, August 20, 1990, 16 U.S.C. 620 et seq.) (Act). I hereby certify that I will cease all exporting of such unprocessed private timber from within the desired sourcing area by February 20, 1991, and will not resume such exporting for a period of not less than three (3) years. I make this certification with full knowledge and understanding of the requirements of this Act and do fully understand that failure to cease such exporting as certified will be a violation of Section 492 of this Act (16 U.S.C. 620d) and the False Statements Act (18 U.S.C. 1001), and may subject me to the penalties and remedies provided for such violation.

(c) Applications. Sourcing area applications shall include:

(1) A map of sufficient scale and detail to clearly show:

(i) The applicant’s desired sourcing area boundary. This boundary will include both the private and Federal lands from which the applicant intends to acquire unprocessed timber for sourcing its manufacturing facilities;

(ii) The location of the timber manufacturing facilities owned or operated by the applicant within the proposed sourcing area where the person intends to process timber originating from Federal land;

(iii) The location of private lands within and outside the desired sourcing area.

(2) A signed certification statement which reads as follows:

“[Name of applicant] has engaged in exporting of unprocessed timber originating from private land located within the sourcing area for which I am applying. I desire to purchase directly from a department or agency of the United States unprocessed timber originating from Federal lands located within the desired sourcing area. I hereby request waiver of the prohibition against export within the preceding 24-month period for purchasing Federal timber required by the Forest Resources Conservation and Shortage Relief Act of 1990 (Pub. L. No. 101–382, August 20, 1990, 16 U.S.C. 620 et seq.) (Act). I hereby certify that I will cease all exporting of such unprocessed private timber from within the desired sourcing area by February 20, 1991, and will not resume such exporting for a period of not less than three (3) years. I make this certification with full knowledge and understanding of the requirements of this Act and do fully understand that failure to cease such exporting as certified will be a violation of Section 492 of this Act (16 U.S.C. 620d) and the False Statements Act (18 U.S.C. 1001), and may subject me to the penalties and remedies provided for such violation.”
area where the person has, within the 24 months immediately preceding the date of the application, acquired unprocessed timber originating from private land which was exported, sold, traded, exchanged, or otherwise conveyed to another person for the purpose of exporting such timber;

(2) A list of other persons with timber manufacturing facilities located within the same general vicinity as the applicant’s facilities;

(3) Any other information the applicant may believe is appropriate to support approval of the requested sourcing area; and

(4) A statement signed by the person certifying under the penalties provided in Section 482 of this Act (16 U.S.C. 620d) and the False Statements Act (18 U.S.C. 1001) that the information provided in support of the application is true, complete, and accurate to the best of the applicant’s knowledge. The statement shall read as follows:

“I certify under penalties of 16 U.S.C. 620d and 18 U.S.C. 1001, that the information provided in support of this application, is true, complete, and accurate to the best of my knowledge concerning my timber purchasing and export patterns. I certify that the information provided concerning my timber purchasing and export patterns fully and accurately reflects, to the best of my knowledge, the boundaries of the sourcing area for which I am applying. I make this certification with full knowledge and understanding of the export and substitution restrictions of the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.) (Act) and its implementing regulations. I certify that I have not exported unprocessed timber originating from private lands within the boundaries of the sourcing area that is the subject of this application in the previous 24 months. I fully understand that, if this application is approved, exporting unprocessed private timber originating from within the approved sourcing area will be a violation of this Act (16 U.S.C. 620, et seq.) its implementing regulations, and the False Statements Act (18 U.S.C. 1001), and may subject me to the penalties and remedies provided for such violation.”

(d) Confidential information. Applications are not considered confidential. However, if a person does submit confidential information as part of an application, the information should be marked confidential. Information so marked will be afforded the rights and protection provided under the Freedom of Information Act.

(e) Where to submit the application. A sourcing area applicant shall send the application to the Office of Administrative Law Judges and shall, simultaneously, send a copy of the sourcing area application to the Forest Service Regional Forester of the region in which the manufacturing facility being sourced is located. Where the sourcing area application will cover purchases from more than one agency, application is to be made to the agency from which the applicant expects to purchase the preponderance of its Federal timber. The sourcing area applicant must also send a complete copy of the application to each agency concerned. The lead agency shall make the decision in consultation with, and upon co-signature of, the other agencies concerned.

(f) Signatory procedures. Sourcing area applications must be signed by the person making the request, or in the case of a corporation, by its Chief Executive Officer, and must be notarized. The application shall be on company letterhead.

(g) The sourcing area application and review process will be conducted pursuant to the Rules of Practice Governing the Adjudication of Sourcing Area Applications and Formal Review of Sourcing Areas Pursuant to the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.), found at 7 CFR part 1, subpart M.

(h) A final decision on a sourcing area application or a formal sourcing area review will be issued within four (4) months of the receipt of the application or initiation of the review.

(i) The following criteria must be met for sourcing area approval:

(1) The Administrative Law Judge, or, on appeal, the Judicial Officer must find that the proposed sourcing area is geographically and economically separate from any area that the applicant harvests or expects to harvest for export any unprocessed timber originating from private lands. In making such a finding, the Administrative Law Judge, or, on appeal, the Judicial Officer shall consider the timber purchasing patterns of the applicant on private and Federal lands equally with
§ 223.191  Sourcing area disapproval and review procedures.

(a) Notwithstanding any other provision of law, an applicant whose
sourcing area application was submitted by December 20, 1990, and was disapproved could either phase out of purchasing Federal timber or phase out of exporting unprocessed timber originating from private lands within the sourcing area that would have been approved, as follows:

(1) Phase-out of Federal timber purchasing. The applicant could purchase, in the 9-month period after receiving the application disapproval, unprocessed timber originating from Federal lands in the disapproved sourcing area, in an amount not to exceed 75 percent of the annual average of such person’s purchases of unprocessed Federal timber in such area during the 5 full fiscal years immediately prior to the date of submission of the application. In the 6-month period immediately following the 9-month period, such person could purchase not more than 25 percent of such annual average, after which time the prohibitions against direct substitution, set forth in paragraph (a)(2) of this section, shall apply; or

(2) Phase-out of private timber exporting. The applicant could continue to purchase unprocessed timber originating from Federal lands in the disapproved sourcing area without being subject to the phase-out of Federal timber purchasing procedures described in paragraph (a) of this section, if the following requirements were met:

(i) The applicant certified to the Regional Forester or the approving official to whom such authority has been delegated, within 90 days after receiving the disapproval decision, as follows:

(A) An applicant that has exported unprocessed timber originating from private lands from the geographic area that the Secretary would have approved provided a signed certification that reads as follows:

“I have engaged in the exporting of unprocessed private timber originating from private lands located within the geographic area that would have been approved by [the applicant shall insert date 10 months from date of receipt of the disapproval decision]. I agree to retain records of all transactions involving acquisition and disposition of unprocessed timber from both private and Federal lands within the area involved in the certification, for a period of three (3) years beginning on the date of receipt of the disapproval notification, and to make such records available for inspection upon the request of the Regional Forester, or other official to whom such authority has been delegated. I make this certification with full knowledge and understanding of the requirements of the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.) (Act) and do fully understand that failure to cease such exporting as certified will be a violation of the Act and may subject me to the penalties and remedies for such violation. Further, I fully understand that such violation may subject me to the penalty of perjury pursuant to the False Statements Act (18 U.S.C. 1001). I certify that the information in this certificate is true, complete, and accurate to the best of my knowledge and belief.”;

or,

(B) An applicant who has not exported unprocessed timber originating from private lands from the geographic area that the Secretary would have approved provided a signed certification that reads as follows:

“I have not exported timber originating from private lands within both the sourcing area that the Secretary would have approved and the disapproved sourcing area in the past 24 months, pursuant to the Forest Resources Conservation and Shortage Relief Act of 1990 (16 U.S.C. 620, et seq.), and I am accepting the area that the Secretary would have approved as my sourcing area. I certify that the information in this certificate is true, complete, and accurate to the best of my knowledge and belief.”;

(ii) Each certification statement set forth in paragraph (a)(2)(i) of this section must have been signed by the person making such certification or, in the case of a corporation, by its Chief Executive Officer; must have been on company letterhead; must have been notarized; and must have had a corporate seal attached.

(iii) The person signing such certification set forth in paragraph (a)(2)(i)(A) of this section must have provided to the Regional Forester the annual volume of timber exported by
§223.191 that person during the five (5) full fiscal years immediately preceding submission of the application, originating from private lands in the geographic area for which the application would have been approved.

(iv) When the applicant submitted the certificate, the area the Secretary would have approved, as shown on the sourcing area map provided by the Secretary, became an approved sourcing area. If the certificate was not submitted, the sourcing area that would have been approved did not become an approved sourcing area.

(3) The phase-out of Federal timber purchasing and the phase-out of private timber exporting procedures provided by paragraphs (a)(1) and (a)(2) of this section do not apply to persons submitting sourcing area applications after December 20, 1990, or to persons requesting review of disapproved sourcing areas.

(b) Limits on purchases and exports. (1) During the 15-month period following disapproval of a sourcing area, a person who elects to phase-out of private timber exporting as described in paragraph (a)(2) of this section, may not:

(i) Purchase more than 125 percent of the person's annual average purchases of unprocessed timber originating from Federal lands within the person's disapproved sourcing area during the five (5) full fiscal years immediately prior to submission of the application; and,

(ii) Export unprocessed timber originating from private lands in the geographic area determined by the approving official for which the application would have been approved, in amounts that exceed 125 percent of the annual average of that person's exports of unprocessed timber from such private land during the five (5) full years immediately prior to submission of the application.

(2) At the conclusion of the 15-month export phase-out period, the prohibition against exporting private timber originating from within the area shall be in full force and effect as long as the sourcing area remains approved, pursuant to this subpart F of this part 223.

(c) Presentation of map to applicant whose sourcing area is disapproved. The area determined by the deciding official that would have been approved shall be drawn on a map and presented to the applicant by the deciding official with the notice of disapproval of the application.

(d) Effect of prior certification to cease exporting. An applicant's previous certification to cease exporting beginning February 20, 1991, for a period of three (3) years from within the disapproved sourcing area pursuant to paragraphs (f) and (g) in §223.189 of this subpart shall remain in full force and effect for persons with approved and disapproved sourcing areas.

(e) Review process and frequency. (1) Approved sourcing areas shall be reviewed not less often than every five (5) years. A tentative date for a review shall be included in the Administrative Law Judge's, or, on appeal, the Judicial Officer's determination or stated in writing by the Regional Forester following the determination. At least 60 days prior to the tentative review date, the Regional Forester or other such reviewing official shall notify the person holding the sourcing area of the pending review, publish notice of such review in newspapers of general circulation within the sourcing area, and invite comments, to be received no later than 30 days from the date of the notice, from all interested persons, including the person holding the sourcing area. For 10 working days following the comment period, any person submitting a written comment and the person with the sourcing area may review the comments. If there is disagreement among the persons who submitted written comments regarding the proper sourcing area, the reviewing official shall convene an informal meeting convenient to the persons that all interested persons may attend. If an agreement cannot be reached among the persons, formal administrative adjudication shall occur. The Administrative Law Judge, or, on appeal, the Judicial Officer shall, on the record and after opportunity for a hearing, approve or disapprove the sourcing area being reviewed, pursuant to the Rules of Practice Governing the Adjudication of Sourcing Area Applications and Formal Review of Sourcing Areas Pursuant to the Forest Resources Conservation and Shortage Relief Act of 1990 (16
§ 223.192 Procedures for a non-manufacturer.

(a) Persons who do not own or operate a manufacturing facility (non-manufacturer) are not eligible to apply for or be granted a sourcing area.

(b) The prohibition against the purchase of Federal timber for a person who has exported unprocessed timber originating from private lands within the preceding 24-month period shall not apply, if the person certified in writing to the Regional Forester of the region(s) in which the person purchases National Forest System timber by November 20, 1990, that the person would cease exporting unprocessed timber originating from private lands by February 20, 1991, for a period of three (3) years, and the exporting did cease in accordance with such certification.

(c) To obtain an exemption from the prohibition against export within the preceding 24-month period for purchasing Federal timber described in §223.189 (a) and (b) of this subpart, a person must have applied in writing to the applicable Regional Forester on or before November 20, 1990. The application was required to be on company letterhead and, in the case of a corporation, with its corporate seal affixed, and must have included:

(1) An agreement to retain records of all transactions involving acquisition and disposition of unprocessed timber from both private and Federal lands within the area(s) involved in the certification, for a period of three (3) years beginning November 20, 1990, and to make such records available for inspection upon the request of the Regional Forester, or other official to whom such authority has been delegated.

(2) A signed certification which reads as follows:

"I have engaged in the exporting of unprocessed timber originating from private lands located west of the 100th meridian in the contiguous 48 States during the preceding 24 months. I desire to purchase directly from a department or agency of the United States, unprocessed timber originating from Federal lands located in such area of the United States. I make this certification for the exemption from the prohibition against export within the preceding 24-month period for purchasing Federal timber required by the Forest Resources Conservation and Shortage Relief Act of 1990 (Pub. L. No. 101–382, August 20, 1990, 16 U.S.C. 620, et seq.) (Act). I hereby certify that I will cease all exporting of such unprocessed private timber from west of the 100th meridian in the contiguous 48 States of the United States by February 20, 1991. I make this certification with full knowledge and understanding of the requirements of this Act and do fully understand that failure to cease such exporting as certified will be a violation of this Act (16 U.S.C. 620d) and the False Statements Act (18 U.S.C. 1001), and may subject me to the penalties and remedies provided for such violation."

(3) The certification must have been signed by the person making such certification or, in the case of a corporation, by its Chief Executive Officer. The certificate must have been notarized.

§ 223.193 Procedures for reporting acquisition and disposition of unprocessed Federal timber.

(a) Annual report. Each person who directly or indirectly acquires or possesses unprocessed timber originating from National Forest System lands located west of the 100th meridian in the
§ 223.193  48 contiguous States shall submit an annual report on a form provided by the Forest Service on the acquisition and disposition of such timber. Such report shall be on a calendar year basis and shall be sent to the Regional Forester, or other official to whom such authority is delegated, who administers the National Forest System lands from which the majority of timber originated, not later than March 1 of each year, beginning March 1, 1997. The form shall include:

(1) A summary for the calendar year listing, by company, from whom the timber was acquired; the date of acquisition; the origin of National Forest System timber acquired; the sale name; the contract number(s); brand registration number(s) of brands registered by a state or agency or a pictorial representation of sale brand(s) if brands not registered by a state or agency; to whom the timber was sold, transferred or otherwise conveyed to another person; and the date of disposal;

(2) An accounting by origin, in net board feet Scribner or cubic feet, of the volume of National Forest System timber acquired, the volume domestically processed by the purchaser or affiliates, and the volume sold or transferred for domestic processing;

(3) The volume by species of National Forest System surplus species timber acquired and exported or sold for export;

(4) The volume (MBF Net Scribner or cubic) of the unprocessed timber originating from private lands west of the 100th meridian in the contiguous 48 States that was exported, and

(5) A certificate stating that:

(1) The certifier has read and understands the form;

(2) The certifier is eligible to acquire unprocessed timber originating from Federal lands in accordance with the Act;

(3) The information supplied is a true, accurate, current, and complete statement of the receipt and disposition of unprocessed timber originating from National Forest System lands to the best of the certifier’s knowledge;

(4) The certifier agrees to retain a copy of the form and records of all transactions involving unprocessed Federal timber and to make such records available for inspection upon request of an authorized official of the United States for three (3) years from the date of disposal by manufacture or transfer; and

(v) The certifier acknowledges that failure to report completely and accurately the receipt and disposition of timber will subject the certifier to the penalties and remedies in the Act and the penalties in the False Statements Act (18 U.S.C. 1001).

(6) The information provided is presumed to be not confidential, unless specifically marked confidential, in which case confidentiality will be evaluated under applicable laws.

(b) Transfer of unprocessed National Forest System timber. Each person who transfers to another person unprocessed timber originating from National Forest System lands shall undertake the following:

(1) Before completing such transfer, provide to such other person a written notice of origin, species, estimated volume or actual volume if the transfer is based on log scale volume, from whom acquired, sale name, contract number, and log brand of unprocessed National Forest System timber being transferred on a form provided by the Forest Service;

(2) Before completing such transfer, certify that the information supplied is a true, accurate, current, and complete statement to the best of his or her knowledge. As part of the certification, the certifier shall:

(i) Agree to send a signed copy of the form required in paragraph (b)(1) of this section within 10 calendar days of such transfer, which shall include all notices, acknowledgments, and agreements, required by this section, to the appropriate Regional Forester who administers the National Forest System lands from which this timber originates, or other official to whom such authority is delegated, and to retain a copy for the certifier’s records;

(ii) Acknowledge that the transfer of unprocessed Federal timber to a person for export or to a person who may not purchase timber directly from the Federal government is a violation of the Act;

VerDate 11<MAY>2000 08:18 Jul 17, 2001 Jkt 194131 PO 00000 Frm 00136 Fmt 8010 Sfmt 8010 Y:\SGML\194131T.XXX pfrm09 PsN: 194131T
(iii) Agree to obtain full completed notice of origin form from the transferee;

(iv) Agree to retain records of all transactions involving unprocessed Federal timber for a period of three (3) years from the date of transfer and to make all records involving log transactions available to an appropriate Federal official upon request. Records include all forms and certificates required by these regulations;

(v) Acknowledge that failure to report completely and accurately the receipt and disposition and/or transfer of unprocessed National Forest System timber will subject the certifier to the penalties and remedies in the Act (16 U.S.C. 620, et seq.) and the penalties in the False Statements Act (18 U.S.C. 1001); and

(vi) Certify that he or she has read and understands the form.

(3) Before completing such transfer, obtain from the person acquiring such timber on the same form provided by the Forest Service.

(i) An agreement to retain for a period of three (3) years from date of transfer the records of all sales, exchanges, or other disposition of such timber, and make such records available for inspection upon the request of an authorized official of the United States;

(ii) An agreement to allow Federal officials access to log storage and processing facilities for the purpose of monitoring compliance with the Act and implementing regulations;

(iii) An agreement to maintain and/or replace all brands and paint identifying the Federal origin of each piece of unprocessed Federal timber as described in §223.195;

(iv) An agreement to submit, by March 1, the annual report required in §223.193(a);

(v) An agreement to submit a completed notice of origin form for the Federal timber received and to receive an agreement to comply with the Act and regulations in such form if the person transfers any or all of the timber listed in the document;

(vi) An acknowledgment of the prohibition against acquiring unprocessed Federal timber from a person who is prohibited by the Act from purchasing the timber directly from the United States;

(vii) An acknowledgment of the prohibitions against exporting unprocessed Federal timber and against acquiring such timber in substitution for unprocessed private timber west of the 100th meridian in the contiguous 48 States;

(viii) A declaration of its business size and manufacturing classification, as defined under the Small Business Administration Regulations at 13 CFR part 121; and

(ix) A certificate stating that the certifier has read and understands the form; is eligible to acquire unprocessed timber originating from Federal lands in accordance with the Act; has been notified that some or all of the unprocessed timber included in this transfer is subject to export and substitution restrictions; supplied information is a true, accurate, current, and complete statement of the receipt and disposition of the unprocessed timber originating from National Forest System lands to the best of the certifier's knowledge; and acknowledges that failure to report completely and accurately the transfer of unprocessed Federal timber will subject the certifier to the penalties and remedies in the Act (16 U.S.C. 620, et seq.) and the penalties in the False Statements Act (18 U.S.C. 1001). The information provided is presumed to be not confidential, unless specifically marked confidential, in which case confidentiality will be evaluated under applicable laws.

(4) Except as otherwise provided by law, a person who transfers unprocessed Federal timber to another person and meets all notice, certification, acknowledgment, reporting and record keeping requirements contained in this section shall be relieved from further liability for such timber pursuant to the Act.

§223.194 Procedures for reporting the acquisition and disposition of unprocessed private timber.

(a) Notice of domestic processing requirement. Each person who acquires unprocessed timber originating from Federal lands located west of the 100th meridian in the 48 contiguous States,
§ 223.194 and who also possesses or acquires unprocessed timber from private lands located west of the 100th meridian in the 48 contiguous States that requires domestic processing, including unprocessed timber originating within an approved sourcing area, and in turn sells, trades or otherwise conveys such unprocessed private timber to another person, must include a statement notifying the person acquiring the unprocessed private timber that such private timber must be domestically processed. Unprocessed timber originating from private lands located outside of a sourcing area may be transferred by the holder of the sourcing area, or by persons acquiring such unprocessed timber who are eligible to export such timber, without including such a statement.

(b) The notification statement, pursuant to paragraph (a) of this section, shall accompany each transaction involving unprocessed private timber that requires domestic processing. The statement shall be on a form provided by the Forest Service or a legible copy of such form.

(1) On such form, described in paragraph (b) of this section, the person transferring the timber shall:

(i) Give notice to the person receiving the unprocessed private timber that exporting that timber would violate the Act and its implementing regulations;

(ii) Give notice to the person receiving the unprocessed private timber that the timber has been identified for domestic manufacturing by a spot of highway yellow paint on each log end that must be retained on the timber;

(iii) Agree to send a signed copy of the transaction statement to the Regional Forester within 10 calendar days of the transaction;

(iv) Agree to retain records of all transactions involving the acquisition and disposition of unprocessed timber for a period of three (3) years from the date of disposal by manufacturing or transfer and to make such records available for inspection upon the request of an authorized official of the United States;

(v) Agree to send a signed copy of the transaction statement to the Regional Forester within 10 calendar days of the transaction;

(vi) Agree to allow authorized officials access to log storage and processing facilities for the purpose of monitoring compliance with the Act and its implementing regulations;

(vii) Acknowledge that failure to comply with the domestic manufacturing requirements for unprocessed timber or failure to notify subsequent persons of this requirement may subject the certifier to the civil penalties and administrative remedies provided in the Act and regulations issued under the Act;

(viii) Acknowledge that failure to completely and accurately report and identify unprocessed timber is a violation of the Act, and regulations issued under the Act, and the False Statements Act (18 U.S.C. 1001); and

(ix) Certify that the form has been read and understood.

(2) On such form, described in paragraph (b), the person acquiring the timber shall:

(i) Acknowledge receipt of the notice of requirement to domestically process timber originating from private land;

(ii) Certify that a statement pursuant to paragraph (b)(1) will be included in any subsequent transaction documents;

(iii) Agree to maintain yellow paint markings on each log end until the timber is domestically processed or transferred;

(iv) Agree to retain records of all transactions involving the acquisition and disposition of unprocessed timber for a period of three (3) years from the date of disposal by manufacturing or transfer and to make such records available for inspection upon the request of an authorized official of the United States;

(v) Agree to send a signed copy of the transaction statement to the Regional Forester within 10 calendar days of the transaction;

(vi) Agree to allow authorized officials access to log storage and processing facilities for the purpose of monitoring compliance with the Act and its implementing regulations;

(vii) Acknowledge that failure to comply with the domestic manufacturing requirements for unprocessed timber or failure to notify subsequent persons of this requirement may subject the certifier to the civil penalties and administrative remedies provided in the Act and regulations issued under the Act;

(viii) Acknowledge that failure to completely and accurately report and identify unprocessed timber is a violation of the Act, and regulations issued under the Act, and the False Statements Act (18 U.S.C. 1001); and

(ix) Certify that the form has been read and understood.

(c) Except as otherwise provided by law, a person who transfers unprocessed private timber to another person and meets all notice, certification, acknowledgement, distribution, reporting
§ 223.195 Procedures for identifying and marking unprocessed timber.

(a) Highway yellow paint. The use of highway yellow paint on unprocessed logs west of the 100th meridian in the contiguous 48 States shall be reserved for identifying logs requiring domestic manufacturing.

(b) Preserving identification. All identifying marks placed on an unprocessed log to identify the National Forest System origin of that log and/or to identify the log as requiring domestic processing shall be retained on the log until the log is domestically processed. If the identifying marks are lost, removed, or become unreadable, they shall be replaced. If the log is cut into two or more segments, each segment shall be identified in the same manner as the original log.

(1) A generic log hammer brand, known as a “catch brand”, used to identify ownership, may be used to replace lost, removed, unreadable or otherwise missing brands where such use is authorized by the Regional Forester and approved by the Contracting Officer. Use of such a catch brand on a log or log segment will signify Federal origin.

(2) The requirement to preserve identification of log pieces shall not apply to logs cut into two or more segments as a part of the mill in-feed process immediately before processing. Log segments that are returned to or placed in storage must be marked on both ends with yellow paint.

(c) National Forest System logs. Except as otherwise provided in this subsection, all unprocessed logs originating from National Forest System timber sales west of the 100th meridian in the contiguous 48 States shall, before being removed from the timber sale area, be marked on each end as follows:

(1) Painted on each end with a spot of highway yellow paint not less than three square inches in size; and,

(2) Branded on each end with a hammer brand approved for use by the Forest Supervisor of the National Forest from which the logs originate. The brand pattern may not be used to mark logs from any other source for a period of 24 months after all logs have been removed from the sale area and until such brand pattern is released in writing by the Forest Supervisor.

(d) Private logs. All unprocessed logs originating from private lands west of the 100th meridian in the contiguous 48 States that require domestic manufacturing pursuant to §223.194 of this subpart, shall be painted on each end with a spot of highway yellow paint not less than three (3) square inches in size before removal from the harvest area. If private logs are acquired by a person who may not export such logs, the logs must be marked by the person acquiring the logs at the time of the acquisition.

(e) Waiver of painting requirements. The log painting requirements pursuant to paragraphs (c)(1) and (d) of this section may be waived if the Chief of the Forest Service determines that alternate methods for identifying logs required to be domestically processed are equal to or better than the procedures required herein.

(f) Waiver of branding requirements. Regional Foresters may waive the branding requirements pursuant to paragraph (c)(2) of this section as follows:

(1) Regions 1, 2, 3, and 4. On an individual timber sale basis, all or a portion of the branding requirements pursuant to paragraph (c)(2) of this section may be waived, if:

(i) Unprocessed logs from any origin are not known to have been exported by any person from the person’s area of operations within the previous 5 years.

(ii) The person certifies as follows:

“I hereby request waiver of the requirements to brand each end of individual logs originating from the _______ timber sale, Forest Service contract number _______ pursuant to 36 CFR 223.196. I certify that I have not exported or sold for export unprocessed timber from private lands within my area of operations five years. I certify that I understand, that if granted, the waiver applies only to unprocessed logs being processed within my area of operations. I certify that any unprocessed logs to which this waiver applies that are transferred, or sold for transfer, outside my area of operations will

139
§ 223.196 Civil penalties for violation

(a) Exporting Federal timber. If the Secretary of Agriculture finds, on the record and after providing an opportunity for a hearing, that a person, with willful disregard for the prohibition in the Act exporting unprocessed Federal timber, exported or caused to be exported unprocessed timber originating from Federal lands in violation of the Act, the Secretary may assess against such person a civil penalty of not more than $500,000 for each violation, or 3 times the gross value of the unprocessed timber involved in the violation, whichever amount is greater.

(b) Other violations. If the Secretary of Agriculture finds, on the record and after providing an opportunity for a hearing, that a person has violated any provision of the Act, or any regulation issued under the Act relating to National Forest System lands, even though that the violation may not have caused the export of unprocessed Federal timber in violation of such Act, the Secretary may:

(1) Assess against such person a civil penalty of not more than $500,000, if the Secretary determines that the person committed such violation willfully;

(2) Assess against such person a civil penalty of not more than $75,000 for each violation, if the Secretary determines that the person committed such violation in disregard of such provision or regulation; or

(3) Assess against such person a civil penalty of not more than $50,000 for each violation, if the Secretary determines that the person should have

(iii) The purchaser otherwise complies with the regulations relating to transfers of logs between persons.

(iv) If the Regional Forester determines that logs ten (10) inches or less in diameter inside bark on the large end are being exported in the Region, the Regional Forester shall revoke the waiver.

(3) The Chief of the Forest Service may authorize the testing of alternative methods of branding for consideration in future amendment of these regulations. Such alternative methods and logs marked under those methods shall be closely monitored.

§ 223.196 Civil penalties for violation

(a) Exporting Federal timber. If the Secretary of Agriculture finds, on the record and after providing an opportunity for a hearing, that a person, with willful disregard for the prohibition in the Act exporting unprocessed Federal timber, exported or caused to be exported unprocessed timber originating from Federal lands in violation of the Act, the Secretary may assess against such person a civil penalty of not more than $500,000 for each violation, or 3 times the gross value of the unprocessed timber involved in the violation, whichever amount is greater.

(b) Other violations. If the Secretary of Agriculture finds, on the record and after providing an opportunity for a hearing, that a person has violated any provision of the Act, or any regulation issued under the Act relating to National Forest System lands, even though that the violation may not have caused the export of unprocessed Federal timber in violation of such Act, the Secretary may:

(1) Assess against such person a civil penalty of not more than $500,000, if the Secretary determines that the person committed such violation willfully;

(2) Assess against such person a civil penalty of not more than $75,000 for each violation, if the Secretary determines that the person committed such violation in disregard of such provision or regulation; or

(3) Assess against such person a civil penalty of not more than $50,000 for each violation, if the Secretary determines that the person should have
known that the action constituted a violation.

(c) Penalties not exclusive and judicial review. A penalty assessed under paragraph (a) or (b) of this section shall not be exclusive of any other penalty provided by law, and shall be subject to review in an appropriate United States district court.

§ 223.197 Civil penalty assessment procedures.

Adjudicatory procedures for hearing alleged violations of this Act and its implementing regulations and assessing penalties shall be conducted under the rules of practice governing formal adjudicatory proceedings instituted by the Secretary. Such procedures are found at 7 CFR 1.130, et seq.

§ 223.198 Administrative remedies.

In addition to possible debarment action provided under subpart C of this part, the Chief of the Forest Service, or other official to whom such authority is delegated, may cancel any timber sale contract entered into with a person found to have violated the Act or regulations issued under the Act. Such a finding shall constitute a serious violation of contract terms pursuant to § 223.116(a)(1) of this part.

§ 223.199 Procedures for cooperating with other agencies.

The Regional Foresters may enter into agreements to cooperate with the Department of the Interior, the Department of Defense, and other Federal, State and local agencies for monitoring, surveillance and enforcing the Act.

§ 223.200 Determinations of surplus species.

(a) Determinations that specific quantities of grades and species are surplus to domestic manufacturing needs and withdrawals of such determinations shall be made in accordance with title 5, United States Code, section 553.

(b) Review of a determination shall be made at least once in every 3-year period. Notice of such review shall be published in the Federal Register. The public shall have no less than 30 days to submit comments on the review.

(c) Alaska yellow cedar and Port Orford cedar, which the Secretary of Agriculture found to be surplus to domestic processing needs pursuant to 36 CFR 223.163, the rules in effect before August 20, 1990, shall continue in that status until new determinations are published.

§ 223.201 Limitations on unprocessed timber harvested in Alaska.

Unprocessed timber from National Forest System lands in Alaska may not be exported from the United States or shipped to other States without prior approval of the Regional Forester. This requirement is necessary to ensure the development and continued existence of adequate wood processing capacity in Alaska for the sustained utilization of timber from the National Forests which are geographically isolated from other processing facilities. In determining whether consent will be given for the export of timber, consideration will be given to, among other things, whether such export will:

(a) Permit more complete utilization on areas being logged primarily for local manufacture,

(b) Prevent loss or serious deterioration of logs unsalable locally because of an unforeseen loss of market,

(c) Permit the salvage of timber damaged by wind, insects, fire or other catastrophe.

(d) Bring into use a minor species of little importance to local industrial development, or

(e) Provide material required to meet urgent and unusual needs of the Nation. (16 U.S.C. 472a; 16 U.S.C. 551; 16 U.S.C. 616)

§ 223.202 Information requirements.

(a) The procedures in §§223.189 and 223.192, and some of the procedures in §223.190 were approved by the Office of Management and Budget (OMB) and assigned Control Number 0596-0114 upon issuance of the interim rule. Control Number 0596-0114 has been reapproved by OMB for use through May 31, 1997. OMB approved the information collection requirements in §§223.191 and 223.203 for use through August 31, 1993, and assigned them Control Number
§ 223.203 Indirect substitution exception for National Forest System timber from within Washington State.

(a) Exception limits. A limited amount of unprocessed National Forest System timber originating from within Washington State could have been acquired by a person otherwise covered by the prohibition against indirect substitution, pursuant to §490(b) of the Act and §223.189(e) of this subpart.

(1) The amount of such unprocessed timber was limited to whichever is less:

(i) The higher of the applicant’s actual purchase receipts for unprocessed timber originating from National Forest System lands within Washington State or the Department’s records, during fiscal years 1988, 1989, and 1990, divided by 3; or

(ii) 15 million board feet.

(2) Such limit shall not exceed such person’s proportionate share of 50 million board feet.

(b) Application, review and approval process. To obtain a share of the 50 million board feet exempted from the prohibition against indirect substitution in section 490(b) of the Act, a person must have submitted an application. Applications were required to include at least the following:

(1) The amount of volume exception being requested, in thousand board feet (MBF);

(2) A signed certification that reads as follows:

“I certify that, except for an approved share of unprocessed Federal timber, in accordance with 36 CFR 223.203, the prohibition contained in section 490(b) of the Act (16 U.S.C. 620b) applies to me. I have exported unprocessed timber originating from private lands from west of the 100th meridian in the 48 contiguous States and have acquired unprocessed timber from National Forest System lands located within Washington State in 1988, 1989 and/or 1990. I certify that the information provided in support of this application is a true, accurate, current and complete statement, to the best of my knowledge and belief. I agree to retain records of all transactions involving the acquisition and disposition of unprocessed timber from Federal lands within the area involved in this application for a period of 3 years beginning on the date the application is approved, and to make such records available for inspection upon the request of the Regional Forester or other official to whom such authority has been delegated. I make this certification with full knowledge and understanding of the requirements of the Act and do fully understand that if this application is approved, the amount of exception granted under this approval may not be exceeded in any one fiscal year, and do fully understand that if such exception is exceeded I will be in violation of the Act (18 U.S.C. 620, et seq.), and I may be subject to the penalties and remedies provided for such violation. Further, I do fully understand that such violation may subject me to the penalty of perjury pursuant to the False Statements Act (18 U.S.C. 1001).”;

and

(3) The application listed under this section must have been signed by the person making such application or, in the case of a corporation, by its Chief Executive Officer. The application must have been on the company’s letterhead and must have been notarized.

(4) The application made under this section must have been mailed to the Regional Forester in Portland, Oregon, no later than January 8, 1992. Applicants were notified of the approving official’s decision by letter. If approved, the amount of the exception becomes effective upon publication in the Federal Register.

(5) Prospective applicants could review Department records upon request.
prior to the deadline for submitting applications. An applicant could voluntarily submit information documenting the amount of purchases of unprocessed timber originating from National Forest System lands within Washington State. The Department then determined which amount is higher, verified by either the Department’s records or the applicant’s records. The Department then determined the applicant’s portion of the 50 million board feet by determining the lesser of the amount verified by the records or 15 million board feet. Applicants could submit the information documenting the amount of purchases in the following manner:

(i) Actual receipts for purchasing unprocessed timber from National Forest System lands within Washington State; or

(ii) A statement by a certified public accountant of:

(A) A summary by fiscal year for 1988, 1989 and 1990 of the applicant’s acquisitions of timber originating from National Forest System lands in the State of Washington, listing total volume for each of the three fiscal years; and

(B) The average volume for the three fiscal years. The volumes to be reported were the harvest volumes, except in the case of open sales. Advertised volumes had to be reported for open sales.

(C) The certified public accountant must have certified to the following:

“I certify that under the penalties and remedies provided in §492 of the Act (16 U.S.C. 620d) and the penalty of perjury provided in the False Statements Act (18 U.S.C. 1001) that the information provided in support of this application is, to the best of my knowledge and belief, a true, accurate, current, and complete statement of [applicant’s company’s name] National Forest System timber acquisitions originating from within the State of Washington for fiscal years 1988, 1989 and 1990.”

(D) The certified public accountant’s statement and certification must have been on the accountant’s company letterhead, must have been notarized, and must have accompanied the applicant’s application.

(c) Selling and trading rights. The purchase limit right obtained under this rule may be sold, traded, or otherwise exchanged with any other person subject to the following conditions:

(1) Such rights may not be sold, traded, or otherwise exchanged to persons already in possession of such rights:

(2) Any person selling, trading, or exchanging any or all of the rights obtained under this rule shall advise the Regional Forester of the amount being traded and the name(s) of the person(s) acquiring such rights within 15 days of the transaction; and

(3) No person may have or acquire more than 15 million board feet in one fiscal year.

(d) Information collection. The application procedures in this section constitute information collection requirements as defined in 5 CFR part 1320. These requirements have been approved by the Office of Management and Budget and assigned clearance number 0596–0114.

(e) Persons with approved shares. The application period for shares of the indirect substitution exception for acquiring unprocessed timber originating from National Forest Systems lands within the State of Washington closed on January 8, 1992. Persons with approved shares are responsible for monitoring and controlling their acquisitions of National Forest System timber originating from within the State of Washington to assure approved share amounts are not exceeded in any Federal fiscal year. Unused portions of annual shares may not be “banked” for use in future fiscal years. The acquisition of such National Forest System timber must be reported to the Forest Service in accordance with §223.193 of this subpart. The following shares are approved as of September 8, 1995:

(1) Cavenham Forest Industries, Portland, OR, 1,048,000 board feet.

(2) Weyerhauser, Tacoma, WA, 15,000,000 board feet.
§ 228.1 Purpose.

It is the purpose of these regulations to set forth rules and procedures through which use of the surface of National Forest System lands in connection with operations authorized by the United States mining laws (30 U.S.C. 21–54), which confer a statutory right to enter upon the public lands to search for minerals, shall be conducted so as to minimize adverse environmental impacts on National Forest System surface resources. It is not the purpose of these regulations to provide...
for the management of mineral resources; the responsibility for managing such resources is in the Secretary of the Interior.

§ 228.2 Scope.

These regulations apply to operations hereafter conducted under the United States mining laws of May 10, 1872, as amended (30 U.S.C. 22 et seq.), as they affect surface resources on all National Forest System lands under the jurisdiction of the Secretary of Agriculture to which such laws are applicable. Provided, however, That any area of National Forest lands covered by a special Act of Congress (16 U.S.C. 482a–482q) is subject to the provisions of this part and the provisions of the special act, and in the case of conflict the provisions of the special act shall apply.

§ 228.3 Definitions.

For the purposes of this part the following terms, respectively, shall mean:

(a) Operations. All functions, work, and activities in connection with prospecting, exploration, development, mining or processing of mineral resources and all uses reasonably incident thereto, including roads and other means of access on lands subject to the regulations in this part, regardless of whether said operations take place on or off mining claims.

(b) Operator. A person conducting or proposing to conduct operations.

(c) Person. Any individual, partnership, corporation, association, or other legal entity.

(d) Mining claim. Any unpatented mining claim or unpatented millsite authorized by the United States mining laws of May 10, 1872, as amended (30 U.S.C. 22 et seq.).

(e) Authorized officer. The Forest Service officer to whom authority to review and approve operating plans has been delegated.

§ 228.4 Plan of operations—notice of intent—requirements.

(a) Except as provided in paragraph (a)(2) of this section, a notice of intention to operate is required from any person proposing to conduct operations which might cause disturbance of surface resources. Such notice of intention shall be submitted to the District Ranger having jurisdiction over the area in which the operations will be conducted. If the District Ranger determines that such operations will likely cause significant disturbance of surface resources, the operator shall submit a proposed plan of operations to the District Ranger.

(1) The requirements to submit a plan of operations shall not apply:

(i) To operations which will be limited to the use of vehicles on existing public roads or roads used and maintained for National Forest purposes,

(ii) To individuals desiring to search for and occasionally remove small mineral samples or specimens,

(iii) To prospecting and sampling which will not cause significant surface resource disturbance and will not involve removal of more than a reasonable amount of mineral deposit for analysis and study,

(iv) To marking and monumenting a mining claim and

(v) To subsurface operations which will not cause significant surface resource disturbance.

(2) A notice of intent need not be filed:

(i) Where a plan of operations is submitted for approval in lieu thereof,

(ii) For operations excepted in paragraph (a)(1) of this section from the requirement to file a plan of operations,

(iii) For operations which will not involve the use of mechanized earthmoving equipment such as bulldozers or backhoes and will not involve the cutting of trees. Each notice of intent to operate shall provide information sufficient to identify the area involved, the nature of the proposed operations, the route of access to the area of operations and the method of transport. If a notice of intent is filed, the District Ranger will, within 15 days of receipt thereof, notify the operator whether a plan of operations is required.

(b) Any person conducting operations on the effective date of these regulations, who would have been required to submit a plan of operations under §228.4(a), may continue operations but shall within 120 days thereafter submit a plan of operations to the District Ranger having jurisdiction over the area within which operations are being conducted.
conducted: Provided, however. That
upon a showing of good cause the au-
thorized officer will grant an extension
of time for submission of a plan of op-
erations, not to exceed an additional 6
months. Operations may continue ac-
cording to the submitted plan during
its review, unless the authorized officer
determines that the operations are un-
necessarily or unreasonably causing ir-
reparable damage to surface resources
and advises the operator of those meas-
ures needed to avoid such damage. Upon
approval of a plan of operations, opera-
tions shall be conducted in ac-
cordance with the approved plan. The
requirement to submit a plan of opera-
tions shall not apply: (1) To opera-
tions excepted in §228.4(a) or (2) to op-
erations concluded prior to the effec-
tive date of the regulations in this
part.

(c) The plan of operations shall in-
clude:

(1) The name and legal mailing ad-
dress of the operators (and claimants if
they are not the operators) and their
lessees, assigns, or designees.

(2) A map or sketch showing informa-
tion sufficient to locate the proposed
area of operations on the ground, exist-
ing and/or proposed roads or access
routes to be used in connection with
the operations as set forth in §228.12
and the approximate location and size
of areas where surface resources will be
disturbed.

(3) Information sufficient to descrie
or identify the type of operations pro-
posed and how they would be con-
ducted, the type and standard of exist-
ing and proposed roads or access
routes, the means of transportation
used or to be used as set forth in §228.12, the period during which the
proposed activity will take place, and
measures to be taken to meet the re-
quirements for environmental protec-
tion in §228.8.

(d) The plan of operations shall cover
the requirements set forth in para-
graph (c) of this section, as foreseen for
the entire operation for the full esti-
mated period of activity: Provided,
however. That if the development of a
plan for an entire operation is not pos-
sible at the time of preparation of a
plan, the operator shall file an initial
plan setting forth his proposed oper-
ation to the degree reasonably foresee-
able at that time, and shall thereafter
file a supplemental plan or plans when-
ever it is proposed to undertake any
significant surface disturbance not cov-
ered by the initial plan.

(e) At any time during operations
under an approved plan of operations,
the authorized officer may ask the op-
erator to furnish a proposed modific-
ation of the plan detailing the means of
minimizing unforeseen significant dis-
turbance of surface resources. If the op-
erator does not furnish a proposed
modification within a time deemed rea-
sonable by the authorized officer, the
authorized officer may recommend to
his immediate superior that the oper-
ator be required to submit a proposed
modification of the plan. The rec-
ommendation of the authorized officer
shall be accompanied by a statement
setting forth in detail the supporting
facts and reasons for his recommenda-
tions. In acting upon such rec-
ommendation, the immediate superior
of the authorized officer shall deter-
mine:

(1) Whether all reasonable measures
were taken by the authorized officer to
predict the environmental impacts of
the proposed operations prior to ap-
proving the operating plan,

(2) Whether the disturbance is or
probably will become of such signifi-
cance as to require modification of the
operating plan in order to meet the re-
quirements for environmental protec-
tion specified in §228.8 and

(3) Whether the disturbance can be
minimized using reasonable means.
Lacking such determination that un-
foreseen significant disturbance of sur-
face resources is occurring or probable
and that the disturbance can be mini-
imized using reasonable means, no oper-
ator shall be required to submit a pro-
posed modification of an approved plan
of operations. Operations may continue
in accordance with the approved plan
until a modified plan is approved, un-
less the immediate superior of the au-
thorized officer determines that the op-
erations are unnecessarily or unreason-
ably causing irreparable injury, loss or
damage to surface resources and ad-
vises the operator of those measures
needed to avoid such damage.
(f) Upon completion of an environmental analysis in connection with each proposed operating plan, the authorized officer will determine whether an environmental statement is required. Not every plan of operations, supplemental plan or modification will involve the preparation of an environmental statement. Environmental impacts will vary substantially depending on whether the nature of operations is prospecting, exploration, development, or processing, and on the scope of operations (such as size of operations, construction required, length of operations and equipment required), resulting in varying degrees of disturbance to vegetative resources, soil, water, air, or wildlife. The Forest Service will prepare any environmental statements that may be required.

(g) The information required to be included in a notice of intent or a plan of operations, or supplement or modification thereto, has been assigned Office of Management and Budget Control #0596–0022. The public reporting burden for this collection of information is estimated to vary from a few minutes for an activity involving little or no surface disturbance to several months for activities involving heavy capital investments and significant surface disturbance, with an average of 2 hours per individual response. This includes time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Chief (2800), Forest Service, USDA, P.O. Box 96090, Washington, DC 20090–6090 and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

§ 228.5 Plan of operations—approval.

(a) Operations shall be conducted in accordance with an approved plan of operations, except as provided in paragraph (b) of this section and in § 228.4 (a), (b), and (e). A proposed plan of operation shall be submitted to the District Ranger, who shall promptly acknowledge receipt thereof to the operator. The authorized officer shall, within thirty (30) days of such receipt, analyze the proposal, considering the economics of the operation along with the other factors in determining the reasonableness of the requirements for surface resource protection, and:

(1) Notify the operator that he has approved the plan of operations; or

(2) Notify the operator that the proposed operations are such as not to require an operating plan; or

(3) Notify the operator of any changes in, or additions to, the plan of operations deemed necessary to meet the purpose of the regulations in this part; or

(4) Notify the operator that the plan is being reviewed, but that more time, not to exceed an additional sixty (60) days, is necessary to complete such review, setting forth the reasons why additional time is needed: Provided, however. That days during which the area of operations is inaccessible for inspection shall not be included when computing the sixty (60) day period; or

(5) Notify the operator that the plan cannot be approved until a final environmental statement has been prepared and filed with the Council on Environmental Quality as provided in § 228.4(f).

(b) Pending final approval of the plan of operations, the authorized officer will approve such operations as may be necessary for timely compliance with the requirements of Federal and State laws, so long as such operations are conducted so as to minimize environmental impacts as prescribed by the authorized officer in accordance with the standards contained in § 228.8.

(c) A supplemental plan or plans of operations provided for in § 228.4(d) and a modification of an approved operating plan as provided for in § 228.4(e) shall be subject to approval by the immediate superior of the authorized officer in the same manner as the initial plan of operations: Provided, however, That a modification of an approved plan of operations under § 228.4(e) shall be subject to approval by the immediate superior of the authorized officer in cases where it has been
§ 228.6 Availability of information to the public.

Except as provided herein, all information and data submitted by an operator pursuant to the regulations in this part shall be available for examination by the public at the Office of the District Ranger in accordance with the provisions of 7 CFR 1.1–1.6 and 36 CFR 200.5–200.10. Specifically identified information and data submitted by the operator as confidential concerning trade secrets or privileged commercial or financial information will not be available for public examination. Information and data to be withheld from public examination may include, but is not limited to, known or estimated outline of the mineral deposits and their location, attitude, extent, outcrops, and content, and the known or planned location of exploration pits, drill holes, excavations pertaining to location and entry pursuant to the United States mining laws, and other commercial information which relates to competitive rights of the operator.

§ 228.7 Inspection, noncompliance.

(a) Forest Officers shall periodically inspect operations to determine if the operator is complying with the regulations in this part and an approved plan of operations.

(b) If an operator fails to comply with the regulations or his approved plan of operations and the noncompliance is unnecessarily or unreasonably causing injury, loss or damage to surface resources the authorized officer shall serve a notice of noncompliance upon the operator or his agent in person or by certified mail. Such notice shall describe the noncompliance and shall specify the action to comply and the time within which such action is to be completed, generally not to exceed thirty (30) days: Provided, however, That days during which the area of operations is inaccessible shall not be included when computing the number of days allowed for compliance.

§ 228.8 Requirements for environmental protection.

All operations shall be conducted so as, where feasible, to minimize adverse environmental impacts on National Forest surface resources, including the following requirements:

(a) Air Quality. Operator shall comply with applicable Federal and State air quality standards, including the requirements of the Clean Air Act, as amended (42 U.S.C. 1857 et seq.).

(b) Water Quality. Operator shall comply with applicable Federal and State water quality standards, including regulations issued pursuant to the Federal Water Pollution Control Act, as amended (33 U.S.C. 1151 et seq.).

(c) Solid Wastes. Operator shall comply with applicable Federal and State standards for the disposal and treatment of solid wastes. All garbage, refuse, or waste, shall either be removed from National Forest lands or disposed of or treated so as to minimize, so far as is practicable, its impact on the environment and the forest surface resources. All tailings, dumpage, deleterious materials, or substances and other waste produced by operations shall be deployed, arranged, disposed of or treated so as to minimize adverse impact upon the environment and forest surface resources.

(d) Scenic Values. Operator shall, to the extent practicable, harmonize operations with scenic values through such measures as the design and location of operating facilities, including roads and other means of access, vegetative screening of operations, and construction of structures and improvements which blend with the landscape.

(e) Fisheries and Wildlife Habitat. In addition to compliance with water
quality and solid waste disposal standards required by this section, operator shall take all practicable measures to maintain and protect fisheries and wildlife habitat which may be affected by the operations.

(f) Roads. Operator shall construct and maintain all roads so as to assure adequate drainage and to minimize or, where practicable, eliminate damage to soil, water, and other resource values. Unless otherwise approved by the authorized officer, roads no longer needed for operations:

(1) Shall be closed to normal vehicular traffic,

(2) Bridges and culverts shall be removed,

(3) Cross drains, dips, or water bars shall be constructed, and

(4) The road surface shall be shaped to as near a natural contour as practicable and be stabilized.

(g) Reclamation. Upon exhaustion of the mineral deposit or at the earliest practicable time during operations, or within 1 year of the conclusion of operations, unless a longer time is allowed by the authorized officer, operator shall, where practicable, reclaim the surface disturbed in operations by taking such measures as will prevent or control onsite and off-site damage to the environment and forest surface resources including:

(1) Control of erosion and landslides;

(2) Control of water runoff;

(3) Isolation, removal or control of toxic materials;

(4) Reshaping and revegetation of disturbed areas, where reasonably practicable; and

(5) Rehabilitation of fisheries and wildlife habitat.

(h) Certification or other approval issued by State agencies or other Federal agencies of compliance with laws and regulations relating to mining operations will be accepted as compliance with similar or parallel requirements of these regulations.

§ 228.12 Access.

An operator is entitled to access in connection with operations, but no road, trail, bridge, landing area for aircraft, or the like, shall be constructed or improved, nor shall any other means of access, including but not limited to off-road vehicles, be used until the operator has received approval of an operating plan in writing from the authorized officer when required by §228.4(a). Proposals for construction, improvement or use of such access as part of a plan of operations shall include a description of the type and standard of the proposed means of access, a map showing the proposed route of access, and a description of the means of transportation to be used. Approval of the means of such access as part of a
§ 228.13 Plan of operations shall specify the location of the access route, design standards, means of transportation, and other conditions reasonably necessary to protect the environment and forest surface resources, including measures to protect scenic values and to insure against erosion and water or air pollution.

§ 228.13 Bonds.

(a) Any operator required to file a plan of operations shall, when required by the authorized officer, furnish a bond conditioned upon compliance with §228.8(g), prior to approval of such plan of operations. In lieu of a bond, the operator may deposit into a Federal depository, as directed by the Forest Service, and maintain therein, cash in an amount equal to the required dollar amount of the bond or negotiable securities of the United States having market value at the time of deposit of not less than the required dollar amount of the bond. A blanket bond covering nationwide or statewide operations may be furnished if the terms and conditions thereof are sufficient to comply with the regulations in this part.

(b) In determining the amount of the bond, consideration will be given to the estimated cost of stabilizing, rehabilitating, and reclaiming the area of operations.

(c) In the event that an approved plan of operations is modified in accordance with §228.4 (d) and (e), the authorized officer will review the initial bond for adequacy and, if necessary, will adjust the bond to conform to the operations plan as modified.

(d) When reclamation has been completed in accordance with §228.8(g), the authorized officer will notify the operator that performance under the bond has been completed. Provided, however, that when the Forest Service has accepted as completed any portion of the reclamation, the authorized officer shall notify the operator of such acceptance and reduce proportionally the amount of bond thereafter to be required with respect to the remaining reclamation.

[39 FR 31317, Aug. 28, 1974; 39 FR 32029, Sept. 4, 1974]

§ 228.14 Appeals.

Any operator aggrieved by a decision of the authorized officer in connection with the regulations in this part may file an appeal under the provisions of 36 CFR part 251, subpart C.

[54 FR 3362, Jan. 23, 1989]

§ 228.15 Operations within National Forest Wilderness.

(a) The United States mining laws shall extend to each National Forest Wilderness for the period specified in the Wilderness Act and subsequent establishing legislation to the same extent they were applicable prior to the date the Wilderness was designated by Congress as a part of the National Wilderness Preservation System. Subject to valid existing rights, no person shall have any right or interest in or to any mineral deposits which may be discovered through prospecting or other information-gathering activity after the legal date on which the United States mining laws cease to apply to the specific Wilderness.

(b) Holders of unpatented mining claims validly established on any National Forest Wilderness prior to inclusion of such unit in the National Wilderness Preservation System shall be accorded the rights provided by the United States mining laws as then applicable to the National Forest land involved. Persons locating mining claims in any National Forest Wilderness on or after the date on which said Wilderness was included in the National Wilderness Preservation System shall be accorded the rights provided by the United States mining laws as applicable to the National Forest land involved and subject to provisions specified in the establishing legislation. Persons conducting operations as defined in §228.3 in National Forest Wilderness shall comply with the regulations in this part. Operations shall be conducted so as to protect National Forest surface resources in accordance with the general purposes of maintaining the National Wilderness Preservation System unimpaired for future use and enjoyment as wilderness and to preserve its wilderness character, consistent with the use of the land for
§ 228.41 Scope.

(a) Lands to which this subpart applies.
This subpart applies to all National Forest System lands reserved from the public domain of the United States, including public domain lands being administered under the Bankhead-Jones Farm Tenant Act of July 22, 1937 (7 U.S.C. 1010); to all National Forest System lands with Weeks Act status as provided in the Act of September 2, 1958; and to all National Forest System lands with Weeks Act status as provided in the Act of September 2, 1958.
(16 U.S.C. 521a); and to public lands within the Copper River addition to the Chugach National Forest (16 U.S.C. 539a). For ease of reference and convenience to the reader, these lands are referred to, throughout this subpart, as National Forest lands.

(b) Restrictions. Disposal of mineral materials from the following National Forest lands is subject to certain restrictions as described below:

(1) Segregation or withdrawals in aid of other agencies. Disposal of mineral materials from lands segregated or withdrawn in aid of a function of another Federal agency, State, territory, county, municipality, water district, or other governmental subdivision or agency may be made only with the written consent of the governmental entity.

(2) Segregated or withdrawn National Forest lands. Mineral materials may not be removed from segregated or withdrawn lands where removal is specifically prohibited by statute or by public land order. Where not specifically prohibited, removal of mineral materials may be allowed if the authorized officer determines that the removal is not detrimental to the values for which the segregation or withdrawal was made, except as provided in paragraph (b)(1) of this section. Where operations have been established prior to the effective date of this Subpart and where not prohibited by statute, they may be permitted to continue. Nothing in this subparagraph is intended to prohibit the exercise of valid existing rights.

(3) Unpatented mining claims. Provided that claimants are given prior notice and it has been determined that removal will neither endanger nor materially interfere with prospecting, mining, or processing operations or uses reasonably incident thereto on the claims, disposal of mineral materials may be allowed from:

(i) Unpatented mining claims located after July 23, 1955; and/or

(ii) Unpatented mining claims located before July 23, 1955, and on which the United States has established the right to manage the vegetative and other surface resources in accordance with the Multiple Use Mining Act of July 23, 1955 (30 U.S.C. 601, 603, 611–615).

(4) Acquired Bankhead-Jones lands. Mineral materials on lands which were acquired under the authority of the Bankhead-Jones Farm Tenant Act of July 22, 1937 (7 U.S.C. 1010–1012), and which lie outside the exterior boundaries of National Forests, or on acquired lands which are being administered under the Act and which also lie outside the exterior boundaries of National Forests, may be disposed of under these regulations only to public authorities and agencies, and only on condition that the mineral materials are used for public purposes (7 U.S.C. 1011(c)).

(c) Mineral materials to which this subpart applies. This subpart applies to mineral materials which consist of petrified wood and common varieties of sand, gravel, stone, pumice, pumicite, cinders, clay, and other similar materials. Such mineral materials include deposits which, although they have economic value, are used for agriculture, animal husbandry, building, abrasion, construction, landscaping, and similar uses. This subpart also applies to other materials which may not be minerals but are produced using mining methods, such as peat. The categories of these materials, including representative examples, are:

(1) Agricultural supply and animal husbandry materials. This category includes, but is not limited to, minerals and vegetative materials used as or for: Soil conditioners or amendments applied to physically alter soil properties such as direct applications to the soil of carbonate rocks, soil containing "trace elements" and peat; animal feed supplements; and other animal care products.

(2) Building materials. Except for minerals identified as Uncommon Varieties, this category includes, but is not limited to, minerals and vegetative materials used as or for: Paint fillers or extenders; flagstone, ashlar, rubble, mortar, brick, tile, pipe, pottery, earthenware, stoneware, terrazzo, and other nonstructural components in floors, walls, roofs, fireplaces, and the like; and similar building uses.

(3) Abrasive materials. This category includes, but is not limited to, minerals used for: Filing; scouring; polishing; sanding; and sandblasting.
(4) Construction materials. This category includes, but is not limited to, minerals such as sand, gravel, clay, crushed rock and cinders used as or for fill; borrow; rip-rap; ballast (including all ballast for railroad use); road base; road surfacing; concrete aggregate; clay sealants; and similar construction uses.

(5) Landscaping materials: This category includes, but is not limited to minerals and peat used as or for: Chips, granules, sand, pebbles, scoria, cinders, cobbles, boulders, slabs, and other components in retaining walls, walkways, patios, yards, gardens, and the like; and similar landscaping uses.

(d) Minerals not covered by this subpart. Mineral materials do not include any mineral used in manufacturing, industrial processing, or chemical operations for which no other mineral can be substituted due to unique properties giving the particular mineral a distinct and special value; nor do they include block pumice which in nature occurs in pieces having one dimension of two inches or more which is valuable and used for some application that requires such dimensions. Disposal of minerals not covered by this subpart is subject to the terms of the United States Mining Laws, as amended (30 U.S.C. 22 et seq.), on those portions of the National Forest System where those laws apply. Such minerals may include:

(1) Mineral suitable and used as soil amendment because of a constituent element other than calcium or magnesium carbonate that chemically alters the soil;

(2) Limestone suitable and used, without substantial admixtures, for cement manufacture, metallurgy, production of quicklime, sugar refining, whitening, fillers, paper manufacture, and desulfurization of stack gases;

(3) Silica suitable and used for glass manufacture, production of metallic silicon, flux, and rock wool;

(4) Alumino-silicates or clays having exceptional qualities suitable and used for production of aluminum, ceramics, drilling mud, taconite binder, foundry castings, and other purposes for which common clays cannot be used;

(5) Gypsum suitable and used for wallboard, plaster, or cement.

(6) Block pumice which occurs in nature in pieces having one dimension of two inches or more and which is valuable and used for some application that requires such dimensions; and

(7) Stone recognized through marketing factors for its special and distinct properties of strength and durability making it suitable for structural support and used for that purpose.

(e) Limitations on applicability. (1) The provisions of paragraphs (c) and (d) of this section shall not apply to any mining claims for which a Mineral Entry Final Certificate was issued on or before January 16, 1991. Nor shall these provisions apply to any mining claim located on or before July 23, 1955, which has satisfied the marketability test for locatable minerals from on or before July 23, 1955, until the present date.

(2) A use which qualifies a mineral as an uncommon variety under paragraph (d) overrides classification of that mineral as a common variety under paragraph (c) of this section.

[49 FR 29784, July 24, 1984, as amended at 55 FR 51706, Dec. 17, 1990]
§ 228.43 Policy governing disposal.

(a) General. Forest Service policy is to make mineral materials on National Forest lands available to the public and to local, State, and Federal government agencies where reasonable protection of, or mitigation of effects on, other resources in assured, and where removal is not prohibited.

(1) A contract or permit limits processing of the mineral material onsite to the first salable product.

(2) Additional onsite processing may be authorized by a separate permit (36 CFR 251.50).

(3) The authorized officer must ensure that an environmental analysis is conducted for all planned disposals of mineral materials.

(4) Decisions to authorize the disposal of mineral materials must conform to approved land and resource management plans (36 CFR 219.22).

(b) Price. Mineral materials may not be sold for less than the appraised value. The authorized officer may assess a fee to cover costs of issuing and administering a contract or permit.

(c) Conservation. Adequate measures must be taken to protect, and minimize damage to the environment. Mineral materials may be disposed of only if the authorized officer determines that the disposal is not detrimental to the public interest.

(d) Ownership. Title to the mineral materials vests in the purchaser or permittee immediately before excavation, subject to the provisions of §§ 228.47 through 228.56 and other provisions of the contract or permit. Title to excavated material not removed within the time provided revests in the United States.

(e) Decisions. All decisions as to whether or not to grant disposals proposed under this subpart shall be made in writing by the authorized officer. Such decisions must specify their factual and legal basis.

(f) Option for mining claimants. All mining claimants holding mining claims which are located for a mineral materials.
classified in accordance with this subpart as a mineral material have the option of maintaining that the mineral is locatable and filing for patent. All mining claimants holding mining claims located in good faith on or before January 16, 1991, for a mineral classified in accordance with this subpart as a mineral material have the option of maintaining that the mineral is locatable and filing for patent. All mining claimants holding mining claims located in good faith on or before January 16, 1991, for a mineral classified in accordance with this subpart as a mineral material may accept the classification and, if appropriate, receive a sale by negotiated contract for that mineral material under 36 CFR 228.57(b)(2) of this subpart.

§ 228.44 Disposal on existing Federal leased areas.

Mineral material contracts or permits may be issued within existing areas leased or under permit under the 1920 Mineral Leasing Act, as amended (30 U.S.C. 181–187); section 402 of Reorganization Plan No. 3 of 1946 (5 U.S.C. Appendix); the 1947 Mineral Leasing Act for Acquired Lands, as amended (30 U.S.C. 351 et seq.); and the 1970 Geothermal Steam Act (30 U.S.C. 1001–1025), provided that it has been determined that removal will neither endanger nor unreasonably interfere with lease operations, and provided further that the lease terms do not prohibit disposal.

§ 228.45 Qualifications of applicants.

The authorized officer may require applicants for prospecting permits, negotiated contracts, or free-use permits or bidders for the sale of mineral materials to furnish information necessary to determine their ability to perform the obligations of the contract or permit.

§ 228.46 Application of other laws and regulations.

All mining operations for removal of mineral materials from National Forest lands must meet or exceed applicable Federal standards for the protection of public safety, health, and the environment, and must also meet or exceed State and local standards for the protection of public safety, health, and the environment, to the extent that such standards are not in conflict with Federal purposes and functions.

GENERAL PROVISIONS

§ 228.47 General terms and conditions of contracts and permits.

(a) Disposal of designated mineral materials. Only those specified mineral materials found within the area designated in the contract or permit may be extracted and removed.

(b) Unauthorized removal (trespass) of mineral materials. The removal of mineral materials from National Forest lands, except when authorized in accordance with applicable law and regulations of the Department of Agriculture, is prohibited (36 CFR 261.9).

(c) Conservation. Mineral material contracts and permits must contain provisions to ensure the efficient removal and conservation of the mineral material.

(d) Improvements. Contracts and permits must contain provisions for removal or Government retention of improvements.

(e) Use of existing National Forest development roads. The authorized officer may require purchasers and permittees to obtain appropriate road-use permits, make deposits for or perform their commensurate share of road maintenance, and comply with road-use rules contained in 36 CFR part 212, depending upon their planned extent of road use.

(f) Reclamation. Requirements for reclamation of areas disturbed by mineral material operations must be included in contracts and permits, except for disposals from community sites and common-use areas.

§ 228.48 Appraisal and measurement.

(a) Appraisal. All mineral materials for sale must be appraised to determine fair market value. Appraisals must be based on knowledge of the extent of the deposit, quality of material, and economic value. A sale must not be made at less than the appraised value which may be expressed as either price per cubic yard or weight equivalent. In all cases the units of measurement must correspond to the units used in the appraisal. The authorized officer must estimate and record the amount and value of minerals to be disposed of by free-use permit.

(b) Measurement. The amount of mineral material actually removed may be
§ 228.49 Reappraisal.

If an extension of time is granted as provided in §228.53(b), the authorized officer must reappraise or reestimate the mineral materials covered by the contract or permit and which remain unexcavated at the time of extension. The recalculated unit value becomes the new unit value for the remaining unexcavated material; excavated and stockpiled material is not subject to reappraisal.

§ 228.50 Production records.

At least annually, the purchaser or permittee must furnish a record of the volume extracted, in cubic yards or weight equivalent, to the authorized officer. The units of measurement must correspond to the units used in the appraisal or estimate.

§ 228.51 Bonding.

(a) Bond requirements. Before operations may begin under any contract or permit, a bond must be furnished to the authorized officer to ensure performance of payment (as necessary), reclamation, and other conditions of the contract or permit, except as noted in paragraphs (a) (1) and (3) of this section, where the authorized officer may waive such bonding. If an extension of time is granted as provided in §228.53(b), the bond requirements must be recalculated and changed accordingly.

(1) For advance payment contracts for 10,000 cubic yards or more in volume (or weight equivalent), a bond of not less than 10 percent of the total contract price or the value of the estimated annual production (whichever is less), plus the reclamation cost for the area covered by annual mining, is required. When the total volume is less than 10,000 cubic yards, bond requirements, if any, are at the discretion of the authorized officer.

(2) For any deferred payment contract, a bond equaling the value of the estimated annual production plus the reclamation cost for the area covered by annual mining is required.

(3) For free use, the authorized officer may require a reclamation bond which must be sufficient to cover the cost of reclamation of the anticipated annual work.

(b) Types of bonding. A bond must be one of the following:

(1) A bond of a corporate surety shown on the latest approved list issued by the U.S. Treasury Department and executed on an approved standard form;

(2) A cash bond;

(3) Negotiable securities of the United States;

(4) An irrevocable letter of credit acceptable to the Forest Service;

(5) A performance bond required by other Forest Service contracts or permits, provided the bond covers the performance and reclamation requirements related to the removal of mineral material from a designated pit or area for use in the performance of the contract or permit; or

(6) Any other types of bond specified in the Forest Service Manual.

§ 228.52 Assignments.

(a) Limitations. A purchaser or permittee may not assign the contract or permit, or any interest therein, without the written approval of the authorized officer.

(b) Requirements of assignee. The authorized officer will not approve any proposed assignment involving contract or permit performance unless the assignee:

(1) Submits information necessary to assure the authorized officer of the assignee’s ability to meet the same requirements as the original purchaser or permittee (assignor); and

(2) Furnishes a bond or obtains a commitment from the previous surety to be bound by the assignment when approved.

(c) Rights and obligations. Once the authorized officer approves an assignment, the assignee is entitled to all the rights and is subject to all of the obligations under the contract or permit, and the original purchaser or permittee may be released from any further responsibility under the contract or permit.
§ 228.53 Term.

(a) Time allowed. Except as provided in §228.61(f), §228.62(b), and elsewhere in this paragraph, a contract or permit may not exceed 1 year from the effective date of the contract or permit unless a written extension is obtained. For those mineral materials sold under a duration of production contract or under a contract for the sale of all mineral material within a specified area, or under a construction contract where removal cannot reasonably take place before completion of other work under the same contract, the authorized officer will establish a reasonable time period for removal.

(b) Extension of time. If it is shown that a delay in removal was due to causes beyond the control of the purchaser or permittee, the authorized officer may grant an extension, not to exceed 1 year, upon written request. Written requests for extensions of contracts must be received between 30 and 90 days before the expiration date of the contract. Written requests for extensions of permits must be received between 15 and 90 days before the permit expiration date. The authorized officer may grant a total of two extensions for contracts and permits.

§ 228.54 Single entry sales or permits.

The purchaser or permittee is required to reclaim a single entry source in accordance with an approved operating plan which describes operating procedures and reclamation measures, unless the requirement is waived by the authorized officer.

§ 228.55 Cancellation or suspension.

The authorized officer may cancel or suspend a contract, permit, or prospecting permit if the purchaser or permittee fails to comply with its terms and conditions. If the noncompliance is unnecessarily or unreasonably causing injury, loss, or damage to surface resources, the authorized officer may cancel or suspend the contract, permit, or prospecting permit immediately. In cases where noncompliance is of a less serious nature, the authorized officer may cancel or suspend a contract, permit, or prospecting permit if such noncompliance continues for 30 days after service of written notice by the authorized officer. If the noncompliance is not corrected, the authorized officer may attach the bond to ensure compliance with the provisions of the contract, permit, or prospecting permit.

§ 228.56 Operating plans.

Any surface-disturbing operation under a contract, permit, or prospecting permit is subject to prior approval by the authorized officer of an operating plan and to reasonable conditions as may be required to ensure proper protection of the environment and improvements, including timely reclamation of disturbed lands. Significant changes to operations require prior approval of an amended operating plan. The operating plan must include, as a minimum, a map and explanation of the nature of the operation, activity, surface disturbance, and intended reclamation including removal or retention of structures and facilities. Operating plans must be submitted by the purchaser, permittee, or prospecting permittee, except as noted in §228.64(b).

Types and Methods of Disposal

§ 228.57 Types of disposal.

Except as provided in §228.41(b), disposal of mineral materials may be made by:

(a) Competitive sale to the highest qualified bidder after formal advertising and other appropriate public notice;

(b) Sale by negotiated contract. (1) For removal of materials to be used in connection with a public works improvement program on behalf of a Federal, State, or local government agency if the public exigency will not permit delays incident to advertising, or (2) For the removal of mineral materials for which it is impracticable to obtain competition;

(c) Preference right negotiated sale to the holder of a Forest Service-issued prospecting permit under which a suitable mineral material deposit has been demonstrated on acquired National Forest lands;

(d) Free use when a permit is issued to any nonprofit association, corporation, individual, or others listed in §228.62(d), for other than commercial
§ 228.58 Competitive sales.

(a) Invitation for bid. Sales must be conducted as described below after inviting competitive bids through publication and posting. The authorized officer may not offer a competitive sale unless there is a right-of-way or other access to the sale area which is available to anyone qualified to bid.

(b) Advertising—(1) Sales over 25,000 cubic yards. Mineral material sales offered by competitive bidding and which exceed 25,000 cubic yards must be advertised on the same day once a week for two consecutive weeks in a newspaper of general circulation in the area where the material is located, and in a trade or industrial newspaper when considered appropriate. Notice of the sale must be posted in a conspicuous place in the office where bids are to be submitted. In addition, the authorized officer may send the advertisement directly to known interested persons. Bids may be received but not evaluated before the end of the advertising period, which may be extended at the discretion of the authorized officer.

(2) Content of advertising. The advertisement of sale must specify the location by legal description of the tract or tracts or by any other means identify the location of the mineral material deposit being offered, the kind of material, estimated quantities, the unit of measurement, appraised price (which sets the minimum acceptable bid), time and place for receiving and opening of bids, minimum deposit required, major special constraints due to environmental considerations, available access, maintenance required over haul routes, traffic controls, required use permits, required qualifications of bidders, the method of bidding, bonding requirement, notice of the right to reject any or all bids, the office where a copy of the contract and additional information may be obtained, and additional information the authorized officer deems necessary.

(3) Advertising smaller sales. Advertisement of mineral materials amounting to 25,000 cubic yards in volume (or weight equivalent) or less must be published and/or posted. The methods of advertisement are at the discretion of the authorized officer.

(c) Conduct of sales. (1) Bidding at competitive sales may be conducted by the submission of written sealed bids, oral bids, or a combination of both as directed by the authorized officer. In the event of a tie in high sealed bids, the highest bidder will be determined by oral auction among those tied bidders; when no oral bid is higher than the sealed bids, the selected bidder will be determined by lot, the purchase price being the amount of the tied bid. For all oral auctions, including those used to break sealed-bid ties, the high bidder must confirm the bid in writing immediately upon being declared the high bidder. The authorized officer must mail notification of the bidding results to all bidders within 10 days.

(2) The authorized officer may require bidders to furnish evidence of qualification at the time of award or, if such evidence has already been furnished and is still valid, make appropriate reference to the record containing it.

(3) When it is in the interest of the United States to do so, the authorized officer may reject any or all bids.

(d) Bid deposits and award of contract. Sealed bids must be accompanied by a deposit. For mineral materials offered at oral auction, bidders must make the deposit before opening of the bidding.

(1) Bid deposits must be equal to 10 percent of the appraised value but not less than $100.00.

(2) Bid deposits must be in the form of cash, money order, bank drafts, cashier’s or certified checks made payable to the Forest Service, or bonds acceptable to the Forest Service (§ 228.51(b)).

(3) Upon conclusion of the bidding, the authorized officer will return the deposits of all unsuccessful bidders. The successful bidder’s deposit will be applied toward the purchase price. If the contract is not awarded to the high
bidder due to an inability to perform the obligations of the contract, the deposit, less expenses and damages incurred by the United States, may be returned. The return of a deposit does not prejudice any other rights or remedies of the United States. The contract may be offered and awarded to the next successive qualified high bidder, or, at the discretion of the authorized officer, the sale may be either re-advertised or negotiated if it is determined that a competitive sale is impracticable.

(4) Within 30 days after receipt of the contract, the successful bidder must sign and return the contract, together with any required bond, unless the authorized officer has granted an extension for an additional 30 days. The bidder must apply for the extension in writing within the first 30-day period. If the successful bidder fails to return the contract within the first 30-day period or within an approved extension, the bid deposit, less the costs of re-advertising and damages, may be returned without prejudice to any other rights or remedies of the United States.

(5) All sales must be processed on Forest Service-approved contract forms. The authorized officer may add provisions to the contract to cover conditions peculiar to the sale area. Such additional provisions must be made available for inspection by prospective bidders during the advertising period.

§ 228.59 Negotiated or noncompetitive sales.

(a) Volume limitations. When it is determined by the authorized officer to be in the public interest and when it is impracticable to obtain competition, mineral materials not exceeding 100,000 cubic yards in volume (or weight equivalent) may be sold in any one sale at not less than the appraised value, without advertising or calling for bids, except as provided in paragraphs (b) and (c) of this section. The authorized officer may not approve noncompetitive sales that exceed the total of 200,000 cubic yards (or weight equivalent) made in any one State for the benefit of any applicant in any period of 12 consecutive months.

(b) Government programs. In connection with a public works improvement project on behalf of a Federal, State, or local governmental agency, the authorized officer may sell to an applicant, at not less than the appraised value, without advertising or calling for bids, a volume of mineral materials not to exceed 200,000 cubic yards (or weight equivalent) when the public exigency will not permit delays incident to advertising (30 U.S.C. 602).

(c) Appropriation for highway purposes. For interstate and/or Federal aid highways, the Secretary of Transportation may appropriate any volume in accordance with 23 U.S.C. 107 and 317.

(d) Use in development of Federal mineral leases. When it is determined to be impracticable to obtain competition and the mineral materials are to be used in connection with the development of mineral leases issued by the United States (§228.44), the authorized officer may sell to a leaseholder a volume of mineral material not to exceed 200,000 cubic yards (or weight equivalent) in one State in any period of 12 consecutive months. No charge will be made for materials which must be moved in the process of extracting the mineral under lease, as long as the materials remain stockpiled within the boundaries of the leased area.

(e) Exceptions. (1) The Chief of the Forest Service may authorize the non-competitive sale of mineral materials in excess of the volume limitations in paragraphs (a), (b), and (d) of this section when necessary to:

(i) Respond to an emergency affecting public health, safety or property;

(ii) Prevent the curtailment of operations conducted under the United States mining laws of May 10, 1872, as amended (30 U.S.C. 22 et seq.) which generate large volumes of mineral materials as a by-product; or

(iii) Respond to a critical public need for the prompt development of a mineral lease issued by the United States or a mining claim located under the United States mining laws of May 10, 1872, as amended (30 U.S.C. 22 et seq.).

(2) Any noncompetitive sale of mineral materials in excess of the volume limitations in paragraphs (a), (b), and (d) shall be subject to such restrictions
§ 228.60 Prospecting permits.

(a) Right conferred. On acquired National Forest lands, prospecting permits may be issued which grant the permittee the exclusive right to explore for and to demonstrate the existence of a suitable mineral material deposit when existing information is insufficient. After the demonstration of a suitable deposit and confirmation of this by the authorized officer, the permittee will have a preference right to apply for a negotiated sale.

(b) Limitations. Mineral material may be removed from lands under a prospecting permit only to the extent necessary for testing and analysis or for the demonstration of the existence of a suitable deposit.

(c) Environmental analysis. Prospecting permits will be issued only after submission by applicant and approval by the authorized officer of a detailed operating plan. The authorized officer may require a bond in accordance with § 228.51. The authorized officer must ensure compliance with the National Environmental Policy Act (42 U.S.C. 4321 et seq.).

(d) Acreage and permit limitations. A prospecting permit may not cover more than 640 acres. No individual or group may have an interest at any one time in more than three prospecting permits on Forest Service lands administered by one Forest Supervisor.

(e) Duration and extension of permits. Prospecting permits may be issued for a period not to exceed 24 months, but they may be extended once for up to an additional 24 months if necessary to complete prospecting. Any application for extension must be submitted no later than 30 days before the expiration of the permit. The application for extension must provide evidence of diligence and state the reasons why additional time is considered necessary to complete prospecting work.

(f) Refusal to extend permits. The authorized officer may reject applications for extension of prospecting permits for the following reasons:

(1) Failure to perform. Failure of the permittee to perform prospecting or exploration work without adequate justification may result in the denial of an extension; or

(2) Failure to apply. If an application for extension is not submitted within the specified period, the permit may expire without notice to the permittee.

(3) Public interest. If the authorized officer determines that an extension may not be in the public interest, the application may be rejected.

§ 228.61 Preference right negotiated sales.

(a) Qualification for sale. When applying for a preference right negotiated sale, the permittee must demonstrate to the satisfaction of the authorized officer that a suitable deposit of mineral material has been discovered within the area covered by the prospecting permit. Information concerning trade secrets and financial matters submitted by the permittee and identified as confidential will not be available for public examination except as otherwise agreed upon by the permittee.

(b) Application for sale. The application must be submitted to the District Ranger's office on or before the expiration date of the prospecting permit or its extension. The authorized officer may grant 30 additional days for submitting the application if requested in writing by the permittee before expiration of the prospecting permit or its extension.

(c) Terms and conditions of contract. The terms and conditions will be evaluated on an individual case basis. Only those mineral materials specified in the contract may be removed by the purchaser. Before a preference right negotiated contract is awarded, the authorized officer must ensure that an environmental analysis is conducted. All contracts are subject to the conditions under §§ 228.47 through 228.56.

(d) Acreage limitations. The authorized officer will determine the amount of acreage in the preference right negotiated sale based on a presentation of the permittee's needs. The maximum...
acreage allowable to any individual or group must not exceed 320 acres on National Forest lands administered by one Forest Supervisor. The allowable acreage may be in one or more units which are not necessarily contiguous.

(e) Volume limitations. Preference right negotiated sales are exempt from volume limitations.

(f) Contract time allowable. A contract or a renewal must not exceed 5 years; however, the purchaser may have renewal options at the end of each contract or renewal period. The authorized officer may renew a contract if it is determined that the renewal is not detrimental to the public interest and that the purchaser has demonstrated diligence in conducting operations. The authorized officer may cancel the contract, or the purchaser may forfeit the contract, if no substantial commercial production occurs during any continuous 2-year period after the award of the contract or if the contract terms and conditions are breached. However, if a delay is caused by conditions beyond the purchaser’s control, the authorized officer may grant an extension equal to the lost time.

(g) Contract renewal reappraisal. At the time of contract renewal, the authorized officer will reappraise the mineral material deposit in accordance with §228.49.

§ 228.62 Free use.

(a) Application. An application for a free-use permit must be made with the appropriate District Ranger’s office.

(b) Term. Permits may be issued for periods not to exceed 1 year and will terminate on the expiration date unless extended by the authorized officer as in §228.53(b). However, the authorized officer may issue permits to any local, State, Federal, or Territorial agency, unit or subdivision, including municipalities and county road districts, for periods up to 10 years.

(c) Removal by agent. A free-use permit may extract the mineral materials through a designated agent provided that the conditions of the permit are not violated. No part of the material may be used as payment for the services of an agent in obtaining or processing the material. A permit may be issued in the name of a designated agent for those entities listed in §228.62(d)(1), at the discretion of the authorized officer, provided there is binding agreement in which the entity retains responsibility for ensuring compliance with the conditions of the permit.

(d) Conditions. Free-use permits may be issued for mineral materials to settlers, miners, residents, and prospectors for uses other than commercial purposes, resale, or barter (16 U.S.C. 477). Free-use permits may be issued to local, State, Federal, or Territorial agencies, units, or subdivisions, including municipalities, or any association or corporation not organized for profit, for other than commercial or industrial purposes or resale (30 U.S.C. 601). Free-use permits may not be issued when, in the judgment of the authorized officer, the applicant owns or controls an adequate supply of mineral material in the area of demand. The free-use permit, issued on a Forest Service-approved form, must include the basis for the free-use as well as the provisions governing the selection, removal, and use of the mineral materials. No mineral material may be removed until the permit is issued. The permittee must notify the authorized officer upon completion of mineral material removal. The permittee must complete the reclamation prescribed in the operating plan (§228.56).

(1) A free-use permit may be issued to any local, State, Federal, or Territorial agency, unit, or subdivision, including municipalities and county road districts, without limitation on the number of permits or on the value of the mineral materials to be extracted or removed.

(2) A free-use permit issued to a nonprofit association, corporation, or individual may not provide for the removal of mineral materials having a volume exceeding 5,000 cubic yards (or weight equivalent) during any period of 12 consecutive months.

(e) Petrified wood. A free-use permit may be issued to amateur collectors and scientists to take limited quantities of petrified wood for personal use. The material taken may not be bartered or sold. Free-use areas may be designated within which a permit may not be required. Removal of material...
§ 228.63 Removal under terms of a timber sale or other Forest Service contract.

In carrying out programs such as timber sales that involve construction and maintenance of various physical improvements, the Forest Service may specify that mineral materials be mined, manufactured, and/or processed for incorporation into the improvement. Where the mineral material is located on National Forest lands and is designated in the contract calling for its use, no permit is required as long as an operating plan as described in § 228.56 is required by the contract provisions. Title to any excavated material in excess of that needed to fulfill contract requirements vests in the United States without reimbursement to the contract holder or to agents or representatives of the contract holder. Such excess material may be disposed of under §§ 228.58, 228.59, or 228.62.

§ 228.64 Community sites and common-use areas.

(a) Designation. Nonexclusive disposals may be made from the same deposit or areas designated by the authorized officer; the designation of such an area and any reclamation requirements must be based on an environmental analysis.

(b) Pit plans. The Forest Service must prepare operating plans (§ 228.56) for the efficient removal of the material and for appropriate reclamation of community sites and common-use areas.

(c) Reclamation. The Forest Service is responsible for reclamation of community sites and common-use areas.

§ 228.65 Payment for sales.

(a) Conditions. Mineral materials may not be removed from the sale area until all conditions of payment in the contract have been met.

(b) Advance payment. (1) For negotiated and competitive sales the full amount may be paid before removal is begun under the contract or by installment at the discretion of the authorized officer. Installment payments must be based on the estimated removal rate specified in the operating plan and must be, as a minimum, the value of 1 month’s removal. The first installment must be paid before removal operations are begun; remaining installments must be paid in advance of removal of the remaining materials as billed by the authorized officer. The total amount of the purchase price must be paid at least 60 days before the expiration date of the contract.

(2) All advance payment contracts must provide for reappraisal of the mineral material at the time of contract renewal or extension.

(3) Minimum annual production must be sufficient to return a payment to the United States equal to the first installment. In lieu of minimum production, there must be an annual payment in the amount of the first installment which will not be credited to future years’ production. Payments for or in lieu of minimum annual production must be received by the authorized officer on or before the anniversary of the effective date of the contract.

(4) If the purchaser fails to make payments when due, the contract will be considered breached; the authorized officer will terminate the contract, and all previous payments will be forfeited without prejudice to any other rights and remedies of the United States. Forfeiture will not result when the purchaser is unable to meet the minimum annual production (volume or value) for reasons beyond the purchaser’s control.

(5) In order to determine payment amount, the purchaser must make a report of operations. The report must include the amount of mineral material removed, which must be verified by the authorized officer.

(c) Deferred payments. The authorized officer may approve deferred payments for sales.

(1) The purchaser may make payments monthly or quarterly which must be based on the in-place value
§ 228.80 Operations within Misty Fjords and Admiralty Island National Monuments, Alaska.

(a) Mineral activities on valid mining claims in the Misty Fjords and Admiralty Island National Monuments must be conducted in accordance with regulations in subpart A of this part and with the provisions of this section.

(b) Prior to approving a plan of operations, the authorized officer must consider:

(1) The resources of ecological, cultural, geological, historical, pre-historical, and scientific interest likely to be affected by the proposed operations, including access; and

(2) The potential adverse impacts on the identified resource values resulting from the proposed operations.

(c) A plan of operations will be approved if, in the judgment of the authorized officer, proposed operations are compatible, to the maximum extent feasible, with the protection of the resource values identified pursuant to paragraph (b)(1) of this section.

(1) The authorized officer will deem operations to be compatible if the plan of operations includes all feasible measures which are necessary to prevent or minimize potential adverse impacts on the resource values identified pursuant to paragraph (b)(1) of this section and if the operations are conducted in accordance with the plan.

(2) In evaluating the feasibility of mitigating measures, the authorized
§ 228.100 Scope and applicability.

(a) Scope. This subpart sets forth the rules and procedures by which the Forest Service of the United States Department of Agriculture will carry out its statutory responsibilities in the issuance of Federal oil and gas leases and management of subsequent oil and gas operations on National Forest System lands, for approval and modification of attendant surface use plans of operations, for monitoring of surface disturbing operations on such leases, and for enforcement of surface use requirements and reclamation standards.

(b) Applicability. The rules of this subpart apply to leases on National Forest System lands and to operations that are conducted on Federal oil and gas leases on National Forest System lands as of April 20, 1990.

(c) Applicability of other rules. Surface uses associated with oil and gas prospecting, development, production, and reclamation activities, that are conducted on National Forest System lands outside a leasehold must receive prior authorization from the Forest Service. Such activities are subject to the regulations set forth elsewhere in 36 CFR chapter II, including but not limited to the regulations set forth in 36 CFR parts 251, subpart B, and 261.

Subpart E—Oil and Gas Resources

Source: 55 FR 10444, Mar. 21, 1990, unless otherwise noted.

§ 228.101 Definitions.

For the purposes of this subpart, the terms listed in this section have the following meaning:

Authorized Forest officer. The Forest Service employee delegated the authority to perform a duty described in these rules. Generally, a Regional Forester, Forest Supervisor, District Ranger, or Minerals Staff Officer, depending on the scope and level of the duty to be performed.

Compliance Officer. The Deputy Chief, or the Associate Deputy Chiefs, National Forest System or the line officer designated to act in the absence of the Deputy Chief.

Leasehold. The area described in a Federal oil and gas lease, communitized, or unitized area.

Lessee. A person or entity holding record title in a lease issued by the United States.

National Forest System. All National Forest lands reserved or withdrawn from the public domain of the United States, all National Forest lands acquired through purchase, exchange, donation, or other means, the National Grasslands and land utilization projects administered under title III of the Bankhead-Jones Farm Tenant Act (7 U.S.C. 1010 et seq.), and other lands, waters, or interests therein which are administered by the Forest Service or are designated for administration.
through the Forest Service as a part of the system (16 U.S.C. 1609).

Notices To Lessees, Transferees, and Operators. A written notice issued by the authorized Forest officer. Notices To Lessees, Transferees, and Operators implement the regulations in this subpart and serve as instructions on specific item(s) of importance within a Forest Service Region, National Forest, or Ranger District.

Onshore Oil and Gas Order. A formal numbered order issued by or signed by the Chief of the Forest Service that implements and supplements the regulations in this subpart.

Operating right. The interest created out of a lease that authorizes the holder of that interest to enter upon the leased lands to conduct drilling and related operations, including production of oil and gas from such lands in accordance with the terms of the lease.

Operating rights owner. A person holding operating rights in a lease issued by the United States. A lessee also may be an operating rights owner if the operating rights in a lease or portion thereof have not been conveyed to another person.

Operations. Surface disturbing activities that are conducted on a leasehold on National Forest System lands pursuant to a current approved surface use plan of operations, including but not limited to, exploration, development, and production of oil and gas resources and reclamation of surface resources.

Operator. Any person or entity, including, but not limited to, the lessee or operating rights owner, who has stated in writing to the authorized Forest officer that they are responsible under the terms and conditions of the lease for the operations conducted on the leased lands or a portion thereof.

Person. An individual, partnership, corporation, association or other legal entity.

Substantial modification. A change in lease terms or a modification, waiver, or exception of a lease stipulation that would require an environmental assessment or environmental impact statement be prepared pursuant to the National Environmental Policy Act of 1969.

Surface use plan of operations. A plan for surface use, disturbance, and reclamation.

Transfer. Any conveyance of an interest in a lease by assignment, sublease or otherwise. This definition includes the terms: Assignment which means a conveyance of all or a portion of the lessee’s record title interest in a lease; and sublease which means a conveyance of a non-record interest in a lease, i.e., a conveyance of operating rights is normally a sublease and a sublease also is a subsidiary arrangement between the lessee (sublessor) and the sublessee, but a sublease does not include a transfer of a purely financial interest, such as overriding royalty interest or payment out of production, nor does it affect the relationship imposed by a lease between the lessee(s) and the United States.

Transferee. A person to whom an interest in a lease issued by the United States has been transferred.

LEASING

§228.102 Leasing analyses and decisions.

(b) Scheduling analysis of available lands. Within 6 months of April 20, 1990, Forest Supervisors shall develop, in cooperation with the Bureau of Land Management and with public input, a schedule for analyzing lands under their jurisdiction that have not been already analyzed for leasing. The Forest Supervisors shall revise or make additions to the schedule at least annually. In scheduling lands for analysis, the authorized Forest officer shall identify and exclude from further review the following lands which are legally unavailable for leasing:

1) Lands withdrawn from mineral leasing by an act of Congress or by an order of the Secretary of the Interior;
§ 228.103 Notice of appeals of decisions.

The authorized Forest officer shall promptly notify the Bureau of Land Management if appeals of either an area or Forest-wide leasing decision or a leasing decision for specific lands are
§ 228.104 Consideration of requests to modify, waive, or grant exceptions to lease stipulations.

(a) General. An operator submitting a surface use plan of operations may request the authorized Forest officer to authorize the Bureau of Land Management to modify (permanently change), waive (permanently remove), or grant an exception (case-by-case exemption) to a stipulation included in a lease at the direction of the Forest Service. The person making the request is encouraged to submit any information which might assist the authorized Forest officer in making a decision.

(b) Review. The authorized Forest officer shall review any information submitted in support of the request and any other pertinent information.

(1) As part of the review, consistent with 30 U.S.C. 226 (f)–(g), the authorized Forest officer shall ensure compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4331 et seq.) and any other applicable laws, and shall ensure preparation of any appropriate environmental documents.

(2) The authorized Forest officer may authorize the Bureau of Land Management to modify, waive, or grant an exception to a stipulation if:

(i) The action would be consistent with applicable Federal laws;

(ii) The action would be consistent with the current forest land and resource management plan;

(iii) The management objectives which led the Forest Service to require the inclusion of the stipulation in the lease can be met without restricting operations in the manner provided for by the stipulation given the change in the present condition of the surface resources involved, or given the nature, location, timing, or design of the proposed operations; and

(iv) The action is acceptable to the authorized Forest officer based upon a review of the environmental consequences.

(c) Other agency stipulations. If a stipulation was included in a lease by the Forest Service at the request of another agency, the authorized Forest officer shall consult with that agency prior to authorizing modification, waiver, or exception.

(d) Notice of decision. (1) When the review of a stipulation modification, waiver, or exception request has been completed and the authorized Forest officer has reached a decision, the authorized Forest officer shall promptly notify the operator and the appropriate Bureau of Land Management office, in writing, of the decision to grant, or grant with additional conditions, or deny the request.

(2) Any decision to modify, waive, or grant an exception to a lease stipulation shall be subject to administrative appeal only in conjunction with an appeal of a decision on a surface use plan of operation or supplemental surface use plan of operation.

AUTHORIZATION OF OCCUPANCY WITHIN A LEASEHOLD

§ 228.105 Issuance of onshore orders and notices to lessees.

(a) Onshore oil and gas orders. The Chief of the Forest Service may issue, or cosign with the Director, Bureau of Land Management, Onshore Oil and Gas Orders necessary to implement and supplement the regulations of this subpart.

(1) Adoption of Onshore Oil and Gas Order No. 1. Until such time as another order is adopted and codified in the CFR, operators shall submit surface use plans of operations in accordance with Section III.G.4(b), Guidelines for preparing surface use program, of the Department of the Interior, Bureau of Land Management, Onshore Oil and Gas Order No. 1, 48 FR 48915–30 (Oct. 21, 1983), published as Appendix A to this subpart.

(2) Adoption of additional onshore oil and gas orders. Additional onshore oil and gas orders shall be published in the Federal Register for public comment and codified in the CFR.

(3) Applicability of onshore oil and gas orders. Onshore Oil and Gas Orders issued pursuant to this section are binding on all operations conducted on National Forest System lands, unless otherwise provided therein.

(b) Notices to lessees, transferees, and operators. The authorized Forest officer...
§ 228.106 Operator’s submission of surface use plan of operations.

(a) General. No permit to drill on a Federal oil and gas lease for National Forest System lands may be granted without the analysis and approval of a surface use plan of operations covering proposed surface disturbing activities. An operator must obtain an approved surface use plan of operations before conducting operations that will cause surface disturbance. The operator shall submit a proposed surface use plan of operations as part of an Application for a Permit to Drill to the appropriate Bureau of Land Management office for forwarding to the Forest Service, unless otherwise directed by the Onshore Oil and Gas Order in effect when the proposed plan of operations is submitted.

(b) Preparation of plan. In preparing a surface use plan of operations, the operator is encouraged to contact the local Forest Service office to make use of such information as is available from the Forest Service concerning surface resources and uses, environmental considerations, and local reclamation procedures.

(c) Content of plan. The type, size, and intensity of the proposed operations and the sensitivity of the surface resources that will be affected by the proposed operations determine the level of detail and the amount of information which the operator includes in a proposed plan of operations. However, any surface use plan of operations submitted by an operator shall contain the information specified by the Onshore Oil and Gas Order in effect when the surface use plan of operations is submitted.

(d) Supplemental plan. An operator must obtain an approved supplemental surface use plan of operations before conducting any surface disturbing operations that are not authorized by a current approved surface use plan of operations. The operator shall submit a proposed supplemental surface use plan of operations to the appropriate Bureau of Land Management office for forwarding to the Forest Service, unless otherwise directed by the Onshore Oil and Gas Order in effect when the proposed supplemental plan of operations is submitted. The supplemental plan of operations need only address those operations that differ from the operations authorized by the current approved surface use plan of operations. A supplemental plan is otherwise subject to the same requirements under this subpart as an initial surface use plan of operations.

§ 228.107 Review of surface use plan of operations.

(a) Review. The authorized Forest officer shall review a surface use plan of operations as promptly as practicable given the nature and scope of the proposed plan. As part of the review, the authorized Forest officer shall comply with the National Environmental Policy Act of 1969, implementing regulations at 40 CFR parts 1500–1508, and the Forest Service implementing policies and procedures set forth in Forest Service Manual Chapter 1950 and Forest Service Handbook 1909.15 and shall ensure that:

1. The surface use plan of operations is consistent with the lease, including the lease stipulations, and applicable Federal laws;

2. To the extent consistent with the rights conveyed by the lease, the surface use plan of operations is consistent with, or is modified to be consistent with, the applicable current approved forest land and resource management plan;

3. The surface use plan of operations meets or exceeds the surface use requirements of §228.108 of this subpart; and

4. The surface use plan of operations is acceptable, or is modified to be acceptable, to the authorized Forest officer based upon a review of the environmental consequences of the operations.
§ 228.108 Surface use requirements.

(a) General. The operator shall conduct operations on a leasehold on National Forest System lands in a manner that minimizes effects on surface resources, prevents unnecessary or unreasonable surface resource disturbance, and that is in compliance with the other requirements of this section.

(b) Decision. The authorized Forest officer shall make a decision on the approval of a surface use plan of operations as follows:

(1) If the authorized Forest officer will not be able to make a decision on the proposed plan within 3 working days after the conclusion of the 30-day notice period provided for by 30 U.S.C. 226(f), the authorized Forest officer shall advise the appropriate Bureau of Land Management office and the operator as soon as such delay becomes apparent, either in writing or orally with subsequent written confirmation, that additional time will be needed to process the plan. The authorized Forest officer shall explain the reason why additional time is needed and project the date by which a decision on the plan will likely be made.

(2) When the review of a surface use plan of operations has been completed, the authorized Forest officer shall promptly notify the operator and the appropriate Bureau of Land Management office, in writing, that:

(i) The plan is approved as submitted:

(ii) The plan is approved subject to specified conditions; or,

(iii) The plan is disapproved for the reasons stated.

(c) Notice of decision. The authorized Forest officer shall give public notice of the decision on a plan and include in the notice that the decision is subject to appeal under the administrative appeal procedures at 36 CFR parts 217 and 251, subpart C.

(d) Transmittal of decision. The authorized Forest officer shall immediately forward a decision on a surface use plan of operations to the appropriate Bureau of Land Management office and the operator. This transmittal shall include the estimated cost of reclamation and restoration (§ 228.109(a)) if the authorized Forest officer believes that additional bonding is required.

(e) Supplemental plans. A supplemental surface use plan of operations (§ 228.106(d)) shall be reviewed in the same manner as an initial surface use plan of operations.
§ 228.109

(iv) Reshape and revegetate disturbed areas;
(v) Remove structures, improvements, facilities and equipment, unless otherwise authorized; and
(vi) Take such other reclamation measures as specified in the approved surface use plan of operations.

(h) Safety measures. (1) The operator must maintain structures, facilities, improvements, and equipment located on the area of operation in a safe and neat manner and in accordance with an approved surface use plan of operations.
(2) The operator must take appropriate measures in accordance with applicable Federal and State laws and regulations to protect the public from hazardous sites or conditions resulting from the operations. Such measures may include, but are not limited to, posting signs, building fences, or otherwise identifying the hazardous site or condition.

(i) Wastes. The operator must either remove garbage, refuse, and sewage from National Forest System lands or treat and dispose of that material in such a manner as to minimize or prevent adverse impacts on surface resources. The operator shall treat or dispose of produced water, drilling fluid, and other waste generated by the operations in such a manner as to minimize or prevent adverse impacts on surface resources.

(j) Watershed protection. (1) Except as otherwise provided in the approved surface use plan of operations, the operator shall not conduct operations in areas subject to mass soil movement, riparian areas and wetlands.
(2) The operator shall take measures to minimize or prevent erosion and sediment production. Such measures include, but are not limited to, siting structures, facilities, and other improvements to avoid steep slopes and excessive clearing of land.

§ 228.110 Bonds.

(a) General. As part of the review of a proposed surface use plan of operations, the authorized Forest officer shall consider the estimated cost to the Forest Service to reclaim those areas that would be disturbed by operations and to restore any lands or surface waters adversely affected by the lease operations after the abandonment or cessation of operations on the lease. If at any time prior to or during the conduct of operations, the authorized Forest officer determines the financial instrument held by the Bureau of Land Management is not adequate to ensure complete and timely reclamation and restoration, the authorized Forest officer shall give the operator the option of either increasing the financial instrument held by the Bureau of Land Management or filing a separate instrument with the Forest Service in the amount deemed adequate by the authorized Forest officer to ensure reclamation and restoration.

(b) Standards for estimating reclamation costs. The authorized Forest officer shall consider the costs of the operator’s proposed reclamation program and the need for additional measures to be taken when estimating the cost to the Forest Service to reclaim the disturbed area.

(c) Release of reclamation liability. An operator may request the authorized Forest officer to notify the Bureau of Land Management of reduced reclamation liability at any time after reclamation has commenced. The authorized Forest officer shall, if appropriate, notify the Bureau of Land Management as to the amount to which the liability has been reduced.

§ 228.110 Indemnification.

The operator and, if the operator does not hold all of the interest in the applicable lease, all lessees and transferees are jointly and severally liable in accordance with Federal and State laws for indemnifying the United States for:

(a) Injury, loss or damage, including fire suppression costs, which the United States incurs as a result of the operations; and

(b) Payments made by the United States in satisfaction of claims, demands or judgments for an injury, loss or damage, including fire suppression costs, which result from the operations.
§ 228.111 Temporary cessation of operations.

(a) General. As soon as it becomes apparent that there will be a temporary cessation of operations for a period of 45 days or more, the operator must verbally notify and subsequently file a statement with the authorized Forest officer verifying the operator’s intent to maintain structures, facilities, improvements, and equipment that will remain on the area of operation during the cessation of operations, and specifying the expected date by which operations will be resumed.

(b) Seasonal shutdowns. The operator need not file the statement required by paragraph (a) of this section if the cessation of operations results from seasonally adverse weather conditions and the operator will resume operations promptly upon the conclusion of those adverse weather conditions.

(c) Interim measures. The authorized Forest officer may require the operator to take reasonable interim reclamation or erosion control measures to protect surface resources during temporary cessations of operations, including during cessations of operations resulting from seasonally adverse weather conditions.

§ 228.112 Compliance and inspection.

(a) General. Operations must be conducted in accordance with the lease, including stipulations made part of the lease at the direction of the Forest Service, an approved surface use plan of operations, the applicable Onshore Oil and Gas Order (§228.105(a)), an applicable Notice to lessees, transferees, and operators (§228.105(b)), and regulations of this subpart.

(b) Completion of reclamation. The authorized Forest officer shall give prompt written notice to an operator whenever reclamation of a portion of the area affected by surface operations has been satisfactorily completed in accordance with the approved surface use plan of operations and §228.108 of this subpart. The notice shall describe the portion of the area on which the reclamation has been satisfactorily completed.

(c) Compliance with other statutes and regulations. Nothing in this subpart shall be construed to relieve an operator from complying with applicable Federal and State laws or regulations, including, but not limited to:

1. Federal and State air quality standards, including the requirements of the Clean Air Act, as amended (42 U.S.C. 1857 et seq.);

2. Federal and State water quality standards, including the requirements of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1151 et seq.);

7. Applicable Onshore Oil and Gas Orders and Notices to Lessees and Operators (NTL’s) issued by the United States Department of the Interior, Bureau of Land Management pursuant to 43 CFR chapter II, part 3160, subpart 3164.

(d) Penalties. If surface disturbing operations are being conducted that are not authorized by an approved surface use plan of operations or that violate a term or operating condition of an approved surface use plan of operations, the person conducting those operations is subject to the prohibitions and attendant penalties of 36 CFR part 261.
§ 228.113 Inspection. Forest Service officers shall periodically inspect the area of operations to determine and document whether operations are being conducted in compliance with the regulations in this subpart, the stipulations included in the lease at the direction of the Forest Service, the approved surface use plan of operations, the applicable Onshore Oil and Gas Order, and applicable Notices to Lessees, Transferees, and Operators.

§ 228.113 Notice of noncompliance.

(a) Issuance. When an authorized Forest officer finds that the operator is not in compliance with a reclamation or other standard, a stipulation included in a lease at the direction of the Forest Service, an approved surface use plan of operation, the regulations in this subpart, the applicable onshore oil and gas order, or an applicable notice to lessees, transferees, and operators, the authorized Forest officer shall issue a notice of noncompliance.

(1) Content. The notice of noncompliance shall include the following:

(i) Identification of the reclamation requirements or other standard(s) with which the operator is not in compliance;

(ii) Description of the measures which are required to correct the noncompliance;

(iii) Specification of a reasonable period of time within which the noncompliance must be corrected;

(iv) If the noncompliance appears to be material, identification of the possible consequences of continued noncompliance of the requirement(s) or standard(s) as described in 30 U.S.C. 226(g);

(v) If the noncompliance appears to be in violation of the prohibitions set forth in 36 CFR part 261, identification of the possible consequences of continued noncompliance of the requirement(s) or standard(s) as described in 36 CFR 261.1b; and

(vi) Notification that the authorized Forest officer remains willing and desirous of working cooperatively with the operator to resolve or remedy the noncompliance.

(2) Extension of deadlines. The operator may request an extension of a deadline specified in a notice of noncompliance if the operator is unable to come into compliance with the applicable requirement(s) or standard(s) identified in the notice of noncompliance by the deadline because of conditions beyond the operator's control. The authorized Forest officer shall not extend a deadline specified in a notice of noncompliance unless the operator requested an extension and the authorized Forest officer finds that there was a condition beyond the operator's control, that such condition prevented the operator from complying with the notice of noncompliance by the specified deadline, and that the extension will not adversely affect the interests of the United States. Conditions which may be beyond the operator's control include, but are not limited to, closure of an area in accordance with 36 CFR part 261, subparts B or C, or inaccessibility of an area of operations due to such conditions as fire, flooding, or snowpack.

(3) Manner of service. The authorized Forest officer shall serve a notice of noncompliance or a decision on a request for extension of a deadline specified in a notice upon the operator in person, by certified mail or by telephone. However, if notice is initially provided in person or by telephone, the authorized Forest officer shall send the operator written confirmation of the notice or decision by certified mail.

(b) Failure to come into compliance. If the operator fails to come into compliance with the applicable requirement(s) or standard(s) identified in a notice of noncompliance by the deadline specified in the notice, or an approved extension, the authorized Forest officer shall decide whether: The noncompliance appears to be material given the reclamation requirements and other standards applicable to the lease established by 30 U.S.C. 226(g), the noncompliance is likely to result in danger to public health or safety or irreparable resource damage; and the
noncompliance is resulting in an emergency.

(1) Referral to compliance officer. When the operations appear to be in material noncompliance, the authorized Forest officer shall promptly refer the matter to the compliance officer. The referral shall be accompanied by a complete statement of the facts supported by appropriate exhibits. Apparent material noncompliance includes, but is not limited to, operating without an approved surface use plan of operations, conducting operations that have been suspended, failure to timely complete reclamation in accordance with an approved surface use plan of operations, failure to maintain an additional bond in the amount required by the authorized Forest officer during the period of operation, failure to timely reimburse the Forest Service for the cost of abating an emergency, and failing to comply with any term included in a lease, stipulation, or approved surface use plan of operations, the applicable offshore oil and gas order, or an applicable Notice to lessees, transferees, and operators, relating to the protection of a threatened or endangered species.

(2) Suspension of operations. When the noncompliance is likely to result in danger to public health or safety or in irreparable resource damage, the authorized Forest officer shall suspend the operations, in whole or in part.

(i) A suspension of operations shall remain in effect until the authorized Forest officer determines that the operations are in compliance with the applicable requirement(s) or standard(s) identified in the notice of noncompliance.

(ii) The authorized Forest officer shall promptly serve a bill for such costs upon the operator by certified mail.

§ 228.114 Material noncompliance proceedings.

(a) Evaluation of referral. The compliance officer shall promptly evaluate a referral made by the authorized Forest officer pursuant to § 228.113(b)(1) of this subpart.

(b) Dismissal of referral. The compliance officer shall dismiss the referral if the compliance officer determines that there is not adequate evidence to support a reasonable belief that:

(1) The operator was not in compliance with the applicable requirement(s) or standard(s) identified in a notice of noncompliance by the deadline specified in the notice, or an extension approved by the authorized Forest officer; or

(2) The noncompliance with the applicable requirement(s) or standard(s) identified in the notice of noncompliance may be material.

(c) Initiation of proceedings. The compliance officer shall initiate a material noncompliance proceeding if the compliance officer agrees that there is adequate evidence to support a reasonable belief that an operator has failed to come into compliance with the applicable requirement(s) or standard(s) identified in a notice of noncompliance by the deadline specified in the notice, or extension approved by the authorized Forest officer, and that the noncompliance may be material.

(1) Notice of proceedings. The compliance officer shall inform the lessee and operator of the material noncompliance proceeding by certified mail, return receipt requested.

(2) Content of notice. The notice of the material noncompliance proceeding shall include the following:
§ 228.114  (i) The specific reclamation requirement(s) or other standard(s) of which the operator may be in material noncompliance;

(ii) A description of the measures that are required to correct the violation;

(iii) A statement that if the compliance officer finds that the operator is in material noncompliance with a reclamation requirement or other standard applicable to the lease, the Secretary of the Interior will not be able to issue new leases or approve new transfers of leases to the operator, any subsidiary or affiliate of the operator, or any person controlled by or under common control with the operator until the compliance officer finds that the operator has come into compliance with such requirement or standard; and

(iv) A recitation of the specific procedures governing the material noncompliance proceeding set forth in paragraphs (d) through (g) of this section.

(d) Answer. Within 30 calendar days after receiving the notice of the proceeding, the operator may submit, in person, in writing, or through a representative, an answer containing information and argument in opposition to the proposed material noncompliance finding, including information that raises a genuine dispute over the material facts. In that submission, the operator also may:

(1) Request an informal hearing with the compliance officer; and

(2) Identify pending administrative or judicial appeal(s) which are relevant to the proposed material noncompliance finding and provide information which shows the relevance of such appeal(s).

(e) Informal hearing. If the operator requests an informal hearing, it shall be held within 20 calendar days from the date that the compliance officer receives the operator’s request.

(1) The compliance officer may postpone the date of the informal hearing if the operator requests a postponement in writing.

(2) At the hearing, the operator, appearing personally or through an attorney or another authorized representative, may informally present and explain evidence and argument in opposition to the proposed material noncompliance finding.

(3) A transcript of the informal hearing shall not be required.

(f) Additional procedures as to disputed facts. If the compliance officer finds that the answer raises a genuine dispute over facts essential to the proposed material noncompliance finding, the compliance officer shall so inform the operator by certified mail, return receipt requested. Within 10 days of receiving this notice, the operator may request a fact-finding conference on those disputed facts.

(1) The fact-finding conference shall be scheduled within 20 calendar days from the date the compliance officer receives the operator’s request, unless the operator and compliance officer agree otherwise.

(2) At the fact-finding conference, the operator shall have the opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront the person(s) the Forest Service presents.

(3) A transcribed record of the fact-finding conference shall be made, unless the operator and the compliance officer by mutual agreement waive the requirement for a transcript. The transcript will be made available to the operator at cost upon request.

(4) The compliance officer may preside over the fact-finding conference or designate another authorized Forest officer to preside over the fact-finding conference.

(5) Following the fact-finding conference, the authorized Forest officer who presided over the conference shall promptly prepare written findings of fact based upon the preponderance of the evidence. The compliance officer may reject findings of fact prepared by another authorized Forest officer, in whole or in part, if the compliance officer specifically determines that such findings are arbitrary and capricious or clearly erroneous.

(g) Dismissal of proceedings. The compliance officer shall dismiss the material noncompliance proceeding if, before the compliance officer renders a decision pursuant to paragraph (h) of this section, the authorized Forest officer who made the referral finds that the operator has come into compliance.
with the applicable requirements or standards identified in the notice of proceeding.

(h) Compliance officer’s decision. The compliance officer shall base the decision on the entire record, which shall consist of the authorized Forest officer’s referral and its accompanying statement of facts and exhibits, information and argument that the operator provided in an answer, any information and argument that the operator provided in an informal hearing if one was held, and the findings of fact if a fact-finding conference was held.

(1) Content. The compliance officer’s decision shall state whether the operator has violated the requirement(s) or standard(s) identified in the notice of proceeding and, if so, whether the noncompliance is material given the applicable onshore oil and gas regulations in this subpart or an applicable notice to lessees, transferees, and operators. If the compliance officer finds that the operator has been found in material noncompliance, the compliance officer shall base the decision as to whether the authorized Forest officer agrees that the operator has come into compliance with the requirement(s) or standard(s) identified in the compliance officer’s decision. If the authorized Forest officer disagrees with the operator, the written statement shall be accompanied by a complete statement of the facts supported by appropriate exhibits.

(2) Service. The compliance officer shall serve the decision upon the operator by certified mail, return receipt requested. If the operator is found to be in material noncompliance, the compliance officer also shall immediately send a copy of the decision to the appropriate Bureau of Land Management office and to the Secretary of the Interior.

(i) Petition for withdrawal of finding. If an operator who has been found to be in material noncompliance under the provisions of this section believes that the operator has subsequently come into compliance with the applicable requirement(s) or standard(s) identified in the compliance officer’s decision, the operator may submit a written petition requesting that the material noncompliance finding be withdrawn. The petition shall be submitted to the authorized Forest officer who issued the operator the notice of noncompliance under §228.113(a) of this subpart and shall include information or exhibits which shows that the operator has come into compliance with the requirement(s) or standard(s) identified in the compliance officer’s decision.

(1) Response to petition. Within 30 calendar days after receiving the operator’s petition for withdrawal, the authorized Forest officer shall submit a written statement to the compliance officer as to whether the authorized Forest officer agrees that the operator has come into compliance with the requirement(s) or standard(s) identified in the compliance officer’s decision. If the authorized Forest officer disagrees with the operator, the written statement shall be accompanied by a complete statement of the facts supported by appropriate exhibits.

(2) Additional procedures as to disputed material facts. If the compliance officer finds that the authorized Forest officer’s response raises a genuine dispute over facts material to the decision as to whether the operator has come into compliance with the requirement(s) or standard(s) identified in the compliance officer’s decision, the compliance officer shall so notify the operator and authorized Forest officer by certified mail, return receipt requested. The notice shall also advise the operator that the fact-finding procedures specified in paragraph (f) of this section apply to the compliance officer’s decision on the petition for withdrawal.

(3) Compliance officer’s decision. The compliance officer shall base the decision on the petition on the entire record, which shall consist of the operator’s petition for withdrawal and its accompanying exhibits, the authorized Forest officer’s response to the petition and, if applicable, its accompanying statement of facts and exhibits, and if a fact-finding conference was held, the findings of fact. The compliance officer shall serve the decision on the operator by certified mail.
§ 228.115 Additional notice of decisions.

(a) The authorized Forest officer shall promptly post notices provided by the Bureau of Land Management of:

(1) Competitive lease sales which the Bureau plans to conduct that include National Forest System lands;

(2) Substantial modifications in the terms of a lease which the Bureau proposes to make for leases on National Forest System lands; and

(3) Applications for permits to drill which the Bureau has received for leaseholds located on National Forest System lands.

(b) The notice shall be posted at the offices of the affected Forest Supervisor and District Ranger in a prominent location readily accessible to the public.

(c) The authorized Forest officer shall keep a record of the date(s) the notice was posted in the offices of the affected Forest Supervisor and District Ranger.

(d) The posting of notices required by this section are in addition to the requirements for public notice of decisions provided in §228.104(d) (Notice of decision) and §228.107(c) (Notice of decision) of this subpart.

§ 228.116 Information collection requirements.

(a) Sections containing information requirements. The following sections of this subpart contain information requirements as defined in 5 CFR part 1320 and have been approved for use by the Office of Management and Budget:

(1) Section 228.104(a) Requests to Modify, WAve, or Grant Exceptions to Leasing Stipulations;

(2) Section 228.106 (a), (c), and (d) Submission of Surface Use Plan of Operations;

(3) Section 228.109(c) Request for Reduction in Reclamation Liability after Reclamation;

(4) Section 228.111(a) Notice of Temporary Cessation of Operations;

(5) Section 228.113(a)(2) Extension of Deadline in Notice of Noncompliance; and

(6) Section 228.114 (c) through (i) Material Noncompliance Proceedings.

(b) OMB control number. The information requirements listed in paragraph (a) of this section have been assigned OMB Control No. 0596–0101.

(c) Average estimated burden hours. (1) The average burden hours per response are estimated to be:

(i) 5 minutes for the information requirements in §228.104(a) of this subpart;

(ii) No additional burden hours required to meet the information requirements in §228.106 (a), (c), and (d) of this subpart;
(iii) 10 minutes for the information requirements in §228.109(c) of this subpart;
(iv) 10 minutes for the information requirements in §228.111(a) of this subpart;
(v) 5 minutes for the information requirements in §228.113(a)(2) of this subpart; and
(vi) 2 hours for the information requirements in §228.114 (c) through (i) of this subpart.

(2) Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Chief (2800), Forest Service, USDA, P.O. Box 96090, Washington, DC 20090-6090 and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

APPENDIX A TO SUBPART E OF PART 228—GUIDELINES FOR PREPARING SURFACE USE PLANS OF OPERATION FOR DRILLING

I. Components of a Complete Application for Permit to Drill

(a) Guidelines for Preparing Surface Use Program. In preparing this program, the lessee or operator shall submit maps, plats, and narrative descriptions which adhere closely to the following (maps and plats should be of a scale no smaller than 1:24,000 unless otherwise stated below):

(1) Existing Roads. A legible map (USGS topographic, county road, Alaska Borough, or other such map), labeled and showing the access route to the location, shall be used for locating the proposed well site in relation to a town (village) or other locatable point, such as a highway or county road, which handles the majority of the through traffic to the general area. The proposed route to the location, including appropriate distances from the point where the access route exits established roads, shall be shown. All access roads shall be appropriately labeled. Any plans for improvement and/or a statement that existing roads will be maintained in the same or better condition shall be provided. Existing roads and newly constructed roads on surface under the jurisdiction of a Surface Management Agency shall be maintained in accordance with the standards of the Surface Management Agency.

Information required by items (2), (3), (4), (5), (6), and (8) of this subsection also may be shown on this map if appropriately labeled or on a separate plat or map.

(2) Access Roads to Be Constructed and Reconstructed. All permanent and temporary access roads that are to be constructed, or reconstructed, in connection with the drilling of the proposed well shall be appropriately identified and submitted on a map or plat. Width, maximum grade, major cuts and fills, turnsouts, drainage design, location and size of culverts and/or bridges, fence cuts and/or cattleguards, and type of surfacing material, if any, shall be stated for all construction. In addition, where permafrost exists, the methods for protection from thawing must be indicated. Modification of proposed road design may be required during the onsite inspection.

Information also should be furnished to indicate where existing facilities may be altered or modified. Such facilities include gates, cattleguards, culverts, and bridges which, if installed or replaced, shall be designed to adequately carry anticipated loads.

(3) Location of Existing Wells. It is recommended that this information be submitted on a map or plat and include all wells (water, injection or disposal, producing, and drilling) within a 1-mile radius of the proposed location.

(4) Location of Existing and/or Proposed Facilities if Well is Productive.

(i) On well pad—A map or plat shall be included showing, to the extent known or anticipated, the location of all production facilities and lines to be installed if the well is successfully completed for production.

(ii) Off well pad—A map or plat shall be included showing, to the extent known or anticipated, the existing or new production facilities to be utilized and the lines to be installed if the well is successfully completed for production. If new construction, the dimensions of the facility layout are to be shown.

If the information required under (a) or (b) above is not known and cannot be accurately presented and the well subsequently is completed for production, the lessee or operator shall then comply with section IV of this Order.

(5) Location and Type of Water Supply (Rivers, Creeks, Springs, Lakes, Ponds, and Wells). This information may be shown by quarter-quarter section on a map or plat, or may be a written description. The source and transportation method for all water to be used in drilling the proposed well shall be noted if the source is located on Federal or Indian lands or if water is to be used from a Federal or Indian project. If the water is obtained from other than Federal or Indian lands, only the location need be identified. Any access roads crossing Federal or Indian lands that are needed to haul the water shall be described in items G.4.b. (1) and (2), as appropriate. If a water supply well is to be drilled on the lease, it shall be so stated under this item, and the authorized officer of the BLM may require the filing of a separate APD.
(6) Construction Materials. The lessee or operator shall state the character and intended use of all construction materials such as sand, gravel, stone and soil material. If the materials to be used are Federally-owned, the proposed source shall be shown by either quarter-quarter section on a map or plat, or a written description. The use of materials under private ownership shall be governed by 43 CFR 3610.2-3. The authorized officer shall inform the lessee or operator if the materials may be used free of charge or if an application for sale is required. If the materials to be used are Indian owned or under the jurisdiction of any Surface Management Agency other than BLM, the specific tribe and or Area Superintendent of BIA, or the appropriate Surface Management Agency office shall be contacted to determine the appropriate procedure for use of the materials.

(7) Methods for Handling Waste Disposal. A written description shall be given of the methods and locations proposed for safe containment and disposal of each type of waste material (e.g., cuttings, garbage, salts, chemicals, sewage, etc.) that results from the drilling of the proposed well. Likewise, the narrative shall include plans for the eventual disposal of drilling fluids and any produced oil or water recovered during testing operations.

(8) Ancillary Facilities. The plans, or subsequent amendments to such plans, shall identify all ancillary facilities such as camps and airstrips as to their location, land area required, and the methods and standards to be employed in their construction. Such facilities shall be shown on a map or plat. The approximate center of proposed camps and the center line of airstrips shall be staked on the ground.

(9) Well Site Layout. A plat of suitable scale (not less than 1 inch=50 feet) showing the proposed drill pad and its location with respect to topographic features is required. Cross section diagrams of the drill pad showing any cuts and fills and the relation to topography are also required. The plat shall also include the approximate proposed location of the reserve and burn pits, access roads onto the pad, turnaround areas, parking area, living facilities, soil material stockpiles, and the orientation of the rig with respect to the pad and other facilities. Plans, if any to line the reserve pit should be detailed.

(10) Plans for Reclamation of the Surface. The program for surface reclamation upon completion of the operation, such as configuration of the reshaped topography, drainage system, segregation of spoil materials, surface manipulations, waste disposal, revegetation methods, and soil treatments, plus other practices necessary to reclaim all disturbed areas, including any access roads or portions of well pads when no longer needed, shall be stated. An estimate of the time for commencement and completion of reclamation operations, dependent on weather conditions and other local uses of the area, shall be provided.

(11) Surface Ownership. The surface ownership (Federal, Indian, State or private) at the well location, and for all lands crossed by roads which are to be constructed or upgraded, shall be indicated. Where the surface of the well site is privately owned, the operator shall provide the name, address, and telephone number of the surface owner, unless previously provided.

(12) Other Information. The lessee or operator is encouraged to submit any additional information that may be helpful in processing the application.

(13) Lessee’s or Operator’s Representative and Certification. The name, address, and telephone number of the lessee’s or operator’s field representative shall be included. The lessee or operator submitting the APD shall certify as follows: I hereby certify that I, or persons under my direct supervision, have inspected the proposed drill site and access route; that I am familiar with the conditions which currently exist; that the statements made in this plan are, to the best of my knowledge, true and correct; and that the work associated with operations proposed herein will be performed by and its contractors and subcontractors in conformity with this plan and the terms and conditions under which it is approved. This statement is subject to the provisions of 18 U.S.C. 1001 for the filing of a false statement.

PART 230—STATE AND PRIVATE FORESTRY ASSISTANCE

Subpart A—Stewardship Incentive Program

Sec. 230.1 Purpose and scope.
230.2 Definitions.
230.3 National program administration.
230.4 State program administration.
230.5 Eligibility requirements.
230.6 Landowner forest stewardship plan.
230.7 Program practices.
230.8 Application and approval.
230.9 Payment to landowners.
230.10 Prohibitions.
230.11 Recapture of payment.
230.12 Reconsideration.
230.13 Information requirements.

Subpart B—Urban and Community Forestry Assistance Program

230.20 Scope and authority.
230.21 Implementation of the program.
Subpart A—Stewardship Incentive Program

§ 230.1 Purpose and scope.

(a) The regulations in this subpart govern the operation of the Stewardship Incentive Program as provided in section 6 of the Cooperative Forestry Assistance Act, as amended by title XII of the Food, Agriculture, Conservation, and Trade Act of 1990 (16 U.S.C. 2101, et seq.). This subpart sets forth the rules and procedures by which the Stewardship Incentive Program will be administered by the Forest Service to establish forest stewardship practices on nonindustrial private forest land.

(b) The cost-share assistance provided under the Stewardship Incentive Program shall complement rather than replace or duplicate the existing Agricultural Conservation Program and Forestry Incentives Program. Tree planting and improvement and other State priorities for program activities and practices funded under the Stewardship Incentive Program shall be designed to provide multiple resource benefits not available through other cost-share programs.

§ 230.2 Definitions.

As used in this subpart, the following terms shall mean:

* Act means the Cooperative Forestry Assistance Act as amended (16 U.S.C. 2101, et seq.).

* Assignee means any person, corporation, government agency, or other legal entity to whom a landowner transfers legal rights to receive all or part of federal cost-share payments.

* Chief means the Chief of the Forest Service.

* Committee means the State Forest Stewardship Coordinating Committee established pursuant to section 19(b)(1) of the Act.

* Fiscal year means the fiscal year of the United States Government which is October 1 through September 30.

* Landowner means any private individual, group, association, corporation, Indian tribe or other native group, or other private legal entity, excluding corporations whose stocks are publicly traded or legal entities principally engaged in the production of wood products.

* Nonindustrial private forest land means rural lands with existing tree cover or which are suitable for growing trees and owned by any landowner as defined in this subpart.

* Practice means a stewardship activity or conservation measure consistent with the landowner plan to accomplish the landowner’s desired management objectives.

* Program means the Stewardship Incentive Program.

* Regional Forester means the Forest Service official charged with the administration of a Region of the National Forest System as described in 36 CFR 200.2, except that with reference to the States covered by the Eastern Region, such term shall mean the Area Director for States and Private Forestry, Northeastern Area (36 CFR 200.2);

* Resource Management Professional means any person who is recognized by the State Forester as having the knowledge and skills to develop landowner plans for managing the biological, economic, and environmental interrelationship of forest resources and to identify appropriate activities to manage, protect, or enhance forest resources including, but not limited to, an employee of a State forestry agency, other State resource agency, the Soil Conservation Service, a consulting forester, or wildlife biologist.

* Service Representative means a resource management professional designated by the State Forester to perform any or all of the following technical assistance functions: Review and approval of landowner plans, determination of need and feasibility of practices, establishment of site specific practice specifications, certification of completion of practices and performance of compliance checks pursuant to this subpart.

* State means any one of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, the Commonwealth of the North Marianas Islands,
§ 230.3 National program administration.

(a) The Chief shall develop and oversee all Program policy and procedure and monitor the implementation of such policy and procedure over the life of the Program.

(b) The Chief shall annually distribute among the States such cost-share funds as may be available for the Program after addressing the public benefit incidental to such distribution and after giving appropriate consideration to the following: The total acreage of nonindustrial private forest land in each State, the potential productivity of such land, the number of owners eligible for cost sharing in each State, the need for reforestation in each State, the opportunities to enhance nontimber resources on such forest lands, and the anticipated demand for timber and nontimber resources in each State. In making distributions under this paragraph, the Chief shall consult with a group of not less than five State Foresters selected by a majority of the State foresters.

(c) Tree planting, tree maintenance, and tree improvement are national priorities for cost-share practices under the Programs. In addition to these practices, the Chief, in consultation with the State Foresters, may develop other national priorities for practices to be cost shared under the Program and shall communicate such priorities to guide administration of the Program.

(d) The Chief shall review and determine approval of State plans, including any revisions of such plans.

(e) The Chief, in consultation with the State Foresters, shall annually reevaluate and set the percentage of Program funding to be made available for landowner forest stewardship plan development (§230.7(a)(1) of this subpart).

(f) The Chief may enter into such agreements with any other USDA agency as are necessary to administer the Program. These agreements may include provisions authorizing the collection of Program participant information, the management of accounting ledgers, and the disbursement of payments to participants.

(g) The Chief shall retain final authority to resolve all issues which may arise in the administration of the Program.

§ 230.4 State program administration.

(a) In each State participating in the Program, the Secretary of Agriculture, in consultation with the State Forester, shall establish a State Forest Stewardship Coordinating Committee whose composition meets the requirements of section 19(b) of the Act. The Committee shall be chaired by the State Forester, or the designee thereof.

(b) In each State participating in the Program, the Committee shall recommend to the State Forester for approval:

1. Stewardship Incentive Program needs within the State;
2. The minimum contiguous acreage of eligible nonindustrial private forest land, consistent with §230.5(c) of this subpart;
3. Those nationally approved practices that will be eligible for cost-share assistance within the State;
4. Those nationally approved technical practices and minimum specifications to be used in implementing practices;
5. The cost-share levels, by practice, which will encourage tree planting, maintenance, and improvement, and other high priority practices within the State that will result in multiple resource benefits;
6. The fixed rate or reimbursement or designated percentage of total cost for practice components;
7. The distribution mechanism for the allocation of cost-share funds within the State;
8. The assignment of technical responsibility, by type of Program practice, to the appropriate Service Representative;
(9) Guidelines for establishing annual priorities for the approval of landowner applications;
(10) The mechanisms for ensuring landowner compliance with practice specification;
(11) The mechanisms to monitor State participation in the Program; and
(12) Any adjustments in Program guideline, administration, or funding levels to better achieve Program objectives within the State.

(c) The State Forester, after giving full consideration to the recommendations of the Committee, shall approve Program administration procedures as set forth in paragraph (b) of this section. In the event a Committee fails to make timely recommendations with regard to any matter listed in paragraph (b) of this section, the State Forester is authorized to approve administrative procedures for implementing the Program without further delay.

(d) To participate in the Program, the State Forester, in consultation with the Committee, shall develop a State plan that shall provide baseline data on the forest resources of the State; describe economic and environmental opportunities that are linked with the forest resources of the State; address management problems, opportunities, and objectives associated with intermingled Federal, State, and private land ownership patterns within the State; and make planning recommendations for Federal, State, and local implementation of the Act.
(1) The State Plan shall cover a 5-year period, identify management goals for nonindustrial private forest lands and set priorities for achieving the goals and objectives identified for the State for each year.
(2) State Foresters may use existing resource inventories, landowner surveys, and other relevant planning data to develop the State plan.
(3) State plans shall become effective upon approval by the Chief.

(e) The State Forester shall administer the Program within the State and monitor the Programs to ensure that it is achieving desired results and shall ensure landowner compliance with practice installation specifications and maintenance of the practice.

(f) Not more than 10 percent of a State allocation of funds may be used to finance State Program development and administration. The State Forester must obtain approval from the Regional Forester of the amount of the State’s Program allocation to be used for State Program development and administration.

(g) The percent of the State’s Program allocation of funds that may be used to cost-share the development of Landowner Forest Stewardship plans will be determined pursuant to §230.3(e) of this subpart. The State Forester must obtain approval from the Regional Forester of the amount of the State’s Program allocation to be used for Landowner Forest Stewardship Plan development (§230.7(a)(1) of this subpart).

(h) The State Forester shall document and make available for public inspection all determinations made in consultation with the Committee.

§ 230.5 Eligibility requirements.

(a) All nonindustrial private forest landowners as defined in §230.2 of this subpart, including those who produce forest products on a part-time or intermittent basis, who meet the requirements of this section, are eligible to apply for and receive assistance under the Program without regard to race, color, religion, national origin, age, sex, marital status, or handicap.

(b) To be eligible to receive cost-share funds under the Program, a landowner shall own not more than a total of 1,000 acres of nonindustrial private forest land, except where the State Forester, with the concurrence of the Regional Forester, determines that significant public benefits would accrue from approval of a landowner owning not more than 5,000 acres. In making a determination of significant public benefits, the State Forester and the Regional Forester shall consider, at a minimum, whether the installation of practices by landowners who own more than 1,000 acres but less than 5,000
§ 230.6 Landowner forest stewardship plan.

(a) Prior to receiving approval to implement any Program practice identified in §230.7(a)(2)–(9) of this subpart, eligible landowners shall have an approved landowner forest stewardship plan. The landowner forest stewardship plan shall be prepared by a Resource Management Professional and approved by a Service Representative and shall identify and describe actions to be taken by the landowner to protect and manage soil, water, aesthetic qualities, recreation, timber, and fish and wildlife resources in a manner which is compatible with the objectives of the landowner.

(b) A landowner forest stewardship plan shall be effective for not less than 10 years, but shall be reviewed at least every five years and may be revised as needed, subject to approval of the Service Representative.

(c) To the extent deemed applicable by the Service Representative, where existing landowner management plans such as conservation plans, Tree Farm management plans, or similar plans meet or can be amended to meet Landowner Forest Stewardship Plan requirements, such plans shall satisfy the requirements of this section.

(d) If a landowner sells or otherwise conveys land covered by a landowner forest stewardship plan, such plan shall remain in effect if agreed to by the new owner. New landowner objectives shall be incorporated through plan revision as needed. Where the new landowner does not agree to adopt the Landowner Forest Stewardship plan, the new landowner cannot obtain approval of new Program practices without preparation and approval of a new Landowner Forest Stewardship Plan.

§ 230.7 Program practices.

(a) Practices for which cost sharing is available under the Stewardship Incentive Program and the reporting codes assigned to each are as follows:

1. Landowner Forest Stewardship Plan Development (SIP1), which identifies landowner objectives and multiple resource management decisions.

2. Reforestation and Afforestation (SIP2), which includes establishment or reestablishment of diverse stands of forest trees through natural regeneration, planting, or direct seeding for conservation purposes and sustainable timber production.

3. Forest and Agroforest Improvement (SIP3), which includes the improvement of forest and agroforest stand productivity, vigor, and health, and the value and quality of wood products.

4. Windbreak and Hedgerow Establishment, Maintenance and Renovation (SIP4), which includes the establishment, maintenance, and renovation of diverse stands of forest trees through natural regeneration, planting, or direct seeding for conservation purposes and sustainable timber production.

5. Soil and Water Protection and Improvement (SIP5), which includes the maintenance or improvement of water quality and soil productivity on forest land.
(6) Riparian and Wetland Protection and Improvement (SIP6), which includes the protection, restoration, and improvement of wetlands and riparian areas to maintain water quality and enhance habitat.

(7) Fisheries Habitat Enhancement (SIP7), which includes the protection and enhancement of habitat for native resident and anadromous fisheries.

(8) Wildlife Habitat Enhancement (SIP8), which includes the establishment and enhancement of permanent habitat for game and nongame wildlife species.

(9) Forest Recreation Enhancement (SIP9), which includes the enhancement of outdoor recreation activities and aesthetics.

(b) In the application and use of pesticides, including biological, chemical, and behavioral substances, practice performance shall meet all label requirements, State and Federal regulations, and local ordinances.

(c) Anyone who carries out practices under this Program shall be responsible for obtaining the authorities, rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations.

§ 230.8 Application and approval.

(a) A landowner wishing to participate in the Program shall contact the local office of the State Forester who shall provide information necessary to make application.

(b) The State Forester, or such official as the State Forester may designate, shall make basic eligibility determinations, including whether the applicant meets nonindustrial private forest land ownership criteria and minimum and maximum acreage criteria in accordance with §230.5 of this subpart, and approve Program practices. The landowner shall be notified of such determination in writing by mail.

(c) The State Forester, or such official as the State Forester may designate, shall approve Program practices based on the following:

(1) For approval of practices described in §230.7(a)(2)–(a)(9) of this subpart, verification that the landowner has an approved landowner forest stewardship plan.

(2) A determination whether the practice is needed and feasible.

(3) A determination that the practice is consistent with funding priorities established by the State Forester.

(d) Applications shall not be approved unless cost-share funds are available. Approval of an application shall constitute an agreement by the United States and the landowner to cost-share approved practices upon acceptable performance.

(e) Upon approval of Program practices, a Service Representative shall prepare a project outline that identifies the needed technical practices, specifications, and approximate time frame(s) for the implementation of the practice(s) to achieve the objectives of the landowner forest stewardship plan. Upon agreement by the landowner and the Service Representative to the requirements set forth in the project outline, the outline shall be attached to and become part of the landowner forest stewardship plan and shall be effective for the duration of the practice. Requirements of a project outline shall constitute the basis for determining acceptable performance upon practice completion.

(f) Upon approval of Program practices, the landowner shall be notified of approved practices in writing. Such notice shall state that the landowner can begin implementing approved practices.

§ 230.9 Payment to landowners.

(a) To be eligible for cost-share payments, a landowner must complete each practice within eighteen months of approval. However, if practice(s) are not completed in eighteen months due to conditions beyond the landowner’s control, a six month extension period may be granted by the Service Representative.

(b) Upon certification by the Service Representative that a practice has been completed in accordance with specifications, the federal cost-share
§ 230.9 payment will be calculated and disbursed to the landowner. Service Representatives shall have the right of access to the landowner's property to inspect practices for the duration of the practice maintenance period.

(c) The amount of payment under the Program to any one landowner shall not exceed $10,000 in any given fiscal year. For each landowner participating in the Program, the payment limitation shall apply as follows:

(1) Where husband and wife hold joint ownership, they shall be considered as a single landowner.

(2) Where any number of individuals hold common ownership, they shall be considered as a single landowner.

(3) Where the individual is a partner, corporate shareholder, or has an ownership interest in another private legal entity, the amount of payment to the individual shall be equivalent to the percentage of ownership the individual holds in such partnership, corporation or other private legal entity times the payment made to such partnership, corporation or other legal entity.

(d) Levels of federal cost-share funds to be paid to landowners shall be set by the State Forester, but shall not exceed 75 percent of the actual costs incurred by a participating landowner. Non-Federal program funds and other donated assistance may be used to supplement cost-share assistance under the Program; however, the total of all funds and assistance shall not exceed 100 percent of the actual cost of practice implementation.

(e) A practice may consist of one or more component activities. A landowner may receive partial payment for completed components on the condition that the landowner agrees to complete the remaining component(s) of the practice within the time period specified by the Service Representative, not to exceed eighteen months following approval to implement the practice, unless an extension is justified as provided in paragraph (a) of this section.

(f) Where performance actually rendered does not meet the minimum specifications of a practice due to factors beyond the landowner's control, the State Forester or designee may approve cost-share payment under one of the following conditions:

(1) The landowner repeats applications of components previously implemented or establishes additional eligible components under such terms and conditions as the Service Representative may require, in which case, the State Forester shall approve additional cost-sharing for additional or repeated components to the extent such measures are needed to meet the objectives of the landowner forest stewardship plan; or

(2) The landowner establishes to the satisfaction of the Service Representative that:

(i) A reasonable effort was made to meet the minimum requirements; and

(ii) The practice, as performed, adequately meets the objectives of the landowner forest stewardship plan.

(g) Where the landowner has received cost-share assistance for site preparation and the establishment of trees has been unsuccessful due to factors beyond the landowner's control, the Service Representative shall require that trees be re-established and shall approve cost-share assistance for such activity.

(h) If a landowner sells, conveys, or otherwise loses control of lands upon which there is a continuing obligation to maintain a practice and the new landowner does not agree to assume the responsibility for maintaining the practice, the landowner who was originally obligated to maintain the practice shall be liable to reimburse the United States for all cost-share payments on such practices.

(i) In case of death or incompetency of any landowner, the State Forester shall approve cost-share payments to the successor if the successor agrees to maintain the practices for the duration of the required maintenance period.

(j) Any landowner who may be entitled to any cost-share payment under this subpart may assign the right thereto, in whole or in part, under the following terms:

(1) Payments may be assigned only for performance of a Program practice.

(2) A payment which is made to a landowner may not be assigned to pay or secure any preexisting debt.
(3) Neither the United States, the Forest Service, the Secretary of Agriculture, nor any disbursing agent shall be liable in any suit if payment is made to an assignor rather than to an assignee, and nothing in this section shall be construed to authorize any suit against the United States, the Forest Service, the Secretary or any disbursing agent if payment is not made to the assignee, or if payment is made to only one of several assignees.

(k) No cost-share payment or portion thereof due and owing any landowner shall be subject to any claim arising under State law by any creditor, except agencies of the United States Government.

§ 230.10 Prohibitions.

(a) No cost-share funds shall be paid for the following:

(1) Costs incurred before an application for cost-share assistance is approved;

(2) The implementation of any practice(s) already required by law, regulation, or other authority; and

(3) Repairs or normal upkeep or maintenance of any practice.

(b) No cost-share assistance shall be paid for repeating practices on the same site by the same landowner which have been implemented under the Forestry Incentives Program (16 U.S.C. 2104) or any other Federal, State, or local government programs, or private sector programs, except where such practices are repeated due to a failure of a prior practice without fault of the landowner.

§ 230.11 Recapture of payment.

(a) If any landowner, successor, or assignee uses any scheme or device to unjustly benefit from this program, the cost-share funds shall be withheld or a refund of all or part of any Program payments otherwise due or paid shall be secured based on the extent and effect of destruction and impairment.

(b) If any landowner or successor takes any action or fails to take action which results in the destruction or impairment of a prescribed practice for the duration of the practice, cost-share funds shall be withheld or a recapture of all or part of any Program payments otherwise due or paid shall be secured based on the extent and effect of destruction and impairment.

(c) Nothing in this section requiring the withholding or refunding of cost-share funds shall preclude any penalty or liability otherwise imposed by law.

§ 230.12 Reconsideration.

Any landowner, successor, or assignee who is dissatisfied with any determination made under the Program may request reconsideration by the State Forester and, if the matter is still not resolved, by the Regional Forester. All requests for reconsideration shall be in writing and shall contain factual information explaining the basis for requesting reconsideration. All decisions upon reconsideration shall be issued in writing.

§ 230.13 Information requirements.

The requirements governing the preparation of a State forest stewardship plan in §230.4(d) of this subpart, the landowner forest stewardship plan in §230.6 of this subpart, and the application requirements of §230.8 constitute information requirements as defined by the Paperwork Reduction Act of 1980 (44 U.S.C. 3507) and have been approved for use pursuant to 5 CFR part 1320 and assigned OMB Control Number 0596–0120.

Subpart B—Urban and Community Forestry Assistance Program

SOURCE: 65 FR 57549, Sept. 25, 2000, unless otherwise noted.

§ 230.20 Scope and authority.

The Urban and Community Forestry Assistance Program is authorized by Section 9 of the Cooperative Forestry Assistance Act of 1978, as amended (16 U.S.C. 2105). The scope of this authority includes the provision of technical, financial, and related assistance to State and local governments, non-profits, and other members of the public to maintain, expand, and preserve forest
§ 230.21 Implementation of the program.

(a) The Urban and Community Forestry Assistance Program is implemented through the Forest Service Grants, Cooperative Agreements, and Other Agreements Program (FSM 1580) and the Grants, Cooperative Agreements, and Other Agreements Handbook (FSH 1509.11). The Forest Service Manual and Handbook are available from the Forest Service internet homepage or at National Forest offices.

(b) The Forest Service, under the authority of the Cooperative Forestry Assistance Act of 1978 and through the Urban and Community Forestry Assistance Program, coordinates financial, technical, and related assistance with the Natural Resources Conservation Service for the Urban Resources Partnership initiative. The Natural Resources Conservation Service provides similar assistance through the Urban Resources Partnership initiative under the authority of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590a-590f). The Urban Resources Partnership is an initiative in which Federal agencies, in cooperation with State and local agencies, community groups, and non-governmental organizations endeavor to be more effective, responsive, and efficient in working together to protect, improve, and rehabilitate the environment in urban areas of the Nation. The Forest Service and Natural Resources Conservation Service implement the Urban Resources Partnership initiative under the ‘Urban Resources Partnership National Guidance for U.S. Department of Agriculture Personnel’ and applicable agency and departmental procedures for Federal grants and cooperative agreements. Copies of the Guidance may be obtained from the Cooperative Forestry Staff, Forest Service, USDA, P.O. Box 96090, Washington, DC 20090-6090.

PART 241—FISH AND WILDLIFE

Subpart A—General Provisions

Sec.
241.1 Cooperation in wildlife protection.
241.2 Cooperation in wildlife management.
241.3 Federal refuge regulations.

Subpart B—Conservation of Fish, Wildlife, and Their Habitat, Chugach National Forest, Alaska

241.20 Scope and applicability.
241.21 Definitions.
241.22 Consistency determinations.
241.23 Taking of fish and wildlife.

Subpart A—General Provisions

SOURCE: 6 FR 1987, Apr. 17, 1941, unless otherwise noted.

§ 241.1 Cooperation in wildlife protection.

(a) Officials of the Forest Service will cooperate with State, county, and Federal officials in the enforcement of all laws and regulations for the protection of wildlife.

(b) Officials of the Forest Service who have been, or hereafter may be, lawfully appointed deputy game wardens under the laws of any State, will serve in such capacity with full power to enforce the State laws and regulations relating to fur-bearing and game animals, birds, and fish. Such officials will serve as State deputy game wardens without additional pay, except that they may accept the usual fees allowed by the respective States for issuing hunting and fishing licenses. All officials of the Forest Service are prohibited from accepting bounties, rewards, or parts of fines offered by any person, corporation or State for aid rendered in the enforcement of any Federal or State law relating to fur-bearing and game animals, birds, and fish.
§ 241.2 Cooperation in wildlife management.

The Chief of the Forest Service, through the Regional Foresters and Forest Supervisors, shall determine the extent to which national forests or portions thereof may be devoted to wildlife protection in combination with other uses and services of the national forests, and, in cooperation with the Fish and Game Department or other constituted authority of the State concerned, he will formulate plans for securing and maintaining desirable populations of wildlife species, and he may enter into such general or specific cooperative agreements with appropriate State officials as are necessary and desirable for such purposes. Officials of the Forest Service will cooperate with State game officials in the planned and orderly removal in accordance with the requirements of State laws of the crop of game, fish, fur-bearers, and other wildlife on national forest lands.

§ 241.3 Federal refuge regulations.

Until a cooperative agreement has been entered into between the Chief of the Forest Service and appropriate State officials for the regulation of game as provided in §241.2 and the necessary implementing laws or regulations have been promulgated and taken effect in order to carry out such cooperative agreement the following paragraphs shall be effective:

(a) Any person desiring to hunt or take game or non-game animals, game or non-game birds, or fish, upon any National Forest lands or waters embraced within the boundaries of a military reservation or a national game or bird refuge, preserve, sanctuary, or reservation established by or under authority of an act of Congress, shall procure in advance a permit from the Forest Supervisor. The permit shall be issued for a specified season, shall fix the bag or creel limits, and shall prescribe such other conditions as the Regional Forester may consider necessary for carrying out the purposes for which such lands have been set aside or reserved.

(b) Officials of the Forest Service will cooperate with persons, firms, corporations, and State and county officials in the protection, management, and utilization of game and non-game animals, game and non-game birds, and fish, upon national forest lands of the character referred to in paragraph (a) of this section. The Chief of the Forest Service may authorize the acceptance of contributions from cooperators for the payment of expenses incurred in carrying out the provisions of this section.

(c) When necessary for the protection of the forest or the conservation of animal life on refuges under paragraphs (a) and (b) of this section, the Chief of the Forest Service may sell, barter, exchange, or donate game and non-game animals. When the interests of game conservation will be promoted thereby, the Chief of the Forest Service may accept donations of game and non-game animals, game and non-game birds, and fish, or the eggs of birds and fish.

Subpart B—Conservation of Fish, Wildlife, and Their Habitat, Chugach National Forest, Alaska

SOURCE: 56 FR 63463, Dec. 4, 1991, unless otherwise noted.

§ 241.20 Scope and applicability.

(a) The regulations in this subpart apply to management of the Copper River-Rude River addition and Copper River-Bering River portion of the Chugach National Forest, for the conservation of fish, wildlife and their habitat as required by the Alaska National Interest Lands Conservation Act (16 U.S.C. 539). These regulations supplement the general regulations governing use and occupancy of National Forest System lands nationwide in 36 CFR part 251—Land Uses.

(b) The rules of this subpart are applicable only on Federally-owned lands within the boundaries of the Copper River-Rude River addition and the Copper River-Bering River portion of the Chugach National Forest, Alaska, known as the Copper River Management Area and as described and displayed in the Chugach National Forest Land and Resource Management Plan, July 1984.
§ 241.21 Definitions.

For the purpose of this subpart, the terms listed in this section shall be defined as follows:

ANILCA refers to the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101 et seq.)

Federal lands mean lands the title to which is in the United States, but does not include those lands: (1) Tentatively approved, legislatively conveyed, or patented to the State of Alaska, or (2) interim-conveyed or patented to a Native corporation or person.

Fish and Wildlife means any member of the animal kingdom, including without limitation any mammal, fish, bird, amphibian, reptile, mollusk, crustacean, arthropod, or other invertebrate, and includes any part, product, egg, or offspring thereof, or dead body or part thereof. For the purposes of this subpart, birds also include any migratory or endangered bird for which protection is afforded by treaty or other international agreement.

Land means lands, waters, and interests therein.

Multiple-use activity is a specific management or permitted activity, use, measure, course of action, or treatment of National Forest System lands carried out under the statutory charter of the Multiple-Use Sustained-Yield Act of 1960 (16 U.S.C. 528 et seq.) and the National Forest Management Act (16 U.S.C. 1600 et seq.).

Responsible Forest Officer is the Forest Service employee who has the authority to select, authorize, permit and/or carry out a specific multiple-use activity.

§ 241.22 Consistency determinations.

(a) Subject to valid existing rights, a multiple-use activity may be permitted or authorized within the areas of the Chugach National Forest subject to this subpart only after a determination by the responsible Forest Officer that such activity is consistent with the conservation of fish, wildlife, and their habitat. A use or activity may be determined to be consistent if it will not materially interfere with or detract from the conservation of fish, wildlife and their habitat.

(b) Where an evaluation is made pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4321) for a proposed multiple-use activity, and the responsible Forest Officer prepares an environmental impact statement (EIS) or environmental assessment (EA) or categorically excludes an activity from documentation in an EA or EIS, the consistency determination required by this section for the use or activity shall be included as a part of the decision document.

(c) Guidelines that are consistent with this section may be developed for specific multiple-use activities as a part of the planning and implementation process required by the National Forest Management Act and the implementing regulations at 36 CFR part 219, National Forest System Land and Resource Management Planning.

(d) Subject to valid existing rights, the responsible Forest Officer may incorporate into any permit or other authorization issued pursuant to 36 CFR part 251 or other regulations of this chapter any reasonably practicable measures that are determined to be necessary to maintain consistency with the conservation of fish, wildlife, and their habitat as provided by this subpart.

(e) Subject to valid existing rights, the responsible Forest Officer may terminate, suspend, restrict, or require modification of any activity if it is determined that such measures are required to conserve wildlife, fish, or their habitat within the areas of the Chugach National Forest subject to
this subpart. Prior to taking action to terminate, suspend, restrict, or require modification of an activity under this section, the responsible Forest Officer shall give affected parties reasonable prior notice and an opportunity to comment, unless it is determined that doing so would likely result in irreparable harm to conservation of fish, wildlife, and their habitat.

(f) Decisions made pursuant to this section are subject to appeal only as provided in 36 CFR parts 217 and 251, subpart C.

(g) Nothing in this section affects subsistence activities carried out in accordance with §241.23 of this subpart or other applicable law.

§ 241.23 Taking of fish and wildlife.

(a) The taking of fish and wildlife by hunting, trapping, or fishing from lands subject to the rules of this subpart is authorized in accordance with applicable State and Federal law.

(b) To the extent consistent with the conservation of fish and wildlife and their habitat in accordance with recognized scientific management principles, local rural residents who depend upon the Chugach National Forest for subsistence needs shall continue to have the opportunity to engage in a subsistence way of life on the lands to which this subpart applies pursuant to applicable State and Federal law.

(c) To the extent consistent with the conservation of fish and wildlife and their habitat, the continuation of existing uses and the future establishment and use of temporary campsites, tent, platforms, shelters, and other temporary facilities and equipment directly and necessarily related to the taking of fish and wildlife may be authorized in accordance with applicable law and regulations. However, the Forest Supervisor may restrict or prohibit facilities or uses in the Copper River-Rude River addition or Copper River-Bering River area if it is determined, after adequate notice to the affected parties, that the continuation of such facilities or uses would materially interfere with or adversely affect the conservation of fish and wildlife and their habitat.
§ 242.2 Authority.
The Secretary of the Interior and Secretary of Agriculture issue the reg-
ulations in this part pursuant to au-
thority vested in Title VIII of the Alas-
ka National Interest Lands Conserva-

§ 242.3 Applicability and scope.
(a) The regulations in this part im-
plement the provisions of Title VIII of
ANILCA relevant to the taking of fish
and wildlife on public lands in the
State of Alaska. The regulations in
this part do not permit subsistence
uses in Glacier Bay National Park,
Kenai Fjords National Park, Katmai
National Park, and that portion of
Denali National Park established as
Mt. McKinley National Park prior to
passage of ANILCA, where subsistence
taking and uses are prohibited. The
regulations in this part do not super-
sede agency-specific regulations.
(b) The regulations contained in this
part apply on all public lands including
all non-navigable waters located on
these lands, on all navigable and non-
navigable water within the exterior
boundaries of the following areas, and
on inland waters adjacent to the exter-
ior boundaries of the following areas:
(1) Alaska Maritime National Wild-
life Refuge;
(2) Alaska Peninsula National Wildlife
Refuge;
(3) Aniakchak National Monument
and Preserve;
(4) Arctic National Wildlife Refuge;
(5) Becharof National Wildlife Refu-
ge;
(6) Bering Land Bridge National Pre-
save;
(7) Cape Krusenstern National Monu-
ment;
(8) Chugach National Forest, exclud-
ing marine waters;
(9) Denali National Preserve and the
1980 additions to Denali National Park;
(10) Gates of the Arctic National
Park and Preserve;
(11) Glacier Bay National Preserve;
(12) Innoko National Wildlife Refuge;
(13) Izembek National Wildlife Refu-
ge;
(14) Katmai National Preserve;
(15) Kanuti National Wildlife Refuge;
(16) Kenai National Wildlife Refuge;
(17) Kobuk Valley National Park;
(18) Kodiak National Wildlife Refuge;
(19) Koyukuk National Wildlife Refu-
ge;
(20) Lake Clark National Park and
Preserve;
(21) National Petroleum Reserve in
Alaska;
(22) Noatak National Preserve;
(23) Nowitna National Wildlife Refu-
ge;
(24) Selawik National Wildlife Refu-
ge;
(25) Steese National Conservation
Area;
(26) Tetlin National Wildlife Refuge;
(27) Togiak National Wildlife Refuge;
(28) Tongass National Forest, includ-
ing Admiralty Island National Monu-
ment and Misty Fjords National Monu-
ment, and excluding marine waters;
(29) White Mountain National Recre-
ation Area;
(30) Wrangell-St. Elias National Park
and Preserve;
(31) Yukon-Charley Rivers National
Preserve;
(32) Yukon Delta National Wildlife
Refuge;
(33) Yukon Flats National Wildlife
Refuge;
(34) All components of the Wild and
Scenic River System located outside
the boundaries of National Parks, Na-
tional Preserves, or National Wildlife
Refuges, including segments of the
Alagnak River, Beaver Creek, Birch
Creek, Delta River, Fortymile River,
Gulkana River, and Unalakleet River.
(c) The public lands described in
paragraph (b) of this section remain
subject to change through rulemaking
pending a Department of the Interior
review of title and jurisdictional issues
regarding certain submerged lands be-
neath navigable waters in Alaska.

§ 242.4 Definitions.
The following definitions apply to all
regulations contained in this part:
Agency means a subunit of a cabinet-
level Department of the Federal Gov-
ernment having land management au-
thority over the public lands including,
but not limited to, the U.S. Fish &
Wildlife Service, Bureau of Indian Af-
fairs, Bureau of Land Management, Na-
tional Park Service, and USDA Forest
Service.

Area, District, Subdistrict, and Section mean one of the geographical areas defined in the codified Alaska Department of Fish and Game regulations found in Title 5 of the Alaska Administrative Code.

Barter means the exchange of fish or wildlife or their parts taken for subsistence uses; for other fish, wildlife or their parts; or, for other food or for nonedible items other than money, if the exchange is of a limited and non-commercial nature.

Board means the Federal Subsistence Board as described in §242.10.

Commissions means the Subsistence Resource Commissions established pursuant to section 808 of ANILCA.

Conservation of healthy populations of fish and wildlife means the maintenance of fish and wildlife resources and their habitats in a condition that assures stable and continuing natural populations and species mix of plants and animals in relation to their ecosystem, including the recognition that local rural residents engaged in subsistence uses may be a natural part of that ecosystem; minimizes the likelihood of irreversible or long-term adverse effects upon such populations and species; ensures the maximum practicable diversity of options for the future; and recognizes that the policies and legal authorities of the managing agencies will determine the nature and degree of management programs affecting ecological relationships, population dynamics, and the manipulation of the components of the ecosystem.

Customary trade means cash sale of fish and wildlife resources regulated in this part, not otherwise prohibited by Federal law or regulation, to support personal and family needs; and does not include trade which constitutes a significant commercial enterprise.

Customary and traditional use means a long-established, consistent pattern of use, incorporating beliefs and customs which have been transmitted from generation to generation. This use plays an important role in the economy of the community.

Family means all persons related by blood, marriage, or adoption, or any person living within the household on a permanent basis.

Federal Advisory Committees or Federal Advisory Committee means the Federal Local Advisory Committees as described in §242.12.

Federal lands means lands and waters and interests therein the title to which is in the United States, including navigable and non-navigable waters in which the United States has reserved water rights.

Fish and wildlife means any member of the animal kingdom, including without limitation any mammal, fish, bird (including any migratory, nonmigratory, or endangered bird for which protection is also afforded by treaty or other international agreement), amphibian, reptile, mollusk, crustacean, arthropod, or other invertebrate, and includes any part, product, egg, or offspring thereof, or the carcass or part thereof.

Game Management Unit or GMU means one of the 26 geographical areas listed under game management units in the codified State of Alaska hunting and trapping regulations and the Game Unit Maps of Alaska.

Inland Waters means, for the purposes of this part, those waters located landward of the mean high tide line or the waters located upstream of the straight line drawn from headland to headland across the mouths of rivers or other waters as they flow into the sea. Inland waters include, but are not limited to, lakes, reservoirs, ponds, streams, and rivers.

Marine Waters means, for the purposes of this part, those waters located seaward of the mean high tide line or the waters located seaward of the straight line drawn from headland to headland across the mouths of rivers or other waters as they flow into the sea.

Person means an individual and does not include a corporation, company, partnership, firm, association, organization, business, trust, or society.

Public lands or public land means:
§ 242.5 Eligibility for subsistence use.

(a) You may take fish and wildlife on public lands for subsistence uses only if you are an Alaska resident of a rural area or rural community. The regulations in this part may further limit your qualifications to harvest fish or wildlife resources for subsistence uses. If you are not an Alaska resident or are a resident of a non-rural area or community listed in § 242.23, you may not take fish or wildlife on public lands for subsistence uses under the regulations in this part.

(b) Where the Board has made a customary and traditional use determination regarding subsistence use of a specific fish stock or wildlife population,
in accordance with, and as listed in, §242.24, only those Alaskans who are residents of rural areas or communities designated by the Board are eligible for subsistence taking of that population or stock on public lands for subsistence uses under the regulations in this part. If you do not live in one of those areas or communities, you may not take fish or wildlife from that population or stock, on public lands under the regulations in this part.

(c) Where customary and traditional use determinations for a fish stock or wildlife population within a specific area have not yet been made by the Board (e.g. “no determination”), all Alaskans who are residents of rural areas or communities may harvest for subsistence from that stock or population under the regulations in this part.

(d) The National Park Service may regulate further the eligibility of those individuals qualified to engage in subsistence uses on National Park Service lands in accordance with specific authority in ANILCA, and National Park Service regulations at 36 CFR part 13.

§ 242.6 Licenses, permits, harvest tickets, tags, and reports.

(a) If you wish to take fish and wildlife on public lands for subsistence uses, you must be a rural Alaska resident and:

(1) Possess the pertinent valid Alaska resident hunting and trapping licenses (no license required to take fish or shellfish, but you must be an Alaska resident) unless Federal licenses are required or unless otherwise provided for in subpart D of this part;

(2) Possess and comply with the provisions of any pertinent Federal permits (Federal Subsistence Registration Permit or Federal Designated Harvester Permit) required by subpart D of this part; and

(3) Possess and comply with the provisions of any pertinent permits, harvest tickets, or tags required by the State unless any of these documents or individual provisions in them are superseded by the requirements in subpart D of this part.

(b) If you have been awarded a permit to take fish and wildlife, you must have that permit in your possession during the taking and must comply with all requirements of the permit and the regulations in this section pertaining to validation and reporting and to regulations in subpart D of this part pertaining to methods and means, possession and transportation, and utilization. Upon the request of a State or Federal law enforcement agent, you must also produce any licenses, permits, harvest tickets, tags, or other documents required by this section. If you are engaged in taking fish and wildlife under the regulations in this part, you must allow State or Federal law enforcement agents to inspect any apparatus designed to be used, or capable of being used to take fish or wildlife, or any fish or wildlife in your possession.

(c) You must validate the harvest tickets, tags, permits, or other required documents before removing your kill from the harvest site. You must also comply with all reporting provisions as set forth in subpart D of this part.

(d) If you take fish and wildlife under a community harvest system, you must report the harvest activity in accordance with regulations specified for that community in subpart D of this part, and as required by any applicable permit conditions. Individuals may be responsible for particular reporting requirements in the conditions permitting a specific community’s harvest. Failure to comply with these conditions is a violation of the regulations in this part. Community harvests are reviewed annually under the regulations in subpart D of this part.

(e) You may not make a fraudulent application for Federal or State licenses, permits, harvest tickets or tags or intentionally file an incorrect harvest report.

§ 242.7 Restriction on use.

(a) You may not trade or sell fish and wildlife, taken pursuant to the regulations in this part, except as provided for in §§242.25, 242.26, 242.27, and 242.28.

(b) You may not use, sell, or trade fish and wildlife, taken pursuant to the regulations in this part, in any significant commercial enterprise.
§ 242.8 Penalties.

If you are convicted of violating any provision of 50 CFR part 100 or 36 CFR part 242, you may be punished by a fine or by imprisonment in accordance with the penalty provisions applicable to the public land where the violation occurred.

§ 242.9 Information collection requirements.

(a) The rules in this part contain information collection requirements subject to Office of Management and Budget (OMB) approval under 44 U.S.C. 3501–3520. They apply to fish and wildlife harvest activities on public lands in Alaska. Subsistence users will not be required to respond to an information collection request unless a valid OMB number is displayed on the information collection form.

(1) Section 242.6, Licenses, permits, harvest tickets, tags, and reports. The information collection requirements contained in §242.6 (Federal Subsistence Registration Permit or Federal Designated Hunter Permit forms) provide for permit-specific subsistence activities not authorized through the general adoption of State regulations. Identity and location of residence are required to determine if you are eligible for a permit and a report of success is required after a harvest attempt. These requirements are not duplicative with the requirements of paragraph (a)(3) of this section. The regulations in §242.6 require this information before a rural Alaska resident may engage in subsistence uses on public lands. The Department estimates that the average time necessary to obtain and comply with this permit information collection requirement is 0.25 hours.

(2) Section 242.20, Request for reconsideration. The information collection requirements contained in §242.20 provide a standardized process to allow individuals the opportunity to appeal decisions of the Board. Submission of a request for reconsideration is voluntary but required to receive a final review by the Board. We estimate that a request for reconsideration will take 4 hours to prepare and submit.

(3) The remaining information collection requirements contained in this part imposed upon subsistence users are those adopted from State regulations. These collection requirements would exist in the absence of Federal subsistence regulations and are not subject to the Paperwork Reduction Act. The burden in this situation is negligible and information gained from these reports are systematically available to Federal managers by routine computer access requiring less than 1 hour.

(b) You may direct comments on the burden estimate or any other aspect of the burden estimate to: Information Collection Officer, U.S. Fish and Wildlife Service, 1849 C Street, NW., MS 222 ARLSQ, Washington, DC 20240; and the Office of Management and Budget, Paperwork, Reduction Project (Subsistence), Washington, DC 20503. Additional information requirements may be imposed if Local Advisory Committees or additional Regional Councils, subject to the Federal Advisory Committee Act (FACA), are established under subpart B of this part. Such requirements will be submitted to OMB for approval prior to their implementation.

Subpart B—Program Structure

SOURCE: 66 FR 31536, June 12, 2001, unless otherwise noted.

§ 242.10 Federal Subsistence Board.

(a) The Secretary of the Interior and Secretary of Agriculture hereby establish a Federal Subsistence Board, and assign them responsibility for, administering the subsistence taking and uses of fish and wildlife on public lands, and the related promulgation and signature authority for regulations of subparts C and D of this part. The Secretaries, however, retain their existing authority to restrict or eliminate hunting, fishing, or trapping activities which occur on lands or waters in Alaska other than public lands when such activities interfere with subsistence hunting, fishing, or trapping on the public lands to such an extent as to result in a failure to provide the subsistence priority.
Forest Service, USDA § 242.10

(b) Membership. (1) The voting members of the Board are: a Chair to be appointed by the Secretary of the Interior with the concurrence of the Secretary of Agriculture; the Alaska Regional Director, U.S. Fish and Wildlife Service; Alaska Regional Director, National Park Service; Alaska Regional Forester, USDA Forest Service; the Alaska State Director, Bureau of Land Management; and the Alaska Area Director, Bureau of Indian Affairs. Each member of the Board may appoint a designee.

(2) [Reserved]

(c) Liaisons to the Board are: a State liaison, and the Chairman of each Regional Council. The State liaison and the Chairman of each Regional Council may attend public sessions of all Board meetings and be actively involved as consultants to the Board.

(d) Powers and duties. (1) The Board shall meet at least twice per year and at such other times as deemed necessary. Meetings shall occur at the call of the Chair, but any member may request a meeting.

(2) A quorum consists of four members.

(3) No action may be taken unless a majority of voting members are in agreement.

(4) The Board is empowered, to the extent necessary, to implement Title VIII of ANILCA, to:

(i) Issue regulations for the management of subsistence taking and uses of fish and wildlife on public lands;

(ii) Determine which communities or areas of the State are rural or non-rural;

(iii) Determine which rural Alaska areas or communities have customary and traditional subsistence uses of specific fish and wildlife populations;

(iv) Allocate subsistence uses of fish and wildlife populations on public lands;

(v) Ensure that the taking on public lands of fish and wildlife for nonwasteful subsistence uses shall be accorded priority over the taking on such lands of fish and wildlife for other purposes;

(vi) Close public lands to the non-subsistence taking of fish and wildlife;

(vii) Establish priorities for the subsistence taking of fish and wildlife on public lands among rural Alaska residents;

(viii) Restrict or eliminate taking of fish and wildlife on public lands;

(ix) Determine what types and forms of trade of fish and wildlife taken for subsistence uses constitute allowable customary trade;

(x) Authorize the Regional Councils to convene;

(xi) Establish a Regional Council in each subsistence resource region and recommend to the Secretaries, appointees to the Regional Councils, pursuant to the FACA;

(xii) Establish Federal Advisory Committees within the subsistence resource regions, if necessary and recommend to the Secretaries that members of the Federal Advisory Committees be appointed from the group of individuals nominated by rural Alaska residents;

(xiii) Establish rules and procedures for the operation of the Board, and the Regional Councils;

(xiv) Review and respond to proposals for regulations, management plans, policies, and other matters related to subsistence taking and uses of fish and wildlife;

(xv) Enter into cooperative agreements or otherwise cooperate with Federal agencies, the State, Native organizations, local governmental entities, and other persons and organizations, including international entities to effectuate the purposes and policies of the Federal subsistence management program;

(xvi) Develop alternative permitting processes relating to the subsistence taking of fish and wildlife to ensure continued opportunities for subsistence;

(xvii) Evaluate whether hunting, fishing, or trapping activities which occur on lands or waters in Alaska other than public lands interfere with subsistence hunting, fishing, or trapping on the public lands to such an extent as to result in a failure to provide the subsistence priority, and after appropriate consultation with the State of Alaska, the Regional Councils, and other Federal agencies, make a recommendation to the Secretaries for their action;
(xviii) Identify, in appropriate specific instances, whether there exists additional Federal reservations, Federal reserved water rights or other Federal interests in lands or waters, including those in which the United States holds less than a fee ownership, to which the Federal subsistence priority attaches, and make appropriate recommendation to the Secretaries for inclusion of those interests within the Federal Subsistence Management Program; and

(xix) Take other actions authorized by the Secretaries to implement Title VIII of ANILCA.

(5) The Board may implement one or more of the following harvest and harvest reporting or permit systems:

(i) The fish and wildlife is taken by an individual who is required to obtain and possess pertinent State harvest permits, tickets, or tags, or Federal permit (Federal Subsistence Registration Permit);

(ii) A qualified subsistence user may designate another qualified subsistence user (by using the Federal Designated Harvester Permit) to take fish and wildlife on his or her behalf;

(iii) The fish and wildlife is taken by individuals or community representatives permitted (via a Federal Subsistence Registration Permit) a one-time or annual harvest for special purposes including ceremonies and potlatches; or

(iv) The fish and wildlife is taken by representatives of a community permitted to do so in a manner consistent with the community’s customary and traditional practices.

(6) The Board may delegate to agency field officials the authority to set harvest and possession limits, define harvest areas, specify methods or means of harvest, specify permit requirements, and open or close specific fish or wildlife harvest seasons within frameworks established by the Board.

(7) The Board shall establish a Staff Committee for analytical and administrative assistance composed of members from the U.S. Fish and Wildlife Service, National Park Service, U.S. Bureau of Land Management, Bureau of Indian Affairs, and USDA Forest Service. A U.S. Fish and Wildlife Service representative shall serve as Chair of the Staff Committee.

(8) The Board may establish and dissolve additional committees as necessary for assistance.

(9) The U.S. Fish and Wildlife Service shall provide appropriate administrative support for the Board.

(10) The Board shall authorize at least two meetings per year for each Regional Council.

(e) Relationship to Regional Councils. (1) The Board shall consider the reports and recommendations of the Regional Councils concerning the taking of fish and wildlife on public lands within their respective regions for subsistence uses. The Board may choose not to follow any Regional Council recommendation which it determines is not supported by substantial evidence, violates recognized principles of fish and wildlife conservation, would be detrimental to the satisfaction of subsistence needs, or in closure situations, for reasons of public safety or administration or to assure the continued viability of a particular fish or wildlife population. If a recommendation is not adopted, the Board shall set forth the factual basis and the reasons for the decision, in writing, in a timely fashion.

(2) The Board shall provide available and appropriate technical assistance to the Regional Councils.

§ 242.11 Regional advisory councils.

(a) The Board shall establish a Regional Council for each subsistence resource region to participate in the Federal subsistence management program. The Regional Councils shall be established, and conduct their activities, in accordance with the FACA. The Regional Councils shall provide for public participation in the Federal regulatory process.

(b) Establishment of Regional Councils; membership. (1) The number of members for each Regional Council shall be established by the Board, and shall be an odd number. A Regional Council member must be a resident of
the region in which he or she is appointed and be knowledgeable about the region and subsistence uses of the public lands therein. The Board shall accept nominations and recommend to the Secretaries that representatives on the Regional Councils be appointed from those nominated by subsistence users. Appointments to the Regional Councils shall be made by the Secretaries.

(2) Regional Council members shall serve 3-year terms and may be re-appointed. Initial members shall be appointed with staggered terms up to 3 years.

(3) The Chair of each Regional Council shall be elected by the applicable Regional Council, from its membership, for a 1-year term and may be re-elected.

(c) Powers and duties. (1) The Regional Councils are authorized to:

(i) Hold public meetings related to subsistence uses of fish and wildlife within their respective regions, after the Chair of the Board or the designated Federal Coordinator has called the meeting and approved the meeting agenda;

(ii) Elect officers;

(iii) Review, evaluate, and make recommendations to the Board on proposals for regulations, policies, management plans, and other matters relating to the subsistence take of fish and wildlife under the regulations in this part within the region;

(iv) Provide a forum for the expression of opinions and recommendations by persons interested in any matter related to the subsistence uses of fish and wildlife within the region;

(v) Encourage local and regional participation, pursuant to the provisions of the regulations in this part in the decision-making process affecting the taking of fish and wildlife on the public lands within the region for subsistence uses;

(vi) Prepare and submit to the Board an annual report containing—

(A) An identification of current and anticipated subsistence uses of fish and wildlife populations within the region;

(B) An evaluation of current and anticipated subsistence needs for fish and wildlife populations from the public lands within the region;

(C) A recommended strategy for the management of fish and wildlife populations within the region to accommodate such subsistence uses and needs related to the public lands; and

(D) Recommendations concerning policies, standards, guidelines, and regulations to implement the strategy;

(vii) Appoint members to each Subsistence Resource Commission within their region in accordance with the requirements of section 808 of ANILCA;

(viii) Make recommendations on determinations of customary and traditional use of subsistence resources;

(ix) Make recommendations on determinations of rural status;

(x) Make recommendations regarding the allocation of subsistence uses among rural Alaska residents pursuant to §242.17;

(xi) Develop proposals pertaining to the subsistence taking and use of fish and wildlife under the regulations in this part, and review and evaluate such proposals submitted by other sources;

(xii) Provide recommendations on the establishment and membership of Federal Advisory Committees.

(2) The Regional Councils shall:

(i) Operate in conformance with the provisions of FACA and comply with rules of operation established by the Board;

(ii) Perform other duties specified by the Board.

§ 242.12 Local advisory committees.

(a) The Board shall establish such local Federal Advisory Committees within each region as necessary at such time that it is determined, after notice and hearing and consultation with the State, that the existing State fish and game advisory committees do not adequately provide advice to, and assist, the particular Regional Council in carrying out its function as set forth in §242.11.

(b) Local Federal Advisory Committees, if established by the Board, shall operate in conformance with the provisions of the FACA, and comply with rules of operation established by the Board.

§ 242.13 Board/agency relationships.

(a) General. (1) The Board, in making decisions or recommendations, shall
§ 242.14 Relationship to State procedures and regulations.

(a) State fish and game regulations apply to public lands and such laws are hereby adopted and made a part of the regulations in this part to the extent they are not inconsistent with, or superseded by the regulations in this part.

(b) The Board may close public lands to hunting and fishing, or take actions to restrict the taking of fish and wildlife despite any State authorization for taking fish and wildlife on public lands. The Board may review and adopt State openings, closures, or restrictions which serve to achieve the objectives of the regulations in this part.

(c) The Board may enter into agreements with the State in order to coordinate respective management responsibilities.

(d) Petition for repeal of subsistence rules and regulations. (1) The State of Alaska may petition the Secretaries for repeal of the subsistence rules and regulations in this part when the State has enacted and implemented subsistence management and use laws which:

(i) Are consistent with sections 803, 804, and 805 of ANILCA; and

(ii) Provide for the subsistence definition, preference, and participation specified in sections 803, 804, and 805 of ANILCA.

(2) The State’s petition shall:

(ii) Include the entire text of applicable State legislation indicating compliance with sections 803, 804, and 805 of ANILCA; and

(iii) Set forth all data and arguments available to the State in support of legislative compliance with sections 803, 804, and 805 of ANILCA.

(3) If the Secretaries find that the State’s petition contains adequate justification, a rulemaking proceeding for repeal of the regulations in this part will be initiated. If the Secretaries find that the State’s petition does not contain adequate justification, the petition will be denied by letter or other notice, with a statement of the ground for denial.

§ 242.15 Rural determination process.

(a) The Board shall determine if an area or community in Alaska is rural. In determining whether a specific area of Alaska is rural, the Board shall use the following guidelines:

(1) A community or area with a population of 2500 or less shall be deemed to be rural unless such a community or area possesses significant characteristics of a non-rural nature, or is considered to be socially and economically a part of an urbanized area.

(2) Communities or areas with populations above 2500 but not more than 7000 will be determined to be rural or non-rural.

(3) A community with a population of more than 7000 shall be presumed non-rural, unless such a community or area possesses significant characteristics of a rural nature.

(4) Population data from the most recent census conducted by the United States Bureau of Census as updated by the Alaska Department of Labor shall be utilized in this process.
(5) Community or area characteristics shall be considered in evaluating a community’s rural or non-rural status. The characteristics may include, but are not limited to:

   (i) Use of fish and wildlife;
   (ii) Development and diversity of the economy;
   (iii) Community infrastructure;
   (iv) Transportation; and
   (v) Educational institutions.

(6) Communities or areas which are economically, socially and communally integrated shall be considered in the aggregate.

(b) The Board shall periodically review rural determinations. Rural determinations shall be reviewed on a ten year cycle, commencing with the publication of the year 2000 U.S. census. Rural determinations may be reviewed out-of-cycle in special circumstances. Once the Board makes a determination that a community has changed from rural to non-rural, a waiting period of five years shall be required before the non-rural determination becomes effective.

(c) Current determinations are listed at §242.23.

§ 242.16 Customary and traditional use determination process.

(a) The Board shall determine which fish stocks and wildlife populations have been customarily and traditionally used for subsistence. These determinations shall identify the specific community’s or area’s use of specific fish stocks and wildlife populations. For areas managed by the National Park Service, where subsistence uses are allowed, the determinations may be made on an individual basis.

(b) A community or area shall generally exhibit the following factors, which exemplify customary and traditional use. The Board shall make customary and traditional use determinations based on application of the following factors:

   (1) A long-term consistent pattern of use, excluding interruptions beyond the control of the community or area;
   (2) A pattern of use recurring in specific seasons for many years;
   (3) A pattern of use consisting of methods and means of harvest which are characterized by efficiency and economy of effort and cost, conditioned by local characteristics;
   (4) The consistent harvest and use of fish or wildlife as related to past methods and means of taking; near, or reasonably accessible from the community or area;
   (5) A means of handling, preparing, preserving, and storing fish or wildlife which has been traditionally used by past generations, including consideration of alteration of past practices due to recent technological advances, where appropriate;
   (6) A pattern of use which includes the handing down of knowledge of fishing and hunting skills, values and lore from generation to generation;
   (7) A pattern of use in which the harvest is shared or distributed within a definable community of persons; and
   (8) A pattern of use which relates to reliance upon a wide diversity of fish and wildlife resources of the area and which provides substantial cultural, economic, social, and nutritional elements to the community or area.

(c) The Board shall take into consideration the reports and recommendations of any appropriate Regional Council regarding customary and traditional uses of subsistence resources.

(d) Current determinations are listed in §242.24.

§ 242.17 Determining priorities for subsistence uses among rural Alaska residents.

(a) Whenever it is necessary to restrict the subsistence taking of fish and wildlife on public lands in order to protect the continued viability of such populations, or to continue subsistence uses, the Board shall establish a priority among the rural Alaska residents after considering any recommendation submitted by an appropriate Regional Council.

(b) The priority shall be implemented through appropriate limitations based on the application of the following criteria to each area, community, or individual determined to have customary and traditional use, as necessary:

   (1) Customary and direct dependence upon the populations as the mainstay of livelihood;
   (2) Local residency; and
§ 242.18

(3) The availability of alternative resources.

(c) If allocation on an area or community basis is not achievable, then the Board shall allocate subsistence opportunity on an individual basis through application of the criteria in paragraphs (b)(1) through (3) of this section.

(d) In addressing a situation where prioritized allocation becomes necessary, the Board shall solicit recommendations from the Regional Council in the area affected.

§ 242.18 Regulation adoption process.

(a) Proposals for changes to the Federal subsistence regulations in subpart D of this part shall be accepted by the Board according to a published schedule. The Board may establish a rotating schedule for accepting proposals on various parts of subpart D regulations over a period of years. The Board shall develop and publish proposed regulations in the FEDERAL REGISTER and publish notice in local newspapers. Comments on the proposed regulations in the form of proposals shall be distributed for public review.

(1) Proposals shall be made available for at least a thirty (30) day review by the Regional Councils. Regional Councils shall forward their recommendations on proposals to the Board. Such proposals with recommendations may be submitted within the time period as specified by the Board or as a part of the Regional Council’s annual report described in §242.11, whichever is earlier.

(2) The Board shall publish notice throughout Alaska of the availability of proposals received.

(3) The public shall have at least thirty (30) days to review and comment on proposals.

(4) After the comment period the Board shall meet to receive public testimony and consider the proposals. The Board may choose not to follow any recommendation which the Board determines is not supported by substantial evidence, violates recognized principles of fish and wildlife conservation, or would be detrimental to the satisfaction of subsistence needs. If a recommendation approved by a Regional Council is not adopted by the Board, the Board shall set forth the factual basis and the reasons for its decision in writing to the Regional Council.

(5) Following consideration of the proposals the Board shall publish final regulations pertaining to subpart D of this part in the FEDERAL REGISTER.

(b) Proposals for changes to subpart C of this part shall be accepted by the Board according to a published schedule. The Board shall develop and publish proposed regulations in the FEDERAL REGISTER and publish notice in local newspapers. Comments on the proposed regulations in the form of proposals shall be distributed for public review.

(1) Public and governmental proposals shall be made available for a thirty (30) day review by the regional councils. Regional Councils shall forward their recommendations on proposals to the Board. Such proposals with recommendations may be submitted within the time period as specified by the Board or as a part of the Regional Council’s annual report described in §242.11, whichever is earlier.

(2) The Board shall publish notice throughout Alaska of the availability of proposals received.

(3) The public shall have at least thirty (30) days to review and comment on proposals.

(4) After the comment period the Board shall meet to receive public testimony and consider the proposals. The Board may choose not to follow any recommendation which the Board determines is not supported by substantial evidence, violates recognized principles of fish and wildlife conservation, or would be detrimental to the satisfaction of subsistence needs. If a recommendation approved by a Regional Council is not adopted by the Board, the Board shall set forth the factual basis and the reasons for their decision in writing to the Regional Council.

(5) Following consideration of the proposals the Board shall publish final regulations pertaining to subpart C of this part in the FEDERAL REGISTER. A Board decision to change a community’s or area’s status from rural to
non-rural will not become effective until five years after the decision has been made.

(c) [Reserved]

(d) Proposals for changes to subparts A and B of this part shall be accepted by the Secretary of the Interior in accordance with 43 CFR part 14.

§ 242.19 Special actions.

(a) The Board may restrict, close, or reopen the taking of fish and wildlife for non-subsistence uses on public lands when necessary to assure the continued viability of a particular fish or wildlife population, to continue subsistence uses of a fish or wildlife population, or for reasons of public safety or administration.

(b) The Board may open, close, or restrict subsistence uses of a particular fish or wildlife population on public lands to assure the continued viability of a fish or wildlife population, to continue subsistence uses of a fish or wildlife population, or for reasons of public safety or administration.

(c) The Board will accept a request for a change in seasons, methods and means, and/or harvest limits under this §242.19 only if there are extenuating circumstances necessitating a regulatory change before the next annual subpart D proposal cycle. Extenuating circumstances include unusual and significant changes in resource abundance or unusual conditions affecting harvest opportunities that could not reasonably have been anticipated and that potentially could have significant adverse effects on the health of fish and wildlife populations or subsistence uses. Requests for Special Action that do not meet these conditions will be deferred to the next annual regulatory proposal cycle. In general, changes to Customary and Traditional Use Determinations will only be considered through the annual subpart C proposal cycle.

(d) In an emergency situation, the Board may immediately open, close, liberalize, or restrict subsistence uses of fish and wildlife on public lands, or close or restrict non-subsistence uses of fish and wildlife on public lands, if necessary to assure the continued viability of a fish or wildlife population, to continue subsistence uses of fish or wildlife, or for public safety reasons. Prior to implementing an emergency action, the Board shall consult with the State. The emergency action shall be effective when directed by the Board, may not exceed 60 days, and may not be extended unless it is determined by the Board, after notice and public hearing, that such action should be extended. The Board shall, in a timely manner, provide notice via radio announcement or personal contact of the emergency action and shall publish notice and reasons justifying the emergency action in newspapers of any area affected, and in the Federal Register thereafter.

(e) After consultation with the State, the appropriate Regional Advisory Council(s), and adequate notice and public hearing, the Board may make or direct a temporary change to close, open, or adjust the seasons, to modify the harvest limits, or to modify the methods and means of harvest for subsistence uses of fish and wildlife populations on public lands. An affected rural resident, community, Regional Council, or administrative agency may request a temporary change in seasons, harvest limits, or methods or means of harvest. In addition, a temporary change may be made only after the Board determines that the proposed temporary change will not interfere with the conservation of healthy fish and wildlife populations, will not be detrimental to the long-term subsistence use of fish or wildlife resources, and is not an unnecessary restriction on non-subsistence users. The decision of the Board shall be the final administrative action. The temporary change shall be effective when directed by the Board following notice in the affected area(s). This notice may include publication in newspapers or announcement on local radio stations. The Board shall publish notice and reasons justifying the temporary action in the Federal Register thereafter. The length of any temporary change shall be confined to the minimum time period or harvest limit determined by the Board to be necessary to satisfy subsistence uses. A temporary opening or closure will not extend beyond the regulatory year for which it is promulgated.
§ 242.20 Request for reconsideration.

(a) Regulations in subparts C and D of this part published in the FEDERAL REGISTER are subject to requests for reconsideration.

(b) Any aggrieved person may file a request for reconsideration with the Board.

(c) To file a request for reconsideration, you must notify the Board in writing within sixty (60) days of the effective date or date of publication of the notice, whichever is earliest, for which reconsideration is requested.

(d) It is your responsibility to provide the Board with sufficient narrative evidence and argument to show why the action by the Board should be reconsidered. The Board will accept a request for reconsideration only if it is based upon information not previously considered by the Board, demonstrates that the existing information used by the Board is incorrect, or demonstrates that the Board’s interpretation of information, applicable law, or regulation is in error or contrary to existing law. You must include the following information in your request for reconsideration:

1. Your name, and mailing address;
2. The action which you request be reconsidered and the date of FEDERAL REGISTER publication of that action;
3. A detailed statement of how you are adversely affected by the action;
4. A detailed statement of the facts of the dispute, the issues raised by the request, and specific references to any law, regulation, or policy that you believe to be violated and your reason for such allegation;
5. A statement of how you would like the action changed.

(e) Upon receipt of a request for reconsideration, the Board shall transmit a copy of such request to any appropriate Regional Council for review and recommendation. The Board shall consider any Regional Council recommendations in making a final decision.

(f) If the request is justified, the Board shall implement a final decision on a request for reconsideration after compliance with 5 U.S.C. 551–559 (APA).

(g) If the request is denied, the decision of the Board represents the final administrative action.

§ 242.21 [Reserved]

Subpart C—Board Determinations

§ 242.22 Subsistence resource regions.

(a) The Board hereby designates the following areas as subsistence resource regions:

1. Southeast Region;
2. Southcentral Region;
3. Kodiak/Aleutians Region;
4. Bristol Bay Region;
5. Yukon-Kuskokwim Delta Region;
6. Western Interior Region;
7. Seward Peninsula Region;
8. Northwest Arctic Region;
9. Eastern Interior Region;
10. North Slope Region.

(b) You may obtain maps delineating the boundaries of subsistence resource regions from the U.S. Fish and Wildlife Service, 1011 East Tudor Road, Anchorage, Alaska 99503.

[66 FR 31543, June 12, 2001]

§ 242.23 Rural determinations.

(a) The Board has determined all communities and areas to be rural in accordance with §242.15 except the following:

Adak;
Fairbanks North Star Borough;
Juneau area—including Juneau, West Juneau and Douglas;
Ketchikan area—including Ketchikan City, Clover Pass, North Tongass Highway, Ketchikan East, Mountain Pass, Herring Cove, Saxman East, and parts of Pennock Island;
Municipality of Anchorage;
Valdez; and
Wasilla area—including Palmer, Wasilla, Sutton, Big Lake, Houston,
§ 242.24 Customary and traditional use determinations.

(a) The Federal Subsistence Board has determined that rural Alaska residents of the listed communities, areas, and individuals have customary and traditional use of the specified species on Federal public land in the specified areas. Persons granted individual customary and traditional use determinations will be notified in writing by the Board. The Fish & Wildlife Service and the local NPS Superintendent will maintain the list of individuals having customary and traditional use on National Parks and Monuments. A copy of the list is available upon request.

When there is a determination for specific communities or areas of residence in a Unit, all other communities not listed for that species in that Unit have no Federal subsistence for that species in that Unit. If no determination has been made for a species in a Unit, all rural Alaska residents are eligible to harvest fish or wildlife under this part.

1. Wildlife determinations.

§ 242.25 Subsistence Taking of Fish and Wildlife

36 CFR Ch. II (7–1–01 Edition)

(b) [Reserved]

Subpart D—Subsistence Taking of Fish and Wildlife

§ 242.25 Subsistence taking of fish, wildlife, and shellfish; general regulations.

(a) Definitions. The following definitions shall apply to all regulations contained in this part:

Abalone iron means a flat device which is used for taking abalone and which is more than 1 inch (24 mm) in width and less than 24 inches (610 mm) in length, with all prying edges rounded and smooth.

ADF&G means the Alaska Department of Fish and Game.

Airborne means transported by aircraft.

Aircraft means any kind of airplane, glider, or other device used to transport people or equipment through the air, excluding helicopters.

Airport means an airport listed in the Federal Aviation Administration, Alaska Airman’s Guide and chart supplement.

Anchor means a device used to hold a fishing vessel or net in a fixed position relative to the beach; this includes using part of the seine or lead, a ship’s anchor, or being secured to another vessel or net that is anchored.

Animal means those species with a vertebral column (backbone).

Antler means one or more solid, horn-like appendages protruding from the head of a caribou, deer, elk, or moose.

Antlered means any caribou, deer, elk, or moose having at least one visible antler.

Antlerless means any caribou, deer, elk, or moose not having visible antlers attached to the skull.

Bait means any material excluding a scent lure that is placed to attract an animal by its sense of smell or taste; however, those parts of legally taken animals that are not required to be salvaged and which are left at the kill site are not considered bait.

Beach seine means a floating net which is designed to surround fish and is set from and hauled to the beach.

Bear means black bear, or brown or grizzly bear.

Bow means a longbow, recurve bow, or compound bow, excluding a crossbow, or any bow equipped with a mechanical device that holds arrows at full draw.

Broadhead means an arrowhead that is not barbed and has two or more steel cutting edges having a minimum cutting diameter of not less than seven-eighths inch.

Brow tine means a tine on the front portion of a moose antler, typically projecting forward from the base of the antler toward the nose.

Buck means any male deer.

Bull means any male moose, caribou, elk, or musk oxen.

Cast net means a circular net with a mesh size of no more than 1 1/2 inches and weights attached to the perimeter which, when thrown, surrounds the fish and closes at the bottom when retrieved.

Char means the following species: Arctic char (Salvelinus alpinis); lake trout (Salvelinus namaycush); brook trout (Salvelinus fontinalis), and Dolly Varden (Salvelinus malma).
Closed season means the time when fish, wildlife, or shellfish may not be taken.

Crab means the following species: red king crab (Paralithodes camshatica); blue king crab (Paralithodes platypus); brown king crab (Lithodes aequispina); Lithodes couesi; all species of tanner or snow crab (Chionoecetes spp.); and Dungeness crab (Cancer magister).

Cub bear means a brown or grizzly bear in its first or second year of life, or a black bear (including cinnamon and blue phases) in its first year of life.

Depth of net means the perpendicular distance between cork line and lead line expressed as either linear units of measure or as a number of meshes, including all of the web of which the net is composed.

Designated hunter or fisherman means a Federally qualified, licensed hunter or fisherman who may take all or a portion of another Federally qualified, licensed hunter’s or fisherman’s harvest limit(s) only under situations approved by the Board.

Dip net means a bag-shaped net supported on all sides by a rigid frame; the maximum straight-line distance between any two points on the net frame, as measured through the net opening, may not exceed 5 feet; the depth of the bag must be at least one-half of the greatest straight-line distance, as measured through the net opening; no portion of the bag may be constructed of webbing that exceeds a stretched measurement of 4.5 inches; the frame must be attached to a single rigid handle and be operated by hand.

Diving gear means any type of hard hat or skin diving equipment, including SCUBA equipment; a tethered, umbilical, surface-supplied unit; or snorkel.

Drainage means all of the lands and waters comprising a watershed, including tributary rivers, streams, sloughs, ponds, and lakes, which contribute to the water supply of the watershed.

Drift gillnet means a drifting gillnet that has not been intentionally staked, anchored, or otherwise fixed in one place.

Edible meat means the breast meat of ptarmigan and grouse, and, those parts of caribou, deer, elk, mountain goat, moose, musk oxen, and Dall sheep that are typically used for human consumption, which are: the meat of the ribs, neck, brisket, front quarters as far as the distal (bottom) joint of the radius-ulna (knee), hindquarters as far as the distal joint (bottom) of the tibia-fibula (hock) and that portion of the animal between the front and hindquarters; however, edible meat of species listed in this definition does not include: meat of the head, meat that has been damaged and made inedible by the method of taking, bones, sinew, and incidental meat reasonably lost as a result of boning or close trimming of the bones, or viscera. For black bear, brown and grizzly bear, “edible meat” means the meat of the front quarter and hindquarters and meat along the backbone (backstrap).

Federally-qualified subsistence user means a rural Alaska resident qualified to harvest fish or wildlife on Federal public lands in accordance with the Federal Subsistence Management Regulations in this part.

Fifty-inch (50-inch) moose means a bull moose with an antler spread of 50 inches or more.

Fishwheel means a fixed, rotating device, with no more than four baskets on a single axle, for catching fish, which is driven by river current or other means.

Freshwater of streams and rivers means the line at which freshwater is separated from saltwater at the mouth of streams and rivers by a line drawn headland to headland across the mouth as the waters flow into the sea.

Full curl horn means the horn of a Dall sheep ram; the tip of which has grown through 360 degrees of a circle described by the outer surface of the horn, as viewed from the side, or that both horns are broken, or that the sheep is at least 8 years of age as determined by horn growth annuli.

Furbearer means a beaver, coyote, arctic fox, red fox, lynx, marten, mink, weasel, muskrat, river (land) otter, red squirrel, flying squirrel, ground squirrel, marmot, wolf, or wolverine.

Fyke net means a fixed, funneling (fyke) device used to entrap fish.

Gear means any type of fishing apparatus.

Gillnet means a net primarily designed to catch fish by entanglement in
§ 242.25

a mesh that consists of a single sheet of webbing which hangs between cork line and lead line, and which is fished from the surface of the water.

_Grappling hook_ means a hooked device with flukes or claws, which is attached to a line and operated by hand.

_Groundfish or bottomfish_ means any marine fish except halibut, osmerids, herring and salmonids.

_Grouse_ collectively refers to all species found in Alaska, including spruce grouse, ruffed grouse, blue grouse, and sharp-tailed grouse.

_Hand purse seine_ means a floating net which is designed to surround fish and which can be closed at the bottom by pursing the lead line; pursing may only be done by hand power, and a free-running line through one or more rings attached to the lead line is not allowed.

_Handline_ means a hand-held and operated line, with one or more hooks attached.

_Hare or hares_ collectively refers to all species of hares (commonly called rabbits) in Alaska and includes snowshoe hare and tundra hare.

_Harvest limit_ means the number of any one species permitted to be taken by any one person or designated group, per specified time period, in a Unit or portion of a Unit in which the taking occurs even if part or all of the harvest is preserved. A fish, when landed and killed by means of rod and reel becomes part of the harvest limit of the person originally hooking it.

_Herring pound_ means an enclosure used primarily to contain live herring over extended periods of time.

_Highway_ means the driveable surface of any constructed road.

_Household_ means that group of people residing in the same residence.

_Hung measure_ means the maximum length of the cork line when measured wet or dry with traction applied at one end only.

_Hunting_ means the taking of wildlife within established hunting seasons with archery equipment or firearms, and as authorized by a required hunting license.

_Hydraulic clam digger_ means a device using water or a combination of air and water used to harvest clams.

_Jigging gear_ means a line or lines with lures or baited hooks, drawn through the water by hand, and which are operated during periods of ice cover from holes cut in the ice, or from shore ice and which are drawn through the water by hand.

_Lead_ means either a length of net employed for guiding fish into a seine, set gillnet, or other length of net, or a length of fencing employed for guiding fish into a fishwheel, fyke net, or dip net.

_Legal limit of fishing gear_ means the maximum aggregate of a single type of fishing gear permitted to be used by one individual or boat, or combination of boats in any particular regulatory area, district, or section.

_Long line_ means either a stationary, buoyed, or anchored line, or a floating, free-drifting line with lures or baited hooks attached.

_Marmot_ collectively refers to all species of marmot that occur in Alaska including the hoary marmot, Alaska marmot, and the woodchuck.

_Mechanical clam digger_ means a mechanical device used or capable of being used for the taking of clams.

_Mechanical jigging machine_ means a mechanical device with line and hooks used to jig for halibut and bottomfish, but does not include hand gurdies or rods with reels.

_Mile_ means a nautical mile when used in reference to marine waters or a statute mile when used in reference to fresh water.

_Motorized vehicle_ means a motor-driven land, air, or water conveyance.

_Open season_ means the time when wildlife may be taken by hunting or trapping; an open season includes the first and last days of the prescribed season period.

_Otter_ means river or land otter only, excluding sea otter.

_Permit hunt_ means a hunt for which State or Federal permits are issued by registration or other means.

_Poison_ means any substance that is toxic or poisonous upon contact or ingestion.

_Possession_ means having direct physical control of wildlife at a given time or having both the power and intention to exercise dominion or control of wildlife either directly or through another person or persons.
Possession limit means the maximum number of fish, grouse, or ptarmigan a person or designated group may have in possession if they have not been canned, salted, frozen, smoked, dried, or otherwise preserved so as to be fit for human consumption after a 15-day period.

Pot means a portable structure designed and constructed to capture and retain live fish and shellfish in the water.

Ptarmigan collectively refers to all species found in Alaska, including white-tailed ptarmigan, rock ptarmigan, and willow ptarmigan.

Purse seine means a floating net which is designed to surround fish and which can be closed at the bottom by means of a free-running line through one or more rings attached to the lead line.

Ram means a male Dall sheep.

Registration permit means a permit that authorizes hunting and is issued to a person who agrees to the specified hunting conditions. Hunting permitted by a registration permit begins on an announced date and continues throughout the open season, or until the season is closed by Board action. Registration permits are issued in the order applications are received and/or are based on priorities as determined by 50 CFR 100.17 and 36 CFR 242.17.

Ring net means a bag-shaped net suspended between no more than two frames; the bottom frame may not be larger in perimeter than the top frame; the gear must be nonrigid and collapsible so that free movement of fish or shellfish across the top of the net is not prohibited when the net is employed.

Rockfish means all species of the genus Sebastes.

Rod and reel means either a device upon which a line is stored on a fixed or revolving spool and is deployed through guides mounted on a flexible pole, or a line that is attached to a pole. In either case, bait or an artificial fly or lure is used as terminal tackle. This definition does not include the use of rod and reel gear for snagging.

Salmon means the following species: pink salmon (Oncorhynchus gorbuscha); sockeye salmon (Oncorhynchus nerka); chinook salmon (Oncorhynchus tshawytscha); coho salmon (Oncorhynchus kisutch); and chum salmon (Oncorhynchus keta).

Salmon stream means any stream used by salmon for spawning, rearing, or for traveling to a spawning or rearing area.

Salvage means to transport the edible meat, skull, or hide, as required by regulation, of a regulated fish, wildlife, or shellfish to the location where the edible meat will be consumed by humans or processed for human consumption in a manner which saves or prevents the edible meat from waste, and preserves the skull or hide for human use.

Scallop dredge means a dredge-like device designed specifically for and capable of taking scallops by being towed along the ocean floor.

Sea urchin rake means a hand-held implement, no longer than 4 feet, equipped with projecting prongs used to gather sea urchins.

Sealing means placing a mark or tag on a portion of a harvested animal by an authorized representative of the ADF&G; sealing includes collecting and recording information about the conditions under which the animal was harvested, and measurements of the specimen submitted for sealing or surrendering a specific portion of the animal for biological information.

Set gillnet means a gillnet that has been intentionally set, staked, anchored, or otherwise fixed.

Seven-eighths curl horn means the horn of a male Dall sheep, the tip of which has grown through seven-eighths (315 degrees) of a circle, described by the outer surface of the horn, as viewed from the side, or with both horns broken.

Shovel means a hand-operated implement for digging clams.

Skin, hide, pelt, or fur means any tanned or untanned external covering of an animal’s body; excluding bear. The skin, hide, fur, or pelt of a bear shall mean the entire external covering with claws attached.

Spear means a shaft with a sharp point or fork-like implement attached to one end which is used to thrust through the water to impale or retrieve fish and which is operated by hand.

Spike-fork moose means a bull moose with only one or two tines on either
antler; male calves are not spike-fork bulls.

Stretched measure means the average length of any series of 10 consecutive meshes measured from inside the first knot and including the last knot when wet; the 10 meshes, when being measured, shall be an integral part of the net, as hung, and measured perpendicular to the selvages; measurements shall be made by means of a metal tape measure while the 10 meshes being measured are suspended vertically from a single peg or nail, under 5-pound weight.

Subsistence fishing permit means a permit issued by the Alaska Department of Fish and Game, unless specifically identified otherwise.

Take or Taking means to fish, pursue, hunt, shoot, trap, net, capture, collect, kill, harm, or attempt to engage in any such conduct.

Tine or antler point refers to any point on an antler, the length of which is greater than its width and is at least one inch.

To operate fishing gear means any of the following: To deploy gear in the water; to remove gear from the water; to remove fish or shellfish from the gear during an open season or period; or to possess a gillnet containing fish during an open fishing period, except that a gillnet which is completely clear of the water is not considered to be operating for the purposes of minimum distance requirement.

Transportation means to ship, convey, carry, or transport by any means whatever and deliver or receive for such shipment, conveyance, carriage, or transportation.

Trapping means the taking of furbearers within established trapping seasons and with a required trapping license.

Trawl means a bag-shaped net towed through the water to capture fish or shellfish, and includes beam, otter, or pelagic trawl.

Troll gear means a power gurdy troll gear consisting of a line or lines with lures or baited hooks which are drawn through the water by a power gurdy; hand troll gear consisting of a line or lines with lures or baited hooks which are drawn through the water from a vessel by hand trolling, strip fishing, or other types of trolling, and which are retrieved by hand power or hand-powered crank and not by any type of electrical, hydraulic, mechanical, or other assisting device or attachment; or dinglebar troll gear consisting of one or more lines, retrieved and set with a troll gurdy or hand troll gurdy with a terminally attached weight from which one or more leaders with one or more lures or baited hooks are pulled through the water while a vessel is making way.

Trout means the following species: cutthroat trout (Oncorhynchus clarki) and rainbow/steelhead trout (Oncorhynchus mykiss).

Unclassified wildlife or unclassified species means all species of animals not otherwise classified by the definitions in this paragraph (a), or regulated under other Federal law as listed in paragraph (i) of this section.

Ungulate means any species of hoofed mammal, including deer, caribou, elk, moose, mountain goat, Dall sheep, and musk oxen.

Unit means one of the 26 geographical areas in the State of Alaska known as Game Management Units, or GMU, and collectively listed in this section as Units.

Wildlife means any hare (rabbit), ptarmigan, grouse, ungulate, bear, furbearer, or unclassified species and includes any part, product, egg, or offspring thereof, or carcass or part thereof.

(b) Taking fish, wildlife or shellfish for subsistence uses by a prohibited method is a violation of this part. Seasons are closed unless opened by Federal regulation. Hunting, trapping, or fishing during a closed season or in an area closed by this part is prohibited. You may not take for subsistence fish, wildlife, or shellfish outside established Unit or Area seasons, or in excess of the established Unit or Area harvest limits, unless otherwise provided for by the Board. You may take fish, wildlife, or shellfish under State regulations on public lands, except as otherwise restricted at §§242.26 through 242.28. Unit/Area-specific restrictions or allowances for subsistence taking of fish, wildlife, or shellfish are identified at §§242.26 through 242.28.
(c) Harvest limits. (1) Harvest limits, including those related to ceremonial uses, authorized by this section and harvest limits established in State regulations may not be accumulated.

(2) Fish, wildlife, or shellfish taken by a designated individual for another person pursuant to §242.10(d)(5)(ii), counts toward the individual harvest limit of the person for whom the fish, wildlife, or shellfish is taken.

(3) A harvest limit applies to the number of fish, wildlife, or shellfish that can be taken during a regulatory year; however, harvest limits for grouse, ptarmigan, and caribou (in some Units) are regulated by the number that may be taken per day. Harvest limits for grouse and ptarmigan are also regulated by the number that can be held in possession.

(4) Unless otherwise provided, any person who gives or receives fish, wildlife, or shellfish shall furnish, upon a request made by a Federal or State agent, a signed statement describing the following: Names and addresses of persons who gave and received fish, wildlife, or shellfish, the time and place that the fish, wildlife, or shellfish was taken, and identification of species transferred. Where a qualified subsistence user has designated another qualified subsistence user to take fish, wildlife, or shellfish on his or her behalf in accordance with §242.10(d)(5)(ii), the permit shall be furnished in place of a signed statement.

(d) Fishing by designated harvest permit. (1) Any species of fish that may be taken by subsistence fishing under this part may be taken under a designated harvest permit.

(2) If you are a Federally-qualified subsistence user, you (beneficiary) may designate another Federally-qualified subsistence user to take fish on your behalf. The designated fisherman must have in possession a valid designated fishing permit when taking, attempting to take, or transporting fish taken under this section, on behalf of a beneficiary.

(4) The designated fisherman may not fish with more than one legal limit of gear.

(5) You may not designate more than one person to take or attempt to take fish on your behalf at one time. You may not personally take or attempt to take fish at the same time that a designated fisherman is taking or attempting to take fish on your behalf.

(e) Hunting by designated harvest permit. (1) As allowed by §242.26, if you are a Federally-qualified subsistence user, you (beneficiary) may designate another Federally-qualified subsistence user to take wildlife on your behalf unless you are a member of a community operating under a community harvest system.

(2) The designated hunter must obtain a designated hunter permit and must return a completed harvest report.

(3) You may not designate more than one person to take or attempt to take fish on your behalf at one time.

(4) The designated hunter may hunt for any number of beneficiaries but may have no more than two harvest limits in his/her possession at any one time, unless otherwise specified in §242.26.

(f) A rural Alaska resident who has been designated to take fish, wildlife, or shellfish on behalf of another rural Alaska resident in accordance with §242.10(d)(5)(ii), shall promptly deliver the fish, wildlife, or shellfish to that rural Alaska resident.

(g) The U.S. Fish and Wildlife Service, Office of Subsistence Management may issue a permit to harvest fish, wildlife, or shellfish for a qualifying cultural/educational program to an organization that has been granted a Federal subsistence permit for a similar event within the previous five years. A qualifying program must have instructors, enrolled students, minimum attendance requirements, and standards for successful completion of the course. Applications must be submitted to the Office of Subsistence Management 60 days prior to the earliest desired date of harvest. Permits will be issued for no more than one large mammal per culture/education
camp. Large mammal species allowed to be harvested are limited to deer, moose, caribou, black bear, and mountain goat. Permits will be issued for no more than 25 fish per culture/education camp. Any animals harvested will count against any established Federal harvest quota for the area in which harvested. Appeal of a rejected request can be made to the Federal Subsistence Board. Application for an initial permit for a qualifying cultural/educational program, for a permit when the circumstances have changed significantly, when no permit has been issued within the previous five years, or when there is a request for harvest in excess of that provided in this paragraph (g), will be considered by the Federal Subsistence Board.

(h) If a subsistence fishing or hunting permit is required by this part, the following permit conditions apply unless otherwise specified in this section:

1. You may not take more fish, wildlife, or shellfish for subsistence use than the limits set out in the permit; 
2. You must obtain the permit prior to fishing or hunting; 
3. You must have the permit in your possession and readily available for inspection while fishing, hunting, or transporting subsistence-taken fish, wildlife, or shellfish; 
4. If specified on the permit, you shall keep accurate daily records of the harvest, showing the number of fish, wildlife, or shellfish taken by species, location and date of harvest, and other such information as may be required for management or conservation purposes; and 
5. If the return of harvest information necessary for management and conservation purposes is required by a permit and you fail to comply with such reporting requirements, you are ineligible to receive a subsistence permit for that activity during the following calendar year, unless you demonstrate that failure to report was due to loss in the mail, accident, sickness, or other unavoidable circumstances.

(i) You may not possess, transport, give, receive, or barter fish, wildlife, or shellfish that was taken in violation of Federal or State statutes or a regulation promulgated thereunder.

(j) Utilization of fish, wildlife, or shellfish. (1) You may not use wildlife as food for a dog or furbearer, or as bait, except for the following:

i. The hide, skin, viscera, head, or bones of wildlife; 
ii. The skinned carcass of a furbearer; 
(iii) Squirrels, hares (rabbits), grouse, and ptarmigan; however, you may not use the breast meat of grouse and ptarmigan as animal food or bait;

(iv) Unclassified wildlife.

(2) If you take wildlife for subsistence, you must salvage the following parts for human use:

i. The hide of a wolf, wolverine, coyote, fox, lynx, marten, mink, weasel, or otter; 
(ii) The hide and edible meat of a brown bear, except that the hide of brown bears taken in the Western and Northwestern Alaska Brown Bear Management Areas and Units 5 and 9(B) need not be salvaged; 
(iii) The hide and edible meat of a black bear; 
(iv) The hide or meat of squirrels, hares (rabbits), marmots, beaver, muskrats, or unclassified wildlife. 
(3) You must salvage the edible meat of ungulates, bear, grouse and ptarmigan.

(4) You may not intentionally waste or destroy any subsistence-caught fish or shellfish; however, you may use for bait or other purposes, whitefish, herring, and species for which bag limits, seasons, or other regulatory methods and means are not provided in this section, as well as the head, tail, fins, and viscera of legally-taken subsistence fish.

(5) Failure to salvage the edible meat may not be a violation if such failure is caused by circumstances beyond the control of a person, including theft of the harvested fish, wildlife, or shellfish, unanticipated weather conditions, or unavoidable loss to another animal.

Migratory Bird Treaty Act (40 Stat. 755; 16 U.S.C. 703-711), or any amendments to these Acts. The taking and use of fish, wildlife, or shellfish, covered by these Acts, will conform to the specific provisions contained in these Acts, as amended, and any implementing regulations.

(i) Rural residents, nonrural residents, and nonresidents not specifically prohibited by Federal regulations from fishing, hunting, or trapping on public lands in an area, may fish, hunt, or trap on public lands in accordance with the appropriate State regulations.

[66 FR 33755, June 25, 2001]

§ 242.26 Subsistence taking of wildlife.

(a) You may take wildlife for subsistence uses by any method, except as prohibited in this section or by other Federal statute. Taking wildlife for subsistence uses by a prohibited method is a violation of this part. Seasons are closed unless opened by Federal regulation. Hunting or trapping during a closed season or in an area closed by this part is prohibited.

(b) Except for special provisions found at paragraphs (m)(1) through (26) of this section, the following methods and means of taking wildlife for subsistence uses are prohibited:

1. Shooting from, on, or across a highway;

2. Using any poison;

3. Using a helicopter in any manner, including transportation of individuals, equipment, or wildlife; however, this prohibition does not apply to transportation of an individual, gear, or wildlife during an emergency rescue operation in a life-threatening situation;

4. Taking wildlife from a motorized land or air vehicle, when that vehicle is in motion or from a motor-driven boat when the boat’s progress from the motor’s power has not ceased;

5. Using a motorized vehicle to drive, herd, or molest wildlife;

6. Using or being aided by use of a machine gun, set gun, or a shotgun larger than 10 gauge;

7. Using a firearm other than a shotgun, muzzle-loaded rifle, rifle or pistol using center-firing cartridges, for the taking of ungulates, bear, wolves or wolverine, except that—

(i) An individual in possession of a valid trapping license may use a firearm that shoots rimfire cartridges to take wolves and wolverine;

(ii) Only a muzzle-loading rifle of .54-caliber or larger, or a .45-caliber muzzle-loading rifle with a 250-grain, or larger, elongated slug may be used to take brown bear, black bear, elk, moose, musk oxen and mountain goat;

8. Using or being aided by use of a pit, fire, artificial light, radio communication, artificial salt lick, explosive, barbed arrow, bomb, smoke, chemical, conventional steel trap with a jaw spread over nine inches, or conibear style trap with a jaw spread over 11 inches;

9. Using a snare, except that an individual in possession of a valid hunting license may use nets and snares to take unclassified wildlife, ptarmigan, grouse, or hares; and, individuals in possession of a valid trapping license may use snares to take furbearers;

10. Using a trap to take ungulates or bear;

11. Using hooks to physically snag, impale, or otherwise take wildlife; however, hooks may be used as a trap drag;

12. Using a crossbow to take ungulates, bear, wolf, or wolverine in any area restricted to hunting by bow and arrow only;

13. Taking of ungulates, bear, wolf, or wolverine with a bow, unless the bow is capable of casting a 7/8 inch wide broadhead-tipped arrow at least 175 yards horizontally, and the arrow and broadhead together weigh at least one ounce (437.5 grains);

14. Using bait for taking ungulates, bear, wolf, or wolverine; except, you may use bait to take wolves and wolverine with a trapping license, and, you may use bait to take black bears with a hunting license as authorized in Unit-specific regulations at paragraphs (m)(1) through (26) of this section. Baiting of black bears is subject to the following restrictions:

(i) Before establishing a black bear bait station, you must register the site with ADF&G;

(ii) When using bait you must clearly mark the site with a sign reading
§ 242.26

“black bear bait station” that also displays your hunting license number and ADF&G assigned number;

(iii) You may use only biodegradable materials for bait; you may use only the head, bones, viscera, or skin of legally harvested fish and wildlife for bait;

(iv) You may not use bait within one-quarter mile of a publicly maintained road or trail;

(v) You may not use bait within one mile of a house or other permanent dwelling, or within one mile of a developed campground, or developed recreational facility;

(vi) When using bait, you must remove litter and equipment from the bait station site when done hunting;

(vii) You may not give or receive payment for the use of a bait station, including barter or exchange of goods;

(viii) You may not have more than two bait stations with bait present at any one time;

(15) Taking swimming ungulates, bears, wolves or wolverine;

(16) Taking or assisting in the taking of ungulates, bear, wolves, wolverine, or other furbearers before 3:00 a.m. on the day following the day on which airborne travel occurred; however, this does not apply to a trapper using a firearm to dispatch furbearers caught in a trap or snare.

(c) Wildlife taken in defense of life or property is not a subsistence use; wildlife so taken is subject to State regulations.

(d) The following methods and means of trapping furbearers, for subsistence uses pursuant to the requirements of a trapping license are prohibited, in addition to the prohibitions listed at paragraph (b) of this section:

(1) Disturbing or destroying a den, except that you may disturb a muskrat pushup or feeding house in the course of trapping;

(2) Disturbing or destroying any beaver house;

(3) Taking beaver by any means other than a steel trap or snare, except that you may use firearms in certain Units with established seasons as identified in Unit-specific regulations found in this subpart;

(4) Taking otter with a steel trap having a jaw spread of less than five and seven-eighths inches during any closed mink and marten season in the same Unit;

(5) Using a net, or fish trap (except a blackfish or fyke trap);

(6) Taking beaver in the Minto Flats Management Area with the use of an aircraft for ground transportation, or by landing within one mile of a beaver trap or set used by the transported person;

(7) Taking or assisting in the taking of furbearers by firearm before 3:00 a.m. on the day following the day on which airborne travel occurred; however, this does not apply to a trapper using a firearm to dispatch furbearers caught in a trap or snare.

(e) Possession and transportation of wildlife. (1) Except as specified in paragraphs (e)(2) or (f)(1) of this section, or as otherwise provided, you may not take a species of wildlife in any Unit, or portion of a Unit, if your total take of that species already obtained anywhere in the State under Federal and State regulations equals or exceeds the harvest limit in that Unit.

(2) An animal taken under Federal or State regulations by any member of a community with an established community harvest limit for that species counts toward the community harvest limit for that species taken under Federal or State of Alaska regulations.

(f) Harvest limits.

(1) The harvest limit specified for a trapping season for a species and the harvest limit set for a hunting season for the same species are separate and distinct. This means that if you have taken a harvest limit for a particular species under a trapping season, you may take additional animals under the harvest limit specified for a hunting season or vice versa.

(2) A brown/grizzly bear taken in a Unit or portion of a Unit having a harvest limit of one brown/grizzly bear per
year counts against a one brown/grizzly bear every four regulatory years harvest limit in other Units; an individual may not take more than one brown/grizzly bear in a regulatory year.

(g) Evidence of sex and identity. (1) If subsistence take of Dall sheep is restricted to a ram, you may not possess or transport a harvested sheep unless both horns accompany the animal.

(2) If the subsistence taking of an ungulate, except sheep, is restricted to one sex in the local area, you may not possess or transport the carcass of an animal taken in that area unless sufficient portions of the external sex organs remain attached to indicate conclusively the sex of the animal, except in Units 11, 13, 19, 21, and 24 where you may possess either sufficient portions of the external sex organs (still attached to a portion of the carcass) or the head (with or without antlers attached; however, the antler stumps must remain attached), to indicate the sex of the harvested moose; however, this paragraph (g)(2) does not apply to the carcass of an ungulate that has been butchered and placed in storage or otherwise prepared for consumption upon arrival at the location where it is to be consumed.

(3) If a moose harvest limit includes an antler size or configuration restriction, you may not possess or transport the moose carcass or its parts unless both antlers accompany the carcass or its parts. If you possess a set of antlers with less than the required number of brow tines on one antler, you must leave the antlers naturally attached to the unbroken, uncut skull plate; however, this paragraph (g)(3) does not apply to a moose carcase or its parts that have been butchered and placed in storage or otherwise prepared for consumption after arrival at the place where it is to be stored or consumed.

(h) You must leave all edible meat from caribou and moose harvested in Units 9(B), 17, and 19(B) prior to October 1 on the bones of the front quarters and hind quarters until you remove the meat from the field or process it for human consumption.

(i) If you take an animal that has been marked or tagged for scientific studies, you must, within a reasonable time, notify the ADF&G or the agency identified on the collar or marker, when and where the animal was taken. You also must retain any ear tag, collar, radio, tattoo, or other identification with the hide until it is sealed, if sealing is required; in all cases, you must return any identification equipment to the ADF&G or to an agency identified on such equipment.

(j) Sealing of bear skins and skulls.

(1) Sealing requirements for bear shall apply to brown bears taken in all Units, except as specified in this paragraph, and black bears of all color phases taken in Units 1–7, 11–17, and 20.

(2) You may not possess or transport from Alaska, the untanned skin or skull of a bear unless the skin and skull have been sealed by an authorized representative of ADF&G in accordance with State or Federal regulations, except that the skin and skull of a brown bear taken under a registration permit in the Western Alaska Brown Bear Management Area, the Northwest Alaska Brown Bear Management Area, Unit 5, or Unit 9(B) need not be sealed unless removed from the area.

(3) You must keep a bear skin and skull together until a representative of the ADF&G has removed a rudimentary premolar tooth from the skull and sealed both the skull and the skin; however, this provision shall not apply to brown bears taken within the Western Alaska Brown Bear Management Area, the Northwest Alaska Brown Bear Management Area, Unit 5, or Unit 9(B) which are not removed from the Management Area or Unit.

(i) In areas where sealing is required by Federal regulations, you may not possess or transport the hide of a bear which does not have the penis sheath or vaginal orifice naturally attached to indicate conclusively the sex of the bear.

(ii) If the skin or skull of a bear taken in the Western Alaska Brown Bear Management Area is removed from the area, you must first have it sealed by an ADF&G representative in Bethel, Dillingham, or McGrath; at the time of sealing, the ADF&G representative shall remove and retain the skin of the skull and front claws of the bear.

(iii) If you remove the skin or skull of a bear taken in the Northwestern Alaska Brown Bear Management Area
from the area or present it for commercial tanning within the Management Area, you must first have it sealed by an ADF&G representative in Barrow, Fairbanks, Galena, Nome, or Kotzebue; at the time of sealing, the ADF&G representative shall remove and retain the skin of the skull and front claws of the bear.

(iv) If you remove the skin or skull of a bear taken in Unit 5 from the area, you must first have it sealed by an ADF&G representative in Yakutat; at the time of sealing, the ADF&G representative shall remove and retain the skin of the skull and front claws of the bear.

(4) You may not falsify any information required on the sealing certificate or temporary sealing form provided by the ADF&G in accordance with State regulations.

(k) Sealing of beaver, lynx, marten, otter, wolf, and wolverine. You may not possess or transport from Alaska the untanned skin of a marten taken in Units 1–5, 7, 13(E), and 14–16 or the untanned skin of a beaver, lynx, otter, wolf, or wolverine, whether taken inside or outside the State, unless the skin has been sealed by an authorized representative of ADF&G in accordance with State regulations. In Unit 18, you must obtain an ADF&G seal for beaver skins only if they are to be sold or commercially sold.

(1) You must seal any wolf taken in Unit 2 on or before the 30th day after the date of taking.

(2) You must leave the radius and ulna of the left foreleg naturally attached to the hide of any wolf taken in Units 1–5 until the hide is sealed.

(i) A person who takes a species listed in paragraph (k) of this section but who is unable to present the skin in person, must complete and sign a temporary sealing form and ensure that the completed temporary sealing form and skin are presented to an authorized representative of ADF&G for sealing consistent with requirements listed in paragraph (k) of this section.

(m) Unit regulations. You may take for subsistence unclassified wildlife, all squirrel species, and marmots in all Units, without harvest limits, for the period of July 1–June 30. Unit-specific restrictions or allowances for subsistence taking of wildlife are identified at paragraphs (m)(1) through (26) of this section.

(1) Unit 1. Unit 1 consists of all mainland drainages from Dixon Entrance to Cape Fairweather, and those islands east of the center line of Clarence Strait from Dixon Entrance to Caamano Point, and all islands in Stephens Passage and Lynn Canal north of Taku Inlet:

(i) Unit 1(A) consists of all drainages south of the latitude of Lemesurier Point including all drainages into Behm Canal, excluding all drainages of Ernest Sound;

(ii) Unit 1(B) consists of all drainages between the latitude of Lemesurier Point and the latitude of Cape Fanshaw including all drainages of Ernest Sound and Farragut Bay, and including the islands east of the center lines of Frederick Sound, Dry Strait (between Sergief and Kadin Islands), Eastern Passage, Blake Channel (excluding Blake Island), Ernest Sound, and Seward Passage;

(iii) Unit 1(C) consists of that portion of Unit 1 draining into Stephens Passage and Lynn Canal north of Cape Fanshaw and south of the latitude of Eldred Rock including Berners Bay, Sullivan Island, and all mainland portions north of Chichagof Island and south of the latitude of Eldred Rock, excluding drainages into Farragut Bay;

(iv) Unit 1(D) consists of that portion of Unit 1 north of the latitude of Eldred Rock, excluding Sullivan Island and the drainages of Berners Bay;

(v) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public lands:

(A) Public lands within Glacier Bay National Park are closed to all taking of wildlife for subsistence uses;

(B) Unit 1(A)—in the Hyder area, the Salmon River drainage downstream from the Riverside Mine, excluding the Thumb Creek drainage, is closed to the taking of bear;

(C) Unit 1(B)—the Anan Creek drainage within one mile of Anan Creek downstream from the mouth of Anan Lake, including the area within a one mile radius from the mouth of Anan Creek Lagoon, is closed to the taking of black bear and brown bear;

(D) Unit 1(C):
(1) You may not hunt within one-fourth mile of Mendenhall Lake, the U.S. Forest Service Mendenhall Glacier Visitor's Center, and the Center's parking area;

(2) You may not take mountain goat in the area of Mt. Bullard bounded by the Mendenhall Glacier, Nugget Creek from its mouth to its confluence with Goat Creek, and a line from the mouth of Goat Creek north to the Mendenhall Glacier;

(vi) You may not trap furbearers for subsistence uses in Unit 1(C), Juneau area, on the following public lands:

(A) A strip within one-quarter mile of the mainland coast between the end of Thane Road and the end of Glacier Highway at Echo Cove;

(B) That area of the Mendenhall Valley bounded on the south by the Glacier Highway, on the west by the Mendenhall Loop Road and Montana Creek Road and Spur Road to Mendenhall Lake, on the north by Mendenhall Lake, and on the east by the Mendenhall Loop Road and Forest Service Glacier Spur Road to the Forest Service Visitor Center;

(C) That area within the U.S. Forest Service Mendenhall Glacier Recreation Area;

(D) A strip within one-quarter mile of the following trails as designated on U.S. Geological Survey maps: Herbert Glacier Trail, Windfall Lake Trail, Peterson Lake Trail, Spaulding Meadows Trail (including the loop trail), Nugget Creek Trail, Outer Point Trail, Dan Moller Trail, Perseverance Trail, Granite Creek Trail, Mt. Roberts Trail and Nelson Water Supply Trail, Sheep Creek Trail, and Point Bishop Trail;

(vii) Unit-specific regulations:

(A) You may hunt black bear with bait in Units 1(A), 1(B), and 1(D) between April 15 and June 15;

(B) You may not shoot ungulates, bear, wolves, or wolverine from a boat, unless you are certified as disabled;

(C) You may take wildlife outside the seasons or harvest limits provided in this part for food in traditional religious ceremonies which are part of a funerary or mortuary cycle, including memorial potlatches, if:

(I) The person organizing the religious ceremony, or designee, contacts the appropriate Federal land management agency prior to taking or attempting to take game and provides to the appropriate Federal land managing agency the name of the decedent, the nature of the ceremony, the species and number to be taken, and the Unit(s) in which the taking will occur;

(2) The taking does not violate recognized principles of fish and wildlife conservation;

(3) Each person who takes wildlife under this section must, as soon as practicable, and not more than 15 days after the harvest, submit a written report to the appropriate Federal land managing agency, specifying the harvester's name and address, the number, sex and species of wildlife taken, the date and locations of the taking, and the name of the decedent for whom the ceremony was held;

(4) No permit or harvest ticket is required for taking under this section; however, the harvester must be an Alaska rural resident with customary and traditional use in that area where the harvesting will occur;

(D) A Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take deer on his or her behalf unless the recipient is a member of a community operating under a community harvest system. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in his/her possession at any one time.

(2) Unit 2. Unit 2 consists of Prince of Wales Island and all islands west of the center lines of Clarence Strait and Kashevarof Passage, south and east of the center lines of Sumner Strait, and east of the longitude of the western most point on Warren Island.

(1) Unit-specific regulations:
(A) You may use bait to hunt black bear between April 15 and June 15;
(B) You may not shoot ungulates, bear, wolves, or wolverine from a boat, unless you are certified as disabled;
(C) You may take wildlife outside the seasons or harvest limits provided in this part for food in traditional religious ceremonies which are part of a funerary or mortuary cycle, including memorial potlatches, if:

(I) The person organizing the religious ceremony, or designee, contacts the appropriate Federal land management agency prior to taking or attempting to take game and provides to the appropriate Federal land managing agency the name of the decedent, the nature of the ceremony, the species and number to be taken, and the Unit(s) in which the taking will occur;

(2) The taking does not violate recognized principles of fish and wildlife conservation;
Forest Service, USDA  § 242.26

(3) Each person who takes wildlife under this section must, as soon as practicable, and not more than 15 days after the harvest, submit a written report to the appropriate Federal land managing agency, specifying the harvester’s name and address, the number, sex and species of wildlife taken, the date and locations of the taking, and the name of the decedent for whom the ceremony was held;

(4) No permit or harvest ticket is required for taking under this section; however, the harvester must be an Alaska rural resident with customary and traditional use in that area where the harvesting will occur;

(D) A Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take deer on his or her behalf unless the recipient is a member of a community operating under a community harvest system. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in his/her possession at any one time.

(ii) [Reserved]

(3) Unit 3. (i) Unit 3 consists of all islands west of Unit 1(B), north of Unit 2, south of the center line of Frederick Sound, and east of the center line of Chatham Strait including Coronation, Kulu, Kupreanof, Mitkof, Zarembo, Kashevarof, Woronokfski, Etoin, Wrangell, and Deer Islands.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public lands:

(A) In the Petersburg vicinity, you may not take ungulates, bear, wolves, and wolverine along a strip one-fourth mile wide on each side of the Mitkof Highway from Milepost 0 to Crystal Lake campground;

(B) You may not take black bears in the Petersburg Creek drainage on Kupreanof Island;

(C) You may not hunt in the Blind Slough draining into Wrangell Narrows and a strip one-fourth mile wide on each side of Blind Slough, from the hunting closure markers at the southernmost portion of Blind Island to the hunting closure markers one mile south of the Blind Slough bridge.

(iii) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 15;

(B) You may not shoot ungulates, bear, wolves, or wolverine from a boat, unless you are certified as disabled;
§ 242.26  36 CFR Ch. II (7–1–01 Edition)

(4) Unit 4. (1) Unit 4 consists of all islands south and west of Unit 1(C) and north of Unit 3 including Admiralty, Baranof, Chichagof, Yakobi, Inian, Lemesurier, and Pleasant Islands.
§ 242.26  Harvest limits and open season for hunting

Forest Service, USDA

Applicability of regulations.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public lands:

(A) You may not take bears in the Seymour Canal Closed Area (Admiralty Island) including all drainages into northwestern Seymour Canal between Staunch Point and the southernmost tip of the unnamed peninsula separating Swan Cove and King Salmon Bay including Swan and Windfall Islands;

(B) You may not take bears in the Salt Lake Closed Area (Admiralty Island) including all lands within one-fourth mile of Salt Lake above Klutchman Rock at the head of Mitch-ell Bay;

(C) You may not take brown bears in the Port Althorp Closed Area (Chichagof Island), that area within the Port Althorp watershed south of a line from Point Lucan to Salt Chuck Point (Trap Rock);

(D) You may not use any motorized land vehicle for brown bear hunting in the Northeast Chichagof Controlled Use Area (NECCUA) consisting of all portions of Unit 4 on Chichagof Island north of Tenakee Inlet and east of the drainage divide from the northwest point of Gull Cove to Port Frederick Portage, including all drainages into Port Frederick and Mud Bay;

(E) You may not use any motorized land vehicle for the taking of marten, mink, and weasel on Chichagof Island.

(iii) Unit-specific regulations:

(A) You may shoot ungulates from a boat. You may not shoot bear, wolves, or wolverine from a boat, unless you are certified as disabled;

(B) A Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take deer on his or her behalf unless the recipient is a member of a community operating under a community harvest system. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in his/her possession at any one time;

(C) You may take wildlife outside the seasons or harvest limits provided in this part for food in traditional religious ceremonies which are part of a funerary or mortuary cycle, including memorial potlatches, if:

(1) The person organizing the religious ceremony, or designee, contacts the appropriate Federal land management agency prior to taking or attempting to take game and provides to the appropriate Federal land managing agency the name of the decedent, the nature of the ceremony, the species and number to be taken, and the Unit(s) in which the taking will occur;

(2) The taking does not violate recognized principles of fish and wildlife conservation;

(3) Each person who takes wildlife under this section must, as soon as practicable, and not more than 15 days after the harvest, submit a written report to the appropriate Federal land managing agency, specifying the harvester’s name and address, the number, sex and species of wildlife taken, the date and locations of the taking, and the name of the decedent for whom the ceremony was held;

(4) No permit or harvest ticket is required for taking under this section; however, the harvester must be an Alaska rural resident with customary and traditional use in that area where the harvesting will occur;

(D) Five Federal registration permits will be issued for the taking of brown bear for educational purposes associated with teaching customary and traditional subsistence harvest and use practices. Any bear taken under an educational permit would count in an individual’s one bear every four regulatory years limit.

(6) Unit 6. (i) Unit 6 consists of all Gulf of Alaska and Prince William Sound drainages from the center line of Icy Bay (excluding the Guyot Hills) to Cape Fairfield including Kayak, Hinchinbrook, Montague, and adjacent islands, and Middleton Island, but excluding the Copper River drainage upstream from Miles Glacier, and excluding the Nellie Juan and Kings River drainages:

(A) Unit 6(A) consists of Gulf of Alaska drainages east of Palm Point near Katalla including Kanak, Wingham, and Kayak Islands;

(B) Unit 6(B) consists of Gulf of Alaska and Copper River Basin drainages west of Palm Point near Katalla, east of the west bank of the Copper River, and east of a line from Flag Point to Cottonwood Point;

(C) Unit 6(C) consists of drainages west of the west bank of the Copper River, and west of a line from Flag Point to Cottonwood Point, and drainages east of the east bank of Rude River and drainages into the eastern shore of Nelson Bay and Orca Inlet;

(D) Unit 6(D) consists of the remainder of Unit 6.
(ii) For the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public lands:

(A) You may not take mountain goat in the Goat Mountain goat observation area, which consists of that portion of Unit 6(B) bounded on the north by Miles Lake and Miles Glacier, on the south and east by Pleasant Valley River, and on the west by the Copper River;

(B) You may not take mountain goat in the Heney Range goat observation area, which consists of that portion of Unit 6(C) south of the Copper River Highway and west of the Eyak River.

(iii) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 15;

(B) You may take coyotes in Units 6(B) and 6(C) with the aid of artificial lights;

(C) One permit will be issued to the Native Village of Eyak to take one bull moose from Federal lands in Units 6(B) or (C) for their annual Memorial/Sobriety Day potlatch.

(7) Unit 7. (i) Unit 7 consists of Gulf of Alaska drainages between Gore Point and Cape Fairfield including the Nellie Juan and Kings River drainages, and including the Kenai River drainage upstream from the Russian River, the drainages into the south side of Turnagain Arm west of and including the Portage Creek drainage, and east of 150° W. long., and all Kenai Peninsula drainages east of 150° W. long., from Turnagain Arm to the Kenai River.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public lands:

(A) You may not take wildlife for subsistence uses in the Kenai Fjords National Park;
(B) You may not hunt in the Portage Glacier Closed Area in Unit 7, which consists of Portage Creek drainages between the Anchorage-Seward Railroad and Placer Creek in Bear Valley, Portage Lake, the mouth of Byron Creek, Glacier Creek, and Byron Glacier; however, you may hunt grouse, ptarmigan, hares, and squirrels with shotguns after September 1.

(iii) Unit-specific regulations:
(A) You may use bait to hunt black bear between April 15 and June 15; except in the drainages of Resurrection Creek and its tributaries.
(B) [Reserved]

(8) **Unit 8.** Unit 8 consists of all islands southeast of the centerline of Shelikof Strait including Kodiak, Afognak, Whale, Raspberry, Shuyak, Spruce, Marmot, Sittkalidak, Amook, Uganik, and Chirikof Islands, the Trinity Islands, the Semidi Islands, and other adjacent islands.

(i) If you have a trapping license, you may take beaver with a firearm in Unit 8 from Nov. 10–Apr. 30.

(ii) A Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take deer on his or her behalf unless the recipient is a member of a community operating under a community harvest system. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in his/her possession at any one time.

(9) Unit 9. (i) Unit 9 consists of the Alaska Peninsula and adjacent islands including drainages east of False Pass, Pacific Ocean drainages west of and excluding the Redoubt Creek drainage; drainages into the south side of Bristol Bay, drainages into the north side of Bristol Bay east of Etolin Point, and including the Sanak and Shumagin Islands:

(A) Unit 9(A) consists of that portion of Unit 9 draining into Shellkof Strait and Cook Inlet between the southern boundary of Unit 16 (Redoubt Creek) and the northern boundary of Katmai National Park and Preserve;

(B) Unit 9(B) consists of the Kvichak River drainage;

(C) Unit 9(C) consists of the Alagnak (Branch) River drainage, the Naknek River drainage, and all land and water within Katmai National Park and Preserve;

(D) Unit 9(D) consists of all Alaska Peninsula drainages west of a line from the southernmost head of Port Moller to the head of American Bay including the Shumagin Islands and other islands of Unit 9 west of the Shumagin Islands;

(E) Unit 9(E) consists of the remainder of Unit 9.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public lands:

(A) You may not take wildlife for subsistence uses in Katmai National Park;

(B) You may not use motorized vehicles, except aircraft, boats, or snowmobiles used for hunting and transporting a hunter or his party from Aug. 1–Nov. 30 in the Naknek Controlled Use Area, which includes all of Unit 9(C) within the Naknek drainage upstream from and including the King Salmon Creek drainage; however, you may use a motorized vehicle on the Naknek-King Salmon, Lake Camp, and Rapids Camp roads and on the King Salmon Creek trail, and on frozen surfaces of the Naknek River and Big Creek.

(iii) Unit-specific regulations:

(A) If you have a trapping license, you may use a firearm to take beaver in Unit 9(B) from April 1–May 31 and in the remainder of Unit 9 from April 1–April 30;

(B) In Unit 9(B), Lake Clark National Park and Preserve, residents of Non-dalton, Iliamna, Newhalen, Pedro Bay, and Port Alsworth, may hunt brown bear by Federal registration permit in lieu of a resident tag; ten permits will be available with at least one permit issued in each community but no more than five permits will be issued in a single community; the season will be closed when four females or ten bears have been taken, whichever occurs first;

(C) Residents of Newhalen, Non-dalton, Iliamna, Pedro Bay, and Port Alsworth may take up to a total of 10 bull moose in Unit 9(B) for ceremonial purposes, under the terms of a Federal registration permit from July 1 through June 30. Permits will be issued to individuals only at the request of a local organization. This 10 moose limit is not cumulative with that permitted for potlatches by the State.

(D) For Units 9(C) and (E) only, a Federally-qualified subsistence user...
member of a community operating under a community harvest system. The designated hunter must obtain a designated hunter permit and must return a completed harvest report and turn over all meat to the recipient. There is no restriction on the number of possession limits the designated hunter may have in his/her possession at any one time;

(E) For Unit 9(D), a Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take caribou on his or her behalf unless the recipient is a member of a community operating under a community harvest system. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than four harvest limits in his/her possession at any one time;

(F) The communities of False Pass, King Cove, Cold Bay, Sand Point, and Nelson Lagoon annually may each take, from October 1 through December 31 or May 10 through May 25, one brown bear for ceremonial purposes, under the terms of a Federal registration permit. A permit will be issued to an individual only at the request of a local organization. The brown bear may be taken from either Unit 9(D) or Unit 10 (Unimak Island) only.

§ 242.26 36 CFR Ch. II (7–1–01 Edition)
drainages into the north bank of the Talkeetna River; the drainages into the east bank of the Chickaloon River; the drainages of the Matanuska River above its confluence with the Chickaloon River:

(A) Unit 13(A) consists of that portion of Unit 13 bounded by a line beginning at the Chickaloon River bridge at Mile 77.7 on the Glenn Highway, then along the Glenn Highway to its junction with the Richardson Highway, then south along the Richardson Highway to the foot of Simpson Hill at Mile 111.5, then east to the east bank of the Copper River, then northerly along the east bank of the Copper River to its junction with the Gulkana River, then northerly along the west bank of the Gulkana River to its junction with the West Fork of the Gulkana River, then westerly along the west bank of the West Fork of the Gulkana River to its source, an unnamed lake, then across the divide into the Tyone River drainage, down an unnamed stream into the Tyone River, then down the Tyone River to the Susitna River, then down the southern bank of the Susitna River to the mouth of Kosina Creek, then up Kosina Creek to its headwaters, then across the divide and down Aspen Creek to the Talkeetna River, then southerly along the boundary of Unit 13 to the Chickaloon River bridge, the point of beginning;

(B) Unit 13(B) consists of that portion of Unit 13 bounded by a line beginning at the confluence of Miller Creek and the Delta River, then west to vertical angle bench mark Miller, then west to include all drainages of Augustana Creek and Black Rapids Glacier, then north and east to include all drainages of McGinnis Creek to its confluence with the Delta River, then east in a straight line across the Delta River to Mile 236.7 Richardson Highway, then north along the Richardson Highway to its junction with the Alaska Highway, then east along the Alaska Highway to the west bank of the Johnson River, then south along the west bank of the Johnson River and Johnson Glacier to the head of the Cantwell Glacier, then west along the north bank of the Canwell Glacier and Miller Creek to the Delta River;

(C) Except for access and transportation of harvested wildlife on Sourdough and Haggard Creeks, Meiers Lake trails, or other trails designated by the Board, you may not use motorized vehicles for hunting from Aug. 5–Aug. 25 in the Sourdough Controlled Use Area. The Sourdough Controlled Use Area consists of that portion of Unit 13(B) bounded by a line beginning at the confluence of Sourdough Creek and the Gulkana River, then northerly along Sourdough Creek to the Richardson Highway, then northerly along Sourdough Creek to the Richardson Highway at approximately Mile 148, then northerly along the Richardson Highway to the Meiers Creek Trail.

(D) Unit 13(D) consists of that portion of Unit 13 south of Unit 13(A);

(E) Unit 13(E) consists of the remainder of Unit 13.

(ii) Within the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public lands:

(A) You may not take wildlife for subsistence uses on lands within Mount McKinley National Park as it existed prior to December 2, 1980. Subsistence uses as authorized by this paragraph (m)(13) are permitted in Denali National Preserve and lands added to Denali National Park on December 2, 1980;

(B) You may not use motorized vehicles or pack animals for hunting from Aug. 5–Aug. 25 in the Delta Controlled Use Area, the boundary of which is defined as: A line beginning at the confluence of Miller Creek and the Delta River, then west to vertical angle bench mark Miller, then west to include all drainages of Augustana Creek and Black Rapids Glacier, then north and east to include all drainages of McGinnis Creek to its confluence with the Delta River, then east in a straight line across the Delta River to Mile 236.7 Richardson Highway, then north along the Richardson Highway to its junction with the Alaska Highway, then east along the Alaska Highway to the west bank of the Johnson River, then south along the west bank of the Johnson River and Johnson Glacier to the head of the Cantwell Glacier, then west along the north bank of the Canwell Glacier and Miller Creek to the Delta River;

(C) Except for access and transportation of harvested wildlife on Sourdough and Haggard Creeks, Meiers Lake trails, or other trails designated by the Board, you may not use motorized vehicles for subsistence hunting, is prohibited in the Sourdough Controlled Use Area. The Sourdough Controlled Use Area consists of that portion of Unit 13(B) bounded by a line beginning at the confluence of Sourdough Creek and the Gulkana River, then northerly along Sourdough Creek to the Richardson Highway at approximately Mile 148, then northerly along the Richardson Highway to the Meiers Creek Trail.
at approximately Mile 170, then west-
erly along the trail to the Gulkana
River, then southerly along the east
bank of the Gulkana River to its con-
fluence with Sourdough Creek, the
point of beginning.

(iii) Unit-specific regulations:
(A) You may use bait to hunt black
bear between April 15 and June 15;
(B) A Federally-qualified subsistence
user (recipient) may designate another

(17) **Unit 17.** (i) Unit 17 consists of drainages into Bristol Bay and the Bering Sea between Etilol Point and Cape Newenham, and all islands between these points including Hagemeister Island and the Walrus Islands:

(A) Unit 17(A) consists of the drainages between Cape Newenham and Cape Constantine, and Hagemeister Island and the Walrus Islands;

(B) Unit 17(B) consists of the Nushagak River drainage upstream from, and including the Mulchatna River drainage, and the Wood River drainage upstream from the outlet of Lake Beverley;

(C) Unit 17(C) consists of the remainder of Unit 17.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public lands:

(A) Except for aircraft and boats and in legal hunting camps, you may not use any motorized vehicle for hunting ungulates, bears, wolves, and wolverines, including transportation of hunters and parts of ungulates, bears, wolves, or wolverine in the Upper Mulchatna Controlled Use Area consisting of Unit 17(B), from Aug. 1–Nov. 1;

(B) You may hunt brown bear by State registration permit in lieu of a resident tag in the Western Alaska Brown Bear Management Area, which consists of Unit 17(A), that portion of 17(B) draining into Nuyakuk Lake and Tikhikh Lake, Unit 18, and that portion of Unit 19(A) and (B) downstream of and including the Aniak River drainage, if you have obtained a State registration permit prior to hunting.

(iii) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 15;

(B) For Federal registration permit caribou hunts for Unit 17(A) and (C), that portion consisting of the Nushagak Peninsula south of the Igushik River, Tukluk River and Tukluk Hills, west to Tvativak Bay, a Federally-qualified subsistence user may designate another Federally-qualified subsistence user to harvest.
caribou on his or her behalf. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in his/her possession at any one time.

(18) **Unit 18.** (i) Unit 18 consists of that area draining into the Yukon and Kuskokwim Rivers downstream from a straight line drawn between Lower Kalskag and Paimuit and the drainages flowing into the Bering Sea from Cape Newenham on the south to and including the Pastolik River on the north; Nunivak, St. Matthew, and adjacent islands between Cape Newenham and the Pastolik River.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public lands:
(A) In the Kalskag Controlled Use Area which consists of that portion of Unit 18 bounded by a line from Lower Kalskag on the Kuskokwim River, northwesterly to Russian Mission on the Yukon River, then east along the north bank of the Yukon River to the old site of Paimut, then back to Lower Kalskag, you may not use aircraft for hunting any ungulate, bear, wolf, or wolverine, including the transportation of any hunter and ungulate, bear, wolf, or wolverine part; however, this does not apply to transportation of a hunter or ungulate, bear, wolf, or wolverine part by aircraft between publicly owned airports in the Controlled Use Area or between a publicly owned airport within the Area and points outside the Area;

(B) You may hunt brown bear by State registration permit in lieu of a resident tag in the Western Alaska Brown Bear Management Area which consists of Unit 17(A), that portion of 17(B) draining into Nuyakuk Lake and Tikchik Lake, Unit 18, and that portion of Unit 19(A) and (B) downstream of and including the Aniak River drainage, if you have obtained a State registration permit prior to hunting.

(iii) Unit-specific regulations:

(A) If you have a trapping license, you may use a firearm to take beaver in Unit 18 from Apr. 1-Jun. 10;

(B) A Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take caribou south of the Yukon River on his or her behalf. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in his/her possession at any one time;

(C) You may take caribou from a boat moving under power in Unit 18.

(19) Unit 19. (i) Unit 19 consists of the Kuskokwim River drainage upstream from a straight line drawn between Lower Kalskag and Piamut:

(A) Unit 19(A) consists of the Kuskokwim River drainage downstream from and including the Moose Creek drainage on the north bank and downstream from and including the Stony River drainage on the south bank, excluding Unit 19(B);

(B) Unit 19(B) consists of the Aniak River drainage upstream from and including the Salmon River drainage, the Hoholitna River drainage upstream from and including the Bakbuk Creek drainage, that area south of a line from the mouth of Bakbuk Creek to the radar dome at Sparrevoihn Air Force Base, including the Hoholitna River drainage upstream from that line, and the Stony River drainage upstream from and including the Can Creek drainage;

(C) Unit 19(C) consists of that portion of Unit 19 south and east of a line from Benchmark M#1.26 (approximately 1.26 miles south of the northwest corner of the original Mt. McKinley National Park boundary) to the peak of Lone Mountain, then due west to Big River, including the Big River drainage upstream from that line, and including the Swift River drainage upstream from and including the North Fork drainage;

(D) Unit 19(D) consists of the remainder of Unit 19.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not take wildlife for subsistence uses on lands within Mount McKinley National Park as it existed prior to December 2, 1980. Subsistence uses as authorized by this paragraph (m)(19) are permitted in Denali National Preserve and lands added to Denali National Park on December 2, 1980;

(B) In the Upper Kuskokwim Controlled Use Area, which consists of that portion of Unit 19(D) upstream from the mouth of Big River including the drainages of the Big River, Middle Fork, South Fork, East Fork, and Tonzona River, and bounded by a line following the west bank of the Swift Fork (McKinley Fork) of the Kuskokwim River to 152°50′W. long., then north to the boundary of Denali National Preserve, then following the western boundary of Denali National Preserve north to its intersection with the Minchumina-Telida winter trail, then west to the crest of Telida Mountain, then north along the crest of Munsatli Ridge to elevation 1,610, then northwest to Dyckman Mountain and following the crest of the divide between the Kuskokwim River and the Nowitna drainage, and the divide between the Kuskokwim River and the Nixon Fork River to Loaf benchmark on Halfway Mountain, then south to the west side of Big River drainage, the point of beginning, you may not use aircraft for hunting moose, including transportation of any moose hunter or moose part by aircraft between publicly owned airports in the Controlled Use Area, or between a publicly owned airport within the area and points outside the area;

(C) You may hunt brown bear by State registration permit in lieu of a resident tag in the Western Alaska Brown Bear Management Area, which consists of Unit 17(A), that portion of 17(B) draining into Nuyakuk Lake and Tikchik Lake, Unit 18, and that portion of Unit 19(A) and (B) downstream of and including the Aniak River drainage, if you have obtained a State registration permit prior to hunting;

(iii) Unit-specific regulations:
**Forest Service, USDA**

§ 242.26

(A) You may use bait to hunt black bear between April 15 and June 30.

(B) [Reserved]

(20) Unit 20. (i) Unit 20 consists of the Yukon River drainage upstream from and including the Totsina River drainage to and including the Hamlin Creek...
§ 242.26

drainage, drainages into the south bank of the Yukon River upstream from and including the Charley River drainage, the Ladue River and Fortymile River drainages, and the Tanana River drainage north of Unit 13 and downstream from the east bank of the Robertson River:

(A) Unit 20(A) consists of that portion of Unit 20 bounded on the south by the Unit 13 boundary, bounded on the east by the west bank of the Delta River, bounded on the north by the north bank of the Tanana River from its confluence with the Delta River downstream to its confluence with the Nenana River, and bounded on the west by the east bank of the Nenana River;

(B) Unit 20(B) consists of drainages into the north bank of the Tanana River from and including Hot Springs Slough upstream to and including the Banner Creek drainage;

(C) Unit 20(C) consists of that portion of Unit 20 bounded on the east by the east bank of the Nenana River and on the north by the north bank of the Tanana River downstream from the Nenana River;

(D) Unit 20(D) consists of that portion of Unit 20 bounded on the east by the east bank of the Robertson River and on the west by the west bank of the Delta River, and drainages into the north bank of the Tanana River from its confluence with the Robertson River downstream to, but excluding the Banner Creek drainage;

(E) Unit 20(E) consists of drainages into the south bank of the Yukon River upstream from and including the Charley River drainage, and the Ladue River drainage;

(F) Unit 20(F) consists of the remainder of Unit 20.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not take wildlife for subsistence uses on lands within Mount McKinley National Park as it existed prior to December 2, 1980. Subsistence uses as authorized by this paragraph (m)(20) are permitted in Denali National Preserve and lands added to Denali National Park on December 2, 1980;

(B) You may not use motorized vehicles or pack animals for hunting from Aug. 5-Aug. 25 in the Delta Controlled Use Area, the boundary of which is defined as: A line beginning at the confluence of Miller Creek and the Delta River, then west to vertical angle bench mark Miller, then west to include all drainages of Augustana Creek and Black Rapids Glacier, then north and east to include all drainages of McGinnis Creek to its confluence with the Delta River, then east in a straight line across the Delta River to Mile 236.7 Richardson Highway, then north along the Richardson Highway to its junction with the Alaska Highway, then east along the Alaska Highway to the west bank of the Johnson River, then south along the west bank of the Johnson River and Johnson Glacier to the head of the Canwell Glacier, then west along the north bank of the Canwell Glacier and Miller Creek to the Delta River;

(C) You may not use firearms, snowmobiles, licensed highway vehicles or motorized vehicles, except aircraft and boats in the Dalton Highway Corridor Management Area, which consists of those portions of Units 20, 24, 25, and 26 extending 5 miles from each side of the Dalton Highway from the Yukon River to milepost 300 of the Dalton Highway, except as follows: Residents living within the Dalton Highway Corridor Management Area may use snowmobiles only for the subsistence taking of wildlife. You may use licensed highway vehicles only on designated roads within the Dalton Highway Corridor Management Area. The residents of Alatna, Allakaket, Anaktuvuk Pass, Bettles, Evansville, Stevens Village, and residents living within the Corridor may use firearms within the Corridor only for subsistence taking of wildlife;

(D) You may not use any motorized vehicle for hunting from August 5–September 20 in the Glacier Mountain Controlled Use Area, which consists of that portion of Unit 20(E) bounded by a line beginning at Mile 140 of the Taylor Highway, then north along the highway to Eagle, then west along the cat trail from Eagle to Crooked Creek, then from Crooked Creek southwest along the west bank of Mogul Creek to its headwaters on North Peak, then west across North Peak to the headwaters of Independence Creek, then
southwest along the west bank of Independence Creek to its confluence with the North Fork of the Fortymile River, then easterly along the south bank of the North Fork of the Fortymile River to its confluence with Champion Creek, then across the North Fork of the Fortymile River to the south bank of Champion Creek and easterly along the south bank of Champion Creek to its confluence with Little Champion Creek, then northeast along the east bank of Little Champion Creek to its headwaters, then northeasterly in a direct line to Mile 140 on the Taylor Highway; however, this does not prohibit motorized access via, or transportation of harvested wildlife on, the Taylor Highway or any airport.

(E) You may by permit only hunt moose on the Minto Flats Management Area, which consists of that portion of Unit 20 bounded by the Elliot Highway beginning at Mile 118, then northeast to Mile 96, then east to the Tolovana Hotsprings Dome, then east to the Winter Cat Trail, then along the Cat Trail south to the Old Telegraph Trail at Dunbar, then westerly along the trail to a point where it joins the Tanana River three miles above Old Minto, then along the north bank of the Tanana River (including all channels and sloughs except Swan Neck Slough), to the confluence of the Tanana and Tolovana Rivers and then northerly to the point of beginning.

(F) You may hunt moose by bow and arrow only in the Fairbanks Management Area, which consists of that portion of Unit 20 bounded by the Elliot Highway at the confluence of Rosie Creek and the Tanana River, northerly along Rosie Creek to Isberg Road, then northeasterly on Isberg Road to Cripple Creek Road, then northeasterly on Cripple Creek Road to the Parks Highway, then north on the Parks Highway to Alder Creek, then westerly along Alder Creek to its confluence with Emma Creek, then upstream along Emma Creek to its headwaters, then northerly along the hydrographic divide between Goldstream Creek drainages and Cripple Creek drainages to the summit of Ester Dome, then down Sheep Creek to its confluence with Goldstream Creek, then easterly along Goldstream Creek to Sheep Creek Road, then north on Sheep Creek Road to Murphy Dome Road, then west on Murphy Dome Road to Old Murphy Dome Road, then east on Old Murphy Dome Road to the Elliot Highway, then south on the Elliot Highway to Goldstream Creek, then easterly along Goldstream Creek to its confluence with First Chance Creek, then up First Chance Creek to Tungsten Hill, then southerly along Steele Creek to its confluence with Ruby Creek, then upstream along Ruby Creek to Esro Road, then south on Esro Road to Chena Hot Springs Road, then east on Chena Hot Springs Road to Nordale Road, then south on Nordale Road to the Chena River, then along the north bank of the Chena River to the Moose Creek dike, then northerly along the Moose Creek dike to its intersection with the Tanana River, then westerly along the north bank of the Tanana River to the point of beginning.

(iii) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 30;

(B) You may not use a steel trap, or a snare using cable smaller than \( \frac{3}{32} \) inch diameter to trap wolves in Unit 20(E) during April and October;

(C) Residents of Unit 20 and 21 may take up to three moose per regulatory year for the celebration known as the Nuchalawoyya Putlatch, under the terms of a Federal registration permit. Permits will be issued to individuals only at the request of the Native Village of Tanana. This three moose limit is not cumulative with that permitted by the State.

(21) **Unit 21.** (i) Unit 21 consists of drainages into the Yukon River upstream from Paimiut to, but not including the Tozitna River drainage on the north bank, and to, but not including the Tanana River drainage on the south bank; and excluding the Koyukuk River drainage upstream from the Dulbi River drainage:

(A) Unit 21(A) consists of the Innoko River drainage upstream from and including the Iditarod River drainage, and the Nowitna River drainage upstream from the Little Mud River;

(B) Unit 21(B) consists of the Yukon River drainage upstream from Ruby and east of the Ruby-Poorman Road, downstream from and excluding the Tozitna River and Tanana River drainages, and excluding the Nowitna River drainage upstream from the Little Mud River, and excluding the Melozitna River drainage upstream from Grayling Creek;

(C) Unit 21(C) consists of the Melozitna River drainage upstream from Grayling Creek, and the Dulbi River drainage upstream from and including the Cottonwood Creek drainage;

(D) Unit 21(D) consists of the Yukon River drainage from and including the Blackburn Creek drainage upstream to Ruby, including the area west of the Ruby-Poorman Road, excluding the Koyukuk River drainage upstream from the Dulbi River drainage, and excluding the Dulbi River drainage upstream from Cottonwood Creek;

(E) Unit 21(E) consists of the Yukon River drainage from Paimiut upstream to, but not including the Blackburn Creek drainage, and the Innoko River drainage downstream from the Iditarod River drainage.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) The Koyukuk Controlled Use Area, which consists of those portions of Units 21 and 24 bounded by a line from the north bank of the Yukon River at Koyukuk, then northerly to the confluences of the Honhosa and Kateel Rivers, then northeasterly to the confluences of Billy Hawk Creek and the Hsulia River (65°57' N. lat., 156°44' W. long.), then easterly to the south end of Solsmunket Lake, then east to Hughes, then south to Little Indian River, then southwesterly to the crest of Hochandochtla Mountain, then southwest to the mouth of Cottonwood Creek then southwest to Bishop Rock, then westerly along the north bank of the Yukon River (including Koyukuk Island) to the point of beginning, is closed during moose-hunting seasons to the use of aircraft for hunting moose, including transportation of any moose hunter or moose part; however, this does not apply to transportation of a moose hunter or moose part by aircraft between publicly owned airports in the controlled use area or between a publicly owned airport within the area and points outside the area; all hunters on the Koyukuk River passing the ADF&G operated check station at Ella’s Cabin (15 miles upstream from the Yukon on the Koyukuk River) are required to stop and report to ADF&G personnel at the check station;

(B) The Paradise Controlled Use Area, which consists of that portion of Unit 21 bounded by a line beginning at the old village of Paimiut, then north along the west bank of the Yukon River to Paradise, then northeast to the mouth of Stansstrom Creek on the Bonasila River, then northeast to the mouth of the Avnik River, then along the west bank of the Yukon River to the lower end of Eagle Island (approximately 45 miles north of Grayling), then to the mouth of the Iditarod River, then down the east bank of the Innoko River to its confluence with Paimiut Slough, then south along the east bank of Paimiut Slough to its mouth, and then to the old village of Paimiut, is closed during moose hunting seasons to the use of aircraft for hunting moose, including transportation of any moose hunter or part of moose; however, this does not apply to transportation of a moose hunter or part of moose by aircraft between publicly owned airports in the Controlled Use Area or between a publicly owned airport within the area and points outside the area.

(iii) You may hunt brown bear by State registration permit in lieu of a resident tag in the Northwest Alaska Brown Bear Management Area, which consists of Unit 21(D), Unit 22, except 22(C), those portions of Unit 23, except
§ 242.26  36 CFR Ch. II (7–1–01 Edition)

the Baldwin Peninsula north of the Arctic Circle, Unit 24, and Unit 28(A). If you have obtained a State registration permit prior to hunting. Aircraft may not be used in the Northwest Alaska Brown Bear Management Area in any manner for brown bear hunting under the authority of a brown bear State registration permit, including transportation of hunters, bears, or parts of bears; however, this does not apply to transportation of bear hunters or bear parts by regularly scheduled flights to and between communities by carriers that normally provide scheduled service to this area, nor does it apply to transportation of aircraft to or between publicly owned airports.

(iv) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 30; and in the Koyukuk Controlled Use Area, you may also use bait to hunt black bear between September 1 and September 25;

(B) You may use a firearm to take beaver in Unit 21(E) from Nov. 1–June 10;

(C) The residents of Units 20 and 21 may take up to three moose per regulatory year for the celebration known as the Nuchalawoyya Potlatch, under the terms of a Federal registration permit. Permits will be issued to individuals only at the request of the Native Village of Tanana. This three moose limit is not cumulative with that permitted by the State;

(D) The residents of Unit 21 may take up to three moose per regulatory year for the celebration known as the Kaltag:Nulato Stickdance, under the terms of a Federal registration permit. Permits will be issued to individuals only at the request of the Native Village of Kaltag or Nulato. This three moose limit is not cumulative with that permitted by the State.

(23) Unit 23. (i) Unit 23 consists of Kotzebue Sound, Chukchi Sea, and Arctic Ocean drainages from and including the Goodhope River drainage to Cape Lisburne.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not use aircraft in any manner either for hunting of ungulates, bear, wolves, or wolverine, or for transportation of hunters or harvested species in the Noatak Controlled Use Area, which consists of that portion of Unit 23 in a corridor extending five miles on either side of the Noatak River beginning at the mouth of the Noatak River, and extending upstream to the mouth of Sapun Creek, is closed for the period August 25–September 15. This does not apply to the transportation of hunters or parts of ungulates, bear, wolves, or wolverine by regularly scheduled flights to communities by carriers that normally provide scheduled air service;

(B) You may hunt brown bear by State registration permit in lieu of a resident tag in the Northwest Alaska Brown Bear Management Area, which consists of Unit 22, except 22(C), those portions of Unit 23, except the Baldwin Peninsula north of the Arctic Circle, Unit 24, and Unit 26(A); if you have obtained a State registration permit prior to hunting. Aircraft may not be used in the Northwest Alaska Brown Bear Management Area in any manner for brown bear hunting under the authority of a brown bear State registration permit, including transportation of hunters, bears or parts of bears; however, this does not apply to transportation of bear hunters or bear parts by regularly scheduled flights to and between communities by carriers that normally provide scheduled service to this area, nor does it apply to transportation of aircraft to or between publicly owned airports.

(iii) Unit-specific regulations:

(A) You may take caribou from a boat moving under power in Unit 23;

(B) In addition to other restrictions on method of take found in this §242.26, you may also take swimming caribou with a firearm using rimfire cartridges;

(C) If you have a trapping license, you may take beaver with a firearm in all of Unit 23 from Nov. 1–Jun. 10;

(D) For the Baird and DeLong Mountain sheep hunts—A Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take sheep on his or her behalf unless the recipient is a member of a community operating under a community harvest system. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in his/her possession at any one time;

(E) A snowmachine may be used to position a hunter to select individual caribou for harvest provided that the animals are not shot from a moving snowmachine.

but not including the Big Creek drainage, the Black River drainage upstream from and including the Salmon Fork drainage, the Porcupine River drainage upstream from the confluence of the Coleen and Porcupine Rivers, and drainages into the north bank of the Yukon River upstream from Circle, including the islands in the Yukon River;

(C) Unit 25(C) consists of drainages into the south bank of the Yukon River upstream from Circle to the Subunit 20(E) boundary, the Birch Creek drainage upstream from the Steese Highway bridge (milepost 147), the Preacher Creek drainage upstream from and including the Rock Creek drainage, and the Beaver Creek drainage upstream from and including the Moose Creek drainage;

(D) Unit 25(D) consists of the remainder of Unit 25.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not use firearms, snowmobiles, licensed highway vehicles or motorized vehicles, except aircraft and boats in the Dalton Highway Corridor Management Area, which consists of those portions of Units 20, 24, 25, and 26 extending 5 miles from each side of the Dalton Highway from the Yukon River to milepost 300 of the Dalton Highway, except as follows: Residents living within the Dalton Highway Corridor Management Area may use snowmobiles only for the subsistence taking of wildlife. You may use licensed highway vehicles only on designated roads within the Dalton Highway Corridor Management Area. The residents of Anaktuvuk Pass, Bethel, Evansville, Stevens Village, and residents living within the Corridor may use firearms within the Corridor only for subsistence taking of wildlife;

(B) The Arctic Village Sheep Management Area consists of that portion of Unit 25(A) north and west of Arctic Village, which is bounded on the east by the East Fork Chandalar River beginning at the confluence of Red Sheep Creek and proceeding southwesterly downstream past Arctic Village to the confluence with Crow Nest Creek, continuing up Crow Nest Creek, through Portage Lake, to its confluence with the Junjik River; then down the Junjik River past Timber Lake and a larger tributary, to a major, unnamed tributary, northwesterly, for approximately 6 miles where the stream forks into 2 roughly equal drainages; the boundary follows the easternmost fork, proceeding almost due north to the headwaters and intersects the Continental Divide; the boundary then follows the Continental Divide easterly, through Carter Pass, then easterly and northwesterly approximately 62 miles along the divide to the head waters of the most northerly tributary of Red Sheep Creek then follows southerly along the divide designating the eastern extreme of the Red Sheep Creek drainage then to the confluence of Red Sheep Creek and the East Fork Chandalar River.

(iii) Unit-specific regulations:

(A) You may use bait to hunt black bear between April 15 and June 30;

(B) You may take caribou and moose from a boat moving under power in Unit 25;

(C) The taking of bull moose outside the seasons provided in this part for food in memorial potlatches and traditional cultural events is authorized in Unit 25(D) west provided that:

(1) The person organizing the religious ceremony or cultural event contact the Refuge Manager, Yukon Flats National Wildlife Refuge prior to taking or attempting to take bull moose and provide to the Refuge Manager the name of the decedent, the nature of the ceremony or cultural event, number to be taken, the general area in which the taking will occur;

(2) Each person who takes a bull moose under this section must submit a written report to the Refuge Manager, Yukon Flats National Wildlife Refuge not more than 15 days after the harvest specifying the harvester's name and address, and the date(s) and location(s) of the taking(s);

(3) No permit or harvest ticket is required for taking under this section; however, the harvester must be an Alaska rural resident with customary and traditional use in Unit 25(D) west;

(4) Any moose taken under this provision counts against the annual quota of 60 bulls.

Marten: No limit

Muskot: No limit

Otter: No limit

Wolf: No limit

Wolverine:
- Unit 25(C)—No limit
- Unit 25—remainder—No limit

(26) Unit 26. (i) Unit 26 consists of Arctic Ocean drainages between Cape Lisburne and the Alaska-Canada border including the Firth River drainage within Alaska:

(A) Unit 26(A) consists of that portion of Unit 26 lying west of the Itkillik River drainage and west of the east bank of the Colville River between the mouth of the Itkillik River and the Arctic Ocean;

(B) Unit 26(B) consists of that portion of Unit 26 east of Unit 26(A), west of the west bank of the Canning River and west of the west bank of the Marsh Fork of the Canning River;

(C) Unit 26(C) consists of the remainder of Unit 26.

(ii) In the following areas, the taking of wildlife for subsistence uses is prohibited or restricted on public land:

(A) You may not use aircraft in any manner for moose hunting, including transportation of moose hunters or parts of moose from Aug. 1–Aug. 31 and from Jan. 1–Mar. 31 in Unit 26(A). No hunter may take or transport a moose, or part of a moose in Unit 26(A) after having been transported by aircraft into the unit. However, this does not apply to transportation of moose hunters or moose parts by regularly scheduled flights to and between villages by carriers that normally provide scheduled service to this area, nor does it apply to transportation by aircraft to or between publicly owned airports;

(B) You may not use firearms, snowmobiles, licensed highway vehicles or motorized vehicles, except aircraft and boats in the Dalton Highway Corridor Management Area, which consists of those portions of Units 20, 24, 25, and 26 extending 5 miles from each side of the Dalton Highway from the Yukon River to milepost 300 of the Dalton Highway, except as follows: Residents living within the Dalton Highway Corridor Management Area may use snowmobiles only for the subsistence taking of wildlife. You may use licensed highway vehicles only on designated roads within the Dalton Highway Corridor Management Area. The residents of Atalna, Allakaket, Anaktuvuk Pass, Bettles, Evansville, Stevens Village, and residents living within the Corridor may use firearms within the Corridor only for subsistence taking of wildlife;

(C) You may hunt brown bear by State registration permit in lieu of a resident tag in the Northwest Alaska Brown Bear Management Area, which consists of Unit 22, except 22(C), those portions of Unit 23, except the Baldwin Peninsula north of the Arctic Circle, Unit 24, and Unit 26(A), if you have obtained a State registration permit prior to hunting. You may not use aircraft in the Northwest Alaska Brown Bear Management Area in any manner for brown bear hunting under the authority of a brown bear State registration permit, including transportation of hunters, bears or parts of bears. However, this does not apply to transportation of bear hunters or bear parts by regularly scheduled flights to and
between communities by carriers that normally provide scheduled service to this area, nor does it apply to transportation of aircraft to or between publicly owned airports.

(iii) Unit-specific regulations:

(A) You may take caribou from a boat moving under power in Unit 26:

(B) In addition to other restrictions on method of take found in this §242.26, you may also take swimming caribou with a firearm using rimfire cartridges;

(C) In Kaktovik, a Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take sheep on his or her behalf unless the recipient is a member of a community operating under a community harvest system. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in his/her possession at any one time;

(D) For the DeLong Mountain hunts—A Federally-qualified subsistence user (recipient) may designate another Federally-qualified subsistence user to take sheep on his or her behalf unless the recipient is a member of a community operating under a community harvest system. The designated hunter must obtain a designated hunter permit and must return a completed harvest report. The designated hunter may hunt for any number of recipients but may have no more than two harvest limits in his/her possession at any one time.

Moose: 3 bears ............................................................................................................ July 1

Caribou: 1 bear .................................................................................................. Sept. 1

Black Bear: 3 bears ............................................................................................................ July 1

Brown Bear: 3 bears ............................................................................................................ July 1

Caribou: 1–10 caribou per day; however, cow caribou may not be taken May 16–June 30. Federal lands south of the Colville River and east of the Killik River are closed to the taking of caribou by non-Federally qualified subsistence users from Aug. 1–Sept. 30.

Caribou: 1–10 caribou per day; however, cow caribou may be taken only from Oct. 1–Oct. 30.

Caribou: 1–10 caribou per day.

You may not transport more than 5 caribou per regulatory year from Unit 26 except to the community of Anaktuvuk Pass.

You may not transport more than 5 caribou per regulatory year from Unit 26 except to the community of Anaktuvuk Pass.
§ 242.27 Subsistence taking of fish.

(a) Applicability. (1) Regulations in this section apply to the taking of fish or their parts for subsistence uses.

(2) You may take fish for subsistence uses at any time by any method unless you are restricted by the subsistence fishing regulations found in this section. The harvest limit specified in this section for a subsistence season for a species and the State harvest limit set for a State season for the same species are not cumulative. This means that if you have taken the harvest limit for a particular species under a subsistence season specified in this section, you may not, after that, take any additional fish of that species under any other harvest limit specified for a State season.

(b) Definitions. The following definitions shall apply to all regulations contained in this section:

AD&G means the Alaska Department of Fish and Game.

Anchor means a device used to hold a fishing vessel or net in a fixed position relative to the beach; this includes using part of the seine or lead, a ship’s anchor, or being secured to another vessel or net that is anchored.

Beach seine means a floating net which is designed to surround fish and is set from and hauled to the beach.

Cast net means a circular net with a mesh size of no more than 1½ inches and weights attached to the perimeter which, when thrown, surrounds the fish and closes at the bottom when retrieved.

Char means the following species: Arctic char (Salvelinus alpinus); lake trout (Salvelinus namaycush); brook trout (Salvelinus fontinalis), and Dolly Varden (Salvelinus malma).

Depth of net means the perpendicular distance between cork line and lead line expressed as either linear units of measure or as a number of meshes, including all of the web of which the net is composed.

Dip net means a bag-shaped net supported on all sides by a rigid frame; the maximum straight-line distance between any two points on the net frame, as measured through the net opening, may not exceed 5 feet; the depth of the bag must be at least one-half of the greatest straight-line distance, as

| Wolverine: No limit | Nov. 1–Apr. 15. |

[66 FR 33759, June 25, 2001]
measured through the net opening; no portion of the bag may be constructed of webbing that exceeds a stretched measurement of 4.5 inches; the frame must be attached to a single rigid handle and be operated by hand.

Drainage means all of the waters comprising a watershed, including tributary rivers, streams, sloughs, ponds, and lakes, which contribute to the water supply of the watershed.

Drift gillnet means a drifting gillnet that has not been intentionally staked, anchored, or otherwise fixed in one place.

Fishwheel means a fixed, rotating device, with no more than four baskets on a single axle, for catching fish, which is driven by river current or other means.

Freshwater of streams and rivers means the line at which freshwater is separated from saltwater at the mouth of streams and rivers by a line drawn headland to headland across the mouth as the waters flow into the sea.

Fyke net means a fixed, funneling (fyke) device used to entrap fish.

Gear means any type of fishing apparatus.

Gillnet means a net primarily designed to catch fish by entanglement in a mesh that consists of a single sheet of webbing which hangs between cork line and lead line, and which is fished from the surface of the water.

Groundfish or bottomfish means any marine fish except halibut, osmerids, herring and salmonids.

Hand purse seine means a floating net which is designed to surround fish and which can be closed at the bottom by pursing the lead line; pursing may only be done by hand power, and a free-running line through one or more rings attached to the lead line is not allowed.

Handline means a hand-held and operated line, with one or more hooks attached.

Harvest limit means the maximum legal take per person or designated group, per specified time period, in the area in which the person is fishing, even if part or all of the fish are preserved. A fish, when landed and killed by means of rod and reel becomes part of the harvest limit of the person originally hooking it.

Herring pound means an enclosure used primarily to contain live herring over extended periods of time.

Household means a person or persons having the same residence.

Hung measure means the maximum length of the cork line when measured wet or dry with traction applied at one end only.

Jigging gear means a line or lines with lures or baited hooks, drawn through the water by hand, and which are operated during periods of ice cover from holes cut in the ice, or from shore ice and which are drawn through the water by hand.

Lead means either a length of net employed for guiding fish into a seine, set gillnet, or other length of net, or a length of fencing employed for guiding fish into a fishwheel, fyke net, or dip net.

Legal limit of fishing gear means the maximum aggregate of a single type of fishing gear permitted to be used by one individual or boat, or combination of boats in any particular regulatory area, district, or section.

Long line means either a stationary, buoyed, or anchored line, or a floating, free-drifting line with lures or baited hooks attached.

Mechanical jigging machine means a mechanical device with line and hooks used to jig for halibut and bottomfish, but does not include hand gurdies or rods with reels.

Mile means a nautical mile when used in reference to marine waters or a statute mile when used in reference to fresh water.

Possession limit means the maximum number of fish a person or designated group may have in possession if the fish have not been canned, salted, frozen, smoked, dried, or otherwise preserved so as to be fit for human consumption after a 15-day period.

Pot means a portable structure designed and constructed to capture and retain live fish and shellfish in the water.

Purse seine means a floating net which is designed to surround fish and which can be closed at the bottom by means of a free-running line through one or more rings attached to the lead line.
Rockfish means all species of the genus Sebastes.

Rod and reel means either a device upon which a line is stored on a fixed or revolving spool and is deployed through guides mounted on a flexible pole, or a line that is attached to a pole. In either case, bait or an artificial fly or lure is used as terminal tackle. This definition does not include the use of rod and reel gear for snagging.

Salmon means the following species: pink salmon (Oncorhynchus gorbuscha); sockeye salmon (Oncorhynchus nerka); chinook salmon (Oncorhynchus tsawytscha); coho salmon (Oncorhynchus kisutch); and chum salmon (Oncorhynchus keta).

Salmon stream means any stream used by salmon for spawning, rearing, or for traveling to a spawning or rearing area.

Set gillnet means a gillnet that has been intentionally set, staked, anchored, or otherwise fixed.

Spear means a shaft with a sharp point or fork-like implement attached to one end which is used to thrust through the water to impale or retrieve fish and which is operated by hand.

Stretched measure means the average length of any series of 10 consecutive meshes measured from inside the first knot and including the last knot when wet; the 10 meshes, when being measured, shall be an integral part of the net, as hung, and measured perpendicular to the selvages; measurements shall be made by means of a metal tape measure while the 10 meshes being measured are suspended vertically from a single peg or nail, under 5-pound weight.

Subsistence fishing permit means a permit issued by the Alaska Department of Fish and Game, unless specifically identified otherwise.

To operate fishing gear means any of the following: to deploy gear in the water; to remove gear from the water; to remove fish or shellfish from the gear during an open season or period; or to possess a gillnet containing fish during an open fishing period, except that a gill net which is completely clear of the water is not considered to be operating for the purposes of minimum distance requirement.

Trawl means a bag-shaped net towed through the water to capture fish or shellfish, and includes beam, otter, or pelagic trawl.

Troll gear means a power gurdy troll gear consisting of a line or lines with lures or baited hooks which are drawn through the water by a power gurdy; hand troll gear consisting of a line or lines with lures or baited hooks which are drawn through the water from a vessel by hand trolling, strip fishing, or other types of trolling, and which are retrieved by hand power or hand-powered crank and not by any type of electrical, hydraulic, mechanical, or other assisting device or attachment; or dinglebar troll gear consisting of one or more lines, retrieved and set with a troll gurdy or hand troll gurdy, with a terminally attached weight from which one or more leaders with one or more lures or baited hooks are pulled through the water while a vessel is making way.

Trout means the following species: cutthroat trout (Oncorhynchus clarki) and rainbow trout or steelhead trout (Oncorhynchus mykiss).

(c) Methods, means, and general restrictions. (1) Unless otherwise specified in this section or under terms of a required subsistence fishing permit (as may be modified by this section), you may use the following legal types of gear for subsistence fishing:

(i) A set gillnet;
(ii) A drift gillnet;
(iii) A purse seine;
(iv) A hand purse seine;
(v) A beach seine;
(vi) Troll gear;
(vii) A fish wheel;
(viii) A trawl;
(ix) A pot;
(x) A longline;
(xi) A fyke net;
(xii) A lead;
(xiii) A herring pound;
(xiv) A dip net;
(xv) Jigging gear;
(xvi) A mechanical jigging machine;
(xvii) A handline;
(xviii) A cast net;
(xix) A rod and reel; and
(xx) A spear.
§ 242.27

shellfish. The escape mechanisms are as follows:

(i) A sidewall, which may include the tunnel, of all shellfish and bottomfish pots must contain an opening equal to or exceeding 18 inches in length, except that in shrimp pots the opening must be a minimum of 6 inches in length. The opening must be laced, sewn, or secured together by a single length of untreated, 100 percent cotton twine, no larger than 30 thread. The cotton twine may be knotted at each end only. The opening must be within 6 inches of the bottom of the pot and must be parallel with it. The cotton twine may not be tied or looped around the web bars. Dungeness crab pots may have the pot lid tie-down straps secured to the pot at one end by a single loop of untreated, 100 percent cotton twine no larger than 60 thread, or the pot lid must be secured so that, when the twine degrades, the lid will no longer be securely closed.

(ii) All king crab, Tanner crab, shrimp, miscellaneous shellfish and bottomfish pots may, instead of complying with paragraph (c)(2)(i) of this section, satisfy the following: a sidewall, which may include the tunnel, must contain an opening at least 18 inches in length, except that shrimp pots must contain an opening at least 6 inches in length. The opening must be laced, sewn, or secured together by a single length of treated or untreated twine, no larger than 36 thread. A galvanic timed release device, designed to release in no more than 30 days in salt water, must be integral to the length of twine so that, when the twine degrades, the lid will no longer be securely closed.

(3) For subsistence fishing for salmon, you may not use a gillnet exceeding 50 fathoms in length, unless otherwise specified in this section. The gillnet web must contain at least 30 filaments of equal diameter or at least 6 filaments, each of which must be at least 0.20 millimeter in diameter.

(4) Except as otherwise provided for in this section, you may not obstruct more than one-half the width of any stream with any gear used to take fish for subsistence uses.

(5) You may not use live non-indigenous fish as bait.

(6) You must have your first initial, last name, and address plainly and legibly inscribed on the side of your fishwheel facing midstream of the river.

(7) You may use kegs or buoys of any color but red on any permitted gear.

(8) You must have your first initial, last name, and address plainly and legibly inscribed on each keg, buoy, stakes attached to gillnets, stakes identifying gear fished under the ice, and any other unattended fishing gear which you use to take fish for subsistence uses.

(9) You may not use explosives or chemicals to take fish for subsistence uses.

(10) You may not take fish for subsistence uses within 300 feet of any dam, fish ladder, weir, culvert or other artificial obstruction, unless otherwise indicated.

(11) The limited exchange for cash of subsistence-harvested fish, their parts, or their eggs, legally taken under Federal subsistence management regulations to support personal and family needs is permitted as customary trade, so long as it does not constitute a significant commercial enterprise. The Board may recognize regional differences and define customary trade differently for separate regions of the State.

(12) Individuals, businesses, or organizations may not purchase subsistence-taken fish, their parts, or their eggs for use in, or resale to, a significant commercial enterprise.

(13) Individuals, businesses, or organizations may not receive through barter subsistence-taken fish, their parts, or their eggs for use in, or resale to, a significant commercial enterprise.

(14) Except as provided elsewhere in this section, you may not take rainbow trout or steelhead trout.

(15) You may not use as bait for commercial or sport fishing purposes fish taken for subsistence use or under subsistence regulations in this part.
(16) You may not accumulate harvest limits authorized in this section or §242.28 with harvest limits authorized under State regulations.

(17) Unless specified otherwise in this section, you may use a rod and reel to take fish without a subsistence fishing permit. Harvest limits applicable to the use of a rod and reel to take fish for subsistence uses shall be as follows:
   (i) If you are required to obtain a subsistence fishing permit for an area, that permit is required to take fish for subsistence uses with rod and reel in that area. The harvest and possession limits for taking fish with a rod and reel in those areas are the same as indicated on the permit issued for subsistence fishing with other gear types;
   (ii) Except as otherwise provided for in this section, if you are not required to obtain a subsistence fishing permit for an area, the harvest and possession limits for taking fish with rod and reel is the same as for taking fish under State of Alaska subsistence fishing regulations in those same areas. If the State does not have a specific subsistence season for that particular species, the limit shall be the same as for taking fish under State of Alaska sport fishing regulations.

(18) Unless restricted in this section, or unless restricted under the terms of a subsistence fishing permit, you may take fish for subsistence uses at any time.

(19) You may not intentionally waste or destroy any subsistence-caught fish or shellfish; however, you may use for bait or other purposes, whitefish, herring, and species for which bag limits, seasons, or other regulatory methods and means are not provided in this section, as well as the head, tail, fins, and viscera of legally-taken subsistence fish.

(d) Fishing by designated harvest permit. (1) Any species of fish that may be taken by subsistence fishing under this part may be taken under a designated harvest permit.

(2) If you are a Federally-qualified subsistence user, you (beneficiary) may designate another Federally-qualified subsistence user to take fish on your behalf. The designated fisherman must obtain a designated harvest permit prior to attempting to harvest fish and must return a completed harvest report. The designated fisherman may fish for any number of beneficiaries but may have no more than two harvest limits in his/her possession at any one time.

(3) The designated fisherman must have in possession a valid designated fishing permit when taking, attempting to take, or transporting fish taken under this section, on behalf of a beneficiary.

(4) The designated fisherman may not fish with more than one legal limit of gear.

(5) You may not designate more than one person to take or attempt to take fish on your behalf at one time. You may not personally take or attempt to take fish at the same time that a designated fisherman is taking or attempting to take fish on your behalf.

(e) Fishing permits and reports. (1) You may take salmon only under the authority of a subsistence fishing permit, unless a permit is specifically not required in a particular area by the subsistence regulations in this part, or unless you are retaining salmon from your commercial catch consistent with paragraph (f) of this section.

(2) The U.S. Fish and Wildlife Service, Office of Subsistence Management may issue a permit to harvest fish for a qualifying cultural/educational program to an organization that has been granted a Federal subsistence permit for a similar event within the previous 5 years. A qualifying program must have instructors, enrolled students, minimum attendance requirements, and standards for successful completion of the course. Applications must be submitted to the Office of Subsistence Management 60 days prior to the earliest desired date of harvest. Permits will be issued for no more than 25 fish per culture/education camp. Appeal of a rejected request can be made to the Federal Subsistence Board. Application for an initial permit for a qualifying cultural/educational program, for a permit when the circumstances have changed significantly, when no permit has been issued within the previous 5 years, or when there is a request for harvest in excess of that provided in this paragraph
§ 242.27  

(e)(2), will be considered by the Federal Subsistence Board.

(3) If a subsistence fishing permit is required by this section, the following permit conditions apply unless otherwise specified in this section:

(i) You may not take more fish for subsistence use than the limits set out in the permit;

(ii) You must obtain the permit prior to fishing;

(iii) You must have the permit in your possession and readily available for inspection while fishing or transporting subsistence-taken fish;

(iv) If specified on the permit, you shall keep accurate daily records of the catch, showing the number of fish taken by species, location and date of catch, and other such information as may be required for management or conservation purposes; and

(v) If the return of catch information necessary for management and conservation purposes is required by a fishing permit and you fail to comply with such reporting requirements, you are ineligible to receive a subsistence permit for that activity during the following calendar year, unless you demonstrate that failure to report was due to loss in the mail, accident, sickness, or other unavoidable circumstances.

(f) Relation to commercial fishing activities.

(1) If you are a Federally-qualified subsistence user who also commercial fishes, you may retain fish for subsistence purposes from your lawfully-taken commercial catch.

(2) When participating in a commercial and subsistence fishery at the same time, you may not use an amount of combined fishing gear in excess of that allowed under the appropriate commercial fishing regulations.

(g) You may not possess, transport, give, receive, or barter subsistence-taken fish or their parts which have been taken contrary to Federal law or regulation or State law or regulation (unless superseded by regulations in this part).

(h) [Reserved]

(i) Fishery management area restrictions. (1) Kotzebue Area. The Kotzebue Area includes all waters of Alaska between the latitude of the westernmost tip of Point Hope and the latitude of the westernmost tip of Cape Prince of Wales, including those waters draining into the Chukchi Sea.

(ii) You may take fish for subsistence purposes without a permit.

(iii) You may take salmon only by gillnets, beach seines, or a rod and reel.

(iv) In the Kotzebue District, you may take sheefish with gillnets that are not more than 50 fathoms in length, nor more than 12 meshes in depth, nor have a mesh size larger than 7 inches.

(v) You may not obstruct more than one-half the width of a stream with any gear used to take fish for subsistence uses, except from May 15 to June 30 and August 15 to October 31 when taking whitefish or pike in steams, creeks, or sloughs within the Selawik and Kobuk River drainages. Only gillnets 60 feet or less in length with a mesh size from 2½ to 4½ inches may be used. You must check your net at least once in every 24-hour period.

(2) Norton Sound-Port Clarence Area.

The Norton Sound-Port Clarence Area includes all waters of Alaska between the latitude of the westernmost tip of Cape Prince of Wales and the latitude of Canal Point light, including those waters of Alaska surrounding St. Lawrence Island and those waters draining into the Bering Sea.

(i) In the Port Clarence District, you may take fish at any time except as specified by emergency regulation.

(ii) In the Norton Sound District, you may take fish at any time except as follows:

(A) In Subdistricts 2 through 6, if you are a commercial fishermen, you may not fish for subsistence purposes during the weekly closures of the commercial salmon fishing season, except that from July 15 through August 1, you may take salmon for subsistence purposes 7 days per week in the Unalakleet and Shaktoolik River drainages with gillnets which have a mesh size that does not exceed 4½ inches, and with beach seines;

(B) In the Unalakleet River from June 1 through July 15, you may take salmon only from 8:00 a.m. Monday until 8:00 p.m. Saturday;

(C) In Subdistricts 1—3, you may take salmon other than chum salmon by beach seine during periods established by emergency regulations.
(iii) You may take salmon only by gillnets, beach seines, fishwheel, or a rod and reel.
(iv) You may take fish other than salmon by set gillnet, drift gillnet, beach seine, fish wheel, pot, long line, fyke net, jigging gear, spear, lead, or a rod and reel.
(v) In the Unalakleet River from June 1 through July 15, you may not operate more than 25 fathoms of gillnet in the aggregate nor may you operate an unanchored fishing net.
(vi) You may take fish for subsistence purposes without a subsistence fishing permit except that a subsistence fishing permit is required in the Norton Sound District for net fishing in all waters from Cape Douglas to Rocky Point.
(vii) Only one subsistence fishing permit will be issued to each household per year.
(3) Yukon-Northern Area. The Yukon-Northern Area includes all waters of Alaska between the latitude of Canal Point Light and the latitude of the westernmost point of the Naskonat Peninsula, including those waters draining into the Bering Sea, and all waters of Alaska north of the latitude of the westernmost tip of Point Hope and west of 141° W. long., including those waters draining into the Arctic Ocean and the Chukchi Sea.
(i) Unless otherwise restricted in this section, you may take fish in the Yukon-Northern Area at any time.
(ii) In the following locations, you may take salmon only during the open weekly fishing periods of the commercial salmon fishing season and may not take them for 24 hours before the opening of the commercial salmon fishing season:
(A) In District 4, excluding the Koyukuk River drainage;
(B) In Subdistricts 4-B and 4-C from June 15 through September 30, salmon may be taken from 6:00 p.m. Sunday until 6:00 p.m. Tuesday and from 6:00 p.m. Wednesday until 6:00 p.m. Friday;
(C) In District 6, excluding the Kantishna River drainage, salmon may be taken from 6:00 p.m. Friday until 6:00 p.m. Wednesday.
(iii) During any commercial salmon fishing season closure of greater than five days in duration, you may not take salmon during the following periods in the following districts:
(A) In District 4, excluding the Koyukuk River drainage, salmon may not be taken from 6:00 p.m. Friday until 6:00 p.m. Sunday;
(B) In District 5, excluding the Tozitna River drainage and Subdistrict 5-D, salmon may not be taken from 6:00 p.m. Sunday until 6:00 p.m. Tuesday.
(iv) Except as provided in this section, and except as may be provided by the terms of a subsistence fishing permit, you may take fish other than salmon at any time.
(v) In Districts 1, 2, 3, and Subdistrict 4-A, excluding the Koyukuk and Innoko River drainages, you may not take salmon for subsistence purposes during the 24 hours immediately before the opening of the commercial salmon fishing season.
(vi) In Districts 1, 2, and 3:
(A) After the opening of the commercial salmon fishing season through July 15, you may not take salmon for subsistence for 18 hours immediately before, during, and for 12 hours after each commercial salmon fishing period;
(B) After July 15, you may not take salmon for subsistence for 12 hours immediately before, during, and for 12 hours after each commercial salmon fishing period.
(vii) In Subdistrict 4-A after the opening of the commercial salmon fishing season, you may not take salmon for subsistence for 12 hours immediately before, during, and for 12 hours after each commercial salmon fishing period; however, you may take king salmon during the commercial fishing season, with drift gillnet gear only, from 6:00 p.m. Sunday until 6:00 p.m. Tuesday and from 6:00 p.m. Wednesday until 6:00 p.m. Friday.
(viii) In the upper Yukon River drainage, you may not subsistence fish, except for whitefish and suckers, in Birch Creek and waters within 500 feet of its mouth.
(ix) You may not subsistence fish in the following drainages located north of the main Yukon River:
(A) Kanuti River upstream from a point 5 miles downstream of the State highway crossing;
(B) Bonanza Creek;
(C) Jim River including Prospect and Douglas Creeks; and
(D) North Fork of the Chandalar River system upstream from the mouth of Quartz Creek.

(x) You may not subsistence fish in the Delta River.

(xi) You may not subsistence fish in the following rivers and creeks and within 500 feet of their mouths: Big Salt River, Hess Creek, and Beaver Creek.

(xii) You may not subsistence fish in the Toklat River drainage from August 15 through May 15.

(xiv) You may take salmon only by gillnet, beach seine, fish wheel, or rod and reel, subject to the restrictions set forth in this section.

(xv) In District 4, if you are a commercial fisherman, you may not take salmon for subsistence purposes during the commercial salmon fishing season using gillnets with mesh larger than six-inches after a date specified by ADF&G emergency order issued between July 10 and July 31.

(xvi) In Districts 4, 5, and 6, you may not take salmon for subsistence purposes by drift gillnet, except as follows:

(A) In Subdistrict 4-A upstream from the mouth of Stink Creek, you may take king salmon by drift gillnets less than 150 feet in length from June 10 through July 14, and chum salmon by drift gillnets after August 2.

(B) In Subdistrict 4-A downstream from the mouth of Stink Creek, you may take king salmon by drift gillnets less than 150 feet in length from June 10 through July 14.

(xvii) In District 4, only on September 21 through May 15, you may use jigging gear from shore ice.

(xix) You must possess a subsistence fishing permit for the following locations:

(A) For the Yukon River drainage from the mouth of Hess Creek to the mouth of the Dall River;

(B) For the Yukon River drainage from the upstream mouth of 22 Mile Slough to the U.S.-Canada border;

(C) For whitefish and suckers in Birch Creek upstream from the Steese Highway bridge at Mile 140;

(D) Only for salmon in the Tanana River drainage above the mouth of the Wood River.

(xx) Only one subsistence fishing permit will be issued to each household per year.

(xxii) In Districts 1, 2, and 3, you may not possess king salmon taken for subsistence purposes unless the dorsal fin has been removed immediately after landing.

(xxiii) In the Yukon River drainage, chinook (king) salmon are to be used primarily for human consumption and
not specifically targeted for dog food, except that whole fish unfit for human consumption (due to disease, deterioration, deformities), scraps, and small fish (jack kings 16 inches or less) may be fed to dogs.

(4) **Kuskokwim Area.** The Kuskokwim Area consists of all waters of Alaska between the latitude of the western-most point of Naskonat Peninsula and the latitude of the southernmost tip of Cape Newenham, including the waters of Alaska surrounding Nunivak and St. Matthew Islands and those waters draining into the Bering Sea.

   (i) Unless otherwise restricted in this section, you may take fish in the Kuskokwim Area at any time without a subsistence fishing permit.

   (ii) In District 1 and in those waters of the Kuskokwim River between Districts 1 and 2, excluding the Kuskokuak Slough, you may not take salmon for 16 hours before, during, and for 6 hours after, each open commercial salmon fishing period for District 1.

   (iii) In District 1, Kuskokuak Slough only from June 1 through July 31, you may not take salmon for 16 hours before, during, and for 6 hours after, each open commercial salmon fishing period in the district.

   (iv) In Districts 4 and 5, from June 1 through September 8, you may not take salmon for 16 hours before, during, and 6 hours after each open commercial salmon fishing period in each district.

   (v) In District 2, and anywhere in tributaries that flow into the Kuskokwim River within that district, from June 1 through September 8 you may not take salmon for 16 hours before, during, and 6 hours after each open commercial salmon fishing period in the district.

   (vi) You may not take subsistence fish by nets in the Goodnews River east of a line between ADF&G regulatory markers placed near the mouth of the Utigag River and an ADF&G regulatory marker placed near the mouth of the Tunulik River 16 hours before, during, and 6 hours after each open commercial salmon fishing period.

   (vii) You may not take subsistence fish by nets in the Arolik River upstream of ADF&G regulatory markers placed near the mouth 16 hours before, during, and 6 hours after each open commercial salmon fishing period.

   (viii) You may not take subsistence fish by nets in the Arolik River upstream of ADF&G regulatory markers placed near the mouth 16 hours before, during, and 6 hours after each open commercial salmon fishing period.

   (ix) You may take salmon only by gillnet, beach seine, fish wheel, or rod and reel subject to the restrictions set out in this section, except that you may also take salmon by spear in the Holitna, Kanektok, and Arolik River drainages, and in the drainage of Goodnews Bay.

   (x) You may not use an aggregate length of set gillnets or drift gillnets in excess of 50 fathoms for taking salmon.

   (xi) You may take fish other than salmon by set gillnet, drift gillnet, beach seine, fish wheel, pot, long line, fyke net, dip net, jigging gear, spear, lead, or rod and reel.

   (xii) You must attach to the bank each subsistence gillnet operated in tributaries of the Kuskokwim River and fish it substantially perpendicular to the bank and in a substantially straight line.

   (xiii) Within a tributary to the Kuskokwim River in that portion of the Kuskokwim River drainage from the north end of Eek Island upstream to the mouth of the Kolmakoff River, you may not set or operate any part of a set gillnet within 150 feet of any part of another set gillnet.

   (xiv) The maximum depth of gillnets is as follows:

       (A) Gillnets with 6-inch or smaller mesh may not be more than 45 meshes in depth.

       (B) Gillnets with greater than 6-inch mesh may not be more than 35 meshes in depth.

   (xv) You may take halibut only by a single hand-held line with no more than two hooks attached to it.

   (xvi) You may not use subsistence set and drift gillnets exceeding 15 fathoms in length in Whitefish Lake in the Ophir Creek drainage. You may not operate more than one subsistence set or drift gillnet at a time in Whitefish Lake in the Ophir Creek drainage. You must check the net at least once every 24 hours.
§ 242.27

(xvii) Rainbow trout may be taken by only residents of Goodnews Bay, Platinum, Quinhagak, Eek, Kwethluk, Akiachak, and Akiak. The following restrictions apply:

(A) You may take rainbow trout only by the use of gillnets, dip nets, fyke nets, handline, spear, rod and reel, or jigging through the ice;

(B) You may not use gillnets, dip nets, or fyke nets for targeting rainbow trout from March 15—June 15;

(C) If you take rainbow trout incidentally in other subsistence net fisheries and through the ice, you may retain them for subsistence purposes;

(D) There are no harvest limits with handline, spear, rod and reel, or jigging.

(5) Bristol Bay Area. The Bristol Bay Area includes all waters of Bristol Bay including drainages enclosed by a line from Cape Newenham to Cape Menshikof.

(i) Unless restricted in this section, or unless under the terms of a subsistence fishing permit, you may take fish at any time in the Bristol Bay area.

(ii) In all commercial salmon districts, from May 1 through May 31 and October 1 through October 31, you may subsistnece fish for salmon only from 9:00 a.m. Monday until 9:00 a.m. Friday. From June 1 through September 30, within the waters of a commercial salmon district, you may take salmon only during open commercial salmon fishing periods.

(iii) In the Egegik River from 9:00 a.m. June 23 through 9:00 a.m. July 17, you may take salmon only from 9:00 a.m. Tuesday to 9:00 a.m. Wednesday and 9:00 a.m. Saturday to 9:00 a.m. Sunday.

(iv) You may not take fish from waters within 300 feet of a stream mouth used by salmon.

(v) You may not subsistence fish with nets in the Tazimina River and within one-fourth mile of the terminus of those waters during the period from September 1 through June 14.

(vi) Within any district, you may take salmon, herring, and capelin only by drift and set gillnets.

(vii) Outside the boundaries of any district, you may take salmon only by set gillnet, except that you may also take salmon as follows:

(A) By spear in the Togiak River excluding its tributaries;

(B) From August 30 through September 30, by spear, dip net, and gillnet along a 100 yard length of the west shore of Naknek Lake near the outlet to the Naknek River as marked by ADF&G regulatory markers;

(C) From August 15 through September 15, by spear, dip net, and gillnet at Johnny’s Lake on the northwestern side of Naknek Lake;

(D) From October 1 through November 15, by spear, dip net, and gillnet at the mouth of Brooks River at Naknek Lake;

(E) At locations and times specified in paragraphs (i)(5)(vii) (B) through (D) of this section, gillnets may not exceed 5 fathoms in length and may not be anchored or tied to a stake or peg, and you must be present at the net while fishing the net.

(viii) The maximum lengths for set gillnets used to take salmon are as follows:

(A) You may not use set gillnets exceeding 10 fathoms in length in the Egegik River;

(B) In the remaining waters of the area, you may not use set gillnets exceeding 25 fathoms in length.

(ix) You may not operate any part of a set gillnet within 300 feet of any part of another set gillnet.

(x) You must stake and buoy each set gillnet. Instead of having the identifying information on a keg or buoy attached to the gillnet, you may plainly and legibly inscribe your first initial, last name, and subsistence permit number on a sign at or near the set gillnet.

(xi) You may not operate or assist in operating subsistence salmon net gear while simultaneously operating or assisting in operating commercial salmon net gear.

(xii) During closed commercial herring fishing periods, you may not use gillnets exceeding 25 fathoms in length for the subsistence taking of herring or capelin.

(xiii) You may take fish other than salmon, herring, capelin, and halibut by gear listed in this part unless restricted under the terms of a subsistence fishing permit.
(xiv) You may take salmon and char only under authority of a subsistence fishing permit.

(xv) Only one subsistence fishing permit may be issued to each household per year.

(xvi) In the Togiak River section and the Togiak River drainage, you may not possess coho salmon taken under the authority of a subsistence fishing permit unless both lobes of the caudal fin (tail) or the dorsal fin have been removed.

(A) Aleutian Islands Area. The Aleutian Islands Area includes all waters of Alaska west of the longitude of the tip of Cape Sarichef, east of 172° East longitude, and south of 54° 36' North latitude.

(i) You may take fish, other than salmon, rainbow trout, and steelhead trout, at any time unless restricted under the terms of a subsistence fishing permit. If you take rainbow trout and steelhead trout incidentally in other subsistence net fisheries, you may retain them for subsistence purposes.

(ii) In the Unalaska District, you may take salmon for subsistence purposes from 6:00 a.m. until 9:00 p.m. from January 1 through December 31, except:

(A) That from June 1 through September 15, you may not use a salmon seine vessel to take salmon for subsistence 24 hours before, during, or 24 hours after an open commercial salmon fishing period within a 50-mile radius of the area open to commercial salmon fishing;

(B) That from June 1 through September 15, you may use a purse seine vessel to take salmon only with a gillnet and you may not have any other type of salmon gear on board the vessel while subsistence fishing; or

(C) As may be specified on a subsistence fishing permit.

(iii) In the Adak, Akutan, Atka-Amlia, and Umnak Districts, you may take salmon at any time.

(iv) You may not subsistence fish for salmon in the following waters:

(A) The waters of Unalaska Lake, its tributaries and outlet stream;

(B) The waters between Unalaska and Amaknak Islands, including Margaret's Bay, west of a line from the "Bishop's House" at 53° 52.64' N. lat., 166° 32.30' W. long. to a point on Amaknak Island at 53° 52.82' N. lat., 166° 32.13' W. long., and north of line from a point south of Agnes Beach at 53° 52.28' N. lat., 166° 32.66' W. long. to a point at 53° 52.35' N. lat., 166° 32.35' W. long. on Amaknak Island;

(C) Within Unalaska Bay south of a line from the northern tip of Cape Cheerful to the northern tip of Kalekta Point, waters within 250 yards of any anadromous stream, except the outlet stream of Unalaska Lake, which is closed under paragraph (i)(6)(iv)(A) of this section;

(D) The waters of Summers and Morris Lakes and their tributaries and outlet streams;

(E) All streams supporting anadromous fish runs that flow into Unalaska Bay south of a line from the northern tip of Cape Cheerful to the northern tip of Kalekta Point;

(F) Waters of McLees Lake and its tributaries and outlet stream;

(G) Waters in Reese Bay from July 1 through July 9, within 500 yards of the outlet stream terminus to McLees Lake;

(H) All freshwater on Adak Island and Kagalaska Island in the Adak District.

(v) You may take salmon by seine and gillnet, or with gear specified on a subsistence fishing permit.

(vi) In the Unalaska District, if you fish with a net, you must be physically present at the net at all times when the net is being used.

(vii) You may take fish other than salmon by gear listed in this part unless restricted under the terms of a subsistence fishing permit.

(viii) You may take salmon, trout, and char only under the terms of a subsistence fishing permit, except that you do not need a permit in the Akutan, Umnak, and Atka-Amlia Islands Districts.

(ix) You may take no more than 250 salmon for subsistence purposes unless otherwise specified on the subsistence fishing permit, except that in the Unalaska and Adak Districts, you may take no more than 25 salmon plus an additional 25 salmon for each member of your household listed on the permit. You may obtain an additional permit.
(x) You must keep a record on the reverse side of the permit of subsistence-caught fish. You must complete the record immediately upon taking subsistence-caught fish and must return it no later than October 31.

(xi) The daily bag limit for halibut is two fish, and the possession limit is two daily bag limits. You may not possess sport-taken and subsistence-taken halibut on the same day.

(7) Alaska Peninsula Area. The Alaska Peninsula Area includes all Pacific Ocean waters of Alaska between a line extending southeast (135°) from the tip of Kupreanof Point and the longitude of the tip of Cape Sarichef, and all Bering Sea waters of Alaska east of the longitude of the tip of Cape Sarichef and south of the latitude of the tip of Cape Menshikof.

(i) You may take fish, other than salmon, rainbow trout, and steelhead trout, at any time unless restricted under the terms of a subsistence fishing permit. If you take rainbow trout and steelhead trout incidentally in other subsistence net fisheries or through the ice, you may retain them for subsistence purposes.

(ii) You may take salmon, trout, and char only under the authority of a subsistence fishing permit.

(iii) You must keep a record on the reverse side of the permit of subsistence-caught fish. You must complete the record immediately upon taking subsistence-caught fish and must return it no later than October 31.

(iv) You may take salmon at any time except within 24 hours before and within 12 hours following each open weekly commercial salmon fishing period within a 50-mile radius of the area open to commercial salmon fishing, or as may be specified on a subsistence fishing permit.

(v) You may not subsistence fish for salmon in the following waters:

(A) Russell Creek and Nurse Lagoon and within 500 yards outside the mouth of Nurse Lagoon;

(B) Trout Creek and within 500 yards outside its mouth.

(vi) You may take salmon by seine, gillnet, rod and reel, or with gear specified on a subsistence fishing permit.

(vii) You may take fish other than salmon by gear listed in this part unless restricted under the terms of a subsistence fishing permit.

(viii) You may not use a set gillnet exceeding 100 fathoms in length.

(ix) You may take halibut for subsistence purposes only by a single handheld line with no more than two hooks attached.

(x) You may take no more than 250 salmon for subsistence purposes unless otherwise specified on your subsistence fishing permit.

(xi) The daily bag limit for halibut is two fish and the possession limit is two daily bag limits. You may not possess sport-taken and subsistence-taken halibut on the same day.

(8) Chignik Area. The Chignik Area includes all waters of Alaska on the south side of the Alaska Peninsula enclosed by 156° 20.22′ West longitude (the longitude of the southern entrance to Imuya Bay near Kilokak Rocks) and a line extending southeast (135°) from the tip of Kupreanof Point.

(i) You may take fish, other than rainbow trout and steelhead trout, at any time, except as may be specified by a subsistence fishing permit. If you take rainbow trout and steelhead trout incidentally in other subsistence net fisheries, you may retain them for subsistence purposes.

(ii) You may not take salmon in the Chignik River, upstream from the ADF&G weir site or counting tower, in Black Lake, or any tributary to Black and Chignik Lakes.

(iii) You may take salmon, trout and, char only under the authority of a subsistence fishing permit.

(iv) You must keep a record on your permit of subsistence-caught fish. You must complete the record immediately upon taking subsistence-caught fish and must return it no later than October 31.

(v) If you hold a commercial fishing license, you may not subsistence fish for salmon from 48 hours before the first commercial salmon fishing opening in the Chignik Area through September 30.

(vi) You may take salmon by seines, gillnets, rod and reel, or with gear specified on a subsistence fishing permit, except that in Chignik Lake you may not use purse seines.
(vii) You may take fish other than salmon by gear listed in this part unless restricted under the terms of a subsistence fishing permit.

(viii) You may take halibut for subsistence purposes only by a single handheld line with no more than two hooks attached.

(ix) You may take no more than 250 salmon for subsistence purposes unless otherwise specified on the subsistence fishing permit.

(x) The daily bag limit for halibut is two fish, and the possession limit is two daily bag limits. You may not possess sport-taken and subsistence-taken halibut on the same day.

(9) Kodiak Area. The Kodiak Area includes all waters of Alaska south of a line extending east from Cape Douglas (58°51.10' N. lat.), west of 150° W. long., north of 55°30.00' N. lat.; and east of the longitude of the southern entrance of Imuya Bay near Kilokak Rocks (156°20.22' W. long.).

(i) You may take fish, other than salmon, rainbow trout, and steelhead trout, at any time unless restricted by the terms of a subsistence fishing permit. If you take rainbow trout and steelhead trout incidentally in other subsistence net fisheries, you may retain them for subsistence purposes.

(ii) You may take salmon for subsistence purposes 24 hours a day from January 1 through December 31, with the following exceptions:

(A) From June 1 through September 15, you may not use salmon seine vessels to take subsistence salmon for 24 hours before, during, and for 24 hours after any open commercial salmon fishing period. The use of skiffs from any type of vessel is allowed;

(B) From June 1 through September 15, you may use purse seine vessels to take salmon only with gillnets, and you may have no other type of salmon gear on board the vessel.

(iii) You may not subsistence fish for salmon in the following locations:

(A) Womens Bay closed waters—all waters inside a line from the tip of the Nyman Peninsula (57°43.23' N. lat., 152°31.51' W. long.), to the northeastern tip of Mary's Island (57°42.40' N. lat., 152°32.60' W. long.), to the southeastern shore of Womans Bay at 57°41.95' N. lat., 152°31.50' W. long.;

(B) Buskin River closed waters—all waters inside of a line running from a marker on the bluff north of the mouth of the Buskin River at approximately 57°45.80' N. lat., 152°28.38' W. long., to a point offshore at 57°45.35' N. lat., 152°28.15' W. long., to a marker located onshore south of the river mouth at approximately 57°45.15' N. lat., 152°28.65' W. long.;

(C) All waters closed to commercial salmon fishing within 100 yards of the terminus of Selief Bay Creek;

(D) In Afognak Bay north and west of the terminus of Little Kitol Creek;

(E) All freshwater systems of Afognak Island.

(iv) You must have a subsistence fishing permit for taking salmon, trout, and char for subsistence purposes. You must have a subsistence fishing permit for taking herring and bottomfish for subsistence purposes during the commercial herring sac roe season from April 15 through June 30.

(v) With a subsistence salmon fishing permit you may take 25 salmon plus an additional 25 salmon for each member of your household whose names are listed on the permit. You may obtain an additional permit if you can show that more fish are needed.

(vi) You must record on your subsistence permit the number of subsistence fish taken. You must complete the record immediately upon landing subsistence-caught fish, and must return it by February 1 of the year following the year the permit was issued.

(vii) You may take fish other than salmon and halibut by gear listed in this part unless restricted under the terms of a subsistence fishing permit.

(viii) You may take salmon only by gillnet, rod and reel, or seine.

(ix) You must be physically present at the net when the net is being fished.

(xi) You may take halibut only by a single hand-held line with no more than two hooks attached to it.

(xii) The daily bag limit for halibut is two fish, and the possession limit is two daily bag limits. You may not possess sport-taken and subsistence-taken halibut on the same day.
§ 242.27

(10) **Cook Inlet Area.** The Cook Inlet Area includes all waters of Alaska enclosed by a line extending east from Cape Douglas (58° 51' 06" N. lat.) and a line extending south from Cape Fairfield (148° 50' 15" W. long.).

(i) Unless restricted in this section, or unless restricted under the terms of a subsistence fishing permit, you may take fish, other than rainbow trout and steelhead trout, at any time in the Cook Inlet Area. If you take rainbow trout and steelhead trout incidentally in other subsistence net fisheries or through the ice, you may retain them for subsistence purposes.

(ii) You may not take salmon, Dolly Varden, trout, grayling, char, and burbot for subsistence purposes.

(iii) You may take fish by gear listed in this part unless restricted in this section or under the terms of a subsistence fishing permit (as may be modified by this section).

(iv) You may only take smelt with dip nets or gillnets in fresh water from April 1 through June 15. You may not use a gillnet exceeding 20 feet in length and 2 inches in mesh size. You must attend the net at all times when it is being used. There are no harvest or possession limits for smelt.

(v) Gillnets may not be used in freshwater, except for the taking of whitefish in the Tyone River drainage or for the taking of smelt.

(11) **Prince William Sound Area.** The Prince William Sound Area includes all waters of Alaska between the longitude of Cape Fairfield and the longitude of Cape Suckling.

(i) Unless restricted in this section, or unless restricted under the terms of a subsistence fishing permit, you may take fish, other than rainbow trout and steelhead trout, at any time in the Prince William Sound Area.

(ii) You may take salmon in the Upper Copper River District only as follows:

(A) In the Glennallen Subdistrict, from May 15 through September 30;

(B) You may not take salmon in the Chitina Subdistrict.

(iii) You may take salmon in the vicinity of the former Native village of Bataulinetas only under the authority of a Bataulinetas salmon fishing permit available from the National Park Service under the following conditions:

(A) You may take salmon only in those waters of the Copper River between National Park Service regulatory markers located near the mouth of Tanada Creek and approximately one-half mile downstream from that mouth and in Tanada Creek between National Park Service regulatory markers identifying the open waters of the creek;

(B) You may use only fish wheels, dip nets, and rod and reel on the Copper River and only dip nets, spears, and rod and reel in Tanada Creek;

(C) You may take salmon only from May 15 through September 30 or until the season is closed by special action;

(D) You may retain chinook salmon taken in a fishwheel in the Copper River. You may not take chinook salmon in Tanada Creek;

(E) You must return the permit to the National Park Service no later than October 15.

(iv) You may take salmon for subsistence purposes with no bag or possession limits in those waters of the Southwestern District and along the northwestern shore of Green Island from the westernmost tip of the island to the northernmost tip, only as follows:

(A) You may use seines up to 50 fathoms in length and 100 meshes deep with a maximum mesh size of 4 inches, or gillnets up to 150 fathoms in length, except that you may take pink salmon only in fresh water using dip nets;

(B) You may take salmon only from May 15 until 2 days before the commercial opening of the Southwestern District, 7 days per week; during the commercial salmon fishing season, only during open commercial salmon fishing periods; and from 2 days following the closure of the commercial salmon season until September 30, 7 days per week;

(C) You may not fish within the closed waters areas for commercial salmon fisheries.

(v) You may take salmon for subsistence purposes with no bag or possession limits in those waters north of a line from Porcupine Point to Granite Point, and south of a line from Point Lowe to Tongue Point, only as follows:
(A) You may use seines up to 50 fathoms in length and 100 meshes deep with a maximum mesh size of 4 inches, or gillnets up to 150 fathoms in length with a maximum mesh size of 6 $\frac{3}{4}$ inches, except that you may only take pink salmon in fresh water using dip nets.

(B) You may take salmon only from May 15 until 2 days before the commercial opening of the Eastern District, 7 days per week during the commercial salmon fishing season, only during open commercial salmon fishing periods; and from 2 days following the closure of the commercial salmon season until October 31, 7 days per week.

(C) You may not fish within the closed water areas for commercial salmon fisheries.

(vi) If you take rainbow trout and steelhead trout incidentally in other subsistence net fisheries, you may retain them for subsistence purposes.

(vii) You may only take salmon in the waters of the Upper Copper River District, or in the vicinity of the Native Village of Batzulnetas.

(viii) You may take fish by gear listed in this part unless restricted in this section or under the terms of a subsistence fishing permit.

(ix) In the Glennallen Subdistrict, you may take salmon only by fish wheels, rod and reel, or dip nets.

(x) You may not rent, lease, or otherwise use your fish wheel used for subsistence fishing for personal gain. You must register your fish wheel with ADF&G. Your registration number and name and address must be permanently affixed and plainly visible on the fish wheel when the fish wheel is in the water; only the current year’s registration number may be affixed to the fish wheel; you must remove any other registration number from the fish wheel.

(xi) You must personally operate the fish wheel or dip net. You may not loan or transfer a subsistence fish wheel or dip net permit except as permitted.

(xii) Except as provided in this section, you may take fish other than salmon and freshwater fish species for subsistence purposes without a subsistence fishing permit.

(xiii) You may take salmon and freshwater fish species only under authority of a subsistence fishing permit.

(xiv) Only one subsistence fishing permit will be issued to each household per year.

(xv) The following apply to Upper Copper River District subsistence salmon fishing permits:

(A) Only one type of gear may be specified on a permit;

(B) You must return your permit no later than October 31, or you may be denied a permit for the following year;

(C) A fish wheel may be operated only by one permit holder at one time; that permit holder must have the fish wheel marked as required by this section and during fishing operations;

(D) Only the permit holder and the authorized member of the household listed on the subsistence permit may take salmon;

(E) A permit holder must record on ADF&G forms all salmon taken immediately after landing the salmon.

(xvi) The total annual possession limit for an Upper Copper River District subsistence salmon fishing permit is as follows:

(A) For a household with 1 person, 30 salmon, of which no more than 5 may be chinook salmon if taken by dip net;

(B) For a household with 2 persons, 60 salmon, of which no more than 5 may be chinook salmon if taken by dip net; plus 10 salmon for each additional person in a household over 2 persons, except that the household’s limit for chinook salmon taken by dip net does not increase;

(C) Upon request, permits for additional salmon will be issued for no more than a total of 200 salmon for a permit issued to a household with 1 person, of which no more than 5 may be chinook salmon if taken by dip net; or no more than a total of 500 salmon for
a permit issued to a household with 2 or more persons, of which no more than 5 may be chinook salmon if taken by dip net.

(xvii) A subsistence fishing permit may be issued to a village council, or other similarly qualified organization whose members operate fish wheels for subsistence purposes in the Upper Copper River District, to operate fish wheels on behalf of members of its village or organization. A permit may only be issued following approval by ADF&G of a harvest assessment plan to be administered by the permitted council or organization. The harvest assessment plan must include: provisions for recording daily catches for each fish wheel; sample data collection forms; location and number of fish wheels; the full legal name of the individual responsible for the lawful operation of each fish wheel; and other information determined to be necessary for effective resource management. The following additional provisions apply to subsistence fishing permits issued under this paragraph (i)(11)(xvii):

(A) The permit will list all households and household members for whom the fish wheel is being operated;

(B) The allowable harvest may not exceed the combined seasonal limits for the households listed on the permit; the permittee will notify the department when households are added to the list, and the seasonal limit may be adjusted accordingly;

(C) Members of households listed on a permit issued to a village council or other similarly qualified organization, are not eligible for a separate household subsistence fishing permit for the Upper Copper River District.

(xviii) You may not possess salmon taken under the authority of an Upper Copper River District subsistence fishing permit unless both lobes of the caudal (tail) fin have been immediately removed from the salmon.

(xix) In locations open to commercial salmon fishing other than described for the Upper Copper River District, the annual subsistence salmon limit is as follows:

(A) 15 salmon for a household of 1 person;

(B) 30 salmon for a household of 2 persons and 10 salmon for each additional person in a household;

(C) No more than five king salmon may be taken per permit.

(12) Yakutat Area. The Yakutat Area includes all waters of Alaska between the longitude of Cape Suckling and the longitude of Cape Fairweather.

(i) Unless restricted in this section or unless restricted under the terms of a subsistence fishing permit, you may take fish at any time in the Yakutat Area.

(ii) You may not take salmon during the period commencing 48 hours before an opening of commercial salmon net fishing season until 48 hours after the closure. This applies to each river or bay fishery individually.

(iii) When the length of the weekly commercial salmon net fishing period exceeds two days in any Yakutat Area salmon net fishery, the subsistence fishing period is from 6:00 a.m. to 6:00 p.m. on Saturday in that location.

(iv) You may take salmon, trout (other than steelhead,) and char only under authority of a subsistence fishing permit. You may only take steelhead trout in the Situk and Ahrnklin Rivers and only under authority of a subsistence fishing permit.

(v) If you take salmon, trout, or char incidentally by gear operated under the terms of a subsistence permit for salmon, you may retain them for subsistence purposes. You must report any salmon, trout, or char taken in this manner on your permit calendar.

(vi) You may take fish by gear listed in this part unless restricted in this section or under the terms of a subsistence fishing permit.

(vii) In the Situk River, each subsistence salmon fishing permit holder shall attend his or her gill net at all times when it is being used to take salmon.

(viii) You may block up to two-thirds of a stream with a gillnet or seine used for subsistence fishing.

(ix) You must remove the dorsal fin from subsistence-caught salmon when taken.

(x) You may not possess subsistence-taken and sport-taken salmon on the same day.
(xi) With a subsistence fishing permit, you may harvest at any time up to 10 Dolly Varden with no minimum size.

(13) Southeastern Alaska Area. The Southeastern Alaska Area includes all waters between a line projecting southwest from the westernmost tip of Cape Fairweather and Dixon Entrance.
(i) Unless restricted in this section or under the terms of a subsistence fishing permit, you may take fish, other than rainbow trout and steelhead trout, in the Southeastern Alaska Area at any time.
(ii) From July 7 through July 31, you may take sockeye salmon in the waters of the Klawock River and Klawock Lake only from 8:00 a.m. Monday until 5:00 p.m. Friday.
(iii) You must possess a subsistence fishing permit to take salmon, trout, or char.
(iv) You may take steelhead trout on Prince of Wales Island only under the terms of a Federal subsistence fishing permit. The annual harvest limit is two fish, 36 inches or larger. You may use only a dip net or rod and reel with artificial lure or fly. You may not use bait.
(v) You may take coho salmon in Subdistricts 3A, 3B, and 3C only under the terms of a Federal subsistence fishing permit. There is no closed season. The daily harvest limit is 20 fish per household. Only spears, dip net, and rod and reel may be used. Bait may be used only from September 15 through November 15.
(vi) If you take salmon, trout, or char incidentally with gear operated under terms of a subsistence permit for other salmon, they may be kept for subsistence purposes. You must report any salmon, trout, or char taken in this manner on your permit calendar.
(vii) No permits for the use of nets will be issued for the salmon streams flowing across or adjacent to the road systems within the city limits of Petersburg, Wrangell, and Sitka.
(viii) You shall immediately remove the pelvic fins of all salmon when taken.
(ix) You may not possess subsistence-taken and sport-taken salmon on the same day.

(x) For the Salmon Bay Lake system, the daily harvest and season limit per household is 30 sockeye salmon.
(xi) For Virginia Lake (Mill Creek), the daily harvest limit per household is 20 sockeye salmon, and the season limit per household is 40 sockeye salmon.
(xii) For Thoms Creek, the daily harvest limit per household is 20 sockeye salmon, and the season limit per household is 40 sockeye salmon.
(xiii) The Sarkar River system above the bridge is closed to the use of all nets by both Federally-qualified and non-Federally-qualified users.
(xiv) Only Federally-qualified subsistence users may harvest sockeye salmon in streams draining into Falls Lake, Gut Bay, or Pillar Bay. In the Falls Lake and Gut Bay drainages, the possession limit is 10 sockeye salmon per household. In the Pillar Bay drainage, the individual possession limit is 15 sockeye salmon with a household possession limit of 25 sockeye salmon.
(xv) In Baranof Lake, Florence Lake, Hasselborg Lake and River, Mirror Lake, Virginia Lake, and Wilson Lake, in addition to the requirement for a subsistence fishing permit, the following restrictions for the harvest of Dolly Varden, cutthroat, and rainbow trout apply:
(A) You may harvest at any time up to 10 Dolly Varden of any size;
(B) You may harvest at any time six cutthroat or rainbow trout in combination. You may only retain fish between 11” and 22”. You may only use a rod and reel without bait.
(xvi) In all waters, other than those identified in paragraph (1)(13)(xy) of this section, in addition to the requirement for a subsistence fishing permit, you may harvest at any time: Dolly Varden of any size with a daily possession limit of 10 fish; cutthroat and rainbow trout with a slot size limit of 11” to 22” with a daily possession limit of 2 fish in combination. You may only use a rod and reel without bait.

§ 242.28 Subsistence taking of shellfish.

(a) Regulations in this section apply to subsistence taking of Dungeness crab, king crab, Tanner crab, shrimp, clams, abalone, and other shellfish or their parts.

(b) Definitions. The following definitions shall apply to all regulations contained in this section:

- Abalone iron means a flat device which is used for taking abalone and which is more than 1 inch (24 mm) in width and less than 24 inches (610 mm) in length, with all prying edges rounded and smooth.
- ADF&G means the Alaska Department of Fish and Game.
- Crab means the following species: red king crab (Paralithodes camshatica); blue king crab (Paralithodes platypus); brown king crab (Lithodes aequispina); Lithodes couesi; all species of tanner or snow crab (Chionoecetes spp.); and Dungeness crab (Cancer magister).
- Diving gear means any type of hard hat or skin diving equipment, including SCUBA equipment; a tethered, umbilical, surface-supplied unit; or snorkel.
- Gear means any type of fishing apparatus.
- Grappling hook means a hooked device with flukes or claws, which is attached to a line and operated by hand.
- Handline means a hand-held and operated line, with one or more hooks attached.
- Harvest limit means the maximum legal take per person or designated group, per specified time period, in the area in which the person is fishing, even if part or all of the shellfish are preserved.
- Household means a person or persons having the same residence.
- Hydraulic clam digger means a device using water or a combination of air and water used to harvest clams.
- Mechanical clam digger means a mechanical device used or capable of being used for the taking of clams.
- Mile means a nautical mile when used in reference to marine waters or a statute mile when used in reference to fresh water.
- Possession limit means the maximum number of shellfish a person or designated group may have in possession if the shellfish have not been canned, salted, frozen, smoked, dried, or otherwise preserved so as to be fit for human consumption after a 15-day period.
- Pot means a portable structure designed and constructed to capture and retain live fish and shellfish in the water.
- Ring net means a bag-shaped net suspended between no more than two frames; the bottom frame may not be larger in perimeter than the top frame; the gear must be nonrigid and collapsible so that free movement of fish or shellfish across the top of the net is not prohibited when the net is employed.
- Scalloping dredge means a dredge-like device designed specifically for and capable of taking scallops by being towed along the ocean floor.
- Sea urchin rake means a hand-held implement, no longer than 4 feet, equipped with projecting prongs used to gather sea urchins.
- Shovel means a hand-operated implement for digging clams.
- Subsistence fishing permit means a permit issued by ADF&G, unless specifically identified otherwise.
- To operate fishing gear means any of the following: to deploy gear in the water; to remove gear from the water; to remove fish or shellfish from the gear during an open season or period; or to possess a gillnet containing fish during an open fishing period, except that a gillnet which is completely clear of the water is not considered to be operating for the purposes of minimum distance requirement.
- Trawl means a bag-shaped net towed through the water to capture fish or shellfish, and includes beam, otter, or pelagic trawl.

(c) You may take shellfish for subsistence uses at any time in any area of the public lands by any method unless restricted by this section.

(d) Methods, means, and general restrictions. (1) The harvest limit specified in this section for a subsistence season for a species and the State harvest limit set for a State season for the same species are not cumulative. This means that if you have taken the harvest limit for a particular species under a subsistence season specified in this section, you may not, after that,
take any additional shellfish of that species under any other harvest limit specified for a State season.

(2) Unless otherwise provided in this section or under terms of a required subsistence fishing permit (as may be modified by this section), you may use the following legal types of gear to take shellfish:

(i) Abalone iron;
(ii) Diving gear;
(iii) A grappling hook;
(iv) A handline;
(v) A hydraulic clam digger;
(vi) A mechanical clam digger;
(vii) A pot;
(viii) A ring net;
(ix) A scallop dredge;
(x) A sea urchin rake;
(xi) A shovel; and
(xii) A trawl.

(3) You are prohibited from buying or selling subsistence-taken shellfish, their parts, or their eggs, unless otherwise specified.

(4) You may not use explosives and chemicals, except that you may use chemical baits or lures to attract shellfish.

(5) Marking requirements for subsistence shellfish gear are as follows:

(i) You shall plainly and legibly inscribe your first initial, last name, and address on a keg or buoy attached to unattended subsistence fishing gear, except when fishing through the ice, you may substitute for the keg or buoy, a stake inscribed with your first initial, last name, and address inserted in the ice near the hole; subsistence fishing gear may not display a permanent ADF&G vessel license number;

(ii) Kegs or buoys attached to subsistence crab pots also must be inscribed with the name or United States Coast Guard number of the vessel used to operate the pots.

(6) Pots used for subsistence fishing must comply with the escape mechanism requirements found in §242.27.

(7) You may not mutilate or otherwise disfigure a crab in any manner which would prevent determination of the minimum size restrictions until the crab has been processed or prepared for consumption.

(e) Taking shellfish by designated harvest permit. (1) Any species of shellfish that may be taken by subsistence fishing under this part may be taken under a designated harvest permit.

(2) If you are a Federally-qualified subsistence user (beneficiary), you may designate another Federally-qualified subsistence user to take shellfish on your behalf. The designated fisherman must obtain a designated harvest permit prior to attempting to harvest shellfish and must return a completed harvest report. The designated fisherman may harvest for any number of beneficiaries but may have no more than two harvest limits in his/her possession at any one time.

(3) The designated fisherman must have in possession a valid designated harvest permit when taking, attempting to take, or transporting shellfish taken under this section, on behalf of a beneficiary.

(4) You may not fish with more than one legal limit of gear as established by this section.

(5) You may not designate more than one person to take or attempt to take shellfish on your behalf at one time. You may not personally take or attempt to take shellfish at the same time that a designated fisherman is taking or attempting to take shellfish on your behalf.

(f) If a subsistence shellfishing permit is required by this section, the following conditions apply unless otherwise specified by the subsistence regulations in this section:

(1) You may not take shellfish for subsistence in excess of the limits set out in the permit unless a different limit is specified in this section;

(2) You must obtain a permit prior to subsistence fishing;

(3) You must have the permit in your possession and readily available for inspection while taking or transporting the species for which the permit is issued;

(4) The permit may designate the species and numbers of shellfish to be harvested, time and area of fishing, the type and amount of fishing gear and other conditions necessary for management or conservation purposes;

(5) If specified on the permit, you shall keep accurate daily records of the catch involved, showing the number of shellfish taken by species, location and
date of the catch, and such other information as may be required for management or conservation purposes;

(6) You must complete and submit subsistence fishing reports at the time specified for each particular area and fishery;

(7) If the return of catch information necessary for management and conservation purposes is required by a subsistence fishing permit and you fail to comply with such reporting requirements, you are ineligible to receive a subsistence permit for that activity during the following calendar year, unless you demonstrate that failure to report was due to loss in the mail, accident, sickness, or other unavoidable circumstances.

(g) Subsistence take by commercial vessels. No fishing vessel which is commercially licensed and registered for shrimp pot, shrimp trawl, king crab, Tanner crab, or Dungeness crab fishing may be used for subsistence take during the period starting 14 days before an opening until 14 days after the closure of a respective open season in the area or areas for which the vessel is registered. However, if you are a commercial fisherman, you may retain shellfish for your own use from your lawfully taken commercial catch.

(h) You may not take or possess shellfish smaller than the minimum legal size limits.

(i) Unlawful possession of subsistence shellfish. You may not possess, transport, give, receive, or barter shellfish or their parts taken in violation of Federal or State regulations.

(j)(1) An owner, operator, or employee of a lodge, charter vessel, or other enterprise that furnishes food, lodging, or guide services may not furnish to a client or guest of that enterprise, shellfish that has been taken under this chapter, unless:

(i) The shellfish has been taken with gear deployed and retrieved by the client or guest who is a federally-qualified subsistence user;

(ii) The gear has been marked with the client’s or guest’s name and address; and

(iii) The shellfish is to be consumed by the client or guest or is consumed in the presence of the client or guest.

(2) The captain and crewmembers of a charter vessel may not deploy, set, or retrieve their own gear in a subsistence shellfish fishery when that vessel is being chartered.

(k) Subsistence shellfish areas and pertinent restrictions. (1) Southeastern Alaska-Yakutat Area. No marine waters are currently identified under Federal subsistence management jurisdiction.

(2) Prince William Sound Area. No marine waters are currently identified under Federal subsistence management jurisdiction.

(3) Cook Inlet Area. You may not take shellfish for subsistence purposes.

(4) Kodiak Area. (i) You may take crab for subsistence purposes only under the authority of a subsistence crab fishing permit issued by the ADF&G.

(ii) The operator of a commercially licensed and registered shrimp fishing vessel must obtain a subsistence fishing permit from the ADF&G before subsistence shrimp fishing during a closed commercial shrimp fishing season or within a closed commercial shrimp fishing district, section, or subsection. The permit shall specify the area and the date the vessel operator intends to fish. No more than 500 pounds (227 kg) of shrimp may be in possession aboard the vessel.

(iii) The daily harvest and possession limit is 12 male Dungeness crabs per person; only male Dungeness crabs with a shell width of 6 1/2 inches or greater may be taken or possessed. Taking of Dungeness crab is prohibited in water 25 fathoms or more in depth during the 14 days immediately before the opening of a commercial king or Tanner crab fishing season in the location.

(iv) In the subsistence taking of king crab:

(A) The annual limit is six crabs per household; only male king crab may be taken or possessed;

(B) All crab pots used for subsistence fishing and left in saltwater unattended longer than a 2-week period shall have all bait and bait containers removed and all doors secured fully open;

(C) You may not use more than five crab pots, each being no more than 75
cubic feet in capacity to take king crab;

(D) You may take king crab only from June 1–January 31, except that the subsistence taking of king crab is prohibited in waters 25 fathoms or greater in depth during the period 14 days before and 14 days after open commercial fishing seasons for red king crab, blue king crab, or Tanner crab in the location;

(E) The waters of the Pacific Ocean enclosed by the boundaries of Womens Bay, Gibson Cove, and an area defined by a line ½ mile on either side of the mouth of the Karluk River, and extending seaward 3,000 feet, and all waters within 1,500 feet seaward of the shoreline of Afognak Island are closed to the harvest of king crab except by Federally-qualified subsistence users.

(v) In the subsistence taking of Tanner crab:

(A) You may not use more than five crab pots to take Tanner crab;

(B) You may not take Tanner crab in waters 25 fathoms or greater in depth during the 14 days immediately before the opening of a commercial king or Tanner crab fishing season in the location;

(C) The daily harvest and possession limit is 12 male crab with a shell width 5 1/2 inches or greater per person.

(5) Alaska Peninsula-Aleutian Islands Area. (i) The operator of a commercially licensed and registered shrimp fishing vessel must obtain a subsistence fishing permit from the ADF&G prior to subsistence shrimp fishing during a closed commercial shrimp fishing season or within a closed commercial shrimp fishing district, section, or subsection; the permit shall specify the area and the date the vessel operator intends to fish; no more than 500 pounds (227 kg) of shrimp may be in possession aboard the vessel.

(ii) In waters south of 60° N. lat., the daily harvest and possession limit is 12 male Dungeness crabs per person.

(iii) In the subsistence taking of king crab:

(A) In waters south of 60° N. lat., the daily harvest and possession limit is six male crab per person;

(B) All crab pots used for subsistence fishing and left in saltwater unattended longer than a two-week period shall have all bait and bait containers removed and all doors secured fully open;

(C) You may take crabs only from June 1–January 31.

(iv) The daily harvest and possession limit is 12 male Tanner crabs per person; only crabs with a shell width of 5 1/2 inches or greater may be taken or possessed.

(E) The waters of the Pacific Ocean enclosed by the boundaries of Womens Bay, Gibson Cove, and an area defined by a line ½ mile on either side of the mouth of the Karluk River, and extending seaward 3,000 feet, and all waters within 1,500 feet seaward of the shoreline of Afognak Island are closed to the harvest of king crab except by Federally-qualified subsistence users.

(v) In the subsistence taking of Tanner crab:

(A) You may not use more than five crab pots to take Tanner crab;

(B) You may not take Tanner crab in waters 25 fathoms or greater in depth during the 14 days immediately before the opening of a commercial king or Tanner crab fishing season in the location;

(C) The daily harvest and possession limit is 12 male crab with a shell width 5 1/2 inches or greater per person.

(6) Bering Sea Area. (i) In that portion of the area north of the latitude of Cape Newenham, shellfish may only be taken by shovel, jigging gear, pots, and ring net.

(ii) The operator of a commercially licensed and registered shrimp fishing vessel must obtain a subsistence fishing permit from the ADF&G prior to subsistence shrimp fishing during a closed commercial shrimp fishing season or within a closed commercial shrimp fishing district, section, or subsection; the permit shall specify the area and the date the vessel operator intends to fish; no more than 500 pounds (227 kg) of shrimp may be in possession aboard the vessel.

(iii) In waters south of 60° N. lat., the daily harvest and possession limit is 12 male Dungeness crabs per person.

(iv) In the subsistence taking of king crab:

(A) In waters south of 60° N. lat., the daily harvest and possession limit is six male crab per person;

(B) All crab pots used for subsistence fishing and left in saltwater unattended longer than a two-week period shall have all bait and bait containers removed and all doors secured fully open;

(C) You may take crab only from June 1–January 31;

(D) In the Norton Sound Section of the Northern District, you must have a subsistence permit.

(v) In waters south of 60° N. lat., the daily harvest and possession limit is 12 male Tanner crab.

[66 FR 10158, Feb. 13, 2001]
PART 251—LAND USES

Subpart A—Miscellaneous Land Uses

NATURAL RESOURCES CONTROL

Sec.
251.9 Management of municipal watersheds.
251.10 Prohibition of location of mining claims within certain areas in the Norbeck Wildlife Preserve, South Dakota.
251.11 Governing mining locations under the mining laws of the United States within that portion of the Black Hills National Forest, State of South Dakota, designated as the Norbeck Wildlife Preserve.
251.14 Conditions, rules, and regulations to govern exercise of timber rights reserved in conveyance to the United States.
251.15 Conditions, rules, and regulations to govern exercise of mineral rights reserved in conveyances to the United States.

RIGHTS OF GRANTORS

251.17 Grantor’s right to occupy and use lands conveyed to the United States.
251.18 Rights-of-way reserved by the grantor on lands conveyed to the United States.
251.19 Exercise of water rights reserved by the grantor of lands conveyed to the United States.

DESIGNATION OF AREAS

251.23 Experimental areas and research natural areas.

PETERSBURG WATERSHED

251.35 Petersburg watershed.

251.95 Authority of Reviewing Officer.
251.96 Intervention.
251.97 Oral presentation.
251.98 Appeal record.
251.99 Appeal decision.
251.100 Discretionary review.
251.101 Policy in event of judicial proceedings.
251.102 Applicability and effective date.

Subpart D—Access to Non-Federal Lands

251.110 Scope and application.
251.111 Definitions.
251.112 Application requirements.
251.113 Instrument of authorization.
251.114 Criteria, terms, and conditions.

Subpart A—Miscellaneous Land Uses

NATURAL RESOURCES CONTROL

§ 251.9 Management of Municipal Watersheds.

(a) The Forest Service shall manage National Forest watersheds that supply municipal water under multiple use prescriptions in forest plans (36 CFR part 219). When a municipality desires protective actions or restrictions of use not specified in the forest plan, within agreements, and/or special use authorizations, the municipality must apply to the Forest Service for consideration of these needs.
(b) When deemed appropriate by the Regional Forester, requested restrictions and/or requirements shall be incorporated in the forest plan without written agreements. Written agreements with municipalities to assure protection of water supplies are appropriate when requested by the municipality and deemed necessary by the Regional Forester. A special use authorization may be needed to effect these agreements.

(c) In preparing any municipal watershed agreement for approval by the Regional Forester or issuing special use authorization to protect municipal water supplies, the authorized forest officer shall specify the types of uses, if any, to be restricted; the nature and extent of any restrictions; any special land management protective measures and/or any necessary standards and guidelines needed to protect water quality or quantity; and any resources that are to be provided by the municipality.

(d) A special use authorization (36 CFR 251.54) is required if the municipality is to use the subject lands, restrict public access, or control resource uses within the watershed. Special use authorizations issued pursuant to this section are subject to the same fee waivers, conditions, and procedures applicable to all other special uses as set forth in subpart B of this part.

(e) Any municipal watershed management agreements, special use authorizations, requirements, and/or restrictions shall be consistent with forest plans, or amendments and revisions thereto.

[53 FR 27685, July 22, 1988]

§ 251.11 Governing mining locations under the mining laws of the United States within that portion of the Black Hills National Forest, State of South Dakota, designated as the Norbeck Wildlife Preserve.

(a) Whoever locates a mining claim within the Norbeck Wildlife Preserve must, within 10 days after posting the location notice upon such claim, file a true copy of such location notice with the Forest Supervisor of the Black Hills National Forest at Custer, South Dakota, and further, within 10 days after said location notice is filed for record pursuant to the State laws of South Dakota, a true copy of the recorded location certificate must be filed with said Forest Supervisor.

(b) All mining locators shall in all developments and operations make all reasonable provisions for the disposal of tailings, dumpage, and other deleterious materials or substances in such manner as to prevent obstruction, pollution, or deterioration of the land, streams, ponds, lakes, or springs, as may be directed by the Forest Supervisor.

(c) All slash resulting from cutting or destruction of forest growth incident and necessary to mining operations must be disposed of as directed by the Forest Supervisor.

(d) The cutting and removal of timber, except where clearing is necessary in connection with mining operations or to provide space for buildings or structures used in connection with mining operations, shall be conducted in accordance with the marking rules and timber sale practices applicable to the Black Hills National Forest, and such cutting and removal of timber shall be as directed by the Forest Supervisor.

(e) No use of the surface of a mining claim or the resources therefrom not
§ 251.14 Conditions, rules and regulations to govern exercise of timber rights reserved in conveyance to the United States.

(a) Except as otherwise provided in paragraphs (b) and (c) of this section, in conveyance of lands to the United States under authorized programs of the Forest Service, where owners reserve the right to enter upon the conveyed lands and to cut and remove timber and timber products, said reservations shall be subject to the following conditions, rules and regulations which shall be expressed in and made a part of the deed of conveyance to the United States and such reservations shall be exercised thereunder and in observance thereto:

(1) Whoever undertakes to exercise the reserved rights, hereinafter called operator, shall give prior written notice to Forest Service and shall submit satisfactory evidence of authority to exercise such rights. Operator shall repair, replace, or restore any improvements owned by the United States or its permittees, damaged or destroyed by the timber operations and he shall restore the land to a condition safe and reasonably serviceable for authorized programs of Forest Service.

(2) In cutting and removing timber and timber products and in locating, constructing and using mills, logging roads, railroads, chutes, landings, camps, or other improvements, no unnecessary damage shall be done to the air, water and soil resources, and to young growth or to trees left standing. All survey monuments and witness trees shall be preserved.

(3) All trees, timber or timber products of species or sizes not specifically reserved which are unnecessarily cut, damaged, or destroyed by operator shall be paid for at double the usual rates charged in the locality for sales of similar National Forest timber and timber products.

(4) Slash and debris resulting from the cutting, removal, or processing of timber or timber products, or from construction operations, shall be disposed of or otherwise treated by methods acceptable to the Forest Service. Such treatment or disposal shall comply with known air and water quality standards.
criteria and standards and include necessary preparatory work such as fireline constructing and snag falling. The timing of log removal and preparatory work shall not unnecessarily delay slash disposal or treatment.

(5) Operator is authorized to construct and maintain buildings, facilities, and other improvements, including roads needed to log the reserved timber. Construction and maintenance plans, designs, and location shall be approved in writing by Forest Service before construction is started.

(6) All buildings, camps, equipment, and other structures or improvements shall be removed from the lands within 6 months from date of completion or abandonment of the operation, unless relieved by Forest Service by issuance of a special-use permit. Otherwise such buildings, camps, equipment, and other structures or improvements shall become the property of the United States, but this does not relieve operator of liability for the cost of removal and restoration of the site.

(7) Nothing in this section shall be construed to exempt operator from any requirements of the laws of the States in which situated; nor from compliance with or conformity to any requirement of any law which later may be enacted and which otherwise would be applicable.

(8) While operations are in progress, operator, his employees, any subcontractors, and their employees, shall take all reasonable and practicable action in the prevention and suppression of fire, and shall be available for service in the suppression of all fires within the reserved area. On any fire not caused by negligence on the part of the operator, Forest Service shall pay operator at fire-fighting rates common in the area or at prior agreed rates for equipment or manpower furnished by operator.

(9) Only one cutting shall be made on any portion of the area on which timber is reserved. Forest Service may permit the cutting of special products, or products the cutting of which is seasonal, on any portion of the area in advance of the cutting of the chief products of the reserved timber. Each reservation of timber shall include a specific period of time within which material may be removed.

(10) Forest Service shall have the right to use any road constructed under the authority of this timber reservation for any and all purposes in connection with the protection and administration of the National Forest.

(11) Operator shall take all reasonable precautions to prevent pollution of the air, soil, and water, in operation hereunder.

(12) All activities by operator in the reserved area shall be conducted in a safe, orderly, and workmanlike manner.

(13) For the protection of streamcourses, the following measures shall be observed by operator: Culverts or bridges will be required on temporary roads at all points where it is necessary to cross streamcourses. Such facilities shall be of sufficient size and design to provide unobstructed flow of water. Equipment will not be operated in streamcourses except at designated crossings and as essential to construction or removal of culverts and bridges. Any stream that is temporarily diverted must be restored to the natural course as soon as practicable, and in any event prior to a major runoff season.

(14) Operator shall perform currently as weather and soil conditions permit, the following erosion control work on portions of the reserved area where logging is in progress or has been completed: Construct cross-ditches and water-spreading ditches where staked or otherwise marked on the ground by Forest Service; after a temporary road has served operator’s purpose, operator shall remove culverts and bridges, eliminate ditches, out-slope and cross-drain roadbed and remove ruts and berms to the extent necessary to stabilize fills and otherwise minimize erosion; operator shall avoid felling into, yarding in, or crossing natural meadows; and operations will not take place when soil and water conditions are such that excessive damage will result.

(b) The conditions, rules and regulations set forth in paragraphs (a)(1) through (14) of this section shall not apply to reservations contained in conveyances of land to the United States under the Act of March 3, 1925.
§ 251.15 Conditions, rules and regulations to govern exercise of mineral rights reserved in conveyances to the United States.

(a) Except as otherwise provided in paragraphs (b) and (c) of this section, in conveyances of lands to the United States under authorized programs of the Forest Service, where owners reserve the right to enter upon the conveyed lands and to prospect for, mine and remove minerals, oil, gas, or other inorganic substances, said reservations shall be subject to the following conditions, rules and regulations which shall be expressed in and made a part of the deed of conveyance to the United States and such reservations shall be exercised thereunder and in obedience thereto:

(1) Whoever undertakes to exercise the reserved rights shall give prior written notice to the Forest Service and shall submit satisfactory evidence of authority to exercise such rights. Only so much of the surface of the lands shall be occupied, used, or disturbed as is necessary in bona fide prospecting for, drilling, mining (including the milling or concentration of ores), and removal of the reserved minerals, oil, gas, or other inorganic substances.

(2)(i) None of the lands in which minerals are reserved shall be so used, occupied, or disturbed as to preclude their full use for authorized programs of the Forest Service until the record owner of the reserved rights, or the successors, assigns, or lessees thereof, shall have applied for and received a permit authorizing such use, occupancy, or disturbance of those specifically described parts of the lands as may reasonably be necessary to exercise of the reserved rights.

(ii) Said permit shall be issued upon agreement as to conditions necessary to protect the interest of the United States including such conditions deemed necessary to provide for the safety of the public and other users of the land, and upon initial payment of the annual fee, which shall be at the rate of $2 per acre or fraction of acre included in the permit.

(iii) The permit shall also provide that the record owner of the reserved right or the successors, assigns, or lessees thereof, will repair or replace any improvements damaged or destroyed by the mining operations and restore the land to a condition safe and reasonably serviceable for authorized programs of the Forest Service, and shall provide for a bond in sufficient amount as determined necessary by the Forest Service to guarantee such repair, replacement or restoration.

(iv) Failure to comply with the terms and conditions of the aforesaid permit shall be cause for termination of all rights to use, occupy, or disturb the surface of the lands covered thereby.
but in event of such termination a new permit shall be issued upon application when the causes for termination of the preceding permit have been satisfactorily remedied and the United States reimbursed for any resultant damage to it.

(3) All structures, other improvements, and materials shall be removed from the lands within one year after date of termination of the aforementioned permit. Should the holder of the permit fail to do so within the specified time, the Forest Service may remove, destroy or otherwise dispose of said structures, other improvements, and materials at the permittee’s expense, or in lieu thereof, may upon written notice to the permittee, assume title thereto in the name of the United States.

(4) Timber and/or young growth cut or destroyed in connection with exercise of the reserved right shall be paid for at rates determined by the Forest Service to be fair and equitable for comparable timber and/or young growth in the locality. All slash resulting from cutting or destruction of timber or young growth shall be disposed of as required by the Forest Service.

(5) In the prospecting for, mining, and removal of reserved minerals, oil, gas, or other inorganic substances all reasonable provisions shall be made for the disposal of tailings, dumping, and other deleterious materials or substances in such manner as to prevent obstruction, pollution, or deterioration of water resources.

(6) Nothing herein contained shall be construed to exempt operators or the mining operations from any requirements of applicable State laws nor from compliance with or conformity to any requirement of any law which later may be enacted and which otherwise would be applicable.

(7) While any activities and/or operations incident to the exercise of the reserved rights are in progress, the operators, contractors, subcontractors, and any employees thereof shall use due diligence in the prevention and suppression of fires, and shall comply with all rules and regulations applicable to the land.

(b) The conditions, rules and regulations set forth in paragraphs (a) (1) through (7) of this section shall not apply to reservations contained in conveyances of lands to the United States under the Act of March 3, 1925, as amended (43 Stat. 1133, 61 Stat. 82; 16 U.S.C. 555).

(c) In cases where a State, or an agency, or a political subdivision thereof, reserves minerals, oil, gas, or other inorganic substances, in the conveyance of land to the United States under authorized programs of the Forest Service and there are provisions in the laws of such State or in conditions, rules and regulations promulgated by such State, agency or political subdivision thereof, which the Chief, Forest Service, determines are adequate to protect the interest of the United States in the event of the exercise of such reservation, the Chief, Forest Service, is hereby authorized, in his discretion, to subject the exercise of the reservation to such statutory provisions or such conditions, rules and regulations in lieu of the conditions, rules and regulations set forth in paragraphs (a) (1) through (7) of this section. In that event, such statutory provisions or such conditions, rules and regulations shall be expressed in and made a part of the deed of conveyance to the United States and the reservation shall be exercised thereunder and in obedience thereto.

All regulations heretofore issued by the Secretary of Agriculture to govern the exercise of mineral rights reserved in conveyances of lands to the United States under authorized programs of the Forest Service shall continue to be effective in the cases to which they are applicable, but are hereby superseded as to mineral rights hereafter reserved in conveyances under such programs.

[28 FR 4440, May 3, 1963]

**RIGHTS OF GRANTORS**

§ 251.17 Grantor’s right to occupy and use lands conveyed to the United States.

Except as otherwise provided in paragraph (h) of this section, in conveyances of lands to the United States under authorized programs of the Forest Service, where owners reserve the right to occupy and use the land for the purposes of residence, agriculture,
§ 251.18 Rights-of-way reserved by the grantor on lands conveyed to the United States.

This section governs the use, occupancy, and operation of rights-of-way reserved by a grantor of lands to the United States.

(a) Brush and refuse resulting from the exercise of the right-of-way reservation shall be disposed of to the satisfaction of the Forest Officer in charge.

(b) Timber cut and destroyed in the exercise of the right-of-way reservation shall be paid for at rates to be prescribed by the Forest Officer in charge, which rates shall be the usual stumpage prices charged in the locality in sales of national forest timber of the same kind or species; for injury to timber, second growth, and reproduction, the amount of actual damage shall be ascertained by the Forest Supervisor according to the rules applicable in such cases.
(c) All improvements built or maintained upon the right-of-way shall be kept in an orderly, safe and sanitary condition. Failure to maintain such conditions shall be cause for the termination of the reservation after 30 days' notice in writing to the occupant or user that unsatisfactory conditions exist and that the Department intends to terminate all rights under the reservation unless such conditions are forthwith corrected to the satisfaction of the Regional Forester.

(d) Upon the abandonment of a reserved right-of-way, either by formal release, by termination, or by non-use for a period of one calendar year, all improvements thereon not the property of the United States shall be removed therefrom within three months from the date of the abandonment, otherwise such improvements shall vest in and become the property of the United States.

(e) All reasonable precautions to prevent and suppress forest fires shall be taken by the grantor and all persons acting for or claiming under him; suitable crossings shall be constructed by grantor and/or said persons where the reserved right-of-way intersects existing roads and trails; borrow pits shall not be opened outside of the immediate graded section except under a special use permit from the Forest Supervisor.

(f) Officers of the Forest Service shall have free ingress and egress on and over the reserved rights-of-way for all purposes necessary and incidental to the protection and administration of the national forest.

§ 251.19 Exercise of water rights reserved by the grantor of lands conveyed to the United States.

This section governs the exercise of water and related rights reserved by the grantor of lands conveyed to the United States under the provisions of the act of March 1, 1911 (36 Stat. 961).

(a) All reasonable precautions shall be taken by the grantor and all persons acting for or claiming under him to prevent and suppress forest fires upon or threatening the premises or other adjacent lands of the United States, and any person failing to comply with this requirement shall be responsible for any damages sustained by the United States by reason thereof.

(b) All slash and debris resulting from the cutting and removal of timber shall be disposed of as directed by the Forest Officer in charge.

(c) Flowage and reservoir areas shall be cleared of timber and debris, in a manner satisfactory to the Forest Supervisor, or in accordance with a special agreement approved by him. Timber cut and destroyed in the exercise of the reserved rights shall be paid for at rates to be prescribed by the Forest Officer in charge, which rates shall be the usual stumpage price charged in the locality.

(d) The water surface created shall be open to the Forest Service and its permittees when such use does not interfere with the original purpose of the development.

(e) The water surface shall be open to fishing by the public in accordance with State laws when such use does not interfere with the original purpose of the development.

(f) Plans for dams and supplemental structures, impounding or controlling more than 10 acre-feet of water or with a head in excess of 6 feet, shall be approved by the Regional Engineer of the Forest Service before construction shall begin.

[3 FR 1953, Aug. 9, 1938]

§ 251.23 Designation of areas.

§ 251.23 Experimental areas and research natural areas.

The Chief of the Forest Service shall establish and permanently record a series of areas on National Forest land to be known as experimental forests or experimental ranges, sufficient in number and size to provide adequately for the research necessary to serve as a basis for the management of forest and range land in each forest region. Also, when appropriate, the Chief shall establish a series of research natural areas, sufficient in number and size to illustrate adequately or typify for research or educational purposes, the important forest and range types in each forest region, as well as other plant communities that have special or
unique characteristics of scientific interest and importance. Research Natural Areas will be retained in a virgin or unmodified condition except where measures are required to maintain a plant community which the area is intended to represent. Within areas designated by this regulation, occupancy under a special-use permit shall not be allowed, nor the construction of permanent improvements permitted except improvements required in connection with their experimental use, unless authorized by the Chief of the Forest Service.

[31 FR 5072, Mar. 29, 1966]

PETERSBURG WATERSHED

§ 251.35 Petersburg watershed.

(a) Except as authorized in paragraphs (b) and (c), access to lands within the Petersburg watershed, Tongass National Forest, as described in the Act of October 17, 1940 (54 Stat. 1197), is prohibited.

(b) Access to lands within the Petersburg watershed is hereby authorized, without further written approval, for the following routine purposes:

(1) The discharge of official duties related to management of the Tongass National Forest by Federal employees, holders of Forest Service contracts, or Forest Service agents;

(2) The operation, maintenance, and improvement of the municipal water system by Federal and State officials and employees of the city of Petersburg; and

(3) Public recreational use of the Raven’s Roost Trail for access to and from the Raven’s Roost public recreation cabin and the Alpine Recreation Area.

(c) Any person who wishes to enter upon the lands within the watershed for purposes other than those listed in paragraph (b) must obtain a permit that has been signed by the appropriate city official and countersigned by the District Ranger.

(d) Unauthorized entrance upon lands within the watershed is subject to punishment as provided in 36 CFR 261.1b.

(e) The Forest Supervisor of the Stikine Area of the Tongass National Forest may authorize the removal of timber from the watershed under the regulations governing disposal of National Forest timber (36 CFR part 223). In any removal of timber from the watershed, the Forest Supervisor shall provide adequate safeguards for the protection of the Petersburg municipal water supply.

[53 FR 26595, July 14, 1988]

Subpart B—Special Uses

SOURCE: 45 FR 38327, June 6, 1980, unless otherwise noted.

§ 251.50 Scope.

(a) All uses of National Forest System lands, improvements, and resources, except those provided for in the regulations governing the disposal of timber (part 223) and minerals (part 228) and the grazing of livestock (part 222), are designated “special uses.” Before engaging in a special use, persons or entities must submit an application to an authorized officer and must obtain a special use authorization from the authorized officer unless that requirement is waived by paragraph (c) of this section.

(b) Nothing in this section prohibits the temporary occupancy of National Forest System land for the protection of life or property in emergencies, if a special use authorization for such use is obtained at the earliest opportunity.

(c) A special use authorization is not required for noncommercial recreational activities such as camping, picnicking, hiking, fishing, hunting, horseback riding, and boating, as well as noncommercial activities involving the expression of views such as assemblies, meetings, demonstrations, and parades, except for:

(1) Authorization of such use is required by an order issued pursuant to 36 CFR 261.50;

(2) Authorization of such use is required by a regulation issued pursuant to 36 CFR 261.70;

(3) Noncommercial group uses as defined in §251.51 of this subpart.
(d) Unless otherwise required by order issued under §261.50 or by regulation issued under §261.70 of this chapter, the use of existing forest development roads and trails does not require a special-use authorization; however, any such use is subject to compliance with all Federal and State laws governing the roads or trails to be used.

§251.51 Definitions.

Applicant—any individual, partnership, corporation, association, or other business entity, and any Federal, State or governmental entity or agency which applies for a special use authorization.

Authorized officer—any employee of the Forest Service to whom has been delegated the authority to perform the duties described in this part.

Chief—the Chief of the Forest Service.

Commercial use or activity—any use or activity on National Forest System lands (a) where an entry or participation fee is charged, or (b) where the primary purpose is the sale of a good or service, and in either case, regardless of whether the use or activity is intended to produce a profit.

Easement—a type of special use authorization (usually granted for linear rights-of-way) that is utilized in those situations where a conveyance of a limited and transferable interest in National Forest System land is necessary or desirable to serve or facilitate authorized long-term uses, and that may be compensable according to its terms.

Group use—an activity conducted on National Forest System lands that involves a group of 75 or more people, either as participants or spectators.

Holder—any applicant who has received a special use authorization.

Lease—a type of special use authorization (usually granted for uses other than linear rights-of-way) that is used when substantial capital investment is required and when conveyance of a conditional and transferable interest in National Forest System lands is necessary or desirable to serve or facilitate authorized long-term uses, and that may be revocable and compensable according to its terms.

National Forest System land—all lands, waters, or interests therein administered by the Forest Service.

Noncommercial use or activity—any use or activity that does not involve a commercial use or activity as defined in this section.

Permit—a special use authorization which provides permission, without conveying an interest in land, to occupy and use National Forest System land or facilities for specified purposes, and which is both revocable and terminable.

Revocation—the cessation of a special use authorization by action of an authorized officer before the end of the specified period of occupancy or use for reasons set forth in §251.60(a)(1)(i), (a)(2)(i), (g), and (h) of this subpart.

Right-of-way—land authorized to be used or occupied for the construction, operation, maintenance and termination of a project or facility passing over, upon, under or through such land.

Secretary—the Secretary of Agriculture.

Ski area—a site and attendant facilities expressly developed to accommodate alpine or nordic skiing and from which the preponderance of revenue is generated by the sale of lift tickets and fees for ski rentals, for skiing instruction and trail passes for the use of permittee-maintained ski trails. A ski area may also include ancillary facilities directly related to the operation and support of skiing activities.

Sound business management principles—a phrase that refers to accepted industry practices or methods of establishing fees and charges that are used or applied by the Forest Service to help establish the appropriate charge for a special use. Examples of such practices and methods include, but are not limited to, appraisals, fee schedules, competitive bidding, negotiation of fees,
§ 251.52 Delegation of authority.

Special use authorizations shall be issued, granted, amended, renewed, suspended, terminated, or revoked by the Chief, or through delegation, by the Regional Forester, Forest Supervisor, District Ranger or other forest officer, and shall be in such form and contain such terms, stipulations, conditions, and agreements as may be required by the regulations of the Secretary and the instructions of the Chief (7 CFR 2.60; 36 CFR part 200, subpart B).
representing the fair market value, fixed by the Chief, through appraisal for the purpose of constructing and maintaining on such lands public buildings or other public works;

(i) Permits under the Wilderness Act of September 3, 1964, 78 Stat. 890 (16 U.S.C. 1131–1136) for temporary structures and commercial services and for access to valid mining claims or other valid occupancies and to surrounded State or private land within designated wilderness (see part 293 of this chapter);

(j) Temporary or permanent easements under the Act of October 13, 1964, 78 Stat. 1089 (16 U.S.C. 532–538) for road rights-of-way over lands and interests in land administered by the Forest Service (see §212.10 of this chapter);

(1) Reservoirs, canals, ditches, flumes, laterals, pipes, pipelines, tunnels, and other facilities and systems for the impoundment, storage, transportation, or distribution of water;

(2) Pipelines and other systems for the transportation or distribution of liquids and gases, other than water and other than oil, natural gas, synthetic liquid or gaseous fuels, or any refined product produced therefrom, and for storage and terminal facilities in connection therewith;

(3) Pipelines, slurry and emulsion systems, and conveyor belts for transportation and distribution of solid materials, and facilities for the storage of such materials in connection therewith;

(4) Systems and related facilities for generation, transmission, and distribution of electric energy, except that the applicant, in addition to obtaining a Forest Service special use authorization, shall also comply with all applicable requirements of the Federal Energy Regulatory Commission under the Federal Power Act of 1935, as amended, 49 Stat. 838 (16 U.S.C. 791a, et seq.);

(5) Systems for transmission or reception of radio, television, telephone, telegraph, and other electronic signals and other means of communication;

(6) Roads, trails, highways, railroads, canals, tunnels, tramways, airways, livestock driveways, or other means of transportation except where such facilities are constructed and maintained in connection with commercial recreation facilities;

(7) Such other necessary transportation or other systems or facilities which are in the public interest and which require rights-of-way over, upon, under, or through National Forest System lands; and

(8) Any Federal department or agency for pipeline purposes for the transportation of oil, natural gas, synthetic liquid or gaseous fuels, or any product produced therefrom;

(n) Operation of nordic and alpine ski areas and facilities for up to 40 years and encompassing such acreage as the Forest Officer determines sufficient and appropriate as authorized by the National Forest Ski Area Permit Act of 1986 (16 U.S.C. 497b).

§251.54 Proposal and application requirements and procedures.

(a) Early notice. When an individual or entity proposes to occupy and use National Forest System lands, the proposer is required to contact the Forest Service office(s) responsible for the management of the affected land as early as possible in advance of the proposed use.

(b) Filing proposals. Proposals for special uses must be filed in writing with or presented orally to the District Ranger or Forest Supervisor having jurisdiction over the affected land (§200.2 of this chapter), except as follows:

(1) Proposals for projects on lands under the jurisdiction of two or more administrative units of the Forest
Service may be filed at the most convenient Forest Service office having jurisdiction over part of the project, and the proponent will be notified where to direct subsequent communications;

(2) Proposals for cost-share and other road easements to be issued under §251.53(1) must be filed in accordance with regulations in §212.10(c) and (d) of this chapter; and

(3) Proposals for oil and gas pipeline rights-of-way crossing Federal lands under the jurisdiction of two or more Federal agencies must be filed with the State Office, Bureau of Land Management, pursuant to regulations at 43 CFR part 2882.

(c) Rights of proponents. A proposal to obtain a special use authorization does not grant any right or privilege to use National Forest System lands. Rights or privileges to occupy and use National Forest System lands under this subpart are conveyed only through issuance of a special use authorization.

(d) Proposal content—(1) Proponent identification. Any proponent for a special use authorization must provide the proponent’s name and mailing address, and, if the proponent is not an individual, the name and address of the proponent’s agent who is authorized to receive notice of actions pertaining to the proposal.

(2) Required information—(i) Non-commercial group uses. Paragraphs (d)(3) through (d)(5) of this section do not apply to proposals for noncommercial group uses. A proponent for non-commercial group uses shall provide the following:

(A) A description of the proposed activity;

(B) The location and a description of the National Forest System lands and facilities the proponent would like to use;

(C) The estimated number of participants and spectators;

(D) The starting and ending time and date of the proposed activity; and

(E) The name of the person or persons 21 years of age or older who will sign a special use authorization on behalf of the proponent.

(ii) All other special uses. At a minimum, proposals for special uses other than noncommercial group uses must include the information contained in paragraphs (d)(3) through (d)(5) of this section. In addition, if requested by an authorized officer, a proponent in one of the following categories must furnish the information specified for that category:

(A) If the proponent is a State or local government agency: a copy of the authorization under which the proposal is made;

(B) If the proponent is a public corporation: the statute or other authority under which it was organized;

(C) If the proponent is a Federal Government agency: the title of the agency official delegated the authority to file the proposal;

(D) If the proponent is a private corporation:

(1) Evidence of incorporation and its current good standing;

(2) If reasonably obtainable by the proponent, the name and address of each shareholder owning three percent or more of the shares, together with the number and percentage of any class of voting shares of the entity which such shareholder is authorized to vote;

(3) The name and address of each affiliate of the entity;

(4) In the case of an affiliate which is controlled by the entity, the number of shares and the percentage of any class of voting stock of the affiliate that the entity owns either directly or indirectly; or

(5) In the case of an affiliate which controls that entity, the number of shares and the percentage of any class of voting stock of that entity owned, either directly or indirectly by the affiliate; or

(E) If the proponent is a partnership, association, or other unincorporated entity: a certified copy of the partnership agreement or other similar document, if any, creating the entity, or a certificate of good standing under the laws of the State.

(3) Technical and financial capability. The proponent is required to provide sufficient evidence to satisfy the authorized officer that the proponent has, or prior to commencement of construction will have, the technical and financial capability to construct, operate, maintain, and terminate the project.
for which an authorization is requested, and the proponent is otherwise acceptable.

(4) **Project description.** Except for requests for planning permits for a major development, a proponent must provide a project description, including maps and appropriate resource information, in sufficient detail to enable the authorized officer to determine the feasibility of a proposed project or activity, any benefits to be provided to the public, the safety of the proposal, the lands to be occupied or used, the terms and conditions to be included, and the proposal’s compliance with applicable laws, regulations, and orders.

(5) **Additional information.** The authorized officer may require any other information and data necessary to determine feasibility of a project or activity proposed; compliance with applicable laws, regulations, and orders; compliance with requirements for associated clearances, certificates, permits, or licenses; and suitable terms and conditions to be included in the authorization. The authorized officer shall make requests for any additional information in writing.

(e) **Pre-application actions.** (1) **Initial screening.** Upon receipt of a request for any proposed use other than for noncommercial group use, the authorized officer shall screen the proposal to ensure that the use meets the following minimum requirements applicable to all special uses:

(i) The proposed use is consistent with the laws, regulations, orders, and policies establishing or governing National Forest System lands, with other applicable Federal law, and with applicable State and local health and sanitation laws.

(ii) The proposed use is consistent or can be made consistent with standards and guidelines in the applicable forest land and resource management plan prepared under the National Forest Management Act and 36 CFR part 219.

(iii) The proposed use will not pose a serious or substantial risk to public health or safety.

(iv) The proposed use will not create an exclusive or perpetual right of use or occupancy.

(v) The proposed use will not unreasonably conflict or interfere with administrative use by the Forest Service, other scheduled or authorized existing uses of the National Forest System, or use of adjacent non-National Forest System lands.

(vi) The proponent does not have any delinquent debt owed to the Forest Service under terms and conditions of a prior or existing authorization, unless such debt results from a decision on an administrative appeal or from a fee review and the proponent is current with the payment schedule.

(vii) The proposed use does not involve gambling or providing of sexually oriented commercial services, even if permitted under State law.

(viii) The proposed use does not involve military or paramilitary training or exercises by private organizations or individuals, unless such training or exercises are federally funded.

(ix) The proposed use does not involve disposal of solid waste or disposal of radioactive or other hazardous substances.

(2) **Results of initial screening.** Any proposed use other than a noncommercial group use that does not meet all of the minimum requirements of paragraphs (e)(1)(i)-(ix) of this section shall not receive further evaluation and processing. In such event, the authorized officer shall advise the proponent that the use does not meet the minimum requirements. If the proposal was submitted orally, the authorized officer may respond orally. If the proposal was made in writing, the authorized officer shall notify the proponent in writing that the proposed use does not meet the minimum requirements and shall simultaneously return the request.

(3) **Guidance and information to proponents.** For proposals for noncommercial group use as well as for those proposals that meet the minimum requirements of paragraphs (e)(1)(i)-(ix), the authorized officer, to the extent practicable, shall provide the proponent guidance and information on the following:

(i) Possible land use conflicts as identified by review of forest land and resource management plans, landowner-ship records, and other readily available sources;
§ 251.54  

(ii) Proposal and application procedures and probable time requirements;  
(iii) Proponent qualifications;  
(iv) Applicable fees, charges, bonding, and/or security requirements;  
(v) Necessary associated clearances, permits, and licenses;  
(vi) Environmental and management considerations;  
(vii) Special conditions; and  
(viii) Identification of on-the-ground investigations which will require temporary use permits.  

(4) Confidentiality. If requested by the proponent, the authorized officer, or other Forest Service official, to the extent reasonable and authorized by law, shall hold confidential any project and program information revealed during pre-application contacts.  

(5) Second-level screening of proposed uses. A proposal which passes the initial screening set forth in paragraph (e)(1) and for which the proponent has submitted information as required in paragraph (d)(2)(ii) of this section, proceeds to second-level screening and consideration. In order to complete this screening and consideration, the authorized officer may request such additional information as necessary to obtain a full description of the proposed use and its effects. An authorized officer shall reject any proposal, including a proposal for commercial group uses, if, upon further consideration, the officer determines that:  
(i) The proposed use would be inconsistent or incompatible with the purposes for which the lands are managed, or with other uses; or  
(ii) The proposed use would not be in the public interest; or  
(iii) The proponent is not qualified; or  
(iv) The proponent does not or cannot demonstrate technical or economic feasibility of the proposed use or the financial or technical capability to undertake the use and to fully comply with the terms and conditions of the authorization; or  
(v) There is no person or entity authorized to sign a special use authorization and/or there is no person or entity willing to accept responsibility for adherence to the terms and conditions of the authorization.  

(6) NEPA compliance for second-level screening process. A request for a special use authorization that does not meet the criteria established in paragraphs (e)(5)(i) through (e)(5)(v) of this section does not constitute an agency proposal as defined in 40 CFR 1508.23 and, therefore, does not require environmental analysis and documentation.  

(f) Special requirements for certain proposals.  

(1) Electric power transmission lines 66 KV or over. Any proposal for authority to construct and maintain a facility for the generation of electric power and energy or for the transmission or distribution of electric power and energy of 66 kilovolts or higher under this section must be referred to the Secretary of Energy for consultation.  

(3) Major development. Proponents of a major development may submit a request for a planning permit of up to 10 years in duration. Requests for a planning permit must include the information contained in paragraphs (d)(1) through (d)(3) of this section. Upon completion of a master development
plan developed under a planning permit, proponents may then submit a request for a long-term authorization to construct and operate the development. At a minimum, a request for a long-term permit for a major development must include the information contained in paragraphs (d)(1) and (d)(2)(ii) through (d)(5) of this section. Issuance of a planning permit does not prejudice approval or denial of a subsequent request for a special use permit for the development.

(g) Application processing and response.

(1) Acceptance of applications. Except for proposals for noncommercial group uses, if a request does not meet the criteria of both screening processes or is subsequently denied, the proponent must be notified with a written explanation of the rejection or denial and any written proposal returned to the proponent. If a request for a proposed use meets the criteria of both the initial and second-level screening processes as described in paragraph (e) of this section, the authorized officer shall notify the proponent that the agency is prepared to accept a written formal application for a special use authorization and shall, as appropriate or necessary, provide the proponent guidance and information of the type described in paragraphs (e)(3)(i) through (e)(3)(viii) of this section.

(ii) Federal, State, and local government agencies and the public shall receive adequate notice and an opportunity to comment upon a special use proposal accepted as a formal application in accordance with Forest Service NEPA procedures.

(iii) The authorized officer shall give due deference to the findings of another agency such as a Public Utility Commission, the Federal Regulatory Energy Commission, or the Interstate Commerce Commission in lieu of another detailed finding. If this information is already on file with the Forest Service, it need not be refiled, if reference is made to the previous filing date, place, and case number.

(iv) Applications for noncommercial group uses must be received at least 72 hours in advance of the proposed activity. Applications for noncommercial group uses shall be processed in order of receipt, and the use of a particular area shall be allocated in order of receipt of fully executed applications, subject to any relevant limitations set forth in this section.

(v) For applications for planning permits, including those issued for a major development as described in paragraph (f)(3) of this section, the authorized officer shall assess only the applicant’s financial and technical qualifications and determine compliance with other applicable laws, regulations, and orders. Planning permits may be categorically excluded from documentation in an environmental assessment or environmental impact statement pursuant to Forest Service Handbook 1909.15 (36 CFR 200.4).

(3) Response to applications for non-commercial group uses. (i) All applications for noncommercial group uses shall be deemed granted and an authorization shall be issued for those uses pursuant to the determination as set forth below, unless applications are denied within 48 hours of receipt. Where an application for a noncommercial group use has been granted or is deemed to have been granted and an authorization has been issued under this paragraph, an authorized officer may revoke that authorization only as provided under §251.60(a)(1)(i).

(ii) An authorized officer shall grant an application for a special use authorization for a noncommercial group use upon a determination that:

(A) Authorization of the proposed activity is not prohibited by the rules at 36 CFR part 261, subpart B, or by Federal, State, or local law unrelated to the content of expressive activity;

(B) Authorization of the proposed activity is consistent or can be made consistent with the standards and guidelines in the applicable forest land and resource management plan required
§ 251.54 under the National Forest Management Act and 36 CFR part 219:

(C) The proposed activity does not materially impact the characteristics or functions of the environmentally sensitive resources or lands identified in Forest Service Handbook 1909.15, chapter 30;

(D) The proposed activity will not delay, halt, or prevent administrative use of an area by the Forest Service or other scheduled or existing uses or activities on National Forest System lands, including but not limited to uses and activities authorized under parts 222, 223, 228, and 251 of this chapter;

(E) The proposed activity does not violate State and local public health laws and regulations as applied to the proposed site. Issues addressed by State and local public health laws and regulations as applied to the proposed site include but are not limited to:

(1) The sufficiency of sanitation facilities;

(2) The sufficiency of waste-disposal facilities;

(3) The availability of sufficient potable drinking water;

(4) The risk of disease from the physical characteristics of the proposed site or natural conditions associated with the proposed site; and

(5) The risk of contamination of the water supply;

(F) The proposed activity will not pose a substantial danger to public safety. Considerations of public safety must not include concerns about possible reaction to the users’ identity or beliefs from non-members of the group that is seeking an authorization and shall be limited to the following:

(1) The potential for physical injury to other forest users from the proposed activity;

(2) The potential for physical injury to users from the physical characteristics of the proposed site or natural conditions associated with the proposed site;

(3) The potential for physical injury to users from scheduled or existing uses or activities on National Forest System lands; and

(4) The adequacy of ingress and egress in case of an emergency;

(G) The proposed activity does not involve military or paramilitary training or exercises by private organizations or individuals, unless such training or exercises are federally funded; and

(H) A person or persons 21 years of age or older have been designated to sign and do sign a special use authorization on behalf of the applicant.

(iii) If an authorized officer denies an application because it does not meet the criteria in paragraphs (g)(3)(i)(A) through (g)(3)(i)(H) of this section, the authorized officer shall notify the applicant in writing of the reasons for the denial. If an alternative time, place, or manner will allow the applicant to meet the eight evaluation criteria, an authorized officer shall offer that alternative. If an application is denied solely under paragraph (g)(3)(i)(C) of this section and all alternatives suggested are unacceptable to the applicant, the authorized officer shall offer to have completed the requisite environmental and other analyses for the requested site. A decision to grant or deny the application for which an environmental assessment or an environmental impact statement is prepared is subject to the notice and appeal procedures at 36 CFR part 215 and shall be made within 48 hours after the decision becomes final under that appeal process. A denial of an application under paragraphs (g)(3)(i)(A) through (g)(3)(i)(H) of this section constitutes final agency action and is immediately subject to judicial review.

(4) Response to all other applications. Based on evaluation of the information provided by the applicant and other relevant information such as environmental findings, the authorized officer shall decide whether to approve the proposed use, approve the proposed use with modifications, or deny the proposed use. A group of applications for similar uses having minor environmental impacts may be evaluated with one analysis and approved in one decision.

(5) Authorization of a special use. Upon a decision to approve a special use or a group of similar special uses, the authorized officer may issue one or more special use authorizations as defined in §251.51 of this subpart.

[63 FR 65964, Nov. 30, 1998]
§ 251.55 Nature of interest.

(a) A holder is authorized only to occupy such land and structures and conduct such activities as is specified in the special use authorization. The holder may sublet the use and occupancy of the premises and improvements authorized only with the prior written approval of the authorized officer, but the holder shall continue to be responsible for compliance with all conditions of the special use authorization.

(b) All rights not expressly granted are retained by the United States, including but not limited to (1) continuing rights of access to all National Forest System land (including the subsurface and air space); (2) a continuing right of physical entry to any part of the authorized facilities for inspection, monitoring, or for any other purposes or reason consistent with any right or obligation of the United States under any law or regulation; and (3) the right to require common use of the land or to authorize the use by others in any way not inconsistent with a holder’s existing rights and privileges after consultation with all parties and agencies involved. When costs can be feasibly allocated and have not been amortized, a new holder may be required to compensate existing holders for an equitable proportion of the original costs or other expense associated with the common use.

(c) Special use authorizations are subject to all outstanding valid rights.

(d) Each special use authorization will specify the lands to be used or occupied which shall be limited to that which the authorized officer determines: (1) Will be occupied by the facilities authorized; (2) to be necessary for the construction, operation, maintenance, and full utilization of the authorized facilities or the conduct of authorized activities; and, (3) to be necessary to protect the public health and safety and the environment.

(e) The holder will secure permission under applicable law, and pay in advance, the value as determined by the authorized officer for any mineral and vegetative materials (including timber) to be cut, removed, used, or destroyed by the holder from the authorized use area or other National Forest System land. The authorized officer may, in lieu of requiring an advance payment, require the holder to stockpile or stack the material at designated locations for later disposal by the United States.

§ 251.56 Terms and conditions.

(a) General. (1) Each special use authorization must contain:

(i) Terms and conditions which will:

(A) Carry out the purposes of applicable statutes and rules and regulations issued thereunder;

(B) Minimize damage to scenic and esthetic values and fish and wildlife habitat and otherwise protect the environment;

(C) Require compliance with applicable Federal or State law; and

(D) Require compliance with applicable Federal or State standards for public health and safety, environmental protection, and siting, construction, operation, and maintenance if those standards are more stringent than applicable Federal standards.

(ii) Such terms and conditions as the authorized officer deems necessary to:

(A) Protect Federal property and economic interests;

(B) Manage efficiently the lands subject to the use and adjacent thereto;

(C) Protect other lawful users of the lands adjacent to or occupied by such use;

(D) Protect lives and property;

(E) Protect the interests of individuals living in the general area of the use who rely on the fish, wildlife, and other biotic resources of the area for subsistence purposes;

(F) Require siting to cause the least damage to the environment, taking into consideration feasibility and other relevant factors; and

(G) Otherwise protect the public interest.

NOTE TO PARAGRAPH (A)(1)(II)(G): The Department is making explicit its preexisting understanding of §251.56(a)(1)(ii)(G) of this subpart in the context of authorizing non-commercial group uses of National Forest System lands. Section 251.56(a)(1)(ii)(G) provides that each special use authorization shall contain such terms and conditions as the authorized officer deems necessary to otherwise protect the public interest. In the context of non-commercial group uses, the
§ 251.56 Forest Service interprets the term “public interest” found in § 251.56(a)(1)(ii)(G) to refer to the three public interests identified by the Forest Service on August 30, 1995. These public interests include the protection of resources and improvements on National Forest System lands, the allocation of space among potential or existing uses and activities, and public health and safety concerns. Under this construction, § 251.56(a)(1)(ii)(G) allows the Forest Service to impose terms and conditions that are not specifically addressed in § 251.56(a)(1)(ii)(A)–(F) but only those that further these public interests. The Forest Service shall implement and enforce § 251.56(a)(1)(ii)(G) in accordance with this interpretation.

(2) Authorizations for use of National Forest System lands may be conditioned to require State, county, or other Federal agency licenses, permits, certificates, or other approval documents, such as a Federal Communication Commission license, a Federal Energy Regulatory Commission license, a State water right, or a county building permit.

(b) Duration and renewability—(1) Requirements. If appropriate, each special use authorization will specify its duration and renewability. The duration shall be no longer than the authorized officer determines to be necessary to accomplish the purpose of the authorization and to be reasonable in light of all circumstances concerning the use, including

(i) Resource management direction contained in land management and other plans;

(ii) Public benefits provided;

(iii) Cost and life expectancy of the authorized facilities;

(iv) Financial arrangements for the project; and

(v) The life expectancy of associated facilities, licenses, etc. Except for special use authorizations issued under the National Forest Ski Area Permit Act of 1986, authorizations exceeding 30 years shall provide for revision of terms and conditions at specified intervals to reflect changing times and conditions.

(2) Ski area permits. (i) For authorizations issued under the National Forest Ski Area Permit Act of 1986, the authorized officer normally shall issue a ski area authorization for 40 years, if, upon consideration of information submitted by the applicant, the authorized officer finds that the ski area development meets the following standards:

(A) In the case of an existing permit holder, existing on-site investment is of sufficient magnitude to justify authorization for 40 years;

(B) In the case of an existing permit holder, existing investment of capital is in ski-related facilities;

(C) Planned investment capital is directly related to development of ski area facilities and is not for financing regular, ongoing operation and maintenance costs;

(D) Ski facilities requiring long-term investment are, or will be, located predominately on land authorized under a permit;

(E) The number and magnitude of planned facilities, as detailed in a Master Development Plan, clearly require long-term financing and operation;

(F) The United States is not the owner of the principal facilities within the authorized ski area.

(ii) A term of less than 40 years shall be authorized for a ski area when the applicant requests a shorter term or when, in the authorized officer’s discretion:

(A) Analysis of the information submitted by the applicant indicates that a shorter term is sufficient for financing of the ski area;

(B) The ski area development, whether existing or proposed, does not meet the standards of paragraph (2)(i)(A) through (F) of this section; or

(C) A 40-year authorization would be inconsistent with the approved forest land and resource management plan governing the area (36 CFR part 219).

(c) Preconstruction approval. Forest Service approval of location, design and plans (or standards, if appropriate) of all developments within the authorized area will be required prior to construction.

(d) Liability. Holders shall pay the United States for all injury, loss, or damage, including fire suppression costs, in accordance with existing Federal and State laws.

(1) Holders shall also indemnify the United States for any and all injury, loss, or damage, including fire suppression costs, the United States may suffer as a result of claims, demands,
§ 251.56

losses, or judgments caused by the holder’s use or occupancy.

(2) Holders of special use authorizations for high risk use and occupancy, such as, but not limited to, powerlines and oil and gas pipelines, shall be held liable for all injury, loss, or damage, including fire suppression costs, caused by the holder’s use or occupancy, without regard to the holder’s negligence, provided that maximum liability shall be specified in the special use authorization as determined by a risk assessment, prepared in accordance with established agency procedures, but shall not exceed $1,000,000 for any one occurrence. Liability for injury, loss, or damage, including fire suppression costs, in excess of the specified maximum shall be determined by the laws governing ordinary negligence of the jurisdiction in which the damage or injury occurred.

(e) Bonding. An authorized officer may require the holder of a special use authorization for other than a non-commercial group use to furnish a bond or other security to secure all or any of the obligations imposed by the terms of the authorization or by any applicable law, regulation or order.

(1) Special terms and conditions—

(1) Public service enterprises. Special use permits authorizing the operation of public service enterprises shall require that the permittee charge reasonable rates and furnish such services as may be necessary in the public interest, except where such rates and services are regulated by Federal, State or municipal agencies having jurisdiction.

(2) Common carriers. Oil and gas pipelines and related facilities authorized under section 28 of the Mineral Leasing Act of 1920, 41 Stat. 449, as amended (30 U.S.C. 185), shall be constructed, operated and maintained as common carriers. The owners or operators of pipelines shall accept, convey, transport, or purchase without discrimination all oil or gas delivered to the pipeline without regard to whether such oil or gas was produced on Federal or nonfederal lands. In the case of oil or gas produced from Federal lands or from the resources on the Federal lands in the vicinity of the pipeline, the Secretary may, after a full hearing with due notice thereof to interested parties and a proper finding of facts, determine the proportionate amounts to be accepted, conveyed, transported, or purchased. The common carrier provisions of this section shall not apply to any natural gas pipeline operated (i) by any person subject to regulation under the Natural Gas Act, 52 Stat. 821, as amended, (15 U.S.C. 717) or (ii) by any public utility subject to regulation by a State or municipal regulatory agency having jurisdiction to regulate the rates and charges for the sale of natural gas to consumers within the State or municipality. Where natural gas not subject to State regulatory or conservation laws governing its purchase by pipeline companies is offered for sale, each pipeline company shall purchase, without discrimination, any such natural gas produced in the vicinity of the pipeline.

(g) Conversion of Ski Area Authorizations. (1) The Forest Service shall request that all existing permit holders convert existing authorizations for ski areas to a new authorization issued pursuant to the National Forest Ski Area Permit Act.

(2) Any current holder of a ski area permit who wishes to convert an existing permit to one issued pursuant to the National Forest Ski Area Permit Act must submit a written request for the new authorization to the authorized officer.

(3) With the consent of the holder, the authorized officer shall convert the authorization if:

(i) The holder is in compliance with the existing authorization;

(ii) All fees currently due under the existing authorization are paid in full; and

(iii) Any proposed modifications of terms and conditions of the existing authorization included in a request for conversion meet the standards of paragraphs (2)(1) (A) through (F) of this section and the relevant requirements of this subpart.

(4) A holder retains the right to decline a new authorization offered pursuant to this paragraph and to continue to operate under the terms of the existing permit. However, pursuant to the rules at §251.61 of this subpart,
§ 251.57 Rental fees.

(a) Except as otherwise provided in this part or when specifically authorized by the Secretary of Agriculture, special use authorizations shall require the payment in advance of an annual rental fee as determined by the authorized officer.

(1) The fee shall be based on the fair market value of the rights and privileges authorized, as determined by appraisal or other sound business management principles.

(2) Where annual fees of one hundred dollars ($100) or less are assessed, the authorized officer may require either annual payment or a payment covering more than one year at a time. If the annual fee is greater than one hundred dollars ($100), holders who are private individuals (that is, acting in an individual capacity), as opposed to those who are commercial, other corporate, or business or government entities, may, at their option, elect to make either annual payments or payments covering more than one year.

(b) All or part of the fee may be waived by the authorized officer, when equitable and in the public interest, for the use and occupancy of National Forest System land in the following circumstances:

(1) The holder is a State or local government or any agency or instrumentality thereof, excluding municipal utilities and cooperatives whose principal source of revenue from the authorized use is customer charges; or

(2) The holder is a nonprofit association or nonprofit corporation, which is not controlled or owned by profit-making corporations or business enterprises, and which is engaged in public or semi-public activity to further public health, safety, or welfare, except that free use will not be authorized when funds derived by the holder through the authorization are used to increase the value of the authorized improvements owned by the holder, or are used to support other activities of the holder; or

(3) The holder provides without charge, or at reduced charge, a valuable benefit to the public or to the programs of the Secretary; or

(4) When the rental fee is included in the fees for an authorized use or occupancy for which the United States is already receiving compensation; or

(5) When a right-of-way is authorized in reciprocation for a right-of-way conveyed to the United States; or

(6) For rights-of-way involving cost-share roads or reciprocal right-of-way agreements.

(c) No rental fee will be charged when the holder is the Federal government.

(d) No fee shall be charged when the authorization is for a noncommercial group use as defined in § 251.51 of this subpart.

(e) Special use authorizations issued under § 251.53(g) of this part may require as all or a part of the consideration the reconditioning and maintenance of the government-owned or controlled structures, improvements, and land to a satisfactory standard. The total consideration will be based upon the fair market value of the rights and privileges authorized.

(f) Special use authorizations involving government-owned or controlled buildings, structures, or other improvements which require caretakers’ services, or the furnishing of special services such as water, electric lights, and clean-up, may require the payment of an additional fee or charge to cover the cost of such services.

(g) Except where specified otherwise by terms of a special use authorization, rental fees may be initiated or adjusted whenever necessary: (1) As a result of fee review, reappraisal; or (2) upon a change in the holder’s qualifications under paragraph (b) of this section; and (3) notice is given prior to initiating or adjusting rental fees.

(h) Each ski area authorization issued under the authority of the National Forest Ski Area Permit Act shall include a clause that provides that the Forest Service may adjust and
calculate future rental fees to reflect Agency revisions to the existing system for determining fees based on fair market value or to comply with any new fee system for determining fees based on fair market value that may be adopted after issuance of the authorization.

§ 251.58 Cost reimbursement. [Reserved]

§ 251.59 Transfer of authorized improvements.

If the holder, through death, voluntary sale, transfer, or through enforcement of a valid legal proceeding or operation of law, ceases to be the owner of the authorized improvements, the authorization terminates upon change of ownership. Except for easements issued under authorities other than §251.53(e) and leases and easements under §251.53(l) of this subpart, the new owner of the authorized improvements must apply for and receive a new special use authorization. The new owner must meet requirements under applicable regulations of this subpart and agree to comply with the terms and conditions of the authorization and any new terms and conditions warranted by existing or prospective circumstances.

[63 FR 65967, Nov. 30, 1998]

§ 251.60 Termination, revocation, and suspension.

(a) Grounds for termination, revocation, and suspension. (1) Noncommercial group uses. (i) Revocation or suspension. An authorized officer may revoke or suspend a special use authorization for a noncommercial group use only under one of the following circumstances:

(A) Under the criteria for which an application for a special use authorization may be denied under §251.54(h)(1);

(B) For noncompliance with applicable statutes or regulations or the terms and conditions of the authorization;

(C) For failure of the holder to exercise the rights or privileges granted; or

(D) With the consent of the holder.

(ii) Administrative or judicial review. Revocation or suspension of a special use authorization under this paragraph constitutes final agency action and is immediately subject to judicial review.

(iii) Termination. A special use authorization for a noncommercial group use terminates when it expires by its own terms. Termination of a special use authorization under this paragraph does not involve agency action and is not subject to administrative or judicial review.

(2) All other special uses. (i) Revocation or suspension. An authorized officer may revoke or suspend a special use authorization for all other special uses, except an easement issued pursuant to §251.53 (e) and (l):

(A) For noncompliance with applicable statutes, regulations, or the terms and conditions of the authorization;

(B) For failure of the holder to exercise the rights or privileges granted;

(C) With the consent of the holder; or

(D) At the discretion of the authorized officer for specific and compelling reasons in the public interest.

(ii) Administrative review. Except for revocation or suspension of an easement issued pursuant to §251.53 (e) and (l) of this subpart, a suspension or revocation of a special use authorization under this paragraph is subject to administrative appeal and review in accordance with 36 CFR part 251, subpart C, of this chapter.

(iii) Termination. For all special uses except noncommercial group uses, a special use authorization terminates when, by its terms, a fixed or agreed-upon condition, event, or time occurs. Termination of a special use authorization under this paragraph does not involve agency action and is not subject to administrative or judicial review.

(b) For purposes of this section, the authorized officer is that person who issues the authorization or that officer’s successor.

(c) A right-of-way authorization granted to another Federal agency will be limited, suspended, revoked, or terminated only with that agency’s concurrence.

(d) A right-of-way authorization serving another Federal agency will be limited, suspended, revoked, or terminated...
§ 251.61 Modifications.

(a) A holder shall file a new or amended application for a special use authorization to cover new, changed, or additional use(s) or area.

(1) In approving or denying changes or modifications, the authorized officer shall consider among other things, the findings or recommendations of other involved agencies and whether the terms and conditions of the existing authorization may be continued or revised, or a new authorization issued.

(b) A holder may be required to furnish as-built plans, map(s), or survey(s) upon completion of construction.

(c) A holder shall obtain prior approval from the authorized officer for modifications to approved uses that involve any activity impacting the environment, other users, or the public.

[45 FR 38327, June 6, 1980, as amended at 63 FR 65968, Nov. 30, 1998]

§ 251.62 Acceptance.

Except for an easement, a special use authorization shall become effective when signed by both the applicant and the authorized officer. The authorization must be signed by the applicant and returned to the authorized officer within 60 days of its receipt by the applicant, unless extended by the authorized officer. Refusal of an applicant to

[45 FR 38327, June 6, 1980, as amended at 63 FR 65968, Nov. 30, 1998]
§ 251.60 Purpose and scope.

(a) This subpart provides a process by which those who hold or, in certain instances, those who apply for written authorizations to occupy and use National Forest System lands, may appeal a written decision by an authorized Forest Service line officer with regard to issuance, approval, or administration of the written instrument. The rules in the subpart establish who may appeal under these rules, the kinds of decisions that can and cannot be appealed, the responsibilities of parties to the appeal, and the various procedures and timeframes that will govern the conduct of appeals under this subpart.

(b) The rules in this subpart seek to offer appellants a fair and deliberate process for appealing and obtaining administrative review of decisions regarding written instruments that authorize the occupancy and use of National Forest System lands.
§ 251.81 Definitions and terminology.

For the purposes of this subpart, the following terms are defined:

Appeal. A request to a higher ranking officer for relief from a written decision filed under this subpart by an applicant for or a holder of a written instrument issued or approved by a Forest Service line officer.

Appeal decision. The written decision rendered by the Reviewing Officer on an appeal for relief under this subpart. The use of this term is limited to the final decision of a Reviewing Officer and does not refer to a stay decision or to any other determinations or procedural orders made on the conduct of an appeal (§ 251.99).

Appeal record. The documents submitted to the Reviewing Officer by an appellant, intervenor, or Deciding Officer (§251.98).

Appellant. An eligible applicant for or holder of a written instrument issued for the occupancy and use of National Forest System land (or their authorized agent or representative) who files an appeal pursuant to the provisions of this subpart (§251.86).

Deciding officer. The Forest Service line officer who makes a decision related to issuance, approval, or administration of an authorization to occupancy and use National Forest System lands that is appealed under this subpart.

Decisions regarding a written instrument or authorization. Applies both to decisions to grant and to deny a written instrument or authorization.

Responsive statement. A written document prepared by a Deciding Officer that responds to the notice of appeal record by an appellant (§251.94).

Reviewing Officer. The officer at the next administrative level above that of the Deciding Officer who conducts appeal proceedings, makes all necessary rulings regarding conduct of an appeal, and issues the appeal decision.

Forest Service line officer. The Chief of the Forest Service or a Forest Service official who serves in a direct line of command from the Chief and who has the delegated authority to make and execute decisions under this subpart.

Issuance of a written instrument or authorization. Applies both to decisions to grant or deny a written instrument or authorization.

Intervenor. An individual or organization that, as an applicant for or holder of the written instrument, or a similar instrument, issued by the Forest Service that is the subject of an appeal, and who has an interest that could be affected by an appeal, and who has made a timely request to intervene in that appeal, and who has been granted intervenor status by the Reviewing Officer (§251.96).

Notice of appeal. The document prepared and filed by an appellant to dispute a decision subject to review under this subpart (§251.90).

Oral presentation. An informal meeting (in person or by telephone) at which an appellant, intervenor, and/or Deciding Officer may present information related to an appeal to the Reviewing Officer (§251.97).

Parties to an appeal. The appellant(s), intervenor(s), and the Deciding Officer.

Written instrument or authorization. Any of those kinds of documents listed in §251.82 of this subpart issued or approved by the Forest Service authorizing an individual, organization or other entity to occupy and use National Forest System lands and resources.

§ 251.82 Appealable decisions.

(a) The rules of this subpart govern appeal of written decisions of Forest Service line officers related to issuance, denial, or administration of the following written instruments to
Forest Service, USDA

§ 251.83

occupy and use National Forest System lands, including but not limited to:

(1) Permits for ingress and egress to intermingled and adjacent private lands across National Forest System lands, 36 CFR 212.8 and 212.10.

(2) Permits and occupancy agreements on National Grasslands and other lands administered under the provisions of title III of Bankhead-Jones Farm Tenant Act issued under 36 CFR 213.3.

(3) Grazing and livestock use permits issued under 36 CFR part 222, subpart A.

(4) Mining plans of operation under 36 CFR part 228, subpart A.

(5) Mining operating plans for the Sawtooth National Recreation Area issued under 36 CFR 292.17 and 292.18.

(6) Permits and agreements regarding mineral materials (petrified wood and common varieties of sand, gravel, stone, pumice, pumicite, cinder, clay and other similar materials) under 36 CFR 228, subpart C.

(7) Permits authorizing exercise of mineral rights reserved in conveyance to the United States issued under 36 CFR part 251, subpart A.

(8) Special use authorizations issued under 36 CFR part 251, subpart B, except, as provided in §251.60(g), for suspension or termination of easements issued pursuant to 36 CFR 251.53(e) and (e)(1).

(9) Permits for uses in Wilderness Areas issued under 36 CFR 293.3.

(10) Permits to excavate and/or remove archaeological resources issued under the Archaeological Resources Protection Act 1979 and 36 CFR part 296.

(11) Approval/non-approval of Surface Use Plans of Operations related to the authorized use and occupancy of a particular site or area.

(12) Decisions related to the standards for the use, subdivision, and development of privately owned property within the boundaries of the Sawtooth National Recreation Area pursuant to 36 CFR part 292, subpart C.

(b) Written decisions on any of the matters of the type listed in paragraph (a) of this section issued by a Forest Service staff officer with delegated authority to act for a Forest Service line officer are considered to be decisions of the line officer.

§ 251.83 Decisions not appealable.

The following decisions are not appealable under this subpart:

(a) Decisions appealable to the Agriculture Board of Contract Appeals, USDA, under 7 CFR part 24.

(b) Decisions involving Freedom of Information Act denials under 7 CFR part 1 or Privacy Act determinations under 7 CFR 1.118.

(c) Decisions for which the jurisdiction of another Government agency, the Comptroller General, or a court to hear and settle disputes supersedes that of the Department of Agriculture.

(d) Recommendations of Forest Service line officers to higher ranking Forest Service line officers or to other entities having final authority to implement the recommendation in question.

(e) Decisions appealable under separate administrative proceedings, including, but not limited to, those under 36 CFR 223.117 (Administration of Cooperative for Federal Sustained Yield Units); 7 CFR 21.104 (Eligibility for Recreation Payment of Amount); and 4 CFR part 21 (Bid Protest);

(g) Decisions concerning contracts under the Federal Property and Administrative Services Act of 1949, as amended.

(h) Decisions covered by the Contract Disputes Act.

(i) Decisions involving Agency personnel matters.

(j) Decisions where relief sought is reformation of a contract or award of monetary damages.

(k) Decisions made during the preliminary planning process pursuant to 36 CFR part 219 and 40 CFR parts 1500–1508 that precede decisions to implement the proposed action.

(l) Decisions related to National Forest land and resource management plans and projects only reviewable under 36 CFR part 217.

(m) Decisions related to rehabilitation of National Forest System lands.
§ 251.84 Obtaining notice.

(a) A Deciding Officer shall promptly give written notice of decisions subject to appeal under this subpart to applicants and holders defined in §251.86 of this subpart and to any holder of like instruments who has made a written request to be notified of a specific decision. The notice shall include a statement of the Deciding Officer’s willingness to meet with applicants or holders to hear and discuss any concerns or issues related to the decision (§251.93). The notice shall also specify the name of the officer to whom an appeal of the decision may be filed, the address, and the deadline for filing an appeal.

(b) In States with Department of Agriculture certified mediation programs, a Deciding Officer shall also give written notice of the opportunity for the affected term grazing permit holder to request mediation of decisions to suspend or cancel term grazing permits, in whole or in part, pursuant to 36 CFR 222.4(a)(2)(i), (ii), (iv), (v), and (a)(3) through (a)(6). Such notice must inform the permit holder that, if mediation is desired, the permit holder must request mediation as part of the filing of an appeal.

§ 251.85 Election of appeal process.

(a) No decision can be appealed by the same person under both this subpart and part 217 of this chapter.

(b) Should a decision be reviewable under this subpart as well as part 217 of this chapter, a party who qualifies to bring an appeal under this subpart can elect which process to use for obtaining review of a decision, but in so doing, the appellant thereby forfeits all right to appeal the same decision under the other review process. However, a holder who waives the right to appeal under the provisions of 36 CFR part 217 may intervene pursuant to 36 CFR 217.6(b).

§ 251.86 Parties.

Only the following may participate in the appeals process provided under this subpart:

(a) An applicant who, in response to a prospectus or written solicitation or other notice by the Forest Service, files a formal written request for a written authorization to occupy and use National Forest System land covered under §251.82 of this subpart and

(1) Was denied the authorization, or

(2) Was offered an authorization subject to terms and conditions that the applicant finds unreasonable or impracticable.

(b) The signatory(ies) or holder(s) of a written authorization to occupy and use National Forest System land covered under §251.82 of this subpart who seeks relief from a written decision related to that authorization.

(c) An intervenor as defined in §251.81 of this subpart.

(d) The Deciding Officer who made the decision being appealed under this subpart.

§ 251.87 Levels of appeal.

(a) Decisions made by the Chief. If the Chief of the Forest Service is the Deciding Officer, the appeal is to the Secretary of Agriculture. Review by the Secretary is discretionary. Within 15 calendar days of receipt of a timely notice of appeal, the Secretary shall determine whether or not to review the decision. If the Secretary has not decided to review the Chief’s decision by the expiration of the 15-day period, the requester(s) shall be notified by the Secretary’s office that the Chief’s decision is the final administrative decision of the Department of Agriculture. When the Secretary elects to review an initial decision made by the Chief, the Secretary shall conduct the review in
§ 251.88 Filing procedures.

(a) Filing procedures. In order to appeal a decision under this subpart, an appellant must:

(1) File a notice of appeal in accordance with §251.90 of this subpart with the next higher line officer as identified in §251.87.

(2) File the notice of appeal within 45 days of the date on the notice of the written decision being appealed (§251.84); and

(3) Simultaneously send a copy of the notice of appeal to the Deciding Officer.

(b) Evidence of timely filing. It is the responsibility of those filing an appeal to file the notice of appeal by the end of the filing period. In the event of questions, legible postmarks will be considered evidence of timely filing. Where postmarks are illegible, the Reviewing Officer shall rule on the timeliness of the notice of appeal. Untimely submissions are subject to dismissal as provided for in §251.92(a)(2).

(c) Computation of time period for filing. (1) The time period for filing a notice of appeal of a decision under this subpart begins on the first day after the Deciding Officer’s written notice of the decision. All other time periods applicable to this subpart also will be computed to begin on the first day following an event or action related to the appeal.

(2) Time periods applicable to this subpart are computed using calendar days. Saturdays, Sundays, or Federal holidays are included in computing the time allowed for filing an appeal; however, when the filing period would expire on a Saturday, Sunday, or Federal holiday the filing time is extended to the end of the next Federal working day.
§ 251.89 Time extensions.

(a) Filing of notice of appeal. Time for filing a notice of appeal is not extendable.

(b) All other time periods. Appellants, Intervenors, Deciding Officers, and Reviewing Officers shall meet the time periods specified in the rules of this subpart, unless a Reviewing Officer has extended the time as provided in this paragraph. Except as noted in paragraph (a) of this section and as prohibited at the discretionary review level (§251.100), the Reviewing Officer may extend all other time periods under this subpart.

(1) For appeals of initial written decisions by the Chief, a Regional Forester, or a Forest Supervisor, a Reviewing Officer, where good cause exists, may grant a written request for extension of time to file a responsive statement or replies thereto. The Reviewing Officer shall rule on requests for extensions within 10 days of receipt of the request and shall provide written notice of the extension ruling to all parties to the appeal.

(2) Except for discretionary reviews of appeal decisions by the Chief, a Regional Forester, or a Forest Supervisor, a Reviewing Officer may extend the time period for issuance of the appeal decision, including for purposes of allowing additional time for the Deciding Officer to resolve disputed issues, as provided in §251.93 of this subpart.

§ 251.90 Content of notice of appeal.

(a) It is the responsibility of an appellant to provide a Reviewing Officer sufficient narrative evidence and argument to show why a decision by a lower level officer should be reversed or changed.

(b) An appellant must include the following information in a notice of appeal:

(1) The appellant’s name, mailing address, and daytime telephone number;

(2) The title or type of written instrument involved, the date of application for or issuance of the written instrument, and the name of the responsible Forest Service Officer;

(3) A brief description and the date of the written decision being appealed;

(4) A statement of how the appellant is adversely affected by the decision being appealed;

(5) A statement of the facts of the dispute and the issue(s) raised by the appeal;

(6) Specific references to any law, regulation, or policy that the appellant believes to be violated and the reason for such an allegation.

(7) A statement as to whether and how the appellant has tried to resolve the issue(s) being appealed with the Deciding Officer, the date of any discussion, and the outcome of that meeting or contact; and

(8) A statement of the relief the appellant seeks.

(c) An appellant may also include one or more of the following in a notice of appeal: a request for oral presentation (§251.97); a request for stay of implementation of the decision pending decision on the appeal (§251.91); or, in those States with a Department of Agriculture certified mediation program, a request for mediation of grazing permit cancellation or suspensions pursuant to §251.103.

§ 251.91 Stays.

(a) A decision may be implemented during the appeal process, unless the Reviewing Officer grants a stay or unless a term grazing permit holder appeals a decision and simultaneously requests mediation pursuant to §251.103. In the case of mediation requests, a stay is granted automatically upon receipt of the notice of appeal for the duration of the mediation period as provided in §251.103.

(b) An appellant or intervenor may request a stay of a decision at any time while an appeal is pending, if the harmful effects alleged pursuant to paragraph (c)(3) of this section would occur during pendency of the appeal. The Reviewing Officer shall not accept any request to stay implementation of a decision that is not scheduled to begin during pendency of the appeal.

(c) To request a stay of decision, an appellant or intervenor must—

312
(1) File a written request with the Reviewing Officer:
(2) Simultaneously send a copy of the stay request to any other appellant(s), to intervenor(s), and to the Deciding Officer.
(3) Provide a written justification of the need for a stay, which at a minimum includes the following:
   (i) A description of the specific project(s), activity(ies), or action(s) to be stopped.
   (ii) Specific reasons why the stay should be granted in sufficient detail to permit the Reviewing Officer to evaluate and rule upon the stay request, including at a minimum:
      (A) The specific adverse effect(s) upon the requester;
      (B) Harmful site-specific impacts or effects on resources in the area affected by the activity(ies) to be stopped, and
      (C) How the cited effects and impacts would prevent a meaningful decision on the merits.
   (d) A Deciding Officer and other parties to an appeal may provide the Reviewing Officer with a written response to a stay request. A copy of any response must be sent to all parties to the appeal.
   (e) Timeframe. The Reviewing Officer must rule on a stay request no later than 10 calendar days from receipt.
   (f) Criteria to consider. In deciding a stay request, a Reviewing Officer shall consider:
      (1) Information provided by the requester pursuant to paragraph (c) of this section including the validity of any claim of adverse effect on the requester;
      (2) The effect that granting a stay would have on preserving a meaningful appeal on the merits;
      (3) Any information provided by the Deciding Officer or other party to the appeal in response to the stay request; and
      (4) Any other factors the Reviewing Officer considers relevant to the decision.
   (g) Notice of decision on a stay request. A Reviewing Officer must issue a written decision on a stay request.
      (1) If a stay is granted, the stay shall specify the specific activities to be stopped, duration of the stay, and reasons for granting the stay.
      (2) If a stay is denied in whole or in part, the decision shall specify the reasons for the denial.
      (3) A copy of a decision on a stay request shall be sent to all parties to the appeal.
   (h) Duration. A stay shall remain in effect for the 15-day period for determining discretionary review (§251.100), unless changed by the Reviewing Officer in accordance with paragraph (i) of this section.
      (1) Change in a stay. A Reviewing Officer may change a stay decision in accordance with any terms established in the stay decision itself or at any time during pendency of an appeal that circumstances support a change of stay. In making any changes to a stay decision, the Reviewing Officer must issue a written notice to all parties to the appeal explaining the reason for making the changes and setting forth any terms or conditions that apply to the change.
      (j) Petitions to change a stay. An appellant or intervenor may petition a Reviewing Officer to change or lift a stay at any time during the pendency of an appeal. Such petitions must be in writing, must explain how circumstances have changed since the stay was imposed, and must state why the change in the stay is being requested. The petitioner must send a copy of the petition to all parties to the appeal.
   (k) Appeal of stay decision or changes in stay. A Reviewing Officer’s decision to grant, deny, lift, or otherwise change a stay is not subject to further appeal and review, except when the first-level Reviewing Officer was the Forest Supervisor. In this instance, the Regional Forester has discretion to review.

§ 251.92 Dismissal.

(a) The Reviewing Officer shall dismiss an appeal and close the record without a decision on the merits when:
   (1) The appellant is not eligible to appeal a decision under this subpart.
§ 251.93 Resolution of issues.

(a) Authorized Forest Service officers shall, to the extent practicable and consistent with the public interest, consult and meet in person, or by phone, with holders of written instruments prior to issuing written decisions related to administration of a written authorization. The purpose of such meetings is to discuss any issues or concerns related to the authorized use and to reach a common understanding and agreement where possible prior to issuance of a written decision.

(b) When decisions are appealed, the Deciding Officer may discuss the appeal with the appellant(s) and intervenor(s) together or separately to narrow issues, agree on facts, and explore opportunities to resolve the issues by means other than review and decision on the appeal, including mediation pursuant to § 251.103. At the request of the Deciding Officer, the Reviewing Officer may extend the time period to allow for meaningful negotiations, except for appeals under review at the discretionary level. In the event of mediation of a grazing dispute under § 251.103, the Reviewing Officer may extend the time for mediation only as provided in § 251.103.

(c) The Deciding Officer has the authority to withdraw a decision, in whole or in part, during the appeal. Where a Deciding Officer decides to withdraw a decision, all parties to the appeal and the Reviewing Officer must receive written notice.

§ 251.94 Responsive statement.

(a) Content. A responsive statement contains the Deciding Officer’s response to the specific facts or issues of law or regulation and the requested relief set forth by the appellant in the notice of appeal.

(b) Timeframe. Unless the Reviewing Officer has granted an extension or dismissed the appeal, or unless mediation has been requested under this subpart, the Deciding Officer shall prepare a responsive statement and send it to the Reviewing Officer and all parties to the appeal within 30 days of receipt of the notice of appeal. Where mediation occurs but fails to resolve the issues, the Deciding Officer shall prepare a responsive statement and send it to the Reviewing Officer and all parties to the appeal within 30 days of the reinstatement of the appeal timeframes (§ 251.103(c)).

(c) Replies. Within 20 days of the postmarked date of the responsive statement, the appellant(s) and any intervenor(s) may file a written reply to the responsive statement with the Reviewing Officer. Appellants and intervenors must send a copy of any reply to a responsive statement to all parties to the appeal, including the Deciding Officer.

[54 FR 3362, Jan. 23, 1989, as amended at 64 FR 37846, July 14, 1999]
§ 251.95 Authority of reviewing officer.

(a) Discretion to establish procedures. A Reviewing Officer may issue such procedural orders as deemed appropriate to ensure orderly, expeditious, and fair conduct of an appeal providing they are consistent with other provisions of this part.

(1) In appeals involving intervenors, the Reviewing Officer may prescribe special procedures to conduct the appeal.

(2) All parties to an appeal shall receive notice of any orders or decisions on the conduct of the appeal.

(3) Orders and determinations governing the conduct of an appeal are not subject to appeal and further review.

(b) Consolidation of appeals. A Reviewing Officer may consolidate multiple appeals of the same decision, or of similar decisions involving common issues of fact or law and issue one appeal decision. Similarly, a Reviewing Officer may issue one decision in cases involving separate reviews filed pursuant to 36 CFR part 217 and under this part when the decision at issue is the same decision. In such case, the Reviewing Officer shall give notice to all parties to multiple appeals.

(1) A decision to consolidate appeals is not subject to appeal and further review.

(2) At the discretion of the Reviewing Officer, the Deciding Officer may prepare one responsive statement to multiple appeals.

(c) Requests for additional information. Except in discretionary review conducted pursuant to §251.100 and second level appeals of decisions made by the District Ranger pursuant to §251.87(c) of this subpart, the Reviewing Officer may ask any party to an appeal for additional information as deemed necessary to decide the appeal. Such requests will be limited to obtaining and evaluating information needed to clarify issues raised. The Reviewing Officer shall notify all parties of the request for information, provide it to all parties, give opportunity to comment, and extend time periods if necessary to allow for submission of the information.

§ 251.96 Intervention.

(a) A request to intervene in an appeal may be made at any time prior to the closing of the appeal record (§251.96) at the first level of appeal (§251.87). Requests to intervene in an appeal at the discretionary review level (§251.87(d)) shall be denied.

(b) To request intervention in a first-level appeal under this subpart, a party, at a minimum, must:

(1) Submit a written petition to intervene to the Reviewing Officer.

(2) Be, as defined at §251.81 of this subpart, an applicant for or holder of a written instrument issued by the Forest Service that is the subject of or affected by the appeal, and have an interest that could be directly affected by a decision on the appeal, and

(3) Show, in the request for intervention, how the decision on the appeal would directly affect petitioner's interests.

(c) The Reviewing Officer determines whether a party requesting intervention meets the requirements of paragraph (a) of this section. In granting intervention, the Reviewing Officer must give notice to all other parties to the appeal.

(d) A granting or denial of intervention is not subject to appeal to a higher level.

(e) Appellants and intervenors must concurrently furnish copies of all submissions to each other as well as the Deciding Officer. Failure to provide each other copies may result in removal of a submission from the appeal record. At the discretion of the Reviewing Officer, appellants may be given additional time to review and comment on initial submissions by intervenors.

(f) An intervenor cannot continue an appeal if the appellant withdraws the appeal.

§ 251.97 Oral presentation.

(a) Purpose. An oral presentation provides an additional opportunity for an appellant, and other parties to an appeal, to present their viewpoints to the
Reviewing Officer. The purpose is to restate, emphasize, and/or clarify information related to an appeal. Oral presentations are to be conducted in an informal manner and shall not be subject to formal rules of procedure such as those applicable to judicial proceedings.

(b) Requests. Only an appellant may request and be granted an oral presentation. An appellant may request an oral presentation at any time prior to closing of the appeal record (§251.98). A Reviewing Officer shall automatically grant an oral presentation if the appellant requested the presentation as part of the notice of appeal.

(c) Participation. At the discretion of the Reviewing Officer, oral presentations may be open to public attendance, but participation is limited to parties to the appeal. The Reviewing Officer shall advise all parties to the appeal, including the Deciding Officer, of the place, time, and date of the oral presentation, and how the oral presentation will be conducted. All parties to an appeal shall be invited to participate. Appellants and intervenors must bear any expense involved in making an oral presentation in person or by telephone.

(d) Limitation. Oral presentations shall be held only at the first level of appeal (§251.87(b)).

§ 251.98 Appeal record.

The following rules apply only to the appeal record for appeals at the first level (§251.87 (a), (b)):

(a) It is the responsibility of the Reviewing Officer to maintain in one location the documents related to the appeal.

(b) The record consists of the documents filed with the Reviewing Officer including, but not limited to, the notice of appeal, responsive statement, replies to submissions by various parties to the appeal, orders and determinations made on the conduct of the appeal, and correspondence.

(c) The Reviewing Officer has discretion to remove from the record documents that were not sent to all parties to an appeal.

(d) Unless the Reviewing Officer has ordered otherwise, the appeal record closes with the expiration of the time period for filing of the reply(ies) to the responsive statement, or at the conclusion of an oral presentation, if there is one. The Reviewing Officer shall notify all parties to an appeal of the closure of the record.

(e) The appeal record is open to public inspection.

(f) In appeals involving initial decisions of the Chief (§251.87(a)), the establishment of an administrative record as defined in paragraph (a) of this section shall not begin unless the Secretary elects to review the appeal. Except for the initial notice of appeal, any filings made previous to the Secretary’s election to review will not be accepted.

§ 251.99 Appeal decision.

(a) The Reviewing Officer shall base the appeal decision on the appeal record and applicable laws, regulations, orders, policies, and procedures.

(b) The Reviewing Officer shall affirm or reverse the original decision whole or in part and include the reason(s) for the decision. The Reviewing Officer may also include in the appeal decision instructions for further action by the Deciding Officer.

(c) At the first level of appeal, the Reviewing Officer shall make and issue an appeal decision within 30 days of the date the record is closed.

(d) At the second level of appeal provided in §251.87(c), the Reviewing Officer shall make and issue an appeal decision within 30 days of the date the record is received from the first level Reviewing Officer.

(e) The Reviewing Officer shall send a copy of all appeal decisions to all participants.

(f) Unless the next higher officer exercises the discretion to review an appeal decision as provided in §§251.87(e) and 251.100 of this subpart, the appeal decision is the final administrative decision of the Department of Agriculture and is not subject to further review under this subpart or part 217 of this chapter.

§ 251.100 Discretionary review.

(a) Petitions or requests for discretionary review shall not, in and of themselves, give rise to a decision to exercise discretionary review. In electing to exercise discretion, a Reviewing Officer should consider, but is not limited to, such factors as controversy surrounding the decision, the potential for litigation, and whether the appeal decision is precedent in nature or establishes new policy.

(b) As provided for in §§251.87(d) and (e), 251.91(k), and 251.92, stay decisions rendered by a Forest Supervisor, certain dismissal decisions rendered by Regional Foresters and the Chief (§251.99), are subject to discretionary review at the next highest administrative level. Within one day following the date of a decision subject to such discretionary review, the Reviewing Officer shall forward a copy of the decision and the initial decision upon which the appeal is predicated to the next higher officer.

(c) The next higher level officer shall have 15 calendar days from date of receipt to decide whether or not to review an appeal decision and may call for or use the appeal record in deciding whether or not to review the appeal decision. If the record is requested, the 15-day period is suspended at that point. The lower level Reviewing Officer shall forward it within 5 days of the request. Upon receipt, the higher level officer shall have 15 days to decide whether or not to review the lower level decision. If that officer takes no action by the expiration of the discretionary review period, appellants shall be notified by the discretionary level officer.

(d) When an official exercises discretion to review an appeal decision, a Reviewing Officer may extend a stay, in whole or in part, during pendency of the discretionary review.

(e) When an official exercises discretion to review an appeal decision, a Reviewing Officer may extend a stay, in whole or in part, during pendency of the discretionary review.

(f) The second level Reviewing Officer shall conclude the review within 30 days of the date of notice issued to an appellant that the lower level decision will be reviewed.

(g) If a discretionary review decision is not issued by the end of the 30-day review period, appellants and intervenors shall be deemed to have exhausted their administrative remedies for purposes of judicial review. In such case, appellants, intervenors, and the lower level Reviewing Officer shall be notified by the discretionary level officer.

(h) The Reviewing Officer shall provide a copy of the decision to all appellants, intervenors, and the Deciding Officer, and the lower level Reviewing Officer.

§ 251.101 Policy in event of judicial proceedings.

It is the position of the Department of Agriculture that any filing for Federal judicial review of and relief from a decision appealable under this subpart is premature and inappropriate, unless the appellant has first sought to resolve the dispute by invoking and exhausting the procedures of this subpart. This position may be waived only upon a written finding by the Chief.

§ 251.102 Applicability and effective date.

(a) Except where applicants or holders elect the decision review procedures of part 217 of this chapter, appealable decisions arising from the issuance, approval, and administration of written instruments authorizing occupancy and use of National Forest System lands made on or after February 22, 1989, shall be subject to the procedures of this part.

(b) Decisions made before February 22, 1989, arising from the issuance, approval, and administration of written instruments authorizing occupancy and use of National Forest System
§ 251.103 Mediation of term grazing permit disputes.

(a) Decisions subject to mediation. In those States with Department of Agriculture certified mediation programs, any holder of a term grazing permit may request mediation, if a Deciding Officer issues a decision to suspend or cancel a term grazing permit, in whole or in part, as authorized by 36 CFR 222.4 (a)(2)(i), (ii), (iv), (v), and (a)(3) through (a)(6).

(b) Parties. Notwithstanding the provisions addressing parties to an appeal at §251.86, only the following may participate in mediation of term grazing permit disputes under this section:

(1) A mediator authorized to mediate under a Department of Agriculture State certified mediation program;

(2) The Deciding Officer who made the decision being mediated, or designee;

(3) The holder whose term grazing permit is the subject of the Deciding Officer’s decision and who has requested mediation in the notice of appeal;

(4) The holder’s creditors, if applicable; and

(5) Legal counsel, if applicable. The Forest Service will have legal counsel participate only if the permittee choose to have legal counsel.

(c) Timeframe. When an appellant simultaneously requests mediation at the time an appeal is filed (§251.84), the Reviewing Officer shall immediately notify, by certified mail, all parties to the appeal that mediation was unsuccessful, that the stay granted during mediation is lifted, and that the timeframes and procedures applicable to an appeal (§251.89) are reinstated as of the date of such notice.

(d) Confidentiality. Mediation sessions shall be confidential; moreover, dispute resolution communications, as defined in 5 U.S.C. 571(5), shall be confidential. However, the final agreement signed by the Forest Service official and the permit holder is subject to public disclosure.

(e) Records. Notes taken or factual material received during mediation sessions are not to be entered as part of the appeal record.

(f) Cost. The United States Government shall cover only incurred expenses of its own employees in mediation sessions.

(g) Exparte communication. Except to request a time extension or communicate the results of mediation pursuant to paragraph (d) of this section, the Deciding Officer, or designee, shall not discuss mediation and/or appeal matters with the Reviewing Officer.

[64 FR 37846, July 14, 1999]

Subpart D—Access to Non-Federal Lands

SOURCE: 56 FR 27417, June 14, 1991, unless otherwise noted.

§ 251.110 Scope and application.

(a) The regulations in this subpart set forth the procedures by which landowners may apply for access across National Forest System lands and the terms and conditions that govern any special use or other authorization that is issued by the Forest Service to permit such access.

(b) These regulations apply to access across all National Forest System lands, including Congressionally designated areas, and supplement the regulations in subpart B of this part, and in parts 212 and 293 of this chapter. The regulations of this subpart do not affect rights-of-way established under authority of R.S. 2477 (43 U.S.C. 932); rights-of-way transferred to States
§ 251.111 Definitions.

In addition to the definitions in subpart B of this part, the following terms apply to this subpart:

Access means the ability of landowners to have ingress and egress to their lands. It does not include rights-of-way for power lines or other utilities.

Adequate access means a route and method of access to non-Federal land that provides for reasonable use and enjoyment of the non-Federal land consistent with similarly situated non-Federal land and that minimizes damage or disturbance to National Forest System lands and resources.

Congressionally designated area means lands which are within the boundaries of a component of the National Wilderness Preservation System, National Wild and Scenic River System, National Trails System, and also National Monuments, Recreation, and Scenic Areas within the National Forest System, and similar areas designated by Federal statute.

Landowner(s) means the owner(s) of non-Federal land or interests in land within the boundaries of the National Forest System.

§ 251.112 Application requirements.

(a) A landowner shall apply for access across National Forest System lands in accordance with the application requirements of § 251.54 of this part. Such application shall specifically include a statement of the intended mode of access to, and uses of, the non-Federal land for which the special-use authorization is requested.

(b) The application shall disclose the historic access to the landowner’s property and any rights of access which may exist over non-federally owned land and shall provide reasons why these means of access do not provide adequate access to the landowners property.

(c) The information required to apply for access across National Forest lands under this subpart is approved for use under subpart B of this part and assigned OMB control number 0596–0082.
§ 251.113 Instrument of authorization.

(a) Upon request by an owner or a lessee of non-Federal lands for access to National Forest System lands, the authorized officer may grant authority to construct and/or use facilities and structures on National Forest System lands for access to non-Federal lands. The authorized officer shall issue a special-use authorization in conformance with the provisions of subpart B of this part or a road-use permit. In cases where Road Rights-of-way Construction And Use Agreements are in effect, the authorized officer may grant an easement in accordance with the provisions of part 212 of this chapter.

§ 251.114 Criteria, terms and conditions.

(a) In issuing a special-use authorization for access to non-Federal lands, the authorized officer shall authorize only those access facilities or modes of access that are needed for the reasonable use and enjoyment of the land and that minimize the impacts on the Federal resources. The authorizing officer shall determine what constitutes reasonable use and enjoyment of the lands based on contemporaneous uses made of similarly situated lands in the area and any other relevant criteria.

(b) Landowners must pay an appropriate fee for the authorized use of National Forest System lands in accordance with § 251.57 of this part.

(c) A landowner may be required to provide a reciprocal grant of access to the United States across the landowner’s property where such reciprocal right is deemed by the authorized officer to be necessary for the management of adjacent Federal land. In such case, the landowner shall receive the fair market value of the rights-of-way granted to the United States. If the value of the rights-of-way obtained by the Government exceeds the value of the rights-of-way granted, the difference in value will be paid to the landowner. If the value of the rights-of-way across Government land exceeds the value of the rights-of-way across the private land, an appropriate adjustment will be made in the fee charged for the special-use authorization as provided in § 251.57(b)(5) of this part.

(d) For access across National Forest System lands that will have significant non-Forest user traffic, a landowner may be required to construct new roads or reconstruct existing roads to bring the roads to a safe and adequate standard. A landowner also may be required to provide for the operation and maintenance of the road. This may be done by arranging for such road to be made part of the local public road system, or formation of a local improvement district to assume the responsibilities for the operation and maintenance of the road as either a private road or as a public road, as determined to be appropriate by the authorizing officer.

(e) When access is tributary to or dependent on forest development roads, and traffic over these roads arising from the use of landowner’s lands exceeds their safe capacity or will cause damage to the roadway, the landowner(s) may be required to obtain a road-use permit and to perform such reconstruction as necessary to bring the road to a safe and adequate standard to accommodate such traffic in addition to the Government’s traffic. In such case, the landowner(s) also shall enter into a cooperative maintenance arrangement with the Forest Service to ensure that the landowner’s commensurate maintenance responsibilities are met or shall make arrangements to have the jurisdiction and maintenance responsibility for the road assumed by the appropriate public road authority.

(f) In addition to ensuring that applicable terms and conditions of paragraphs (a) through (e) of this section are met, the authorizing officer, prior to issuing any access authorization, must also ensure that:

(1) The landowner has demonstrated a lack of any existing rights or routes of access available by deed or under State or common law;

(2) The route is so located and constructed as to minimize adverse impacts on soils, fish and wildlife, scenic, cultural, threatened and endangered species, and other values of the Federal land;

(3) The location and method of access is as consistent as reasonably possible with the management of any congressionally designated area and is consistent with Forest Land and Resource Management Plans or the plans are amended to accommodate the access grant, and;
(4) When access routes exist across the adjacent non-Federal lands or the best route as determined by the authorizing officer is across non-Federal lands, the applicant landowner has demonstrated that all legal recourse to obtain reasonable access across adjacent non-Federal lands has been exhausted or has little chance of success.

(g) In addition to the other requirements of this section, the following factors shall be considered in authorizing access to non-federally owned lands over National Forest System lands which are components of the National Wilderness Preservation System:

(1) The use of means of ingress and egress which have been or are being customarily used with respect to similarly situated non-Federal land used for similar purposes;

(2) The combination of routes and modes of travel, including non-motorized modes, which will cause the least lasting impact on the wilderness but, at the same time, will permit the reasonable use of the non-federally owned land;

(3) The examination of a voluntary acquisition of land or interests in land by exchange, purchase, or donation to modify or eliminate the need to use wilderness areas for access purposes.

PART 254—LANDOWNERSHIP ADJUSTMENTS

Subpart A—Land Exchanges

§ 254.1 Scope and applicability.

(a) These rules set forth the procedures for conducting exchanges of National Forest System lands. The procedures in these rules may be supplemented by instructions issued to Forest Service officers in Chapter 5400 of the Forest Service Manual and Forest Service Handbooks 5409.12 and 5409.13.

(b) These rules apply to all National Forest System exchanges of land or interests in land, including but not limited to minerals, water rights, and timber, except those exchanges made under the authority of Small Tracts Act of January 12, 1983 (16 U.S.C. 521c–521i) (36 CFR part 254, subpart C), and as otherwise noted. These rules also apply to other methods of acquisition, where indicated.

(c) The application of these rules to exchanges made under the authority of the Alaska Native Claims Settlement Act, as amended (43 U.S.C. 1621), or the Alaska National Interest Lands Conservation Act (16 U.S.C. 3192), shall be
§ 254.2 Definitions.

For the purposes of this subpart, the following terms have the meanings set forth in this section.

**Acquisition** means the attainment of lands or interests in lands by the Secretary, acting on behalf of the United States, by exchange, purchase, donation, or eminent domain.

**Adjustment to relative values** means compensation for exchange-related costs, or other responsibilities or requirements assumed by one party, which ordinarily would be borne by the other party. These adjustments do not alter the agreed upon value of the lands involved in an exchange.

**Agreement to initiate** means a written, nonbinding statement of present intent to initiate and pursue an exchange, which is signed by the parties and which may be amended by consent of the parties or terminated at any time upon written notice by any party.

**Appraisal or appraisal report** means a written statement independently and impartially prepared by a qualified appraiser setting forth an opinion as to the market value of the lands or interests in lands as of a specific date(s), supported by the presentation and analysis of relevant market information.

**Approximately equal value** means a comparative estimate of value of the lands involved in an exchange which have readily apparent and substantially similar elements of value, such as location, size, use, physical characteristics, and other amenities.

**Arbitration** is a process to resolve a disagreement among the parties as to appraised value, performed by an arbitrator appointed by the Secretary from a list recommended by the American Arbitration Association.

**Assembled land exchange** means an exchange of Federal land for a package of multiple ownership parcels of non-Federal land consolidated for purposes of one land exchange transaction.

**Authorized officer** means a Forest Service line or staff officer who has been delegated the authority and responsibility to make decisions and perform the duties described in this subpart.

**Bargaining** is a process other than arbitration, by which parties attempt to
resolve a dispute concerning the appraised value of the lands involved in an exchange.

**Federal lands** means any lands or interests in lands, such as mineral and timber interests, that are owned by the United States and administered by the Secretary of Agriculture through the Chief of the Forest Service, without regard to how the United States acquired ownership.

**Hazardous substances** are those substances designated under Environmental Protection Agency regulations at 40 CFR part 302.

**Highest and best use** means an appraiser’s supported opinion of the most probable and legal use of a property, based on market evidence, as of the date of valuation.

**Lands** means any land and/or interests in land.

**Market value** means the most probable price in cash, or terms equivalent to cash, which lands or interest in lands should bring in a competitive and open market under all conditions requisite to a fair sale, where the buyer and seller each acts prudently and knowledgeably, and the price is not affected by undue influence.

**Reserved interest** means an interest in real property retained by a party from a conveyance of the title to that property.

**Resource values** means any of the various commodity values or non-commodity values, such as wildlife habitat and aesthetics, contained within land interests, surface and subsurface.

**Secretary** means the Secretary of Agriculture or the individual to whom responsibility has been delegated.

**Segregation** means the removal for a limited period, subject to valid existing rights, of a specified area of the Federal lands from appropriation under the public land laws and mineral laws, pursuant to the authority of the Secretary of the Interior to allow for the orderly administration of the Federal lands.

**Statement of value** means a written report prepared by a qualified appraiser in conformance with the minimum standards of the Uniform Standards of Professional Appraisal Practice that states the appraiser’s conclusion(s) of value.

§ 254.3 Requirements.

(a) **Discretionary nature of exchanges.** The Secretary is not required to exchange any Federal lands. Land exchanges are discretionary, voluntary real estate transactions between the Federal and non-Federal parties. Unless and until the parties enter into a binding exchange agreement, any party may withdraw from and terminate an exchange proposal at any time during the exchange process.

(b) **Determination of public interest.** The authorized officer may complete an exchange only after a determination is made that the public interest will be well served.

(1) **Factors to consider.** When considering the public interest, the authorized officer shall give full consideration to the opportunity to achieve better management of Federal lands and resources, to meet the needs of State and local residents and their economies,
§ 254.3 36 CFR Ch. II (7–1–01 Edition)

and to secure important objectives, including but not limited to: protection of fish and wildlife habitats, cultural resources, watersheds, and wilderness and aesthetic values; enhancement of recreation opportunities and public access; consolidation of lands and/or interests in lands, such as mineral and timber interests, for more logical and efficient management and development; consolidation of split estates; expansion of communities; accommodation of existing or planned land use authorizations (§ 254.4(c)(4)); promotion of multiple-use values; implementation of applicable Forest Land and Resource Management Plans; and fulfillment of public needs.

(2) Findings. To determine that an exchange well serves the public interest, the authorized officer must find that—

(i) The resource values and the public objectives served by the non-Federal lands or interests to be acquired must equal or exceed the resource values and the public objectives served by the Federal lands to be conveyed, and

(ii) The intended use of the conveyed Federal land will not substantially conflict with established management objectives on adjacent Federal lands, including Indian Trust lands.

(3) Documentation. The findings and the supporting rationale shall be documented and made part of the administrative record.

(c) Equal value exchanges. Except as provided in §254.11 of this subpart, lands or interests to be exchanged must be of equal value or equalized in accordance with the methods set forth in §254.12 of this subpart. An exchange of lands or interests shall be based on market value as determined by the Secretary through appraisal(s), through bargaining based on appraisal(s), through other acceptable and commonly recognized methods of determining market value, or through arbitration.

(d) Same-State exchanges. Unless otherwise provided by statute, the Federal and non-Federal lands involved in an exchange must be located within the same State.

(e) Congressional designations. Upon acceptance of title by the United States, lands acquired by the Secretary of the Interior by exchange under the authority granted by the Federal Land Policy and Management Act of 1976, as amended, which are within the boundaries of any unit of the National Forest System, the National Wild and Scenic Rivers System, the National Trails System, the National Wilderness Preservation System, or any other system established by Act of Congress; or the boundaries of any national conservation area or national recreation area established by Act of Congress, immediately are reserved for and become a part of the unit or area in which they are located, without further action by the Secretary of the Interior, and, thereafter, shall be managed in accordance with all laws, rules, regulations, and land resource management plans applicable to such unit or area.

(f) Land and resource management planning. The authorized officer shall consider only those exchange proposals that are consistent with land and resource management plans (36 CFR part 219). Lands acquired by exchange that are located within areas having an administrative designation established through the land management planning process shall automatically become part of the area within which they are located, without further action by the Forest Service, and shall be managed in accordance with the laws, rules, regulations, and land and resource management plan applicable to such area.

(g) Environmental analysis. After an agreement to initiate an exchange is signed, the authorized officer shall undertake an environmental analysis in accordance with the National Environmental Policy Act of 1969 (42 U.S.C. 4371), the Council on Environmental Quality regulations (40 CFR parts 1500–1508), and Forest Service environmental policies and procedures (Forest Service Manual Chapter 1950 and Forest Service Handbook 1909.15). In making this analysis, the authorized officer shall consider timely written comments received in response to the exchange notice published pursuant to §254.8 of this subpart.

(h) Reservations or restrictions in the public interest. In any exchange, the authorized officer shall reserve such rights or retain such interests as are needed to protect the public interest or
shall otherwise restrict the use of Federal lands to be exchanged, as appropriate. The use or development of lands conveyed out of Federal ownership are subject to any restrictions imposed by the conveyance documents and all laws, regulations, and zoning authorities of State and local governing bodies.

(i) Hazardous substances.

(1) Federal lands. The authorized officer shall determine whether hazardous substances are known to be present on the Federal lands involved in the exchange and shall provide notice of known storage, release, or disposal of hazardous substances on the Federal lands in the contract agreement and in the conveyance document, pursuant to 40 CFR part 373 and 42 U.S.C. 9620. For purposes of this section, the notice of hazardous substances on involved Federal lands in an agreement to initiate an exchange or an exchange agreement meets the requirements for notices established in 40 CFR part 373. Unless the non-Federal party is a potentially responsible party under 42 U.S.C. 9607(a) and participated as an owner, or in the operation, arrangement, generation, or transportation of the hazardous substances found on the Federal land, the conveyance document from the United States must contain a covenant warranting that all remedial action necessary to protect human health and the environment with respect to any such substances remaining on the property has been taken before the date of transfer and that any additional remedial action found necessary after the date of transfer shall be conducted by the United States, pursuant to 42 U.S.C. 9620(h)(3). The conveyance document must also reserve to the United States the right of access to the conveyed property if remedial or corrective action is required after the date of transfer. Where the non-Federal party is a potentially responsible party with respect to the property, it may be appropriate to enter into an agreement as referenced in 42 U.S.C. 9607(e) whereby that party would indemnify the United States and hold the United States harmless against any loss or cleanup costs after conveyance.

(2) Non-Federal lands. The non-Federal party shall notify the authorized officer of any hazardous substances known to have been released, stored, or disposed of on the non-Federal land, pursuant to §254.4 of this subpart. Notwithstanding such notice, the authorized officer shall determine whether hazardous substances are known to be present on the non-Federal land involved in an exchange. If hazardous substances are known or believed to be present on the non-Federal land, the authorized officer shall reach an agreement with the non-Federal party regarding the responsibility for appropriate response action concerning the hazardous substances before completing the exchange. The terms of this agreement and any appropriate “hold harmless agreement” shall be included in an exchange agreement, pursuant to §254.14 of this subpart.

(j) Legal description of properties. All lands subject to an exchange must be properly described on the basis of either a survey executed in accordance with the Public Land Survey System laws and standards of the United States or, if those laws and standards cannot be applied, the lands shall be properly described and clearly locatable by other means as may be prescribed or allowed by law.

(k) Special review. Except as provided in this paragraph, land acquisitions of $150,000 or more in value made under the authority of the Weeks Act of March 1, 1911, as amended (16 U.S.C. 516), must be submitted to Congress for oversight review, pursuant to the Act of October 22, 1976, as amended (16 U.S.C. 521b). However, minor and insignificant changes in land acquisition proposals need not be resubmitted for congressional oversight, provided the general concept of and basis for the acquisition remain the same.

§254.4 Agreement to initiate an exchange.

(a) Exchanges may be proposed by the Forest Service or by any person, State, or local government. Initial exchange proposals shall be directed to the authorized officer responsible for the management of Federal lands proposed for exchange.

(b) To assess the feasibility of an exchange proposal, the prospective parties may agree to obtain a preliminary
§ 254.5 Assembled land exchanges.

(a) Whenever the authorized officer determines it to be practicable, an assembled land exchange arrangement may be used to facilitate exchanges and reduce costs.

(b) The parties to an exchange may agree to such an arrangement where multiple ownership parcels of non-Federal lands are consolidated into a package for the purpose of completing one exchange transaction.

(c) An assembled land exchange arrangement must be documented in the
agreement to initiate an exchange, pursuant to §254.4 of this subpart.
(d) Value of the Federal and non-Federal lands involved in an assembled land exchange arrangement shall be estimated pursuant to §254.9 of this subpart.

[59 FR 10867, Mar. 8, 1994; 59 FR 15501, Apr. 1, 1994]

§ 254.6 Segregative effect.
(a) If a proposal is made to exchange Federal lands, the authorized officer may request the appropriate State Office of the Bureau of Management (BLM) to segregate the Federal lands by a notation on the public land records. Subject to valid existing rights, the Federal lands shall be segregated from appropriation under the public land laws and mineral laws for a period not to exceed 5 years from the date of record notation.
(b) Any interests of the United States in the non-Federal lands that are covered by the exchange proposal may be noted and segregated from appropriation under the mineral laws for a period not to exceed 5 years from the date of notation.
(c) The segregative effect terminates as follows:
(1) Automatically, upon issuance of a patent or other document of conveyance to the affected lands;
(2) On the date and time specified in an opening order, published in the Federal Register by the appropriate BLM State Office, if a decision is made not to proceed with the exchange or upon removal of any lands from the exchange proposal; or
(3) Automatically, at the end of the segregation period not to exceed 5 years from the date of notation on the public land records, whichever occurs first.

§ 254.7 Assumption of costs.
(a) Generally, each party to an exchange will bear their own costs of the exchange. However, if the authorized officer finds it is in the public interest as specified in paragraph (b) of this section, an agreement to initiate an exchange may provide that:
(1) One or more of the parties may assume, without compensation, all or part of the costs or other responsibilities or requirements that the authorized officer determines would ordinarily be borne by the other parties; or
(2) Subject to the limitation in paragraph (c) of this section, the parties may agree to make adjustments to the relative values involved in an exchange transaction. In order to compensate parties for assuming costs or other responsibilities or requirements that the authorized officer determines would ordinarily be borne by the other parties. These costs or services may include but are not limited to: land surveys; appraisals; mineral examinations; timber cruises; title searches; title curative actions; cultural resource surveys and mitigation; hazardous substance surveys and controls; removal of encumbrances; arbitration, including all fees; bargaining; cure of deficiencies preventing highest and best use of the land; conduct of public hearings; assemblage of non-Federal parcels from multiple ownerships; and the expenses of complying with laws, regulations, and policies applicable to exchange transactions, or which are necessary to bring the Federal and non-Federal lands involved in the exchange to their highest and best use for appraisal and exchange purposes.
(b) As a condition of an agreement to initiate, the authorized officer may agree to assume without compensation costs ordinarily borne by the non-Federal party or to compensate the non-Federal party for assuming Federal costs only on an exceptional basis when it is clearly in the public interest and when the authorized officer determines and documents that each of the following circumstances exist:
(1) The amount of such cost assumed or compensation is reasonable and accurately reflects the value of the cost or service provided, or any responsibility and requirement assumed;
(2) The proposed exchange is a high priority of the agency;
(3) The land exchange must be expedited to protect important Federal resource values, such as congressionally designated areas or endangered species habitat;
(4) Cash equalization funds are available for compensation of the non-Federal party; and
§ 254.8 Notice of exchange proposal.

(a) Upon entering into an agreement to initiate an exchange, the authorized officer shall publish a notice once a week for four consecutive weeks in newspapers of general circulation in the counties in which the Federal and non-Federal lands or interests proposed for exchange are located. The authorized officer shall notify authorized users, the jurisdictional State and local governments, and the congressional delegation and shall make other distribution of the notice as appropriate. At a minimum, the notice shall include:

(1) The identity of the parties involved in the proposed exchange;
(2) A description of the Federal and non-Federal lands being considered for exchange;
(3) A statement as to the effect of segregation from appropriation under the public land laws and mineral laws, if applicable;
(4) An invitation to the public to submit in writing any comments on or concerns about the exchange proposal, including advising the agency as to any liens, encumbrances, or other claims relating to the lands being considered for exchange; and
(5) The deadline by which comments must be received, and the name, title, and address of the official to whom comments must be sent and from whom additional information may be obtained.

(b) To be assured of consideration in the environmental analysis of the proposed exchange, all comments must be made in writing to the authorized officer and postmarked or delivered within 45 days after the initial date of publication.

(c) The authorized officer is not required to republish legal descriptions of any lands that may be excluded from the final exchange transaction, provided such lands were identified in the notice of exchange proposal. In addition, minor corrections of land descriptions and other insignificant changes do not require republication.

§ 254.9 Appraisals.

The Federal and non-Federal parties to an exchange shall comply with the appraisal standards as set forth in paragraphs (a) through (d) of this section, and, to the extent appropriate, with the Uniform Appraisal Standards for Federal Land Acquisitions: Intergovernment Land Acquisition Conference 1992 (Washington, DC, 1992), ISBN 0-16-038050-2 when appraising the values of the Federal and non-Federal lands involved in an exchange.

(a) Appraiser qualifications.

(1) A qualified appraiser(s) shall provide to the authorized officer appraisals estimating the market value of Federal and non-Federal properties involved in an exchange. A qualified appraiser may be an employee or a contractor to the Federal or non-Federal exchange parties. At a minimum, a qualified appraiser shall be an individual agreeable to all parties and approved by the authorized officer, who is competent, reputable, impartial, and has training and experience in appraising property similar to the property involved in the appraisal assignment.

(2) Qualified appraisers shall possess qualifications consistent with State regulatory requirements that meet the intent of Title XI, Financial Institutions Reform, Recovery, and Enforcement Act of 1989 (FIRREA) (12 U.S.C. 3331). In the event a State or Territory does not have approved policies, practices, and procedures regulating the activities of appraisers, the Forest Service may establish appraiser qualification standards commensurate with those generally adopted by other States or Territories meeting the requirements of FIRREA.

(b) Market value.

(1) In estimating market value, the appraiser shall:

(i) Determine the highest and best use of the property to be appraised;
(ii) Estimate the value of the lands and interests as if in private ownership and available for sale in the open market;

(iii) Include historic, wildlife, recreation, wilderness, scenic, cultural, or other resource values or amenities as reflected in prices paid for similar properties in the competitive market;

(iv) Consider the contributory value of any interest in land such as water rights, minerals, or timber, to the extent they are consistent with the highest and best use of the property; and

(v) If stipulated in the agreement to initiate in accordance with §254.4 of this subpart, estimate separately the value of each property optioned or acquired from multiple ownerships by the non-Federal party for purposes of exchange, pursuant to §254.5 of this subpart. In this case, the appraiser also must estimate the value of the Federal and non-Federal properties in a similar manner.

(2) In estimating market value, the appraiser may not independently add the separate values of the fractional interests to be conveyed, unless market evidence indicates the following:

(i) The various interests contribute their full value (pro rata) to the value of the whole; and

(ii) The valuation is compatible with the highest and best use of the property.

(3) In the absence of current market information reliably supporting value, the authorized officer may use other acceptable and commonly recognized methods to determine market value.

(c) Appraisal report standards. Appraisals prepared for exchange purposes must contain the following minimum information:

(1) A summary of facts and conclusions;

(2) The purpose and/or the function of the appraisal, a definition of the estate being appraised, and a statement of the assumptions and limiting conditions affecting the appraisal assignment, if any;

(3) An explanation of the extent of the appraiser’s research and actions taken to collect and confirm information relied upon in estimating value;

(4) An adequate description of the physical characteristics of the land being appraised; a statement of all encumbrances; title information; location, zoning, and present use; an analysis of highest and best use; and at least a 5-year sales history of the property;

(5) A disclosure of any condition that is observed during the inspection of the property or becomes known to the appraiser through the normal research which would lead the appraiser to believe that hazardous substances may be present on the property being appraised;

(6) A comparative market analysis and, if more than one method of valuation is used, an analysis and reconciliation of the methods used to support the appraiser’s estimate of value;

(7) A description of comparable sales, including a description of all relevant physical, legal, and economic factors such as parties to the transaction, source and method of financing, effect of any favorable financing on sale price, and verification by a party involved in the transaction;

(8) An estimate of market value;

(9) The effective date of valuation, date of appraisal, signature, and certification of the appraiser;

(10) A certification by the appraiser to the following:

(i) The appraiser has personally contacted the property owner or designated representative and offered the owner an opportunity to be present during inspection of the property;

(ii) The appraiser has personally examined the subject property and all comparable sale properties relied upon in the report;

(iii) The appraiser has no present or prospective interest in the appraised property; and

(iv) The appraiser has not received compensation that was contingent on the analysis, opinions, or conclusions contained in the appraisal report; and

(11) Copies of relevant written reports, studies, or summary conclusions prepared by others in association with the appraisal assignment which were relied upon by the appraiser to estimate value, which may include, but is not limited to, current title reports, mineral reports, or timber cruises prepared by qualified specialists.

(d) Appraisal review.
§ 254.10 Appraisal review.

(1) Appraisal reports shall be reviewed by a qualified review appraiser meeting the qualifications set forth in paragraph (a) of this section. Statements of value prepared by agency appraisers are not subject to this review.

(2) The review appraiser shall determine whether the appraisal report:

(i) Is complete, logical, consistent, and supported by market analysis;

(ii) Complies with the standards prescribed in paragraph (c) of this section; and

(iii) Reasonably estimates the probable market value of the lands appraised.

(3) The review appraiser shall prepare a written review report, containing at a minimum:

(i) A description of the review process used;

(ii) An explanation of the adequacy, relevance, and reasonableness of the data and methods used by the appraiser to estimate value;

(iii) The review appraiser’s conclusions regarding the appraiser’s estimate of market value; and

(iv) A certification by the review appraiser to the following:

(A) The review appraiser has no present or prospective interest in the property which is the subject of the review report; and

(B) The review appraiser has not received compensation that was contingent upon approval of the appraisal report.

§ 254.10 Bargaining; arbitration.

(a) Unless the parties to an exchange agree in writing to suspend or modify the deadlines contained in paragraphs (a)(1) through (a)(4) of this section, the parties shall adhere to the following:

(1)(i) Within 180 days from the date of receipt of the appraisal(s) for review and approval by the authorized officer, the parties to an exchange may agree on the appraised values or may initiate a process of bargaining or some other process to determine values. Bargaining or some other process to determine values may involve one or more of the following actions:

(A) Submission of the disputed appraisal(s) to another qualified appraiser for review;

(B) Request for additional appraisals;

(C) Involvement of an impartial third party to facilitate resolution of the value disputes, or

(D) Use of some other acceptable and commonly recognized practice for resolving value disputes.

(ii) Any agreement based upon bargaining must be in writing and made part of the administrative record of the exchange. Such agreement must contain a reference to all relevant appraisal information and state how the parties reconciled or compromised appraisal information to arrive at an agreement based on market value.

(2) If within 180 days from the date of receipt of the appraisal(s) for review and approval by the authorized officer, the parties to an exchange cannot agree on values but wish to continue with the land exchange, the appraisal(s), at the initiative of either party, must be submitted to arbitration, unless, in lieu of arbitration, the parties have employed a process of bargaining or some other process to determine values. If arbitration occurs, it must be conducted in accordance with the real estate valuation arbitration rules of the American Arbitration Association. The Secretary or an official to whom such authority has been delegated shall appoint an arbitrator from a list provided by the American Arbitration Association.

(3) Within 30 days after completion of arbitration, the parties involved in the exchange must determine whether to proceed with the exchange, modify the exchange to reflect the findings of the arbitration or any other factors, or withdraw from the exchange. A decision to withdraw from the exchange may be made upon written notice by either party at this time or at any other time prior to entering into a binding exchange agreement.

(4) If the parties agree to proceed with an exchange after arbitration, the values established by arbitration are binding upon all parties for a period not to exceed 2 years from the date of the arbitration decision.
§ 254.13 Arbitration is limited to the disputed valuation of the lands involved in a proposed exchange and an arbitrator’s award decision is limited to the value estimate(s) of the contested appraisal(s). An arbitrator may not include in an award decision recommendations regarding the terms of a proposed exchange, nor may an arbitrator’s award decision infringe upon the authority of the Secretary to make all decisions regarding management of Federal lands and to make public interest determinations.

§ 254.11 Exchanges at approximately equal value.

(a) The authorized officer may exchange lands which are of approximately equal value upon a determination that:

(1) The exchange is in the public interest and the consummation of the proposed exchange will be expedited;

(2) The value of the lands to be conveyed out of Federal ownership is not more than $150,000 as based upon a statement of value prepared by a qualified appraiser and accepted by an authorized officer;

(3) The Federal and non-Federal lands are substantially similar in location, acreage, use, and physical attributes; and

(4) There are no significant elements of value requiring complex analysis.

(b) The authorized officer, not the non-Federal party, determines whether the Federal and non-Federal lands are approximately equal in value and must document how the determination was made.

§ 254.12 Value equalization; cash equalization waiver.

(a) To equalize the agreed upon values of the Federal and non-Federal lands involved in an exchange, either with or without adjustments of relative values as compensation for various costs, the parties to an exchange may agree to:

(1) Modify the exchange proposal by adding or excluding lands; and/or

(2) Use cash equalization, after making all reasonable efforts to equalize values by adding or deleting lands.

(b) The combined amount of any cash equalization payment and/or the amount of adjustments agreed to as compensation for costs under §254.7 of this subpart may not exceed 25 percent of the value of the Federal lands to be conveyed.

(c) The Secretary of Agriculture may not waive cash equalization payment due the United States, but the parties may agree to waive cash equalization payment due the non-Federal party. The amount to be waived may not exceed 3 percent of the value of the lands being exchanged out of Federal ownership or $15,000, whichever is less.

(d) A cash equalization payment may be waived only after the authorized officer certifies, in writing, that the waiver will expedite the exchange and that the public interest will be best served by the waiver.

§ 254.13 Approval of exchanges; notice of decision.

(a) Upon completion of all environmental analyses and appropriate documentation, appraisals, and all other supporting studies and requirements to determine if a proposed exchange is in the public interest and in compliance with applicable law and regulations, the authorized officer shall decide whether to approve an exchange proposal.

(1) When a decision to approve or disapprove an exchange is made, the authorized officer shall publish a notice of the availability of the decision in newspapers of general circulation. At a minimum, the notice must include:

(i) The date of decision;

(ii) A concise description of the decision;

(iii) The name and title of the deciding official;

(iv) Directions for obtaining a copy of the decision; and

(v) The date of the beginning of the appeal period.

(2) The authorized officer shall distribute notices to the State and local governmental subdivisions having authority in the geographical area within which the lands covered by the notice are located, the non-Federal exchange parties, authorized users of involved Federal lands, the congressional delegation, and individuals who requested notification or filed written objections, and others as appropriate.
§ 254.14 Exchange agreement.

(a) The parties to a proposed exchange may enter into an exchange agreement subsequent to a decision by the authorized officer to approve the exchange, pursuant to §254.13 of this subpart. Such an agreement is required if hazardous substances are present on the non-Federal lands. An exchange agreement must contain the following:

(1) Identification of the parties, description of the lands and interests to be exchanged, identification of all reserved and outstanding interests, stipulation of any necessary cash equalization, and all other terms and conditions necessary to complete an exchange;

(2) Inclusion of the terms regarding responsibility for removal, indemnification ("hold harmless" agreement), or other remedial actions concerning any hazardous substances on the involved non-Federal lands; and

(3) The agreed upon values of the involved lands, until consummation of the land exchange.

(b) An exchange agreement, as described in paragraph (a) of this section, is legally binding on all parties, subject to the terms and conditions thereof, provided:

(1) Acceptable title can be conveyed;

(2) No substantial loss or damage occurs to either property from any cause;

(3) No undisclosed hazardous substances are found on the involved Federal or non-Federal lands prior to conveyance;

(4) The exchange proposal receives any required Secretarial approval;

(5) No objections are raised during any required congressional oversight;

(6) In the event of an appeal under 36 CFR part 215 or 36 CFR part 251, subpart C, a decision to approve an exchange proposal pursuant to §254.13 of this subpart is upheld; and

(7) The agreement is not terminated by mutual consent or upon such terms as may be provided in the agreement.

(c) In the event of a failure to perform or to comply with the terms of an exchange agreement, the noncomplying party is liable for all costs borne by the other party as a result of the proposed exchange, including, but not limited to, land surveys, appraisals, mineral examinations, timber cruises, title searches, title curative actions, cultural resource surveys and mitigations, hazardous substance surveys and controls, removal of encumbrances, arbitration, curing deficiencies preventing highest and best use of the land, and any other expenses incurred in processing the proposed land exchange.

(d) Absent an executed exchange agreement, an action taken by the parties prior to consummation of an exchange does not create any contractual or other binding obligations or rights enforceable against any party.

§ 254.15 Title standards.

(a) Title evidence.

(1) Unless otherwise specified by the USDA Office of the General Counsel, evidence of title for the non-Federal lands being conveyed to the United States must be in recordable form and in conformance with the Department of Justice regulations and “Standards for the Preparation of Title Evidence in Land Acquisitions by the United States” in effect at the time of conveyance.

(2) The United States is not required to furnish title evidence for the Federal lands being exchanged.

(b) Conveyance documents.

(1) Unless otherwise specified by the USDA Office of the General Counsel, all conveyances to the United States must be prepared, executed, and acknowledged in accordance with the Department of Justice regulations and “Standards for the Preparation of Title Evidence in Land Acquisitions by the United States” in effect at the time of conveyance.

(2) Conveyances of lands from the United States are made by patent,
§ 254.16 Case closing.

(a) Title transfers. Unless otherwise agreed, and notwithstanding the decision in United States v. Schurz, 102 U.S. 378 (1880), or any other law or ruling to the contrary, title to both the non-Federal and Federal lands pass simultaneously and are deemed accepted by the United States and the non-Federal landowner, respectively, when the documents of conveyance are recorded in the county clerk’s or other local recorder’s office. Before recordation, all instructions, requirements, and conditions set forth by the United States and the non-Federal landowner must be met. The minimum requirements and conditions necessary for recordation include the following, as appropriate:

(1) The determination by the authorized officer that the United States will receive possession, acceptable to it, of such lands;

(2) The issuance of title evidence as of the date of recordation which conforms to the instructions and requirements of the USDA Office of the General Counsel’s preliminary title opinion; and

(3) The documents conveying the title must conform to the instructions and requirements of the USDA Office of the General Counsel’s preliminary title opinion.
§ 254.17 Information requirements.

The requirements governing the preparation of an agreement to initiate in §254.4 of this subpart and an exchange agreement in §254.14 of this subpart constitute information requirements as defined by the Paperwork Reduction Act of 1980 (44 U.S.C. 3507) and have been approved for use pursuant to 5 CFR part 1320 and assigned OMB Control Number 0596–0105.

§ 254.17 Continuation searches disclosing no matters of record that would require any change in the aforementioned title evidence as issued.

(b) Automatic segregation of lands. Subject to valid existing rights, non-Federal lands acquired through exchange by the United States automatically are segregated from appropriation under the public land laws and mineral laws until midnight of the 90th day after acceptance of title by the United States, and the public land records must be noted accordingly. Thereafter, the lands will be open automatically to operation of the public land laws and mineral laws, except to the extent otherwise provided by law, unless action is taken pursuant to 43 CFR part 2300 to initiate a withdrawal within the 90-day period.

§ 254.20 Purpose and scope.

(a) A Forest Service official may, upon application, set aside and designate for townsitew purposes up to 640 acres of National Forest System lands adjacent to or contiguous to an established community in Alaska, Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

(b) National Forest System lands, needed by a community, may be sold under the Townsite Act, for fair market value if those lands would serve indigenous community objectives that outweigh the public objectives and values of retaining the lands in Federal ownership. Indigenous community objectives may include space for housing and for service industries, expansion of existing economic enterprises, new industries utilizing local resources and skills, public schools, public health facilities, community parks, and other recreation areas for local citizens, but would exclude such uses as commercial enterprises or new industries and housing projects that would change the character of the local community.

§ 254.21 Applications.

(a) An application to purchase National Forest System lands—

(1) Must be made by designated officials (authorized to do business in the name of a county, city, or local governmental subdivision;

(2) May be in the form of a letter, ordinance, or resolution;

(3) Must be furnished to the District Ranger or the Forest Supervisor for the National Forest area in which the lands are situated; and

(4) Must be limited to 640 acres or less adjacent to an established community.

(b) An application must be accompanied by—

(1) A description of the land desired; and

(2) A development plan, consisting of a narrative statement and map, which gives a detailed description of the intended use of the site and how essential community needs will be met by the purchase.

§ 254.22 Designation and public notice.

(a) A Forest Service official must—

(1) Ensure the application meets the requirements of §254.21;

(2) Process an order to set aside and designate the lands for townsite purposes; and

(3) Transmit, where applicable, a copy of the designation order to the State Director, Bureau of Land Management.

(b) The designation order will segregate the lands from other forms of entry as long as the application remains in force.
(c) The designation order does not preclude compatible land adjustments under the Secretary's authority within the area set aside.

(d) A Forest Service official must prepare a public notice of the proposed townsite sale to be inserted once a week for 4 consecutive weeks in a local newspaper:

(1) The notice shall include descriptive information on the proposed townsite sale and identify the applicant and responsible Forest Service official; and

(2) A period of 45 days, from first date of publication, must be provided for accepting public comments.

§ 254.23 Studies, assessments, and approval.

(a) After initial public notice has been published, a Forest Service official must conduct the necessary studies and assessments to—

(1) Determine if the applicant has made a satisfactory showing that the land will meet essential community needs resulting from internal growth;

(2) Determine if lands applied for would serve indigenous objectives that outweigh other public objectives and values which would be served by maintaining such a tract in Federal ownership;

(3) Determine if the sale would substantially affect or impair important scenic, wildlife, environmental, historical, archeological, or cultural values;

(4) Evaluate the applicability of public comments;

(5) Identify the extent of valid existing rights and uses; and

(6) Determine if zoning ordinances, covenants, or standards are needed to protect adjacent National Forest land and to protect or mitigate valid existing rights and uses.

(b) Upon approval, the authorized Forest Service official shall take appropriate steps to have an assessment made of the fair market value of the land and process the conveyance pursuant to §§254.24, 254.25, and 254.26.

(c) Upon disapproval, a Forest Service official shall—

(1) Notify the applicant in writing of the reasons the proposal is not acceptable;

(2) Inform the applicant of alternate proposals under other authorities and/or appeal rights.

§ 254.24 Conveyance.

(a) Conveyance of the approved tract(s) may be made by a single transaction or by multiple transactions spread over a period of time in accordance with a prearranged schedule.

(b) The authorized Forest Service official shall—

(1) Execute and convey title to the townsite tract(s) by quitclaim deed;

(2) Ensure deeds are free of terms and covenants, except those deemed necessary to ensure protection of adjacent National Forest System land and/or valid existing rights and uses; and

(3) Deliver executed deeds to the governmental body upon—

(i) Adoption of zoning ordinance and development plan if found necessary; and

(ii) Notice from the authorized Forest Service Fiscal Agent that payment has been received.

§ 254.25 Survey.

The authorized Forest Service official shall conduct or provide for the necessary tract survey and boundary posting of National Forest System land.

§ 254.26 Appraisal.

Fair market value of townsite tracts shall be determined following Forest Service appraisal procedures and the Uniform Standards for Federal Acquisitions.

Subpart C—Conveyance of Small Tracts

SOURCE: 49 FR 1185, Jan. 10, 1984, unless otherwise noted.

§ 254.30 Purpose.

These regulations set forth procedures by which the Secretary of Agriculture may resolve land disputes and management problems pursuant to Pub. L. 97–465, commonly called the Small Tracts Act, by conveying, through sale, exchange, or interchange,
§ 254.31 Definitions.

For the purpose of this subpart,

An applicant is a person who occupies or has improvements on National Forest System land under claim of title or color of title, or who owns land abutting or underlying a road right-of-way, or who owns land interspersed with or adjacent to mineral survey fractions.

Approximately equal value is a comparative estimate of value of lands involved in an interchange where elements of value, such as physical characteristics and other amenities, are readily apparent and substantially similar.

Claim of title is a claim of land as a person’s own, based on any reasonable evidence which establishes the person’s actual use of the land as though the person had full title thereto from the time the person obtained ownership of abutting land.

Color of title arises from an instrument purporting to convey title to a tract of land.

Encroachments are improvements occupied or used on National Forest System land under claim of title or color of title.

Exchange is a discretionary, voluntary transaction involving mutual transfers of land or interests in land between the Secretary of Agriculture acting by and through the Forest Service and a nonfederal entity.

Good faith is honesty of intention and freedom from knowledge of circumstances which ought to put a prudent person upon inquiry.

Improvements mean an addition to property costing labor or capital which affects its value. The term generally includes fixtures, structures and attendant facilities, or buildings.

Interchange is a land transfer in which the Secretary and another person exchange lands or interests in lands of approximately equal value without a formal appraisal.

Mineral survey fractions are small parcels of National Forest System lands interspersed with or adjacent to lands transferred out of Federal ownership under the mining laws.

Person includes any nonfederal entity such as a State or any political subdivision as well as any individual or business entity.

Secretary refers to the Secretary of the United States Department of Agriculture.

§ 254.32 Encroachments.

(a) Conveyances under this subpart are limited to tracts of 10 acres or less to resolve encroachments by persons:

(1) To whom no advance notice was given that the improvements encroached or would encroach, and

(2) Who in good faith relied on an erroneous survey, title search, or other land description which did not reveal such encroachment.

(b) Forest Service officials shall consider the following factors when determining whether to convey lands upon which encroachments exist:

(1) The location of the property boundaries based on historical location and continued acceptance and maintenance,

(2) Factual evidence of claim of title or color of title,

(3) Notice given to persons encroaching on National Forest System lands,

(4) Degree of development in the encroached upon area, and

(5) Creation of an uneconomic remnant.

§ 254.33 Road rights-of-way.

(a) Reserved or acquired road right-of-way parcels subject to conveyance under this subpart are limited to those which are substantially surrounded by lands not owned by the United States.

(b) Forest Service officials shall consider public road system right-of-way needs based on National Forest transportation planning and State and local law before making any conveyance of rights-of-way.

(c) Reimbursement will be required for the value of any improvements made by the United States or other highway authorities, unless waived by the Chief of the Forest Service.
§ 254.34 Mineral survey fractions.
(a) Mineral survey fractions subject to conveyance under this subpart are limited to those tracts which:
   (1) Cannot be efficiently administered because of size, shape, or location;
   (2) Are occupied or could be occupied or used by adjoining owners; and
   (3) When sold separately or aggregated in one transaction, do not exceed 40 acres.
(b) Forest Service officials shall consider the following criteria in determining whether to convey mineral survey fractions under this subpart:
   (1) The mineral survey fractions are interspersed among and are more or less an integral part of private land holdings;
   (2) The feasibility and cost of surveying the parcels in order to manage them effectively;
   (3) The size, shape, and location of the parcels as they affect management, utility, access, occupancy or use of the parcels or the lands with which they are interspersed.

§ 254.35 Limitations.
(a) Lands within the National Wilderness Preservation System, the National Wild and Scenic Rivers System, the National Trails System, and National Monuments are excluded from any conveyance under these provisions.
(b) Lands within National Recreation Areas may not be conveyed by sale under this subpart.
(c) The value of Federal lands conveyed in any transaction, pursuant to this subpart, shall not exceed $150,000.
(d) Compensation for lands conveyed shall be of at least equal value, or in the case of interchange, of approximately equal value, and may be in the form of land, interest in land (including minerals), or cash, or any combination thereof.
(e) The sale, exchange, or interchange of lands or interest in lands under these rules are discretionary and shall be made only if found to be in the public interest.
(f) The abutting landowner(s) shall have the first right of acquisition.
(g) The area of land conveyed shall be limited to the minimum necessary to resolve encroachment or land management problems.

§ 254.36 Determining public interest.
(a) The requirements of § 254.35 and of one of § 254.32, § 254.33, or § 254.34 must be met before a determination of public interest can be made.
(b) Before a conveyance is made under this subpart, such conveyance must be determined to be in the public interest.
(c) Forest Service officials shall consider the following criteria in determining when the public interest will be served:
   (1) Sale, exchange, or interchange of the affected lands is not practicable under any other authority of the Secretary;
   (2) Administration and management of National Forest System lands will be more efficient and will result in improved utilization;
   (3) Access to and use and enjoyment of National Forest System lands by the general public will not be unduly impeded or restricted;
   (4) New or extensive inholdings which would create management problems will not be established;
   (5) Scenic, wildlife, environmental, historical, archaeological, or cultural values will not be substantially affected or impaired;
   (6) Existence of structures authorized under a special use permit or easement,
   (7) Applicable Federal, State, and local laws, rules, regulations, and zoning ordinances will not be violated.

§§ 254.37—254.39 [Reserved]

§ 254.40 Applications.
(a) A request for conveyance of National Forest System land must be made in writing to the District Ranger or the Forest Supervisor who has administrative jurisdiction over the land.
(b) The applicant shall bear all reasonable costs of administration, survey, and appraisal incidental to the conveyance.
(c) Costs incidental to the conveyance may be waived at the discretion of the Chief of the Forest Service.
§ 254.41 Public sale or exchange in absence of application.

(a) Mineral survey fractions or road rights-of-way which have not been applied for by an abutting landowner may be offered to the public for sale or exchange at not less than fair market value.

(b) Public notice of a proposed sale of land for which there is no applicant shall be published once a week for four consecutive weeks in a local newspaper prior to the date of sale.

(c) The public notice shall describe the lands to be sold, minimum acceptable price, conditions of sale, sealed or oral bid procedures, date and location of sale.

§ 254.42 Valuation of tracts.

(a) Approximately equal value shall be determined by comparing and evaluating the elements of value on the lands or interest in lands to be interchanged. Elements of value to be considered include size, shape, location, physical attributes, functional utility, proximity of other similar sites, and amenities in the immediate environs of the parcel. Findings that tracts are approximately equal in value shall be documented. An applicant must signify acceptance of the value determination by signing the documented findings prior to the interchange.

(b) Equal value in sale or exchange transactions shall be developed by recognized appraisal methods following Forest Service appraisal procedures and the Uniform Appraisal Standards for Federal Land Acquisition. The date of the value estimate will be current with the date of sale or exchange.

(c) Improvements to National Forest System land made by any persons other than the Government may be excluded from the property value determinations.

§ 254.43 Surveys.

All necessary tract surveys of National Forest System land shall be conducted by a licensed private surveyor under Forest Service instructions, contracted by the person applying for the conveyance, or by a Forest Service surveyor. The person will also be required to have all Federal property boundaries resulting from a conveyance marked and posted to Forest Service standards.

§ 254.44 Document of conveyance.

(a) Title to the United States may be conveyed by quitclaim or warranty deed. The United States will convey title only by quitclaim deed.

(b) Deeds shall be free of terms, conditions, and covenants except those deemed necessary to ensure protection of the public interest.

(c) A copy of all documents of conveyance will be transmitted after recordation, where applicable, to the appropriate State Office of the Bureau of Land Management.
§ 261.2 Definitions.

The following definitions apply to this part:

Archaeological resource means any material remains of prehistoric or historic human life or activities which are of archaeological interest and are at least 50 years of age, and the physical site, location, or context in which they are found.

Campfire means a fire, not within any building, mobile home or living accommodation mounted on a motor vehicle, which is used for cooking, personal warmth, lighting, ceremonial, or aesthetic purposes. Fire includes campfire.
§261.2  

Camping means the temporary use of National Forest System lands for the purpose of overnight occupancy without a permanently-fixed structure.  

Camping equipment means the personal property used in or suitable for camping, and includes any vehicle used for transportation and all equipment in possession of a person camping. Food and beverage are not considered camping equipment.  

Cave means any naturally occurring void, cavity, recess, or system of interconnected passages beneath the surface of the earth or within a cliff or ledge and which is large enough to permit a person to enter, whether the entrance is excavated or naturally formed. Such term shall include any natural pit, sinkhole, or other opening which is an extensive of a cave entrance or which is an integral part of the cave.  

Cave resources mean any materials or substances occurring in caves including, but not limited to, biotic, cultural, mineralogic, paleontologic, geologic, and hydrologic resources.  

Commercial use or activity—any use or activity on National Forest System lands (a) where an entry or participation fee is charged, or (b) where the primary purpose is the sale of a good or service, and in either case, regardless of whether the use or activity is intended to produce a profit.  

Damaging means to injure, mutilate, deface, destroy, cut, chop, girdle, dig, excavate, kill or in any way harm or disturb.  

Developed recreation site means an area which has been improved or developed for recreation.  

Distribution of printed material—disseminating, posting, affixing, or erecting printed material as defined in this section.  

Forest officer means an employee of the Forest Service.  

Historical resource means any structural, architectural, archaeological, artificial or other material remains of past human life or activities which are of historical interest and are at least 50 years of age, and the physical site, location, or context in which they are found.  

Motorized equipment means any machine activated by a nonliving power source except small battery-powered handcarried devices such as flashlights, shavers, Geiger counters, and cameras.  

Motor vehicle means any vehicle which is self-propelled or any vehicle which is propelled by electric power obtained from batteries, but not operated on rails.  

National Forest System includes all national forest lands and waters reserved or withdrawn from the public domain of the United States, national forest lands and waters acquired through purchase, exchange, donation, or other means, national grasslands and land utilization projects and waters administered under title III of the Bankhead-Jones Farm Tenant Act (50 Stat. 525, 7 U.S.C. 1010–1012), and other lands, waters, or interests therein acquired under the Wild and Scenic River Act (16 U.S.C. 1271–1287) or National Trails System Act (16 U.S.C. 1241–1249).  

National Forest System road means a road wholly or partly within or adjacent to and serving a part of the National Forest System and which has been included in a forest transportation atlas.  

National Forest System trail means a trail wholly or partly within or adjacent to and serving a part of the National Forest System and which has been included in a forest transportation atlas.  

National Forest wilderness means those parts of the National Forest System which were designated units of the National Wilderness Preservation System by the Wilderness Act of September 3, 1964, and such other areas of the National Forest System as are added to the wilderness system by act of Congress.  

Operating plan means a plan of operations as provided for in 36 CFR part 228, subpart A, and a surface use plan of operations as provided for in 36 CFR part 229, subpart E.  

Paleontological resource means any evidence of fossilized remains of multicellular invertebrate and vertebrate animals and multicellular plants, including imprints thereof. Organic remains primarily collected for use as fuel such as coal and oil are Paleontological Resources, but are excluded from the prohibitions under the rule.
§ 261.2 Definition of terms

Person means natural person, corporation, company, partnership, trust, firm, or association of persons.

Permission means oral authorization by a forest officer.

Permit means authorization in writing by a forest officer.

Prehistoric resource means any structural, architectural, archaeological, artifactual or other material remains of past human life or activity generally prior to the advent of written records and of anthropological interest, and the physical site, location, or context in which they are found.

Primitive areas are those areas within the National Forest System classified as Primitive on the effective date of the Wilderness Act, September 3, 1964.

Printed material—any written and/or graphic material including but not limited to pamphlets, brochures, photographs, graphics, signs, and posters.

Publicly nude means nude in any place where a person may be observed by another person. Any person is nude if the person has failed to cover the rectal area, pubic area or genitals. A female person is also nude if she has failed to cover both breasts below a point immediately above the top of the areola. Each such covering must be fully opaque. No person under the age of 10 years shall be considered publicly nude.

Special-use authorization means a permit, term permit, lease or easement which allows occupancy, or use rights or privileges of National Forest System land.

State means any State, the Commonwealth of Puerto Rico, and the District of Columbia.

State law means the law of any State in whose exterior boundaries an act or omission occurs regardless of whether State law is otherwise applicable.

Stove fire means a campfire built inside an enclosed stove or grill, a portable brazier, or a pressurized liquid or gas stove, including a space-heating device.

Unauthorized livestock means any cattle, sheep, goat, hog, or equine not defined as a wild free-roaming horse or burro by § 222.20(b)(13), which is not authorized by permit to be upon the land on which the livestock is located and which is not related to use authorized by a grazing permit; provided, that noncommercial pack and saddle stock used by recreationists, travelers, other Forest visitors for occasional trips, as well as livestock to be trailed over an established driveway when there is no overnight stop on Forest Service administered land do not fall under this definition.

Vehicle means any device in, upon, or by which any person or property is or may be transported, including any frame, chassis, or body of any motor vehicle, except devices used exclusively upon stationary rails or tracks.

Volunteer or hosted enrollee means any person, not a Forest Service employee, officially participating in a Forest Service human resource program as authorized by an act of Congress and identified to accomplish one or more of the following objectives: provide skills training; education; useful work; develop understanding of ecological systems and conservation of natural resources; build cultural and communication bridges between various socio-economic groups; and further the administration, development, and management of National Forest resources, forest research, and State and Private Forest activities.

Wild free-roaming horses and burros mean all unbranded and unclaimed horses and burros and their progeny that have used lands of the National Forest System on or after December 15, 1971, or do hereafter use these lands as all or part of their habitat, but does not include any horse or burro introduced onto National Forest System lands on or after December 15, 1971, by accident, negligence, or willful disregard of private ownership. Unbranded, claimed horses and burros, where the claim is found to be erroneous, are also considered as wild and free-roaming if they meet the criteria above.

§ 261.3 Interfering with a Forest officer, volunteer, or human resource program enrollee or giving false report to a Forest officer.

The following are prohibited:

(a) Threatening, resisting, intimidating, or interfering with any forest officer engaged in or on account of the performance of his official duties in the protection, improvement, or administration of the National Forest System is prohibited.

(b) Giving any false, fictitious or fraudulent report or other information to any Forest Officer engaged in or on account of the performance of his official duties knowing that such report or other information contains false, fictitious or fraudulent statement or entry.

(c) Threatening, intimidating, or intentionally interfering with any Forest officer, volunteer, or human resource program enrollee while engaged in, or on account of, the performance of duties for the protection, improvement, or administration of the National Forest System or other duties assigned by the Forest Service.

§ 261.4 Disorderly conduct.

The following are prohibited:

(a) Engaging in fighting.

(b) Addressing any offensive, derisive, or annoying communication to any other person who is lawfully present when such communication has a direct tendency to cause acts of violence by the person to whom, individually, the remark is addressed.

(c) Make statements or other actions directed toward inciting or producing imminent lawless action and likely to incite or produce such action.

(d) Causing public inconvenience, annoyance, or alarm by making unreasonably loud noise.

[46 FR 33520, June 30, 1981]

§ 261.5 Fire.

The following are prohibited:

(a) Carelessly or negligently throwing or placing any ignited substance or other substance that may cause a fire.

(b) Firing any tracer bullet or incendiary ammunition.

(c) Causing timber, trees, slash, brush or grass to burn except as authorized by permit.

(d) Leaving a fire without completely extinguishing it.

(e) Allowing a fire to escape from control.

(f) Building, attending, maintaining, or using a campfire without removing all flammable material from around the campfire adequate to prevent its escape.

§ 261.6 Timber and other forest products.

The following are prohibited:

(a) Cutting or otherwise damaging any timber, tree, or other forest product, except as authorized by a special-use authorization, timber sale contract, or Federal law or regulation.

(b) Cutting any standing tree, under permit or timber sale contract, before a Forest Officer has marked it or has otherwise designated it for cutting.

(c) Removing any timber or other forest product cut under permit or timber sale contract, except to a place designated for scaling, or removing it from that place before it is scaled, measured, counted, or otherwise accounted for by a forest officer.

(d) Stamping, marking with paint, or otherwise identifying any tree or other forest product in a manner similar to that employed by forest officers to mark or designate a tree or any other forest product for cutting or removal.

(e) Loading, removing or hauling timber or other forest product acquired under any permit or timber sale contract, except to a place designated for scaling, or removing it from that place before it is scaled, measured, counted, or otherwise accounted for by a forest officer.

(f) Selling or exchanging any timber or other forest product obtained under free use pursuant to §§ 223.5 through 223.11.

(g) Violating any timber export or substitution restriction in §§ 223.160 through 223.164.

(h) Removing any timber, tree or other forest product, except as authorized by a special-use authorization, timber sale contract, or Federal law or regulation.

(i) Violating the Forest Resources Conservation and Shortage Relief Act
§261.10 Occupancy and use.

The following are prohibited:

(a) Constructing, placing, or maintaining any kind of road, trail, structure, fence, enclosure, communication equipment, or other improvement on National Forest System land or facilities without a special-use authorization, contract, or approved operating plan.

(b) Taking possession of, occupying, or otherwise using National Forest System lands for residential purposes without a special-use authorization, or as otherwise authorized by Federal law or regulation.

(c) Selling or offering for sale any merchandise or conducting any kind of commercial activity without a special-use authorization, contract, or approved operating plan.
work activity or service unless authorized by Federal law, regulation, or special-use authorization.

d) Discharging a firearm or any other implement capable of taking human life, causing injury, or damaging property as follows:

1. In or within 150 yards of a residence, building, campsite, developed recreation site or occupied area, or

2. Across or on a National Forest System road or a body of water adjacent thereto, or in any manner or place whereby any person or property is exposed to injury or damage as a result in such discharge.

3. Into or within any cave.

e) Abandoning any personal property.

f) Placing a vehicle or other object in such a manner that it is an impediment or hazard to the safety or convenience of any person.

g) Commercial distribution of printed material without a special-use authorization.

h) When commercially distributing printed material, delaying, halting, or preventing administrative use of an area by the Forest Service or other scheduled or existing uses or activities on National Forest System lands; misrepresenting the purposes or affiliations of those selling or distributing the material; or misrepresenting the availability of the material without cost.

i) Operating or using in or near a campsite, developed recreation site, or over an adjacent body of water without a permit, any device which produces noise, such as a radio, television, musical instrument, motor or engine in such a manner and at such a time so as to unreasonably disturb any person.

j) Operating or using a public address system, whether fixed, portable or vehicle mounted, in or near a campsite or developed recreation site or over an adjacent body of water without a special-use authorization.

k) Use or occupancy of National Forest System land or facilities without special-use authorization when such authorization is required.

l) Violating any term or condition of a special-use authorization, contract or approved operating plan.

(m) Failing to stop a vehicle when directed to do so by a Forest Officer.

(n) Failing to pay any special use fee or other charges as required.

(o) Discharging or igniting a firecracker, rocket or other firework, or explosive into or within any cave.

\[42 \text{ FR } 2957, \text{ Jan. } 14, 1977, \text{ as amended at } 46 \text{ FR } 33520, \text{ June } 30, 1981; 49 \text{ FR } 25450, \text{ June } 21, 1984; 53 \text{ FR } 16550, \text{ May } 18, 1988; 59 \text{ FR } 31152, \text{ June } 17, 1994; 60 \text{ FR } 45265, \text{ Aug. } 30, 1995; 66 \text{ FR } 3218, \text{ Jan. } 12, 2001\]

\( § 261.11 \) Sanitation.

The following are prohibited:

(a) Depositing in any toilet, toilet vault, or plumbing fixture any substance which could damage or interfere with the operation or maintenance of the fixture.

(b) Possessing or leaving refuse, debris, or litter in an exposed or unsanitary condition.

(c) Placing in or near a stream, lake, or other water any substance which does or may pollute a stream, lake, or other water.

(d) Failing to dispose of all garbage, including any paper, can, bottle, sewage, waste water or material, or rubbish either by removal from the site or area, or by depositing it into receptacles or at places provided for such purposes.

(e) Dumping of any refuse, debris, trash or litter brought as such from private property or from land occupied under permit, except, where a container, dump or similar facility has been provided and is identified as such, to receive trash generated from private lands or lands occupied under permit.

\[42 \text{ FR } 2957, \text{ Jan. } 14, 1977, \text{ as amended at } 46 \text{ FR } 33520, \text{ June } 30, 1981\]

\( § 261.12 \) National Forest System roads and trails.

The following are prohibited:

(a) Violating the load, weight, height, length, or width limitations prescribed by State law except by special-use authorization or written agreement or by order issued under §261.54 of this Chapter.

(b) Failing to have a vehicle weighed at a Forest Service weighing station, if required by a sign.
Forest Service, USDA

§ 261.13 Use of vehicles off roads.

It is prohibited to operate any vehicle off National Forest System, State or County roads:

(a) Without a valid license as required by State law.

(b) Without an operable braking system.

(c) From one-half hour after sunset to one-half hour before sunrise unless equipped with working head and tail lights.

(d) In violation of any applicable noise emission standard established by any Federal or State agency.

(e) While under the influence of alcohol or other drug;

(f) Creating excessive or unusual smoke;

(g) Carelessly, recklessly, or without regard for the safety of any person, or in a manner that endangers, or is likely to endanger, any person or property.

(h) In a manner which damages or unreasonably disturbs the land, wildlife, or vegetative resources.

(i) In violation of State law established for vehicles used off roads.

§ 261.14 Developed recreation sites.

The following are prohibited:

(a) Occupying any portion of the site for other than recreation purposes.

(b) Building, attending, maintaining, or using a fire outside of a fire ring provided by the Forest Service for such purpose or outside of a stove, grill or fireplace.

(c) Cleaning or washing any personal property, fish, animal, or food, or bathing or washing at a hydrant or water faucet not provided for that purpose.

(d) Discharging or igniting a firecracker, rocket or other firework, or explosive.

(e) Occupying between 10 p.m. and 6 a.m. a place designated for day use only.

(f) Failing to remove all camping equipment or personal property when vacating the area or site.

(g) Placing, maintaining, or using camping equipment except in a place specifically designated or provided for such equipment.

(h) Without permission, failing to have at least one person occupy a camping area during the first night after camping equipment has been set up.

(i) Leaving camping equipment unattended for more than 24 hours without permission.

(j) Bringing in or possessing an animal, other than a seeing eye dog, unless it is crated, caged, or upon a leash not longer than six feet, or otherwise under physical restrictive control.

(k) Bringing in or possessing in a swimming area an animal, other than a seeing eye dog.

(l) Bringing in or possessing a saddle, pack, or draft animal except as authorized by posted instructions.

(m) Operating or parking a motor vehicle or trailer except in places developed or designated for this purpose.

(n) Operating a bicycle, motorbike, or motorcycle on a trail unless designated for this use.

(o) Operating a motorbike, motorcycle, or other motor vehicle for any purpose other than entering or leaving the site.

(p) Depositing any body waste except into receptacles provided for that purpose.

§ 261.15 Admission, recreation use and special recreation permit fees.

Failing to pay any fee established for admission or entrance to or use of a site, facility, equipment or service furnished by the United States is prohibited. The maximum fine shall not exceed $100.

(Sec. 2, 78 Stat. 897, as amended; 16 U.S.C. 460l–6(e))
§ 261.16 National Forest Wilderness.

The following are prohibited in a National Forest Wilderness:

(a) Possessing or using a motor vehicle, motorboat or motorized equipment except as authorized by Federal Law or regulation.

(b) Possessing or using a hang glider or bicycle.

(c) Landing of aircraft, or dropping or picking up of any material, supplies, or person by means of aircraft, including a helicopter.

§ 261.17 Boundary Waters Canoe Area Wilderness.

The following are prohibited in the Boundary Waters Canoe Area Wilderness:

(a) Possessing or transporting any motor or other mechanical device capable of propelling a watercraft through water by any means, except by permit or as specifically authorized by Federal law or regulation.

(b) Transporting, using, or mooring amphibious craft of any type or any watercraft designed for or used as floating living quarters.

(c) Using wheels, rollers, or other mechanical devices for the overland transportation of any watercraft, except by special-use authorization, or as authorized by Federal law or regulation.

§ 261.18 Pacific Crest National Scenic Trail.

It is prohibited to use a motorized vehicle on the Pacific Crest National Scenic Trail without a special-use authorization.

[49 FR 25450, June 21, 1984]

§ 261.19 National Forest primitive areas.

The following are prohibited in any area classified as a National Forest Primitive Area on September 3, 1964:

(a) Landing of aircraft or using a motor boat, unless such use had become well established before September 3, 1964.

(b) Possessing or using a motor or motorized equipment, except small battery powered, hand-held devices, such as cameras, shavers, flashlights, and Geiger-counters.

[42 FR 35959, July 13, 1977]

§ 261.20 Unauthorized use of “Smokey Bear” and “Woodsy Owl” symbol.

(a) Manufacture, importation, reproduction, or use of “Smokey Bear” except as provided under §§271.2, 271.3, or 271.4 is prohibited.

(b) Manufacture, importation, reproduction, or use of “Woodsy Owl” except as provided under §§272.2, 272.3, or 272.4 is prohibited.

§ 261.21 Wild free-roaming horses and burros.

The following are prohibited:

(a) Removing or attempting to remove a wild free-roaming horse or burro from the National Forest System unless authorized by law or regulation.

(b) Causing or allowing the inhumane treatment or harassment of a wild free-roaming horse or burro.

(c) Removing or attempting to remove, alter or destroy any official mark used to identify a wild horse or burro or its remains unless authorized or permitted by law or regulation.

(d) Violating any terms or conditions specified in a care and maintenance agreement or permit.

[46 FR 33520, June 30, 1981]
§261.53  Special closures.

When provided in an order, it is prohibited to go into or be upon any area which is closed for the protection of:

(a) Placing a copy of the order imposing each prohibition in the offices of the Forest Supervisor and District Ranger, or equivalent officer who have jurisdiction over the lands affected by the order, and
(b) Displaying each prohibition imposed by an order in such locations and manner as to reasonably bring the prohibition to the attention of the public.

§261.52  Fire.

When provided by an order, the following are prohibited:

(a) Building, maintaining, attending or using a fire, campfire, or stove fire.
(b) Using an explosive.
(c) Smoking.
(d) Smoking, except within an enclosed vehicle or building, a developed recreation site, or while stopped in an area at least three feet in diameter that is barren or cleared of all flammable material.
(e) Going into or being upon an area.
(f) Possessing, discharging or using any kind of firework or other pyrotechnic device.
(g) Entering an area without any firefighting tool prescribed by the order.
(h) Operating an internal combustion engine.
(i) Welding, or operating an acetylene or other torch with open flame.
(j) Operating or using any internal or external combustion engine without a spark arresting device properly installed, maintained and in effective working order meeting either:
   (1) Department of Agriculture, Forest Service Standard 5100–1a; or
   (2) Appropriate Society of Automotive Engineers (SAE) recommended practice J335(b) and J350(a).
(k) Violating any state law specified in the order concerning burning, fires or which is for the purpose of preventing, or restricting the spread of fires.

§261.51  Posting.

Posting is accomplished by:

(a) Placing a copy of the order imposing each prohibition in the offices of the Forest Supervisor and District Ranger, or equivalent officer who have jurisdiction over the lands affected by the order, and
(b) Displaying each prohibition imposed by an order in such locations and manner as to reasonably bring the prohibition to the attention of the public.
§ 261.54 National Forest System roads.

When provided by an order, the following are prohibited:

(a) Using any type of vehicle prohibited by the order.
(b) Use by any type of traffic prohibited by the order.
(c) Operating a vehicle in violation of the speed, load, weight, height, length, width, or other limitations specified by the order.
(d) Operating a vehicle carelessly, recklessly, or without regard for the rights or safety of other persons or in a manner or at a speed that would endanger or be likely to endanger any person or property.

§ 261.55 Forest development trails.

When provided by an order issued in accordance with §261.50 of this subpart, the following are prohibited on a forest development trail:

(a) Being on a trail.
(b) Using any type of vehicle prohibited by the order.
(c) Use by any type of traffic or mode of transport prohibited by the order.
(d) Operating a vehicle in violation of the width, weight, height, length, or other limitations specified by the order.
(e) Shortcutting a switchback in a trail.

§ 261.56 Use of vehicles off National Forest System roads.

When provided by an order, it is prohibited to possess or use a vehicle off National Forest System roads.

§ 261.57 National Forest wilderness.

When provided by an order, the following are prohibited:

(a) Entering or being in the area.
(b) Possessing camping or pack-outfitting equipment, as specified in the order.
(c) Possessing a firearm or firework.
(d) Possessing any non-burnable food or beverage containers, including deposit bottles, except for non-burnable containers designed and intended for repeated use.
(e) Grazing.
(f) Storing equipment, personal property or supplies.
(g) Disposing of debris, garbage, or other waste.
(h) Possessing or using a wagon, cart or other vehicle.

§ 261.58 Occupancy and use.

When provided by an order, the following are prohibited:

(a) Camping for a period longer than allowed by the order.
(b) Entering or using a developed recreation site or portion thereof.
(c) Entering or remaining in a campground during night periods prescribed in the order except for persons who are occupying such campgrounds.
(d) Occupying a developed recreation site with prohibited camping equipment prescribed by the order.
(e) Camping.
(f) Using a campsite or other area described in the order by more than the number of users allowed by the order.
(g) Parking or leaving a vehicle in violation of posted instructions.
(h) Parking or leaving a vehicle outside a parking space assigned to one's own camp unit.

(i) Possessing, parking or leaving more than two vehicles, except motorcycles or bicycles per camp unit.
(j) Entering or being in a body of water.
(k) Being publicly nude.
(l) Being in the area after sundown or before sunrise.
(m) Discharging a firearm, air rifle, or gas gun.
(n) Possessing or operating a motorboat.
(o) Water skiing.
(p) Storing or leaving a boat or raft.
(q) Operating any watercraft in excess of a posted speed limit.
(r) Launching a boat except at a designated launching ramp.
(s) Possessing, storing, or transporting any bird, fish, or other animal or parts thereof, as specified in the order.
(t) Possessing, storing, or transporting any part of a tree or other plant, as specified in the order.
(u) Being in the area between 10 p.m. and 6 a.m. except a person who is camping or who is visiting a person camping in that area.
(v) Hunting or fishing.
(w) Possessing or transporting any motor or mechanical device capable of propelling a watercraft through water by any means.
(x) Using any wheel, roller, or other mechanical device for the overland transportation of any watercraft.
(y) Landing of aircraft, or dropping or picking up any material, supplies, or person by means of an aircraft, including a helicopter.
(z) Entering or being on lands or waters within the boundaries of a component of the National Wild and Scenic Rivers System.
(aa) Riding, hitching, tethering or hobbling a horse or other saddle or pack animal in violation of posted instructions.
(bb) Possessing a beverage which is defined as an alcoholic beverage by State law.
(cc) Possessing or storing any food or refuse, as specified in the order.
(dd) [Reserved]
(ee) Depositing any body waste in caves except into receptacles provided for that purpose.

Subpart C—Prohibitions in Regions

§ 261.70 Issuance of regulations.

(a) Pursuant to 7 CFR 2.60, the Chief, and each Regional Forester, to whom the Chief has delegated authority, may issue regulations prohibiting acts or omissions within all or any part of the area over which he has jurisdiction, for one or more of the following purposes:
(1) Fire prevention or control.
(2) Disease prevention or control.
(3) Protection of property, roads, or trails.
(4) Protection of threatened, endangered, rare, unique, or vanishing species of plants, animals, birds or fish, or special biological communities.
(5) Protection of objects or places of historical, archaeological, geological or paleontological interest.
(6) Protection of scientific experiments or investigations.
(7) Public safety.
(8) Protection of health.
(9) Establishing reasonable rules of public conduct.
(b) Regulations issued under this subpart shall not be contrary to or duplicate any prohibition which is established under existing regulations.
(c) In issuing any regulations under paragraph (a) of this section, the issuing officer shall follow 5 U.S.C. 553.
(d) In a situation when the issuing officer determines that a notice of proposed rule making and public participation thereon is impracticable, unnecessary, or contrary to the public interest, he shall issue, with the concurrence of the Chief, an interim regulation containing an expiration date.
(e) No interim regulation issued under paragraph (d) of this section will be effective for more than 90 days unless readopted as a permanent rule after a notice of proposed rule making under 5 U.S.C. 553 (b) and (c).
§ 261.71 Regulations applicable to Region 1, Northern Region, as defined in § 200.2. [Reserved]

§ 261.72 Regulations applicable to Region 2, Rocky Mountain Region, as defined in § 200.2. [Reserved]

§ 261.73 Regulations applicable to Region 3, Southwestern Region, as defined in § 200.2. [Reserved]

§ 261.74 Regulations applicable to Region 4, Intermountain Region, as defined in § 200.2. [Reserved]

§ 261.75 Regulations applicable to Region 5, California Region, as defined in § 200.2.

(a) Definitions. In this section: (1) Middle Fork of the Feather River means the river and land area in or adjacent to Plumas National Forest described as the River Area in the notice at 35 FR 4219 or any amendment to that notice.

(2) Motorized equipment means any equipment having or using an engine or motor, except small battery-powered handheld devices such as cameras, shavers, flashlights, and Geiger counters.

(3) Wild river zone means the area described as the Bald Rock Canyon Wild River Zone or as the Upper Canyon Wild River Zone in the notice at 35 FR 4219 or any amendment to that notice.

(b) Prohibitions. (1) Possessing or using motorized equipment in the wild river zone of the Middle Fork of the Feather River, except on the Stag Point Trail or the Cloughorn Bar Trail, is prohibited.

(2) Paragraph (b)(1) of this section does not apply to any equipment authorized by a permit from the Forest Supervisor, Plumas National Forest, containing such terms and conditions as he considers necessary for the protection or preservation of the wild river zone or the health, safety or welfare of its users. Violation of any term or condition of such a permit is prohibited.

[42 FR 31789, June 23, 1977]
(f) Violating or failing to comply with any of the terms or conditions of any permit authorizing the occupancy and use specified in paragraph (d) or (e) of this section is prohibited.

[43 FR 3706, Jan. 27, 1978]

§ 261.78 Prohibitions applicable to Region 9, Eastern Region, as defined in § 200.2.

(a) Using or occupying any area of the Manistee National Forest abutting the Pine River between a point commencing 1 mile downstream from Lincoln Bridge to a point one-half mile upstream from Stronach Dam, for the purpose of entering, leaving, or going upon the river, in, on, or upon any floatable object of any kind or description during specific dates set forth annually and posted in such locations and manner as to reasonably bring the closure and dates to the attention of the public, is prohibited unless otherwise authorized by permit.

(b) [Reserved]

[43 FR 42749, Sept. 21, 1978]

§ 261.79 Regulations applicable to Region 10, Alaska Region, as defined in § 200.2. [Reserved]

PART 262—LAW ENFORCEMENT SUPPORT ACTIVITIES

Subpart A—Rewards and Payments

§ 262.1 Rewards in connection with fire or property prosecutions.

(a) Hereafter, provided Congress shall make the necessary appropriation or authorize the payment thereof, the Department of Agriculture will pay the following rewards:

(1) Not exceeding $5,000 for information leading to the arrest and conviction of any person on the charge of willfully or maliciously setting on fire, or causing to be set on fire, any timber, underbrush, or grass upon the lands of the United States within the National Forest System or nearby.

(2) Not exceeding $1,000 for information leading to the arrest and conviction of any person on the charge of having kindled or caused to be kindled a fire on lands of the United States within the National Forest System or nearby, and leaving said fire which escapes before the same has been totally extinguished;

(3) Not exceeding $5,000 for information leading to the arrest and conviction of any person charged with destroying or stealing any property of the United States; and

(4) Not exceeding $10,000 for information leading to the arrest and conviction of any person charged with damaging or stealing the Pacific yew tree, Taxus brevifolia, or any portion thereof, including but not limited to bark, twigs, needles and other foliage.

(b) A reward may be paid to the person or persons giving the information leading to such arrest and conviction upon presentation to the Department of Agriculture of satisfactory evidence thereof, subject to the necessary appropriation as aforesaid, or otherwise as may be provided.

(c) Officers and employees of the Department of Agriculture are barred from receiving such rewards.

(d) The Department of Agriculture reserves the right to refuse payments of any claim for reward when, in its opinion, collusion or improper methods have been used to secure arrest and conviction. The Department also reserves the right to allow only one reward where several persons have been convicted of the same offense or where
§ 262.2 Purchase of information in furtherance of investigations.

(a) Approval of payments. Payments for purchase of information to further investigations of felonies and misdemeanors related to Forest Service administration are authorized for each transaction as follows:

1. Criminal investigators in the GS–1811 series and such other personnel as the Chief of the Forest Service or a Regional Forester may designate, may, without prior approval, pay up to but not exceeding $200 for the purchase of information under this section.

2. For payments of amounts over $200 but not exceeding $500, advance approval of the Forest Supervisor is required.

3. For payments of amounts over $500 but not exceeding $2,500, advance approval of the Regional Forester is required.

4. For payments of amounts over $2,500, advance approval of the Chief of the Forest Service is required.

5. For purchase of information to further investigations within a Regional Office, Forest and Range Experiment Station, State and Private Forestry Area Office, or the National Office, payments in excess of $200 must be approved in advance by the Chief of the Forest Service or by such other personnel as the Chief may designate.

(b) Limitations. Purchase of information under this section is restricted to furthering investigations of felony and misdemeanor violations. Payment for information to further investigations of petty offenses as classified in title 18 U.S.C., section 1, are not authorized under this section.

[48 FR 26604, June 9, 1983]

§ 262.3 Purchase of evidence in furtherance of investigations.

(a) Approval of payments. Payments for purchase of evidence to further investigations of felonies and misdemeanors related to Forest Service administration are authorized for each transaction as follows:

1. Criminal investigators in the GS–1811 series and such other personnel as the Chief of the Forest Service or a Regional Forester may designate, may, without prior approval, pay up to but not exceeding $400 for the purchase of evidence under this section.

2. For payments of amounts over $400 but not exceeding $1,000, advance approval of the Forest Supervisor is required.

3. For payments of amounts over $1,000 but not exceeding $5,000, advance approval of the Regional Forester is required.

4. For payments of amounts over $5,000, advance approval of the Chief of the Forest Service is required.

5. For purchase of evidence to further investigations within a Regional Office, Forest and Range Experiment Station, State and Private Forestry Area Office, or the National Office, payments in excess of $400 must be approved in advance by the Chief of the Forest Service or by such other personnel as the Chief may designate.

(b) Limitations. Purchase of evidence under this section is restricted to furthering investigations of felony and misdemeanor violations. Payment for evidence to further investigations of petty offenses as classified in title 18 U.S.C., section 1, are not authorized under this section.

§ 262.4 Audit of expenditures.

The Chief of the Forest Service shall, through appropriate directives to agency personnel, assure the accountability of all funds spent in carrying out the provisions of this subpart and safeguard the identity of those wishing to remain anonymous.

[48 FR 26605, June 9, 1983]

§ 262.5 Disposal of purchased property.

All evidence purchased under the authority of this subpart shall be maintained in accordance with all laws, regulations, and rules applicable to the care, custody, and control of evidence. Evidence purchased under this subpart shall be disposed of in accordance with laws, regulation, rules, and Forest Service policy applicable to the disposal of evidence.

[48 FR 26605, June 9, 1983]

Subpart B—Impoundments and Removals

§ 262.10 Impoundment and disposal of unauthorized livestock.

Unauthorized livestock or livestock in excess of those authorized by a grazing permit on the National Forest System, which are not removed therefrom within the periods prescribed by this regulation, may be impounded and disposed of by a forest officer as provided herein.

(a) When a Forest officer determines that such livestock use is occurring, has definite knowledge of the kind of livestock, and knows the name and address of the owners, such livestock may be impounded any time five days after written notice of intent to impound such livestock is mailed by certified or registered mail or personally delivered to such owners.

(b) When a Forest officer determines that such livestock use is occurring, but does not have complete knowledge of the kind of livestock, or if the name of the owner is unknown, such livestock may be impounded any time 15 days after the date a notice of intent to impound livestock is first published in a local newspaper and posted at the county courthouse and in one or more local post offices. The notice will identify the area in which it will be effective.

(c) Unauthorized livestock or livestock in excess of those authorized by a grazing permit on National Forest System which are owned by persons given notice under paragraph (a) of this section, and any such livestock in areas for which a notice has been posted and published under paragraph (b) of this section, may be impounded without further notice any time within the 12-month period immediately following the effective date of the notice or notices given under paragraphs (a) and (b) of this section.

(d) Following the impoundment of livestock, a notice of sale of impounded livestock will be published in a local newspaper and posted at the county courthouse and in one or more local post offices. The notice will describe the livestock and specify the date, time, and place of the sale. The date shall be at least five days after the publication and posting of such notice.

(e) The owner may redeem the livestock any time before the date and time set for the sale by submitting proof of ownership and paying for all expenses incurred by the United States in gathering, impounding, and feeding or pasturing the livestock. However, when the impoundment costs exceed fair market value a minimum acceptable redemption price at fair market value may be established for each head of livestock.

(f) If the livestock are not redeemed on or before the date and time fixed for their sale, they shall be sold at public sale to the highest bidder, providing this bid is at or above the minimum amount set by the Forest Service. If a bid at or above the minimum amount is not received, the livestock may be sold at private sale at or above the minimum amount, reoffered at public sale, condemned and destroyed, or otherwise disposed of. When livestock are sold pursuant to this regulation, the forest officer making the sale shall furnish the purchaser a bill or other written instrument evidencing the sale. Agreements may be made with State agencies whereby livestock of unknown ownership and livestock of known ownership, which are not redeemed by the owner, are released to the agency for

VerDate 11<MAY>2000 08:18 Jul 17, 2001 Jkt 194131 PO 00000 Frm 00353 Fmt 8010 Sfmt 8010 Y:\SGML\194131T.XXX pfrm09 PsN: 194131T
disposal in accordance with State law. 

Provided. That remuneration of proceeds from the sale of said animals in excess of costs of impoundment and to arrange for disposal of livestock of known ownership will be refunded to the former owner.

§ 262.11 Impounding of dogs.

Any dog found running at large in a part of the National Forest System, which has been closed to dogs running at large, may be captured and impounded by Forest officers. Forest officers will notify the owner of the dog, if known, of such impounding, and the owner will be given five days to redeem the dog. A dog may be redeemed by the owner submitting adequate evidence of ownership and paying all expenses incurred by the Forest Service in capturing and impounding it. If the owner fails to redeem the dog within five days after notice, or if the owner cannot be ascertained within 10 days from the date of impounding, the dog may be destroyed or otherwise disposed of at the discretion of the Forest officer having possession of it.

§ 262.12 Impounding of personal property.

(a) Automobiles or other vehicles, trailers, boats, and camping equipment and other inanimate personal property on National Forest System lands without the authorization of a Forest officer which are not removed therefrom within the prescribed period after a warning notice as provided in this regulation may be impounded by a Forest officer. Whenever such Forest officer knows the name and address of the owner, such impoundment may be effected at any time five days after the date that written notice of the trespass is mailed by registered mail or delivered to such owner.

(b) In the event the local Forest officer does not know the name and address of the owner, impoundment may be effected at any time 15 days after the date a notice of intention to impound the property in trespass is first published in a local newspaper and posted at the county courthouse and in one or more local post offices. A copy of this notice shall also be posted in at least one place on the property or in proximity thereto.

(c) Personal property impounded under this regulation may be disposed of at the expiration of 90 days after the date of impoundment. The owner may redeem the personal property within the 90-day period by submitting proof of ownership and paying all expenses incurred by the United States in advertising, gathering, moving, impounding, storing, and otherwise caring for the property, and also for the value of the use of the site occupied during the period of the trespass.

(d) If the personal property is not redeemed on or before the date fixed for its disposition, it shall be sold by the Forest Service at public sale to the highest bidder. If no bid is received, the property, or portions thereof, may, in the discretion of the responsible Forest officer, be sold at private sale or be condemned and destroyed or otherwise disposed of. When personal property is sold pursuant to this regulation, the Forest officer making the sale shall furnish the purchaser a bill of sale or other written instrument evidencing the sale.

(e) The provisions of this section shall not apply to the impoundment or disposal of beached logs in Alaska if deemed abandoned under State law.

§ 262.13 Removal of obstructions.

A Forest officer may remove or cause to be removed, to a more suitable place, a vehicle or other object which is an impediment or hazard to the safety, convenience, or comfort of other users of an area of the National Forest System.

§ 264.1 Definitions.

(a) The term "Insignia" means the Official Forest Service Insignia as shown here or any likeness thereof, in total or in part, which is used in such a manner as to suggest the insignia.

(b) The term "Chief" means the Chief of the Forest Service, U.S. Department of Agriculture, or a person designated to act for the Chief.

§ 264.2 Use of insignia.

The Forest Service insignia is reserved for the official use of the Forest Service. Such use will be primarily for identification purposes. The Chief may authorize other uses of the insignia as follows:

(a) Public service use. The Chief may authorize the use of the insignia for non-commercial educational purposes, without charge when such use is essentially a public service and will contribute to public knowledge and understanding of the Forest Service, its mission, and objectives. An example of this would be the use of the insignia on a printed program for a dedication ceremony where the Forest Service participates but is not the sponsor of the event.

(b) Commercial use. Through the issuance of licenses, the Chief may authorize commercial use of the insignia to (1) contribute to the public recognition of the Forest Service, such as a likeness of the insignia on a toy forest ranger’s truck or (2) promote employee esprit de corps or pride in the organization, such as a likeness of the insignia on belt buckles. Such use must be consistent with the status of a national insignia. Business or calling cards commercially prepared for employees, at employee expense, may display the insignia without special license.

§ 264.3 Licensing for commercial use.

(a) Each commercial license granted for the use of the insignia or likeness thereof shall contain the following terms and conditions:

(1) A use charge, royalty payment, or payment in kind which is reasonably related to the commercial value of the license must be established. This is to be paid by the licensee.

(2) A definite expiration date shall be specified.

(3) The license shall be nonexclusive.

(4) Licensees are not authorized to grant sublicenses, or transfer or reassign licenses to another person or company, in connection with the manufacture and/or sale of an item, unless and except as approved in writing by the Chief.

The Chief may incorporate additional terms and requirements into any commercial license issued under this subpart.

§ 264.4 Unauthorized use.

Whoever manufactures, sells, or possesses the insignia, except as provided under § 264.2, is subject to criminal penalty under 18 U.S.C. 701.

§ 264.5 Power to revoke.

All authorities and licenses granted under this subpart shall be subject to cancellation by the Chief at any time the Chief finds that the use involved is
§ 264.10 Establishment.

There is hereby established an official symbol, as depicted herein, to designate and represent the Mount St. Helens National Volcanic Monument located in the Gifford Pinchot National Forest in the State of Washington.

§ 264.11 Use of symbol.

Except as provided in §264.12, use of the Mount St. Helens National Volcanic Monument official symbol, including a facsimile thereof, in total or in part, is restricted to official signs, publications, and other materials of the Forest Service, U.S. Department of Agriculture.

§ 264.12 Use without permission.

Business or calling cards commercially prepared at employee expense for employees assigned to the Volcanic Monument may depict the official Monument symbol without special permission from Forest Service officials.

§ 264.13 Unauthorized use.

Except as provided in §§264.11 and 264.12, whoever manufactures, sells, or possesses the official symbol of the Mount St. Helens National Volcanic Monument may be subject to criminal penalty under 18 U.S.C. 701.
service, and will, in his judgment, contribute to public information and education concerning the prevention of forest fires.

§ 271.4 Commercial license.

(a) The Chief may authorize the commercial manufacture, importation, reproduction, or use of Smokey Bear upon the following findings:

(1) That the use to which the article or published material involving Smokey Bear is to be put shall contribute to public information concerning the prevention of forest fires.

(2) That the proposed use is consistent with the status of Smokey Bear as the symbol of forest fire prevention and does not in any way detract from such status.

(3) That a use or royalty charge which is reasonably related to the commercial enterprise has been established.

(b) Such other conditions shall be included as the Chief deems necessary in particular cases.

§ 271.5 [Reserved]

§ 271.6 Review of licenses.

The Chief will cooperate with the Association of State Foresters and the Advertising Council, and for this purpose may review with these organizations from time to time the nature and status of licenses granted under these regulations in this part.

§ 271.7 Power to revoke.

It is the intention of the regulations in this part that the Chief, in exercising the authorities delegated hereunder, will at all times consider the primary purpose of fostering public information in the prevention of forest fires. All authorities and licenses granted under the regulations in this part shall be subject to abrogation by the Chief at any time he finds that the use involved is injurious to the purpose of forest fire prevention, is offensive to decency or good taste, or for similar reasons in addition to any other limitations and terms contained in the licenses.

§ 271.8 Consultation with Association of State Foresters and the Advertising Council.

These regulations in this part have been issued after consultation with the Association of State Foresters and the Advertising Council.

PART 272—USE OF “WOODSY OWL” SYMBOL

Sec.

272.1 Definitions.

272.2 Use of official campaign materials.

272.3 Public service use.

272.4 Commercial use.

272.5 [Reserved]

272.6 Power to revoke.

§ 272.1 Definitions.

(a) The term Woodsy Owl means the name and representation of a fanciful owl, who wears slacks (forest green when colored), a belt (brown when colored), and a Robin Hood style hat (forest green when colored) with a feather (red when colored), and who furthers the slogan, Give a Hoot, Don’t Pollute, originated by the Forest Service of the United States Department of Agriculture, or a facsimile or simulation thereof, in such a manner as suggests Woodsy Owl.

(b) The term Chief means the Chief of the Forest Service, U.S. Department of Agriculture, or person designated to act for him.

§ 272.2 Use of official campaign materials.

Official materials produced for the Woodsy Owl campaign may be used without express approval from the Chief of the Forest Service where such use is solely for the purpose of increasing public knowledge about wise use of the environment and programs which foster maintenance and improvement of environmental quality.

[40 FR 12641, Mar. 20, 1975]

§ 272.3 Public service use.

The Chief of the Forest Service may authorize the use of Woodsy Owl for
§ 272.4 Noncommercial educational purposes.

Noncommercial educational purposes, without charge, when such use is essentially as a public service and will, in his judgment, contribute to public information and education concerning wise use of the environment and programs which foster maintenance and improvement of environmental quality.

[40 FR 12641, Mar. 20, 1975]

§ 272.4 Commercial use.

(a) General. The Chief may authorize the Commercial manufacture, importation, reproduction, or use of Woodsy Owl upon the following findings:

(1) That the proposed use of Woodsy Owl will contribute to public knowledge about wise use of the environment and programs which foster maintenance and improvement of environmental quality.

(2) That the proposed use is consistent with the status of Woodsy Owl as a national symbol for a public service campaign to promote wise use of the environment and programs which foster maintenance and improvement of environmental quality.

(3) That a use charge, royalty charge, or payment in kind which is reasonably related to the commercial value has been established.

(4) That the applicant is well qualified to further the goals and purposes of the Woodsy Owl campaign.

(5) That, when an exclusive license is requested, no other qualified applicant can be found who will provide comparable campaign support under a nonexclusive license.

(6) That such other conditions as the Chief may deem necessary in each case have been established.

(7) Requirements for exclusive licenses. Exclusive licenses when granted, shall conform to the following:

(1) A definite expiration date shall be specified based on the minimum time determined by the Chief to be needed by the licensee to introduce or popularize the item licensed and to recover the costs and expenses incurred in so doing.

(2) The Chief shall retain the independent right to use Woodsy Owl in any concurrent, noncommercial program, and to allow for the manufacture and sale of Woodsy Owl merchandise which, in his judgment, would not be in conflict with the licensed item.

(3) The licensee shall be required to have the licensed item available for sale, and promotion within a specified period, or show cause why this could not be done.

(4) The licensee shall be required to invest a specified minimum amount of money in the development, production, and promotion of the licensed item, as determined by the Chief to be necessary to insure that the licensee’s use of Woodsy Owl will result in a substantial contribution to public information concerning pollution abatement and environmental enhancement.

(5) The Chief shall retain the right to revoke any license for failure of the licensee to comply with all the terms and conditions of the license.

(6) The licensee shall be required to submit periodic progress reports to apprise the Forest Service of his activities and progress in achieving stated objectives.

(7) The license shall not be subject to transfer or assignment, except as approved in writing by the Chief.

(8) The licensee shall not be authorized to grant sublicenses in connection with the manufacture and sale of the item, except as approved in writing by the Chief.

[37 FR 5700, Mar. 18, 1972, as amended at 40 FR 12641, Mar. 20, 1975]

§ 272.5 [Reserved]

§ 272.6 Power to revoke.

It is the intention of these regulations that the Chief, in exercising the authorities delegated hereunder, will at all times consider the primary purpose of carrying on a public service campaign to promote wise use of the environment and programs which foster maintenance and improvement of environmental quality. All authorities and licenses granted under these regulations shall be subject to abrogation by the Chief at any time he finds that the use involved is injurious to the purpose of the Woodsy Owl campaign, is offensive to decency or good taste, or for similar reasons, in addition to any other limitations and terms contained in the licenses and other authorities.

[40 FR 12641, Mar. 20, 1975]
PART 290—CAVE RESOURCES MANAGEMENT

Sec. 290.1 Purpose and scope.
290.2 Definitions.
290.3 Nomination, evaluation, and designation of significant caves.
290.4 Confidentiality of cave location information.
290.5 Collection of information.

SOURCE: 59 FR 31152, June 17, 1994, unless otherwise noted.

§ 290.1 Purpose and scope.
The rules of this part implement the requirements of the Federal Cave Resources Protection Act (16 U.S.C. 4301–4309), hereafter referred to as the “Act”. The rules apply to cave management on National Forest System lands. These rules, in conjunction with rules in part 261 of this chapter, provide the basis for identifying and managing significant caves on National Forest System lands in accordance with the Act. National Forest System lands will be managed in a manner which, to the extent practical, protects and maintains significant cave resources in accordance with the policies outlined in the Forest Service Directive System and the management direction contained in the individual forest plans.

§ 290.2 Definitions.
For the purposes of this part, the terms listed in this section have the following meaning:

Authorized officer means the Forest Service employee delegated the authority to perform the duties described in this part.

Cave means any naturally occurring void, cavity, recess, or system of interconnected passages beneath the surface of the earth or within a cliff or ledge and which is large enough to permit a person to enter, whether the entrance is excavated or naturally formed. Such term shall include any natural pit, sinkhole, or other opening which is an extension of a cave entrance or which is an integral part of the cave.

Cave resources mean any materials or substances occurring in caves including, but not limited to, biotic, cultural, mineralogic, paleontologic, geologic, and hydrologic resources.

National Forest System lands means all national forest lands reserved or withdrawn from the public domain, acquired through purchase, exchange, or donation, national grasslands and land utilization projects, and other lands, waters, or interests administered by the Forest Service.

Secretary means the Secretary of Agriculture.

Significant cave means a cave located on National Forest System lands that has been determined to meet the criteria in §290.3 (c) or (d) and has been designated in accordance with §290.3(e).

§ 290.3 Nomination, evaluation, and designation of significant caves.
(a) Nominations for initial and subsequent listings. The authorized officer will give governmental agencies and the public, including those who utilize caves for scientific, educational, or recreational purposes, the opportunity to nominate caves. The authorized officer shall give public notice, including a notice published in the Federal Register, calling for nominations for the initial listing and setting forth the procedures for preparing and submitting the nominations. Nominations for subsequent listings will be accepted from governmental agencies and the public by the Forest Supervisor where the cave is located as new cave discoveries are made. Caves nominated but not approved for designation may be reominated as additional documentation or new information becomes available.

(b) Evaluation for initial and subsequent listings. The evaluation of the nominations for significant caves will be carried out in consultation with individuals and organizations interested in the management and use of caves and cave resources, within the limits imposed by the confidentiality provisions of §290.4. Nominations shall be evaluated using the criteria in §290.3 (c) and (d).

(c) Criteria for significant caves. A significant cave on National Forest System lands shall possess one or more of the following features, characteristics, or values.
§ 290.4 Biota. The cave provides seasonal or yearlong habitat for organisms or animals, or contains species or subspecies of flora or fauna native to caves, or are sensitive to disturbance, or are found on State or Federal sensitive, threatened, or endangered species lists.

(2) Cultural. The cave contains historic properties or archeological resources (as defined in Parts 800.2 and 296.3 of this chapter respectively, or in 16 U.S.C. 470, et seq.), or other features included in or eligible for inclusion on the National Register of Historic Places because of their research importance for history or prehistory, historical associations, or other historical or traditional significance.

(3) Geologic/Mineralogic/Paleontologic. The cave possesses one or more of the following features:
   (i) Geologic or mineralogic features that are fragile, represent formation processes that are of scientific interest, or that are otherwise useful for study.
   (ii) Deposits of sediments or features useful for evaluating past events.
   (iii) Paleontologic resources with potential to contribute useful educational or scientific information.

(4) Hydrologic. The cave is a part of a hydrologic system or contains water which is important to humans, biota, or development of cave resources.

(5) Recreational. The cave provides or could provide recreational opportunities or scenic values.

(6) Educational or scientific. The cave offers opportunities for educational or scientific use; or, the cave is virtually in a pristine state, lacking evidence of contemporary human disturbance or impact; or, the length, volume, total depth, pit depth, height, or similar measurements are notable.

§ 290.4 Confidentiality of cave location information.

(a) Information disclosure. No Forest Service employee shall disclose any information that could be used to determine the location of a significant cave or a cave nominated for designation, unless the authorized officer determines that disclosure will further the purposes of the Act and will not create a substantial risk of harm, theft, or destruction to cave resources.

(b) Requesting confidential information. Notwithstanding paragraph (a) of this section, the authorized officer may make confidential cave information available to Federal or State governmental agencies, bona fide educational or research institutes, or individuals or
organizations assisting the land management agencies with cave management activities. To request confidential cave information, such entities shall make a written request to the authorized officer which includes the following:

(1) Name, address, and telephone number of the individual responsible for the security of the information received;

(2) A legal description of the area for which the information is sought;

(3) A statement of the purpose for which the information is sought; and,

(4) Written assurances that the requesting party will maintain the confidentiality of the information and protect the cave and its resources.

(c) Decision final. The decision to permit or deny access to confidential cave information is made at the sole discretion of the authorized officer and is not subject to further administrative review or appeal under 5 U.S.C. 552 or parts 217 or 251.82 of this chapter.

§ 290.5 Collection of information.

The collection of information contained in this rule represents new information requirements as defined in 5 CFR part 1320, Controlling Paperwork Burdens on the Public. In accordance with those rules and the Paperwork Reduction Act of 1980 as amended (44 U.S.C. 3507), the Forest Service has received approval by the Office of Management and Budget to collect cave nomination information under clearance number 0596–0123 and confidential information under 0596–0122. The information provided for the cave nominations will be used to determine which caves will be listed as “significant” and the information in the requests to obtain confidential cave information will be used to decide whether to grant access to this information. Response to the call for cave nominations is voluntary. No action may be taken against a person for refusing to supply the information requested. Response to the information requirements for obtaining confidential cave information is required to obtain a benefit in accordance with section 5 of the Federal Cave Resources Protection Act of 1988 (16 U.S.C. 4304).

PART 291—OCCUPANCY AND USE OF DEVELOPED SITES AND AREAS OF CONCENTRATED PUBLIC USE

§ 291.2 Admission fees and recreation use fees.

(a) Fees shall be charged for admission to Congressionally designated National Recreation Areas, National Monuments, National Volcanic Monuments, and National Scenic Areas administered by the Secretary of Agriculture and no more than 21 areas of concentrated public use designated by the Chief of the Forest Service as provided by section 4(a) of the Land and Water Conservation Fund Act of 1965, as amended.

(b) Recreation use fees will be charged for the use of sites, facilities, equipment or services furnished at Federal expense as provided by section 4(b) of the Land and Water Conservation Fund Act of 1965, as amended. Such fees shall be established by the Chief, Forest Service, or his delegate.

(c) Clear notice that an admission or entrance fee or recreation use fee has been established shall be prominently posted at each area and at appropriate locations therein and shall be included in publications distributed at such areas.

§ 291.3 Reservation fees.

(a) The Forest Service may charge fees to recover expenses incurred in providing reservation services for the public use of recreation areas and sites and Wilderness Areas where limitations on use are deemed necessary or desirable to achieve the management purposes of an area of the National Forest System. The Chief of the Forest Service or his delegate shall establish the amount of such fees.

(b) Forest Service officials shall prominently post clear notice that a reservation fee has been established at each area, site or Wilderness Area and at appropriate locations therein. Publications distributed at such areas, sites, and Wilderness Areas shall also include such notice.

the Central Valley Project of the Bureau of Reclamation and of the recreation area as a whole so as to provide for: (1) Public outdoor recreation benefits; (2) conservation of scenic, scientific, historic, and other values contributing to public enjoyment; and (3) the management, utilization, and disposal of renewable natural resources which in the judgment of the Secretary of Agriculture will promote or is compatible with, and does not significantly impair, public recreation and conservation of scenic, scientific, historic, or other values contributing to public enjoyment.

(b) The Secretary may not acquire without consent of the owner any privately owned “improved property” within the boundaries of these units, so long as the appropriate local zoning agency shall have in force and applicable to such property a duly adopted, valid, zoning ordinance that is approved by the Secretary. This suspension of the Secretary’s authority to acquire “improved property” without the owner’s consent would automatically cease: (1) If the property is made the subject of a variance or exception to any applicable zoning ordinance that does not conform to the applicable standards contained in §§292.11 to 292.13; or (2) if such property is put to any use which does not conform to any applicable zoning ordinance approved by the Secretary.

(c) Improved property as used in §§292.11 to 292.13, means any building or group of related buildings, the actual construction of which was begun before February 7, 1963, together with not more than three acres of land in the same ownership on which the building or group of buildings is situated, but the Secretary may exclude from such “improved property” any shore or waters, together with so much of the land adjoining such shore or waters, as he deems necessary for public access thereto.

(d) Sections 292.11 to 292.13 specify the standards with which local zoning ordinances for the Shasta and Clair Engle-Lewiston Units must conform if the “improved property” or unimproved property proposed for development as authorized by the Act within the boundaries of the units is to be exempt from acquisition by condemnation. The objectives of §§292.11 to 292.13 are to:

(1) Prohibit new commercial or industrial uses other than those which the Secretary considers to be consistent with the purposes of the Act establishing the national recreation area;

(2) promote the protection and development of properties in keeping with the purposes of that Act by means of use, acreage, setback, density, height or other requirements; and (3) provide that the Secretary receive notice of any variance granted under, or any exception made to, the application of the zoning ordinance approved by him.

(e) Following promulgation of §§292.11 to 292.13 of final form, the Secretary is required to approve any zoning ordinance or any amendment to an approved zoning ordinance submitted to him which conforms to the standards contained in the regulations in effect at the time of adoption of the ordinance or amendment.

(f) Any owner of unimproved property who proposes to develop his property for service to the public may submit to the Secretary a development plan setting forth the manner in which and the time by which the property is to be developed and the use to which it is proposed to be put. If the Secretary determines that the development and the use of the property conforms to approved zoning ordinances, and serves the purposes of the National Recreation Area and that the property is not needed for easements and rights-of-way for access, utilities, or facilities, or for administration sites, campgrounds, or other areas needed for use by the United States for visitors, he may in his discretion issue to such owner a certification that so long as the property is developed, maintained, and used in conformity with approved zoning ordinances the Secretary’s authority to acquire the property without the owner’s consent is suspended.

§ 292.12 General provisions; procedures.

(a) Approval of zoning ordinance and development plans. (1) All validly adopted zoning ordinances and amendments thereto pertaining to the Shasta and Clair Engle-Lewiston Units may be
§ 292.13 Standards.

(a) The standards set forth in §§292.11–292.13 shall apply to the Shasta and Clair Engle-Lewiston Units, which are defined by the boundary descriptions in the notice of the Secretary of Agriculture of July 12, 1966 (31 FR 9469), submitted by the county of origin to the Secretary for written approval relative to their conformance with the applicable standards of §§292.11 to 292.13. Within 60 days following submission, the county will be notified of the Secretary’s approval or disapproval of the zoning ordinances or amendments thereto. If more than 60 days are required, the county will be notified of the expected delay and of the additional time deemed necessary to reach a decision. The Secretary’s approval shall remain effective so long as the zoning ordinances or amendments thereto remain in effect as approved.

(b) Amendment of ordinances. Amendments of approved ordinances may be furnished in advance of their adoption to the Secretary for written decision as to whether they conform with approved zoning ordinances and whether the planned use and development would serve the Act. Within 30 days following submission of such plans the Secretary will approve or disapprove the plans or, if more than 30 days are required, will notify the applicant of the expected delay and of the additional time deemed necessary.

(c) Variances or exceptions to application of ordinances. (1) The Secretary shall be given written notice of any variance granted under, or any exception made to, the application of a zoning ordinance or amendment thereto approved by him.

(2) The County, or private owners of improved property, may submit to the Secretary proposed variances or exceptions to the application of an approved zoning ordinance or amendment thereto for written advice as to whether the intended use will make the property subject to acquisition without the owner’s consent. Within 30 days following his receipt of such a request, the Secretary will advise the interested party or parties as to his determination. If more than 30 days are required by the Secretary for such determination, he shall so notify the interested party or parties stating the additional time required and the reasons therefore.

(d) Certification of property. Where improvements and land use of improved property conform with approved ordinances, or with approved variances from such ordinances, certification that the Secretary’s authority to acquire the property without the owner’s consent is suspended may be obtained by any party in interest upon request to the Secretary. Where the development and use of unimproved property for service to the public is approved by the Secretary, certification that the authority to acquire the property without the owner’s consent is suspended may be issued to the owner.

(e) Effect of noncompliance. Suspension of the Secretary’s authority to acquire any improved property without the owner’s consent will automatically cease if: (1) Such property is made the subject of variance or exception to any applicable zoning ordinance that does not conform to the applicable standard in the Secretary’s regulation, (2) such property is put to a use which does not conform to any applicable zoning ordinance, or, as to property approved by the Secretary for development, a use which does not conform to the approved development plan or (3) the local zoning agency does not have in force a duly adopted, valid zoning ordinance that is approved by the Secretary in accordance with the standards of §§292.11 to 292.13.

(f) Nonconforming commercial or industrial uses. Any existing commercial or industrial uses not in conformance with approved zoning ordinances shall be discontinued within 10 years from the date such ordinances are approved. Provided, however, That with the approval of the Secretary such 10-year period may be extended by the county for a prescribed period sufficient to allow the owner reasonable additional time to amortize investments made in the property before November 8, 1965.

§ 292.13 Standards.

(a) The standards set forth in §§292.11–292.13 shall apply to the Shasta and Clair Engle-Lewiston Units, which are defined by the boundary descriptions in the notice of the Secretary of Agriculture of July 12, 1966 (31 FR 9469), submitted by the county of origin to the Secretary for written approval relative to their conformance with the applicable standards of §§292.11 to 292.13. Within 60 days following submission, the county will be notified of the Secretary’s approval or disapproval of the zoning ordinances or amendments thereto. If more than 60 days are required, the county will be notified of the expected delay and of the additional time deemed necessary to reach a decision. The Secretary’s approval shall remain effective so long as the zoning ordinances or amendments thereto remain in effect as approved.

(b) Amendment of ordinances. Amendments of approved ordinances may be furnished in advance of their adoption to the Secretary for written decision as to whether they conform with approved zoning ordinances and whether the planned use and development would serve the Act. Within 30 days following submission of such plans the Secretary will approve or disapprove the plans or, if more than 30 days are required, will notify the applicant of the expected delay and of the additional time deemed necessary.

(c) Variances or exceptions to application of ordinances. (1) The Secretary shall be given written notice of any variance granted under, or any exception made to, the application of a zoning ordinance or amendment thereto approved by him.

(2) The County, or private owners of improved property, may submit to the Secretary proposed variances or exceptions to the application of an approved zoning ordinance or amendment thereto for written advice as to whether the intended use will make the property subject to acquisition without the owner’s consent. Within 30 days following his receipt of such a request, the Secretary will advise the interested party or parties as to his determination. If more than 30 days are required by the Secretary for such determination, he shall so notify the interested party or parties stating the additional time required and the reasons therefore.

(d) Certification of property. Where improvements and land use of improved property conform with approved ordinances, or with approved variances from such ordinances, certification that the Secretary’s authority to acquire the property without the owner’s consent is suspended may be obtained by any party in interest upon request to the Secretary. Where the development and use of unimproved property for service to the public is approved by the Secretary, certification that the authority to acquire the property without the owner’s consent is suspended may be issued to the owner.

(e) Effect of noncompliance. Suspension of the Secretary’s authority to acquire any improved property without the owner’s consent will automatically cease if: (1) Such property is made the subject of variance or exception to any applicable zoning ordinance that does not conform to the applicable standard in the Secretary’s regulation, (2) such property is put to a use which does not conform to any applicable zoning ordinance, or, as to property approved by the Secretary for development, a use which does not conform to the approved development plan or (3) the local zoning agency does not have in force a duly adopted, valid zoning ordinance that is approved by the Secretary in accordance with the standards of §§292.11 to 292.13.

(f) Nonconforming commercial or industrial uses. Any existing commercial or industrial uses not in conformance with approved zoning ordinances shall be discontinued within 10 years from the date such ordinances are approved. Provided, however, That with the approval of the Secretary such 10-year period may be extended by the county for a prescribed period sufficient to allow the owner reasonable additional time to amortize investments made in the property before November 8, 1965.
and to a strip of land outside the National Recreation Area on either side of Federal Aid Secondary Highway Numbered 1089, as more fully described in 2(a) of the act establishing the recreation area (79 Stat. 1296).

(b) New industrial or commercial uses. New industrial or commercial uses will be prohibited in any location except under the following conditions:

(1) The industrial use is such that its operation, physical structures, or waste byproducts would not have significant adverse impacts on surrounding or nearby outdoor recreation, scenic and esthetic values. Industrial uses having an adverse impact include, but are not limited to, cement production, gravel extraction operations involving more than one-fourth acre of surface, smelters, sand, gravel and aggregate processing plants, fabricating plants, pulpmills, and commercial livestock feeder yards.

(2)(i) The commercial use is for purposes of providing food, lodging, automotive or marine maintenance facilities and services to accommodate recreationists and the intended land occupancy and physical structures are such that they can be harmonized with adjacent land development and surrounding appearances in accordance with approved plans and schedules.

(ii) This standard provides for privately owned and operated businesses whose purposes and physical structures are in keeping with objectives for use and maintenance of the area’s outdoor recreation resources. It precludes establishment of drive-in theaters, zoos, and similar nonconforming types of commercial entertainment.

(c) Protection of roadways. Provisions to protect natural scenic qualities and maintain screening along public travel routes will include:

(1) Prohibition of new structural improvements or visible utility lines within a strip of land extending back not less than 150 feet from both sides of the centerline of any public road or roadway except roads within subdivisions or commercial areas. In addition to buildings, this prohibition pertains to above-ground power and telephone lines, borrow pits, gravel, or earth extraction areas, and quarries.

(2) Retention of trees and shrubs in the above-prescribed roadside strips to the full extent that is compatible with needs for public safety and road maintenance. Wholesale clearing by chemical or other means for fire control and other purposes will not be practiced under this standard.

(d) Protection of shorelines. Provisions to protect scenic qualities and reduce potentials for pollution of public reservoirs will include: Prohibition of structures within 300 feet horizontal distance from highwater lines of reservoirs other than structures the purpose of which is to service and accommodate boating or to facilitate picnicking and swimming: Provided, That exceptions to this standard may be made upon showing satisfactory to the Secretary that proposed structures will not conflict with scenic and antipollution considerations.

(e) Property development. Location and development of structures will conform with the following minimum standards:

(1) Commercial development. (i) Stores, restaurants, garages, service stations, and comparable business enterprises will be situated in centers zoned for this purpose unless they are operated as part of a resort or hotel. Commercial centers will be of sufficient size that expansion of facilities or service areas is not dependent upon use of public land.

(ii) Sites outside designated commercial centers will be used for resort development contingent upon case by case concurrence of the responsible county officials and the Secretary that such use is, in all aspects, compatible with the purposes for establishing the recreation area.

(iii) Structures for commercial purposes, inclusive of isolated resorts or motels, will not exceed two stories height at front elevation, and will be conventional architecture and will utilize colors, nonglare roofing materials, and spacing or layout that harmonizes with forested settings. Except for signs, structures designed primarily for purposes of calling attention to products or service will not be permitted.
\(\text{(2) Residential development.}\)

\(\text{(i) Locations approved for residential development will be buffered by distance, topography, or forest cover from existing or planned public use areas such as trailer parks, campgrounds, or organization sites. Separation will be sufficient to avoid conflicts resulting from intervisibility, noise, and proximity that is conducive to private property trespass.}\)

\(\text{(ii) Requirements for approval of residential areas will include: (a) Construction of access when main access would otherwise be limited to a road constructed by the United States primarily to service publicly owned recreation developments; (b) limitation of residences to single-family units situated at a density not exceeding two per acre, but any lot of less than a half-acre may be used for residential purposes if, on or before promulgation of §§ 292.11–292.13, such lot was in separate ownership or was delineated in a county-approved plat that constitutes part of a duly recorded subdivision; (c) use of set-backs, limitations to natural terrain, neutral exterior colors, nonglare roofing materials, and limitations of building heights fully adequate to harmonize housing development with the objective of the National Recreation Area as set forth in the act.}\)

\(\text{(3) Signs and signing. Only those signs may be permitted which: (i) Do not exceed 1 square foot in area for any residential use; (ii) do not exceed 40 square feet in area, 8 feet in length, and 15 feet maximum height from ground for any other use, including advertisement of the sale or rental of property; and (iii) which are not illuminated by any neon or flashing device. Commercial signs may be placed only on the property on which the advertised use occurs, or on the property which is advertised for sale or rental. Signs shall be subdued in appearance, harmonizing in design and color with the surroundings and shall not be attached to any tree or shrub. Nonconforming signs may continue for a period not to exceed 2 years from the date a zoning ordinance containing these limitations is adopted.}\)
(3) Designated community. A populated area divided into lots, blocks and streets as platted and recorded in the official records of the county, containing residences and commercial establishments providing goods and services and retaining the atmosphere of a western frontier ranch-type town and so classified in § 292.15(a).

(4) Dude ranching. Development oriented to furnish an outdoor recreational or educational experience related to ranching. Facility development is compatible with the pastoral environment, rustic in nature and harmoniously colored.

(5) Mineral operations. All functions, work and activities in connection with exploration, development, mining or processing of mineral resources except prospecting which will not cause significant surface disturbance and will not involve removal of more than a reasonable amount of mineral deposit for analysis and study.

(6) Private property. Lands or interests in lands not owned by Federal, State, or local governments but not including unpatented mining claims.

(7) Ranch-type character. A low profile, rambling, well-proportioned, rustic appearing, rough-sawn wood or wood and stone structure or group of structures harmoniously situated within a natural environment.

(8) Residential outbuilding. Nonhabitable building detached from the residence, such as a garage, woodshed or storage building.

(9) Secretary. Secretary of Agriculture.

(10) Area Ranger. The Forest Officer having administrative authority for the Sawtooth National Recreation Area.

(39 FR 11544, Mar. 29, 1974)

§ 292.15 General provisions—procedures.

(a) Classification of private property. For the purpose of establishing specific standards applicable to the several parcels of private land within the boundaries, such properties are classified and assigned to land use categories as shown on the Land Use Category Map, dated December 15, 1973, as amended July 18, 1976, on file and available for public inspection in the office of the Area Ranger, Sawtooth National Recreation Area, Ketchum, Idaho. The classification of private properties is based on evaluation of scenic, natural, historic, pastoral, wildlife, and other values.

(b) Land use categories. Land use categories shown on the map referred to in paragraph (a) of this section are:

1. Designated community. All properties inside a designated community.

2. Residential. Areas for residential development outside designated communities.

4. Agriculture. All properties outside designated communities not placed in a residential or commercial land use category.

5. Mineral. Any areas in the land use in paragraphs (b) (1) through (4) of this section, used for mineral operations.

(c) Changes in classification. The Secretary may make changes in the classification of private lands set forth in paragraph (a) of this section by incorporating such changes in an amendment of these regulations.

(d) Certification of compliance with standards—(1) Present use. Any owner of property may request in writing the Area Ranger to examine the present use of the property and issue a certification that such present use conforms to the applicable standards established in § 292.16 for the land use category in which the property is placed. If after examination the Area Ranger determines that the present use of the property does so conform, he will issue a certification to this effect.

(2) Planned development or change in use. Any owner of property who proposes to change the use or develop his property for other than agricultural use may submit to the Area Ranger a use or development plan setting forth the manner in which and the time by which the property is to be developed and the use to which the property is to be put. If the Area Ranger determines that the development and use plan conforms to the applicable standards established in § 292.16 for the land use category in which the property is placed, he will issue a certification to this effect.
§ 292.15  
(3) Notification of action. Within 45 days after receipt of request for certification, the Area Ranger shall:  
(i) Issue the certification.  
(ii) Notify applicant that additional information is needed before action can be taken on the application.  
(iii) Notify applicant that certification is denied, and reasons for denial.  
(iv) Notify applicant that action on the request is deferred for a specified period of time for stated reasons.  
(e) Qualified certifications. (1) Any owner of a property classified residential or commercial under paragraph (a) of this section which had been improved and was being used for residential or commercial purposes on the effective date of these regulations, but which does not conform to the standards established for properties in the land use category in which the property is placed may nevertheless be issued a certification for period not to exceed 10 years so that the improvements may be made to conform to the standards. Such certification shall specify that it is only effective so long as the property is not subdivided, and is not further improved and the improvements existing on the effective date of these regulations, are not reconstructed, altered or relocated, except to meet standards. The certification shall specify the date on which it shall terminate.  
(2) If the Area Ranger determines, prior to certification, that a part or all of a property, for which a request for certification is made, is needed for access to and utilization of public property or for recreation and other facilities, he may except from the certification that part of the property needed for these purposes.  
(f) Revocation of certification. The Area Ranger will revoke a certification when he finds that the property is being used or developed not in conformance with the terms of the certification or the applicable standards established in §292.16 or is in imminent danger of being so used or developed. Notice of such revocation will be in writing and delivered to the owner in person or by certified mail. A partial revocation may be made when a portion of a property covered by a certification is determined to be needed for access to and utilization of public property or for recreation and other facilities.  
(g) Effect of certification. Property for which a certification is held by the owner shall not be acquired by the Secretary by condemnation.  
(b) Effect of noncompliance with standards. Property for which a determination has been made that it is being used or developed not in conformance with the applicable standards established in §292.16 for the land use category in which the property is placed may be acquired by the Secretary by condemnation.  
(i) Acquisition by negotiated purchase. (1) Any privately owned land or interest in land determined by the Secretary to be needed in furtherance of the objectives and purposes for which the Sawtooth National Recreation Area was established may be acquired by negotiated purchase subject only to the limitation in paragraph (j) of this section.  
(2) Property which has been developed for use prior to the effective date of these regulations, but which is not in conformance with applicable standards may be acquired by the Secretary through negotiated purchase and the Secretary may permit the owners, their successors or assigns to retain a right of use and occupancy of the improved property for a definite term not beyond December 31, 1988.  
(j) Limitation on acquisitions. Acquisitions of lands or interests therein for access to and utilization of public property and for recreation and other facilities shall not exceed 5 percent of the total acreage of all private property within the Sawtooth National Recreation Area on August 22, 1972. A land acquisition plan shall be prepared by the Area Ranger and approved by the Regional Forester showing those properties needed for access to and utilization of public property within the Sawtooth National Recreation Area on August 22, 1972. Said plan may be revised from time to time upon approval by the Regional Forester. Said plan shall be available for inspection by the public in the office of the Area Ranger.  
(k) Land exchanges. Some parcels of Federal lands within the Sawtooth National Recreation Area are classified or
may be subsequently classified in the overall general plan for the Recreation Area as suitable for selection through land exchange. Using existing land exchange authorities, these Federal lands may be made available for selection by parties owning land within the boundaries of the National Recreation Area to resolve some existing or potential land use conflicts. The values of the properties so exchanged shall be approximately equal, or, if they are not approximately equal, they shall be equalized by the payment of cash. Federal lands which may be located within the boundaries of designated communities will be considered for exchange only after acceptable community development plans and ordinances have been implemented.

(l) Appeals. Any landowner who is adversely affected by a decision of the Area Ranger under these regulations may file an appeal under the provisions of 36 CFR part 251, subpart C.

(m) Judicial review. The United States District Court for the District of Idaho shall have jurisdiction to review these regulations upon a compliant filed within 6 months after the effective date of these regulations, by any affected landowner in an action for a declaratory judgment as provided in the Act of August 22, 1972 (86 Stat. 612), section 4(a).

§ 292.16 Standards.

(a) The standards established in these regulations are in furtherance of the preservation and protection of the natural, scenic, historic, pastoral, and fish and wildlife values and to provide for the enhancement of the recreation values of the Recreation Area.

Applicability. The standards set forth in this section for each land use category shall apply to the private land in each such land use category as classified by the Secretary in accordance with § 292.15.

(b) Changes in standards. Changes in and addition to the standards may be made from time to time through amendment of these regulations.

(c) General standards. The following standards apply to properties in all land use categories.

(1) Use and development of the property will be in conformance with applicable Federal, State, and local laws, regulations and ordinances.

(2) Development, improvement and use of the property will not materially detract from the scenic, natural, historic, pastoral, and fish and wildlife values of the area.

(3) There will be adequate provision for disposal of solid and liquid waste originating on or resulting from use of the property.

(4) All new utilities will be underground.

(5) No structures or other improvements will be constructed in or encroaching upon streambeds, banks and flood plains of live or intermittent streams. Streambeds, banks, and flood plains will not be disturbed, except as may be necessary to construct, operate, and maintain irrigation, fisheries, utilities, roads, and similar facilities or improvements. Any such necessary encroachment will avoid impeding water flow, sedimentation of streams or entrance of deleterious material into streams.

(d) Designated communities.

(i) No buildings or structures, or part thereof, erected, constructed, reconstructed, altered, moved, or used for any purpose, except in conformance with the standards established herein.

(ii) No excavation or topographic change, except that required for foundations, utilities, or roads, that would modify or change the scenic beauty of natural hillsides or mountain slope lands.

(iii) Minimum 100-foot frontage on new building sites.

(iv) All new buildings set in 10 feet from each side of property line.

(v) All new buildings set back 20 feet from front property line.

(vi) Only one single-family dwelling for each building site or lot.

(vii) No new building to exceed two stories in height as determined from ground level.
§ 292.16

(viii) No building or structure erected with foundation pillars or stilts that exceeds 36 inches above ground level. Pillars or stilts, if used, must be enclosed.

(ix) Minimum of 750 square feet for new residences.

(x) All new buildings constructed of logs, shakes, rough lumber, rough wood, and native stone.

(xi) Mobile or semimobile homes permitted only in existing mobile home parks.

(xii) Nonreflective roofs on new buildings.

(xiii) All new steps and walks constructed of wood.

(xiv) Paints or stains to be of earth tones common to the area.

(xv) All buildings and structures, including fences, to be maintained in a useable and serviceable condition or removed. Properties to be maintained in a clean and orderly condition.

(xvi) Existing plus new buildings or structures cannot occupy more than 30 percent of the land surface on a lot less than 20,000 square feet in area. On any lot larger than 20,000 square feet, existing plus new buildings cannot occupy more than 6,500 square feet. Existing properties exceeding this amount as of the effective date of these regulations may not be further developed.

(xvii) The standards in paragraphs (d)(1) (v), (vi), (ix), and (xvi) of this section shall not apply to properties developed for commercial purposes.

(2) The Area Ranger shall cooperate with each designated community in the preparation of a community development plan and implementing ordinances which will assure that use and development of the private properties within the community will be consistent with the purposes for which the Sawtooth National Recreation Area was established and with the overall general plan of the Recreation Area. The Secretary may then, by amendment of these regulations, replace the standards adopted pursuant to paragraph (d)(1) of this section with the standards set forth in such community development plan and implementing ordinances as the standards applicable to that designated community.

(e) Residential. (1) Vegetative cover and screening requirements. Any combination of vegetative screening, topography, and structure design that renders the residence inconspicuous and not obtrusive as seen from main travel routes.

(2) Buildings. (i) Not more than one residence on each separately owned contiguous property as recorded in the records of the appropriate county on date of publication of these regulations.

(ii) Not more than two outbuildings with each residence. Aggregate square foot area of outbuildings not to exceed 400 square feet.

(iii) Dwelling size not less than 750 square feet of floor space.

(iv) Building architecture compatible with location and the pastoral environment, rustic in nature, harmoniously colored or natural wood finish or suitable wood substitutes, nonreflective roofs and sidings.

(v) Height of buildings to be in keeping with site characteristics and normally not exceeding on-site tree height, or 30 feet.

(vi) Sufficient setback of buildings from centerline of public roads for safety and unhampered traffic flow.

(vii) Minimum building setback from property line—10 feet.

(3) No excavation or topographic change except that required for buildings, roads, and utilities.

(4) Removal of live trees and other vegetation limited to that necessary to accommodate buildings and roads to allow installation of utilities.

(5) Roads designed, located, and constructed to minimize adverse esthetic impact and soil erosion.

(6) Owner identification and sale or rental signs not to exceed 2 square feet in size.

(7) Buildings and structures, including fences, to be maintained in a usable and serviceable condition or removed.

(8) No further reduction in size of residential ownerships except that which will not impair the objectives for which the Sawtooth National Recreation Area was established. A certification will be issued pursuant to §292.15(d) upon application in such cases.

(f) Commercial—(1) General. Service provided must serve a need which cannot readily or adequately be provided in a designated community, and must
be compatible with the purposes for which the Sawtooth National Recreation Area was established.

(2) Buildings. (i) Building architecture to be compatible with the pastoral environment, rustic in nature, harmoniously colored or natural wood finish or suitable wood substitutes, nonreflective roofs and sidings.

(ii) Building height to be in keeping with building size, scale, setback from roads and property boundaries, site size, setting, building design and type of use.

(iii) Sufficient setback of buildings from centerline of public roads for safety and unhampered traffic flow.

(3) Only signs identifying the commercial enterprise being conducted on the property. Signs not to exceed 20 square feet in area, 6 feet in length and 15 feet maximum height. Signs to be subdued in appearance and harmonizing in design and color with the surroundings. Signs not complying with this standard may be approved by certifications issued pursuant to §292.15(d) in special cases.

(4) No flashing lights.

(5) No new mobile or semimobile homes and mobile home parks except where they may be located without substantially impairing or detracting from the scenic, natural, historic, pastoral, and fish and wildlife values of the area.

(g) Agriculture. (1) Only structures which do not substantially impair or detract from the scenic, natural, historic, pastoral, and fish and wildlife values of the area and which are necessary for ranching or dude ranching such as dwellings, barns, storage buildings, fences, corrals, irrigation facilities, roads, and utilities.

(2) Buildings to be ranch-type character with log or other rustic exterior with harmoniously colored or natural wood finish and nonreflective surfaces.

(3) Fences and other improvements to be in harmony with the western ranching atmosphere.

(4) Minimum setback of new buildings to be 150 feet from public roads where determined feasible by the Area Ranger.

(5) No further reduction in size of agricultural ownerships except that which will not impair the objectives for which the Sawtooth National Recreation Area was established. A certification will be issued pursuant to §292.15(d) upon application in such cases.

(6) No signs, billboards or advertising devices except a property identification sign and one sale or rental sign not to exceed 2 square feet in area, harmonious in design and color with the surroundings. Signs not complying with this standard may be approved by certifications issued pursuant to §292.15(d) in special cases.

(7) Any tree removal and related slash disposal and soil erosion prevention measures to be conducted in a manner that will minimize detrimental effects to the site and adjoining lands.

(8) The general topography of the landscape to be unaltered except for incidental excavation or topographic change required by ranching activities.

(9) Structures and improvements, including fences, to be maintained in usable condition or removed. Those recognized as having historic or aesthetic value may remain.

(10) Roads to be designed, located and constructed to minimize esthetic impact and soil movement.

(11) Agricultural practices to be limited to hay production and pasture and range grazing in a manner which does not degrade water quality or result in accelerated soil erosion.

(h) Mineral operations. The standards set forth in this paragraph shall apply to a private property or portion thereof in any land use category which is used for mineral operations. To aid in determining whether a planned mineral operation will conform to these standards, the owner of the property shall submit to the Area Ranger a proposed plan of operations. If the Area Ranger determines that the proposed operation conforms to the standards established herein he will approve the plan and such approval shall constitute the certification provided for in §292.15(d).

(1) Operations will be confined to those locations where they may be conducted without substantially impairing or detracting from the scenic, natural, historic, pastoral, and fish and wildlife values of the area.
(2) The general standards set forth in paragraph (c) of this section shall apply to any mineral operations.

(3) The operations as described in the plan of operation and as they are carried out in accordance with the plan shall:

(i) Comply with Federal and State air and water quality and waste disposal standards.

(ii) Minimize adverse impacts on scenic values.

(iii) Provide for prompt stabilization and restoration of areas disturbed by the operations.

[39 FR 11544, Mar. 29, 1974]

Subpart D—Sawtooth National Recreation Area—Federal Lands

§ 292.17 General provisions.

(a) The use, management and utilization of natural resources on the Federal lands in the Sawtooth National Recreation Area (SNRA) are subject to the General Management Plan and the laws, rules, and regulations pertaining to the National Forests with the exception that part 252 of this chapter does not apply to these resources. No use or disposal of such resources shall be authorized which will result in substantial impairment of the natural values of the Recreation Area.

(b) Definitions: (1) Act means Pub. L. 92–400 (86 Stat. 612), which established the SNRA.

(2) Area Ranger or Superintendent means the Forest Service officer having administrative authority for the SNRA.

(3) General management plan means the document setting forth the land allocation and resource decisions for management of the SNRA.

(4) Letter of authorization means a letter signed by the Area Ranger, or his designee, authorizing an operator to conduct operations as approved in the operating plan.

(5) Mineral resources means all locatable minerals.

(6) Operator means a person conducting or proposing to conduct operations.

(7) Operations means all functions, works, and activities in connection with exploration, development, mining or processing of mineral resources and all uses reasonably incident thereto, including roads and other means of access on lands, regardless of whether said operations take place on or off mining claims.

(8) Operating plan means a written instrument describing proposed operations on Federal lands and containing such information as required by §292.18.

(9) Person means any individual, partnership, association, corporation, or other legal entity.

(10) Substantial impairment means that level of disturbance of the values of the SNRA which is incompatible with the standards of the General Management Plan. The proposed activities will be evaluated as to:

(i) The period of impact,

(ii) The area affected, and

(iii) The importance of the impact on the SNRA values.

(11) Unpatented mining claims means any mining claim or millsite claim located prior to August 22, 1972, pursuant to the Mining Law of 1872, but not patented.

[42 FR 39387, Aug. 4, 1977]

§ 292.18 Mineral resources.

(a) Occupancy. No unpatented mining claim may be used or occupied, except as otherwise permitted for any purpose other than exploration, mining, or processing operations and uses reasonably incident thereto.

(b) Letter of authorization. A letter of authorization with the posting of an appropriate bond is required prior to conducting operations in the SNRA.

(c) Operating plan. A proposed operating plan must be filed with the Area Ranger prior to conducting any operations and prior to construction, reconstruction, improvement or maintenance of roads and trails, bridges, or other facilities for access within the SNRA; provided, that an operating plan is not required for—
§ 292.18  

(1) Operations which only involve vehicular travel on existing roads open to public use;  
(2) Marking and/or reestablishing claims corners;  
(3) Sampling and exploration work which will not cause significant damage to surface resources and will not involve the removal of more than 100 pounds of material for analysis and study, provided the Area Ranger has prior notice of such activities; or  
(4) The evaluation and study of existing underground mine workings not involving surface disturbances.  

(d) Operating plan—requirements. Each operating plan shall include:  

(1) The names and mailing addresses of operators and their agents, along with a statement of ownership and/or authorization under which the operation is to be conducted, and including a copy of the location notice(s), proof of assessment labor, and quit claim deeds if ownership has changed within the assessment year.  
(2) A map or sketch showing information sufficient to locate the proposed area of operations on the ground, existing and/or proposed roads or access routes to be used in connection with the operations and the approximate location and size of areas where surface resources will be disturbed.  
(3) Information describing the nature of operations proposed and how they will be conducted, the type and standard of existing and proposed roads or access routes, the means of transportation to be used, the period during which the proposed operations will take place, and measures to be taken for protecting the values of the SNRA and reclaiming the lands.  

(e) Operating plan—approval. (1) The Area Ranger shall promptly acknowledge receipt of any operating plan to the operator. The Area Ranger shall review the environmental effects and conduct a technical examination of each proposed operating plan. The technical examination shall identify the resources and the land uses in the area of operations. The Area Ranger shall use the current General Management Plan of the SNRA and the Final Environmental Statement as guides in determining whether the proposed operations may result in substantial impairment of the values of the SNRA. In his review, the Area Ranger may solicit comments from the general public and/or other government agencies in analysis of environmental effects. In his review, the Area Ranger will consider the compatibility of the proposed operating plan with the Act and the General Management Plan. The Area Ranger may not approve an operating plan for an identical claimed area to more than one operator.  
(2) Within 30 working days of receipt of a proposed operating plan, the Area Ranger shall take one of the following actions:  

(i) Notify the operator that the operating plan has been approved as submitted; or,  
(ii) Notify the operator that the operating plan has been approved as subject to the operator accepting the changes or conditions deemed necessary by the Area Ranger; or,  
(iii) Notify the operator that more time is necessary to review the plan because of the need to prepare an environmental impact statement, or conduct a cultural resource survey, or other stated reasons; in such cases, the operator will be notified of the approximate time needed to complete the review; or,  
(iv) Notify the operator of an apparent conflict of ownership and that additional proof of ownership is required; or,  
(v) Notify the operator that the operating plan as submitted is inadequate to support any conclusion as to substantial impairment, and that additional information will be required; or,  
(vi) Notify the operator that the operating plan is not approved since such operations as specified in the plan would create substantial impairment.  

(f) Operating plans—suspension or modification. The Area Ranger may suspend or terminate authorization to operate in whole or in part where such operations are causing substantial impairment which cannot be mitigated. At any time during operations under an approved operation plan, the operator may be required to modify the operating plan in order to minimize or avoid substantial impairment of the values of the SNRA.
§ 292.20 Bond requirements. (1) An operator shall furnish a bond, in the amount determined by the Area Ranger to be appropriate for reclamation of the disturbed surface area, prior to the commencement of operations. In lieu of a bond, the operator may deposit into a Federal depository, as directed by the Forest Service, cash in an amount equal to the required dollar amount of the bond or negotiable securities of the United States having market value at the time of deposit or not less than the required dollar amount of the bond.

(2) When the reclamation of the project, or portions thereof, has been completed, the operator will notify the Area Ranger who will examine the area to determine whether the reclamation is acceptable. When the Area Ranger has accepted as completed any portion of the reclamation, he shall reduce proportionately the amount of bond thereafter to be required with respect to the remaining reclamation. However, the operator will not be released from liability under the bond for the amount which may be necessary to revegetate each planting area for a minimum period of at least 5 years after the first efforts at revegetation if those initial efforts are unsuccessful.

(3) If the Area Ranger determines that revegetation is likely to occur before the expiration of such minimum period, he may release the operator from the extended liability under the bond for revegetation of planting area.

(b) Access. The operator shall permit free and unrestricted public access to and through lands included within an unpatented mining claim for all lawful and proper purposes. In areas where such access would unduly interfere with authorized operations or would constitute a hazard to public health and safety, public use may be restricted with prior approval of the Area Ranger.

Subpart E—Hells Canyon National Recreation Area—Private Lands

Source: 50 FR 30497, June 13, 1994, unless otherwise noted.
§ 292.21 Definitions.

For the purposes of this subpart, the following terms are defined:

Archaeological sites are those sites containing relics, artifacts, and other evidence of past human cultures including historic properties as defined by the National Historic Preservation Act.

Commercial land is land within the HCNRA developed for commercial purposes as of June 13, 1994 and which is assigned to the commercial land category (§ 292.22).

Condemnation is the acquisition of lands or interests therein by the Secretary without the consent of the owner. In the case of the Act, condemnation is a limited authority that may be exercised by the Secretary only in the event that a standard or standards set forth herein are violated for all private land categories except mining lands. Where mining lands are involved, the Secretary may exercise his or her condemnation authority notwithstanding the fact that the mining land owner has complied with the relevant standards of this section.

Conservation easement or Scenic easement as defined in Section 9(d) of the Act “means the right to control the use of land in order to protect aesthetic values for the purposes of this Act, but shall not be acquired without the consent of the owner to preclude the continuation of any farming or pastoral use exercised by the owner as of the date of enactment of this Act.”

Dude ranching is a business oriented primarily towards furnishing small groups with an outdoor recreational and educational experience associated with ranching activities and perpetuates the purposes for which the HCNRA was established. Dude ranching is subservient to the primarily recognized ranching operation.

Existing uses are those uses of or developments to private land as of the date of enactment of the Act on December 31, 1975.

Farm/Forest/Grazing lands are those lands used for farm, forest, and grazing purposes, for maintaining watersheds as fish and wildlife habitat, or for providing outdoor recreational activities. All such lands are assigned to the Farm/Forest/Grazing land category in § 292.22.

Farm/Forest/Grazing Use is any traditional agricultural, silvicultural, or livestock management use or combination thereof on farm/forest/grazing lands within the HCNRA. This includes, but is not limited to, truck farming, growing and harvesting of timber, grazing of livestock, horticultural use, animal husbandry use, horse, cattle, and sheep ranching, and preparation and storage of the products raised on farm/forest/grazing land for on-site use or for disposal by marketing or otherwise. Farm/forest/grazing uses may also consist of uses related to and in furtherance of the protection of watersheds, maintenance of fish and wildlife habitat, and the pursuit of recreational activities.

Hazardous substance includes any material so classified under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (42 U.S.C. 9601 et seq.).

Mining lands are lands primarily used for mining purposes as of June 13, 1994 and which are assigned to the mining land category in § 292.22.

Outdoor recreational activities are activities such as camping, picnicking, rafting, boating, hiking, rock climbing, fishing, hunting, horseback riding, and the viewing of wildlife or scenery.

Parcel as used in this subpart refers to contiguous tax lots under one ownership. For the purposes of this subpart, rights-of-way do not divide parcels into smaller units.

Partition is the division of land into lots, and which, under county planning ordinances, is identified by a map, drawing, or writing which contains the descriptions, locations, specifications, and dedications for roads, utilities, etc. and which has been properly filed with the County recorder.

Private land is land not in federal, state, or local government ownership.

Proposed uses are those uses of or development to a private land parcel within the HCNRA initiated after June 13, 1994.

Ranger is the HCNRA Area Ranger, Wallowa-Whitman National Forest,

Recreational facilities are facilities associated with or required for outdoor recreational activities and include, but are not limited to, parks, campgrounds, hunting and fishing lodges, and interpretive displays.

Residential lands are lands within the HCNRA developed for residential purposes as of June 13, 1994 and which are assigned to the Residential land category in §292.22.

Scenic Easement. See Conservation Easement.

Screening is the reduction or elimination of the visual impact of any structure or land modification as seen from any public travel route within the HCNRA.

Solid waste is discarded solid materials resulting from mining, industrial, commercial, agricultural, silvicultural, and community activities. This term does not include domestic sewage or pollutants such as silt or dissolved materials in irrigation return flows.

Structure is any permanent building or facility, or part thereof such as barns, outhouses, residences and storage sheds. This includes electric transmission line systems, substations, commercial radio transmitters, relays or repeater stations, antennas, and other electronic sites and associated structures.

Traditional uses are ranching, grazing, farming, timber harvesting and the occupation of homes and land associated therewith within the HCNRA, or other activities including outdoor recreational activities and facilities, which existed on or before December 31, 1975.

Travel route is a route, such as a county or National Forest system road or river or trail, that is open for use by members of the general public.

§ 292.22 Land category assignments.

(a) Land categories. (1) All privately owned lands within the HCNRA are to be assigned to one of the following four land categories:

(i) Farm/forest/grazing land.
(ii) Mining land.
(iii) Residential land.
(iv) Commercial land.

(2) Not later than August 12, 1994, a map or maps displaying the privately owned lands within the HCNRA and the land categories to which they have been assigned must be on file and available for public inspection at the Ranger’s office. The Ranger shall give notice of the availability of this map or maps in the local newspapers of record.

(b) Changes in land category assignment. Lands assigned to the Commercial, Residential, or Mining category may be reclassified as farm/forest/grazing land so long as the intended use or development is consistent with the standards in §292.23 and the Ranger has given public notice of the proposed change in the local newspaper of record and has notified adjacent landowners and the affected county government at least 30 days prior to any decision on the proposed change.

§ 292.23 Standards of compatible land use and development.

Private land use that conforms to the standards of this section is deemed to be compatible with the purposes for which the HCNRA was established.

(a) Standards applicable to all private lands. As of June 13, 1994, the use and development of private lands in all land categories within the HCNRA is deemed compatible with the purposes for which the HCNRA was established, if the use and development of such lands meets the following standards:

(1) Use and development conforms to applicable local, state, and federal environmental, natural resource, cultural resource, and land use development law.

(2) All new or replacement structures are screened and/or constructed of materials that blend with the natural environment, except where structures typify the architectural style and materials of a significant historic era such as pre-World War II. Screening is not required, however, for new or replacement structures that are associated with an existing unscreened structure or structures that were not screened at the time this rule became effective.
(3) No public or commercial solid waste disposal sites or hazardous substance disposal sites are located on private lands within the HCNRA.

(4) All new or replacement utility lines are placed underground where ground conditions and topography permit. This standard does not prevent or impair routine maintenance of utility lines or related structures in existence prior to June 13, 1994.

(5) No new or replacement structures are developed within the boundaries of the Hells Canyon Wilderness, provided that existing structures may be repaired and/or maintained.

(6) Significant historic, archaeologic, or paleontologic sites are protected.

(7) Sites used for the extraction of common mineral materials, such as gravel, for construction and maintenance purposes on all except designated mining lands, are screened where possible, and are not in excess of 2 acres in size.

(8) New recreational facilities enhance and are compatible with the purpose of the Act.

(b) Farm/forest/grazing lands standards. The following additional standards are applicable to farm/forest/grazing lands:

(1) Except as otherwise provided in this paragraph, the minimum lot size for residential development is 160 acres. Only residences associated with farm/forest/grazing uses may be developed. Partitions of less than 160 acres may be made to provide for the continuation of existing commercial agriculture, but such partitions may not be developed for residential use. Lots of less than 160 acres existing on June 13, 1994, with residences permanently affixed to a foundation or basement, are considered to be in compliance.

(2) Structures are limited to those necessary to conduct farm/forest/grazing use.

(3) Dude ranching is permitted provided it is compatible with the purpose and direction of the Act and is part of a recognized ranching operation.

(4) New or replacement structures for farm/forest/grazing use are not closer than 25 feet from a property line or 55 feet from the center line of a travel route.

(c) Mining Lands. (1) The following standards are applicable to mining lands:

(i) The owner of mining lands must consult with the Ranger concerning proposed mineral development activities prior to submitting a plan of operations to the relevant state or federal agencies.

(ii) Operations comply with Federal and State mining, air quality, water quality, hazardous waste, water disposal and reclamation standards.

(iii) The type and number of structures, including but not limited to residences associated with the mining activity, are limited to the minimum necessary for the use and development of the mining lands.

(iv) No new structures are located closer than 25 feet from a property line or 55 feet from the center line of a travel route.

(v) Mining lands are not partitioned.

(2) Notwithstanding compliance with the standards of paragraph (c)(1) of this section, the Secretary may acquire mineral interests in the HCNRA without the consent of the owner, if the Secretary deems this necessary to meet the purposes for which the HCNRA was established.

§292.24 Determination of compliance and noncompliance.

(a) Compliance. Landowners may request a determination by the Forest Service as to whether an existing or a proposed use or development complies with the relevant standards set out in this subpart.

(1) Requests for a determination of compliance must be made in writing to the Ranger and include the following information:

(i) The current land category to which the land is assigned (§292.23);

(ii) The use of development that exists or that is proposed for the property;

(iii) A statement as to whether a change in the land category assignment will be necessary to accommodate the proposed use or development;

(iv) The timeframe for implementing the proposed use or development; and

(v) A statement as to how the proposed use or development satisfies the
§ 292.25 Information requirements.

The information required by § 292.24 of this subpart in order for a landowner to obtain a determination of compliance constitutes an information requirement as defined in the Paperwork Reduction Act (44 U.S.C. 3507) and has been approved for use by the Office of Management and Budget and assigned control number 0596–0135.

36 CFR Ch. II (7–1–01 Edition)

Subpart F—Hells Canyon National Recreation Area—Federal Lands

SOURCE: 59 FR 36882, July 19, 1994, unless otherwise noted.

§ 292.40 Purpose and scope.

(a) Purpose. The rules of this subpart establish standards and guidelines for the protection and preservation of historic, archeological, and paleontological resources, the use of motorized and mechanical equipment, the use of motorized and non-motorized rivercraft, and the management, utilization, and disposal of natural resources by timber harvesting, mining and grazing on National Forest System lands that comprise the Hells Canyon National Recreation Area located in the Wallowa-Whitman, Nez Perce, and Payette National Forests in the States of Idaho and Oregon as established by the Act of December 31, 1975, as amended (89 Stat. 1117, 16 U.S.C. 460gg et seq.).

(b) Scope. Management of National Forest System lands within the Hells Canyon National Recreation Area is subject to all laws, rules, and regulations applicable to the national forest System, except as otherwise provided in this subpart. In the event of a conflict of inconsistency between rules of this subpart and other rules within this title, the rules of this subpart shall take precedence to the extent permitted by law.

§ 292.41 Definitions.

Special terms used in this subpart are defined as follows:

“Authorized Officer” is a Forest Service line officer who has been delegated the authority to take certain actions pursuant to the provisions of this subpart.

“Comprehensive Management Plan” is the document that establishes the array, levels, and manner of resource
uses within the HCNRA. It is incorporated as part of the Wallowa-Whitman National Forest Land and Resource Management Plan.

“Cultural resources” means historic and archeological resources.

“HCNRA” is the abbreviation for the Hells Canyon National Recreation Area.

“Mechanical equipment” means any contrivance which travels over ground, snow or water on wheels, tracks, skids, or by flotation that is powered by a living source. This term does not include non-motorized rivercraft which is defined separately herein, wheelchairs, or other similar devices used solely to assist persons with disabilities.

“Mining” means any activity related to the discovery, extraction and exploitation of minerals under the Mining Act of 1872, 30 U.S.C. 22 et seq., and the Mineral Leasing Act of 1920, 30 U.S.C. 181 et seq., through the use of, among other things, hydraulic equipment, pans, ground sluicing, sluice boxes, rockers, or suction dredges.

“Motorized equipment” means any machine powered by a nonliving source. This term does not include motorized rivercraft which is defined separately herein or small, hand-held devices such as flashlights, shavers, wristwatches, and Geiger counters.

“Motorized rivercraft” means any boat capable of being mechanically propelled by propeller(s) or jet pump(s) up-stream through rapids.

“Non-Motorized rivercraft” means any boat which is not a motorized rivercraft.

“Other lands” means all National Forest System lands in the HCNRA except for Wild and Scenic Rivers and Wilderness Lands.

“Paleontological resources” means any remains, trace, or imprint of a plant or animal that has been preserved in the Earth’s crust prior to the Holocene epoch.

“Selective cutting” means single tree or group selection cutting and is the periodic removal of trees individually or in small groups from an uneven aged forest in order to maintain diverse stands, with the sustainability and improvement of the forest using an ecosystem approach to management being a primary consideration.

“Suitable” means it is appropriate to apply certain resource management practices to a particular area of land, as determined by an ecological and environmental analysis of the land. A unit of land may be suitable for a variety of individual or combined management practices.

“Wild and Scenic Rivers” means the segments of the Snake, Rapid, and Imnaha Rivers designated as components of the National Wild and Scenic Rivers System and any other river or segment thereof in the HCNRA hereafter designated. Wild and Scenic Rivers include all National Forest System lands within the designated Wild and Scenic River corridor.

“Wilderness lands” means the Hells Canyon Wilderness, that portion of the Eagle Cap Wilderness in the HCNRA, and any other wilderness in the HCNRA hereafter designated as components of the National Wilderness Preservation System.

§ 292.42 Management standards and guidelines.

(a) In addition to existing statutory and regulatory authority governing administration of National Forest System lands and resources, the standards and guidelines in §§292.43 to 292.48 of this subpart prescribe the scope and extent of certain activities that may occur in the HCNRA. These standards and guidelines are consistent with the overall objective of administering the HCNRA to preserve its natural beauty, historical and archaeological values and enhance its recreational and ecological values and the public’s enjoyment. The standards and guidelines may vary depending on whether the land where the proposed activity is contemplated is within the Wilderness Lands, Wild and Scenic Rivers, or the Other Lands.

(b) The standards and guidelines of this subpart govern the previous programmatic direction in the Comprehensive Management Plan that has been incorporated into the Wallowa-Whitman National Forest Land and Resource Management Plan. Site specific environmental analysis may be required even in those situations where a use or activity is permissible under the
§ 292.43 Protection and preservation of cultural and paleontological resources.

(a) Other Lands and Wild and Scenic Rivers. The following standards and guidelines of this section apply to the protection and preservation of cultural and paleontological resources on the Other Lands and the Wild and Scenic Rivers in the HCNRA:

(1) The primary objective of managing cultural resources is the protection of the resource from damage or destruction. To the extent consistent with protection, cultural resources may also be managed for scientific research, public education and enjoyment. Where interpretation of these sites for public benefit and knowledge is developed, it shall be compatible with the protection of cultural resources.

(2) The authorized officer shall establish priorities for management emphasis and protection of cultural resources based, in part, on whether the appropriate State Historic Preservation Office has concurred with the Forest Service's determination that a cultural resource is significant.

(3) Significant cultural resources are to be protected on-site, unless the authorized officer determines that off-site protection is preferable because adequate protection cannot be provided on-site, the resource is already adequately represented and protected on-site elsewhere, protection on-site is not consistent with the administration of Wilderness Lands, or for other good cause shown. Information about significant cultural resources shall be documented.

(4) The primary objective of managing paleontological resources is scientific research. Paleontological resources may only be disturbed or removed in conjunction with scientific research and only upon the issuance of prior written authorization of the disturbance or removal activity.

(b) Wilderness Lands. The following standards and guidelines apply to the protection and preservation of cultural and paleontological resources in the Wilderness Lands category of the HCNRA.

(1) The standards and guidelines for Other Lands and Wild and Scenic Rivers in paragraph (a) of this section also apply to Wilderness Lands.

(2) Public education and information activities concerning cultural resources on Wilderness Lands may not be offered or established inside Wilderness Lands.

(3) New trails and relocations of existing trails may not be developed for the sole purpose of providing public access to cultural resource sites on Wilderness Lands.

§ 292.44 Use of motorized and mechanical equipment.

The standards and guidelines of this section apply to the use of motorized and mechanical equipment in the HCNRA. These standards and guidelines shall not be construed to impair or preclude use of such equipment in the Forest Service’s administration of the HCNRA; authorized scientific and other research activities within the HCNRA; timber harvesting, mining, or grazing activities as authorized in §§292.46–292.48 of this subpart; responses by the Forest Service or any other Federal, state, or local agency to public health or safety emergencies; or access to private inholdings within the HCNRA.

(a) Other Lands. The following standards and guidelines apply to the use of motorized and mechanical equipment in the Other Lands category of the HCNRA.

(1) Motorized and mechanical equipment may be used on designated Forest Service roads, trails, and airstrips subject to terms and conditions deemed necessary by the authorized officer for the safe use of such facilities.

(2) The use of motorized and mechanical equipment is prohibited off of designated Forest Service roads, trails, and airstrips unless authorized by the authorized officer subject to terms and conditions deemed necessary by the authorized officer for the safe use of such
§ 292.46 Timber harvesting activities.

(a) **Other Lands.** The standards and guidelines of this section apply to timber harvesting activities in the Other Lands category of the HCNRA.

(1) Timber may be harvested only to protect and enhance ecosystem health, wildlife habitat, or recreational and scenic uses; to reduce the risk of harm posed by hazard trees; or to respond to natural events such as wildfire, flood, earthquake, volcanic eruption, high winds, and disease or insect infestation.

(2) Where authorized, trees may be harvested by selective cuttings. Openings created by the timber harvesting...
§ 292.47 Mining activities.

(a) Other Lands. The standards and guidelines of this section apply to mining activities in the Other Lands category of the HCNRA.

(1) All mining activities are prohibited subject to valid existing rights as of December 31, 1975.

(2) The impact of mining activities including, but not limited to, drilling and the development of ingress and egress routes, must be minimized and directed away from Wilderness Lands and Wild and Scenic Rivers to the extent practicable.

(3) Mineral materials including, but not limited to common varieties of gravel, sand, or stone, may be used only within the HCNRA for the purpose of construction and maintenance of facilities including, but not limited to, roads, airfields, trails, and recreation developments.

(4) Sources of mineral materials should be located outside the HCNRA.

§ 292.48 Grazing activities.

The following standards and guidelines apply to domestic livestock grazing activities on Other Lands, Wild and Scenic Rivers, and Wilderness Lands in the HCNRA.

(a) Grazing may be authorized only on rangeland determined by the authorized officer to be suitable for grazing and meeting or moving towards satisfactory condition and meeting the conditions described in paragraph (b) of this section.

(b) Where domestic livestock grazing is incompatible with the protection, restoration, or maintenance of fish and wildlife or their habitats; public outdoor recreation; conservation of scenic, wilderness, and scientific values; rare sources for mineral materials that may be used to benefit the HCNRA may be located inside the HCNRA if the cost of obtaining the materials outside the HCNRA adds significantly to the costs of the materials, or the transportation of mineral materials from outside the HCNRA presents a safety hazard. When mineral materials are obtained from inside the HCNRA, the environmental effects at the source of extraction must be mitigated by site reclamation upon the termination of the extraction activity. Site reclamation may include contouring the land, re-establishing vegetation, and other measures deemed appropriate by the authorized officer to blend the site into the surrounding environment to the extent practicable. The HCNRA shall not be the source of mineral materials for use outside the HCNRA for projects that do not directly benefit the HCNRA.
§ 292.60 Purpose and scope.

(a) Purpose. The regulations of this subpart set forth the rules and procedures by which the Forest Service regulates mineral operations on National Forest System lands within the Smith River National Recreation Area as established by Congress in the Smith River National Recreation Area Act of 1990 (16 U.S.C. 460bbb et seq.).

(b) Scope. The rules of this subpart apply only to mineral operations on National Forest System lands within the Smith River National Recreation Area.

(c) Applicability of other rules. The rules of this subpart supplement existing Forest Service regulations concerning the review, approval, and administration of mineral operations on National Forest System lands including, but not limited to, those set forth at parts 228, 251, and 261 of this chapter.

(d) Conflicts. In the event of conflict or inconsistency between the rules of this subpart and other parts of this chapter, the rules of this subpart take precedence, to the extent allowable by law.

§ 292.61 Definitions.

The special terms used in this subpart have the following meaning:

Authorized officer means the Forest Service officer to whom authority has been delegated to take actions pursuant to the provisions of this subpart.

Hazardous material means any hazardous substance, pollutant, contaminant, hazardous waste, and oil or other petroleum products, as those terms are defined under any Federal, State, or local law or regulation.

Outstanding mineral rights means the rights owned by a party other than the surface owner at the time the surface was conveyed to the United States.

SRNRA is the abbreviation for the Smith River National Recreation Area, located within the Six Rivers National Forest, California.

§ 292.62 Valid existing rights.

(a) Definition. For the purposes of this subpart, valid existing rights are defined as follows:

(1) For certain "Wild" River segments. The rights associated with all mining claims on National Forest System lands within the SRNRA in "wild" segments of the Wild and Scenic Smith River, Middle Fork Smith River, North Fork Smith River, Siskiyou Fork Smith River, South Fork Smith River, and their designated tributaries, except Peridotite Creek, Harrington Creek, and the lower 2.5 miles of Myrtle Creek, which:

(i) Were properly located prior to January 19, 1981;
(ii) Were properly maintained thereafter under the applicable law;
(iii) Were supported by a discovery of a valuable mineral deposit within the meaning of the United States mining laws prior to January 19, 1981, which discovery has been continuously maintained since that date; and
(iv) Continue to be valid.

(2) For Siskiyou Wilderness. The rights associated with all mining claims on National Forest System lands within the SRNRA in the Siskiyou Wilderness except, those within the Gasquet-Oreleans Corridor addition or those rights
§ 292.63 Plan of operations—supplementary requirements.

(a) Applicability. In addition to the activities for which a plan of operations is required under §228.4 of this chapter, a plan of operations is required when a proposed operation within the SRNRA involves mechanical or motorized equipment, including a suction dredge and/or sluice.

(b) Information to support valid existing rights. A proposed plan of operations within the SRNRA must include at least the following information on the existence of valid existing rights:

1. The mining claim recordation serial number assigned by the Bureau of Land Management;
2. A copy of the original location notice and conveyance deeds, if ownership has changed since the date of location;
3. A copy of affidavits of assessment work or notices of intention to hold the mining claim since the date of recordation with the Bureau of Land Management;
4. Verification by the Bureau of Land Management that the holding or maintenance fees have been paid or have been exempted;
5. Sketches or maps showing the location of past and present mineral workings on the claims and information sufficient to locate and define the mining claim corners and boundaries on the ground;
6. An identification of the valuable mineral that has been discovered;
7. An identification of the site within the claims where the deposit has been discovered and exposed;
8. Information on the quantity and quality of the deposit including copies of assays or test reports, the width, locations of veins, the size and extent of any deposit; and
9. Existing evidence of past and present sales of the valuable mineral.

(c) Minimum information on proposed operations. In addition to the requirements of paragraph (b) of this section, a plan of operations must include the information required at §§228.4 (c)(1)
through (c)(3) of this chapter which includes information about the proponent and a detailed description of the proposed operation. In addition, if the operator and claim owner are different, the operator must submit a copy of the authorization or agreement under which the proposed operations are to be conducted. A plan of operations must also address the environmental requirements of §228.8 of this chapter which includes reclamation. In addition, a plan of operations also must include the following:

(1) An identification of the hazardous materials and any other toxic materials, petroleum products, insecticides, pesticides, and herbicides that will be used during the mineral operation, and the proposed means for disposing of such substances;

(2) An identification of the character and composition of the mineral wastes that will be used or generated and a proposed method or strategy for their placement, control, isolation, or removal; and

(3) An identification of how public health and safety are to be maintained.

§ 292.64 Plan of operations—approval.

(a) Timeframe for review. Except as provided in paragraph (b) of §292.62 of this subpart, upon receipt of a plan of operations, the authorized officer shall review the information related to valid existing rights and notify the operator in writing within 60 days of one of the following situations:

(1) That sufficient information on valid existing rights has been provided and the anticipated date by which the valid existing rights determination will be completed, which shall not be more than 2 years after the date of notification; unless the authorized officer, upon finding of good cause with written notice and explanation to the operator, extends the time period for completion of the valid existing rights determination.

(2) That the operator has failed to provide sufficient information to review a claim of valid existing rights and, therefore, the authorized officer has no obligation to evaluate whether the operator has valid existing rights or to process the operator’s proposed plan of operations.

(b)(1) If the authorized officer concludes that there is not sufficient evidence of valid existing rights, the officer shall so notify the operator in writing of the reasons for the determination, inform the operator that the proposed mineral operation cannot be conducted, advise the operator that the Forest Service will promptly notify the Bureau of Land Management of the determination and request the initiation of a mineral contest action against the pertinent mining claim, and advise the operator that further consideration of the proposed plan of operations is suspended pending final action by the Department of the Interior on the operator’s claim of valid existing rights and any final judicial review thereof.

(2) If the authorized officer concludes that there is not sufficient evidence of valid existing rights, the authorized officer also shall notify promptly the Bureau of Land Management of the determination and request the initiation of a mineral contest action against the pertinent mining claims.

(c) An authorized officer’s decision pursuant to paragraph (b) of this section that there is not sufficient evidence of valid existing rights is not subject to further agency or Department of Agriculture review or administrative appeal.

(d) The authorized officer shall notify the operator in writing that the review of the remainder of the proposed plan will proceed if:

(1) The authorized officer concludes that there is sufficient evidence of valid existing rights;

(2) Final agency action by the Department of the Interior determines that the applicable mining claim constitutes a valid existing right; or

(3) Final judicial review of final agency action by the Department of the Interior finds that the applicable mining claim constitutes a valid existing right.

(e) Upon completion of the review of the plan of operations, the authorized officer shall ensure that the minimum information required by §292.63(c) of this subpart has been addressed and, pursuant to §228.5(a) of this chapter, notify the operator in writing whether or not the plan of operations is approved.
§ 292.65 Plan of operations—suspension.

(a) The authorized officer may suspend mineral operations due to an operator's noncompliance with applicable statutes, regulations, or terms and conditions of the approved plan of operations.

(1) In those cases that present a threat of imminent harm to public health, safety, or the environment, or where such harm is already occurring, the authorized officer may take immediate action to stop the threat or damage without prior notice. In such case, written notice and explanation of the action taken shall be given the operator as soon as reasonably practicable following the suspension.

(2) In those cases that do not present a threat of imminent harm to public health, safety, or the environment, the authorized officer shall first notify the operator in writing of the basis for the suspension and provide the operator with reasonably sufficient time to respond to the notice of the authorized officer or to bring the mineral operations into conformance with applicable laws, regulations, or the terms and conditions of the approved plan of operations.

(b) Except as otherwise provided in this section, the authorized officer shall notify the operator not less than 30 days prior to the date of the proposed suspension.

OUTSTANDING MINERAL RIGHTS

§ 292.66 Operating plan requirements—outstanding mineral rights.

(a) Proposals for mineral operations involving outstanding mineral rights within the SRNRA must be documented in an operating plan and submitted in writing to the authorized officer.

(b) An operating plan for operations involving outstanding mineral rights within the SRNRA must include the following:

(1) The name and legal mailing address of the operator, owner, and any lessees, assigns, and designees;

(2) A copy of the deed or other legal instrument that conveyed the outstanding mineral rights;

(3) Sketches or maps showing the location of the outstanding mineral rights, the proposed area of operations, including, but not limited to, existing and/or proposed roads or access routes identified for use, any new proposed road construction, and the approximate location and size of the areas to be disturbed, including existing or proposed structures, facilities, and other improvements to be used;

(4) A description of the type of operations which includes, at a minimum, a list of the type, size, location, and number of structures, facilities, and other improvements to be used;
(5) An identification of the hazardous materials and any other toxic materials, petroleum products, insecticides, pesticides, and herbicides that will be used during the mineral operation and the proposed means for disposing of such substances;

(6) An identification of the character and composition of the mineral wastes that will be used or generated and a proposed method or strategy for their placement, control, isolation, remediation, or removal; and

(7) A reclamation plan to reduce or control on-site and off-site damage to natural resources resulting from mineral operations. The plan must:

(i) Provide reclamation to the extent practicable;

(ii) Show how public health and safety are maintained:

(iii) Identify and describe reclamation measures to include, but not limited to, the following:

(A) Reduction and/or control of erosion, landslides, and water runoff;

(B) Rehabilitation of wildlife and fisheries habitat to be disturbed by the proposed mineral operation; and

(C) Protection of water quality.

(iv) Demonstrate how the area of surface disturbance will be reclaimed to a condition or use that is consistent with the Six Rivers National Forest Land and Resource Management Plan.

§ 292.67 Operating plan approval—outstanding mineral rights.

(a) Upon receipt of an operating plan, the authorized officer must review the information related to the ownership of the outstanding mineral rights and notify the operator that:

(1) Sufficient information on ownership of the outstanding mineral rights has been provided; or

(2) Sufficient information on ownership of outstanding mineral rights has not been provided, including an explanation of the specific information that still needs to be provided, and that no further action on the plan of operation will be taken until the authorized officer’s receipt of the specified information.

(b) If the review shows outstanding mineral rights have not been verified, the authorized officer must notify the operator in writing that outstanding mineral rights have not been verified, explain the reasons for such a finding, and that the proposed mineral operation cannot be conducted.

(c) If the review shows that outstanding mineral rights have been verified, the authorized officer must notify the operator in writing that outstanding mineral rights have been verified and that review of the proposed operating plan will proceed.

(d) The authorized officer shall review the operating plan to determine if all of the following criteria are met:

(1) The operating plan is consistent with the rights granted by the deed;

(2) The operating plan is consistent with the Six Rivers National Forest Land and Resource Management Plan; and

(3) The operating plan uses only so much of the surface as is necessary for the proposed mineral operations.

(e) Upon completion of the review of the operating plan, the authorized officer shall notify the operator in writing of one of the following:

(1) The operating plan meets all of the criteria of paragraphs (d)(1) through (d)(3) of this section and, therefore, is approved;

(2) The operating plan does not meet one or more of the criteria in paragraphs (d)(1) through (d)(3) of this section. Where feasible, the authorized officer may indicate changes to the operating plan that would satisfy the criteria in paragraphs (d)(1) through (d)(3) of this section and, thus, if accepted by the operator, would result in approval of the operating plan.

(f) To conduct mineral operations beyond those described in an approved operating plan, the owner or lessee must submit, in writing, an amended operating plan to the authorized officer at the earliest practicable date. New operations covered by the proposed amendment may not begin until the authorized officer has reviewed and responded in writing to the proposed amendment. The authorized officer shall review a proposed amendment of an approved operating plan to determine that the criteria in paragraphs (d)(1) through (d)(3) of this section are met.
§ 292.68 Mineral materials.
Subject to the provisions of part 228, subpart C, and part 293 of this chapter, the authorized officer may approve contracts and permits for the sale or other disposal of mineral materials, including but not limited to, common varieties of gravel, sand, or stone. However, such contracts and permits may be approved only if the material is not within a designated wilderness area and is to be used for the construction and maintenance of roads and other facilities within the SRNRA or the four excluded areas identified by the Act.

OTHER PROVISIONS
§ 292.69 Concurrent reclamation.
Plans of operations involving locatable minerals, operating plans involving outstanding mineral rights, and contracts or permits for mineral materials should all provide, to the maximum extent practicable, that reclamation proceed concurrently with the mineral operation.

§ 292.70 Indemnification.
The owner and/or operator of mining claims and the owner and/or lessee of outstanding mineral rights are jointly and severally liable in accordance with Federal and State laws for indemnifying the United States for the following:
(a) Costs, damages, claims, liabilities, judgments, injury and loss, including those incurred from fire suppression efforts, and environmental response actions and cleanup and abatement costs incurred by the United States and arising from past, present, and future acts or omissions of the owner, operator, or lessee in connection with the use and occupancy of the unpatented mining claim and/or mineral operation. This includes acts or omissions covered by Federal, State, and local pollution control and environmental statutes and regulations.
(b) Payments made by the United States in satisfaction of claims, demands, or judgments for an injury, loss, damage, or costs, including for fire suppression and environmental response action and cleanup and abatement costs, which result from past, present, and future acts or omissions of the owner, operator, or lessee in connection with the use and occupancy of the unpatented mining claim and/or mineral operation.
(c) Costs incurred by the United States for any action resulting from noncompliance with an approved plan of operations or activities outside an approved operating plan.

SOURCE: 38 FR 5855, Mar. 5, 1973, unless otherwise noted.

§ 293.1 Definition.
National Forest Wilderness shall consist of those units of the National Wilderness Preservation System which at least 30 days before the Wilderness Act of September 3, 1964, were designated as Wilderness and Wild under Secretary of Agriculture’s Regulations U-1 and U-2 (§§ 251.20, 251.21), the Boundary Waters Canoe Area as designated under Regulation U-3 (§ 294.1), and such other areas of the National Forests as may later be added to the System by act of Congress. Sections 293.1 to 293.15 apply
to all National Forest units now or hereafter in the National Wilderness Preservation System, including the Boundary Waters Canoe Area, Superior National Forest, except as that area is subject to §293.16.

§ 293.2 Objectives.
Except as otherwise provided in the regulations in this part, National Forest Wilderness shall be so administered as to meet the public purposes of recreational, scenic, scientific, educational, conservation, and historical uses; and it shall also be administered for such other purposes for which it may have been established in such a manner as to preserve and protect its wilderness character. In carrying out such purposes, National Forest Wilderness resources shall be managed to promote, perpetuate, and, where necessary, restore the wilderness character of the land and its specific values of solitude, physical and mental challenge, scientific study, inspiration, and primitive recreation. To that end:

(a) Natural ecological succession will be allowed to operate freely to the extent feasible.

(b) Wilderness will be made available for human use to the optimum extent consistent with the maintenance of primitive conditions.

(c) In resolving conflicts in resource use, wilderness values will be dominant to the extent not limited by the Wilderness Act, subsequent establishing legislation, or the regulations in this part.

§ 293.3 Control of uses.
(a) To the extent not limited by the Wilderness Act, subsequent legislation establishing a particular unit, or the regulations in this part, the Chief, Forest Service, may prescribe measures necessary to control fire, insects, and disease and measures which may be used in emergencies involving the health and safety of persons or damage to property and may require permits for, or otherwise limit or regulate, any use of National Forest land, including, but not limited to, camping, campfires, and grazing of recreation livestock.

(b) For all prohibitions in National Forest Wildernesses, see part 261 of this chapter.

§ 293.4 Maintenance of records.
The Chief, Forest Service, in accordance with section 3(a)(2) of the Wilderness Act, shall establish uniform procedures and standards for the maintenance and availability to the public of records pertaining to National Forest Wilderness, including maps and legal descriptions; copies of regulations governing Wilderness; and copies of public notices and reports submitted to Congress regarding pending additions, eliminations, or modifications. Copies of such information pertaining to National Forest Wilderness within their respective jurisdictions shall be available to the public in the appropriate offices of the Regional Foresters, Forest Supervisors, and Forest Rangers.

§ 293.5 Establishment, modification, or elimination.
National Forest Wilderness will be established, modified, or eliminated in accordance with the provisions of sections 3(b), (d), and (e) of the Wilderness Act. The Chief, Forest Service, shall arrange for issuing public notices, appointing hearing officers, holding public hearings, and notifying the Governors of the States concerned and the governing board of each county in which the lands involved are located.

(a) At least 30 days' public notice shall be given of the proposed action and intent to hold a public hearing. Public notice shall include publication in the FEDERAL REGISTER and in a newspaper of general circulation in the vicinity of the land involved.

(b) Public hearings shall be held at locations convenient to the area affected. If the land involved is in more than one State, at least one hearing shall be held in each State in which a portion of the land lies.

(c) A record of the public hearing and the views submitted subsequent to public notice and prior to the close of the public hearing shall be included with any recommendations to the President and to the Congress with respect to any such action.
§ 293.6 Commercial enterprises, roads, motor vehicles, motorized equipment, motorboats, aircraft, aircraft landing facilities, airdrops, structures, and cutting of trees.

Except as provided in the Wilderness Act, subsequent legislation establishing a particular Wilderness unit, or §§ 294.2(b), 294.2(c), and 294.2(e), paragraphs (c) and (d) of this section, and §§ 293.7, 293.8, and 293.12 through 293.16, inclusive, and subject to existing rights, there shall be in National Forest Wilderness no commercial enterprises; no temporary or permanent roads; no aircraft landing strips; no heliports or helispots, no use of motor vehicles, motorized equipment, motorboats, or other forms of mechanical transport; no landing of aircraft; no dropping of materials, supplies, or persons from aircraft; no structures or installations; and no cutting of trees for nonwilderness purposes.

(a) Mechanical transport, as herein used, shall include any contrivance which travels over ground, snow, or water on wheels, tracks, skids, or by flotation and is propelled by a nonliving power source contained or carried on or within the device.

(b) Motorized equipment, as herein used, shall include any machine activated by a nonliving power source, except that small battery-powered, hand-carried devices such as flashlights, shavers, and Geiger counters are not classed as motorized equipment.

(c) The Chief, Forest Service, may authorize occupancy and use of National Forest land by officers, employees, agencies, or agents of the Federal, State, and county governments to carry out the purposes of the Wilderness Act and will prescribe conditions under which motorized equipment, mechanical transport, aircraft, aircraft landing strips, heliports, helispots, installations, or structures may be used, transported, or installed by the Forest Service and its agents and by other Federal, State, or county agencies or their agents, to meet the minimum requirements for authorized activities to protect and administer the Wilderness and its resources. The Chief may also prescribe the conditions under which such equipment, transport, aircraft, installations, or structures may be used in emergencies involving the health and safety of persons, damage to property, or other purposes.

(d) The Chief, Forest Service, may permit, subject to such restrictions as he deems desirable, the landing of aircraft and the use of motorboats at places within any Wilderness where these uses were established prior to the date the Wilderness was designated by Congress as a unit of the National Wilderness Preservation System. The Chief may also permit the maintenance of aircraft landing strips, heliports, or helispots which existed when the Wilderness was designated by Congress as a unit of the National Wilderness Preservation System.

§ 293.7 Grazing of livestock.

(a) The grazing of livestock, where such use was established before the date of legislation which includes an area in the National Wilderness Preservation System, shall be permitted to continue under the general regulations covering grazing of livestock on the National Forests and in accordance with special provisions covering grazing use in units of National Forest Wilderness which the Chief of the Forest Service may prescribe for general application in such units or may arrange to have prescribed for individual units.

(b) The Chief, Forest Service, may permit, subject to such conditions as he deems necessary, the maintenance, reconstruction, or relocation of those livestock management improvements and structures which existed within a Wilderness when it was incorporated.
§ 293.15 Gathering information about resources other than minerals.

(a) The Chief, Forest Service, shall allow any activity, for the purposes of gathering information about resources, other than minerals, in National Forest Wilderness, except that any such activity for gathering information...
§ 293.16 Special provisions governing the Boundary Waters Canoe Area Wilderness, Superior National Forest, Minnesota.

(a) Motorboat use. (1) For purposes of this section, motorboats permitted to operate in the BWCA Wilderness are defined as watercraft propelled by a gasoline or electric powered motor with the propeller below the waterline. (2) Motorboats may operate without restrictions on motor size or number of motors on Sand Point Lake, Little Vermillion Lake, Loon Lake, Loon River, and that portion of Lac La Croix which lies south of Snow Bay and east of Wilkins Bay, all in Saint Louis County.

(3) Motorboats with a motor or combination of motors totaling no more than 25 horsepower may operate on Trout Lake in Saint Louis County, Fall Lake, Moose Lake, Newfound Lake, Newton Lake, Sucker Lake, Snowbank Lake, South Farm Lake, and Basswood Lake, except that portion of Basswood Lake generally north of the narrows at the north end of Jackfish Bay and north of a point on the International Boundary between Ottawa Island and Washington Island, all in Lake County, and East Bearskin Lake and Saganaga Lake, except that portion west of American Point in Cook County.

(4) Motorboats with a motor or combination of motors totaling no more than 10 horsepower may operate on Clearwater Lake, North Fowl Lake, South Fowl Lake, Alder Lake, Canoe Lake, Sea Gull Lake, and Island River east of Lake Isabella, all in Lake County, except that motorboats may not operate—

(i) After January 1, 1999 on that portion of Sea Gull Lake west of Threemile Island, and

(ii) After January 1, 1994, on Brule Lake in Cook County or until the termination of the operation of the resort adjacent to Brule Lake in operation as of 1977, whichever occurs first.

(5) Motorboats with a combination of motors that exceed 25 horsepower may travel on that portion of Saganaga Lake in Cook County described as the Saganaga Corridor extending from the Saganaga Narrows north to the International Boundary east of Campers, Clark and Horseshoe Islands and west of Oskenonton Island; provided that the motor or motors in operation at one time do not exceed 25 horsepower.

(b) Mechanical and mechanized portages. (1) BWCA visitors may use portage wheels and other non-motorized devices to transport watercraft over the following routes:

(i) The portages along the International Boundary.

(ii) Four Mile Portage from Fall Lake to Holst Bay of Basswood Lake.

(iii) The portage from Back Bay to Pipestone Bay of Basswood Lake.
(iv) The portages from Fall Lake to Newton Lake to Pipestone Bay of Basswood Lake.
(v) The portage from Vermilion Lake to Trout Lake.

(2) The Forest Service may authorize, by special use permit, the use of motor vehicles to transport watercraft over the following portages:
(i) Four Mile Portage From Fall Lake to Hoist Bay of Basswood Lake.
(ii) Vermilion Lake to Trout Lake.
(iii) Prairie Portage from Sucker Lake to Basswood Lake
(iv) Loon River to Loon Lake and from Loon Lake to Lac La Croix.

(c) Snowmobile use. (1) A snowmobile is defined as a self-propelled, motorized vehicle not exceeding forty inches in width designed to operate on ice and snow, having a ski or skis in contact with the snow and driven by a track or tracks.
(2) The Forest Service permits use of snowmobiles only on the following routes:
(i) The overland portages in Saint Louis County from Crane Lake to Little Vermilion Lake in Canada.
(ii) The route in Cook County from Sea Gull River along the eastern portion of Saganage Lake to Canada.

(3) The Forest Service may issue special-use authorizations to use snowmobiles for the grooming of specified cross-country ski trails near existing resorts.

§ 293.17 National Forest Primitive Areas.
(a) Within those areas of National Forests classified as Primitive on the effective date of the Wilderness Act, September 3, 1964, there shall be no roads or other provision for motorized transportation, no commercial timber cutting, and no occupancy under special-use permit for hotels, stores, resorts, summer homes, organization camps, hunting and fishing lodges, or similar uses: Provided, That existing roads over National Forest lands reserved from the public domain and roads necessary for the exercise of a statutory right of ingress and egress may be allowed under appropriate conditions determined by the Chief, Forest Service.
(b) Grazing of domestic livestock, development of water storage projects which do not involve road construction, and improvements necessary for the protection of the National Forests may be permitted, subject to such restrictions as the Chief, Forest Service, deems desirable. Within Primitive Areas, when the use is for other than administrative needs of the Forest Service, use by other Federal agencies when authorized by the Chief, and in emergencies, the landing of aircraft and the use of motorboats are prohibited on National Forest land or water unless such use by aircraft or motorboats has already become well established, the use of motor vehicles is prohibited, and the use of other motorized equipment is prohibited except as authorized by the Chief. These restrictions are not intended as limitations on statutory rights of ingress and egress or of prospecting, locating, and developing mineral resources.
(c) All prohibitions for those areas of National Forest classified as Primitive on the effective date of the Wilderness Act, September 3, 1964, are in part 261.

Subpart A—Miscellaneous Provisions

§ 294.1 Recreation areas.

Suitable areas of national forest land, other than wilderness or wild areas, which should be managed principally for recreation use may be given special classification as follows:

(a) Areas which should be managed principally for recreation use substantially in their natural condition and on which, in the discretion of the officer making the classification, certain other uses may or may not be permitted may be approved and classified by the Chief of the Forest Service or by such officers as he may designate if the particular area is less than 100,000 acres. Areas of 100,000 acres or more will be approved and classified by the Secretary of Agriculture.

(b) Areas which should be managed for public recreation requiring development and substantial improvements may be given special classification as public recreation areas. Areas in single tracts of not more than 160 acres may be approved and classified by the Chief of the Forest Service or by such officers as he may designate. Areas in excess of 160 acres will be approved and classified by the Secretary of Agriculture. Classification hereunder may include areas used or selected to be used for the development and maintenance as camp grounds, picnic grounds, organization camps, resorts, public service sites (such as for restaurants, filling stations, stores, horse and boat liveries, garages, and similar types of public service accommodations), bathing beaches, winter sports areas, lodges, and similar facilities and appurtenant structures needed by the public to enjoy the recreation resources of the national forests. The boundaries of all areas so classified shall be clearly marked on the ground and notices of such classification shall be posted at conspicuous places thereon. Areas classified under this section shall thereby be set apart and reserved for public recreation use and such classification shall constitute a formal closing of the area to any use or occupancy inconsistent with the classification.

[38 FR 5859, Mar. 5, 1973, as amended at 66 FR 3272, Jan. 12, 2001]

§ 294.2 Navigation of aircraft within airspace reservation over the Boundary Waters Canoe Area Wilderness, Superior National Forest, Minnesota.

(a) Description of areas. Sections 294.2(b) to 294.2(f), inclusive, apply to those areas of land and water in the Counties of Cook, Lake, and St. Louis, State of Minnesota, within the exterior boundaries of the Superior National Forest, which have heretofore been designated by the Secretary of Agriculture as the Superior Roadless Area, the Little Indian Sioux Roadless Area, and the Caribou Roadless Area, respectively, and to the airspace over said areas and below the altitude of 4,000 feet above sea level. Said areas are more particularly described in the Executive order setting apart said airspace as an airspace reservation (E.O. 10092, Dec. 17, 1949; 3 CFR 1949 Supp.). Copies of said Executive order may be obtained on request from the Forest Supervisor, Superior National Forest, Duluth, Minnesota (hereinafter called Forest Supervisor).

(b) Emergency landing and rescue operations. The pilot of any aircraft landing within any of said areas for reasons of emergency or for conducting rescue operations, shall inform the Forest Supervisor within seven days after the termination of the emergency or the completion of the rescue operation as to the date, place, and duration of landing, and the type and registration number of the aircraft.

(c) Low flights. Any person making a flight within said airspace reservation for reasons of safety or for conducting rescue operations shall inform the Forest Supervisor within seven days after the completion of the flight or the rescue operation as to the date, place, and duration of flight, and the type and registration number of the aircraft.

(d) Official flights. The provisions of §§ 294.2(b) and 294.2(c) do not apply to flights made for conducting or assisting in the conduct of official business of the United States, of the State of...
§ 294.10 Purpose.

The purpose of this subpart is to provide, within the context of multiple-use management, lasting protection for inventoried roadless areas within the National Forest System.

§ 294.11 Definitions.

The following terms and definitions apply to this subpart:

Inventoried roadless areas. Areas identified in a set of inventoried roadless area maps, contained in Forest Service Roadless Area Conservation, Final Environmental Impact Statement, Volume 2, dated November 2000, which are held at the National headquarters office of the Forest Service, or any subsequent update or revision of those maps.

Responsible official. The Forest Service line officer with the authority and responsibility to make decisions regarding protection and management of inventoried roadless areas pursuant to this subpart.

Road. A motor vehicle travelway over 50 inches wide, unless designated and managed as a trail. A road may be classified, unclassified, or temporary.

(1) Classified road. A road wholly or partially within or adjacent to National Forest System lands that is determined to be needed for long-term motor vehicle access, including State roads, county roads, privately owned roads, National Forest System roads, and other roads authorized by the Forest Service.

(2) Unclassified road. A road on National Forest System lands that is not managed as part of the forest transportation system, such as unplanned roads, abandoned travelways, and off-road vehicle tracks that have not been designated and managed as a trail; and those roads that were once under permit or other authorization and were not decommissioned upon the termination of the authorization.

(3) Temporary road. A road authorized by contract, permit, lease, other written authorization, or emergency operation, not intended to be part of the forest transportation system and not necessary for long-term resource management.

Road construction. Activity that results in the addition of forest classified or temporary road miles.

Road maintenance. The ongoing upkeep of a road necessary to retain or restore the road to the approved road management objective.

Road reconstruction. Activity that results in improvement or realignment of an existing classified road defined as follows:

(1) Road improvement. Activity that results in an increase of an existing road’s traffic service level, expansion of its capacity, or a change in its original design function.

(2) Road realignment. Activity that results in a new location of an existing road or portions of an existing road, and treatment of the old roadway.

Roadless area characteristics. Resources or features that are often present in and characterize inventoried roadless areas, including:

(1) High quality or undisturbed soil, water, and air;

(2) Sources of public drinking water;

(3) Diversity of plant and animal communities;

(4) Habitat for threatened, endangered, proposed, candidate, and sensitive species and for those species dependent on large, undisturbed areas of land;

(5) Primitive, semi-primitive non-motorized and semi-primitive motorized classes of dispersed recreation;

(6) Reference landscapes;

VerDate 11<MAY>2000 08:18 Jul 17, 2001 Jkt 194131 PO 00000 Frm 00395 Fmt 8010 Sfmt 8010 Y:\SGML\194131T.XXX pfrm09 PsN: 194131T
§ 294.12 Prohibition on road construction and road reconstruction in inventoried roadless areas.

(a) A road may not be constructed or reconstructed in inventoried roadless areas of the National Forest System, except as provided in paragraph (b) of this section.

(b) Notwithstanding the prohibition in paragraph (a) of this section, a road may be constructed or reconstructed in an inventoried roadless area if the Responsible Official determines that one of the following circumstances exists:

(1) A road is needed to protect public health and safety in cases of an imminent threat of flood, fire, or other catastrophic event that, without intervention, would cause the loss of life or property;

(2) A road is needed to conduct a response action under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) or to conduct a natural resource restoration action under CERCLA, Section 311 of the Clean Water Act, or the Oil Pollution Act;

(3) A road is needed pursuant to reserved or outstanding rights, or as provided for by statute or treaty;

(4) Road realignment is needed to prevent irreparable resource damage that arises from the design, location, use, or deterioration of a classified road and that cannot be mitigated by road maintenance. Road realignment may occur under this paragraph only if the road is deemed essential for public or private access, natural resource management, or public health and safety;

(5) Road reconstruction is needed to implement a road safety improvement project on a classified road determined to be hazardous on the basis of accident experience or accident potential on that road;

(6) The Secretary of Agriculture determines that a Federal Aid Highway project, authorized pursuant to Title 23 of the United States Code, is in the public interest or is consistent with the purposes for which the land was reserved or acquired and no other reasonable and prudent alternative exists; or

(7) A road is needed in conjunction with the continuation, extension, or renewal of a mineral lease on lands that are under lease by the Secretary of the Interior as of January 12, 2001 or for a new lease issued immediately upon expiration of an existing lease. Such road construction or reconstruction must be conducted in a manner that minimizes effects on surface resources, prevents unnecessary or unreasonable surface disturbance, and complies with all applicable lease requirements, land and resource management plan direction, regulations, and laws. Roads constructed or reconstructed pursuant to this paragraph must be obliterated when no longer needed for the purposes of the lease or upon termination or expiration of the lease, whichever is sooner.

(c) Maintenance of classified roads is permissible in inventoried roadless areas.

§ 294.13 Prohibition on timber cutting, sale, or removal in inventoried roadless areas.

(a) Timber may not be cut, sold, or removed in inventoried roadless areas of the National Forest System, except as provided in paragraph (b) of this section.

(b) Notwithstanding the prohibition in paragraph (a) of this section, timber may be cut, sold, or removed in inventoried roadless areas if the Responsible Official determines that one of the following circumstances exists. The cutting, sale, or removal of timber in these areas is expected to be infrequent.

(1) The cutting, sale, or removal of generally small diameter timber is needed for one of the following purposes and will maintain or improve one or more of the roadless area characteristics as defined in §294.11.

(i) To improve threatened, endangered, proposed, or sensitive species habitat; or

(ii) To maintain or restore the characteristics of ecosystem composition and structure, such as to reduce the...
§ 295.2 Risk of uncharacteristic wildfire effects, within the range of variability that would be expected to occur under natural disturbance regimes of the current climatic period;

(2) The cutting, sale, or removal of timber is incidental to the implementation of a management activity not otherwise prohibited by this subpart;

(3) The cutting, sale, or removal of timber is needed and appropriate for personal or administrative use, as provided for in 36 CFR part 223; or

(4) Roadless characteristics have been substantially altered in a portion of an inventoried roadless area due to the construction of a classified road and subsequent timber harvest. Both the road construction and subsequent timber harvest must have occurred after the area was designated an inventoried roadless area and prior to January 12, 2001. Timber may be cut, sold, or removed only in the substantially altered portion of the inventoried roadless area.

§ 295.14 Scope and applicability.

(a) This subpart does not revoke, suspend, or modify any permit, contract, or other legal instrument authorizing the occupancy and use of National Forest System land issued prior to January 12, 2001.

(b) This subpart does not compel the amendment or revision of any land and resource management plan.

(c) This subpart does not revoke, suspend, or modify any project or activity decision made prior to January 12, 2001.

(d) This subpart does not apply to road construction, reconstruction, or the cutting, sale, or removal of timber in inventoried roadless areas on the Tongass National Forest if a notice of availability of a draft environmental impact statement for such activities has been published in the Federal Register prior to January 12, 2001.

(e) The prohibitions and restrictions established in this subpart are not subject to reconsideration, revision, or rescission in subsequent project decisions or land and resource management plan amendments or revisions undertaken pursuant to 36 CFR part 219.

(f) If any provision of the rules in this subpart or its application to any person or to certain circumstances is held invalid, the remainder of the regulations in this subpart and their application remain in force.

PART 295—USE OF MOTOR VEHICLES OFF FOREST SERVICE ROADS

Sec.

295.1 Applicability.

295.2 Planning and designation for use of vehicles off National Forest System roads.

295.3 Public participation.

295.4 Public information.

295.5 Monitoring effects of vehicle use off National Forest System roads.

295.6 Revision of off-road vehicle management plans.

SOURCE: 43 FR 20006, May 10, 1978, unless otherwise noted.

§ 295.1 Applicability.

The regulations in the following parts pertain to administrative designation and location of specific areas and trails of National Forest System lands on which the use of vehicles traveling off National Forest System roads is allowed, restricted or prohibited. Prohibitions regarding use of vehicles off roads is provided in 36 CFR part 261.

§ 295.2 Planning and designation for use of vehicles off National Forest System roads.

(a) On National Forest System lands, the continuing land management planning process will be used to allow, restrict, or prohibit use by specific vehicle types off roads. This process will include coordination with appropriate Federal, State and local agencies. The planning process will analyze and evaluate current and potential impacts arising from operation of specific vehicle types on soil, water, vegetation, fish and wildlife, forest visitors and cultural and historic resources. If the analysis indicates that the use of one or more vehicle types off roads will cause considerable adverse effects on the resources or other forest visitors, use of the affected areas and trails by the vehicle type or types likely to
cause such adverse effects will be restricted or prohibited until such time as the adverse effects can be eliminated as provided in 36 CFR part 261.

(b) Off-road vehicle management plans shall provide vehicle management direction aimed at resource protection, public safety of all users, minimizing conflicts among users, and provide for diverse use and benefits of the National Forests. Designation of areas and trails shall be in accordance with the following:

(1) Areas and trails shall be located to minimize damage to soil, watershed, vegetation, or other resources of the public lands.

(2) Areas and trails shall be located to minimize harassment of wildlife or significant disruption of wildlife habitats.

(3) Areas and trails shall be located to minimize conflicts between off-road vehicle use and other existing or proposed recreational uses of the same or neighboring public lands, and to ensure the compatibility of such uses with existing conditions in populated areas, taking into account noise and other factors.

(4) Areas and trails shall not be located in officially designated Wilderness Areas or Primitive Areas. However, this does not preclude the use of any fire, military, emergency, or law enforcement vehicle for emergency purposes, or the use of any combat or combat support vehicle for national defense purposes, or registered motorboats, or vehicle use expressly authorized by the Chief, Forest Service, under a permit, lease, license, or contract.

§ 295.3 Public participation.

The public shall be provided an opportunity to participate in the process of allowing, restricting, or prohibiting use of areas and trails to one or more specific vehicle types off forest development roads. Sixty days advance notice will be given to allow for public review of proposed or revised designations. In emergency situations, temporary designations up to one year in length may be made or revised without public participation if needed to protect the resources and/or to provide for public safety.

§ 295.4 Public information.

In addition to the requirements of 36 CFR 261.51, information and maps will be published and made available to the public, describing:

(a) The regulation of vehicular use.

(b) Time periods when use is allowed, restricted or prohibited.

(c) The type of vehicle regulated.

§ 295.5 Monitoring effects of vehicle use off National Forest System roads.

The effects of use by specific types of vehicles off roads on National Forest System lands will be monitored. If the results of monitoring, including public input, indicate that the use of one or more vehicle types off roads is causing or will cause considerable adverse effects on the factors and resource values referred to in § 295.2, the area or trail suffering adverse effects will be immediately closed to the responsible vehicle type or types until the adverse effects have been eliminated and measures have been implemented to prevent future recurrence as provided in 36 CFR part 261. Forest Supervisors may delegate immediate closure authority to District Rangers or other forest officers in order to facilitate timely actions to meet these objectives. Designations, use restrictions, and operating conditions will be revised as needed to meet changing conditions.

§ 295.6 Revision of off-road vehicle management plans.

Forest Supervisors will annually review off-road vehicle management plans and temporary designations implemented since the last annual review. If the plan needs revision, the public will be given the opportunity to participate in the review as stated in § 295.3.
§ 296.3 Definitions.

As used for purposes of this part:

(a) Archaeological resource means any material remains of human life or activities which are at least 100 years of age, and which are of archaeological interest.

(1) Of archaeological interest means capable of providing scientific or humanistic understandings of past human behavior, cultural adaptation, and related topics through the application of scientific or scholarly techniques such as controlled observation, contextual measurement, controlled collection, analysis, interpretation and explanation.

(b) Material remains means physical evidence of human habitation, occupation, use, or activity, including the site, location, or context in which such evidence is situated.

(3) The following classes of material remains (and illustrative examples), if they are at least 100 years of age, are of

- Archaeological resource - collections and data, and through provisions for ensuring confidentiality of information about archaeological resources when disclosure would threaten the archaeological resources.

(b) The regulations in this part do not impose any new restrictions on activities permitted under other laws, authorities, and regulations relating to mining, mineral leasing, reclamation, and other multiple uses of the public lands.

[49 FR 1027, Jan. 6, 1984, as amended at 60 FR 5260, Jan. 26, 1995]
archaeological interest and shall be considered archaeological resources unless determined otherwise pursuant to paragraph (a)(4) or (a)(5) of this section:

(i) Surface or subsurface structures, shelters, facilities, or features (including, but not limited to, domestic structures, storage structures, cooking structures, ceremonial structures, artificial mounds, earthworks, fortifications, canals, reservoirs, horticultural/agricultural gardens or fields, bedrock mortars or grinding surfaces, rock alignments, cairns, trails, borrow pits, cooking pits, refuse pits, burial pits or graves, hearths, kilns, post molds, wall trenches, middens);

(ii) Surface or subsurface artifact concentrations or scatters;

(iii) Whole or fragmentary tools, implements, weapons and weapon projectiles, clothing, and ornaments (including, but not limited to, pottery and other ceramics, cordage, basketry and other weaving, bottles and other glassware, bone, ivory, shell, metal, wood, hide, feathers, pigments, and flaked, ground, or pecked stone);

(iv) By-products, waste products, or debris resulting from manufacture or use of human-made or natural materials;

(v) Organic waste (including, but not limited to, vegetal and animal remains, coprolites);

(vi) Human remains (including, but not limited to, bone, teeth, mumified flesh, burials, cremations);

(vii) Rock carvings, rock paintings, intaglios and other works of artistic or symbolic representation;

(viii) Rockshelters and caves or portions thereof containing any of the above material remains;

(ix) All portions of shipwrecks (including, but not limited to, armaments, apparel, tackle, cargo);

(x) Any portion or piece of any of the foregoing.

(4) The following material remains shall not be considered of archaeological interest, and shall not be considered to be archaeological resources for purposes of the Act and this part, unless found in a direct physical relationship with archaeological resources as defined in this section:

(i) Paleontological remains;

(ii) Coins, bullets, and unworked minerals and rocks.

(5) The Federal land manager may determine that certain material remains, in specified areas under the Federal land manager’s jurisdiction, and under specified circumstances, are not or are no longer of archaeological interest and are not to be considered archaeological resources under this part. Any determination made pursuant to this subparagraph shall be documented. Such determination shall in no way affect the Federal land manager’s obligations under other applicable laws or regulations.

(6) For the disposition following lawful removal or excavations of Native American human remains and “cultural items”, as defined by the Native American Graves Protection and Repatriation Act (NAGPRA; Pub. L. 101–601; 104 Stat. 3050; 25 U.S.C. 3001–13), the Federal land manager is referred to NAGPRA and its implementing regulations.

(b) Arrowhead means any projectile point which appears to have been designed for use with an arrow.

(c) Federal land manager means:

(1) With respect to any public lands, the secretary of the department, or the head of any other agency or instrumentality of the United States, having primary management authority over such lands, including persons to whom such management authority has been officially delegated;

(2) In the case of Indian lands, or any public lands with respect to which no department, agency or instrumentality has primary management authority, such term means the Secretary of the Interior;

(3) The Secretary of the Interior, when the head of any other agency or instrumentality has, pursuant to section 3(2) of the Act and with the consent of the Secretary of the Interior, delegated to the Secretary of the Interior the responsibilities (in whole or in part) in this part.

(d) Public lands means:

(1) Lands which are owned and administered by the United States as part of the national park system, the national wildlife refuge system, or the national forest system; and
(2) All other lands the fee title to which is held by the United States, except lands on the Outer Continental Shelf, lands under the jurisdiction of the Smithsonian Institution, and Indian lands.

(e) Indian lands means lands of Indian tribes, or Indian individuals, which are either held in trust by the United States or subject to a restriction against alienation imposed by the United States, except for subsurface interests not owned or controlled by an Indian tribe or Indian individual.

(f) Indian tribe as defined in the Act means any Indian tribe, band, nation, or other organized group or community, including any Alaska village or regional or village corporation as defined in, or established pursuant to, the Alaska Native Claims Settlement Act (85 Stat. 688). In order to clarify this statutory definition for purposes of this part, Indian tribe means:

(1) Any tribal entity which is included in the annual list of recognized tribes published in the FEDERAL REGISTER by the Secretary of the Interior pursuant to 25 CFR part 54;

(2) Any other tribal entity acknowledged by the Secretary of the Interior pursuant to 25 CFR part 54 since the most recent publication of the annual list; and

(3) Any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (85 Stat. 688), and any Alaska Native village or tribe which is recognized by the Secretary of the Interior as eligible for services provided by the Bureau of Indian Affairs.

(g) Person means an individual, corporation, partnership, trust, institution, association, or any other private entity, or any officer, employee, agent, department, or instrumentality of the United States, or of any Indian tribe, or of any State or political subdivision thereof.

(h) State means any of the fifty states, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands.

§ 296.4 Prohibited acts and criminal penalties.

(a) Under section 6(a) of the Act, no person may excavate, remove, damage, or otherwise alter or deface, or attempt to excavate, remove, damage, or otherwise alter or deface any archaeological resource located on public lands or Indian lands unless such activity is pursuant to a permit issued under § 296.8 or exempted by § 296.5(b) of this part.

(b) No person may sell, purchase, exchange, transport, or receive any archaeological resource, if such resource was excavated or removed in violation of:

(1) The prohibitions contained in paragraph (a) of this section; or

(2) Any provision, rule, regulation, ordinance, or permit in effect under any other provision of Federal law.

(c) Under section (d) of the Act, any person who knowingly violates or counsels, procures, solicits, or employs any other person to violate any prohibition contained in section 6 (a), (b), or (c) of the Act will, upon conviction, be fined not more than $10,000.00 or imprisoned not more than one year, or both; provided, however, that if the commercial or archaeological value of the archaeological resources involved and the cost of restoration and repair of such resources exceeds the sum of $500.00, such person will be fined not more than $20,000.00 or imprisoned not more than two years, or both. In the case of a second or subsequent such violation upon conviction such person will be fined not more than $100,000.00, or imprisoned not more than five years, or both.

§ 296.5 Permit requirements and exceptions.

(a) Any person proposing to excavate and/or remove archaeological resources from public lands or Indian lands, and to carry out activities associated with such excavation and/or removal, shall apply to the Federal land manager for a permit for the proposed work, and shall not begin the proposed work until a permit has been issued. The Federal land manager may issue a permit to any qualified person, subject to appropriate terms and conditions, provided
that the person applying for a permit meets conditions in §296.8(a) of this part.

(b) Exceptions: (1) No permit shall be required under this part for any person conducting activities on the public lands under other permits, leases, licenses, or entitlements for use, when those activities are exclusively for purposes other than the excavation and/or removal of archaeological resources, even though those activities might incidentally result in the disturbance of archaeological resources. General earth-moving excavation conducted under a permit or other authorization shall not be construed to mean excavation and/or removal as used in this part. This exception does not, however, affect the Federal land manager's responsibility to comply with other authorities which protect archaeological resources prior to approving permits, leases, licenses, or entitlements for use; any excavation and/or removal of archaeological resources required for compliance with those authorities shall be conducted in accordance with the permit requirements of this part.

(2) No permit shall be required under this part for any person collecting for private purposes any rock, coin, bullet, or mineral which is not an archaeological resource as defined in this part, provided that such collecting does not result in disturbance of any archaeological resource.

(3) No permit shall be required under this part or under section 3 of the Act of June 8, 1906 (16 U.S.C. 432), for the excavation or removal by any Indian tribe or member thereof of any archaeological resource located on Indian lands of such Indian tribe, except that in the absence of tribal law regulating the excavation or removal of archaeological resources on Indian lands, an individual tribal member shall be required to obtain a permit under this part.

(4) No permit shall be required under this part for any person to carry out any archaeological activity authorized by a permit issued under section 3 of the Act of June 8, 1906 (16 U.S.C. 432), before the enactment of the Archaeological Resources Protection Act of 1979. Such permit shall remain in effect according to its terms and conditions until expiration.

(5) No permit shall be required under section 3 of the Act of June 8, 1906 (16 U.S.C. 432) for any archaeological work for which a permit is issued under this part.

(c) Persons carrying out official agency duties under the Federal land manager's direction, associated with the management of archaeological resources, need not follow the permit application procedures of §296.6. However, the Federal land manager shall insure that provisions of §296.8 and §296.9 have been met by other documented means, and that any official duties which might result in harm to or destruction of any Indian tribal religious or cultural site, as determined by the Federal land manager, have been the subject of consideration under §296.7.

(d) Upon the written request of the Governor of any State, on behalf of the State or its educational institutions, the Federal land manager shall issue a permit, subject to the provisions of §296.5(b)(5), §296.7, §296.8(a) (3), (4), (5), (6), and (7), §296.9, §296.10, §296.12, and §296.13(a) to such Governor or to such designee as the Governor deems qualified to carry out the intent of the Act, for purposes of conducting archaeological research, excavating and/or removing archaeological resources, and safeguarding and preserving any materials and data collected in a university, museum, or other scientific or educational institution approved by the Federal land manager.

(e) Under other statutory, regulatory, or administrative authorities governing the use of public lands and Indian lands, authorizations may be required for activities which do not require a permit under this part. Any person wishing to conduct on public lands or Indian lands any activities related to but believed to fall outside the scope of this part should consult with the Federal land manager, for the purpose of determining whether any authorization is required, prior to beginning such activities.

§ 296.6 Application for permits and information collection.

(a) Any person may apply to the appropriate Federal land manager for a
§ 296.7 Notification to Indian tribes of possible harm to, or destruction of, sites on public lands having religious or cultural importance.

(a) If the issuance of a permit under this part may result in harm to, or destruction of, any Indian tribal religious or cultural site on public lands, as determined by the Federal land manager, at least 30 days before issuing such a permit the Federal land manager shall notify any Indian tribe which may consider the site as having religious or cultural importance. Such notice shall not be deemed a disclosure to the public for purposes of section 9 of the Act.

(1) Notice by the Federal land manager to any Indian tribe shall be sent to the chief executive officer or other designated official of the tribe. Indian
tribes are encouraged to designate a tribal official to be the focal point for any notification and discussion between the tribe and the Federal land manager.

(2) The Federal land manager may provide notice to any other Native American group that is known by the Federal land manager to consider sites potentially affected as being of religious or cultural importance.

(3) Upon request during the 30-day period, the Federal land manager may meet with official representatives of any Indian tribe or group to discuss their interests, including ways to avoid or mitigate potential harm or destruction such as excluding sites from the permit area. Any mitigation measures which are adopted shall be incorporated into the terms and conditions of the permit under §296.9.

(4) When the Federal land manager determines that a permit applied for under this part must be issued immediately because of an imminent threat of loss or destruction of an archaeological resource, the Federal land manager shall so notify the appropriate tribe.

(b)(1) In order to identify sites of religious or cultural importance, the Federal land manager shall seek to identify all Indian tribes having aboriginal or historic ties to the lands under the Federal land manager’s jurisdiction and seek to determine, from the chief executive officer or other designated official of any such tribe, the location and nature of specific sites of religious or cultural importance so that such information may be on file for land management purposes. Information on sites eligible for or included in the National Register of Historic Places may be withheld from public disclosure pursuant to section 304 of the Act of October 15, 1966, as amended (16 U.S.C. 470w–3).

(2) If the Federal land manager becomes aware of a Native American group that is not an Indian tribe as defined in this part but has aboriginal or historic ties to public lands under the Federal land manager’s jurisdiction, the Federal land manager may seek to communicate with official representatives of that group to obtain information on sites they may consider to be of religious or cultural importance.

(3) The Federal land manager may enter into agreement with any Indian tribe or other Native American group for determining locations for which such tribe or group wishes to receive notice under this section.

(4) The Federal land manager should also seek to determine, in consultation with official representatives of Indian tribes or other Native American groups, what circumstances should be the subject of special notification to the tribe or group after a permit has been issued. Circumstances calling for notification might include the discovery of human remains. When circumstances for special notification have been determined by the Federal land manager, the Federal land manager will include a requirement in the terms and conditions of permits, under §296.9(c), for permittees to notify the Federal land manager immediately upon the occurrence of such circumstances. Following the permittee’s notification, the Federal land manager will notify and consult with the tribe or group as appropriate. In cases involving Native American human remains and other “cultural items”, as defined by NAGPRA, the Federal land manager is referred to NAGPRA and its implementing regulations.

[49 FR 1027, Jan. 6, 1984, as amended at 60 FR 5260, 5261, Jan. 26, 1995]
(iii) The demonstrated ability to carry research to completion, as evidenced by timely completion of theses, research reports, or similar documents;

(iv) Completion of at least 16 months of professional experience and/or specialized training in archaeological field, laboratory, or library research, administration, or management, including at least 4 months experience and/or specialized training in the kind of activity the individual proposes to conduct under authority of a permit; and

(v) Applicants proposing to engage in prehistoric archaeology should have had at least one year of experience in research concerning archaeological resources of the prehistoric period.

2) The proposed work is to be undertaken for the purpose of furthering archaeological knowledge in the public interest, which may include but not be limited to, scientific or scholarly research, and preservation of archaeological data;

3) The proposed work, including time, scope, location, and purpose, is not inconsistent with any management plan or established policy, objectives, or requirements applicable to the management of the public lands concerned;

4) Where the proposed work consists of archaeological survey and/or data recovery undertaken in accordance with other approved uses of the public lands or Indian lands, and the proposed work has been agreed to in writing by the Federal land manager pursuant to section 106 of the National Historic Preservation Act (16 U.S.C. 470f), paragraphs (a) (2) and (3) shall be deemed satisfied by the prior approval.

5) Written consent has been obtained, for work proposed on Indian lands, from the Indian landowner and the Indian tribe having jurisdiction over such lands;

6) Evidence is submitted to the Federal land manager that any university, museum, or other scientific or educational institution proposed in the application as the repository possesses adequate curatorial capability for safeguarding and preserving the archaeological resources and all associated records; and

7) The applicant has certified that, not later than 90 days after the date the final report is submitted to the Federal land manager, the following will be delivered to the appropriate official of the approved university, museum, or other scientific or educational institution, which shall be named in the permit:

(i) All artifacts, samples, collections, and copies of records, data, photographs, and other documents resulting from work conducted under the requested permit where the permit is for the excavation and/or removal of archaeological resources from public lands.

(ii) All artifacts, samples and collections resulting from work under the requested permit for which the custody or disposition is not undertaken by the Indian owners, and copies of records, data, photographs, and other documents resulting from work conducted under the requested permit, where the permit is for the excavation and/or removal of archaeological resources from Indian lands.

(b) When the area of the proposed work would cross jurisdictional boundaries, so that permit applications must be submitted to more than one Federal land manager, the Federal land managers shall coordinate the review and evaluation of applications and the issuance of permits.

[49 FR 1027, Jan. 6, 1984; 49 FR 5923, Feb. 16, 1984]
§ 296.10 Reporting requirements.

(b) The Federal land manager may specify such terms and conditions as deemed necessary, consistent with this part, to protect public safety and other values and/or resources, to secure work areas, to safeguard other legitimate land uses, and to limit activities incidental to work authorized under a permit.

(c) The Federal land manager shall include in permits issued for archaeological work on Indian lands such terms and conditions as may be requested by the Indian landowner and the Indian tribe having jurisdiction over the lands, and for archaeological work on public lands shall include such terms and conditions as may have been developed pursuant to § 296.7.

(d) Initiation of work or other activities under the authority of a permit signifies the permittee’s acceptance of the terms and conditions of the permit.

(e) The permittee shall not be released from requirements of a permit until all outstanding obligations have been satisfied, whether or not the term of the permit has expired.

(f) The permittee may request that the Federal land manager extend or modify a permit.

(g) The permittee’s performance under any permit issued for a period greater than 1 year shall be subject to review by the Federal land manager, at least annually.

§ 296.11 Appeals relating to permits.

Any affected person may appeal permit issuance, denial of permit issuance, suspension, revocation, and terms and conditions of a permit through existing administrative appeal procedures, or through procedures which may be established by the Federal land manager pursuant to section 10(b) of the Act and this part.

§ 296.12 Relationship to Section 106 of the National Historic Preservation Act.

Issuance of a permit in accordance with the Act and this part does not constitute an undertaking requiring compliance with section 106 of the Act of October 15, 1966 (16 U.S.C. 470f). However, the mere issuance of such a permit does not excuse the Federal land manager from compliance with section 106 where otherwise required.

§ 296.13 Custody of archaeological resources.

(a) Archaeological resources excavated or removed from the public lands remain the property of the United States.

(b) Archaeological resources excavated or removed from Indian lands remain the property of the Indian or Indian tribe having rights of ownership over such resources.

(c) The Secretary of the Interior may promulgate regulations providing for the exchange of archaeological resources among suitable universities.
museums, or other scientific or educational institutions, for the ultimate disposition of archaeological resources, and for standards by which archaeological resources shall be preserved and maintained, when such resources have been excavated or removed from public lands and Indian lands.

(d) In the absence of regulations referenced in paragraph (c) of this section, the Federal land manager may provide for the exchange of archaeological resources among suitable universities, museums, or other scientific or educational institutions, when such resources have been excavated or removed from public lands under the authority of a permit issued by the Federal land manager.

(e) Notwithstanding the provisions of paragraphs (a) through (d) of this section, the Federal land manager will follow the procedures required by NAGPRA and its implementing regulations for determining the disposition of Native American human remains and other “cultural items”, as defined by NAGPRA, that have been excavated, removed, or discovered on public lands.

[49 FR 1027, Jan. 6, 1984, as amended at 60 FR 5260, 5261, Jan. 26, 1995]

§ 296.15 Assessment of civil penalties.

(a) The Federal land manager may assess a civil penalty against any person who has violated any prohibition contained in §296.4 or who has violated any term or condition included in a permit issued in accordance with the Act and this part.

(b) Notice of violation. The Federal land manager shall serve a notice of

VerDate 11<MAY>2000 08:18 Jul 17, 2001 Jkt 194131 PO 00000 Frm 00407 Fmt 8010 Sfmt 8010 Y:\SGML\194131T.XXX pfrm09 PsN: 194131T
§296.15  Notice of violation upon any person believed to be subject to a civil penalty, either in person or by registered or certified mail (return receipt requested). The Federal land manager shall include in the notice:

(1) A concise statement of the facts believed to show a violation;

(2) A specific reference to the provision(s) of this part or to a permit issued pursuant to this part allegedly violated;

(3) The amount of penalty proposed to be assessed, including any initial proposal to mitigate or remit where appropriate, or a statement that notice of a proposed penalty amount will be served after the damages associated with the alleged violation have been ascertained;

(4) Notification of the right to file a petition for relief pursuant to paragraph (d) of this section, or to await the Federal land manager’s notice of assessment, and to request a hearing in accordance with paragraph (g) of this section. The notice shall also inform the person of the right to seek judicial review of any final administrative decision assessing a civil penalty.

(c) The person served with a notice of violation shall have 45 calendar days from the date of its service (or the date of service of a proposed penalty amount, if later) in which to respond. During this time the person may:

(1) Seek informal discussions with the Federal land manager;

(2) File a petition for relief in accordance with paragraph (d) of this section;

(3) Take no action and await the Federal land manager’s notice of assessment;

(4) Accept in writing or by payment the proposed penalty, or any mitigation or remission offered in the notice. Acceptance of the proposed penalty or mitigation or remission shall be deemed a waiver of the notice of assessment and of the right to request a hearing under paragraph (g) of this section.

(d) Petition for relief. The person served with a notice of violation may request that no penalty be assessed or that the amount be reduced, by filing a petition for relief with the Federal land manager within 45 calendar days of the date of service of the notice of violation (or of a proposed penalty amount, if later). The petition shall be in writing and signed by the person served with the notice of violation. If the person is a corporation, the petition must be signed by an officer authorized to sign such documents. The petition shall set forth in full the legal or factual basis for the requested relief.

(e) Assessment of penalty. (1) The Federal land manager shall assess a civil penalty upon expiration of the period for filing a petition for relief, upon completion of review of any petition filed, or upon completion of informal discussions, whichever is later.

(2) The Federal land manager shall take into consideration all available information, including information provided pursuant to paragraphs (c) and (d) of this section or furnished upon further request by the Federal land manager.

(3) If the facts warrant a conclusion that no violation has occurred, the Federal land manager shall so notify the person served with a notice of violation, and no penalty shall be assessed.

(4) Where the facts warrant a conclusion that a violation has occurred, the Federal land manager shall determine a penalty amount in accordance with §296.16.

(f) Notice of assessment. The Federal land manager shall notify the person served with a notice of violation of the penalty amount assessed by serving a written notice of assessment, either in person or by registered or certified mail (return receipt requested). The Federal land manager shall include in the notice of assessment:

(1) The facts and conclusions from which it was determined that a violation did occur;

(2) The basis in §296.16 for determining the penalty amount assessed and/or any offer to mitigate or remit the penalty; and

(3) Notification of the right to request a hearing, including the procedures to be followed, and to seek judicial review of any final administrative decision assessing a civil penalty.

(g) Hearings. (1) Except where the right to request a hearing is deemed to have been waived as provided in paragraph (c)(4) of this section, the person
served with a notice of assessment may file a written request for a hearing with the adjudicatory body specified in the notice. The person shall enclose with the request for hearing a copy of the notice of assessment, and shall deliver the request as specified in the notice of assessment, personally or by registered or certified mail (return receipt requested).

(2) Failure to deliver a written request for a hearing within 45 days of the date of service of the notice of assessment shall be deemed a waiver of the right to a hearing.

(3) Any hearing conducted pursuant to this section shall be held in accordance with 5 U.S.C. section 554. In any such hearing, the amount of civil penalty assessed shall be determined in accordance with this part, and shall not be limited by the amount assessed by the Federal land manager under paragraph (f) of this section or any offer of mitigation or remission made by the Federal land manager.

(h) Final administrative decision. (1) Where the person served with a notice of violation has accepted the penalty pursuant to paragraph (c)(4) of this section, the notice of violation shall constitute the final administrative decision;

(2) Where the person served with a notice of assessment has not filed a timely request for a hearing pursuant to paragraph (g)(1) of this section, the notice of assessment shall constitute the final administrative decision;

(3) Where the person served with a notice of assessment has filed a timely request for a hearing pursuant to paragraph (g)(1) of this section, the decision resulting from the hearing or any applicable administrative appeal therefrom shall constitute the final administrative decision.

(i) Payment of penalty. (1) The person assessed a civil penalty shall have 45 calendar days from the date of issuance of the final administrative decision in which to make full payment of the penalty assessed, unless a timely request for appeal has been filed with a United States District Court as provided in section 7(b)(1) of the Act.

(2) Upon failure to pay the penalty, the Federal land manager may request the Attorney General to institute a civil action to collect the penalty in a United States District Court for any district in which the person assessed a civil penalty is found, resides, or transacts business. Where the Federal land manager is not represented by the Attorney General, a civil action may be initiated directly by the Federal land manager.

(j) Other remedies not waived. Assessment of a penalty under this section shall not be deemed a waiver of the right to pursue other available legal or administrative remedies.

§ 296.16 Civil penalty amounts.

(a) Maximum amount of penalty. (1) Where the person being assessed a civil penalty has not committed any previous violation of any prohibition in § 296.4 or of any term or condition included in a permit issued pursuant to this part, the maximum amount of the penalty shall be the full cost of restoration and repair of archaeological resources damaged plus the archaeological or commercial value of archaeological resources destroyed or not recovered.

(2) Where the person being assessed a civil penalty has committed any previous violation of any prohibition in § 296.4 or of any term or condition included in a permit issued pursuant to this part, the maximum amount of the penalty shall be double the cost of restoration and repair plus double the archaeological or commercial value of archaeological resources destroyed or not recovered.

(3) Violations limited to the removal of arrowheads located on the surface of the ground shall not be subject to the penalties prescribed in this section.

(b) Determination of penalty amount, mitigation, and remission. The Federal land manager may assess a penalty amount less than the maximum amount of penalty and may offer to mitigate or remit the penalty.

(1) Determination of the penalty amount and/or a proposal to mitigate or remit the penalty may be based upon any of the following factors:

(i) Agreement by the person being assessed a civil penalty to return to the Federal land manager archaeological resources removed from public lands or Indian lands;
(ii) Agreement by the person being assessed a civil penalty to assist the Federal land manager in activity to preserve, restore, or otherwise contribute to the protection and study of archaeological resources on public lands or Indian lands;

(iii) Agreement by the person being assessed a civil penalty to provide information which will assist in the detection, prevention, or prosecution of violations of the Act or this part;

(iv) Demonstration of hardship or inability to pay, provided that this factor shall only be considered when the person being assessed a civil penalty has not been found to have previously violated the regulations in this part;

(v) Determination that the person being assessed a civil penalty did not willfully commit the violation;

(vi) Determination that the proposed penalty would constitute excessive punishment under the circumstances;

(vii) Determination of other mitigating circumstances appropriate to consideration in reaching a fair and expeditious assessment.

(2) When the penalty is for a violation on Indian lands, the Federal land manager shall consult with and consider the interests of the Indian landowner and the Indian tribe having jurisdiction over the Indian lands prior to proposing to mitigate or remit the penalty.

(3) When the penalty is for a violation which may have had an effect on a known Indian tribal religious or cultural site on public lands, the Federal land manager should consult with and consider the interests of the affected tribe(s) prior to proposing to mitigate or remit the penalty.

§ 296.18 Confidentiality of archaeological resource information.

(a) The Federal land manager shall not make available to the public, under subchapter II of chapter 5 of title 5 of the United States Code or any other provision of law, information concerning the nature and location of any archaeological resource, with the following exceptions:

(1) The Federal land manager may make information available, provided that the disclosure will further the purposes of the Act and this part, or the Act of June 27, 1960, as amended (16 U.S.C. 469–469c), without risking harm to the archaeological resource or to the site in which it is located.

(2) The Federal land manager shall make information available, when the Governor of any State has submitted to the Federal land manager a written request for information, concerning the archaeological resources within the requesting Governor’s State, provided that the request includes:

(i) The specific archaeological resource or area about which information is sought;

(ii) The purpose for which the information is sought; and

(iii) The Governor’s written commitment to adequately protect the confidentiality of the information.

[49 FR 1027, Jan. 6, 1984; 49 FR 5923, Feb. 16, 1984]

§ 296.19 Report.

(a) Each Federal land manager, when requested by the Secretary of the Interior, will submit such information as is
necessary to enable the Secretary to comply with section 13 of the Act and comprehensively report on activities carried out under provisions of the Act.

(b) The Secretary of the Interior will include in the annual comprehensive report, submitted to the Committee on Interior and Insular Affairs of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate under section 13 of the Act, information on public awareness programs submitted by each Federal land manager under §296.20(b). Such submittal will fulfill the Federal land manager’s responsibility under section 10(c) of the Act to report on public awareness programs.

(c) The comprehensive report by the Secretary of the Interior also will include information on the activities carried out under section 14 of the Act. Each Federal land manager, when requested by the Secretary, will submit any available information on surveys and schedules and suspected violations in order to enable the Secretary to summarize in the comprehensive report actions taken pursuant to section 14 of the Act.

[60 FR 5260, 5261, Jan. 26, 1995]

§296.20 Public Awareness Programs.

(a) Each Federal land manager will establish a program to increase public awareness of the need to protect important archaeological resources located on public and Indian lands. Educational activities required by section 10(c) of the Act should be incorporated into other current agency public education and interpretation programs where appropriate.

(b) Each Federal land manager annually will submit to the Secretary of the Interior the relevant information on public awareness activities required by section 10(c) of the Act for inclusion in the comprehensive report on activities required by section 13 of the Act.

[60 FR 5260, 5261, Jan. 26, 1995]

§296.21 Surveys and Schedules.

(a) The Secretaries of the Interior, Agriculture, and Defense and the Chairman of the Board of the Tennessee Valley Authority will develop plans for surveying lands under each agency’s control to determine the nature and extent of archaeological resources pursuant to section 14(a) of the Act. Such activities should be consistent with Federal agency planning policies and other historic preservation program responsibilities required by 16 U.S.C. 470 et seq. Survey plans prepared under this section will be designed to comply with the purpose of the Act regarding the protection of archaeological resources.

(b) The Secretaries of the Interior, Agriculture, and Defense and the Chairman of the Tennessee Valley Authority will prepare schedules for surveying lands under each agency’s control that are likely to contain the most scientifically valuable archaeological resources pursuant to section 14(b) of the Act. Such schedules will be developed based on objectives and information identified in survey plans described in paragraph (a) of this section and implemented systematically to cover areas where the most scientifically valuable archaeological resources are likely to exist.

(c) Guidance for the activities undertaken as part of paragraphs (a) through (b) of this section is provided by the Secretary of the Interior’s Standards and Guidelines for Archeology and Historic Preservation.

(d) Other Federal land managing agencies are encouraged to develop plans for surveying lands under their jurisdictions and prepare schedules for surveying to improve protection and management of archaeological resources.

(e) The Secretaries of the Interior, Agriculture, and Defense and the Chairman of the Tennessee Valley Authority will develop a system for documenting and reporting suspected violations of the various provisions of the Act. This system will reference a set of procedures for use by officers, employees, or agents of Federal agencies to assist them in recognizing violations, documenting relevant evidence, and reporting assembled information to the appropriate authorities. Methods employed to document and report such violations should be compatible with existing agency reporting systems for
documenting violations of other appropriate Federal statutes and regulations. Summary information to be included in the Secretary’s comprehensive report will be based upon the system developed by each Federal land manager for documenting suspected violations.

PART 297—WILD AND SCENIC RIVERS

Subpart A—Water Resources Projects

Sec.
297.1 General.
297.2 Scope and application.
297.3 Definitions.
297.4 Requirements for Federal agencies.
297.5 Determination.
297.6 Environmental analysis requirements.

Subpart B—[Reserved]

AUTHORITY: 16 U.S.C. 551, 1278(c), 1281(d).

Subpart A—Water Resources Projects

§ 297.1 General.

Section 7 of the Wild and Scenic Rivers Act (16 U.S.C. 1278), as amended, provides for the protection of the free-flowing, scenic, and natural values of rivers designated as components or potential components of the National Wild and Scenic Rivers System from the effects of construction of any water resources project.

§ 297.2 Scope and application.

These rules apply to Federal assistance in the construction of water resources projects affecting Wild and Scenic Rivers or Study Rivers administered in whole or part by the Secretary of Agriculture.

§ 297.3 Definitions.

Construction means any action carried on with Federal assistance affecting the free-flowing characteristics or the scenic or natural values of a Wild and Scenic River or Study River.

Federal assistance means any assistance by an authorizing agency including, but not limited to, the following:

(a) A license, permit, preliminary permit, or other authorization granted by the Federal Energy Regulatory Commission pursuant to sections 4(e) and 4(f) of the Federal Power Act, 16 U.S.C. 797;

(b) A license, permit, or other authorization granted by the Corps of Engineers, Department of the Army, pursuant to the Rivers and Harbors Act of 1899 (33 U.S.C. 401 et seq.), and section 404 of the Clean Water Act (33 U.S.C. 1344); and,

(c) Any other license, permit, or authorization which may be required by an agency or Department of the Federal Government before, during, or after construction of a water resources project.

Free-flowing is defined by section 16(b) of the Act as “existing or flowing in natural condition without impoundment, diversion, straightening, riprapping, or other modification of the waterway” (16 U.S.C. 1287(b)).

Study period means the time during which a river is being studied as a potential component of the Wild and Scenic Rivers System and such additional time as provided in section 7(b)(ii) of the Act not to exceed 3 additional years during which a report recommending designation is before the Congress, or such additional time as may be provided by statute.

Study river means a river and the adjacent area within one quarter mile of the banks of the river which is designated for study as a potential addition to the National Wild and Scenic Rivers System pursuant to section 5(a) of the Act.

Water resources project means any dam, water conduit, reservoir, powerhouse, transmission line, or other project works under the Federal Power Act (41 Stat. 1063) as amended, or other construction of developments which would affect the free-flowing characteristics of a Wild and Scenic River or Study River.

Wild and scenic river means a river and the adjacent area within the
§ 297.4 Requirements for Federal agencies.
(a) No license, permit, or other authorization can be issued for a Federally assisted water resources project on any portion of a Wild and Scenic River or Study River nor can appropriations be requested to begin construction of such projects, without prior notice to the Secretary of Agriculture, and a determination in accordance with section 7 of the Act.
(b) As soon as practicable, but no less than 60 days prior to the date of proposed action, the Federal agency shall provide a notice of intent to issue such license, permit, or other authorization to the Chief, Forest Service, U.S. Department of Agriculture, P.O. Box 2417, Washington, DC 20013. The Secretary will, to the extent possible, give expedited consideration to a notice of intent for a project needed to address an emergency situation.
(c) The notice shall include the following information:
(1) Name and location of affected river;
(2) Location of the project;
(3) Nature of the permit or other authorization proposed for issuance;
(4) A description of the proposed activity; and
(5) Any relevant information, such as plans, maps, and environmental studies, assessments, or environmental impact statements.

§ 297.5 Determination.
(a) The Secretary of Agriculture will consent to the issuance of any Federal license, permit, or other authorization if, as a finding of fact, it is determined that:
(1) The water resources project will not have a direct and adverse effect on the values for which a Wild and Scenic River or Study River was designated, when any portion of the project is within the boundaries of said river, or;
(2) The effects of the water resources project will neither invade nor unreasonably diminish the scenic, recreational, and fish wildlife values of a Wild and Scenic River, when any portion of the project is located above, below, or outside the Wild and Scenic River, or;
(3) The effects of the water resources project will neither invade nor diminish the scenic, recreational, and fish and wildlife values of a Study River when the project is located above, below, or outside the Study River during the study period.
(b) If consent is denied, the Secretary may recommend measures to eliminate adverse effects, and the authorizing agencies may submit revised plans for consideration.

§ 297.6 Environmental analysis requirements.
(a) The determination of the effects of a proposed water resources project shall be made in compliance with the National Environmental Policy Act (NEPA). To the extent possible, authorizing agencies should ensure that any environmental studies, assessments, or environmental impact statements prepared for a water resources project adequately address the environmental effects on resources protected by the Wild and Scenic Rivers Act, and that the Department of Agriculture is apprised of ongoing analyses so as to facilitate coordination and identification of Wild and Scenic River related issues.
(b) To the extent practicable, impacts on Wild and Scenic River values will be considered in the context of other review procedures provided by law. Authorizing agencies are encouraged to consult with the Forest Service in order to identify measures which could eliminate any direct and adverse effects, thereby increasing the likelihood of securing consent.

Subpart B—[Reserved]

PARTS 298—299 [RESERVED]
A list of CFR titles, subtitles, chapters, subchapters and parts and an alphabetical list of agencies publishing in the CFR are included in the CFR Index and Finding Aids volume to the Code of Federal Regulations which is published separately and revised annually.
